- Q *Where might you add an image and a caption in your report? How would this help the reader understand and enjoy your report?*
- Q *What can you write in your introduction to make your reader want to keep reading?*

Document your observations for each student on a separate “Conference Notes: Focus 2” record sheet (CN2); see page 95 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Confer in Pairs About Drafts

Ask partners to read to each other what they have written today and to make sure they each understand what the other has written. Give them time to clarify any confusion in their writing. Briefly discuss:

**Q** *What type of introduction did you decide to write? How did you share the work of writing it?*

### 6 Reflect on Partner Work

Ask and briefly discuss:

**Q** *Did you and your partner disagree about anything today? If so, what did you do to reach agreement?*

Explain that tomorrow each pair of students will think about writing an ending for their report and will finish drafting their draft. Have partners put all the papers related to their informational report in their folder.

---

## EXTENSION

### Explore Strong Opening Sentences for Subtopics

Remind the students that the opening sentences of a piece of writing need to capture their readers' attention, making them want to keep reading. Review that informational reports are usually divided into sections, with each section featuring a different subtopic. Explain that good nonfiction writers pay attention to the opening sentences of each section, making them as interesting as possible so that readers will want to read about each subtopic.

Read the opening sentences from a few chapters of *A Pack of Wolves and Other Canine Groups* (for example, you might read the opening sentences on pages 6, 12, 16, 22, and 30). Discuss as a class what the author does in these opening sentences to make the reader curious to learn more. Then have the students revise the opening sentences of their subtopics, as needed, in order to grab their readers' attention.

## In this lesson, the students:

- Explore endings that bring a report to a close
- Finish drafting their informational reports
- Reach agreement before making decisions
- Check each other's writing for understanding
- Give feedback in a helpful way

## GETTING READY TO WRITE

### 1 Analyze Closing Sentences

Have the students bring their *Student Writing Handbooks*, folders, and pencils and gather with partners sitting together, facing you. Explain that today you will ask them to think about an important feature of informational reports: endings that bring a report to a close.

Explain that the closing sentences of a piece of writing need to wrap up the piece. Explain that you will read the closing sentences from the book *Reptiles*, which they heard earlier, and ask them to think about how the author brings the book to a close.

Show and read page 22 of *Reptiles* aloud; then ask and briefly discuss:

- Q *What does the author do to wrap up this book?*
- Q *What words or phrases show you that you have reached the end of the book?*

#### Students might say:

"The author gives a summary of some of the things he wrote about in the book."

"He also mentions the different kinds of reptiles in the book."

"He says that reptiles are 'natural treasures to be admired, not feared.' He is saying how he feels about reptiles. That shows the book is ending."

Have the students open their *Student Writing Handbooks* to page 12, where the closing sentences of three informational reports are reproduced. At the same time, display the "Closing Sentences from Three Informational Reports" chart (WA18). Explain that these are the closing sentences from three informational reports written by students. Together, read the first passage and ask:

- Q *What does the author do to wrap up this report?*
- Q *What words or phrases show you that you have reached the end of the report?*

## Materials

- *Reptiles* from Week 1
- *Student Writing Handbook* page 12

- "Writing Time" chart (WA19)
- Loose, lined paper for writing drafts

### TEKS 11.B.ii

Student/Teacher Activity Step 1 (all, beginning on page 441 and continuing on to page 442)

## Teacher Note

Words or phrases the students might report include:

- “I hope that you have enjoyed reading about” (from Tamar’s report)
- “As you have learned” (from Caleb’s report)
- “I think they will be here for millions more” (from Ana’s report)

Student/Teacher Activity  
Steps 2–4 (all, beginning  
on page 442 and  
continuing on to page 443)

As volunteers respond, underline on the chart the words and phrases they mention.

Ask the students to work in pairs to read the remaining closing sentences and underline words and sentences that they feel are especially effective at wrapping up the reports.

After several minutes, signal for the students’ attention. Ask volunteers to report what they talked about for each of the closings, and underline on the chart the words and phrases they mention. As they report, ask:

**Q** *How does that [word/sentence] help wrap up the story?*

## 2 Discuss How Partners Will Work Together

Explain that today each pair of students will decide what to write as their closing sentences, discuss how they will share the work of writing them, and write them. If they have not finished drafts for all of their subtopics, they will do that too.

Ask partners to spend a few minutes discussing what they want to accomplish today.

## WRITING TIME

### 3 Finish Drafting Informational Reports

Display the “Writing Time” chart (WA19). Have partners sit together at desks and work on the charted tasks for 20–30 minutes.

WA19

#### Writing Time

- Decide what you will write to wrap up your report.
- Write your closing sentences.
- Finish writing the draft of your report.

As the students work, circulate, observe, and offer assistance. When pairs seem to be working independently, confer with one pair at a time.

## TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about their drafts. Ask partners to read their drafts aloud and to tell you their plan for their report. Ask questions such as:

- Q *What did you write in your pre-research writing that you want to include in your draft?*
- Q *What questions did you originally write that you will answer in your draft?*
- Q *How did you group and order your notes? What made you decide to organize them that way?*
- Q *What is a fact, detail, or definition that would help your reader learn about [how gorillas take care of their young]?*
- Q *What transitional word or phrase might you use to help the reader move from this idea to the next one?*
- Q *Where might you add an image and a caption in your report? How would this help the reader understand and enjoy your report?*
- Q *What can you write in your introduction to make your reader want to keep reading?*
- Q *What closing sentences can you write to wrap up your report?*

Document your observations for each student on a separate “Conference Notes: Focus 2” record sheet (CN2); see page 95 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Confer in Pairs and Reflect

Have partners read their writing from today to each other and check to make sure each of them understands what the other has written. Give them time to clarify any confusion in their writing. Ask and briefly discuss:

- Q *What did you decide to write in your closing sentences? How did you share the work of writing them?*
- Q *Did you and your partner disagree about anything today? If so, what did you do to reach agreement?*

Explain that tomorrow partners will begin to revise their drafts. Have them put all the papers related to their informational report in their folder.

### Teacher Note

If many pairs still need time to finish writing their drafts, give them an opportunity to do this before moving on to Day 4.

### Materials

- “Revising Informational Reports” chart, prepared ahead
- The model draft on the lined writing chart (WA12) from Day 2
- The charted introduction to the model draft from Day 2
- Lined chart paper and a marker
- Loose, lined paper for writing drafts

**TEKS 11.B.ii**

Student/Teacher Narrative

Step 1 (all, beginning on page 444 and continuing on to page 445)

### In this lesson, the students:

- Check their drafts for order, interest, and completeness
- Share the work fairly
- Work responsibly in pairs
- Discuss and solve problems that arise in their work together

## GETTING READY TO WRITE

### 1 Model Analyzing and Revising a Draft

Have the students bring their folders and pencils and gather with partners sitting together, facing you. Explain that today partners will reread their drafts to see what they need to add or change to improve them.

Explain that you want to check three things about your draft today. Direct the students’ attention to the “Revising Informational Reports” chart (see “Do Ahead” on page 431) and read the listed items aloud. Explain that you would like the students’ feedback to help you revise your draft. Explain that you will read your draft aloud as the students think about the three listed items. Post your charted introduction and display the model draft on the lined writing chart (WA12) from Day 2 and read it aloud.

### Revising Informational Reports

*Order: Does the order of information make sense? How might I change it?*

*Interest: What might I change to better capture my reader’s interest?*

*Completeness: What more do I need to add so the report gives enough information about the animal?*

Use “Think, Pair, Share” to discuss each of these three aspects. Revise your draft based on the students’ suggestions and your own thinking.

**You might say:**

"I originally thought that after my introduction I would write about the physical characteristics of dolphins first. But now I think that it might make more sense to put the information about their habitat first so readers know where dolphins live in the world. Knowing that information would be useful to readers as they read the rest of my report."

## 2 Analyze Drafts

Ask the students to silently read their drafts, thinking about the three questions related to order, interest, and completeness. Once most students have finished reading, ask partners to talk with each other about their thinking, discussing the changes and additions that they might make.

After a few minutes, signal for the students' attention and discuss:

- Q *What did you and your partner discuss about the order of the information in your report?*
- Q *What do you plan to add to your draft? Why?*

## 3 Discuss How Partners Will Work Together

Explain that today partners will make the changes and additions they have discussed.

Ask partners to spend a few minutes deciding what they want to accomplish today and how they will share the work fairly.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Partner Work

Ask and briefly discuss:

- Q *How did you and your partner take responsibility for your own parts of the work today?*
- Q *What problems did you have? What will you do tomorrow to avoid those problems?*

Explain that each pair of students will get feedback from another pair tomorrow. Have them put all the papers related to their informational reports into their folders.

# WRITING ABOUT READING

## Write Opinions About a Nonfiction Text

Remind the students that they have heard and read a great deal of nonfiction about animals over the past several weeks. Ask:

**Q** *What might a good informational book or report about an animal include?*

As volunteers share, list their ideas where everyone can see them.

Explain that you will reread the book *Reptiles*. Ask the students to think as they listen about which items on the chart the book includes. Read the book aloud and stop periodically during the reading to have the students discuss the items they notice.

Explain that you would like the students to write an opinion piece about whether or not they think a particular nonfiction book is well written. Refer to the list you just created and explain that one way of forming an opinion about a book is to consider whether it includes the characteristics or features that good informational books and reports about animals usually include. Ask the students to watch as you think aloud and model writing an opinion about *Reptiles*. Be sure to support your opinion with information and features from the book and with information from the list the class just made.

### You might say:

"In my opinion, *Reptiles* is a very good example of informational text about a type of animal. I'll start by writing: *I think that the book Reptiles by Tom Greve is a very good example of an informational text about a type of animal.* Notice that I stated my opinion and put the book's title and the author's name in the opening sentence. Now I need to explain my thinking, using facts and details. I'll write: *Greve gets the reader's attention right away with big photos of different reptiles. Each photo has an interesting caption. The writing is clear and easy to understand because Greve defines words that the reader might not know.* Now I'll add another detail I noticed about the book: *The writing is fun to read, too. For example, Greve uses lively phrases like 'cold-blooded crawlers' and 'nature's magicians' to describe reptiles.* Another reason I think this book is a good example of informational text is because it's well organized. I'll try writing about some details that prove how well it's organized: *Reptiles is also well organized. For example, the book has a table of contents that lists the chapters. Each chapter has its own title so that readers will not get confused. At the end, there's a useful glossary, an index, and a list of websites for more information.* Now I need some closing sentences to wrap up my opinion piece. I'll write: *I really enjoyed reading this book. It was interesting and I learned a lot. If you are curious about reptiles, you should definitely check it out.*"

Tell the students that people may differ about how well written they think a particular published work is, and that is fine. The important thing is that they explain their thinking by using facts and details from the piece and information from the list the class just made. Invite the students to write about *Reptiles* or any of the other nonfiction texts read

Writing About Reading  
(all, beginning on page 447 and  
continuing on to page 448)

### Materials

- Read-aloud books from Weeks 1–2
- Collected nonfiction texts

### Teacher Note

If the students have difficulty generating ideas, think aloud about what the class has learned about expository nonfiction, and add the items you mention to the list. The list does not need to be exhaustive or perfectly mirror the following list, but it should include several of these items:

- Clear, interesting writing
- Illustrations, photos, captions
- Table of contents
- Glossary
- Subtopics with titles
- Subtopics organized in a way that makes sense
- Facts, details, or definitions related to the topic
- Transitional words and phrases that help the reader connect ideas
- Strong opening sentences that grab the reader's attention
- Ending that brings a report to a close
- Introduction
- Absence of punctuation, spelling, and grammar mistakes

aloud earlier in the unit or that they have read for their own research. Give them time to browse the titles, select a text, and reread it.

When all of the students have selected and reread their texts, explain that they should each start their opinion piece with an opening sentence that states their opinion and includes the title of the text and the author's name, give a reason for their opinion and a fact or detail to support their reason, and provide a closing sentence that wraps up their writing. Have the students write about their opinions. If time permits, invite the students to share their opinions with the class.

# Day 5

## Group Conferencing

### Materials

- “Does It All Make Sense?” chart, prepared ahead
- The model draft on the lined writing chart (WA12) from Day 4
- The charted introduction to the model draft from Day 4
- “Class Assessment Record” sheet (CA8)

### In this lesson, the students:

- Ask for and receive feedback about their writing
- Give feedback in a helpful way
- Ask one another questions about their writing
- Discuss and solve problems that arise in their work together
- Finish drafting their informational reports
- Include one another and contribute to group work

## GETTING READY TO WRITE

### 1 Prepare for Group Conferences

Have the students bring their folders and pencils and gather with partners sitting together, facing you. Explain that today each pair will meet with another pair to confer about their informational reports in groups of four (see “Do Ahead” on page 431). They will share their drafts and get feedback from the other pair about anything that is confusing or unclear. Then each pair of students will make any necessary revisions until they are convinced that their report makes sense and is complete.

Remind the students that, in the writing community, the goal of giving feedback is to help each person create the best possible piece of writing. In pairs, and then as a class, discuss:

**Q** *What have you learned about giving feedback respectfully? Turn to your partner.*

**Q** *What problems can arise when giving feedback? How will you avoid those problems today? Turn to your partner.*

## 2 Prepare to Give Feedback: Does It All Make Sense?

Explain that, as the students listen to one another's writing, you would like them to ask themselves three questions. Direct the students' attention to the "Does It All Make Sense?" chart (see "Do Ahead" on page 431) and read the questions aloud.

### Does It All Make Sense?

*Does this writing make sense? Can I track what the author is saying?*

*Is there a place where I am confused? Where?*

*What have I heard in this report that makes me curious?*

Post the charted introduction and display the model draft on the lined writing chart (WA12) from Day 4. Help the students practice giving feedback about these three questions by reading your draft aloud, including your revisions. Use "Think, Pair, Share" to have partners consider and discuss the three questions about your draft. Then ask a few volunteers to give you feedback about your draft using the three questions.

Encourage the students to listen carefully to their group members when conferring and to be ready to report the feedback they heard to the class.

## 3 Confer in Groups

Have pairs move into the groups of four you have assigned. Give them ample time to read aloud their drafts and confer. As they work, circulate, observe, and offer assistance.

### CLASS ASSESSMENT NOTE

Circulate among conferring groups of four. Observe the students and ask yourself:

- Are groups staying on task, reading and discussing their writing?
- Are group members asking one another questions about their drafts?
- Are they giving each other feedback in a helpful and respectful way?

Make note of any problems you notice groups having to bring up during the reflection discussion.

Record your observations on the "Class Assessment Record" sheet (CA8); see page 91 of the *Assessment Resource Book*.

When most groups have had time to discuss their drafts, call for the class's attention.

#### **4** Reflect on Feedback Received

Ask and briefly discuss as a class:

**Q** *What did the members of your group do to be respectful during your conference?*

Remind the students that authors pay close attention to feedback about what is unclear or confusing in their writing. Although authors might not follow every suggestion they receive, the feedback helps them improve their work until it is the best piece of writing possible. Use “Think, Pair, Share” to discuss:

**Q** *What feedback did you hear today that you might use when you rewrite your draft? [pause] Turn to your partner.*

**Q** *What feedback do you want to think more about before deciding whether to use it or not? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class.

#### **5** Discuss How Partners Will Work Together

Explain that today partners will work together to make any agreed-upon revisions and reread their drafts to make sure they are as clear, interesting, and complete as they can be.

Ask partners to spend a few minutes deciding what they want to accomplish today and how they will share the work.

## WRITING TIME

#### **6** Revise Informational Reports

Have partners sit together at desks and work for 20–30 minutes to make the changes and additions they discussed and finish their drafts. As they work, circulate, observe, and offer assistance. When pairs seem to be working independently, confer with one pair at a time.

## TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about their drafts. Ask partners to read their drafts aloud and to tell you their plan for their report. Ask questions such as:

- Q *What did you write in your pre-research writing that you want to include in your draft?*
- Q *What questions did you originally write that you will answer in your draft?*
- Q *How did you group and order your notes? What made you decide to organize them that way?*
- Q *What is a fact, detail, or definition that would help your reader learn about [how gorillas take care of their young]?*
- Q *What transitional word or phrase might you use to help the reader move from this idea to the next one?*
- Q *Where might you add an image and a caption in your report? How would this help the reader understand and enjoy your report?*
- Q *What can you write in your introduction to make your reader want to keep reading?*
- Q *What closing sentences can you write to wrap up your report?*
- Q *How might you revise your report so it [makes sense/captures your reader's interest/gives enough information]?*

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 95 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 7 Briefly Reflect on Writing

Help the students reflect on their work today by briefly discussing:

- Q *What feedback did you incorporate into your draft today? Tell us about it.*

Explain that pairs will publish the final versions of their reports next week. Have partners put all the papers related to their informational report in their folder.

### Teach Cooperative Structures for Group Work

Look for opportunities throughout the school day for students to work in groups of four (or three or five, if necessary). Two cooperative structures you can teach them to use during group work are “Heads Together” and “Group Brainstorming” (see “Cooperative Structures” on page xxx). Group work can be more challenging for students than pair work. Take time to discuss any problems that arise, in addition to noting how well group members are including one another and contributing responsibly to the work.

# Week 6

## OVERVIEW

### Writing Focus

- Students proofread for spelling, grammar, and punctuation errors.
- Students write final versions of their informational reports.
- Students write tables of contents.
- Students present their informational reports to the class from the Author's Chairs.
- Students confer with one another and the teacher.

### Social Development Focus

- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students express interest in and appreciation for one another's writing.
- Students give their full attention to the person who is speaking.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA20–WA24

#### Assessment Forms

- “Class Assessment Record” sheets (CA9–CA10)
- “Individual Writing Assessment” record sheet (IA1)
- “Student Self-assessment” record sheet (SA1)

#### Reproducible

- Expository Nonfiction genre unit family letter (BLM1)

#### Professional Development Media

- “Using Presentation Tools” tutorial (AV77)

## DO AHEAD

- ✓ Prior to Day 1, decide how the students will publish their final versions for the class library. For example, each pair of students might make a book (see “Tips for Managing the Program in Your Classroom” on page xli), a poster with the final version attached to it, or a multimedia presentation (see the technology extension “Create Multimedia Presentations” on page 459; also see Technology Mini-lesson 8, “Creating Presentations,” in Appendix A). Gather any necessary materials.
- ✓ Prior to Day 1, locate books with tables of contents in your collected nonfiction texts about animals to show as examples.
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA9) on page 92 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA10) on page 93 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student’s published piece.
- ✓ (Optional) If computers are available, you might have some students type and print out their drafts. You may want to recruit parent volunteers to help the students do so. In addition, you might teach Technology Mini-lesson 7, “Creating Documents,” in Appendix A.

## TEACHER AS WRITER

*“I get pieces, flashes of an idea, an image, and I won’t know what it means, but I’ll be fascinated by it. It’s all there in that first instant—it’s complete—but all I know is the wonder and the curiosity.”*

— Mekeel McBride

Think about the informational report you wrote as a model for the students over the past few weeks. What have you learned about the animal you wrote about? What surprised you? What are you curious about now? Write your reflections in your notebook.

# Day 1

## Revising and Proofreading

### Materials

- “Nonfiction Passages with Run-on Sentences” chart (WA20)
- *Student Writing Handbooks*
- “Writing Time” chart (WA21)
- Loose, lined paper for final versions
- “Class Assessment Record” sheet (CA9)

### In this lesson, the students:

- Proofread for spelling and punctuation
- Listen for run-on sentences as they read their drafts aloud
- Begin writing their final versions
- Reach agreement before making decisions
- Share the work fairly

## GETTING READY TO WRITE

### 1 Prepare to Proofread First Drafts

Have partners get their folders, pencils, and *Student Writing Handbooks* and sit together at desks today. Remind the students that last week they completed the first drafts of their informational reports and began to revise them. Today each pair of students will continue to revise their draft and proofread it to be sure they have corrected all errors before publishing it. This will help their classmates easily read and understand it.

Remind the students that they learned to proofread their drafts for spelling and punctuation using the Word Bank and Proofreading Notes sections in the *Student Writing Handbook*. Explain that they will use these resources today to proofread their informational reports.

### 2 Discuss Proofreading for Spelling

Ask the students to begin rereading their drafts (even if they are not finished with them) and circle any words that they are not sure how to spell. Stop the students after a couple of minutes and ask:

**Q** *What words have you circled so far?*

Have a few volunteers report the words they circled. Have the students check their word banks to see if the words they circled are listed. If not, encourage them to check the spelling by another method during Writing Time today and to make sure they add the correctly spelled word to their word banks. The students can check the spelling of a word by asking you or another student, finding the word in a published book, or looking it up in a print or an online dictionary.

### 3 Discuss Proofreading for Run-on Sentences

Remind the students that their proofreading notes are a checklist of things to pay attention to when they proofread their drafts. Ask:

**Q** *What is listed in your proofreading notes that you will check for in your draft today?*

Point out that, in addition to checking for the rules already listed in their proofreading notes, such as capital letters at the beginnings of sentences and proper nouns (nouns that name a specific person, place, or thing), the students should also check for run-on sentences. If necessary, explain that a *run-on sentence* is usually made of two or more complete sentences that have been “run together” without a conjunction (connecting word) such as *or*, *and*, *so*, or *but*. Point out that run-on sentences often look like really long sentences.

Display the “Nonfiction Passages with Run-on Sentences” chart (WA20). Ask the students to watch and listen as you read the first passage aloud, pausing only at the comma and the periods. Ask:

- Q *What did you notice about the way the passage sounded when I read it?*
- Q *What run-on sentences do you notice in the passage?*

**Students might say:**

“It doesn’t sound right.”

“In addition to what [Neal] said, some of the sentences sound funny—like they go on too long.”

“I noticed a sentence that sounded like it might be two sentences squished together. It was confusing.”

If necessary, point out that right now the passage does not sound right when it is read aloud because it contains two run-on sentences. Model rereading the passage while thinking aloud about how to split the run-ons into several complete sentences, capitalizing the first word in each new sentence and adding a period at the end. Invite the students to help you.

**You might say:**

“Some of us think that the first sentence is a run-on. I agree. I can hear it when I read ‘Bats are the only mammals that can fly mammals are animals with hair or fur.’ There are actually two complete thoughts (and two complete sentences) squished together in that run-on: the first complete thought is ‘Bats are the only mammals that can fly.’ The second complete thought is ‘mammals are animals with hair or fur.’ I’ll put a period after the word *fly* and capitalize the next word, *mammals*. The following sentence sounds right. It’s a complete thought and a complete sentence all by itself, so I’ll leave it alone. I hear some of us saying that the third sentence is a run-on. I can hear it when I read ‘Some bats are big, and some are small big bats are called megabats.’ That sounds like two sentence squished together. One suggestion I heard was that I put a period between the word *small* and the sentence ‘big bats are called megabats.’ I will also remember to capitalize the *B* in *big*.”

Follow this same procedure with the second passage on the “Nonfiction Passages with Run-on Sentences” chart.

## 4 Discuss How Partners Will Work Together

Review that the students will proofread their drafts for spelling and punctuation using their word banks and proofreading notes in their

### Skill Practice Note

The students will have more opportunities to proofread for spelling and to recognize run-on sentences in the other genre units. For more practice producing complete sentences and correcting run-on sentences, see Lesson 1 and Lesson 2 in the *Skill Practice Teaching Guide*.

*Student Writing Handbooks*. Then they will read their drafts aloud and listen for any run-on sentences. They should split run-ons into two or more complete sentences. Remind them to capitalize the first word of each complete sentence and to add a period at the end. If they finish, they should begin copying their final drafts on loose, lined paper.

Ask partners to spend a few minutes discussing what they will work on today and how they will share the work fairly.

## WRITING TIME

### 5 Proofread and Write Final Versions

Display the “Writing Time” chart (WA21) and have the students work on the charted tasks for 20–30 minutes.

#### Writing Time

- Proofread your draft for spelling and punctuation.
- Check for run-on sentences.
- If you finish proofreading, begin copying your final version on loose, lined paper.

WA21

As the students work, circulate and observe, assisting as needed.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners working together fairly to write a final version of their informational report?
- Are they catching and correcting spelling, grammar, and punctuation errors?

Support any pair that struggles by asking questions such as:

- Q *What is each of you responsible for accomplishing?*
- Q *Is the way you are sharing the work fair? Why or why not?*
- Q *What can you do to share the work fairly?*
- Q *Why is it important that both of you do your part of the work on this project?*

Record your observations on the “Class Assessment Record” sheet (CA9); see page 92 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Reflect on Proofreading

Briefly discuss questions such as:

- Q *What corrections did you make when you proofread your draft?*
- Q *What words did you find in your word bank? How did you check on words that were not in the word bank?*
- Q *Who found errors using your proofreading notes? Tell us about them.*

Have partners put all the papers related to their informational report in their folder.

## TECHNOLOGY EXTENSION

### Create Multimedia Presentations

Have the students develop their informational reports into multimedia presentations. Begin by discussing the various types of multimedia the students might incorporate into their reports (for example, images, video, audio, or animations) and the ways that multimedia can make a report more informative and engaging. Then have the students work in pairs to determine how to present their reports visually.

For additional support, see Technology Mini-lesson 8, “Creating Presentations,” in Appendix A.

### Technology Tip

For more information about presenting reports visually and using presentation applications, view the “Using Presentation Tools” tutorial (AV77).

## Proofreading

## Day 2

### In this lesson, the students:

- Proofread for sentence fragments
- Write their final versions
- Add illustrations and captions
- Reach agreement before making decisions
- Share the work fairly

## GETTING READY TO WRITE

### 1 Prepare to Proofread First Drafts

Have the students get their folders and pencils and sit at desks with partners together. Explain that the students will begin copying their first

### Materials

- “Nonfiction Passages with Sentence Fragments” chart (WA22)
- “Writing Time” chart (WA23)
- Supply of loose, lined paper for final versions
- Unlined paper for images
- (Optional) Computers for typing and printing final versions

**TEKS 11.C.iii**  
Student/Teacher Narrative  
Step 2 (all, beginning on  
page 460 and continuing on  
to page 461)

drafts into final versions. Before this step, they will take time to proofread their writing for one more thing to make sure that it is free from errors.

## 2 Discuss Proofreading for Sentence Fragments

Tell the students that they will proofread their drafts today to see if they have any *sentence fragments*, or incomplete sentences. Explain that many sentence fragments can be identified because they do not have a *subject* that tells who or what a sentence is about or a *predicate* that tells what the subject does or did (or both). Point out that incomplete sentences should be changed to form complete sentences.

Display the “Nonfiction Passages with Sentence Fragments” chart (WA22). Ask the students to watch and listen as you read the first passage aloud. Ask:

- Q *What did you notice about the way the passage sounded when I read it?*
- Q *What sentence fragments, or incomplete sentences, do you see in the passage?*

### Students might say:

“It doesn’t sound right.”

“In addition to what [Trevor] said, some of the sentences sound funny—like something is missing.”

If necessary, point out that right now the passage does not sound right when read aloud because it contains several sentence fragments. Model rereading the passage and thinking aloud about how to transform the fragments into complete sentences or combine them with other complete sentences.

### You might say:

“‘Coyotes live in North America’ is a complete sentence. It has a subject and a predicate. But ‘And Central America’ is a sentence fragment. The fragment tells another place where coyotes live, so I’ll add it to the complete sentence that came just before. Now the revised sentence is: *Coyotes live in North America and Central America*. That sounds good and is a complete sentence. The next sentence is complete and is a complete thought. It has a subject, *They*, and a predicate, *look similar to wolves but are smaller*. The sentence after that is complete, ‘Coyotes live in packs.’ However, I think that ‘Led by a breeding pair’ is a fragment. Since this fragment tells more about packs, I’ll delete the period, make the *l* in *led* lowercase, and add *led by a breeding pair* to the sentence that comes before. The next sentence about male and female cubs is a complete thought, I think, as is the one after that. But look at the sentence that begins ‘Such as mice and lizards . . .’ That is not complete. Mice and lizards are examples of the small prey coyotes eat, so I’ll add this fragment to the sentence that comes before. The final sentence is a complete sentence.”

Follow this same procedure with the second passage on the “Nonfiction Passages with Sentence Fragments” chart.

### 3 Discuss How Partners Will Work Together

Explain that during Writing Time, the students will reread their drafts and look for sentence fragments. They should change any fragments into complete sentences or combine them with other complete sentences. Then the students should continue writing their final versions. If they finish, they may add images and captions to their reports.

Ask partners to spend a few minutes discussing what they will work on today and how they will share the work fairly.

## WRITING TIME

### 4 Proofread and Write Final Versions

Display the “Writing Time” chart (WA23) and have partners work on the charted tasks for 20–30 minutes. As they work, circulate, observe, and offer assistance.

#### Writing Time

- Proofread your draft for sentence fragments.
- Write your final version on loose, lined paper.
- If you finish, add images and captions.

WA23

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Proofreading

Ask and briefly discuss:

**Q** *What corrections did you make when you proofread your draft?*

Have partners put all the papers related to their informational report in their folder.

### Skill Practice Note

For more practice using subjects and predicates and recognizing and correcting fragments, see Lesson 1 and Lesson 2 in the *Skill Practice Teaching Guide*.

#### TEKS 11.C.iii

Student/Teacher Activity  
Step 4 and Step 5 (all)

### Materials

- *A Pack of Wolves and Other Canine Groups* from Week 1
- Other nonfiction books about animals with tables of contents
- Loose, lined paper for final versions
- Unlined paper for illustrations
- Materials for publishing informational reports
- “Writing Time” chart (WA24)
- “Class Assessment Record” sheet (CA10)
- (Optional) Computers for typing and printing final versions

### In this lesson, the students:

- Explore and develop tables of contents
- Finish writing their final versions
- Reach agreement before making decisions
- Share the work fairly

## GETTING READY TO WRITE

### 1 Explore Tables of Contents

Have the students bring their folders and gather with partners sitting together, facing you. Remind them that they have been proofreading their reports and writing their final versions. Explain that this week they will publish their reports. They will share the reports from the Author’s Chairs and then take the reports home to show their families before placing them in the class library.

Remind the students that the purpose of their informational reports is to help their classmates become interested in and curious about the animals they selected to research. Explain that authors spark their readers’ curiosity and help them know what is in a book by providing a table of contents. Show and read aloud the table of contents on page 3 in *A Pack of Wolves and Other Canine Groups*. Ask and briefly discuss:

**Q** *What do you notice about how this table of contents is organized?*

**Q** *How might this table of contents help a reader?*

Point out that the table of contents in *A Pack of Wolves and Other Canine Groups* lists the headings for each chapter of the book, beginning with “Welcome to the Pack!” It also lists some special features at the end, such as a “Fact File,” a glossary, a section listing books, websites, and other resources where readers can find out more information, and an index.

Show the tables of contents in several of the other nonfiction books in your collection, and discuss how they are organized. Note that some use the title “Table of Contents,” while others use “Contents.” Point out that chapter headings are listed along with their page numbers in the order they appear in the book, and special features are often listed at the end.

Explain that each pair of students will work together to include a table of contents with their informational report. Use “Think, Pair, Share” to discuss:

**Q** *What chapter headings might you and your partner include in your table of contents? [pause] Turn to your partner.*

Signal for the students' attention and have a few pairs share their thinking with the class. Explain that before partners can complete their table of contents, they need to finish writing their final draft so that they will know the page numbers for each of their headings.

## 2 Discuss How Partners Will Work Together

Explain that today partners will finish writing their final draft, number their pages, and create a table of contents that shows where different sections begin. When they are finished, they may add illustrations and captions to their reports.

Ask partners to spend a few minutes deciding what they will accomplish today and how they will share the work fairly.

## WRITING TIME

### 3 Write Final Versions and a Table of Contents

Display the “Writing Time” chart (WA24). Have partners sit together at desks and work on the charted tasks for 20–30 minutes.

#### Writing Time

- Finish copying your final version.
- Discuss and write a table of contents.
- Add images and captions.

WA24

As the students work, circulate, observe, and offer assistance.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners working together fairly to write a final version of their informational report?
- Are they including a table of contents?

Support any pair that struggles by asking questions such as:

- Q *What is each of you responsible for accomplishing?*
- Q *Is the way you are sharing the work fair? Why or why not?*
- Q *What can you do to share the work fairly?*
- Q *Why is it important that both of you do your part of the work on this project?*

Record your observations on the “Class Assessment Record” sheet (CA10); see page 93 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Reflect and “Preview” Reports as a Class

Explain that each pair of students will give the class a “preview” of their informational report by reading aloud two sentences from it.

Ask partners to quietly reread their report and select two interesting sentences (one for each partner) to read aloud. Give them a few moments to select their sentences; then ask the class to listen carefully to one another’s sentences and to think about which sentences make them curious.

Go around the room and have the students read their sentences aloud, without comment. When all have read, ask and briefly discuss:

**Q** *What sentences did you hear that made you curious?*

Remind the students that they will begin sharing their published reports from the Author’s Chairs tomorrow. Have pairs put all the papers related to their informational reports in their folders.

# Day 4

## Writing Final Versions and Publishing

### Materials

- Materials for publishing informational reports
- Two chairs to use for Author’s Chair sharing (or three for trios)

### In this lesson, the students:

- Publish their informational reports
- Handle materials responsibly and share them fairly
- Make decisions about how they will present their reports from the Author’s Chairs
- Express interest in and appreciation for one another’s writing
- Ask one another questions about their writing

## GETTING READY TO WRITE

### 1 Discuss Handling and Sharing Materials

Have the students get their folders and pencils and sit at desks with partners together. Explain that the students will finish writing their final versions and will begin sharing them from the Author’s Chairs today. Explain the method you have chosen for publication (see “Do Ahead” on page 455), and review any procedures you would like the students to follow (for example, how to handle art supplies, how to use the computers, and where to place their published stories for Author’s Chair sharing).

Briefly discuss how the students will share materials fairly, handle them responsibly, and help one another. Ask and briefly discuss questions such as:

- Q *What will you do today to take care of our [bookmaking] materials? Why is that important?*
- Q *If you want to use something, such as the computer or the hole punch, but someone else is using it, what can you do?*
- Q *If you're using something and someone else wants to use it, what can you do to share it fairly?*
- Q *How can we be helpful to one another as we publish our reports today?*

## 2 Discuss How Partners Will Work Together

Explain that today partners will work to finish publishing their report. They will then decide how they will present it to the class (for example, decide what sections each partner will read aloud). Briefly discuss:

- Q *What are some ways partners might share the presentation of their report?*

Explain that the students who finish the publication process today will begin sharing their reports from the Author's Chairs. Tell the students that Writing Time today will be a bit shorter to allow time for this sharing. Ask partners to spend a few minutes deciding what they will accomplish and how they will share their work today.

## WRITING TIME

### 3 Publish Reports and Prepare to Share

For 15–20 minutes, have partners work on publishing their informational report and preparing to present it. As they work, circulate, observe, and offer assistance.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Review Sharing Writing from the Author's Chairs

Gather the class with partners sitting together, facing the Author's Chairs. If necessary, remind them of the procedure you established for presenting books from the Author's Chairs (see Unit 2, Week 2, "Do Ahead" on page 97).

Before asking partners to share from the Author's Chairs today, discuss how the students will act, both as presenting authors and as members of the audience.

#### ELL Note

Support trios as necessary to make sure that all three students in each trio have a role in presenting their report to the class.

#### TEKS 13.H.i

Student/Teacher Narrative  
Step 4 (all, beginning on page 465 and continuing on to page 466)

Ask and discuss:

- Q** *Why is it important to speak in a loud, clear voice when you're reading your report to the class?*
- Q** *If you're in the audience and you can't hear the author, how can you politely let him or her know?*
- Q** *How will you let the authors know that you're interested in their report? Why is it important to express interest in one another's writing?*

Encourage the students to be attentive and considerate audience members. Tell them that you will check in with them afterward to see how they did.

## **5** Conduct Author's Chair Sharing

Ask a pair of students who has finished publishing their informational report to read it aloud from the Author's Chairs. At the end of the sharing, facilitate a discussion using questions like those that follow, and give the authors an opportunity to respond to the class's comments and questions:

- Q** *What did you learn about [falcons] from hearing [Jackie and Connor's] report?*
- Q** *What are you curious about after hearing their report?*
- Q** *What questions can we ask [Jackie and Connor] about their report?*

Follow this procedure and have other pairs of students share from Author's Chairs, as time permits. Explain that tomorrow partners who have not finished publishing will have time to do so and to share their reports from the Author's Chairs.

## **6** Reflect on Audience Behavior During Author's Chair Sharing

Ask and briefly discuss:

- Q** *What did we do well as an audience today? What might we want to work on the next time authors share their work?*
- Q** *If you shared your report today, how did the members of the audience make you feel? What did they do that made you feel [relaxed/nervous/proud]?*

## In this lesson, the students:

- Review and reflect on writing nonfiction
- Finish publishing their reports
- Present their reports from the Author's Chairs
- Express interest in and appreciation for one another's writing
- Ask one another questions about their writing
- Give their full attention to the person who is speaking

## GETTING READY TO WRITE

### 1 Review and Reflect on Writing Nonfiction

Have the students get their folders (unless they have already shared their published reports from the Author's Chairs) and pencils and sit with partners together at desks today. Remind the students that over the past six weeks, they have learned about writing nonfiction and have each worked with a partner to research and write a nonfiction report about an animal they were curious about. Ask:

**Q** *What have you learned about writing nonfiction over the past weeks?*

#### Students might say:

"I learned that you can write about things you are curious about."

"I agree with [Lucy]. I learned that you can find out about things by researching them."

"In addition to what [Brendan] said, I learned that you can take notes and use them in your nonfiction writing."

"I learned ways to capture the reader's attention and make the reader curious about my topic."

Use "Think, Pair, Share" to discuss:

**Q** *What was your favorite part of working on your informational report?*  
[pause] *Turn to your partner.*

**Q** *What is one thing you are glad you learned about writing nonfiction?*  
[pause] *Turn to your partner.*

**Q** *What did you find challenging about writing nonfiction?* [pause] *Turn to your partner.*

Remind the students that writers become better over time as they practice writing again and again. Encourage students who feel drawn to nonfiction to continue to research and write about nonfiction topics that they are interested in during their free time and outside of school.

## Materials

- Materials for publishing informational reports
- Two (or three) chairs to use for Author's Chair sharing
- Copy of the Expository Nonfiction genre unit family letter (BLM1) for each student

## Facilitation Tip

Reflect on your experience over the past weeks with **asking facilitative questions**. Does this technique feel comfortable and natural for you? Do you find yourself using it throughout the school day? What effect has using this technique had on your students' listening and participation in discussions? We encourage you to continue to use and reflect on this technique throughout the year.

Explain that today partners will finish publishing their report and then decide and practice how they will present it to the class. Those who have finished may write anything they choose during Writing Time.

Explain that after Writing Time, more partners will share their reports with the class from the Author's Chairs. Ask partners to spend a few minutes deciding what they will accomplish and how they will share their work today.

## WRITING TIME

### 2 Finish Publishing Reports and Prepare to Share

Have pairs work on publishing and preparing to share for 10–15 minutes. As they work, circulate, observe, and offer assistance.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Conduct Author's Chair Sharing

Gather the class with partners sitting together, facing the Author's Chairs. Remind each presenter to speak in a loud, clear voice and audience members to show interest in and appreciation for their classmates' writing.

Have partners read their report aloud from the Author's Chairs. At the end of the sharing, facilitate a discussion using questions like those that follow. Give the authors an opportunity to respond to the class's comments and questions:

- Q *What did you learn about [how bears hibernate] from hearing [Lupe and Andrew's] report?*
- Q *What are you curious about after hearing their report?*
- Q *What questions can we ask [Lupe and Andrew] about their report?*

Repeat this procedure to have other pairs share from the Author's Chairs, as time permits.

Assure the students that pairs who have not yet shared will get to share their published informational report from the Author's Chairs in the coming days.

### 4 Reflect on Interactions and Thank One Another

Ask and briefly discuss:

- Q *What did we do well as an audience today? What do we still want to work on the next time authors share their work?*
- Q *If you shared a report today, how did the members of the audience make you feel? What did they do that made you feel [relaxed/nervous/proud]?*

#### Teacher Note

Continue to have pairs of students share their informational reports from the Author's Chairs until everyone has had a chance to do so.

Point out that partners have worked closely together for several weeks to research and write about the animal they chose. Ask and briefly discuss:

**Q** *In what ways did you and your partner help each other on this project?*

**Q** *What do you appreciate about how your partner worked with you? Turn to your partner.*

Ask partners to take a moment to thank each other for their help and collaboration.

---

## EXTENSION

### Write Letters Home About Nonfiction

Provide letter-writing practice for the students by having them each write a letter home about what they learned about nonfiction from working on their informational reports. Discuss questions such as:

**Q** *What's special about nonfiction writing?*

**Q** *What steps did you and your partner go through to research and write about your animal?*

**Q** *What is one thing you're proud of about your published informational report?*

If necessary, review the elements of a letter (date, salutation, body, closing, and signature) by modeling or writing a shared sample letter with the class. Have the students write and proofread their letters; then attach each student's letter to a copy of the published informational report she helped to write and send it home.

## End-of-unit Considerations

### Wrap Up the Unit

- This is end of the Expository Nonfiction genre unit. You will need to reassign partners before you start the next genre unit.
- Make copies of the published reports so that each partner can take a copy home to share with his or her family. Place the original reports in the class library.
- Send home with each student a copy of the student's published report and a copy of this unit's family letter (BLM1). Encourage the students to share their published reports with their families.
- Save the students' published writing (or copies of it) to use for reflection and discussion in Unit 9.

---

### Teacher Note

For information on wrapping up this unit and conducting unit assessments, see "End-of-unit Considerations" on this page.

---

### Skill Practice Note

For practice with using commas in the addresses of letters, see Lesson 28 in the *Skill Practice Teaching Guide*.

## Assessments

- Before continuing with the next unit, take this opportunity to assess individual students' writing from this unit. See "Completing the Individual Writing Assessment" (IA1) on page 98 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students' published writing home to share with their families, you might have each student analyze his writing using the "Student Self-assessment" record sheet (SA1) on page 97 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension "Introduce 'Student Self-assessment' " on page 116.
- (Optional) Prior to beginning the next unit, you might wish to prepare the students for the end-of-year standards-based writing performance task by teaching the Informative/Explanatory Writing unit on page 53 of the *Writing Performance Task Preparation Guide*. For more information, see "Teaching the Units" on page vi of the preparation guide.

# Genre

# Functional Writing

During this three-week unit, the students explore functional writing. They read and discuss directions for how to perform simple activities, explore craft elements of functional writing, and write directions for others to follow. They explore using coordinating conjunctions such as *and*, *but*, and *or* in their directions. As the students write, they consider the audience and purpose of their directions and review them for sequence, completeness, accuracy, and clarity. The students frequently work with partners and in groups of four during the unit. They reach agreement and make decisions together, work responsibly, share the work and materials fairly, and give and receive feedback respectfully.

## TEACHER AS WRITER

*“A writer is someone who pays attention to the world.”*

— Susan Sontag

Most of us are surrounded by, and rely on, functional writing—written language that helps us function. This week, join your students in beginning to explore functional writing by making a list of all the functional writing you encounter daily, including what you write yourself. Think about directions, signs, lists, flyers, online text, and other sources of information.

### Writing Focus

- Students hear, read, and discuss functional writing.
- Students explore how information is communicated in functional writing.
- Students explore audience and purpose in functional writing.
- Students list ideas for functional writing.
- Students discuss, follow, and write directions.

### Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students work in a responsible way.

## DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and check for understanding.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see “Random Pairing” on page xxix and “Considerations for Pairing ELLs” on page lii. For more information, view “Cooperative Structures Overview” (AV9).
- ✓ Prior to Day 1, collect examples of functional writing, such as cookbooks, recipes, online maps with directions, and books about how to make things or do simple activities. Include books about how to draw different things, such as animals and cartoon characters. You might search for titles online using the keywords “children’s drawing books.” Make this collection available to the students throughout the unit.
- ✓ Prior to Day 2, identify things in the classroom that the students help to take care of (for example, a plant, a fish, or the art center). Pick one to use for the shared writing on this day.

(continues)

## DO AHEAD *(continued)*

- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA1) on page 110 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, create a simple line drawing of any kind of animal at the top of a sheet of chart paper. Leave room below to write step-by-step directions and illustrations for drawing the animal. Make the drawing very simple, requiring no more than five steps (see the example in Week 1, Day 5, Step 1 on page 495).
- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA2) on page 111 of the *Assessment Resource Book*.

# Exploring Functional Writing

# Day 1

## In this lesson, the students:

- Work with new partners
- Hear, read, and discuss functional writing
- Explore how information is communicated in functional writing
- Quick-write ideas about things they take care of
- Share what they learn about their partners
- Handle materials responsibly

## ABOUT TEACHING FUNCTIONAL WRITING

The purpose of functional writing, like all nonfiction, is to inform or explain. While expository nonfiction provides information about a topic—such as the animals of New Zealand—functional nonfiction explains how to do something. For example, functional writing might explain how to brush your teeth, use a microwave, create a website, or build a rocket. Functional writing, in varying forms of lists, labels, menus, and schedules, also helps people with daily living.

The goals of this unit are to introduce the students to functional writing, help them think about the craft elements involved in functional writing, and provide opportunities for them to create functional writing. There are two phases to this unit: Immersion and Drafting (two weeks), and Revision, Proofreading, and Publication (one week). During the first phase, the students explore and try their hand at functional writing. In the second phase, they write, revise, and publish directions for an activity they know how to do.

## GETTING READY TO WRITE

### 1 Pair Students and Introduce Functional Writing

Randomly assign partners (see “Do Ahead” on page 477) and make sure they know each other’s names.

Signal for the students’ attention; then, without speaking, display the “Directions for Gathering” chart (WA1). Give the students a moment to read the directions. Then signal for them to silently follow the directions.

## Materials

- *Kittens*
- “Directions for Gathering” chart (WA1)
- Examples of functional writing, collected ahead
- “Writing Time” chart (WA2)

## Teacher Note

For more information about functional writing, view “Exploring Functional Writing” (AV50).

## Teacher Note

The partners you assign today will stay together for the unit. If necessary, take a few minutes at the beginning of today’s lesson to let them get to know each other better by talking informally in a relaxed atmosphere.

## Teacher Note

If you are teaching other programs from the Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the writing lessons.

### Directions for Gathering

1. When I point to your seat, gather your writing notebook and pencil.
2. Quietly get up and push in your chair.
3. Walk to the rug area.
4. Sit next to your partner, facing me.

Once the class has gathered with partners sitting together, ask:

**Q** *How was following my written directions different from following my directions when I say them aloud?*

Explain that written directions are a form of *functional writing*—writing that helps people learn how to do things, get from one place to another, and complete everyday tasks (jobs), such as buying groceries and paying bills. In addition to directions and instructions, functional writing includes such things as menus, lists, recipes, and schedules. Explain that during this unit, the students will explore one type of functional writing—writing that gives directions for how to do something.

Have partners get to know each other by talking about something they know how to do that they could teach to someone younger (for example, how to tie their shoes, throw a ball, or set the table). Ask them to be ready to share their partners' thinking with the class.

After a few minutes, signal for the students' attention and ask:

**Q** *What can your partner teach a younger person to do?*

## 2 Read and Discuss Parts of *Kittens*

Show the cover of *Kittens* and read the title aloud. Turn to the title page and read the names of the authors (Niki Walker and Bobbie Kalman) aloud. Explain that this book is an example of functional writing; it teaches readers how to take care of a kitten. Ask and briefly discuss:

**Q** *What is something you might need to do to take care of a kitten?*

Explain that you will read parts of the book aloud. Show page 3, “Contents,” and read a few of the topics in the book. Read pages 6–7, showing the illustrations, and then show and read pages 14–21, clarifying vocabulary as you read. Stop during the reading to point out how information is communicated. (For example, point out the use of headings and text, pictures and captions, and text boxes containing lists and other information that might be useful to the reader.)

### Teacher Note

As you discuss different types of functional writing, you might show some examples from the functional writing you collected (see “Do Ahead” on page 477).

### Teacher Note

To review the procedure for defining vocabulary during the read-aloud, see Unit 1, Week 2, Day 2, on page 29.

For more information, view “Introducing Vocabulary During a Read-aloud” (AV30).

## Suggested Vocabulary

**nutrients:** things found in food, such as vitamins, that people and animals need to stay healthy (p. 16)

**whiskers:** long, stiff hairs that grow on the faces of animals such as cats and dogs (p. 21)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**frisky:** playful (p. 6)

**allergic to cats:** likely to sneeze, itch, or get a rash from being near cats (p. 7)

**properly:** correctly or in a healthy way (p. 14)

**squirm:** wiggle (p. 15)

**chow:** food (p. 16)

**semi-moist:** partly wet (p. 16)

**litter box:** box where cats can go to the bathroom indoors (p. 18; refer to the illustrations on pp. 18 and 19)

**veterinarian:** doctor for animals (p. 21)

Ask and briefly discuss:

- Q** *What is something you learned from hearing about how to take care of a kitten?*

## **3** Quick-write: Things We Take Care Of

Use “Think, Pair, Share” to discuss:

- Q** *What is something you know how to take care of that you could write about? [pause] Turn to your partner.*

Signal for the students’ attention and have volunteers share their thinking with the class.

### Students might say:

“My bike. I wash it and grease the chain.”

“I take care of my neighbor’s plants when she’s gone. I could write about that.”

“I could write about taking care of my little sister.”

“I know how to take care of my pet rabbit.”

“I take care of my teeth. I also know how to braid my hair.”

Have the students open their notebooks to the next blank page in their writing ideas sections and title the page “Things I Take Care Of.” Ask them to list things they know how to take care of that they could write about. After 5 minutes, signal for the students’ attention and have a few volunteers share with the class an idea they wrote. Explain that the students may add to their lists during Writing Time today.

## Teacher Note

To review the procedure for “Think, Pair, Share,” see Unit 1, Week 2, Day 2 (page 29). To see an example, view “Using ‘Think, Pair, Share’ ” (AV13).

## ELL Note

If necessary, simplify the question by rephrasing it in the following way:

- Q** *What do you take care of?*
- Q** *What do you do to take care of [your pet rabbit]?*
- Q** *What could you write about [taking care of your pet rabbit]?*

### Teacher Note

Note that today the students may do functional writing or write about anything else they choose. On Day 2, after exposure to another example of functional writing, all of the students will be asked to begin writing in this genre.

## 4 Introduce the Collection of Functional Writing

Show the students the examples of functional writing you collected, and point out some of the different types of directions. Tell the students that they may look at the materials in this collection to find examples of functional writing. Explain any procedures for using the collection, then ask and briefly discuss:

**Q** *What will you do to handle the materials in our functional writing collection responsibly?*

Tell the students that you will check in with them at the end of the lesson to see how they did with handling the materials responsibly.

Make *Kittens* available for interested students to browse during Writing Time.

## WRITING TIME

### 5 Write Independently

Have the students sit at desks with partners together. Display the “Writing Time” chart (WA2) and have the students work on the charted tasks for 20–30 minutes. Remind them that they should double-space all writing and that there should be no talking, whispering, or walking around during Writing Time.

#### Writing Time

- Add to your list of things you know how to take care of.
- Browse the functional writing collection for ideas.
- Write about anything you choose.

WA2

Join the students in writing for a few minutes, and then circulate and observe.

Signal to let the students know when Writing Time is over. Have them return any functional writing they borrowed from the class collection.

## SHARING AND REFLECTING

### 6 Share Ideas for Writing and Reflect

Have partners share with each other what they wrote about today. After a few minutes, signal for the students’ attention and ask partners to talk briefly about what they learned about functional writing today. After a

few more minutes, signal for the class’s attention and discuss questions such as:

- Q *What is something that you learned about functional writing today?*
- Q *What is something that you learned about your partner today?*
- Q *What did you do to handle our functional writing materials responsibly?*
- Q *I noticed that [the room got noisy when people were browsing the collection]. What can we do next time to avoid this problem?*

Explain that tomorrow the students will continue to explore functional writing.

---

## EXTENSION

### Read More from *Kittens*

If the students are interested, read aloud and discuss more sections of *Kittens* with them. Invite students who have experience with kittens or cats to share what they know with the class.

---

### Teacher Note

Keep the collection of functional writing available for the students’ use throughout this unit.

# Exploring Functional Writing

# Day 2

### In this lesson, the students:

- Hear, read, and discuss functional writing
- Explore audience and purpose in functional writing
- Write about how to take care of something
- Speak clearly and listen to one another
- Handle materials responsibly

## GETTING READY TO WRITE

### 1 Read and Discuss Parts of *My Pet Puppy*

Gather the class with partners sitting together, facing you. Review that yesterday the students began exploring functional writing—writing that helps people learn how to do things, get from one place to another, and complete everyday tasks (jobs). Show the cover of *Kittens* and remind the students that they heard part of this book yesterday. Explain that you will read part of another book about how to take care of a pet.

### Materials

- *My Pet Puppy*
- *Kittens* from Day 1
- Chart paper and a marker
- “Writing Time” chart (WA3)
- Collection of functional writing
- “Class Assessment Record” sheet (CA1)

**TEKS 11.E.i**  
Student/Teacher Narrative  
Step 3 (all, beginning on  
page 484 and continuing  
on to page 485)

Show the cover of *My Pet Puppy* and read the title and the names of the author and the illustrator aloud. Read pages 2–9, showing the illustrations and discussing the various ways information is presented. (For example, point out text with headings; lists; the “Bow-wow!” feature with tips, jokes, and things to try; and the “Puppy Notebook” feature with places for the reader to write information). Clarify vocabulary as you read.

### Suggested Vocabulary

**purebred:** has parents that are the same breed of dog (p. 5)

**teething toys:** things to chew on when new teeth are coming in through the gums (p. 6)

**gnaw:** chew (p. 7)

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**vaccinated:** given shots so it won't get sick (p. 4)

**guide dogs:** dogs that help people who can't see (p. 4)

**therapy dogs:** dogs that comfort people who are unwell or unhappy (p. 4)

**mystery mix:** has parents whose breeds are not known (p. 5)

**overtire:** make very tired (p. 9)

Ask and briefly discuss:

**Q** *What have you learned so far about taking care of a puppy?*

Flip through the rest of the book, selecting a few additional pages to read aloud and discuss. Ask and briefly discuss:

**Q** *How is this book similar to Kittens? How is it different?*

Show pages 16–17 in *Kittens* and point out that, as in *Kittens*, *My Pet Puppy* uses text with headings, pictures with captions, and text boxes containing more detailed information.

## **2** Discuss Audience and Purpose

Explain that authors of functional writing consider several things when writing directions for how to do something. One thing they ask themselves is who their *audience* is, or who they are writing for. Title a sheet of chart paper “Writing Good Directions.” Beneath the title,

write the question *Who is the audience for the directions?* Ask and briefly discuss:

- Q *Who is the audience for Kittens and My Pet Puppy?*
- Q *Authors write differently depending on whether they are writing for children or adults. What might an author want to do when writing for children?*

**Students might say:**

"An author would use simpler words for children."

"I think an author needs to explain more things to children."

"Authors who are writing for children might want to put in lots of pictures. Children might need pictures, especially if they are just learning to read."

"If an author is writing directions for children, some steps might say 'Ask a grown-up for help' because there are some things kids shouldn't do by themselves."

Point out that authors also ask themselves what their *purpose* is, or why they are writing the directions. If the purpose is to help children successfully take care of a pet, the author will make sure that the information is clear to a child reading the directions. Add the question *What is the author's purpose in writing the directions?* to the "Writing Good Directions" chart.

### 3 Shared Writing: How to Take Care of Something in the Classroom

Review that *Kittens* and *My Pet Puppy* are books that tell the reader how to take care of a kitten or puppy. Ask:

- Q *Look around our classroom. What do we take care of that we could write about? Turn to your partner.*

After a moment, signal for the students' attention and explain that you would like their help in writing directions for how to take care of something in the classroom—for example, the class guinea pig (see "Do Ahead" on page 477). Use "Think, Pair, Share" to discuss:

- Q *If we were going to write about how to take care of [our guinea pig], what might we write? [pause] Turn to your partner.*

Signal for the class's attention and ask volunteers to share their ideas. Use the students' suggestions to write directions on a sheet of chart paper (see the example on the next page).

#### ELL Note

If necessary, simplify this question by rephrasing it in the following way:

- Q *Books for adults have lots of words. In what way might a book for children be different?*

#### Teacher Note

Save the "Writing Good Directions" chart to use on Day 3 and throughout the unit.

#### Teacher Note

To review the procedure for "Turn to Your Partner," see Unit 1, Week 1, Day 3 (page 13). To see an example, view "Using 'Turn to Your Partner'" (AV11).

#### Teacher Note

Record the students' ideas as they state them. Do not worry about sequencing the directions at this point. The students will explore sequencing later in the unit.

## How to Take Care of Our Guinea Pig

- Change the bedding every day.
- Scrub the cage with hot, soapy water once a week.
- Feed her every morning and evening.
- Change the water every day.
- Put things in the cage for her to chew on, crawl through, and climb on.
- Gently brush her every day.

Remind the students that yesterday they each generated a list of things they know how to take care of. Explain that today they will add any new ideas to their lists and then each pick one thing to write about.

## WRITING TIME

### 4 Write Independently

Have the students return to their desks. Display the “Writing Time” chart (WA3). Encourage the students to think about the audience and purpose of any directions they write, and remind them to double-space their writing. Make the functional writing collection, *Kittens*, and *My Pet Puppy* available for interested students to browse during Writing Time. Have the students work silently for 20–30 minutes on the charted tasks.

#### Writing Time

- Add any new ideas to your list of things you know how to take care of.
- Pick one idea and write about it.
- When finished, browse the functional writing collection.

WA3

Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students start writing quickly and stay on task?
- Are they able to write directions for their chosen topics?

If you notice any student having difficulty starting to write after 5–10 minutes, help to stimulate his thinking by asking questions such as:

- Q *What is something you take care of at home?*
- Q *If you were going to teach someone else how to take care of that thing, what would you say to do first? How can you write that as a sentence?*
- Q *What would you say to do next? How will you write that as a sentence?*

Record your observations on the “Class Assessment Record” sheet (CA1); see page 110 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over. Have them return any functional writing materials they borrowed from the class collection.

## SHARING AND REFLECTING

### 5 Reflect on Independent Writing

Ask and briefly discuss:

- Q *What topic did you choose to write about?*
- Q *What is one thing that you wrote about [taking care of your bedroom]? Read us a sentence you wrote about it.*
- Q *What did you discover about writing directions? What was easy? What was hard? Why?*

Explain that tomorrow the students will hear and discuss another example of functional writing.

# Day 3

## Exploring Functional Writing

### Materials

- *1-2-3 Draw Ocean Life*
- “Writing Good Directions” chart from Day 2
- “Dolphin” chart (WA4)
- Drawing paper for each student
- Chart paper and a marker
- “Writing Time” chart (WA5)
- Collection of functional writing

**TEKS 10.B.i**

**TEKS 10.C.ii**

Student/Teacher Activity  
Step 1 (all, beginning on page 488 and continuing on to page 489)

### In this lesson, the students:

- Explore audience and purpose in functional writing
- Hear, read, and discuss directions for drawing
- Quick-write ideas about things they know how to do
- Act responsibly during Writing Time

## GETTING READY TO WRITE

### 1 Read Parts of *1-2-3 Draw Ocean Life* and Draw

Have the students stay at their desks today. Remind them that they have been exploring functional writing and have heard two books about how to take care of a pet. Explain that today they will hear another example of functional writing—a book that gives directions for how to do something.

Show the cover of *1-2-3 Draw Ocean Life* and read the title and the author’s name aloud. Show and read “Before you begin” on page 2 aloud. Then show “Contents” on page 3 and read a few of the topics aloud. At the bottom of page 3, show and read “Important Drawing Tips” and continue reading to the end of page 4, including all labeled diagrams. Skip page 5; show and read “Dolphin” on page 6. Clarify vocabulary as you read.

### Suggested Vocabulary

**placement:** where on a piece of paper you draw something (p. 3)

**gill:** small opening that fish use to get oxygen from water (p. 4; refer to the illustration)

**fin:** wing-like flap of skin used to help a fish move through water (p. 4; refer to the illustration)

**blow holes:** small openings on top of dolphins’ heads (p. 6)

**snout:** nose (p. 6)

**shade:** color in a drawing to make some parts lighter and others darker (p. 6)

Pointing to the questions on the “Writing Good Directions” chart, ask and briefly discuss:

**Q** *Who is the audience for this book, or who is going to read it?*

**Q** *What is the author’s purpose in writing this book, or why did the author write it?*

If necessary, point out that the audience for this book is children, and the purpose is to teach them how to draw creatures that live in the sea.

Distribute a sheet of drawing paper to each student. Invite the class to join you in trying to draw the dolphin by following the directions on page 6. Display the “Dolphin” chart (📄 WA4). Reread the directions aloud, pausing after each step to follow the directions on a sheet of chart paper while the students follow along on their own papers.

When you and the students have finished drawing, ask and briefly discuss:

- Q *What does this author do to help us learn how to draw a dolphin?*
- Q *What do you notice about how the author writes directions? In what ways are the illustrations helpful?*

**Students might say:**

“The author numbers the steps so you can do them in order.”  
“In addition to what [Claire] said, each step only has a little bit to do. That makes it easier to learn.”  
“I agree with [Oliver]. The drawings also help us see what to do at each step.”  
“The very last drawing shows us what the dolphin should look like.”

## 2 Quick-write: Things We Know How to Do

Explain that Freddie Levin, the author of *1-2-3 Draw Ocean Life*, chose to write a book about drawing because it is something she enjoys and knows how to do. Ask and briefly discuss:

- Q *What do you know how to do that you could write about?*

**Students might say:**

“I can throw a football.”  
“I can do the five ballet positions.”  
“I can play a game on the computer.”  
“I know how to make a strawberry-banana smoothie.”  
“I know how to change a tire on my bike.”

Have the students open their notebooks to the next blank page of the writing ideas section and title the page “Things I Know How to Do.” Ask them to list things they know how to do that they could write about. After about 5 minutes, signal for their attention and have a few volunteers share an idea with the class. Explain that the students may add to their lists during Writing Time today.

## WRITING TIME

### 3 Write Independently

Display the “Writing Time” chart (📄 WA5) and have the students work for 20–30 minutes on the charted tasks.

### Teacher Note

Regularly remind the students to use the discussion prompts they learned when they participate in class discussions. The prompts are:

- “I agree with \_\_\_\_\_ because . . .”
- “I disagree with \_\_\_\_\_ because . . .”
- “In addition to what \_\_\_\_\_ said, I think . . .”

### Facilitation Tip

During this unit, we encourage you to **avoid repeating or paraphrasing** the students’ responses. It is easy to habitually repeat what students say when they speak quietly, or to paraphrase what they say when they do not speak clearly. This teaches students to listen to you but not necessarily to one another. Try refraining from repeating or paraphrasing and see what happens. Encourage the students to take responsibility by asking one another to speak up or by asking a question if they do not understand what a classmate has said.

To see this Facilitation Tip in action, view “Avoid Repeating or Paraphrasing” (AV26).

### Writing Time

- Add to your list of things you know how to do.
- Use what you learned today to draw your own pictures.
- Browse the functional writing collection for ideas.

Make *1-2-3 Draw Ocean Life* and the functional writing collection, including any other drawing books you have collected (see “Do Ahead” on page 477), available for interested students to browse during Writing Time.

Join the students in writing for a few minutes; then circulate and observe, assisting students as needed.

Signal to let the students know when Writing Time is over. Have them return any functional writing materials they borrowed from the class collection.

## SHARING AND REFLECTING

### 4 Reflect on Functional Writing and Working Responsibly

Ask and briefly discuss:

- Q *What did you write about today?*
- Q *What interesting information did you come across when browsing the functional writing collection? Tell us about it.*
- Q *What did you do to work responsibly today? What do you need to work on tomorrow?*

Throughout the discussion, share some of the things that you noticed when observing Writing Time.

Explain that tomorrow the students will explore more drawing directions.

## In this lesson, the students:

- Hear, follow, and discuss directions for drawing
- Compare directions
- Use Writing Time responsibly

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students get their *Student Writing Handbooks* and pencils and sit at desks with partners together. Review that the students have been exploring functional writing. Show the cover of *1-2-3 Draw Ocean Life*. Turn to page 6 and remind the students that yesterday they tried drawing a dolphin using the directions from this book. Ask and briefly discuss:

**Q** *What do you remember about following these directions yesterday?*

Explain that today they will explore directions from another drawing book for children.

### 2 Read Aloud “Bottlenose Dolphin” and Draw

Have the students turn to *Student Writing Handbook* pages 14–15. Display the “Bottlenose Dolphin” chart (WA6) (also see pages 498–499 at the end of this week) and read the title aloud. Tell the students that these directions are from a book titled *Doodle a Zoodle* by Deborah Zemke. Explain that *doodle* means “draw” and that *zoodle* is a made-up word that means “a doodle (drawing) of an animal.”

Read the directions for “Bottlenose Dolphin” aloud, showing the illustrations and clarifying vocabulary as you read.

#### Suggested Vocabulary

**flippers:** two flat body parts that stick out from dolphins’ sides and are used for swimming

**flukes:** dolphins’ tails

## Materials

- “Bottlenose Dolphin” (see page 498)
- *1-2-3 Draw Ocean Life* from Day 3
- *Student Writing Handbook* pages 13–15
- “Bottlenose Dolphin” chart (WA6)
- Chart paper and a marker
- Drawing paper for each student
- “Dolphin” chart (WA4) from Day 3
- “Writing Good Directions” chart from Day 2
- “Writing Time” chart (WA7)
- Collection of functional writing

#### TEKS 9.F.i

Student/Teacher Activity Step 2 and Step 3 (all, beginning on page 491 and continuing on to page 492)

Distribute a sheet of drawing paper to each student. Invite them to join you in trying to draw a bottlenose dolphin by following these directions. Reread the directions aloud, pausing after each step to follow the directions on a sheet of chart paper while the students follow along on their own papers.

When you and the students have finished drawing, ask and briefly discuss:

- Q *What does this author do to help us learn how to draw a bottlenose dolphin?*
- Q *What do you notice about how the author writes directions? In what ways are the illustrations helpful?*

**Students might say:**

"The directions have lots of steps. The author shows how to draw just one or two lines at a time."

"The author uses numbers to list the steps. That helps us do the steps in the right order."

"The author makes each step really short. That makes the steps easier, I think."

"There's a picture for each step. Seeing all the pictures helps us understand the directions better."

### 3 Discuss Two Sets of Directions

Have the students turn to *Student Writing Handbook* page 13, as you display the "Dolphin" chart (WA4). Remind them that yesterday they tried following these directions from *1-2-3 Draw Ocean Life* to draw a dolphin.

Explain that partners will think about and compare the "Dolphin" directions they followed yesterday with the "Bottlenose Dolphin" directions they followed today. Use "Think, Pair, Share" to discuss:

Q *In what ways are these two sets of directions similar? How are they different? [pause] Turn to your partner.*

Q *Which directions are easier to follow? Why do you think that? [pause] Turn to your partner.*

Have volunteers share their thinking.

**Students might say:**

"Both directions use numbers for the steps."

"The 'Dolphin' directions have four steps. 'Bottlenose Dolphin' has eight steps."

"In the 'Dolphin' directions, there's a lot to do in each step. I think the steps in 'Bottlenose Dolphin' are shorter and easier."

"In the 'Dolphin' directions, each step has complete sentences. The other directions don't always do that. That could confuse people."

Point out that the way directions (and other types of functional writing) are written can make them easier for readers to understand and follow. Invite the students to think during Writing Time today about various ways they can write directions.

Make 1-2-3 Draw *Ocean Life* and the functional writing collection, including any other drawing books you have collected, available for interested students to share during Writing Time.

## WRITING TIME

### 4 Write Independently

Display the “Writing Time” chart (📄 WA7) and have the students work silently on the charted tasks for 20–30 minutes.

#### Writing Time

- Use what you learned today to draw your own pictures.
- Add to your list of things you know how to do.
- Browse the functional writing collection to get ideas.

WA7

Join the students in writing for a few minutes; then circulate and observe, assisting students as needed.

Signal to let the students know when Writing Time is over. Have them return to the class collection any functional writing materials that they borrowed.

## SHARING AND REFLECTING

### 5 Reflect on Functional Writing and Working Responsibly

Ask and briefly discuss questions such as:

- Q *What did you write about today?*
- Q *What interesting information did you come across when browsing the functional writing collection? Tell us about it.*
- Q *What did you do to work responsibly during Writing Time today? What do you need to work on tomorrow?*

Explain that tomorrow each student will draw an animal and begin to write directions for drawing it.

## Materials

- Copy of “Jackrabbit” (BLM2) for each student
- “Writing Good Directions” chart from Day 2

## Teacher Note

Prior to doing this activity, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print “Jackrabbit” (BLM2). Make enough copies for each student to have one; set aside a copy for yourself.

# Day 5

## Materials

- Charted drawing of an animal, prepared ahead
- 1-2-3 Draw Ocean Life from Day 3
- “Writing Time” chart (WA8)
- Drawing paper for each student
- Collection of functional writing
- “Class Assessment Record” sheet (CA2)
- (Optional) *Student Writing Handbook* pages 13–15

## EXTENSION

### More Practice Following Drawing Directions

To provide more practice with following drawing directions, repeat today’s whole-class drawing activity using “Jackrabbit” from *Doodle a Zoodle* by Deborah Zemke. Distribute a copy of “Jackrabbit” (BLM2) to each student. You might facilitate a discussion comparing these directions to other drawing directions the students have followed or read. Refer to the “Writing Good Directions” chart; then use “Think, Pair, Share” to discuss:

- Q *In what ways are these directions similar? How are they different?*  
[pause] *Turn to your partner.*
- Q *Which directions for drawing were easier to use? Why do you think so?*  
[pause] *Turn to your partner.*

Have volunteers share their thoughts with the class.

## Exploring Functional Writing

### In this lesson, the students:

- Explore directions for drawing
- Write directions for drawing an animal
- Explore audience and purpose in functional writing
- Share ways they have dealt with challenges in their writing

## GETTING READY TO WRITE

### 1 Shared Writing: Write Directions for a Drawing

Have the students stay at their desks today. Remind them that this week they followed directions to learn about drawing animals. Explain that today each student will have a chance to create her own drawing of an animal and write directions for it. Next week, partners will exchange directions and try to draw each other’s animals.

Tell the students that, before they write directions for an animal drawing, you would like their help in writing directions for a drawing you did. Show the animal you drew (see “Do Ahead” on page 477). Under the drawing, write the first step in the directions and draw a picture to go with it (see diagram on the next page); then ask:

- Q *What direction shall I write next in order to explain how to draw my animal?*

Use the students' suggestions to write the remaining steps for your drawing, thinking aloud as you model writing each step.

**You might say:**

"First, I'll write the number 1 to tell readers that this is the first step. Then, I'll write the direction: *Draw an oval for the cat's face.* I drew an oval to illustrate Step 1. Now I'll think about the second thing I do to draw my cat—I add the ears and nose. Because this is the second step, I'll write the number 2. Then I'll ask myself, 'What do my cat's ears and nose look like? Exactly what shape are they?' I see that they are triangles. Now, how can I write that so the direction is easy to follow? I'll try writing about the ears first: *Draw two triangles for the ears on top of the oval.* Next, I'll write directions for drawing the nose: *In the middle of the oval, draw a smaller triangle for the nose.* Now I'll finish Step 2 by drawing a little picture to show readers exactly what I mean."

1. Draw an oval for the cat's face.

2. Draw two triangles for the ears on top of the oval. In the middle of the oval, draw a smaller triangle for the nose.

3. Draw two short, curved lines on each side of the nose to make whiskers.

4. Draw two ovals with circles inside them for eyes.

5. Draw a curved line for the mouth.

## WRITING TIME

### 2 Write Independently

Display the "Writing Time" chart (WA8) and read it aloud.

**TEKS 11.E.i**  
Student/Teacher Activity  
Step 2 (all, beginning on page 495  
and continuing on to page 496)

## Teacher Note

You might have the students briefly turn to “Dolphin” and “Bottlenose Dolphin” on *Student Writing Handbook* pages 13–15. Invite them to reread these directions today, if they wish, as they begin writing their own directions. You might also make 1-2-3 *Draw Ocean Life* available so the students can look at other drawing directions in the book.

## Writing Time

- Draw two or three simple animals and then pick one.
- Write directions for drawing that animal. Draw a picture to go with each step in your directions.
- If you finish, write directions for drawing another animal, or browse the functional writing collection to get ideas.

Ask and briefly discuss:

- Q *Who will be your audience, or who will read your directions?*
- Q *What do you want your reader to learn? What will be the purpose of your directions?*

If necessary, remind the students that their partners will be the audience for their directions, and the purpose of the directions is to teach their partners how to draw their animals.

Distribute drawing paper and have the students work silently for 20–30 minutes. As they work, walk around and observe, assisting students as needed.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students each able to draw a simple animal and write directions for how to draw it?
- Are they able to write directions that others can follow?

Support any student who struggles by having each describe her animal to you (without your looking at it) and by asking:

- Q *What is the first thing you do to draw your animal? How can you write that as a sentence?*
- Q *What do you do next?*

If you notice many students struggling to write directions, call the class together and model another example as you did in Step 1. Then have the students resume their own writing.

Record your observations on the “Class Assessment Record” sheet (CA2); see page 111 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Briefly Reflect on Challenges

Ask and briefly discuss:

- Q *What was challenging about writing directions for drawing your animal?*
- Q *How did other people deal with that challenge?*

Remind the students that next week they will exchange their directions with their partners and try to draw each other's animals. Have the students place their directions and drawings in their folders until the next lesson.

---

## EXTENSION

### Explore More Drawings in *1-2-3 Draw Ocean Life*

Have the students follow the directions on other pages of *1-2-3 Draw Ocean Life*.

---

## TECHNOLOGY EXTENSION

### Search Online for Drawing Directions

Invite the students to search online for more directions for drawing or creating other types of art. As a class, brainstorm some simple art projects for which the students would be interested in finding directions. Discuss what search terms might be useful in an Internet search to locate them; then guide the students as they perform a search and identify relevant links. (The directions might be written or in video form.)

As a class, navigate the search results to find directions that interest them. Read the directions aloud (or view the videos) and discuss questions such as:

- Q *Who do you think is the audience for these directions? What was the author's purpose in [writing] them?*
- Q *Do you think these directions would be easy or hard to follow? Why?*
- Q *Would you recommend these directions to other students? Tell us why or why not.*

---

### Teacher Note

Be sure that all of the students have completed the directions for their drawings before the next lesson.

## TEACHER AS WRITER

*“I find that [the writing] process has started to become essential to me in my life, just as it is to take walks, to exercise, to eat, to ride a bicycle.”*

— David Leavitt

Review your list of functional writing from last week. Consider the following questions and write your reflections in your notebook:

- What functional writing do you do nearly every day? Who is the audience, and what is the purpose?
- What functional writing helps you most in your job? Who is the audience, and what is the purpose?
- What functional writing do you most like to do? Why?

### Writing Focus

- Students hear, read, and discuss functional writing.
- Students explore sequence, completeness, accuracy, and clarity in functional writing.
- Students discuss, follow, and write directions for how to make a puzzle.

### Social Development Focus

- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students help one another improve their writing.

## DO AHEAD

- ✓ Prior to Day 1, make a class set of the “Conference Notes: Focus 1” record sheet (CN1) on page 114 of the *Assessment Resource Book*.
- ✓ Prior to Day 2, make arrangements with a kindergarten or first-grade class to receive and try the “Puzzle Sticks” puzzles your students will make. If your class has a younger “buddy” class, this is a great opportunity to share with them.
- ✓ Prior to Day 4, make a class set of the “Conference Notes: Focus 2” record sheet (CN2) on page 115 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA3) on page 112 of the *Assessment Resource Book*.

### Materials

- “Writing Good Directions” chart from Week 1
- “Dolphin” chart (WA4) from Week 1
- “Writing Time” chart (WA9)
- Drawing paper for the students
- Collected functional writing from Week 1
- Class set of “Conference Notes: Focus 1” record sheets (CN1)

### Teacher Note

Remember to pause for 10 seconds to give the students time to think before saying “Turn to your partner.”

### In this lesson, the students:

- Explore sequence in functional writing
- Give feedback respectfully
- Revise directions based on partner feedback

## GETTING READY TO WRITE

**TEKS 10.B.i**  
Student/Teacher  
Narrative  
Step 1 (all)

### 1 Discuss Sequence in Functional Writing

Have the students get their animal sketches and directions for drawing an animal (from Week 1) and pencils. Ask them to sit at desks with partners together. Remind them that last week they began exploring functional writing that tells how to do things. Direct their attention to the “Writing Good Directions” chart. Read the items on the chart, and explain that they will add to the chart this week as they learn more about writing good directions.

Display the “Dolphin” chart (WA4) from Week 1, and remind the students that they learned how to draw a dolphin from these directions. Point out that the directions are written in the order in which they should be done. Reread directions 1–4 and use “Think, Pair, Share” to discuss:

**Q** *Why does it make sense for the directions to be in this order?* [pause] Turn to your partner.

**Q** *Would these directions work if they were written in a different order? Why or why not?* [pause] Turn to your partner.

After a few moments, signal for the students’ attention and have a few pairs share with the class what they discussed.

#### Students might say:

“The order makes sense because you draw the body before drawing the things that go on the body, like the flippers.”

“It wouldn’t work to put shading and coloring on the dolphin first because you wouldn’t know where to put it.”

“It makes sense because the author has us draw the big parts first, then the smaller parts.”

Explain that the *sequence*, or order, of information is very important to think about when writing directions. On the “Writing Good Directions” chart, add *Does the order of the directions make sense?*

## 2 Review Drafts for Sequence

Have the students read the directions they wrote last week for drawing their animals and ask themselves the question “Does the order of the directions make sense?” Have them make any changes to their writing so that they can answer “yes” to this question.

When most of the students have finished making their revisions, signal for their attention. Ask and briefly discuss:

**Q** *What changes did you make to the order of your directions? Why did you make them?*

### Students might say:

“I changed my directions so that I draw the head first and then the body.”

“I switched the order of the steps so that I start by drawing the big things. The details get added later.”

“Before, I just had two really long steps in my directions. I divided the two long steps into four shorter steps. Now the order makes more sense.”

## 3 Exchange Directions with Partners

Explain that partners will exchange directions and follow them to draw each other’s animals. Ask and briefly discuss:

**Q** *If you have difficulty following your partner’s directions, what might you do?*

### Students might say:

“I can read the directions again really carefully.”

“I can look at the pictures next to each step.”

“In addition to what [Will] said, I can look at the drawing of the finished animal.”

“If I get confused, I can politely ask my partner to explain.”

Distribute a sheet of drawing paper to each student. Then have partners exchange their directions for drawing animals and follow each other’s directions. After a few minutes, signal for the students’ attention and explain that partners will give each other feedback about how well each was able to understand and follow the other’s directions. Briefly discuss:

**Q** *What do you know about how to give feedback respectfully?*

Explain that later you will ask the students to reflect on how they gave their partners feedback.

Direct the students’ attention back to the question *Does the order of the directions make sense?* on the “Writing Good Directions” chart, and encourage partners to give each other feedback about this question. Briefly review the other questions on the “Writing Good Directions” chart, and remind partners to think about them as well.

Allow time for partners to give each other feedback; then signal for the students’ attention. Explain that during Writing Time today, each student will use his partner’s feedback to revise his own directions, if necessary.

### Teacher Note

If necessary, remind the students that in the writing community, the goal of giving feedback is to help the other person create the best possible piece of writing. It is important that each student shares what she likes about her partner’s piece and also offers suggestions and questions to help her partner improve the piece. For more information, view “Building a Community of Writers” (AV1).

## WRITING TIME

### 4 Write Independently

Display the “Writing Time” chart (WA9) and have the students work silently on the charted tasks for 20–30 minutes.

WA9

#### Writing Time

- Think about your partner’s feedback and revise your directions, if necessary.
- Write directions for another animal drawing.
- Browse the functional writing collection to get ideas.

Encourage the students to think about whether the order of their directions makes sense as they write. Provide the students with more drawing paper, as needed, and make the functional writing collection available for interested students to browse during Writing Time. When everyone seems to be working independently, begin conferring with individual students.

#### Teacher Note

To see an example of a teacher conferring with individual students, view “Conferring About Functional Writing” (AV49).

#### TEACHER CONFERENCE NOTE

During the next few days, confer with individual students. Ask each student to show you a piece of his functional writing and read it aloud to you. As you listen, ask yourself:

- Are the directions clear and easy to follow?
- Does the sequence of the directions make sense?

If possible, try following the student’s directions. Then probe his thinking by asking questions such as:

- Q *I’m not clear about how to [draw the eye]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *I could [put the curved line] here or here. Where should it go? How will you write that in your directions?*
- Q *I’m confused about the order of what I’m to do. Do I [finish the back legs] before I [draw the tail]? How can you make that clear in your directions?*

Document your observations for each student on a “Conference Notes: Focus 1” record sheet (CN1); see page 114 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Revisions and on Writing Directions

Briefly discuss:

- Q *What did you do today to give feedback respectfully to your partner?*
- Q *What changes did you make in your directions based on your partner's feedback?*

Explain that tomorrow the students will hear and discuss another example of functional writing.

## Exploring Functional Writing

## Day 2

### In this lesson, the students:

- Hear and follow directions for making a puzzle
- Explore completeness in functional writing
- Discuss and revise directions for making a puzzle
- Handle materials responsibly

## GETTING READY TO WRITE

### 1 Read “Puzzle Sticks” and Model Creating a Puzzle

Have the students get their *Student Writing Handbooks* and pencils and sit at desks with partners together. Remind the students that they have heard and explored functional writing that tells how to take care of and do things. Explain that today they will explore another example of functional writing that tells how to do something.

Display the “Puzzle Sticks” chart (WA10) (also see page 520 at the end of this week), and explain that this activity is from a book of craft projects for children. Explain that “Puzzle Sticks” gives directions for making a puzzle that someone else can solve. Read “Puzzle Sticks” aloud and ask the students to watch as you model following the directions to make the puzzle. Assemble your craft materials and create a puzzle.

### 2 Make “Puzzle Sticks”

After you have created a puzzle using the “Puzzle Sticks” directions, explain that each student will now follow the same directions to make her own puzzle. When all of the puzzles are completed, they will give

### Materials

- “Puzzle Sticks” (see page 520)
- “Puzzle Sticks” chart (WA10)
- *Student Writing Handbook* page 16
- 12 craft sticks for each student, and 12 to use in modeling
- Markers, tape, and a rubber band for each student, plus a set to use in modeling
- Chart paper and a marker
- “Writing Good Directions” chart from Week 1
- “Writing Time” chart (WA11)
- Loose, lined paper for each pair
- Collected functional writing

## Teacher Note

If the students do not mention it, remind them that each drawing should go across all of the sticks so that every stick has a part of the drawing on it. This will help younger students know which side of the stick is part of the puzzle.

## Facilitation Tip

Continue to try to **avoid repeating or paraphrasing** the students' responses. Help them learn to participate responsibly in class discussions by encouraging them to ask one another to speak up or to ask a question if they do not understand what a classmate has said. For special considerations for English Language Learners, see "Additional Strategies for Supporting ELLs" on page xlix.

them to a younger class in the school to enjoy (see "Do Ahead" on page 501). Ask and briefly discuss:

**Q** *We are making these puzzles for our [kindergarten buddies]. What do we need to think about so these puzzles are just right for them?*

### Students might say:

"The pictures should be simple."

"We should draw something that would be interesting to them."

"We could use bright colors."

Have the students turn to page 16 of their *Student Writing Handbooks*, where "Puzzle Sticks" is reproduced. Read the directions aloud once more, and encourage the students to refer to their handbooks as they do the activity. Distribute the craft sticks, tape, and markers, and have students make their puzzles.

## 3 Discuss Completeness in Functional Writing

When most of the students have finished making their puzzles, signal for the class's attention. Collect the markers and tape, and distribute a rubber band to each student. Have them put their puzzles away, bundling the sticks together with their rubber bands.

Draw the students' attention back to the "Puzzle Sticks" directions on page 16 in their handbooks. Remind them that these directions are from a book of craft projects for children. Ask and briefly discuss:

**Q** *Did the directions give us all of the information we needed to make the puzzle? Why or why not?*

As students respond, title a piece of chart paper "What We Notice About 'Puzzle Sticks'" and record their ideas.

### Students might say:

"I think the directions give all the information needed to make the puzzle."

"I disagree with [Jeremy]. The list of materials doesn't say that you need markers, pencils, or tape."

"Also, it doesn't say exactly how many craft sticks you need."

"The directions don't explain what 'craft sticks' are. Some kids might not know about them."

Explain that when authors write directions, they need to think about whether they have included all of the information the reader needs in order to do the activity successfully. On the "Writing Good Directions" chart, write the question *Does the reader have all of the information needed?*

Briefly review the other items on the “Writing Good Directions” chart. Then ask and discuss:

- Q *What else do you notice about how these directions are written?*
- Q *What feedback might you give the author to make these directions better?*

**Students might say:**

“Some of the steps seem long. Maybe the author can try breaking them up into smaller steps.”

“I’d ask the author to think about adding markers, tape, and a pencil to the list of materials.”

“There’s just one picture in these directions. It would be nice if the author drew more pictures to show what happens in each step.”

“These directions are supposed to be for kids, so maybe the author can try using easier words.”

Continue to record the students’ responses on the “What We Notice About ‘Puzzle Sticks’” chart.

## WRITING TIME

### 4 Write in Pairs

Display the “Writing Time” chart (WA11) and read it aloud. Explain that partners will work together to revise the “Puzzle Sticks” directions. Remind the students that as they revise they can think about what it felt like to follow these directions; they can also refer to the “What We Notice About ‘Puzzle Sticks’” chart, if they wish.

#### Writing Time

- With your partner, decide how you will revise the “Puzzle Sticks” directions.
- Revise the directions together.
- If you finish early, write directions for other things you know how to do or take care of. You may also browse the functional writing collection.

WA11

Distribute loose, lined paper to each pair, and make the functional writing collection available for interested students to browse during Writing Time. Have partners work together on the charted tasks for 20–30 minutes. When the students seem to be working independently, begin conferring with individual students.

## TEACHER CONFERENCE NOTE

Continue to confer with individual students by asking each student to show and read you her functional writing. As you listen, ask yourself:

- Are the directions clear and easy to follow?
- Does the sequence of the directions make sense?
- Does the reader have all of the information needed?

If possible, try following the student's directions. Then probe her thinking by asking questions such as:

- Q *I'm not clear about how to [draw the eye]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *I could [put the curved line] here or here. Where should it go? How will you write that in your directions?*
- Q *I'm confused about the order of what I'm to do. Do I [finish the back legs] before I [draw the tail]? How can you make that clear in your directions?*
- Q *How should I [draw the feet]? I don't see anything about that in the directions. Does that information need to be included? How might you write that?*

Document your observations for each student on a "Conference Notes: Focus 1" record sheet (CN1); see page 114 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Revisions and on Partner Work

Briefly discuss:

- Q *What is one revision you and your partner made to the "Puzzle Sticks" directions? Tell us about it.*
- Q *What did you do today to work well with your partner?*

Explain that tomorrow the partners will exchange and try out each other's puzzles.

## In this lesson, the students:

- Exchange and try out puzzles with their partners
- Write shared directions to accompany puzzles
- Handle materials responsibly

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students get their notebooks, pencils, and puzzles from yesterday and sit at desks with partners together. Display the “Puzzle Sticks” chart (WA10) and review that yesterday the students followed these directions to create their own puzzles. Remind them that they will give their puzzles to a class of younger students in the school to enjoy.

### 2 Exchange and Try Out Puzzles

Explain that partners will exchange and try to solve each other’s puzzles. Ask and briefly discuss:

- Q *What will you do to handle your partner’s puzzle responsibly?*
- Q *What might you do if you have trouble solving your partner’s puzzle?*

#### Students might say:

- “I will be gentle with my partner’s puzzle.”
- “I will keep all of the puzzle sticks together and not lose them. I won’t lose the rubber band, either.”
- “If I have trouble solving the puzzle, I’ll politely ask my partner for help.”

Have partners exchange puzzles. Give them a few minutes to solve each other’s puzzles.

## WRITING TIME

### 3 Shared Writing: Directions to Accompany Puzzles

Have partners return each puzzle to its maker. Ask the students to wrap a rubber band around each set of puzzle sticks and put them aside.

Explain that now the students will help you write a new set of directions to go with the puzzles; these directions will be for the class of younger students that will receive the puzzles. The directions should explain how to put the puzzles together. Use “Think, Pair, Share” to discuss:

- Q *What information should we include in our directions for putting the puzzles together? [pause] Turn to your partner.*

## Materials

- “Puzzle Sticks” chart (WA10) from Day 2
- “Writing Good Directions” chart from Day 2
- Chart paper and a marker
- “Writing Time” chart (WA12)
- Collection of functional writing

## Teacher Note

Make sure that the students have completed their puzzles before you teach this lesson.

Signal for the students' attention and have a few volunteers share their thinking with the class.

**Students might say:**

"We should say to lay out the sticks so the picture sides are showing."

"We should say to put the sticks together so they make a picture."

"If they want to check if they put the puzzle together right, we can tell them to turn the sticks over to check the numbers."

Draw the students' attention to the "Writing Good Directions" chart, and remind them that, for someone else to make the puzzle, the students need to write the directions in an order that makes sense. Ask:

**Q** *What is the first thing to do after opening the bundle of puzzle sticks? What should happen next? Then what?*

**Q** *What can [your buddy] do to check if the puzzle is solved correctly?*

Using the students' suggestions, write directions on a sheet of chart paper titled "Directions for Puzzle Sticks." Think aloud as you write.

**You might say:**

"First, I'll write a title for my directions: *Directions for Puzzle Sticks*. Now I will write the first step of the directions. I'll start by numbering the step so it's clear: *1*. What's the very first thing the students will have to do? I think that they need to open the bundle of sticks, so I'll write: *Take off the rubber band*. Now I'll number the second step: *2*. Next, the students need to spread out all the sticks, and I think that the picture sides of the sticks have to be facing up. I'll try to use simple words and short sentences because these students are young. I'll write: *Lay out all the sticks on a table. Make sure the picture sides are facing up.*"

## Directions for Puzzle Sticks

1. *Take off the rubber band.*
2. *Lay out all the sticks on a table. Make sure the picture sides are facing up.*
3. *Put the sticks together, side by side, to make a picture.*
4. *Check the number on the back of each stick to see if you put the puzzle together correctly.*

Collect the puzzle sticks and tell the students that you will deliver them, along with the directions, to the class of younger students.

## 4 Write Independently

Display the “Writing Time” chart (📄 WA12) and read it aloud. Have the students work silently on the charted tasks for 20–30 minutes.

### Writing Time

- Try writing directions for other activities you know how to do.
- Add to your “Things I Take Care Of” and “Things I Know How to Do” lists in the writing ideas section of your notebook.
- If you finish early, browse the functional writing collection for ideas.

WA12

Make the functional writing collection available for interested students to browse during Writing Time. When the students seem to be working independently, begin conferring with individual students.

### TEACHER CONFERENCE NOTE

Continue to confer with individual students by asking each student to show and read you his functional writing. As you listen, ask yourself:

- Are the directions clear and easy to follow?
- Does the sequence of the directions make sense?
- Does the reader have all of the information needed?

If possible, try following the student’s directions. Then probe his thinking by asking questions such as:

- Q *I’m not clear about how to [draw the eye]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *I could [put the curved line] here or here. Where should it go? How will you write that in your directions?*
- Q *I’m confused about the order of what I’m to do. Do I [finish the back legs] before I [draw the tail]? How can you make that clear in your directions?*
- Q *How should I [draw the feet]? I don’t see anything about that in the directions. Does that information need to be included? How might you write that?*

Document your observations for each student on a “Conference Notes: Focus 1” record sheet (CN1); see page 114 of the *Assessment Resource Book*. Beginning in Day 4, the focus of the individual student conferences will change. If you have not met with all of your students to discuss the questions above, you may wish to do so before changing the conference focus.

Signal to let the students know when Writing Time is over.

### Teacher Note

If you notice students struggling to think of functional writing topics, discuss directions they might draft about their daily routines at home or in the classroom. Topics might include how to make a bed, how to care for a pet, what to do during a fire drill, how to check out books from the school library, how to operate a computer, or how to study for a spelling test.

# Day 4

## Selecting Topics

### Materials

- Chart paper and a marker
- “Writing Good Directions” chart from Day 3
- Loose, lined paper for each student
- Class set of “Conference Notes: Focus 2” record sheets (CN2)

## SHARING AND REFLECTING

### 5 Discuss Working Together and Writing Directions

Ask and briefly discuss:

- Q *What was [fun/challenging] about trying out your partner’s puzzle?*
- Q *What did you do to handle your partner’s puzzle responsibly today? Why was that important to do?*
- Q *What was [fun/challenging] about writing directions for our puzzles today?*

Explain that tomorrow the students will continue to explore functional writing.

### In this lesson, the students:

- Help write directions for how to do something
- Select a topic and begin drafting directions in pairs
- Explore sequence and completeness in functional writing
- Reach agreement before making decisions
- Share the work fairly

## GETTING READY TO WRITE

### 1 Briefly Review Functional Writing

Have the students bring their notebooks and pencils and gather with partners sitting together, facing you. Remind them that they have explored functional writing that tells how to take care of something and how to do something. Have the students each open to the writing ideas section in their notebooks and review their lists of “Things I Take Care Of” and “Things I Know How to Do.” Ask:

- Q *What are some of the ideas you’ve listed under “Things I Take Care Of” and “Things I Know How to Do”?*

Explain that today the students will select something they know how to do or take care of; then they will spend the next few days writing directions for that activity. They will eventually publish their directions as part of a class book for students to read and enjoy during independent reading time.

## 2 Shared Writing: Directions for How to Do Something

Ask the students to watch as you model what they will do in the coming days. Name an everyday activity that most people know how to do (for example, brushing your teeth). Think aloud about who might read the directions for that activity and what you might include so the directions are complete (for example, the materials needed, how to start and finish). Ask:

**Q** *What might I need to do this activity?*

Use the students' suggestions to write items needed for the activity on a sheet of chart paper. Then ask:

**Q** *What do you do to [brush your teeth]? Turn to your partner.*

After a moment, signal for the students' attention and ask:

**Q** *What do you do first to [brush your teeth]? What do you do next?*

Using the students' suggestions, write the directions on the chart. Think aloud as you write.

### You might say:

"First, I'll write a title for the directions: *Brushing Your Teeth*. Next, I'll write a list of things that you need to brush your teeth. I'll title the list: *You need*. I'll put a colon after *need* to show that it's a list. Then, I'll write the word *Directions* with a colon after it. I'll number the first step of the directions so it's clear: *1. What do you do first to brush your teeth? One suggestion is that you put a blob of toothpaste on your toothbrush, so I'll write: Put a blob of toothpaste on your toothbrush. Now I'll number the second step: 2. What is the next thing you do? I think that you should put water on the toothbrush, so I'll write: Wet the brush.*"

## Brushing Your Teeth

### You need:

- toothbrush
- tube of toothpaste
- mirror (optional)
- sink and water

(continues)

(continued)

Directions:

1. Put a blob of toothpaste on your toothbrush.
2. Wet the brush.
3. Clench your teeth. Put the toothbrush in each cheek and brush up and down all along the outsides of your teeth.
4. Open your jaw and brush the insides of your top teeth and then your bottom teeth. Hold the toothbrush straight up and down to brush the insides of your front teeth.
5. Brush back and forth on the chewing surfaces.
6. Spit out the toothpaste and then rinse your mouth.
7. Rinse your toothbrush and put it and the toothpaste away.

Reread the directions aloud and then ask:

- Q *Does the order of the directions make sense? Why or why not?*
- Q *Does the reader have all of the directions needed to do the activity? Why or why not?*

Use the students' suggestions to revise the directions, if necessary. Refer to the "Writing Good Directions" chart, and remind the students that these are questions they should ask themselves when doing functional writing.

### Teacher Note

The cooperative work in this lesson is designed to encourage partners to discuss and agree on what to write. Each partner will do his own writing. As each pair of students will have created two sets of directions for each activity, you will compile them into two identical class books at the end of the unit.

### 3 Get Ready to Write Directions

Explain that today each pair of students will discuss and agree on something that both partners know how to do. After discussing how to do the activity and agreeing on the steps, each partner will write her own directions for the activity. Partners may pick something listed on their "Things I Take Care Of" and "Things I Know How to Do" lists, or they may pick something else. Ask and briefly discuss:

- Q *What other everyday activities like [brushing your teeth] might you and your partner want to write about?*

**Q** *What can you and your partner do if you don't agree at first on an activity?*

**Students might say:**

"We can keep talking until we agree."

"We can make a list of things we both know how to do and pick something off that list."

Have the students sit at desks with partners together. Give them a few minutes to discuss and agree on an activity to write directions for.

## WRITING TIME

### 4 Write Activity Directions

Distribute writing paper and remind the students to write on every other line. Have them work in pairs for 20–30 minutes on writing directions for their activity. When the students seem to be working independently, begin conferring with one pair at a time.

### TEACHER CONFERENCE NOTE

During this week and next, confer with individual pairs about the activity directions each partner is writing for the class book. Have partners show and read you their directions. As you imagine or try to follow the directions, ask yourself:

- Are the directions clear and easy to follow?
- Are the directions in an order that makes sense?
- Are the directions complete and accurate?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

**Q** *What do you need in order to do this activity? How will you write that?*

**Q** *What is the first thing you do when you do this activity?*

**Q** *I'm confused by this direction. How can you rewrite the direction so it's clear?*

**Q** *What do you need to do to finish this activity? How will you write that?*

If partners have picked an activity that you feel is too complex for this writing assignment, help them pick a simpler activity to write about.

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 115 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

### Teacher Note

The students might think of everyday activities such as getting dressed, making a piece of toast, putting on shoes, and getting ready for bed.

## SHARING AND REFLECTING

### 5 Share Topics

Briefly discuss:

**Q** *What was fun about writing your directions today? What was challenging?*

Go around the room and have each pair share the name of the activity they chose to write directions for. After all pairs have shared, briefly discuss as a class:

**Q** *What activity did you hear that you might like to learn how to do? Why?*

Explain that tomorrow partners will continue to work on their drafts. Have the students place their directions in their folders until the next lesson.

#### Teacher Note

Save the charted model directions to use on Day 5 and throughout the unit.

# Day 5

## Drafting and Revising

#### Materials

- “Writing Good Directions” chart from Day 4
- “Putting On Your Socks and Shoes” chart (WA13)
- Chart paper and a pen
- “Writing Time” chart (WA14)
- Charted model directions from Day 4
- “Class Assessment Record” sheet (CA3)

#### In this lesson, the students:

- Explore accuracy and clarity in functional writing
- Continue to draft directions
- Reread and revise their directions
- Reach agreement before making decisions
- Share the work fairly

## GETTING READY TO WRITE

### 1 Explore Accuracy and Clarity in Directions

Have the students get their folders and pencils and sit at desks with partners together. Remind them that yesterday each pair of students chose something they know how to do, and each partner began writing directions for a class book. Review the items on the “Writing Good Directions” chart, and remind the students that they should be asking themselves these questions as they write their directions.

Display the “Putting On Your Socks and Shoes” chart (WA13) and explain that this is a set of directions for an everyday activity. Read the directions aloud; then ask:

**Q** *What do you notice about the directions for this activity? Turn to your partner.*

Signal for the students’ attention and have a few volunteers share their thinking with the class.

**Students might say:**

"The directions are out of order. I'm confused."

"I agree with [Gala]. It tells about putting on your right sock but not your left."

"In addition to what [Michael] said, 'Make the right shoe tight' is unclear."

Point out that, in addition to making sure things are in the right order, authors of functional writing must be sure that their writing is accurate and clear so their readers will not be confused. Explain that when directions are *accurate*, they are correct, with no mistakes or confusing information. When directions are written clearly, they tell the reader exactly what to do. On the "Writing Good Directions" chart, add *Are the directions accurate and clear?* Ask:

**Q** *What might be a more accurate and clearer set of directions for putting on your socks and shoes?*

**Students might say:**

"I think the directions should start with putting on socks first, not shoes. That is more accurate."

"Maybe the directions can focus on one foot at a time. That is clearer."

"I agree with [Cassandra]. Maybe tell people to put on the right sock and right shoe first. Then tell them to put on the left sock and left shoe."

Use the students' suggestions to write a more accurate and clearer set of directions on a sheet of chart paper titled "Putting On Your Socks and Shoes." Think aloud as you write.

**You might say:**

"First, I'll write a title for the revised directions: *Putting On Your Socks and Shoes*. What things do you need for this activity? I think that you need socks and shoes. Let's add a list of items titled: *You need*. Notice that I put a colon after *need* and listed the items: *One pair of your socks. One pair of your shoes*. Now, how can we write our directions so they're accurate and clear? One suggestion is that we write about the right foot first and then the left foot; let's do that. I'll number the first step: 1. What do you do first? I think that first you put a sock on your right foot. For Step 1 I'll write: *Put a sock on your right foot*. Now I'll number the second step: 2. Since we're writing directions for the right foot first, what makes sense for this step? I think that you should find your right shoe and then put it on your right foot. The order of those directions makes sense, and together they seem clear, complete, and accurate. I'll write: *Find your right shoe and put it on your right foot*."

**Teacher Note**

You might point out that there can be more than one correct order for these directions. For example, the left sock and shoe can go on before the right.

## Putting On Your Socks and Shoes

You need:

- one pair of your socks
- one pair of your shoes
- 1. Put a sock on your right foot.
- 2. Find your right shoe and put it on your right foot.
- 3. Tie the laces on your right shoe.
- 4. Put on the other sock on your left foot.
- 5. Take your left shoe and put it on your left foot.
- 6. Tie the laces on your left shoe.
- 7. Make sure that your shoelaces are tight but not uncomfortable.

Explain that today each student will continue to work on the activity directions she started yesterday.

## WRITING TIME

### 2 Work on Activity Directions

Display the “Writing Time” chart (🌀 WA14) and have the students work on the charted tasks for 20–30 minutes.

#### Writing Time

- Finish drafting your directions.
- Reread your directions and ask yourself the questions on the “Writing Good Directions” chart.
- Revise your directions, if needed.

WA14

If necessary, stop the class halfway through Writing Time and have the students ask themselves the questions on the “Writing Good Directions”

chart. Students may also refer to the charted model directions from Day 4 and to the revised “Putting On Your Socks and Shoes” chart, if they wish.

When pairs of students seem to be working independently, walk around and observe.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners working together in a productive way?
- Are they sharing the work fairly?
- Are they writing directions that are easy to follow?
- Are the directions complete and in an order that makes sense?
- Are the directions accurate and clear?

Support any pair that is struggling by asking questions such as:

- Q *What do you need in order to do this activity? How will you write that?*
- Q *What is the first thing you do when you do this activity?*
- Q *I'm confused by this direction. How can you rewrite the direction so it's clear?*
- Q *What do you need to do to finish this activity? How will you write that?*

If partners have picked an activity that you feel is too complex for this writing activity, help them pick a simpler activity to write about.

Record your observations on the “Class Assessment Record” sheet (CA3); see page 112 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Discuss Partner Work

Ask and briefly discuss:

- Q *What did you and your partner do to share the work fairly today?*
- Q *What do you want to do [the same way/differently] next time to share the work fairly?*

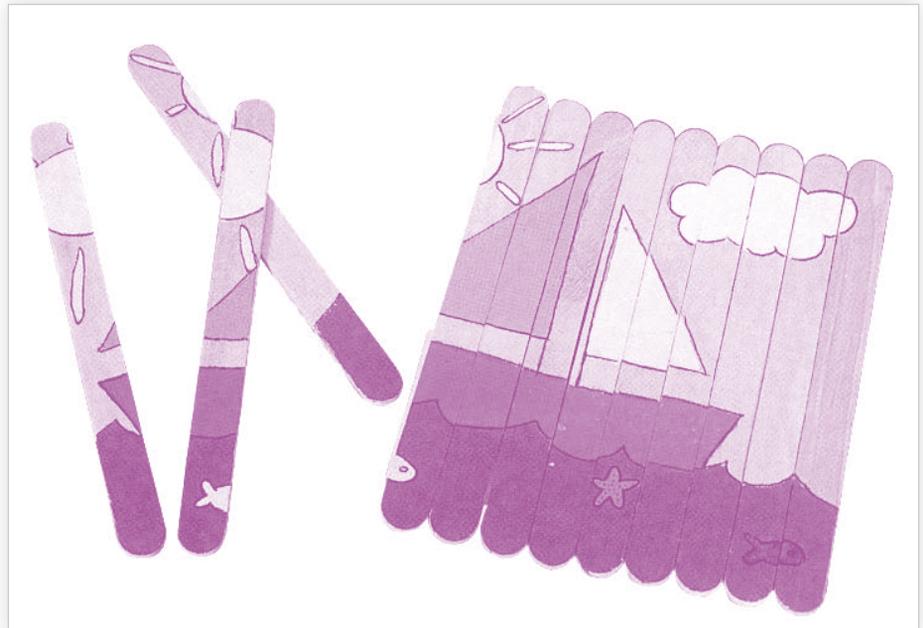

Explain that next week each pair of students will exchange their directions with another pair. Pairs will give each other feedback about their directions before publishing them. Have the students place their directions in their folders until the next.

## Puzzle Sticks

from *Fun-To-Make Crafts for Every Day*, edited by Tom Daning

**Materials:** craft sticks

1. Lay twelve craft sticks side by side. Line the ends up evenly. Tape the sticks to keep them lined up then number them from one to twelve. Flip the sticks over.
2. Use a pencil to sketch a picture on the untaped side. Color the picture with markers. Remove the tape from the back.
3. Mix up the sticks, then try to put them back together. You can make a more difficult puzzle by using more sticks.

# Week 3

## OVERVIEW

### Writing Focus

- Students review directions for sequence, completeness, accuracy, and clarity.
- Students explore using *and*, *but*, and *or* in directions.
- Students proofread their drafts for spelling, punctuation, and grammar.
- Students write final versions of their directions.
- Students present their directions to the class from the Author’s Chair.

### Social Development Focus

- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students help one another improve their writing.

### Online Resources

## **J** DO AHEAD

- ✓ Prior to Day 1, decide how you will combine pairs of students to form groups of four.
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA4) on page 113 of the *Assessment Resource Book*.
- ✓ Prior to Day 1, make a class set of the “Conference Notes: Focus 2” record sheet (CN2) on page 115 of the *Assessment Resource Book*.
- ✓ Prior to Day 2, create a new chart titled “Putting On Your Socks and Shoes.” Under the title, list the following steps:
  1. Put a sock on your right foot.
  2. Find your right shoe and put it on your right foot.
  3. Tie the laces on your right shoe.
  4. Put on the other sock on your left foot.
  5. Take your left shoe and put it on your left foot.
  6. Tie the laces on your left shoe.
  7. Make sure that your shoelaces are tight but not uncomfortable.
- ✓ Prior to Day 5, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student’s published piece.
- ✓ (Optional) Prior to Day 2, review the functional writing pieces you have written and select a single set of directions to use to model adding the coordinating conjunctions *and*, *but*, and *or* to it. Prepare your sample writing to display. Alternatively, you can use the “Sample Functional Writing” chart (WA16). To learn more, view “Planning a Lesson” (AV33).
- ✓ (Optional) If computers are available, you might have some students type and print out their functional writing pieces for the class book. You might want to recruit parent volunteers to help the students to do so. In addition, you might teach Technology Mini-lesson 7, “Creating Documents,” in Appendix A.

## TEACHER AS WRITER

*“You never know what you will learn until you start writing.”*

— Anita Brookner

Think of something you know how to do well, and imagine teaching someone else how to do it. Write a draft of the directions for this activity, and then ask yourself the questions on the “Writing Good Directions” chart. Revise the draft, if needed. Consider giving the directions to a friend or colleague to try the activity and give you feedback.

# Day 1

## Group Confering and Revising

### Materials

- “Writing Good Directions” chart from Week 2
- “Class Assessment Record” sheet (CA4)

### ELL Note

Consider combining pairs in such a way that English Language Learners who speak the same primary language are in groups together. This will provide support for their discussion about the activities.

### In this lesson, the students:

- Confer in groups of four about their directions
- Explore sequence, completeness, accuracy, and clarity in functional writing
- Ask for and receive feedback about their writing
- Give feedback in a helpful way
- Revise their directions

## GETTING READY TO WRITE

### 1 Exchange Directions

Have the students get their folders and pencils. Review that last week partners worked together to write directions for a class book. Explain that today each pair will join another pair to form a group of four, and then they will exchange directions with the other pair in the group (see “Do Ahead” on page 523). They will imagine following the other pair’s directions to do the activity and give helpful feedback.

Tell the students that, as they try to follow the directions, you would like them to ask themselves the questions on the “Writing Good Directions” chart from Week 2 and be ready to give the other pair feedback about the questions. If necessary, review the questions on the chart.

Put pairs together to form groups of four, and ask group members to sit together.

Have pairs exchange directions. Since each partner did his own writing, there should be two copies of the activity directions: one for each student in the other pair. Have the students each read and imagine following the directions.

### 2 Confer in Groups About Directions

After pairs have had sufficient time to read and imagine following each other’s directions, signal for the students’ attention. Redirect their attention to the “Writing Good Directions” chart, and use “Think, Pair, Share” to have partners discuss each question on the chart:

**Q** *Does the order of the directions make sense? [pause] Turn to your partner.*

**Q** *Does the reader have all of the information needed? [pause] Turn to your partner.*

**Q** *Are the directions accurate and clear? [pause] Turn to your partner.*

After partners have discussed all three questions, explain that they will give feedback to the other pair in the group about the directions. Ask and briefly discuss as a class:

**Q** *If you and your partner were confused about any of the directions, how might you give that feedback in a respectful and helpful way?*

**Students might say:**

"We could say, 'We're not sure we understand what this direction means. Could you please explain it?'"

"We could say that we're not sure what to do first and what to do next, and we could talk about it."

"We could say that we need more information to know what to do and ask what else they could say."

"We could say that it would help to see a picture of a step and ask them to draw one."

Have pairs give each other feedback. As they confer, circulate and observe.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students give one another useful feedback?
- Do they give and receive the feedback respectfully?
- Do the students discuss possible revisions?

Note any difficulties that you observe groups having and prepare to discuss them later as a class.

Record your observations on the "Class Assessment Record" sheet (CA4); see page 113 of the *Assessment Resource Book*.

After most of the groups have finished talking, signal for the students' attention. Ask and briefly discuss questions such as:

**Q** *What feedback did you get that helped you?*

**Q** *What was helpful about how the students in the other pair talked to you? Take a moment to thank them.*

**Q** *What suggestions do you have for how the students in the other pair might give feedback in the future? Take a moment to tell them.*

Explain that during Writing Time today, the students in each pair will use the feedback they received to help them revise their directions.

## WRITING TIME

### 3 Revise and Complete Drafts

Have partners work on revising their directions for 20–30 minutes. If they finish, they may write whatever they choose for the rest of the period.

When the students seem to be working independently, confer with one pair at a time.

## TEACHER CONFERENCE NOTE

This week, continue to confer with individual pairs about the activity directions each partner is writing for the class book. Have partners show and read you their directions. As you imagine or try to follow the directions, ask yourself:

- Are the directions clear and easy to follow?
- Are the directions in an order that makes sense?
- Are the directions complete and accurate?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *What do you need in order to do this activity? How will you write that?*
- Q *What is the first thing you do when you do this activity?*
- Q *I'm confused by this direction. How can you rewrite the direction so it's clear?*
- Q *What do you need to do to finish this activity? How will you write that?*

If partners have picked an activity that you feel is too complex for this writing assignment, help them pick a simpler activity to write about.

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 115 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Reflect on Revisions

Ask and briefly discuss:

- Q *What is one piece of feedback you and your partner gave to the other pair about their directions? Why did you give them this feedback?*
- Q *What is one of the changes you and your partner made to your directions today? Read it to us. Why did you make this change?*

Have the students place their directions in their folders until the next lesson.

## In this lesson, the students:

- Explore using the coordinating conjunctions *and*, *but*, and *or*
- Mark places in their directions where they use, or could use, *and*, *but*, and *or*
- Revise their directions for sequence, completeness, accuracy, and clarity
- Share the work fairly

## GETTING READY TO WRITE

### 1 Briefly Review Purpose of Revision

Have the students get their folders and pencils and sit at desks with partners together. Review that yesterday they revised their directions with feedback from another pair. Remind them that the purpose of revision is to make their directions as clear, complete, and as accurate as possible before they publish them in the class book. Explain that today they will think about another way they might revise their directions to make them more complete and accurate.

### 2 Discuss *And*, *But*, and *Or*

Write the words *and*, *but*, and *or* where everyone can see them. Tell the students that these are examples of joining words (coordinating conjunctions). Explain that authors of directions often use joining words to make writing clearer and easier to understand.

Direct the students' attention to the "Putting On Your Socks and Shoes" chart (see "Do Ahead" on page 523). Point to step 2 and ask:

**Q** *What joining word do you notice in this step?*

If necessary, explain that the joining word *and* is used in this step. Tell the students that *and* is used to join two ideas that go with each other. Ask:

**Q** *What two ideas go together in step 2?*

If necessary, explain that "Find your right shoe" and "put it on your right foot" go together. Point out that using *and* to put these two ideas together makes a smoother, easier-to-read sentence.

Point out that *and* is also used in step 5 to join two ideas that go with each other. Then point to step 7 and ask:

**Q** *What joining word do you notice in this step?*

If necessary, explain that the joining word *but* is used in this step, and explain that *but* is used to show a difference between two ideas. Explain that the author is using *but* to make clear that the shoelaces should be tight; however, they should not be uncomfortable.

## Materials

- "Putting On Your Socks and Shoes" chart, prepared ahead, and a marker
- "Revising to Add *And*, *But*, and *Or*" chart (WA15)
- Pad of small (1½" × 2") self-stick notes for each student
- Your sample directions OR "Sample Functional Writing Draft" chart (WA16)
- "Writing Good Directions" chart from Day 1
- "Writing Time" chart (WA17)

**TEKS 11.C.viii**

 page 527 and continuing on  
 to page 529)

TEKS 11.C.vi  
TEKS 11.C.x  
Student/Teacher Activity  
Step 4 and Step 5  
(all, beginning on page 528  
and continuing on to page

Remind the students that *or* is another joining word. Explain that *or* is used to show readers that they have a choice. As an example, point out that the author of these directions could add a note such as: *When you follow these directions, you may choose to start with your left foot or your right foot.* Add this sentence to the “Putting On Your Socks and Shoes” chart and point out the word *or*. Explain that this sentence is clearer and easier to read than two sentences such as *You may choose to start with your left foot. You may also choose to start with your right foot.*

### 3 Facilitate Guided Rereading of Directions

Have partners quietly reread their directions and look up when they are finished. Distribute self-stick notes to the students, and explain that you will ask them to look for and think about a few specific things in their drafts.

Display the “Revising to Add *And*, *But*, and *Or*” chart (🍷 WA15) and read the prompts aloud, one at a time, giving partners a few quiet minutes after each prompt to review their drafts and mark passages with the self-stick notes.

WA15

#### Revising to Add *And*, *But*, and *Or*

- Find a place where you use, or could use, the word *and* to join two ideas that go with each other. Put a self-stick note in the margin next to that place and write *and* on it.
- Find a place where you use, or could use, the word *but* to show a difference between two ideas. Put a self-stick note in the margin next to that place and write *but* on it.
- Find a place where you use, or could use, the word *or* to show readers that they have some choices. Put a self-stick note in the margin next to that place and write *or* on the note.

### 4 Model Revising to Add *And*, *But*, and *Or*

Display your own writing or the “Sample Functional Writing Draft” chart (🍷 WA16) and read it aloud. Ask the students to watch as you model adding *and*, *but*, and *or* to make the draft clearer and easier for readers to understand.

#### You might say:

“The sentences in the first bullet sound choppy and repetitive. Since they are closely related thoughts, I’ll join them into one longer sentence using *and*. The revised sentence is: *You should eat fruit and vegetables every day.* The second bullet suggests a choice of two different types of dance that readers might try, so I’ll combine those choices in a single sentence using the joining word *or*: *You might try hip-hop or ballet.* The third bullet explains that people should drink water or milk, not soda pop. I’ll join the first two sentences using *but* to highlight the difference between water and milk and soda pop. The revised sentence is: *Drink water or milk but not soda pop.*”

## Sample Functional Writing Draft

### Tips for Being Healthy

- You should eat fruit every day. <sup>and vegetables</sup> Also, you should eat vegetables every day.
- Get moving! Dance can be a fun way to exercise. There are lots of types of dance. You might try hip-hop. <sup>or ballet</sup> Ballet is another type of dance to try.
- Drink water or milk. <sup>but not</sup> Don't drink soda pop. Soda pop is bad for your teeth.

Explain that during Writing Time today, the students will follow the same procedure to revise their own directions. You might also invite them to review the “Writing Good Directions” chart and to ask themselves the questions on the chart as they revise.

## WRITING TIME

### 5 Continue Revising Drafts

Display the “Writing Time” chart (WA17) and have the students work silently on the charted tasks for 20–30 minutes.

### Writing Time

- Review the places you marked with self-stick notes.
- Add *and*, *but*, and *or* to make your directions clearer and easier to follow.
- Make any other revisions to make your directions clearer or easier to follow.
- Remove the self-stick notes as you finish revising.
- If you finish, work on another piece of functional writing.

Join the students in writing for a few minutes; then confer with individual pairs.

## TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about the activity directions each partner is writing for the class book. Have partners show and read you their directions. As you imagine or try to follow the directions, ask yourself:

- Are the directions clear and easy to follow?
- Are the directions in an order that makes sense?

(continues)

### Skill Practice Note

You might point out that joining words such as *and*, *but*, and *or* (coordinating conjunctions) are often used in compound sentences. Review that a compound sentence is formed when two simple sentences are combined into a single sentence. For practice forming compound sentences, see Lesson 3 in the *Skill Practice Teaching Guide*.

### TEKS 11.C.viii

## TEACHER CONFERENCE NOTE *(continued)*

- Are the directions complete and accurate?
- Have partners used *and*, *but*, or *or* to make the directions clearer and easier to understand?

Help partners revise unclear writing by rereading those passages to them and explaining what is confusing to you. Ask questions such as:

- Q *What do you need in order to do this activity? How will you write that?*
- Q *What is the first thing you do when you do this activity?*
- Q *I'm confused by this direction. How can you rewrite the direction so it's clear?*
- Q *What do you need to do to finish this activity? How will you write that?*
- Q *Where is a place you might use and, but, or or to make your directions clearer and easier to understand?*

If partners have picked an activity that you feel is too complex for this writing assignment, help them pick a simpler activity to write about.

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 115 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Share and Reflect on Revisions

Help the students reflect on their work during Writing Time today by asking questions such as:

- Q *Who added and, but, or or to their directions today? Read us that sentence. How does this make your directions clearer and easier to follow?*
- Q *What other revisions did you make today? Tell us about a revision.*

Explain that tomorrow partners will proofread their drafts and write final versions. Have the students place their directions in their folders until the next lesson.

**In this lesson, the students:**

- Proofread their drafts for spelling, punctuation, and grammar
- Write the final versions of their pieces
- Reach agreement before making decisions
- Share materials fairly

**GETTING READY TO WRITE****1 Discuss Proofreading for Spelling and Conventions**

Have the students get their folders, pencils, and *Student Writing Handbooks* and sit at desks with partners together. Remind the students that yesterday they revised their directions and that their directions will ultimately go into a class book of directions for things they know how to do.

Explain that today partners will work together to proofread their drafts and then start writing their final versions. Remind them that they should use their word banks and proofreading notes in their *Student Writing Handbooks* to help them proofread their drafts for spelling and correctness (see Unit 2, Week 2, Day 2 on page 100 and Unit 2, Week 2, Day 3 on page 105). Briefly review these procedures by reminding partners to:

- Circle words in their drafts that they are unsure how to spell and look them up in the word bank. Add any words that are not already in the word bank after looking up the correct spelling in a dictionary or other source.
- Use the proofreading notes as a list of things to check in their drafts before publishing. They will correct any errors by crossing out each error on the draft and writing the correction above it.

Ask and briefly discuss:

- Q *How will you and your partner be sure you agree that something needs to be changed and how to change it?*
- Q *What will you do if you don't agree at first?*

Encourage partners to keep their ideas in mind as they work together today.

**Materials**

- *Student Writing Handbooks*
- Supply of loose, lined paper for final versions
- (Optional) Computers for typing and printing final versions

## WRITING TIME

### 2 Proofread Drafts and Write Final Versions

Have partners work on proofreading their drafts. Provide lined paper to pairs who finish proofreading and are ready to begin their final versions. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with one pair at a time.

### TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about the activity directions each partner is writing for the class book. Have partners show and read you their directions. As you imagine or try to follow the directions, ask yourself:

- Are the directions clear and easy to follow?
- Are the directions in an order that makes sense?
- Are the directions complete and accurate?
- Have partners used *and*, *but*, or *or* to make the directions clearer and easier to understand?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *What do you need in order to do this activity? How will you write that?*
- Q *What is the first thing you do when you do this activity?*
- Q *I'm confused by this direction. How can you rewrite the direction so it's clear?*
- Q *What do you need to do to finish this activity? How will you write that?*
- Q *Where is a place you might use and, but, or or to make your directions clearer and easier to understand?*

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 115 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Reflect on Proofreading

Ask and briefly discuss:

- Q *What words did you find in your word bank today? How did you check on words that were not in the word bank?*
- Q *What corrections did you make in your draft after reviewing your proofreading notes?*

Have the students put loose papers into their folders, and explain that partners will finish working on their final versions tomorrow.

## In this lesson, the students:

- Finish writing their final versions
- Present their activity directions from the Author's Chairs
- Express interest in and appreciation for one another's writing
- Ask one another questions about their writing

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students get their folders and pencils and sit at desks with partners together. Explain that today they will finish working on the final versions of their activity directions. Pairs who finish will begin sharing their pieces from the Author's Chairs after Writing Time.

## WRITING TIME

### 2 Finish Final Versions

Display the "Writing Time" chart (WA18) and read it aloud.

#### Writing Time

- Finish proofreading your draft using your word bank and proofreading notes.
- Finish writing the final version of your activity directions.

WA18

Have the students think quietly to themselves about the following question:

**Q** *What do you need to work on today to be ready to share your activity directions from the Author's Chairs?*

After a moment, have partners begin working on their final versions. When they finish, they may write about anything they choose. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with one pair at a time.

## Materials

- "Writing Time" chart (WA18)
- Supply of loose, lined paper for final versions
- Two chairs to use for Author's Chair sharing
- (Optional) Computers for typing and printing final versions

## TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about the activity directions each partner is writing for the class book. Have partners show and read you their directions. As you imagine or try to follow the directions, ask yourself:

- Are the directions clear and easy to follow?
- Are the directions in an order that makes sense?
- Are the directions complete and accurate?
- Have partners used *and*, *but*, or *or* to make the directions clearer and easier to understand?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *What do you need in order to do this activity? How will you write that?*
- Q *What is the first thing you do when you do this activity?*
- Q *I'm confused by this direction. How can you rewrite the direction so it's clear?*
- Q *What do you need to do to finish this activity? How will you write that?*
- Q *Where is a place you might use and, but, or or to make your directions clearer and easier to understand?*

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 115 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Conduct Author's Chair Sharing

Gather the class with partners sitting together, facing the Author's Chairs. Explain that one student in each pair will read their directions. Give pairs of students a few moments to decide which partner will read their directions. If necessary, review the procedures you established for Author's Chair sharing in Unit 2, Week 2 (see "Do Ahead" on page 97).

Call on a pair of students to come to the Author's Chairs and read their activity directions aloud. Remind the reader to speak in a loud, clear voice, and remind the audience to show interest in and appreciation for their classmates' writing.

As they read, have the rest of the students close their eyes and imagine doing the activity.

At the end of the sharing, facilitate a discussion using questions like those that follow, and give the authors an opportunity to respond to the class's comments and questions.

**Q** *What did you learn about [making paper airplanes] from this pair's directions?*

**Q** *What questions can we ask [Emma] and [Ted] about what they wrote?*

Follow this procedure to have other pairs share from the Author's Chairs.

#### **4** Reflect on Audience Behavior During Author's Chair Sharing

Ask and briefly discuss:

**Q** *What did we do well as an audience today? What do we still want to work on the next time our authors share their work?*

**Q** *If you shared today, how did the audience members make you feel? What did they do that made you feel [relaxed/nervous/proud]?*

Explain that more pairs of students will share their directions from the Author's Chairs tomorrow.

---

## WRITING ABOUT READING

### Write Persuasively About Directions

Have partners briefly review their activity directions. Explain that each partner will write a persuasive letter to her classmates about why they should learn how to do her activity. Ask:

**Q** *Think about your activity directions. Why is it important, useful, or fun to know how to do this activity? In your opinion, why should people learn how to do this activity?*

**Students might say:**

"People should learn how to knit because knitting is fun and useful."

"Our directions tell how to make a bean-and-cheese burrito. That's useful to know how to do, and the recipe is delicious."

"People should read our directions if they have a pet hamster. It's important to know how to take care of a pet."

#### Teacher Note

The end-of-lesson reflection is important to the students' growth as writers and to their social development. We encourage you to allow at least 5 minutes at the end of each period to help the students reflect on their work and interactions.

For more information about social development,

see "Values and Social Skills" on page xxviii. To learn more, view "Social Reflection" (AV14).

Explain to the students that when they write their persuasive letters, they need to support their opinions with facts and details about their activities. Tell them that you will write a sample letter as if you had written directions with a partner. Ask the students to watch as you think aloud and model writing about why you think people in the class should learn how to do your activity.

**You might say:**

"I'll start by writing today's date and then a salutation: *Dear classmates.* I'll remember to put a comma after the word *classmates.* Now I can begin my letter on the next line. First, I'll write a sentence that tells my partner's name and our activity: *Milo and I wrote directions for making an origami cup.* Now I will write my opinion about our activity and why people in our class should learn how to do it: *I think that making an origami cup is a very fun and easy activity. All you need is a square piece of paper. It's easy to fold it a few times to make a cup.* Now I'll add a second reason: *Another reason why you will like this activity is that cups are useful. Even though an origami cup is made of paper, you can still drink out of it.* Now I'll write some concluding sentences to finish my letter: *I think you will enjoy making an origami cup, so please try following our directions.* Since this is a letter, I need to add a closing (with a comma after it) and then sign my name: *Sincerely, Mr. Ziegler.*"

Remind the students that they should each start their letters with today's date, a salutation, and opening sentences that state their partner's name, the title of their directions, and their opinion about the activity. Explain that the body of the letter should include one or two reasons why the other students should learn how to do this activity. Remind them that they should wrap up their letters with a closing and a signature. If time permits, invite the students to share their persuasive letters with the class. Include the letters with the activity directions in the class book at the end of the unit.

## In this lesson, the students:

- Reflect on functional writing
- Finish writing their final versions
- Present their activity directions from the Author's Chairs
- Express interest in and appreciation for one another's writing
- Ask one another questions about their writing

## GETTING READY TO WRITE

### 1 Review and Reflect on Functional Writing

Have the students get their folders and pencils and sit at desks with partners together. Remind them that they have been exploring functional writing that gives directions for how to do something. Direct their attention to the "Writing Good Directions" chart, and review the items on the chart. In pairs and as a class, discuss:

- Q *Which of these questions were the most challenging for you to think about as you wrote your directions, and why? Turn to your partner.*
- Q *What did you like best about writing your directions? Turn to your partner.*
- Q *What have you learned about functional writing? Turn to your partner.*

Remind the students that writers become better over time as they practice writing over and over. Encourage the students who feel drawn to functional writing to continue to read and write it during their free time.

Explain that today partners will finish writing the final versions of their directions and share them from the Author's Chairs.

## WRITING TIME

### 2 Finish Final Versions

Have partners work on their final versions. If they have already finished, they may write anything else they choose.

As pairs work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with one pair at a time.

## Materials

- "Writing Good Directions" chart from Day 2
- Supply of loose, lined paper for final versions
- Two chairs to use for Author's Chair sharing
- Copy of this unit's family letter (BLM1) for each student
- (Optional) Computers for typing and printing final versions

## Facilitation Tip

Reflect on your experience over the past three weeks with **avoiding repeating or paraphrasing** students' responses. Does this practice feel natural to you? Are you integrating it into class discussions throughout the school day? What effect is it having on the students? Are they participating more responsibly in class discussions? We encourage you to continue to try this practice and reflect on students' responses as you facilitate class discussions in the future.

## TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about the activity directions each partner is writing for the class book. Have partners show and read you their directions. As you imagine or try to follow the directions, ask yourself:

- Are the directions clear and easy to follow?
- Are the directions in an order that makes sense?
- Are the directions complete and accurate?
- Have partners used *and*, *but*, or *or* to make the directions clearer and easier to understand?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *What do you need in order to do this activity? How will you write that?*
- Q *What is the first thing you do when you do this activity?*
- Q *I'm confused by this direction. How can you rewrite the direction so it's clear?*
- Q *What do you need to do to finish this activity? How will you write that?*
- Q *Where is a place you might use and, but, or or to make your directions clearer and easier to understand?*

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 115 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Conduct Author's Chair Sharing

Gather the class with partners sitting together, facing the Author's Chairs. Remind the students that one student in each pair will read the directions. As you did yesterday, give each pair of students a few moments to decide which partner will read their directions.

Call on a pair of students to come to the Author's Chairs and read their directions aloud. Remind authors to speak in a loud, clear voice. Also remind the audience to show interest in and appreciation for their classmates' writing. At the end of the sharing, facilitate a discussion using questions like those that follow, and give the authors an opportunity to respond to the class's comments and questions.

- Q *What did you learn about [riding a bicycle] from this pair's directions?*
- Q *What questions can we ask [Max] and [Lea] about what they wrote?*

Follow this procedure to have other pairs share from the Author's Chairs.

### Teacher Note

Make time in the coming days for pairs to share their directions from the Author's Chairs until all of the students have had a chance to do so.

## 4 Reflect on Audience Behavior During Author's Chair Sharing

Ask and briefly discuss:

- Q *What did we do well as an audience today? What do we still want to work on the next time authors share their work?*
- Q *If you shared today, how did the audience members make you feel? What did they do that made you feel [relaxed/nervous/proud]?*

Assure pairs of students who have not yet shared that they will get to share their piece from the Author's Chairs in the coming days. Explain that after all of the directions are read aloud, you will compile them into two identical books (one book for each partner's directions) and place the books in the class library so that the students can read and enjoy them on their own.

---

## EXTENSION

### Write Letters Home About Functional Writing

Provide letter-writing practice for the students by having them write letters home telling what they learned about functional writing. Stimulate their thinking by reviewing the "Writing Good Directions" chart and discussing questions such as:

- Q *What did you learn about functional writing?*
- Q *What steps did you go through to develop and publish your directions?*
- Q *What functional writing might you read or write at home?*

If necessary, review the elements of a letter (date, address, salutation, body, closing, and signature) by modeling or writing a shared sample letter with the class. Have the students write and proofread their letters; then attach each student's letter to a copy of his published activity directions and send it home.

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of the Functional Writing genre unit. You will need to reassign partners before you start the next genre unit.
- Send home with each student the student's published piece and a copy of this unit's family letter (BLM1). Encourage the students to share their published directions with their families. Remind the students to bring the pieces back to class after their families have read them so they can be placed in the class books.

---

### Teacher Note

For information on wrapping up this unit and conducting unit assessments, see "End-of-unit Considerations" on this page.

---

### Skill Practice Note

For practice with using commas in the addresses of letters, see Lesson 28 in the *Skill Practice Teaching Guide*.

- Save the students' published writing (or copies of it) to use for reflection and discussion in Unit 9.

### Assessments

- Before continuing with the next unit, take this opportunity to assess individual students' writing from this unit. See "Completing the Individual Writing Assessment" (IA1) on page 118 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students' published writing home to share with their families, you might have each student analyze his writing using the "Student Self-assessment" record sheet (SA1) on page 117 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension "Introduce 'Student Self-assessment'" on page 116.

# Genre

# Opinion Writing

During this three-week unit, the students read and write persuasive essays defending particular opinions as they explore elements of opinion writing. They brainstorm topics they have strong opinions about, and each student selects an opinion to write about. The students learn to identify an audience and purpose for their essays, state their opinions and support them with reasons, and use transitional words and phrases to connect opinions with reasons. They write clear, direct introductions and conclusions that restate their opinions, and they practice relevant skills and conventions, such as correcting sentence fragments and using adjectives to make their essays more persuasive. They confer in pairs and revise their essays based on partner feedback. Socially, they learn to express their own opinions while respecting and considering the opinions of others. They also express interest in and appreciation for one another's writing.

# Week 1

## OVERVIEW

### Essays

#### “School Should Start Later in the Morning”

(see page 565)

If school started later, students would be healthier and learn more.

#### “Rats Are the Coolest Pets”

(see page 567)

Rats are the best pets because they are smart, friendly, clean, and easy to care for.

#### “Don’t Change Our Start Time”

(see page 566)

If school started later in the morning, after-school activities and family schedules would be disrupted.

#### “Why You Should Get a Dog”

(see page 568)

Dogs are the best pets because they are loyal, come in many shapes and sizes, and help people get more exercise.

## TEACHER AS WRITER

*“We do not write because we want to; we write because we must.”*

— W. Somerset Maugham

In this unit, the students explore opinion writing—a type of writing intended to persuade readers of the author’s opinion through well-thought-out argument and evidence. Much writing that states and supports an opinion arises from an author’s sense that something is amiss and needs to be addressed or corrected.

Make a list of topics that you feel compelled to address in your own life, community, country, or the world. What bothers you about these things? Are they unfair? Inconvenient? Wrong in other ways? Jot down some notes about your thoughts in your notebook.

### Writing Focus

- Students hear and discuss persuasive essays.
- Students identify the purpose and audience for persuasive essays.
- Students think about what information is communicated in persuasive essays.
- Students generate opinions they feel strongly about for persuasive essays.

### Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students respectfully consider the opinions of others.
- Students work in a responsible way.

## DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see “Random Pairing” on page xxix and “Considerations for Pairing ELLs” on page lii. For more information, view “Cooperative Structures Overview” (AV9).
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1) on page 130 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA2) on page 131 of the *Assessment Resource Book*.

# Day 1

## Exploring Opinion Writing

### Materials

- “School Should Start Later in the Morning” (see page 565)
- *Student Writing Handbook* page 17

### In this lesson, the students:

- Work with new partners
- Share what they learn about their partners
- Hear and discuss a persuasive essay
- Think about the author’s purpose
- Write about things that interest them

### ABOUT OPINION WRITING

In this unit, the students explore the elements of opinion writing by crafting persuasive essays, and they learn that the purpose of a persuasive essay is to persuade the reader of the author’s opinion. They identify topics that they have strong opinions about and think about who the intended audience of a persuasive essay might be. They explore how essays can be structured as they learn to state an opinion in the opening paragraph, support the opinion in subsequent paragraphs, use transitional words to connect opinions and reasons, and reaffirm their opinion in closing.

Although the students are not expected to research their topics in grade 3, you might wish to incorporate a research focus into this unit by having the students find data and other information about their topics to support their positions. If so, be ready to help them find appropriate resources about their topics at the library or on the Internet.

There are two phases to this unit: Immersion and Drafting (two weeks) and Revision, Proofreading, and Publication (one week). During the first phase, the students explore and try their hand at writing persuasive essays. In the second phase, they write, revise, and publish their persuasive essays for a class collection, and they consider ways to publish their essays for a wider audience beyond the classroom.

### GETTING READY TO WRITE

#### 1 Pair Students and Discuss Working Together

Randomly assign partners (see “Do Ahead” on page 547) and make sure they know each other’s names. Explain that partners will work together for the next three weeks.

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Have partners take a few

### Teacher Note

The partners you assign today will stay together for the unit. If necessary, take a few minutes at the beginning of today’s lesson to let them get to know each other better by talking informally in a relaxed atmosphere.

### Teacher Note

If you are using other programs from the Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the writing lessons.

minutes to talk about some of the things they have written so far this year. Signal for their attention and ask:

- Q *What did you learn about the writing your partner has done this year?*
- Q *What have you learned about working with other partners that will help you in working with your new partner?*

## 2 Read “School Should Start Later in the Morning” Aloud

Explain that in this unit the students will focus on writing a special kind of nonfiction. Tell them that you will read aloud a short *essay*, or piece of nonfiction writing. Ask them to think about what the essay is about and why they think the writer wrote the essay.

Without identifying it as a persuasive essay, read “School Should Start Later in the Morning” (on page 565) aloud slowly and clearly.

### ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

- yawning:** opening our mouths wide because we are sleepy
- go “Zzzz”:** sound people sometimes make when they are sleeping
- exercise our brains:** make our brains work hard

## 3 Reread the Essay and Discuss the Author’s Purpose

Have the students turn to page 17 in their handbooks. Have partners read “School Should Start Later in the Morning” together. Ask them to think, as they read, about what the essay is about and why the author wrote it. After partners have had a chance to read the essay, signal for their attention. Ask and briefly discuss:

- Q *What is the essay about?*
- Q *Why do you think the author wrote the essay?*

### Students might say:

- “The essay is about why school should start later in the morning.”
- “I agree with [June]. I also think it’s about why kids need more sleep.”
- “I think the author wrote the essay because he wants to sleep later in the morning.”
- “In addition to what [Mario] said, I think he also wrote it because he wants to try to get his school to change the time when it starts.”

If necessary, explain that the author is trying to *persuade*, or convince, readers that school should start later in the morning; this is the author’s *purpose*, or reason for writing.

### Teacher Note

To review the procedure for defining vocabulary during the read-aloud, see Unit 1, Week 2, Day 2, on page 29. For more information, view “Introducing Vocabulary During a Read-aloud” (AV30).

**TEKS 10.A.i**  
Student/Teacher Activity  
Step 3 (all, beginning on page 549 and continuing on to page 550)

### Teacher Note

Regularly remind the students to use the discussion prompts they learned when they participate in class discussions. The prompts are:

- “I agree with \_\_\_\_\_ because . . .”
- “I disagree with \_\_\_\_\_ because . . .”
- “In addition to what \_\_\_\_\_ said, I think . . .”

## Teacher Note

If necessary, explain to the students that an *opinion* is a strongly held point of view. When we give an opinion, we are telling what we think about something.

## Teacher Note

Note that on Days 1 and 2 of this week, the students may practice opinion writing or write about anything else they choose. On Day 3, after exposure to more examples of opinion writing, all the students will be asked to begin writing in this genre.

Point out that the author states his opinion clearly in the first paragraph: “That’s why I think school should start later in the morning.” Then, in the paragraphs that follow, the author gives several reasons that support his opinion.

Explain that this kind of nonfiction writing, in which the author tries to persuade readers to agree with his opinion, is called a *persuasive essay*. Tell the students that they will spend the next few weeks exploring and learning to write persuasive essays. Ask:

**Q** *When might you want to write a persuasive essay? When might you want to persuade a reader to agree with an opinion you feel strongly about?*

### Students might say:

“If you think something is wrong in our country, you might write to someone who could fix it, like the president.”

“If you want stay up later, you might write to your parents explaining why they should change your bedtime.”

“I agree with [Nina]. You might write about your opinion to try to convince other people to agree with you.”

Explain that during Writing Time today the students may begin thinking about opinions they have that they might want to write a persuasive essay about, or they may write about anything else they choose.

## WRITING TIME

### 4 Write Independently

Have the students get their notebooks and pencils and sit at desks with partners together for 20–30 minutes of silent writing. During this time, they may list opinions or topics they might want to write a persuasive essay about or write about anything they choose.

If necessary, remind the students that all of their writing should be double-spaced and that there should be no talking, whispering, or walking around during the silent writing period. Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Briefly Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. Alert the students to be ready to share their partners’ ideas with the class. After a moment, signal for their attention and ask:

**Q** *What did your partner write about today?*

**Q** *What did you and your partner do to work well together when you were talking and sharing your writing?*

## In this lesson, the students:

- Hear and discuss a persuasive essay
- Think about the author's audience and purpose
- Generate possible opinions for persuasive essays
- Write about things that interest them

## GETTING READY TO WRITE

### 1 Discuss Audience

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Review that yesterday the students read a persuasive essay titled "School Should Start Later in the Morning." Ask:

**Q** *What do you remember about the author's opinion in this essay? Turn to your partner.*

Have partners discuss their thinking. After a few moments, signal for students' attention and have them turn to page 17 of their handbooks and briefly review the essay. Ask:

- Q** *What is the author's purpose, or what is his reason for writing this essay?*
- Q** *Who might the author be trying to convince that school should start later in the morning, and why?*

#### Students might say:

"I think this author is writing to his teacher. He thinks his teacher would be happy if school started later because then students would be awake and learn more."

"In addition to what [Jasper] said, I think the author is trying to convince his parents. He says, 'Grown-ups need sleep, too' and says his mom gets sick when she doesn't sleep enough."

Point out that, while many different kinds of people may read a persuasive essay, authors of persuasive essays usually have a certain kind of *audience* (reader) in mind when they are writing. In this case, the audience is probably teachers or parents.

Title a piece of chart paper "Things We Notice About Persuasive Essays." Under the title, add the following items: *Author's purpose is to convince the reader about something* and *Author writes with a certain audience in mind*.

Explain that today the students will hear and read a persuasive essay by a different author. Encourage them to think about this author's purpose for writing and the audience she might have in mind.

## Materials

- "Don't Change Our Start Time" (see page 566)
- *Student Writing Handbook* pages 17–18
- Chart paper and a marker

page 552 and continuing on  
to page 553)

## 2 Read “Don’t Change Our Start Time” Aloud

Have the students turn to page 18 of their handbooks, and invite them to follow along as you read the essay. Read “Don’t Change Our Start Time” (on page 566) aloud slowly and clearly, clarifying vocabulary as you read.

### ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

**rush:** hurry

**volunteer:** do things for free that help the community

**sleep in:** sleep for a long time, until late in the morning

## 3 Discuss the Author’s Audience and Purpose

Ask:

**Q** *What is the author’s purpose in writing this essay, or what is she trying to convince us of? Turn to your partner.*

After a moment, have a few volunteers share their thinking.

#### Students might say:

“She’s trying to convince us that school shouldn’t start later in the morning.”

“I agree with [Aliyah]. I think the author wants us to agree with her that school should start early, at the normal time.”

Remind the students that in the persuasive essay they read yesterday, the author tried to convince them of the opposite point of view. Ask and briefly discuss:

- Q** *Who do you think is the audience for “Don’t Change Our Start Time,” or who is the author writing to?*
- Q** *In the first paragraph, the author tells us exactly what her opinion is: “It’s better for school to start early, at the normal time.” She then gives several reasons that support her opinion. What reasons does she give?*
- Q** *Compare this essay to the one you read yesterday. Which essay is more persuasive to you, and why?*

**Students might say:**

"I think the author is writing to the principal of her school because the principal is the person who gets to decide what time school starts."

"I agree with [Juan]. The audience might also be other students at school who want the school day to start later. The author might be trying to change their minds and show them why it's better for school to start early."

"One of the reasons she gives is that if school started later, kids wouldn't have enough time after school to do fun activities, like playing soccer."

"I think today's essay is more persuasive. The author did a good job of writing about ways it would be bad for kids, and also for their parents, if school started later."

## 4 Generate Possible Opinions for Persuasive Essays

Explain that people often write persuasive essays when they have strong opinions about whether something is good or bad, or right or wrong. In the two essays the students have read so far, one author thinks that the school day should start later in the morning, while the other thinks that it is better for school to start at the regular time. Title a sheet of chart paper "Possible Opinions for Persuasive Essays." Under the title write *School should start later* and *School should start at the normal time*.

Ask the students to pay attention as you write a few other opinions on the chart. Add a few sentences that reflect opinions that you hold.

### Possible Opinions for Persuasive Essays

- School should start later.
- School should start at the normal time.
- People should pick up their trash.
- Comic books are the most interesting books to read.
- A skateboard is the best way to go places.
- Taking turns on the playground is important.

Use "Think, Pair, Share" to discuss:

**Q** What opinions do you have that you might want to write a persuasive essay about? [pause] Turn to your partner.

### Teacher Note

To review the procedure for "Think, Pair, Share," see Unit 1, Week 2, Day 2 (page 29). To see an example, view "Using 'Think, Pair, Share'" (AV13).

## Teacher Note

If the students struggle to come up with ideas, ask follow-up questions such as:

- Q *What is something that annoys or bothers you [at school/at home/in our community/in the world]?*
- Q *What is something you feel strongly about?*
- Q *What do you think is really, really cool or important?*

## Teacher Note

Save the “Possible Opinions for Persuasive Essays” chart to use on Day 3 and throughout the unit. Tomorrow you will model choosing one opinion from the chart and using it to do a quick-write.

Have a few volunteers share their thinking.

### Students might say:

- “I think it’s wrong to make fun of people.”
- “I have a strong opinion that my mom should only serve me tuna fish once a month.”
- “Basketball is the most exciting sport.”
- “I think that it’s important to be polite.”
- “Everyone should have a home.”

As the students generate ideas, record them on the chart. Tell them that you will add to the chart as they think of more ideas in the coming days.

Explain that today the students may continue to think about and list opinions for persuasive essays, write about some of their opinions, or write about anything else they choose.

## WRITING TIME

### 5 Write Independently

Have the students get their notebooks and pencils and sit at desks with partners together. Display the “Writing Time” chart (WA1) and have them write silently for 20–30 minutes.

#### Writing Time

- Think about and list opinions you might want to write about in a persuasive essay.
- Write about your opinions.
- Write about anything you choose.

WA1

Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Briefly Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. Alert the students to be ready to share their partners’ ideas with the class. After a moment, signal for their attention and ask:

- Q *What did your partner write about today?*
- Q *What did you and your partner do to work well together when you were talking and sharing your writing?*

## In this lesson, the students:

- Hear, discuss, and write persuasive essays
- Think about features of persuasive essays
- Think about the author’s audience and purpose
- Quick-write about their opinions

## GETTING READY TO WRITE

### 1 Review Persuasive Essays

Have the students bring their *Student Writing Handbooks*, notebooks, and pencils and gather with partners sitting together, facing you. Review that they read two persuasive essays earlier this week on the topic of school start times. Have them open their handbooks to page 17 and briefly review “School Should Start Later in the Morning.” After a few minutes, ask them to turn to page 18 and review “Don’t Change Our Start Time.”

When the students have finished reviewing the essays, ask and briefly discuss:

- Q *What opinion does each author have about when school should start?*
- Q *What are some reasons the authors give to support their opinions?*

Review that both “School Should Start Later in the Morning” and “Don’t Change Our Start Time” are examples of persuasive essays. Point out that each author clearly states an opinion early in the essay and then gives several reasons to support that opinion.

Direct the students’ attention to the “Things We Notice About Persuasive Essays” chart from Day 2. Leave a blank line or space below the most recent entry. Add the following items after the blank: *Author clearly states opinion early in the essay* and *Author gives reasons that support the opinion*.

Explain that today the students will hear and read another persuasive essay, this one on a different topic. Invite them to think as they read about what they notice the author doing.

### 2 Read “Rats Are the Coolest Pets” Aloud

Have the students turn to page 19 of their handbooks. Invite them to follow along as you read “Rats Are the Coolest Pets” (on page 567) aloud. Read the essay aloud slowly and clearly.

## Materials

- “Rats Are the Coolest Pets” (see page 567)
- *Student Writing Handbook* pages 17–19
- “Things We Notice About Persuasive Essays” chart from Day 2
- “Possible Opinions for Persuasive Essays” chart from Day 2
- Chart paper and a marker
- “Writing Time” chart (WA2)

## Teacher Note

On Week 2, Day 2, the students will learn about writing clear, direct openings that readers can easily understand. Leaving a blank line, as described here, will allow for this item to appear in a logical sequence when it is added to the “Things We Notice About Persuasive Essays” chart in Week 2.

### ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

**twinkly:** bright and shiny

### 3 Discuss the Author's Audience and Purpose

Ask and briefly discuss:

- Q *What is the author's purpose in writing, or what is he trying to convince us to believe?*
- Q *Who do you think the author's audience is, or who is he writing to?*
- Q *In the sentence "Believe it or not, I think rats are the coolest pets," the author tells us exactly what his opinion is. Then he gives us several reasons for his opinion. What reasons does he give?*
- Q *Do you agree or disagree with the author's opinion? Why?*

#### Students might say:

"I think the author is writing to kids who want to have a pet. He is trying to convince them that they should get a rat."

"I agree with [Ina]. The author says that rats are the coolest pets because they are smart and friendly. He also says that rats are easy to take care of."

### 4 Quick-write: Opinions

Direct the students' attention to the "Possible Opinions for Persuasive Essays" chart and review the items on it. Explain that the students will each choose one opinion from the chart that they feel strongly about and do a 5-minute quick-write about it. Ask the students to watch as you model doing a quick-write about an opinion.

Select an opinion you can write about from the "Possible Opinions for Persuasive Essays" chart. On another piece of chart paper, model first writing a sentence stating that opinion, followed by some reasons that support it. Think aloud as you write.

**You might say:**

"I'll choose an opinion from the chart that I feel strongly about so that I'll be able to think of plenty of things to write. My opinion is that people should pick up their trash. First, I'll write an opening sentence that states my opinion: *I think that people should always pick up their trash.* Notice that I state my opinion clearly and in one sentence so that the reader can understand it right away. Next, I'll try to persuade the reader by writing reasons that support my opinion. Here's my first reason: *Trash makes our streets and sidewalks dirty. It isn't fun to walk around because trash is everywhere.* Now I'll write a second reason that supports my opinion: *Also, when people don't pick up their trash, it is bad for nature. It's hard for plants to grow when the ground is covered with trash.* Here is a third reason: *Trash can hurt animals, too. For example, an animal might eat it and get sick.*"

When you finish writing, review that you stated your opinion clearly in the first sentence. Point out that you also wrote a few reasons that support your opinion.

Use "Think, Pair, Share" to discuss:

**Q** Which opinion on the chart will you choose, and what will you write?  
[pause] Turn to your partner.

After partners have talked, ask the students to each open to the next blank page of their notebooks and write for 5 minutes.

When time is up, call for the students' attention and have a few volunteers share what they wrote with the class. Explain that during Writing Time today you would like all the students to write about their opinions. Each student may continue the piece he started during the quick-write, or he may start a new piece and write about another opinion he feels strongly about.

## WRITING TIME

### 5 Write Independently

Ask the students to return to their seats. Display the "Writing Time" chart (WA2) and have them write silently for 10–15 minutes.

#### Writing Time

- Continue the piece you started during the quick-write.
- Start a new piece about another opinion you have.

WA2

#### Teacher Note

Save the charted model quick-write to use on Day 4.

#### Teacher Note

Today's Writing Time has been shortened to 10–15 minutes to accommodate the teacher modeling, cooperative work, and quick-write in Step 4.

# Day 4

## Exploring Opinion Writing

### Materials

- “Things We Notice About Persuasive Essays” chart from Day 3
- Charted model quick-write from Day 3
- “Writing Time” chart (WA3)
- “Possible Opinions for Persuasive Essays” chart from Day 3
- “Class Assessment Record” sheet (CA1)

Remind the students to double-space all writing in their notebooks so that they have space to revise later, if necessary. Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Briefly Share Writing and Reflect

Ask and briefly discuss questions such as:

- Q *What opinion did you write about today?*
- Q *Who stated an opinion clearly in one sentence? Read it to us.*
- Q *What reasons did you give for your opinion? Read one reason to us.*

Explain that the students will continue to write about their opinions tomorrow.

### In this lesson, the students:

- Hear, discuss, and write persuasive essays
- Think about features of persuasive essays
- Think about the author’s audience and purpose

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students get their notebooks and pencils and sit at desks with partners together. Remind the students that yesterday they read a third persuasive essay, “Rats Are the Coolest Pets,” and continued adding to their list of things they notice about persuasive essays. Ask:

- Q *What are some things we notice about persuasive essays?*

**Students might say:**

"Persuasive essays tell about the author's opinion."

"I agree with [Edie]. People write these essays to convince other people to agree with them."

"We notice that authors explain their opinions at the beginning of the essays."

"In addition to what [Ron] said, the authors write reasons that support their opinions."

If necessary, briefly review the items on the "Things We Notice About Persuasive Essays" chart. If the students suggest new ideas, add them to the chart.

Review that yesterday the students also did a quick-write about an opinion they feel strongly about. Direct the students' attention to the charted model quick-write from Day 3 as an example. Remind them that they stated their opinions clearly at the beginning and then wrote some reasons that supported their opinions. Ask:

**Q** *What opinion did you write about yesterday?*

**Q** *What is a reason you gave to support your opinion?*

After a few volunteers have shared, explain that today the students will continue writing about their opinions. Ask:

**Q** *What other opinions do you have that you might want to write about?*

*Turn to your partner.*

## WRITING TIME

### 2 Write Independently

Display the "Writing Time" chart (WA3) and have the students write silently for 20–30 minutes.

#### Writing Time

- Continue the opinion piece you started yesterday during the quick-write.
- Start a new piece about an opinion you have.
- State your opinion clearly in your piece.
- Add reasons that support your opinion.

WA3

Remind the students that they may refer to the "Possible Opinions for Persuasive Essays" chart for ideas. Join them in writing for a few minutes; then walk around the room and observe.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to identify opinions to write about?
- Can they state their opinions clearly in their writing?
- Can they give reasons that support their opinions?

If you notice many students struggling to write after 10–15 minutes, call for the class’s attention and have a few volunteers share what they have written so far; then have the students resume writing on their own for a few more minutes.

Record your observations on the “Class Assessment Record” sheet (CA1); see page 130 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

### Facilitation Tip

During this unit, we invite you to practice **responding neutrally with interest** during class discussions. To respond neutrally means to refrain from overtly praising (for example, “Great idea” or “Good job”) or criticizing (for example, “That’s wrong”) the students’ responses. While it may feel more natural to avoid criticism rather than praise, research shows that both kinds of responses encourage students to look to you, rather than themselves, for validation. To build the students’ intrinsic motivation, try responding with genuine curiosity and interest (for example, “Interesting—say more about that”) while avoiding evaluative statements, whether positive or negative. To see this Facilitation Tip in action, view “Responding Neutrally with Interest” (AV24).

## SHARING AND REFLECTING

### 3 Briefly Share Writing and Reflect

Ask and briefly discuss questions such as:

- Q *What opinion did you write about today?*
- Q *Who stated an opinion clearly at the beginning of your piece? Read it to us.*
- Q *What reasons did you give for your opinion? Read one of them to us.*

Explain that the students will continue to write about their opinions tomorrow.

## In this lesson, the students:

- Hear and discuss a persuasive essay
- Think about the author’s audience and purpose
- Write about their opinions
- Respectfully consider the opinions of others

## GETTING READY TO WRITE

### 1 Gather and Review Persuasive Essays

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Review that yesterday they read a persuasive essay about a type of pet. Have the students open their handbooks to page 19, and give them a few minutes to review the essay. Then ask and briefly discuss:

**Q** *What opinion does the author of this essay have about pet rats?*

#### Students might say:

“The author thinks that rats make the best pets.”

“I agree with [Yael]. The author says that rats are the coolest pets because they’re clean and smart.”

“Also, the author thinks that rats are really great pets because they don’t need a lot of space.”

Direct the students’ attention to the “Things We Notice About Persuasive Essays” chart. Review that in a persuasive essay, the author has a purpose and an audience in mind, clearly states an opinion early in the essay, and includes reasons that support the opinion.

Explain that today the students will hear and read another persuasive essay about pets, this one with a different point of view. Invite them to think about what the author’s opinion is in this essay.

### 2 Read “Why You Should Get a Dog” Aloud

Have the students turn to page 20 of their handbooks. Invite them to follow along as you read “Why You Should Get a Dog” (on page 568) aloud. Read the essay aloud slowly and clearly, clarifying vocabulary as you read.

## Materials

- “Why You Should Get a Dog” (see page 568)
- *Student Writing Handbook* pages 19–20

### ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

**drowning:** dying in water

**allergies:** uncomfortable physical reactions (like sneezing, itching, or getting a rash) from being near something

### 3 Discuss the Author’s Audience and Purpose

Ask and briefly discuss:

**Q** *What sentence early in the essay tells us exactly what this author’s opinion is about dogs?*

If necessary, explain that this sentence in the first paragraph states the author’s opinion: “I believe that dogs are the best pets ever.” Remind the students that the author’s purpose in a persuasive essay is to convince the reader to agree with her opinion. Then have partners briefly discuss:

-  **Q** *What are some reasons the author gives to support her opinion that dogs are the best pets? Turn to your partner.*
- Q** *Who do you think is the audience, or who is the author writing to? Turn to your partner.*

Invite a few volunteers to share their responses with the class.

#### Students might say:

“One reason the author gives is that dogs are very loyal. They love their owners and try to protect them.”

“Another reason why the author says that dogs are the best is that when you have a dog, you get more exercise. That’s because you have to walk a dog every day.”

“I think the audience is people who want to get a pet but can’t decide what kind.”

### 4 Add to the “Possible Opinions for Persuasive Essays” Chart

Direct the students’ attention to the “Possible Opinions for Persuasive Essays” chart and review the items on it. Remind the students that the two essays they read about school start times had *opposing* opinions, or opinions that are the opposite of each other. Point out that the two essays about pets have opposing opinions, too. Add the following sentences to the chart: *I think rats are the coolest pets* and *Dogs are the best pets*. Ask:

**Q** *What other opinions do you have that you might write a persuasive essay about?*

Add any suggestions to the chart.

Explain that during Writing Time today you would like all the students to write about their opinions. Remind the students to state their opinions clearly in their writing and to include reasons that support their opinions. Tell them that they may refer to the “Possible Opinions for Persuasive Essays” chart for ideas.

## WRITING TIME

### 5 Write Independently

Have the students get their notebooks and pencils and sit at desks with partners together. Display the “Writing Time” chart (WA4) and have them write silently for 20–30 minutes.

#### Writing Time

- Continue the opinion piece that you started yesterday.
- Start a new piece about an opinion you have.
- State your opinion clearly in your piece.
- Add reasons that support your opinion.

WA4

Join the students in writing for a few minutes; then walk around the room and observe.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to identify opinions to write about?
- Can they state their opinions clearly in their writing?
- Can they give reasons that support their opinions?

If you notice many students struggling to write after 10–15 minutes, call for the class’s attention and have a few volunteers share what they have written so far; then have the students resume writing on their own for a few more minutes.

Record your observations on the “Class Assessment Record” sheet (CA2); see page 131 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

### Teacher Note

Save the “Possible Opinions for Persuasive Essays” and the “Things We Notice About Persuasive Essays” charts to use in Week 2.

## SHARING AND REFLECTING

### 6 Share Writing and Discuss Disagreeing Respectfully

Ask partners to share what they wrote with each other. Alert the students to be ready to share their partners' ideas with the class. After a few moments, signal for their attention and ask:

- Q *What opinion did your partner write about today?*
- Q *Do you have the same opinion as your partner or a different opinion? Explain.*

Explain that in the coming week, the students will each develop a persuasive essay on a topic they feel strongly about. They will share their opinions in pairs and with the whole class, and they may sometimes disagree or have opposing opinions. Ask:

- Q *Why is it important that we find a respectful way to talk to one another about our opinions, especially if we disagree?*

#### Students might say:

"It's important to talk about our opinions because that's how we learn from each other."

"It's important to be respectful because we're all allowed to have our own opinions."

"It's OK if we disagree. We're not all going to think the same thing all the time."

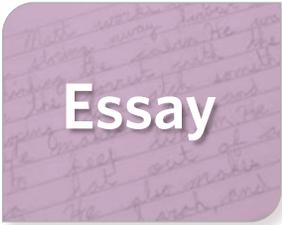

Explain that the students will explore ways to talk about their opinions in a respectful way in the coming weeks.

## EXTENSION

### Discuss Opinions About Favorite Books or Movies

Remind the students that when they really like (or dislike) something, they have a strong opinion about it. Point out that they probably have several reasons for an *opinion*. Ask the students to each think of a favorite book or movie and the reasons they like it so much. Then invite volunteers to share their opinions with the class. Take time to discuss each opinion and the reasons the student feels that way.

## Essay

### School Should Start Later in the Morning

I hate getting up early in the morning. It's so hard to get out of my nice warm bed. I want to sleep more! In fact, everyone should get more sleep. That's why I think school should start later in the morning.

If school started later, kids could sleep later. Then we wouldn't be so tired in class. When kids are tired, it's hard to learn. Nothing seems interesting. We just sit there yawning. We want to close our eyes and go "Zzzz . . ." But when we get to sleep longer, we feel wide awake. We want to exercise our brains and learn new things. We should sleep longer because then we would be more awake in class and learn more. That would make teachers smile, because teachers always want kids to learn more.

Also, sleep is really good for you. Kids need a lot of sleep because it helps us grow. For example, I grew 2 inches last year. This year I want to grow 3 inches. Grown-ups need sleep, too. My mom says that she gets sick if she doesn't sleep enough. So, if school started later, everyone would sleep more in the morning. Then everyone would be healthier.

More sleep is good for everyone. Sleep helps kids learn, and that makes teachers happy. Also, sleep makes us all healthier. That's why I think school should start later in the morning. Let's all get more sleep!

## Essay

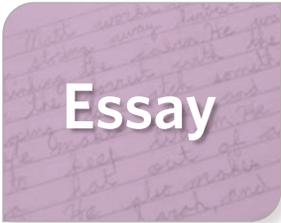

### Don't Change Our Start Time

Some people say that school should start later in the morning. I don't agree. There are many reasons why it's better for school to start early, at the normal time.

It would cause problems for families if school started later in the morning. Many parents take their kids to school and then go to work. They have to be at work at a certain time. They can't be late! If school started later, then those parents would have to rush to work. They might drive too fast, and that would not be safe. Also, they might arrive at work late and get into trouble.

If school started later, then it would finish later, too. That would be bad because then kids wouldn't be able to do after-school activities. Lots of kids play sports, volunteer, and do other fun things after school. For example, I play soccer every Tuesday and Thursday afternoon right after school. It's one of my favorite things to do. But if school finished later every day, I wouldn't have time for soccer.

As you can see, it wouldn't work to have school start later in the morning. It would be bad for parents, and it would be bad for kids, too. Anyway, if you really want to sleep in, that's what the weekend is for.

## Essay

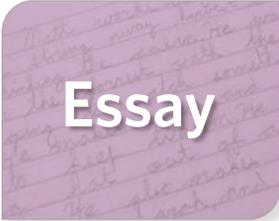

### Rats Are the Coolest Pets

Some kids like dogs, and some kids like cats. Believe it or not, I think rats are the coolest pets. I should know because I have an amazing pet rat named Zippy. So if you're thinking of getting a pet, how about a rat? Rats are great in so many ways.

First, rats are friendly and really smart. You can teach them fun things. I taught Zippy to sit on my arm and ride around with me. I also taught him to come to me when I call his name! How smart is that? Rats are also very clean. Maybe you thought they were smelly, like some other pets. Well, I'm here to tell you that rats smell fine. Also, rats are interesting to look at. They have twinkly eyes and soft fur. If you had a pet rat, I bet everyone in your family would enjoy it.

Next, pet rats are easy to take care of. For example, they don't need to go on walks. Since rats are small, they don't even need a yard. My rat Zippy has a nice big cage, and that's his home. Also, pet rats won't mess up your stuff like dogs sometimes do. They won't chew on tables or chairs. Your parents would love that.

Now you know why I think rats are the coolest pets. They are friendly, smart, clean, and easy to take care of. If you want a pet, I think you should definitely get a rat. You will love it and so will your family!

## Essay

### Why You Should Get a Dog

When I walk down the street with my frisky, fluffy, brown dog, Boomer, everyone smiles at us. People just love dogs . . . they can't help it! I believe that dogs are the best pets ever.

Dogs are the best because they are loyal. That means dogs love the people who take care of them. Dogs want to make them happy. In fact, they will even protect them. For example, I read about a brave dog that saved its owner from a terrible fire. Another dog saved a boy from drowning. A cat or a rat or a bird couldn't do those things.

Also, dogs are wonderful because they come in many different shapes and sizes. Since there are so many, there is definitely a dog out there somewhere that's just right for you. Maybe you want a small, cuddly dog. You can find one easily. Maybe you want a big, strong dog that loves to run and play. There are plenty of dogs like that. Maybe you have allergies, and you want a dog that won't make you sneeze. There are even dogs like that!

Last of all, having a dog is great for your health. That's because dogs need to go on walks every day. Walking is good for people, too. Did you know that most people don't get enough exercise? Walking your dog is a fun, easy way to get more exercise. You can't walk a cat or another type of pet!

If you want a pet, I really think you should get a dog. They are the most loyal, loving, and wonderful pets in the world.

## OVERVIEW

### Essay

#### “Computers in Our Classrooms”

(see page 591)

In this writer’s opinion, it is very important for students to have enough computers in their classrooms.

## TEACHER AS WRITER

*“I’m still doing business at the same old stand—love, work, war, death, what the world is like outside this window tonight.”*

— Alan Dugan

Look at the list of topics you feel compelled to address that you wrote in Week 1. Select one item on the list and write a paragraph that expresses your opinion about why this topic is important and what you think should be done about it. Do the same for several other items on the list that you feel strongly about.

### Writing Focus

- Students hear and discuss persuasive essays.
- Students each choose a topic and write a persuasive essay about it.
- Students state opinions and use reasons to support them.
- Students explore transitional words and phrases.
- Students explore clear, direct openings and conclusions for persuasive essays.

### Social Development Focus

- Students listen to the thinking of others and share their own.
- Students respectfully consider the opinions of others.
- Students express interest in and appreciation for one another’s writing.
- Students act in fair and caring ways.

## DO AHEAD

- ✓ Prior to Day 1, make a class set of the “Conference Notes” record sheet (CN1) on pages 133–134 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, decide if you will allow small groups of students to visit the library, media center, computer lab, or another location in the school to research their topics during Writing Time. Arrange for this ahead of time with the librarian or other adults in the school.
- ✓ Prior to Day 4, prepare a sheet of chart paper titled “Transitional Words and Phrases for Persuasive Essays.” Under the title, list the following: *also, because, first, for example, in fact, last, next, since, therefore*.

# Day 1

## Exploring Opinion Writing

### Materials

- “Computers in Our Classrooms” (see page 591)
- *Student Writing Handbook* page 21
- “Things We Notice About Persuasive Essays” chart from Week 1 and a marker
- “Possible Opinions for Persuasive Essays” chart from Week 1
- Class set of “Conference Notes” record sheets (CN1)

### Teacher Note

The Getting Ready to Write routine established early in the year helps the students quickly settle into the lesson. For more information, view “Predictable Structure of the Writing Lessons” (AV3).

### Teacher Note

For more information about opinion writing, view “Exploring Opinion Writing” (AV52).

### In this lesson, the students:

- Hear, discuss, and write a persuasive essay
  - Think about the author’s audience and purpose
  - Choose an opinion and audience for a persuasive essay **TEKS 9.E.i**
  - Respectfully consider the opinions of others **TEKS 9.E.iv**
  - Agree and disagree in a caring way
- Student/Teacher Activity Step 1 (all, on page 572) and Step 4 (all, on page 573)**

## GETTING READY TO WRITE

### 1 Briefly Review Persuasive Essays

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Remind the students that last week they began exploring persuasive essays. They read four persuasive essays—two about what time school should start and two about the best kind of pet. Ask:

**Q** *What did you learn last week about persuasive essays?*

Briefly review the “Things We Notice About Persuasive Essays” chart and add any new ideas to the chart. Remind the students that they brainstormed opinions that they might want to write a persuasive essay about. Review the items on the “Possible Opinions for Persuasive Essays” chart.

### 2 Discuss Expressing Personal Opinions

Explain that the authors of last week’s essays expressed their opinions, even though they probably knew some people would disagree with them. Ask and briefly discuss:

**Q** *If you really believe something, why is it important to express that opinion even though others might not agree with you?*

#### Students might say:

“It’s important to express your opinion because other people might learn from what you say.”

“When we all say our opinions, we have more interesting discussions.”

“I agree with [Elijah]. Everyone’s opinion counts. Plus, if you don’t say your opinion, how will people know what you really think?”

Tell the students that they will read and discuss another persuasive essay today, and then they will begin writing persuasive essays about opinions that are important to them. Tell them that it is important for

all the students in the class to feel safe and comfortable expressing their opinions, both in speaking and in writing. Ask:

**Q** *What can you do when listening to other people's opinions to make it safe and comfortable for everyone?*

**Students might say:**

"When I'm listening to someone's opinion, I can try to see things from that person's point of view."

"I can try to listen really carefully and be nice, even if I don't agree."

"If I disagree with someone, I can use our prompt 'I disagree with him because . . .'"

Encourage the students to keep these ideas in mind as they listen to others' opinions. Tell them that you will check in with them later to see how they did.

### 3 Read "Computers in Our Classrooms" Aloud

Have the students open to page 21 of their handbooks. Invite them to follow along as you read the essay "Computers in Our Classrooms" (on page 591) aloud, slowly and clearly.

### 4 Discuss the Author's Audience and Purpose

Ask:

**Q** *What is the author trying to convince us about in this essay? Turn to your partner.*

**Q** *Who is the audience, or who do you think the author is trying to convince? Turn to your partner.*

**Q** *What reasons does the author give to support the opinion that there should be more computers in his school? Turn to your partner.*

Have a few volunteers share their thinking.

**Students might say:**

"I think the author wants to convince us that there should be more computers in the classrooms at his school."

"The author says that he hopes his school principal and teachers will read his essay, so I think they are the audience."

"One reason the author gives for why his school really needs computers is that computers help students learn more."

As a class, discuss:

**Q** *Do you agree or disagree with the opinion in this essay? Why?*

#### Facilitation Tip

Continue to focus on **responding neutrally with interest** during class discussions by refraining from overtly praising or criticizing the students' responses. Instead, build the students' intrinsic motivation by responding with genuine curiosity and interest; for example:

- "Interesting—say more about that."
- "What you said makes me curious. I wonder . . ."
- "You have a point of view that's [similar to/different from] what [Malia] just said. How is it [similar/different]?"

## 5 Select an Opinion and Audience for a Persuasive Essay

Direct the students’ attention to the “Possible Opinions for Persuasive Essays” chart and review the items on it. Add the sentence *Students need more computers in their classrooms* to the chart. Ask:

Q *What other opinions for persuasive essays could we add to the chart?*

Add the students’ suggestions to the chart. Explain that today the students will each choose one opinion that they have not yet written about and begin writing a draft of a persuasive essay in their notebooks. This week they will work on writing and developing their essays, including revising their opening sentences. Next week they will revise their essays further and proofread them. Then they will publish their essays for the class to read.

Use “Think, Pair, Share” to discuss:

Q *What opinion do you feel strongly about? Is this opinion strong enough to publish a persuasive essay about it? [pause] Turn to your partner.*

Q *In addition to your classmates, who will the audience for your essay be, or who will you be trying to convince? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class. As they report, emphasize that they should keep their audience in mind as they write today.

#### You might say:

“[Rashid] says he wants to convince his dad that he should be allowed to visit his cousins this summer. While he is writing his essay, he’s going to remember who he is trying to convince.”

## WRITING TIME

### 6 Write Independently

Have the students get their notebooks and pencils, sit at desks with partners together, and work on their persuasive essays for 20–30 minutes. Remind them to write their drafts double-spaced in their notebooks. Join them in writing for a few minutes; then begin conferring with individual students.

TEKS 12.B.ii  
TEKS 12.C.i  
Student/Teacher Activity  
Step 6 (all, beginning on page 574  
and continuing on to page 575)

## TEACHER CONFERENCE NOTE

Over the next two weeks, confer with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Does the student state her opinion clearly in the opening paragraph?
- Does the student give a few different reasons that support her opinion?

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 133 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 7 Briefly Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. Alert the students to be ready to share their partners’ ideas with the class. After a moment, signal for their attention and ask questions such as:

Q *What opinion did your partner write about today? Who is your partner trying to convince in his or her essay?*

Q *Do you and your partner agree or disagree with each other’s opinions? Turn to your partner.*

Q *What did your partner say to let you know that he or she respects your opinion?*

Tell the students that they will continue to develop their persuasive essays tomorrow.

- “Rats Are the Coolest Pets” chart (WA6)
- “Why You Should Get a Dog” chart (WA7)
- “Things We Notice About Persuasive Essays” chart from Day 1 and a marker
- *Student Writing Handbook* pages 19–21
- “Writing Time” chart (WA8)

**TEKS 12.C.ii**  
 Student/Teacher Narrative  
 Step 1 and Step 2  
 (all, beginning on page 576 and  
 continuing on to page 577)

### In this lesson, the students:

- Explore, discuss, and write clear, direct openings and clear statements of opinion in persuasive essays
- Draft persuasive essays
- Express interest in and appreciation for one another’s writing

## GETTING READY TO WRITE

### 1 Discuss Clear, Direct Opening Paragraphs

Have the students get their *Student Writing Handbooks*, notebooks, and pencils and sit at desks with partners together. Briefly review that yesterday they each chose an opinion they feel strongly about and began writing a persuasive essay. Explain that over the next four days they will develop their essays and that you will help them focus on and strengthen various parts of the essays to make them as persuasive as possible.

Direct the students’ attention to the “Things We Notice About Persuasive Essays” chart. Review that good persuasive essays have a clear statement of opinion early in the piece, usually in the opening paragraph.

Explain that the opening paragraph in a good persuasive essay is also written clearly and directly so that readers can easily understand it. In the blank space that you left in the “Things We Notice About Persuasive Essays” chart in Week 1, write *Author’s opening paragraph is clear and direct*. Tell the students that today they will look closely at the opening paragraphs of several essays to see what the authors did to make them clear and direct.

### 2 Analyze Opening Paragraphs

Display the “Computers in Our Classrooms” chart (WA5) and have the students look at the essay on page 21 of their handbooks. Read the first paragraph aloud as they follow along, and then ask:

**Q** *What sentence in the opening paragraph of this essay tells us exactly what the author’s opinion is?*

Underline the sentence “I think it is very important for schools to have enough computers for students to use,” and ask the students to do the same in their handbooks. Point out that in this sentence, the author lets the reader know exactly what the essay is about by stating his opinion

clearly and directly. Point out that the author uses the phrase *I think* at the beginning of the sentence. Ask:

**Q** *Why might it be a good idea to use the phrase I think or I believe in the sentence that states your opinion?*

**Students might say:**

"It helps the reader find the place in your essay where you come right out and say your opinion."

"In addition to what [Leo] said, it makes your opinion very clear. You're saying, 'This is what I believe.' No one can get confused about what your opinion is."

Briefly discuss:

**Q** *How does the author make the rest of the opening paragraph clear and direct?*

**Students might say:**

"The paragraph isn't too long. The author gets to the important part really fast."

"I agree with [Erin]. You know right away that the essay is about computers."

Display the "Rats Are the Coolest Pets" chart (WA6) and have the students look at the essay on page 19 of their handbooks. As you did with "Computers in Our Classrooms," read the first paragraph aloud as the students follow along. Then ask:

**Q** *What sentence in the opening paragraph of this essay tells us exactly what the author's opinion is?*

**Q** *What do you notice about the way the author writes his opening paragraph?*

Underline the sentence "I think rats are the coolest pets," pointing out the phrase *I think*. Note also that this author writes clearly and directly in the rest of the opening paragraph, for example, in the sentence "Rats are great in so many ways."

Display the "Why You Should Get a Dog" chart (WA7) and follow the same procedure, reading the first paragraph of the essay aloud as the students follow along on page 20 of their handbooks. Underline the sentence "I believe that dogs are the best pets ever," pointing out the phrase *I believe*. Explain that the opening paragraph is clear, straightforward, and easy for readers to understand.

Point out that in both "Rats Are the Coolest Pets" and "Why You Should Get a Dog," the authors write clear, direct opening paragraphs. They also make their statements of opinion clear by using the phrase *I think* or *I believe*. Remind the students that those phrases help readers quickly understand what the author's opinion is.

### Teacher Note

You might tell the students that instead of *I think* or *I believe*, authors might use other phrases when stating their opinions. Phrases such as *I strongly feel* and *I am certain* help make opinions clear and direct.

**TEKS 12.C.ii**  
Student/Teacher Activity  
Steps 3–5  
(all, beginning on page  
578 and continuing on to  
page 579)

### 3 Analyze Opening Paragraphs of the Students' Essays

Have the students reread the drafts of their essays quietly to themselves. After a moment, ask them to think—again, quietly to themselves—about the questions that follow. Pause after each question to give the students time to think. Ask:

- Q *In the opening paragraph of your essay, is there a sentence that states your opinion clearly? [pause] If not, what might you write?*
- Q *After reading the opening paragraph of your essay, will your audience understand what the essay is about? [pause] If not, what can you write to make your opening paragraph clearer and more direct for readers?*

Have partners discuss what they thought about. After a few moments, signal for their attention and have a few volunteers share their thinking with the class.

## WRITING TIME

### 4 Write Independently

Display the “Writing Time” chart (WA8) and have the students write silently for 20–30 minutes. If necessary, remind them to double-space their drafts.

#### Writing Time

- Work on your persuasive essay.
- Make sure to state your opinion clearly in the opening paragraph.
- Make sure that the rest of your opening paragraph is clear and direct.
- Make sure to give reasons that support your opinion.

WA8

Join the students in writing for a few minutes; then confer with individual students.

## TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about his piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Does the student state his opinion clearly in the opening paragraph?
- Is the opening paragraph clear and direct?
- Does the student give a few different reasons that support his opinion?

Help the student extend his thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *How can you make your opening paragraph clearer and more direct?*
- Q *What reason will you write about first? Second?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 133 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Share Opening Sentences and Reflect

Explain that each student will read aloud the sentence in which she states her opinion. Ask the students to listen carefully to one another’s sentences. Tell them to think about which sentences state the author’s opinion clearly and directly.

Go around the room and have each student read aloud the sentence in which she states her opinion, without comment. When all of the students have read, ask and briefly discuss:

- Q *What sentences did you hear that stated the author’s opinion clearly and directly?*

Explain that the students will continue to develop their persuasive essays tomorrow.

### Teacher Note

To see an example of this technique, view “Sharing Opening Sentences and Reflecting” (AV53).

### Materials

- “Why You Should Get a Dog” from Week 1 (see page 568)
- “School Should Start Later in the Morning” from Week 1 (see page 565)
- “Things We Notice About Persuasive Essays” chart from Day 2 and a marker
- *Student Writing Handbook* pages 17 and 20
- “Writing Time” chart (WA9)

### Teacher Note

In the third paragraph, the supporting reason is that dogs come in many different shapes and sizes. The author provides further support by describing various types of dogs. In the fourth paragraph, the supporting reason is that having a dog is great for people’s health. The author gives details about exercise that strengthen this reason.

### In this lesson, the students:

- Explore how authors use supporting reasons in persuasive essays
- Draft persuasive essays
- Express interest in and appreciation for one another’s writing
- Respectfully consider the opinions of others
- Agree and disagree in a caring way

## GETTING READY TO WRITE

### 1 Analyze Supporting Paragraphs of Essays

Have the students get their *Student Writing Handbooks*, notebooks, and pencils and sit at desks with partners together. Direct the students’ attention to the “Things We Notice About Persuasive Essays” chart. Review that good persuasive essays have a clear statement of opinion and that they also give reasons that support the opinion.

Explain that today the students will look more closely at how authors of persuasive essays write and organize the reasons that support their opinions. Then the students will think about how they can make the supporting reasons in their own essays more persuasive.

Have the students turn to page 20 of their handbooks, where “Why You Should Get a Dog” appears. Remind them that yesterday they reread the first paragraph to see how the author clearly and directly states an opinion. Explain that today you will reread the body (middle paragraphs) of the essay. Ask the students to follow along and think about how the author has organized this essay.

Read the first two paragraphs of “Why You Should Get a Dog” (on page 568) aloud. Explain that after stating her opinion in the first paragraph, the author uses the second paragraph to begin supporting her opinion. Point out that the supporting reason in this paragraph is that dogs are loyal and protect their owners. Note that the author strengthens this reason by giving examples of some dogs that saved people’s lives.

Read the third and fourth paragraphs aloud as the students follow along. Point out that each of the paragraphs gives a reason that supports the author’s opinion. Then ask:

**Q** *Why might an author want to put each supporting reason in a separate paragraph?*

**Students might say:**

"It helps you follow the essay. She gives you her opinion and then follows it with supporting reasons, one after another."

"It would be confusing if all her supporting reasons were in one paragraph and all mixed up."

Follow the same procedure with "School Should Start Later in the Morning" (on page 565). Reread the first three paragraphs aloud as the students follow along on page 17 of their handbooks. Ask the students to think about how the author has organized the reasons that support his opinion. Point out that this essay is organized in a way similar to the previous one: after the author states his opinion in the first paragraph, he states a supporting reason in each of the following paragraphs and gives more information about each reason.

Direct the students' attention to the "Things We Notice About Persuasive Essays" chart and add *Author puts each supporting reason in its own paragraph.*

## 2 Analyze the Supporting Paragraphs of the Students' Essays

Have the students reread the drafts of their essays quietly to themselves. After a moment, ask them to quietly think about the following questions as you ask them, one at a time. Pause between each question to give the students time to think.

**Q** *What are the reasons that support your opinion?*

**Q** *What can you add to your essay to give more information about your supporting reasons?*

Have partners turn and discuss what they thought about. After a few moments, signal for their attention and have a few volunteers share their thinking with the class.

## 3 Prepare to Write and Discuss Resources

Explain that during Writing Time today the students will continue to work on their persuasive essays, giving reasons to support their opinions. Encourage them to refer back to the two essays they looked at today to help them organize their own essays.

Point out that some students may want to do research to find more information to include about their reasons. Invite them to look for information on the Internet or in the class or school library. Ask:

**Q** *Where might you look for information about the reasons you've chosen to research?*

If you decide to have small groups of students visit the library, media center, or another location in the school to look for more information, discuss how the students will take responsibility for themselves outside the classroom. Ask:

**Q** *What will you do to act in a considerate and responsible way [at the library]? Why is that important?*

Step 2 (all)

### Technology Tip

See the technology extension "Use the Internet to Research Topics" on page 583 for ideas on how to support the students in researching online.

## WRITING TIME

### 4 Write Independently

Display the “Writing Time” chart (📄 WA9) and have the students write silently for 20–30 minutes.

#### Writing Time

- Work on your persuasive essay.
- Include reasons that support your opinion.
- Think about what you can add to give more information about your reasons.

WA9

Remind the students to look at “Why You Should Get a Dog” and “School Should Start Later in the Morning,” if they wish, to help them organize their own essays. Join the class in writing for a few minutes; then confer with individual students.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Does the student state her opinion clearly in the opening paragraph?
- Is the opening paragraph clear and direct?
- Does the student give a few different reasons that support her opinion?
- Does the student include more information about supporting reasons?

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *How can you make your opening paragraph clearer and more direct?*
- Q *What reason will you write about first? Second?*
- Q *What is some more information you can write about your reasons?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 133 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Share Opinion Statements and Reflect

Explain that each student will read one sentence from his essay that he feels is especially persuasive. Ask the students to listen carefully to their classmates' sentences and to think about whether they agree or disagree with the opinions or reasons. Give the students a few minutes to select a sentence.

Go around the room and have each student read his sentence aloud, without comment. When all the students have read their sentences, ask and briefly discuss:

- Q *What sentences did you hear that made you curious?*
- Q *What sentences did you hear that you agree with? Why?*
- Q *What sentences did you hear that you disagree with? Why?*
- Q *How are we doing with respectfully listening to one another and talking about our opinions? What can we do better?*

Explain that the students will continue drafting their persuasive essays tomorrow.

## TECHNOLOGY EXTENSION

### Use the Internet to Research Topics

You might choose to have the students research their topics online. If they need support for doing so, you might teach Technology Mini-lesson 3, "Choosing Effective Search Terms," located in Appendix A. (If only some students need support, you might teach Mini-lesson 3 to just those students.) You might customize Technology Mini-lesson 3 for this unit by using the essay "School Should Start Later in the Morning" as an example. Model searching online to find more information to strengthen the essay's supporting paragraphs. You might begin by considering one of the essay's supporting ideas, such as "Sleep helps kids learn more," "Sleep is important for good health," or "Kids need to get lots of sleep," and then model creating effective search terms. Possible search terms include "sleep and learning," "sleep good health," or "kids sleep needs."

You might also teach the following Technology Mini-lessons, located in Appendix A: Mini-lesson 4, "Understanding Search Results," Mini-lesson 5, "Using Filters to Narrow Results," and Mini-lesson 6, "Evaluating Research Sources." For more information about teaching Technology Mini-lessons 3–6, see "About Teaching the Online Research Lessons" on page 710.

# Day 4

## Drafting Persuasive Essays

### Materials

- “Things We Notice About Persuasive Essays” chart from Day 3 and a marker
- “Transitional Words and Phrases for Persuasive Essays” chart, prepared ahead
- “Why You Should Get a Dog” chart (WA7) from Day 2
- *Student Writing Handbook* page 20
- “Writing Time” chart (WA10)

### Teacher Note

If you have already taught the Personal Narrative, Fiction, and/or Expository Nonfiction genre units, remind the students that they explored transitional words and phrases in those units. Explain that the transitional words and phrases listed on the chart are especially useful in persuasive essays.

### Technology Tip

For more transitional words and phrases, you might search online using the keywords “transitional words and phrases.”

### Teacher Note

You might want to explain that the word *because* helps the reader understand that one reason why you should get a dog is *because* they are loyal. The phrase *for example* helps the reader understand that “a brave dog that saved its owner from a terrible fire” is an *example* of how dogs are loyal.

### In this lesson, the students:

- Explore how authors use transitional words and phrases in persuasive essays
- Draft persuasive essays
- Express interest in and appreciation for one another’s writing
- Respectfully consider the opinions of others
- Agree and disagree in a caring way

## GETTING READY TO WRITE

### 1 Explore Transitional Words and Phrases

Have the students bring their *Student Writing Handbooks*, notebooks, and pencils and gather with partners sitting together, facing you. Review that this week they are drafting persuasive essays about opinions they feel strongly about. Explain that they will continue to work on their drafts today.

Explain that one way the students might make their essays clearer and easier to follow is by adding *transitional words and phrases*. Explain that these are words and phrases that help readers understand how an opinion and the reasons that support it are linked (connected). On the “Things We Notice About Persuasive Essays” chart, add *Author uses transitional words and phrases to link opinion and reasons*.

Direct the students’ attention to the “Transitional Words and Phrases for Persuasive Essays” chart. Read aloud the words and phrases listed on the chart. Ask:

**Q** *What other transitional words and phrases might you use in a persuasive essay to link your opinion and the supporting reasons?*

Add the students’ ideas to the chart.

### 2 Analyze Transitional Words and Phrases in “Why You Should Get a Dog”

Display the “Why You Should Get a Dog” chart (WA7) and have the students open to *Student Writing Handbook* page 20, where the essay is reproduced. Read the first two paragraphs aloud as the students follow along. Point out that the author uses the transitional words and phrases *because*, *in fact*, and *for example* in the second paragraph. Underline those words and phrases on the chart. Explain that these transitional words and phrases help the reader understand how the reasons are connected to the opinion.

Have the students quietly read the third and fourth paragraphs of the essay in their handbooks. When most students have finished reading, ask partners to work together to underline transitional words and phrases. Remind them to refer to the “Transitional Words and Phrases for Persuasive Essays” chart, if necessary, and to think about other transitional words they may know. After a few minutes, signal for the students’ attention and ask:

**Q** *What is a transitional word or phrase you underlined? Read the sentence where you found it.*

### 3 Analyze the Students’ Writing for Use of Transitional Words

Have the students reread their persuasive essay drafts and look up when they are finished. Say the following prompt, and then give the students a few quiet minutes to review their writing and mark passages.

- Find a place where you use, or might use, a transitional word or phrase to connect a reason back to your opinion. Draw a small star in the margin next to that place.

Have partners turn and share their ideas with each other. After a few moments, signal for the students’ attention and have a few volunteers share their thinking with the class.

Explain that the students will continue to work on their persuasive essays today. Encourage them to use transitional words and phrases to help readers connect their opinion and supporting reasons.

## WRITING TIME

### 4 Draft Persuasive Essays

Display the “Writing Time” chart (🗨️ WA10). Have the students return to their seats and work silently for 20–30 minutes on the charted tasks.

#### Writing Time

- Continue writing your persuasive essay.
- Include reasons that support your opinion.
- Use transitional words and phrases to connect your opinion and supporting reasons.

WA10

Remind the students to refer to the “Transitional Words and Phrases for Persuasive Essays” chart, if they wish. Join the class in writing for a few minutes; then confer with individual students.

#### Teacher Note

If necessary, point out that the author uses the transitional words and phrases *also*, *since*, *last of all*, and *because* in the third and fourth paragraphs.

#### Skill Practice Note

You might point out that *because* and *since* are examples of subordinating conjunctions. For more practice using subordinating conjunctions in complex sentences, see Lesson 4 in the *Skill Practice Teaching Guide*.

#### Teacher Note

Save the “Transitional Words and Phrases for Persuasive Essays” chart to use throughout the unit.

## TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about his piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Does the student state his opinion clearly in the opening paragraph?
- Is the opening paragraph clear and direct?
- Does the student give a few different reasons that support his opinion?
- Does the student include more information about supporting reasons?
- Does the student use transitional words and phrases?

Help the student extend his thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *How can you make your opening paragraph clearer and more direct?*
- Q *What reason will you write about first? Second?*
- Q *What is some more information you can write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 133 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Briefly Share Writing and Reflect

Ask and briefly discuss questions such as those that follow. Invite volunteers to read one or two sentences of their writing aloud as they share.

- Q *Who added a transitional word or phrase to your essay? Tell us about it.*
- Q *How will adding this [word/phrase] help readers understand what you are saying in your essay?*

Explain that tomorrow the students will finish drafting their persuasive essays.

## In this lesson, the students:

- Explore how authors conclude persuasive essays
- Finish drafting persuasive essays
- Express interest in and appreciation for one another's writing

## GETTING READY TO WRITE

### 1 Analyze Conclusions of Essays

Have the students get their *Student Writing Handbooks*, notebooks, and pencils and sit at desks with partners together. Remind them that this week they explored how authors begin persuasive essays, clearly state opinions, support their opinions with reasons, and use transitional words and phrases to connect opinions and reasons. Explain that today the students will explore how authors conclude (end) their essays. Then they will think about how they want to conclude their own essays.

Have the students open to page 19 of their handbooks, where the essay “Rats Are the Coolest Pets” is reproduced (see page 567). Ask partners to review it together, focusing on the last paragraph of the essay. Encourage them to think about what the author writes in the last paragraph. After a few moments, signal for their attention and ask:

- Q *What do you notice about the last paragraph of this essay?*
- Q *What words or phrases show you that the essay has reached an end?*

#### Students might say:

“The author says his opinion again, but in a way that’s a bit different.”

“I can tell it’s the end because the author says he hopes that the reader will get a rat for a pet.”

If necessary, point out that the author restates (states again) his opinion at the end of the essay. Direct the students’ attention to the “Things We Notice About Persuasive Essays” chart and add *Author restates opinion at the end* to it.

Following the same procedure, have the students open to page 21 of their handbooks, where the essay “Computers in Our Classrooms” is reproduced (see page 591). Have partners review the essay, focusing on the last paragraph. After a few moments, signal for their attention and ask:

- Q *What do you notice about the last paragraph of this essay?*
- Q *What words or phrases show you that the essay has reached an end?*

## Materials

- “Rats Are the Coolest Pets” from Week 1 (see page 567)
- “Computers in Our Classrooms” from Day 1 (see page 591)
- *Student Writing Handbook* pages 19 and 21
- “Things We Notice About Persuasive Essays” chart from Day 4 and a marker
- “Writing Time” chart (WA11)

### TEKS 12.C.ii

#### Student/Teacher Activity

#### Steps 1–5

(all, beginning on page 587 and continuing on to page 590)

**Students might say:**

"I notice that the author says his opinion again."

"I agree with [Lauren]. The author says his opinion again, but in a different way: 'That's why I think that they should try hard to get more computers for our classrooms.'"

If necessary, point out that this author also restates his opinion at the end of the essay.

## 2 Review Conclusions of the Students' Essays

Have the students review the drafts of their own persuasive essays for a few moments; then use "Think, Pair, Share" to discuss:

**Q** *What might you write to restate your opinion at the end of your essay?*  
[pause] *Turn to your partner.*

Signal for their attention and have a few volunteers share their thinking with the class.

## 3 Prepare to Write

On the "Things We Notice About Persuasive Essays" chart, underline the following four ideas:

- Author clearly states opinion early in the essay.
- Author gives reasons that support the opinion.
- Author uses transitional words and phrases to link opinion and reasons.
- Author restates opinion at the end.

Explain that during Writing Time today the students will finish drafting their persuasive essays and get ready to revise, proofread, and publish them next week. Tell them that when they believe they are finished, they should look at the underlined items on the "Things We Notice About Persuasive Essays" chart to make sure they have included these things in their essays. They should also carefully reread their essays to check that they make sense.

# WRITING TIME

## 4 Write Independently

Display the "Writing Time" chart (📄 WA11). Have the students work silently for 20–30 minutes on the charted tasks.

### Writing Time

- Finish writing your draft.
- Check the underlined items on the “Things We Notice About Persuasive Essays” chart.
- Carefully reread your essay to make sure it makes sense.

Join the students in writing for a few minutes; then confer with individual students.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Does the student state her opinion clearly in the opening paragraph?
- Is the opening paragraph clear and direct?
- Does the student give a few different reasons that support her opinion?
- Does the student include more information about supporting reasons?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating her opinion?

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *How can you make your opening paragraph clearer and more direct?*
- Q *What reason will you write about first? Second?*
- Q *What is some more information you can write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*
- Q *How can you restate your opinion at the end of your essay?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 133 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

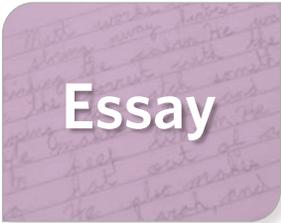

### 5 Share Concluding Paragraphs and Reflect

Explain that each student will read the last paragraph of his essay aloud. Ask the students to listen carefully to one another and to think about whether they can tell what each person's essay is about from the last paragraph.

Go around the room and have each student read his last paragraph aloud, without comment. When all have read, ask and briefly discuss:

- Q *Could you tell what most of the essays are about from the last paragraph? Why or why not?*
- Q *What's interesting about hearing just the last paragraph of other people's writing?*

Explain that the students will revise, proofread, and publish their persuasive essays next week.

## Essay

### Computers in Our Classrooms

We live in an amazing time. Computers are changing how we live and work. I think it is very important for schools to have enough computers for students to use.

Students need computers so we can get on the Internet. The Internet is very good for learning. There are many great websites for students. We can see videos of animals we're studying in science class. We can read interviews with famous authors. We can chat online with students in other parts of the country.

When the kids of today are all grown up, we will be living in a world filled with technology. If we don't learn how to use computers and technology now, we won't be able to get good jobs. Right now in our classroom, we have just one computer. Only one or two students at a time can use it. That means we never get enough practice with the computer. We really need more computers!

I hope that our school principal and teachers will read this. They want us to learn a lot. They want us to do great things when we grow up. That's why I think that they should try hard to get more computers for our classrooms.

# Week 3

## OVERVIEW

### Writing Focus

- Students confer about their persuasive essays.
- Students revise their essays based on partner feedback.
- Students correct sentence fragments.
- Students proofread their essays for accuracy and correctness.
- Students publish their persuasive essays for the class and possibly for a wider audience.

### Social Development Focus

- Students help one another improve their writing.
- Students express interest in and appreciation for one another's writing.
- Students listen respectfully to the thinking of others and share their own.
- Students respectfully consider the opinions of others.
- Students make decisions and solve problems respectfully.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA7, WA12–WA16

#### Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “Conference Notes” record sheet (CN1)
- “Individual Writing Assessment” record sheet (IA1)
- “Student Self-assessment” record sheet (SA1)

#### Reproducibles

- Opinion Writing genre unit family letter (BLM1)
- (Optional) “Picking Up Trash” (BLM2)

#### Professional Development Media

- “Managing Pair Conferences” (AV8)
- “Using Social Networking Sites” tutorial (AV78)

## DO AHEAD

- ✓ Prior to Day 1, title a sheet of chart paper “Questions to Ask Myself as I Listen” and list the following questions on it:
  - Is it clear what this author’s opinion is?*
  - Are there convincing reasons that support the opinion?*
  - Does this essay make sense? If not, where am I confused?*
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA3) on page 132 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student’s published piece.
- ✓ (Optional) If computers are available, you might teach Technology Mini-lesson 7, “Creating Documents,” in Appendix A to help the students type and print the final versions of their essays. Alternatively, you might recruit parent volunteers to help them do so.

## TEACHER AS WRITER

*“Look at what’s happening in this world. Every day there’s something exciting or disturbing to write about. With all that’s going on, how could I stop?”*

— Gwendolyn Brooks

Select one of the opinion paragraphs you wrote in Week 2 and develop it into a persuasive essay by listing several reasons that support your opinion. Devote a paragraph to each reason, providing information or a rationale to justify your opinion. When you finish, consider having a friend or colleague read it and give you feedback about whether he or she is persuaded by your essay, and why.

# Day 1

## Pair Conferring and Revising

### Materials

- “Questions to Ask Myself as I Listen” chart, prepared ahead
- “Class Assessment Record” sheet (CA3)

### In this lesson, the students:

- Ask for and receive feedback about their writing
- Give feedback in a helpful way
- Ask one another questions about their writing
- Discuss and solve problems that arise in their work together

## GETTING READY TO WRITE

### 1 Prepare for Pair Conferences

Have the students get their notebooks and pencils and sit at desks with partners together. Explain that today partners will meet to confer about their drafts. They will share their drafts and get feedback about anything that is confusing or unclear; then they will make any necessary revisions.

Remind the students that, in the writing community, the goal of giving feedback is to help each person create the best possible piece of writing. Review that authors pay close attention to feedback about what is unclear or confusing in their writing. Although authors might not follow every suggestion they receive, the feedback helps them improve their work until it is the best piece of writing possible. Ask and briefly discuss:

- Q *What have you learned about giving feedback respectfully?*
- Q *What problems can arise when giving feedback? How will you avoid those problems today?*

### 2 Prepare to Give Feedback: Does It All Make Sense?

Explain that as partners listen to one another’s writing, you would like them to ask themselves a few questions. Direct the students’ attention to the “Questions to Ask Myself as I Listen” chart (see “Do Ahead” on page 593) and read the questions aloud.

## Questions to Ask Myself as I Listen

- Is it clear what this author's opinion is?
- Are there convincing reasons that support the opinion?
- Does this essay make sense? If not, where am I confused?

Encourage partners to keep these questions in mind as they listen carefully to each other's essays. Explain that you would like the students to be ready to report the feedback they heard to the class.

### 3 Confer in Pairs

Give partners ample time to read one another's drafts and confer.

#### CLASS ASSESSMENT NOTE

Circulate among conferring pairs and observe the conferences without intervening. Ask yourself:

- Are pairs staying on task, reading and discussing their writing?
- Are they giving each other specific feedback about the charted questions?
- Are they giving feedback in a helpful and respectful way?

Make note of productive ways you see pairs interacting, as well as any problems you observe, to bring up during Step 4.

Record your observations on the "Class Assessment Record" sheet (CA3); see page 132 of the *Assessment Resource Book*.

When most pairs have had time to discuss their drafts, signal for the class's attention.

### 4 Reflect on Feedback Received

Ask and briefly discuss:

- Q *What feedback did your partner give you that will help you revise your draft?*
- Q *How was your partner respectful when giving you feedback?*
- Q *I noticed that [partners were talking to each other in a kind way]. How did that affect your work together?*

#### Teacher Note

If necessary, signal about halfway through conferring time so partners can switch roles if they have not yet done so. For more information, view "Managing Pair Conferences" (AV8).

Explain that during Writing Time today, the students will revise their drafts based on their partners' feedback.

## WRITING TIME

### 5 Finish Revising Drafts

Have the students work on revising their drafts. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with individual students.

### TEACHER CONFERENCE NOTE

As you did in Week 2, continue conferring with individual students about the piece each is developing for publication. Have each student tell you about his piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Does the student state his opinion clearly in the opening paragraph?
- Is the opening paragraph clear and direct?
- Does the student give a few different reasons that support his opinion?
- Does the student include more information about supporting reasons?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating his opinion?

Help the student extend his thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *How can you make your opening paragraph clearer and more direct?*
- Q *What reason will you write about first? Second?*
- Q *What is some more information you can write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*
- Q *How can you restate your opinion at the end of your essay?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 133 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Briefly Reflect on Writing

Help the students reflect on their work today by briefly discussing:

- Q *Who incorporated feedback from your partner in your revision today?  
Read us the original passage and then read us the revision.*

Tell the students that they will begin proofreading their drafts tomorrow.

## Proofreading

## Day 2

### In this lesson, the students:

- Proofread their drafts for spelling, punctuation, and grammar
- Listen for and correct sentence fragments

## GETTING READY TO WRITE

### 1 Prepare to Proofread

Have the students get their *Student Writing Handbooks*, notebooks, and pencils and sit at desks with partners together. Explain that tomorrow the students will begin copying their first drafts into final versions. Tell the students that they will publish their persuasive essays by sharing them with the class from the Author’s Chair later in the week and by placing them in the class library.

Explain that the students will want to make their essays as clear as possible so nothing gets in the way of convincing their readers of their opinions. Today they will proofread their drafts and correct any sentence fragments.

### 2 Proofreading for Sentence Fragments

Explain to the students that they will practice listening for and correcting sentence fragments. Display the “Persuasive Essay Excerpts with Sentence Fragments” chart (WA12) and have the students open their *Student Writing Handbooks* to page 22, where the excerpts are reproduced. Ask the students to watch and listen as you read the first passage aloud. Ask:

- Q *What did you notice about the way the passage sounded when I read it?*
- Q *What sentence fragments do you notice in the passage?*

### Materials

- “Persuasive Essay Excerpts with Sentence Fragments” chart (WA12)
- *Student Writing Handbook* page 22

**TEKS 11.C.x**  
Student/Teacher Activity  
Step 2 (all, beginning on  
page 597 and continuing on  
to page 599)

### Skill Practice Note

For more practice producing complete sentences and correcting fragments, see Lesson 1 and Lesson 2 in the *Skill Practice Teaching Guide*.

#### Students might say:

"It doesn't sound right."

"In addition to what [Antonia] said, some of the sentences sound funny. They stop before they should."

"I noticed a sentence that sounded like it might need more words added to it. It was confusing."

If necessary, point out that the passage does not sound right when it is read aloud because it contains several sentence fragments. Model rereading the passage while thinking aloud about how to correct the fragments. As necessary, point out how you capitalize the first word in each new sentence and add a period at the end. Invite the students to help you.

#### You might say:

"I heard someone say that the first and second sentences are fine. I agree. Each sentence sounds complete, with a subject and a predicate. But the third sentence sounds like a fragment. I can hear it when I read 'And sidewalks, too.' That sounds like it should be part of the second sentence. I'll revise it: *Trash makes our streets dirty, and sidewalks, too.* We think the next two sentences sound right; I'll leave those alone. But the words 'For nature' is a fragment and should be part of the sentence that comes before it. That makes sense. I'll revise it, deleting the period and making *for* lowercase: *Also, when people don't pick up their trash, it is bad for nature.*"

Finish revising the first passage in the same way; then have partners work together to read the second passage of "Persuasive Essay Excerpts with Sentence Fragments" and correct any fragments. After a few minutes, signal for the students' attention and invite volunteers to tell the class how they corrected the passage.

Explain that you would like the students to read their own drafts aloud today, listen for any sentence fragments, and correct them. Remind the students to make sure they have used capital letters, periods, and other punctuation, as appropriate.

### 3 Review Proofreading with Word Bank and Proofreading Notes

Remind the students that, in addition to correcting any sentence fragments, they should use their word banks and proofreading notes in their handbooks to help them proofread their drafts for spelling errors and correctness before publishing. (See Unit 2, Week 2, Day 2 on page 100 for the introduction of the word bank and Unit 2, Week 2, Day 3 on page 105 for the introduction of the proofreading notes.) Briefly review these procedures by reminding the students to:

- Circle words in their drafts that they are unsure how to spell and look them up in their word banks. If necessary, they will add words to their

word banks after looking up the correct spellings in a dictionary or other resource.

- Use their proofreading notes as a list of things to check in their drafts before publishing. They will correct any errors by crossing them out and writing the corrections above them.

## WRITING TIME

### 4 Proofread Drafts

Display the “Writing Time” chart (📄 WA13) and have the students work on the charted tasks for 20–30 minutes. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with individual students.

#### Writing Time

- Check for sentence fragments.
- Proofread your draft for spelling, grammar, and punctuation.
- If you finish, work on any other piece of writing.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Does the student state her opinion clearly in the opening paragraph?
- Is the opening paragraph clear and direct?
- Does the student give a few different reasons that support her opinion?
- Does the student include more information about supporting reasons?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating her opinion?
- Has the student corrected any sentence fragments?

*(continues)*

## TEACHER CONFERENCE NOTE *(continued)*

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *How can you make your opening paragraph clearer and more direct?*
- Q *What reason will you write about first? Second?*
- Q *What is some more information you can write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*
- Q *How can you restate your opinion at the end of your essay?*
- Q *Have you read your essay aloud to listen for any sentence fragments?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 133 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Proofreading

Ask and briefly discuss:

- Q *Who corrected a sentence fragment in your essay today? Read us the corrected sentence.*
- Q *What words did you find in your word bank today? How did you check on words that were not in the word bank?*
- Q *What corrections did you make in your draft after reviewing your proofreading notes?*

Tell the students that they will continue revising and proofreading their drafts tomorrow.

## In this lesson, the students:

- Explore using adjectives to make their essays more persuasive
- Work on their final versions for publication

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students get their notebooks, pencils, and *Student Writing Handbooks* and sit at desks with partners together. Remind them that yesterday they read their essays aloud to listen for sentence fragments and proofread for spelling, punctuation, and grammar errors. Tell them that today they will begin copying their first drafts into final versions, but first, they will think about another way to make their essays as interesting and as persuasive as possible.

### 2 Explore Adjectives in an Essay

Ask the students to open their handbooks to page 20 as you display the “Why You Should Get a Dog” chart (WA7). Read the first sentence aloud. Ask:

- Q *How does this sentence help you picture the author’s dog?*
- Q *How does this sentence make you feel about the dog?*

#### Students might say:

“The sentence tells me that the author’s dog is frisky and fluffy. Its fur is brown.”

“It tells me the dog’s name is Boomer.”

“It makes me feel that Boomer is a really nice dog.”

Point out that *frisky*, *fluffy*, and *brown* are *adjectives*, words that tell more about a noun; in this case, the adjectives describe the author’s dog.

Explain that authors of persuasive essays often use adjectives to make their essays more interesting and more persuasive to readers. Point out that by describing Boomer as frisky, fluffy, and brown, the author helps readers imagine the dog. This description also makes Boomer sound friendly and attractive, which may lead readers to agree with the author’s opinion that dogs are the best pets.

Invite the students to follow along in their handbooks as you read more of the essay. Ask them to listen and look for adjectives that make

## Skill Practice Note

For more practice identifying and correctly using adjectives, see Lesson 19 in the *Skill Practice Teaching Guide*.

### Teacher Note

In the second paragraph, the students may point out the adjectives *loyal*, *happy*, *brave*, and *terrible*. In the third paragraph, they may point out *wonderful*, *small*, *cuddly*, *big*, and *strong*.

the essay interesting and persuasive. Read aloud the second and third paragraphs of “Why You Should Get a Dog.” After you finish, ask:

- Q *What adjectives (describing words) did you notice?*
- Q *How do you think these adjectives make the essay more interesting and/or more persuasive?*

#### Students might say:

“The author describes the dog that saved its owner from a fire as *brave*.”

“I agree with [Brady]. The author also described the fire as *terrible*, which made the dog sound even braver, I think.”

“I noticed the adjectives *small* and *cuddly*. They made the essay more interesting and made me think about how cute dogs are.”

As the students point out adjectives, underline them on the “Why You Should Get a Dog” chart (WA7).

### 3 Review Drafts for Adjectives

Have partners work together to review their drafts and look for places where they might use adjectives. Encourage them to use the essay “Why You Should Get a Dog” on page 20 of their handbooks as a reference. After a few minutes, call for the students’ attention. Ask:

- Q *What are some adjectives (describing words) you might add to your essay?*
- Q *How will these adjectives make your essay more interesting and/or persuasive to readers?*

#### Students might say:

“I might add the adjectives *juicy* and *sweet* to my essay about my favorite fruit.”

“I might add the adjectives *green* and *smooth* to my essay. They’ll help readers understand why I think frogs are so cool.”

As volunteers share ideas for adjectives they might add, record the adjectives where everyone can see them.

## WRITING TIME

### 4 Revise Drafts

Display the “Writing Time” chart (WA14) and have the students work on the charted tasks for 20–30 minutes. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with individual students.

### Writing Time

- Try adding some adjectives to make your essay more interesting and persuasive.
- Continue proofreading your essay for spelling and punctuation errors.
- If you finish, begin copying your final version on loose, lined paper.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about his piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Does the student state his opinion clearly in the opening paragraph?
- Is the opening paragraph clear and direct?
- Does the student give a few different reasons that support his opinion?
- Does the student include more information about supporting reasons?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating his opinion?
- Has the student corrected any sentence fragments?
- Has the student added any adjectives?

Help the student extend his thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *How can you make your opening paragraph clearer and more direct?*
- Q *What reason will you write about first? Second?*

- *Student Writing Handbooks*
- “Don’t Change Our Start Time” from Week 1 (see page 566)
- Copy of “Picking Up Trash” (BLM2) for each student

## Teacher Note

Prior to doing this activity, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print “Picking Up Trash” (BLM2). Make enough copies for each student to have one; set aside a copy for yourself.

## TEACHER CONFERENCE NOTE *(continued)*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 133 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Revisions

Ask and briefly discuss:

- Q *Who added an adjective to your essay today? Tell us about it.*
- Q *What other changes did you make to your essay? How do these changes make your essay more interesting or more persuasive?*

Explain that the students will begin working on their final versions tomorrow.

## WRITING ABOUT READING

### Write an Opinion Paragraph About a Persuasive Essay

Remind the students that they have heard and read a number of persuasive essays over the past few weeks. Ask and briefly discuss:

- Q *What does a good persuasive essay include?*

If necessary, refer the students to the “Things We Notice About Persuasive Essays” chart. The students may also review the various persuasive essays they have read (starting on *Student Writing Handbook* page 17).

Explain that you will reread one essay that the students read earlier. Ask the students to think as they listen about whether this essay includes the various features of a well-written persuasive essay. Read “Don’t Change Our Start Time” (on page 566) aloud, stopping periodically during the reading to have the students discuss the items they notice.

Explain that one way to form an opinion about a persuasive essay is to consider whether you find it personally persuasive; a second way to form an opinion is to consider whether the essay contains the characteristics or features that well-written persuasive essays usually include. Ask the

students to watch as you think aloud and model writing an opinion paragraph about the essay.

**You might say:**

"After I read the persuasive essay 'Don't Change Our Start Time,' I agreed with the author's opinion. I also noticed that the essay had many features of a well-written persuasive essay. I'll start by writing: *I think that 'Don't Change Our Start Time' is a good example of a persuasive essay. After reading it, I agree with the author that school should start at the normal time.* Notice that I stated my opinion and put the title of the essay in the opening sentences. Now I need to explain why I think this essay is well written, using details from the text. I'll write: *I think this essay is well written because the author states her opinion clearly at the beginning. Also, she gives many good reasons why the start time should be early. For instance, she points out that many parents have to get to work at a certain time in the morning. If school started later, those parents would have to rush to work. They might be late. Another reason the author gives is that after-school activities would not be possible if school started later. She gives an example of how she plays soccer after school. I think that example was very persuasive.* Now I need some closing sentences. I'll write: *I liked reading 'Don't Change Our Start Time,' and now I agree with the author!"*

Tell the students that people may differ about how well written and persuasive they think a particular essay is, and that is fine. The important thing is that they explain their thinking by using details from the essay and information from the "Things We Notice About Persuasive Essays" chart.

Distribute a copy of "Picking Up Trash" (BLM2) to each student. Have the students read the essay quietly.

When the students have finished reading "Picking Up Trash," explain that they will each write an opinion paragraph about the essay. The students should each start their opinion piece with an opening sentence or two that states their opinion and includes the title of the essay, give a reason for the opinion and a fact or detail from the essay to support the reason, and provide a closing sentence that restates the opinion and wraps up the piece. Have the students write about their opinions. If time permits, invite the students to share their opinion paragraphs with the class.

### In this lesson, the students:

- Finish writing their final versions
- Present their essays from the Author’s Chair
- Express interest in and appreciation for one another’s writing
- Ask one another questions about their writing
- Respectfully consider the opinions of others

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students stay in their seats. Explain that they will finish working on the final versions of their persuasive essays. Students who complete their essays today will begin sharing their pieces from the Author’s Chair after Writing Time.

## WRITING TIME

### 2 Finish Final Versions of Persuasive Essays

Display the “Writing Time” chart (WA15) and read it aloud. Have the students think quietly to themselves for a moment about the following question:

**Q** *What do you need to work on today to be ready to share your persuasive essay from the Author’s Chair?*

After a moment, have the students begin working on the charted tasks for 20–30 minutes.

#### Writing Time

- Finish proofreading your draft using your word bank and proofreading notes.
- Finish writing the final version of your persuasive essay.
- Reread it to make sure it is free of errors.
- If you finish, work on any other piece of writing.

WA15

When the students seem to be working independently, confer with individual students.

## TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Does the student state her opinion clearly in the opening paragraph?
- Is the opening paragraph clear and direct?
- Does the student give a few different reasons that support her opinion?
- Does the student include more information about supporting reasons?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating her opinion?
- Has the student corrected any sentence fragments?
- Has the student added any adjectives?

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *How can you make your opening paragraph clearer and more direct?*
- Q *What reason will you write about first? Second?*
- Q *What is some more information you can write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*
- Q *How can you restate your opinion at the end of your essay?*
- Q *Have you read your essay aloud to listen for any sentence fragments?*
- Q *Where might you add an adjective to make your essay more interesting and/or persuasive?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 133 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Review Sharing Writing from the Author’s Chair

Gather the class with partners sitting together, facing the Author’s Chair. Explain that each student will read his persuasive essay to

**ELPS 3.F.ii**  
Steps 3–5  
(all, beginning on page 607 and continuing on to page 608)

the class from the Author's Chair. If necessary, remind them of the procedures you established for presenting from the Author's Chair (see Unit 2, Week 2, "Do Ahead" on page 97).

Before asking a student to share from the Author's Chair today, discuss how the students will act, both as presenting authors and as members of the audience. Ask and discuss:

- Q *How will you let the author know that you're interested in his or her piece? Why is it important to express interest in one another's writing?*
- Q *How will you show that you respect the author's opinion, even if you disagree? How will you show that you are carefully considering what he or she wrote?*

Remind the students that the purpose of the persuasive essay is to convince the reader of a particular opinion. Encourage them to think, as they listen, about whether they agree or disagree with the author's opinion and whether the essay is convincing them to change their minds.

#### 4 Conduct Author's Chair Sharing

Ask a student who has finished the final version of her persuasive essay to read it aloud from the Author's Chair. At the end of the sharing, facilitate a discussion using questions like those that follow, and give the author an opportunity to respond to the class's comments and questions:

- Q *What did you learn about [comic books] from hearing [Paula's] essay?*
- Q *Do you agree or disagree with her opinion? Why?*
- Q *Were you persuaded to change your mind after hearing [Paula's] essay?*
- Q *What questions can we ask [Paula] about what she wrote?*

Follow this procedure to have other students share from the Author's Chair.

#### 5 Reflect on Author's Chair Sharing

Ask and briefly discuss:

- Q *What did we do well as an audience today? What might we want to work on the next time authors share their work?*
- Q *If you shared an essay today, did you feel that people were being respectful of your opinions and were considering them carefully? Why or why not?*

Explain that all of the students will get a chance to share their essays from the Author's Chair in the coming days.

## TECHNOLOGY EXTENSION

### Have the Students Record Their Persuasive Essays

If you have access to recording equipment, consider having the students create audio or video recordings of their persuasive essays. Make the recorded narratives available in the classroom, school library, or online for others to enjoy.

## Writing Final Versions and Publishing

## Day 5

### In this lesson, the students:

- Finish writing their final versions
- Present their essays from the Author's Chair
- Express interest in and appreciation for one another's writing
- Ask one another questions about their writing
- Respectfully consider the opinions of others

## GETTING READY TO WRITE

### 1 Reflect on Persuasive Essays

Have the students stay in their seats. Review that over the past three weeks they learned about persuasive essays and took their own persuasive essays through the writing process, from first drafts to publication. Ask the following question, referring the students if necessary to the “Things We Notice About Persuasive Essays” chart:

**Q** *What have you learned about writing a persuasive essay?*

#### Students might say:

“I learned that people write persuasive essays to try to persuade others to agree with them.”

“I learned that it's a good idea to write your opinion really clearly at the beginning of your essay.”

“The essay should have reasons that support your opinion.”

“You should write your opinion again at the end of the essay.”

Explain that the students will continue working on the final versions of their persuasive essays. Students who finish will begin sharing their pieces from the Author's Chair after Writing Time.

### Materials

- “Things We Notice About Persuasive Essays” chart from Week 2
- “Writing Time” chart (WA16)
- Supply of loose, lined paper for final versions
- Chair to use for Author's Chair sharing
- Copy of this unit's family letter (BLM1) for each student
- (Optional) Computers for typing and printing final versions

### Facilitation Tip

Reflect on your experience over the past three weeks with **responding neutrally with interest** during class discussions. Does this practice feel natural to you? Are you integrating it into class discussions throughout the school day? What effect is it having on the students? We encourage you to continue to try this practice and reflect on students' responses as you facilitate class discussions in the future.

## WRITING TIME

### 2 Finish Final Versions of Persuasive Essays

Display the “Writing Time” chart (📄 WA16) and read it aloud. Have the students think quietly to themselves for a moment about the following question:

**Q** *What do you need to work on today to be ready to share your persuasive essay from the Author’s Chair?*

After a moment, have the students begin working on the charted tasks for 20–30 minutes.

#### Writing Time

- Finish writing the final version of your persuasive essay.
- Reread it to make sure it is free of errors.
- If you finish, work on any other piece of writing.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Gather for Author’s Chair Sharing

Gather the class with partners sitting together, facing the Author’s Chair. Briefly discuss how they will act as members of the audience. Ask:

- Q *What will you do to be a respectful member of the audience today?*

Encourage the students to be attentive and considerate audience members, and tell them that you will check in with them to see how they did.

Remind the students to think, as they listen, about whether they agree or disagree with the author’s opinion and whether the essay is convincing enough to change their minds.

## 4 Conduct Author’s Chair Sharing

Have a student read her persuasive essay aloud from the Author’s Chair. At the end of the sharing, facilitate a discussion using questions like those that follow, and give the author an opportunity to respond to the class’s comments and questions:

- Q *What did you learn about [softball] from hearing [Emi’s] essay?*
- Q *Do you agree or disagree with her opinion? Why?*
- Q *Were you persuaded to change your mind after hearing [Emi’s] essay?*
- Q *What questions can we ask [Emi] about what she wrote?*

Follow this procedure to have other students share from the Author’s Chair.

## 5 Reflect on Audience Behavior During Author’s Chair Sharing

Ask and briefly discuss:

- Q *How did we improve as an audience today? What should we continue to work on the next time authors share their work?*
- Q *What is something an audience member did that showed respect when you read your essay today?*

Assure the students that they will all get to share their published essays from the Author’s Chair in the coming days. Explain that after the students have shared their persuasive essays from the Author’s Chair, they may take the essays home to share with their families. Then the students will bring the essays back to class, and you will compile them into a class book. This book will be available for the students to read during independent reading time.

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on page 613.

Student/Teacher Activity  
Extension (all)

## EXTENSION

### Write Letters Home About Opinion Writing

Provide letter-writing practice for the students by having them write letters home to tell what they learned about opinion writing. Stimulate their thinking by reviewing the “Things We Notice About Persuasive Essays” chart and discussing questions such as:

- Q *What’s special about opinion writing?*
- Q *What steps did you go through to develop and publish your opinion piece?*
- Q *What is one thing you’re proud of about your published opinion piece?*

If necessary, review the elements of a letter (date, salutation, body, closing, and signature) by modeling or writing a shared sample letter with the class. Have the students write and proofread their letters; then attach each student's letter to a copy of his own published piece and send it home.

### Skill Practice Note

For practice with using commas in the addresses of letters, see Lesson 28 in the *Skill Practice Teaching Guide*.

## TECHNOLOGY EXTENSION

### Share Persuasive Essays on a Social Networking Site

A social networking site designed specifically for students can be a safe and engaging forum for exchanging ideas and opinions. If you or your school has established such a site, have the students post their persuasive essays there. Encourage the students to read and comment on one another's pieces. Before the students post their work, discuss social media etiquette and the importance of taking responsibility for public comments.

### Technology Tip

To help your students learn how to participate safely in online communities, you might teach the following Technology Mini-lessons in Appendix A: Mini-lesson 1, "Navigating Safely Online," and Mini-lesson 2, "Maintaining Privacy Online." For more information about these mini-lessons see "About Digital Citizenship Lessons" on page 702.

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of the Opinion Writing genre unit. You will need to reassign partners before you start the next genre unit.
- Send home with each student the student's published piece and a copy of this unit's family letter (BLM1). Encourage the students to share their published pieces with their families. Remind the students to bring the pieces back to class after their families have read them so they can be placed in the class library.
- Save the students' published writing (or copies of it) to use for reflection and discussion in Unit 9.

### Assessments

- Before continuing with the next unit, take this opportunity to assess individual students' writing from this unit. See "Completing the Individual Writing Assessment" (IA1) on page 136 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students' published writing home to share with their families, you might have each student analyze her writing using the "Student Self-assessment" record sheet (SA1) on page 135 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension "Introduce 'Student Self-assessment'" on page 116.

For more information, view the "Using Social Networking Sites" tutorial (AV78).

- (Optional) Prior to beginning the next unit, you might wish to prepare the students for the end-of-year standards-based writing performance task by teaching the Opinion Writing unit on page 103 of the *Writing Performance Task Preparation Guide*. For more information, see “Teaching the Units” on page vi of the preparation guide.

# Genre

# Poetry

During this two-week unit, the students hear, discuss, and write poetry. They think about what makes a poem a poem and informally explore imagery, sound, and form in poetry. They learn to listen to the language in poems and think about what poems look like on the page. They generate ideas for poems, including writing about foods they like, animals, things that make noise, and objects that think and talk like people. The students learn that poets make decisions about how they want their poems to look on the page, and think about how they want their own poems to look. They tap into their creativity and express interest in and appreciation for one another's creativity and writing.

# Week 1

## OVERVIEW

### Poems

**“Galoshes”** by Rhoda Bacmeister (see page 644)

Playful language and sensory details capture the sights, sounds, and sensations of walking through a world of melting snow.

**“Two Voices in a Tent at Night”** by Kristine O’Connell George (see page 645)

This dialogue, in poetic form, evokes a familiar scene of two children trying to scare each other in the dark.

**“Fresh Pop-Corn”** by Laura Purdie Salas (see page 646)

Vivid sensory details communicate the experience of eating corn on the cob.

**“Which is the Best?”** by James Stevenson (see page 647)

This humorous poem offers a tantalizing comparison of different kinds of ice cream.

**“Sunning”** by James S. Tippett (see page 648)

This poetic description of a dog napping on a hot summer afternoon feels true to life.

**“The Polliwogs”** by Douglas Florian (see page 649)

Typography enhances the snappy descriptive language in this poem depicting the fast-motion lives of tadpoles.

**“It’s Raining!”** by Heidi B. Roemer (see page 650)

This lighthearted introduction to shape poetry describes an umbrella in the rain.

**“Ice Cubes”** by Joan Bransfield Graham (see page 651)

Stanzas become ice cubes in this alliteration- and onomatopoeia-rich poem.

**“Open Hydrant”** by Marci Ridlon (see page 652)

Sensory details and onomatopoeia enhance this poetic account of an urban summer pastime.

## TEACHER AS WRITER

*“Poetry is the language of extremity . . . You feel something potent and then you transfer it onto the page.”*

— Li-Young Lee

This week, take time to read poetry. As you read, consider:

- What makes a poem a poem?

Write your thoughts in your writing notebook and add to it as you get new ideas.

### Writing Focus

- Students hear, discuss, and write poems.
- Students think about what a poem is.
- Students explore sensory details and sound in poems.
- Students explore how poems look on the page.
- Students generate and quick-write ideas for poems.
- Students cultivate their creativity.

### Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students express interest in and appreciation for one another’s writing.

## DO AHEAD

- ✓ Consider reading this unit’s poems with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding. If possible, show the students related photographs or objects (such as a pair of galoshes for the poem “Galoshes,” or a picture of a polliwog for the poem “The Polliwogs”) to aid their comprehension.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see “Random Pairing” on page xxix and “Considerations for Pairing ELLs” on page lii. For more information, view “Cooperative Structures Overview” (AV9).
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA1) on page 148 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, make a class set of the “Conference Notes” record sheet (CN1) on page 150 of the *Assessment Resource Book*.

# Day 1

## Exploring Poetry

### Materials

- “Galoshes” (see page 644)
- “Two Voices in a Tent at Night” (see page 645)
- *Student Writing Handbook* pages 23–24
- Chart paper and a marker
- “Writing Time” chart (WA1)

### Teacher Note

For more information about poetry, view “Exploring Poetry” (AV55).

### Teacher Note

The partners you assign today will stay together for the unit. If necessary, take a few minutes at the beginning of today’s lesson to let them get to know each other better by talking informally in a relaxed atmosphere.

### Teacher Note

If you are using other programs from the Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the writing lessons.

### In this lesson, the students:

- Work with new partners
- Hear, read, and discuss poems
- Think about what makes a poem a poem
- Explore sensory details in poems

### IMMERSION IN POETRY

In this unit, the students generate ideas and write poems using published poems as models and sources of inspiration. They learn that poets use words and images to communicate feelings and create vivid pictures in the reader’s mind. The students develop an intuitive understanding of what poetry is by informally exploring *images* (for example, sensory details and personification) and *sounds* (for example, repetition, alliteration, and onomatopoeia). They also informally explore *forms* by noticing how poems look on the page and how poets use shape and typography to communicate meaning. While the use of literary terms by the students is not emphasized at grade 3, exploring these concepts and how they function in poems is.

The students are encouraged to activate their imaginations and take creative risks in this unit. They learn that poets make deliberate choices about how their poems look on the page and often create their own rules about typography and punctuation, depending on what they want to communicate to readers. The students learn that poetry gives writers endless freedom in using words to express their ideas.

## GETTING READY TO WRITE

### 1 Pair Students and Discuss Working Together

Randomly assign partners (see “Do Ahead” on page 621) and make sure they know each other’s names. Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Explain that over the next two weeks partners will work together to explore writing poetry.

Ask:

**Q** *What have you learned about being a good partner? Turn to your partner and tell him or her what you will do to be a good partner.*

After a moment, signal for the students' attention and discuss as a class:

**Q** *What did your partner say he or she will do to be a good partner to you?*

Encourage partners to keep these things in mind as they start working together today.

## 2 Introduce Poetry

Ask the students to open to *Student Writing Handbook* pages 23–24, where the poems “Galoshes” and “Two Voices in a Tent at Night” are reproduced. Give them a moment to look at the poems. Then ask and briefly discuss as a class:

**Q** *How do you know that these are poems?*

**Q** *What do you think makes poems different from stories?*

### Students might say:

“I think they are poems because they have a lot of short lines and only take up part of the page.”

“Poems are different from stories because they rhyme.”

“I disagree with what [Pilar] said. I think poems don't always rhyme.”

Explain that you will read these poems aloud today, and invite the students to continue to think as they listen about what makes a poem a poem.

## 3 Read and Discuss “Galoshes”

Tell the students that the first poem they will hear is “Galoshes” by Rhoda Bacmeister. Explain that *galoshes* are waterproof boots that fit over shoes. Ask the students to close their eyes and make a picture in their minds as they listen.

Read “Galoshes” on page 644 (including the title) aloud twice, slowly and clearly.

Have the students open their eyes; then ask:

**Q** *What did you imagine as you listened to this poem? Turn to your partner.*

Have a few volunteers share their thinking with the class. Ask the students to reread “Galoshes” to themselves on page 23 of the handbook. After a moment, ask:

**Q** *What words or phrases does the poet include to help you see what's happening in the poem? Hear what's happening? Feel what's happening?*

### Teacher Note

To review the procedure for “Turn to Your Partner,” see Unit 1, Week 1, Day 3 (page 13). To see an example, view “Using ‘Turn to Your Partner’ ” (AV11).

### Teacher Note

Regularly remind the students to use the discussion prompts they learned when they participate in class discussions. The prompts are:

- “I agree with \_\_\_\_\_ because . . .”
- “I disagree with \_\_\_\_\_ because . . .”
- “In addition to what \_\_\_\_\_ said, I think . . .”

**TEKS 10.D.iv**  
Student/Teacher Activity  
Step 4 (all, beginning on  
page 624 and continuing on  
to page 625)

**Students might say:**

"Words like *splishes* and *slooshes* make me imagine the sound of walking through the slush."

"When I read 'stuck in the muck and the mud,' I imagined trying to pull my foot out of the mud."

" 'Splishes and splashes all around her galoshes' makes me picture water splashing every time she takes a step."

Point out that the poet uses *sensory details*, or words that help us imagine something using our senses. Explain that most poems include sensory details; they are one thing that makes a poem a poem. Point out that poems also have fun with words by repeating them, using them in funny ways, or sometimes just making them up.

#### 4 Read and Discuss "Two Voices in a Tent at Night"

Tell the students that the other poem they will hear today is "Two Voices in a Tent at Night" by Kristine O'Connell George. If necessary, explain that a *tent* is a cloth shelter used for camping. Ask them to close their eyes and make a picture in their minds as they listen.

Read "Two Voices in a Tent at Night" on page 645 (including the title) aloud twice, slowly and clearly.

Have the students open their eyes; then ask:

**Q** *What is happening in this poem? Turn to your partner.*

Have a few volunteers share their thinking with the class. Follow up with questions such as:

**Q** *How are the characters in the poem feeling? How do you know?*

**Q** *What's funny about this poem?*

Have a few volunteers share their thinking with the class. Ask the students to follow along on *Student Writing Handbook* page 24 as you reread "Two Voices in a Tent at Night" aloud. Ask and briefly discuss:

**Q** *What words does the poet include to help you hear what's happening?*

**Students might say:**

"The poet keeps repeating the word *scratching*, so I imagine a scratching sound happening over and over."

"I can hear them saying, 'Shhhh!' to each other."

"In addition to what [Chayim] said, I imagined the sound of a tree branch brushing against the tent."

Point out that this poem also includes words that help us imagine what is happening using our senses. Title a sheet of chart paper “Notes About Poems,” and underneath write *Poems have sensory details—words that help us imagine seeing, hearing, smelling, tasting, and feeling what’s happening.* Point out that poems can also be funny or contain silly or made-up words. Add *Poems can be silly or funny* to the “Notes About Poems” chart. Explain that you will continue to add to the chart in the coming days.

## WRITING TIME

### 5 Write Independently

Have the students sit at desks with partners together. Display the “Writing Time” chart (🗨️ WA1) and have the students write silently for 20–30 minutes.

#### Writing Time

- Write a poem.
- Write about anything you choose.

WA1

If necessary, remind the students that during Writing Time there should be no talking, whispering, or walking around. Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. After a moment, signal for their attention and ask:

- Q *What did your partner write about today?*
- Q *What did you and your partner do to work well together when talking and sharing your writing?*

#### Teacher Note

Save the “Notes About Poems” chart to use throughout the unit.

#### Teacher Note

Note that on Days 1–3 of this week, the students may write poems or anything else they choose. On Day 4, after exposure to several more poems, all of the students will be asked to begin writing poems.

# Day 2

## Exploring Poetry

### Materials

- “Fresh Pop-Corn” (see page 646)
- “Which is the Best?” (see page 647)
- “Notes About Poems” chart from Day 1
- *Student Writing Handbook* pages 25–26
- “Writing Time” chart (WA2)

**TEKS 10.D.i**  
Student/Teacher Narrative  
Step 1 (all)

### In this lesson, the students:

- Hear and discuss poems
- Explore sensory details in poems
- Quick-write ideas for poems about food
- Speak clearly and listen to one another
- Discuss and solve problems that arise in their work together

### LITERARY CONCEPTS IN GRADE 3

In this unit, the students informally explore the literary concepts that follow. This work prepares them for more formal instruction about literary terms in poetry in subsequent grades. While we encourage you to introduce the students to literary terms where appropriate, having the students use the terms themselves is not a focus of this unit. The formal definitions below are for your reference; within the lessons we suggest alternative, student-friendly definitions to use with your class.

- *alliteration*: repeating consonant sounds at the beginning of successive words (“Sing a song of sixpence.”)
- *onomatopoeia*: representing something using words that imitate the sounds associated with it (*splash, pitter-patter, tick-tock*)
- *personification*: endowing a thing or an animal with human characteristics (“The wind stood up and gave a shout.”)
- *repetition*: repeating words or sounds for poetic effect (“Bells, bells, bells”)
- *rhyme*: words ending with the same sound (*twinkle and sprinkle*)

## GETTING READY TO WRITE

### 1 Briefly Review Poetry

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Review that yesterday the students began exploring poetry. They heard the poems “Galoshes” and “Two Voices in a Tent at Night” and thought about how poets use sensory details to help readers imagine seeing, hearing, smelling, tasting, and feeling what is happening in a poem.

Explain that today the students will hear two more poems and think about how poets use sensory details to help readers make a picture in their minds.

## 2 Read and Discuss “Fresh Pop-Corn”

Tell the students that you will read aloud a poem called “Fresh Pop-Corn” by Laura Purdie Salas. Ask the students to close their eyes as you read the poem and notice how the words help them use their senses to imagine what is happening in the poem. Read “Fresh Pop-Corn” on page 646 (including the title) aloud twice, slowly and clearly. Clarify vocabulary during the first reading.

### Suggested Vocabulary

**bubblewrap:** sheet of plastic with air bubbles that is used to wrap things so they don't break

**burst:** pop, break

### ELL Vocabulary

English Language Learners may benefit from having additional vocabulary defined, including:

**kernel:** single piece of corn from a cob

Have the students open their eyes; then ask:

**Q** *What did you imagine as you listened to this poem? Turn to your partner.*

Without sharing as a class, have the students open to *Student Writing Handbook* page 25, where “Fresh Pop-Corn” is reproduced, and reread the poem to themselves. After a moment, ask:

**Q** *What sensory details does the poet include to help you imagine what's happening?*

#### Students might say:

“I imagined eating corn on the cob.”

“I could smell a buttery smell when I read the words ‘sweet buttery corn-juice.’”

“The words ‘slides down my throat’ made me imagine how corn feels when you swallow it.”

## 3 Read and Discuss “Which is the Best?”

Tell the students that you will read aloud another poem, “Which is the Best?” by James Stevenson. Ask the students to close their eyes as you read the poem aloud and notice how the poet uses sensory details to help them make a picture in their minds. Read “Which is the Best?” on page 647 (including the title) aloud twice, slowly and clearly. Clarify vocabulary during the first reading.

**TEKS 10.D.i**

**TEKS 10.D.ii**

Student/Teacher Activity  
Steps 2 and Step 3 (all,  
beginning on page 627 and  
continuing on to page 628)

### Teacher Note

To review the procedure for defining vocabulary during the read-aloud, see Unit 1, Week 2, Day 2 (page 29). For more information, view “Introducing Vocabulary During a Read-aloud” (AV30).

### Facilitation Tip

During this unit, we invite you to practice **asking questions once** and then waiting. This means not repeating the question or asking it again a different way; it means just asking the question once and then **using wait-time** for the students to think before you call on anyone to respond. If students are confused by a question or need to hear it again, have them ask you to repeat or rephrase the question. This builds student responsibility for focusing on the discussion and helps them develop the habit of listening the first time. To see this Facilitation Tip in action, view “Asking Questions Once and Using Wait-time” (AV28).

## Suggested Vocabulary

heaped up: piled high

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**take your time:** not hurry

**testing:** trying something to see if you like it

Have the students open their eyes; then ask:

**Q** *What is happening in this poem? Turn to your partner.*

Have a few volunteers share their thinking with the class. Ask the students to turn to *Student Writing Handbook* page 26, where “Which is the Best?” is reproduced and reread the poem to themselves. After a moment, ask:

**Q** *What is funny about this poem?*

**Q** *What words or phrases does the poet include to help you see what’s happening? Feel what’s happening?*

**Q** *What words or phrases does the poet include to help you imagine smelling or tasting the ice cream?*

#### Students might say:

“It’s funny because you find out that the person in the poem is eating all the ice cream.”

“I imagined feeling the ice cream in my mouth when I read the words ‘covered with cold, shiny chocolate.’”

“‘Dripping fast on a hot day’ makes me think of how it tickles when an ice cream cone is melting and it drips down my hand.”

## 4 Quick-write: Ideas for Poems About Food

Use “Think, Pair, Share” to discuss:

**Q** *If you were going to write a poem about a food you like to eat, what food might you write about? [pause] Turn to your partner.*

After a few moments, call for the students’ attention and have a few volunteers share their ideas. Ask the students to close their eyes and imagine eating the food they thought of. Have the students open their eyes and think quietly to themselves as they listen to some questions. Ask the following questions one at a time, pausing after each question to give the students time to think.

**Q** *What words might you use to describe what your food looks like? Sounds like? Smells or tastes like? Feels like?*

### Teacher Note

To review the procedure for “Think, Pair, Share,” see Unit 1, Week 2, Day 2 (page 29). Remember to pause for 10 seconds for the students to think before you say “Turn to your partner.” To see an example, view “Using ‘Think, Pair, Share’” (AV13).

**Q** *Where have you eaten that food? What do you remember about being there?*

After the students have had a chance to think, signal for their attention. Have them each open to the next blank page in their notebooks, write the name of the food at the top of the page, and quick-write some ideas for what they could include in a poem about that food.

Have the students write for 3–4 minutes; then call for their attention and have a few volunteers share their ideas with the class. After sharing, ask the students to resume writing for a few more minutes.

Call for the students' attention and have a few volunteers share what they wrote.

**Students might say:**

"My food is spaghetti. I wrote that it is slippery and messy when the sauce splashes on you."

"I wrote about mashed potatoes. They are soft and fluffy and smell buttery. When they are piled up, they remind me of a cloud."

"I wrote about watermelon. The outside is hard and green and shiny. The inside is bright red and sweet and juicy. I remember being at a picnic and eating watermelon under a big, shady tree."

Explain that during Writing Time today the students may continue what they started during the quick-write, write a poem, or write about anything they choose.

## WRITING TIME

### 5 Write Independently

Have the students sit at desks with partners together. Display the "Writing Time" chart (🌐 WA2) and have the students write silently for 20–30 minutes.

#### Writing Time

- Continue writing what you started during the quick-write.
- Write a poem.
- Write about anything you choose.

WA2

Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed. Signal to let the students know when Writing Time is over.

#### ELL Note

English Language Learners may benefit from drawing their ideas before they write. Encourage them to draw what they want to write about and to talk quietly with you or a partner about what they drew. If necessary, write down key words and phrases they want to use so they can copy the words into their writing.

## SHARING AND REFLECTING

### 6 Share Writing and Reflect

Ask partners to talk together briefly about what they wrote today. After a moment, signal for their attention and ask:

Q *What food did your partner write about today?*

Q *What problems did you and your partner have working together today? What will you do to avoid those problems next time?*

# Day 3

## Exploring Poetry

### Materials

- “Sunning” (see page 648)
- “The Polliwogs” (see page 649)
- *Student Writing Handbook* pages 27–28
- “Writing Time” chart (WA2) from Day 2
- “Class Assessment Record” sheet (CA1)

### In this lesson, the students:

- Hear and discuss poems
- Explore sensory details in a poem
- Quick-write ideas for poems about animals

## GETTING READY TO WRITE

### 1 Gather and Review Poetry

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Review that the students have been thinking about how sensory details help readers imagine what is happening in a poem using their senses, and about what makes a poem a poem.

### 2 Read and Discuss “Sunning”

Tell the students that you will read aloud a poem called “Sunning” by James S. Tippett. Explain that *sunning* means “lying in the sun.” Ask the students to close their eyes and make a picture in their minds as they listen to the poem. Then read “Sunning” on page 648 aloud twice (including the title), slowly and clearly. Clarify vocabulary during the first reading.

### Suggested Vocabulary

**from force of habit:** because it is something he is used to doing

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**whimpered:** softly cried

Have the students open their eyes; then ask:

**Q** *What did you picture in your mind as you listened to this poem? Turn to your partner.*

Have a few volunteers share their thinking with the class.

Ask the students to open to *Student Writing Handbook* page 27, where “Sunning” is reproduced, and have them reread the poem to themselves. After a moment, ask:

**Q** *What sensory details does the poet include to help you imagine the dog?*

### Students might say:

“When I read ‘a half opened sleepy eye,’ I pictured the dog barely keeping his eyes open.”

“‘Buzzing fly’ made me hear the sound of a fly when it flies right by your ear.”

“In addition to what [Callie] said, ‘whimpered’ helped me imagine the sound a dog makes when it’s dreaming.”

## 3 Read and Discuss “The Polliwogs”

Explain that you will read another animal poem aloud called “The Polliwogs,” by Douglas Florian. Explain that polliwogs, also called tadpoles, are baby frogs that have not grown legs yet. They cannot leave the water, and they swim by wiggling their long tails.

Ask the students to close their eyes and make a picture of the polliwogs in their minds as you read the poem aloud. Then read “The Polliwogs” on page 649 (including the title) aloud twice, slowly and clearly. Clarify vocabulary during the first reading.

### Suggested Vocabulary

**make wakes:** leave ripples behind when they swim

**yearning:** wanting very badly

Have the students open their eyes; then ask:

**Q** *What did you picture in your mind as you listened to this poem?*

Ask the students to open to *Student Writing Handbook* page 28, where the “The Polliwogs” is reproduced, and have them reread the poem to themselves. After a moment, ask:

- Q *What words in this poem helped you imagine the polliwogs?*
- Q *How did the poet have fun with words?*

**Students might say:**

“Words like *shake*, *quiver*, and *jiggle* make me see the polliwogs swimming around really fast.”

“*Polliwoggle* and *polliwiggles* are made-up words.”

“There are a bunch of words right near each other that rhyme—*shake*, *lakes*, *make*, *wakes*.”

#### 4 Quick-write: Ideas for Poems About Animals

Ask and briefly discuss:

- Q *If you were going to write a poem about an animal, what kind of animal might you write about?*

Have the students close their eyes and imagine the animals they are thinking of. Then have the students open their eyes and think quietly to themselves as they listen to some questions. Ask the following questions one at a time, pausing after each question to give the students time to think.

- Q *What words might you use to describe what your animal looks like? Sounds like? Smells or feels like?*
- Q *What words might you use to describe how that animal moves?*

After the students have had a chance to think, signal for their attention. Have them each open to the next blank page in their notebooks and write the name of the animal at the top of the page. Then have them quick-write some ideas for what they could include in a poem about that animal.

Have the students write for 3–4 minutes; then call for their attention and have a few volunteers share their ideas with the class. After the volunteers share, ask the students to resume writing for a few more minutes.

Call for the students’ attention and have a few volunteers share what they wrote.

**Students might say:**

“Sharks have rows and rows of sharp teeth. They bend their bodies from side to side and slide through the water.”

“I wrote that ants feel tickly when they crawl on you. They are black and shiny if you see them up close. They follow each other and move in a long line like a train.”

“Elephants have gray, wrinkly skin and smell dusty.”

“Puppies are soft and fuzzy, and they make little yipping sounds. They tumble and roll like a runaway ball.”

Explain that during Writing Time today the students may continue what they started during the quick-write, write a poem, or write about anything they choose.

## WRITING TIME

### 5 Write Independently

Have the students sit at desks with partners together. Display the “Writing Time” chart (🕒 WA2) and have the students write silently for 20–30 minutes.

#### Writing Time

- Continue writing what you started during the quick-write.
- Write a poem.
- Write about anything you choose.

WA2

Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students seem to be writing freely and creatively?
- Are they engaged in their writing?
- Do they seem overly cautious or inhibited about what they put on paper?

After about 10 minutes, support any student who struggles to start by asking questions such as:

- Q *What animal could you write about?*
- Q *What sensory details can you write to describe what [a cat] looks like? Sounds like? Feels like?*
- Q *What words can you use to describe how that animal moves?*

Record your observations on the “Class Assessment Record” sheet (CA1); see page 148 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. After a moment, signal for the class's attention and ask:

- Q *What did your partner write about today?*
- Q *Did you or your partner write ideas about animals? Read us what you wrote.*

Explain that all of the students will start writing poems tomorrow, and they will continue to draft poems for the coming week. Tell them that each student will eventually select one of their drafted poems to improve, revise, and publish in a class collection of poetry.

# Day 4

## Exploring Poetry and Pair Conferring

### Materials

- “It’s Raining!” (see page 650)
- “Ice Cubes” (see page 651)
- “The Polliwogs” from Day 3 (see page 649)
- *Student Writing Handbook* pages 28–30
- “Notes About Poems” chart from Day 2
- Class set of “Conference Notes” record sheets (CN1)

**TEKS 10.D.i**  
Student/Teacher Activity  
Step 1 and Step 2 (all,  
beginning on page 634 and  
continuing on to page 636)

### In this lesson, the students:

- Hear, discuss, and write poems
- Explore sensory details in a poem
- Think about what poems look like on the page
- Explore shape in poetry
- Express interest in and appreciation for one another’s writing

## GETTING READY TO WRITE

### 1 Discuss How Poems Look on the Page

Have the students get their *Student Writing Handbooks* and sit at desks with partners together. Review that this week the students have read six poems and thought about what makes a poem a poem. Briefly review the “Notes About Poems” chart.

Have the students open to *Student Writing Handbook* page 28, where “The Polliwogs” is reproduced (see page 649). Review that they heard this poem yesterday, and ask them to reread the poem to themselves. As a class, discuss:

- Q *What are some of the words in this poem that help you imagine the polliwogs?*
- Q *What do you notice about how the words look on the page? Why do you think the poet chose to write them that way?*

**Students might say:**

"In the first part of the poem, the letters in the words go up and down."

"I think the poet wrote it that way because it makes the words look like they're shaking and wiggling like the polliwogs."

"I agree with [Leora]. I almost felt dizzy when I read it."

Have a few volunteers share their thinking with the class. Point out that another thing that makes a poem a poem is what it looks like on the page. On the "Notes About Poems" chart, add *Some poems have words or letters placed on the page in unusual ways*. Explain that today the students will hear two more poems and think more about how poets place words and letters on the page.

## 2 Read and Discuss "It's Raining!" and "Ice Cubes"

Tell the students that the first poem you will read is called "It's Raining!" by Heidi B. Roemer. Ask the students to close their eyes as they listen to you read the poem aloud. Invite them to listen for any words that help them imagine what is happening.

Read "It's Raining!" on page 650 (including the title) aloud once, slowly and clearly.

Have the students open their eyes and turn to *Student Writing Handbook* page 29, where "It's Raining!" is reproduced, and ask them to follow along as you read the poem aloud again. First in pairs and then as a class, discuss:

**Q** *What do you notice about how the words look on the page in this poem? Turn to your partner.*

**Q** *What sensory details are included? Turn to your partner.*

**Q** *What else do you notice about this poem? Turn to your partner.*

Have a few volunteers share their thinking with the class.

**Students might say:**

"Where it's talking about the rain, the words are written more up and down than across."

"I agree with [Tony]. Also, the words 'I open my umbrella up' curve across the page so they look like the top of an umbrella."

"The words 'pitter patter plip plop' sound like rain."

"In addition to what [Quinn] said, I notice that all those words start with a /p/ sound."

"It has a rhyme in it—sky/dry."

Ask the students to turn to page 30 in their handbooks, where the poem "Ice Cubes" by Joan Bransfield Graham is reproduced, and have them follow along as you read the poem aloud. Read "Ice Cubes" on page 651 (including the title) aloud slowly and clearly; then ask:

**Q** *What is this poem about?*

**Q** *What do you notice about how this poem looks on the page? Why do you think the poet wrote it that way?*

**TEKS 10.D.iii**  
Student/Teacher Activity  
Step 2 (all, beginning on  
page 635 and continuing  
on to page 636)

### Teacher Note

You may want to shorten today's Writing Time to leave more time for the pair conferences in Step 4.

### Teacher Note

To see an example of a teacher conferring with individual students, view "Conferring About Poetry" (AV54).

#### Students might say:

"It's about ice cubes falling into a glass."

"The words are in little squares like ice cubes."

"The parts of the poem are tilted different ways so it looks like they're falling."

"She probably wants us to see the ice cubes when we read the poem."

Point out that poets think carefully about what their poems look like on the page and that the shape of a poem can help the reader understand what the poem is about. On the "Notes About Poems" chart, add *A poem's shape can help the reader understand what it's about.*

Explain that today you would like each student to pick one of the poems they read this week and try writing a poem that looks similar to it on the page. Encourage them to write poems using their quick-write ideas from earlier in the week. They may also write poems about any other topics they choose. Review the items on the "Notes About Poems" chart and encourage the students to use some of these ideas in their poems. Tell the students that you will give pairs a chance to share what they wrote at the end of Writing Time.

## WRITING TIME

### 3 Draft Poems in the Students' Notebooks

Have the students write poems silently for 20–30 minutes. If necessary, remind them to write their drafts, double-spaced, in their notebooks. Join the students in writing for a few minutes; then begin conferring with individual students.

### TEACHER CONFERENCE NOTE

Over the coming days, confer with individual students about the poems they are writing. Ask each student to show you a draft of a poem and read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in her poem?
- Does the student include other elements of poetry?

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What are you thinking about how your poem looks on the page?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 150 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Confer in Pairs About Poems

Gather the class with partners sitting together, facing you. Explain that partners will read what they wrote today to each other and confer about it. Ask:

**Q** *What would you like your partner to do to show that he or she is interested in your writing and your creative ideas?*

**Students might say:**

"I would like my partner to listen as I read my poem."

"I would like my partner to ask me questions about the poem."

"I would like my partner to tell me the part he likes."

"I would like my partner to notice the sensory details I used."

Have partners share their writing with each other.

Observe the students closely and provide sufficient time for both partners to share their writing before signaling for their attention.

### 5 Reflect on Pair Conferences and Poems

Help the students reflect on their work today by asking:

**Q** *What did your partner do to show interest in your writing and creative ideas?*

**Q** *What did you do to show interest in your partner's writing?*

**Q** *What sensory details did your partner include in his or her poem? What did you imagine from those details?*

**Q** *Did you or your partner include words or letters that are placed on the page in unusual ways? Tell us about that.*

## EXTENSION

### Read and Discuss "Two Voices in a Tent at Night"

Have the students open to *Student Writing Handbook* page 24, where "Two Voices in a Tent at Night" by Kristine O'Connell George is reproduced. Remind the students that they heard this poem earlier, and ask them to follow along as you read it aloud again. Read "Two Voices in a Tent at Night" (see page 645) aloud, slowly and clearly. Ask:

**Q** *What do you notice about how this poem looks on the page?*

**Q** *How does the way this poem is written help you understand what the poem is about?*

### Teacher Note

If necessary, signal to the students about halfway through sharing time so partners can switch roles if they have not yet done so.

# Day 5

## Exploring Poetry

### Materials

- “Open Hydrant” (see page 652)
- “Ice Cubes” from Day 4 (see page 651)
- “Notes About Poems” chart from Day 4
- *Student Writing Handbook* pages 30–31
- “Things That Make Noise” chart (WA3)

**TEKS 10.D.iv**  
Student/Teacher Narrative  
Step 1 (all, beginning on  
page 638 and continuing on  
to page 639)

### Students might say:

“It’s divided in half, like it’s two columns.”

“In addition to what [Dean] said, each half is what one of the people says.”

“The words go back and forth, so it’s easier to imagine two people talking to each other.”

Remind the students that the way the letters and words are arranged on the page can help readers understand what the poem is about. Point out that the way the poet wrote “Two Voices in a Tent at Night” helps readers understand that it is about two people having a conversation. Encourage the students to experiment with different arrangements of letters and words on the page as they write poems.

### In this lesson, the students:

- Hear, discuss, and write poems
- Explore how sound functions in poems
- Explore sensory details in a poem
- Quick-write ideas for poems about things that make noise

## GETTING READY TO WRITE

### 1 Explore Sounds in Poetry

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Review that the students have been thinking about sensory details in poems as well as what poems look like on the page. Explain that today they will think about how poems sound.

Have the students open to *Student Writing Handbook* page 30, where “Ice Cubes” is reproduced. Ask the students to read the poem “Ice Cubes” (on page 651) aloud with you, paying attention to the sounds of the words as they read. Read the poem aloud with the class and then ask:

**Q** *What words in the poem help you imagine how the ice cubes sound? What did you imagine when you heard that word?*

**Students might say:**

"The words *clatter* and *clink* are sounds ice cubes make when they fall into a glass."

"'Crystal chorus' made me think of the sound you hear when you're stirring a drink and the ice cubes hit the side of the glass at the same time."

Point out that this poem sounds like what it is about—ice cubes. Explain that the use of words that sound like what they are describing is called *onomatopoeia*, and that the words *clatter* and *clink* in the poem are examples of this.

Then ask:

**Q** *Why do you think the poet included so many words that have the /k/ sound in this poem? Turn to your partner.*

Have a few volunteers share their thinking with the class.

**Students might say:**

"All the /k/ sounds make you think the ice cubes are bumping into each other and making a lot of noise."

"I agree with [Bindi], the /k/ sounds remind me of the sound that ice cubes make when you drop them into a glass."

Explain that the repetition of beginning sounds, such as /k/ in this poem, is called *alliteration*. Point out that alliteration is another technique poets use to make their poems sound like what they are describing.

## 2 Read and Discuss "Open Hydrant"

Tell the students that you will read a poem called "Open Hydrant" by Marci Ridlon. Explain that fire hydrants are powerful outdoor water faucets that allow firefighters to use their hoses anywhere in a city. Fire hydrants are often found on city sidewalks. Explain that sometimes people open—or turn on—hydrants on hot days to let children play in the water to cool off.

Ask the students to each close their eyes and make a picture in their minds as they listen to you read the poem aloud. Invite them to listen for words that sound like what the poem is about. Read "Open Hydrant" on page 652 aloud twice, slowly and clearly.

### Suggested Vocabulary

**luscious:** very enjoyable feeling

### ELL Vocabulary

English Language Learners may benefit from having additional vocabulary defined, including:

**summer's sizzle:** the heat of summer

**a little drizzle:** small drops of liquid

### Teacher Note

For more practice with onomatopoeia, see the extension "Explore Onomatopoeia" on page 643.

### TEKS 10.D.iv

Student/Teacher Activity  
Step 2 (all, beginning on page  
639 and continuing on to  
page 640)

Ask:

- Q *What did you picture in your mind as you listened to this poem? Turn to your partner.*
- Q *What do you think the author meant when she wrote “city fishes”? Turn to your partner.*

Have a few volunteers share their thinking with the class.

**Students might say:**

“I imagined a lot of water spraying out, like a giant hose.”

“I think ‘city fishes’ means kids playing in the water.”

Have the students open to *Student Writing Handbook* page 31, where “Open Hydrant” is reproduced, and have them follow along as you read the poem aloud again. Invite the students to pay attention to the sounds of the words as they listen. Ask and briefly discuss:

- Q *What examples of onomatopoeia did you notice? What did you imagine when you heard those words? Turn to your partner.*
- Q *Why do you think the poet chose to include so many words with the /sh/ sound in them?*

**Students might say:**

“Words like *rushes* and *whoosh* make it sound like the water is moving really fast.”

“*Crashes* made me imagine the water hitting the sidewalk really hard, and then ‘over curbs it swishes’ made me hear a softer sound.”

“I think the poet included so many /sh/ sounds because that sound makes you imagine water.”

Review that the authors of “Ice Cubes” and “Open Hydrant” both use words in their poems that sound like what the poems are about. On the “Notes About Poems” chart, add *Poems sometimes sound like what they are about (onomatopoeia and alliteration)*. Encourage the students to continue to notice how poets use sounds to help readers imagine something.

### 3 Quick-write: Ideas for Poems About Things That Make Noise

Review that the students heard two poems about things that make noise: ice cubes and fire hydrants. Have the students think quietly to themselves about the following question. Ask:

- Q *Ice cubes and fire hydrants are things that make noise. What is something else that makes noise that you might write a poem about?*

After giving the students a moment to think, display the “Things That Make Noise” chart (WA3) and call on a few volunteers to share their thinking with the class. As the students share, record their ideas on the chart.

When there are two or three ideas on the chart, have the students each open to the next blank page in their notebooks and list more things that make noise that they might write a poem about.

After about 5 minutes, call for the students' attention and have a few more volunteers share their thinking with the class. Continue to add their ideas to the "Things That Make Noise" chart.

### Things That Make Noise

- a baby
- fire trucks
- a barking dog
- a storm
- kids on the playground
- video games

WA3

Explain that during Writing Time today, the students will continue to write poems. Encourage them to each write a poem about something that makes noise, if they wish. Briefly review the "Notes About Poems" chart and encourage the students to think about including sounds to help the reader imagine what the poem is about.

## WRITING TIME

### 4 Write Independently

Have the students return to their seats and write poems silently for 20–30 minutes. Join them in writing for a few minutes; then confer with individual students.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in his poem?
- Does the student include other elements of poetry?

*(continues)*

### Teacher Note

To see an example of this technique, view “Sharing One Line and Reflecting” (AV56).

## TEACHER CONFERENCE NOTE *(continued)*

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what’s happening?*
- Q *What are you thinking about how your poem looks on the page?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 150 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Creativity

Tell the students that poets must tap into their creativity to write poems that readers can imagine and enjoy. Explain that *creativity*, or the ability to create something new or to recreate something familiar in a new way, helps poets write unique poems about ordinary things like ice cubes and fire hydrants.

Ask the students to review the poetry they wrote today and to each choose one line to share with the class. Encourage each student to choose a line she likes or that she believes shows her creativity. After a moment, go around the room and have each student read her line aloud, without comment.

After the students have read their lines, facilitate discussion among the students by asking:

- Q *What lines did you hear that got your imagination going?*
- Q *What questions do you want to ask a classmate about his or her writing?*

Explain that the students will continue to work on poems during the coming week.

## EXTENSIONS

### Explore Sensing Like a Poet

Collect objects that make sounds; that have interesting shapes, colors, or textures; or that have unique smells or tastes. Have the students handle, listen to, smell, taste, and/or feel the objects and brainstorm words to

describe what they are sensing. Chart the brainstormed words and invite the students to write poems about the objects using the words.

## Explore Onomatopoeia

Remind the students that they heard the poems “Galoshes” and “It’s Raining!” earlier. Tell the students that you will read the poem “Galoshes” aloud again and that as you read, you want them to listen for examples of onomatopoeia, or words that sound like what they are describing. Read the poem aloud. Ask:

**Q** *What words did you hear in the poem that are examples of onomatopoeia?*

Have volunteers share their thinking. If necessary, point out that *splishes, splashes, slooshes, sloshes, slush, stamp, and tramp* are all examples of onomatopoeia. Tell the students that by using words like these, the poet helps us imagine what the poem is about. Repeat this process with the poem “It’s Raining!”

### Teacher Note

Examples of onomatopoeia in “It’s Raining!” include *pitter, patter, plip, and plop*.

## Galoshes

by Rhoda Bacmeister

Susie's galoshes  
Make splishes and splashes  
And slooshes and sloshes  
As Susie steps slowly  
Along in the slush.

They stamp and they tramp  
On the ice and concrete,  
They get stuck in the muck and the mud;  
But Susie likes much best to hear

The slippery slush  
As it slooshes and sloshes,  
And splishes and splashes,  
All around her galoshes!

## Two Voices in a Tent at Night

by Kristine O'Connell George

Shhhhh . . .  
Something is scratching  
on our tent.

Is too.

Scratching!

Something is scratching!

It's you! Stop it!

It is you!  
Isn't it?

Told you so.  
Scratching!

No. No. No!

I hope so.

Is not.

Is not.

I don't hear anything.

Go to sleep.

No, it's *not*. It's a branch.

OK. OK. It *was* me . . .  
Wait.  
Something's scratching!  
Listen.

*Shhhhhh*. Are you doing that?

Think it's the dog?

## Which is the Best?

by James Stevenson

Ice cream on a stick,  
Covered with cold, shiny chocolate,

Or ice cream heaped up in a cone,  
Dripping fast on a hot day,

Or ice cream in a big blue bowl  
And a spoon you can take your time with—

Which is the best?

It is too soon  
To give the answer.

I have more testing  
To do.

### Sunning

by James S. Tippett

Old Dog lay in the summer sun  
Much too lazy to rise and run.  
He flapped an ear  
At a buzzing fly.  
He winked a half opened  
Sleepy eye.  
He scratched himself  
On an itching spot,  
As he dozed on the porch  
Where the sun was hot.  
He whimpered a bit  
From force of habit  
While he lazily dreamed  
Of chasing a rabbit.  
But Old Dog happily lay in the sun  
Much too lazy to rise and run.

## Open Hydrant

by Marci Ridlon

Water rushes up  
and gushes,  
cooling summer's sizzle.

In a sudden whoosh  
it rushes,  
not a little drizzle.

First a hush and down  
it crashes,  
over curbs it swishes.

Just a luscious waterfall  
for  
cooling city fishes.

# Week 2

## OVERVIEW

### Poems

#### “Autumn Leaves”

by Eve Merriam (see page 676)

This poem uses sounds and repetition to create a vivid account of playing in falling (and fallen) leaves.

#### “Hotel Swimming Pool’s Evening Lament”

by Stefi Weisburd (see page 677)

In this poem, a neglected swimming pool shares its disappointment with the reader.

#### “Oak’s Introduction”

by Kristine O’Connell George (see page 678)

A personified oak tree invites a child to climb its branches.

## TEACHER AS WRITER

### Writing Focus

- Students hear, discuss, and write poems.
- Students explore sensory details, sound, repetition, and personification in poems.
- Students review their poetry drafts and select one to revise, proofread, and publish.
- Students revise their poems, thinking about sensory details, sounds, and how they want their poems to look on the page.
- Students explore punctuation in poetry.

### Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students help one another improve their writing.
- Students express interest in and appreciation for one another's writing.

## DO AHEAD

- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2) on page 149 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, visit the CCC Learning Hub ([cclearninghub.org](http://cclearninghub.org)) to access and print this unit's family letter (BLM1). Make enough copies to send one letter home with each student's published piece.
- ✓ (Optional) If computers are available, you might have some students type and print out their poems. You can also recruit parent volunteers to help the students do so. In addition, you might teach Technology Mini-lesson 8, “Creating Presentations,” in Appendix A to help the students learn how to use visuals to enhance their poems.

### Rain

*Like a drummer's brush,  
the rain hushes the surface of tin  
porches.*

— Emanuel di Pasquale

Read the poem above aloud and listen to the sounds of the words. Notice how the sounds of the words support the meaning of the poem.

This week try writing some short poems that include words with sounds that support the meaning of your poems. If helpful, use the poem above as a model. Here's an example of a poem modeled on “Rain”:

### Wind

*Like a magician's whip,  
the wind whistles and flaps the  
white sheets.*

# Day 1

## Exploring Poetry

### Materials

- “Autumn Leaves” (see page 676)
- “Notes About Poems” chart from Week 1
- *Student Writing Handbook* page 32

### In this lesson, the students:

- Hear, discuss, and write poems
- Explore sounds in a poem
- Explore sensory details in a poem
- Informally explore how repetition functions in poems

## GETTING READY TO WRITE

### 1 Briefly Review Poetry

Have the students bring their notebooks and *Student Writing Handbooks* and gather with partners sitting together, facing you.

Remind the students that they have been exploring poetry, and that last week they thought about sensory details and sounds in poems, as well as what poems look like on the page. Have the students open their notebooks and briefly review the poems they have written. Ask and briefly discuss:

- Q *What is an interesting sensory detail you have written? Read that detail aloud to us.*
- Q *What sound words have you included in a poem? Read us a few of those words.*
- Q *What decisions have you made about what a poem looks like on the page? Show us the poem and tell us about your decision.*
- Q *What words have you repeated in a poem? Read that part to us. Why did you decide to repeat that?*

### 2 Read and Discuss “Autumn Leaves”

Review that last week the students heard poems including “Galoshes,” “Ice Cubes,” and “Open Hydrant” and talked about how the poets use sound words to help readers understand their poems. Explain that today they will hear another poem that uses sound words.

Explain that you will read a poem called “Autumn Leaves” by Eve Merriam. Ask the students to close their eyes and listen as you read the poem aloud. Read “Autumn Leaves” on page 676 (including the title) aloud once, slowly and clearly. Have the students open their eyes; then ask:

- Q *What is happening in this poem? Turn to your partner.*

Have the students open to *Student Writing Handbook* page 32, where “Autumn Leaves” is reproduced, and follow along as you reread the poem aloud. After a moment, ask:

**Q** *What examples of onomatopoeia did you notice? What did those words make you imagine?*

If necessary, remind the students that *onomatopoeia* is the “use of words that sound like what they are describing.” Point out that the words *rustle*, *crackle*, and *crunch* are examples of onomatopoeia.

**Q** *What other sensory details does the poet include to help you get a picture in your mind?*

**Students might say:**

“‘Crackle and crunch’ made me imagine the sound you hear when you step on dry leaves.”

“In addition to what [Callahan] said, when I heard the word *rustle*, I could hear the sound of the wind blowing the leaves around.”

“Words like *tumble* and *swoop* really helped me get a picture in my mind of the leaves falling.”

### 3 Discuss Repetition in Poetry

Have the students reread “Autumn Leaves” quietly to themselves. Ask them to think about the following questions as they read:

**Q** *What words do you notice repeated over and over in this poem?*

**Q** *How does reading those words over and over help you imagine what’s happening in the poem?*

After a few moments, have partners discuss what they noticed; then have volunteers share their thinking with the class.

**Students might say:**

“The word *down* is repeated over and over. It makes me imagine that more and more leaves keep falling.”

“I picture the person in the poem jumping up and down because it says *jump* three times.”

Point out that repeated words can help readers imagine what is happening in a poem. On the “Notes About Poems” chart, add *Poets repeat words in poems to help the reader imagine something*.

Explain that during Writing Time today the students will continue to write poems. Invite them to try including sounds or repeated words to help the reader imagine something. Remind the students to refer to the “Notes About Poems” chart as they write.

## WRITING TIME

### 4 Write Independently

Have the students return to their seats and write poems silently for 20–30 minutes. Join the students in writing for a few minutes; then confer with individual students.

### TEACHER CONFERENCE NOTE

As you did last week, confer with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in her poem?
- Does the student include other elements of poetry?

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What are you thinking about how your poem looks on the page?*
- Q *Where in your poem might you repeat words? How might that help a reader understand your poem?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 150 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Creativity

Have the students review the poems they wrote today and each choose one line to share with the class. Encourage each student to choose a line that he believes shows his creativity. After a moment, go around the room and have each student read his line aloud, without comment.

After the students have read their lines, facilitate discussion among the students by asking:

- Q *What lines did you hear that got your imagination going?*
- Q *What questions do you want to ask a classmate about his or her writing?*

Explain that the students will confer in pairs about their poems tomorrow.

### Facilitation Tip

Continue to practice **asking questions once** without repeating or rewording them and then **using wait-time**. Notice the effect this has on the students' attentiveness during class discussions.

## In this lesson, the students:

- Hear, discuss, and write poems
- Quick-write ideas for poems about things that think and talk like people
- Explore sensory details in poems
- Explore personification in poems
- Express interest in and appreciation for one another's writing

## GETTING READY TO WRITE

### 1 Explore Elements of Poetry

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

As you did yesterday, have the students briefly review the poems they have written; then ask and briefly discuss questions such as:

- Q *What is an interesting sensory detail you have written? Read that detail aloud to us.*
- Q *What sound words have you included in a poem? Read a few of those words to us.*
- Q *What decisions have you made about what a poem looks like on the page? Show us the poem and tell us about your decision.*
- Q *What words have you repeated in a poem? Read that part to us. Why did you decide to repeat that?*

### 2 Read and Discuss “Hotel Swimming Pool’s Evening Lament”

Explain that you will read two more poems aloud today. Briefly review the “Notes About Poems” chart and encourage the students to notice how the poets include some of the items on the chart in their poems.

Tell the students that the first poem you will read is called “Hotel Swimming Pool’s Evening Lament” by Stefi Weisburd. Explain that a *lament* is a “feeling or expression of sadness.” Have the students close their eyes and listen as you read “Hotel Swimming Pool’s Evening Lament” on page 677 (including the title) aloud twice, slowly and clearly. Clarify vocabulary during the first reading.

## Materials

- “Hotel Swimming Pool’s Evening Lament” (see page 677)
- “Oak’s Introduction” (see page 678)
- “Notes About Poems” chart from Day 1
- Chart paper and a marker
- *Student Writing Handbook* pages 33–34

**TEKS 10.D.iii**  
Student/Teacher Narrative  
Step 2 (fourth paragraph)

**TEKS 10.D.iii**  
Student/Teacher Activity  
Step 2 (fifth paragraph,  
second discussion question)

## Suggested Vocabulary

**sleek:** smooth

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**staring:** looking

**dip in:** put in something wet

Have the students open their eyes and turn to *Student Writing Handbook* page 33, where “Hotel Swimming Pool’s Evening Lament” is reproduced. Ask them to reread the poem to themselves. Then ask and briefly discuss:

**Q** *What is happening in this poem? Turn to your partner.*

Explain that the poet writes about the pool as if it can think, feel, and talk like a person. Explain that writing about something as if it were a person is called *personification*.

Ask the students to reread the poem silently to themselves and to think as they read about how the poet writes about the swimming pool as if it were a person. When the students have finished reading, ask:

**Q** *How is the swimming pool feeling? What words in the poem tell you that?*

**Q** *What words does the poet use to help you make a picture in your mind?*

### Students might say:

“I think the swimming pool feels sad. It says how there’s no one to swim in it.”

“In addition to what [Charlotte] said, I think it feels lonely. It’s hoping someone will put a toe in.”

“The words ‘staring at the sky all day’ make it sound like the pool is bored.”

“Words like *swirl*, *splash*, and *dive* make me imagine kids swimming and having fun in the pool.”

## **3** Read and Discuss “Oak’s Introduction”

Ask the students to turn to page 34 in their handbooks and have them follow along as you read “Oak’s Introduction” by Kristine O’Connell George aloud. Explain that this is another poem in which the poet uses *personification*, or writes about something as if it were a person. Read “Oak’s Introduction” on page 678 aloud twice (including the title), slowly and clearly. Ask and briefly discuss:

**Q** *What do you picture in your mind when you hear this poem? Turn to your partner.*

**Q** *How is the oak tree feeling? What words in the poem tell you that?*

**Students might say:**

"I picture a big tree looking down and talking to a kid standing next to it."

"'I've been wondering when you'd notice me' makes me think the tree is tired of waiting for someone to climb it."

"I disagree with [Colin]. I think the tree is patient. It says 'I've been waiting, watching you.'"

Direct the students' attention to the "Notes About Poems" chart, and add *Poems can be about anything* and *Poets use personification (write about things as if they were people)*.

#### 4 Quick-write: Ideas for "I Am a \_\_\_\_\_" Poems

Use "Think, Pair, Share" to discuss:

**Q** *If you were going to write a poem called "I Am a \_\_\_\_\_" about something else that thinks and talks like a person, what might it be? [pause] Turn to your partner.*

When partners have had a chance to talk, have a few volunteers share their ideas with the class. As they make suggestions, record their ideas on a sheet of chart paper titled "I Am a \_\_\_\_\_." Select one of the items on the list (for example, a bicycle) and ask:

**Q** *Imagine that you are a [bicycle]. What might you say about how you are feeling?*

**Q** *What might you say about how you look, sound, smell, taste, or feel?*

Write the title "I Am a [Bicycle]" where everyone can see it. Have volunteers share their thinking and record their ideas on the chart.

### I Am a Bicycle

*I am shiny and black with red stripes.*

*I get hot and dusty when I'm parked in the sun.*

*I have big handlebars with a silver bell to ring.*

*I feel lonely when I'm left on the sidewalk.*

*I have different gears that can help me get up a steep hill.*

*I like to go zooming down the street.*

Explain that each student will choose a different idea from the list and then quick-write lines like the ones on the chart for an "I Am a \_\_\_\_\_" poem. Have the students write for 3–4 minutes; then call for their attention and have a few volunteers share their ideas with the class. After sharing, ask the students to resume writing for a few more minutes.

Call for the students' attention and have a few volunteers share what they wrote.

**Students might say:**

"I wrote about being a plate. I wrote that I'm old and scratched up. I'm tired of all the knives and forks banging on me."

"I chose a worm. I wrote that I am smooth and moist and I love the smell of the dark dirt."

Explain that during Writing Time today the students will continue to write poems. Invite them to each create an "I Am a \_\_\_\_\_" poem using the lines they wrote during the quick-write or, if they wish, to write another poem about something that can think and talk like a person. Tell the students that you will give pairs a chance to share what they wrote at the end of Writing Time.

Briefly review the "Notes About Poems" chart and encourage the students to refer to the chart as they write today.

## WRITING TIME

### 5 Write Independently

Have the students return to their seats and write poems silently for 20–30 minutes. Join them in writing for a few minutes; then confer with individual students.

#### Teacher Note

You may want to shorten today's Writing Time to leave more time for the pair conferences in Step 6.

#### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in his poem?
- Does the student include other elements of poetry?

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What are you thinking about how your poem looks on the page?*
- Q *Where in your poem might you repeat words? How might that help a reader understand your poem?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 150 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Confer in Pairs About Poems

Gather the class with partners sitting together, facing you. Explain that each student will choose one poem to read to her partner today and that you would like the listening partner to close his eyes and try to get a picture in his mind as he listens to the poem. After hearing the poems, each student will tell his partner what he imagined as he listened. Ask:

- Q *How will you read your poem so your partner is able to get a picture in his or her mind?*
- Q *As you listen to your partner's poem, what kinds of things will you listen for to help you get a picture in your mind?*

**Students might say:**

"I will read my poem slowly so my partner can think about the words."

"I will listen for sensory details, like what things look like or sound like."

Encourage the students to read their poems aloud more than once, if necessary. Have partners share their writing.

Observe the students closely and provide sufficient time for both partners to share their poems before signaling for their attention.

### 7 Reflect on Pair Conferences and Poems

Help the students reflect on their work today by asking:

- Q *What picture did you get in your mind as you listened to your partner's poem today?*
- Q *What did you do to show interest in your partner's writing?*

Tell the students that tomorrow they will each choose one poem to revise and publish in a class book.

#### Teacher Note

If necessary, signal to the students about halfway through sharing time so partners can switch roles if they have not yet done so.

#### Teacher Note

The end-of-lesson reflection is important to the students' growth as writers and to their social development. We encourage you to allow at least 5 minutes at the end of each period to help the students reflect on their work and interactions. For more information about social development, see "Values and Social Skills" on page xxviii. You may also view "Social Reflection" (AV14).

# Day 3

## Selecting and Revising Drafts

### Materials

- “Notes About Poems” chart from Day 2
- Pad of small (1½" × 2") self-stick notes for each student
- “Writing Time” chart (WA4)
- “Class Assessment Record” sheet (CA2)

**TEKS 11.B.vi**  
**TEKS 12.A.iii**  
**TEKS 12.A.iv**  
Student/Teacher Activity  
Step 2 (all, beginning on  
page 664 and continuing  
on to page 665)

### Teacher Note

The purpose of this guided rereading is to give the students experience with critically reading and thinking about their drafts *before* beginning to revise. Note that some students will not be finished with their drafts and will need time in the coming days to both complete and revise them.

### In this lesson, the students:

- Review their poetry drafts and each select one to develop and publish
- Reread their writing critically
- Analyze and revise for sensory details, sounds, and form
- Ask one another questions about their writing

## GETTING READY TO WRITE

### 1 Review and Select Drafts

Have the students stay in their seats. Review that the students have been writing drafts of poems, and explain that today they will look through all their drafts and each select one to develop for publication in a class book.

Remind the students that they have been thinking about what makes a poem a poem. Direct their attention to the “Notes About Poems” chart and review the items on it. Ask and briefly discuss:

**Q** *As you’re looking through your poems, what might you want to look for to help you decide on one to develop?*

#### Students might say:

“I want to look for a poem that has some good sensory details.”

“I wrote some poems with interesting sound words. I think I’ll pick one of those.”

“I want my poem to be different from everyone else’s, so I’m going to look for one that is really unique.”

Give the students a few minutes to review and select their poems. You may want to have them select a second poem to develop if they have time at the end of the week.

### 2 Facilitate Guided Rereading of Drafts

Explain that the students will carefully reread their drafts and that you will help them think about ways they can add to, revise, and improve their poems. Have them quietly reread their drafts and look up when they are finished.

Distribute a pad of self-stick notes to each student. Explain that you will ask the students to look for and think about several specific things in their drafts.

Say the following and give the students several minutes to review their drafts and mark passages with self-stick notes:

- Find one place in your poem where you describe, or could describe, something using sensory details. Put a self-stick note in the margin next to that place and write *sensory details* on it.

When most students have finished, signal for their attention and ask a few volunteers to read what they marked. Probe their thinking by asking questions such as:

**Q** *What do you hope your reader will imagine when reading that line?*

Using the same procedure, take the students through the following prompts, saying them one at a time and giving the students time to mark passages before having volunteers share.

- Do the sounds of the words in your poem help to communicate what the poem is about? Find a place where you might be able to add some interesting-sounding words. Put a self-stick note in the margin next to that place and write *sounds* on it.
- What decisions have you made about how your poem looks on the page? Does the way it looks on the page help readers understand what it is about? If you think you can change the way your poem looks on the page to help the reader understand what it is about, put a self-stick note in the margin next to that place and write *how it looks on the page* on it.

## WRITING TIME

### 3 Reread and Revise Poems

Display the “Writing Time” chart (WA4) and have the students work silently on the charted tasks for 20–30 minutes.

#### Writing Time

- Review the things you marked with self-stick notes.
- Revise your poem.
- Remove the self-stick notes when you finish revising.
- If necessary, continue adding to your poem until it is finished.

WA4

If the students finish, they may follow the same procedure to review and revise a second poem. Join the students in writing for a few minutes; then walk around the class and observe, assisting students as needed.

#### Teacher Note

If the students have difficulty finding and marking sensory details, make the prompts more specific by saying:

- Mark a place where you describe, or could describe, what something looks like.
- Mark a place where you describe, or could describe, what something sounds like.
- Mark a place where you describe, or could describe, what something smells or tastes like.
- Mark a place where you describe, or could describe, what something feels like.

TEKS 12.A.iii

TEKS 12.A.iv

Student/Teacher Activity

Step 3 (all, beginning on page 665 and continuing on to page 666)

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to revise their drafts to include sensory details and/or sounds?
- Are they thinking about what their poems look like on the page?
- Do they seem engaged in revising their poems?

Support any student who struggles by asking questions such as:

- Q *What were you thinking about when you marked this place on your draft?*
- Q *What words could you add to help the reader [see/hear/smell/taste/feel] what you're writing about?*
- Q *Read your poem aloud. What sounds do you hear? Do those sounds help readers understand what your poem is about? If not, what sounds might make sense in your poem?*
- Q *What do you want your poem to look like on the page? How can you arrange the words so it looks like that?*

Record your observations on the "Class Assessment Record" sheet (CA2); see page 149 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Reflect on Revisions and Creativity

Have the students review their revisions from today and each choose one revised line to share with the class. Encourage each student to choose a line that he feels is an improvement over the original line and that shows his creativity. After a moment, go around the room and have each student read his line aloud, without comment.

After the students have read their lines, facilitate discussion among the students by asking:

- Q *How does the line you read improve your poem?*
- Q *What lines did you hear your classmates read that got your imagination going?*
- Q *What questions do you want to ask a classmate about his or her writing?*

Explain that the students will proofread and begin writing final versions of their poems tomorrow.

# WRITING ABOUT READING

## Write Opinions About a Poem

Remind the students that they have been exploring poetry and explain that today they will have a chance to write about their favorite poems from the unit. Have them open to *Student Writing Handbook* page 23, where the poems from the unit begin, and explain that you will give them a few minutes to reread the poems and each choose a favorite one to write about. Briefly review the “Notes About Poems” chart and encourage the students to think about the items on the chart as they review the poems. After a few minutes, call for the students’ attention and ask:

- Q Which poem from this unit do you like the best? Why is it your favorite?
- Q Which items from the “Notes About Poems” chart do you notice in that poem?

### Students might say:

“I like the poem ‘Two Voices in a Tent at Night’ the best because it’s funny. The words are arranged to look like a conversation.”

“My favorite poem was the one about the swimming pool because it’s interesting. I never thought about a swimming pool having feelings before!”

“I like ‘It’s Raining!’ because it’s cool how the poem looks like rain and an umbrella.”

Explain that each student will write a short paragraph about her favorite poem. If necessary, explain to the students that when they talk about liking something (or disliking it), they are giving an *opinion*, or expressing their point of view. Tell the students that readers often have different opinions about the same thing and that is fine. What is important is that they give reasons that support their opinions.

Ask the students to watch as you think aloud and model writing a short opinion paragraph about your favorite poem from the poetry unit.

### You might say:

“I’ll start by stating my opinion in a way that’s clear and easy to understand. I’ll write: *My favorite poem from this unit is ‘Open Hydrant’ by Marci Ridlon.* I included the title of the poem and the author in my first sentence so the reader knows exactly what the subject of my paragraph is. Next, I want to give a reason that supports and explains my opinion. I’ll write: *I like it because I grew up in a city and used to play in the water from open hydrants in the summer. The sensory details in the poem helped me imagine I was back there.* Now I want to finish my paragraph by adding a sentence that reminds the reader what my opinion is. I’ll write: *That’s why this poem is my favorite.*”

Ask each student to include a reason that supports his opinion and to end his paragraph with a sentence that reminds the reader what his opinion is. Have the students write opinions about their favorite poems. If time permits, invite the students to share their opinion paragraphs with the class.

## Materials

- *Student Writing Handbook* pages 23–34
- “Notes About Poems” chart from Day 2

### Materials

- “Open Hydrant” chart (WA5)
- “Oak’s Introduction” chart (WA6)
- “Ice Cubes” chart (WA7)
- “Sunning” chart (WA8)
- *Student Writing Handbook* pages 31–34
- Supply of loose, lined paper for final versions
- (Optional) Computers for typing and printing final versions

### In this lesson, the students:

- Explore punctuation and capitalization in poems
- Decide how they will punctuate their poems
- Proofread and correct spelling and punctuation
- Begin writing the final versions of their poems

## GETTING READY TO WRITE

### 1 Discuss How Poets Use Punctuation and Capitalization in Poems

Have the students get their notebooks, *Student Writing Handbooks*, and pencils and sit at desks with partners together. Explain that today each student will work on the final version of her poem and that tomorrow she will publish it by sharing it from the Author’s Chair and contributing it to a book for the class library.

Explain that the students will proofread their poems for spelling errors and make sure they have punctuated their poems exactly the way they want to. Tell the students that poets do not always follow the rules when it comes to punctuation. When they break the rules, they do so on purpose, not accidentally. Explain that, before the students look at their own poems and decide how to punctuate them, they will look at how poets follow and break capitalization and punctuation rules. Ask:

**Q** *When writing sentences, what do we usually do at the beginning and end to make sure they are written correctly?*

If necessary, remind the students that a sentence begins with a capital letter and ends with a period, question mark, or exclamation point.

Display the “Open Hydrant” chart (📄 WA5) and have the students turn to this poem on *Student Writing Handbook* page 31.

Ask them to scan the poem to see if the poet follows the rules for punctuating and capitalizing sentences. After a moment, ask:

**Q** *Does this poet follow the rules in this poem? Why do you say that?*

As the students refer to punctuation in the poem, underline or circle the punctuation marks on the chart. If necessary, point out that this poet follows the rules by capitalizing the first letter in each of the four sentences in the poem and ending each sentence with a period.

Next, display the “Oak’s Introduction” chart (📄 WA6) and ask the students to turn to this poem on *Student Writing Handbook* page 34.

Give the students a moment to read the poem to themselves; then ask:

**Q** *What do you notice about how this poem is punctuated? Turn to your partner.*

Have a few volunteers share with the class. Underline or circle the punctuation marks on the chart. If necessary, point out that this poet also follows the rules by capitalizing the first letter of each sentence and ending it with a period, even though the sentences are long and vertical on the page.

Repeat this procedure for “Ice Cubes” (WA7) and “Sunning” (WA8). Mark on the charts the places the students refer to as they share their ideas.

## 2 Review Drafts for Punctuation and Capitalization

Ask the students to review their poems and think quietly to themselves about the following questions:

- Q** *Did you capitalize the first letters of sentences and use periods at the ends? If so, did you do this all the way through your poem?*
- Q** *If you decided not to capitalize the first letters of sentences and use periods at the ends, what did you do instead? Do you want to leave it this way or revise it to follow the punctuation rules for sentences?*
- Q** *If you chose not to follow the rules for punctuating and capitalizing sentences, did you do this consistently all the way through your poem?*

Give the students a few moments to check and revise their punctuation and capitalization, and encourage them to use the poems in their *Student Writing Handbooks* as models for how to punctuate their own poems.

## 3 Review Proofreading for Spelling and Conventions

Remind the students that they should use their word banks and proofreading notes in their *Student Writing Handbooks* to help them proofread their drafts for spelling and correctness (see Unit 2, Week 2, Day 2 on page 100 and Unit 2, Week 2, Day 3 on page 105). Briefly review these procedures by reminding the students to:

- Circle words in their drafts that they are unsure how to spell and look the words up in their word banks. They will add to their word banks any words that are not already there after looking up the correct spellings in a dictionary or other source.
- Use their proofreading notes as a list of things to check before publishing. The students will correct any errors by crossing out each error and writing the correction above it (unless, for some reason, they choose to intentionally break the rule).

### Teacher Note

If necessary, point out that “Ice Cubes” has no ending punctuation or capital letters at all and that the sentences in “Sunning” are written using capital letters and periods, but the first word of every line is capitalized even if it is in the middle of a sentence. In both cases, the poets made a choice to *not* follow the rules for punctuating and capitalizing sentences.

## WRITING TIME

### 4 Proofread Drafts and Write Final Versions

Have the students work on proofreading their poems. Provide loose, lined paper to students who finish proofreading and are ready to begin their final versions. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with individual students.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in her poem?
- Does the student include other elements of poetry?

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What are you thinking about how your poem looks on the page?*
- Q *Where in your poem might you repeat words? How might that help a reader understand your poem?*
- Q *Have you decided to punctuate your poem with periods and to use capital letters? If so, are you doing this all the way through your poem? If not, what are you doing instead?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 150 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Proofreading

Ask and briefly discuss:

- Q *What words did you find in your word bank today? How did you check on words that were not in your word bank?*

**Q** *What corrections did you make in your draft after reviewing your proofreading notes?*

Explain that the students will finish working on their final versions tomorrow.

## Publishing

# Day 5

### In this lesson, the students:

- Discuss writing poems
- Finish writing the final versions of their poems
- Present their poems from the Author's Chair
- Express interest in and appreciation for one another's writing
- Ask one another questions about their writing

## GETTING READY TO WRITE

### 1 Revisit Reading and Writing Poetry

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Remind them that they have heard and talked about many poems and thought about what makes a poem a poem.

Use “Think, Pair, Share” to discuss:

**Q** *What have you learned about what makes a poem a poem? [pause] Turn to your partner.*

After partners have had a chance to share, have a few volunteers share their thinking with the class.

#### Students might say:

“Poems have a lot of sensory details in them to help the reader imagine what’s happening.”

“You can make your poem look however you want it to look on the page.”

“In addition to what [Jackson] said, the way a poem looks can help the reader understand what it’s about.”

“You can write a poem about anything you want.”

Ask the students to consider the following question as they spend a few moments reviewing the poems from the unit on pages 23–34 of their *Student Writing Handbooks*:

**Q** *What poem have we read in the last two weeks that you especially like? What do you like about it?*

### Materials

- *Student Writing Handbook* pages 23–34
- Supply of loose, lined paper for final versions
- A chair to use for Author's Chair sharing
- Copy of this unit's family letter (BLM1) for each student
- (Optional) Computers for typing and printing final versions

### Facilitation Tip

Reflect on your experience over the past two weeks with **asking questions once** without repeating or rewording them and then **using wait-time**. Does this technique feel comfortable and natural for you? Do you find yourself using it throughout the school day? What effect has using this technique had on your students' attentiveness and responsiveness in discussions? We encourage you to continue to use and reflect on this technique throughout the year.

**TEKS 12.A.iii**

**TEKS 12.A.iv**

**Student/Teacher Activity**  
Step 1 and Step 2 (all, beginning on page 671 and continuing on to page 673)

Have volunteers share their thinking with the class; then select one or two of the poems the students have mentioned to read aloud to the class.

## WRITING TIME

### 2 Finish Final Versions of Poems

Have the students work on finishing their final versions. If they finish, they may proofread and write the final version of a second poem. When they seem to be working independently, confer with individual students.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in his poem?
- Does the student include other elements of poetry?

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What are you thinking about how your poem looks on the page?*
- Q *Where in your poem might you repeat words? How might that help a reader understand your poem?*
- Q *Have you decided to punctuate your poem with periods and to use capital letters? If so, are you doing this all the way through your poem? If not, what are you doing instead?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 150 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Review Sharing from the Author's Chair

Have the students bring their published poems and gather with partners sitting together, facing the Author's Chair. If necessary, remind the students of the procedure you established for presenting writing from the Author's Chair (see Unit 2, Week 2, "Do Ahead" on page 97).

Before asking the students to share from the Author’s Chair today, discuss how they will act, both as presenting authors and as members of the audience. Ask and discuss:

**Q** *How will you let the author know that you’re interested in his or her poem? Why is it important to express interest in one another’s writing?*

Direct the students’ attention to the “Notes About Poems” chart and review the items on it. Encourage them to listen for things that appear on the chart as they hear one another’s poems.

#### **4** Conduct Author’s Chair Sharing

Have a student read her poem aloud twice, slowly and clearly, from the Author’s Chair. At the end of the sharing, facilitate a discussion using questions like those that follow, and give the author an opportunity to respond to the class’s comments and questions.

**Q** *What did you imagine as you listened to [Rashidah’s] poem?*

**Q** *What did you enjoy about hearing [Rashidah’s] poem?*

**Q** (Refer to the “Notes About Poems” chart.) *What items on the “Notes About Poems” chart did you notice in [Rashidah’s] poem?*

**Q** *What questions can we ask [Rashidah] about her poem?*

Repeat this procedure to have other students share from the Author’s Chair.

#### **5** Reflect on Audience Behavior During Author’s Chair Sharing

Ask and briefly discuss:

**Q** *What did we do well as an audience today? What might we want to work on the next time poets share their work?*

**Q** *If you shared a poem today, did you feel that people were interested in and appreciative of your efforts? Why or why not?*

Assure the students that they will all get to share their published poems from the Author’s Chair in the coming days. After the poems are read aloud, assemble the poems in a class book and place the book in the class library so the students can read it during independent reading time.

Remind the students that poets, like all writers, become better over time as they practice writing more and more. Encourage students who feel drawn to poetry to continue to write poems during their free time.

#### **Teacher Note**

As the students share their poems from the Author’s Chair, collect the poems to compile into a class book.

#### **Teacher Note**

If necessary, plan another time so all of the students get to share their poems from the Author’s Chair.

#### **Teacher Note**

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on page 674.

## Teacher Note

Prior to doing this activity, identify 3–4 audio recordings of poets reading their poetry that you can play for the students. The Children’s Poetry Archive offers many such recordings to choose from. To find it, search online with the keywords “children’s poetry archive.” You might also search for recordings elsewhere on the Internet using the keywords “poets reading their own poetry.”

## Technology Tip

For more information about using web-based resources, view the “Using Web-based Teaching Resources” tutorial (AV75).

## TECHNOLOGY EXTENSION

### Listen to Poets Read Their Poetry Aloud

Remind the students that over the past couple of weeks they have listened to you read many poems aloud and they have read poems aloud themselves. Explain that hearing poetry read aloud can help the listener better understand the poem.

Tell the students that they are going to listen to some recordings of poets reading their poetry; then play for them the examples you identified. Stop after each poem and have the students discuss what they noticed about the way the poet read the poem (for example, the poet may have read some parts quickly and other parts slowly, or the poet may have read some parts loudly and some parts quietly).

If you have access to recording equipment, consider having the students create audio or video recordings of themselves reading their poems. Make the recorded poems available in the classroom or school library for others to enjoy.

## EXTENSION

### Write Letters Home About Poetry

Provide letter-writing practice for the students by having them write letters home about what they learned about writing poetry. Stimulate their thinking by reviewing the “Notes About Poems” chart and discussing questions such as:

- Q *What makes a poem a poem?*
- Q *What else did you learn about writing poetry?*
- Q *What steps did you go through to develop and publish your own poem?*

If necessary, review the elements of a letter (date, greeting, body, closing, and signature) by modeling or writing a shared sample letter with the class. Have the students write and proofread their letters; then attach each student’s letter to a copy of his published poem and send it home along with this unit’s family letter.

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of the Poetry genre unit. You will need to reassign partners before you start the next genre unit.
- Send home with each student a copy of the student’s published poem and a copy of this unit’s family letter (BLM1). Encourage the students to share their published poems with their families.

- Save the students' published writing (or copies of it) to use for reflection and discussion in Unit 9.

## Assessments

- Before continuing with the next unit, take this opportunity to assess individual students' writing from this unit. See "Completing the Individual Writing Assessment" (IA1) on page 152 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students' published writing home to share with their families, you might have each student analyze her writing using the "Student Self-assessment" record sheet (SA1) on page 151 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension "Introduce 'Student Self-assessment'" on page 116.

Down  
    down  
        down

Red  
    yellow  
        brown

Autumn leaves tumble down,  
Autumn leaves crumble down,  
Autumn leaves bumble down,  
Flaking and shaking,  
Tumbledown leaves.

Skittery  
Flittery  
Rustle by  
Hustle by  
Crackle and crunch  
In a snappety bunch.

Run and catch  
Run and catch  
Butterfly leaves  
Sailboat leaves  
Windstorm leaves.  
Can you catch them?

Swoop,  
Scoop,  
Pile them up  
In a stompy pile and  
Jump

## Hotel Swimming Pool's Evening Lament

by Stefi Weisburd

I've been  
so bored  
staring  
at the sky  
all day  
while you  
were at  
the beach  
playing  
with the ocean.  
No one to swirl me.  
No one to splash, to dive.  
No one to swim through me sleek  
and slow. Come on, child. At least dip in a toe.

# Unit 9

# Revisiting The Writing Community

During this one-week unit, the students review the writing they have done this year and reflect on their growth as writers and as members of the classroom writing community. They write letters to next year's class about what it means to be a writer, reflect on and write about a favorite author, and plan their summer writing. They thank their classmates for supporting them this year, and they express interest in and appreciation for one another's writing and thinking.

## TEACHER AS WRITER

*“Your first duty as a writer is to write to please yourself. And you have no duty towards anyone else.”*

— Iris Chang

This week take some time to look over the writing you have done this year in your writing notebook. Compare the first few pieces you wrote with your latest pieces. What do you notice about how you have changed or grown as a writer? What challenges did you grapple with? How has your attitude about yourself as a writer changed? What do you hope for your writing practice in the coming year? Write and date your reflections in your writing notebook.

### Writing Focus

- Students review their writing from the year.
- Students reflect on their growth as writers.
- Students write to next year’s class about how to be good writers.
- Students write about their favorite authors.
- Students plan their summer writing.

### Social Development Focus

- Teacher and students build the writing community.
- Students act in fair and caring ways.
- Students build on one another’s thinking.
- Students express interest in and appreciation for one another’s writing.

## DO AHEAD

- ✓ If you used the “Conference Notes” record sheet (CN1) from Unit 1 as a survey of the students’ goals and interests (see page 11 of the *Assessment Resource Book*), you might review the students’ responses to those questions prior to beginning your independent writing conferences this week. Have the completed record sheets available to refer to during your conferences.
- ✓ Prior to Day 1, gather all the students’ published writing from the classroom library, including individual pieces, pair work, and class books. Disassemble class books and return each student’s work. You might copy pair work and have partners decide who will take the original and who will take the copy. If necessary, provide folders so the students can keep all of their pieces together.
- ✓ Prior to Day 1, gather all the students’ filled writing notebooks from the year, and return each student’s work.
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA1) on page 168 of the *Assessment Resource Book*.
- ✓ Prior to Day 1, make a class set of the “Conference Notes” record sheet (CN1) on page 170 of the *Assessment Resource Book*.

(continues)

## **J** DO AHEAD *(continued)*

- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA2) on page 169 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, collect books written by authors the class studied this year (for example, *The Pain and the Great One* by Judy Blume, *Grandpa’s Face* by Eloise Greenfield, and *Julius, the Baby of the World* by Kevin Henkes).
- ✓ Prior to Day 5, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student’s writing.
- ✓ (Optional) Prior to beginning Unit 9, plan a time to obtain an end-of-year writing sample from your students. For more information, see “Obtaining an End-of-year Writing Sample” on page 164 of the *Assessment Resource Book*. If you collected a beginning-of-year writing sample, your students can compare the two pieces of writing in Day 1, Step 5 (see page 686).

## In this lesson, the students:

- Review their writing from the year
- Reflect on and write about how they have grown as writers
- Think about challenges they faced and what they have learned about writing
- Listen to the thinking of others and share their own
- Express interest in and appreciation for one another's writing

## GETTING READY TO WRITE

### 1 Discuss Goals for the Week

Have the students sit at desks today. Have them get their notebooks, published writing from the year, and pencils.

Explain that during this last week of the *Being a Writer* program, the students will review the writing they did this year and think about how they have changed and grown as writers and as members of a writing community. They will also reflect on and write about what they have learned about good writing, reflect on and write about a favorite author, and plan their summer writing.

### 2 Review Published Writing from the Year

Distribute a pad of small self-stick notes to each student, and explain that the students will first look through their published pieces from the year. Display the “Reflecting on Writing” chart (WA1) and tell the students that you would like them to think about the questions as they review their pieces.

#### Reflecting on Writing

- What is one of the best published pieces of writing you have done this year? Mark it with the word *best* on a self-stick note.
- What piece of writing did you have the most fun working on this year? Mark it with the word *fun* on a self-stick note.
- What piece of writing was the most challenging for you? Mark it with the word *challenging* on a self-stick note.

WA1

Point out that the students might decide to put multiple self-stick notes on a single piece of writing.

Give the students ample time to look through their published pieces and mark them with self-stick notes. When most of the students have

## Materials

- Students' filled notebooks
- Students' published writing
- “Reflecting on Writing” chart (WA1)
- Pad of small self-stick notes for each student
- “Class Assessment Record” sheet (CA1)
- Class set of “Conference Notes” record sheets (CN1)

## Teacher Note

You will not assign new partners this week. Have the students work with their partners from the previous unit or with someone sitting near them.

## Teacher Note

This lesson may require an extended class period.

marked their best, most fun, and most challenging pieces, signal for their attention. Have them separate out the marked pieces of writing and put their other published pieces away.

### 3 Review Notebook Writing

Explain that for each of the flagged pieces, the students will find the drafts they wrote for those pieces in their notebooks and mark them with self-stick notes. Tell them that you would like them to reread those drafts and try to remember what it was like to write them.

Give the students ample time to review their notebooks, and then signal for their attention.

### 4 Share Marked Pieces with Another Student

Explain that the students will each share their thinking about the pieces of writing they marked with another student sitting near them. Encourage partners to tell each other what they remember about working on each piece and why they chose these as their best, most fun, and most challenging. Have partners share their writing with each other.

As partners share, walk around, listen, and observe.

#### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to explain why they marked a piece as their best, most fun, or most challenging?
- Do they refer to their first drafts or other steps in the writing process in talking about their pieces?
- Do they listen carefully to each other?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 168 of the *Assessment Resource Book*.

After allowing enough time for both partners to share their writing, signal for attention. Have a few volunteers each tell the class about one piece of writing they marked and share what they thought about it.

### 5 Get Ready to Write About Growth as Writers

Ask the students to look at the first few drafts they wrote in their notebooks and to compare them with the last few drafts they wrote. After a moment, ask the students to think to themselves as they listen to the questions that follow. Ask the questions one at a time, pausing after each question to give the students time to think.

- Q *What do you notice about the way you wrote at the beginning of the year, compared to the way you write now?*

#### Teacher Note

If you collected beginning- and end-of-year writing samples, you might have the students compare those pieces of writing rather than the drafts in their notebooks.

Q *What kinds of words did you use in your early pieces, compared to your more recent pieces?*

Q *How do you think you have changed as a writer this year?*

Without sharing as a class, explain that you would like the students to open to the next blank page in their notebooks and write their reflections about how they think they have grown or changed as writers this year, based on looking at their work from the beginning and the end of the year. They do not need to write answers for each question you asked.

## WRITING TIME

### 6 Write Reflections About Growth as Writers

Have the students write their reflections silently for 10–20 minutes. If they finish, they may write about anything else they choose.

#### TEACHER CONFERENCE NOTE

You may wish to confer once more with individual students this week, using their marked pieces of writing as the topic of the conference. Ask each student to show you her marked pieces of writing and briefly tell you about each one. Help the student think about what it was like to write these pieces and how she has grown as a writer this year. Ask the student questions such as the following and record her responses:

Q *Which piece did you mark as your [best/most fun/most challenging]? Why?*

Q *What do you remember about working on this piece?*

Q *How do you feel about your writing?*

Q *How do you feel when you are asked to read your own writing to the class?*

Q *What did you like writing about this year?*

Q *What do you do best as a writer?*

Q *How do you think you have changed as a writer this year?*

Q *What are some things you might want to write about this summer?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 170 of the *Assessment Resource Book*.

#### Teacher Note

As you confer, you might compare the student’s responses to the questions on the “Conference Notes” record sheet (CN1) from Unit 1 with her responses to the questions on the “Conference Notes” record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask her what led to those changes.

## SHARING AND REFLECTING

### 7 Share Reflections

Ask the students to reread what they wrote today and each underline a sentence that tells one way they think they have grown or changed as a writer this year. Give them a moment to select their sentences, and then go around the room and have each student read his sentence aloud to the class, without comment.

When all students have read their sentences about how they have grown or changed, ask and briefly discuss as a class:

**Q** *What did you hear about how your classmates have grown as writers this year?*

**Q** *What questions do you want to ask a classmate about the sentence he or she shared?*

Explain that tomorrow the students will continue to reflect on how they have grown and what they have learned as writers.

### SOCIAL SKILLS ASSESSMENT NOTE

During this final week of the program, assess the students' social skill development using the "Social Skills Assessment Record" sheet (SS1); see page 172 of the *Assessment Resource Book*. Compare your notes from the fall, winter, and spring, and evaluate each student's social skill development over the course of the year.

## Day 2

## Reflecting on Writing

### Materials

- "Ways to Be a Good Writer" chart (WA2)
- Loose, lined paper for writing letters
- *Student Writing Handbooks*
- "Class Assessment Record" sheet (CA2)

### In this lesson, the students:

- Write to next year's class about ways to be good writers
- Get ideas by listening to others

## GETTING READY TO WRITE

### 1 Review Genres Explored This Year

Have the students stay at their desks today. Remind them that they reflected yesterday on how they have changed or grown as writers over the past year. Point out that they have learned a lot about how

to be good writers of personal narratives, fiction stories, nonfiction informational pieces, opinion pieces, functional texts, and poetry.

Explain that today the students will reflect on what they have learned about how to be a good writer. Then they will write letters to next year's third-grade class to help them become good writers.

## 2 Reflect on Ways to Be a Good Writer

Use “Think, Pair, Share” to discuss:

**Q** *What have you learned about how to be a good writer?* [pause] *Turn to your partner.*

Display the “Ways to Be a Good Writer” chart (WA2). After the students have talked in pairs, signal for their attention and have volunteers report their thinking to the class. As they share, record their ideas on the chart.

### Ways to Be a Good Writer

- Use sensory details.
- Check to see if your writing makes sense.
- Revise to improve your writing.
- Practice writing all the time.
- Write about what interests you.

WA2

Explain that during Writing Time today, the students will each write a letter to next year's third-grade class, giving them some advice to help them become good writers. Tell them that they may include things listed on the chart as well as other ideas they have. Point out that the letters should be written in their own words and should be friendly and encouraging.

If necessary, write the date, a greeting (for example, you might write *Dear next year's third graders*) and a closing (for example, *Sincerely*) where everyone can see it. As you write, point out the correct placement of commas in each part of the letter.

## WRITING TIME

### 3 Write Letters to Next Year's Class Independently

Distribute loose, lined paper and have the students write their letters for 20–30 minutes. If they finish, have them proofread their letters for spelling and punctuation using their word banks and proofreading notes in their *Student Writing Handbooks*.

As the students work, walk around the room and observe them, assisting as needed.

### Teacher Note

If the students have difficulty generating ideas for this question, suggest some ideas like those on the “Ways to Be a Good Writer” chart. Then ask:

**Q** *What else have you learned about how to be a good writer?*

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students write confidently about ways to be a good writer?
- Do students who seemed cautious or inhibited about their writing early in the year write more freely now?
- Do they confidently use their word banks and proofreading notes to proofread their writing?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 169 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Share Letters and Reflect on Working Together

Have each student share his letter with someone sitting nearby. Remind the students to listen carefully so they can share what their partners wrote with the class.

After giving some time for the students to share, signal for their attention and discuss:

- Q *What advice did your partner include in his or her letter to next year’s class?*
- Q *Is your partner’s letter friendly and encouraging? What does your partner write to make it feel that way?*
- Q *What did you do to help your work with your partner go well today?*

If necessary, give the students time to finish writing and proofreading their letters; then collect the letters and save them to share with your incoming class this fall.

### Technology Tip

For more information about setting up and maintaining a class blog, view the “Creating a Class Blog” tutorial (AV76).

## TECHNOLOGY EXTENSION

### Post Letters on a Class Blog

If you created a class blog this year, some students might be interested in posting their letters for next year’s third graders on it. You might use the students’ posted letters to introduce your incoming class to commenting on blog posts.

## In this lesson, the students:

- Review authors studied this year
- Reflect on and write about their favorite authors
- Listen to the thinking of others and share their own

## GETTING READY TO WRITE

### 1 Review Authors Explored This Year

Have the students stay at their desks today. Remind them that they have been thinking about how they have grown as writers over the past year. Review that this year the students read and discussed examples of good writing by different authors to help them get ideas for their own writing. They also learned about the writing practices of authors like Judy Blume, Eloise Greenfield, and Kevin Henkes. Show the cover of one of the books you collected and read the title and author's name aloud. Ask and briefly discuss:

- Q *What do you remember about this book?*
- Q *What do you remember learning about this author?*
- Q *What do you like about this author's writing?*

Repeat the procedure with the remaining authors. Explain that today the students will reflect on and write about their favorite authors.

### 2 Reflect on Favorite Authors

Tell the students that you would like each of them to think about an author that has inspired or influenced them as a writer. Explain that it may be an author they studied in the *Being a Writer* program, or it may be the author of another book they have enjoyed reading or hearing. Encourage them to recall authors that have given them ideas for their own writing or have helped them think about writing in a new way. Use “Think, Pair, Share” to discuss:

- Q *Who is one of your favorite authors?* [pause] *Turn to your partner.*

Display the “Reflecting on Authors” chart (WA3) and ask the students to think to themselves as they listen to the following questions. Ask the questions one at a time, pausing after each question to give the students time to think.

## Materials

- Collected books by authors studied this year
- “Reflecting on Authors” chart (WA3)

## Teacher Note

If the students have difficulty thinking about a favorite author, have them first think about a favorite book and why they enjoyed it. If necessary, support them by providing names of the authors of books they mention.

### Reflecting on Authors

- What do you like about the author’s writing?
- Has the author influenced your writing in some way? If so, how?
- What question(s) might you ask the author if he or she were here?

Give the students several minutes to share their thinking and discuss the questions. Then signal for their attention and have a few volunteers share their thinking with the class.

#### Students might say:

“Eloise Greenfield is my favorite author. She helped me learn that I can write about my own life experiences.”

“I love Beverly Cleary books! I want to know where she got the idea for Ramona, one of my all-time favorite characters.”

“Roald Dahl’s books helped me discover that I can write about fantastic, wild topics.”

“Kevin Henkes is one of my favorite authors. I feel like I know the characters in his books personally.”

“I remember that Judy Blume said she was always reading when she was growing up. I’d ask her if she thinks reading helped her become a better writer.”

Explain that during Writing Time today, each student will write her reflections about the author she chose. Encourage each student to write what she likes about the author’s writing, how the author has influenced her own writing, and a question she would ask the author if he or she were here.

## WRITING TIME

### 3 Write About an Author Independently

Have the students open to the next blank page in their notebooks and write their reflections silently for 10–20 minutes. If they finish, they may write about anything else they choose. Walk around the room and observe, assisting students as needed.

## TEACHER CONFERENCE NOTE

Continue to confer with individual students today, using their marked pieces of writing from Day 1 as the topic of the conference. Ask each student to show you his marked pieces of writing and briefly tell you about each one. Help the student think about what it was like to write these pieces and how he has grown as a writer this year. Ask the student questions such as the following and record his responses:

- Q *Which piece did you mark as your [best/most fun/most challenging]? Why?*
- Q *What do you remember about working on this piece?*
- Q *How do you feel about your writing?*
- Q *How do you feel when you are asked to read your own writing to the class?*
- Q *What did you like writing about this year?*
- Q *What do you do best as a writer?*
- Q *How do you think you have changed as a writer this year?*
- Q *What are some things you might want to write about this summer?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 170 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Share Reflections

Have the students reread what they wrote today and each underline one sentence she wants to share about her favorite author. Give the students a moment to select their sentences. Then go around the room and have each student read her sentence aloud to the class, without comment.

When all of the students have read their sentences, ask and briefly discuss as a class:

- Q *Which author sounds interesting to you?*
- Q *What question do you want to ask a classmate about the sentence he or she shared?*

### Teacher Note

As you confer, you might compare the student’s responses to the questions on the “Conference Notes” record sheet (CN1) from Unit 1 with his responses to the questions on the “Conference Notes” record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask him what led to those changes.

### Materials

- “Writing Habits of Professional Authors” (see page 699)
- A highlighter or marker for each student
- “Writing Time” chart (WA4)

### In this lesson, the students:

- Learn about the writing habits of professional authors
- Plan their summer writing
- Get ideas by listening to others
- Express interest in and appreciation for one another’s writing

## GETTING READY TO WRITE

### 1 Generate Topics to Write About Over the Summer

Have the students stay at their desks today. Review that they have been looking back over the year and thinking about what they have learned and how they have grown as writers. Tell them that today they will look forward and think about how they plan to keep writing over the summer.

Ask the students to open to the writing ideas sections of their notebooks and to review the ideas they wrote over the year. Allow sufficient time for the students to review their ideas, and then ask:

**Q** *What are some ideas you didn’t get a chance to write about this year that you are still interested in writing about? Turn and talk to someone sitting next to you.*

Distribute a highlighter or marker to each student. Explain that you would like them to highlight or mark ideas in their notebooks that they are still interested in writing about. After they have had a chance to highlight their ideas, ask them to turn to a blank page and spend a few more minutes brainstorming and listing other ideas they might want to write about this summer. After a moment, ask and discuss as a class:

**Q** *What are some things you might want to write about this summer?*

**Q** *Why is it important for you to keep writing on your own this summer?*

#### Students might say:

“It’s important to keep writing on our own so we don’t forget how to be good writers over the summer.”

“It’s important to keep writing so we can keep getting better at writing.”

“In addition to what [Aleksy] said, it’s important to keep writing because it’s fun!”

Point out that most professional authors have daily habits that help them keep writing. They have a special time and place in which they write, and they write for a certain length of time. Sometimes they use particular materials, like a certain pen or kind of paper. Explain that today you will read some quotes by professional authors about their

writing habits. The students will then think about what kinds of habits they want to have to help them keep writing over the summer.

## 2 Read and Discuss Some Professional Authors' Writing Habits

Read “Writing Habits of Professional Authors” (see page 699) aloud slowly and clearly, clarifying vocabulary as you read.

### Suggested Vocabulary

**cubicle:** small work area

**lull:** short, quiet break

**teak:** kind of wood

Ask and briefly discuss:

**Q** *What habits did you hear about?*

**Q** *What ideas did this give you about habits you can set for yourself at home to help you keep writing this summer?*

Explain that during Writing Time today, you would like the students to write in their notebooks about what they will do to help them continue to write this summer. Encourage them to write specific habits they want to establish, such as where, when, how often, and how long they will write each day. Also invite them to think about what objects they would like to have around them to help them write.

If the students finish, they may add to their lists of topics to write about this summer or choose one of those ideas and write about it.

## WRITING TIME

### 3 Write About Writing Habits Independently

Display the “Writing Time” chart (WA4) and have the students work silently for 20–30 minutes.

#### Writing Time

- Write about what you will do to help yourself continue writing this summer.
- Add to your list of topics to write about over the summer.
- Pick one of your summer topics and start writing about it.

WA4

As the students work, walk around and observe, assisting students as needed, or continue to confer with individual students.

### Teacher Note

As you confer, you might compare the student's responses to the questions on the "Conference Notes" record sheet (CN1) from Unit 1 with her responses to the questions on the "Conference Notes" record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask her what led to those changes.

## TEACHER CONFERENCE NOTE

You may wish to confer once more with individual students this week, using their three marked pieces of writing from Day 1 as the topic of the conference. Ask each student to show you her marked pieces of writing and briefly tell you about each one. Help the student think about what it was like to write these pieces and how she has grown as a writer this year. Ask the student questions such as the following and record her responses:

- Q *Which piece did you mark as your [best/most fun/most challenging]? Why?*
- Q *What do you remember about working on this piece?*
- Q *How do you feel about your writing?*
- Q *How do you feel when you are asked to read your own writing to the class?*
- Q *What did you like writing about this year?*
- Q *What do you do best as a writer?*
- Q *How do you think you have changed as a writer this year?*
- Q *What are some things you might want to write about this summer?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 170 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Share Plans for Summer Writing

Ask the students to reread what they wrote today, and have each underline a sentence that tells one thing he will do to help keep writing this summer. Give the students a moment to select their sentences. Then go around the room and have each student read his sentence aloud to the class, without comment.

When all the students have read their sentences, ask and briefly discuss as a class:

- Q *What ideas did you hear that you want to add to your list?*
- Q *What questions do you want to ask a classmate about the sentence he or she shared?*

Give the students a moment to add ideas to their lists, if they wish. Encourage them to continue writing as much as they can this summer and to focus on enjoying their own writing.

## In this lesson, the students:

- Reflect on their contributions to the writing community
- Reflect on how they have benefited from the writing community
- Thank one another for their help

## GETTING READY TO SHARE

### 1 Reflect on the Classroom Writing Community

Have the students stay at their desks today. Remind them that they reflected on how they have grown as writers earlier in the week. Explain that today they will have a chance to think about how they did with creating a safe and caring writing community this year and how they have personally grown as members of the community.

Have the students close their eyes and visualize as you ask the following questions. Pause after each question to give them time to think.

- Q *What has it felt like to be a part of our writing community this year?*
- Q *What have you done to contribute to our community this year?*
- Q *What are three things your partners or classmates have done to help you become a better writer this year?*

Have the students open their eyes, turn to the next blank page in their notebooks, and write the three things their classmates or partners have done to help them become better writers this year.

After the students have had time to list their ideas, call for their attention.

## SHARING AND REFLECTING

### 2 Share Reflections and Thank One Another

Have the students bring their notebooks and gather in a circle. Explain that each student will choose one of the three things she listed to read aloud to the class. Point out to the students that it is important to take time to thank people who have been helpful to them, and invite them to say “Thank you” to the class after they read.

Give the students a moment to select what they will read aloud. Then go around the room and have each student read her selection and then say “Thank you.” When all the students have read their selections, ask and discuss:

- Q *How have we done at creating a caring and safe community this year? What makes you think so?*

## Materials

- Copy of this unit’s family letter (BLM1) for each student

## Teacher Note

Some ways students have helped each other become better writers this year include brainstorming ideas together, giving each other feedback, working on some writing projects together (such as the nonfiction informational piece), asking each other questions about their writing, and showing interest and appreciation when sharing from the Author’s Chair.

**Q** *How have you grown in your ability to work with partners this year?*

**Students might say:**

"I think we did a good job creating a community this year. Whenever we had problems, we talked about them so we could get along better."

"I agree with [Pele] because the more we got to know each other, the more we were a community."

"I used to be too shy to talk to my partner, but now I feel I can talk to any partner I have."

You might want to share some of your general observations about ways your students have changed or grown as members of the community over the year.

**You might say:**

"I remember how some students didn't want to work with their assigned partners at the beginning of the year. Now you are much better at working with any partner. I also notice that you relied much more heavily on me at the beginning of the year to help you solve your problems. Now you are able to solve many problems by yourselves."

Encourage the students to continue to write and to become caring members of their classroom writing community next year.

## End-of-unit Considerations

### Wrap Up the Unit

- Send home with each student the student's published pieces, writing notebook, and a copy of this unit's family letter (BLM1). Encourage the students to share their published pieces with their families.

### Assessment

- (Optional) If you obtained end-of-year writing samples, you might want to reflect on each student's writing using the "End-of-year Writing Sample Record" sheet (WS2) on page 166 of the *Assessment Resource Book*. For more information on analyzing the writing samples, see "Obtaining an End-of-year Writing Sample" on page 164 of the *Assessment Resource Book*. If you collected beginning-of-year writing samples, you might assess each student's growth as a writer by comparing your comments on the "Beginning-of-year Writing Sample Record" sheet with your comments on the "End-of-year Writing Sample Record" sheet.

A purple rounded square graphic with the word "Excerpts" in white, bold, sans-serif font. The background of the graphic features faint, overlapping text from various sources, including phrases like "she knew by her voice", "said Ph", "make it as long as you can," "her arms round Mother's wa", "the a wh", "In Russia at the time", "the rich people do", "say anything about the things that ought to be", "sing, or about the things that ought to be", "make your people better and happier. ## Excerpts

### Writing Habits of Professional Authors

“Get up very early and get going at once; in fact [write] first and wash afterwards.”

— W. H. Auden

“I generally write for three or four hours at a sitting, mornings as a rule.”

— Saul Bellow

“The writer . . . withdraws to some quiet corner, a bedroom perhaps, or any cubicle with a chair and table, and applies himself to his blank paper. Two hours a day are needed, three hours are better, four are heroic.”

— Gerald Warner Brace

“My goal is to write only one sentence a day. I write this on the bus on my way to work. I usually find that I write more than just one sentence, but the important point is that I have accomplished the goal I set by 9:00 a.m.”

— Lavinia Dobler

“Now I keep a typewriter with a sheet of paper in it on the end of the kitchen table. When I have a five-minute lull and the children are playing quietly, I sit down and knock out a paragraph.”

— Lois Duncan

“I have a nice teak desk, long and wide, on which I keep special things: crisp new legal pads and No. 2 pencils with good rubber erasers that don’t leave red smears; a dark blue draftsman lamp that twists and bends like a tall, limber skeleton; a small quartz clock that silently flicks the minutes . . . and an orange tomcat who lies on a blanket and snores.”

— Gail Godwin

## TECHNOLOGY MINI-LESSONS

### Mini-lesson 1

### Navigating Safely Online

#### DO AHEAD

- ✓ Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the digital citizenship family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ Prepare a chart titled “Our Digital Citizenship Contract” (see Step 4 on page 704).
- ✓ Find out if your school has an acceptable use policy that the students and their families need to sign before the students can use the computers. Be prepared to review it with the students in Step 4.

#### Materials

- “Our Digital Citizenship Contract” chart, prepared ahead
- Copy of the digital citizenship family letter (BLM1) for each student

#### In this lesson, the students:

- Work in pairs
- Learn and use the term *digital citizen*
- Compare staying safe online to staying safe in the real world
- Reflect on rules for staying safe online

#### ABOUT DIGITAL CITIZENSHIP LESSONS

In Technology Mini-lessons 1-2, the students think about and discuss how to use the Internet in safe and secure ways. At the end of the second lesson, the students sign an “Our Digital Citizenship Contract,” which lists rules for responsible online behavior at school. After each lesson, the students are encouraged to share what they learned with their families and create similar rules for online behavior when not at school. If possible, plan to teach both digital citizenship lessons before the students do research online.

#### **1** Gather the Students and Discuss Going Online

Gather the class with partners sitting together, facing you. If possible, have current writing partners work together.

Tell the students that one way to find resources for their research projects is to search for information on the Internet. Remind them that the Internet is a worldwide resource that millions of people use every day. Using the Internet, or going online, can connect the students to the world and allow them to find interesting facts and information. Ask:

**Q** *What kinds of things do you like to do online?*

## **2** Introduce Digital Citizenship

Tell the students that, just as they need to be responsible citizens in real life by following rules and treating people well, they also need to be responsible citizens when they are online. The connections they have with people and information when they go online is in many ways like being a part of a community. Being responsible and making good choices in this community is called being a *good digital citizen*. Tell the students that one way to be a good digital citizen is to follow certain online safety rules.

## **3** Compare Staying Safe Online to Staying Safe in the Real World

Explain that staying safe when going online can be similar to staying safe in the real world. Ask the students to listen as you describe the following scenario aloud:

“Hazel’s friend Chloe called asking if Hazel would like to meet her and her mom at the park. Hazel lives around the corner from the park, so she asked for permission to walk there on her own. Hazel’s mom said yes and reminded her to stay safe and be careful.”

Point out that Hazel asked for permission before she walked to the park. This helped her stay safe because her mom knew where she was going. Ask:

**Q** *What might Hazel do to stay safe while walking to the park? How will that keep her safe?*

**Students might say:**

“Hazel should walk on sidewalks and look both ways before crossing the street.”

“Hazel should go straight to the park and not stop anywhere else along the way. That way she won’t get lost.”

Then use “Think, Pair, Share” to have partners discuss the question that follows. After a moment, have a few volunteers share their ideas with the class.

**Q** *How might going online be similar to going for a walk in your neighborhood? [pause] Turn to your partner.*

### Teacher Note

You may want to give the students specific examples of ways they will use the Internet at school this year.

### Teacher Note

If your school has an acceptable use policy that the students and their families need to sign before the students can use the computers, review it with the students and confirm that the settings on the search engines on your school's computers are set to "Strict," "Safe," or a comparable mode.

#### Students might say:

"There are a lot of places to go on the Internet so you have to know which places are safe to visit."

"You could get lost if you don't know where you're going."

"You shouldn't talk to people you don't know when you are on a walk or when you are online."

If the students do not mention it, point out that there are countless numbers of websites on the Internet, so it is important to know what to look for and what to avoid. Explain that just as it is important to know where to turn when walking to the park, it is important to know which websites are safe to visit and which sites should be avoided. Just like it is important not to talk to people you do not know when walking to the park, it is important not to talk to people you do not know online. Point out that, just as you would tell an adult if you noticed anything suspicious on a walk, it is important to tell an adult if you notice anything suspicious online. Tell the students that it is also important to ask for help whenever they need it.

## 4 Introduce Class Rules for Staying Safe Online

Explain that this year the students will have opportunities to go online at school and that today they will discuss the rules they need to follow to stay safe. Post the "Our Digital Citizenship Contract" chart and read each rule to the class.

### Our Digital Citizenship Contract

*We will get permission before going online.*

*We will ask the teacher or a responsible adult before going to an unknown website.*

*We will ask the teacher or a responsible adult for help if we come across any information that is confusing or makes us uncomfortable.*

*We will ask the teacher or a responsible adult before downloading anything from the Internet onto the computer.*

*We will ignore advertisements and pop-ups that appear on the page.*

*We will leave computer and search settings alone.*

*We will follow all school computer rules.*

## 5 Reflect on Online Safety Rules

Use “Think, Pair, Share” to have the students discuss how the rules will help keep them safe online by asking questions such as:

**Q** *Why do you think [ignoring advertisements and pop-ups] is important? [pause] Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

### Students might say:

“Ads won’t have any information we need at school so there’s no reason to click them.”

“It’s good to ask permission first because teachers can help you find safe places to visit online and help you stay away from unsafe places.”

Then ask:

**Q** *What else might we do to stay safe online? Why do you think that?*

As the students share, add their ideas to the chart.

Explain that you would like the students to pledge, or promise, to follow these rules for staying safe online. Tell them that in the next lesson they will discuss other ways to be good digital citizens and add those ideas to the chart.

## 6 Discuss Staying Safe Online When Not at School

Tell the students that you would like them to discuss with their families the rules for online safety they learned today, and encourage them to come up with similar rules for staying safe when they are online outside of school.

Plan to check in with the students throughout the year to discuss how they are doing with following the online safety rules.

### Teacher Note

Save the “Our Digital Citizenship Contract” chart to use in Technology Mini-lesson 2.

### Teacher Note

Send home with each student a copy of the digital citizenship family letter (BLM1).

### Teacher Note

You might have the class share ideas for favorite kid-friendly websites and post the list where everyone can see it. Give the students time to explore these websites and continue to add new ones to the list throughout the year.

## Materials

- “Our Digital Citizenship Contract” chart from Technology Mini-lesson 1
- Paper and pencil for each student

## Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 1 on page 702).

## DO AHEAD

- ✓ Add the online privacy rules to the “Our Digital Citizenship Contract” chart (see Step 3 on page 707). Cover the new rules with another sheet of paper until you introduce them in Step 3.

### In this lesson, the students:

- Work in pairs
- Recognize when it is appropriate to share private information
- Reflect on class rules for online privacy

## 1 Introduce Maintaining Privacy Online

Gather the class with partners sitting together, facing you. If possible, have current writing partners work together.

Remind the students that they have been thinking about what it means to be good digital citizens. In the previous lesson, they learned that staying safe online is a lot like staying safe in the real world. Direct their attention to the “Our Digital Citizenship Contract” chart (with the privacy rules covered) and briefly review the safety rules the students have learned for using the Internet. Tell them that another way to be good digital citizens is to follow certain online privacy rules, or rules for keeping their private information safe. Explain that following these rules will help protect both themselves and their computers when they are online.

## 2 Discuss When to Share Private Information

Tell the students that the kind of information that is important to keep private online can be similar to the kind of information that is important to keep private in real life. Ask them to listen as you describe the following scenario:

“Jared is excited to go to the zoo with his grandma. He loves animals, especially monkeys. When he and his grandma arrive at the zoo, there is a line at the monkey exhibit. There is a woman in front of them reading a book about monkeys and Jared asks her about it. They start talking and he tells her how much he loves animals and that he wants to be a zoologist when he grows up.”

Ask:

- Q *Do you think it is appropriate (OK) for Jared to share that he wants to be a zoologist with the woman in line? Why?*
- Q *Imagine that the woman in line asked Jared for his [e-mail address]. Do you think that would be appropriate? Why or why not?*

**Students might say:**

"I think it was OK for him to say that he wants to be a zoologist. He is just sharing his excitement about animals."

"There's no reason for Jared to share his e-mail address. He doesn't know the person well."

"You should only share your e-mail address with someone you want to contact you."

Then use "Think, Pair, Share" to discuss questions such as:

- Q *How is sharing [what you want to be when you grow up] with someone you don't know different than sharing [your e-mail address or your phone number]? [pause] Turn to your partner.*
- Q *Do you think it is a good idea to share [your computer password] with someone you don't know? Why do you think that? [pause] Turn to your partner.*

Explain that contact information, such as your name, phone number, and e-mail address, and information such as computer passwords are *private*—or information you share only with people you know and trust. Tell the students that, just as they do not share private information with people they do not know in real life, they should not share private information with people they do not know online.

### 3 Introduce Class Rules for Online Privacy

Ask and briefly discuss:

- Q *Have you ever been asked to share information about yourself online? If yes, what kind of information?*

**Students might say:**

"I play an online video game that asks for my name and age."

"When I want to use my e-mail account I need to enter my password."

"Some kids' websites ask you to enter your birthday if you want to join."

Tell the students that to protect themselves and their computers they should never share private information about themselves, their families, or their computers when they are online. Explain that when they use the Internet at school, they will need to follow certain privacy rules. Direct their attention to the "Our Digital Citizenship Contract" chart and uncover the rules that you added to it.

Read each rule to the class:

## Our Digital Citizenship Contract

We will keep personal contact information private.

We will keep sign-in information private.

We will keep passwords private.

We will keep personal photos private.

### 4 Reflect on Online Privacy Rules

Use “Think, Pair, Share” to discuss why each rule is important. Ask:

**Q** *Why do you think it's important to [keep your personal contact information private] when online? [pause] Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

#### Students might say:

“You might end up with a lot of advertisements in your e-mail if you share your address on a website.”

“Passwords are like keys. They are meant to let you in but keep other people out.”

“You don't know what people might do with your photos, so you should only share them with people you really trust.”

Ask:

**Q** *What other privacy rules might we want to add to the chart? Why do you think that?*

As the students share, add their ideas to the chart.

Explain that you would like the students to pledge, or promise, to follow the online privacy rules, just as they did with the online safety rules. Remind them that agreeing to use the Internet in safe and secure ways will help them be good digital citizens. State your expectation that they will try their best to act according to the rules on the contract when they are online at school. Take time to have the students sign the class contract (and sign it yourself) before posting it.

## 5 Discuss Maintaining Online Privacy When Not at School

Tell the students that you would like them to discuss with their families the online privacy rules they learned today. Encourage them to come up with similar rules for maintaining privacy online outside of school. Distribute paper and explain that you would like the students to write down the entire “Our Digital Citizenship Contract” chart to bring home to share with their families.

Throughout the year, review the students’ commitment to be good digital citizens and check in regularly to see how they are doing. You may decide to modify or add to the class contract as needed.

### Teacher Note

Post the “Our Digital Citizenship Contract” chart near the classroom computer(s) for the students’ reference when they go online throughout the year.

## Choosing Effective Search Terms

## Mini-lesson 3

### DO AHEAD

- ✓ Prepare a chart titled “How to Turn a Research Question into a Search Query” (see Step 3 on page 711). If you have already taught the Expository Nonfiction unit, you can use the paper chart you created for use in Week 3, Day 3 of that unit (see page 399).
- ✓ Become familiar with a few search engines and decide which one you will use for this lesson (see the Teacher Note on page 710).
- ✓ Check that the preferences on the search engine you select to use with the class have been set to “Strict,” “Safe,” or a comparable setting.

### In this lesson, the students:

- Work in pairs
- Learn and use the terms *search engine*, *search term*, and *search query*
- Identify the best terms for an effective search query

### Materials

- Whiteboard with a search engine displayed, prepared ahead
- Chart paper and a marker
- “How to Turn a Research Question into a Search Query” chart, prepared ahead
- Students’ writing notebooks and pencils

### Teacher Note

Technology Mini-lesson 3 closely matches the instruction in Week 3, Day 3 of the Expository Nonfiction unit. If you have already taught that unit and your students need further support choosing search terms, you might teach Mini-lesson 3. (If only some students need more support, you might teach Mini-lesson 3 just to those students.) If your students do not need further support choosing search terms, you might skip Mini-lesson 3 and teach Mini-lessons 4–6.

### Teacher Note

Many search engines are available, including some that are intended for students' use. You may already have a preferred search engine that you use most often. Spend some time becoming familiar with a few search engines and decide which one you'll use for this lesson.

## ABOUT TEACHING THE ONLINE RESEARCH LESSONS

In Technology Mini-lessons 3–6, the students learn how to search effectively for online research sources and evaluate the credibility of the sources they find. If possible, start teaching these lessons when the students begin doing research online. The skills taught in the lessons build on one another, so plan to teach them in order and at corresponding stages in the students' research. For example, teach "Technology Mini-lesson 3: Choosing Effective Search Terms" after the students have identified a research topic, and teach "Technology Mini-lesson 6: Evaluating Research Sources" after the students have collected several online sources.

### 1 Introduce Searching for Information Online

Have the students bring their notebooks and pencils and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Remind the students that they have been searching for information about their research topics. Today they will learn how to use a search engine to find information on the Internet. Explain that a *search engine* is a web-based tool that searches the Internet using words you type into a search bar. Finding the information you are looking for requires knowing how to choose the best words, or *search terms*, to type into a search engine.

### 2 Model Choosing Best Terms for a Search Query

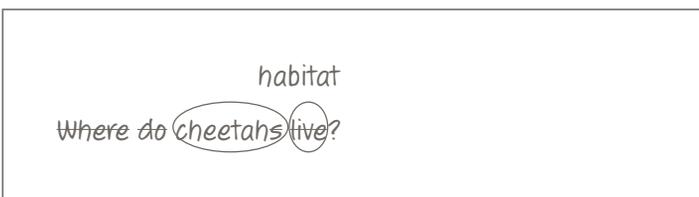

Direct the students' attention to the search engine displayed on the whiteboard and point to the search bar where search terms are entered. Explain that good researchers start with a research question and then identify words within the question to use for their search. For example, if you are doing research on cheetahs and want to know more about where cheetahs live, you might start with the research question, "Where do cheetahs live?"

Write the question on a piece of chart paper where everyone can see it. Explain that you will use the question to help you identify a set of words for your search and that the set of words you choose is called a *search query*.

Explain that a search query tells a search engine exactly what information is needed. Search queries are not usually complete sentences because they use only words directly related to the topic of the search. Ask the students to listen carefully as you think aloud about and model how to change the question "Where do cheetahs live?" into a search query.

**You might say:**

"I know I need the word *cheetahs* because it is the animal I am researching, and I need *live* because it is the specific information about cheetahs that I want. So *cheetahs* and *live* are my search terms—I am going to circle them. [Circle *cheetahs* and *live*.] I don't need the words *where* and *do* because they don't say anything about the information I need, so I will cross them out. [Cross out *where* and *do*.] Now I have the words *cheetahs* and *live*, but what I really want to know is the natural environment cheetahs prefer to live in, so maybe I should change the word *live* to *habitat*. [Cross out *live* and write *habitat* above it.] I think that will help. Now I have the words *cheetahs* and *habitat*. My search query will be: *cheetah habitat*."

Type the search query into the search engine's search bar and display the results. Read some of the results aloud. Use "Think, Pair, Share" to discuss:

**Q** *How useful do you think these search results will be for the research topic?*  
[pause] *Turn to your partner.*

If needed, point out any results that directly address your research topic.

### **3** Choose Best Terms for a Search Query

Explain that the students will follow the same procedure to turn a different research question into a search query. Post the chart titled "How to Turn a Research Question into a Search Query" and read each step aloud:

*How to Turn a Research Question into a Search Query*

- 1. Write down your research question.*
- 2. Circle the words you definitely need.*
- 3. Cross out unnecessary words.*
- 4. Add or substitute more specific words if needed.*
- 5. Decide in what order to write the words.*

### Teacher Note

The students may decide on a search query such as *cheetah speed* or *cheetah running speed*.

### Teacher Note

If your school has an acceptable use policy, review it with the students.

Write *How fast can cheetahs run?* under “Where do cheetahs live?” and have the students copy it in their notebooks. Ask partners to read the question carefully and follow the steps on the chart to decide on a search query.

Walk around the room and observe. If necessary, direct the students’ attention to the chart and remind them to follow each step. Review that queries use only words directly related to the research topic.

When most pairs have finished, signal for attention and have a few volunteers share their queries with the class.

Remind the students that a search query tells a search engine exactly what information to search for about a research topic. Save the “How to Turn a Research Question into a Search Query” chart to post as needed later.

## 4 Continue Online Research

Explain that the students will use what they learned today in their own research. Have them open their notebooks and identify any questions they still have about their research topics. Invite them to use the “How to Turn a Research Question into a Search Query” chart to write search queries about their topics.

When the students have demonstrated that they understand how to choose effective search terms, see Technology Mini-lesson 4 to teach them how to understand their search results.

## DO AHEAD

- ✓ Read Steps 2 and 3 of the lesson to familiarize yourself with the features of a search results page and of web addresses.
- ✓ Prepare a chart titled “Common Domain Suffixes” (see Step 4 on page 715).
- ✓ Type the query *cheetah habitat* into a search engine and have the search results page ready to display on the whiteboard in Step 2.
- ✓ Identify a few examples of websites with different domain suffixes, and bookmark them to display on the whiteboard in Step 4.

### In this lesson, the students:

- Work in pairs
- Learn and use the terms *search result*, *web address*, and *domain suffix*
- Explore the features of a search results page
- Learn key parts of web addresses
- Identify potentially useful websites for their research topics

## 1 Introduce Search Results Page

Have the students bring their notebooks and pencils and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Remind the students that they can use an Internet search engine to find information about a research topic. Review that in the previous lesson they discussed how to choose search terms for a query. Explain that today they will discuss the page that lists the results of a query and learn how to decide which websites to use in their research.

## 2 Discuss Features of a Search Results Page

Display the search results page you prepared ahead and review that this is the page that appeared when you typed *cheetah habitat* into the search bar. Explain that this page is called the *search results page* and that a results page will look different depending on the search engine you use but that all search results pages have features in common. Discuss these features by first pointing to the list of websites in the main column of the page and explaining that these websites are sources of information

### Materials

- Whiteboard with search results displayed, prepared ahead
- Chart paper and a marker
- “Common Domain Suffixes” chart, prepared ahead
- “Web Address Example” chart (WA1)
- Students’ writing notebooks and pencils
- “Evaluating Search Results” chart (WA2)

### Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 3 on page 709). You may want to briefly review the previous lesson before starting this one.

about the habitat of cheetahs. Tell the students that they will look more closely at the websites later.

Point to the advertisements on the page and explain that advertisements are often marked with the words *Ads* or *Sponsored Results* and are frequently listed in the left- or right-hand column or at the top or bottom of the page. Tell the students that when they are doing research, they should ignore the advertisements. Ads are trying to sell something and, for that reason, they are not a good source of information about a research topic.

Next, point out the filters, which are often found across the top of the page or in the left-hand panel. Explain that *filters* are search tools that let you control the kind of information that will be displayed on the page. Tell the students they will learn about filters in another lesson.

Direct the students' attention back to the list of websites in the main column of the page and review that these are the *search results*, or sources of information you might explore to find out about cheetahs' habitats. Point to a website and explain that the title is underlined and the search terms are bold. The text below the underlined title is called a *snippet* and is a small piece of text taken directly from the website. Point to the web address and explain that the *web address* is usually underneath the title or on the last line of the result.

If the students need more practice understanding the parts of an individual search result, choose one or two more to review with the class.

### 3 Identify Parts of a Web Address

Tell the students that anyone can post information on the Internet, so not all of what they find will be useful for research. Good researchers know how to look for clues about the type of information that a source, such as a website, will provide in order to choose the best sources to use for their report. One way to do this is to look at the parts of a web address, which can always be found in the address bar that is usually located at the top of the page.

Choose one of the web addresses from your search results page and write it on a piece of chart paper. Circle and label the site's name (the text that follows *http://www* and precedes a suffix like *.com* or *.org*). Ask the students to listen as you describe and label each part of the address: the site's name, the domain suffix, and any information that follows the suffix.

**You might say:**

"The name of a website in a web address sometimes gives information about where the website comes from and whether or not it will help in our research. The name of a website is usually found after the letters *http* and *www*. The name of this site is *shelbyville zoo*, which means it's the website of the zoo in a place called Shelbyville. Sometimes there is no *http* or *www* in the address. [Circle and label the suffix.] The last part, or *domain suffix*, of a website comes after the name and also gives helpful information about the website. The suffix of this website is *.org*, which means it is an organization that provides education or other resources. The string of text that comes after the suffix can also include helpful information. This address indicates that the information will be about cheetahs. Thinking about the name, suffix, and information after the suffix tells me that this is a zoo website that provides information about cheetahs."

Use "Think, Pair, Share" to discuss:

**Q** *Do you think this website will be useful for my research topic? Why or why not?* [pause] *Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

**Students might say:**

"I think it will be useful because zoos know a lot about animals."

"Zoos teach people about animals, so this site will probably have useful information about cheetahs."

"I think this site will be good for the research topic. Parents like to take kids to zoos because they can learn about animals there."

## 4 Discuss Domain Suffixes

Tell the students that the domain suffix identifies the purpose and audience of the website. Explain that there are many different domain suffixes and that it is important to understand what they mean. Post the chart titled "Common Domain Suffixes" and read the examples aloud.

## Common Domain Suffixes

- *.com: a commercial website*
- *.edu: an educational institution, such as an elementary school or college*
- *.gov: a government website*
- *.org: often a nonprofit organization. Nonprofit organizations are groups that help people by providing education and other resources.*

Display some examples of websites with different domain suffixes (prepared ahead), one at a time. As you display each website, facilitate a brief discussion about the kind of information each site provides. Use “Think, Pair, Share” to discuss questions such as:

**Q** *What kind of website is this? What do you think people use it for? [pause] Turn to your partner.*

**Q** *How is this website similar to others you’ve seen? How is it different? [pause] Turn to your partner.*

Remind the students that understanding what a domain suffix means will help them choose the best sources for their research. Explain that they should always ask for help if they are confused or do not recognize a suffix. They will have the chance to add other suffixes to the chart throughout the year.

If the students need more practice understanding domain suffixes, choose one or two more website examples to discuss with the class.

### 5 Explore the Parts of a Web Address

Explain that the class will work together to explore the parts of another web address from your query results. Display the “Web Address Example” chart (WA1) or substitute a web address of your choice.

#### Web Address Example

<http://www.animalsupersite.com/mammals/bigcats/cheetah/>

WA1

Use “Think, Pair, Share” to discuss:

- Q *What is the [suffix/name] of this website? What does it tell you about the kind of site it is? [pause] Turn to your partner.*
- Q *What does the information after the name tell you about the website? [pause] Turn to your partner.*
- Q *Do you think this site might be helpful for my research? Why or why not? [pause] Turn to your partner.*

Remind the students that understanding the parts of a web address will help them decide which sites will be useful for their research topics and which sites they can skip.

If the students need more practice exploring the parts of web addresses, choose one or two more to review with the class. Tell them that you will post the charted labeled web address and the “Common Domain Suffixes” chart for use throughout the year.

## 6 Evaluate Search Results

Explain that the students will use what they learned today to help them choose websites for their research topics. Display the “Evaluating Search Results” chart (WA2). Have the students open their notebooks and write down the instructions from the chart. Explain that the next time they use the computer they will follow these instructions for evaluating their search results.

### Evaluating Search Results

- Choose a query for your research topic.
- Type the query into a search engine and print the first page of results.
- Look at the search results and think about the important parts of the web addresses.
- Circle the sites you think might be good sources of information for your research. Write the reasons you chose these sites.

WA2

When the students have demonstrated that they know how to evaluate their search results, see Technology Mini-lesson 5 to teach them how to narrow their results.

### Teacher Note

If possible, have the students evaluate their search results soon after you teach this lesson.

## ⌚ DO AHEAD

- ✓ Type the query *cheetah habitat* into a search engine and have the search results page ready to display in Step 2.
- ✓ Familiarize yourself with the filters of the search engine you use and practice narrowing search results using the activities described in Steps 2–4.
- ✓ Prepare the “Filters We Can Use” chart using the filters listed in Step 4, or list other filters you would like the students to explore this year (see Step 4 on page 719).

### Materials

- Whiteboard with search results displayed, prepared ahead
- Chart paper and a marker
- Students’ writing notebooks and pencils

### Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 4 on page 713). You may want to briefly review the previous lesson before starting this one.

### In this lesson, the students:

- Work in pairs
- Learn and use the term *filters*
- Explore search engine filtering tools

## 1 Introduce Narrowing a Search

Have the students bring their notebooks and pencils and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Tell the students that, as they search for information about their research projects on the Internet, they will sometimes need to narrow, or focus, their search to get more specific information. Explain that today they will learn how to use filters on a results page to focus a search.

## 2 Discuss Filters

Display the page of search results you prepared ahead of time and point out that this is the results page that appeared when you typed in the words *cheetah habitat* into the search engine’s search bar. Point to the filters on the page and explain that *filters* are tools that let you control the kind of information that will be displayed on the results page. Read the names of the filters aloud. Then ask:

**Q** *What kind of information do you think will be displayed if we click the [Videos] filter? What kind of information do you think will be filtered (left) out?*

### 3 Model Using a Filter

Explain that not all search engines provide the same filters, but there are some commonly used ones. You will demonstrate how to use one commonly used filter, and then the class will work together to explore other filters.

Explain that you would like to include what the habitat of cheetahs looks like in your report. Tell the students that the Images filter will narrow the search results by searching for images, or pictures, specifically related to your topic. Ask the students to watch and listen carefully as you click the Images filter and demonstrate how to use it.

**You might say:**

“When I click the Images filter, I get a page of pictures related to cheetahs. This filter displayed many pictures of cheetahs and it filtered out the words on the websites so I could just see the pictures. There are pictures of cheetahs in their habitat and also maps showing where cheetahs live in the world. There is a lot of useful information to use in my report. When I click an image [click an image], I get a link to its source. When I find an image I want to use, I will write the web address down in my writing notebook so that I will remember where to find it again.”

Use “Think, Pair, Share” to discuss:

**Q** *How did the Images filter change my results? [pause] Turn to your partner.*

**Q** *Do you think these results are useful? Why or why not? [pause] Turn to your partner.*

After a moment, have a few volunteers share their ideas with the class.

**Students might say:**

“Now all the results are pictures.”

“Some of the results are maps and some are photographs, but they all show where the cheetah lives.”

“I think there are some pictures that would be good to include in your report.”

### 4 Use Filters to Narrow Results

Explain that the students will practice using other filters to continue searching for specific information about cheetahs. Post the “Filters We Can Use” chart and briefly describe each filter listed.

## Teacher Note

You may want to add to this list throughout the year.

### Filters We Can Use

- Images
- Maps
- News
- Videos

Direct the students' attention back to the search results page on the whiteboard. Use "Think, Pair, Share" to discuss:

**Q** *What filter(s) might I use if I wanted to read news articles about cheetahs and their habitat? [pause] Turn to your partner.*

Have a few volunteers share their ideas. If necessary, explain that the News filter might provide news stories about cheetahs. Click the News filter and display the search results on the whiteboard. If necessary, click some of the links to display individual results. Ask:

**Q** *How did the News filter change my results?*

**Q** *Do you think these results are useful? Why or why not?*

#### Students might say:

"Now the only results on the page are from news websites."

"There are a lot of articles about cheetahs, but we'd have to read them before deciding if they are useful."

Use the same procedure to demonstrate how to use the Videos and Maps filters, or invite volunteers to the whiteboard to practice using the filters. Discuss the results with the class.

Point out that when the students use filters to narrow a search, the results may not always be useful for their research topics. Remind them that good researchers always evaluate and choose their research sources carefully.

Tell the students that you will post the "Filters We Can Use" chart for them to use throughout the rest of the year.

## 5 Use Filters for Research

Explain that the students can use filtering tools to narrow search results for their own research. Have them open their notebooks and think about what information they still need for their research topics. Ask:

**Q** *What filter(s) might help you find the information you still need?*

Have the students write down in their notebooks the filters they would like to use. Explain that the next time they use the school computer they will work in pairs to narrow their searches and print any information that is useful for their research topics.

When the students have demonstrated that they know how to narrow their search results, see Technology Mini-lesson 6 to teach them how to choose reliable, current, and accurate sources for their research.

### Teacher Note

If possible, have the students practice narrowing their searches and print useful research sources soon after you teach this lesson. Have the students save their printed online sources to use in Technology Mini-lesson 6.

## Evaluating Research Sources

## Mini-lesson 6

### DO AHEAD

- ✓ Prepare a chart titled “Questions to Ask When Evaluating a Source” (see Step 3 on page 722).
- ✓ Type the query *cheetah habitat* into a search engine and have the search results page ready to display in Step 4.

#### In this lesson, the students:

- Work in pairs
- Evaluate research sources
- Choose credible sources for their research

### 1 Introduce Evaluating Sources

Gather the class with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Point out that many of the students have begun to research their topics on the Internet and are ready to choose sources for their research projects. Remind the students that anyone can post information on the Internet so it is important to choose their sources carefully. Explain that today the students will learn how to identify sources of information they can trust and use.

### 2 Discuss the Characteristics of a Good Source

Tell the students that the sources they use for their reports should have information that is reliable, current, and accurate. Display the “Characteristics of a Good Research Source” chart (WA3) and briefly discuss each term with the class.

### Materials

- “Characteristics of a Good Research Source” chart (WA3)
- “Questions to Ask When Evaluating a Source” chart, prepared ahead
- Whiteboard with search results displayed, prepared ahead
- Students’ printed online sources from Technology Mini-lesson 5
- “Evaluating Research Sources” chart (WA4)

### Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 5 on page 718). You may want to briefly review the previous lesson before starting this one.

### Characteristics of a Good Research Source

- reliable: trustworthy or dependable
- current: up-to-date or recently written
- accurate: correct, without mistakes

Tell the students that in order to determine whether a source is reliable, current, and accurate they need to evaluate the source, or think carefully about it.

### 3 Introduce Questions for Evaluating a Source

Explain that good researchers ask themselves questions about a source when deciding whether or not to use it. Post the “Questions to Ask When Evaluating a Source” chart and tell the students to listen as you read each question aloud:

#### Questions to Ask When Evaluating a Source

##### Reliable:

- Who is the author of the page? Is the author an expert? How do I know?
- What is the web address? Is the information from a site that is trustworthy? How do I know?

##### Current:

- When was the information written?
- Do the links from the site work, or are they outdated?

##### Accurate:

- Are there sources listed for the information on the page? What are they?
- Can you find other sources with the same information?

Point out that the students will not always find answers to all the questions, but asking them will help them decide if the source has information they can trust.

## 4 Model Evaluating a Research Source

Display the search results page you prepared ahead of time and remind the students that this is the results page for the query *cheetah habitat*. Click one of the website results. Read the information on the website aloud and ask the students to listen as you consider whether or not the source is reliable, current, and accurate by answering the questions on the “Questions to Ask When Evaluating a Source” chart.

### You might say:

“First I will answer questions to evaluate whether or not the site is reliable. This page doesn’t list a specific author, but I can see from the web address that it is an educational website from the National Zoological Park. The site is connected to the park and seems to be a source of education about animals and science, so I think it’s trustworthy. Now I’ll answer questions to decide if the information is current. It doesn’t say when the information was written, but I think a zoo and educational site like this will probably have very current information. [Click other links on the site.] When I click other links, I can see they are working and the information on other pages of this site are current. Lastly, I will answer questions to see if the site is accurate. There are no sources listed on the page, but I’ve seen similar information on a few other websites about cheetahs. I think I can use the information on this site for my research.”

## 5 Evaluate Research Sources

Explain that the class will work together to evaluate another research source. Redisplay the search results page from Step 4 and click another result to display a website.

Read aloud the information on the page as the students follow along. Then have partners evaluate the reliability of the source by answering the questions under “Reliable” on the chart. After a moment, have volunteers share what they discussed with the class.

### Students might say:

“The author’s name was hard to find. It’s all the way down at the bottom of the page.”

“The website is a news and information site for kids, so I think it’s trustworthy.”

In the same way, have partners answer the questions about the currency and accuracy of the source. Then ask:

- Q *Do you think this is a good source to use for my research project? Why or why not?*
- Q *What other questions might be important to add to the “Questions to Ask When Evaluating a Source” chart? Why do you think that?*

Add the students’ suggestions to the chart. Explain that you will post the chart for the students to use throughout the year.

## 6 Continue Evaluating Sources

Explain that the students will use what they learned today to evaluate sources for their research topics. Remind them to ask you for help if they need it.

Have the students return to their seats with partners sitting together. Ask them to spend a few moments gathering the sources they printed for their topics. Display the “Evaluating Research Sources” chart (WA4) and have them work quietly for 10–15 minutes. Explain that the next time they use the computer they will answer any questions that require them to check links or look for additional sources with the same information.

### Teacher Note

If possible, have the students use the computer to evaluate their research sources soon after you teach this lesson.

### Evaluating Research Sources

- Read the information on the page carefully.
- Read the questions on the “Questions to Ask When Evaluating a Source” chart and write down any answers you find.
- Write down whether you think the source is reliable, current, and accurate and include reasons why.

WA4

As the students work, walk around the room and observe, assisting as needed.

## Mini-lesson 7

## Creating Documents

### DO AHEAD

- ✓ Prepare a chart titled “Important Keyboard Features” (see Step 2 on page 725).
- ✓ Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print “Sample Keyboards” (BLM). Make enough copies for each student to have one; set aside a copy for yourself. Two types of keyboards are provided; you may want to give the students only the sample that matches the keyboards they will be using at school.
- ✓ Practice creating, saving, and storing a document to prepare for the modeling you will do in Steps 2 and 3. Decide how you would like the students to name and store their documents on the computer.

- ✓ Prepare a chart titled “Keyboard Shortcuts” (see Step 4 on page 727). Note that certain computers’ keyboards use the Control key for shortcuts while others use Command. Likewise, some keyboards have a key named Return while others use Enter, and the same for Delete versus Backspace. When creating your chart, copy the words from the diagram that match the keyboards that you and your students will be using.

### In this lesson, the students:

- Work in pairs
- Learn the term *word processing*
- Explore important keyboard features and shortcuts
- Practice creating documents

## 1 Introduce Word Processing

Gather the class with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Explain to the students that this year they will be publishing some of their writing using a computer. Tell them that creating documents on the computer is called *word processing*, and that today they will learn some basic word-processing skills.

## 2 Model Creating a Document

Display your computer’s desktop on the whiteboard and demonstrate how to move the cursor around the screen to find and open a word-processing application. Model how to use the drop-down menu to open a new document, type in words, and use various keyboard features.

### You might say:

“Once I have opened my word-processing application, I can create a new blank document by going to the File menu and clicking on New. Now I can type my story into the document. As I type, I can create a capital letter by holding down the Shift key and then typing the letter. The Caps Lock key will make all the letters I type capitals. Another job of the Shift key is to allow me to type the characters shown on the upper part of certain keys. For example, when I want to type in parentheses, I hold down the Shift key first and then type the 9 or 0 key. Another useful feature is the [Command/Control] key, which provides a shortcut for certain tasks. For example, instead of using the drop-down menu to create a new document, I can hold down the [Command/Control] key and then type the N key as a shortcut.”

Post the “Important Keyboard Features” chart and distribute a copy of “Sample Keyboards” (BLM2) to each student. Ask the students to locate each feature on their “Sample Keyboards” as you read the chart aloud.

### Materials

- Whiteboard with a word-processing application displayed
- “Important Keyboard Features” chart, prepared ahead
- Copy of “Sample Keyboards” (BLM2) for each student
- “Keyboard Shortcuts” chart, prepared ahead

### Teacher Note

You are likely to have students who are very familiar with word-processing software and others who have little knowledge or experience with it. You may want to provide support for less-experienced students by pairing them with more-experienced students.

### Teacher Note

Whether you use the Command or Control key will depend on the type of computer or keyboard you have at your school.

## Important Keyboard Features

- *Shift*: Hold down to type capital letters or characters on the upper part of key.
- *Command/Control*: Hold down with another key for a keyboard shortcut.
- *Return/Enter*: Press to move the cursor to the next line on page.
- *Tab*: Press to indent a line of writing.
- *Delete/Backspace*: Press to erase the text before the cursor.

Ask and briefly discuss:

**Q** *What other keyboard features do you know how to use?*

Add the students' suggestions to the chart and invite volunteers to the computer to demonstrate on the whiteboard how they are used.

### 3 Model Saving and Finding a Document

Point out that when the students create documents on the computer, they can save and store them on the computer for future use. Ask the students to listen and watch as you demonstrate how to name, save, and store your document using the File menu. Then model how to close, find, and open it again.

#### **You might say:**

"To save my document, I go to the File menu and choose Save. This takes me to the window that allows me to name my document and decide where to save it so that I can find it after it is closed. There are many places to store, or put, a document on the computer, so I've made a folder where I can put all my writing. I'll show you where to store your writing on the computer when you create your own documents. Once I've saved my document, I can close it by clicking Close in the File menu. To reopen it, I can click Open in the File menu, which gives me a list of documents. Clicking the name of my document, then clicking Open, will open it up again."

Briefly point out all the drop-down menus in the application and demonstrate any additional tasks and shortcuts you think might be helpful for the students to know. Ask:

**Q** *What questions do you have about how to [save a document]?*

**Q** *What other features of the word-processing application do you know how to use?*

## 4 Create and Save a Document

Explain that the class will work together to create, save, and store a document. Post the “Keyboard Shortcuts” chart and explain that the students may use this chart and the “Important Keyboard Features” chart to remind them how to do certain tasks.

### Keyboard Shortcuts

- Open a document: [Command/Control] + O
- Close a document: [Command/Control] + W
- Print a document: [Command/Control] + P
- Save a document: [Command/Control] + S
- Bold text: [Command/Control] + B
- Italic text: [Command/Control] + I
- Underline text: [Command/Control] + U

Invite a volunteer to the computer to demonstrate how to open a new document and type in a sentence. Then ask several more volunteers to demonstrate other tasks. Finally, have a volunteer save and store the document. Be ready to assist the students by answering questions or helping to solve any problems that arise.

Ask and briefly discuss:

- Q *What new keyboard features did you learn today?*
- Q *What keyboard shortcuts do you think are most helpful?*

Tell the students that you will post the “Important Keyboard Features” and “Keyboard Shortcuts” charts for them to use throughout the year.

## 5 Use Word Processing to Publish Writing

Explain that the next time the students work on a school computer, they will work in pairs to practice typing, formatting, and saving their writing.

### Teacher Note

If possible, have the students practice word processing soon after you teach this lesson. You may want to provide support for less-experienced students by giving them additional time to practice using the application.

# Mini-lesson 8

# Creating Presentations

## DO AHEAD

- ✓ Review your presentation application and prepare how you will model using the application to create a presentation in Step 2. Find videos, pictures, or other graphics to insert in your presentation and save those on your hard drive.
- ✓ Prepare a chart titled “Creating a Presentation” (see Step 3 on page 729).

### Materials

- Whiteboard with a presentation application displayed
- “Creating a Presentation” chart, prepared ahead
- Students’ writing notebooks

### Teacher Note

You are likely to have students who are very familiar with presentation applications, and others who have little knowledge or experience with them. You may want to provide support for less-experienced students by partnering them with more-experienced students.

**TEKS 9.F.i**  
Student/Teacher Narrative  
Step 1

### In this lesson, the students:

- Work in pairs
- Learn basic features of presentation applications
- Explore how to incorporate special features into a presentation
- Practice creating presentation slides

## 1 Introduce Creating Presentations

Have the students bring their notebooks and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Explain to the students that when they finish a piece of writing, there are various ways they might share their published writing with the class. One way is to create presentations using the computer. Explain that presentation applications let them add special features to their writing, such as pictures. Today they will learn how to use a presentation application to create a slideshow using text, pictures, maps, shapes, graphs, charts, and video. Use “Think, Pair, Share” to have partners discuss why they might want to add these special features to their reports. Ask:

-  **Q** *When might you want to add [a map] to a presentation or report? [pause] Turn to your partner.*
- Q** *How might including [photographs] in your presentation make it more meaningful for your audience? [pause] Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

### Students might say:

“I could use a map to show the parts of the world where my animal lives.”

“Instead of just writing about my animal, I can include pictures to show what my animal looks like.”

## 2 Model Creating Slides

Display your computer’s desktop on the whiteboard and demonstrate how to move the cursor around the screen to find and open your presentation application. Then model applying a theme, typing words, changing the font size and color, and inserting a new slide. Using the various tabs, buttons, and menus in the application, model inserting special features, such as videos, pictures, or other graphics.

### You might say:

“When the presentation application is open, I can create a new presentation by going to the File menu and clicking New Presentation. Then I can choose a theme for my presentation by clicking the Themes [tab/button] and deciding which one to use. I can use the keyboard to type text into the slide and change its size and color by going to the Format menu and choosing Font. To insert a new slide, I click the New Slide [tab/button] at the top of my application window. I can apply the same theme—the look and feel—or a different theme to each new slide. I can insert a picture by going to the Pictures tab and choosing the artwork or photograph I want. I can do the same thing to insert videos or other graphics, like charts, shapes, or tables.”

Ask:

**Q** *What are some other features of presentation applications you know how to use?*

Invite volunteers to the computer to demonstrate for the class how to use the features they suggest. Then continue to model how to save, name, and store your presentation.

### You might say:

“To save my presentation, I go to the File menu and choose Save. This takes me to a window that allows me to name my presentation and decide where I want it to be stored. I’ve made a special folder where I can save my report presentations, and I’ll show you where to save yours on the computer, too. Once I’ve saved it, I close it by clicking Close in the File menu. To reopen it, I click Open in the File menu, which gives me the list of presentations. Clicking the name of my presentation, then clicking Open, will open it up again.”

Ask and briefly discuss:

**Q** *What questions do you have about creating a presentation?*

## 3 Create and Save a Presentation as a Class

Explain that the class will work together to practice opening a new presentation and adding various features to the slides. Later, the students will have the chance to create their own presentations based on a finished piece of writing. Post the “Creating a Presentation” chart and explain that the class will do each task in the order listed.

### Teacher Note

To show your students an example of how a student added photographs, graphics, and other features to a presentation of her research on roller coasters, view “Roller Coasters Presentation” (AV79). Explain to the students that this presentation was created by a fifth-grade student who is using the *Being a Writer* program. Display the sideshow, click through the slides one at a time, and point out the

features the author included, such as photographs and links to other information.

### Teacher Note

You may want to provide support for less-experienced students by giving them additional time to practice using the application.

## Creating a Presentation

1. Open a new presentation.
2. Apply a theme.
3. Type in a sentence and change the font size and color.
4. Insert at least two new slides.
5. Insert a picture and a video on different slides.
6. Save the presentation with a name you choose.

Invite volunteers to the computer to demonstrate for the class how to do each task. Be ready to assist the students by answering questions or helping to solve any problems that may arise.

## 4 Create Presentations

Explain that the students will create presentations to share some of their published writing. Have them open their notebooks and think about what pieces they might want to share as a presentation. Use “Think, Pair, Share” to discuss:

- Q *What writing projects have you worked on that might be fun to share as a presentation?* [pause] *Turn to your partner.*
- Q *What kind of things would you like to include in your presentation?* [pause] *Turn to your partner.*

Plan to give the students at least two class sessions to work on their presentations with their partners. Continue to model how to use presentation applications throughout the year.

# Being a Writer™

SECOND EDITION

## The Collaborative Classroom

The Collaborative Classroom differs from traditional learning environments in that students and teachers work together on shared academic and social goals.

The Collaborative Classroom is an intentional environment in which collaboration goes beyond conventional cooperation and compliance. Students become caring members of a learning community who take responsibility for their own learning. As students think, talk, and share ideas, they come to value the thinking of others. They become thoughtful writers and engaged speakers and listeners. They discuss and debate big ideas with respect, clarity, and understanding.

## The Collaborative Classroom in *Being a Writer*

The *Being a Writer* program embodies the practices of the Collaborative Classroom.

Students of *Being a Writer* demonstrate:

- Deeper understanding of content
- Ownership of their own learning
- Intrinsic motivation to remain on task
- Improved self-esteem
- An increase in academic performance

*“As we practice collaboration, we are building community. It has changed our school climate and helped our students academically. They now have the language to work together differently and resolve problems quickly. We have reduced interruptions during academic instruction and don’t lose important learning time. We have increased student engagement, which ensures increased academic achievement and gains.”*

# Introduction

The *Skill Practice Teaching Guide*, along with the *Student Skill Practice Book*, provides 30 weeks of mini-lessons in grammar, usage, and mechanics skills that supplement writing instruction in the *Being a Writer* program. Skill Practice Notes in the *Being a Writer Teacher’s Manual* alert you to instructional moments when a mini-lesson in grammar, usage, capitalization, or punctuation might help your students with their writing. At grades 1–2, most skill instruction in the core lessons occurs during the shared or modeled portions of the lesson. At grades 3–6, most skill instruction occurs during the revision and proofreading phases of the writing process. Additional instruction and practice in skills and conventions for grades 1–6 are provided in this teaching guide and the accompanying practice pages.

The *Skill Practice Teaching Guide* includes:

- 25 mini-lessons and 5 review lessons
- Interactive whiteboard activities to promote student participation and support instruction
- *Student Skill Practice Book* corrections
- Individual student and class assessment forms
- Three diagnostic language skills task scoring keys

The *Student Skill Practice Book* includes:

- Three practice book pages per lesson (the third of which can be scored)
- A *Student Grammar Guide* containing grammar terms with definitions and examples
- Three diagnostic language skills tasks for formative assessment language standards

## Language Skills Support in the *Being a Writer Teacher’s Manual*

The *Being a Writer* program supports students’ acquisition of grammar, usage, and mechanics skills. The “Grade 3 Skills Correlation to *Being a Writer*” table on the following pages shows where a skill is taught in the grade 3 *Teacher’s Manual* and where Skill Practice Notes refer to lessons in the *Skill Practice Teaching Guide*.

## Making the Most of a Mini-lesson

There are three main ways to incorporate the lessons in the *Skill Practice Teaching Guide* into the *Being a Writer* program:

- Teach the 30 lessons in sequence.
- Teach specific skills to support work in a particular genre, as suggested by Skill Practice Notes in the *Being a Writer Teacher's Manual*.
- Use the formative assessments in Appendix C at the beginning, middle, and end of the year. The first two assessments can be used to determine which lessons to teach and to whom, and the final assessment can be used to evaluate student progress at the end of the year.

Each mini-lesson includes an introduction, teacher-guided practice, and a set of three optional practice pages for students. Many lessons also offer opportunities for students to collaborate with peers; the icon  serves as a marker for collaborative activities. Mini-lessons also encourage student participation via interactive whiteboard activities. The interactive whiteboard activities challenge students to complete tasks designed to help them identify and use common English language conventions. Students might be asked to the whiteboard to drag a correct answer from a word box into a blank, to click a blank to reveal an answer, or to use the pen tool to correct a sentence fragment. Facsimiles of the whiteboards appear with answers in each lesson of the *Skill Practice Teaching Guide* at point of use. All whiteboard activities are also available on the CCC Learning Hub to print and project, or to use as paper-and-pencil activities.\*

---

## Using the *Student Skill Practice Book*

Three optional student practice pages are provided in the *Student Skill Practice Book* for each lesson. Activities are scaffolded. For example, the first page might involve a simple task, such as identifying a language element; the second page might invite students to choose which language element works best in a specific context; and the third page might call for more sophisticated tasks, such as proofreading a written work for accuracy. All three pages offer a brief writing prompt to give the students an opportunity to use the language skill in original writing.

The third page of each set of practice pages for each lesson can be scored to evaluate student progress and inform instruction. The scores can be added to the “Skill Practice Student Record” sheet and the “Skill Practice Class Record” sheet to record individual and class

results. For students who need additional support, this page is also available as an interactive whiteboard activity for reteaching. For more information about using the practice pages in the *Student Skill Practice Book* to evaluate student progress, see “Skill Practice Assessment” found in Appendix B.

---

## Assessing Language Skills

Three diagnostic language skills tasks in Appendix C of this guide offer the opportunity to assess students’ development and mastery of grade-level language standards.

Student copies of the proofreading and editing tasks appear in the back of the *Student Skill Practice Book* on page 103. In Appendix C of this guide, you will find instructions for conducting, scoring, and analyzing the assessment, along with annotated versions of the tasks that serve as scoring keys. The scoring keys also list the standard(s) addressed by each item.

You may wish to administer a diagnostic language skills task at the beginning, middle, and end of the year. Appendix C includes two cumulative report forms per task—one for recording individual student results and one for recording class results—that allow you to track progress and to identify specific skills requiring additional review, reteaching, and practice. These forms are also available on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)), and they can be accessed through the CCC ClassView™ assessment app ([classview.org](http://classview.org)).

## INTRODUCTION

1. Explain that a **sentence** is a group of words that tells a complete thought. Point out that every sentence has two main parts: a **subject** that tells whom or what the sentence is about, and a **predicate** that tells what the subject does or is.
2. Display the “Complete Sentences” activity (🎯 WA1). Read the first sentence aloud and ask, pausing after each question for one or two volunteers to answer:
  - Q Which words tell whom or what the sentence is about—Many animals or live in the sea? (Many animals)
  - Q Which words tell what the subject does? (live in the sea)Draw one line under *Many animals* and two lines under *live in the sea*. Then tell the students that *Many animals* is the subject of the sentence; it tells whom or what the sentence is about. Explain that *live in the sea* is the predicate; it tells what the animals do.
3. Repeat the process for sentences 2–6.
4. Point to the subject, *Many animals*, in sentence 1. Ask the students which word tells exactly what the sentence is about—*Many* or *animals*. (*animals*) Circle the word *animals*. Explain that this word is called the **simple subject**: it is the most important

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

word in the subject. Then explain that the **complete subject** includes all of the words that tell whom or what the sentence is about. Ask the students to identify the complete subject of the sentence. (*Many animals*)

WA1

1. Many animals live in the sea.
2. The jellyfish swims in the ocean.
3. This creature squirts water from its mouth.
4. These squirts push the jellyfish forward.
5. Long wavy strings hang from the jellyfish's body.
6. These tentacles sting.

5. Point to the predicate in sentence 1, *live in the sea*. Ask the students which word tells what the animals do. (*live*) Draw a box around the word *live*. Explain that this word is called the **simple predicate**: it is the most important word in the predicate. Then explain that the **complete predicate** includes all of the words that tell what the subject does or is. Invite the students to identify the complete predicate. (*live in the sea*)
6. Read each remaining sentence aloud. Ask:
  - Q Which word in the subject is most important?
  - Q Which word in the predicate is most important?

Invite a volunteer to the whiteboard to circle the simple subject and draw a box around the simple predicate in sentence 2. Repeat the process for sentences 3–6.

### Teacher Note

Point out the word *squirts* in sentences 3 and 4. In sentence 3, *squirts* is an action word and so it is part of the predicate. In sentence 4, *squirts* is a naming word and so it is part of the subject.

### Teacher Note

Use sentence 6 to point out that sometimes the complete predicate and the simple predicate are the same.

## GUIDED PRACTICE

7. Display the next “Complete Sentences” activity (WA2). Read the first sentence aloud and ask, pausing after each question for one or two volunteers to answer:
  - Q What is the complete subject? (The young boy)
  - Q What is the complete predicate? (plays in the ocean)

Then ask:

Q *What is the most important word in the complete subject? (boy)*

Q *What is the most important word in the complete predicate? (plays)*

Invite a volunteer to click the blanks next to the labels *Simple Subject* and *Simple Predicate* to confirm the responses.

1. The young boy plays in the ocean.  
Simple Subject:  Simple Predicate:

2. He sees three jellyfish under the water.  
Simple Subject:  Simple Predicate:

3. His mom warns him about the jellyfish.  
Simple Subject:  Simple Predicate:

4. Luckily, the animals swim away quickly.  
Simple Subject:  Simple Predicate:

WA2

8. Repeat the process for the remaining sentences. Ask the students to identify the sentence in which the complete subject and the simple subject are the same. (In sentence 2, *He* is both the complete and simple subject.)

9. Have the students work in pairs to write a paragraph using complete sentences. Ask them to underline each simple subject once and each simple predicate twice.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a land or water animal that they think is unusual.

## Optional Practice

Have the students complete pages 1–3 in their *Student Skill Practice Books*, independently or in pairs, to practice writing complete sentences. Note that page 3 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 3 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

### ELL Note

In some languages, such as Spanish, Russian, and Tagalog, the verb precedes the subject. Students with these language backgrounds may need more practice identifying complete subjects and complete predicates.

## INTRODUCTION

1. Tell the students that they will practice recognizing and correcting sentences that are missing a subject or a predicate. Explain that knowing how to write complete sentences will help them express their ideas clearly.
2. Display the “Incomplete Sentences” activity (WA5). Read the two items aloud. Ask:

**Q** *Which one is missing a subject? (Stared at his friend Luis)*

Tell the students that this group of words is not a complete sentence because it is missing a subject. We do not know who or what stared.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Stewart felt bored. Stared at his friend Luis.

Stewart felt bored. He stared at his friend Luis.

1. The two boys.

The two boys thought very hard.

2. Got an idea.

They got an idea.

3. Decided to build a fort.

Stewart and Luis decided to build a fort.

4. The friends.

The friends spotted the dining room table.

3. Remind the students that a complete sentence has a subject and a predicate, and expresses a complete thought. Ask:

**Q** *What could we add to the second group of words to make it express a complete thought?*  
(Stewart; He)

Click the blank to reveal the complete sentence. Then read both sentences aloud, pointing to the subject and the predicate in each.

4. Direct the students' attention to item 1. Explain that a group of words that does not have both a subject and a predicate is an **incomplete sentence**. Read item 1 aloud and ask:

**Q** *Is this a complete or an incomplete sentence? (incomplete) What is missing—the subject or the predicate? (the predicate)*

Give the students a few moments to think, and invite one or two volunteers to respond. Then click the blank to reveal the complete sentence with its predicate. Read the complete sentence aloud.

### Teacher Note

You may wish to invite volunteers to supply their own alternative subjects or predicates to complete each sentence. Answers provided in the activity are just one way to complete the sentences.

5. Repeat the process for the remaining sentences. Ask:

**Q** *Why is it important to avoid incomplete sentences in your writing?*

Explain that sentences that are missing a subject or predicate are incomplete thoughts and, therefore, hard for readers to understand.

## GUIDED PRACTICE

- Tell the students that next they will correct items that are missing either a subject or a predicate to form complete sentences.
- Display the next “Incomplete Sentences” activity (🔊 WA6). Read the first incomplete sentence aloud and ask:

**Q** Which is missing—the subject or the predicate? (the predicate)

Invite one or two volunteers to respond. Then ask:

**Q** Which one is a complete sentence?

Give the students a few moments to respond. Then click to highlight the first option. Guide the students to see that the predicate *pulled blankets over the table* was added to form a complete sentence. Ask the students to explain why the other option is incorrect. (It is still missing a predicate.)

WA6

- The two boys.
  - The two boys pulled blankets over the table.
  - The two boys with the blankets.
- Crawled inside the fort.
  - Crawled inside the fort and sat there.
  - They crawled inside the fort.
- Told a story in a scary voice.
  - Stewart told a story in a scary voice.
  - Told a scary ghost story.

- Continue guiding the students through items 2 and 3, reading them aloud and helping volunteers determine which options are complete sentences and what is missing in the other options.
- Have the students work in pairs to write a paragraph. Ask them to check their work to ensure that there are no incomplete sentences.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about something they do when they start to feel bored.

### Teacher Note

You might have the students write an example of a complete sentence in the Proofreading Notes section of their *Student Writing Handbooks*, and label each part with the word *subject* or *predicate*.

## Optional Practice

Have the students complete pages 4–6 in their *Student Skill Practice Books*, independently or in pairs, to practice writing complete sentences. Note that page 6 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 6 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### **ELL Note**

In Spanish complete sentences do not always include subjects. Therefore, students with this language background may need additional practice correcting incomplete sentences that are missing subjects.

## INTRODUCTION

1. Explain to the students that today they will learn how to connect simple sentences. Explain that a **simple sentence** contains a subject and a predicate, and expresses a complete thought.
2. Display the “Compound Sentences” activity (WA9). Ask the students to listen carefully as you read sentence pairs 1 and 2 aloud. Explain that these four sentences are all simple sentences, then reread the sentences aloud and ask:

**Q** *What did you notice about how these sentences sounded as I read them?*

#### Students might say:

“The sentences were really short.”

“I agree with Anders. They also sounded choppy.”

Allow a few volunteers to respond. Then explain that to make these simple sentences longer and more interesting, we can use the word *and* to join pairs of sentences

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

together. In the blank between the sentence pair in item 1, write the word *and*. Then replace the period after the word *weather* with a comma, and read the new sentence: *I love cold weather, and I especially love snow.*

Point to the word *and* in the new sentence, and explain that *and* is a connecting word we call a **conjunction**. It connects ideas that are similar—loving cold weather and especially loving snow. Explain that, when we use a conjunction like *and* to connect simple sentences, we form what is called a **compound sentence**. Point to the comma in the sentence and explain that we put a comma before the conjunction in a compound sentence.

WA9

**Conjunctions:** and but or

1. I love cold weather, and I especially love snow.
2. I wear mittens, and I put on a warm hat.
3. I can play in the backyard, or I can go to the park.
4. Sometimes I play by myself, but I have more fun playing with my friend Roland.
5. We roll around in the snow.

3. Have the students silently read sentence pair 2. Ask:

**Q** *How can we use the conjunction and to make these two simple sentences into a compound sentence?*

Write *and* in the appropriate space and replace the period with a comma before the conjunction. Read the new compound sentence aloud: *I wear mittens, and I put on a warm hat.*

4. Read sentence pair 3 aloud. Explain that these sentences show a choice between two places to play in the snow—the backyard and the park. Explain that we use another conjunction—*or*—to join two sentences that show a choice. Write *or* in the appropriate place, replace the period after the first sentence with a comma, and read the new sentence aloud: *I can play in the backyard, or I can go to the park.*
5. Read sentence pair 4 aloud. Explain that these sentences describe a contrast, or difference, between playing alone and playing with a friend. Explain that to join sentences that show a contrast or difference we use a third conjunction—*but*.

Write *but* in the appropriate place, replace the period with a comma, and read the new sentence aloud: *Sometimes I play by myself, but I have more fun playing with my friend Roland.*

6. Read sentence 5 aloud and ask, pausing after each question for one or two volunteers to respond:

**Q** *Is this sentence a simple sentence or a compound sentence? Why do you say that?*

If necessary, point out that this is a simple sentence. Then explain to the students that, when they write, they can use some short simple sentences and some longer compound sentences. Ask:

**Q** *How does using a combination of simple sentences and compound sentences improve your writing? (Using both kinds of sentences makes the writing sound better and keeps people interested.)*

## GUIDED PRACTICE

7. Display the “Compound Sentences” activity (📄 WA10). Explain that the students will now practice using the conjunctions *and*, *but*, and *or* to combine simple sentences into compound sentences. Review that *and* connects ideas that are similar, *but* shows a contrast or a difference between ideas, and *or* shows a choice.

WA10

**Conjunctions:** and but or

1. Ellie loves summer. She likes to swim outside.

Ellie loves summer, and she likes to swim outside.  
^

2. She may swim in a pool. She may swim in the lake.

She may swim in a pool, or she may swim in the lake.  
^

3. Ellie likes the lake. She doesn't like the rocky bottom.

Ellie likes the lake, but she doesn't like the rocky bottom.  
^

4. Ellie sees fish in the lake. She watches them swim around her.

Ellie sees fish in the lake, and she watches them swim around her.  
^

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

8. Read sentence pair 1 aloud. Then ask:

**Q** *Which conjunction can you use to combine these simple sentences into a compound sentence? Why would you use this conjunction?*

Allow a few volunteers to respond. Then invite one of the volunteers to the whiteboard to write the conjunction *and* on the line and place the comma where it belongs. Reread the sentence aloud. If necessary, remind the students that *and* is used to connect ideas that are similar.

---

### Teacher Note

Point out to the students that when the two sentences are combined, the capital *S* in *She* should be changed to a lowercase letter.

9. Repeat the process with the remaining sentences.

10. Have the students work in pairs to write a paragraph, using both simple and compound sentences.

---

### Teacher Note

If the student pairs have difficulty thinking of a topic to write about, suggest that they write about a season they both like.

## Optional Practice

Have the students complete pages 7–9 in their *Student Skill Practice Books*, independently or in pairs, to practice forming compound sentences. Note that page 9 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 9 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### Teacher Note

You might have the students write brief explanations of how *and*, *but*, and *or* are used to connect ideas in the Proofreading Notes section of their *Student Writing Handbooks*.

## INTRODUCTION

1. Remind the students that they have learned about two kinds of sentences: simple sentences and compound sentences. Review that a simple sentence has a subject and predicate and tells a complete thought, and that a compound sentence is formed by joining two simple sentences using the word *and*, *or*, or *but*.

### Teacher Note

If necessary, write an example of a compound sentence on the board such as: *My family loves to celebrate the new year, and we always have a party.* Invite a volunteer to identify the two simple sentences and the connecting word *and*.

Explain that today the students will learn how to combine a sentence that tells a complete thought with a group of words that does not tell a complete thought to form another type of sentence called a **complex sentence**.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

2. Display the “Complex Sentences” activity (🗨️ WA13). Point to and read the complete sentence aloud: *I love Chinese New Year*. Ask:

Q *Is this a complete sentence? Why or why not? (Yes. It tells a complete thought.)*

Point to and read aloud *Because my family goes to a special parade*. Ask:

Q *Is this a complete sentence? Why or why not?*

If necessary, explain that the second group of words does not tell a complete thought.

Explain that the ideas in these two groups of words are connected—*Because my family goes to a special parade* tells why *I love Chinese New Year*—so the two groups of words can be combined into a single sentence.

**Conjunctions:** after because before until

1. I love Chinese New Year. Because my family goes to a special parade.

I love Chinese New Year (because) my family goes to a special parade.

2. We put on our holiday clothes (before) we leave for the parade.

3. I can hardly wait (until) we get there.

4. I could not sleep last night (because) I was so excited.

5. I will sleep tonight (after) we get home.

WA13

3. Write the sentence *I love Chinese New Year because my family goes to a special parade*. Then read the completed sentence aloud. Explain that you have formed a complex sentence—a sentence made up of one group of words that tells a complete thought and one group of words that does not. Draw one line under the complete sentence; draw two lines under the group of words that does not tell a complete thought and cannot stand alone.

4. Point to the words in the word box: *after, because, before, until*. Explain that these words are **conjunctions**, or connecting words, that join the two parts of a complex sentence. Circle the word *because* in the complex sentence you wrote.

5. Draw the students’ attention to sentence 2. Draw one line under the part that expresses a complete thought. (*We put on our holiday clothes*) Draw two lines under the part that does not tell a complete thought. (*before we leave for the parade*) Ask:

Q *What connecting word, or conjunction, joins the two ideas? (before)*

Circle the conjunction. Point out that, when you use a word such as *before* to join the parts of a complex sentence, you do not put a comma before the connecting word.

6. Repeat the process for sentences 3–5.

## Teacher Note

As you identify the clauses and conjunction in each sentence, tell the students how the parts of each sentence are related. Point out that *after*, *before*, and *until* tell about time—when something happens; *because* signals a cause or a reason that something happens or is true.

## GUIDED PRACTICE

7. Display the next “Complex Sentences” activity (🎯 WA14). As needed, review that a complex sentence is made up of a group of words that tells a complete thought and another group of words that does not. The two groups of words are connected by words such as *because*, *after*, and *before*.

Tell the students that you will read a paragraph containing complex sentences that are missing conjunctions, or connecting words. Explain that you will work together to choose the word that best combines the two parts of each complex sentence.

WA14

**Conjunctions:** after because before until until

We were lucky because it was not raining. We found a great place to stand and watch the parade. A group of drummers wearing red costumes marched by after the parade started. We watched the lion dancers until we couldn't see them anymore. The crowd cheered. We stayed at the parade until it ended. We stopped for dumplings before we went home. I'll always remember this day.

8. Point to and read aloud *We were lucky* and *it was not raining*. Ask:
  - Q *How are these two groups of words related? (The second group of words tells the reason that the narrator and the family were lucky.)*
  - Q *Which conjunction can we use to join these two groups of words? (because) Do you need a comma in this complex sentence? (No.)*

Invite a volunteer to the whiteboard to drag and drop *because* into the blank.

9. Continue guiding the students through the paragraph. Read the two parts of each complex sentence aloud, and invite a volunteer to drag and drop the correct word to combine them. Help each volunteer explain how the two parts of the complex sentence are related. Once all of the conjunctions have been placed, read the completed paragraph aloud.

10. Have the students work in pairs to write a paragraph, using simple sentences as well as complex sentences.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a special family celebration or a parade they have attended or seen on TV.

## Optional Practice

Have the students complete pages 10–12 in their *Student Skill Practice Books*, independently or in pairs, to practice using conjunctions in complex sentences. Note that page 12 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 12 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### Teacher Note

You might have the students write brief explanations of how *after*, *because*, *before*, and *until* connect ideas in the Proofreading Notes section of their *Student Writing Handbooks*.

**Whiteboard Activities**

- “Review” activity (WA17)
- “Review” activity (WA18)
- “Review” activity (WA19)

**REVIEW**

1. Explain to the students that they are going to review what they have learned about sentences in Lessons 1–4. Remind students that they have learned how to:
  - Recognize a complete sentence
  - Recognize and correct incomplete sentences
  - Form compound and complex sentences
2. Display the “Review” activity (🎧 WA17). Read aloud the definition of a sentence and the definition of a subject. Have the students read the first sample sentence aloud with you. Ask:

**Q** *What is the complete subject of the first sample sentence?*

Confirm the students’ response by clicking the complete subject. (*My whole family*)  
Remind students that the simple subject is the most important word in the complete subject. Invite a volunteer to identify the simple subject. (*family*)

A **sentence** is a group of words that expresses a complete thought. It includes a subject and a predicate.

- The **subject** tells whom or what the sentence is about.

*My whole family* goes to the carnival every year.

- The **predicate** tells what the subject does or is.

We all go on the Ferris wheel.

3. Repeat the process for the complete and simple predicate. Read the definition of a predicate aloud, and invite volunteers to identify the complete and simple predicate in the second sample sentence.
4. Display the next “Review” activity (WA18). Remind the students that an incomplete sentence does not tell a complete thought. It is missing either a subject or a predicate. Point to the first example of an incomplete sentence and ask:

**Q** *What needs to be added to make this a complete sentence?*

If necessary, point out that a subject needs to be added. Invite the students to suggest a subject to complete the sentence, then write it on the blank. (Sample answer: *My big brother*)

An **incomplete sentence** does not express a complete thought. It is missing either a subject or a predicate.

*My big brother* \_\_\_\_\_ wins a prize at the game booth.

My little sister \_\_\_\_\_ *picks a stuffed tiger for a prize* \_\_\_\_\_.

Sample answers are listed above. Answers may vary.

5. Read aloud the second example of an incomplete sentence. Ask the students what needs to be added and have them work in pairs to think of predicates to complete the sentence. Invite a few volunteers to respond. Then write one of them on the blank. (Sample answer: *picks a stuffed tiger for a prize*)

6. Display the “Review” activity (🗨️ WA19). Remind the students that they have learned about the two different ways to join sentences. Read the definition of a compound sentence aloud. Ask:

Q Which conjunction best links the two thoughts in this sentence? (but)

Have one or two volunteers respond. Click the blank to confirm the answer. Point out that a comma precedes the word *but*.

WA19

A **compound sentence** is made up of two simple sentences joined by the words *and*, *but*, or *or*. Put a comma before the connecting word.

I want to ride on the Whirl-and-Twirl,  I am too small.

A **complex sentence** is made up of one group of words that tells a complete thought and one group of words that does not. Complex sentences use conjunctions like *after*, *before*, *because*, or *until*. No comma is needed before the conjunction.

I have to wait  I am two inches taller.

7. Repeat the procedure for the example of a complex sentence. Ask the students to suggest a conjunction that could complete the sentence. (*until*) Point out that no comma is needed before the conjunction.

## Optional Practice

Have the students complete pages 13–15 in their *Student Skill Practice Books*, independently or in pairs, to practice writing sentences correctly.

## INTRODUCTION

1. Tell the students that in this lesson they will learn about nouns. Explain that a **noun** is a word that names a person, a place, an animal, a thing, or an idea.
2. Display the “Singular and Plural Nouns” activity (WA1). Read sentence pair 1 aloud and ask:

**Q** *Does the underlined noun name a person, place, animal, or thing? (animal)*

**Q** *Does the noun name one thing or more than one? (one)*

Explain that a noun that names one person, one place, an animal, or a thing is called a **singular noun**. A **plural noun** names more than one. Then ask:

**Q** *Which word can we use to complete the second sentence? (dogs)*

Explain that we need the plural form of *dog* since the writer is talking about more than one. Ask:

**Q** *How do we form the plural of dog?*

Give the students time to think, and invite one or two volunteers to respond. Click the blank to reveal the word *dogs*, and read the sentence aloud. Point out that most nouns form their plural by adding the letter *-s*.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

1. The President of the United States has a dog. Did you know that our first president had many dogs during his life?
2. President Calvin Coolidge walked his pet raccoon on a leash. Do you think raccoons like leashes ?
3. President Coolidge also had a goose. Geese are noisy.
4. President Woodrow Wilson had sheep. All the sheep ate the grass on the White House lawn.
5. During his childhood, President Theodore Roosevelt's son took his pony into the elevator. How many ponies do you think can fit in an elevator?

3. Repeat the process for the remaining sentences, explaining the following rules for forming plural nouns:
  - Sentence pair 1: Add the letter *-s* to form the plural of most nouns.
  - Sentence pair 2: Add *-es* to a noun that ends with *s*, *x*, *sh*, or *ch*.
  - Sentence pair 3: Some nouns form the plural by changing their spelling (*goose/geese*). These are called **irregular nouns**.
  - Sentence pair 4: Some nouns have the same spelling for their singular and plural form (*sheep*).
  - Sentence pair 5: To form the plural of a noun that ends with a consonant + *y*, change the *y* to an *i* and add *-es* (*pony/ponies*).

### Teacher Note

If you wish to provide more practice forming irregular plural nouns, demonstrate forming these plurals: *mouse/mice*, *child/children*, *woman/women*, *man/men*, *foot/feet*. You may also want to point out other nouns that have the same spelling in their singular and plural forms: *deer/deer*, *fish/fish*, *moose/moose*.

4. After identifying the plural forms, ask:
 

**Q** *Where can you check the plural spelling of a word? (in a dictionary)*

As needed, explain that we look up the singular form of a word to find the plural spelling.
5. Invite a volunteer to read the underlined nouns aloud. Point out that all of these nouns name things that can be seen, touched, smelled, tasted, or heard. Then reread the first sentence in sentence pair 5 aloud. Ask the students to identify the noun that names something that cannot be seen, touched, smelled, tasted, or heard. (*childhood*)

Explain to the students that nouns such as *childhood*, *hope*, and *wish* are called **abstract nouns**. They name things or ideas that cannot be seen, touched, smelled, tasted, or heard.

## GUIDED PRACTICE

6. Display the “Singular and Plural Nouns” activity (WA2). Have the students work in pairs to read the passage and discuss which answer choices should be used to complete the sentences.

7. After the students have had time to confer, read the first sentence aloud and ask:

**Q** Which form of the noun should we use here? Why?

Invite a volunteer to the whiteboard to circle the correct answer and explain why it is correct.

WA2

President Andrew Johnson liked (mice, mouse). He left out food for them at night. Some presidents liked (bird, birds). President Coolidge had a white canary named Snowflake. President Rutherford Hayes had four (canaries, canary). It doesn't seem that any of the presidents kept (foxs, foxes). The (child, children) of the presidents probably had fun playing with (puppies, puppy), (kittens) kittenies), and other pets.

8. Continue guiding the students through the story, inviting volunteers to circle the correct answers. After all the nouns have been circled, reread the passage aloud.

9. Ask the students to find an abstract noun at the end of the story. (*fun* in the last sentence) Draw a box around the word *fun*. As needed, point out that *fun* is an abstract noun because it names something we cannot see, touch, smell, taste, or hear.

10. Have the students work in pairs to write a paragraph that includes singular and plural nouns. Ask them to include at least one abstract noun.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about an unusual animal they would both like to have as a pet. As needed, list some abstract nouns on the board, for example: *joy*, *happiness*, *wish*, *friendship*.

## Optional Practice

Have the students complete pages 16–18 in their *Student Skill Practice Books*, independently or in pairs, to practice forming singular and plural nouns. Note that page 18 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 18 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### **ELL Note**

In Chinese, Vietnamese, and other Asian languages, there is no plural form for nouns. Often the plural form is expressed through the use of adjectives such as *many* or *several* (for example, “I have several dog”). In Spanish plurals are formed by adding *-es* to nouns ending with a consonant or *y*. Therefore, students from these language backgrounds may need additional practice with plural nouns.

## INTRODUCTION

1. Remind the students that a noun names a person, a place, an animal, a thing, or an idea. Tell the students that next they will learn about nouns that name particular people, places, animals, or things.
2. Display the first “Common and Proper Nouns” activity (📄 WA5). Read sentence 1 aloud and ask:
  - Q Which word names any person? (woman) Which words tell the name of a specific person? (Kathrine Switzer)
  - Q Which word names any running contest? (race) Which word tells the name of a specific running contest? (Boston Marathon)

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Allow a few volunteers to respond. Then click *woman* and *race*. Explain that these words are called **common nouns** because they name any person, place, animal, or thing. They do not begin with a capital letter. Then click *Kathrine Switzer* and *Boston Marathon*. Explain that these words are called **proper nouns** because they name particular people, places, animals, or things: *Kathrine Switzer* is a particular person and *Boston Marathon* is a particular running contest—a 26.2-mile race that takes place in the city of Boston. Then ask:

**Q** *What do you notice about the proper nouns? (The words begin with capital letters.)*

Explain that a proper noun can have one or more words and that each important word in a proper noun is capitalized. For example, in the proper noun *Fourth of July*, only *Fourth* and *July* begin with capital letters.

WA5

1. proper noun Kathrine Switzer was the first common noun woman to run in a common noun race called the proper noun Boston Marathon.

2. It is held in the common noun city of proper noun Boston in the common noun state of proper noun Massachusetts.

3. It always happens on a common noun holiday called proper noun Patriot's Day.

4. It falls on the same common noun day of the common noun month, the third proper noun Monday in proper noun April.

5. Many common noun countries, including proper noun Kenya and proper noun Japan, send their best common noun runners.

6. The common noun race ends near a tall common noun building, the proper noun John Hancock Tower.

3. Repeat the process for the remaining sentences, highlighting the following information about proper nouns:
  - Sentence 2: Proper nouns name specific places, such as cities and states.
  - Sentence 3: The names of specific holidays are proper nouns.
  - Sentence 4: All the days of the week and months of the year are proper nouns.
  - Sentence 5: The names of all countries are proper nouns.
  - Sentence 6: The names of particular buildings and other things such as parks, bridges, and statues are proper nouns.

## GUIDED PRACTICE

4. Explain that next you will guide the students to identify more common and proper nouns.
5. Display the next “Singular and Plural Nouns” activity (WA6). Read the first sentence aloud and ask:

Q Which word in this sentence names any person? (sister)

Q Which words name a particular person? (Marie)

Invite a few volunteers to respond. Then click the common noun *sister* and the proper noun *Marie*. Point out that each word in the proper noun *Marie* is capitalized. Then ask:

Q Which words in this sentence name a particular thing?

Give the students a few moments to think, and invite a volunteer to respond. Then click *Cherry Blossom Ten Mile Race*. Explain that *Cherry Blossom Ten Mile Race* is a proper noun because it names a particular event. Point out that each word is capitalized in the name of the race.

Read the second sentence aloud, and guide volunteers to identify the common nouns *sister*, *friends*, and *race* and the proper noun *Millbrook University*. Point out that in this sentence the word *race* does not name a specific race, so it is not capitalized. Also explain that the proper noun *Millbrook University* names a particular school and that each word in the proper noun begins with a capital letter.

WA6

My **common noun** sister **proper noun** Marie ran in the **proper noun** Cherry Blossom Ten Mile Run.

My **common noun** sister and two **common noun** friends from **proper noun** Millbrook University entered the **common noun** race. The **common noun** race is always in **proper noun** April in **proper noun** Washington, D.C., the **common noun** capital of the **proper noun** United States. **common noun** Trees with pink **common noun** flowers usually bloom there in **proper noun** April. The beautiful **common noun** trees came from **proper noun** Japan.

On the **proper noun** Saturday before the **common noun** race, my **common noun** sister and her **common noun** friends visited the **proper noun** White House. They also visited the **proper noun** National Archives.

6. Ask volunteers to take turns reading the sentences aloud and identifying and clicking the common nouns and proper nouns.

---

### Teacher Note

Invite volunteers to explain why commas are used after the proper nouns *Marie* and *Shana* in the second to last sentence. As needed, remind the students that commas are used to separate common or proper nouns in a series.

7. After all the nouns in the passage have been identified, invite a volunteer to reread each sentence aloud and explain what each proper noun names.
8. Have the students work in pairs to write a paragraph using common nouns and proper nouns. Have them include names of particular people, places, things, and either a day, month, or holiday.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about an event that takes place where they live. The event might be a walk, a street fair, or a holiday celebration.

## Optional Practice

Have the students complete pages 19–21 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying common and proper nouns correctly. Note that page 21 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 21 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

## INTRODUCTION

1. Explain to the students that in this lesson they will learn about nouns that tell what belongs to someone or something. Remind the students that a noun is a word that names a person, place, animal, or thing. A singular noun names one person, place, animal, or thing. A plural noun names more than one.
2. Display the “Possessive Nouns” activity (WA9). Read the phrases in the box aloud, and point out the underlined words. Explain that each of these nouns tells what belongs to a person. Ask:

**Q** *What belongs to the boy? (a book) What belongs to the girls? (pencils) What belongs to the men? (pens)*

Explain that *the boy’s book* is a short way of saying “the book belonging to the boy”; *the girls’ pencils* is a short way of saying “the pencils belonging to the girls”; and *the men’s pens* is a short way of saying “the pens belonging to the men.” Also explain that nouns

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

such as *boy's*, *girls'*, and *men's* that tell what someone owns are called **possessive nouns**. Then ask, pausing after each question for one or two volunteers to respond:

**Q** *What is similar in each of these possessive nouns? What is different?*

As needed, point out that each possessive noun has an apostrophe; however, sometimes the apostrophe is placed before the -s and sometimes it is placed after it. Use the examples to explain how to form both singular and plural possessive nouns:

- Add an apostrophe and -s to a singular noun, such as *boy*.
- Add just an apostrophe to a plural noun ending with *s*, such as *girls*.
- Add an apostrophe and -s to a plural noun that does not end with *s*, such as *men*.

WA9

the boy's book (the book belonging to the boy)  
the girls' pencils (the pencils belonging to the girls)  
the men's pens (the pens belonging to the men)

1. That girls' science project is almost done.
2. Jess's project is about half finished.
3. The students' excitement about the science fair is growing.
4. The teachers' classrooms are filled with busy students.
5. The childrens' work will be displayed in the gym.

3. Read the first sentence below the box aloud and ask:

**Q** *How can we make girl a possessive noun?*

Give the students a few moments to think, and invite one or two volunteers to respond. Then add an apostrophe and -s to form the possessive noun *girl's*. Read the completed sentence aloud. Point out that *girl* is a singular noun, so we add an apostrophe and -s to form the possessive.

4. Repeat the process with the remaining sentences. Invite volunteers to the whiteboard to write the apostrophe and/or -s. After all the possessive nouns have been formed, ask:

**Q** *Why is it important to know how to use possessive nouns correctly?*

**Students might say:**

"Possessive nouns are a great way to show who owns something."

"I agree with Juliet. You can use just a few words to show who owns something."

"Also, you need to write possessive nouns correctly, or your reader could get confused."

## GUIDED PRACTICE

5. Display the next “Possessive Nouns” activity (WA10). Have the students work in pairs to read the passage and discuss which answer choices should be used to complete the sentences.
6. After students have had time to confer, read the first two sentences aloud and ask:  
**Q** *Which is the correct possessive form of the noun Brett? Why?*  
Call on a volunteer to circle the correct answer and explain why it is correct.

WA10

Lots of people are coming to the science fair. (Bretts', **Brett's**)  
whole family will be there. (Cass', **Cass's**) grandma is coming.  
My (**sister's**, sisters) friend said she wants to see the projects, too.  
We set up a special area for all the (**visitors**, visitors) coats.  
After the fair we found two (womens', **women's**) scarves on  
the floor.

7. Continue guiding the students through the story, calling on volunteers to circle the answers that complete it. After all the possessive nouns have been circled, reread the story aloud.

8. Have the students work in pairs to write a paragraph that includes singular and plural possessive nouns.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a science fair or other school event.

## Optional Practice

Have the students complete pages 22–24 in their *Student Skill Practice Books*, independently or in pairs, to practice using possessive nouns. Note that page 24 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 24 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

**INTRODUCTION**

1. Tell the students that they will practice recognizing and using **pronouns**, or words that take the place of nouns. As needed, remind the students that a noun names a person, a place, an animal, a thing, or an idea. Explain that using pronouns correctly will help them write smooth, clear sentences.
2. Display the “Subject and Object Pronouns” activity (🗨️ WA13). Point out the subject pronouns in the word box. Explain that each of these pronouns can take the place of a noun that is the subject of a sentence. Remind the students that the subject of a sentence tells whom or what the sentence is about. Read sentence pair 1 aloud, and identify the subject of each sentence. (*Lilia*) Ask:

**Q** *What do you notice about these sentences?*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

**Students might say:**

"*Lilia* is in both sentences."

"I agree with Dana, and repeating *Lilia* doesn't sound natural."

Allow a few volunteers to respond. If necessary, point out that repeating *Lilia* makes the sentences sound choppy and unnatural. Then explain that to make the sentences sound more natural, we can replace *Lilia* with a subject pronoun. Ask:

**Q** Which pronoun from the word box can we use to replace the name *Lilia*?

After one or two volunteers respond, click *Lilia* to reveal the pronoun *She*. Explain that when you replace a subject that is "one girl, or female," you use the pronoun *she*. Ask:

**Q** If the subject were Patrick instead of *Lilia*, which pronoun would you use? (He)

WA13

**Subject Pronouns:** I You He She It We They

1. *Lilia* wants a parrot. **She** wants one called a cockatiel.
2. Uncle Rick knows a lot about parrots. **He** trains birds.
3. Mom and Dad talk to Uncle Rick. **They** learn that a cockatiel can be a good pet.
4. A cockatiel is friendly. **It** is gentle, too.
5. *Lilia* and I are excited. **We** think of bird names.

3. Repeat the process for the remaining sentence pairs. Explain that:
  - *He* refers to one male—a man or boy, so *He* replaces *Uncle Rick*.
  - *They* refers to more than one person or thing, so *They* replaces *Mom and Dad*.
  - *It* refers to one thing (or animal), so *It* replaces *A cockatiel*.
  - *We* refers to one or more people plus yourself, so *We* replaces *Lilia and I*.

Read the revised sentences aloud. Point out that pronouns make the writing sound more natural.

4. Display the next "Subject and Object Pronouns" activity (WA14). Point out the object pronouns in the word box. Read them aloud, and explain that each of these pronouns can take the place of a noun that is the object of a sentence. Explain that the object of a sentence follows the verb and receives the action of the verb. Object pronouns can also follow words such as *to*, *of*, *from*, or *for*.

**Object Pronouns:** me you him her it us them

1. Lilia loved the parrot right away. She named **it** Perry.
2. Lilia got the parrot from Uncle Rick. She thanked **him** for the birthday gift.
3. Perry has beautiful feathers. We gently touch **them**.
4. Some day Perry might talk to Lilia and me. The bird might even whistle for **us**.
5. Maybe I can teach Perry to say “Happy Birthday” to Lilia. That would surprise **her**.

5. Read sentence pair 1 aloud, and identify the subject and verb in the first sentence. (*Lilia; loved*) Explain that *parrot* is the object of this sentence because a parrot is the thing Lilia loved. The noun *parrot*, which comes after the verb, receives the action of the verb. Point out that *parrot* is repeated in the second sentence. Ask:

**Q** Which pronoun can we use to replace the noun *parrot*?

Give the students a few moments to think, and invite one or two volunteers to respond. Then click *the parrot* to reveal the pronoun *it*. Explain that when you replace an object that is “one thing” or, in this case, “one animal,” you use the pronoun *it*.

6. Repeat this process for the remaining sentence pairs. Explain that:
  - *Him* refers to one man or male, so *him* replaces *Uncle Rick*.
  - *Them* refers to more than one thing or person, so *them* replaces *the feathers*.
  - *Us* refers to one or more people plus yourself, so *us* replaces *Lilia and me*.
  - *Her* refers to one girl or female, so *her* replaces *Lilia*.
7. To explain the use of *I*, *you*, and *me*, write these sentences on the board: *I called you*. *You called me*. Explain that:
  - *I* is used only when you are talking about yourself as a subject; *me* is used only as an object or after a word such as *with* or *to*.
  - *You* can be used as both an object and a subject, and it can take the place of either a singular or a plural noun. As needed, explain that *you* in the sentence *I called you* can refer to one person you are talking to or more than one person.

## GUIDED PRACTICE

8. Display the next “Subject and Object Pronouns” activity (WA15). Tell the students that they will read a story that is missing some words. Explain that you will work together to choose the correct subject and object pronouns to complete the story.

<b>Subject Pronouns:</b>	I	you	She	He	it	We	they
<b>Object Pronouns:</b>	me	you	her	him	it	us	them

Lilia and I play with the parrot a lot. We take Perry out of the cage. Lilia has to clean the cage every week. She doesn't like cleaning it. So sometimes I help her. Dad explains to us that Perry is happier when the cage is clean. Maybe being happy will help Perry learn to talk. I have 350 days left to teach Perry to say “Happy Birthday.” Wish me luck!

WA15

9. Read the first two sentences aloud and ask:

**Q** *Who plays with the parrot? (Lilia and I) Can we use the same words Lilia and I in the second sentence? (Yes.) Would that be the best way to complete this sentence? Why or why not? (No. The sentence would sound choppy because the same words would be repeated. A pronoun would sound better.)*

Help the students identify the correct pronoun by asking:

**Q** *Which pronouns in the word box refer to “one or more people plus yourself”? (we; us) Which pronoun, we or us, should be used to complete the sentence? Why?*

Guide the students to see that because *Lilia and I* is the subject, it should be replaced by the subject pronoun *we*. Drag and drop *We* into the blank.

10. Continue guiding the students through the story, reading the sentences aloud and helping the students choose the correct pronouns as you drag and drop them into the blanks. After all of the pronouns have been placed, read the completed story aloud.

11. Have the students work in pairs to write a paragraph, using at least two subject and two object pronouns.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a bird that they like and why.

## Optional Practice

Have the students complete pages 25–27 in their *Student Skill Practice Books*, independently or in pairs, to practice using subject and object pronouns. Note that page 27 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 27 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### Teacher Note

You might have the students write the rules for when to use subject and object pronouns and provide examples of each in the Proofreading Notes section of their *Student Writing Handbooks*.

---

### ELL Note

In Spanish and some Asian languages such as Chinese and Vietnamese, no distinction between subject and object pronouns exists. For example, the subject pronoun *he* may be used to replace either a subject or an object. Therefore, students from these language backgrounds may need additional practice with subject and object pronouns.

## INTRODUCTION

1. Explain to the students that in this lesson they will learn more about pronouns, or words that take the place of nouns.
2. Display the first “Possessive Pronouns” activity (WA18). Read the pronouns in the word box aloud, and explain that **possessive pronouns** show ownership, or what belongs to someone or something. Remind the students that they already know how to form and use possessive nouns.
3. Read sentence pair 1 aloud, and have a volunteer point out the possessive noun.  
(Kaley’s) Ask:

**Q** *What belongs to Kaley? (a house)*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Explain that one of the possessive pronouns in the word box can take the place of the possessive noun *Kaley's*. Then ask:

**Q** Which possessive pronoun can take the place of *Kaley's*? (*her*)

Click *Kaley's* to reveal *her*. Then reread the two sentences aloud. Point out that the word *her* shows that “one female—a woman or girl” owns something.

WA18

**Possessive Pronouns:** their his our its her

1. Kaley lives in an old yellow house. Suddenly, the lights in **her** house went out.
2. Kaley found a flashlight, but **its** switch was broken.
3. Her little brother Brian cried, and **his** sobbing was loud.
4. Soon Mom lit some candles, and **their** light filled the room.
5. “This is **our** chance to play some fun games together!” Mom said.

4. Repeat the process for the remaining sentences. Tell the students when to use each possessive pronoun:

- *Its* shows that one thing belongs to another.
- *His* shows that one male—a man or boy—owns something.
- *Their* shows that more than one person, place, animal, or thing owns something.
- *Our* shows that something belongs to the speaker and to someone else.

Also explain that:

- The pronoun *my* shows that something belongs to the speaker (for example, *I like my candles*).
- The pronoun *your* refers to something that belongs to just you, or to you and others (for example, *I like your candles*).

5. After the sentences have been completed, invite volunteers to read them aloud. Point to the phrases: *her house*; *its switch*; *his sobbing*; *their light*; *our chance*. Explain that possessive pronouns were placed before each noun to show ownership of that noun. Ask volunteers to identify each of these nouns. (*house*; *switch*; *sobbing*; *light*; *chance*)
6. Display the next “Possessive Pronouns” activity (🔊 WA19) and explain that some possessive pronouns stand alone—they are not followed by a noun. Point to the possessive pronouns in the word box. Then read sentence pair 1 aloud, and explain that a possessive pronoun can be used to replace the possessive noun *Kaley's*. Reread the second sentence aloud. Ask:

**Q** Which possessive pronoun can we use to replace *Kaley's*?

Give the students some time to respond. Click *Kaley's* to reveal *hers*. Explain that, when you replace a possessive noun such as *Kaley's*, that is, “one female—a woman or girl,” you use the possessive pronoun *hers*.

WA19

**Possessive Pronouns:** yours hers his theirs

1. Kaley and Brian play Bingo.  
The Bingo game is **hers**.
2. Next, Brian and Kaley play checkers.  
The checkerboard is **his**.
3. The computer games belong to both Kaley and Brian.  
The computer games are **theirs**.
4. Brian wonders if the puzzle belongs to Kaley.  
“Kaley, is this puzzle **yours**?” Brian asks.

7. Repeat the process with the remaining sentences. Help the students describe when to use each possessive pronoun in the word box:
  - Use *his* to replace one male—a boy or man.
  - Use *theirs* to replace more than one person, place, animal, or thing.
  - Use *yours* to refer to something that belongs to just you, or to you and some other people.

### Teacher Note

You might want to write the following sentences on the board: *The puzzle is mine.*  
*The puzzle is ours.* Then explain that:

- The pronoun *mine* refers to something that belongs to me.
  - The pronoun *ours* refers to something that belongs to me and someone else.
8. After all the sentences have been completed, invite a volunteer to read them aloud.

## GUIDED PRACTICE

9. Display the last “Possessive Pronouns” activity (🗨️ WA20). Explain to the students that next they are going to practice using possessive pronouns.

**Possessive Pronouns:** ours our their theirs

Kaley was the first one outside after the storm. “We have all lost our lights,” she told her family. “The Hines have a big fallen tree in their yard.”

Kaley’s father said, “We are lucky a tree didn’t fall in ours.” Other neighbors had damage to their newly planted flowers and bushes. Mr. and Mrs. Chang lost all of theirs. All of the neighbors agreed to work together to clean up after the storm.

WA20

10. Read the first and second sentences aloud, and ask the students which possessive pronoun they could use in the blank in the second sentence. Invite a volunteer to the whiteboard to drag and drop *our* into the blank and then read the sentence aloud. Ask the students why this pronoun is the correct choice.
11. Repeat the process with the remaining sentences. After all of the pronouns have been placed, invite a volunteer to read the story aloud.

### Teacher Note

If necessary, help the students choose the correct pronoun by asking: “Does the pronoun come before a noun or does the pronoun stand alone?”

12. Have the students work in pairs to write a paragraph using at least three possessive pronouns.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a game they might play if they were stuck inside the house during a storm.

## Optional Practice

Have the students complete pages 28–30 in their *Student Skill Practice Books*, independently or in pairs, to practice using possessive pronouns. Note that page 30 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 30 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### Teacher Note

To help the students use possessive pronouns correctly, you might have them make a chart similar to this one in the Proofreading Notes section of their *Student Writing Handbooks*. Have the students underline the pronouns that can stand alone.

Singular	Plural
my, <u>mine</u>	our, <u>ours</u>
your, <u>yours</u>	your, <u>yours</u>
her, <u>hers</u> , <u>his</u> , its	their, <u>theirs</u>

---

### ELL Note

In Spanish the article *the* is sometimes used instead of some possessive pronouns that precede a noun, for example: “The girl played **the** guitar.” Students with this language background may need additional practice with possessive pronouns.

## INTRODUCTION

1. Remind the students that they already know how to use subject, object, and possessive pronouns to replace nouns. Tell the students that today they will learn more about using these pronouns correctly.
2. Display the “Noun-Pronoun Agreement” activity (📄 WA23). Point out the singular and plural pronouns in the chart. Tell the students that when a pronoun replaces a noun, it must **agree in number** with the noun it is replacing: singular pronouns replace singular nouns, and plural pronouns replace plural nouns. If the noun names “one male—a boy or a man,” then we use *he*, *him*, or *his*; if the noun names “one female—a girl or a woman,” we use *she*, *her*, or *hers*.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

3. Read sentence pair 1 aloud. Identify *Lea* as a noun and the subject of the first sentence. Then ask:

- Q *Is Lea a singular or plural noun? (singular) Is Lea a boy or a girl? (girl)*  
 Q *What pronoun should we use to replace Lea?*

Give the students a few moments to think, and invite a volunteer to respond. Then write the pronoun *She* on the line, and draw an arrow from the pronoun to the noun it replaces. Reread the sentence pair aloud. Explain that the noun *Lea* and the pronoun *She* each name one female, so *She* agrees with the noun *Lea*.

WA23

Singular Pronouns		Plural Pronouns		Possessive Pronouns		
I	it	we	they	my	mine	its
you	me	you	them	your	yours	ours
he	him	us		his	our	theirs
she	her			hers	their	

1. Lea loves the beach. She likes to walk on the sand.

2. Aunt Liz and Uncle Roy go to a beach near their house.

3. Lea's aunt and uncle are kind. They invite Lea to visit.

4. Aunt Liz says, "I (We) can't wait to see you, Lea."

5. Lea is excited and packs her suitcase in no time.

6. Lea finds a book about seashells and puts it in the suitcase.

4. Repeat the process with sentence 2, drawing an arrow from *their* to *Aunt Liz and Uncle Roy* to show how the pronoun *their* refers to two proper nouns. Explain that the proper nouns *Aunt Liz* and *Uncle Roy* and the pronoun *their* all name "more than one person," so *their* agrees with the nouns *Aunt Liz* and *Uncle Roy*.
5. Repeat the process with sentences 3–6, pointing out how each pronoun agrees in number and gender with the noun it replaces or refers to.

As needed, explain that:

- In item 3, we use *They* because the nouns the pronoun replaces name more than one person.
- In item 4, *I* is used to talk about yourself and can replace either a male or a female. Also point out the pronoun *you* in the sentence can replace either a male or female.
- In item 5, we use *her* because the pronoun refers to one female.
- In item 6, we use *it* because the pronoun replaces one thing—a book.

You might invite volunteers to draw an arrow from the pronoun to the noun or nouns it replaces or refers to.

---

### Teacher Note

As you identify the missing pronouns, you might review that the subject pronouns (*She, They, I*) take the place of the subject of the sentence, the object pronoun (*it*) takes the place of a noun that is the object of the sentence, and the possessive pronouns (*their, her*) show ownership.

- When all the pronouns have been placed, invite volunteers to read the sentences aloud. Ask:

**Q** Which pronouns in the chart can be used for either singular or plural nouns? (you, yours)

---

### Teacher Note

If the students have difficulty identifying the pronouns, write sentences on the board such as: *Sandy, you found a beautiful seashell*, and *Jeffrey and Li, you found amazing seashells*. Ask the students to draw arrows from each pronoun to the noun or nouns it refers to.

---

### ELL Note

In Asian languages such as Cantonese and Korean, pronouns and their antecedents do not have to agree in number. Students with these language backgrounds may need additional practice with number agreement of nouns and pronouns.

## GUIDED PRACTICE

- Display the next “Noun-Pronoun Agreement” activity ( WA24). Explain to the students that next they are going to read a story that is missing some pronouns and that you will work together to choose the pronouns that correctly match the nouns they are referring to.

I   My   You   she   her   They   it   them

Sunday morning Lea put on her shorts and a T-shirt.

The girl announced, “I am ready to collect seashells on the beach.”

Lea and Aunt Liz walked on the warm sand. They found small white shells and big brown ones. Lea put them in her red bucket. Then she spotted a perfect pink and white shell and carefully picked it up. “My mom will love this,” Lea said.

“You could make the shell into a necklace, Lea,” Aunt Liz suggested. “That’s a great idea!” Lea shouted.

WA24

8. Read the first sentence aloud and guide the students to identify the missing pronoun. Ask:

**Q** *Which pronoun should you use in the sentence? Why? (her; the pronoun refers to Lea)*

Invite a volunteer to the whiteboard to drag and drop *her* into the blank, and then read the sentence aloud. Remind the students that the pronoun *her* is a possessive pronoun referring to “one female—a woman or girl,” *Lea*.

---

### Teacher Note

As you identify each missing pronoun, you might ask volunteers to tell whether the pronoun is a subject, an object, or a possessive pronoun.

9. Continue guiding the students through the passage, reading the sentences aloud, and inviting volunteers to drag and drop the correct pronouns and explain their choices. After all the pronouns have been placed, invite a volunteer to read the story aloud.

10. Have the students work in pairs to write a paragraph, using at least four pronouns.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a special place they go or would like to go.

## Optional Practice

Have the students complete pages 31–33 in their *Student Skill Practice Books*, independently or in pairs, to practice using noun-pronoun agreement. Note that page 33 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 33 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

### Whiteboard Activities

- “Review” activity (WA27)
- “Review” activity (WA28)
- “Review” activity (WA29)
- “Review” activity (WA30)

## REVIEW

1. Explain to the students that they are going to review what they have learned about nouns and pronouns in Lessons 6–11. Remind students that they have learned how to:
  - Recognize and use singular, plural, and possessive nouns
  - Recognize and use common and proper nouns
  - Recognize and use subject, object, and possessive pronouns
  - Form plural and possessive nouns, and possessive pronouns
  - Choose a pronoun that agrees with the noun it is replacing
2. Display the first “Review” activity (🎯 WA27). Read the definition of a noun aloud, and guide the students in distinguishing between a singular and a plural noun. Point to single items in the classroom, and invite volunteers to supply the plural form (for example, *one desk/two desks*).

A **noun** is a word that names a person, a place, an animal, a thing, or an idea. A noun can be singular or plural. A **singular noun** names one. A **plural noun** names more than one.

- Add *-s* to form the plural of most nouns: **bees, flowers.**
- Add *-es* to nouns that end with *s, x, sh, ch*: **buses, boxes, lunches, wishes.**
- Change the *y* to an *i* and add *-es* to a noun that ends with a consonant + *y*: **story - y + i + es = stories; cherry - y + i + es = cherries.**
- Change the spelling for the plural of some irregular nouns: **mice, geese.**

3. Have different volunteers read aloud each of the four possible ways to form plural nouns. For the first three, invite volunteers to the whiteboard. Have them circle the letter or letters that form the plural and pronounce the singular form of each word. For the irregular nouns, circle the part of each word that changes in spelling. Then have volunteers spell the singular form of each irregular noun. Confirm the students' responses orally.
4. Display the next "Review" activity (WA28). Remind students of the distinction between common and proper nouns. Read the sample sentences aloud, and have volunteers circle the common nouns and underline the proper nouns.

A **common noun** names any person, place, animal, or thing. It does not begin with a capital letter. A **proper noun** names a specific person, place, animal, or thing. It begins with a capital letter.

My favorite city is New York City.

Broadway is the longest street in the city.

You can climb to the top of a famous statue called the Statue of Liberty.

A **possessive noun** shows ownership.

- Add 's to make singular nouns possessive: **the robin's egg.**
- Add an apostrophe after the *s* for plurals that end with *s*: **the robins' nest.**
- Add 's to an irregular plural noun that does not end with *s*: **the children's playground.**

5. Read the definition of a possessive noun aloud. Have volunteers fill in the blanks to form a singular possessive noun using an apostrophe and *s*, a plural possessive noun using an apostrophe after the *s*, and a plural possessive of an irregular noun using an apostrophe and *s*.

6. Have the students work in pairs to choose one item of clothing they are each wearing and show ownership of that item by writing a phrase that includes a possessive noun (for example, *Lucy's sweater* or *Javier's shirt*). Repeat the process, providing a plural noun so that the students may form a plural possessive noun (for example, *the hamsters' cage* or *the students' lunchroom*). Have a few volunteers share their phrases with the class.

### Teacher Note

Remind the students to capitalize the proper nouns and use lowercase for the common nouns in these phrases.

7. Display the next “Review” activity (WA29). Remind the students that a pronoun takes the place of a noun. Read aloud the definition of a subject pronoun and the sample sentence below it. Ask:

**Q** *What is the subject of the sentence? (Bees) Which pronoun can we use to replace this subject? (They)*

Click the word *Bees* to confirm the students’ responses. If necessary, remind them that a pronoun must agree with the noun it is replacing in number. Since *Bees* means “more than one” bee, we use the plural pronoun *They* to take its place.

WA29

A **subject pronoun** replaces a noun that is the subject of a sentence. It tells whom or what the sentence is about.

**They** fly from flower to flower.

An **object pronoun** replaces a noun that receives the action of the verb. It can also follow a word such as *for*, *from*, *to*, or *with*.

A bee gathers pollen from one flower and carries **it** to another flower.

A **possessive pronoun** takes the place of a noun and shows ownership.

A flower uses the pollen to make **its** seeds.

My parents love gardening. That is **their** favorite hobby!

Drawing flowers is **mine**.

8. Read aloud the definition of an object pronoun and the sample sentence below it. Help the students identify the two verbs in this sentence and the noun that receives the action of each one. (*gathers*; *carries*; *pollen*) Then have students decide on the object pronoun that best replaces each one. Since *pollen* is neither a “he” (male) nor a “she” (female), the pronoun *it* is used to replace the noun. Click *pollen* to confirm the students’ responses.

9. Invite a volunteer to read the definition of a possessive pronoun aloud. Help the students identify the possessive pronoun that belongs in each sentence. Click the blanks to confirm the students' responses.
10. Display the last "Review" activity (WA30). Remind the students that a pronoun must agree in number and gender with the noun it is replacing. Read each sample sentence aloud, and invite one or two volunteers to name the pronoun that could replace the underlined noun. Confirm their responses by clicking *Rob and Alexa*, *Rob*, *Alexa*, *Alexa*, and *Rob*.

WA30

A pronoun must **agree in number** with the noun it is replacing. Singular pronouns replace singular nouns. Plural pronouns replace plural nouns.

**They** were playing catch.

**He** heard a bee buzzing.

A pronoun must also **agree in gender** with the noun it is replacing. *She* and *her* replace "one female." *He* replaces "one male."

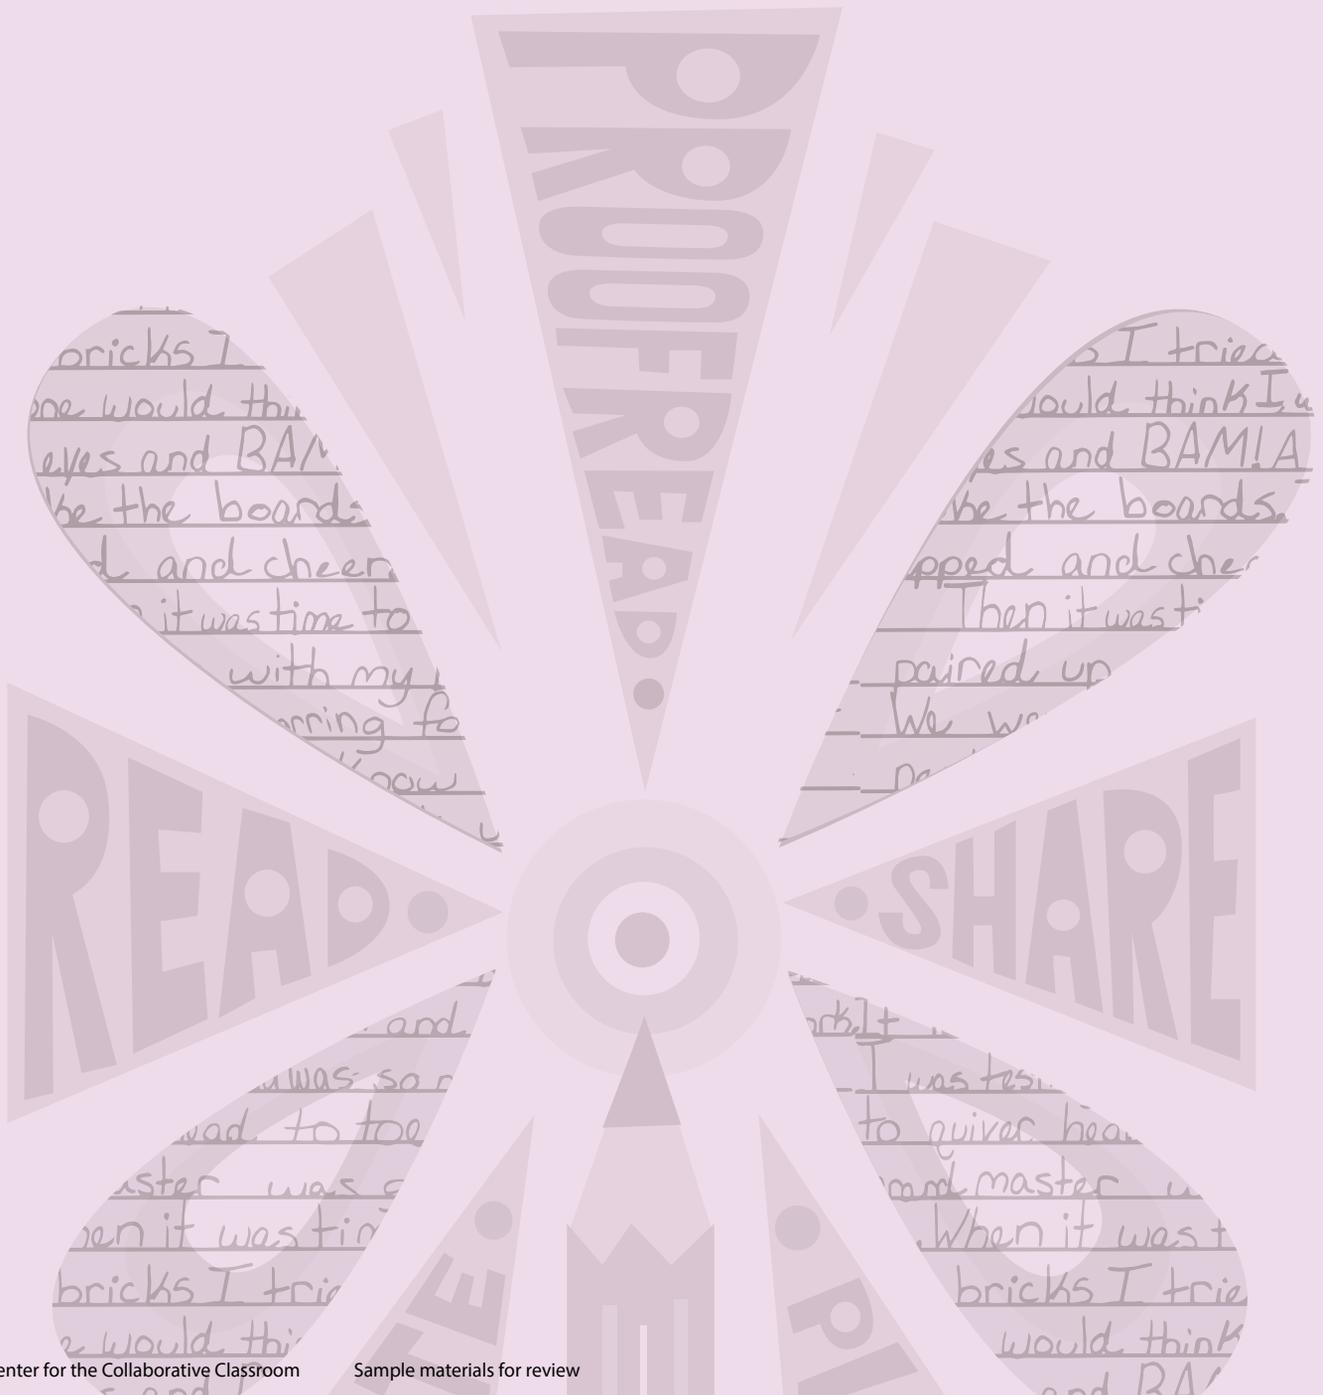

**She** tried to swat the bee away. The bee stung **her**.

**He** went to get the first aid kit.

## Optional Practice

Have the students complete pages 34–36 in their *Student Skill Practice Books*, independently or in pairs, to practice using nouns and pronouns correctly.

- (Optional) “Diagnostic Language Skills Tasks: Class Grouping Report” (DR1)\*

**INTRODUCTION**

1. Explain to the students that in this lesson they will practice recognizing and using **action verbs**, or words that tell what someone or something does. Explain that strong action verbs make writing clear and exciting for the reader.
2. Display the “Verbs” activity ( WA1). Read the first sentence aloud. Have the students identify the simple subject of the sentence. (*monkeys*) Then ask:

**Q** Which word in this sentence tells what the monkeys do? (*play*)

Confirm the answer by clicking *monkeys* and *play* to reveal the labels *S* (for *Subject*) and *AV* (for *Action Verb*). Repeat the process for sentences 2 and 3, clicking the subject and verb in each sentence to check the answers. (*They grab; monkey swings*)

3. Have a student read sentence 4 aloud and identify the subject. (*tail*) Click *tail* to confirm the student’s response. Ask the students which word tells the tail’s action. (*curl*) Then ask:

**Q** What word comes before curl? (*can*)

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

1. The monkeys play in the trees.
2. They grab branches with their hands and feet.
3. One monkey swings with its tail, too.
4. The monkey's tail can curl tightly around a branch.
5. Then the monkey may hang upside down!

Point out that, in this sentence, the word *can* is a part of the verb. Explain that sometimes a verb is made up of two parts: a helping verb and a main verb. The **main verb** describes the action, while the **helping verb** usually comes before the main verb and does not show action. Ask:

**Q** *What is the main verb in this sentence? (curl) What is the helping verb? (can)*

Invite a volunteer to the whiteboard to click *can* and *curl* to reveal the labels *HV* (for *Helping Verb*) and *MV* (for *Main Verb*).

4. Repeat the process for sentence 5, having volunteers identify the subject, helping verb, and main verb. (*monkey; may; hang*)

### Teacher Note

Use this example to explain that, in a question, the helping verb usually begins the sentence, followed by the subject and then the main verb: **Do** monkeys **eat** meat?

Use these examples to point out that sometimes the helping verb and the main verb are separated by a word such as *not* or *also*: *Most monkeys do not eat much meat. They eat fruit. They may also eat nuts.*

## GUIDED PRACTICE

5. Display the next “Verbs” activity (WA2). Explain to the students that they will read a passage about a rainforest animal called the howler monkey. Explain that they will look for all the action verbs in the passage and identify helping and main verbs.

The howler monkey <sup>M</sup>lives<sup>M</sup> in South America. This monkey  
<sup>M</sup>howls<sup>M</sup> loudly. You <sup>H</sup>can<sup>M</sup> hear<sup>M</sup> its howling mostly in the morning  
 and evening. The sound <sup>H</sup>may<sup>M</sup> travel<sup>M</sup> up to three miles!

Howler monkeys <sup>M</sup>eat<sup>M</sup> mostly leaves and fruit. The animals  
<sup>M</sup>protect<sup>M</sup> their food with their loud voices. The sound <sup>M</sup>scares<sup>M</sup> away  
 enemies. Other animals <sup>H</sup>will<sup>M</sup> not <sup>M</sup>steal<sup>M</sup> food from these big, loud  
 monkeys.

6. Read the passage aloud, emphasizing the verbs.
7. Return to the beginning of the passage and read the first sentence aloud. Ask:
- Q *What is the subject of this sentence? (howler monkey) Which word tells what the monkey does? (lives)*

Circle *lives*, and write *M* (for *Main*) above it. Then ask:

Q *Does lives have a helping verb? (No.)*

Repeat the process with the next sentence.

8. Read the third sentence aloud and have a volunteer identify the word that shows action. (*hear*) Then ask:

Q *Does hear have a helping verb? (Yes.) What is it? (can)*

Write *H* (for *Helping*) above *can*, and write *M* (for *Main*) above *hear*. Then circle the phrase *can hear* and remind students that the two words together make up the whole verb in this sentence.

9. Continue working through the passage, having volunteers take turns circling the verbs and writing *H* or *M* above each verb. When you reach the last sentence, circle each verb, and remind the students that a helping verb does not always come right before its main verb. Have a volunteer identify the word that comes between *will* and *steal* in this sentence. (*not*) Then have another volunteer write *H* or *M* above each verb.

10. Have the students work in pairs to write a description, using at least three action verbs and one helping verb.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about an animal.

## Optional Practice

Have the students complete pages 37–39 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying and using verbs. Note that page 39 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

## INTRODUCTION

1. Explain to the students that in this lesson they will learn how to recognize and use linking verbs. Explain that a **linking verb** does not show action. Instead, it helps show what someone or something is or is like. It’s almost like an equal sign in math.
2. Display the “Linking Verbs” activity (🎯 WA5). Read the words in the word box aloud. Explain that these are all forms of the linking verb *be*.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

am is are was were be been

1. I am a boy. I am eight years old.
2. Last Friday was my birthday.
3. My brother Bobby is nine years old.
4. He will be ten in May.
5. Bobby and I were angry with each other last night.
6. We are friends again now.
7. We have been best friends our whole lives.

3. Read the first pair of sentences aloud, and identify the subject in each one. (*I*) Draw a line under each *I*. Then have one or two volunteers identify the linking verb in each sentence. (*am*) Circle *am* and draw an equal sign above it in both sentences. Ask:

Q Which words tell what *I* equals in the first sentence? (a boy)

Q Which words tell what *I* equals in the second sentence? (eight years old)

Draw a double line under *a boy* and *eight years old*.

4. Repeat the process for the rest of the sentences. For numbers 4 and 7, point out that, like action verbs, linking verbs can be made up of a helping verb and a main verb. Invite one or two volunteers to identify the helping verb and the main verb in each sentence. (*will, be; have, been*)
5. After working through all of the sentences, point out that the forms of the verbs *be* and *have* change depending on the subject.

### Teacher Note

You may wish to create and post the chart below to help explain the forms of the verb *be* and *have*.

<u>I</u>	<u>am, was</u>	<u>have</u>
after a helping verb	<u>be, been</u>	

6. Display the next “Linking Verbs” activity (WA6). Read the verbs in the word box aloud. Explain that some linking verbs link the subject to words that tell how they look, sound, smell, taste, or feel.

looks

seems

1. My baby sister looks cute.
2. I feel happy when I see her.
3. Her baby powder smells sweet.
4. Her baby talk sounds lively.
5. She seems tiny, but she's strong.

7. Read the first sentence aloud. Have the students identify the subject. (*My baby sister*)  
Then ask:

**Q** *What does the word cute tell you about the subject? (how she looks)*

Drag and drop *looks* into the blank. Then read the sentence aloud. Ask:

**Q** *What does the sister equal? (cute)*

8. Repeat the process for sentences 2–5.

## GUIDED PRACTICE

9. Display the last “Linking Verbs” activity (WA7). Explain to the students that they will read a passage about twin sisters. As they read, they will look for linking verbs and the words that are linked together by them.

My cousins Cleo and Claire are twins. They look exactly alike!

Sometimes I mix them up, but the twins are very different.

Cleo is good at sports. She has been a soccer player since  
second grade. Last year Cleo was the best player on her team.

She kicked ten goals. We were very proud.

Claire is an artist. She paints beautiful pictures. When I am  
sad, I look at them. Then I feel better. Her paintings will be  
famous someday.

10. Have the students follow along as you read the passage aloud. Ask them to listen carefully for the verbs.
11. Return to the first sentence. Read it aloud and have a volunteer identify the verb. (*are*) Invite the volunteer to the whiteboard to draw a circle around *are*. Then ask:  
**Q** *Is are an action verb or a linking verb? (linking)*  
Have the volunteer draw an equal sign above *are*. Ask:  
**Q** *What is are linking? Or, what do My cousins Cleo and Claire equal? (twins)*  
Draw a single line under *My cousins Cleo and Claire*, and draw a double line under *twins*.
12. Continue working through the passage, having volunteers identify all of the linking verbs and the words they connect as you circle or underline them. Discuss why each form of the verb *be* or *have* was used in each sentence.

---

### Teacher Note

Make sure that students understand that, in the third to the last sentence, *look* is an action verb, not a linking verb. Point out that *look* functions as an action verb when it is used with *at*.

13. Have the students work in pairs to write a short paragraph, using at least three linking verbs.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that partners write a paragraph in which they compare themselves to each other.

## Optional Practice

Have the students complete pages 40–42 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying and using linking verbs. Note that page 42 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 42 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

In Spanish the verb *have* can be used the way *be* is used in English. The Spanish equivalent of “I am eight years old” is “I have eight years.” Therefore, Spanish-speaking English Language Learners may need extra help understanding the verb *be*.

## INTRODUCTION

1. Explain to the students that they will practice recognizing and using verb tenses. Explain that a verb tense tells when the action in a sentence takes place.
2. Display the “Simple Verb Tenses” activity (🎯 WA10). Read aloud the words *present*, *past*, and *future*. Explain that the **present tense** tells about something that is happening now, the **past tense** tells about something that has already happened, and the **future tense** tells about something that will happen. Ask, pausing after each question for a volunteer to respond:

**Q** *If you wanted to write about something that happened yesterday, which tense would you use? (past) Which would you use to write about something that is going to happen tomorrow? (future) Which would you use to write about something going on right now? (present)*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Present	Past	Future
learn	learned	will learn

Yesterday we learned about Antarctica. Explorers first landed there in 1821. They discovered few animals or plants.

Today many people visit Antarctica. Scientists work there all year long. They learn about the land and weather.

Tomorrow my class will learn how animals survive in Antarctica. We will study penguins and whales.

3. Explain to the students that they will read a passage about Antarctica. If necessary, point out Antarctica on a map or globe and explain that Antarctica is a continent, or a very big area of land, and is the coldest place on Earth.
4. Read the passage aloud, having the students listen and look for the past-, present-, and future-tense forms of *learn* as you read. Click the words to confirm the students' responses as they identify each one. Explain that using verb tenses to clearly show the order of events helps make the passage easier for readers to follow.
5. Return to the first sentence and point out the *ed* ending in *learned*. Explain that the past tense of many verbs is formed by adding *-ed*. Have one or two volunteers identify the two other past-tense verbs in the paragraph. (*landed*; *discovered*) Confirm the students' responses by clicking the verbs to reveal the label *past*.
6. Read the second paragraph aloud. Have volunteers take turns locating all the present-tense verbs in the paragraph. (*visit*; *work*; *learn*) Confirm the students' responses by clicking the verbs to reveal the label *present*.

### Teacher Note

Explain that the present tense is used to show not only something happening at this very moment, but something that happens regularly. Ask the students whether in this paragraph *today* means *just on this day or every day*. (*every day*)

7. Read the third paragraph aloud. Ask the students what has been added in front of *learn* to form the future tense. (the helping verb *will*) Explain that the future tense of almost all verbs is formed by adding *will* before the present-tense form of the verb. Have a volunteer locate the other future-tense verb in the paragraph. (*will study*) Confirm by clicking *will study* to reveal the label *future*.

## GUIDED PRACTICE

8. Display the next “Simple Verb Tenses” activity (🗨️ WA11). Explain to the students that they will read each sentence and choose the correct verb tense to complete it.

WA11

watch    watched    will watch

1. Yesterday I watched a show about penguins.

hunt    hunted    will hunt

2. Right now the penguins hunt for fish in the water.

turn    turned    will turn

3. Next month the water will turn to ice.

9. Read aloud the first sentence and the three verb choices above it. Ask:

**Q** Which verb tense do you think we should use in this sentence? (past) Why? (The action happened yesterday.)

Invite a volunteer to identify the past-tense form of the verb. (*watched*) Drag and drop it into the blank.

10. Repeat the process for the remaining sentences.

11. Have the students work in pairs to write a short paragraph, using each verb tense at least once.

### Teacher Note

If the students have difficulty thinking of a topic, suggest that they write a paragraph about something they have learned in school, something they are currently learning, and something they expect to learn.

## Optional Practice

Have the students complete pages 43–45 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying and using simple verb tenses. Note that page 45 can be scored, allowing you to assess how well each student understands the lesson skill.

### ELL Note

In Chinese, Hmong, and Vietnamese, verbs do not change forms to show different tenses. Additionally, in Haitian Creole and Spanish, the present tense can be used for the future tense. Verb tense is usually shown through time words and other context clues. For example:

- “When I live [instead of *lived*] in Cuba, I speak [instead of *spoke*] only Spanish.”
- “I go [instead of *will go*] to a new school next fall.”

## INTRODUCTION

1. Explain to the students that in this lesson they will practice forming and using past-tense verbs. Review present-tense verbs by asking:

**Q** *When do we use the present-tense form of a verb? (when we are writing about something that is happening right now)*

2. Display the first “Regular and Irregular Past-tense Verbs” activity (WA14). Remind the students that the past tense tells about something that has already happened. Many past-tense verbs are formed by adding *-ed*. Point to the first example in the box, and have the students read it aloud. (*learn + ed = learned*)

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Point to the next example, and explain that sometimes you have to make another spelling change before you add *-ed*. Ask:

**Q** *What spelling change must you make when you add -ed to stop? (You add another p.)*

Explain that, if a word has a short vowel sound and ends with a single consonant, like *stop* does, you double the consonant before adding *-ed*.

WA14

learn + ed = learned
stop + ed = stopped (double the final <i>p</i> )
move + ed = moved (drop the final <i>e</i> )
hurry + ed = hurried (change the <i>y</i> to <i>i</i> )

1. We **studied** earthquakes in class.
2. In 1906 an earthquake **ripped** apart the city of San Francisco.
3. The ground **moved** and **cracked**.
4. A huge fire **started** after the earthquake.

3. Use *move/moved* and *hurry/hurried* to explain:

- If a word ends with a silent *e*, drop the silent *e* before adding *-ed*.
- If a word ends with *y*, change the *y* to *i* before adding *-ed*.

### Teacher Note

Have the students write the rules for adding *-ed* in the Proofreading Notes section of their *Student Writing Handbooks*.

4. Read sentence 1 aloud, and have a volunteer identify the past-tense verb. (*studied*) Then ask:

**Q** *What is the present-tense form of studied? (study)*

Confirm the answer by clicking *studied* to reveal *study*. Ask, pausing after each question for a volunteer to respond:

**Q** *How did the spelling of study change when -ed was added? What word in the box has a similar spelling change?*

**Students might say:**

"The *y* was changed to *i* before the *-ed* was added."

"I agree with Katya. That's exactly what happened with *hurry*."

5. Repeat the process for sentences 2–4.

6. Display the next "Regular and Irregular Past-tense Verbs" activity (WA15). Explain that not all past-tense verbs end with *ed*.

**Irregular past-tense verbs** have completely different forms in the past tense, which need to be learned and remembered. Point to each verb pair in the chart, and have the students read the present- and past-tense forms with you.

WA15

<b>Present</b>	do	come	go	feel	shake	run	fall
<b>Past</b>	did	came	went	felt	shook	ran	fell

1. In 1989 another earthquake **shook** San Francisco.
2. The earthquake **did** a lot of damage.
3. Buildings and even freeways **fell** down.
4. People **felt** the earthquake many miles away.

7. Read sentence 1 aloud, and have a volunteer identify the verb. (*shake*) Explain that this sentence is about something that took place many years ago, so *shake* needs to be changed to the past tense. Ask:

**Q** *What should we change shake to in order to make it tell about the past?* (shook)

Invite a volunteer to the whiteboard to click *shake* to change to the past-tense verb *shook*. Then repeat the process for sentences 2–4.

## GUIDED PRACTICE

8. Display the last “Regular and Irregular Past-tense Verbs” activity (🕒 WA16). Explain to the students that you will work together to read each sentence and choose the correct past-tense form of the verb to complete the sentence.

WA16

	startid	started	startd
--	---------	---------	--------

1. The 1906 earthquake started at 5:12 in the morning.  
(start)

	runned	ranned	ran
--	--------	--------	-----

2. People ran out into the streets.  
(run)

	carried	carryed	carryied
--	---------	---------	----------

3. Parents carried their children.  
(carry)

	racedd	raced	racedd
--	--------	-------	--------

4. Everyone raced for safety.  
(race)

9. Read aloud the first sentence and the answer choices in the word box. Ask:

**Q** *What is the correct way to form the past tense of start? (add -ed) So, which word belongs in the sentence? (started)*

Invite a volunteer to drag and drop *started* into the blank.

10. Repeat the process for the rest of the sentences, discussing how the past tense is formed in each case. If necessary, for number 2, remind the students that *run* is an irregular verb and, therefore, does not end with *ed*.

11. Have the students work in pairs to write a short paragraph using three past-tense verbs.

---

### Teacher Note

If the students have difficulty thinking of a topic, suggest that they write about something scary or exciting that happened to them recently.

## Optional Practice

Have the students complete pages 46–48 in their *Student Skill Practice Books*, independently or in pairs, to practice forming and using past-tense verbs. Note that page 48 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 48 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

### ELL Note

Irregular past-tense verbs may present a particular challenge for English Language Learners. You may wish to create and post additional past-tense forms for reference:

Present	Past

write	wrote
begin	began
make	made
find	found
tell	told
give	gave
ride	rode

## INTRODUCTION

1. Explain to the students that in this lesson they will learn how to make the subject of a sentence match its verb.
2. Display the first “Subject-Verb Agreement” activity (WA19). Read the two sample sentences aloud. Help the students identify the simple subject and simple predicate in each one. (*flower/blooms; flowers/bloom*) If necessary, remind the students that the subject tells whom or what the sentence is about, and the predicate tells what the subject does or is.

Have the students compare the subject and verb in the two sentences. Ask:

**Q** *How is the subject in the second sentence (flowers) different from the subject in the first? (An s was added; now it is plural. It tells about more than one flower.)*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

**Q** How is the verb in the second sentence (bloom) different from the verb in the first? (The *s* was dropped.)

Ask the students why they think the verb changed. Invite a few volunteers to respond. As necessary, explain that the verb changed because a verb must agree in number with its subject. Also explain:

- When the subject of a sentence tells about one person or thing, an *-s* or *-es* is usually added to the end of the verb.
- When the subject tells about more than one person or thing, or is the pronoun *I* or *you*, an *-s* or *-es* is not added to the verb.

WA19

One flower blooms.

Many flowers bloom.

1. The **rose grows** on a bush.
2. The **bud opens**.
3. The **petal pushes** out.
4. The **bee flies** to the flowers.

3. Read the first sentence aloud. Have the students identify the subject. (*roses*) Ask:

**Q** Does roses tell about one or more than one? (*more than one*)

**Q** Which word tells what the roses do? (*grow*)

Click *roses*, changing it to *rose*. Explain that it is now singular; it tells about just one. Ask:

**Q** What do you think needs to happen to grow now? (*An -s should be added.*)

Click *grow*, changing it to *grows* to confirm the answer. Then read the new sentence aloud.

4. Repeat the process for sentence 2. For sentences 3 and 4, explain that:

- An *-es* is added to a verb ending with *sh* (as in *push*), *ch*, *zz*, *ss*, or *x*.
- In a verb ending with a consonant + *y* (as in *fly*), the *y* is changed to *i* before *-es* is added.

5. Display the next “Subject-Verb Agreement” activity (WA20). Read the first pair of sentences aloud, and have a volunteer identify the subject and verb in each one. (*daisy/is; It/has*) Click *daisy* and *It* to reveal *daisies* and *They*. Ask:

**Q** What do you think needs to happen to the verbs now?

Invite a volunteer to respond. Then click *is* to reveal *are*. Explain that *is* and *are* are present-tense forms of the verb *be*, which is irregular. When the subject of a sentence is singular, use *is*. When the subject is plural, use *are*.

Then click *has*, changing it to *have*. Explain that *has* and *have* are also irregular. When the subject of a sentence is singular, use *has*. When the subject of a sentence is plural, use *have*. Read both of the new sentences aloud.

1. The **daisies are** tall. **They have** white petals.
2. **I am** planting flowers. **You are** helping.
3. **I have** dug three holes. **You have** put seeds in them.

WA20

6. Repeat the process for the next two pairs of sentences, pointing out that *be* and *have* can also be helping verbs. Explain that when an action is made up of a helping verb and a main verb, the helping verb must agree with the subject. Also use the sentences to explain that:
  - *Am* is used instead of *is* or *are* when the subject of a sentence is *I*.
  - *Are* is used when the subject is *you*—whether *you* stands for one person or more than one.
  - *Have* is used instead of *has* when the subject is *I* or *you*.

### Teacher Note

You may want to point out that *be* is also irregular in the past tense. Explain that:

- *Was* is used when the subject is singular or the pronoun *I*.
- *Were* is used when the subject is plural or the pronoun *you*.

## GUIDED PRACTICE

7. Display the next “Subject-Verb Agreement” activity (WA21). Tell the students that they will read a passage about planting a flower garden. Explain that you will work together to choose the correct form of the verb to complete each sentence.

My teacher (is, are) planting a flower garden at school.

I (is, am) helping her. We (is, are) growing roses, tulips, and daisies. I (like, likes) the roses. But the stems (has, have) thorns. They always (pricks, prick) me!

The garden (needs, need) a lot of water and sun. The sun (has, have) shone all week. So now my teacher (wish, wishes) for rain. If we don't get any, we will use a hose. It (reaches, reach) just far enough.

WA21

8. Read the first sentence aloud. Invite a volunteer to identify the subject and to say whether it tells about one or more than one. (*teacher*; one) Underline *teacher*. Then explain that the action in this sentence has a helping verb and a main verb, but the helping verb is missing. Read the choices aloud and ask:

**Q** Which of these goes with a subject that tells about one person or thing? (is)

Invite a volunteer to the whiteboard to circle *is*.

9. Continue working through the passage, having volunteers take turns underlining the subjects and circling the verbs that agree with them.
10. After all the correct verbs have been circled, read the completed passage aloud.
11. Have the students work in pairs to write at least three sentences, using correct subject-verb agreement with singular and plural subjects.

---

### Teacher Note

If the students have difficulty thinking of a topic, suggest that they write about a flower or tree that they like.

## Optional Practice

Have the students complete pages 49–51 in their *Student Skill Practice Books*, independently or in pairs, to practice using correct subject-verb agreement. Note that page 51 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 51 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

In Chinese, Korean, Hmong, Vietnamese, and Haitian Creole, verbs have the same form regardless of whether the subject is singular or plural. Students from these language backgrounds, therefore, will likely need additional support and practice with subject-verb agreement.

---

### Teacher Note

You might have the students write the rules for subject-verb agreement, along with examples, in the Proofreading Notes section of their *Student Writing Handbooks*.

## Whiteboard Activities

- “Review” activity (WA24)
- “Review” activity (WA25)
- “Review” activity (WA26)

## REVIEW

1. Explain to the students that they are going to review what they have learned about verbs in Lessons 13–17. Remind students that they have learned how to:
  - Identify and use action and linking verbs
  - Identify and use main and helping verbs
  - Identify and form past, present, and future tenses
  - Make subjects and verbs agree

2. Display the “Review” activity (WA24) and read the definition of an action verb aloud. Then invite a volunteer to read the sample sentences aloud. Ask:

**Q** *What are the action verbs in these sentences? (hits; cheer)*

Confirm the response by clicking *hits* and *cheer*. Then ask:

**Q** *Why does the verb hits have an s at the end, but cheer doesn't? (Because the subject of the first sentence—Gabriella—is singular, and the subject of the second sentence—teammates—is plural.)*

Check the response by clicking *Gabriella* and *teammates* to reveal *SS* (for *Singular Subject*) and *PS* (for *Plural Subject*). Then review that, when the subject is singular, the verb usually ends with *s* or *es* in the present tense; when the subject is plural (or is the pronoun *I* or *you*), the verb does not end with *s* or *es*.

An **action verb** tells what someone or something does. The verb must **agree in number** with its subject.

Gabriella <sup>SS</sup> hits <sup>AV</sup> the baseball. Her <sup>PS</sup> teammates <sup>AV</sup> cheer.

An action verb can have two parts—a main verb and a helping verb. The helping verb usually comes before the main verb and does not show action.

Gabriella <sup>HV</sup> can <sup>MV</sup> run fast. She <sup>HV</sup> has <sup>MV</sup> reached third base.

3. Read the information about main and helping verbs aloud. Then invite a volunteer to read the sample sentences aloud. Have other volunteers identify the main verb and helping verb in each sentence. Click *can*, *run*, *has*, and *reached* to reveal the labels *HV* (for *Helping Verb*) and *MV* (for *Main Verb*).

4. Remind the students that the helping verb and the main verb can be separated by another word, such as *not*, *never*, or *also*. Have the students work in pairs to rewrite each of the two sentences, using *not*, *never*, or *also*. Invite a few volunteers to share their sentences.
5. Display the next “Review” activity (WA25). Read aloud the definition of a linking verb and the first two sample sentences. Ask:

**Q** *What are the linking verbs in these sentences? (is; feels)*

Confirm the answers by clicking *is* and *feels* to reveal *LV* (for *Linking Verb*). Remind the students that the linking verb *is* is a form of the verb *be*. Have them recall when the linking verb *is* is used. (when the subject is singular, or names one person or thing) Then ask:

**Q** *What form of be is used if the subject is the pronoun I? (am) What form is used if the subject names more than one person or thing, or is the pronoun you? (are)*

A **linking verb** connects the subject to words that tell what the subject is or is like.

Gabriella <sup>LV</sup> is a good player. She <sup>LV</sup> feels proud.

Linking verbs can also have main and helping verbs.

The game <sup>HV</sup> will <sup>MV</sup> be over soon. It <sup>HV</sup> has <sup>MV</sup> been a fun game.

6. Read the second point aloud, and have volunteers identify the main and helping verb in each sample sentence. Click *will*, *be*, *has*, and *been* to confirm the answers.

7. Display the final “Review” activity (🎤 WA26). Invite a volunteer to read aloud the definition of the present tense and to identify the present-tense verbs in the sample sentences. Click *catches* and *yell* to confirm the answers.

Review the rule for subject-verb agreement by asking:

- Q *Why does the verb catches end with es? (Because its subject—Louis—is singular, and because the word ends with ch.)*
- Q *Why doesn't the verb yell end with s or es? (Because its subject—friends—is plural.)*

WA26

A **present-tense** verb tells about something happening now.

present-tense verb      present-tense verb  
Louis catches the ball. His friends yell, “Hooray!”

A **past-tense** verb tells about something that has already happened.  
Some verbs form the past tense by adding *-ed*. Others are irregular.

past-tense verb      past-tense verb  
The game ended. People in the stands clapped.

past-tense verb      past-tense verb  
The players shook hands. They ran off the field.

A **future-tense** verb tells about something that is going to happen.  
It includes the helping verb *will*.

future-tense verb  
The two teams will play again next week.

8. Have a volunteer read the definition of the past tense aloud. Invite other volunteers to take turns identifying the past-tense verb in each of the sample sentences. Click *ended*, *clapped*, *shook*, and *ran* to confirm the answers. Have each volunteer also name the present-tense form of the verb. (*end*, *clap*, *shake*, *run*) Guide the students to see that *shook* and *ran* are irregular past-tense verbs. Challenge the students to list other irregular past-tense verbs they know and their present-tense forms. You may also want to review the spelling rules for adding *-ed*:
- If a word ends with a consonant after a short vowel, double the consonant.
  - If a word ends with a consonant + *y*, change the *y* to *i*.
  - If a word ends with silent *e*, drop the silent *e*.
9. Have the students read aloud the definition and sample sentence for future-tense verbs with you. Have a volunteer identify the future-tense verb. Then click *will play* to confirm the answer.

## Optional Practice

Have the students complete pages 52–54 in their *Student Skill Practice Books*, independently or in pairs, to practice using verbs correctly.

## INTRODUCTION

1. Tell the students that in this lesson they will practice identifying different types of adjectives. Explain that **adjectives** are words that describe, or tell more about, nouns or pronouns. Explain that a good writer uses colorful adjectives to help readers get a clear picture of what is being described.
2. Display the first “Adjectives” activity (WA1). Explain that adjectives can describe many things, such as size, shape, or color; they can tell how something looks, sounds, smells, feels, or tastes. Then have the students read aloud the examples in the chart with you.
3. Read the paragraph aloud. Then return to the first sentence and have a volunteer identify the adjective in it. (*yummy*) Circle *yummy*. Then have another volunteer

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

identify the noun that it describes. (*cake*) Draw a line under *cake*. Point out that an adjective often comes right before the word it tells about. Then ask:

**Q** *Where would you put this adjective in the chart? What does it tell about?*

Give the students a few moments to think, and have a volunteer respond. As necessary, point out that *yummy* could describe either how the cake smells or how it tastes.

WA1

Looks	Sounds	Smells	Feels	Tastes
yellow	crunchy	flowery	sticky	sour

On my birthday I had a yummy cake. It was round. It smelled

sweet I dipped my finger into the smooth, creamy frosting.

I dug in, and my fork made a loud, squeaky sound against the plate.

4. Have the students identify the adjective in the next sentence. (*round*) Point out that there is no noun in this sentence and ask:

**Q** *What word does the adjective tell about in this sentence? (It) What noun does the pronoun It replace? (cake)*

Underline *It* and circle *round*. Guide the students to see that, in this sentence, the adjective is *not* right before the word it describes; it comes after a linking verb. Then have one or two volunteers tell which column of the chart they would put *round* in and explain why. (the Looks column, since it describes a shape)

5. Repeat the process with the rest of the paragraph. For sentence 3, point out that the verb *smelled* is also a linking verb.

### Teacher Note

Use sentences 4 and 5 to explain that, when you list two or more adjectives in a row before a noun, you often put a comma between the adjectives. However, you do not put a comma between the last adjective and the noun.

6. Display the second “Adjectives” activity (WA2), and explain that adjectives can also tell *how many* or *how much* you have of something. Then have the students read aloud the examples in the chart with you. Explain that *three* is in the How Many column because it tells a number that you can count, while *some* is in the How Much column because it describes an amount that can’t be counted.

How Many	How Much
<u>three</u> cookies	<u>some</u> flour

how many There were six cookies on a plate. They had how many a few raisins in  
how much them. A little sugar was sprinkled on top. They also had how many some nuts.

7. Read the paragraph aloud. Then return to the first sentence and point out the underlined adjective. (*six*) Ask:

**Q** *What does six describe? (cookies) Does six tell how many or how much? (how many)*

Click *six* to confirm the answer.

8. Repeat the process with the rest of the paragraph. For sentences 2 and 4, help the students understand that, even though *a few* and *some* do not give exact numbers, they still describe *how many* rather than *how much* because the number of raisins and nuts is countable. You can't, however, count sugar; you can only tell how much of it you have (for example, *a little*).

## GUIDED PRACTICE

9. Display the third “Adjectives” activity (🕒 WA3). Explain to the students that they will work together to complete the story by choosing the correct adjectives from the word box.

one
crunchy
purple
hot
soft
a little

The loaf of bread was still hot from the oven. Dad cut one slice for each of us. The crust was hard and crunchy, but the inside was soft and chewy. I spread a little butter on my slice. Then I added some purple jam. Yum!

10. Have the students read the adjectives aloud. Then read the first sentence of the story aloud. Ask the students which word in the word box might describe a loaf of bread that just came out of the oven. (*hot*) Invite a volunteer to the whiteboard to drag and drop *hot* into the blank.
11. Repeat the process for the rest of the story, helping the students use context clues to decide where to put each word. After all of the words have been chosen, read the completed story aloud. Invite volunteers to tell whether each adjective describes how something looks, feels, tastes, sounds, or smells, or whether it tells *how many* or *how much*.
-  12. Have the students work in pairs to write at least three sentences, using adjectives that tell what kind, how many, or how much.

---

### Teacher Note

If the students have difficulty thinking of a topic, suggest that they write a description of their favorite fruits.

## Optional Practice

Have the students complete pages 55–57 in their *Student Skill Practice Books*, independently or in pairs, to practice using adjectives correctly. Note that page 57 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 57 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### Teacher Note

You might have the students write a chart showing kinds of adjectives, along with examples of each kind, in the Proofreading Notes section of their *Student Writing Handbooks*.

---

### ELL Note

In Spanish, Hmong, and Vietnamese, an adjective immediately follows, rather than precedes, the noun it describes. You may therefore need to provide extra support to students from these language backgrounds.

## INTRODUCTION

1. Tell the students that in this lesson they will practice using adjectives to compare. Explain that adjectives have special forms that can be used to show how two or more people, places, animals, or things are different.
2. Display the “Comparative and Superlative Adjectives” activity (WA6) and read the two rules aloud. Then read the first sentence aloud. Have the students identify the adjective. (*fast*) Ask:

**Q** *If we wanted to describe the speed of something else, such as an airplane, what could we say? How could we compare it to a car’s speed?*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Invite one or two volunteers to respond. Then read the second sentence aloud, and have the students supply the missing word. (*faster*) Click the blank to change it to *faster*. Point out that because the airplane is being compared to only one other thing (a car), *-er* was added.

WA6

Add *-er* to compare one thing to another.

Add *-est* to compare one thing to two or more others.

1. A car is fast.
2. An airplane is faster than a car.
3. A rocket is the fastest of all three.
4. An airplane is big, but a rocket is bigger.
5. All the cars are shiny, but this one is the shiniest.

3. Read the next sentence aloud. Ask:

**Q** *Now what word goes in the blank? (fastest) Why? (Because the rocket is being compared to two other things.)*

Invite a volunteer to respond. Then click the blank to change it to *fastest*.

4. Use a similar process for sentences 4 and 5, reminding the students that some words require a spelling change when an ending is added. Explain:
  - If an adjective ends with a consonant after a short vowel, double the consonant before adding *-er* or *-est* (as in *big/bigger*).
  - If an adjective ends with a consonant + *y*, change the *y* to *i* before adding *-er* or *-est* (as in *shiny/shiniest*).
5. Display the next “Comparative and Superlative Adjectives” activity (WA7). Explain that not all adjectives that compare are formed by adding *-er* or *-est*. Read aloud the forms of *good* as you point out that it changes to *better* and *best* instead of *gooder* and *goodest*. Then point to *more* and *most* as you explain that, when an adjective is a long word, such as *interesting* or *important*, you use *more* or *most* instead of adding *-er* or *-est*. Then ask:

**Q** *Why do you think we use more or most with a long word, such as interesting or important, instead of adding -er or -est?*

**Students might say:**

“It would be hard to say *interestinger* or *importanter*.”

“I agree with Liam. It would be hard to say *interestingest*, too. It’s easier to say *more* or *most interesting*.”

good

1. This book about cars is good. It is interesting.
2. This book about boats is better than that one.  
It is more interesting.
3. This book about trains is the best of all. It is  
the most interesting.

6. Read the first pair of sentences aloud, and have the students identify the adjectives in them. (*good*; *interesting*) Then read the second pair of sentences aloud. Ask:

**Q** *How many books are being compared? (two) Which form of good should we use? (better)*

Drag and drop the word *better* into the blank. Then ask:

**Q** *Which word should come before interesting? (more)*

Drag and drop *more* into the blank.

7. Use a similar process for the third pair of sentences.

### Teacher Note

You may want to introduce the irregular forms of *bad/worse/worst* and invite the students to make up sentences using each of these words.

## GUIDED PRACTICE

8. Display the last “Comparative and Superlative Adjectives” activity (WA8). Explain to the students that they will work together to read each sentence and choose the correct form of the adjective in parentheses.

1. A ship is (larger, largest) than a rowboat.
2. A bus has (fattest, fatter) tires than a bicycle.
3. A plane is the (best, goodest) way to get somewhere fast.
4. This is the (curviest, curvier) road I have ever been on.
5. On a bike, safety is (importanter, more important) than going fast.

9. Read the first sentence aloud, including the answer choices. Ask:

**Q** Which word should be used to compare a ship and a rowboat—larger or largest? (larger)  
Why? (Because only one thing is being compared to another.)

Invite a volunteer to respond. Then circle the word *larger*.

10. Repeat the process for the remaining sentences.

11. Have the students work in pairs to write three sentences, using adjectives that compare. One sentence should include a form of the word *good*.

---

### Teacher Note

If the students have difficulty thinking of a topic, suggest that they write a comparison of two or more vehicles, such as a car, a truck, and a tractor.

## Optional Practice

Have the students complete pages 58–60 in their *Student Skill Practice Books*, independently or in pairs, to practice using comparative and superlative adjectives. Note that page 60 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 60 in their *Student Skill Practice Books* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

In Hmong, Korean, and Spanish, adjectives do not change forms to show a comparison. Therefore, students from these language backgrounds may need additional practice adding *-er* and *-est* to adjectives.

## INTRODUCTION

1. Explain to the students that in this lesson they will learn how to use **adverbs**, or words that tell more about a verb, to make their writing stronger. If necessary, remind the students that a verb tells what someone or something does or is.
2. Display the first “Adverbs” activity (WA11). Tell the students to listen carefully as you read the paragraph aloud. Ask them to notice the verbs and to pay attention to any words that tell *how*, *when*, or *where* something happens.

Minna <sup>V</sup>crept <sup>A</sup>quietly up the stairs. <sup>A</sup>Slowly, she <sup>V</sup>opened the  
attic door. She <sup>V</sup>peeked <sup>A</sup>inside. <sup>A</sup>Soon she <sup>V</sup>heard a noise.

WA11

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

3. Return to the beginning of the paragraph and reread the first sentence aloud. Have a volunteer identify the verb. (*crept*) Click *crept* to reveal the label V (for *Verb*). Then ask:
 

**Q** Which word in this sentence tells how Minna crept? (quietly)

Click *quietly*, revealing the label A (for *Adverb*). Explain that *quietly* is an adverb that tells *how*, and that many adverbs that tell *how* end with *ly*. Repeat the process with the second sentence, using *slowly* and *opened* to point out that an adverb can come either before or after the verb it tells about.
4. Read the third sentence aloud, and have a volunteer identify the verb. (*peeked*) Click *peeked* to confirm the answer. Then ask:
 

**Q** Which word in this sentence tells where Minna peeked? (inside)

Click *inside* to reveal the label A (for *Adverb*) and explain that *inside* is an adverb that tells *where*. Point out that most adverbs that tell *where* do not end with *ly*.
5. Use a similar process for the fourth sentence. Explain that *soon* is an adverb that tells *when*. Point out that adverbs that tell *when* often come at the beginning of a sentence.

### Teacher Note

You may want to help the students brainstorm other adverbs that tell *how*, *when*, and *where*, such as:

How	When	Where
quickly	today	outside
loudly	tomorrow	here
sadly	suddenly	there
softly	later	away
nicely	next	down

## GUIDED PRACTICE

6. Display the next “Adverbs” activity (🎯 WA12). Explain to the students that they will read each sentence and choose the best adverb from the word box to complete the sentence.
7. Read the adverbs in the word box aloud. Then read the first sentence aloud, pointing out the word *how* in parentheses at the end. Ask:
 

**Q** Which adverb in the word box tells how Minna’s heart was probably pounding if she was scared? (loudly)

Drag and drop *loudly* into the blank. Invite a volunteer to read the completed sentence aloud.

brightly Yesterday away calmly loudly Suddenly

1. Minna was shaking, and her heart pounded loudly. (how)
2. Suddenly, she saw a shadow in the corner. (when)
3. A pair of eyes glowed brightly back at her. (how)
4. Minna wanted to run away. (where)
5. Then she laughed. It was just her cat, Scooter, calmly sitting there. (how)
6. Yesterday Scooter had discovered the attic. (when)

8. Repeat the process with the rest of the sentences, inviting volunteers to drag and drop the correct adverbs into the blanks.
9. Have the students work in pairs to write three sentences that contain adverbs. One adverb should tell how, one should tell where, and one should tell when.

### Teacher Note

If the students have difficulty thinking of a topic, suggest that they tell a short story about getting surprised by something.

## Optional Practice

Have the students complete pages 61–63 in their *Student Skill Practice Books*, independently or in pairs, to practice using adverbs. Note that page 63 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

**INTRODUCTION**

1. Remind students that an adverb is a word that describes a verb. An adverb may tell where, when, or how an action happens. Tell the students that adverbs can also be used to compare actions.
2. Display the “Comparative and Superlative Adverbs” activity (WA15), and read the two rules aloud. Then read the first sentence aloud. Have a volunteer identify the adverb. (*hard*) Ask:

**Q** *If we wanted to compare how the chorus practiced from one day to the next, what could we say? How could we compare the action of one day to the action of the next day?*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Allow a few volunteers to share their responses. Then read the second sentence aloud, and have another volunteer supply the missing word. (*harder*) Click the blank to change it to *harder*. Explain that because the action is being compared to the same action on one other day (yesterday), *-er* was added.

WA15

Add *-er* to compare one action to another.

Add *-est* to compare one action to two or more others.

1. Our chorus is practicing hard for the school's Spring Show.
2. We're practicing harder today than yesterday.
3. Tomorrow we will practice hardest of all.

3. Read the next sentence aloud. Ask:

**Q** Now what word goes in the blank? (*hardest*) Why? (*Because the action of practicing is being compared to all the other practicing the chorus has done.*)

Give the students time to think, and invite a volunteer to respond. Then click the blank to change it to *hardest*.

4. Display the next “Comparative and Superlative Adverbs” activity (WA16). Tell the students that not all adverbs that compare are formed by adding *-er* or *-est*. Explain that when an adverb is a long word, such as *smoothly*, *sweetly*, or *beautifully*, you use *more* or *most* instead of adding *-er* or *-est*. Elicit that it is easier to say *more smoothly* than *smoothlier*.

WA16

more most

1. Our music teacher says we sing sweetly.
2. Now we sing more sweetly than we did at first.
3. We hope to sing the most sweetly of all at the Spring Show.

5. Read the first sentence aloud. Have a volunteer identify the adverb. (*sweetly*) Then read sentence 2 aloud. Ask:

**Q** What is being compared? (*how sweetly the chorus sings now to how sweetly they sang before they practiced*) What form of *sweetly* should we use? (*more sweetly*)

Invite one or two volunteers to respond. Then click the blank to reveal *more sweetly*.

- Use a similar process for sentence 3.

---

### Teacher Note

You may want to introduce *less* and *least* as counterparts to *more* and *most*.

Have the students replace *more* with *less* in sentence 2, and *most* with *least* in sentence 3. Ask the students how this changes the meanings of these sentences.

#### Students might say:

"The adverbs are still comparing, but the meaning is totally different."

"I agree with Alexis. Using *less* and *least* gives the opposite meaning."

## GUIDED PRACTICE

- Display the "Comparative and Superlative Adverbs" activity (WA17). Explain to the students that they will work together to read each sentence and choose the correct form of the adverb in parentheses.

- Jacob counted down (slowly, slower) from one hundred.
- I ran the (farther, farthest) I could from Jacob.
- Justin hid (closer, closest) to Jacob than I did.
- He got tagged out (sooner, soonest) than I.
- Becky wins the (oftenest, most often) of all the players.
- She plays hide-and-seek (frequentlier, more frequently) than I do.

WA17

---

### Teacher Note

You may wish to explain the rules for hide-and-seek, and expressions like *tagged out*, for English Language Learners before you begin.

- Read aloud the first sentence including the answer choices. Ask:

**Q** Which word should be used to describe how Jacob counts down?

Explain that since nothing is being compared, the correct word choice is *slowly*. Invite a volunteer to the whiteboard to circle *slowly*.

9. Remind students that, in addition to telling *how*, adverbs also tell *where*. Read the second sentence and ask:

Q Which word should be used to compare where the narrator runs in relation to Jacob? (farthest) Why? (Because the narrator is running as far away as he can.)

10. Repeat this process with the remaining sentences.

11. Have the students work in pairs to write a descriptive paragraph, using the comparative and superlative forms of adverbs.

---

### Teacher Note

If the students have difficulty thinking of something to describe, have them write about a game or sport they both like to play.

## Optional Practice

Have the students complete pages 64–66 in their *Student Skill Practice Books*, independently or in pairs, to practice using comparative and superlative adverbs. Note that page 66 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 66 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

As with adjectives, in some languages, such as Hmong, Korean, and Spanish, forming the comparative and superlative of adverbs does not include adding endings to the original adverbs. Have the students complete sentences like these, adding *-er* and *-est* to short adverbs, such as *fast*, *soon*, and *long*: “Kat ran \_\_\_\_\_ than Erik.” “She got to the finish line \_\_\_\_\_.” “The cheering lasted \_\_\_\_\_ for Erik.”

**INTRODUCTION**

1. Tell the students that they will practice using adjectives and adverbs correctly. Remind them that adjectives are words that describe nouns and pronouns. Explain that adjectives can describe things, such as size, shape, and color. They can also describe how something looks, sounds, smells, tastes, and feels. Tell the students that adverbs are words that describe verbs. Adverbs tell how, when, or where something happens. Explain that good writers use precise adjectives and adverbs to help readers get a clear picture of what is written.
2. Display the “Adjectives and Adverbs” activity (WA20). Read the first sentence aloud. Ask:

**Q** Which word in the sentence is being described? (Colson) Which word to the right of the sentence describes Colson?

Invite a volunteer to respond. Then drag and drop the word *eager* into the blank.

Explain that the word *eager* is an adjective. It describes Colson and how he is feeling

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

about building a tree house. Point out that the word *eagerly* is an adverb. Remind the students that many adverbs end with *ly*.

WA20

1. Colson was eager to build a tree house. eager eagerly
2. Julio said he would gladly help. glad gladly
3. Colson carefully explained his plan to his parents. careful carefully
4. His mother was happy to help. happy happily
5. She went over rules with the boys about how to use tools safely. safe safely

3. Repeat the process for the remaining sentences:

- In sentence 2, the adverb *gladly* describes how Julio *would help*.
- In sentence 3, the adverb *carefully* tells how Colson *explained his plan to his parents*.
- In sentence 4, the adjective *happy* describes Colson's *mother*.
- In sentence 5, the adverb *safely* describes *how to use tools*.

Once the correct word has been chosen, read each completed sentence aloud.

## GUIDED PRACTICE

4. Display the next “Adjectives and Adverbs” activity (WA21). Tell the students that they will read a paragraph that is missing some words. Explain that you will work together to choose the correct adjectives and adverbs to complete the paragraph.

WA21

Adjectives	happy	long	sturdy
Adverbs	hardly	loudly	slowly

Colson's mother and father lifted six long boards to an opening in the tree. The boards would make the floor sturdy enough to stand on. Colson and Julio helped hammer the nails, loudly pounding each one in. They worked slowly, but they got it done. They were having so much fun that they hardly noticed the time. Everyone was happy when the project was finished. The tree house looked great!

5. Read the words in the chart aloud. Then read the first sentence aloud and ask:

**Q** Which word from the chart best describes the boards being used to build the tree house? (long)

Guide the students to see that you would choose from among the adjectives to describe a noun. *Long* is the best choice because it is an adjective that describes the size of the boards or how they look. Click the blank to confirm the answer.

6. Continue guiding the students through the paragraph, reading each sentence aloud, and helping a volunteer choose the correct adjective or adverb from the chart to complete it. Click each blank to confirm the answer. After all of the adjectives and adverbs have been placed, read the completed paragraph aloud.

7. Have the students work in pairs to write a paragraph, using at least two adjectives and two adverbs.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about something they made as a class.

## Optional Practice

Have the students complete pages 67–69 in their *Student Skill Practice Books*, independently or in pairs, to practice using adjectives and adverbs. Note that page 69 can be scored, allowing you to assess how well each student understands the lesson skill.

### Teacher Note

You might have the students write lists of adjectives and adverbs in the Proofreading Notes section of their *Student Writing Handbooks*.

## Reteaching

For students who need additional instruction, note that Activities A and B on page 69 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

### ELL Note

Because the Hmong language uses doubled adjectives or verbs instead of adverbs to describe actions, students whose first language is Hmong may need extra practice distinguishing between adjectives and adverbs and learning when to use them. Have the students use the adverbs and adjectives in the whiteboard activities to create new sentences.

**INTRODUCTION**

1. Tell the students that in this lesson they will explore the differences between formal and informal English. Explain that **formal** English is language they should use when speaking or writing to an adult, or giving a report in school. **Informal** English is language to use with their friends.
2. Point out that good writers think about the **audience**, the person or people who will read their writing. They also consider the **purpose**, or the reason they are writing, and choose the style that is best for that situation.
3. Display the first “Formal and Informal English” activity (📄 WA24). Read the first pair of examples aloud and point out that they both tell about the same topic but in different ways. Then ask:

**Q** Which of these sounds like something you’d write to a friend? Which sounds more like the beginning of a report for a school assignment?

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Click the letters *a.* and *b.* to reveal the labels *informal* and *formal*. Invite the students to identify the differences between the two versions. (Example *a.* includes incomplete sentences, an abbreviation, and slang. It sounds more casual. Example *b.* has complete sentences and more formal-sounding words, such as *a really wonderful time.*)

Point out that, when you write to a friend or someone you know well, it's fine to use sentence fragments and slang, but when you are writing for a school assignment or to an older adult, you should use complete sentences and formal words.

WA24

- informal**
1. a. Went to the circus Sat. with family. So cool!
- formal**
- b. Last Saturday my family and I went to see the circus. I had a really wonderful time.
- formal**
2. a. Dear Great-Uncle Hector,
- How are you? I heard that you will be coming to visit us in June. I am very excited about your visit. Lupe and I are making a list of things to do.
- informal**
- b. Hey, Hector.
- Heard you're coming in June. Awesome. Lupe and I, we've got stuff we want to do when you get here.

4. Invite a volunteer to read the next pair of examples aloud. Ask:

**Q** Which of these would you use if you were writing a letter to an older adult relative? Why?

**Students might say:**

"I'd use the first example. It seems more polite."

"I agree with Drew. Also, the second example is the way I might talk to my friends. It has slang, and the sentences aren't even complete."

Click *a.* and *b.* to reveal the labels *formal* and *informal*. Explain that people, especially older adults, take you more seriously when you use formal language. It lets them know that you take them seriously. That may make them more open to your ideas or requests.

Discuss with the students why it's important to change your language to fit the audience, or people you are trying to reach. Compare the examples of more formal language with more informal language.

## GUIDED PRACTICE

5. Display the next “Formal and Informal English” activity (WA25). Explain to the students that they will read several sentences that are written in an informal style, and that they will rewrite the sentences to make them sound more formal.

<ol style="list-style-type: none"><li>1. See cat special last night? <u>Did you see the cat special last night?</u></li><li>2. Nope. Good? <u>No, I didn't. Was it good?</u></li><li>3. Yup. Cats hunting. Playing. Chasing stuff. <u>Yes, it showed cats hunting, playing, and chasing things.</u></li><li>4. Missed it. Playing a game. <u>I didn't see it. I was playing a game.</u></li><li>5. Next time. <u>Try to see it the next time it is on television.</u></li></ol>	WA25
---	------

6. Read the first item aloud, and ask the students to look for informal language they would change, such as casual language (or slang). Invite a few volunteers to respond. Then work with the students to rewrite the sentence in more formal language.
7. Repeat the process with the other sentences.
8. Have the students work in pairs to write two versions of a note between two people, using formal English in one and informal English in the other.

### Teacher Note

If the students have difficulty thinking of a topic to write about, you might suggest that they write about a television show they have seen recently or a game they have both played.

## Optional Practice

Have the students complete pages 70–72 in their *Student Skill Practice Books*, using formal and informal language. Note that page 72 can be scored, allowing you to assess how well each student understands the lesson skill.

# Reteaching

For students who need additional instruction, note that activities A and B on page 72 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

## Teacher Note

You might have the students make a list of all the different kinds of writing they can think of and the best style to use for each one. Have them include their list in the Proofreading Notes section of their *Student Writing Handbooks*.

Formal	Informal
school assignment (research report, book report, etc.)	e-mail or text message
test answers	postcard
presentation	note
letter to an older adult	letter to a friend
	writing in a personal journal

## ELL Note

Many languages have informal and formal ways of saying things, depending on the context and/or the relationship between the speaker and the listener. Invite the students to share formal and informal ways of speaking in their languages, such as different ways to say “hello.”

### Whiteboard Activities

- “Review” activity (WA28)
- “Review” activity (WA29)
- “Review” activity (WA30)
- “Review” activity (WA31)

## REVIEW

1. Explain to the students that they are going to review what they have learned about adjectives and adverbs in Lessons 19–24. Remind the students that they have learned how to identify and use:
  - Adjectives
  - Comparative and superlative adjective forms
  - Adverbs
  - Comparative and superlative adverb forms
2. Display the first “Review” activity (WA28). Remind the students that adjectives tell more about nouns and pronouns. Review the kinds of information that adjectives provide.

An **adjective** is a word that describes, or tells more about, a noun or a pronoun. Adjectives can describe many things, such as *size*, *shape*, and *color*. They can also describe how something *looks*, *sounds*, *smells*, *tastes*, or *feels*.

The storm made a size shape big round puddle in the yard.

Splash! Now my color white dog is color brown.

An adjective can also tell *how many* or *how much*.

how many  
My two friends helped me wash my dog.

how much  
We had a little help from my brothers.

3. Have the students read the first sample sentence aloud, identify the adjectives, and tell which nouns they describe. As you point to each adjective, ask:

**Q** *What does big tell you about the puddle? What does round tell you about the puddle? (big describes its size; round describes its shape)*

Give the students time to answer the questions. Confirm the students' responses by clicking each adjective to reveal what it tells the reader about the noun. Repeat the process for the second sample sentence.

4. Review with the students that adjectives also tell *how many* and *how much*. Have the students identify the adjectives in the next two sample sentences and the nouns that they describe. Ask:

**Q** *Which adjective tells how many? Which adjective tells how much?*

Click *two* and then click *a little* to confirm the students' responses.

5. Display the next “Review” activity (🗨️ WA29). Remind the students that adjectives have special forms for comparing two or more people, places, animals, or things. Review the rules for using *-er* or *-est*.

WA29

Adjectives have special forms that can be used to show how two or more people, places, animals, or things are different.

- Use *-er* to compare two people, places, animals, or things.

The sun is brighter today than it was yesterday.

- Use *-est* to compare three or more people, places, animals, or things.

That was the reddest sunset I have ever seen.

- Not all adjectives use *-er* or *-est* to compare. Some use different words.

Jacob’s scary story was really good.

Jocelyn’s scary story was worse than Jacob’s.

Mackenzie’s scary story was the best of all.

6. Have volunteers read the sample sentences and provide adjectives to take the place of the underlined words. Accept all reasonable responses. Then click each adjective to display the sample answers on the whiteboard.

7. Remind the students that not all adjectives use *-er* and *-est* to compare. Some use different words. Have a volunteer read the sample sentences aloud. Ask:

Q *What words would you use to replace worse and worst to change the story from a bad one to a good one? (better and best)*

Allow time for the students to think. Invite volunteers to share their answers, and click to confirm their responses. Then reread the sentences with *good*, *better*, and *best* in place.

8. Display the third “Review” activity (🗨️ WA30). Remind the students that an adverb is a word that tells more about a verb. Adverbs tell how, when, or where something happens.

**Adverbs** are words that tell more about a verb. They tell *how*, *when*, or *where* something happens. Most adverbs that tell how end with *-ly*.

- How: *quickly, loudly, sadly, softly, nicely*
- When: *today, tomorrow, suddenly, later, next*
- Where: *outside, above, below, away, down*

1. The wind whispers **softly** through the leaves.

2. I will read now and play with my friends **later**.

3. I like to sit **outside** in the shade of a tree.

9. Read aloud the lists of adverbs that tell how, where, and when. Point out that most adverbs that tell how end with *-ly*. Invite a volunteer to read sentence 1 aloud, and choose the adverb that would best complete it. Then have the volunteer go to the whiteboard to click the blank to reveal the adverb. Repeat for sentences 2 and 3.
10. Display the last “Review” activity (WA31). Remind the students that, in the same way that adjectives have special forms to compare two or more people, places, animals, or things, adverbs have special forms to compare two or more actions. Review the rules for using *-er* and *-est* to form comparative and superlative adverbs.

Adverbs have special forms that can be used to compare actions.

- Use *-er* to compare two actions.

A **hare** moves faster than a **tortoise**.

- Use *-est* to compare three or more actions.

A **cheetah** runs the fastest of **any animal on Earth**.

- When an adverb is a long word, use *more* or *most* instead of *-er* or *-est* to compare.

Jeb studies quietly.

**Alexis** solves problems more quickly than **Kevin**.

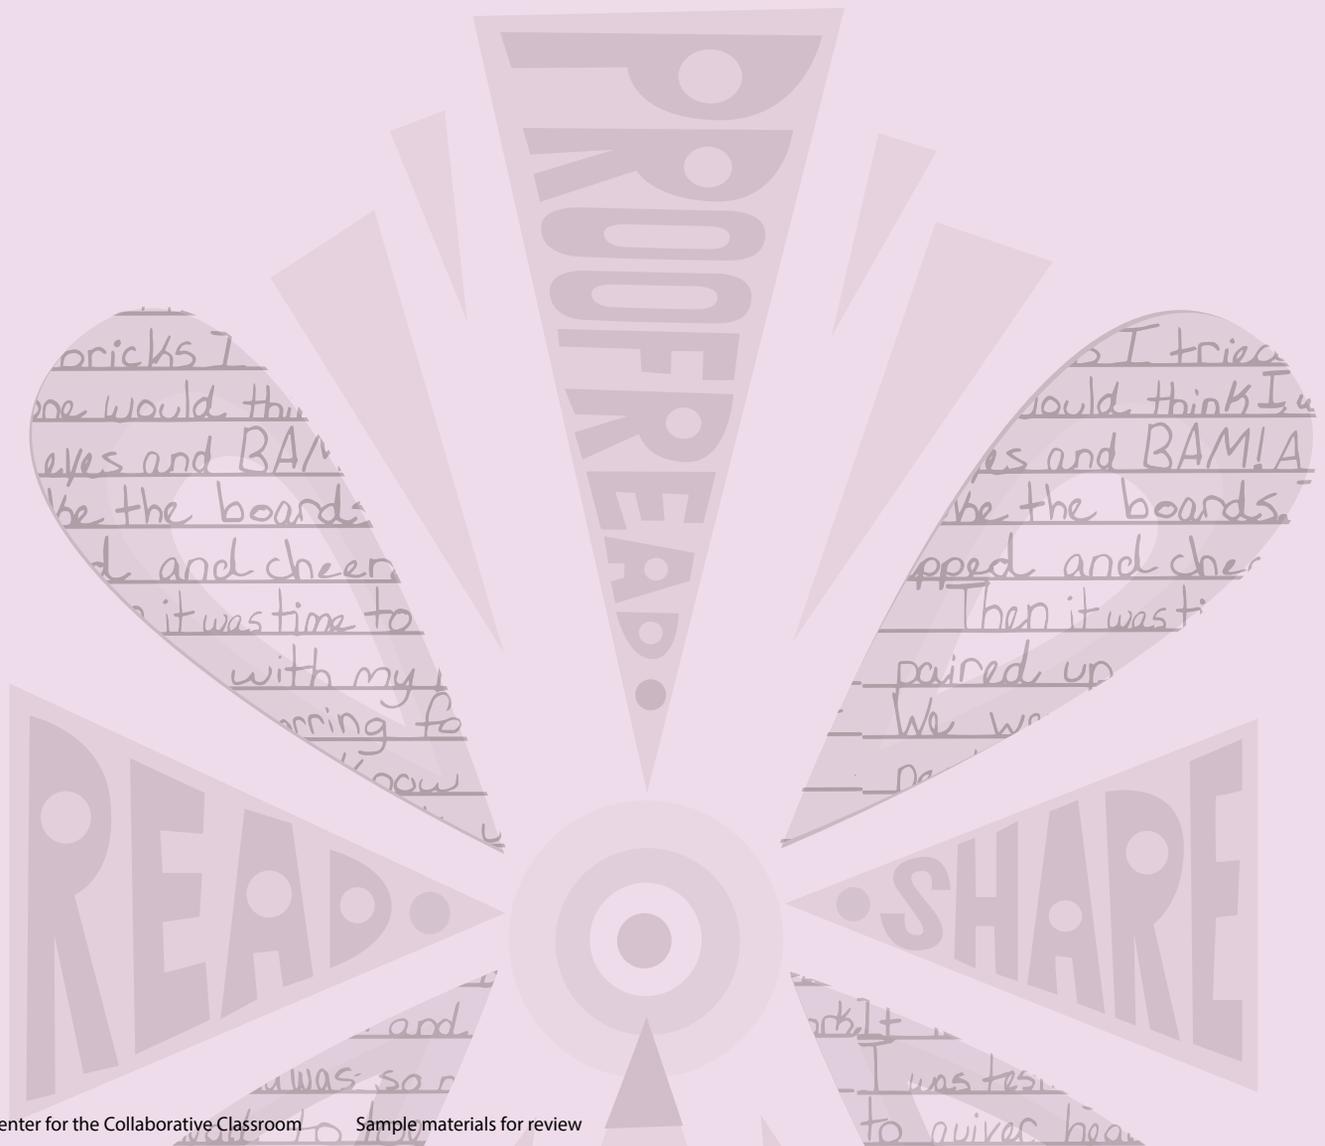

**Kevin** works most carefully of **all the students**.

11. Have volunteers read the first two sample sentences aloud, underline the action being compared, and circle the two or more animals performing the action.
12. Finally, remind the students that, when an adverb (or adjective) is long, *more* or *most* is used instead of *-er* or *-est* to compare. Have volunteers read the last three sample sentences aloud. Underline the actions being compared, and circle the two or more people performing the action.

## Optional Practice

## INTRODUCTION

1. Ask the students what kind of writing they do that requires them to write the title of a book. (Sample answers: book reports, research reports, whenever they write about their reading) Explain to the students that, whenever they write a book title, they should make sure that they write the title correctly.

Explain that when book titles are written, they are either underlined or written in **italic**, or slanted, type. Also explain that there are certain rules for capitalizing the words in a book title. Tell the students that in this lesson they will learn how to capitalize book titles correctly.

2. Display the “Writing Book Titles” activity (WA1). Point to the title in italic type. Explain that when using a computer, a writer can choose italic type for the title. When writing by hand, a writer must underline titles.
3. Explain that this passage is a narrative about a visit to a library. Read the first three sentences aloud, emphasizing the book title in the third sentence. Ask, pausing after each question for one or two volunteers to respond:

**Q** Which words tell the title of a book? (Beezus and Ramona) How do you know these words are a book title? (The words are underlined.)

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Then point to the book title and ask:

Q Which words are capitalized in this book title? (Beezus; Ramona) Why do you think these words are capitalized?

**Students might say:**

"They're important words in the title, and they're also the names of people."

"I agree with Thea. They also come at the beginning and end of the title."

WA1

**Book Titles:** My Friend Jacob (by computer) My Friend Jacob (by hand)

Lucy, her little brother Asa, and their mom love reading.

They go to the library every Saturday. Lucy had just read Beezus

and Ramona, by Beverly Cleary. She wanted to get another book

by the same author. Asa had just finished ~~f~~<sup>F</sup>rog and ~~r~~<sup>T</sup>oad ~~a~~<sup>A</sup>re

~~f~~<sup>F</sup>riends, by Arnold Lobel. Lucy found Beverly Cleary's book,

~~h~~<sup>H</sup>enry and the ~~p~~<sup>P</sup>aper ~~r~~<sup>R</sup>oute, and checked it out. Asa checked out

a book called ~~f~~<sup>F</sup>rom ~~r~~<sup>T</sup>adpole to ~~f~~<sup>F</sup>rog, by Wendy Pfeffer.

4. Allow a few volunteers to respond. As necessary, point out that the first and last words in a book title, and all the important words in between, are capitalized. Explain that important words include nouns, pronouns, verbs, adjectives, and adverbs. Then explain that shorter, less important words, such as *the, a, an, in, on, at, with, by, to,* and *and*, are not capitalized in a title.
5. Work through the rest of the paragraph, having volunteers identify the underlined book titles. Help the students to identify which words should be capitalized and which ones should be left lowercase. Then cross out each letter that should be capitalized and write the capital letter above it.

**Teacher Note**

Explain that movie and song titles also use the same capitalization rules as those for book titles; for example: *How to Train Your Dragon* is the name of a movie, and "On Top of Spaghetti" is a song.

## GUIDED PRACTICE

6. Display the next “Writing Book Titles” activity (WA2). Explain to the students that next they are going to practice capitalizing more book titles.

Miss Jewel, a librarian, lives next door to us. She recommended that I read Charlotte's Web, by E. B. White, which I really liked. The next time I was at the library, I checked out The Trumpet of the Swan and Stuart Little. These books are by the same author. Miss Jewel also recommended that I read some books based on African folktales, such as Why Mosquitos Buzz in People's Ears and Bringing the Rain to Kapiti Plain. They were both wonderful! I can't wait to read more.

WA2

7. Read the first two sentences aloud. Have a volunteer find the first book title. Ask:  
**Q** Which words should be capitalized in this book title? Why? (Both; they are the first and last words in the title, and they're both important words.)
8. Allow the students to respond and discuss the reasons both words are capitalized. Have a volunteer cross out the title and rewrite it correctly in the space above it.
9. Repeat the process with the rest of the passage, having volunteers take turns finding the book titles and rewriting them correctly.
10. Have the students work in pairs to write a paragraph that includes at least three book titles. Tell them that they can use real book titles or make up their own. Remind them to make sure they have underlined the titles and capitalized them correctly.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about going to a library and checking out books on a particular topic or by a certain author.

## Optional Practice

Have the students complete pages 76–78 in their *Student Skill Practice Books*, independently or in pairs, to practice capitalizing book titles correctly. Note that page 78 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

## INTRODUCTION

1. Tell the students that in this lesson they will learn about **contractions**, special words made up of two short words. Ask the students to listen carefully as you say these sentences aloud: “I do not have a bike. I don’t have a bike.” Invite one or two volunteers to tell you what is different about the sentences.
2. If necessary, point out that in the first sentence you used the words *do not*, and in the second sentence you used the word *don’t*. Ask the students if *do not* and *don’t* have the same meaning. (Yes.) Explain that *don’t* is a contraction, a word made up of two words joined together to make a shorter word. Point out that writers use contractions in their writing to make the language sound more like the way people usually talk.
3. Display the “Contractions” activity (🎯 WA5). Point out the words in the word box. Direct the students’ attention to the contraction for *did not*. Explain that many contractions are formed with the word *not*. Point out the apostrophe in the word *didn’t*, and explain that this mark takes the place of a missing letter or letters in a contraction. The apostrophe in *didn’t* takes the place of the missing *o*.
4. Repeat the process for the phrases *you will*, *he is*, *she has*, *I have*, and *they are*. Have volunteers identify the letters that are replaced by the apostrophe in each of these contractions.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

5. Point out the passage beneath the word box and explain that it is about classroom rules. Have the students read it silently. Then read the first two sentences aloud and ask:

**Q** Which words are contractions? (That's; we've) Which two words does each contraction stand for? (That is; we have)

Invite one or two volunteers to respond to each question. Then click the contractions to reveal the two words that make up each one. Ask:

**Q** Which letter is replaced with an apostrophe when That is is combined to make That's? (the i in is) Which letters are replaced with an apostrophe when we have is combined to make we've? (the ha in have)

WA5

did not → didn't	you will → you'll	he is → he's
she has → she's	I have → I've	they are → they're

We get along well. **That is** because **we have** got classroom rules:

1. Be kind to others. **It is** not nice to say mean things.
2. **Do not** interrupt when others are talking.
3. Show respect for others. **We will** all get along better that way.
4. Remember, **we are** all important members of the team.

6. Have students work in pairs to identify the contractions in the rest of the exercise and the words that make up each contraction. As volunteers share their answers, click each contraction to confirm the response. Discuss the letter or letters that the apostrophe replaces.

### Teacher Note

You might discuss with the students when contractions are appropriate to use in their writing. Point out that contractions are used in informal writing, such as a letter to a friend. More formal writing, such as school reports, generally do not include contractions.

## GUIDED PRACTICE

7. Display the next “Contractions” activity (🗨️ WA6). Explain to the students that next they are going to practice identifying and forming contractions.

Truman had a bike accident, but luckily, he **wasn't** seriously hurt. **He's** decided to start a campaign at school to promote bike safety. **He'll** meet with a group of kids on Monday to create safety posters. First, **they're** going to brainstorm safety rules. Then **they'll** make posters to put up around the school. The school will provide the art supplies for the posters, and Ms. Higgs has said **she'll** help the group.

WA6

8. Read the first sentence aloud. Ask:

**Q** *Which two words can be replaced with a contraction? (was not)*

Invite a volunteer to respond. Then click *was not* to reveal the contraction *wasn't*. Have another volunteer identify the letter replaced by the apostrophe. (the *o* in *not*)

9. Repeat the process with the rest of the passage, having volunteers identify the words that can be made into contractions.

10. Have the students work in pairs to write a paragraph in which they use at least four contractions. Have partners exchange papers with other student pairs to ensure that the contractions are written correctly. Ask the students to identify the words that make up the contractions and the letters replaced by the apostrophes.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write a paragraph about the importance of bicycle safety.

## Optional Practice

Have the students complete pages 79–81 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying and writing contractions correctly. Note that page 81 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 81 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### **ELL Note**

In Korean the negative marker goes before the verb phrase. For example, someone might say, “I not have read that book” instead of “I have not read that book.” Teaching contractions with the word *not* provides an opportunity to talk about the placement of the word *not* in relation to the verb or verb phrase. You may wish to create a chart of the words that make contractions with *not*, and practice reading those words and then writing the contractions with *not*.

---

### **Teacher Note**

Have the students write examples of contractions and the words they stand for in the Proofreading Notes section of their *Student Writing Handbooks*.

## INTRODUCTION

1. Remind the students that there are many uses for commas in writing. Explain that in this lesson the students will practice using commas in addresses.
2. Display the first “Commas in Addresses” activity (WA9). Read the first line of the first address aloud. Then ask:

**Q** *What is the first comma between?*

Help the students understand that the first comma is between the street address and the apartment number. Circle the comma to highlight its position in the address. Ask:

**Q** *Why is it helpful to separate these two parts of an address?*

Give the students a few moments to think, and invite one or two volunteers to respond. If necessary, explain that, when reading an address, it helps to identify the street first and then the apartment, suite, or unit number. By using commas correctly in addresses, people can make sure their mail gets to the right place.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Ms. Jess Newman  
 125 Baylor Drive, Apartment 8  
 Brooklyn, NY 11247

Jolly Fish Toy Company  
 789 Hanover Drive, Suite 110  
 Pittsburgh, PA 15219

3. Repeat the process for the comma that separates the city from the state on the next line. Circle the comma to highlight its position. Then ask the following questions to help students analyze comma usage in the address for the Jolly Fish Toy Company:

**Q** *What does each comma set off or separate? Does having the commas help the reader? Why or why not?*

**Students might say:**

“The first comma separates the street from the suite. Everything would run together without the comma.”

“The next comma helps me know that the two letters aren’t part of the city name. They stand for a state and go with the zip code.”

Some students may think that commas are not important. Suggest that commas are helpful because they break the information into easily recognized units. Explain that commas, like many other punctuation marks, are like road signs that tell you to slow down. They help the reader know where to pause to better read the address.

## GUIDED PRACTICE

4. Display the next “Commas in Addresses” activity (WA10). Explain to the students that it shows an addressed envelope. Point out the address at the top left, and explain that it is the sender’s address. Then point out the address at the center. Explain that this is the address of the person the letter is for.

Editor-in-Chief  
*Ranger Rob* Magazine  
10100 Wildlife Way  
Jackson Hole, WY 83002

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

WA10

5. Review with the students how commas are used in addresses. (to separate the street addresses from the apartment and unit numbers, and to separate the cities from the states)
6. Invite volunteers to the whiteboard. Have them take turns adding commas to the letter’s addresses. Discuss with students why each comma is used.

---

### Teacher Note

Point out that, in street addresses, a comma also separates the street name from *Unit* and *Suite* and that some addresses are written with a number sign and the number rather than the word *Apartment*, *Unit*, or *Suite*. Explain that the commas that separate parts of an address on an envelope should also be used when the addresses are written within the letter.

7. Have the students work in pairs to write a letter and address an envelope to practice using commas correctly.

---

### Teacher Note

If the students have difficulty thinking of someone to write to, suggest that they write a letter to someone they know in another class about something interesting they did at school.

## Optional Practice

Have the students complete pages 82–84 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying and using commas correctly in addresses. Note that page 84 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 84 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

Because addresses are written and punctuated differently in some parts of the world, you may want to compare writing an address in the students' countries of origin with writing a local address. Have the students write examples of each kind, and circle the commas in both addresses. Discuss with them how the addresses are the same and how they are different.

## INTRODUCTION

1. Explain to the students that, when they write a story, they may want to include dialogue, or a conversation between two people, that uses each speaker’s exact words. Tell the students that it is important to use commas and **quotation marks** to clearly show the exact words each speaker is saying; otherwise, readers may become confused about who is speaking. Tell the students that in this lesson they will learn how to use quotation marks in their writing. Further explain that they will learn an additional use of commas—to set off the exact words of a speaker.
2. Display the first “Commas and Quotation Marks in Dialogue” activity (📄 WA13). Explain that this passage is a dialogue between a father and his son. Read the passage aloud, pausing at the commas and emphasizing each speaker’s exact words. Then ask:  
**Q** *What is the first thing Dad says? How do you know? (“It’s too beautiful a day to stay inside.” The quotation marks, the comma, and the words Dad said indicate that these are Dad’s exact words.)*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Dad found Jake lying on the couch, staring at the ceiling.

“It’s too beautiful a day to stay inside,” Dad said. “Let’s get out and do something.”

Jake replied, “I don’t know what there is to do outside.”

“You’ve got to be kidding,” Dad said. “We could go for a walk. We could play catch. We could ride bikes.”

“You’re right,” Jake said, putting his shoes on. “Let’s go!”

3. Point out that quotation marks are used to show the exact words a character is speaking. Click the sentence to highlight the quotation marks around the speaker’s words and the comma that sets off the quote from the rest of the sentence. Ask:

**Q** *What other punctuation is highlighted in this sentence in addition to the quotation marks? (a comma)*

Explain that a comma is usually used to separate the speaker’s exact words from the rest of the sentence. If the comma comes after the quotation, it is placed before the ending quotation mark.

4. Reread Jake’s response in the fourth sentence and click the sentence to highlight the comma that separates the quotation from the speaker and the quotation marks around the speaker’s exact words. Explain that a comma can also come before the speaker’s words.
5. Continue rereading the remaining lines of dialogue. Click to highlight the quotation marks and the commas. As you highlight the punctuation, ask the students whose exact words each set of quotation marks is framing.

## GUIDED PRACTICE

6. Display the next “Commas and Quotation Marks in Dialogue” activity (WA14). Explain to the students that next they are going to practice identifying where quotation marks and commas are placed in a passage of dialogue.

“I have a joke to tell you,” Kim said to Nico.

“OK,” answered Nico.

“Guess what I did when I saw a blue elephant,” Kim said.

“I can’t guess,” Nico replied. “Tell me what you did when you saw a blue elephant.”

“I tried to cheer him up,” Kim answered.

“That is a really bad joke,” said Nico.

“I think it’s funny,” Kim replied.

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

7. Read the first line of dialogue aloud. Circle the quotation marks and draw a line under the comma. Ask, pausing after each question for a volunteer to respond:

**Q** *What do the quotation marks set off? What does the comma do in the sentence?*

As necessary, remind the students that quotation marks set off the speaker’s exact words, and the comma separates the speaker’s exact words from the rest of the sentence. Follow the same process for the next two lines of dialogue.

8. Read the rest of the passage aloud. For each line of dialogue, invite a volunteer to tell you where to insert the missing comma and quotation marks. Add these to the whiteboard. Make sure that the students understand how the punctuation marks make it clear who is saying what in the passage.

### Teacher Note

Point out that in dialogue a comma, a period, a question mark, or an exclamation point goes before the ending quotation mark.

9. Have the students work in pairs to write a dialogue. Tell them to make sure that they have used quotation marks to set off each speaker’s words. Remind them to insert commas where necessary.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write a dialogue between two family members.

## Optional Practice

Have the students complete pages 85–87 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying and using quotation marks and commas correctly in dialogue. Note that page 87 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 87 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### **ELL Note**

In some languages—and even in English in Great Britain—dialogue is set off with single quotation marks rather than double. Explain that, in American English, double quotations are used to set off a speaker’s words. Show the students examples of dialogue in some of the books in the classroom.

---

### **Teacher Note**

Have the students write examples of the use of quotation marks in dialogue in the Proofreading Notes section of their *Student Writing Handbooks*.

## Whiteboard Activities

- “Review” activity (WA17)
- “Review” activity (WA18)
- “Review” activity (WA19)

## REVIEW

1. Explain to the students that they are going to review what they have learned about capitalization and punctuation in Lessons 26–29. Remind students that they have learned how to:
  - Capitalize the words in titles
  - Identify and write contractions
  - Use commas in addresses
  - Use commas and quotation marks in dialogue
2. Display the “Review” activity (WA17) and read aloud the rule in the box about capitalizing words in titles of books. Then read the passage aloud as the students follow along. Ask:

**Q** Which words in the title in the first sentence should be capitalized?

Invite one or two volunteers to respond. Confirm the students’ responses by clicking each word in the title, revealing which ones are capitalized. (*The; Mouse; Motorcycle*) Then ask:

**Q** Why are the words *and* and *the* not capitalized?

Remind the students that short words, such as *and*, *the*, and *to*, are not capitalized unless they are the first word in the title.

Remember: The first and last words in a book title, and all the important words in between, are capitalized.

This week we're reading the book *The Mouse and the Motorcycle*. Our group also liked the book *A Letter to Amy*. Next week we're going to read the book *Casey at the Bat*. My favorite book so far is *Bartholomew and the Oobleck*. My friend Jesse's favorite book is *Mirette on the High Wire*. Tonight I'm writing a book report on *Encyclopedia Brown Saves the Day*. I'll definitely recommend it!

- Repeat the process with the titles in the rest of the paragraph, having volunteers take turns reading the sentences aloud and identifying the words they think should be capitalized. Click the letters to reveal the capitalized and highlighted letters.
- Display the "Review" activity (WA18). Review with the students what they learned about placing commas in addresses: Commas are used to separate street addresses from apartment, unit, or suite numbers. Commas are also used to separate the names of cities from the names of states or countries. Ask:

**Q** *Where should we add commas in the address in this letter? (between Street and Unit and between Gary and IN at the top of the letter) Where should we add a comma in the body of the letter? (between Portland and Maine)*

153 Oval Street, Unit 4  
 Gary, IN 46408  
 April 24, 2017

Dear Anika,

Gosh, it's good to hear from you! I'm glad you like your new home in Portland, Maine. It'll be good to see you next summer. Summer isn't that far away.

Your friend,  
 Tyler

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

Have the students take turns pointing out the places where the commas should go as you add them. If they have difficulty locating where the commas should be placed, review the rules and help them locate a place in the example that matches a rule. For example, you might remind the students that a comma always separates a city and a state.

5. Tell the students that next they will review what they have learned about contractions. Remind the students that a contraction is a short way of writing two words. An apostrophe takes the place of the missing letter or letters.

6. Have the students work in pairs to reread the body of the letter to see which words could be changed to contractions to make the letter sound more casual. Allow students time to confer. Then point to the first sentence and ask, pausing after each question for a volunteer to respond:

**Q** *Which words in this sentence could be changed to form a contraction? (it is) What contraction can you form from these words? (it's)*

Invite a volunteer to the whiteboard to write the contraction above the two words. Follow the same procedure for the second, third, and fourth sentences. Then read aloud the letter with the contractions, and discuss how they change the tone.

7. Display the “Review” activity (🗨️ WA19) and read the dialogue aloud. Remind the students that quotation marks are used to set off the exact words of a speaker, and a comma separates the speaker’s exact words from the rest of the sentence. Point out that the examples include the exact words two people are saying to each other. Model adding the missing quotation marks and comma to the first sentence. Then guide the students as they look at each of the remaining sentences, one by one. Ask, pausing after each question for one or two volunteers to answer:

**Q** *Which words in this sentence show the speaker’s exact words?*

**Q** *Where do we need to put the beginning and ending quotation marks?*

**Q** *Where do we need to add a comma?*

For each sentence, have one or two volunteers add the correct punctuation on the whiteboard. Use the third sentence to point out that, when the speaker’s words come at the beginning of the sentence and end with a question mark or exclamation point, a comma is *not* used to separate the speaker’s words from the speaker. After all the sentences are punctuated, elicit a possible response to Trey’s concern. Write the response and, with the students’ help, punctuate it correctly.

Sophie said, <sup>“</sup>I think Book Club is really fun.<sup>”</sup>

Her friend Trey said, <sup>“</sup>I do too, but I don't say much.<sup>”</sup>

<sup>“</sup>Why don't you speak more?<sup>”</sup> Sophie asked.

Trey replied, <sup>“</sup>I'm afraid I'll give the wrong answer.<sup>”</sup>

“Don't worry about that,” Sophie replied. “There's no right or wrong answer in Book Club. Just tell us what you think!”

---

---

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only. Sample answers are listed above. Answers may vary.

- Remind the students that it is important to capitalize and punctuate their writing correctly. Capitalization and punctuation are like a set of signals that help make the meaning clear to readers.

## Optional Practice

Have the students complete pages 88–90 in their *Student Skill Practice Books*, independently or in pairs, to practice capitalizing and punctuating correctly.

## The Big Apple

A. Circle the quotation marks. Underline each comma that separates a speaker's words from the speaker.

“I just found out that New York is called the Big Apple.”  
Toni told her grandmother.

“I didn't know that!” Mrs. Crowe replied to her  
granddaughter.

“Maybe everyone in New York really likes apples,”  
said Toni.

Her grandmother smiled and replied, “Maybe it rains  
apple juice there!”

“Maybe all the houses are made from apples!”  
laughed Toni.

Her grandmother looked at her and said, “Maybe we  
should go to New York to see for ourselves!”

“Let's go!” said Toni.

B. Write a dialogue between two people who are talking about a fascinating fact. Use quotation marks and commas correctly.

## Jack and the Daisy

A. Read the story. Add any missing quotation marks and commas.

"Jack, please don't pick me," said the daisy.

"I didn't know daisies could talk," Jack replied.

"Well, this daisy can, so please don't pick me," said the daisy.

"I'm sorry, but I have to pick you," Jack answered. "My sister isn't well, and I thought a daisy might cheer her up."

"I have an idea," said the daisy.

"Tell me," Jack replied.

"Plant me in a flowerpot, and I'll live in your sister's room forever," the daisy explained.

"My sister would love that," Jack replied. "I think that's a great idea!"

B. Write a dialogue between Jack's sister and the daisy. Use quotation marks to show each speaker's exact words. Add commas to set off the speakers' words from the person speaking.

Carets used to indicate insertion of punctuation are for reference only.

## Going to a Concert

A. Proofread the dialogue. Add any missing quotation marks and commas. (10 points)

"Dad, I'd like to go see the Jensen Boys concert on Friday night," Bella said to her father.

"No," he replied. "I don't want you at a concert alone."

"I wouldn't be going alone," Bella replied. "Shayna, Ali, and Emma are going, too."

Bella's father replied, "You need an adult to go with you."

"What a great idea, Dad," Bella said as she hugged her father.

"You can come with us. Then all the parents will be happy."

"Hmmm," Bella's father said as he rubbed his chin. "Aren't you the clever one!"

B. Imagine what the concert was like with Bella, her friends, and her father.

Write at least five more lines of dialogue between Bella and her father about the concert. Use commas and quotation marks correctly. (5 points)

Carets used to indicate insertion of punctuation are for reference only.

### We're Reading All the Time!

A. Rewrite each book title on the line. Capitalize the words in each title correctly. Then draw a line under the title.

C. Write a letter to a friend. Write your address at the top of the letter. Write your friend's address on an envelope. Make sure you use commas correctly.

Carets used to indicate insertion of punctuation are for reference only.

## What Are You Doing Here?

A. Proofread this dialogue between Antoine and Jake. Add missing quotation marks and commas where they belong.

Antoine ran into his friend Jake at the grocery store.

"Hey, Jake! What are you doing here?" Antoine asked.

Jake smiled and said, "My dad wanted to pick up something special."

Antoine looked around. Then he said, "Oh, I see your dad over there."

Jake replied, "He had to have this special sauce for a dish he's making."

"I wish my dad cooked," Antoine said, laughing.

Jake laughed and said, "You sound like my mom!"

Antoine turned and said, "Enjoy your dinner!"

Jake waved and said, "See you on Monday, Antoine."

B. Write a dialogue between two friends who run into each other. Use commas and quotation marks correctly.

## SKILL PRACTICE ASSESSMENT

### USING THE SKILL PRACTICE PAGES

Each mini-lesson in the *Skill Practice Teaching Guide* has three corresponding practice pages in the *Student Skill Practice Book*. (These are referenced in the “Optional Practice” section at the end of each mini-lesson.) The first two practice pages provide opportunities for the students to practice a language skill in pairs or individually. The third page can be assigned for additional practice, or it can be completed by students independently and then scored to evaluate progress and inform instruction. You can also use the scores as a basis for assigning a language skills grade and/or include the scores in each student’s overall unit score on the “Individual Writing Assessment.” (For more information, see “Individual Writing Assessment” in the *Assessment Resource Book*.)

You can use the “Skill Practice Student Record” sheet (SR1) on page 175 to create a cumulative record of each student’s scores, and you can use the “Skill Practice Class Record” sheet (CR1) on page 176 to record and track your students’ progress as a class.

#### Scoring the Skill Practice Pages

- ✓ After the students complete the first two practice pages for a lesson (either in pairs or individually), have each student complete the third practice page independently. (We recommend having students complete the practice pages over several days.)
- ✓ Make a class set of “Skill Practice Student Record” sheets (SR1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 175. If you would like to record your assessment data electronically, go to [classview.org](http://classview.org) to access the record sheet using the CCC ClassView app.
- ✓ Collect each student’s *Student Skill Practice Book* and locate the practice page you wish to score. (The page number of the practice page can be found in the “Optional Practice” section at the end of each lesson in the teaching guide.)
- ✓ Locate the answer key for the practice page you wish to score in Appendix A, “*Student Skill Practice Book Corrections*,” in this teaching guide.
- ✓ For each student, score the practice page and then calculate the total number of points earned using the point values indicated on the answer key. For example, the activities on *Student Skill Practice Book* page 3 are worth 5, 6, and 4 points respectively. (See the facsimile of the annotated practice page on page 127 of this teaching guide.)

- ✓ Record the total number of points earned out of 15 in the “Score” column on the “Skill Practice Student Record” sheet (SR1). Record the *Being a Writer* unit during which the lesson was taught and any notes you have about the student’s work. (For example, if you taught Lessons 1–3 while teaching Unit 2 in *Being a Writer* you might record a “2” in the “Taught in Unit/Genre” column.)
- ✓ Consider whether you would like to include the scores from the practice pages in each student’s overall unit score on the “Individual Writing Assessment” record sheet (located in the *Assessment Resource Book*) for the *Being a Writer* unit during which the lessons were taught. For example, if you taught Lessons 1–3 while teaching Unit 2 in *Being a Writer*, consider whether you will include the scores for the practice pages from those lessons in the overall unit score in the Individual Writing Assessment for Unit 2. (Note that if you include the scores from the practice pages, the overall unit score in the Individual Writing Assessment will be based equally on the student’s writing score and the total points earned on the practice pages. You might wish to weight the scores differently to align with your school’s or district’s grading system.)
- ✓ If you choose to enter this data directly into the CCC ClassView app, you have the option of having the scores automatically appear in the “Individual Writing Assessment” record sheet and calculated into each student’s overall unit score. Scores will also automatically appear in each student’s Student Profile. From there, the data can be shared digitally with parents, colleagues, and administrators.

## Appendix C

# GRADE-LEVEL LANGUAGE SKILLS ASSESSMENT

Three diagnostic language skills tasks offer formative assessment of grade-level language standards. Each task gives students two opportunities to demonstrate their mastery of a set of grade-level language skills. Numbered sentences and phrases appear in the context of stories, e-mails, and friendly letters, and students must choose which of three answers best corrects or completes an item. The diagnostic language skills tasks appear in the back of the *Student Skill Practice Book* on page 103, while annotated versions of the tasks are provided in this appendix as scoring keys. If student responses indicate the need for additional practice with a skill, you may teach the lesson in the *Skill Practice Teaching Guide* that corresponds to that skill.

There are two cumulative reports that identify which skill is addressed in each assessment item and where that skill is taught in the *Skill Practice Teaching Guide*. The “Diagnostic Language Skills Tasks: Student Report” (DS1) can be used to track an individual student’s progress throughout the year, whereas the “Diagnostic Language Skills Tasks: Class Grouping Report” (DR1) is used to group the students around language skills for which they need additional practice. To assess student mastery of grade-level skills throughout the year, administer a diagnostic language skills task at the beginning, middle, and end of the year. Then use the student and class reports to identify students who are struggling with specific skills and may benefit from instruction, practice, or review in small groups.

Everything you need to conduct each assessment, including instructions and forms, can be found in this appendix or on the CCC ClassView assessment app ([classview.org](http://classview.org)). You may choose to record your students’ progress using printed copies of the forms from this guide or from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). You can access the CCC ClassView app by tapping the linked assessment icons in the *Digital Teacher’s Set*, by directly accessing the app at [classview.org](http://classview.org), or via the CCC Learning Hub.

# Diagnostic Language Skills Task 1

## CONDUCTING THE ASSESSMENT

1. Have the students turn to “Diagnostic Language Skills Task 1” on page 104 in their *Student Skill Practice Books*. You may also visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to download, print, and distribute to each student the “Diagnostic Language Skills Task 1” (BLM1).
2. Tell the students that today they are going to answer some questions to show what they know about good writing.
3. State your expectations for how the students will behave while you are conducting the assessment. For example, students should stay in their seats, work silently, and raise their hands if they have questions.
4. Direct the students’ attention to the first set of directions and read it aloud.
5. Give the students a few moments to silently read the first question and the answer choices below it. Remind them that they will mark the right answer by drawing a line beneath it. Have the students mark their answers for item 1, while you check to be sure they are drawing lines below their answer choices.
6. Repeat this procedure for the second set of directions. Remind the students that they will mark their answers in the same way.
7. Ask the students to return to item 1 and begin.
8. When the students have finished, collect their work.

## SCORING THE ASSESSMENT

1. Use the “Diagnostic Language Skills Task 1: Scoring Key” (DT1) to review student work. Compare each student’s completed language skills task against the scoring key.
2. Annotate each scoring key using the following marks:
  - a. Place a check mark beside each item that the student has answered correctly.
  - b. Place an X beside each incorrect answer.
3. Transfer results from the scoring key to the “Diagnostic Language Skills Tasks: Student Report” (DS1) as follows:
  - a. Write the student’s name at the top of the report. If this is not the first language skills task of the year, you might skip this step and use your previous student report.

- b. Find the column labeled *Items for Task 1*. Insert the date the assessment was conducted.
  - c. Circle the corresponding number for each assessment item the student has marked correctly.
  - d. Tally the number of items correct and insert that number in the last row of the Items for Task 1 column labeled *Total Number Correct*. This will show you how an individual student performed on the language skills that were tested in “Diagnostic Language Skills Task 1.”
4. After all three language skills tasks have been completed, tally the number of items correct across each row, and insert the total in the Total Items Correct column. This will show you how the student performed across all three language skills tasks.

---

### Teacher Note

The diagnostic language skills task results can also be scored using the CCC ClassView assessment app, which can be accessed by tapping the links in your *Digital Teacher’s Set* or through the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

## ANALYZING THE ASSESSMENT

Use the information you gather from the assessment to help inform your instruction.

1. Make note of any standard for which a student has marked only one of the two items correctly. This student is likely to need instruction in the language convention associated with that standard.
2. When a student scores 0–1 on a skill, record her name in the Task 1 column of the “Diagnostic Language Skills Tasks: Class Grouping Report” (DR1) beside the applicable standard.
3. After all of the student names have been recorded, students who require instruction will have been grouped by the language convention(s) that they need to practice.
4. Refer to the right-hand column of the “Class Grouping Report” to find the lessons that correspond to each convention. Use the lessons to instruct each group.
5. File the completed assessments in the students’ assessment folders.

## Diagnostic Language Skills Task 2

### CONDUCTING THE ASSESSMENT

1. Have the students turn to “Diagnostic Language Skills Task 2” on page 109 in their *Student Skill Practice Books*. You may also visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to download, print, and distribute to each student the “Diagnostic Language Skills Task 2” (BLM2).
2. Tell the students that today they are going to answer some questions to show what they know about good writing.
3. State your expectations for how the students will behave while you are conducting the assessment. For example, students should stay in their seats, work silently, and raise their hands if they have questions.
4. Direct the students’ attention to the first set of directions and read it aloud.
5. Give the students a few moments to silently read the first question and the answer choices below it. Remind them that they will mark the right answer by drawing a line beneath it. Have the students mark their answers for item 1, while you check to be sure they are drawing lines below their answer choices.
6. Repeat this procedure for the second set of directions. Remind the students that they will mark their answers in the same way.
7. Ask the students to return to item 1 and begin.
8. When the students have finished, collect their work.

### SCORING THE ASSESSMENT

1. Use the “Diagnostic Language Skills Task 2: Scoring Key” (DT2) to review student work. Compare each student’s completed language skills task against the scoring key.
2. Annotate each scoring key using the following marks:
  - a. Place a check mark beside each item that the student has answered correctly.
  - b. Place an X beside each incorrect answer.
3. Transfer results from the scoring key to the “Diagnostic Language Skills Tasks: Student Report” (DS1) as follows:
  - a. Write the student’s name at the top of the report. If this is not the first diagnostic language skills task of the year, you might skip this step and use your previous student report.

- b. Find the column labeled *Items for Task 2*. Insert the date the assessment was conducted.
  - c. Circle the corresponding number for each assessment item the student has marked correctly.
  - d. Tally the number of items correct and insert that number in the last row of the Items for Task 2 column labeled *Total Number Correct*. This will show you how an individual student performed on the language skills that were tested in “Diagnostic Language Skills Task 2.”
4. After all three language skills tasks have been completed, tally the number of items correct across each row, and insert the total in the Total Items Correct column. This will show you how the student performed across all three language skills tasks.

---

### Teacher Note

The diagnostic language skills task results can also be scored using the CCC ClassView assessment app, which can be accessed by tapping the links in your *Digital Teacher’s Set* or through the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

## ANALYZING THE ASSESSMENT

Use the information you gather from the assessment to help inform your instruction.

1. Make note of any standard for which a student has marked only one in two items correctly. This student is likely to need instruction in the language convention associated with that standard.
2. When a student scores 0–1 on a skill, record his name in the Task 2 column of the “Diagnostic Language Skills Tasks: Class Grouping Report” (DR1) beside the applicable standard.
3. After all of the student names have been recorded, students who require instruction will have been grouped by the language convention(s) that they need to practice.
4. Refer to the right-hand column of the “Class Grouping Report” to find the lessons that correspond to each convention. Use the lessons to instruct each group.
5. File the completed assessments in the students’ assessment folders.

## Diagnostic Language Skills Task 3

### CONDUCTING THE ASSESSMENT

1. Have the students turn to “Diagnostic Language Skills Task 3” on page 114 in the *Student Skill Practice Book*. You may also visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to download, print, and distribute to each student the “Diagnostic Language Skills Task 3” (BLM3).
2. Tell the students that today they are going to answer some questions to show what they know about good writing.
3. State your expectations for how the students will behave while you are conducting the assessment. For example, students should stay in their seats, work silently, and raise their hands if they have questions.
4. Direct the students’ attention to the first set of directions and read it aloud.
5. Give the students a few moments to silently read the first question and the answer choices below it. Remind them that they will mark the right answer by drawing a line beneath it. Have the students mark their answers for item 1, while you check to be sure they are drawing lines below their answer choices.
6. Repeat this procedure for the second set of directions. Remind the students that they will mark their answers in the same way.
7. Ask the students to return to item 1 and begin.
8. When the students have finished, collect their work.

### SCORING THE ASSESSMENT

1. Use the “Diagnostic Language Skills Task 3: Scoring Key”(DT3) to review student work. Compare each student’s completed language skills task against the scoring key.
2. Annotate each scoring key using the following marks:
  - a. Place a check mark beside each item that the student has answered correctly.
  - b. Place an X beside each incorrect answer.
3. Transfer results from the scoring key to the “Diagnostic Language Skills Tasks: Student Report” (DS1) as follows:
  - a. Write the student’s name at the top of the report. If this is not the first language skills task of the year, you might skip this step and use your previous student report.

- b. Find the column labeled *Items for Task 3*. Insert the date the assessment was conducted.
  - c. Circle the corresponding number for each assessment item the student has marked correctly.
  - d. Tally the number of items correct and insert that number in the last row of the Items for Task 3 column labeled *Total Number Correct*. This will show you how an individual student performed on the language skills that were tested in “Diagnostic Language Skills Task 3.”
4. After all three language skills tasks have been completed, tally the number of items correct across each row, and insert the total in the Total Items Correct column. This will show you how the student performed across all three language skills tasks.

---

### Teacher Note

The diagnostic language skills task results can also be scored using the CCC ClassView assessment app, which can be accessed by tapping the links in your *Digital Teacher's Set* or through the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

## ANALYZING THE ASSESSMENT

Use the information you gather from the assessment to help inform your instruction.

1. Make note of any standard for which a student has marked only one in two items correctly. This student is likely to need instruction in the language convention associated with that standard.
2. When a student scores 0–1 on a skill, record her name in the Task 3 column of the “Diagnostic Language Skills Tasks: Class Grouping Report” (DR1) beside the applicable standard.
3. After all of the student names have been recorded, students who require instruction will have been grouped by the language convention(s) that they need to practice.
4. Refer to the right-hand column of the “Class Grouping Report” to find the lessons that correspond to each convention. Use the lessons to instruct each group.
5. File the completed assessments in the students’ assessment folders.

# Introduction

With the advent of standards-based performance assessments, students are required to analyze and gather information from multiple sources and then produce writing in a specified genre. In standards-based end-of-year summative writing assessments, students are assessed on how well their writing exhibits the qualities of effective writing, as well as how successfully they evaluate, interpret, and integrate information from the sources. These performance-based writing assessments provide teachers, administrators, parents, and the students themselves with evidence of how well students have acquired the skills needed for research and writing.

The goal of the *Writing Performance Task Preparation Guide* is to provide students with strategies they can use to do their best writing in three genres: narrative, informative/explanatory, and opinion. The instruction helps you guide the students through the entire performance task, step by step. The students learn that each task has several parts, and they find out what is expected of them in each part. The guided practice also shows them how to apply what they already know about good writing. This practice and support helps the students gain the confidence they need to perform well when they take a standards-based writing assessment.

The units in this guide use the same pedagogy and five-day lesson structure as other units in the *Being a Writer* program. Support materials—including student handouts, interactive whiteboard activities, assessment record sheets, and instructional media—can be accessed via the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). For more information about the CCC Learning Hub, see “Using the Technology Features” on page xliv of the *Teacher’s Manual*.

# Teaching the Units

---

## How the Units Are Organized

The *Writing Performance Task Preparation Guide* includes three units: Narrative Writing, Informative/Explanatory Writing, and Opinion Writing. Each unit includes a Guided Practice Performance Task and one week of lessons. During the one week of lessons, the students complete the Guided Practice Performance Task as a class with support from you.

### **GUIDED PRACTICE PERFORMANCE TASK**

The Guided Practice Performance Tasks in this guide are designed to elicit the same types of thinking that will be required of students when completing standards-based writing performance tasks. These tasks require each student to gather and evaluate information about a given topic from multiple sources, use the information to answer research questions, and then produce an extended piece of writing.

Each performance includes teacher directions, student directions, source materials, graphic organizers, research questions, and scoring rubrics for the research questions. The tasks are not computerized and can be administered in a classroom environment using pencils, paper, and other classroom resources.

### **LESSONS**

Each one-week unit consists of five days of lessons. During the lessons, the students work as a class, in pairs, and independently to complete each portion of a performance task. As the students progress through the lessons, they are introduced to and then practice using strategies such as asking themselves questions about a source while reading, rereading a source, and rereading and analyzing their writing. These strategies help the students:

- Check for comprehension while reading or viewing a variety of sources (a video, articles, and a travel guide)
- Take notes from the sources and use graphic organizers to sort and record information
- Analyze directions to determine what they are being asked to do
- Evaluate, interpret, and integrate information from multiple sources to answer research questions
- Write cohesive pieces using the characteristics of good writing for the genre
- Evaluate their writing for characteristics of good writing and for elements of the genre

**Day 1** The students discuss the purpose of a performance-based writing assessment and the importance of doing their best on the assessment. They think about what they have learned about the characteristics of good writing and the elements of the genre. Then the students are introduced to the topic they will write about. They are provided with one or more sources about the topic and learn to stop occasionally when reviewing the source(s) to ask themselves questions about what they are learning. In pairs, they take notes on the source(s) and they each use a graphic organizer to sort and record information from the source(s).

**Day 2** The students are introduced to one or more additional sources, and they use the strategies from Day 1 to analyze what they have learned from the source(s). They again work in pairs to take notes, and they each use a graphic organizer to record and organize information from the source(s).

**Day 3** The students learn how to analyze three research questions to determine exactly what each question is asking them to do. They work in pairs to generate answers to the questions and then write their own answers to each question using information from the sources and their notes. With guidance from you, the students review their answers to make sure that they have crafted quality responses to each question.

**Day 4** The students focus on using information from the sources, with the aid of their notes and their answers to the research questions, to each write a cohesive piece in response to a provided writing assignment. First, the students analyze the writing assignment to determine what it is asking them to do. Then you model writing the first few paragraphs of your own piece using information from all of the sources. (You can write your own piece or use the model provided in the lesson.) The students talk with their partners about what they might write and then write their own pieces.

**Day 5** On the final day, you share your completed piece with the students. (You can use your own piece or the model provided in the lesson.) As you share, you point out how you incorporated what you know about good writing and how you met the requirements of the writing assignment. The students then analyze their own writing for the qualities of a well-written piece during a guided rereading, facilitated by you.

## Planning and Teaching the Lessons

The units in this guide can be taught in any order; however, we recommend teaching each unit after you complete the corresponding genre unit in the *Teacher's Manual*. (For a suggestion on how to include the units in this guide in your instruction for the year, see the Sample Calendar on page xxxiii of the *Teacher's Manual*.)

To prepare to teach the lessons, begin by reading the unit's introductory pages. The unit's opening page introduces you to the topic of the Guided Practice Performance Task and acquaints you with the goals of the unit, while the Overview table provides a general outline of the unit. The Resources list specifies the physical materials and the supplemental activities

for the entire unit, while the Online Resources list indicates all of the materials that are available digitally on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

Next, read the writing and social development focuses in the Week Overview. The Do Ahead section alerts you to special requirements for the week and any preparations you should make ahead of time. Preview the lessons and note how the instruction supports the unit’s writing and social development focuses from lesson to lesson. Also note the lessons that may require an extended class period.

## **USING A GUIDED PRACTICE PERFORMANCE TASK AS A PRACTICE TEST**

Since the students complete each Guided Practice Performance Task with extensive support from you and in collaboration with their partners, the students’ writing is not scored. However, if you feel that your students are ready to complete a performance task independently after completing two of the units, the final Guided Practice Performance Task in this guide can be administered as a practice test. Simply administer the final performance task without the instructional support.

**Scoring the Students’ Writing** If you choose to administer one of the Guided Practice Performance Tasks as a practice test, the research questions in Part 1 can be scored using the rubrics included at the end of the performance task. (For an example, see “Scoring Rubrics for Research Questions” on page 87.)

We recommend that you score the students’ writing using your state test’s writing rubric, which will identify the elements of writing emphasized in your state. The qualities of good writing emphasized in this guide are those taught and practiced throughout the *Being a Writer* program: writing a strong opening and closing; using transition words, sensory details, and interesting words; including elements of the genre; following writing rules for punctuation, spelling, grammar, and capitalization; and clear organization. If your state test’s writing rubric emphasizes other elements, you might incorporate instruction of those elements in the lessons by modeling their use during the teacher modeling in Day 4 of each unit.

# Narrative Writing

During this one-week unit, the students prepare for the narrative writing portion of a standards-based end-of-year writing performance task. They discuss what they have learned about narrative (fiction) writing and complete a practice performance task as a class, guided by the teacher. The task requires the students to each write a story about going on an imaginary safari during the yearly animal migration in Africa. To learn about this yearly event, the students read an article, watch a short video, and read a travel guide. They take notes about what they learn and use information from the sources and their notes to answer research questions and write their stories. Socially, the students listen respectfully to the thinking of others and share their own, make decisions with their partners, and explain their thinking.

# OVERVIEW

## “The Great Wildebeest Migration” article (BLM1)

This article describes the yearly migration of wildebeests and other animals in East Africa.

## “East African Safari” travel guide (BLM4)

The experiences and sights of going on an East African safari are described in this travel guide.

## “Wildebeest Migration” video (IV1)

This short video shows various animals during the yearly animal migration in East Africa.

### Writing Focus

- Students reflect on what they have learned about narrative (fiction) writing.
- Students read an article and watch a video about the topic, and take notes.
- Students read a travel guide about the topic and take notes.
- Students answer research questions about the topic, and plan and write stories.
- Students revise and proofread their writing.

### Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students make decisions together.
- Students explain their thinking.

## DO AHEAD

- ✓ Prior to Day 1, read “Guided Practice Performance Task: Narrative Writing” on pages 32–36. This unit’s lessons are based on this guided practice performance task. During the unit, the students complete this

## 1 DO AHEAD *(continued)*

performance task with instructional support and guidance from the teacher. For more information about how the performance task is used in the lesson, see “About the Guided Practice Performance Task” on page 6.

- ✓ Prior to Day 1, read the article “The Great Wildebeest Migration” (BLM1) to familiarize yourself with the content.
- ✓ Prior to Day 1, watch the “Wildebeest Migration” video (IV1). Familiarize yourself with the content of the video.
- ✓ Prior to Day 1, prepare a sheet of chart paper so that it resembles the “Article Notes” sheet (BLM2) the students will use.
- ✓ Prior to Day 1, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the student handouts (see “Reproducibles” on page 2). Make a class set of copies of the handouts listed, except for “Student Directions for Part 1” (BLM3). You might want to have extra copies of the note-taking sheet and graphic organizer available for the students.
- ✓ Prior to Day 1, prepare a class set of writing folders for the students to use to organize their materials throughout the week.
- ✓ Prior to Day 2, read the “East African Safari” travel guide (BLM4) to familiarize yourself with the content.
- ✓ Prior to Day 2, prepare a sheet of chart paper so that it resembles the “Travel Guide Notes” graphic organizer (BLM5) the students will use.
- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA1) on page 50.
- ✓ Prior to Day 3, prepare a sheet of chart paper so that it resembles the “Research Questions” sheet (BLM6) the students will use. You may want to write each question on a separate piece of chart paper.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2) on page 51.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA3) on page 52.

## TEACHER AS WRITER

*“A good head and good heart are always a formidable combination. But when you add to that a literate tongue or pen, then you have something very special.”*

— Nelson Mandela

As your students approach the day of the end-of-year writing performance task, take a step back and view the larger picture. Naturally you want your students to do well on the test. Beyond the demands of this particular test, what are your hopes for your students as writers? How do you hope that having a “literate pen” combined with a good head and a good heart will serve each of them? Write in your journal about your aspirations for your students. Consider sharing your writing with your students.

# Day 1

## Reading an Article, Taking Notes, and Watching a Video

### Materials

- Copy of the article “The Great Wildebeest Migration” (BLM1) for each student
- “Wildebeest Migration” video (IV1)
- Chart paper and a marker
- “The Great Wildebeest Migration” chart (WA1)
- “Article Notes” chart, prepared ahead
- Copy of the “Article Notes” sheet (BLM2) for each student
- A writing folder for each student

### Teacher Note

We recommend that you teach this unit after the class completes the Fiction genre unit.

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 5 and then finish the lesson later in the day or the next day.

### Teacher Note

The partners you assign today will stay together for the entire unit.

### In this lesson, the students:

- Work with new partners
- Reflect on what they know about good narrative (fiction) writing
- Read and discuss an article
- Take notes on the article as a class and in pairs
- Watch and discuss a short video
- Explain their thinking

### ABOUT THE GUIDED PRACTICE PERFORMANCE TASK

During this unit, the students complete a narrative writing performance task as a class with instructional support from you. The purpose for this guided practice performance task is to prepare the students for standards-based end-of-year performance tasks they will be required to complete independently. Five days of instruction are provided during which the students’ writing is neither timed nor scored. This unit’s performance task is not computerized and can be administered in a classroom environment using pencils, paper, and other classroom resources.

The topic of the performance task is taking an imaginary safari in East Africa during the yearly animal migration. The task consists of three sections: an Introductory Classroom Activity (students are introduced to the topic and examine two sources), Part 1 (students examine an additional source and answer research questions about the topic), and Part 2 (students write their own stories). For more information about each section, see “Task Overview” on page 33. For the complete performance task on which this unit’s instruction is based, see “Guided Practice Performance Task: Narrative Writing” on pages 32–36.

## GETTING READY TO WRITE

### 1 Pair Students and Introduce the Performance Task

Randomly assign partners and make sure they know each other’s names. Have the students bring their pencils and sit at desks with partners together.

Tell the students that at the end of the school year, all the students in their grade will complete a reading and writing assignment called a *performance task*. (You might explain that a *task* is a “job that needs to be done.”) Explain that the purpose for the performance task is to show how well they are developing and growing as readers and writers. This is important information for them as students, as well as for their families, teachers, and principal.

Remind the students that for the past several weeks they have been doing fiction writing. Explain that fiction writing is sometimes called narrative writing and that a narrative is a story. Tell the students that narrative, or story, writing is one type of writing they will do on the end-of-year performance task. Explain that during the next several days they will learn strategies for doing well on the narrative writing portion of the performance task.

## 2 Discuss What the Class Has Learned About Narrative Writing

Point out that the students have learned a lot about how to write good narrative, or fiction, pieces. Explain that they can use what they have learned to help them do well on the performance task. Ask and discuss the questions that follow as a class. Encourage the students to use the discussion prompts they have learned as they talk to one another.

- Q *What have you learned about good narrative, or fiction, writing?*
- Q *What did you do to make your narrative piece interesting and easy to read?*

### Students might say:

“It gets the reader hooked right from the beginning of the story.”

“I agree with [Sal]. I also think it has interesting characters and events.”

“Sometimes it includes dialogue.”

“It describes where the story is happening.”

“In addition to what [Sal and Daisy] said, it stays focused and makes sense.”

As the students respond, record their ideas on a sheet of chart paper titled “What We Have Learned About Narrative Writing.” If the students do not mention the following qualities of good narrative writing, briefly review them and add them to the chart.

### Teacher Note

You might explain to the students that narrative writing can be about true events from their own lives, which we call *personal narrative*, or about fictional (made-up) events. For the next several days, they will be focusing on fictional narratives.

### Teacher Note

The discussion prompts are:

- “I agree with \_\_\_\_\_ because...”
- “I disagree with \_\_\_\_\_ because...”
- “In addition to what \_\_\_\_\_ said, I think...”

### What We Have Learned About Narrative Writing

- Begins with an opening that makes the reader want to keep reading
- Includes interesting characters and events
- Describes the setting of the story
- Has a chronological sequence of events
- Sometimes includes dialogue
- Stays focused and makes sense
- Uses sensory details
- Has a point of view
- Follows writing rules for spelling, punctuation, capitalization, and grammar

Tell the students that you will post the chart where everyone can see it so that they can keep what they have learned about good narrative writing in mind as they prepare for the narrative writing performance task.

### 3 Introduce the Topic of the Guided Practice Performance Task

Explain that today you will introduce the students to the topic of the performance task, and they will read an article and watch a short video about the topic. In the coming days, they will learn more about the topic by reading a travel guide. Then, as a class, they will use what they learned to answer research questions and write stories about the topic.

Tell the students that they are going to learn about an animal migration that takes place in Africa every year. Write the word *migration* where everyone can see it. Explain that a *migration* is “when animals move from one place to another, usually as the seasons change.” Tell the students that during this animal migration huge numbers of animals, such as wildebeests and zebras, travel long distances to find food and water. Write the word *safari* where everyone can see it. Explain that a *safari* is a “trip to watch animals where they live in the wild” and that many people like to go on safaris to Africa to see this yearly animal migration.

### 4 Introduce the Article and Read It with Stops

Tell the students that they will read an article about the yearly animal migration in East Africa. Explain that the article describes what happens during the migration and includes pictures of the animals that migrate and a map of where they go. Display the chart “The Great Wildebeest Migration” (WA1) and distribute a copy of the article (BLM1) to each student. Tell the students that for this task you will read the article

aloud, but when they do performance tasks on their own they will read any source materials independently.

Ask the students to follow along as you read the article aloud, and explain that you will stop during the reading to have pairs discuss what they are learning. Read the title and the first two paragraphs aloud, slowly and clearly. Stop after:

“They must go where there is food and water.”

Ask and briefly discuss:

**Q** *What did you learn about the yearly animal migration in the part of the article you just heard? Turn to your partner.*

Without sharing as a class, continue reading the article aloud. Following the same procedure, have the students discuss what they learned at the following stops:

“For wherever rain falls, new grass grows.”

“There, they wait for next year’s migration.”

After reading the article, point to the the maps at the end of the article. Tell the students that these maps show where the continent of Africa is in the world and where in East Africa the yearly migration takes place. Then point to the main map and tell the students that this map shows the migration path of the animals, or where the animals move to, during different months of the year. Ask and briefly discuss:

**Q** *What questions do you have about the map?*

## WRITING TIME

### 5 Reread the Article and Take Notes as a Class and in Pairs

Post the “Article Notes” chart that you prepared ahead and distribute a copy of the “Article Notes” sheet (BLM2) to each student.

Tell the students that you will read the article again and that, as a class, they will use this note-taking sheet to take notes on what they are learning about the animal migration in Africa. Point to and read the heading aloud. Tell the students that they will list descriptions and details about the animal migration below this heading. Explain that as you read the article again you will stop, as you did before, and that at each stop the students will discuss what they have learned and what notes they will write on their note-taking sheets. Tell the students that this information will be useful when they plan and write their stories about going on an East African safari during the yearly migration.

Read the article and stop (as you did before) after:

“They must go where there is food and water.”

Discuss as a class:

**Q** *What did you learn about the animal migration in the part of the article you just heard?*

### Teacher Note

You might explain that a *source* is “something that information comes from, such as a book, video, website, or article.”

## Teacher Note

You may want to review that notes are most helpful when they are brief and written in the writer's own words rather than copied exactly from the source.

### Students might say:

"I learned that more than a million wildebeests migrate together and that their feet make a lot of noise and dust clouds."

"Other animals, like zebras and gazelles, migrate with the wildebeests."

"They migrate because they are looking for food and water."

As the students respond, model writing their responses as notes on the chart, and have the students copy the notes onto their own note-taking sheets.

Using the same procedure, read the next section of the article. Have the students discuss what they learned as a class, and model taking notes.

Stop after:

"For wherever rain falls, new grass grows."

At the last stop, have the students discuss what they learned in pairs (rather than as a class) and record their notes on their note-taking sheets. Stop after:

"There, they wait for next year's migration."

Have a few volunteers share what they discussed and what notes they recorded on their note-taking sheets. As they share, add their ideas to the chart.

### Article Notes

#### Descriptions and Details of the Wildebeest Migration

- over one million wildebeests migrate
- animals' pounding feet make dust clouds and rumbling noise
- zebras and gazelles migrate, too
- looking for food and water
- animals migrate every year
- happens in East Africa
- spend December–April on the Serengeti plains
- in April–May, the grasses die, so animals move north to find rain and new grass
- cross the Mara River in July through August
- follow the weather to find fresh grass
- begin returning to the Serengeti plains in October or November
- the animals travel in a loop

## 6 Watch and Discuss a Video

Tell the students that now they will watch a short video that shows the animal migration on the Serengeti plains. Tell the students that you will play the video two times; then they will discuss what they learned with the class. Play the “Wildebeest Migration” video (🎥 IV1) twice. Ask and briefly discuss:

- Q *What more did you learn about the animal migration from watching the video?*
- Q *What did you notice about the [animals/landscape] while watching the video?*

### Students might say:

“I learned that other animals migrate too.”

“I noticed most of the animals moved in the same direction.”

“The plains are really big and flat.”

“It was amazing to see how many animals there were, especially the wildebeests!”

Use “Think, Pair, Share” to discuss:

- Q *What details did you see in the video that you might add to your notes? [pause] Turn to your partner.*

Have a few volunteers share their thinking, and then give the students a few moments to add any information to their notes. Tell the students that tomorrow they will learn what it is like to go on a safari during the animal migration by reading a travel guide for an East African safari.

Distribute a writing folder to each student and explain that this is where the students will keep all of their materials for the week. Have the students put their materials inside their folders and keep them in their desks.

## SHARING AND REFLECTING

### 7 Reflect

Ask and briefly discuss:

- Q *What did you and your partner do to work well together today?*

### Teacher Note

Save the “What We Have Learned About Narrative Writing” chart and the “Article Notes” chart to use throughout the unit.

# Day 2

## Reading a Travel Guide and Taking Notes

### Materials

- Copy of the “East African Safari” travel guide (BLM4) for each student
- “Article Notes” chart from Day 1
- “Student Directions for Part 1” chart (WA2); also available as (BLM3)
- “East African Safari” chart (WA3)
- “Travel Guide Notes” chart, prepared ahead
- Copy of the “Travel Guide Notes” graphic organizer (BLM5) for each student
- A marker
- “Class Assessment Record” sheet (CA1)

### Teacher Note

The purpose for showing the “Student Directions for Part 1” chart (WA2) is to briefly introduce the students to the type of directions they will encounter when they do performance tasks by themselves. It is not necessary to take the students through all the directions now. They will have the experience of “following” the directions over the next few days. As you complete various parts of the directions, you might redisplay the chart and point out the steps the students have completed.

### In this lesson, the students:

- Review what they have learned about the yearly animal migration in East Africa
- Read and discuss a safari travel guide
- Take notes on the travel guide in pairs
- Make decisions together
- Work in a responsible way

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils and sit at desks with partners together. Review that the students are working together to complete a narrative writing task about going on an East African safari to prepare for the end-of-year performance task. Review that yesterday they discussed what they have learned about good narrative writing. They also read an article and watched a video about animal migration in East Africa. They read and discussed the article as a class and took notes about what they learned.

Direct the students’ attention to the “Article Notes” chart from Day 1. Briefly review the notes by asking:

**Q** *What did you learn about the wildebeest migration in Africa from the article we read yesterday?*

Tell the students that today they will learn about what it is like to go on a safari during the migration by reading a travel guide.

### 2 Introduce Student Directions for Part 1

Display the “Student Directions for Part 1” chart (WA2). Explain that these are directions for the first part of the performance task, in which the students read a travel guide about a safari in East Africa and write responses to research questions. Tell the students that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, you will read the travel guide aloud, rather than have the students read it on their own, and they will take more time than the directions say to complete the steps. Explain that when the students do performance tasks on their own later, they will follow the directions exactly.

### 3 Introduce the Travel Guide and Read It Aloud with Stops

Tell the students that today’s source is a travel guide titled “East African Safari.” Explain that the travel guide includes photos of animals that can be seen on the safari and a description of the safari’s camp and activities. Display the “East African Safari” chart (📄 WA3) and distribute a copy of the travel guide (BLM4) to each student. Ask them to follow along as you read the travel guide aloud, and explain that you will stop during the reading to have pairs discuss what they are learning.

Read the title and the first section of the travel guide aloud, slowly and clearly. Stop after:

“You won’t want to miss it!”

Ask:

**Q** *What did you learn about an East African safari in the part of the travel guide you just heard? Turn to your partner.*

Without sharing as a class, continue reading the travel guide. Following the same procedure, have the students discuss what they learned at the following stops:

“They can teach you what it is like to live in East Africa.”

“In the morning you will all leave with exciting stories to tell friends back home.”

## WRITING TIME

### 4 Reread the Travel Guide and Take Notes as a Class and in Pairs

Post the “Travel Guide Notes” chart that you prepared ahead and distribute a copy of the “Travel Guide Notes” graphic organizer (BLM5) to each student. Explain that the students will use this note-taking chart, called a *graphic organizer*, to take notes about what they are learning about safaris. Point out that the graphic organizer has two columns and a section at the bottom for other notes. Point to and read each column heading aloud. Explain that you will read the travel guide again with stops. At each stop, partners will discuss what more they learned and then write notes in the appropriate places on their own graphic organizers. Remind the students that they will use the information they collect to help them answer research questions and write stories about going on an East African safari during the yearly animal migration.

Read the travel guide and stop (as you did before) after:

“You won’t want to miss it!”

Discuss as a class:

- Q *What more did you learn about an East African safari in the part of the travel guide you just heard?*
- Q *Where might you put a note saying [the safari is on the Serengeti plains] on the graphic organizer? Why?*

**Students might say:**

"I learned that the safari is on the Serengeti plains. We should put that in the 'Other Notes' section because it tells about where the safari is and not what you would see, hear, or do on a safari."

"I learned that you could see elephants, rhinos, and giraffes. That would go in the left-hand column because those are animals you could see."

"If you go between December and April, you can see the wildebeests migrating. That should go in the left-hand column because it's something you might see."

As the students respond, model writing their responses as notes in the appropriate places on the chart, and have the students copy the notes onto their own graphic organizers. Using the same procedure, read the next section of the travel guide. Have the students discuss what they learned as a class, and model taking notes. Stop after:

"They can teach you what it is like to live in East Africa."

Read the last section of the travel guide and stop after:

"In the morning you will all leave with exciting stories to tell friends back home."

Ask the following questions one at a time, without discussing them as a class:

- Q *What more did you learn about an East African safari in the part of the travel guide you just heard?*
- Q *Where will you write a note about what you learned on the graphic organizer, and why will you write the note there?*

Say "Turn to your partner," and give partners a few minutes to share their thinking and write notes about what they learned on their graphic organizers. As they work, circulate, observe, and offer assistance.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners able to agree about what information to include in their notes?
- Are they recording notes in the appropriate places on their graphic organizers?
- Are they writing notes in their own words?

If you notice many students having difficulty writing notes, call for the class's attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate place on the chart. As necessary, encourage the students to reread the travel guide to collect the information they need.

Record your observations on the "Class Assessment Record" sheet (CA1); see page 50.

After a few minutes, ask volunteers to share their thinking about what they learned and what notes they recorded on their graphic organizers. Then add their ideas to the chart.

Travel Guide Notes	
What You Might See and Hear on an African Safari	What You Might Do on an African Safari
- elephants, rhinos, and giraffes	- stay in nice tents with beds near a river
- wildebeests migrating	- eat good food
- rivers	- go on drives to see the animals early in the morning and late in the afternoon
- plains with mountains in the distance	- travel in a car with open sides to see animals
- stars in the sky at night	- rest and swim when it's hot in the middle of the day
- sounds of animals at night	- look at stars and listen to animals at night
- roar of lions	- visit a school and talk to local children
- lions feeding in the late afternoon	- make friends
- leopards hunting at night	- have a safari party
- nearby school and schoolchildren	
Other Notes:	
- The camp is on the Serengeti plains.	
- Lions, leopards, and cheetahs don't migrate.	

Tell the students that tomorrow they will work together, using the sources and their notes, to answer research questions about the yearly animal migration and safaris in East Africa. Have them put their materials inside their folders.

## SHARING AND REFLECTING

### 5 Reflect

Ask and briefly discuss:

- Q *Why do you think it is a good idea to read a source more than once, like we did today?*
- Q *What did you do today to work in a responsible way?*

### Teacher Note

Save the “Travel Guide Notes” chart to use throughout the rest of the unit.

# Day 3

## Writing Responses to Research Questions

### Materials

- “Article Notes” and “Travel Guide Notes” charts from Day 2
- “Research Questions” chart, prepared ahead
- Copy of the “Research Questions” sheet (BLM6) for each student
- A marker
- “The Great Wildebeest Migration” chart (WA1) from Day 1
- “East African Safari” chart (WA3) from Day 2
- “Class Assessment Record” sheet (CA2)

### In this lesson, the students:

- Read and discuss research questions about the yearly animal migration and safaris in East Africa, as a class
- Identify words in the questions that give clues about what to write
- Write responses to the questions as a class and independently
- Reflect on and revise their responses

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils and sit at desks with partners together. Remind the students that they are learning strategies they can use to do well on the end-of-year performance task. Direct the students’ attention to the “Article Notes” chart from Day 1 and the “Travel Guide Notes” chart from Day 2, and review that the students read an article and a travel guide and took notes about what they learned. Explain that today they will use their notes and the sources to answer research questions about the yearly animal migration and safaris in East Africa.

## 2 Model Reading a Question and Writing a Response

Post the “Research Questions” chart that you prepared ahead. Distribute a copy of the “Research Questions” sheet (BLM6) to each student, and have the students write their names and the date on their sheets. Explain that these are the questions the students will answer in Part 1 of the performance task.

Tell the students that the first step in writing a response to a question is to read and think carefully about the question. Point to Question 1 on the chart and ask the students to listen closely as you read it aloud twice. Discuss:

**Q** *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, point out that the question is asking for what happens during the yearly animal migration in East Africa. Point to the statement following the question and read it aloud. Explain that “use details from the sources” means that the students should use facts and other details from the sources and their notes to write their responses. Underline “What happens during the yearly animal migration in East Africa?” and “use details from the sources” on the chart.

Ask the students to watch as you model writing a response to the first question on the chart, thinking aloud as you write. Display the chart “The Great Wildebeest Migration” (WA1) and model reviewing the source and your notes for the information you need. Then display the “East African Safari” chart (WA3) and follow the same procedure.

### You might say:

“I know that the question is asking me to use details from the sources to explain what happens during the yearly animal migration. The article gives a lot of details about the migration, and in my article notes, I wrote that there are over a million wildebeests. I also wrote that they migrate to find food and water. I’ll write: *Each year, millions of wildebeests migrate from place to place to find food and water.* My notes also say that zebras and gazelles join the wildebeests. I’ll add: *Zebras and gazelles migrate, too.*”

### Research Questions

1. What happens during the yearly animal migration in East Africa?  
Use details from the sources in your answer.

*Each year, millions of wildebeests migrate from place to place to find food and water. Zebras and gazelles migrate, too.*

### Teacher Note

The consortia that are developing the end-of-year performance tasks plan to deliver the assessment electronically. This means that individual students will have computer or tablet access to all research sources, including videos, as they respond to questions and write extended pieces.

### 3 Read and Discuss Questions as a Class

Explain that the students will read and discuss Questions 2 and 3 as a class. Then, during Writing Time, the students will work in pairs to discuss what they might write in response to those questions, and each write their own responses on their “Research Questions” sheet.

Point to Question 2 on the “Research Questions” chart and read it aloud twice. Ask and discuss:

**Q** *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, explain that the question is asking for “two things you learned about staying in a safari camp” and for “details from the source.” Underline those key phrases on the chart.

Follow the same procedure to discuss Question 3. If necessary, explain that the question is asking for two things you might see if you were on a safari during the yearly animal migration and for details from the sources. Underline “describe at least two things you see” and “use details from the sources” on the chart. Point out that both the article and the travel guide contain information that the students can use to answer this question.

## WRITING TIME

### 4 Discuss Questions in Pairs and Write Answers

Have partners discuss what they might write in response to Questions 2 and 3. Review that each student will write his own response to the questions on his “Research Questions” sheet. Remind the students to use details from their notes and from the article and travel guide in their responses. As the students work, circulate, observe, and offer assistance.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students’ responses indicate that they understand what each question is asking?
- Are they able to incorporate details from their notes and the sources in their responses?

*(continues)*

## CLASS ASSESSMENT NOTE *(continued)*

If you notice the students struggling to write responses, support them by asking questions such as:

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the source can you find that information?*
- Q *How might you include information from your notes and the sources in your answer?*

Record your observations on the “Class Assessment Record” sheet (CA2); see page 51.

## 5 Facilitate Guided Rereading and Revising of Responses

Tell the students that they will now reread their responses to Questions 2 and 3 and then reflect on the quality of their responses by thinking about some questions you will ask.

Have the students quietly reread their response to Question 2 and look up when they are finished. Ask the following questions one at a time, pausing after each one to give them a moment to review their writing and, if necessary, their sources and notes:

- Q *Does your response clearly describe at least two things you learned about staying in a safari camp? If not, what might you write instead?*
- Q *Do you think your response includes enough details from the sources? If not, what details might you add?*

Without discussing as a class, have the students revise their responses as necessary. Remind them to refer to the travel guide and notes, if needed.

Using the same procedure, ask the following questions and then have the students reflect on and revise their responses to Question 3:

- Q *Does your response clearly describe at least two things you might see while on a safari during the yearly animal migration? If not, what might you add or take out to improve it?*
- Q *Do you think your response includes enough details from the sources? If not, what details might you add?*

## SHARING AND REFLECTING

### 6 Share Responses and Reflect

After several minutes, have a few volunteers share with the class what they wrote in response to Question 2. As they share, use their ideas to model writing a well-crafted response to the question on the “Research Questions” chart.

Following the same procedure, model writing a response to Question 3.

#### Research Questions

2. Describe at least two things you learned about staying in a safari camp from the travel guide. Use details from the source in your answer.

*You go to see the animals in the morning and the late afternoon. At night you sleep in a tent. You can hear animal sounds.*

3. Imagine you are on a safari during the yearly animal migration in East Africa. Describe at least two things you see. Use details from the sources in your answer.

*The migrating animals run together across the plains. There are so many that they make dust clouds. There are many other animals, such as lions and giraffes.*

Have the students reflect on their work by asking:

**Q** *Do you think your notes helped you write good responses to the questions? Why or why not?*

Tell the students that tomorrow they will use the sources, their notes, and their answers to the research questions to each write a story about going on a safari during the yearly animal migration. Have them put their materials inside their folders.

#### Teacher Note

Save the “Research Questions” chart to use on Day 4.

## In this lesson, the students:

- Plan and write stories about going on an imaginary safari during the yearly animal migration
- Include qualities of a well-written narrative in their writing
- Reflect on how they felt about writing their stories
- Listen respectfully to the thinking of others

## GETTING READY TO WRITE

### 1 Briefly Review

Have students bring their folders and pencils and sit at desks with partners together. Point to the “Research Questions” chart and remind the students that yesterday they completed the first part of the guided practice performance task—answering questions about the yearly animal migration and safaris. Explain that today they will work together on the second part of the task—writing a story about going on an imaginary safari during the migration.

### 2 Introduce and Discuss the Story-writing Task

Display the “Student Directions for Part 2” chart (WA4) and distribute a copy of the directions (BLM7) to each student. Explain that these are directions for the second part of the performance task, in which the students each write a story about going on a safari during the yearly animal migration. Review that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, they will take more time than the directions say to write their stories. Remind the students that when they do performance tasks on their own later, they will need to follow the directions exactly.

Ask the students to listen as you read each section of the directions aloud, using the following procedure:

1. Read the section “Your Task” aloud and review that the students may use the sources, their notes, and their answers to the research questions to help them write their stories. Remind the students that when they do performance tasks on their own they will be timed, but that today they will not be.
2. Read the section “Your Writing Assignment” aloud and review that each student needs to write a story about going on a safari during the yearly animal migration. Remind them that they can

## Materials

- “Student Directions for Part 2” chart (WA4)
- Copy of “Student Directions for Part 2” (BLM7) for each student
- “What We Have Learned About Narrative Writing” chart from Day 2
- “Article Notes,” “Travel Guide Notes,” and “Research Questions” charts from Day 3
- “The Great Wildebeest Migration” chart (WA1) from Day 3
- “East African Safari” chart (WA3) from Day 3
- Lined writing chart (WA5) for modeling
- “Writing Time” chart (WA6)
- Supply of lined paper for writing stories
- “Class Assessment Record” sheet (CA3)

## Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 3 and then finish the lesson later in the day or the next day.

**TEKS 11.A.i**  
**Student/Teacher Narrative**  
**Step 2 and Step 3 (all, beginning on page 21 and continuing on to page 23)**

write their stories in any way they want, but that they need to include information about safaris in East Africa.

3. Read the section “Begin Work on Your Narrative” aloud. Point out the information that is relevant for this performance task (for example, “plan,” “write,” and “revise”) and underline it.
4. Read the list of qualities of a well-written narrative aloud. Point out that the list is similar to the list the class created on the “What We Have Learned About Narrative Writing” chart. Tell the students that they may refer to both lists as they write their stories.

Ask and briefly discuss:

**Q** *What questions do you have about the directions for writing the story?*

Tell the students that they will do the writing task together as a class and that this will help prepare the students to do a task like this on their own.

### **3** Model Planning and Starting the Story

Tell the students that you will model writing the first two paragraphs of the story. Remind them that the story needs to describe a safari during the yearly animal migration and that it needs to include information from the sources. Tell them that you will write an opening paragraph to introduce the setting and the focus of the story, and then you will write a paragraph describing the safari camp. Direct the students’ attention to the qualities of a well-written narrative in the directions (BLM7) and explain that as you write the story, you will include these qualities in your writing.

Display the lined writing chart (WA5) and model writing a paragraph that introduces the setting and the focus of the story. Then write a paragraph about the safari camp. Think aloud as you write, and remember to model reviewing your notes and the sources to find the information you need. Be sure to include qualities of a well-written narrative, such as a setting and story focus, and descriptions and sensory details.

#### **You might say:**

“My opening paragraph needs to introduce readers to the setting and the focus of the story and make them want to keep reading. My story is going to be about going on an imaginary safari with my family in Africa during the yearly animal migration. I’ll write: *During spring break, my family and I went to East Africa to go on a safari. I was so excited the night before we left that I hardly slept at all. I just knew it was going to be a wonderful trip.* This shows I understood the assignment because my story is about going on a safari in East Africa. I think the sentence ‘I just knew it was going to be a wonderful trip’ will get readers hooked and make them want to know more about what happened on the trip. I need to introduce readers to the focus of the story, which is going on a safari to see the migrating animals, so I’ll write: *I could not wait to see all the wild animals!*”

My next paragraph will describe the safari camp. I will use the information from my notes and the travel guide to describe the camp. I'll write: *When we finally arrived on the Serengeti plains, we drove to the camp where we were staying. As we got closer to the camp, I saw some white tents. They looked tiny against the huge plains. We could see the mountains in the distance and I could not believe how big the sky looked!* I think the description of the camp and sky will help readers picture the setting in their minds. Now I'll describe more about the camp. In my notes on the travel guide, I wrote that people eat good food. I'll write: *After a tasty dinner, we went to bed early. We had to get up before the sun the next morning for our first drive to see the animals."*

WA5

After you have modeled writing the first two paragraphs of the story, stop and explain that during Writing Time today the students will write their own stories. Explain that the students will use their notes and sources to write an opening paragraph and several other paragraphs to describe their safari. Use “Think, Pair, Share” to discuss:

**Q** *What might you write about in your story today? [pause] Turn to your partner.*

After a few moments, signal for the students' attention and remind them that each student will write her own story. Explain that you will also finish your own story and share it with the class tomorrow.

### Teacher Note

You might remind the students that the setting of their stories needs to be an East African safari during the yearly animal migration, but that they may choose any characters and events to include in their stories.

# WRITING TIME

## 4 Write Stories

Explain that when the students complete the actual performance task they will write their stories using a computer, but that today they are practicing on paper. Distribute loose, lined sheets of paper and explain that the students will use this paper to write their stories. Display the “Writing Time” chart (📄 WA6) and have the students work quietly for 30–40 minutes. As they work, circulate, observe, and offer assistance.

WA6

### Writing Time

- Reread the writing assignment in “Student Directions for Part 2.”
- Write an opening paragraph that introduces the focus of the story and hooks the reader.
- Include interesting characters and events in the story.
- Include sensory details and other qualities of a well-written narrative in your story.
- Write a conclusion that wraps up the story.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Does the students’ writing indicate that they understand the task?
- Are they able to introduce the topic and the setting in the opening paragraph of the story?
- Does their writing stay on topic?
- Are they able to incorporate information from their notes and the sources into their stories?

If you notice a student having difficulty starting to write after 5–10 minutes, help stimulate his thinking by asking questions such as:

- Q *What is the topic of your story? What might you write in the opening paragraph to introduce the topic and the setting of the story?*
- Q *How might you use your notes to help you decide what to write in your story?*
- Q *What information from your notes or the sources might you use to describe [what you see on the safari]?*

Record your observations on the “Class Assessment Record” sheet (CA3); see page 52.

Signal the end of Writing Time. Tell the students that tomorrow they will have time to revise and proofread their stories. Have them put their stories and other materials in their folders.

## SHARING AND REFLECTING

### 5 Reflect on Writing Stories

Ask and briefly discuss:

- Q *What did you enjoy about writing your story today? What did you find challenging?*
- Q *What did you and your partner do to listen respectfully to each other as you shared ideas about what you might write in your stories?*

### Teacher Note

Prior to teaching the Day 5 lesson, you will need to write the rest of your story (see the diagram in Day 5, Step 2 on page 26). Include information from the sources, sensory details, and other qualities of a well-written narrative in your story. Save the completed story on the lined writing chart (WA5) to use on Day 5.

## Revising and Proofreading a Story

## Day 5

### In this lesson, the students:

- Revise their stories
- Proofread their stories
- Express interest in and appreciation for one another's writing
- Reflect on what they have learned and how that will help them on the end-of-year performance task

### Materials

- Completed story on the lined writing chart (WA5) from Day 4
- "Student Directions for Part 2" chart (WA4) from Day 4

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils and sit at desks with partners together. Remind them that yesterday they each planned and wrote a story about going on an East African safari during the yearly animal migration. Explain that today they will have the opportunity to revise and proofread their stories.

### 2 Discuss Your Story

Display your completed story on the lined writing chart (WA5) and tell the students that yesterday you finished your story. Ask them to follow along as you read it aloud. Review that the opening paragraph introduces the focus and the setting of the story and hooks the reader. In the remaining paragraphs, point out the clear organization, the use of sensory details to make the story more interesting, and other qualities of a well-written narrative.

**You might say:**

"In my first paragraph, I explained that my story would be about going on an African safari with my family. I tried to hook the reader by writing 'I just knew it was going to be a wonderful trip.' I think that will make the reader want to keep reading to find out what happened during my trip.

My story stays focused, and the events of the story make sense. After the introduction, I wrote a paragraph describing the camp. Then I wrote about what we did in the morning, afternoon, and evening. I stayed on the topic throughout the story.

I included specific information from the sources to describe the camp and the animals. For example, I described the tents at the camp. I also described how there were baby elephants following the grown-up elephants.

I used sensory details to describe the setting and the animals. For example, in the third paragraph, I wrote about how 'we drove toward the rising sun.' I think that will help the reader imagine what it felt like to be there. I also wrote that 'we heard a loud rumbling noise and saw something that looked like a huge ball of smoke' to help the reader imagine what it was like to see the migration of the wildebeests.

The last two sentences, 'We took turns sharing our favorite stories from the safari. What a great trip!' wrap up the story in an interesting way and let the reader know the story has come to an end."

WA5

*During spring break, my family and I went to East Africa to go on a safari. I was so excited the night before we left that I hardly slept at all. I just knew it was going to be a wonderful trip. I could not wait to see all the wild animals!*

*When we finally arrived on the Serengeti plains, we drove to the camp where we were staying. As we got closer to the camp, I saw some white tents. They looked tiny against the huge plains. We could see the mountains in the distance and I could not believe how big the sky looked! After a tasty dinner, we went to bed early. We had to get up before the sun the next morning for our first drive to see the animals.*

*The next day we were up early and everyone got into a car without any sides. As we drove toward the rising sun, we saw some giraffes. We also saw rhinos and elephants up close!*

(continues)

(continued)

WA5

My favorite part was watching the baby elephants follow the grown-ups. Suddenly, we heard a loud rumbling noise and saw something that looked like a huge ball of smoke. Thousands of wildebeests were running together, and some zebras and gazelles trailed behind. It was very exciting! Our guide told us that these animals were migrating to the north to find more water and food.

In the afternoon, we went back to the camp to rest and go for a swim. Then we headed out to see more animals. This time we saw lions. I was glad they weren't very close because they looked hungry. A little later, we saw a cheetah chasing a gazelle. That cheetah was fast! That night, we had fun talking to the other people in our camp. We took turns sharing our favorite stories from the safari. What a great trip!

## WRITING TIME

### 3 Facilitate Guided Rereading of Stories

Tell the students that they will have time today to finish their stories, but that first they will reread what they have written. Then you will ask some questions for them to think about. Have them quietly reread their writing and look up when they are finished.

Ask the following questions one at a time, giving the students 1–2 minutes after each question to quietly review their writing and mark passages:

- Q *Do you think your opening paragraph does a good job of introducing the setting and the focus of the story? If not, what might you write instead?*
- Q *Do you think your story is clearly focused throughout and that the events happen logically? If you don't think the story is focused, what might you change to make it focused? Underline parts of the story you might change or move around.*
- Q *Are there places where you used, or could use, details from the sources to make your story more interesting? Put a check mark in the margin next to those places.*

- Q *Are there places where you used, or could use, sensory details to describe the setting, characters, or events of the story? Put a star in the margin next to each of those places.*
- Q *Do you think your conclusion does a good job of wrapping up your writing and letting the reader know that the story has come to an end? If not, what might you write instead?*

Without discussing as a class, have the students resume writing for another 10–15 minutes.

#### 4 Facilitate Proofreading of Stories

Display the “Student Directions for Part 2” chart (WA4) and remind the students that it states that a well-written narrative “follows rules for spelling, punctuation, capitalization, and grammar.” Explain that the students will proofread their stories to find and correct any spelling, punctuation, capitalization, and grammar errors. Ask:

- Q *Why will you want to proofread your story before turning it in?*
- Q *What will you check for when you are proofreading?*

**Students might say:**

“Mistakes could make my writing harder to read and understand.”

“I will check to make sure I’ve capitalized names and the beginning of every sentence.”

“In addition to what [Samia] said, I want to make sure every sentence ends with a period, a question mark, or an exclamation point.”

“In addition to what [Samia and Lester] said, I want to correct any spelling errors I find.”

Give the students 5–10 minutes to proofread their stories and make any necessary corrections.

## SHARING AND REFLECTING

#### 5 Share Writing and Reflect

Have a few volunteers share their stories with the class; then ask:

- Q *What qualities of good narrative writing did you notice in [Samson’s] story?*
- Q *What questions can we ask [Elena] about her writing?*

Review that this week the students have been learning strategies for doing well on the end-of-year performance task. Ask and briefly discuss:

- Q *What have you learned this week that will help you do well on the performance task? Turn to your partner.*

---

## EXTENSIONS

### Complete a Diagnostic Language Skills Task

To assess how your students are progressing with Language Standards, you might choose to administer a Diagnostic Language Skills Task in Appendix C of the *Skill Practice Teaching Guide* (also see “Assessing Language Skills” on page xi).

### Complete a Writing Practice Performance Task Independently

Many states provide a practice performance task that students complete independently. It can be given right after the guided practice, or at a later time.

Introduce the performance task by reminding the students that they spent one week learning about and preparing for the narrative writing portion of the end-of-year writing performance task. Explain that the students will now have the opportunity to do a practice performance task on their own on a different topic, and that they can use what they learned to do their best work on the task. Tell them that they will do this practice performance task under conditions like those they will experience when completing the end-of-year performance task, and that this will help them to be better prepared to do well.

# Task Overview

---

## Introductory Classroom Activity 20 MINUTES

This whole-class activity introduces the students to the topic of the performance task—going on an imaginary East African safari during the yearly animal migration—and helps prepare them to answer research questions and write a narrative about the topic. As part of this activity, the students will read and discuss an article about the migration titled “The Great Wildebeest Migration.” Then they will watch a short video called “Wildebeest Migration.” They will also be reminded of the features of good narrative writing.

During the introductory activity, the teacher will lead a whole-class discussion about the article and the video. The students may take notes using the provided note-taking sheet to help them prepare for writing. The students may use their notes from the Introductory Classroom Activity when they plan, write, and revise their own multi-paragraph narratives in Part 2.

## Part 1 35 MINUTES

The students will read a travel guide titled “East African Safari” that includes information about going on a safari. The students are encouraged to take notes using the provided graphic organizer to help them prepare for writing. Then the students will respond to three research questions that require them to analyze, evaluate, interpret, and integrate information.

## Part 2 70 MINUTES

The students will each plan, write, and revise a narrative about going on an African safari during the yearly animal migration. They may refer to the sources from the Introductory Classroom Activity and Part 1, any notes they took, and their answers to the research questions. The students may not, however, change their answers to the questions.

## Scoring

The research questions in Part 1 can be scored with the rubrics included at the end of this performance task (see “Scoring Rubrics for Research Questions” on page 37). Any notes, prewriting, or drafts will not be scored.

## Teacher Preparation

- Make sufficient blank paper and writing tools available for students to use in taking notes. You might make extra copies of the note-taking sheet and the graphic organizer.
- Make a class set of copies of the student handouts on pages 40–48.
- Make dictionaries available to use during Part 2 of the performance task. (Some standards-based assessments are computer-based with many of the student materials, including access to spell-check, available within the testing environment. For the purpose of student practice, the materials for the guided practice performance task have been modified so that they can be administered using pencils, paper, and other classroom resources.)

---

## Teacher Directions for the Introductory Classroom Activity

---

### 1 Introduce the Topic

Tell the students that they are going to learn about an animal migration that takes place in Africa every year. Write the word *migration* where everyone can see it. Explain that a *migration* is “when animals move from one place to another, usually as the seasons change.” Tell the students that during this animal migration huge numbers of animals, such as wildebeests and zebras, travel for long distances to find food and water. Write the word *safari* where everyone can see it. Explain that a *safari* is a “trip to watch animals where they live in the wild” and that many people like to go on safaris in Africa to see this yearly animal migration.

### 2 Examine Sources

Tell the students that they will read an article about the yearly wildebeest migration in East Africa. Distribute the article “The Great Wildebeest Migration” and the note-taking sheet (see Student Handouts 1–2 on pages 40–42) and tell the students that they can take notes about the article as they read it.

Have the students read the article to themselves. Lead a whole-class discussion using the following question:

**Question:** *What makes the migration an exciting event?*

Tell the students that now they will watch a short video that shows the animal migration on the Serengeti plains. Tell the students that they may add information from the video to their notes as they watch it.

Play the “Wildebeest Migration” video. After viewing the video, lead a whole-class discussion using the following questions:

**Question 1:** *What more did you learn about the animal migration from watching the video?*

**Question 2:** *What did you notice about the [animals/landscape] while watching the video?*

### 3 Explain the Writing Task

Tell students that in a few minutes they will examine another source about the yearly animal migration in East Africa. Then the students will use all of the sources and their notes to answer some questions and write their own narratives about going on an East African safari during the migration.

Discuss with the students the characteristics of a well-written narrative. A narrative:

- Has a setting and story focus
- Has a point of view for the narrator
- Stays on focus throughout the narrative
- Has a plot that develops logically
- Uses descriptions and sensory details
- Has a logical conclusion
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

Answer any questions the students might have and then move on to Part 1 of the performance task.

## Teacher Directions for Parts 1 and 2

---

### Part 1 35 MINUTES

1. Distribute copies of the source material, graphic organizer, student directions, and research questions (see Student Handouts 3–6 on pages 43–47) to each student and have the students write their names on all materials. Note that the students should not receive the directions specific to writing their narratives until Part 2.
2. Tell the students to read “Student Directions for Part 1” (see Student Handout 3 on page 43). Remind the students they will have 35 minutes for Part 1, and then tell them to begin.
3. To help the students plan their time, alert them when 15 minutes and 5 minutes remain in Part 1.
4. Signal to let the students know that Part 1 is over.

## BREAK

## Part 2 70 MINUTES

1. Distribute a copy of “Student Directions for Part 2” (see Student Handout 7 on page 48) to each student. Make sure the students have access to all of the sources, the note-taking sheet, the graphic organizer, any other notes, and their answers to the research questions. Remind the students that they may not change the answers to the research questions from Part 1.
2. Tell the students to read “Student Directions for Part 2” and explain that their writing assignment is included in these directions.
3. After 15 minutes have elapsed, suggest that the students begin writing their narratives.
4. Alert the students when 30 minutes remain.
5. Alert the students when 15 minutes remain, and suggest that they begin revising their narratives.
6. Signal to let the students know that Part 2 is over and collect all materials from each student.

# Scoring Rubrics for Research Questions

---

## 2-Point Research Rubric

### Question 1:

*What happens during the yearly animal migration in East Africa? Use details from the sources in your answer.*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides a sufficient explanation of the yearly animal migration in East Africa.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides a limited explanation of the yearly animal migration in East Africa.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not provide an explanation of the yearly animal migration in East Africa; it may be incorrect, incomplete, vague, or completely absent.

#### Sample 2-Point Response

Each year, millions of wildebeest migrate from place to place to find food and water. Zebras and gazelles migrate, too.

#### Sample 1-Point Response

Wildebeests, zebras, and gazelles look for food and water.

#### Sample 0-Point Response

You can see the animals on a safari.

## 2-Point Research Rubric

### Question 2:

*Describe at least two things you learned about staying in a safari camp from the travel guide. Use details from the source in your answer.*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides two examples of life in an East African safari camp.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides one example of life in an East African safari camp, or, if multiple examples are provided, only one is correct.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not provide examples of life in an East African safari camp, or, if examples are provided, they may be incorrect, incomplete, or vague.

#### Sample 2-Point Response

You go to see the animals in the morning and the late afternoon. At night you sleep in a tent. You can hear animal sounds.

#### Sample 1-Point Response

People cook for you at the safari camp.

#### Sample 0-Point Response

People go on safaris to see the animals.

## 2-Point Research Rubric

### Question 3:

*Imagine you are on a safari during the yearly animal migration in East Africa. Describe at least two things you see. Use details from the sources in your answer.*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides two examples of what can be seen on an East African safari during the yearly animal migration.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides one example of what can be seen on an East African safari during the yearly animal migration, or, if multiple examples are provided, only one is correct.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not provide examples of what can be seen on an East African safari during the yearly animal migration, or, if examples are provided, they may be incorrect, incomplete, or vague.

#### Sample 2-Point Response

The migrating animals run together across the plains. There are so many that they make dust clouds. There are many other animals, such as lions and giraffes.

#### Sample 1-Point Response

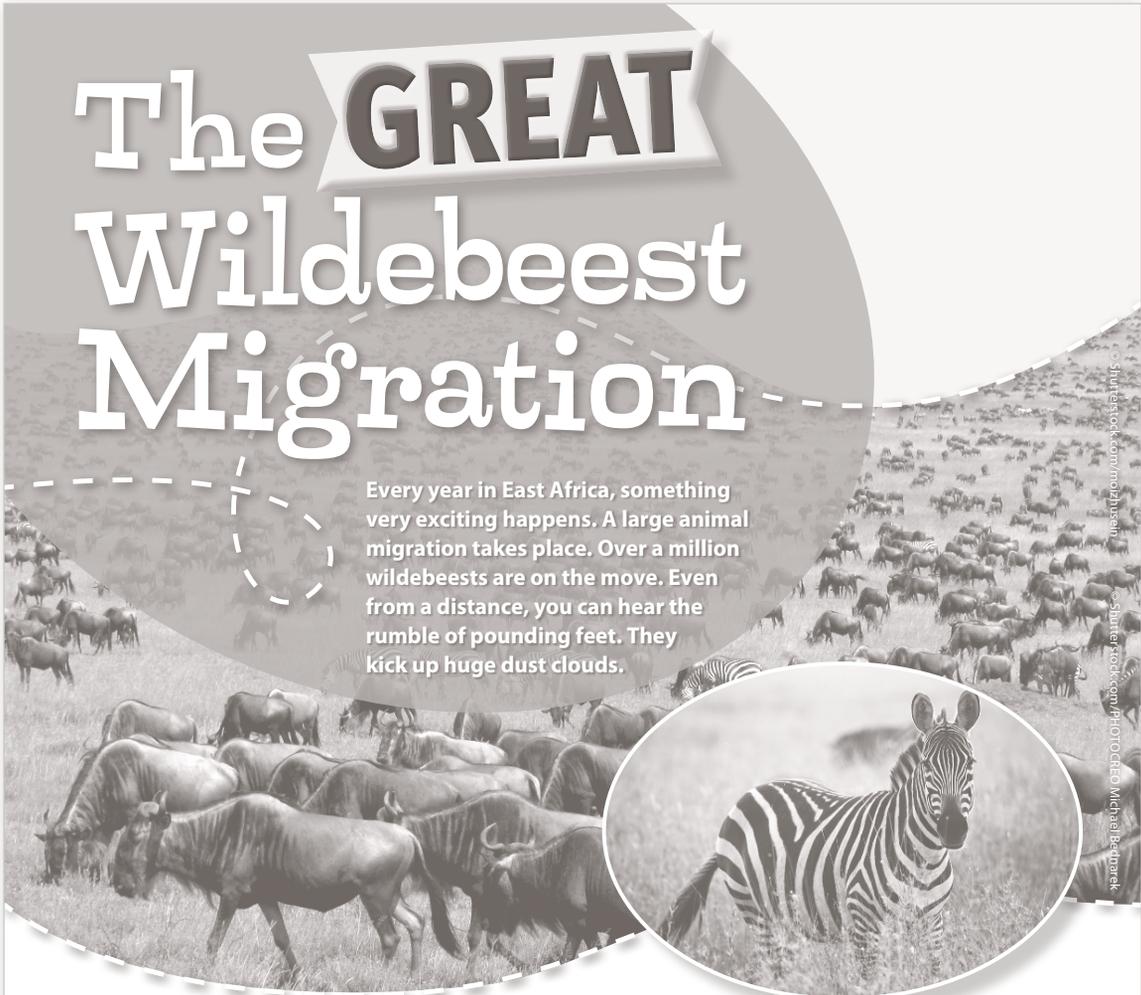

The plains look really big. The plane ride is long.

#### Sample 0-Point Response

A guide picks you up at the airport.

# The **GREAT** Wildebeest Migration

Every year in East Africa, something very exciting happens. A large animal migration takes place. Over a million wildebeests are on the move. Even from a distance, you can hear the rumble of pounding feet. They kick up huge dust clouds.

Zebra

Gazelle

Hundreds of thousands of zebras and gazelles join the wildebeests. Around two million animals can be on the move at the same time! Where are they going? Why do they migrate? The answer is simple. They must go where there is food and water.

## The Migration Path

The wildebeests spend December through April on the Serengeti plains. There is plenty of grass for them to eat. When the dry season begins in April or May, the grass dies. There isn't enough water to drink. The wildebeests start moving north. They go in search of more water and fresh grass.

(continues)

# Student Handout 1 *(continued)*

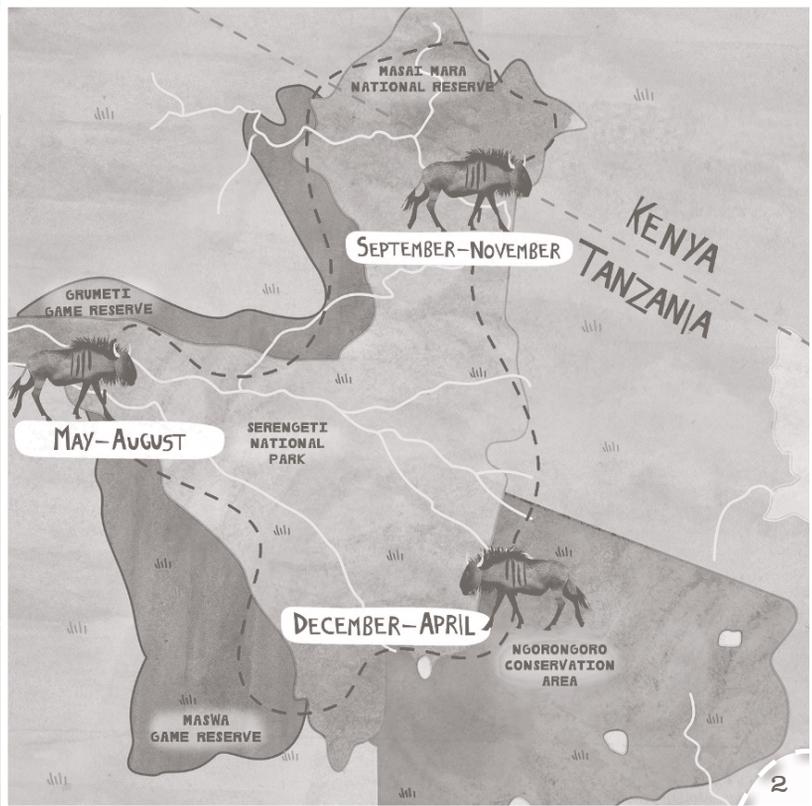

Wildebeests have shaggy manes and big heads with curved horns. Their necks and shoulders are thick and strong.

Between July and August, the wildebeests reach the Mara River in Kenya. After crossing the river, the wildebeests follow the weather. If they see rain clouds, they follow them. For wherever rain falls, new grass grows.

## Back to the Plains

In October or November, the wildebeests start moving back to the Serengeti plains. The changing weather has led the wildebeests in a loop. They end up where they started. There, they wait for next year's migration.

## Student Directions for Part 1

### Part 1 (35 minutes)

#### Your Task

You will read a travel guide that describes a safari. Then you will answer three research questions about what you have learned. In Part 2, you will write a narrative about going on an African safari to see the wildebeest migration. You will be able to look at the printed sources, your notes, and the answers to the research questions when you write your narrative.

#### Steps to Follow

In order to plan and write your narrative, you will do the following:

1. Read the source.
2. Take notes about the information in the source using a graphic organizer.
3. Answer three research questions to help you think about key information in the sources.

#### Directions for Beginning

You will have 35 minutes to read the source, take notes, and answer the research questions. Your answers will be scored.

# Student Handout 4

Welcome to your safari on the Serengeti plains!

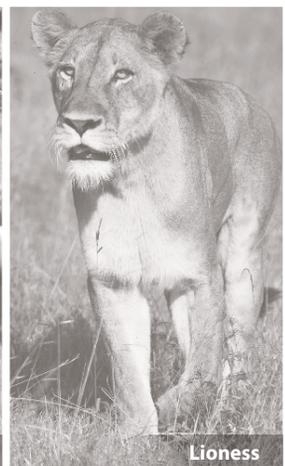

## Seeing the Animals of East Africa

There are many kinds of wild animals here. Expect to see lions, leopards, and cheetahs. These cats do not migrate. They stay on the plains all year. Giant elephants, rhinos, and giraffes also wander the plains. It is easy to see the giraffes because they are so very tall!

Then there are the famous wildebeests. Their yearly migration is quite a sight! More than a million wildebeests cross the plains in April or May. They return to the plains in November or December. You won't want to miss it!

## Staying at a Safari Camp

You will stay in tents at a camp near a river. The tents have wood floors that are raised off the ground. They also have comfortable beds and rugs. There is even a shower! Each tent has its own deck with a view of the plains and the mountains in the distance. All of your meals are cooked for you. The delicious food is served in the main tent. It is more like a hotel than a camp!

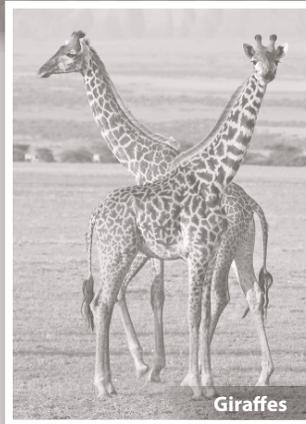

### Daytime Activities

Twice a day a guide will take you on a drive away from camp. The guide knows all about the animals and can point out interesting sights. Most of the time you will travel in a car with open sides. This is your chance to watch the animals and take pictures.

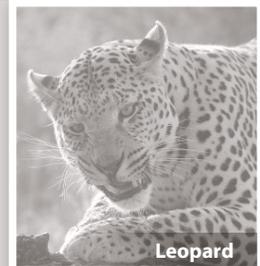

The first drive of the day is in the early morning. You get up at dawn. Giraffes, elephants, and rhinos are on the move in the cool morning air. You may also see herds of migrating animals.

At noon you will be back at camp. It is time for both you and the animals to escape the heat. After lunch you might want to cool off in the camp's swimming pool.

The second drive is in the late afternoon. By now, it is getting cooler. As the sun starts going down, lions come out to feed. The leopards will be waking up. They hunt after dark.

On one of the days there is a visit to a nearby school. You will be able to meet the children. They can teach you what it is like to live in East Africa.

### After Dark

Nighttime is for stargazing and listening to the animals. You can hear the animals from the safety of your tent. You will probably already know the lion's roar. Your guides can help you learn about other sounds you hear.

### The Last Night of Your Safari

By the last night, you and the other guests have become friends. The camp cooks make a special dinner. This is your last chance to have fun together. It is a safari party! In the morning you will all leave with exciting stories to tell friends back home.

## Student Directions for Part 2

### Part 2 (70 minutes)

#### Your Task

You will have 70 minutes to write your narrative. You should review your notes and sources. Then plan, write, and revise your writing. You may also look at the answers you wrote to the research questions in Part 1, but you cannot change those answers.

#### Your Writing Assignment

Imagine you are on a safari in East Africa. You are staying in a camp on the Serengeti plains while the wildebeests, zebras, and gazelles are migrating. Write a narrative about what you see and do on the safari. Use the details from the sources in your narrative.

You can write your narrative any way you choose. You might write about the animals you see and about your thoughts and feelings while watching the animals. Perhaps you meet some interesting people or go on an exciting adventure. Just make sure your setting is the Serengeti plains in East Africa during the yearly animal migration.

#### Begin Work on Your Narrative

Manage your time carefully so that you can:

- Plan your narrative (15 minutes)
- Write your narrative (40 minutes)
- Revise and edit for a final draft (15 minutes)

You may use a dictionary to check spelling.

#### Things to Remember

Remember that a well-written narrative:

- Has a setting and story focus
- Has a point of view for the narrator
- Stays on focus throughout the narrative
- Has a plot that develops logically
- Uses descriptions and sensory details
- Has a logical conclusion
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

# Class Assessment Records

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>Are partners able to agree about what information to include in their notes?</li> </ul>			
<ul style="list-style-type: none"> <li>Are they recording notes in the appropriate places on their graphic organizers?</li> </ul>			
<ul style="list-style-type: none"> <li>Are they writing notes in their own words?</li> </ul>			
<p>Other observations:</p>			

**Considerations:**

If you notice many students having difficulty writing notes, call for the class’s attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate place on the chart. As necessary, encourage the students to reread the travel guide to collect the information they need.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>Do the students' responses indicate that they understand what each question is asking?</li> </ul>			
<ul style="list-style-type: none"> <li>Are they able to incorporate details from their notes and the sources in their responses?</li> </ul>			
<p>Other observations:</p>			

**Considerations:**

If you notice the students struggling to write responses, support them by asking questions such as:

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the source can you find that information?*
- Q *How might you include information from your notes and the sources in your answer?*

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
▪ Does the students' writing indicate that they understand the task?			
▪ Are they able to introduce the topic and setting in the opening paragraph of the story?			
▪ Does their writing stay on topic?			
▪ Are they able to incorporate information from their notes and the sources into their stories?			
Other observations:			

**Considerations:**

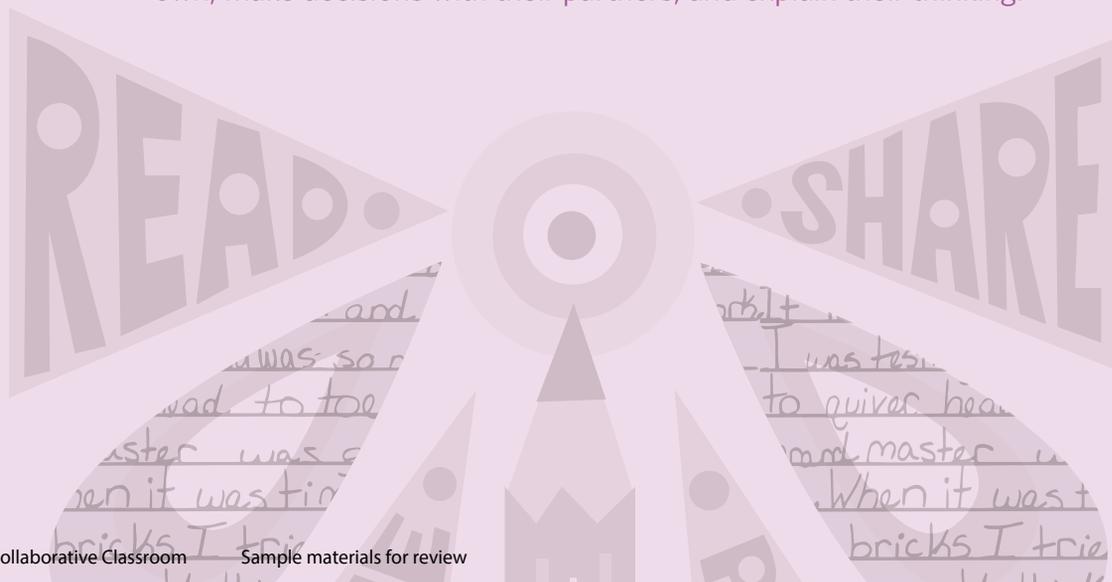

If you notice a student having difficulty starting to write after 5-10 minutes, help stimulate his or her thinking by asking questions such as:

- Q *What is the topic of your story? What might you write in the opening paragraph to introduce the topic and setting of the story?*
- Q *How might you use your notes to help you decide what to write in your story?*
- Q *What information from your notes or the sources might you use to describe [what you see on the safari]?*

# Unit

# Informative/ Explanatory Writing

During this one-week unit, the students prepare for the informative/explanatory writing portion of a standards-based end-of-year writing performance task. They discuss what they have learned about informative/explanatory (nonfiction) writing and complete a practice performance task as a class, guided by the teacher. The students begin by reading two articles about a topic—energy sources. They each take notes about what they learn, and use information from the articles and their notes to answer research questions and write a report about the topic. Socially, the students listen respectfully to the thinking of others and share their own, make decisions with their partners, and explain their thinking.

# Week OVERVIEW

## “Fossil Fuels” article (BLM1)

This article explains how fossil fuels were made and how we use them.

## “Renewable Energy” article (BLM4)

Renewable energy sources are discussed in this article.

### Writing Focus

- Students reflect on what they have learned about informative/explanatory (nonfiction) writing.
- Students read two articles about the topic and take notes.
- Students answer research questions about the topic, and plan and write reports.
- Students revise and proofread their writing.

### Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students make decisions together.
- Students explain their thinking.

## DO AHEAD

- ✓ Prior to Day 1, read “Guided Practice Performance Task: Informative/Explanatory Writing” on pages 82–86. This unit’s lessons are based on this guided practice performance task. During the unit, the students complete this performance task with instructional support and guidance from the teacher. For more information about how the performance task is used in the lesson, see “About the Guided Practice Performance Task” on page 58.
- ✓ Prior to Day 1, read the article “Fossil Fuels” (BLM1) to familiarize yourself with the content.
- ✓ Prior to Day 1, prepare a sheet of chart paper so that it resembles the “Article 1 Notes” graphic organizer (BLM2) the students will use.
- ✓ Prior to Day 1, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the student handouts (see “Reproducibles” on page 54). Make a class set of copies of each handout listed, except for “Student Directions for Part 1” (BLM3). You might want to have extra copies of the graphic organizer available for the students.
- ✓ Prior to Day 1, prepare a class set of writing folders for the students to use to organize their materials throughout the week.
- ✓ Prior to Day 2, read the article “Renewable Energy” (BLM4) to familiarize yourself with the content.
- ✓ Prior to Day 2, prepare a sheet of chart paper so that it resembles the “Article 2 Notes” graphic organizer (BLM5) the students will use.
- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA1) on page 100.
- ✓ Prior to Day 3, prepare a sheet of chart paper so that it resembles the “Research Questions” sheet (BLM6) the students will use. You may want to write each question on a separate piece of chart paper.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2) on page 101.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA3) on page 102.

## TEACHER AS WRITER

*“The difference between school and life? In school, you’re taught a lesson and then given a test. In life, you’re given a test that teaches you a lesson.”*

— Tom Bodett

Think about a time when you took an important test. What was the purpose for the test? What did you do to prepare for it? How did you feel before, during, and after the test? How might your experience help you prepare your students for a high-stakes test? Write about your memories and reflections.

# Day 1

## Reading an Article and Taking Notes

### Materials

- Copy of the article “Fossil Fuels” (BLM1) for each student
- Chart paper and a marker
- “Fossil Fuels” chart (WA1)
- “Article 1 Notes” chart, prepared ahead
- Copy of “Article 1 Notes” graphic organizer (BLM2) for each student
- A writing folder for each student

### Teacher Note

We recommend that you teach this unit after the class completes the Expository Nonfiction genre unit.

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 4 and then finish the lesson later in the day or the next day.

### Teacher Note

The partners you assign today will stay together for the entire unit.

### In this lesson, the students:

- Work with new partners
- Reflect on what they know about good nonfiction (informative/explanatory) writing
- Read and discuss an article about nonrenewable energy
- Take notes on the article as a class and in pairs
- Explain their thinking

### ABOUT THE GUIDED PRACTICE PERFORMANCE TASK

During this unit, the students complete an informative/explanatory writing performance task as a class with instructional support from you. The purpose for this guided practice performance task is to prepare the students for standards-based end-of-year performance tasks they will be required to complete independently. Five days of instruction are provided during which the students’ writing is neither timed nor scored. This unit’s performance task is not computerized and can be administered in a classroom environment using pencils, paper, and other classroom resources.

The topic of the performance task is energy sources, and the task consists of three sections: an Introductory Classroom Activity (students are introduced to the topic and examine one article), Part 1 (students examine another article and answer research questions about the topic), and Part 2 (students write their own reports). For more information about each section, see “Task Overview” on page 83. For the complete performance task on which this unit’s instruction is based, see “Guided Practice Performance Task: Informative/Explanatory Writing” on pages 82–86.

### GETTING READY TO WRITE

#### 1 Pair Students and Introduce the Performance Task

Randomly assign partners and make sure they know each other’s names. Have the students bring their pencils and sit at desks with partners together.

Tell the students that at the end of the school year all the students in their grade will complete a reading and writing assignment called a *performance task*. (You might explain that a *task* is a “job that needs to be done.”) Explain that the purpose for the performance task is to show how well they are developing and growing as strong readers and writers. This is important information for them as students, as well as for their families, teachers, and principal.

Remind the students that for the past several weeks they have been doing nonfiction writing, and explain that nonfiction writing—also called informative or explanatory writing—is one type of writing they will do on the end-of-year performance task. Tell the students that during the next several days they will learn strategies for doing well on the informative/explanatory writing portion of the performance task.

## 2 Discuss What the Class Has Learned About Informative Writing

Point out that the students have learned a lot about how to write good informative, or nonfiction, pieces, and explain that they can use what they have learned to help them do well on the performance task. Ask and discuss the questions that follow as a class. Encourage the students to use the discussion prompts they have learned as they talk to one another.

- Q *What have you learned about good informative, or nonfiction, writing?*
- Q *What did you do to make your informative piece interesting and easy to read?*

### Students might say:

“It grabs the reader’s attention right from the start.”

“I agree with [Pedro]. I also think that it is based on research. It includes facts about a topic.”

“It uses transition words to connect thoughts.”

“In addition to what [Veronica and Milo] said, it is clearly organized and makes sense.”

“Sometimes it includes maps and photographs about the topic.”

As the students respond, record their ideas on a sheet of chart paper titled “What We Have Learned About Informative Writing.” If the students do not mention the following qualities of good informative writing, briefly review them and add them to the chart.

### Teacher Note

The discussion prompts are:

- “I agree with \_\_\_\_\_ because . . .”
- “I disagree with \_\_\_\_\_ because . . .”
- “In addition to what \_\_\_\_\_ said, I think . . .”

### What We Have Learned About Informative Writing

- Uses strong opening and closing sentences
- Is based on research
- Presents facts about a topic
- Uses transition words
- Sometimes includes text features
- Is clearly organized and makes sense
- Makes the reader want to know more about the topic
- Follows writing rules for spelling, punctuation, capitalization, and grammar

Tell the students that you will post the chart where everyone can see it so that they can keep what they have learned about good informative writing in mind as they prepare for the informative/explanatory writing performance task.

### 3 Introduce the Topic of the Guided Practice Performance Task

Explain that today you will introduce the students to the topic of the performance task, and they will read an article about the topic. In the coming days, they will learn more about the topic by reading another article. Then, as a class, they will use what they learned to answer research questions and write reports about the topic.

Tell the students that they are going to learn and then write about different kinds of energy sources. Explain that we use energy sources to make electricity and gas, which allow us to do things like heat our homes, use computers, cook our food, and drive our cars.

Write the words *renewable* and *nonrenewable* where everyone can see them. Explain that *renewable* means “there is always more.” Wind, water, and sunshine are examples of renewable energy sources because when we use them, there is still more available. Explain that *nonrenewable* means “there is a limited supply.” Oil and coal are examples of nonrenewable energy sources. Once we take oil and coal out of the ground and use them, they are gone forever.

Tell students there are advantages and disadvantages of using different types of energy sources. Write the words *advantage* and *disadvantage* where everyone can see them and explain that an *advantage* is a “good thing or a benefit,” while a *disadvantage* is a “bad thing or a problem.”

## 4 Introduce the Article and Read It Aloud with Stops

Tell the students that the first article they will read is titled “Fossil Fuels.” Explain that the article describes nonrenewable energy sources called *fossil fuels* and discusses some advantages and disadvantages of using them. Display the “Fossil Fuels” chart (C WA1) and distribute a copy of the article (BLM1) to each student. Tell the students that for this task you will read the article aloud, but when they do a performance task on their own they will read any source materials independently.

Explain that you will stop during the reading to have pairs discuss what they learned. Ask them to follow along as you read the article aloud; then read the title and the first part of the article aloud, slowly and clearly.

Stop after:

“Some are even used in toothpaste!”

Ask and briefly discuss:

**Q** *What did you learn about fossil fuels in the part of the article you just heard? Turn to your partner.*

Without sharing as a class, continue reading to the end of the article and use the same procedure to have the students discuss what they learned.

## WRITING TIME

### 5 Reread the Article and Take Notes as a Class and in Pairs

Post the “Article 1 Notes” chart that you prepared ahead and distribute a copy of the “Article 1 Notes” graphic organizer (BLM2) to each student.

Tell the students that you will read the article again, and that as a class and in pairs they will use a note-taking chart, called a *graphic organizer*, to take notes on what they are learning about fossil fuels and nonrenewable energy. Explain that the graphic organizer has four rows with a heading in each row. Point to and read the heading in each row aloud. Explain that you will read the article again and stop once during the reading. When you stop, the students will discuss what they have learned and where they will record their notes on the graphic organizer.

Read the article and stop (as you did before) after:

“Some are even used in toothpaste!”

Discuss as a class:

**Q** *What did you learn about fossil fuels in the part of the article you just heard?*

**Q** *Where will you write a note about what you have learned on the graphic organizer, and why will you write the note there?*

### Teacher Note

You might explain that a *source* is “something that information comes from, such as a book, video, website, or article.”

### Teacher Note

You may want to review that notes are most helpful when they are brief and written in the writer's own words rather than copied exactly from the source.

### Teacher Note

If the students have difficulty deciding where on the graphic organizer to record their notes, call for their attention and model writing their ideas in the appropriate rows on the chart.

#### Students might say:

"I learned that fossil fuels are formed from dead plants and animals that have been buried deep in the ground for millions of years. I think that goes in the 'Other Notes' section."

"Oil, gas, and coal are types of nonrenewable energy, so that should go in the first row."

"When oil, gas, and coal are burned, they can produce electricity, which is a good thing, so that should go in the row about advantages."

"I learned we might run out of fossil fuels someday. I don't think that is good, so it should go in the third row."

As the students respond, model writing their responses as notes in the appropriate places on the chart, and have the students copy the notes onto their own graphic organizers.

Continue reading to the end of the article and use the same procedure to have the students discuss what they learned in pairs (rather than as a class) and then record their notes on their own graphic organizers.

Have a few volunteers share what they discussed and where they recorded their notes on the graphic organizer. As they share, add their ideas to the chart.

**Article 1 Notes**  
**"Fossil Fuels"**

---

*Kinds of Nonrenewable Energy*

---

- fossil fuels, like oil, natural gas, and coal

---

*Advantages of Nonrenewable Energy*

---

- can produce electricity when burned
- used for heating homes and cooking food
- used in everyday products

---

*Disadvantages of Nonrenewable Energy*

---

- makes the air dirty
- will run out of them someday

---

*Other Notes:*

- created from dead plants and animals that were buried for millions of years deep in the ground

Tell the students that tomorrow they will learn more about energy sources by reading and discussing an article about renewable energy sources.

Distribute a writing folder to each student and explain that this is where the students will keep all of their materials for the week. Have the students put their materials inside their folders and keep them in their desks.

## SHARING AND REFLECTING

### 6 Reflect

Ask and briefly discuss:

**Q** *In what ways did you and your partner work well together today?*

### Teacher Note

Save the “What We Have Learned About Informative Writing” chart and the “Article 1 Notes” chart to use throughout the unit.

## Reading an Article and Taking Notes

## Day 2

### In this lesson, the students:

- Review what they have learned about nonrenewable energy sources
- Read and discuss an article about renewable energy sources
- Take notes on the article in pairs
- Make decisions together
- Work in a responsible way

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Review that the students are working together to complete an informative writing task about energy sources to prepare for the end-of-year performance task. Remind the students that yesterday they discussed what they have learned about good informative writing. They also read an article about nonrenewable energy, discussed it as a class, and took notes about what they learned.

Direct the students’ attention to the “Article 1 Notes” chart from Day 1. Briefly review the notes by asking:

**Q** *What did you learn about fossil fuels from the article we read yesterday?*

Tell the students that today they will learn more about energy sources by reading an article about renewable energy sources.

### Materials

- Copy of the article “Renewable Energy” (BLM4) for each student
- “Article 1 Notes” chart from Day 1
- “Student Directions for Part 1” chart (WA2; also available as BLM3)
- “Renewable Energy” chart (WA3)
- “Article 2 Notes” chart, prepared ahead
- Copy of “Article 2 Notes” graphic organizer (BLM5) for each student
- A marker
- “Class Assessment Record” sheet (CA1)

### Teacher Note

The purpose for showing the “Student Directions for Part 1” chart (WA2) is to briefly introduce the students to the type of directions they will encounter when they do performance tasks by themselves. It is not necessary to take the students through all the directions now. They will have the experience of “following” the directions over the next few days. As you complete various parts of the directions, you might redisplay the chart and point out the steps the students have completed.

## 2 Introduce Student Directions for Part 1

Display the “Student Directions for Part 1” chart (WA2). Explain that these are directions for the first part of the performance task, in which the students read another article and write responses to research questions. Tell the students that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, you will read the article aloud as you did yesterday rather than have the students read it on their own, and they will take more time than the directions say to complete the steps. Explain that when the students do performance tasks on their own later, they will follow the directions exactly.

## 3 Introduce the Article and Read It Aloud with Stops

Tell the students that now they will read an article titled “Renewable Energy.” The article describes some examples of renewable energy sources. It also discusses some of the advantages and disadvantages of using renewable energy sources. Display the “Renewable Energy” chart (WA3) and distribute a copy of the article (BLM4) to each student. Remind the students that for this task you will read the article aloud as you did yesterday, but when they do performance tasks on their own they will read any source materials independently. Ask them to follow along as you read the article aloud, and explain that you will stop during the reading to have pairs discuss what they are learning.

Read the title and the first three paragraphs of the article aloud, slowly and clearly. Stop after:

“Solar panels use the light from the sun to make electricity.”

Ask:

**Q** *What did you learn about renewable energy in the part of the article you just heard? Turn to your partner.*

Without sharing as a class, continue reading the article. Following the same procedure, have the students discuss what they learned at the next two stops.

“When biofuels are burned, they don’t pollute the air.”

“It’s one way to prepare for the day when fossil fuels run out.”

## WRITING TIME

## 4 Reread the Article and Take Notes in Pairs

Post the “Article 2 Notes” chart that you prepared ahead and distribute a copy of the “Article 2 Notes” graphic organizer (BLM5) to each student.

Point out that this graphic organizer is organized just like the “Article 1 Notes” graphic organizer, but that the notes the students take will be on renewable rather than nonrenewable energy sources. Explain that

as you read the article again you will stop, and partners will discuss what they learned and then write notes in the appropriate places on their own graphic organizers. Remind the students that they will use the notes later to help them answer questions and write reports about energy sources.

Read the article and stop (as you did before) after:

“Solar panels use the light from the sun to make electricity.”

Ask the following questions one at a time, without discussing them as a class:

- Q *What did you learn about renewable energy in the part of the article you just heard?*
- Q *Where will you write a note about what you have learned on the graphic organizer, and why will you write the note there?*

Say “Turn to your partner,” and give partners a few minutes to share their thinking and write notes about what they learned on their graphic organizers. As they work, circulate, observe, and offer assistance.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners able to agree about what information to include in their notes?
- Are they recording notes in the appropriate place on their graphic organizers?
- Are they writing notes in their own words?

If you notice many students having difficulty writing notes, call for the class’s attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate place on the chart. As necessary, encourage the students to reread the article to collect the information they need.

Record your observations on the “Class Assessment Record” sheet (CA1); see page 100.

After a few minutes, ask volunteers to share their thinking about what they learned and where they recorded notes on their graphic organizers. Then add their ideas to the chart.

Using the same procedure, stop, discuss, and take notes at the following places in the article:

“When biofuels are burned, they don’t pollute the air.”

“It’s one way to prepare for the day when fossil fuels run out.”

## Teacher Note

You may wish to point out that this article also includes some information about the advantages and disadvantages of nonrenewable energy sources, which the students can add to their “Article 1 Notes” graphic organizers from Day 1.

## Article 2 Notes "Renewable Energy"

### Kinds of Renewable Energy

- wind power (from wind turbines)
- solar power (from solar panels)
- hydropower (from moving water)
- geothermal energy (from volcanoes and geysers)
- biofuel (fuel made from plants)

### Advantages of Renewable Energy

- causes very little pollution
- there's always more
- we will never use it up

### Disadvantages of Renewable Energy

- costs more than nonrenewable energy
- can harm animals

### Other Notes:

- When dams are opened, the water runs out with enough force to make electricity.
- The heat from volcanoes and geysers can be used for electricity and to heat buildings.

Tell the students that tomorrow they will work together, using the articles and their notes, to answer research questions about energy sources. Have them put their materials inside their folders.

## SHARING AND REFLECTING

### 5 Reflect

Ask and briefly discuss:

- Q *Why do you think it is a good idea to read an article more than once, like we did today?*
- Q *What did you do to work in a responsible way?*

### Teacher Note

Save the "Article 2 Notes" chart to use throughout the rest of the unit.

# Writing Responses to Research Questions

## Day 3

### In this lesson, the students:

- Read and discuss research questions about energy sources as a class
- Identify words in the questions that give clues about what to write
- Write responses to the questions as a class and independently
- Reflect on and revise their responses

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Remind the students that they are learning strategies they can use to do well on the end-of-year performance task. Refer to the “Article 1 Notes” chart from Day 1 and the “Article 2 Notes” chart from Day 2, and review that the students read two articles about energy sources and took notes about what they learned. Explain that today they will use their notes and the articles to answer research questions about energy sources.

### 2 Model Reading a Question and Writing a Response

Post the “Research Questions” chart that you prepared ahead. Distribute a copy of the “Research Questions” sheet (BLM6) to each student, and have the students write their names and the date on their sheets. Explain that these are the questions the students will answer in Part 1 of the performance task. Read the directions aloud.

Tell the students that the first step in writing a response to a question is to read and think carefully about the question. Point to Question 1 on the chart and ask the students to listen closely as you read it aloud twice. Discuss:

**Q** *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, point out that the question is asking why “wind power” is “renewable.” Underline those phrases on the chart.

Point to the statement following the question and read it aloud. Explain that “use details from the sources” means that the students should use facts and other details from their notes and the articles themselves to write their responses.

### Materials

- “Article 1 Notes” and “Article 2 Notes” charts from Days 1 and 2
- “Research Questions” chart, prepared ahead
- Copy of “Research Questions” sheet (BLM6) for each student
- “Renewable Energy” chart (WA3) from Day 2
- “Fossil Fuels” chart (WA1) from Day 1
- A marker
- “Class Assessment Record” sheet (CA2)

## Teacher Note

The consortia that are developing the end-of-year performance tasks plan to deliver the assessment electronically. This means that individual students will have computer or tablet access to all research sources, including videos, as they respond to questions and write extended pieces.

Ask the students to watch as you model writing a response to the first question on the chart, thinking aloud as you write. Display the “Renewable Energy” chart (WA3) and point out that most of the information you need is in this article and in your notes. Be sure to model reviewing your notes and the article for the information you need.

### You might say:

“I know that the question is asking me to describe why wind power is renewable. The article says that wind power is made when wind pushes the blades of a wind turbine. (Point to the paragraph in the article where you found this information.) I know that renewable energy will not get used up and that wind is something we can never run out of. I’ll write: *Wind power is a renewable energy source because there is always more wind to push the blades of the turbine. We cannot use it up.*”

## Research Questions

1. Why is wind power a renewable energy source? Use details from the sources in your answer.

*Wind power is a renewable energy source because there is always more wind to push the blades of the turbines. We cannot use it up.*

## 3 Read and Discuss Questions as a Class

Explain that the students will read and discuss Questions 2 and 3 as a class. Then, during Writing Time, the students will work in pairs to discuss what they might write in response to those questions, and each will write their own responses on their “Research Questions” sheets.

Point to Question 2 on the “Research Questions” chart and read it aloud twice. Ask and discuss:

**Q** *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, point out that the question is asking for “one advantage and one disadvantage” of “using fossil fuels.” Underline those phrases on the chart.

Follow the same procedure to have partners discuss Question 3. If necessary, explain that the question is asking for “two reasons why people should try to use more renewable energy” and for “details from the sources.”

## WRITING TIME

### 4 Discuss Questions in Pairs and Write Answers

Have partners discuss what they might write in response to Questions 2 and 3. Review that each student will write his own response to the questions on his “Research Questions” sheet. Remind the students to use details from their notes and from the articles to answer the questions. As the students work, circulate, observe, and offer assistance.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students’ responses indicate that they understand what each question is asking?
- Are they able to incorporate details from their notes and the sources in their responses?

If you notice the students struggling to write responses, support them by asking questions such as:

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the source can you find that information?*
- Q *How might you include information from your notes and the sources in your answer?*

Record your observations on the “Class Assessment Record” sheet (CA2); see page 101.

### 5 Facilitate Guided Rereading and Revising of Responses

Tell the students that they will now reread their responses to Questions 2 and 3 and then reflect on the quality of their responses by thinking about some questions you will ask.

Have the students quietly reread their responses to Question 2 and look up when they are finished. Ask the following question, pausing for a moment to allow them to review their writing and, if necessary, the articles and their notes:

- Q *Do you think your response does a good job of telling one advantage and one disadvantage of using fossil fuels? If not, what might you add or take out to improve it?*

Without discussing as a class, have the students revise their responses as necessary. Remind them to refer to the articles and their notes if needed.

Using the same procedure, ask the following questions and then have the students reflect on and revise their responses to Question 3:

- Q *Do you think your response does a good job of giving two reasons why people should try to use more renewable energy? If not, what might you add or take out to improve it?*
- Q *Do you think your response includes enough details from the articles? If not, what details might you add?*

## SHARING AND REFLECTING

### 6 Share Responses and Reflect

After several minutes, have a few volunteers share with the class what they wrote in response to Question 2. As they share, use their ideas to model writing a well-crafted response to the question on the “Research Questions” chart.

Following the same procedure, model writing a response to Question 3.

#### Research Questions

2. What is one advantage and one disadvantage of using fossil fuels?  
*Use details from the sources in your answer.*  
*One advantage of using fossil fuels is that they are cheaper than renewable energy. One disadvantage is that they make the air dirty.*
3. Discuss two reasons why people should try to use more renewable energy. *Use details from the sources in your answer.*  
*Renewable energy is clean. It does not pollute the air.*

Have the students reflect on their work by asking:

- Q *Do you think your notes helped you write good responses to the questions? Why or why not?*

Tell the students that tomorrow they will use the articles, their notes, and their answers to the research questions to write reports about energy sources. Have them put their materials inside their folders.

#### Teacher Note

Save the “Research Questions” chart to use on Day 4.

## In this lesson, the students:

- Plan and write reports about energy sources
- Include qualities of a well-written report in their writing
- Reflect on how they felt about writing their reports
- Listen respectfully to the thinking of others

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Point to the “Research Questions” chart and remind the students that yesterday they completed the first part of the guided practice performance task—answering questions about energy sources. Explain that today they will work together on the second part of the task—writing reports about energy sources.

### 2 Introduce and Discuss the Report-writing Task

Display the “Student Directions for Part 2” chart (WA4) and distribute a copy of the directions (BLM7) to each student. Explain that these are directions for the second part of the performance task in which the students each write a report about energy sources. Review that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, they will take more time than the directions say to write their reports. Remind the students that when they do performance tasks on their own later, they will need to follow the directions exactly.

Ask the students to listen as you read each section of the directions aloud, using the following procedure:

1. Read the section “Your Task” aloud and review that the students may use the articles, their notes, and their answers to the research questions to help them write their reports. Remind the students that when they do performance tasks on their own they will be timed, but that today they will not be.
2. Read the section “Your Writing Assignment” aloud and review that each student needs to write a report about energy sources. Remind the students of the information they are to include in their reports (the different kinds of energy sources and the advantages and disadvantages of using them) and point out that their notes are organized using the same ideas.

## Materials

- “Student Directions for Part 2” chart (WA4)
- Copy of “Student Directions for Part 2” (BLM7) for each student
- “What We Have Learned About Opinion Writing” chart from Day 1
- “Article 1 Notes,” “Article 2 Notes,” and “Research Questions” charts from Day 3
- “Fossil Fuels” chart (WA1) from Day 3
- “Renewable Energy” chart (WA3) from Day 3
- Lined writing chart (WA5) for modeling
- “Writing Time” chart (WA6)
- Supply of lined paper for writing reports
- “Class Assessment Record” sheet (CA3)

## Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 3 and then finish the lesson later in the day or the next day.

**TEKS 11.A.i**  
**Student/Teacher Narrative**  
**Step 2 and Step 3 (all, beginning on page 71 and continuing on to page 73)**

3. Read the section “Begin Work on Your Report” aloud and point out the information that is relevant for this performance task (for example, “plan,” “write,” and “revise”) and underline it.
4. Read the list of qualities of a well-written report aloud. Point out that the list is similar to the list the class created on the “What We’ve Learned About Informative Writing” chart. Tell the students that they may refer to both lists as they write their reports.

Ask and briefly discuss:

**Q** *What questions do you have about the directions for writing the report?*

Tell the students that they will do the writing task together as a class, and that this will help prepare the students to do a task like this on their own.

### **3** Model Planning and Starting the Report

Tell the students that you will model writing the first two paragraphs of the report. Remind them that the report needs to tell about different kinds of energy sources and the advantages and disadvantages of using them. Explain that you will write an opening paragraph to introduce the topic of the report, and then you will write a paragraph about nonrenewable energy sources and the advantages and disadvantages of using them. Direct the students’ attention to the qualities of a well-written report in the directions (BLM7) and explain that as you write the report, you will include these qualities in your writing.

Display the lined writing chart (WA5) and model writing a paragraph that introduces the topic and establishes the main idea. Then write a paragraph about nonrenewable energy sources. Think aloud as you write, and remember to model reviewing your notes and the articles to find the information you need. Be sure to include qualities of a well-written report, such as clear organization, transition words to connect ideas, and evidence from the articles to support the main idea.

**You might say:**

“My opening paragraph needs to introduce the topic, or main idea, of the report and make the reader want to know more about it. I’ll write: *We all use energy in our daily lives. For example, we use energy when we turn on the lights in our homes and when we drive our cars. Two kinds of energy sources are nonrenewable energy and renewable energy. Both have advantages and disadvantages.* This shows I understood the assignment because I’ve introduced the topic of the report and the ideas that will be discussed in the report. I think the first and last sentence will hook the reader because they will make the reader want to find out more about the energy sources we use and what is good and bad about them.

The next paragraph will be about nonrenewable energy sources and what is good and bad about them. I have a lot of information about nonrenewable energy in my first set of notes. I'll write: *Fossil fuels are a kind of nonrenewable energy. Oil, natural gas, and coal are fossil fuels.* I'll write about the advantages first. The second article said that fossil fuels are cheap and can be used at any time. I'll write: *One advantage of using fossil fuels is that they can be used at any time. Another advantage is that they are cheaper than renewable energy sources.* Now I'll write about the disadvantages. In my notes on the first article, I wrote that we will run out of them someday and that they make the air dirty. I'll start with transition words at the beginning of my sentence to show that I'm introducing a contrasting idea. I'll write: *On the other hand, fossil fuels pollute the air. Another disadvantage of using fossil fuels is that once we use them, they are gone forever. Someday we will run out of them.*"

WA5

*We all use energy in our daily lives. For example, we use energy when we turn on the lights in our homes and when we drive our cars. Two kinds of energy sources are nonrenewable energy and renewable energy. Both have advantages and disadvantages.*

Another disadvantage of using fossil fuels is that once we use them, they are gone forever. Someday we will run out of them.*

After you have modeled writing the first two paragraphs of the report, stop and explain that during Writing Time today the students will write their own reports about energy sources. Explain that the students will use their notes and articles to write opening paragraphs and several other paragraphs about the ideas mentioned in the directions. Use “Think, Pair, Share” to discuss:

**Q** *What might you write about in your report today? [pause] Turn to your partner.*

After a few moments, signal for the students’ attention and remind them that each student will write her own report. Explain that you will finish your report and share it with the class tomorrow.

## TEKS 11.A.i

Student/Teacher Activity

page 73 and continuing on  
to page 74)

# WRITING TIME

## 4 Write Reports

Explain that when the students complete the actual performance task they will write their reports using a computer, but that today they are practicing on paper. Distribute loose, lined sheets of paper and explain that they will use this paper to write their reports. Display the “Writing Time” chart (📄 WA6) and have them work quietly for 30–40 minutes. As they work, circulate, observe, and offer assistance.

WA6

### Writing Time

- Reread the writing assignment in “Student Directions for Part 2.”
- Write an opening paragraph that introduces the topic and hooks the reader.
- Include evidence (facts and other details) from the sources in your writing.
- Include transition words and other qualities of a well-written report in your writing.
- Write a conclusion that wraps up the writing.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Does their writing indicate that they understand the task?
- Are they able to introduce the topic in the opening paragraph of the report?
- Does their writing stay on topic?
- Are they able to incorporate information from their notes and the sources into their reports?

If you notice a student having difficulty starting to write after 5–10 minutes, help stimulate his thinking by asking questions such as:

- Q *What is the topic of your report? What might you write in the opening paragraph to introduce the topic?*
- Q *How might you use your notes to help you organize your report?*
- Q *What information from your notes or the sources might you use to explain [the different kinds of energy sources]?*

Record your observations on the “Class Assessment Record” sheet (CA3); see page 102.

Signal the end of Writing Time. Tell the students that tomorrow they will have time to revise and proofread their reports. Have them put their materials in their folders.

## SHARING AND REFLECTING

### 5 Reflect on Writing Reports

Ask and briefly discuss:

- Q *What did you enjoy about writing your report today? What did you find challenging?*
- Q *What did you and your partner do to listen respectfully to each other as you shared about what you might write in your reports?*

#### Teacher Note

Prior to teaching the Day 5 lesson, you will need to write the rest of your report (see the diagram in Day 5, Step 2 on page 76). Include evidence from the sources, transition words, and other qualities of a well-written report in your writing. Save your completed report on the lined writing chart (WA5).

## Revising and Proofreading a Report

## Day 5

#### In this lesson, the students:

- Revise their reports
- Proofread their reports
- Express interest in and appreciation for one another's writing
- Reflect on what they have learned and how that will help them on the end-of-year performance task

#### Materials

- Completed report on the lined writing chart (WA5) from Day 4
- "Student Directions for Part 2" chart (WA4) from Day 4

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Remind them that yesterday they each planned and wrote a report about energy sources. Explain that today they will have the opportunity to revise and proofread their reports.

### 2 Discuss Your Report

Display the completed report on the lined writing chart (WA5) and tell the students that yesterday you finished your report. Ask them to follow along as you read it aloud. Review that the opening paragraph introduces the topic, or main idea, and hooks the reader. In the remaining paragraphs, point out the clear organization, the use of evidence from the sources, the use of transition words to connect ideas, and other qualities of a well-written report.

#### You might say:

"I introduced the topic of energy sources in the first paragraph. I tried to hook the reader by saying that we all use energy sources in our daily lives and that there are advantages and disadvantages of using different kinds of energy sources."

My report is clearly organized. After the introduction, I wrote a paragraph about nonrenewable energy sources and the advantages and disadvantages of using them. In the third paragraph, I wrote about renewable energy sources and the advantages and disadvantages of using them. Then I wrote a final, concluding paragraph. I stayed on topic throughout report.

I included evidence from the sources to support the topic of each paragraph. For example, when discussing the advantages of nonrenewable energy, I wrote that fossil fuels are cheaper than renewable energy, a fact that came from the second article. I also listed examples from the second article about how renewable energy does not pollute the air and is cleaner than nonrenewable energy.

I used transition words to connect one idea to the next. For example, in the first paragraph, I wrote *for example* before pointing out ways we use energy sources. I used the words *on the other hand* in the second paragraph to show that I was introducing a contrasting idea. I used the words *one* and *another* a couple of times to help the reader keep track of the advantages and disadvantages discussed.

My concluding paragraph tells the reader which kind of energy we use the most, which I know from looking at the graph in the second article. Then I wrap up my report by saying renewable energy sources have strong advantages over nonrenewable sources.”

WAS

We all use energy in our daily lives. For example, we use energy when we turn on the lights in our homes and when we drive our cars. Two kinds of energy sources are nonrenewable energy and renewable energy. Both have advantages and disadvantages.

Fossil fuels are a kind of nonrenewable energy. Oil, natural gas, and coal are fossil fuels. One advantage of using fossil fuels is that they can be used at any time. Another advantage is that they are cheaper than renewable energy sources. On the other hand, fossil fuels pollute the air. Another disadvantage of using fossil fuels is that once we use them, they are gone forever. Someday we will run out of them.

Wind power, solar power, and hydropower are all kinds of renewable energy. One advantage of renewable energy sources is that things like wind, sun, and water can be used over and over. We will never run out of them. Renewable energy is also

(continues)

(continued)

WA5

better for the environment because it keeps the air clean. But  
renewable energy costs more. Another disadvantage of some  
renewable energy sources is that they can only make energy  
during the day or when the wind is blowing.

Most of the energy we use is nonrenewable. However, if  
we want to keep our air clean and always have enough energy  
sources, we should try to use more renewable energy.

## WRITING TIME

### 3 Facilitate Guided Rereading of Reports

Tell the students that they will have time today to finish their reports, but that first they will reread what they have written. Then you will ask some questions for them to think about. Have them quietly reread their writing and look up when they are finished.

Ask the following questions one at a time, giving the students 1–2 minutes after each question to quietly review their writing and mark passages:

- Q** *Do you think your opening paragraph does a good job of introducing the topic and stating the main idea? If not, what might you write instead?*
- Q** *Will the organization of your report be clear to the reader? If you don't think the organization is clear, what might you move around to make it clearer? Underline parts of the report you might change or move around.*
- Q** *Are there places where you used, or could use, examples and details from the sources to support your main idea? Put a check mark in the margin next to those places.*
- Q** *Are there places where you used, or could use, transition words to connect one idea to the next? Put a star in the margin next to each of those places.*
- Q** *Do you think your conclusion does a good job of wrapping up your writing and letting the reader know that the report has come to an end? If not, what might you write instead?*

Without discussing as a class, have the students resume writing for another 10–15 minutes.

### 4 Facilitate Proofreading of Reports

Display the “Student Directions for Part 2” chart (📄 WA4) and remind the students that it states that a well-written report “follows rules for spelling, punctuation, capitalization, and grammar.” Explain that the

students will proofread their reports to find and correct any spelling, punctuation, capitalization, and grammar errors. Ask:

- Q *Why will you want to proofread your report before turning it in?*
- Q *What will you check for when you are proofreading?*

**Students might say:**

"Mistakes could make my writing harder to read and understand."

"I will check to make sure I've capitalized names and the beginning of every sentence."

"In addition to what [Emily] said, I want to make sure every sentence ends with a period, a question mark, or an exclamation point."

"In addition to what [Carlos and Marla] said, I want to correct any spelling errors I find."

Give the students 5–10 minutes to proofread their reports and make any necessary corrections.

## SHARING AND REFLECTING

### 5 Share Writing and Reflect

Have a few volunteers share their reports with the class; then ask:

- Q *What qualities of good informative writing did you notice in [Luke's] report?*
- Q *What questions can you ask [Luke] about his writing?*

Review that this week the students have been learning strategies for doing well on the end-of-year performance task. Ask and briefly discuss:

- Q *What have you learned this week that will help you do well on the performance task? Turn to your partner.*

---

## EXTENSIONS

### Complete a Diagnostic Language Skills Task

To assess how your students are progressing with Language Standards, you might choose to administer a Diagnostic Language Skills Task in Appendix C of the *Skill Practice Teaching Guide* (also see “Assessing Language Skills” on page xi).

### Complete a Writing Practice Performance Task Independently

Many states provide a practice performance task that the students complete independently. It can be given right after the guided practice, or at a later time.

Introduce the performance task by reminding the students that they spent one week learning about and preparing for the informative/explanatory writing portion of the end-of-year writing performance task. Explain that the students will now have the opportunity to do a practice performance task on their own on a different topic, and that they can use what they learned to do their best work on the task. Tell them that they will do this practice performance task under conditions like those they will experience when completing the end-of-year performance task, and that this will help them to be better prepared to do well.

## Task Overview

---

### Introductory Classroom Activity 20 MINUTES

This whole-class activity introduces students to the topic of the performance task, renewable and nonrenewable energy sources, and helps prepare the students to answer research questions and write reports about the topic. As part of this activity, the students will read and discuss an article about nonrenewable energy sources titled “Fossil Fuels.” They will also be reminded of the features of a well-written report.

During the introductory activity, the teacher will lead a whole-class discussion about the article. The students may take notes using the provided graphic organizer to help them prepare for writing. The students may use their notes from the Introductory Classroom Activity when they plan, write, and revise their own multi-paragraph reports in Part 2.

### Part 1 35 MINUTES

The students will read an article about renewable energy sources titled “Renewable Energy.” The students are encouraged to take notes using the provided graphic organizer to help them prepare for writing. Then the students will respond to three research questions that require them to analyze, evaluate, interpret, and integrate information.

### Part 2 70 MINUTES

The students will each plan, write, and revise a report about renewable and nonrenewable energy sources. They may refer to the articles from the Introductory Classroom Activity and Part 1, any notes they took, and their answers to the research questions. The students may not, however, change their answers to the questions.

## Scoring

The research questions in Part 1 can be scored with the rubrics included at the end of this performance task (see “Scoring Rubrics for Research Questions” on page 87). Any notes, prewriting, or drafts will not be scored.

## Teacher Preparation

- Make sufficient blank paper and writing tools available for students to use in taking notes. You might make extra copies of the graphic organizers.
- Make a class set of copies of the student handouts on pages 90–98.
- Make dictionaries available to use during Part 2 of the performance task. (Some standards-based assessments are computer-based with many of the student materials, including access to spell-check, available within the testing environment. For the purpose of student practice, the materials for the guided practice performance task have been modified so that they can be administered using pencils, paper, and other classroom resources.)

## Teacher Directions for the Introductory Classroom Activity

---

### 1 Introduce the Topic

Tell the students that they are going to learn and then write about different kinds of energy sources. Explain that we use energy sources to make electricity and gas, which allow us to do things like heat our homes, use computers, cook our food, and drive our cars.

Write the words *renewable* and *nonrenewable* where everyone can see them. Explain that *renewable* means “there is always more.” Wind, water, and sunshine are examples of renewable energy sources because when we use them, there is still more available. Explain that *nonrenewable* means “there is a limited supply.” Oil and coal are examples of nonrenewable energy sources. Once we take oil and coal out of the ground and use them, they are gone forever.

Tell students there are advantages and disadvantages of using different types of energy sources. Write the words *advantage* and *disadvantage* where everyone can see them and explain that an *advantage* is a “good thing or a benefit,” while a *disadvantage* is a “bad thing or a problem.”

### 2 Examine a Source

Tell the students that they will read an article about nonrenewable energy sources and then discuss it as a group.

Distribute the article “Fossil Fuels” (see Student Handout 1 on page 90) and the “Article 1 Notes” graphic organizer (see Student Handout 2 on page 92). Tell the students that they can take notes about the article as they read it.

Have the students read the article, and then lead a whole-class discussion using the following questions:

**Question 1:** *What are some examples of fossil fuels?*

**Question 2:** *How are fossil fuels created?*

### 3 Explain the Writing Task

Tell students that in a few minutes they will read an article that gives examples of renewable energy sources and discusses the advantages and disadvantages of using them. Then the students will use both articles and their notes to answer some questions and write their own reports about energy sources.

Discuss with the students the characteristics of a well-written report. A report:

- Has a main idea
- Gives evidence from the sources to support the main idea
- Is well-organized and stays on topic
- Explains information clearly
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

Answer any questions the students might have and then move on to Part 1 of the performance task.

## Teacher Directions for Parts 1 and 2

---

### Part 1 35 MINUTES

1. Distribute copies of the source material, graphic organizer, student directions, and research questions (see Student Handouts 3–6 on pages 93–97) to each student, and have the students write their names on all materials. Note that students should not receive the directions specific to writing their reports until Part 2.
2. Tell the students to read “Student Directions for Part 1” (see Student Handout 3 on page 93). Remind the students they will have 35 minutes for Part 1 and then tell them to begin.
3. To help the students plan their time, alert them when 15 minutes and 5 minutes remain in Part 1.
4. Signal to let the students know that Part 1 is over.

## BREAK

## Part 2 70 MINUTES

1. Distribute a copy of “Student Directions for Part 2” (see Student Handout 7 on page 98) to each student. Make sure the students have access to all of the sources, graphic organizers, any other notes, and their answers to the research questions. Remind the students that they may not change their answers to the research questions from Part 1.
2. Tell the students to read “Student Directions for Part 2” and explain that their writing assignment is included in these directions.
3. After 15 minutes have elapsed, suggest that the students begin writing their reports.
4. Alert the students when 30 minutes remain.
5. Alert the students when 15 minutes remain, and suggest that they begin revising their reports.
6. Signal to let the students know that Part 2 is over and collect all materials from each student.

## 2-Point Research Rubric

### Question 1:

*Why is wind power a renewable energy source? Use details from the sources in your answer.*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives a sufficient explanation of why wind is a renewable energy source.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives a limited explanation of why wind is a renewable energy source.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response is incomplete, incorrect, vague, or completely absent. It does not include an explanation of why wind power is a renewable energy source.

#### Sample 2-Point Response

Wind power is a renewable energy source because there is always more wind to push the blades of the turbines. We cannot use it up.

#### Sample 1-Point Response

Wind is renewable.

#### Sample 0-Point Response

Wind farms.

## 2-Point Research Rubric

### Question 2:

*What is one advantage and one disadvantage of using fossil fuels? Use details from the sources in your answer.*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives a sufficient example of an advantage and a disadvantage of using fossil fuels.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives a limited example of an advantage and a disadvantage of using fossil fuels.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response is incomplete, incorrect, vague, or completely absent. It does not include an example of an advantage and disadvantage of using fossil fuels.

#### Sample 2-Point Response

One advantage of using fossil fuels is that they are cheaper than renewable energy. One disadvantage is that they make the air dirty when we burn them.

#### Sample 1-Point Response

Fossil fuels are cheap and can be stored.

#### Sample 0-Point Response

We use much more fossil fuels.

## 2-Point Research Rubric

### Question 3:

*Discuss two reasons why people should try to use more renewable energy. Use details from the sources in your answer.*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives a sufficient explanation of why people should use more renewable energy.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives a limited explanation of why people should use more renewable energy.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response is incomplete, incorrect, vague, or completely absent.

#### Sample 2-Point Response

Renewable energy is clean. It does not pollute the air. It can't be used up. There is always more.

#### Sample 1-Point Response

Renewable energy can't be used up.

#### Sample 0-Point Response

We don't use enough renewable energy.

## Fossil Fuels

About 300 million years ago, water, sand, and mud covered dead plants and animals. They got buried deeper and deeper in the ground. Over a very long time, the dead plants and animals changed. They turned into oil, natural gas, and coal. These are called fossil fuels.

### Why are fossil fuels important?

Fossil fuels are important because we use them every day. We burn fossil fuels to produce electricity, heat homes, and cook food. Some fossil fuels are used to make gasoline for cars and airplanes. Some are used to make plastic. Some are used to make cosmetics or detergent. Some are even used in toothpaste!

## Student Handout 1 *(continued)*

### Can we use fossil fuels forever?

Fossil fuels are nonrenewable. Once you take them out of the ground and use them, they are gone forever. Someday we could run out of fossil fuels.

### Are fossil fuels the only sources of energy?

We use fossil fuels for most of our energy. But there are other sources, too. Wind and solar power are two examples. These sources of energy are cleaner than fossil fuels. When fossil fuels burn, they give off gases. These gases make the air dirty, or polluted. Wind and solar power don't give off gases. But they do cost more. This is one reason they aren't used more.

## Student Directions for Part 1

### Part 1 (35 minutes)

#### Your Task

You will read an article titled “Renewable Energy.” Then you will answer three research questions about what you have learned. In Part 2, you will write a report about energy sources. You will be able to refer to the articles, your notes, and the answers to the research questions when you write your report.

#### Steps to Follow

In order to plan and write your report, you will do the following:

1. Read the article.
2. Take notes about the information in the article using a graphic organizer.
3. Answer three research questions to help you think about key information in the articles.

#### Directions for Beginning

You will have 35 minutes to read the article, take notes, and answer the research questions. Your answers will be scored.

# Renewable Energy

**Most** of the energy we use comes from fossil fuels. Fossil fuels are nonrenewable. What will we do when they are gone? The answer might be found in renewable energy sources. Renewable energy sources can't be used up. Let's learn about some renewable energy sources.

## Wind Power

A wind turbine looks like a giant pinwheel. Wind pushes the blades of the turbine. The energy from the turning blades is used to make electricity. When many wind turbines are built in one place, it's called a wind farm.

© Shutterstock.com/Terrance Emerson

## Geothermal Energy

Geothermal energy is heat that comes from the earth. Volcanoes and geysers are places where the earth's heat escapes. This heat can be used to warm buildings. It can also be used to make electricity.

## Solar Power

We all know the sun's energy makes things warm. The sun's energy can also be turned into electricity. This is done using large, flat pieces of equipment called solar panels. Solar panels use the light from the sun to make electricity.

## Student Handout 4 (continued)

### Hydropower

Hydropower is energy produced by moving water. The water must move with a lot of force to make electricity. Waterfalls can produce hydropower. People also build dams to produce hydropower. Water collects behind a dam. When the dam is opened, water rushes through with enough force to make electricity.

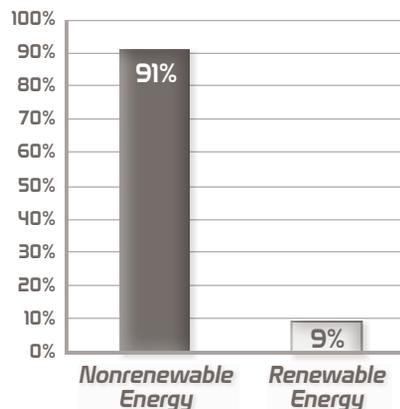

### Biofuel Energy

Biofuels are a type of fuel that is made mostly from plants. Even vegetable cooking oil can be made into a biofuel. Biofuels can be used to replace fuels like gasoline. When biofuels are burned, they don't pollute the air.

### Why Not Use More Renewable Energy?

#### U.S. Energy Use for 2012 (%)

Source: U.S. Energy Information Administration/Monthly Energy Review March 2013.

We know that fossil fuels are nonrenewable. They can also hurt the environment. So why do we keep using them instead of renewable energy?

The main reason is cost. Fossil fuels cost less than renewable energy sources. Fossil fuels can also create energy at any time. That's not true of renewable energy sources. Solar panels can't make electricity at night. If the wind doesn't blow, wind farms can't make electricity.

Sometimes using renewable energy can cause problems. For example, a dam can destroy animals' homes. Wind farms can be dangerous for flying birds.

Renewable energy is not perfect. But people are trying to figure out solutions to some of the problems. It's one way to prepare for the day when fossil fuels run out.

## Student Directions for Part 2

### Part 2 (70 minutes)

#### Your Task

You will have 70 minutes to write your report. You should review your notes and sources. Then plan, write, and revise your writing. You may also refer to the answers you wrote to the research questions in Part 1, but you cannot change those answers.

#### Your Writing Assignment

Your class is getting ready for an open house for parents. Student reports will be on display. Write a report that describes the different kinds of energy sources and the advantages and disadvantages of using each.

#### Begin Work on Your Report

Manage your time carefully so that you can:

- Plan your report (15 minutes)
- Write your report (40 minutes)
- Revise and edit for a final draft (15 minutes)

You may use a dictionary to check spelling.

#### Things to Remember

Remember that a well-written report:

- Has a main idea
- Gives evidence from both sources to support the main idea
- Is well-organized and stays on topic
- Explains information clearly
- Uses language that suits the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

# Class Assessment Records

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>Are partners able to agree about what information to include in their notes?</li> </ul>			
<ul style="list-style-type: none"> <li>Are they recording their notes in the appropriate place on their graphic organizers?</li> </ul>			
<ul style="list-style-type: none"> <li>Are they writing notes in their own words?</li> </ul>			
Other observations:			

**Considerations:**

If you notice many students having difficulty writing notes, call for the class’s attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate place on the chart. As necessary, encourage the students to reread the article to collect the information they need.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>Do the students' responses indicate that they understand what each question is asking?</li> </ul>			
<ul style="list-style-type: none"> <li>Are they able to incorporate details from their notes and the sources in their responses?</li> </ul>			
<p>Other observations:</p>			

**Considerations:**

If you notice the students struggling to write responses, support them by asking questions such as:

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the source can you find that information?*
- Q *How might you include information from your notes and the sources in your answer?*

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
▪ Does their writing indicate that they understand the task?			
▪ Are they able to introduce the topic in the opening paragraph of the report?			
▪ Does their writing stay on topic?			
▪ Are they able to incorporate information from their notes and the sources into their reports?			
Other observations:			

**Considerations:**

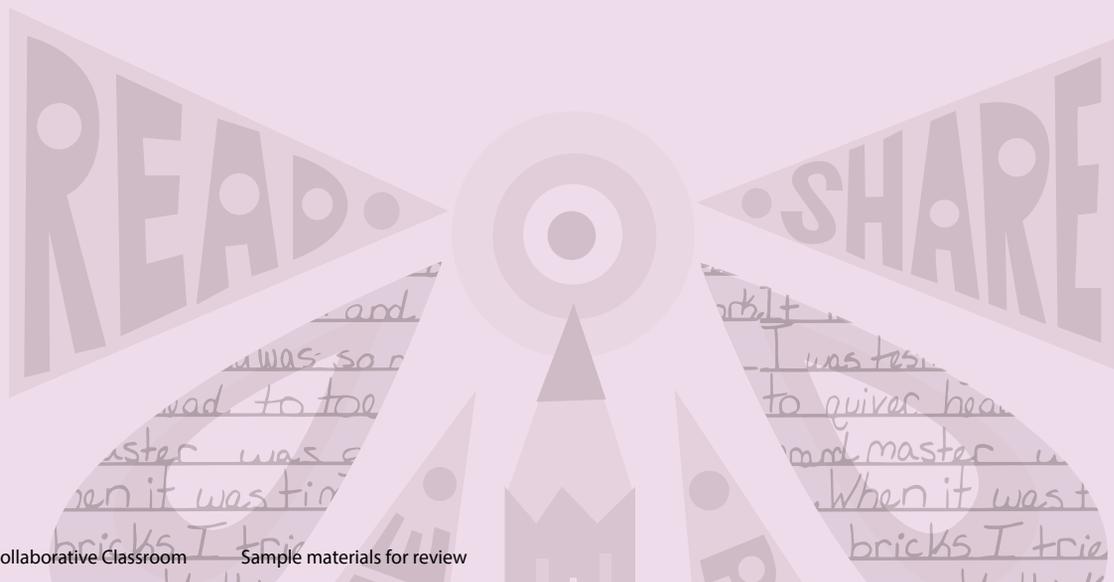

If you notice a student having difficulty starting to write after 5-10 minutes, help stimulate his or her thinking by asking questions such as:

- Q *What is the topic of your report? What might you write in the opening paragraph to introduce the topic?*
- Q *How might you use your notes to help you organize your report?*
- Q *What information from your notes or the sources might you use to explain [different kinds of energy sources]?*

# Unit

# Opinion Writing

During this one-week unit, the students prepare for the opinion writing portion of a standards-based end-of-year writing performance task. They discuss what they have learned about opinion writing and complete a practice performance task as a class, guided by the teacher. The students begin by reading and discussing an article about early American history after the Revolutionary War and then read two articles about George Washington and Benjamin Franklin. The students each take notes about what they learn, and use information from the sources and their notes to answer research questions and write an opinion essay about the topic—whether students would rather meet George Washington or Benjamin Franklin if they could go back in time. Socially, the students listen respectfully to the opinions of others and share their own, make decisions with their partners, and explain their thinking.

# Week OVERVIEW

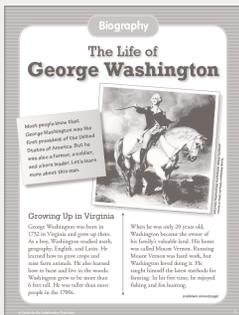

## “The Early Days of the United States of America” article (BLM1)

Events occurring after the Revolutionary War and the gathering of leaders to write the Constitution of the United States of America are discussed in this article.

## “The Life of Benjamin Franklin” article (BLM5)

Benjamin Franklin's contributions as a scientist, inventor, and political leader are discussed in this article.

## “The Life of George Washington” article (BLM3)

A brief account of George Washington's life is provided in this article.

### Writing Focus

- Students reflect on what they have learned about opinion writing.
- Students read three articles about the topic and take notes on two of them.
- Students answer research questions about the topic, and plan and write opinion essays.
- Students revise and proofread their writing.

### Social Development Focus

- Students listen respectfully to the opinions of others and share their own.
- Students make decisions together.
- Students explain their thinking.

## DO AHEAD

- ✓ Prior to Day 1, read “Guided Practice Performance Task: Opinion Writing” on pages 132–136. This unit’s lessons are based on this guided practice performance task. During the unit, the students complete this performance task with instructional support and guidance from the teacher. For more information about how the performance task is used in the lesson, see “About the Guided Practice Performance Task” on page 108.
- ✓ Prior to Day 1, read the articles “The Early Days of the United States of America” (BLM1) and “The Life of George Washington” (BLM3) to familiarize yourself with the content in each source.
- ✓ Prior to Day 1, prepare a sheet of chart paper so that it resembles the “Article 1 Notes” graphic organizer (BLM4) the students will use.
- ✓ Prior to Day 1, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the student handouts (see “Reproducibles” on page 104). Make a class set of copies of each handout listed, except for “Student Directions for Part 1” (BLM2). You might want to have extra copies of the graphic organizers available for the students.
- ✓ Prior to Day 1, prepare a class set of writing folders for the students to use to organize their materials throughout the week.
- ✓ Prior to Day 2, read the article “The Life of Benjamin Franklin” (BLM5) to familiarize yourself with the content.
- ✓ Prior to Day 2, prepare a sheet of chart paper so that it resembles the “Article 2 Notes” graphic organizer the students will use (BLM6).
- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA1) on page 152.
- ✓ Prior to Day 3, prepare a sheet of chart paper so that it resembles the “Research Questions” sheet (BLM7) the students will use. You may want to write each question on a separate piece of chart paper.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2) on page 153.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA3) on page 154.

## TEACHER AS WRITER

*“If you’re not assessing all the time, how do you know if [students] are getting it or not? We need to know what they know so we can teach them what they don’t know.”*

— Jan Borelli, educator

All educators recognize the importance of assessing students to inform classroom instruction, but there is less agreement about the value of standardized testing as an assessment tool. What is your opinion of standardized testing? Do standardized tests help you “know what they know”? Do you have concerns about these tests? Write your thoughts and feelings about standardized testing in your journal.

# Day 1

## Reading Articles and Taking Notes

### Materials

- Copy of the article “The Early Days of the United States of America” (BLM1) for each student
- Copy of the article “The Life of George Washington” (BLM3) for each student
- Chart paper and a marker
- “Great Britain and the 13 States” chart (WA1)
- “The Early Days of the United States of America” chart (WA2)
- “Student Directions for Part 1” chart (WA3; also available as BLM2)
- “The Life of George Washington” chart (WA4)
- “Article 1 Notes” chart, prepared ahead
- Copy of “Article 1 Notes” graphic organizer (BLM4) for each student

### Teacher Note

We recommend that you teach this unit after the class completes the Opinion Writing genre unit.

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 5 and then finish the lesson later in the day or the next day.

### Teacher Note

The partners you assign today will stay together for the entire unit.

### In this lesson, the students:

- Work with new partners
- Reflect on what they know about good opinion writing
- Read and discuss two articles
- Take notes on an article as a class and in pairs
- Explain their thinking

### ABOUT THE GUIDED PRACTICE PERFORMANCE TASK

During this unit, the students complete an opinion writing performance task as a class with instructional support from you. The purpose for this guided practice performance task is to prepare the students for standards-based end-of-year performance tasks they will be required to complete independently. Five days of instruction are provided during which the students’ writing is neither timed nor scored. This unit’s performance task is not computerized and can be administered in a classroom environment using pencils, paper, and other classroom resources.

The topic of the performance task is whether students would rather meet George Washington or Benjamin Franklin if they could go back in time. The task consists of three sections: an Introductory Classroom Activity (students are introduced to the topic and examine one of the sources), Part 1 (students examine additional sources and answer research questions about the topic), and Part 2 (students write their own opinion essays). For more information about each section, see “Task Overview” on page 133. For the complete performance task on which this unit’s instruction is based, see “Guided Practice Performance Task: Opinion Writing” on pages 132-136.

## GETTING READY TO WRITE

### 1 Pair Students and Introduce the Performance Task

Randomly assign partners and make sure they know each other’s names. Have the students bring their pencils and sit at desks with partners together.

Tell the students that at the end of the school year, all the students in their grade will complete a reading and writing assignment called a *performance task*. (You might explain that a *task* is a “job that needs to be done.”) Explain that the purpose for the performance task is to show how well they are developing and growing as readers and writers. This is important information for them as students, as well as for their families, teachers, and principal.

Remind the students that for the past several weeks they have been doing opinion writing, and explain that opinion writing is one type of writing they will do on the end-of-year performance task. Tell the students that during the next several days they will learn strategies for doing well on the opinion writing portion of the performance task.

## 2 Discuss What the Class Has Learned About Opinion Writing

Point out that the students have learned a lot about how to write good opinion pieces, and explain that they can use what they have learned to help them do well on the performance task. Ask and discuss the questions that follow as a class. Encourage the students to use the discussion prompts they have learned as they talk to one another.

- Q *What have you learned about good opinion writing?*
- Q *What did you do to make your opinion piece interesting and easy to read?*

### Students might say:

“It clearly states an opinion in the opening sentence or paragraph.”

“I agree with [Chloe]. It also gives several reasons that support the opinion.”

“It uses transition words to connect thoughts.”

“In addition to what [James and Rashalla] said, it is clearly organized and makes sense.”

“It often restates the opinion at the end of the article.”

As the students respond, record their ideas on a sheet of chart paper titled “What We Have Learned About Opinion Writing.” If the students do not mention the following qualities of good opinion writing, briefly review them and add them to the chart.

### Teacher Note

The discussion prompts are:

- “I agree with \_\_\_\_\_ because...”
- “I disagree with \_\_\_\_\_ because...”
- “In addition to what \_\_\_\_\_ said, I think...”

### What We Have Learned About Opinion Writing

- Clearly states an opinion in the opening sentence or paragraph
- Gets the reader interested in knowing more
- Gives reasons that support the opinion
- Uses transition words
- Is clearly organized and makes sense
- Includes a conclusion that wraps up the writing and restates the opinion
- Follows writing rules for spelling, punctuation, capitalization, and grammar

Tell the students that you will post the chart where everyone can see it so that they can keep what they have learned about good opinion writing in mind as they prepare for the opinion writing performance task.

### 3 Introduce the Topic of the Guided Practice Performance Task

Explain that today you will introduce the students to the topic of the performance task, and they will read two articles about the topic. In the coming days, they will learn more about the topic by reading another article. Then, as a class, they will use what they learned to answer research questions and write essays about the topic.

Tell the students they are going to learn about George Washington and Benjamin Franklin—two leaders who helped make the United States a country—and write opinion essays about which man they would rather meet if they could go back in time.

Display the “Great Britain and the 13 States” chart (WA1). Point out Great Britain and North America on the map. Explain that beginning in the 1600s, some people left Great Britain and sailed in ships across the Atlantic Ocean to make new homes in North America. However, they were still ruled by Great Britain. As time went by, these settlers did not like the way the British king treated them. They decided to become independent states, which meant they no longer had to follow the rules of Great Britain. The British king did not like this. The states had to fight a war with Great Britain to become free. It was called the Revolutionary War. Tell the students that the states won the war and gained their independence from Great Britain in 1783.

## 4 Introduce an Article and Read It Aloud

Tell the students that the first source of information they will read today is a brief magazine article titled “The Early Days of the United States of America.” It discusses what happened after the Revolutionary War and how a document called a constitution was written to form a new government. It also explains how George Washington and Benjamin Franklin helped. Display the chart “The Early Days of the United States of America” (WA2) and distribute a copy of the article (BLM1) to each student.

Tell the students that for this task you will read the article aloud, but when they do performance tasks on their own, they will read any source materials independently. Ask them to follow along as you read the article aloud, slowly and clearly. Then ask:

**Q** *What did you learn from reading the article about the early days of the United States of America?*

### Students might say:

“There were many arguments among the people who were writing the Constitution.”

“All thirteen states signed the Constitution.”

“George Washington and Benjamin Franklin were important leaders who helped get the Constitution written and signed.”

Direct the students’ attention to the painting at the bottom of the first page of the article. Explain that this painting shows the many leaders of the colonies gathered to write the Constitution, including George Washington and Benjamin Franklin.

## 5 Introduce Student Directions for Part 1

Display the “Student Directions for Part 1” chart (WA3). Explain that these are directions for the first part of the performance task, in which the students examine sources about George Washington and Benjamin Franklin and write responses to research questions. Tell the students that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, you will continue to read the sources aloud, rather than have the students read them on their own, and they will take more time than the directions say to complete the steps. Explain that when the students do performance tasks on their own later, they will follow the directions exactly.

## 6 Introduce Another Article and Read It Aloud with Stops

Tell the students that the next source of information they will read is an article from a social studies textbook titled “The Life of George Washington.” Display the chart “The Life of George Washington” (WA4) and distribute a copy of the article (BLM3) to each student.

### Teacher Note

You might explain that a *source* is “something that information comes from, such as a book, video, article, or website.”

### Teacher Note

The purpose for showing the “Student Directions for Part 1” chart (WA3) is to briefly introduce the students to the type of directions they will encounter when they do performance tasks by themselves. It is not necessary to take the students through all the directions now. They will have the experience of “following” the directions over the next few days. As you complete various parts of the directions, you might redisplay the chart and point out the steps the students have completed.

Ask the students to follow along as you read the article aloud, and explain that you will stop during the reading to have pairs discuss what they are learning. Then read the title and the first part of the article aloud, slowly and clearly. Stop after:

"In his free time, he enjoyed fishing and fox hunting."

Ask:

**Q** *What did you learn about George Washington in the part of the article you just heard? Turn to your partner.*

Without sharing as a class, continue reading the article. Following the same procedure, have the students discuss what they learned at the next two stops:

"His leadership helped the states win the war."

"For these reasons, Washington is often called 'the father of our country.'"

## WRITING TIME

### 7 Reread the Article and Take Notes as a Class and in Pairs

Post the "Article 1 Notes" chart that you prepared ahead and distribute a copy of the "Article 1 Notes" graphic organizer (BLM4) to each student.

Tell the students that you will reread the article, and that as a class, they will use a note-taking chart, called a *graphic organizer*, to take notes about what they are learning about George Washington. Point out that this graphic organizer has a column to write what George Washington did during his life, a column to write descriptions of George Washington, and a section at the bottom for other notes. Explain that, as you read the article, you will again stop during the reading so that the students can discuss what they have learned and record their notes on the graphic organizer.

Read the article and stop after:

"In his free time, he enjoyed fishing and fox hunting."

Discuss as a class:

**Q** *What did you learn about George Washington in the part of the article you just heard?*

**Q** *Where on the graphic organizer might you put a note saying George Washington [was tall]? Why?*

#### Students might say:

"As a boy, he learned how to farm and hunt. I think that goes in the column about things he did."

"I learned that George Washington was really tall, and I think it should go in the right-hand column since it describes what he looked like."

"He was a soldier who led men in many battles. I'll put that in the left-hand column because it is about what he did during his life."

As the students respond, model writing their responses as notes in the appropriate places on the chart, and have the students copy the notes onto their own graphic organizers.

Using the same procedure, read the next section of the article. Have the students discuss what they learned as a class, and model taking notes. Stop after:

“His leadership helped the states win the war.”

Continue reading to the end of the article. Have the students discuss what they learned in pairs (rather than as a class) and record their notes on their graphic organizers.

Have a few volunteers share what they discussed and where on their graphic organizers they wrote their notes. As they share, add their ideas to the chart.

Article 1 Notes “The Life of George Washington”	
Things George Washington Did	Ways to Describe George Washington

<p>Other Notes:</p> <ul style="list-style-type: none"> <li>- was born and grew up in Virginia</li> <li>- became owner of his family’s land</li> </ul>	

### Teacher Note

You may want to review that notes are most helpful when they are brief and written in the writer’s own words rather than copied exactly from the source.

### Teacher Note

If the students have difficulty deciding where on the graphic organizer to record their notes, call for their attention and model writing their ideas in the appropriate places on the chart.

Tell the students that tomorrow they will read and discuss an article about Benjamin Franklin.

Distribute a writing folder to each student and explain that this is where the students will keep all of their materials for the week. Have the students put their materials inside their folders and keep them in their desks.

## SHARING AND REFLECTING

### 8 Reflect

Ask and briefly discuss:

**Q** *What did you and your new partner do to work well together today?*

### Teacher Note

Save the “What We Have Learned About Opinion Writing” chart and the “Article 1 Notes” chart to use throughout the unit.

# Day 2

## Reading an Article and Taking Notes

### Materials

- Copy of the article “The Life of Benjamin Franklin” (BLM5) for each student
- “Article 1 Notes” chart from Day 1
- “The Life of Benjamin Franklin” chart (WA5)
- “Article 2 Notes” chart, prepared ahead
- Copy of “Article 2 Notes” graphic organizer (BLM6) for each student
- A marker
- “Class Assessment Record” sheet (CA1)

### In this lesson, the students:

- Review what they have learned about George Washington
- Read and discuss an article about Benjamin Franklin
- Take notes on the article in pairs
- Make decisions together
- Work in a responsible way

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Review that the students are working together to complete an opinion writing task about whom they would rather meet—George Washington or Benjamin Franklin—to prepare for the end-of-year performance task. Remind the students that yesterday they discussed what they have learned about good opinion writing. They also read two articles, discussed them as a class, and took notes on one of the articles.

Direct the students’ attention to the “Article 1 Notes” chart from Day 1. Briefly review the notes by asking:

**Q** *What did you learn about George Washington from the article we read yesterday?*

Tell the students that today they will read an article about Benjamin Franklin.

## 2 Introduce the Article and Read It Aloud with Stops

Tell the students that today’s source is an article from a social studies textbook titled “The Life of Benjamin Franklin.” Display the chart “The Life of Benjamin Franklin” (WA5) and distribute a copy of the article (BLM5) to each student. Ask them to follow along as you read the article aloud, and explain that you will stop during the reading to have pairs discuss what they are learning.

Read the title and the introduction to the article and the first three paragraphs aloud, slowly and clearly. Stop after:

“Many of Franklin’s inventions are still used by people today.”

Ask:

**Q** *What did you learn about Benjamin Franklin in the part of the article you just heard? Turn to your partner.*

Without sharing as a class, continue reading to the end of the article and follow the same procedure to have the students discuss what they learned.

## WRITING TIME

### 3 Reread the Article and Take Notes in Pairs

Post the “Article 2 Notes” chart that you prepared ahead and distribute a copy of the “Article 2 Notes” graphic organizer (BLM6) to each student.

Point out that this graphic organizer is organized just like the “Article 1 Notes” graphic organizer (BLM4). Explain that as you read the article again you will stop, and partners will discuss what they learned and then write notes in the appropriate places on their own graphic organizers. Remind them that they will use the information they collect to answer research questions and write opinion essays about whether they would rather meet George Washington or Benjamin Franklin.

Read the article and stop (as you did before) after:

“Many of Franklin’s inventions are still used by people today.”

Ask the following questions one at a time, without discussing them as a class:

**Q** *What did you learn about Benjamin Franklin in the part of the article you just heard?*

**Q** *Where will you write a note about what you have learned on the graphic organizer, and why will you write the note there?*

Say “Turn to your partner,” and give partners a few minutes to share their thinking and write notes about what they learned on their graphic organizers. As they work, circulate, observe, and offer assistance.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners able to agree about what information to include in their notes?
- Are they recording notes in the appropriate places on their graphic organizers?
- Are they writing notes in their own words?

If you notice many students having difficulty writing notes, call for the class's attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate place on the chart. As necessary, encourage the students to reread the article to collect the information they need.

Record your observations on the "Class Assessment Record" sheet (CA1); see page 152.

When most pairs have finished, ask volunteers to share their thinking about what they learned and where they recorded their notes on their graphic organizers. Then add their ideas to the chart.

Continue reading to the end of the article and using the same procedure, stop, discuss, and take notes.

Other Notes:	

Tell the students that tomorrow they will work together, using the sources and their notes, to answer research questions about George Washington and Benjamin Franklin. Have them put all their materials inside their folders.

## SHARING AND REFLECTING

### 4 Reflect

Ask and briefly discuss:

- Q *Why do you think it is a good idea to read a source more than once, like we did today?*
- Q *What did you do today to work in a responsible way?*

### Teacher Note

Save the “Article 2 Notes” chart to use throughout the rest of the unit.

# Day 3

## Writing Responses to Research Questions

### Materials

- “Article 1 Notes” and “Article 2 Notes” charts from Days 1 and 2
- “The Life of Benjamin Franklin” chart (WA5) from Day 2
- “The Life of George Washington” chart (WA3) from Day 1
- “The Early Days of the United States of America” chart (WA2) from Day 1
- “Research Questions” chart, prepared ahead
- Copy of “Research Questions” sheet (BLM7) for each student
- A marker
- “Class Assessment Record” sheet (CA2)

### In this lesson, the students:

- Read and discuss research questions about George Washington and Benjamin Franklin as a class
- Identify words in the questions that give clues about what to write
- Write responses to the questions as a class and independently
- Reflect on and revise their responses

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Remind the students that they are learning strategies they can use to do well on the end-of-year performance task. Review that the students read an article about the early days of America and discussed it as a class. Direct the students’ attention to the “Article 1 Notes” and “Article 2 Notes” charts from Days 1 and 2 and review that they also read articles about George Washington and Benjamin Franklin and took notes about what they learned. Explain that today they will use their notes and the articles to answer research questions about George Washington and Benjamin Franklin.

### 2 Model Reading a Question and Writing a Response

Post the “Research Questions” chart that you prepared ahead. Distribute a copy of the “Research Questions” sheet (BLM7) to each student, and have the students write their names and the date on their sheets. Explain that these are the questions the students will answer in Part 1 of the performance task.

Tell the students that the first step in writing a response to a question is to read and think carefully about the question. Point to Question 1 on the chart and ask the students to listen closely as you read it aloud twice. Discuss:

**Q** *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, point out that the question is asking what “kind of person” George Washington was. Underline that key phrase on the chart.

Point to the statement following the question and read it aloud. Explain that “use at least two details from the sources to describe him” means that the students should look for at least two details in their notes and the sources to write their responses.

Ask the students to watch as you model writing a response to the first question on the chart, thinking aloud as you write. Display the chart “The Life of George Washington” (WA2) and model reviewing your notes and the article for the information you need.

**You might say:**

“I know that the question is asking me to describe George Washington and to use two details from my sources in my answer. In my notes on this article, I wrote that Washington knew how to farm and hunt. I remember that the article said he learned both of these things while growing up. (Point to the paragraph in the article where you found this information.) I’ll write: *George Washington learned how to hunt and farm while he was growing up.* I need to write at least two details, and I’d like to add information about how he became a strong leader. In my notes I wrote that he ‘was in charge of the army during the Revolutionary War.’ I’ll write: *He became a strong leader and was in charge of the army during the Revolutionary War.*”

### Research Questions

1. What kind of person was *George Washington*? Use at least two details from the sources to describe him in your answer.

*George Washington learned how to hunt and farm while he was growing up. He became a strong leader and was in charge of the army during the Revolutionary War.*

### 3 Read and Discuss Questions as a Class

Explain that the students will read and discuss Questions 2 and 3 as a class. Then, during Writing Time, the students will work in pairs to discuss what they might write in response to those questions, and each write their own responses on their “Research Questions” sheets.

Point to Question 2 on the “Research Questions” chart and read it aloud twice. Ask and discuss:

**Q** *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, point out that the question is asking for “two important things that Benjamin Franklin did.” Underline that key phrase on the chart.

Point to Question 3 on the chart and explain that the format for this question is different from Questions 1 and 2. Read Question 3 aloud twice; then ask and discuss:

**Q** *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, explain that the students need to “choose the facts about George Washington that are in both articles” and “put a check mark in the blank before each fact that is

### Teacher Note

The consortia that are developing the end-of-year performance tasks plan to deliver the assessment electronically. This means that individual students will have computer or tablet access to all research sources as they respond to questions and write extended pieces.

in *both* articles.” Underline those key phrases on the chart. Read aloud each fact and explain that if the students cannot find the fact about George Washington in *both* articles, they should *not* put a check mark next to the fact.

## WRITING TIME

### 4 Discuss Questions in Pairs and Write Answers

Have partners discuss what they might write in response to Question 2 and which facts from Question 3 can be found in both articles. Review that each student will write his own response to the questions on his “Research Questions” sheet. Remind the students to use details from their notes and from the sources in their responses to Question 2. As the students work, circulate, observe, and offer assistance.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students’ responses indicate that they understand what each question is asking?
- Are they able to incorporate information from their notes and the sources in their responses?

If you notice the students struggling to write responses, support them by asking questions such as:

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the article can you find that information?*
- Q *How might you include information from your notes and the articles in your answer?*

Record your observations on the “Class Assessment Record” sheet (CA2); see page 153.

### 5 Facilitate Guided Rereading and Revising of Responses

Tell the students that they will now reread their responses to Question 2 and then reflect on the quality of their responses by thinking about some questions you will ask.

Have the students quietly reread their responses to Question 2 and look up when they are finished. Ask the following questions and give them a moment to review their writing and, if necessary, their sources and notes:

- Q *Do you think your response does a good job of naming two important things Benjamin Franklin did during his life? If not, what might you add or take out to improve it?*

Without discussing as a class, have the students revise their responses as necessary. Remind them to refer to their sources and notes if needed.

Then have the students reflect on their responses to Question 3 by asking the question that follows:

**Q** *What did you do to make sure the facts you marked are in both articles?*

## SHARING AND REFLECTING

### 6 Share Responses and Reflect

After several minutes, have a few volunteers share with the class what they wrote in response to Question 2. As they share, use their ideas to model writing a well-crafted response to the question on the “Research Questions” chart.

Have one or two volunteers share which facts they marked in Question 3. As they share, model marking the facts on the “Research Questions” chart.

#### Research Questions

2. What are two important things Benjamin Franklin did during his life?  
Use details from the sources in your answer.

*Benjamin Franklin invented a stove and many other things. He also helped to write the Constitution of the United States.*

3. Choose the facts about George Washington that are in both articles, “The Early Days of the United States of America” and “The Life of George Washington.” Put a check mark in the blank before each fact that is in both articles.

\_\_\_ George Washington’s home was called Mount Vernon.

George Washington was in charge of the army.

George Washington was the first president of the United States of America.

\_\_\_ George Washington and his wife were one of the richest families in Virginia.

Have the students reflect on their work by asking:

**Q** *Do you think your notes helped you answer the questions well? Why or why not?*

#### Teacher Note

You may want to display both articles (WA2 and WA4) and point out where each fact appears in the articles.

## Teacher Note

Save the “Research Questions” chart to use on Day 4.

# Day 4

## Writing an Essay

Tell the students that tomorrow they will use the sources, their notes, and their answers to the questions to each write an opinion essay about whether they would rather meet George Washington or Benjamin Franklin if they could go back in time. Have them put their materials inside their folders.

### Materials

- “Student Directions for Part 2” chart (WA6)
- Copy of “Student Directions for Part 2” (BLM8) for each student
- “Article 1 Notes,” “Article 2 Notes,” and “Research Questions” charts from Day 3
- “The Life of Benjamin Franklin” chart (WA5) from Day 3
- “The Life of George Washington” chart (WA4) from Day 3
- “The Early Days of the United States of America” chart (WA2) from Day 3
- Lined writing chart (WA7) for modeling
- “Writing Time” chart (WA8)
- Supply of lined paper for writing essays
- “Class Assessment Record” sheet (CA3)

## Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 3 and then finish the lesson later in the day or the next day.

### In this lesson, the students:

- Plan and write opinion essays about whether they would rather meet George Washington or Benjamin Franklin
- Include qualities of a well-written opinion essay in their writing
- Reflect on how they felt about writing their essays
- Respectfully consider the opinions of others

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Point to the “Research Questions” chart and remind the students that yesterday they completed the first part of the guided practice performance task—answering questions about George Washington and Benjamin Franklin. Explain that today partners will work together on the second part of the task—writing opinion essays about which man they would rather meet.

### 2 Introduce and Discuss the Essay-writing Task

Display the “Student Directions for Part 2” chart (WA6) and distribute a copy of the directions (BLM8) to each student. Explain that these are directions for the second part of the performance task, in which the students each write an opinion essay about whether they would rather meet George Washington or Benjamin Franklin. Review that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, they will take more time than the directions say to write their essays. Remind the students that when they do performance tasks on their own later, they will need to follow the directions exactly.

Ask the students to listen as you read from each section of the directions aloud, using the following procedure:

1. Read the section “Your Task” aloud and review that the students may use the sources, their notes, and their answers to the

research questions to help them write their essays. Remind the students that when they do performance tasks on their own they will be timed, but that today they will not be.

2. Read the section “Your Writing Assignment” aloud and review that each student needs to write an essay that tells his opinion about whether he would rather meet George Washington or Benjamin Franklin. Remind the students that they will need to support their opinions with reasons from the sources.
3. Read the section “Begin Work on Your Essay” aloud, point out the information that is relevant for this performance task (for example, “plan,” “write,” and “revise”), and underline it.
4. Read the list of qualities of a well-written opinion essay aloud. Point out that the list is similar to the list the class created on the “What We Learned About Opinion Writing” chart. Tell the students that they may refer to both lists as they write their essays.

Ask and briefly discuss:

**Q** *What questions do you have about the directions for writing the opinion essay?*

Tell the students that they will do the writing task together as a class and that this will help prepare them to do tasks like this on their own.

### 3 Model Planning and Starting the Essay

Tell the students that you will model writing the first two paragraphs of the essay. Remind them that the essay needs to clearly state an opinion and support the opinion with reasons from the sources. Tell them that you will write an opening paragraph that states your opinion, and then you will write a paragraph describing one reason that supports your opinion. Direct the students’ attention to the qualities of a well-written opinion essay in the directions (BLM8) and explain that as you write the essay, you will include these qualities in your writing.

Display the lined writing chart (WA7) and model writing the first two paragraphs of the essay. Think aloud as you write, and remember to model reviewing your notes and the sources to find the information you need. Be sure to include qualities of a well-written opinion essay, such as clear organization and an opening paragraph that states your opinion.

**You might say:**

“My opening paragraph needs to clearly state my opinion on the topic. I also want the opening to get the reader interested in reading my essay. I’ll write: *If I could go back in time, I would want to meet Benjamin Franklin more than George Washington. I think Benjamin Franklin would be very interesting to talk to because he was an inventor. He was also an important leader of our country.* This shows I understood the assignment because I’ve stated my opinion clearly in the opening sentence. I think by saying that he was ‘an inventor’ and ‘an important leader of our country’ I will make my reader want to keep reading.”

The next paragraph will describe the first reason I want to meet Benjamin Franklin. I have a lot of information about his inventions in my notes. I'll write: *One reason I would like to meet Benjamin Franklin is to ask him about his inventions. I would want to know about how he invented things like the Franklin stove, which helped keep people's houses warm. Next I'll write more about what he invented. I'll add: I would also want to ask him where he got the idea to invent the first swimming fins and bifocal glasses, which people still need and use today. I'll finish the paragraph with my favorite invention of all. I'll write: Another one of his important inventions was the lightning rod. I would definitely ask him about that!"*

WA7

*If I could go back in time, I would like to meet Benjamin Franklin more than George Washington. I think Benjamin Franklin would be very interesting to talk to because he was an inventor. He was also an important leader of our country.*

*One reason I would like to meet Benjamin Franklin is to ask him about his inventions. I would want to know about how he invented the Franklin stove, which helped keep people's houses warm. I would also want to ask him where he got the idea to invent the first swimming fins and bifocal glasses, which people still need and use today. Another one of his important inventions was the lightning rod. I would definitely ask him about that!*

### Teacher Note

You might point out that the students' opinions may be different from yours and that is fine. Remind them that what is important is that they support their opinions with reasons and examples from the sources.

**Q** *What might you write about in your opinion essay today? [pause] Turn to your partner.*

After a few moments, signal for the students' attention and remind them that each student will write her own essay. Explain that you will also finish your essay and share it with the class tomorrow.

## WRITING TIME

### 4 Write Opinion Essays

Explain that when the students complete the actual performance task they will write their essays using computers, but that today they are practicing on paper. Distribute loose, lined sheets of paper and explain that they will use this paper to write their essays. Display the “Writing Time” chart (🕒 WA8) and have them work quietly for 30–40 minutes. As they work, circulate, observe, and offer assistance.

#### Writing Time

- Reread the writing assignment in “Student Directions for Part 2.”
- Write an opening paragraph that states your opinion and gets the reader interested in reading more.
- Give reasons to support your opinion.
- Include transition words and other qualities of a well-written essay in your piece.
- Write a conclusion that wraps up the writing.

WA8

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Does the students’ writing indicate that they understand the task?
- Are they able to clearly state their opinion in the opening paragraph of the essay?
- Does their writing stay on topic?
- Are they able to incorporate information from their notes and the sources into their essays?

If you notice a student having difficulty starting to write after 5–10 minutes, help stimulate his thinking by asking questions such as:

- Q *What is the topic of your essay? What might you write in your opening paragraph to clearly state your opinion about the topic?*
- Q *How might you use your notes to help you decide what to write in your essay?*
- Q *What information from your notes or the articles can you use to support your opinion?*

Record your observations on the “Class Assessment Record” sheet (CA3); see page 154.

Signal the end of Writing Time. Tell the students that tomorrow they will have time to revise and proofread their essays. Have them put their essays and other materials in their folders.

### Teacher Note

Prior to teaching the Day 5 lesson, you will need to write the rest of your essay (see the diagram in Day 5, Step 2 on page 127). Include evidence from the sources, transition words, and other qualities of a well-written opinion essay in your writing. Save your completed essay on the lined writing chart (WA5).

# Day 5

## Revising and Proofreading an Essay

### Materials

- Completed essay on the lined writing chart (WA7) from Day 4
- “Student Directions for Part 2” chart (WA6) from Day 4

## SHARING AND REFLECTING

### 5 Reflect on Writing Essays

Ask and briefly discuss:

- Q *What did you enjoy about writing your opinion essay today? What did you find challenging?*
- Q *What did you and your partner do to show respect for each other’s opinions as you shared ideas about your essays?*

### In this lesson, the students:

- Revise their essays
- Proofread their essays
- Express interest in and appreciation for one another’s writing
- Reflect on what they have learned and how that will help them on the end-of-year performance task

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Remind them that yesterday they each planned and wrote an opinion essay about whether they would rather meet George Washington or Benjamin Franklin. Explain that today they will have the opportunity to revise and proofread their essays.

### 2 Discuss Your Essay

Display the completed essay on the lined writing chart (WA7) from Day 4 and tell the students that yesterday you completed your opinion essay. Ask them to follow along as you read it aloud. Review that the opening paragraph clearly states your opinion and gets the reader interested in reading more. In the remaining paragraphs, point out the clear organization, the reasons and examples to support your opinion, the use of transition words to connect ideas, and other qualities of a well-written opinion essay.

**You might say:**

"I clearly stated my opinion about wanting to meet Benjamin Franklin more than George Washington. I tried to get the reader interested by saying that Franklin was an inventor and an important leader. I think that will make the reader want to keep reading to find out more about him.

My essay is clearly organized. After stating my opinion in the introduction, I wrote a paragraph for each of the reasons supporting my opinion. I also stayed on the topic throughout the essay.

I used details from the sources in each paragraph. For example, when talking about Franklin's inventions, I listed examples of his inventions from my notes and the article, such as the Franklin stove and the lightning rod. Also, when writing about Franklin being an important leader, I included information about how he helped write the Declaration of Independence and the Constitution.

I used transition words to connect one idea to the next. For example, I wrote *one reason* and *another reason* at the beginning of each paragraph to help the reader keep track of the reasons for my opinion. In the second paragraph, I used the word *another* in my list of Franklin's inventions.

My conclusion, *If I could go back in time, I would like to meet and talk to Benjamin Franklin. Our lives would not be the same without his inventions and leadership*, restates my opinion and lets the reader know the piece has come to an end."

WA7

If I could go back in time, I would like to meet Benjamin

Franklin more than George Washington. I think Benjamin

Franklin would be very interesting to talk to because he was an

inventor. He was also an important leader of our country.

One reason I would like to meet Benjamin Franklin is to ask

him about his inventions. I would want to know about how he

invented the Franklin stove, which helped keep people's houses

warm. I would also want to ask him where he got the idea

to invent the first swimming fins and bifocal glasses, which

people still need and use today. Another one of his important

inventions was the lightning rod. I would definitely ask him

about that!

Another reason I would like to meet Benjamin Franklin is

because he did important things for our country. He helped

write the Declaration of Independence and the Constitution.

This helped the 13 states become a new country! I would want to tell him about some of what's happened in our country since he helped start it so long ago.

If I could go back in time, I would like to meet and talk to Benjamin Franklin. Our lives would not be the same without his inventions and leadership.

## WRITING TIME

### 3 Facilitate Guided Rereading of Essays

Tell the students that they will have time today to finish their essays, but that first they will reread what they have written. Then you will ask some questions for them to think about. Have them quietly reread their writing and look up when they are finished.

Ask the following questions one at a time, giving the students 1–2 minutes after each question to quietly review their writing and mark passages:

- Q** *Do you think your opening paragraph states your opinion clearly and gets the reader interested in reading more? If not, what might you write instead?*
- Q** *Will the organization of your essay be clear to the reader? If you don't think the organization is clear, what might you move around to make it clearer? Underline parts of the essay you might change or move around.*
- Q** *Are there places where you gave, or could give, reasons from the sources to support your opinion? Put a check mark in the margin next to those places.*
- Q** *Are there places where you used, or could use, transition words to connect one idea to the next? Put a star in the margin next to each of those places.*
- Q** *Do you think your conclusion does a good job of wrapping up your writing and letting the reader know that the essay has come to an end? If not, what might you write instead?*

Without discussing as a class, have the students resume writing for another 10–15 minutes.

## 4 Facilitate Proofreading of Essays

Display the “Student Directions for Part 2” chart (WA6), and remind the students that it states that a well-written opinion essay “follows rules for spelling, punctuation, capitalization, and grammar.” Explain that the students will proofread their essays to find and correct any spelling, punctuation, and grammar errors. Ask:

Q *Why will you want to proofread your essay before turning it in?*

Q *What will you check for when you are proofreading?*

### Students might say:

“Mistakes could make my writing harder to read and understand.”

“I would check to make sure I’ve capitalized names and the beginning of every sentence.”

“In addition to what [Jordan] said, I want to make sure every sentence ends with a period, a question mark, or an exclamation point.”

“In addition to what [Jordan and Amaya] said, I want to correct any spelling errors I find.”

Give the students 5–10 minutes to proofread their essays and make any necessary corrections.

## SHARING AND REFLECTING

### 5 Share Writing and Reflect

Have a few volunteers share their essays with the class; then ask:

Q *What qualities of good opinion writing did you notice in [Tahir’s] essay?*

Q *What questions can you ask [Tahir] about his writing?*

Review that this week the students have been learning strategies for doing well on the end-of-year performance task. Ask and briefly discuss:

Q *What have you learned this week that will help you do well on the performance task? Turn to your partner.*

---

## EXTENSIONS

### Complete a Diagnostic Language Skills Task

To assess how your students are progressing with Language Standards, you might choose to administer a Diagnostic Language Skills Task in Appendix C of the *Skill Practice Teaching Guide* (also see “Assessing Language Skills” on page xi).

### Complete a Writing Practice Performance Task Independently

Many states provide a practice performance task that the students complete independently. It can be given right after the guided practice, or at a later time.

Introduce the performance task by reminding the students that they spent one week learning about and preparing for the opinion writing portion of the end-of-year writing performance task. Explain that the students will now have the opportunity to do a practice performance task on their own on a different topic, and that they can use what they learned to do their best work on the task. Tell them that they will do this practice performance task under conditions like those they will experience when completing the end-of-year performance task, and that this will help them to be better prepared to do well.

# Task Overview

---

## Introductory Classroom Activity 20 MINUTES

This whole-class activity introduces the students to the topic of the performance task, whether students would rather meet George Washington or Benjamin Franklin if they could go back in time, and helps prepare the students to answer research questions and write opinion essays about the topic. As part of this activity, the students will read an article about American history right after the Revolutionary War titled “The Early Days of the United States of America.” They will also be reminded of the features of a well-written opinion essay.

During the introductory activity, the teacher will lead a whole-class discussion about the article. The students may take notes using the provided graphic organizer to help them prepare for writing. The students may use their notes from the Introductory Classroom Activity when they plan, write, and revise their own multi-paragraph essays in Part 2.

## Part 1 35 MINUTES

The students will read an article about George Washington titled “The Life of George Washington” and an article about Benjamin Franklin titled “The Life of Benjamin Franklin.” The students are encouraged to take notes using the provided graphic organizers to help them prepare for writing. Then the students will respond to three research questions that require them to analyze, evaluate, interpret, and integrate information.

## Part 2 70 MINUTES

The students will each plan, write, and revise an opinion essay about whether they would rather meet George Washington or Benjamin Franklin. They may refer to the sources from the Introductory Classroom Activity and Part 1, any notes they took, and their answers to the research questions. The students may not, however, change their answers to the questions.

## Scoring

The research questions in Part 1 can be scored with the rubrics included at the end of this performance task (see “Scoring Rubrics for Research Questions” on page 137). Any notes, prewriting, or drafts will not be scored.

## Teacher Preparation

- Make sufficient blank paper and writing tools available for students to use in taking notes. You might make extra copies of the graphic organizers.
- Make a class set of copies of the student handouts on pages 140–150.
- Make dictionaries available to use during Part 2 of the performance task. (Some standards-based assessments are computer-based with many of the student materials, including access to spell-check, available within the testing environment. For the purpose of student practice, the materials for the guided practice performance task have been modified so that they can be administered using pencils, paper, and other classroom resources.)

## Teacher Directions for the Introductory Classroom Activity

---

### 1 Introduce the Topic

Tell the students they are going to learn about George Washington and Benjamin Franklin—two leaders who helped make the United States a country—and each write an opinion essay about which man they would rather meet if they could go back in time.

Display the “Great Britain and the 13 States” chart (📄 WA1). Point out Great Britain and North America on the map. Explain that beginning in the 1600s, some people left Great Britain and sailed in ships across the Atlantic Ocean to make new homes in North America. However, they were still ruled by Great Britain. As time went by, these settlers did not like the way the British king treated them. They decided to become independent states, which meant they no longer had to follow the rules of Great Britain. The British king did not like this. The states had to fight a war with Great Britain to become free. It was called the Revolutionary War. Tell the students that the states won the war and gained their independence from Great Britain in 1783.

### 2 Examine a Source

Tell the students that they will read an article about what happened right after the Revolutionary War and then discuss it as a group.

Distribute the article “The Early Days of the United States of America” (see Student Handout 1 on page 140). Have the students read the article, and then lead a whole-class discussion using the following question:

**Question:** *What did you learn from reading the article about the early days of the United States of America?*

### 3 Explain the Writing Task

Tell students that in a few minutes they will read more about George Washington and Benjamin Franklin. Then the students will use the articles and their notes to answer some research questions and each write an opinion essay about which man, George Washington or Benjamin Franklin, they would rather meet if they could go back in time.

Discuss with the students the characteristics of a well-written opinion essay. An opinion essay:

- States an opinion
- Gives reasons that support the opinion
- Explains information clearly
- Provides a conclusion
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

Answer any questions the students might have and then move on to Part 1 of the performance task.

---

## Teacher Directions for Parts 1 and 2

---

### Part 1 35 MINUTES

1. Distribute copies of the source materials, graphic organizers, student directions, and research questions (see Student Handouts 2–7 on pages 142–149) to each student, and have the students write their names on all materials. Note that the students should not receive the directions specific to writing their essays until Part 2.
2. Tell the students to read “Student Directions for Part 1” (see Student Handout 2 on page 142). Remind the students they will have 35 minutes for Part 1 and then tell them to begin.
3. To help the students plan their time, alert them when 15 minutes and 5 minutes remain in Part 1.
4. Signal to let the students know that Part 1 is over.

## BREAK

## Part 2 70 MINUTES

1. Distribute a copy of “Student Directions for Part 2” (see Student Handout 8 on page 150) to each student. Make sure that the students have access to all of the sources, graphic organizers, any other notes, and their answers to the research questions. Remind the students that they may not change the answers to the research questions from Part 1.
2. Tell the students to read “Student Directions for Part 2” and explain that their writing assignment is included in these directions.
3. After 15 minutes have elapsed, suggest that the students begin writing their essays.
4. Alert the students when 30 minutes remain.
5. Alert the students when 15 minutes remain, and suggest that they begin revising their essays.
6. Signal to let the students know that Part 2 is over and collect all materials from each student.

## 2-Point Research Rubric

### Question 1:

*What kind of person was George Washington? Use at least two details from the sources to describe him in your answer.*

<b>Interpret and Integrate Information</b>	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides two examples of the kind of person George Washington was.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides one example of the kind of person George Washington was, or, if multiple examples are provided, only one is correct.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not provide examples of the kind of person George Washington was, or, if examples are provided, they may be incorrect, incomplete, and vague.

#### **Sample 2-Point Response**

George Washington learned how to hunt and farm while he was growing up. He became a strong leader and was in charge of the army during the Revolutionary War.

#### **Sample 1-Point Response**

George Washington was born in Virginia. He was the leader of the people who wrote the Constitution.

#### **Sample 0-Point Response**

George Washington married Martha Custis. They owned lots of land.

#### Sample 2-Point Response

Benjamin Franklin invented a stove and many other things. He also helped to write the Constitution of the United States.

#### Sample 1-Point Response

Benjamin Franklin was born in Philadelphia. He started a fire department there.

#### Sample 0-Point Response

Benjamin Franklin was an important man in American history.

## 2-Point Research Rubric

### Question 3:

Choose the facts about George Washington that are in both articles, "The Early Days of the United States of America" and "The Life of George Washington." Put a check mark in the blank before each fact that is in both articles.

- George Washington's home was called Mount Vernon.
- George Washington was in charge of the army.
- George Washington was the first president of the United States of America.
- George Washington and his wife were one of the richest families in Virginia.

Interpret and Integrate Information

<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. Only one of the student's choices is a fact from both articles.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. None of the student's choices is a fact from both articles, or the student does not respond at all.

# *The Early Days of the* **UNITED STATES OF AMERICA**

After the Revolutionary War, the states in North America were free. They were no longer ruled by Great Britain. But what kind of rules would they follow? Some people wanted each state to have its own rules, or government. Other people thought that the 13 states should all have one government. Even those who wanted one government did not agree about what the rules should be.

### **A New Government**

In 1787, leaders from most states gathered to write down the rules for a new government. Those rules were called the Constitution of the United States. It took months to write the Constitution. There were many arguments about what the rules should be.

Finally, the Constitution was finished. Next, each state had to vote whether to sign it. By 1789, all 13 states decided to sign. The United States of America was born.

### **America's First Leaders**

Many people worked very hard to get the Constitution written and signed. Two of the most important were George Washington and Benjamin Franklin.

George Washington had been in charge of the army during the Revolutionary War. He was a proven leader. People trusted him. When the people writing the Constitution needed someone to lead their group, they chose Washington. Later he was elected the first president of the United States of America.

Benjamin Franklin was a great scientist and author. People were willing to listen to Benjamin Franklin's ideas because they respected him. When people could not agree about what rules should be in the Constitution, Franklin helped settle those arguments. He was good at helping people find ways to agree.

Without these two men, there might not be a country called the United States of America.

## Student Directions for Part 1

### Part 1 (35 minutes)

#### Your Task

You will read two articles about George Washington and Benjamin Franklin. Then you will answer three research questions about what you have learned. In Part 2, you will write an opinion essay about whether you would rather meet George Washington or Benjamin Franklin if you could go back in time. You will be able to refer to the articles, your notes, and the answers to the research questions when you write your essay.

#### Steps to Follow

In order to plan and write your essay, you will do the following:

1. Read the articles.
2. Take notes about the information in the articles using graphic organizers.
3. Answer three research questions to help you think about key information in the articles.

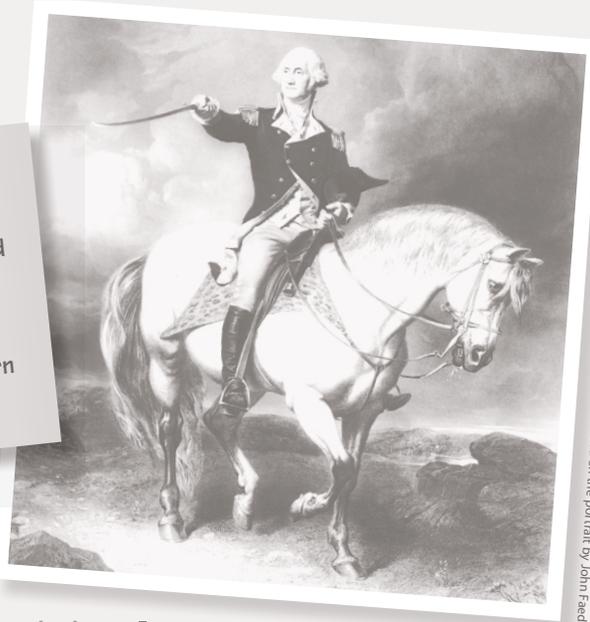

#### Directions for Beginning

You will have 35 minutes to read the articles, take notes, and answer the research questions. Your answers will be scored.

## Biography

# The Life of George Washington

Most people know that George Washington was the first president of the United States of America. But he was also a farmer, a soldier, and a born leader. Let's learn more about this man.

George Washington Taking the Oath at Trenton, printed by William Holl based on the portrait by John Fildes

### Growing Up in Virginia

George Washington was born in 1732 in Virginia and grew up there. As a boy, Washington studied math, geography, English, and Latin. He learned how to grow crops and raise farm animals. He also learned how to hunt and live in the woods. Washington grew to be more than 6 feet tall. He was taller than most people in the 1700s.

When he was only 20 years old, Washington became the owner of his family's valuable land. His home was called Mount Vernon. Running Mount Vernon was hard work, but Washington loved doing it. He taught himself the latest methods for farming. In his free time, he enjoyed fishing and fox hunting.

### A Soldier and a Leader

Washington was also a soldier. In 1754, a war started over which countries owned some of the land in North America. This war was called the French and Indian War. Washington led men from Virginia in fighting many of the battles. Afterward, Washington returned to Mount Vernon.

In 1758, Washington was elected to Virginia's government. The following year, he married Martha Custis. Her family owned a lot of land. Together they became one of the richest families in Virginia.

### A Man of Courage

In 1775, the Revolutionary War started. In this war, the American states fought for their freedom from Great Britain. Washington was chosen to lead the army. It was a very hard job. The British had many more soldiers and weapons. Washington was very smart when planning battles. He also had a lot of courage. Even when they were cold and hungry, his men still followed him. His leadership helped the states win the war.

The Washington Monument in Washington, D.C., honors the first president of the United States of America.

### America's First President

After the Revolutionary War, a group of people met to write the Constitution of the United States. They made Washington the leader of their group.

After the Constitution was signed, the United States of America held its first election. In 1789, Washington was elected the new country's first president. He served as president for 8 years. After his presidency, he returned to Mount Vernon to manage his land and spend time with his family. He died in 1799.

People remember George Washington as a strong leader. He led soldiers in battle. He led the way in forming a new government. And he led the country as its first president. For these reasons, Washington is often called "the father of our country."

Biography

The Life of  
**Benjamin Franklin**

Benjamin Franklin was born in Boston in 1706. When he was 12 years old, Franklin began learning the printing trade. At the age of 17, he moved to Philadelphia. Later he started his own printing business. He also started a newspaper. In 1732, Franklin wrote a famous book called *Poor Richard's Almanack*.

**A Man with New Ideas**

Franklin was the first to do many things. He started the first library in America that let people borrow books. Franklin started the first fire department and the first hospital in

Philadelphia. He also found better ways to deliver mail.

Franklin was a scientist and inventor, too. He invented a stove that helped keep homes warm. It was called a Franklin stove.

## Student Handout 5 (continued)

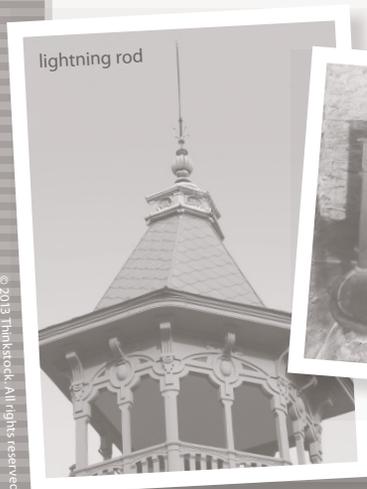

Franklin also invented swim fins and a kind of glasses called bifocals. In addition, he did experiments to prove that lightning is electricity. Then he invented the lightning rod. It protected ships and buildings from lightning strikes. Many of Franklin's inventions are still used by people today.

### A Respected Leader

Over time, Franklin came to believe that the American states should break free of England. He helped to write the Declaration of Independence. After signing it in 1776, Franklin went to France. He asked the French king to help the states fight the Revolutionary War against the British. The French admired Franklin for his scientific work. They respected his many other talents. The French king agreed to help.

Once the American states won the war, Franklin returned home. He helped to write the Constitution of the United States. Franklin also helped the states reach agreement about how the new government would be run. Without his ability to help people compromise, the states might never have agreed about the new government.

When Franklin died in 1790, he was 84 years old. About 20,000 people went to the great man's funeral. Franklin touched so many parts of life in early America. He was a man of intelligence who served his country and its people in many ways. Some people call him "the first American."

## Student Directions for Part 2

### Part 2 (70 minutes)

#### Your Task

You will have 70 minutes to write your essay. You should review your notes and sources. Then plan, write, and revise your writing. You may also look at the answers you wrote to the research questions in Part 1, but you cannot change those answers.

#### Your Writing Assignment

Imagine you are able to go back in time. You have the chance to meet and talk with either George Washington or Benjamin Franklin. Write an opinion essay telling which man you would rather meet if you could go back in time. Support your opinion with information from the sources you have read.

#### Begin Work on Your Essay

Manage your time carefully so that you can:

- Plan your essay (15 minutes)
- Write your essay (40 minutes)
- Revise and edit for a final draft (15 minutes)

You may use a dictionary to check spelling.

#### Things to Remember

Remember that a well-written opinion essay:

- States an opinion
- Gives reasons that support the opinion
- Explains information clearly
- Provides a conclusion
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

## Excerpts

### from *In November*

by Cynthia Rylant

In November, the earth is growing quiet. It is making its bed, a winter bed for flowers and small creatures. The bed is white and silent, and much life can hide beneath its blankets.

---

In November, the trees are standing all sticks and bones. Without their leaves, how lovely they are, spreading their arms like dancers. They know it is time to be still.

---

In November, the smell of food is different. It is an orange smell. A squash and a pumpkin smell. It tastes like cinnamon and can fill up a house in the morning, can pull everyone from bed in a fog. Food is better in November than any other time of the year.

---

In November, at winter's gate, the stars are brittle. The sun is a sometime friend. And the world has tucked her children in, with a kiss on their heads, till spring.

### from *My Father's Hands*

by Joanne Ryder

He calls to me with a promise in his voice, and I run, seeing his hands curl like a flower budding, then unfolding wide so I can see . . . the leaf-green mantis balancing today on long thin legs. . . .

Gently my father tips his hands, softly urging the small one to my open palms. Green prickly feet find their footing on my steady fingers. The mantis tilts his pointed face, his huge round eyes watching me watch him. He is so light, so bold, so strange. I wonder what he thinks of me, of my hands soft and warm.

### First Day of School

by Jennifer, age 10, from *Kids Write Through It: Essays from Kids Who Have Triumphed Over Trouble*

When I first started going to school, I was scared that the other kids might laugh at me. I had never been to school before, and I didn't really know what to think. I remember when I first saw my classroom I felt bad and started to cry. I instantly knew I wanted my mom, but when I looked back, my mom was gone. Being in a strange place, I wasn't sure everyone was friendly, and now that my mom was gone, I started to cry even more. My teacher came to me and kindly told me that everything was going to be fine. That didn't help right away, but after a while I felt better about being there.

Having a kind teacher and friends who were nice to me on my first day of school makes this memory a good one. If you ask me what I learned on my first day of school, I'd tell you that even though you're in a new place doing something you never did before, and it's uncomfortable, if you look for kind faces and be yourself, it'll be all right. Kind faces and loving acts can make everything around you seem a little better.

# Opening Sentences from Four Personal Narratives

Every year, right after the last day of school, I'd pack a suitcase with my cool summer clothes, my favorite toys, and a sketchbook. Then my dog, Daisy, and I were off to Grandma's apartment in El Barrio.

— from "First Day of School"

When my old dog, Winston, died, it was sad for all of us. So one day we went to the SPCA to look for a new dog. Of course, I knew we could never, ever, replace Winston, but if I didn't have a dog I would be sad forever.

# Closing Sentences from Three Personal Narratives

Even now, when I'm playing CDs in my studio, I imagine I'm back in Grandma's living room and she turns to me and says, "You be the DJ today. *Siempre me gusta tu selección.*" And as I work, Grandma's special song surrounds me.

— from *Grandma's Records*

No one will ever bring me better treasures than the ones cupped in my father's hands.

### from *Cherries and Cherry Pits*

by Vera B. Williams

THIS is the train seat. And THIS is a tiny white woman sitting on the train seat. She is almost as short as I am, but she is a grandmother. On her head is a black hat with a pink flower, like a rose flower. It has shiny green leaves, like the leaves in my uncle's florist shop. On her feet are old, old shoes. These are the buckles. And in her lap is a big black pocketbook.

---

“You like it?” asks the lady. “You like cherries, honeybird?” She laughs and dumps all of the cherries onto the geranium plant in front of the parrot. “There's your own little cherry tree,” she says to the parrot. She stands next to the geranium in her stocking feet, eating cherries with the parrot.

---

And this boy is tall like my brother. And he has glasses like my brother. And the same kind of cap. And the same green and black jacket, too. It has the orange letters from his team. And when he smiles you can see the space between his big front teeth like my brother's.

---

When he gets off the train at his station, he just runs right up the escalator. He runs right along the streets, jumping on and off the stoops to his house. Before he even gets up the stairs, and he can take them in just two steps, he's hollering to his little sister. “Hey, come on out here. See what I got for you.”

## Closing Sentences from Three Stories

Goodly, Lovely, Angel, Neatly, and Perfect hugged Tacky. Tacky was an odd bird but a very nice bird to have around.

— from *Tacky the Penguin*

“Ronald,” said Elizabeth, “your clothes are really pretty and your hair is very neat. You look like a real prince, but you are a bum.”

They didn’t get married after all.

### from *Julius, the Baby of the World*

by Kevin Henkes

After Julius was born, it was a different story.  
Lilly took her things back.  
She pinched his tail.  
And she yelled insulting comments into his crib.

---

But her parents loved him.  
They kissed his wet pink nose.  
They admired his small black eyes.  
And they stroked his sweet white fur.

---

Lilly's parents were dazzled when Julius babbled and gurgled.  
"Such a vocabulary!" they exclaimed.  
But if Lilly did the exact same thing, they said,  
"Lilly, let's act our age, please."

---

Lilly's nose twitched.  
Her eyes narrowed.  
Her fur stood on end.  
And her tail quivered.

### from *Tacky the Penguin*

by Helen Lester

Every day Goodly, Lovely, Angel, Neatly, and Perfect greeted each other quietly and politely.

Tacky greeted them with a hearty slap on the back and a loud “What’s happening?”

---

“PENNNNGUINS?” said Tacky. “Do you mean those birds that march neatly in a row?”

And he marched, 1-2-3, 4-2, 3-6-0, 2½, 0.

The hunters looked puzzled.

“Do you mean those birds that dive so gracefully?” Tacky asked.

And he did a splashy cannonball.

The hunters looked wet.

“Do you mean those birds that sing such pretty songs?”

Tacky began to sing, and from behind the block of ice came the voices of his companions, all singing as loudly and dreadfully as they could.

“HOW MANY TOES DOES A FISH HAVE? AND HOW MANY WINGS ON A COW?

I WONDER. YUP, I WONDER.”

## Speech Punctuation in Two Stories

“What’s happening?” blared Tacky, giving one hunter an especially hearty slap on the back.

They growled, “We’re hunting for penguins. That’s what’s happening.”

Elizabeth said, “Dragon, is it true that you can fly around the world in just ten seconds?”

“Why, yes,” said the dragon and jumped up and flew all the way around the world in just ten seconds.

He was very tired when he got back, but Elizabeth shouted, “Fantastic, do it again!”

# Interesting Introductions from Three Nonfiction Books

*Tap, tap. Scritch.* The tiny sea turtle is the last hatchling to break out of her leathery egg and crawl up the sides of a sandy nest. She is not much bigger than a bottle cap and would make a good meal for a hungry sea bird or a crab.

When you think of a wolf, you might think of wolves in movies, cartoons, and fairy tales. Some are shown as wild, bloodthirsty beasts, howling at the Moon. They also appear as werewolves (half wolf and half human creatures) in horror stories, or as the big, bad villain who eats Red Riding Hood's grandmother . . . So, what are real wolves like? You might be surprised.

— from *A Pack of Wolves and Other Canine Groups*

## Closing Sentences from Three Informational Reports

Chameleons are pretty unusual animals. Some people may think they are weird, but I think they are awesome. Their changing skin color, swiveling eyes, and long, sticky tongues make them different from most animals. I hope that you have enjoyed reading about chameleons. The next time you go to the zoo, you should definitely visit these amazing lizards.

— by Tamar

As you have learned, mountain gorillas are endangered animals. Humans have destroyed much of their habitat and sometimes even hunted them. However, there is still hope for the gorillas. Scientists and nature lovers around the world are working to protect mountain gorillas and save their habitat. These gentle, intelligent, and magnificent animals are special, and I would be very sad if they became extinct.

— by Caleb

Spiders may be small, but they can do things that make people say “Wow!” They can spin very strong webs. Some spiders have poison that is powerful enough to kill animals or even people. They can live in almost any habitat on Earth. As you now know, spiders have been around for a long time—they first appeared 300 million years ago—and I think they will be here for millions more.

# Dolphin

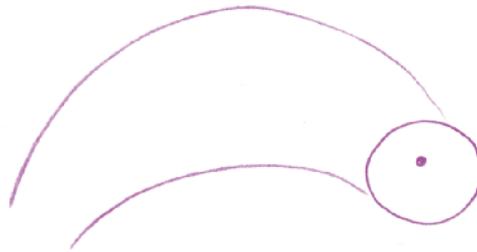

from *1-2-3 Draw Ocean Life* by Freddie Levin

## Dolphin

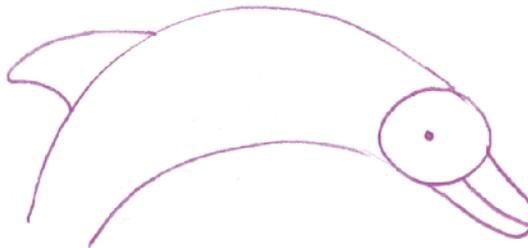

(6 to 13 feet long)

A dolphin is not a fish. It is a mammal that lives in the ocean. Mammals give birth and nurse their babies. A dolphin uses its tail to swim. Playful, friendly dolphins come to the surface and breathe air through their blow holes. They communicate in a language of clicks and squeaks.

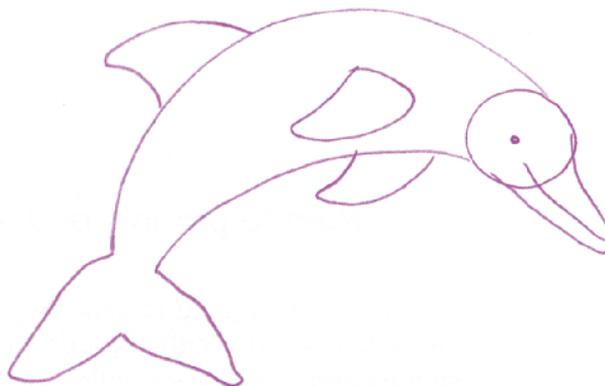

**1** Look at the shapes and lines in the first drawing. Lightly sketch a small circle for the head. Draw a small eye. Start the dolphin's body with two curved lines.

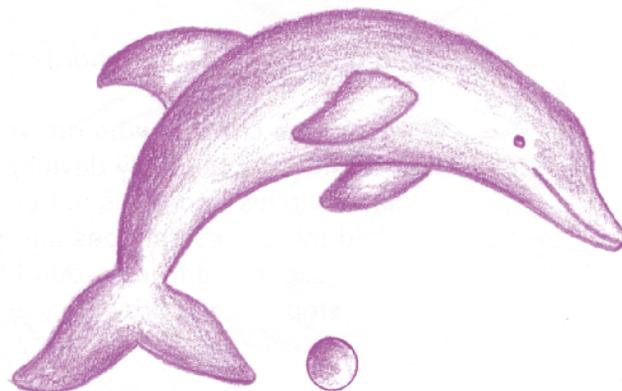

**2** Draw the dolphin's snout. It's called a 'beak.' Add a dorsal fin.

**3** Draw two flippers. Using curved lines, add the tail.

**4** Look at the final drawing. Erase extra sketch lines. Shade and color your dolphin.

### Puzzle Sticks

from *Fun-To-Make Crafts for Every Day*,  
edited by Tom Daning

#### Materials: craft sticks

1. Lay twelve craft sticks side by side. Line the ends up evenly. Tape the sticks to keep them lined up, then number them from one to twelve. Flip the sticks over.
2. Use a pencil to sketch a picture on the untaped side. Color the picture with markers. Remove the tape from the back.
3. Mix up the sticks, then try to put them back together. You can make a more difficult puzzle by using more sticks.

## School Should Start Later in the Morning

I hate getting up early in the morning. It's so hard to get out of my nice warm bed. I want to sleep more! In fact, everyone should get more sleep. That's why I think school should start later in the morning.

If school started later, kids could sleep later. Then we wouldn't be so tired in class. When kids are tired, it's hard to learn. Nothing seems interesting. We just sit there yawning. We want to close our eyes and go "Zzzz . . ." But when we get to sleep longer, we feel wide awake. We want to exercise our brains and learn new things. We should sleep longer because then we would be more awake in class and learn more. That would make teachers smile, because teachers always want kids to learn more.

Also, sleep is really good for you. Kids need a lot of sleep because it helps us grow. For example, I grew 2 inches last year. This year I want to grow 3 inches. Grown-ups need sleep, too. My mom says that she gets sick if she doesn't sleep enough. So, if school started later, everyone would sleep more in the morning. Then everyone would be healthier.

More sleep is good for everyone. Sleep helps kids learn, and that makes teachers happy. Also, sleep makes us all healthier. That's why I think school should start later in the morning. Let's all get more sleep!

## Don't Change Our Start Time

Some people say that school should start later in the morning. I don't agree. There are many reasons why it's better for school to start early, at the normal time.

It would cause problems for families if school started later in the morning. Many parents take their kids to school and then go to work. They have to be at work at a certain time. They can't be late! If school started later, then those parents would have to rush to work. They might drive too fast, and that would not be safe. Also, they might arrive at work late and get into trouble.

If school started later, then it would finish later, too. That would be bad because then kids wouldn't be able to do after-school activities. Lots of kids play sports, volunteer, and do other fun things after school. For example, I play soccer every Tuesday and Thursday afternoon right after school. It's one of my favorite things to do. But if school finished later every day, I wouldn't have time for soccer.

As you can see, it wouldn't work to have school start later in the morning. It would be bad for parents, and it would be bad for kids, too. Anyway, if you really want to sleep in, that's what the weekend is for.

## Rats Are the Coolest Pets

Some kids like dogs, and some kids like cats. Believe it or not, I think rats are the coolest pets. I should know because I have an amazing pet rat named Zippy. So if you're thinking of getting a pet, how about a rat? Rats are great in so many ways.

First, rats are friendly and really smart. You can teach them fun things. I taught Zippy to sit on my arm and ride around with me. I also taught him to come to me when I call his name! How smart is that? Rats are also very clean. Maybe you thought they were smelly, like some other pets. Well, I'm here to tell you that rats smell fine. Also, rats are interesting to look at. They have twinkly eyes and soft fur. If you had a pet rat, I bet everyone in your family would enjoy it.

Next, pet rats are easy to take care of. For example, they don't need to go on walks. Since rats are small, they don't even need a yard. My rat Zippy has a nice big cage, and that's his home. Also, pet rats won't mess up your stuff like dogs sometimes do. They won't chew on tables or chairs. Your parents would love that.

Now you know why I think rats are the coolest pets. They are friendly, smart, clean, and easy to take care of. If you want a pet, I think you should definitely get a rat. You will love it and so will your family!

## Why You Should Get a Dog

When I walk down the street with my frisky, fluffy, brown dog, Boomer, everyone smiles at us. People just love dogs . . . they can't help it! I believe that dogs are the best pets ever.

Dogs are the best because they are loyal. That means dogs love the people who take care of them. Dogs want to make them happy. In fact, they will even protect them. For example, I read about a brave dog that saved its owner from a terrible fire. Another dog saved a boy from drowning. A cat or a rat or a bird couldn't do those things.

Also, dogs are wonderful because they come in many different shapes and sizes. Since there are so many, there is definitely a right dog for you. Maybe you want a small, cuddly dog. You can find one easily. Maybe you want a big, strong dog that loves to run and play. There are plenty of dogs like that. Maybe you have allergies, and you want a dog that won't make you sneeze. There are even dogs like that!

Last of all, having a dog is great for your health. That's because dogs need to go on walks every day. Walking is good for people, too. Did you know that most people don't get enough exercise? Walking your dog is a fun, easy way to get more exercise. You can't walk a cat or another type of pet!

If you want a pet, I really think you should get a dog. They are the most loyal, loving, and wonderful pets in the world.

## Computers in Our Classrooms

We live in an amazing time. Computers are changing how we live and work. I think it is very important for schools to have enough computers for students to use.

Students need computers so we can get on the Internet. The Internet is very good for learning. There are many great websites for students. We can see videos of animals we're studying in science class. We can read interviews with famous authors. We can chat online with students in other parts of the country.

When the kids of today are all grown up, we will be living in a world filled with technology. If we don't learn how to use computers and technology now, we won't be able to get good jobs. Right now in our classroom, we have just one computer. Only one or two students at a time can use it. That means we never get enough practice with the computer. We really need more computers!

I hope that our school principal and teachers will read this. They want us to learn a lot. They want us to do great things when we grow up. That's why I think that they should try hard to get more computers for our classrooms.

# Persuasive Essay Excerpts with Sentence Fragments

I think people should always pick up their trash. Trash makes our streets dirty. And sidewalks, too. When trash is everywhere, it isn't fun to walk around. Also, when people don't pick up their trash, it is bad. For nature. Plants can't grow when the ground is covered with trash. Trash can hurt animals, too. For example. An animal might eat trash and get sick.

---

If people picked up their own trash, it wouldn't be a problem in our city. When you see trash on the ground. Pick it up! It is easy to do. It only takes a second. Also, if you want to make a difference. Organize a clean-up day in your neighborhood. You can ask family and friends to help. When lots of people work together, cleaning up trash is not too hard. In fact, it can be fun! And a good way to make new friends.

# Galoshes

by Rhoda Bacmeister

Susie's galoshes  
Make splishes and splashes  
And slooshes and sloshes  
As Susie steps slowly  
Along in the slush.

They stamp and they tramp  
On the ice and concrete,  
They get stuck in the muck and the mud;  
But Susie likes much best to hear

The slippery slush  
As it slooshes and sloshes,  
And splishes and splashes,  
All around her galoshes!

Shhhhh . . .

Something is scratching  
on our tent.

Is too.

Scratching!

Something is scratching!

It's you! Stop it!

"It is you!"

Isn't it?

Told you so.

Scratching!

No. No. No!

I hope so.

Is not.

Is not.

I don't hear anything.

Go to sleep.

No, it's *not*. It's a branch.

OK. OK. It *was* me . . .

Wait.

Something's scratching!

Listen.

*Shhhhhh*. Are you doing that?

Think it's the dog?

### Which is the Best?

by James Stevenson

Ice cream on a stick,  
Covered with cold, shiny chocolate,

Or ice cream heaped up in a cone,  
Dripping fast on a hot day,

Or ice cream in a big blue bowl  
And a spoon you can take your time with—

Which is the best?

It is too soon  
To give the answer.

I have more testing  
To do.

### Sunning

by James S. Tippett

Old Dog lay in the summer sun  
Much too lazy to rise and run.  
He flapped an ear  
At a buzzing fly.  
He winked a half opened  
Sleepy eye.  
He scratched himself  
On an itching spot,  
As he dozed on the porch  
Where the sun was hot.  
He whimpered a bit  
From force of habit  
While he lazily dreamed  
Of chasing a rabbit.  
But Old Dog happily lay in the sun  
Much too lazy to rise and run.

## Open Hydrant

by Marci Ridlon

Water rushes up  
and gushes,  
cooling summer's sizzle.

In a sudden whoosh  
it rushes,  
not a little drizzle.

First a hush and down  
it crashes,  
over curbs it swishes.

Just a luscious waterfall  
for  
cooling city fishes.

## Autumn Leaves

by Eve Merriam

Down

    down

        down

Red

    yellow

        brown

Autumn leaves tumble down,  
Autumn leaves crumble down,  
Autumn leaves bumble down,  
Flaking and shaking,  
Tumbledown leaves.

Skittery

Flittery

Rustle by

Hustle by

Crackle and crunch

In a snappety bunch.

Run and catch

Run and catch

Butterfly leaves

Sailboat leaves

Windstorm leaves.

Can you catch them?

Swoop,

Scoop,

Pile them up

In a stompy pile and

Jump

*Jump*

**JUMP!**

# Hotel Swimming Pool's Evening Lament

by Stefi Weisburd

I've been  
so bored  
staring  
at the sky  
all day  
while you  
were at  
the beach  
playing  
with the ocean.  
No one to swirl me.  
No one to splash, to dive.  
No one to swim through me sleek  
and slow. Come on, child. At least dip in a toe.

### Oak's Introduction

by Kristine O'Connell George

I've been wondering  
when you'd notice  
me standing here.

I've been waiting,  
watching you  
grow taller.

I have grown too.  
My branches  
are strong.

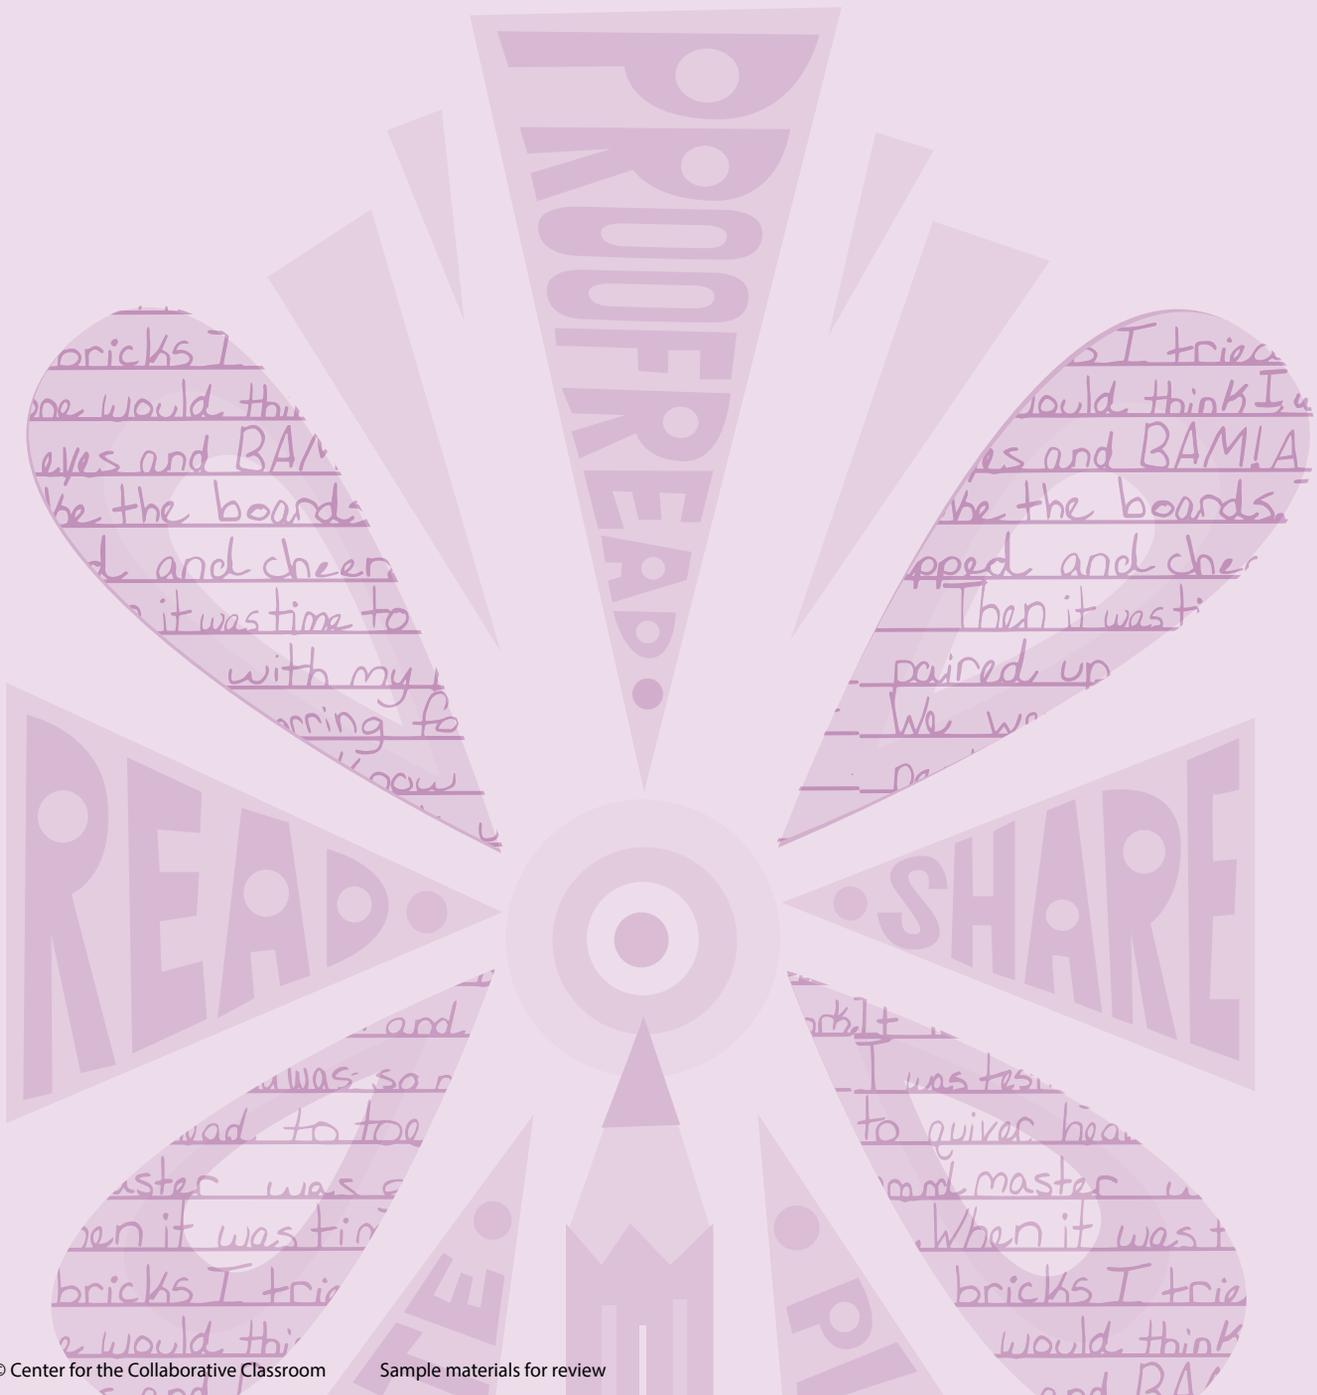

Step closer.  
Let's see  
how high

you can

climb.

# Sentences

A **sentence** is a group of words that expresses a complete thought. It includes a subject and a predicate.

- The **subject** tells whom or what the sentence is about.

My whole family goes to the carnival every year.

- The **predicate** tells what the subject does or is.

We go on the Ferris wheel. It is our favorite ride.

An **incomplete sentence** does not express a complete thought. It is missing either a subject or a predicate.

**Incomplete sentence:** Wins a prize at the game booth.

**Complete sentence:** My big brother wins a prize at the game booth.

**Incomplete sentence:** My little sister.

**Complete sentence:** My little sister picks a stuffed tiger for a prize.

A **compound sentence** is made up of two simple sentences joined by the **conjunctions**, or connecting words, *and*, *but*, or *or*. Put a comma before the conjunction.

I have gone to the Fun House, and I am now on the Teacups.

I can stop for a snack now, or I can go to a game booth.

I want to ride on the Whirl-and-Twirl, but I am too small.

A **complex sentence** is made up of one group of words that tells a complete thought and one group of words that does not. Complex sentences use conjunctions like *after*, *before*, *because*, and *until*. No comma is needed before the conjunction.

I have to wait until I am two inches taller.

My brother doesn't like that ride because it makes him dizzy.

Becca didn't eat anything before she went on the Whirl-and-Twirl.

She had a great big smile on her face when the ride was over.

# Nouns

A **noun** is a word that names a person, a place, a thing, an animal, or an idea. A noun can be singular or plural. A **singular noun** names one. A **plural noun** names more than one.

- Add *-s* to form the plural of most nouns: beeses, flowerses.
- Add *-es* to nouns that end with *s*, *x*, *sh*, *ch*: buseses, boxeses, luncheses, wisheses.
- Change the *y* to an *i* and add *-es* to a noun that ends with a consonant + *y*: story – *y* + *i* + *es* = storieses; family – *y* + *i* + *es* = familieses.
- Change the spelling to form the plural of some irregular nouns: mouse/mices; goose/geeses; child/childrens.

A **common noun** names any person, place, or thing. It does not begin with a capital letter. A **proper noun** names a specific person, place, or thing. It begins with a capital letter.

My favorite city is New York City.

Broadway is the longest street in the city.

You can climb to the top of a famous statue called the Statue of Liberty.

A **possessive noun** shows ownership.

- Add *'s* to make singular nouns possessive: the robin's egg.
- Add an apostrophe after the *s* for plurals that end with *s*: the robins's nest.
- Add *'s* to an irregular plural noun that does not end with *s*: the children's playground.

# Pronouns

A **subject pronoun** replaces a noun that is the subject of a sentence. It tells whom or what the sentence is about.

Bees fly from flower to flower.

They fly from flower to flower.

An **object pronoun** replaces a noun that receives the action of the verb. It can also follow a word such as *for*, *from*, *to*, or *with*.

Bees gather pollen from flowers.

Bees also carry pollen to flowers.

Bees gather it from flowers.

Bees also carry pollen to them.

A **possessive pronoun** takes the place of a noun and shows ownership.

A flower uses the pollen to make its seeds.

My parents love gardening. That is their favorite hobby.

Drawing flowers is mine.

A pronoun must **agree in number** with the noun it is replacing. Singular pronouns replace singular nouns. Plural pronouns replace plural nouns.

Rob and Alexa were playing catch.

Rob heard a bee buzzing.

They were playing catch.

He heard a bee buzzing.

A pronoun must also **agree in gender** with the noun it is replacing. *She* and *her* replace one female. *He* and *his* replace one male.

Alexa tried to swat the bee away.

The bee stung Alexa.

She tried to swat the bee away.

The bee stung her.

Rob went to get the first aid kit.

He went to get the first aid kit.

# Verbs

A **verb** tells what someone or something does or is like.

An **action verb** tells what someone or something does.

Gabriella hits the baseball. Her teammates cheer.

- An action verb can have two parts—a **main verb** and a **helping verb**. The helping verb usually comes before the main verb and does not show action.

Gabriella can run fast. She has reached third base.

A **linking verb** connects the subject to words that tell what the subject is or is like.

Gabriella is a good player. She feels proud.

- Linking verbs can also have main verbs and helping verbs.

The game will be over soon. It has been a fun game.

A verb **tense** tells when the action in a sentence takes place.

- A **present-tense** verb tells about something happening now.

Louis catches the ball. His friends yell, “Hooray!”

- A **past-tense** verb tells about something that has already happened. Some past-tense verbs are formed with *-ed*, but others are irregular.

The game ended. People in the stands clapped.

The players shook hands. They ran off the field.

- A **future-tense** verb tells about something that is going to happen. It includes the helping verb *will*.

The two teams will play again next week.

A verb must **agree in number** with its subject.

- When the subject is singular, use the singular form of the verb or helping verb.

This cap belongs to Ramona. She is standing over there.

- When the subject is plural, use the plural form of the verb or helping verb.

Those boys always bring the bats for the game.

They are collecting the bats now.

# Adjectives

An **adjective** is a word that describes, or tells more about, a noun or a pronoun.

- Adjectives can describe many things, such as *size*, *shape*, and *color*. They can also describe how something *looks*, *sounds*, *smells*, *tastes*, or *feels*.

The storm made a <sup>size</sup> big <sup>shape</sup> round puddle in the yard.

*Splash!* Now my <sup>color</sup> white dog is <sup>color</sup> brown.

- An adjective can also tell *how many* or *how much*.

My <sup>how many</sup> two friends helped me wash my dog.

We had <sup>how much</sup> a little help from my brothers.

Adjectives have special forms that can be used to show how two or more people, places, animals, or things are different.

- Use *-er* to compare two people, places, animals, or things.

The sun is hotter today than it was yesterday.

- Use *-est* to compare three or more people, places, animals, or things.

That was the prettiest sunset I have ever seen.

- Not all adjectives use *-er* or *-est* to compare things. Some use different words.

Jocelyn's scary story was really bad!

Jacob's scary story was even worse than Jocelyn's.

Mackenzie's scary story was the worst of all.

# Adverbs

**Adverbs** are words that tell more about a verb. They tell *how*, *when*, or *where* something happens. Most adverbs that tell how end with *-ly*.

- How: *quickly, loudly, sadly, softly, nicely*

The wind whispers softly through the leaves.

- Where: *outside, here, there, away, down*

I like to sit outside in the shade of a tree.

- When: *today, tomorrow, suddenly, later, next, now*

I will read now and play with my friends later.

Adverbs have special forms that can be used to compare actions.

- Use *-er* to compare two actions.

A hare moves faster than a tortoise.

- Use *-est* to compare three or more actions.

A cheetah runs the fastest of any animal on Earth.

- When an adverb is a long word, use *more* or *most* instead of *-er* or *-est* to compare.

Jeb works carefully on his math homework.

He works more carefully on division than on multiplication.

He works most carefully of all on his word problems.

# Capitalization and Punctuation

The first and last words in a book title, and all the important words in between, are capitalized.

This week we're reading the book *The Mouse and the Motorcycle*.

Our group also liked the book *A Letter to Amy*.

Next week we're going to read the book *Casey at the Bat*.

My favorite book so far is *Bartholomew and the Oobleck*.

My friend Jesse's favorite book is *Mirette on the High Wire*.

I'm writing a book report on *Encyclopedia Brown Saves the Day*.

A **contraction** is two words joined together to make a shorter word.

An apostrophe (') takes the place of the letter or letters that have been left out.

is + not = isn't	he + is = he's	I + will = I'll
was + not = wasn't	she + has = she's	you + have = you've
are + not = aren't	it + is = it's	they + are = they're

**Commas** are used to set off information in the parts of a letter. Use commas to separate a street name from an apartment, a city name from a state name, and the day from the year. Also use a comma after the greeting in the letter and to separate the closing from the signature.

153 Oval Street, Unit 4

Gary, IN 46408

April 24, 2014

Use a comma after the greeting in the letter.

Dear Anika,

Gosh, it's good to hear from you! I'm glad you like your new home in Portland, Maine. It'll be good to see you next summer. Summer isn't that far away.

Use a comma to separate a city name from a state name in a sentence.

Your friend,

Tyler

Use a comma to separate the closing from the signature.

(continues)

## Capitalization and Punctuation *(continued)*

**Quotation marks** are used to set off the exact words of a speaker, and a comma often separates the speaker's exact words from the rest of the sentence. Ending punctuation always goes inside the quotation marks.

Sophie said, "I think Book Club is really fun."

Use quotation marks to let readers know which words speakers are saying.

Her friend Trey said, "I do too, but I don't say much."

Use a comma to separate what the speaker is saying from the rest of the sentence.

"Why don't you speak more?" Sophie asked.

Trey replied, "I'm afraid I'll give the wrong answer."

Always put end punctuation inside the quotation marks.

# Assessment Overview

The assessments offered in the *Being a Writer*<sup>™</sup> program are designed to help you (1) make informed instructional decisions as you teach the program, and (2) track your students' writing growth and social development over time. The assumption is that all of your students are developing at their own pace into strong, capable writers and that they are all developing into principled, responsible people with strong interpersonal skills.

The *Being a Writer* program provides a comprehensive and flexible set of formative and summative assessments that enable you to track and evaluate your students' progress and needs, unit-by-unit and across the year. (For a brief description of each assessment, see "Assessments" on page vi.) As you teach the lessons in the *Teacher's Manual*, an assessment icon (📝) will alert you whenever an assessment is suggested. If you are using the *Digital Teacher's Set*, tapping the assessment icon opens the CCC ClassView<sup>™</sup> assessment app.

Everything you need to conduct each assessment, including instructions and forms, can be found in this book or accessed through the CCC ClassView app ([classview.org](http://classview.org)). You may choose to record your students' progress using printed copies of the forms from this book or from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). For more information, see "CCC ClassView App" below.

---

## CCC ClassView App

The CCC ClassView app is an online application that contains all of the assessment forms and instructions available in this *Assessment Resource Book*. This tool also enables you to electronically collect, sort, synthesize, and report assessment data for each student. When conducting the assessments, you can enter data directly into the CCC ClassView app and then generate reports on the progress of individual students and the class as a whole. You can access the CCC ClassView app by tapping the linked assessment icons in the *Digital Teacher's Set*, by directly accessing the app at [classview.org](http://classview.org), or via the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). For more information about the assessment app, view the "Using the CCC ClassView App" tutorial (AV80).

# Assessments

## CLASS ASSESSMENT

Unit 1 • Week 1 • Day 4 Class Assessment Record • CA1

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
• Are the students writing in silence?			
• Are they staying in their seats?			

Other observations:

**Considerations:**  
If you notice students having difficulty staying in their seats or writing in silence, call for the class's attention and remind them of your expectations before having them resume writing. Be aware that some students may need to just sit and think for a while before they start writing. Give them uninterrupted time to do this.

Being a Writer™ • Grade 3 © Center for the Collaborative Classroom

The class assessments are designed to help you assess the writing, and sometimes the social performance, of the whole class. As you teach the lessons, a Class Assessment Note in the *Teacher's Manual* will alert you when an assessment is suggested. During the class assessments you have the opportunity to observe the students as you ask yourself questions that focus your observations. These notes occur about once per week, usually during Writing Time, when the students are using the writing processes, craft, or skills that they are learning in the unit. Each Class Assessment Note has a corresponding "Class Assessment Record" sheet (CA) where you can record your observations. The record sheet reiterates the suggestions from the *Teacher's Manual* for how to proceed with the instruction based on your observations.

## TEACHER CONFERENCE

Personal Narrative Conference Notes: Focus 1 • CN1

Student's Name: \_\_\_\_\_ Date: \_\_\_\_\_

Ask the student to show you his or her writing and read some of it aloud to you. Help the student extend his or her thinking about personal narrative by asking questions such as:

- Q Why did you choose to write about this [event/memory/thing]?
- Q What else do you remember about it that you can add to the narrative?
- Q What words are you using to describe what you [saw/heard/smelled/tasted/felt]?
- Q (Beginning Week 2, Day 5) What temporal words and phrases are you using to help readers understand when something happened?
- Q What other experiences from your own life might you want to write about?

Other observations:

Next steps:

38 | Being a Writer™ • Grade 3 © Center for the Collaborative Classroom

Teacher conferences provide you with the opportunity to talk with individual students about their writing, identify areas of strength, and note areas in which a student needs more support. As you teach the lessons, a Teacher Conference Note in the *Teacher's Manual* will alert you when an individual teacher conference is suggested. These notes provide specific questions related to the students' writing that you might ask yourself or a student when conferring individually. Many notes also include suggestions for supporting struggling students. Each Teacher Conference Note has a corresponding "Conference Notes" record sheet (CN) where you can document your suggestions and observations that result from each conference. We

encourage you to confer with each student at least once or twice per unit, depending on the length of the unit. The "Conference Notes" record sheets from your writing conferences with the students also comprise an important source of information for the Individual Writing Assessment (see page vii).

## **Student Goals and Interests Survey**

The questions provided in the first “Conference Notes” record sheet can be used as a beginning-of-year survey of your students’ goals and interests. After you have conferred with all of your students, we recommend that you review the students’ responses to the questions and look both for patterns across the class and for individual comments that stand out for you. For example, you might note writing topics and genres that the students are interested in and whether the students exhibit an aversion to, or affinity for, writing. The information you gather can help you plan instruction for the coming months.

After analyzing your students’ responses, you might share with the class what you learned about them as writers and how you plan to help them build their love of writing over the course of the year. For ideas on how to facilitate a class discussion about the survey, see the extension “Discuss the Students’ Writing Goals and Interests” on page 67 of the *Teacher’s Manual*.

The questions in the final Teacher Conference Note of the year can serve as an end-of-year survey of your students’ perceptions of their growth as writers, a measure of their attitudes toward writing, and a summary of their goals for summer writing. After you have conferred with your students, you might share the information from this final survey with them, along with the initial survey, and discuss how the students’ attitudes toward writing have changed.

## **SOCIAL SKILLS ASSESSMENT**

The Social Skills Assessment allows you to note how well each student is learning and applying the social skills taught in the program. In addition to social skills, this assessment allows you to track how well each student integrates the values of responsibility, respect, fairness, caring, and helpfulness into his or her behavior. As you teach the lessons, a Social Skills Assessment Note in the *Teacher’s Manual* will alert you when a social skills assessment is suggested. We recommend that you do this assessment three times during the year—in the fall, winter, and spring. (If you teach in a year-round school, adapt as necessary to assess early in the year, midyear, and at the end of the year.) The “Social Skills Assessment Record” sheet (SS1) allows you to track how individual students are doing with particular skills over the course of the year (see page 171).

## **INDIVIDUAL WRITING ASSESSMENT**

The Individual Writing Assessment is designed to help you assess growth in the writing of individual students. The “Individual Writing Assessment” record sheet (IA) consists of two sections—Part A: Non-published Writing and Part B: Published Writing—and a few Reflection questions to help guide your assessment of each student’s growth.

## Part A: Non-published Writing

The Non-published Writing section helps you analyze each student’s notebook writing or other non-published writing generated during a unit using a rubric that identifies the instruction and the writing tasks for each week of the unit. The purpose of this portion of the assessment is to help you determine whether the writing the student completes on a day-to-day basis shows evidence of the unit’s instruction.

## Part B: Published Writing

The Published Writing section helps you score each student’s published piece using a rubric that identifies certain descriptors of successful writing.\* You assess the writing to determine whether *almost all*, *much*,

*some*, or *almost none* of the writing shows evidence of each descriptor. Examples of scored student work are provided for each unit as models to help you score your students’ writing using the rubric.

**Reflection** The Reflection section in Part B provides questions that help you reflect on each student’s progress since the previous assessment and identify what you might focus on during the next unit’s instruction.

The information from the “Individual Writing Assessment” and the “Conference Notes” record sheets, combined with any scored *Student Skill Practice Book* activities, constitute a record of each student’s development over the unit. (For more information about scoring *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

If you need to use the scored writing as a basis for grading, the “Individual Writing Assessment” record sheet includes a section where an overall unit score can be calculated. Keep in mind that progress in the *Being a Writer* program is determined by an increase in scores over time, rather than by each unit’s score. The assumption is that all students are growing at their own pace into strong, capable writers. The “Individual Writing Assessment Class Record” sheet (CR1) is provided for you to record your students’ progress over the course of the year (see page 175). If you are using the CCC ClassView app, you can generate a variety of reports that track individual students’ progress as well as the progress of your class as a whole.

\*For information about the how this program’s “Descriptors of Successful Writing” relate to the 6+1 Traits®, used by many schools as part of writing assessment, see “The 6+1 Trait® Writing Model and the *Being a Writer* Program” on page xxiv of the *Teacher’s Manual*.

End-of-year writing samples are obtained from the students using the same prompt as the beginning-of-year writing samples. After obtaining the writing samples, we recommend that you analyze each student's writing using the "End-of-year Writing Sample Record" sheet (WS2). If you obtained both samples, comparing the "Beginning-of-year Writing Sample Record" and "End-of-year Writing Sample Record" sheets can help you evaluate your students' growth as writers and the effectiveness of the year's instruction. For more information, see "Obtaining an End-of-year Writing Sample" on page 164.

We suggest that you obtain the beginning-of-year writing samples during the first month of school and the end-of-year writing samples during the last unit of instruction in the program.

## Individual Assessment Folders

We recommend that you create a folder for each student in which to store collected writing samples and “Individual Writing Assessment,” “Conference Notes,” and “Student Self-assessment” record sheets. You may also want to make copies of each student’s scored writing and file these in the assessment folder. Periodically, you can use the materials in the folder to discuss the student’s progress with him or her, as well as with parents and other adults in the school. The folders can travel to the next grade with the students.

## Obtaining a Beginning-of-year Writing Sample

Conduct this assessment during the first month of the school year. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct the *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “Beginning-of-year Writing Sample Record” sheet (WS1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 4. Review the questions on the record sheet to help you prepare to analyze each student’s work.
- ✓ Plan to provide enough time for the students to complete the writing sample. You might base the amount of time on your school district’s requirements for similar writing tasks or simply provide your students with the time they need to complete their writing.
- ✓ Gather any additional materials needed to complete the writing task (for example, dictionaries, extra pencils, crayons, or markers) and make them available to your students.
- ✓ Write the following prompt where everyone can see it: *Think about a time in your life when you were very happy. Write a story about that very happy time.*

### CONDUCTING THE ASSESSMENT

1. Tell the students that today they will each write a piece to show what they know about good writing. Explain that the students should try to do their best writing in this piece.
2. State your expectations for how the students will behave while you are conducting the assessment (for example, students should stay in their seats, work silently, and raise their hands if they have questions). You might also tell the students what additional resources, if any, they can use as they write (such as drawing materials or a dictionary).
3. Direct the students’ attention to the prompt and explain that they will all write about this topic. Give the students a few moments to read the prompt.
4. Give the students a few moments to think about what they will write. (If you are conducting this assessment as a timed writing activity, tell the students how much time they will have to complete their writing and that you will let them know when they have 10 minutes remaining.)
5. Distribute writing paper and have the students begin.
6. Signal the end of the writing period and collect the students’ writing.

**ANALYZING THE ASSESSMENT**

For each student's writing sample:

1. Read the piece carefully. As you read, think about the questions on the "Beginning-of-year Writing Sample Record" sheet (WS1) and record your observations. Make note of any writing conventions that the student uses consistently or inconsistently, and indicate which, if any, grade-level skills are absent from the writing.
2. Use the information you gather from the student's writing to help inform your instruction in the coming months. (For example, if you notice that many students struggle to write engaging opening sentences, you can make a note to emphasize that instruction when appropriate.)
3. Attach the completed record sheet to the writing sample and file it in the student's individual assessment folder.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>▪ Are the students writing in silence?</li> </ul>			
<ul style="list-style-type: none"> <li>▪ Are they staying in their seats?</li> </ul>			
<p>Other observations:</p>			

**Considerations:**

If you notice students having difficulty staying in their seats or writing in silence, call for the class’s attention and remind them of your expectations before having them resume writing. Be aware that some students may need to just sit and think for a while before they start writing. Give them uninterrupted time to do this.

▪ Are the students writing in silence?			
▪ Are they staying in their seats?			
▪ Are they skipping lines in their notebooks?			
Other observations:			

**Considerations:**

If necessary, remind the class of your expectations for silent writing during this time. Note which students write easily and which ones have difficulty getting started. If you notice any student struggling to start writing after 10 minutes, pull him or her aside quietly and ask questions such as:

- Q *What are you thinking about right now?*
- Q *When was a time you felt bad, then good, that you could write about? What could you write as a first sentence about that time?*
- Q *What ideas have you written in your writing ideas section? Let's pick one and talk about what you might write.*

## Thoughts About My Story

Things to look for in my writing:	I did it!	I did it some of the time.	I'm still working on it.
▪ I wrote a story.			
▪ My writing is clear. It is easy to tell what my writing is about, and my piece makes sense from beginning to end.			
▪ My writing is fun and interesting.			
▪ I used many interesting words that describe how things look, feel, sound, taste, and smell.			
▪ I have proofread my writing. I checked for: <ul style="list-style-type: none"> <li>- punctuation (. ? ! "Hi!" said Adam.)</li> <li>- capital letters (<b>B</b>etty lives in <b>A</b>ustin, <b>T</b>exas.)</li> <li>- spelling</li> </ul>			

### Reflection:

- What did you do to make your writing fun and interesting to read?
  
  
  
  
  
  
  
- What did you enjoy about Writing Time during this unit?

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the "Individual Writing Assessment" record sheet (IA1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 28.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 22 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

**Commentary:** This subject of this piece, the holiday traditions of the author’s family, is clear from the outset and is sustained throughout the piece. Effective use of paragraph breaks and temporal words and phrases (*When it’s almost Christmas Eve; Then; On Christmas morning*) create a logical sequence of events. Sustained thought and personal engagement are evident through the use of details about the family’s traditions (*we make an i-gloo; we . . . find the highest mountains and sled down; we make hot coca and cookies*), although one senses that this capable writer could have included additional creative details. Words such as *overjoyed* and *surprised* add interest, although the rest of the vocabulary is not particularly descriptive, and there are definite missed opportunities to employ sensory language. Most of the narrative is written fluently, although an incorrect shift from plural to singular (*presents* to *it*) occurs in the final paragraph. The author correctly capitalizes and punctuates sentences in the piece and makes only minor spelling and proofreading errors.

Chapter 1 Meet  
My Cat Tipsey

I have a cat he name is  
Tipsey. She loves to eat can tuna.  
She is a black and white cat.

1

She likes it when I  
scratch her neck. She is very fluffy.  
In the winter she gets fluffy

Chapter 2 What  
Is She like?

5

Tipsey has a diamond on her  
tummy. She thinks she is a panther.  
So she races really really fast.

2

In the summer she sheds  
so we have to brush it out.  
One time she got three shots

6

She loves to play with feathers  
and fluffy stuff. She loves bouncy  
balls. When I throw it she runs

3

on her neck. she was sleeping  
for three days. I gave Tipsey a  
new collar on October 24  
It had rim stons on it.

7

after it. When it goes high she  
jumps and tries to catch it.  
Sometimes she doesn't and it  
makes me laugh.

4

She is still a Kitten. I call  
her Tipsey because she has a tip on top  
of her tale. I love Tipsey she is silly.

**Commentary:** In this piece, readers are introduced to the author’s cat, Tipsey. There is evidence of sustained thought in the variety of details used to describe Tipsey (what she looks like, how she plays, what she likes). Ideas flow logically in the first section, “Chapter 1 Meet My Cat Tipsey,” although that flow disappears in the second section, “Chapter 2 What Is She Like?” as the author describes seemingly unconnected facts and events (Tipsey’s appearance in the summer; the time she got three shots; the day she got a new collar; the fact that she is still a kitten; the origin of Tipsey’s name). The writing shows some individual expression and creativity (*She thinks she is a panther*), and the author uses some descriptive vocabulary (*dimond, panther, feathers, scratch, rin stons*). Missing punctuation and errors in capitalization, as well as a few run-on sentences, create problems with fluency when the piece is read aloud. There are some spelling and proofreading errors, but they do not detract from a reader’s enjoyment of the piece.

**Commentary:** The topic of this piece, “my baby cousin,” is sustained through the entire piece. The author attempts to describe a specific interaction (*I turned around once and I saw my baby cousin*), although the piece could benefit from more individual expression and an exploration of the author’s feelings about the baby cousin. Many ideas are introduced and not elaborated upon (*instead she cralls behind you and she was wearing a mask*), and a number of the sentences are not fluent when read aloud. The somewhat sprawling nature of the writing suggests a writer still acquiring full control of the pencil on the page. Sentence punctuation and capitalization are attempted, but their arbitrary use and the frequency of run-ons suggest an as-yet undeveloped sense of what a sentence is. Vocabulary is largely limited to simple, high-frequency words (*baby, pulls, saw, came*), most of which are spelled conventionally. No evidence of proofreading is apparent.

## Part B: Published Writing

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

### Reflection:

- What did you do to make your writing fun and interesting to read?
  
- What did you enjoy about Writing Time during this unit?

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “Individual Writing Assessment” record sheet (IA1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 50.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 44 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

Cooking Apple Turn Overs

It was a lucky September day for me. Me and my Grandma were about to cook. I washed my hands in the warm wet water. After that, I went to the kitchen. We poured brown apples in the bowl. Next, Grandma put sugar and cinnamon in the bowl. She let me taste the wonderful filling. It taste the best. I mixed, mixed, and mixed a little more. The filling looked golden brown. Grandma got the pie pan ready and sprayed the pan. I took two or three spoons of filling and put it in the pie crust and pressed the fork down all around the pie crust. Then, I put it on the clean pan. Grandma slowly opened the oven and put the tray in. She turned the oven light on. I watched the apple turnovers bake, smelling sweet. They were done in twenty minutes. Then we got to eat them. They tasted like apple pie.

This is a special memory to me because it was my first time cooking with my grandma.

**Commentary:** The title and strong, engaging opening inform readers that this personal narrative describes an event that was significant to the author (*It was a lucky September day for me*). A well-organized sequence of events guides readers step by step through the pleasurable experience of baking with Grandma. Temporal words and phrases strengthen the sequence (*After that; Next; Then; in twenty minutes*), sensory details enrich the narrative (*warm wet water; brown apples; wonderful filling; golden brown*), and repetition is artfully used (*I mixed, mixed, and mixed a little more*). The conclusion, which is serviceable if a bit flat, explains the event’s importance to the author. The narrative correctly capitalizes and punctuates sentences and is mostly free from proofreading errors.

I have a very cute dog. It's a girl and her name is Taylor. She likes to play fetch. Taylor can run fast and I train her every week. I give her treats when she does tricks. When I say sit Taylor sits. When I tell Taylor to lay down she lays down. Some time's when Taylor is too happy I tell her to calmdown and she lays down. But the best trick Taylor can do is that she can jump up high through a hoop. But the reason why I love Taylor so much is because she can do all the wonderful tricks. That I taught her.

**Commentary:** This personal narrative describes the author’s dog, Taylar. The focus is sustained throughout the piece, and the importance of Taylar to the author is successfully communicated. Individual ideas flow logically, thanks to the use of temporal words and phrases (*every week; When; Some time’s*). However, the narrative lacks an overarching sequence of events; the author simply describes the various tricks Taylar can do without much elaboration. The opening and closing are clear and to the point, although not particularly memorable. Vocabulary is similarly matter-of-fact; few descriptive or sensory details are used. The relatively few spelling, grammar, and proofreading errors do not detract from the general clarity and fluency of the narrative.

**Commentary:** In this personal narrative, “The bully problem,” the author’s decision to tackle an emotionally complex incident shows an admirable grasp of what is at the heart of the genre. However, this focus is not sustained throughout the piece, and some important details are missing: exactly how did the author make the initial discovery of the bully problem (*Until I discovered that she was in this school because she had wanted to bully a little kid named Enrique*)? By the end of the second page, the narrative focus has shifted, leaving the problem unresolved. (Note: the idea of naming the dog “Max” is introduced in an earlier chapter.) The abrupt opening and incongruous ending underscore the lack of focus in the piece. Nonetheless, the overall sequence of events is discernable, and the author’s ongoing concern about the bully remains poignantly clear (*I went to the gates and climbed then I could not forget about “the bully thing”*). Some transitions are not entirely logical or fluent, due to the presence of run-on sentences (*I went to the gates . . .*) and the awkward use of some temporal words (*There was a new girl so then we went to recess*). Some varied vocabulary is used (*discovered, deleceous*), adding interest to the piece. A few pronoun errors cause minor confusion (*I followed her because I thought she could be her friend*).

## Part B: Published Writing

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

Talk with the student about the piece he or she is developing for publication. Ask the student to tell you about the part he or she is working on now and to read some of his or her writing aloud to you.

As you listen to the student, ask yourself:	Yes	No	Not evident	Evidence:
▪ Does this student's story have a character with distinct traits that are shown through physical appearance, action, speech, or thought?				
▪ Does something interesting happen to the character?				
▪ Does the story make sense? Is it easy to follow what is happening, when, and to whom?				
▪ Does the student use temporal words and phrases?				
▪ <i>(Beginning Week 4, Day 4)</i> Does the ending bring the story's events to a close?				
▪ <i>(Beginning Week 5, Day 1)</i> Does the student use sensory details to convey the setting?				
▪ <i>(Beginning Week 5, Day 4)</i> Does the student use verbs and adverbs to make the writing more descriptive?

Support the student in integrating the elements of fiction by asking questions such as:

- Q *What kind of personality does your main character have?*
- Q *What physical descriptions, actions, thoughts, or speech [have you added/could you add] to show who the character is?*
- Q *What interesting thing happens to your character?*
- Q *What temporal phrases [did/could] you use to help readers understand exactly when in the story events happen?*
- Q (Beginning Week 4, Day 4) *What [did/could] you write to bring the story to a close?*
- Q (Beginning Week 5, Day 1) *When and where does the story take place? What descriptive words can you use to tell the reader how the place looks, feels, sounds, or smells?*

**Reflection:**

- What did you do to make your writing fun and interesting to read?
  
- What did you enjoy about Writing Time during this unit?

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the "Individual Writing Assessment" record sheet (IA1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 80.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 74 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

chapter 1  
Meet Jessica & Emily

Once upon a time there  
was a girl named  
Jessica, she had blond highlights.

2  
She had a turtle  
named Emily. Her  
shell was red.

3  
Emily adored biting  
people's hands.

4  
Jessica kept Emily in  
a pink cage.

5  
left her cage open  
one week faster  
and Emily met

6  
chapter 3  
Mia

a rabbit named  
Mia. She had a  
blue bow.

7  
Mia & Emily became  
best friends.

8  
Meanwhile poor  
Jessica was looking  
for Emily.

9  
chapter 4  
Hawaii

Emily wasn't looking  
for Jessica she  
was with Mia in

10  
Hawaii! To Emily  
Hawaii was  
paradise.

11  
After a week in  
Hawaii Emily  
fainted while  
she was watching  
T.V. while  
Mia was in the  
shower.

12  
when Mia got out  
she pushed Emily  
to the Hawaii  
Hospital.

13  
Inside the Hospital  
had Blue walls.

14  
while Mia was  
waiting patiently  
for Emily the  
doctor came in  
he said "Emilys  
ok"

15  
So she went home  
to Miami with  
Mia. Emily  
went back  
with Jessica  
and so did  
Mia.

**Commentary:** This piece announces itself as fiction from the first sentence (*Once upon a time there was a girl named Jessica*) and remains a uniformly strong example of the genre. Characters are developed through physical description and actions (*blond highlights; Her shell was Teal; adored biting peoples hands; blue bow*), although more could be developed via the characters' speech and thoughts. While the sequence of events is generally clear and the plot is complete, some important moments in the story are hazy and undeveloped (the details of Emily's escape; the first meeting of Emily and Mia; how and where Emily and Jessica are finally reunited). Temporal words and phrases (*One week pasted; Meanwhile; After a week*) are used with varying degrees of effectiveness and clarity, and the ending is a bit perfunctory. In addition to the character descriptions, some other memorable vocabulary is used (*adored; paradise; fainted; rushed; pactionly*). Sentence punctuation and capitalization are mostly correct, although there is a fragment and a few run-on sentences. The author successfully employs quotation marks in dialogue, but the comma is missing (*he said "Emilys ok."*). Apostrophes are used inconsistently (*peoples; wasn't; Emilys*).

1 Once upon a time there was a dog named Pupper and a cat named Tipsey. Pupper was peach when Tipsey was black and white. They were stuck on a island but they still had fun. They ate coconuts at the island. They ate the coconuts slowly. There was sand every where and water all around. On the island they like racing and playing tag. Suddenly they saw a ship but it was a pirates ship. They were running and hid as quickly as they could. They hid in bushes and behind trees. They

2 went furiously to get to the bushes. They were hungry but it was no time to eat so they had to fight the pirates did not hurt them they said "come on our ship we will give a home to you!" The cat and dog knew the pirates so they got on the pirates ship. They slept and ate hot dogs and hot cheetos. It took five days on board. Some nights are dark and scary. Finally they found new York.

**Commentary:** The fiction genre is apparent from the opening of this entertaining piece (*Once upon a time there was a dog named Pupper . . .*). The story’s premise shows creativity (two animal friends are taken from an island by pirates), and the exciting plot is sustained and generally coherent. Several of the story’s events connect logically, and some temporal words and phrases appear (*Suditly; It took five days; Finitly*) although the final resolution seems rushed and somewhat vague. Character development is limited to physical descriptions of the two protagonists (*Pupper was peach . . . Tipsey was black and white*), and there is no development of any secondary characters, such as the pirates. After the initial description of Pupper and Tipsey, there is little descriptive or sensory language. The overall fluency of the story is impacted by problems with verb tense (*They were running and hid*) and run-on sentences (*the pierats did not hurt them they said*). High-frequency words are mostly spelled conventionally; approximated spelling shows letter-sound correspondence or awareness of conventional spelling (*Suditly; pierats; slept*).

**Commentary:** This piece shows a clear attempt to tell a fiction story, although missing words (*I thot she was a brid that cats whoud*) and indecipherable handwriting and spelling (*the tites blakens*) make it challenging to follow the story line. The main character, Twitie, is briefly described (*She is vary smal; She fly's really high; She is vary yellow*) before she embarks on an adventure in a hotel elevator that breaks down; these aspects show some awareness of character, plot, and conflict. The lack of an opening sentence initially disorients readers, as does the dearth of temporal words, which make story events difficult to identify. However, the final sentence provides a sense of resolution (*But the elevtor stated moving up and we wher safe*). Run-on sentences are frequent in the piece, as both capitalization and end punctuation are inconsistent. Dialogue is not attempted, and the author is still approximating spelling for many high-frequency words (*vary, smal, wher*) as well as inconsistently spelling the same word (*whent, wet, went*).

## Part B: Published Writing

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

They may have difficulty defining subtopics or consistently sorting their notes into those subtopics. They may want to discard notes that do not fit or become preoccupied with having the same number of notes in each subtopic. Encourage them to try their best to organize all their notes in a way that makes sense (perhaps by creating an "Other Interesting Facts" category for outliers).

## Thoughts About My Informational Report

Things to look for in my writing:	I did it!	I did it some of the time.	I'm still working on it.
▪ I wrote an informational report about a topic.			
▪ My writing is clear. It is easy to tell what my writing is about, and my piece makes sense from beginning to end.			
▪ My writing is fun and interesting.			
▪ I included many facts, details, and definitions.			
▪ I have proofread my writing. I checked for: <ul style="list-style-type: none"> <li>- punctuation (. ? ! "Hi!" said Adam.)</li> <li>- capital letters (Betty lives in Austin, Texas.)</li> <li>- spelling</li> </ul>			

### Reflection:

- What did you do to make your writing fun and interesting to read?
  
  
  
  
- What did you enjoy about Writing Time during this unit?

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the "Individual Writing Assessment" record sheet (IA1) from the CCC Learning Hub ([cccllearninghub.org](http://cccllearninghub.org)) or from page 106.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 100 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

**Commentary:** Foxes are the clear topic of this informational report. The presence of a table of contents, an introduction, subtopics (*Food, Habitat, and Mating*), and a conclusion demonstrate a solid understanding of how an informational report should be organized. There is also appropriate use of a titled, labeled diagram (*What Foxes eat*) and two well-chosen photographs with helpful captions. Information within each subtopic is generally accurate and logically sorted, and it is apparent that research has been conducted. However, facts are presented without much detail or elaboration (*Foxes home's are called Dens. Foxes mostly live in forestes . . .*), and several sections end abruptly (*The Red Fox does not hibernate. I wonder why?*), leaving unanswered questions. The report is enlivened by some interesting word choices (*hibernate; wonder; attract*). The report is generally fluent, with the exception of one run-on (*Foxes also eat mice, rats, rabbits and other animals they also eat berries*). Most words are spelled correctly, although the presence of a few errors indicates the need for additional proofreading (*Habitat; forestes; desserts; Vicsens*).

**Commentary:** The topic of this informational report (cheetahs) is clear and sustained throughout the piece. Information about cheetahs is organized and clearly presented with a table of contents, a basic introduction, two subtopic sections (*Food and Habitat*), and relevant photographs with captions. The presence of these features demonstrates an understanding of the expository nonfiction genre, despite the omission of a conclusion. Some research has been done, and the majority of the facts presented are accurate; however, the absence of details or definitions is noticeable. The piece is more of a simple list of facts than a true informational report. Individual sentences are generally fluent and correctly punctuated, with the exception of one missing period and several misplaced capitalized words. The overall impression is one of still-limited fluency, due to the repetition of the same simple sentence structures (*The cheetahs can live An A tree. The cheetahs can live in A zoo.*) and the absence of transitional words. Most words are spelled correctly and the misspellings are reasonable approximations (*gazzle* for *gazelle*; *zebraz* for *zebras*).

**Commentary:** The reader must make a number of inferences to understand that this informational report is about polar bears. Nonetheless, the writer successfully sustains the topic throughout the report and demonstrates some understanding of the expository nonfiction genre by establishing three relevant subtopics (*Description, Food, and Facts*), sorting the few facts that are provided into subtopics, and including a photograph with a basic caption. The absence of a table of contents, introduction, and conclusion weakens the overall structure of the report, and only the fact about polar bears' diet can be even partially substantiated. The somewhat sprawling nature of the writing, as well as the haphazard use of capitalization, suggests a writer still in the early stages of writing development. While the sentences themselves are fluent when read aloud (*In 1973 Lots of Polar Bears were killed*), there is little attempt to elaborate or connect ideas, and the few sentences do not convey individual expression. High-frequency words are spelled conventionally (*they; play; eat; were*), and sentence punctuation is correctly used, though inconsistent.

## Part B: Published Writing

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted item listed under it.

<ul style="list-style-type: none"> <li>Are they able to write directions for their chosen topics?</li> </ul>			
Other observations:			

**Considerations:**

If you notice any student having difficulty starting to write after 5-10 minutes, help to stimulate his or her thinking by asking questions such as:

- Q *What is something you take care of at home?*
- Q *If you were going to teach someone else how to take care of that thing, what would you say to do first? How can you write that as a sentence?*
- Q *What would you say to do next? How will you write that as a sentence?*

<ul style="list-style-type: none"> <li>Are they able to write directions that others can follow?</li> </ul>			
Other observations:			

**Considerations:**

Support any student who struggles by having each describe his or her animal to you (without your looking at it) and by asking:

Q *What is the first thing you do to draw your animal? How can you write that as a sentence?*

Q *What do you do next?*

If you notice many students struggling to write directions, call the class together and model another example as you did in Step 1 of the lesson. Then have the students resume their own writing.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
▪ Are partners working together in a productive way?			
▪ Are they sharing the work fairly?			
▪ Are they writing directions that are easy to follow?			
▪ Are the directions complete and in an order that makes sense?

Support any pair that is struggling by asking questions such as:

- Q *What is the first thing you do when you do this activity?*
- Q *I'm confused by this direction. How can you rewrite the direction so it's clear?*
- Q *What do you need to do to finish this activity? How will you write that?*

If partners have picked an activity that you feel is too complex for this writing activity, help them pick a simpler activity to write about.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>▪ Do the students give one another useful feedback?</li> </ul>

As you listen to the student, ask yourself:	Yes	No	Not evident	Evidence:
▪ Are the directions clear and easy to follow?				
▪ Does the sequence of the directions make sense?				
▪ (Beginning Week 2, Day 2) Does the reader have all of the information needed?				

If possible, try following the student's directions. Then probe his or her thinking by asking questions such as:

- Q *I'm not clear about how to [draw the eye]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *I could [put the curved line] here or here. Where should it go? How will you write that in your directions?*

### Reflection:

- What did you do to make your directions fun, interesting, and easy to follow?
  
- What did you enjoy about Writing Time during this unit?

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the "Individual Writing Assessment" record sheet (IA1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 126.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 120 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

**Commentary:** The title of these directions makes the purpose evident from the outset, and a comprehensive materials list gives readers all the necessary preparation to follow the directions. The steps themselves are clear, numbered, and in a sequence that makes sense. Detailed, precise language, interesting word choices, and sensory details add to the interest of the directions (*First put a big blob of soft white soap on your hands; fresh clean water*). The writer has correctly used capitalization, end punctuation, and coordinating conjunctions, although the absence of commas interferes slightly with sentence fluency. Nearly all of the spelling is correct.

**Commentary:** The purpose of these directions is very clear: how to make a snowman. A detailed materials list that helpfully includes specific quantities (*1 scarf; 7 rocks; 1 carrot*) gives readers much of the information needed to prepare, although snow does not appear on the list. The directions themselves are written clearly, numbered, and in a sequence that makes sense. However, they are quite brief (*Roll 3 snowballs smallest to largest; Then stack the balls largest to smallest*) and could benefit from more details and descriptive language. In addition, some items in the materials list, such as the sticks and rocks, do not appear in the directions. Most of the directions are capitalized and punctuated correctly, with the exception of the single sentence that begins in Step 3 and continues in Step 4.

**Commentary:** The title of these directions, “How to brush your teeth,” establishes their purpose, and the sequence, while left unnumbered, is made clear by the use of the words *first*, *then*, *Next*, and *end*. The directions themselves are accurate and mostly clear, with the exception of the final step with its run-on sentence and unclear antecedent (*all Done You wash it*). The absence of a materials list and the lack of details in the directions (*Next Brush your teeth*) add to the confusion. The lack of punctuation and somewhat haphazard capitalization distract from the reading experience. The vocabulary remains basic throughout and some errors indicate that the writer may be an English Language Learner.

## Part B: Published Writing

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

### Reflection:

- What did you do to make your writing persuasive and interesting to read?
  
- What did you enjoy about Writing Time during this unit?

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “Individual Writing Assessment” record sheet (IA1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 144.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 138 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

<h1>Turtles</h1>
<p>I want a turtle. I am persuading my parents because turtles are cute and all you have to do is change its cage once a week, feed it every day. You have to play with it a couple times a week. I would do all of that stuff. Turtles don't chew up anything like a dog would do! Turtles aren't that bad as pets. It's like having another friend. When I am sad I can take it out of its cage and hold it and it would make me feel better. That's why I want a turtle, I Love TURTLES!!!!!!</p>

**Commentary:** In the opening sentences of this persuasive essay, the author clearly states the desire for a pet turtle and the intent of persuading his or her parents to agree. The piece describes what pet ownership would entail and includes several valid supporting reasons for why the author could care for a turtle. The flow of reasoning would be stronger if more transitional words and phrases were used (*because* is the sole example). Only one adjective (*cute*) is used to describe the appeal of turtles, constituting a missed opportunity to make the piece more engaging and persuasive. A straightforward but emphatic conclusion brings the essay to a successful close (*That's why I want a turtle. I love turtles!!!!!!*). Every sentence is clear in meaning, with correct capitalization, spelling (except for the deliberately misspelled *alllll*), and end punctuation.

**Commentary:** The author's opinion is clear from the first sentence of this persuasive essay (*There should be less work on the planet earth*), and additional details are provided in the following sentence (*There should be less work at work, School, and Day care centers*). The supporting reasons demonstrate creativity in presenting the notion of robots replacing human labor, but in effect, they explain *how* the goal of less work would be achieved (*It would be better if we replace human teachers with robots . . . Robot should be sent to everyone who works and the people should be able to tell them what to do*), rather than addressing *why* this is a worthy goal. In the final paragraph, the writer undermines the argument (*I know alot of people who would like that, others who would'nt and some who don't care*). The absence of transitional words, adjectives, and an effective conclusion further lessen the persuasive power of the essay. Capitalization and end punctuation are mostly applied correctly and for the most part, sentences are fluent and spelling is correct.

**Commentary:** The author's opinion that the school day should be shorter is evident from the title and opening sentence of this piece, and a solid supporting reason is offered in order to persuade readers (*At the End of the day I get tired and so do other people*). Although a second reason is attempted (*Also There should more fun activities like art and music*), this is in fact another opinion rather than a true supporting reason. Transitional words and phrases are used (*Because; Also; Another Reason*), although not always successfully, and most vocabulary is basic. The final phrase, which begins "Another Reason is . . .," devolves into a sentence fragment, and the reason is never stated as the writer brings the essay to an abrupt conclusion (*Another Reason is kids should They why school should be shorter*). Capitalization appears incorrectly mid-sentence, and some end punctuation is missing. Spelling and proofreading errors also make the essay challenging to read.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
▪ Do the students seem to be writing freely and creatively?			
▪ Are they engaged in their writing?			
▪ Do they seem overly cautious or inhibited about what they put on paper?			
Other observations:			

**Considerations:**

After about 10 minutes, support any student who struggles to start by asking questions such as:

- Q *What animal could you write about?*
- Q *What sensory details can you write to describe what [a cat] looks like? Sounds like? Feels like?*
- Q *What words can you use to describe how that animal moves?*

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>Are the students able to revise their drafts to include sensory details and/or sounds?</li> </ul>			
<ul style="list-style-type: none"> <li>Are they thinking about what their poems look like on the page?</li> </ul>

**Considerations:**

Support any student who struggles by asking questions such as:

- Q *What were you thinking about when you marked this place on your draft?*
- Q *What words could you add to help the reader [see/hear/smell/taste/feel] what you're writing about?*
- Q *Read your poem aloud. What sounds do you hear? Do those sounds help readers understand what your poem is about? If not, what sounds might make sense in your poem?*
- Q *What do you want your poem to look like on the page? How can you arrange the words so it looks like that?*

Student's Name: \_\_\_\_\_ Date: \_\_\_\_\_

Ask each student to show you a draft of a poem and to read it aloud to you.

As you listen to the student, ask yourself:	Yes	No	Not evident	Evidence:
▪ Is this student attempting to write a poem, rather than a story?				
▪ Does this student include sensory details in his or her poem?				
▪ Does the student include other elements of poetry?				

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What are you thinking about how your poem looks on the page?*
- Q (Beginning Week 2, Day 1) *Where in your poem might you repeat words? How might that help a reader understand your poem?*
- Q (Beginning Week 2, Day 4) *Have you decided to punctuate your poem with periods and to use capital letters? If so, are you doing this all the way through your poem? If not, what are you doing instead?*

## Thoughts About My Poem

Things to look for in my writing:	I did it!	I did it some of the time.	I'm still working on it.
▪ I wrote a poem instead of a story.			
▪ My writing is fun and interesting.			
▪ I used interesting words to describe how things look, feel, sound, taste, and smell.			
▪ The sound and shape of my poem help readers know what it is about.			
▪ I have proofread my writing. I checked for: <ul style="list-style-type: none"> <li>- spelling</li> <li>- following or not following the rules of punctuation and capitalization across my whole poem</li> </ul>			

### Reflection:

- What did you do to make your writing fun and interesting to read?
  
  
  
  
  
  
  
  
  
  
- What did you enjoy about Writing Time during this unit?

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “Individual Writing Assessment” record sheet (IA1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 160.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 154 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

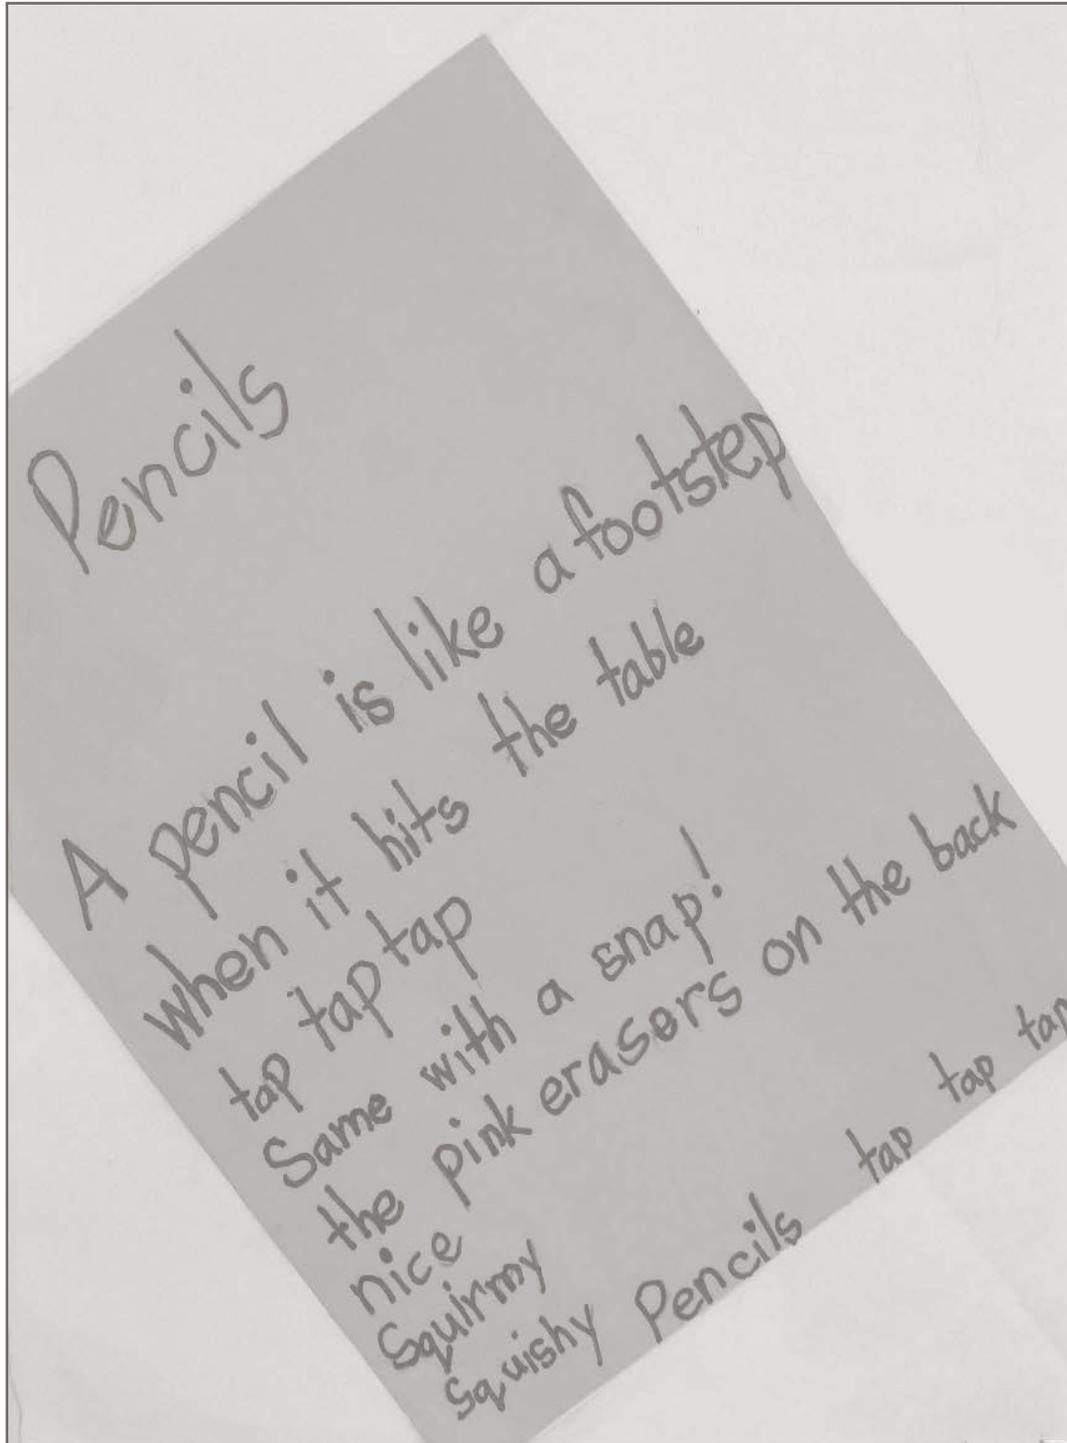

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

**Commentary:** It is clear from the title and content of this piece that it is a poem about pencils. The poem is rich in sensory details that evoke the look, sound, and feel of pencils and their erasers (*tap tap tap; snap; pink erasers on the back; squirmy; squishy*). The author does a particularly good job of incorporating sound into the poem by employing techniques including onomatopoeia (*tap; snap*), repetition (*tap tap tap*), and alliteration (*same; snap; squirmy; squishy*). The decision to leave the poem mostly unpunctuated calls attention to the single punctuated line in the middle (*Same with a snap!*), which also stands out because it describes a loud sound (*snap!*) generated by an otherwise quiet object (*like a footstep; tap tap tap*). This, along with the strong first and last lines (*A pencil is like a footstep; Pencils tap tap tap*), make for a poem that is cohesive and well-balanced. The author's success in making a mundane object come alive demonstrates individual expression and creativity.

**Commentary:** The title of this poem makes it clear it is about a dinosaur, as can be guessed from clues in the poem (*I have big teeth; I am the king; I am everything's enemy*) and as is stated directly in the last line (*I am T-Rex*). The first-person voice adds an element of personification to the poem, but that is the extent to which the author writes about the dinosaur as if it were a person. Going one step further to include details about how T-Rex thinks and feels would have shown greater creativity and added interest to the poem. The author incorporates some sensory details, most of which describe the dinosaur's appearance (*big teeth; forty feet long; black; teeth are red*). Vocabulary is appropriate but somewhat flat, leaving a reader wishing the author had included more words as interesting as *bloodthirsty*. All spelling and punctuation are conventional and correct.

**Commentary:** The title of this poem tells us that it is about a pop star, but the first line (*I am a fashion designer*) causes momentary confusion (is the pop star also a fashion designer, or is the speaker momentarily switching personae?). The form of the piece and the repetition of *I am* distinguish it as a poem, though it reads more like a list of facts told in first person. The use of the first person suggests that the author might be making an attempt at personification without fully understanding that personification is a way to write about things, not people. There are no sensory details in the poem, and the descriptions the poet gives of the pop star are somewhat unimaginative (*good singer, dancer, famous, rich*). All words are spelled correctly, and punctuation is conventional and correct.

## Part B: Published Writing

The bulleted items in Part B identify instruction in this unit that address particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

## Revisiting The Writing Community

End-of-year Writing Sample (WS2) .....	164
Class Assessment Records (CA1-CA2).....	168
Conference Notes (CN1) .....	170

## Obtaining an End-of-year Writing Sample

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “End-of-year Writing Sample Record” sheet (WS2) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 166. Review the questions on the record sheet to help you prepare to analyze each student’s work.
- ✓ Plan to provide enough time for the students to complete the writing sample. You might base the amount of time on your school district’s requirements for similar writing tasks or simply provide your students with the time they need to complete their writing.
- ✓ Gather any additional materials needed to complete the writing task (for example, dictionaries, extra pencils, crayons, or markers) and make them available to your students.
- ✓ Write the following prompt where everyone can see it: *Think about a time in your life when you were very happy. Write a story about that very happy time.*

### CONDUCTING THE ASSESSMENT

1. Tell the students that today they will each write a piece that shows what they know about good writing. Explain that the students should try to do their best writing in this piece.
2. State your expectations for how the students will behave while you are conducting the assessment (for example, students should stay in their seats, work silently, and raise their hands if they have questions). You might also tell the students what additional resources, if any, they can use as they write (such as drawing materials or a dictionary).
3. Direct the students’ attention to the prompt and explain that they will all write about this topic. Give the students a few moments to read the prompt.
4. Give the students a few moments to think about what they will write. (If you are conducting this assessment as a timed writing activity, tell the students how much time they will have to complete their writing and that you will let them know when they have 10 minutes remaining.)
5. Distribute writing paper and have the students begin.
6. Signal the end of the writing period and collect the students’ writing.

(continues)

## ANALYZING THE ASSESSMENT

For each student's writing sample:

1. Read the piece carefully. As you read, think about the questions on the “End-of-year Writing Sample Record” sheet (WS2) and record your observations. Make note of any writing conventions that the student uses consistently or inconsistently, and indicate which, if any, grade-level skills are absent from the writing.
2. Review the student's beginning- and end-of-year writing samples. Compare your comments on the student's “Beginning-of-year Writing Sample Record” sheet (WS1) from Unit 1 with those on the “End-of-year Writing Sample Record” sheet (WS2) to see how the student's writing has improved over the year.
3. Attach the completed record sheet to the writing sample and file it in the student's individual assessment folder. Consider passing the folder along to the student's teacher for next year.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>Are the students able to explain why they marked a piece as their best, most fun, or most challenging?</li> </ul>			
<ul style="list-style-type: none"> <li>Do they refer to their first drafts or other steps in the writing process in talking about their pieces?</li> </ul>			
<ul style="list-style-type: none"> <li>Do they listen carefully to each other?</li> </ul>			
<p>Other observations:</p>			

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>Do the students write confidently about ways to be a good writer?</li> </ul>			
<ul style="list-style-type: none"> <li>Do students who seemed cautious or inhibited about their writing early in the year write more freely now?</li> </ul>

<p>Other observations:</p>			

Student's Name: \_\_\_\_\_ Date: \_\_\_\_\_

Ask the student to show you his or her marked pieces of writing and briefly tell you about each one. Help the student think about what it was like to write these pieces and how he or she has grown as a writer this year. Ask the student questions such as the following and record his or her responses:

Q *Which piece did you mark as your [best/most fun/most challenging]? Why?*

Q *What do you remember about working on this piece?*

Q *How do you feel about your writing?*

Q *How do you feel when you are asked to read your own writing to the class?*

Q *What did you like writing about this year?*

Q *What do you do best as a writer?*

Q *How do you think you have changed as a writer this year?*

Q *What are some things you might want to write about this summer?*

# Acknowledgments

Many people were involved in the development of the *Guided Spelling™* program, and we are grateful for their time, expertise, suggestions, and encouragement. We are particularly indebted to the teachers who piloted portions of the program; they took time and care in preparing to teach the lessons, gave us insights into the ways the program benefited their students, and provided comments and suggestions about program usability for teachers. Their cooperation and expert feedback have been invaluable.

# Introduction

Becoming a good speller involves more than simply memorizing words and passing tests. Both in and out of school students will need to spell and write many more words than they can possibly memorize. It is critical for them to know how to approach words that they have not learned for spelling tests. Knowledge about spelling empowers students to spell independently.

The *Guided Spelling* program is a curriculum designed for grades 1–6 with the primary goal of developing knowledgeable, independent, and *thoughtful* spellers. Thoughtful spellers know the content of English spelling: they know how to segment and spell by sounds, recognize patterns within words, add inflections, spell by syllables, add prefixes and suffixes, and apply morphemic spelling knowledge.

- **Segmenting and spelling by sounds**, for example, segmenting /săt/ into its spelling-sounds—/s/+/ă/+/t/—and spelling the word *sat*
- **Recognizing patterns within words**, for example, knowing that the sound /ō/ can be spelled **o\_e** as in *home*, **oa\_** as in *loan*, or **ow** as in *glow*
- **Adding inflections**, for example, doubling the **p** in *hop* and adding **ed** to get *hopped*, or dropping the **e** in *hope* and adding **ing** to get *hoping*
- **Spelling by syllables**—breaking words like *Friday* and *middle* into syllables and pronouncing the syllables in ways that reflect their spelling
- **Adding prefixes and suffixes**, for example, adding *dis-* to *connect* to get *disconnect* or adding *-less* to *color* to get *colorless*
- **Applying morphemic spelling knowledge**, for example, knowing that the word *construction* is related to the word *construct*, so the final syllable is spelled *-tion*

Thoughtful spellers have also memorized the spelling of many words, especially high-frequency words (such as *mother*, *toward*, and *laugh*) and spell them automatically in their writing.

Finally, thoughtful spellers use all of their spelling knowledge in a metacognitive and deliberate manner. They anticipate the pitfalls of English. They know which spelling strategies to use in particular situations. They know when they don't know how to spell a word, and they know what resources to consult for assistance.

There is no substitute for thoughtful spelling. Computer spell-checkers fail to recognize a significant portion of misspellings; they often fail to offer the correct spelling for the intended word; and a weak speller is frequently unable to select the right spelling from the list the spell-checker provides (MacArthur et al. 1996; Pedler 2001).

The *Guided Spelling* program is specifically designed to support the development of thoughtful spellers through 15-minute daily lessons that are teacher-directed, multisensory, and interactive.

## ► **How the *Guided Spelling* Program Works**

At the heart of the *Guided Spelling* program is the daily guided spelling activity in which the students apply the spelling strategies they are learning by writing words as the teacher provides support and guidance. For each word spelled, the teacher follows three steps: (1) first, the teacher introduces the word; (2) second, the teacher provides guidance while the students spell the word; and (3) finally, the teacher provides feedback and the students correct any misspellings.

When introducing each word, the teacher pronounces the word and uses it in a sentence so that the students hear the word in context. Then the class repeats the word. Speaking the word aloud makes students more aware of the sounds in the word.

The teacher then provides guidance to help the students think about how to spell each word correctly. Before and while the students write a word, the teacher provides information that helps them think about how to approach the most challenging parts of the word. For example, in grade 3, teacher guidance often focuses on how to change the base word when an ending is added, such as changing **y** to **i** before adding **ed**. Teacher guidance encourages students to do the thinking as they become increasingly aware of the decisions they need to make when spelling a word. Extensive explanation and modeling by the teacher ensure that the students understand the principles they are applying.

Once the students have written the word, they read and spell it aloud as the teacher writes it correctly on the board. Students then check their own work and correct any misspellings.

In guided spelling, students respond in unison to questions. Choral responses are very important in the teaching of spelling because spelling is strongly influenced by the writer's pronunciation: as students repeat the teacher's pronunciation, they learn the pronunciation that helps them spell. Choral responses also elicit a high level of student engagement by encouraging the participation of students who lack confidence and would not take the risk of responding individually. Finally, choral responses give the teacher an opportunity to assess student understanding on an ongoing basis.

The *Guided Spelling* lessons follow a weekly pattern: The teacher introduces the week's words on the first day, leads the students in guided spelling on Days 1–4, and gives a spelling test on Day 5. Every sixth week is a review week, and includes a pretest, a proofreading exercise, partner study time, a whole-class spelling discussion, and an end-of-week test. A five-day week for spelling is strongly encouraged, especially for students who are struggling. If the school schedule or other factors prevent a five-day-per-week spelling program, Day 4 of each week may be omitted.

Through this process, students learn spelling strategies in a safe, noncompetitive atmosphere. Teacher guidance promotes thoughtfulness and accuracy, while the program's multisensory elements create links among hearing, seeing, saying, and writing word parts and words. Because it assures success, *Guided Spelling* leads to student self-confidence and enthusiasm for spelling.

## ► Features of the Program

### Research-based Instruction

The content and teaching methodology used in the *Guided Spelling* program are based on extensive research in spelling content and how students learn. For more information, refer to the section "Research Basis for *Guided Spelling*" on page 463.

### Strategies for Morphemic Spelling

In the *Guided Spelling* program, the students use the structure of words to help them spell. They learn the generalizations for adding suffixes (including inflectional endings), such as doubling the last consonant and dropping *e*. They spell common prefixes, base words, and suffixes. They learn to use related words as spelling

(all, beginning on page viii and  
continuing on to page ix)

clues; for example, *colony* is a clue for *colonial*. In grades 5 and 6, the students spell words with Greek and Latin roots such as *uni*, *medic*, *soci*, and *gress*.

## Strategies for Spelling Polysyllabic Words

In grades 3–6 of the *Guided Spelling* program, the students learn strategies for spelling polysyllabic words. Polysyllabic words are difficult because the pronunciation of a word does not always reflect the written syllables. For example, we pronounce *happy* as /hă-pē/, but the written syllables are *hap-* and *-py*. Polysyllabic words usually have at least one unaccented syllable with a vowel that is often difficult to spell, as in *benefit* and *separate*. In the *Guided Spelling* program, students spell base words by syllables and learn to focus on schwas and other unaccented vowels. They gain extensive experience with syllable boundaries and syllable types. In grades 4–6 they spell common syllables and word parts such as *-ture*, *-ence*, and *-able*.

## Strategies for Spelling Think, Pattern, and Sight Words

The *Guided Spelling* program provides students with strategies for spelling the different types of words they will need in their writing. For example, when the students know consonant and short vowel sounds, they can spell most short vowel words without memorizing them. After they learn the generalizations for inflectional endings, they can also spell hundreds of words like *stops*, *stopped*, *filled*, *ended*, and *dishes*. In the *Guided Spelling* program, words that can be spelled without memorization are referred to as “think words.”

For words that include sounds that have more than one common spelling (“pattern words”), students must memorize which spelling to use. For example, *coat* has the common spelling **oa** for the sound /ō/, but **o\_e** and **ow** are also common spellings for the sound /ō/. The speller who knows all the common spellings of the sound /ō/ has an advantage in spelling, but still must memorize which spelling is correct for each word. Pattern words are first introduced in grade 2 of the *Guided Spelling* program.

Students will also encounter irregular words, or “sight words,” that have letters or letter combinations that represent sounds in uncommon ways. When writing the word *been*, for example, spellers might be tempted to spell it *bin* or *ben* (depending on

how they pronounce the word); they must learn that *been* is an irregular word and remember that *been* is spelled **b-e-e-n**. Strategies for memorizing sight words are taught and practiced throughout the *Guided Spelling* program. (For more information, see “Instruction in Memorization,” below.)

## **Support for Phonemic Segmentation**

Grade 1 of the *Guided Spelling* program includes extensive instruction in phonemic segmentation. Many beginning spellers have a difficult time perceiving the sounds in a word. They don’t realize, for example, that the word *sat* is made up of the sounds /s/ + /ă/ + /t/. Students receive a great deal of support in identifying each sound (phoneme) in a word and learning how to write the letters in sequence.

## **Instruction in Memorization**

Methods for memorizing words are taught explicitly in the *Guided Spelling* program through modeling, practice of memory steps, and instruction in how to study. In addition, beginning in grade 2 of the program, the students learn to use mnemonics (memory aids) and also keep records of words they’ve missed so they’ll know which words they particularly need to study.

## **High-frequency Words**

The high-frequency words the students memorize in the *Guided Spelling* program were selected from studies of high-frequency words in school reading material (Carroll, Davies, and Richman 1971; Zeno et al. 1995). By the end of grade 3, students who understand the spelling concepts and have memorized the weekly words will be able to spell most of the single-syllable words in the 1,000 most frequent words cited by these studies.

## **Frequent Review**

Spelling concepts and specific words are reviewed multiple times in the *Guided Spelling* program. Each new spelling concept is emphasized during guiding for two weeks and appears in future lessons as well. Every word to be mastered is studied for two consecutive weeks and then again in the review week.

## **Differentiated Instruction**

*Guided Spelling* is designed for whole-class instruction; the structure of the program allows students at different levels to learn together. Instruction may also be differentiated, beginning in grade 2, to meet the needs of students struggling with grade-level content and those who need an extra challenge. Such individual

needs can be met by varying the number of words studied each week. In the “Words Used This Week” list at the beginning of each week, stars indicate words for below-grade-level spellers; students who are struggling can concentrate on studying just these words. Extra “challenge” words are also provided for advanced spellers.

## **Support for English Language Learners**

English Language Learners (ELLs) face many challenges in spelling. The spelling strategies taught in the *Guided Spelling* program are particularly helpful to English Language Learners. The program provides students with the concepts underlying English spelling, including the inflectional endings (such as **s**, **ed**, and **ing**) that are so difficult for English Language Learners. Research suggests that English Language Learners benefit from systematic, explicit instruction such as that provided by *Guided Spelling* (see page 464). Interactive instruction during the daily guided spelling activity offers many opportunities for students to apply the concepts they’ve learned and receive immediate feedback.

In addition, English Language Learners have many opportunities to hear and speak spelling words aloud. By stressing the relation between spelling and pronunciation, *Guided Spelling* helps students develop in both areas simultaneously.

## **Notes About Regional Dialect and Pronunciation**

Students realize early in their schooling that there is not an exact correspondence between words as pronounced and words as spelled. Speakers of some regional dialects face a challenge when the spelling curriculum does not reflect their pronunciation. For example, most spelling programs, including *Guided Spelling*, teach **w** and **wh** (as in *weather* and *whether*) as representing different sounds, but many American English speakers pronounce them identically. The same is true for short **e** and short **i** (as in *pen* and *pin*) and short **o** and **aw** (as in *lot* and *law*). Notes about regional variations are included throughout the *Guided Spelling* program in the “Teacher Background” sections at the beginning of each week’s lessons.

## **Support for Transferring Spelling Knowledge to Writing**

It is essential for students to be able to transfer their spelling knowledge to their writing. To do so, students must be able to apply the concepts they have learned in spelling lessons to words that they have not encountered in class. Every day in the *Guided*

*Spelling* program, students practice a variety of different spelling strategies that prepare them to spell new words. During daily guiding, students practice using these strategies on words beyond the weekly words to be mastered. Similarly, the weekly tests include “application words”—words that the students have not been explicitly taught but that they can figure out by applying the spelling concepts they have learned. (This helps teachers assess whether their students are understanding the spelling concepts being taught.) Students practice a variety of spelling patterns daily, and with teacher guidance they become increasingly self-sufficient.

At grade 3, the *Guided Spelling* program incorporates class discussions that raise awareness of how to spell correctly when writing. Students are provided with a “dictionary and personal word list” at the back of the *Student Spelling Book*, which allows them to look up words as they proofread their writing, and record words they have misspelled.

## **Assessment**

Assessment occurs through weekly spelling tests and teacher observation of student work during the daily guided spelling period. The *Teacher’s Manual* supports teachers in interpreting student progress and test performance and adapting instruction for group and individual needs that may arise.

## **Detailed Teacher’s Manual**

The *Guided Spelling Teacher’s Manual* provides strong support for teachers. The guiding procedures are shown in detail for the first two weeks and throughout the year when new material is introduced. At the beginning of each week in the *Teacher’s Manual* is an introduction that summarizes the new content, provides background and advisory notes, and lists all the words in the week’s lessons. Lessons are easy to implement and are written in step-by-step detail to support both teachers and students. A separate book of blackline masters supplies reproducible homework for each week.

## **Student Spelling Books**

The *Student Spelling Book* for grade 3 includes a page at the beginning of each week with the week’s new words and a

sentence for each, plus review words from the previous week. There is also a page for each day's guided spelling lesson and an optional enrichment activity at the end of each week. These optional activities reinforce spelling concepts and encourage the students to apply their knowledge beyond their guided spelling practice to activities such as word sorting. The activities can be done individually or with a partner. A “dictionary and personal word list” is provided at the back of the *Student Spelling Book*.

## Spelling-Sound Chart

The spelling-sound chart, provided with the *Guided Spelling* program at grades 3–6, plays a critical role in helping students organize the complexities of spelling and phonics. Most of the items on the chart represent spelling-sound correspondences, with each item representing one sound and listing common spellings for that sound. The illustration serves as a mnemonic to help students easily locate the spelling or spellings they are looking for. For example, the item with the illustration of the bone represents the long **o** and shows the common spellings for the sound /ō/: **o\_e**, **oa\_**, **ow**, and **o**. The blanks show where other letters occur when the sound has that spelling. For example, when the sound /ō/ is spelled **oa**, one or more consonants will usually follow. When we hear the sound /ō/ at the end of a word, in most cases it will not be spelled **oa**. Hence the spelling on the chart is **oa\_**.

There are also three items on the chart that represent possessives: “girl’s hat,” “cats’ dish,” and “men’s dog.”

The chart should be posted in a location where it is visible to all students and the teacher can conveniently point to each item on the chart.

At each grade, the students also master the spelling of many high-frequency words: 30 irregular words at grade 1; 100 regular words and 100 irregular words at grade 2; 200 regular words and 100 irregular words at grade 3; and 375 words in each grade at grades 4, 5, and 6.

At grades 2 and 3, students learn to spell homophones, compound words, contractions, and numbers. At grade 3, they are also introduced to spelling abbreviations, weekdays, and months. At grades 4–6, the students review contractions and other frequently misspelled words. At grades 4 and 5, they learn to spell unusual plurals. At grades 4–6, word history is frequently included in the guided spelling lessons.

## ► **Grade 3 Content**

In grade 3 of the *Guided Spelling* program, the students learn vowel patterns in both single-syllable and polysyllabic words. They spell endings that involve doubling the final consonant, dropping **e**, changing **y** to **i**, and forming possessives. Students learn strategies for spelling and memorizing single-syllable, polysyllabic, and irregular words. They master 200 regular words and 100 irregular words.

### **Phonemic Spelling Knowledge**

- Consonant digraphs and clusters, for example, *kept*, *drip*, *match*, *bridge*
- Short vowels, for example, *flat*, *fresh*, *which*, *box*, *must*
- Long vowel-consonant-**e**, for example, *phone*, *nine*, *strange*
- Vowel digraphs, for example, *mean*, *stood*, *south*, *wait*
- **r**-controlled vowels, for example, *under*, *bird*, *burn*, *large*, *forty*
- Introduction to types of syllables, for example, *under*, *October*, *inside*, *during*, *fifteen*, *simple*, *operation*

### **Morphemic Spelling Knowledge**

- Adding **s** and **es**, for example, *facts*, *passes*, *dishes*
- Doubling the final consonant before adding endings, for example, *planned*, *sitting*
- Adding **s**, **ed**, and **ing** to final-**e** words, for example, *shapes*, *chased*, *writing*

- Adding endings to words that end with consonant-y, for example, *puppies*, *cried*, *flying*
- Spelling possessives, for example, *boy's*, *girls'*, *men's*
- Introduction to prefixes and suffixes, for example, *re-*, *un-*, *-ly*, *-ful*

### Spelling Strategies

- Spelling think words, for example, *scratches*, *clapping*, *stayed*, *cat's*, *tries*
- Spelling pattern words, for example, determining which spelling of /ā/ to use in *main*, or which spelling of /ī/ to use in *fine*
- Spelling irregular words by letter name, for example, *guess*, g-u-e-s-s; *climb*, c-l-i-m-b
- Spelling polysyllabic words, for example, *fifty* → *fif-ty*; *over* → *o-ver*

### Other Spelling Knowledge

- Homophones, for example, *tail/tale*, *knew/new*, *week/weak*
- Compound words, for example, *anywhere*, *thunderstorm*
- Contractions, for example, *who's*, *she'll*
- Abbreviations, for example, *St.*, *Wed.*, *Aug.*
- Weekdays, for example, *Wednesday*, *Saturday*
- Months, for example, *February*, *December*
- Numbers, for example, *fourteen*, *twenty*

## ► Using Guided Spelling with Other Programs from Center for the Collaborative Classroom

---

The *Guided Spelling* program is the spelling component of a complete set of language arts curricula developed by Center for the Collaborative Classroom (CCC) and can be integrated with any of the programs described below. For complete information on Collaborative Classroom's programs, visit our website at [collaborativeclassroom.org](http://collaborativeclassroom.org).

## **SIPPS**

The *Guided Spelling* program may be used in conjunction with CCC’s *SIPPS*® program (Systematic Instruction in Phonological Awareness, Phonics, and Sight Words). *SIPPS* is a decoding program that includes brief daily spelling instruction. When *SIPPS* is used with *Guided Spelling*, the spelling portion of the *SIPPS* lessons may be replaced with *Guided Spelling*.

## **Being a Writer**

The *Being a Writer*™ program is a yearlong curriculum for grades K–6 designed to help each student develop the creativity and skills of a writer. *Being a Writer* provides inspiration and motivation and a clear scope and sequence to develop students’ intrinsic desire to write regularly and to help students build a full understanding and appreciation of the craft and conventions of writing. The *Being a Writer* program provides students with ample opportunities to use their spelling skills while advocating teacher acceptance for “invented” spellings in the early grades.

## **Making Meaning**

The *Making Meaning*® program is a classroom-tested K–6 reading comprehension curriculum that combines the latest comprehension research with support for students’ social and ethical development. It uses read-aloud books to teach students nine different comprehension strategies while also developing their social values to create a supportive community of readers.

The *Vocabulary Teaching Guide* provides 30 weeks of vocabulary instruction that build students’ word knowledge, supplementing and supporting the reading comprehension lessons in the *Making Meaning Teacher’s Manual*. The students learn high-utility words found in or relating to the read-aloud texts. The lessons combine direct instruction in word meanings with activities that require the students to think about the words and use them as they talk with their partners and the class. Students also learn independent word-learning strategies, such as recognizing words with multiple meanings and using context and prefixes and suffixes to figure out word meanings.

## Short Vowels **a**, **e**, and **i**; Consonant Digraphs **th**, **ch**, **sh**, and **wh**

### ► New Content

---

The sound /ă/ as in *cat* is spelled **a**.

The sound /ĕ/ as in *let* is spelled **e**.

The sound /ĭ/ as in *sit* is spelled **i**.

The sound of voiced /th/ as in *this* and *them* is spelled **th**.

The sound of unvoiced /th/ as in *thin* and *think* is spelled **th**.

The sound /ch/ is usually spelled **ch**, as in *chip*.

The sound /sh/ as in *dish* is spelled **sh**.

The sound /wh/ as in *whether* is spelled **wh**.

The sound /k/ after a short vowel in a one-syllable word is spelled **ck**.

### ► Teacher Background

---

**ELPS 4.C.i**  
Teacher Background Section  
(all, beginning on page 1 and  
continuing on to page 3)

Weeks 1 to 3 provide a review of basic spelling concepts from grades 1 and 2.

Note the following about this week's content:

- A consonant digraph is a consonant combination that makes a single sound, for example, **sh** and **th**.
- The spelling **th** has two sounds. One is voiced, as in *this* and *them*. The other is unvoiced, as in *thin* and *think*. The mouth formation for the two sounds is identical, but the vocal cords vibrate when pronouncing the voiced /th/ sound.
- The sound /ch/ spelled **tch** is taught in Week 7.
- In some regional dialects, **wh** and **w** are pronounced the same: /w/. For more information, see “Notes About Regional Dialect and Pronunciation” on pages x–xi of the front matter.

The *Guided Spelling* program is structured to introduce the students gradually to the weekly and daily procedures for guided spelling. On Days 1, 2, and 3 of Week 1, the students will write fewer words than they will in later lessons so they can practice and get used to the basic steps for spelling and correcting words before doing a full lesson.

During each lesson, you will write each word correctly to help the students check their work. You can use either the board or a projector for this. Whichever you use, make sure all the students can see easily. If you are using a projector, you can make a transparency of the reusable form on *Blackline Masters* page 1. If you are using the board, you will need to write numbers on the board before each lesson (see the “Teacher Background” section at the beginning of each lesson).

During the lessons, you will frequently ask the students questions to guide them through the steps to correct spelling. We recommend that the class give choral responses to your questions. For “yes” and “no” responses, you may opt to have the students use a nonverbal response such as “thumbs up” or “thumbs down.”

We suggest that you teach the lessons at a fairly quick pace. If some of the students make a mistake in a response, simply tell the class the correct answer and then repeat the question.

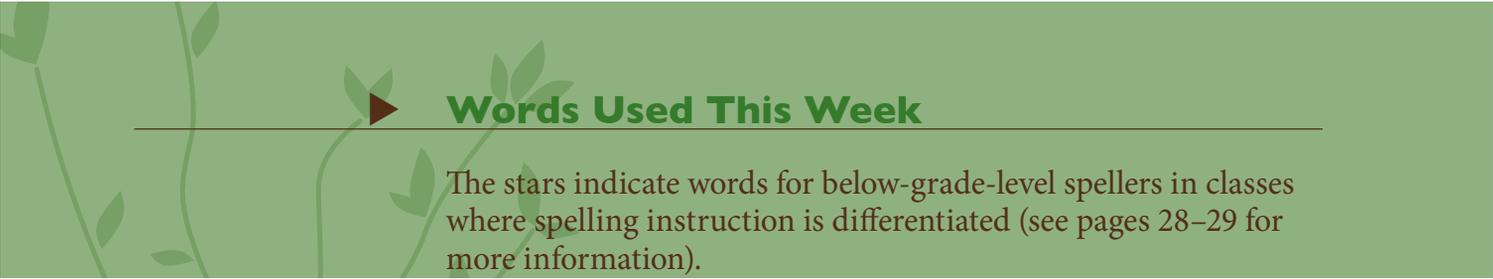

In addition to the main content of the spelling lessons (described in the “New Content” section each week), the *Guided Spelling* program includes additional “guiding points” (content in addition to the major focuses of each week). A comprehensive list of these guiding points appears in the “Scope and Sequence” chart on pages 468–472. One guiding point, in addition to those in the “New Content” list, is introduced this week: the sound /s/ at the end of a one-syllable word is often spelled *ss*, as in *pass*.

During this week’s pre-spelling activities, you will focus on using the spelling-sound chart to help spell short vowel sounds.

An optional spelling activity is provided for the students each week in the *Student Spelling Book*. This enrichment activity reinforces spelling concepts, encourages the students to apply their knowledge beyond the words they write during guided spelling, and increases their interest in spelling. The activity for Week 1, found on *Student Spelling Book* page 8, focuses on words with short *e* and short *i*. This activity may be done independently or as partner work. If the students have a hard time thinking of words, they may look back at the words they wrote during guided spelling.

In the introduction to each week, there is a chart entitled “Words Used This Week” (see page 4 for an example). This chart contains a list of all words used in the week’s lessons for your reference:

NEW PATTERN AND THINK WORDS	Eight new pattern and think words are introduced each week (except during review weeks). “Pattern words” have sounds with more than one common spelling and must be memorized. For example, in <i>add</i> the final sound /d/ is spelled <b>dd</b> and must be memorized. “Think words” can be spelled without memorization. For example, when the students learn to spell the consonants and short vowel sounds, they will be able to spell many words like <i>led</i> and <i>box</i> without memorizing them. The students will be tested on new pattern and think words at the end of the week they are introduced, beginning in Week 2.
NEW SIGHT WORDS	Four new sight words are introduced each week (except during review weeks). “Sight words” are irregular words with letters that represent sounds in uncommon ways, such as <i>cold</i> and <i>full</i> . Sight words must be memorized. The students will be tested on new sight words at the end of the week they are introduced, beginning in Week 2.
REVIEW PATTERN AND THINK WORDS	These are the pattern and think words that were introduced in the previous week. The students will review these words and be tested on two of them at the end of the week.
REVIEW SIGHT WORDS	These are the sight words that were introduced in the previous week. The students will review these words and be tested on two of them at the end of the week.
CHALLENGE WORDS	These words are for your advanced spellers to memorize if you are differentiating instruction.
APPLICATION WORDS ON THE TEST	These are words that appear on the test that have not been announced in advance. The purpose is to assess the students’ knowledge of the spelling concepts taught.
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	These are words that the students will write during guided spelling to practice the concepts being taught in the week’s lessons. The students will not be tested on these words.

# Week 1 Day 1

## ► Teacher Background

Each week on Day 1 you will use the following procedure to introduce the eight new pattern and think words (see “Words Used This Week” on page 4):

- Have the class read each word and sentence with you.
- Point to the related picture on the spelling-sound chart and explain the spelling.

The four new sight words will be introduced this week on Day 3. In subsequent weeks they will be introduced on Day 1.

During guided spelling in this day’s introductory lesson, the students will write four of the new words. If you are using a projector, make a transparency of the reusable form (*Blackline Masters* page 1). If you are using the board, number from 1 to 4.

During guided spelling you will frequently tell your students that if they aren’t sure how to spell part of a word they should raise their hand to ask you. This encourages the students to be aware of *when they don’t know something*—an important metacognitive skill in spelling. You can either respond to their questions orally or write the answers on the board.

If you have not already done so, post the spelling-sound chart in your classroom where all the students can see it easily.

Using the Spelling-Sound Chart (all, beginning on page 5 and continuing on to page 6)

## ► Pre-spelling: Using the Spelling-Sound Chart

The “cat and chair” pictures remind us how to spell the short vowels.

a \_ \_ \_ \_

- Point to **a**\_ on the spelling-sound chart.

The cat is at the chair. This picture helps you spell the short vowel sound /ă/, as in at.

e \_ \_ \_ \_

- Point to **e**\_ on the chart.

The cat is at the edge of the chair. This picture helps you spell the short vowel sound /ĕ/, as in edge.

i \_ \_ \_ \_

- ▶ Point to **i**\_ on the chart.

The cat is in the chair. This picture helps you spell the short vowel sound /ĭ/, as in *in*.

o \_ \_ \_ \_

- ▶ Point to **o**\_ on the chart.

The cat is on the chair. This picture helps you spell the short vowel sound /ŏ/, as in *on*.

u \_ \_ \_ \_

- ▶ Point to **u**\_ on the chart.

The cat is under the chair. This picture helps you spell the short vowel sound /ŭ/, as in *under*.

a \_ \_ \_ \_

- ▶ Point to **a**\_ on the chart.

Where is the cat? (Students: at the chair) Sound? (Students: /ă/)

i \_ \_ \_ \_

- ▶ Point to **i**\_ on the chart.

Where is the cat? (Students: in the chair) Sound? (Students: /ĭ/)

e \_ \_ \_ \_

- ▶ Point to **e**\_ on the chart.

Where is the cat? (Students: edge of the chair) Sound? (Students: /ĕ/)

o \_ \_ \_ \_

- ▶ Point to **o**\_ on the chart.

Where is the cat? (Students: on the chair) Sound? (Students: /ŏ/)

u \_ \_ \_ \_

- ▶ Point to **u**\_ on the chart.

Where is the cat? (Students: under the chair) Sound? (Students: /ŭ/)

hill \_ \_ \_

I'll write *hill*.

- ▶ Write **h** on the board.

Which picture shows the sound /ĭ/? (Students: in the chair)

How do I spell the sound /ĭ/? (Students: i)

- ▶ Finish writing *hill*.

yet \_ \_ \_

I'll write *yet*.

- ▶ Write **y** on the board.

Which picture shows the sound /ĕ/? (Students: edge of the chair)

How do I spell the sound /ĕ/? (Students: e)

- ▶ Finish writing *yet*.

## ► Introduce This Week's Words

► Distribute a *Student Spelling Book* to each student. Have the students write their name on the inside front cover.

Open your spelling books to page 3. On the first page of every week you will see the words that you will learn. There is a sentence for each word. Read the words and sentences with me for numbers 1–8.

1. add — — —

Number 1: add. When I add blue paint to yellow, I get green.

► Point to the “at the chair” picture on the spelling-sound chart. The “at the chair” picture is for the sound /ă/.

Each week I will tell you which parts may be hard to learn, and you will underline them in your spelling books. Find the word *add* that is next to number 1. The sound /d/ in *add* is spelled **d-d**. Underline **d-d**.

2. led — — —

Number 2: led. The girl with the red hat led the way.

► Point to the “edge of the chair” picture.

The “edge of the chair” picture is for the sound /ě/.

3. with — — —

Number 3: with. He came to school with his sister.

► Point to the “in the chair” picture.

The “in the chair” picture is for the sound /ĩ/.

► Write **th** on the board. Point to **th**.

The sound /th/ is spelled **t-h**.

4. rich — — —

Number 4: rich. The rich king had gold and silver.

► Write **ch** on the board. Point to **ch**.

The sound /ch/ is usually spelled **c-h**. Find the word *rich* that is next to number 4. Underline **c-h**.

5. fresh — — —

Number 5: fresh. Eat fresh fruits and vegetables.

► Write **sh** on the board. Point to **sh**.

The sound /sh/ is spelled **s-h**.

6. which — — —

Number 6: which. She wondered which book to choose.

► Write **wh** on the board. Point to **wh**.

The beginning of *which* is spelled **w-h**.

7. thick — — —

Number 7: thick. They put on a thick coat of paint.

The sound /k/ after a short vowel is spelled **c-k**.

8. check

Number 8: check. We will all check our work.

## ► Guided Spelling

Turn the page. You are now on page 4. I'm going to say each word, and you will write it, but this is not a test. I will help you think about each word so that you write it correctly. If you aren't sure how to spell a word, raise your hand to ask me for help.

1. add

Number 1: add. When I add blue paint to yellow, I get green. Say *add*. (Students: add)

If you aren't sure how to spell the short vowel sound /ă/, look for the cat at the chair. Be careful here. The last sound is /d/. In *add* the sound /d/ is spelled **d-d**. Write *add*.

In guided spelling you will check each word after you write it. This is how you will check your work: Everyone will read and spell the word together. You will point under each letter as you spell.

► Tell the class how you want them to point to each letter (e.g., use their finger, pencil point, or eraser).

Let's practice. Read and spell *add*. (Students: add, a-d-d) Let's practice again, and as you read and spell, I will write the word.

► At number 1, write *add* as the students read and spell. (Students: add, a-d-d)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

2. led

Number 2: led. The girl with the red hat led the way. Say *led*. (Students: led)

If you aren't sure how to spell the short vowel sound /ĕ/, look for the cat at the edge of the chair. Write *led*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 2, write *led* as the students read and spell. (Students: led, l-e-d)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

3. with

Number 3: with. He came to school with his sister. Say *with*.  
(Students: with)

If you aren't sure how to spell the short vowel sound /ĭ/, look for the cat in the chair. If you aren't sure how to spell the sound /th/, raise your hand to ask me. Write *with*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *with* as the students read and spell.  
(Students: with, w-i-t-h)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

4. rich

Number 4: rich. The rich king had gold and silver. Say *rich*.  
(Students: rich)

If you aren't sure how to spell the short vowel sound /ĭ/, look for the cat in the chair. If you aren't sure how to spell the sound /ch/, raise your hand to ask me. Write *rich*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 4, write *rich* as the students read and spell.  
(Students: rich, r-i-c-h)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

## ► Teacher Background

The first few guided spelling lessons are designed to give the students detailed practice with the guided spelling procedures, and fewer words are introduced in these lessons. As the students get used to the procedures for guided spelling, the number of words practiced during each guided spelling lesson gradually increases to ten words. In guided spelling today, the students will spell six words.

Beginning in this lesson, you will be asked to make up a sentence for most words in guided spelling. (The instruction will say “Use the word in a sentence.”)

If you are using the board instead of the reusable form (*Blackline Masters* page 1), number from 1 to 6.

## ► Pre-spelling: Using the Spelling-Sound Chart

We'll use the spelling-sound chart to help us spell short vowels.

o \_ \_ \_ \_

► Point to **o**\_ on the chart.

Where is the cat? (Students: on the chair) Sound? (Students: /ō/)

e \_ \_ \_ \_

► Point to **e**\_ on the chart.

Where is the cat? (Students: edge of the chair) Sound? (Students: /ĕ/)

i \_ \_ \_ \_

► Point to **i**\_ on the chart.

Where is the cat? (Students: in the chair) Sound? (Students: /ĭ/)

a \_ \_ \_ \_

► Point to **a**\_ on the chart.

Where is the cat? (Students: at the chair) Sound? (Students: /ă/)

u \_ \_ \_ \_

► Point to **u**\_ on the chart.

Where is the cat? (Students: under the chair) Sound? (Students: /ŭ/)

flat \_ \_ \_

I'll write *flat*.

► Write **fl** on the board.

Which picture shows the sound /ă/? (Students: at the chair)

How do I spell the sound /ă/? (Students: a)

► Finish writing *flat*.

mix — — —

I'll write *mix*.

► Write **m**.

Which picture shows the sound /ĭ/? (Students: in the chair)

How do I spell the sound /ĭ/? (Students: i)

► Finish writing *mix*.

## ► Guided Spelling

Open your spelling books to page 5. Today you will write six words. Numbers 1 to 4 are from this week's new words.

1. fresh — —

Number 1: fresh. Eat fresh fruits and vegetables. Say *fresh*.  
(Students: fresh)

If you aren't sure how to spell the short vowel sound /ĕ/, look for the cat at the edge of the chair. If you aren't sure how to spell the sound /sh/, raise your hand to ask me. Write *fresh*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 1, write *fresh* as the students read and spell.  
(Students: fresh, f-r-e-s-h)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

2. which — —

Number 2: which. She wondered which book to choose.  
Say *which*. (Students: which)

If you aren't sure how to spell the beginning of *which*, raise your hand to ask me. If you aren't sure how to spell the short vowel sound /ĭ/, look for the cat in the chair. If you aren't sure how to spell the sound /ch/, raise your hand to ask me. Write *which*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 2, write *which* as the students read and spell.  
(Students: which, w-h-i-c-h)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

3. thick

Number 3: thick. They put on a thick coat of paint. Say *thick*.  
(Students: thick)

If you aren't sure how to spell the sound /th/, raise your hand to ask me. If you aren't sure how to spell the short vowel sound /ĭ/, look for the cat in the chair. Be careful here. The sound /k/ after a short vowel is spelled **c-k**. Write *thick*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *thick* as the students read and spell.  
(Students: thick, t-h-i-c-k)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

4. check

Number 4: check. We will all check our work. Say *check*.  
(Students: check)

If you aren't sure how to spell the sound /ch/, raise your hand to ask me. If you aren't sure how to spell the short vowel sound /ĕ/, look for the cat at the edge of the chair. Be careful here. If you aren't sure how to spell the sound /k/ after a short vowel, raise your hand to ask me. Write *check*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 4, write *check* as the students read and spell.  
(Students: check, c-h-e-c-k)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

5. pass

Number 5: pass. (Use the word in a sentence.) Say *pass*.  
(Students: pass)

If you aren't sure how to spell the short vowel sound /ă/, look for the cat at the chair. Be careful here. The last sound is /s/. The sound /s/ after a short vowel is usually spelled **s-s**. Write *pass*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 5, write *pass* as the students read and spell.  
(Students: pass, p-a-s-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

6. shed — —

Number 6: shed. (Use the word in a sentence.) Say *shed*.  
(Students: shed)

If you aren't sure how to spell the sound /sh/, raise your hand to ask me. If you aren't sure how to spell the short vowel sound /ĕ/, look for the cat at the edge of the chair. Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 6, write *shed* as the students read and spell.  
(Students: shed, s-h-e-d)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

# Week 1 Day 3

## ► Teacher Background

In this day's lesson, you will introduce the four new sight words for this week by having the students read each word and sentence with you. You will tell them which letters may be hard for them and have them underline the letters.

In guided spelling for this day's lesson, the students will write the four new sight words using three steps that will aid them in memorizing words ("memory steps"). They will use these memory steps throughout the program:

1. Read, spell out loud, and study.
2. Cover, say, spell out loud, and check.
3. Cover, say, write, and check.

If you are using the board, number from 1 to 4.

Note that "sight words" in the *Guided Spelling* program refers to irregular words. The sound-spelling correspondences in irregular words are unusual; they are different from the correspondences taught for pattern and think words.

## ► Pre-spelling: Using the Spelling-Sound Chart

We'll use the spelling-sound chart to help us spell short vowels.

pit — — —

I'll write *pit*.

- Write **p**.

Which picture shows the sound /i/? (Students: in the chair)

How do I spell the sound /i/? (Students: i)

- Finish writing *pit*.

left — — —

I'll write *left*.

- Write **l**.

Which picture shows the sound /ě/? (Students: edge of the chair)

How do I spell the sound /ě/? (Students: e)

- Finish writing *left*.

## ▶ Introduce This Week's Sight Words

9. cold

Open your spelling books to page 3. Numbers 9–12 are the new sight words. Read the words and sentences with me.

Number 9: cold. Mom told us it was cold outside.

I will tell you which letters may be hard to learn, and you will underline them in your spelling books. Find the word *cold* that is next to number 9. Underline **o**.

10. hold

Number 10: hold. Fold the paper and hold it up.

Find the word *hold* that is next to number 10. Underline **o**.

11. pull

Number 11: pull. We'll pull the wagon to the park.

Find the word *pull* that is next to number 11. Underline **u** and **l-l**.

12. full

Number 12: full. The glass is half full.

Find the word *full* that is next to number 12. Underline **u** and **l-l**.

## ▶ Guided Spelling

Turn to page 6 in your spelling books. Today you will write the four new sight words. Sight words are different from the words that you have already written in your spelling books. We can't spell sight words by their sounds. I will show you how to study and write sight words in a way that will help you memorize them.

1. cold

Number 1: cold. Mom told us it was cold outside. Say *cold*.  
(Students: cold)

Find *cold* at the top of the page.

### Step 1

Step 1 is to read the word out loud, spell it, and study it. Everyone read. (Students: cold) Everyone spell out loud as you point under each letter. (Students: c-o-l-d) Underline the hard part: **o**.

### Step 2

Step 2 is to cover the word, say it, spell it out loud, and then check it. Everyone cover the word. Say and spell. (Students: cold, c-o-l-d) Uncover and check.

### Step 3

Step 3 is to cover the word, whisper it, write it, and check it. Everyone cover the word. Find line number 1. Everyone whisper the word and then whisper the letter names as you write.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

▶ At number 1, write *cold* as the students read and spell.  
(Students: cold, c-o-l-d)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

2. hold — — —

Number 2: hold. Fold the paper and hold it up. Say *hold*.  
(Students: hold)

Find *hold* at the top of the page.

**Step 1** Step 1 is to read the word out loud, spell it, and study it. Everyone read. (Students: hold) Everyone spell out loud as you point under each letter. (Students: h-o-l-d) Underline the hard part: **o**.

**Step 2** Step 2 is to cover the word, say it, spell it out loud, and then check it. Everyone cover the word. Say and spell. (Students: hold, h-o-l-d) Uncover and check.

**Step 3** Step 3 is to cover the word, whisper it, write it, and check it. Everyone cover the word. Find line number 2. Everyone whisper the word and then whisper the letter names as you write.  
Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 2, write *hold* as the students read and spell.  
(Students: hold, h-o-l-d)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

3. pull — — —

Number 3: pull. We'll pull the wagon to the park. Say *pull*.  
(Students: pull)

Find *pull* at the top of the page.

**Step 1** Step 1 is to read the word out loud, spell it, and study it. Everyone read. (Students: pull) Everyone spell out loud as you point under each letter. (Students: p-u-l-l) Underline the hard part: **u-l-l**.

**Step 2** Step 2 is to cover the word, say it, spell it out loud, and then check it. Everyone cover the word. Say and spell. (Students: pull, p-u-l-l) Uncover and check.

**Step 3** Step 3 is to cover the word, whisper it, write it, and check it. Everyone cover the word. Find line number 3. Everyone whisper the word and then whisper the letter names as you write.  
Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *pull* as the students read and spell.  
(Students: pull, p-u-l-l)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

4. full — — —

Number 4: full. The glass is half full. Say *full*. (Students: full)

Find *full* at the top of the page.

**Step 1**

Step 1 is to read the word out loud, spell it, and study it. Everyone read. (Students: full) Everyone spell out loud as you point under each letter. (Students: f-u-l-l) Underline the hard part: **u-l-l**.

**Step 2**

Step 2 is to cover the word, say it, spell it out loud, and then check it. Everyone cover the word. Say and spell. (Students: full, f-u-l-l) Uncover and check.

**Step 3**

Step 3 is to cover the word, whisper it, write it, and check it. Everyone cover the word. Find line number 4. Everyone whisper the word and then whisper the letter names as you write.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 4, write *full* as the students read and spell. (Students: full, f-u-l-l)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

# Week 1 Day 4

## ▶ Teacher Background

This is the first day you will teach a full guided spelling lesson. The students will write seven pattern and think words and three sight words.

If you are using the board, number from 1 to 10.

## ▶ Pre-spelling: Using the Spelling-Sound Chart

We'll use the spelling-sound chart to help us spell short vowels.

jam — — —

I'll write *jam*.

▶ Write **j** on the board.

Which picture shows the sound /ă/? (Students: at the chair)

How do I spell the sound /ă/? (Students: a)

▶ Finish writing *jam*.

swim — — —

I'll write *swim*.

▶ Write **sw**.

Which picture shows the sound /ī/? (Students: in the chair)

How do I spell the sound /ī/? (Students: i)

▶ Finish writing *swim*.

## ▶ Guided Spelling

Open your spelling books to page 7.

1. which — —

Number 1: *which*. (Use the word in a sentence.) Say *which*. (Students: *which*)

If you aren't sure how to spell the beginning of *which*, raise your hand to ask me. If you aren't sure how to spell the short vowel sound /ī/, look for the cat in the chair. If you aren't sure how to spell the sound /ch/, raise your hand to ask me. Write *which*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

▶ At number 1, write *which* as the students read and spell. (Students: *which*, w-h-i-c-h)

2. fresh — —

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

Number 2: fresh. (Use the word in a sentence.) Say *fresh*.  
(Students: fresh)

If you aren't sure how to spell the short vowel sound /ĕ/, look for the cat at the edge of the chair. If you aren't sure how to spell the sound /sh/, raise your hand to ask me. Write *fresh*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 2, write *fresh* as the students read and spell.  
(Students: fresh, f-r-e-s-h)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

3. thick — —

Number 3: thick. (Use the word in a sentence.) Say *thick*.  
(Students: thick)

If you aren't sure how to spell the sound /th/, raise your hand to ask me. If you aren't sure how to spell the short vowel sound /ĭ/, look for the cat in the chair. Be careful here. The sound /k/ after a short vowel is spelled **c-k**. Write *thick*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *thick* as the students read and spell.  
(Students: thick, t-h-i-c-k)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

4. kiss — —

Number 4: kiss. (Use the word in a sentence.) Say *kiss*.  
(Students: kiss)

The sound /k/ in *kiss* is spelled **k**. If you aren't sure how to spell the short vowel sound /ĭ/, look for the cat in the chair. Be careful here. The sound /s/ after a short vowel is usually spelled **s-s**.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 4, write *kiss* as the students read and spell.  
(Students: kiss, k-i-s-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

5. led — — —

Number 5: led. (Use the word in a sentence.) Say *led*.  
(Students: led)

If you aren't sure how to spell the short vowel sound /ĕ/, look for the cat at the edge of the chair. Write *led*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 5, write *led* as the students read and spell.  
(Students: led, l-e-d)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

6. rich — — —

Number 6: rich. (Use the word in a sentence.) Say *rich*.  
(Students: rich)

If you aren't sure how to spell the short vowel sound /ĭ/, look for the cat in the chair. If you aren't sure how to spell the sound /ch/, raise your hand to ask me. Write *rich*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 6, write *rich* as the students read and spell.  
(Students: rich, r-i-c-h)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

7. check — — —

Number 7: check. (Use the word in a sentence.) Say *check*.  
(Students: check)

If you aren't sure how to spell the sound /ch/, raise your hand to ask me. If you aren't sure how to spell the short vowel sound /ĕ/, look for the cat at the edge of the chair. Be careful here. If you aren't sure how to spell the sound /k/ after a short vowel, raise your hand to ask me. Write *check*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 7, write *check* as the students read and spell.  
(Students: check, c-h-e-c-k)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

## NOW YOU'LL WRITE THREE SIGHT WORDS.

8. full — — —

Number 8: full. (Use the word in a sentence.) Say *full*.  
(Students: full)

Find *full* at the top of the page.

**Step 1** Step 1 is to read the word out loud, spell it, and study it. Everyone read. (Students: full) Everyone spell out loud as you point under each letter. (Students: f-u-l-l) Underline the hard part: **u-l-l**.

**Step 2** Step 2 is to cover the word, say it, spell it out loud, and then check it. Everyone cover the word. Say and spell. (Students: full, f-u-l-l) Uncover and check.

**Step 3** Step 3 is to cover the word, whisper it, write it, and check it. Everyone cover the word. Find line number 8. Everyone whisper the word and then whisper the letter names as you write. Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 8, write *full* as the students read and spell.  
(Students: full, f-u-l-l)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

9. pulls — — —

Number 9: pulls. (Use the word in a sentence.) Say *pulls*.  
(Students: pulls)

Find *pulls* at the top of the page.

**Step 1** Step 1 is to read the word out loud, spell it, and study it. Everyone read. (Students: pulls) Everyone spell out loud as you point under each letter. (Students: p-u-l-l-s) Underline the hard part: **u-l-l**.

**Step 2** Step 2 is to cover the word, say it, spell it out loud, and then check it. Everyone cover the word. Say and spell. (Students: pulls, p-u-l-l-s) Uncover and check.

**Step 3** Step 3 is to cover the word, whisper it, write it, and check it. Everyone cover the word. Find line number 9. Everyone whisper the word and then whisper the letter names as you write. Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 9, write *pulls* as the students read and spell.  
(Students: pulls, p-u-l-l-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

10. holds — —

Number 10: holds. (Use the word in a sentence.) Say *holds*.  
(Students: holds)

Find *holds* at the top of the page.

**Step 1**

Step 1 is to read the word out loud, spell it, and study it. Everyone read. (Students: holds) Everyone spell out loud as you point under each letter. (Students: h-o-l-d-s) Underline the hard part: **o**.

**Step 2**

Step 2 is to cover the word, say it, spell it out loud, and then check it. Everyone cover the word. Say and spell. (Students: holds, h-o-l-d-s) Uncover and check.

**Step 3**

Step 3 is to cover the word, whisper it, write it, and check it. Everyone cover the word. Find line number 10. Everyone whisper the word and then whisper the letter names as you write.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 10, write *holds* as the students read and spell.  
(Students: holds, h-o-l-d-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

## ► Teacher Background

Make a copy of the Week 1 homework practice page (*Blackline Masters* page 2) for each student, plus an extra copy for your own reference as you introduce the homework procedures to the students.

The lesson today will prepare the students for the weekly homework that begins in Week 2. Today's homework page will be used for in-class practice only; the students will not take homework home this week.

## ► Guided Spelling

**TEACHER NOTE** A small square (■) indicates that you should pause to allow the students time to respond to a question or instruction.

► Hand out the Week 1 homework practice page.

Next week you will have spelling homework to help you memorize the spelling words. Today I will show you how to do the homework and you will practice. Let's read the page together:

*Week 1 Homework Practice. Name.*

Write your name. ■ Let's continue reading:

*Practice the memory steps for each word.*

*Step 1: Read, spell out loud, and study.*

*Step 2: Cover, say, spell out loud, and check.*

*Step 3: Cover, say, write, and check.*

These are the steps that we have been using to study and write each sight word. Next we see the new words for this week.

I. add — — —

Everyone point to number 1, *add*. Let's do the memory steps together.

### Step 1

Step 1 is *Read, spell out loud, and study*. Everyone read. (Students: *add*) Everyone spell out loud as you point under each letter. (Students: *a-d-d*) Now study. Look at the word and underline any part that is hard for you.

### Step 2

Step 2 is *Cover, say, spell out loud, and check*. Everyone cover the word. Say and spell. (Students: *add, a-d-d*) Uncover and check. If you made a mistake, start again at Step 1.

**Step 3**

Step 3 is *Cover, say, write, and check*. Add is number 1. You will write it on line number 1. Everyone cover the word. Find line number 1. Everyone whisper the word and then whisper the letter names as you write.

This is how to check your word when you are doing your homework: Point to the first letter of the word you wrote. Keep your finger there. Find word number 1, *add*, at the top of the page. Use the finger of your other hand to point to the first letter, **a**. Look at what you wrote. Is your first letter **a**? Check each letter that you wrote.

► Demonstrate checking each letter.

If you made a mistake, erase the word and start again at Step 1.

2. led — — —

Everyone point to number 2, *led*. Let's do the memory steps together.

**Step 1**

Step 1 is *Read, spell out loud, and study*. Everyone read. (Students: *led*) Everyone spell out loud as you point under each letter. (Students: *l-e-d*) Now study. Look at the word and underline any part that is hard for you.

**Step 2**

Step 2 is *Cover, say, spell out loud, and check*. Everyone cover the word. Say and spell. (Students: *led, l-e-d*) Uncover and check. If you made a mistake, start again at Step 1.

**Step 3**

Step 3 is *Cover, say, write, and check*. *Led* is number 2. You will write it on line number 2. Everyone cover the word. Find line number 2. Everyone whisper the word and then whisper the letter names as you write.

Now you'll check. Point to the first letter of the word you wrote. Keep your finger there. Find word number 2, *led*, at the top of the page. Use the finger of your other hand to point to the first letter, **l**. Look at what you wrote. Is your first letter **l**? Check each letter that you wrote.

► Demonstrate checking each letter.

If you made a mistake, erase the word and start again at Step 1.

3. with — — —

Everyone point to number 3, *with*. Let's do the memory steps together.

**Step 1**

Step 1 is *Read, spell out loud, and study*. Everyone read. (Students: *with*) Everyone spell out loud as you point under each letter. (Students: *w-i-t-h*) Now study. Look at the word and underline any part that is hard for you.

**Step 2**

Step 2 is *Cover, say, spell out loud, and check*. Everyone cover the word. Say and spell. (Students: with, w-i-t-h) Uncover and check. If you made a mistake, start again at Step 1.

**Step 3**

Step 3 is *Cover, say, write, and check*. *With* is number 3. You will write it on line number 3. Everyone cover the word. Find line number 3. Everyone whisper the word and then whisper the letter names as you write.

Now you'll check. Point to the first letter of the word you wrote. Keep your finger there. Find word number 3, *with*, at the top of the page. Use the finger of your other hand to point to the first letter, **w**.

Look at what you wrote. Is your first letter **w**? Check each letter that you wrote.

► Demonstrate checking each letter.

If you made a mistake, erase the word and start again at Step 1.

4. rich — — —

Everyone point to number 4, *rich*. Let's do the memory steps together.

**Step 1**

Step 1 is *Read, spell out loud, and study*. Everyone read. (Students: rich) Everyone spell out loud as you point under each letter. (Students: r-i-c-h) Now study. Look at the word and underline any part that is hard for you.

**Step 2**

Step 2 is *Cover, say, spell out loud, and check*. Everyone cover the word. Say and spell. (Students: rich, r-i-c-h) Uncover and check. If you made a mistake, start again at Step 1.

**Step 3**

Step 3 is *Cover, say, write, and check*. *Rich* is number 4. You will write it on line number 4. Everyone cover the word. Find line number 4. Everyone whisper the word and then whisper the letter names as you write.

Now you'll check. Point to the first letter of the word you wrote. Keep your finger there. Find word number 4, *rich*, at the top of the page. Use the finger of your other hand to point to the first letter, **r**.

Look at what you wrote. Is your first letter **r**? Check each letter that you wrote.

► Demonstrate checking each letter.

If you made a mistake, erase the word and start again at Step 1.

5. fresh — —

▶ Have a volunteer demonstrate the memory steps for *fresh*. Then have all the students practice individually.

6. which — —

▶ Have a volunteer demonstrate the memory steps for *which*. Then have all the students practice individually.

7. thick — —

▶ Have the students practice the memory steps for *thick* individually.

8. check — —

▶ Have the students practice the memory steps for *check* individually.

9. cold — —

▶ Have the students practice the memory steps for *cold* individually.

10. hold — —

▶ Have the students practice the memory steps for *hold* individually.

11. pull — —

▶ Have the students practice the memory steps for *pull* individually.

12. full — —

▶ Have the students practice the memory steps for *full* individually.

## Short Vowels **o** and **u**; Consonant Clusters

### ► New Content

---

The sound /ɒ/ as in *not* is spelled **o**.

The sound /ʊ/ as in *fun* is spelled **u**.

The sound /ŋ/ as in *sing* is spelled **ng**.

Homophones are words that sound the same but are spelled differently, such as *there* and *their*.

A compound word is made of two smaller words and written with no space between the two, for example, *anyone*.

An abbreviation is a short way of writing a word, such as *Dr*. There is a period at the end of an abbreviation.

### ► Teacher Background

---

Make a copy of the Week 2 homework page (*Blackline Masters* page 3) for each student.

Consonant clusters are consonant combinations in which the sound of each consonant is heard, for example, **gl** in *glad* and **st** in *must*.

Students frequently have difficulty hearing one of the sounds in a consonant cluster. Clusters at the end of a word, such as **ct** in *fact* or **lk** in *milk*, may be difficult. Preconsonantal nasals are especially difficult, for example, **mp** as in *jump*, **nd** as in *hand*, and **nt** as in *sent*. The final sounds of words ending in **nk**, such as *sink*, are especially difficult because we hear /ɪŋk/ but must learn to spell **nk**. When dictating items for guided spelling, pronounce each word distinctly and be sure the students say the word correctly when repeating it back to you.

In some regional dialects **ng** is pronounced as a single sound. In others it is two sounds: a nasal sound followed by /g/.

Homophones are introduced on Day 2.

Compound words are introduced on Day 3.

Abbreviations are introduced on Day 4.

If you are using the board, number from 1 to 8 for Day 1 of this week.

Three additional guiding points are introduced this week: the sound /l/ at the end of a one-syllable word is usually spelled **ll**, as in *still*; the sounds /kr/ and /kl/ at the beginning of a word are spelled **cr** and **cl**, as in *crust* and *clock*; preconsonantal nasals in consonant clusters are difficult, especially /ngk/ spelled **nk**, as in *think*.

The pre-spelling activities this week prepare the students to write words with the ending **s** (as in *caps* and *adds*) and the ending **es** (as in *glasses*) in Weeks 3 and 4.

An optional spelling activity is provided for the students each week in the *Student Spelling Book*. The activity for Week 2, found on *Student Spelling Book* page 14, focuses on short vowel words that begin with consonant clusters. The activity may be done independently or as partner work.

## **WEEKLY SPELLING TESTS**

The first weekly spelling test is on Week 2, Day 5. It consists of all of the week's new words, four review words, and two application words. The application words assess the students' knowledge of the spelling concepts and are not announced in advance. The form of the weekly tests is traditional word dictation.

You may wish to differentiate instruction by having your below-grade-level, average, and advanced spellers memorize different numbers of words for the test. If you decide to do so, talk privately with each student to explain which words to study. Below-grade-level spellers will study just the words with stars in front of them on each week's word list. Average spellers will study all words except the challenge words. Advanced spellers will study all words including the challenge words.

## **WEEKLY HOMEWORK**

In Week 2, the students begin doing weekly homework. On Day 1, hand out the homework duplicated from *Blackline Masters* page 3. Have the students practice six words per day or twelve words on each of two days. Collect and check the homework using the same procedure you use for other homework.

The purpose of the homework is to memorize the spelling of each new word and re-memorize the review words. The memory steps will aid in learning the words. We recommend that the students

write the words just once for homework during the week. Research indicates that merely writing words many times will not result in memorization (Schlagal 2002).

If you are differentiating spelling instruction, have the below-grade-level spellers do the homework just for the starred words. Have the average spellers study the 24 new and review words. Have the advanced spellers study these 24 words and then independently memorize the challenge words at the bottom of the homework page.

## ► **Words Used This Week**

The stars indicate words for below-grade-level spellers in classes where spelling instruction is differentiated. For detailed information about the “Words Used This Week” categories, see page 3.

NEW PATTERN AND THINK WORDS	*box, *must, *glad, *sand, song, still, trip, soft
NEW SIGHT WORDS	*mother, *other, month, laugh
REVIEW PATTERN AND THINK WORDS	*led, *rich, *add, *with, which, fresh, check, thick
REVIEW SIGHT WORDS	*hold, *cold, full, pull
CHALLENGE WORDS	until, upon, begin, began
APPLICATION WORDS ON THE TEST	wet, chip
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	strong, quilt, swung, crust, dull, hiss, trunk, hung, brush, there, anyone, Dr.

► **Introduce This Week's Words**

Open your spelling books to page 9. Read the words and sentences with me.

1. box — — —

Number 1: box. The pencils are in a box.

► Point to the “on the chair” picture on the spelling-sound chart. The “on the chair” picture is for the sound /ō/.

2. must — — —

Number 2: must. Dad said we must be careful.

► Point to the “under the chair” picture. The “under the chair” picture is for the sound /ū/.

3. glad — — —

Number 3: glad. They talked about being mad, sad, and glad.

4. sand — — —

Number 4: sand. I like to stand in the sand.

*Sand* is easy to spell when you think of the sounds, but it might be hard to hear /nd/ at the end.

5. song — — —

Number 5: song. We listened to a long song.

► Write **ng** on the board. Point to **ng**. The sound at the end of *song* is spelled **n-g**.

6. still — — —

Number 6: still. They are still working in the garden.

Remember that each week I will tell you which letters may be hard to learn, and you will underline them in your book. Find the word *still* that is next to number 6. Underline **l-l**.

7. trip — — —

Number 7: trip. His trip to the Grand Canyon was exciting.

It might be hard to hear /tr/ at the beginning.

8. soft — — —

Number 8: soft. The kitty loves her soft pillow.

It might be hard to hear /ft/ at the end.

**NUMBERS 9–12 ARE THE NEW SIGHT WORDS.**

9. mother — — —

Number 9: mother. His mother and brother waited for him.

Find the word *mother* that is next to number 9. Underline **o** and **e-r**.

10. other

Number 10: other. Choose one or the other.

Find the word *other* that is next to number 10. Underline **o** and **e-r**.

11. month

Number 11: month. The month of June has 30 days.

Find the word *month* that is next to number 11. Underline **o**.

12. laugh

Number 12: laugh. Our funny baby makes us laugh.

Find the word *laugh* that is next to number 12. Underline **a-u-g-h**.

### NUMBERS 13–24 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

13. led            19. check

14. rich           20. thick

15. add            21. hold

16. with           22. cold

17. which        23. full

18. fresh         24. pull

## ► Guided Spelling

TEACHER NOTE A small square (■) indicates that you should pause to allow the students time to respond to a question or instruction.

Turn the page. You will write eight of this week's new words.

Remember that guided spelling is not a test. I will help you think about each word so that you write it correctly. If you aren't sure how to spell a word, raise your hand to ask me for help.

1. box

Number 1: box. The pencils are in a box. Say *box*. (Students: box)

If you aren't sure how to spell the short vowel sound /ɒ/, look for the cat on the chair. Be careful here. If you aren't sure how to spell the end of *box*, raise your hand to ask me. Write *box*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 1, write *box* as the students read and spell. (Students: box, b-o-x)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

2. must

Number 2: must. Dad said we must be careful. Say *must*.  
(Students: must)

Listen to the sounds: must. If you aren't sure how to spell the short vowel sound /ū/, look for the cat under the chair. Write *must*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 2, write *must* as the students read and spell.  
(Students: must, m-u-s-t)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

3. glad

Number 3: glad. They talked about being mad, sad, and glad. Say *glad*. (Students: glad)

Listen to the sounds: glad. If you aren't sure how to spell the short vowel sound /ă/, look for the cat at the chair. Write *glad*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *glad* as the students read and spell.  
(Students: glad, g-l-a-d)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

4. sand

Number 4: sand. I like to stand in the sand. Say *sand*.  
(Students: sand)

Listen to the sounds: sand. If you aren't sure how to spell the short vowel sound /ă/, look for the cat at the chair. Write *sand*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 4, write *sand* as the students read and spell.  
(Students: sand, s-a-n-d)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

## NUMBERS 5–8 ARE THE NEW SIGHT WORDS.

5. mother

Number 5: mother. His mother and brother waited for him.  
Say *mother*. (Students: mother)

Find *mother* at the top of the page.

**Step 1** Step 1 is to read the word out loud, spell it, and study it. Everyone read. (Students: mother) Everyone spell out loud as you point under each letter. (Students: m-o-t-h-e-r) Underline the hard parts: **o** and **e-r**.

**Step 2** Step 2 is to cover the word, say it, spell it out loud, and then check it. Everyone cover the word. Say and spell. (Students: mother, m-o-t-h-e-r) Uncover and check.

**Step 3** Step 3 is to cover the word, whisper it, write it, and check it. Everyone cover the word. Find line number 5. Everyone whisper the word and then whisper the letter names as you write.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 5, write *mother* as the students read and spell. (Students: mother, m-o-t-h-e-r)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

6. other — —

Number 6: other. Choose one or the other. Say *other*. (Students: other)

Find *other* at the top of the page.

**Step 1** Step 1 is to read the word out loud, spell it, and study it. Everyone read. (Students: other) Everyone spell out loud as you point under each letter. (Students: o-t-h-e-r) Underline the hard parts: **o** and **e-r**.

**Step 2** Step 2 is to cover the word, say it, spell it out loud, and then check it. Everyone cover the word. Say and spell. (Students: other, o-t-h-e-r) Uncover and check.

**Step 3** Step 3 is to cover the word, whisper it, write it, and check it. Everyone cover the word. Find line number 6. Everyone whisper the word and then whisper the letter names as you write.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 6, write *other* as the students read and spell. (Students: other, o-t-h-e-r)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

7. month — —

Number 7: month. The month of June has 30 days. Say *month*.  
(Students: month)

Find *month* at the top of the page.

Step 1

Step 1 is to read the word out loud, spell it, and study it. Everyone read. (Students: month) Everyone spell out loud as you point under each letter. (Students: m-o-n-t-h) Underline the hard part: **o**.

Step 2

Step 2 is to cover the word, say it, spell it out loud, and then check it. Everyone cover the word. Say and spell. (Students: month, m-o-n-t-h) Uncover and check.

Step 3

Step 3 is to cover the word, whisper it, write it, and check it. Everyone cover the word. Find line number 7. Everyone whisper the word and then whisper the letter names as you write.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 7, write *month* as the students read and spell.  
(Students: month, m-o-n-t-h)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

8. laugh — —

Number 8: laugh. Our funny baby makes us laugh. Say *laugh*.  
(Students: laugh)

Find *laugh* at the top of the page.

Step 1

Step 1 is to read the word out loud, spell it, and study it. Everyone read. (Students: laugh) Everyone spell out loud as you point under each letter. (Students: l-a-u-g-h) Underline the hard part: **a-u-g-h**.

Step 2

Step 2 is to cover the word, say it, spell it out loud, and then check it. Everyone cover the word. Say and spell. (Students: laugh, l-a-u-g-h) Uncover and check.

Step 3

Step 3 is to cover the word, whisper it, write it, and check it. Everyone cover the word. Find line number 8. Everyone whisper the word and then whisper the letter names as you write.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 8, write *laugh* as the students read and spell.  
(Students: laugh, l-a-u-g-h)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

## Introduce the Homework

---

Hand out the Week 2 homework. Explain to the students that they will study by using the memory steps they practiced last week. Explain your procedure for collecting and checking homework.

Tell the students that the words on the homework page are the words that will be on this week's test. The test will also have two "application" words that are not on the homework. The application words will show that the students understand what they have been learning in spelling.

If you are differentiating instruction, privately tell the below-grade-level spellers to study just the starred words. Tell the advanced spellers that they are responsible for memorizing all words including the challenge words at the bottom of the page, but they are not expected to write the challenge words for homework unless they feel they need to.

## ► Teacher Background

In the pre-spelling activities this week, you will model adding the endings **s** (as in *cats* and *adds*) and **es** (as in *boxes*). Then the students will practice identifying base words, sounds of endings, and spellings of endings. The sound of **es** is represented here as /əz/. The rotated **e** is called a schwa and is pronounced as an unaccented short **u**. See the introductions to Weeks 3 and 4 for more information about the endings **s** and **es**.

Today the students will write the homophone *there*. In the *Guided Spelling* program, commonly confused homophones are identified, and you will guide the students in spelling the correct one in each case. If your students have an advanced vocabulary, you may want to mention additional homophones as they appear in guiding, such as *need-knead* and *wear-ware*.

If you are using the board, number from 1 to 10. The students will write seven pattern and think words and three sight words today.

## ► Pre-spelling: Base Words and Endings **s** and **es**

### TEKS 2.B.xxx

Student/Teacher Narrative  
Pre-spelling activity  
(Words: cats, adds, boxes,  
knots, hugs, presses)

cats

adds

boxes

This year you will spell many base words and endings.

- Write on the board: cats adds boxes
- Point to *cats*.

*Cats*. The base word is *cat*. The sound of the ending is /s/.  
The ending is spelled **s**.

- Point to *adds*.

*Adds*. The base word is *add*. The sound of the ending is /z/.  
The ending is spelled **s**.

- Point to *boxes*.

*Boxes*. The base word is *box*. The sound of the ending is /əz/.  
The ending is spelled **e-s**.

- Note: The next three words are for listening practice. Do not write the words on the board.

I will say a word. I will ask you the base word, the sound of the ending, and the spelling of the ending.

## Weekly Test

### ► Teacher Background

---

The first weekly spelling test is in this lesson. It consists of all of the week's new words, four review words, and two application words. The application words assess the students' knowledge of the spelling concepts and are not announced in advance. The form of the weekly tests is traditional word dictation.

Provide the students with paper for the spelling test.

If you are not differentiating spelling instruction, have all students write the first 18 words. If you are differentiating instruction, have the below-grade-level spellers spell the first 10 words, the average spellers spell the first 18 words, and the advanced spellers spell all 20 words.

We recommend that you collect the tests and correct them yourself so that you can conduct an informal assessment of your class's progress. As you correct the tests, notice particularly the students' spelling of the application words, numbers 1 and 2. Students who misspell numerous consonant and short vowel sounds may not be ready for grade 3 spelling.

### ► Administer the Spelling Test

---

Hand out test paper. Have the students put their names at the top and number from 1 to 18.

The test words appear on the following page. Pronounce each word and use it in a sentence. You may use the sentences that are provided. Note that the students do not write the sentences.

### ALL STUDENTS

## Ending s

### ► New Content

---

Often the sound /s/ or /z/ is used at the end of a word to show that there is more than one of something. In the word *cats* we hear /s/ at the end, so we know there is more than one cat. In the word *bugs* we hear /z/ at the end, so we know there is more than one bug. The sounds /s/ and /z/ are both spelled s.

The sound /s/ or /z/ can also be used at the end of a word about what one person is doing. For example, we say *The boy sits down and reads a book*. The sounds /s/ in *sits* and /z/ in *reads* are both spelled s.

A contraction is one word made from two words. Some of the letters are left out. An apostrophe shows where the letters are left out. Examples of contractions include *didn't*, *she's*, and *you're*.

### ► Teacher Background

---

Make a copy of the Week 3 homework (*Blackline Masters* page 4) for each student. You will hand out the homework on Day 1.

Inflections are endings that change the grammatical function of a word; inflections include **s**, **es**, **ed**, **ing**, and **'s**. This week's lessons focus on the inflection **s**. There are two challenges in spelling the inflection **s**. First, the spoken inflection has two sounds, /s/ and /z/. Second, speakers of some dialects do not use the inflection **s** in their speech, so they must learn to hear it and add it in their writing. The third person singular verb inflection, as in *He runs*, is particularly troublesome for English Language Learners and speakers of some dialects. Be sure that the students pronounce all inflections when they repeat the words.

“Think words” can be spelled without memorization. For example, when the students know consonant and short vowel sounds they can spell most short vowel words without memorizing them. Beginning this week during the guided spelling activities, you will tell the students which words are think words. Although they

will need guiding to spell think words at first, they will become increasingly independent.

The first two weeks of lessons included detailed instructions to support you and your students in learning the basic procedures of guided spelling. Beginning with Week 3, the instructions are abbreviated.

- The cue “Memory steps” reminds you to lead the students through all the memory steps for each sight word. See page 15 for an example of the memory steps procedure.
- The cue “Check” reminds you to do the entire checking procedure for each word. See page 8 for an example of the checking procedure.
- The expected student responses are no longer written out in the lessons. Where several instructions are given on one line, a box (■) indicates that you pause while the students respond orally or in writing.

On Day 1 of this week, you will show the students how to keep a record of words they missed on the spelling test. In their *Student Spelling Books* they will write **S** for “need to study” on the line next to each word they missed.

On Day 4, the students will study the words they missed on last week’s test. The students will do this on Day 4 of each week of the *Guided Spelling* program (except the review weeks).

The pre-spelling activities this week prepare the students to write words with the endings **ed** (as in *checked*) and **ing** (as in *standing*) in Week 5.

An optional spelling activity is provided for the students each week in the *Student Spelling Book*. The activity for Week 3, found on *Student Spelling Book* page 20, focuses on words that end with consonant clusters. The activity may be done independently or as partner work.

*Won't* is a contraction that comes from *will not*. Underline **o-n-apostrophe-t**.

**TEKS 2.A.x**

Student/Teacher Narrative  
Introduce This Week's Words  
(Word: won't)

► If your students are not familiar with contractions, write the following on the board: *Mary will not go*. Above *will not* write *won't*. Then explain as follows.

I can say *Mary will not go*, or I can say *Mary won't go*. *Won't* is a contraction. Say "contraction." ■ A contraction is one word made from two words. Some of the letters are left out. An apostrophe shows where the letters are left out. *Won't* is unusual. The **o** was added.

10. mind — —

Number 10: mind. Use your mind to find the answer.  
Underline **i**.

11. wind (2)

Number 11 has two pronunciations: *wīnd* and *wĭnd*. Say *wīnd*. ■ Say *wĭnd*. ■ *Wīnd* up this plane and watch it fly in the *wĭnd*.

The (2) after this word means that it can be said two ways. This word can be *wīnd*, as in *wind it up*. It can also be *wĭnd*, as in *the wind is blowing*. Let's read the sentence together: *Wīnd up this plane and watch it fly in the wĭnd*. Underline **i**.

12. group

Number 12: group. Every group solved the problem. Underline **o-u**.

### NUMBERS 13–24 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- |          |            |

## ▶ Student Study

---

▶ Note: This is a brief activity of 1 or 2 minutes.

Now turn to page 9. If you missed a word on the test last week, you have put an **S** by it. Now study the words that have **S** by them. If you did not miss any words on the test last week, study the words that may be hard for you.

▶ If you are differentiating instruction, remind each below-grade-level speller to study the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

### ► Teacher Background

---

The weekly spelling test consists of all of the week's new words, four review words, and two application words. The application words assess the students' knowledge of the spelling concepts and are not announced in advance.

Provide the students with paper for the spelling test.

If you are not differentiating spelling instruction, have all the students write the first 18 words. If you are differentiating instruction, have the below-grade-level spellers spell the first 10 words, the average spellers spell the first 18 words, and the advanced spellers spell all 20 words.

We recommend that you collect the tests and correct them yourself so that you can conduct an informal assessment of your class's progress. As you correct the tests, notice particularly the students' spelling of the application words, numbers 1 and 2. Students who misspell numerous consonant and short vowel sounds may not be ready for grade 3 spelling.

### ► Administer the Spelling Test

---

Hand out test paper. Have the students put their names at the top and number from 1 to 18.

The test words appear on the following page. Pronounce each word and use it in a sentence. You may use the sentences that are provided. Note that the students do not write the sentences.

| 19. family | The family went to the show.      |
| 20. person | They wondered who the person was. |

## Endings **s** and **es**

### ► New Content

---

The sound /əz/ at the end of a word often tells us there is more than one of something, as in the noun *dishes*, *They washed the dishes*. The sound /əz/ can also be used at the end of a word about what one person is doing, as in the verb *catches*, *He catches the ball*.

The sound /əz/ added at the end of a word is spelled **es**.

### ► Teacher Background

---

Make a copy of the Week 4 homework (*Blackline Masters* page 5) for each student.

The symbol /ə/ stands for an unaccented short **u** sound. It is called a “schwa.” It is used in the *Guided Spelling* program to indicate the unaccented vowel sound in the endings **es** and **ed**.

On Day 2 of this week, you will introduce the “dictionary and personal word list” (found on *Student Spelling Book* pages 175–180). The students will use the dictionary and personal word list during writing and not during guided spelling.

On Day 3, the students will practice visualizing one of the sight words.

The pre-spelling activities this week focus on counting vowels and consonants as preparation for doubling the final consonant before an ending.

An optional spelling activity is provided for the students each week in the *Student Spelling Book*. The activity for Week 4, found on *Student Spelling Book* page 26, focuses on words with the endings **s** and **es**. This activity may be done independently or as partner work.

► **Record Words Missed**

- Return the students' spelling tests from Week 3.

Turn to page 15. There is a line next to every number. If you missed a word on your spelling test, find the word on this page. Write **S** on the line. The **S** will remind you to study the word.

- If your students are accustomed to using highlighters, you may want to have them highlight the words missed.

If you missed the application words, numbers 1 and 2 on the test, you will not find them on page 15.

## ► Teacher Background

The pre-spelling activities this week will prepare the students for doubling the final consonant (before adding the ending **ed** or **ing**) in Week 5. You will show the students how to count the vowels and following consonants in a word. If your students have difficulty differentiating between vowels and consonants, you may wish to first have them say whether each letter in the word is a vowel or a consonant. More information about doubling is included in the introduction to Week 5.

On Day 2 of each week, beginning this week, the last sight word will be a contraction. Most of the contractions in grade 3 of the *Guided Spelling* program are contractions of irregular words, for example, *you're* and *who's*. When a contraction ends with 's, the 's may stand for *is* or *has*, depending on how it is used. In *Who's going?* the word *who's* is a contraction of *who is*. In *Who's found the book?* the word *who's* is a contraction of *who has*.

In this lesson, you will introduce the students to the dictionary and personal word list (found on *Student Spelling Book* pages 175–180). The dictionary and personal word list consists of the words on the weekly lists excluding application words and challenge words. Sight words are underlined. The dictionary and personal word list can be used by the students if they need help spelling accurately during writing.

If the students do not know how to look up words in a dictionary, plan to spend time explaining and modeling how to do this.

## ► Pre-spelling: Consonants After the Vowel

► Write on the board: zip check feel match

Soon we'll spell more words with the ending **e-d**. We'll have to count the vowels and consonants in a word.

► Optional: If your students cannot quickly identify letters as vowels or consonants, point to each letter in the words and have them tell whether it is a vowel or a consonant.

zip \_ \_ \_

► Point to **i** in *zip*.

How many vowels are in this word?

check

- ▶ Point to **p**.

How many consonants are after the vowel?

(Memory steps) Underline the hard part: **o-n-apostrophe-t**.

## ► Introduce the Dictionary and Personal Word List

Have the students turn to the dictionary and personal word list, beginning on page 175 of the *Student Spelling Book*. Explain how the students might use it during writing:

- The students may look up words as they write. Explain that sight words are underlined.
- The students may keep track of words they misspell in class writing. When they spell a word incorrectly, they find it on the list and write **S** in the space in front of the word. Remind the students that **S** means "I need to study this word."
- The students may add words in the spaces after the words for each letter.

If necessary, take time to model how to find words in the dictionary and personal word list. If the students are not familiar with how to use a dictionary, model looking up several words. If needed, repeat this process several times over the course of a week.

### ► Teacher Background

Remember to teach the lessons at a fairly quick pace; this will help sustain the students' effort and interest. Each day's lesson is intended to last about 15 minutes.

Beginning this week, the students will practice visualizing one sight word on Day 3 of each week. Visualizing is a study aid that is helpful to many students.

### ► Pre-spelling: Consonants After the Vowel

- Write on the board: clock pinch seat fit
- Optional: If your students cannot quickly identify letters as vowels or consonants, point to each letter in the words and have them tell whether it is a vowel or a consonant.

## ▶ Student Study

---

- ▶ Note: This is a brief activity of 1 or 2 minutes.

Now turn to page 15. If you missed a word on the test last week, you have put an **S** by it. Now study the words that have **S** by them. If you did not miss any words on the test last week, study the words that may be hard for you.

- ▶ If you are differentiating instruction, privately remind each below-grade-level speller to study the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

### ► Teacher Background

---

The weekly spelling test consists of all of the week's new words, four review words, and two application words. The application words assess the students' knowledge of the spelling concepts and are not announced in advance.

Provide the students with paper for the spelling test.

If you are not differentiating spelling instruction, have all the students write the first 18 words. If you are differentiating instruction, have the below-grade-level spellers spell the first 10 words, the average spellers spell the first 18 words, and the advanced spellers spell all 20 words.

We recommend that you collect the tests and correct them yourself so that you can conduct an informal assessment of your class's progress. As you correct the tests, notice particularly the students' spelling of the application words, numbers 1 and 2. Students who misspell numerous consonant and short vowel sounds may not be ready for grade 3 spelling.

### ► Administer the Spelling Test

---

Hand out test paper. Have the students put their names at the top and number from 1 to 18.

The test words appear on the following page. Pronounce each word and use it in a sentence. You may use the sentences that are provided. Note that the students do not write the sentences.

## Doubling with Endings **ed** and **ing**

### ► New Content

---

When we add **ed** or **ing** to a single-syllable word that has *one* vowel and ends with *one* consonant, we first double the final consonant of the base word, as in *hopped* and *cutting*.

### ► Teacher Background

---

Make a copy of the Week 5 homework (*Blackline Masters* page 6) for each student.

Exceptions to the doubling generalization are introduced in Week 19; the exceptions include words that end in **x** and words that end with the vowel spellings **ay, ey, oy, uy, aw, ew, ow**.

In the pre-spelling activities this week, you will model doubling the final consonant before adding an ending.

Make a copy of *Blackline Masters* page 42 and post it where all the students can see it. This poster will remind the students when to double: “One vowel, One consonant after the vowel, Then double.”

Your professional judgment as a teacher is key to making the *Guided Spelling* program effective for all learners. Keep the following things in mind:

- The *Teacher’s Manual* provides decreasing guidance as the students gain an understanding of each spelling concept. In the week in which a spelling concept is introduced, full support is provided throughout the week. In subsequent weeks less guidance is given. For example, in Week 1 the guidance for short **a** in *add* is “If you aren’t sure how to spell the short vowel sound /ă/, look for the cat at the chair.” After Week 1 that support for short **a** is no longer included in the dialogue for guiding.

- Some students may need a longer period of full support. For example, if the weekly tests from Weeks 1–4 showed that your students are still making errors on short vowels, increase your support to the level of the weeks in which the short vowels were introduced (Week 1 for **a**, **e**, and **i**; Week 2 for **o** and **u**).
- To locate where the maximum guidance occurs for each spelling concept, consult the index on pages 473–476. The index directs you to the page with the first instance of guiding for each spelling concept.

## ► Words Used This Week

NEW PATTERN AND THINK WORDS	*planned, *missing, *dishes, *sitting, brings, grass, sent, lost
NEW SIGHT WORDS	*dead, *die, tie, field
REVIEW PATTERN AND THINK WORDS	*hands, *glasses, *passes, *facts, length, eggs, spent, send

### ► Pre-spelling: Doubling

This week I'll show you that you may have to change the base word when you add **e-d** or **i-n-g**.

► Write on the board: hop hopped

Read these words with me: *hop, hopped*.

hopped — —

► Point to *hopped*.

What is the base word in *hopped*?

Look at *hopped*. I had to write another **p**. That is called *doubling*. I made the last letter double. I made two of them. Say “double.”

► Point to the poster.

Read this poster with me: One vowel, One consonant after the vowel, Then double.

ripped — —

I will write *ripped*. I *ripped* my jacket. *Ripped*. First I write the base word, *rip*.

► Write *rip* on the board. Point to **i**.

I see *one* vowel.

► Point to **p**.

I see *one* consonant after the vowel. I read the poster again: One vowel, One consonant after the vowel, Then double.

► Point to **p**.

I need to double this last consonant. I add another **p**. I'm writing *ripped*. I hear the ending /t/, so I add **e-d**. *Ripped*.

### ► Introduce This Week's Words

Open your spelling books to page 27. Read the words and sentences with me.

I. planned — —

Number 1: planned. The class planned a science experiment.

The base word is *plan*. The **n** was doubled and then the ending **e-d** was added.

### ► Introduce the Homework

- Hand out the Week 5 homework.

---

### ► Record Words Missed

- Return the students' spelling tests from Week 4.

Turn to page 21 in your spelling books.

There is a line next to every number. If you missed a word on your spelling test, find the word on this page. Write **S** on the line. The **S** will remind you to study the word.

- If your students are accustomed to using highlighters, you may want to have them highlight the words missed.

If you missed the application words, numbers 1 and 2 on the test, you will not find them on page 21.

### ► Pre-spelling: Doubling

I will remind you how to double the last consonant before you add **i-n-g**.

humming

I will write *humming*. *She was humming a tune. Humming*. First I write the base word, *hum*.

► Write *hum* on the board. Point to **u**.

I see *one* vowel.

► Point to **m**.

I see *one* consonant after the vowel. I read the poster again: *One vowel, One consonant after the vowel, Then double*.

► Point to **m**.

I need to double this last consonant. I add another **m**. I'm writing *humming*. I hear the ending /ing/, so I add **i-n-g**. *Humming*.

### ► Guided Spelling

## ► Student Study

---

► Note: This is a brief activity of 1 or 2 minutes.

Now turn to page 21. If you missed a word on the test last week, you have put an **S** by it. Now study the words that have **S** by them. If you did not miss any words on the test last week, study the words that may be hard for you.

► If you are differentiating instruction, remind each below-grade-level speller to study the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

For details about the weekly test, see page 50.

## Review of Weeks 1, 2, 3, and 4

### ► Teacher Background

---

Duplicate the three homework pages for this week (*Blackline Masters* pages 7–9).

On Day 1, you will give a pretest. The students will correct the pretests in class as you read the answers. The students will note which words they need to study.

The Day 2 lesson introduces proofreading practice. The students will work with partners to find spelling errors in sentences.

On Day 3, the students will study for the review test with partners.

The Day 4 lesson includes a class discussion to help the students become more aware of how to spell correctly when writing.

On Day 5, you will give the review test.

If you are differentiating instruction, have the below-grade-level spellers study just the starred words on *Student Spelling Book* page 33. Have the average spellers study all the words on page 33 except the challenge words. Have the advanced spellers study all words on page 33, including the challenge words.

The pre-spelling activities this week provide practice on doubling the final consonant.

In the optional spelling activity this week (*Student Spelling Book* page 36), the students alphabetize words. If your students do not know how to arrange words in alphabetical order, you may wish to practice alphabetizing with them as described in “Introduce the Optional Spelling Activity” at the end of Day 1.

### ► Correct the Pretest

---

I will read and spell each word. Point under each letter as I spell. If you did not spell the word correctly, draw a line through the word.

- Read and spell the 12 words out loud.

---

## ▶ Record Words Missed on the Pretest

---

Turn back to page 33. These are the words that we will review this week. If you missed any words on the pretest, find the words on this page and write **S** in front of each one. These are words that you especially need to study.

## ▶ Introduce the Homework

---

▶ Hand out the homework for Week 6. There are three pages of homework this week. The students will practice every review word.

## ▶ Record Words Missed on Last Week's Test

---

▶ Return the students' spelling tests from Week 5.

Turn to page 27 in your spelling books. Write **S** on the line in front of each word that you missed. Remember to study these words especially. If you missed the application words, numbers 1 and 2 on the test, you will not find them on page 27.

## ▶ Introduce the Optional Spelling Activity

---

In the optional spelling activity this week (*Student Spelling Book* page 36), the students alphabetize words. If your students do not know how to arrange words in alphabetical order, you may wish to practice alphabetizing with them as described below.

- ▶ Write on the board: still with add
- ▶ Have the class tell you the alphabetical order for these words as you rewrite them on the board.

## Proofreading

### ► Teacher Background

**ELPS 5.C.iii**  
Teacher Background  
and Pre-spelling:  
Decide Whether to  
Double (beginning on  
page 105 and  
continuing on to page  
106)

The activity in this lesson develops proofreading skills. The students will work with partners to find the misspelled words and write them correctly in their *Student Spelling Books*. There are one, two, three, or no words misspelled in each sentence.

In the pre-spelling activities this week, the students will practice deciding whether to double the last consonant before adding **ed** or **ing**.

### ► Pre-spelling: Decide Whether to Double

Help me decide whether to double the last consonant.

scratched

Scratched. He scratched his arm. Scratched.

What is the base word? (Students: scratch)

► Write *scratch* on the board. Point to **a**.

Is there *one* vowel?

► Point to **tch**.

Is there *one* consonant after the vowel? (Students: no, three)

Will we double the **h**? (Students: no)

► Add **ed**.

Scratched.

Is there *one* consonant after the vowel? ■ Will we double the **t**?  
(Students: yes)

► Add **ting**.

Petting.

looking

Looking. She was looking for the book. Looking.

Base word?

► Write *look* on the board. Point to **oo**.

Is there one vowel? (Students: no, two) Will we double the **k**? (Students: no)

► Add **ing**.

Looking.

---

## ► Partner Proofreading

► Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three.

Open your spelling books to page 35. On this page, you will see many of the words that we have studied, but some of them are not spelled correctly. Today you will proofread these sentences with your partner. *Proofread* means *look for mistakes*. Read each sentence with your partner. Together you will look for misspelled words. When you find a misspelled word, draw a line through it and write the correct word above it. You may find a sentence with every word correct.

► As the students work, monitor and assist those who need extra support in proofreading.

---

## ► Correct Sentences Together

Let's read each sentence together. You tell me each misspelled word and how to spell it correctly. I will write the correct word on the board. If you made a mistake, draw a line through the word.

1. They bougt fresh milk and eggs. Misspelled words?

(Students: bought, b-o-u-g-h-t)

► Write *bought* on the board.

2. The box held a thick, soft pillow for the cat. Misspelled words?

(Students: no misspelled words)

3. Wich math facs have you learned this munth? Misspelled words?

(Students: which, w-h-i-c-h, facts, f-a-c-t-s, month, m-o-n-t-h)

► Write *which*, *facts*, and *month* on the board.

4. My fother and muther wo'nt mind if I hold the snake. Misspelled words? (Students: father, f-a-t-h-e-r, mother, m-o-t-h-e-r, won't, w-o-n-apostrophe-t)

▶ Write *father*, *mother*, and *won't* on the board.

5. She lost her glases, and they are stil missing. Misspelled words? (Students: glasses, g-l-a-s-s-e-s, still, s-t-i-l-l)

▶ Write *glasses* and *still* on the board.

---

## ▶ Record Words Missed in Proofreading

If there is a misspelled word that you did not find, turn back to page 33 and write **S** next to the word. If there is a word that you did not write correctly, find the word on page 33 and write **S** next to it. These are words that you especially need to study.

## Partner Study

### ▶ Teacher Background

During partner study time, the students will study for the review test with a partner. Have the students work with their partners from Day 2. First model the procedure with a partner. Then have a few pairs model the procedure for the class. As partners practice the procedure for partner study, circulate and help pairs as needed.

### ▶ Pre-spelling: Decide Whether to Double

Help me decide whether to double the last consonant.

snapped

Snapped. The elastic band snapped. Snapped.

Base word?

▶ Write *snap* on the board. Point to **a**.

Is there one vowel?

▶ Point to **p**.

Is there one consonant after the vowel? ■ Will we double the **p**?  
(Students: yes)

▶ Add **ped**.

Snapped.

honking

Honking. The drivers were honking their horns. Honking.

Base word?

▶ Write *honk* on the board. Point to **o**.

Is there one vowel?

▶ Point to **nk**.

Is there one consonant after the vowel? (Students: no, two)  
Will we double the **k**? (Students: no)

▶ Add **ing**.

Honking.

## ▶ Partner Study

Open your spelling books to page 33. Today you will work with a partner to study the spelling words.

▶ Select a student to act as your partner. Explain and model the procedure for working with a partner as described below.

Choose a word to study, and tell your partner the number and word, for example, “Number 3: add.” Then ask your partner to put his finger under number 3, *add*.

Say what the hard parts are, for example, “The hard part in *add* is **d-d**.” Then cover the word and spell it out loud: **a-d-d**. Ask your partner to check as you spell the word and to say whether it is spelled correctly.

If you did not spell the word correctly, both of you cover the word and spell it together.

If you missed the word, write **S** in front of the word to remind you to study it.

▶ Switch roles and have your partner choose a word to study; model the partner study procedure with the new word. Then have the students work with their partners and take turns choosing and spelling words. Circulate as partners work, observe the students, and help them as necessary to study the words together. Encourage the students to choose words that are hard for them.

## Spelling Discussion

### ► Teacher Background

The purpose of today's spelling discussion is to help your students use the strategies practiced and learned in guided spelling in their everyday writing. In the drafting stage of writing, the students' focus should be on recording their ideas without stopping to worry about spelling, but in the revision/proofreading stage the students should pay careful attention to spelling.

### ► Pre-spelling: Decide Whether to Double

Help me decide whether to double the last consonant.

hearing — —

Hearing. The nurse tested our hearing. Hearing.

Base word?

► Write *hear* on the board. Point to **ea**.

Is there one vowel? (Students: no, two) Will we double the **r**? (Students: no)

► Add **ing**.

Hearing.

passed — —

Passed. He passed us on his bicycle. Passed.

Base word?

► Write *pass* on the board. Point to **a**.

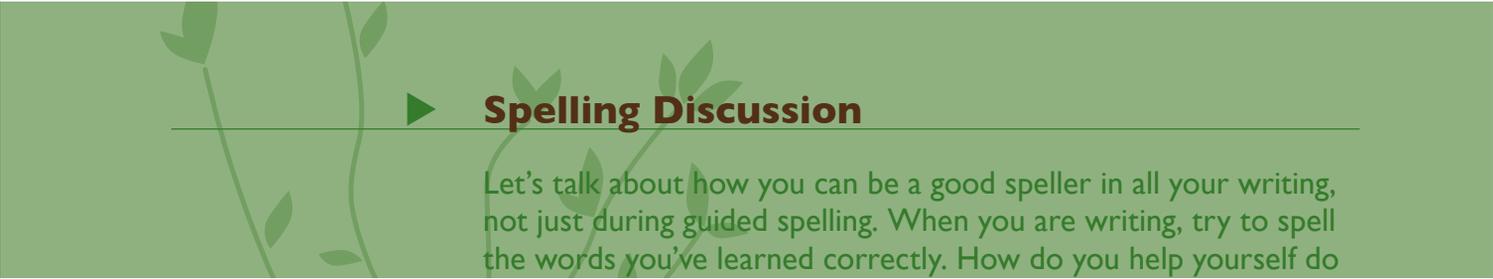

Is there one vowel?

► Point to **ss**.

Is there one consonant after the vowel? (Students: no, two)  
Will we double the **s**? (Students: no)

► Add **ed**.

Passed.

## ▶ **Spelling Discussion**

---

Let's talk about how you can be a good speller in all your writing, not just during guided spelling. When you are writing, try to spell the words you've learned correctly. How do you help yourself do that?

The students might say:

"I sound out the word."

"I use the spelling-sound chart."

"I write the word and see whether it looks right."

"Sometimes I look up the word in my dictionary and personal word list at the back of my spelling book, or I look it up in the classroom dictionary."

▶ If the students have difficulty thinking of how they can spell words correctly when they are writing, share some of the ideas listed above and ask them to think of additional ways.

## ▶ **Partner Study**

---

If time permits, have the students study the review words on *Student Spelling Book* page 33 with their partners, as on Day 3.

## Weekly Test

For details about the weekly test, see page 50.

### ADVANCED SPELLERS CONTINUE

19. hundred One hundred centimeters equal 1 meter.
20. travel She wants to travel to the moon.

## ▶ Ongoing Assessment of Spelling Progress

Take some time to assess the progress of your students.

Were there many errors on numbers 1 and 2, the application words (the words the students did not study)? If so, you may need to provide more support during daily guided spelling in order for the students to spell by hearing the sounds in the words. For more information about increasing your level of support, see pages 85–86.

Were there many errors on memory parts of words? The memory parts are the letter sequences that must be memorized because they can't be figured out using phonics knowledge. Examples are the underlined letters in the following words: glasses, cold, bought. If the students are making errors on the memory parts, discuss the importance of spelling homework. Be sure the students and parents understand the homework instructions and the importance of using the three memory steps.

If you have been differentiating instruction, are your below-grade-level, average, and advanced spellers correctly designated? Consider the students' performance on all spelling tests to date. If some students have consistently made several errors on the tests, consider having them memorize fewer words each week. If average spellers have made no errors on the tests, they may be able to learn the challenge words each week. Consider student effort as well as performance, however. Some students with perfect tests may have studied intensely and would find it difficult to memorize additional words.

Is there a gap between the students' test performance and their class writing beyond spelling lessons? Continue to encourage your students to use the spelling strategies they have learned when they are proofreading and revising their writing. You may wish to occasionally revisit the students' ideas from the spelling discussion on Day 4 of this week (see page 111).

## Sound /ch/ Spelled **tch**; Sound /j/ Spelled **dge**

### ► New Content

---

The sound /ch/ directly after a short vowel in a single-syllable word is usually spelled **tch**, as in *match*.

The sound /j/ directly after a short vowel in a single-syllable word is spelled **dge**, as in *judge*.

One clue in spelling is *where* in a word you hear a sound. For example, in a single-syllable word the sound /j/ *after* a short vowel is spelled **dge**.

### ► Teacher Background

---

Make a copy of the Week 7 homework (*Blackline Masters* page 10) for each student.

Some high-frequency exceptions to /ch/ spelled **tch** are *much*, *such*, *which*, and *rich*.

One additional guiding point is introduced this week: the sound /r/ at the beginning of a word is sometimes spelled **wr**, as in *wrong*.

In the *Guided Spelling* program, the level of guidance in the lessons is decreased after the week in which a new concept is introduced. For example, from Week 7 on the students no longer read the doubling poster. However, if your students continue to need more guidance, continue the level of support that is provided when the concept is first introduced.

A few reminders:

- Be sure your class understands that guided spelling is not a test. The students should listen to your step-by-step guidance so that they write the words correctly.

- Teach the lessons at a fairly quick pace. Difficult concepts will be reviewed many times.
- If some of the students make a mistake in the choral response, tell the class the correct answer and repeat the question.

In Week 7, there are two pre-spelling activities each day. The first focuses on the meaning of the terms “short vowel” and “long vowel.” In the second activity, the students say words by syllables in preparation for writing polysyllabic words in Week 8.

## Sound /ē/ Spelled **y**; Spelling Words of More Than One Syllable

### ► New Content

---

The sound /ē/ at the end of a word that has more than one syllable is usually spelled **y**, as in *happy* and *baby*.

When writing a word that has more than one syllable, spell one syllable at a time.

### ► Teacher Background

---

Make a copy of the Week 8 homework (*Blackline Masters* page 11).

The spelling **y** for the sound /ē/ at the end of a polysyllabic word is shown as \_\_\_\_y with the other long **e** spellings on the spelling-sound chart (see the “tree” picture). The long blank in \_\_\_\_y indicates that the spelling is used in polysyllabic words. Other spellings of the sound /ē/ at the end of a polysyllabic word are much less frequent than **y**, as in *coffee*, *recipe*, *monkey*, and *Pattie*.

In some regions, speakers pronounce **y** at the end of a polysyllabic word as an unaccented short **i**.

Beginning this week you will guide the students in spelling polysyllabic words. Polysyllabic words are generally more difficult to spell than single-syllable words.

- Polysyllabic words tend to be longer than single-syllable words. To help the students with this increased challenge, you will have the students say the word by syllables before they write. Be sure that they pause between syllables; for example, have them say “fif...ty,” not “fiffy.” In addition, they will say each syllable before they write it. When they check, they will first read the whole word, and then read and spell the word by syllables.

- Many polysyllabic words are not spelled as they sound. For example, a person who does not know how to spell probably hears the syllables in *body* and *happy* as *bö-dy* and *hă-py*. Dictionaries show the syllables as *bod-y* and *hap-py*. You will help the students spell polysyllabic words by telling them the syllables as they appear in the dictionary.

One additional guiding point is introduced this week: when we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself, for example, *pa-per* and *pro-gram*.

In the pre-spelling activities this week, you will model how to spell polysyllabic words by syllables. On Day 2, you will model spelling a long vowel sound at the end of a syllable.

Student/Teacher Narrative  
Guided Spelling section  
(Words: fifty, plenty,  
happy, quickly)

Number 1: fifty. Two times fifty equals one hundred. Say *fifty*.

This year you will be writing many words with more than one syllable. I will have you say each word by syllables. Stop between the syllables. Listen to me say *fifty* by syllables: *fif...ty*. Everyone say *fifty* by syllables. (Students: *fif-ty*)

► Be sure that the students pause between syllables.

First syllable? (Students: *fif-*) Write *fif-*.

Second syllable? (Students: *-ty*) The sound /ē / at the end of a word with more than one syllable is spelled **y**. Write *-ty*.

Let’s check. When you check a word with more than one syllable, you’ll first read the word. Then you’ll read and spell the word by syllables. Listen: *fifty*, *fif*, **f-i-f**, *-ty*, **t-y**. Read the word. (Students: *fifty*) Read and spell *fifty* by syllables as I write it. (Students: *fif-*, *f-i-f*, *-ty*, *t-y*) Check your word.

2. plenty — —

Number 2: plenty. There is plenty of food for everyone. Say *plenty*.

Say *plenty* by syllables. (Students: *plen-ty*) First syllable? (Students: *plen-*) Write *plen-*.

Second syllable? (Students: *-ty*) The sound /ē / at the end of a word with more than one syllable is spelled **y**. Write *-ty*.

Let’s check. Read the word. (Students: *plenty*) Read and spell *plenty* by syllables as I write it. You say *plen-*, **p-l-e-n**, *-ty*, **t-y**. (Students: *plen-*, *p-l-e-n*, *-ty*, *t-y*) Check your word.

3. happy

Number 3: happy. She was happy when school started. Say *happy*.  
Say *happy* by syllables. ■ When we say *happy*, the syllables sound like *hă-py*. However, in guided spelling I will say the syllables differently to help you spell: *hap-py*. Repeat the syllables.  
(Students: hap-py)

► Be sure that the students pause between syllables.

## ▶ Introduce the Homework

---

- ▶ Hand out the Week 8 homework.

## ▶ Record Words Missed

---

- ▶ Return the students' spelling tests from Week 7.

Turn to page 37. Write **S** on the line in front of each word that you missed. Remember to study these words especially. If you missed the application words, numbers 1 and 2 on the test, you will not find them on page 37.

## ► Teacher Background

In the pre-spelling activity today, you will model the spelling of syllables that end with a long vowel sound. When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself, as in *gra-vy* or *ti-dy*.

## ► Pre-spelling: Spelling by Syllables

## Vowel-consonant-e

### ► New Content

---

In reading when we see a word with vowel-consonant-**e** at the end, the vowel before **e** is usually long, as in *name* and *compute*.

In spelling when we hear a long vowel sound and then a consonant at the end, we often spell it vowel-consonant-**e**. We call the **e** “silent **e**” because we do not hear it.

The sound /f/ is sometimes spelled **ph**, as in *phone*.

A mnemonic (nə-mŏn-ĭc) helps us remember how to spell a word. The sentence “Clothes are usually made of cloth” can remind us that the word *cloth* is in the word *clothes*.

### ► Teacher Background

---

Make a copy of the Week 9 homework (*Blackline Masters* page 12) for each student.

This week’s new pattern is sometimes referred to as “final **e**,” “final silent **e**,” or “magic **e**.” The **e** at the end indicates that the preceding vowel is long. The exceptions are taught in this program as sight words, for example, *gone*, *move*, and *done*.

This week you will show the students how to use the mnemonic sentence in the *Student Spelling Book* to help them memorize the word *clothes*.

One additional guiding point is introduced this week: the sound /j/ after a long vowel is spelled **g**, as in *page*.

In the pre-spelling activities this week, you will model the spelling of long vowel-consonant-**e** words such as *time* and *mute*.

## ► Words Used This Week

NEW PATTERN AND THINK WORDS	*gave, *nine, *page, *phone, live (2), inside, change, strange
NEW SIGHT WORDS	*pretty, *chief, clothes, shoes
REVIEW PATTERN AND THINK WORDS	*plenty, *quickly, *happy, *fifty, empty, body, judge, funny
REVIEW SIGHT WORDS	*push, *gold, break, floor
CHALLENGE WORDS	perhaps, special, complete, paragraph
APPLICATION WORDS ON THE TEST	dusty, patch
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	photo, cage, budge, triumph, jolly, dresses, dolphin, write, bunches, weren't, wristwatch, St.

### ► Pre-spelling: Vowel-consonant-e

I will show you how to spell a vowel-consonant-**e** word. I'll write *time*.

time — — —

► Write on the board: **t**

The next sound is /ī/. Which picture reminds us how to spell the sound /ī/? ■ Yes, the “kite” picture.

► Point to **i\_e**.

I use the first spelling, **i-blank-e**. Say “**i-blank-e**.” ■ I write **i**.

► Point to **i\_e**.

The blank means that you need a letter in that spot. What letter goes in the blank for *time*? ■ Yes, **m**.

► Write **m**.

The spelling for /ī/ is **i-blank-e**. What part do I still have to write? (Students: **e**)

► Write **e**.

*Time*. The **e** is important. If we don't add **e**, the **i** will not be a long **i**. We don't hear **e**.

### ► Introduce This Week's Words

Open your spelling books to page 49. Read the words and sentences with me.

1. gave — — —

Number 1: gave. I gave my dog a biscuit.

► Point to **a\_e** under the “cake” picture.

The “cake” picture has the long **a** spellings under it. The sound /ā/ in *gave* is spelled **a-blank-e**. Underline **a** and **e**.

2. nine — — —

Number 2: nine. Her sister turned nine today.

► Point to **i\_e** under the “kite” picture.

The “kite” picture has the long **i** spellings under it. The sound /ī/ in *nine* is spelled **i-blank-e**. Underline **i** and **e**.

3. page

Number 3: page. The page had a beautiful illustration.  
Underline **a** and **e**.

4. phone

Number 4: phone. The ringing phone woke us up.  
The sound /f/ is sometimes spelled **p-h**, for example, in *phone*, *telephone*, and *phonics*. Underline **p-h**.

► Point to **o\_e** under the “bone” picture.

The “bone” picture has the long **o** spellings under it. The sound /ō/ in *phone* is spelled **o-blank-e**. Underline **o** and **e**.

5. live (2)

Number 5 has two pronunciations: *lī ve* and *lī ve*. Say *lī ve*. ■ Say *lī ve*. ■ *Lī ve* snails can *lī ve* in the tank.

The (2) after this word means that it can be said two ways. This word can be *lī ve*, *Lī ve snails are alive*. It can also be *lī ve*, *Snails live in the tank*. Let’s read the sentence together: *Lī ve snails can lī ve in the tank*. Underline **i** and **e**.

6. inside

TEKS 2.B.xviii  
Student/Teacher Narrative  
Guided Spelling section  
(Word: inside)

Number 6: inside. We stayed inside because of the rain.  
*Inside* has two syllables: *in-side*. Put a dot between the syllables. ■ The second syllable is *-side*. Underline **i** and **e** in the second syllable.

7. change

Number 7: change. They always change their clothes after school.  
Underline **a** and **e**.

10. chief

Number 10: chief. The chief is the leader.  
Underline **i-e**.

11. clothes

Number 11: clothes. Clothes are usually made of cloth.

► If your students pronounce *clothes* and *close* the same way, explain the homophone.

HOMOPHONE *Clothes* is a homophone. It’s not *close*, *Close the door*. It’s *clothes*, *the clothes you wear*.

**MNEMONIC** The sentence *Clothes are usually made of cloth* will help you spell *clothes*. The word *cloth* is in the word *clothes*. Something that helps you remember is called a *mnemonic* (nə-mŏn-ĭc).

Underline **t-h**.

12. shoes

Number 12: shoes. I tied my little brother's shoes.

Underline **o-e**.

### NUMBERS 13–24 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

## Sound /s/ Spelled **c** Before **e, i, and y**

### ► New Content

If the sound *after* the sound /s/ is spelled **e, i, or y**, the sound /s/ is often spelled **c**, as in *cent, city, and fancy*.

### ► Teacher Background

Make a copy of the Week 10 homework (*Blackline Masters* page 13) for each student.

In this week’s lessons, the amount of guidance provided for writing vowel-consonant-**e** words is decreased. If your students need more support for writing vowel-consonant-**e** words, continue to provide the level of guidance shown in Week 9.

Two additional guiding points are introduced this week: the sound /k/ after a long vowel is spelled **k**, as in *wake*; the sound /s/ after a long vowel is spelled **c** or **s**, as in *place* and *base*.

In the pre-spelling activities this week, you will continue to model the spelling of the pattern “long vowel-consonant-**e**” as in *cave* and *provide*.

### ► Introduce the Homework

- Hand out the Week 10 homework.

---

### ► Record Words Missed

- Return the students' spelling tests from Week 9.

Turn to page 49. Write **S** on the line in front of each word that you missed. Remember to study these words especially. If you missed the application words, numbers 1 and 2 on the test, you will not find them on page 49.

# Week 10 Day 2

## ▶ Teacher Background

In the pre-spelling activities this week, you will continue to model the spelling of the pattern “long vowel-consonant-e” as in *cave* and *provide*.

## ▶ Pre-spelling: Vowel-consonant-e

I will remind you how to spell a vowel-consonant-**e** word.

cave

I'll write *cave*.

▶ Write on the board: **c**

The next sound is /ā/. Which picture shows the ways to spell the sound /ā/? ■ Yes, the “cake” picture.

▶ Point to **a\_e**.

I use the first spelling, **a-blank-e**. I write **a**.

▶ Point to **a\_e**.

What letter goes in the blank for *cave*?

▶ Write **v**.

The spelling for /ā/ is **a-blank-e**. What part do I still have to write? ■ Yes, **e**.

▶ Write **e**.

Cave.

## Sound /ē / Spelled **ee** and **ea**

### ► New Content

The sound /ē/ is often spelled **ee** and often spelled **ea**, as in *see* and *heat*.

### ► Teacher Background

Make a copy of the Week 11 homework (*Blackline Masters* page 14) for each student.

This week you will introduce the students to a routine for spelling sounds with multiple spellings. For example, if you dictate the word *need*, some students may not know whether to spell *nede*, *need*, or *nead*. In the spelling routine, you say, “Question?” meaning, “Ask me a question if you don’t know which spelling of /ē/ to use for *need*.” The students ask, “Which /ē/?” You hold up two fingers to indicate that they should use the second spelling under the “tree” picture on the spelling-sound chart. Students who do know the correct spelling may write the word without asking “Which /ē/?” and without consulting the chart.

One additional guiding point is introduced this week: the sound /z/ after a long vowel is spelled **z** or **s**, as in *blaze* and *rise*.

In the pre-spelling activities this week, the students will practice the routine for asking for help when they spell a sound with multiple spellings.

► **Pre-spelling: Ask Which Spelling**

Today I'll show you how I can help you spell long vowel sounds.

Look at the “edge of the chair” picture for short **e**. How many ways can we spell the sound /ĕ/? (Students: one)

Look at the “tree” picture for long **e**. How many ways can we spell the sound /ē/? (Students: four)

When you spell long vowel sounds, you need to learn which spelling to use.

team — — —

Let's say you are writing the word *team*, but you aren't sure which spelling of the sound /ē/ to use. I will say, “Question?” That means, “Ask me a question if you aren't sure how to spell this sound.” You will ask, “Which /ē/?” That means, “Which spelling under the ‘tree’ picture is the right one for *team*?”

I will answer with my fingers, not my voice. For *team* I will hold up three fingers. That means, “Use the third spelling under the ‘tree’ picture.” Which is the third spelling under the “tree” picture? (Students: e-a)

► Write *team* on the board.

teeth — — —

Let's practice. I will say, “Teeth. Question?” You ask, “Which /ē/?” (Students: which /ē/?) I hold up two fingers. You look under the “tree” picture to find the second spelling and say, “e-e.” (Students: e-e)

gain — — —

*Gain*. Question? (Students: which /ā/?)

► Hold up two fingers. (Students: a-i-blank)

stone — — —

*Stone*. Question? (Students: which /ō/?)

► Hold up one finger. (Students: o-blank-e)

## ► Introduce This Week's Words

Open your spelling books to page 61. Read the words and sentences with me.

1. feet

Number 1: feet. Hippopotamuses' feet are good for walking in mud.

► Point to **ee** under the "tree" picture.

The sound /ē/ in *feet* is spelled **e-e**. Underline **e-e**.

6. dreamed

Number 6: dreamed. (Use the word in a sentence.) Say *dreamed*.

Base word? ■ *Dream*. Listen to the sounds: *dream*. Which picture shows the ways to spell the sound /ē /? ■ If you aren't sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ē /?)

► Hold up three fingers for **ea** under the "tree" picture.

Write *dream*.

*Dreamed*. What will you decide? (Students: Do we double?)

Everyone point to **e-a**. Is there one vowel? (Students: no, two)

Will you double the last consonant? (Students: no) What's the spelling for the ending /d/? ■ Add **e-d**. (Check.)

7. wise

Number 7: wise. (Use the word in a sentence.) Say *wise*.

Which picture shows the ways to spell the sound /ī/? ■ If you aren't sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ī/?)

► Hold up one finger for **i-blank-e** under the "kite" picture. Careful. The sound /z/ in *wise* is spelled **s**. Write *wise*. (Check.)

### NOW YOU'LL WRITE THREE SIGHT WORDS.

8. chance

Number 8: chance. (Use the word in a sentence.) Say *chance*.

(Memory steps) Underline the hard part: **c-e**.

9. since

Number 9: since. (Use the word in a sentence.) Say *since*.

(Memory steps) Underline the hard part: **c-e**.

10. I'm

Number 10: I'm. (Use the word in a sentence.) Say *I'm*.

CONTRACTION *I'm* is a contraction. What two words does *I'm* come from?

(Memory steps) Underline the whole word.

### ► Teacher Background

Students who *do* know the correct spelling of words such as *need* and *clean* may write the words without asking you which spelling to use.

When you pronounce the syllables of *repeat* for the students, stress /ē/ in the first syllable.

### ► Pre-spelling: Ask Which Spelling

Remember, in guided spelling I want you to ask me questions when you aren't sure how to spell a word.

knee — — —

Let's practice. I will say, "Knee. Question?" You ask, "Which /ē /?" (Students: which /ē /?) I hold up two fingers. You look under the "tree" picture to find the second spelling and say, "e-e." (Students: e-e)

blown — — —

*Blown. Question?* (Students: which /ō /?)

► Hold up three fingers. (Students: o-w)

drain — — —

*Drain. Question?* (Students: which /ā /?)

► Hold up two fingers. (Students: a-i-blank)

treat — — —

*Treat. Question?* (Students: which /ē /?)

► Hold up three fingers. (Students: e-a)

Pete — — —

*Pete. Question?* (Students: which /ē /?)

► Hold up one finger. (Students: e-blank-e)

### ► Guided Spelling

Open your spelling books to page 64.

I. three — —

Number 1: three. (Use the word in a sentence.) Say *three*.

If you aren't sure how to spell the word, raise your hand.

*Question?* (Students with raised hands: which /ě /?)

► Hold up two fingers for ee under the "tree" picture.

Write *three*. (Check.)

2. place

Number 2: place. (Use the word in a sentence.) Say *place*.

If you aren't sure how to spell the word, raise your hand.

Question? (Students with raised hands: which /ā /?)

► Hold up one finger for a-blank-e under the “cake” picture.

Careful. The sound /s/ in *place* is spelled **c**. Write *place*. (Check.)

3. repeat

Number 3: repeat. (Use the word in a sentence.) Say *repeat*.

Say *repeat* by syllables. ■ I'll say the syllables to help you spell:

*re-peat*. Repeat the syllables. ■ First syllable? ■ When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself. Write *re-*.

Second syllable? ■ If you aren't sure how to spell *-peat*, raise your hand. Question? (Students with raised hands: which /ē /?)

► Hold up three fingers for **ea** under the “tree” picture.

Write *-peat*.

Let's check. Read the word. ■ Read and spell by syllables as I write the word. ■ Check your word.

4. needed

Number 4: needed. (Use the word in a sentence.) Say *needed*.

Base word? ■ If you aren't sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ē /?)

► Hold up two fingers for **ee** under the “tree” picture.

Write *need*.

*Needed*. What will you decide? (Students: Do we double?)

Everyone point to **e-e**. Is there one vowel? (Students: no, two)

Will you double the last consonant? (Students: no) *Needed*.

What's the spelling for the ending /əd/? ■ Add **e-d**. (Check.)

5. queen

Number 5: queen. (Use the word in a sentence.) Say *queen*.

If you know how to spell *queen*, write *queen* now. If you aren't

sure how to spell the beginning of *queen*, raise your hand to ask

me. If you aren't sure how to spell the sound /ē /, raise your hand.

Question? (Students with raised hands: which /ē /?)

► Hold up two fingers for **ee** under the “tree” picture.

Write *queen*. (Check.)

6. means

Number 6: means. (Use the word in a sentence.) Say *means*.

If you aren't sure how to spell the word, raise your hand.

Question? (Students with raised hands: which /ē /?)

► Hold up three fingers for **ea** under the “tree” picture.

Write *means*. (Check.)

7. nearby

Number 7: nearby. (Use the word in a sentence.) Say nearby.

COMPOUND WORD *Nearby* is a compound word. The two small words are syllables.

Say *nearby* by syllables. ■ First syllable? ■ If you aren't sure how to spell *near-*, raise your hand. Question? (Students with raised hands: which /ē /?)

► Hold up three fingers for **ea** under the “tree” picture.

Write *near-*.

Second syllable? ■ If you aren't sure how to spell *-by*, raise your hand to ask me. Write *-by*.

Let's check. Read the word. ■ Read and spell by syllables as I write the word. ■ Check your word.

NOW YOU'LL WRITE THREE SIGHT WORDS.

8. half

Number 8: half. (Use the word in a sentence.) Say *half*.

VISUALIZING At the end of memory step 1, have the students close their eyes and visualize the word.

(Memory steps) Underline the hard part: **l**.

9. health

Number 9: health. (Use the word in a sentence.) Say *health*.

(Memory steps) Underline the hard part: **e-a**.

10. chance

Number 10: chance. (Use the word in a sentence.) Say *chance*.

(Memory steps) Underline the hard part: **c-e**.

### ► Teacher Background

Students who *do* know the correct spelling of words such as *feet* and *reads* may write the words without asking you which spelling to use.

### ► Pre-spelling: Ask Which Spelling

Remember, in guided spelling I want you to ask me questions when you aren't sure how to spell a word.

grown — —

Let's practice. I will say, "Grown. They've grown up. Question?" You ask, "Which /ō /?" (Students: which /ō /?) I hold up three fingers. You look under the "bone" picture to find the third spelling and say, "o-w." (Students: o-w)

shame — —

Shame. Question? (Students: which /ā /?)

► Hold up one finger. (Students: a-blank-e)

toast — —

Toast. Question? (Students: which /ō /?)

► Hold up two fingers. (Students: o-a-blank)

globe — —

Globe. Question? (Students: which /ō /?)

► Hold up one finger. (Students: o-blank-e)

night — —

Night. Question? (Students: which /ī /?)

► Hold up two fingers. (Students: blank-i-g-h)

### ► Guided Spelling

Open your spelling books to page 65.

1. seas — —

Number 1: seas. (Use the word in a sentence.) Say seas.

HOMOPHONE Seas is a homophone. It's not sees, as in *He sees us*. It's seas like oceans. If you aren't sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ē /?)

► Hold up three fingers for ea under the "tree" picture.

Write seas. (Check.)

2. icy

Number 2: icy. (Use the word in a sentence.) Say icy.

Say icy by syllables. ■ I'll say the syllables to help you spell: i-cy. Repeat the syllables. ■ First syllable? ■ We hear a long vowel sound at the end of the syllable, so what spelling will we probably use? ■ Write i-.

Second syllable? ■ Careful. If the letter after the sound /s/ is **e**, **i**, or **y**, the sound /s/ might be spelled **c**. If you aren't sure, raise your hand to ask me. Write -cy.

Let's check. Read the word. ■ Read and spell by syllables as I write the word. ■ Check your word.

3. fifteen

Number 3: fifteen. (Use the word in a sentence.) Say fifteen.

Say fifteen by syllables. ■ First syllable? ■ Write fif-.

Second syllable? ■ If you aren't sure how to spell -teen, raise your hand. Question? (Students with raised hands: which /ē /?)

► Hold up two fingers for **ee** under the "tree" picture.

Write -teen.

Let's check. Read the word. ■ Read and spell by syllables as I write the word. ■ Check your word.

4. cheese

Number 4: cheese. (Use the word in a sentence.) Say cheese.

If you aren't sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ē /?)

► Hold up two fingers for **ee** under the "tree" picture.

Careful. The sound /z/ in cheese is spelled **s-e**. Write cheese. (Check.)

5. reads

Number 5: reads. (Use the word in a sentence.) Say reads.

If you aren't sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ē /?)

► Hold up three fingers for **ea** under the "tree" picture.

Write reads. (Check.)

6. pledge

Number 6: pledge. (Use the word in a sentence.) Say pledge.

Pledge is a think word. Write pledge. (Check.)

7. feet

Number 7: feet. (Use the word in a sentence.) Say feet.

If you aren't sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ē /?)

► Hold up two fingers for **ee** under the "tree" picture.

Write feet. (Check.)

8. country

NOW YOU'LL WRITE THREE SIGHT WORDS.

Number 8: country. (Use the word in a sentence.) Say *country*.  
(Memory steps) Underline the hard part: **o-u**.

9. breath

Number 9: breath. (Use the word in a sentence.) Say *breath*.  
(Memory steps) Underline the hard part: **e-a**.

10. lb.

Number 10: pound. The label said "1 lb." Say *pound*.

ABBREVIATION Find the abbreviation for *pound* at the top of the page. It is spelled **l-b**-period. When we read the abbreviation we say *pound*. **L-b**-period is an abbreviation of the Latin word *libra*, which means *pound*.

(Memory steps) Underline the whole abbreviation.

## ► Student Study

► Note: This is a brief activity of 1 or 2 minutes.

Now turn to page 55. If you missed a word on the test in Week 10, you have put an **S** by it. Now study the words that have **S** by them. If you did not miss any words on the test, study the words that may be hard for you.

## Weekly Test

For details about the weekly test, see page 50.

## Review of Weeks 5, 7, 8, 9, and 10

### ► Teacher Background

---

Make a copy of the three homework pages for Week 12 (*Blackline Masters* pages 15–17) for each student.

On Day 1, you will give a pretest to help the students see which words they need to study.

Day 2 is proofreading practice. The students will work with partners to find spelling errors in sentences.

On Day 3, the students will study for the review test with partners.

The Day 4 lesson includes a class discussion to help the students become more aware of how to spell correctly when writing.

On Day 5, you will give the review week test.

If you are differentiating instruction, have the below-grade-level spellers study just the starred words on *Student Spelling Book* page 67. Have the average spellers study all words on page 67 except the challenge words. Have the advanced spellers study all words on page 67, including the challenge words.

In the pre-spelling activities this week, the students will practice hearing and spelling endings.

In the optional spelling activity this week (*Student Spelling Book* page 70), the students alphabetize words. If your students do not know how to alphabetize using the second letter of a word, you may wish to practice this with them as described in “Introduce the Optional Spelling Activity” at the end of Day 1.

| 12. scratch | Don't scratch your mosquito bite.         |

### ► Correct the Pretest

---

I will read and spell each word. Point under each letter as I spell. If you did not spell the word correctly, draw a line through the word.

- Read and spell the 12 words out loud.

### ► Record Words Missed on the Pretest

---

Turn back to page 67. Here are the words that we will review this week. If you missed any words on the pretest, find the words on this page and write **S** in front of each one. These are words that you especially need to study.

---

## ▶ Introduce the Homework

- ▶ Hand out the homework for Week 12. There are three pages this week. The students will practice every review word.

---

## ▶ Record Words Missed on Last Week's Test

- ▶ Return the students' spelling tests from Week 11.

Turn to page 61. Write **S** on the line in front of each word that you missed. Remember to study these words especially. If you missed the application words, numbers 1 and 2 on the test, you will not find them on page 61.

---

## ▶ Introduce the Optional Spelling Activity

In the optional spelling activity this week (*Student Spelling Book* page 70), the students alphabetize words. If your students do not know how to alphabetize using the second letter of a word, you may wish to practice this with them as described below.

- ▶ Write on the board: gold gave grass
- ▶ Have the class tell you the alphabetical order for these words as you rewrite them on the board.

## Proofreading

### ► Teacher Background

In the proofreading activities for this day's lesson, there are two, three, or no words misspelled in each sentence.

In the pre-spelling activities this week, you will say a word and have the students tell you the base word, the sound of the ending, and the spelling of the ending.

### ► Pre-spelling: Base Words and Endings

Let's practice hearing base words and endings.

smelling

*Smelling.* What is the base word? (Students: smell) What is the sound of the ending? (Students: /ing/) What is the spelling of the ending? (Students: i-n-g)

guesses

*Guesses.* Base word? ■ Sound of the ending? ■ Spelling of the ending?

performed

*Performed.* Base word? ■ Sound of the ending? ■ Spelling of the ending?

mittens

*Mittens.* Base word? ■ Sound of the ending? ■ Spelling of the ending?

collecting

*Collecting.* Base word? ■ Sound of the ending? ■ Spelling of the ending?

### ► Partner Proofreading

► Explain that the students will work with the person sitting next to them. Some students may have to work in a group of three.

Open your spelling books to page 69. On this page you will see many of the words that we have studied, but some of them are not spelled correctly. Today you will proofread these sentences with your partner. *Proofread* means *look for mistakes*. Read each sentence with your partner. Together you will look for misspelled

words. When you find a misspelled word, draw a line through it and write the correct word above it. You may find a sentence without any misspelled words.

## ► Correct Sentences Together

---

Let's read each sentence together. You tell me each misspelled word and how to spell it correctly. I will write the correct word on the board. If you made a mistake, draw a line through the word.

1. The dishes may fall off the edge and brake on the flore.  
Misspelled words? (Students: dishes, d-i-s-h-e-s, break, b-r-e-a-k, floor, f-l-o-o-r)

► Write *dishes*, *break*, and *floor* on the board.

2. They went to the city to buy new close and shoos for school.  
Misspelled words? (Students: clothes, c-l-o-t-h-e-s, shoes, s-h-o-e-s)

► Write *clothes* and *shoes* on the board.

3. We thought we had pletty of pincels but the box was emty.  
Misspelled words? (Students: plenty, p-l-e-n-t-y, pencils, p-e-n-c-i-l-s, empty, e-m-p-t-y)

► Write *plenty*, *pencils*, and *empty* on the board.

4. Change your answer if it is wrong. Misspelled words?  
(Students: no misspelled words)

5. Strage lizards liv among the rocks. Misspelled words?  
(Students: strange, s-t-r-a-n-g-e, live, l-i-v-e)

► Write *strange* and *live* on the board.

## ► Record Words Missed in Proofreading

---

If there is a misspelled word that you did not correct, turn back to page 67 and write **S** next to the word. If there is a word that you did not write correctly, find the word on page 67 and write **S** next to it. These are words that you especially need to study.

## Partner Study

### ► Pre-spelling: Base Words and Endings

Let's practice hearing base words and endings.

pockets

*Pockets.* What is the base word? (Students: pocket) What is the sound of the ending? (Students: /s/) What is the spelling of the ending? (Students: s)

returning

*Returning.* Base word? ■ Sound of the ending? ■ Spelling of the ending?

dresses

*Dresses.* Base word? ■ Sound of the ending? ■ Spelling of the ending?

wagging

*Wagging.* Base word? ■ Sound of the ending? ■ Spelling of the ending?

predicted

*Predicted.* Base word? ■ Sound of the ending? ■ Spelling of the ending?

### ► Partner Study

► Have your students open their spelling books to page 67. Remind them how to study their spelling words with a partner. In partner study the students take turns telling each other which word they choose to spell aloud. For example, one student says, "I will spell number 53, *pencil*. The hard part is **c**." She covers the word and spells it aloud as her partner checks. If she makes a mistake, both partners cover the word and spell it together. The partner who made the mistake writes **S** in front of the word to remind her to study it.

► You may want to model the partner study before your students begin. Page 109 explains how to demonstrate partner study to the class.

## Spelling Discussion

### ► Teacher Background

The purpose of today's spelling discussion is to help your students use the strategies practiced and learned in guided spelling in their everyday writing. In the drafting stage of writing, the students' focus should be on recording their ideas without stopping to worry about spelling, but in the revision/proofreading stage the students should pay careful attention to spelling.

### ► Pre-spelling: Base Words and Endings

Let's practice hearing base words and endings.

connecting

*Connecting.* What is the base word? (Students: connect) What is the sound of the ending? (Students: /ing/) What is the spelling of the ending? (Students: i-n-g)

presses

*Presses.* Base word? ■ Sound of the ending? ■ Spelling of the ending?

popped

*Popped.* Base word? ■ Sound of the ending? ■ Spelling of the ending?

chapters

*Chapters.* Base word? ■ Sound of the ending? ■ Spelling of the ending?

interrupted

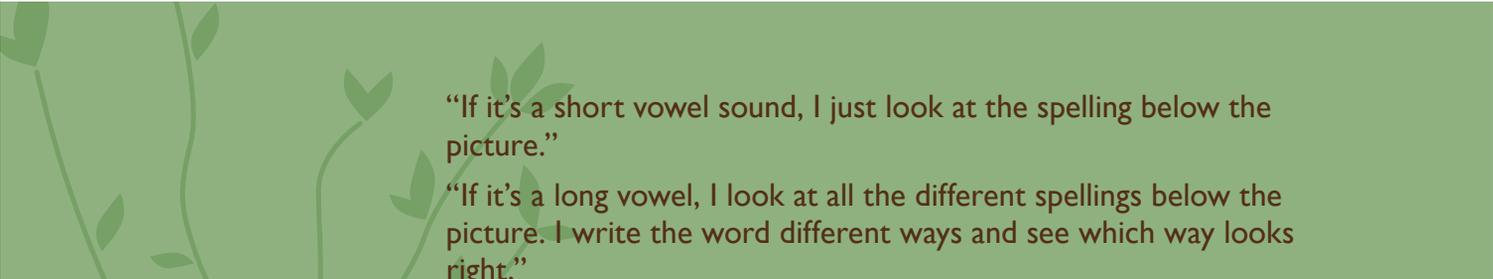

*Interrupted.* Base word? ■ Sound of the ending? ■ Spelling of the ending?

### ► Spelling Discussion

Let's talk about being a good speller in all your writing. When you are writing, how do you use the spelling-sound chart to help you spell correctly?

The students might say:

“When I don't remember how to spell a sound, I look for the picture that goes with that sound.”

“If it’s a short vowel sound, I just look at the spelling below the picture.”

“If it’s a long vowel, I look at all the different spellings below the picture. I write the word different ways and see which way looks right.”

▶ You might need to demonstrate how to write several spellings (for example, *sete*, *seet*, and *seat*) and see which one looks right.

---

▶ **Partner Study**

▶ Note: This is a brief activity of 1 or 2 minutes.

▶ If time permits, have the students study the review words on page 67 with their partners, as on Day 3 of this week.

## Weekly Test

For details about the weekly test, see page 50.

### ALL STUDENTS

1. slipped She slipped on the wet floor. (application word)
2. swinging The gate was swinging shut. (application word)
3. missing The book is missing and no one can find it.
4. chance The class had a chance to visit a factory.
5. phone The phone rang.
6. pretty A pretty picture was on the wall.
7. match Use a match to light the candle.
8. fancy The dancers wore fancy dresses.
9. die Many flowers die in the fall.
10. quickly He thought of the answer quickly.

### AVERAGE AND ADVANCED SPELLERS CONTINUE

11. change We had to change plans because of the weather.
12. brings The mail carrier brings the mail every day.
13. since It's been a long time since I've seen him.
14. judge The judge listens to each person.
15. shoes Those shoes are too small for my feet.
16. strong Strong people carried the heavy boxes.
17. scratch She got a scratch from the rose thorn.
18. break We saw the window break.

### ADVANCED SPELLERS CONTINUE

19. except He has finished all his homework except math.
20. angry His mom said not to be angry.

## ▶ Ongoing Assessment of Spelling Progress

Take some time to assess the progress of your students.

Were there many errors on numbers 1 and 2, the application words (the words the students did not study)? You may need to provide more support during daily guided spelling.

Were there many errors on memory parts of words? The memory parts are the letter sequences that must be memorized because they can't be figured out using phonics knowledge. Examples are the underlined letters in the following words: chance, phone, fancy. If the students are making errors on the memory parts, discuss the importance of spelling homework. Be sure the students and parents understand the homework instructions and the importance of using the three memory steps.

If you have been differentiating instruction, are your below-grade-level, average, and advanced spellers correctly designated? Consider the students' performance on all spelling tests to date. If some students have consistently made several errors on the tests, consider having them memorize fewer words each week. If average spellers have made no errors on the tests, they may be able to learn the challenge words each week. Consider student effort as well as performance, however. Some students with perfect tests may have studied intensely and would find it difficult to memorize additional words.

Is there a gap between the students' test performance and their class writing beyond spelling lessons? Continue to encourage your students to use the spelling strategies they have learned when they are proofreading and revising their writing. You may wish to occasionally revisit the ideas generated during the spelling discussions (see pages 111 and 202).

beginning on page  
205 and continuing  
on to page 209)

## Endings **s**, **ed**, and **ing** on Consonant-**e** Words

### ► New Content

---

When we hear /s/ or /z/ added on to the end of a final-**e** word, we just add **s**, as in *takes* and *times*.

When a base word ends with consonant-**e**, we drop the last **e** before adding **ed** or **ing** (as in *named*, *taking*, *changed*, *serving*, *danced*, *moving*, and *loved*).

### ► Teacher Background

---

Make a copy of the Week 13 homework (*Blackline Masters* page 18) for each student.

There are two ways to teach adding **ed** to a final-**e** word. One approach is to say, “You already have **e**, so just add **d**.” Another approach is to have your students erase the final **e** and then add **ed**. This second approach reinforces that the students will also need to drop the **e** before they add **ing** to a final-**e** word. As the students become proficient, they will be able to spell the words without first writing and erasing the final **e**.

Reminders:

- Be sure your class understands that guided spelling is not a test. The students should listen to your step-by-step guidance so that they write the words correctly.
- Teach the lessons at a fairly quick pace. Difficult concepts will be reviewed many times.
- If some of the students make a mistake in a choral response, tell the class the correct answer and repeat the question.

The pre-spelling activities this week provide practice adding endings to base words that end with consonant-**e**.

## Words Used This Week

## Sound /er/ Spelled **er**, **ir**, and **ur**

### ► New Content

The sound /er/ is often spelled **er**, **ir**, or **ur**, as in *her*, *bird*, and *turn*.

### ► Teacher Background

Make a copy of the Week 14 homework (*Blackline Masters* page 19).

In this week's lessons, the amount of guidance provided for adding endings to vowel-consonant-**e** words is decreased. If your students need more support for this, continue to provide the level of guidance shown in Week 13.

In the *Guided Spelling* program, words with the sound /er/ spelled **or** are taught as sight words (for example, *worse* and *worst*).

In the pre-spelling activities this week, the students will practice adding endings to base words.

## Sound /ar/ Spelled **ar**; Sound /or/ Spelled **or** and **ore**

### ► New Content

The sound /ar/ as in *far* is spelled **ar**.

The sound /or/ at the beginning or middle of a word is usually spelled **or**, as in *fork*.

The sound /or/ at the end of a word is usually spelled **or** or **ore**, as in *for* and *store*.

### ► Teacher Background

Make a copy of the Week 15 homework (*Blackline Masters* page 20).

As is the case with many other English spelling-sound relationships, **or** and **ore** are complicated by varying regional pronunciations. For example, for some speakers *for* and *shore* rhyme; **or** and **ore** can be taught as two spellings of a single sound. If, however, your students do not pronounce *for* and *shore* as rhyming words, teach the particular spelling for each sound.

The spelling-sound chart shows the second spelling of the sound /or/ as **\_ore**. The blank shows that other letters usually appear before **ore**; the spelling **ore** does not usually occur at the beginning of a word.

One additional guiding point is introduced this week: at the end of a word, the sound /k/ after **r** is usually spelled **k**, as in *shark*.

In the pre-spelling activities this week, the students will practice adding endings to base words.

► **Introduce This Week's Words**

Open your spelling books to page 83. Read the words and sentences with me.

1. March

Number 1: March. The first day of spring is in March.

► Point to **ar** under the “art car” picture on the spelling-sound chart.

The picture shows an art car for the sound /ar/. The sound /ar/ is spelled **a-r**.

2. horse

Number 2: horse. She wished she had her own horse.

► Point to **or** under the “fork” picture.

The picture shows a fork for the sound /or/. The sound /or/ at the beginning or middle of a word is spelled **o-r**. Underline **o-r**. Underline **e**.

3. store

Number 3: store. The hardware store sells many kinds of tools.

► Point to **\_ore**.

The sound /or/ in *store* is spelled **o-r-e**.

► Point to the blank in **\_ore**.

The blank means there is at least one letter here. We don't usually use **o-r-e** at the beginning of a one-syllable word. Underline **o-r-e**.

4. large

Number 4: large. Large clouds filled the sky.

► Point to **ar** under the “art car” picture.

The “art car” picture shows the spellings for the sound /ar/. Underline **e**.

5. October

Number 5: October. The weather was cool in October.

*October* has three syllables: Oc-tō-ber. Put a dot after the first syllable, Oc-. ■ Put a dot after the second syllable, -tō-. ■ Underline **e-r**.

6. forty

Number 6: forty. Bring forty forks for the picnic.

**MNEMONIC** The sentence *Bring forty forks for the picnic* is a mnemonic. It reminds you that *forty* begins the same letters as *forks*: **f-o-r**.

7. before

Number 7: before. Wash your hands before you eat.

*Before* has two syllables: *be-fore*. Put a dot between the syllables. ■  
Underline **o-r-e**.

8. north

Number 8: north. The compass needle always points north.

The sound /or/ at the beginning or middle of a word is spelled **o-r**.

NUMBERS 9–12 ARE THE NEW SIGHT WORDS.

9. fourteen

Number 9: fourteen. *Fourteen* begins like *four* and *fourth*.

Underline **o-u** and **e-e**.

10. climb

Number 10: climb. She likes to climb the bars to the top.

Underline **i** and **b**.

11. prove

Number 11: prove. They wanted to prove that they were right.

Underline **o** and **e**.

## Sound /ō/ / Spelled **oa** and **ow**

### ► New Content

The sound /ō/ at the beginning or middle of a word is often spelled **oa** or **ow**, as in *boat* and *own*.

The sound /ō/ at the end of a word is usually spelled **ow**, as in *grow*.

### ► Teacher Background

Make a copy of the Week 17 homework (*Blackline Masters* page 22) for each student.

Two additional guiding points are introduced this week: the sound /n/ at the beginning of a word is sometimes spelled **kn**, as in *know*; the common final syllable /shŭn/ is usually spelled **tion**, as in *nation*.

The students will write several *-tion* words in guided spelling in the coming weeks.

In the pre-spelling activities this week, the students will practice hearing and orally spelling the syllable *-tion*.

## Review of Weeks 11, 13, 14, 15, and 16

### ► Teacher Background

Make a copy of the Week 18 homework (*Blackline Masters* pages 23–25) for each student.

The structure of the review weeks is as follows:

Day 1: Pretest

Day 2: Proofreading with a partner

Day 3: Study for the review test with a partner

Day 4: Class discussion on spelling

Day 5: Review week test

See Week 6, page 101, for more details about the structure of the review weeks.

For information on differentiating instruction based on your students' needs, see Week 2, pages 28–29.

In the pre-spelling activities this week, the students will practice adding endings to base words.

In the optional spelling activity this week (*Student Spelling Book* page 104), the students alphabetize words. If your students do not know how to alphabetize using the second and third letters of words, you may wish to practice this with them as described in “Introduce the Optional Spelling Activity” at the end of Day 1.

### ► Correct the Pretest

---

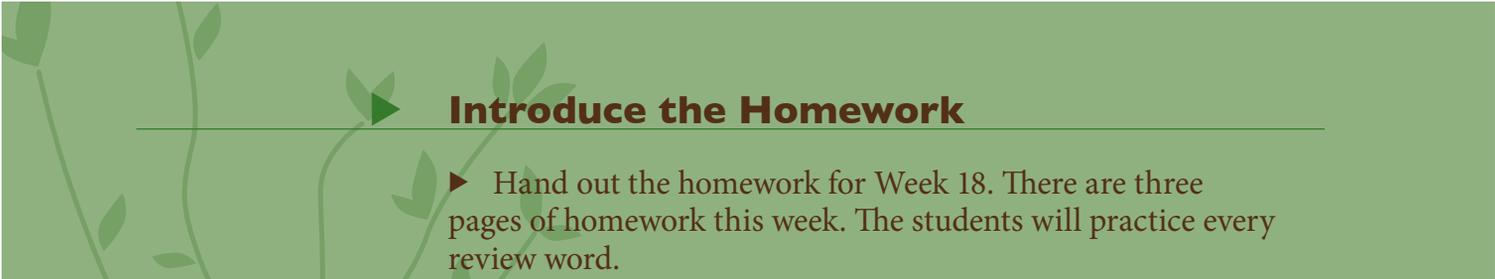

I will read and spell each word. Point under each letter as I spell. If you did not spell the word correctly, draw a line through the word.

- Read and spell the 12 words out loud.

### ► Record Words Missed on the Pretest

---

Turn back to page 101. These are the words that we will review this week. If you missed any words on the pretest, find the words on this page and write **S** in front of each one. These are words that you especially need to study.

## ▶ Introduce the Homework

---

- ▶ Hand out the homework for Week 18. There are three pages of homework this week. The students will practice every review word.

## ▶ Record Words Missed on Last Week's Test

---

- ▶ Return the students' spelling tests from Week 17.

Turn to page 95. Write **S** on the line in front of each word that you missed. Remember to study these words especially. If you missed the application words, numbers 1 and 2 on the test, you will not find them on page 95.

## ▶ Introduce the Optional Spelling Activity

---

In the optional spelling activity this week (*Student Spelling Book* page 104), the students alphabetize words. If your students do not know how to alphabetize using the second and third letters of words, you may wish to practice this with them as described below.

- ▶ Write on the board: five first fifteen
- ▶ Have the class tell you the alphabetical order for these words as you rewrite them on the board.

## Proofreading

### ▶ Teacher Background

In the pre-spelling activities this week, the students will practice adding endings to base words.

### ▶ Pre-spelling: Base Words and Endings

When we add endings to base words that end with **w** or **y**, we do not double the letters **w** or **y**.

stayed

I will spell *stayed*. The base word is *stay*.

▶ Write *stay* on the board.

I see **a-y** at the end. I never double **y**. I add **e-d**. *Stayed*.

snowing

I will spell *snowing*. The base word is *snow*.

▶ Write *snow* on the board.

I see **o-w** at the end. I never double the letter **w**. I add **i-n-g**. *Snowing*.

### ▶ Partner Proofreading

▶ Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three. There are one, two, or three words misspelled in each sentence.

Open your spelling books to page 103. On this page you will see many of the words that we have studied, but some of them are not spelled correctly. Today you will proofread these sentences with your partner. Read each sentence with your partner. Together you will look for misspelled words. When you find a misspelled word, draw a line through it and write the correct word above it. You may find a sentence without any misspelled words.

▶ As the students work, monitor and assist those who need extra support in proofreading.

## Correct Sentences Together

Let's read each sentence together. You tell me each misspelled word and how to spell it correctly. I will write the correct word on the board. If you made a mistake, draw a line through the word.

1. Last thirsday we saw a large bird near the store. Misspelled words? (Students: Thursday, T-h-u-r-s-d-a-y, near, n-e-a-r)

▶ Write *Thursday* and *near* on the board.

2. We used a ruler to draw fourteen straiht lines. Misspelled words? (Students: fourteen, f-o-u-r-t-e-e-n, straight, s-t-r-a-i-g-h-t)

▶ Write *fourteen* and *straight* on the board.

3. Their goose got loose, so they had to serch far and nere. Misspelled words? (Students: search, s-e-a-r-c-h, near, n-e-a-r)

▶ Write *search* and *near* on the board.

4. They were driving accross the cuntry from Munday until Saturday. Misspelled words? (Students: across, a-c-r-o-s-s, country, c-o-u-n-t-r-y, Monday, M-o-n-d-a-y)

▶ Write *across*, *country*, and *Monday* on the board.

5. We nead to read our writing carefully. Misspelled words? (Students: need, n-e-e-d)

▶ Write *need* on the board.

## Record Words Missed in Proofreading

If there is a misspelled word that you did not correct, turn back to page 101 and write **S** next to the word. If there is a word that you did not write correctly, find the word on page 101 and write **S** next to it. These are words that you especially need to study.

## Partner Study

### ► Pre-spelling: Base Words and Endings

Help me add endings to base words.

flopped — —

Flopped. The bunny's ears flopped. Flopped.

Base word?

► Write *flop* on the board.

Is there one vowel? ■ Is there one consonant after the vowel? ■

Will we double the **p**? (Students: yes)

► Add **ped**.

Flopped.

glowed — —

Glowed. The candle glowed. Glowed.

Base word?

► Write *glow* on the board.

*Glow* ends with **o-w**. Do we double the letter **w**? (Students: no)

We just add **e-d**.

► Add **ed**.

Glowed.

### ► Partner Study

► Have your students open their spelling books to page 101. Remind them how to study their spelling words with a partner. In partner study the students take turns telling each other which word they choose to spell aloud. The students also say which parts of the word are hard to spell. For example, one student says, "I will spell number 9, *half*. The hard part is **l**." He covers the word and spells it aloud as his partner checks. If he makes a mistake, both partners cover the word and spell it together. The partner who made the mistake writes **S** in front of the word to remind him to study it.

► You may want to model the partner study before your students begin.

## Spelling Discussion

### ► Teacher Background

The purpose of today's spelling discussion is to help your students use the strategies practiced and learned in guided spelling in their everyday writing. In the drafting stage of writing, the students' focus should be on recording their ideas without stopping to worry about spelling, but in the revision/proofreading stage the students should pay careful attention to spelling.

### ► Pre-spelling: Base Words and Endings

Help me add endings to base words.

swaying

Swaying. The tree was swaying in the wind. Swaying.

Base word?

► Write *sway* on the board.

Sway ends with **a-y**. Do we double **y**? (Students: no) We just add **i-n-g**.

► Add **ing**.

Swaying.

flaming

Flaming. The flaming fire warmed us. Flaming.

Base word?

► Write *flame* on the board. Point to **me**.

Is there consonant-**e** at the end? ■ What will we do now? (Students: drop e) And now? (Students: add i-n-g)

Flaming.

### ► Spelling Discussion

When you proofread your writing, you look for mistakes you may have made in punctuation, capital letters, and spelling. Today we'll talk about proofreading for spelling. When you are proofreading, how do you check your spelling?

The students might say:

“I ask myself whether each word looks right.”

“I know that some words are hard to spell, so I check those especially.”

“There are some words I’ve misspelled before, so I check those.”

“If I know that a sound in the word has more than one spelling, I make sure I used the right spelling.”

“I check words that I know I don’t know.”

“I check words I’m not sure of.”

---

## **Partner Study**

- ▶ Note: This is a brief activity of 1 or 2 minutes.
- ▶ If time permits, have the students study the review words on page 101 with their partners, as on Day 3 of this week.

## Weekly Test

For details about the weekly test, see page 50.

## ► Ongoing Assessment of Spelling Progress

Take some time to assess the progress of your students.

Were there many errors on numbers 1 and 2, the application words (the words the students did not study)? You may need to provide more support during daily guided spelling. See pages 85–86.

Were there many errors on memory parts of words? The memory parts are the letter sequences that must be memorized because they can't be figured out using phonics knowledge. Examples are the underlined letters in the following words: needed, chased, climb. If the students are making errors on the memory parts, discuss the importance of spelling homework. Be sure the students and parents understand the homework instructions and the importance of using the three memory steps.

If you have been differentiating instruction, are your below-grade-level, average, and advanced spellers correctly designated? Consider the students' performance on all spelling tests to date. If some students have consistently made several errors on the tests, consider having them memorize fewer words each week. If average spellers have made no errors on the tests, they may be able to learn the challenge words each week. Consider student effort as well as performance, however. Some students with perfect tests may have studied intensely and would find it difficult to memorize additional words.

Is there a gap between the students' test performance and their class writing beyond spelling lessons? Continue to encourage your students to use the spelling strategies they have learned when they are proofreading and revising their writing. You may wish to occasionally revisit the ideas generated during the spelling discussions (see pages 111, 202, and 285).

## Endings on Single-syllable Words

### ► Review Content

---

This week you will review the following content from previous weeks:

- When adding the ending /s/ or /z/, do not change the base word. Add **s**. Examples: *hats*, *lines*. (Weeks 3 and 4)
- The ending /əz/ is spelled **es**. Example: *presses*. (Week 4)
- When adding **ed** or **ing** to a word that has *one* syllable with *one* vowel and *one* consonant after the vowel, double the final consonant of the base word. Examples: *clipped*, *shopping*. (Week 5)
- When adding **ed** or **ing** to a final-**e** word, first drop the **e**. Examples: *closed*, *servng*. (Week 13)

### ► Teacher Background

---

Make a copy of the Week 19 homework (*Blackline Masters* page 26) for each student.

Exceptions to the doubling generalization include base words that end in **x**, such as *tax* (*taxed*), and base words that end with the vowel spellings **ay**, **ey**, **oy**, **uy**, **aw**, **ew**, **ow**, such as in *stay* (*stayed*) and *buy* (*buying*).

In conversation *Friday* is often pronounced as /frī-dē/. When you pronounce the syllables for the students to help them spell, pronounce the second syllable as /dā/.

Reminders:

- Be sure your class understands that guided spelling is not a test. The students should listen to your step-by-step guidance so that they write the words correctly.

- Teach the lessons at a fairly quick pace. Difficult concepts will be reviewed many times.
- If some of the students make a mistake in the choral response, tell the class the correct answer and repeat the question.

In the pre-spelling activities this week, the students will practice adding endings to base words.

## ► Words Used This Week

NEW PATTERN AND THINK WORDS	*starring, *stayed, *closing, *Friday, marked, states, raised, tail
NEW SIGHT WORDS	*instead, *sold, fold, worth
REVIEW PATTERN AND THINK WORDS	*boat, *November, *grow, *low, note, throat, board, snow

CHALLENGE WORDS	either, moment, product, present (2)
APPLICATION WORDS ON THE TEST	throw, spray
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	snowed, elbow, clay, fixed, roadblock, sport, paving, coach, thirsty, it'll, folding, Fri.

► **Introduce This Week's Words**

Open your spelling books to page 105. Read the words and sentences with me.

1. starring

Number 1: starring. Our favorite actor is starring in the movie.

The base word is *star*. The **r** was doubled, and the ending **i-n-g** was added.

2. stayed

Number 2: stayed. The cat stayed indoors.

The base word is *stay*. We don't double **y**. The ending **e-d** was added.

3. closing

Number 3: closing. We're closing the door now.

The base word is *close*. The **e** was dropped before the ending **i-n-g** was added. Underline **o**. Underline **s**.

4. Friday

Number 4: Friday. Friday was the last day of our science unit.

*Friday* has two syllables: *Fri-dāy*. Put a dot between the syllables. When we hear the sound /ā/ at the end of a word, we spell it **a-y**.

5. marked

Number 5: marked. The teacher's assistant marked the papers.

The base word is *mark*. The ending **e-d** was added.

6. states

Number 6: states. They saw license plates from 50 states.

Underline **a** and **e**.

7. raised

Number 7: raised. The flags were raised each morning.

The base word is *raise*. There was already an **e**, so just **d** was added. Underline **a-i** and **e**. Underline **s**.

8. tail

Number 8: tail. The monkey was hanging by its tail.

**HOMOPHONE** *Tail* is a homophone. It's not *tale*, a story. It's the *tail* of an animal. Underline **a-i**.

## NUMBERS 9–12 ARE THE NEW SIGHT WORDS.

9. instead

Number 9: instead. We read one long book instead of two short ones.

Underline **e-a**.

10. sold

Number 10: sold. The store sold clothes and shoes.

Underline **o**.

11. fold

Number 11: fold. Fold your paper from bottom to top.

Underline **o**.

12. worth

Number 12: worth. He thought the old jar was worth nothing.

Underline **o**.

## NUMBERS 13–24 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- |              |           |
|--------------|-----------|
| 13. boat     | 19. board |

▶ **Record Words Missed**

- ▶ Return the students' spelling tests from Week 20.

Turn to page III. Write **S** on the line in front of each word that you missed. Remember to study these words especially. If you missed the application words, numbers 1 and 2 on the test, you will not find them on page III.

# Week 21 Day 2

TEKS 2.A.i  
Student/Teacher Narrative  
Introduce This Weeks Words and  
Guided Spelling  
section (Words: rebuilt, included,  
Tuesday)

## ► Teacher Background

TEKS 2.A.xiii  
TEKS 2.B.xiv  
TEKS 2.B.xxix  
Student/Teacher Narrative  
Pre-spelling section  
(Words: rebuilt, unhurt)

The pre-spelling activities this week focus on the meaning and spelling of the prefixes *re-* and *un-*. The students will write words with these prefixes in the coming weeks.

## ► Pre-spelling: Prefixes *re-* and *un-*

A prefix is a syllable we add at the beginning of a word to change the meaning of the word. Say “prefix.”

re- \_ \_ \_

The prefix *re-* usually means *again*. To *rewrite* a paragraph is to write the paragraph *again*. To *reglue* paper is to glue it *again*. To *refreeze* food is to freeze it *again*.

un- \_ \_ \_

The prefix *un-* usually means *not*. If you are *unhappy*, you are *not* happy. Someone *unafraid* is *not* afraid. An *untamed* animal has *not* been tamed; it is still wild.

rebuilt \_ \_

I will write *rebuilt*. *The damaged house was rebuilt*. It was built *again*. *Rebuilt*. First I write the prefix *re-*. I don't leave any space after *re-*. I add *built*. *Rebuilt*.

unhurt \_ \_

I will write *unhurt*. *He fell, but he was unhurt*. He was *not* hurt. *Unhurt*. First I write the prefix *un-*. I don't leave any space after *un-*. I add *hurt*. *Unhurt*.

## ► Guided Spelling

Open your spelling books to page 119. Numbers 1–4 are new words for this week.

## Sound /ī/ Spelled igh and y

### ► New Content

When we hear the sound /ī/ in the middle of a word, it may be spelled **igh**, as in *might*.

When we hear the sound /ī/ at the end of a word, it is probably spelled **y**, as in *sky* and *apply*.

### ► Teacher Background

Make a copy of the Week 22 homework (*Blackline Masters* page 29) for each student.

The sound /ī/ at the end of a word is usually spelled **y**, as in *fry* and *supply*.

In the *Guided Spelling* program, words with the spelling **ie** are taught as sight words, for example, *piece*, *field*, *pie*, and *lie*. If you are using a phonics program that teaches **ie** as a regular spelling for the sound /ī/ (as in *tie* and *lie*), then add **ie** to the spellings below the “kite” picture on the spelling-sound chart.

In the pre-spelling activities this week, you will model the spelling of endings on base words that end with consonant-**y**, such as *copies*, *cried*, and *trying*. These activities prepare the students for writing these words in Week 23.

► **Record Words Missed**

► Return the students' spelling tests from Week 21.

Turn to page 117. Write **S** on the line in front of each word that you missed. Remember to study these words especially. If you missed the application words, numbers 1 and 2 on the test, you will not find them on page 117.

# Week 22 Day 2

## ► Teacher Background

In the pre-spelling activities this week, you will model the spelling of endings on base words that end with consonant-**y**. These rhymes may be helpful to the students: Change **y** to **i** and add e-s. Change **y** to **i** and add e-d. Emphasize the rhyme and rhythm when you introduce these to the students.

The pre-spelling activities this week prepare the students for writing similar words in Week 23. More information about endings on consonant-**y** words is included in the Week 23 introduction.

## ► Pre-spelling: Endings on Consonant-y Words

Next week you will add endings to words that end with consonant-**y**. I will show you how.

copies

I will spell *copies*. *There were five copies. Copies.*

The base word is *copy*. I spell it by syllables: *cop-y*.

► Write *copy* on the board. Point to **py**.

I see consonant-**y** at the end. Here is a rhyme to help us remember the ending: Change **y** to **i** and add e-s. Say the rhyme with me: Change **y** to **i** and add e-s. I erase **y** and write **i** instead. I add **e-s**. *Copies*.

trying

I will spell *trying*. *They are trying hard. Trying.*

The base word is *try*.

► Write *try* on the board. Point to **ry**.

I see consonant-**y** at the end. When I add /ing/ I do not change **y** to **i**. I just add /ing/. *Trying*.

## ► Guided Spelling

Open your spelling books to page 125. Numbers 1–4 are new words for this week.

1. quite

Number 1: quite. The baby took quite a long nap. Say *quite*.

Question? (Students: which /ī /?)

## Endings **es**, **ed**, and **ing** on Words That End with Consonant-**y**

---

### ► New Content

When the base word ends with consonant-**y**, we change the **y** to **i** before adding the ending **es**, as in *fries* and *ladies*.

When the base word ends with consonant-**y**, we change the **y** to **i** before adding the ending **ed**, as in *cried* and *hurried*.

When the base word ends with consonant-**y**, we do not change the base word when we add the ending **ing**, as in *flying* and *hurrying*.

---

### ► Teacher Background

Make a copy of the Week 23 homework (*Blackline Masters* page 30) for each student.

The inflections **es** and **ed** on words that end with a consonant followed by **y** (such as *try* and *copy*) always have the sounds /z/ and /d/ respectively, *not* /əz/, /t/, or /əd/ as in many words that the students have learned.

The spelling generalizations taught in this week's lessons (see "New Content" above) apply to both single-syllable and polysyllabic words.

When you teach the generalizations, we suggest that you first teach the students to write the base word, erase the **y**, write **i**, and then add **es** or **ed**. As the students become more proficient, they will no longer need to write and erase the **y**.

As you guide the students in changing **y** to **i**, you will use the rhymes you taught in the pre-spelling activities in Week 22.

The pre-spelling activities this week focus on adding endings to base words that end with consonant-**y**.

COMPOUND WORD *Nobody* is a compound word. What two smaller words make up *nobody*?

(Memory steps) Underline the hard part: the first **o**.

# Week 23 Day 4

## ► Pre-spelling: Endings on Consonant-y Words

Help me add endings to words that end in consonant-**y**.

replied — —

Replied. You asked a question and I replied. Replied.

Base word? (Students: reply) *Re-ply. Re-*

► Write *re* on the board.

*-Ply.*

► Add *ply*. Point to *ly*.

Does the word end with consonant-**y**? ■ *Replied*. What's our rhyme? (Students: Change *y* to *i* and add *e-d*.) I erase **y** and write **i**. I add **e-d**. *Replied*.

crying — —

Crying. The baby was crying. Crying.

Base word?

► Write *cry* on the board.

*Crying*. Will we change **y** to **i**? (Students: no) I just add **i-n-g**. *Crying*.

## ► Guided Spelling

Open your spelling books to page 133.

week — —

Number 1: week. Give your report one week from today. Say *week*.

HOMOPHONE *Week* is a homophone. It's not *weak*, as in *When he was sick, he felt weak*. It's *week*, seven days.

Question? (Students: which /ē /?)

► Hold up two fingers.

Careful. The sound /k/ after two vowels is spelled **k**. Write *week*. (Check.)

## 2. supplies

Number 2: supplies. (Use the word in a sentence.) Say *supplies*.

Base word? ■ Say *supply* by syllables. ■ I'll say the syllables to help you spell: *sup-ply*. Repeat the syllables. ■ First syllable? ■ Write *sup-*.

Second syllable? ■ It's spelled **p-l-y**. Write *-ply*.

*Supplies*. Everyone point to **l-y**. Does *supply* end with consonant-**y**? ■ Remember our rhyme: Change **y** to **i** and add **e-s**. Erase **y** and write **i** instead. Add **e-s**.

Let's check. Read the word. ■ Read and spell by syllables as I write the word. ■ Check your word.

## 3. hurrying

Number 3: hurrying. (Use the word in a sentence.) Say *hurrying*.

Base word? ■ Say *hurry* by syllables. ■ I'll say the syllables of *hurry* to help you spell: *hur-ry*. Repeat the syllables. ■ First syllable? ■ Question? (Students: which /er/?)

► Hold up three fingers.

Write *hur-*.

Second syllable? ■ Write *-ry*.

*Hurrying*. Do not change **y** to **i**. Just add /ing/.

Let's check. Read the word. ■ Read and spell by syllables as I write the word. ■ Check your word.

## 4. fly

Number 4: fly. (Use the word in a sentence.) Say *fly*.

*Fly* is a think word. Write *fly*. (Check.)

## 5. cried

Number 5: cried. (Use the word in a sentence.) Say *cried*.

*Cried* is a think word.

Base word? ■ Write *cry*.

*Cried*. Everyone point to **r-y**. Does *cry* end with consonant-**y**? ■ Remember our rhyme: Change **y** to **i** and add **e-d**. Erase **y** and write **i** instead. ■ Add **e-d**. (Check.)

## 6. sprayed

Number 6: sprayed. (Use the word in a sentence.) Say *sprayed*.

*Sprayed* is a think word.

Base word? ■ Write *spray*.

*Sprayed*. What will you decide? (Students: Do we double?) When a word ends with a vowel and then **y**, such as **a-y**, we do not double. We never double the letters **w**, **x**, or **y**. *Sprayed*. What's the spelling for the ending /d/? ■ Add **e-d**. (Check.)

7. puppies

Number 7: puppies. (Use the word in a sentence.) Say *puppies*.

Base word? ■ Say *puppy* by syllables. ■ I'll say the syllables to help you spell: *pup-py*. Repeat the syllables. ■ First syllable? ■ Write *pup-*.

Second syllable? ■ Write *-py*.

*Puppies*. Everyone point to **p-y**. Does *puppy* end with consonant-**y**? ■ Remember our rhyme: Change **y** to **i** and add **e-s**. Erase **y** and write **i** instead. Add **e-s**.

Let's check. Read the word. ■ Read and spell by syllables as I write the word. ■ Check your word.

NOW YOU'LL WRITE THREE SIGHT WORDS.

8. often

Number 8: often. (Use the word in a sentence.) Say *often*.

(Memory steps) Underline the hard part: **t-e**.

9. becomes

Number 9: becomes. (Use the word in a sentence.) Say *becomes*.

(Memory steps) Underline the hard parts: the first **e**, **o**, and the second **e**.

10. Thurs.

Number 10: Thursday. She wrote "Thurs." at the top of the letter. Say *Thursday*.

ABBREVIATION Find the abbreviation for *Thursday* at the top of the page. When we read the abbreviation, we say *Thursday*.

(Memory steps) Underline the whole abbreviation.

## ▶ Student Study

▶ Note: This is a brief activity of 1 or 2 minutes.

Now turn to page 123. If you missed a word on the test in Week 22, you have put an **S** by it. Now study the words that have **S** by them. If you did not miss any words on the test, study the words that may be hard for you.

## Review of Weeks 17, 19, 20, 21, and 22

### ► Teacher Background

Make a copy of the Week 24 homework (*Blackline Masters* pages 31–33) for each student.

The structure of the review weeks is as follows:

Day 1: Pretest

Day 2: Proofreading with a partner

Day 3: Study for the review test with a partner

Day 4: Class discussion on spelling

Day 5: Review week test

See Week 6, page 101, for more details about the structure of the review weeks.

For information on differentiating instruction based on your students' needs, see Week 2, pages 28–29.

The pre-spelling activities this week focus on adding endings to base words that end with consonant-y.

In the optional spelling activity this week (*Student Spelling Book* page 138), the students alphabetize words. If your students do not know how to alphabetize using the second, third, and fourth letters of words, you may wish to practice this with them as described in “Introduce the Optional Spelling Activity” at the end of Day 1.

### ► Correct the Pretest

---

I will read and spell each word. Point under each letter as I spell. If you did not spell the word correctly, draw a line through the word.

- Read and spell the 12 words out loud.

---

## ▶ Record Words Missed on the Pretest

---

Turn back to page 135. Here are the words that we will review this week. If you missed any words on the pretest, find the words on this page and write **S** in front of each one. These are words that you especially need to study.

## ▶ Introduce the Homework

---

▶ Hand out the homework for Week 24. There are three pages this week. The students will practice every review word.

## ▶ Record Words Missed on Last Week's Test

---

▶ Return the students' spelling tests from Week 23.

Turn to page 129. Write **S** on the line in front of each word that you missed. Remember to study these words especially. If you missed the application words, numbers 1 and 2 on the test, you will not find them on page 129.

## ▶ Introduce the Optional Spelling Activity

---

In the optional spelling activity this week (*Student Spelling Book* page 138), the students alphabetize words. If your students do not know how to alphabetize using the second, third, and fourth letters of words, you may wish to practice this with them as described below.

- ▶ Write on the board: heated head health
- ▶ Have the class tell you the alphabetical order for these words as you rewrite them on the board.

## Proofreading

### ▶ Teacher Background

The pre-spelling activities this week focus on adding endings to base words that end with **y**.

### ▶ Pre-spelling: Endings on Words That End with **y**

Help me add endings to words that end with **y**.

relied — — —

Relied. I've relied on you for a long time. Relied.

Base word? (Students: rely) *Re-ly. Re-*

▶ Write *re* on the board.

*-Ly.*

▶ Add *ly*. Point to **ly**.

Does the word end with consonant-**y**? ■ *Relied*. What's our rhyme? (Students: Change **y** to **i** and add **e-d**.) I erase **y** and write **i**. I add **e-d**. *Relied*.

destroyed — — —

Destroyed. The tornado destroyed the barn. Destroyed.

Base word? (Students: destroy) *De-stroy. De-*

▶ Write *de* on the board.

*-Stroy.*

▶ Add *stroy*. Point to **oy**.

*Destroy* ends with vowel-**y**. *Destroyed*. What will we do now? (Students: just add **e-d**) *Destroyed*.

### ▶ Partner Proofreading

▶ Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three.

Open your spelling books to page 137. On this page you will see many of the words that we have studied, but some of them are

not spelled correctly. Today you will proofread these sentences with your partner. Read each sentence with your partner. Together you will look for misspelled words. When you find a misspelled word, draw a line through it and write the correct word above it. You may find a sentence without any misspelled words.

▶ As the students work, monitor and assist those who need extra support in proofreading.

---

## ▶ **Correct Sentences Together**

Let's read each sentence together. You tell me each misspelled word and how to spell it correctly, and I will write the correct word on the board. If you made a mistake, draw a line through the word.

1. That night the fier heeted the cabin and gave us lite. Misspelled words? (Students: fire, f-i-r-e, heated, h-e-a-t-e-d, light, l-i-g-h-t)

▶ Write *fire*, *heated*, and *light* on the board.

2. Guess whose teem won on Friday. Misspelled words? (Students: team, t-e-a-m)

▶ Write *team* on the board.

3. Use this mony to buy the frute before it is all sold. Misspelled words? (Students: money, m-o-n-e-y, fruit, f-r-u-i-t)

▶ Write *money* and *fruit* on the board.

4. Your book is do on Friday, November 2. Misspelled words? (Students: due, d-u-e)

▶ Write *due* on the board.

5. The mune was shining on the wight snow along our streat. Misspelled words? (Students: moon, m-o-o-n, white, w-h-i-t-e, street, s-t-r-e-e-t)

▶ Write *moon*, *white*, and *street* on the board.

---

## ▶ **Record Words Missed in Proofreading**

If there is a misspelled word that you did not correct, turn back to page 135 and write **S** next to the word. If there is a word that you did not write correctly, find the word on page 135 and write **S** next to it. These are words that you especially need to study.

## Partner Study

### ► Pre-spelling: Endings on Words That End with **y**

---

carries — —

Help me add endings to words that end with **y**.

Carries. A kangaroo carries her baby in her pouch. Carries.

Base word? (Students: carry) *Car-ry. Car-*.

► Write *car* on the board.

*-Ry.*

► Add *ry*. Point to **ry**.

Does the word end with consonant-**y**? ■ *Carries*. What's our rhyme? (Students: Change **y** to **i** and add **e-s**.) I erase **y** and write **i**. I add **e-s**. *Carries*.

annoys — —

Annoys. Sometimes her brother annoys her. Annoys.

Base word? (Students: annoy) *An-noy. An-*.

► Write *an* on the board.

*-Noy.*

► Add *noy*.

*Annoys*. What will we do now? (Students: add **s**) *Annoys*.

### ► Partner Study

---

► Have your students open their spelling books to page 135. Remind them how to study their spelling words with a partner. In partner study the students take turns telling each other which word they choose to spell aloud. The students also say which parts of each word are hard to spell. For example, one student says, "I will spell number 1, *boat*. The hard part is **o-a**." She covers the word and spells it aloud as her partner checks. If she makes a mistake, both partners cover the word and spell it together. The partner who made the mistake writes **S** in front of the word to remind her to study it.

► You may want to model the partner study before your students begin.

## Spelling Discussion

### ▶ Teacher Background

The purpose of the discussion is to help your students study for tests effectively.

### ▶ Pre-spelling: Endings on Words That End With **y**

Help me add endings to words that end with **y**.

pitied

Pitied. The king in the story pitied the poor child. Pitied.

Base word? (Students: pity) *Pi-ty. Pi-*

▶ Write *pi* on the board.

*-Ty.*

▶ Add *ty*. Point to **ty**.

Does the word end with consonant-**y**? ■ *Pitied*. What's our rhyme? (Students: Change **y** to **i** and add **e-d**.) I erase **y** and write **i**. I add **e-d**. *Pitied*.

staying

Staying. Grandma is staying for a week. Staying.

Base word?

▶ Write *stay* on the board. Point to **ay**.

*Stay* ends with vowel-**y**. *Staying*. What will we do now? (Students: just add **i-n-g**) *Staying*.

### ▶ Spelling Discussion

Today we'll talk about how to study for spelling tests. Everyone needs to find the ways that are best for you. How do you study for spelling tests? Does that way work well for you?

The students might say:

"I use the memory steps."

"I mark the hard parts of each word."

"I close my eyes and visualize the word."

“I think about whether the word is a homophone.”

“I make up mnemonics.”

“My mother tests me.”

---

▶ **Partner Study**

▶ If time permits, have the students study the review words on page 135 with their partners, as on Day 3 of this review week.

## Weekly Test

For details about the weekly test, see page 50.

### ADVANCED SPELLERS CONTINUE

19. minute
20. describe

There are 60 seconds in a minute.  
They had to describe an elephant.

## ▶ Ongoing Assessment of Spelling Progress

Take some time to assess the progress of your students.

Were there many errors on numbers 1 and 2, the application words (the words the students did not study)? You may need to provide more support during daily guided spelling.

Were there many errors on memory parts of words? The memory parts are the letter sequences that must be memorized because they can't be figured out using phonics knowledge. Examples are the underlined letters in the following words: *boat*, *night*, *suit*.

If the students are making errors on the memory parts, discuss the importance of spelling homework. Be sure the students and parents understand the homework instructions and the importance of using the three memory steps.

If you have been differentiating instruction, are your below-grade-level, average, and advanced spellers correctly designated? Consider the students' performance on all spelling tests to date. If some students have consistently made several errors on the tests, consider having them memorize fewer words each week. If average spellers have made no errors on the tests, they may be able to learn the challenge words each week. Consider student effort as well as performance, however. Some students with perfect tests may have studied intensely and would find it difficult to memorize additional words.

Is there a gap between the students' test performance and their class writing beyond spelling lessons? Continue to encourage your students to use the spelling strategies they have learned when they are proofreading and revising their writing. You may wish to occasionally revisit the ideas generated during the spelling discussions (see pages 111, 202, and 285).

## Sound /ou/ Spelled **ou** and **ow**

---

### ► New Content

The sound /ou/ at the beginning or in the middle of a word is spelled **ou** or **ow**, as in *found* and *clown*.

The sound /ou/ at the end of a word is usually spelled **ow**, as in *cow*.

---

### ► Teacher Background

Make a copy of the Week 25 homework (*Blackline Masters* page 34) for each student.

This week the guidance for dropping **e** before **ing** changes. The students have practiced writing and then erasing **e** in words such as *joking*. Now they are encouraged to think ahead and not write an **e** that is going to be dropped.

The amount of guidance provided for adding endings to consonant-y words is decreased in this week's lessons. If your students need more support for this, continue to provide the level of guidance shown in Week 23.

Reminders:

- Be sure your class understands that guided spelling is not a test. The students should listen to your step-by-step guidance so that they write the words correctly.
- Teach the lessons at a fairly quick pace. Difficult concepts will be reviewed many times.
- If some of the students make a mistake in the choral response, tell the class the correct answer and repeat the question.

The pre-spelling activities this week introduce the students to possessives such as *girl's*, *cats'*, and *men's*. See Day 2 (page 380) for background on possessives.

## ► Teacher Background

The pre-spelling activities this week introduce the students to possessives. Possessives are one of the more difficult concepts in English for several reasons:

- In general, a possessive shows ownership. *The girl's hat* can mean that the girl *owns* the hat; it *belongs to* her. Yet *the girl's hat* can also mean that the girl *has* the hat, as in *The girl's hat was borrowed from her friend*. *The men's job* means the job of the men. *Boys' shoes* means shoes for boys.
- Readers must be able to determine whether the possessive is singular (as in *the girl's dogs*) or plural (as in *the girls' dogs*). Spellers must select and spell the correct possessive for their meaning.
- The apostrophe in a possessive does not have the same function as an apostrophe in a contraction.

Possessives are especially difficult for English Language Learners, as well as for other speakers who do not usually pronounce the *s* in possessives. Many students will need an extended period of modeling and guiding to master the spelling of possessives.

## ► Pre-spelling: Possessives

I will explain possessive words to you.

girl's — — —

- Write on the board: The girl's hat is orange.

Read with me: *The girl's hat is orange*. This sentence shows us that the hat *belongs to* the girl. The girl *owns* the hat.

- Cover 's.

We know there is one girl.

- Point to *girl's*.

The word *girl's* is a possessive. Say "possessive."

- Write on the board: girls girl's

These two words are not the same.

- Point to *girls*.

This means "more than one girl."

- ▶ Point to *girl's*.

This is possessive.

- ▶ Write on the board: didn't girl's hat
- ▶ Point to *didn't* and *girl's*.

Both of these words have apostrophes. In the contraction *didn't* what does the apostrophe show? (Students: A letter was left out.) In *girl's* the apostrophe does *not* show letters left out. The apostrophe shows that the word is possessive.

- ▶ Point to the “girl’s hat” picture on the spelling-sound chart. This is the picture for the possessive “girl’s hat.”

## ▶ Guided Spelling

Open your spelling books to page 141. Numbers 1–4 are new words for this week.

Number 3: boat's. The boat's sail was raised. Say *boat's*.

What do we call the word *boat's*? (Students: possessive) *The boat's sail was raised*. Is there one boat or more than one boat? ■ Write *boat*. ■ *The boat's sail*. Make *boat* possessive by adding apostrophe-**s**. (Check.)

4. powerful

Number 4: powerful. (Use the word in a sentence.) Say *powerful*.

*Powerful* is a base word with a suffix. Base word? ■ Say *power* by syllables. ■ I'll say the syllables to help you spell: *pow-er*. Repeat the syllables. ■ First syllable? ■ Question? (Students: which /ou/?)

► Hold up two fingers.

Write *pow-*.

Second syllable? ■ Question? (Students: which /er/?)

► Hold up one finger.

Write *-er*.

*Powerful*. What is the suffix? (Students: *-ful*) Add the suffix. Don't leave space between the base word and the suffix.

Let's check. Read the word. ■ Read and spell by syllables as I write the word. ■ Check your word.

5. boy's

Number 5: boy's. The boy's head was hurt. Say *boy's*.

*Boy's* is a think word. What do we call the word *boy's*? (Students: possessive) How many boys have that head, one or more than one? (Students: one) Write *boy*. ■ *The boy's head*. Make *boy* possessive by adding apostrophe-**s**. (Check.)

6. nation

Number 6: nation. (Use the word in a sentence.) Say *nation*.

Say *nation* by syllables. ■ First syllable? ■ We hear a long vowel sound at the end of the syllable, so what spelling will we probably use? Write *na-*.

Second syllable? ■ If you aren't sure how to spell *-tion*, raise your hand to ask me. Write *-tion*.

Let's check. Read the word. ■ Read and spell by syllables as I write the word. ■ Check your word.

7. puppies'

Number 7: puppies'. The puppies' mother protected them. Say *puppies'*.

What do we call the word *puppies'*? (Students: possessive) *The puppies' mother protected them*. Is the sentence about one puppy or more than one? (Students: more than one) If you don't remember how to spell *puppies*, raise your hand to ask me. Write *puppies*. ■

*The puppies' mother.* Now make *puppies* possessive. There's already an **s**. Just add an apostrophe at the end.

Let's check. Read the word. ■ Read and spell by syllables as I write the word. ■ Check your word.

### NOW YOU'LL WRITE THREE SIGHT WORDS.

8. heavy — —

Number 8: *heavy*. (Use the word in a sentence.) Say *heavy*.

VISUALIZING At the end of memory step 1, have the students close their eyes and visualize the word.

(Memory steps) Underline the hard part: **e-a**.

COMPOUND WORD *Nowhere* is a compound word. What two smaller words make up *nowhere*?

(Memory steps) Underline the hard parts: **o** and **e-r-e**.

## ► Teacher Background

The students will write *A.M.* as the abbreviation for *ante meridiem*. The spelling *a.m.* is also a correct way to write this abbreviation.

## ► Pre-spelling: Spelling Possessives

I will spell a possessive.

sun's

Sun's. The sun's light is very bright. Sun's.

What does *sun's light* mean? (Students: The light belongs to the sun. or The light of the sun.) What do we call the word *sun's*? (Students: possessive) Is there one sun or more than one sun? (Students: one)

First I write *sun*. Then I add apostrophe-**s**. *Sun's*, as in *The sun's light is very bright*.

## ► Guided Spelling

Open your spelling books to page 149.

1. boys'

Number 1: boys'. The boys' dog followed them. Say *boys'*.

*Boys'* is a think word. What do we call the word *boys'*? (Students: possessive) *The boys' dog followed them*. The dog belonged to *more than one boy*. Write *boys*. ■ Now make *boys* possessive. There's already an **s**. Just add an apostrophe at the end. (Check.)

2. station

Number 2: station. (Use the word in a sentence.) Say *station*.

Say *station* by syllables. First syllable? ■ We hear a long vowel sound at the end of the syllable, so what spelling will we probably use? ■ Write *sta-*.

Second syllable? ■ If you aren't sure how to spell *-tion*, raise your hand to ask me. Write *-tion*.

Let's check. Read the word. ■ Read and spell by syllables as I write the word. ■ Check your word.

3. men's

Number 3: men's. (Use the word in a sentence.) Say *men's*.

*Men's* is a think word. What do we call the word *men's*?

(Students: possessive) *The men's team*. Is this sentence about a man or men? ■ Write *men*. ■ Make *men* possessive by adding apostrophe-**s** at the end. (Check.)

4. birds'

Number 4: birds'. Birds' bones are very light. Say *birds'*.

What do we call the word *birds'*? (Students: possessive) *Birds'*

*bones are very light*. The sentence is about the bones of more than one bird. If you don't remember how to spell *birds*, raise your hand to ask me. Write *birds*. ■ Now make *birds* possessive. There's already an **s**. Just add an apostrophe at the end. (Check.)

5. flour

Number 5: flour. He made bread out of flour, yeast, and water. Say *flour*.

HOMOPHONE *Flour* is a homophone. It's not *flower*, such as a rose. It's the *flour* that you use in bread or cakes.

Question? (Students: which /ou/?)

► Hold up one finger.

Write *flour*. (Check.)

6. girl's

Number 6: girl's. Everyone in the girl's family came to the show. Say *girl's*.

What do we call the word *girl's*? (Students: possessive) *Everyone in the girl's family came to the show*. In this sentence there is one girl.

First you'll write *girl*. Question? (Students: which /er/?)

► Hold up two fingers.

Write *girl*. ■ Make *girl* possessive by adding apostrophe-**s**. (Check.)

7. pleasing

Number 7: pleasing. (Use the word in a sentence.) Say *pleasing*.

Base word? ■ Question? (Students: which /ē /?)

► Hold up three fingers.

Careful. The sound /z/ in *please* is spelled **s-e**. Don't write yet.

*Pleasing*. What is the last letter of *please*? (Students: e) What

will you do to the **e** in *please*? (Students: drop e) Write *pleasing*. (Check.)

NOW YOU'LL WRITE THREE SIGHT WORDS.

8. rough

Number 8: rough. (Use the word in a sentence.) Say *rough*.

(Memory steps) Underline the hard part: **o-u-g-h**.

9. enough

Number 9: enough. (Use the word in a sentence.) Say *enough*.  
(Memory steps) Underline the hard parts: **e** and **o-u-g-h**.

10. A.M.

Number 10: A.M. School started at 8:00 A.M. Say A.M.

ABBREVIATION Find the abbreviation A.M. at the top of the page. When we read the abbreviation we say A.M. A.M. is an abbreviation for the Latin words *ante meridiem*, meaning *before the middle of the day*, or *before noon*, so 8:00 A.M. is 8:00 in the morning, not 8:00 in the evening.

► Write on the board: a.m.

This way of spelling A.M. is also correct.

(Memory steps) Underline the whole abbreviation.

---

## ► Student Study

► Note: This is a brief activity of 1 or 2 minutes.

Now turn to page 139. If you missed a word on the test in Week 25, you have put an **S** by it. Now study the words that have **S** by them. If you did not miss any words on the test, study the words that may be hard for you.

10. P.M.

Number 10: P.M. They went to bed at 7:00 P.M. Say P.M.

ABBREVIATION Find the abbreviation *P.M.* at the top of the page. When we read the abbreviation, we say *P.M.* *P.M.* is an abbreviation for the Latin words *post meridiem*, meaning *after the middle of the day*, or *after noon*, so 7:00 P.M. is 7:00 in the evening, not 7:00 in the morning.

► Write on the board: p.m.

This way of spelling *P.M.* is also correct.

(Memory steps) Underline the whole abbreviation.

## ▶ Student Study

## Consonant-l-e Syllables

### ▶ New Content

When the last syllable of a base word sounds like consonant-/l/, it is usually spelled consonant-l-e, as in *table*, *juggle*, *purple*, or *puzzle*.

### ▶ Teacher Background

Make a copy of the Week 28 homework (*Blackline Masters* page 37) for each student.

One additional guiding point is introduced this week: the syllable /kl/ at the end of a word is often spelled **cle** or **kle**, as in *uncle* and *wrinkle*. (Words ending with **ckle** are divided before **le**, for example, *freck-le* and *pick-le*.)

In the pre-spelling activities this week, the students hear and spell final syllables that are spelled consonant-l-e.

### ▶ Words Used This Week

## Sound /aw/ Spelled **au**, **aw**, and **a**

### ► New Content

The sound /aw/ at the beginning or in the middle of a word is often spelled **au** or **aw**, as in *August* or *lawn*.

The sound /aw/ at the end of a word is spelled **aw**, as in *law*.

The sound /aw/ before **l** is often spelled **a**, as in *ball* and *salt*.

### ► Teacher Background

Make a copy of the Week 29 homework (*Blackline Masters* page 38) for each student.

In some regions, speakers pronounce **au**, **aw**, and short **o** identically.

Spelling /aw/ before the sound /l/ can be tricky, as the spelling could be **au**, **aw**, or just **a**, as in *haul*, *crawl*, *salt*, and *fall*.

One additional guiding point is introduced this week: the sound /awl/ at the beginning of a polysyllabic word is spelled **al**, for example, *almost*, *already*, and *although*.

In the pre-spelling activities this week, the students will add endings to base words.

*Relying. Will we change y to i? (Students: no) I just add i-n-g.*  
*Relying.*

### ▶ Partner Proofreading

▶ Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three.

Open your spelling books to page 171. On this page you will see many of the words that we have studied, but some of them are

not spelled correctly. Today you will proofread these sentences with your partner. Read each sentence with your partner. Together you will look for misspelled words. When you find a misspelled word, draw a line through it and write the correct word above it. You may find a sentence without any misspelled words.

▶ As the students work, monitor and assist those who need extra support in proofreading.

## ▶ **Correct Sentences Together**

---

Let's read each sentence together. You tell me each misspelled word and how to spell it correctly, and I will write the correct word on the board. If you made a mistake, draw a line through the word.

1. The women were hurrying to be reddy on time. Misspelled words? (Students: ready, r-e-a-d-y)

▶ Write *ready* on the board.

2. The plane was flying high abuv the grownd at a very fast spede. Misspelled words? (Students: above, a-b-o-v-e, ground, g-r-o-u-n-d, speed, s-p-e-e-d)

▶ Write *above*, *ground*, and *speed* on the board.

3. The mother dog had four brown puppies. One puppy's ear was white. Misspelled words? (Students: no misspelled words)

4. Her unkle offen speeks in a loud voice. Misspelled words? (Students: uncle, u-n-c-l-e, often, o-f-t-e-n, speaks, s-p-e-a-k-s)

▶ Write *uncle*, *often*, and *speaks* on the board.

5. The two boy's house is in the midle of toun. Misspelled words? (Students: boys', b-o-y-s-apostrophe, middle, m-i-d-d-l-e, town, t-o-w-n)

▶ Write *boys'*, *middle*, and *town* on the board.

## ▶ **Record Words Missed in Proofreading**

---

If there is a misspelled word that you did not correct, turn back to page 169 and write **S** next to the word. If there is a word that you did not write correctly, find the word on page 169 and write **S** next to it. These are words that you especially need to study.

## Partner Study

### ► Pre-spelling: Endings

Help me add endings to words.

choosing

Choosing. He was choosing a book. Choosing.

Base word?

► Write *choose* on the board. Point to **se**.

Is there consonant-**e** at the end? ■ *Choosing*. What will we do now? (Students: drop e) And now? (Students: add i-n-g) *Choosing*.

dries

Dries. Rain dries quickly on a hot day. Dries.

Base word?

► Write *dry* on the board. Point to **ry**.

Does the word end with consonant-**y**? ■ *Dries*. What's our rhyme? (Students: Change y to i and add e-s.) I erase **y** and write **i**. I add **e-s**. *Dries*.

### ► Partner Study

► Have your students open their spelling books to page 169. Remind them how to study their spelling words with a partner. In partner study the students take turns telling each other which word they choose to spell aloud. The students also say which parts of each word are hard to spell. For example, one student says, "I will spell number 18, *sound*. The hard part is **o-u**." He covers the word and spells it aloud as his partner checks. If he makes a mistake, both partners cover the word and spell it together. The partner who made the mistake writes **S** in front of the word to remind him to study it.

► You may want to model the partner study before your students begin.

## Spelling Discussion

### ► Teacher Background

The purposes of today's spelling discussion is to explore ways of memorizing words.

### ► Pre-spelling: Endings

Help me add endings to words.

zipping — —

Zipping. She was zipping up her backpack. Zipping.

Base word?

► Write *zip* on the board. Point to **i**.

Is there one vowel?

► Point to **p**.

Is there one consonant after the vowel? ■ Will we double the **p**?  
(Students: yes)

► Add **ping**.

Zipping.

hurried — —

Hurried. They hurried up the stairs. Hurried.

Base word? (Students: hurry) *Hur-ry. Hur-*

► Write *hur* on the board.

*-Ry.*

► Add *ry*. Point to **ry**.

Does the word end with consonant-**y**? ■ *Hurried*. What's our rhyme? (Students: Change **y** to **i** and add **e-d**.) I erase **y** and write **i**. I add **e-d**. *Hurried*.

### ► Spelling Discussion

Turn to page 169 in your spelling books. These are the words you are studying for the review test this week. There are many ways to learn words for a spelling test. Can you tell us about some of the words on this page and the ways you memorize their spellings?

The students might say:

“I say words by syllables and think how each syllable is spelled, for example, *en-joy* or *mid-dle*.”

“Sometimes I say a word in a wrong way or silly way that helps me remember, such as *wō-măn* or *Wěd-něz-day*.”

“I like to make up sentences with words that have the same spelling, like *My uncle drew a circle*.”

“Sometimes I think of a rhyme I know, such as ‘How now, brown cow.’”

“Sometimes a big word has a little word in it that helps me remember; for example, *meant* has *mean* in it and *nothing* has *no* and *thing*.”

“I know that some words have the same parts. All the months that end in /er/ are spelled **e-r**, so *December* ends with **e-r**.”

► If the students do not have ideas for their own mnemonics, share some of the ideas above.

---

## ► Partner Study

► If time permits, have the students study the review words on page 169 with their partners, as on Day 3 of this week.

## Weekly Test

# Appendices

# Routine for Checking Words

During guided spelling, the students receive immediate feedback by checking each word they have written before the teacher begins the next item. For the first two weeks of grade 3, the checking procedure for each word is provided in detail in the *Teacher's Manual*, as shown below:

3. trip

Number 3: trip. His trip to the Grand Canyon was exciting. Say *trip*. (Students: trip)

Listen to the sounds: trip. (Pronounce **tr** distinctly.) Write *trip*.

Now you will check your work. Everyone will read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *trip* as the students read and spell. (Students: trip, t-r-i-p)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

Beginning in Week 3, the checking procedure is no longer written out for each word. The notation “(Check.)” reminds you to lead the students through the entire checking process, as shown below:

6. chat

Number 6: chat. (Use the word in a sentence.) Say *chat*.

*Chat* is a think word. Write *chat*. (Check.)

# Memory Steps

## The Guided Spelling Memory Steps

Students benefit from using a systematic approach to studying their spelling words. In grade 3 of the *Guided Spelling* program, you will teach your students a three-step method:

- Step 1** Read, spell out loud, and study.
- Step 2** Cover, say, spell out loud, and check.
- Step 3** Cover, say, write, and check.

## Using the Memory Steps in Daily Guided Spelling

In daily guided spelling, you lead the students through the three memory steps for each of the three sight words. In Step 1, you direct the students' study by mentioning any special features of the word (for example, if it is a homophone or compound word) and having the students underline the hard parts and often visualize the word. The following example from Week 1 shows full guiding for a class that is not yet familiar with the memory steps.

8. full — — —

Number 8: full. (Use the word in a sentence.) Say *full*.  
(Students: full)

Find *full* at the top of the page.

**Step 1** Step 1 is to read the word out loud, spell it, and study it. Everyone read. (Students: full) Everyone spell out loud as you point under each letter. (Students: f-u-l-l) Underline the hard part: **u-l-l**.

**Step 2** Step 2 is to cover the word, say it, spell it out loud, and then check it. Everyone cover the word. Say and spell. (Students: full, f-u-l-l) Uncover and check.

**Step 3** Step 3 is to cover the word, whisper it, write it, and check it. Everyone cover the word. Find line number 8. Everyone whisper the word and then whisper the letter names as you write.

*continues*

(continued)

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 8, write *full* as the students read and spell.  
(Students: full, f-u-l-l)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

Beginning in Week 3, the memory steps are no longer written out for each sight word. The notation “(Memory steps)” reminds you to lead the students through all three steps:

9. mother

Number 9: mother. (Use the word in a sentence.) Say *mother*.  
(Memory steps) Underline the hard parts: **o** and **e-r**.

## Using the Memory Steps in Homework

In the *Guided Spelling* program, the students use the memory steps in their homework to study and memorize the weekly words. They will be familiar with the steps from daily guided spelling. The *Blackline Masters* book provides a homework page for each week that lists the words to be studied and provides space to write the words; the memory steps are printed at the top of each homework page for the students to refer to.

# Research Basis for Guided Spelling

The *Guided Spelling* program is based on four areas of research: developmental stages, explicit instruction, word frequency, and basal spelling instruction.

## Developmental Stages of Spelling

Edmund Henderson and his colleagues at the University of Virginia conducted extensive studies of developing spellers and identified specific stages of increasing proficiency (Henderson 1990; Henderson and Templeton 1986). The following summary of stages is based on Bob Schlagal's (2001) description of these stages.

- **Nonphonetic Stage:** Children write with strings of letters unrelated to the spelling or sounds of the words.
- **Semiphonetic Stage:** Students become aware that letters can represent sounds, and they use what they know of letter sounds (and letter names, if necessary) to spell. For example, one child wrote “WE LKRNHS” for “We like our new house” (p. 154).
- **Phonetic Stage:** Students are learning the spellings of short vowels. They represent most long vowels by the name of the sound, for example, PLEZ for *please* (p. 155). Students continue to master the more difficult consonant combinations, for example, **mp**, **nd**, and **dr**. They tend to spell the inflectional ending **s** as **Z** and **ed** as **T** or **D** (p. 156).
- **Within Word Pattern Stage:** Students gain proficiency with the multiple spellings of vowel sounds, for example, **ee** and **ea** for the sound /ē/. They become more aware of vowel sounds in syllables. They master the spellings for the inflectional endings **s**, **es**, **ed**, and **ing**.
- **Syllable Juncture Stage:** Students gain proficiency in changing the end of certain base words before adding inflectional endings, for example, doubling **p** in *stopped* and dropping **e** for *waving*. Students' understanding of polysyllabic spelling increases to include correct spelling of many open syllables (e.g., *paper*) and closed syllables (e.g., *happy*).

- **Derivational Constancy Stage:** Students become aware that words derived from the same source can provide clues about spelling. For example, the speller can easily spell *e* in *competition* by making a connection with the word *compete*. Students in this stage apply knowledge of prefixes, suffixes, and Greek and Latin roots that appear in thousands of English words.

Henderson's findings have been studied, refined, and promoted by other investigators (for example, Invernizzi and Hayes 2004; Moats 2006), who strongly recommend that spelling instruction facilitate progress through these stages. The *Guided Spelling* program is carefully structured with this in mind.

## Explicit Instruction

The *Guided Spelling* program is based on principles of systematic, explicit instruction. Research on teacher effects as summarized and analyzed by Barak Rosenshine (1995) supports the positive impact of presenting new material in small steps and guiding student practice, as well as providing detailed explanations, providing active practice for students, asking for frequent student responses to check student understanding, and providing systematic feedback and correction (p. 264).

In particular, English Language Learners have been shown to benefit from systematic, explicit orthophonemic instruction (Mathes et al. 2007; Vaughn et al. 2005). Students with learning disabilities also benefit from direct spelling instruction (Graham 1999; Wanzek et al. 2006). Explicit, systematic methods of spelling instruction were pioneered by Samuel Orton, Anna Gillingham, and Bessie Stillman. The core of their methods consisted of explicit teaching of sound-symbol correspondences, focus on individual syllables as well as words, extensive practice applying key spelling rules, and a combination of visual, auditory, and kinesthetic learning (Gillingham and Stillman 1997).

## Word Frequency

Two major studies of word frequency were used as the basis of word selection for the *Guided Spelling* program. In the first study, John Carroll, Peter Davies, and Barry Richman analyzed five million words of running text in all content areas of school curricular materials in grades 3 through 9 (1971). In the second study, Susan Zeno and others analyzed 17 million words from more than 6,000 textbooks and other materials used in U.S. schools and colleges (1995). The highest-frequency

words identified in these studies are the words most frequently encountered by students and those that the students will need to spell in their school writing.

### **Basal Spelling Approach**

Basal spelling instruction has been a common feature of American education for decades. Research has supported the effectiveness of having weekly lists to study and memorize, practice throughout the week, a weekly test, frequent review, and instruction in study methods (Schlagal 2002). The *Guided Spelling* program includes these basic features while also going beyond straight memorization to support students with strategies and tools for spelling and developing students' metacognitive awareness of their spelling knowledge.

# Index to Full Guiding

In the *Guided Spelling* program, when spellings (such as short **a**, **oi**) or spelling concepts (such as doubling consonants before adding endings) are first introduced, the *Teacher’s Manual* provides maximum support during guided spelling for one week. Then the support is gradually decreased to reflect the students’ increasing proficiency.

As you observe your students daily and analyze their weekly test performance, you may decide they need maximum support for a particular concept for longer than one week. The purpose of this index is to direct you to the location of initial maximum guidance for each spelling element. For example, if you wish to review the fullest level of support given for **i-consonant-e**, locate “**i-consonant-e**” in the “Spellings” list below. “Week 9, Day 1, page 148, #2: *nine*” indicates that full guidance for “**i-consonant-e**” can be found on page 148 of the *Teacher’s Manual*, in the entry for the word *nine* (word #2 in the “Guided Spelling” section for Week 9, Day 1).

# Index of Words Taught at Grade 3

The words listed below are the words that are specifically taught, studied, and tested at grade 3 of the *Guided Spelling* program. The number after each word below indicates the week in which the word is first introduced. Sight words are underlined. For teachers who are differentiating instruction for students at different levels, asterisks (\*) indicate the words that below-grade-level spellers learn; the letters “ch” signify optional challenge words for advanced spellers.

# Guided Spelling™

Developing Thoughtful Spellers

The *Guided Spelling* program is a research-based, yearlong curriculum for grades 1–6. Students learn to become thoughtful spellers and master the high-frequency words they will need in their writing. The 15-minute daily lessons are teacher-directed, multisensory, and interactive. In grade 3 of the *Guided Spelling* program, the students learn vowel patterns in both single-syllable and polysyllabic words. They spell endings that involve doubling the final consonant, dropping **e**, changing **y** to **i**, and forming possessives. Students learn strategies for spelling and memorizing single-syllable, polysyllabic, and irregular words.

Grade 3 Content	Examples
<b>Phonemic Spelling Knowledge</b>	
Consonant digraphs and clusters	kept, drip, match, bridge
Short vowels	flat, fresh, which, box, must
Long vowel-consonant-e	phone, nine, strange
