# ACKNOWLEDGMENTS

Many people were involved in the development and production of the *Making Meaning* program. We are grateful for their time, expertise, suggestions, and encouragement.

---

## Teachers, Principals, and School Districts

First, we wish to thank the members of our *Making Meaning* Teacher Advisory Boards, who piloted the lessons during our initial development and gave us expert feedback that helped to shape the format and content of the program and who collaborated with us in numerous invaluable ways:

### **Albany Unified School District**

Annie Alcott  
Edie Johnson  
Nancy Johnson  
Hannelore Kaussen  
April Stewart  
Christiane Zmich

### **Emeryville Unified School District**

Shawna Smith  
Gabrielle Thurmond

### **Escuela Bilingüe Internacional**

Pilar Beccar-Varela

### **Moraga Elementary School District**

Dot Cooper

### **Newark Unified School District**

KelLee Cannis  
Elizabeth Chavez  
Hemawatie Dindial  
Gail Fay  
Midge Fuller  
Lynn Gurnee  
Kara Holthe  
Krissy Jensen  
Joshua Reed

### **Oakland Unified School District**

Anjuna Wagner

### **West Contra Costa Unified School District**

Betty Bouganis  
Molly Curley  
Simon Ellis  
Sally Feldman  
Nina Morita  
Karley Nuzman

We also wish to thank the teachers, principals, and district leaders who participated in the yearlong field-testing of the *Making Meaning* program in the following school districts:

Newark Unified School District, Newark, California

Frayser Elementary School, Jefferson County Public School District, Louisville, Kentucky

Special thanks to the individuals listed on the following page for their advice, feedback, writing, classroom collaboration, appearances in professional development videos, and many significant contributions to the program.

Stacy Abeyta, Teacher, grade 2  
Leanna Alcayaga, Teacher, grade 4  
Janine Burt, Principal  
Andrea Chrisman, Teacher, grade 1  
Bianca Cierra-Wong, Teacher, grade 1, and Dean of Curriculum  
Hemawatie Dindial, Teacher, grade K  
Lisa Ernst, Teacher, grade K  
Gail Fay, Teacher, grade 6  
Midge Fuller, Teacher, grade 6  
Natalie Gaber, Teacher, grade 1  
Leslie Gjestvang, Teacher, grade 4  
Cathreene Ingham-Watters, Teacher, grades 4–5  
Hannelore Kausssen, Teacher, grade 2  
Marni Kay, Literacy Coach, grades K–5  
Rebecca Knigge, Teacher, grade 1  
Jennifer Lepore, Literacy Coach, grades K–5  
Amber Marsh, Teacher, grade 5  
Nina Morita, Teacher, grade 1  
Karen Wetzell, Teacher, grade 5  
Lindee Witt, Literacy Coach, grades K–5  
Christiane Zmich, Teacher, grade 4

---

## Children’s Book Publishers

We also wish to thank the many children’s book publishers that assisted us during the development of this program and upon whose books these lessons are based:

Annick Press Ltd.	Kids Can Press
Candlewick Press	Kingfisher Publications
Capstone Press	Lee & Low Books
Charlesbridge Publishing	Lerner Publishing Group
Child’s Play USA	Penguin Group (USA)
Chronicle Books	Random House Children’s Books
The Creative Company	Robert Kraske
Dawn Publications	Sanford J. Greenburger Associates
Farrar, Straus & Giroux	Scholastic Inc.
HarperCollins Children’s Books	Simon & Schuster
Henry Holt and Company Books	Square Fish Books
Holiday House	Star Bright Books
Houghton Mifflin Harcourt Children’s Books	TCP Press
Hyperion Books for Children	Walker & Company

---

## Making Meaning First and Second Edition Authors

We wish to acknowledge the seminal thinking and inspirational leadership provided by Shaila Regan and Susie Alldredge as primary authors of the first and second editions of the *Making Meaning* program.

---

## Making Meaning Revision Team

### PROGRAM DEVELOPMENT STAFF

Lana Costantini, Director of Program Development  
Dennis Binkley, Associate Director of Program Development  
Bonnie Brook, Program Manager  
Jackie Jacobs, Program Manager  
Sarah Rosenthal, Program Manager  
Will Art, Curriculum Developer  
Grady Carson, Curriculum Developer  
Katie MacLean, Curriculum Developer  
Charlotte MacLennan, Curriculum Developer  
Miki Terasawa, Curriculum Developer  
Catherine Wittman, Curriculum Developer  
Jill Detweiler, Library Manager

### LEARNING TECHNOLOGY STAFF

Nazar Yousif, Chief Technology Officer  
Stephen Applebaum, Learning Technology Operations Director  
Joshua Callman, Associate Director of Learning Technology  
Maggie DeAngelis, Learning Technology Product Manager  
Robert Kaehms, Learning Technology Operations Architect  
Ivan Milanez, Learning Technology Project Coordinator  
Matt O'Neill, Learning Technology Product Manager  
Brian Sholly, Learning Technology Engineer  
Paul Williams, Learning Technology Product Manager

### PUBLISHING SERVICES STAFF

Lisa Kent Bandini, Director of Publishing Services  
Laurie Stewart, Managing Editor  
Krista Faries, Senior Project Editor  
Erica Hruby, Senior Project Editor  
Melanie Farley, Project Editor  
Brady Golden, Project Editor  
Katie Seibel, Project Editor  
Richard Ables, Production Editor  
Rachel Gunn, Production Editor  
Katharine Moore, Production Editor  
Julie Pinkerton, Production Editor  
David Staloch, Production Editor  
Shannon Waite, Production Editor  
Jennie McDonald, Publisher Relations and Rights Director  
Kimo Yancey, Rights and Publishing Services Associate  
Jodi Hammerwold, Publisher Relations and Rights Associate  
Roberta Morris, Art Director  
Debra Grose, Production Manager  
Jennifer Bowyer, Production Specialist  
Jean Butterfield, Production Specialist  
Garry Williams, Senior Graphic Artist  
Carolyn Kemp, Sourcing and Manufacturing Manager

## **AUDIOVISUAL DEVELOPMENT STAFF**

Toby Levenson, Media Development Manager

Jeff Allen, Multimedia Administrator

Jackie Jacobs, Program Manager

Sarah Rosenthal, Program Manager

Grady Carson, Curriculum Developer

## **CENTER FOR THE COLLABORATIVE CLASSROOM CONSULTANTS**

We wish to give special thanks to our team of consultants for advising us during the revision process:

### **National Educational Consultants**

Ginger Cook

Gina Fugnitto

Linda Rourke

Isabel Sawyer

Tabatha Scharlach

Melissa Tovaas

Christine Venturis

Sue Wilder

### **Additional Consultants**

Linda Alders, Assessment Consultant

Lin Sullivan, Assessment Consultant

John Thomas, Assessment Consultant

Susie Alldredge, Audiovisual Consultant

Shaila Regan, Development Consultant

### **ADDITIONAL CONTRIBUTORS**

In addition, Center for the Collaborative Classroom would like to thank our cadre of talented independent editors, designers, illustrators, proofreaders, and fact-checkers, as well as the following groups and individuals who assisted in the revision of *Making Meaning*:

Elisia Brodeur, copyediting and project editing

Group 5 Media, video production

Happenstance Type-O-Rama, book composition

Joslyn Hidalgo, book composition

SPi Global, digital book conversion

Symmetry Creative Production, Inc., book composition and design

Venus Software International, software development

# Introduction

# The Collaborative Classroom

Center for the Collaborative Classroom (CCC) is a mission-driven, nonprofit organization committed to ensuring that all students have the opportunity to become highly literate critical thinkers who learn from, care for, and respect one another. The organization has more than four decades of experience providing professional development for teachers and innovative curriculum for classrooms.

*How* we teach matters as much as *what* we teach. CCC nurtures continuous professional learning that empowers teachers to transform classrooms, build school communities, and inspire the academic and social growth of children.

All of our curriculum materials and professional development services reflect the following core principles:

- Fostering caring relationships and building inclusive, safe environments are foundational practices for both student and adult learning communities.
- Classroom learning experiences should be built around students constructing knowledge and engaging in action.
- Honoring and building on students' intrinsic motivation leads to engagement and achievement.
- Social and academic curricula are interdependent and integrated.

Our innovative, research-based curricula not only support deep student learning and engagement but also guide teachers in creating CCC's vision of a Collaborative Classroom—an intentional environment in which students become caring members of a learning community.

Collaborative Classroom teachers become mindful of their practice by using materials that engage and motivate students, develop critical thinkers, and promote reflection about learning and community.

Collaborative Classroom students learn to work independently and collaboratively, to respectfully share their thinking with others, and to take responsibility for their learning.

---

## Overview of the CCC Collaborative Literacy Suite

The CCC Collaborative Literacy™ suite is an innovative set of modular programs that fosters students' ongoing development as readers, writers, and caring members of the classroom community. The *Making Meaning*™ program focuses on reading comprehension strategies and vocabulary development. *Being a Reader*™ is an early reading program that focuses on teaching students the foundational skills they need to read well and comprehend what they read while developing a love of reading. The *Being a Writer*™ program develops students' capacity to write well in a variety of genres using a writing process model.

Together, the programs that make up the CCC Collaborative Literacy suite address the core concepts, strategies, and skills traditionally taught in the language arts block while transforming the learning environment into one that is student centered. As the students learn to think, talk, and share ideas, they come to value the thinking of others. They become thoughtful readers and writers and discuss big ideas with respect, clarity, and understanding.

### **IMPLEMENTATION GUIDE**

The *CCC Collaborative Literacy Implementation Guide*, available on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)), shows teachers how the components of Collaborative Literacy fit into a single language arts block and also includes suggestions for scheduling, planning, and pacing lessons.

While *Being a Reader*, *Making Meaning*, and *Being a Writer* have been designed to work together as modules in the CCC Collaborative Literacy suite, each can also serve as a stand-alone program that can be used in combination with other literacy programs.

# Program Overview

The *Making Meaning*<sup>®</sup> program is a reading comprehension curriculum for kindergarten through grade 6. It is the first program of its kind to combine research-based best practices in reading comprehension with support for fostering your students' growth as caring, collaborative, and principled people.

We are well aware of the demands that elementary school teachers face in teaching reading today. Among those demands are the many activities that must be squeezed into the school day, the pressure of increased standardized testing, and a student population with increasingly diverse needs. The *Making Meaning* program offers maximum support for teaching reading comprehension in this environment. It is not another loosely defined program that adds hours of preparation to an already crammed to-do list. Rather, it is a fully fleshed-out curriculum that integrates easily into what you already do, incorporates an understanding of how real classrooms function, and teaches the specific strategies that students need to become effective readers, at a level and pace that is accessible to everyone.

---

## New to the Third Edition

In this third edition of the *Making Meaning* program, we have added content, assessments, and technology features designed to support your teaching and your students' reading comprehension and social development. These include:

- Additional weeks of instruction for a total of 30 weeks at all grades
- New read-aloud titles
- Additional informational texts at all grades
- A new Individualized Daily Reading (IDR) strand at kindergarten, expanded support for IDR at grades 1–6, and new IDR mini-lessons at all grades
- New and revised Writing About Reading activities in which the students write in various ways in response to texts
- A new *Student Response Book* at grade 1 and a revised and expanded *Student Response Book* at grades 2–6
- Print and digital teacher's manuals with links to professional development media and lesson resources

- A new *Assessment Resource Book* at kindergarten and new and expanded reading comprehension assessments at grades 1–6
- An online assessment tool, the CCC ClassView™ assessment app, for capturing and synthesizing assessment data
- A *Reading Assessment Preparation Guide* that prepares students for standards-based reading comprehension assessments at grades 3–6
- Online, interactive whiteboard activities
- Additional support for incorporating technology through tips, tutorials, mini-lessons, and extension activities
- An updated and expanded vocabulary supplement at all grades, the *Vocabulary Teaching Guide*

You will find more information about new content, assessments, and technology features in the pages that follow.

---

## Unique Pedagogy

The unique pedagogy of the *Making Meaning* program has grown out of years of research on reading comprehension and child development. The lessons integrate instruction and practice in reading comprehension strategies with activities that foster the students' social, emotional, and ethical development.

### RESEARCH BASED/CLASSROOM TESTED

Research documents what many teachers have always known: the fact that a child can read a page aloud does not mean that he or she can understand it. Teaching children to make sense of what they read has been an enduring challenge. To address this challenge, the creators of the *Making Meaning* program have drawn on decades of research by people like P. David Pearson and Michael Pressley, who describe the strategies that proficient readers use naturally and the conditions that foster those strategies in children. The *Making Meaning* program also draws on portraits from many classrooms in which reading comprehension is successfully taught, such as those described by Lucy Calkins in her work with the Reader's Workshop and by Ellin Keene and Susan Zimmerman in their book *Mosaic of Thought*. The *Making Meaning* program brings this research together in a unique, yearlong curriculum of easy-to-implement daily lessons. Reading comprehension strategies are taught directly through read-aloud experiences, and the students learn to use these strategies to make sense of their own reading, through guided and independent strategy practice.

In addition to a solid research base, *Making Meaning* has been shaped by pilot testing and discussions with a wide range of classroom teachers to assure that it is effective and that it fits into a typical classroom day. The *Making Meaning* program can replace an existing reading comprehension program or supplement basal instruction. It is designed to be accessible to all students, whatever their reading levels, and includes support for English Language Learners.

## **DUAL FOCUS: ACADEMIC AND SOCIAL/ETHICAL LEARNING**

The *Making Meaning* program is also unique in its focus on teaching the whole child. Child development research tells us that children learn and grow best in environments where their basic psychological needs are met. Children need to feel physically and emotionally safe. They need to feel that they belong. They need to have a sense of themselves as autonomous and capable. Studies indicate that when these basic needs are met at school by helping students experience a sense of community, the students do better academically (as measured over time by grades and test scores), exhibit more pro-social tendencies, and show greater resistance to problem behaviors, such as drug use and violence (Durlack et al. 2011).

To this end, the *Making Meaning* program helps you create a classroom community in which your students feel a strong sense of belonging, psychological safety, autonomy, and responsibility to themselves and to the group. Teachers know that such an environment does not just happen; it must be deliberately created through setting up purposeful interactions among students, teaching them social and problem-solving skills, and helping them to integrate pro-social values into their lives. As you teach the *Making Meaning* lessons, you will see that the children’s ability to learn reading comprehension strategies is inextricably linked to their ability to work together and bring democratic values like responsibility, respect, fairness, caring, and helpfulness to bear on their behavior and interactions.\*

## **TEACHER SUPPORT**

The program is designed to help you develop and practice valuable teaching skills as you support your students’ growth as readers. Detailed, easy-to-follow lesson plans include suggestions for introducing and practicing cooperative structures, conducting read-alouds, facilitating discussions, assessing the class, and conferring with individual students. Teacher Notes and references to professional development media throughout the lessons explain the underlying pedagogy of various activities and provide examples of what might happen in the classroom. A regular “You might say” feature provides you with language you might draw on as you model your thinking about a strategy.

---

\* To read more about the theoretical and research basis for the *Making Meaning* program, please refer to the Bibliography on page 721.

---

## Program at a Glance

The pages that follow provide a detailed scope and sequence for teaching reading comprehension at your grade level. The daily lessons revolve around clearly defined teaching objectives and build in complexity as students move through the program.

A week of lessons typically begins with a read-aloud of an engaging text, followed by a class discussion of what the text is about. This same read-aloud text is used on subsequent days to teach the students a comprehension strategy and to give them guided practice with the strategy. The week usually ends with the students practicing the strategy independently by using classroom library books and discussing their thinking. Each lesson typically requires 20–40 minutes of classroom time, depending on the grade level. In addition to the lessons, the students participate in Individualized Daily Reading (IDR), during which they read texts at their appropriate reading levels independently for up to 30 minutes each day, depending on the grade level. For more information about IDR, see “Individualized Daily Reading (IDR)” on page xxxix.

### STRATEGY DEVELOPMENT

The following comprehension strategies are taught in the *Making Meaning* program:

- Using schema/Making connections
- Retelling
- Visualizing
- Wondering/Questioning
- Using text features
- Making inferences
- Determining important ideas
- Analyzing text structure
- Summarizing
- Synthesizing

Not all strategies appear at each grade level. The program begins with the most developmentally appropriate strategies in the primary grades, and additional strategies are introduced in later grades. The table on the next page shows the development of the strategies across grades K–6.

## Development Across the Grades

Reading Strategy	K	1	2	3	4	5	6
Using Schema/Making Connections	■	■	■	□	□	□	□
Retelling	■	■	□				
Visualizing	■	■	■	■	■	■	■

## PROGRAM COMPONENTS

The *Making Meaning* program includes:

- A *Teacher’s Manual* (grades K–6), containing detailed lessons that provide a sequence of instruction for the academic year
- A set of carefully selected, grade-appropriate trade books to use as read-alouds
- A *Student Response Book*, one for each student (grades 1–6), coordinated with specific lessons and providing the students with selected read-aloud texts and excerpts, writing activities, a reading journal, and a reading log at grades 2–6
- An *Assessment Resource Book* (grades K–6), containing information and record sheets to help you regularly monitor the progress and needs of individual students and the whole class
- A *Reading Assessment Preparation Guide* (grades 3–6), containing lessons to prepare students for a standards–based reading comprehension assessment
- A *Vocabulary Teaching Guide*, with weekly lessons that build students’ vocabularies by teaching words taken directly from *Making Meaning* read-alouds
- A *Digital Teacher’s Set*, containing digital versions of the *Teacher’s Manual*, *Vocabulary Teaching Guide*, *Assessment Resource Book*, and *Reading Assessment Preparation Guide* (grades 3–6)

- Access to online resources via the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)), such as interactive whiteboard activities, assessment forms, reproducibles, and professional development media
- Access to the CCC ClassView app ([classview.org](http://classview.org)), which allows for electronic recording, sorting, synthesizing, and reporting of assessment data for individual students and the whole class

For more information about the print format of the *Teacher’s Manual*, see the “Getting Started with Your Print *Teacher’s Manual*” tutorial (AV37). For more information about the digital format, see the “Getting Started with Your *Digital Teacher’s Set*” tutorial (AV38).

## **ALIGNMENT WITH STANDARDS**

The *Making Meaning* program develops students’ ability to think critically, read closely and thoughtfully, work collaboratively, and express themselves clearly and confidently. It aligns with reading, writing, and listening and speaking standards. For more about how the program aligns to specific state standards, see the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

# Understanding the Program

The *Making Meaning* program helps students develop as readers *and* as caring, collaborative people. This dual focus is based on two beliefs: that students' academic learning flourishes when social learning is integrated into the curriculum and that we are called on as educators to help students develop as whole people—academically, socially, and ethically.

---

## Focus on Comprehension

In the *Making Meaning* program, students are taught the reading comprehension strategies that research shows good readers use to make sense of texts. They learn and practice the strategies with guidance and support from you before using them in their independent reading.

### THE GRADE 4 COMPREHENSION STRATEGIES

The strategies that follow are formally taught or informally experienced in grade 4 of the program.

- **Using schema/Making connections.** Schema is the prior knowledge a reader brings to a text. Readers construct meaning by making connections between their prior knowledge and new information in a text. In *Making Meaning* grade 4, the students learn to connect what they know from their own experiences to texts before, during, and after a read-aloud. They also make connections between texts.
- **Visualizing.** Visualizing is the process of creating mental images while reading. Mental images can include sights, sounds, smells, tastes, sensations, and emotions. Good readers form mental images to help them understand, remember, and enjoy texts. In *Making Meaning* grade 4, the students visualize to make sense of figurative language and deepen their understanding and enjoyment of poems and stories.
- **Wondering/Questioning.** Proficient readers wonder and ask questions to focus their reading, clarify meaning, and delve deeper into a text. They wonder what a text is about before they read, speculate about what is happening while they read, and ask questions after they read to gauge their understanding. In *Making Meaning* grade 4, the students wonder and ask questions before, during, and after a read-aloud to make sense of a text.
- **Using text features.** Readers who understand that expository texts have common features, such as tables of contents and indexes, headings and subheadings, and

diagrams and charts, use those features to help them unlock a text’s meaning. In *Making Meaning* grade 4, the students identify features of expository texts and use those features to help them understand the texts.

- **Making inferences.** Not everything communicated by a text is directly stated. Good readers use their prior knowledge and the information in a text to understand implied meanings. Making inferences helps readers move beyond the literal to a deeper understanding of texts. In *Making Meaning* grade 4, the students make inferences to think more deeply about both narrative and expository texts.
- **Determining important ideas.** Determining the important ideas in a text helps readers identify information that is essential to know and remember. What is identified as important in a text will vary from reader to reader, depending on the purpose for reading and prior knowledge. In *Making Meaning* grade 4, the students explore which ideas in texts are important and support their thinking with evidence from the texts.
- **Analyzing text structure.** Proficient readers use their knowledge of narrative and expository text structure to approach and comprehend texts. For example, readers who understand that stories have common elements, such as setting, characters, and plot, have a framework for thinking about stories. Readers who understand that authors of expository texts organize information through text structures, such as chronological order, cause and effect, and compare and contrast, use those structures to understand and remember the information. In *Making Meaning* grade 4, the students use story elements to help them think about stories.
- **Summarizing.** Summarizing is the process of identifying and bringing together the essential ideas in a text. Readers summarize as a way of understanding what they have read and communicating it to others. In *Making Meaning* grade 4, the students use text structure to help them think about both narrative and expository texts.
- **Synthesizing.** Synthesizing is a complex process that requires the reader to visualize, use schema, question, infer, and summarize to develop new ideas and understandings based on information in a text. In *Making Meaning* grade 4, the students informally synthesize to form opinions and make judgments about texts.

## THINKING TOOLS

The students learn various “Thinking Tools” that help them implement the strategies they are learning and delve more deeply into texts. In grade 4, the students learn and use:

- **Stop and Ask Questions.** The teacher stops at various places during a read-aloud, and the students write questions about what they are hearing. The students then have a record of their questions to use during partner or class discussions.
- **Double-entry Journal.** A student might write a quotation from a text in one column and his or her reaction to the quotation in the other column. Alternatively, he or she might write thoughts about a character at the start of a story in one column, and his or

her thoughts about the character at the end of the story in the other column. This kind of writing in a double-entry journal helps the students to become more reflective about their reading and builds writing skills.

---

## Focus on Social/Ethical Development

Helping students to develop socially and ethically, as well as academically, is part of the educator’s role, and we believe it should be integrated into every aspect of the curriculum. Social and academic learning flourish when they are integrated naturally, rather than pursued separately. Research shows that building a safe and caring classroom community helps students develop a sense of responsibility for their own learning and behavior, as well as empathy and motivation to help others (Schaps 2004). Students who receive support in building their social and emotional skills demonstrate significant gains in academic achievement (Durlack et al. 2011).

### **BUILDING RELATIONSHIPS**

During *Making Meaning* lessons, the students listen to and discuss texts in pairs, small groups, and as a class, and through their interactions, they come to recognize that talking about texts is a way to understand them. As the students work together, they develop caring and respectful relationships, creating a safe and supportive classroom community that is conducive to sharing their thinking. They are encouraged to take responsibility for their learning and to be aware of the effect of their behavior on others.

### **VALUES AND SOCIAL SKILLS**

As you help the students build relationships, you also help them understand the values that underlie these relationships. Across every year of the program, broad social goals help the students think about and act on five core values: responsibility, respect, caring, fairness, and helpfulness. The students reflect on what it means to act on these values and how their actions affect the community. Lapses in applying the values are seen as normal learning experiences, rather than as failures. In addition to these five core values, the students explore other values that arise in the read-alouds, such as courage, perseverance, gratitude, and compassion.

The social skills that students learn in *Making Meaning* help them to act on these values in a deliberate way. They learn basic social skills (such as listening to others and taking turns) early in the year, laying the foundation for the more sophisticated skills they learn and practice later in the year, when both their academic work and resulting social interactions become more demanding. (For example, learning how to listen to others early in the year prepares the students to build on one another’s thinking later in the year.)

Social development objectives for each week’s lessons are listed in the Overview of the week. The week’s lessons provide activities, questions, and cooperative structures that target these

objectives. (For more information, see “Cooperative Structures” on page xxviii.) Social skills emphasized in grade 4 include listening respectfully to the thinking of others and sharing their own, using prompts to add to one another’s thinking, and working in a responsible way. The lessons also provide opportunities for the students to decide such things as how they will divide the work fairly and how they will report their ideas to the class. Learning how to make these decisions helps the students become responsible group members. A Social Skills Assessment (grades 1–6) is included for use early in the year, mid-year, and at the end of the year to help you assess your students’ progress in meeting the social development objectives of the program.

The table below lists the social skills taught in the program and the grade levels at which they are formally taught, reviewed, or integrated.

### Social Skills Across the Grades

	K	1	2	3	4	5	6
Speaking clearly	•	•					
Taking turns talking and listening	•	•	•	•			
Participating in partner work and class discussions	•	•	•	•	•	•	•
Following classroom procedures	•	•	•	•	•	•	•
Listening respectfully to others	•	•	•	•	•	•	•
Contributing ideas that are different from other people’s ideas	•	•	•	•	•	•	•
Sharing partner’s thinking with the class	•	•	•	•	•	•	•
Reflecting on own behavior	•	•	•	•	•	•	•
Taking responsibility for learning and behavior	•	•	•	•	•	•	•
Explaining thinking	•	•	•	•	•	•	•
Giving reasons to support opinions			•	•	•	•	•

(continues)

## Social Skills Across the Grades *(continued)*

	K	1	2	3	4	5	6
Using discussion prompts			•	•	•	•	•
Agreeing and disagreeing respectfully				•	•	•	•
Using clarifying questions and statements				•	•	•	•
Including everyone and contributing to group work					•	•	•
Making decisions and solving problems respectfully					•	•	•
Discussing feedback and giving opinions respectfully					•	•	•
Confirming another person's thinking					•	•	•

### RANDOM PAIRING

Most lessons in *Making Meaning* are designed for pair work. We recommend that you randomly pair students at the beginning of each unit and have partners stay together for the whole unit. (See “Considerations for Pairing ELLs” on page liii.) Working with the same partner over time helps each student work through and learn from problems, build successful methods of interaction, and develop his or her comprehension skills.

Random pairing sends several positive messages to the students: there is no hidden agenda behind how you pair the students (such as choosing pairs based on achievement); every student is considered a valuable partner; and everyone is expected to learn to work with everyone else. Random pairing also results in heterogeneous groupings over time, even though some pairs may be homogeneous in some way during any given unit (for example, both partners may be female).

The box below suggests some methods for randomly pairing the students.

### Some Random Pairing Methods

- Distribute playing cards and have each student pair up with someone who has the same number or suit.
- Place identical pairs of number or letter cards in a bag. Have each student pull a card out of the bag and find someone who has the same number or letter.
- Cut magazine pictures in half. Give each student a picture half. Have each student pair up with the person who has the other half of the picture.

## COOPERATIVE STRUCTURES

Cooperative structures are taught and used at every grade level to increase the students' engagement and accountability for participation. These structures help the students learn to work together, develop social skills, and take responsibility for their learning. Students talk about their thinking and hear about the thinking of others. Suggested uses of cooperative structures in the lessons are highlighted with an icon. In addition, you can use the cooperative structures whenever you feel that not enough students are participating in a discussion or, conversely, when many students want to talk at the same time.

### Cooperative Structures in the Program

- **Turn to Your Partner.** Partners turn to one another to discuss a question.
- **Think, Pair, Share.** Each student thinks individually about a question before discussing his or her thoughts with a partner. Pairs then report their thinking to another pair or to the class. This strategy is especially appropriate when the students are asked to respond to complex questions.
- **Think, Pair, Write.** As in "Think, Pair, Share," each student thinks individually before discussing his or her thoughts with a partner. The students then write what they are thinking. Pairs might then share their writing with another pair or with the class.
- **Heads Together.** Groups of four students discuss a question among themselves. Groups might then share their thoughts with the class.
- **Group Brainstorming.** Groups of four generate as many ideas as they can about a question as a group member records. These lists are then shared with the class.

In grade 4, the students learn "Turn to Your Partner" and "Think, Pair, Share." Other structures are added as developmentally appropriate.

# Teaching the Program

## How the Grade 4 Program Is Organized

The *Making Meaning* program for grade 4 consists of nine units. The units vary in length from one to five weeks. Each week has four days of instruction and practice. The calendar below provides an overview of the year.

### Sample Calendar for Grade 4

	Unit/Read-aloud	Length	Focus
FALL	<b>1. The Reading Community: Fiction</b> <ul style="list-style-type: none"> <li>▪ <i>A Bad Case of Stripes</i> by David Shannon</li> <li>▪ <i>The Old Woman Who Named Things</i> by Cynthia Rylant</li> <li>▪ <i>Song and Dance Man</i> by Karen Ackerman</li> </ul>	2 weeks	Listen to and discuss stories Explore themes in stories Build the reading community Learn the procedures for gathering, “Turn to Your Partner,” “Think, Pair, Share,” and Individualized Daily Reading
	<b>2. Recognizing Text Features: Expository Nonfiction</b> <ul style="list-style-type: none"> <li>▪ <i>Shattering Earthquakes</i> by Louise and Richard Spilsbury</li> <li>▪ “Tying the Score: Men, Women, and Basketball”</li> <li>▪ “Food for Thought: Cafeteria Menus Shape Up”</li> <li>▪ <i>Nineteenth-Century Migration to America</i> by John Bliss</li> </ul>	3 weeks	Use text features to find and understand information Learn the procedure for “Think, Pair, Write”
	<b>3. Questioning: Expository Nonfiction</b> <ul style="list-style-type: none"> <li>▪ <i>Animal Senses: How Animals See, Hear, Taste, Smell and Feel</i> by Pamela Hickman</li> <li>▪ <i>Slinky Scaly Slithery Snakes</i> by Dorothy Hinshaw Patent</li> </ul>	3 weeks	Use questioning to think about expository texts Use schema to think about all they know about a topic Build a body of knowledge about animal life Learn the procedure for “Stop and Ask Questions”

(continues)

Sample Calendar for Grade 4 (continued)

	Unit/Read-aloud	Length	Focus
FALL (continued)	<b>4. Analyzing Text Structure: Fiction, Narrative Nonfiction, and Drama</b> <ul style="list-style-type: none"> <li>▪ <i>Thunder Cake</i> by Patricia Polacco</li> <li>▪ <i>The Princess and the Pizza</i> by Mary Jane and Herm Auch</li> <li>▪ <i>Chicken Sunday</i> by Patricia Polacco</li> <li>▪ <i>The Bat Boy &amp; His Violin</i> by Gavin Curtis</li> <li>▪ <i>Teammates</i> by Peter Golenbock</li> <li>▪ “Demeter and Persephone”</li> <li>▪ “Co-chin and the Spirits”</li> <li>▪ <i>Gluskabe and Old Man Winter</i> from <i>Pushing Up the Sky: Seven Native American Plays for Children</i> by Joseph Bruchac</li> </ul>	5 weeks	Explore narrative text structure through discussions of plot, setting, character, and conflict  Use questioning to think about narrative texts  Explore first- and third-person points of view
	<b>5. Making Inferences: Fiction and Poetry</b> <ul style="list-style-type: none"> <li>▪ <i>Hurricane</i> by David Wiesner</li> <li>▪ <i>My Man Blue</i> by Nikki Grimes</li> </ul>	3 weeks	Make inferences to understand narrative text and poetry  Make inferences and visualize to understand poetry  Use a double-entry journal  Learn the procedure for “Heads Together”
	<b>6. Making Inferences: Fiction and Narrative Nonfiction</b> <ul style="list-style-type: none"> <li>▪ <i>Amelia’s Road</i> by Linda Jacobs Altman</li> <li>▪ <i>Peppe the Lamplighter</i> by Elisa Bartone</li> <li>▪ <i>Coming to America: The Story of Immigration</i> by Betsy Maestro</li> <li>▪ <i>A Picture Book of Harriet Tubman</i> by David A. Adler</li> </ul>	4 weeks	Make inferences to understand narrative and expository texts  Make inferences to explore causal relationships in narrative and expository texts  Learn the procedure for “Group Brainstorming”
WINTER	<b>7. Analyzing Text Structure: Expository Nonfiction</b> <ul style="list-style-type: none"> <li>▪ “Virtual Worlds: Community in a Computer”</li> <li>▪ “School Uniforms: The Way to Go”</li> <li>▪ “School Uniforms: No Way!”</li> <li>▪ “How to Make Oobleck”</li> <li>▪ “Simon’s Sandwich Shop”</li> <li>▪ “City of Lawrence Street Map”</li> <li>▪ <i>Farm Workers Unite: The Great Grape Boycott</i></li> </ul>	4 weeks	Analyze expository text structure  Explore ways in which articles and functional texts are organized  Explore the use of sequence of events and compare/contrast relationships in textbooks
ANSWERING QUESTIONS IN RESPONSE TO TEXT UNIT FROM THE READING ASSESSMENT PREPARATION GUIDE (1 WEEK)

## Sample Calendar for Grade 4 (continued)

	Unit/Read-aloud	Length	Focus
SPRING	<b>8. Determining Important Ideas and Summarizing: Fiction and Narrative Nonfiction</b> <ul style="list-style-type: none"> <li>▪ <i>Flight</i> by Robert Burleigh</li> <li>▪ <i>A Picture Book of Amelia Earhart</i> by David A. Adler</li> <li>▪ <i>In My Own Backyard</i> by Judi Kurjian</li> <li>▪ <i>A Picture Book of Rosa Parks</i> by David A. Adler</li> <li>▪ "Excerpt from <i>Rosa Parks: My Story</i>" by Rosa Parks with Jim Haskins</li> </ul>	5 weeks	Determine important ideas in texts Distinguish between important and supporting ideas in texts Use important ideas to summarize
	<b>9. Revisiting the Reading Community</b>	1 week	Prepare book recommendations and generate summer reading lists Reflect on the students' growth as readers Reflect on the reading community

## Planning and Teaching the Lessons

We offer the following considerations to help you plan and teach the *Making Meaning* lessons.

### TEACHING THE UNITS IN ORDER

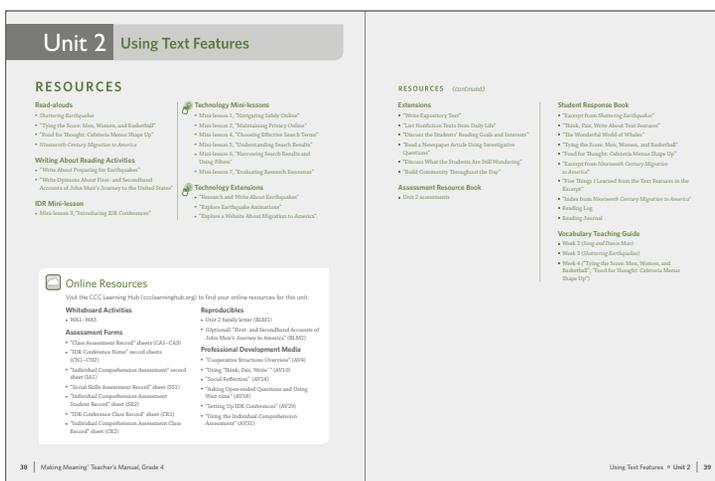

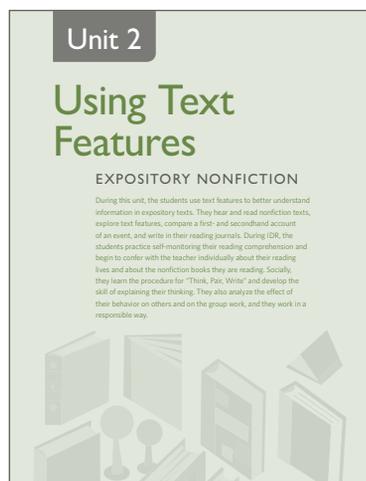

We recommend that you teach the units in the order in which they appear in the Teacher's Manual for several reasons:

- Instruction in comprehension strategies builds systematically across the year. In Unit 2, for example, the students use text features to help them make sense of expository nonfiction texts, while in Unit 3, they use questioning to explore the genre of expository nonfiction in more depth. In Unit 4, the students analyze narrative text structure to help them make sense of fiction and drama before doing the challenging work of making inferences in fiction, poetry, and narrative nonfiction in Units 5 and 6. In the final units of the year, the students hear and read increasingly complex expository nonfiction texts. They analyze text structures, determine important ideas, and write summaries of texts.
- Support for Individualized Daily Reading also builds across the year. Procedures necessary for the success of IDR, as well as critical practices such as keeping a Reading Log and Reading Journal, self-monitoring, and using "fix-up" strategies, are introduced early in the year, preparing the students for the important work in subsequent units of using comprehension strategies as they read and reflecting on and conferring about their reading. Expectations for stamina also increase throughout the year.

- Routines and cooperative structures critical to both academic and social development, including “Turn to Your Partner,” “Think, Pair, Share,” and “Think, Pair, Write,” are introduced in early units and used throughout the year. Later units build on the students’ experiences with pair work to support group work and cooperative structures such as “Heads Together” and “Group Brainstorming.”
- Social skills deepen in complexity across the year. In Units 1 and 2, for example, the students practice listening respectfully to the thinking of others and sharing their own thinking. This is preparation for using discussion prompts to build on one another’s thinking, a critical skill introduced in Unit 3. In later units, the students transition from pair work to working in groups of four, and learn skills that support group work, such as making decisions, solving problems, and discussing opinions respectfully.
- The lessons in the *Vocabulary Teaching Guide* must be taught in order. Words introduced in early weeks of the program are reviewed in later weeks, providing the students with multiple exposures to the words, and instruction in independent word-learning strategies, such as using prefixes, suffixes, and roots, builds across the year. The assessments also rely on the words being taught in the order prescribed. For more information, see “*Vocabulary Teaching Guide*”.

## UNIT AND WEEK OVERVIEWS

To prepare to teach a unit, begin by reading the unit’s introductory pages. The opening page provides a summary of the academic and social goals of the unit. The Resources list specifies the physical materials and the supplemental activities for the unit, while the Online Resources list indicates all of the materials that are available digitally on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

The Development Across the Grades table shows how the reading comprehension strategies taught in the program develop across the grades, highlighting the strategy featured during that unit. The Overview table identifies the key academic focuses of each day of instruction in the unit, as well as each day's read-aloud text.

Unit 2 Using Text Features		DEVELOPMENT ACROSS THE GRADES

Take time to share and discuss the text features.</li> <li>✓ Make available expository nonfiction and functional texts at a variety of levels so that the students can practice using text features during DR and Independent Strategic Practice throughout the week. For more information, see "About Expository Text" at the beginning of Day 1.</li> <li>✓ Prior to Day 1, divide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see "Random Pairing," "Considerations for Pairing ELs," and "Cooperative Structures" in the Introduction.</li> <li>✓ For more information, view "Cooperative Structures Overview" (AP6).</li> <li>✓ Prior to Day 2, prepare a sheet of chart paper with the title "Text Features."</li> </ul> <p>(CONTINUED)</p>	<p><b>DO AHEAD (continued)</b></p> <ul style="list-style-type: none"> <li>✓ Prior to Day 2, make a class set of "TRC Confidence Rating" record sheets (CR2); see page 144 of the Assessment Resource Book. This week, you will begin conferring with individual students during DR and deconstructing your observations and suggestions for each student. You might record the data(s) you confer with each student using the "TRC Confidence Class Record" sheet (CR3); see page 145 of the Assessment Resource Book.</li> <li>✓ Prior to Day 3, make a copy of the "Class Assessment Record" sheet (CA3); see page 8 of the Assessment Resource Book.</li> <li>✓ Prior to Day 3, prepare a sheet of chart paper with the title "Reading Comprehension Strategies."</li> <li>✓ Prior to Day 4, prepare to model completing a Reading Journal entry (see Step 3).</li> </ul> <p><b>Vocabulary Note</b></p> <p>Focus on teaching the vocabulary items from the Week 1 focus this week.</p>
--	--	---

## PREPARING THE DAILY LESSONS

### Read-aloud Lessons

Students’ listening comprehension typically exceeds their reading comprehension. Listening to and discussing texts together enables the students to build background knowledge and vocabulary, enjoy a common experience, build community, share ideas, and collaborate to construct meaning. Each week begins with a read-aloud lesson. After the reading, discussion questions check the students’ surface-level understanding of the text in preparation for deeper thinking about it on subsequent days of the week.

To Prepare for a Read-aloud:

- Read the entire lesson and anticipate how your students will respond.
- Collect materials and anticipate room arrangement needs.
- Practice reading the text aloud. Focus on reading slowly.
- Review the Suggested Vocabulary and the ELL (English Language Learner) Vocabulary lists and locate these words in the text. To better define these words smoothly while reading aloud, write each definition on a self-stick note and place the note next to the word in the read-aloud text. Notice if there are any additional words you may need to define for your students.
- Locate any suggested stopping points in the text. Again, you might use a self-stick note to mark each stopping point.
- Decide what level of support your English Language Learners will need. You might need to read the text aloud to your ELLs prior to reading it to the whole class or summarize the text for them. Also, review any ELL Notes in the lesson and provide extra support for your students as appropriate. (For more information, see “Support for English Language Learners [ELLs]” on page li.)
- Optional extension activities appear at the end of some lessons. Review any extension activities and decide if and when you want to do the activities with your class. Some may require additional materials or preparation.

### Read-aloud Lessons with Alternative Texts

You may want to substitute another text for the provided read-aloud text to teach the comprehension focus of the week or to repeat a week of instruction. For this purpose, a list of “Grade 4 Alternative Texts” is provided in the General Resources section of the CCC Learning Hub. The trade books suggested in the list of alternative texts are offered in Center for the Collaborative Classroom’s Comprehension Strategies Libraries. These grade-level libraries are designed to support instruction of the specific strategies used in the lessons. Visit Center for the Collaborative Classroom’s website ([collaborativeclassroom.org](http://collaborativeclassroom.org)) for more information.

## Strategy Lessons

Strategy lessons introduce the strategy that is the comprehension focus for the week. Typically, you will reread the read-aloud text from Day 1 and ask questions that help your students move beyond the text's surface meaning to a deeper exploration of it. You will then guide the students to develop their understanding through carefully structured activities. This approach encourages the students to explore and develop a strategy before you explicitly label it.

To Prepare for a Strategy Lesson:

- Read the entire lesson (including the *Student Response Book* pages) and anticipate how your students will respond.
- Collect materials and anticipate room arrangement needs.
- Practice using the strategy at least once in your own reading to help you anticipate difficulties the students might have.
- Plan how you will pace the lesson to keep it moving.
- Review suggested discussion questions and decide which ones you will ask.
- Remember that making meaning of a text—not using a particular strategy—is the primary goal of the program. Keep discussions focused on the text, and remind the students that strategies serve readers by helping them understand what they read.
- Review and plan any optional extension activities you want to do with your class.

## Guided Strategy Practice Lessons and Independent Strategy Practice Lessons

Strategy lessons are often followed by lessons in which the students practice using the strategy, with teacher support gradually being reduced as the students become more comfortable with the strategy. In a guided strategy practice lesson, the students practice using the strategy with a very familiar text (such as an excerpt from the week's read-aloud text), with you facilitating and supporting the students' work by asking focused questions and guiding the discussion.

In independent strategy practice lessons, the students practice using the strategy in appropriately leveled texts that they read independently. You have the opportunity to monitor the students and provide individual help as needed.

To Prepare for a Guided or Independent Strategy Practice Lesson:

- Read the entire lesson (including the *Student Response Book* pages) and collect materials.
- Practice any teacher modeling required in the lesson.

- Plan how you will pace the lesson to keep it moving.
- Review suggested discussion questions and decide which ones you will ask.
- Review and plan any extension activities you want to do with your class.

## LESSON LENGTH AND PACING

Grade 4 lessons take, on average, 20–40 minutes. Lessons in the first few weeks of the program may take longer as you introduce and practice cooperative structures (“Turn to Your Partner” and “Think, Pair, Share”). A few of the read-alouds will require additional time. A Teacher Note at the beginning of these lessons alerts you to the need for more time and suggests how you might break the reading into two parts, if necessary.

It is important to monitor the pace of the lessons, not only to complete them in a reasonable amount of time, but also to help the students stay focused and engaged. To maintain the pace of the lessons, we suggest the following:

- As much as possible, we advise that you teach the lessons as written, understanding that adjustments may be needed based on your knowledge of your students and their needs.
- Keep partner conversations brief (20–30 seconds).
- After partners have shared, have only one or two volunteers share their thinking with the class, even if other students have their hands up.
- During class discussions, have only two or three volunteers share their thinking. If many students want to contribute to the discussion, use “Turn to Your Partner” to give partners an opportunity to share with each other. Then have only one or two volunteers share with the class.

## EXTENDING THE INSTRUCTION

In addition to the core lessons, the program features the following opportunities to extend instruction:

- **Writing About Reading.** These optional activities provide a reading/writing connection within the *Making Meaning* program by asking the students to write opinions about and make connections to the texts they hear and discuss during read-aloud lessons. The activities build in complexity across the grades, with students at all levels encouraged to refer to the texts to support their thinking. Support for modeling writing is included in these activities. The activities can be done at the end of a lesson or at another time.

- **Extensions.** These optional activities provide additional learning opportunities that extend or enhance the instruction in the core lessons. Examples of extension activities include reading other books by the author of the read-aloud, imagining an alternative ending to the story, and learning more about a topic introduced in the read-aloud text.

## **STUDENT RESPONSE BOOKS**

The *Making Meaning* program provides a *Student Response Book* for each student in grades 1–6. The *Student Response Books* include:

- Excerpts and reprints of selected read-aloud texts.
- Activity sheets correlated to lessons that the students use to record their thinking. Activities might include thinking tools and cooperative structures that require writing, such as “Stop and Wonder.”
- Reading Logs (grades 2–6), in which the students list and comment on the texts they read independently, and Reading Journals (grades 1–6), in which the students write in more depth about their independent reading.

The *Student Response Books* are a useful resource for both you and your students. The students can use their Reading Logs and Reading Journals to track and write about their reading. The activity sheets make it unnecessary for you or your students to provide additional paper, and they are engaging and easy to use. The completed sheets also comprise a record of each student’s work in the program. The *Student Response Books* are an integral part of the Individual Comprehension Assessment. For more information, see “Individual Comprehension Assessment” in the Assessment Overview of the *Assessment Resource Book*.

## **PROFESSIONAL DEVELOPMENT MEDIA**

Brief videos created for the third edition of the *Making Meaning* program help you with effective implementation. The videos, intended for viewing when planning lessons, provide a range of support, including tips for introducing IDR and conferring with the students, demonstrations of teachers using various techniques for facilitating discussions, and examples of students using cooperative structures. For a complete list of professional development media, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

## **HELPFUL LESSON FEATURES**

The lessons include a number of features that help you navigate the instruction and that provide background information and tips. These lesson features are listed in the table below.

## Helpful Lesson Features

- **Vocabulary Notes.** These notes appear at the beginning and end of the week’s lessons to alert you to the vocabulary lessons you will be teaching in the *Vocabulary Teaching Guide*.
- **Topic Notes.** These notes appear at the beginning of some lessons and provide background information about important aspects of the instruction, including lesson structure, purpose, pedagogy, and approach.
- **Teacher Notes.** These notes appear in the lesson margins and alert you to such information as the purposes of different activities, materials to be collected or saved, hints for managing the lesson, and ways to support the students.
- **ELL Notes.** These notes suggest various strategies to support English Language Learners (ELLs) during a lesson.
- **Facilitation Tips.** These notes suggest techniques you can use to facilitate class discussions (for example, asking open-ended questions, using wait-time, and not paraphrasing or repeating students’ responses) in order to increase participation and encourage deeper conversations among your students. For a concise summary of the Facilitation Tips, see the “Teacher’s Facilitation Bookmark” in the General Resources section of the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).
- **Cooperative Structure Icons.** These icons indicate where in the lesson students work in pairs or small groups and where cooperative structures, such as “Turn to Your Partner” and “Think, Pair, Share,” are used.
- **Suggested Vocabulary.** This feature identifies words in a read-aloud that you might want to define for your students as you read. We have selected vocabulary words based on how crucial they are to understanding the text and on the unlikelihood that students will be able to glean their meanings from the context. Definitions are provided.
- **ELL Vocabulary.** This feature identifies and defines additional words in a read-aloud that you may want to address with your ELLs.
- **“Students might say.”** This feature gives you examples of the kinds of responses you might expect from your students. If the students have difficulty answering a question, you can suggest some of the ideas in the “Students might say” note and then ask them to generate additional ideas.
- **“You might say.”** This feature provides sample language that you can draw on when you introduce a cooperative structure or model using reading comprehension or self-monitoring strategies. Providing the students with opportunities to hear you think out loud as you use a strategy helps them apply the strategy to their reading.
- **Chart Diagrams.** These diagrams illustrate charting techniques and provide examples of ideas generated by the class or by teacher modeling.
- **Technology Tips.** These notes suggest ways you might integrate technology in the lessons. In grades 3–6, they also refer to the technology mini-lessons in Appendix B, which instruct students on topics such as how to navigate safely online and how to conduct online research.
- **2D Barcodes.** You can scan these 2D barcodes with an app installed on your smartphone or tablet device to gain instant access to professional development and instructional media.
- **IDR Conference Notes.** These notes support you as you confer with individual students during IDR. (See “IDR Conferences” on the next page.)
- **Class Assessment Notes.** These notes help you observe and assess the whole class as they demonstrate their use of a strategy during a lesson. (See “Assessments” on page xlvi.)
- **End-of-unit Considerations.** This feature provides information on wrapping up a unit and conducting end-of-unit assessments.

## Individualized Daily Reading (IDR)

Research has consistently shown what common sense suggests: the more students read, the better readers they become (Anderson, Wilson, and Fielding 1988; Taylor, Frye, and Maruyama 1990). The practice that independent reading provides is critical if students are to consolidate and strengthen the reading comprehension skills and strategies they are learning. The independent strategy practice lessons in the *Making Meaning* program give your students valuable practice in using these skills and strategies independently, but more independent practice is needed if the students are to become truly proficient at comprehending text. To meet this need, *Making Meaning* includes an Individualized Daily Reading (IDR) strand.

### INDEPENDENT READING IN GRADE 4

During Individualized Daily Reading in grade 4, the students spend up to 30 minutes a day reading books independently at their appropriate reading levels. An IDR section appears at the end of each lesson, except for independent strategy practice lessons. IDR can follow the day's lesson, or you can schedule it during another time of the school day.

IDR begins in Unit 1 (Week 1) of the grade 4 program. In Unit 1, the students learn the procedures for IDR and how to identify books that are at the appropriate level for them. They also learn procedures for using the classroom library and begin tracking the books they are reading in their Reading Logs within their *Student Response Books*. In Unit 2, the students learn questions they can ask themselves to monitor their comprehension. They also begin conferring with the teacher about their reading lives. In Unit 3, they discuss strategies they can use to “fix” comprehension problems. In this unit and in subsequent units, the students apply the reading comprehension strategies they are learning to various types of texts and reflect on their use of the strategies during conferences.

### THE TEACHER'S ROLE

Individualized Daily Reading in the *Making Meaning* program is different from other types of independent reading, such as free reading, SSR (Sustained Silent Reading), and DEAR (Drop Everything and Read). In those programs, students select their own books, which may or may not be at their appropriate reading levels, and the teacher plays a largely neutral role. In IDR, the students read texts at their appropriate reading levels for a specified period of time. You, the teacher, are actively involved, conferring with individual students, helping them select appropriate books, and assessing and supporting their reading.

### IDR CONFERENCES

Initially, your individual student conferences focus on getting to know the students as readers and on ensuring that they are reading appropriately leveled texts. As the year progresses, the conferences will focus more on assessing the students' comprehension, supporting struggling readers, and encouraging self-monitoring.

Beginning in Unit 2 of grade 4, you will use a unit-specific “Resource Sheet for IDR Conferences” to guide you as you confer. This resource sheet outlines a process you can use when conferring with individual students about their independent reading. It includes questions you can ask to probe each student’s thinking about what he or she is reading and to assess the student’s comprehension of the text. It also includes suggestions for supporting the student’s reading growth. You will document your IDR conferences using the “IDR Conference Notes” record sheet. We recommend that you document at least one IDR conference per student per unit. These notes are an important source of information for each student’s Individual Comprehension Assessment (see “Assessments” on page xlvi).

You will find copies of the “Resource Sheet for IDR Conferences” and the “IDR Conference Notes” record sheets in the *Assessment Resource Book*. The record sheets are also available on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). Alternatively, you can use the CCC ClassView app to electronically record conference data on a record sheet. For more information, see “CCC ClassView App” on page xlviii.

## **READING APPROPRIATELY LEVELED TEXTS**

For IDR to succeed, the students must be reading books that they can comprehend and read fluently with few miscues (accuracy errors). Early in the year, you can match students to books by informally assessing their reading abilities. One procedure you might use is to have each student select a text that interests him or her, and then listen to the student read aloud. Note whether the student is reading with accuracy (reading most of the words without miscues) and understanding. To gauge a student’s surface understanding, you can use prompts and questions such as “Tell me what you just read” or “What does that mean?” If a student is reading a book that is too difficult or easy, help him or her select a more suitable book.

Another technique for evaluating the appropriateness of a book is to use the “five-finger rule.” As a student reads a page aloud, count any words he or she does not know. More than five unknown words on a page usually indicates that the book is too difficult. When your students become familiar with the five-finger rule, you can encourage them to use the technique on their own, making the students responsible for checking the appropriateness of the books they choose for IDR.

It is very important for students to build reading fluency as a foundation for comprehension. If you have students who are reading far below grade level, make sure they have time every day to practice reading decodable texts, and check in with them regularly to monitor their rate and accuracy.

## **DETERMINING INDEPENDENT READING LEVELS**

Other informal and formal tools are available for determining a student’s independent reading level. Running records are classroom-based, informal assessments of fluency and comprehension that can be used periodically to evaluate a student’s reading performance;

identify his or her independent, instructional, and frustration reading levels; and monitor his or her progress. A variety of formal benchmark assessments, such as the Developmental Reading Assessment (DRA) and Fountas and Pinnell Benchmark Assessment System (BAS), can also be used to measure the student’s progress and identify his or her reading level.

Regardless of the assessment tool you use, it is important to monitor and record the students’ progress across the year. The “Student Reading Level Summary” record sheet (SR) can be used to record individual students’ reading assessment data. You will find copies of this record sheet in the *Assessment Resource Book*, on the CCC Learning Hub, and in the ClassView App.

## SETTING UP A CLASSROOM LIBRARY

For IDR, the students will require access to a wide range of fiction and nonfiction texts at various levels. For easy browsing, you might display books in boxes or baskets labeled with the name of the book category. Categories can include:

- Genres (e.g., mystery, science fiction, folktale, biography)
- Subjects or topics (e.g., presidents, animals, weather, school)
- Themes (e.g., faraway places, friendship, growing up)
- Favorite authors or illustrators
- Popular series
- Student favorites

A classroom library ideally consists of 300–400 titles, although many teachers start with a smaller collection and add to it over time. The library should include a balance of fiction and nonfiction books. To accommodate various reading levels, at least 25 percent of the library should be books that are one to two grades below grade level, and at least 25 percent should be books that are one to two grades above grade level.

Sources of texts include book clubs, bookstores, your school or community library, donated books, basal readers, textbooks, and children’s magazines and newspapers. You can purchase a leveled classroom library, or you can level the books in your current classroom library.

Center for the Collaborative Classroom’s Individualized Daily Reading Libraries can be used to start a classroom library or to round out an existing library. The libraries are organized by grade level and readability to enable teachers to provide fiction and nonfiction books that are at the right levels for their students. Visit Center for the Collaborative Classroom’s website ([collaborativeclassroom.org](http://collaborativeclassroom.org)) for more information.

To help you build and maintain your library, you might consider using free book-management software called Classroom Organizer® from Booksource. With Classroom Organizer, you can inventory the print and digital books in your library by scanning the barcodes, import your

class roster, enable students to check out and return books electronically, compile reports on students' reading activities, and add new titles. For more information, visit the Booksource website ([classroom.booksource.com](http://classroom.booksource.com)).

## LEVELING TEXTS

Below you will find information on two leveling systems that can help you with the sometimes difficult and time-consuming process of leveling texts. (More information about leveling can be found in Brenda M. Weaver's *Leveling Books K–6: Matching Readers to Text.*)

### The Fountas & Pinnell Leveling System

- Educators Irene C. Fountas and Gay Su Pinnell developed a leveling system for use with guided reading groups that is frequently used for leveling independent reading libraries. They provide lists of thousands of leveled books for grades K–8 in their book *Leveled Books, K–8: Matching Texts to Readers for Effective Teaching* (Heinemann 2008) and also on their website ([fountasandpinnelleveledbooks.com](http://fountasandpinnelleveledbooks.com)).

### The Lexile® Framework for Reading

- This leveling system uses a sophisticated formula to determine text difficulty, which it represents as a Lexile score that is used to rank the text on a graded scale. Developers of this framework (MetaMetrics, Inc.) have created a database of thousands of Lexiled texts, plus software that allows teachers to search, sort, and view information about each text. For more information, visit The Lexile Framework for Reading website ([lexile.com](http://lexile.com)).

## BUILDING STAMINA

Building stamina for reading independently is critical if the students are to develop and grow as readers. In the grade 4 program, the students begin IDR by reading independently for up to 15 minutes a day. By Unit 4, the expectation is that the students will be reading independently for up to 30 minutes each day. The time allotments suggested in the IDR lesson steps, however, are goals, not requirements, and IDR times should be adjusted as necessary to meet your students' particular needs and their capacities to remain engaged and attentive. You might consider increasing the time allotted to IDR gradually, for example, one to two minutes every two weeks.

The table on the next page provides an overview of the reading times (shown by number of minutes) recommended for IDR for each grade and unit in *Making Meaning*. The table shows how stamina for independent reading builds both within and across grades.

## Building Stamina for Independent Reading

Grade Level	Unit 1	Unit 2	Unit 3	Unit 4	Unit 5	Unit 6	Units 7+
K	up to 5	up to 7	up to 9	up to 10	10-15	10-15	up to 15
1	up to 5	5-10	10-15	up to 15	up to 15	up to 15	up to 15
2	up to 10	10-15	15-20	up to 20	up to 20	up to 20	up to 20
3	up to 15	15-20	20-25	up to 25	up to 25	up to 25	up to 25
4	up to 15	15-20	20-25	25-30	up to 30	up to 30	up to 30
5	up to 15	15-20	20-25	25-30	up to 30	up to 30	up to 30
6	up to 20	20-25	25-30	up to 30	up to 30	up to 30	up to 30

If your students are struggling to use IDR time responsibly, meet with students individually or as a group to discuss the problem and possible solutions. Encourage the students to set personal goals, and check in with them regularly about how they are spending their IDR time.

### IDR MINI-LESSONS

These optional lessons, found in Appendix A, support and supplement the instruction you provide during IDR, focusing on topics such as selecting appropriate texts, conferring, self-monitoring, using word-analysis strategies, and fluency. The lessons include:

- “Choosing and Handling Books” (K–1)
- “Selecting ‘Just-right’ Books” (K–2)
- “Introducing IDR Conferences” (K–6)
- “Self-monitoring” (1–2)
- “Reading Punctuation” (1–2)
- “Reading Typography” (1–2)
- “Reading with Expression” (1–6)
- “Using Word-analysis Strategies” (1–6)
- “Selecting Appropriately Leveled Texts” (3–6)
- “Self-monitoring and Using ‘Fix-up’ Strategies” (3–6)
- “Reading in Meaningful Phrases” (3–6)

## TIPS FOR MANAGING IDR

Building a successful Individualized Daily Reading program is vital for reading achievement, but establishing and maintaining IDR—as well as making time for it—can be challenging. Here are some tips for implementing and managing IDR in your classroom:

- Establish and maintain a well-designed and well-stocked classroom library (see “Setting Up a Classroom Library” on page xli).
- Take the time to introduce and model IDR routines and procedures, such as choosing appropriate books, checking books in and out of the classroom library, and conferring. There are both core lessons and mini-lessons in *Making Meaning* developed specifically to help you with these essential aspects of IDR (see “IDR Mini-lessons” on the previous page).
- Create a classroom environment that is conducive to independent reading. If possible, arrange the room so the students have comfortable places to read away from their desks or tables.
- Set clear expectations for student behavior during IDR. Check in regularly to see how the students are doing, both with meeting your expectations and taking responsibility for how they spend independent reading time.
- Each day’s IDR instruction establishes a clear purpose for independent reading (for example, practicing self-monitoring or visualizing to make sense of a text). Make sure the purpose is clear to the students, and take time at the end of IDR to discuss the reading focus with the students.
- Finally, make IDR a regular part of your schedule and protect that time. Scheduling IDR immediately after a *Making Meaning* lesson is ideal, but IDR may also be scheduled for another regular time each day, such as first thing in the morning or immediately after lunch or recess.

---

## Vocabulary Teaching Guide

The *Vocabulary Teaching Guide* is a revision of *Vocabulary for Making Meaning, Second Edition*. It supplements and supports the *Making Meaning* program by providing 30 weeks of vocabulary instruction at grades K–6. The lessons teach high-utility words found in or suggested by the *Making Meaning* read-aloud texts, as well as strategies the students can use to determine the meanings of words they encounter in their independent reading. The table on the next page lists the independent word-learning strategies taught at each grade level and provides a snapshot of how the strategies are developed across the grades.

## Development Across the Grades

Independent Word-learning Strategy	K	1	2	3	4	5	6
Recognizing synonyms	■	■	■	■	■	■	■
Recognizing antonyms	■	■	■	■	■	■	■
Using context to determine word meanings		■	■	■	■	■	■
Recognizing shades of meaning	■	■	■	■	■	■	■
Recognizing words with multiple meanings	■	■	■	■	■	■	■
Using inflectional endings	■	■					
Using knowledge of compound words to determine meanings			■	□			
Using prefixes to determine meanings	□	□	■	■	■	■	■
Using suffixes to determine meanings	□	□	■	■	■	■	■
Using Greek and Latin roots to determine word meanings					■	■	■
Recognizing idioms				■	■	■	■
Recognizing adages and proverbs					■	■	
Using a dictionary, glossary, or thesaurus			■	■	■	■	■
Analyzing word relationships to better understand words							■

■ formally taught □ informally explored or reviewed

At grades K–2, there are three days of vocabulary instruction each week. At grades 3–6, there are five days of instruction. Each week includes Ongoing Review activities that review previously learned words. Vocabulary words are taught and reviewed using engaging activities that require the students to use the words in partner and class conversations. For more information about the vocabulary lessons, including how the lessons are structured, suggestions for teaching the vocabulary lessons with the *Making Meaning* lessons, and the vocabulary assessments, see the Introduction in the *Vocabulary Teaching Guide*.

---

## Assessments

The assessment component of the *Making Meaning* program is designed to help you (1) make informed instructional decisions as you teach the lessons and (2) track your students' reading comprehension and social development over time. The expectation is that *all* of your students are developing—at their own pace—into readers with high levels of comprehension and that they can each develop positive, effective interpersonal skills and values.

The program includes both formative and summative assessment tools. Each assessment has a corresponding record sheet in the *Assessment Resource Book*, which you may use to record your students' progress. You can photocopy the forms in the *Assessment Resource Book*, or you can download and print the forms on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). Alternatively, you can use the CCC ClassView app to electronically record, sort, synthesize, and report assessment data for each student and the whole class. For more information, see “CCC ClassView App” on page xlviii.

### FORMATIVE ASSESSMENTS

Formative assessments help you reflect on your students' academic and social growth over time through class observation and individual conferences. Formative assessments in *Making Meaning* comprise the following:

- **Class Assessment (K-6).** Class Assessment Notes within the lessons appear once per week and are designed to help you assess the performance and needs of the whole class. The assessment occurs during a lesson at a time when the students are demonstrating their use of the strategies they learned to make sense of text. During the assessment, you have the opportunity to randomly observe students working in pairs or individually (select strong, average, and struggling readers) as you ask yourself questions that focus your observations. You can record your observations on the corresponding “Class Assessment Record” sheet (CA).
- **IDR Conferences and Student Reading Goals and Interests Survey (K-6).** IDR conferences provide you with the opportunity to talk with individual students about their reading, identify areas of strength, and note areas in which students need more support. As you teach the lessons, an IDR Conference Note will alert you when a conference is suggested. You can record your observations from each conference on the corresponding “IDR Conference Notes” record sheet (CN). We encourage you to confer with each student at least once per unit. The “IDR Conference Notes” record sheets comprise an important source of information for the Individual Comprehension Assessment.

The questions provided in the first “IDR Conference Notes” record sheet can be used as a beginning-of-year survey of the students’ reading goals and interests. The questions in the final “IDR Conference Notes” record sheet of the year can serve as an end-of-year survey of the students’ perceptions of their growth as readers, attitudes toward reading, and goals for summer reading.

For more information about the formative assessments in the program, see “Formative Assessments” in the Assessment Overview of the *Assessment Resource Book*.

## SUMMATIVE ASSESSMENTS

Summative assessments allow you to evaluate and score each student’s comprehension development, as well as the students’ social development.

- **Social Skills Assessment (1–6).** The Social Skills Assessment allows you to note how well each student is learning and applying the social skills taught in the program and how well each student integrates the values of responsibility, respect, fairness, caring, and helpfulness into his or her behavior. As you teach the lessons, a Social Skills Assessment Note will alert you when a social skills assessment is suggested. We recommend that you do this assessment three times: at the beginning, middle, and end of the year. The “Social Skills Assessment Record” sheet (SS) allows you to track how individual students are doing with specific skills during the course of the year.
- **Individual Comprehension Assessment (K–6).** The Individual Comprehension Assessment, which is administered once per unit beginning in Unit 2 (grades 3–6) or Unit 3 (grades K–2), is designed to help you assess the strategy use and comprehension development of individual students. In grades 1–6, the assessment has two sections—Part A: Strategy Assessment and Part B: IDR Assessment—and reflection questions to help guide your assessment of each student’s growth. In kindergarten, only the IDR Assessment and reflection questions are provided. The “Individual Comprehension Assessment” record sheet (IA) can be used to record each student’s score on the assessment and help you assign grades.

For more information about the summative assessments in the program, see “Summative Assessments” in the Assessment Overview of the *Assessment Resource Book*.

# Using the Technology Features

The *Making Meaning* program incorporates digital technology to enhance your students' learning experience and streamline your preparation, instruction, and assessment processes.

---

## Digital Teacher Resources

The program comprises a suite of digital resources, including the *Digital Teacher's Set* as well as access to the CCC Learning Hub and the CCC ClassView app.

### **DIGITAL TEACHER'S SET**

The *Making Meaning Digital Teacher's Set* includes electronic versions of the *Teacher's Manual*, *Assessment Resource Book*, *Vocabulary Teaching Guide*, and *Reading Assessment Preparation Guide* (grades 3–6) for use on a tablet device or computer. Features of the *Digital Teacher's Set* include linked cross-references and direct access to the CCC Learning Hub, the CCC ClassView app (see below for more information), and professional development media.

### **CCC LEARNING HUB**

The CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) is your source for the following resources:

- Whiteboard activity charts (to display or print)
- Printable blackline masters, such as family letters and student handouts
- Digital reference copy of the *Student Response Book*
- A link to the CCC ClassView app, as well as direct links to printable or interactive assessment forms
- Professional development and instructional media

For more information, see the “Using the CCC Learning Hub” tutorial (AV39).

### **CCC CLASSVIEW APP**

CCC ClassView is an online application that contains all of the assessment forms and instructions that are included in the *Assessment Resource Book*. This tool also enables you to electronically collect, sort, synthesize, and report assessment data for each student. You can access the CCC ClassView app by tapping the assessment icons or links in the *Digital Teacher's Set*, by going directly to the app ([classview.org](http://classview.org)), or by clicking the

CCC ClassView button on the grade-level program resources page on the CCC Learning Hub (ccclearninghub.org). For more information about this assessment tool, view the “Using the CCC ClassView App” tutorial (AV41).

## Additional Technology Features

Additional lesson features integrate technology into the program in a variety of ways.

### TECHNOLOGY TIPS

These notes, located in the margins of the core lessons, suggest ways to incorporate technology into the instruction or list related professional development media that support your use of technology in the classroom.

### TECHNOLOGY EXTENSIONS

These optional activities identify ways in which you can use technology to extend instruction, when appropriate. For example, students might visit a website to investigate a topic or listen to an audio version of a book heard during a lesson.

### TECHNOLOGY TUTORIALS

These videos help you understand how to effectively implement the program’s technology features and how to use widely available technology, such as presentation tools. They include:

- “Getting Started with Your Print *Teacher’s Manual*” (K–6)
- “Getting Started with Your *Digital Teacher’s Set*” (K–6)
- “Using the CCC Learning Hub” (K–6)
- “Using CCC’s Whiteboard Activities” (K–6)
- “Using the CCC ClassView App” (K–6)
- “Using Web-based Whiteboard Activities” (K–6)
- “Finding, Organizing, and Presenting Online Information” (K–6)
- “Using Web-based Maps and Related Tools” (K–6)
- “Using Presentation Tools” (3–6)
- “Creating Audio and Video in the Classroom” (3–6)
- “Using Blogs in the Classroom” (K–6)
- “Using Social Media” (3–6)
- “Creating Digital Stories” (K–6)

## TECHNOLOGY MINI-LESSONS

These optional lessons in grades 3–6 instruct students on a variety of technology subjects.

These lessons include:

- “Navigating Safely Online”
- “Maintaining Privacy Online”
- “Showing Respect in Digital Communications”
- “Choosing Effective Search Terms”
- “Understanding Search Results”
- “Narrowing Search Results and Using Filters”
- “Evaluating Research Sources”

# Special Considerations

---

## Teaching the Program in Multi-age Classrooms

If you are teaching a multi-age class, we recommend that you choose the level of the program that is appropriate for the majority of your students to use throughout the school year. Since the program provides instruction through read-aloud texts selected to be accessible to a wide range of students and includes time for Individualized Daily Reading practice and individual conferences, all of your students will be able to develop comfortably as readers even if the lessons are designed for students at a lower or higher grade level.

---

## Support for English Language Learners (ELLs)

The *Making Meaning* program helps you implement effective teaching strategies to meet the needs of all students, including English Language Learners (ELLs). English Language Development (ELD) strategies are an inherent part of the program’s design. In addition, through ELL Notes, we provide you with suggestions for modifying the instruction to enhance support for ELLs.

While the *Making Meaning* program is an effective tool in teaching comprehension to ELLs, it is not intended to stand alone as a comprehensive linguistic development program. It is assumed that additional support in second language acquisition is occurring for ELLs outside of this program.

### **ABOUT TEACHING READING COMPREHENSION TO ELLs**

One myth about teaching ELLs is that good teaching alone will meet these students’ linguistic and academic needs, and that they will simply “pick up” the language in the typical classroom context. While “good teaching” (using developmental, research-based instructional strategies) certainly benefits students learning English, it is important to build on each student’s specific academic and linguistic strengths and and plan instruction based on his or her needs. The first step is to develop an accurate picture of each child’s level of English language proficiency and his or her previous academic experience.

### **STAGES OF SECOND LANGUAGE ACQUISITION**

Learning a new language is a developmental process. The table on the next page outlines the generally accepted stages of acquiring a language and the characteristics of students in an

immersion classroom at each stage. In an immersion classroom, the students are instructed in their second language (English) for all subjects. Progress from one stage to the next depends on a wide variety of factors, including cognitive and social development, maturity, previous academic experience, family education, home literacy practices, personality, cultural background, and individual learning styles.

### Stages of Second Language Acquisition

Developmental Stages of Language Proficiency (under immersion)	Student Characteristics
Stage 1: Receptive or Preproduction (can last up to 6 months)	<ul style="list-style-type: none"> <li>Often nonverbal during this period</li> <li>Acquires receptive vocabulary (words and ideas that children “take in” or learn before they begin to produce words verbally)</li> <li>Conveys understanding through drawing, writing, and gesturing</li> <li>Gradually becomes more comfortable in the classroom</li> </ul>
Stage 2: Early Production (can last 6 months to 1 year)	<ul style="list-style-type: none"> <li>Comprehends simple language</li> <li>Communicates with one key word and short phrases</li> <li>Verbally labels and categorizes</li> <li>Listens more attentively</li> <li>Begins to use present tense</li> <li>Writes words and some simple sentences</li> </ul>
Stage 3: Speech Emergence (can last 1 to 3 years)	<ul style="list-style-type: none"> <li>Has good comprehension of conversational language</li> <li>Sequences stories using words and pictures</li> <li>Is challenged by figurative language</li> <li>Speaks and writes simple sentences</li> </ul>
Stage 4: Intermediate Fluency (can last 3 to 5 years)	<ul style="list-style-type: none"> <li>Has excellent comprehension</li> <li>Uses newly acquired vocabulary</li> <li>Speaks, reads, and writes more complex sentences</li> <li>Participates in academic discussions</li> <li>Makes few grammatical errors</li> <li>May continue to be challenged by idioms and figurative language</li> <li>Demonstrates higher-order skills, such as analyzing, predicting, debating, etc.</li> </ul>
Stage 5: Advanced Fluency (can last 5 to 7 years)	<ul style="list-style-type: none"> <li>Has near-native fluency</li> <li>Demonstrates excellent comprehension</li> <li>Continues to develop academic vocabulary</li> <li>Continues to speak, read, and write increasingly complex sentences</li> </ul>

## CONSIDERATIONS FOR PAIRING ELLs

A key practice in the *Making Meaning* program is to have students work in unit-long partnerships. Random pairing is suggested as a way to ensure equity by reinforcing the value of each child in the classroom (see “Random Pairing” on page xxvii). However, when considering the needs of English Language Learners, it may be advantageous to partner these students in a more strategic way. You might pair a beginning English speaker with a fluent English or multilingual speaker. It can be effective if the multilingual partner shares the ELL’s native language, but we recommend prudence in asking the more fluent English speaker to serve as translator. Another option is to place ELLs in trios with fluent English speakers to allow them more opportunities to hear English spoken in conversation. In this case, it is important to make sure that all three students are participating and including one another in the work.

## HOW THE MAKING MEANING PROGRAM SUPPORTS ELLs

There are several effective English Language Development instructional strategies integrated throughout the *Making Meaning* program. These strategies help make the content engaging and comprehensible, support the students at their individual levels of language proficiency, and help the students see themselves as valuable members of the classroom community. The strategies included are shown in the chart below.

### English Language Development (ELD) Strategies in the *Making Meaning* Program

Creating a respectful, safe learning community	Active, responsible learning High expectations for classroom interactions Explicit classroom procedures and routines Explicit social skills instruction Regular discussions to reflect on classroom values and community
Cooperative learning	Cooperative structures (“Turn to Your Partner” and “Think, Pair, Share”) Ongoing peer partnerships Opportunities to express thinking orally and listen to others’ thinking Discussing reading with partners Sharing work and reflecting
Authentic communication	Whole-class and partner discussions about interesting and important texts and topics Opportunities to respond to or engage with a text in a variety of modalities (discussion, writing, drawing)
Vocabulary development	Opportunities to preview and discuss read-aloud texts before lessons Building academic vocabulary

(continues)

## English Language Development (ELD) Strategies in the *Making Meaning* Program

(continued)

Language-rich environment	Rich, meaningful literature Engaging texts and book art Daily opportunities for listening, speaking, reading, and writing
Scaffolded instruction	Explicit teacher modeling Rereading text Prompts to begin responses Drawing on prior knowledge and experience Building background knowledge
Critical thinking	Questions that prompt higher-order thinking Exploring and responding to different viewpoints Generating independent thinking

### ADDITIONAL STRATEGIES FOR SUPPORTING ELLs

In addition to the practices embedded in the *Making Meaning* lessons, ELL Notes provide specific suggestions for adapting instruction to meet the needs of English Language Learners. In addition, you can implement a number of general strategies to help ELLs participate more fully in the program. These include:

- **Speaking slowly.** Beginning English speakers can miss a great deal when the language goes by too quickly. Modifying your rate of speech can make a big difference in helping them to understand you.
- **Using visual aids and technology.** Photographs, realia (real objects), diagrams, and even quick sketches can help to increase a student's comprehension. When giving directions, physically modeling the steps and writing them where the students can see them while saying them aloud are effective ways to boost comprehension. Audiovisual resources, such as recordings of texts read aloud, author interviews, and interactive versions of read-alouds can also be helpful.
- **Inviting expression through movement and art.** Having students express their thinking through movement and art can be enormously powerful. Drawing, painting, dancing, mimicking, role-playing, acting, singing, and chanting rhymes are effective ways for students to increase comprehension, build vocabulary, and convey understanding. The Total Physical Response (TPR) method developed by James Asher helps children build concepts and vocabulary by giving them increasingly complex verbal prompts (stand, sit, jump, etc.) that they act out physically and nonverbally (see the Bibliography on page 721).
- **Building vocabulary.** ELL vocabulary is highlighted for most read-alouds in the program, and we recommend that you introduce this vocabulary (discuss it, act it

out, draw it, etc.) and define it before and during the reading. In addition, you might brainstorm words related to particular read-alouds or themes. The students can then illustrate each word and post the illustrations next to the printed words, creating a visual chart to refer to as they read or listen to the read-aloud.

- **Preteaching.** It is a good idea to preteach concepts with ELLs whenever possible. This can mean previewing vocabulary, doing a picture walk of a story, or looking at realia or photographs before a lesson. Preteaching in a student’s primary language can be particularly effective—teachers, instructional aides, parents, or other community members can be enlisted to help. Some of the *Making Meaning* read-aloud books are available in Spanish. For a list of these titles, visit Center for the Collaborative Classroom’s website ([collaborativeclassroom.org](http://collaborativeclassroom.org)).
- **Simplifying questions.** Open-ended questions are used throughout the *Making Meaning* program to elicit language and higher-order thinking from students. These questions are often more complex in structure than closed or one-word-answer questions. While all learners, including ELLs, benefit from the opportunity to consider such questions, you might modify complicated questions into simpler ones to increase comprehension and participation by your ELLs. The table below lists some suggestions for simplifying questions.

### Suggestions for Simplifying Questions

Suggestion	Original Question	Simplified Question
Use the simple present tense.	What was happening at the beginning of the story?	What happens at the beginning of the story?
Use active rather than passive voice.	How was the window broken in the story?	Who broke the window in the story?
Ask <i>who/what/where/when</i> questions rather than <i>how/why</i> questions.	How are you and your partner working together?	What do you and your partner do to work well together?
Avoid the subjunctive.	After hearing this part of the book, what do you think raptors might have looked like?	The part of the book we read today describes raptors. What do you think raptors looked like?
Provide definitions in the question.	Why is the old woman so reluctant to name the dog?	The old woman is reluctant; she does not want to name the dog. Why?
Provide context clues as part of the question.	Why is Sally Jane’s visit to the reservoir important?	At the end of the story, Sally Jane visits the reservoir and thinks about what her mother said. What is important about that?
Elicit nonverbal responses. (Stages 1–3)	What do you see in this picture that tells about the words?	This picture shows the sentence “I like to paint.” Point to the paints. Point to the paintbrushes.
Elicit responses of 1–2 words or short phrases. (Stages 1–3)	What do you think will happen when Peter puts the snowball in his pocket?	Peter puts the snowball in his pocket. Is that a good idea?

- **Assessing comprehension.** When students are in the preproduction and early production stages of language acquisition, it can be hard to assess exactly what they understand. It is important not to confuse lack of verbal response with lack of understanding. Rather than force ELLs to produce language before they are ready (which can raise anxiety and inhibit their progress), you can assess nonverbal responses while the students are actively engaged by asking yourself questions such as:
  - Do the student’s drawings and written symbols communicate thinking or show evidence of my teaching (such as completing a sentence frame and illustrating it appropriately, or including a beginning, middle, and end of a story)?
  - Does the student nod, laugh, or demonstrate engagement through other facial expressions?
  - Does the student pick up academic and social cues from peers?
  - Does the student follow classroom signals and routines?
  - Does the student follow simple directions (such as “Please get out your pencils”)?
  - Does the student utter, chant, or sing some familiar words or phrases?

## **ADDITIONAL MODIFICATIONS FOR ELLs**

The additional English Language Development strategies outlined below can help you better meet the specific linguistic needs of your ELLs. These strategies can be implemented in small groups with your English Language Learners.

### **Read-aloud Lessons**

- **Preview vocabulary.** Ask ELLs to draw or act out vocabulary and encourage them to give examples.
- **Take a picture walk.** Give ELLs an opportunity to become familiar with the illustrations in a text and make predictions to increase comprehension.
- **Modify cooperative structures.** Provide question prompts for verbal ELLs to use in partner conversations (for example, “Ask your partner, ‘What will happen next?’”) and allow nonverbal ELL students to gesture, draw, act out, or write their ideas for their partners.

### **Strategy Lessons**

- **Use multiple modalities.** Encourage ELLs to use drama, drawing, realia, and writing to practice comprehension strategies.
- **Create visual aids.** Use chart paper or otherwise visually record the important parts of class discussions.
- **Review vocabulary.** Emphasize vocabulary and story language to help ELLs make sense of a text and use vocabulary meaningfully.

## Guided Strategy Practice Lessons

- **Role-play or reenact parts of the text.** Encourage ELLs to demonstrate comprehension through active means.
- **Use journals.** Ask ELLs to draw or to draw and label in their reading journals to express their ideas. Have them share their drawings or writing with a partner as a “rehearsal” before sharing with the class.
- **Use visualizing.** Provide opportunities for the students to create and describe mental images from a text as a way to enhance their comprehension.

## Independent Strategy Practice Lessons

- **Review the strategy.** While the students are working independently, have ELLs work in small groups to reinforce the strategy. Check in with the groups to assess the students’ comprehension.
- **Have pairs or small groups share.** Have ELLs work in pairs or small groups to present their ideas to the whole class.
- **Prepare for class discussions.** Support participation in class discussions by giving ELLs time to “rehearse” what they want to share. Encourage them to share examples from a text or their own pictures or writing.

## Individualized Daily Reading (IDR)

IDR is an excellent opportunity to provide ELLs with targeted comprehension support. Here are several ways to differentiate instruction during IDR:

- **Provide audiobooks.** Provide a variety of audiobooks so ELLs can listen to a story, hear standard pronunciation, develop story language, and increase their understanding.
- **Use partner reading.** Have ELLs read a book with a partner.
- **Respond to literature.** Ask ELLs to draw or write a response to the text they are reading independently (for example, draw the main character or write a sentence describing the problem in the story).
- **Offer one-on-one support.** Enlist instructional assistants, student tutors, student teachers, primary-language speakers, and parents to read with ELL students during IDR.

By carefully observing your ELLs and employing some of the strategies suggested here (as well as those in the ELL Notes in the lessons), you will be able to support your students’ development as readers and as caring, collaborative participants in your reading community.

---

## Building the Home-School Connection

Keeping families informed about their children’s participation in the *Making Meaning* program helps family members understand and appreciate how their children are developing as readers and how they can support that development.

## FAMILY LETTERS

Each unit in the *Making Meaning* program includes a letter informing parents and caregivers about the most recent comprehension strategy and social skill their child has learned. The letters also offer suggestions for supporting students' independent reading at home. Family letters help strengthen the home–school connection and give parents and caregivers a way to be actively involved in their children's reading lives. The family letters are included in the Online Resources list for each unit and can be accessed via the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

---

## Integrating *Making Meaning* with Other Reading/Language Arts Programs

The *Making Meaning* program is designed to replace or enhance any reading comprehension program you may be using. How you integrate it with other components of your language arts program depends on the type of program you have. The following are suggestions for integrating *Making Meaning* with basal programs and programs that use literature circles and guided reading.

### BASAL PROGRAMS

In many basal programs, reading comprehension instruction and language arts skills instruction are closely interconnected through each week's literature selection. A single book or reading might be used to teach the week's comprehension, grammar, spelling, word study, and writing. The *Making Meaning* program can enhance the intellectual and social impact of these programs significantly. Here are some suggestions for integrating *Making Meaning* lessons with basal programs:

- The *Making Meaning* grade 4 program is designed in four-day weeks. This allows you to read the week's basal anthology selection on Monday, so the week's spelling, writing, grammar, and other language arts skills instruction can be linked to that reading. *Making Meaning* lessons can then be used to replace the basal's comprehension lessons during the rest of the week.
- In addition to other reading materials, basal anthologies can be used as independent reading material during Individualized Daily Reading (IDR).
- The basal anthology selection can be used as an alternative read-aloud text if you decide to repeat a week of instruction in the *Making Meaning* program.

### LITERATURE CIRCLES

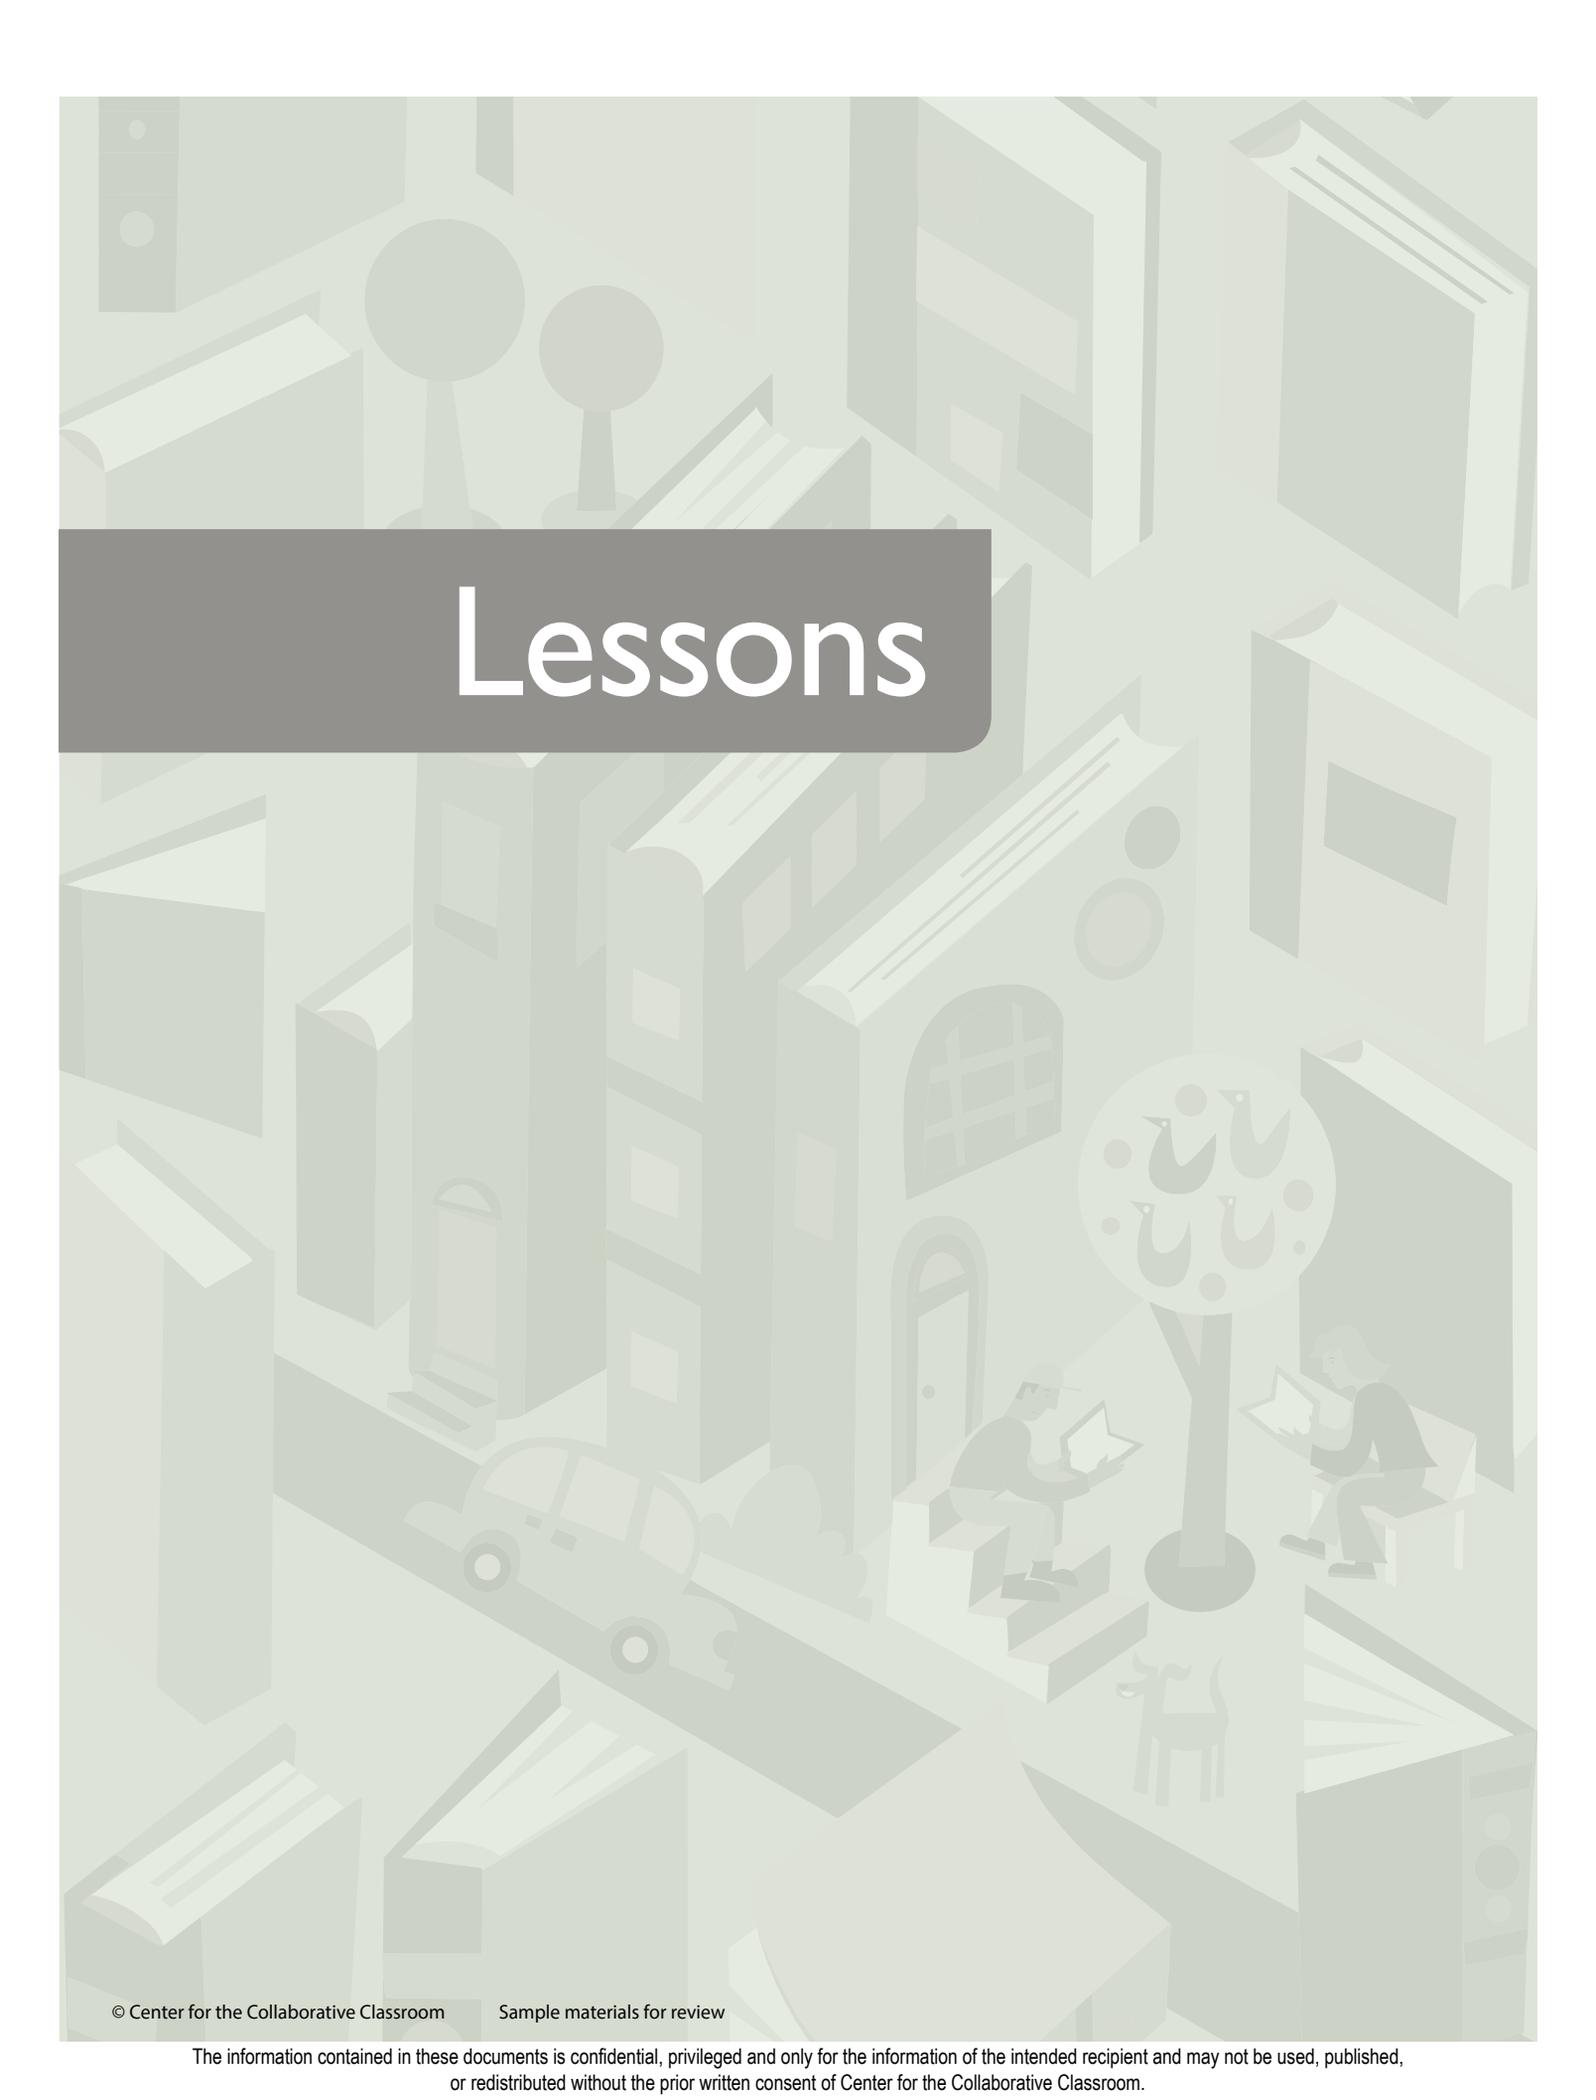

The *Making Meaning* program can support and enhance the work the students do in literature circles. The students can practice and strengthen the social development skills they have learned in *Making Meaning*, such as listening to others and explaining their thinking, as they

interact in their circles. They can also apply the comprehension strategies they have learned to their literature circle selections, thereby building their understanding of the strategies and gaining experience in applying them to their individual, day-to-day reading. When the students are reading expository texts or narrative texts in the *Making Meaning* program, they can select the same type of text for their literature circle, and they can use their IDR time to read their circle selections.

## **GUIDED READING**

The *Making Meaning* program integrates well with reading programs that include guided reading, which is also strategy-based. *Making Meaning* lessons can serve as the primary source of comprehension instruction, with guided reading providing extra support to those students who need additional instruction and practice in using the strategies in texts at their independent reading levels.

# Lessons

# Unit 1

# The Reading Community

## FICTION

During this unit, the students begin the important work of building their reading community. They hear and talk about stories and discuss a video presentation of one of the stories. They also begin Individualized Daily Reading (IDR), learn how to select books at their independent reading levels, self-monitor their reading comprehension, and use a reading log. Socially, they learn the procedures for gathering for a read-aloud, “Turn to Your Partner,” “Think, Pair, Share,” and IDR. As they build the reading community, they practice listening to the thinking of others, sharing their own thinking, and working in a responsible way.

# Unit 1

## The Reading Community

### RESOURCES

#### Read-alouds

- *A Bad Case of Stripes*
- *The Old Woman Who Named Things*
- *Song and Dance Man*

#### Writing About Reading Activity

- “Write Personal Opinions About *The Old Woman Who Named Things*”

#### IDR Mini-lessons

- Mini-lesson 1, “Selecting Appropriately Leveled Texts”
- Mini-lesson 2, “Self-monitoring and Using ‘Fix-up’ Strategies”

#### Technology Extension

- “Meet the Author: Cynthia Rylant”

#### Assessment Resource Book

- Unit 1 assessments

#### Student Response Book

- Reading Log

#### Vocabulary Teaching Guide

- Week 1 (*A Bad Case of Stripes*; *The Old Woman Who Named Things*)

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this unit.

#### Whiteboard Activities

- WA1–WA2

#### Instructional Media

- “*A Bad Case of Stripes* Read by Sean Astin” (IV1)

#### Assessment Forms

- “Class Assessment Record” sheets (CA1–CA2)
- (Optional) “Student Reading Level Summary” record sheet (SR1)

#### Reproducibles

- Unit 1 family letter (BLM1)
- (Optional) “Excerpt from *The Old Woman Who Named Things*” (BLM2)

#### Professional Development Media

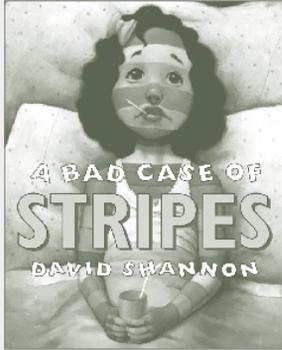

- “Building a Community of Readers” (AV1)
- “Introducing Vocabulary During a Read-aloud” (AV3)
- “Cooperative Structures Overview” (AV4)
- “Using ‘Turn to Your Partner’” (AV6)
- “Using ‘Think, Pair, Share’” (AV8)
- “Planning a Lesson” (AV12)
- “Adapting Lessons for English Language Learners” (AV13)
- “Turning and Looking at the Speaker” (AV16)
- “Getting Started with IDR” (AV27)
- “Using the CCC Learning Hub” tutorial (AV39)
- “Using CCC’s Whiteboard Activities” tutorial (AV40)
- “Using the CCC ClassView App” tutorial (AV41)

# OVERVIEW

# Week 1

## OVERVIEW

### ***A Bad Case of Stripes***

by David Shannon  
Camilla Cream learns that being true to herself is the remedy for her “bad case of stripes.”

### ***The Old Woman Who Named Things***

by Cynthia Rylant,  
illustrated by  
Kathryn Brown  
An old woman who has outlived all her friends becomes attached to the stray dog that visits her each day.

### ***“A Bad Case of Stripes Read by Sean Astin” (IV1)***

The actor Sean Astin reads aloud *A Bad Case of Stripes*.

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

### **Instructional Media**

- “*A Bad Case of Stripes* Read by Sean Astin” (IV1)

### **Assessment Forms**

- “Class Assessment Record” sheet (CA1)
- (Optional) “Student Reading Level Summary” record sheet (SR1)

### **Reproducible**

- (Optional) “Excerpt from *The Old Woman Who Named Things*” (BLM2)

### **Professional Development Media**

- “Building a Community of Readers” (AV1)
- “Introducing Vocabulary During a Read-aloud” (AV3)
- “Cooperative Structures Overview” (AV4)
- “Using “Turn to Your Partner”” (AV6)
- “Planning a Lesson” (AV12)
- “Turning and Looking at the Speaker” (AV16)
- “Getting Started with IDR” (AV27)
- “Using the CCC Learning Hub” tutorial (AV39)
- “Using the CCC ClassView App” tutorial (AV41)

## Comprehension Focus

- Students hear and discuss stories.
- Students explore the themes of the stories.
- Students discuss a visual presentation of a story.
- Students begin Individualized Daily Reading (IDR) and read independently.

## Social Development Focus

- Teacher and students build the reading community by sharing their reading lives.
- Students learn and practice the procedure for gathering for a read-aloud.
- Students learn and practice the procedure for “Turn to Your Partner.”
- Students work in a responsible way.
- Students listen respectfully to the thinking of others and share their own.

## 1 DO AHEAD

- ✓ Familiarize yourself with the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)), where the online lesson resources for each lesson are located. For more information, view the “Using the CCC Learning Hub” tutorial (AV39).

- ✓ Plan a space in the classroom, such as a rug area, for the class to gather. For read-alouds and discussions, the students should sit facing you, close enough to see the books you will share. If a rug area is not available, plan how the students will sit in their chairs facing you. Keep in mind that the students will begin partner work on Day 2, and your setup should allow for partners to easily turn to each other to talk.
- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Show the students the illustrations, and stop during the reading to discuss vocabulary and check for understanding.

*(continues)*

## 1 DO AHEAD *(continued)*

- ✓ Prior to Day 2, decide how you will randomly assign partners to work together during the unit. For suggestions about assigning partners, see “Random Pairing,” “Considerations for Pairing ELLs,” and “Cooperative Structures” in the Introduction. For more information, view “Cooperative Structures Overview” (AV4). 
- ✓ Prior to Day 2, watch the video “A Bad Case of Stripes Read by Sean Astin” (IV1) and prepare to show the video to your students with stops (see Step 4 and Step 5). You will need to project the video from your computer so that all of the students can see it. 
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA1); see page 4 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, introduce your students to the classroom library and give them time to become familiar with its organization. Provide time for each student to select two or three books to read independently during Individualized Daily Reading (see Step 5). For more information, see “Setting Up a Classroom Library” in the Introduction.
- ✓ Prior to Day 4, determine the procedure you would like the students to use when selecting books at their independent reading levels during IDR (see Step 6).

---

### Vocabulary Note

If you are teaching the lessons in the *Vocabulary Teaching Guide*, you will begin those lessons next week. (See “Vocabulary Teaching Guide” in the Introduction for more information about the vocabulary lessons.)

**In this lesson, the students:**

- Learn the procedure for gathering for a read-aloud
- Hear and discuss a story
- Explore the theme of the story
- Gather in a responsible way
- Share their reading lives
- Explain their thinking and listen carefully

**1** Introduce the Reading Community

Introduce the *Making Meaning* program by explaining that this year the students will be creating a classroom reading community in which they read, think about, and talk about books together. They will also learn powerful reading comprehension strategies to help them make sense of what they read.

Point out that often students learn how to read words *fluently*, or smoothly and with expression, but still have a difficult time understanding what they are reading, especially as the books get more challenging. This year they will all work together, with your help, to become stronger readers of all kinds of texts.

Explain that to learn the comprehension strategies well, the students will need to share their thinking, listen carefully to one another, and work in a responsible way. For this reason, it will be important to create a reading community in which everyone feels welcome, safe, and respected. In the next few weeks, the students will focus on building a caring reading community in the classroom.

**2** Learn the Procedure for Gathering

Explain that the class will gather to hear a book read aloud. Explain that you would like the students to gather and sit facing you, either on a rug or in their seats. Before asking the students to move, state your expectations.

**You might say:**

"I expect you to move quickly, quietly, and without bumping into one another. I expect you to sit so that others have room on the rug and to wait quietly until everyone is seated."

**Materials**

- *A Bad Case of Stripes*

**Teacher Note**

For more information, view "Building a Community of Readers" (AV1).

**Technology Tip**

"Building a Community of Readers" (AV1) is one in a series of professional development videos in the *Making Meaning* program. For more information about the content of the videos and how to view them, see "Professional Development Media" in the Introduction.

**Teacher Note**

If the students have already learned a procedure for gathering for a read-aloud, use that procedure here. Simply remind the students of the procedure and your expectations.

**Teacher Note**

During all read-alouds, make sure the students sit facing you and close enough to hear easily and see the illustrations.

## Teacher Note

We recommend that you describe behavior generally, rather than singling out students by name. When you focus on describing appropriate behavior, all of the students learn what it means to be responsible and develop the intrinsic motivation to act accordingly.

## ELL Note

Encourage your English Language Learners to share about books written in their primary languages as well as about books written in English.

Have the students move to their places. As they move, comment on responsible behaviors you observe without mentioning any of the students' names.

### You might say:

"I notice that people are sitting toward the front of the rug so that others can sit behind them."

If necessary, have the students return to their desks and practice the procedure again until they are able to gather in an orderly way. Explain that you would like them to use the same procedure every time they gather for a read-aloud.

## 3 Discuss the Students' Reading Lives

Explain that one way the students will build their reading community this year is by sharing their reading lives with one another. Begin this discussion by sharing with the class a little about your reading life.

### You might say:

"I love to read, and I try to read every day. Usually I read before I go to bed. I crawl under the covers and get nice and cozy and then read for an hour or so. I've always enjoyed reading adventure novels, although recently my favorite books have been mysteries. I'm starting to get interested in gardening, so I plan to read some books about that soon."

Ask and briefly discuss:

**Q** *What kinds of books do you like to read? Why?*

Have one or two volunteers share their thinking. Use the same procedure to discuss the following questions:

**Q** *Where is your favorite place to read?*

**Q** *What kinds of books do you want to read this year?*

Tell the students that this year they will have a lot of chances to read and listen to many different types of books.

## 4 Introduce *A Bad Case of Stripes*

Show the cover of *A Bad Case of Stripes*, read the title and the author's name aloud, and ask:

**Q** *What can you tell about this book already?*

**Q** *Do you think this will be a serious book or a funny book? Why do you think so?*

Have a few volunteers share their thinking. Before reading, state your expectations for the way the students will listen and speak during the reading and discussion.

**You might say:**

"I would like you to sit facing forward and not touching anyone else. I would like you to look at the illustrations as I read and raise your hand if you want to share what you're thinking. When we talk as a class, one person will talk at a time and everyone else will look at the person who's talking."

## 5 Read Aloud

Read the story aloud slowly and clearly, showing the illustrations as you read. Clarify vocabulary when you encounter it in the story by reading the word, briefly defining it, rereading it in context, and continuing (for example, "'She's just too much of a distraction'—a *distraction* is 'something that gets in the way of concentration'—'She's just too much of a distraction, and I've been getting calls from the other parents'").

### Suggested Vocabulary

**distraction:** something that gets in the way of concentration (p. 12)

**contagious:** easily spread from person to person (p. 12)

**remedies:** treatments for curing diseases (p. 23)

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**outfits:** sets of clothes (p. 3; refer to the illustration on pp. 2-3)

**ointment:** greasy medicine to put on the skin (p. 6)

**Pledge of Allegiance:** oath of loyalty to the United States, often recited in classrooms (p. 8)

**chicken pox:** childhood disease that causes red, itchy spots (p. 14)

**Experts:** people, such as scientists, who know a lot about something (p. 18)

**lab:** short for *laboratory*, a room for scientific experiments or testing (p. 18)

## 6 Discuss the Story and Explore the Story's Theme

At the end of the story, facilitate a discussion using the questions that follow. During the discussion, be ready to reread passages and show illustrations again to help the students recall what they heard.

**Q** *What causes Camilla's bad case of stripes? What in the story makes you think so?*

**Q** *When the old woman gives her a few lima beans and says, "I knew the real you was in there somewhere," what does she mean? Why do you think so?*

### ELL Note

English Language Learners may benefit from stopping to discuss the reading, for example, after pages 10, 16, and 23.

### Teacher Note

The Suggested Vocabulary and ELL Vocabulary lists include words that are important for the students to understand in order to comprehend the story. To maintain the flow of the story, these words should be defined during the reading but not

discussed. For more information, view "Introducing Vocabulary During a Read-aloud" (AV3).

### Facilitation Tip

During this unit, help the students learn that they are talking to one another (not just to you) during class discussions by directing them to **turn and look** at the person who is about to speak. Ask speakers to wait until they have the class's attention before starting to speak, and model doing this yourself. If students are unable to hear the speaker, encourage them to take responsibility by asking the speaker to speak up. Repeating these techniques over the next couple of weeks will help the students to learn to participate responsibly in class discussions. To see this Facilitation Tip in action, view "Turning and Looking at the Speaker" (AV16).

## Teacher Note

This question gives the students an opportunity to think about the story's *themes*, or messages or lessons about life. The students will explore the concept of theme in Unit 4, which focuses on analyzing story structure.

## Teacher Note

You might tell the students that when they *take responsibility*, they act in ways that help them learn, work well with others, and build the classroom community.

**Q** *What do you think David Shannon might be trying to tell us in this story about Camilla Cream? Explain your thinking.*

### Students might say:

"I think the author is saying that people should try to be themselves and not worry about what other people think."

"If I only do what other kids think is cool, I might not feel so good inside. That's like having a bad case of stripes."

Explain that the students will revisit *A Bad Case of Stripes* in the next lesson.

## 7 Reflect on Working Together

Explain that in order to build a reading community, the students need to think about how they are treating one another, how they are listening and speaking to one another, and how they are taking responsibility for their learning and behavior.

Without mentioning any of the students' names, describe some responsible behaviors you noticed during the lesson.

### You might say:

"I saw many students taking responsibility for their learning and behavior during today's lesson. Students took responsibility for their behavior by gathering in an orderly way and being quiet and attentive during the read-aloud. I saw students taking responsibility for their learning by listening carefully to the story and taking time to think about my questions before they raised their hands."

Ask and briefly discuss:

**Q** *What did you do to take responsibility during the reading and discussion today?*

Encourage the students to continue to think about ways they can take responsibility for their learning and behavior. Have the students return to their desks.

## In this lesson, the students:

- Learn and practice “Turn to Your Partner”
- Hear a story read aloud again
- Make connections between the words of the story and a visual presentation of the words
- Gather in a responsible way
- Explain their thinking and listen carefully

**TEKS 1.A.i**  
Student/Teacher Narrative  
Step 1 and Step 2  
(all, beginning on page 11 and continuing on to page 12)

## 1 Pair Students and Introduce “Turn to Your Partner”

Randomly assign partners (see “Do Ahead” in the Week Overview) and make sure they know each other’s names. Explain that partners will work together for the next two weeks.

Gather the class with partners sitting together, facing you. Explain that you will often ask partners to turn and talk to each other. The purpose is to give all of the students a chance to think more about what they are learning by talking to another person.

Explain the “Turn to Your Partner” procedure.

### You might say:

“Sometimes I will ask a question and say ‘Turn to your partner.’ When you hear this, you will turn to face your partner and talk about the question. When I raise my hand, you will finish what you are saying, raise your own hand so others can see the signal, and turn back to face me.”

## 2 Model “Turn to Your Partner”

Have a student act as your partner, and model turning to face each other and introducing yourselves by your full names. Then ask partners to turn and face each other and introduce themselves. After a moment, raise your hand and have the students turn back to face you. Practice again by asking:

**Q** *What is your favorite school subject? Why is that subject your favorite? Turn to your partner.*

Have partners discuss their thinking. After a moment, signal for their attention. Have a few volunteers briefly share with the class what they discussed.

Explain that today and throughout the year, the students will use “Turn to Your Partner” to share their thinking about books they hear and read.

## Materials

- *A Bad Case of Stripes*
- “A Bad Case of Stripes Read by Sean Astin” (IV1)

## Teacher Note

If you are teaching other programs from Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the *Making Meaning* lessons.

The partners you assign today will work together for the remainder of this unit. Take some time at the beginning of today’s lesson to let partners get to know each other by talking informally in a relaxed atmosphere. You might have them report to the class some interesting things they learned about each other.

## Teacher Note

If your students are unfamiliar with “Turn to Your Partner,” this lesson may require an extended class period. If they are already familiar with the procedure, you do not need to model it in Step 2.

Instead, remind the students of your expectations. To see an example, view “Using ‘Turn to Your Partner’” (AV6).

## Teacher Note

Use a signal that the students will notice but that does not interrupt their conversations, such as a raised hand. This allows the students to finish what they are saying before turning back to face you. You might build accountability by having the students raise their own hands when they turn to face you.

## Teacher Note

As partners talk, look for gestures and verbalizations that let you know they are talking about the book and listening to each other (for example, they might be facing each other, looking at each other, and mentioning events they remember from the story). Be ready to report your observations to the students at the end of the lesson.

## Teacher Note

You might tell your students that Sean Astin has been in three movies adapted from the books in the *Lord of the Rings* trilogy by J. R. R. Tolkien: *The Lord of the Rings: The Two Towers*, *The Lord of the Rings: Fellowship of the Ring*, and *The Lord of the Rings: The Return of the King*.

### 3 Review the Story and Explain the Purpose of Rereading

TEKS 1.A.i  
Student/Teacher Activity  
Step 3 (all)

Show the cover of *A Bad Case of Stripes*. Ask:

**Q** *What do you remember about this story? Turn to your partner.*

Scan the class as partners talk, without intervening. When most pairs have finished talking, signal for the students' attention and have one or two volunteers share their thinking with the class.

Explain that today the students will hear *A Bad Case of Stripes* read aloud again. Explain that hearing a story a second time gives the students an opportunity to listen for details they might have missed the first time, think more deeply about the story, or practice a reading comprehension strategy. Explain that usually you will be the one rereading the book, but today the students will hear and see *A Bad Case of Stripes* read aloud by an actor named Sean Astin. Ask the students to listen carefully as they watch the video for any details about the story that they missed during the first reading.

### 4 Watch the Video

Explain that you will stop the video three times. At each stop, you will ask the students to talk in pairs about the story. Play the video "A Bad Case of Stripes Read by Sean Astin" (IV1), stopping after:

**p. 28** "What she really wanted was a nice plate of lima beans, but she had been laughed at enough for one day."

Ask:

**Q** *What happens in the part of the story you just heard? Turn to your partner.*

Without sharing as a class, continue to play the video. Following the same procedure, have the students discuss what happens in the story at the following stops:

**p. 43** "Each so-called cure only added to poor Camilla's strange appearance until it was hard to even recognize her."

**p. 22** "She ate all the lima beans she wanted, and she never had even a touch of the stripes again."

### 5 Make Connections Between the Book and the Video

Show the students pages 18–19 of the text and review that in this part of the story Dr. Bumble brings the Experts to see Camilla. Explain that you will replay the part of the video in which Sean Astin reads this page.

Tell the students that as they listen to the words of the story, you want them to notice what they *see* and *hear* happening in the video. Then replay the video, beginning at 6:02 and stopping at 7:08. Ask:

**Q** *What did you notice happening in the video as you listened to the words of the story? What did you see and hear?*

**Students might say:**

"I noticed that Sean Astin uses different voices for different characters."

"Sometimes the video shows a close-up of one of the pictures."

"I heard whispering when the story says the scientists whispered together."

"There were popping noises when the story said virus balls appeared on Camilla."

If the students struggle to answer the questions, support them by suggesting ideas like those in the "Students might say" note. Then replay the first part of the reading (from 6:02 to 6:32), stopping at the following places to point out features such as:

- At 6:10: the zoom to a close-up of the Experts in the illustration when the text says, "But this time, instead of the Specialists, he brought the Experts."
- At 6:25: the whispering sound effect when the text says, "Then they huddled together and whispered."
- At 6:32: the popping sound effect when the text says, "Suddenly, fuzzy little virus balls appeared all over Camilla."

Explain that the makers of the video thought carefully about the words and descriptions in the story. Then they used video features, such as close-ups and sound effects, to bring the words and descriptions to life through sound and movement. Discuss:

**Q** *Did watching the video help you better understand or enjoy the story? Why do you say that?*

## **6** Reflect on Partner Work

Help the students reflect on their work together by asking:

**Q** *How did you do with "Turn to Your Partner"? In what ways did it go well?*

**Q** *What would you like to do differently tomorrow?*

Share some of the positive partner interactions you observed, and explain that these are examples of behaviors that all of the students can practice. Then have the students return to their desks.

# Day 3

## Read-aloud

### Materials

- *The Old Woman Who Named Things*
- “Class Assessment Record” sheet (CA1)

### Teacher Note

For additional support with setting up procedures and expectations for IDR, view “Getting Started with IDR” (AV27).

### In this lesson, the students:

- Practice “Turn to Your Partner”
- Hear and discuss a story
- Learn the procedure for Individualized Daily Reading (IDR)
- Read independently for up to 15 minutes
- Listen carefully

### ABOUT INDIVIDUALIZED DAILY READING IN FOURTH GRADE

Today the students are introduced to Individualized Daily Reading (IDR). In IDR, the students read independently and reflect on and discuss what they have read. We recommend that you base the length of time the students read independently on their attention and engagement. You might begin with 10-15 minutes and gradually add time over the coming weeks. The goal is for the students to read independently for up to 30 minutes by Unit 5 (approximately halfway through the school year).

If you have not already done so, we encourage you to establish a classroom library with a wide range of texts at various levels. There are a number of ways to set up and organize a classroom library. For more information, see “Setting Up a Classroom Library” in the Introduction.

### 1 Review “Turn to Your Partner” and Get Ready to Listen

Gather the class with partners sitting together, facing you. Explain that again today the students will use “Turn to Your Partner” to share their ideas. Review that the purpose of talking with a partner is to give all of the students a chance to think more about what they are learning. Remind the students that it is important for partners to look at each other when they talk and to take turns talking and listening so that both partners get a chance to share.

### 2 Introduce *The Old Woman Who Named Things*

Show the cover of *The Old Woman Who Named Things*, and read the names of the author and the illustrator aloud. Explain that this is a story about an old woman who has outlived all her friends. Ask:

**Q** *What does it mean to have outlived all your friends? What do you think that would be like? Turn to your partner.*

When most pairs have finished talking, signal for the students' attention. Have a few volunteers share their ideas with the class; then ask the students to keep these ideas in mind as they listen to the story.

### 3 Read Aloud

Read the story aloud slowly and clearly, showing the illustrations and stopping as described below. Clarify vocabulary when you encounter it in the story by reading the word, briefly defining it, rereading it in context, and continuing (for example, “. . . and she thought herself pretty clever”—*clever* means ‘smart’—‘and she thought herself pretty clever in this’”).

#### Suggested Vocabulary

**clever:** smart (p. 19)

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**bills:** written requests for payment of money owed (p. 7)

**tolerate:** allow (p. 13)

Stop after:

**p. 23** “‘No,’ said the old woman sadly. And she hung up the telephone.”

Ask:

**Q** *What’s happening in the story? What do you think will happen next? Turn to your partner.*

As partners talk, circulate among them and listen as they discuss the story. After most pairs have finished sharing, signal for the students’ attention. Have one or two students share what they discussed.

#### CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students taking turns sharing ideas?
- Are the students contributing ideas to the class discussion?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 4 of the *Assessment Resource Book*.

Reread the last sentence on page 23 and continue reading to the end of the story.

#### ELL Note

English Language Learners may benefit from additional stops to discuss the reading, for example, after pages 9 and 17.

#### Teacher Note

Use self-stick notes to mark stopping places in the book and to remind you of questions, instructions, or other information you want to convey to the students during the read-aloud. For more information, see “Preparing the Daily Lessons” in the Introduction. To learn more, view “Planning a Lesson” (AV12).

#### Teacher Note

Class Assessment Notes appear throughout the program to prompt you to monitor the students as they discuss the reading. For more information, see “Class Assessment” in the Assessment Overview of the *Assessment Resource Book*.

#### Technology Tip

You may choose to record assessment data using printed forms found in the *Assessment Resource Book* or on the CCC Learning Hub ([cclearninghub.org](http://cclearninghub.org)). Alternatively, you might record data using the CCC ClassView app. For more information, view the “Using the CCC ClassView App” tutorial (AV41).

**TEKS 1.B.i**  
Student/Teacher Narrative  
Step 5 (all)

### Teacher Note

You might choose to do IDR at the end of the reading lesson or at another time of the day. If you have already established a procedure for independent reading, simply remind the students of your expectations.

### Teacher Note

If the students are familiar with the term “just-right” book (or another related term such as *independent reading level*), you might use this term when talking about choosing appropriate texts.

**TEKS 5.A.ii**  
Student/Teacher Narrative  
Step 5 (third paragraph in step  
and last Teacher Note in green  
margin on page 16)

### Teacher Note

Base the length of time the students are reading independently on their attention and engagement. Gradually add time as the students are ready.

## 4 Discuss the Story

At the end of the story, facilitate a discussion using the questions that follow. During the discussion, be ready to reread passages and show illustrations again to help the students recall what they heard.

**Q** *Why doesn't the old woman want to name the dog?*

Reread page 24, beginning at the top of the page and ending after the sentence “The old woman made a decision.” Then ask:

**Q** *What is the old woman's decision? Why does she make that decision?*

Tell the students that they will revisit *The Old Woman Who Named Things* in the next lesson.

## INDIVIDUALIZED DAILY READING

## 5 Introduce Individualized Daily Reading

Explain that today you will teach the procedure for Individualized Daily Reading (IDR). Explain that IDR is a time when each student reads independently in a book she enjoys. Tell the students that during IDR, they will read books at their own reading levels and practice the reading comprehension strategies they will learn in the *Making Meaning* program. Point out that the more reading practice the students do in books at their independent levels, the stronger they will become as readers.

State your expectations for how the students will act responsibly during IDR.

### You might say:

“During IDR you will select books and find a comfortable place to sit and read silently. Reading silently and staying seated helps the people around you concentrate so they can enjoy what they are reading.”

Have the students get the books they have selected from the classroom library (see “Do Ahead” in the Week Overview) and find comfortable places to sit in the classroom and read silently to themselves. Have the students read silently for up to 15 minutes. Signal to let the students know when it is time to stop reading.

Ask and briefly discuss:

**Q** *What did you enjoy about the book or books you read today?*

Tell the students that they will have many more opportunities to read books they enjoy independently. Explain that reading books they enjoy will help them become stronger readers. Have the students return to their desks and put away their books.

## WRITING ABOUT READING

Writing About Reading activities provide the students with opportunities to write about texts they discuss in the *Making Meaning* program. The activities are optional and can be done at the end of the lesson or at another time. For more information, see “Extending the Instruction” in the Introduction.

### Write Personal Opinions About *The Old Woman Who Named Things*

Show the cover of *The Old Woman Who Named Things* and remind the students that they heard this book earlier. Ask:

**Q** *What do you remember about the book* *The Old Woman Who Named Things*?

Have a few volunteers share their thinking. Then explain that you will reread the part of the story where the old woman decides to search for the shy brown dog. Distribute a copy of “Excerpt from *The Old Woman Who Named Things*” (BLM2) to each student, and explain that the passages you will read are reproduced there. Ask the students to follow along as you read aloud. Reread aloud pages 24–28 and the first sentence on page 29. After reading, ask:

**Q** *Do you think naming the dog and bringing it home was a good decision? What in the story makes you think that?*

#### Students might say:

“I think it was a good decision because the old woman was lonely without the dog. She was worried when the dog didn’t come to her house.”

“I do not think it was a good decision because if she outlives the dog, she’s going to be disappointed and lonely again.”

“I think it was a bad decision because if something happens to the old woman, no one will be there to take care of the dog.”

Explain that each student will write a paragraph about whether the old woman’s decision to name the dog and bring it home was a good one. Tell the students that readers often have different opinions about the characters and events in a story, and that is fine. What is important is that they support their thinking with facts and details from the story. Ask the students to watch as you think aloud and model writing an opinion about the old woman’s decision.

#### Materials

- *The Old Woman Who Named Things*
- Copy of “Excerpt from *The Old Woman Who Named Things*” (BLM2) for each student

#### Teacher Note

Prior to doing this activity, you will visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print copies of “Excerpt from *The Old Woman Who Named Things*” (BLM2).

### You might say:

"I think that even though the old woman might outlive the dog, she made the right decision to name it and take it home. I'll start by writing: *In the book The Old Woman Who Named Things by Cynthia Rylant, the old woman decided to bring home the dog to live with her. I think that the old woman made a good decision when she named the dog and brought it home because the dog made her happy.* Notice that I stated my opinion and included the title and the author's name in the opening sentences. Now I need to explain my thinking using facts and details. I'll write: *The old woman had spent many years alone because she had outlived all of her friends. She thought that if she didn't allow any living things in her life, she wouldn't be lonely. Then she realized that knowing all of those friends made her life better. She thought, 'how lucky she had been to have known these friends,' and she thought, 'what a lucky old woman she was.' Thinking about those friends helped her realize how lucky she was to find the dog.* Now I need a conclusion. I'll write: *I think the old woman made the right decision. In the end, bringing the dog home made them both happy.*"

Explain that each student should start with one or two opening sentences that state his opinion and include the title of the book and the author's name. He should then give a reason for his opinion, include a fact or detail to support his reason, and provide a closing sentence or two that wraps up his writing. Have the students write about their opinions. If time permits, invite the students to share their opinions with the class.

## Day 4

## Listening Practice

### Materials

- *The Old Woman Who Named Things*

### In this lesson, the students:

- Hear a story read aloud again
- Explore the theme of the story
- Learn a procedure for selecting texts at their independent reading levels
- Read independently for up to 15 minutes
- Listen carefully
- Work in a responsible way

### ABOUT READING LEVELED TEXTS DURING IDR

In order for the students to grow as readers, they need to spend time reading texts that they can comprehend and read fluently with few miscues (accuracy errors). For that reason, during IDR they read books at their independent reading levels. In this unit, they learn a procedure for choosing books at

appropriate levels and self-monitoring strategies to help them think about how well they understand what they are reading. For more information, see “Reading Appropriately Leveled Texts” in the Introduction.

If you have administered a formal reading assessment to identify each student’s independent reading level, you might record each student’s data on the “Student Reading Level Summary” record sheet (SR1).

## 1 Discuss the Reading Community and Get Ready to Listen

Gather the class with partners sitting together, facing you. Remind the students that in building their reading community this week, they have been focusing on learning some new procedures (gathering for a read-aloud, “Turn to Your Partner,” and IDR), listening to one another, and taking responsibility for themselves. Ask:

**Q** *How do you think our class is doing with building a caring reading community?*

**Q** *What do you want to keep working on?*

Encourage the students to focus today on the things they want to keep working on (you may want to write these where everyone can see them). Tell the students that at the end of the lesson, you will check in to see how they did working on these items.

## 2 Review *The Old Woman Who Named Things*

Show the cover of *The Old Woman Who Named Things*. Ask:

 **Q** *What do you remember about this story? Turn to your partner.*

Scan the class as partners talk, without intervening. When most pairs have finished talking, signal for the students’ attention and have one or two volunteers share their thinking with the class.

## 3 Review the Purpose of Rereading and Reread the Story

Remind the students that rereading is an important technique for helping readers understand and enjoy a book at a deeper level. Explain that you will reread *The Old Woman Who Named Things* aloud, and ask the students to listen carefully for any details they missed during the first reading.

Read the story aloud again, slowly and clearly.

## 4 Discuss the Story and Explore the Story’s Theme

After the reading, ask and briefly discuss:

 **Q** *What did you hear during the second reading of this story that you missed during the first reading? Turn to your partner.*

### Teacher Note

This question gives the students an opportunity to think about the story's *themes*, or messages or lessons about life. The students will explore the concept of theme in Unit 4, which focuses on analyzing story structure.

### ELL Note

You might want to explain that *consistently* means "again and again in the same way."

### Teacher Note

For additional support with helping the students select books at their independent reading levels, you might teach IDR Mini-lesson 1, "Selecting Appropriately Leveled Texts" (found in Appendix A).

#### TEKS 1.B.i

Student/Teacher Activity  
Step 6 (all, beginning on page 20 and continuing on to page 21)

#### TEKS 5.A.i

Student/Teacher Narrative  
Step 6 (first three paragraphs in the step and the "You might say" note at the top of page 21)

After most pairs have finished sharing, signal for the students' attention. Have a few volunteers share their thinking with the class. Facilitate a discussion of the story using the questions that follow. During the discussion, be ready to reread passages and show illustrations again to help the students recall what they heard.

Ask and briefly discuss:

- Q *The story says, "[She] named only those things she knew she could never outlive." Why do you think the old woman named only things she knew she could never outlive? What in the story makes you think that?*
- Q *What does this story tell us about loneliness and friendship? What in the story makes you think that?*

## 5 Reflect on Working Together

Help the students reflect on their work together. Remind them of the things they wanted to work on in building their reading community. Ask:

- Q *What did you do today to help build our reading community? How will doing those things consistently help to build our reading community?*
- Q *What did you do to take responsibility for yourself this week?*

#### Students might say:

"I came straight to the rug instead of doing something else first."

"I listened to my partner, and I made sure I talked about my ideas, too."

"I paid attention during the read-aloud."

## INDIVIDUALIZED DAILY READING

## 6 Introduce Selecting Texts at the Right Levels

Review the procedures and expectations you have established for IDR and for using the classroom library.

Remind the students that during IDR it is very important that they read books at the right levels. Explain that books that are at the right levels are not too difficult and not too easy. The books have words the students can read and understand and stories or topics that are interesting to them. Remind the students that reading books at the right levels will help them to become stronger readers.

Describe the procedure you would like the students to follow for selecting books at appropriate reading levels.

**TEKS 5.A.i**  
**Student/Teacher**  
**Activity**  
**Step 6**  
**(first paragraph**  
**after the "You**  
**might say" note to**  
**the end of the**  
**step)**

**You might say:**

"First, choose a book that looks interesting to you. Open the book to any page and begin reading that page quietly to yourself. As you read, count the words on the page that you do not know. If you count more than five words that you do not know, the book may be too difficult. If you are able to read all the words on the page very quickly and the book doesn't seem interesting, it may be too easy. If you have chosen a book that seems either too difficult or too easy, return it to the classroom library and choose another book. Once you have found a book that interests you and is at the right level, check it out from the library and begin reading."

Tell the students that they will now have a few minutes to look through the books they checked out from the classroom library earlier this week. Tell the students that if they decide any of their books are not at the right levels, they should put them to the side. Later they will have a chance to return these books to the classroom library and select new ones.

Give the students a few minutes to look through their books. Circulate as they work and provide assistance as needed. When most of the students have finished looking through their books, signal for their attention. Explain that you will call on a few students at a time to return the books they have set aside to the classroom library and choose new books to replace them.

Explain that while students are waiting to be called to the library, they may read silently. Have the students read silently for up to 15 minutes. Call on two or three students to come to the library, return their books, and select new books. Repeat the procedure until every student has had a turn in the library.

Signal to let the students know when it is time to stop reading. Describe some responsible behaviors you noticed as the students were reading and selecting their books.

**You might say:**

"I noticed students reading silently during IDR, which helped others concentrate on their reading. In addition, I noticed that many students waited patiently for their turn in the classroom library."

Tell the students that they will have many opportunities to practice choosing and reading books that are at the right levels. Have the students return to their desks and put away their books.

---

### Teacher Note

If you have established a different system for identifying texts at appropriate levels for your students, such as Lexile levels, colored dots on books, or leveled bins, explain how to use that system instead and model it if necessary.

---

### ELL Note

You might want to help your English Language Learners choose books at appropriate levels. Providing a limited number of teacher-selected texts will help them make good choices.

---

### Teacher Note

You might support students in selecting books at the right levels. To help a student check whether a book is at the right level, ask her to read a passage from the book aloud and tell you what the book is about. If the student is having difficulty reading or understanding the passage, the book may be too difficult. If the student reads quickly and doesn't seem engaged, the book may be too easy. If a student is reading a book that is too difficult or too easy, help her select a more appropriate book.

---

### Teacher Note

You might repeat this instruction during the next few IDR sessions or at another time in order for every student to get a turn in the library.

---

### Vocabulary Note

Next week you will revisit *A Bad Case of Stripes* and *The Old Woman Who Named Things* to teach the Week 1 vocabulary lessons.

### Technology Tip

Prior to doing this activity, locate a few age-appropriate sources that provide information about Cynthia Rylant. (You might look for interviews, examples of her illustrations, or biographies.) Search for information online using the keywords “Cynthia Rylant.”

## TECHNOLOGY EXTENSION

### Meet the Author: Cynthia Rylant

Have the students learn more about Cynthia Rylant, the author of *The Old Woman Who Named Things*. Show the cover of *The Old Woman Who Named Things*, and tell the students that Cynthia Rylant, the author of *The Old Woman Who Named Things*, has written dozens of books including *Missing May*, *Gooseberry Park*, *The Relatives Came*, and the Lighthouse Family series of chapter books. Tell the students that when Cynthia Rylant was young, she never thought of being a writer, but once she took an English course in college, she became interested in writing. Ask:

**Q** *What else would you like to know about Cynthia Rylant?*

Have a few volunteers share their thinking. As they respond, record their ideas where everyone can see them. Display the online sources you located that contain information about Cynthia Rylant, and read aloud the sections you have identified. Ask:

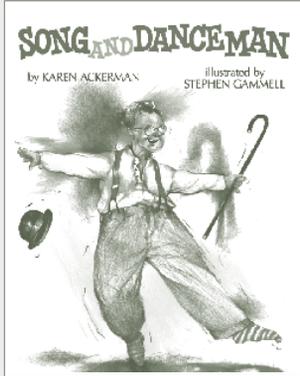

**Q** *What is something you learned about Cynthia Rylant?*

Encourage interested students to check out other books by Cynthia Rylant from the classroom library, school library, or public library.

# Week 2

## OVERVIEW

### *Song and Dance Man*

by Karen Ackerman, illustrated by Stephen Gammell

A grandfather gives his grandchildren a glimpse of his life as a song-and-dance man on the vaudeville stage.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### **Whiteboard Activity**

- WA1

#### **Assessment Form**

- “Class Assessment Record” sheet (CA2)

#### **Professional Development Media**

- “Using “Think, Pair, Share”” (AV8)
- “Adapting Lessons for English Language Learners” (AV13)
- “Using CCC’s Whiteboard Activities” tutorial (AV40)

### Comprehension Focus

- Students hear and discuss a story.
- Students discuss a character’s feelings and thoughts.
- Students read independently.

### Social Development Focus

- Teacher and students build the reading community.
- Students learn and practice the procedure for “Think, Pair, Share.”
- Students work in a responsible way.
- Students listen respectfully to the thinking of others and share their own.

## DO AHEAD

- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA2); see page 5 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, prepare the “Thinking About My Reading” chart on a sheet of chart paper (see Step 1). Also prepare to model the self-monitoring procedure with a book read independently during IDR (see Step 2).
- ✓ Prior to Day 4, prepare to model completing a book entry on the “Reading Log” chart (see Step 4).
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student. For more information about the family letters, see “Family Letters” in the Introduction.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 1 lessons this week.

# Day 1

## Read-aloud

### Materials

- *Song and Dance Man*

### Teacher Note

If your students are already familiar with “Think, Pair, Share,” simply remind them of your expectations. To see an example, view “Using ‘Think, Pair, Share’” (AV8).

### In this lesson, the students:

- Learn “Think, Pair, Share”
- Hear and discuss a story
- Read independently for up to 15 minutes
- Listen to one another

## 1 Gather and Introduce “Think, Pair, Share”

Gather the class with partners sitting together, facing you. Explain that today the students will learn another way to help them talk in pairs called “Think, Pair, Share.” Explain that “Think, Pair, Share” is like “Turn to Your Partner.” The difference is that the students think by themselves before they talk in pairs. Explain that you will ask a question and wait a few moments for them to think. When you say “Turn to your partner,” partners will turn to each other and begin talking. When you signal to them, they will end their conversations and turn their attention back to you. Some pairs will then share their thinking with the class.

To have students practice “Think, Pair, Share,” ask:

**Q** *What is one thing you want to keep in mind today to help your conversation with your partner go well? [pause] Turn to your partner.*

After a few moments, signal for the students’ attention and have a few volunteers share what they discussed with the class. Explain that at the end of the lesson, you will ask the students how they did working with their partners today.

## 2 Introduce *Song and Dance Man*

Show the cover of *Song and Dance Man* and read the names of the author and the illustrator aloud. Explain that in today’s story, a grandfather shows his grandchildren how he once sang and danced on the vaudeville stage. This means that he used to be a performer in a kind of theater, called *vaudeville*, that was popular in the late nineteenth and early twentieth centuries. Vaudeville theater featured singing, tap dancing, comedy, and magic.

## 3 Read Aloud

Read the story aloud slowly and clearly, showing the illustrations and stopping as described on the next page. Clarify vocabulary when you encounter it in the story by reading the word, briefly defining it,

rereading it in context, and continuing (for example, “Then he turns on the light to the attic, and we follow him up the steep, wooden stairs’—*steep* means ‘rising at a sharp angle or slant’—‘and we follow him up the steep, wooden stairs’”).

### Suggested Vocabulary

**steep:** rising at a sharp angle or slant (p. 6; refer to the illustration on p. 7)

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**rack:** frame for hanging things (p. 9; refer to the illustration)

**gliding:** moving smoothly or easily (p. 14; model the movement)

**glances:** takes a quick look (p. 29; refer to the illustration)

Stop after:

- p. 9** “He moves some cardboard boxes and a rack of Grandma’s winter dresses out of the way, and we see a dusty brown, leather-trimmed trunk in the corner.”

Use “Think, Pair, Share” to have partners first think about and then discuss:

**Q** *What’s happening? What do you think will happen next?* [pause] *Turn to your partner.*

Signal for the students’ attention and have one or two volunteers share what they discussed with the class. Reread the last sentence on page 9 and continue reading to the next stop:

- p. 17** “‘What’s that in your ear?’ he asks, and he pulls a silver dollar out of somebody’s hair.”

Use “Think, Pair, Share” to have partners first think about and then discuss:

**Q** *What has happened in the story so far?* [pause] *Turn to your partner.*

Signal for the students’ attention and have one or two volunteers share their ideas with the class. Reread the last sentence on page 17 and continue reading to the end of the story.

## 4 Discuss the Story

Show pages 28–29 and reread page 29 aloud. Ask and briefly discuss:

**Q** *What do you think Grandpa might have been feeling right then? Why?*

Have a few volunteers share their thinking with the class.

### Facilitation Tip

During class discussions, continue to prompt the students to **turn and look** at the person who is about to speak (for example, “[Andy] is going to speak now. Let’s all turn and look at him”). Scan the class to ensure that the students are looking at the person who is speaking. If necessary, interrupt the discussion to remind the students of your expectations.

### ELL Note

Cooperative structures like “Turn to Your Partner” and “Think, Pair, Share” support the language development of English Language Learners by providing frequent opportunities for them to talk about their thinking and listen to others. To learn more, view “Adapting Lessons for English Language Learners” (AV13).

### Teacher Note

During IDR you will often ask the students to talk with partners about their reading. When sending the students to find places to read, you will need to determine if you would like the students to sit near their reading partners or if they may share with any classmates nearby.

### Teacher Note

In the initial weeks of IDR, students are invited to share more generally about the texts they are reading. Once they have had practice talking about their independent reading in broader terms, more of the suggestions for sharing their reading will focus on the use of the strategy they are learning, as well as providing opportunities to review previously learned strategies.

Show the illustration of Grandpa on the page facing the title page, and then show the illustration of Grandpa on page 16. Ask and briefly discuss:

**Q** *What do you think about when you see these two pictures of Grandpa? What effect do his memories have on him?*

## 5 Reflect on “Think, Pair, Share”

Help the students reflect on how they did with “Think, Pair, Share” by asking:

**Q** *How did thinking before you shared with your partner help you and your partner talk about the story?*

## INDIVIDUALIZED DAILY READING

### 6 Read Independently and Share Reading with Partners

**TEKS 1.B.i**  
Student/Teacher Activity  
Step 6 (all)

Review the procedures and your expectations for using the classroom library during IDR.

Have the students get their books and find quiet places to sit and read. Tell the students that at the end of IDR today, you will ask them to talk with partners about what they read. Then have them read silently for up to 15 minutes. Circulate and assist the students as needed.

Signal to let the students know when it is time to stop reading. Explain that before you have the students share what they read with partners, you will show them what that sharing might look like. Then briefly model sharing the title of a book you are reading, the author’s name, and what the book is about.

#### You might say:

“I read a book called *A Bad Case of Stripes* by David Shannon. It’s about a girl named Camilla who is afraid to admit that she loves lima beans because she doesn’t want other kids to make fun of her. She comes down with a strange sickness that covers her skin with all kinds of colorful designs. She finds out that being true to herself is the only cure for her embarrassing ‘bad case of stripes.’”

Have the students take turns discussing what they read with a partner. After partners have had a chance to share, have a few volunteers share what they read with the class.

Help the students reflect on their partner work by asking:

**Q** *What was one thing you liked about sharing what you read with a partner today?*

Have a few students share their thinking with the class. Remind the students that they will have many opportunities to share and discuss what they read. Have the students return to their desks and put away their books.

## In this lesson, the students:

- Practice “Think, Pair, Share”
- Hear and discuss a story read aloud again
- Discuss a character’s feelings and thoughts
- Read independently for up to 15 minutes
- Work in a responsible way

## 1 Review “Think, Pair, Share” and Get Ready to Listen

Gather the class with partners sitting together, facing you. Explain that during today’s lesson, you will ask them to use “Think, Pair, Share” to talk about their thinking. Remind them that the purpose of “Think, Pair, Share” is to give all of the students a chance to think by themselves before they talk in pairs.

## 2 Review *Song and Dance Man* and Reread Part of the Story Aloud

Show the cover of *Song and Dance Man*. Ask:

 **Q** *What do you remember about this story? Turn to your partner.*

Have a few volunteers share with the class what they remember. Explain that today you will reread part of *Song and Dance Man*, starting when Grandpa starts to perform for the children. Ask the students to listen carefully and to think about how Grandpa is feeling in this part of the story.

Read aloud slowly and clearly, beginning on page 14 and continuing to the end of the story.

## 3 Discuss a Character’s Feelings and Thoughts

After the reading, use “Think, Pair, Share” to have the students first think about and then discuss:

 **Q** *How do you think Grandpa feels when he starts to sing and dance? What in the story makes you think that? [pause] Turn to your partner.*

Signal for the students’ attention and have one or two volunteers share their thinking with the class. As the students offer their ideas, reread the text that supports their thinking. (For example, if the students say that Grandpa feels happy because he laughed so hard he started to cry, read aloud from page 19: “We’ve heard that joke before, but the song and dance man slaps his knee and laughs until his eyes water.”)

## Materials

- *Song and Dance Man*
- “Class Assessment Record” sheet (CA2)

**ELPS 3.E.i**  
Steps 1–3  
(all, beginning on page 29 and continuing on to page 30)

Use “Think, Pair, Share” to discuss:

-  **Q** *What do you think it means when Grandpa says that he “wouldn’t trade a million good old days for the days he spends with us”? What in the story makes you think that? [pause] Turn to your partner.*

As partners talk, circulate among them and listen as they discuss the story.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students taking time to think before talking with their partners?
- Are the students referring back to the text to support their thinking?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 5 of the *Assessment Resource Book*.

Signal for the students’ attention and have one or two volunteers share their thinking with the class. Explain that thinking about a character’s thoughts and feelings can help us understand and enjoy a story.

## 4 Reflect on “Think, Pair, Share”

Help the students reflect on how they did with “Think, Pair, Share” by asking:

- Q** *What did you and your partner do to take responsibility for your thinking and talking during “Think, Pair, Share”?*
- Q** *What might you want to do differently next time?*

Have one or two volunteers share their thinking with the class.

## INDIVIDUALIZED DAILY READING

### 5 Read Independently and Share Reading with Partners

Have the students get their books and find quiet places to sit and read. Tell the students that at the end of IDR today, you will ask them to talk with a partner about what they read. Then have them read silently for up to 15 minutes. Circulate and assist the students as needed.

Signal to let the students know when it is time to stop reading. Have partners take turns discussing what they read. After partners have had a chance to share, have a few volunteers share what they read with the class. Have the students return to their desks and put away their books.

### ELL Note

You might provide the prompts “I took responsibility when I . . .” and “Next time I will . . .” to your English Language Learners to help them verbalize their answers to these questions.

**ELPS 3.E.i**  
Step 5 (all)

### Teacher Note

During IDR you will often ask the students to talk with partners about their reading. When sending the students to find places to read, you will need to determine if you would like the students to sit near their reading partners or if they may share with any classmates nearby.

## In this lesson, the students:

- Learn a procedure for self-monitoring
- Read independently for up to 15 minutes
- Work in a responsible way

**TEKS 6.I.i**  
Student/Teacher Narrative  
Step 1 and Step 2  
(all, beginning on page 31 and  
continuing on to page 32)

## 1 Introduce Self-monitoring

Have the students bring their books and gather, facing you. Remind the students that reading books that are at the right levels helps them become stronger readers. Explain that one way good readers know if they are reading books that are at the right levels is by pausing while they are reading to think about what they are reading and, more importantly, how well they understand what they have just read.

Direct the students' attention to the "Thinking About My Reading" chart, and explain that these are questions the students can ask themselves as they are reading to help them know if their books are at the right levels for them.

*Thinking About My Reading*

*What is happening in my book?*

*Do I understand what I am reading?*

*Do I know what most of the words mean?*

*Is this book interesting and fun to read?*

Point to and read each question on the chart aloud. Explain that when you stop the students, you would like them to think about each of these questions quietly before continuing to read. Explain that the purpose of this is to help them notice when they understand what they are reading and when they do not. Tell the students that when they do not understand their books, they should go back and reread. If they still do not understand, they may need to get new books.

Explain that today they will read independently and practice stopping to ask themselves the questions on the chart.

## Materials

- "Thinking About My Reading" chart, prepared ahead

## Teacher Note

To provide the students with additional support with self-monitoring, you might teach IDR Mini-lesson 2, "Self-monitoring and Using 'Fix-up' Strategies" (found in Appendix A).

## 2 Model Self-monitoring

Have the students watch as you model reading a book and asking yourself the questions on the “Thinking About My Reading” chart.

### You might say:

“I picked the book *The Old Woman Who Named Things* by Cynthia Rylant to read during IDR. I’m going to read the first few pages quietly to myself. Now I’m going to check to see if this book is right for me. I’ll ask myself the first question on the chart: ‘What is happening in my book?’ In this part of the book, I learned that there was an old woman who lived alone in an old house. She only named things she knew she couldn’t outlive. I can retell what’s happening in the part of the book I just read. Next I’ll ask myself the second question: ‘Do I understand what I am reading?’ Yes, I do understand what I am reading. I know that the old woman has outlived all of her friends and family and that only naming things she can’t outlive makes her think that she won’t have to worry about losing anyone else close to her. Next, I’ll ask myself the third question: ‘Do I know what most of the words mean?’ Yes, so far I know what all of the words mean. Finally, I’ll ask myself the last question: ‘Is this book interesting and fun to read?’ Yes, I’m enjoying the story. Based on my answers to these questions, I think that I can continue reading this book.”

Explain that today the students will read independently and that you will stop them every few minutes to have them think about how well they understand what they have just read. Tell the students that when you stop them, you would like them to think quietly about each of the questions on the chart before continuing to read.

## 3 Read Independently and Self-monitor

Have the students find quiet places to sit and begin reading silently. After 5 minutes, signal for their attention and read the questions on the chart aloud. Pause after each question to give the students time to think. Remind them that if they do not know what is happening in their books or do not understand what they are reading, they should go back and reread.

Have the students resume reading and read silently. After 5 minutes, stop them again and repeat the procedure. Invite students who do not think their books are at the right levels to select different books.

Have the students continue reading silently. As they read, circulate among them and ask individual students to read parts of their books aloud and tell you what they are about. If any students are struggling to understand their books, use the questions on the chart to help them be aware of their own comprehension. After 5 minutes, signal to let the students know that it is time to stop reading.

### TEKS 1.B.ii

Student/Teacher Activity  
Step 3 and Step 4  
(all, beginning on page 32  
and continuing on to page  
33)

### TEKS 6.L.i

Student/Teacher Activity  
Step 3 (all)

## 4 Reflect on Independent Reading

Ask and briefly discuss:

**Q** *Do you think the book you are reading is at the right level? How did you decide?*

Have a few volunteers share their thinking with the class.

### Students might say:

"I had a hard time reading a lot of words in the first few pages of my book, so I decided to trade it in."

"I decided my book was at the right level because I could read the words. I knew what was happening, and I liked reading it."

"I decided my book wasn't at the right level because I had a hard time understanding what was happening in the story."

Tell the students that they will continue to practice thinking about their own reading in the coming days. Have the students return to their desks and put away their books.

### Teacher Note

Post the "Thinking About My Reading" chart in the classroom so the students can continue to refer to it during IDR.

# Individualized Daily Reading

# Day 4

### In this lesson, the students:

- Practice the procedure for self-monitoring
- Learn how to use a reading log
- Read independently for up to 15 minutes
- Listen to one another
- Work in a responsible way

## 1 Review Self-monitoring

Have the students bring their books and gather with partners sitting together, facing you. Direct the students' attention to the "Thinking About My Reading" chart. Review that yesterday they practiced asking themselves questions as they were reading to help them decide if their books were at the right levels. Explain that again today you will stop them as they are reading and ask them to think about the questions on the chart. Tell the students that if they decide that the books they are reading are not at the right levels, they may select other books to read.

### Materials

- "Thinking About My Reading Chart" from Day 3
- *Student Response Book*, Reading Log section
- "Reading Log" chart (WA1)
- Copy of this unit's family letter (BLM1) for each student

### Facilitation Tip

Continue to remind the students to **turn and look** at the person who is about to speak. Ask speakers to wait until they have the class's attention before starting to speak. Scan the class to ensure that all students are actively listening and participating in the discussion. Notice the effect of using this facilitation technique on the students' engagement in class discussions over time.

### Technology Tip

Whiteboard activities (WA) are interactive charts that can be displayed using an interactive whiteboard. Alternatively, you may print the whiteboard activities and project them using a projection device. For more information, view the "Using CCC's Whiteboard Activities" tutorial (AV40).

## 2 Read Independently and Practice Self-monitoring

Have the students read silently for up to 15 minutes. Stop the students periodically and have them monitor their comprehension by thinking about the questions on the chart.

As the students read, circulate among them and check individual students' comprehension. To check a student's comprehension, ask the student to read a selection aloud to you and tell you what it is about. If the student is struggling to understand the text, help him use the questions on the chart to make himself aware of his own comprehension. Signal to let the students know when it is time to stop reading.

## 3 Discuss the Independent Reading and Reflect on Self-monitoring

 Have partners take turns discussing what they read. After partners have had a chance to share, have a few volunteers share the titles and authors of their books and what they read with the class.

Facilitate a brief discussion about how the students are doing with thinking about their own reading. Ask:

- Q *If you do not understand something you just read, what might you do?*
- Q *If you do not know a lot of the words in the book you are reading, what should you do?*

Tell the students that they will continue to practice thinking about their own reading during IDR.

## 4 Model Completing an Entry in the Reading Log

Have the students return to their desks with partners sitting together. Distribute a *Student Response Book* to each student. Explain that the students will use their *Student Response Books* throughout the year to record their thinking about books they hear and read. Ask each student to write her name on the inside front cover of the *Student Response Book*. Have each student turn to the first page of the Reading Log section at the back of the *Student Response Book*. Explain that this is where the students will write comments about each book they finish during IDR. Display the "Reading Log" chart ( WA1) and ask the students to watch as you model writing a book entry in the log. Use a book that the students are all familiar with, such as *Song and Dance Man*.

**You might say:**

"I'm going to write an entry for the book *Song and Dance Man*. In the first column, I'll write today's date. In the next column, I'll write the title of the book and then underline it to show that this is the title of a book. In the next column, I'll write the author's name, Karen Ackerman. In the last column, I'm going to write a comment, or a sentence that tells what I think about the book. I'll write: *I like this book because it reminds me of my grandfather and the times he showed us the tools and equipment he used on his farm.*"

**Reading Log**

Date	Title	Author	Comment
9/25/15	<u>Song and Dance Man</u>	Karen Ackerman	I like this book because it reminds me of my grandfather and the times he showed us the tools and equipment he used on his farm.

WA1

 **ELL Note**

Consider having students with limited English proficiency draw pictures in the Comment column of their reading logs.

**5 Write an Entry in the Reading Log**

Tell the students that now they will practice writing entries in their reading logs. Remind the students of another book they are all familiar with. Write today's date, the book's title, and the author's name on the "Reading Log" chart (WA1), and have the students write the same information in their reading logs. Then use "Think, Pair, Share" to have partners first think about and then discuss:

 **Q** *What kind of comment might you write about [A Bad Case of Stripes]? [pause] Turn to your partner.*

After a moment, signal for the students' attention and have one or two volunteers share their thinking with the class.

**Students might say:**

"I might write a sentence about what the story is about."

"I could write why I liked it or didn't like it."

"I can write about [Camilla Cream]."

Have each student write his own comment about the book in the appropriate column. Then have a few volunteers share with the class what they wrote. Have any student who finished a book today record it in his reading log.

**Teacher Note**

Plan a brief class discussion after the students have made several entries in the Reading Log section of the *Student Response Book* so that the students have a chance to hear about the books their classmates are reading and the kinds of comments they are writing about the books.

**Teacher Note**

For information on wrapping up this unit and conducting unit assessments, see "End-of-unit Considerations" on the next page.

**Vocabulary Note**

Next week you will revisit *Song and Dance Man* to teach the Week 2 vocabulary lessons.

## End-of-unit Considerations

### Wrap Up the Unit

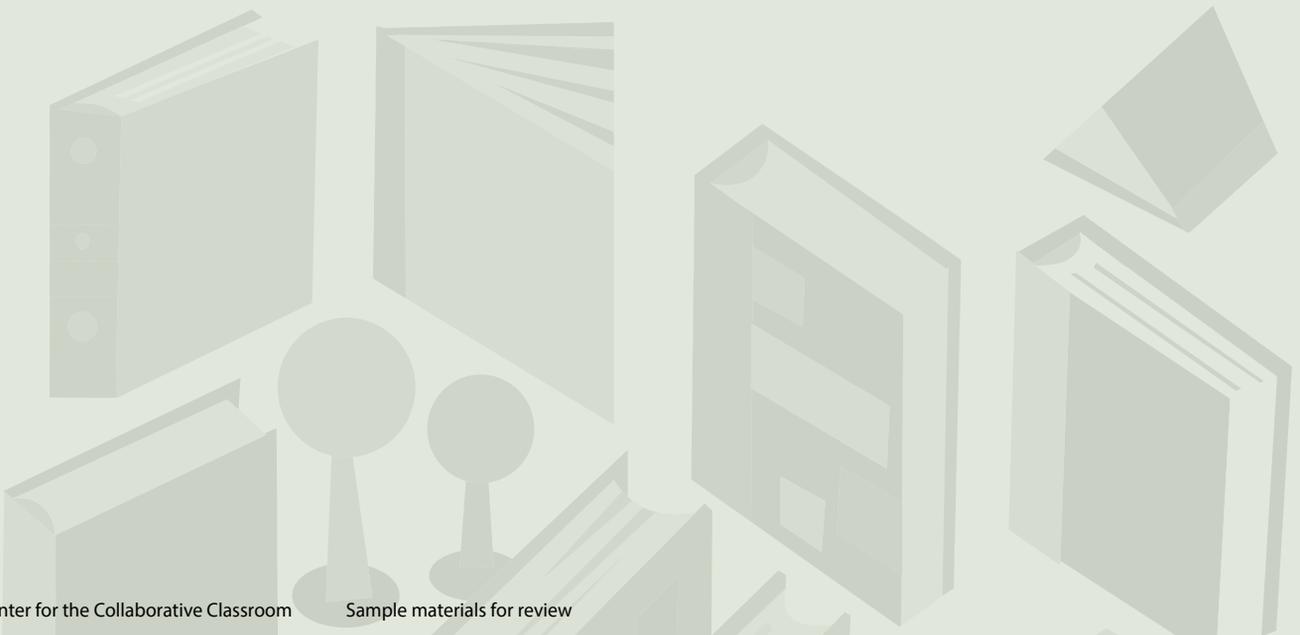

- This is the end of Unit 1. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit's family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

# Unit 2

# Using Text Features

## EXPOSITORY NONFICTION

During this unit, the students use text features to better understand information in expository texts. They hear and read nonfiction texts, explore text features, compare a first- and secondhand account of an event, and write in their reading journals. During IDR, the students practice self-monitoring their reading comprehension and begin to confer with the teacher individually about their reading lives and about the nonfiction books they are reading. Socially, they learn the procedure for “Think, Pair, Write” and develop the skill of explaining their thinking. They also analyze the effect of their behavior on others and on the group work, and they work in a responsible way.

# Unit 2

## Using Text Features

### RESOURCES

#### Read-alouds

- *Shattering Earthquakes*
- “Tying the Score: Men, Women, and Basketball”
- “Food for Thought: Cafeteria Menus Shape Up”
- *Nineteenth-Century Migration to America*

#### Writing About Reading Activities

- “Write About Preparing for Earthquakes”
- “Write Opinions About First- and Secondhand Accounts of John Muir’s Journey to the United States”

#### IDR Mini-lesson

- Mini-lesson 3, “Introducing IDR Conferences”

#### Technology Mini-lessons

- Mini-lesson 1, “Navigating Safely Online”
- Mini-lesson 2, “Maintaining Privacy Online”
- Mini-lesson 4, “Choosing Effective Search Terms”
- Mini-lesson 5, “Understanding Search Results”
- Mini-lesson 6, “Narrowing Search Results and Using Filters”
- Mini-lesson 7, “Evaluating Research Resources”

#### Technology Extensions

- “Research and Write About Earthquakes”
- “Explore Earthquake Animations”
- “Explore a Website About Migration to America”

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this unit.

#### Whiteboard Activities

- WA1–WA5

#### Assessment Forms

- “Class Assessment Record” sheets (CA1–CA3)
- “IDR Conference Notes” record sheets (CN1–CN2)
- “Individual Comprehension Assessment” record sheet (IA1)
- “Social Skills Assessment Record” sheet (SS1)
- “Individual Comprehension Assessment Student Record” sheet (SR2)
- “IDR Conference Class Record” sheet (CR1)
- “Individual Comprehension Assessment Class Record” sheet (CR2)

#### Reproducibles

- Unit 2 family letter (BLM1)
- (Optional) “First- and Secondhand Accounts of John Muir’s Journey to America” (BLM2)

#### Professional Development Media

- “Cooperative Structures Overview” (AV4)
- “Using ‘Think, Pair, Write’” (AV10)
- “Social Reflection” (AV14)
- “Asking Open-ended Questions and Using Wait-time” (AV18)
- “Setting Up IDR Conferences” (AV29)
- “Using the Individual Comprehension Assessment” (AV31)

## RESOURCES (continued)

### Extensions

- “Write Expository Text”
- “List Nonfiction Texts from Daily Life”
- “Discuss the Students’ Reading Goals and Interests”
- “Read a Newspaper Article Using Investigative Questions”
- “Investigate Your School’s Lunch Menu”
- “Discuss What the Students Are Still Wondering”
- “Build Community Throughout the Day”

### Assessment Resource Book

- Unit 2 assessments

### Student Response Book

- “Excerpt from *Shattering Earthquakes*”
- “Think, Pair, Write About Text Features”
- “The Wonderful World of Whales”
- “Tying the Score: Men, Women, and Basketball”
- “Food for Thought: Cafeteria Menus Shape Up”
- “Excerpt from *Nineteenth-Century Migration to America*”
- “Five Things I Learned from the Text Features in the Excerpt”
- “Index from *Nineteenth-Century Migration to America*”
- Reading Log
- Reading Journal

### Vocabulary Teaching Guide

- Week 2 (*Song and Dance Man*)
- Week 3 (*Shattering Earthquakes*)
- Week 4 (“Tying the Score: Men, Women, and Basketball”; “Food for Thought: Cafeteria Menus Shape Up”)

# Week 1

## OVERVIEW

### *Shattering Earthquakes*

by Louise and Richard Spilsbury

This book describes the causes and destructive consequences of earthquakes and explains how these natural disasters affect landscapes, communities, and people.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### **Whiteboard Activities**

- WA1–WA2

#### **Assessment Forms**

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)
- “IDR Conference Class Record” sheet (CR1)

#### **Professional Development Media**

- “Cooperative Structures Overview” (AV4)
- “Using “Think, Pair, Write”” (AV10)
- “Asking Open-ended Questions and Using Wait-time” (AV18)
- “Setting Up IDR Conferences” (AV29)

## Comprehension Focus

- Students use text features to better understand expository nonfiction texts.
- Students read independently.

## Social Development Focus

- Students learn the procedure for “Think, Pair, Write.”
- Students share their partners’ thinking with the class.
- Students analyze the effect of their behavior on others and on the group work.
- Students develop the skill of explaining their thinking.

## DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding. Take time to show and discuss the text features.
- ✓ Make available expository nonfiction and functional texts at a variety of levels so that the students can practice using text features during IDR and Independent Strategy Practice throughout the unit. For more information, see “About Expository Text” at the beginning of Day 1.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during the unit. For suggestions about assigning partners, see “Random Pairing,” “Considerations for Pairing ELLs,” and “Cooperative Structures” in the Introduction. For more information, view “Cooperative Structures Overview” (AV4).
- ✓ Prior to Day 2, prepare a sheet of chart paper with the title “Text Features.”

(continues)

## 1 DO AHEAD *(continued)*

- ✓ Prior to Day 2, make a class set of “IDR Conference Notes” record sheets (CN1); see page 14 of the *Assessment Resource Book*. This week you will begin conferring with individual students during IDR and documenting your observations and suggestions for each student. You might record the date(s) you confer with each student using the “IDR Conference Class Record” sheet (CR1); see page 145 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA1); see page 8 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, prepare a sheet of chart paper with the title “Reading Comprehension Strategies.”
- ✓ Prior to Day 4, prepare to model completing a Reading Journal entry (see Step 3).

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 2 lessons this week.

**In this lesson, the students:**

- Begin working with new partners
- Hear and discuss part of an expository nonfiction book
- Use text features to better understand information in the book
- Read independently for 15–20 minutes and practice self-monitoring
- Share their partners' thinking with the class

**ABOUT EXPOSITORY TEXT**

Nonfiction plays an increasingly important role in students' learning in the upper elementary grades. Students must be able to read and understand both narrative nonfiction—such as biographies, memoirs, and other true stories—and expository texts that are not written as stories. Expository texts include trade books, textbooks, newspapers, encyclopedias, online and print articles, how-to manuals, and many other informational or functional texts.

In this unit, the students will explore text features found in a variety of expository texts, including expository nonfiction books and articles. Collect trade books, textbooks, articles, and functional texts at various reading levels that contain examples of a range of features, such as tables of contents, chapter titles and subtitles, headings, illustrations, photographs, diagrams, maps, graphs, charts, captions, labels, text boxes, text columns, keywords, glossaries, indexes, and appendices. Your school or local library is a source of books, magazines (for example, *Ranger Rick*, *National Geographic Kids*, and *Time for Kids*), and newspapers. Textbooks can also be used, although they are often challenging for students to read. Read textbook passages aloud with the students before having them read them on their own. For more information, see “The Grade 4 Comprehension Strategies” in the Introduction.

**1 Pair Students and Get Ready to Work Together**

Randomly assign partners (see “Do Ahead”) and make sure they know each other's names. Gather the class with partners sitting together, facing you. Explain that during today's lesson, the students will hear a book read aloud and will use “Think, Pair, Share” to help them think and talk about the reading.

Tell the students that in addition to having them share their own thinking today, you will also ask them to share their partners' thinking with the class, so it is very important for them to listen carefully to what

**Materials**

- *Shattering Earthquakes*
- “Thinking About My Reading” chart
- *Student Response Book*, Reading Log section

**Teacher Note**

The students will be assigned new partners at the beginning of each unit; partners will stay together throughout the unit. This structure helps the students reflect on their interactions and solve problems over time.

If you are teaching other programs from Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the *Making Meaning* lessons.

### Facilitation Tip

During this unit, we encourage you to focus on two questioning techniques: **asking open-ended questions** and **using wait-time**. Notice that most of the questions we suggest are open-ended, inviting many responses. These questions cannot be answered with a single word and often begin with words like *what*, *how*, and *why*. We encourage you to try asking the questions as they are written and noticing how the students respond. Because the questions require thought, we suggest that you use at least 5-10 seconds of wait-time after asking a question before calling on anyone to respond. This gives everyone a chance to think before talking. To see this Facilitation Tip in action, view "Asking Open-ended Questions and Using Wait-time" (AV18).

### Teacher Note

You might explain that the *topic* of a text is "the subject of the text or what the text is about."

**ELPS 4.C.iii**  
**Step 3**  
(all, beginning on page 46 and continuing on to the top of page 47)

their partners say. Tell them that you will ask them to share what their partners say about the following question. Then ask:

 **Q** *What are some things you can do today to make sure you work well with your partner?* [pause] *Turn to your partner.*

Signal for the students' attention and have a few volunteers share what their partners said with the class. Ask:

**Q** *Was it hard or easy to share what your partner said with the class? Why?*

#### Students might say:

"I thought it was easy because we both thought the same things."

"I thought it was hard because at first I didn't really understand what my partner said. I had to ask him to repeat what he said."

"I thought it was hard because I couldn't hear my partner very well. I had to ask her to speak louder."

Tell the students that the purpose of sharing their partners' thinking is to help them develop their listening skills. Encourage the students to listen carefully to each other during "Turn to Your Partner" because you will regularly ask them to share what their partners said with the class.

## 2 Introduce *Shattering Earthquakes* and Expository Nonfiction

Show the cover of *Shattering Earthquakes* and read the title aloud. Turn to the title page and read the authors' names aloud. Ask:

**Q** *What do you think you already know about earthquakes?*

**Q** *Do you think the book is fiction (make-believe) or nonfiction (true)?*

If necessary, explain that this book is a type of nonfiction called *expository nonfiction*. Explain that expository nonfiction texts give factual, or true, information and are usually about particular topics.

## 3 Introduce the Table of Contents

Show the table of contents on page 3 and tell the students that expository texts like *Shattering Earthquakes* often include a table of contents. Explain that the table of contents, or "Contents" as it is called here, lists the chapters in the book with the page numbers on which the chapters start. Point to the first chapter title and explain that the first chapter is titled "What Is an Earthquake?" and it begins on page 4. Explain that the table of contents also lists other parts of the book that have useful information, and point to "Case Study," "Glossary," "Find Out More," and "Index." Explain that the students will learn more about these parts of the book later.

Tell the students that today you will read the first four chapters of *Shattering Earthquakes* aloud: "What Is an Earthquake?" "What Causes Earthquakes?" "Where Do Earthquakes Happen?" and "What Happens

in an Earthquake?” Explain that you will stop several times during the reading so partners can talk about what they learn.

#### 4 Read Aloud the First Part of *Shattering Earthquakes*

Read pages 4–13 aloud slowly and clearly, showing the photographs and reading the accompanying captions, and stopping as described below. Clarify vocabulary as you read, using the procedure you used in Unit 1, Week 2, Day 1 (see Step 3).

##### Suggested Vocabulary

**natural disaster:** event such as a flood, earthquake, or hurricane that causes great damage (p. 5)

**United Kingdom:** area also called Britain or Great Britain (p. 11; refer to the map on p. 11)

##### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**earthquake:** sudden shaking of the ground (title)

**wobble:** move from side to side (p. 4)

**jerks:** makes a quick, sudden movement (p. 4)

**transform:** change (p. 5)

**collapse:** fall (p. 12)

**quicksand:** loose, wet sand that sucks in anything resting on it (p. 13)

Stop after:

**p. 5** “Cars, buildings, and whole lakes can disappear into these cracks.”

Use “Think, Pair, Share” to have the students first think about and then discuss:

**Q** *What did you learn in the part of the book you just heard?* [pause] *Turn to your partner.*

Without sharing as a class, reread the last two sentences on page 5 and continue reading aloud to the next stopping point. Follow this procedure at the following stops:

**p. 8** “They usually occur within a few days, getting weaker over time.”

**p. 10** “Another area that suffers from many earthquakes is a zone that runs from Italy and Greece, through central Asia and the Himalayas.”

**p. 12** “They make things that were weakened by the first earthquake fall down.”

##### Teacher Note

Keywords (in bold type) are defined in the glossary on page 30 of the book; you may wish to define these for your students. You will discuss how to use a glossary with the students in Week 3, Day 3 (see Step 3).

##### ELL Note

English Language Learners may benefit from additional stops to discuss the reading. For example, you might stop after pages 7 and 9.

##### Teacher Note

After asking the question, pause for 10 seconds to give the students time to think. Then say “Turn to your partner” and have partners discuss the question.

##### Teacher Note

Not sharing as a class after each stop builds the students’ independence and emphasizes the importance of partner discussions. However, if you notice that partners are having difficulty talking, you might have a few pairs report what they talked about after the first or second stop to provide discussion ideas for the other students.

## 5 Discuss the Reading

Facilitate a class discussion using the questions that follow. As the students respond, be ready to reread passages and show photographs again to help them recall what they heard.

**Q** *What is one thing you or your partner learned from this reading?*

Turn to page 4 and review that the author says, “The worst earthquakes in the world cause terrible destruction.” Ask:

**Q** *What evidence does the author provide in the text to support that statement?*

Tell the students that they will continue to discuss the book *Shattering Earthquakes* tomorrow.

## INDIVIDUALIZED DAILY READING

### 6 Read Independently and Practice Self-monitoring

Direct the students’ attention to the “Thinking About My Reading” chart. Review that these are questions the students can ask themselves as they are reading to help them decide if their books are at the right levels for them. Review that earlier during IDR, you stopped so that the students could think about the questions on the chart. Explain that today you will not stop but that you expect the students to be responsible for thinking about the questions on their own. Remind them that if they decide their books are not at the right levels for them, they may select different books to read.

Tell the students that for the next few weeks, they will be reading nonfiction texts during IDR. If necessary, give the students a few moments to select nonfiction texts. Have the students read silently for 15–20 minutes. As the students read, circulate among them and ask individual students to read parts of their texts aloud and tell you about them. If any students are struggling to understand their texts, use the questions on the chart to help them be aware of their own comprehension.

Signal to let the students know when it is time to stop reading. Facilitate a brief discussion about how the students did monitoring their own reading by asking questions such as:

**Q** *Is the text you are reading at the right level for you? What questions helped you decide?*

**Q** *What did you do to take responsibility for yourself during IDR today?*

Have the students return to their desks and put away their books. Give the students time to record any texts they finished in their reading logs.

### ELL Note

Consider providing nonfiction books in your English Language Learners’ primary languages. You might enlist students’ family members to contribute books written in these languages.

### Teacher Note

Base the length of time the students are reading independently on their attention and engagement. Gradually add time as your students are ready. The goal is for them to read independently for up to 30 minutes by Unit 5.

## TECHNOLOGY EXTENSION

### Research and Write About Earthquakes

Use “Think, Pair, Share” to have the students think about and discuss the following question:

**Q** *What is something you want to know about earthquakes? [pause] Turn to your partner.*

Have a few volunteers share their thinking. Record the students’ ideas as questions where everyone can see them. Choose one of the questions to research as a class, and then guide the students in an online search for reputable websites with relevant information. Briefly discuss what keywords might be useful in an Internet search to answer the question (for example, “earthquakes for kids” or “underwater earthquakes for kids”). As a class, browse the websites to find information and images that answer the question. After the search is finished, briefly discuss:

**Q** *What is something new you learned about earthquakes?*

You might have the students work in pairs to create posters or flyers about what they learned and then have them share their writing with the class. If time permits, have the students research other questions they have about earthquakes and write about what they learned.

### Technology Tip

To support the students in doing online research, you might teach the following Technology Mini-lessons found in Appendix B: Mini-lesson 4, “Choosing Effective Search Terms”; Mini-lesson 5, “Understanding Search Results”; Mini-lesson 6, “Narrowing Search Results and Using Filters”; and Mini-lesson 7, “Evaluating Research Sources.” For more information about teaching Technology Mini-lessons 4–7, see “About Teaching the Online Research Lessons” at the beginning of Technology Mini-lesson 4.

If the students need support in using the Internet safely, you might teach the following lessons before the students begin their online research: Mini-lesson 1, “Navigating Safely Online,” and Mini-lesson 2, “Maintaining Privacy Online.”

## Strategy Lesson

## Day 2

### In this lesson, the students:

- Learn the procedure for “Think, Pair, Write”
- Hear parts of an expository nonfiction book again
- Use text features to better understand information in the book
- Compare first- and secondhand accounts of an event
- Read independently for 15–20 minutes
- Explain their thinking

### ABOUT IDR CONFERENCES

This week you begin conferring with the students during IDR. The first IDR conference in this unit focuses on helping you get to know the students as readers. Beginning in Week 2, your conferences will focus more on assessing the students’ comprehension, supporting struggling readers, and encouraging self-monitoring strategies. To learn more, see “IDR Conferences” in the Assessment Overview of the *Assessment Resource Book*.

### Materials

- *Shattering Earthquakes*
- *Student Response Book* pages 3–5
- “Text Features” chart, prepared ahead, and a marker
- “Thinking About My Reading” chart
- Class set of “IDR Conference Notes” record sheets (CN1)

### Teacher Note

For more information, view “Setting Up IDR Conferences” (AV29).

## Teacher Note

If your students are already familiar with the procedure, you do not need to model it. Instead, remind the students of your expectations. To see an example, view “Using ‘Think, Pair, Write’” (AV10).

## ELL Note

Consider providing extra support to your English Language Learners during “Think, Pair, Write” throughout this unit. Students with limited English proficiency might benefit from drawing pictures rather than writing.

## Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step and in Day 3, Step 2, for this unit’s Individual Comprehension Assessment. For more information, see “Individual Comprehension Assessment” in the Assessment Overview of the *Assessment Resource Book*.

### TEKS 9.F.i

Student/Teacher Activity  
Step 2 (all, beginning on page 50 and continuing on to page 51)

## 1 Introduce “Think, Pair, Write”

Have the students get their *Student Response Books* and pencils and sit at desks with partners together. Explain that today you will teach the students a cooperative structure called “Think, Pair, Write.” As with “Think, Pair, Share,” you will ask a question and have the students think quietly for a moment. When you signal, they will turn to their partners to share their ideas, and then each student will write her ideas in her own *Student Response Book*. Ask:

**Q** *What have you learned about working with a partner during “Think, Pair, Share” that can help you during “Think, Pair, Write”?*

### Students might say:

“I’ve learned that I need to do my part of the thinking and sharing.”

“I need to listen carefully to my partner so I can understand what he’s thinking.”

“If I don’t understand what my partner says, I should ask her nicely to explain what she means.”

Tell the students that the purpose of using “Think, Pair, Write” is to practice explaining their thinking before writing and that at the end of the lesson you will ask them to report how their conversations went.

## 2 Explore Text Features

Review that in the previous lesson, the students listened to and discussed part of the book *Shattering Earthquakes*. Remind them that the book is an example of an expository nonfiction text and that expository nonfiction texts give factual, or true, information about a topic. Show the table of contents on page 3 and explain that expository nonfiction texts often include *features*, or special parts or sections, such as a table of contents, that help the reader locate information in the text or understand the topic better. Explain that today the students will explore some of these text features.

Show pages 10–11 of the book and read the chapter title aloud. Then ask the students to listen as you reread these pages. Read aloud the main text first, and then read the information in the text features. When you finish, draw the students’ attention to the map on page 10 and read aloud the caption and the map key. Ask:

**Q** *How might this map help a reader better understand what this page is about?*

Have the students turn to *Student Response Book* pages 4–5, “Excerpt from *Shattering Earthquakes*.” Use “Think, Pair, Share” to discuss:

 **Q** *Besides maps, what other features do you notice on these two pages that might help a reader better understand the topic? [pause] Turn to your partner.*

If the students have difficulty recognizing features, signal for their attention and point out a text feature (for example, the map key, the photograph, the captions, the words in bold type, or the text box with the quotation), and then ask:

Q *What information does this feature give you?*

Q *How does that help you understand the body (or main part) of the text?*

Have the students individually record the features on *Student Response Book* page 3, “Think, Pair, Write About Text Features.”

**TEKS 9.F.i**  
Student/Teacher Narrative  
Step 3 (all)

### 3 Share Features as a Class

When the students finish their lists, ask volunteers to share the features they identified. List the features on the “Text Features” chart. Be sure to include the following features: *chapter titles, headings, map and map key, photograph, captions, bold words (keywords), and text box.*

Page through *Shattering Earthquakes*, showing the students other pages and features. In particular, point out these features and add them to the chart: *table of contents* (page 3), *glossary* (page 30), and *index* (page 32).

Explain that although some expository texts do not contain text features, many do. Ask the students to look for these kinds of features as they read independently in the coming days.

### 4 Compare First- and Secondhand Accounts

Direct the students’ attention to the second page of “Excerpt from *Shattering Earthquakes*” on *Student Response Book* page 5. Review that the case study on this page tells about an earthquake that happened in the town of Dudley in the United Kingdom in 2002. (You might explain that in this book, “case studies” give information about particular earthquakes.) Point out that the authors based their description of what happened during the earthquake on their research; they did not actually experience the earthquake. Tell the students that if someone who did not experience an event talks or writes about it, it is called a *secondhand account*. Read the main text aloud. Ask:

Q *What information did you learn from the secondhand account?*

**Students might say:**

“I learned when and where the earthquake happened.”

“I learned how many people felt the earthquake.”

“I learned how long the earthquake lasted.”

Point out that the secondhand account gives the reader background knowledge about the earthquake, such as when and where it happened. Direct the students’ attention to the text box above the photograph. Read the text in the text box aloud. Point out that the person who said this was in Dudley during the earthquake; he experienced it. Tell the

#### Teacher Note

You might explain that words in bold type are *keywords*, or important words for understanding the topic. Keywords are often defined in the glossary.

#### Teacher Note

You might show the students page 10 and point out that all of the circles on the map are red.

#### Teacher Note

Save the “Text Features” chart to use throughout this unit and in Unit 7.

#### Teacher Note

You might provide a few examples of texts that are commonly secondhand accounts of events, such as biographies, news reports, and books and articles about historic events.

### Technology Tip

To provide the students with more practice comparing first- and secondhand accounts, you might search online for newscasts or articles that were written about the 2002 Dudley earthquake. Have the students watch portions of the newscasts, determine which parts are first- or secondhand accounts of the event, and discuss why they think so. Repeat the procedure to discuss any articles you find. Search for information online using the keywords “Dudley earthquake 2002.”

students that if someone who experiences an event talks or writes about it, it is called a *firsthand account*. Ask:

**Q** *How is the information in the firsthand account the same as the information in the secondhand account? How is it different? What in the text makes you think that?*

**Students might say:**

“The firsthand account explains what the person saw and felt when it happened. He said his ‘house started shaking quite violently’ and the ‘streets were in darkness.’”

“They both tell what the earthquake felt like. The secondhand account says that people’s furniture was shaking, and the firsthand account says that the house shook.”

“The firsthand account says that some people went outside after it happened. The secondhand account doesn’t talk about what people did after the earthquake.”

## 5 Reflect on “Think, Pair, Write”

Help the students reflect on their work together during “Think, Pair, Write.” Ask:

**Q** *What did you and your partner do to explain your thinking during “Think, Pair, Write”?*

**Students might say:**

“We both named a text feature we saw and then explained what we learned from it.”

“I didn’t understand what my partner said, so I asked him to repeat what he said.”

“We took turns naming features, and then we talked about what we learned from them.”

## INDIVIDUALIZED DAILY READING

### 6 Read Independently and Begin Conferring About the Students’ Reading Lives

Tell the students that during IDR this year, you will be *conferring*, or talking, with individual students about the books they are reading, what they like to read, and how they feel about reading. Explain that while you are conferring with individual students, the rest of the class will silently read their texts. State your expectations for how the students will act responsibly while you confer with individual students.

**You might say:**

"When I am talking with a student about his reading, it is important for you to read silently for the entire time. If you finish reading a book before IDR is over, you can either reread the book or begin reading a new book."

Tell the students that when they have finished reading their texts, they may return them to the classroom library and select new ones.

Explain that as they read their books today, you would like the students to think about interesting things they read to share with partners at the end of IDR. Have the students get their texts and find quiet places to read. Have them read silently for 15–20 minutes.

After the students have settled into their reading, confer with individual students. Pause between conferences to scan the class. Make note of any behaviors you wish to discuss at the end of IDR.

## IDR CONFERENCE NOTE

Beginning today, and continuing for the next several days, confer individually for a few minutes with each student to learn more about her reading habits, how she feels about herself as a reader, and what she is interested in reading.

Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 14 of the *Assessment Resource Book*. You will continue to use the "IDR Conference Notes" record sheets during conferences throughout the program.

Signal to let the students know when it is time to stop reading. Have the students share the titles of their books, the authors' names, and interesting things they read with partners. Explain that you would like each student to be prepared to share with the class something his partner said. After partners have had a chance to share, discuss as a class:

**Q** *What did your partner share with you today about his or her reading?*

Remind the students that the purpose of sharing their partners' thinking is to help them develop their listening skills. Have the students return to their desks and put away their texts.

## Teacher Note

Rather than having the students determine when they are ready to return their books, you might establish a schedule for your students to follow when returning and checking out books from the classroom library. For example, you might allow four or five students to go to the classroom library each day. You might also have the students use the classroom library at different times of day (for example, during morning routine or right after lunch).

We recommend that the students keep enough books in their desks to last them for a week's worth of independent reading. This will help ensure that the students spend IDR time engaged in reading rather than browsing for books in the classroom library.

## Teacher Note

You might use the "IDR Conference Notes" record sheet (CN1) as a survey of the students' reading goals and interests. For more information, see "IDR Conferences" in the *Assessment Overview of the Assessment Resource Book*.

## Materials

- *Shattering Earthquakes*

# WRITING ABOUT READING

## Write About Preparing for Earthquakes

Show the cover of *Shattering Earthquakes* and remind the students that they heard part of this book earlier. Show the table of contents and explain that one of the book's chapters ("Can People Prepare for Earthquakes?") is about how people can prepare for an earthquake. Explain that you will read this chapter aloud, and ask the students to think as they listen about how people can prepare for earthquakes. Read the main text on pages 24–25 aloud. Then point to each photograph and read its caption aloud. Ask:

**Q** *What did you learn about how people can prepare for earthquakes?*

Have a few volunteers share their thinking with the class. Record the students' ideas where everyone can see them. Read the main text and the text box on pages 26–27 aloud slowly and clearly. Then point to each photograph and read its caption aloud. Ask:

**Q** *What else did you learn about how people can prepare for earthquakes?*

Have a few volunteers share with the class. Record the students' ideas where everyone can see them. Point out that this chapter explains how we can build communities that are safer during earthquakes and also tells what individuals can do to prepare for an earthquake. Ask the students to watch as you model writing about the information you learned about preparing for earthquakes.

### You might say:

"I learned that we can prepare for earthquakes by making sure that buildings are designed to move slightly during an earthquake. I also remember reading that buildings should be built on very hard ground. I'll write: *There are many things that people can do to prepare for earthquakes. We can make sure that buildings are built on hard ground so they won't sink or move during an earthquake. We can also make sure that buildings move slightly during earthquakes without breaking up.* Now I will tell what I learned about how individuals can prepare for earthquakes. I'll write: *People can prepare for earthquakes by making sure their houses are safe. For example, they can make sure that heavy objects are low to the ground and that there are no heavy pictures or mirrors hanging over their beds. People can also prepare by knowing what to do in an earthquake. Knowing what to do will help them stay calm.*"

Have the students write about what they learned about preparing for earthquakes. If time permits, invite the students to share their writing with the class.

## Teacher Note

Alternatively, you might have the students create an earthquake safety poster or brochure that explains what to do during an earthquake. Encourage the students to include text features, such as illustrations and labels, to help readers understand the information.

## In this lesson, the students:

- Practice the procedure for “Think, Pair, Write”
- Examine an expository nonfiction article
- Use text features to better understand information in the article
- Read independently for 15–20 minutes
- Explain their thinking
- Solve problems working together

## 1 Review Text Features

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind them that they explored text features in *Shattering Earthquakes*. Ask them to turn to *Student Response Book* pages 3–5, “Think, Pair, Write About Text Features” and “Excerpt from *Shattering Earthquakes*,” and review their work from yesterday. Ask:

- Q *What features did we notice on these pages?*
- Q *How did these features help us understand the information on these pages?*

Refer the students to the “Text Features” chart from Day 2 and review the list of features. Tell the students that today they will look at another expository text to see what features they notice.

## 2 Read an Article and Examine Text Features

Ask the students to turn to *Student Response Book* pages 6–7, “The Wonderful World of Whales.” Read the title of the article aloud. Ask:

- Q *After hearing the title, what do you think this article might be about?*

Have one or two volunteers share their thinking. Read aloud the headings, “Toothed Whales and Baleen Whales” and “Goodnight, Whales,” and then ask:

- Q *After reading the headings, what do you think you will learn about whales from this article?*

Have one or two volunteers share their thinking. Tell the students that first they will read the article silently and then they will use “Think, Pair, Write” to discuss and list the features they find that can help a reader better understand the article. Have the students read the article silently.

## Materials

- *Student Response Book* pages 3–7
- “Class Assessment Record” sheet (CA1)
- “Text Features” chart from Day 2 and a marker
- “Reading Comprehension Strategies” chart, prepared ahead, and a marker

**ELPS 4.D.i**  
Step 2 (all, beginning on page 55 and continuing on to page 56)

## Teacher Note

Alternatively, you might read the article aloud.

After the students have had time to read the article, call for their attention. Ask the students to look at the article and think about the text features they notice. After the students have had time to think, have partners share the features they noticed and discuss how the features are used. Then have them add the features to the lists they started yesterday (on *Student Response Book* page 3). Tell the students that they will share their lists with the class later. Circulate among the students as they work, and randomly select students to observe.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students notice text features?
- Do they understand what information the text features provide?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 8 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are noticing text features and seem to understand what information they provide, proceed with the lesson and continue on to Day 4.
- If **about half of the students** or **only a few students** are noticing text features and seem to understand what information they provide, you might want to give the class additional instruction by repeating Days 1, 2, and 3 of this week using an alternative book before continuing on to Day 4. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

### Teacher Note

Alternative texts can be used to reteach a *Making Meaning* lesson or as a substitute for a provided read-aloud text. A list of these texts is available in the General Resources section of the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). For more information, see “Preparing the Daily Lessons” in the Introduction.

### Teacher Note

Additional features include *diagrams, illustrations, and labels*.

## 3 Discuss Text Features

When the students finish, discuss their findings as a class. Ask:

- Q** *What features did you find that are already listed on the chart? How are they used?*
- Q** *What features did you find that are not listed on the chart? How are they used?*

As the students mention new features, add them to the “Text Features” chart.

#### Students might say:

“I found a diagram that showed what baleen plates look like.”

“I found photographs and captions. The photographs show me what the whales look like, and the captions tell me more about the photographs.”

“I found pictures with labels. These pictures help me understand how big a whale is compared with other living things.”

#### 4 Begin the “Reading Comprehension Strategies” Chart

Direct the students’ attention to the “Reading Comprehension Strategies” chart. Read the title aloud and explain that you are going to use the chart to keep a list of strategies that good readers use to help them make sense of what they read. Tell the students that they are learning to use text features to help them make sense of expository text. Write *using text features* on the chart and encourage the students to look for and use the features in their independent reading.

#### 5 Reflect on Working Together

Facilitate a brief discussion about the ways the students worked together. Ask questions such as:

- Q *What did you like about how you and your partner worked together today?*
- Q *What problems did you have? How did those problems affect your work? How did you try to solve those problems?*

## INDIVIDUALIZED DAILY READING

#### 6 Read Independently and Confer

Review that yesterday you began conferring, or talking, with individual students during IDR. Tell the students that you will confer with individual students again today, so it is important that they read silently.

Have the students get their texts and read silently for 15–20 minutes. Ask the students to think as they read about what text features they notice in their texts and what the text features help them learn. After the students have settled into their reading, confer with individual students.

**ELPS 4.C.ii**  
Step 4 (all)

#### Teacher Note

Post the “Reading Comprehension Strategies” chart where the students can refer to it during the year. You will add strategies to the chart as they are introduced in the program. Refer to the chart often to remind the students to use the strategies in their reading throughout the day.

#### Teacher Note

The purpose of these questions is to emphasize a problem-solving approach to difficulties the students have working together and to allow the students to hear one another’s problems and solutions. Emphasize that it is normal for people to have problems working together at times and that the students will learn ways to solve their problems.

#### Teacher Note

Continue to periodically remind the students to ask themselves the questions on the “Thinking About My Reading” chart as they read independently and to select different texts if they decide the ones they are reading are not at the right levels.

## IDR CONFERENCE NOTE

Continue to confer individually with students about their reading habits, how they feel about themselves as readers, and what they are interested in reading.

Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 14 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask:

**Q** *What text features did you encounter in your reading today?*

Add any new text features the students mention to the “Text Features” chart and have the students show them to the class. Briefly discuss each new feature and what information it helped them learn. Ask:

**Q** *Did anyone read an expository text that had few or no features? If so, how can you tell it is an expository text?*

Have the students return to their desks and put away their texts.

---

## EXTENSION

### Write Expository Text

Have the students write a paragraph of expository text that explains how to complete a task they know well (for example, how to ride a bike, make a sandwich, prepare for a sleepover, or play a game). Ask the students to title their paragraphs and to include at least one other feature. Remind them to refer to the “Text Features” chart for ideas. This activity will probably require some teacher modeling before the students write their paragraphs.

## In this lesson, the students:

- Read independently
- Use text features to better understand information in a text
- Learn how to use a reading journal
- Analyze the effects of their behavior on the group work
- Explain their thinking

## 1 Review the Week

Have the students get their *Student Response Books*, pencils, and texts for independent reading and sit at desks with partners together. Remind the students that this week they began to explore expository texts. Refer to the “Text Features” chart and review that the students created a list of features. Ask:

**Q** *What have we learned this week about expository texts?*

Explain that the students also learned “Think, Pair, Write” and focused on explaining their thinking to their partners. Ask:

**Q** *How has clearly explaining your thinking helped your work this week? Turn to your partner.*

Have one or two volunteers share their thinking with the class. Then ask:

**Q** *What did you do if you didn't understand your partner? How did that help? Turn to your partner.*

Have one or two volunteers share their thinking. Ask the students to continue to focus on explaining their thinking today.

## 2 Read Independently

Explain that today the students will read expository texts independently. Encourage them to think as they read about what they are learning about the topics and what text features, if any, they notice.

Have the students read silently for 10–15 minutes. As they read, circulate among them and ask individual students to tell you what their texts are about and what features, if any, they have noticed. You might probe their thinking by asking questions such as:

**Q** *What are you learning about the topic of this book?*

**Q** *What is one feature on this page that adds to your understanding? What information does this feature give you?*

## Materials

- “Text Features” chart from Day 3 and a marker
- Expository text for teacher modeling, selected ahead
- *Student Response Book*, Reading Journal section
- “Reading Journal” chart (WA1)
- “Journal Entry” chart (WA2)

## Teacher Note

This question gives you an opportunity to informally assess the students' learning this week. To gauge their understanding, you may need to ask follow-up questions such as:

**Q** *What is the purpose of expository text?*

**Q** *What kinds of expository text have we looked at?*

**Q** *What features of expository text have we identified?*

**Q** *How does noticing features of expository text help us make sense of it?*

### 3 Model Writing About an Expository Text

Signal to let the students know when it is time to stop reading. Ask the students to think to themselves about what they are learning about the topics and what text features they noticed in their reading.

Have the students open their *Student Response Books* to the Reading Journal section. Explain that this is a place where they can write about what they are reading. Explain that today they will use their reading journals to record their thoughts about the reading and any text features they noticed as they read.

Display the “Reading Journal” chart (🗺️ WA1) and model writing about an expository text. Using a text the students are familiar with, model thinking aloud about what the book is about, what you are learning, what text features you notice, and how the text features help you understand the text. Then model writing a brief journal entry about the text.

#### You might say:

“I read the book *Shattering Earthquakes* by Louise and Richard Spilsbury. The book is about earthquakes. It explains what causes them, the damage they can cause, and the ways people help after an earthquake. In the part I was just reading, I learned about an earthquake that happened in San Francisco, California, in 1989. A text feature I noticed is the map that shows where in California the earthquake happened. It also shows where California is in the United States. First I’ll write my name and the date at the top of the page. Now I’ll write a few sentences telling what my book is about. I’ll write: *The book I am reading is called Shattering Earthquakes by Louise and Richard Spilsbury. It’s about earthquakes. It explains what causes them, the damage they can cause, and the ways people help after an earthquake.* Now I’m going to write about the part I just read and a text feature I noticed. I’ll write: *I learned that there was a 7.1 earthquake in San Francisco in 1989 that caused about \$10 billion in damage. A text feature in this part of the book is the map. The map helps me understand where in California the earthquake happened. It also helps me understand where California is in the United States.*”

#### Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit’s Individual Comprehension Assessment. For more information, see “Individual Comprehension Assessment” in the Assessment Overview of the *Assessment Resource Book*.

### 4 Write About Expository Texts

Display the “Journal Entry” chart (🗺️ WA2) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

### Journal Entry

Write a journal entry about the text you are reading. Please include:

- The title and the author's name
- What the text is about
- What you learned in the part of the text you read today
- One text feature you found
- What the text feature helped you learn

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals.

## 5 Discuss the Students' Journal Entries

Have a few volunteers share their journal entries with the class and show the text features they found in their reading. As the students mention new features, add the features to the “Text Features” chart and briefly discuss what information the features provide.

## 6 Reflect on the Partner Work

Facilitate a class discussion about how partners worked together. Ask questions such as:

- Q *How did you do explaining your thinking to your partner?*
- Q *What are you enjoying about working with your partner? What would you like to do [the same way/differently] the next time you work together?*

Explain that in the coming weeks, the students will read and think more about expository text.

## EXTENSION

### List Nonfiction Texts from Daily Life

Have the students make an ongoing list of nonfiction texts they read both in school and outside of school. During the next several weeks, give the students regular opportunities to update their lists and share them with one another. Sharing the lists will help the students recognize how many kinds of nonfiction texts they encounter and discover some of the reasons they read them. It will also make them aware of what their classmates are reading.

### ELL Note

Consider having students with limited English proficiency draw pictures of the parts of the book they read rather than writing sentences.

### Teacher Note

Consider providing additional opportunities for the students to write in their reading journals. You might provide specific prompts for them to respond to or have them write about their reading in any way they choose.

### Vocabulary Note

Next week, you will revisit *Shattering Earthquakes* to teach the Week 3 vocabulary lessons.

### Technology Tip

Prior to doing this activity, find a few web pages that feature animations of earthquake terms accompanied by explanations of the terms. Search for resources online using the keywords “earthquake term animation” or “earthquake glossary animation.” Identify a few age-appropriate terms and animations to share with your students (for example, *normal fault*, *thrust fault*, *strike-slip fault*, or *liquefaction*). You might bookmark the page(s) you will share with your students in your browser.

## TECHNOLOGY EXTENSION

### Explore Earthquake Animations

Page through *Shattering Earthquakes* and remind the students that some expository texts contain features such as maps, diagrams, photographs, and glossaries to help the reader better understand the topic. Explain that many web pages also contain features that help readers understand the topics.

Display one of the web pages you located that contains explanations and animations of earthquake terms. Point out that the web page explains many earthquake terms (words used to describe or explain earthquakes) and also provides animations (moving pictures) that help the reader understand the terms better. Read the first term you identified aloud. Ask:

**Q** *What did you learn about [liquefaction] from the text?*

Show the animation and then ask:

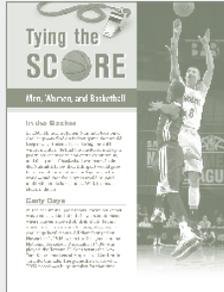

**Q** *How does the animation help you better understand what [liquefaction] is?*

Repeat this procedure to discuss the remaining terms you identified.

# Week 2

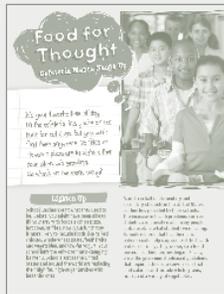

## OVERVIEW

### “Tying the Score: Men, Women, and Basketball”

(see pages 80–81)

This article compares and contrasts the NBA and the WNBA.

### “Food for Thought: Cafeteria Menus Shape Up”

(see pages 82–83)

This article discusses the trend toward healthier meal options in school cafeterias and looks at the benefits of making better food choices.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activity

- WA3

#### Assessment Forms

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheets (CN1–CN2)

#### Professional Development Media

- “Social Reflection” (AV14)

### Comprehension Focus

- Students use text features to better understand expository nonfiction articles.
- Students use text features to locate key information.
- Students read independently.

### Social Development Focus

- Students work in a responsible way.
- Students develop the skill of explaining their thinking.
- Students share their partners' thinking with the class.

## 🕒 DO AHEAD

- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA2); see page 9 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a class set of “IDR Conference Notes” record sheets (CN2); see page 15 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 3 lessons this week.

### Materials

- “Tying the Score” (see pages 80–81)
- “Reading Comprehension Strategies” chart
- “Text Features” chart from Week 1 and a marker
- *Student Response Book*, Reading Log section

### Facilitation Tip

Notice the **open-ended questions** that you are asking during this discussion. To study the effect of open-ended questions on students’ thinking, experiment by asking a closed question first (such as “Do you read magazines?” or “Does anyone you know read articles?”) and noting the response. Then restate the question as an open-ended question and note the response. Remember to use 10 seconds of **wait-time** after the question before you invite the students to respond.

### In this lesson, the students:

- Hear and discuss an expository nonfiction article
- Read independently for 15–20 minutes
- Explain their thinking
- Share their partners’ thinking

## 1 Get Ready to Work Together

Gather the students with partners sitting together, facing you. Explain that during today’s lesson the students will talk about a nonfiction article that you will read aloud. Encourage them to focus on explaining their thinking clearly to their partners. Tell them that you will ask them to report on their partner conversations at the end of the lesson.

## 2 Review Text Features and Introduce “Tying the Score”

Remind the students that last week they explored a kind of nonfiction called *expository nonfiction*. They heard *Shattering Earthquakes* and used text features to help them understand the text. Refer to the “Reading Comprehension Strategies” chart and review that good readers use text features to help them make sense of expository text.

Explain that this week the students will use text features to help them understand news articles. News articles are short pieces of expository writing that appear in newspapers and magazines and on websites. Ask and briefly discuss:

- Q *What newspapers, magazines, or websites have you seen or read?*
- Q *Why do people read newspapers, magazines, and websites?*

Tell the students that the article you will read aloud today is titled “Tying the Score: Men, Women, and Basketball.” Explain that you will ask a question that the students will discuss with their partners. Tell them to listen carefully to their partners because they will share their partners’ thinking with the class. Ask:

- Q *After hearing the title, what do you think this article might be about? Turn to your partner.*

Have one or two volunteers share their partners’ thinking. Remind the students that the purpose of sharing their partners’ thinking is to help them develop their listening skills and be responsible learners in their partnerships.

Tell the students that today you will read the article aloud without showing the text features. Tomorrow they will have a chance to see and discuss the features.

### 3 Read Aloud

Read “Tying the Score” aloud slowly and clearly, stopping as described below and clarifying vocabulary as you read.

#### Suggested Vocabulary

**caretaker:** person who takes care of a building (p. 80)

**sideshow entertainment:** show like a circus (p. 80)

**is not yet as financially successful:** does not make as much money (p. 81)

**time slots:** time to show commercials (p. 81)

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**rowdy:** loud and not following the rules (p. 80)

**gymnasium:** room or building used for sports (p. 80)

**the game of basketball was born:** people played basketball for the first time (p. 80)

**superstar player:** very famous player (p. 81)

**sank baskets:** (slang) threw basketballs into the hoop (p. 81)

**fast-forward:** move ahead in time (p. 81)

**hot on the heels of:** (idiom) right after (p. 81)

**signed a 10-year extension on:** added 10 more years to (p. 81)

**higher prices:** more money (p. 81)

Stop after:

**p. 80** “The game drew a crowd of 7,090 people—a huge number for that time.”

Ask:

 **Q** *What have you found out so far? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue reading to the end of the article.

### 4 Discuss the Article

Ask and discuss as a class:

**Q** *What is this article about?*

Use “Think, Pair, Share” to discuss the following questions. Remind the students to explain their thinking.

 **Q** *Why might players in the WNBA make less money than those in the NBA? What in the article makes you think that? [pause] Turn to your partner.*

#### ELL Note

English Language Learners may benefit from additional stops to discuss the reading, for example, at the end of each paragraph or section.

#### ELL Note

You may want to reread parts of the article to help your students recall this information.

### Teacher Note

The reflection that appears at the end of many lessons is important to the students' growth as readers and to their social development. We encourage you to spend a few minutes at the end of the lesson helping the students reflect on their work and interactions. For more information, see "Focus on Social/Ethical Development" in the Introduction. To learn more, view "Social Reflection" (AV14).

Have a few volunteers share their thinking. Then ask:

-  **Q** *Do you think that the WNBA will become as popular as the NBA? Why do you think that? [pause] Turn to your partner.*

Have a few volunteers share their thinking. Review that tomorrow the students will explore the text features in the article.

## 5 Reflect on How the Students Explained Their Thinking

Ask and briefly discuss questions such as:

- Q** *What did you say to your partner to help explain your thinking today?*
- Q** *What can you say to your partner next time if you don't understand what he or she said?*

## INDIVIDUALIZED DAILY READING

### 6 Read Independently and Confer

Tell the students that you will continue talking with individual students during IDR today, so it is important that they read silently. Remind the students that they are reading nonfiction texts during IDR. Have them get their texts and read silently for 15–20 minutes. Ask the students to notice text features as they read and think about what the text features help them learn. After the students have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with students about their reading habits, how they feel about themselves as readers, and what they are interested in reading.

Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 14 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask:

- Q** *What text feature(s) did you notice in your reading today?*

Add any new text features the students mention to the "Text Features" chart and have the students show them to the class. Briefly discuss each new feature and note what information it helped the students learn. Have the students return to their desks and put away their texts.

Give the students time to record any texts they finished reading in their reading logs.

## In this lesson, the students:

- Hear an expository nonfiction article again
- Use text features to better understand and locate key information in the article
- Analyze a text feature
- Read independently for 15–20 minutes
- Explain their thinking

## 1 Review “Tying the Score”

Have the students bring their *Student Response Books* and gather with partners sitting together, facing you. Review that yesterday the students heard and discussed the article “Tying the Score: Men, Women, and Basketball.” Ask:

**Q** *What do you remember about the article?*

Have a few volunteers share what they remember.

## 2 Reread the Article and Discuss Text Features

Ask the students to turn to *Student Response Book* pages 8–9. Explain that this is a copy of the article. Tell the students that you will read the article aloud and ask them to follow along as you read. Afterward they will discuss the text features in pairs and then as a class.

Read the article aloud slowly and clearly. When you finish, draw the students’ attention to the photo on *Student Response Book* page 9 and read the caption aloud.

Remind the students that many news articles include photographs with captions and other features to help readers better understand the topics. Have the students think quietly about the following questions as they scan the article for additional features.

**Q** *What text features do you notice?*

**Q** *How might these text features help readers understand the topic of the article?*

After the students have had time to think, have partners share the text features they noticed. Then discuss as a class how the features might help readers understand the article. Add any new features they mention to the “Text Features” chart. Circulate among the students as they work, and randomly select students to observe.

## Materials

- “Tying the Score” (see pages 80–81)
- *Student Response Book* pages 8–9
- “Text Features” chart from Day 1 and a marker
- “Class Assessment Record” sheet (CA2)

## ELL Note

You might provide the prompt “I remember . . .” to your English Language Learners to help them verbalize their answers to this question.

## Teacher Note

As an alternative to reading the article aloud, and if appropriate, ask the students to read the article independently. Monitor the students and provide help to struggling readers.

## Teacher Note

Additional features include *chart* and *subtitle*.

**ELPS 2.I.iii**  
Step 3  
(all, beginning on  
page 70 and  
continuing on to  
page 71)

### Teacher Note

If the students have difficulty making statements, offer some examples like those in the “Students might say” note. Then ask the students what additional statements they can make about the chart.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students notice text features?
- Do they understand what information the text features provide?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 9 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are noticing text features and seem to understand what information they provide, proceed with the lesson and continue on to Day 3.
- If **about half of the students** or **only a few students** are noticing text features and seem to understand what information they provide, you might give the class additional instruction by repeating Days 1 and 2 of this week using an alternative article before continuing on to Day 3. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

### 3 Examine and Discuss the “League Stats” Chart

Draw the students’ attention to the chart titled “League Stats” on *Student Response Book* page 9. Explain that charts can help readers understand *data*, or pieces of information, in a quick and easy way. Point out that this chart helps readers compare information about the NBA and the WNBA. Help the students read the chart by asking and briefly discussing questions such as:

- Q *What is the average number of people who go to WNBA games? NBA games?*
- Q *Which league has more teams?*
- Q *How much larger are NBA basketballs than WNBA basketballs?*

Use “Think, Pair, Share” to discuss:

- Q *By looking at the information in this chart, what statements can you make about the WNBA and the NBA? [pause] Turn to your partner.*

Ask a few volunteers to share their thinking.

#### Students might say:

“The average salary in the NBA is \$5 million.”

“The NBA games are longer. The NBA plays four 12-minute quarters, and the WNBA plays four 10-minute quarters.”

“The NBA is more popular. About 9,500 more people go to each NBA game than go to each WNBA game.”

As volunteers share, ask follow-up questions such as:

- Q *[Rosa] said that about 9,500 more people go to NBA games than to WNBA games. Do you agree or disagree? Why?*
- Q *Do you agree with [Jamal] that the NBA games are longer than the WNBA games? Why or why not?*
- Q *What questions do you have for [Eileen] about her thinking?*

Point out that text features, such as this chart, help readers make sense of the information in articles and books. Remind the students to take time to notice text features when they read independently. Explain that over the next two days, the students will explore the text features in another news article.

#### 4 Reflect on How the Students Explained Their Thinking

Facilitate a brief discussion about how partners worked together. Ask:

- Q *What did you say to your partner if you did not understand his or her thinking? Did that help?*

## INDIVIDUALIZED DAILY READING

#### 5 Read Independently and Share Reading with Partners

Have the students get their texts and read silently for 15–20 minutes. Tell the students that at the end of IDR today, you will ask them to talk with partners about interesting things they learned from their texts. After the students have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with students about their reading habits, how they feel about themselves as readers, and what they are interested in reading.

Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 14 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share the titles of their books, the authors’ names, and interesting things they learned from their reading with partners. Have the students return to their desks and put away their texts.

#### ELL Note

For students with limited English proficiency, consider providing books and magazines in their primary languages.

#### Teacher Note

On Day 3 of this week, you will begin conferring with the students about the nonfiction texts they are reading during IDR. If you have not met with all of your students to discuss their reading lives, you may want to do so before changing the focus of your conferencing.

#### Teacher Note

You might review the students’ responses to the questions on the “IDR Conference Notes” record sheet (CN1) to identify patterns across the members of the class as well as individual responses that stand out to you. After analyzing the students’ responses, you might facilitate a class discussion about what you learned about them as readers and how you plan to build their love of reading over the course of the year. For ideas on how to facilitate this discussion, see the extension “Discuss the Students’ Reading Goals and Interests” on the next page.

---

## EXTENSION

### Discuss the Students' Reading Goals and Interests

Remind the students that during IDR conferences over the past few days, you asked them questions about their ideas and feelings about reading. Tell the students that you learned a lot about the kinds of books the class is interested in reading as well as how each student wants to grow as a reader.

**You might say:**

"Many of you said that you were interested in reading nonfiction books about topics like animals, sports, and different countries and cultures. We'll read some nonfiction books about natural disasters, baseball, famous people in history, and people who immigrated to the United States from other countries. Some of you said that you'd like to read fiction stories, including plays. We'll also read a lot of fiction this year. I also learned that some students are eager to read poetry this year."

Explain that you will use this information to make sure everyone has fun reading this year. Ask and briefly discuss:

- Q *What are you excited to read about this year?*
- Q *How do you want to grow as a reader this year?*

**Students might say:**

"I want to be able to read books with longer words."  
"I want to read more nonfiction books."  
"I want to read more books by Avi."

**In this lesson, the students:**

- Skim an expository nonfiction article by reading the title, subtitle, and headings
- Hear and discuss the article
- Use text features to better understand and locate key information in the article
- Read independently for 15–20 minutes
- Work in a responsible way

**1** Introduce Skimming a Text Before Reading

Gather the students with partners sitting together, facing you. Remind the students that they heard and read the news article “Tying the Score: Men, Women, and Basketball” and thought about what readers can learn by looking closely at text features. Today they will look at another article and practice *skimming* the article, or quickly looking through it for information, before they read.

Tell the students that readers often skim a newspaper article or a chapter in a book by reading and thinking about the title, subtitle, and headings before they read. Ask:

**Q** *Why might you want to skim an article or a chapter in a book before you read it?*

Have a few volunteers share their thinking.

**Students might say:**

“You’d skim it to find out what it’s about.”

“Maybe if you skim it, you’ll decide you don’t want to read it.”

“Looking at it beforehand might make it easier to read because you know what comes next.”

Display the “Excerpt from ‘Food for Thought’” chart (WA3) and explain that today the students will skim the headings before they hear the article read aloud. Explain that some of the text and text features have been left out of this version of the article so the students can focus on the title, subtitle, and headings. Point out and read aloud the title, subtitle, and headings. If necessary, take time to explain the purpose of the title, subtitle, and headings in an article.

**Materials**

- “Food for Thought” (see pages 82–83)
- “Excerpt from ‘Food for Thought’” chart (WA3)
- Class set of “IDR Conference Notes” record sheets (CN2)
- *Assessment Resource Book* page 15

**Teacher Note**

If the students have difficulty answering the question, offer some examples like those in the “Students might say” note.

**ELL Note**

To support your English Language Learners, consider demonstrating skimming an article while explaining your thinking. For example, you might skim “Food for Thought” and say, “From the title, I think the article is about food. The subtitle tells me it’s about cafeteria menus. I wonder if the article is about school lunch menus. The heading ‘Lighten Up’ suggests the article has information about helping kids lose weight. Maybe the section titled ‘Food for Focus’ will give examples of foods that help kids concentrate at school.”

**You might say:**

"The title is important because it tells the reader the topic of the text. A subtitle provides a little more information about the topic. Headings break an article or chapter into smaller sections. They let the reader know what that section of text is about."

Ask:

**Q** *After reading the title, subtitle, and headings, what do you think this article is about?*

Have a few volunteers share their thinking.

**Students might say:**

"I think it's about food. The word *food* is in the title and in one of the headings."

"One of the headings says 'Lighten Up.' That may mean the article is about eating healthy food."

 **ELL Note**

English Language Learners may benefit from additional stops to discuss the reading, for example, at the end of each paragraph or section.

**2** **Read Aloud**

Read the full text of "Food for Thought" aloud, stopping as described below. Clarify vocabulary as you read.

**Suggested Vocabulary**

**secondary students:** middle school and high school students (p. 82)

**diabetes:** disease in which there is too much sugar in the blood (p. 82)

**obesity:** unhealthy condition caused by being very overweight (p. 82)

**trend:** way in which something is changing (p. 82)

**affects your concentration:** makes a difference in how well you think (p. 83)

**consistent:** even; about the same (p. 83)

**jittery:** nervous or jumpy (p. 83)

 **ELL Vocabulary**

English Language Learners may benefit from hearing additional vocabulary defined, including:

**on the hunt:** (idiom) looking; searching (p. 82)

**your stomach's growling:** (idiom) you are hungry (p. 82)

**a good supply:** enough; a certain amount (p. 83)

**the benefits are certain:** you can be sure it's good (p. 83)

Stop after:

**p. 82** "Finally, in 2012, the government released guidelines that require schools to serve meals that limit calories and include whole grains, fruits, and a variety of vegetables."

Ask:

**Q** *What have you found out so far? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue reading to the end of the article.

### 3 Discuss the Article

Use “Think, Pair, Share” to discuss:

**Q** *What did you find out from the article? [pause] Turn to your partner.*

Have a few volunteers share their thinking. Discuss as a class:

**Q** *Did the article include the information you expected, based on what you thought after you skimmed the title, subtitle, and headings? Explain your thinking.*

Have a few volunteers share their thinking. Explain that tomorrow the students will look closely at text features in the article to find out what more they can learn about school lunches.

### 4 Discuss How Partners Acted Responsibly

Facilitate a brief discussion about the ways the students worked together. Ask questions such as:

**Q** *What did you do to be a responsible partner during “Think, Pair, Share” today?*

**Q** *Why is it important to [listen carefully when your partner is talking to you]?*

## INDIVIDUALIZED DAILY READING

### 5 Read Independently/Introduce Conferring About Books

Remind the students that you have been conferring, or talking with them individually, about their reading lives during IDR. Explain that beginning today, IDR conferences will focus on the nonfiction texts they are reading. Explain that by conferring with them about their reading, you can learn about their strengths as readers and talk with them about how they can become even stronger readers. Remind the students that when you are conferring with individual students, it is important that they read silently.

Have the students get their texts and read silently for 15–20 minutes. Tell the students that at the end of IDR, you will ask them to share what they are reading and what they like about their texts with partners. After the students have settled into their reading, select a student and have her bring a text she can read to the conference.

#### Teacher Note

For additional support, you might teach IDR Mini-lesson 3, “Introducing IDR Conferences” (found in Appendix A).

## IDR CONFERENCE NOTE

Beginning today, and continuing through next week, confer individually with the students about what they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 11) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN2); see page 15 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each partner tell the title of his text and the author’s name, what the text is about, and what he likes about his text. Circulate as the students share, and make note of their conversations. Have the students return to their desks and put away their texts.

# Day 4

## Guided Strategy Practice

### Materials

- “Food for Thought” (see pages 82–83)
- “Text Features” chart from Day 3 and a marker
- *Student Response Book* pages 10–11

### In this lesson, the students:

- Hear an expository nonfiction article again
- Use text features to better understand and locate key information in the article
- Analyze a text feature
- Read independently for 15–20 minutes
- Share their partners’ thinking with the class
- Explain their thinking

### 1 Review “Food for Thought”

Review that yesterday the students skimmed the article “Food for Thought: Cafeteria Menus Shape Up” and heard it read aloud. Explain that you will ask a question that the students will discuss with their partners. Tell them to listen carefully to their partners because they will share their partners’ thinking with the class. Ask:

**Q** *What do you remember about the article? Turn to your partner.*

Have a few volunteers share their partners’ thinking with the class.

## 2 Reread the Article and Discuss Text Features

Ask the students to turn to *Student Response Book* pages 10–11. Explain that this is a copy of the article. Tell the students that, as before, you will read the article aloud and ask them to follow along as you read. Afterward they will discuss the text features in pairs and then as a class.

Reread the article aloud slowly and clearly. When you finish, have the students think quietly about the following questions as they scan (look over) the article for additional features:

Q *What features do you notice?*

Q *How might these text features help readers understand the topic of the article?*

After the students have had time to think, have them share the features they noticed and discuss as a class how the features might be helpful to readers. As the students share, add any new text features to the “Text Features” chart.

## 3 Examine and Discuss the “Changes Schools Are Making” Text Box

Remind the students that this week they looked closely at a chart to help them compare information about the NBA and the WNBA. Today partners will look at another text feature. Draw the students’ attention to the text box entitled “Changes Schools Are Making” on page 11 of their *Student Response Books*. Tell the students that a text box provides extra information about a topic. Explain that text boxes might contain interesting facts or important information that helps the reader understand the main text. Help the students read the text box by asking questions such as:

Q *What are the three big changes schools are making to their lunch menus?*

Q *What are schools doing to [reduce sugar]?*

Use “Think, Pair, Share” to discuss:

 Q *How did reading the text box help you understand the changes schools are making to their lunches? [pause] Turn to your partner.*

Ask several pairs to share their thinking.

### Students might say:

“The information in the text box helped me understand which foods are healthier.”

“Reading the text box helped me understand how schools are reducing the sugar and unhealthy fat in lunches.”

“When I read the text box, I learned that there are easy changes you can make to make a healthier lunch. You can drink plain milk instead of chocolate milk.”

**ELPS 4.F.ii**  
Step 2 (all)

### Teacher Note

As an alternative to reading the article aloud, and if appropriate, ask the students to read the article independently. Monitor the students and provide help to struggling readers.

### Teacher Note

Additional features include *introductory paragraph* and *text box*.

### Teacher Note

You might record the students' questions about school lunches and healthy eating on a sheet of chart paper. You might use the questions as a starting point for a class research project using the Internet to find out more about school lunch programs and health implications.

As volunteers share, ask follow-up questions such as:

- Q *[Isabella] said that reading the text box helped her understand which foods are healthier. Do you agree or disagree? Why?*
- Q *What questions do you have for [Liam] about his thinking?*

## 4 Discuss What the Students Wonder About the Text Box

Explain that even though text features like this text box provide extra information about the topic, readers often have questions about what they learned.

Use “Think, Pair, Share” to discuss:

- Q *What are you wondering after reading this text box? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

### Students might say:

“My grandmother said that when she was young, they didn’t have processed foods. I’m wondering if that’s what’s making everyone sick.”

“I’m wondering if in the future, cafeteria food will be even healthier.”

“I wonder how the students reacted when the menu first changed.”

Point out that text features give readers information to help them understand what they read and to get them thinking more about the topic. Encourage the students to continue to explore text features as they read expository texts independently.

## 5 Reflect on the Partner Work

Facilitate a class discussion about how partners worked together. Ask:

- Q *What are you enjoying about working with your partner? What would you like to do [the same way/differently] the next time you work together?*

Explain that next week the students will continue to work together to understand text features as they hear and read other kinds of expository text.

## INDIVIDUALIZED DAILY READING

## 6 Read Independently and Share What the Students Learned

Tell the students that today you will continue to confer with individual students about the texts they are reading during IDR. Have the students get their texts and read silently for 15–20 minutes. Tell the students

that at the end of IDR, you will ask the students to share what they have learned from their texts or from text features in their texts. After the students have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 11) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN2); see page 15 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share the titles of their books, the authors’ names, and what they learned from their texts or from text features in their texts. Ask questions such as:

- Q *What is your [magazine] about?*
- Q *What information have you learned from reading the [magazine]?*
- Q *What did you learn from reading the text features in the [magazine]?*

Have the students return to their desks and put away their texts.

---

## EXTENSION

### Read a Newspaper Article Using Investigative Questions

Tell the students that newspaper reporters often try to answer these six questions when they investigate a story: *Who? What? Where? When? Why? How?* When the students read a newspaper article, they can use the same questions to identify and remember the article’s key information. Have each student read a newspaper article and find the answers to the six questions. Give the students a chance to share their findings with the class.

### Investigate Your School’s Lunch Menu

Have pairs of students each write a letter to the school cafeteria staff to find out more information about the food served in their cafeteria. Have the pairs use the investigative questions *Who? What? When? Where? Why? How?* to generate questions to ask the cafeteria staff. Once they have their questions, have each pair write a letter or email that politely requests the information they are curious about. After they receive a response, invite the students to report what information they learned.

---

### Vocabulary Note

Next week, you will revisit “Tying the Score: Men, Women, and Basketball” and “Food for Thought: Cafeteria Menus Shape Up” to teach the Week 4 vocabulary lessons.

**TEKS 12.D.i**  
Student/Teacher Activity  
Extension (all)

# Tying the SCORE

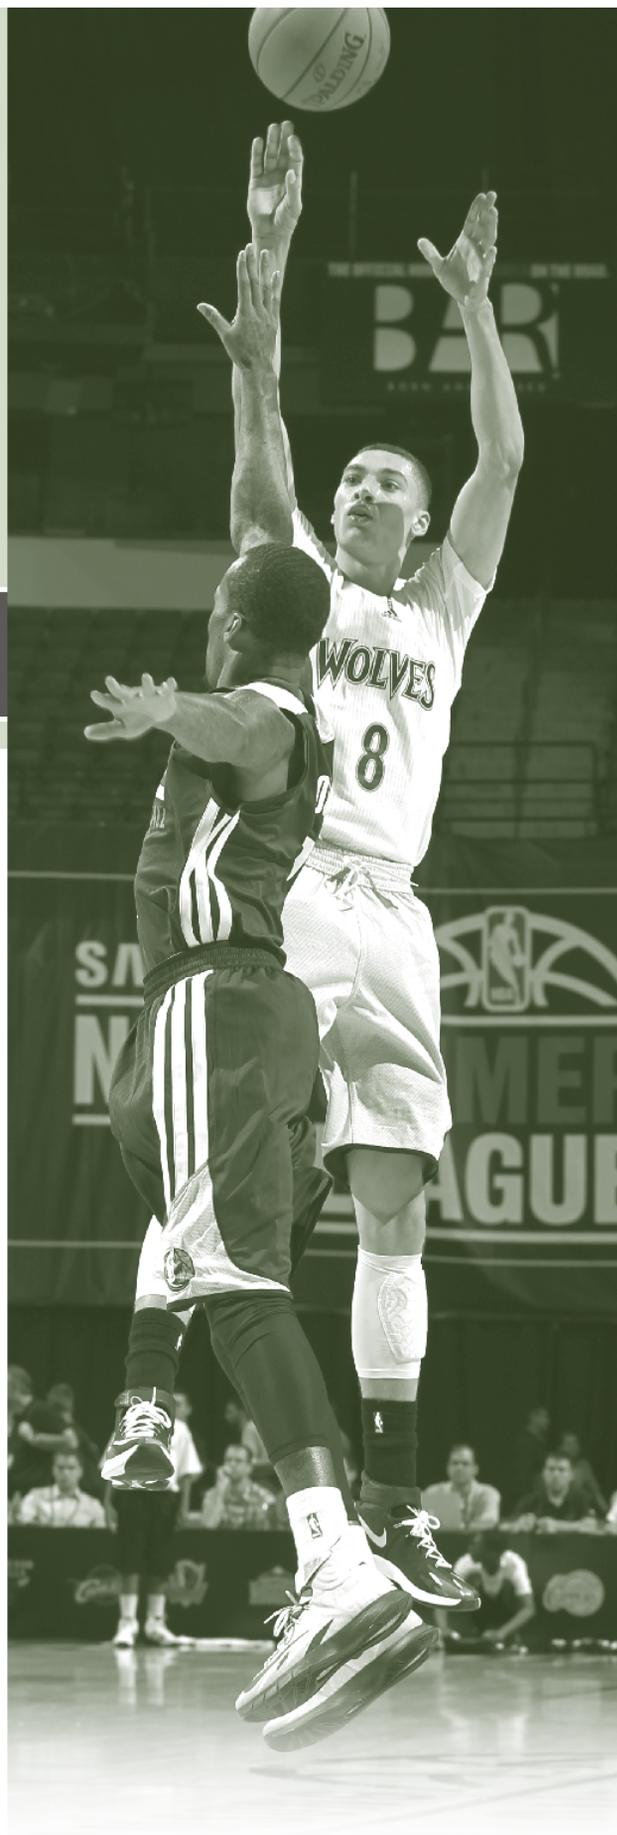

## Men, Women, and Basketball

### In the Basket

In 1891, PE teacher James Naismith took on a challenge—to find an indoor game that would keep rowdy students busy during the cold winter months. He had the caretaker nail up a peach basket at each end of the gymnasium, and the game of basketball was born. Little did Naismith know that this sport would grow to be one of the most watched games in the world—and that the players would be paid multimillion-dollar salaries. Well, the male players, that is!

### Early Days

In the beginning, professional men's basketball was seen as a kind of sideshow entertainment where players showed off their skills. Teams would travel from town to town, stopping to challenge local teams. All that changed on November 1, 1946, when the first game in the National Basketball Association (NBA) was played: the Toronto Huskies versus the New York Knickerbockers at Maple Leaf Gardens in Toronto, Canada. The game drew a crowd of 7,090 people—a huge number for that time.

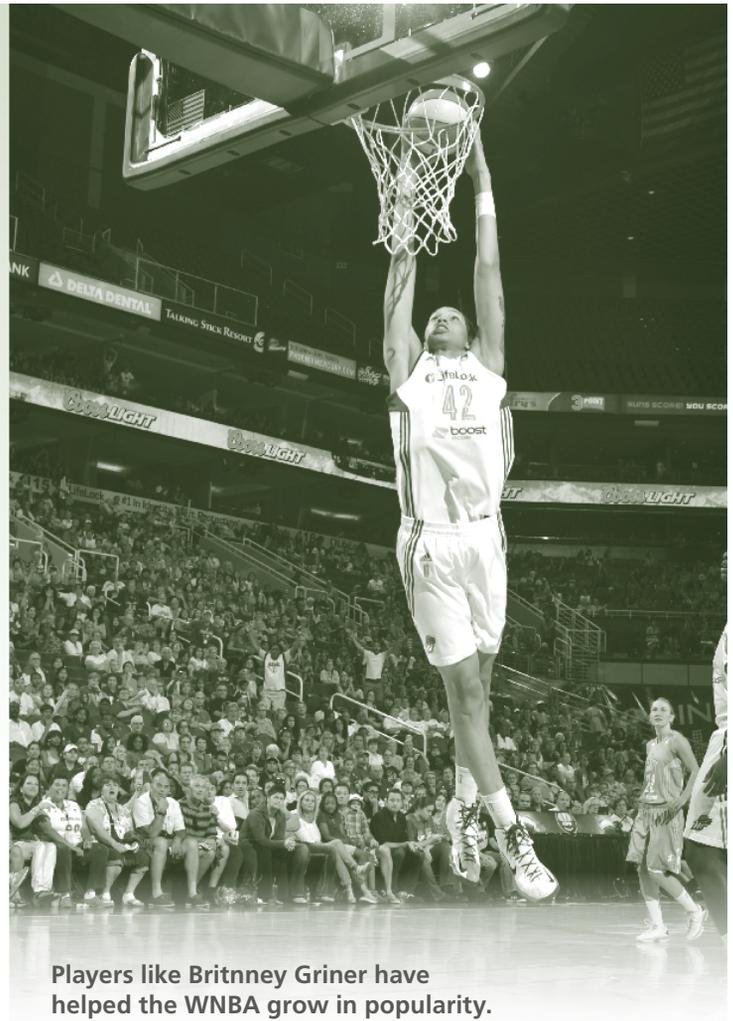

Women’s basketball got off to a slower start, but by the 1950s, women’s college basketball was going strong. Women even had their own superstar player—the extraordinary Nera White. Standing at an impressive 6 feet, 1 inch, White regularly sank baskets from center court. Fast-forward to 1996: hot on the heels of the U.S. women’s team winning a gold medal at the Olympics, the Women’s National Basketball Association (WNBA) was formed. Women finally had a national league of their own.

## A Numbers Game

The WNBA is not yet as financially successful as the NBA, but that’s probably because men’s basketball had a 50-year head start. However, the number of WNBA fans keeps growing. In 2013, the WNBA signed a 10-year extension on its television contract with one of the largest sports networks, ESPN. Many WNBA players have become household names and have huge fan clubs.

Today, the NBA and WNBA are the same in some ways but very different in others. Both are exciting to watch, and they attract large crowds. However, an NBA player can earn close to 100 times

Players like Brittney Griner have helped the WNBA grow in popularity.

more than a player in the WNBA. That’s something women players want to see changed. As more people watch WNBA games and advertisers pay higher prices for TV time slots, women players may just get their wish.

## League Stats

# Food for Thought

## Cafeteria Menus Shape Up

It's your favorite time of day. In the cafeteria line, you're on the hunt for hot dogs, but you can't find them anywhere. No fries or Hawaiian pizza are in sight, either. Your stomach's growling. So what's on the menu today?

### Lighten Up

School lunches aren't what they used to be. Before, you might have been able to fill your tray with foods such as pizza, hot dogs, or fries. Now, your lunch tray is more likely to include foods like grilled chicken, whole-wheat pasta, fresh fruits and vegetables, and low-fat yogurt. Your school isn't the only one that's changing its menu. Schools across the United States and around the world are replacing their high-fat, high-sugar lunches with healthier ones.

More than half of elementary and secondary students in the United States eat lunches provided by their schools. The increase in health problems such as diabetes and obesity made many people look closely at what students were eating. Schools realized that healthier lunch options could help stop some of the health problems from getting worse, so a trend toward healthier lunches began. Finally, in 2012, the government released guidelines that require schools to serve meals that limit calories and include whole grains, fruits, and a variety of vegetables.

A healthy lunch includes a variety of tasty foods.

## Food for Focus

Research shows that food affects your concentration. Eating a healthy meal may help you to focus better on your schoolwork. Here are some food facts for thought:

- Although foods high in sugar—such as soda and cookies—will give you an energy boost, it won't last long. It's better to eat foods such as whole-wheat bread, whole-wheat pasta, and fresh fruit. These foods help keep your energy level consistent all day.
- Your brain does need a good supply of fat to work well, but not the kind of fat found in foods such as cheeseburgers and hot dogs. By eating foods containing healthier fats—like fish, nuts, and seeds—you'll be helping to keep your brain in good shape.
- Chocolate and many sodas contain caffeine, which can give you energy but also leave you feeling jittery, making it hard to concentrate on your work.

Switching from eating high-fat, high-sugar foods to healthier choices might not be easy, but the benefits are certain—you'll have more energy to get you through the day and the ability to concentrate when you need to.

## Changes Schools Are Making

In school cafeterias across the United States, healthy foods have replaced foods high in sugar and fat. Here are some simple changes schools are making to provide healthy and delicious lunches for their students:

### Increasing Whole Grains

- Replacing foods made with white flour—such as white bread, flour tortillas, and saltine crackers—with foods made with whole grains—such as whole-wheat or rye bread, whole-wheat tortillas, and whole-grain crackers
- Replacing white rice with brown rice, wild rice, or quinoa (KEEN-wah)

### Reducing Sugar

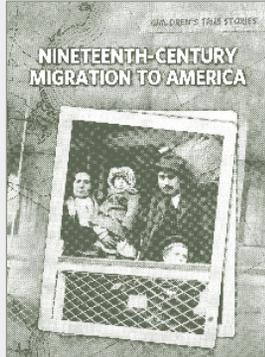

- Replacing chocolate milk with plain, low-fat milk
- Replacing canned fruit with fresh fruit

### Reducing Unhealthy Fat

- Replacing deep-fried foods like chicken nuggets and french fries with roasted chicken and root vegetables such as sweet potatoes, parsnips, carrots, and rutabagas
- Replacing potato chips and onion dip with raw vegetables and hummus dip

# Week 3

## OVERVIEW

### *Nineteenth-Century Migration to America*

by John Bliss

Readers trace the history of migration to the United States and explore the lives of immigrants from Scotland, China, Ireland, and Italy.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA4–WA5

#### Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “IDR Conference Notes” record sheet (CN2)
- “Individual Comprehension Assessment” record sheet (IA1)
- “Social Skills Assessment Record” sheet (SS1)
- “Individual Comprehension Assessment Student Record” sheet (SR2)
- “Individual Comprehension Assessment Class Record” sheet (CR2)

#### Reproducibles

- Unit 2 family letter (BLM1)
- (Optional) “First- and Secondhand Accounts of John Muir’s Journey to the United States” (BLM2)

#### Professional Development Media

- “Using the Individual Comprehension Assessment” (AV31)

### Comprehension Focus

- Students use text features to better understand an expository nonfiction book.
- Students use text features to locate key information in a text.
- Students read independently.

### Social Development Focus

- Students work in a responsible way.
- Students develop the skill of explaining their thinking.
- Students share their partners' thinking with the class.

## 🕒 DO AHEAD

- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA3); see page 10 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student. (For more information about the family letters, see “Family Letters” in the Introduction.)

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 4 lessons this week.

### Materials

- *Nineteenth-Century Migration to America*
- “Contents from *Nineteenth-Century Migration to America*” chart (WA4)
- *Student Response Book*, Reading Log section

### In this lesson, the students:

- Hear and discuss parts of an expository nonfiction book
- Use text features to better understand and locate key information in the book
- Read independently for 15–20 minutes
- Share their partners' thinking with the class
- Work in a responsible way

### 1 Review and Get Ready to Work Together

Gather the class with partners sitting together, facing you. Review that last week the students explored text features in news articles. This week they will continue to work in pairs and to explore text features in an expository nonfiction book as a class. Ask and briefly discuss:

**Q** *What will you do to be responsible when you are working with your partner? When we are working together as a class?*

### 2 Introduce *Nineteenth-Century Migration to America*

Without showing the cover, tell the students that today they will hear parts of an expository nonfiction book called *Nineteenth-Century Migration to America*. Tell the students that during the 1800s, many people *migrated*, or moved, to the United States from other countries. Explain that the book tells the stories of four children who migrated to the United States with the hope of having better lives. Show the map on pages 28–29 and explain that each of the children came to the United States from a different country. Read the name of each child and point out the route he or she traveled to come to the United States.

### 3 Discuss the Table of Contents and the Front and Back Covers

Display the “Contents from *Nineteenth-Century Migration to America*” chart (WA4) and explain that this is a copy of the table of contents in the book. Review that the table of contents lists the chapters in a book with the page numbers. Read one or two chapter titles aloud. Point out that this page also shows examples of a few of the text features included in the book along with a description of the kind of information found in each one. Give the students a few moments to quietly look over the table of contents chart. Then ask:

**Q** *After reading the chapter titles and the text feature descriptions, what information do you think you might find in this book? Turn to your partner.*

### Teacher Note

Alternatively, you might read the chapter titles and text feature descriptions aloud.

Have a few volunteers share their thinking.

**Students might say:**

"We'll find out what it was like to move to the United States from countries like China and Ireland."

"We might learn about why people migrated to the United States."

"When we read the 'Daily Life' feature, we'll learn what the children's lives were like after they moved to the United States."

"The 'Number Crunching' feature will tell us how many people migrated to the United States."

Show the cover of the book and the title page and read the title and the author's name aloud. Then show the back cover and explain that the back cover gives more information about the book and the author. Explain that readers can often quickly find information about a book by looking at the front and back covers and the table of contents.

Explain that today the students will learn why people migrated to the United States in the 1800s. They will also hear the story of Lee Chew, a boy who migrated to the United States from China in 1880, and they will learn about immigration to the United States today.

#### 4 Read Aloud Parts of *Nineteenth-Century Migration to America*

Read pages 4–5, 12–17, and 26–27 aloud slowly and clearly, showing but not reading the text features and stopping as described on the next page. Clarify vocabulary as you read.

##### Suggested Vocabulary

**identify with these words:** understand or relate to the words in the poem (p. 5)

**gave his blessing:** allowed him to go (p. 14)

**servant:** person who is paid to cook and clean in another person's home (p. 16)

**boomed:** increased quickly (p. 27)

##### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**the streets were paved with gold:** (idiom) the United States was a place where people could make a lot of money (p. 4)

**making his fortune:** earning a lot of money (p. 13)

**get a decent meal:** get food he liked to eat (p. 15)

##### Teacher Note

Words in bold type are defined in the glossary on page 30 of the book; you may wish to define these words for your students.

##### ELL Note

English Language Learners may benefit from additional stops to discuss the reading. For example, you might stop after pages 13 and 15.

Stop after:

**p. 4** "They came to get their share."

Use "Think, Pair, Share" to discuss:

 **Q** *What did you learn in the part of the book you just heard? [pause] Turn to your partner.*

Without sharing as a class, tell the students that now you will read the chapter about migration from China. Turn to page 12 and continue reading to the next stop. Stop after:

**p. 17** "Years later, he wrote about his experiences in the United States."

Use "Think, Pair, Share" to discuss:

 **Q** *What did you learn in the part of the book you just heard? [pause] Turn to your partner.*

Without sharing as a class, tell the students that now you will read the chapter about immigrating to the United States today. Turn to page 26 and continue reading to the next stop. Stop after:

**p. 27** "They will help create the United States of tomorrow."

## **5** Discuss the Reading

Explain that you will ask a question that the students will discuss with their partners. Tell them to listen carefully to their partners because they will share their partners' thinking with the class. Then ask:

 **Q** *What did you find out about migration to the United States? Turn to your partner.*

Ask one or two volunteers to share their partners' thinking with the class. Use "Think, Pair, Share" to discuss the questions that follow, stopping between questions to have volunteers share their thinking. As the students share, refer to the text to help them remember what they heard.

 **Q** *Why did Lee Chew, and many other Chinese people, want to leave China and come to the United States? What did you hear that makes you think that? [pause] Turn to your partner.*

**Q** *What was life like for Lee after he arrived in the United States? [pause] Turn to your partner.*

**Students might say:**

"Lee wanted to find gold in California."

"He thought he would become rich like the man that returned to his village."

"It must have been hard because he didn't speak English."

"He had to work hard to make his money. He didn't find gold and become rich like he had hoped."

"He ended up being successful. He opened his own laundry and then moved to New York and opened a store."

### **ELL Note**

If you have students who have recently immigrated to the United States, you might ask them if they are willing to share their experiences with the rest of the class.

Explain that tomorrow the students will explore the text features found in one of the chapters they heard today.

## 6 Reflect on How the Students Acted Responsibly

Ask and briefly discuss:

**Q** *What did you do to take responsibility for yourself when you were working with your partner today? When we were working together as a class?*

## INDIVIDUALIZED DAILY READING

## 7 Read Independently and Discuss Text Features

Remind the students that you will continue to confer with individual students about the texts they are reading during IDR. Explain that the students will continue to read nonfiction texts during IDR this week. Have the students get their texts and read silently for 15–20 minutes. Ask the students to think as they read about what text features they notice in their texts and what the features help them learn.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 11) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN2); see page 15 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each partner tell the title of her text and the author’s name, what the text is about, a text feature included in the text, and what the feature helped her learn. Have the students return to their desks and put away their texts. Give the students time to record any texts they finished in their reading logs.

### SOCIAL SKILLS ASSESSMENT NOTE

During this final week of this unit, assess the students’ social skill development using the “Social Skills Assessment Record” sheet (SS1). You can access and print a record sheet from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or make a copy from page 144 of the *Assessment Resource Book*. Note that you will use the same record sheet to document each student’s progress when you reassess social skill development in Units 5 and 9. For more information, see “Social Skills Assessment” in the Assessment Overview of the *Assessment Resource Book*.

## TEKS 7.B.i

Student/Teacher Narrative  
Writing About Reading (all,  
beginning on page 90 and  
continuing on to page 91)

### Materials

- *Nineteenth-Century Migration to America*
- Copy of “First- and Secondhand Accounts of John Muir’s Journey to the United States” (BLM2) for each student

### Teacher Note

Prior to doing this activity, you will need to visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print “First- and Secondhand Accounts of John Muir’s Journey to the United States” (BLM2). Make enough copies for each student to have one and set aside a copy for yourself. Preview the excerpts and identify vocabulary that you want to clarify as you read.

## WRITING ABOUT READING

### Write Opinions About First- and Secondhand Accounts of John Muir’s Journey to the United States

Show the cover of *Nineteenth-Century Migration to America* and remind the students that they heard parts of this book earlier. Tell the students that when John Bliss wrote this book, he researched the topic of migration to the United States during the 1800s and then wrote about what he learned. Explain that since he wrote about other people’s experiences, this book is a *secondhand account* of the events. Tell the students that you will read another chapter from this book today, about an immigrant named John Muir. Read pages 6–11 aloud. Ask:

**Q** *What did you learn about John Muir?*

Distribute a copy of “First- and Secondhand Accounts of John Muir’s Journey to the United States” (BLM2) to each student. Direct the students’ attention to the paragraph labeled “Secondhand Account” and explain that this is an excerpt from the part of the chapter that tells about John’s journey from Scotland to the United States. Ask the students to follow along as you read the excerpt aloud and to think as they listen about what they are learning about John’s journey. After you read the paragraph aloud, ask:

**Q** *What did you learn about John’s journey to the United States?*

Write the heading “Secondhand Account” where everyone can see it, and record the students’ ideas beneath it.

Tell the students that John Muir wrote a book about his life titled *The Story of My Boyhood and Youth*. Explain that in his autobiography (true story about his life), he wrote about his experience of migrating from Scotland to the United States. Explain that because John Muir wrote this himself, this is a *firsthand account* of his experience.

Direct the students’ attention to the paragraph labeled “Firsthand Account” and explain that this paragraph is an excerpt from John Muir’s autobiography, *The Story of My Boyhood and Youth*. Tell the students that like the secondhand account, this excerpt tells about John’s journey from Scotland to the United States. Ask the students to follow along as you read aloud and to think as they listen about what else they learn about John’s journey. Read the excerpt aloud, clarifying vocabulary you identified. After the reading, ask:

**Q** *What else did you learn about John’s journey to the United States?*

Write the heading “Firsthand Account” where everyone can see it, and record the students’ ideas beneath it. Facilitate a discussion comparing the first- and secondhand accounts by asking the following questions:

- Q *How is the firsthand account the same as the secondhand account? How is it different?*
- Q *How can you tell that John Muir wrote the firsthand account?*
- Q *Which do you think is more interesting, the firsthand account or the secondhand account? Why?*

Tell the students that when they talk about which account of John’s journey is more interesting, they are giving an opinion. Explain that people might have different opinions about the same thing and that this is fine. What matters is that they give reasons to explain their thinking. Ask the students to watch as you think aloud and model writing about which account you think is more interesting.

**You might say:**

“I think the firsthand account written by John Muir is more interesting. I’ll write: *I think the firsthand account of John Muir’s journey is more interesting.* Now I will give a reason why I think the firsthand account is more interesting, based on what we’ve read. I’ll write: *I think so because the firsthand account includes more details about the journey.* I want to explain what details are included in the firsthand account that aren’t included in the secondhand account. I’ll write: *For example, the firsthand account tells that some passengers stayed below deck during bad weather. The secondhand account just says that ‘John’s father and sister stayed below with the “old folk.”’ The firsthand account also tells more about what it was like being on the ship. Words like ‘the old tub tossed about’ help the reader understand that it wasn’t always a smooth ride.”*

Have the students write their own opinions about which account they think is more interesting and why. Encourage the students to refer to “First- and Secondhand Accounts of John Muir’s Journey to the United States” (BLM2) as they write. If time permits, invite the students to share their writing with the class.

**Materials**

- *Nineteenth-Century Migration to America*
- *Student Response Book* pages 12–14
- “Class Assessment Record” sheet (CA3)

**Teacher Note**

You will analyze the work the students do in their *Student Response Books* in this step for this unit's Individual Comprehension Assessment.

**In this lesson, the students:**

- Hear part of an expository nonfiction book again
- Use text features to better understand and locate key information in a text
- Read independently for 15–20 minutes
- Explain their thinking

**1** Get Ready to Work Together

Have the students get their *Student Response Books* and pencils and sit at desks with partners together. Explain that during today's lesson, the students will take a closer look at part of the book *Nineteenth-Century Migration to America* and discuss what they learn. Encourage them to focus on explaining their thinking clearly to their partners. Tell them that you will ask them to report on their partner conversations at the end of the lesson.

**2** Reread “To America!” and Write About Text Features

Show the cover of *Nineteenth-Century Migration to America* and ask:

- Q** *What do you remember about migration to the United States from yesterday's reading?*

Have a few volunteers share what they remember. Show pages 12–13 and remind the students that they heard this chapter about migration from China earlier. Read the chapter title and the heading aloud and review that these pages introduce Lee Chew, a boy who wanted to immigrate to the United States to make his fortune.

Show pages 14–15, read the heading “To America!” aloud, and review that this part of the book tells about Lee Chew's journey to the United States. Have the students turn to *Student Response Book* pages 12–13, “Excerpt from *Nineteenth-Century Migration to America*,” and explain that these are the pages you just showed them. Explain that you will read the pages aloud and ask the students to follow along as you read. After the reading, partners will write information they learned from the text features on these pages and then share their findings with the class.

Read pages 14–15 of the book aloud slowly and clearly. When you finish, have the students think quietly about the following question as they examine and read the text features in the reprinted pages of the chapter:

- Q** *What information can you find out about migration from China by reading the text features on these pages?*

Have the students discuss what they learned from the text features with their partners. Then have each student turn to *Student Response Book* page 14, “Five Things I Learned from the Text Features in the Excerpt,” and record five things he found out from looking at the text features.

Circulate among the students as they work, and randomly select students to observe.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to use all the text features?
- Are they able to make sense of the information in the text features?

Record your observations on the “Class Assessment Record” sheet (CA3); see page 10 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to use all the text features and make sense of the information in the text features, proceed with the lesson and continue on to Day 3.
- If about **half of the students** or **only a few students** are able to use all the text features and make sense of the information in the text features, you might want to repeat Days 1 and 2 of this week using an alternative book before continuing on to Day 3. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

### 3 Share What the Students Learned as a Class

When the students finish recording information from the text features, signal for their attention and ask the questions that follow. Remind the students to explain their thinking.

**Q** *What did you find out about migration to the United States? In which text feature did you find that information? Turn to your partner.*

Have volunteers share what they wrote.

#### Students might say:

“When I looked at the photograph on page 14, I learned that people didn’t have rooms on the ships. They sat and slept wherever there was room.”

“From the map, you can see that immigrants from China entered the United States in San Francisco.”

“I found out that more Chinese men came to the United States than Chinese women. I learned that from reading the ‘Number Crunching’ text box.”

“When I read the ‘Number Crunching’ text box, I learned that many immigrants who came to the United States sent money they earned back to their families in China.”

### Teacher Note

If students are having difficulty, stimulate their thinking by asking questions such as:

- Q** *What text features do you notice on these pages?*
- Q** *Looking at [the map], what statement can you make about [where Chinese immigrants entered the United States]?*
- Q** *What is one thing you learned [from reading “Number Crunching”]? How can you write that?*

Alternatively, you might signal for the students’ attention and have a few volunteers each share one thing they have written with the class.

### Facilitation Tip

Reflect on your experience over the past three weeks with **asking open-ended questions** and **using wait-time**. Do these techniques feel comfortable and natural to you? Do you find yourself using them throughout the school day? What effect has repeated use of them had on your students’ thinking and participation in discussions? Continue to use and reflect on these techniques throughout the year.

Ask follow-up questions such as:

- Q *[Maria] said she learned from the map that [people who migrated from China entered the United States in San Francisco, California]. What other information did you find in that text feature?*
- Q *[AJ] said that [people sat and slept wherever there was room on the ship]. Do you agree? Explain your thinking.*
- Q *Why do you think the author included [the map]?*
- Q *[Chonisha] said that [people bought steerage tickets because they were the cheapest tickets]. Why is it important for the reader to know that?*
- Q *What can you add to what [Jaime] said?*

#### 4 Reflect on How the Students Explained Their Thinking

Facilitate a brief discussion about how partners worked together. Ask:

- Q *How did explaining your thinking help you and your partner understand the text?*
- Q *If your partner is having trouble explaining his or her thinking, what can you do to help?*

## INDIVIDUALIZED DAILY READING

#### 5 Read Independently and Discuss Text Features

Have the students get their texts and read silently for 15–20 minutes. Ask the students to think as they read about what text features they notice in their texts and what the text features help them learn.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 11) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN2); see page 15 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with their partners. Have each partner tell title of her text and the author’s name, what the text is about, a text feature her text includes, and what the feature helped her learn. Have the students return to their desks and put away their texts.

---

## EXTENSION

### Discuss What the Students Are Still Wondering

Review that expository texts often leave the reader with additional questions. Ask:

**Q** *What questions do you have after looking closely at the text features on these pages?*

**Students might say:**

"The text box says that in 1880 more than 100,000 Chinese men lived in the United States but only 5,000 Chinese women did. I wonder why more women didn't immigrate to the United States."

"I wonder how long it took to travel from China to the United States by boat."

"I wonder how much a steerage ticket cost."

Write what the students are wondering on a sheet of chart paper titled "What We Are Wondering About Migration to the United States." Post the chart and have students who are interested do research on one or more of the questions. Ask the students to share the information they find.

---

## TECHNOLOGY EXTENSION

### Explore a Website About Migration to the United States

Explain that authors of nonfiction sometimes tell readers where they can look to find more information about a topic. Show page 31 of *Nineteenth-Century Migration to America* and explain that this section guides interested readers to websites about immigration. Tell the students that today they will explore one of the websites and then discuss what they learned.

Display your browser page and go to one of the recommended websites. Model navigating the website and read aloud any information that you think the students may find interesting. Afterward, discuss questions such as:

- Q** *What else did you learn about immigration?*
- Q** *What did you find out that interested you?*
- Q** *What did you learn that you're curious to know more about?*
- Q** *How was reading the [Internet article] different from reading the book? How was it the same?*

Have each student write a paragraph explaining what he learned about immigration from listening to the book *Nineteenth-Century Migration to America* and from exploring the website.

**TEKS 6.B.v**  
**TEKS 6.B.vi**  
Student/Teacher Activity  
Extension (all)

**TEKS 9.F.ii**  
Student/Teacher Activity  
Technology Extension (all)

### Technology Tip

Prior to doing this activity, preview the websites on page 31 of *Nineteenth-Century Migration to America* to locate additional information about immigration to the United States. You might search online for additional age-appropriate websites using the keywords "immigration for kids."

### Materials

- *Nineteenth-Century Migration to America*
- *Student Response Book* page 15
- “Text Features” chart from Week 2 and a marker
- “Reading Comprehension Strategies” chart

### In this lesson, the students:

- Use text features to better understand and locate key information in a text
- Read independently for 15–20 minutes
- Work in a responsible way

## 1 Introduce the Index of *Nineteenth-Century Migration to America*

Have the students bring their *Student Response Books* and gather with partners sitting together, facing you. Show the cover of *Nineteenth-Century Migration to America* and review that the students looked at the table of contents and at the front and back covers to quickly get an idea of what information might be in the book. They also looked closely at text features in part of one chapter and recorded the information they found. Explain that today they will explore text features often found at the end of expository books.

Show the index on page 32 and explain that many nonfiction books have an index. Explain that readers can use the index to help them find specific information about topics mentioned in the book. Explain that an index is a list of topics related to the subject of a book. Each number after a word in the index is the number of a page where readers can find more information about that topic.

Have the students turn to *Student Response Book* page 15 and explain that this is a copy of the index from *Nineteenth-Century Migration to America*. Use “Think, Pair, Share” to discuss:

**Q** What do you notice about the index? [pause] Turn to your partner.

Have a few volunteers share their thinking.

#### Students might say:

“It has names of things in it, like ‘poetry,’ but it also has names of people and places, like ‘John Muir’ and ‘Ellis Island.’”

“The list is in alphabetical order.”

“Some words have a lot of page numbers, and some words have only one page number.”

## 2 Explore the Index in Pairs and as a Class

Tell the students that partners will look at the index in their *Student Response Books* together and circle one or two things they want to learn more about.

Give partners a few moments to circle items; then have a few pairs share what they circled. Model using the index with topics they suggest by turning to a couple of the listed pages and locating the word on the page. Read aloud the sentence containing the word and, if appropriate, the next sentence or two.

Tell the students that the index in a nonfiction book helps readers quickly find all the places in the book where a topic is mentioned. Explain that readers often use the index if they have a question about a topic or want to find out more about it.

Have the students look up “immigration station” in the index and explain that you will read the referenced pages aloud. Read pages 4, 18, and 19 aloud slowly and clearly, taking time to read the text features after you read the main text.

Point out that the index in a nonfiction book can be very helpful for readers looking for information.

### 3 Briefly Explore Other Text Features

Show pages 28–31 of *Nineteenth-Century Migration to America* and explain that these pages contain other text features often found at the end of expository nonfiction books.

Point out “Mapping Migration” on pages 28–29 and review that this is a map that shows where immigrants from other countries around the world entered the United States. Explain that a nonfiction book sometimes contains maps scattered throughout the book or at the end to help the reader understand information in the book.

Show the glossary on page 30 and explain that a *glossary* is a list of words the author thinks readers might need to know to understand the book. Point out that it is organized like a dictionary; it lists the words in alphabetical order and tells what each word means.

Turn to page 18 and point out the term “federal government.” Explain that “federal government” is in bold type to let readers know they can look it up in the glossary to find out what it means. Turn back to the glossary and model using it by looking up “federal government” alphabetically and reading the definition. Explain that words defined in a glossary sometimes appear in the text in colored print or in italics (slanted type) instead of in bold type. Review that such words are called *keywords*.

Draw the students’ attention to the “Find Out More” section on page 31 and explain that this is a list of other books about migration for readers who still have questions or want to find more information about the topic. Add any new features to the “Text Features” chart.

#### Teacher Note

Save the “Text Features” chart to use again in Unit 7.

## 4 Review Text Features

Review that over the past few weeks, the students have explored and discussed text features in expository nonfiction books and articles. Refer to the “Reading Comprehension Strategies” chart and review that using text features is a comprehension strategy that readers use to help them make sense of expository text. Ask:

 **Q** *How do text features help readers? Turn to your partner.*

Have a few volunteers share their thinking.

### Students might say:

“Text features give you more information about the topic.”

“If you have a question about what you’re reading, you might find the answer in a text feature.”

“Text features can help you understand what you read.”

Explain that in the coming weeks, the students will hear and read more expository nonfiction. Encourage them to use text features to help them understand what they read.

## 5 Discuss How Partners Acted Responsibly

Facilitate a brief discussion about the ways the students worked together. Ask:

**Q** *What did you do to be responsible while you were working with your partner today?*

**Q** *How did that help you work together?*

# INDIVIDUALIZED DAILY READING

## 6 Read Independently and Discuss Text Features

Have the students get their texts and read silently for 15–20 minutes. Ask the students to think as they read about what text features they notice in their texts and what the text features help them learn.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 11) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN2); see page 15 of the *Assessment Resource Book*.

### Teacher Note

In Unit 3, the students are encouraged to read texts from any genre during IDR. If you have not met with all your students to discuss the nonfiction books they are reading during IDR, you may want to do so before beginning the next unit.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each partner tell the title of her text and the author's name, what the text is about, a text feature her text includes, and what the feature helped her learn. Have the students return to their desks and put away their texts.

## Independent Strategy Practice

# Day 4

### In this lesson, the students:

- Read independently
- Use text features to locate key information
- Write in their reading journals
- Analyze the effects of their behavior on the group work
- Examine how they are handling books and materials

### 1 Review the Week

Have the students get their *Student Response Books*, pencils, and texts for independent reading and sit at desks with partners together. Remind the students that they have been exploring expository text. Refer to the “Text Features” chart and review that the students created a list of text features. Ask:

**Q** *What have we learned about expository texts this week?*

### 2 Read Independently

Explain that today the students will read expository texts independently. Encourage them to think as they read about what they are learning about the topics, what text features they notice in their texts, and what they learn from the features.

Have the students read silently for 10–15 minutes. As they read, circulate among them and ask individual students to tell you what their texts are about and what text features, if any, they have noticed. You might probe their thinking with questions such as:

**Q** *What is the topic of this book?*

**Q** *What is one text feature on this page that helped you learn something? What information does this feature give you?*

### Materials

- “Text Features” chart from Day 3 and a marker
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA5)
- Copy of this unit’s family letter (BLM1) for each student

### Teacher Note

This question gives you an opportunity to informally assess the students’ learning this week. To gauge their understanding, you may need to ask follow-up questions such as:

**Q** *What is the purpose of expository text?*

**Q** *What kinds of expository texts have we looked at?*

**Q** *What text features have we identified?*

**Q** *How does noticing text features help us make sense of an expository text?*

## Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

**ELPS 4.C.iii**  
Step 3 (all)

## ELL Note

Consider having your students with limited English proficiency dictate journal entries for you to write down.

## Teacher Note

If the students struggle to write, you might wish to model writing a journal entry as you did in Week 1, Day 4 (see Step 3).

### 3 Write About Expository Texts

Signal to let the students know when it is time to stop reading. Display the “Journal Entry” chart (WA5) and explain that you would like each student to write a journal entry about the expository text he read today. Also explain your expectations for what the journal entry should include.

WA5

#### Journal Entry

Write a journal entry about the text you are reading. Please include:

- The title and the author's name
- What the text is about
- What you learned in the part of the text you read today
- Any text features you noticed
- How the text features helped you better understand what you read

Ask the students to think quietly about what they will write. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class and show the text features they found in their reading.

If the students identify text features not yet discussed in the class, add the features to the “Text Features” chart.

### 4 Reflect on the Reading Community

Use “Think, Pair, Share” to discuss:

**Q** *What have you done to help create a caring and safe classroom community? [pause] Turn to your partner.*

Have a few volunteers share with the class. Probe their thinking with follow-up questions such as:

**Q** *What is working well during partner and class discussions? During independent reading? What do you think we need to work on?*

**Q** *How are we handling and sharing the classroom library books? What do you think we need to work on?*

#### Students might say:

“I help create a caring community by listening quietly and waiting for people to finish speaking before I say something.”

“Sometimes I let my partner do all the thinking and talking. I need to be more responsible and share my thinking with my partner.”

“Some people keep books for a really long time, which makes it hard if you want to read one of those books.”

Explain that in the next lesson, the students will be starting a new unit and working with new partners. Give the students time to thank their partners for working with them during this unit. Have the students put away their materials.

---

## EXTENSION

### Build Community Throughout the Day

Help the students build community throughout the school day by having them reflect on how they are creating a safe and caring environment during lunch period, recess, transitions, and lessons in other subject areas. Plan short, periodic class meetings before or after activities to give the students an opportunity to talk about problems they are having and ways to solve those problems and to reflect on how they want to treat one another and be treated.

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of Unit 2. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit's family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

### Assessment

- Before continuing on to the next unit, take this opportunity to assess individual students' reading comprehension using the "Individual Comprehension Assessment" record sheet (IA1); see page 16 of the *Assessment Resource Book*. For more information, see "Individual Comprehension Assessment" in the Assessment Overview section of the *Assessment Resource Book*.
- You might record your students' progress over the course of the year using the "Individual Comprehension Assessment Class Record" sheet (CR2); see page 147 of the *Assessment Resource Book*.
- You might record each student's progress over the course of the year using the "Individual Comprehension Assessment Student Record" sheet (SR2); see page 146 of the *Assessment Resource Book*.

---

### Vocabulary Note

Next week you will revisit *Nineteenth-Century Migration to America* to teach the Week 5 vocabulary lessons.

---

### Teacher Note

For more information, view "Using the Individual Comprehension Assessment" (AV31).

# Unit 3

# Questioning

## EXPOSITORY NONFICTION

During this unit, the students use wondering and questioning to help them understand expository nonfiction texts as they continue an across-grades exploration of animal life. In grade 4, the students learn about animal senses. The students use schema to articulate all they know about the topic before they read. They learn the procedure for “Stop and Ask Questions” and use questioning to help them make sense of texts. During IDR, the students practice questioning as they read nonfiction texts independently, write in their reading journals, and continue to confer with the teacher individually about their use of comprehension strategies. They also review self-monitoring and learn “fix-up” strategies (rereading and reading ahead) that they can use when they don’t understand what they have read. Socially, they continue to develop the skill of explaining their thinking and they learn discussion prompts to help them listen and build on one another’s ideas during discussions. They continue to analyze the effect of their behavior on others and to work in a responsible way.

# Unit 3

## Questioning

### RESOURCES

#### Read-alouds

- *Animal Senses: How Animals See, Hear, Taste, Smell and Feel*
- *Slinky Scaly Slithery Snakes*

#### Writing About Reading Activities

- “Write Opinions About Animal Senses”
- “Write About How Animals Use the Sense of Sight”

#### IDR Mini-lesson

- Mini-lesson 2, “Self-monitoring and Using ‘Fix-up’ Strategies”

#### Technology Mini-lessons

- Mini-lesson 4, “Choosing Effective Search Terms”
- Mini-lesson 5, “Understanding Search Results”
- Mini-lesson 6, “Narrowing Search Results and Using Filters”
- Mini-lesson 7, “Evaluating Research Sources”

#### Technology Extensions

- “Ask an Expert About Animal Senses”

# Week 1

## OVERVIEW

### ***Animal Senses: How Animals See, Hear, Taste, Smell and Feel\****

by Pamela Hickman, illustrated by Pat Stephens

Readers learn fascinating facts about how various animals experience the world.

*\*This book will also be used in Week 2.*

### **Online Resources**

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### **Whiteboard Activities**

- WA1–WA3

#### **Assessment Forms**

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)

#### **Professional Development Media**

- “Asking Questions Once and Using Wait-time” (AV25)

## Comprehension Focus

- Students use wondering to help them make sense of text.
- Students use schema to articulate all they think they know about a topic before they read.
- Students read independently.

## Social Development Focus

- Students analyze why it is important to be respectful.
- Students develop the skill of explaining their thinking.

## DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding. Take time to show and discuss the text features.
- ✓ Make available expository nonfiction and functional texts at a variety of levels so that the students can practice using text features and questioning during IDR and Independent Strategy Practice throughout the unit.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during the unit.
- ✓ Prior to Day 1, make a class set of “IDR Conference Notes” record sheets (CN1); see page 33 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, select an expository text and prepare to model wondering on Day 4 (see Step 2). Plan what you will wonder about ahead of time so the modeling goes smoothly.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1); see page 27 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 5 lessons this week.

### Materials

- *Animal Senses* (pages 6–8)
- *Shattering Earthquakes* from Unit 2
- “What We Wonder About How Animals See” chart (WA1)
- Class set of “IDR Conference Notes” record sheets (CN1)
- *Assessment Resource Book* page 30
- “Thinking About My Reading” chart
- “Reading Comprehension Strategies” chart
- Self-stick notes for each student

### ELL Note

Prior to this introduction, make sure your English Language Learners understand the term *senses* and know that the five senses are seeing, hearing, tasting, smelling, and feeling.

### In this lesson, the students:

- Begin working with new partners
- Hear and discuss part of an expository nonfiction book
- Brainstorm what they think they know about a topic
- Generate “I wonder” statements about the topic
- Use wondering to make sense of the book
- Read independently for 20–25 minutes

### ABOUT BUILDING A BODY OF KNOWLEDGE ABOUT ANIMAL LIFE

In each grade of the *Making Meaning* program, the students apply the strategy of wondering or questioning to a set of expository nonfiction texts on the topic of animal life. Exploring a topic within and across grades enables the students to systematically build a body of knowledge about the topic. In kindergarten the focus of each text is on animal young. In grade 1, the students learn about a wide variety of animal life and are introduced to the concept of *habitat*, which is then further explored in grades 2 and 3. In grade 4, the focus shifts to animal senses, and in grade 5 the students learn about big cats and the challenges they face as endangered species.

## 1 Pair Students and Get Ready to Work Together

Randomly assign partners and make sure they know each other’s names. Gather the class with partners sitting together, facing you. Explain that during today’s lesson, partners will talk about a book you read aloud. Remind the students that talking with partners helps them think more about the reading, and tell them that you will ask them to report on their partner conversations at the end of the lesson.

## 2 Review Expository Nonfiction and Introduce the Topic of Animal Senses

Remind the students that during the past few weeks they have explored a kind of nonfiction called *expository nonfiction*. Show the cover of *Shattering Earthquakes* and review that the students heard part of the book and explored text features in it and in other expository texts (two articles and the book *Nineteenth-Century Migration to America*). Briefly review some of the text features in *Shattering Earthquakes* by turning to page 3 (table of contents), pages 10–11 (text, maps, photograph, captions, text box), and page 32 (index).

Tell the students that in the expository nonfiction books they hear in the coming weeks, they will learn about animal senses—how animals use their senses to see, hear, taste, smell, and feel what is around them.

### 3 Introduce *Animal Senses*

Show the cover of *Animal Senses* and read the title and the names of the author and the illustrator aloud. Tell the students that you will read different parts of the book aloud over the next two weeks. Explain that today you will read from the part that tells how animals see. Ask:

**Q** *What do you think you know about how animals see?*

Have a few volunteers share their thinking. Ask:

**Q** *Based on what you think you know, what do you wonder about how animals see?*

Display the “What We Wonder About How Animals See” chart (WA1) and list a few of the students’ responses. Write each response as an “I wonder” statement.

#### What We Wonder About How Animals See

*I wonder how animals see at night.*

*I wonder if animals see in color like people do.*

*I wonder how far sea creatures can see underwater.*

WA1

Explain that after you read the first part of the book, the students will talk about their “I wonder” statements and what they learned from the reading.

### 4 Read Part of *Animal Senses* Aloud

Read pages 6–8 aloud slowly and clearly, showing the illustrations and stopping as described on the next page. Clarify vocabulary as you read.

#### Suggested Vocabulary

**flexible:** able to bend or stretch (p. 6)

**predators:** animals that hunt other animals for food (p. 8)

**prey:** animals that are hunted by other animals for food (p. 8)

#### Teacher Note

During this lesson, the students articulate what they think they know about a topic (how animals see), wonder about the topic, listen to a part of the book, and then discuss what they learned from the reading. Over the course of the next three weeks, the students will progress from making “I wonder” statements to using the comprehension strategy *questioning* as a tool to make sense of what they read.

#### Teacher Note

Listing only a few responses will keep the lesson moving. The students will have opportunities during the reading to add “I wonder” statements to the chart. If the students have difficulty generating “I wonder” statements, offer some examples like those listed in the diagram.

## Teacher Note

Listen while partners talk. Check to see whether they are referring to the book and explaining their thinking.

## Teacher Note

When you come to the “Find your field of vision” activity on page 8, you might have the students listen as you read the instructions once or twice before they try the activity.

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**upside down:** having the top at the bottom and the bottom at the top (p. 6)

**surface:** top or outside (p. 7)

**vision:** sight (p. 8)

Stop after:

**p. 7** “This would help you look out for danger and food.”

Ask:

**Q** *What have you learned so far about how animals see? Turn to your partner.*

Have two or three volunteers share their ideas with the class. Briefly refer to the “What We Wonder About How Animals See” chart and ask the class:

**Q** *What “I wonder” statements have been explained in the reading so far?*

**Q** *What else do you wonder?*

Have a few volunteers share their thinking, and quickly record any additional “I wonder” statements on the chart. Reread the last sentence on page 7 and go on to read “Giant-sized eyes” on page 8. Stop after:

**p. 8** “Large eyes let in more light than small ones, so they help a squid see better underwater, where it keeps watch for predators and prey.”

Ask:

**Q** *What have you learned so far about how animals see? Turn to your partner.*

After a moment, refer to the “What We Wonder About How Animals See” chart and ask:

**Q** *What “I wonder” statements have been explained in the reading so far?*

**Q** *What else do you wonder?*

Have a few volunteers share their thinking and quickly record any additional “I wonder” statements on the chart; then reread the last sentence in the text box and go on to read “Find your field of vision” on page 8.

**Q** *Have partners discuss what they learned.*

## 5 Discuss the Reading and “I Wonder” Statements

**ELPS 4.F.i**  
Step 5 (all)

Facilitate a discussion about what the students learned from the reading. Be ready to reread passages aloud and show illustrations again to help the students recall what they heard. Ask questions such as:

**Q** *What is one new thing you learned about how animals see from today’s reading?*

**Q** *How do large eyes help giant squid survive in their environment?*

**Q** *How do large fields of vision help animals like deer and squirrels?*

Refer to the “What We Wonder About How Animals See” chart and ask:

**Q** *What “I wonder” statements do you think were explained in the reading? How were they explained?*

Explain that learning to wonder and question while reading will help the students think carefully about what they are reading and look for answers to their questions as they read. Tell the students that tomorrow you will read more from *Animal Senses* and they will listen for information about what they are wondering.

## 6 Reflect on How the Students Explained Their Thinking

Facilitate a brief discussion about how the students did explaining their thinking. Ask:

**Q** *Why was it important to explain your thinking clearly today during your partner conversation and the class discussion?*

# INDIVIDUALIZED DAILY READING

## 7 Introduce “Fix-up” Strategies

**ELPS 4.F.i**  
Step 7  
(all, beginning on page 113 and continuing on to page 114)

Tell the students that for the next few weeks they will continue reading nonfiction texts during IDR.

Direct the students’ attention to the “Thinking About My Reading” chart and remind the students that it is important for them to check their comprehension as they are reading. Tell the students that there may be times when they ask themselves the questions on the chart and realize that they do not understand what they have read. Explain that today they will learn a couple of strategies, or tools, they can use in these situations. Explain that these strategies are called “fix-up” strategies because using the strategies may help to “fix” the problem.

Tell the students that one thing a student can do when she does not understand something she has read is to reread that part slowly and carefully. Explain that slowing down and carefully rereading a sentence

**TEKS 6.I.ii**  
Student/  
Teacher  
Narrative  
Step 7  
(all, beginning on page 113 and continuing on to page 114)

### Facilitation Tip

During this unit, we invite you to practice **asking questions once** and then waiting. This means not repeating the question or asking it again a different way; it means just asking the question once and then **using wait-time** to give the students time to think before calling on anyone to respond. If the students are confused by a question or need to hear it again, have them ask you to repeat or rephrase the question. This builds student responsibility for focusing on the discussion and helps the students develop the habit of listening the first time. To see this Facilitation Tip in action, view “Asking Questions Once and Using Wait-time” (AV25).

### Teacher Note

Save the “What We Wonder About How Animals See” chart (WAI) to use on Day 2.

### Teacher Note

During IDR today and tomorrow, the students learn and practice two “fix-up” strategies they can use when they do not understand what they have read: rereading and reading ahead. To provide the students with additional support with using these and other “fix-up” strategies, you might teach all or part of IDR Mini-lesson 2, “Self-monitoring and Using ‘Fix-up’ Strategies” (found in Appendix A).

### ELL Note

Help your English Language Learners choose books at the appropriate levels. Providing a limited number of teacher-selected texts will help them make good choices.

### Teacher Note

Base the length of time the students are reading independently on their attention and engagement. Gradually add time as your students are ready. The goal is for them to read independently for up to 30 minutes by Unit 5.

### Teacher Note

Provide time on a regular basis for the students to record the texts they have completed in their reading logs.

or paragraph that is unclear may “fix” the problem. If it does not, another strategy the student can try is reading ahead and looking for more information. Explain that by reading ahead, the student may come upon facts, descriptions, details, or other information that clears up what was confusing her.

Distribute self-stick notes to each student. Tell the students that as they read today, you want them to pause occasionally and ask themselves if they understand what they are reading. If a student does not understand what he is reading, he should mark the place in the text that he does not understand with a self-stick note and then try one or both of the strategies learned today—rereading and reading ahead—to see if the strategies help him understand what he is reading. Explain that at the end of IDR you will check in with the students to see how they did with using “fix-up” strategies. Then have the students get their books and read silently for 20–25 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Beginning today, and continuing throughout the unit, confer individually with the students about the nonfiction texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 30) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 33 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask and discuss:

- Q** *Was there any part of your reading that you did not understand today? Tell us about it.*
- Q** *What “fix-up” strategy did you try? What happened when you [reread/read ahead]?*

If a student has tried both of the “fix-up” strategies and still does not understand the text she is reading, refer her to the “Reading Comprehension Strategies” chart and encourage her to try the strategy listed on it. Alternatively, you might encourage the student to ask you or a classmate for help.

Have the students return to their desks and put away their texts.

## In this lesson, the students:

- Hear and discuss part of an expository nonfiction book
- Generate more “I wonder” statements about the topic
- Use wondering to make sense of the book
- Read independently for 20–25 minutes
- Act respectfully toward their partners

## 1 Discuss Respect for Partners

Gather the students with partners sitting together, facing you. Explain that today the students will continue to focus on explaining their thinking as they talk with their partners. Point out that partners may have different opinions about what they are discussing and that part of being a good partner is respecting your partner’s thinking. Ask:

- Q *What can you do to show respect for your partner’s thinking?*
- Q *How does not showing respect for your partner’s thinking get in the way of you working together?*

Have a few volunteers share their thinking.

### Students might say:

“If my partner doesn’t respect what I’m thinking about, it hurts my feelings.”

“When partners don’t respect each other, they don’t want to work together.”

“Partners who don’t respect each other might not get their work done because they don’t want to help each other.”

## 2 Introduce the Reading from *Animal Senses*

Display the “What We Wonder About How Animals See” chart (WA1) from Day 1, and review what the students wondered as they listened to the first part of *Animal Senses*. Ask:

- Q *Which of the “I wonder” statements were explained in the part of the book we read yesterday?*

Have two or three students each share an “I wonder” statement on the chart that was explained in the book. Explain that today you will read more from *Animal Senses* and the students will again wonder and listen for answers to their questions.

## Materials

- *Animal Senses* (pages 10–15)
- “What We Wonder About How Animals See” chart (WA1) from Day 1
- “Thinking About My Reading” chart
- “Reading Comprehension Strategies” chart
- Self-stick notes for each student

## Teacher Note

In the *Making Meaning* program, showing respect for a range of opinions and ideas is an important part of developing reading comprehension. These questions help the students think about how they treat one another and the effect this has on their work, feelings, and relationships.

### 3 Read Part of *Animal Senses* Aloud

Read pages 10–15 aloud (skipping the “Eyewitness” sidebar on page 10 and all of page 11). Read slowly and clearly, showing the illustrations and stopping as described below. Clarify vocabulary as you read.

#### Suggested Vocabulary

**reflected:** bounced back (p. 13)

**nectar:** sweet liquid produced by flowers and collected by bees (p. 15)

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**mirrorlike:** like a mirror, bouncing light back (p. 13)

**dim:** not very bright (p. 14)

**nocturnal animals:** animals that are active at night (p. 14)

**rainbow:** colors that appear when light shines through water (p. 15; refer to the illustration)

Stop after:

- p. 10** “Monocular vision helps an animal look for food with one eye and at the same time watch for danger with the other eye.”

Ask:

**Q** *What have you learned about how animals see that you didn’t know before? Turn to your partner.*

Have two or three volunteers share their ideas with the class. Briefly refer to the “What We Wonder About How Animals See” chart and ask:

**Q** *What “I wonder” statements have been explained in the reading so far?*

**Q** *What else do you wonder about?*

Have a few volunteers share their thinking and quickly record any additional “I wonder” statements on the chart. Then reread the last sentence before the stop and continue reading to the next stop. Follow the same procedure at each of the following stops:

**p. 12** “Animals that are active at night have mostly rods in their eyes, so they can see well in dim light.”

**p. 14** “Find a dim star and look directly at it. Now look just to the side of it. What do you notice?”

**p. 15** “Many animals can see the same colors as we can, and some can see colors that we can’t.”

Continue reading to the end of page 15 (including the “Eye surprise” sidebar and the caption under the illustration).

#### 4 Discuss the Reading and “I Wonder” Statements

Facilitate a discussion about what the students learned from the reading. Be ready to reread passages and show illustrations again to help the students recall what they heard. Ask questions such as:

- Q *What is one new thing you learned about how animals see from today’s reading?*
- Q *What did you find out about how animals see at night?*

Refer to the “What We Wonder About How Animals See” chart and ask:

- Q *What “I wonder” statements do you think were explained in the reading? How were they explained?*

Explain that in the next lesson they will hear another part of the book and have another opportunity to practice wondering and questioning.

#### 5 Discuss the Partner Work

Facilitate a brief discussion about how partners worked together. Ask:

- Q *What did you do to show respect for your partner’s thinking today? How did that help you work together?*

**Students might say:**

- “I told my partner she had a good idea.”
- “I made sure my partner was finished before I started talking.”
- “Even though we disagreed, my partner and I listened to each other’s ideas.”

## INDIVIDUALIZED DAILY READING

#### 6 Review and Practice Using “Fix-up” Strategies

Direct the students’ attention to the “Thinking About My Reading” chart and remind the students that it is important for them to check their comprehension as they are reading. Remind the students that yesterday they learned a couple of “fix-up” strategies, or tools a student can use when he does not understand what he has read. Review that one strategy is to reread the part of the book he does not understand slowly and carefully. Another strategy is to read ahead and look for more information.

Distribute self-stick notes to each student. Tell the students that as they read today, you want them to pause occasionally and ask themselves if they understand what they are reading. If a student does not understand what she is reading, she should mark the place in the text that she

does not understand with a self-stick note and then try one or both of the “fix-up” strategies—rereading and reading ahead—to see if the strategies help her understand what she is reading. Explain that at the end of IDR you will check in with the students to see how they did with using “fix-up” strategies. Then have the students get their books and read silently for 20–25 minutes. After they have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 30) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 33 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask and discuss:

- Q** *Was there any part of your reading that you did not understand today? Tell us about it.*
- Q** *What “fix-up” strategy did you try? What happened when you [reread/read ahead]?*

If a student has tried both of the “fix-up” strategies and still does not understand the text he is reading, refer him to the “Reading Comprehension Strategies” chart and encourage him to try the strategy listed on it. Alternatively, you might encourage the student to ask you or a classmate for help.

Have the students return to their desks and put away their texts.

## In this lesson, the students:

- Hear and discuss part of an expository nonfiction book
- Brainstorm what they think they know about the topic
- Generate “I wonder” statements about the topic
- Use wondering to make sense of the book
- Read independently for 20–25 minutes
- Explain their thinking

## 1 Get Ready for Partner Work

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Explain that during today’s lesson, pairs will talk again about what you read aloud. Ask:

- Q** *How can you help your partner explain his or her thinking? What questions could you ask your partner? How would that help you when you are working together?*

## 2 Introduce the Reading from *Animal Senses*

Explain that the part of the book you will read today tells about how animals hear. Ask:

- Q** *What do you think you know about how animals hear?*

Have a few volunteers share their thinking. Ask:

- Q** *Based on what you think you know, what do you wonder about how animals hear?*

Display the “What We Wonder About How Animals Hear” chart (WA2) and list a few of the students’ responses. Write each response as an “I wonder” statement.

### What We Wonder About How Animals Hear

- I wonder if the shape of an animal's ears helps it hear better.*
- I wonder if animals with floppy ears don't hear as well as animals with pointy ears.*
- I wonder how animals hear underwater.*

WA2

## Materials

- *Animal Senses* (pages 16–23)
- “What We Wonder About How Animals Hear” chart (WA2)
- *Student Response Book* page 16

## Teacher Note

This lesson may take an extended amount of time. You might conduct the lesson in two sessions, stopping after Step 3 in the first session and then continuing with the rest of the lesson at a later time.

Explain that after you read the first part of the book today, the students will discuss the ideas on the chart and what they learned from the reading.

### 3 Read Pages 16–19 of *Animal Senses* Aloud

Read pages 16–19 aloud slowly and clearly, showing the illustrations and stopping as described below. (On page 18, skip the activity “Hear what you’re missing,” but read the text box titled “Ears do more than hear.”) Clarify vocabulary as you read.

#### Suggested Vocabulary

**mate:** male or female partner (p. 16)

**eavesdropping:** listening in secret to a conversation (p. 20)

**survival:** staying alive (p. 20)

**obstacles:** things that get in the way (p. 21)

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**feather-covered:** covered with feathers (p. 16)

**flappers:** things that move with a beating motion—in this case, an elephant’s large ears (p. 16)

**wiggling:** making small movements from side to side or up and down (p. 16)

**rumbling:** with a low and rolling sound, like the sound of thunder far away (p. 20)

**echoes:** sounds that have bounced off an object and so are heard again (p. 21)

#### ELL Note

You might have the students act out flapping their arms and wiggling their bodies.

Stop after:

**p. 16** “They can also move their ears around to hear better.”

Ask:

 **Q** *What have you learned so far about how animals hear? Turn to your partner.*

Have two or three volunteers share their ideas with the class. Briefly refer to the “What We Wonder About How Animals Hear” chart and ask the class:

**Q** *What “I wonder” statements have been explained in the reading so far?*

**Q** *What else do you wonder about?*

Have a few volunteers share their thinking, and quickly record any additional “I wonder” statements on the chart. Reread the last sentence

before the stop and continue reading to the next stop. Follow the same procedure at the following stops:

- p. 17** “your long ears would help you keep cool in your hot, dry, desert home . . .” [Note that this stop is mid-sentence.]
- p. 19** “If you think ears are always on a creature’s head, then you’re in for a surprise.”

Continue reading to the end of page 19.

#### 4 Write “I Wonder” Statements and Read Pages 20–23 Aloud

Tell the students that before you finish reading about how animals hear, you want them to think about what more they want to know about the topic. Use “Think, Pair, Share” to discuss:

 **Q** *What else do you wonder about how animals hear?* [pause] *Turn to your partner.*

Have the students turn to *Student Response Book* page 16, “What I Wonder About How Animals Hear,” and individually record their “I wonder” statements. Read page 20, stopping after:

**p. 20** “For some animals, hearing is more important for survival than seeing.”

Have the students review their “I wonder” statements, and then ask:

 **Q** *Which of your “I wonder” statements have been explained in the reading so far? Turn to your partner.*

Have a few volunteers share their ideas. Ask:

 **Q** *What else do you wonder? Turn to your partner.*

Have the students individually record their “I wonder” statements. Follow this procedure at the next stop:

**p. 21** “You would be able to hear, find and catch an insect in less than half a second.”

Reread the last sentence before the stop. Then read “Underwater echoes” on page 22 and continue reading to the bottom of page 23.

#### 5 Discuss the Readings and “I Wonder” Statements

Facilitate a class discussion about what the students learned from the readings. Be ready to reread passages and show illustrations again to help the students recall what they heard. Ask:

- Q** *What did you learn today about how animals hear?*
- Q** *What does it mean to say that animals “feel with sound”?*

Have the students review their “I wonder” statements. Then ask and briefly discuss:

**Q** *Which of your “I wonder” statements do you think were explained in the reading? How were they explained?*

**ELPS 3.B.ii**  
Step 4 (all)

Remind the students that wondering during reading can help them better understand what they are reading. Encourage the students to practice wondering when they read independently.

## INDIVIDUALIZED DAILY READING

### 6 Read Independently and Wonder

Have the students get their texts and read silently for 20–25 minutes. Ask them to think before they read about what they wonder about the topics of their texts, and to notice as they read whether the texts explain what they wonder about. Tell the students that at the end of IDR you will ask the students to share what they wondered with the class. After the students have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 30) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 33 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share what they wondered about their texts and if what they wondered was explained in their texts. Have each volunteer tell the title of the text he read, the author’s name, and what the text is about. Ask questions such as:

- Q *What is your [book] about?*
- Q *What is something you wondered about the topic of your [book]?*
- Q *Was what you wondered explained in the [book]? If so, what did you learn?*

Have the students return to their desks and put away their texts.

---

## EXTENSIONS

### Start a “What We Learned About Animal Senses” Chart

Show the cover of *Animal Senses* and remind the students that this book tells how animals use the five senses (sight, touch, taste, smell, and hearing) to learn about their environment. Ask:

**Q** *What have you learned about animal senses so far?*

**Students might say:**

“I learned that some animals like birds have to turn their entire head in order to see beside them.”

“I learned that frogs can see almost all the way around their bodies without turning their heads.”

“I learned that that human eyes grow until you turn seven.”

“I learned that large eyes let in more light than small ones. Having large eyes helps giant squid see better underwater.”

Write the title “What We Learned About Animal Senses” on a sheet of chart paper. As the students share, record their ideas on the chart. If the students struggle to answer the question, support their thinking by asking questions such as:

**Q** *What have you learned about how animals [see]?*

**Q** *How are people’s senses like animals’ senses? How are they different?*

**Q** *How do animals use their senses to [find food/protect themselves]?*

### Do the “Hear what you’re missing” Activity

Make enough copies of the activity on page 18 of *Animal Senses* for each pair to have one. Before partners begin the activity, brainstorm as a class about how ear shape and flexibility of the ear affect hearing. Then distribute a sheet of paper, tape, and the instructions to each pair of students. Encourage them to read and follow the steps of the activity. You will need to play some music or create some other source of sounds. Support students who struggle to read the activity by reading it aloud once with them before they begin.

---

#### Teacher Note

You might post the “What We Learned About Animal Senses” chart where everyone can see it; throughout the unit, add to the chart any new facts that the students learn about animal senses.

**Materials**

- Expository text for teacher modeling, selected ahead
- *Student Response Book* page 17
- “I Wonder’ Statements” chart (WA3)
- “Class Assessment Record” sheet (CA1)

**In this lesson, the students:**

- Read independently
- Wonder about texts read independently
- Explain their thinking

**1 Review the Week**

Have the students get their *Student Response Books*, pencils, and texts for independent reading and sit at desks with partners together. Remind the students that this week they generated “I wonder” statements about how animals see and hear and they listened for information about those statements in *Animal Senses*. Remind them that they also focused on explaining their thinking and showing respect for one another. Explain that they will practice these things today during independent reading.

**2 Model Wondering About an Expository Text**

Remind the students that the purpose of learning strategies together is for the students to use them independently to make sense of their own reading. Explain that before they begin to read independently today, partners will talk about what they are wondering about the topics of their texts. Then they will use their wondering to help them think about their reading.

Have the students turn to *Student Response Book* page 17, “I Wonder’ Statements.”

Display the “I Wonder’ Statements” chart (WA3) and then model writing “I wonder” statements about the expository text you selected. Introduce the text by briefly examining the cover, looking at several pages, and commenting on the text features. Then read the first two or three sentences of the text aloud. Model wondering about the topic aloud and then writing “I wonder” statements about your text.

**You might say:**

“After looking at a few pages of *Body Bugs* by Jennifer Swanson, I wonder how many kinds of bugs live on the human body. I’ll write: *I wonder how many bugs live on the human body.* I also wonder why we can’t feel the bugs on our bodies. I’ll write: *I wonder why we can’t feel the bugs on our bodies.* Finally, I wonder how people discovered the bugs that live on humans. I’ll write: *I wonder how the bugs that live on humans were discovered.*”

### 3 Write “I Wonder” Statements

Have the students look at their texts in the same way, examining the covers and exploring any text features. Have each student read the first two or three sentences of his text or, if he is in the middle of a text, have him reread the last two or three sentences he read. Have the students write what they are wondering about on *Student Response Book* page 17, “I Wonder’ Statements.”

When most students are finished writing, have partners share their ideas. Explain that the students will read independently and then partners will talk about whether what they wondered is explained in their texts.

### 4 Read Independently

Have the students read independently for 15–20 minutes. As the students read, circulate among them and ask individual students to tell you what their texts are about and whether any of their “I wonder” statements are explained in them.

### 5 Discuss the Independent Reading

At the end of the independent reading time, have partners talk about their reading. Have each student tell her partner the title of her text and the author’s name and then talk about what she read. As partners talk, circulate among them and listen as they discuss their reading.

#### CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to generate “I wonder” statements?
- Do they use “I wonder” statements to think about their texts?
- Do they refer to the texts when discussing their “I wonder” statements?

(continues)

**ELPS 4.D.i**  
Step 3 (all)

**TEKS 6.B.ii**  
Student/Teacher  
Activity  
Step 3 and Step 4 (all)

#### Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit’s Individual Comprehension Assessment.

## Vocabulary Note

Next week you will revisit *Animal Senses* to teach the Week 6 vocabulary lessons.

## CLASS ASSESSMENT NOTE *(continued)*

Record your observations on the “Class Assessment Record” sheet (CA1); see page 27 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are generating and using “I wonder” statements to think about their texts, proceed with the lesson and continue on to Week 2.
- If **about half of the students** are generating and using “I wonder” statements to think about their texts, continue on to Week 2 and plan to monitor students who are having difficulty. Since this is the first of three weeks of questioning, the students may need more experience with, and modeling of, questioning to become comfortable with it.
- If **only a few students** are generating and using “I wonder” statements to think about their texts, you might give the class additional instruction by repeating Days 1, 2, and 3 of this week using an alternative book before continuing on to Week 2. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

Have several students share with the class “I wonder” statements they wrote and what they found out about these things in their reading today. You might have them read aloud the pertinent parts of their texts. Ask:

- Q *Which of your “I wonder” statements was most helpful in thinking about your reading today? How was it helpful?*
- Q *What more do you wonder, now that you’ve read some of the text?*

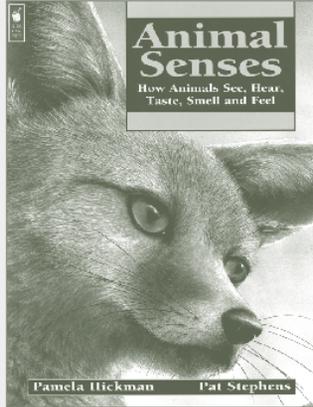

## 6 Reflect on the Partner Work

Without mentioning any of the students’ names, give examples of respectful ways you saw partners working together as well as respectful ways you saw partners working through problems together.

# Week 2

## OVERVIEW

### ***Animal Senses: How Animals See, Hear, Taste, Smell and Feel\****

by Pamela Hickman, illustrated by Pat Stephens

Readers learn fascinating facts about how various animals experience the world.

*\*This book was also used in Week 1.*

### **Online Resources**

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### **Whiteboard Activities**

- WA4–WA7

#### **Assessment Forms**

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheet (CN1)

#### **Professional Development Media**

- “Adapting Lessons for English Language Learners” (AV13)

### Comprehension Focus

- Students use questioning to help them make sense of texts.
- Students use schema to articulate all they think they know about a topic before they read.
- Students read independently.

### Social Development Focus

- Students develop the skill of explaining their thinking.

## 🕒 DO AHEAD

- ✓ Prior to Day 2, prepare a sheet of chart paper with the title “Questions About Animals’ Sense of Smell” and another sheet of chart paper with the title “Words That Can Begin Questions.”
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA2); see page 28 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 6 lessons this week.

# Day 1

## Read-aloud/ Guided Strategy Practice

### Materials

- *Animal Senses* (pages 24–26)
- “What We Wonder About Animals’ Sense of Smell” chart (WA4)
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA5)

### ELL Note

You might support your students with limited English proficiency by providing prompts for responding to the questions, such as “I know . . .” and “I wonder . . .” For more information about supporting English Language Learners at various levels of proficiency, see “Support for English Language Learners (ELLs)” in the Introduction. To learn more, view “Adapting Lessons for English Language Learners” (AV13).

### In this lesson, the students:

- Hear and discuss part of an expository nonfiction book
- Brainstorm what they think they know about a topic
- Generate “I wonder” statements about the topic
- Use wondering to make sense of the book
- Read independently for 20–25 minutes and write in their reading journals
- Explain their thinking

### 1 Get Ready for Partner Work

Gather the class with partners sitting together, facing you. Remind them that they have been learning how to use wondering to help them think about what they are reading, and that they will practice again this week. They will also talk about their thinking in pairs and with the class.

### 2 Review *Animal Senses* and Introduce the Reading

Show the cover of *Animal Senses* and remind the students that they have been learning about how animals use their senses of sight and hearing to sense their environments. Ask:

**Q** *What have you learned about animal senses so far?*

Have a few volunteers share their thinking.

### 3 List “I Wonder” Statements About Animals’ Sense of Smell

Tell the students that today you will read aloud from the part of *Animal Senses* that tells about animals’ sense of smell. Ask:

**Q** *What do you think you know about animals’ sense of smell?*

Have a few volunteers share their thinking with the class. Then ask:

**Q** *Based on what you think you know, what do you wonder about animals’ sense of smell?*

Display the “What We Wonder About Animals’ Sense of Smell” chart (WA4) and list a few of the students’ responses on it.

### What We Wonder About Animals' Sense of Smell

*I wonder how animals smell things underwater.*

*I wonder how animals without noses smell things.*

Explain that the students will continue to wonder about animals' sense of smell as they listen to the reading and that you will add their "I wonder" statements to the chart.

## 4 Read Part of *Animal Senses* Aloud

Read pages 24–26 aloud slowly and clearly, showing the illustrations and stopping as described below. Clarify vocabulary as you read.

### Suggested Vocabulary

**glands:** parts of the body that make things such as tears or scents (p. 25)

**upwind:** in the direction opposite to the way the wind is blowing (p. 26)

**downwind:** in the same direction the wind is blowing (p. 26)

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**sniff:** breathe in through the nose to smell something (p. 24; act out sniffing)

**whiff:** slight smell (p. 24)

**avoid detection:** keep from being seen (p. 26)

Stop after:

**p. 24** "A good sense of smell is very important for survival."

Ask:

**Q** *What have you learned so far about animals' sense of smell? Turn to your partner.*

After a moment, refer to the "What We Wonder About Animals' Sense of Smell" chart and ask:

**Q** *What "I wonder" statements have been explained in the reading so far?*

**Q** *What else do you wonder?*

### Teacher Note

While the students are talking, notice whether they are referring to the book and explaining their thinking.

Quickly record any additional “I wonder” statements on the chart. Then reread the last sentence before the stop and continue reading to the next stopping point.

**p. 25** “you would sniff the wind to find out what other animals are nearby, especially before you went out into an open field.”

Ask:

 **Q** *What have you learned so far about animals’ sense of smell? Turn to your partner.*

Without discussing as a class, refer to the “What We Wonder About Animals’ Sense of Smell” chart and ask:

**Q** *What “I wonder” statements have been explained in the reading so far?*

**Q** *What else do you wonder?*

Have a few volunteers share their thinking and quickly record any additional “I wonder” statements on the chart. Then reread the last sentence before the stop and continue reading to the end of page 26.

 Have partners discuss what they learned.

### Teacher Note

Save the “What We Wonder About Animals’ Sense of Smell” chart (WA4) to use on Day 2.

### Facilitation Tip

Continue to practice **asking questions once** without repeating or rewording them and then **using wait-time**. Notice the effect this has on the students’ attentiveness during class discussions.

## 5 Discuss the Reading and “I Wonder” Statements

Facilitate a discussion about what the students learned from the reading. Be ready to reread passages and show illustrations again to help the students recall what they heard. Ask:

**Q** *What are some ideas and facts you and your partner heard and discussed during the reading?*

**Q** *How does leaving a scent trail help animals like deer?*

**Q** *Why is it important for an animal to stay downwind of its prey?*

Refer to the “What We Wonder About Animals’ Sense of Smell” chart and ask:

**Q** *Which of these “I wonder” statements did you think about as I read the book? Explain your thinking.*

## 6 Reflect on the Partner Work

Facilitate a brief discussion of how partners did explaining their thinking. Ask:

**Q** *How did you and your partner explain your thinking to each other today? Were there times when you didn’t understand each other? What did you do when that happened? How did that help?*

**Students might say:**

“At one point, my partner didn’t understand what I was saying, and he asked me to say it again. I said it a little differently and he understood.”

# INDIVIDUALIZED DAILY READING

## 7 Read Independently and Write About What the Students Wondered

Remind the students that they are reading nonfiction texts during IDR. Have them get their texts and read silently for 20–25 minutes. Ask them to think before they read about what they wonder about the topics of their texts and to notice as they read whether the texts explain what they wonder about. Tell the students that at the end of IDR, they will write about what they wondered in their reading journals. After the students have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 30) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 33 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask the students to think quietly about what they wondered about their texts and whether what they wondered was explained in their texts.

Have the students return to their desks and open their *Student Response Books* to the next blank page in the Reading Journal section. Remind the students that this is where they can write about what they are reading. Explain that today you would like each student to write a journal entry about what she wondered about her reading.

Display the “Journal Entry” chart (WA5) and explain your expectations for what the journal entry should include.

#### Journal Entry

Write a journal entry about the text you are reading.

Please include:

- The title and the author’s name
- What the text is about
- What you wondered about the text
- What you learned about the topic

WA5

#### TEKS 6.B.i

Student/Teacher Activity

Step 7

(all, beginning on page 133  
continuing on to page 134)

#### Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit’s Individual Comprehension Assessment.

## Teacher Note

If the students have difficulty writing about what they wondered, you might model writing about what you wondered about a nonfiction text. For example, you might write: *I am reading Animal Senses by Pamela Hickman. This book is about how animals use their senses to survive. I wondered how some animals like owls and skunks can see so well at night. I learned that animals that are active at night have more rods in their eyes and that rods help animals see in the dark.*

## ELL Note

This activity is especially helpful for English Language Learners. Hands-on activities support their learning.

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

## EXTENSION

### Do the “Take a whiff of the wind” Activity

Make enough copies of the activity on page 26 of *Animal Senses* for every three students to share. Put the students into groups of three. Before the students begin working together, brainstorm with the class about how animals can smell each other even over long distances. Then distribute a lidded container of vinegar and the instructions to each group. Provide space outdoors and encourage the students to read and follow the steps of the activity. Support students who struggle to read the activity by reading it aloud once with them before they begin.

# Day 2

## Read-aloud/Strategy Lesson

### Materials

- *Animal Senses* (pages 27–29)
- “What We Wonder About Animals’ Sense of Smell” chart (WA4) from Day 1
- “Questions About Animals’ Sense of Smell” chart, prepared ahead
- “Words That Can Begin Questions” chart, prepared ahead, and a marker
- “Reading Comprehension Strategies” chart

### In this lesson, the students:

- Hear and discuss part of an expository nonfiction book
- Ask questions about the book using *who*, *what*, *where*, *when*, *why*, and *how*
- Use questioning to make sense of the book
- Read independently for 20–25 minutes
- Explain their thinking

### ABOUT QUESTIONING

Questioning is an effective comprehension strategy because it helps readers actively engage with text and think about an author’s intent. The students externalize their thinking by discussing their questions in Week 2 and writing them in Week 3. The eventual goal is for the students to internalize the strategy of forming questions and reading for answers and to use the strategy regularly to make sense of their independent reading. For more information, see “The Grade 4 Comprehension Strategies” in the Introduction.

## 1 Introduce Questioning and Restate “I Wonder” Statements as Questions

Gather the class with partners sitting together, facing you. Display the “What We Wonder About Animals’ Sense of Smell” chart (WA4) from Day 1, and remind the students that they have been using “I wonder” statements to help them think about texts. Explain that thinking about “I wonder” statements has prepared them to learn a strategy that good readers use to make sense of text: *questioning*. Explain that questioning involves asking questions to help you pay close attention to what you are reading.

Point out that some of the statements have already been explained in the reading. Ask:

**Q** Which “I wonder” statements are we still curious about?

**Q** How can we restate those “I wonder” statements as questions?

Have a few volunteers share their thinking. Direct the students’ attention to the “Questions About Animals’ Sense of Smell” chart and record their questions on it.

**Questions About Animals’  
Sense of Smell**

How do animals smell things underwater?

How do animals without noses smell things?

After several students have shared their thinking, point out that the words *who*, *what*, *when*, *where*, *why*, and *how* are commonly used to begin questions. Direct the students’ attention to the “Words That Can Begin Questions” chart and list these question words on it. Ask:

**Q** What other words can begin questions?

Explain that you will read more about animals’ sense of smell, and that you will stop several times to have partners talk about what they are learning and the questions they have.

## 2 Read Part of *Animal Senses* Aloud

Read pages 27–29 aloud slowly and clearly, showing the illustrations and stopping as described on the next page. Clarify vocabulary as you read.

**TEKS 6.B.i**  
Student/Teacher Narrative  
Step 1 (all)

### Teacher Note

If the students have difficulty rephrasing their “I wonder” statements as questions, choose several statements from the “What We Wonder About Animals’ Sense of Smell” chart (WA4) and model rephrasing them.

### Teacher Note

The students may suggest a number of other words, including *if*, *do*, *is*, *are*, and *what if*. Record the students’ suggestions on the “Words That Can Begin Questions” chart.

### Teacher Note

Notice how well partners are talking and listening to each other. Note pairs that seem comfortable interacting as well as those that are having difficulty. Be ready to share some of your observations at the end of the lesson.

### Teacher Note

The intent in this part of the lesson is to help the students get in the habit of generating questions. Have them generate *any* questions they can think of related to the reading. Accept their questions without discussion. Hearing others' questions gives the students examples of the kinds of questions that can be asked.

If a student offers an idea that is not in the form of a question, ask the class, "How can we state that idea as a question?"

## Suggested Vocabulary

**antennae:** feelers on the head of an insect (p. 27)

**barbels:** whisker-like parts of certain fish, such as catfish (p. 27)

**tentacles:** arms like those of an octopus (p. 27; see the illustration)

**communicate:** share information (p. 28)

**urinate:** pass liquid waste from the body (p. 29)

**colony:** group of individuals that live together (p. 29)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**super sniffer:** something that is very good for smelling with (p. 27)

Stop after:

- p. 27** "Their huge noses make their voices louder and deeper which may attract mates and scare off enemies more easily."

Ask:

- Q** *What have you learned so far about animals' sense of smell? Turn to your partner.*

After a moment, refer to the "Questions About Animals' Sense of Smell" chart and ask:

- Q** *What questions have been discussed in the reading so far?*

- Q** *What other questions could we ask at this point?*

Have a few volunteers share their thinking and quickly record additional questions on the chart.

### Students might say:

"Why do bigger noses make an animal's voice louder?"

"Does an elephant make noise through its nose or its mouth?"

"Do animals without noses make noise?"

Without stopping to answer the questions, reread the last sentence before the stop and continue reading aloud to the next stop. Follow the same procedure at each of the following stops:

- p. 28** "Animals use sounds and sights to communicate, but smells are also very important for sending messages."

- p. 29** "If you were a fox you would leave smells to warn others not to come near."

Continue reading to the end of page 29.

### 3 Discuss the Reading and the Students' Questions

Facilitate a discussion about the reading and the students' questions. Be ready to reread passages and show illustrations again to help the students recall details. Ask:

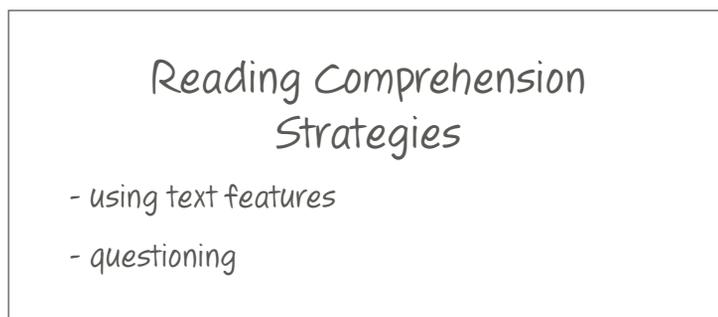

- Q *What is one thing you learned from the reading today?*
- Q *In what ways do humans and animals use their noses differently?*
- Q *What did you learn about how animals use smells for sending messages?*

Refer to the "Questions About Animals' Sense of Smell" chart and ask:

- Q *Which of these questions were discussed in the reading today? How were they discussed?*
- Q *How did asking these questions help you pay close attention to the reading?*
- Q *Which questions were not discussed? How do you know?*

### 4 Add Questioning to the "Reading Comprehension Strategies" Chart

Point out that questioning can be especially useful when reading expository texts, like *Animal Senses*, which are full of information that can be hard to understand or remember. Direct the students' attention to the "Reading Comprehension Strategies" chart and add *questioning* to it.

Remind the students that the chart is meant to help them remember the comprehension strategies they have learned so they can practice the strategies with their own reading. Explain that they will continue to explore questioning together in the coming weeks, and encourage them to look for opportunities to ask questions as they read independently.

### Teacher Note

Save the “Words That Can Begin Questions” chart to use throughout the unit.

### ELL Note

Help your students with challenging vocabulary as needed.

## 5 Discuss the Partner Work

Without mentioning any of the students’ names, share some of your observations of how partners did talking and listening to each other when discussing the book. Then ask and briefly discuss:

**Q** *If you had difficulty explaining your thinking to each other today, what is one thing you could try tomorrow to help it go more smoothly? How might that help?*

Tell the students that in the next lesson they will hear another section of the book and have another opportunity to practice questioning.

## INDIVIDUALIZED DAILY READING

## 6 Read Independently and Ask Questions

Have the students get their texts and read silently for 20–25 minutes. Ask the students to think before they read about questions they have about the topics of their texts. Ask them to think as they read about whether their texts discuss their questions. Tell the students that at the end of IDR you will ask them to share their questions with the class. After the students have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 30) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 33 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share what they read with the class. Have each volunteer tell the title of the text he read, the author’s name, and what the text is about. Then have him share a question he had about the topic of his text and tell whether the text discusses the question. Have the students return to their desks and put away their texts.

## In this lesson, the students:

- Hear and discuss part of an expository nonfiction book
- Brainstorm what they think they know about the topic
- Use questioning to make sense of the book
- Read independently for 20–25 minutes
- Explain their thinking

## 1 Get Ready for Partner Work

Gather the class with partners sitting together, facing you. Explain that during today’s lesson, pairs will talk again about what you read aloud. Ask:

- Q** *How can you help your partner explain his or her thinking? What questions can you ask your partner? How would that help you when you are working together?*

## 2 Introduce the Reading and List Questions

Show the cover of *Animal Senses* and remind the students that they have been learning about how animals see, hear, and smell. Remind them that they also practiced using questions to help them think about the book.

Explain that today you will read aloud the part about animals’ sense of taste. Before reading, ask:

-  **Q** *What questions about animals’ sense of taste can we ask before reading? Turn to your partner.*

Display the “Questions About Animals’ Sense of Taste” chart (WA6) and list a few of the students’ questions. Do not take time to discuss the questions now.

### Questions About Animals’ Sense of Taste

*Do all animals have tongues?*

*If an animal doesn’t have a tongue, how does it taste things?*

*Do animals taste different flavors, like salty, sweet, and sour?*

WA6

Explain that you will stop during the reading to give partners a chance to talk and think of other questions.

## Materials

- *Animal Senses* (pages 30–33)
- “Words That Can Begin Questions” chart from Day 2
- “Questions About Animals’ Sense of Taste” chart (WA6)

**TEKS 6.B.ii**

**TEKS 13.A.iii**

**TEKS 13.A.iv**

Student/Teacher Narrative  
Step 2 (all)

**TEKS 6.B.ii**

Student/Teacher Activity

Step 2 (discussion question)

## Teacher Note

If necessary, review the words on the “Words That Can Begin Questions” chart.

TEKS 13.A.iii  
TEKS 13.A.iv  
Student/Teacher Activity  
Step 3 and Step 4  
(all, beginning on page  
140 and continuing on to  
page 141)

### 3 Read Part of *Animal Senses* Aloud and Ask Questions

Read pages 30–33 aloud slowly and clearly, showing the illustrations and stopping as described below. (On page 32, read only the text box titled “Tasting without tongues.”) Clarify vocabulary as you read.

#### Suggested Vocabulary

**taste buds:** small areas on your tongue that sense if food is sweet, salty, sour, or bitter (p. 30)

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**taste/tasting:** sense that allows you to tell the flavor of food with your tongue (p. 30)

**tongue:** movable muscle in your mouth used for tasting, swallowing, and talking (p. 30; point to your tongue)

Stop after:

**p. 30** “Your taste buds are on your tongue, but you may be surprised to find out what body parts other animals use for tasting.”

Ask:

 **Q** *What have you learned so far about animals’ sense of taste? Turn to your partner.*

After a moment, refer to the “Questions About Animals’ Sense of Taste” chart and ask:

**Q** *What questions have been discussed in the reading so far?*

**Q** *What other questions can we ask?*

Have a few volunteers share their thinking, and quickly record additional questions on the chart. Without answering the questions at this point, reread the last sentence before the stop and continue reading to the next stop. Follow the same procedure at each of the following stops:

**p. 32** “If you were a catfish you could tell if something was good to eat by swimming close to it, because your body would be covered with taste buds.”

**p. 33** “Cats also use their tongues to clean and brush their fur.”

Continue reading to the end of page 33.

## 4 Discuss the Reading and the Students' Questions

Facilitate a discussion about the reading and the students' questions. Be ready to reread passages and show illustrations again to help the students recall what they heard. Ask:

- Q *What is one thing you learned from the reading today?*
- Q *What did you learn about different ways animals taste things?*
- Q *How are animal tongues different from human tongues? How are they the same?*

Refer to the “Questions About Animals’ Sense of Taste” chart and ask:

- Q *Which of these questions got you thinking as you listened to the reading? Explain your thinking.*

Explain that in the next lesson you will read about animals’ sense of touch and animals’ supersenses.

## INDIVIDUALIZED DAILY READING

### 5 Read Independently and Ask Questions

Have the students get their texts and read silently for 20–25 minutes. Ask the students to think before they read about questions they have about the topics of their texts. Have each student think as he reads about whether his text discusses his questions. Tell the students that at the end of IDR you will ask them to share their questions with partners. After the students have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 30) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 33 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each partner tell the title of the text she read, the author’s name, and what the text is about. Then have her share a question she had about the topic of her text and tell whether the text discusses the question. After partners have had a chance to share, discuss as a class:

- Q *What did your partner share with you today about his or her reading?*

#### ELL Note

You may need to model answering this question for your English Language Learners. Then repeat the question and have your students give their answers.

Remind the students that the purpose of sharing their partners' thinking is to help them develop their listening skills. Have the students return to their desks and put away their texts.

# Day 4

## Read-aloud/ Guided Strategy Practice

### Materials

- *Animal Senses* (pages 34–39)
- “Questions About Animals’ Sense of Touch and Animals’ Supersenses” chart (WA7)
- “Class Assessment Record” sheet (CA2)

### In this lesson, the students:

- Hear and discuss part of an expository nonfiction book
- Brainstorm what they think they know about the topic
- Use questioning to make sense of the book
- Read independently for 20–25 minutes
- Explain their thinking

### 1 Review Questioning

Gather the class with partners sitting together, facing you. Show the cover of *Animal Senses* and remind the students that they have been using questioning to help them think about the book. Tell the students that today they will continue to use questioning as you read about animals’ sense of touch and about animals’ supersenses. Before reading, ask:

**Q** *What questions can we ask before reading about animals’ sense of touch, or how animals feel things? Turn to your partner.*

**Q** *What questions can we ask before reading about animals’ supersenses? Turn to your partner.*

Have a few volunteers share their thinking.

#### Students might say:

“Do animals feel textures of things, like scratchy things or smooth things?”

“How do animals feel things if they don’t have fingers?”

“What are supersenses?”

“Do people have supersenses too?”

Display the “Questions About Animals’ Sense of Touch and Animals’ Supersenses” chart (WA7) and list a few of the students’ questions. Do not take time to discuss the questions now.

### Questions About Animals' Sense of Touch and Animals' Supersenses

*Do animals feel textures of things, like scratchy things or smooth things?*

*How do animals feel things if they don't have fingers?*

*What are supersenses?*

*Do people have supersenses too?*

Explain that you will stop during the reading to give partners a chance to talk and to think of other questions.

## 2 Read Parts of *Animal Senses* Aloud and Ask Questions

Read pages 34–39 (skipping page 36) aloud slowly and clearly, showing the illustrations and stopping as described below. Clarify vocabulary as you read.

### Suggested Vocabulary

**compass:** instrument for finding directions, such as north and south (p. 38)

**migrating birds:** birds flying from one area or climate to another (p. 39)

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**electricity:** form of energy (p. 38)

Stop after:

**p. 35** “When you found something the right shape and texture—such as a clam or crab—you’d dig it out with your tusks and eat it.”

Ask:

**Q** *What have you learned so far about animals' sense of touch? Turn to your partner.*

As partners talk, circulate among them and listen as they discuss the text.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to ask questions?
- Are their questions relevant to the reading?
- Are they referring to the reading to determine whether their questions have been discussed?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 28 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are asking relevant questions and referring to the text to determine whether their questions have been discussed, proceed with the lesson and continue on to Week 3.
- If **about half of the students** are asking relevant questions and referring to the text to determine whether their questions have been discussed, continue on to Week 3. Plan to monitor the students who are having difficulty with the strategy during IDR. You might have them read short passages from their books aloud to you and think of one or two questions they could ask at that point in the reading. Then have them continue reading for a while, and check in with them to see whether their questions were discussed.
- If **only a few students** are asking relevant questions and referring to the text to determine whether their questions have been discussed, you might want to give the class additional instruction by repeating this week’s lessons using an alternative book before continuing on to Week 3. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

After a moment, refer to the “Questions About Animals’ Sense of Touch and Animals’ Supersenses” chart and ask:

**Q** *What questions have been discussed in the reading so far?*

**Q** *What other questions could we ask?*

Have a few volunteers share their thinking, and quickly record additional questions on the chart. Without discussing the questions, reread the last sentence before the stop and continue reading to the next stopping point. Follow this procedure at the following stops:

**p. 37** “Other animals use different body parts for feeling.”

**p. 38** “In addition to the five basic senses of sight, hearing, smell, taste and touch, some animals have supersenses that can detect things people can’t.”

Continue reading to the end of page 39, including the captions and the text box titled “Superhuman senses.”

### 3 Discuss the Reading and the Students' Questions

Facilitate a discussion about the reading and the students' questions. Be ready to reread passages and show illustrations again to help the students recall what they heard. Ask:

- Q *What did you learn about animals' sense of touch? What did you learn about animals' supersenses?*
- Q *How does an animal's sense of touch help it survive?*

Refer to the "Questions About Animals' Sense of Touch and Animals' Supersenses" chart and ask:

- Q *Which of these questions were discussed in the reading today? Where in the reading were they discussed?*
- Q *How did asking this question help you pay close attention to the reading?*
- Q *Do others agree that this question was discussed in this way? Why or why not?*
- Q *Which questions were not discussed? How do you know?*

Remind the students that *questioning* is a powerful strategy for helping readers think about and remember what they read. Encourage them to look for opportunities to ask questions when they read independently.

### 4 Discuss Working Together

Remind the students that they have been focusing on explaining their thinking and on being respectful to their partners. Ask:

- Q *How have you improved in your ability to explain your thinking clearly? Can you give us an example?*
- Q *What problems have you worked through with your partner over the past weeks? How has that helped your partnership?*

## INDIVIDUALIZED DAILY READING

### 5 Read Independently and Share Reading with Partners

Have the students get their texts and read silently for 20–25 minutes. Tell the students that at the end of IDR today, you will ask them to talk with partners about interesting things they learned from their texts. After the students have settled into their reading, confer with individual students.

#### Teacher Note

These questions help the students think about how they treat each other and the effect this has on their work, feelings, and relationships. Students become less egocentric and more aware of others' feelings when they have opportunities to analyze the effect of their behavior on others.

## Vocabulary Note

Next week you will revisit *Animal Senses* to teach the Week 7 vocabulary lessons.

**ELPS 5.F.ii**  
Writing About Reading  
(all, beginning on page  
146 and continuing on to  
page 147)

## Materials

- *Animal Senses*

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 30) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 33 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students talk about their reading with partners. Have each student tell his partner the title of his text, the author’s name, and some interesting things he learned. Have the students return to their desks and put away their texts.

## WRITING ABOUT READING

### Write Opinions About Animal Senses

Show the cover of *Animal Senses* and remind the students that they heard this book earlier. Explain that today they will write about which animal sense is the most interesting and why. Turn to page 6 and remind the students that the first sense they heard about was the sense of sight. As you slowly turn pages 6–15, have the students think quietly about what they learned about animals’ sense of sight. Then have them share their thinking with the class. Write their ideas where everyone can see them, under the heading “Sight.”

Follow this procedure for the remaining senses: hearing (pages 16–23), smell (pages 24–29), taste (pages 30–33), touch (pages 34–37), and supersenses (pages 38–39).

Ask and briefly discuss:

**Q** *Which sense do you think is the most interesting? Why?*

Have a few volunteers share with the class.

#### Students might say:

“I think the sense of smell is the most interesting because animals can use it to find food and also to communicate.”

“I think seeing is the most interesting because animals use it when they hunt for prey and when they need to get away from other animals!”

“I think the most interesting sense is taste because it helps some animals stay away from poisonous food.”

Tell the students that when they talk about which one of several things they think is the most interesting, they are giving an opinion. Explain that people might have different opinions about the same thing and that this is fine. What matters is that they give reasons to explain their thinking. Then ask the students to watch as you think aloud and model writing about which sense you think is the most interesting.

**You might say:**

"I think the sense of smell is the most interesting. I'll write: *I think the sense of smell is the most interesting of the animal senses.* Now I will give a reason why I think it's the most interesting, based on what we've read. I'll write: *I think so because an animal's sense of smell helps it in many different ways. It can help an animal catch prey, keep other animals away, share information about how to get somewhere, or find its young.* I want to give another reason why the sense of smell is so interesting. I'll write: *The sense of smell can help animals as different as ants and octopuses survive.*"

Have the students write their own opinions about which animal sense is the most interesting and why. If time permits, invite the students to share their writing with the class.

---

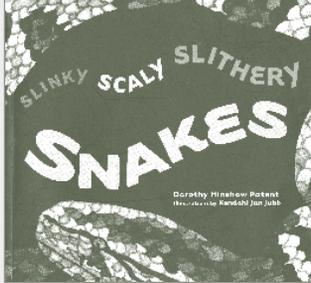

## EXTENSION

### Practice Using Questioning with Content-area Reading

When you read as a class in your social studies, science, or other textbooks, use the read-aloud procedures described in Step 2 of today's lesson ("Read Parts of *Animal Senses* Aloud and Ask Questions") to have the students practice using questions to make sense of their reading. After the reading, have the students reflect on which questions got them thinking about the reading, which questions were discussed (and how), and which were not discussed.

# Week 3

## OVERVIEW

### *Slinky Scaly Slithery Snakes*

by Dorothy Hinshaw Patent, illustrated by Kendahl Jan Jubb  
Readers learn about many species of snakes and their survival techniques.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### **Whiteboard Activity**

- WA8

#### **Assessment Forms**

- “Class Assessment Record” sheet (CA3)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

#### **Reproducible**

- Unit 3 family letter (BLM1)

#### **Professional Development Media**

- “Using Blogs in the Classroom” tutorial (AV45)

## Comprehension Focus

- Students learn the procedure for “Stop and Ask Questions.”
- Students use questioning to help them make sense of texts.
- Students use schema to articulate all they think they know about a topic before they read.
- Students read independently.

## Social Development Focus

- Students work in a responsible way.
- Students build on one another’s thinking during class discussions.
- Students develop the skill of explaining their thinking.

## ① DO AHEAD

- ✓ Prior to Day 2, write the title “Discussion Prompts” on a sheet of chart paper. Write three discussion prompts (*I agree with \_\_\_\_\_ because . . . , I disagree with \_\_\_\_\_ because . . . , and In addition to what \_\_\_\_\_ said, I think . . .*) on the chart paper (see the diagram in Step 3).
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA3); see page 29 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, select an expository text that is familiar to the students, and prepare to model asking questions about it (see Step 2). Plan the questions you will ask ahead of time so the modeling goes smoothly.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 7 lessons this week.

### Materials

- *Animal Senses* from Week 2
- *Slinky Scaly Slithery Snakes* (pages 3–11)
- “Reading Comprehension Strategies” chart
- *Student Response Book* page 18
- “Words That Can Begin Questions” chart from Week 2

### Teacher Note

This week the social questions emphasize taking responsibility. The students begin to shift their reliance for monitoring their behavior and solving all their problems from you onto themselves. Building trusting relationships allows the students to take responsibility for solving small problems, while feeling safe enough to ask you for help in solving serious problems (such as bullying or excessive teasing).

**ELPS 4.F.x**  
Step 3  
(all, beginning on page 150 and continuing on to page 151)

### In this lesson, the students:

- Learn the procedure for “Stop and Ask Questions”
- Hear and discuss part of an expository nonfiction book
- Brainstorm what they think they know about a topic
- Use questioning to make sense of the book
- Read independently for 20–25 minutes
- Work in a responsible way

## 1 Discuss Taking Responsibility

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Tell the students that today they will be responsible for both thinking on their own and sharing with partners. Ask:

- Q *What will you do to take responsibility for yourself during “Turn to Your Partner” today?*
- Q *Why is it important for you to take responsibility for yourself?*

## 2 Introduce “Stop and Ask Questions”

Direct the students’ attention to the “Reading Comprehension Strategies” chart. Remind the students that *questioning* is a powerful strategy for helping readers pay close attention to what they are reading.

Explain that today you will teach the students how to use a thinking tool called “Stop and Ask Questions.” Tell the students that they will stop several times during a reading to write questions that come to mind. Have the students turn to *Student Response Book* page 18, “Stop and Ask Questions About *Slinky Scaly Slithery Snakes* (1).” Explain that as you read aloud today, you will stop four times for them to think about questions.

Tell the students that you will model writing questions at the first stop, and then they will write questions on their own at the next three stops. Explain that they will use these questions to help them think about the reading and to discuss the text after the reading.

## 3 Introduce the Reading

Show the cover of *Animal Senses* and remind the students that for the past few weeks they have been reading from this expository nonfiction book to learn about how different animals use their senses to help them survive.

Show the cover of *Slinky Scaly Slithery Snakes* and tell the students that this week you will read aloud from another expository nonfiction book—one that gives information about how snakes use their bodies and their senses to survive. Read the title and the names of the author and the illustrator aloud. Ask:

**Q** *What do you think you know about snakes?*

Have a few volunteers share their thinking, and then ask the class to listen carefully as you read.

#### **4** Read Part of *Slinky Scaly Slithery Snakes* Aloud with “Stop and Ask Questions”

Read pages 3–11 aloud slowly and clearly, showing the illustrations and stopping as described below. Clarify vocabulary as you read.

##### **Suggested Vocabulary**

**burrow:** dig a tunnel or hole (p. 3)

**reticulated:** having lines that look like a net (p. 4)

**spine:** sharp, pointed growth on animals and plants (p. 10)

**venom:** poison (p. 11)

##### **ELL Vocabulary**

English Language Learners may benefit from hearing additional vocabulary defined, including:

**survive:** live or exist (p. 3)

**spaghetti:** long, thin noodle (p. 4)

**scaly:** covered with small, hard plates, like a fish (p. 5)

**are swimming champions:** swim very well (p. 7)

**feels threatened:** feels that something may hurt it (p. 10)

Stop after:

**p. 5** “It has everything it needs to hunt and kill and not much more.”

Ask:

**Q** *What question can you ask right now?*

Ask a few volunteers to share their questions with the class. Write the questions exactly as they are stated where everyone can see them. If the students have difficulty generating questions, model writing a few (for example, *How does a snake find its prey? How does a snake kill its prey? How do snakes move on land and in water?*).

##### **ELPS 3.F.1**

##### **Step 4**

(all, beginning on page 151 and continuing on to page 152)

##### **Teacher Note**

Refer to the “Words That Can Begin Questions” chart and remind the students to start their questions with these words.

## Teacher Note

The goal of this activity is for the students to practice asking questions. Remind the students to write *any* questions they can think of at this point in the reading. This helps the students avoid getting bogged down by the need to think of only “good” questions. Later they will have a chance to think about the kinds of questions that generate the most discussion about a book.

## Teacher Note

As you circulate, notice whether the students are talking and listening to each other in a responsible way, and what problems, if any, you want to bring up at the end of the lesson.

## Facilitation Tip

Reflect on your experience over the past two weeks with **asking questions once** without repeating or rewording them and then **using wait-time**. Does this technique feel comfortable and natural for you? Do you find yourself using it throughout the school day? What effect has using this technique had on your students’ attentiveness and responsiveness in discussions? We encourage you to continue to use and reflect on this technique throughout the year.

Without stopping to discuss the questions, reread the last sentence before the stop and continue to the next stopping point:

**p. 7** “Many snakes can swim, but sea snakes are swimming champions.”

Have the students individually write questions that come to mind in the Stop 2 box on *Student Response Book* page 18. When most students are finished writing, reread the last sentence before the stop and continue reading to the next stopping point. Follow this procedure at the next two stopping points:

**p. 9** “Trees are a perfect home for many snakes.”

**p. 10** “Snakes have many ways to avoid attack by other animals such as eagles, raccoons, or badgers.”

Continue reading to the bottom of page 10.

## 5 Use Questions to Discuss the Reading in Pairs

Tell the students that now they will use their questions to help them talk about the reading with their partners. Give the students a few moments to review their questions individually, and then have partners discuss the reading using their questions.

As partners talk, circulate among them and notice whether the students have generated questions independently and whether the questions are relevant to the reading. If you notice partners having difficulty using their questions to discuss the reading, either because they did not write questions or because they cannot get started talking, you might stimulate their interaction by asking them the questions that follow.

If the students did not write questions, ask:

**Q** *Look at the questions we wrote together at the first stop. What did you find out during the reading that might help answer some of the questions? Talk to each other and explain your thinking.*

If the students wrote questions but are not discussing them, ask:

**Q** *How are your questions similar to or different from your partner’s? Which of the questions that you or your partner wrote are discussed in the text, and how are they discussed? Which are not discussed?*

## 6 Discuss the Reading

After several minutes, facilitate a discussion using the questions that follow. Be ready to reread passages and show illustrations again to help the students recall what they heard.

**Q** *What is one new thing you learned about snakes from today’s reading?*

**Q** *What did you find out about how snakes move in different environments?*

Ask the students to review the questions they wrote. Ask:

**Q** *What is a question that got you and your partner talking? What did you hear in the reading that helped you talk about that question?*

Have a few volunteers share their thinking.

**Students might say:**

“My partner asked, ‘How do snakes move without legs?’ We thought the book told us a few different ways. One way was that a snake has lots of muscles that connect to its spine. The snake uses its muscles to grip and push against the ground.”

“My partner asked, ‘How do snakes breathe underwater?’ We remembered that the book told us that some snakes have nostrils on top of their heads to help them breathe in the water.”

Explain that tomorrow the students will hear more from the book *Slinky Saly Slithery Snakes*, and they will have another chance to use “Stop and Ask Questions” and to work with their partners.

## INDIVIDUALIZED DAILY READING

### 7 Read Independently and Ask Questions

Have the students get their texts and read silently for 20–25 minutes. Ask the students to think before they read about questions they have about the topics of their texts. Ask them to think as they read about whether their texts discuss their questions. Tell the students that at the end of IDR you will ask them to share their questions with partners. After the students have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 30) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 33 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each partner tell the title of the text she read, the author’s name, and a bit about what the text is about. Then have her share a question she had about the topic of her text and tell whether the text discusses the question. After partners have had a chance to share, discuss as a class:

**Q** *What did your partner share with you today about his or her reading?*

Have the students return to their desks and put away their texts.

### Materials

- *Slinky Scaly Slithery Snakes* (pages 14–20)
- *Student Response Book* page 19
- “Discussion Prompts” chart, prepared ahead

### In this lesson, the students:

- Learn discussion prompts to build on one another’s thinking
- Practice “Stop and Ask Questions”
- Hear and discuss part of an expository nonfiction book
- Use questioning to make sense of the book
- Read independently for 20–25 minutes
- Work in a responsible way

### 1 Review “Stop and Ask Questions” and Introduce the Reading

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that they used “Stop and Ask Questions” to help them think about the reading from *Slinky Scaly Slithery Snakes*.

Tell the students that today you will read more from *Slinky Scaly Slithery Snakes* and they will use “Stop and Ask Questions” again to help them pay close attention to the text.

Have the students turn to *Student Response Book* page 19, “Stop and Ask Questions About *Slinky Scaly Slithery Snakes* (2).” Explain that you will stop four times during the reading. At each stop, the students will write their questions in the appropriate box. After the reading, they will use the questions to talk about the text with their partners.

### 2 Read Part of *Slinky Scaly Slithery Snakes* Aloud with “Stop and Ask Questions”

Read pages 14–20 aloud slowly and clearly, showing the illustrations and stopping as described on the next page. Clarify vocabulary as you read.

### Suggested Vocabulary

**camouflage:** coloring or covering that makes animals look like their surroundings (p. 17)

**prey:** animals that are hunted by other animals for food (p. 17)

**predators:** animals that hunt other animals for food (p. 17)

**lie in ambush:** (idiom) hide and then attack (p. 17)

**vibrations:** very quick back-and-forth movements (p. 19)

**particles:** very, very small pieces (p. 19)

**sensors:** parts of the body that can sense heat or sound (p. 20)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**blotches:** patches of different colors (p. 17)

**concentrated:** grouped together (p. 20)

Stop after:

**p. 15** “You can tell how a snake deals with danger by its color pattern.”

Ask the students to jot down a question in the Stop 1 box on *Student Response Book* page 19. If they have difficulty generating questions, call on two or three volunteers to share their questions aloud. Write these questions exactly as they are stated where everyone can see them. Do not take time to discuss the questions now. If the students still need support, model writing a few more questions (for example, *How does a snake’s color pattern tell you how it deals with danger?*).

When most students are finished, reread the last sentence and continue reading. At the next three stopping points, have the students individually write questions that come to mind:

**p. 17** “Snakes are camouflage experts.”

**p. 19** “A snake’s senses help it find food.”

**p. 20** “Heat-sensitive nerve endings on their heads allow many snakes to feel the body heat of their prey.”

Continue reading to the end of page 20.

### **3** Discuss Questions and Introduce Discussion Prompts

Tell the students that now they will use their questions to help them talk about the reading with their partners. Give the students a few moments to review their questions individually, and then have partners discuss the reading using their questions. Encourage them to think about whether their questions were discussed in the text, and how. When most partners are finished, facilitate a discussion using the following questions:

**Q** *What did you learn in today’s reading that surprised you? Explain your thinking.*

**Q** *What did you find out about how snakes use their colors or markings?*

Ask the students to review the questions they wrote. Ask:

**Q** *What is a question that got you or your partner talking? What did you hear in the reading that helped you talk about that question?*

Have a few volunteers share their thinking.

### Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit’s Individual Comprehension Assessment.

### ELPS 3.B.iii

#### Step 3

(all, beginning on page 155 and continuing on to page 156)

### Teacher Note

Disagreements about whether and how a question is answered in the book are opportunities for the students to think more deeply and use evidence from the text to support their opinions. Be ready to reread passages and show illustrations again to help the students recall what they heard.

### Teacher Note

If your students are already familiar with the discussion prompts, simply direct their attention to the prompts and remind the students to use them.

### Teacher Note

Save the “Discussion Prompts” chart to use on Day 3.

#### Students might say:

“My partner asked, ‘How can you tell how a snake deals with danger by looking at its color pattern?’ The book said that snakes that have stripes slither away from danger. It also said that some snakes use their color to blend into their environment so that they can’t be seen.”

“My partner asked, ‘Do snakes hear their prey?’ We don’t think this was really answered in the book. We learned that snakes don’t hear well, but we still don’t know if they use their sense of hearing to find their prey.”

- Q** *Do others agree with the way [Sarah and Raul] discussed the question? What did you hear in the reading that makes you agree or disagree?*

Stop early in the discussion and direct the students’ attention to the “Discussion Prompts” chart.

### Discussion Prompts

- I agree with \_\_\_\_\_ because . . .
- I disagree with \_\_\_\_\_ because . . .
- In addition to what \_\_\_\_\_ said, I think . . .

Explain that using these three prompts will help the students listen and build on one another’s thinking. Ask them to use one of these prompts when they add to the discussion. You might model a couple of examples like those in the “Students might say” note.

#### Students might say:

“I agree with [Sarah and Raul] that the question ‘Do snakes hear their prey?’ isn’t really answered because the book just says that snakes don’t hear well.”

“I disagree with [Sarah and Raul] because the book says that snakes use their sense of touch and smell to find food. I think this means that snakes don’t use their sense of hearing or sight to find food.”

## 4 Reflect on Using the Discussion Prompts

Facilitate a brief discussion about how the students did using the discussion prompts during the class discussion. Ask:

- Q** *How did using the discussion prompts help you listen to one another? How did it help you take responsibility for your thinking during the discussion?*

Explain that tomorrow the students will use “Stop and Ask Questions” again to think about their reading, use the prompts in discussion, and work with their partners.

# INDIVIDUALIZED DAILY READING

## 5 Read Independently and Ask Questions

Have the students get their texts and read silently for 20–25 minutes. Ask the students to think before they read about questions they have about the topics of their texts. Ask them to think as they read about whether their texts discuss their questions. Tell the students that at the end of IDR you will ask them to share their questions with the class. After the students have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 30) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 33 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share what they read with the class. Have each volunteer tell the title of the text she read, the author’s name, and what the text is about. Then have her share a question she had about the topic of her text and tell whether the text discusses the question. Have the students return to their desks and put away their texts.

## TECHNOLOGY EXTENSION

### Ask an Expert About Animal Senses

Show the covers of *Animal Senses* and *Slinky Scaly Slithery Snakes*. Remind the students that they heard parts of these books earlier and learned about how different animals use their senses to survive. Page through *Animal Senses* slowly, showing the illustrations. Ask:

**Q** *What did you learn about animal senses from this book?*

Follow the same procedure to review pages 19–20 of *Slinky Scaly Slithery Snakes*. Then ask:

**Q** *What questions do you still have about animal senses?*

As the students respond, jot down their questions where everyone can see them.

**TEKS 6.B.i**  
Student/Teacher Activity  
Step 5 (all)

### ELL Note

Help your English Language Learners with challenging vocabulary as needed.

**TEKS 6.B.v**

**TEKS 13.A.iii**  
**TEKS 13.A.iv**  
Student/Teacher Activity  
Technology Extension (all)

**TEKS 12.D.i**  
Student/Teacher Narrative  
Technology Extension (all)

### Technology Tip

Prior to doing this activity, locate an animal expert or organization to which you can e-mail the students’ questions about animal senses. You might search online using the keywords “ask a zookeeper” or “ask the zoo.” Alternatively, you might contact a local zoo to see if a zookeeper on staff is willing to correspond with your class via e-mail or a class blog. For more information about setting up and maintaining a class blog, view the “Using Blogs in the Classroom” tutorial (AV45).

Tell the students that they will try to find answers to some of their questions by sending an e-mail to an animal expert. Have the students help you write an e-mail, or fill out the information request form (using your school’s contact information) to be sent to the organization or person you identified. Share any responses you receive with the students. (Be sure to check your “junk e-mail” folder to ensure that response e-mails do not get lost.)

# Day 3

## Guided Strategy Practice

### Materials

- *Slinky Scaly Slithery Snakes* (pages 14–20)
- *Student Response Book* page 19
- “Class Assessment Record” sheet (CA3)
- *Animal Senses* from Week 2

### In this lesson, the students:

- Practice using discussion prompts to build on one another’s thinking
- Hear part of an expository nonfiction book read aloud again
- Use questioning to make sense of the book
- Read independently for 20–25 minutes
- Work in a responsible way

### 1 Review “Stop and Ask Questions”

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Review that in the previous lesson, the students used “Stop and Ask Questions” to think about a section of *Slinky Scaly Slithery Snakes*. Remind them that the purpose of asking questions is to help them pay close attention to a text and to listen for answers to their questions.

Ask the students to turn to *Student Response Book* page 19, “Stop and Ask Questions About *Slinky Scaly Slithery Snakes* (2).” Have them review the questions they wrote yesterday.

Explain that today you will reread the part of *Slinky Scaly Slithery Snakes* that you read yesterday. Ask:

**Q** *What is a question you wrote yesterday that you want to find the answer for today?*

Have a few volunteers share their questions with the class.

### 2 Reread Part of *Slinky Scaly Slithery Snakes* Aloud

Read pages 14–20 aloud, slowly and clearly. Stop briefly at the end of each page and have the students talk with their partners about any questions that they think were discussed on that page. Circulate as the students talk. Listen for evidence that they understood the text and are referring to it in their discussion.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students referring to the text to talk about their questions?

Record your observations on the “Class Assessment Record” sheet (CA3); see page 29 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are referring to the text to talk about their questions, proceed with the lesson and continue on to Day 4.
- If **about half of the students** or **only a few students** are referring to the text to talk about their questions, you might give the class additional instruction by repeating Days 1, 2, and 3 of this week using an alternative book before continuing on to Day 4. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list. Be aware that students will have more opportunities to practice “Stop and Ask Questions” in the coming units.

### 3 Discuss the Reading Using the Discussion Prompts

At the end of the reading, facilitate a discussion about the reading. Direct the students’ attention to the “Discussion Prompts” chart and remind them to build on one another’s thinking using the discussion prompts they learned yesterday. Ask:

- Q *What did you hear during the second reading that you missed the first time?*
- Q *What new information did you hear that answered any of your questions?*

Tell the students that tomorrow they will use “Stop and Ask Questions” to make sense of their independent reading.

### 4 Discuss What the Students Learned About Animal Senses

Show the covers of *Animal Senses* and *Slinky Scaly Slithery Snakes* and remind the students that both of these books tell how animals use their senses to help them survive. Use “Think, Pair, Share” to discuss:

- Q *What did you learn about how animals use their senses to help them survive? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

#### Teacher Note

Use “Turn to Your Partner” as needed during this discussion to increase participation and accountability for thinking.

#### Teacher Note

Keep the “Discussion Prompts” chart posted until the students use these prompts naturally.

#### Teacher Note

If you started a “What We Learned About Animal Senses” chart (see the extension “Start a ‘What We Learned About Animal Senses’ Chart” in Week 1, Day 3), you might add to it as the students share their responses.

**Students might say:**

"I learned that you can tell if an animal is a predator by looking at where its eyes are on its head. Animals that have both eyes on the front of their head are hunters."

"I learned that animals use their scent to communicate with one another."

"I learned that animals like moles and snakes use vibrations to sense food or danger."

"I learned that some animals have more than five senses. Snakes and sharks have supersenses that help them find food."

If the students struggle to answer the question, support their thinking by asking questions such as:

**Q** *What have you learned about how animals [see]?*

**Q** *How are people's senses like animals' senses? How are they different?*

**Q** *How do animals use their senses to [find food/protect themselves]?*

Tell the students that one way to learn more about a topic is by reading two—or even three or four—books about it. Show the covers of the books again, and point out that the students learned more about animal senses by reading these two books.

## INDIVIDUALIZED DAILY READING

### 5 Read Independently and Ask Questions

Have the students get their texts and read silently for 20–25 minutes. Ask the students to think before they read about questions they have about the topics of their texts. Ask them to think as they read about whether their texts discuss their questions. Tell the students that at the end of IDR you will ask them to share their questions with partners. After the students have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 30) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 33 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each partner tell the title of the text he read, the author's name, and what the

text is about. Then have him share a question he had about the topic of his text and tell whether the text discusses the question.

Have the students return to their desks and put away their texts.

---

## WRITING ABOUT READING

### Write About How Animals Use the Sense of Sight

Show the covers of *Animal Senses* and *Slinky Scaly Slithery Snakes*, and remind the students that they heard parts of these books earlier and learned about how different animals use their senses. Explain that today they will combine information from both books to write about animals' sense of sight.

Show page 6 of *Animal Senses* and explain that you will reread a few pages from the part of the book that tells about animals' sense of sight. Ask the students to think as they listen about what facts they are learning about how animals use this sense. Read pages 6–8 aloud slowly and clearly, showing the illustrations. Then ask:

**Q** *What did you learn about how animals use the sense of sight?*

Have a few volunteers share their thinking with the class. Write their ideas where everyone can see them. Then show page 14 of *Slinky Scaly Slithery Snakes* and review that this part of the book is about how snakes use the sense of sight to survive. Ask the students to think as they listen about what else they are learning about how animals use the sense of sight. Read pages 14–17 aloud slowly and clearly, showing the illustrations. Then ask:

**Q** *What else did you learn about how animals use the sense of sight?*

Have a few volunteers share their thinking. Write their ideas where everyone can see them.

Ask the students to watch as you think aloud and model writing about how animals use the sense of sight, using facts from both texts.

**You might say:**

"I'll start by including some important facts I learned in *Animal Senses*. I'll write: *Many animals have specially designed eyes that help them see in ways that humans can't. Some, like frogs and deer, have large fields of vision. Others, like the giant squid, have huge eyes that help them see underwater.* Now I want to include some information from *Slinky Scaly Slithery Snakes*. I'll write: *Snakes use the sense of sight in a very different way. Many snakes have body markings that either help them hide from other animals or tell other animals to stay away.* I want to end with a sentence that wraps up my thinking. I'll write: *Whether they are looking out through their own eyes or sending messages seen by others, many animals depend on the sense of sight to help them stay alive.*"

Have the students write about the sense of sight using facts from both books. If time permits, invite the students to share their writing with the class.

### Materials

- *Animal Senses* from Week 2
- *Slinky Scaly Slithery Snakes*

### Technology Tip

To support the students in doing online research, you might teach the following technology mini-lessons found in Appendix B: Mini-lesson 4, “Choosing Effective Search Terms”; Mini-lesson 5, “Understanding Search Results”; Mini-lesson 6, “Narrowing Search Results and Using Filters”; and Mini-lesson 7, “Evaluating Research Sources.” For more information about teaching Technology Mini-lessons 4-7, see “About Teaching the Online Research Lessons” at the beginning of Technology Mini-lesson 4.

### Teacher Note

If the students present their reports in writing, you might encourage them to use at least one text feature in their reports.

## TECHNOLOGY EXTENSION

### Research and Report on Animal Senses

Show the covers of *Animal Senses* and *Slinky Scaly Slithery Snakes*, and remind the students that they heard parts of these books earlier and learned about how different animals use their senses. Explain that each student will research and report on how an animal uses its senses. Ask:

**Q** *What animals would you like to learn more about in order to find out how they use their senses?*

Write the students’ ideas where everyone can see them. Have each student select an animal to research.

Help each student locate at least two sources of information about the animal she selects. Sources might include books, magazines, encyclopedias, experts on the subject, and the Internet.

Once each student has at least two sources, write the following questions where everyone can see them:

**Q** *Is the information in the two sources the same? If not, how is it different?*

**Q** *What is particularly interesting or surprising about the way the animal you learned about uses its senses?*

Have the students read their sources with these questions in mind. Then have them discuss in pairs the answers to the questions.

Help the students decide how to report the information they learned. For example, each student might write a paragraph, make a poster, or give an oral presentation. Make time for the students to write up and share their information.

# Day 4

## Independent Strategy Practice

### Materials

- Expository text for teacher modeling, selected ahead
- Medium-size self-stick notes for each student
- “Journal Entry” chart (WA8)
- *Student Response Book*, Reading Journal section
- Copy of this unit’s family letter (BLM1) for each student

### In this lesson, the students:

- Read independently
- Use questioning to think about texts they read independently
- Write in their reading journals
- Explain their thinking

### 1 Review “Stop and Ask Questions”

Have the students get their *Student Response Books*, pencils, and texts for independent reading and sit at desks with partners together. Review that this week the students learned the strategy of questioning and the

thinking tool “Stop and Ask Questions” as a way to help them think about texts read aloud. Explain that they can also use the strategy to help them better understand what they read on their own.

## 2 Model Using “Stop and Ask Questions” with Independent Reading

Explain that the students will practice using “Stop and Ask Questions” as they read expository texts independently today. They will use self-stick notes to mark places in their reading where a question comes to mind, and they will write the question on the note. Remind them that they will use their written questions to help them discuss their reading afterward.

Model the procedure using a text the students are familiar with. Read several sentences aloud and think aloud about a question you have. Jot the question on a self-stick note, and place the note in the margin where you stopped reading.

### You might say:

“I’m wondering how boa constrictors can eat such large animals. Perhaps they don’t have jawbones like humans do. I’m going to write the question *How can boa constrictors eat animals that are bigger than they are?* and stick it here next to this picture of the boa constrictor eating the alligator.”

## 3 Read Independently

Distribute self-stick notes to each student and have the students read silently for 15–20 minutes. Stop the class at 5-minute intervals to have the students share with their partners any questions they have written on self-stick notes so far.

## 4 Discuss the Students’ Questions

Signal to let the students know when it is time to stop reading. Have the students talk with their partners about their questions and share what they found out in their reading about those questions. Remind them to support their thinking by referring to the text.

After partners have had time to talk, have several volunteers share their questions with the class. Probe the students’ thinking by asking questions such as:

- Q *What was happening in the book when you thought of that question?*
- Q *What did you find out about that question in your reading?*

**TEKS 6.B.iv**  
Student/Teacher Narrative  
Step 2 (all)

**TEKS 6.B.iv**  
Student/Teacher Activity  
Step 3 (all)

**TEKS 13.E.i**  
Student/Teacher Activity  
Steps 3–5  
(all, beginning on page 163  
and continuing on to page  
164)

### Teacher Note

It is important during this discussion for the students to be listening and responding to one another.

## Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

## ELL Note

Consider having students with limited English proficiency dictate journal entries for you to write down.

## Teacher Note

If the students struggle to write, you might wish to model writing a journal entry, as you did in Unit 2, Week 1, Day 4 (see Step 3).

## Vocabulary Note

Next week, you will revisit *Slinky Scaly Slithery Snakes* to teach the Week 8 vocabulary lessons.

## Teacher Note

For information on wrapping up this unit and conducting unit assessments, see "End-of-unit Considerations" on the next page.

## 5 Write in Reading Journals About the Students' Independent Reading

Display the "Journal Entry" chart (WA8) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

WA8

### Journal Entry

Write a journal entry about the text you are reading.

Please include:

- The title and the author's name
- What the text is about
- One question you wrote on a self-stick note
- What, if anything, you found out about that question in your reading
- If the reading didn't discuss your question, something else you learned

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries and the texts they are reading with the class.

## 6 Reflect on Working Together

Review that this week the students practiced using discussion prompts in class discussions to build on one another's thinking. They also thought about how they were taking responsibility for themselves. Use "Think, Pair, Share" to discuss questions such as:

**Q** *How do you think our class is doing with listening carefully to one another during class discussions? What do we do well? What do we want to do better?* [pause] *Turn to your partner.*

**Q** *What is one way you are learning to take responsibility for your own thinking and behavior?* [pause] *Turn to your partner.*

Explain that the students will have more opportunities to use "Stop and Ask Questions" to think about and discuss their independent reading. Emphasize that the students will not always be expected to write down their questions, but they should always be asking themselves questions and looking for answers when they read.

---

## EXTENSION

### Practice Using “Stop and Ask Questions” with Content-area Reading

Have the students use “Stop and Ask Questions” to help them be active readers of social studies, science, math, or other content-area texts. Encourage them to use self-stick notes to mark places where questions come to mind and to read to see what they can learn about their questions.

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of Unit 3. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit’s family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

### Assessment

- Before continuing on to the next unit, take this opportunity to assess individual students’ reading comprehension using the “Individual Comprehension Assessment” record sheet (IA1): see page 34 of the *Assessment Resource Book*.

TEKS 6.B.iv  
Student/Teacher Activity  
Extension (all)

# Unit 4

# Analyzing Text Structure

## FICTION, NARRATIVE NONFICTION, AND DRAMA

During this unit, the students analyze the elements of narrative text structure in three different types of text: fiction, narrative nonfiction, and drama. They study character, setting, plot, conflict, and theme, and in the fiction and narrative nonfiction texts, they also discuss the use of first- and third-person point of view. They use questioning to help them make sense of text, look for answers to their questions in the text, and think about whether their questions are answered directly, indirectly, or not at all. During IDR, they practice asking themselves questions and analyzing text structure as they read independently. Socially, they agree and disagree in a caring way and use discussion prompts to build on one another's ideas during discussions.

# Unit 4 Analyzing Text Structure

## RESOURCES

### Read-alouds

- *Thunder Cake*
- *The Princess and the Pizza*
- *Chicken Sunday*
- *The Bat Boy & His Violin*
- *Teammates*
- “Demeter and Persephone”
- “Co-chin and the Spirits”
- *Gluskabe and Old Man Winter* from *Pushing Up the Sky: Seven Native American Plays for Children*

### Writing About Reading Activities

- “Write Personal Opinions About *The Princess and the Pizza*”
- “Write Opinions About First- and Secondhand Accounts of Jackie Robinson’s Experiences”
- “Write About Text-to-text Connections in ‘Demeter and Persephone’ and ‘Co-chin and the Spirits’”

### IDR Mini-lessons

- Mini-lesson 2, “Self-monitoring and Using ‘Fix-up’ Strategies”
- Mini-lesson 4, “Reading with Expression”

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this unit.

### Whiteboard Activities

- WA1–WA8

### Assessment Forms

- “Class Assessment Record” sheets (CA1–CA5)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

### Reproducibles

- Unit 4 family letter (BLM1)
- (Optional) “First- and Secondhand Accounts of Jackie Robinson’s Experiences” (BLM2)
- (Optional) “Demeter and Persephone” (BLM3)
- (Optional) “Co-chin and the Spirits” (BLM4)

### Professional Development Media

- “Adapting Lessons for English Language Learners” (AV13)
- “Social Reflection” (AV14)
- “Asking Facilitative Questions” (AV21)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)

## RESOURCES (continued)

### Technology Extensions

- “Meet the Author: View an Interview with Patricia Polacco”
- “Compare a Written Version and an Oral Retelling of Another Gluskabe Myth”

### Extensions

- “Rewrite *The Princess and the Pizza* from a First-person Point of View”
- “Discuss Ethical Issues in *Chicken Sunday*”
- “Watch Stories”
- “List Narrative Texts Read in Daily Life”
- “Read Books on the Theme of Being Different”
- “Informally Discuss Cultural Setting”
- “Read More About Jackie Robinson”
- “Compare Points of View in *The Bat Boy & His Violin* and *Teammates*”
- “Compare Themes in *The Bat Boy & His Violin* and *Teammates*”
- “Read Another Myth About the Seasons”
- “Compare *Gluskabe and Old Man Winter* with Other Myths”

### Assessment Resource Book

- Unit 4 assessments

### Student Response Book

- “Stop and Ask Questions About *The Bat Boy & His Violin*”
- “Stop and Ask Questions About *Teammates*”
- “Stop and Ask Questions About ‘Demeter and Persephone’”
- “Stop and Ask Questions About ‘Co-chin and the Spirits’”
- “Excerpt from ‘Co-chin and the Spirits’”
- “*Gluskabe and Old Man Winter*”
- “Story Elements in *Gluskabe and Old Man Winter*”
- Reading Log
- Reading Journal

### Vocabulary Teaching Guide

- Week 8 (*Slinky Scaly Slithery Snakes*)
- Week 9 (*Thunder Cake; The Princess and the Pizza*)
- Week 10 (*Chicken Sunday*)
- Week 11 (*The Bat Boy & His Violin; Teammates*)
- Week 12 (“Demeter and Persephone”; “Co-chin and the Spirits”)

# Week 1

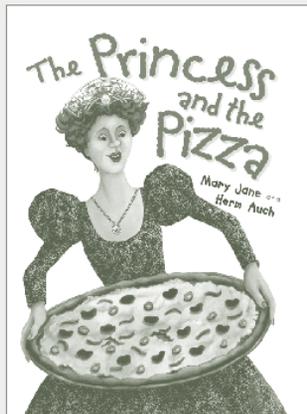

## OVERVIEW

### **Thunder Cake**

by Patricia Polacco

With help from her grandmother, a young girl overcomes her fear of thunderstorms.

### **The Princess and the Pizza**

by Mary Jane and Herm Auch

A former princess misses “princessing” and enters a competition to marry the prince of another kingdom.

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

### **Whiteboard Activities**

- WA1–WA2

### **Assessment Forms**

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)

### **Professional Development Media**

- “Asking Facilitative Questions” (AV21)

## Comprehension Focus

- Students explore elements of narrative text structure in fiction stories, including character, setting, and plot.
- Students discuss the use of first- and third-person points of view in stories.
- Students read independently.

## Social Development Focus

- Students work in a responsible way.
- Students listen respectfully to the thinking of others and share their own.
- Students build on one another's thinking during class discussions.
- Students develop the skill of explaining their thinking.

## DO AHEAD

- ✓ Consider reading this unit's read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding.
- ✓ Make available fiction, narrative nonfiction, and plays at a variety of levels so that students can practice asking questions and exploring story elements during IDR and Independent Strategy Practice throughout the unit. For more information, see "About Analyzing Text Structure" on Day 1.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during the unit.
- ✓ Prior to Day 1, collect the following books from previous units: *Animal Senses* from Unit 3 and *A Bad Case of Stripes*, *The Old Woman Who Named Things*, and *Song and Dance Man* from Unit 1.

(continues)

## J DO AHEAD *(continued)*

- ✓ Prior to Day 1, prepare a sheet of chart paper with the title “Important Elements of Stories.” Write these terms and definitions on the chart paper: *character: person in a story, setting: where and when a story takes place, and plot: what happens to the characters in a story (the events that make up the story).* (See the diagram in Step 5.)
- ✓ Prior to Day 1, make a class set of “IDR Conference Notes” record sheets (CN1); see page 53 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA1); see page 45 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 8 lessons this week.

**In this lesson, the students:**

- Begin working with new partners
- Hear and discuss a fiction story
- Discuss character, setting, and plot
- Read independently for 25–30 minutes
- Work in a responsible way

**ABOUT ANALYZING TEXT STRUCTURE**

In this unit, the students read and analyze the elements of narrative text structure in fiction and narrative nonfiction stories and drama by focusing on character, setting, plot, conflict, and theme. As they hear texts read aloud, they ask questions and make inferences about the plots, characters, and settings of the texts; the conflicts the characters face; and the themes of the texts. They practice using these story elements to make sense of narrative texts read independently during Individualized Daily Reading.

Provide a variety of narrative texts at a wide range of reading levels for the students to read during IDR. Narrative fiction includes chapter books, picture books, and short stories in various genres, such as mystery, adventure, science fiction, historical fiction, realistic fiction, fable, folktale, myth, and legend. Narrative nonfiction includes biography, autobiography, memoir, and some essays. Plays can include reader's theater scripts. For more information, see "The Grade 4 Comprehension Strategies" in the Introduction.

**1 Pair Students and Get Ready to Work Together**

Randomly assign partners and make sure they know each other's names. Gather the class with partners sitting together, facing you. Explain that during today's lesson, partners will talk about a book you read aloud. Review that talking with and listening to partners helps the students think more about what they are learning. Tell the students that at the end of the lesson, they will report on their partner conversations. Ask:

**Q** *What do you want to keep in mind today to be a responsible partner? Why will that be important?*

**Students might say:**

"I'll remember to listen carefully to what my partner says."

"I want to remember to listen because then my partner and I will have a good conversation."

"I want to remember to ask questions if I don't understand something my partner says."

**Materials**

- *Thunder Cake*
- *Animal Senses* from Unit 3
- *A Bad Case of Stripes* from Unit 1
- *The Old Woman Who Named Things* from Unit 1
- *Song and Dance Man* from Unit 1
- "Important Elements of Stories" chart, prepared ahead
- "Thinking About My Reading" chart
- Self-stick notes for each student
- Class set of "IDR Conference Notes" record sheets (CN1)
- *Assessment Resource Book* page 50
- "Reading Comprehension Strategies" chart

## 2 Discuss Narrative Texts

Show the cover of *Animal Senses* and remind the students that in previous lessons you read and talked about *expository texts*—texts that give factual, or true, information and are usually about particular topics. Explain that during the next few weeks, the students will read *narrative texts*—texts that tell stories.

Show the covers of *A Bad Case of Stripes*, *The Old Woman Who Named Things*, and *Song and Dance Man*, which they heard in Unit 1, and point out these are examples of narrative texts. Explain that there are many other kinds of narrative texts, including fairy tales, folktales, myths, adventures, mysteries, science fiction stories, narrative nonfiction stories, and plays. Take a few minutes to have the students brainstorm the titles of other stories they have read, heard, or seen (on television or as movies).

Explain that all stories have certain *elements*, or parts, in common and that these elements make them stories. For example, all stories are about characters and what happens to them. Use “Think, Pair, Share” to discuss:

 **Q** *What other elements do stories have in common? What makes a story a story?* [pause] *Turn to your partner.*

Have a few volunteers share their thinking.

### Students might say:

“Stories have a beginning, a middle, and an end.”

“Stories can have many characters or just a few.”

“There’s usually a problem in stories.”

“Something usually happens to the characters.”

Explain that you would like the students to think about other elements all stories have in common as you are reading aloud today.

## 3 Introduce *Thunder Cake*

Show the cover of *Thunder Cake* and read the title and the author’s name aloud. Explain that in this story a young girl, with help from her grandmother, overcomes her fear of thunderstorms. Tell the students that during the reading you will stop several times to have partners share their thoughts about the story.

### Teacher Note

As the students offer ideas, ask them to support their thinking with examples from their reading or viewing. You might record their ideas where everyone can see them.

### ELL Note

English Language Learners may benefit from seeing the illustrations before listening to the text.

## 4 Read Aloud

Read *Thunder Cake* aloud slowly and clearly, showing the illustrations and stopping as described below. Clarify vocabulary as you read.

### Suggested Vocabulary

**sultry:** very hot (p. 3)

**shudder:** shake (p. 3)

**horizon:** line where the sky and the earth seem to meet (p. 4)

**dry shed:** small building used as a storeroom (p. 14)

**trellis:** crisscross framework of wood used to support growing plants (p. 21; refer to the illustration on p. 20)

**churned:** made butter by shaking or stirring cream forcefully (p. 22; refer to the illustration on p. 23)

**samovar:** metal pot with a spigot (tiny faucet), used to make tea (p. 31; refer to the illustration on p. 27)

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**thunder:** loud noise during a rainstorm (p. 3)

**rattled:** made noise by shaking (p. 9)

**surveyed:** examined; looked at (p. 10)

**penned:** wrote down (p. 10)

**them eggs:** (dialect) those eggs (p. 12)

**careful-like:** (dialect) carefully (p. 12)

**ingredient:** item that goes into making something, like food (p. 18)

**from where I sit:** (idiom) from my point of view; in my opinion (p. 24)

**them things:** (dialect) those things (p. 24)

Stop after:

**p. 9** "‘Steady, child,’ she cooed. ‘Unless you let go of me, we won’t be able to make a Thunder Cake today!’"

Ask:

**Q** *What has happened in the story so far? Turn to your partner.*

Without sharing as a class, reread the last sentence before the stop and continue reading to the next stopping point.

**p. 24** "‘I’m not brave, Grandma,’ I said. ‘I was under the bed! Remember?’"

Ask:

**Q** *What has happened in this part of the story? Turn to your partner.*

Reread the last sentence on page 24 and continue reading to the end of the story.

### Teacher Note

Since listeners can easily miss details at the beginning of a story, consider rereading the first page before proceeding with the rest of the story. Stop after the first reading and ask the students to listen for any details they missed as they listen to the first page read aloud again. Use this technique, when appropriate, during read-alouds throughout the program.

### ELL Note

English Language Learners may benefit from more frequent stops and discussions during the reading, for example, after pages 12 and 18.

### Teacher Note

Not having pairs share as a class helps the students learn to rely on their partners, rather than solely on you, to confirm or support their thinking; it also helps to maintain the flow of the story.

### ELL Note

Consider rephrasing these questions for your English Language Learners, for example:

- Q *Who are the main people in the story?*
- Q *Where does the story take place?*
- Q *What happens in the story?*

### Teacher Note

You might explain that while characters are usually people, they can also be animals or other creatures. This is particularly common in children's books.

### Teacher Note

Save the "Important Elements of Stories" chart to use throughout the unit.

## 5 Discuss the Story and Highlight Story Elements

Facilitate a discussion using the questions that follow. Be ready to reread passages and show illustrations to help the students recall story details.

- Q *The characters of a story are "the people in a story." In Thunder Cake, who are the main characters?*
- Q *The setting of a story is "where and when a story takes place." What is the setting of Thunder Cake?*
- Q *The plot is "what happens to the characters in the story." How can we describe the plot in a few sentences?*

Direct the students' attention to the "Important Elements of Stories" chart.

### Important Elements of Stories

- *character: person in a story*
- *setting: where and when a story takes place*
- *plot: what happens to the characters in a story (the events that make up the story)*

Remind the students that all stories have certain elements, or parts, that make them stories. Read aloud the terms and definitions and explain that character, setting, and plot are three important elements of stories. Tell the students that in the next lesson they will think more about these story elements and they will work again with their partners.

## 6 Reflect on the Partner Work

Ask and briefly discuss:

- Q *What did you and your partner do to take responsibility for yourselves during "Turn to Your Partner"?*
- Q *What do you plan to do [the same way/differently] the next time you work with your partner?*

## INDIVIDUALIZED DAILY READING

### 7 Review and Practice “Fix-up” Strategies

Tell the students that for the next few weeks, they will read books that tell stories during IDR. Have them select their books and find places to sit.

Direct the students’ attention to the “Thinking About My Reading” chart and remind the students that it is important for them to check their comprehension as they are reading. Remind the students that earlier they learned a couple of “fix-up” strategies, or tools a student can use when she does not understand what she has read. Review that one strategy is to reread the part of the book she does not understand slowly and carefully. Another strategy is to read ahead and look for more information.

Distribute self-stick notes to each student. Tell the students that as they read today, you want them to pause occasionally and ask themselves if they understand what they are reading. If a student does not understand what he is reading, he should mark the place in the text that he does not understand with a self-stick note and then try one or both of the “fix-up” strategies—rereading and reading ahead—to see if the strategies help him understand what he is reading. Explain that at the end of IDR you will check in with the students to see how they did with using the “fix-up” strategies. Then have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Beginning today, and continuing throughout the unit, confer individually with the students about the narrative texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 53 of the *Assessment Resource Book*.

#### Teacher Note

During IDR today, the students practice two “fix-up” strategies they can use when they do not understand what they have read: rereading and reading ahead. To provide the students with additional support for using these and other “fix-up” strategies, and to see examples of how to model using the strategies, you might teach all or part of IDR Mini-lesson 2, “Self-monitoring and Using ‘Fix-up’ Strategies” (found in Appendix A).

#### ELL Note

Help your English Language Learners choose narrative texts at appropriate levels. Providing a limited number of teacher-selected texts will help them make good choices.

#### Teacher Note

Base the length of time the students are reading independently on their attention and engagement. Gradually add time as your students are ready. The goal is for them to read independently for up to 30 minutes by Unit 5.

### Teacher Note

Provide time on a regular basis for the students to record the books they have completed in their reading logs.

# Day 2

## Strategy Lesson

### Materials

- *Thunder Cake*
- “Important Elements of Stories” chart from Day 1

### Teacher Note

While the students do not need to remember the definitions of the elements, they do need to understand that common elements are one framework for thinking about stories. The goal is for the students to learn to use story elements to make sense of stories they read independently.

The story elements introduced in this unit will be revisited throughout the year.

Signal to let the students know when it is time to stop reading. Facilitate a brief class discussion about using the questions on the “Thinking About My Reading” chart to track their reading comprehension. Ask and briefly discuss questions such as:

- Q *Why is it important to stop as you are reading and ask yourself if you understand what you read?*
- Q *How do rereading and reading ahead help you make sense of text?*
- Q *Which comprehension strategy do you find the most helpful when you’re not understanding something you’re reading? Why?*

If a student has tried both of the “fix-up” strategies and still does not understand the text she is reading, refer her to the “Reading Comprehension Strategies” chart and encourage her to try the strategies listed on it. Alternatively, you might encourage the student to ask you or a classmate for help.

### In this lesson, the students:

- Hear a fiction story again
- Discuss setting
- Read independently for 25–30 minutes
- Use discussion prompts to build on one another’s thinking
- Solve problems by working together

### 1 Review the “Important Elements of Stories” Chart

Gather the students with partners sitting together, facing you. Show the cover of *Thunder Cake* and remind the students that you read the book aloud yesterday. Direct the students’ attention to the “Important Elements of Stories” chart and review that they discussed three important elements that are common to all stories: character, setting, and plot. Briefly review these, and explain that recognizing and thinking about story elements helps readers make sense of stories and understand them at a deeper level.

### 2 Review and Reread *Thunder Cake*

Briefly review *Thunder Cake* by asking:

- Q *Who are the characters in Thunder Cake?*
- Q *What is the plot? What happens to the characters?*

Explain that today you will reread the story. Ask the students to find out all they can about the setting, or when and where the story takes place, and then think about why the author might have chosen this setting.

Read the story aloud slowly and clearly, without stopping.

### 3 Discuss the Setting

At the end of the reading, facilitate a discussion about the setting. Encourage the students to support their thinking by referring to the text. Be ready to reread passages to help the students recall what they heard.

Use “Think, Pair, Share” to discuss:

 **Q** *What do you know about the setting of the story? When and where does this story take place? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class. If necessary, remind the students to use the discussion prompts they have learned to build on one another’s thinking.

#### Students might say:

“The story takes place during the summer. In the book it talks about summer days on the grandma’s farm.”

“In addition to what [Anton] said, we know that the story takes place on the grandma’s farm in the country.”

“In addition to what [Fei] said, we know that the grandma’s farm is in Michigan.”

Ask and briefly discuss:

 **Q** *Is the setting important in this story? Why does it make sense that a character like Grandma would make a Thunder Cake in a setting like this? Turn to your partner.*

**Q** *How would the story be different if it happened in a city? Turn to your partner.*

Have a few volunteers share their thinking.

#### Students might say:

“I think the setting is important. If they’re going to make a Thunder Cake, it has to take place where there is thunder.”

“I agree with [Blake]. Because the setting is a farm, the ingredients aren’t all in the kitchen. It takes time to walk around to find them. While they’re walking around, the thunder comes closer and closer.”

“If the story happened in a city, then they wouldn’t have to walk around to get all the ingredients. They would probably have all of them in the kitchen.”

“In addition to what [Zahira] said, if the setting was a city, they would just walk to the store to get the ingredients.”

#### Teacher Note

You may want to remind the students that readers frequently reread to deepen their understanding or enjoyment of a story. They reread to look for details they may have missed, to focus on a particular element of the story, or simply to enjoy the language or the emotions evoked by the story.

#### ELPS 4.G.iii

##### Step 3

(all, beginning on page 181 and continuing on to page 182)

#### Teacher Note

The discussion prompts are:

- “I agree with \_\_\_\_\_ because . . .”
- “I disagree with \_\_\_\_\_ because . . .”
- “In addition to what \_\_\_\_\_ said, I think . . .”

#### Facilitation Tip

During this unit, practice **asking facilitative questions** during class discussions to help the students build on one another’s thinking and respond directly to one another, not just to you. After a student comments, ask the class questions such as:

- Q** *Do you agree or disagree with [Daniela]? Why?*
- Q** *What questions can we ask [Daniela] about what she said?*
- Q** *What can you add to what [Daniela] said?*

To see this Facilitation Tip in action, view “Asking Facilitative Questions” (AV21).

**TEKS 5.A.ii**  
Student/Teacher Activity  
Step 5  
(first paragraph "read silently for 25 minutes...")

### Teacher Note

Periodically remind the students to ask themselves the questions on the "Thinking About My Reading" chart as they read independently and to select different books if they decide the ones they are reading are not at the right levels.

Tell the students that an author makes careful decisions about each element of a story, including the setting. Explain that thinking about what the setting of a story is and why the setting is important can help a reader make sense of the story.

Explain that in the next lesson, the students will think more about an author's use of character, setting, and plot.

## 4 Reflect on the Partner Conversations

Facilitate a brief discussion about how the students interacted. Ask:

- Q *How did talking with your partner go today? What problems did you have? How did you try to solve those problems?*
- Q *How did using the discussion prompts help you listen to each other?*

## INDIVIDUALIZED DAILY READING

## 5 Read Independently and Think About Setting

Ask the students to think as they read about the settings of their stories. Tell them that at the end of IDR, you will ask them to share with the class what they noticed about the settings of their stories. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share what they noticed about the settings of their stories. Remind each volunteer to tell the title of her book and the author's name. Ask questions such as:

- Q *What is the setting of your story? How do you know that?*
- Q *Do you think the setting is important in your story? Why or why not?*

Have the students return to their desks and put away their books.

## In this lesson, the students:

- Hear and discuss a fiction story
- Discuss character, setting, and plot
- Read independently for 25–30 minutes
- Use discussion prompts to build on one another’s thinking
- Explain their thinking and listen to one another

## 1 Review Story Elements

Direct the students’ attention to the “Important Elements of Stories” chart and remind them that they have been thinking about three important elements in stories: character, setting, and plot. (If necessary, review the definitions of these three story elements.)

Review that in the previous lesson you reread *Thunder Cake* and talked about its setting. Tell the students that today they will listen to another story and pay attention to the way the author uses character, setting, and plot.

## 2 Introduce *The Princess and the Pizza*

Show the cover of *The Princess and the Pizza* and read the title and the authors’ names aloud. Explain that the story is about a very smart princess named Paulina. Ask and briefly discuss:

**Q** *What kinds of things usually happen in stories about princesses?*

Have a few volunteers share their thinking with the class. If necessary, remind the students to use the discussion prompts they have learned to build on one another’s thinking.

Remind the students that the plot of a story is what happens to the characters in the story. Explain that readers can sometimes *predict*, or guess, what will happen in a story when the plot is familiar, such as in a story about a princess. Explain that as you read the story aloud, you would like the students to think about what is predictable, or not surprising, about the story and what is unpredictable, or surprising.

## 3 Read Aloud

Read *The Princess and the Pizza* aloud slowly and clearly, showing the illustrations and stopping as described on the next page. Clarify vocabulary as you read.

## Materials

- *The Princess and the Pizza*
- “Important Elements of Stories” chart
- “Class Assessment Record” sheet (CA1)
- “Reading Comprehension Strategies” chart and a marker

**TEKS 9.A.i**  
Student/Teacher Narrative  
Step 2 (on page 183) and  
Step 4 (on page 185)

## Suggested Vocabulary

**royal processions:** formal parades in which kings, queens or other members of a royal family walk or ride (p. 3)

**page:** boy who is a servant or messenger (p. 6)

**bodice:** top part of a woman's dress (p. 6)

**set up a wail among the princesses:** made the princesses start crying and complaining (p. 14)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**given up his throne:** stopped being the king (p. 3)

**humble shack:** small, plain house or hut (p. 3; refer to the illustration)

**Paulina's garden barely kept enough on the table:** Paulina's garden grew just enough food for them to eat (p. 3)

**Paulina missed princessing:** Paulina missed being a princess (p. 3)

**surveying:** looking out over a large area (p. 3)

**rummaged:** looked for something in a careless, messy way (p. 6)

**tiara:** crown (p. 6; refer to the illustration on p. 7)

**snipped:** cut with small, quick scissor cuts (p. 6)

**for Pete's sake:** an expression used to show annoyance (p. 9)

**bright-eyed:** well-rested after a good night's sleep (p. 10)

**of royal blood:** being in the family of a king or queen (p. 11)

**have a big mouth:** (idiom) talk too much and ask too many questions (p. 15)

**offending:** causing hurt or unhappiness (p. 16)

**will be beheaded:** will have their heads cut off (p. 19)

**scrumptious:** delicious (p. 24)

**kidding:** joking (p. 26)

Stop after:

- p. 8** "But when she got to Blom Castle, Paulina found she was only one of twelve princesses hoping to become the royal bride."

Ask:

- Q** *What is happening in the story? What do you think will happen next? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue reading to the next stopping point. At each of the following stopping points, follow the same procedure to have partners talk briefly about what is happening in the story and what they think will happen next.

- p. 16** "She reached under the pile of mattresses, pulled out the offending pea, and climbed into bed."

- p. 24** "Prince Drupert went right to Paulina's tray. 'It's not pretty, but it smells scrumptious.'"

As pairs talk, listen for evidence that they are using details from the text to make predictions and to support their thinking.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students use details from the text to make predictions and to support their thinking?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 45 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** or **about half of the students** are able to use details from the text to make predictions and support their thinking, proceed with the lesson and continue on to Day 4. You may wish to check in during IDR with students who are having difficulty.
- If **only a few students** are able to use details from the text to make predictions and support their thinking, you might give the class additional instruction by repeating Day 3 of this week using an alternative book before continuing on to Day 4. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

Continue reading to the end of the book.

## 4 Discuss Character, Setting, and Plot

Facilitate a discussion of the book using the questions that follow. Be ready to reread from the book to help the students recall what they heard.

- Q *What do we know about the setting of this story?*
- Q *Who are the main characters in the story? What happens to them?*

### Students might say:

“The author doesn’t say much about the setting. But most of the story happens at Prince Drupert’s castle.”

“The main characters are Paulina and Queen Zelda.”

“In addition to what [Carlos] said, Paulina’s father and Prince Drupert are also characters.”

“Paulina goes to the castle to try to marry Prince Drupert, but in the end she decides not to. She invents pizza and starts her own restaurant.”

Review that readers can sometimes predict, or guess, what will happen in a story when the plot is familiar. Ask:

- Q *What parts of the plot of *The Princess and the Pizza* are predictable (in which parts of the story could you guess what would happen)?*
- Q *What parts of the plot are unpredictable, or surprising?*

### Teacher Note

The students might mention books like *The True Story of the Three Little Pigs* or *The Frog Prince, Continued* by Jon Scieszka; *The Three Little Wolves and the Big Bad Pig* by Eugene Trivizas; *The Paper Bag Princess* by Robert Munsch; or *Cinderella Bigfoot* by Mike Thaler. If the students are not familiar with these stories, you might take time to read one or two of them aloud in the next few days.

#### Students might say:

"At the beginning of the story, Paulina wants to marry the prince. That's something I guessed would happen."

"There are characters from other fairy tales, like Rapunzel and Snow White and the Seven Dwarfs. That surprised me."

"It's surprising that Paulina decides to open a pizza shop instead of marrying the prince."

"Usually, in a fairy tale, the prince and the princess get married. In this story, it seems like Princess Paulina's father and Queen Zelda are going to get married."

Explain that the plot of this story is a twist on (or an interesting way of retelling) a traditional fairy tale, in which a prince passes a series of tests to win the hand of a beautiful princess, and the prince and princess live happily ever after. Ask:

**Q** *What stories have you read in which the plot was a twist on (or an interesting retelling of) a traditional tale?*

## 5 Add to the "Reading Comprehension Strategies" Chart

Direct the students' attention to the "Reading Comprehension Strategies" chart. Review the strategies listed there and remind the students that they should be using these when they read independently.

Remind the students that recognizing and thinking about the elements that make up a story—including characters, setting, and plot—is something good readers do to make sense of the story. Add *recognizing story elements* to the chart. Explain that today you would like the students to think about two key story elements—setting and plot—as they read independently.

### Reading Comprehension Strategies

- using text features
- questioning
- recognizing story elements

## INDIVIDUALIZED DAILY READING

### 6 Read Independently and Think About Setting and Plot

Remind the students to think as they read about the settings and plots of their stories. Tell them that at the end of IDR, you will ask them to share what they noticed about the settings and plots of their stories with partners. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students briefly share with partners things they noticed about the settings and plots of their stories. Remind each student to also tell her partner the title of her book and the author’s name. After partners have had a chance to share, invite a few volunteers to share what they noticed with the class. Ask questions such as:

Q *What is the setting of your story? How do you know that?*

Q *What is the plot of your story? What happens to the characters?*

Have the students return to their desks and put away their books.

## WRITING ABOUT READING

### Write Personal Opinions About *The Princess and the Pizza*

Show the cover of *The Princess and the Pizza* and remind the students that they heard this story earlier. Page through the book and show the illustrations. Ask:

Q *What do you remember about this story?*

Have a few volunteers share their thinking. Be ready to show illustrations and reread from the text to help the students recall the story.

#### Materials

- *The Princess and the Pizza*

Show pages 26–27 and remind the students that at the end of the story, Princess Paulina decides not to marry Prince Drupert after all. Ask:

**Q** *Do you think Princess Paulina makes a good decision? Why?*

**Students might say:**

"I think it is a good decision because Prince Drupert seems boring."

"In addition to what [Eleanor] said, I think it is a good decision because Paulina wouldn't have gotten along with Queen Zelda."

"I disagree with [Eleanor and Tayvon]. I think she should have married the prince because then she could have lived at the castle and been a real princess again."

"I think Paulina makes the right decision. Making pizza is more fun than being a princess."

Explain that the students will write their opinions about Paulina's decision not to marry Prince Drupert. Tell the students that readers can have different opinions about a character's actions, and that is fine. What is important is that they give reasons to support their opinions. Ask the students to watch as you think aloud and model writing an opinion about Paulina's decision.

**You might say:**

"I'll start with a sentence that explains what I am writing about. I'll write: *In the story The Princess and the Pizza, Princess Paulina wins a competition to marry Prince Drupert, but she decides not to marry the prince after all.* Now I'll write a sentence that tells my opinion of Paulina's decision not to marry Drupert. I'll write: *I think that Paulina's decision not to marry Drupert is very wise.* Now I'll explain my opinion by giving some reasons: *Being married to Drupert would have been boring. Paulina has a lot more fun running her own pizza shop.*"

Explain that the students will now write their own opinion pieces about Paulina's decision not to marry Prince Drupert. Remind each student to include the title of the book, her opinion of Paulina's decision, and a reason for that opinion. Give the students a few minutes to write. If time permits, invite the students to share their writing with the class.

## In this lesson, the students:

- Discuss the use of first- and third-person points of view in stories
- Read independently for 25–30 minutes
- Explain their thinking and listen to one another

## 1 Review Story Elements and Introduce Point of View

Gather the class with partners sitting together, facing you. Show the covers of *Thunder Cake* and *The Princess and the Pizza*. Remind the students that they heard these stories earlier and discussed the characters, setting, and plot in each story. Direct the students' attention to the "Important Elements of Stories" chart and review that characters, setting, and plot are important elements that appear in all stories. Tell the students that today they will explore another element that stories have in common: point of view.

## 2 Discuss First-person Point of View in *Thunder Cake*

Display the "Excerpt from *Thunder Cake*" chart (WA1) and explain that this is an excerpt from the book *Thunder Cake*. Explain that you will read the excerpt aloud and that you would like the students to think as they listen about who is telling the story.

Read the passage aloud slowly and clearly. Use "Think, Pair, Share" to discuss:

**Q** *Who is telling the story? What in the story makes you think so?* [pause]  
Turn to your partner.

Have one or two volunteers share their thinking with the class. If necessary, show pages 17–18 of the book, point to the girl in the illustrations, and explain that the granddaughter is telling the story.

Tell the students that when the person telling the story is a character in the story, we say the story is told from the *first-person point of view*. Explain that words like *I* and *me* are clues that can help the students recognize first-person point of view. Circle these words on the chart.

## Materials

- *Thunder Cake*
- *The Princess and the Pizza*
- "Important Elements of Stories" chart and a marker
- "Excerpt from *Thunder Cake*" chart (WA1)
- "Excerpt from *The Princess and the Pizza*" chart (WA2)

**TEKS 10.E.i**  
Student/Teacher Narrative  
Step 2 (all)

## Teacher Note

You might tell the students that the word *my* is another clue (like the words *I* and *me*) that can help them recognize first-person point of view in a story.

### 3 Discuss Third-person Point of View in *The Princess and the Pizza*

Display the “Excerpt from *The Princess and the Pizza*” chart (WA2) and tell the students that this is an excerpt from *The Princess and the Pizza*. Explain that you will read the excerpt aloud and that, as before, you want the students to think about who is telling the story.

Read the excerpt aloud slowly and clearly. Use “Think, Pair, Share” to discuss:

 **Q** *Who is telling the story? What in the story makes you think so?* [pause]  
*Turn to your partner.*

After pairs have had a chance to talk, signal for the students’ attention and have one or two volunteers share their thinking with the class.

**Students might say:**

“It’s hard to tell who’s telling the story because the person telling it doesn’t say anything about herself.”

“I’m not sure who is telling the story, but I don’t think it’s Princess Paulina.”

Remind the students that in *Thunder Cake*, a character in the story (the little girl) is telling the story. Explain that in *The Princess and the Pizza*, the person telling the story is not a character in the story. Explain that when the person telling the story is not a character in the story, we say the story is told from the *third-person point of view*.

Point to the first few sentences on the chart and ask the students to listen carefully as you model what the story would sound like if it were told from the first-person point of view.

**You might say:**

“If *The Princess and the Pizza* were told from the first-person point of view, the story would say, ‘I needed a job. My father had given up his throne to become a wood-carver and moved us to a humble shack in a neighboring kingdom. Since my father was still learning, his carvings didn’t sell, and my garden barely kept enough on the table. I missed princessing. I missed walking the peacock in the royal garden, surveying the kingdom from the castle tower, and doing the princess wave in royal processions.’ ”

Ask:

 **Q** *Do you think The Princess and the Pizza would be a more interesting story if it were told from the first-person point of view? Why? Turn to your partner.*

Have a few volunteers share their thinking with the class.

**Students might say:**

"I think the story would be more interesting because if it said *I* and *my* and *me*, it would seem like the character Paulina was talking directly to me. Then I would care more about what happened."

"I agree with [Nico]. I think it would be more interesting because it would feel like the story really happened instead of being make-believe."

"I disagree with [Carmen and Nico]. I think the story is more interesting the way it is. If it said *I*, then it wouldn't sound like a fairy tale."

#### 4 Add to the "Important Elements of Stories" Chart

Direct the students' attention to the "Important Elements of Stories" chart and explain that *point of view* is another element that stories have in common. Add *point of view* and its definition to the chart.

**Important Elements of Stories**

- *character: person in a story*
- *setting: where and when a story takes place*
- *plot: what happens to the characters in a story (the events that make up the story)*
- *point of view: who is telling the story*

Tell the students that they will think and talk more about *point of view*, or who is telling a story, as they hear and read other stories this year.

#### 5 Reflect on the Partner Work

Facilitate a brief discussion of how partners did listening to each other and explaining their thinking. Ask:

**Q** *How did you and your partner listen to each other and explain your thinking today?*

**Students might say:**

"I listened carefully to my partner and didn't interrupt him."

"I used a discussion prompt to build on what my partner said."

"My partner didn't understand what I was saying, and she asked me to explain it again. I explained it a little differently, and she understood."

#### Teacher Note

In Week 2, the students focus on conflict and on character development and change. If you feel your students would benefit from more practice with setting, plot, and point of view, you might give the class additional instruction by repeating this week's lessons using an alternative book before continuing on to Week 2. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the "Grade 4 Alternative Texts" list.

## INDIVIDUALIZED DAILY READING

### 6 Read Independently and Think About Point of View

Direct the students' attention to the "Important Elements of Stories" chart and review that *point of view* is "who is telling the story." Ask the students to notice who is telling their stories as they read independently today. Tell them that at the end of IDR, you will ask them to share what they noticed with a partner. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students briefly share with partners what they noticed about who is telling their stories. After partners have had a chance to share, invite a few volunteers to share what they noticed with the class. Ask questions such as:

**Q** *What point of view is your story being told from? Who is telling your story? How do you know?*

Have the students return to their desks and put away their books.

#### Vocabulary Note

Next week you will revisit *Thunder Cake* and *The Princess and the Pizza* to teach the Week 9 vocabulary lessons.

#### Teacher Note

If necessary, review the names of the characters in the story and record the names where everyone can see them.

## EXTENSION

### Rewrite *The Princess and the Pizza* from a First-person Point of View

Show the cover of *The Princess and the Pizza* and remind the students that this story is written from the third-person point of view. Review that when a story is told from the third-person point of view, a person who is not a character in the story tells it. Explain that today each student will choose a character and write a new version of *The Princess and the Pizza* from a first-person point of view. Ask:

**Q** *If you were going to rewrite this story from a first-person point of view, which character would you choose to tell the story? Why?*

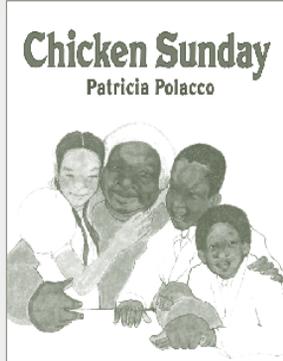

Have each student select a character and imagine what *The Princess and the Pizza* might be like if the story were told from that character's point of view. Support the students' thinking by asking:

**Q** *How might your version of The Princess and the Pizza begin? What might your character say or do first?*

Have each student write a first-person retelling of *The Princess and the Pizza*. If necessary, remind the students that stories told from a first-person point of view use words such as *I, me, my, and mine*. If time permits, have volunteers share their writing with the class.

# Week 2

## OVERVIEW

### *Chicken Sunday*

by Patricia Polacco

Three children sell decorated eggs to buy their beloved Miss Eula an Easter bonnet.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### **Whiteboard Activity**

- WA3

#### **Assessment Forms**

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheet (CN1)

#### **Professional Development Media**

- “Adapting Lessons for English Language Learners” (AV13)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)

### Comprehension Focus

- Students explore elements of narrative text structure in a fiction story, including character, setting, plot, point of view, and conflict.
- Students read independently.

### Social Development Focus

- Students work in a responsible way.
- Students build on one another's thinking during class discussions.

## 🕒 DO AHEAD

- ✓ Prior to Day 3, prepare to model thinking aloud about a character in *Chicken Sunday* (see Step 4).
- ✓ Prior to Day 4, prepare to model thinking aloud about a conflict or character change in *Chicken Sunday* (see Step 3).
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA2); see page 46 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 9 lessons this week.

### Materials

- *Chicken Sunday*
- “Important Elements of Stories” chart from Week 1

### In this lesson, the students:

- Hear and discuss a fiction story
- Discuss character, setting, plot, and point of view
- Read independently for 25–30 minutes
- Work in a responsible way

### 1 Get Ready for Partner Conversations

Gather the class with partners sitting together, facing you, and explain that they will talk and work together again this week. Remind the students that talking in pairs helps them think more about what they are learning. Tell the students that during today’s reading you will stop three times, and at each stop you will give them a minute to think about the story and talk with their partners. Ask:

- Q *Why is it important to take a minute to think before we start talking?*
- Q *How will you remind yourself to think quietly without talking during that time?*

Tell the students that you will ask them to report on their partner conversations at the end of the lesson.

### 2 Review the Purpose of Thinking About Story Elements

Direct the students’ attention to the “Important Elements of Stories” chart and review that all stories have certain *elements*, or parts, that make them stories. Remind the students that they have been focusing on four important story elements—character, setting, plot, and point of view—and that the purpose is to help them learn to recognize and think about these elements so they understand the stories at a deeper level.

### 3 Introduce *Chicken Sunday*

Show the cover of *Chicken Sunday* and read the title and the author’s name aloud. Remind the students that earlier they heard another book by this author, *Thunder Cake*. Explain that in *Chicken Sunday* three children are accused of doing something they did not do. Use “Think, Pair, Share” to discuss:

- Q *Have you ever been accused of doing something you did not do? What happened?* [pause] *Turn to your partner.*

Ask the students to keep their own experiences in mind as they listen to the story. Tell the students that there are several Russian and Yiddish words in the story that you will explain as you read.

## 4 Read Aloud

Read the book aloud slowly and clearly, showing the illustrations and stopping as described below. Clarify vocabulary as you read.

### Suggested Vocabulary

**Baptists:** members of a particular Christian group (p. 5)

***babushka:*** (Russian) grandmother (p. 5)

**churchin' up:** going to church (p. 5)

**hoppin' john:** stew of ham, rice, and black-eyed peas (p. 7)

**win him over:** (idiom) get him to think we are good people (p. 15)

***bubbie:*** (Yiddish) grandmother (p. 17)

***chutzpah:*** (Yiddish) boldness, bravery, or spunk (p. 18)

**odd jobs:** small jobs or bits of work in the shop (p. 21)

**intricate:** beautifully detailed (p. 22)

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**They were my brothers by a solemn ceremony we had performed in their backyard one summer:** Stewart and Winston were not the girl's real brothers, but the three had promised that they would act like brothers and sister (p. 5)

**That poor man has suffered so much in his life, he deserves more than eggs thrown at him:** Mr. Kodinski has experienced pain and hardship in his life and should not have to experience more (p. 12)

**the way they do it in the old country:** the way they do it in Ukraine (p. 17)

Stop after:

- p. 10** "All I want to do is live my life in peace. I'm calling your grandmother," he shouted as he wagged his finger in Stewart's face."

Use "Think, Pair, Share" to discuss:

**Q** *What has happened so far in the story? [pause] Turn to your partner.*

Without sharing as a class, reread the last sentence on page 10 and continue to the next stopping point. Follow the same procedure to have partners discuss what is happening in the story at each of the following stopping points.

- p. 15** "I went to the kitchen drawer and took out a lump of beeswax, a candle, a small funnel with a wooden handle, and some packets of yellow, red, and black dye."

- p. 21** "It didn't seem the right thing to do. Our hearts sank."

Continue reading to the end of the book.

### Teacher Note

If the students struggle to identify who is telling the story, you might have them listen as you reread aloud the first paragraph of the story (page 5). If necessary, remind them that the words *I* and *my* are clues that help readers figure out that a story is written from a first-person point of view.

## 5 Discuss Story Elements in *Chicken Sunday*

Facilitate a discussion using the following questions:

- Q *Who are the characters in the story? Tell me about them.*
- Q *Who is telling the story? What in the story makes you think so?*
- Q *In a few sentences, what is the plot of Chicken Sunday? What happens in the story?*

If the students struggle to summarize the plot, you might model a brief summary.

#### You might say:

“Three friends want to buy Miss Eula a hat, but they don’t have enough money. When they go to Mr. Kodinski, the hat maker, to ask about doing some odd jobs for extra money, he mistakenly accuses them of throwing eggs at his door. To win back his confidence, they make him some special dyed Easter eggs. He allows them to sell their eggs in his hat store. They earn enough money to buy Miss Eula the hat, but Mr. Kodinski gives it to them as a gift.”

- Q *At one point, the narrator, or the person telling the story, says, “We didn’t tell him what we wanted the money for. It didn’t seem the right thing to do.” Why do you think the children feel this way?*

## 6 Discuss the Partner Conversations

Facilitate a brief discussion about how the students interacted during partner conversations. Ask:

- Q *What did you and your partner do to take responsibility for yourselves during partner conversations? What do you plan to do [the same way/differently] the next time you work with your partner?*

## INDIVIDUALIZED DAILY READING

### 7 Read Independently and Think About Setting, Plot, and Point of View

Ask the students to think as they read about what they notice about the story’s setting, plot, and point of view. Tell them that at the end of IDR, you will ask them to share what they noticed with the class. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Invite volunteers to share what they noticed with the class. Remind each volunteer to say the title of the book and the author’s name, what the book is about, and what she noticed about the setting, plot, or point of view in the story. If necessary, ask questions such as:

- Q *Who is telling the story? What in the story makes you think so?*
- Q *What is the setting of your story? How do you know that?*
- Q *What is the plot of your story? What happens to the characters?*

Have the students return to their desks and put away their books.

## Strategy Lesson

## Day 2

### In this lesson, the students:

- Hear a fiction story again
- Discuss character change and conflict
- Read independently for 25–30 minutes
- Use discussion prompts to build on one another’s thinking

### 1 Review Story Elements and Introduce Character Change

Gather the class with partners sitting together, facing you. Remind the students that they have learned about four important story elements: character, setting, plot, and point of view. Explain that today you will talk more about characters and how they change or develop. Ask:

- Q *Who are the important, or main, characters in Chicken Sunday?*

### Materials

- *Chicken Sunday*
- “Important Elements of Stories” chart and a marker

### TEKS 8.B.ii

Student/Teacher Narrative Step 1 (all, beginning on page 199 and continuing on to page 200)

## Teacher Note

Keep this discussion of the characters brief. The students will explore the characters in depth later in the lesson.

## ELL Note

To support your English Language Learners during this discussion, consider rereading sections of the story to them. For more information about supporting English Language Learners at various levels of proficiency, see “Support for English Language Learners (ELLs)” in the Introduction.

To learn more, view “Adapting Lessons for English Language Learners” (AV13).

## Teacher Note

If you notice partners having difficulty working together, support them by asking them questions such as:

- Q *It looks like you're having some difficulty. What is making it hard to work together?*
- Q *How is that affecting the work you have to do right now?*
- Q *What can each of you do to take responsibility for getting your conversation about the ways the characters change back on track?*

As the students respond, record the characters' names where everyone can see them: the narrator (the person who is telling the story), Stewart, Winston, Miss Eula, and Mr. Kodinski.

Q *What do we know about these characters? What in the story tells us that?*

### Students might say:

“We know that Stewart, Winston, and the narrator are very close friends. The narrator says that Stewart and Winston are like brothers to her.”

“We know Stewart, Winston, and the narrator love Miss Eula very much. They go to church with her and have Chicken Sunday dinners at her house.”

“We know that Mr. Kodinski is old and that he has a hat shop. Miss Eula says that he has had a hard life.”

Explain that characters often change in some way as a result of what happens to them in a story. Readers can expect main characters to be different at the end of a story from the way they were at the beginning or to know something at the end that they did not know at the beginning. Explain that sometimes the changes are easy to see; for example, a character learns an important lesson that makes a big difference in his life. Other times, the changes are harder to see; for example, a character understands or realizes something she did not know before.

## 2 Reread *Chicken Sunday*

Explain that today you will reread *Chicken Sunday*. Ask the students to listen for the ways the characters change. Explain that after the reading you will ask partners to share their ideas.

Read the story aloud slowly and clearly, without stopping.

## 3 Discuss Character Change

Use “Think, Pair, Share” to discuss:

**TEKS 8.B.ii**  
Student/Teacher Activity  
Step 1 (all, beginning on page 200  
and continuing on to page 201)

Q *Who changes in this story? Why do you think so? [pause] Turn to your partner.*

As partners talk, circulate among them and note whether the students recognize how the various characters develop and change. If the students are having difficulty answering the questions, prompt their thinking by using questions such as:

Q *What are the children thinking about or hoping for at the beginning of the story? What are they thinking about later? How do their attitudes change?*

- Q *How do Miss Eula’s feelings change during the story? Why do they change?*
- Q *What is Mr. Kodinski like when we first meet him? What is he like at the end? Why does his attitude change?*

#### 4 Discuss the Story, Including Conflict or Problem

After most pairs are finished, facilitate a class discussion using the questions that follow. If necessary, remind the students to use the discussion prompts they have learned to build on one another’s thinking. Ask:

- Q *I asked you and your partner to talk about who changes in this story. What did you and your partner say about this?*
- Q *How does that character change? What do you think causes the change?*

##### Students might say:

“The kids worry that Mr. Kodinski is mad at them and they’ll never be able to get Miss Eula her hat. In the end, they make friends with Mr. Kodinski and are able to get her the hat, so everyone’s happy.”

“I agree with [Karen]. At first the kids think Mr. Kodinski is strange and always looks mean. In the end they understand him better and are friends.”

“In addition to what [Jiang] said, Mr. Kodinski thought the kids were bad and threw eggs at his store. In the end, he says they are ‘very good children.’”

Explain that often in stories the main character or characters must deal with a conflict or problem and that facing the conflict or problem and finding a way to end the conflict or solve the problem is often what causes a character to change and grow. Provide a few examples of conflict or problems in the story.

##### You might say:

“There are a number of problems the children in the story face: they want to buy a hat for Miss Eula, but they don’t have enough money; they are accused of throwing eggs; and Mr. Kodinski doesn’t trust them.”

Direct the students’ attention to the “Important Elements of Stories” chart and add *conflict or problem* to it.

#### Teacher Note

When talking about Mr. Kodinski, you may wish to provide background information; for example, you might tell the students that you can infer from Mr. Kodinski’s clothes, his speech, and the number tattooed on his arm (see the illustration on page 20) that he is a Jewish survivor of a World War II concentration camp.

#### Teacher Note

Encourage the students to support their interpretation of the change by referring to the text. Be ready to reread passages and show illustrations again to help the students recall details.

#### Facilitation Tip

Continue to **ask facilitative questions** to help the students respond to one another. When the students direct their responses to you, redirect them toward the class by asking questions like:

- Q *Do you agree or disagree with what [Mitch] just said? Why?*
- Q *What questions can we ask [Mitch] about what he said?*
- Q *Why does what [Mitch] said make sense?*

Much of the learning in this program relies on creating a dynamic discourse among the students. Facilitative questions teach them that their comments contribute to a class discussion and that they are responsible for listening to one another and responding.

## Teacher Note

Character change and conflict can be subtle and challenging for the students to understand. These ideas are introduced in this unit and will be revisited throughout the year, but students often need repeated exposure over many different texts to begin to see how these elements function in literature. The goal in this unit is for the students to develop awareness that most fiction contains characters who go through and learn from challenges and that readers should look for these elements to make sense of the fiction they read.

## Important Elements of Stories

- *character: person in a story*
- *setting: where and when a story takes place*
- *plot: what happens to the characters in a story (the events that make up the story)*
- *point of view: who is telling the story*
- *conflict or problem*

Ask the students to think about these elements when they read independently.

## INDIVIDUALIZED DAILY READING

### 5 Read Independently and Think About Story Elements

Direct the students' attention to the "Important Elements of Stories" chart. Ask the students to think as they read about what they notice about the characters, settings, and plots in their stories as well as any conflicts or problems the characters face. Tell them that at the end of IDR, you will ask them to share what they noticed with partners. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students briefly share with partners the titles of their books, the authors' names, and what they noticed about the characters, settings, plots, and conflicts or problems in their stories. After partners have had a chance to share, invite a few volunteers to share what they noticed with the class.

Have the students return to their desks and put away their books.

---

## EXTENSION

### Discuss Ethical Issues in *Chicken Sunday*

Encourage the students to think more about the social and ethical issues raised in the story by asking:

- Q *What can we learn from this story about accepting and respecting differences among people?*
- Q *What can we learn from this story that we can apply to our own lives?*

---

## TECHNOLOGY EXTENSION

### Meet the Author: View an Interview with Patricia Polacco

Show the covers of *Thunder Cake* and *Chicken Sunday* and remind the students that earlier they heard these two stories by author and illustrator Patricia Polacco. Ask and discuss:

- Q *What do you remember about the book Thunder Cake? What do you remember about the book Chicken Sunday?*
- Q *What would you like to find out about Patricia Polacco?*

Record the students' responses where everyone can see them. Tell the students that they will watch an interview with this author.

Display your browser page and go to the video interview you located earlier to share with your students. Model navigating the website and play the interview. Afterward, discuss questions such as:

- Q *What is something interesting you learned about Patricia Polacco?*
- Q *Did you hear information that answers any of our questions? What did you hear?*

If time permits, you might invite interested students to explore Patricia Polacco's official author website and then share what they learn with the class.

**TEKS 6.E.iii**  
Student/Teacher Narrative  
Extension (all)

### Teacher Note

The questions asked during this discussion give the students an opportunity to think about the story's theme. The students will explore the concept of theme in more depth in Week 3 of this unit.

### Technology Tip

Prior to doing this activity, locate and preview an online video interview to share with your students. Use search terms such as "Patricia Polacco author interview video." You might also locate and preview Polacco's official author website using search terms such as "Patricia Polacco author site." For more information, view the "Finding, Organizing, and Presenting Online Information" tutorial (AV43).

### Materials

- *Chicken Sunday*
- Medium-size self-stick notes for each student

### Teacher Note

On Days 3 and 4, the students will independently read a section of text twice: once for surface understanding and then again with a story element in mind. The students will read for 15 minutes and then stop and reread the section, paying close attention to one of the characters in the reading. Reading twice gives the students a chance to gain surface-level understanding of the story before applying a comprehension strategy to it.

**TEKS 6.A.ii**  
**Student/Teacher Narrative**  
**Step 4**  
 (all, beginning on page 205 and continuing on to page 205)

### In this lesson, the students:

- Review story elements
- Read independently
- Reread and think about the characters in their own books
- Work in a responsible way

### 1 Discuss Taking Responsibility

Have the students get their pencils and books for independent reading and sit at desks with partners together. Tell the students that they will be responsible for reading independently and for sharing with their partners today. Ask:

- Q *What will you do to take responsibility for yourself when you are reading independently?*
- Q *What will you do to be responsible when you are sharing with your partner?*

### 2 Review Story Elements

Remind the students that this week they heard *Chicken Sunday* and thought about setting, character, point of view, and plot and about how characters change as a result of the conflicts or problems they face in stories. Explain that today the students will read their books for independent reading and think about what they are learning about the characters in them as they read. Later they will share what they learned about the characters with their partners.

### 3 Read Independently Without Stopping

Distribute self-stick notes to the students and have each student place a self-stick note in the margin next to the place where she begins reading today. Have the students read independently for 15 minutes.

### 4 Model Rereading and Thinking About a Character

After 15 minutes, signal to let the students know that it is time to stop reading. Explain that each student will reread the same pages in her book, starting again at the self-stick note. As she rereads, she will use additional self-stick notes to mark places where she notices interesting things or learn new things about the main character, and she will write what she notices on the self-stick notes.

Model this process by reading page 5 of *Chicken Sunday* aloud to the students. As you read, pause to think aloud about something you noticed or learned about one of the characters.

**You might say:**

"I think it's interesting that the girl has a different religion from that of her neighbors, who are her close friends. I wonder whether that comes up in the story later. I'll use a self-stick note to mark the margin next to the paragraph. Now I'll continue reading. In the second paragraph, I learned that sometimes the girl goes to church with Miss Eula, Stewart, and Winston. I'll use another self-stick note to mark the margin."

## 5 Read Independently and Mark Books with Self-stick Notes

Have the students begin rereading independently from the self-stick note. Tell the students that you will stop them periodically to talk in pairs about the passages they marked and what they each learned or noticed about a character.

Stop the students at 5-minute intervals and have them talk briefly with their partners. At each stop, have each student tell his partner about one place he marked and what he learned about a character from that passage. At the first stop, remind each student to tell his partner the title of the book he is reading, the author's name, and a few sentences about the plot.

If you notice students having difficulty discussing characters, prompt their thinking by asking them questions such as:

- Q *What character are you thinking about?*
- Q *What is happening to the character at this point in the story?*
- Q *What have you found out about that character?*

## 6 Discuss What the Students Noticed

Signal to let the students know when it is time to stop reading. Have a few volunteers share what they found out about characters in their stories. You might have each student read a short passage aloud and then tell what she learned about the character from the passage. Facilitate this discussion using the questions below to help the students listen and respond to one another. Ask:

- Q *What question could we ask [Laura] about what she just shared?*
- Q *How is the character in your story [similar to/different from] the one that [Laura] just talked about?*

**TEKS 6.A.ii**  
Student/Teacher Activity  
Step 5  
(all)

### ELL Note

These questions will be especially helpful for English Language Learners.

### ELL Note

Have your English Language Learners focus on the plot of a movie or a TV show. Ask them to report with as much detail as possible what happened in the story.

## 7 Reflect on Taking Responsibility

Facilitate a brief discussion about how the students took responsibility for themselves during today's lesson. Ask questions such as:

- Q *What did you do to take responsibility for yourself during the independent reading time today? During partner work? During the discussion? How did that help your learning?*
- Q *In what other ways can you take responsibility during independent reading times?*

Explain that the students will have another opportunity to think in depth about characters in their independent reading books in the next lesson.

## EXTENSION

### Watch Stories

Point out that movies and many TV shows are stories, too. These visual stories are based on written scripts and have the same elements as written stories (character, setting, and plot centered around a problem or conflict). Have the students watch a movie or a TV show and write or tell about the story elements they identify.

# Day 4

## Independent Strategy Practice

### Materials

- *Chicken Sunday*
- Medium-size self-stick notes for each student
- “Class Assessment Record” sheet (CA2)
- “Journal Entry” chart (WA3)
- *Student Response Book*, Reading Journal section

### In this lesson, the students:

- Read independently
- Reread and explore conflict and character change in their own books
- Write in their reading journals
- Work in a responsible way

## 1 Review the Previous Lesson

Have the students get their books for independent reading, *Student Response Books*, and pencils and sit at desks with partners together. Remind them that yesterday they focused on characters as they read independently and they marked passages where they learned things about the characters. Today they will have another opportunity to read independently and think about the characters in their reading.

## 2 Read Independently Without Stopping

Distribute self-stick notes to the students and have each student place a self-stick note in the margin next to the place where he begins reading today. Have the students read independently for 10–15 minutes.

## 3 Model Rereading and Thinking About Character and Conflict

After 10–15 minutes, signal to let the students know when it is time to stop reading. Remind them that in stories the main character usually faces a conflict or problem that results in the character changing in some way. Review that sometimes changes in a character are easy to see; for example, the character learns an important lesson that makes a big difference in his life. Other times, change is harder to see; for example, the character understands or realizes something she did not know before.

Explain that each student will reread the passages in his book, starting again at the self-stick note. As he rereads, he will use additional self-stick notes to mark places where he notices something about a conflict or problem a character is facing or how a character changes in his story.

Model thinking about a conflict or problem or a character change using *Chicken Sunday*. Remind the students that at the beginning of the story, we learn that Miss Eula always stops at Mr. Kodinski’s hat shop to admire the hats. Read pages 7–9 of the book aloud, stopping to mark a passage in which the children’s problem is discussed.

### You might say:

“Here the girl says that they are going to need a lot more money than what they have to buy the hat. I’ll use a self-stick note to mark the margin next to this sentence because it introduces the conflict or problem these characters are facing—they don’t have enough money to buy Miss Eula the hat.”

## 4 Read Independently and Mark Books with Self-stick Notes

Have the students begin rereading independently from the self-stick note. Tell the students that you will stop them periodically to talk in pairs about the passages that reveal a conflict or a character change in their books.

Stop them at 5-minute intervals to talk briefly with their partners. At each stop, have each student tell his partner about one place he marked in his reading and what he learned from that passage about a conflict or problem a character is facing or about a change in a character. At the first stop, remind each student to tell his partner the title of the book he is reading, the author’s name, and a few sentences about the plot.

**TEKS 8.B.i**  
Student/Teacher  
Narrative  
Step 3 (all)

Circulate as the students talk. Listen for evidence that they are thinking about conflict and character change in their stories and are referring to the text to explain their thinking.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students notice the conflicts or problems that characters are facing in their stories?
- Are students who are at the end of their stories able to describe how characters have changed? (Note that change in a character is often not evident until the end of a story.)

Record your observations on the “Class Assessment Record” sheet (CA2); see page 46 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to describe characters’ conflicts and changes, proceed with the lesson and continue on to Week 3.
- If **about half of the students** are able to describe characters’ conflicts and changes, proceed with the lesson and continue on to Week 3 but closely monitor and support students who are having difficulty. Confer with these students during IDR and ask them questions such as:

**Q** *What [conflict/problem] is the main character in your story facing?*

**Q** *How do you think the character [has changed/might change] in the story?*

- If **only a few students** are able to describe characters’ conflicts and changes, you might give the class additional instruction by repeating this week’s lessons using an alternative book before continuing on to Week 3. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

## 5 Discuss What the Students Noticed

Signal to let the students know when it is time to stop reading. Have a few volunteers share what they found out about characters in their stories. Remind each student to say the title of the book he is reading, the author’s name, and a little bit about the plot. You might have each student read a short passage aloud and then tell what he learned from the passage about a conflict or problem or a change in a character. During this discussion, encourage the students to listen and respond directly to one another. Probe their thinking using questions such as:

**Q** *What conflict or problem is your character facing? How does the character feel about the problem?*

**Q** *What is the character doing to end the conflict or solve the problem?*

**Q** *What changes have you noticed in the character since the beginning of the story? What do you think caused the change?*

Remind the students that the purpose of learning to think about character, conflict or problem, and other story elements is to help them better understand the stories they read on their own. Encourage them to continue to think about these elements as they read independently in the coming days.

## 6 Write in Reading Journals About the Students' Independent Reading

Display the “Journal Entry” chart (🌐 WA3) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

### Journal Entry

Write a journal entry about the book you are reading. Please include:

- The title and the author's name
- What the story is about
- What you learned about a conflict or problem a character is facing or a change in the character
- Something else you learned about a character if you didn't learn about a conflict or problem or a character change

WA3

After a moment, have partners take turns sharing what they plan to write. Then give the students a few minutes to write in their journals.

If time permits, have a few volunteers share their journal entries with the class.

## EXTENSION

### List Narrative Texts Read in Daily Life

Have the students make an ongoing list of narrative texts they have read in school and outside of school. During the next several weeks, give the students regular opportunities to update their lists and share them with one another. Making these lists will help the students recognize the variety of narrative texts they encounter and become aware of their own reading preferences and purposes. Sharing the lists will make them aware of what their classmates are reading.

### Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

### ELPS 5.G.i

#### Step 6

(all, including ELL Note in green margin next to Step 6)

### ELL Note

Consider having students with limited English proficiency dictate journal entries for you to write down.

### Teacher Note

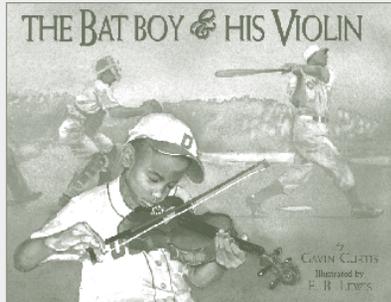

If the students struggle to write, you might wish to model writing a journal entry as you did in Unit 2, Week 1, Day 4 (see Step 3).

### Vocabulary Note

Next week you will revisit *Chicken Sunday* to teach the Week 10 vocabulary lessons.

# Week 3

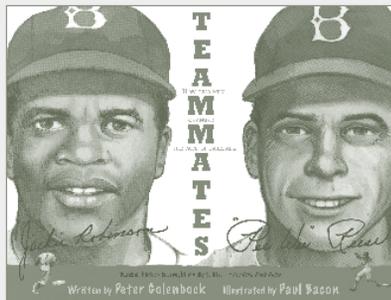

## OVERVIEW

### ***The Bat Boy & His Violin***

by Gavin Curtis, illustrated by E. B. Lewis

Reginald loves to play the violin, but his father does not appreciate the boy's musical talent—until Reginald becomes the bat boy on his father's baseball team.

### ***Teammates***

by Peter Golenbock, illustrated by Paul Bacon

This story is about Jackie Robinson, major league baseball's first black player, and his white teammate Pee Wee Reese.

## Online Resources

Visit the CCC Learning Hub ([cclearninghub.org](http://cclearninghub.org)) to find your online resources for this week.

### **Whiteboard Activities**

- WA4–WA5

### **Assessment Forms**

- “Class Assessment Record” sheet (CA3)
- “IDR Conference Notes” record sheet (CN1)

### **Reproducible**

- (Optional) “First- and Secondhand Accounts of Jackie Robinson's Experiences” (BLM2)

### **Professional Development Media**

- “Social Reflection” (AV14)

### Comprehension Focus

- Students use questioning to help them make sense of text.
- Students use schema to articulate all they think they know about a topic before they read.
- Students explore elements of narrative text structure in narrative texts, including character, plot, and setting.
- Students discuss theme in narrative texts.
- Students read independently.

### Social Development Focus

- Students analyze the effect of their behavior on others and on the group work.
- Students develop the skill of agreeing and disagreeing in a caring way.

## DO AHEAD

- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA3); see page 47 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 10 lessons this week.

# Day 1

## Read-aloud/ Guided Strategy Practice

### Materials

- *The Bat Boy & His Violin*
- “Reading Comprehension Strategies” chart
- “Questions About *The Bat Boy & His Violin*” chart (WA4)
- *Student Response Book* page 20
- “Important Elements of Stories” chart from Week 2 and a marker

### In this lesson, the students:

- Hear and discuss a fiction story
- Use questioning to make sense of the story
- Discuss conflict and character change
- Discuss theme and ethical issues
- Read independently for 25–30 minutes
- Work in a responsible way

### ABOUT TEACHING THEME

*Theme* is an abstract concept that can be difficult for students, and even adults, to recognize and define, and a work of literature may have more than one theme. Themes are often messages or lessons about life that an author wants readers to consider or apply to their own lives. Themes might also focus more broadly on such fundamental conflicts in human existence as good versus evil, self-interest versus community, or change versus tradition.

In grade 4 of the *Making Meaning* program, the students informally explore the life lessons learned by the characters in stories they hear and read, and they discuss the messages the author is sending the reader. These experiences lay the foundation for further work with theme in future grades.

### 1 Review the “Reading Comprehension Strategies” Chart

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Refer to the “Reading Comprehension Strategies” chart and review that recognizing story elements is a powerful strategy the students can use to better understand stories they hear and read independently. If necessary, review the story elements: character, setting, plot, point of view, and conflict or problem.

Remind the students that questioning is also a powerful strategy for helping readers pay close attention to a text and that they used this strategy previously with expository texts. Explain that they will use questioning to help them make sense of narrative texts, or stories, in the coming weeks.

## 2 Introduce *The Bat Boy & His Violin*

Show the cover of *The Bat Boy & His Violin* and read the names of the author and the illustrator aloud. Tell the students that although *The Bat Boy & His Violin* is a fiction story with make-believe characters and a made-up plot, it is set (takes place) during a real time in United States history. Explain that the story takes place in 1948, when segregation was a way of life in many parts of the United States. Ask and briefly discuss:

**Q** *What do you think you know about segregation?*

If necessary, explain that segregation, or the practice of keeping people of different racial groups apart, was widespread in the United States until the mid-1960s. Some states in the South had laws that required black people to attend different schools from white people and to use separate public facilities, such as restrooms and drinking fountains. Many businesses owned by white people, including hotels and restaurants, refused to serve black people. Segregation resulted in great inequality and hardship for black people. In 1964 the United States Congress passed a law that made segregation illegal.

Explain that during the 1940s, professional baseball was also segregated. Black players, unwelcome in the major leagues, played in the Negro leagues. In 1947 Jackie Robinson became the first black player to play in the major leagues.

## 3 Read Aloud and Model “Stop and Ask Questions”

Explain that the students will use “Stop and Ask Questions” as they listen to *The Bat Boy & His Violin*. Explain that as you read aloud, you will stop four times for them to think about and ask questions. Display the “Questions about *The Bat Boy & His Violin*” chart (🌐 WA4) and explain that the students will come up with questions together as a class at the first stop.

Read *The Bat Boy & His Violin* aloud slowly and clearly, showing the illustrations and stopping as described on the next page. Clarify vocabulary as you read.

### Suggested Vocabulary

**bat boy:** boy who takes care of bats for a baseball team (title)

**Tchaikovsky, Mozart, Beethoven, Bach, Schubert:** composers of classical music (throughout)

**sashay:** move sideways (p. 5)

**bow:** long piece of wood with horsehair stretched on it, used to play the violin and other stringed instruments (p. 5; refer to the illustration on p. 4)

**cleats:** spikes on the bottom of baseball shoes (p. 5)

**recital:** music performance (p. 6)

**TEKS 8.D.ii**  
Student/Teacher Narrative  
Step 2 (all)

### Teacher Note

The terms *Negro* and *colored* are used by characters in the story to describe African Americans and the black baseball league. You might want to explain that while these terms were commonly used in the South during the time of the story, they are not used today.

### Teacher Note

To review the way you introduced “Stop and Ask Questions,” see Step 2 in Unit 3, Week 3, Day 1.

### ELL Note

There are many baseball terms and expressions in the book. English Language Learners and other students may benefit from a discussion of the game before you read.

### Teacher Note

The intent with “Stop and Ask Questions” is to have the students focus on the kinds of questions that *could be asked* about the reading, even if they do not naturally have questions at this point. They should generate *any* questions they can think of related to the reading. Accept their questions without discussion. Hearing others’ questions gives the students examples of the kinds of questions that can be asked.

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**it’s a wonder:** (idiom) it’s very surprising (p. 5)

**booking:** scheduling (p. 5)

**bleachers:** long rows of seats (p. 8)

Stop after:

**p. 8** “We get to the field for our game against the Buckeyes, and the bleachers are already packed with their fans.”

Ask:

**Q** *What questions can we ask about the story right now?*

### Questions About *The Bat Boy & His Violin*

*How did Reginald learn to play the violin so well?*

*Will Reginald be a good bat boy?*

*Will Reginald’s dad let him play violin at the game?*

WA4

Have a few volunteers share their questions with the class. Record them exactly as stated on the “Questions About *The Bat Boy & His Violin*” chart. If the students have difficulty generating questions, model generating a few questions like those in the diagram and record them on the chart.

## 4 Continue Reading Aloud with “Stop and Ask Questions”

Ask the students to turn to *Student Response Book* page 20, “Stop and Ask Questions About *The Bat Boy & His Violin*.” Explain that at the next three stops, the students will write questions on their own.

Reread the last sentence on page 8 and continue reading aloud, showing the illustrations and stopping as described on the next page. Clarify vocabulary as you read.

### Suggested Vocabulary

**jig:** fast dance (p. 14)

**integrated:** open to all races (p. 20)

**cotton to:** (idiom) like or feel good about (p. 23)

**fancying:** imagining (p. 23)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**crinkled:** wrinkled (p. 10)

**buff:** polish (p. 10)

**tips his cap:** raises his hat as a way to say thanks (p. 13)

**a spell:** a while (p. 13)

**bushed:** worn out (p. 18)

**massages:** rubs to loosen up the muscles (p. 18)

**winning streak:** period when a team wins all its games (p. 20)

**knack:** talent or ability (p. 23)

Stop after:

**p. 13** "Papa grumbles under his breath because the umpire makes him rub dirt on each bat."

Have the students record their questions in the Stop 2 box on *Student Response Book* page 20. Without discussing the questions, reread the last sentence before the stop and continue reading to the next stopping point. Follow this procedure at the next two stops:

**p. 17** "As Mr. LaRue steps up to the plate, I start to play again."

**p. 23** "'We don't exactly cotton to coloreds sleepin' in our beds,' one white clerk says. 'Y'all gonna have to look elsewheres.'"

Continue reading to the end of the book.

## **5** Use Questions to Discuss the Story

Tell the students that now they will use their questions to help them talk about the story with their partners. Give the students a few moments to review their questions individually, and then have partners discuss the story using their questions. Ask them to think about what they heard in the story that might help answer some of their questions.

After a few minutes, signal for the students' attention. Have a few volunteers share some of the questions they wrote and discussed with their partners. Explain that sharing as a class gives the students a sense of the various kinds of questions that can be asked about a story.

Tell the students that they will have a chance to revisit their questions during the next class period.

### Teacher Note

Circulate among the students and notice whether they are able to write questions. If students are having difficulty, you might have a few volunteers share their questions with the whole class. Record the questions on the "Questions About *The Bat Boy & His Violin*" chart (WA4) without discussing them. Continue to model with the class in this way during stops until the students are able to write questions successfully on their own.

**TEKS 8.A.i**  
**TEKS 10.A.ii**  
Student/Teacher  
Narrative  
Step 6 (all, beginning  
on page 216 and  
continuing on to page  
217)

**TEKS 6.E.i**  
Student/Teacher Narrative  
Step 6 (third discussion  
question on page 216 and  
continuing to the end of the  
step on page 217)

### Teacher Note

This question helps the students think about some of the themes of the story. Possible themes in this story are the father's acceptance of his son's uniqueness, the father's recognition that a talent for music is as worthy as a talent for sports, and the boy's determination to be true to himself.

## 6 Discuss Conflict and Character and Introduce Theme

Ask:

- Q *What conflicts or problems occur in the story? What do the characters do to end those conflicts or solve the problems?*
- Q *Who changes in this story? How? Why do you think that character changes?*

### Students might say:

"One problem is that Reginald's father doesn't like that his son loves to play the violin. Even though Reginald is good at it, his father doesn't think music is important."

"I agree with [Sunita]. Reginald's father wants his son to be a baseball player like him. That's why he makes Reginald be the bat boy for the team."

"Reginald's father changes in the story. By the end, he understands that playing the violin is just as good as playing baseball. He realizes that he should be proud of his son."

"I think Reginald's father changes because he sees how his players really love hearing Reginald's music."

Use "Think, Pair, Share" to discuss:

- Q *What can we learn from Reginald's story that we might be able to apply to our own lives? [pause] Turn to your partner.*

Have a few volunteers share with the class.

### Students might say:

"Reginald's father realizes that he shouldn't try to change his son or make him stop loving music. Maybe we can learn that we shouldn't try to change people. We should just love them the way they are."

"In the story, Reginald doesn't stop loving his music just because his father doesn't like it. He stays true to himself. I think we can learn from that."

"I agree with [Davin]. I think Reginald isn't afraid to be who he is. Even when he's the bat boy, he keeps loving music and playing his violin. In our own lives, we shouldn't be afraid to be who we are."

Explain that stories often have one or more *themes*, or messages or lessons, that the author wants readers to think about. Tell the students that by thinking about what they can learn from a story, they are exploring the story's themes.

Direct the students' attention to the "Important Elements of Stories" chart and add *theme: message or lesson* to it.

## Important Elements of Stories

- *character: person in a story*
- *setting: where and when a story takes place*
- *plot: what happens to the characters in a story (the events that make up the story)*
- *point of view: who is telling the story*
- *conflict or problem*
- *theme: message or lesson*

Tell the students that this week they will have more opportunities to think about a story's themes.

## INDIVIDUALIZED DAILY READING

### 7 Read Independently and Ask Questions

Ask the students to notice questions they have about their books as they read. Tell the students that at the end of IDR, you will ask them to share their questions with the class. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer share the title of his book and the author's name, what the book is about, and a question he had about what he read. Follow up by asking questions such as:

**Q** *What was happening in the book when that question came to mind?*

Q How would you answer that question right now? What evidence in the book makes you think that?

Have the students return to their desks and put away their books.

---

## EXTENSION

### Read Books on the Theme of Being Different

Many students face the challenges and difficulties that come from being different, and many books for children deal with that theme. You might read one of the following chapter books aloud or encourage the students to read the books and share their thoughts about them: *Bluish: A Novel* by Virginia Hamilton, *Crazy Fish* by Norma Fox Mazer, or *Freak the Mighty* by Rodman Philbrick.

### Informally Discuss Cultural Setting

Remind the students that this story takes place during a time in United States history when segregation was a way of life. Reread page 23 and then ask:

- Q What details does the author include in the story to help the reader understand the ways in which black people were treated during this time?
- Q If the clerk had treated the Dukes differently, do you think it would have changed what happened next in the story? Why?

**TEKS 8.D.ii**  
Student/Teacher Activity  
Extension  
"Informally Discuss Cultural  
Setting"

# Day 2

## Guided Strategy Practice

### Materials

- *The Bat Boy & His Violin*
- *Student Response Book* page 20

### In this lesson, the students:

- Hear a fiction story again to listen for answers to their questions
- Use their questions to understand and discuss the story
- Read independently for 25–30 minutes
- Use discussion prompts to build on one another's thinking
- Agree and disagree in a caring way

### 1 Review Questions About *The Bat Boy & His Violin*

Show the cover of *The Bat Boy & His Violin* and remind the students that in the previous lesson they used “Stop and Ask Questions” to help them make sense of the story. Have them turn to *Student Response Book*

page 20, “Stop and Ask Questions About *The Bat Boy & His Violin*.” Ask them to review their questions and note which questions they think are answered in the story and which are not.

Explain that today you will reread the story aloud so that they can listen carefully for the answers to their questions. Ask:

**Q** *What questions do you want to keep in mind during the second reading?*

Have several volunteers share their questions. Tell the students that after the reading, they will discuss their questions and thoughts about the answers in pairs and with the class.

## 2 Reread the Story

Read the story aloud slowly and clearly, without stopping.

## 3 Discuss Questions and Answers

Have the students discuss the story in pairs using their questions. Ask them to think about which of their questions are answered in the story and which are not.

When most pairs have finished talking, facilitate a class discussion using the questions that follow. Be ready to reread passages from the story and show illustrations again to help the students recall what they heard. Remind them to use the discussion prompts they have learned to help them listen and build on one another’s thinking. Ask:

**Q** *What is a question that got you and your partner talking about the story?*

**Q** *Is that question answered in the story? What happens in the story that makes you think so?*

**Q** *What questions are not answered? How do you know?*

**Q** *Do others agree that the question is [answered in that way/not answered]? Explain your thinking.*

### Students might say:

“My partner [Irina] asked, ‘Will Reginald mess up as the bat boy?’ The book tells how he dropped the bats and made a player fall.”

“I agree with [Irina and Abe] because the story shows that Reginald really messed up. He made the bats so slippery the players couldn’t hold on to them.”

“I asked, ‘Does Reginald like being a bat boy?’ I don’t think the question gets answered because I don’t remember that Reginald ever says how he feels about being a bat boy.”

“I disagree with [Liu] because I remember one part where Reginald says he likes being bat boy because he gets to play his violin.”

### Teacher Note

Keep this discussion brief. Its purpose is to prepare the students to hear the story again.

### Facilitation Tip

Continue to **ask facilitative questions** to build accountability for listening and participation during class discussions. Redirect students’ comments to the class by asking:

**Q** *Do you agree or disagree with [Noriko]? Why?*

**Q** *What questions can we ask [Noriko] about what she said?*

**Q** *What can you add to what [Noriko] said?*

### Teacher Note

Disagreements about whether a question is answered or how it is answered are opportunities for the students to deepen their thinking about the story and to use evidence from the text to support their opinions.

### Teacher Note

We encourage you to spend a few minutes at the end of the lesson helping the students reflect on their social interactions. For more information, see “Focus on Social/Ethical Development” in the Introduction. To learn more, view “Social Reflection” (AV14).

**TEKS 6.B.v**  
Student/Teacher Narrative  
Step 5  
(all)

Review that the purpose of rereading the story was to help the students listen for answers to their questions and understand the story more deeply. Point out that sometimes their questions are answered in the story and sometimes they are not. Tell them that in the next lesson they will use questioning to think about another story.

## 4 Discuss Using the Discussion Prompts

Have the students briefly reflect on their use of the discussion prompts by asking:

- Q *How did using the discussion prompts help us during our class discussion today?*
- Q *What did you do to agree and disagree with one another in a caring way? What happens when we disagree in an uncaring way? Why do we want to avoid that in our class?*

## INDIVIDUALIZED DAILY READING

## 5 Read Independently and Ask Questions

Ask the students to notice questions they have about their books as they read independently today. Tell them that at the end of IDR, you will ask them to share their questions with partners. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share what they read with partners. Have each student share the title of her book and the author’s name, what the book is about, and a question she had about what she read. Circulate as partners talk. If necessary, prompt their thinking by asking questions such as:

- Q *What question do you have about what you read?*
- Q *What was happening in the book when that question came to mind?*
- Q *What answer have you found to your question? What evidence in the book makes you think that?*

Have the students return to their desks and put away their books.

**In this lesson, the students:**

- Hear and discuss a narrative nonfiction story
- Use questioning to make sense of the story
- Discuss character, setting, and plot
- Discuss theme and ethical issues
- Read independently for 25–30 minutes
- Solve problems by working together

**1** Review Questioning

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind them that in previous lessons they used “Stop and Ask Questions” to help them think about *The Bat Boy & His Violin*. Review that sometimes their questions were answered in the story and sometimes they were not.

Explain that the students will use “Stop and Ask Questions” again today as they listen to another baseball story, *Teammates*. Ask the students to turn to *Student Response Book* page 21, “Stop and Ask Questions About *Teammates*.” Explain that as you read *Teammates* today you will stop four times to have the students write their questions about the story.

**2** Introduce *Teammates*

Show the cover of the book and read the names of the author and the illustrator aloud. Tell the students that like *The Bat Boy & His Violin*, *Teammates* is a narrative text, or a text that tells a story. Unlike *The Bat Boy & His Violin*, which is a fiction story with a made-up plot and make-believe characters, *Teammates* is a true story about real people and real events.

Explain that *Teammates* takes place in the 1940s, during the same period of time as *The Bat Boy & His Violin*. It tells about two famous baseball players, Jackie Robinson and Pee Wee Reese.

**3** Read Aloud with “Stop and Ask Questions”

Read *Teammates* aloud slowly and clearly, showing the illustrations and stopping as described on the next page. Clarify vocabulary as you read.

**Materials**

- *Teammates*
- *Student Response Book* page 21

**TEKS 8.D.i**

Student/Teacher Activity  
Step 2 (all, on page 221) and Step 5  
(third discussion question in Step 5  
on page 224)

 **ELL Note**

Some of the vocabulary in *Teammates* may be challenging for your English Language Learners. You might want to show them the illustrations and summarize the story prior to the read-aloud.

**Teacher Note**

You will analyze the work the students do in their *Student Response Books* in this step for this unit’s Individual Comprehension Assessment.

## Teacher Note

Circulate among the students and notice whether they are able to write questions. If students are having difficulty, call on a few volunteers to share their questions with the class. Record the students' questions, exactly as stated, where everyone can see them, without discussing them. Continue to model with the class in this way during stops until the students successfully write questions on their own.

## Suggested Vocabulary

**racial prejudice:** dislike of people because they are of a different race (p. 9)

**apathetic:** lacking interest (p. 9)

**vigilante groups:** people who act outside the law to punish others for doing something they think is wrong (p. 9)

**creed:** religious beliefs (p. 11)

**intimidate:** frighten or bully (p. 12)

**savior:** person who rescues another from danger (p. 16)

**petition:** written request or demand, usually signed by many people (p. 24)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**extraordinary:** remarkable or special (p. 6)

**on the road:** (idiom) while traveling (p. 6)

**mobbed:** excitedly crowded (p. 16)

**humiliations:** events that cause embarrassment or shame (p. 17)

**hostility:** hatred (p. 21)

**take a stand:** (idiom) show one's beliefs (p. 28)

**provoke:** cause (p. 31)

Stop after:

- p. 8** "Life was very different for the players in the Major Leagues. They were the leagues for white players."

Ask:

**Q** *What questions can we ask about the story right now?*

Have the students record their questions in the Stop 1 box on *Student Response Book* page 21. Without stopping to discuss the questions, reread the last two sentences before the stop on page 8 and continue reading aloud to the next stop. Follow this procedure at the next three stops:

- p. 15** "Branch Rickey and Jackie Robinson were starting on what would be known in history as 'the great experiment.'"
- p. 22** "In addition, Pee Wee Reese had more to lose than the other players when Jackie joined the team."
- p. 28** "When he heard the fans yelling at Jackie, Pee Wee decided to take a stand."

Continue reading to the end of the book.

## 4 Use Questions to Discuss the Story

Tell the students that now they will use their questions to help them talk about the story with their partners. Give the students a few moments to review their questions individually and then have partners discuss the story using their questions. Ask them to think about what they heard in the story that might help answer some of their questions.

After a few minutes, signal for the students' attention. Have a few volunteers share some of the questions they wrote and discussed with their partners. Remind the students that sharing their questions gives them another opportunity to hear the various kinds of questions that can be asked about a story. Tell the students that they will have a chance to revisit their questions during the next class period.

## 5 Discuss Plot, Character, Setting, and Theme

Facilitate a class discussion about the book. Be ready to reread passages and show illustrations to help the students recall what they heard. Ask questions such as:

- Q *What is this story about?*
- Q *What kind of person was Jackie Robinson? What kind of person was Pee Wee Reese? What in the story makes you think that?*
- Q *The setting of this story is the United States in the 1940s. Why is the setting important? How does the time and place of this story affect what happened?*

### Students might say:

"Jackie Robinson was the kind of person who doesn't give up. Even though many people treated him in a terrible way, he stayed calm and he didn't quit the team."

"Pee Wee Reese seems like the kind of person who isn't scared of what other people think. When other players wanted him to help throw Jackie off the team, Pee Wee said no."

"The setting is very important because this story happened back when there was segregation in the U.S. and black people weren't treated equally."

"I agree with [Leon]. In the 1940s, many white people didn't want a black baseball player on a major league team."

Remind the students that most stories have one or more themes, or messages or lessons that the author wants readers to think about. Ask and briefly discuss:

- Q *What is a theme in *Teammates*? What can we learn from the story of Jackie Robinson and Pee Wee Reese that we can apply to our own lives?*

### Teacher Note

As partners share, circulate among the students. Note whether they are asking relevant questions, thinking about whether or not their questions are answered in the story, and giving evidence from the text to support their thinking.

### TEKS 8.A.i

Student/Teacher Narrative Step 6 (all, beginning on page 223 and continuing on page 224)

### TEKS 8.D.i

Student/Teacher Activity Step 5 (all, beginning on page 223 and continuing on to page 224)

### TEKS 6.E.iii

Student/Teacher Activity Step 5 (all, third and fourth discussion questions on page 223)

**TEKS 10.A.ii**  
Student/Teacher Activity  
Step 7 (all, beginning on page  
224 and continuing on to  
page 225)

**Students might say:**

"One theme might be about not giving up. Jackie Robinson didn't give up. He showed everyone that black players were just as good as white players."

"Jackie and Pee Wee both did the right thing, even though it was really hard. That's something we can do in our own lives."

"I think the author wants us to think about friendship. Pee Wee treated Jackie like a teammate and a friend. He didn't care what anyone else thought."

## 6 Reflect on Working Together

Facilitate a brief discussion about how the students took responsibility for their work during "Stop and Ask Questions" and how they are working together. Ask:

- Q** *How did using "Stop and Ask Questions" help you take responsibility for your own learning today?*
- Q** *What problems did you have working together? How did that affect your work? What will you do to avoid those problems the next time you work together?*

## INDIVIDUALIZED DAILY READING

### 7 Read Independently, Share Questions, and Think About Theme

Ask the students to notice questions they have as they read and to look for answers to their questions. Ask them also to think as they read about their stories' themes, or the messages or lessons the authors want the readers to think about. Tell the students that at the end of IDR, you will ask them to share their questions and what they noticed about their stories' themes with the class. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their thinking with the class. Have each volunteer share the title of his book and the author’s name, what the story is about, questions he had as he was reading, and whether he found answers to his questions. Discuss the themes of the stories by asking questions such as:

- Q *What did you learn from a character in your story that you can apply to your own life?*
- Q *What message or lesson do you think the author wants the reader to think about?*

Have the students return to their desks and put away their books.

---

## EXTENSIONS

### Read More About Jackie Robinson

Jackie Robinson’s life can be a source of thoughtful discussion and inspiration for students. Read a biography of Jackie Robinson aloud and have the students use “Stop and Ask Questions” to think about the book. Biographies at various reading levels include: *A Picture Book of Jackie Robinson* by David A. Adler, *Jackie Robinson* by Lucia Raatma, *Jackie Robinson Breaks the Color Line* by Andrew Santella, and *Jackie Robinson* by John F. Grabowski.

### Compare Points of View in *The Bat Boy & His Violin* and *Teammates*

Show the covers of *The Bat Boy & His Violin* and *Teammates* and remind the students that they heard these stories earlier. If necessary, briefly review each story.

Tell the students that you will read a passage from each story aloud and that they will think as they listen about who is telling the story. Turn to page 18 of *The Bat Boy & His Violin* and read the page aloud slowly and clearly. Ask:

- Q *Who is telling the story? What in the story makes you think so?*

Have one or two volunteers share their thinking. If necessary, show the illustrations on pages 18–19 and explain that Reginald is telling the story. Review that when the narrator (the person telling the story) is a character in the story, we say that the story is told from the first-person point of view.

Tell the students that now you will read a passage from *Teammates* and ask them to think as they listen about who is telling this story. Turn to pages 30–31 and read the passage aloud. Ask:

- Q *Who is telling the story? What in the story makes you think so?*

---

#### Teacher Note

If necessary, remind the students that words like *I*, *me*, and *my* are clues that can help the students recognize first-person point of view.

Have volunteers share their thinking. If necessary, explain that the narrator of *Teammates* is not a character in the story. Review that when the narrator is not a character in the story, we say that the story is told from the third-person point of view.

Facilitate a class discussion comparing the use of first- and third-person point of view in the two stories. Ask questions such as:

**Q** *Do you think it's more interesting to read a story told from the first- or third-person point of view? Why?*

**Students might say:**

"I think reading a book written from a first-person point of view is more interesting because that way we get to know what Reginald is thinking and feeling."

"I agree with [Isabella]. Knowing what Reginald is thinking and feeling makes the story more interesting."

"I think reading stories written in the third-person point of view is more interesting. It's easier to imagine what is happening because it's like you're watching a show on TV."

Briefly review that point of view is a story element like character, setting, plot, conflict, and theme and that it appears in all stories. Remind the students that recognizing and thinking about these elements will help them to better understand the stories they read.

## Day 4

## Guided Strategy Practice

### Materials

- *Teammates*
- *Student Response Book* page 21
- "Class Assessment Record" sheet (CA3)
- "Important Elements of Stories" chart from Day 1
- *Student Response Book*, Reading Journal section
- "Journal Entry" chart (WA5)

### In this lesson, the students:

- Hear a narrative nonfiction story again to listen for answers to their questions
- Use their questions to make sense of the story
- Read independently for 25–30 minutes
- Write in their reading journals
- Use discussion prompts to build on one another's thinking
- Agree and disagree in a caring way

### 1 Review Questions About the Story

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Show the cover of *Teammates* and remind the students that in the previous lesson they

used “Stop and Ask Questions” to help them listen to the story. Have them turn to *Student Response Book* page 21, “Stop and Ask Questions About *Teammates*.” Ask them to review their questions and note which questions they think are answered in the story and which are not.

Explain that today you will reread the story aloud so that they can listen carefully for the answers to their questions. Ask:

**Q** *What questions do you want to keep in mind during the second reading?*

Have several volunteers share their questions. Tell the students that after the reading they will discuss their questions and thoughts about the answers in pairs and with the class.

## 2 Reread *Teammates*

Read the story aloud slowly and clearly, without stopping.

## 3 Discuss Questions and Answers

Have the students discuss the story in pairs using their questions. Ask them to think about which of their questions are answered in the story and which are not. Remind them to use evidence from the story to support their thinking.

Circulate as the students talk. Listen to check whether they are using their questions to discuss the story and whether they are referring to the story to support their thinking.

### CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students using their questions to discuss the story?
- Are the students giving evidence from the story to explain their thinking?

Record your observations on the “Class Assessment Record” sheet (CA3); see page 47 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are using questioning and evidence from the text to discuss the story, continue on to Week 4.
- If **about half of the students** are using questioning and evidence from the text to discuss the story, continue on to Week 4 and monitor students who are having difficulty with questioning during IDR.
- If **only a few students** are using questioning and evidence from the text to discuss the story, you might give the class additional instruction by repeating this week’s lessons using an alternative book before continuing on to Week 4. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

After a few minutes, facilitate a class discussion using the questions that follow. Be ready to reread passages and show illustrations again to help the students recall what they heard. Before beginning the discussion, remind the students to use the discussion prompts they have learned.

- Q *What is a question that got you and your partner talking about the story?*
- Q *Is that question answered in the story? What happens in the story that makes you think so?*
- Q *What questions are not answered? How do you know?*
- Q *Do others agree that the question is [answered in that way/not answered]? Explain your thinking.*

**Students might say:**

"My partner [José] asked, 'How was life different for white players?' The book said that white players could stay in good hotels and eat at good restaurants."

"I agree with [José and Delia] because I remember the book said that white players got to sleep in good hotels, but black players didn't."

"I asked, 'Will the white players treat Jackie better after a while?' I think the question is answered because Pee Wee Reese put his arm around Jackie's shoulders, and that shows that the white players respected Jackie."

"I disagree with [Luke] because the book didn't say all the players were nice to Jackie. It said that Pee Wee Reese was nice to him. I don't think the other players treated him well."

Point out that sometimes answers to questions are given right in the text and sometimes answers are not given directly but can be figured out from clues in the story. Explain that when a reader uses clues to figure out something that is not stated directly in a story, the reader is *making an inference*. Explain that making inferences is an important reading comprehension strategy that the students will explore in more depth in the coming weeks.

### Teacher Note

The reading comprehension strategy of making inferences is introduced here very informally and will be the focus of Units 5 and 6. In the coming weeks, the students will informally analyze which of their questions are answered directly and which they can answer by making inferences.

## 4 Reflect on Working Together

Remind the students that this week they focused on taking responsibility for themselves, using discussion prompts, and agreeing and disagreeing in a caring way. Ask:

- Q *How were you responsible for your own learning during the class discussion today?*
- Q *What did we do to agree and disagree in a caring way? Why does it need to feel safe to disagree with one another in this room? What can we do to make sure it feels safe?*

# INDIVIDUALIZED DAILY READING

## 5 Read Independently and Write About Story Elements

Direct the students' attention to the "Important Elements of Stories" chart. Ask the students to think as they read about what they notice about the settings, plots, and themes in their stories as well as any conflicts or problems the characters face. Tell them that at the end of IDR, you will ask them to write in their reading journals about what they noticed about the story elements in their stories. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have them return to their desks and open their *Student Response Books* to the Reading Journal section. Then display the "Journal Entry" chart (WA5) and explain that today each student will write a journal entry. Also explain your expectations for what the journal entry should include.

WA5

#### Journal Entry

Write a journal entry about the book you are reading.  
Please include:

- The title and the author's name
- A sentence describing the story
- What you learned about the setting, the plot, a conflict or problem in the story, or a theme of the story

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write. Give the students a few minutes to write in their journals.

If time permits, have a few volunteers share their journal entries with the class.

#### Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

#### TEKS 5.A.ii

Student/Teacher Activity

Step 5

(first paragraph "read silently for 25 minutes...")

#### Teacher Note

If the students struggle to write, you might wish to model writing a journal entry as you did in Unit 2, Week 1, Day 4 (see Step 3).

#### Vocabulary Note

Next week you will revisit *The Bat Boy & His Violin* and *Teammates* to teach the Week 11 vocabulary lessons.

### Materials

- *Teammates*
- Copy of “First- and Secondhand Accounts of Jackie Robinson’s Experiences” (BLM2) for each student

### Teacher Note

Prior to doing this activity, you will need to visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print “First- and Secondhand Accounts of Jackie Robinson’s Experiences” (BLM2). Make enough copies for each student to have one, and set aside a copy for yourself. Preview the excerpts and identify vocabulary that you want to clarify as you read.

## WRITING ABOUT READING

### Write Opinions About First- and Secondhand Accounts of Jackie Robinson’s Experiences

Show the cover of *Teammates* and remind the students that they heard this book earlier. Ask:

**Q** *What do you remember about this book?*

If necessary, remind the students that this book tells a true story about two real people, Jackie Robinson and Pee Wee Reese. Explain that when author Peter Golenbock wrote *Teammates*, he researched the lives and careers of Robinson and Reese and then used what he learned to write about them. Explain that since Golenbock wrote about other people’s experiences, this book is a *secondhand account* of the events.

Distribute a copy of “First- and Secondhand Accounts of Jackie Robinson’s Experiences” (BLM2) to each student. Direct the students’ attention to the first excerpt and explain that this is an excerpt from the end of *Teammates*. Ask the students to follow along as you read the excerpt aloud and to think as they listen about how the author writes about Jackie Robinson and Pee Wee Reese. After you read the excerpt aloud, ask:

**Q** *What did you notice about the way the author writes about Robinson and Reese?*

Record the students’ ideas where everyone can see them, under the heading “Secondhand Account.”

Tell the students that Jackie Robinson wrote a book about his life titled *I Never Had It Made*. Explain that in his autobiography (true story about his own life), he wrote about his experiences playing for the Brooklyn Dodgers and about his friendship with Pee Wee Reese. Explain that because Jackie Robinson wrote this book himself, it is a *firsthand account* of his experiences.

Direct the students’ attention to the second excerpt and explain that this is an excerpt from Jackie Robinson’s autobiography *I Never Had It Made*. Tell the students that this excerpt tells about the same events described by author Peter Golenbock in *Teammates*. Ask the students to follow along as you read aloud and to think as they listen about what they notice about how Jackie Robinson writes and what new things they learn about Robinson’s interaction with Pee Wee Reese. Read the excerpt aloud, clarifying the vocabulary you identified. After the reading, ask:

**Q** *What did you notice about how Jackie Robinson writes?*

**Q** *What did you learn from Robinson’s account of these events?*

Record the students' ideas where everyone can see them, under the heading "Firsthand Account." Facilitate a discussion comparing the first- and secondhand accounts by asking the following questions:

- Q *How is the firsthand account similar to the secondhand account? How is it different?*
- Q *How can you tell that Jackie Robinson wrote the second excerpt?*
- Q *Which do you think is more interesting, the firsthand account or the secondhand account? Why?*

Tell the students that when they talk about which account of Jackie Robinson's experiences is more interesting, they are giving an opinion. Explain that people might have different opinions about the same thing and that this is fine. What matters is that they give reasons to explain their thinking. Then ask the students to watch as you think aloud and model writing about which account you think is more interesting.

**You might say:**

"I think the firsthand account written by Jackie Robinson is more interesting. I'll write: *I think the firsthand account of Jackie Robinson's experiences is more interesting.* Now I will give a reason why I think the firsthand account is more interesting. I'll write: *I think so because the firsthand account tells exactly how Robinson felt and what it meant to him when Reese came over and put his arm around his shoulder.* I want to explain how Robinson describes what happened in the firsthand account. I'll write: *For example, Robinson writes that he doesn't remember what Reese said and that the words weren't the important part. It was the support and comradeship that mattered.* I can think of another reason why I preferred the firsthand account. I'll write: *The firsthand account is also more interesting because it gives me a better sense of Robinson as a person. Hearing the story in Jackie Robinson's own words makes it feel more powerful to me.*"

Have the students write their own opinions about which account they think is more interesting and why. Encourage the students to refer to "First- and Secondhand Accounts of Jackie Robinson's Experiences" (BLM2) as they write. If time permits, invite volunteers to share their writing with the class.

---

## EXTENSION

### Compare Themes in *The Bat Boy & His Violin* and *Teammates*

Show the covers of *The Bat Boy & His Violin* and *Teammates* and remind the students that they heard these stories earlier. If necessary, briefly review each book by asking:

- Q *What do you remember about [The Bat Boy & His Violin/Teammates]?*

#### Technology Tip

To provide the students with more practice comparing first- and secondhand accounts, you might search online for television documentaries or interviews with Jackie Robinson or Pee Wee Reese. Have the students watch portions of the documentary or interview, determine which parts are first- or secondhand accounts of the event, and discuss why they think so. Search for information online using the keywords "Jackie Robinson Pee Wee Reese video interviews."

Ask and briefly discuss:

**Q** *How are these two stories alike?*

Be ready to reread passages from the stories and show illustrations again to help the students recall what they heard. If necessary, briefly point out that both stories are about the topics of baseball, the Negro leagues, and segregation, and they both took place during the 1940s. Ask:

**Q** *What can we learn from these two stories that we might be able to apply to our own lives?*

Have a few volunteers share their thinking.

**Students might say:**

"I think we can learn that you should never give up. Reginald didn't give up playing his violin, and Jackie didn't give up playing baseball."

"In addition to what [Becky] said, I think that we can learn that you should feel good about who you are no matter what other people think. Jackie knew he was a good baseball player. He didn't let the way the other players treated him stop him from doing his best.

Reginald didn't let the way his dad felt about him playing the violin stop him from playing."

Remind the students that by asking themselves what they can learn from a story, they are exploring the story's themes. Review that a *theme* is a "message or lesson that the author wants readers to think about" and that a story can have more than one theme. Ask:

**Q** *How are the themes in *Teammates* and *The Bat Boy & His Violin* similar? How are they different?*

**Students might say:**

"I think they are kind of similar. Reginald doesn't give up his dream of being a violinist even though his father doesn't approve. Jackie Robinson doesn't give up on playing in the major leagues even though many people are against him."

"I think the themes are different. *Teammates* is about how people's skin color doesn't matter, but *The Bat Boy & His Violin* is about how parents shouldn't try to change their kids."

"I think the stories' themes are similar because they are both about doing what you love, no matter what."

Briefly review that theme is a story element like character, setting, and plot and that it appears in all stories. Remind the students that recognizing and thinking about these elements will help them to better understand the stories they read.

### Teacher Note

You might repeat this extension by comparing and contrasting themes in *Thunder Cake* and *Chicken Sunday*, both by Patricia Polacco. Some themes in the stories deal with love overcoming fear, the importance of family, and relationships between the young and the old.

# Week 4

## OVERVIEW

### Myths

#### “Demeter and Persephone”

based on a Greek myth (see page 255)

This story is based on a Greek myth that tells how the seasons came to be.

#### “Co-chin and the Spirits”

based on an Acoma legend (see pages 256–257)

This story is based on a Native American legend that tells how the seasons came to be.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA6–WA8

#### Assessment Forms

- “Class Assessment Record” sheet (CA4)
- “IDR Conference Notes” record sheet (CN1)

#### Reproducibles

- (Optional) “Demeter and Persephone” (BLM3)
- (Optional) “Co-chin and the Spirits” (BLM4)

### Comprehension Focus

- Students use questioning to help them make sense of myths.
- Students think about whether their questions are answered explicitly or implicitly.
- Students explore elements of narrative text structure in myths, including character change and conflict.
- Students compare themes and events in myths.
- Students read independently.

### Social Development Focus

- Students relate the value of respect to their behavior.
- Students use discussion prompts to build on their partners' thinking.

## ⌚ DO AHEAD

- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA4); see page 48 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 11 lessons this week.

# Day 1

## Read-aloud/ Guided Strategy Practice

### Materials

- “Demeter and Persephone” (see page 255)
- *Student Response Book* page 22
- “Questions About ‘Demeter and Persephone’” (WA6)

### ELL Note

Consider rephrasing this question for your English Language Learners, for example, “How will you tell your partner that you disagree?” Remind them to be respectful.

### In this lesson, the students:

- Learn to use discussion prompts in pairs
- Hear and discuss a myth
- Use questioning to make sense of the myth
- Read independently for 25–30 minutes
- Act respectfully toward their partners

## 1 Teach Using Discussion Prompts in Pairs

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind them that in previous lessons they used the discussion prompts to build on one another’s ideas during class discussions. Ask:

**Q** *How have the prompts been helping us communicate better during class discussions?*

Tell the students that you would like them to start using the discussion prompts to help them listen and connect their comments during their partner conversations. Ask:

**Q** *How can you tell your partner that you respect his or her thinking, even if you disagree? Why will that be important?*

### Students might say:

“I can say, ‘What you said was interesting, but I disagree with you because . . .’”

“I can say, ‘I understand what you said, but I disagree with you because . . .’”

“I can say, ‘I can see your point, but I disagree with you because . . .’”

Ask the students to keep what they talked about in mind as they practice using the prompts with their partners today.

## 2 Introduce Myths

Remind the students that in previous lessons they used “Stop and Ask Questions” to help them make sense of the stories *The Bat Boy & His Violin* and *Teammates*. Explain that this week they will use “Stop and Ask Questions” again to help them listen to another kind of story called a myth. Tell the students that a *myth* is a “a traditional story that explains

a practice, belief, or natural phenomenon.” Point out that when a myth explains a natural phenomenon, it is explaining why something happens in nature—such as why there is lightning or why some trees lose their leaves. Tell the students that they will hear two myths this week that tell about how the seasons came to be. Explain that the first myth is from ancient Greece and the second myth comes from the Acoma Indians.

### 3 Introduce “Demeter and Persephone”

Tell the students that the first myth they will hear this week is called “Demeter and Persephone.” Explain that this myth tells the story of a Greek goddess named Demeter, her beautiful daughter Persephone, and the god Hades who rules the underworld. Explain that the ancient Greeks believed that the underworld was the place where people’s souls go after they die.

Ask the students to turn to *Student Response Book* page 22, “Stop and Ask Questions About ‘Demeter and Persephone.’” Explain that as you read aloud, you will stop three times. At the first stop, the students will ask questions as a class. At Stops 2 and 3, the students will write their questions in the appropriate boxes. Tell them that partners will use their questions to discuss the myth after the reading.

### 4 Read Aloud with “Stop and Ask Questions”

Read “Demeter and Persephone” aloud slowly and clearly, stopping as described on the next page. Clarify vocabulary as you read.

#### Suggested Vocabulary

**commanded:** ordered

**pomegranate:** round, red fruit with sweet, juicy seeds inside

**rejoiced:** was extremely happy; celebrated

**mourns:** feels extremely sad, as when someone dies

**neglects her work:** does not do her work

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**ripen:** become ready to eat

**caused the ground to open up:** made a huge hole in the ground

**looking after:** taking care of

**wept:** cried

**starve:** become sick or die from not having food

#### Teacher Note

You might tell the students that in our time scientists provide explanations for natural events like lightning through scientific observation and research. People who lived long ago did not have science to explain natural phenomena, so they developed myths, or stories, to explain these events.

## Teacher Note

At each of the remaining stops, circulate among the students and notice whether they are able to write questions. If the students have difficulty, have a few volunteers share their questions aloud and record these, exactly as the students say them, on the “Questions About ‘Demeter and Persephone’” chart (WA6) without discussing them. Continue to model in this way during stops until the students successfully write questions on their own. You might also model writing a few of your own questions, for example, *Will Persephone escape? What will happen to the flowers and fruit if Persephone has to stay in the underworld? What does Persephone do when she’s living in the underworld for six months each year? and What would have happened if Zeus didn’t help Persephone?*

## Facilitation Tip

Continue to practice **asking facilitative questions** during class discussions to help the students respond directly to one another. Redirect students’ comments to the class by asking:

- Q *Do you agree or disagree with [Mae]? Why?*
- Q *What questions can we ask [Mae] about what she said?*
- Q *What can you add to what [Mae] said?*

Stop after:

- p. 255** “She knew of Hades’s rule: anyone who visited the underworld and ate something that grew there must live in the underworld forever.”

**Q** *What questions can we ask about the myth right now?*

## Questions About “Demeter and Persephone”

- Will Persephone eat something?*
- Who else lives in the underworld?*
- Is Hades a cruel god?*

WA6

Have a few volunteers share their questions with the class. Display the “Questions About ‘Demeter and Persephone’” chart (WA6) and record the students’ questions, exactly as they say them, on the chart. If the students have difficulty generating questions, model generating a few questions like those in the diagram above and record them on the chart.

Tell the students that they will write questions on their own at the next two stops. Reread the last sentence before the stop and continue reading aloud. Stop after:

- p. 255** “Persephone would now have to stay in the underworld.”

Have the students write any questions they can think of at this point in the Stop 2 box on *Student Response Book* page 22. Without stopping to discuss the questions, reread the last sentence before the stop and continue reading to the end of the myth.

Have the students record their questions in the Stop 3 box on page 22.

## 5 Use Questions to Discuss the Myth

Ask the students to review their questions and think about what they have heard. Have them put a check mark next to each question they think is answered in the myth.

Tell the students that now they will use their questions to help them talk about the reading with their partners. Give partners a few moments to discuss the myth using their questions. Remind the students to use the discussion prompts in their partner conversations.

After a few minutes, facilitate a class discussion using the questions that follow. As the students volunteer their own questions, record them on the “Questions About ‘Demeter and Persephone’” chart. Be ready to reread passages from the myth to help the students recall details. Ask the questions on the following page.

- Q** *What is a question that got you and your partner talking about the myth? What did you hear during the reading that helped you discuss those questions?*

**Students might say:**

"My partner asked, 'Will Persephone eat something?' We found out that she ended up eating six pomegranate seeds."

"My partner asked, 'How will Demeter find her daughter?' We found out that Zeus decided to help Demeter get Persephone back."

- Q** *What event in nature does this myth explain? What in the myth makes you think that?*

Remind the students that they put a check mark next to questions they think are answered in the myth. Explain that tomorrow the students will talk more about those questions.

## **6** Reflect on Using Discussion Prompts in Pairs

Facilitate a brief discussion of how the students did using the discussion prompts in their partner conversations. Share examples you overheard of partners using the prompts.

Explain that the goal of learning the discussion prompts is to use them naturally in both partner conversations and class discussions. The discussion prompts can help the students listen well and participate responsibly in all discussions.

# INDIVIDUALIZED DAILY READING

## **7** Read Independently and Ask Questions

Ask the students to notice questions they have as they read and to look for answers to their questions. Tell them that at the end of IDR, you will ask them to share with the class questions they had and any answers they found. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 53 of the *Assessment Resource Book*.

### Teacher Note

The purpose of this discussion is to establish the students' surface-level understanding and their ability to ask questions about the myth. After a single reading, the students will not always be able to support their conclusions with details from the myth. This is to be expected. In the next lesson, the students will hear the myth again and have an opportunity to listen for details that support their thinking.

### Teacher Note

Save the "Questions About 'Demeter and Persephone'" chart (WA6) to use on Day 2. If necessary, add examples of questions that are answered directly or indirectly to the chart to discuss on Day 2 (see Step 1).

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share with the class the titles of their books and the authors' names, what the books are about, questions they had as they were reading, and whether they found answers to their questions. Have the students return to their desks and put away their books.

# Day 2

## Strategy Lesson

### Materials

- “Demeter and Persephone” (see page 255)
- “Questions About ‘Demeter and Persephone’” chart (WA6) from Day 1
- *Student Response Book* page 22
- “Story Elements in ‘Demeter and Persephone’” chart (WA7)
- “Class Assessment Record” sheet (CA4)

**TEKS 7.C.i**  
Student/Teacher Narrative  
Step 1 (all, beginning on page 240 and continuing on to page 241)

### In this lesson, the students:

- Hear a myth again to build comprehension
- Use their questions to understand and discuss the myth
- Think about whether their questions are answered directly, indirectly, or not at all
- Discuss character, setting, plot, and conflict
- Read independently for 25–30 minutes

### 1 Review the “Questions About ‘Demeter and Persephone’” Chart

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that in the previous lesson they used “Stop and Ask Questions” to help them make sense of and discuss the myth “Demeter and Persephone.”

Remind the students that sometimes readers find the answer to a question right in the text, and sometimes an answer is not given directly, but readers can figure it out using clues from the story.

Display the “Questions About ‘Demeter and Persephone’” chart (WA6) from Day 1. Direct the students’ attention to a question on the chart that is answered directly in the myth and one that is answered indirectly and think aloud about how the questions are answered, using evidence from the text.

#### You might say:

“The question, ‘Will Persephone eat something?’ is answered directly in the story. We found out that she ate six pomegranate seeds.”

“The question, ‘Is Hades a cruel god?’ can be answered indirectly from clues. The myth doesn’t say that he’s cruel, but I think that he is because he captures Persephone and keeps her in the underworld even though she doesn’t want to stay there.”

Ask:

**Q** *What is another question on our chart that has been answered? Is it answered directly, or is it answered indirectly using clues? Where is it answered directly, or what clues did you use to figure out the answer?*

## 2 Have the Students Review Their Questions

Ask the students to turn to *Student Response Book* page 22, “Stop and Ask Questions About ‘Demeter and Persephone,’” and to think quietly to themselves as you ask the following questions one at a time:

**Q** *Look at the questions that have check marks next to them. Which of those questions do you think are answered directly in the myth? Put a star next to each of those questions.*

**Q** *Which questions do you think are not answered directly, but are answered indirectly using clues? Put a circle next to each of those questions.*

To help the students remember what the symbols mean, write them where everyone can see them.

★ : question answered directly

○ : question answered by making an inference  
from clues

## 3 Reread “Demeter and Persephone” Aloud

Explain that you will reread the myth and that you would like the students to listen carefully to hear whether their questions are answered directly, indirectly through clues, or not at all. Tell the students that after the reading they will discuss their questions and thoughts about the answers with the class.

Read “Demeter and Persephone” aloud slowly and clearly, without stopping.

## 4 Discuss the Myth

Facilitate a class discussion using the questions that follow. Be ready to reread passages from the myth to help the students recall details. Ask:

**Q** *What is a question that you wrote that you think is answered directly in the myth? How is the question answered?*

**Q** *What is a question that you wrote that you think is not answered directly, but can be answered from clues? What clues?*

**Q** *Do others agree that the question is answered in that way? Explain your thinking.*

### Teacher Note

If the students need more explanation about direct and indirect meanings in the text, you might explain that when an author comes right out and tells you something, the meaning is communicated directly. For example, the author of “Demeter and Persephone” states, “Hades decided he would take her to the underworld and keep her there,” which explains how Persephone came to be in the underworld. Often, however, authors communicate things through clues rather than stating them directly. For example, from the sentence “While Demeter wept for her lost daughter, people on Earth began to starve,” we understand that because of her sadness, Demeter wasn’t tending to the plants and crops, so the people on Earth had no food to eat. In this case, the meaning is communicated indirectly.

### Teacher Note

Remind the students that disagreements about whether a question is answered or how it is answered are opportunities for them to think about the myth more deeply and to use evidence from the myth to support their opinions.

Remind the students that when a reader uses clues to figure out something that is not stated directly in a story, the reader is making an inference.

Review that the reason you reread the myth was to help the students listen for answers to their questions. Remind the students that good readers often ask themselves questions about what they are reading and reread to help them make sense of the text.

## 5 Discuss Story Elements

Display the “Story Elements in ‘Demeter and Persephone’” chart (WA7) and remind the students that another way to make sense of stories is to think about story elements, such as character, setting, plot, and conflict or problem. Tell the students that you would like their help with using these story elements to think about “Demeter and Persephone.” Ask:

 **Q** *Who are the main characters in this myth? Turn to your partner.*

Have a few volunteers share their thinking. As the students share, write their responses on the chart.

### Teacher Note

If the students struggle to answer the questions, reread sections of the myth to help stimulate their thinking.

WA7

#### Story Elements in “Demeter and Persephone”

Main characters:

*Demeter, Persephone, Hades, Zeus*

Settings:

*The underworld and Earth*

Plot:

*Persephone was taken to the underworld by Hades. Demeter was trying to find her. The longer Persephone was gone, the sadder Demeter became. Zeus had to help Demeter get Persephone back.*

Conflicts or problems:

*Persephone couldn't eat anything in the underworld or she'd have to stay there forever. Persephone ended up eating six pomegranate seeds.*

*Persephone's mother, Demeter, was sad. Because she was sad, it was always winter and people were starving.*

Follow the same procedure to discuss the following questions:

 **Q** *What are the settings of the myth? Where does the myth take place? Turn to your partner.*

**Q** *What is the plot? What happens to the characters in the myth? Turn to your partner.*

- Q *What conflicts or problems occur in this myth? Turn to your partner.*
- Q *How do the characters end the conflicts or solve the problems? Turn to your partner.*

Circulate as partners discuss each question and notice whether the students are able to identify the characters, the settings, the plot, and one or more conflicts or problems in the myth.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify the main characters in the myth?
- Are the students able to identify the settings of the myth?
- Are the students able to explain the plot of the myth?
- Are the students able to describe the conflicts or problems the characters are facing in the myth?
- Are the students able to explain how the characters end the conflicts or solve the problems?

Record your observations on the “Class Assessment Record” sheet (CA4); see page 48 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to describe the story elements in the myth, proceed with the lesson and continue on to Day 3.
- If **about half of the students** are able to describe the story elements in the myth, proceed with the lesson and continue on to Day 3 but closely monitor and support students who are having difficulty. Confer with these students during IDR and ask them questions such as:

Q *What is the setting of your story? Where and when does it take place?*

Q *Who are the main characters in your story? What is happening to the characters? What [conflict/problem] is the main character in your story facing?*

- If **only a few students** are able to describe the story elements in the myth, you might give the class additional instruction by repeating Days 1 and 2 of this week using an alternative myth before continuing on to Day 3. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

Remind the students that *recognizing story elements* and *questioning* are both strategies that they are learning to help them better understand everything they read. Remind them to practice using these strategies as they read independently.

Tell the students that in the next lesson you will read a myth that comes from the Acoma Indians, and the students will have another opportunity to ask themselves questions about a text.

## INDIVIDUALIZED DAILY READING

### 6 Read Independently and Ask Questions

Ask the students to notice questions they have as they read and to look for answers to their questions. Tell them that at the end of IDR, you will ask them to share with the class questions they had and any answers they found. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share with the class the titles of their books, the authors’ names, and what the books are about. Follow up by asking questions such as:

**Q** *What questions do you have about what you read?*

**Q** *What answers have you found to your questions?*

Have the students return to their desks and put away their books.

## In this lesson, the students:

- Hear and discuss a myth
- Use questioning to make sense of the myth
- Think about whether their questions are answered directly, indirectly, or not at all
- Discuss character change
- Read independently for 25–30 minutes
- Use discussion prompts to build on their partners' thinking

## 1 Review Myths and “Stop and Ask Questions”

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that in previous lessons they used “Stop and Ask Questions” to help them make sense of the myth “Demeter and Persephone.” Review that a *myth* is a “fiction story that takes place a long time ago and often explains why something happens in nature.” Ask:

**Q** *What event in nature does the myth “Demeter and Persephone” explain?*

If necessary, remind the students that the myth “Demeter and Persephone” explains how the seasons came to be. Tell the students that today they will use “Stop and Ask Questions” again to help them make sense of another myth that explains how the seasons came to be.

## 2 Introduce “Co-chin and the Spirits”

Tell the students that the myth they will hear today comes from the Acoma Indian tribe. Explain that the main characters are a woman named Co-chin and two spirits, one named Shakok and the other named Miochin.

Ask the students to turn to *Student Response Book* page 23, “Stop and Ask Questions About ‘Co-chin and the Spirits.’” Explain that as you read aloud, you will stop three times. At the first stop, the students will ask questions as a class. At Stops 2 and 3, the students will write their questions in the appropriate boxes. Tell them that after the reading, they will use their questions to discuss the myth with their partners.

## 3 Read Aloud with “Stop and Ask Questions”

Read “Co-chin and the Spirits” aloud slowly and clearly, stopping as described on the next page. Clarify vocabulary as you read.

## Materials

- “Co-chin and the Spirits” (see pages 256–257)
- *Student Response Book* pages 23–24
- “Questions About ‘Co-chin and the Spirits’” chart (WAB)

**TEKS 9.A.ii**  
Student/Teacher Activity  
Step 1 (all)

## Suggested Vocabulary

**custom:** usual way of doing something (p. 256)

**enraged:** very angry (p. 256)

**fierce:** terrible (p. 257)

**compromised:** came to an agreement (p. 257)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**curious-looking stranger:** person she didn't know who looked unusual (p. 256)

**bundle:** group of things tied together (p. 256)

**mysterious:** strange (p. 256)

**caught sight of:** (idiom) saw (p. 256)

Stop after the last sentence of the third paragraph:

**p. 256** "He gave Co-chin his ear of corn to eat, and then he asked her to wait while he went to get a bundle of corn for her to take home."

**Q** *What questions can we ask about the myth right now?*

### Questions About "Co-chin and the Spirits"

*Who is the strange man?*

*Why does Shakok make it so cold?*

*If nothing can grow, where does the man get the corn?*

WA8

### Teacher Note

At each of the remaining stops, circulate among the students and notice whether they are able to write questions. If students are having difficulty, have a few volunteers share their questions aloud and record these, exactly as the students say them, on the "Questions About 'Co-Chin and the Spirits'" chart (WA8) without discussing them. Continue to model in this way during stops until the students are able to successfully write questions on their own. You might also model writing a few questions of your own, for example, *What will happen if Shakok sees Miochin? Is Miochin a mean spirit? How long have Co-chin and her people been eating cactus? and What would happen if Co-chin went to Miochin's home?*

Have a few volunteers share their questions with the class. Display the "Questions About 'Co-chin and the Spirits'" chart ( WA8) and record the students' questions, exactly as they say them, on the chart. If the students have difficulty generating questions, model generating a few questions like those in the diagram above and record them on the chart.

Tell the students that they will write questions on their own at the next two stops. Reread the last sentence before the stop and continue reading aloud. Stop after:

**p. 256** "He brought more corn for her, and together they took the corn to Co-chin's village."

Have the students write any questions they can think of at this point in the Stop 2 box on *Student Response Book* page 23. Without stopping to discuss the questions, reread the last sentence before the stop and continue reading to the end of the myth.

Have the students record their questions in the Stop 3 box on page 23.

## 4 Use Questions to Discuss the Myth

Ask the students to review their questions and think about what they have heard. Have them put a check mark next to each question they think is answered in the myth. Give partners a few moments to discuss the myth using their questions. Remind the students to use the discussion prompts in their partner conversations.

After a few minutes, facilitate a class discussion using the questions that follow. As the students volunteer their own questions, record them on the “Questions About ‘Co-Chin and the Spirits’” chart. Be ready to reread passages from the myth to help the students recall details. Ask:

**Q** *What is a question that got you and your partner talking about the myth? What did you hear during the reading that helped you discuss that question?*

### Students might say:

“My partner asked, ‘Will the strange man come back with more corn?’ We learned that he did.”

“My partner asked, ‘Why did Co-chin marry Shakok if he was so mean?’ We didn’t find out the answer to that question.”

Tell the students that tomorrow they will talk more about the questions they marked with a check.

## 5 Discuss Character Change

Remind the students that characters are an important element of stories and that characters in a story often change. Have the students turn to *Student Response Book* page 24, “Excerpt from ‘Co-chin and the Spirits,’” and explain that in this short excerpt from the myth, Shakok has a moment of realization in which he changes. Ask partners to read the passage together and then talk about what happens to Shakok. After the students have had a chance to read and talk, facilitate a class discussion by asking:

**Q** *How does Shakok change? Why do you think he changes? What makes you think that?*

### Students might say:

“In the beginning, Shakok thinks he can beat Miochin. He’s very confident. In the end, he gives up.”

“In addition to what [Zach] said, I think that Shakok gives up because he realizes that Miochin is stronger than he is.”

“In the beginning, the myth says that Shakok is ‘enraged.’ In the end, he’s willing to make a compromise with Miochin, so he must not be mad anymore.”

### Teacher Note

The purpose of this discussion is to establish the students’ surface-level understanding and their ability to ask questions about the myth. After a single reading, the students will not always be able to support their conclusions with details from the myth. This is to be expected. In the next lesson, the students will hear the myth again and have an opportunity to listen for details that support their thinking.

### Teacher Note

Save the “Questions About ‘Co-chin and the Spirits’” chart (WA8) to use on Day 4. If necessary, add examples of questions that are answered directly or indirectly to the chart to discuss on Day 4 (see Step 1).

## 6 Discuss Using the Discussion Prompts

Facilitate a class discussion of how partners did using the discussion prompts. Ask:

- Q *How did you and your partner use the discussion prompts in your partner conversations today? How did that help you to listen to your partner?*
- Q *How did your partner show that he or she respected your thinking?*

Explain that the goal of learning the discussion prompts is to use them naturally, in both partner conversations and class discussions. Using the discussion prompts will help the students participate responsibly in discussions by encouraging them to listen and to build on the ideas of others.

## INDIVIDUALIZED DAILY READING

### 7 Read Independently and Ask Questions

Ask the students to notice questions they have as they read and to think about whether the questions are answered directly, indirectly, or not at all. Tell them that at the end of IDR, you will ask them to share their questions with the class. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share with the class the titles of their books and the authors’ names, what the books are about, and questions they had about what they read. Follow up by asking questions such as:

- Q *What was happening in the book when that question came to mind?*
- Q *How would you answer that question right now? What evidence in the book makes you think that?*
- Q *Is that question answered directly in the book or indirectly through clues? If indirectly, what are the clues?*

Have the students return to their desks and put away their books.

## In this lesson, the students:

- Hear a myth again to build comprehension
- Use their questions to understand and discuss the myth
- Think about whether their questions are answered directly, indirectly, or not at all
- Compare two myths about a similar topic
- Read independently for 25–30 minutes

## 1 Review the “Questions About ‘Co-chin and the Spirits’” Chart

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that in the previous lesson they used “Stop and Ask Questions” to help them make sense of and discuss the myth “Co-chin and the Spirits.”

Remind the students that sometimes readers find the answer to a question right in the text, and sometimes an answer is not given directly, but readers can figure it out using clues from the story.

Display the “Questions About ‘Co-chin and the Spirits’” chart (C WA8) from Day 3. Direct the students’ attention to a question on the chart that is answered directly in the myth and one that is answered indirectly and think aloud about how they are answered, using evidence from the text.

### You might say:

“The question ‘Who is the strange man?’ is answered directly in the story. We found out that he is Miochin, the Spirit of Summer.”

“The question ‘Why does Shakok turn everything cold?’ can be answered indirectly from clues. The myth doesn’t say why he does it, but I think that since he’s a spirit, he has some kind of magical power that makes it cold wherever he goes.”

Ask:

- Q** *What is another question on our chart that has been answered? Is it answered directly, or is it answered indirectly using clues? Where is it answered directly, or what clues did you use to figure out the answer?*

## Materials

- “Co-chin and the Spirits” (see pages 256–257)
- *Student Response Book* page 23
- “Questions About ‘Co-chin and the Spirits’” (WA8) from Day 3

### Teacher Note

If the students need more explanation about direct and indirect meanings in texts, you might explain that when an author comes right out and tells you something, the meaning is communicated directly. For example, the author of “Co-chin and the Spirits” states, “As was the custom, Shakok came to live with Co-chin’s people,” which explains why Shakok is in the village. Often, however, authors communicate things through clues rather than stating them directly. For example, we can infer that Shakok is the reason that “the air grew cold” and “snow covered the land” from these sentences: “Soon after Shakok’s arrival in the village, the air grew cold. Snow covered the land like a soft white blanket.” In this case, the meaning is communicated indirectly.

## 2 Have the Students Review Their Questions

Ask the students to turn to *Student Response Book* page 23, “Stop and Ask Questions About ‘Co-chin and the Spirits,’” and to think quietly to themselves as you ask the following questions one at a time:

- Q *Look at the questions that have check marks next to them. Which of those questions do you think are answered directly in the myth?*
- Q *Which questions do you think are not answered directly but are answered indirectly using clues? What clues?*

## 3 Reread “Co-chin and the Spirits” Aloud

Explain that you will reread the myth and that you would like the students to listen carefully to hear whether their questions are answered directly, indirectly through clues, or not at all. Tell the students that after the reading, they will discuss their questions and thoughts about the answers with the class.

Read “Co-chin and the Spirits” aloud slowly and clearly, without stopping.

## 4 Analyze the Questions in Pairs

Ask the students to look again at their questions and think about what they heard. Have them put a star next to each question they think is answered directly and a circle next to each question they think can be answered by making an inference from clues. To help the students remember what the symbols mean, write them where everyone can see them:

- ★ : question answered directly
- : question answered by making an inference from clues

Have partners discuss their questions and how they think the questions are answered. Remind them to use the discussion prompts to help them build on one another’s thinking. Circulate as the students talk. Listen to check whether they are using their questions to discuss the myth and whether they are referring to the myth to support their thinking.

## 5 Discuss the Myth as a Class

When most pairs have finished talking, facilitate a class discussion using the questions that follow. Be ready to reread passages from the myth to help the students recall details. Ask:

- Q *What is a question you wrote that you think is answered directly in the myth? How is the question answered?*
- Q *What is a question you wrote that you think is not answered directly but can be answered from clues? What clues?*
- Q *Do others agree that the question is answered in that way? Explain your thinking.*
- Q *Did any of your answers from the first reading change because of what you heard in the second reading? How did they change?*

## 6 Compare “Demeter and Persephone” and “Co-chin and the Spirits”

Remind the students that they heard myths from two different cultures that have a similar theme: they explain how the seasons came to be. Ask:

- Q *How does the myth “Demeter and Persephone” explain why there is winter and summer?*
- Q *How does the myth “Co-chin and the Spirits” explain why there is winter and summer?*
- Q *How are these explanations similar? How are they different?*

### Students might say:

“They are similar because in both myths, there is a god or a spirit who controls the seasons.”

“I agree with what [Maya] said, but I also think the myths are different because in ‘Demeter and Persephone,’ there is one goddess who controls the seasons, but in ‘Co-chin and the Spirits’ there are two spirits who control the seasons.”

“In addition to what [Peter] said, I think that the myths are different because in ‘Demeter and Persephone,’ the way Demeter feels is what makes the seasons change. In ‘Co-Chin and the Spirits,’ the seasons change depending on which spirit is ruling the land.”

Tell the students that next week they will use questioning to help them think about a play.

### Teacher Note

Remind the students that disagreements about whether a question is answered or how it is answered are opportunities for them to think about the story more deeply and to use evidence from the text to support their opinions.

### Teacher Note

If the students struggle to answer the question, reread the myth and then ask the question again.

# INDIVIDUALIZED DAILY READING

## 7 Read Independently and Ask Questions

Ask the students to notice questions they have as they read and to think about whether the questions are answered directly, indirectly, or not at all. Tell them that at the end of IDR, you will ask them to share their questions with the class. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share with the class the titles of their books and the authors’ names, what the books are about, and questions they had about what they read. Follow up by asking questions such as:

- Q *What was happening in the book when that question came to mind?*
- Q *How would you answer that question right now? What evidence in the book makes you think that?*
- Q *Is that question answered directly in the book or indirectly through clues? If indirectly, what are the clues?*

Have the students return to their desks and put away their books.

### Vocabulary Note

Next week you will revisit “Demeter and Persephone” and “Co-chin and the Spirits” to teach the Week 12 vocabulary lessons.

**TEKS 6.E.ii**

**TEKS 7.B.i**

**TEKS 7.C.i**

Student/Teacher Activity  
Writing About Reading (all,  
beginning on page 252 and  
continuing on to page 253)

### Materials

- “Demeter and Persephone” (see page 255)
- “Co-chin and the Spirits” (see pages 256–257)
- Copy of “Demeter and Persephone” (BLM3) for each student
- Copy of “Co-chin and the Spirits” (BLM4) for each student

## WRITING ABOUT READING

### Write About Text-to-text Connections in “Demeter and Persephone” and “Co-chin and the Spirits”

Distribute copies of “Demeter and Persephone” (BLM3) and “Co-chin and the Spirits” (BLM4) to the students. Review that both of these myths explain why the seasons change. Tell the students that you will read each of the myths again and that as you read you would like them to follow along and think about how the myths are alike and how they are different.

Read the myths aloud. After the reading, write the heading “What’s the Same” where everyone can see it. Ask:

**Q** *What is the same about these two myths? Turn to your partner.*

After partners talk, have several volunteers share their thinking. As they share, list their ideas below the heading.

**Students might say:**

“Both myths are about why we have summer and winter.”

“Both myths have main characters that are girls.”

“There is an argument over a girl in both myths, and that’s what causes problems in both stories.”

“In both myths, the characters had to make a compromise so that everyone could get what they want.”

Write the heading “What’s Different” where everyone can see it. Ask:

**Q** *What is different about these two myths? Turn to your partner.*

After partners talk, have several volunteers share their thinking. As they share, list their ideas below the heading.

**Students might say:**

“In ‘Demeter and Persephone,’ the main characters are gods. In ‘Co-chin and the Spirits,’ the characters are regular people and spirits.”

“In ‘Demeter and Persephone,’ Demeter is the only one who can change the seasons. In ‘Co-chin and the Spirits,’ both Shakok and Miochin can change the seasons.”

“In ‘Demeter and Persephone,’ Zeus helps solve the problem. The Acoma chief doesn’t help solve the problem in ‘Co-chin and the Spirits.’”

Ask the students to watch as you think aloud and model writing about what is the same and what is different about the two myths.

**You might say:**

“First I want to describe some of the things that are the same about the two myths. I’ll write: *The myths ‘Demeter and Persephone’ and ‘Co-chin and the Spirits’ are the same in some ways. Both myths tell about why we have summer and winter. In both myths, people are starving because the crops are not growing.* Now I want to write about some of the things that are different about the two myths. I’ll write: *The two myths are also different in some ways. In ‘Demeter and Persephone,’ Demeter is the only one who controls the seasons. In ‘Co-chin and the Spirits,’ Shakok makes the land cold and Miochin makes the land warm. Persephone has to live with Hades in the underworld for six months. Co-chin gets to stay in her own home.*”

## Teacher Note

Prior to doing this activity, you will need to visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print “Demeter and Persephone” (BLM3) and “Co-chin and the Spirits” (BLM4). Make enough copies for each student to have one copy of each myth.

Have the students write about what is the same and what is different in the two myths. If time permits, ask a few volunteers to share their writing with the class.

---

## EXTENSION

### Read Another Myth About the Seasons

There are several other Native American myths that explain how the seasons came to be. You might locate one or two of these myths, such as the Acoma legend “Blue Corn Maiden and the Coming of Winter” and the Anishinabe legend “How Fisher Went to the Skyland: The Origin of the Big Dipper,” and read them aloud to the students. After reading each myth, facilitate a discussion about how the myth is similar to or different from “Co-chin and the Spirits” using questions such as:

- Q** *What is the plot of this myth? What happens to the characters?*
- Q** *How does the myth [“Blue Corn Maiden and the Coming of Winter”] explain why there is winter and summer?*
- Q** *How does the myth “Co-chin and the Spirits” explain why there is winter and summer?*
- Q** *How are these explanations similar? How are they different?*

# Myth

## Demeter and Persephone

Demeter was the goddess who made the grass grow, the flowers bloom, and the fruit ripen. She had a beautiful daughter named Persephone, whom she loved dearly.

Hades, the god of the underworld, fell in love with the beautiful Persephone. Hades decided that he would take her to the underworld and keep her there. He caused the ground to open up beneath Persephone, and she fell from this world into the world below. She badly wanted to return to her mother and the world above. Though hungry, Persephone ate nothing at all. She knew of Hades's rule: anyone who visited the underworld and ate something that grew there must live in the underworld forever.

Meanwhile, Demeter searched everywhere for her missing daughter. She grew so sad and worried that she stopped looking after the grass, the flowers, and the fruit. The air grew cold. All the plants on Earth turned brown and the leaves fell from the trees. While Demeter wept for her lost daughter, people on Earth began to starve.

Zeus, the king of the gods, saw what was happening and decided to help Demeter. He commanded Hades to return Persephone to her mother. But as Persephone left the underworld, Hades offered her twelve pomegranate seeds to eat. Persephone was so hungry she ate six of them. Hades rejoiced! Persephone would now have to stay in the underworld.

But Zeus knew that Earth needed Persephone. He decided that because she had eaten six seeds, she would remain in the underworld for six months of the year. She would live on Earth with Demeter for the other six months.

During the six months when Persephone lives in the underworld, Demeter mourns for her and neglects her work. The air grows cold. The leaves fall and the grass turns brown. But when Persephone returns, flowers blossom and the world turns green again.

That is why we have summer and winter.

## Myth

### Co-chin and the Spirits

The Acoma chief had a beautiful daughter named Co-chin who was the wife of Shakok, the Spirit of Winter. As was the custom, Shakok came to live with Co-chin's people. Soon after Shakok's arrival in the village, the air grew cold. Snow covered the land like a soft white blanket. The corn died and the people had to eat cactus to survive.

One day Co-chin was gathering cactus for her people to eat. She was eating a cactus leaf when she saw a curious-looking stranger walking toward her, carrying an ear of corn. He wore bright yellow and green clothes and had flowers on his shoes. He approached Co-chin and asked, "What are you eating?"

Co-chin sadly explained, "My people are starving because no corn will grow, and we have nothing to eat but cactus." The man listened. He gave Co-chin his ear of corn to eat, and then he asked her to wait while he went to get a bundle of corn for her to take home.

The mysterious man walked south and soon returned with a large bundle of corn for her. Co-chin asked, "Where did you find this corn?" The man told her that he had brought it from his home in the far south where plenty of corn grows all year.

"I would love to see your home where it is warm and where so much corn still grows," said Co-chin. The man then told her that he was Miochin, the Spirit of Summer.

"Your husband, Shakok, the Spirit of Winter, would be angry if I took you away," he said.

Co-chin replied, "I do not care for Shakok. Ever since he arrived in my village, no corn has grown and my people starve."

"Take this bundle of corn home," Miochin said. "Tomorrow I will bring you more."

Co-chin brought the corn home and fed all her people. The next day she met Miochin again. He brought more corn for her, and together they took the corn to Co-chin's village.

When Shakok caught sight of Miochin, he was enraged. Shakok challenged Miochin to fight for Co-chin's hand in marriage. Miochin agreed, for he had fallen in love with Co-chin.

*(continues)*

## Co-chin and the Spirits

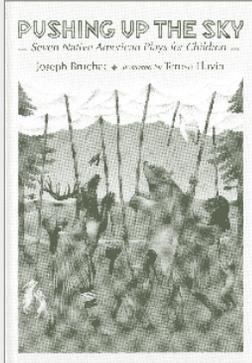

*(continued)*

The fight was fierce. Shakok’s weapons of snow, sleet, and hail were melted by Miochin’s fire. Finally, Shakok called a stop to the fight. He said, “Miochin, you are the winner. Co-chin is free to be your wife.”

Then the two spirits compromised. Each agreed to rule the land for half of the year—Shakok would rule for six months during the winter and Miochin would rule for six months during the summer. That is why it is cold for half the year and warm during the other half.

# Week 5

## OVERVIEW

### *Gluskabe and Old Man Winter from Pushing Up the Sky: Seven Native American Plays for Children*

by Joseph Bruchac, illustrated by Teresa Flavin

This play is based on a tale from the Abenaki people that tells how the seasons came to be.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Assessment Forms

- “Class Assessment Record” sheet (CA5)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

#### Reproducible

- Unit 4 family letter (BLM1)

### Comprehension Focus

- Students use questioning to help them make sense of a play.
- Students explore elements of narrative text structure in a play, including character, setting, plot, and conflict.
- Students read independently.

### Social Development Focus

- Students relate the value of respect to their behavior.
- Students use discussion prompts to build on their partners' thinking.
- Students work in a responsible way.

## 🕒 DO AHEAD

- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA5); see page 49 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 12 lessons this week.

### Materials

- *Gluskabe and Old Man Winter (Pushing Up the Sky, pages 11–23)*
- *Student Response Book pages 25–37*

### In this lesson, the students:

- Hear and discuss a play
- Use questioning informally to make sense of the play
- Explore the differences between plays (drama) and prose
- Read independently for 25–30 minutes
- Act respectfully toward their partners

### 1 Get Ready to Work Together

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that during the past few weeks, they have been working with their partners to discuss different types of stories, including myths. Ask:

Q *What has been working well during your partner conversations?*

Q *What can you do to let your partner know that you respect his or her thinking?*

Ask the students to keep what they talked about in mind as they work with their partners today.

### 2 Review Myths and Introduce Plays

Remind the students that last week they heard and discussed the myths “Demeter and Persephone” and “Co-chin and the Spirits.” Review that a *myth* is a “fiction, or make-believe, story that takes place a long time ago and often explains why something happens in nature.” Tell the students that this week they will hear and read another myth—but this myth is told in a very different way.

Show the cover of *Pushing Up the Sky* and read the title and the names of the author and the illustrator aloud. Tell the students that this book includes seven myths from different Native American tribes but that the author retells each myth as a play. Explain that a *play* is a “story that is written to be acted out, usually on a stage.”

### 3 Compare Plays and Other Fiction Stories

Show pages 14–15 of the book and explain that plays are written differently and look different from other kinds of fiction stories. Ask:

- Q *What do you notice about how the play is written?*
- Q *How does the play look different from other stories you've read?*

**Students might say:**

"The play gives the name of a character and then tells what the character says. Other stories that we read don't do that."

"There are instructions about how to act out the play."

"In addition to what [Nir] said, the instructions also tell you more about the setting."

Point to "Scene I" at the top of page 14 and tell the students that each section of a play is called a *scene* and that a scene in a play is like a chapter in a book. Point to the italicized text and explain that the italicized words are called *stage directions* and that those directions let the actors know what they should do or how they should move throughout the play. Point to a few of the character's names and explain that the words in bold type are the names of the characters and the words that follow the characters' names are the *dialogue*, or what the characters say.

### 4 Introduce *Gluskabe and Old Man Winter*

Show page 11 and explain that the play the students will hear and read this week is called *Gluskabe and Old Man Winter*. Explain that the play is a version of a myth that is told by the Abenaki people and that like the myths the students heard last week, this myth explains why something happens in nature.

### 5 Read Aloud and Ask Questions

Have the students turn to *Student Response Book* page 25, the title page of *Gluskabe and Old Man Winter*, and explain that this is a copy of the play. Ask the students to turn to page 28, and review that this is Scene I of the play, which is where you will begin reading today. Ask the students to follow along as you read the play aloud. Remind the students that good readers ask themselves questions as they read, and explain that you will give them an opportunity to share any questions that come to mind about the play as they listen today. Read the play aloud slowly and clearly, stopping as described on the next page. Clarify vocabulary as you read.

#### Teacher Note

You will show and discuss pages 12–13 of the play later in the week.

#### Teacher Note

If the students struggle to answer the questions, show them a few pages of a fiction book and point out a few ways that the book is different from the play. For example, you might point out that the text is written in paragraph form in the book, and it is written as a dialogue in the play. Also, quotation marks are used to show when a character is speaking in the book, and quotation marks are not used in the play.

#### Teacher Note

You might read the introduction on page 11 to provide your students with background information about the Abenaki people.

#### Teacher Note

The focus on questioning this week is more informal than in previous weeks. The central focus of the week is on reviewing story elements and applying those elements to a new genre, drama.

#### Teacher Note

When reading the play aloud, read all of the text on the page including the stage directions and the character names.

## Suggested Vocabulary

**wigwam:** hut or tent (p. 14)

**greedy:** selfish; not willing to share (p. 16)

**sinew:** tendon; cord of tough tissue that attaches muscle to bone (p. 18)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**suffering:** not doing well (p. 16)

**refuse to speak:** not talk (p. 16)

**defeat:** beat (p. 22)

**collapse:** fall down (p. 23)

**swiftly:** quickly (p. 23)

**crouching down:** bending low (p. 23; refer to the illustration)

Stop after the last sentence of Scene I:

**p. 15** “**Gluskabe:** Don’t worry, Grandmother. Winter cannot beat me.”

**Q** *What happened in the scene you just heard? Turn to your partner.*

**Q** *What questions do you have about what you just heard? Turn to your partner.*

Without sharing as a class, reread the last sentence before the stop and continue reading to the next stopping point. Follow the same procedure at each of the following stops:

**p. 18** “Gluskabe picks up the four balls, places them in his bag, and puts the bag over his shoulder.”

**p. 22** “**Second Summer Land Person:** He has tricked us. He got away.”

**p. 23** “**Narrator:** But, thanks to Gluskabe, spring always comes back again.”

## Facilitation Tip

Reflect on your experience over the past several weeks with **asking facilitative questions**. Does this technique feel comfortable and natural for you? Do you find yourself using it throughout the school day? What effect has using this technique had on your students’ listening and participation in discussions? We encourage you to continue to use and reflect on this technique throughout the year.

## 6 Discuss the Play and Questions

Discuss the questions that follow as a class. Be ready to reread parts of the play aloud to help the students recall what they heard.

**Q** *What is the plot of the play? What happens?*

**Q** *What event in nature does the play explain? What in the play makes you think that?*

**Q** *What questions did you have as you listened to the play? Were your questions answered? How?*

Tell the students that tomorrow they will hear and read the play again and can listen for answers to any questions they still have.

## 7 Reflect on Working Together

Facilitate a class discussion about how partners worked together. Ask:

- Q *What did you do to make sure you worked well with your partner today? What would you like to do [the same way/differently] the next time you work together?*

## INDIVIDUALIZED DAILY READING

## 8 Read Independently and Ask Questions

Ask the students to notice questions they have as they read and to think about whether the questions are answered directly, indirectly, or not at all. Tell them that at the end of IDR, you will ask them to share their questions with the class. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share with the class the titles of their books and the authors’ names, what the books are about, and questions they had about what they read. Follow up by asking questions such as:

- Q *What was happening in the book when that question came to mind?*
- Q *How would you answer that question right now? What evidence in the book makes you think that?*
- Q *Is that question answered directly in the book or indirectly through clues? If indirectly, what are the clues?*

Have the students return to their desks and put away their books.

### Materials

- *Gluskabe and Old Man Winter* (*Pushing Up the Sky*, pages 11–23)
- *Student Response Book* pages 25–38
- “Important Elements of Stories” chart from Week 3
- “Class Assessment Record” sheet (CA5)

### In this lesson, the students:

- Hear a play again
- Discuss character, setting, plot, conflict, and theme
- Read independently for 25–30 minutes
- Use discussion prompts to build on their partners’ thinking

## 1 Review Using Prompts in Pairs

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that they have been focusing on using the discussion prompts in both partner conversations and class discussions. Ask and briefly discuss:

**Q** *How have you been doing with using the discussion prompts?*

Explain that today you would like the students to continue to focus on practicing the prompts in their partner conversations.

## 2 Review Story Elements

Direct the students’ attention to the “Important Elements of Stories” chart and review that all stories have certain elements, or parts, that make them stories.

Remind the students that they have been focusing on six key story elements—character, setting, plot, point of view, conflict or problem, and theme—and that the purpose is to help them learn to recognize and think about these elements so they understand stories at a deeper level. Tell the students that today they will listen to *Gluskabe and Old Man Winter* again, paying attention to the way the author uses the story elements of character, setting, plot, conflict or problem, and theme.

## 3 Reread *Gluskabe and Old Man Winter* Aloud with Stops

Have the students turn to *Student Response Book* page 28, Scene I of *Gluskabe and Old Man Winter*, and ask the students to follow along as you read the play aloud. Read the play aloud slowly and clearly, stopping as described below.

Stop after the last sentence of Scene I:

**p. 15** “**Gluskabe:** Don’t worry, Grandmother. Winter cannot beat me.”

Ask:

 **Q** *What is happening in the play? Turn to your partner.*

As pairs talk, listen for evidence that they are using details from the play to support their thinking.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students use details from the play to support their thinking?

Record your observations on the “Class Assessment Record” sheet (CA5); see page 49 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** or **about half of the students** are able to use details from the play to support their thinking, proceed with the lesson and continue on to Day 3. You may wish to check in during IDR with students who are having difficulty.
- If **only a few students** are able to use details from the play to support their thinking, you might give the class additional instruction by repeating Days 1 and 2 of this week using an alternative play before continuing on to Day 3. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

Reread the last sentence before the stop and continue reading to the next stopping point. Stop after:

- p. 18** “Gluskabe picks up the four balls, places them in his bag, and puts the bag over his shoulder.”

Ask:

 **Q** *What happens when Gluskabe visits Old Man Winter? Turn to your partner.*

Have a few volunteers share their thinking. Reread the last sentence before the stop and continue reading to the next stopping point.

Stop after:

- p. 22** “**Second Summer Land Person:** He has tricked us. He got away.”

Ask:

 **Q** *How does Gluskabe trick the Summer Land People? Turn to your partner.*

Have a few volunteers share their thinking. Reread the last sentence before the stop and continue reading to the end of the play. Ask:

 **Q** *What happens when Gluskabe visits Old Man Winter at the end of the play? Turn to your partner.*

### Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit's Individual Comprehension Assessment.

Have a few volunteers share their thinking, and then ask:

**Q** *Why is Gluskabe a hero?*

## 4 Write About Story Elements

Have the students turn to *Student Response Book* page 38, "Story Elements in *Gluskabe and Old Man Winter*." Explain that the students will each write about the story elements in the play.

Read aloud the story elements listed on the page and ask the students to think quietly about what they will write about each story element. After a moment, have partners take turns sharing what they plan to write. Give the students a few minutes to write about the story elements in the play.

## 5 Discuss Story Elements

Facilitate a discussion of the play using the questions that follow. Encourage the students to refer to what they wrote on *Student Response Book* page 38 during the discussion. Be ready to reread from the play to help the students recall what they heard.

**Q** *Who are the main characters?*

**Q** *What do we know about the setting of this play?*

### Students might say:

"The main characters are Gluskabe and Old Man Winter."

"In addition to what [Owen] said, the Summer Land People and Grandmother Woodchuck are also characters."

"The setting changes when the scene changes. The play takes place in Grandmother Woodchuck's wigwam, in Old Man Winter's Wigwam, and in the Summer Land."

Use "Think, Pair, Share" to discuss:

**Q** *What kind of a person is Gluskabe? What in the play makes you think that? [pause] Turn to your partner.*

Have a few volunteers share their partners' thinking.

### Students might say:

"My partner thinks Gluskabe is brave because he goes to talk to Old Man Winter when no one else will."

"In addition to what [Camila] said, my partner thinks that Gluskabe is brave because he goes to the Summer Land to steal summer."

"My partner thinks that Gluskabe is clever because he tricks the crows into thinking that they stole his head."

Ask and briefly discuss:

- Q *What is the plot of the play? What happens to the characters in the play?*
- Q *What is the problem in this play? How is the problem solved?*
- Q *What is a theme in the play? What is a lesson or message in the play that you might be able to apply to your own life?*

**Students might say:**

"Gluskabe tries to get Old Man Winter to return to the Winter Land. He has to go to the Summer Land to steal summer and bring it back to his home."

"One problem is that Old Man Winter would not go away. That made it cold all the time, and food wouldn't grow."

"Another problem is that Gluskabe had to figure out a way to get rid of Old Man Winter."

"I think a theme of the play is that you shouldn't give up. Even though Gluskabe was tricked by Old Man Winter the first time he went to talk to him, Gluskabe thought of another way to defeat Old Man Winter."

"I think a theme of the play is that you shouldn't be afraid to stand up for yourself or others if you think that something is happening that isn't right. Gluskabe was brave to stand up to Old Man Winter for his people."

Tell the students that during the next two lessons they will work to perform the play as a class.

## 6 Reflect on Using the Discussion Prompts

Facilitate a brief discussion of how the students did using the prompts in their partner discussions. Remind the students that the goal of learning the discussion prompts is to help them listen well and participate responsibly in both partner conversations and class discussions.

## INDIVIDUALIZED DAILY READING

### 7 Read Independently and Think About Story Elements

Ask the students to think as they read about what they notice about the characters, settings, and plots in their stories as well as any conflicts or problems the characters face. Tell them that at the end of IDR, you will ask them to share what they noticed with partners. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students briefly share with partners the titles of their books, the authors’ names, and the things they noticed about the characters, settings, plots, and conflicts or problems in their stories. After partners have had a chance to share, invite a few volunteers to share what they noticed with the class. Ask questions such as:

- Q *What is the setting of your story? How do you know that?*
- Q *What is the plot of your story? What happens to the characters?*
- Q *What did you learn about a character in your story? What happened in the story to make you think that?*
- Q *What problem does the character have?*

Have the students return to their desks and put away their books.

---

## EXTENSION

### Compare *Gluskabe and Old Man Winter* with Other Myths

Remind the students that last week they heard and discussed the myths “Demeter and Persephone” and “Co-chin and the Spirits.”

- Q *What do you remember about these two myths?*

Facilitate a discussion about how “Demeter and Persephone” and “Co-chin and the Spirits” are similar to and different from *Gluskabe and Old Man Winter*. Use questions such as:

- Q *How is [“Demeter and Persephone”/“Co-chin and the Spirits”] similar to Gluskabe and Old Man Winter? How are they different?*
- Q *How does each myth explain why there is winter and summer?*
- Q *How are these explanations similar? How are they different?*

## TECHNOLOGY EXTENSION

### Compare a Written Version and an Oral Retelling of Another Gluskabe Myth

Review that for the past few weeks the students have been hearing and discussing myths. Remind the students that a *myth* is a “fiction, or make-believe, story that takes place a long time ago.” Tell the students that they will hear another myth today about the character Gluskabe, called “Gluskabe Changes the Animals.” Explain that in this myth Gluskabe changes some animals so that they will not be too dangerous. Read the myth aloud to the students. Ask:

- Q *What is this myth about?*
- Q *Who are the characters? What happens to them?*

Explain that in earlier times, myths and other stories, such as legends, fairy tales, and fables, were passed down from generation to generation orally rather than in writing. The people who told these stories were called *storytellers*.

Tell the students that they will watch a video that shows a storyteller telling the same story they just heard. Ask the students to notice what the storyteller does to make the story interesting to hear. Show the video you selected to the students. After watching the video, facilitate a discussion about the differences between the oral presentation and the written version of the myth. Ask questions such as:

- Q *What did you notice about the way the storyteller used his voice as you listened to the words of the myth?*
- Q *Did hearing the storyteller help you better understand or enjoy the myth? Why do you say that?*
- Q *Which version of the myth did you like better? Why?*

### Technology Tip

James Bruchac, the son of Joseph Bruchac (the author of *Pushing Up the Sky*), has followed in his father’s footsteps of keeping Native American myths alive. Prior to doing this technology extension, search for a video of James Bruchac telling a story about how Gluskabe changed the animals, using the keywords “James Bruchac telling a Gluskabe story.” Then locate a written version of the story he tells in the video using the keywords “Gluskabe Changes the Animals.”

### Materials

- *Gluskabe and Old Man Winter* (*Pushing Up the Sky*, pages 11–23)
- *Student Response Book* pages 25–37
- Scratch paper and a pencil
- “Important Elements of Stories” chart

### Teacher Note

On Day 4 the students read the play aloud together as a class. If time allows, you might have the students act out the play using the stage directions and props. Have the students use some of the suggestions on pages 12–13 of *Pushing Up the Sky* or ideas of their own to create props and scenery.

### In this lesson, the students:

- Explore the differences between plays (drama) and prose
- Choose parts to read aloud
- Read the play independently
- Read texts during IDR independently for 25–30 minutes

## 1 Review Plays

Have the students bring their *Student Response Books* and gather with partners sitting together, facing you. Review that in the previous lessons they heard and discussed the play *Gluskabe and Old Man Winter*. Remind the students that plays are written so that people can act them out.

Show pages 12–13 and explain that these pages provide information that readers can use to help them act out the play. Point out the list of the characters in the play; the suggestions for how to make scenery, such as wigwams, and props, such as Gluskabe’s bag and the four balls Gluskabe carries; and the suggestions for the costumes each character might wear. Ask and briefly discuss:

**Q** How do these pages make a play different from other stories you have heard and read, such as *Thunder Cake* or *The Bat Boy & His Violin*? Turn to your partner.

Have a few volunteers share their thinking with the class.

#### Students might say:

“Stories like *Thunder Cake* and *The Bat Boy & His Violin* don’t have a list of the characters in the front.”

“In addition to what [Tyrone] said, most stories don’t explain what the characters would wear.”

“Plays are different because you are supposed to create the setting by using props and making scenery. In stories you imagine the setting.”

Explain that tomorrow the students will read the play aloud as a class, with volunteers reading the parts of different characters. Today the students will have a chance to choose the characters they want to be.

## 2 Choose Parts

Have the students open to *Student Response Book* page 26, and direct their attention to the section titled “Characters.” Point out that the play *Gluskabe and Old Man Winter* has 13 characters with speaking roles, and

read the names of the characters aloud. Have each student look at the list of characters and think quietly about which part she might like to read aloud. Ask:

**Q** *Which part might you like to read aloud? Why? Turn to your partner.*

Without discussing the question, tell the students that they may not all get to read the parts they want, but there are opportunities for everyone to have a speaking part. Ask:

**Q** *If you don't get chosen to read the part you want, what can you do to act in a responsible way?*

**Students might say:**

"If I don't get to read the part I want, that's OK. There are a lot of parts to read."

"I can volunteer to read a different part."

"I'll be happy reading whichever part I get chosen for."

Tell the students that now they have an opportunity to choose a part to read aloud. For each part, read the name of the character and ask for a volunteer to read the part. As you assign each part, jot down the name of the character and the name of the student who will read the part on a piece of scratch paper. Tell the students that you will be reading the scene descriptions and the stage directions (the italicized text).

### 3 Read the Play Independently

Have the students turn to *Student Response Book* pages 25–37. Explain that today they will read the play silently to themselves, paying careful attention to their own parts (if they have parts). Have the students read the play silently to themselves.

After 10–15 minutes, signal to let the students know that it is time to stop reading. Tell the students that in the next lesson they will read the play aloud as a class.

### 4 Reflect on Acting in a Responsible Way

Facilitate a brief discussion about how the students took responsibility for themselves during today's lesson. Ask questions such as:

**Q** *What did you do to take responsibility for yourself when we assigned parts today?*

**Q** *How does taking responsibility for yourself help build the reading community?*

#### Teacher Note

Note that more than 13 students can volunteer for speaking roles. To allow more students to participate, you might assign several students to read the lines of each of the Summer Land People. You might also assign the roles of Gluskabe and the Narrator by scene (for example, you might choose four students to read Gluskabe's lines—one student can read in Scene I, another can read in Scene II, and so on). Some students may not wish to volunteer for a speaking role, and that is fine. Simply have those students follow along as the play is read aloud.

#### Teacher Note

Save the list of parts for Day 4.

#### Teacher Note

Encourage the students to think about how they might read their lines expressively. For support with helping the students read with expression, you might teach IDR Mini-lesson 4, "Reading with Expression."

## INDIVIDUALIZED DAILY READING

### 5 Read Independently and Think About Story Elements

Direct the students' attention to the "Important Elements of Stories" chart. Ask the students to think as they read about what they notice about the characters, settings, and plots in their stories as well as any conflicts or problems the characters face. Tell them that at the end of IDR, you will ask them to share what they noticed with partners. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students briefly share with partners the titles of their books, the authors' names, and the things they noticed about the characters, settings, plots, and conflicts or problems in their stories. After partners have had a chance to share, invite a few volunteers to share what they noticed with the class.

Have the students return to their desks and put away their books.

## In this lesson, the students:

- Read a play aloud as a class
- Make connections between the words of a play and an oral presentation of the words
- Read independently for 25–30 minutes
- Use discussion prompts to build on their partners' thinking
- Work in a responsible way

## 1 Review the Assigned Parts in *Gluskabe and Old Man Winter*

Have the students bring their *Student Response Books* and gather in a circle, with partners sitting together. Remind the students that today they will read the play *Gluskabe and Old Man Winter* together. Review that yesterday the students chose parts to read from the play. Refer to the list of parts from Day 3, and read the name of each character and the name of the student who will read that part.

## 2 Discuss Reading the Play Aloud and Taking Responsibility

Before having the students read the play aloud, facilitate a discussion about how the students will act, both when they read their parts aloud and when they are listening to others read their parts. Ask and briefly discuss questions such as:

**Q** *Why is it important to speak in a loud, clear voice when you're reading your lines aloud? Turn to your partner.*

**Q** *If you can't hear someone who is reading, how can you politely let that person know? Turn to your partner.*

Have a few volunteers share their thinking.

### Students might say:

"It's important to speak in a loud voice so that everyone can hear. If you talk too quietly, the next person might not know that it's her turn to speak."

"It's important to speak clearly so that people can understand what you say. If they don't understand you, they won't understand what is happening in the play."

"If you can't hear someone, you could say, 'Can you read your lines a little louder next time?'"

## Materials

- *Gluskabe and Old Man Winter (Pushing Up the Sky, pages 11–23)*
- List of parts from Day 3
- *Student Response Book* pages 25–37
- "Important Elements of Stories" chart
- Copy of this unit's family letter (BLM1) for each student

Ask and briefly discuss:

**Q** *Why is it important to follow along as the play is being read aloud and to be attentive and quiet as others are reading?*

If necessary, explain that it is important for students who have speaking roles to be attentive during the read-aloud so that each student knows when it is his turn to read his lines. In addition, it is always respectful and polite to listen when others are speaking or reading aloud. Tell the students that you will check in with them later to see how they did.

### **3** Read the Play Aloud

Have the students open to *Student Response Book* page 28. Give the students a few minutes to review their parts. Before you begin reading the play as a class, encourage the students to read their lines with expression to make the play more fun and enjoyable to hear. Remind them that you will be reading the scene descriptions and the stage directions, and begin by reading the Scene I description and the first stage direction aloud. Then signal for the narrator to begin reading his part, and have the students read the entire play aloud.

### **4** Make Connections Between the Oral Presentation and the Written Version of the Play

After the reading, facilitate a discussion about the differences between the oral presentation and the written version of the play. Ask:

**Q** *What did you notice when you heard the story read aloud by several people?*

**Students might say:**

"I noticed that [Nadia] changed her voice to sound like a grandmother. It helped me think about what that character would be like in real life."

"When [Maggie] read her lines, you could tell when she was asking a question. That helped me understand the play better."

"When the Summer Land People read their parts, you could tell that they were chanting. That helped me understand that they were doing something special to guard the pot. When I read it, I didn't understand what those words meant."

**Q** *Did hearing the play read by several people help you understand or enjoy the play? Why do you say that?*

**Q** *How was reading the play aloud [the same as/different from] reading the play silently to yourself?*

**Q** *Which did you enjoy more, hearing the play read aloud by several people or reading it silently to yourself? Why?*

## 5 Reflect on Working Together

Remind the students that in this unit they focused on using prompts in both partner conversations and class discussions and worked on interacting respectfully with their partners. Ask and briefly discuss:

**Q** *How has your ability to work with another person improved over the past few weeks?*

Have partners take a moment to tell each other one way they have worked well together and to thank each other for their work. Have the students return to their desks and put away their books.

## INDIVIDUALIZED DAILY READING

### 6 Read Independently and Think About Theme

Direct the students' attention to the "Important Elements of Stories" chart. Ask the students to think as they read about what they notice about the themes, or the lessons or messages, in their stories. Tell them that at the end of IDR, you will ask them to share what they noticed with partners. Have the students get their books and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 50) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 53 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students briefly share with partners the titles of their books, the authors' names, and things they noticed about their stories' themes. After partners have had a chance to share, invite a few volunteers to share what they noticed with the class.

Have the students return to their desks and put away their books.

#### Vocabulary Note

Next week you will revisit *Gluskabe and Old Man Winter* from *Pushing Up the Sky* to teach the Week 13 vocabulary lessons.

#### Teacher Note

For information on wrapping up this unit and conducting unit assessments, see "End-of-unit Considerations" on the next page.

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of Unit 4. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit's family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

### Assessment

- Before continuing on to the next unit, take this opportunity to assess individual students' reading comprehension using the "Individual Comprehension Assessment" record sheet (IA1); see page 54 of the *Assessment Resource Book*.

# Unit 5

# Making Inferences

## FICTION AND POETRY

During this unit, the students visualize and make inferences to make sense of narrative text and poetry, and they continue to ask questions and analyze the text structure of narrative text. They also learn to use a double-entry journal to record their thinking. During IDR, the students make inferences and use previously learned comprehension strategies to make sense of their independent reading. They continue to confer with the teacher individually about the texts they are reading. Socially, they are introduced to the skills of confirming that they understand another person's thinking by repeating back what they heard and using clarifying questions and statements. They also develop the skills of including everyone in and contributing to the group work.

# Unit 5

## Making Inferences

### RESOURCES

#### Read-alouds

- *Hurricane*
- “My Man Blue” from *My Man Blue*
- “When We First Met” from *My Man Blue*
- “Second Son” from *My Man Blue*
- “Grounded” from *My Man Blue*
- “The Watcher” from *My Man Blue*

#### Writing About Reading Activities

- “Write Inferences Using Illustrations in *Hurricane*”
- “Compare Poems and Plays”

#### IDR Mini-lesson

- Mini-lesson 2, “Self-monitoring and Using ‘Fix-up’ Strategies”

#### Technology Extensions

- “Draw Visualizations of a Poem from *My Man Blue*”
- “Compare a Written Version and an Oral Presentation of a Poem”
- “Record and Listen to Poems”

#### Extensions

- “Analyze Paired Texts About Hurricanes”
- “Write Poems”
- “Discuss Personification”
- “Explore Rhyme in ‘Second Son’”
- “Share Favorite Poems”
- “Read More Poems from *My Man Blue*”

#### Assessment Resource Book

- Unit 5 assessments

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this unit.

#### Whiteboard Activities

- WA1–WA8

#### Assessment Forms

- “Class Assessment Record” sheets (CA1–CA3)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)
- “Social Skills Assessment Record” sheet (SS1)

#### Reproducibles

- Unit 5 family letter (BLM1)
- (Optional) “Illustration from *Hurricane*” (BLM2)

#### Professional Development Media

- “Using ‘Heads Together’” (AV9)
- “Pacing Class Discussions” (AV19)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)
- “Using Presentation Tools” tutorial (AV44)
- “Using Blogs in the Classroom” tutorial (AV45)
- “Creating Digital Stories” tutorial (AV48)
- “Creating Audio and Video in the Classroom” tutorial (AV50)

## RESOURCES *(continued)*

### Student Response Book

- “Stop and Ask Questions About *Hurricane*”
- “Excerpt from *Hurricane*”
- “My Man Blue”
- “When We First Met”
- “Second Son”
- “Double-entry Journal About ‘Second Son’”
- “Double-entry Journal About \_\_\_\_\_”
- “The Watcher”
- “Double-entry Journal About \_\_\_\_\_”
- “Double-entry Journal About \_\_\_\_\_”
- Reading Log
- Reading Journal

### Vocabulary Teaching Guide

- Week 13 (*Gluskabe and Old Man Winter*)
- Week 14 (*Hurricane*)
- Week 15 (“My Man Blue”; “When We First Met”; “Second Son”)

# Week 1

## OVERVIEW

### *Hurricane*

by David Wiesner

The morning after a hurricane, an uprooted tree becomes a magical place for two brothers.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA1–WA3

#### Assessment Forms

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)

#### Reproducible

- (Optional) “Illustration from *Hurricane*” (BLM2)

#### Professional Development Media

- “Pacing Class Discussions” (AV19)

## Comprehension Focus

- Students make inferences to understand a fiction story.
- Students continue to use questioning and text structure to make sense of a fiction story.
- Students read independently.

## Social Development Focus

- Students develop the skill of confirming that they understand another person's thinking by repeating back what they heard.

## DO AHEAD

- ✓ Consider reading this unit's read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding. In Weeks 2 and 3, you might read each poem aloud once to your English Language Learners without stopping and then reread it, stopping frequently to discuss it and to check for understanding.
- ✓ Make available narrative texts at a variety of levels so that the students can practice making inferences, visualizing, and asking questions during IDR and Independent Strategy Practice throughout the unit. Also, starting in Week 2, make available poems at a variety of levels for students to use in addition to narrative texts.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit.
- ✓ Prior to Day 1, make a class set of "IDR Conference Notes" record sheets (CN1); see page 71 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a copy of the "Class Assessment Record" sheet (CA1); see page 65 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, prepare to model using questions when making inferences using a narrative text that is familiar to the students (see Step 3).

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 13 lessons this week.

### Materials

- *Hurricane*
- *Student Response Book* page 39
- Scratch paper and a pencil
- “Thinking About My Reading” chart
- Self-stick notes for each student
- Class set of “IDR Conference Notes” record sheets (CN1)
- *Assessment Resource Book* page 68
- “Reading Comprehension Strategies” chart

**ELPS 2.D.i**  
**Step 1 and Step 2**  
 (all, beginning with page 284 and continuing on to page 285)

### In this lesson, the students:

- Begin working with new partners
- Learn to confirm another person’s thinking
- Hear and discuss a fiction story
- Use questioning to think about the story
- Discuss conflict and theme
- Read independently for up to 30 minutes

## 1 Pair Students and Introduce a Prompt for Confirming Another Person’s Thinking

Randomly assign partners and make sure that they know each other’s names. Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Explain that for the next three weeks, the students will work with the same partners.

Remind the students that by working in pairs they are building their reading comprehension and increasing their ability to work together. So far this year they have learned and practiced several skills to help them work with partners, including how to explain their thinking, listen to one another, and use discussion prompts to build on one another’s thinking. Explain that today they will focus on a new skill: confirming that they understood another person’s thinking by repeating back what they heard.

Write the prompt *I heard you say \_\_\_\_\_ . Did I get that right?* where everyone can see it. Read the prompt aloud and explain that today you would like the students to practice making sure they have understood what their partners have said by using the prompt to repeat back what they heard.

## 2 Introduce *Hurricane* and Model Using the Prompt to Confirm Another Person’s Thinking

Show the cover of *Hurricane* and read the title and the author’s name aloud. Tell the students that this book is about a bad type of storm called a *hurricane*. Ask:

Q *Have you ever experienced a bad storm? What happened?*

Have a volunteer share his experience with the class, and then model using the prompt to confirm what the student said.

**You might say:**

"I heard [Elton] say that all the lights went out in his house during a storm and that his family had to use candles. [Elton], did I get that right?"

Have another volunteer share her experience with the class, and then model using the prompt again. Then have partners take turns sharing their experiences with storms and practice using the prompt.

Encourage the students to continue to practice this skill with their partners today. Point out that the idea is to repeat the main things they hear their partners say. Explain that practicing this skill may feel awkward, but knowing the skill can be helpful when they have difficulty understanding someone.

### 3 Read Aloud with "Stop and Ask Questions"

Ask the students to turn to *Student Response Book* page 39, "Stop and Ask Questions About *Hurricane*." Explain that they will use the thinking tool "Stop and Ask Questions" as they listen to the story and that you will stop four times to let them write their questions about the story. After the reading, the students will use their questions to discuss the story with their partners.

Explain that you will not show the illustrations during the reading because you want the students to focus on understanding the story from the words alone.

Read the book aloud, stopping as described on the next page. Clarify vocabulary as you read.

#### Suggested Vocabulary

**securing everything in the yard:** fastening or tying things down so they won't blow away (p. 2)

**indignantly:** angrily (p. 5)

**sustained winds:** winds that will last a long time without stopping (p. 7)

**blizzard:** snowstorm (p. 7)

**hurricane lamp:** lamp with a protected flame (p. 10; refer to the illustration on p. 11)

**expedition:** journey (p. 16)

**advancing on the tree:** approaching the tree (p. 24)

### Teacher Note

During each stop, circulate among the students and notice whether they are able to write questions and whether the questions are relevant to the story.

### Teacher Note

Examples of questions that get at important ideas in *Hurricane* are:

- Q *What happened outside during the storm?*
- Q *Were the boys imagining the adventures? How do you know?*
- Q *What was the “ear-splitting roar”?*
- Q *What are the boys thinking when their dad says there’s another storm coming?*

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**groceries:** food and household goods bought from a store (p. 2; refer to the illustration)

**peered:** looked (p. 5)

**hang in there:** (idiom) stay calm (p. 7)

**eye of the hurricane:** center of the hurricane (p. 10)

**safari:** trip to see wild animals, especially in Africa (p. 14)

**at the helm:** steering the boat or ship (p. 18)

**private place:** place not meant to be shared with everyone (p. 23)

Read page 2 twice, as it contains information that might be missed on a first reading, and then continue reading. Stop after:

**p. 7** “‘Nobody panic,’ their dad called from the kitchen.”

Ask:

Q *What questions can we ask about the story right now?*

Have the students record their questions in the Stop 1 box on *Student Response Book* page 39. Without discussing the questions, reread the last sentence before the stop and continue to the next stopping point. Follow this procedure at the next three stops:

**p. 12** “‘Who knows? We’ll see tomorrow,’ George replied.”

**p. 24** “Then it happened. They woke one morning to an ear-splitting roar . . .” [Note that this stop is midsentence.]

**p. 28** “‘Hey guys,’ Dad called. ‘There’s going to be a storm. The wind’s kicking up. Come on inside before it starts to rain.’”

Continue reading to the end of the story.

## **4** Use Questions to Discuss the Story in Pairs

Tell the students that now they will use their questions to help them talk about the story with their partners. Give the students a few moments to review their questions individually and to think about whether the questions were discussed in the story. Then have partners discuss the story using their questions. Remind the students to confirm their partners’ thinking by repeating back what they heard.

As partners share, circulate and listen for questions that get at important ideas in the book. Jot these questions down on a sheet of scratch paper to use in the class discussion.

After a few minutes, facilitate a class discussion. Ask:

Q *What happens in this story?*

Have a few volunteers share their thinking.

## 5 Discuss the Story as a Class

Explain that you will read a few students' questions that you heard as you walked around. Read a question from your scratch paper aloud and have the students discuss the question with their partners. Then have one or two volunteers share their thinking with the class. Repeat this process for one or two other questions you recorded. Then ask and briefly discuss:

**Q** *What conflicts or problems occur in the story? What do the characters do to end those conflicts or solve the problems?*

**Q** *I heard [Kat] say that [one of the problems in the beginning of the story is that the boys can't find Hannibal]. Did I get that right, [Kat]? What do others think about what [Kat] shared?*

Remind the students that most stories have one or more *themes*, or messages or lessons, that the author wants readers to think about. Ask and briefly discuss:

**Q** *What is a theme in Hurricane? What can we learn from the story that we can apply to our own lives?*

### Students might say:

"One theme might be that good things sometimes come out of bad situations. The boys were scared during the storm, but after it was over, they had a chance to do something they had never done before."

"Another theme might be that it is OK to feel scared or worried. The boys were worried about what might happen during the storm, but they talked about it and made each other feel better."

"I think the author wants us to think about how being with family or people you trust in scary situations can help you feel safe."

## 6 Reflect on Confirming Partners' Thinking

Facilitate a brief discussion of how the students did repeating back what they heard their partners say. Share any examples you observed of the students repeating back what their partners said or partners clarifying misunderstandings. Tell the students that they will continue to practice this skill in the coming weeks.

# INDIVIDUALIZED DAILY READING

## 7 Review and Practice "Fix-up" Strategies

Tell the students that for the next few weeks they will read narrative texts, or books that tell a story, during IDR. Have them select their books and find places to sit.

Direct the students' attention to the "Thinking About My Reading" chart and remind the students that it is important for them to check their

### Teacher Note

Look for other opportunities to model "I heard you say \_\_\_\_\_. Did I get that right?" during this discussion.

### Teacher Note

During IDR today, the students review and practice two "fix-up" strategies they can use when they do not understand what they have read: rereading and reading ahead. To provide the students with additional support with using these and other "fix-up" strategies, you might teach all or part of IDR Mini-lesson 2, "Self-monitoring and Using 'Fix-up' Strategies" (found in Appendix A).

comprehension as they are reading. Remind the students that earlier they learned two “fix-up” strategies, or tools a student can use when she does not understand what she has read. Review that one strategy is to reread the part of the book she does not understand slowly and carefully. Another strategy is to read ahead and look for more information.

Distribute self-stick notes to each student. Tell the students that as they read today, you want them to pause occasionally and ask themselves if they understand what they are reading. If a student does not understand what he is reading, he should mark the place in the text that he does not understand with a self-stick note and then try one or both of the “fix-up” strategies—rereading and reading ahead—to see if the strategies help him understand what he is reading. Explain that at the end of IDR, you will check in with the students to see how they did with using “fix-up” strategies. Have the students read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Beginning today, and continuing throughout the unit, confer individually with the students about the narrative texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 68) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 71 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask and discuss:

- Q *Was there any part of your reading that you did not understand today? Tell us about it.*
- Q *What “fix-up” strategy did you try? What happened when you [reread/read ahead]?*

If a student has tried both of the “fix-up” strategies and still does not understand the text she is reading, refer her to the “Reading Comprehension Strategies” chart and encourage her to try the strategies listed on it. Alternatively, you might encourage the student to ask you or a classmate for help.

### Teacher Note

Provide time on a regular basis for the students to record the books they have completed in their reading logs.

## EXTENSION

### Analyze Paired Texts About Hurricanes

If the students enjoyed reading a fiction story about hurricanes, you might extend the exploration by reading aloud and discussing a nonfiction book about the subject. Nonfiction titles focusing on hurricanes include *Hurricanes* by Seymour Simon, *Inside Hurricanes* by Mary Kay Carson, and *Hurricanes: Earth's Mightiest Storms* by Patricia Lauber.

Prior to reading the nonfiction book, you might have the students discuss questions they have about hurricanes after hearing the book *Hurricane* by David Wiesner. Then read aloud the nonfiction book. Have the students listen for answers to their questions as you read. After the reading, have the students discuss what they learned about hurricanes.

Encourage the students to compare the two texts and make text-to-text connections by asking questions such as:

- Q *How are the books Hurricane and [Inside Hurricanes] the same? How are they different?*
- Q *Which book did you like better? Why?*

#### Teacher Note

You might have the students record their questions about hurricanes and what they learned about hurricanes in a double-entry journal. You might title one column "Questions About Hurricanes" and the other column "What I Learned About Hurricanes."

## Strategy Lesson

## Day 2

#### In this lesson, the students:

- Practice confirming another person's thinking
- Hear part of a fiction story again
- Build awareness of making inferences as they listen to the story
- Read independently for up to 30 minutes

#### ABOUT MAKING INFERENCES

Making inferences is a powerful reading comprehension strategy that many students use naturally, although they may not be aware of it. Most narrative texts contain passages that readers can understand only through inference. The *Making Meaning* program focuses on helping the students become aware of making inferences by externalizing this thinking through writing and discussion. The goal is for the students to be able to make and be aware of making inferences in their independent reading. For more information, see "The Grade 4 Comprehension Strategies" in the Introduction.

#### Materials

- *Hurricane*
- "Reading Comprehension Strategies" chart and a marker
- "Important Elements of Stories" chart from Unit 4

### Teacher Note

If necessary, write the prompt again where everyone can see it.

**TEKS 6.F.i**  
Student/Teacher Narrative  
Step 3 (all, beginning on  
page 290 and continuing  
on to page 291)

### Teacher Note

The students were informally introduced to making inferences in Unit 4 when they analyzed whether the questions they had about a particular text were answered directly or indirectly in the text. In this unit, the students learn to become aware of when they make inferences as they read independently.

### Teacher Note

Be ready to reread from page 14 during the discussion of this question, if necessary.

## 1 Review Confirming Each Other's Thinking

Have the students gather with partners sitting together, facing you. Briefly explain that the students will talk in pairs again during today's lesson and that you would like them to practice using the prompt "I heard you say \_\_\_\_\_. Did I get that right?" to confirm each other's thinking.

Explain that at the end of the lesson, the students will report how this went.

## 2 Review *Hurricane*

Show the cover of *Hurricane* and remind the students that in the previous lesson they used "Stop and Ask Questions" to help them make sense of the story. Use "Think, Pair, Share" to discuss:

 **Q** *In a few sentences, what is the plot of Hurricane? What happens to the characters in the story? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

### Students might say:

"It's about two brothers who play in a tree that falls in their yard during a hurricane."

"In addition to what [Raj] said, the boys are frightened during the hurricane but they stay safe inside their house."

"The two boys are disappointed when their neighbor cuts up the tree. Then their dad tells them that there is another storm coming, so they hope that another tree will fall in their yard."

## 3 Introduce Making Inferences

Tell the students that you will reread part of the story aloud. Ask them to think about what is happening in the story as they listen. Reread pages 16–20 without showing the illustrations. Ask and briefly discuss:

**Q** *What is happening in this part of the story?*

Have a few volunteers share their thinking. Then have the students discuss the question that follows. Remind them to confirm their partners' thinking by repeating back what they heard. Ask:

 **Q** *How do you know the boys are just imagining these things, rather than actually experiencing them? Turn to your partner.*

Have a few volunteers share their thinking.

**Students might say:**

"I think they are imagining these things because it's impossible for them to suddenly be in a jungle or on a spaceship."

"In addition to what [Penelope] said, if they had really experienced these things their mom and dad would be with them, just like they were with them during the hurricane. I don't think they would let them go into a jungle by themselves."

Point out that the students used clues in the story to understand that the boys are imagining going on a safari and other adventures, rather than actually going on those adventures. Explain that when a reader uses clues to figure out something that is not stated directly in the text, the reader is *making an inference*. Explain that making inferences is an important reading comprehension strategy that the students will explore in the coming weeks.

#### 4 Add to the "Reading Comprehension Strategies" Chart

Direct the students' attention to the "Reading Comprehension Strategies" chart and add *making inferences* to it.

Reading Comprehension  
Strategies

- using text features
- questioning
- recognizing story elements
- making inferences

Explain that tomorrow you will reread parts of *Hurricane* and that the students will explore other inferences they make as they listen.

#### 5 Reflect on Confirming Each Other's Thinking

Give the students an opportunity to report how they did today confirming each other's thinking by repeating what they heard their partners say. Emphasize that the purpose of practicing this skill is to help the students be responsible listeners.

## INDIVIDUALIZED DAILY READING

### 6 Read Independently and Think About Story Elements

Direct the students' attention to the "Important Elements of Stories" chart and review the story elements listed on it. Ask the students to think as they read about what they are learning about the story's characters, setting, and plot as well as any conflicts or problems the characters face. Tell the students that at the end of IDR, you will ask them to share what they are learning with the class. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 68) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 71 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer say the title of the book he read, the author's name, and what the book is about. Follow up by asking questions such as:

- Q *Who is a main character in your book?*
- Q *What are you finding out about that character?*
- Q *What conflict or problem is that character facing?*
- Q *What is the setting of your story?*
- Q *What is the plot of your story so far?*

If time permits, have one or two volunteers read interesting passages from their stories to the class. Have the students return to their desks and put away their books.

## In this lesson, the students:

- Hear, read, and discuss part of a fiction story
- Build awareness of making inferences as they hear and read part of the story
- Read independently for up to 30 minutes
- Confirm their partners' thinking by repeating back what they heard

## 1 Review Making Inferences

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Show the cover of *Hurricane* and review that yesterday the students inferred that the boys in *Hurricane* were imagining going on a safari and other adventures, rather than actually going. Remind them that when a reader uses clues to figure out something that is not stated directly, the reader is making an inference.

Explain that today you will reread parts of *Hurricane* and the students will explore other inferences they make as they listen. Tomorrow they will begin to practice making inferences as they read independently.

## 2 Reread Part of *Hurricane*

Point out that the first few pages of *Hurricane* contain a great deal of information that is important to understand the story and that the reader must infer most of it. Explain that you will reread the first few pages of the story aloud without showing the illustrations and that you would like the students to listen closely and think about what is happening.

Read pages 2 and 5 aloud slowly and clearly. Then have the students discuss the question that follows. Remind them to use the prompt "I heard you say \_\_\_\_\_. Did I get that right?" to confirm their partners' thinking. Ask:

**Q** *What is happening in this part of the story? Turn to your partner.*

Have a few volunteers share their thinking.

### Students might say:

"They're worried about their cat because they can't find him."

"Their dad is making sure everything in the yard is fastened down so nothing will blow away."

"They look out the storm door and see Hannibal the cat, soaking wet."

## Materials

- *Hurricane*
- *Student Response Book* page 40
- "Class Assessment Record" sheet (CA1)
- "Excerpt from *Hurricane*" chart (WA1)
- Small self-stick note for each student

## Teacher Note

When you read page 5, you may need to explain that during bad storms, people often put strips of tape on the glass in doors and windows to keep the glass from falling into the room if it breaks.

## ELL Note

You may want to model reading part of the excerpt and underlining clues to support your English Language Learners.

## Facilitation Tip

During this unit, we invite you to focus on **pacing class discussions** so that they are lively and focused without dragging, losing the attention of your participants, or wandering off the topic. Class discussions should be long enough to allow time for thinking and short enough to sustain the students' attention. Good pacing requires careful observation of the class (not just the students who are responding) and the timely use of various pacing techniques. To speed up a discussion:

- Call on just a few students to respond to each question, even if others have their hands up.
- Use "Turn to Your Partner" if many students want to speak; then call on just one or two students to share with the whole class.

To deepen or refocus a discussion:

- Restate the question if the discussion strays from the original topic.
- Use wait-time before calling on anyone to respond.

To see this Facilitation Tip in action, view "Pacing Class Discussions" (AV19).

## Teacher Note

In discussing this story and other texts, the students may make inferences that are illogical or are not supported by the text. When this happens, refer the students to the text and ask, "What did you hear in the text that supports your idea?" Remind the students that an inference must be based on clues in the text.

## 3 Find and Discuss Inferences

Have the students open to *Student Response Book* page 40, "Excerpt from *Hurricane*." Explain that you would like partners to read the excerpt together and underline clues that let them know a storm is happening. If necessary, read the passage aloud again as the students follow along. Give partners a few moments to read the excerpt and underline clues. Circulate among pairs and notice the passages they underline.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students underlining passages that give clues that a storm is happening?

Record your observations on the "Class Assessment Record" sheet (CA1); see page 65 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are identifying clues that a storm is happening, proceed with the lesson and continue on to Day 4.
- If **about half of the students** or **only a few students** are identifying clues that a storm is happening, you might give the class additional instruction by repeating Days 1, 2, and 3 of this week using an alternative book before continuing on to Day 4. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the "Grade 4 Alternative Texts" list.

When most pairs have finished, display the "Excerpt from *Hurricane*" chart (WA1). Ask a few pairs to share passages they underlined. As the students report their passages, underline them on the chart and ask:

**Q** *How does this passage let you know that a storm is happening?*

**Students might say:**

"When the mother says 'Cats know more about storms than people do,' it tells us that Hannibal is a cat and that the cat is out in a storm."

"The sentence 'Your father will help you look as soon as he's finished securing everything in the yard' tells me that he is probably outside making sure things don't blow away in the wind."

"The story doesn't actually say it's raining, but the sentence 'A thoroughly wet Hannibal peered indignantly back at them' tells you it's raining."

If necessary, point out that the author never states directly that it is raining or storming, but the students can infer this from the clues that they underlined. Also point out that they must infer that Hannibal is a cat from the mother's comment "I'm sure Hannibal is all right. . . . Cats know more about storms than people do."

Explain that readers naturally make inferences all the time when they read. In the coming days, the students will try to notice when they make inferences and which clues they use to help them make those inferences.

#### 4 Reflect on Confirming Each Other's Thinking

Give the students an opportunity to report how they did today confirming each other's thinking by repeating what they heard their partners say. Emphasize that the purpose of practicing this skill is to help them be responsible listeners.

## INDIVIDUALIZED DAILY READING

#### 5 Read Independently and Ask Questions

Have the students get their books and find places to sit. Tell them that as they read independently today, you want them to think about questions that come up as they read. Then you will have them reread the same parts of their books and think about whether new questions come up for them or whether any misunderstandings have been clarified during the rereading.

Distribute a self-stick note to each student. Have the students place the self-stick notes where they start to read, and then have them read silently for up to 15 minutes. After the students have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 68) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 71 of the *Assessment Resource Book*.

Stop the students after 15 minutes and have them think about questions that came to mind as they read. Ask them to reread the same parts in their books and think about other questions that come to mind. After the students have settled into their reading, continue to confer with individual students.

Signal to let the students know when it is time to stop reading. Ask and briefly discuss:

- Q *What questions did you ask yourself as you read today?*
- Q *Did you clarify any misunderstandings when you reread your book? What was clarified?*

Have the students return to their desks and put away their books.

## Materials

- *Hurricane*
- Copy of “Illustration from *Hurricane*” (BLM2) for each student

## Teacher Note

Prior to doing this activity, you will need to visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print “Illustration from *Hurricane*” (BLM2). Make enough copies for each student to have one.

# WRITING ABOUT READING

## Write Inferences Using Illustrations in *Hurricane*

Show the cover of *Hurricane* and remind the students that they heard this story earlier. Ask:

- Q *What happens in the story Hurricane?*
- Q *What did you infer about the story using clues from the text?*

Have a few volunteers share their thinking. If necessary, remind the students of a few inferences they made about the text (for example, that it was raining during the storm and that the boys imagined that they went on a safari and rode a rocket into space).

Explain that illustrations can also give us clues about stories. Tell the students that you will reread the book aloud and that this time you will show the illustrations as you read. Ask the students to think as they listen about what they can infer about the story from the illustrations. Read the book aloud, showing the illustrations. After the reading, show the illustration on pages 26–27 and ask:

- Q *What do you infer about how the boys are feeling from this illustration? What clues in the picture help you make that inference?*

Have a few volunteers share their thinking with the class. Ask the students to watch as you think aloud and model writing about what you infer about the story from the illustration and what clues helped you make that inference.

### You might say:

“I infer from this illustration that the boys are feeling disappointed that the tree was cut up. I’ll write: *I infer from this illustration that the boys feel disappointed that the tree was cut up.* Now I want to explain what clues in the illustration helped me make that inference. I’ll write: *I think that because their faces look sad and they are slouched over on the log.* I notice George also has his head in his hands. Sometimes people do that when they are sad. I’ll write: *George also has his head in his hands. People sometimes do that when they are disappointed about something.*”

Show the illustration on pages 28–29 and ask:

- Q *What do you infer about how the boys are feeling from this illustration? What clues in the picture helped you make that inference?*

Have a few volunteers share their thinking with the class. Explain that you would like the students to write about what they infer from the illustration and what clues in the illustration helped them make their inferences. Distribute copies of “Illustration from *Hurricane*” (BLM2) for the students to refer to as they write. If time permits, ask a few volunteers to share their writing with the class.

## In this lesson, the students:

- Read independently
- Build awareness of making inferences
- Write in their reading journals
- Confirm their partners' thinking by repeating back what they heard

## 1 Review Making Inferences

Have the students bring their *Student Response Books*, pencils, and narrative stories for independent reading and sit at desks with partners together. Remind the students that this week they heard *Hurricane* and explored how making inferences helped them understand the story. Ask:

**Q** *What were some of the inferences you made to make sense of the story Hurricane?*

Remind the students that they also learned the skill of confirming another person's thinking by repeating back what they heard. Explain that they will have another opportunity to practice this today.

## 2 Read Independently Without Stopping

Explain that today the students will practice making inferences in their own independent reading. Tell them that each student will read his own book for 10 minutes and then read the same section again while thinking about inferences he might be making.

Distribute a self-stick note to each student. Ask the students to use self-stick notes to mark the places where they begin reading today, and have them read independently for 10 minutes.

## 3 Model Using Questions to Make Inferences During Rereading

Stop the students after 10 minutes. Display the “Questions to Use When Making Inferences” chart (WA2) and read aloud the questions on it. Explain that the students will reread their texts, starting again at their self-stick notes. Ask them to think about the three questions on the chart as they read.

## Materials

- “Questions to Use When Making Inferences” chart (WA2)
- Narrative text for modeling, selected ahead
- Small self-stick note for each student
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA3)

## Teacher Note

To help the students recall the inferences they made, you might ask them to review the passages they underlined on *Student Response Book* page 40.

### Questions to Use When Making Inferences

- What is one thing you know based on the part you just read?
- Is that stated directly in the text?
- If not, what clue or clues tell you what you know?

Have the students watch as you briefly model using these questions with your own book. Ask yourself each of the three questions one at a time and think aloud about the answer to each question before going on to the next question.

#### You might say:

"I just read the first page of *The Bat Boy & His Violin*. What is one thing I know based on what I just read? I know that it annoys Papa that Reginald is playing his violin. Is that stated directly in the text? No. Since it is not, what clue tells me what I know? The text says that Papa shouted, 'Is Reginald at it again?' when he heard Reginald playing."

Tell the students that you will stop them every few minutes to think about these questions and talk with their partners.

## 4 Reread Independently and Talk in Pairs

Have the students begin rereading independently for 15 minutes. Stop them at 5-minute intervals. At each stop, direct the students' attention to the "Questions to Use When Making Inferences" chart and ask each of the three questions from the chart one at a time, pausing after each question to allow the students time to think.

After the students have thought about all three questions, have them take turns discussing their thinking with their partners. Remind them to confirm their partners' thinking by repeating back what they heard.

As the students read, circulate among them and encourage them to think about what they are reading by asking them questions such as:

- Q *What is happening in your book at this point? How do you know? Are those things stated directly, or are you inferring them from clues? What clues?*

### Teacher Note

Pausing between the questions gives the students time to go through the thinking process before talking with their partners. At each stop, ask:

- Q *What is one thing you know based on the part you just read? [pause] Is that stated directly in the text? [pause] If not, what clue or clues tell you what you know? [pause] Turn to your partner and discuss your thinking.*

### Teacher Note

As you circulate, notice whether the students recognize both meanings stated directly in their books and meanings they have inferred. Be aware that many students will have difficulty identifying inferences at this point. Students who can make inferences may be unable to recognize that they have done so. This is to be expected since they have just been introduced to this challenging thinking. They will continue to explore making inferences in the coming weeks.

Be aware that some books contain more opportunities to infer than others.

## 5 Write in Reading Journals About the Students' Independent Reading

Have the students open their *Student Response Books* to the Reading Journal section. Then display the “Journal Entry” chart (🌐 WA3) and explain that today each student will write a journal entry. Also explain your expectations for what the journal entry should include.

### Journal Entry

Write a journal entry about the story you are reading.  
Please include:

- The title and the author's name
- What the story is about
- One thing you know based on the part you read today
- Whether that is stated directly or indirectly in the story
- If indirectly, the clue or clues that helped you make your inference

WA3

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals.

## 6 Discuss the Students' Journal Entries

Call for the students' attention and have them take turns talking about their journal entries with their partners. Remind them to confirm their partners' thinking by repeating back what they heard.

Have a few volunteers share their journal entries with the class. Ask questions such as:

**Q** *What did you hear [Darryl] say about his book? Did [Luz] get it right, [Darryl]?*

**Q** *What do you want to ask [Darryl] about his book or what he shared?*

Explain that making inferences is challenging, and assure the students that they will have many more opportunities to explore inferences and to think about when they are making them as they read independently.

## 7 Discuss How the Students Worked Together

Facilitate a brief discussion about how the students worked together today.

### Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

### ELL Note

Consider having students with limited English proficiency dictate journal entries for you to write down.

### Teacher Note

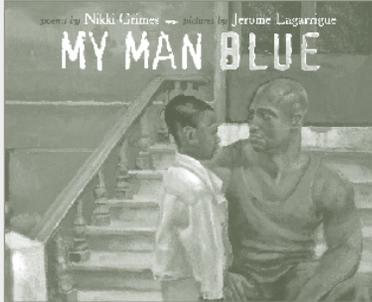

If the students struggle to write, you might wish to model writing a journal entry as you did in Unit 2, Week 1, Day 4 (see Step 3).

### Vocabulary Note

Next week you will revisit *Hurricane* to teach the Week 14 vocabulary lessons.

# Week 2

## OVERVIEW

### “My Man Blue,” “When We First Met,” and “Second Son” from *My Man Blue*\*

by Nikki Grimes, illustrated by Jerome Lagarrigue

In these poems, a fatherless boy named Damon is befriended by Blue, a tough-looking man with a gentle side.

*\*This book is also used in Week 3.*

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA4–WA5

#### Assessment Forms

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheet (CN1)

#### Professional Development Media

- “Using Presentation Tools” tutorial (AV44)

### Comprehension Focus

- Students make inferences to understand poems.
- Students visualize to make sense of the poems.
- Students learn to use a double-entry journal to record their thinking.
- Students read independently.

### Social Development Focus

- Students analyze why it is important to be respectful.
- Students develop the skill of using clarifying questions and statements.

## ① DO AHEAD

- ✓ Prior to Day 1, review some of the poems the students have learned this year. If your students have not heard much poetry this year, consider taking time to immerse them in poetry before you proceed with this week's instruction. See the poems listed on the "Grade 4 Alternative Texts" list for poetry you might use.
- ✓ Prior to Day 1, prepare a sheet of chart paper with the title "Clarifying Questions and Statements."
- ✓ Prior to Day 3, make a copy of the "Class Assessment Record" sheet (CA2); see page 66 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 14 lessons this week.

### Materials

- “My Man Blue” (*My Man Blue*, page 4)
- “Clarifying Questions and Statements” chart, prepared ahead, and a marker
- *Student Response Book* page 41
- “My Man Blue” chart (WA4)
- Small self-stick note for each student

**ELPS 2.D.ii**  
**Step 1**  
 (all, beginning on page 302 and continuing on to page 303)

### In this lesson, the students:

- Learn to use clarifying questions and statements
- Hear, read, and discuss a poem
- Visualize to make sense of the poem
- Build awareness of making inferences as they read and hear the poem
- Compare poems and stories
- Read independently for up to 30 minutes

## 1 Introduce Using Clarifying Questions and Statements

Have the students bring their *Student Response Books* and gather with partners sitting together, facing you. Remind the students that last week they practiced the skill of confirming their partners’ thinking by repeating back what they heard. Explain that this week they will learn to use clarifying questions and statements. Explain that when you do not understand what your partner is saying, you might ask your partner to clarify his thinking, or explain what he said in a different way, to help you understand. Explain that it is important to speak politely and respectfully when seeking clarification. Ask:

**Q** *If you don’t understand what your partner is saying, what are some questions you can ask or things you can say to help you understand?*

Have a few volunteers share their thinking. Direct the students’ attention to the “Clarifying Questions and Statements” chart and list a few of the students’ ideas on the chart as they generate them. If the students have difficulty generating questions and statements, offer some examples like those listed in the diagram.

### Clarifying Questions and Statements

I’m not sure I understand you.

Can you say that in a different way?

Can you tell me more about that?

What did you mean when you said . . . ?

Ask the students to use these questions and statements this week if they do not understand what their partners are saying.

## 2 Introduce Poetry

Review that over the past several weeks, the students have heard and read narrative texts, or texts that tell stories. Tell them that during the next two weeks they will hear and read a different kind of text, poetry. Ask the students to think silently for a moment about poems they have heard and read. Use “Think, Pair, Share” to discuss:

**Q** *What do you know about poems?* [pause] *Turn to your partner.*

Have a few volunteers share their thinking.

### Students might say:

“Poems sometimes rhyme.”

“Poems have lines and stanzas.”

“Some poems are funny, like limericks.”

If the students have difficulty answering the question, you might want to ask follow-up questions such as:

**Q** *What do poems look like?*

**Q** *How are they the same as or different from stories?*

## 3 Introduce “My Man Blue” and Visualizing

Tell the students that today you will read the first poem in a collection of poems called *My Man Blue*. Tell them the names of the author and the illustrator, but do not show the cover of the book. Explain that the poems are about a boy named Damon and a man he meets called Blue.

Explain that you will not show the book’s cover or illustrations at first because you want the students to form their own mental images of Blue, who is described in the poem. Tell them that you will show them the cover and the illustrations later so they can see how the illustrator pictured Blue.

Turn to page 4 and tell the students that the first poem, like the book, is called “My Man Blue.” Explain that you will read the poem aloud three times so that the students will have several opportunities to hear the poem and think about it. Remind the students to try to picture Blue in their minds as they hear and read the poem.

## 4 Read Aloud

Read “My Man Blue” aloud twice slowly and clearly, pausing between the readings. Clarify vocabulary during the first reading.

### ELL Note

The imagery and metaphorical language of poetry can be especially difficult for English Language Learners to comprehend. This week and next, you may want to read each poem aloud to your English Language Learners a few times and discuss it prior to reading and discussing the poem with the class.

### Facilitation Tip

Continue to focus on  **pacing class discussions**  so they are neither too short nor too long. Scan the whole class (not just the students who are responding) and use techniques such as the following:

- Call on just a few students to respond to each question, even if others have their hands up.
- Use “Turn to Your Partner” if many students want to speak. Then call on just two or three students to share with the whole class.
- Restate the question if the discussion strays from the original topic.
- Ask pairs to discuss whether they agree or disagree with what a classmate has just said.
- Use wait-time before calling on anyone to respond.

### Teacher Note

As partners share, circulate and listen for whether they are referring to the poem to support their ideas. Also notice whether they are using clarifying questions and statements to help them understand their partners’ thinking.

## Suggested Vocabulary

**indigo:** very dark blue

**rugged:** large, rough, and strong-looking

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**dude:** (slang) man

**fierce:** mean and dangerous

**shades:** (slang) sunglasses

After the first reading, tell the students that you will read the poem once more and that after this reading they will share their thoughts about the poem with their partners. Have the students turn to *Student Response Book* page 41, “My Man Blue,” and ask them to follow along as you read the poem aloud again.

## 5 Discuss the Poem

**ELPS 2.D.ii**

**Step 5 (all, beginning on page 304 and continuing on to page 305)**

Ask:

**Q** *What is this poem about? Turn to your partner.*

Refer to the “Clarifying Questions and Statements” chart and remind the students to use clarifying questions and statements if they do not understand what their partners are saying.

After a few minutes, facilitate a class discussion using the questions that follow. Encourage the students to refer to the poem to justify their thinking.

**Q** *How do you picture Blue in your mind? What in the poem makes you think that?*

Reread the last four lines of the poem and then ask:

**Q** *What do you think these lines mean? Explain your thinking.*

### Students might say:

“Blue is hard on the outside but soft inside.”

“Blue is mean-looking, but that’s sort of a disguise. Underneath, he’s gentle.”

“Blue looks like a scary giant, but really he wouldn’t hurt a fly because he’s gentle.”

As the students make inferences about Blue’s appearance, informally point out the inferences.

**You might say:**

"The poet does not say directly that Blue is tough-looking, but we can infer that from the clues, such as 'Then there's his teeth: / One gold, three cracked.'"

Show the cover of the book and the illustration of Blue on page 5. Ask:

**Q** *How is the illustrator's picture of Blue similar to or different from the picture you formed in your mind?*

## 6 Compare Poems and Stories

Display the "My Man Blue" chart (🟢 WA4) and point out that poems are written differently and look different from stories. Ask:

**Q** *What do you notice about how this poem is written?*

**Students might say:**

"I noticed that the lines are all very short."

"In addition to what [Noelle] said, each line has a capital letter, but there isn't a period at the end of each line."

"I also noticed that some of the lines rhyme. For example, *ink* and *think* rhyme and *black* and *cracked* rhyme."

If necessary, explain that some (but not all) poems rhyme and that some poems have short lines. Explain that in addition to looking different from stories, poems sometimes sound different when read aloud. Tell the students that you will reread the poem, and ask them to notice how you read the poem. Read the poem aloud, paying careful attention to the rhythm of the poem (stressed and unstressed syllables). After the reading, ask:

**Q** *What did you notice about the way I read the poem?*

**Students might say:**

"I noticed that when you read the poem, it sounded like it had a beat."

"It sounded like you said some words louder than other words."

"I noticed that you paused whenever there was punctuation, not at the end of each line."

Point out that when you read the poem, you stressed (put more emphasis on) certain words or syllables. Reread the first six lines of the poem and point to the words or syllables as you stress them (for example, "His *leathery skin's* / Like *indigo ink* / This *rugged dude* / Who *some folk think* / Looks *fierce in clothes* / Of *midnight black*"). Explain that the number of stressed syllables in each line creates the rhythm of a poem.

Explain that in the next lesson the students will hear another poem from *My Man Blue* and talk about it in pairs.

### Teacher Note

Point out that when the students form pictures in their minds to help them think about a text, they are using an important comprehension strategy called *visualizing*.

## 7 Discuss Using Clarifying Questions and Statements

Share any examples you observed of students using clarifying questions and statements, and then ask:

- Q *How did using clarifying questions and statements help you and your partner discuss the poem today?*
- Q *Why is it important to be respectful when asking your partner to clarify his or her thinking?*

Tell the students that they will continue to practice this skill in the coming weeks.

## INDIVIDUALIZED DAILY READING

### 8 Read Independently and Ask Questions

Tell the students that for the next two weeks, they will read narrative texts and poetry during IDR. Have the students get their books and find places to sit. Tell them that as they read independently today, you want them to think about questions that come up as they read. Then you will have them reread the same parts of their texts and think about whether new questions come up for them or whether any misunderstandings have been clarified during the rereading.

Distribute a self-stick note to each student. Have the students place the self-stick notes where they start to read, and then have them read silently for up to 15 minutes. After the students have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 68) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 71 of the *Assessment Resource Book*.

Stop the students after 15 minutes and have them think about questions that came to mind as they read. Ask them to reread the same parts in their texts and think about other questions that come to mind. After the students have settled into their reading, continue to confer with individual students.

Signal to let the students know when it is time to stop reading. Ask and briefly discuss:

- Q *What questions did you ask yourself as you read today?*
- Q *Did you clarify any misunderstandings when you reread your text? What was clarified?*

Have the students return to their desks and put away their texts.

---

## EXTENSION

### Write Poems

This week and next, invite interested students to write poems. They might write poems like the poems in *My Man Blue*—about interesting people they know or about their families, or they might write about any other subjects that interest them. Have the students share their poems with the class. You might collect the poems in a class book and include it in the class library.

### Technology Tip

Rather than creating a class book, you might have each student type his poem using a slideshow application. Assemble the students' slides into one file to create a digital presentation of the class's poems. For more information about using slideshow applications, view the "Using Presentation Tools" tutorial (AV44).

# Read-aloud/Strategy Lesson

# Day 2

### In this lesson, the students:

- Learn to use a double-entry journal
- Hear, read, and discuss a poem
- Build awareness of making inferences as they read and hear the poem
- Read independently for up to 30 minutes
- Use clarifying questions and statements

## 1 Review Using Clarifying Questions and Statements

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Briefly review the "Clarifying Questions and Statements" chart and remind the students that in the previous lesson they practiced using the charted questions and statements when they did not understand what their partners said. Explain that you would like the students to continue using the questions and statements with their partners today.

### Materials

- "When We First Met" (*My Man Blue*, page 6)
- "Clarifying Questions and Statements" chart from Day 1
- "Reading Comprehension Strategies" chart
- *Student Response Book* page 42
- "Double-entry Journal About 'When We First Met'" chart (WA5)

## 2 Review Making Inferences

Direct the students' attention to the "Reading Comprehension Strategies" chart and review that in previous lessons the students practiced making inferences to help them understand the story *Hurricane* and the poem "My Man Blue." Remind them that when a reader uses clues to figure out something that is not stated directly in a text, the reader is making an inference.

Point out that making inferences, like questioning and using text features, is a strategy the students can use in their independent reading to help them make sense of what they are reading. Explain that today they will practice making inferences as they listen to another poem.

## 3 Introduce "When We First Met"

Show the students the cover of *My Man Blue* and review that they heard and discussed the first poem, "My Man Blue." Tell them that today you will read the next poem, "When We First Met." Explain that you will read the poem aloud twice and that after the second reading, partners will share their thoughts about it.

Turn to page 6 and show the poem and accompanying illustration. Explain that the poem describes Damon's first meeting with Blue.

## 4 Read Aloud

Read "When We First Met" aloud slowly and clearly. Clarify vocabulary as you read.

### Suggested Vocabulary

**take my stance:** stand tall and proud

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**on Mom's account:** because of Mom

**look him up and down:** look at him carefully

**not winning points with me:** not making me like him

**trespass:** go on another person's property without permission

**eyeing:** looking at

**it's news to me:** it's something I didn't know

Have the students turn to *Student Response Book* page 42, "When We First Met," and ask them to read along with you as you read the poem aloud again. After the second reading, ask:

**Q** *How do you think Damon feels during this first meeting with Blue? What makes you think that?*

**Students might say:**

"I think he's mad. He doesn't like Blue. I think Damon doesn't like Blue because he's used to being the man in the family."

"He's suspicious of Blue. I think that he's suspicious because he doesn't understand why Blue stops them on the street."

"In addition to what [Jan] said, Damon seems like he's jealous of Blue because of his mom."

"He likes Blue after he gets to know him. I think that because at the end of the poem, it says, 'He seems alright.'"

## 5 Look for Clues to Damon's Feelings

Point out that the poem does not directly state how Damon feels during the meeting with Blue but that the students used clues in the poem to make inferences about his feelings.

Ask partners to work together to underline words in the poem that are clues about how Damon feels. Remind them to use clarifying questions and statements if they do not understand what their partners are saying.

## 6 Introduce the Double-entry Journal and Complete It as a Class

When most pairs have finished, display the "Double-entry Journal About 'When We First Met'" chart (WA5). Explain that a double-entry journal is a tool readers can use to record their thinking. Tell them that today they will use the tool as a class to record the inferences they made about Damon's feelings and the clues that helped them make these inferences.

Explain that in the left-hand column of the journal, you will write the words or phrases the students used to make the inferences. In the right-hand column, you will write their inferences.

Ask a few volunteers to share words and phrases they underlined and the inferences they made. Record the students' responses on the chart.

### Teacher Note

As on Day 1, circulate as partners share. Notice whether they are identifying words and phrases that are clues to Damon's feelings. Also notice whether they are using clarifying questions and statements and working together to decide what to underline.

### Double-entry Journal About "When We First Met"

What I Read	What I Inferred
"this 'Blue' guy"	He's mad about Blue being there and doesn't like him at first.
"I circle, look him up and down"	Damon is suspicious of Blue.
"'Cause in this family I'm the only man"	Damon doesn't want Blue around his mother.

WA5

## Teacher Note

The students may disagree about the inference that makes the most sense for a line. Some students may have difficulty inferring any meaning that makes sense. These differences are to be expected as the students learn the skill of making inferences and develop as readers. Rather than stating an inference yourself, facilitate a discussion about disagreements by having the students refer to the text to support their opinions.

## Teacher Note

Save the “Double-entry Journal About ‘When We First Met’” chart (WA5) to use on Day 3.

**TEKS 6.D.i**  
Student/Teacher Activity  
Step 8 (all)

If the students do not offer words or phrases from the poem, write the lines from the “What I Read” column in the diagram on the previous page and then have the students discuss in pairs and as a class what they can infer about Damon’s feelings from each line of text.

Remind the students that making inferences helps them think more deeply about texts. Tell them that in the next lesson they will read another poem from *My Man Blue* and use a double-entry journal again to record inferences they notice.

## 7 Discuss Working Together

Give the students an opportunity to report how they did using clarifying questions and statements today.

# INDIVIDUALIZED DAILY READING

## 8 Read Independently and Visualize

Tell the students that you want them to practice visualizing as they read independently today. Explain that at the end of IDR, you will ask some of them to share what they visualized with the class. Have the students get their texts and read independently for up to 30 minutes. After they have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 68) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 71 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Invite a few volunteers who visualized as they were reading to share with the class. Have each volunteer begin by telling the title of the text he read, the author’s name, and what the text is about. Then ask the student to describe what he visualized and what words helped him create that mental image. Have the students return to their desks and put away their texts.

## In this lesson, the students:

- Hear, read, and discuss a poem
- Build awareness of making inferences as they read and hear the poem
- Practice using a double-entry journal
- Read independently for up to 30 minutes
- Use clarifying questions and statements

## 1 Review Making Inferences and Get Ready to Work Together

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Display the completed “Double-entry Journal About ‘When We First Met’” chart (WA5) from Day 2. Remind the students that in the previous lesson they heard the poem “When We First Met” and used a double-entry journal to record their inferences and the clues they used to make the inferences.

Point out that using the strategy of making inferences helped the students think more deeply about the poem. Tell them that today you will read another poem from *My Man Blue* and they will talk about the poem in pairs, use a double-entry journal to record the inferences they make, and then discuss the inferences.

## 2 Introduce “Second Son”

Tell the students that the poem you will read aloud is “Second Son” and that it is the third poem in the collection about Damon and Blue. Explain that in this poem Damon and Blue talk about their friendship.

Turn to page 8 and show the poem and accompanying illustration. Point out that this poem is written differently than the other poems the students have heard and read from this collection. Point to each stanza and explain that this poem is written in *stanzas*, or sections, and that each stanza has four lines.

Explain that you will read the poem aloud twice and that after the second reading, partners will share their thoughts about the poem.

Ask the students to be aware of any inferences they are making as they listen.

## Materials

- “Second Son” (*My Man Blue*, page 8)
- “Double-entry Journal About ‘When We First Met’” chart (WA5) from Day 2
- *Student Response Book* pages 43–44
- “Class Assessment Record” sheet (CA2)

## Teacher Note

You might explain that a *stanza* is sometimes called a *verse*.

### 3 Read Aloud

Read “Second Son” aloud slowly and clearly. Clarify vocabulary as you read.

#### Suggested Vocabulary

**stoop:** front steps (refer to the illustration)

**conjure:** make appear as if by magic

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**blurt out:** suddenly say

**old man:** (slang) father

**to steer him straight:** (idiom) to keep him out of trouble

Have the students turn to *Student Response Book* page 43, “Second Son,” and ask them to follow along as you read the poem aloud again.

### 4 Briefly Discuss the Poem

After the second reading, use “Think, Pair, Share” to discuss:

**Q** *Why does Blue want Damon’s friendship? What in the poem makes you think that?* [pause] *Turn to your partner.*

Have a few volunteers share their partners’ thinking. Reread the last two lines of the second stanza and then ask:

**Q** *What do you think these lines mean? Explain your thinking.*

**Q** *Why do you think the poet called the poem “Second Son”? What clues in the poem helped you figure that out?*

As the students make inferences in response to the questions, point out the inferences.

#### You might say:

“The poem never says directly that Blue thought of Damon as a second son, but we infer it from clues in the poem.”

#### Teacher Note

If the students have difficulty inferring about Zeke’s life, explain that Zeke probably spent a lot of time on the streets, in the same way a person spends a lot of time with a friend. You might point out that the poet is comparing a street to a friend. This kind of comparison (a metaphor, in this case) is called *figurative language*.

## 5 Introduce the Double-entry Journal Activity

Have the students turn to *Student Response Book* page 44, “Double-entry Journal About ‘Second Son,’” and explain that each student will use the journal page to write about an inference she made while reading the poem. Point out that an example of a journal entry is provided, and read aloud the text in the “What I Read” and “What I Inferred” columns for number 1. Explain that each student will select another line or set of lines from which she can infer a meaning and then record the lines and the inference in the second space on the journal page.

Name: <input type="text"/>	<b>What I Read</b>	<b>What I Inferred</b>
	1. "I had a son named Zeke," Blue says. "These streets became his friend."	Zeke went to live on the streets and Blue doesn't see him much anymore.
Double-entry Journal About "Second Son"	2.	

Unit 5 • Week 2 • Day 3  
44 | Making Meaning

## 6 Work Individually on the Double-entry Journal

As the students work on their journal entries, circulate and note the lines they selected and the inferences they made from the lines.

### CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify lines in the poem that require an inference?
- Are they able to make appropriate inferences from those lines?

(continues)

## CLASS ASSESSMENT NOTE *(continued)*

Record your observations on the “Class Assessment Record” sheet (CA2); see page 66 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to make inferences, proceed with the lesson and then continue on to Independent Strategy Practice on Day 4.
- If **about half of the students** are able to make inferences, proceed with the lesson and continue on to Independent Strategy Practice on Day 4. Plan to monitor the students who are having difficulty during IDR by asking them questions such as:

Q *What is one thing that you know based on what you read today?*

Q *Does the book tell you that directly, or did you figure it out from clues? What clues?*

- If **only a few students** are able to make inferences, you might give the class additional instruction by repeating Days 1, 2, and 3 of this week using an alternative poem before continuing on to Day 4. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

## 7 Discuss Inferences

When most students have finished, have partners discuss their inferences. Remind them to use clarifying questions and statements if they do not understand their partners’ thinking. Ask:

Q *What did you infer from the lines you selected? Why does that inference make sense? Turn to your partner.*

After a few minutes, facilitate a class discussion of the students’ inferences. Probe their thinking by asking questions such as:

Q *Why does that inference make sense?*

Q *What question do you want to ask [José] about the line and inference he shared?*

Q *Did anyone make a different inference from the same line? What inference? Do both make sense? Why or why not?*

### Students might say:

“When Blue says, ‘He needed me but by the time / I came, it was too late,’ I made the inference that Blue wasn’t around when Zeke was growing up.”

“I chose the lines ‘Your missing daddy also left / a hole in you.’ It’s not like a real hole, but Blue’s saying Damon misses his dad.”

“Blue says, ‘He’d passed the point of trusting his / old man to steer him straight.’ I inferred that Zeke probably got into a lot of trouble on the streets without his father around.”

# INDIVIDUALIZED DAILY READING

## 8 Read Independently and Visualize

Tell the students that you want them to practice visualizing as they read independently today. Explain that at the end of IDR, you will ask some of them to share what they visualized with the class. Have the students get their texts and read independently for up to 30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 68) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 71 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Invite a few volunteers who visualized as they were reading to share with the class. Have each volunteer begin by telling the title of the text she read, the author’s name, and what the text is about. Then ask her to describe what she visualized and what words helped her create that mental image. Have the students return to their desks and put away their texts.

## WRITING ABOUT READING

### Compare Poems and Plays

Show the cover of *My Man Blue* and remind the students that over the past few days they have heard and discussed poems from the book and talked about how poems are different from stories. Ask:

**Q** *How are the poems we’ve heard and read different from fiction stories like Hurricane?*

Show the cover of *Pushing Up the Sky* and remind the students that earlier they read and discussed the play *Gluskabe and Old Man Winter*. Have the students turn to *Student Response Book* pages 25–37 and review that this is a copy of the play. Have the students scan the play and think about how the play is different from a poem. When most students have finished scanning the play, ask and briefly discuss:

**Q** *How is the play different from the poems we’ve heard and read?*

**TEKS 6.D.i**  
Student/Teacher Activity  
Step 8 (all)

**TEKS 9.C.i**  
Student/Teacher Activity  
Writing About Reading  
(all, beginning on page 315 and continuing on to page 316)

### Materials

- *My Man Blue*
- *Gluskabe and Old Man Winter* (*Pushing Up the Sky*, pages 11–23) from Unit 4
- *Student Resource Book* pages 25–43

### Teacher Note

If the students struggle to answer the question, you might have them look at *Student Response Book* pages 41–43, where the poems from *My Man Blue* are reproduced, and have them compare the poems to the play.

**Students might say:**

"The lines in a play are the dialogue for each character. The lines in a poem aren't always dialogue."

"A play has stage directions and poems don't."

"The play has four different scenes. Poems don't have scenes, but sometimes they have stanzas."

"In the play, there are descriptions of the settings. The poems don't have that."

Ask the students to watch as you think aloud and model writing about how poems are different from plays.

**You might say:**

"Poems are different from plays in a few ways. I'll write: *Poems are different from plays in a number of ways.* Next I'll explain a few ways in which they are different. I'll write: *Poems are usually shorter than plays. Plays have scenes and poems do not. The sections of poems are called stanzas. Each line of a play tells what a character says. The lines of poems can be dialogue, but sometimes they are not.*"

Have the students write about what is different about poems and plays. Encourage them to refer to the poems that are reproduced in the *Student Response Book* and to notice ways in which poems are different from plays. If time permits, ask a few volunteers to share their writing with the class.

---

## EXTENSIONS

### Discuss Personification

Have the students turn to *Student Response Book* page 43, "Second Son," and direct their attention to the last line of the second stanza, "These streets became his friend."

Read the line aloud and point out that in the line the poet writes about the street as if it were a person. Explain that writing about an object as if it were a person is called *personification*.

Ask the students to read the poem silently to themselves and, as they read, to look for places where the poet writes about the street as if it were a person. When the students have finished reading, ask:

**Q** *What examples of personification do you notice? What words does the poet use to write about the street as if it were a person? Turn to your partner.*

Have a few volunteers share their thinking. If necessary, point out that the poet uses personification when she says, "the streets will eat at you."

## Explore Rhyme in “Second Son”

Have the students open to *Student Response Book* page 43, “Second Son.” Remind the students that the poem is written in stanzas and that each stanza has four lines. Explain that each stanza also has a repeating pattern or rhyme. Point out the words *sky* and *by* in the first stanza. Have partners read the poem together quietly and underline words that rhyme. After a few moments, signal for the students’ attention and ask:

**Q** *What words did you underline that rhyme?*

If necessary, point out pairs of words that rhyme. Explain that some, but not all, poems use rhyme.

## Independent Strategy Practice

## Day 4

### In this lesson, the students:

- Read independently
- Build awareness of making inferences
- Use clarifying questions and statements
- Analyze the importance of being respectful

### 1 Review the Week

Have the students bring their *Student Response Books*, pencils, and poems or narrative stories for independent reading and sit at desks with partners together. Remind the students that this week they heard three poems from *My Man Blue* and used a double-entry journal to think about and record inferences they made. Explain that today they will think more about making inferences as they read independently.

Refer to the “Clarifying Questions and Statements” chart and point out that the students also learned the skill of using clarifying questions and statements to help them understand their partners’ thinking. Explain that they will practice this skill again today.

### 2 Read Independently Without Stopping

Distribute self-stick notes to the students. Ask each student to use a self-stick note to mark the place where he begins reading today. Have the students read independently for 15 minutes.

### Materials

- “Clarifying Questions and Statements” chart from Day 2
- Small self-stick notes for each student
- *Student Response Book* page 45

### Teacher Note

To help the students review the week, you might have them review the poems and double-entry journal on *Student Response Book* pages 41–44.

### Teacher Note

If you notice that many students are having difficulty recognizing when they are making inferences, you might bring the class together and model the procedure again with your own book or poem as you did in Week 1, Day 4 (see Step 3).

### Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit's Individual Comprehension Assessment.

## 3 Prepare to Reread and Infer

Stop the students after 15 minutes. Explain that they will reread, starting again at their self-stick notes. As they reread, they should use additional self-stick notes to mark clues in the text that help them make inferences. Remind them that an inference is something a reader figures out from clues in a text. Explain that a student who is reading a story might make an inference about a character, the setting, or what is happening in the story. A student who is reading a poem might make an inference about what a line or set of lines means. Explain that later the students will use a double-entry journal to record clues and inferences.

## 4 Read Independently and Mark Clues

Have the students reread independently for 15 minutes, marking places where they are inferring. Circulate and look for evidence that the students are identifying places where they are making inferences. Some students may have difficulty recognizing when they are making inferences.

To support individual students, you might ask questions such as:

- Q *In the poem you're reading, what do you think this line means? Why do you think that?*
- Q *What is happening in your story right now? What did you figure out about [a character/the setting/what is happening] that the author does not tell you directly? How did you figure that out?*
- Q *What do you think will happen next? Why do you think that?*

Signal to let the students know when it is time to stop reading.

## 5 Use a Double-entry Journal to Record Clues and Inferences

Have the students turn to *Student Response Book* page 45, "Double-entry Journal About \_\_\_\_\_," and explain that they will each record one inference they made while they were reading today on their journal page. Direct the students' attention to the blank line in the title and ask them to write the title of the poem or narrative text they are reading there.

Ask the students to choose one place they marked and to record the sentence or words in the "What I Read" column of the double-entry journal. In the "What I Inferred" column, they will write the inference they made from the sentence or words. Tell them that they will use their double-entry journals to discuss their inferences in pairs and with the class.

Have any student who did not identify any inferences choose an interesting sentence from his reading and write about it. He will write the sentence in the "What I Read" column of the journal and his thoughts in the "What I Inferred" column.

## 6 Discuss the Students' Inferences

Give the students a few minutes to discuss their journal entries with their partners. Remind them to use clarifying questions and statements when necessary.

Have a few volunteers share their journal entries with the class. Probe the students' thinking by asking:

**Q** *From what you know about your story or poem, why does that inference make sense?*

Explain that the students will have more opportunities to think about making inferences in their independent reading in the coming weeks.

## 7 Reflect on Working Together

Review that the students focused this week on using clarifying questions and statements in a respectful manner when they did not understand their partners' thinking. Use "Think, Pair, Share" to discuss:

**Q** *How did using clarifying questions and statements help you in your partner work this week? [pause] Turn to your partner.*

Have a few volunteers share their thinking, and then ask:

**Q** *How has your partner helped you feel respected? How does that help you be a better learner?*

---

## EXTENSION

### Share Favorite Poems

Invite the students to each select a favorite poem to share with the class by reading the poem aloud, memorizing and reciting it, or having you or a classmate read it. Then have the students create a class collection of their favorite poems. Ask the students to make handwritten or typed copies of their poems, with accompanying illustrations if they wish. Collect the poems in a binder and display the binder in the school library or media center for others to enjoy.

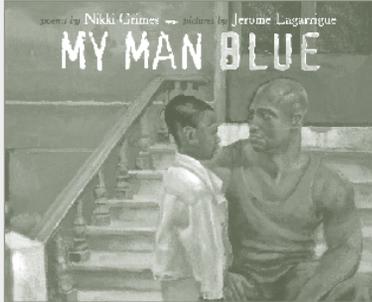

---

### Vocabulary Note

Next week you will revisit "My Man Blue," "When We First Met," and "Second Son" to teach the Week 15 vocabulary lessons.

# Week 3

## OVERVIEW

### “Grounded” and “The Watcher” from *My Man Blue*\*

by Nikki Grimes, illustrated by Jerome Lagarrigue

In this collection of poems, a fatherless boy named Damon is befriended by Blue, a tough-looking man with a gentle side.

*\*This book was also used in Week 2.*

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA2, WA6–WA8

#### Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)
- “Social Skills Assessment Record” sheet (SS1)

#### Professional Development Media

- “Using ‘Heads Together’” (AV9)
- “Using Blogs in the Classroom” tutorial (AV45)
- “Creating Digital Stories” tutorial (AV48)
- “Creating Audio and Video in the Classroom” tutorial (AV50)

### Comprehension Focus

- Students make inferences to understand poems.
- Students visualize to make sense of poems.
- Students read independently.

### Social Development Focus

- Students work in a responsible way.
- Students learn and practice the procedure for “Heads Together.”
- Students develop the skill of including everyone in and contributing to group work.

## ⌚ DO AHEAD

- ✓ Prior to Day 1, decide how you will randomly assign pairs to work together in groups of four throughout the week.
- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA3); see page 67 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, prepare to model visualizing using a narrative text or poem of your own (see Step 3).
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 15 lessons this week.

### Materials

- “Grounded” (*My Man Blue*, page 12)
- “Excerpt from ‘Grounded’” (WA6)
- Small self-stick notes for each student
- “Questions to Use When Making Inferences” chart (WA2) from Week 1

### Teacher Note

Group work fosters both academic and social development. In groups, the students are exposed to a greater variety of ideas, and the more complex interactions of the group require that students develop critical social skills, such as including one another, solving problems, making decisions, and reaching agreement. For more information about the role of cooperative structures in social development, see “Focus on Social/Ethical Development” in the Introduction.

### Teacher Note

If your students are already familiar with “Heads Together,” you do not need to practice it in Step 2. Instead, briefly review the procedure and continue with the rest of the lesson. To see an example, view “Using ‘Heads Together’” (AV9).

### In this lesson, the students:

- Learn the procedure for “Heads Together”
- Hear, read, and discuss a poem
- Build awareness of making inferences as they hear the poem
- Read independently for up to 30 minutes
- Contribute to group work
- Include everyone in the work and discussions

## 1 Introduce “Heads Together”

Have the students gather with partners sitting together, facing you. Point out that in past lessons the students shared ideas about their reading with their partners, but during today’s lesson they will share their thinking in groups of four. Ask:

- Q *How might talking in a group of four be different from talking with a partner?*
- Q *What challenges or difficulties might you face talking in a group of four?*

#### Students might say:

“It might be hard to decide whose turn it is to talk.”

“I think it will be different because we’ll get to hear more people’s thinking.”

“We’ll have to make sure that everyone has a chance to talk. That might be hard with more people.”

Put pairs together to form groups of four, and ask group members to sit together. Explain that this week you will continue to read aloud from *My Man Blue*, the collection of poems by Nikki Grimes. Tell the students that after they hear today’s poem, they will use a technique called “Heads Together,” in which they turn to their group members to discuss the poem. Explain that the purpose of “Heads Together” is to hear the thinking of several other people and to practice sharing thinking in a group. Explain the “Heads Together” procedure.

#### You might say:

“Sometimes I will ask a question and say ‘Heads together.’ When you hear this, you will turn to face your group and talk about the question. When I raise my hand, you will finish what you are saying, raise your own hand so others can see the signal, and turn back to face me.”

## 2 Practice “Heads Together”

Tell the students that they will briefly practice “Heads Together” before they use the technique to discuss the poem. Have the students in each group turn and face one another and introduce themselves. After a moment, raise your hand and have the students turn back to face you. Practice again by asking:

**Q** *What have you learned from working with a partner that can help you work in a group of four? Heads together.*

Give the groups a few minutes to talk; then signal for the students to come back together as a class. Have a few volunteers share what their groups discussed.

### Students might say:

“Look at the person who is talking.”

“Don’t interrupt someone who is talking. Wait for your turn.”

“If you don’t understand what someone said, ask that person a question.”

“Contribute ideas.”

Encourage the students to use these ideas as they work in their groups today. Tell them that you will check in at the end of the lesson to see how the groups did using “Heads Together.”

## 3 Introduce “Grounded”

Show the students the cover of *My Man Blue* and remind them that in previous lessons they read three poems about the friendship of Damon and Blue: “My Man Blue,” “When We First Met,” and “Second Son.”

Turn to page 12 of *My Man Blue*. Tell the students that today’s poem is called “Grounded.” Explain that as they listen you would like them to think about what the title might mean.

## 4 Read Aloud

Read “Grounded” aloud twice slowly and clearly, pausing between the readings. Clarify vocabulary during the first reading.

### Suggested Vocabulary

**asthma:** disease that makes it difficult to breathe

**wheezing:** breathing with a hoarse, whistling sound

### Teacher Note

If some groups have difficulty initiating a discussion, you might interrupt the activity and ask a group that successfully started a discussion to model what they did. You can use a similar process if groups are having trouble sustaining discussions.

### Facilitation Tip

Reflect on your experience over the past three weeks with **pacing class discussions**. Do the pacing techniques feel comfortable and natural to you? Do you find yourself using them throughout the school day? What effect has your focus on pacing had on your students' participation in discussions? We encourage you to continue to focus on pacing class discussions throughout the year.

### Teacher Note

As groups share, circulate and listen for whether the students are referring to the poem to support their ideas. (Be ready to reread lines of the poem to help them recall what they heard.) Also observe how the discussions are going. Note groups in which everyone is participating and groups in which only some students are participating. Be ready to report your observations at the end of the lesson.

### Teacher Note

If the students struggle to answer this question, reread the next ten lines of the poem from the book.

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**glum:** unhappy

**balled my fist:** curled my fingers into a fist

**cursed:** made to suffer

**lousy:** bad

**with the works:** (idiom) with everything that can go on a hot dog, such as catsup, mustard, onions, and relish

## 5 Discuss the Poem in Groups and as a Class

After the second reading, tell the students that they will use “Heads Together” to discuss what the poem is about. Remind them of some of the suggestions they made earlier about how to work effectively in a group. Ask:

**Q** *What is this poem about? Heads together.*

After a few minutes, signal for the students' attention and have a few volunteers share what their group discussed.

Display the “Excerpt from ‘Grounded’” chart (WA6) and explain that these are the first eleven lines of the poem “Grounded.” Read the lines aloud and ask:

**Q** *What has happened to Damon? How is he feeling? What words or lines tell you that? Heads together.*

After a few minutes, signal for the students' attention and have a few volunteers share what their group discussed.

#### Students might say:

“Our group thought that Damon couldn't play stickball because of his asthma.”

“We think Damon is feeling angry because he's shaking his fist at the sky.”

“In addition to what [Tamika's] group said, we think Damon is feeling sad because he said he's glum.”

Facilitate a class discussion using the following questions:

**Q** *How do you know you are making an inference when you say Damon is [angry/frustrated]?*

**Q** *How does Blue help Damon? What in the poem makes you think that?*

**Q** *What do you think the title “Grounded” means?*

**Students might say:**

"I know I'm making an inference when I say Damon is angry because it doesn't say that directly in the poem. I used clues to figure it out.

Damon balls his fist in the poem, and that's something people do when they are angry."

"Blue helps Damon by buying him a hot dog and being his friend."

"If your parents 'ground' you, you can't do fun things like play with your friends or watch TV. Damon can't play stickball because he's sick with asthma. It's like he's grounded by asthma."

## 6 Discuss "Heads Together"

Facilitate a brief discussion of the group work. Ask:

**Q** *How did "Heads Together" go in your group?*

**Q** *What problems did you have? How did you try to solve the problems? How did that work?*

Without mentioning any of the students' names, share examples you observed of groups in which all members were participating well and groups in which only some members were participating. Also describe any problems you noticed and then ask the questions that follow.

**You might say:**

"I noticed that in some groups one or two people did all the talking. I also noticed that in some groups partners talked to each other but did not include the other pair in their discussions."

**Q** *Why is it important for everyone's ideas to be heard?*

**Q** *Whose responsibility is it to make sure everyone in the group participates?*

**Q** *What can you do to make sure all members of the group are involved in the discussion?*

Tell the students that they will continue to work in these groups for the rest of the week.

## INDIVIDUALIZED DAILY READING

### 7 Practice Making Inferences

Remind the students that they are reading narrative texts and poetry during IDR. Explain that today the students will practice making inferences in their independent reading. Explain that they will read their texts for 15 minutes and then read the same sections again and think about inferences they might make. Tell the students that at the end of IDR, they will discuss their inferences with the class.

#### Teacher Note

Be aware that some books contain more opportunities to infer than others.

Distribute self-stick notes to each student. Have the students get their texts, place self-stick notes where they start to read, and then read silently for 15 minutes. After the students have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 68) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 71 of the *Assessment Resource Book*.

Stop the students after 15 minutes and have them place self-stick notes where they stopped reading. Display the “Questions to Use When Making Inferences” chart (WA2) and ask the students to think about these questions as they reread to help them make inferences. Then have the students reread the same parts of their texts that they read before. As they reread, have them use additional self-stick notes to mark clues in the text that help them make inferences. After the students have settled into their reading, continue to confer with individual students.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to each share what they read with the class. Have each volunteer begin by telling the title of his text, the author’s name, and what the text is about. Then have him share any inferences he made and read the passages aloud that helped him infer. If the student struggles to share inferences, probe the student’s thinking by asking questions such as:

**Q** *What is happening in the part of the text that you read today? How do you know? Are those things stated directly or did you infer them from clues? What clues?*

Have the students return to their desks and put away their texts.

## SOCIAL SKILLS ASSESSMENT NOTE

During this final week of this unit, assess the students’ social skill development using the “Social Skills Assessment Record” sheet (SS1). Access and print a record sheet from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or make a copy from page 144 of the *Assessment Resource Book*. Note that you will use the same record sheet to document each student’s progress when you reassess social skill development in Unit 9.

## In this lesson, the students:

- Practice the procedure for “Heads Together”
- Hear, read, and discuss a poem
- Build awareness of making inferences as they hear and read the poem
- Visualize to make sense of the poem
- Read independently for up to 30 minutes and write in their reading journals
- Contribute to and include everyone in the work and discussions

## 1 Get Ready to Work in Groups of Four

Have the students bring their *Student Response Books* and gather in their groups of four, facing you. Show the cover of *My Man Blue* and review that in the previous lesson they used “Heads Together” to talk about the poem “Grounded.” Explain that today they will hear another poem from *My Man Blue* and use “Heads Together” to share their thinking. Ask:

- Q *If you notice that some members of your group are not talking, what can you do or say to help them feel included?*
- Q *Why is it important that you contribute your own thinking to the group?*

### Students might say:

- “If one person in the group isn’t talking, I can ask him what he thinks.”
- “We can ask the person if she agrees or disagrees with what other people have said.”
- “It’s important to contribute your own thinking because you might be able to help someone in your group understand something better.”

Explain that you would like the students to focus today on contributing their own thinking and including everyone as they work in their groups.

## 2 Introduce “The Watcher” and Visualizing

Tell the students that you will read a poem called “The Watcher” aloud and that in the poem, Damon tells about something that happened one day while he was playing. Explain that you will not show the students the illustration because you want each of them to visualize, or create a mental image of, what is happening as they listen to the poem. Tell them that their mental images can include sounds, smells, and feelings as well as things they see.

## Materials

- “The Watcher” (*My Man Blue*, page 14)
- *Student Response Book* page 46
- “Class Assessment Record” sheet (CA3)
- “The Watcher” chart (WA7)
- “Reading Comprehension Strategies” chart and a marker
- Small self-stick notes for each student
- “Questions to Use When Making Inferences” chart (WA2) from Day 1
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA8)

Explain that when readers form mental images as they read, they are using an important comprehension strategy called *visualizing*. Remind the students that in a previous lesson they used visualizing to picture what Blue looked like as you read “My Man Blue.”

Turn to page 14 of *My Man Blue* and explain that you will read “The Watcher” aloud twice and that you would like the students to close their eyes and visualize what is happening. After the second reading, you will ask them to share their visualizations in their groups.

### 3 Read Aloud

Read “The Watcher” aloud twice slowly and clearly, pausing between the readings. Clarify vocabulary during the first reading.

#### Suggested Vocabulary

**disguised as me:** dressed up like me

**rig:** (slang) semitrailer truck or “big rig”

**reduced my ball to dust:** crushed my ball into tiny pieces

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**skipped:** bounced

**spied:** saw

After the second reading, ask the students to open their eyes. Have the students turn to *Student Response Book* page 46, “The Watcher,” and read the poem silently to themselves. If necessary, read the poem aloud again as the students follow along.

### 4 Discuss the Poem and the Students’ Visualizations

Have the students use “Heads Together” to discuss what they visualized. Remind them to focus on ways to include everyone in the group work. Circulate among the groups as they talk.

#### CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to describe what happens in the poem?
- Are their visualizations connected to the text?

(continues)

## CLASS ASSESSMENT NOTE *(continued)*

Record your observations on the “Class Assessment Record” sheet (CA3); see page 67 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to visualize what is happening in the poem, proceed with the lesson and continue on to Day 3.
- If **about half of the students** or **only a few students** are able to visualize what is happening in the poem, you might give the class additional instruction by repeating Day 2 of this week using an alternative poem before continuing on to Day 3. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

After several minutes, signal for the students’ attention and display the chart of “The Watcher” (📄 WA7). Facilitate a class discussion using the questions that follow. As the students mention words or lines they used to visualize or infer, underline them on the chart. Ask:

- Q** *What mental images did you talk about in your group? What lines of the poem helped you imagine those things?*
- Q** *What lines in the poem helped you infer that a truck almost hits Damon and runs over his ball?*

### Students might say:

“I imagine Blue saving Damon just in time. The poem says that ‘Blue reached out and grabbed my belt / And set me on the sidewalk.’”

“Damon can’t move because he’s scared. The poem says that his ‘feet refused to fly.’”

Reread the first four lines of the poem and then ask:

- Q** *What do you think Damon means by “some dumb kid disguised as me”? Why does that inference make sense in this poem?*

### Students might say:

“Damon can’t believe he ran out into the street like that. It’s almost like some other kid did it, one that just looks like him.”

“I think it means that he knew chasing the ball into the street wasn’t a smart thing to do and that normally he wouldn’t do something like that. For some reason, on that day he did.”

As the students make inferences, point them out, making the students’ thinking explicit.

### You might say:

“The poem doesn’t say that Damon ran into the street without looking, but you figured that out. What clues in the poem helped you make that inference?”

### TEKS 10.D.i

Student/Teacher Activity

Step 4 (first discussion question on page 329)

## 5 Add to the “Reading Comprehension Strategies” Chart

Direct the students’ attention to the “Reading Comprehension Strategies” chart and add *visualizing* to it. Explain that visualizing is a powerful strategy to help readers understand and remember what they read and that readers sometimes use inference and visualization at the same time.

### Reading Comprehension Strategies

- using text features
- questioning
- recognizing story elements
- making inferences
- visualizing

Explain that as the students read independently this week, they will have the opportunity to visualize, make inferences, and use other comprehension strategies they have learned.

## INDIVIDUALIZED DAILY READING

### 6 Practice Making Inferences and Write in Reading Journals

Explain that today the students will practice making inferences in their independent reading. Explain that they will read their texts for 15 minutes and then read the same sections again while thinking about inferences they might make. Tell the students that at the end of IDR, they will write about their inferences in their reading journals.

Distribute self-stick notes to the students. Have the students get their texts, place self-stick notes where they start to read, and then read silently for 15 minutes. After the students have settled into their reading, confer with individual students.

#### Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit’s Individual Comprehension Assessment.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 68) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 71 of the *Assessment Resource Book*.

Stop the students after 15 minutes and have them place self-stick notes where they stopped reading. Display the “Questions to Use When Making Inferences” chart (WA2) and ask the students to think about these questions as they reread to help them make inferences. Then have the students reread the same parts of their texts. As they read, have them use additional self-stick notes to mark clues in the texts that help them make inferences. After the students have settled into their reading, continue to confer with individual students.

Signal to let the students know when it is time to stop reading. Ask the students to think quietly about any inferences they made and the passages that helped them infer. Have the students return to their desks and open their *Student Response Books* to the Reading Journal section. Then display the “Journal Entry” chart (WA8) and explain that today each student will write a journal entry. Also explain your expectations for what the journal entry should include.

WA8

### Journal Entry

Write a journal entry about the text you are reading.

Please include:

- The title and the author’s name
- What is happening in the part of the text you read today or what a poem you read today is about
- An inference you made as you were reading and the clue or clues that helped you make the inference
- If you didn’t make an inference, a question you had as you read your text and whether your question was answered

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class. Have the students return to their desks and put away their texts.

### Teacher Note

If the students struggle to write, you might wish to model writing a journal entry as you did in Unit 2, Week 1, Day 4 (see Step 3).

---

## EXTENSION

### Read More Poems from *My Man Blue*

Read other poems from *My Man Blue* aloud to give the students more opportunities to practice making inferences and visualizing. Before you read a poem, remind the students to visualize, or create mental images of, what is happening as they listen. After reading the poem, give the students an opportunity to share their thoughts about it. Then focus the discussion with questions that target the strategies.

Below are four poems you might use, with sample questions to help focus the discussion on the strategies:

“Fearless” (page 10)

- Q *What do you picture happening in the poem?*
- Q *Why do you think Blue finds a tall tree for Damon to climb? Explain your thinking.*

“Class Bully” (page 18)

- Q *What do you picture happening in the poem?*
- Q (Reread the last three lines of the poem.) *What does Damon mean in this part of the poem?*

“His Hands” (page 20)

- Q *How do you picture Blue’s hands?*
- Q (Reread the last five lines of the poem.) *What does Damon mean in this part of the poem?*

“My Own Man” (page 25)

- Q *What do you picture happening in the poem?*
- Q *Why is the poem called “My Own Man”? Explain your thinking.*

### Technology Tip

Prior to doing this activity, investigate digital storytelling tools that are available for the devices in your classroom. Search online using the keywords “digital storytelling tools.”

For more information about digital storytelling, view the “Creating Digital Stories” tutorial (AV48).

---

## TECHNOLOGY EXTENSION

### Draw Visualizations of a Poem from *My Man Blue*

Read aloud one of the poems mentioned in the extension “Read More Poems from *My Man Blue*” above, and have the students visualize what is happening in the poem. After the reading, have them discuss with their partners their visualizations and the lines or words in the poem that helped them create their mental images. Have the students draw their visualizations using a digital storytelling tool and then record themselves reading the parts of the poem they visualized. You might repeat this activity with several poems and have the students create a collection of their visualizations that they can share with their classmates and families.

## In this lesson, the students:

- Read independently
- Visualize and make inferences
- Contribute to group work
- Include everyone in the work and discussions
- Work in a responsible way

## 1 Review the Importance of Using Comprehension Strategies During Independent Reading

Have the students bring their *Student Response Books*, pencils, and poems or narrative stories for independent reading and gather in their groups of four, facing you. Remind the students that in previous lessons they heard and read several poems from *My Man Blue* and used the strategies of making inferences and visualizing to help them make sense of the poems.

Emphasize that they are learning the strategies to help them better understand what they read independently. Explain that today and tomorrow the students will practice visualizing and making inferences in their independent reading.

## 2 Read Independently Without Stopping

Ask the students to use self-stick notes to mark the places where they begin reading today, and have them read independently for 15 minutes.

## 3 Model Visualizing and Prepare to Reread

Stop the students after 15 minutes. Explain that they will reread, starting again at their self-stick notes. As they reread, they will use additional self-stick notes to mark places in the text where they visualize, or form a mental picture of, what they are reading.

Explain that later they will use a double-entry journal to think and write about their visualizations.

Model the process using a passage from a book or poem that lends itself to visualization. Introduce the selection to the students, read it aloud, and then reread it, using a self-stick note to mark a place where you visualized. Describe the picture that formed in your mind. Then explain how the text sparked the image and how that helped you make sense of the text.

## Materials

- Small self-stick notes for each student
- Narrative text or poem for modeling, selected ahead
- *Student Response Book* page 47

**TEKS 6.D.i**  
Student/Teacher Narrative  
Step 3 (all)

## 4 Reread Independently and Mark with Self-stick Notes

Have the students reread independently for 15 minutes, marking places where they are visualizing as they read. Circulate and look for evidence that the students are visualizing. As you notice individual students marking text, probe their thinking about the strategy by asking questions such as:

- Q *What words in the text helped you form a mental image? What image did you see in your mind?*
- Q *Did you picture something that is stated directly in the [poem], or did you infer? How?*

### Students might say:

"The poem says that the trees are 'handsome green giants.' Because it says 'giants,' in my mind I see great big trees with a lot of leaves and thick branches."

"The story says that the grandfather 'marveled at the towering mountains' he saw in America. The word 'towering' helps me see tall mountains with snow on them, like the mountains I saw on vacation."

"This book says that Abe Lincoln had 'hair that wouldn't comb.' I see thick, curly hair that's a little rumped. I had to infer that because the book doesn't really describe the hair."

Provide support to students who are having difficulty visualizing by asking them to read passages to you and to describe their mental images. Identify students who are using the strategy successfully. Later, during the class discussion, ask these students to share their thinking about their visualizations. Signal to let the students know when it is time to stop reading.

## 5 Use a Double-entry Journal to Record Visualizations

Have the students turn to *Student Response Book* page 47, "Double-entry Journal About \_\_\_\_\_." Remind them that they used a double-entry journal in the previous week to record lines from poems and the inferences they made from those lines. Explain that today they will use a double-entry journal to record their visualizations.

Ask the students to write the title of the poem or narrative text they are reading on the blank line. In the "What I Read" column of the journal, they will write the words or sentences that helped them create mental images. In the "What I Visualized" column, they will describe the pictures that formed in their minds. Tell them that they will use their double-entry journals to discuss their visualizations in their groups and with the class.

### ELL Note

If the students are having difficulty describing their visualizations, you might have them draw what they pictured.

### Teacher Note

If you notice students having difficulty writing about their visualizations, you might model by thinking aloud about a journal entry you could write using the book you modeled with in Step 3 of the lesson.

You might provide additional support to individual students by asking them what they saw in their minds as they read their books. Then help them find the sentences that describe what they saw and write them in the "What I Read" column of their double-entry journals.

Have students who did not identify a place where they visualized write about an interesting line or sentence from their reading.

## 6 Discuss in Groups and as a Class

Use “Heads Together” to have the students talk about the visualizations they recorded.

Have a few volunteers share their visualizations with the class. Probe the students’ thinking by asking:

- Q *What was happening in the text when you visualized?*
- Q *What words helped you form a mental image? What did you picture in your mind?*
- Q *Did you visualize something that is directly stated in your text, or did you infer? How?*

## 7 Reflect on the Group Work

Share your observations of how the students worked in their groups. Without mentioning any of the students’ names, give examples you saw of group members working in inclusive and responsible ways and of group members working through problems together.

## TECHNOLOGY EXTENSION

### Compare a Written Version and an Oral Presentation of a Poem

Remind the students that over the past few weeks they have listened to poems read aloud by you and have read poems to themselves. Explain that hearing poetry read aloud can help the listener better understand the poem.

Tell the students that they are going to read a poem silently to themselves and then they will listen to a recording of the poet reading his or her poem aloud. Distribute a copy of the poem you selected and have the students read it silently to themselves. Ask:

- Q *What is this poem about?*

Have a few volunteers share their thinking. Tell the students that they will listen to the poet reading the poem they just read. Ask the students to notice what the poet does to make the poem interesting to hear. Then play the recording of the poem. After the students listen to the

### Teacher Note

Circulate among the groups and ask yourself:

- Are all group members contributing to the discussion?
- Are group members including one another in the discussion?
- Are group members able to work through any problems they are encountering?

Note examples of what is working well in the groups to bring to the students’ attention later.

### Technology Tip

Prior to doing this activity, find one or two audio recordings of poets reading their poetry aloud that you can play for the students. The Children’s Poetry Archive offers many such recordings to choose from. To find it, search online with the keywords “children’s poetry archive.” You will also need to locate a written version of each poem you choose and make a copy for each student. For more information, view the “Finding, Organizing, and Presenting Online Information” tutorial (AV43).

poem, facilitate a discussion about the differences between the oral presentation of the poem and the written poem. Ask questions such as:

- Q *What did you notice about the way the poet read the poem?*
- Q *Do you understand or like the poem better after hearing it read aloud? Why?*
- Q *Which do you prefer: reading a poem yourself or hearing the poem read aloud? Why?*

If time permits, you might repeat this activity using another poem.

# Day 4

## Independent Strategy Practice

### Materials

- Small self-stick notes for each student
- *Student Response Book* page 48
- Copy of this unit's family letter (BLM1) for each student

### In this lesson, the students:

- Read independently
- Make inferences
- Contribute to group work
- Include everyone in the work and discussions

### 1 Prepare to Read Independently

Have the students bring their *Student Response Books*, pencils, and poems or narrative stories for independent reading and gather in their groups of four, facing you. Remind the students that yesterday they practiced visualizing to understand their independent reading. Explain that today they will practice making inferences in their independent reading. They will read independently and then reread while paying attention to the inferences they are making.

### 2 Read Independently Without Stopping

Ask the students to use self-stick notes to mark the places where they begin reading, and have them read independently for 15 minutes.

### 3 Prepare to Reread and Infer

After 15 minutes, stop the students and explain that they will reread, starting again at their self-stick notes. As they reread, they will use other self-stick notes to mark words or sentences that help them make inferences. Remind them that an inference is something a reader figures out from clues in a text. Explain that later they will use a double-entry journal to record their clues and inferences.

## 4 Reread Independently and Mark Clues

Have the students reread independently for 15 minutes, marking inferences as they read. Circulate and look for evidence that the students are identifying places where they make inferences. As you notice individual students marking text, probe their thinking about their reading.

If a student is reading poetry, ask the student questions such as:

- Q *What do you think the poem is about?*
- Q *What clues helped you figure that out?*

If a student is reading narrative text, ask the student questions such as:

- Q *What is happening in the story right now?*
- Q *What do you know about [a character/the setting/what is happening] from what you just read?*
- Q *Is that stated directly in the text? If not, what clue or clues tell you what you know?*

### Students might say:

"This is a poem about a house that's been boarded up for a long time. The poem says that the house 'doesn't know night from day.' I think that means that it's always dark inside the house now because of the boards on the windows."

"This part of the story tells about the grandfather's trip to America. I inferred that the grandfather took three weeks to get to America by ship. It isn't stated directly, but I figured it out because it says 'he didn't see land for three weeks.'"

Signal to let the students know when it is time to stop reading.

## 5 Use a Double-entry Journal to Record Clues and Inferences

Remind the students that yesterday they used a double-entry journal to record places where they visualized. Explain that today they will use a double-entry journal to record places where they made inferences.

Have the students turn to *Student Response Book* page 48, "Double-entry Journal About \_\_\_\_\_," and have each student write the title of the text she is reading on the blank line. Then ask each student choose one or two places she marked in her independent reading, write the words or sentences in the "What I Read" column of the journal, and write the inference she made in the "What I Inferred" column. Tell the students that they will use their double-entry journals to discuss their inferences in groups and with the class.

Have any student who did not identify any inferences choose an interesting sentence from his reading and write about it. He will write the sentence in the "What I Read" column of the journal and his thoughts in the "What I Inferred" column.

### Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit's Individual Comprehension Assessment.

### Teacher Note

Be aware that the ability to know when one is making an inference is a kind of thinking that develops in students over time. Many students will be able to make inferences but lack the metacognition to identify them as inferences. This is to be expected. The important thing is that the students are always working to make sense of the texts they read.

### Teacher Note

This is the last week in Unit 5. In Unit 6, the students will continue to focus on making inferences in fiction as well as in narrative and expository nonfiction books. If you feel your students would benefit from more experience with poetry before moving on, you might give the class additional instruction by repeating Days 1 and 2 of this week using alternative poems. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

### Vocabulary Note

Next week you will revisit “Grounded” and “The Watcher” to teach the Week 16 vocabulary lessons.

### Teacher Note

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on the next page.

### Technology Tip

For more information about creating audio recordings, view the “Creating Audio and Video in the Classroom” tutorial (AV50).

## 6 Discuss the Students’ Clues and Inferences in Groups and as a Class

Use “Heads Together” to have the students talk about the inferences they recorded. Then have a few volunteers share their journal entries with the class. Probe the students’ thinking by asking:

- Q *What was happening in the text when you made the inference?*
- Q *How did the clue help you make the inference?*

Explain that in the coming weeks the students will have more opportunities to think about making inferences as they listen to and read texts.

## 7 Discuss Working Together

Let the students know that they will be assigned new partners and groups before the next lesson. Facilitate a discussion about how partners and group members worked together over the past few weeks. Ask:

- Q *What did you like about working with your partner over the past few weeks? Tell your partner that now.*
- Q *What did you like about how your group has worked together this week? Tell your group members now.*

## TECHNOLOGY EXTENSION

### Record and Listen to Poems

You might have the students create audio (voice) recordings of themselves reading the poems they heard throughout the unit, poems they have discovered on their own during IDR, or poems they have written themselves. Show the students how to record their voices using a smartphone, computer, tablet, or other recording device.

Before recording, have the students practice reading the poems aloud several times until they can read them smoothly. Remind them to speak loudly and clearly so their voices can be heard in the recordings. Play the recordings for the class and ask questions such as:

- Q *Why is it important to practice reading a poem aloud before you record it?*
- Q *What did you enjoy most about recording a poem? What was challenging, or difficult, about it?*
- Q *What did you enjoy about listening to the poems?*
- Q *Which do you prefer: reading a poem silently to yourself or listening to a poem read aloud? Why?*

Alternatively, have the students post the recordings on the class blog, along with the last two questions above, and invite classmates, family members, and other members of the school community to listen to the recordings and write responses to the questions.

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of Unit 5. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit’s family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

### Assessment

- Before continuing on to the next unit, take this opportunity to assess individual students’ reading comprehension using the “Individual Comprehension Assessment” record sheet (IA1); see page 72 of the *Assessment Resource Book*.

### Technology Tip

For more information about setting up and maintaining a class blog, view the “Using Blogs in the Classroom” tutorial (AV45).

# Making Meaning<sup>®</sup>

THIRD EDITION

## The Collaborative Classroom

The Collaborative Classroom differs from traditional learning environments in that students and teachers work together on shared academic and social goals.

The Collaborative Classroom is an intentional environment in which collaboration goes beyond conventional cooperation and compliance. Students become caring members of a learning community who take responsibility for their own learning. As students think, talk, and share ideas, they come to value the thinking of others. They become thoughtful readers and engaged speakers and listeners. They discuss and debate big ideas with respect, clarity, and understanding.

## Making Meaning in a Collaborative Classroom

The *Making Meaning* program embodies the practices of the Collaborative Classroom.

Students in *Making Meaning* classrooms demonstrate:

- Close reading of varied, complex texts
- Strategies for unlocking word meanings
- Deeper understanding of content
- Ownership of their own learning
- Intrinsic motivation to remain on task
- Improved self-esteem
- An increase in academic performance

*"I love how authentic the lessons and focus strategies are. It's what good readers, listeners, and community members do in real life."*

— Monica McCurry, grade 4 teacher

# Unit 6

# Making Inferences

## FICTION, EXPOSITORY NONFICTION, AND NARRATIVE NONFICTION

During this unit, the students make inferences to understand characters and continue to use text structure to explore narrative text. They also use schema to articulate all they think they know about a topic before they read, and they make inferences to help them understand why something happens or what causes an event to happen as it does in nonfiction. During IDR, the students think about the comprehension strategies they use to make sense of their independent reading, think about the inferences they make as they read, and continue to confer with the teacher individually about the books they are reading. Socially, they continue to practice the skills of using clarifying questions and statements and including everyone in and contributing to the group work.

# Unit 6 Making Inferences

## RESOURCES

### Read-alouds

- *Amelia's Road*
- *Peppe the Lamplighter*
- *Coming to America*
- *A Picture Book of Harriet Tubman*

### Writing About Reading Activities

- “Compare First- and Secondhand Accounts of Immigrants’ Experiences on Ellis Island”
- “Write About Harriet Tubman”

### Technology Mini-lesson

- Mini-lesson 3, “Showing Respect Online”

### Technology Extensions

- “Create Virtual Treasure Boxes and Make Inferences”
- “Learn More About Ellis Island”

### Extensions

- “Discuss Family Backgrounds”
- “Read the Rest of *Coming to America*”
- “Read More About the Underground Railroad”

### Assessment Resource Book

- Unit 6 assessments

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this unit.

### Whiteboard Activities

- WA1–WA15

### Assessment Forms

- “Class Assessment Record” sheets (CA1–CA4)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

### Reproducibles

- Unit 6 family letter (BLM1)
- (Optional) “First- and Secondhand Accounts of Immigrants’ Experiences on Ellis Island” (BLM2)
- (Optional) “Harriet Tubman” (BLM3)

### Professional Development Media

- “Using ‘Group Brainstorming’” (AV11)
- “Avoid Repeating or Paraphrasing” (AV24)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)
- “Using Blogs in the Classroom” tutorial (AV45)
- “Using Web-based Maps and Related Tools” tutorial (AV49)
- “Creating Audio and Video in the Classroom” tutorial (AV50)

## RESOURCES (continued)

### Student Response Book

- “Excerpt from *Amelia’s Road*”
- “Excerpt from *Peppe the Lamplighter*”

# Week 1

## OVERVIEW

### ***Amelia's Road***

by Linda Jacobs Altman, illustrated by Enrique O. Sanchez

Amelia Martinez, a child of migrant workers, fulfills her dream of finding a place to call her own.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### **Whiteboard Activities**

- WA1–WA4

#### **Assessment Forms**

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)

#### **Professional Development Media**

- “Avoid Repeating or Paraphrasing” (AV24)
- “Using Blogs in the Classroom” tutorial (AV45)
- “Creating Audio and Video in the Classroom” tutorial (AV50)

### Comprehension Focus

- Students make inferences to understand characters.
- Students continue to use text structure to explore a fiction story.
- Students read independently.

### Social Development Focus

- Students analyze the effect of their behavior on others and on the group work.
- Students develop the skills of using clarifying questions and statements and including everyone in and contributing to the group work.

## ⌚ DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class.
- ✓ Make available fiction, expository nonfiction, and narrative nonfiction texts at a variety of levels for the students to read during IDR and Independent Strategy Practice throughout the unit.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during the unit. Also decide how you will assign pairs to work in groups of four throughout the unit.
- ✓ Prior to Day 1, make a class set of “IDR Conference Notes” record sheets (CN1); see page 89 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA1); see page 82 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 16 lessons this week.

### Materials

- *Amelia's Road*
- “Thinking About My Reading” chart
- “Reading Comprehension Strategies” chart
- Class set of “IDR Conference Notes” record sheets (CN1)
- *Assessment Resource Book* page 86

### TEKS 8.D.i

Student/Teacher Narrative Step 2 (all, on page 348) and Step 3 (second discussion question on page 349)

### ELL Note

English Language Learners may benefit from periodic stops during the reading to briefly discuss what is happening in the story. Possible stops are at the bottom of pages 7, 14, and 23.

### In this lesson, the students:

- Begin working with new partners and groups
- Hear and discuss a fiction story
- Discuss setting and plot
- Read independently for up to 30 minutes
- Include everyone in the discussions and contribute to the group work

## 1 Pair and Group Students and Review “Heads Together”

Randomly assign partners and make sure they know each other’s names. Then assign pairs to groups of four and have them gather, facing you. Explain that for the next four weeks, they will work with these assigned partners and groups.

Remind the students that they learned how to use “Heads Together” the previous week. Review that the purpose of using “Heads Together” is to hear the thinking of several other people and practice sharing their thinking in a group. Use “Heads Together” to discuss:

**Q** *What did you learn in your last group that might help your new group work together well? Heads together.*

Have a few groups share what they talked about, and explain that this week you would like the students to continue to focus on contributing to and including everyone in the group discussion. Point out that it is every student’s responsibility to participate in the discussion, and it is every group’s responsibility to make sure all the members feel welcome to participate. Tell the students that you will check in on how they did at the end of the lesson.

## 2 Introduce *Amelia's Road*

Remind the students that they have been making inferences to better understand stories they hear and read. Explain that this week they will continue to explore making inferences and they will revisit story elements: character, setting, conflict or problem, plot, and theme.

Show the cover of *Amelia's Road* and read the title and the names of the author and the illustrator aloud. Explain that the main character in the story is Amelia Martinez, who is the daughter of migrant farm workers. Explain that migrant farm workers move from farm to farm throughout the harvest season to find work gathering crops. Often, children like Amelia work in the fields alongside their parents.

### 3 Read Aloud

Read the book aloud, showing the illustrations. Clarify vocabulary as you read.

#### Suggested Vocabulary

**grim:** gloomy, unpleasant (p. 5)

**shanties:** small, poorly built cabins (p. 5)

**bruise the fruit:** cause a dark spot to form on the skin of the fruit (p. 12)

**wondrous:** amazing (p. 18)

**most permanent:** longest lasting (p. 18)

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**tidy:** neat and clean (p. 7)

**settle down:** live in one place (p. 8)

**harvest:** the gathering of crops (p. 11)

**shortcut back to camp:** quicker way of getting home (p. 16)

**freshly turned ground:** ground that had recently been dug up (p. 27)

### 4 Discuss the Story in Groups and as a Class

After the reading, have the students use “Heads Together” to discuss the story. Remind them to focus on ways to include everyone in the group work. Ask:

**Q** *What is the plot of the story? What happens to the characters in this story? Heads together.*

**Q** *Is the setting (time and place) an important part of this story? Why do you think so? Heads together.*

After a few minutes, signal for the students’ attention and have a few volunteers share what their groups discussed.

#### Students might say:

“The setting is important because the story takes place where migrant workers work, maybe California or Texas.”

“I think the setting is important because the story is about migrant workers and how they move from farm to farm to work. It wouldn’t make sense for the story to happen in a city or in a desert.”

Facilitate interaction among groups and students during the class discussion using the questions that follow. Be ready to reread passages from the text and show illustrations again to help the students recall what they heard.

#### Teacher Note

The pages of *Amelia’s Road* are unnumbered. For easy reference, pencil in page numbers, beginning with the number 1 on the right-hand title page that includes the author’s name. (Page 4 begins “Amelia Luisa Martinez hated roads.”) This system is used for all read-alouds with unnumbered pages.

#### Teacher Note

As groups talk, circulate among them and note groups in which all members are participating well and groups in which only some members are participating. Be ready to share your observations at the end of the lesson.

**Q** Who will confirm [Teresa's] thinking by repeating back what you heard her say?

**Q** Do you agree or disagree with what [Teresa] just said? Why?  
*Heads together.*

Have a few volunteers share what their groups discussed. Explain that the students will make inferences about *Amelia's Road* tomorrow.

## **5** Discuss "Heads Together"

Facilitate a brief discussion about how the students did contributing to and including everyone in their group discussions. Ask:

**Q** Was it easy or difficult for you to contribute to your group's discussion? Why?

**Q** What might make it difficult for a group member to contribute? What can groups do to make sure everyone feels comfortable contributing?

Without mentioning any of the students' names, share examples you observed of groups in which all members were participating well and groups in which only some members were participating. Also describe any problems you noticed and follow up with questions such as:

**Q** Why is it important for everyone's ideas to be heard?

**Q** Whose responsibility is it to make sure everyone in the group participates?

**Q** What can you do to make sure all members of the group are involved in the discussion?

# INDIVIDUALIZED DAILY READING

## **6** Review and Practice Self-monitoring and "Fix-up" Strategies

Refer to the "Thinking About My Reading" chart and review the questions. Remind the students that it is important to stop, think about what they are reading, and use the questions on the chart to help them monitor their comprehension. If a student does not understand what he is reading, the student should use one or both of the "fix-up" strategies of rereading and reading ahead. If a student has tried both of the "fix-up" strategies and still does not understand the text, he can try the strategies listed on the "Reading Comprehension Strategies" chart. Alternatively, the student might ask you or a classmate for help.

Have the students get their texts and read silently for up to 30 minutes. Stop them at 10-minute intervals and have them monitor their comprehension by thinking about the questions on the "Thinking About My Reading" chart.

After the students have settled into their reading, confer with individual students.

### **ELL Note**

To support your English Language Learners, consider modeling reading a text and stopping periodically to ask yourself the self-monitoring questions listed on the chart. Discuss each question with your students to make sure they understand the process.

## IDR CONFERENCE NOTE

Beginning today, and continuing throughout the unit, confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 86) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 89 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Facilitate a class discussion about using the questions on the “Thinking About My Reading” chart to track their reading comprehension. Ask and briefly discuss questions such as:

- Q *Why is it important to stop as you are reading to ask yourself if you understand what you have read?*
- Q *How do rereading and reading ahead help you make sense of text?*
- Q *Which comprehension strategy do you find the most helpful when you’re not understanding something you’re reading? Why?*

Have the students return to their desks and put away their texts.

### Teacher Note

Provide time on a regular basis for the students to record the books they have completed in their reading logs.

## Guided Strategy Practice

## Day 2

### In this lesson, the students:

- Hear a fiction story again
- Make inferences about a character as they hear the story
- Discuss character and conflict or problem
- Read independently for up to 30 minutes
- Confirm one another’s thinking and use clarifying questions and statements
- Contribute to group work

### 1 Review Confirming One Another’s Thinking and Using Clarifying Questions and Statements

Have the students gather in their groups of four, facing you. Direct the students’ attention to the “Clarifying Questions and Statements” chart and briefly review that several weeks ago the students learned to use

### Materials

- *Amelia’s Road*
- “Clarifying Questions and Statements” chart from Unit 5
- “Clues for Making Inferences in *Amelia’s Road*” chart (WA1)
- “Reading Comprehension Strategies” chart

clarifying questions and statements when they did not understand what their partners said. Explain that you would like them to practice this in their groups today.

Briefly discuss the kinds of questions and statements the students have used to clarify what others said.

## 2 Highlight Clues for Making Inferences in *Amelia's Road*

Show the cover of *Amelia's Road* and remind the students that they heard the story yesterday. Display the “Clues for Making Inferences in *Amelia's Road*” chart (🗨️ WA1) and read the chart title aloud. Explain that these are sentences in the story from which a reader can infer how Amelia feels.

### Teacher Note

You may want to remind the students that when they *infer*, or *make inferences*, they use clues from the story to figure out something that is not stated directly.

### Clues for Making Inferences in *Amelia's Road*

“Amelia sighed. Other fathers remembered days and dates. Hers remembered crops.”

“There, where the accidental road ended, stood a most wondrous tree. It was old beyond knowing, and quite the sturdiest, most permanent thing Amelia had ever seen.”

“For the first time in her life, she didn't cry when her father took out the road map.”

WA1

Read the sentences aloud. Then explain that you will read the story aloud again and that you will stop after each of these passages and have the students use “Heads Together” to talk about Amelia's feelings. Remind the students to confirm one another's thinking and to use clarifying questions and statements during their group discussions.

## 3 Reread *Amelia's Road* and Use “Heads Together” to Make Inferences

Read the story aloud slowly and clearly. Stop after:

**p. 11** “Amelia sighed. Other fathers remembered days and dates. Hers remembered crops.”

Reread the first passage on the chart and then have the students use “Heads Together” to discuss:

**Q** *What can you infer (figure out) about how Amelia is feeling from this passage? Heads together.*

Have one or two groups report their inferences for the passage and the clues in the passage or story that helped them to make the inferences.

### Teacher Note

Hearing from only one or two groups at each stop will keep the lesson moving.

**Students might say:**

"We think that Amelia is probably angry at her dad because he can't remember her birthday. All he does is think about the crops and his work."

"We think that Amelia feels sad because her father doesn't remember her birthday. She might feel like the crops are more important to her father than she is."

If groups disagree significantly on inferences that make sense for the passage, discuss this before continuing with the lesson. Ask the students to refer to the text to support their opinions, and ask probing questions such as:

- Q** *What do you think Amelia is thinking at that moment? Why does that make sense?*
- Q** *What do Amelia's actions tell you about how she feels? Explain your thinking.*

Then reread the last sentence before the stop and continue reading to the next stop. Follow this procedure at the stops that follow. Do not spend too long at any one stop.

- p. 18** "There, where the accidental road ended, stood a most wondrous tree. It was old beyond knowing, and quite the sturdiest, most permanent thing Amelia had ever seen."
- p. 31** "For the first time in her life, she didn't cry when her father took out the road map."

## 4 Discuss Character and Conflict as a Class

Facilitate a class discussion about character and conflict in the story. As volunteers share their ideas, prompt the students to confirm one another's thinking and to use clarifying questions and statements. Ask:

- Q** *What conflict or problem does Amelia face in Amelia's Road? Does she solve the problem? How?*

**Students might say:**

"Amelia is frustrated because she moves all the time. When she finds the tree, she feels better because now she has a place to come back to—sort of a home."

"I agree with [Lauren]. I don't think Amelia feels like she belongs anywhere until she buries the box. The box is a record of her life."

- Q** *How does Amelia change in the story? What in the story makes you think that?*

As the students discuss the conflict and the change in Amelia's personality, point out that they are making inferences to help them make sense of these important elements of the story. Explain that in the next lesson they will continue to make inferences about

### Facilitation Tip

During this unit, we encourage you to **avoid repeating or paraphrasing** the students' responses. It is easy to habitually repeat what students say when they speak too softly or to paraphrase them when they do not express themselves clearly. This teaches students to listen to you but not necessarily to one another. Encourage the students to take responsibility by asking one another to speak up or by asking a question if they do not understand what a classmate has said. To see this Facilitation Tip in action, view "Avoid Repeating or Paraphrasing" (AV24).

### Teacher Note

You might prompt the students by asking:

- Q** *What did you hear [Sandeep] say? Did [Mattie] get it right, [Sandeep]?*
- Q** *What questions do you want to ask [Sandeep] about what he said?*

*Amelia's Road*. Remind the students that one of the goals of studying inferences is for them to become more aware of when they are making inferences as they read independently.

## 5 Reflect on Confirming and Clarifying Thinking During “Heads Together”

Briefly discuss how the students did with “Heads Together” by sharing examples you observed of students clarifying one another’s thinking and by asking groups to share examples. Ask:

**Q** *What do you think we can do better the next time we use “Heads Together”?*

## INDIVIDUALIZED DAILY READING

## 6 Review the “Reading Comprehension Strategies” Chart and Read Independently

Direct the students’ attention to the “Reading Comprehension Strategies” chart and remind them that these are the comprehension strategies they have learned so far this year. Ask them to notice which strategies they use and where they use them during their independent reading today. Tell the students that at the end of IDR, you will ask them to share the strategies they used with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 86) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 89 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their reading with the class. Have each volunteer start by telling the title of the text he is reading, the author’s name, and what the text is about. Then have him share the name of a strategy he used and where in the text he used it. Have students who cannot think of a comprehension strategy they used talk about what they read.

Have the students return to their desks and put away their texts.

## In this lesson, the students:

- Hear, read, and discuss part of a fiction story
- Make inferences to understand a character's actions
- Discuss theme
- Read independently for up to 30 minutes
- Use clarifying questions and statements
- Include everyone in the discussions and contribute to the group work

## 1 Review Working in Groups of Four

Have the students bring their *Student Response Books* and pencils and gather in their groups of four, facing you. Explain that the students will work in their groups of four again today and that you would like them to continue to focus on making sure everyone is participating and on confirming and clarifying one another's thinking during their group discussions.

## 2 Use "Heads Together" to Make Inferences About Amelia's Actions

Show the cover of *Amelia's Road* and remind the students that in the previous lesson they heard parts of *Amelia's Road* again and made inferences about Amelia's feelings. Explain that today they will hear and read a key part of the story and make inferences to think about Amelia's actions.

Read pages 24–27 aloud. Then have the students think quietly about the following questions:

Q *Why is Amelia making a treasure box?*

Q *Why does she bury the box near the tree?*

Without discussing the questions, have the students turn to *Student Response Book* page 49, "Excerpt from *Amelia's Road*." Explain that this is the part of the story you just read aloud. Display the "Directions" chart (WA2) and explain the directions on it.

## Materials

- *Amelia's Road* (pages 24–27)
- *Student Response Book* page 49
- "Directions" chart (WA2)
- "Class Assessment Record" sheet (CA1)
- "Excerpt from *Amelia's Road*" chart (WA3)
- "Reading Comprehension Strategies" chart

## ELL Note

English Language Learners may benefit from extra support to make sense of the excerpt. Show and discuss the illustrations on pages 24–27 again and then read the excerpt aloud as the students follow along, stopping intermittently to talk about what is happening. The students may benefit from explanations of:

- "Amelia-things"
- "accidental road"
- "freshly turned ground"

## Teacher Note

Have students who are unable to read the excerpt on their own read it quietly aloud with a partner, or you might read it aloud yourself as the students follow along. Then have them go back and underline the clues in the passage.

### Directions

1. Reread the excerpt quietly to yourself.
2. Underline passages that help you answer these questions:
  - Why is Amelia making a treasure box?
  - Why does she bury the box near the tree?
3. Use “Heads Together” to talk about the passages you underlined and what you inferred about Amelia’s actions.

Before the students begin, briefly discuss:

**Q** *If you finish reading the excerpt before others in your group are ready to talk, what can you do?*

As the students work individually and in their groups of four, circulate and ask them the following questions to help them think about the inferences they are making and clarify their thinking:

**Q** *You underlined [“She set to work at once, filling it with ‘Amelia-things’”]. What did you infer from that sentence about why Amelia is making the treasure box? Why does that inference make sense based on other things you know about her?*

**Q** *Do other group members agree or disagree with [Leslie Ann] that this sentence helps to explain why Amelia makes the treasure box? What other sentences help you understand her reasons for making the box? Explain your thinking.*

**Q** *What question do you want to ask [Leslie Ann] to better understand what she’s thinking?*

As you circulate among groups, notice which passages the students underline.

### CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students underlining passages that give clues about the reasons for Amelia’s actions?
- Do their inferences about Amelia’s actions make sense?

*(continues)*

## CLASS ASSESSMENT NOTE *(continued)*

Record your observations on the “Class Assessment Record” sheet (CA1); see page 82 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify clues about Amelia’s actions that make sense, proceed with the lesson and continue on to Independent Strategy Practice on Day 4.
- If **about half of the students** are able to identify clues about Amelia’s actions that make sense, proceed with the lesson and continue on to Independent Strategy Practice on Day 4. Plan to check in with students who are having difficulty making inferences during independent reading.
- If **only a few students** are able to identify clues about Amelia’s actions that make sense, you might give the class additional instruction by repeating Days 1, 2, and 3 of this week using an alternative text before continuing on to Day 4. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

### 3 Discuss Inferences as a Class

When most groups have finished, display the “Excerpt from *Amelia’s Road*” chart (WA3). Review that you asked the students to think about two questions: “Why does Amelia make a treasure box?” and “Why does she bury the box near the tree?”

Have a few volunteers share the passages their groups underlined to help them answer the questions and what they inferred about Amelia’s actions. Underline the passages on the chart as each student responds. Facilitate a discussion among the students by asking:

**Q** *Do you agree or disagree with what [Jamil] and his group shared? Why?*

Point out that preparing and burying the treasure box is an important turning point in the story because that is when Amelia’s feelings about her migrant life begin to change. Ask:

**Q** *How does making and burying the treasure box help Amelia to feel different about her life?*

#### Students might say:

“I think the box is like a record of her life. If someone finds it someday, they’ll know there was this kid named Amelia and she had a family.”

“In addition to what [Hannah] said, we inferred yesterday that Amelia is sad because she doesn’t have a home. Burying the box near the tree makes that spot her own.”

“I agree with [Diego]. It’s like she leaves a part of herself near the tree.”

Point out that characters in stories behave as they do for different reasons and that sometimes readers must infer the reasons. Explain that tomorrow the students will practice making inferences about characters in their own books.

#### 4 Discuss Theme

Remind the students that most stories have one or more *themes*, or messages or lessons the author wants readers to think about. Use “Heads Together” to briefly discuss:

**Q** *What is a theme the author of Amelia’s Road wants us to think about? Heads together.*

**Q** *What can we learn from Amelia’s story that we might be able to apply to our own lives? Heads together.*

Have a few volunteers share what their groups discussed.

##### Students might say:

“I think one theme is that we should be grateful for what we have even if it isn’t exactly what we want.”

“I learned that you can find happiness in small things, like finding a special place to be.”

“We can learn that you can make a person feel like she belongs just by learning her name and finding out a little bit about her.”

Remind the students that by thinking about what they can learn from a story, they are exploring the story’s themes.

#### 5 Reflect on Taking Responsibility During Group Work

Give the students an opportunity to think about how they did today with confirming and clarifying one another’s thinking, contributing to the group work, and including everyone in group discussions. Ask:

**Q** *What did you personally contribute to your group’s discussion today? How do you think that helped your group?*

Invite a few volunteers to share their ideas.

## INDIVIDUALIZED DAILY READING

#### 6 Read Independently and Discuss the Comprehension Strategies the Students Used

Direct the students’ attention to the “Reading Comprehension Strategies” chart and ask them to notice which strategies they use and where they use them during their independent reading today. Tell the students that at the end of IDR, you will ask them to share the strategies

they used with partners. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 86) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 89 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share what they read with partners. Have each student start by telling her partner the title of her text, the author’s name, and what the text is about. Then have each student share the name of a strategy she used and where in the text she used it. Have students who cannot think of a comprehension strategy they used talk about what they read. Have the students return to their desks and put away their texts.

## TECHNOLOGY EXTENSION

### Create Virtual Treasure Boxes and Make Inferences

Show the cover of *Amelia’s Road* and remind the students that Amelia, the main character in the book, prepares a treasure box filled with things that are important to her. Read page 24 aloud. Ask:

**Q** *If you found Amelia’s box, what could you infer about her from what she put inside it?*

**Students might say:**

“I could infer that Amelia is a girl. I would figure that out from the name tag and the hair ribbon.”

“I could infer that she cares about her family. That might be why she includes the picture in the box.”

“I could infer that she wants people to know that the tree is her special place. I think she includes the map and names the road ‘Amelia Road’ so that she will always have a place where she belongs.”

**Q** *If you were to create your own treasure box, what would you put in it? Why?*

### Technology Tip

This activity invites the students to create virtual treasure boxes by making videos and posting them to a class blog. To learn more about creating videos with your students, view the

“Creating Audio and Video in the Classroom” tutorial (AV50).

To learn more about using blogs, view the “Using Blogs in the Classroom” tutorial (AV45).

### Technology Tip

Alternatively, you might have each student take photos of the items on his list, write a caption for each photo, and create a slideshow with the photos and captions.

### Technology Tip

To help your students learn how to participate respectfully in online communities, you might teach Technology Mini-lesson 3, “Showing Respect Online” (found in Appendix B).

Give the students a few moments to make lists of the things they would put in their treasure boxes. Tell the students that instead of collecting these items and putting them in actual boxes, they are going to create virtual treasure boxes. Encourage each student to bring a few of the items on his list to school. (If necessary, facilitate a discussion about what items are appropriate to bring to school and what items are not.) Then have each student create a video that shows his items and includes a narration explaining what each item is. Provide a place on your class blog for the students to upload their videos.

Invite the students to visit the blog and watch the videos. Encourage them to think as they watch about what they are learning about the creator of each video and whether what they are learning is stated directly or whether they have inferred it from clues.

Encourage the students to post comments about the videos on the blog. Prior to allowing the students to post comments about the videos, facilitate a discussion about being respectful online.

# Day 4

## Independent Strategy Practice

### Materials

- Assorted fiction or narrative nonfiction texts for independent reading, collected ahead
- Small self-stick note for each student
- “Questions to Use When Making Inferences About Characters” chart (WA4)

### In this lesson, the students:

- Read independently
- Make inferences to understand characters
- Use clarifying questions and statements

### 1 Review the Week

Have each student bring a fiction or narrative nonfiction story for independent reading, and have the students gather with partners sitting together, facing you. Remind them that this week they heard *Amelia’s Road* and explored the story and Amelia’s feelings and actions by making inferences. Explain that today they will practice making inferences about characters in their independent reading and that they should be reading books that are about characters or real people.

### 2 Read Independently Without Stopping

Tell the students that they will read for 15 minutes and then reread while thinking about inferences they might be making about characters. Distribute a self-stick note to each student. Ask the students to use the self-stick notes to mark where they begin reading today. Have them read independently for 15 minutes.

### 3 Prepare to Make Inferences About a Character

After 15 minutes, stop the students and display the “Questions to Use When Making Inferences About Characters” chart (WA4). Tell the students that they will now reread what they just read, starting again at their self-stick notes. Ask them to think about the questions on the chart as they read. Read the questions aloud.

#### Questions to Use When Making Inferences About Characters

- What do you know about the main character, or one of the main characters, in your story?
- Is that stated directly in the text? How?
- If it is not stated directly, what clue or clues tell you what you know?

WA4

Tell the students that you will stop them every few minutes as they read to think about these questions and talk with their partners.

### 4 Reread Independently and Talk in Pairs

Have the students reread independently for 15 minutes. Stop them at 5-minute intervals. At each stop, ask one question from the chart at a time and pause after each question to give the students time to think. After they have thought about all three questions, have them take turns discussing their thinking with their partners. Remind the students to use clarifying questions and statements if they do not understand their partners’ thinking.

As partners talk, circulate among them and notice whether they recognize both meanings that are stated directly and meanings they have inferred in their books. Ask individual students questions such as:

- Q** *What do you know about this character? How do you know those things? Are those things stated directly, or are you inferring them from clues? What clues?*

### 5 Discuss Inferences as a Class

After the students have talked with their partners, have several volunteers share with the class what they read and what they inferred about the characters in their stories. Have each student share the title of her text, the author’s name, and what the text is about. Prompt the student by asking:

- Q** *What is one thing you know about a character in your book?*
- Q** *Is that stated directly or indirectly in the text? Read us the passage where it is stated directly or where a clue helped you make an inference.*

#### ELL Note

You might want to model this activity for your English Language Learners.

#### Teacher Note

You will use the “Questions to Use When Making Inferences About Characters” chart (WA4) again in Week 2.

#### Teacher Note

If you notice that many students are having difficulty making inferences about characters or distinguishing between meanings that are stated directly and meanings they have inferred, you might bring the class together and model the process again using a text of your own.

### Vocabulary Note

Next week you will revisit *Amelia's Road* to teach the Week 17 vocabulary lessons.

Q *What did you hear [Alma] say about her book?*

Q *What do you want to ask [Alma] about her book or what she shared?*

## 6 Reflect on Partner Work

Facilitate a brief discussion about how partners worked together. Ask:

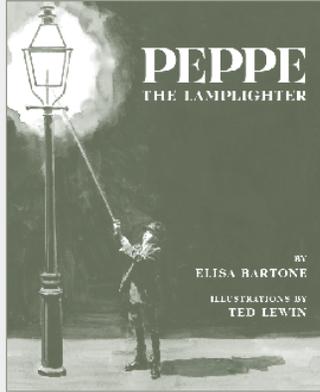

Q *What did you do today to make sure you understood your partner's thinking?*

Q *What would you like to do [the same way/differently] the next time you work with your partner? Why?*

# Week 2

## OVERVIEW

### *Peppe the Lamplighter*

by Elisa Bartone, illustrated by Ted Lewin

Peppe finds a job lighting street lamps in New York City to help support his large family.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA4–WA8

#### Assessment Forms

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheet (CN1)

### Comprehension Focus

- Students make inferences to understand a character.
- Students continue to use text structure to explore a fiction story.
- Students read independently.

### Social Development Focus

- Students develop the skill of confirming that they understand another person's thinking by repeating back what they heard.
- Students develop the skills of using clarifying questions and statements and including everyone in and contributing to the group work.

## ⌚ DO AHEAD

- ✓ Prior to Day 3, prepare a sheet of chart paper with the title “Peppe’s Personality.”
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2); see page 83 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 17 lessons this week.

# Day 1

## Read-aloud

### Materials

- *Peppe the Lamplighter*
- Small self-stick notes for each student

### Facilitation Tip

Continue to try to **avoid repeating or paraphrasing** the students' responses. Help them to learn to participate responsibly in class discussions by asking one another to speak up or by asking a question if they do not understand what a classmate has said. For special considerations for English Language Learners, see "Additional Strategies for Supporting ELLs" in the Introduction.

**ELPS 4.F.v**  
Step 2  
(all, beginning on page 366 and continuing on to page 367)

### ELL Note

You may want to explain that *challenges* are "things that are difficult." People often have to work hard to overcome challenges.

### In this lesson, the students:

- Hear and discuss a fiction story
- Discuss setting and plot
- Read independently for up to 30 minutes
- Include everyone in the discussions and contribute to the group work
- Confirm one another's thinking by repeating back what they heard

## 1 Review "Heads Together"

Have the students gather in their groups of four, facing you. Remind the students that they have been using "Heads Together" to discuss their thinking and that they are focusing on contributing to the group work and on including everyone in their group discussions. Ask:

- Q *What happens when some group members contribute to the group while others don't? Why is it important for each group member to contribute his or her thinking to the discussion?*
- Q *If you realize that only some members are contributing to the discussion in your group, what can you do?*

Have a few volunteers share their thinking. Tell the students that you will check in with them at the end of the lesson to see how they did working in their groups.

## 2 Review Making Inferences and Introduce *Peppe the Lamplighter*

Remind the students that last week they focused on making inferences to understand the character Amelia in *Amelia's Road*. Explain that this week they will continue to explore making inferences to understand characters and also to explore the story elements of setting and plot.

Show the cover of *Peppe the Lamplighter* and read the title and the names of the author and the illustrator aloud. Explain that this story takes place in New York City in the late 1800s. At that time, many families moved from countries like Italy to the United States, hoping for better living conditions. For many immigrants, life in the United States continued to be difficult. Use "Heads Together" to discuss:

- Q *What challenges do you think families might face when they move from one country to another? Heads together.*

Have a few volunteers share what they discussed in their groups with the class.

**Students might say:**

"They might not understand the language that is spoken there."

"It could be hard to find a job."

"People wouldn't know anyone in the new country and would have a hard time understanding what to do."

Show the cover of *Pepe the Lamplighter* again and explain that most neighborhoods did not have electricity at the time of the story, so streets were often lighted by gas lamps that were lit each night by lamplighters.

### 3 Read Aloud

Read the book aloud, showing the illustrations. Clarify vocabulary as you read.

#### Suggested Vocabulary

**tenement:** run-down, low-rent apartment building (p. 3)

**piecework:** work paid for by the number of items made (p. 14)

**embroider:** sew designs onto cloth (p. 16)

**Dov' è mia bambina?:** (Italian) Where is my little girl? (p. 22)

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**orphans:** children whose parents have died (p. 3)

**business has been slow:** people have not been buying meat (p. 4)

**anxious:** very eager (p. 11)

**Don't mind him:** Don't pay attention to him (p. 12)

**twilight:** sunset (p. 14)

**You'll never amount to anything:** (idiom) You won't have a good job when you grow up or be a man I can be proud of (p. 19)

**stubborn:** unwilling to change (p. 22)

**collected his things:** picked up his lamplighter's stick (p. 24)

#### ELL Note

English Language Learners may benefit from periodic stops during the reading to briefly discuss what is happening in the story. Possible stops are at the bottom of pages 9, 19, and 24.

**ELPS 4.F.iii**  
Step 3 (all, including ELL  
Note in green margin next to  
the step)

**TEKS 8.D.i**  
Student/Teacher Activity  
Step 4 (all, beginning on page  
367 continuing on to page 368)

### 4 Discuss the Story in Groups and as a Class

After the reading, have the students use "Heads Together" to discuss the story. Ask:

**Q** What is the plot of this story? What happens to the characters in this story? *Heads together.*

**Q** Is the setting (time and place) an important part of this story? Why do you think so? *Heads together.*

#### Teacher Note

As groups talk, circulate among them and note groups in which all members are participating and groups in which only some members are participating. Be ready to share your observations at the end of the lesson.

After a few minutes, signal for the students' attention and have a few volunteers share what their groups discussed.

**Students might say:**

"In this story, Peppe has to support his family because his mom is dead and his dad is sick. He gets a job lighting lamps, but his father is ashamed of him."

"The setting is important because it takes place long ago when there was no electricity."

Facilitate interaction among groups and students during the class discussion using the questions that follow. Be ready to reread passages from the text and show illustrations again to help the students recall what they heard.

**Q** *Who will confirm [Kenji's] thinking by repeating back what you heard him say?*

**Q** *Do you agree or disagree with what [Aria] just said? Why?*

Have a few volunteers share their thinking. Explain that the students will make inferences about *Peppe the Lamplighter* tomorrow.

## **5** Reflect on "Heads Together"

Facilitate a brief discussion of how the students did contributing to and including everyone in their group discussions during "Heads Together." Share examples of successes and problems you observed as the students worked in their groups of four.

# INDIVIDUALIZED DAILY READING

## **6** Read Independently and Practice Making Inferences

Explain that today the students will practice making inferences in their independent reading. Explain that each student will read his text for 15 minutes and then read the same section again and think about inferences he might make. Tell the students that at the end of IDR, they will discuss their inferences with the class.

Distribute self-stick notes to each student. Have the students get their texts, place self-stick notes where they start to read, and then read silently for 15 minutes. After the students have settled into their reading, confer with individual students.

### Teacher Note

Be aware that some books contain more opportunities to infer than others.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 86) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 89 of the *Assessment Resource Book*.

Stop the students after 15 minutes. Have each student place a self-stick note at the place where she stopped reading and then reread the same part of the text she just read. As the students reread, have them use additional self-stick notes to mark clues in the text that help them make inferences. After the students have settled into their reading, continue to confer with individual students.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer share the title of his text, the author’s name, and what the text is about. Then have him share any inferences he made and read aloud the passages that helped him make those inferences. If the student struggles to share inferences, probe his thinking by asking questions such as:

**Q** *What is happening in the part of the text that you read today? How do you know? Are those things stated directly, or are you inferring them from clues? What clues?*

Have the students return to their desks and put away their texts.

### Teacher Note

If the students struggle to make inferences, display the “Questions to Use When Making Inferences” chart (WA2) from Unit 5, Week 1, and encourage the students to think about the questions on the chart as they reread.

### Materials

- *Peppe the Lamplighter*
- “Clues for Making Inferences in *Peppe the Lamplighter*” chart (WA5)

### In this lesson, the students:

- Hear a fiction story again to build comprehension
- Make inferences about a character as they hear the story
- Discuss character change and theme
- Read independently for up to 30 minutes
- Include everyone in the discussions and contribute to the group work

### 1 Discuss Ways to Work More Effectively in Groups

Have the students gather in their groups of four, facing you. Explain that the students will work in their groups of four again today, and ask them to continue to focus on making sure everyone is participating and on clarifying one another’s thinking during their group discussions. Use “Heads Together” to discuss:

**Q** *What is one thing your group can do to work together better? Heads together.*

Have a few volunteers share what they discussed in their groups.

#### Students might say:

“We can go around the group and everyone can say one thing. That way we can hear from everyone.”

“We can make sure we all have our pencils sharpened before we start so we don’t have to wait for anyone.”

“We can start talking about the question right away, rather than talking about other things first.”

Then ask:

**Q** *How do you think [sharpening your pencils before you start] will help your group?*

**Q** *What will each group member need to do to make that happen?*

If the students do not have ideas for ways to work together more effectively, briefly offer some yourself, such as the ideas listed in the “Students might say” note or suggestions based on your recent observations of problems the groups are having.

Explain that you would like the groups to try their ideas and that you will check in with the groups at the end of the lesson to see how they did.

## 2 Highlight Clues for Making Inferences in *Peppe the Lamplighter*

Show the cover of *Peppe the Lamplighter* and remind the students that they heard the story yesterday. Display the “Clues for Making Inferences in *Peppe the Lamplighter*” chart (🌍 WA5). Explain that these are sentences in the story from which a reader can infer how Peppe feels.

### Clues for Making Inferences in *Peppe the Lamplighter*

“Peppe tugged gently on Assunta’s hair and smiled at them. But he did not really feel like smiling.”

“Peppe just lowered his eyes and didn’t answer. And from then on he rushed through the lighting of the lamps, sometimes forgetting which was which.”

“As Peppe walked, he held his head up, and his eyes were bright again.”

WA5

Read the sentences aloud. Then explain that you will read the story aloud again and that you will stop after each of these passages and have the students use “Heads Together” to talk about what they can infer about Peppe’s feelings.

## 3 Reread *Peppe the Lamplighter* and Use “Heads Together” to Make Inferences

Read the story aloud slowly and clearly. Stop after:

**p. 12** “Peppe tugged gently on Assunta’s hair and smiled at them. But he did not really feel like smiling.”

Reread the first passage on the chart and then have the students use “Heads Together” to discuss:

**Q** *What can you infer about how Peppe is feeling in this passage? Heads together.*

Have one or two groups report their inferences for the passage and explain what clues in the passage helped them make their inferences.

#### Students might say:

“We inferred that Peppe is trying not to be upset by what his father said about his job. The book says that Peppe tugged gently on his sister’s hair, which seems like he’s trying to be playful.”

“In addition to what [Jolene’s] group said, we inferred that Peppe is worried that his father doesn’t think being a lamplighter is a good enough job. It says that Peppe did not feel like smiling.”

#### ELL Note

You might prompt English Language Learners to begin their responses by saying “I can infer . . . .”

### Teacher Note

You might prompt the students by asking:

- Q *What did you hear [Mark] say? Did [Renata] get it right, [Mark]?*
- Q *Do you agree or disagree with what [Mark] said? Explain your thinking.*
- Q *What questions do you want to ask [Mark] about what he said?*

If groups disagree significantly on inferences that make sense for the passage, discuss this before continuing with the lesson. Ask the students to refer to the text to support their opinions, and ask probing questions such as:

- Q *What do you think Peppe is thinking at that moment? Why does that make sense?*
- Q *What do Peppe's actions tell you about how he feels? Explain your thinking.*

Then reread the last sentence before the stop and continue reading to the next stop. Follow this procedure at the stops that follow. Do not spend too long at any one stop.

**p. 20** "Peppe just lowered his eyes and didn't answer. And from then on he rushed through the lighting of the lamps, sometimes forgetting which was which."

**p. 29** "As Peppe walked, he held his head up, and his eyes were bright again."

## 4 Discuss Character Change as a Class

Facilitate a class discussion about character change in the story. As volunteers share their ideas, encourage the students to confirm one another's thinking and to use clarifying questions and statements. Ask:

- Q *How do Peppe's feelings about his job change during the story? Explain your thinking.*
- Q *How do the father's feelings about Peppe's job change? What in the story helps you infer that?*

After the discussion, point out that both Peppe's and his father's feelings must be inferred. Point out that many of the students naturally made these inferences and that they are learning to become more aware of when they are making inferences as they read. Being aware of making inferences will help them better understand and think about what they read.

## 5 Discuss Theme

Review that most stories have one or more themes, or messages or lessons that the author wants readers to think about. Use "Heads Together" to discuss:

-  Q *What is a theme the author of Peppe the Lamplighter wants us to think about? What can we learn from Peppe's story that we might be able to apply to our own lives? Heads together.*

Have a few volunteers share what their groups discussed.

**Students might say:**

"I think that a theme in the story is that you should be proud of what you do no matter what other people think—even if it's your dad."

"I learned that every job is important. Peppe's job is important because he helps light people's way home."

"I learned that you should be thankful for anything a person does to help you. Peppe's dad was more concerned about the kind of job Peppe was doing rather than the fact that Peppe was helping his family. It made Peppe feel bad, and he was embarrassed about his job when he shouldn't have been."

Remind the students that by thinking about what they can learn from a story, they are exploring the story's themes.

## 6 Reflect on Ideas for Working Together More Effectively

Give the students an opportunity to think about how they did today implementing their ideas for working together more effectively. Ask:

- Q *How did your group's idea for working together turn out?*
- Q *If your idea helped, how did it help? If it didn't help, why do you think it didn't help? What might you want to try next time?*

## INDIVIDUALIZED DAILY READING

### 7 Read Independently and Think About Inferences

Ask the students to think about inferences they are making as they read independently today. Tell the students that at the end of IDR, they will discuss their inferences with partners. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 86) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 89 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share with a partner the title of her text, the author's name, what the text is about, and any inferences she made. Circulate and listen as partners share. If students struggle to share inferences, probe their thinking by asking questions such as:

- Q *What is happening in the part of the text that you read today? How do you know? Are those things stated directly, or are you inferring them from clues? What clues?*
- Q *What is your book about? What do you think will happen next? Why do you think that?*
- Q *What are you learning about [a character] in your book? What parts of the text reveal those things about [that character]?*

Have the students return to their desks and put away their texts.

## Day 3

## Guided Strategy Practice

### Materials

- *Peppe the Lamplighter*
- “Peppe’s Personality” chart, prepared ahead, and a marker
- *Student Response Book* pages 50–51
- “Directions” chart (WA6)
- “Class Assessment Record” sheet (CA2)
- “Excerpt from *Peppe the Lamplighter*” chart (WA7)

**ELPS 4.F.iii**  
Step 2 and Step 3  
(all, beginning on page 374 and continuing on to page 375)

### In this lesson, the students:

- Read and discuss part of a fiction story
- Make inferences to understand a character in the story
- Read independently for up to 30 minutes
- Use clarifying questions and statements

### 1 Review Working with a Partner

Have the students get their *Student Response Books* and pencils and sit at desks with partners together. Explain that the students will work with their partners today, and ask them to continue to focus on confirming one another's thinking and using clarifying questions and statements.

### 2 Brainstorm About Peppe's Character

Remind the students that last week they made inferences to help them understand Amelia's feelings and actions in *Amelia's Road*. Explain that today they will continue to practice making inferences to help them understand characters.

Explain that authors rarely list a character’s personality traits. Instead, readers must infer what a character is like from what the character thinks, says, and does. Ask:

- Q How would you describe *Peppe*? Turn to your partner.
- Q Would you want *Peppe* for a friend? Why or why not? Turn to your partner.

Have a few volunteers share their thinking, and record their ideas on the “*Peppe’s Personality*” chart.

### Peppe’s Personality

- serious
- worried about his father
- responsible
- sad
- a hard worker
- a caring brother
- nice

Review the brainstormed list and ask:

- Q Which of these descriptions do you think are inferred, and which do you think are stated directly?

Invite a few volunteers to share their thinking.

### 3 Make Inferences About *Peppe*

Have the students turn to *Student Response Book* page 50, “Excerpt from *Peppe the Lamplighter*.” Explain that this is an excerpt from the book that contains information about the kind of person *Peppe* is. Display the “Directions” chart (WA6) and explain the directions on it.

#### ELPS 4.C.iv

#### Step 3

(all, beginning on page 375 and continuing on to page 376)

#### TEKS 6.F.ii

#### Student/Teacher Narrative

Step 3 and Step 4 (all, beginning on page 375–377)

#### Teacher Note

If necessary, review *Peppe the Lamplighter* by having a student summarize the story, showing the illustrations again, or reading various sentences from the story and having volunteers say what they remember about that part of the story.

#### Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit’s Individual Comprehension Assessment.

#### Teacher Note

Have students who are unable to read the excerpt on their own read it quietly aloud with a partner, or you might read it aloud yourself as the students follow along. Then have them go back and underline the clues in the passage.

### ELL Note

English Language Learners may benefit from extra support to make sense of the excerpt. Show and discuss the illustrations on pages 18–21 again; then read the excerpt aloud as they follow along. Stop intermittently during the reading to talk about what is happening.

### Directions

1. Read the excerpt quietly to yourself.
2. Reread the excerpt, underlining passages that reveal something abouteppe.
3. Turn to *Student Response Book* page 51, “Double-entry Journal About *Peppe the Lamplighter*.”
4. Choose a part you underlined in the excerpt, write the words or sentences in the “What I Read” column, and write the inference you made in the “What I Inferred” column.
5. If you have time, repeat Step 4 for another part you underlined.

As the students work individually, circulate and ask them the following questions to help them think about the inferences they are making:

- Q** *You underlined [“And from then on he rushed through the lighting of the lamps, sometimes forgetting which was which”]. What did you infer about Peppe from that sentence?*
- Q** *You wrote [I think that Peppe is embarrassed by his job]. Why does that inference make sense based on other things you know about him?*

As you circulate among the students, notice which passages they underline.

### CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students underlining passages that give clues about Peppe’s character?
- Do their inferences about Peppe make sense?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 83 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify clues about Peppe’s character that make sense, proceed with the lesson and continue on to Independent Strategy Practice on Day 4.
- If **about half of the students** or **only a few students** are able to identify clues about Peppe’s character that make sense, proceed with the lesson and continue on to Independent Strategy Practice on Day 4. Plan to check in with students who are having difficulty during independent reading by asking them questions such as:

**Q** *What did you read about today?*

**Q** *What is one thing you know about a character in your book? What clues told you that?*

## 4 Discuss Inferences About Peppe as a Class

When most students have finished, display the “Excerpt from *Peppe the Lamplighter*” chart (📄 WA7) and ask a few volunteers to share passages they underlined and what they inferred about Peppe. Underline the passages on the chart as each student responds. Facilitate a discussion among the students using questions such as:

- Q *Do you agree or disagree with what [Cheng] shared? Why?*
- Q *Some of you said that the passage “Soon he would not show his face outside the tenement” reveals that Peppe is ashamed of himself. Others inferred that he wants to quit lighting the lamps. What do you think? What evidence in the text supports your opinion?*

### Students might say:

“I think that Peppe wants to quit because it says that he rushes through lighting the lamps, and he forgets which ones he’s lit. I think he just doesn’t like doing it anymore.”

“I disagree with [Ramona]. I think Peppe has become more and more ashamed because his father doesn’t want him to light the lamps.”

## INDIVIDUALIZED DAILY READING

## 5 Read Independently and Think About Inferences

Ask the students to think about the inferences they are making as they read independently today. Tell the students that at the end of IDR, they will discuss their inferences with partners. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 86) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 89 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share with a partner the title of his text, the author’s name, what the text is about, and any inferences he made. Circulate and listen

as partners share. If students struggle to share inferences, probe their thinking by asking questions such as:

- Q *What is happening in the part of the text that you read today? How do you know? Are those things stated directly, or are you inferring them from clues? What clues?*
- Q *What is your book about? What do you think will happen next? Why do you think that?*
- Q *What are you learning about [a character] in your book? What parts of the text reveal those things about [that character]?*

Have the students return to their desks and put away their texts.

# Day 4

## Independent Strategy Practice

### Materials

- Assorted fiction or narrative nonfiction texts for independent reading
- Small self-stick notes for each student
- “Questions to Use When Making Inferences About Characters” chart (WA4)
- “Journal Entry” chart (WA8)
- *Student Response Book*, Reading Journal section

### In this lesson, the students:

- Read independently
- Make inferences to understand characters
- Write in their reading journals
- Use clarifying questions and statements

### 1 Review the Week

Have each student bring a fiction or narrative nonfiction story for independent reading and have the students gather with partners sitting together, facing you. Remind them that this week they heard *Peppe the Lamplighter* and explored the story and the character of Peppe by making inferences. Explain that today they will practice making inferences about characters in their independent reading and that they should be reading books that are about characters or real people.

### 2 Read Independently Without Stopping

Tell the students that they will read for 15 minutes and then read the same section again while thinking about inferences they might be making about characters. Distribute a self-stick note to each student. Ask the students to use self-stick notes to mark the places they begin reading today. Have the students read independently for 15 minutes.

### 3 Prepare to Make Inferences About Characters

After 15 minutes, stop the students and display the “Questions to Use When Making Inferences About Characters” chart (🗨️ WA4) from Week 1.

#### Questions to Use When Making Inferences About Characters

- What do you know about the main character, or one of the main characters, in your story?
- Is that stated directly in the text? How?
- If it is not stated directly, what clue or clues tell you what you know?

WA4

Tell the students that they will reread, starting again at their self-stick notes, and they will think about the questions on the chart as they read. Read the questions aloud. Tell them that you will stop them every few minutes to think about the questions and to talk with their partners.

### 4 Read Independently and Talk in Pairs

Have the students begin rereading independently for 15 minutes. Stop them at 5-minute intervals. At each stop, ask one question from the chart at a time, pausing after each question to give the students time to think. After they have thought about all three questions, have the students take turns discussing their thinking with their partners. Remind them to use clarifying questions and statements if they do not understand their partners’ thinking.

As partners talk, circulate among them and notice whether they recognize both directly stated meanings and meanings they have inferred in their books. Ask individual students questions such as:

- Q** *What do you know about this character? How do you know those things? Are those things stated directly, or are you inferring them from clues? What clues?*

### 5 Write in Reading Journals About the Students’ Independent Reading

Have the students return to their desks and open to the Reading Journal section of the *Student Response Book*. Display the “Journal Entry” chart (🗨️ WA8) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

**TEKS 6.F.ii**  
Student/Teacher Activity  
Steps 3–5 (all, beginning on page 379 and continuing on to page 380)

#### Teacher Note

If you notice that many students are having difficulty making inferences about characters or distinguishing between meanings that are stated directly and meanings they have inferred, you might bring the class together and model the process again using a text of your own.

#### Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit’s Individual Comprehension Assessment.

### Teacher Note

In Unit 6, Week 3, the students will focus on inferring about causes. If you feel the students need more practice making inferences about characters, you might give the class additional practice by repeating this week's instruction using an alternative text. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the "Grade 4 Alternative Texts" list.

### Teacher Note

If the students struggle to write, you might wish to model writing a journal entry as you did in Unit 2, Week 1, Day 4 (see Step 3).

### Vocabulary Note

Next week you will revisit *Pepe the Lamplighter* to teach the Week 18 vocabulary lessons.

### Journal Entry

Write a journal entry about the story you are reading. Please include:

- The title and the author's name
- What is happening in the part of the story you read today
- Something you learned about a character in the story
- Whether what you learned is stated directly or whether you inferred it from clues
- If you inferred it from clues, what clue or clues helped you make the inference

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

## 6 Reflect on Partner Work

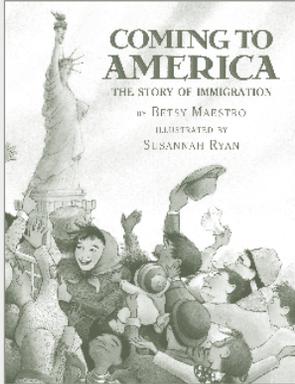

Facilitate a brief discussion about how partners worked together. Ask:

- Q *What did you do today to confirm or clarify your partner's thinking? How did that work?*

# Week 3

## OVERVIEW

### *Coming to America: The Story of Immigration*

by Betsy Maestro, illustrated by Susannah Ryan

This is a history of immigration to the Americas, from the first arrivals more than 20,000 years ago to the present day.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA9–WA11

#### Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “IDR Conference Notes” record sheet (CN1)

#### Reproducible

- (Optional) “First- and Secondhand Accounts of Immigrants’ Experiences on Ellis Island” (BLM2)

#### Professional Development Media

- “Using ‘Group Brainstorming’” (AV11)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)
- “Using Web-based Maps and Related Tools” tutorial (AV49)

### Comprehension Focus

- Students make inferences to understand causes of events in an expository nonfiction book.
- Students use schema to articulate all they think they know about a topic before they read.
- Students read independently.

### Social Development Focus

- Students learn and practice the procedure for “Group Brainstorming.”
- Students develop the skills of using clarifying questions and statements and including everyone in and contributing to the group work.

## ⌚ DO AHEAD

- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA3); see page 84 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, prepare to model asking a *why* question using a text that is familiar to the students (see Step 3). To prepare for the modeling, have the *why* question you will ask in mind ahead of time.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 18 lessons this week.

### Materials

- *Coming to America* (pages 3–13, 20–29)
- “Reading Comprehension Strategies” chart

### Teacher Note

If your students are already familiar with “Group Brainstorming,” you may not need to teach it. Briefly review the procedure and go on with the rest of the lesson. To see an example, view “Using ‘Group Brainstorming’” (AV11).

### Teacher Note

The 30-second limit for choosing a group recorder encourages the students to pick a recorder quickly without getting stuck in a selection process.

### Facilitation Tip

This week continue to **avoid repeating or paraphrasing** the students’ responses. Help the students learn to participate responsibly in class discussions by asking one another to speak up or by asking a question if they do not understand what a classmate has said.

### In this lesson, the students:

- Learn the procedure for “Group Brainstorming”
- Hear and discuss parts of an expository nonfiction book
- Brainstorm what they think they know about the topic of the book
- Make inferences as they hear the book
- Read independently for up to 30 minutes
- Include everyone in the discussions and contribute to the group work

## 1 Introduce “Group Brainstorming”

Have the students bring their pencils and gather in their groups of four, facing you. Review that in a previous lesson the students learned to work in groups of four and to use “Heads Together” to discuss their ideas. Ask:

**Q** *What are some things you can do to help your work go smoothly in a group of four?*

Explain that today they will learn a cooperative structure called “Group Brainstorming,” in which group members generate and record as many ideas as they can in a short period of time. Group members will state their ideas briefly, and these will be written down quickly on a sheet of scratch paper by the group recorder, without discussion. Tell the students that all ideas should be recorded and that the ideas do not have to be written as complete sentences.

Choose a topic (for example, “fiction characters I like” or “topics I enjoy reading about”) and model quickly jotting down a few of your own brainstormed ideas where everyone can see them.

Explain that the students will use “Group Brainstorming” to think about what they know about the topic of today’s book before they hear it. Give each group 30 seconds to determine who will be the group recorder today.

## 2 Introduce *Coming to America* and Brainstorm About Immigration

Remind the students that they heard *Pepe the Lamplighter*, which told the story of one immigrant family. Tell them that this week you will read aloud from the book *Coming to America*. Show the cover and read

the names of the author and the illustrator aloud. Explain that this expository nonfiction book focuses on how people came from other lands to live in this country.

Have the students use “Group Brainstorming” to respond to this question:

**Q** *What do you think you know about how and why people from many different countries came to live in the United States? Brainstorm ideas in your groups.*

Give groups 3–4 minutes to brainstorm and record their ideas; then stop them and have the students in each group review their list and select one idea to share with the whole class. Ask each group to select a backup idea in case their first idea is shared by another group.

Have all the groups report their ideas. Then ask if there are any additional ideas the groups generated that have not been reported. Ask the students to keep these ideas in mind as they listen to the reading.

**Students might say:**

“Some people came here looking for a better life because they were poor in their own country or there was a war.”

“I know many Africans were brought to America as slaves.”

“I think the Native Americans were always here. I don’t know where they first came from.”

### 3 Read Parts of *Coming to America* Aloud with Brief Section Introductions

Explain that you will read two sections of the book aloud today and that you will stop periodically to have groups use “Heads Together” to discuss their thinking about the book.

Tell the students that the first part you will read is about the first people to arrive in the Americas. Read pages 3–13, showing the illustrations and stopping as described on the next page. Clarify vocabulary as you read.

#### Suggested Vocabulary

**Ice Age:** time period when a large part of the world was covered by ice (p. 4)

**nomads:** people who wander from place to place (p. 4)

**descendants:** people’s children, grandchildren, etc. (p. 6)

**regulate:** control (p. 20)

#### ELL Note

Many of your English Language Learners may have personal stories about coming to the United States from another country. You might want to take extra time for volunteers to tell their stories of moving to the United States.

#### Teacher Note

Limiting the brainstorming time encourages the students to be brief and to get out many ideas without getting stuck on any particular idea.

Asking each group to select a backup idea encourages the students to listen to one another and avoid repeating what others have said.

#### Teacher Note

This week’s read-aloud contains a lot of factual information that the students might have difficulty following. To support them, you will briefly introduce each section before you read it. This will help to focus the students’ listening on the main ideas discussed in that section.

#### Teacher Note

You might display a map that shows the western hemisphere and point out the Americas. Explain that when people talk about “the Americas,” they are referring to the countries in North America, Central America, and South America.

## Teacher Note

During the stops, listen for evidence that the students are discussing the book and understanding it. If necessary, reread parts of the text to help the students recall what they heard. Also, look for examples of groups working together well and groups having difficulty and be ready to share your observations at the end of the lesson.

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**civilizations:** highly developed and organized societies (p. 6)

**explorers:** people who travel to new places (p. 8)

**their native countries:** the countries in which they were born (p. 9)

**worship God:** take part in religious ceremonies (p. 9)

**against their will:** even though they did not want to come (p. 11)

**newcomers:** people who had recently come to the United States (p. 20)

**contagious disease:** sickness that can be easily spread from person to person (p. 24)

Stop after:

**p. 6** “By the time Christopher Columbus ‘discovered’ America in 1492, millions of people lived in the great civilizations of the Americas.”

Use “Heads Together” to discuss:

**Q** *What did you learn about the first immigrants to arrive in the Americas? Heads together.*

After a minute or two, explain that the next part you will read tells about the immigrants who came to the Americas in the centuries after Columbus’s arrival in 1492. Reread the last sentence before the stop; then continue reading. Stop after:

**p. 12** “Stormy seas made shipboard life even more miserable.”

Use “Heads Together” to discuss:

**Q** *What did you learn about immigrants in the section you just heard? Heads together.*

After a minute or two, explain that during the 1800s immigrants arrived in the United States in growing numbers from countries around the world. Tell the students that the next part you will read tells what the government did to control immigration. Read pages 20–29, stopping after:

**p. 22** “The travelers were relieved that their journey was over, but they worried about what awaited them on Ellis Island.”

Use “Heads Together” to discuss:

**Q** *How did the government regulate, or control, immigration? Heads together.*

After a minute or two, explain that the last part you will read tells what happened to immigrants at Ellis Island. Reread the last sentence before the stop; then continue reading. Stop after:

**p. 29** “When they received their entry cards, at last, the immigrants could officially enter their new country.”

Use “Heads Together” to discuss:

**Q** *What happened to the immigrants at Ellis Island? Heads together.*

#### **4** Discuss the Reading as a Class

Facilitate a discussion of the reading using the questions that follow. Be ready to reread passages from the text to help the students recall what they heard.

**Q** *What were some of the reasons immigrants came to the United States?*

**Q** *What were some of the difficulties immigrants faced in the United States?*

**Students might say:**

“The book said people on the ships were scared because they didn’t know what to expect at Ellis Island.”

“Sometimes families got separated, like if someone was sick.”

“Some immigrants, like the Native Americans, were driven off their land by the other immigrants.”

“In addition to what [Dion] said, Africans were brought here against their will as slaves.”

**Q** *What do you think the author means by “All Americans are related to immigrants or are immigrants themselves”?*

#### **5** Reflect on “Group Brainstorming”

Facilitate a brief discussion about “Group Brainstorming” using questions such as:

**Q** *How did you take responsibility in your group today?*

**Q** *What went well in your “Group Brainstorming”? What do you want to do differently the next time your group does “Group Brainstorming”?*

Invite a few volunteers to share their thinking.

## INDIVIDUALIZED DAILY READING

#### **6** Read Independently and Discuss the Comprehension Strategies the Students Used

Direct the students’ attention to the “Reading Comprehension Strategies” chart and ask them to notice which strategies they use and where they use them during their independent reading today. Tell the students that at the end of IDR, you will ask them to share the strategies they used with partners. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### Teacher Note

Use strategies such as the following to facilitate interaction among students during the class discussion:

- Probe the students’ thinking by asking questions such as “Can you say more about that?” “What in the book makes you think that?” and “Why does that make sense?”
- Use “Turn to Your Partner” or “Heads Together” to engage everyone in thinking about the important questions.
- Ask the students to agree or disagree with their classmates and to explain their thinking.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 86) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 89 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share what they read with partners. Have each student tell her partner the title of her text, the author’s name, and what the text is about. Then have each student share the name of the strategy she used and where in the text she used it. Ask students who cannot think of a comprehension strategy they used to talk about what they read. Have the students return to their desks and put away their texts.

---

## EXTENSION

### Discuss Family Backgrounds

Have each student explore his immigrant roots by interviewing the adults in his home to find out how his family came to the United States. Explain that some families do not know the countries their ancestors came from, although they may be able to guess their continents of origin. Other families may include family members who are recent immigrants and who may be able to tell personal experiences about immigration.

Give the students an opportunity to create and deliver presentations about what they learned with the class and to ask one another questions. You might have them mark their families’ countries of origin on a printed or electronic world map.

### Technology Tip

To learn more about using electronic maps, view the “Using Web-based Maps and Related Tools” tutorial (AV49).

## In this lesson, the students:

- Hear parts of an expository nonfiction book again to build comprehension
- Make inferences as they hear the book
- Explore ethical issues in the book
- Read independently for up to 30 minutes
- Include everyone in the discussions and contribute to the group work
- Use clarifying questions and statements

## 1 Highlight Clues for Making Inferences in *Coming to America*

Have the students gather in their groups of four, facing you. Show the cover of *Coming to America* and remind the students that they heard parts of the book yesterday. Display the “Clues for Making Inferences in *Coming to America*” chart (WA9) and explain that these are sentences in the book from which a reader can infer meanings that are not stated directly.

### Clues for Making Inferences in *Coming to America*

“By the time Christopher Columbus ‘discovered’ America in 1492, millions of people lived in the great civilizations of the Americas.”

“Instead of finding freedom, these Africans lost theirs, and most never returned to their homelands, so very far away.”

“A number of years later, the government began to limit immigration by saying that people from some countries could not come to the United States at all.”

“Wealthy passengers traveling first class were usually allowed to leave the ship right away.”

WA9

Read the sentences aloud. Then explain that you will reread the parts of the book you read yesterday and that you will stop at each of the passages and have the students use “Heads Together” to talk about what they infer from the sentences.

## Materials

- *Coming to America* (pages 3–12, 20–29)
- “Clues for Making Inferences in *Coming to America*” chart (WA9)

**TEKS 6.F.i**  
Student/Teacher Activity  
Step 1 (all)

**TEKS 6.F.i**  
Student/Teacher Activity  
Step 2 and Step 3  
(all, beginning o page  
390 and continuing on  
to page 391)

## 2 Reread Parts of *Coming to America*

Reread pages 3–12 and 20–29 aloud slowly and clearly. Stop after:

**p. 6** “By the time Christopher Columbus ‘discovered’ America in 1492, millions of people lived in the great civilizations of the Americas.”

Reread the first passage on the chart and then have the students use “Heads Together” to discuss:

**Q** *What do you infer from this passage? Heads together.*

Have one or two groups report their inferences for the passage and the clues in the passage that helped them to make the inferences.

### Students might say:

“The book says that there were millions of people in America when Columbus came, so we inferred that Columbus didn’t really discover America.”

“The book says that people lived in the great civilizations of the Americas. We inferred that people were living all over North and South America, not just in the United States.”

If groups disagree significantly about inferences that make sense for the passage, discuss this before continuing with the lesson. Ask the students to refer to the text to support their opinions, and ask probing questions such as:

**Q** *Why do you think the author put quotation marks around the word “discovered” in this sentence?*

**Q** *What are “the Americas”?*

Then reread the last sentence before the stop and continue reading to the next stop. Follow this procedure at the stops that follow. Do not spend too long at any one stop.

**p. 11** “Instead of finding freedom, these Africans lost theirs, and most never returned to their homelands, so very far away.”

**p. 20** “A number of years later, the government began to limit immigration by saying that people from some countries could not come to the United States at all.”

**p. 24** “Wealthy passengers traveling first class were usually allowed to leave the ship right away.”

## 3 Discuss *Coming to America* as a Class

Reread the first two sentences on page 19 aloud and then ask:

**Q** *Was this true for all immigrants? Who was it true for? Who was it not true for? Explain your thinking.*

**TEKS 6.H.i**  
Student/Teacher Narrative  
Step 3 (all, beginning on page 390  
and continuing on to page 391  
including the last Teacher Note  
in the green margin on page  
390)

### Teacher Note

You can use “Heads Together” as needed during this discussion to increase participation.

### Teacher Note

These questions provide an opportunity for the students to synthesize by thinking critically and making judgments about the text. They will focus on this strategy in Unit 8.

Reread pages 10–11, beginning on page 10 with the sentence “As the population grew, the Europeans competed with the Indians for land and food” and reading to the end of page 11. Ask:

**Q** *What does this passage tell you about the immigrant experience for some groups of people?*

**Students might say:**

“The white immigrants’ lives got better, but for Native Americans and Africans, their lives got worse.”

Explain that the students made inferences to understand that the immigrant experience was quite different depending on the country people came from and the color of their skin. Point out that many of the students naturally made these inferences and that they are learning to become more aware of when they are making inferences as they read. Being aware of making inferences will help them better understand what they read.

#### **4** Reflect on Group Work

Facilitate a brief discussion of how the students contributed to and included everyone in their group discussions.

## INDIVIDUALIZED DAILY READING

#### **5** Read Independently and Think About Inferences

Ask the students to think about inferences they make as they read independently today. Tell the students that at the end of IDR, they will discuss their inferences with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### **IDR CONFERENCE NOTE**

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 86) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 89 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their reading with the class. Have each volunteer tell the title of his text, the author's name, what the text is about, and any inferences he made. Encourage the students to ask one another questions about the texts they are reading by asking questions such as:

- Q *What questions do you have about [Patrick's] book?*
- Q *What do you wonder about [Patrick's] book?*
- Q *What question do you have for [Patrick] about the [main character] in his book?*

Have the students return to their desks and put away their texts.

---

## EXTENSION

### Read the Rest of *Coming to America*

If the students are interested, you might read the rest of *Coming to America* aloud. Facilitate class discussions comparing immigration before and after Ellis Island closed, and exploring how immigrants adjust to life in their new country. In addition, you may want to read the sections titled "Immigration Today" and "Other Interesting Facts About Immigration" on page 39.

---

## TECHNOLOGY EXTENSION

### Learn More About Ellis Island

Show the cover of *Coming to America* and remind the students that they read parts of this book earlier. Show pages 20–21 and remind the students that this part of the book tells about immigrants' experiences at Ellis Island. Ask:

- Q *What do you remember about immigrants' experiences at Ellis Island?*

As the students respond, record their thinking where everyone can see it. If the students struggle to answer the question, read pages 20–31 and then ask the question again. Tell the students that today they will learn more about Ellis Island by exploring a website about it. Display the web page you selected and read the sections you identified aloud. After reading each section, facilitate a discussion about what the students are learning by asking questions such as:

- Q *What did you learn about Ellis Island from the section you just heard?*
- Q *How did [looking at the photograph] help you better understand immigrants' experiences at Ellis Island?*

### Technology Tip

Prior to doing this activity, find an age-appropriate web page about Ellis Island to share with your students. Search online using the keywords "Ellis Island for kids." Preview the web page you have selected and identify the sections you will read aloud and the features that you want to point out (for example, many online resources about Ellis Island include videos, audio clips, historical documents, or photographs). For more information, view the "Finding, Organizing, and Presenting Online Information" tutorial (AV43).

As the students respond, record their ideas where everyone can see them. After exploring the web page, have the students write a paragraph that tells what they learned about immigrants' experiences at Ellis Island. Encourage them to use facts they learned from the book *Coming to America* and from the web page to support their thinking.

## Strategy Lesson

# Day 3

### In this lesson, the students:

- Hear, read, and discuss part of an expository nonfiction book
- Explore causes of events in the book
- Read independently for up to 30 minutes
- Include everyone in the discussions and contribute to the group work
- Use clarifying questions and statements

### ABOUT EXPLORING CAUSES OF EVENTS

This week's lessons provide an informal introduction to exploring causes of events in expository text. Identifying causes of events can be challenging for students. In these lessons, the students learn that they can use the strategy of making inferences to help them understand what happens or what causes an event to happen as it does. The teacher asks specific questions (such as "Why did the immigrants have to go through so much examination and questioning at Ellis Island?") to guide the students toward seeing and understanding the causes of events. The lessons in this unit prepare the students to identify cause/effect relationships in later grades.

## 1 Review Working in Groups of Four

Have the students bring their *Student Response Books* and pencils and gather in their groups of four, facing you. Explain that the students will work in their groups again today, and ask them to continue to focus on including everyone in and contributing to the group work.

## 2 Introduce Exploring Causes

Remind the students that they have been making inferences to help them understand what happens in stories like *Peppe the Lamplighter* and *Amelia's Road*. Point out that they can also use the strategy to help them figure out why something happens or what causes an event to happen as it does.

### Materials

- *Coming to America*
- *Student Response Book* pages 52–53
- "Directions" chart (WA10)
- "Class Assessment Record" sheet (CA3)
- "Excerpt from *Coming to America*" chart (WA11)
- *Student Response Book*, Reading Journal section

**ELPS 4.E.i**  
**Step 3**  
**(all, including ELL**  
**Note in green margin**  
**next to the step)**

### Teacher Note

If necessary, explain that an *ordeal* is a “very difficult or painful experience.”

### Teacher Note

Have students who are unable to read the excerpt on their own read it quietly aloud with a partner, or you might read it aloud yourself as the students follow along. Then have them go back and underline the clues in the passage.

### ELL Note

English Language Learners may benefit from extra support to make sense of the excerpt. Show and discuss the illustrations on pages 24–29 again; then read the excerpt aloud as the students follow along, stopping periodically to talk about what is happening. The students might benefit from explanations of the following words and passages:

- “Those with health problems were marked with colored chalk.”
- “kept on the island for observation”
- “permanent health problems”
- “native country”
- “translators”

Explain that today they will explore why some of the things described in *Coming to America* happened.

## **3** Explore Causes in *Coming to America*

Remind the students that at Ellis Island, immigrants endured numerous health examinations and questioning by doctors and inspectors. Recall that the author calls the experience at Ellis Island an “ordeal.”

Use “Heads Together” to discuss:

**Q** *Why did the immigrants have to go through so much examination and questioning at Ellis Island? Heads together.*

Have the students open to *Student Response Book* page 52, “Excerpt from *Coming to America*.” Explain that this is an excerpt from the book that describes what the immigrants had to do to enter the United States at Ellis Island. Display the “Directions” chart ( WA10) and explain the directions on it.

WA10

### Directions

1. Read the excerpt quietly to yourself.
2. Reread the excerpt and underline sentences that help to answer this question:
  - Why were immigrants examined and questioned at Ellis Island?
3. Use “Heads Together” to discuss the sentences you underlined and the inferences you made.

As the students work individually and in their groups of four, circulate and ask the following questions to help them think about the inferences they are making and clarify their thinking:

- Q** *You underlined [“signs of contagious disease”]. What did you infer from that sentence about why the immigrants were examined and questioned?*
- Q** *Can you confirm [Martine’s] thinking by repeating back what you heard her say?*
- Q** *Do you agree or disagree with [Martine]? Why?*
- Q** *What question do you want to ask [Martine] to better understand what she’s thinking?*

As you circulate among groups, notice which passages the students underline.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students identifying clues about why immigrants were examined and questioned at Ellis Island?

Record your observations on the “Class Assessment Record” sheet (CA3); see page 84 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to make inferences, proceed with the lesson and continue on to Independent Strategy Practice on Day 4.
- If **about half of the students** are able to make inferences, proceed with the lesson and continue on to Independent Strategy Practice on Day 4. Plan to monitor students who are having difficulty during independent reading by asking them questions such as:

**Q** *What is one thing you know based on what you read today?*

**Q** *Does the book tell you that directly, or did you figure it out from clues? What clues?*

- If **only a few students** are able to make inferences, you might give the class additional instruction by repeating Days 1, 2, and 3 of this week using an alternative text before continuing on to Day 4. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

## 4 Discuss Causes as a Class

When most groups have finished, display the “Excerpt from *Coming to America*” chart (WA11) and ask a few volunteers to share the sentences they underlined and the inferences they made. Underline the passages on the chart as each student responds. Facilitate a discussion among the students using questions such as:

**Q** *Do you agree or disagree with what [Juan] and his group shared? Why?*

### Students might say:

“I underlined the sentences ‘Sometimes immigrants had permanent health problems that would make it hard for them to work. This often meant that they would be sent back to their native country.’ It seems like if you couldn’t work, you weren’t welcome in America.”

“In addition to what [Briana] said, I think the line ‘The inspectors looked for signs of contagious disease’ shows that they wanted to make sure that sick people didn’t spread their disease to other immigrants.”

“I underlined ‘The immigrants had to show that they would work hard and stay out of trouble.’ I think this explains one reason they had to answer so many questions.”

Point out that the author does not directly explain why the immigrants had to go through so much examination and questioning to enter the United States but that the students inferred this information from the clues. Explain that authors often do not directly explain why events happen the way they do. Instead, readers have to make inferences to understand the reasons.

Explain that in the next lesson the students will practice making inferences about why things happen in books they read independently.

## INDIVIDUALIZED DAILY READING

### 5 Read Independently and Think About Inferences

Ask the students to think about inferences they make as they read independently today. Tell the students that at the end of IDR, they will discuss their inferences with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 86) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 89 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their reading with the class. Have each volunteer tell the title of her text, the author’s name, what the text is about, and any inferences she made. Encourage the students to ask each volunteer questions about the text he or she is reading. If the students struggle to ask one another questions, prompt them by asking questions such as:

- Q *What questions do you have about [Sonja’s] book?*
- Q *What do you wonder about [Sonja’s] book?*
- Q *What question do you have for [Sonja] about the [main character] in her book?*

Have the students return to their desks and put away their texts.

---

## WRITING ABOUT READING

### Compare First- and Secondhand Accounts of Immigrants' Experiences on Ellis Island

Show the cover of *Coming to America* and remind the students that they heard parts of this book earlier. Ask:

**Q** *What do you remember about this book?*

If necessary, remind the students that this book tells about why and how people have immigrated to the United States over time. Show pages 20–21 and review that this part of the book explains what it was like for immigrants who entered the United States through Ellis Island between 1892 and 1954. Explain that when author Betsy Maestro wrote *Coming to America*, she researched what happened to the immigrants when they arrived on Ellis Island and how they felt while they were there. She then used what she learned to write about the immigrants' experiences. Explain that since Maestro wrote about other people's experiences, this book is a *secondhand account* of what it was like on Ellis Island.

Distribute a copy of "First- and Secondhand Accounts of Immigrants' Experiences on Ellis Island" (BLM2) to each student. Direct the students' attention to the secondhand account and explain that this is an excerpt from *Coming to America*. Ask the students to follow along as you read the excerpt aloud. Ask them to think as they listen about what it was like for immigrants who entered the United States through Ellis Island. After the reading, ask:

**Q** *What did you learn from the secondhand account?*

Direct the students' attention to the firsthand accounts and explain that these are quotes from two women, Rachel Goldman and Sarah Asher, who immigrated to the United States and entered through Ellis Island. Tell the students that if someone who experiences an event talks or writes about it, it is called a *firsthand account*. Read the two firsthand accounts aloud, clarifying the vocabulary you identified as you read. Ask the students to follow along as you read aloud and to think as they listen about how the firsthand accounts are different from the secondhand account.

After the reading, facilitate a discussion comparing the first- and secondhand accounts by asking the following questions:

**Q** *How is the information in the firsthand accounts the same as the information in the secondhand account? How is it different? What in the text makes you think that?*

#### ELPS 5.F.ii

Writing About Reading  
(all, beginning on page 397 and  
continuing on to page 398)

#### Materials

- *Coming to America*
- Copy of "First- and Secondhand Accounts of Immigrants' Experiences on Ellis Island" (BLM2) for each student

#### Teacher Note

Prior to doing this activity, you will need to visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print "First- and Secondhand Accounts of Immigrants' Experiences on Ellis Island" (BLM2). Make enough copies for each student to have one, and set aside a copy for yourself. Preview the excerpts and identify vocabulary that you want to clarify as you read.

**Students might say:**

“The firsthand account from Sarah Asher gives more details about what it was like when she and the other immigrants on the boat first saw the Statue of Liberty. She said, ‘Well, she was beautiful with the early morning light. Everybody was crying.’ The secondhand account just says that the immigrants saw the Statue of Liberty.”

“In addition to what [Huan] said, I think that the extra details in the firsthand accounts help you understand how the immigrants felt when they saw the Statue of Liberty. Even though they were crying, I think they were happy because the Statue of Liberty is a symbol of the United States and of freedom. Once the immigrants saw the statue, they realized they had finally reached the end of their journey.”

“The secondhand account tells some of the same information, like the part about people getting marked with chalk, but it doesn’t say that the people didn’t know why they were getting marked. The firsthand account says, ‘The people themselves did not know it. People in back of them could see it and were worried and wondering what it was all about.’”

Then ask the students to watch as you think aloud and model writing about how the first- and secondhand accounts are different.

**You might say:**

“The first- and secondhand accounts of immigrants’ experiences on Ellis Island are different in a number of ways. The firsthand accounts give more details about how people felt when they arrived. I’ll write: *The firsthand accounts of immigrants’ experiences on Ellis Island give more details about how people felt when they arrived. One account said that people cried when they saw the Statue of Liberty, and the other said that people felt worried about the chalk marks being put on people’s backs.* Another difference is that the firsthand accounts give more information about certain facts that were in the secondhand account. I’ll write: *The firsthand account from Rachel Goldman explains that people didn’t know why the men were putting chalk marks on people’s backs. The secondhand account doesn’t talk about that. Another difference is that the secondhand account says that wealthy passengers were able to leave the ship right away, but according to the firsthand account from Sarah Asher, Americans were also able to leave the ship right away.*”

Have the students write their own opinions about which account they think is more interesting and why. Encourage the students to refer to “First- and Secondhand Accounts of Immigrants’ Experiences on Ellis Island” (BLM2) as they write. If time permits, invite volunteers to share their writing with the class.

## In this lesson, the students:

- Read independently
- Explore causes of events as they read independently
- Use clarifying questions and statements

## 1 Review the Week

Have the students get their texts for independent reading and pencils and sit at desks with partners together. Remind them that this week they heard *Coming to America*, made inferences, and explored causes of events in the book. Explain that today they will use *why* questions to explore causes in the books they are reading independently.

## 2 Read Independently Without Stopping

Distribute self-stick notes to each student. Ask the students to use self-stick notes to mark the places they begin reading today. Have the students read independently for 15 minutes.

## 3 Model Asking a *Why* Question

Stop the students after 15 minutes. Explain that you would like them to reread and use “Stop and Ask Questions” to identify places they can ask *why* questions about their books. They will use additional self-stick notes to mark the places where questions come to mind, and they will write the questions on the notes.

Model the procedure by briefly introducing the text you selected. Read several sentences aloud and think aloud about a *why* question that comes to mind. Jot the question on a self-stick note and place the note in the margin where you stopped reading.

### You might say:

“As I was reading this page, I wondered why snakes have different kinds of markings on their skin. On this self-stick note I’ll write: *Why do snakes have different kinds of markings on their skin?* Then I’ll place the note in the margin.”

## Materials

- Small self-stick notes for each student
- Book for modeling *why* questions, prepared ahead

**TEKS 6.B.iii**  
Student/Teacher Narrative  
Step 3 (all)

### **ELL Note**

You might need to provide additional support for your English Language Learners. Consider having these students dictate *why* questions as you write them.

### **Vocabulary Note**

Next week you will revisit *Coming to America* to teach the Week 19 vocabulary lessons.

## **4** Reread Independently and Ask *Why* Questions

Have the students reread independently for 15 minutes. Circulate and look for evidence that the students are able to write *why* questions.

Some students may have difficulty generating questions. To help these students, you might ask them questions such as:

**Q** *What is happening in this part of the book? What question that begins with why can you ask about this part of the book?*

## **5** Have Partners Discuss Their Questions

After 15 minutes, stop the students. Ask them to choose one *why* question they wrote as they read. Then use “Think, Pair, Share” to have partners discuss whether the question is answered and how it is answered (directly, or indirectly using clues from the text). Remind each student to tell her partner the title of her book, the author’s name, and what it is about.

## **6** Discuss *Why* Questions as a Class

Have a few volunteers share their *why* questions with the class. Remind each student to tell the title of his book, the author’s name, and what it is about. Probe the student’s thinking by asking:

**Q** *What was happening in the text when your question came to mind?*

**Q** *Is the question answered? If so, is it answered directly, or did you figure out the answer by making an inference? Read us the passage in which it is answered.*

**Q** *What do you want to ask [Ned] about his book or what he shared?*

## **7** Reflect on This Week’s Partner and Group Work

Facilitate a brief discussion about how the students worked with their partners and groups over the week. Ask:

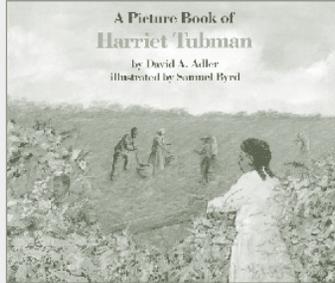

**Q** *What did you enjoy about working with your partner or group this week?*

**Q** *What is one way your partner or group work is improving? What is one thing you want to keep working on as you continue to work together?*

# Week 4

## OVERVIEW

### *A Picture Book of Harriet Tubman*

by David A. Adler, illustrated by Samuel Byrd

This biography of Harriet Tubman traces her life as a slave, her escape from slavery, and her exploits as a conductor on the Underground Railroad.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### **Whiteboard Activities**

- WA12–WA15

#### **Assessment Forms**

- “Class Assessment Record” sheet (CA4)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

#### **Reproducibles**

- Unit 6 family letter (BLM1)
- (Optional) “Harriet Tubman” (BLM3)

#### **Professional Development Media**

- “Using Web-based Maps and Related Tools” tutorial (AV49)

### Comprehension Focus

- Students make inferences to understand causal relationships in a narrative nonfiction story.
- Students read independently.

### Social Development Focus

- Students develop the skills of using clarifying questions and statements and confirming another person's thinking.

## ⌚ DO AHEAD

- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA4); see page 85 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit's family letter (BLM1). Make enough copies to send one letter home with each student.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 19 lessons this week.

# Day 1

## Read-aloud

### Materials

- *A Picture Book of Harriet Tubman*
- Small self-stick notes for each student

### Teacher Note

The discussion prompts are:

- “I agree with \_\_\_\_\_ because . . .”
- “I disagree with \_\_\_\_\_ because . . .”
- “In addition to what \_\_\_\_\_ said, I think . . .”

**ELPS 4.F.v**  
Step 2 (all)

### Technology Tip

You might display a map that shows the different routes of the Underground Railroad. Search online using the keywords “Underground Railroad map.”

To learn more about using web-based tools, view the “Using Web-based Maps and Related Tools” tutorial (AV49).

### In this lesson, the students:

- Hear and discuss a narrative nonfiction story
- Make inferences as they hear the story
- Explore social and ethical issues in the story
- Read independently for up to 30 minutes
- Confirm one another’s thinking by repeating back what they heard
- Use clarifying questions and statements

## 1 Get Ready to Work Together

Have the students gather with partners sitting together, facing you. Review that in previous lessons the students learned to use prompts to add to their partner conversations. They also learned how to confirm that they understood their partners’ thinking by repeating back what they heard and by using clarifying questions and statements. Tell the students that you would like them to use these skills as needed in their partner conversations this week.

## 2 Introduce *A Picture Book of Harriet Tubman*

Review that in the previous week the students heard *Coming to America* and used the strategy of *making inferences* to make sense of the book. Explain that this week they will hear another book and make inferences to help them understand it.

Tell the students that the book you will read aloud today is *A Picture Book of Harriet Tubman*. Show the cover of the book and read the names of the author and the illustrator aloud. Explain that the book is a biography of Harriet Tubman and that a *biography* is a “story of someone’s life written by someone else.” Tell the students that Harriet Tubman was born a slave in the 1800s. She later escaped from slavery and led hundreds of other slaves to freedom by means of the Underground Railroad.

If necessary, explain that the Underground Railroad was not a physical railroad but rather a secret network of people who helped slaves escape from the South to the Northern states and Canada in the years before the Civil War. Slaves hid during the day and traveled at night, stopping at hiding places or “stations” along the way.

### 3 Read Aloud with Brief Section Introductions

Explain that you will stop periodically during the reading to have partners talk about what they have learned about Harriet Tubman.

Tell the students that the first part of the book is about Harriet's early life as a slave. Read the book aloud, showing the illustrations and stopping as described below. Clarify vocabulary as you read.

#### Suggested Vocabulary

**plantation:** large farm (p. 4)

**protest:** show they disagreed with slavery (p. 9)

**Moses:** an ancient Jewish leader who led his people out of slavery (p. 10)

**rebellion:** armed fight against people in power (p. 10)

**patrollers:** guards who tried to catch runaway slaves (p. 13)

**liberty:** freedom (p. 15)

**amendment:** change to laws of the U.S. Constitution (p. 27)

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**in chains:** with chains on their feet and hands to prevent escape (p. 8)

**sleeping spells:** falling asleep when she didn't plan to (p. 12)

**conductor:** person who works on a train collecting tickets or money (p. 20)

**used songs as a secret code:** used songs to send secret messages (p. 21)

**spy:** person who watches others secretly to get information about them (p. 26)

Stop after:

**p. 12** "After the accident she often prayed."

Ask:

 **Q** *What did you learn about Harriet's life as a slave? Turn to your partner.*

After most pairs have finished talking, signal for the students' attention and explain that the next part of the book describes Harriet's escape from slavery. Reread the last sentence on page 12 and continue reading to the next stopping point:

**p. 18** "She said later, 'The sun came like gold through the trees and over the fields, and I felt like I was in heaven.'"

Ask:

 **Q** *What did you learn about Harriet's escape from slavery? Turn to your partner.*

**ELPS 4.F.vii**  
Step 3 (all)

#### Teacher Note

During the stops, listen for evidence that the students are discussing the book and understanding it. If necessary, reread parts of the text to help the students recall what they heard. Also, look for examples of pairs working together well and pairs having difficulty and be ready to share your observations at the end of the lesson.

### Facilitation Tip

Reflect on your experience over the past four weeks with **avoiding repeating or paraphrasing** students' responses. Is the practice beginning to feel natural? Are you integrating it into class discussions throughout the day? What effect is the use of this practice having on the students' learning and behavior? Are they participating more responsibly in discussions? We encourage you to continue to use this practice and reflect on students' responses as you facilitate class discussions.

### Teacher Note

These questions help the students explore the social and ethical themes and make personal connections to the text.

### Teacher Note

Facilitate interaction among the students during the class discussion by asking questions such as:

- Q** *Who will confirm [Yana's] thinking by repeating back what you heard her say?*
- Q** *Turn to your partner and discuss whether you agree or disagree with what [Yana] just said.*
- Q** *Did you agree or disagree? Explain your thinking.*

After most pairs have finished talking, signal for the students' attention and explain that the next part of the book tells about Harriet's adventures on the Underground Railroad. Reread the last sentence on page 18 and continue reading to the next stopping point:

**p. 24** "He called her 'General Tubman.'"

Ask:

-  **Q** *What did you learn about Harriet's years as a conductor on the Underground Railroad? Turn to your partner.*

After most pairs have finished talking, signal for the students' attention and explain that the last part of the book describes Harriet's later years. Reread the last sentence on page 24 and continue reading to the end of the book. Ask:

-  **Q** *What do you think were important events in Harriet Tubman's life? Explain your thinking. Turn to your partner.*

Have a few volunteers share their thinking with the class.

#### Students might say:

"When she was little, she was whipped for taking a piece of sugar.

That probably made her hate being a slave even more."

"Harriet saw her sisters get sold. She didn't want that to happen to her."

"She escaped on the Underground Railroad and decided to help other slaves escape. That's why she's famous today."

## 4 Discuss Social and Ethical Issues in the Book

Facilitate a discussion about the social and ethical issues in the book. Remind the students to use the discussion prompts in their partner conversations and to confirm and clarify their partners' thinking.

-  **Q** *After Harriet escaped, she said, "I had a right to liberty or death. If I could not have one, I would have the other." What do you think she meant? Turn to your partner.*

- Q** *What do you admire about Harriet Tubman? What can we learn from her life that might help us in our own lives? Turn to your partner.*

During the class discussion, be ready to reread passages from the text and show illustrations again to help the students recall what they heard. As the students make inferences about Harriet Tubman, point them out.

#### You might say:

"The author does not say directly that Harriet was strong-willed and determined, but you inferred that, or figured it out, using clues in the story."

Explain that in the next lesson the students will continue to explore making inferences in the book.

## 5 Reflect on Partner Work

Briefly discuss how partners did using the discussion prompts, using clarifying questions and statements, and confirming one another's thinking. Share your own observations.

# INDIVIDUALIZED DAILY READING

## 6 Read Independently and Think About Inferences

Ask the students to think about inferences they make and causes they notice as they read independently today. Tell the students that at the end of IDR, they will discuss their inferences and any causes they noticed with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 86) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 89 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share with the class the title of his text, the author's name, what the text is about, and any inferences he made or causes he noticed. Follow up by asking questions such as:

- Q *What do you know about this [topic/character] based on what you just read?*
- Q *Is that stated directly in the text? If not, what clue or clues tell you what you know?*
- Q *What causes are you noticing in your reading?*

Have the students return to their desks and put away their texts.

**Materials**

- *A Picture Book of Harriet Tubman*
- “Clues for Making Inferences in *A Picture Book of Harriet Tubman*” chart (WA12)

**In this lesson, the students:**

- Hear a narrative nonfiction story again to build comprehension
- Make inferences as they hear the story
- Read independently for up to 30 minutes
- Confirm one another’s thinking by repeating back what they heard
- Use clarifying questions and statements

**1** Highlight Clues for Making Inferences in *A Picture Book of Harriet Tubman*

Have the students gather with partners sitting together, facing you. Remind the students that they heard *A Picture Book of Harriet Tubman* yesterday. Display the “Clues for Making Inferences in *A Picture Book of Harriet Tubman*” chart (WA12) and explain that these are sentences in the book from which a reader can infer meanings that are not stated directly.

**Clues for Making Inferences in *A Picture Book of Harriet Tubman***

“He said that if she ran off he would tell her master and soon the patrollers and their dogs would be after her.”

“She said later, ‘The sun came like gold through the trees and over the fields, and I felt like I was in heaven.’”

“Years later Harriet said proudly, ‘I never ran my train off the track. I never lost a passenger.’”

“She supported the suffragist movement, the fight for the right of women to vote in the United States.”

WA12

Read the sentences aloud. Then explain that you will read the book aloud again and that you will stop at each of the passages and have partners talk about what they infer from the passage.

**2** Reread *A Picture Book of Harriet Tubman*

Read the book aloud slowly and clearly. Stop after:

- p. 13** “He said that if she ran off he would tell her master and soon the patrollers and their dogs would be after her.”

Reread the first passage on the chart and then ask:

**Q** *What do you infer from this passage? Turn to your partner.*

Have a few students report their inferences.

**Students might say:**

"My partner and I inferred that maybe her husband didn't really care about her because he said he would turn her in if she escaped."

"We inferred that he was trying to keep her from going by scaring her."

"I agree with [Keagan and Debra]. I think that he's trying to keep her from going because he loves her."

If the students disagree significantly about inferences that make sense for the passage, discuss this before continuing with the lesson. Ask the students to refer to the text to support their opinions, and ask probing questions such as:

**Q** *Why do you think Harriet's husband said he would turn her in if she tried to escape?*

**Q** *What does this sentence tell you about the kind of person Harriet's husband was?*

Then reread the last sentence before the stop and continue reading to the next stop. Follow this procedure at the stops that follow. Do not spend too long at any one stop.

**p. 18** "She said later, 'The sun came like gold through the trees and over the fields, and I felt like I was in heaven.'"

**p. 23** "Years later Harriet said proudly, 'I never ran my train off the track. I never lost a passenger.'"

**p. 29** "She supported the suffragist movement, the fight for the right of women to vote in the United States."

### **3** Discuss Inferences in Pairs and as a Class

Reread page 22 and then use "Think, Pair, Share" to discuss:

**Q** *What does this passage tell us about Harriet? Why do you think she was so determined not to let them turn back? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

**Students might say:**

"Harriet felt like she would rather be dead than be a slave. Maybe she felt the same way about other slaves."

"I think this tells us that she was determined not to fail. She did it for their own good."

"I disagree with [Kit]. If slaves turned back, they might have talked about the Underground Railroad and made it unsafe for everyone else. She had to make sure they didn't turn back."

Point out that there are many clues in the book to help the reader infer what kind of person Harriet Tubman was. Many of the students naturally made these inferences, and they are learning to become more aware of making inferences as they read. Being aware of making inferences will help them better understand what they read.

#### 4 Reflect on Partner Work

Facilitate a brief discussion of how partners worked together. Share examples you noticed of ways partners confirmed and clarified each other's thinking and used the discussion prompts to add to each other's thinking and to agree and disagree.

## INDIVIDUALIZED DAILY READING

#### 5 Read Independently and Think About Inferences

Ask the students to think about inferences they make and causes they notice as they read independently today. Tell the students that at the end of IDR, they will discuss their inferences and any causes they noticed with partners. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 86) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 89 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share with a partner the title of her text, the author's name, what the text is about, and any inferences she made or causes she noticed. Then have a few volunteers share the inferences they made or the causes they noticed with the class.

Have the students return to their desks and put away their texts.

## EXTENSION

### Read More About the Underground Railroad

Read other books about the Underground Railroad with the class. Stop occasionally as you read and ask the students to share their thoughts about each book in pairs or groups and as a class. As the students make inferences about events and characters, point them out. Some books you might read are *Aunt Harriet's Underground Railroad in the Sky* by Faith Ringgold, *Freedom River* by Doreen Rappaport, and *Journey to Freedom: A Story of the Underground Railroad* by Courtni C. Wright.

## Guided Strategy Practice

## Day 3

### In this lesson, the students:

- Hear, read, and discuss part of a narrative nonfiction story
- Explore causes of events in the story
- Read independently for up to 30 minutes
- Confirm one another's thinking by repeating back what they heard
- Use clarifying questions and statements

### 1 Review Working with a Partner

Have the students get their *Student Response Books* and pencils and sit at desks with partners together. Explain that the students will work with their partners again today and ask them to continue to focus on confirming one another's thinking and using clarifying questions and statements.

### 2 Review Exploring Causes

Remind the students that they have been making inferences to help them understand what is happening in texts. Point out that they can also use the strategy to help them figure out why something happens or what causes an event to happen as it does.

Explain that today they will explore why some things happened as they did in *A Picture Book of Harriet Tubman*.

### Materials

- *A Picture Book of Harriet Tubman*
- *Student Response Book* pages 54–55
- “Directions” chart (WA13)
- “Class Assessment Record” sheet (CA4)
- “Excerpt from *A Picture Book of Harriet Tubman*” chart (WA14)
- “Reading Comprehension Strategies” chart

### Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit's Individual Comprehension Assessment.

### Teacher Note

Have students who are unable to read the excerpt on their own read it quietly aloud with a partner, or you might read it aloud yourself as the students follow along. Then have them go back and underline the clues in the passage.

### ELL Note

English Language Learners may benefit from extra support to make sense of the excerpt. Show and discuss the illustrations on pages 19–23 again; then read the excerpt aloud as the students follow along, stopping intermittently to talk about what is happening. Ensure that the students know the meaning of the word *general*.

## 3 Explore Causes in *A Picture Book of Harriet Tubman*

Reread page 24 of the book and show the illustration again. Point out that even though Harriet Tubman was not a soldier in any army, John Brown called her “General Tubman.”

Explain that a *general* is the “highest-ranking officer in the army.” A general is a leader and is responsible for the lives of all the people who are under his or her command. Ask and briefly discuss:

**Q** *What qualities do you think a general needs to have to be a good leader? Turn to your partner.*

Have the students open to *Student Response Book* page 54, “Excerpt from *A Picture Book of Harriet Tubman*.” Explain that this is an excerpt from the book that tells about Harriet’s life in the years between 1850 and 1860. Display the “Directions” chart ( WA13) and explain the directions on it.

WA13

### Directions

1. Read the excerpt quietly to yourself.
2. Reread the excerpt and underline sentences that explain why John Brown called Harriet “General Tubman.”
3. Turn to *Student Response Book* page 55, “Double-entry Journal About *A Picture Book of Harriet Tubman*.”
4. Choose a part you underlined in the excerpt, write the words or sentences in the “What I Read” column, and write the inference you made in the “What I Inferred” column.
5. If you have time, repeat Step 4 for another part you underlined.

As the students work individually, circulate and ask them the following questions to help them think about the inferences they are making:

- Q** *You underlined [“She used much of the money she earned to make nineteen trips south to lead about three hundred slaves to freedom”]. What did you infer from that sentence about why John Brown called Harriet “General Tubman”?*
- Q** *You wrote [Harriet was a leader because she was responsible for the lives of the people she led on the Underground Railroad]. Why does that inference make sense based on other things you know about her?*

As you circulate among the students, notice which sentences they underline.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students underlining sentences that give clues about why John Brown called Harriet “General Tubman”?
- Can they support their inferences using evidence from the text?

Record your observations on the “Class Assessment Record” sheet (CA4); see page 85 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** or **about half of the students** are able to make inferences, proceed with the lesson and continue on to Independent Strategy Practice on Day 4. Plan to monitor students who are having difficulty during independent reading by asking them questions such as:

**Q** *What is one thing you know based on what you read today?*

**Q** *Does the book tell you that directly, or did you figure it out from clues? What clues?*

- If **only a few students** are able to make inferences, you might give the class additional instruction by repeating Days 1, 2, and 3 of this week using an alternative text before continuing on to Day 4. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

### 4 Discuss Inferences About Causes as a Class

When most students have finished, display the “Excerpt from *A Picture Book of Harriet Tubman*” chart (WA14) and ask a few volunteers to share the sentences they underlined and the inferences they made. Underline the passages on the chart as each student responds. Facilitate a discussion among the students using questions such as:

**Q** *Do you agree or disagree with what [Dana] shared? Why?*

Point out that the author does not directly say why John Brown calls Harriet “General Tubman” but that the students can infer this using information from the story. Explain that writers often do not explain why things happen or why characters behave as they do. Instead, readers have to make inferences to figure out why. Figuring out why characters behave as they do can help readers better understand what they read.

Explain that in the next lesson the students will again practice making inferences about why things happen in their independent reading.

## INDIVIDUALIZED DAILY READING

### 5 Read Independently and Think About Inferences

Ask the students to think about inferences they make and causes they notice as they read independently today. Tell the students that at the end of IDR, they will discuss their inferences and any causes they noticed with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 86) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 89 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their reading with the class. Have each volunteer tell the title of his text, the author’s name, what the text is about, and any inferences he made or causes he noticed. Follow up by asking questions such as:

- Q *What do you know about this [topic/character] based on what you just read?*
- Q *Is that stated directly in the text? If not, what clue or clues tell you what you know?*
- Q *What causes are you noticing in your reading?*

Have the students return to their desks and put away their texts.

---

## WRITING ABOUT READING

### Write About Harriet Tubman

Show the cover of *A Picture Book of Harriet Tubman* and remind the students that they heard parts of this book earlier. Ask the students to turn to *Student Response Book* page 54, “Excerpt from *A Picture Book of Harriet Tubman*,” and review that this excerpt tells about Harriet’s life in the years between 1850 and 1860. Tell the students that you will read the excerpt aloud and ask them to think as they listen about words they might use to describe Harriet Tubman.

#### Materials

- *A Picture Book of Harriet Tubman*
- *Student Response Book* page 54
- Copy of “Harriet Tubman” (BLM3) for each student

Ask the students to follow along as you read the excerpt aloud. Then ask:

- Q *What words might you use to describe Harriet Tubman?*
- Q *The passage does not say that Harriet Tubman was [courageous]. What words in the passage helped you to infer that?*

Record the students' ideas where everyone can see them, under the heading "Harriet's Personality."

Distribute "Harriet Tubman" (BLM3) and explain that this is an excerpt from an Internet article published by a children's magazine. Ask the students to follow along as you read the excerpt aloud and to think as they listen about other words they might use to describe Harriet Tubman. Read "Harriet Tubman" aloud. Ask:

- Q *What other words might you use to describe Harriet Tubman?*
- Q *What words in the passage helped you to infer that?*

Add the students' ideas to the list of words that describe Harriet's personality. Remind the students that when they use clues from texts to think about ways in which they might describe a person's personality, they are making inferences.

Ask the students to watch as you think aloud and model writing about what you inferred about Harriet Tubman's personality and the clues that helped you make that inference.

**You might say:**

"From reading the excerpts from the book and the article, I inferred that Harriet Tubman was a courageous person. I'll write: *Harriet Tubman was a courageous woman.* Now I want to explain what clues helped me make that inference. I learned from the book excerpt that after Harriet became free, she went back to the South nineteen times to lead other slaves to freedom. I think any person who does that is courageous. I'll write: *I think she was courageous because she made nineteen trips south to lead other slaves to freedom.* There is also a clue in the excerpt from the article that helped me infer that Harriet was courageous. That excerpt says that she volunteered to help the Union Army and convinced other African Americans to join her as spies even though they could be hanged if they were caught. I think that she was courageous to volunteer to help the Union Army. By doing so, she put herself in even more danger. I'll write: *Another reason I think Harriet was courageous is because she volunteered to help the Union Army. She wanted to help free all people who were forced into slavery even though she knew it was dangerous.*"

Have the students write about inferences they made about Harriet Tubman's personality and what clues in the excerpts from the book and the article helped them make their inferences. If time permits, ask a few volunteers to share their writing with the class.

### Teacher Note

Prior to doing this activity, you will need to visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print "Harriet Tubman" (BLM3). Make enough copies for each student to have one, and set aside a copy for yourself. Preview the excerpts and identify vocabulary that you want to clarify as you read.

### Materials

- Small self-stick notes for each student
- “Journal Entry” chart (WA15)
- *Student Response Book*, Reading Journal section
- Copy of this unit’s family letter (BLM1) for each student

**TEKS 6.B.iii**  
Student/Teacher Activity  
Step 3 (all)

### Teacher Note

The students used “Stop and Ask Questions” to ask *why* questions about their independent reading in Week 3.

### Teacher Note

If many students are having difficulty generating *why* questions, you might bring the class together and again model the process using your own book as you did in Week 3, Day 4 (see Step 3).

### In this lesson, the students:

- Read independently
- Explore causes of events
- Write in their reading journals
- Confirm one another’s thinking by repeating back what they heard
- Use clarifying questions and statements

## 1 Review the Week

Have the students get their texts for independent reading and pencils and sit at desks with partners together. Remind them that this week they heard *A Picture Book of Harriet Tubman* and made inferences as they thought about what happened in the book and why. Explain that today they will explore *why* questions in the texts they are reading independently.

## 2 Read Independently Without Stopping

Distribute self-stick notes to each student. Ask the students to use self-stick notes to mark the places they begin reading today, and have them read independently for 15 minutes.

## 3 Reread Independently and Ask *Why* Questions

Stop the students after 15 minutes. Explain that you would like them to reread and use “Stop and Ask Questions” to identify places where they can ask *why* questions about events or characters in their books.

They will use additional self-stick notes to mark the places where questions come to mind, and they will write the questions on the notes.

Have the students reread independently for 15 minutes. Circulate and look for evidence that the students are able to write *why* questions. Some students may have difficulty generating questions. To help these students, you might ask them questions such as:

- Q *What is happening in this part of the story? What question that begins with why can you ask about what is happening?*
- Q *What question that begins with why can you ask about the [person/topic] you’re reading about?*

## 4 Have Partners Discuss Their Questions

After 15 minutes, stop the students. Ask each student to choose one *why* question she wrote as she read. Then use “Think, Pair, Share” to have partners discuss whether their questions are answered, and, if they are, how they are answered (directly, or indirectly using clues from the text). Remind each student to tell her partner the title of her text, the author’s name, and what the text is about.

## 5 Write in Reading Journals About the Students’ Independent Reading

Have the students return to their desks and open their *Student Response Books* to the Reading Journal. Display the “Journal Entry” chart (WA15) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

### Journal Entry

Write a journal entry about the text you are reading. Please include:

- The title and the author’s name
- What the text is about
- A *why* question you had about the text
- Whether your question is answered and, if it is, how it is answered

WA15

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

## 6 Reflect on Partner Work

Facilitate a brief discussion about how partners worked together. Ask:

**Q** *What did you enjoy about working with your partner this week?*

**Q** *What is one way your partner work has improved? What is one thing you want to keep working on as you work with other partners in the future? Turn to your partner.*

Invite a few volunteers to share their thinking.

### Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit’s Individual Comprehension Assessment.

### Teacher Note

This is the last week in Unit 6. In Unit 7, the students will explore expository text structures in books and articles, including compare/contrast and sequence. If you feel your students need more experience with making inferences, you may want to repeat this week’s lessons using an alternative book. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

### Teacher Note

If the students struggle to write, you might wish to model writing a journal entry as you did in Unit 2, Week 1, Day 4 (see Step 3).

### Vocabulary Note

Next week you will revisit *A Picture Book of Harriet Tubman* to teach the Week 20 vocabulary lessons.

### Teacher Note

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on the next page.

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of Unit 6. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit’s family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

### Assessment

- Before continuing with the next unit, take this opportunity to assess individual students’ reading comprehension using the “Individual Comprehension Assessment” record sheet (IA1); see page 90 of the *Assessment Resource Book*.

# Unit 7

# Analyzing Text Structure

## EXPOSITORY NONFICTION

During this unit, the students analyze how articles can inform by highlighting pros and cons and by investigating one side of an issue. They examine how functional texts, such as maps and directions, are organized to inform readers. They also look at textbooks and think about how expository text structures, such as sequence and compare/contrast, are used to organize the information in the text. During IDR, the students use comprehension strategies and continue to confer with the teacher individually about the texts they are reading. Socially, they work responsibly during group work and include one another in and contribute to the group work.

# Unit 7

## Analyzing Text Structure

### RESOURCES

#### Read-alouds

- “Virtual Worlds: Community in a Computer”
- “School Uniforms: The Way to Go”
- “School Uniforms: No Way!”
- “How to Make Oobleck”
- “Simon’s Sandwich Shop”
- “City of Lawrence Street Map”
- *Farm Workers Unite: The Great Grape Boycott*

#### Writing About Reading Activities

- “Write Opinions About School Uniforms”
- “Write Opinions About Nonfiction”

#### Technology Mini-lessons

- Mini-lesson 1, “Navigating Safely Online”
- Mini-lesson 4, “Choosing Effective Search Terms”
- Mini-lesson 5, “Understanding Search Results”
- Mini-lesson 6, “Narrowing Search Results and Using Filters”
- Mini-lesson 7, “Evaluating Research Sources”

#### Technology Extensions

# GRADE 4 OVERVIEW

	Day 1	Day 2	Day 3	Day 4
Week 1	<p><b>Read-aloud:</b> “Virtual Worlds: Community in a Computer”</p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Skimming an expository nonfiction article by reading the title, subtitle, headings, and subheadings</li> <li>▪ Hearing and discussing the article</li> <li>▪ Identifying what they learn from the article</li> </ul>	<p><b>Strategy Lesson:</b> “Virtual Worlds: Community in a Computer”</p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Hearing and discussing an expository nonfiction article again</li> <li>▪ Analyzing how information in the article is organized</li> <li>▪ Exploring how articles can inform by highlighting pros and cons</li> </ul>	<p><b>Read-aloud/Guided Strategy Practice:</b> “School Uniforms: The Way to Go”</p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Skimming an expository nonfiction article by reading the title, subtitle, and headings</li> <li>▪ Hearing, discussing, and reading the article</li> <li>▪ Identifying what they learn from the article</li> <li>▪ Exploring the author’s opinion</li> <li>▪ Exploring how articles can inform by investigating one side of an issue</li> </ul>	<p><b>Read-aloud/Guided Strategy Practice:</b> “School Uniforms: No Way!”</p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Skimming an expository nonfiction article by reading the title, subtitle, and headings</li> <li>▪ Hearing, discussing, and reading the article</li> <li>▪ Identifying what they learn from the article</li> <li>▪ Exploring the author’s opinion</li> <li>▪ Exploring how articles can inform by investigating one side of an issue</li> </ul>
Week 2	<p><b>Strategy Lesson</b></p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Looking for and reading functional texts inside and outside the classroom</li> <li>▪ Identifying what they learn from the texts</li> </ul>	<p><b>Read-aloud/Guided Strategy Practice:</b> “How to Make Oobleck”; “Simon’s Sandwich Shop”</p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Reading and discussing two functional texts</li> <li>▪ Identifying what they learn from the texts</li> <li>▪ Analyzing how the information in the texts is organized</li> </ul>	<p><b>Guided Strategy Practice:</b> “City of Lawrence Street Map”</p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Identifying what they learn from a functional text</li> <li>▪ Analyzing how the information in the text is organized</li> <li>▪ Writing in their reading journals</li> </ul>	<p><b>Independent Strategy Practice</b></p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Examining functional texts independently</li> <li>▪ Sharing the texts with classmates</li> <li>▪ Identifying what they learn from the texts</li> <li>▪ Exploring how the texts inform readers</li> </ul>
Week 3	<p><b>Read-aloud:</b> <i>Farm Workers Unite</i></p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Using schema to tell what they know about the topic before listening to the book</li> <li>▪ Hearing and discussing parts of an expository text</li> <li>▪ Identifying what they learn from the text</li> </ul>	<p><b>Read-aloud:</b> <i>Farm Workers Unite</i></p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Hearing and discussing part of an expository text</li> <li>▪ Identifying what they learn from the text</li> </ul>	<p><b>Read-aloud:</b> <i>Farm Workers Unite</i></p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Hearing and discussing parts of an expository text</li> <li>▪ Identifying what they learn from the text</li> </ul>	<p><b>Read-aloud:</b> <i>Farm Workers Unite</i></p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Hearing and discussing parts of an expository text</li> <li>▪ Identifying what they learn from the text</li> </ul>
Week 4	<p><b>Strategy Lesson:</b> <i>Farm Workers Unite</i></p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Using text structure to analyze an expository text</li> <li>▪ Exploring sequence in the text</li> <li>▪ Exploring how information can be organized in expository text</li> </ul>	<p><b>Strategy Lesson:</b> <i>Farm Workers Unite</i></p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Using text structure to analyze an expository text</li> <li>▪ Exploring compare/contrast relationships in the text</li> <li>▪ Exploring how information can be organized in expository text</li> </ul>	<p><b>Guided Strategy Practice:</b> <i>Farm Workers Unite</i></p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Using text structure to analyze an expository text</li> <li>▪ Exploring sequence and compare/contrast relationships in the text</li> <li>▪ Exploring how information can be organized in expository text</li> </ul>	<p><b>Independent Strategy Practice</b></p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Reading independently</li> <li>▪ Using text structure to analyze expository texts</li> <li>▪ Exploring sequence and compare/contrast relationships in the texts</li> <li>▪ Exploring how information can be organized in expository text</li> <li>▪ Writing in their reading journals</li> </ul>

# Week 1

## OVERVIEW

### "Virtual Worlds: Community in a Computer"

(see pages 448-449)

This article explores the pros and cons of playing video games.

### "School Uniforms: No Way!"

(see pages 452-453)

This article discusses the cons of students wearing school uniforms.

### "School Uniforms: The Way to Go"

(see pages 450-451)

This article discusses the pros of students wearing school uniforms.

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

### Assessment Forms

- "Class Assessment Record" sheet (CA1)
- "IDR Conference Notes" record sheet (CN1)

### Professional Development Media

- "Responding Neutrally with Interest" (AV23)
- "Using Presentation Tools" tutorial (AV44)
- "Using Social Media" tutorial (AV46)
- "Creating Audio and Video in the Classroom" tutorial (AV50)

## Comprehension Focus

- Students analyze how the information in expository nonfiction articles is organized.
- Students explore how articles can inform by highlighting pros and cons and by investigating one side of an issue.
- Students explore an author’s opinion.
- Students read independently.

## Social Development Focus

- Students work in a responsible way during group work.
- Students include everyone in and contribute to the group work.

## 1 DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Take time to help them with unfamiliar vocabulary and to show and discuss any text features.
- ✓ Make available expository and functional texts at a variety of levels for the students to read during IDR and Independent Strategy Practice throughout the unit. If possible, include texts that highlight pros and cons, as well as texts that present one side of an issue. If possible, also include texts that use one or both of these text structures: sequence and compare/contrast. Functional texts you might collect include recipes, menus, online maps with directions, schedules, TV program listings, utility bills, game directions, sheet music, brochures, and how-to manuals.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during the unit. Also decide how you will assign pairs to work in groups of four throughout the unit.
- ✓ Prior to Day 1, collect the following read-alouds from Units 2, 3, and 6: *Shattering Earthquakes*; *Nineteenth-Century Migration to America*; *Animal Senses: How Animals See, Hear, Taste, Smell and Feel*; *Slinky Scaly Slithery Snakes*; and *Coming to America* (see Step 2).

(continues)

## 1 DO AHEAD *(continued)*

- ✓ Prior to Day 1, post the “Text Features” chart from Unit 2 where everyone can see it.
- ✓ Prior to Day 1, make a class set of “IDR Conference Notes” record sheets (CN1); see page 107 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1); see page 100 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 20 lessons this week.

**In this lesson, the students:**

- Begin working with new partners and groups
- Skim an expository nonfiction article by reading the title, subtitle, headings, and subheadings
- Hear and discuss the article
- Identify what they learn from the article
- Read independently for up to 30 minutes
- Work in a responsible way during group work

**ABOUT EXPOSITORY TEXT STRUCTURES**

The purpose of this unit is to help the students make sense of expository texts, including articles and functional texts, and to introduce the students to expository text structures, such as sequence and compare/contrast, that are found in many school textbooks. In addition, the students explore different ways authors organize information when writing articles, such as by highlighting pros and cons and by presenting one side of an issue. The students have opportunities to examine functional texts such as instructions, menus, and maps. The unit’s primary goal is for the students to explore these text structures to help them make sense of what they are reading during IDR and to set the groundwork for a deeper analysis of these structures in later years. Mastery of these structures is not expected in this exploratory unit. For more information, see “The Grade 4 Comprehension Strategies” in the Introduction.

**1 Pair and Group Students and Get Ready to Work Together**

Randomly assign partners and make sure that they know each other’s names. Then assign pairs to groups of four. Have the students bring their *Student Response Books* and gather in their groups of four, facing you. Explain that for the next four weeks, they will work with these assigned partners and groups to read various kinds of expository texts and analyze how they are organized and written.

Explain that today the students will hear a text read aloud and use “Heads Together” to help them talk and think about the reading. Ask and briefly discuss:

**Q** *What have you learned about working in groups that will help you as you work with your new group?*

Encourage the students to keep these things in mind as they work with their new groups today.

**Materials**

- “Virtual Worlds” (see pages 448–449)
- Expository read-aloud books from Units 2, 3, and 6, collected ahead
- “Text Features” chart from Unit 2
- *Student Response Book* pages 56–57
- “Thinking About My Reading” chart
- “Reading Comprehension Strategies” chart
- Class set of “IDR Conference Notes” record sheets (CN1)
- *Assessment Resource Book* page 104

## 2 Review Expository Nonfiction

Remind the students that the purpose of expository nonfiction is to give factual, or true, information about a topic. Review that they have heard and read a variety of expository nonfiction already this year. Show and briefly review the following expository nonfiction books they heard earlier: *Shattering Earthquakes* and *Nineteenth Century Migration to America* from Unit 2; *Animal Senses: How Animals See, Hear, Taste, Smell and Feel* and *Slinky Scaly Slithery Snakes* from Unit 3; and *Coming to America* from Unit 6. Ask:

**Q** *What have you learned so far this year about expository nonfiction?*

Have one or two volunteers share their thinking.

### Students might say:

"Expository nonfiction gives information about things like animals and history."

"In addition to what [Cathy] said, expository nonfiction books also have photographs, charts, maps, and other text features to help you understand what you are reading."

"I learned that you can look at the table of contents to get an idea about what information is in the book."

Direct the students' attention to the "Text Features" chart and remind them that expository texts often include features, or special parts or sections, that help the reader locate information in the text or understand the topic better. Encourage the students to use text features to help them better understand the expository texts they read in the coming weeks.

## 3 Introduce and Skim "Virtual Worlds"

Explain that today the students will hear and discuss an article written for young people called "Virtual Worlds: Community in a Computer." Remind the students that earlier in the year they skimmed articles by reading and thinking about the title, subtitle, and headings before hearing the article.

Have the students turn to *Student Response Book* pages 56–57, "Virtual Worlds: Community in a Computer." Draw the students' attention to the headings "Pros" and "Cons" and explain that these are headings. Explain that the word *pros* means "arguments for something" and the word *cons* means "arguments against something." Direct the students' attention to "Teamwork and Community" and explain that this is a subheading, or the heading of the smaller section within the larger section called "Pros." Point out that there are several subheadings in both the "Pros" and "Cons" sections of the article.

### Teacher Note

If necessary, take time to remind the students of the purpose of the title, subtitle, and headings in an article.

Ask the students to silently read the title, subtitle, headings, and subheadings in the article. After a few moments, ask:

**Q** *From reading the title, subtitle, headings, and subheadings, what do you think this article is about?*

Have a few volunteers share their thinking. If necessary, explain that this article gives information about the effects of playing video games on the people who play them. Explain that skimming articles by reading the title, subtitle, headings, and subheadings will give the students some idea of what the article is about before they read it. Encourage the students to follow this procedure before reading articles and other expository texts.

Ask the students to follow along as you read the article aloud. Explain that you will pause during the reading to have the students use “Heads Together” to discuss what they are learning.

## 4 Read Aloud

Read “Virtual Worlds” aloud slowly and clearly, stopping as described below. Clarify vocabulary as you read.

### Suggested Vocabulary

**virtual:** computerized; not real (p. 448)

**controversial:** causing argument (p. 448)

**cooperating:** working together (p. 448)

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**interact:** work or play (p. 448)

**mentally challenging:** hard for the brain to do (p. 448)

**historical event:** something that happened a long time ago (p. 448)

Read the two introductory paragraphs of the article aloud and then reread them, asking the students to listen for any information they might have missed during the first reading. Ask and briefly discuss:

**Q** *What have you learned so far about playing video games?*

Have a few volunteers share their thinking with the class, and then continue reading to the next stopping point:

**p. 448** “The more that people can practice these skills, the more confident and better they become using them in real life.”

Use “Heads Together” to discuss:

**Q** *What did you learn about the effects of playing video games on the people who play them? Heads together.*

### ELL Note

Prior to reading the article aloud, summarize the article for your English Language Learners. Then read the article aloud to them, stopping frequently to check for understanding. If necessary, reread sections of the article and discuss them with your students.

### Teacher Note

During the stops, listen for evidence that the students are discussing the article and understanding it. If necessary, reread parts of the article to help the students recall what they heard. Also, if you notice the students having difficulty sustaining conversations in groups of four, consider having them talk in pairs instead.

## Facilitation Tip

During this unit, we invite you to practice **responding neutrally with interest** during class discussions. To respond neutrally means to refrain from overtly praising (for example, “Great idea” or “Good job”) or criticizing (for example, “That’s wrong”) the students’ responses. While it may feel more natural to avoid criticism rather than praise, research shows that both kinds of responses encourage students to look to you, rather than to themselves, for validation. To build the students’ intrinsic motivation, try responding with genuine curiosity and interest (for example, “Interesting—say more about that”) while avoiding evaluative statements, whether positive or negative. To see this Facilitation Tip in action, view “Responding Neutrally with Interest” (AV23).

## Teacher Note

Today’s discussion focuses on surface-level comprehension of the article. Tomorrow, the students will look more closely at the article to discuss why the article was written the way it was.

Have a few volunteers share what their groups discussed, and then continue reading to the next stopping point:

**p. 448** “. . . students could put themselves in the place of the soldiers to understand the situation better.”

Use “Heads Together” to have the students discuss what they learned. Without sharing as a class, continue reading. Follow the same procedure at the next stopping point:

**p. 449** “. . . without worrying about hurting themselves or others, they might feel encouraged to take dangerous risks in real life.”

After giving groups time to discuss what they learned, reread the last sentence before the stop and continue reading to the end of the article.

## 5 Discuss the Article

After the reading, facilitate a class discussion using the questions that follow. As the students respond, be ready to reread from the article to help them recall what they heard.

**Q** *What did you learn about the effects of playing video games from this article?*

**Q** *What did you find out about video games that surprised you?*

### Students might say:

“I learned that people think playing video games is a good thing because the games can make kids smarter.”

“In addition to what [Hiroshi] said, they can also help people like police and firefighters train for their jobs.”

“I was surprised to learn that kids who play a lot of violent video games might try to solve problems by using violence in real life.”

Explain that the students will reread the article tomorrow and discuss how the author organized the information in the article.

## 6 Reflect on Working in New Groups

Use “Heads Together” to discuss:

**Q** *What do you think worked well today in your new group? What did you do to be sure everyone was included in the discussions? Heads together.*

Have a few volunteers share what their groups discussed.

# INDIVIDUALIZED DAILY READING

## 7 Review and Practice Self-monitoring and “Fix-up” Strategies

Tell the students that for the next four weeks they will read expository nonfiction during IDR.

Refer to the “Thinking About My Reading” chart and review the questions on it. Remind the students that it is important to stop, think about what they are reading, and use the questions on the chart to help them monitor their comprehension. If a student does not understand what she is reading, she should use one or both of the “fix-up” strategies of rereading and reading ahead. If a student has tried both of the “fix-up” strategies and still does not understand the text, she can try the strategies listed on the “Reading Comprehension Strategies” chart. Alternatively, the student might ask you or a classmate for help.

Have the students get their texts and read silently for up to 30 minutes. Stop them at 10-minute intervals and have them monitor their comprehension by thinking about the charted questions.

After the students have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Beginning today, and continuing throughout the unit, confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 107 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Facilitate a brief discussion with the students about using the questions on the “Thinking About My Reading” chart to track their reading comprehension. Ask and briefly discuss questions such as:

- Q *Why is it important to stop as you are reading and ask yourself if you understand what you read?*
- Q *How do rereading and reading ahead help you make sense of text?*
- Q *Which comprehension strategy do you find the most helpful when you’re not understanding something you’re reading? Why?*

Have the students return to their desks and put away their texts.

**TEKS 6.I.ii**  
Student/Teacher Activity  
Step 7 (all)

### ELL Note

To support your English Language Learners, consider modeling reading a text and stopping periodically to ask yourself the self-monitoring questions listed on the “Thinking About My Reading” chart. Discuss each question with your students to make sure they understand the process.

### Teacher Note

Provide time on a regular basis for the students to record the texts they have completed in their reading logs.

**Materials**

- “Virtual Worlds” (see pages 448–449)
- *Student Response Book* pages 56–57
- “Reading Comprehension Strategies” chart and a marker

**In this lesson, the students:**

- Hear and discuss an expository nonfiction article again
- Analyze how information in the article is organized
- Explore how articles can inform by highlighting pros and cons
- Read independently for up to 30 minutes
- Include everyone in and contribute to the group work

**1 Get Ready to Work Together**

Have the students bring their *Student Response Books* and pencils and gather in their groups of four, facing you. Remind the students that they have been working on including everyone in and contributing to group discussions. Ask:

**Q** *Why is it important for all the members of your group to share their ideas?*

Have a few volunteers share their thinking with the class. Encourage them to continue working on including everyone in and contributing ideas to the group discussions.

**2 Review “Virtual Worlds”**

Review that in the previous lesson the students heard and discussed the article “Virtual Worlds: Community in a Computer.” Ask and briefly discuss as a class:

**Q** *What did you learn about playing video games from this article?*

Have a few volunteers share what they remember.

**3 Introduce Highlighting Pros and Cons**

Explain that authors organize articles and other kinds of expository nonfiction texts very deliberately to inform their readers in a particular way. Explain that one way writers inform readers is by highlighting the pros and cons of an issue. Review that pros and cons are arguments for and against something. Explain that highlighting pros and cons helps readers to consider both sides and to deepen their understanding of an issue.

Explain that today the students will think and talk about how “Virtual Worlds: Community in a Computer” is organized to highlight the pros and cons of playing video games.

## 4 Reread “Virtual Worlds” and Discuss in Groups

Have the students turn to *Student Response Book* pages 56–57, “Virtual Worlds: Community in a Computer,” and explain that they will read along silently as you reread the article. Ask them to consider the following questions while you read:

- Q *What are some of the benefits of playing video games?*
- Q *What are some reasons playing video games might be bad for the people who play them?*

Read “Virtual Worlds: Community in a Computer” aloud without stopping. After the reading, use “Heads Together” to have the groups discuss:

-  Q *What are the pros and cons, or arguments for and against, playing video games? Heads together.*

## 5 Discuss Pros and Cons as a Class

When most of the students have had time to talk in their groups, facilitate a class discussion about the pros and cons of playing video games by asking questions such as:

- Q *According to the article, what are the pros of playing video games? In what ways can video games be good for the people who play them?*
- Q *How does [“playing MMOGs promotes cooperation”] support the opinion that video games can be good for the people who play them?*
- Q *According to the article, what are the cons of playing video games? What are some problems that can come from playing video games?*
- Q *How does [“interacting with other people while playing video games is different than interacting with people in real life”] support the opinion that video games can be bad for the people who play them?*

### Students might say:

“The article says that for kids to be successful playing MMOGs, they have to cooperate and play with other kids. I think that’s a benefit of playing video games because you need to be able to cooperate with people in everything you do. If people can learn that from playing video games, that makes them good for the people who play them.”

“I disagree with [Juan] because the article also says that interacting with other people while playing video games is different from interacting with people in real life. A kid might be social on the computer but might not have learned how to be social with kids in real life. That supports the opinion that video games might be bad for people who play them.”

Review that highlighting pros and cons is one way authors organize articles and other kinds of expository nonfiction to inform their readers. Explain that noticing how expository nonfiction texts are written and organized is an important comprehension strategy that the students will explore in the coming weeks.

### Teacher Note

Circulate among the groups and notice whether group members are contributing to and including everyone in the discussion. Note examples of what is working well in the groups to bring to the students’ attention later. Support groups that are struggling to answer the question by asking questions such as:

- Q *What are some of the benefits of playing video games?*
- Q *What are some reasons playing video games might be bad for the people who play them?*

### Teacher Note

Remind the students to connect their comments to comments made by others using the discussion prompts:

- “I agree with \_\_\_\_\_ because . . .”
- “I disagree with \_\_\_\_\_ because . . .”
- “In addition to what \_\_\_\_\_ said, I think . . .”

## 6 Add to the “Reading Comprehension Strategies” Chart

Direct the students’ attention to the “Reading Comprehension Strategies” chart and add *analyzing how texts are organized* to it.

### Reading Comprehension Strategies

- using text features
- questioning
- recognizing story elements
- making inferences
- visualizing
- analyzing how texts are organized

Explain that tomorrow the students will hear and discuss another article and think and talk about how it is organized.

## 7 Reflect on Working in Groups

Share any observations you made about how the students worked together during “Heads Together.” Ask and briefly discuss questions such as:

- Q *How did your group do with making sure everyone was included in the discussion? If everyone was not included, what can you do next time to make sure everyone is included?*
- Q *How did you contribute to the group discussion during “Heads Together”?*

## INDIVIDUALIZED DAILY READING

## 8 Review the “Reading Comprehension Strategies” Chart and Read Independently

Direct the students’ attention to the “Reading Comprehension Strategies” chart and ask them to notice which strategies they use and where they use them during their reading today. Tell the students that at the end of IDR, you will ask them to share the strategies they used with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 107 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their reading with the class. Have each volunteer share the title of the book she read, the author’s name, and what the book is about. Then have her share the name of a strategy she used and where in the text she used it. Follow up by asking questions such as:

- Q *How did [looking at the map in your book] help you understand more about [Lewis and Clark’s journey]?*
- Q *How did [asking questions before you began reading about the life cycle of the monarch butterfly] help you make sense of the text?*

Have students who cannot think of a comprehension strategy they used talk about what they read. Have the students return to their desks and put away their texts.

## TECHNOLOGY EXTENSIONS

### Find and Read More Articles About the Pros and Cons of Video Games

Help your students find more articles about the pros and cons of playing video games. Search for articles online using keywords such as “pros and cons of playing video games” or “pro and con articles about playing video games for kids.” Have the students choose one or two articles to read and discuss with their partners. Facilitate a discussion about their reading by asking questions such as:

- Q *What more did you learn about the benefits of playing video games?*
- Q *What more did you learn about why video games might be bad for the people who play them?*
- Q *Did anything you read today change your opinion about the benefits of video games? Why or why not?*

### Technology Tip

To support the students in doing online research, you might teach the following technology mini-lessons in Appendix B: Mini-lesson 1, “Navigating Safely Online”; Mini-lesson 4, “Choosing Effective Search Terms”; Mini-lesson 5, “Understanding Search Results”; Mini-lesson 6, “Narrowing Search Results and Using Filters”; and Mini-lesson 7, “Evaluating Research Sources.” For more information about teaching Technology Mini-lessons 4-7, see “About Teaching the Online Research Lessons” at the beginning of Technology Mini-lesson 4.

### Technology Tip

Alternatively, you might have the students use the questions to create a poll on a student-friendly social-networking site and ask family members to take the poll online. For more information, view the “Using Social Media” tutorial (AV46).

## Take a Poll About Video Games

Have the class generate lists of what they think are the most persuasive arguments for and against playing video games, and then post the lists on the class blog. Have the students discuss the lists on the blog with their families and then take a poll of their family members by asking questions such as:

- Q *Do you think there can be benefits to playing video games?*
- Q *Do you think students should be allowed to play video games in school?*
- Q *Do you play video games?*
- Q *How old are you?*

Help the students compile and analyze the data from the poll. Facilitate a discussion about the results of the poll by asking questions such as:

- Q *What can you learn from the data we collected from our poll?*
- Q *How many people think there can be benefits to playing video games?*
- Q *How many people think students [should/should not] be allowed to play video games in school?*
- Q *How many people surveyed [play/do not play] video games?*
- Q *What do you notice about the ages of the people who were polled? What do you notice about how people of different ages answered each question?*

# Day 3

## Read-aloud/ Guided Strategy Practice

### Materials

- “School Uniforms: The Way to Go” (see pages 450–451)
- *Student Response Book* pages 58–59
- “Reading Comprehension Strategies” chart

### Teacher Note

Today’s lesson may take longer than usual to complete. You might consider stopping after Step 4 and then completing the remainder of the lesson at another time.

### In this lesson, the students:

- Skim an expository nonfiction article by reading the title, subtitle, and headings
- Hear, discuss, and read the article
- Identify what they learn from the article
- Explore the author’s opinion
- Explore how articles can inform by investigating one side of an issue
- Read independently for up to 30 minutes

## 1 Review Highlighting Pros and Cons

Have the students bring their *Student Response Books* and pencils and gather in their groups of four, facing you. Remind the students that they read the article “Virtual Worlds: Community in a Computer” and noticed

how the article was written to inform the reader by highlighting the pros and cons of (or arguments for and against) playing video games. Ask:

**Q** *Which side of the issue did you find more convincing? Why was it more convincing to you?*

Have a few volunteers share their thinking.

## 2 Introduce and Skim “School Uniforms: The Way to Go”

Tell the students that today they will hear and discuss another article written for young people, called “School Uniforms: The Way to Go.” Explain that this article is written to provide information about one side of an issue.

Review that earlier in the week the students skimmed an article by reading the title, subtitle, headings, and subheadings of the article to help them think about what information might be in it. Explain that today the students will skim “School Uniforms: The Way to Go.” Have the students turn to *Student Response Book* pages 58–59, where the article is reproduced, and silently read the title, subtitle, and headings. Ask and briefly discuss:

**Q** *From reading the title, subtitle, and headings, what do you think this article is about?*

Have a few volunteers share their thinking. If necessary, explain that this article discusses why wearing school uniforms is good for students.

Ask the students to follow along as you read the article aloud. Explain that you will pause during the reading to have the students use “Heads Together” to discuss what they are learning.

## 3 Read Aloud

Read “School Uniforms: The Way to Go” aloud slowly and clearly, stopping as described on the next page. Clarify vocabulary as you read.

### Suggested Vocabulary

**express themselves:** show who they are (p. 450)

**‘in’ or ‘out’:** in style or out of style (p. 450)

**costly designer labels:** expensive clothes (p. 450)

**shift from “play mode” to “work mode”:** go from feeling like it’s time to play to feeling like it’s time to work (p. 451)

### **ELL Note**

Prior to this activity, read the title, subtitle, and headings to your English Language Learners. Then summarize the article for them.

TEKS 9.E.i  
TEKS 9.E.ii  
TEKS 9.E.iii  
TEKS 9.E.iv  
Student/Teacher Narrative  
Step 4 (all, beginning on page  
438 and continuing on to  
page 439)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**identify them:** help people know who they are (p. 450)

**judge me:** think I am either good or bad (p. 450)

**advantage:** good thing (p. 450)

**pressure:** feeling like you have to do something (p. 450)

**belong:** are a member of a group; fit in (p. 451)

**school pride:** feeling good about the school (p. 451)

**limit:** give fewer choices about (p. 451)

**creative:** fun and different (p. 451)

**their appearance:** how they look (p. 451)

Read the two introductory paragraphs of the article aloud and then reread them, asking the students to listen for any information they might have missed during the first reading. Ask:

**Q** *What have you learned so far about wearing school uniforms?*

Have a few volunteers share their thinking, and then continue reading to the next stopping point:

**p. 450** "... and there's no pressure to wear costly designer labels to school."

Use "Heads Together" to discuss:

 **Q** *What else have you learned about wearing school uniforms? Heads together.*

Have one or two volunteers share what their groups discussed, and then continue reading to the next stopping point:

**p. 451** "... so the intruders are more likely to stay away."

 Use "Heads Together" to have the students discuss what they learned. Without sharing as a class, reread the last sentence before the stop and continue reading to the end of the article.

## **4** Introduce the Author's Opinion and How the Article Is Organized

Explain that authors often have a point of view or an opinion that they want the reader to understand. Explain that in this article the author gives many examples to support the opinion that wearing school uniforms is good for students.

Tell the students that the author of this article carefully organized the information to help readers understand why wearing school uniforms is a good idea. Explain that in the first two paragraphs, the author introduces the subject of the article by telling a little about school uniforms. In the remainder of the article, the author gives reasons why wearing school uniforms is good for students.

Tell the students that you will reread the introduction and the first section of the article, which describes one of the reasons the author gives in support of wearing uniforms in school. Ask the students to follow along as you read the first page of the article aloud. Stop after:

**p. 450** “. . . and there’s no pressure to wear costly designer labels to school.”

Have the students find and underline the sentence “Wearing a uniform helps you feel more confident because everyone else at school will be wearing the same outfit.” Explain that this is one example that supports the author’s opinion that wearing school uniforms is good for students.

## 5 Reread the Rest of the Article and Highlight Evidence in Pairs

Explain that the students will read the rest of the article in pairs and underline other examples that the author uses to support the opinion that school uniforms are a good idea for students. Have pairs spend several minutes working together to find and underline evidence in the article. Circulate among the students and notice which sentences they underline.

## 6 Discuss the Author’s Opinion as a Class

Signal for the students’ attention and review that the author of “School Uniforms: The Way to Go” includes only evidence that supports the opinion that wearing school uniforms is good for kids. Facilitate a class discussion about the author’s opinion by asking questions such as:

- Q *What did you and your partner underline in the article that supports the opinion that wearing school uniforms is good for students?*
- Q *How does [“there’s no pressure to wear costly designer labels to school”] support the opinion that wearing school uniforms is good for students?*
- Q *What questions can we ask [Kyle] about his thinking?*
- Q *After reading “School Uniforms: The Way to Go,” do you agree that wearing school uniforms is good for students? Why or why not?*

Explain that many articles in newspapers and magazines and on the Internet are written to inform the reader about one side of an issue only; they do not inform readers about different opinions. Tell the students that it is important for them to recognize when an author is presenting only one side of an issue so that they can think about whether they have enough information to form their own opinions.

Tell the students that tomorrow they will hear another article about school uniforms.

**TEKS 9.E.iii**  
**TEKS 9.E.iv**  
Student/Teacher Activity  
Step 5 and Step 6 (all)

### Teacher Note

Other evidence that supports the author’s opinion includes:

- “Some studies have shown that wearing a uniform does even more than that: it can also help you to focus on your schoolwork.”
- “Uniforms help keep students safer by showing who does—and doesn’t—belong in the school.”
- “School uniforms encourage us to get to know people’s personalities rather than judging them only by what they wear.”

## INDIVIDUALIZED DAILY READING

### 7 Read Independently and Discuss the Comprehension Strategies the Students Used

Direct the students' attention to the "Reading Comprehension Strategies" chart and ask them to notice which strategies they use and where they use them during their reading today. Tell the students that at the end of IDR, you will ask them to share the strategies they used with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 107 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their reading with the class. Have each volunteer share the title of the text she read, the author's name, and what the text is about. Then have her share the name of a strategy she used and where in the text she used it. Follow up by asking questions such as:

- Q *What did you infer about the author's purpose in the article about [why children should not watch television]? How did inferring about the author's purpose help you make sense of the text?*
- Q *How did visualizing [the hardships a gold miner faced as he panned for gold during the gold rush] help you make sense of your text?*

Have students who cannot think of a comprehension strategy they used talk about what they read. Have the students return to their desks and put away their texts.

## In this lesson, the students:

- Skim an expository nonfiction article by reading the title, subtitle, and headings
- Hear, discuss, and read the article
- Identify what they learn from the article
- Explore the author’s opinion
- Explore how articles can inform by investigating one side of an issue
- Read independently for up to 30 minutes

## 1 Review “School Uniforms: The Way to Go”

Have the students bring their *Student Response Books* and pencils and gather in their groups of four, facing you. Ask them to turn to *Student Response Book* pages 58–59, and review that earlier they heard and discussed an article called “School Uniforms: The Way to Go.” Remind the students that this article informs the reader about one side of an issue. Ask and briefly discuss:

**Q** *What is “School Uniforms: The Way to Go” about?*

**Q** *What is the author’s opinion in the article? How do you know that?*

Have a few volunteers share their thinking. Explain that today the students will hear and discuss another article about school uniforms.

## 2 Introduce and Skim “School Uniforms: No Way!”

Ask the students to turn to *Student Response Book* pages 60–61, “School Uniforms: No Way!” Have the students silently read the title, subtitle, and headings. Ask and briefly discuss:

**Q** *From reading the title, subtitle, and headings, what do you think this article is about?*

Have a few volunteers share their thinking. If necessary, explain that this article discusses why wearing school uniforms is not good for students.

Ask the students to follow along as you read the article aloud. Explain that you will stop during the reading to have them use “Heads Together” to discuss what they are learning. Invite the students to think about the author’s opinion as they listen.

## Materials

- “School Uniforms: No Way!” (see pages 452–453)
- *Student Response Book* pages 58–61
- “Class Assessment Record” sheet (CA1)

## Teacher Note

Today’s lesson may take longer than usual to complete. You might consider stopping after Step 3 and then completing the remainder of the lesson at another time.

### 3 Read Aloud

Read “School Uniforms: No Way!” aloud slowly and clearly, stopping as described below. Clarify vocabulary as you read.

#### Suggested Vocabulary

**wardrobe decisions:** choices about what to wear (p. 452)

**debated:** talked about (p. 452)

**supporters:** people who want school uniforms (p. 452)

**opponents:** people who don’t want school uniforms (p. 452)

**protested:** spoke out against (p. 452)

**hardship:** difficulty or burden (p. 453)

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**your mood:** how you feel (p. 452)

**shooting hoops:** playing basketball (p. 453)

**typical school wardrobe:** clothes that are not part of a uniform (p. 453)

**evaluate:** find out (p. 453)

**evidence:** information (p. 453)

**come to a firm conclusion:** know for sure (p. 453)

Read the two introductory paragraphs of the article aloud and then reread them, asking the students to listen for any information they might have missed during the first reading. Ask:

**Q** *What have you learned so far about wearing school uniforms?*

Have a few volunteers share their thinking, and then continue reading to the next stopping point:

**p. 452** “... said things like ‘I Miss My Real Clothes.’”

Use “Heads Together” to discuss:

 **Q** *What else have you learned about wearing school uniforms? Heads together.*

Have one or two volunteers share what their groups discussed, and then read the next two sections. Stop after:

**p. 453** “... can be a hardship for families that are struggling financially.”

 Use “Heads Together” to have the students discuss what they learned. Without sharing as a class, reread the last sentence before the stop and continue reading to the end of the article. Ask and briefly discuss:

**Q** *What is the author’s opinion in this article? How do you know that?*

## 4 Reread and Briefly Discuss “School Uniforms: No Way!”

TEKS 9.E.iii  
TEKS 9.E.iv  
Student/Teacher  
Activity  
Steps 4–6 (all,  
beginning on  
page 443 and  
continuing on to  
page 444)

Explain that a volunteer in each group of four will reread the article aloud to the rest of the group. Explain that the students will follow along and listen for evidence that supports the opinion that wearing school uniforms is not good for students, and then groups will use “Heads Together” to talk about the evidence they heard in the article.

Ask a student from each group to volunteer to read the article aloud to the rest of the group. Ask the students to consider the following question as they listen:

**Q** *What information does the author include in the article to support the opinion that wearing school uniforms is not good for students?*

## 5 Underline Evidence of the Author’s Opinion

Without having the students discuss the question as a class, explain that they will silently scan the article in their *Student Response Books* and underline three pieces of evidence that support the author’s opinion. Have the students spend a few minutes looking for and underlining evidence in the article. Circulate as the students work and notice which sentences they underline.

### CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students understand the article?
- Are they able to identify examples that support the author’s opinion in the article?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 100 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify examples that support the author’s opinion in the article, proceed with the lesson and continue on to Week 2.
- If **about half of the students** or **only a few students** are able to identify examples that support the author’s opinion in the article, you might give the class additional instruction by repeating this week’s lessons using an alternative text before continuing on to Week 2. Resources for alternative texts are suggested in the “Grade 4 Alternative Texts” list. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the list.

### ELPS 4.F.ix

Steps 4–6

(all, beginning on page 443 and continuing on to page 444)

#### Teacher Note

If more than one student wants to read aloud, suggest that the students take turns reading sections of the article aloud. If most of the students are reluctant to read aloud, ask the students to reread the article to themselves silently. Support your English Language Learners as needed.

#### Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit’s Individual Comprehension Assessment.

#### Teacher Note

Evidence in the article that supports the opinion that wearing school uniforms is not good for kids includes:

- “A common argument against school uniforms is that they limit self-expression.”
- “If the fabric or design of a school uniform is uncomfortable, it can affect students’ work and play.”
- “The cost of buying a set of uniforms at the start of a school year—one uniform for everyday use, another for special events, and a third for gym class—can be a hardship for families that are struggling financially.”

#### Teacher Note

You might wish to use articles that address the pros and cons of issues such as whether homework is helpful, whether all kids should learn how to write cursive, or whether students should be required to wear seatbelts on school buses.

ELPS 3.G.i  
Step 7 (all)

TEKS 6.H.i  
TEKS 7.A.i  
Student/Teacher Activity  
Step 7 (all)

## 6 Discuss Evidence as a Class

Signal for the students' attention and facilitate a class discussion about evidence that supports the author's opinion in "School Uniforms: No Way!" by asking questions such as:

- Q *What did you underline in the article that supports the opinion that wearing school uniforms is not good for students?*
- Q *How does ["a study from the University of Missouri also couldn't find any proof that uniforms helped students to learn better"] support the opinion that wearing school uniforms is not good for students?*
- Q *What questions can we ask [Zora] about her thinking?*

## 7 Discuss the Students' Opinions About Wearing School Uniforms

Review that the students have read two articles about school uniforms. The first article, "School Uniforms: The Way to Go," informs readers about the reasons why wearing school uniforms is good for students. The second article, "School Uniforms: No Way!" informs readers about the reasons why wearing school uniforms is not good for students. Ask and briefly discuss:

- Q *After reading both articles, do you have enough information to form your own opinion about the issue?*
- Q *If so, what is your opinion about wearing school uniforms? Why?*
- Q *If not, what additional information would help you form your opinion? Why?*

Review that this week the students have explored how articles can inform readers by highlighting one or both sides of an issue. Emphasize that it is important when reading articles for readers to ask themselves whether they are finding out about all sides of an issue or not. Encourage the students to notice the author's opinion in their independent reading.

Explain that next week the students will continue to explore other kinds of expository text.

## INDIVIDUALIZED DAILY READING

### 8 Read Independently and Discuss Text Features

Ask the students to notice the text features in their texts and what they learn from them during independent reading today. Tell the students that at the end of IDR, you will ask them to share with the class what text features they noticed and what they learned from them. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 107 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share with the class the text features they noticed and what they learned from them. Have each volunteer begin by sharing the title of the text he read, the author’s name, and what the text is about.

Have students who did not notice a text feature talk about what they learned from their reading today. Have the students return to their desks and put away their texts.

## WRITING ABOUT READING

### Write Opinions About School Uniforms

Review that the students have read two articles about school uniforms. The first article, “School Uniforms: The Way to Go,” informs readers about the reasons why wearing school uniforms is good for students, and the second article, “School Uniforms: No Way!” informs readers about the reasons why wearing school uniforms is not good for students. Have the students turn to *Student Response Book* pages 58–59, “School Uniforms: The Way to Go,” and ask:

**Q** *What are some reasons the author gives that support the opinion that wearing school uniforms is good for students?*

#### Students might say:

“The author of this article says that when students wear uniforms, they feel more confident because everyone is wearing the same thing.”

“Another reason the author gives to support the opinion that wearing school uniforms is good for students is that families will spend less money on school clothes.”

“The author also says that when students wear uniforms, they learn to express themselves in more creative ways.”

As the students share, write their ideas under the heading “Pros” where everyone can see them. Then have the students turn to *Student Response Book* pages 60–61, “School Uniforms: No Way!” Ask:

**Q** *What are some reasons the author gives that support the opinion that wearing school uniforms is not good for students?*

### Vocabulary Note

Next week you will revisit “Virtual Worlds: Community in a Computer” and “School Uniforms: The Way to Go” to teach the Week 21 vocabulary lessons.

### Materials

- “School Uniforms: The Way to Go” (see pages 450–451)
- “School Uniforms: No Way!” (see pages 452–453)
- *Student Response Book* pages 58–61

**Students might say:**

"The author of this article says that when students wear uniforms, they are not able to express who they are and how they feel on a particular day."

"The article also says that uniforms can be uncomfortable, and that might keep students from learning."

"This article says that buying uniforms might actually cost more because you have to have one uniform for everyday use, one for special events, and another one for gym class."

As the students share, write their ideas under the heading "Cons" where everyone can see them. Ask:

**Q** *After reading both of these articles, which side of the issue do you support? Do you think wearing school uniforms is good or bad for students? Why do you think that?*

Have a few volunteers share their thinking with the class. Tell the students that when they choose to support one side of an issue, they are forming their own opinions about the issue. Explain that people might have different opinions about the same thing, and that is fine. What matters is that they give reasons to explain their thinking. Then ask the students to watch as you think aloud and model writing about the side of the issue you support and why you support it.

**You might say:**

"I agree with the author of the article 'School Uniforms: The Way to Go.' I'll write: *I agree with the author of 'School Uniforms: The Way to Go.'* Now I'll give a reason why I agree with the author. I'll write: *I think that wearing school uniforms is good for students because every student is wearing the same thing, so no student will be made fun of for the clothes he or she is wearing.* Now I'll write another reason to explain my thinking. I'll write: *Wearing school uniforms also keeps students from being distracted by other people's clothing. Students can concentrate on learning instead of on what they or their classmates are wearing. I think that all schools should consider having students wear uniforms.*"

Have the students choose one side of the issue to support and then write about why they support it. Encourage the students to refer to the articles in their *Student Response Books* to support their thinking. If time permits, invite the students to share their writing with the class.

---

## EXTENSION

### Read More Articles and Discuss the Authors' Opinions

Have the students bring in articles from newspapers and magazines that highlight either one side of an issue or the pros and cons of an issue. As a class, discuss several of the articles. For each article, have the students decide if the article gives them enough information to form an opinion about the issue.

---

## TECHNOLOGY EXTENSION

### Research and Create Presentations About School Uniforms

You might have the students read and discuss other articles about school uniforms. The students can find articles by searching online using keywords such as “pros and cons of school uniforms for kids.” After the students have researched the subject, you might suggest that groups of four choose positions for or against wearing school uniforms. Each group might collaborate to create a presentation or a short video supporting their position using information gathered during their online research. Have the groups use “Heads Together” and “Group Brainstorming” to help them work well together. The groups might then deliver their presentations to the rest of the class. After each presentation, encourage a class discussion about the relative merits of the arguments made.

#### Technology Tip

Prior to doing this activity, you might wish to view the “Using Presentation Tools” tutorial (AV44).

To support the students in doing online research, you might teach the following technology mini-lessons in Appendix B: Mini-lesson 1, “Navigating Safely Online”; Mini-lesson 4, “Choosing Effective Search Terms”; Mini-lesson 5, “Understanding Search Results”; Mini-lesson 6, “Narrowing Search Results and Using Filters”; and Mini-lesson 7, “Evaluating Research Sources.” For more information about teaching Technology Mini-lessons 4-7, see “About Teaching the Online Research Lessons” at the beginning of Technology Mini-lesson 4.

#### Technology Tip

For more information about creating videos, view the “Creating Audio and Video in the Classroom” tutorial (AV50).

# VIRTUAL WORLDS

## COMMUNITY IN A COMPUTER

These days, you don't have to leave your home to have fun or to play with other people. Within the world of a video game, a person can kick a virtual soccer ball, defeat a virtual army, or build a virtual city. Two players from opposite sides of the world can team up, create plans, and work together.

Video games are played in two out of three households in the United States. These games have never been more popular—or controversial. Some people say video games can help players learn skills such as quick thinking and problem-solving, but there is also evidence that gaming can be harmful to players' health and other parts of their lives.

### PROS

#### TEAMWORK AND COMMUNITY

For people who are shy, video gaming can be a way to learn how to interact with others. Massively multiplayer online games, or MMOGs, are video games that allow thousands of players around the world to play the same video game at one time. Often, each MMOG player creates a virtual character that interacts with other players' characters in the virtual world. Players work together to accomplish goals—for example, building cities or defeating an army. In order to be successful in an MMOG game, players have to spend a lot of time playing and cooperating with other players.

#### IMPROVED MOTOR SKILLS

There is evidence that video gaming may improve motor skills, boosting your ability to use your muscles to do things. Gaming may also improve your hand-eye coordination, or how well your eyes and hands work together. Playing video games may also help increase your speed in responding to a situation. This can help with all kinds of real-world activities. Some video game programs even simulate, or imitate, certain activities to help people practice skills they will need in their careers. Using video games called simulation programs, airplane pilots, firefighters, and police officers can all practice skills needed for their jobs. The more that people can practice these skills, the more confident and better they become using them in real life.

#### PROBLEM-SOLVING

In the United States, intelligence test scores are rising higher than ever before. Some researchers say that one reason could be video gaming. Virtual games present a series of problems that players must solve to succeed in the game. Like anything else that is mentally challenging, this could make people smarter. In the fast-paced modern world, where decisions often need to be made quickly, young people could be learning skills that will help them to succeed in the future.

#### PLAYING TO LEARN

If video games could be used in the classroom, perhaps students would be able to pay more attention to what they are learning. For example, when learning about a historical event such as a battle, students could put themselves in the place of the soldiers to understand the situation better.

A pilot using a simulation program can practice skills, such as performing an emergency landing, without getting hurt.

## CONS

### REAL-WORLD ISOLATION

Video game critics worry that young people who spend too much time playing video games might not learn important social skills needed to make friends and succeed in the real world. Interacting with a person in an online video game is very different from interacting with a person face-to-face. The etiquette, or how someone is expected to behave, is different within each setting. So while a person might feel confident and make friends easily within the virtual world, outside of that world he or she might feel increasingly shy and have trouble talking to people.

### HEALTH RISKS

Apart from exercising the hands and wrists, video gaming isn't a physical activity. Young people who spend hours gaming each day may not get enough exercise. One study found that teens who played video games ate more food, which could lead to overeating and weight problems over time. Doctors have also found that some gamers complain of eye strain, headaches, and wrist pain. People who

spend hours playing these games can develop problems such as RSI (repetitive strain injury), which occurs when a person repeats the same action over and over for hours. Additionally, some people argue that since gamers can engage in dangerous behavior—such as racing cars at fast speeds—within the game world without worrying about hurting themselves or others, they might feel encouraged to take dangerous risks in real life.

### VIOLENT TENDENCIES

Critics argue that violent video games can encourage players to solve problems using violence. A 2011 study monitoring brain reaction to violent video games found that the brains of people who played violent video games were less sensitive to violence than the brains of players of nonviolent video games. Because their brains were less sensitive to violence, players of violent video games were more likely to respond to situations with aggression.

### BEHIND ON THE BOOKS

Teachers worry that students who spend hours playing video games may fall behind on schoolwork. There is also a risk that using video games as learning tools would keep students from learning the importance of reading and using their imaginations. Reading helps people learn and think about information independently. Through reading, a person uses his or her imagination to understand ideas. Educational video games in classrooms might discourage students from learning how to think imaginatively.

**It's easy to lose track of time during an intense video gaming session—which means that schoolwork can suffer.**

# School Uniforms

## The Way to Go

Jackets, ties, and dress pants; knee-high socks, skirts, and blouses—in schools around the world, students prepare for the school day by putting on uniforms. Love it or hate it, the school uniform is one of the most common kinds of uniforms in the world. School uniforms make schoolchildren look neat and clean and identify them as students of a certain school.

Many students say that uniforms look boring or that they don't allow kids to express themselves with the clothes they choose to wear. On the surface, school uniforms might not seem cool, but wearing them has some big benefits.

### An End to Indecision

Being decisive about what to wear to school can be challenging. Many young people worry about how they look: "Will people judge me by what I'm wearing? Is green 'in' or 'out' this season?" Wearing a uniform helps you feel more confident because everyone else at school will be wearing the same outfit. Nobody will judge you by what clothing you wear.

Because you don't need to decide what to wear, a uniform helps you to save time in the morning. There is another advantage to wearing a uniform: It will help you save money because usually you'll need to buy only one or two uniforms at the start of the year—and there's no pressure to wear costly designer labels to school.

During the 2009–2010 school year, about 19 percent of public schools required their students to wear uniforms.

## Identity and Belonging

It's good to feel that you belong! A school uniform gives you a sense of identity and school pride. Some studies have shown that wearing a uniform does even more than that: it can also help you to focus on your schoolwork. It's similar to how a businessperson dresses in a suit when he or she goes to work. Dressing in more formal clothes helps you to shift from "play mode" to "work mode." After all, the main reason you go to school is to study and learn.

Teachers and parents like school uniforms for another reason. Uniforms help keep students safer by showing who does—and doesn't—belong in the school. Intruders realize they will stand out if they enter a school where the students are all in uniform, so the intruders are more likely to stay away.

Judging people by how they look is human nature, but we need to find other ways of learning about one another, too.

## Self-expression

Belonging is good, but what about expressing yourself? It's true that school uniforms limit the ways you can look. However, a uniform doesn't limit who you are, the way you speak, and how you behave. In fact, it helps you to learn to express yourself in more creative ways. Knowing how to talk about your opinions, ideas, and beliefs is a great life skill, and wearing a school uniform encourages you to practice that skill.

Have you ever heard the expression "judging a book by its cover"? It means to judge something by how it looks before you've taken the time to understand it. We all judge people a little by how they look—for example, we can guess that someone with spiky blue hair likes punk music or that someone who wears red from head to toe likes to stand out. But you can't know what a person is really like if you don't get past their appearance.

School uniforms encourage us to get to know people's personalities rather than judging them only by what they wear. That's one of the most valuable things we can learn from wearing school uniforms. Who knows what friendships, conversations, and ideas we miss out on by judging people only by their clothes?

# School Uniforms

## No Way!

It's Monday morning—a school day—and you're thinking, "What will I wear to school today?" Well, you might consider the weather, your mood, the class party you're having that day, or the promise you made to your best friend to wear matching sweatshirts. But if you had to wear a uniform to school each day, you wouldn't be able to make wardrobe decisions. You'd have to dress like everyone else.

School uniform policies are being debated in public school districts across the United States. Supporters say that uniforms make schools safer, help prevent bullying and teasing, and even improve students' academic performance, but opponents say that school uniforms are not the way to go.

### Self-expression

A common argument against school uniforms is that they limit self-expression. People often use the way they dress to express their personalities or feelings about themselves and the world. They might wear clothing that shows how they feel on a particular day, or they might dress to show how original or creative they are. What you are wearing is one of the first things people notice when they see you. Your clothes tell others something about yourself. Many feel that students would lose their freedom to express who they truly are if they had to wear a school uniform. For example, a group of students in Tennessee protested their loss of freedom by wearing patches on their uniforms that said things like "I Miss My Real Clothes."

## Comfort

Students spend most of their day at school. During some of that time, they're working at a desk or table. At other times, they're sitting cross-legged on a rug with their classmates listening to a story, or they're on the playground kicking a soccer ball or shooting hoops. Whatever students are doing, it's important for them to be wearing clothing that is comfortable. If the fabric or design of a school uniform is uncomfortable, it can affect students' work and play. After all, who wants to wear a tie at recess?

## Cost

Some people argue that school uniforms are less expensive than a typical school wardrobe, but that's not true for everyone. The cost of buying a set of uniforms at the start of a school year—one uniform for everyday use, another for special events, and a third for gym class—can be a hardship for families that are struggling financially.

## Performance and Behavior

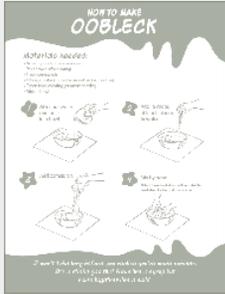

Many believe that if students wear school uniforms, they will perform better in class, be absent less often, and have fewer behavioral problems. While studies have been done to evaluate how school uniforms affect academic performance and student behavior, there is not enough evidence to come to a firm conclusion. One study from the University of Houston found that school uniforms improved student attendance, behavior, and learning. However, a study from the University of North Michigan found that uniforms made student behavior problems worse, not better. That same study found no proof that uniforms improved learning. A study from the University of Missouri also couldn't find any proof that uniforms helped students to learn better or that uniforms reduced behavioral problems or absences.

If students are allowed to choose the clothes they wear to school, then they can express who they are and feel comfortable, as well. Why would we want to change that?

# Week 2

## OVERVIEW

### “How to Make Oobleck”

(see page 470)

This functional text provides step-by-step instructions for making oobleck.

### “City of Lawrence Street Map”

(see page 472)

This functional text is a street map and street index for a small town.

### “Simon's Sandwich Shop”

(see page 471)

This functional text is a menu from a sandwich shop.

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

### Whiteboard Activities

- WA1–WA4

### Assessment Forms

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheet (CN1)

### Professional Development Media

- “Using Web-based Maps and Related Tools” tutorial (AV49)
- “Creating Audio and Video in the Classroom” tutorial (AV50)

### Comprehension Focus

- Students analyze how the information in functional texts is organized.
- Students identify what they learn from functional texts.
- Students explore how functional texts inform readers.
- Students read independently.

### Social Development Focus

- Students work in a responsible way.
- Students include everyone in and contribute to the group work.
- Students listen respectfully to the thinking of others and share their own.

## Ⓜ DO AHEAD

- ✓ Prior to Day 4, collect a variety of functional texts for the students to examine and read (see Step 2). You will be asking the students to bring functional texts from outside the classroom (see Day 1, Step 6). The texts you collect can be used by students who do not bring functional texts to school.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA2); see page 101 of the *Assessment Resource Book*.
- ✓ (Optional) Prior to Day 4, you might have English Language Learners tell you about what information is included in their functional texts to help them prepare for sharing about their texts in their groups.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 21 lessons this week.

### Materials

- Scratch paper and a pencil
- “Functional Texts” chart (WA1)

### Teacher Note

Today’s lesson may take longer than usual to complete. You might consider stopping after Step 5 and then completing the remainder of the lesson at another time.

**ELPS 4.C.ii**  
Steps 1–5  
(all, beginning on page 456 and continuing on to the top of page 458)

**ELPS 4.F.x**  
Step 2 (all)

### Teacher Note

Other examples of functional texts are tickets, bills, receipts, calendars, and nutritional labels on food wrappers.

### In this lesson, the students:

- Look for and read functional texts inside and outside the classroom
- Identify what they learn from the texts
- Read independently for up to 30 minutes
- Act responsibly during a school walk

## 1 Get Ready to Work Together

Have the students gather in their groups of four, facing you. Remind the students that they have been working on taking responsibility for their own learning and on including everyone during the group work. Encourage the students to continue to practice these skills this week.

## 2 Review Articles and Introduce Functional Texts

Review that last week the students heard and read articles about the pros and cons of playing video games and of wearing school uniforms, and they thought about how articles can be organized to inform readers. Explain that this week the students will explore another kind of expository nonfiction, *functional texts*.

Explain that functional texts help people learn how to do things, get from one place to another, and complete everyday tasks (jobs), such as buying groceries and paying bills. Some examples of functional texts are lists, recipes, menus, instructions, game directions, and schedules.

Point out one or two functional texts in the classroom and then ask:

**Q** *What other functional texts do you see in our classroom? Turn to your partner.*

Have several volunteers point out the functional texts they noticed. As they share, briefly discuss how each functional text is helpful.

### Students might say:

“I see the ‘Reading Comprehension Strategies’ chart. Having the comprehension strategies posted reminds us to use them while we are reading.”

“In addition to what [Rita] said, the class computer sign-up sheet helps us figure out whose turn it is to use the computer.”

“The instructions on the fire extinguisher tell us how to use it.”

### 3 Introduce the School Walk

Explain that today the class will take a walk around the school to look for other functional texts.

Explain that during the walk you will stop a few times so the students can look around and quietly talk about the functional texts they see. Remind the students how you expect them to behave on the walk.

**You might say:**

"I expect you to walk with your partner. I expect you to watch me for signals about when to stop, listen, and talk. When you talk to your partner, I expect you to whisper."

Ask and briefly discuss:

- Q *Who do we want to be considerate of when we walk around outside the classroom? Why do we want to be considerate of them?*
- Q *What can we do so we don't disturb other classes when we walk around?*

**Students might say:**

"It's important to be considerate of teachers and students in other classrooms so they don't get interrupted from their work."  
"We can walk quietly in the halls and not look for our friends as we pass other classrooms."  
"If we pass the principal in the hall, we can smile at him."

Ask the students to keep in mind what they talked about, and tell them that you will check in with them after the walk to see how they did.

### 4 Take a Class Walk Around the School

Lead the students on a walk around the school. Bring scratch paper and a pencil with you to jot down their observations. At the first stop, ask:

- Q *What functional texts do you see? Turn and whisper to your partner.*

Signal for the students' attention and have a few students quietly share their observations. If necessary, share one or two functional texts you noticed (for example, the lunch menu and the emergency evacuation poster). Jot down functional texts the students mention. After a few students have shared, continue the walk, stopping to notice functional texts in other areas of the school.

### 5 List Functional Texts as a Class

When you return to the classroom, have students sit together in their groups of four. Use "Heads Together" to discuss:

- Q *What functional texts did you see on our walk? Heads together.*

#### Teacher Note

You might take the students to the office, library, nurse's office, or another public space in the school. If a walk around the school is not possible, provide a variety of functional texts that the students can examine, or have them look at the examples of functional text on *Student Response Book* pages 62–63.

### Teacher Note

If the students have difficulty coming up with ideas, offer some examples such as recipes, menus, online maps with directions, schedules, TV program listings, utility bills, game directions, sheet music, brochures, flyers, how-to manuals, report cards, food wrappers, business cards, tickets, and receipts.

### ELL Note

Encourage your English Language Learners to collect functional texts in their primary languages.

### Teacher Note

Save the “Functional Texts” chart (WA1) to use on Day 2.

Display the “Functional Texts” chart (WA1) and have a few volunteers share what their groups discussed. As they share, record the functional texts they mention on the chart. Help the students think about the purposes of functional texts by asking follow-up questions such as:

- Q *What information does [the lunch menu] give you?*
- Q *How does the [“In Case of Emergency” poster] help us?*

## 6 Brainstorm and Prepare to Collect Functional Texts

Explain that later in the week the students will bring functional texts to school and discuss the texts. Briefly review the “Functional Texts” chart and then use “Think, Pair, Share” to discuss:

-  Q *What other functional texts can you think of that you might find at home, in the newspaper, on the Internet, or in other places outside of school?*  
[pause] *Turn to your partner.*

After a few moments, have several volunteers share, and record their answers on the “Functional Texts” chart. Ask the students to each collect two or three functional texts at home or elsewhere outside the school, and tell them when they will be expected to bring the functional texts to school (see “Do Ahead”). Remind them to ask permission to bring in functional texts that do not belong to them.

Explain that tomorrow the students will look at two functional texts and talk about how they are organized.

## 7 Reflect on Acting Responsibly

Ask and briefly discuss:

- Q *What did you do to act in a responsible way during the walk? How do you think that helped the people around us?*
- Q *What problems, if any, did we have? What can we do next time to avoid those problems?*

# INDIVIDUALIZED DAILY READING

## 8 Read Independently and Discuss What the Students Learn

Tell the students that this week during IDR they will read functional texts or other expository texts. Ask the students to think about what they are learning from the texts as they read. Tell the students that at the end of IDR, you will ask them to share what they learned with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 107 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer share the title of her text, the author’s name (if there is one), what the text is about, and what she learned from the text. Then have the students return to their desks and put away their texts.

# Read-aloud/ Guided Strategy Practice

# Day 2

### In this lesson, the students:

- Read and discuss two functional texts
- Identify what they learn from the texts
- Analyze how the information in the texts is organized
- Read independently for up to 30 minutes
- Include everyone in and contribute to the group work
- Work in a responsible way

## 1 Review Functional Texts

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Display the “Functional Texts” chart (WA1) from Day 1 and remind the students that yesterday they explored functional texts in the classroom and around the school and brainstormed about functional texts they might find outside the classroom. Review that functional texts are a type of expository nonfiction that help people learn how to do things, get from one place to another, and complete everyday tasks (jobs).

Explain that today the students will look closely at two functional texts and discuss how they are organized.

### Materials

- “How to Make Oobleck” (see page 470)
- “Simon’s Sandwich Shop” (see page 471)
- “Functional Texts” chart (WA1) from Day 1
- *Student Response Book* pages 64–65

## 2 Introduce and Read Aloud “How to Make Oobleck”

Have the students turn to *Student Response Book* page 64, “How to Make Oobleck.” Read the title aloud and explain that these are instructions for making a substance called *oobleck*. Explain that a set of instructions for making something is a type of functional text.

Ask the students to follow along as you read aloud “How to Make Oobleck” slowly and clearly. Ask and briefly discuss:

**Q** *What makes these instructions easy to use?*

### Students might say:

“There is a list of materials so you know what you need before you begin.”

“In addition to what [Matthew] said, each thing you have to do is numbered, so you know what to do first.”

“Step 4 has a note telling the reader what to do if the oobleck doesn't flow out of the bowl when it's tilted.”

Point out that the author includes the materials list and the numbered steps to make this functional text easy for readers to use.

## 3 Introduce and Read “Simon’s Sandwich Shop”

Explain that the students will look at another kind of functional text, and have them turn to *Student Response Book* page 65, “Simon’s Sandwich Shop.” Read the title aloud and explain that this is a menu from a sandwich shop.

Give the students enough time to read the menu to themselves. Then facilitate a class discussion about the “Simon’s Sandwich Shop” menu using the following questions:

**Q** *What are the bread choices at Simon’s Sandwich Shop? Where did you find that information?*

**Q** *How much does a small drink cost? How do you know?*

**Q** *If you ordered a 6-inch ham sandwich and a 12-inch barbecue tofu burger, what would be the total cost? How did you figure that out?*

## 4 Use and Analyze the Menu in Pairs

Have the students look at the menu and work in pairs to order lunch for both of them. Explain that they have \$20 to spend on the two lunches. They do not have to spend all of the \$20, but they cannot spend more than \$20. Tell the students that they should be ready to explain to the other pair in their group of four what they ordered, how much both lunches cost, and how much money from the \$20 they have left over. Circulate among the students as they work.

## 5 Discuss Lunch Orders in Groups and as a Class

When most pairs are finished, signal for the students' attention. Use "Heads Together" to have pairs discuss in their groups of four what they ordered for lunch and how much they spent.

Signal for the students' attention and discuss the following questions as a class:

- Q *What did you and your partner order?*
- Q *How much of the \$20 did you spend?*
- Q *How did you make sure that you didn't spend more than \$20?*
- Q *How is the menu organized to help the customer decide what to buy?*

### Students might say:

"It has different sections so you can easily see everything they sell."

"There are two columns that have two different sandwich sizes, 6 inches and 12 inches. It also tells you the prices for every sandwich at both sizes."

"The bread choices and dressing choices are in boxes, which makes them easy to find."

Explain that the sandwich shop menu and the instructions for making oobleck are organized differently because they have different purposes. Both are organized in a way that helps the reader get and make sense of information easily and quickly. Tell the students that reading functional texts carefully and noticing how they are organized helps readers understand and use them more easily. Encourage the students to continue to notice functional texts in their everyday lives.

## 6 Reflect on Working in Groups

Ask and briefly discuss:

- Q *What did your group do to make sure everyone was included in the group discussion?*
- Q *How did you contribute to your group's discussion?*

# INDIVIDUALIZED DAILY READING

## 7 Read Independently and Think About How Texts Are Organized

Remind the students that this week during IDR they are reading functional texts or other expository texts. Ask the students to think about how the texts are organized and how text features are used to help readers learn information. Tell them that at the end of IDR, you will ask them to share what they noticed with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

### Facilitation Tip

Continue to practice **responding neutrally with interest** during class discussions by demonstrating genuine interest and curiosity in what the students say and by refraining from overtly praising or criticizing their responses.

### Teacher Note

You will use the "Functional Texts" chart (WA1) again on Day 4.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 107 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share what they read with the class. Have each student tell the title of her text, the author’s name (if there is one), and what the text is about. Then have each student share how her text is organized or tell about a text feature that is used to help readers learn information. Have the students return to their desks and put away their texts.

---

## EXTENSION

### Make Oobleck

Provide the students with the materials to make oobleck. Have the students work in pairs or in groups of four to make oobleck using the instructions on *Student Response Book* page 64.

Give the students time to investigate their oobleck. Have them share their observations about how it feels, what it looks like, and how it moves. If time permits, have the students write short pieces describing the oobleck. Encourage the students to use descriptive language.

### Technology Tip

Prior to doing this activity, you might wish to view the “Creating Audio and Video in the Classroom” tutorial (AV50).

---

## TECHNOLOGY EXTENSION

### Create a “How to Make Oobleck” Video

Have the students create a video showing how to make oobleck using the instructions on *Student Response Book* page 64. Have the students explain what they are doing in each step, and ask them to describe how the oobleck feels and to demonstrate how it moves.

Watch the how-to video together as a class. Facilitate a discussion about the similarities and differences between the written instructions and the video instructions. Ask questions such as:

- Q How is watching how to do something [the same as/different from] reading how to do something?
- Q Which set of instructions would you prefer to use? Why?

## In this lesson, the students:

- Identify what they learn from a functional text
- Analyze how the information in the text is organized
- Read independently for up to 30 minutes and write in their reading journals
- Work in a responsible way

## 1 Review Functional Texts

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that yesterday they read two functional texts and thought about how the texts are organized to help readers understand them. Explain that today the students will look closely at another functional text and discuss how it is organized to help readers understand it.

## 2 Introduce “City of Lawrence Street Map” and Model Finding a Location on the Map Using the Index

Display the “City of Lawrence Street Map” chart (WA2) and tell the students that this is a street map of a city called Lawrence. Remind the students that maps are another kind of functional text. Ask and briefly discuss:

**Q** *What are some reasons people use maps?*

Direct the students’ attention to the letters down the side of the map and the numbers across the top of the map. Explain that these letters and numbers are called coordinates. Explain that using the coordinates helps readers find specific streets and locations (or places) on the map, such as schools, hospitals, libraries, and playgrounds.

Point to the index and explain that most maps have an index that lists the names of the streets and other locations that can be found on the map and their coordinates. Model using the index and coordinates to find Lawrence Elementary on the map.

### You might say:

“I would like to find Lawrence Elementary on the map. The index says that Lawrence Elementary is located at D2 on the map. I’ll point to the letter D on the side of the map and the number 2 on the top of the map. Now I’ll move my fingers to the place where row D and column 2 intersect, or meet. There is Lawrence Elementary; it’s near a street called McCabe Alley.”

## Materials

- “City of Lawrence Street Map” (see page 472)
- “City of Lawrence Street Map” chart (WA2)
- *Student Response Book* page 66
- “Journal Entry” chart (WA3)
- *Student Response Book*, Reading Journal section

**TEKS 9.D.iii**

**TEKS 9.D.iv**

**TEKS 10.C.ii**

Student/Teacher Narrative

Step 2 (all, beginning on page 463 and continuing on to page 464)

Have the students turn to *Student Response Book* page 66, “City of Lawrence Street Map,” and find the index.

Ask the students to find Lawrence Shopping Center in the index and to read the coordinates that indicate where Lawrence Shopping Center is located on the map. On the chart, model for the students how to locate the shopping center. Explain that the students will work in pairs to find other locations on the map.

### 3 Find Locations on the Map in Pairs

Explain that partners will use the “City of Lawrence Street Map” index to help them find five locations on the map. Give partners a few moments to circle five locations in the index. Have them use the coordinates listed in the index to find and then circle each location on the map. Ask the students to write the coordinates beside each circled location on the map.

### 4 Discuss Using the Map

Signal for the students’ attention and ask a few volunteers to share their findings with the class using the “City of Lawrence Street Map” chart. Have each volunteer circle one of the locations he found and write the coordinates beside the circled location. Ask and briefly discuss:

**Q** *In addition to the index, what makes this map easy to use?*

**Students might say:**

“The coordinates are easy to find and use because they’re on the top and side of the map.”

“There is a key that gives you symbols so you can find important places like the hospital.”

“In addition to what [Kendra] said, the streets and places on the map are labeled.”

Point out to the students that maps are organized so that readers can find information quickly and easily. Remind the students that reading functional texts carefully and noticing how they are organized will help them understand and use them more easily.

Explain that tomorrow the students will share functional texts they collected from outside the classroom and discuss how they are organized to give readers information. Remind them to bring the functional texts they have collected to school.

### 5 Reflect on Working Responsibly

Ask and briefly discuss:

**Q** *What did you and your partner do to work responsibly today?*

**Q** *How did [taking turns choosing locations] help you work together?*

# INDIVIDUALIZED DAILY READING

## 6 Think About How Texts Are Organized and Write in Reading Journals

Remind the students that this week during IDR they are reading functional texts or other expository texts. Ask the students to think as they read about how the texts are organized and how text features are used to help readers learn information. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 107 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students return to their desks and open their *Student Response Books* to the Reading Journal section. Then display the “Journal Entry” chart (WA3) and explain that today each student will write a journal entry. Also explain your expectations for what the journal entry should include.

WA3

#### Journal Entry

Write a journal entry about the text you are reading.

Please include:

- What kind of text you are reading (functional or expository nonfiction)
- What the text is about or the purpose of the text
- What you notice about how the text is organized or how text features are used to help readers learn information

Ask the students to think quietly about what they will write. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their reading journals. If time permits, have a few volunteers share their journal entries with the class.

### Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

### Technology Tip

For information about using web-based maps, view the “Using Web-based Maps and Related Tools” tutorial (AV49).

## EXTENSION

### Find Locations on Local Street Maps

Repeat today’s lesson using street maps of your community. If possible, find different types of maps of the same area (for example, political maps, physical maps, transit maps, and bicycle route maps). The students might be interested in locating their homes, school, or other places they are familiar with on these maps.

## TECHNOLOGY EXTENSION

### Find Locations on a Web-based Map

Introduce the students to a web-based mapping tool and show them briefly how to use it. Have the students find your state and then your city and then your school address. They might also search for local landmarks, parks, or other locations they are familiar with. Have the students explore different map options, such as satellite and topography images; traffic movement; and public-transportation, bicycle, and pedestrian routes. Facilitate a discussion about the difference between using a web-based map and a paper map by asking questions such as:

- Q How is using a web-based map [different from/the same as] using a paper map?
- Q What are the benefits of using a [web-based map/paper map]?
- Q Which type of map do you like using better? Why?

# Day 4

## Independent Strategy Practice

### Materials

- Variety of functional texts, which you and the students have collected ahead
- “Questions About Functional Texts” chart (WA4)
- “Functional Texts” chart (WA1) from Day 1
- “Class Assessment Record” sheet (CA2)

### In this lesson, the students:

- Examine functional texts independently
- Share the texts with classmates
- Identify what they learn from the texts
- Explore how the texts inform readers
- Listen respectfully to the thinking of others

### **1** Review and Get Ready to Work Together

Have the students bring their *Student Response Books*, pencils, and the functional texts they have collected outside the classroom and gather

in their groups of four, facing you. Review that so far this week the students have read three examples of functional texts and thought about how the functional texts are organized to give readers information. Explain that today the students will share and discuss in their groups the functional texts they have collected, and they will continue to think about how functional texts are organized to help readers understand and use them.

Remind the students that it will be important to listen respectfully when other people share their functional texts with the group. Ask and briefly discuss:

**Q** *What can you do to be respectful when others are sharing their functional texts?*

Have a few volunteers share their thinking.

**Students might say:**

"I can look at the person who is speaking."

"I can listen quietly and not interrupt."

"I can pay attention to what people are saying in case I have questions."

Explain that you will check in with the class later to see how they did.

## 2 Share and Discuss Functional Texts in Groups and as a Class

Display the "Questions About Functional Texts" chart (🌐 WA4) and read the questions on it aloud. Explain that the students will silently examine the functional texts they have collected, keeping the questions from the chart in mind.

### Questions About Functional Texts

- What information does this functional text give you?
- What makes the functional text easy for readers to understand and use?
- What do you find most interesting about it?

WA4

Explain that each student will choose one functional text to share with his group. Explain that the person sharing will briefly explain what the functional text is, what information it includes, what makes it easy for readers to use, and what he finds most interesting about it. Encourage the students to ask one another questions after they share. Remind them to listen respectfully as others in the group share.

### Teacher Note

Distribute the functional texts you have collected to any students who did not bring in their own.

### 🌐 ELL Note

You might consider providing prompts for your English Language Learners to use when they share their functional texts (for example, "This functional text is called . . .," "It tells readers . . .," and "I think it is interesting because . . .").

Give the students several minutes to work in their groups. Circulate among the groups and listen as they work.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify what they learn from functional texts?
- Are they able to identify how information in functional texts is organized to inform readers?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 101 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify what they learn from functional texts and how information in functional texts is organized to inform readers, proceed with the lesson and continue on to Week 3.
- If **about half of the students** or **only a few students** are able to identify what they learn from functional texts and how information in functional texts is organized to inform readers, you might give the class additional instruction by repeating this week’s lessons using the examples of functional texts on *Student Response Book* pages 62–63 before continuing on to Week 3.

When most groups are finished, signal for the students’ attention. Display the “Functional Texts” chart (C WA1) and ask volunteers to share with the class some examples of functional texts they looked at in their groups. Add any new functional texts to the chart.

### 3 Review the Week and Expository Text

Remind the students that functional texts are expository texts that give readers information and help them function in their everyday lives. Direct the students’ attention to the “Functional Texts” chart and review that this week the students explored examples of functional texts in their *Student Response Books* as well as real-world functional texts from inside and outside the school. Review that reading functional texts carefully and thinking about how they are organized helps readers make sense of them. Encourage the students to continue to notice and think about functional texts in their everyday lives.

Explain that in the coming weeks the students will hear and read an expository text that is similar to a school textbook and think about how it is organized to give readers information.

## 4 Reflect on Listening Respectfully to the Thinking of Others

Ask and briefly discuss questions such as:

- Q *How did it make you feel to have others in your group listen respectfully while you were sharing?*
- Q *How did listening to other people's thinking help you?*

---

## EXTENSION

### Create a Functional Texts Bulletin Board

Continue to have the students bring in examples of functional texts. Ask the students to share the texts with the class. Have them point out how their functional texts are organized to inform readers. Have each student glue her functional text to a large sheet of construction paper to create a poster; have the student add labels for the features that help organize the information and make it easy to use. (For example, a menu might be labeled *The menu is divided into appetizers, entrées, and desserts* and *The spicy dishes are marked with a pepper.*) Have the students hang their posters on a class bulletin board.

---

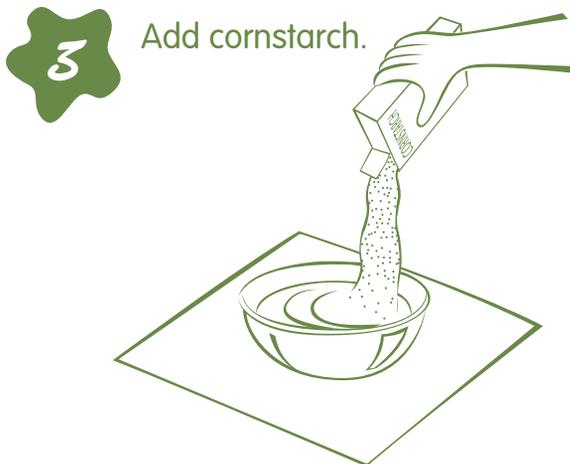

### Vocabulary Note

Next week you will revisit “How to Make Oobleck” to teach the Week 22 vocabulary lessons.

# HOW TO MAKE OOBLECK

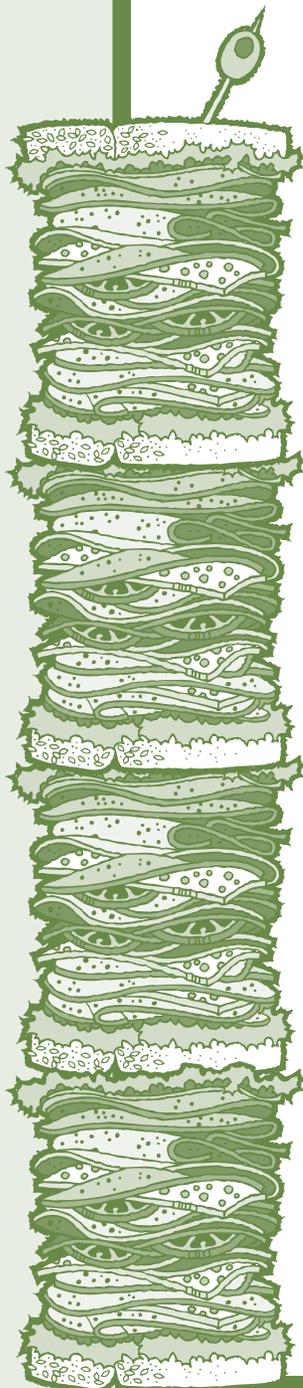

## Materials needed:

- Newspapers to cover work area
- Paper towels for cleanup
- 1 box cornstarch
- 1½ cups water (more if your oobleck is too firm)
- Green food coloring (or another color)
- Mixing bowl

*It won't take long before you realize you've made oobleck.  
It's a sticky goo that flows like a syrup but  
holds together like a solid.*

# Simon's Sandwich Shop

# Week 3

## OVERVIEW

### ***Farm Workers Unite: The Great Grape Boycott\****

The Great Delano Grape Strike and the Great Grape Boycott, masterminded by union activists César Chávez and Dolores Huerta, raised public awareness of the plight of farm workers and led to lasting improvements in migrant workers' living and working conditions.

*\*This book is also used in Week 4.*

### **Online Resources**

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### **Assessment Forms**

- “Class Assessment Record” sheet (CA3)
- “IDR Conference Notes” record sheet (CN1)

#### **Professional Development Media**

- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)
- “Using Web-based Maps and Related Tools” tutorial (AV49)

## Comprehension Focus

- Students hear and discuss an expository text.
- Students use schema to articulate all they think they know about a topic before they read.
- Students identify what they learn from an expository text.
- Students read independently.

## Social Development Focus

- Students include everyone in and contribute to group work.
- Students build on one another's thinking during small-group discussions.
- Students explain their thinking.

## DO AHEAD

- ✓ Prior to each read-aloud lesson this week, show your English Language Learners the sections of *Farm Workers Unite: The Great Grape Boycott* that you will be reading. Point out the text features and summarize the information in the text, making sure your students have at least a surface-level understanding of the information.
- ✓ Prior to Day 1, decide which of the students' social studies textbooks you would like them to read this week and next week during IDR. If the textbook you have selected is one that is challenging for your students, plan to read from the textbook aloud with the students before having them read independently. Make sure there are enough copies of the textbook in your classroom for each student to use one during IDR.
- ✓ Prior to Day 4, make a copy of the "Class Assessment Record" sheet (CA3); see page 102 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 22 lessons this week.

**Materials**

- *Farm Workers Unite* (pages 1–10)
- *Student Response Book* page 67

**In this lesson, the students:**

- Brainstorm what they think they know about a topic
- Hear and discuss parts of an expository text
- Identify what they learn from the text
- Read independently for up to 30 minutes
- Explain their thinking
- Use discussion prompts in small-group discussions

**ABOUT READING TEXTBOOKS**

The students have spent the first two weeks of this unit analyzing how authors organize information in articles and functional texts as a way to help the students make sense of those kinds of expository nonfiction texts. The focus of the final two weeks is on analyzing text structure in textbooks. The students hear and read a book written to resemble a textbook the students might read in school. This week the students hear the book read aloud and identify and discuss what they learn from the text. Next week the students analyze parts of the book in depth and explore two expository text structures commonly used to organize the information in textbooks: sequence and compare/contrast. This week's and next week's lessons on exploring how expository texts are organized lay the foundation for work the students will do in later grades. Mastery of these concepts is not expected at this point. The goal, as with all of the reading comprehension strategies, is for the students to be able to use the strategy to help make sense of their independent reading.

**1 Discuss Reading Textbooks**

Have the students bring their *Student Response Books* and gather in their groups of four, facing you. Remind the students that they have been reading articles and functional texts and thinking about how expository nonfiction can inform readers. Explain that in the coming weeks they will look at another kind of expository nonfiction—textbooks—and work in groups and as a class to explore how textbooks are written.

Point out that textbooks are a kind of expository text that the students read often in school. Ask:

**Q** *What kinds of textbooks have you been reading this year?*

**Q** *What can be hard about reading textbooks?*

Explain that this week the students will hear a book written in the style of a textbook. They will think about and discuss how textbooks can be organized to give readers information, and they will use what they learn

to help them make sense of their own textbooks. They will also have opportunities to explain their thinking and use discussion prompts in their groups.

## 2 Introduce *Farm Workers Unite*

Tell the students that the book you will read aloud over the next few days is titled *Farm Workers Unite: The Great Grape Boycott*. Show the cover and explain that this book is written to be similar to textbooks the students read in school.

Explain that *Farm Workers Unite* is about how two Mexican American leaders, César Chávez and Dolores Huerta, helped migrant farm workers in California and other states improve their living and working conditions. Ask and briefly discuss:

**Q** *What do you think you know about how produce (or fruits and vegetables) is grown in the United States?*

### Students might say:

"I think that lots of fruits and vegetables are grown in California."

"In addition to what [Alexis] said, I remember reading that there are a lot of migrant workers who pick the fruits and vegetables."

"I think that fruits and vegetables are grown on big farms."

To provide historical background, locate California's Central Valley on a map of the United States and explain that since the early 1900s, produce growers in California, where more than half of the country's fruits and vegetables come from, have hired mostly temporary workers to do the planting and harvesting on their farms. These migrant workers, many of whom are Mexican Americans, move from farm to farm looking for work. Up until the late 1960s, most migrant workers lived and worked in terrible conditions. To this day, some still do. César Chávez and Dolores Huerta helped farm workers stand up for themselves and their rights. Also explain that the Great Grape Boycott of 1967, which Chávez and Huerta helped organize, helped people all over the United States learn about the lives of farm workers.

## 3 Introduce the Reading

Show the table of contents of *Farm Workers Unite* and ask the students to turn to *Student Response Book* page 67, where the table of contents is reproduced. Read the chapter titles and headings aloud; then ask:

**Q** *What topics do you think you will hear about in this book?*

Have one or two volunteers share their thinking. Explain that today the students will hear the Introduction and the first two chapters of the book. Explain that you will stop periodically during the reading to have them discuss what they have learned from the book up to that point.

### Teacher Note

You might explain that the Central Valley is a large, flat area that runs through the middle of California and is surrounded by mountain ranges. If your map has topographical features, you might point out the mountain ranges to the east, west, north, and south of the valley. If your map does not have topographical features, you might tell the students that the Central Valley runs roughly from Redding in Northern California to Bakersfield in Southern California and point out these cities on the map.

### Technology Tip

You may want to display a map of California's Central Valley on the interactive whiteboard. For more information, view the "Using Web-based Maps and Related Tools" tutorial (AV49).

## Teacher Note

This week's read-aloud contains a lot of factual information that the students might have difficulty following. To support them, you will briefly introduce each section before you read it. This will help to focus the students' listening on the main ideas discussed in that section.

## 4 Read Aloud the Introduction and Chapters 1 and 2 with Brief Section Introductions

Read aloud the Introduction and chapters 1 and 2 slowly and clearly, as described below. Clarify vocabulary as you read.

### Suggested Vocabulary

**produce:** fruits and vegetables (p. 1)

**deportation:** being sent back to their home countries (p. 6)

**exposure to:** being close to (p. 8)

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**permanent staff:** people who work throughout the entire year (p. 1)

**make a bigger profit:** keep more money for themselves (p. 6)

**crossing the border illegally:** coming from other countries even though they were not allowed to (p. 6)

**bad conditions:** ways that were not safe (p. 7)

**thin out crops:** cut down some of the plants so they're not growing too closely together (p. 7)

**permanently stooped:** bent over for their whole lives (p. 7)

**cause headaches, dizziness, and nausea:** make them very sick (p. 8)

**shack:** very small, poorly built house (p. 9)

**bathing facilities:** rooms or buildings with baths or showers (p. 9)

**participate:** talk to their teachers or to other students (p. 10)

Read aloud the first three paragraphs of the Introduction and then reread them, asking the students to listen for information they might have missed during the first reading. Ask and briefly discuss:

**Q** *What did you hear in the second reading that you missed in the first reading?*

Continue reading to the end of the Introduction; then show the accompanying photographs and read aloud the captions. Point out the text box titled "Migrant Workers" on page 3 and explain that it gives useful information about migrant workers. Read "Migrant Workers" aloud; then show the photograph and read aloud the caption. Ask and briefly discuss:

**Q** *What did you find out about migrant workers?*

Read aloud the title of chapter 1, "Competition for Work," and explain that this chapter tells about how, starting in the mid-1900s, there were not as many jobs for farm workers as there used to be. Tell the students that you will read chapter 1 aloud. Ask the students to listen for what they find out about why it became harder for farm workers to find jobs.

Read chapter 1 aloud; then show the photographs and read aloud the captions. Ask:

**Q** *What are some reasons it became harder for farm workers to find jobs?*

Have one or two volunteers share what they found out.

**Students might say:**

"It was hard for farm workers to find jobs because there were a lot of people who wanted to do those jobs."

"In addition to what [Jamil] said, there were a lot of people who were willing to do the work for less money."

"Another reason it was hard for farm workers to find jobs is because machines were invented to do some of the jobs that people used to do."

Read aloud the title of chapter 2, "The Life of a Migrant Worker," and explain that this chapter tells about what life was like for many migrant farm workers. The first section, "Working Conditions," describes what it was like to work in the fields.

Read "Working Conditions" aloud; then show the photographs on page 8 and read aloud the captions. Ask:

**Q** *What did you find out about what it was like to work in the fields?*

Have a few volunteers share what they found out. Tell the students that the next section in chapter 2 is called "Living Conditions." Explain that this section discusses where migrant workers lived and how they lived.

Read "Living Conditions" aloud; then show the photograph on page 9 and read aloud the caption. Ask:

**Q** *What did you find out about how migrant workers lived from this reading?*

Have a few volunteers share what they found out. Explain that the next section, "Education," discusses some of the challenges faced by the children of migrant workers when they tried to go to school.

Read "Education" aloud; then show the accompanying photograph and read aloud the caption. Ask:

**Q** *What made going to school difficult for the children of migrant workers?*

Have a few volunteers share what they found out.

## **5** Discuss the Reading in Groups

Facilitate a discussion about chapter 2. Encourage the students to use the discussion prompts they have learned to respond to one another. Use "Heads Together" to discuss:

**Q** *What are some important things we've learned from chapter 2 about what life was like for many migrant farm workers? Heads together.*

Have a few volunteers share what they discussed in their groups with the class. Be ready to reread from the text to help the students support their thinking.

### Teacher Note

If necessary, review the following discussion prompts:

- "I agree with \_\_\_\_\_ because . . ."
- "I disagree with \_\_\_\_\_ because . . ."
- "In addition to what \_\_\_\_\_ said, I think . . ."

**Students might say:**

"I learned that a lot of times their working conditions were not safe."

"I agree with [Sadie] because the book said that workers had to use dangerous tools."

"I learned that it was hard for the children of migrant workers to go to school because their families moved around so much."

"In addition to what [Sterling] said, we learned that it was hard for the kids because they couldn't speak English."

Explain that tomorrow the students will hear and discuss chapter 3, "Time for a Change."

## 6 Reflect on Group Work

Ask and briefly discuss questions such as:

**Q** *How did you do with explaining your thinking in your group?*

**Q** *How did the discussion prompts help you participate in your group discussion?*

## INDIVIDUALIZED DAILY READING

## 7 Read for Information Independently

Tell the students that for the next two weeks, they will read parts of their social studies textbooks during IDR. Ask them to think about what facts they are learning. Tell them that at the end of IDR, you will ask them to share facts they learned with the class. Have the students get their textbooks, take a moment to select the sections they wish to read today, and then read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

### Teacher Note

Over the next two weeks, we recommend having the students select sections from their textbooks to read during IDR. Alternatively, you might choose to assign sections for the students to read based on the content-area instruction for your grade level.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 107 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer share what the part she read today is about and a fact she learned. Then have the students return to their desks and put away their textbooks.

## TECHNOLOGY EXTENSION

### Learn More About Migrant Workers

Show the cover of *Farm Workers Unite* and remind the students that they heard parts of this book earlier. Show pages 7–10 and remind the students that this part of the book tells about what life was like for many migrant farm workers. Ask:

**Q** *What do you remember about what life was like for migrant workers?*

As the students respond, record their thinking where everyone can see it. If the students struggle to answer the question, read pages 7–10 and then ask the question again. Tell the students that today they will learn more about the history of migrant labor by exploring a website about it. Display the web page you have selected and read the sections you identified aloud. After reading each section, facilitate a discussion about what the students are learning by asking questions such as:

**Q** *What did you learn about migrant labor from the section you just heard?*

**Q** *How did [viewing the video] help you better understand the life of a migrant worker?*

As the students respond, record their thinking where everyone can see it. After exploring the web page, have the students write a paragraph that tells what they learned about migrant labor. Encourage them to use facts they learned from the book *Farm Workers Unite* and from the web page to support their thinking.

### Technology Tip

Prior to doing this activity, find an age-appropriate web page about migrant workers to share with your students. Search the Internet using the keywords “farm worker history,” “farm worker movement,” “migrant labor,” or “farm workers.” Preview the web page you have selected and identify the sections you will read aloud and the features you want to point out (for example, maps, slideshows, summaries of historical events, timelines, videos, and illustrations). For more information, view the “Finding, Organizing, and Presenting Online Information” tutorial (AV43).

## Read-aloud

## Day 2

### In this lesson, the students:

- Hear and discuss part of an expository text
- Identify what they learn from the text
- Read independently for up to 30 minutes
- Include everyone in and contribute to the group work
- Use discussion prompts in small-group discussions

### 1 Review and Introduce the Reading

Have the students gather in their groups of four, facing you. Show the cover of *Farm Workers Unite* and remind the students that yesterday

### Materials

- *Farm Workers Unite* (pages 11–14)

**TEKS 6.E.iii**  
Student/Teacher Activity  
Step 2 and Step 3  
(all, beginning on page  
482 and continuing on to  
page 484)

they heard the Introduction and the first two chapters, “Competition for Work” and “The Life of a Migrant Worker.” Ask and briefly discuss:

**Q** *What have you learned so far about migrant workers?*

Explain that today you will read chapter 3, “Time for a Change.” Tell the students that this chapter talks about how things changed when farm workers began to fight for their rights as workers. Explain that you will stop periodically during the reading to have groups discuss what they have learned from the reading up to that point.

## **2** Read Aloud Chapter 3 with Brief Section Introductions

Read aloud chapter 3 to the class, following the procedure described on the next page. Clarify vocabulary as you read.

### **Suggested Vocabulary**

**on behalf of:** speaking for (p. 11)

**injustices:** unfair treatment (p. 12)

**government officials:** people who work for the government (p. 14)

### **ELL Vocabulary**

English Language Learners may benefit from hearing additional vocabulary defined, including:

**improve:** make better (p. 11)

**organize:** get people together to make something happen (p. 11)

**bullied:** made to feel afraid (p. 11)

**determined:** very sure he wanted (p. 12)

**stood up for:** protected; defended (p. 12)

**enrolling:** signing up (p. 13)

**bold and outgoing:** brave and good at talking to people (p. 14)

Read aloud the chapter 3 title, “Time for a Change,” and the first heading, “Unionization.” Explain that the section “Unionization” talks about why it was difficult for migrant workers to change their living and working conditions. Ask the students to listen for reasons why it was difficult for workers to improve their living and working conditions. Read “Unionization” aloud. Ask:

**Q** *Why was it difficult for farm workers to improve their living and working conditions?*

Have a few volunteers share their thinking. Point out the text box on page 12 titled “Unions and Contracts” and explain that it gives readers useful information about unions. Read “Unions and Contracts” aloud. Ask and briefly discuss:

**Q** *What information did you find out about unions?*

Explain that the next section, “César Chávez and Dolores Huerta,” discusses how César Chávez and Dolores Huerta got involved in trying to organize farm workers. Read the first three paragraphs of “César Chávez and Dolores Huerta” aloud. Stop after:

**p. 13** “. . . he got to know a woman named Dolores Huerta.”

Use “Heads Together” to discuss:

**Q** *What do you think made César Chávez decide to fight for the rights of farm workers? Heads together.*

Without discussing the question as a class, continue reading. Read the next paragraph aloud; then show the photographs of César Chávez’s family and Dolores Huerta. Stop after:

**p. 13** “. . . than by trying to teach their hungry children.”

Use “Heads Together” to discuss:

**Q** *What do you think made Dolores Huerta decide to fight for the rights of farm workers? Heads together.*

Signal for the students’ attention and have a few volunteers share what they discussed with their groups. Continue reading to the end of the section.

Explain that the last section of chapter 3, “A New Union,” talks about how César Chávez and Dolores Huerta got their union started. Read “A New Union” aloud. Ask and briefly discuss:

**Q** *What did you find out in the section you just heard?*

Have a few volunteers share what they found out.

### **3** Discuss the Reading

Facilitate a discussion about the reading using the question that follows. Remind the students to include everyone in the discussion and to refer to information in the text to support their thinking. Use “Heads Together” to discuss:

**Q** *Why were César Chávez and Dolores Huerta more successful at unionizing, or organizing, farm workers than others had been in the past? Heads together.*

Signal for the students’ attention and have a few volunteers share what they discussed in their groups. Encourage the students to use the discussion prompts to respond to one another.

#### **Teacher Note**

As groups talk, listen for evidence that the students are discussing the book and understanding it. If necessary, reread parts of the text to help the students recall what they heard.

#### **Facilitation Tip**

Continue to focus on **responding neutrally with interest** during class discussions by refraining from overtly praising or criticizing the students’ responses. Instead, build the students’ intrinsic motivation by responding with genuine curiosity and interest, for example:

- “Interesting—say more about that.”
- “What you said makes me curious. I wonder . . .”
- “Do you agree or disagree with what [Jackson] just said?”

**Students might say:**

"They were successful because the workers trusted them."

"I agree with [Jasmine]. They were both Mexican American and knew about the lives of farm workers. César Chávez even worked in the fields himself."

"In addition to what [Terence] said, we learned that Chávez and Huerta were a good team. They got a lot of people to join the union."

"I agree with [Zoe]. The book said that Chávez was quiet and shy but understood the workers and that Huerta was good at getting out and talking to a lot of people."

Explain that tomorrow the students will hear and discuss parts of chapter 4, "The Great Delano Grape Strike," and all of chapter 5, "A Long, Hard Road."

#### **4** Reflect on Group Work

Ask and briefly discuss questions such as:

- Q** *What did your group do to make sure everyone was included?*
- Q** *If everyone wasn't included, what do you want to do differently next time so everyone participates?*
- Q** *Why is it important to include everyone when you are working in groups?*

## INDIVIDUALIZED DAILY READING

#### **5** Read for Information Independently

Remind the students that for the next two weeks, they will read parts of their social studies textbooks during IDR. Ask the students again today to think about the facts they are learning. Explain that you would like each student to identify one fact that he finds particularly interesting or surprising. Then, at the end of IDR, you will ask the students to share what they found with partners. Have the students get their textbooks, take a moment to select the sections they wish to read today, and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 107 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share what they read with their partners. Have each student tell her partner what the part she read today is about and an interesting or surprising fact she learned. After partners have had a chance to share, discuss as a class:

**Q** *What did your partner share with you about his or her reading?*

Remind the students that the purpose of sharing their partners' thinking is to help them develop their listening skills.

Have the students return to their desks and put away their textbooks.

## Read-aloud

# Day 3

### In this lesson, the students:

- Hear and discuss parts of an expository text
- Identify what they learn from the text
- Read independently for up to 30 minutes
- Include everyone in and contribute to the group work

## 1 Review and Get Ready to Work Together

Have the students gather in their groups of four, facing you. Show the cover of *Farm Workers Unite* and review that in the previous lesson the students heard chapter 3 of the book. Remind the students that they learned about César Chávez and Dolores Huerta and about how Chávez and Huerta decided to start their own union for farm workers, the National Farm Workers Association. Ask and briefly discuss:

**Q** *What have you learned so far about César Chávez and Dolores Huerta?*

Have a few volunteers share their thinking. Tell the students that they will be using “Heads Together” again today to talk about their thinking. Encourage them to continue to include everyone in and contribute responsibly to the group work.

## 2 Introduce the Reading

Explain that today you will read from chapters 4 and 5, which are about the Great Delano Grape Strike—a very important event in the history of the National Farm Workers Association. Explain that you will stop periodically during the reading to have the students discuss what they have learned from the book up to that point.

### Materials

- *Farm Workers Unite*  
(pages 15–24)

### 3 Read Aloud Parts of Chapter 4 and All of Chapter 5 with Brief Section Introductions

Read aloud selections from chapter 4 and all of chapter 5 as described below. Clarify vocabulary as you read.

#### Suggested Vocabulary

**went on strike:** stopped working because they felt their bosses weren't treating them fairly (p. 15)

**retaliate:** fight back; take revenge (p. 16)

**vulnerable:** able to be hurt easily (p. 16)

**movement:** large group effort (p. 16)

**on the picket lines:** standing in lines outside where they work to show they are not being treated fairly (p. 17)

**intimidate:** frighten (p. 20)

**tactics:** ways of doing things (p. 20)

**enthusiasm:** energy and excitement (p. 21)

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**rival:** competing (p. 15)

**national attention:** people all over the country talking about it (p. 16)

**justice:** fairness (p. 16)

**recognize or negotiate with:** pay attention to or talk to (p. 21)

**protesters:** people who were trying to get fair treatment (p. 22)

**hobbled:** limped (p. 24)

**a turning point:** an important event that made things start to get better (p. 24)

Read aloud the title of chapter 4, “The Great Delano Grape Strike,” and the heading “To Join or Not to Join.” Explain that the first section of chapter 4 talks about how the Great Delano Grape Strike started. Read the opening paragraph of the section. Stop after:

**p. 15** “. . . making their pay lower than the braceros’.”

Ask:

**Q** *What have you found out so far about how the strike started?*

Have one or two volunteers share what they found out. Continue reading to the end of the section; then show the photographs on pages 15–17 and read aloud the captions. Ask:

**Q** *What else did you find out about the strike?*

Have one or two volunteers share what they found out. Turn to pages 18–19 and read aloud the text boxes titled “Extract from Chávez’s Speech” and “Strikes and Picket Lines”; then show the photograph on page 19 and read aloud the caption. Ask:

**Q** *What did you learn from the text features on these pages?*

Have a few volunteers share what they learned from the text features. Explain that there are two more sections in chapter 4, titled “Gathering Support” and “The Strike Spreads,” that you will not read aloud at this time.

Show pages 20–21 and read aloud the chapter 5 title, “A Long, Hard Road.” Explain that chapter 5 discusses challenges the workers faced as the strike continued and the ways the workers and the union responded to the strike. Read aloud the heading “Hard Times on the Picket Lines” and explain that this section talks about how the growers responded to the strike. Read “Hard Times on the Picket Lines” aloud; then show the photograph and read aloud the caption. Use “Heads Together” to discuss:

 **Q** *What was hard about picketing during the strike? Heads together.*

Signal for the students’ attention. Without discussing the question as a class, explain that the next two sections, titled “The March on Sacramento” and “The United Farm Workers of America,” talk about what happened as the strike continued.

Read “The March on Sacramento” and “The United Farm Workers of America” aloud. Point out and read the text box titled “Hiring Halls” on page 24. Use “Heads Together” to discuss:

 **Q** *What were some changes that happened because of the strike? Heads together.*

Signal for the students’ attention. Have several volunteers share what they discussed with their groups.

**Students might say:**

“The biggest grower signed a contract with the union.”

“In addition to what [Miguel] said, after the march, some of the smaller growers signed contracts, too.”

“Because of the strike, the farm workers got on TV and got a lot of publicity.”

“I agree with what [Megan] said. Because of the strike, a lot of people all over the country learned about farm workers for the first time and supported their cause.”

## 4 Discuss the Reading

Use the question that follows to facilitate a class discussion about chapter 5. Ask:

**Q** *Why was the march on Sacramento important to the workers and the union?*

### Teacher Note

Consider reading the sections “Gathering Support” and “The Strike Spreads” aloud at another time (see the extension “Read ‘Gathering Support’ and ‘The Strike Spreads’ Aloud” on page 489).

As students respond, encourage them to refer to the text to support their thinking. Be ready to reread from the text to help them recall what they learned.

**Students might say:**

"The march was important because it made more people pay attention to the strike."

"I agree with what [Tobias] said. It made the growers pay attention because after the march, one of the biggest growers made a contract with the union."

"The march was important because it got more workers to join the union."

"In addition to what [Carmen] said, after the march, the two unions joined together to make a bigger, stronger union."

Explain that tomorrow the students will hear and discuss the last two chapters of *Farm Workers Unite*.

## 5 Reflect on Group Work

Review that today the students focused on contributing their thinking during group work. Ask and briefly discuss questions such as:

- Q *What did you do to make sure everyone in your group felt comfortable sharing their thinking?*
- Q *Why is it important to contribute your thinking to the group discussion?*

## INDIVIDUALIZED DAILY READING

### 6 Read for Information Independently

Ask the students to think about what facts they are learning as they read their social studies textbooks. Tell them that at the end of IDR, you will ask them to share with the class facts they learned and questions they have about the topics they read about. Have the students get their textbooks and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 107 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer share what the part he read is about, a fact he learned, and a question he has about the topic. Have the students return to their desks and put away their textbooks.

---

## EXTENSIONS

### Read “Gathering Support” and “The Strike Spreads” Aloud

Introduce the section “Gathering Support,” in chapter 4 (pages 17–18) of *Farm Workers Unite*, by explaining that this section talks about how César Chávez and Dolores Huerta generated support for the strike. Read the section aloud. Ask and briefly discuss:

**Q** *Why did César Chávez think it was so important to get support for the Great Delano Grape Strike?*

Introduce the section “The Strike Spreads,” in chapter 4 (pages 18–19) of *Farm Workers Unite*, by explaining that this section discusses how the strike began to grow. Read the section aloud. Ask and briefly discuss:

**Q** *What are some reasons the strike grew bigger and stronger?*

### Explore and Discuss Expository Text Features in *Farm Workers Unite*

Reread selections from *Farm Workers Unite* and discuss the text features in those sections. Read any text in the features (for example captions, text boxes, and maps) and discuss what can be learned from the text features. For example, you might read the section “Living Conditions” on pages 8–9, show the photograph and read aloud the caption on page 9, and then ask:

**Q** *How does looking at the photograph and reading the caption help you better understand what migrant workers’ living conditions were like?*

**Q** *What might someone looking at the photo think about the living conditions?*

You might also read the section “The March on Sacramento” on pages 21–24 and discuss the map on page 23: Show the students the map, read aloud the text box next to the map, and point out the start and end points of the march. Then ask and discuss questions such as:

**Q** *Looking at the map, what statements can you make about the march from Delano to Sacramento? How do you know that?*

**Q** *How does the information in the map help you better understand the text?*

# Day 4

## Read-aloud

### Materials

- *Farm Workers Unite* (pages 25–30)
- *Student Response Book* page 67
- “Class Assessment Record” sheet (CA3)

### In this lesson, the students:

- Hear and discuss parts of an expository text
- Identify what they learn from the text
- Read independently for up to 30 minutes
- Contribute to the group work
- Use discussion prompts in small-group discussions

### 1 Review and Introduce the Reading

Have the students bring their *Student Response Books* and gather in their groups of four, facing you. Show the cover of *Farm Workers Unite* and remind the students that they have heard part or all of each of the first five chapters of the book. Have them turn to *Student Response Book* page 67, “Contents from *Farm Workers Unite*,” and explain that today you will read aloud the last two chapters of the book. Have the students read the chapter titles and headings for chapters 6 and 7. Ask and briefly discuss:

**Q** *What do you think the last two chapters of this book will be about? What makes you think that?*

### 2 Read Aloud Chapter 6 and Parts of Chapter 7 with Brief Section Introductions

Read aloud chapter 6 and selections from chapter 7 as described on the next page. Clarify vocabulary as you read.

#### Suggested Vocabulary

**pesticides:** chemicals used to kill insects and bugs (p. 28)

**documented:** found proof (p. 28)

**unemployment benefits:** small amounts of money workers can get from the government to help them when they don't have jobs (p. 30)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**focus its efforts on:** pay more attention to (p. 25)

**the media:** television, radio, magazines, and newspapers (p. 27)

**guarantees:** promises (p. 28)

**banned:** made against the law (p. 28)

**treated with chemicals:** sprayed with pesticides (p. 29)

**get around:** not obey (p. 30)

Read aloud the title of chapter 6, “The Great Grape Boycott,” and explain that the first section of chapter 6 discusses what the union did after the success of the Great Delano Grape Strike. Read the first three paragraphs of the section aloud. Stop after:

**p. 25** “Chávez responded by asking the public to stop buying all California grapes.”

Ask:

**Q** *What have you found out so far about the Great Grape Boycott?*

Have one or two volunteers share what they found out. Read the last paragraph of the section aloud. Then have the students use “Heads Together” to discuss the question that follows. Encourage the students to contribute their ideas to the discussion. Ask:

**Q** *Was the Great Grape Boycott successful? What did you hear that makes you think that? Heads together.*

Circulate as groups discuss the question. Look for examples of groups working well together and groups having difficulty and be ready to share your observations at the end of the lesson. Signal for the students’ attention and have one or two volunteers share what they discussed in their groups.

Explain that the next section, “Keeping the Peace,” is about what happened as the boycott continued. Read “Keeping the Peace” aloud, showing the photographs and reading aloud the captions on pages 26–27. Point out and read aloud the text box on page 26.

Have the students use “Heads Together” to discuss the question that follows. Remind the students to refer to the text to support their thinking. Ask:

**Q** *Why was César Chávez’s fast important? Heads together.*

Circulate among the groups as they work.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify what they have learned from the book?
- Are they contributing their thinking to the group?
- Are they using prompts to extend their discussions?

Record your observations on the “Class Assessment Record” sheet (CA3); see page 102 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are identifying what they have learned from the book, contributing their thinking to the group, and using prompts to extend their discussions, proceed with the lesson and continue on to Week 4.
- If **about half of the students** or **only a few students** are identifying what they have learned from the book, contributing their thinking to the group, and using prompts to extend their discussions, you might give the class additional instruction by repeating all or part of this week’s lessons using an alternative book before continuing on to Week 4. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

Signal for the students’ attention and have a few volunteers share what they discussed with their groups.

### Students might say:

“César Chávez’s fast reminded the workers not to fight back even though the growers were violent.”

“I agree with what [Tony] said. The book said that his fast united the strikers and gave them the message that the union was committed to nonviolence.”

“In addition to what [Amelia] said, the public got the message about nonviolence, too.”

“After his fast, the workers never gave up and the boycott worked.”

Explain that the final chapter, “New Battles, New Victories,” talks about what has happened since the Great Grape Boycott. Read the first paragraph of the chapter aloud. Ask:

**Q** *What did you find out in the part you just heard?*

Have one or two volunteers share what they found out. Explain that at this time you will not read aloud the next section in chapter 7, titled “The Campaign Against Pesticides.”

Read the heading of the last section, “The Struggle Goes On,” and continue reading to the end of the chapter. Ask:

**Q** *What did you find out in the last part of the book?*

Have one or two volunteers share what they found out.

### Teacher Note

Consider reading the section “The Campaign Against Pesticides” at another time (see the extension “Read ‘The Campaign Against Pesticides’ Aloud” on page 494).

### 3 Discuss the Reading

Facilitate a class discussion about chapters 6 and 7 using the question that follows. Encourage the students to use the discussion prompts they have learned as they participate in the discussion. Ask:

**Q** *Why were the Great Delano Grape Strike and the Great Grape Boycott important for farm workers?*

As students respond, encourage them to refer to the text to support their thinking. Be ready to reread from the text to help them recall what they learned.

**Students might say:**

"The strike and the boycott were important because afterward the union had the power to keep making things better for workers."

"I agree with what [Jacques] said because the book says that the short-handled hoe was banned."

"In addition to what [Veronica] said, more of the workers had homes and more of their children could go to school."

Explain that next week the students will hear and read parts of the book again and explore how the text is organized to give readers information.

### 4 Reflect on Group Work

Share some of your observations of how the students worked together in their groups. Without mentioning any of the students' names, describe examples of groups in which all the members were engaged in and were contributing to the discussion and examples of groups in which some members were not participating.

**You might say:**

"I noticed a group in which all four members were leaning into the center of the table and looking at each other. I also heard one group member ask another what she thought. I also noticed a group in which it looked like the students were working in pairs rather than in one group of four."

Then ask:

**Q** *How might [looking at each other/asking what other group members think] help a group work well together?*

**Q** *Why might [a group work in pairs rather than in one group of four]? What can group members do to make sure they are [working as a group during "Heads Together"]?*

Explain that the students will have more opportunities to practice participating in group work next week.

## INDIVIDUALIZED DAILY READING

### 5 Read Independently and Discuss Text Features

Tell the students that as they read their social studies textbooks today, you would like them to pay particular attention to text features—such as photographs, captions, text boxes, and maps—and to think about what facts or other information they learn from the features. Explain that at the end of IDR, you will ask a few volunteers to share text features and what they learned from the text features with the class. Have the students get their textbooks and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 107 of the *Assessment Resource Book*.

#### Vocabulary Note

Next week you will revisit *Farm Workers Unite: The Great Grape Boycott* to teach the Week 23 vocabulary lessons.

Signal to let the students know when it is time to stop reading. Invite a few volunteers to share what they read with the class. Ask each volunteer to describe a text feature and tell what he learned from the text feature. Have the students return to their desks and put away their textbooks.

## EXTENSIONS

### Read “The Campaign Against Pesticides” Aloud

Introduce the section “The Campaign Against Pesticides,” in chapter 7 (pages 28–29) of *Farm Workers Unite*, by explaining that this section talks about a problem that continued for farm workers even after all the work the union did during the Great Delano Grape Strike and the Great Grape Boycott.

Read the section aloud. Ask and briefly discuss:

- Q *Why do you think the growers kept using pesticides on their crops?*
- Q *How was the union able to fight the use of pesticides?*

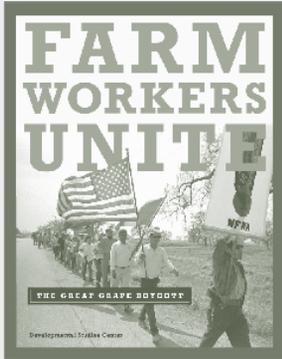

## Read and Discuss the Final Sections of *Farm Workers Unite*

Show the timeline of events (pages 33–34), glossary (page 35), bibliography (page 36), and index (page 37) in *Farm Workers Unite*. Discuss the function of each section by asking questions such as:

- Q *What information does the [glossary] provide? How is that helpful to a reader?*
- Q *How do you think the [timeline of events] might help a reader make sense of this book?*
- Q *What do you notice about the [bibliography]? How might a reader use it?*
- Q *How do you think the [index] might help a reader?*

# Week 4

## OVERVIEW

### ***Farm Workers Unite: The Great Grape Boycott\****

The Great Delano Grape Strike and the Great Grape Boycott, masterminded by union activists César Chávez and Dolores Huerta, raised public awareness of the plight of farm workers and led to lasting improvements in migrant workers' living and working conditions.

*\*This book was also used in Week 3.*

### **Online Resources**

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### **Whiteboard Activities**

- WA5–WA6

#### **Assessment Forms**

- “Class Assessment Record” sheet (CA4)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

#### **Reproducible**

- Unit 7 family letter (BLM1)

### Comprehension Focus

- Students use text structure to analyze an expository text.
- Students explore how information can be organized in expository text.
- Students explore the text structures of sequence and compare/contrast in an expository text.
- Students read independently.

### Social Development Focus

- Students work in a responsible way during group work.

## Ⓜ DO AHEAD

- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA4); see page 103 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 23 lessons this week.

**Materials**

- *Farm Workers Unite*
- *Student Response Book* pages 67–71
- “Expository Text Structures” chart (WA5)

**In this lesson, the students:**

- Use text structure to analyze an expository text
- Explore sequence in the text
- Explore how information can be organized in expository text
- Read independently for up to 30 minutes
- Work in a responsible way during group work

**1** Get Ready to Work Together

Have the students bring their *Students Response Books* and gather in their groups of four, facing you. Explain that for the last several weeks, the students have been working on how to be responsible group members. They have been making an effort to use discussion prompts and to include everyone in and contribute their thinking and ideas to their small-group discussions. Ask the students to continue to take responsibility for their learning during their small-group discussions this week.

**2** Review *Farm Workers Unite*

Show the cover of *Farm Workers Unite* and remind the students that last week they heard *Farm Workers Unite: The Great Grape Boycott*, a book written like many social studies textbooks. Have the students turn to *Student Response Book* page 67, “Contents from *Farm Workers Unite*.” Ask the students to follow along as you read the table of contents aloud. Then use “Heads Together” to briefly discuss:

**Q** *What did you learn in each chapter? Heads together.*

Signal for the students’ attention. As a class, discuss the following question:

**Q** *What are some things you learned from Farm Workers Unite about the struggle of César Chávez and Dolores Huerta to improve the working and living conditions for migrant farm workers?*

**Teacher Note**

If the students struggle with this question, you might reread sections of the book (for example, “To Join or Not to Join” on pages 15–17, “Hard Times on the Picket Line” on pages 20–21, or “Keeping the Peace” on pages 26–27) and then ask the question again.

Explain that it can be helpful in understanding textbooks to think about how the information is organized. Tell the students that they will use *Farm Workers Unite* this week to explore two different ways information can be organized in nonfiction texts. They will then use this information to help them make sense of their own textbooks.

### 3 Introduce and Discuss Sequence of Events

Have the students turn to *Student Response Book* pages 68–69, “Excerpt from *Farm Workers Unite* (1).” Explain that this is an excerpt from chapter 1, “Competition for Work.” Remind the students that authors think carefully about how to organize information in an expository text to help readers make sense of the information.

Ask the students to follow along as you read the chapter aloud and to notice how the author organized the information in this chapter. Read chapter 1, “Competition for Work,” aloud slowly and clearly. Ask and briefly discuss:

- Q *What did you learn about the competition for work from this chapter?*
- Q *What do you notice about how the author organized information in this chapter?*

If necessary, explain that the author writes about events in the chapter in the order in which they occurred. Point out that the chapter begins by discussing events that happened in the 1940s that created competition among migrant farm workers for jobs: the government setting up the Bracero Program in 1942, the end of World War II in 1945, and the use of machinery to do farm work in the 1950s and 1960s. Explain that when events are written in the order in which they happened, we say they are organized in a *sequence*.

Have the students turn to *Student Response Book* pages 70–71, the first two pages of “Excerpt from *Farm Workers Unite* (2).” Explain that this is an excerpt of the section from chapter 3 titled “César Chávez and Dolores Huerta.” Tell the students that this is another example of information organized in a sequence. Ask the students to follow along as you read the section aloud. Ask them to notice how the author uses sequence, or the order in which events occurred, to organize the information. Read “César Chávez and Dolores Huerta” aloud slowly and clearly. Briefly discuss the following question:

- Q *What do you notice about how the author uses sequence to organize information in this passage?*

**Students might say:**

“I notice that the passage starts out by mentioning that César Chávez was born in 1927.”

“In addition to what [Juanita] said, it mentions important dates in César Chávez’s life—like 1942, when he was 15 and he had to drop out of school to work in the fields to help his family.”

#### Teacher Note

This lesson and the following lesson on exploring how expository texts are organized lay the foundation for work the students will continue to do in subsequent grades. In grades 5 and 6 of the *Making Meaning* program, students explore cause/effect relationships as well as sequence of events and compare/contrast relationships. Mastery of these concepts is not expected at this point.

#### 4 Introduce the “Expository Text Structures” Chart

Display the “Expository Text Structures” chart (📄 WA5). Direct the students’ attention to the chart title and explain that *expository text structures* are “ways that authors organize information in expository texts.” Write *sequence* on the chart and explain that recognizing when information is organized in a sequence can help the students make sense of the nonfiction texts they read.

##### Expository Text Structures

- *sequence*

WA5

#### Teacher Note

Save the “Expository Text Structures” chart (WA5) to use on Day 2.

Explain that you will add to the chart tomorrow when the students explore another way information can be organized.

Explain that the students will explore another expository text structure in *Farm Workers Unite: The Great Grape Boycott* tomorrow. Encourage the students to look for information organized in a sequence when they read expository texts independently.

## INDIVIDUALIZED DAILY READING

#### 5 Read for Information Independently and Think About Sequence

Ask the students to think about what facts they are learning as they read their social studies textbooks and to notice whether the part they read today is organized in a sequence. Tell the students that at the end of IDR, you will ask them to share with the class what they discovered. Have the students get their textbooks and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 107 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer share what the part he read today is about, a fact he learned, and whether the information in the part he read was organized in a sequence. Have the students return to their desks and put away their textbooks.

## Strategy Lesson

# Day 2

### In this lesson, the students:

- Use text structure to analyze an expository text
- Explore compare/contrast relationships in the text
- Explore how information can be organized in expository text
- Read independently for up to 30 minutes
- Work in a responsible way during group work

## 1 Review the “Expository Text Structures” Chart

Have the students bring their *Student Response Books* and gather in groups of four, facing you. Remind the students that they read a passage from chapter 3 of *Farm Workers Unite* yesterday and thought about the sequence of events in the passage. Display the “Expository Text Structures” chart (WA5) and review that sequence is one expository text structure, or one way expository text can be organized. Explain that today the students will explore another way information can be organized.

## 2 Introduce and Discuss Compare/Contrast Relationships

Read aloud the end of chapter 3 of *Farm Workers Unite*, starting with the heading “A New Union” on page 14. Point out that this is an example of another text structure that can be found in expository text: the compare/contrast relationship, in which the author describes the similarities and/or differences between two things. Point out that in this passage the author is comparing César Chávez and Dolores Huerta.

Have the students turn to *Student Response Book* page 72, “Excerpt from *Farm Workers Unite* (3).” Explain that this page includes the section from chapter 3 that you just read. Ask the students to follow along, starting with the heading “A New Union,” as you read the section aloud again. Ask the students to pay close attention to the comparisons made between César Chávez and Dolores Huerta.

### Materials

- *Farm Workers Unite*
- “Expository Text Structures” chart (WA5) from Day 1
- *Student Response Book* pages 72–75

**ELPS 4.F.vi**  
Step 2 and Step 3  
(all, beginning on page 501 and continuing on to page 503)

### ELL Note

Prior to today’s lesson, consider reviewing the reading with your English Language Learners, making sure they understand the material.

**TEKS 9.D.v**  
**TEKS 9.D.vi**  
Student/Teacher Narrative  
Step 2 and Step 3  
(all, beginning on page 501 and continuing on to page 503)

**ELPS 3.G.ii**  
Step 3 (all, beginning on page 502 and continuing on to page 503)

### Teacher Note

The passage discusses the many reasons the National Farm Workers Association should or should not join the Agricultural Workers Organizing Committee grape strike.

Then use “Heads Together” to discuss:

- Q *Why did Chávez and Huerta make a good team? Heads together.*
- Q *How does the author compare and contrast Chávez’s and Huerta’s personalities? Heads together.*
- Q *How does the author compare and contrast Chávez’s and Huerta’s experiences? Heads together.*

Have several students share their thinking with the class.

#### Students might say:

“I think they made a good team because they each brought different things to their partnership.”

“I agree with [Rosa]. The book says that Chávez worked in the fields and really understood what it was like to be a farm worker and that Huerta was educated and knew how to deal with the government and other unions. So together they could work with both sides.”

“First the author describes something about Chávez and then the author describes how Huerta was the opposite. We learned that Chávez was shy and Huerta was bold and outgoing.”

### 3 Identify and Discuss Compare/Contrast Relationships

Have the students turn to *Student Response Book* pages 73–74, the first two pages of “Excerpt from *Farm Workers Unite* (4).” Explain that this is the section titled “To Join or Not to Join” from chapter 4. Ask the students to follow along as you read the section aloud. Read “To Join or Not to Join” aloud slowly and clearly. Use “Heads Together” to discuss:

- Q *What was the National Farm Workers Association’s first major challenge? Heads together.*
- Q *What compare/contrast relationship did you notice in this passage? Heads together.*

Have several students share what they discussed in their groups with the class. Point out that the author writes that there were many reasons for the National Farm Workers Association not to join the strike started by the Agricultural Workers Organizing Committee and there were many reasons for them to join the strike. Have the students find and underline the following sentences in their *Student Response Books*: “There were many reasons for the National Farm Workers not to join the strike” (page 73) and “There were also good reasons for the National Farm Workers Association to join the strike” (page 74). Explain that the way this information is organized is a good example of how authors often organize information using compare/contrast relationships to help readers make sense of the text.

Use “Heads Together” to discuss the questions that follow. Have the students refer to the excerpt on *Student Response Book* pages 73–75 as they discuss the questions.

**Q** *What reasons were given for the National Farm Workers Association to not join the strike? Heads together.*

**Q** *In contrast, what reasons were given for the National Farm Workers Association to join the strike? Heads together.*

Signal for the students’ attention and have several volunteers share what they discussed with their groups. Then ask and discuss the questions that follow. Be prepared to reread parts of the book to help the students support their thinking.

**Q** *Why was Chávez’s decision to join the grape strike so important to the migrant farm workers’ struggle to get decent working and living conditions? What in the book makes you think that?*

**Q** *Do you agree or disagree with what [Joel] said? Explain your thinking.*

**Q** *What questions do you have for [Bae] about her thinking?*

#### **4** Add to the “Expository Text Structures” Chart

Explain that the text structure of compare/contrast is used frequently in expository texts. Direct the students’ attention to the “Expository Text Structures” chart and add *compare/contrast* to it. Explain that tomorrow the students will have an opportunity to look for information organized in a sequence as well as compare/contrast relationships in their textbooks.

##### **Expository Text Structures**

- *sequence*
- *compare/contrast*

WA5

##### **Teacher Note**

Save the “Expository Text Structures” chart (WA5) to use on Days 3 and 4.

#### **5** Reflect on the Group Work

Help the students reflect on their work together by asking:

**Q** *What did you do to take responsibility for yourself during “Heads Together” today?*

**Q** *What problems did you have in your group? How did you try to solve those problems? What can you do next time to avoid those problems?*

## INDIVIDUALIZED DAILY READING

### 6 Read Independently and Think About Information and Text Structures

Ask the students to think about what facts they are learning as they read their social studies textbooks and to notice whether the parts they read today are organized using the expository text structure of sequence or compare/contrast. Tell the students that at the end of IDR, you will ask them to share with partners what they discovered. Have the students get their textbooks and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 107 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share what they read with their partners. Have each student tell his partner what the part he read today is about, a fact he learned, and whether the part he read today is organized using sequence or compare/contrast. Have the students return to their desks and put away their textbooks.

---

## EXTENSION

### Discuss Cause/Effect Relationships

Show pages 18–19 of *Farm Workers Unite* and read aloud the heading “The Strike Spreads.” Tell the students that this section tells what happened after the National Farm Workers Association joined the strike. Read the main text in the section “The Strike Spreads” aloud slowly and clearly. Ask:

**Q** *What effect did the National Farm Workers Association have on the strike? What did you hear that makes you think that?*

Have a few volunteers share their thinking.

**Students might say:**

"I think that one effect of the National Farm Workers Association joining the strike is that the strike spread to other vineyards in California."

"In addition to what [Jasmine] said, the workers the growers hired from Mexico to pick the grapes also joined the strike."

"Another effect of them joining the strike is that it got really big. Since it was so big, it was on the news and people started to donate food and money to the strikers."

Review that the National Farm Workers Association joining the Great Delano Grape Strike had an effect on the strike; more workers joined the picket lines and the strike spread to other vineyards. The growers realized that they would lose a lot of money if the grapes were not picked.

Point out that cause/effect relationships, or relationships in which one thing causes another thing to happen or affects another thing, are often found in expository texts. Explain that the National Farm Workers Association joining the strike caused the following effects: more workers joined the picket lines and the strike spread to other vineyards.

**Teacher Note**

To give the students more practice in recognizing cause/effect relationships, you might repeat the instruction in this activity using the section titled "Keeping the Peace" on pages 26-27 of chapter 6 or the section titled "The Campaign Against Pesticides" on pages 28-29 of chapter 7.

## Guided Strategy Practice

## Day 3

**In this lesson, the students:**

- Use text structure to analyze an expository text
- Explore sequence and compare/contrast relationships in the expository text
- Explore how information can be organized in expository text
- Read independently for up to 30 minutes
- Work in a responsible way during group work

**Materials**

- *Farm Workers Unite*
- "Expository Text Structures" (WA5) chart from Day 2
- *Student Response Book* pages 76–81

### 1 Review the "Expository Text Structures" Chart

Have the students get their *Student Response Books* and pencils and sit at desks with groups of four together. Display the "Expository Text Structures" chart (WA5) from Day 2 and remind the students that expository texts use text structures such as sequence and compare/contrast relationships to organize information. Tell the students that today they will reread a chapter from *Farm Workers Unite: The Great Grape Boycott* and practice recognizing information organized in a sequence and recognizing compare/contrast relationships. They will use a double-entry journal to record the examples they find and then discuss the examples.

### Teacher Note

If the students struggle to answer the question, provide some examples like those listed in the “Students might say” note.

## 2 Reread Part of Chapter 5 and Discuss Text Structures as a Class

Have the students turn to *Student Response Book* pages 76–77, the first two pages of “Excerpt from *Farm Workers Unite* (5).” Explain that this excerpt is from chapter 5 of the book *Farm Workers Unite*. Review that chapter 5 discusses challenges the workers faced as the strike continued and how the workers and the union responded to the strike. Have the students follow along as you read aloud the first section of chapter 5. Ask the students to listen for examples of information organized in a sequence and for examples of compare/contrast relationships as they listen. Read the section aloud slowly and clearly. Use “Heads Together” to discuss:

**Q** What expository text structures did you notice in this passage? Heads together.

Have a few volunteers share what they discussed in their groups.

### Students might say:

“We noticed that the author compares the way the workers reacted to the growers and the way the growers reacted to the workers. The workers sang songs and chanted union slogans, and the farm bosses yelled at the workers or sprayed them with pesticide.”

“In addition to what [Cheng’s group said], we noticed that the author compares what the women and children did during the strike with what the men did. The text says that usually the women and children stood in the picket lines while the men tried to get different kinds of work.”

“We noticed that the information is organized in a sequence. The chapter starts out by talking about the beginning of the strike, and then it talks about things that happened as the strike went on, and then it talks about how the pickets kept going into early 1966.”

## 3 Introduce the Double-entry Journal Activity

Have the students turn to *Student Response Book* page 81, “Double-entry Journal About *Farm Workers Unite*,” and explain that they will use the journal page to record examples they find of expository text structures in the chapter. Point out that the two expository text structures they have discussed are listed in the left-hand column. The students will record examples from the text for each expository text structure in the right-hand column. Point out that an example of a journal entry is provided, and read it aloud.

Unit 7 • Week 4 • Day 3

Double-entry Journal  
About Farm Workers Unite

Text Structure	Examples from the Text
sequence	
compare/contrast 1. The growers tried to scare the farm workers, but the farm workers remained peaceful.	1. "The growers tried to intimidate the strikers." "The striking workers refused to fight back."

81 Making Meaning

Name: \_\_\_\_\_

#### 4 Identify Expository Text Structures and Record in Double-entry Journals

Explain that the students will read the rest of chapter 5 of *Farm Workers Unite* individually, look for examples of information organized in a sequence and examples of compare/contrast relationships, and record the examples in the double-entry journal.

As the students work on their journal entries, circulate and ask them the following questions to help them think about how information is organized in the text:

- Q *What happened between early 1966 and Easter of 1966?*
- Q *How did what Chávez did after the march compare with what Huerta did?*
- Q *How did what Chávez wanted to happen as a result of the march to Sacramento compare with what actually happened?*

If the students have difficulty identifying expository text structures, signal for the students' attention and identify a few together as a class.

#### Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit's Individual Comprehension Assessment.

#### Teacher Note

Have the students who are unable to read the excerpt on their own read it quietly aloud with a partner, or read it aloud yourself as the students follow along. Then have each student complete the double-entry journal independently.

#### Teacher Note

Some examples of text structures in chapter 5 include "... that winter and into early 1966 ... Weeks went by ... The march left Delano in mid March of 1966 ..." (sequence) and "Chávez and Huerta each did what they were best at. Chávez spent a lot of time talking to farm workers, while Huerta negotiated the contracts. ..." (compare/contrast).

### Facilitation Tip

Reflect on your experience over the past four weeks with **responding neutrally with interest** during class discussions. Does this practice feel natural to you? Are you integrating it into class discussions throughout the school day? What effect is it having on the students? We encourage you to continue to try this practice and reflect on students' responses as you facilitate class discussions in the future.

### Teacher Note

You will use the "Expository Text Structures" chart (WA5) again on Day 4.

### Teacher Note

If you have completed the extension "Discuss Cause/Effect Relationships" on page 504, you might also have the students notice whether the part they read today uses the text structure of cause/effect.

## 5 Discuss the Double-entry Journals as a Class

When the students have had time to record the examples in their own double-entry journals, signal for their attention. Facilitate a class discussion by asking:

- Q *What is an example of [sequence] in the reading? How do you know?*
- Q *How does recognizing that [compare/contrast relationship] help you understand what this text is saying about [why the strike was successful]?*

Explain that tomorrow the students will have an opportunity to look for information organized in a sequence and in compare/contrast relationships in expository texts they read independently.

## INDIVIDUALIZED DAILY READING

## 6 Read Independently and Think About Information and Text Structures

Ask the students to think about what facts they are learning as they read their social studies textbooks and to notice whether the parts they read today are organized using the expository text structure of sequence or compare/contrast. Tell the students that at the end of IDR, you will ask them to share with partners what they discovered. Have the students get their textbooks and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 104) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 107 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share what they read with their partners. Have each student tell her partner what the part she read today is about, a fact she learned, and whether the part she read was organized using sequence or compare/contrast relationships. Have the students return to their desks and put away their textbooks.

## EXTENSION

### Analyze Paired Texts About Migrant Workers

Remind the students that they have heard two books about the topic of migrant workers. Show the cover of *Farm Workers Unite* and review that one of the books they have heard is an expository nonfiction book. Show the cover of *Amelia's Road* and review that the other book is a fiction story. Point out that while the important ideas in both texts are similar, the way in which each author wrote about the information is different. Tell the students that you will read aloud parts of both texts. Ask the students to think as they listen about what they are learning about the lives of migrant workers.

Read aloud chapter 2 of *Farm Workers Unite*, and then ask:

- Q** *What did you learn about the lives of migrant workers from the part of the book you just heard?*

Record the students' responses, where everyone can see them, under the heading "Farm Workers Unite."

Show the cover of *Amelia's Road* and point out that fiction authors are free to mix facts with invention, so works of fiction cannot be relied on as sources of factually accurate information. But fiction can help readers understand what individuals feel, experience, and perceive as they go through various experiences. Fictional accounts can give an "inside look" at an experience in a way that expository nonfiction books cannot.

Read aloud pages 4–14 of *Amelia's Road*, and then ask:

- Q** *What did you learn about the lives of migrant workers from the part of the story you just heard?*

Record the students' responses, where everyone can see them, under the heading "Amelia's Road." Encourage the students to compare the two texts and make text-to-text connections. Ask questions such as:

- Q** *How are the books *Farm Workers Unite* and *Amelia's Road* similar? How are they different?*
- Q** *How is the information you learned in *Farm Workers Unite* [the same as/ different from] the information you learned in *Amelia's Road*?*
- Q** *How is each book organized?*
- Q** *Which book did you like better? Why?*

### Teacher Note

Prior to doing this activity, collect the following read-alouds from Units 6 and 7: *Amelia's Road* and *Farm Workers Unite*.

### Materials

- “Expository Text Structures” chart (WA5) from Day 2
- Small self-stick notes for each student
- “Class Assessment Record” sheet (CA4)
- “Journal Entry” chart (WA6)
- *Student Response Book*, Reading Journal section
- Copy of this unit’s family letter (BLM1) for each student

### In this lesson, the students:

- Read independently
- Use text structure to analyze expository texts
- Explore sequence and compare/contrast relationships in the texts
- Explore how information can be organized in expository text
- Write in their reading journals
- Work in a responsible way

### 1 Review the “Expository Text Structures” Chart

Have the students remain at their desks today. Remind the students that over the past several days, they have been exploring relationships in expository text. Display the “Expository Text Structures” chart (WA5) and remind the students that expository texts use text structures such as sequence and compare/contrast relationships to organize information. Explain that today the students will practice recognizing these two expository text structures as they read their social studies textbooks independently.

### 2 Read Textbooks Independently Without Stopping

Distribute several self-stick notes to each student. Have the students take a moment to select the sections of the textbook they wish to read today. Ask them to mark where they start reading today with self-stick notes and then read independently for 10–15 minutes.

### 3 Think About Expository Text Structures and Prepare to Reread

Stop the students and ask them to think silently to themselves for a moment about the following questions:

- Q *What is your reading about?*
- Q *Did you notice information organized in a sequence in your reading? If so, what is the time frame in which the sequence of events is happening?*
- Q *Did you notice compare/contrast relationships in your reading? If so, what is being compared?*

Explain that now the students will reread the same sections they just read. As they reread, they will use additional self-stick notes to mark any places where they notice information organized in a sequence and where they notice compare/contrast relationships. Encourage the students to think about how recognizing these expository text structures helps them understand what they are reading.

#### 4 Reread Independently and Mark with Self-stick Notes

Have the students reread independently for 10 minutes, marking places where they notice expository text structures. Circulate and look for evidence that the students are recognizing expository text structures as they read.

#### CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify how the textbook is organized?
- Do they recognize sequence and compare/contrast relationships in their reading?

Record your observations on the “Class Assessment Record” sheet (CA4); see page 103 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify how the textbook is organized, proceed with the lesson and continue on to Unit 8.
- If **about half of the students** or **only a few students** are able to identify how the textbook is organized, you might give the class additional instruction by repeating Day 4 using different sections of the textbook or a different textbook before continuing on to Unit 8.

#### 5 Write in Reading Journals About Independent Reading

Display the “Journal Entry” chart (WA6) and explain that you would like each student to write a journal entry about the part of the textbook she read today. Also explain your expectations for what the journal entry should include.

#### Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit’s Individual Comprehension Assessment.

#### Teacher Note

If any students are reading sections of the textbook that do not include either of the expository text structures taught this week, you might invite them to instead write about the most interesting things they learned from their reading today.

### Journal Entry

Write a journal entry about the section you are reading. Please include:

- The title of the section
- What the part you read today is about
- Whether you notice a sequence of events in your reading and, if so, what is the time frame in which the sequence of events is happening
- Whether you notice a compare/contrast relationship in your reading and, if so, what is being compared

### ELL Note

Consider having students with limited English proficiency dictate journal entries for you to write down.

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals.

## 6 Discuss the Journal Entries in Groups and as a Class

Have the students use “Heads Together” to discuss:

**Q** *What did you write about in your reading journals? Heads together.*

Then have a few volunteers each share a journal entry with the class. Remind each student to say the title of his text and what the part he read is about. Facilitate a discussion by asking:

**Q** *What questions can we ask [Cameron] about the expository text structure he noticed?*

**Q** *[Cameron], how does recognizing that [compare/contrast relationship] help you better understand the topic you’re reading about?*

Remind the students that the purpose of studying expository text structures is to help them make sense of their own independent reading. Encourage them to continue to look for expository text structures as they read expository text during IDR and throughout the school day.

## 7 Reflect on Taking Responsibility

Ask and briefly discuss:

**Q** *What did you do to take responsibility for your learning this week?*

**Q** *What do you want to continue to work on the next time you work with a partner or in a group?*

### Teacher Note

This is the last week in Unit 7. In Unit 8, the students will think about determining important and supporting ideas and using important ideas to build summaries. If you feel your students need more experience with analyzing text structures in expository text before moving on, you might repeat Weeks 3 and 4 of this unit using an alternative text. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

### Vocabulary Note

Next week you will revisit *Farm Workers Unite* to teach the Week 24 vocabulary lessons.

### Teacher Note

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on page 514.

# WRITING ABOUT READING

## Write Opinions About Nonfiction

Remind the students that they have heard, read, and discussed several nonfiction texts this year. Show the covers of the expository nonfiction books you have collected and remind the students that expository nonfiction texts provide information about specific topics and are not told like stories. Ask:

**Q** *What other types of expository nonfiction texts did we talk about besides books? What were some of the topics of those texts?*

If necessary, remind the students that they heard, read, and discussed expository nonfiction articles about subjects like video games and school uniforms as well as a variety of functional texts including a set of instructions, a menu, and a map. Point out that, in addition to the read-alouds, the students have read many other examples of nonfiction during IDR and Independent Strategy Practice.

First in pairs, and then as a class, discuss:

**Q** *What type of nonfiction do you most enjoy? Why? Turn to your partner.*

**Q** *What nonfiction topics are most interesting to you? Turn to your partner.*

Have a few volunteers share their thinking.

### Students might say:

"I like functional texts best because they help you figure out how to do and make things."

"I like reading people's opinions about topics, like whether playing video games is good or bad for the people who play them, because it gets me thinking about my own opinions."

"I like books with interesting facts about space because I like to learn about the planets and space travel."

Point out that when people talk about what they like most or find the most interesting, they are giving *opinions*, or telling what they think about things. Remind the students that people may have different opinions about the same thing, and that this is fine. What is important is that they explain their thinking. Ask the students to watch as you think aloud and model writing opinions about nonfiction.

### You might say:

"I'll write: *The nonfiction texts I most enjoy are expository nonfiction books about teaching. I want to give a reason for my opinion. I'll write: I like reading about teaching because I want to learn about ways to be a better teacher. I want to add more detail about my opinion. I'll write: I learn new activities and ways of using technology that will engage my students and help them learn.*"

## Materials

- Expository read-aloud books from Units 2, 3, 6, and 7, collected ahead

## Teacher Note

Prior to doing this activity, collect the following read-alouds from Units 2, 3, 6, and 7: *Nineteenth Century Migration to America*, *Shattering Earthquakes*, *Slinky Scaly Slithery Snakes*, *Animal Senses*, *Coming to America*, and *Farm Workers Unite*.

Have the students write their own opinion paragraphs about nonfiction they enjoy. Remind them to give reasons for their opinions. If time permits, ask a few volunteers to share their writing with the class

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of Unit 7. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit's family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

### Assessments

- Before continuing on to the next unit, take this opportunity to assess individual students' reading comprehension using the "Individual Comprehension Assessment" record sheet (IA1); see page 108 of the *Assessment Resource Book*.
- (Optional) Prior to beginning the next unit, you might wish to prepare the students for an end-of-year reading assessment by teaching the Answering Questions in Response to Text unit in the *Reading Assessment Preparation Guide*. For more information, see "Teaching the Unit" in the Introduction of the *Reading Assessment Preparation Guide*.

# Unit 8

# Determining Important Ideas and Summarizing

## NARRATIVE NONFICTION

During this unit, the students continue to make inferences to understand text. They also think about important ideas and supporting details in texts and use important ideas to build summaries. During IDR, the students think about the comprehension strategies they use when reading independently. They also identify important ideas and supporting details and practice summarizing. Socially, they give reasons for their opinions, discuss their opinions respectfully, and reach agreement before making decisions. They also learn how to support one another when working independently and how to give feedback in a caring way.

# Unit 8

## Determining Important Ideas and Summarizing

### RESOURCES

#### Read-alouds

- *Flight*
- *A Picture Book of Amelia Earhart*
- *In My Own Backyard*
- *A Picture Book of Rosa Parks*
- “Excerpt from *Rosa Parks: My Story*”

#### Writing About Reading Activities

- “Compare First- and Secondhand Accounts of Charles Lindbergh’s Flight”
- “Write About Themes in *A Picture Book of Amelia Earhart* and *A Picture Book of Harriet Tubman*”

#### Technology Mini-lessons

- Mini-lesson 4, “Choosing Effective Search Terms”
- Mini-lesson 5, “Understanding Search Results”
- Mini-lesson 6, “Narrowing Search Results and Using Filters”
- Mini-lesson 7, “Evaluating Research Sources”

#### Technology Extensions

- “Learn More About Charles Lindbergh”
- “Research and Create Presentations About Amelia Earhart”
- “Read and Watch Interviews with Rosa Parks”

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this unit.

#### Whiteboard Activities

- WA1–WA15

#### Assessment Forms

- “Class Assessment Record” sheets (CA1–CA5)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

#### Reproducibles

- Unit 8 family letter (BLM1)
- (Optional) “First- and Secondhand Accounts of Charles Lindbergh’s Flight” (BLM2)

#### Professional Development Media

- “Using ‘Think, Pair, Write’” (AV10)
- “Responding Neutrally with Interest” (AV23)
- “Using Web-based Whiteboard Activities” tutorial (AV42)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)
- “Using Presentation Tools” tutorial (AV44)
- “Using Web-based Maps and Related Tools” tutorial (AV49)

## RESOURCES (continued)

### Extensions

- “Distinguish Between Facts and Opinions”
- “Compare Point of View in *In My Own Backyard* and *Flight*”
- “Research the Community’s Past”
- “Analyze the Students’ Summaries”
- “Analyze Paired Texts About Rosa Parks”

### Assessment Resource Book

- Unit 8 assessments

### Student Response Book

- “Think, Pair, Write About *Flight*”
- “Excerpt from *Flight*”
- “Think, Pair, Write About *A Picture Book of Amelia Earhart*”
- “Excerpt from *A Picture Book of Amelia Earhart*”
- “Summary of *A Picture Book of Amelia Earhart*”
- (Optional) “Summary of *Flight*”
- “Excerpt from *A Picture Book of Rosa Parks*”
- “Excerpt from *Rosa Parks: My Story*”
- “Summary of \_\_\_\_\_”
- Reading Log
- Reading Journal

### Vocabulary Teaching Guide

- Week 24 (*Farm Workers Unite: The Great Grape Boycott*)
- Week 25 (*Flight*)
- Week 26 (*A Picture Book of Amelia Earhart*)
- Week 27 (*In My Own Backyard*)
- Week 28 (*A Picture Book of Rosa Parks*)

# Unit 8

# Week 1

## OVERVIEW

### *Flight*

by Robert Burleigh, illustrated by Mike Wimmer

Charles Lindbergh becomes the first person to fly solo across the Atlantic Ocean.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### **Whiteboard Activities**

- WA1–WA3

#### **Assessment Forms**

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)

#### **Reproducible**

- (Optional) “First- and Secondhand Accounts of Charles Lindbergh’s Flight” (BLM2)

#### **Professional Development Media**

- “Using ‘Think, Pair, Write’” (AV10)
- “Responding Neutrally with Interest” (AV23)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)
- “Using Web-based Maps and Related Tools” tutorial (AV49)

## Comprehension Focus

- Students make inferences to understand a narrative nonfiction story.
- Students think about important ideas and supporting details in a narrative nonfiction story.
- Students explore elements of narrative text structure, including point of view and plot, in a narrative nonfiction story.
- Students read independently.

## Social Development Focus

- Students develop the skill of giving reasons for their opinions.
- Students make decisions and solve problems respectfully.

## DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding.
- ✓ Make available fiction and narrative nonfiction texts, including biographies and autobiographies, at a variety of levels so that the students can practice making inferences and finding important ideas and supporting details during IDR throughout the unit.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during the unit.
- ✓ Prior to Day 1, make a class set of “IDR Conference Notes” record sheets (CN1); see page 127 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1); see page 119 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 24 lessons this week.

**Materials**

- *Flight*
- “Thinking About My Reading” chart
- “Reading Comprehension Strategies” chart
- Class set of “IDR Conference Notes” record sheets (CN1)
- *Assessment Resource Book* page 124

**In this lesson, the students:**

- Begin working with new partners
- Hear and discuss a narrative nonfiction story
- Make inferences about the story
- Discuss point of view and plot
- Read independently for up to 30 minutes
- Give reasons for their opinions

**1** Pair Students and Introduce a Prompt for Supporting Opinions

Randomly assign partners and make sure they know each other’s names. Have the students gather with partners sitting together, facing you. Review that the students have practiced several social skills, including using clarifying questions or statements, confirming that they understood another person’s thinking by repeating back what they heard, and using discussion prompts to build on one another’s thinking. Explain that over the next few weeks, they will focus on explaining their thinking more clearly by giving reasons for their opinions.

Write the following prompt where everyone can see it: *The reason I think this is \_\_\_\_\_*. Read the prompt aloud and tell the students that you would like them to use this prompt when they answer a question or give an opinion during a book discussion. Model using the prompt to give reasons for your opinions.

**You might say:**

“I think that most Americans are related to immigrants or are immigrants themselves. The reason I think this is that almost everyone came to this country from somewhere else. I also think that Harriet Tubman was a moral person. The reason I think this is that she believed slavery and discrimination were wrong and acted on this her whole life.”

Tell the students that they have already been giving reasons for their opinions when they have explained their thinking by answering questions like *Why do you think so?* and *What in the text makes you think that?* Now the focus is on consciously using the prompt without waiting to be asked to explain their thinking.

## 2 Introduce *Flight*

Show the cover of *Flight* and read the title and the names of the author and the illustrator aloud. Explain that the book tells the true story of Charles Lindbergh's historic flight from New York to Paris in 1927. Lindbergh was the first person to fly solo (alone) across the Atlantic Ocean. Point out that in 1927, the airplane was a fairly new invention. (The Wright brothers' famous first flight of a motorized airplane occurred near Kitty Hawk, North Carolina, in 1903.) People rarely saw airplanes overhead. Lindbergh's flight made him world famous and changed the way people thought about air travel.

Review that the students have been making inferences to help them make sense of poems, stories, and books. Ask them to continue to think about making inferences as they hear the book *Flight* today.

## 3 Read Aloud

Read the book aloud, showing the illustrations and stopping as described on the next page. Clarify vocabulary as you read.

### Suggested Vocabulary

**cockpit:** area in the front of the plane where the pilot sits (p. 7)

**aloft:** up in the air (p. 8)

**periscope:** tube containing mirrors that enables someone to see around things (p. 10)

**drones:** makes a continuous humming sound (p. 10)

**sentries:** guards (p. 11)

**throttle:** part of an airplane that controls the speed (p. 16)

**sod:** grass (p. 27)

**aviators:** people who fly airplanes; pilots (p. 29)

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**goggles:** special glasses that protect one's eyes (p. 8)

**diary:** book for writing personal thoughts or activities (p. 11)

**He follows two compasses and the stars to navigate:** He uses two instruments that tell his direction and the stars to help him fly in the right direction (p. 13)

Read the first page of the story twice. Ask and briefly discuss:

**Q** *Who is telling the story? What in the story makes you think so?*

### ELL Note

Consider explaining Charles Lindbergh's flight across the Atlantic to your English Language Learners prior to today's lesson.

### Technology Tip

You might display a map of the world to show Lindbergh's route and how far he flew. Search online using the keywords "map of Lindbergh's transatlantic flight." To learn more about using web-based tools, view the "Using Web-based Maps and Related Tools" tutorial (AV49).

Have a few volunteers share their thinking. If necessary, review that when the narrator (person who is telling the story) is not a character in the story, we say that the story is told from the *third-person point of view*.

Continue reading, stopping after:

**p. 8** "Over thirty hours away."

Ask and briefly discuss:

 **Q** *What did you learn in the part of the story you just heard? Turn to your partner.*

Without sharing as a class, reread the last sentence on page 8 and continue reading to the next stopping point:

**p. 13** "He has completed one-third of the flight."

Ask and briefly discuss:

 **Q** *What happened in the part of the story you just heard? Turn to your partner.*

Without sharing as a class, reread the last sentence on page 13 and continue reading. Follow the same procedure at the remaining stops:

**p. 20** "It is 10:52 in the morning, New York time."

**p. 24** "It is 4:52 in the afternoon, New York time. Lindbergh's thirty-fourth hour in the air."

**p. 32** "It is 1927, and his name is Charles Lindbergh."

### Facilitation Tip

During this unit, we invite you to continue to practice **responding neutrally with interest** during class discussions by refraining from overtly praising or criticizing the students' responses. Try responding neutrally by nodding, asking the students to say more about their thinking, or asking other students to respond.

To see this Facilitation Tip in action, view "Responding Neutrally with Interest" (AV23).

## **4** Discuss the Story as a Class

Facilitate a discussion of the story using the questions that follow. Be ready to reread passages aloud and show illustrations again to help the students recall what they heard. Remind them to use the prompt "The reason I think this is . . ." to give reasons for their opinions and to use the other discussion prompts they have learned to build on one another's thinking. Ask:

**Q** *What is the plot of Flight? If you had to tell what happens in the story in a few sentences, what would you say?*

Have a few volunteers share their thinking. Reread the following passage from page 8:

**p. 8** "He has been up all night getting ready. A thought runs back and forth through his mind: It is still possible to turn back. To return home. And yet another thought is stronger: I have been waiting my entire life for this flight."

Ask and briefly discuss:

**Q** *How do you think Charles Lindbergh feels at this point in the book? What in the book makes you think that?*

**Students might say:**

"He's scared and nervous, but he's going to do it anyway. The reason I think this is that he says he's been waiting for this flight for his entire life."

"I agree with [Sam] because Charles thinks about not doing it but then decides to go ahead."

"I think he knows he's going to be famous, so that's why he decides to fly."

As the students make inferences about the story, point them out.

**You might say:**

"The story does not directly say that Charles Lindbergh was nervous to begin his flight, but you inferred that from clues in the story."

Reread the following passage from page 13:

**p. 13** "Now he can no longer follow the land's edge for direction. He must chart his course carefully. The slightest movement could send him miles off course and risk the fuel supply."

Ask and briefly discuss:

**Q** *What does this passage mean? Why does it make sense that he is concerned about his fuel supply?*

## 5 Reflect on Giving Reasons for Opinions

Facilitate a brief discussion about how the students did with using the prompt "The reason I think this is . . ." to give reasons for their opinions. Share your own observations and explain that you would like the students to continue to focus on giving reasons for their opinions throughout the week.

# INDIVIDUALIZED DAILY READING

## 6 Review and Practice Self-monitoring and "Fix-up" Strategies

Tell the students that during the next five weeks, they will be reading fiction and narrative nonfiction books during IDR. Refer to the "Thinking About My Reading" chart and review the questions. Remind the students that it is important to stop, think about what they are reading, and use the questions on the chart to help them monitor their comprehension. If a student does not understand what she is reading, she should use one or both of the "fix-up" strategies of rereading and reading ahead. If a student has tried both of the "fix-up" strategies and still does not understand the book, she can try the strategies listed on the "Reading Comprehension Strategies" chart. Alternatively, the student might ask you or a classmate for help.

## ELL Note

To support your English Language Learners, you may want to model reading a text and stopping periodically to ask yourself the self-monitoring questions listed on the chart. Discuss each question with your students to make sure they understand the process.

## Teacher Note

Provide time on a regular basis for the students to record the books they have completed in their reading logs.

## Technology Tip

Prior to doing this activity, find an age-appropriate web page about Charles Lindbergh to share with your students. Search online using the keywords “Charles Lindbergh for kids.” Preview the web page you have selected and identify the sections you will read aloud and the features you want to show the students (for example, videos, audio clips, historical documents, or photographs). For more information, view the “Finding, Organizing, and Presenting Online Information” tutorial (AV43).

Have the students get their books and read silently for up to 30 minutes. Stop them at 10-minute intervals and have them monitor their comprehension by thinking about the charted questions.

After the students have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Beginning today, and continuing throughout the unit, confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Facilitate a brief discussion with the students about using the questions on the “Thinking About My Reading” chart to track their reading comprehension. Ask and briefly discuss questions such as:

- Q *Why is it important to stop as you are reading and ask yourself if you understand what you have just read?*
- Q *How do rereading and reading ahead help you make sense of the text?*
- Q *Which comprehension strategy do you find most helpful when you’re not understanding something you’re reading? Why?*

Have the students return to their desks and put away their books.

## TECHNOLOGY EXTENSION

### Learn More About Charles Lindbergh

Show the cover of *Flight* and remind the students that earlier they heard this book about Charles Lindbergh’s historic flight from New York to Paris. Ask:

- Q *What do you remember about Charles Lindbergh’s flight?*

As the students respond, record their thinking where everyone can see it. If the students struggle to answer the question, page through the book and summarize the important ideas.

Tell the students that today they will learn more about Charles Lindbergh by exploring a website about him. Display the web page you have selected and read the sections you identified aloud. After reading

each section, facilitate a discussion about what the students are learning by asking questions such as:

- Q *What did you learn about Charles Lindbergh from the section you just heard?*
- Q *How did [watching the video] help you better understand the kind of person Charles Lindbergh was?*

As the students respond, record their thinking where everyone can see it. After you have explored the web page together, have each student write a paragraph that tells what he learned about Charles Lindbergh. Encourage the students to use facts they learned from the book *Flight* and from the web page to support their thinking.

## Strategy Lesson

# Day 2

### In this lesson, the students:

- Hear and discuss part of a narrative nonfiction story again
- Make inferences about the story
- Think about what is important in the story
- Read independently for up to 30 minutes
- Give reasons for their opinions

### ABOUT DETERMINING IMPORTANT IDEAS AND SUPPORTING DETAILS

The focus of the next two weeks is determining important ideas and supporting details, a strategy that helps readers understand and retain what they read. The students explore this strategy through teacher modeling, discussion, and referring back to the text to support their opinions. As always, the goal is that the students use the strategy to make sense of their independent reading. For more about determining important ideas, see “The Grade 4 Comprehension Strategies” in the Introduction.

## 1 Introduce Using “Think, Pair, Write” to Think About What Is Important

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Review that the students heard *Flight* and made inferences to figure out what happens in the story and why. Explain that today they will make inferences to help them think about what is most important for them to understand and remember in the story.

### Materials

- *Flight*
- *Student Response Book* page 82
- “Think, Pair, Write About *Flight*” chart (WA1)
- “Reading Comprehension Strategies” chart
- Small self-stick notes for each student

**ELPS 2.I.v**  
**ELPS 5.B.ii**  
Steps 1–3  
(all, beginning on page 527  
and continuing on to the  
top of page 530)

## Teacher Note

You may need to remind the students that in “Think, Pair, Write” they think quietly for a moment, talk in pairs about their thinking, and then individually write their ideas. To see an example, view “Using ‘Think, Pair, Write’” (AV10).

### TEKS 7.G.i

Student/Teacher Narrative  
Step 2 (all, beginning on page 528  
and continuing on to page 529)

Explain that you will reread the first half of *Flight* aloud and the students will use “Think, Pair, Write” to take notes about what they think is important in the story.

Have the students turn to *Student Response Book* page 82, “Think, Pair, Write About *Flight*.” Explain that during the reading you will stop four times. At the first two stops, you will model thinking and writing about what is important in the story before the students try it on their own. Then, at the next two stops, they will use “Think, Pair, Write” to think about what is important in the part of the story they just heard, share their thinking in pairs, and then individually write their own ideas on *Student Response Book* page 82.

## 2 Reread from *Flight* Aloud and Model Using “Think, Pair, Write” to Think About What Is Important

Read pages 4–6 aloud twice. Stop after:

**p. 6** “Alone.”

Model thinking quietly for a moment; then think aloud about what seems important in the passage. Display the “Think, Pair, Write About *Flight*” chart (WA1) and model writing a note about this passage on the chart.

### You might say:

“What seems most important to understand and remember in this passage is that Lindbergh is about to attempt what no one has done before, to fly from New York to Paris. I’ll write: *Lindbergh will attempt what no one has done before, to fly from New York to Paris.*”

### Think, Pair, Write About *Flight*

*Lindbergh will attempt what no one has done before, to fly from New York to Paris.*

WA1

Ask the students to write the same note on *Student Response Book* page 82. Continue reading, stopping after:

**p. 10** “At this rate, he will have enough fuel to reach his destination, but only if he stays on course.”

Once again, model thinking quietly for a moment. Then think aloud about what seems important in the passage and model writing a note about this on the chart.

**You might say:**

"What seems most important to understand and remember is that Lindbergh is nervous and afraid, but he takes off anyway. I'll write: *He's afraid, but he takes off anyway.*"

Ask the students to write the same note on *Student Response Book* page 82. Emphasize that thinking about what is important sometimes means saying in a few words what the author says over several pages.

### 3 Continue Rereading from *Flight Aloud* with "Think, Pair, Write"

Remind the students that at the next two stops, they will practice thinking on their own about what is most important for them to understand and remember in the story. Then they will share their thinking with their partners and record their ideas in their own *Student Response Books*.

Reread the last sentence you read on page 10 ("At this rate . . . but only if he stays on course") and continue reading. Stop after:

**p. 13** "He has completed one-third of the flight."

Use "Think, Pair, Share" to discuss:

**Q** *What seems most important to understand and remember in the part you just heard?* [pause] *Turn to your partner.*

Circulate as partners talk, and notice whether they are able to identify important ideas in the passage. If students are having difficulty, reread parts of the passage to individual students and ask questions such as:

**Q** *What is this part mainly about?*

**Q** *If you had to tell what this part is about in one sentence, what would you say?*

After a moment, ask the class to listen again for what seems most important to understand or remember, and reread the passage aloud.

Have the students record what they think is most important to understand or remember on *Student Response Book* page 82. Then have a few volunteers share what they wrote with the class. After each volunteer shares, ask and briefly discuss as a class:

**Q** *Why does that idea seem most important?*

**Q** *What other ideas seemed important as you listened to the passage? Why?*

Reread the last sentence on page 13 and continue reading. Stop after:

**p. 16** "To sleep is to die!"

Use "Think, Pair, Share" to discuss:

**Q** *What seems most important to understand and remember in the part you just heard?* [pause] *Turn to your partner.*

#### Teacher Note

One important idea is that Lindbergh is now flying over the ocean, so he does not have landmarks to guide him.

#### Teacher Note

Students may have different opinions about what is important in a passage. Give them time to consider other opinions before giving your own. Encourage them to explain their thinking and to refer to the text to support their opinions.

### Teacher Note

Important ideas include that Lindbergh made it through a storm cloud and that he is struggling to stay awake.

### Teacher Note

Save the “Think, Pair, Write About Flight” chart (WA1) to use on Day 3.

### ELL Note

You might want to model this activity for your English Language Learners. In addition, you may want to preview the questions with them prior to having the students read.

Again circulate as partners talk and notice whether they are able to identify important ideas in the passage. If the students have difficulty, reread parts of the passage to individual students and ask questions such as:

**Q** *What is this part mainly about?*

**Q** *If you had to tell what this part is about in one sentence, what would you say?*

Reread the passage aloud; then have the students record what they think is most important to understand or remember in the passage on *Student Response Book* page 82.

Have a few volunteers share with the class what they wrote. After each volunteer shares, ask and briefly discuss as a class:

**Q** *Why does that idea seem most important?*

**Q** *What other ideas seemed important as you listened to the passage? Why?*

Tell the students that thinking about what is important in a text is something good readers do to help them identify and remember the important ideas in a text. Explain that tomorrow you will read the rest of the story and the students will continue to think about the important ideas in it.

## **4** Reflect on “Think, Pair, Write”

Facilitate a brief discussion about how the students did with giving reasons for their opinions when they talked in pairs during “Think, Pair, Write.”

## INDIVIDUALIZED DAILY READING

## **5** Mark and Discuss Reading Comprehension Strategies

Direct the students’ attention to the “Reading Comprehension Strategies” chart and remind them that these are the comprehension strategies they have learned so far this year. Ask them to notice which strategies they use and where they use them during their reading today.

Distribute self-stick notes to each student. Tell the students that they will use self-stick notes to mark places in their books where they use comprehension strategies and that they should write the names of the strategies on the self-stick notes. Explain that later each student will share with a partner one of the passages he marked and the strategy he used. Ask the students to be prepared to talk about how each strategy helped them understand what they read.

Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share what he read with a partner. Have each partner begin by telling the title of the book he read, the author’s name, and what the book is about. Then have him share a passage he marked and the strategy he used to make sense of it.

When most pairs have finished sharing, signal for the students’ attention. Facilitate a class discussion about the strategies the students used. Ask:

Q *What comprehension strategies did you use as you read today?*

Q *How does [visualizing] help you understand the story?*

Have the students return to their desks and put away their books.

## Guided Strategy Practice

## Day 3

### In this lesson, the students:

- Hear and discuss part of a narrative nonfiction story again
- Make inferences about the story
- Think about important ideas in the story
- Read independently for up to 30 minutes
- Give reasons for their opinions

### 1 Review Giving Reasons for Opinions

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Explain that today the students will again use “Think, Pair, Write” and make inferences to help them think about what is important in a text. Remind them to practice giving reasons for their opinions by using the prompt “The reason I think this is . . .”

### Materials

- *Flight*
- *Student Response Book* page 82
- “Think, Pair, Write About *Flight*” chart (WA1) from Day 2
- “Reading Comprehension Strategies” chart
- Small self-stick notes for each student

## 2 Review Thinking About What Is Important

Remind the students that yesterday they heard the first part of *Flight* again and used “Think, Pair, Write” to think about the important ideas, or what is important to understand or remember, in the story. Have them open to *Student Response Book* page 82, “Think, Pair, Write About *Flight*” and review the important ideas they recorded. Ask:

**Q** *What are some important ideas we identified in the first part of Flight?*

Tell the students that today you will reread the rest of the story aloud, stopping three times. Explain that at the first stop, you will model thinking and writing about an important idea in the story. At the next two stops, the students will use “Think, Pair, Write” to think about the important ideas in the part of the story they just heard, share their thinking in pairs, and then individually write their own ideas in their *Student Response Books*.

## 3 Reread from *Flight* Aloud and Model Using “Think, Pair, Write” to Think About Important Ideas

Remind the students that in the last part of the story they heard, Lindbergh had made it halfway to Paris and was fighting to stay awake. Reread the last sentence on page 16 and continue reading. Stop after:

**p. 22** “He wants to complete his dream.”

Model thinking quietly for a moment; then think aloud about an important idea in the passage. Display the “Think, Pair, Write About *Flight*” chart (🗺️ WA1) from Day 2. Model writing a note about this passage on the chart.

### You might say

“One important idea in this part of the story is that Lindbergh makes it across the ocean and is now over land again on the other side. I’ll write: *Lindbergh made it across the ocean.*”

### Think, Pair, Write About *Flight*

*Lindbergh will attempt what no one has done before, to fly from New York to Paris.*

*He’s afraid, but he takes off anyway.*

*Lindbergh made it across the ocean.*

WA1

Ask the students to write the same note on *Student Response Book* page 82.

#### 4 Continue Rereading from *Flight Aloud* with “Think, Pair, Write”

Ask the students to think about important ideas in the next passage you read. Reread the last sentence on page 22 and continue reading. Stop after:

**p. 27** “It is 10:22, Paris time. The flight has taken thirty-three and a half hours.”

Use “Think, Pair, Share” to discuss:

**Q** *What is an important idea in the part you just heard? What is most important to understand and remember? [pause] Turn to your partner.*

Circulate as partners talk, and notice whether they are able to identify important ideas in the passage. After a moment, ask the class to listen again for important ideas, or what seems most important to understand or remember, and reread the passage aloud.

Have the students record what they think is most important to understand or remember on *Student Response Book* page 82. Have a few volunteers share what they wrote with the class. After each volunteer shares, ask and briefly discuss as a class:

**Q** *Why does that idea seem most important?*

**Q** *What other ideas seemed important as you listened to the passage? Why?*

Reread the last sentence on page 27 and continue reading. Stop after:

**p. 32** “It is 1927, and his name is Charles Lindbergh.”

Again, have the students think and then briefly share in pairs. Reread the passage aloud; then have the students record what they think is most important to understand or remember on *Student Response Book* page 82.

Have a few volunteers share what they wrote with the class. After each volunteer shares, ask and briefly discuss as a class:

**Q** *Why does that idea seem most important?*

**Q** *What other ideas seemed most important as you listened to the passage? Why?*

Remind the students that thinking about what is important when reading helps them identify and remember the important ideas in texts. Explain that tomorrow they will think more about the important ideas in *Flight*.

#### 5 Reflect on “Think, Pair, Write”

Facilitate a brief discussion about how the students did with working in pairs during “Think, Pair, Write.” Ask:

**Q** *How did you and your partner do with giving reasons for your thinking about the important ideas in the book?*

**Q** *Did you change your mind about what was important in a passage after hearing your partner’s thinking? Tell us about that.*

#### Teacher Note

One important idea is that Lindbergh successfully flew from the United States to Paris, France.

#### Teacher Note

One important idea in this passage is that Charles Lindbergh has become a hero all over the world for being the first man to fly across the Atlantic Ocean.

## INDIVIDUALIZED DAILY READING

### 6 Mark and Discuss Reading Comprehension Strategies

Direct the students' attention to the "Reading Comprehension Strategies" chart and review the strategies. Ask them to notice which strategies they use and where they use them during their reading today.

Distribute self-stick notes to each student. Have the students use the self-stick notes to mark places where they use comprehension strategies when they are reading. Tell the students that later they will share with the class passages they marked and the strategies they used. Ask the students to be prepared to talk about how each strategy helped them understand what they read.

Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Invite a few volunteers to share with the class. Have each volunteer begin by telling the title of the book she read, the author's name, and what the book is about. Then have her share a passage she marked and the comprehension strategy she used to make sense of it. Remind the students to give reasons for their thinking and to ask one another clarifying questions.

Have the students return to their desks and put away their books.

## In this lesson, the students:

- Determine important ideas and supporting details in a narrative nonfiction story
- Read independently for up to 30 minutes
- Reach agreement before making decisions
- Give reasons for their opinions

## 1 Review Important Ideas

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Review that in previous lessons the students heard you reread *Flight* and they used “Think, Pair, Write” to think about the important ideas in the story. Remind the students that thinking about what is important when reading helps them identify and remember the important ideas in the text.

## 2 Model Distinguishing Between Important Ideas and Supporting Details

Display the “Excerpt from *Flight* (1)” chart (WA2) and explain that this is an excerpt from the very beginning of the story. Read the excerpt aloud. Remind the students that in a previous lesson they discussed the important idea in the passage—that Lindbergh was going to attempt what no one had done before. Explain that the sentence “And yet—he is about to attempt what no one has done before: To fly—without a stop—from New York to Paris, France” expresses the important idea in the passage. Underline the passage on the chart.

Using a different color, underline the phrase “Over 3,600 miles away” and read the underlined text aloud. Explain that this is a detail that tells more about Lindbergh’s flight—it tells the distance he was going to travel from New York to Paris. Explain that facts, examples, or descriptions that tell more about, or support, the important ideas in a text are called *supporting details*. Ask:

- Q** *What other details in this passage support the important idea that Lindbergh was going to attempt what no one had done before, to fly from New York to Paris?*

Have a few volunteers share their thinking with the class, and underline the supporting details on the chart.

## Materials

- *Flight*
- “Excerpt from *Flight* (1)” chart (WA2)
- *Student Response Book* pages 83–84
- Two different-colored pencils or pens for each student
- “Class Assessment Record” sheet (CA1)
- “Excerpt from *Flight* (2)” chart (WA3)
- “Reading Comprehension Strategies” chart and a marker
- Small self-stick notes for each student

## Teacher Note

If the students have difficulty identifying supporting details, review that *supporting details* are “facts, examples, or descriptions that tell more about an important idea.” Ask:

- Q** *Where in the passage are other details about Lindbergh’s goal for his flight?*

**TEKS 6.A.i**  
Student/Teacher Activity  
Step 3  
(all, beginning on page  
536 and continuing on to  
page 537)

### Teacher Note

Initially, students often have difficulty distinguishing between important ideas and supporting details. Having the students each identify only one important idea and one supporting detail helps to focus their thinking.

### Teacher Note

Alternatively, you might have the students use a pencil and a pen.

### ELL Note

To support your English Language Learners, show and discuss the illustrations on pages 26–31 again; then read the excerpt aloud as they follow along, stopping intermittently to talk about what is happening. The students might benefit from an explanation of the following words and passages:

- “the sod coming up to meet me”
- “dazed”
- “drowning in a great sea”
- “deafened”

#### Students might say:

“I think ‘Across the Atlantic Ocean’ is a supporting detail. The reason I think this is that it tells more about the main point, which is that Lindbergh is going to fly from New York to Paris.”

“I think that Lindbergh’s height is a supporting detail. The reason I think this is that it’s a description that lets the reader infer how big the plane is.”

Point out that readers usually do not remember every word or detail as they read, so they need to be thinking about what ideas are the *most* important to understand and remember. Good readers also need to be able to tell the difference between important ideas and supporting details as they read. Explain that today the students will practice identifying important ideas and supporting details in another passage from *Flight*.

## 3 Agree on One Important Idea and One Supporting Detail

Have the students turn to *Student Response Book* pages 83–84, “Excerpt from *Flight*.” Point out that this is the part of the story in which Charles Lindbergh lands in Paris and is mobbed by thousands of people. Read pages 27–31 of *Flight* aloud as the students follow along in their *Student Response Books*.

Explain that the students will reread the excerpt independently and think quietly about one important idea and one supporting detail in the excerpt. They will then discuss their thinking in pairs. Partners will come to agreement on one important idea and one supporting detail, and each partner will underline these in her own *Student Response Book* using two different-colored pencils or pens. Use “Think, Pair, Share” to discuss:

 **Q** *What are some ways you and your partner can work together to decide which important idea and which supporting detail to underline? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

#### Students might say:

“We can take turns sharing what we think the important idea is. If we picked different important ideas, we can see if one idea is more important to remember than the other one.”

“In addition to what [Estefan] said, we can also take turns sharing what we think is a supporting detail. If we picked different supporting details, we can think about which detail supports the important idea we chose.”

 Have the students reread the excerpt independently and each think quietly about one important idea and one detail that supports it. Give partners a few minutes to agree on and underline one important idea and one supporting detail. Circulate as pairs work, and notice which sentences they underline.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify important ideas in the excerpt?
- Are they able to identify supporting details?
- Is there evidence that they can distinguish between important ideas and supporting details in the excerpt?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 119 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify and distinguish between important ideas and supporting details, proceed with the lesson and continue on to Week 2.
- If **about half of the students** are able to identify and distinguish between important ideas and supporting details, proceed with the lesson and continue on to Week 2. Closely observe students who are having difficulty identifying and distinguishing between the two. Many students will need repeated experiences to learn this complex skill.
- If **only a few students** are able to identify and distinguish between important ideas and supporting details, you might give the class additional instruction by repeating this week’s lessons using an alternative book before continuing on to Week 2. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

### 4 Discuss Important Ideas and Supporting Details as a Class

When the students finish their partner work, display the “Excerpt from *Flight (2)*” chart (C WA3). Facilitate a class discussion by asking the questions that follow. Remind the students to give reasons for their opinions. Ask:

- Q *What is an important idea in this part of the story? Why do you think that idea is important?*
- Q *Do others agree that this is an important idea? Why or why not?*

#### Students might say:

“I think ‘the plane touches the ground’ is important. The reason I think this is that Lindbergh finally got to the end of his flight. He made it.”

“I think ‘newspaper headlines all over the world are beginning to blazon the news’ is important because it shows how great the flight was.”

“I agree with [Sophia]. I underlined that, too, and also ‘American hero safe in Paris!’ because it says he was a hero and safe.”

**Q** What is a supporting detail? What idea do you think this detail supports?

**Students might say:**

"I thought 'closer, closer, closer' is a supporting detail. The reason I think this is that it supports the idea that he's about to land. His landing is important, but this just describes the plane's movement."

"I thought 'policemen guard the plane' was a supporting detail because it doesn't have anything to do with Lindbergh's flight. It just tells what happened after he landed."

"I think that 'policemen guard the plane' is an important idea because it means the plane is important—it's an important part of history."

As the students share, underline the important ideas and supporting details they mention on the chart using two different colors. Ask and discuss as a class:

**Q** Over the past two days, we've been talking about important ideas in Flight. Now that you've thought about some of the important ideas, what would you say this story is about?

**Students might say:**

"This story is about Charles Lindbergh's flight across the Atlantic Ocean."

"I agree with [Anna]. In addition, I think the story is about Lindbergh becoming a hero around the world."

"In addition to what [Anna] and [Mateo] said, the story is about how Lindbergh made history by flying from New York to Paris by himself."

## **5** Add to the "Reading Comprehension Strategies" Chart

Direct the students' attention to the "Reading Comprehension Strategies" chart and explain that determining, or identifying, important ideas and supporting details is a strategy good readers use to make sense of text. Add *determining important ideas and supporting details* to the chart.

Tell the students that determining important ideas and supporting details in texts can help them better understand and remember what they have read, and explain that the goal is for them to use the strategy as they read independently.

## Reading Comprehension Strategies

- using text features
- questioning
- recognizing story elements
- making inferences
- visualizing
- analyzing how texts are organized
- determining important ideas and supporting details

Tell the students that they will continue to think about important ideas and supporting details in the coming weeks.

### 6 Reflect on Reaching Agreement

Facilitate a brief discussion about how the students worked together.

Ask:

- Q** *Today you and your partner worked together to choose one important idea and one supporting detail in the excerpt. What did you do to make sure you agreed before making a decision?*
- Q** *What problems or challenges did you have? How did you handle them?*

## INDIVIDUALIZED DAILY READING

### 7 Mark and Discuss Reading Comprehension Strategies

Direct the students' attention to the "Reading Comprehension Strategies" chart. Remind the students that using these strategies will help them understand and enjoy what they are reading.

Distribute self-stick notes to each student. Have the students use the self-stick notes to mark places where they use comprehension strategies when they are reading. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 127 of the *Assessment Resource Book*.

### Vocabulary Note

Next week you will revisit *Flight* to teach the Week 25 vocabulary lessons.

### Materials

- *Flight*
- Copy of “First- and Secondhand Accounts of Charles Lindbergh’s Flight” (BLM2) for each student

### Teacher Note

Prior to doing this activity, you will need to visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print “First- and Secondhand Accounts of Charles Lindbergh’s Flight” (BLM2). Make enough copies for each student to have one, and set aside a copy for yourself. Preview the excerpts and identify vocabulary you want to clarify as you read.

Signal to let the students know when it is time to stop reading. Ask and briefly discuss:

- Q *Which strategy did you use most frequently when you read independently today?*
- Q *How does that strategy help you understand what you are reading?*
- Q *What should you do if you don’t understand what you are reading?*

Have the students return to their desks and put away their books.

## WRITING ABOUT READING

### Compare First- and Secondhand Accounts of Charles Lindbergh’s Flight

Show the cover of *Flight* and remind the students that they heard this book earlier. Ask:

- Q *What do you remember about this book?*

If necessary, remind the students that this book tells a true story about Charles Lindbergh’s historic flight from New York to Paris. Explain that when author Robert Burleigh wrote *Flight*, he researched Charles Lindbergh and the details of the flight and then used what he learned to write about them. Explain that since Burleigh wrote about Charles Lindbergh’s experience, this book is a *secondhand account* of the events.

Distribute a copy of “First- and Secondhand Accounts of Charles Lindbergh’s Flight” (BLM2) to each student. Direct the students’ attention to the first excerpt and explain that this is an excerpt from the beginning of the book *Flight*, when Lindbergh is preparing for take-off. Ask the students to follow along as you read the excerpt aloud and to think as they listen about how the author writes about the take-off. After you read the excerpt aloud, ask:

- Q *What did you notice about the way the author writes about the take-off?*

Record the students' ideas where everyone can see them, under the heading "Secondhand Account."

Tell the students that Charles Lindbergh wrote an autobiography, or a true story about his life, called *The Spirit of St. Louis*. In his autobiography, he wrote about the experiences leading up to the flight from New York to Paris, details of the flight itself, and the events after he landed in Paris. Explain that because Charles Lindbergh wrote this book himself, it is a *firsthand account* of his experiences.

Direct the students' attention to the second excerpt and explain that this is an excerpt from Charles Lindbergh's autobiography. Tell the students that this excerpt tells about the same events described by author Robert Burleigh in *Flight*. Ask the students to follow along as you read the excerpt aloud and to think as they listen about what they notice about how Charles Lindbergh writes about the take-off and what new things they learn about it. Read the excerpt aloud, clarifying the vocabulary you identified. After the reading, ask:

- Q *What did you notice about how Charles Lindbergh writes about the take-off?*
- Q *What did you learn from Lindbergh's account of this event?*

Record the students' ideas where everyone can see them, under the heading "Firsthand Account." Facilitate a discussion comparing the first- and secondhand accounts by asking the following questions:

- Q *How is the firsthand account similar to the secondhand account? How is it different?*
- Q *How can you tell that Charles Lindbergh wrote the second excerpt?*
- Q *Which do you think is more interesting, the firsthand account or the secondhand account? Why?*

Ask the students to watch as you think aloud and model writing about ways the first- and secondhand accounts of this event are similar and different.

**You might say:**

"The first- and secondhand accounts of the plane's take-off are similar in a few ways. I'll write: *Both excerpts include details that allow the reader to infer how Lindbergh feels on the morning of his flight. Both excerpts also include details about the weight of the plane and the distance between the plane and the telephone wires as it passes over them.* Now I will write about how the excerpts are different. I'll write: *The excerpts are different because the secondhand account uses facts from the event to tell a story through a narrator. It is written from the third-person point of view. The firsthand account is written from the first-person point of view. Charles Lindbergh is telling his own story. The firsthand account also includes more supporting details that help the reader imagine what it was like during the take-off.* I want to provide some examples of this. I'll write: *For example, Lindbergh wrote 'The plane creeps heavily forward,' and 'The Spirit of St. Louis feels more like an overloaded truck*

(continues)

(continued)

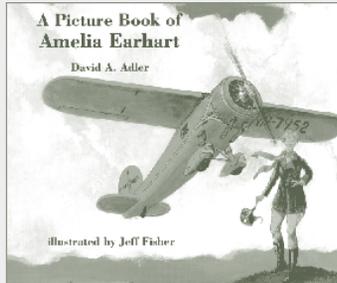

*than an airplane.' Those details help me picture in my mind what it was like for Lindbergh in the plane. I also think that the firsthand account is more suspenseful. I'll write: The firsthand account is more suspenseful. The way it is written makes the reader wonder if he will have a successful take-off."*

Have the students write about the ways in which the firsthand account and the secondhand account are similar and different. Encourage the students to refer to “First- and Secondhand Accounts of Charles Lindbergh’s Flight” (BLM2) as they write. If time permits, invite volunteers to share their writing with the class.

# Week 2

## OVERVIEW

### *A Picture Book of Amelia Earhart*

by David A. Adler, illustrated by Jeff Fisher

This biography of Amelia Earhart focuses on her courage as a pioneering pilot and her impact on women's roles in the United States.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA4–WA5

#### Assessment Forms

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheet (CN1)

#### Professional Development Media

- “Using Presentation Tools” tutorial (AV44)
- “Using Web-based Maps and Related Tools” tutorial (AV49)

### Comprehension Focus

- Students make inferences to understand a narrative nonfiction story.
- Students think about important ideas and supporting details in a narrative nonfiction story.
- Students read independently.

### Social Development Focus

- Students work in a responsible way.
- Students develop the skill of giving reasons for their opinions.
- Students make decisions and solve problems respectfully.

## ⌚ DO AHEAD

- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA2); see page 120 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 25 lessons this week.

# Day 1

## Read-aloud

### Materials

- *A Picture Book of Amelia Earhart*
- Small self-stick notes for each student

### Teacher Note

Because making inferences and determining important ideas are key comprehension strategies, the students focus on these strategies again this week. This additional practice will help to prepare them for summarizing, which is the focus of the later weeks of this unit. As always, the goal is that the students use the strategies to make sense of what they read independently.

### Technology Tip

You might display a map of the world to point out the places described in the book and Earhart's various routes. Search online using the keywords "map of Earhart's transatlantic solo flight" and "map of Earhart's 1937 flight around the world." To learn more about using web-based tools, view the "Using Web-based Maps and Related Tools" tutorial (AV49).

### In this lesson, the students:

- Hear and discuss a narrative nonfiction story
- Make inferences about the story
- Read independently for up to 30 minutes
- Give reasons for their opinions

## 1 Review Giving Reasons for Opinions

Have the students gather with partners sitting together, facing you. Review that last week the students used the prompt "The reason I think this is . . ." to give reasons for their opinions. Ask them to continue using the prompt with their partners and with the class this week.

## 2 Introduce *A Picture Book of Amelia Earhart*

Show the cover of *A Picture Book of Amelia Earhart* and read the title and the names of the author and the illustrator aloud. Point out that the book is a biography about Amelia Earhart and review that a *biography* is a "story of someone's life written by someone else." Remind the students that earlier in the year they heard *A Picture Book of Harriet Tubman*, which is another biography by the same author.

Tell the students that Amelia Earhart was the first woman to fly across the Atlantic Ocean alone, not long after Charles Lindbergh completed his flight. She completed many other pioneering flights, and she affected the way people thought about women and what women are capable of.

## 3 Read Aloud

Read the book aloud, showing the illustrations and stopping as described on the next page. Clarify vocabulary as you read.

### Suggested Vocabulary

**absorbed:** learned (p. 10)

**domestic robot:** person who only does things having to do with taking care of a home (p. 14)

**pontoons:** objects on a plane that help it float (p. 16)

**stationery:** writing paper and envelopes (p. 20)

**endorsements:** support for products (p. 20)

**aviation:** the science of building and flying airplanes (p. 24)

**pop off:** (idiom) die (p. 26)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**shocking:** surprising (p. 5)

**I have a reputation for brains:** I am known for being smart (p. 7)

**paralyzed:** unable to move or feel parts of their bodies (p. 9)

**confetti:** small pieces of paper (p. 19)

**heroine:** woman who was admired for her bravery and accomplishments (p. 19)

**lectures:** talks given to teach something (p. 20)

**courageous:** brave (p. 28)

Stop after:

**p. 7** “And she wrote, ‘Did I tell you I have a reputation for brains?’”

Ask and briefly discuss:

**Q** *What did you learn about Amelia in the part of the story you just heard? Turn to your partner.*

Without sharing as a class, reread the last sentence on page 7 and continue reading to the next stop. Repeat this procedure at each of the following stops:

**p. 16** “Amelia described the flight as ‘a grand experience,’ but since she didn’t pilot the plane, she said she felt like ‘baggage.’”

**p. 28** “She certainly was.”

**p. 30** “There is little evidence that there is any truth to these theories.”

## **4** Discuss the Story as a Class

Facilitate a discussion of the story using the questions that follow. Be ready to reread passages aloud and show illustrations again to help the students recall what they heard. Remind them to use the prompt “The reason I think this is . . .” to give reasons for their opinions and to use the other discussion prompts they have learned to build on one another’s thinking.

**Q** *What are some of the ways that Amelia Earhart challenged how people thought women should behave and live? Why do you think she did this?*

**Q** *Amelia was the first woman to fly across the Atlantic Ocean when she joined Bill Stultz and Slim Gordon in the Friendship on June 18, 1928. On page 16, it says, “Amelia described the flight as ‘a grand experience,’ but since she didn’t pilot the plane, she said she felt like ‘baggage.’” What do you think she meant by this?*

### Teacher Note

Circulate as partners talk. Notice whether the students are using the prompt “The reason I think this is . . .” to give reasons for their opinions. If they are not, encourage them to do so. Be ready to share your observations at the end of the lesson.

### Facilitation Tip

Continue to focus on **responding neutrally with interest** during class discussions by refraining from overtly praising or criticizing the students’ responses. Instead, build the students’ intrinsic motivation by responding with genuine curiosity and interest, for example:

- “Say more about that.”
- “Explain your thinking further.”
- “You have an opinion that’s [similar to/ different from] what [Savitri] just said. How is it [similar/different]?”
- “Do you agree with [Ethan]? Why or why not?”
- “What questions do you have for [Ethan] about his thinking?”

**Students might say:**

“She showed that women could do things that people thought only men could do. The reason I think this is that she did things like study car-engine repair, take flying lessons, and fly planes alone.”

“I think Amelia meant that she enjoyed the flight but she wished she could have flown the plane. Maybe she was a little disappointed.”

“I agree with [Shauna]. She looked at the maps. She didn’t actually fly the plane. That probably made her feel like she wasn’t doing anything important.”

**Q** *Amelia wrote to her husband, “Women must try to do things as men have tried. When they fail, their failures must be but a challenge to others.” What do you think she meant by “their failures must be but a challenge to others”?*

**Students might say:**

“I think she was saying that just because one woman fails at something doesn’t mean another woman shouldn’t try again.”

“I agree with [Boris]. She knew that trying to fly around the world was very dangerous, but she wanted to do it anyway. I think she meant that if she failed to fly around the world that other people should keep trying. Just because she didn’t do it doesn’t mean that someone else can’t do it.”

As the students make inferences about the story, point them out.

**You might say:**

“The story doesn’t directly say that Amelia was a little disappointed about not actually flying the *Friendship*, but you figured it out from clues in the story.”

## **5** Reflect on Giving Reasons for Opinions

Facilitate a brief discussion about how the students did with using the prompt “The reason I think this is . . .” to give reasons for their opinions. Share your own observations and explain that you would like the students to continue to focus on giving reasons for their opinions throughout the week.

## **INDIVIDUALIZED DAILY READING**

## **6** Read Independently and Think About Important Ideas

Remind the students that they have been thinking about important ideas in texts. Distribute self-stick notes to each student. Explain that you would like them to use self-stick notes to mark important ideas in their reading today. Tell the students that later they will share one

important idea they found in their reading with the class. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Invite a few volunteers to share with the class. Have each volunteer begin by telling the title of the book she read, the author’s name, and what the book is about. Then have her tell one important idea she found in her reading. Ask questions such as:

**Q** *Why do you think the idea you marked is important?*

**Q** *What other ideas might be important in this section?*

Have the students return to their desks and put away their books.

## TECHNOLOGY EXTENSION

### Research and Create Presentations About Amelia Earhart

Have the students read and discuss other books or articles about Amelia Earhart. The students can find articles by searching online using keywords such as “Amelia Earhart for kids.”

After the students have researched Amelia Earhart, have them work in groups of four to create presentations about her life using the information they have gathered. Have the groups use “Heads Together” and “Group Brainstorming” to help them divide the work equally and to help them reach agreement about what information to include and how to present the information. After each presentation, facilitate a class discussion about what the students learned about Amelia Earhart.

### Technology Tip

Prior to doing this activity, you might wish to view the “Using Presentation Tools” tutorial (AV44).

To support the students in doing online research, you might teach the following technology mini-lessons in Appendix B: Mini-lesson 4, “Choosing Effective Search Terms”; Mini-lesson 5, “Understanding Search Results”; Mini-lesson 6, “Narrowing Search Results and Using Filters”; and Mini-lesson 7, “Evaluating Research Sources.” For more information about teaching Technology Mini-lessons 4-7, see “About Teaching the Online Research Lessons” at the beginning of Technology Mini-lesson 4.

### Materials

- *A Picture Book of Amelia Earhart*
- “Think, Pair, Write About *A Picture Book of Amelia Earhart*” chart (WA4)
- *Student Response Book* page 85
- Small self-stick notes for each student

**TEKS 6.G.i**  
Student/Teacher Narrative  
Step 2 (all, beginning on  
page 550 and continuing  
on to page 551)

### In this lesson, the students:

- Hear and discuss part of a narrative nonfiction story again
- Make inferences about the story
- Think about important ideas in the story
- Read independently for up to 30 minutes
- Reach agreement before making decisions

### 1 Review *A Picture Book of Amelia Earhart*

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Show the cover of *A Picture Book of Amelia Earhart* and ask:

**Q** *What do you remember about A Picture Book of Amelia Earhart?*

Review that last week the students determined, or identified, important ideas and supporting details to help them make sense of the text. Remind them that because it is difficult to remember every word or detail as they read, good readers think about what ideas are the most important to understand or remember.

Tell the students that today they will practice thinking about important ideas as they hear the first half of *A Picture Book of Amelia Earhart* read aloud again.

### 2 Reread from the Story and Model Thinking About Important Ideas

Have the students turn to *Student Response Book* page 85, “Think, Pair, Write About *A Picture Book of Amelia Earhart*.” Explain that as you reread from the story today, you will stop several times during the reading. At each stop, the students will use “Think, Pair, Write” to think about the important ideas in the part they just heard, agree in pairs on one important idea, and then individually record the important idea in their *Student Response Books*. Tell the students that you will model this for the class at the first stop.

Read pages 3–5 aloud twice. Stop after:

**p. 5** “But, Amelia wrote later, ‘Some elders have to be shocked for everybody’s good now and then.’ ”

Model thinking quietly for a moment; then think aloud about an important idea in the passage. Display the “Think, Pair, Write About *A Picture Book of Amelia Earhart*” chart (WA4). Model writing a note about this passage on the chart.

**You might say:**

"An important idea in this passage is that as a young girl Amelia did things that some people thought were shocking. The reason I think this is important is that this might give you an idea of how she will be later in her life. I'll write: *As a young girl, Amelia did things that shocked some people.*"

WA4

**Think, Pair, Write About A Picture Book of Amelia Earhart**

*As a young girl, Amelia did things that shocked some people.*

Have the students write the same note on *Student Response Book* page 85.

**3 Continue Rereading from the Story with "Think, Pair, Write"**

Ask the students to think about the important ideas in the next passage you read. Reread the last sentence on page 5 and continue reading. Stop after:

**p. 10** "Some years later she explained that 'though I had seen one or two at county fairs before, I now saw many of them . . . I hung around in my spare time and absorbed all I could.'"

Use "Think, Pair, Share" to discuss:

 **Q** *What is an important idea in the part you just heard? What is most important to understand and remember? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class. After a moment, ask the class to listen again for an important idea, or what seems most important to understand or remember, and read the passage you just read aloud again.

 Ask partners to agree on one important idea in the passage and then individually record that idea on *Student Response Book* page 85. Have a few volunteers share what they wrote with the class. After each volunteer shares, ask and briefly discuss as a class:

- Q** *Why does that idea seem most important?*
- Q** *Do others agree that this idea seems most important? Why or why not?*
- Q** *What other ideas seemed important as you listened to the passage? Why?*

Reread the last sentence on page 10 and continue reading. Follow the same procedure at the following stops:

- p. 12** "Another time, her airplane turned over in heavy rain and Amelia, held in by her safety belt, hung upside down."
- p. 16** "Amelia described the flight as 'a grand experience,' but since she didn't pilot the plane, she said she felt like 'baggage.'"

**TEKS 6.G.i**  
Student/Teacher Activity  
Step 3 (all, beginning on page 551 and continuing on to page 552)

**Teacher Note**

If necessary, model again by thinking aloud, recording your thinking, and asking the students to copy your note into their *Student Response Books*. (You might write: *What seems most important in this part of the story is that at first Amelia was not that interested in airplanes but that later in her life she became really fascinated by them.*)

**Teacher Note**

Important ideas in these passages include that Amelia took her first plane ride and became determined to learn how to fly and that she became the first woman to fly in a plane across the Atlantic, though she would have been happier as the pilot than as a passenger.

Explain that in the next lesson the students will think more about important ideas in *A Picture Book of Amelia Earhart*.

#### 4 Reflect on Reaching Agreement

Have partners report briefly on how they did today with reaching agreement about the important ideas in the book. Point out that reaching agreement means that partners need to keep talking until they agree. Sometimes partners have to convince each other of their thinking. This helps them learn to work together, and it also forces them to think more clearly about the book.

## INDIVIDUALIZED DAILY READING

#### 5 Read Independently and Think About Important Ideas

Distribute self-stick notes to each student. Explain that you would like them to use self-stick notes to mark important ideas in their reading today. Tell the students that later they will share important ideas they found in their reading with the class. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Invite a few volunteers to share with the class. Have each volunteer begin by telling the title of the book he read, the author’s name, and what the book is about. Then have him share one important idea he found in his reading. Ask each volunteer questions such as:

**Q** *Why do you think the idea you marked is important?*

**Q** *What other ideas might be important in this section?*

Have the students return to their desks and put away their books.

## In this lesson, the students:

- Determine important ideas and supporting details in a narrative nonfiction story
- Read independently for up to 30 minutes
- Give reasons for their opinions

## 1 Review Important Ideas and Supporting Details in *A Picture Book of Amelia Earhart*

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind them that in the previous lesson they heard the first half of *A Picture Book of Amelia Earhart* and used “Think, Pair, Write” to think about and record the important ideas in the story. Have the students turn to *Student Response Book* page 85, “Think, Pair, Write About *A Picture Book of Amelia Earhart*,” and review the important ideas they recorded. Ask:

**Q** *What are some important ideas we identified in A Picture Book of Amelia Earhart?*

Tell the students that distinguishing between (telling the difference between) important ideas and supporting details (like facts, examples, and descriptions) helps readers understand texts more deeply. Explain that today the students will identify important ideas and supporting details in an excerpt from *A Picture Book of Amelia Earhart*.

## 2 Identify Important Ideas and Supporting Details in an Excerpt from the Story

Display the “Excerpt from *A Picture Book of Amelia Earhart*” chart (WA5) and have the students turn to *Student Response Book* page 86, “Excerpt from *A Picture Book of Amelia Earhart*.” Explain that the excerpt is from the part of the story in which Amelia attempts to fly around the world. Read the excerpt aloud slowly and clearly as the students follow along in their *Student Response Books*.

Reread the first two paragraphs aloud; then think aloud about an important idea in the paragraphs.

### You might say:

“One important idea in this paragraph is that Amelia planned to fly around the world. The reason I think this is that it is a main event in the story.”

## Materials

- *Student Response Book* pages 85–86
- “Excerpt from *A Picture Book of Amelia Earhart*” chart (WA5)
- Small self-stick notes for each student

**TEKS 9.D.i**  
**TESK 9.D.ii**  
 Student/Teacher Narrative  
 Step 1 (all)

**TEKS 6.G.i**  
**TEKS 9.D.i**  
**TEKS 9.D.ii**  
 Student/Teacher Activity  
 Step 2 (all, beginning on page 553 and continuing on to page 554)

## ELL Note

English Language Learners may benefit from extra support to make sense of the excerpt. Show and discuss the illustrations on pages 26–28 of *A Picture Book of Amelia Earhart* again; then read pages 26–28 aloud as they follow along, stopping periodically to talk about what is happening. The students might benefit from an explanation of the following quotes:

- “If I should pop off, it will be doing the thing I’ve always wanted to do.”
- “When they fail, their failures must be but a challenge to others.”

Underline “In 1937 she planned to fly around the world” on the chart.

Remind the students that *supporting details* are “facts, examples, and descriptions that tell more about an important idea.” Use “Think, Pair, Share” to discuss:

**Q** Which sentences in the paragraph are supporting details that tell more about Amelia’s planned trip around the world? [pause] Turn to your partner.

Have a few volunteers share their thinking. As the students identify supporting details, underline them on the chart using a different color.

**Students might say:**

“I think the sentence ‘On June 1, 1937, Amelia Earhart and her navigator, Fred Noonan, began the trip’ is a supporting detail. The reason I think this is that the date that they started the trip is a detail that doesn’t seem as important to remember.”

“I think ‘it will be doing the thing I’ve always wanted to do’ is a supporting detail. The reason I think this is that it is a detail to tell how Amelia felt about her flight.”

“I disagree with [Cammy] because I think that sentence shows something important about Amelia’s character.”

### 3 Think About a Specific Detail in the Excerpt

Direct the students’ attention to the following sentence in the second paragraph: “They flew to South America, then to Africa, India, Burma, Thailand, Singapore, Indonesia, Australia, and New Guinea.” Ask:

**Q** Is this sentence an important idea or a supporting detail? Why do you think so? Turn to your partner.

Have a few volunteers share their thinking with the class. Remind the students to use the discussion prompts they have learned to build on one another’s thinking.

**Students might say:**

“I think the sentence is a supporting detail. The reason I think this is that knowing exactly where they went doesn’t seem that important to remember.”

“In addition to what [Patrick] said, it’s more important to know that she was trying to go around the world.”

Remind the students that good readers do not necessarily remember everything they read in a text, but they do remember what is important. Determining important ideas and supporting details helps them identify what is most important to remember.

Explain that in the next lesson they will think about important ideas and supporting details in the rest of the excerpt.

#### Teacher Note

Save the “Excerpt from *A Picture Book of Amelia Earhart*” chart (WA5) to use on Day 4.

# INDIVIDUALIZED DAILY READING

## 4 Read Independently and Think About Important Ideas

Distribute self-stick notes to each student. Explain that you would like them to use self-stick notes to mark important ideas in their reading today. Tell the students that later they will share the important ideas they found in their reading with the class. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Invite a few volunteers to share with the class. Have each volunteer begin by telling the title of the book she read, the author’s name, and what the book is about. Then have her share one important idea she found in her reading. Ask questions such as:

Q *Why do you think the idea you marked is important?*

Q *What other ideas might be important in this section?*

Have the students return to their desks and put away their books.

---

## EXTENSION

### Distinguish Between Facts and Opinions

Explain that when the students read expository or other nonfiction texts, it is important that they recognize when authors are stating facts and when they are stating opinions. Recognizing the difference between facts and opinions helps readers judge the accuracy or truthfulness of what they are reading.

Explain that a *fact* is a “statement that can be proved true by observation or by checking a reliable source, such as an encyclopedia.” (For example, the statement “In 1932, Amelia Earhart became the first woman to fly alone across the Atlantic Ocean” is a fact. It can be proved true

by checking newspapers and other historical records.) An *opinion* is a “statement of what someone thinks, feels, or believes about something.” (For example, the statement “Amelia was the bravest woman who ever lived” is an opinion. It is a statement of what someone thinks or believes to be true, but it is not a provable fact.)

Write the sentences below on a sheet of chart paper. Then have the students use “Think, Pair, Share” to first think about and then discuss whether each statement is a fact or an opinion.

### Fact or Opinion?

Amelia was born in Kansas in 1897.

Amelia took flying lessons in California.

Amelia was a better pilot than Charles Lindbergh.

In 1937 Amelia disappeared trying to fly around the world.

Amelia should not have tried to fly around the world.

## Day 4

## Guided Strategy Practice

### Materials

- *Student Response Book* page 86
- “Excerpt from *A Picture Book of Amelia Earhart*” chart (WA5) from Day 3
- Two different-colored pencils or pens for each student
- “Class Assessment Record” sheet (CA2)
- Small self-stick notes for each student

### In this lesson, the students:

- Determine important ideas and supporting details in a narrative nonfiction story
- Read independently for up to 30 minutes
- Write in their reading journals
- Reach agreement before making decisions

### 1 Review Important Ideas and Supporting Details

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Display the “Excerpt from *A Picture Book of Amelia Earhart*” chart (WA5) from Day 3, and have the students turn to the copy of the excerpt on *Student Response Book*

page 86. Remind the students that yesterday they discussed important ideas and supporting details in the first two paragraphs of the excerpt. Explain that today the students will use “Think, Pair, Write” to identify important ideas and supporting details in the rest of the excerpt.

## 2 Identify Important Ideas and Supporting Details in the Rest of the Excerpt

Read the rest of the excerpt aloud, beginning with the third paragraph, and have the students follow along in their *Student Response Books*. Ask the students to think as they listen about the important ideas in the passage and what information supports, or provides more details about, the important ideas.

After the reading, ask the students to each select one important idea and one supporting detail from the part of the excerpt you just read.

Then have partners discuss their thinking, agree on one important idea and one supporting detail from that part of the excerpt, and then individually underline these in their *Student Response Books*, using two different-colored pencils or pens.

Give partners a few minutes to agree on and underline one important idea and one supporting detail. Circulate as pairs work, and notice which sentences they underline.

### CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to distinguish between important ideas and supporting details?
- Are they supporting their thinking by referring to the text?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 120 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to distinguish between important ideas and supporting details and are referring to the text to support their thinking, proceed with the lesson and continue on to Week 3.
- If **about half of the students** or **only a few students** are able to distinguish between important ideas and supporting details or are referring to the text to support their thinking, you might give the class additional instruction by repeating this week’s lessons using an alternative book before continuing on to Week 3. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

### Teacher Note

Alternatively, you might have the students use a pencil and a pen.

### 3 Discuss Important Ideas and Supporting Details as a Class

After a few minutes, facilitate a class discussion using the following questions:

- Q *What sentence did you and your partner agree is an important idea? Explain your thinking.*
- Q *What sentence did you and your partner agree is a supporting detail? Explain your thinking.*
- Q *Do you agree with [Jim and Hiroko]? Why or why not?*

**Students might say:**

"My partner and I underlined 'They never made it.' We think that is important because it is an important event in the story."

"We underlined 'She risked her life to prove that in the air, and elsewhere, women were up to the challenge.' It's an important idea because that's what this book is about—how Amelia changed how the world looked at women."

As the students share, underline the important ideas and supporting details on the chart using two different colors.

Remind the students that the purpose of learning how to determine important ideas and supporting details in a text is to help them think about what is important to understand or remember in their own reading. Explain that in the coming weeks they will continue to think about important ideas and supporting details in texts they hear and read independently.

### 4 Reflect on Reaching Agreement

Facilitate a brief discussion about how the students did with reaching agreement during "Think, Pair, Write." Ask questions such as:

- Q *How did you come to agreement today before making a decision during "Think, Pair, Write"? If you didn't agree, how did you solve the problem?*
- Q *How did giving reasons for your opinions help you reach agreement?*

## INDIVIDUALIZED DAILY READING

### 5 Read Independently and Think About Important Ideas

Distribute self-stick notes to each student. Tell the students that they will use the self-stick notes to mark important ideas in their reading today. Explain that later each student will share one important idea he found with a partner. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share an important idea from his reading with a partner. Have each partner begin by telling the title of the book he read, the author’s name, and what the book is about.

After partners have shared, have a few volunteers share the important ideas they found in their reading with the class. Ask questions such as:

- Q *Why do you think the idea you marked is important?*
- Q *What other ideas might be important in this section?*

Have the students return to their desks and put away their books.

---

## WRITING ABOUT READING

### Write About Themes in *A Picture Book of Amelia Earhart* and *A Picture Book of Harriet Tubman*

Remind the students that earlier they heard biographies of two women who were very important in American history, Amelia Earhart and Harriet Tubman. Show the cover of *A Picture Book of Amelia Earhart* and ask:

- Q *What do you remember about Amelia Earhart?*
- Q *What is a theme in A Picture Book of Amelia Earhart? What can we learn from Amelia Earhart’s story that we might be able to apply to our own lives?*

---

### Vocabulary Note

Next week you will revisit *A Picture Book of Amelia Earhart* to teach the Week 26 vocabulary lessons.

---

### Materials

- *A Picture Book of Amelia Earhart*
- *A Picture Book of Harriet Tubman* from Unit 6

---

### Teacher Note

If necessary, page through each book and show the illustrations. You might briefly summarize the events on each page to help the students recall the information in the books.

**Students might say:**

"Amelia Earhart was the first woman to fly across the Atlantic and the Pacific oceans alone."

"One theme might be to never give up. There were many times when Amelia could have stopped flying, but she kept doing it."

"Another theme might be to not worry about what other people think about you. A lot of people thought that Amelia's behavior was shocking, but she didn't let that bother her."

"I think another theme is to not be afraid to do something that you believe in. Amelia quit school to help soldiers who were wounded in the war, and she took flying lessons because she knew she had to fly."

Have a few students share their thinking. As the students share, record their ideas where everyone can see them under the heading "Amelia Earhart."

Show the cover of *A Picture Book of Harriet Tubman* and ask:

**Q** *What do you remember about Harriet Tubman?*

**Q** *What is a theme in A Picture Book of Harriet Tubman? What can we learn from Harriet Tubman's story that we might be able to apply to our own lives?*

**Students might say:**

"Harriet Tubman escaped from slavery and then helped other slaves find their way north on the Underground Railroad."

"In addition to what [Peggy] said, Harriet was also a spy for the northern army during the Civil War."

"I think we can learn to not be afraid to do something you believe in. She did things she knew were dangerous to make life better for all African Americans."

"I think another theme might be to never give up. Harriet spent her entire life fighting for people to be treated equally. She fought to end slavery, and she fought for women to have the right to vote."

Have a few students share their thinking. As the students share, record their ideas where everyone can see them under the heading "Harriet Tubman." Ask:

**Q** *How are the themes in these two texts the same?*

Explain that when readers compare themes in stories, they are *making connections* between the stories. Explain that making connections helps readers enjoy and understand what they read. Ask the students to watch as you think aloud and model writing about how the themes in *A Picture Book of Harriet Tubman* and *A Picture Book of Amelia Earhart* are alike.

**You might say:**

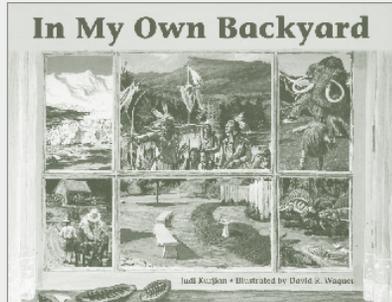

"Both of these books are about two very brave women who were important in American history. Something we can learn from both women is to never give up. I'll write: *A Picture Book of Amelia Earhart* and *A Picture Book of Harriet Tubman* are books about two very brave women, Amelia Earhart and Harriet Tubman. One theme that is in both books is to never give up. Amelia Earhart wanted to fly across the Atlantic Ocean by herself. She had to wait a long time, but she finally did it. Harriet Tubman wanted to escape from slavery. She tried to escape once with her brothers, but they turned back. Later, she left again alone. That time she made it to a safe house.

Another theme in both books is to not be afraid to do something you believe in. I'll write: *Another theme that is in both books is to not be afraid to do something you believe in. Amelia Earhart knew she wanted to fly, so she did things that would help her do that, such as taking flying lessons and saving money to buy an airplane. Harriet Tubman risked her own life to help hundreds of African Americans escape from slavery. Later in her life she also fought for women to have the right to vote. We can learn many lessons from Amelia Earhart and Harriet Tubman that we can apply to our own lives.*"

Have the students write about how the themes in the two stories are alike. If time permits, invite volunteers to share their writing with the class.

# Week 3

## OVERVIEW

### *In My Own Backyard*

by Judi Kurjian, illustrated by David R. Wagner

A child looks out a bedroom window and imagines how the landscape has changed over the ages.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA6–WA10

#### Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “IDR Conference Notes” record sheet (CN1)

#### Professional Development Media

- “Using Web-based Whiteboard Activities” tutorial (AV42)
- “Using Presentation Tools” tutorial (AV44)

### Comprehension Focus

- Students think about important ideas and supporting details in a narrative nonfiction story.
- Students use important ideas to build summaries.
- Students explore elements of narrative text structure, including setting and point of view, in a narrative nonfiction story.
- Students read independently.

### Social Development Focus

- Students develop the skill of giving reasons for their opinions.
- Students discuss their opinions respectfully.

## ⌚ DO AHEAD

- ✓ Prior to Day 1, collect enough book and movie summaries so that each pair of students can share a summary (see Step 4).
- ✓ Prior to Day 3, prepare a sheet of chart paper with the title “Important Ideas in In My Own Backyard” (see Step 2).
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA3); see page 121 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 26 lessons this week.

**Materials**

- *A Picture Book of Amelia Earhart* from Week 2
- “Summary of *A Picture Book of Amelia Earhart*” chart (WA6)
- *Student Response Book* page 87
- Book and movie summaries, collected ahead
- “Questions About Summaries” chart (WA7)
- “Thinking About Important Ideas” chart (WA8)

**Teacher Note**

If necessary, write the prompt where everyone can see it.

**In this lesson, the students:**

- Hear, read, and discuss summaries
- Explore what a summary is
- Read independently for up to 30 minutes
- Give reasons for their opinions

**ABOUT SUMMARIZING**

During the next three weeks, the focus of instruction is summarizing, a key strategy for helping readers understand and communicate about what they read. The students continue to identify important ideas, a critical step in summarizing. Through teacher modeling, class and partner discussions, and guided practice, the students learn to put a text’s important ideas together in a concise summary. The goal is for the students to be able to use summarizing both orally and in writing to communicate with others about the texts they read.

**1 Review Giving Reasons for Opinions**

Have the students bring their *Student Response Books* and gather with partners sitting together, facing you. Remind them that they learned the prompt “The reason I think this is . . .” to give reasons for their opinions.

Explain that you would like the students to continue using the prompt in both partner and class discussions this week.

**2 Review *A Picture Book of Amelia Earhart***

Show the students the cover of *A Picture Book of Amelia Earhart* and remind them that this is a biography that tells the story of Amelia Earhart’s life. Review that last week the students heard the book and made inferences as they thought about the important ideas and supporting details in it. Ask:

**Q** *What do you remember from the book about Amelia Earhart’s life?*

If necessary, stimulate the students’ recollection by reading each of the following quotes aloud and asking the students to remember what was happening in that part of the story. For each quote, have a volunteer share what was happening:

**p. 5** “The Earhart girls’ behavior was shocking to some people.”

**p. 12** “‘As soon as I left the ground,’ she wrote later, ‘I knew I myself had to fly.’”

**p. 16** “. . . she said she felt like ‘baggage.’”

**p. 22** "‘Have you come far?’ the first person to see her asked. ‘From America,’ Amelia Earhart told him."

**p. 27** "They never made it."

### 3 Read and Discuss a Summary of the Book

Display the "Summary of *A Picture Book of Amelia Earhart*" chart (📄 WA6) and explain that this is a summary of the book *A Picture Book of Amelia Earhart*. Tell the students that a *summary* is a "brief description of what a text is about." Ask the students to follow along as you read the summary aloud.

After reading the summary, have the students turn to *Student Response Book* page 87, "Summary of *A Picture Book of Amelia Earhart*." Point out that this is a copy of the summary you just read. Ask the students to read it again quietly to themselves (or you might read it aloud again as they follow along).

After the reading, facilitate a class discussion using the questions that follow. Remind the students to use the prompt "The reason I think this is . . ." as they talk. Ask:

**Q** *What does this summary of the book do?*

**Q** *What kind of information is in the summary?*

**Students might say:**

"The summary tells you the title and the author's name."

"The summary tells you what the book is about."

"It gives you the story but in a shorter version."

"It has the main stuff about her life. The reason I think this is that it doesn't tell everything—like when she got married."

"I agree with [Cora]. The summary has the important ideas from the book—like when she tried to fly around the world and disappeared."

**Q** *Why might you want to read a summary of a book?*

**Students might say:**

"You might want to know what the book is about before you read it."

"From the summary, you can figure out if the book sounds interesting."

### 4 Explore Other Summaries

Explain that you have collected summaries from various sources for the students to read today. Distribute one summary to each pair of students. Display the "Questions About Summaries" chart (📄 WA7). Tell the students that they will read their summaries quietly in pairs and then discuss the questions on the chart. Read aloud the questions on the chart.

#### Technology Tip

You can find book summaries on the back covers of books as well as at online bookseller sites. You can search for book or movie summaries online using the keywords "book summary [book title]" or "movie summary [movie title]"; look for summaries of books and movies the students are likely to be familiar with. If you do not have enough summaries for all of the pairs, you might have some of the pairs read "Summary of *Flight*" on *Student Response Book* page 88.

### Questions About Summaries

- What book or movie is your summary about?
- What did you learn about the book or movie from the summary?

Have each pair read their summary quietly and then discuss the questions. When most pairs have had a chance to talk, have a few pairs share with the class what their summaries are about and what they learned from the summaries. Follow up by asking:

**Q** *How might this summary be helpful to you or others who read it?*

Explain that *summarizing* is “using important information in a text to say briefly what the text is about.” Readers summarize to help them make sense of what they are reading and to remember the important information in a text. They also summarize to communicate to others what a text is about.

Explain that over the next few weeks, the students will learn how to summarize so they can write summaries of their independent reading books to share with the class.

## 5 Reflect on Giving Reasons for Opinions

Facilitate a brief discussion about how the students did with using the prompt “The reason I think this is . . .” to give reasons for their opinions.

## INDIVIDUALIZED DAILY READING

## 6 Self-monitor to Think About Important Ideas

Remind the students that they have been thinking about important ideas in texts. Display the “Thinking About Important Ideas” chart (WA8) and tell the students that these are questions they can ask themselves as they are reading to help them recognize the important ideas in their books. Read the questions aloud.

### Thinking About Important Ideas

- What seems important to understand in the reading so far?
- What might the author want you to be thinking about at this point?

Explain that today you will stop the students periodically during IDR to have them think about how well they are recognizing the important

**TEKS 7.C.i**  
Student/Teacher Activity  
Step 6 (all, beginning on  
page 566 and continuing  
on to page 567)

ideas in their books. Tell the students that later they will share important ideas from their reading with the class.

Have the students get their books and read silently for up to 30 minutes. Stop the students at 10-minute intervals to have them think about the questions on the chart. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their reading with the class. Have each student begin by telling the title of the book he read, the author’s name, and what the book is about. Then have him share an important idea from his reading. Remind him to use evidence from the text to support his thinking. If the student struggles to share an important idea, probe his thinking by asking questions such as:

- Q *What do you think is most important for you to remember from the part of the book you read today?*
- Q *Why do you think that is most important?*

Have the students return to their desks and put away their books.

### Materials

- *In My Own Backyard*
- “Thinking About Important Ideas” chart (WA8)

### In this lesson, the students:

- Hear and discuss a narrative nonfiction story
- Make inferences about the story
- Think about what life was like in the past
- Discuss point of view and setting
- Read independently for up to 30 minutes
- Give reasons for their opinions

## 1 Review Summaries and Summarizing

Have the students gather with partners sitting together, facing you. Remind the students that in the previous lesson they heard a summary of *A Picture Book of Amelia Earhart*. Review that a *summary* is a “brief description of what a text is about.” It includes important information or ideas from the text.

Explain that you will read a book aloud today; then, over the next two days, the class will think about the important ideas in the story and build a summary of it together using the important ideas.

## 2 Introduce *In My Own Backyard*

Tell the students that to prepare to hear today’s book, you would like them to close their eyes and think quietly for a moment about the piece of land the school is built on. Ask:

- Q *What do you think the piece of land might have looked like before the school was built?*
- Q *What do you think it might have looked like one hundred years ago?*
- Q *What do you think it might have looked like one thousand years ago? One million years ago?*

Ask the students to open their eyes. Have several students share their ideas and explain their thinking. If they have difficulty responding, think aloud about how the school site might have looked in the past.

### You might say:

“One hundred years ago, there might have been a farm on this land. One thousand years ago, perhaps a community of Native Americans lived here. One million years ago, there might have been only animals roaming here, animals that are now extinct.”

Show the cover of *In My Own Backyard* and read the title and the names of the author and the illustrator aloud. Explain that in the book a child is looking out the bedroom window when suddenly the backyard begins to go back in time. Ask the students to think about what they just discussed about the history of the school site as they listen to the story.

### 3 Read Aloud

Read the book aloud, showing the illustrations and stopping as described below. Clarify vocabulary as you read.

#### Suggested Vocabulary

**scythes:** tools used for cutting grasses and crops (p. 6; refer to the illustration on p. 7)

**waterwheel:** large wheel turned by water that was used in the past to power machines in mills and factories (p. 6; refer to the illustration on p. 7)

**coral:** groups of the hard skeletons of tiny sea creatures (p. 24)

**algae:** water plants that have no roots or stems (p. 26)

**sponges and sea fans:** sea creatures that live on rocks and surfaces under water (p. 26)

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**brook:** small stream (p. 6; refer to the illustration on p. 7)

**settlers:** people who make a home in a new place (p. 10)

**celebration:** happy gathering (p. 12)

**blizzard:** heavy snowstorm (p. 14)

**tropical plants:** plants that grow in hot, moist climates (p. 20)

**ancestors:** family members from a long time before (p. 22)

**fossils:** remains of plants and animals that lived long ago (p. 30)

Stop after:

**p. 6** "What I was seeing out my window was my backyard one hundred years ago!"

Ask and briefly discuss:

**Q** *Who is telling the story? What in the story makes you think so?*

Have one or two volunteers share their thinking with the class. If necessary, reread the first sentence on page 6 aloud and explain that the child is telling the story. Review that when the person telling the story is a character in the story, we say the story is told from the *first-person point of view*. Ask and briefly discuss:

**Q** *What does the child see outside the window? Turn to your partner.*

Without sharing as a class, reread the last sentence on page 6 and continue reading to the next stop. Stop after:

- p. 12** “Newly-picked corn, squash, acorns, and berries made me think that this must be a harvest celebration before the first settlers came from Europe.”

Ask and briefly discuss:

**Q** *What does the child see in the part of the story you just heard? Turn to your partner.*

Without sharing as a class, reread the last sentence before the stop and continue reading to the next stop. Repeat this procedure at the next four stops:

- p. 16** “I could see paintings on a flat rock wall of the shelter where they slept.”
- p. 20** “A baby stegosaurus grazed right in front of my window!”
- p. 24** “Around the coral and seaweed, unusual fish wore hard shells.”
- p. 30** “Ever since that day, I’ve looked for bones and fossils that might have been left in that most amazing place: my own backyard.”

### Facilitation Tip

Continue to focus on **responding neutrally with interest** during class discussions by demonstrating genuine interest in and curiosity about what the students say and by refraining from overly praising or criticizing the students’ responses.

### Teacher Note

Be ready to reread the text and show illustrations again to help the students recall what they heard.

### Teacher Note

If necessary, remind the students that the setting of a story is where and when the story takes place.

## 4 Discuss the Reading as a Class

Facilitate a discussion of the story using the questions that follow. Remind the students to use the prompt “The reason I think this is . . .” to give reasons for their opinions and to use the other discussion prompts they have learned to build on one another’s thinking.

Ask and briefly discuss:

**Q** *What does the child learn about the past by looking out the window?*

#### Students might say:

“The child imagines what the place was like at different times in history.”

“Farmers lived on the land one hundred years ago.”

“In addition to what [Stacy] said, before the farmers, there were pioneers and Native Americans.”

“A really long time ago it was all covered by water.”

Then ask:

**Q** *What is the setting of this story?*

**Q** *Why do you think the child calls the backyard “that most amazing place”?*

**Students might say:**

"The setting is the child's backyard. He's imagining what it was like at different times in the past."

"One reason I think the child calls it 'the most amazing place' is that the book says that dinosaurs used to live on the land. That's pretty amazing!"

"I agree with [Leon]. In addition to what Leon said, it's also pretty amazing to think that cave dwellers used to live where you're living now."

As the students make inferences about the story, point them out.

**You might say:**

"The book does not say directly that the child imagines that the backyard is changing to show how it was in the past, but you figured that out from clues in the story."

Explain that tomorrow the students will think about the important ideas in this story and prepare to write a summary of it.

## INDIVIDUALIZED DAILY READING

### 5 Self-monitor to Think About Important Ideas

Display the "Thinking About Important Ideas" chart (📄 WA8) and remind the students that these are questions they can ask themselves as they are reading to help them recognize the important ideas in their books.

Tell the students that again today you will stop them periodically during IDR to have them think about how well they are recognizing the important ideas in their books. Explain that later each student will share an important idea from her reading with a partner.

Have the students get their books and read silently for up to 30 minutes. Stop the students at 10-minute intervals to have them think about the questions on the chart. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share an important idea from her reading with a partner. Have each partner begin by telling the title of the book she read, the author's name, and what the book is about. Remind the students to use evidence from the text to support their thinking.

Circulate among the students as they share. If you notice a student is struggling to share an important idea, probe her thinking by asking questions such as:

**Q** *What do you think is most important for you to remember in the part of the book you read today?*

**Q** *Why do you think that is most important?*

After partners have had a chance to talk, have a few volunteers share important ideas from their reading with the class.

Have the students return to their desks and put away their books.

---

## EXTENSION

### Compare Point of View in *In My Own Backyard* and *Flight*

Show the covers of *In My Own Backyard* and *Flight* and remind the students that they heard these stories earlier. Tell the students that each of these stories is told from a different point of view.

Turn to pages 6–7 of *In My Own Backyard* and remind the students that this story is told from the first-person point of view. Tell the students that you will read aloud a passage from the book and that you would like them to think as they listen about clues in the text that help them know this story is told from the first-person point of view. Read page 6 aloud and then ask:

**Q** *What clues in the text help you recognize that this story is being told from the first-person point of view?*

Have a few volunteers share their thinking.

Turn to pages 6–7 of *Flight* and remind the students that this story is told from the third-person point of view. Tell the students that you will read aloud a passage from the book and that you would like them to think as they listen about clues in the text that help them know this story is told from the third-person point of view. Read pages 6–7 aloud and then ask:

**Q** *What clues in the text help you recognize that this story is being told from the third-person point of view?*

Have a few volunteers share their thinking.

---

#### Teacher Note

If necessary, point out that the person who is telling the story is in the story and that the author uses the words *I* and *my*.

---

#### Teacher Note

If necessary, point out that the narrator is not a person or a character in the story and that the author uses the words *he* and *him*.

Facilitate a class discussion comparing the use of first- and third-person points of view in the two stories. Ask questions such as:

**Q** *Do you think it's more interesting to read a story told from the first- or the third-person point of view? Why?*

Briefly review that point of view is a story element like character, setting, plot, conflict, and theme and that every story is told from a certain point of view. Remind the students that recognizing and thinking about point of view will help them to better understand the stories they read.

## Guided Strategy Practice

# Day 3

### In this lesson, the students:

- Hear and discuss a narrative nonfiction story again
- Determine important ideas and supporting details in the story
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

## 1 Review Important Ideas and Supporting Details

Have the students gather with partners sitting together, facing you. Remind the students that over the past few weeks, they have been thinking about important ideas and supporting details in books such as *Flight* and *A Picture Book of Amelia Earhart*. Review that determining important ideas and supporting details is a comprehension strategy that helps readers identify what they want to remember in a text.

Explain that determining important ideas and supporting details is necessary for summarizing a text, because a summary is made up of the important ideas in a text. Tell the students that today you will reread *In My Own Backyard* and they will think about the important ideas in it and get ready to write a summary of the book together.

## 2 Reread *In My Own Backyard*

Explain that as you reread *In My Own Backyard*, you will stop several times to have the students think about the important ideas in the part of the story they just heard and share their thinking in pairs.

Read the story aloud slowly and clearly. Stop after:

**p. 6** "What I was seeing out my window was my backyard one hundred years ago!"

### Materials

- *In My Own Backyard*
- "Important Ideas in *In My Own Backyard*" chart, prepared ahead, and a marker
- "Class Assessment Record" sheet (CA3)
- Small self-stick notes for each student

### Teacher Note

If the students have difficulty identifying important ideas in the passages, you may want to teach this lesson over two days. Follow the procedure you used on Days 2 and 3 of Week 2, in which the students hear a passage, discuss important ideas in pairs, hear the passage again, and record their ideas.

Ask and briefly discuss:

**Q** *What is most important to understand or remember about what you've heard so far? Turn to your partner.*

Direct the students' attention to the "Important Ideas in In My Own Backyard" chart. Have a few volunteers share their ideas with the class. As the students share, record their ideas on the chart.

### Important Ideas in In My Own Backyard

*The child looks out the window into the backyard.*

*The yard starts changing into a farm from one hundred years ago.*

Follow this procedure at the next five stops, recording a few ideas on the chart at each stop.

- p. 12** "Newly-picked corn, squash, acorns, and berries made me think that this must be a harvest celebration before the first settlers came from Europe."
- p. 16** "I could see paintings on a flat rock wall of the shelter where they slept."
- p. 22** "The trees had green trunks, but I could not see very far between them because the air was thick with mist."
- p. 28** "It was hard to believe that this place was my backyard four billion years ago, at the beginning of life on our planet."
- p. 30** "Ever since that day, I've looked for bones and fossils that might have been left in that most amazing place: my own backyard."

Circulate as partners talk at each stop.

### CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify important ideas in the text?
- Are they referring to the text to support their thinking?

*(continues)*

## CLASS ASSESSMENT NOTE *(continued)*

Record your observations on the “Class Assessment Record” sheet (CA3); see page 121 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are identifying important ideas and referring to the text to support their thinking, proceed with the lesson and continue on to Day 4.
- If **about half of the students** or **only a few students** are identifying important ideas and referring to the text to support their thinking, proceed with the lesson and then continue on to the guided summarizing lesson on Day 4 but plan to model writing the entire summary with the class. Then plan to give the class additional instruction by repeating this week’s lessons using an alternative book before continuing on to Week 4. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Grade 4 Alternative Texts” list.

### 3 Discuss Important Ideas as a Class

Review the ideas on the “Important Ideas in In My Own Backyard” chart. Facilitate a discussion using the questions that follow. Remind the students to give reasons for their opinions.

- Q *Are there any important ideas that we need to add to the chart? Explain your thinking.*
- Q *Are there any ideas on the chart that you think are supporting details? Why do you think that?*
- Q *Do you agree or disagree with [Huan]? Why?*

#### Students might say:

“I think the idea that the Native Americans are having a celebration is a supporting detail. I don’t think we need to remember that.”

“I agree with [Rosa]. The important idea is that Native Americans lived on the land before settlers came. The information about the celebration is a detail.”

“I think the fact that the ice is a mile thick is another supporting detail.”

Make adjustments to the chart as needed during this discussion, adding important ideas and crossing out supporting details. If the students have difficulty thinking about what are important ideas and what are supporting details, you might think aloud to model your own thinking and revise the chart as needed.

Explain that tomorrow the students will use the ideas on the chart to write a summary of the story as a class.

#### Teacher Note

On Day 4, the class will use the important ideas to write a summary of *In My Own Backyard*. Examples of some of the important ideas are:

- The child looks out the window into the backyard.
- The child wonders who stood there before.
- The yard starts changing into a farm from one hundred years ago.
- Pioneers come in covered wagons.
- Native Americans live on the land.
- Ice covers everything.
- People wear animal skins.
- Dinosaurs and strange animals live there.
- Everything is under water.
- The only thing alive is algae.
- Everything returns to normal.
- The child looks for bones and fossils.

### Teacher Note

Save the “Important Ideas in [In My Own Backyard](#)” chart to use on Day 4.

## 4 Reflect on Discussing Opinions Respectfully

Point out that it is normal for people to have different opinions when discussing what are important ideas and what are supporting details in a text. Remind the students of any disagreements that arose during today’s class discussion. Ask:

- Q *When people disagree with you, how do you like them to tell you that?*
- Q *If they don’t tell you in that way, how might you feel? Why?*
- Q *How can we make sure that we can disagree respectfully during our discussions?*

Tell the students that they will continue to discuss their opinions in the coming weeks and that you would like them to focus on doing this respectfully.

## INDIVIDUALIZED DAILY READING

## 5 Discuss Important Ideas and Supporting Details

Remind the students that they have been thinking about both important ideas and supporting details in texts. Distribute self-stick notes to each student. Explain that you would like each student to use self-stick notes to mark one important idea and one supporting detail in his reading today. Tell the students that later they will share the important ideas and supporting details they marked with the class.

Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their reading with the class. Have each student begin by telling the title of the book he read, the author’s name, and what the book is about. Then have him share the important idea and the supporting detail he marked. Remind him to use the prompt “The reason I think this is . . .” to support his thinking. Ask questions such as:

- Q *Why do you think the idea you marked is important?*
- Q *How does the passage you marked as a supporting detail support, or give more information about, an important idea in your reading?*

Have the students return to their desks and put away their books.

### Technology Tip

Many interactive whiteboard activities that provide students with opportunities to practice identifying important ideas and supporting details are available online. Search online for interactive activities using the keywords “main idea and supporting details interactive whiteboard activities.”

For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

## Strategy Lesson

## Day 4

### In this lesson, the students:

- Build a summary as a class
- Read independently for up to 30 minutes
- Write in their reading journals
- Give reasons for their opinions
- Discuss their opinions respectfully

### 1 Review Identifying Important Ideas and Summarizing

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Direct the students’ attention to the “Important Ideas in In My Own Backyard” chart and remind them that in the previous lesson they made a list of important ideas in the story *In My Own Backyard*. Review that identifying important ideas is necessary for summarizing a text and that readers summarize to help them make sense of what they are reading and to help them remember important information in a text. They also summarize to communicate to others what a text is about.

Explain that today the class will use the ideas on the chart to write a summary of *In My Own Backyard*. Remind them that they will be writing their own summaries in the next two weeks.

### Materials

- *In My Own Backyard*
- “Important Ideas in In My Own Backyard” chart from Day 3
- “Summary of *A Picture Book of Amelia Earhart*” chart (WA6)
- *Student Response Book* page 87
- “Summary of *In My Own Backyard*” chart (WA9)
- “Reading Comprehension Strategies” chart and a marker
- Small self-stick notes for each student
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA10)

**TEKS 7.D.i**  
Student/Teacher Narrative  
Step 1 (all)

TEKS 7.D.ii  
Student/Teacher Narrative  
Step 3 (all, beginning on  
page 578 and continuing on  
to page 579)

## 2 Review the Summary of *A Picture Book of Amelia Earhart*

Display the “Summary of *A Picture Book of Amelia Earhart*” chart (WA6) and have the students turn to the copy of the summary on *Student Response Book* page 87. Explain that this summary, which they read earlier in the week, can serve as a model for the summary they will write today.

Ask the students to read the summary quietly to themselves (or you might read it aloud again as they follow along). Then use “Think, Pair, Share” to discuss:

 **Q** *What do you notice in the summary of A Picture Book of Amelia Earhart that might serve as a model when we summarize In My Own Backyard?*  
[pause] *Turn to your partner.*

Have a few volunteers share their thinking.

### Students might say:

“The first sentence tells you the title of the book and the author’s name. It also tells you what the story is about.”

“It tells about the story from the beginning to the end. The reason I think this is that the summary starts at the beginning of her life and goes to the end.”

“It doesn’t say everything that’s in the book.”

“It’s not too long.”

If necessary, point out that the summary begins with a general statement of what the book is about followed by important events or ideas from the book.

## 3 Model Starting the Summary of *In My Own Backyard*

Display the “Summary of *In My Own Backyard*” chart (WA9). Explain that you will begin the summary and that the class will write the rest of it together.

Tell the students that you want to begin the summary with a general statement of what the book is about. Ask:

**Q** *In a sentence, what is In My Own Backyard about?*

### Students might say:

“It’s about a child who looks out the window and imagines what the backyard looked like in the past.”

“It’s about what happened in a place in the past.”

Using the students' suggestions, model writing an opening sentence about the book that includes the title of the book and the author's name. If the students cannot come up with a general sentence that tells what the story is about, provide one yourself.

WA9

### Summary of *In My Own Backyard*

In the story *In My Own Backyard*, by Judi Kurjian, a child looks out the window at the backyard and imagines what it looked like in the past.

Explain that the rest of the summary will be made up of ideas from the "Important Ideas in *In My Own Backyard*" chart. Model adding to the summary by thinking aloud about selecting information from the chart for the second sentence and then writing the second sentence of the summary.

**You might say:**

"Since this story moves backward in time, it probably makes sense to tell what the child sees in the order it happens. The child first sees farmers working on the land one hundred years ago. I'll write: *First the child sees farmers working on the land one hundred years ago.*"

Follow this same procedure to write the third sentence of the summary. If possible, model combining two or three pieces of information on the chart into a single sentence. Point out that combining information in this way helps to keep the summary brief.

**You might say:**

"The ideas 'Pioneers come in covered wagons' and 'Native Americans live on the land' can be combined into one sentence. I'll write: *Then the child sees other people from further back in time, such as pioneers and Native Americans.*"

## 4 Complete the Summary as a Class

Referring to the "Important Ideas in *In My Own Backyard*" chart, elicit suggestions for what to add to the summary by asking:

**Q** *What information do you think should come next in the summary? Why do you think that?*

### TEKS 7.D.ii

Student/Teacher Activity

Step 4 (all, beginning on page 579 and continuing on to page 580)

### Teacher Note

If the students are unable to suggest sentences, continue to model by thinking aloud and adding your own sentences to the chart.

Use the students' suggestions to add sentences to the "Summary of *In My Own Backyard*" chart, shaping and combining their ideas as necessary to keep the summary clear and concise. You may need to model the use of words such as *then*, *next*, and *after that* to connect sentences and to show the sequence of events.

The completed summary might look like this:

### Summary of *In My Own Backyard*

In the story *In My Own Backyard*, by Judi Kurjian, a child looks out the window at the backyard and imagines what it looked like in the past. First the child sees farmers working on the land one hundred years ago. Then the child sees other people from further back in time, such as pioneers and Native Americans. Then ice covers the land and people wearing animal skins appear. Next, in the time before humans, dinosaurs and other strange animals live on the land. Finally, water covers the land and the child sees the very beginning of life, when the only living thing is algae.

The child comes back to the present and decides to start looking for bones and fossils in that "most amazing place," the backyard.

WA9

### Teacher Note

Save the "Summary of *In My Own Backyard*" chart (WA9) to use in Weeks 4 and 5 of this unit.

When the summary is finished, read the whole summary aloud and ask:

**Q** *Do you think someone who hasn't read In My Own Backyard could get a good idea of what the book is about from reading this summary? If not, what can we add?*

## 5 Add to the "Reading Comprehension Strategies" Chart

Direct the students' attention to the "Reading Comprehension Strategies" chart and add *summarizing* to it. Review that *summarizing* is "using important information in a text to say briefly what the text is about." Explain that summarizing is a powerful strategy for remembering important information and communicating it to others.

## Reading Comprehension Strategies

- using text features
- questioning
- recognizing story elements
- making inferences
- visualizing
- analyzing how texts are organized
- determining important ideas and supporting details
- summarizing

Tell the students that during the next two weeks, they will practice summarizing with the goal of writing summaries of their own books to share with their classmates.

### 6 Reflect on Today's Partner and Class Discussions

Facilitate a brief discussion about today's discussions and how the students did with giving reasons for their opinions and discussing their opinions respectfully. Also report any examples you noticed of students disagreeing respectfully and giving reasons for their opinions.

## INDIVIDUALIZED DAILY READING

### 7 Read Independently and Write About Important Ideas and Supporting Details

Distribute self-stick notes to each student. Explain that you would like each student to use self-stick notes to mark at least one important idea and one supporting detail in her reading today. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students return to their desks and open their *Student Response Books* to the Reading Journal section. Then display the “Journal Entry” chart (WA10) and explain that today each student will write a journal entry. Also explain your expectations for what the journal entry should include.

WA10

### Journal Entry

Write a journal entry about the book you are reading.

Please include:

- The title and the author’s name
- What the book is about
- An important idea you marked in your reading and why you think it’s important
- A supporting detail you marked in your reading and why you think it’s a supporting detail

### Vocabulary Note

Next week you will revisit *In My Own Backyard* to teach the Week 27 vocabulary lessons.

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

## EXTENSION

### Research the Community’s Past

Have the students research and report on how their community has changed over time. Facilitate a discussion to identify topics that they might investigate (for example, types of businesses, buildings, transportation, communication, and wildlife).

Some students might focus on recent history, investigating what the community was like during the 1980s, 1970s, 1960s, and so on. Other students might investigate periods further back in time, such as life in the area one hundred years ago, two hundred years ago, and so on. The Internet and the local library and historical society are likely sources of information.

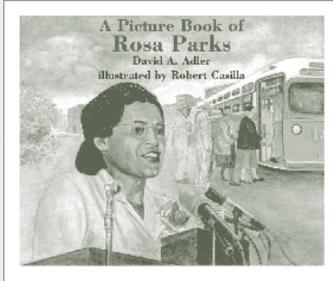

### Technology Tip

You might have each student use a presentation tool to create a slide that highlights a few important ideas from his reading. Combine the students' slides to create a presentation that shows a timeline of your community's history. For more information, view the "Using Presentation Tools" tutorial (AV44).

# Week 4

## OVERVIEW

### ***A Picture Book of Rosa Parks***

by David A. Adler, illustrated by Robert Casilla

Rosa Parks's refusal to give up her seat on a public bus sparks a protest that changes history.

### Excerpt

### ***"Excerpt from Rosa Parks: My Story"***

by Rosa Parks with Jim Haskins

(see pages 605–606)

In this excerpt from her autobiography, Rosa Parks writes about the historic December evening in 1943 when she refused to give up her seat on a bus.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### **Whiteboard Activities**

- WA9, WA11–WA13

#### **Assessment Forms**

- “Class Assessment Record” sheet (CA4)
- “IDR Conference Notes” record sheet (CN1)

#### **Professional Development Media**

- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)

## Comprehension Focus

- Students think about important ideas and supporting details in nonfiction texts.
- Students use important ideas to summarize an excerpt from a narrative nonfiction story.
- Students use schema to articulate all they think they know about a topic before they read.
- Students read independently.

## Social Development Focus

- Students develop the skill of giving reasons for their opinions.
- Students discuss their opinions respectfully.

## ⌚ DO AHEAD

- ✓ Prior to Day 2, prepare a sheet of chart paper with the title “Directions for Taking Notes.” Write directions on the chart paper as shown in the diagram in Step 4.
- ✓ Prior to Day 3, prepare a sheet of chart paper with the title “Summary of ‘Excerpt from A Picture Book of Rosa Parks’” (see Step 2).
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA4); see page 122 of the *Assessment Resource Book*.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 27 lessons this week.

### Materials

- *A Picture Book of Rosa Parks*
- Small self-stick notes for each student

### ELL Note

Preview the book with your English Language Learners prior to today's read-aloud. Help your students understand the background knowledge needed to make sense of the story.

### In this lesson, the students:

- Hear and discuss a narrative nonfiction story
- Brainstorm what they think they know about the topic of the story
- Identify important ideas in the story
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

## 1 Review and Get Ready to Work Together

Have the students gather with partners sitting together, facing you. Explain that this week the students will continue to learn about using important ideas to summarize a text. Remind them that *summarizing* is an important strategy because it helps readers understand a text and communicate what it is about.

Remind the students that they have been focusing on giving reasons for their opinions and on discussing their opinions respectfully. Explain that you would like them to continue practicing these skills in the coming week.

## 2 Introduce *A Picture Book of Rosa Parks*

Show the cover of *A Picture Book of Rosa Parks* and read the title and the names of the author and the illustrator aloud. Point out that this book is a biography written by David A. Adler, who also wrote *A Picture Book of Amelia Earhart*.

Remind the students that earlier in the year they heard *The Bat Boy & His Violin* and *Teammates*, two stories that are set in the United States during the first half of the 20th century. They learned about segregation and laws in the South that discriminated against black people. Some of these laws required black people to ride at the back of public buses and to give up their seats for white passengers. Explain that Rosa Parks believed that the segregation laws were unfair and that she, along with other civil rights activists, worked to change them. Ask and briefly discuss:

**Q** *What do you think you know about Rosa Parks?*

Have a few volunteers share their thinking. Ask the students to keep these things in mind as they listen to the book. Tell them that you will stop several times during the reading to have partners talk about the important ideas in the book.

### 3 Read Aloud

Read the book aloud, showing the illustrations and stopping as described below. Clarify vocabulary as you read.

#### Suggested Vocabulary

**discrimination:** unfair treatment (p. 8)

**tailor's assistant:** helper for someone who makes or fits clothes (p. 18)

**appealed to a higher court:** asked for another opinion from a more powerful court (p. 20)

**bus boycott:** refusal to ride buses (p. 21)

**humiliated:** made to feel ashamed (p. 21)

**kicked about by the brutal feet of oppression:** treated poorly (p. 21)

**demonstrations:** groups of people saying in public how they feel about political issues (p. 25)

**nationality:** country from which a person comes or to which a person belongs (p. 28)

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**tortured:** hurt badly (p. 10)

**barber:** person who cuts hair (p. 14)

**struggle:** fight (p. 14)

**fare:** money; cost to ride the bus (p. 16)

**arrested:** taken away by police officers (p. 18)

**court:** place where a judge or jury decides whether someone has broken the law (p. 20)

**found guilty:** determined to have broken the law (p. 20)

**minister:** religious leader (p. 21)

**retired:** stopped working (p. 27)

Stop after:

**p. 10** "Rosa's grandfather, Sylvester Edwards, carried a shotgun to protect his family from the Klan."

Use "Think, Pair, Share" to discuss:

**Q** *What is most important to understand or remember about the part you just heard? [pause] Turn to your partner.*

Have a few volunteers share their thinking. Reread the last sentence before the stop and continue reading to the next stop. Follow the same procedure at the remaining stops.

**p. 20** "Many walked, some as far as twelve miles."

**p. 30** "... with the respect all people deserve."

#### Teacher Note

If necessary, explain that during the bus boycott African Americans refused to ride buses and the city's bus system lost a lot of money.

### Facilitation Tip

Continue to focus on **responding neutrally with interest** during class discussions by demonstrating genuine interest in and curiosity about what the students say and by refraining from overtly praising or criticizing the students' responses.

## 4 Discuss the Story as a Class

Facilitate a discussion of the story using the questions that follow. Remind the students to use the prompt “The reason I think this is . . .” to give reasons for their opinions and to use the other discussion prompts they have learned to build on one another’s thinking.

**Q** *What are some of the important ideas you heard in this book? Why do those ideas seem important?*

#### Students might say:

“Rosa Parks did not give up her seat on the bus to a white man. They arrested her and she went to jail. The reason I think that is important is that’s what started everything.”

“The black leaders organized a bus boycott. The reason I think that’s important is that is what helped get the laws changed.”

“In addition to what [Natasha] said, I think Rosa was brave. The reason I think this is that she wasn’t afraid to get arrested.”

Explain that tomorrow the students will think about important ideas in an excerpt from this book.

## INDIVIDUALIZED DAILY READING

## 5 Discuss Important Ideas and Supporting Details

Remind the students that they have been thinking about both important ideas and supporting details in texts. Explain that you would like each student to use self-stick notes to mark one important idea and one supporting detail in his book as he reads today. Tell the students that later they will share the important ideas and supporting details they marked with partners.

Distribute self-stick notes to each student. Have the students get their books and read silently for up to 30 minutes.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share the important idea and supporting detail he marked with a partner. Have each partner begin by telling the title of the book

he read, the author’s name, and what the book is about. Remind the students to use the prompt “The reason I think this is . . .” to support their thinking.

After partners have had a chance to talk, have a few volunteers share the important ideas and supporting details they marked and the reasons for their thinking with the class. Support the students by asking questions such as:

- Q *Why do you think the idea you marked is important?*
- Q *How does this passage you marked as a supporting detail support, or give more information about, an important idea in your reading?*

## TECHNOLOGY EXTENSION

### Read and Watch Interviews with Rosa Parks

Tell the students that today they will read an interview with Rosa Parks about the Montgomery bus boycott and then they will watch a video interview with her. Ask:

- Q *If you could interview Rosa Parks, what might you ask her?*

Have a few students share their thinking with the class. As they respond, you might record their questions where everyone can see them. Invite the students to notice whether their questions are discussed in the interviews they will read and watch today. Display the web page of the interview you selected. Point out a few features of the interview (for example, the way the questions and answers appear and any photographs and captions). Have the students read the interview (or read it aloud to the students). Ask:

- Q *What is something new you learned about Rosa Parks from reading this interview?*
- Q *What is something new you learned about the Montgomery bus boycott?*
- Q *Did reading this interview help you better understand what happened? Why do you say that?*

Have the students watch the video interview with Rosa Parks that you selected. Ask:

- Q *What is something you learned about Rosa Parks from watching the video interview?*
- Q *What is something you learned about the Montgomery bus boycott?*
- Q *Did watching this interview help you better understand what happened? Why do you say that?*
- Q *Which did you enjoy more, reading the written interview or watching the video interview? Why?*

### Technology Tip

Prior to doing this activity, find an age-appropriate written interview and a video interview to share with the students. Search online using the keywords “Rosa Parks interview bus boycott” and “video interview with Rosa Parks bus boycott.” For more information, view the “Finding, Organizing, and Presenting Online Information” tutorial (AV43).

**Materials**

- “Excerpt from *A Picture Book of Rosa Parks*” chart (WA11)
- *Student Response Book* pages 89–91
- “Directions for Taking Notes” chart, prepared ahead

**Teacher Note**

Today’s lesson may take longer than usual to complete. You might consider stopping after Step 5 and then completing the remainder of the lesson at another time.

**In this lesson, the students:**

- Identify important ideas in an excerpt from a narrative nonfiction story
- Take notes about important ideas
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

**1** Review Identifying Important Ideas and Summarizing

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Review that determining important ideas and supporting details helps readers better understand what they read by helping them identify what is essential to know or remember from a text. Remind them that summaries are made up of important information from a text and that summarizing helps readers understand a text and communicate what it is about.

Explain that this week the students will use important ideas in an excerpt from *A Picture Book of Rosa Parks* to practice writing a summary of the excerpt together. This week’s activities will prepare them to write summaries of their own books for their classmates.

**2** Model Taking Notes and Underlining Important Ideas in Section 1 of the Excerpt

Display the “Excerpt from *A Picture Book of Rosa Parks*” chart (📄 WA11). Direct the students’ attention to Section 1 and explain that this is the part of the story where Rosa Parks takes a stand against discrimination.

Ask the students to follow along as you read Section 1 aloud. After the reading, think aloud about what the section is about. Then model writing a brief note in the margin next to Section 1 and underlining a sentence that seems important.

**You might say:**

“I think that an important idea in this paragraph is that Rosa got on the bus and sat in the middle section. I’ll write: *She got on the bus and sat in the middle section.* I will underline the sentence ‘She got on the Cleveland Avenue bus and took a seat in the middle section.’”

### 3 Practice Taking Notes and Underlining Important Ideas in Section 2 of the Excerpt

Have the students turn to *Student Response Book* pages 89–91, “Excerpt from *A Picture Book of Rosa Parks*.” Direct the students to Section 1 and have each student write the note you modeled in the margin of her own page and underline the sentence you underlined.

Ask the students to read Section 2 in pairs and together discuss what is most important in that section. After several minutes, signal for the students’ attention. Ask:

- Q *What is this section about? What is most important in this section?*
- Q *Which sentences give you the most important information?*

**Students might say:**

“In this section, I think it is most important that Rosa Parks did not move from her seat because she thought the law was unfair.”

“I think the sentence ‘James Blake called the police, and Rosa Parks was arrested’ is an important sentence. The reason I think this is that it is an important event.”

As the students respond, jot notes in the margin of the chart and underline sentences. If the students have difficulty identifying the most important ideas in the section, model again by thinking aloud, writing a note in the margin, and underlining an important sentence, such as one of those mentioned in the “Students might say” note.

Have the students copy your notes and underlining into their own *Student Response Books*.

### 4 Have Partners Take Notes and Underline Important Ideas in Sections 3 and 4 of the Excerpt

Direct the students’ attention to the chart you prepared ahead and explain the directions on it.

#### Directions for Taking Notes

1. Read Section 3 with your partner.
2. Discuss what it is about.
3. Write notes in the margin that tell what this section is about.
4. Underline the sentences that seem most important.
5. Repeat Steps 1–4 for Section 4.

#### Teacher Note

The copied notes give the students a record of your modeled thinking as they take notes and underline important ideas in the rest of the excerpt.

#### ELPS 2.I.v

##### Step 4

(all, beginning on page 591 and continuing on to page 592)

### Teacher Note

Keep in mind that identifying and taking notes about important ideas can be challenging. It can be difficult for students to distinguish important ideas from supporting details, especially in very concise texts. The students will benefit from repeated experiences hearing and thinking about important ideas and supporting details.

### Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit's Individual Comprehension Assessment.

Circulate as pairs work, and notice whether they are able to identify and take notes about important ideas in each section. If they are having difficulty, support them by asking questions such as:

**Q** *What happens in this section? Tell me in your own words.*

If you notice many students struggling with identifying or taking notes about the important ideas, bring the class together and go through these sections of the excerpt in the more directed way you did for the first two sections.

## 5 Discuss Important Ideas in Sections 3 and 4 as a Class

Facilitate a discussion about Section 3 using the questions that follow. As the students report their thinking, jot notes and underline sentences on the “Excerpt from *A Picture Book of Rosa Parks*” chart. Remind the students to give reasons for their opinions. Ask:

**Q** *What do you and your partner think is important to know and remember in this section? What sentences did you underline that talked about that directly? What notes did you write?*

**Q** *Why do you think that idea is important?*

**Q** *Do you agree or disagree with [Art and Rita]? Why?*

Repeat this procedure to discuss Section 4.

## 6 Take Notes and Underline Important Ideas in Sections 5 and 6 of the Excerpt

Explain that you would like the students to independently read Sections 5 and 6 and think about the important ideas in these sections. Then they will each write notes in the margin that tell what each section is about and underline the sentences that seem most important.

As the students work individually, circulate and ask them the following questions to help them think about the important ideas in the passage:

**Q** *What do you think is important to know and remember in this section? What sentences did you underline that talked about that directly? What notes did you write?*

**Q** *Why do you think that idea is important?*

When most students have finished, ask a few volunteers to share the notes they wrote and the sentences they underlined. As the students report their thinking, jot notes and underline sentences on the chart. Facilitate a discussion among the students using questions such as:

**Q** *Why do you think that idea is important?*

**Q** *Do you agree or disagree with [Shane]? Why?*

## 7 Reflect on Discussing Opinions Respectfully

Facilitate a brief discussion about how the students interacted. Ask:

- Q *Did people disagree with you today? If so, did they disagree in a way that felt comfortable for you? Why or why not?*
- Q *What might we want to do differently tomorrow so we know we are discussing our opinions respectfully?*

Explain that tomorrow the students will use their notes and underlined passages to write a summary of the excerpt together.

## INDIVIDUALIZED DAILY READING

### 8 Practice Orally Summarizing Reading

Ask the students to think about the important ideas in their books as they read independently today. Tell them that at the end of IDR, you will ask some of them to use the important ideas they have thought about to summarize what they read today. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Use “Think, Pair, Share” to discuss:

- Q *If you were to tell someone in a few sentences what your book is about, what would you say? [pause] Turn to your partner.*

Have a few volunteers share their summaries with the class. Remind each student to begin by telling the title of the book she read and the author’s name.

Have the students return to their desks and put away their books.

#### Teacher Note

Save the “Excerpt from *A Picture Book of Rosa Parks*” chart (WA11) to use on Day 3.

**TEKS 7.D.i**  
Student/Teacher Activity  
Step 8 (all)

### Materials

- *Student Response Book* pages 89–91
- Lined writing paper for each student
- “Summary of ‘Excerpt from A Picture Book of Rosa Parks’” chart, prepared ahead, and a marker
- “Summary of *In My Own Backyard*” chart (WA9) from Week 3
- “Excerpt from *A Picture Book of Rosa Parks*” chart (WA11) from Day 2
- “Class Assessment Record” sheet (CA4)
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA12)

### Teacher Note

Today’s lesson may take longer than usual to complete. You might consider stopping after Step 3 and then completing the remainder of the lesson at another time.

### In this lesson, the students:

- Build a summary as a class
- Read independently for up to 30 minutes
- Write in their reading journals
- Give reasons for their opinions
- Discuss their opinions respectfully

## 1 Review Identifying Important Ideas and Summarizing

Have the students get their *Student Response Books* and pencils and sit at desks with partners sitting together. Distribute a sheet of lined writing paper to each student. Explain that today the students will use their notes and the important ideas they underlined in the excerpt from *A Picture Book of Rosa Parks* to write a summary of the excerpt.

Have the students open to *Student Response Book* pages 89–91, “Excerpt from *A Picture Book of Rosa Parks*,” and review their notes and underlining.

## 2 Model Writing the First Few Sentences of the Summary

Direct the students’ attention to the “Summary of ‘Excerpt from A Picture Book of Rosa Parks’” chart. Explain that you will help the class start the summary, and then partners will work together to continue writing it.

Review that a summary should give readers a good idea of what a text is about. Display the “Summary of *In My Own Backyard*” chart (WA9) and remind the students that a summary begins by telling the title of the book, the author’s name, and a general statement about the topic of the text. The summary then continues by describing important ideas from the text. Ask:

**Q** *In one or two sentences, how might you say what the excerpt from A Picture Book of Rosa Parks is about?*

Have a few volunteers share their thinking with the class. Then ask the students to listen and watch as you think aloud and write an opening sentence on the chart.

**You might say:**

"The excerpt from *A Picture Book of Rosa Parks*, by David A. Adler, describes how Rosa Parks challenged segregation laws by refusing to give up her seat on a bus. I'll write: *This excerpt from A Picture Book of Rosa Parks, by David A. Adler, describes something important Rosa Parks did to challenge segregation laws in the South.*"

## Summary of "Excerpt from A Picture Book of Rosa Parks"

*This excerpt from A Picture Book of Rosa Parks, by David A. Adler, describes something important Rosa Parks did to challenge segregation laws in the South.*

Display the "Excerpt from *A Picture Book of Rosa Parks*" chart (🗨️ WA11) from Day 2 and show the first two sections. Read the notes you wrote and the sentences you underlined. Think aloud about how you might summarize these sections; then add a few sentences to the "Summary of 'Excerpt from A Picture Book of Rosa Parks'" chart.

**You might say:**

"In these two sections, I underlined a few important ideas. I underlined 'She got on the Cleveland Avenue bus and took a seat in the middle section,' 'Three of them did, but not Rosa Parks,' and 'James Blake called the police, and Rosa Parks was arrested.' I also wrote a few notes in the margin. I wrote 'Rosa sat in the middle section of the bus,' 'Rosa refused to give up her seat to a white passenger,' and 'She got arrested.' I'll write: *Rosa sat in the middle section of a bus. She refused to give up her seat to a white passenger.*"

Ask the students to copy the charted sentences onto their own papers.

### 3 Practice Adding to the Summary Together

Direct the students to Section 3 of the excerpt on *Student Response Book* page 90. Have them reread their notes and the sentences they underlined. Use "Think, Pair, Share" to discuss:

Q How might you summarize Section 3? [pause] Turn to your partner.

**TEKS 7.D.ii**

Student/Teacher Activity  
Step 3 and Step 4 (all,  
beginning on page 595 and  
continuing on to page 597)

**ELPS 4.G.ii**  
Steps 4–6  
(all, beginning on  
page 596 and  
continuing on to  
page 598)

After a few moments, signal for the students' attention. Ask one or two volunteers for sentences that summarize this section.

As the students respond, add sentences to the "Summary of 'Excerpt from *A Picture Book of Rosa Parks*'" chart. If the students have difficulty generating sentences that summarize Section 3, model again by thinking aloud and adding your own sentences.

Again, have the students copy the sentences from your summary onto their own papers, and tell them that they will write the rest of the summary in pairs.

#### **4** Have Partners Write the Rest of the Summary

Explain that you would like partners to work together to write the rest of the summary. Tell them to look at one section at a time, review their notes and what they underlined, think about how they might summarize the section, and then add a few sentences to their summaries. Circulate as partners write their summaries. As you circulate, support the students by asking them questions to help them summarize.

#### **CLASS ASSESSMENT NOTE**

Ask yourself:

- Are the students able to identify important ideas in each section?
- Can they summarize the information in a few sentences?

Record your observations on the "Class Assessment Record" sheet (CA4); see page 122 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify important ideas in each section and summarize the information in a few sentences, proceed with the lesson and continue on to Day 4.
- If **about half of the students** or **only a few students** are able to identify important ideas in each section and summarize the information in a few sentences, bring the class together and summarize the remaining sections of the excerpt together, as you did in Steps 2 and 3 of today's lesson. Then plan to give the class additional instruction by repeating Days 1, 2, and 3 using an alternative book before continuing on to Day 4. Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the "Grade 4 Alternative Texts" list.

A completed summary might look like this:

### Summary of “Excerpt from A Picture Book of Rosa Parks”

This excerpt from A Picture Book of Rosa Parks, by David A. Adler, describes how Rosa Parks did something important to challenge segregation laws in the South. Rosa sat in the middle section of a bus. She refused to give up her seat to a white passenger. She was arrested for breaking segregation laws and was found guilty. Black leaders, including Dr. Martin Luther King, Jr., organized a bus boycott to try to get the laws changed. The boycott lasted over a year. Finally, the Supreme Court ruled that segregation on buses was illegal.

## 5 Discuss the Summaries as a Class

Facilitate a discussion using the questions that follow. Remind the students to give reasons for their opinions.

**Q** *What did you and your partner include in your summary? How does that capture what’s important in the excerpt?*

Have a few volunteers read their summaries aloud, and then ask the class:

**Q** *Do you agree that [Clay and Rachel] captured the important ideas of the excerpt in their summary? Why or why not?*

**Q** *What did you include in your summary that is [similar to/different from] what [Clay and Rachel] included in their summary?*

Explain that in the coming weeks the students will use what they have learned about summarizing to write a summary of their own independent reading books.

### Teacher Note

Collect the students’ summaries and save them to use in Week 5, Day 1.

### Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

## INDIVIDUALIZED DAILY READING

### 6 Read Independently and Write Summaries

Ask the students to think about the important ideas in their books as they read independently today. Tell the students that at the end of IDR, you would like each student to use some of the important ideas he found to write a brief summary of the part of the book he read today. Have the students get their books and read silently for up to 30 minutes. After the students have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students return to their desks and open their *Student Response Books* to the Reading Journal section. Then display the "Journal Entry" chart (WA12) and explain that today each student will write a journal entry. Also explain your expectations for what the journal entry should include.

WA12

#### Journal Entry

Write a journal entry about the book you are reading.  
Please include:

- The title and the author's name
- A summary of the part of the book you read today

Use "Think, Pair, Share" to discuss:

**Q** *If you were to tell someone in a few sentences what your book is about, what would you say? [pause] Turn to your partner.*

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

Have the students return to their desks and put away their books.

## EXTENSION

### Analyze the Students' Summaries

Collect the students' summaries of "Excerpt from *A Picture Book of Rosa Parks*" and make a copy of each summary with the student's name obscured. Tell the students that they will work in groups of four to read and discuss summaries written by their classmates. Explain that the students will identify which summaries give a clear idea of the stories they describe and will give reasons for why they think so. Tell the students that you have removed the names from the summaries so they can focus on the writing. Ask and briefly discuss:

- Q *Why is it important to speak about your classmates' summaries in a respectful way, even if you don't know who wrote them?*
- Q *What are some things you can do to make sure you show respect and appreciation for each summary you discuss?*

#### Students might say:

"It's important because I want my summary to be talked about respectfully and so I should talk about other people's summaries respectfully."

"It's important because no matter what the student wrote, he or she put effort into it."

"It's important because it helps everyone in our class feel safe knowing that their writing will be talked about respectfully."

"I can avoid criticizing the writing. You asked us to focus on finding summaries that are especially helpful, not criticize summaries that are less helpful."

"I can avoid spending time guessing who wrote the summary and just focus on the writing."

Place the students in groups of four and distribute the summaries, four to each group. Then have each group read the summaries and use "Heads Together" to discuss:

- Q *Which summaries give a clear idea of what this story excerpt is about? Why do you think so? Heads together.*

Have a class discussion to share what the groups talked about. Groups may want to read aloud summaries they agreed gave them a clear idea of the story.

#### Teacher Note

Be sure to facilitate this activity in such a way as to keep the authors of the summaries anonymous; for example, take care not to distribute a summary to a group that includes the author of the summary. This will help the students stay focused on the goal of the activity: identifying what makes summaries informative and clear so they can write strong summaries themselves.

### Materials

- *A Picture Book of Rosa Parks*
- “Excerpt from *Rosa Parks: My Story*” (see pages 605–606)
- “Comparing Accounts of Rosa Parks on the Bus” chart (WA13)
- *Student Response Book* pages 92–93

### In this lesson, the students:

- Hear and discuss parts of narrative nonfiction texts
- Identify the important ideas in the texts
- Compare first- and secondhand accounts of an event
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

### 1 Briefly Review

Have the students gather with partners sitting together, facing you. Show the cover of *A Picture Book of Rosa Parks* and review that in previous lessons the students heard the book, identified important ideas in an excerpt from the book, and wrote a summary of the excerpt.

Tell the students that today they will hear part of *A Picture Book of Rosa Parks* again. Then they will hear another account, or description, of the same event and discuss how the accounts are alike and different. Remind the students to use the prompt “The reason I think this is . . .” as they talk today.

### 2 Read Aloud Part of *A Picture Book of Rosa Parks* and Discuss Important Ideas

Show pages 18–19 of *A Picture Book of Rosa Parks* and review that this part of the book tells about Rosa’s experiences on James Blake’s bus in Montgomery, Alabama, in 1955. Ask the students to think as they listen about the important ideas in this part of the book.

Read page 18 aloud and then ask:

**Q** *What are the important ideas in the section of the book you just heard?*

Have a few volunteers share their thinking. Display the “Comparing Accounts of Rosa Parks on the Bus” chart (WA13) and record the students’ responses in the appropriate column. Then ask:

 **Q** *Who is telling about the events in this book? What in the book makes you think so? Turn to your partner.*

Have a few volunteers share their thinking. As the students respond, record their responses on the chart. If necessary, explain that the author of the book is describing what happened to Rosa in his own words. Review that when someone who did not experience an event talks or writes about it, it is called a *secondhand account*. Add the following sentence to the chart: *It is a secondhand account.*

### Comparing Accounts of Rosa Parks on the Bus

A Picture Book of Rosa Parks	Rosa Parks: My Story
<p>Rosa sits in the middle of the bus.</p> <p>She refuses to give up her seat for white passengers.</p> <p>James Blake calls the police, and Rosa is arrested.</p> <p>It is a secondhand account.</p>	

### 3 Introduce “Excerpt from *Rosa Parks: My Story*”

Have the students turn to *Student Response Book* pages 92–93, “Excerpt from *Rosa Parks: My Story*.” Explain that this excerpt is from Rosa Parks’s autobiography, *Rosa Parks: My Story*. Review that an *autobiography* is the “story of a person’s life written by that person.” Explain that the excerpt tells about the same 1955 encounter with James Blake on the Montgomery bus that they heard earlier. Tell the students that as you read you would like them to follow along and think about the important ideas in the excerpt.

### 4 Read Aloud “Excerpt from *Rosa Parks: My Story*” and Discuss Important Ideas

Read “Excerpt from *Rosa Parks: My Story*” aloud slowly and clearly, clarifying vocabulary as you read.

#### Suggested Vocabulary

**make it light on yourselves:** make it easy for yourselves (p. 605)

**complied:** obeyed (p. 605)

**manhandled:** touched roughly in a way that causes harm (p. 606)

**NAACP:** National Association for the Advancement of Colored People, a civil rights organization (p. 606)

#### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**vacant:** empty (p. 605)

Use “Think, Pair, Share” to discuss:

**Q** *What are the important ideas in the excerpt? [pause] Turn to your partner.*

Have a few volunteers share their thinking. Record the students’ responses in the appropriate column on the “Comparing Accounts of Rosa Parks on the Bus” chart.

Remind the students that in this excerpt from Rosa Parks’s autobiography, Rosa herself is telling about her experiences. Review that if someone who experiences an event talks or writes about it, it is called a *firsthand account*. Add this sentence to the chart: *It is a firsthand account.*

### Comparing Accounts of Rosa Parks on the Bus

<i>A Picture Book of Rosa Parks</i>	<i>Rosa Parks: My Story</i>
<i>Rosa sits in the middle of the bus.</i>	<i>Rosa gets on a bus driven by the same driver who kicked her off a bus 12 years earlier.</i>
<i>She refuses to give up her seat for white passengers.</i>	<i>Rosa takes a vacant seat.</i>
<i>James Blake calls the police, and Rosa is arrested.</i>	<i>James Blake threatens Rosa.</i>
<i>It is a secondhand account.</i>	<i>Rosa doesn't give up her seat because she's tired of giving in.</i>
	<i>While waiting for the police, Rosa tries not to think of the awful things that could happen to her.</i>
	<i>It is a firsthand account.</i>

WA13

**TEKS 6.E.ii**  
Student/Teacher Narrative  
Step 5 (all, beginning on page 602 and continuing on to page 603)

## 5 Compare First- and Secondhand Accounts

Have the students compare the two accounts of the event by asking:

- Q** *How is the information in the firsthand account the same as the information in the secondhand account? How is it different?*
- Q** *What more do you know about Rosa’s encounters with James Blake from reading the firsthand account?*

#### Students might say:

“In the firsthand account, Rosa tells how she feels about being treated unfairly. The secondhand account doesn’t talk about her feelings.”

“In addition to what [Casey] said, in the firsthand account Rosa says she thought James Blake might hit her and she says that he threatened her.”

“I know more about how Rosa felt from reading her firsthand account. I also know details like how Rosa thought James Blake was rough and scary-looking.”

Tell the students that firsthand accounts often include more details, such as the author’s thoughts and feelings, than a secondhand account. Knowing a person’s thoughts and feelings helps readers better understand the reasons for that person’s actions.

Ask and briefly discuss:

**Q** *Why do you think it’s a good idea to read more than one account of an event?*

Have a few volunteers share their thinking with the class. If necessary, explain that reading more than one account of an event gives readers more information and a clearer picture of what happened.

## 6 Reflect on Discussing Opinions Respectfully

Facilitate a brief discussion about how the students did with giving reasons for their opinions and discussing their opinions respectfully.

# INDIVIDUALIZED DAILY READING

## 7 Read Independently and Think About Point of View

Ask the students to think about who is telling the story, or what is the point of view, in the books they are reading. Review that if a character in a story is telling the story, we say the story is being told from the first-person point of view. If a narrator who is not a character in the story is telling the story, we say the story is being told from the third-person point of view. Explain that at the end of IDR, each student will share with a partner what she noticed about the point of view in her book.

Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

**TEKS 10.E.ii**  
Student/Teacher Activity  
Step 7 (all, beginning on page 603  
and continuing on to page 604)

### IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have partners share their reading with each other. Have each partner share who is telling the story she is reading (for example, a narrator, a character, or the author). Remind the students to use the prompt

## Vocabulary Note

Next week you will revisit *A Picture Book of Rosa Parks* to teach the Week 28 vocabulary lessons.

## Teacher Note

Prior to doing this activity, you will need to obtain a hard copy of *Rosa Parks: My Story* to show to the class. This will help the students see how the book is organized as well as notice other text features the author included to help the reader better understand the text (such as the table of contents, photographs, and captions).

## Teacher Note

You might point out that the cover says the book is “by Rosa Parks with Jim Haskins” and explain that this means that Jim Haskins helped Rosa Parks write her story.

“The reason I think this is. . .” to support their thinking. Circulate as partners share. Support individual students by asking questions such as:

**Q** *Who is telling the story? What in the story makes you think so?*

Have the students return to their desks and put away their books.

## EXTENSION

### Analyze Paired Texts About Rosa Parks

Remind the students that they heard two accounts of an important event in the life of Rosa Parks. Show the cover of *A Picture Book of Rosa Parks* and review that one account was a narrative nonfiction book. Show the cover of *Rosa Parks: My Story* and review that the other account was an excerpt from Rosa Parks’s autobiography. Point out that while the important ideas in both texts are very similar, the way in which each author wrote about the information is different.

Show the cover of *Rosa Parks: My Story*, read the title aloud, and remind the students that Rosa Parks is the author. Open to the table of contents and read the chapter titles aloud. Flip through the first few pages of the first chapter, summarizing the information on each page and showing the photographs as you read the captions aloud. Ask:

**Q** *What do you notice about how the information is organized in this book? What makes you think that?*

**Q** *What text features do you notice in the book?*

Show the cover of *A Picture Book of Rosa Parks* and review that the author of this book, David A. Adler, told about Rosa Parks’s life in his own words. Flip through the first few pages of the book, showing the illustrations and briefly reviewing the information on each page. Then ask:

**Q** *How is the way the information is organized in this book the same or different from the way *Rosa Parks: My Story* is organized?*

**Q** *What text features do you notice in the book?*

**Q** *Does [seeing illustrations/reading summaries of the important events in Rosa Parks’s life] help you understand the events better? Why or why not?*

Have the students discuss the two texts by asking:

**Q** *How are these two books similar? How are they different?*

**Q** *Which version of Rosa Parks’s life would you prefer to read? Why?*

**Q** *When might it be important to read a more detailed version of an event, rather than a summary of an event?*

## Excerpt

### from *Rosa Parks: My Story*

by Rosa Parks with Jim Haskins

When I got off from work that evening of December 1, I went to Court Square as usual to catch the Cleveland Avenue bus home. I didn't look to see who was driving when I got on, and by the time I recognized him, I had already paid my fare. It was the same driver who had put me off the bus back in 1943, twelve years earlier. He was still tall and heavy, with red, rough-looking skin. And he was still mean-looking. I didn't know if he had been on that route before—they switched the drivers around sometimes. I do know that most of the time if I saw him on a bus, I wouldn't get on it.

I saw a vacant seat in the middle section of the bus and took it. I didn't even question why there was a vacant seat even though there were quite a few people standing in the back. If I had thought about it at all, I would probably have figured maybe someone saw me get on and did not take the seat but left it vacant for me. There was a man sitting next to the window and two women across the aisle.

The next stop was the Empire Theater, and some whites got on. They filled up the white seats, and one man was left standing. The driver looked back and noticed the man standing. Then he looked back at us. He said, "Let me have those front seats," because they were the front seats of the black section. Didn't anybody move. We just sat right where we were, the four of us. Then he spoke a second time: "Y'all better make it light on yourselves and let me have those seats."

The man in the window seat next to me stood up, and I moved to let him pass by me, and then I looked across the aisle and saw that the two women were also standing. I moved over to the window seat. I could not see how standing up was going to "make it light" for me. The more we gave in and complied, the worse they treated us.

I thought back to the time when I used to sit up all night and didn't sleep, and my grandfather would have his gun right by the fireplace, or if he had his one-horse wagon going anywhere, he always had his gun in the back of the wagon. People always say that I didn't give up my seat because I was tired, but that isn't true. I was not tired physically, or no more tired than I usually was at the end of a working day. I was not old, although some people have an image of me as being old then. I was forty-two. No, the only tired I was, was tired of giving in.

(continues)

## Excerpt

### from *Rosa Parks: My Story*

(continued)

The driver of the bus saw me still sitting there, and he asked was I going to stand up. I said, “No.” He said, “Well, I’m going to have you arrested.” Then I said, “You may do that.” These were the only words we said to each other. I didn’t even know his name, which was James Blake, until we were in court together. He got out of the bus and stayed outside for a few minutes, waiting for the police.

As I sat there, I tried not to think about what might happen. I knew that anything was possible. I could be manhandled or beaten. I could be arrested. People have asked me if it occurred to me then that I could be the test case the NAACP had been looking for. I did not think about that at all. In fact if I had let myself think too deeply about what might happen to me, I might have gotten off the bus. But I chose to remain.

Excerpt from *Rosa Parks: My Story* by Rosa Parks with Jim Haskins. Copyright © 1992 by Rosa Parks. Used by permission of Dial Books for Young Readers, a division of Penguin Group (USA) LLC.

# Week 5

## OVERVIEW

### Comprehension Focus

- Students think about important ideas and supporting details in a text.
- Students use important ideas to summarize a text.
- Students read independently.

### Social Development Focus

- Students work in a responsible way.
- Students discuss their opinions respectfully.
- Students give feedback in a caring way.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA9, WA14–WA15

#### Assessment Forms

- “Class Assessment Record” sheet (CA5)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

#### Reproducible

- Unit 8 family letter (BLM1)

#### Professional Development Media

- “Using Web-based Whiteboard Activities” tutorial (AV42)

## ⌚ DO AHEAD

- ✓ Prior to Day 1, select examples of the different types of read-alouds the students have heard and discussed this year, including fiction, expository and narrative nonfiction books and articles, poetry, and functional texts (see Step 2).
- ✓ Prior to Day 2, make sure that each student has selected a book to summarize and has located a copy of the book (see Step 1).
- ✓ Prior to Day 4, prepare a sheet of chart paper with the title “Words to Use When Giving Feedback” (see Step 1).
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA5); see page 123 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 28 lessons this week.

### Materials

- Examples of different types of read-alouds, collected ahead
- *Student Response Book*, Reading Log section

### Facilitation Tip

Reflect on your experience over the past four weeks with **responding neutrally with interest** during class discussions. Does this practice feel natural to you? Are you integrating it into class discussions throughout the school day? What effect is it having on the students? We encourage you to continue to try this practice and to reflect on the students' responses as you facilitate class discussions in the future.

### In this lesson, the students:

- Revisit their reading logs and identify favorite books
- Select books to summarize
- Read independently for up to 30 minutes
- Discuss their opinions respectfully

## 1 Review Identifying Important Ideas and Summarizing

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Review that two weeks ago, the students watched you model identifying important ideas in and writing a summary of *In My Own Backyard*. Last week the students identified important ideas in an excerpt from *A Picture Book of Rosa Parks* and wrote a summary of it together. Tell them that this week they will reflect on the books they have read this year, select books they especially liked, and write summaries of the books or of particularly interesting parts of the books. Explain that they will share their summaries with their classmates when they recommend books for summer reading next week.

## 2 Discuss Favorite Types of Texts

Direct the students' attention to the read-aloud examples you selected and review that the students have heard and discussed many different types of texts this year, including fiction, expository and narrative nonfiction, poetry, and functional texts. Remind them that they have also read many different types of texts independently during IDR. Use "Think, Pair, Share" to discuss:

**Q** *What kinds of texts have you most enjoyed reading and why?* [pause]  
Turn to your partner.

Have a few volunteers share their thinking with the class.

### Students might say:

"I especially liked reading nonfiction books. It's fun to learn real things about the world."

"My favorite was when we read poetry. It's cool how even a short poem can give you so much to think about."

"I enjoyed reading functional texts the most because they help you do stuff."

"Fiction stories are my favorite because they're the most exciting."

### 3 Review Reading Logs

Remind the students that they have been keeping track of the texts they read independently this year in their reading logs. Have them open their *Student Response Books* to the Reading Log section. Explain that you would like each student to read the entries in his reading log and put stars next to two or three of his favorite books. Give the students a few minutes to review and mark their reading logs.

### 4 Share Favorite Books and Select Books to Summarize

When most of the students have finished, call for their attention. Have partners take turns sharing the entries they marked and explaining what they especially liked about those books. After a few minutes, signal for the students' attention and invite a few volunteers to briefly share the entries they marked with the class. After volunteers have shared, use "Think, Pair, Share" to discuss:

**Q** Which of your favorite books do you think other students would most enjoy learning more about? Why? [pause] Turn to your partner.

Invite a few volunteers to share with the class.

#### Students might say:

"One of my favorite books is *Wonders of the World* by Philip Steele. I think other students might enjoy reading it because it's full of facts about interesting places all over the world."

"I loved reading *Frindle* by Andrew Clements. It's a funny book that I didn't want to put down. I wanted to keep reading until I finished it."

Ask each student to quietly decide which book she will summarize and to circle it in her reading log. Allow time before the next lesson for the students to locate copies of the books they wish to summarize.

### 5 Reflect on Discussing Opinions Respectfully

Facilitate a brief discussion about how the students did with giving reasons for their opinions and discussing their opinions respectfully.

## INDIVIDUALIZED DAILY READING

### 6 Practice Orally Summarizing Reading

Ask the students to think about the important ideas in their books as they read, and tell them that at the end of IDR, you will ask some of them to use the important ideas they have thought about to summarize what they read today. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### Teacher Note

We suggest the students write their summaries about books (or chapters or sections of books) and not consider other types of texts (such as poems, articles, or functional texts) that may appear in their reading logs.

## Teacher Note

In Unit 9, the individual student conferences focus on the students' reading habits and feelings about reading. If you have not met with all of your students to discuss the books they are reading during IDR, you may want to do so before beginning the next unit.

## IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 124) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 127 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Use "Think, Pair, Share" to discuss:

**Q** *If you were to tell someone in a few sentences what your book is about, what would you say? [pause] Turn to your partner.*

Have a few volunteers share their summaries with the class. Remind each student to begin by telling the title of the book he read and the author's name.

Have the students return to their desks and put away their books.

# Day 2

## Independent Strategy Practice

### Materials

- Student-selected books to summarize
- "Directions" chart (WA14)
- Small self-stick notes for each student

### In this lesson, the students:

- Read independently
- Think about important ideas in their books
- Support one another's independent work

### 1 Briefly Review

Have the students bring their pencils and the books they have selected to summarize (see "Do Ahead") and gather with partners sitting together, facing you. Tell the students that today they will be working independently and that you would like them to focus on taking responsibility for their own work and on helping others work independently. Ask:

**Q** *What will you do today to help your partner and others around you work independently?*

Tell the students that you will check in to see how they did at the end of the lesson.

## 2 Prepare to Read Independently and Identify Important Ideas

Explain that today the students will read the books they have selected to summarize and they will mark important ideas they want to include in their summaries. Tomorrow the students will write their summaries.

Display the “Directions” chart (🗨️ WA14) and read the directions on it aloud.

### Directions

1. Independently read the book (or chapter or section of the book) you will summarize.
2. Read the book (or chapter or section) again. Use self-stick notes to mark important ideas for your summary.

WA14

### Teacher Note

If a student has selected a chapter book or longer text to summarize, have her identify one chapter or a short section of the book that she found interesting to summarize.

## 3 Read Independently and Identify Important Ideas

Distribute several self-stick notes to each student. Have the students read and then reread their books and then mark the important ideas. As the students work, circulate and support them by asking individual students questions such as:

- Q *What are some important ideas you marked that you want to include in your summary?*
- Q *Why do those ideas seem important?*

## 4 Discuss Important Ideas in Pairs

When most students have finished, have the students talk with their partners about the important ideas they might want to include when they write their summaries tomorrow. Remind the students to give reasons for their opinions when talking in pairs and to discuss their opinions in a respectful way.

## 5 Discuss Important Ideas as a Class

When most partners have finished talking, facilitate a class discussion using the questions that follow. Remind each student who shares to briefly tell the title of his book, the author’s name, and what the book is about. Ask:

- Q *What is one important idea that you want to make sure to include in your summary tomorrow? Why does that idea seem important?*
- Q *Was it hard or easy to identify important ideas in your book? Explain your thinking.*

# Day 3

## 6 Reflect on Supporting One Another's Independent Work

Point out that the students worked independently today and that they will work independently again tomorrow. Ask:

- Q *How did you do with working independently today?*
- Q *How did your classmates help or hinder your independent work?*
- Q *What might we work on tomorrow to help one another work better independently?*

Ask the students to put their books, with self-stick notes in place, in safe locations until tomorrow's lesson.

## Independent Strategy Practice

### Materials

- Student-selected books to summarize from Day 2
- “Summary of *In My Own Backyard*” chart (WA9) from Week 3
- Students’ summaries of “Excerpt from *A Picture Book of Rosa Parks*” from Week 4
- *Student Response Book* pages 94–95

### In this lesson, the students:

- Build summaries of their own books
- Support one another's independent work

## 1 Review Supporting One Another's Independent Work

Have the students bring their *Student Response Books*, pencils, and the books they have selected to summarize and gather with partners sitting together, facing you. Review that the students have been working independently and supporting one another's independent work.

Use “Think, Pair, Share” to discuss:

-  Q *What are some ways we can try to support one another when we work independently? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

### Students might say:

“We can agree to work quietly during independent work time.”

“I think we can support one another by not banging our desks or sharpening our pencils while people are trying to read or write.”

“In addition to what [Renata] said, I think we can support our partners by getting everything we need before the work starts so we don't have to get up and distract people.”

Encourage the students to use the suggestions they mentioned for supporting one another while working independently. Tell them that you will check in with them at the end of the lesson to see how they did.

## 2 Write Opening Sentences for Summaries

Display the “Summary of *In My Own Backyard*” chart (🗨️ WA9) and hand back the students’ summaries of “Excerpt from *A Picture Book of Rosa Parks*.” Direct the students’ attention to the opening sentences of both summaries. Review that a summary usually begins with the title of the text, the author’s name, and a general sentence about what the text is about. Then it continues by describing the important ideas.

Have the students spend a moment reviewing the important ideas they marked in their books in the previous lesson. Use “Think, Pair, Share” to discuss:

**Q** *How might you say in one sentence what your book is about?* [pause] Turn to your partner.

After most pairs have finished sharing, signal for the students’ attention. Have the students open to *Student Response Book* pages 94–95, “Summary of \_\_\_\_\_.” Have each student write the title of the book he is summarizing on the blank line and then write an opening sentence for his summary.

Ask a few volunteers to read their opening sentences aloud to the class. Point out that the students might want to come back and revise their opening sentences once they have started writing their summaries. Encourage them to do so if they feel they need to.

## 3 Write Summaries

Have each student identify the first important idea he wants to write about in his summary and begin writing. Remind the students that they will share their summaries with the class next week when they make their recommendations for summer reading, so the summaries must give a good idea of what their books are about.

As the students write their summaries, circulate and support them by having individual students read some important ideas they marked aloud to you and then asking:

**Q** *How might you communicate those ideas briefly in your own words?*

During the writing, you might stop the class periodically and have a few students read what they have written so far to provide examples for those who are having trouble getting started.

**ELPS 4.G.ii**  
Step 2 and Step 3  
(all)

### Teacher Note

You will analyze the summaries the students write in their *Student Response Books* for this unit’s Individual Comprehension Assessment.

### Teacher Note

Use “Turn to Your Partner” as needed during this discussion to increase accountability and to encourage participation.

## 4 Reflect on Writing Summaries and Working Independently

When most students have finished writing, bring them together for a brief discussion. Explain that tomorrow they will have a chance to revise (or finish, if necessary) their summaries. Ask:

- Q *Do you think your summary in its current form would give another reader a good idea of what your book is about? Why or why not?*
- Q *What might you want to add to your summary, or how else might you want to revise your summary tomorrow?*
- Q *What did you do today to help your partner and others around you work independently?*

# Day 4

## Independent Strategy Practice

### Materials

- Student-selected books to summarize from Day 3
- “Words to Use When Giving Feedback” chart, prepared ahead, and a marker
- “Questions to Ask Yourself When Giving Feedback” chart (WA15)
- *Student Response Book* pages 94–95
- “Class Assessment Record” sheet (CA5)

### In this lesson, the students:

- Share their summaries with partners
- Give each other feedback about their summaries
- Revise their summaries
- Give feedback in a caring way

## 1 Get Ready to Give Feedback in a Caring Way

Have the students bring their *Student Response Books*, pencils, and the books they have selected to summarize and gather with partners sitting together, facing you. Explain that today the students will read the summaries they wrote in pairs. Partners will give each other feedback to help each other revise or add to their summaries, if necessary. Ask:

- Q *If your partner has a suggestion for how to make your summary stronger, how do you want your partner to give you that feedback?*
- Q *What are some words we can use to give each other feedback in a caring way?*

Have a few volunteers share their thinking. Direct the students’ attention to the “Words to Use When Giving Feedback” chart and record their suggestions on it.

## Words to Use When Giving Feedback

I'm confused about this part. What are you trying to say?

This part is really clear, but I'm not sure I understand this part.

I wonder if this part would be clearer if you said . . . .

You might consider adding . . . .

Have you thought about . . . ?

Encourage the students to use some of the ideas on the chart today to give feedback when working in pairs.

## 2 Give Feedback and Revise Summaries

Display the “Questions to Ask Yourself When Giving Feedback” chart (WA15) and tell the students that they will read their summaries to their partners and then discuss the summaries using the questions on this chart. Read the questions aloud.

### Questions to Ask Yourself When Giving Feedback

- Does this summary begin with a general sentence describing what this book is about?
- Does this summary give some important ideas from the book?
- What do I understand about the book from this summary?

WA15

Have the students turn to *Student Response Book* pages 94–95, “Summary of \_\_\_\_\_.” Have partners read their summaries to each other and then discuss them using the questions on the chart.

When partners are finished giving each other feedback, ask them to revise their summaries using the feedback they received. Circulate as partners share, discuss, and revise their summaries.

### Teacher Note

Any student who has not finished writing her summary can get feedback on the part she wrote and finish writing the summary today.

### Technology Tip

Many interactive activities that provide students with opportunities to practice summarizing are available online. For more information, search online using the keywords “summarizing interactive whiteboard activities.”

For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

### Vocabulary Note

Next week you will teach the Week 29 vocabulary lessons. In Week 29, the students review words from Weeks 25–28.

### Teacher Note

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on the next page.

## CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students’ summaries successfully communicate what their books are about?
- Is there evidence in the partners’ feedback that they understand something about the books being summarized?
- Are the students revising or adding to their summaries based on the feedback?

Record your observations on the “Class Assessment Record” sheet (CA5); see page 123 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are writing summaries that successfully communicate what their books are about, proceed with the lesson and continue on to Unit 9.
- If **about half of the students** are writing summaries that successfully communicate what their books are about, collect the unsuccessful summaries, read them, and give feedback to the students. Have the students write second drafts based on your feedback. After that, proceed with the lesson and continue on to Unit 9.
- If **only a few students** are writing summaries that successfully communicate what their books are about, do the extension “Analyze the Students’ Summaries” on page 599. If you have already done the extension once with the students’ summaries of “Excerpt from *A Picture Book of Rosa Parks*,” do it again using photocopies of the students’ book summaries from Week 5. Make sure to copy the students’ summaries without their names. After analyzing the summaries in the extension activity, have the students select another book to summarize, and give the class additional instruction by repeating this week’s lessons before continuing on to Unit 9.

## 3 Discuss Giving Feedback as a Class

After partners have had sufficient time to discuss and revise their summaries, call for the students’ attention and ask:

- Q *What feedback did your partner give you that was helpful? How was it helpful?*
- Q *Did you revise your summary based on what your partner said? How?*
- Q *How did you and your partner give each other feedback in a caring way? How did that help your work?*

Remind the students that they will have an opportunity to share their summaries with the class when they make book recommendations for summer reading next week.

# End-of-unit Considerations

## Wrap Up the Unit

- This is the end of Unit 8. Partners will stay together for Unit 9.
- The students will use the books they summarized in this unit when they make recommendations for summer reading in Unit 9.
- Send home with each student a copy of this unit’s family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

## Assessment

- Before continuing with the next unit, take this opportunity to assess individual students’ reading comprehension using the “Individual Comprehension Assessment” record sheet (IA1); see page 128 of the *Assessment Resource Book*.

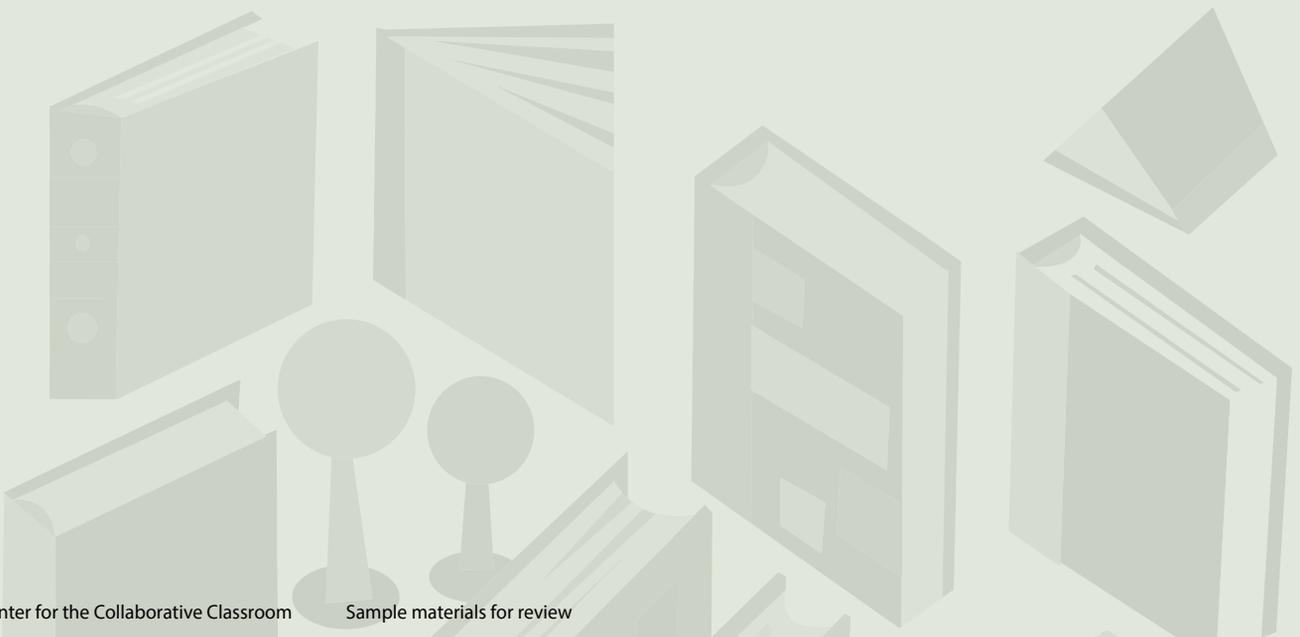

# Unit 9

## Revisiting The Reading Community

During this unit, the students prepare book recommendations to share with the class, and they generate summer reading lists based on others' recommendations. They also review the reading comprehension strategies they have learned this year and discuss how the strategies help them make sense of what they read.

During IDR, the students read texts of their choice and share and discuss what they are reading with the class. Socially, they act in fair and caring ways, and they listen to the thinking of others and respectfully share their own. They also discuss their growth as readers and as members of a classroom community.

# Unit 9

## Revisiting the Reading Community

### RESOURCES

#### Technology Mini-lesson

- Mini-lesson 3: “Showing Respect Online”

#### Technology Extensions

- “Use Online Book Recommendations to Add to Summer Reading Lists”
- “Explore the Community Library Online”

#### Extensions

- “Recommend a Second Summer Reading Book and Read It Aloud”
- “Recommend a Third Summer Reading Book and Read It Aloud”
- “Review the Summer Reading Lists”
- “Host an End-of-year Summer Reading Fair”

#### Assessment Resource Book

- Unit 9 assessments

#### Student Response Book

- “Summary of \_\_\_\_\_”
- “Summer Reading List”
- “Thoughts About My Reading Life”
- Reading Log
- Reading Journal

#### Vocabulary Teaching Guide

- Week 29 (review week)

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this unit.

#### Whiteboard Activities

- WA1–WA3

#### Assessment Forms

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)
- “Social Skills Assessment Record” sheet (SS1)

#### Reproducible

- Unit 9 family letter (BLM1)

#### Professional Development Media

- “Using Blogs in the Classroom” tutorial (AV45)
- “Using Social Media” tutorial (AV46)

# OVERVIEW

	Day 1	Day 2	Day 3	Day 4
Week 1	<p><b>Preparing Book Recommendations</b></p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Preparing book recommendations for summer reading</li> </ul>	<p><b>Sharing Book Recommendations</b></p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Sharing book recommendations for summer reading</li> <li>▪ Planning their summer reading</li> </ul>	<p><b>Sharing Book Recommendations and Reflecting</b></p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Sharing book recommendations for summer reading</li> <li>▪ Planning their summer reading</li> <li>▪ Reflecting on and writing about their reading lives</li> <li>▪ Reflecting on their growth as readers</li> </ul>	<p><b>Read-aloud and Reflection:</b> Student-selected book</p> <p><b>Focus:</b></p> <ul style="list-style-type: none"> <li>▪ Hearing and discussing a student-selected book</li> <li>▪ Planning their summer reading</li> <li>▪ Reflecting on the comprehension strategies they are using</li> <li>▪ Writing in their reading journals</li> <li>▪ Reflecting on their contributions to the reading community and how they have benefited from the reading community</li> </ul>

# Week 1

## OVERVIEW

### Comprehension Focus

- Students share book recommendations and plan their summer reading.
- Students synthesize by forming opinions and making judgments about books.
- Students reflect on their use of reading comprehension strategies.
- Students reflect on their growth as readers.
- Students read independently.

### Social Development Focus

- Students act in fair and caring ways.
- Students listen respectfully to the thinking of others and share their own.
- Students analyze the effect of their behavior on others and on the group work.
- Students reflect on the reading community.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA1–WA3

#### Assessment Forms

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)
- “Social Skills Assessment Record” sheet (SS1)

#### Professional Development Media

- “Using Blogs in the Classroom” tutorial (AV45)
- “Using Social Media” tutorial (AV46)

## DO AHEAD

- ✓ If you used the “IDR Conference Notes” record sheet (CN1) from Unit 2 as a survey of the students’ reading goals and interests, you might review the students’ responses to those questions prior to beginning your IDR conferences this week. For more information, see “IDR Conferences” in the Assessment Overview of the *Assessment Resource Book*.
- ✓ Prior to Day 1, select a book and write a brief summary about it. You will use the book and summary to model sharing a book recommendation (see Step 3). The book you choose for modeling could be a *Making Meaning* book, another popular book you have read aloud, a book on the “Grade 4 Alternative Texts” list, or a book the students have not heard before.
- ✓ Prior to Day 1, make sure that each student has the book she summarized in Unit 8. The students will use these books to make recommendations for summer reading (see Step 1).
- ✓ Prior to Day 1, make a class set of “IDR Conference Notes” record sheets (CN1); see page 139 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, collect five read-aloud books that your students might enjoy hearing (see Step 2). The books you select could include *Making Meaning* books the students liked when you read them earlier this year, other popular books you have read aloud, books on the “Grade 4 Alternative Texts” list, or books the students have not heard before.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1); see page 138 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([cclearninghub.org](http://cclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student.

---

### Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 29 lessons this week.

# Day 1

## Preparing Book Recommendations

### Materials

- Book for modeling a book recommendation, selected ahead
- Summary of the book, prepared ahead
- *Student Response Book* pages 94–95
- Student-selected books used to write summaries in Unit 8
- “Questions About Book Recommendations” chart (WA1)
- Class set of “IDR Conference Notes” record sheets (CN1)

### Teacher Note

You will not assign new partners this week. Have the students work with their Unit 8 partners or with other students sitting near them.

### In this lesson, the students:

- Prepare book recommendations for summer reading
- Read independently for up to 30 minutes
- Give feedback in a caring way

### 1 Get Ready to Work Together

Have the students bring their *Student Response Books*, pencils, and the books they used to write their summaries in Unit 8, Week 5, and gather with partners sitting together, facing you. Tell them that during this last week of the *Making Meaning* program, they will share their favorite books with the class and plan their summer reading. They will also review the comprehension strategies they have learned and think about how they have grown as readers and as members of a community.

Tell the students that at the end of the week, you will ask them to discuss some things they enjoyed about working with partners this year. Encourage them to focus during the coming week on enjoying their partner work and using the skills they have learned to help them in their work together.

### 2 Introduce Making Book Recommendations

Remind the students that last week they wrote summaries of books they especially liked reading this year. Tell the students that in the coming days they will use their summaries to help them make book recommendations for summer reading. Explain that when each student makes his book recommendation, he will read his summary and an interesting, short passage from his book aloud to the class. Tell the students that you will use one of your favorite books to model making a book recommendation.

### 3 Model Making a Book Recommendation

Model recommending a book to the class by showing the book, reading aloud the title and the author’s name, and then reading aloud the summary you prepared ahead. After reading the summary, show the cover of the book, say what you liked about it, and then read aloud a short passage from the book.

**You might say:**

"The book I want to recommend for your summer reading is *Charlotte's Web*, by E. B. White. *Charlotte's Web* is a story about a pig named Wilbur, who is destined to become 'smoked bacon and ham' until his friend Charlotte, a beautiful gray spider, finds a way to save him. I like this story because of the warm friendship between the pig and the spider. I also like that the barnyard animals all have their own funny personalities. Now I'm going to read a passage from the book that I thought was funny."

## 4 Discuss What to Share in a Book Recommendation

Explain that the students will have some time today to plan what they want to say to their classmates about their books. Each student will also choose a short passage from her book to read aloud. Ask and briefly discuss:

- Q *What information might be important to share when you recommend your book? Why?*
- Q *What might be important to include when you tell what your book is about?*
- Q *What might you want to look for in a passage to read aloud to the class?*

**Students might say:**

"It is important to share what the book is about."

"It is important to include the important ideas, but you don't want to tell the whole story."

"I want to read an exciting or interesting part. This way people might want to read the book."

## 5 Prepare Book Recommendations

Have the students turn to *Student Response Book* pages 94–95. Have each student review the summary he completed in Unit 8, plan what he will say about his book, and identify a passage from his book to read aloud.

If you think it will be helpful, have the students quietly practice reading their passages aloud before sharing as a class.

## 6 Discuss Book Recommendations in Pairs

Tell the students that before they share their book recommendations with the class, they will practice by sharing their recommendations with their partners. Display the "Questions About Book Recommendations" chart (WA1) and explain that these are questions the students can ask themselves as they listen to their partners. Read the questions aloud.

Have partners share their book recommendations and passages with each other and discuss them using the questions on the chart.

### Teacher Note

As the students prepare their book recommendations, circulate among them. Encourage them in their preparation by asking questions such as:

- Q *Does your summary do a good job of telling what the book is about? If not, what might you add?*
- Q *What passage are you planning to read? Why did you choose that passage?*
- Q *What did you especially like about this book?*

### Questions About Book Recommendations

- Does the recommendation summarize the book?
- Does the recommendation give just enough information?
- Does the recommendation make you want to read the book?
- Does listening to the passage make you curious about the book?

## 7 Discuss Working with Partners

When most pairs have finished discussing their book recommendations, signal for the students' attention. Then ask and briefly discuss:

- Q** *What did your partner do that was helpful?*
- Q** *How did you and your partner give each other feedback in a caring way? How did that help you?*

Explain that the students will have opportunities in the coming days to share their book recommendations with the class.

## INDIVIDUALIZED DAILY READING

## 8 Read Independently and Discuss Summer Reading Plans

Tell the students that they can read texts from any genre during IDR this week. Ask the students to think as they read about whether they would recommend the texts they are reading to others. Tell them that later they will share what they read with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

### Teacher Note

As you confer, you might compare the student's responses to the questions on the "IDR Conference Notes" record sheet (CN1) from Unit 2 with her responses to the questions on the "IDR Conference Notes" record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask her what led to those changes.

### IDR CONFERENCE NOTE

You may wish to confer a final time with individual students during this unit. In each conference, ask the student to tell you about the text she is reading and discuss how her reading habits have changed, how she feels about herself as a reader, and what she is interested in reading.

Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share briefly with the class whether they would recommend the texts they are reading. Remind each student to begin by telling the title, the author's name, and what the text is about so far.

After a few volunteers have had a chance to share, facilitate a discussion about the students' summer reading plans by asking questions such as:

- Q *What are you interested in reading this summer?*
- Q *Why is it important for you to keep reading this summer?*
- Q *What habits can you create for yourself to make sure you keep reading this summer?*

Have the students return to their desks and put away their texts.

## SOCIAL SKILLS ASSESSMENT NOTE

During this final week of the program, assess the students' social skill development using the "Social Skills Assessment Record" sheet (SS1); see page 144 of the *Assessment Resource Book*. Compare your notes from fall, winter, and spring, and evaluate each student's social skill development over the course of the year.

## EXTENSION

### Recommend a Second Summer Reading Book and Read It Aloud

Tell the students that you will make another recommendation for summer reading by first summarizing a book and then reading it aloud. Refer to the "Reading Comprehension Strategies" chart and remind the students to think about the comprehension strategies they are using as they listen.

Introduce the book by reading the information on the cover and providing any necessary background information and a brief summary. Read the book aloud, showing the illustrations. You might stop periodically to have partners discuss what they have heard so far.

After the reading, facilitate a class discussion about the book. Use "Turn to Your Partner" as appropriate to encourage thinking and participation. Be ready to reread passages to help the students recall what they heard. Ask questions such as:

- Q *What is the book about?*
- Q *What do you want to add to the summary [Danny] just gave?*
- Q *Is this a book you would recommend to someone? Why or why not?*
- Q *What comprehension strategies did you use as you listened to this book? How did that help you?*

### Teacher Note

Provide time for the students to record the texts they have completed in their reading logs.

### Teacher Note

You might use the information you collected about your students' social skill development over the course of the year to help you plan for next year. Ask yourself questions such as:

- What was challenging for my students this year in terms of their social development?
- How might I help next year's students grow socially?
- What skills should I emphasize with the students next year to help them build a safe and caring reading community?

# Day 2

## Sharing Book Recommendations

### Materials

- *Student Response Book* page 96
- Student-selected books for book recommendations
- “Thinking About My Reading” chart
- “Reading Comprehension Strategies” chart

### Facilitation Tip

Reflect on your experience over the past year using the Facilitation Tips included in the *Making Meaning* program. Did using the facilitation techniques feel natural to you? Have you integrated them into your class discussions throughout the school day? What effect did using the facilitation techniques have on your students? We encourage you to continue to use the facilitation techniques and to reflect on the students' responses as you facilitate class discussions in the future.

### Teacher Note

You might consider taking your students on a short field trip to a community library.

### In this lesson, the students:

- Share book recommendations for summer reading
- Plan their summer reading
- Read independently for up to 30 minutes
- Listen respectfully to the thinking of others and share their own

## 1 Introduce the Summer Reading List

Have the students bring their *Student Response Books*, pencils, and the books they are sharing for their book recommendations and gather with partners sitting together, facing you. Tell the students that today they will take turns sharing their book recommendations for summer reading with the class. Have the students turn to *Student Response Book* page 96, “Summer Reading List.” Explain that as they hear recommendations for books they might want to read this summer, they will add these titles to the “Summer Reading List.” Point out that the page has space to write the title of each book, the author’s name, and a few words to remind them what the book is about.

Remind the students that yesterday you recommended a book for their summer reading. Invite the students to add that book to their summer reading lists, if they wish. Write the title and the author’s name where everyone can see them so that interested students can copy this information. Ask and briefly discuss:

**Q** *If you hear about a book you are interested in reading, how might you find that book this summer?*

#### Students might say:

“I might find the book at the public library.”

“If a friend has the book, I could borrow it.”

“I might look for it at the bookstore or on the Internet.”

Facilitate a brief discussion about how the students will interact in a kind and respectful way during the sharing. Ask:

**Q** *How do you want your classmates to respond to your book recommendation, whether they would choose to read your book or not? Why?*

**Q** *How can you let your classmates know that you are interested in the books they are sharing and that you appreciate the work they’ve done to share the books with you?*

**Students might say:**

"I want people to listen carefully when I read my recommendation. I would also like them to ask me questions about my book."

"After someone shares a recommendation with the class, we can thank them."

"We can ask them to tell us more about why they liked the book."

"We can tell them what we liked about the passage they read."

## 2 Share Book Recommendations

Call on a volunteer to share her book recommendation with the class. Remind the student to show the cover and read the title and the author's name aloud before reading her summary and the selected passage. When the student has finished sharing, ask:

**Q** *[Desiree], why did you choose that passage?*

Facilitate a brief class discussion using questions such as:

**Q** *What questions do you want to ask [Desiree] about the book she shared?*

**Q** *What did you hear about this book or in the passage that [Desiree] read aloud that got you interested in or made you curious about the book?*

**Q** *Do you have enough information to decide whether you want to add this book to your summer reading list? If not, what else do you want to know?*

Ask the student who shared the book to write the title and the author's name clearly where everyone can see them. Have the students copy this information onto their summer reading lists if they are interested in reading the book over the summer.

Have several more students share their book recommendations with the class. After each student shares, allow time for questions and discussion and for interested students to add to their reading lists.

## 3 Discuss Working Together

Have the students who shared their recommendations today talk briefly about how they felt the class responded to them while they were sharing. Ask:

**Q** *What made you feel like your classmates were interested in what you were sharing?*

**Q** *If you weren't sure that your classmates were interested, what made you unsure?*

Open the discussion to the class, and ask:

**Q** *What should we do the same way or differently as we continue to share our book recommendations?*

### Technology Tip

You might create a space on the class blog for the students to post their recommendations for summer reading. Over the summer, the students can view their classmates' recommendations for summer reading, post summaries of books they have read, and write comments and questions about recommended books. For more information about setting up and maintaining a class blog, view the "Using Blogs in the Classroom" tutorial (AV45). Prior to allowing the students to post comments on the class blog, you might teach Technology Mini-lesson 3, "Showing Respect Online."

Remind the students of your expectation that they will do their part to help create a safe, caring community in the class. Tell them that more students will share their book recommendations tomorrow.

## INDIVIDUALIZED DAILY READING

### 4 Review and Discuss Self-monitoring and “Fix-up” Strategies

Remind the students that this year they learned techniques they can use to monitor their comprehension, or make sure they understand what they are reading. Direct their attention to the “Thinking About My Reading” chart and review that they learned to stop and think about what they are reading by asking themselves the questions on the chart. They learned that if they do not understand what they are reading, they can use the “fix-up” strategies of rereading and reading ahead. If they still do not understand what they are reading, they can also try the strategies listed on the “Reading Comprehension Strategies” chart or they can ask you or a classmate for help.

Have the students get their texts and read silently for up to 30 minutes. Stop them at 10-minute intervals and have them monitor their comprehension by thinking about the questions on the “Thinking About My Reading” chart. After the students have settled into their reading, confer with individual students.

#### Teacher Note

As you confer, you might compare the student’s responses to the questions on the “IDR Conference Notes” record sheet (CN1) from Unit 2 with his responses to the questions on the “IDR Conference Notes” record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask him what led to those changes.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students. For each conference, ask the student to tell you about the book he is reading and discuss how his reading habits have changed, how he feels about himself as a reader, and what he is interested in reading.

Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Facilitate a brief class discussion about using the questions on the “Thinking About My Reading” chart to track their reading comprehension. Ask and briefly discuss questions such as:

- Q *Why is it important to stop as you are reading and ask yourself if you understand what you have read?*
- Q *How do rereading and reading ahead help you make sense of text?*
- Q *Which comprehension strategy do you find the most helpful when you’re not understanding something you’re reading? Why?*

Have the students return to their desks and put away their texts.

## EXTENSION

### Recommend a Third Summer Reading Book and Read It Aloud

Tell the students that you will make another recommendation for summer reading by first summarizing a book and then reading it aloud. Refer to the “Reading Comprehension Strategies” chart and remind the students to think about the comprehension strategies they are using as they listen.

Introduce the book by reading the information on the cover and providing any necessary background information and a brief summary. Read the book aloud, showing the illustrations. You might stop periodically to have partners discuss what they have heard so far.

After the reading, facilitate a class discussion about the book. Use “Turn to Your Partner” as appropriate to encourage thinking and participation. Be ready to reread passages to help the students recall what they heard. Ask questions such as:

- Q *What is the book about?*
- Q *What do you want to add to the summary [Raina] just gave?*
- Q *Is this a book you would recommend to someone? Why or why not?*
- Q *Which comprehension strategies did you use as you listened to this book? How did that help you?*

## Sharing Book Recommendations and Reflecting

## Day 3

### In this lesson, the students:

- Share book recommendations for summer reading
- Plan their summer reading
- Reflect on and write about their reading lives
- Reflect on their growth as readers
- Read independently for up to 30 minutes
- Listen respectfully to the thinking of others and share their own

### 1 Discuss Sharing Ideas Respectfully

Have the students bring their *Student Response Books*, pencils, and the books they are sharing for their book recommendations and gather with partners sitting together, facing you. Remind the students that

### Materials

- Student-selected books for book recommendations
- “Reflecting on Our Reading Lives” chart (WA2)
- *Student Response Book* page 97
- “Reading Comprehension Strategies” chart

yesterday they began to share book recommendations for summer reading. They will hear several more book recommendations today and consider these books for their summer reading lists. Explain that they will also spend some time reflecting on their own reading lives.

Review that yesterday the students who shared talked about how they felt the class responded to them while they were sharing. Then, as a class, the students discussed what they might do the same and differently as more students share today. Ask:

**Q** *What did we say we want to do the same way or differently as a class today as we listen to book recommendations?*

**Q** *How will [listening carefully and making eye contact with the person sharing] help the people who are sharing?*

Encourage the students to keep these things in mind as they participate today.

## **2** Continue to Share Book Recommendations

Have several more students share their book recommendations with the class. Remind each student to begin by showing the cover of his book and reading the title and the author's name aloud. When each student has finished, ask:

**Q** *[Tomás], why did you choose that passage?*

Facilitate a brief class discussion after each student shares using questions such as:

**Q** *What questions do you want to ask [Tomás] about the book he shared?*

**Q** *What did you hear about the book or in the passage that intrigued you?*

**Q** *Do you have enough information to decide whether you want to add this book to your summer reading list? If not, what else do you want to know?*

Remind each student who shares a recommendation for summer reading to write the title and the author's name where everyone can see them. Have interested students copy the information onto their summer reading lists. After the students have shared their book recommendations, end the sharing time for today. Assure the students that if they did not share their book recommendations today, they will have time to share them later.

## **3** Write About Reading Lives

Explain that the students will now have a chance to think about how they have grown and changed as readers over the year. Remind them that they started the year thinking about their reading lives, and tell them that they will think about this again now that they are nearing the end of the year.

### **Teacher Note**

If not all of the students are able to share their book recommendations, make time later in the day or on another day for them to share before proceeding with the Day 4 lesson.

Display the “Reflecting on Our Reading Lives” chart (WA2) and explain that the students will first think, and then write, about the questions on the chart. Read the questions aloud, pausing after each question to give the students time to think.

WA2

### Reflecting on Our Reading Lives

- What are some of your favorite kinds of books now? Why?
- Where is your favorite place to read?
- What does the word *reading* mean to you?
- When you don't understand something you are reading, what do you do?
- What kinds of books did you read for the first time this year? What topics did you read about for the first time?

After a few moments, ask the students to turn to *Student Response Book* page 97, “Thoughts About My Reading Life.” Have them record their answers to these questions.

## 4 Discuss Growth as Readers

Give the students a few minutes to review and reflect on what they wrote. Ask them to spend a few quiet moments thinking about how they have changed and grown as readers over the year. Facilitate a discussion about the students' growth as readers using questions such as:

- Q *How do you think you have changed or grown as a reader? What makes you think that?*
- Q *What questions do you want to ask [Lionel] about what he said?*
- Q *Do others think they have changed or grown in a similar way? Why do you think so?*

#### Students might say:

“My favorite books used to be the books about Ramona. I still like those books, but my new favorite books are mysteries.”

“At the beginning of the year, I wanted to read about space, and I did. I read a bunch of books about the solar system.”

“I used to think reading meant reading words. Now I think reading means thinking about a story.”

You might want to share some of your general observations about ways your students have changed or grown as readers over the year.

#### You might say:

“I noticed that each of you has improved in your ability to choose books that are at the right reading level for you and that you are choosing books now that are at a higher reading level than the books you were reading at the beginning of the year.”

### Teacher Note

Use “Turn to Your Partner” as needed during this discussion to increase accountability and participation.

## INDIVIDUALIZED DAILY READING

### 5 Read Independently and Share Interesting or Surprising Things with the Class

Ask the students to think as they read independently today about interesting or surprising things in their texts. Explain that later you will ask some of them to share interesting or surprising things in their texts with the class. Have the students get their texts and read independently for up to 30 minutes. After they have settled into their reading, confer with individual students.

#### Teacher Note

As you confer, you might compare the student's responses to the questions on the "IDR Conference Notes" record sheet (CN1) from Unit 2 with her responses to the questions on the "IDR Conference Notes" record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask her what led to those changes.

#### IDR CONFERENCE NOTE

Continue to confer individually with the students. For each conference, ask the student to tell you about the text she is reading and discuss how her reading habits have changed, how she feels about herself as a reader, and what she is interested in reading.

Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share interesting or surprising things in their texts with the class. Remind each student to begin by telling the title of the text, the author's name, and what the text is about.

Have the students return to their desks and put away their texts.

## EXTENSION

### Review the Summer Reading Lists

Have the students review the books on their summer reading lists. Ask and briefly discuss:

**Q** *What kinds of books did you choose for summer reading? Does that surprise you? Why or why not?*

You might ask the students to put stars next to the books they want to read first. Encourage them to read as many of the books on their lists as they can this summer. Also encourage them to talk with family members and friends about the books they are reading and to add any books that seem interesting to their reading lists.

## TECHNOLOGY EXTENSION

### Use Online Book Recommendations to Add to Summer Reading Lists

Review that the students have been creating summer reading lists based on book recommendations from their classmates. Tell the students that today they will explore websites that recommend books for summer reading to find more titles they might be interested in adding to their own lists.

Open your web browser and go to one of the websites you previewed. Model navigating the website and read aloud some of the book recommendations. After reading each recommendation, discuss questions such as:

- Q *What did you learn about the book? What else would you like to know about it?*
- Q *Are you interested in reading this book? Why or why not?*

Allow time for interested students to add the books to their reading lists.

### Technology Tip

Prior to doing this activity, find and preview age-appropriate websites that feature book recommendations using the keywords “grade 4 summer reading lists” or “grade 4 book recommendations.”

## Read-aloud and Reflection

## Day 4

### In this lesson, the students:

- Hear and discuss a student-selected book
- Plan their summer reading
- Reflect on the comprehension strategies they are using
- Read independently for up to 30 minutes and write in their reading journals
- Reflect on their contributions to the reading community
- Reflect on how they have benefited from the reading community

### 1 Reflect on Partner Work

Have the students bring their pencils and gather with partners sitting together, facing you. Remind the students that over the course of the year, they have worked with many partners. Ask a few volunteers to share some of their favorite things about working with partners this year. Facilitate a class discussion using questions such as:

- Q *Think about how you worked with your first partner this year and how you work with partners now. How have you grown as a partner?*
- Q *What are three things that you liked most about working with partners this year?*

### Materials

- Five read-aloud books, selected ahead
- Sheet of scratch paper for each student
- *Student Response Book* page 96
- “Reading Comprehension Strategies” chart
- “Class Assessment Record” sheet (CA1)
- Self-stick notes for each student
- “Journal Entry” chart (WA3)
- *Student Response Book*, Reading Journal section
- Copy of this unit’s family letter (BLM1) for each student

**Students might say:**

"At first it was hard, but we got better and better at it."

"I think the more we got to know each other, the more we were a community."

"I agree with [Franklin]. Being in this community has helped me because I used to be too shy to say anything to the class. I don't feel that way anymore."

"In addition to what [Teresa] said, I liked working with a partner. I liked having someone to talk to, not having to be quiet all the time, and getting to work with different partners."

Ask and briefly discuss:

**Q** *What is one thing you learned about working well with a partner that you want to take with you next year?*

You might want to share some of your general observations about ways your students have changed or grown when working with partners over the year.

**You might say:**

"I remember how some students didn't want to work with assigned partners at the beginning of the year. Now you are much better at working with any partner. I also noticed that you relied much more heavily on me at the beginning of the year to help you solve your problems. Now you are able to solve many problems by yourselves."

Tell the students that today they will have another opportunity to share their thinking with their partners.

## 2 Choose a Read-aloud Book

Write the titles of the five read-aloud books you selected where everyone can see them. Show the students the books and explain that the class will choose one of these books to hear read aloud today. Tell them that you selected books you thought they would enjoy hearing (or hearing again). Give a brief synopsis of each book that is new to the students and, if necessary, briefly review the books from earlier in the year.

Explain that you would like each student to choose the three books he is most interested in hearing and to write these three titles on a sheet of scratch paper. The title with the most votes is the one you will read aloud today. Before having the students vote, ask:

**Q** *How will you decide which three books to choose? What will you think about?*

**Q** *Why is it important to make your choices based on what you are really interested in hearing rather than on what other people are choosing?*

### Technology Tip

Alternatively, you might use a web-based polling system to have the students submit their votes. Search online using the keywords "online polling system" or "online polling tool." For more information, view the "Using Social Media" tutorial (AV46).

Distribute a sheet of scratch paper to each student. Have the students write their three book choices, and collect the votes. Have the students turn to *Student Response Book* page 96, “Summer Reading List,” and add the titles of any of these five books that they might want to read or reread this summer. While they are doing this, tally the votes. After you have tallied the votes, tell the class which book was chosen for today’s read-aloud.

### 3 Review the “Reading Comprehension Strategies” Chart

Direct the students’ attention to the “Reading Comprehension Strategies” chart and review that the students learned and practiced each of these strategies this year. Review that the goal of learning comprehension strategies is to help the students actively think about what they are reading in order to make sense of it. Ask:

- Q *Which strategies do you find yourself using regularly? How do those strategies help you make sense of what you’re reading?*
- Q *When might it make sense to use [making inferences]? How might this strategy help you read?*

Remind the students to think about the comprehension strategies they are using as they listen to today’s read-aloud, and explain that you will ask them to discuss their thinking after the reading.

### 4 Introduce the Book and Read Aloud

Introduce the book by showing the cover, reading aloud the information on the cover (for example, the title and the names of the author and the illustrator), and providing any necessary background information.

Read the book aloud, showing the illustrations. Stop periodically to have partners discuss what they have heard so far.

### 5 Discuss the Reading as a Class

Facilitate a discussion of the book using the questions that follow. Be ready to reread passages to help the students recall what they heard.

- Q *What is this [story] about?*
- Q *What do you want to add to the summary [Lucas] just gave?*
- Q *What comprehension strategy or strategies did you use as you listened to this [story]? How did that help you understand the [story]?*

### 6 Reflect on the Reading Community

Remind the students that yesterday they reflected on their reading lives and growth as readers. Explain that the students will now have a chance to think about how they did with creating a safe and caring community

#### Teacher Note

If the students finish writing before you are done tallying the votes, ask them to page through their *Student Response Books* and talk in pairs about the work they did this year.

If partners need help focusing on their *Student Response Book* work, pose a question for them to think about, such as:

- Q *What is one piece of work in your Student Response Book that represents some of your best thinking?*
- Q *What is one piece of work that was most interesting or enjoyable for you?*

#### Teacher Note

Use “Turn to Your Partner” as appropriate to encourage thinking and participation.

this year and how they personally have changed as members of the community.

Use “Think, Pair, Share” to discuss:

**Q** *What have we done to create a caring and safe reading community this year?* [pause] *Turn to your partner.*

**Q** *What have you done to contribute to the reading community this year?* [pause] *Turn to your partner.*

**Q** *How has it felt to be part of the reading community? How has it helped you?* [pause] *Turn to your partner.*

After a few moments, signal for the students’ attention and invite a few volunteers to share.

**Students might say:**

“I think we did a good job creating a caring and safe reading community. Whenever we had problems, we talked about them so we could get along better.”

“I agree with [Rachel] because the more we got to know each other, the more comfortable we felt talking to each other and sharing our ideas.”

“I contributed to the reading community by listening respectfully to my classmates.”

“Being a part of the reading community has helped me feel confident about reading.”

“I used to be too shy to talk to my partner, but now I can talk to any partner I have.”

Encourage the students to become caring members of their classroom reading community next year and to enjoy their summer reading.

## CLASS ASSESSMENT NOTE

Take this opportunity to reflect on your students’ growth over the year by asking yourself questions such as:

- Are the students using the comprehension strategies successfully? Which strategies seem to be the most challenging for the students?
- Has the students’ enjoyment of reading grown? What evidence do I notice?
- How might I help next year’s students grow as readers?
- What was challenging for my students this year in terms of their social development?
- How might I help next year’s students grow socially?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 138 of the *Assessment Resource Book*.

# INDIVIDUALIZED DAILY READING

## 7 Read Independently and Write in Reading Journals

Distribute self-stick notes to each student. Tell the students to use the self-stick notes to mark places where they notice they are using reading comprehension strategies in their texts. Have the students get their texts and read independently for up to 30 minutes. After the students have settled into their reading, confer with individual students.

### IDR CONFERENCE NOTE

Continue to confer individually with the students. For each conference, ask the student to tell you about the book he is reading and discuss how his reading habits have changed, how he feels about himself as a reader, and what he is interested in reading.

Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Display the “Journal Entry” chart (WA3) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

#### Journal Entry

Write a journal entry about a comprehension strategy you used. Please include:

- The title of the text and the author’s name
- What the text is about
- A comprehension strategy you used
- How the strategy helped you understand the text

WA3

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Have the students return to their desks and open their *Student Response Books* to the Reading Journal section. Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

### Teacher Note

As you confer, you might compare the student’s responses to the questions on the “IDR Conference Notes” record sheet (CN1) from Unit 2 with his responses to the questions on the “IDR Conference Notes” record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask him what led to those changes.

### Vocabulary Note

Next week you will teach the Week 30 vocabulary lessons. In Week 30, the students review words they have learned this year.

### Teacher Note

For information on wrapping up this unit, see “End-of-unit Considerations” on the next page.

---

## EXTENSION

### Host an End-of-year Summer Reading Fair

Have the students invite other classes to a Summer Reading Fair. Have the students present their book recommendations to small groups of students. The invited students will have an opportunity to listen to book recommendations, preview the books, and get a glimpse into the reading lives of the students. Students might also make posters to advertise their favorite books. If there is a school library or librarian available, you might want to involve the library or librarian in the activity.

---

## TECHNOLOGY EXTENSION

### Explore the Community Library Online

Take some time to explore the community library's website (you might search the site for topics like "children's services" and "children's e-books"). Many libraries offer access to collections of e-books, music, and audiobooks through downloads to personal computers, tablets, and other mobile devices. You might ask your school librarian or a librarian from the community library to come to your classroom and introduce your students to a few of the online services available to them.

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of Unit 9 and the *Making Meaning* program. Send each student home with his or her *Student Response Book* and a copy of this unit's family letter (BLM1). Encourage the students to share their reading logs, reading journals, and summer reading lists with their families.

# Appendix A

## IDR MINI-LESSONS

### Mini-lesson 1

## Selecting Appropriately Leveled Texts

### 🕒 DO AHEAD

- ✓ During this lesson, the students will sit in small groups as they browse through book bins and select appropriately leveled texts (see Step 3). Prior to beginning the lesson, decide how you will group the students. We recommend groups of three or four students.
- ✓ Create one book bin with 15–20 books for each group. In every bin, be sure to include fiction and nonfiction books at a variety of levels. Determine where in your classroom you will place each bin (for example, at a table or other location around the room).
- ✓ Select three books to use to model selecting an appropriately leveled text: one book at an appropriate independent reading level, one “too-easy” book, and one “too-difficult” book. Be ready to describe the front and back covers of each book and to explain why each book interests you. Also, be ready to read a few pages of each book aloud and to point out and count any unfamiliar words in a passage. Place the books in one of the book bins you have prepared. See Step 2.
- ✓ Prepare a sheet of chart paper titled “Choosing a Book at the Right Level.” See Step 2.

### Materials

- Three books for modeling, prepared ahead
- “Choosing a Book at the Right Level” chart, prepared ahead, and a marker
- Collection of fiction and nonfiction books in book bins, prepared ahead

### In this lesson, the students:

- Review what they know about selecting appropriately leveled texts
- Discuss the importance of selecting appropriately leveled texts for IDR
- Review a procedure for selecting books at their independent reading levels
- Practice choosing books at their independent reading levels
- Share their book choices and reflect

## ABOUT SELECTING APPROPRIATELY LEVELED TEXTS

In order for the students to grow as readers, they need to spend time reading texts they can comprehend and read fluently with few miscues (accuracy errors). For that reason, during IDR they read books at their independent reading levels. This lesson supplements the instruction in IDR by giving the students guidance in identifying and selecting books that are at their independent reading levels. For more information, see “Reading Appropriately Leveled Texts” in the Introduction.

### 1 Review and Discuss Selecting Appropriately Leveled Texts

Have the class gather with partners sitting together, facing you. Remind the students that during IDR it is very important that they read books at the right levels. Review that a book that is at the right level is not too difficult and not too easy; it has words the students can read and understand and a story or topic that is interesting to them. Remind the students that reading books at the right levels will help them to become stronger readers.

Ask and briefly discuss:

**Q** *What do you think about when you are choosing a book at the right level for you?*

#### Students might say:

“First I look for a book that’s interesting to me.”

“When I find a book that looks interesting, I open it to any page and read a little bit.”

“As I read, I keep track of how many words I don’t know on the page.”

“If the book seems too easy or too hard to read on my own, I put it back in the library.”

Review that a book is at the right level for a student to read during IDR if the student likes it, is interested in it, and can read and understand most of the words. Explain that today the students will talk about why it is important to read books at the right levels during IDR.

Ask and briefly discuss:

**Q** *How do you know if a book is too easy? Turn to your partner.*

**Q** *How do you know if a book is too difficult? Turn to your partner.*

Have a few volunteers share their thinking.

#### Teacher Note

At other times during the day, you might provide the students with opportunities to read books that are above or below their independent reading levels.

**Students might say:**

"A book that's too easy might have only a few words on each page."

"If a book is too easy, it could mean that I know every single word and can read the book really fast."

"A book might be too difficult if it has a lot of words I don't know."

"If a book is too difficult, it could mean that I can't understand what it's about."

If necessary, explain that reading books that are too easy will not help the students become stronger readers since they might not have the opportunity to practice reading new words or to think about new ideas. If they read books that are too difficult, they might skip important parts of the book and they might not understand what they read. Then ask:

**Q** *Why is it important to read books that are at the right level for you during IDR?*

**Students might say:**

"When you read a book that's at the right level for you, it's more fun to read."

"It's important because if a book is at the right level, you'll understand it better."

"When you read a book at the right level, you learn more."

"It's important because reading books at the right level helps us get better at reading."

Tell the students that today you will model choosing a book at the right level for IDR by checking to see if you know most of the words in the book. Explain that later in the lesson each student will have a chance to practice choosing his own books at the right level.

## **2** Model and Introduce the "Choosing a Book at the Right Level" Chart

Ask the students to watch and listen as you model choosing a book at the right level. Ask the students to notice what you do and think about when you select the book.

Take the "too-easy" book you selected (see "Do Ahead") out of the book bin. Briefly model looking through the book, reading a few pages aloud, and thinking aloud about whether the book interests you and whether it is at the right level for you. Explain that normally we read silently when we read independently, but that you will read aloud so that the students can hear what is happening in the book.

**You might say:**

"First, I'll look at the front and back covers of the book. The title is *Heroes*, and the author's name is Ken Mochizuki. This book looks interesting to me. The title makes me wonder what the story is about, and the illustration on the front cover caught my attention. Next, I'll read a few pages to see if this book is at the right level for me. As I read, I'll count any words I don't know, using my fingers. [Read a few pages aloud.] I know all of the words on these pages, and they're easy words. Also, I notice that there aren't many words on each page. This book seems too easy for me, so I'll put it back in the bin and pick another book."

Put back the first book and take the "too-difficult" book you selected earlier out of the bin. Again, briefly model looking through this book, reading a few pages aloud, and thinking aloud about whether the book interests you and whether it is at the right level for you.

**You might say:**

"The title of this book is *Eleanor*, and the author's name is Barbara Cooney. I'm interested in it because I've read other books by Barbara Cooney and I liked them. Now I'll read a few pages to see if I can understand this book. Just like I did with the first book, I'll pay attention to how many words I don't know, and I'll count those words using my fingers. [Read a few pages aloud.] I counted five words on this page that I don't know: *seldom*, *solemn*, *scene*, *rammed*, and *pitching*. If I skip them, I don't really understand what is happening in the story. I might put this book back for now and try reading it again some other time, or maybe I'll ask someone to read it with me."

Put back the "too-difficult" book and take the appropriately leveled book you selected earlier out of the book bin. Model looking through this book, reading a few pages aloud, and thinking aloud about whether the book interests you and whether it is at the right level for you.

**You might say:**

"This book is *The South Pole* by Nancy Dickmann. By looking at the covers and reading the table of contents, I can tell that this is a nonfiction book about exploring the South Pole. I see that there are chapters about different explorers. This book sounds exciting; I think I might enjoy it. I'll read a few pages, and as I read, I'll count any words that I don't know. [Read a few pages aloud.] I see a long word in this sentence: *trudging*. But I know what that means—*trudging* means 'walking slowly,' the way you might walk when you're tired. Here's an unfamiliar word farther down the page: *telegram*. I don't know what that means, so I'll count that as one word I don't know. Here's a second word I don't know: *amputate*. I'll count that, too. I've reached the end of the page, and there are only two words I don't know. Now I'll ask myself if I understood most of what I read. Yes, I did. That means this is probably a book at the right level for me."

Ask:

**Q** *What did you see me do when I was choosing a book at the right level for me? Turn to your partner.*

Have a few volunteers share their thinking with the class.

**Students might say:**

"I saw you read the title and look at the front and back covers. You thought about whether the book looked interesting."

"Also, you opened the book and read some pages."

"You read a page and counted all the words you didn't know."

"You thought about what you read and asked yourself if you understood it."

Direct the students' attention to the "Choosing a Book at the Right Level" chart and read the title aloud. As volunteers share, record their responses on the chart. Be ready to paraphrase them so that your chart is similar to the example in the diagram below.

### Choosing a Book at the Right Level

1. Look at and read the front and back covers.
2. Read a few pages.
3. Count words you do not know.
4. Check to see if you understand what you read.

#### Teacher Note

You might post the "Choosing a Book at the Right Level" chart in your classroom library for the students to refer to when choosing books during IDR.

Tell the students that you will post the "Choosing a Book at the Right Level" chart where everyone can see it. Explain that the students can refer to it any time they need help choosing a book at the right level to read during IDR.

### **3** Practice Selecting Appropriately Leveled Texts

Organize the students into small groups. Have them bring their current IDR books and sit with their groups. Tell the students that they will now have a few minutes to look through the books they chose earlier and to think about whether these books are at the right levels for them to read independently. Explain that if they decide any books are not right for them, they should put them to the side. In a few minutes, they will have a chance to return these books and choose new books at the right levels.

Give the students a few minutes to look through their books and decide if they are at the right levels. Circulate and provide assistance as needed.

When the students have finished looking through their books, signal for their attention. Distribute one book bin to each group. Have the students return any books they set aside to the bins. Explain that now they will browse quietly through the bins to choose two or three new books at the right levels for them. Remind the students to handle and share the books in a responsible way.

Ask and briefly discuss:

**Q** *What can you do to give each person in your group a chance to choose books from the bin?*

**Students might say:**

"I can take just one book at a time to look at."

"After I take a book, I'll move so that someone else can browse."

"I can put any book that I'm not interested in reading back where I found it."

**Q** *What will you do if someone else is looking at a book that you want to look at?*

**Students might say:**

"I can wait a moment to see if the person puts the book down. Then I can look at it."

"I can look at a different book."

"I can say, 'It's okay. I'll look at that book another time.'"

Have the students browse through the bins and choose two or three books at the right levels for reading independently.

Tell the students that once they have chosen their books, they should begin reading one of them independently. Circulate and observe, helping students as needed.

## 4 Share Books and Reflect

Signal to let the students know when it is time to stop reading. Describe some responsible behaviors you noticed as the students were selecting and reading their books. Tell the students that they will have many opportunities to practice selecting and reading books that are at the right levels for them to read during IDR.

Ask and briefly discuss:

**Q** *What book did you choose? Why is it at the right level for you?*

Invite several volunteers to share their books with the class. Encourage them to say more about how they decided that their books were at the right levels for them.

### **ELL Note**

You might provide the prompt "I chose this book because . . ." to your English Language Learners to help them verbalize their answers to this question.

## Mini-lesson 2

# Self-monitoring and Using “Fix-up” Strategies

### ⌚ DO AHEAD

- ✓ Select an appropriately leveled book to use for modeling “fix-up” strategies (see Step 2 and Step 4). Identify in advance passages that you can use to model the strategies, and think about what you will say. For more information, see “About Self-monitoring and Using ‘Fix-up’ Strategies” below.
- ✓ Prepare a sheet of chart paper titled “‘Fix-up’ Strategies” (see Step 3).
- ✓ Be ready to review the “Thinking About My Reading” chart from Unit 1.

#### Materials

- “Thinking About My Reading” chart
- One book for modeling, prepared ahead
- “‘Fix-up’ Strategies” chart, prepared ahead, and a marker

#### In this lesson, the students:

- Review self-monitoring during IDR
- Learn “fix-up” strategies to help them understand what they read
- Practice using “fix-up” strategies with IDR books
- Reflect on using “fix-up” strategies

### ABOUT SELF-MONITORING AND USING “FIX-UP” STRATEGIES

Self-monitoring is an important metacognitive strategy that enables readers to recognize when they are reading the words of a text but are not thinking about and comprehending it. In Unit 1, the students learn questions they can ask themselves to monitor their comprehension as they read. In this mini-lesson, the students review self-monitoring and learn strategies they can use to repair, or “fix,” their comprehension when they do not understand what they have read. These “fix-up” strategies include going back and rereading the text slowly and carefully, reading on to see if there is information that helps them better understand the text, using context clues to figure out the meaning of unfamiliar words or phrases, employing a comprehension strategy such as visualizing or looking at text features, and asking for help.

#### Teacher Note

You might teach this lesson in multiple sessions, modeling one “fix-up” strategy and then allowing the students to practice it during the first session. Repeat the procedure to teach additional “fix-up” strategies at other times.

### 1 Review Self-monitoring and Introduce “Fix-up” Strategies

Gather the class with partners sitting together, facing you. Remind the students that reading books at the right levels helps them become stronger readers. Direct the students’ attention to the “Thinking About My Reading” chart. Review that one way strong readers know if they are reading books that are right for them is by pausing while they read to

ask themselves questions about what they have read and how well they understand it.

## Thinking About My Reading

What is happening in my book?

Do I understand what I am reading?

Do I know what most of the words mean?

Is this book interesting and fun to read?

Tell the students that there might be times when they ask themselves these questions and realize that they do not understand what they have read. Tell the students that today they will learn some “fix-up” strategies—tools that they can use to “fix” their understanding when they realize they do not understand what they have read.

## 2 Model Rereading and Reading Ahead

Explain that one strategy the students can use when they realize they do not understand what they read is to reread and read ahead. Show the front and back covers of the book you have chosen. Read the title and the names of the author and the illustrator aloud. Ask the students to watch and listen as you model reading, pausing to check your understanding, and then rereading and reading ahead to help you understand what you read. Explain that normally we read silently when we read independently, but that you will read this book aloud so that the students can hear what is happening in the book.

### You might say:

“My book is *Crows! Strange and Wonderful* by Laurence Pringle. [Read a passage aloud and then pause.] I’ll ask myself: Do I understand what I’ve read so far? Do I know what most of the words mean? Although I understand most of what I read, there was one confusing part. The author says that ‘the common crow has relatives all over the world,’ and I’m not sure what ‘relatives’ means. What can I do to figure out what it means? First, I’ll go back and reread the passage slowly and carefully. As I reread, I will look for clues to help me figure out what the confusing part is about. [Reread the passage aloud, slowly and carefully.] After reading the passage again, I notice that the author is describing types of crows and where they live. Using that clue, I think that *relatives* might mean ‘other birds who are similar to, or related to, crows.’ That seems to make sense, but to be sure, I’ll read ahead to look for more clues that might help me. [Read a few sentences ahead.] Yes, the next sentence talks about the ‘bird family’ that crows belong to and names birds such as jays and magpies. Now I feel sure that the author is describing other birds that are related to crows. I understand what I’ve read, so I’ll continue reading.”

### 3 Discuss What the Students Noticed and Introduce the “‘Fix-up’ Strategies” Chart

Ask and briefly discuss:

- Q *What did I do when I reread the passage?*
- Q *What did I do when I read ahead?*

**Students might say:**

“When you realized that you didn’t understand something, you went back and reread the passage.”

“You reread the passage really slowly and carefully.”

“You looked for clues in the story to help you understand a word you didn’t know.”

“When you read ahead in the book, you looked to see if there were more clues that might help you.”

As the students share, record their responses on the “‘Fix-up’ Strategies” chart. Be ready to rephrase their responses so that your chart is similar to the example in the diagram below.

#### “Fix-up” Strategies

When you don’t understand what you are reading:

- *Go back and reread slowly and carefully.*
- *Look for clues in the text.*
- *Read ahead to look for more clues or information.*

Direct the students’ attention to the “‘Fix-up’ Strategies” chart and briefly review the strategies. Remind the students that these are some strategies they can use when they realize that they do not understand what they have read.

### 4 Model Using a Reading Comprehension Strategy and Add to the Chart

Tell the students that another “fix-up” strategy they can use when they do not understand what they read is to use one of the comprehension strategies they have learned.

#### Teacher Note

If you are teaching this mini-lesson during Unit 1, prior to the introduction of the “Reading Comprehension Strategies” chart, you might skip Step 4 and wait until a later unit to teach this strategy.

Ask the students to watch and listen as you continue reading from your book, and model using a comprehension strategy to help you understand what you read.

**You might say:**

"I'll continue reading my book. [Read a passage aloud and then pause.] I'll ask myself: Do I understand what I've read? Do I know what most of the words mean? I understand most of what I read, but I'm confused about the several different types of crows described in this passage. How can I help myself understand what I read? I notice some detailed pictures with labels. By studying these text features, I learn that there are three types of crows: the American crow, the fish crow, and the raven. The text features also tell me that the raven is a large bird, the American crow is medium-sized, and the fish crow is smaller. Now I understand what I read about the different types of crows, so I'll continue reading."

Ask and briefly discuss:

**Q** *What did I do when I didn't understand what I read?*

**Students might say:**

"You [used the pictures and labels] to help you understand what you read."

"You [studied pictures with labels, a text feature,] to figure out the confusing part."

"You [used a text feature to help you understand the different types of crows]."

As the students share, record their responses on the "Fix-up" Strategies chart. Be ready to rephrase their responses so that your chart is similar to the example in the diagram below.

## "Fix-up" Strategies

When you don't understand what you are reading:

- Go back and reread slowly and carefully.  
Look for clues in the text.
- Read ahead to look for more clues or information.
- Use a reading comprehension strategy.

### Teacher Note

Model using a comprehension strategy that the students have learned and that is appropriate for the book you have chosen.

## 5 Add “Ask for Help” to the Chart and Prepare to Read Independently

Briefly review the “Fix-up’ Strategies” chart. Tell the students that if they try using these “fix-up” strategies but are still confused about what they are reading, they can ask for help. Add *Ask for help* to the chart.

Explain that if none of these strategies work, the students should consider selecting a different book.

### “Fix-up” Strategies

When you don’t understand what you are reading:

- Go back and reread slowly and carefully. Look for clues in the text.
- Read ahead to look for more clues or information.
- Use a reading comprehension strategy.
- Ask for help.

Ask the students to get their IDR books and find places to sit. Explain to the students that they will read their books silently, pausing to ask themselves the questions on the “Thinking About My Reading” chart. If they realize that they do not understand what they are reading, they will practice using the “fix-up” strategies. Tell them that later they will share their experiences with the class.

## 6 Read Independently and Practice Using “Fix-up” Strategies

Have the students read silently for a few minutes. Remind them to ask themselves the questions on the “Thinking About My Reading” chart and to use “fix-up” strategies as needed. Circulate and observe, assisting students as needed. After a few minutes, signal to let the students know when it is time to stop reading.

**TEKS 6.L.ii**  
Student/Teacher Activity  
Step 6 and Step 7 (all,  
beginning on page 654 and  
continuing on to page 655)

## 7 Reflect on Self-monitoring and Using “Fix-up” Strategies

Ask and briefly discuss:

- Q *What did you notice as you checked your understanding while reading? What questions did you ask yourself?*
- Q *What did you do when you realized that you didn’t understand what you read?*

Review that strong readers pause while reading to check their understanding and use “fix-up” strategies when they realize that they do not understand something they have read. Tell the students that they can refer to the “Thinking About My Reading” chart and the “Fix-up Strategies” chart during IDR or any time they are reading.

# Introducing IDR Conferences

# Mini-lesson 3

## DO AHEAD

- ✓ During this lesson, you will model conferring with a student about a book he is reading independently as the rest of the class observes (see Step 4). Think in advance about the questions you will ask.
- ✓ Make two copies of the “IDR Conference Notes” record sheet for the unit you are currently teaching.

### In this lesson, the students:

- Review procedures and expectations for IDR
- Discuss the importance of IDR conferences
- Learn what happens during an IDR conference
- Practice reading independently
- Reflect on acting responsibly during IDR

### ABOUT IDR CONFERENCES

IDR conferences provide you with opportunities to get to know each student as a reader, talk with individual students about their reading, identify areas of strength, and note areas in which a student needs support. To learn more, see “IDR Conferences” in the Assessment Overview of the *Assessment Resource Book* or view “Setting Up IDR Conferences” (AV29).

### Materials

- Two copies of the “IDR Conference Notes” record sheet for your unit
- “Resource Sheet for IDR Conferences” for your unit, *Assessment Resource Book*

## 1 Gather and Review the Purpose of IDR

Gather the class with partners sitting together, facing you. Remind the students that IDR is a time when each of them reads independently in a book she enjoys. Review that during IDR, the students read books at their own reading levels and practice the reading comprehension strategies they are learning in the *Making Meaning* program. Remind them that the more reading practice they do in books at their independent levels, the stronger they will become as readers.

Tell the students that while they are reading independently, you will meet with one student at a time to talk about the book that he is reading. Explain that these one-on-one meetings are called *conferences* and that today the students will learn more about what happens during a conference.

## 2 Discuss the Importance of IDR Conferences

Explain that during an IDR conference, the students will talk about their books and share whatever thoughts or feelings they have about them. Point out that an IDR conference is also a time when they can share how they feel about themselves as readers. Explain that by conferring with the students about their reading, you can learn about their strengths as readers and talk with them about how they can become even stronger readers.

## 3 Describe an IDR Conference

Tell the students that you will explain what happens during most IDR conferences; afterward, you will model conferring with a student volunteer. Briefly explain what happens during an IDR conference.

### You might say:

"After all of you have chosen books and have begun reading silently, I will ask one student to bring his or her IDR book and confer with me. Let's say that I ask [Leah] to confer with me. She and I will go to a quiet table where we can talk by ourselves. I'll start the conference by asking her to tell me about her book so far. I might also ask why she chose the book and whether or not she likes it. Then I might ask her to read a passage from the book aloud, I might read a passage aloud as she listens, or she and I might take turns reading aloud from her book. Finally, [Leah] and I will talk about the passage and anything else she would like to share about her book."

Tell the students that during an IDR conference, you will write notes to help you remember what book the student is reading and what your discussion is about.

## 4 Model an IDR Conference and Discuss

Tell the students that now you will model an IDR conference. Choose a volunteer and ask her to get her IDR book and sit next to you. Ask the rest of the class to listen respectfully and notice what happens during the conference.

Confer with the student volunteer. As you confer, take notes using an “IDR Conference Notes” record sheet from the unit you are currently teaching (see “Do Ahead”) and refer to the “Resource Sheet for IDR Conferences” as necessary.

After the conference, thank the student volunteer. Ask and briefly discuss:

- Q *What did you notice when [Leah] and I were conferring about this book?*
- Q *What questions do you have about IDR conferences?*

## 5 Discuss Expectations During IDR Conferences

Remind the students that while you are conferring with individual students, the rest of the class will be reading their books independently. Briefly review your expectations for the students during this time.

**You might say:**

“While I am conferring with a student, I expect you to read silently to yourself until I signal for you to stop reading. I also expect you to stay seated and to not walk around the classroom. Finally, please try not to interrupt me as I’m conferring with another student.”

Ask:

- Q *What might you do if you have a question while I am conferring with another student?*

**Students might say:**

“If I have a question, I can quietly ask my partner.”  
“I can write down my question so that I remember it for later.”  
“I can ask you my question later.”

- Q *What might you do if you are having problems with the book you’re reading or if you need a new book?*

**Students might say:**

“If I’m having problems with my book, I can quietly ask my partner.”  
“I can reread the part of the book that is giving me problems.”  
“I can choose another book at my reading level to read.”

Tell the students that they will practice reading independently while you confer with another student. Ask them to keep these expectations in mind as they read.

### Teacher Note

Record your observations on an “IDR Conference Notes” record sheet and refer to the “Resource Sheet for IDR Conferences” as necessary.

## 6 Practice Reading Independently and Reflect

Have the students get their IDR books and begin reading independently. After the students have settled into their reading, select a student to confer with.

After you have completed the conference, signal for the students’ attention. Facilitate a brief discussion about how the students acted responsibly while you were conferring. Ask questions such as:

- Q *What did we do well when we read independently?*
- Q *What can we do to make sure independent reading and IDR conferences go smoothly?*

## Mini-lesson 4

## Reading with Expression

### DO AHEAD

- ✓ Consider pairing your English Language Learners with native English speakers during this lesson, and think in advance about which students to pair.
- ✓ During this lesson, you will model reading aloud “Excerpt from *A Bad Case of Stripes*” (WA1). Practice reading the excerpt both with and without expression and attention to the characters’ emotions (see Step 3).
- ✓ Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print a class set of “Excerpt from *A Bad Case of Stripes*” (BLM1).
- ✓ Collect a variety of fiction books at various levels that the students can use to practice reading with expression (see Step 6).

### Materials

- *A Bad Case of Stripes* from Unit 1
- “Excerpt from *A Bad Case of Stripes*” chart (WA1)
- Class set of “Excerpt from *A Bad Case of Stripes*” (BLM1)

### In this lesson, the students:

- Hear part of a familiar book read aloud fluently
- Discuss how paying attention to characters’ personalities and emotions helps them read fluently
- Practice reading aloud with expression and attention to characters’ personalities and emotions
- Work responsibly in pairs
- Reflect on the importance of reading fluently

## ABOUT READING FLUENCY

*Fluency* is the ability to read text accurately, automatically, and with expression. Students who read fluently have made the leap from word-by-word processing of text to smoother, more natural-sounding reading (when reading aloud and when reading silently to themselves). When students read fluently, they are able to focus on the meaning of what they are reading rather than on reading individual words.

Instruction in strategies for building fluency such as automatic word recognition, meaningful phrasing, pausing for punctuation, and reading with expression can support comprehension and boost students' motivation to read. Fluency instruction is most effective when students are given many opportunities to read and reread texts at an appropriate reading level. Echo and choral reading, partner reading, and presentation/performance experiences (such as Readers' Theater and dramatic reading) offer meaningful ways for the students to interact with texts and develop fluency.

### 1 Review *A Bad Case of Stripes*

Gather the class with partners sitting together, facing you. Show the cover of *A Bad Case of Stripes* and read the title and the name of the author aloud. Remind the students that they heard this book earlier. Page through the book, showing the illustrations to help the students recall the story. Ask and briefly discuss:

**Q** *What do you remember about this book?*

#### Students might say:

"It's about a girl named Camilla. She is always worried about what other people think of her."

"Camilla loves lima beans, but she pretends to hate them because she doesn't want the kids at school to think that she's strange."

"On the first day of school, Camilla gets a bad case of stripes. No one knows what to do. Camilla tries lots of different medicines, but she keeps getting worse."

"Finally Camilla says that she does like lima beans. When she eats some, the stripes go away."

If necessary, briefly review the story. Tell the students that today you will read part of *A Bad Case of Stripes* aloud and that you would like them to listen carefully to how you read the words of the story.

### 2 Introduce the Excerpt

Show pages 3–4 of the book and explain that this is the part of the story in which Camilla discovers that she is covered in stripes. Display the "Excerpt from *A Bad Case of Stripes*" chart (WA1), and tell the students that this is an excerpt from the pages of the story you just showed them.

#### Teacher Note

You might teach this lesson in multiple sessions, teaching Steps 1–4 during the first session and Steps 5–6 at another time.

**TEKS 4.A.ii**

Student/Teacher Narrative  
Step 3 on page 660 and Step 6  
on page 663

Explain that you will read the excerpt aloud in two different ways. Ask the students to listen carefully as you read and to think about what they notice during your first reading and what they notice during your second reading.

### 3 Read the Excerpt With and Without Expression and Discuss

Read the excerpt aloud twice. The first time you read, read expressively and let your voice reflect the characters' personalities and emotions. The second time you read, do not read expressively.

After you have read the excerpt aloud twice, ask:

**Q** *What did you notice about the two ways I read the excerpt?*

**Students might say:**

"The first time you read it, it was more exciting."

"The first time, you made your voice sound upset when Camilla was talking, like she couldn't believe what happened to her."

"I noticed that you made Mrs. Cream sound different from Camilla the first time you read."

"The second time, I noticed that you read all the words the same way. It wasn't as interesting. It also wasn't as easy to understand what was happening."

Tell the students that the first time you read, you paid attention to the characters' personalities (what they are like as people) and their emotions (feelings).

Direct the students' attention to the "Excerpt from *A Bad Case of Stripes*" chart. Point to the sentences "'Oh my heavens!' she cried. 'You're completely covered with stripes!'" Explain that when Mrs. Cream first sees Camilla, she screams and is completely surprised by her daughter's stripes, so you read that part in a loud, surprised voice to express Mrs. Cream's feelings.

Point to the sentences "Mrs. Cream felt Camilla's forehead. 'Do you feel all right?' she asked." Explain that in this part of the excerpt, Mrs. Cream is worried about Camilla's health, so you made your voice express her concern and anxiety. Tell the students that when you pay attention to the characters' emotions and personalities and express them in your reading, we say you are reading with *expression*, or feeling.

Explain that reading with expression helps you read fluently. When you read *fluently*, you read in a way that makes a story interesting and easy for listeners to understand. Tell the students that fluent readers use their voices to show the personality of a character, or what the character is like, and how he or she is feeling.

Point out that during your second reading of the excerpt, you did not read with expression, which made the excerpt less interesting and more difficult for listeners to understand.

## 4 Reread the Excerpt with Stops and Discuss

Direct the students' attention back to the "Excerpt from *A Bad Case of Stripes*" chart. Tell the students that you will reread the excerpt and that you will stop twice during the reading to discuss what the students noticed about the way you read the excerpt. Ask them to follow along as they listen and to think about Camilla's and Mrs. Cream's personalities and how they are feeling. Read the excerpt aloud expressively, letting your voice reflect the characters' personalities and emotions as you read and stopping as described below.

Stop after:

"'I feel fine,' Camilla answered, 'but just look at me!'"

Ask and briefly discuss:

**Q** *How do you think Camilla is feeling in this part of the excerpt? How did the way I read the words help you know that?*

**Students might say:**

"I think Camilla is feeling confused and upset. You made your voice sound really upset when you read Camilla's words."

"In addition to what [Louise] said, you made your voice sound scared and worried, too. Camilla is someone who worries a lot about what other people think, and I could hear that in your reading."

Reread the last line before the stop and continue reading the excerpt.

Stop after:

"'You get back in bed this instant,' her mother ordered."

Ask and briefly discuss:

**Q** *How do you think Mrs. Cream is feeling in this part of the excerpt? How did the way I read the words help you know that?*

**Students might say:**

"I think Mrs. Cream has made a decision. You read the words in a voice that sounded like Mrs. Cream has made up her mind that Camilla is really sick and needs help."

"I think Mrs. Cream might be like Camilla—she worries what other people will think about Camilla's weird stripes. The way you read the words made me think that."

Continue reading to the end of the excerpt. After the reading, review that you read the excerpt with expression—using your voice to express the characters' personalities and how they are feeling. Point out that you paid attention to the words in the excerpt that describe how the characters speak, such as *screamed*, *cried*, and *ordered*, and that you used those words to make your reading expressive. Underline *screamed*, *cried*, and *ordered* on the chart.

### Teacher Note

You might explain that fluent readers also use punctuation marks to help them read expressively. Point out the sentences "'You're completely covered with stripes!'" and "'[J]ust look at me!'" in the excerpt. Explain that readers put emotion, such as excitement, anger, or fear, into their voices when they read a sentence that ends with an exclamation point. Point to the question mark in the sentence "'Do you feel all right?'" in the excerpt, and explain that readers should also read a sentence that ends with a question mark as though they are actually asking a question.

### Teacher Note

If your students have experience with partner reading, you might consider skipping the modeling in this step.

Review that when fluent readers read aloud to others or to themselves, they use their voices to express the characters' personalities and how they are feeling. Tell the students that reading fluently is important because it helps readers better understand and enjoy books.

## 5 Model Partner Reading and Have the Students Practice Reading with Expression

Distribute a copy of "Excerpt from *A Bad Case of Stripes*" (BLM1) to each student. Explain that the students will take turns reading the excerpt aloud to each other in pairs.

Ask the students to watch and listen as you model reading with a partner. Choose a volunteer to be your partner and ask him to sit next to you. Tell the students that you will read the first two paragraphs of the excerpt aloud with expression and that your partner will follow along on his copy of the excerpt and listen carefully. Then have your partner read the same part of the excerpt aloud as you follow along and listen carefully.

Point out that you and your partner read aloud slowly and clearly, followed along with the words in the excerpt, and listened carefully. Remind the students to pay attention to what the characters are like and how they are feeling to help them read expressively.

Have partners take turns reading the entire excerpt aloud to each other. Circulate and assist students as needed. After partners have taken turns reading the excerpt, ask and briefly discuss:

**Q** *What did you notice about your reading when you read the excerpt with expression?*

#### Students might say:

"I slowed down because I was paying more attention to the characters' feelings and thinking about how to express them in my reading."

"As I read, I changed my voice so that what Camilla says sounded different from what her mother says."

**Q** *What did you notice about how your partner read?*

#### Students might say:

"When my partner was reading, I could really tell the difference between the characters."

"I noticed that her reading was fun to listen to. I liked it."

If time permits, you might invite a few volunteers to read the excerpt aloud to the class.

## 6 Read IDR Books with Expression and Discuss

Have the students get their IDR books and sit with their partners. Ask each student to take a few minutes to look through his book and find one or two pages in which a character is feeling happy, sad, angry, curious, confused, or another emotion. Then have the students read their chosen pages silently, paying attention to the characters' feelings and personalities. Circulate and assist students as needed.

After a few minutes, signal for the students' attention. Have partners take turns reading their pages aloud to each other with expression. Ask the students to read in voices that are loud enough for them and their partners to hear, but not so loud that their classmates cannot hear themselves read.

After partners read their pages aloud to each other, ask and briefly discuss:

**Q** *What did you like about hearing your partner read his or her book with expression?*

### Students might say:

"I liked the way my partner changed his voice to make the character sound very happy when he was reading."

"I liked it when my partner used different voices for each character's words."

"I liked it because it made the book sound more interesting. It helped me understand how the character feels."

Remind the students that reading with expression is part of becoming a fluent reader. Review that reading fluently is important because it helps readers better understand and enjoy books.

Encourage the students to practice reading with expression when they read during IDR or any time they are reading.

### Teacher Note

If a student does not have a fiction IDR book, allow her to select one from the fiction books you collected in advance.

**DO AHEAD**

- ✓ Consider pairing English Language Learners with native English speakers during this lesson, and think in advance about which students to pair.
- ✓ During this lesson, you will use the “Excerpt from *Shattering Earthquakes*” chart (WA2) to model reading aloud. Practice reading the excerpt aloud both with and without meaningful phrasing and attention to the natural rise and fall of your voice (see Step 3).
- ✓ During this lesson, you will use the “Excerpt from *Shattering Earthquakes*” chart (WA2) to model chunking, marking it up to indicate how you might read it aloud with meaningful phrasing. Think in advance about how you will mark up the excerpt (see Step 4).
- ✓ Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print a class set of “Excerpt from *Shattering Earthquakes*” (BLM2).
- ✓ Collect a variety of nonfiction books at various levels that the students can use to practice reading in meaningful phrases (see Step 7).

**Materials**

- *Shattering Earthquakes* from Unit 2
- “Excerpt from *Shattering Earthquakes*” chart (WA2)
- Class set of “Excerpt from *Shattering Earthquakes*” (BLM2)

**In this lesson, the students:**

- Hear part of a familiar nonfiction book read aloud fluently
- Discuss how grouping words into meaningful phrases helps them read fluently
- Practice reading aloud in meaningful phrases
- Work responsibly in pairs
- Reflect on the importance of reading fluently

**ABOUT READING FLUENCY**

*Fluency* is the ability to read text accurately, automatically, and with expression. Students who read fluently have made the leap from word-by-word processing of text to smoother, more natural-sounding reading (when reading aloud and when reading silently to themselves). When students read fluently, they are able to focus on the meaning of what they are reading rather than on reading individual words.

Instruction in strategies for building fluency, such as automatic word recognition, meaningful phrasing, pausing for punctuation, and reading with expression, can support comprehension and boost students' motivation to read. Fluency instruction is most effective when students are given many opportunities to read and reread texts at an appropriate reading level. Echo and choral reading, partner reading, and presentation/performance experiences (such as Readers' Theater and dramatic reading) offer meaningful ways for the students to interact with texts and develop fluency.

## 1 Review *Shattering Earthquakes*

Gather the class with partners sitting together, facing you. Show the cover of *Shattering Earthquakes* and read the title and the names of the authors aloud. Remind the students that they heard this nonfiction book earlier. Page through the book, and show the photographs and illustrations to help the students recall what they learned. Ask and briefly discuss:

**Q** *What do you remember about this book?*

### Students might say:

"It's all about earthquakes. It tells what they are and how they happen."

"I remember learning that many earthquakes happen each year. Most are so small that people can't feel them."

"In addition to what [Ramesh] said, I remember seeing photos of different places after earthquakes happened. There were big cracks in the roads and buildings that had fallen down."

"I remember learning that Earth's surface is made of big rocky plates. Earthquakes can sometimes happen when plates push against each other and then suddenly move and shake."

If necessary, briefly review the book. Tell the students that today you will read part of *Shattering Earthquakes* aloud and that you would like them to listen carefully to how you read the words in the book.

## 2 Introduce the Excerpt

Show page 4 of the book, and tell the students that this section explains what an earthquake is. Display the "Excerpt from *Shattering Earthquakes*" chart (WA2), and point out that this is an excerpt from the page of the book you just showed them.

Explain that you will read the excerpt aloud in two different ways. Ask the students to listen carefully as you read and to think about what they notice during your first reading and what they notice during your second reading.

### Teacher Note

You might teach this lesson in multiple sessions, teaching Steps 1-5 during the first session and Steps 6-7 at another time.

**TEKS 4.A.i**

**Student/Teacher Narrative**

**Step 3**

(second, third, and fourth paragraphs, first Teacher Note in green margin, and "Students might say" note)

**Teacher Note**

Students who do not read fluently may use rushed or halted phrasing. Having the students hear and discuss examples of proper and improper phrasing helps build their awareness of what fluent reading sounds like.

**TEKS 4.A.iii**

**Student/Teacher Narrative**

**Step 4 and Step 5**

(all, beginning on page 666 and continuing on to page 667)

**Teacher Note**

We suggest using single slash marks to indicate shorter pauses that occur mid-sentence and double slash marks to indicate longer pauses at the end of sentences.

**3 Read the Excerpt With and Without Attention to Phrasing and Discuss**

Read the excerpt aloud twice. The first time you read, read smoothly, grouping words into logical, meaningful phrases and allowing the natural rise and fall of your voice to reflect the phrasing.

The second time you read, group words and phrases in ways that are illogical and unnatural, and read in a choppy manner, rushing some words and phrases while reading others in a halting, word-by-word fashion. Keep the pitch of your voice relatively flat.

After you have read the excerpt aloud twice, ask:

**Q** *What did you notice about the two ways I read the excerpt?*

**Students might say:**

"The first time, your reading sounded smooth. It was easy to understand, like you were talking to us."

"The second time, you kept stopping in places that sounded strange. Sometimes you read the words too fast."

"I agree with [Leilani]. The second time you kept starting and stopping in weird places."

"The second time, I couldn't understand what you were reading."

Tell the students that the first time you read the excerpt, you grouped words together into phrases that made sense in the excerpt and that sounded natural, as if you were talking. Explain that grouping words together into meaningful phrases when you read is called *chunking* and that this is something fluent readers do. Tell the students that chunking can make their reading smoother, more natural sounding (like speech), and easier for readers to understand.

Point out that during your second reading, you did not think about chunking, or grouping, words into meaningful phrases; instead, you focused on just one word at a time and did not think about its meaning in the excerpt as you read. Explain that this made your reading less fluent—or slow and choppy in some parts of the excerpt and rushed in other parts. It also made your reading more difficult for listeners to understand.

**4 Model Chunking the Excerpt**

Direct the students' attention back to the "Excerpt from *Shattering Earthquakes*" chart. Tell them that you will think aloud and model chunking the excerpt so that it makes sense and sounds natural when you read it aloud. Explain that as you read, you will insert slashes to show which groups of words you might chunk into meaningful phrases.

**You might say:**

"I will read the first sentence aloud and think about how to chunk it in a way that makes sense and sounds natural, as if I were talking. I'll try putting a single slash after the word *reading* because I think that I might pause there in the sentence. Since this pause is very short, I used just one slash. I'll put double slash marks at the end of the sentence after the period because that's where I pause for long enough to let listeners know that the sentence has ended. Now I'll read the sentence aloud: 'Imagine you are reading/ at a table./.'/ Listening to myself read the sentence, I think it sounds choppy. I don't think that I naturally pause after the word *reading*. I think the sentence might sound better if I read it as one chunk. I'll try that instead: 'Imagine you are reading at a table./.'/ Yes, that sounds more natural to me.

Now I'll read the next sentence aloud and think about chunking it in a way that makes sense. I'll try this: 'You notice that the clock and your glass are beginning to wobble./.'/ But listening to myself read, I notice that I actually pause very briefly after the phrase *You notice*. I'll put a single slash after the word *notice* and try reading the sentence again: 'You notice/ that the clock and your glass are beginning to wobble./.'/ Now the sentence sounds less rushed and more natural to me.

I'll try chunking the next sentence like this: 'Then/ you hear/ a rumbling sound, like an airplane flying above the house./.'/ I don't think that sounds natural. The first half of the sentence sounds choppy, and the second half sounds rushed. I don't need all those pauses in the first half, and I think I'll try paying more attention to the comma in the second half. I'll chunk the sentence differently this time and use the comma as a clue: 'Then you hear a rumbling sound,/ like an airplane flying above the house./.'/ That sounds better to me. I think reading the sentence like that makes it easier for listeners to understand."

Continue thinking aloud and modeling to the end of the excerpt. As you model, invite volunteers to suggest ways to chunk sentences and discuss their thinking with the class.

## 5 Reread the Excerpt with Attention to Phrasing and Discuss

Tell the students that you will reread the chunked excerpt fluently. Ask them to follow along as they listen and to think about what they notice about your reading.

Reread the marked-up "Excerpt from *Shattering Earthquakes*" chart fluently, attending to phrasing and allowing the natural rise and fall of your voice to reflect the phrasing.

Ask and briefly discuss:

**Q** *What did you notice about the chunked words on the chart?*

### Teacher Note

To ensure that your reading sounds natural and fluent, we suggest that you do not over-emphasize the brief (single-slash) pauses that occur mid-sentence and do not coincide with commas. Instead, use the natural rise and fall of your voice to subtly indicate these very short pauses.

### Teacher Note

You might point out that you changed your voice, letting it go slightly up or slightly down, as you read the chunked words. Tell the students that this is something fluent readers often do and that it is part of what makes their reading sound natural, like speech. Encourage the students to experiment with changing the pitch of their voices as they read aloud later in the lesson.

### Teacher Note

If your students have experience with partner reading, you might consider skipping the modeling in this step.

#### TEKS 4.A.i

Student/Teacher Activity  
Step 6 and Step 7  
(all, beginning on page 668 and continuing on to page 669)

#### TEKS 4.A.iii

Student/Teacher Activity  
Step 6  
(all, beginning on page 668 and continuing on to page 669)

#### Students might say:

"I noticed that some chunks were short and only had a few words. Other chunks were longer."  
"I noticed that whenever there is a comma or a period, there is a slash."

If necessary, point out that some chunks have just a few words while other chunks have more words. Explain that the length of each chunk depends on the meaning of the words, whether the words sound natural when they are chunked together, and the presence of punctuation such as commas and periods. Then ask:

**Q** *What did you notice about my voice as I read?*

#### Students might say:

"Your reading sounded like you were talking."  
"I noticed that you paused when you reached a slash. When you reached a double slash mark, you paused longer."  
"I noticed that when you got to the end of a chunk, you stopped for a second. Sometimes your voice got lower at the end of a chunk."

Explain that when fluent readers read aloud, they may try chunking a sentence in several different ways and then ask themselves which way makes sense and sounds the most like regular speech.

## 6 Model Partner Reading and Have the Students Practice Reading with Attention to Phrasing

Distribute a copy of "Excerpt from *Shattering Earthquakes*" (BLM2) to each student. Tell the students that they will take turns reading the excerpt aloud to each other in pairs.

Ask the students to watch and listen as you model reading with a partner. Choose a volunteer to be your partner and ask him to sit next to you. Tell the students that you will read the first paragraph of the excerpt fluently, grouping the words into meaningful phrases, and that your partner will follow along on his copy of the excerpt and listen carefully. Then have your partner read the first paragraph of the excerpt aloud as you follow along and listen carefully.

Point out that you and your partner read aloud slowly and clearly, followed along with the words in the excerpt, and listened carefully. Remind the students to pay attention to how they and their partners group the words into meaningful phrases or chunks.

Have partners take turns reading the entire excerpt aloud to each other. Circulate and assist students as needed. After partners have taken turns reading the excerpt aloud to each other, ask and briefly discuss:

**Q** *What did you notice about your reading when you grouped the words into chunks?*

**Students might say:**

"I noticed that my reading sounded smoother."

"As I read, I tried to think about how to chunk words in ways that made sense and sounded like talking."

"I let my voice go up and down as I read, and it sounded better."

"I noticed that I didn't rush through my reading. I slowed down, and it sounded better."

**Q** *What did you notice about how your partner read?*

**Students might say:**

"When my partner was reading, I could really understand what was happening in the story."

"I noticed that her reading was easy to listen to. I liked it."

If time permits, you might invite a few volunteers to read the excerpt aloud to the class.

## **7** Read IDR Books with Attention to Phrasing and Discuss

Have the students get their IDR books and sit with their partners. Ask each student to take a few minutes to look through his book and find a passage he is interested in reading. Then have the students read their chosen passages silently, paying attention to how they might chunk the words into meaningful phrases. Circulate and assist students as needed.

After a few minutes, signal for the students' attention. Have partners take turns reading their pages aloud to each other, chunking the text as they read. Ask the students to read in voices that are loud enough for them and their partners to hear, but not so loud that their classmates cannot hear themselves read. Tell partners to listen carefully to each other because you will ask them to share what they noticed with the class.

After partners read their pages aloud to each other, ask and briefly discuss:

**Q** *What did you notice when you were reading and chunking the words into meaningful phrases?*

**Q** *What did you notice about how your partner read?*

Remind the students that chunking, or grouping words into meaningful phrases when they read, is part of becoming a fluent reader. Review that reading fluently is important because it helps readers better understand and enjoy books.

Encourage the students to practice chunking when they read during IDR or any time they are reading.

### **Teacher Note**

If a student does not have a nonfiction IDR book, allow her to select one from the nonfiction books you collected in advance.

**Materials**

- “Let’s Race” chart (WA3)
- Class set of “Let’s Race” (BLM3)
- “Word-analysis Strategies” chart, prepared ahead, and a marker

**Teacher Note**

You might teach this lesson in multiple sessions, teaching Steps 2 and 3 and allowing the students to practice those strategies during the first session, and then teaching the remaining steps of the lesson at another time.

**DO AHEAD**

- ✓ Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print a class set of “Let’s Race” (BLM3).
- ✓ Prepare a sheet of chart paper with the title “Word-analysis Strategies.” See Step 3.

**In this lesson, the students:**

- Learn word-analysis strategies to figure out the meanings of unfamiliar words
- Practice word-analysis strategies during IDR
- Reflect on using word-analysis strategies

**ABOUT WORD-ANALYSIS STRATEGIES**

During this lesson, the students are introduced to word-analysis strategies they might use to help them determine the meanings of unfamiliar words when reading independently. At grade 4, the lesson focuses on using a known prefix or suffix and base word, using known Greek or Latin roots, and using context clues to verify that a meaning makes sense. If you have introduced your students to word-analysis strategies during small-group reading instruction that are different from those suggested here, you can adapt this lesson to reflect your earlier instruction.

**1 Introduce Using Word-analysis Strategies**

Gather the class with partners sitting together, facing you. Remind the students that they are reading books independently during IDR to help them become stronger readers.

Tell the students that while they are reading independently, they might come across *unfamiliar* words, or words whose meanings they do not know. Explain that today the students will learn strategies to help them *analyze*, or carefully study, unfamiliar words to figure out their meanings.

**2 Model Identifying Prefixes, Suffixes, and Base Words**

Display the “Let’s Race” chart (WA3), and distribute a copy of “Let’s Race” (BLM3) to each student. Read the title aloud and explain

that this is a fictional passage about a young bicyclist. Tell the students that you will read the passage aloud. Ask them to follow along as you read and to notice what you do when you come to unfamiliar words in the passage.

Read the first paragraph of “Let’s Race” aloud slowly and clearly. Pause when you come to the word *awkwardly* and circle it on the chart. Model figuring out its meaning by identifying a known suffix and base word.

**You might say:**

“Here’s an unfamiliar word. What can I do to figure out what it means? I’ll begin by looking carefully to see if I recognize any parts of the word. Yes, this word has an ending I recognize: *-ly*. This is a *suffix*, a letter or group of letters that is added to the end of a word to make another word. I know that the suffix *-ly* means ‘in a certain way.’ Do I recognize any other parts of the word? Looking again, I see that the remaining part is actually the word *awkward*, which means ‘clumsy.’ So this unfamiliar word is the word *awkward* combined with the suffix *-ly*. Together they make the word *awkwardly*, which means “in an awkward or clumsy way.” Does that meaning make sense in the passage? I’ll reread to see if it does. Yes, it does make sense because Trevon almost bumped into the rider next to him as he stopped. That sounds like an awkward or clumsy thing to do.”

Read the rest of the first paragraph and continue on to the second paragraph of the passage. Pause when you come to the word *inactivity* and circle it on the chart. Model figuring out its meaning by identifying a known prefix and base word.

**You might say:**

“Here’s another unfamiliar word. I’ll look carefully at it to see if I recognize any parts of the word. First I notice the letters *in-* at the beginning. These letters form a *prefix*, a letter or group of letters added to the beginning of a word to make another word. I know the prefix *in-* can mean ‘not’ or ‘no.’ Do I recognize any other parts of the word? Yes, I recognize *activity*. *Activity* means ‘movement or being active,’ and so I think *inactivity* probably has the opposite meaning: ‘no movement’ or ‘not being active.’ Does that make sense when I reread the paragraph? Yes, because it says this is Trevon’s first race in months. He fell off his bike back in March and hasn’t been active since then.”

Continue reading the second paragraph. Pause when you come to the words *nervously* and *indecisive*, and circle them on the chart. Model figuring out the meaning of each word by identifying a known prefix or suffix and base word.

**You might say:**

"Here's another unfamiliar word: *nervously*. I'll look carefully at it to see if I recognize any parts of the word. First I notice the suffix *-ly*, which means 'in a certain way.' Then, looking at the rest of the word, I recognize *nervous*. *Nervous* means 'worried' or 'anxious,' and so I think that *nervously* must mean 'in a nervous or worried way.' Does that make sense when I reread the sentence? Yes, because Trevon is feeling scared and anxious about competing in the race. It makes sense that he would ask himself this question in a nervous, worried way.

This word is unfamiliar to me, too: *indecisive*. Do I recognize any parts of the word? I notice the prefix *in-*, which means 'not' or 'no.' Then, looking at the rest of the word, I recognize *decisive*. When a person is decisive, it means she can make decisions easily. Based on this, I think *indecisive* means 'not able to make decisions easily.' Does that make sense when I reread? Yes, because Trevon is feeling very unsure. He is having trouble deciding whether or not he wants to race."

### 3 Discuss the Modeling and Introduce the "Word-analysis Strategies" Chart

After you have read the first two paragraphs, ask and discuss:

 **Q** *What did I do to analyze the unfamiliar words and figure out their meanings? Turn to your partner.*

After partners have discussed the question, direct the students' attention to the "Word-analysis Strategies" chart and read the title aloud. Have a few volunteers share their thinking with the class.

**Students might say:**

"First, you looked carefully at each word. You asked yourself if you recognized any parts of the word."

"When you looked at *awkwardly*, the first part you recognized was the suffix *-ly*. When you looked at *inactivity*, you recognized the prefix *in-*."

"You used the parts you recognized to figure out the unfamiliar word's meaning. Then you asked yourself if the meaning made sense in the sentence."

As the students share, record their responses on the chart. Be ready to paraphrase them so that your chart is similar to the example in the diagram on the next page. If necessary, review the strategies you used to figure out the meanings of the unfamiliar words.

#### Teacher Note

If you are teaching the vocabulary lessons, you might remind the students of other prefixes and suffixes they have learned or vocabulary words that contain familiar base words.

## Word-analysis Strategies

Look carefully at the word. Ask yourself:

- Do I recognize any parts of the word?
- Look for a prefix or suffix you know.
- Look at the part of the word to which the prefix or suffix is added. Ask yourself: Is this part a word I recognize? Do I know its meaning?
- Use what you know about the parts of the word to figure out its meaning.
- After you have figured out the meaning of the word, reread the sentence(s). Ask yourself: Does the meaning make sense?

### 4 Model Identifying a Root and Add to the Chart

Tell the students that you will continue reading the passage. Ask them to continue noticing what you do when you come to unfamiliar words.

Read the third paragraph of “Let’s Race” aloud. When you reach the word *circuit*, point to it and tell the students that this word is unfamiliar to you. Circle it on the chart, and model figuring out the meaning of the word by identifying a known root.

#### You might say:

“This word is unfamiliar to me. As I did before, I’ll look to see if I recognize any parts of the word. I recognize *circ*, which is a root—a word or part of a word that’s used to make other words. I know that *circ* is a root that came to English from Latin, a language that was spoken by the people of ancient Rome. *Circ* means ‘circle’ or ‘ring.’ I can use what I know about the meaning of this root, combined with clues from the surrounding sentences, to figure out what *circuit* means. During the race, the riders go around a circuit. Knowing that *circ* means ‘circle’ or ‘ring,’ I think that a *circuit* is probably a circular racecourse or track. Does that make sense when I reread this part of the passage? Trevon’s friend Max says, ‘You go once around the circuit, and that’s it. Just one loop.’ A loop is round like a circle or a ring, so I think this meaning of *circuit* makes sense.”

### Teacher Note

You will add an additional strategy to the chart in Step 4. Leave space in your chart to do this, as shown in the sample diagram.

**TEKS 3.C.iii**  
Student/Teacher Narrative  
Step 4 and Step 5  
(all, beginning on page 673 and  
continuing on to page 675)

After you have read the third paragraph, ask and briefly discuss:

**Q** *What did I do to figure out the meaning of circuit? Turn to your partner.*

After partners have discussed the question, direct the students' attention to the "Word-analysis Strategies" chart. Have a few volunteers share their thinking with the class.

**Students might say:**

"First you looked carefully at the word *circuit* to see if you recognized any parts of it."

"You recognized a root, *circ*. You knew the meaning of *circ* was 'circle' or 'ring.'"

"You used the meaning of *circ* and clues in the passage to figure out the meaning of *circuit*."

"After you figured out the meaning, you asked yourself if it made sense in the passage, and it did."

### Teacher Note

If you are teaching the vocabulary lessons, you might remind the students of other Greek or Latin roots they have learned.

Using the students' responses, add a strategy about recognizing roots to the chart. Be ready to paraphrase so that your chart is similar to the example in the diagram below.

### Word-analysis Strategies

Look carefully at the word. Ask yourself:

- Do I recognize any parts of the word?
- Look for a prefix or suffix you know.
- Look at the part of the word to which the prefix or suffix is added. Ask yourself: Is this part a word I recognize? Do I know its meaning?
- Ask yourself: Does this word contain a root? Do I know its meaning?
- Use what you know about the parts of the word to figure out its meaning.
- After you have figured out the meaning of the word, reread the sentence(s). Ask yourself: Does the meaning make sense?

Briefly review the chart, pointing to each strategy as you read it. Remind the students that these are things they can do to figure out words they do not know when they are reading independently.

## 5 Have Partners Practice the Strategies

Tell the students that now partners will read the last three paragraphs of the passage together using their copies of “Let’s Race” (BLM3). Remind the students that if they come across an unfamiliar word, they can use the ideas on the “Word-analysis Strategies” chart to figure out its meaning.

Give partners a few minutes to read and discuss the last three paragraphs. Circulate and observe, assisting students as needed.

When most students are finished, signal for their attention. Have one or two volunteers take turns reading the final paragraphs aloud. Then discuss as a class:

- Q *Did you and your partner come across an unfamiliar word? If so, what was the word?*
- Q *What did you do to figure out the meaning of the word?*

### Students might say:

“We looked carefully at the word to see if we recognized any parts of it.”

“We looked for a prefix or suffix to see if we could find one that we recognized. We noticed the prefix *in-* in the word *invisible* and the suffix *-ly* in *mysteriously*.”

“Recognizing the root *circ* in the word *encircled* helped us figure out the word’s meaning. Then we reread the sentence to make sure the meaning made sense.”

As volunteers share, point out the strategies they used on the “Word-analysis Strategies” chart.

## 6 Practice Using Word-analysis Strategies During IDR

Ask the students to get their IDR books and find places to sit. Explain that they will read quietly for a few minutes. Encourage the students to use the strategies on the chart to help them figure out the meanings of unfamiliar words in their books. Explain that later they will have a chance to share any strategies they used with the class.

Have the students read their IDR books quietly for a few minutes. Circulate and assist students as needed.

### Teacher Note

If the students do not identify any unfamiliar words, point to and circle the word *gradually* on the chart. Ask and briefly discuss, “What might you do if you come to this word and you don’t know what it means?” In the same way, you might discuss some of the following words in the final paragraphs: *injustice*, *passionately*, *invisible*, *circus-like*, *mysteriously*, *encircled*.

## 7 Reflect on Using Word-analysis Strategies

Signal for the students' attention. Ask and briefly discuss:

**Q** *Were there any words in your book that were unfamiliar to you? What did you do to figure out their meanings?*

Tell the students that using word-analysis strategies to figure out the meanings of unfamiliar words will help them become stronger readers and better understand and enjoy books.

Tell the students that they can refer to the “Word-analysis Strategies” chart when they read during IDR or any time they are reading.

# Appendix B

## TECHNOLOGY MINI-LESSONS

### Navigating Safely Online

### Mini-lesson 1

#### DO AHEAD

- ✓ Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the digital citizenship family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ Prepare a sheet of chart paper with the title “Our Digital Citizenship Contract” and the class rules for staying safe online (see Step 4).
- ✓ Find out if your school has an acceptable use policy that the students and their families need to sign before the students can use computers. Be prepared to review the policy with the students in Step 4.
- ✓ (Optional) You might set up a class website and create an online version of the “Our Digital Citizenship Contract” chart and other useful lists or information.

#### In this lesson, the students:

- Work in pairs
- Learn and use the term *digital citizen*
- Compare staying safe online to staying safe in the real world
- Reflect on class rules for staying safe online

#### ABOUT DIGITAL CITIZENSHIP LESSONS

In Technology Mini-lessons 1-3, the students think about and discuss how to use the Internet in safe, secure, and respectful ways. The lessons culminate in the students signing “Our Digital Citizenship Contract,” which lists rules and agreements for responsible online behavior at school. After each lesson, the students are encouraged to share what they learned with their families and to create similar rules and agreements for online behavior when not at school. If possible, plan to teach all three digital citizenship lessons in order before the students do projects that involve online work.

#### Materials

- “Our Digital Citizenship Contract” chart, prepared ahead, and a marker
- Copy of the digital citizenship family letter (BLM1) for each student

## 1 Gather and Discuss Going Online

Gather the class with partners sitting together, facing you. If possible, have current *Making Meaning* partners work together. Tell the students that during the school year, they will have opportunities to use the Internet in various ways. Remind them that the Internet is a worldwide network of computers that millions of people use every day to search for information, visit websites, and send e-mail. Using the Internet, or going online, connects the students to the world and allows them to find interesting facts and information. Ask and briefly discuss:

**Q** *What kinds of things do you like to do online?*

## 2 Introduce Digital Citizenship

Tell the students that just as they need to be responsible citizens in real life by following rules and treating people well, they also need to be responsible citizens when they are online. When they go online to connect with people or to find information, they are participating in a kind of community. Being responsible and making good choices in this community is known as being a *good digital citizen*. Tell the students that one way to be a good digital citizen is to follow certain online safety rules.

## 3 Compare Staying Safe Online to Staying Safe in the Real World

Explain that staying safe when going online can be similar to staying safe in the real world. Ask the students to listen as you describe the following scenario aloud:

“Marco wants to go to his friend Leo’s house to play. He and Leo live in the same neighborhood and Marco knows how to get there, so he asks for permission to walk there on his own. Marco’s mom says yes and reminds him to stay safe and be careful.”

Point out that Marco asks for permission before he walks to Leo’s house. This helps him stay safe because his mom knows where he is going. Ask and briefly discuss:

**Q** *What might Marco do to stay safe while walking to Leo’s house? How will that keep him safe?*

**Students might say:**

"Marco should walk on sidewalks and look both ways before crossing the street."

"Marco should go straight to Leo's and not stop anywhere else along the way. That way he won't get lost."

Then use "Think, Pair, Share" to discuss:

**Q** *How might going online be similar to going for a walk in your neighborhood?* [pause] *Turn to your partner.*

Have a few volunteers share their thinking.

**Students might say:**

"You can visit a lot of different places when you go online, and there might be places that aren't safe to go to."

"The Internet is a really big place, and it's easy to get lost if you don't know where you're going."

"You don't want to talk to people you don't know."

If the students do not mention it, point out that there are countless numbers of websites on the Internet, so it is important to know what to look for and what to avoid. Explain that just as it is important to know where to turn when walking to a friend's house, it is important to know which websites are safe to visit and which ones should be avoided. Just as you would not share private information with people you do not know on a walk to a friend's house, it is important that you do not share private information with people you do not know online. Point out that just as you would tell an adult if you noticed anything suspicious on a walk, it is important to tell an adult if you notice anything suspicious online. It is also important to ask for help whenever you need it.

## 4 Introduce Class Rules for Staying Safe Online

Explain that this year the students will have opportunities to go online at school and that today they will discuss the rules they need to follow to stay safe. Post the chart titled "Our Digital Citizenship Contract" where everyone can see it, and read each rule to the class.

### Teacher Note

You may want to give the students specific examples of ways they will use the Internet at school this year.

### Teacher Note

You may want to explain that *downloading* means “copying files, games, or applications from the Internet onto your computer, tablet, or smartphone.”

### Teacher Note

If your school has an acceptable use policy that students and their families need to sign before the students can use the computers, review it with the students and confirm that the settings on the search engines on your school’s computers are set to “Strict,” “Safe,” or a comparable mode.

### Teacher Note

Save the “Our Digital Citizenship Contract” chart to use in Technology Mini-lesson 2. If you have not already done so, you might set up a class website (see “Do Ahead”) and create an online version of the chart.

## Our Digital Citizenship Contract

We will get permission before going online.

We will ask the teacher or a responsible adult before going to an unknown website.

We will ask the teacher or a responsible adult for help if we come across any information that is confusing or makes us uncomfortable.

We will ask the teacher or a responsible adult before downloading anything from the Internet.

We will ignore advertisements and pop-ups.

We will leave computer and search settings alone.

We will follow all school computer rules.

## 5 Reflect on Online Safety Rules

Use “Think, Pair, Share” to have the students discuss how the rules will help keep them safe online by asking questions such as:

 **Q** *Why do you think [asking a teacher or a responsible adult before going to an unknown website] is important? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class.

### Students might say:

“We should ask a teacher before going to a new website because the teacher will know whether or not it’s a safe site to visit.”

“We should ask because the teacher or an adult might know a website that is better or more helpful for us.”

Then ask:

**Q** *What else might we do to stay safe online? Why do you think that?*

As the students share, add their ideas to the chart.

Explain that you would like the students to pledge, or promise, to follow these rules for staying safe online. Tell them that in coming lessons they will discuss other ways to be good digital citizens and add them to the chart.

## 6 Discuss Staying Safe Online When Not at School

Tell the students that you would like them to discuss with their families the rules for online safety they learned today, and encourage them to come up with similar rules for staying safe online when they are outside of school.

Plan to check in with the students throughout the year to discuss how they are doing with following the online safety rules.

### Teacher Note

Send home with each student a copy of the digital citizenship family letter (BLM1).

### Teacher Note

Have the class help you list ideas for favorite child-friendly websites on a sheet of chart paper. Post the list where everyone can see it, and add an online version to your class website. Give the students time to explore the websites on the list, and continue to add new ones throughout the year.

# Maintaining Privacy Online

## Mini-lesson 2

### DO AHEAD

- ✓ Add the online privacy rules to the “Our Digital Citizenship Contract” chart (see Step 4). Cover the new rules with another sheet of paper until you introduce them in Step 4.

#### In this lesson, the students:

- Work in pairs
- Recognize when it is appropriate to share private information
- Reflect on class rules for online privacy

## 1 Review Staying Safe Online

Gather the class with partners sitting together, facing you. If possible, have current partners work together.

Remind the students that they have been thinking about what it means to be a good digital citizen. In the previous lesson, they learned that staying safe online is a lot like staying safe in the real world. Direct their attention to the “Our Digital Citizenship Contract” chart (with the privacy rules covered) and briefly review the safety rules the students have learned for using the Internet.

### Materials

- “Our Digital Citizenship Contract” chart from Technology Mini-lesson 1 with privacy rules added, and a marker

### Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 1).

### Teacher Note

Keep the online privacy rules in the last three lines covered until you introduce them in Step 4.

## 2 Introduce Maintaining Privacy Online

Tell the students that another way to be a good digital citizen is to follow certain online privacy rules, or rules for keeping private information safe. Explain that following these rules will help protect both themselves and their computers when they are online.

## 3 Discuss When to Share Private Information

Tell the students that the kind of information that is important to keep private online can be similar to the kind of information that is important to keep private in real life. Ask them to listen as you describe the following scenario:

“Lauren can’t wait to go to the baseball game with her family. She loves baseball and knows everything about it. When she and her family get to the stadium, Lauren is the first to enter the aisle of seats and sits next to someone she doesn’t know. The person she sits next to is also a huge baseball fan, so during the game, they talk about their favorite baseball teams and the best games they’ve ever seen.”

Ask and briefly discuss:

- Q *Do you think it is appropriate (OK) for Lauren to share information about her favorite team and games with the person sitting next to her? Why?*
- Q *Imagine that Lauren’s new friend asks her for her [e-mail address]. Do you think that would be appropriate? Why or why not?*

### Teacher Note

You might mention that in some cases it may be OK to share a *handle* or online nickname (e.g., “brightshadow” or “hamsterbunny”) if it does not reveal private information.

Remind the students that they should not choose handles and usernames that give away personal information, such as their real names, ages, or locations (e.g., “chloe94501” or “Audrey2006”). Students should also choose passwords that are hard to guess. Many people choose passwords that are easy to remember, such as “12345,” “password,” or their pet’s name—but these are easy for strangers to guess or figure out. Search online using the keywords “kid’s random password generator” or “kid’s username generator” to find free tools to create strong passwords and usernames.

### Students might say:

“I think it is fine for her to share her favorite team. They’re just making conversation about baseball.”

“There’s no reason for Lauren to share her e-mail address. She doesn’t know the person well.”

“I’d be suspicious if someone I didn’t know asked me for my e-mail address. I don’t think it would be OK for Lauren to share that information.”

Then use “Think, Pair, Share” to discuss questions such as:

-  Q *How is sharing [your favorite baseball team] with someone you don’t know different from sharing [your e-mail address or your phone number]? [pause] Turn to your partner.*
- Q *Do you think it is a good idea to share [your computer password] with someone you don’t know? Why do you think that? [pause] Turn to your partner.*

Have a few volunteers share their thinking. Explain that contact information, such as your name, address, phone number, and e-mail

address, and information such as computer passwords and usernames are *private*; they should be shared only with people you know and trust. Explain that personal photos and videos are also private information. Tell the students that just as they do not share private information with people they do not know in real life, they should not share private information with people they do not know online.

#### 4 Introduce Class Rules for Online Privacy

Ask and briefly discuss:

**Q** *Have you ever been asked to share information about yourself online? If yes, what kind of information?*

**Students might say:**

"I have to enter my password to check my e-mail."

"I go to a kids' website that asks for my e-mail address and password."

"One video game site I like asks for my age."

Tell the students that to protect themselves and their computers they should never share private information about themselves, their families and friends, or their computers when they are online. Explain that when they use the Internet at school, they will need to follow certain privacy rules. Direct their attention to the "Our Digital Citizenship Contract" chart and uncover the rules that you added to it.

Read each rule to the class.

### Our Digital Citizenship Contract

*We will get permission before going online.*

*We will ask the teacher or a responsible adult before going to an unknown website.*

*We will ask the teacher or a responsible adult for help if we come across any information that is confusing or makes us uncomfortable.*

*We will ask the teacher or a responsible adult before downloading anything from the Internet.*

*We will ignore advertisements and pop-ups.*

*We will leave computer and search settings alone.*

*(continues)*

(continued)

We will follow all school computer rules.

We will keep personal contact information private.

We will keep sign-in information (such as usernames and passwords) private.

We will keep personal photos and videos private.

## 5 Reflect on Online Privacy Rules

Use “Think, Pair, Share” to discuss why each rule is important. Ask:

**Q** *Why do you think it’s important to [keep your contact information, passwords, and photos private] when online? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class.

### Students might say:

“If you share your e-mail address on a website, you should know what the people are going to use it for. They might just want to sell you something.”

“Giving someone your password is like giving them the keys to your house. They can get in and see all your stuff.”

“It’s hard to know if you can trust someone you’ve never met.”

Ask:

**Q** *What other privacy rules might we want to add to the chart? Why do you think that?*

As the students share, add their ideas to the chart.

Explain that you would like the students to pledge, or promise, to follow the online privacy rules, just as they did with the online safety rules. Remind them that agreeing to use the Internet in safe and secure ways will help them be good digital citizens. State your expectation that the students will try their best to act according to the rules on the contract when they are online at school.

## 6 Discuss Maintaining Online Privacy When Not at School

Tell the students that you would like them to discuss with their families the online privacy rules they learned today. Encourage them to come up with similar rules for maintaining privacy online outside of school. Plan to check in with the students throughout the year to discuss how they are doing with following the online privacy rules.

### Teacher Note

Save the “Our Digital Citizenship Contract” chart to use in Technology Mini-lesson 3. If you have added the chart from Mini-lesson 1 to your class website, update it to include today’s new rules.

# Showing Respect in Digital Communications

## Mini-lesson 3

### In this lesson, the students:

- Work in pairs
- Compare online interactions with face-to-face interactions
- Generate classroom agreements for showing respect in digital communications
- Copy and sign the “Our Digital Citizenship Contract”

### 1 Review Digital Citizenship

Gather the class with partners sitting together, facing you. If possible, have current partners work together.

Remind the students that they have been talking about how to stay safe and maintain privacy while using the Internet. Briefly review the “Our Digital Citizenship Contract” chart and ask:

**Q** *How can these rules help you stay safe and maintain privacy online?*

Tell the students that today they will talk about ways to show respect to one another in digital communications.

### 2 Discuss Being a Respectful Community Member

Remind the students that this year, they have been focusing on building a community in which they treat one another with respect, and point out ways you have observed them being respectful.

#### You might say:

“I’ve noticed that you share materials with other students and that you listen well to the person who is speaking. I’ve also noticed how you use kind words when talking with one another. You also give respectful and helpful feedback to your partners.”

Ask and briefly discuss:

**Q** *What are other ways you show one another respect?*

#### Students might say:

“If someone has a different opinion from mine, I respect it.”  
“I treat everyone like I would want to be treated.”  
“I don’t gossip about other people.”

### Materials

- “Our Digital Citizenship Contract” chart from Technology Mini-lesson 2 and a marker
- Lined paper for each student

### Teacher Note

Plan to teach this lesson soon after teaching the first two technology mini-lessons (see Technology Mini-lesson 1 and Technology Mini-lesson 2).

### Teacher Note

If you have established class norms for respectful behavior, you may want to review them.

### 3 Compare Digital and Face-to-face Communications

Explain that communicating with people digitally is similar to communicating with people face-to-face—with some very important differences. Point out ways the students have interacted (communicated) or might interact with one another online this year, such as by e-mailing, texting, or by posting a comment on a class blog or website. Then use “Think, Pair, Share” to discuss questions such as:

-  **Q** *How is [e-mailing a friend] similar to [talking to a friend at school]? How is it different? [pause] Turn to your partner.*
- Q** *What do you think is the most important difference between digital and face-to-face communications? Why do you think that? [pause] Turn to your partner.*

#### Students might say:

“If you’re texting or chatting online, you can’t see the other person’s face, and it’s hard to tell how he feels. You might accidentally write something that hurts his feelings.”

“When you’re talking to a friend face-to-face, it’s just the two of you. But when you’re posting a comment on your friend’s blog, everyone can read what you write.”

“The biggest difference is that when people are online, they might not care as much about being respectful because they don’t think they will ever meet the person they are interacting with.”

“Sometimes it’s easier for people to write mean things in an e-mail than it is to say mean things face-to-face. They forget there’s a real person on the other end.”

“If you write something mean online, it’s harder to take your words back. That’s different from when you are face-to-face. Once you say something mean online, it’s out there forever.”

If necessary, point out to the students that they often cannot see the person they are interacting with digitally, so it is easy to forget that they are communicating with a real person who has feelings. They cannot see the person’s facial expressions or body language, so it is difficult to tell how that person is reacting to their texts, e-mails, or comments. This means that the students need to pay special attention to the tone of their writing to make sure their messages are clear and respectful. Also point out that, as good digital citizens, they need to be respectful even when they do not know the person they are interacting with online.

### 4 Generate Ideas for Being Respectful in Digital Communications

Tell the students that you want them to develop a set of agreements for respectful online behavior to add to the “Our Digital Citizenship Contract” chart. Explain that you would like them to begin by thinking

about and discussing a few situations. Use “Think, Pair, Share” to discuss:

- Q** *Students from another class have posted their published stories on the school website, and the teacher asks you to read and comment on them. How can you show respect in your comments? [pause] Turn to your partner.*
- Q** *In a class blog, I ask you to post your opinions about whether or not kids should be allowed to play certain video games. Different members of the class have very different opinions on the topic. How might you show respect in your posts? [pause] Turn to your partner.*
- Q** *You are researching online for a class project about rattlesnakes. You come across a blog on rattlesnakes written by a student you’ve never met. As you read it, you find inaccurate (wrong) information and decide to point this out in a comment. What might you do before posting your comment? [pause] Turn to your partner.*

Have a few volunteers share their ideas with the class, and write them where everyone can see them. As the students share, facilitate a discussion by asking questions such as:

- Q** *Why is [rereading what you wrote before posting a comment] important?*
- Q** *How will [thinking about how the other person might feel] help you be respectful?*

## 5 Decide on Agreements and Add to the Contract

Have the class review the ideas you recorded, and together decide on a list of four or five statements that describe the way they want to treat one another online and that they can all agree upon. These statements are called *agreements*.

Ask questions such as:

- Q** *Can we combine any of these ideas into one agreement? If so, which ones?*
- Q** *Is there anything else we should add to this list? What is it?*

### Students might say:

“I think we can combine ‘not gossiping online’ with ‘not making fun of someone’s opinion.’ We could just say that we will respect others’ feelings.”

“We can combine ‘imagine the person is sitting across a table from you’ and ‘picture how the person might react.’ We can just say that we will remember that we are talking to real people online.”

Continue the discussion until everyone agrees on the list, and then add the agreements to the “Our Digital Citizenship Contract” chart.

Remind the students that agreeing to use the Internet in safe, secure, and respectful ways will help them be good digital citizens. State your expectation that the students will try their best to act according to the rules and agreements on the contract when they are communicating digitally at school.

### Teacher Note

If necessary, restate the class agreements positively, and record them as “We will . . .” statements. For example:

- *We will always use respectful language in our writing.*
- *We will reread what we write before we text, e-mail, or post a comment.*
- *We will think about others’ feelings before we post a comment.*
- *We will remember there is a real person on the other end of the computer.*
- *We will choose to be respectful with all the people we communicate with online, whether we know them or not.*

### Teacher Note

This discussion might require another class period. Reaching agreement may mean deleting, combining, or modifying ideas on the list.

If you have added the “Our Digital Citizenship Contract” chart to your class website, update it to include the new rules.

### Teacher Note

Post the “Our Digital Citizenship Contract” chart near the classroom computer(s) for the students to refer to when they go online throughout the year.

### Teacher Note

Throughout the year, review the students’ commitment to being good digital citizens, and check in regularly to see how they are doing. You may decide to modify or add to the class contract as needed.

## 6 Have Students Copy and Sign the Contract

Have the students return to their desks. Distribute a sheet of lined paper to each student. Explain that you would like them to write down the entire “Our Digital Citizenship Contract” chart. Then have them sign the contract.

## 7 Discuss Digital Citizenship When Not at School

Tell the students that you would like them to bring the contract home and discuss it with their families. Encourage them to work together with their families to come up with similar agreements for staying safe, maintaining privacy, and showing respect in digital communications when they are outside of school.

## Mini-lesson 4

## Choosing Effective Search Terms

### DO AHEAD

- ✓ Prior to teaching this lesson, make sure that each student (or pair of students, if the students are working in pairs) has selected an appropriate topic to research and generated a few research questions.
- ✓ Become familiar with a few search engines and decide which one you will use for this lesson (see the Teacher Note in Step 1).
- ✓ Check that the preferences on the search engine you select to use with the class have been set to “Strict,” “Safe,” or a comparable setting.
- ✓ Prepare a chart with the title “How to Turn a Research Question Into a Search Query” (see Step 3).
- ✓ (Optional) You might set up a class website and create an online version of the “How to Turn a Research Question Into a Search Query” chart and other charts.

### Materials

- Whiteboard with a search engine displayed, prepared ahead
- Chart paper and a marker
- Lined paper for each student
- “How to Turn a Research Question Into a Search Query” chart, prepared ahead
- Students’ research notes, prepared ahead

### In this lesson, the students:

- Work in pairs
- Learn and use the terms *search engine*, *search term*, and *search query*
- Identify the best terms for an effective search query

## ABOUT TEACHING THE ONLINE RESEARCH LESSONS

Technology Mini-lessons 4-7 are designed to support the students as they conduct online research. The students learn how to write effective search queries, understand the results of online searches, narrow their search results and use filters, and evaluate the credibility of the sources they find. These lessons assume that each student (or pair of students) has already selected a topic to research and generated research questions. The students will use their topics to practice the online research skills they learn.

The skills taught in Technology Mini-lessons 4-7 build on one another, so plan to teach them in order and at corresponding stages in the students' research. For example, teach Technology Mini-lesson 4, "Choosing Effective Search Terms," after the students have identified a research topic, and teach Technology Mini-lesson 7, "Evaluating Research Sources," after the students have searched for and collected several online sources.

### 1 Introduce Searching for Information Online

Have the students bring their pencils and notes about their research topics (see "Do Ahead") and sit with partners together, facing the whiteboard. If possible, have current *Making Meaning* partners work together.

Remind the students that during the school year they have opportunities to use the Internet for various reasons. Point out that one reason they might use the Internet is to research, or search for information about, a topic. Review that the students have already selected research topics and thought about specific questions related to their topics that they might research.

Tell the students that today they will learn how to use a search engine to find information on the Internet. Explain that a *search engine* is a web-based tool that searches the Internet using words you type into a search bar. Finding the information you are looking for requires knowing how to choose the best words, or *search terms*, to type into a search engine.

### 2 Model Choosing Best Terms for a Search Query

Direct the students' attention to the search engine displayed on the whiteboard, and point to the search bar where search terms are entered. Explain that good researchers start with a research question and then identify words within the question to use for their search. For example, if you are researching elephants and want to know more about where elephants live, you might start with the research question, "Where do elephants live?"

#### Teacher Note

Many search engines are available, including some that are intended for students' use. You may already have a preferred search engine that you use most often. Spend some time becoming familiar with a few search engines and decide which one you will use for this lesson.

Write the question on a sheet of chart paper where everyone can see it (see the diagram below). Explain that you will use the question to help you identify a set of words, or search terms, for your search and that the set of search terms you choose is called a *search query*.

Explain that a search query tells a search engine what information is needed. Search queries are not usually complete sentences because they use only words directly related to the topic of the search. Ask the students to listen carefully as you model changing the question “Where do elephants live?” into a search query.

**You might say:**

“I know I need the word *elephants* because elephants are the animals I am researching, and I need *live* because it is the specific information about elephants that I want. So *elephants* and *live* are my search terms—I am going to circle them. I don’t need the words *where* and *do* because they don’t say anything about the information I need, so I will cross them out. Now I have the words *elephants* and *live*, but what I really want to know is the natural environment elephants prefer to live in, so maybe I should change the word *live* to *habitat*. [Cross out *live* and write *habitat* above it.] I think that will help. Now I have the words *elephants* and *habitat*. I’ll cross out the *s* in *elephants*, so my search query will be *elephant habitat*.”

Type the search query into the search engine’s search bar and display the results. Read some of the results aloud. Use “Think, Pair, Share” to discuss:

 **Q** *How useful do you think these search results will be for the research topic?*  
[pause] *Turn to your partner.*

If needed, point out any results that directly address your research topic.

### **3** Choose Best Terms for a Search Query

Distribute lined paper to each student. Explain that the students will follow the same procedure to turn a different research question into a search query. Post the chart titled “How to Turn a Research Question Into a Search Query” where everyone can see it, and read each step aloud.

#### **Teacher Note**

After discussing the search query results with the students, you may want to demonstrate how changing the order of the words in your search query affects the search results.

## How to Turn a Research Question Into a Search Query

1. Write down your research question.
2. Circle the words you definitely need.
3. Cross out unnecessary words.
4. Add or substitute more specific words if needed.
5. Decide in what order to write the words.

Direct the students' attention back to the chart paper on which you recorded the research question "Where do elephants live?" Under that question, write *What do elephants like to eat?* and have the students copy it onto their sheets of paper. Ask partners to read the question carefully and follow the steps on the "How to Turn a Research Question Into a Search Query" chart to decide on a search query.

Circulate and observe. If necessary, direct the students' attention to the chart and remind them to follow each step. Review that queries use only words directly related to the research question.

When most pairs have finished, signal for the students' attention and have a few volunteers share their queries with the class.

Remind the students that a search query tells a search engine exactly what information to search for about a research topic.

### 4 Continue Online Research

Explain that the students will use what they learned today in their own research. Have them look at their notes and identify any questions they have about their research topics. Invite them to use the "How to Turn a Research Question Into a Search Query" chart to write queries about their topics.

When the students have demonstrated that they know how to choose effective search terms, see Technology Mini-lesson 5 to teach them how to understand their search results.

#### Teacher Note

The students may decide on a search query such as *foods elephants eat, elephant diet, or favorite elephant foods.*

#### Teacher Note

Save the "How to Turn a Research Question Into a Search Query" chart to post as needed later.

You might also want to create an online version of this chart and add it to your class website (see "Do Ahead") for students to refer to anytime during their online research.

#### Teacher Note

If your school has an acceptable use policy, review it with the students.

# Mini-lesson 5

# Understanding Search Results

## TEKS 9.F.ii

Student/Teacher Narrative  
Technology Mini-lesson 5 (all,  
beginning on page 692 and  
continuing on to page 697)

### Materials

- Whiteboard with search results displayed, prepared ahead
- Chart paper and a marker
- “Common Domain Suffixes” chart, prepared ahead
- “Web Address and Snippet Example” chart (WA1)
- Students’ research notes
- “Evaluating Search Results” chart (WA2)
- “Evaluating Search Results” (BLM2)

### Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 4). You may want to briefly review the previous lesson before starting this one.

## DO AHEAD

- ✓ Read Steps 2 and 3 of the lesson to familiarize yourself with the features of a search results page and of web addresses.
- ✓ Type the query *elephant habitat* into a search engine and have the search results page ready to display on the whiteboard in Step 2.
- ✓ Prepare a sheet of chart paper with the title “Common Domain Suffixes” and add the explanations shown in the diagram (see Step 4).
- ✓ Identify a few examples of websites with the domain suffixes from the “Common Domain Suffixes” chart (for example, .com, .edu, .gov, .org) and bookmark them to display on the whiteboard in Step 4.
- ✓ Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print a class set of “Evaluating Search Results” (BLM2).

### In this lesson, the students:

- Work in pairs
- Learn and use the terms *search result*, *web address*, *domain suffix*, and *snippet*
- Explore the features of a search results page
- Learn key parts of web addresses
- Identify potentially useful sites for their research topics

## 1 Introduce Search Results Page

Have the students bring their research notes and pencils and gather with partners sitting together, facing the whiteboard.

Review that the students can use an Internet search engine to find information about a research question and that, in the previous lesson, they learned how to choose search terms for a query. Remind the students that a well-written query uses only words that are directly related to the research question.

Explain that today the students will discuss the page that lists the results of a query and learn how to decide which websites to use in their research.

## 2 Discuss Features of a Search Results Page

Display the search results page you prepared ahead. Review that this is the page that appeared when you typed the query *elephant habitat* into

the search bar. Explain that this page is called the *search results page*. Tell the students that a search results page will look different depending on the search engine you use, but that all search results pages have features in common.

Point to the list of web pages in the main column and explain that these web pages are the search results—in this case, sources of information about elephant habitats. Explain that a web page is part of a website and that most websites have more than one web page. Tell the students that they will look more closely at the websites later.

Point to any advertisements on the page and explain that advertisements are often marked with the words *ads* or *sponsored results* and are frequently listed in the left- or right-hand column or at the top or bottom of the page. Tell the students that when they are doing research, they should ignore the advertisements. Ads are trying to sell something and, for that reason, they are not a good source of information about a research topic.

Next, point out the filters, which are often found across the top of the search results page or in the left-hand panel. Explain that *filters* are search tools that let you control the type of search result that will be displayed on the page. Tell the students they will learn about filters in another lesson.

Direct the students' attention back to the list of web pages in the main column of the page and review that these are the *search results*, or sources of information, you might explore to learn about elephant habitats. Choose one of the search results and point to the first line. Tell the students that this is the *title* of the web page. Explain that any search terms (the words *elephant* and *habitat*) that happen to appear in the title are in bold type.

Point to the web address and explain that the *web address* tells exactly where a specific web page is located online. Explain that on many search results pages, the web address is located underneath the title.

Point to the line or lines of text below the web address. Tell the students that this small piece of text is taken directly from the web page and is called a *snippet*. As in the web title, any search terms that appear in the snippet are in bold type. Explain that the snippet may provide clues to help the students figure out if a web page will be useful to them.

If the students need more practice understanding the parts of an individual search result, choose one or two more search results from the search results page to review with the class.

### 3 Identify Parts of a Web Address

Tell the students that anyone can post information on the Internet, so not all of what they find will be useful or reliable for research. Good researchers know how to look for clues about the type of information that a source, such as a website, will provide in order to choose the best

#### Teacher Note

You might explain that the list of search results is many pages long and that the search engine has organized the list in a particular order. The results that appear on the first page of search results are generally web pages that contain information that relates most directly to the query (in this case, *elephant habitat*). Results that appear on subsequent pages usually contain information that is less directly related to the query. Tell the students that every search engine has a slightly different way of organizing search results but that each uses some kind of ranking system.

#### Teacher Note

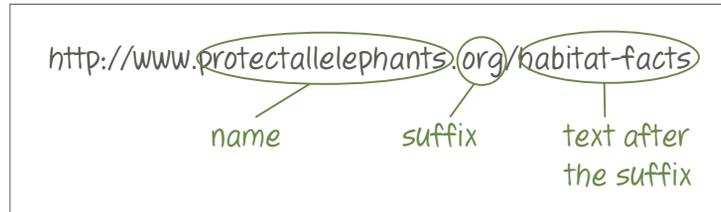

Most search engines provide filters such as *News, Web, Images, Maps, Videos, and Books*.

#### Teacher Note

Most web browsers display under the web address a line or two of text excerpted directly from the suggested web page. This text is called different things in different browsers. For the purposes of these mini-lessons, we will use the term *snippet*.

sources to use for their report. One way to do this is to look at the parts of a web address. Remind the students that a web address tells exactly where a specific website is located online.

Choose one of the web addresses from your search results page and write it on a sheet of chart paper (see the diagram below). Point to the name (the text that follows *http://www* and precedes a suffix such as *.com* or *.org*) and circle it. Ask the students to listen as you describe and label this part of the web address.

**You might say:**

"The name of a website in a web address may give information about the owner of the website, the topic of the site, and whether or not it will help in our research. The name of a website is usually found after the letters *http* and *www*. The name of this site is *protect all elephants*, which means it's probably a website that belongs to a person or group that believes that elephants should be protected. Sometimes there is no *http* or *www* in the web address."

Point to the domain suffix and circle it. Ask the students to continue listening as you describe and label this part of the web address.

**You might say:**

"The domain suffix of a website comes after the name and also gives helpful information about the website. The suffix of this website is *.org*, which tells me that this website probably belongs to a nonprofit organization that helps people or animals or supports other causes by providing education and other resources. In this case, I think the website belongs to an organization that wants to protect elephants."

Point to the letters and numbers after the suffix and circle them. Ask the students to continue listening as you describe and label this part of the web address.

**You might say:**

"Sometimes letters and numbers come after the suffix. These letters and numbers indicate a particular web page in the website. The text after the suffix often gives me clues about the website. This web address tells me that this web page will have facts about elephant habitats. Looking at the name, domain suffix, and text after the suffix makes me think that this website is for people who want to protect elephants and that the web page will help them learn about the elephants' habitats."

Use “Think, Pair, Share” to discuss:

**Q** *Do you think the web pages that are part of the website [www.protectallephants.org] will be useful for my research topic? Why or why not? [pause] Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

**Students might say:**

“I think it will be useful because it looks like it will have facts about where elephants live.”

“Since it’s a website about protecting elephants, it will probably have information about why elephants are in danger. That might be useful, too.”

## 4 Discuss Domain Suffixes

Tell the students that the *domain suffix* identifies the purpose and audience of the website. Explain that there are many different domain suffixes and that it is important to understand what they mean. Post the chart titled “Common Domain Suffixes” where everyone can see it, and read the examples aloud.

### Common Domain Suffixes

- *.com: a commercial website, or a website that buys or sells things*
- *.edu: a website that belongs to an educational institution, such as an elementary school or college*
- *.gov: a government website*
- *.org: a website that often belongs to a nonprofit organization or a group that supports causes by providing education and resources*
- *countries’ domain suffixes: countries sometimes have their own suffixes, for example, China (.cn), the United Kingdom (.uk), Brazil (.br), etc.*

Display some examples of websites with different domain suffixes (see “Do Ahead”), one at a time. As you display each website, point out the domain suffix in the web address and facilitate a brief discussion about the kind of information each site provides. Use “Think, Pair, Share” to discuss questions such as:

-  **Q** *What kind of website is this? What do you think people use it for?* [pause] Turn to your partner.
- Q** *How is this website similar to others you’ve seen? How is it different?* [pause] Turn to your partner.

Remind the students that understanding what a domain suffix means will help them choose the best sources for their research. Explain that they should always ask for help if they are confused or do not recognize a suffix. They will have the chance to add other suffixes to the chart throughout the year.

Remind the students that often web addresses have additional letters and numbers after the suffix. This text can sometimes provide additional clues about the content of the web page.

If the students need more practice understanding domain suffixes and the additional letters and numbers after the suffix, choose one or two more web addresses to discuss with the class.

## 5 Explore a Web Address and a Snippet

Explain that the class will work together to explore a web address and a snippet from your page of search results for the query *elephant habitat*. Remind the students that a *snippet* is a line or two of text taken directly from the web page and that it appears as part of a search result. Display the “Web Address and Snippet Example” chart (🟢 WA1), or substitute a web address and snippet of your choice.

### Web Address and Snippet Example

<http://www.everythingelephantsforyou.com/toys-and-games>

Everything for **elephant** lovers: toys, games, books, **habitat** maps, adventure travel, movies, and more.

WA1

Use “Think, Pair, Share” to discuss:

-  **Q** *What is the [name/domain suffix] of this website? What does it tell you about the kind of site it is?* [pause] Turn to your partner.
- Q** *What does the [text after the suffix/snippet] tell you about the website?* [pause] Turn to your partner.
- Q** *Do you think this site might be helpful for my research? Why or why not?* [pause] Turn to your partner.

**Students might say:**

"The name of the website is 'Everything Elephants for You.' I think it's for people who love elephants. It might even have stuff for sale."

"I agree with [Chloe] that this website is selling things about elephants. The suffix is .com, so I know this site is for a business."

"The text after the suffix tells me that this site sells toys and games."

"The snippet also tells me that this site sells books and maps that show elephant habitats."

"I don't think this website will be helpful for your research. It is mostly about selling stuff related to elephants."

Remind the students that understanding web addresses and snippets will help them decide which sites will be useful for their research topics and which sites they can skip.

If the students need more practice exploring the web addresses and snippets, choose one or two more examples to review with the class. Tell them that you will post the chart of the labeled web address and the "Common Domain Suffixes" chart for use throughout the year.

## 6 Evaluate Search Results

Explain that the students will use what they learned today the next time they go online to find websites for their research topics. Display the "Evaluating Search Results" chart (📄 WA2) and distribute a copy of "Evaluating Search Results" (BLM2) to each student. Read the chart aloud as the students follow along. Ask them to keep these instructions with their research notes. Explain that the next time they use the computer, they will follow these instructions for evaluating their search results.

### Evaluating Search Results

- Choose a query for your research topic.
- Type the query into a search engine and print the first page of results.
- Look at each search result and think about:
  - the parts of the web address (the name, domain suffix, and the text after the suffix).
  - the snippet of text from the web page.
- Circle the sites you think might be good sources of information for your research. Write the reasons you chose these sites.

WA2

When the students have demonstrated that they know how to evaluate their search results, see Technology Mini-lesson 6 to teach them how to narrow their results.

### Teacher Note

If possible, have the students evaluate their search results soon after you teach this lesson.

If you have a class website, you might create online versions of the charts "Common Domain Suffixes" and "Evaluating Search Results."

## Mini-lesson 6

# Narrowing Search Results and Using Filters

### DO AHEAD

- ✓ Type the query *elephant habitat* into a search engine and have the search results page ready to display in Step 2.
- ✓ Prepare a sheet of chart paper with the title “How to Refine Search Queries” and include the steps shown in the diagram (see Step 2).
- ✓ Type the query *African elephants* into a search engine and have the search results page ready to display in Step 3.
- ✓ Familiarize yourself with the filters of the search engine you use, and prepare to model filtering search results in Step 5.
- ✓ Prepare a sheet of chart paper with the title “Filters We Can Use” and include the filters shown in the diagram in Step 6 or list other filters you would like the students to explore this year (see Step 6).

### Materials

- Whiteboard with search results displayed, prepared ahead
- Chart paper and a marker
- “How to Refine Search Queries” chart, prepared ahead
- Lined paper for each student
- “Filters We Can Use” chart, prepared ahead
- Students’ research notes

### Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 5). You may want to briefly review the previous lesson before starting this one.

You might also consider teaching this lesson in multiple sessions. Teach Steps 1-3 in one session and Steps 4-7 at another time.

### In this lesson, the students:

- Work in pairs
- Learn how to refine search terms to narrow a search
- Practice refining search terms to narrow a search
- Learn how to use filters to show certain types of search results
- Explore search engine filtering tools

## 1 Introduce Narrowing a Search

Have the students bring their research notes (including any printed pages of search results) and pencils and gather with partners sitting together, facing the whiteboard.

Briefly review that the students have been using search engines to find information about their research topics on the Internet. Remind them that finding the information they want first requires choosing *search terms*, or the best words for their search. Then they use the search terms to create a search query, which they type into a search engine.

Explain that as the students search online, they will sometimes need to *narrow*, or focus, their searches to find sources with the information they want. Tell the students that today they will learn some ways to narrow a search.

## 2 Model Narrowing a Search by Refining the Search Query

Display the search results page you prepared ahead (see “Do Ahead”). Review that this is the search results page that appeared when you typed the search query *elephant habitat* into the search bar. Point out that the sources in this list of search results give information about the habitats of elephants in general. Write the search query *elephant habitat* on a sheet of chart paper where everyone can see it (see the diagram below).

Tell the students that as you researched your topic, you learned that there are two main types of elephants, the African elephant and the Asian elephant. Explain that now you want to narrow your search to find information specifically about the habitat of Asian elephants. To narrow your search, you will *refine*, or make more specific, the search query by changing the search terms in it.

Ask the students to listen carefully as you model narrowing your search by refining the search query *elephant habitat*.

### You might say:

“The current page of search results shows sources about the habitats of elephants in general. These results are too broad because I only want information about the habitat of Asian elephants. How can I revise the search query *elephant habitat* so that I get search results with the information I am looking for? First I’ll ask myself if I need to delete or change the search terms *elephant* and *habitat* at all. No, I don’t think so, because both of those terms still apply to my search. Next I’ll ask myself what additional words I might add to my search term to make it more specific and focused on the information I want to find. I’ll try adding one word, *Asian*, because I’m interested in Asian elephants. [Add ‘Asian’ to the end of the query.] Now my search query is *elephant habitat Asian*. That is OK, but I think the query would make more sense if I moved *Asian* to the beginning. [Cross out ‘Asian’ at the end of the query and insert it at the beginning.] Now my search query is *Asian elephant habitat*. I think this query will tell the search engine what information I want.”

*Asian elephant habitat* ~~Asian~~

Type the new search query, *Asian elephant habitat*, into the search engine’s search bar and display the results. Read some of the results aloud. Use “Think, Pair, Share” to discuss:

**Q** What do you notice about these search results? How well did the search query *Asian elephant habitat* work to narrow the search results? [pause] Turn to your partner.

### Teacher Note

If necessary, remind the students that a search query is not usually a complete sentence because it uses only words, or search terms, directly related to the topic of the search.

### Teacher Note

The students may decide on search terms such as *African elephants lifespan*, *African elephants years of life*, and *African elephants life*.

After a few volunteers have shared, post the chart titled “How to Refine Search Queries” where everyone can see it, and read each step aloud:

### How to Refine Search Queries

1. Write down your search query and look at the search terms carefully.
2. Ask yourself: Do any of these words no longer apply to my search? If so, change or delete them.
3. Ask yourself: What new words can I add or substitute to make my search more specific? Add any new words.
4. Read your new search terms. Decide in what order to write the words.

### 3 Practice Refining Search Queries

Direct the students’ attention back to the chart paper on which you recorded the search query *Asian elephant habitat*. Write *African elephants* on the next line, and tell the students that this is the search query you used to find information about African elephants. Distribute lined paper to the students and have them write the search term “African elephants.”

Display the search results page you prepared ahead (see “Do Ahead”) and explain that this is the search results page that appears when you type in the search query *African elephants*. Point out that the sources in this list of search results give a wide range of information about African elephants.

Tell the students that you want to narrow your search to focus on how long African elephants live. Use “Think, Pair, Share” to discuss:

**Q** How might you refine the search query African elephants to find only information about how long they live? [pause] Turn to your partner.

Give partners a few minutes to discuss the question and ask them to refine the search query. Circulate and observe. If necessary, direct the students’ attention to the “How to Refine Search Queries” chart and remind them to follow each step.

When most pairs have finished, signal for the students’ attention and invite a few volunteers to share their search terms with the class.

Record the students' search terms on the chart paper. Discuss questions such as:

- Q *What do you notice about [Noor and Hector's] search term?*
- Q *Does their search term make the search narrower and more specific? Why or why not?*

Guide the students to decide as a class which search term they would like to type into the search engine. Then type the new search query into the search engine's search bar and display the results. Read some of the results aloud. Use "Think, Pair, Share" to discuss:

- Q *What do you notice about these search results? How well did the search query [African elephant lifespan] work to narrow the search results? [pause] Turn to your partner.*

Have a few volunteers share with the class.

Briefly direct the students' attention to the "How to Refine Search Queries" chart and remind them that they can use these steps whenever they need to narrow a search.

#### 4 Introduce Filters

Retype the search query *Asian elephant habitat* into the search engine's search bar and display the results. Remind the students that this is the page of search results that appeared when you typed the search query *Asian elephant habitat* into the search engine's search bar and that they saw these search results earlier.

Point to the filters on the page and explain that *filters* are tools that allow you to sort through your search results to see results of a certain type only. Filters let you control the kind of information that will be displayed on the results page. Read the names of the filters aloud. Then ask:

- Q *What kind of information do you think will be displayed if we click the [Videos] filter? What kind of information do you think will be filtered (left) out?*

#### 5 Model Using Filters

Explain that not all search engines provide the same filters but that there are some that frequently appear. You will demonstrate how to use one of these filters, and then the class will work together to explore other filters.

Explain that as part of your research, you would like to find photographs of the habitat of Asian elephants. Tell the students that the Images filter will sort through all of the search results for *Asian elephant habitat* and

then show you only the search results that are images, or pictures. Ask the students to watch and listen carefully as you click the Images filter and demonstrate how to use it.

**You might say:**

"I typed *Asian elephant habitat* into the search bar, and the search engine gave me this page showing all the search results. But I would like to see only the search results that are images because I want only photos that show the habitat of Asian elephants. When I click the Images filter, I get a page showing only the search results that are photos, drawings, maps, and other images.

Looking at the page of images is helpful, but I can filter these search results even more—so that I see only the results that are photographs. To do this, I will click the Photos advanced search filter. The advanced search filters are usually displayed under the main filters or are displayed under the main filters when I click Search Tools. [Click the Photos filter.] That helps a lot. Now I have many photos to choose from. I can focus my results even more by choosing the size of a photo and even a specific color. [Click an image.] When I click an image, I get a link to its source. When I find an image I want to use, I will write the web address down in my research notes so that I will remember where to find it again."

Use "Think, Pair, Share" to discuss:

**Q** *How did the Images filter change the results that were shown?* [pause] Turn to your partner.

**Q** *Do you think these results are useful? Why or why not?* [pause] Turn to your partner.

Have a few volunteers share their ideas with the class.

**Students might say:**

"Using the Images filter let you see only the results that were photos and drawings and other kinds of pictures."

"The Images filter is useful because it's a quick way to look at all the images at once."

"I think there are some photos you might be able to use in your research."

## 6 Practice Using Filters

Explain that the students will practice using other filters to continue searching for specific information about the habitat of Asian elephants. Post the "Filters We Can Use" chart where everyone can see it, and briefly describe each filter listed.

### Teacher Note

You may want to add to this list throughout the year.

## Filters We Can Use

- Images
- Maps
- News
- Videos

Direct the students' attention back to the original search results page, showing all the results for *Asian elephant habitat* on the whiteboard. Use "Think, Pair, Share" to discuss:

**Q** *What filter(s) might I use to see [an Asian elephant moving through its habitat]? [pause] Turn to your partner.*

Have a few volunteers share their ideas. If necessary, explain that the Videos filter might provide examples of Asian elephants moving through their habitat. Click the Videos filter and display the search results. Ask and briefly discuss:

**Q** *How did the Videos filter change the results that were shown?*

**Q** *Do you think these results are useful? Why or why not?*

### Students might say:

"Now the only results on the page are videos."

"I think the results are useful because there are a lot of videos showing Asian elephants in their natural habitat."

"Now you can actually see videos of what Asian elephants are like when they aren't in zoos!"

Use the same procedure to demonstrate how to use the News and Maps filters, or invite volunteers to the whiteboard to practice using the filters. Discuss the results with the class.

Point out that when the students use filters to show only certain types of search results, the results may not always be useful for their research topics. Remind them that good researchers always evaluate and choose their research sources carefully.

Tell the students that you will post the "Filters We Can Use" chart in the classroom for them to use throughout the year.

## 7 Refine Search Queries and Use Filters for Research

Briefly direct the students' attention to the "How to Refine Search Queries" chart and the "Filters We Can Use" chart. Explain that the students can refine search terms to narrow an online search and that they can also use filtering tools to show only certain types of search results.

Encourage the students to look at their research notes and review the search queries they are using to find information online. Ask them to think about how they might refine their search queries to get more useful and more specific results. Also encourage the students to think about any filters they would like to use.

Explain that the next time they use the school computer they will work in pairs to refine their search terms and use filters to get more information for their research topics. Tell the students that they will have an opportunity to print any information that is useful.

When the students have demonstrated that they know how to refine search queries to narrow their search results and how to use filters to show only certain types of results, see Technology Mini-lesson 7 to teach them how to choose credible sources for their research.

### Teacher Note

If possible, have the students practice narrowing their searches and print useful research sources soon after you teach this lesson. Have the students save their printed online sources to use in Technology Mini-lesson 7.

If you have a class website, you might create online versions of the charts "How to Refine Search Queries" and "Filters We Can Use."

### DO AHEAD

- ✓ Prepare a chart with the title “Questions to Ask When Evaluating a Source” and include the labels and questions shown in the diagram (see Step 3).
- ✓ Type the query *elephant habitat* into a search engine and have the search results page ready to display in Step 4.

#### In this lesson, the students:

- Work in pairs
- Evaluate research sources
- Choose credible sources for their research

### 1 Introduce Evaluating Sources

Gather the class with partners sitting together, facing the interactive whiteboard. If possible, have current partners work together.

Point out that many of the students have begun to research their topics on the Internet and are ready to choose sources for their research projects. Remind the students that anyone can post information on the Internet, so it is important to choose their sources carefully. Explain that today the students will learn how to identify sources of information they can trust and use.

### 2 Discuss the Characteristics of a Good Source

Tell the students that the sources they use for their reports should have information that is reliable, current, and accurate. Display the “Characteristics of a Good Research Source” chart (WA3) and briefly discuss each term with the class.

#### Characteristics of a Good Research Source

- reliable: trustworthy or dependable
- current: up-to-date or recently written
- accurate: correct, without mistakes

WA3

#### Materials

- “Characteristics of a Good Research Source” chart (WA3)
- “Questions to Ask When Evaluating a Source” chart, prepared ahead
- Whiteboard with search results displayed, prepared ahead
- Students’ printed online sources from Technology Mini-lesson 6
- “Evaluating Research Sources” chart (WA4)

#### Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 6). You may want to briefly review the previous lesson before starting this one.

Tell the students that in order to determine whether a source is reliable, current, and accurate they need to evaluate, or think carefully about, the source.

### 3 Introduce Questions for Evaluating a Source

Explain that good researchers ask themselves questions about a source when deciding whether or not to use it. Post the “Questions to Ask When Evaluating a Source” chart where everyone can see it. Introduce each set of questions by pointing out the characteristic. Then tell the students to listen as you read each question aloud.

#### Questions to Ask When Evaluating a Source

##### Reliable:

- Who is the author of the page? Is the author an expert? How do I know?
- What is the web address? Is the information from a site that is trustworthy? How do I know?
- Is this website providing information mainly to try to get someone to buy something?

##### Current:

- When was the information written?
- Do the links from the site work, or are they outdated?

##### Accurate:

- Are there sources listed for the information on the page? What are they?
- Can you find other sources with the same information?

Point out that the students will not always find answers to all the questions on the chart but that asking them will help the students decide whether or not the source has information they can trust.

## 4 Model Evaluating a Research Source

Display the search results page you prepared (see “Do Ahead”) and remind the students that this is the results page for the query *elephant habitat*. Click one of the web page results. Read the information on the website aloud and ask the students to listen as you consider whether or not the source is reliable, current, and accurate by answering the questions on the “Questions to Ask When Evaluating a Source” chart.

### You might say:

“First I will answer questions to evaluate whether or not the site is reliable. This page doesn’t list a specific author, but I can tell from the domain suffix *.org* in the web address that the site is probably a nonprofit organization about saving elephant habitats. The site seems to be a source of news and information for people who are interested in elephants, and the site isn’t selling anything, so I think it’s trustworthy. Now I’ll answer questions to decide if the information is current. It doesn’t say when the information was written, but one paragraph refers to the years 2001–2005, which means it’s not very current. [Click other links on the site.] All the links are working, and the information on other pages of this site is current. Last, I will answer questions to see if the site is accurate. There are no sources listed on the site, but I can find some of the same facts and information on a few other websites about elephants. I think I can use the information on this site for my research, but I think it would be good to find sites with more current information, too.”

## 5 Evaluate Research Sources

Explain that the class will work together to evaluate another research source. Display the search results page from Step 4 again, and click another result to display a website.

Read aloud the information on the web page as the students follow along. Then have partners evaluate the reliability of the source by answering the questions under the “Reliable” heading on the “Questions to Ask When Evaluating a Source” chart. After a moment, have volunteers share what they discussed with the class.

### Students might say:

“The author’s name was hard to find. It’s all the way down at the bottom of the page.”

“The domain suffix is *.edu*, which means that it is part of a school or university. That makes me think the site is trustworthy.”

“The website is a news and information site for kids, and there are no ads trying to sell stuff, so I think it’s trustworthy.”

### Teacher Note

If possible, have the students use computers to evaluate their research sources online soon after you teach this lesson.

If you have a class website, you might create an online version of the chart “Questions to Ask When Evaluating a Source.”

In the same way, have partners continue evaluating the source by answering the questions under the “Current” and “Accurate” headings on the chart.

**Q** *Do you think this is a good source to use for my research project? Why or why not?*

**Q** *What other questions might be important to add to the “Questions to Ask When Evaluating a Source” chart? Why do you think that?*

Add the students’ suggestions to the chart and explain that you will post the chart in the classroom for the students to use throughout the year.

## 6 Continue Evaluating Sources

Have the students return to their seats with partners sitting together. Ask them to spend a few moments gathering the sources they printed for their topics. Display the “Evaluating Research Sources” chart (WA4) and have partners work quietly together for 10–15 minutes to evaluate their printed sources. Explain that the next time the students use the school computers, they can evaluate the sources online by checking links or looking for additional sources with the same information.

WA4

### Evaluating Research Sources

- Read the information on the page carefully.
- Read the questions on the “Questions to Ask When Evaluating a Source” chart and write down any answers you find.
- Write down whether you think the source is reliable, current, and accurate and include reasons why.

# Appendix C

## GRADE 4 READ-ALoud TEXTS

Unit	Lesson	Title	Author	Format	Genre/Type
1	Week 1	<i>A Bad Case of Stripes</i>	David Shannon	picture book	fiction
1	Week 1	<i>The Old Woman Who Named Things</i>	Cynthia Rylant	picture book	realistic fiction
1	Week 2	<i>Song and Dance Man</i>	Karen Ackerman	picture book	realistic fiction

# Appendix D

## READ-ALoud TEXTS ACROSS THE GRADES

### Kindergarten

Title	Author/Source
<i>A Baby Duck Story</i>	Martha E. H. Rustad
<i>A Baby Penguin Story</i>	Martha E. H. Rustad
<i>Brave Bear</i>	Kathy Mallat
<i>Brave Norman: A True Story</i>	Andrew Clements
<i>Cat's Colors</i>	Jane Cabrera
"Cats"	Eleanor Farjeon
"Charlie Needs a Cloak"	Tomie dePaola
<i>Cookie's Week</i>	Cindy Ward
<i>A Day in the Life of a Zookeeper</i>	Nate LeBoutillier
<i>Doctors Help</i>	Dee Ready
<i>Dolphins</i>	Kate Riggs
<i>Flower Garden</i>	Eve Bunting
<i>Friends at School</i>	Rochelle Bunnett
<i>Getting Around By Plane</i>	Cassie Mayer
<i>A Harbor Seal Pup Grows Up</i>	Joan Hewett
<i>I Was So Mad</i>	Mercer Mayer
<i>If You Give a Mouse a Cookie</i>	Laura Joffe Numeroff
<i>A Letter to Amy</i>	Ezra Jack Keats
<i>Maisy's Pool</i>	Lucy Cousins
<i>The Moon</i>	Martha E. H. Rustad
<i>My Friends</i>	Taro Gomi
<i>On the Go</i>	Ann Morris
<i>A Porcupine Named Fluffy</i>	Helen Lester
<i>Pumpkin Pumpkin</i>	Jeanne Titherington
<i>A Tiger Cub Grows Up</i>	Joan Hewett

(continues)

## Kindergarten (continued)

Title	Author/Source
<i>Tools</i>	Ann Morris
<i>Trains</i>	Matt Doeden
<i>The Sun</i>	Charlotte Guillain
<i>Say Hello</i>	Jack Foreman
"Umbrellas"	Lilian Moore
<i>Whistle for Willie</i>	Ezra Jack Keats
<i>When Sophie Gets Angry—Really, Really Angry . . .</i>	Molly Bang

## Grade 1

Title	Author/Source
<i>Angelina and Henry</i>	Katharine Holabird
"The Balloon Man"	Dorothy Aldis
<i>Big Blue Whale</i>	Nicola Davies
<i>Birds: Winged and Feathered Animals</i>	Suzanne Slade
<i>The Bumblebee Queen</i>	April Pulley Sayre
<i>Chameleons Are Cool</i>	Martin Jenkins
<i>Chrysanthemum</i>	Kevin Henkes
<i>Curious George Goes Camping</i>	Margret Rey and H. A. Rey
<i>A Day in the Life of a Garbage Collector</i>	Nate LeBoutillier
<i>Dinosaur Babies</i>	Lucille Recht Penner
<i>Down the Road</i>	Alice Schertle
<i>An Elephant Grows Up</i>	Anastasia Suen
<i>An Extraordinary Egg</i>	Leo Lionni
<i>George Washington and the General's Dog</i>	Frank Murphy
"How to Catch Your ZZZs"	KidsHealth.org
<i>In the Tall, Tall Grass</i>	Denise Fleming
<i>It's Mine!</i>	Leo Lionni
<i>Julius</i>	Angela Johnson
<i>Matthew and Tilly</i>	Rebecca C. Jones
<i>McDuff and the Baby</i>	Rosemary Wells

## Grade 1 (continued)

Title	Author/Source
<i>An Ocean of Animals</i>	Janine Scott
<i>People in My Neighborhood</i>	Shelly Lyons
<i>Peter's Chair</i>	Ezra Jack Keats
<i>Places in My Neighborhood</i>	Shelly Lyons
<i>Quick as a Cricket</i>	Audrey Wood
"School Bus" from <i>Did You See What I Saw? Poems about School</i>	Kay Winters
<i>Sheep Out to Eat</i>	Nancy Shaw
<i>Sleep Well: Why You Need to Rest</i>	Kathy Feeney
"Sliding Board" from <i>Did You See What I Saw? Poems about School</i>	Kay Winters
<i>The Snowy Day</i>	Ezra Jack Keats
<i>Throw Your Tooth on the Roof</i>	Selby B. Beeler
<i>Using Your Senses</i>	Rebecca Rissman
<i>Velociraptor</i>	Kate Riggs
<i>When I Was Little: A Four-Year-Old's Memoir of Her Youth</i>	Jamie Lee Curtis

## Grade 2

Title	Author/Source
<i>Alexander and the Terrible, Horrible, No Good, Very Bad Day</i>	Judith Viorst
<i>The Art Lesson</i>	Tomie dePaola
<i>Babu's Song</i>	Stephanie Stuve-Bodeen
<i>Beatrix Potter</i>	Alexandra Wallner
"Bees, Bothered by Bold Bears, Behave Badly"	Walter R. Brooks
<i>Bend and Stretch: Learning About Your Bones and Muscles</i>	Pamela Hill Nettleton
<i>Big Al</i>	Andrew Clements
<i>Butterflies</i>	Teresa Wimmer
<i>Chester's Way</i>	Kevin Henkes
"The City Zoo"	Center for the Collaborative Classroom
"Classic Smoothie"	Center for the Collaborative Classroom
"Draw, Draw, Draw: A Short Biography of Tomie dePaola"	Center for the Collaborative Classroom

(continues)

**Grade 2** (continued)

Title	Author/Source
<i>Erandi's Braids</i>	Antonio Hernández Madrigal
"The Friendship-fostering Buddy Bench"	Gogonews.com

THIRD EDITION

## The Collaborative Classroom

The Collaborative Classroom differs from traditional learning environments in that students and teachers work together on shared academic and social goals.

The Collaborative Classroom is an intentional environment in which collaboration goes beyond conventional cooperation and compliance. Students become caring members of a learning community who take responsibility for their own learning. As students think, talk, and share ideas, they come to value the thinking of others. They become thoughtful readers and engaged speakers and listeners. They discuss and debate big ideas with respect, clarity, and understanding.

## Making Meaning in a Collaborative Classroom

The *Making Meaning* program embodies the practices of the Collaborative Classroom.

Students in *Making Meaning* classrooms demonstrate:

- Close reading of varied, complex texts
- Strategies for unlocking word meanings
- Deeper understanding of content
- Ownership of their own learning
- Intrinsic motivation to remain on task
- Improved self-esteem
- An increase in academic performance

*"I love how authentic the lessons and focus strategies are. It's what good readers, listeners, and community members do in real life."*

— Monica McCurry, grade 4 teacher

An isometric illustration of a school building. The building has multiple stories with windows and doors. In the foreground, a car is parked on a street. Two students are sitting on a bench, reading books. A dog is sitting on the ground near them. There is a tree with a circular canopy that has some abstract shapes on it. The entire scene is rendered in a light green and grey color palette.

# Introduction

# Overview of the Vocabulary Lessons

Vocabulary plays a critical role in children’s growth as readers. If they do not understand the words they are reading, children cannot make sense of text. It follows, then, that expanding students’ vocabularies is vital to their reading success. The *Vocabulary Teaching Guide* provides 30 weeks of vocabulary instruction that build students’ word knowledge, supplementing and supporting the reading comprehension lessons in the *Making Meaning® Teacher’s Manual*. This vocabulary instruction incorporates the latest research to give you the tools you need to boost your students’ word power.

Like the *Making Meaning* lessons, the vocabulary lessons are unique in their blend of academic instruction and support for students’ social and ethical development. The lessons teach high-utility words found in or relating to the read-aloud texts. The students learn four to six words each week in lessons designed to take 15–20 minutes each. The lessons combine direct instruction in word meanings with activities that require the students to think deeply about the words and use them as they talk with their partners and the class. The activities are designed to be both challenging and fun, and to help instill in your students a love of words and an appreciation for learning new words.

---

## New to the Vocabulary Lessons

In this revision of the *Vocabulary Teaching Guide*, we have added content, assessment, and technology features designed to support your teaching and your students’ vocabulary knowledge and social development. These include:

- Additional weeks of instruction at every grade
- New read-aloud texts and new vocabulary words
- Enhanced lesson support for vocabulary instruction, including digital picture cards (K–1) and digital word cards (K–6)
- Online, interactive whiteboard activities for displaying picture cards (K–1), word cards (K–6), and prompts (K–6) used during instruction
- Print and digital teaching guides with links to professional development media and lesson resources

- An online assessment tool, the CCC ClassView™ assessment app, for capturing and synthesizing assessment data
- Additional support for incorporating technology through tips and tutorials

---

## Unique Pedagogy

The vocabulary lessons' unique pedagogy grows out of years of research on vocabulary and child development. It focuses on character education and social and ethical development and supports teachers in expanding their students' vocabularies and building a word-rich classroom environment.

### RESEARCH BASED/CLASSROOM TESTED

Children learn words in many different ways, such as by talking with teachers, friends, and family members, listening to stories, and reading independently; but this incidental word-learning is not enough. For students to develop the rich and varied vocabulary they need to communicate effectively and succeed academically, direct instruction in specific words is needed (Stahl 1999). Researchers and leaders in the field of vocabulary instruction, including Bauman and Kame'enui, McKeown and Beck, and Stahl,\* have identified instructional practices that best help children build their vocabularies—practices we have incorporated into the *Vocabulary Teaching Guide*:

- Provide explicit instruction in a set of carefully chosen, high-utility words.
- Begin instruction by introducing a word in context.
- Provide a student-friendly definition of the word and examples of the way it is used.
- Give students opportunities to engage actively with the word in meaningful ways when they first encounter it, such as by applying it to their own experiences.
- Have students practice using the word through engaging activities.
- Provide multiple exposures to the word over an extended period of time.
- Teach strategies that students can use to learn words independently, such as recognizing synonyms, antonyms, and words with multiple meanings, and using context to determine word meanings.

We developed the *Vocabulary Teaching Guide* in consultation with classroom teachers who piloted the lessons and gave us extensive feedback to ensure that the program addresses the needs of all students and is easily implemented.

---

\*To read more about the theoretical and research basis for these vocabulary lessons, please refer to the Bibliography on page 658.

---

## Lessons at a Glance

The following sections describe the lesson resources, the process of selecting vocabulary words, the approach to meaningful discussion of the words, the strategies that support vocabulary acquisition, and the social development objectives of the program and how they are achieved.

### LESSON RESOURCES

At grade 4, vocabulary instruction includes:

- A teaching guide
- Access to online resources via the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) developed for the vocabulary lessons, including interactive whiteboard activities, assessment forms, reproducible word cards, family letters and other reproducibles, and professional development media

In addition to the lesson resources above, the instruction in the *Vocabulary Teaching Guide* is also supported by a variety of print and digital components that accompany the *Making Meaning* program, including children’s trade books, the *Assessment Resource Book*, the *Digital Teacher’s Set*, and access to the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) and the CCC ClassView app ([classview.org](http://classview.org)). For more information about these program components, see “Program at a Glance” in the Introduction of the *Teacher’s Manual*.

For more information about the CCC Learning Hub, CCC ClassView, and the interactive whiteboard activities, see “Using the Technology Features” on page xxv.

### THE WORDS

The vocabulary words were selected from the read-aloud texts used in grade 4 of the *Making Meaning* lessons. To develop an initial word list, we asked this critical question: *Which words in the Making Meaning texts are most useful for the students to know?* In answering this question, we were guided by the work of Isabel Beck and her colleagues at the University of Pittsburgh. Beck states that the best candidates for instruction are words that students are not likely to use frequently but that educated adults regularly use in their speech and writing and that appear in a wide range of texts students might encounter. She refers to these words as Tier Two\* words. The words we selected as candidates for instruction were those we

---

\*Tier One words are high-frequency words that typically do not require instruction. Tier Three words are less frequently used words often associated with science, social studies, and other content areas. For more information, see *Bringing Words to Life: Robust Vocabulary Instruction*, 2nd ed. by Isabel L. Beck, Margaret McKeown, and Linda Kucan (The Guilford Press, 2013).

believed met Beck’s Tier Two criteria. In addition, we looked for words that would be interesting and fun for the students to learn and use.

In some instances, a *Making Meaning* text did not yield six words that met our criteria. To provide words for instruction, we included words that do not appear in the text but that represent concepts or ideas that are important to the story and worthwhile for the students to know. These “concept words” appear in italics in word lists in the week they are introduced.

To check the validity of our word choices, we asked our grade 4 pilot teachers to review the list, and we made changes based on their recommendations. For a complete list of the grade 4 words and their meanings, see Appendix B.

## **INTRODUCING THE WORDS**

Vocabulary instruction becomes meaningful for students when the words they are learning are tied to a familiar and relevant context. The *Making Meaning* read-aloud texts provide that context. During a vocabulary lesson, the students reencounter words that they heard earlier during a *Making Meaning* lesson. Each word is introduced by rereading the text that includes the word. The students then hear the word defined in student-friendly language.

## **WORD CARDS**

A digital whiteboard activity that includes the word and the prompt(s) used to discuss the word are provided for each word in the grade 4 program. Additionally, reproducible wall word cards are provided on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). Each reproducible word card shows the card number and the word and its definition.

The program provides two options for displaying the word cards: The words may be projected on an interactive whiteboard using the whiteboard activities provided with each lesson, or the reproducible word wall cards may be printed and posted where everyone can see them.

The word cards are also used during Ongoing Review activities. An interactive whiteboard activity is provided for displaying the words and prompts on each ongoing review day. For more information about ongoing review, see “Retaining the Words” on page xxv.

## **QUESTIONS AND ACTIVITIES**

After the students have been introduced to a word, they practice using it by answering questions that require them to think about the word in other contexts. Many questions have them relate the word to their own experiences, and follow-up questions ask them to explain their thinking, encouraging them to think more deeply about the word. (*When do you have get-up-and-go? What do you like to do when you have get-up-and-go?*)

The students also use the words in a variety of activities:

- **Create a Sentence.** They use a vocabulary word in a sentence.
- **Describe the Character.** They choose the vocabulary word that best describes a character in a character sketch.
- **Does That Make Sense?** They decide whether or not a scenario that includes a vocabulary word makes sense.
- **Find Another Word.** They identify the vocabulary word that can replace an underlined word or words in a sentence. (*Jessica can't get over the fence, so her friend pushes her.* [boosts])
- **Finish the Story.** They choose the word that best completes a story they hear.
- **Imagine That!** They visualize a situation and then use the vocabulary word to discuss their mind pictures.
- **Make a Choice.** They use their knowledge of a word to make a choice about the word. (*Which of these is an effective way to cool off if you are very hot: jumping in a swimming pool or wrapping yourself in a blanket? Why?*)
- **Tell Me a Story.** They hear the beginning of a story that includes a vocabulary word and they use their knowledge of the word to make up an ending for the story.
- **What Do You Think About?** They tell what they picture in their minds when they hear a word.
- **What Do You Think Will Happen?** They hear a scenario that includes a vocabulary word and they use their knowledge of the word to tell what they think will happen next.
- **What Might You Say or Do?** They use a vocabulary word to tell what they might say or do in an imagined situation.
- **What's the Missing Word?** They identify the vocabulary word that can fill in the blank in a sentence. (*It was easy to see that the old man was tired by the way his body \_\_\_\_\_.* [sagged])
- **Which Word Am I?** They use clues you provide to figure out which word you are thinking of.
- **Which Word Goes With?** They tell how a vocabulary word relates to a word they all know, such as *school* or *cat*.

## INDEPENDENT WORD-LEARNING STRATEGIES

Research shows that students benefit from both learning individual words and learning strategies for determining the meanings of unknown words they hear or encounter in their independent reading. In grade 4, the students learn the following strategies:

- Recognizing synonyms
- Recognizing antonyms
- Using the prefixes *in-* and *mis-* to determine word meanings
- Using the suffixes *-er* and *-ly* to determine word meanings
- Using Greek and Latin roots to determine word meanings
- Using context to determine word meanings
- Recognizing idioms
- Recognizing adages and proverbs
- Recognizing shades of meaning
- Recognizing words with multiple meanings
- Using a print dictionary to determine word meanings
- Using an online dictionary to determine word meanings
- Using a print thesaurus to determine word meanings
- Using an online thesaurus to determine word meanings
- Using a glossary to determine word meanings

Each strategy is introduced through the discussion of a vocabulary word. (For example, recognizing shades of meaning is introduced through the word *plead* in Week 5.) For additional practice in using the strategies, More Strategy Practice activities are provided periodically. Although these activities are optional, we encourage you to do them with your students. We believe the students will benefit from the additional exposure to the strategies. For tables of the strategies and the weeks in which they are introduced and reviewed, see Appendix C.

The table on the next page provides a snapshot of how independent word-learning strategies are developed across grades K–6.

Independent Word-learning Strategy	K	1	2	3	4	5	6

## ALIGNMENT WITH STANDARDS

Lessons in the *Vocabulary Teaching Guide* have been carefully designed to focus on standards aimed at vocabulary acquisition and use.

- Words taught or explored include both grade-appropriate general academic and domain-specific words. The general academic words taught as target words are identified with asterisks in Appendix B, “Grade 4 Words and Definitions.” For Extension activities in which domain-specific words are explored, see Appendix D, “Additional Activities.”
- Students practice using the words they are learning in both partner and whole-class conversations. Questions require the students to make real-life connections between the words and their own experiences. (The program’s focus on conversations about

words, together with the teaching of social skills such as speaking clearly and listening carefully to others, also brings the program into alignment with standards for speaking and listening.)

- In lessons and review activities, the students explore the nuances of word meanings and relationships among words, including synonyms, antonyms, and shades of meaning.
- Students are formally taught grade-appropriate strategies they can use to figure out word meanings when reading independently. These include using context, identifying multiple meanings, recognizing idioms, and using prefixes, suffixes, and roots.

For more about how the program aligns to specific state standards, see the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

# Teaching the Vocabulary Lessons

The grade 4 program consists of 30 weeks of lessons numbered consecutively throughout the year. Each week has five days of instruction. Beginning in Week 2, an Ongoing Review activity in which the students review previously taught words is included.

## How a Week Is Organized

Each week begins with a Resources list, which specifies the physical materials and the supplemental activities for the entire week, while the Online Resources list indicates all the materials that are available digitally on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). The Resources list is followed by the week's Overview, which includes lists of the six vocabulary words taught that week, the five words reviewed during Ongoing Review, the word-learning strategies taught or reviewed during the week, and the vocabulary and social development focuses. A "Do Ahead" section contains suggestions for preparing for the week.

**Week 6**

**RESOURCES**

**Read-aloud**

- Animal Center: How Animals See, Hear, Taste, Smell, and Feel by Pamela Hickman, illustrated by Pat Stephens

**More Strategy Practice**

- Discuss Another Meaning of "Critical"

**Extensions**

- Discuss the Prefixes
- Discuss the Prefixes

**Assessment Resource Book**

- Week 6 vocabulary assessment

**Online Resources**

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

**Whiteboard Activities**

- WB2-WB11

**Assessment Form**

- "Class Vocabulary Assessment Record" sheet (CA1)

**Reproducibles**

- Week 6 Study Guide (SL32)
- Optional "Week 6 Crossword Puzzle" (SL32)

**Professional Development Media**

- "Using the In-class Whiteboard Assessment" tutorial (AP42)

**OVERVIEW**

Words Taught	Words Reviewed
dissimilar	custom
focus	experience
function	hardship
sensitive	rowdy
critical	sit
abstract	

**Word-learning Strategies**

- Recognizing antonyms (review)
- Recognizing words with multiple meanings (review)
- Using context to determine word meanings (review)

**Vocabulary Focus**

- Students learn and use six words from or about the book.
- Students review antonyms.
- Students review words with multiple meanings.
- Students use context to determine word meanings.
- Students review words learned earlier.
- Students build their speaking and listening skills.

**Social Development Focus**

- Students develop the skill of explaining their thinking.

124 | Making Meaning Vocabulary Teaching Guide, Grade 4

Week 6 | 125

Each week includes five days of instruction. On Days 1 and 2, three words are taught and reviewed. On Days 3 and 4, three more words are taught and reviewed. On Day 5, five words previously taught are reviewed in an activity called "Ongoing Review." (Week 1, in which six words are reviewed during Ongoing Review, is an exception.)

The chart below shows how a week is structured.

Day 1	Day 2	Day 3	Day 4	Day 5
3 words taught	Day 1 words reviewed	3 words taught	Day 3 words reviewed	Ongoing Review

## Teaching the Vocabulary Lessons with the *Making Meaning* Lessons

We suggest you teach the week’s lessons from the *Vocabulary Teaching Guide* the week after you teach the read-aloud text from the *Making Meaning* lessons in the *Teacher’s Manual*. (For example, teach Week 1 in the *Vocabulary Teaching Guide* a week after you have taught Unit 1, Week 1 in the *Teacher’s Manual*.) Waiting a week helps to ensure that the students have thoroughly discussed the read-aloud text before revisiting it during the vocabulary lessons. (If you prefer to teach the vocabulary lessons in the same week as you teach the read-aloud text in the *Making Meaning* lessons, be sure to completely finish the reading of the text, which may extend across two or more days, before you introduce the words. Otherwise, you run the risk of teaching words that the students have not encountered in the reading.)

The calendar below shows one way you might structure a week of *Making Meaning* lessons and vocabulary lessons.

Monday	Tuesday	Wednesday	Thursday	Friday
Reading comprehension lesson	Reading comprehension lesson	Reading comprehension lesson	Reading comprehension lesson	
Vocabulary lesson	Vocabulary lesson	Vocabulary lesson	Vocabulary lesson	Vocabulary Ongoing Review

For a table that shows each week of the vocabulary lessons, the read-aloud text you will use during that week, and the week in which that text was taught in the *Making Meaning Teacher’s Manual*, see Appendix A.

## SOCIAL DEVELOPMENT AND COOPERATIVE STRUCTURES

Like the *Making Meaning* lessons in the *Teacher's Manual*, the lessons in the *Vocabulary Teaching Guide* help students develop socially and ethically as well as academically. During the lessons, the students frequently discuss words with their partners through the cooperative structures “Turn to Your Partner” and “Think, Pair, Share.” The cooperative structures increase the students’ engagement and accountability and ensure that all the students have opportunities to practice using the words.

We recommend that you use the same partners for the vocabulary lessons that you have assigned for the *Making Meaning* lessons. We also recommend that you incorporate the social focuses of the *Making Meaning* lessons into the vocabulary lessons. Social development focuses are provided with each vocabulary lesson. Reinforcing social skills as the students work together will help them develop caring and respectful relationships and create a safe and supportive classroom environment conducive to sharing their thinking.

---

### Planning and Teaching the Lessons

To prepare to teach a week from the *Vocabulary Teaching Guide*, begin by reading the week’s introductory pages. The Resources list identifies the *Making Meaning* read-aloud text or texts, supplementary activities, and online resources for the week. The week’s Overview acquaints you with the vocabulary words and independent word-learning strategies to be taught and reviewed during the week, as well as the academic and social focuses of the week. In particular, review the “Do Ahead” section. It alerts you to any materials you need to gather or prepare for the week.

### PREPARING FOR A LESSON

- Read the entire lesson. Pay particular attention to the questions and prompts and anticipate how your students will respond. Teacher Notes provide suggestions to support struggling students.
- Prepare or collect any necessary materials, including the appropriate *Making Meaning* read-aloud text.
- Practice reading aloud the part of the text that introduces each word. You might use self-stick notes to mark the starting and stopping points of the read-aloud. Focus on emphasizing the vocabulary word where it appears in the text.
- Review the definition of each word. You might write each definition on a self-stick note and place the note on the page of the read-aloud where the word is introduced.

- Review the word cards and how they are introduced in the lesson. (See “Using the Technology Features” on page xxv.)
- Plan any teacher examples or modeling required in the lesson.
- Review any More Strategy Practice, More ELL Support, or Extension activities in a lesson, and decide if and when you will do them. Collect any necessary materials.
- Plan how you will pace the lesson to keep it moving. A lesson is designed to take, on average, 15–20 minutes.

## TIPS FOR TEACHING THE LESSONS

We offer the following tips to help you teach the lessons:

- **Anticipate room arrangement needs.** We recommend a classroom arrangement that allows for whole-class gatherings, discussions, and space for movement. A rug or library area is ideal. If this is not possible, arrange the students so that they can hear you clearly, see the read-aloud text, and participate in partner and whole-class discussions.
- **Use the lesson definition.** It is important to define each word as it is defined in the lesson. Each definition has been carefully written in simple, student-friendly language, and the activities have been developed based on the definitions.
- **Correct ungrammatical responses by modeling standard language.** During a discussion, a student may use a word in a way that shows he understands its meaning but that is incorrect grammatically (for example, “My friend and I had a reminisce about when we were in third grade”). We suggest you point out that the student’s response demonstrates that he knows what the word means and then restate his response using correct grammar (for example, “What you said shows you know what *reminisce* means, but we usually say, ‘My friend and I reminisced about when we were in third grade’”).

## LESSON LENGTH AND PACING

The lessons take, on average, 15–20 minutes. Lessons in the first few weeks of the program may take longer as you practice the cooperative structures (“Turn to Your Partner” and “Think, Pair, Share”) and the students become accustomed to using the prompts. (See “Using the Prompts to Discuss the Words” on the next page.)

It is important to monitor the pace of the lessons, not only to complete them in a reasonable amount of time but also to help the students stay focused and engaged. To maintain the pace of the lessons, we suggest the following:

- Keep partner conversations brief.
- After partners have shared, have only one or two volunteers share their thinking with the class, even if other students have their hands up.
- During whole-class discussions, have only two or three volunteers share their thinking. If many students want to contribute to the discussion, use “Turn to Your Partner” to give partners an opportunity to share with each other. Then have only one or two volunteers share with the class.

## **USING THE PROMPTS TO DISCUSS THE WORDS**

To learn a new word well, it is critical that the students use the word often and, whenever possible, in sentences. To facilitate this practice, we frequently ask the students to reply to questions with prompted responses. The prompts are a critical component of the program. They provide the students with the language they need to use a new word confidently and successfully. The prompts also ensure that the students will actually *say* the vocabulary word as they discuss it during partner and whole-class sharing, which is important if they are to learn and remember the word. In addition, the prompts support the students’ oral language development and are especially helpful to English Language Learners.

To encourage the students to use the prompts, you might display them using the whiteboard activities provided with each lesson, or print and display the prompts where everyone can see them using the printable prompts you will find on the CCC Learning Hub. Once the students have become accustomed to using the prompts, they might choose to use a word in a sentence of their own. That is fine. What is important is that the students say the word as they discuss it and use that word correctly.

## **FULL AND ABBREVIATED LESSONS**

In Weeks 1–5 of the program, all the procedures for introducing words and conducting activities have been fully written out to support you as you become familiar with the program. We refer to these lessons as “full lessons.” By Week 6 you will be familiar with most of the procedures. For this reason, the language of the procedures has been abbreviated. In the first two weeks of these “abbreviated lessons,” a Teacher Note will direct you to the full version of a procedure in Weeks 1–5 should you wish to review it.

## HELPFUL LESSON FEATURES

The lessons include a number of features that help you navigate the instruction, and that provide background information, tips, and supplemental activities to extend or support word learning. These lesson features are listed in the table below.

### Helpful Lesson Features

- **Topic Notes.** These notes appear at the beginning of some lessons and provide background information about important aspects of the instruction, including lesson structure, purpose, pedagogy, and approach.
- **Teacher Notes.** These notes appear in the lesson margins and alert you to a variety of things, including the purposes of various activities, hints for reviewing previously taught words, and ways to support struggling students. Notes also provide additional information about the words themselves.
- **Cooperative Structure Icons.** These icons indicate where in a lesson a cooperative structure, “Turn to Your Partner” or “Think, Pair, Share,” is used.
- **Whiteboard Activity Icons.** These icons show where in a lesson a whiteboard activity is used.
- **“You might say.”** This feature provides sample language you can draw on when you model how a word is used. If the students struggle to understand or use a word, you might use “You might say” suggestions to provide support.
- **ELL Notes.** These notes suggest ideas for supporting your English Language Learners. Spanish cognates are provided for some words. (See “Support for English Language Learners (ELLs)” on page xxx.)
- **More ELL Support Activities.** These supplemental activities focus on building English Language Learners’ vocabulary and oral language skills.
- **Prompt Cues.** The word *PROMPT* identifies language you can use to prompt the students’ responses to a question or activity. Each prompt relates to the vocabulary word being discussed.
- **Class Vocabulary Assessment Notes.** These notes help you observe and assess the whole class during Ongoing Review activities. (See “Assessments” on page xxvii.)
- **Technology Tips.** These tips suggest ways you might use an interactive whiteboard or other technology during a lesson.
- **More Strategy Practice Activities.** These optional activities provide the students with further instruction and practice in independent word-learning strategies, such as recognizing synonyms and antonyms and using context to determine word meanings.
- **Extension Activities.** These supplemental activities extend student learning by exploring independent word-learning strategies not formally taught in the program, figurative language, and other interesting ways that authors use words.

## Using the Technology Features

The *Making Meaning* program incorporates digital technology to enhance your students' learning experience and streamline your preparation, instruction, and assessment processes. For information on the *Digital Teacher's Set*, the CCC Learning Hub, and the CCC ClassView app, see "Digital Teacher Resources" in the Introduction of the *Teacher's Manual*.

For teaching the vocabulary lessons, a variety of online resources have been developed to directly support the vocabulary instruction for each week and are available on the CCC Learning Hub. For more information, see the "Using CCC's Learning Hub" tutorial (AV39).

- **Whiteboard activities.** These interactive activities allow you to display the words as they are taught during the week, display the prompts as they are used in a day's lesson, and, on occasion, guide students seamlessly through games and activities used to review the words in Days 2, 4, and 5. For more information, see the "Using the CCC Whiteboard Activities" tutorial (AV40).
- **Printable reproducibles.** These resources, including weekly family letters, word cards, and crossword puzzles, provide additional lesson support for students and their families. For more information on how these can be used, see "Additional Ways to Review the Words" on the next page.
- **Assessment forms.** These online forms allow you to record the students' progress on both class and individual assessments. You can print these forms from the CCC Learning Hub or use the CCC ClassView app to electronically record data for the class. For more information about the CCC ClassView app, view the "Using the CCC ClassView App" tutorial (AV41).
- **Professional development media and technology tutorials.** These brief videos help you with effective implementation of the lessons. Technology Tips, located in the margins of the lessons, alert you to these videos and also suggest ways to incorporate technology into the instruction.

## Retaining the Words

Research shows that students need multiple encounters with a word to make it a permanent part of their vocabulary. The *Vocabulary Teaching Guide* provides opportunities for the students to frequently hear and practice using the words they are learning.

## ONGOING REVIEW ACTIVITIES

On Day 5 of each week, the students review previously learned words through Ongoing Review activities. These activities are similar to the activities used in the lessons. An interactive whiteboard activity is provided for displaying the cards, prompts, and occasional interactive games and activities for each Ongoing Review day. Additionally, reproducible word cards for the review words are provided on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

## INTEGRATING PREVIOUSLY TAUGHT WORDS INTO LESSONS

To further support the students' word retention, words that have been taught in the program are sometimes reused in the introduction of a new word or in an activity. In these cases, a Teacher Note provides the word's definition so you can review it with the students.

## ADDITIONAL WAYS TO REVIEW THE WORDS

We encourage you to look for opportunities outside of vocabulary time to review the words and help the students retain their meanings. You might:

- Use the words when you talk with the students.
- Encourage the students to use the words with their classmates. When you hear a word used, call attention to it.
- Encourage the students to use the words in their writing.
- Invite the students to listen and look for the words outside of the classroom. Track the words they hear and see by writing them on a classroom chart. If you hear a word used outside of class, discuss the use of the word with the students.
- Reproducible word cards in a small size are available for each week on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). Make copies of the appropriate cards each week, one set for each student. Have the students keep the cards to review in class, or have them take the cards home to practice the words with their families.
- Each week send a family letter home with the students that includes a list of the words and definitions they are learning. You will find weekly family letters, in both English and Spanish, on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). Ask the students to review and practice the words with family members.
- Keep copies of word cards in a learning center. The students can use the cards for word sorts and games such as "Concentration" and "Go Fish." Encourage the students to invent their own games using the cards and to play vocabulary games such as "Which Word Am I?"
- Make crossword puzzles and word searches using the words. Reproducible crossword puzzles are also available on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

---

## Creating a Word-rich Classroom

Creating a classroom in which words are valued and enjoyed is an important step in helping your students develop an appreciation for words and word learning. Here are some suggestions for building a word-rich classroom:

- Exhibit your own curiosity about words. Talk about interesting words you see and hear and invite the students to share their own interesting words.
- Apply sophisticated words to everyday classroom situations.
- Encourage the students to suggest words for the class to learn. Collect the words in a suggestion box or list them on a chart. Choose some words to explore as a class.
- Make word resources available, including various dictionaries, a thesaurus, books of puns and riddles, stories and poems that use wordplay, and books of word games such as crossword puzzles and word searches.
- Play language games such as “Telephone,” sing songs, chant rhymes, and introduce the students to puns and riddles.
- Notice playful or creative uses of language in and outside of class, including made-up words, interesting proper names, idioms, and figures of speech such as metaphors, similes, and personification. Discuss these words with your students, model thinking of additional examples, and invite the students to give examples.

---

## Assessments

The assessment tools in the *Vocabulary Teaching Guide* are designed to help you evaluate your students’ knowledge of the words they are learning and make informed instructional decisions as you progress through the program. Both formative and summative assessment tools are provided.

You will find record sheets for all assessments, as well as instructions and student response sheets for individual assessments, in the *Assessment Resource Book*. You may choose to record your students’ progress using printed copies of the forms from the *Assessment Resource Book* or through the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). Alternatively, you can use the CCC ClassView app to electronically record, sort, synthesize, and report assessment data for each student and the whole class. For more information, see “CCC ClassView App” in the Introduction of the *Teacher’s Manual*.

## FORMATIVE ASSESSMENTS

Formative assessments help you reflect on your students' vocabulary growth over time through class observation and support you in differentiating instruction as necessary.

### Class Vocabulary Assessment

Class Vocabulary Assessment Notes occur every two weeks (in Weeks 2, 4, 6, etc.) during the Ongoing Review activity. They are designed to help you evaluate the performance and needs of the whole class. During this assessment, we suggest that you walk around and observe the students. Ask yourself the questions in the Class Vocabulary Assessment Note and follow up as appropriate with the suggested interventions. You can record your observations on the corresponding "Class Vocabulary Assessment Record" sheet (CA). Additional suggestions for reviewing and practicing words can be found in "Retaining the Words" on page xxv.

## SUMMATIVE ASSESSMENTS

### Individual Vocabulary Assessment

At grades 2–6, the Individual Vocabulary Assessment is designed to help you assess individual students' knowledge of the words. The assessment occurs after Weeks 4, 8, 12, 16, 20, 24, 28, and 30. These multiple-choice assessments use activity formats familiar to the students from the weekly lessons. The students record their answers on the corresponding "Individual Vocabulary Assessment: Word Check" answer sheet (IA). You will find teacher instruction sheets and reproducible answer sheets in the *Assessment Resource Book* and on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

### Student Self-assessment

At grades 2–6, the Student Self-assessment gives the students an opportunity to take responsibility for their learning by reflecting on their knowledge of the words using the "Student Self-assessment" response sheet (SA). Analysis of the response sheets alerts you to words in need of further review and practice.

We recommend that you administer the Student Self-assessment in place of or in addition to the Individual Vocabulary Assessment, with the students evaluating their knowledge of words you select. Suggestions for using the results of the assessment are included on the instruction sheet.

## Other Ways to Assess Individual Progress

The Individual Vocabulary Assessment and Student Self-assessment are two useful tools for measuring an individual student's word knowledge. We encourage you to consider using one or more of the following tasks periodically to provide you with additional information about a student's understanding of the words:

- Ask the student what he or she knows about a word.
- Have the student use words he or she chooses to write or tell a story.
- Have the student act out a word.
- Have the student make a picture card that illustrates what the word means.

For more information about the assessments in the vocabulary lessons, see “About Vocabulary Assessment” in the Assessment Overview of the *Assessment Resource Book*.

# Special Considerations

## Support for English Language Learners (ELLs)

Learning new vocabulary can be especially challenging for ELLs. Strategies identified by researchers as “best practice” in ELL vocabulary instruction are inherent in the design of the vocabulary lessons. They are summarized in the table below.

### ELL Vocabulary Instruction Strategies in the *Vocabulary Teaching Guide*

ELL Strategies	Use in the Vocabulary Lessons
Introduce a word in a meaningful context.	Each word is introduced through a familiar read-aloud text.
Define the word in clear, simple language.	Lessons provide classroom-tested, student-friendly definitions.
Use visual aids to support word learning.	When appropriate, lessons use text, photographs, and illustrations or real objects to make word meanings concrete. Teachers or student volunteers frequently act out words.
Model the way words are used.	Lessons include language that teachers can use to model or explain how a word is used. Prompts model for students how to use a word correctly.
Help students connect words to personal experience.	Teacher questions “personalize” a word by having students use the word to talk about themselves and their experiences.
Provide many opportunities to discuss and use a word in a variety of contexts.	Students practice using a word in various ways and review the word frequently.
Invite students to respond to words physically by associating a word with an action, gesture, or expression.	Students act out words and use gestures and expressions to convey meaning during role-playing activities.
Review words frequently.	Ongoing Review activities give students a chance to review words each week.

## ADDITIONAL ELL SUPPORT

The program also includes these features to provide further support to ELLs:

- **ELL Notes.** These notes provide specific suggestions for modifying or enhancing instruction during a lesson to support ELLs. Suggestions include using realia (real objects) to introduce words, defining unfamiliar words in the activities, or simplifying activities and questions.
- **Spanish cognates.** An ELL Note will alert you when a Spanish cognate (a Spanish word that has a pronunciation, meaning, and spelling similar to an English word—for example, *transform/transformar*) is provided for a word taught in the program. During a lesson, you might write the Spanish cognate underneath the English word and briefly point out letters and sounds that are the same or similar in both words. Research shows that teaching cognate awareness accelerates the English language vocabulary development of Spanish-speaking ELLs. For help in pronouncing the Spanish cognates, see Appendix E.
- **More ELL Support activities.** More ELL Support activities are provided in some weeks and give ELLs additional opportunities to build vocabulary and oral language skills.
- **Spanish family letters.** Weekly family letters provided on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) are available in Spanish and include the vocabulary words and definitions.

For more information about English Language Learners and how to support them, see “Support for English Language Learners (ELLs)” in the Introduction of the *Making Meaning Teacher’s Manual*.

---

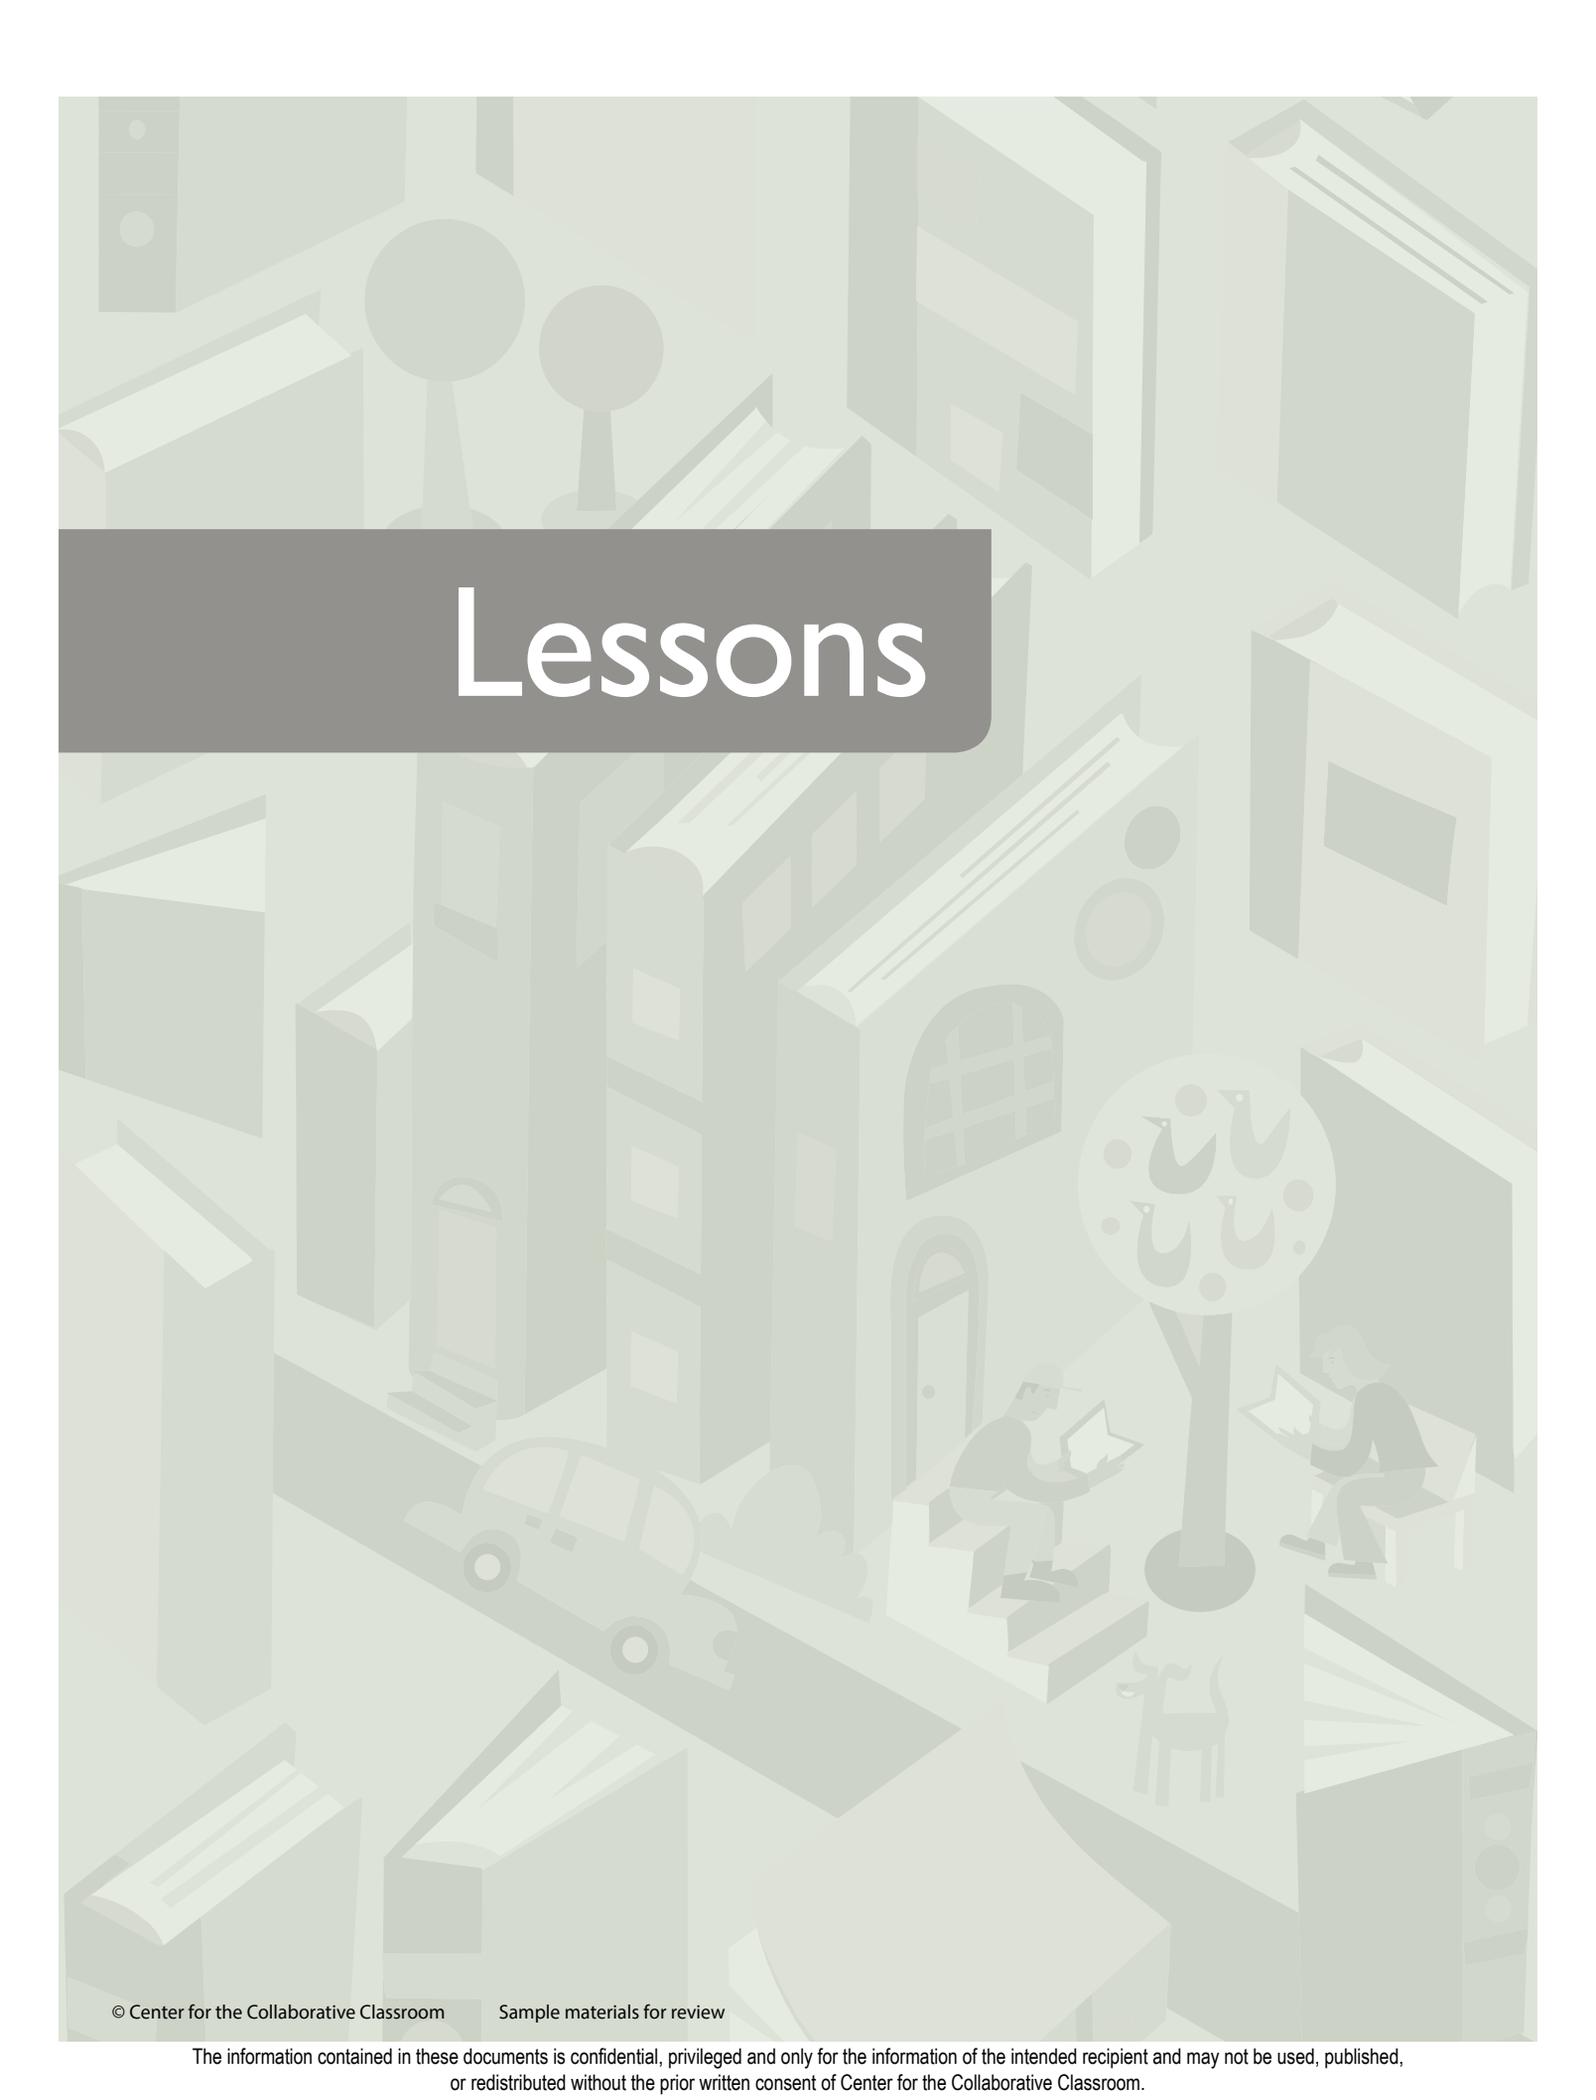

## Building the Home-School Connection

Keeping families informed about their children’s participation in the vocabulary program helps family members understand and appreciate how their children are building their vocabulary and how they can support that development.

### FAMILY LETTERS

We provide a letter to send home with the students at the end of each week, available in both English and Spanish. Each letter includes the week’s words and meanings and suggestions for helping the students review the words and build their word-learning skills. The family letters are included in the Online Resources list for each week and can be accessed via the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

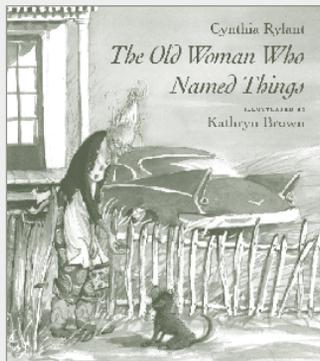

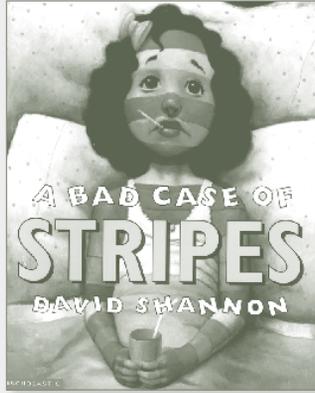

# Lessons

# Week 1

## RESOURCES

### Read-alouds

- *A Bad Case of Stripes* by David Shannon
- *The Old Woman Who Named Things* by Cynthia Rylant, illustrated by Kathryn Brown

### More Strategy Practice

- “Start an Antonym Chart”
- “Discuss Idioms”

### Extension

- “Discuss Homophones”

### More ELL Support

- “Explore Antonyms”

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

### Whiteboard Activities

- WA1–WA10

### Reproducibles

- Introductory family letter (BLM1)
- Week 1 family letter (BLM2)
- (Optional) “Week 1 Word Cards” (BLM3)

### Professional Development Media

- “Using “Turn to Your Partner”” (AV6)
- “Using the CCC Learning Hub” tutorial (AV39)
- “Using CCC’s Whiteboard Activities” tutorial (AV40)
- “Using Web-based Whiteboard Activities” tutorial (AV42)

\*Concept words are italicized in word lists the week they are introduced. For more information about concept words, see “The Words” in the Introduction.

## Word-learning Strategies

- Using the prefix *in-* to determine word meanings
- Recognizing antonyms
- Recognizing idioms

## Vocabulary Focus

- Students learn and use six words from or about the stories.
- Students discuss the prefix *in-*.
- Students discuss antonyms.
- Students discuss idioms.
- Students build their speaking and listening skills.

## Social Development Focus

- Teacher and students build the reading community.
- Students practice the procedure for “Turn to Your Partner.”
- Students work in a responsible way.
- Students listen respectfully to the thinking of others and share their own.

## **J** DO AHEAD *(continued)*

- ✓ Familiarize yourself with the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)), where the online resources for each lesson are located. For more information, view the “Using the CCC Learning Hub” tutorial (AV39). 
- ✓ This week the students use “Turn to Your Partner” to discuss their thinking in pairs. You may wish to review the procedure for “Turn to Your Partner” prior to Day 1 (see Step 1 in Unit 1, Week 1, Day 2 of the *Teacher’s Manual*). To see an example of how to use this strategy with your students, view “Using “Turn to Your Partner”” (AV6). 
- ✓ Prior to Day 1, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the introductory family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ (Optional) Prior to Day 1, review the more strategy practice activity “Start an Antonym Chart” on page 13. You might do the activity at the end of the vocabulary lesson or at another time.
- ✓ (Optional) Prior to Day 3, review the more strategy practice activity “Discuss Idioms” on page 22. You might do the activity at the end of the vocabulary lesson or at another time.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this week’s family letter (BLM2). Make enough copies to send one letter home with each student.
- ✓ (Optional) Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the “Week 1 Word Cards” (BLM3). These cards can be used to provide your students with more opportunities to review the words. For more information, see “Additional Ways to Review the Words” in the Introduction.

# Introduce *Bizarre, Effective,* and *Ineffective*

# Day 1

## In this lesson, the students:

- Learn and use the words *bizarre*, *effective*, and *ineffective*
- Discuss the prefix *in-*
- Discuss antonyms
- Practice using “Turn to Your Partner”
- Build their speaking and listening skills
- Listen respectfully to the thinking of others and share their own

## Words Taught

### **bizarre** (p. 20)

*Bizarre* means “very strange or odd.”

### **effective**

Something effective works well or produces the result that is wanted.

### **ineffective**

Something ineffective is not effective. It does not work well or produce the result that is wanted.

## ABOUT CONCEPT WORDS

Most words taught in the *Vocabulary Teaching Guide* are taken directly from the read-aloud texts used in the *Making Meaning* program. Occasionally, however, we teach a word that does not appear in the book. We refer to these words as *concept words*. In the week in which they are introduced, concept words appear in italics in word lists.

In some cases, we teach a concept word because it enables us to introduce or review an important independent word-learning strategy, such as recognizing antonyms or using a prefix to determine a word’s meaning. For example, this week we teach the concept words *effective* and *ineffective* to introduce the students to antonyms and the prefix *in-*. In other cases, we teach a concept word because it represents a concept or idea that is important to the story and worthwhile for the students to know. For example, we teach the concept word *reminisce* in connection with the book *Song and Dance Man* (Week 2) because reminiscing is an important aspect of the story. For more information about concept words, see “The Words” in the Introduction.

## ABOUT PROMPTED RESPONSES

To learn a new word well, it is critical that the students use the word often and, whenever possible, in sentences. To facilitate this practice, we frequently ask the students to reply to questions with prompted responses. These structured

## Materials

- *A Bad Case of Stripes*
- Word card 1 (WA1)
- “Tell Me a Story” chart (WA2)
- Word cards 2–3 (WA3)
- Copy of introductory family letter (BLM1) for each student

### Teacher Note

Incorporate this week's social development focuses into the lessons by encouraging the students to listen respectfully to one another and to take responsibility for their learning and behavior. At the end of a lesson, you might ask the students what they did to be good listeners. For more about social development in the vocabulary lessons, see "Social Development and Cooperative Structures" in the Introduction.

### Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 6 and then finish the lesson later in the day or the next day.

### Teacher Note

The students can work within partnerships already established during the *Making Meaning* lessons, or you may assign new partners for the vocabulary lessons. For more information on assigning partners randomly, see "Social Development and Cooperative Structures" in the Introduction.

responses may seem awkward or stilted initially, but the students will soon become comfortable using them. It is important for the students to use the prompts in both whole-class discussions and partner conversations.

We recommend that you project the prompts for each word using an interactive whiteboard. Alternatively, you might display them using a document camera or write them on chart paper. For more information about the prompts, see "Using the Prompts to Discuss the Words" in the Introduction.

## ABOUT USING PREFIXES AND SUFFIXES TO DETERMINE WORD MEANINGS

Research shows that teaching students to use word parts such as prefixes and suffixes to unlock word meanings can help them become more proficient independent word-learners and contribute to their vocabulary growth (White 1989). This week the students learn the first of four word parts they will explore this year: the prefix *in-*, meaning "not." In subsequent lessons, they will learn the prefix *mis-* (wrong or wrongly, or bad or badly) and the suffixes *-ly* (in a certain way) and *-er* (more). For tables of the prefixes and suffixes taught, the words through which they are introduced, and the lessons in which they are taught and reviewed, see Appendix C. For more information about using prefixes and suffixes and other word-learning strategies, see "Independent Word-learning Strategies" in the Introduction.

## ABOUT RECOGNIZING ANTONYMS

In this lesson, the students are introduced to *antonyms*, or "words with opposite meanings," through the words *effective* and *ineffective*. In subsequent lessons, they will learn other antonyms including *edible* and *inedible*, *adequate* and *inadequate*, *permanent* and *temporary*, and *humane* and *inhumane*. Discussing a word and its opposite requires students to think about the critical attributes of the words and helps them understand and remember the words. We suggest that you start an antonym chart this week and add to it during the year as the students learn new antonyms (see the more strategy practice activity "Start an Antonym Chart" on page 13). For a table of the antonyms taught in grade 4 and the weeks in which they are introduced, see Appendix C.

## GET READY TO LEARN NEW WORDS

### 1 Introduce the Vocabulary Lessons

Gather the class with partners sitting together, facing you. If necessary, review the procedure for gathering on the rug and remind the students of your expectations for how they should move and sit.

Introduce the vocabulary lessons by telling the students that this year they will learn many new and interesting words that they can use

when they talk with one another and when they write. Tell them how much you enjoy learning and using words, and then share some of your favorite words with the class.

**You might say:**

“One of my favorite words is *chrysanthemum* because I think chrysanthemums are beautiful flowers and I like the way *chrysanthemum* sounds when you say it. Another of my favorite words is *scrumptious* because I love scrumptious food and *scrumptious* is a fun word to say.”

Briefly discuss as a class:

**Q** *What are some of your favorite words? Why do you like those words?*

Have a few volunteers share their thinking with the class.

## INTRODUCE AND USE BIZARRE

### 2 Introduce and Define Bizarre

Tell the students that the words they will learn this year are from or about the read-aloud books in the *Making Meaning* lessons. Show the cover of *A Bad Case of Stripes* and read the title and the name of the author aloud. Remind the students that they heard the story earlier, and explain that some of this week’s words are from this story.

Review that Camilla Cream’s appearance keeps changing. Show pages 20–21 and review that in this part of the story television reporters arrive at Camilla’s house.

Read page 20 aloud, emphasizing the word *bizarre*.

Tell the students that *bizarre* is the first word they will learn today, and explain that *bizarre* means “very strange or odd.” Point out that the reporters call what is happening to Camilla “The Bizarre Case of the Incredible Changing Kid.”

Display word card 1 (🗨️ WA1) and have the students say the word *bizarre*.

### 3 Introduce Using the Prompts

Tell the students that to learn a new word like *bizarre* well, it is important that they use the word in sentences. Explain that saying the word in a sentence will help them learn to pronounce the word, use it correctly, and remember its meaning.

Tell the students that as they discuss questions about the word *bizarre* and other words, you will give them sentence starters, which are sentences that they will use to answer the questions. Tell the students that these sentence starters are called “prompts,” and explain that the

#### Teacher Note

If the students have difficulty thinking of words, ask questions such as “What is a word that names something you love or enjoy?” “What is a word you use a lot?” “What is a word you think is fun to say?” and “What is a word that makes you think happy thoughts?”

#### ELPS 1.B.i

Steps 3–6

(all, beginning on page 7 and continuing on to page 9)

#### Teacher Note

For more information about introducing the vocabulary words, see “Introducing the Words” in the Introduction.

#### Technology Tip

Whiteboard activities (WAs) can be displayed using an interactive whiteboard. Alternatively, you may print the whiteboard activities and project them using a projection device. For more information, view the “Using CCC’s Whiteboard Activities” tutorial (AV40).

## Teacher Note

We suggest that you display word card 1 (WA1) on an interactive whiteboard. Click the appropriate number to reveal each prompt as it is used.

Alternatively, you might write the prompts on a sheet of chart paper, and then fold up the bottom of the sheet and tape it so that only the first prompt is visible. For each subsequent prompt, move the fold down so that the prompt becomes visible.

**TEKS 7.F.i**  
Student/Teacher Activity  
Step 4 (all)

## ELL Note

Prompts are especially helpful to students with limited English proficiency. For more information about supporting English Language Learners, see “Support for English Language Learners (ELLs)” in the Introduction.

**ELPS 3.B.iii**  
Step 5 and Step 6  
(all, beginning on page 8 and continuing on to page 9)

## Teacher Note

If you are not using an interactive whiteboard, write each story where everyone can see it.

## Teacher Note

When two questions appear next to a **Q**, ask both questions before having the class or partners discuss their thinking.

students will use the prompts to discuss the words today. Click **1** on word card 1 (WA1) to reveal the first prompt.

WA1

bizarre

**PROMPT 1:** The reporters call this a **bizarre** case because . . .

**1**

## 4 Use the Word *Bizarre* to Discuss the Story and Practice Using a Prompt

Remind the students that the word *bizarre* means “very strange or odd,” and review that the reporters in the story call what is happening to Camilla “The Bizarre Case of the Incredible Changing Kid.”

Ask:

**Q** *Why do you think the reporters call this a bizarre, or very strange, case?*

Point to prompt **1** on word card 1 (WA1). Then have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT 1:** “The reporters call this a bizarre case because . . .”

## 5 Introduce the Activity “Tell Me a Story”

Tell the students that partners will do an activity called “Tell Me a Story.” Explain that you will tell them the beginning of a story that includes the word *bizarre*. Then they will use their imaginations and what they know about the word to make up an ending for the story. Tell the students that before they do the activity in pairs, they will practice as a class.

Display the “Tell Me a Story” chart (WA2) and show story 1 and its accompanying prompt. Read the story aloud, slowly and clearly:

- *Story 1: Today I found a puppy that is not like any puppy I have ever seen. The puppy I found is bizarre. One bizarre thing about the puppy is . . .*

Ask:

**Q** *How might you finish the story? What is bizarre about the puppy?*

Give the students a few moments to think; then point to prompt 1 and have a few volunteers use the prompt to share their thinking with the class.

### Tell Me a Story

Today I found a puppy that is not like any puppy I have ever seen. The puppy I found is bizarre. One bizarre thing about the puppy is . . .

**PROMPT 1:** One **bizarre** thing about the puppy is . . .

WA2

**PROMPT 1:** “One bizarre thing about the puppy is . . .”

## 6 Do the Activity in Pairs

Continue doing the activity in pairs. Tell the students that you will tell them the beginning of another story that includes the word *bizarre*. Explain that when you say “Turn to your partner,” partners will take turns using a prompt to discuss how they might finish the story.

Show story 2 on the chart (WA2) and read the story aloud:

- Story 2: *When I got to school this morning, I couldn't believe my eyes. Nothing was as usual. Everything was bizarre. One bizarre thing was . . .*

Ask:

**Q** *How might you finish the story? What bizarre thing did you see?*

Give the students a few minutes to think; then point to prompt 2.

**PROMPT 2:** “One bizarre thing was . . .”

Say “Turn to your partner” and have partners use the prompt to take turns answering the questions. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the word *bizarre* and ask:

**Q** *What's the new word we are learning that means “very strange or odd”?*

### Teacher Note

If the students have difficulty thinking of an ending, review the definition of *bizarre* and think aloud about an ending. For example, say “A bizarre thing about the puppy is that it talks. It said, ‘Will you take me home?’” Then reread the beginning of the story aloud and repeat the questions. If the students continue to struggle, ask questions such as “What is bizarre about how the puppy [looks/sounds]?” and “What is bizarre about what the puppy does?”

### Teacher Note

If necessary, review the procedures for “Turn to Your Partner” (see Step 1 in Unit 1, Week 1, Day 2 of the *Teacher's Manual*).

### Teacher Note

Follow this procedure for all subsequent “Turn to Your Partner” activities.

### Teacher Note

Repeating the definition of the word and having the students pronounce it are additional opportunities for the students to hear the word and think about its meaning.

**ELPS 1.C.i**  
Steps 7–10  
(all, beginning on page  
10 and continuing on  
to page 11)

**TEKS 7.F.i**  
Student/Teacher Narrative  
Steps 7–10  
(all, beginning on page 10 and  
continuing on to page 12)

## INTRODUCE AND USE *EFFECTIVE* AND *INEFFECTIVE*

### 7 Introduce and Define *Effective*

Show pages 28–29 of *A Bad Case of Stripes* and review that an old woman comes to Camilla’s house. She says that she can help Camilla with her problem. She pulls out a container of lima beans and pops a handful into Camilla’s mouth.

Show pages 30–31 and read page 30 aloud. Point out that the lima beans are effective because they cure Camilla. Tell the students that *effective* is the next word they will learn today. Explain that something effective works well or produces the result that is wanted. Point out that the beans are effective because they work well and produce the result that Camilla wants: she is back to normal.

Display word cards 2–3 (WA3), and click to reveal word card 2. Have the students say the word *effective*.

### 8 Talk More About *Effective* and Introduce and Define *Ineffective*

Show pages 14–17 of *A Bad Case of Stripes* and remind the students that before the old woman comes, doctors give Camilla a bottle with different colored pills. Read page 16 aloud.

Ask:

 **Q** *Is the medicine that the doctors give Camilla effective? Does it work well? Why?* [Click 1 on WA3 to reveal the first prompt.] *Turn to your partner.*

WA3

effective3

**PROMPT 1:** The medicine [is/is not] **effective** because . . .

12345

**PROMPT 1:** “The medicine [is/is not] effective because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students' attention and have a few volunteers use the prompt to share their thinking with the class.

Explain that the medicine is not effective. Tell the students that another word for "not effective" is *ineffective* and that *ineffective* is the last word the students will learn today. Explain that something ineffective does not work well or produce the result that is wanted.

Direct the students' attention to word cards 2–3 (WA3) and click to reveal word card 3. Have the students say the word *ineffective*.

## 9 Introduce the Prefix *in-* and Antonyms

Point to the prefix *in-* in *ineffective* and explain that *in-* is a prefix. Tell the students that a *prefix* is a "letter or group of letters that is added to the beginning of a word to make a new word."

Explain that the prefix *in-* means "not." Point out that when *in-* is added to the word *effective*, it makes the word *ineffective*, which means "not effective." Point out that *effective* and *ineffective* are antonyms, and explain that *antonyms* are "words with opposite meanings."

## 10 Play the Game "Effective or Ineffective?"

Tell the students that partners will play a game called "Effective or Ineffective?" Explain that you will describe someone who has a problem and then describe the person's solution. When you say "Turn to your partner," partners will discuss whether they think the person's solution will be effective or ineffective and explain why they think so. Tell the students that partners may not always agree and that is fine. What is important is that they explain their thinking.

Tell the students that before they play the game in pairs, they will practice playing as a class. Then read the following scenario aloud twice:

- *Mr. Chan is very, very cold. He drinks a cup of cold tea to help him warm up.*

Ask:

**Q** *Will drinking the cold tea be effective or ineffective in helping Mr. Chan warm up? Why?*

Click **2** on word cards 2–3 (WA3) to reveal the prompt.

**PROMPT 2:** "Drinking the cold tea will be [effective/ineffective] because . . ."

Have one or two volunteers use the prompt to share their thinking with the class.

Then discuss as a class:

**Q** *What might Mr. Chan do that would be an effective way to warm up?*

Click **3** to reveal the next prompt.

### Teacher Note

You might explain that the letters *in* at the beginning of a word are not always the prefix *in-*. Explain that when a group of letters is a prefix, there is a real word left when you remove the letters. Removing the letters *in* from *ineffective* leaves *effective*, which is a real word, so *in-* is a prefix. Point out, however, that if you remove the letters *in* from the beginning of the word *invention*, you are left with *vention*. Explain that *vention* is not a real word, so the letters *in* at the beginning of *invention* are not a prefix.

### Technology Tip

To find web-based activities that focus on using prefixes to determine word meanings, you might search online using the keywords "whiteboard prefixes activities." For more information, view the "Using Web-based Whiteboard Activities" tutorial (AV42).

### Technology Tip

To find web-based activities that focus on recognizing antonyms, you might search online using the keywords "whiteboard antonyms activities." For more information, view the "Using Web-based Whiteboard Activities" tutorial (AV42).

## Teacher Note

You might say “blank” for the missing word or words and explain that this is where the students use their own words to answer the question.

## Teacher Note

Send home with each student a copy of the introductory family letter (BLM1). Encourage the students to talk about ways in which they are learning new words with their families.

**PROMPT 3:** “\_\_\_\_\_ would be an effective way to warm up because . . .”

Have one or two volunteers use the prompt to share their thinking with the class.

## 11 Play “Effective or Ineffective?” in Pairs

Continue to play the game with the students in pairs, using the scenario that follows. Read the scenario aloud twice:

- *Marta finds a bird with a broken wing. She needs to take the bird to a veterinarian (a doctor who treats sick or injured animals). Marta finds a box that has a lid she can poke holes in.*

Ask:

**Q** *Will the box with holes in the lid be an effective or ineffective way to take the bird to the veterinarian? Why? [Click 4 to reveal the prompt.] Turn to your partner.*

**PROMPT 4:** “The box will be [effective/ineffective] because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have one or two volunteers use the prompt to share their thinking with the class.

Then discuss as a class:

**Q** *What else might Marta use that would be an effective way to take the bird to the veterinarian?*

Click 5 to reveal the next prompt.

**PROMPT 5:** “\_\_\_\_\_ would be an effective way to take the bird to the veterinarian because . . .”

Have one or two volunteers use the prompt to share their thinking with the class.

Point to the word *effective* and ask:

**Q** *What’s the new word we are learning that means “works well or produces the result that is wanted”?*

Point to the word *ineffective* and ask:

**Q** *What’s the new word we are learning that is an antonym of effective and means “does not work well or produce the result that is wanted”?*

Tell the students that tomorrow they will talk more about the words they learned today.

## MORE STRATEGY PRACTICE

More Strategy Practice activities provide the students with additional opportunities to review and use an independent word-learning strategy. The activities are optional and can be done at the end of a lesson or at another time.

### Start an Antonym Chart

Help the students develop an understanding of antonyms by starting an antonym chart. Write the title “Antonyms” on a sheet of chart paper and post the chart where everyone can see it. Remind the students that *antonyms* are “words with opposite meanings” and that earlier they discussed the antonyms *effective* and *ineffective*. Review the meanings of *effective* and *ineffective* and write the words on the chart.

Invite the students to suggest other antonyms and add them to the chart. (If the students have trouble thinking of antonyms, stimulate their thinking by providing a few more examples such as *awake* and *asleep*, *clean* and *dirty*, and *wide* and *narrow*.) Throughout the year, encourage the students to share other antonyms they think of with the class; then add the antonyms the students suggest to the chart.

**ELPS 4.C.i**  
More Strategy Practice (all)

#### Materials

- Chart paper and a marker

#### Teacher Note

Post the “Antonyms” chart to use throughout the year.

## Review *Bizarre, Effective, and Ineffective*

## Day 2

#### In this lesson, the students:

- Review and practice using the words *bizarre*, *effective*, and *ineffective* from Day 1
- Build their speaking and listening skills
- Listen respectfully to the thinking of others and share their own

#### Words Reviewed

##### **bizarre**

*Bizarre* means “very strange or odd.”

##### **effective**

Something effective works well or produces the result that is wanted.

##### **ineffective**

Something ineffective is not effective. It does not work well or produce the result that is wanted.

#### Materials

- Daily review cards (WA4)

## REVIEW THE WORDS

### 1 Briefly Review the Words

If necessary, review the procedure for gathering on the rug. Have the students move to the rug with partners sitting together, facing you.

Display the daily review cards (11 WA4) and remind the students that yesterday they learned three words from or about the story *A Bad Case of Stripes*. Point to each of the following words as you review the pronunciation and meaning: *bizarre*, *effective*, and *ineffective*. Explain that today they will talk more about the words.

Discuss as a class:

**Q** Which of the words we learned yesterday do you think was especially fun to talk about? Why do you think that?

Click 1 on the daily review cards (WA4) to reveal the first prompt. Have a few volunteers use the prompt to share their thinking with the class.

WA4

bizarre effective ineffective

**PROMPT 1:** The word \_\_\_\_\_ was especially fun to talk about because . . .

1 2 3 4

**PROMPT 1:** “The word [*bizarre*] was especially fun to talk about because . . .”

## PRACTICE USING THE WORDS

### 2 Introduce the Game “Make a Choice”

Tell the students that partners will use the words to play a game called “Make a Choice.” Explain that you will ask a question that gives two choices. Then partners will discuss which one they would choose and explain why. Tell the students that before they play the game in pairs, they will practice playing the game as a class.

Point to the word *effective* and explain that the students will use the word *effective* to play the first round of the game.

**ELPS 1.A.i**  
Step 2 and Step 3  
(all, beginning on page 14  
and continuing on to  
page 15)

Ask:

**Q** Which of these is an effective way to cool off if you are very hot: jumping in a swimming pool or wrapping yourself in a blanket? Why?

Give the students a few moments to think about the questions. Then click **2** to reveal the prompt and have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT 2:** “[Jumping in a swimming pool] is an effective way to cool off because . . .”

### 3 Play “Make a Choice” in Pairs

Tell the students that they will now play the game in pairs. Point to the word *bizarre* and ask:

 **Q** Which of these is bizarre: a sandwich made with turkey, lettuce, and tomato or a sandwich made with lizard tongues and swamp grass? Why? [Click **3** to reveal the prompt.] Turn to your partner.

**PROMPT 3:** “A sandwich made with [lizard tongues and swamp grass] is bizarre because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, point to the word *ineffective* and ask:

 **Q** Which of these would be an ineffective shelter in a storm: a sturdy, well-built house or a house that is falling down and has holes in the roof? Why? [Click **4** to reveal the prompt.] Turn to your partner.

**PROMPT 4:** “[A house that is falling down and has holes in the roof] would be an ineffective shelter because . . .”

Tell the students that tomorrow they will learn and talk about three new words.

## MORE ELL SUPPORT

**ELPS 1.C.i**

More ELL Support (all)

### Explore Antonyms

Briefly review the meanings of *effective* and *ineffective*. Remind the students that *effective* and *ineffective* have opposite meanings and that words with opposite meanings are called *antonyms*. If you started an antonym chart, review other antonyms from the chart.

Explain that you will say a word and the students will say its antonym. Ask:

**Q** What is the antonym of [tall]?

### ELL Note

Rather than having the students choose between options, you might have them discuss each option individually by asking, “Is jumping in a swimming pool an effective way to cool off? Why?” and then asking, “Is wrapping yourself in a blanket an effective way to cool off? Why?”

### ELL Note

More ELL Support activities provide English Language Learners with additional opportunities to build vocabulary and oral language skills. For more information about English Language Learners and how to support them, see “Support for English Language Learners (ELLs)” in the Introduction.

### Teacher Note

If you did not start an antonym chart earlier (see the more strategy practice activity “Start an Antonym Chart” on page 13), you may want to start a chart now. The students can suggest antonyms to add to the chart.

Have one or two volunteers share their thinking with the group. You might support the students by providing a sentence starter, such as “The antonym of [*tall*] is [*short*].”

Continue with several other antonyms such as *off/on*, *lost/found*, *wet/dry*, and *fast/slow*.

# Day 3

## Introduce “Get-up-and-go,” *Sag*, and *Creak*

### Materials

- *The Old Woman Who Named Things*
- Word card 4 (WA5)
- Word card 5 (WA6)
- Word card 6 (WA7)

### In this lesson, the students:

- Learn and use the words *sag* and *creak* and the idiom “get-up-and-go”
- Discuss idioms
- Build their speaking and listening skills
- Listen respectfully to the thinking of others and share their own

### Words Taught

**get-up-and-go** (p. 8)

“Get-up-and-go” means “energy.”

**sag** (p. 8)

*Sag* means “droop or hang down.”

**creak** (p. 8)

*Creak* means “make a sharp, squeaking sound.”

### ABOUT RECOGNIZING IDIOMS

In this lesson, the students are introduced to idioms through the expression “get-up-and-go.” They learn that an *idiom* is an “expression or phrase that means something different from what it appears to mean.” They also learn that idioms can make speech and writing more interesting because they are a way to say ordinary things in funny or unusual ways. In subsequent lessons, the students will discuss other idioms, including “sidesplitting,” “nosing around,” and “lend a hand.” We suggest that you start an idioms chart this week and add to it during the year (see the more strategy practice activity “Discuss Idioms” on page 22). For a complete table of the idioms taught in grade 4, see Appendix C. For more information about recognizing idioms and other independent word-learning strategies, see “Independent Word-learning Strategies” in the Introduction.

# INTRODUCE AND USE “GET-UP-AND-GO”

## 1 Introduce and Define “Get-up-and-go”

Gather the class with partners sitting together, facing you.

Review with the students that earlier in the week they learned three words from or about the book *A Bad Case of Stripes*. Explain that today they will learn words from another story they heard earlier, *The Old Woman Who Named Things*.

Show the cover of *The Old Woman Who Named Things* and briefly review that the old woman is worried that she will outlive her friends and will not have anyone she can call by name. Show page 8 and read it aloud, emphasizing the words “get-up-and-go.”

Tell the students that the first word they will learn today is actually a phrase—“get-up-and-go.” Explain that “get-up-and-go” means “energy.” Point out that even though Betsy is an old car, she runs well and gets the old woman where she needs to go. Betsy has lots of get-up-and-go, or energy.

Display word card 4 (🌍 WA5) and have the students say “get-up-and-go.”

## 2 Introduce Idioms

Point to “get-up-and-go” and tell the students that “get-up-and-go” is an idiom. Explain that an *idiom* is “an expression or phrase that means something different from what it appears to mean.”

Explain that when the old woman describes Betsy as having get-up-and-go, she does not mean that the car actually gets up and goes somewhere. Instead, she means that the car has lots of energy and power and is ready to go out on the road.

## 3 Discuss Times When the Students Have Get-up-and-go

Give examples of times when you have get-up-and-go.

### You might say:

“On Saturday after a good night’s sleep, I have lots of get-up-and-go, or energy, to do the things I don’t have time for during the week. I do the laundry, go grocery shopping, and make a special dinner. When I am on vacation, I have a lot of get-up-and-go because I’m not tired from working. I like to go sightseeing, take hikes, swim, and go out to eat.”

Ask:

**Q** *When do you have get-up-and-go? What do you like to do when you have get-up-and-go?* [Click 1 on WA5 to reveal the prompt.] Turn to your partner.

### ELPS 2.C.ii

Steps 1–3

(all, beginning on page 17 and continuing on to page 18)

### Teacher Note

Frequently repeating a word when you introduce it reinforces its pronunciation and meaning.

### ELL Note

Idioms can be especially challenging for English Language Learners to understand and use. To help make the meaning of “get-up-and-go” clearer, you might invite volunteers to act out what they like to do when they have get-up-and-go. Alternatively, you might ask the students to draw pictures of what they like to do when they have get-up-and-go and then write about their pictures.

get-up-and-go

**PROMPT 1:**I have **get-up-and-go** when . . .**and**When I have **get-up-and-go**, I like to . . .

1

**PROMPT 1:** “I have get-up-and-go when . . .” and “When I have get-up-and-go, I like to . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the idiom “get-up-and-go” and ask:

**Q** *What’s the idiom we are learning that means “energy”?*

## INTRODUCE AND USE SAG

### 4 Introduce and Define *Sag*

Show page 8 of *The Old Woman Who Named Things* again. Read the following sentence aloud, emphasizing the word *sagged*: “Her chair, Fred, had never sagged a day in his life.”

Tell the students that *sag* is the next word they will learn today, and explain that *sag* means “droop or hang down.”

Point to the chair in the illustration and explain that the cushion is firm (strong and solid). It is not sagging, or sinking, as cushions sometimes do when they have been sat on a lot.

Display word card 5 (🗉 WA6) and have the students say the word *sag*.

### 5 Introduce the Activity “Imagine That!”

Tell the students that they will do an activity called “Imagine That!” Explain that you will describe a scene and ask them to visualize, or make pictures in their minds, about what they hear. Then they will use the word *sagging* to talk about what they visualized. Tell the students that before they do the activity in pairs, they will practice it as a class.

### Teacher Note

Some students may be familiar with the word *sag* or other words you introduce. If so, tell the students that thinking about the word gives them a chance to learn more about it and practice using it.

Have the students close their eyes and picture the following scenario as you read it aloud:

- *You are trying to fall asleep on a bed with a mattress that sags.*

Ask:

**Q** *How does the sagging mattress look? How does it feel?*

Give the students a few moments to think about the questions; then have them open their eyes. Click **1** on word card 5 (WA6) to reveal the first prompt.

sag

**PROMPT 1:** The **sagging** mattress [looks/feels] like . . .

1 2 3

WA6

**PROMPT 1:** “The sagging mattress [looks/feels] like . . .”

Have a few volunteers use the prompt to share their thinking with the class.

## **6** Do the Activity in Pairs

Continue the activity with the students in pairs. Using the same procedure, have the students picture and discuss this scenario:

- *It is snowing heavily outside. Snow is piling up on the branches of the old pine tree in your front yard, and the branches are sagging.*

Ask:

 **Q** *How do the sagging branches look? [Pause.] Open your eyes. [Click **2** on WA6 to reveal the prompt.] Turn to your partner.*

**PROMPT 2:** “The sagging branches look like . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention and ask a few volunteers to share their thinking with the class.

## 7 Act Out Sagging

Tell the students that people can sometimes sag. Explain that when people are tired or are disappointed because something did not turn out as they wish, their shoulders might sag, or droop. Demonstrate the way sagging shoulders look by standing with your back straight and shoulders raised and then letting your shoulders sag.

Tell the students that people's heads can also sag. Explain that people sometimes fall asleep when they are sitting up, and their heads sag. Tell the students that partners will take turns showing each other how their heads might sag if they were falling asleep sitting up. Then you will ask one or two volunteers to share what they saw their partners do.

Have partners take turns demonstrating how their heads might sag. Then ask:

**Q** *What happened when your partner's head sagged?*

Click **3** to reveal the prompt. Have one or two volunteers use the prompt to share what they saw their partners do with the class.

**PROMPT 3:** "When my partner's head sagged . . ."

Point to the word *sag* and ask:

**Q** *What's the new word we are learning that means "droop or hang down"?*

## INTRODUCE AND USE CREAK

### 8 Introduce and Define Creak

Show page 8 of *The Old Woman Who Named Things* again. Read the following sentence aloud, emphasizing the word *creak*: "Not one creak or moan had she ever heard out of her old bed, Roxanne."

Tell the students that *creak* is the last word they will learn today, and explain that *creak* means "make a sharp, squeaking sound." Display word card 6 (WA7) and have the students say the word *creak*.

Describe the way that old furniture, such as a bed or a chair, sometimes creaks, or makes sharp, squeaking sounds, when you lie or sit on it. Then make a creaking sound to demonstrate how a chair or bed might creak. Point out that the old lady's bed does *not* creak, even though it is old.

Explain that some old wooden staircases creak when they are stepped on and that some wooden floors creak when they are walked on. Point out that a door or gate can also creak.

Ask:

**Q** *When might a door or gate creak? How might it sound?* [Click **1** on WA7 to reveal the first prompt.] *Turn to your partner.*

creak

**PROMPT 1:** A \_\_\_\_\_ might **creak** when  
\_\_\_\_\_. It might sound like . . .

1
2

**PROMPT 1:** “A [door/gate] might creak when [someone opens it]. It might sound like . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

## 9 Do the Activity “Imagine That!”

Tell the students that partners will again do the activity “Imagine That!” Review that the students will imagine a scenario in which something is creaking. Then partners will discuss what might be creaking and explain why they think that.

Ask the students to close their eyes and imagine the following situation as you read it aloud:

- *You and a friend are exploring an old, empty house. You hear a creaking sound somewhere behind you. [Make a creaking sound.]*

Ask:

**Q** *Who or what is making the creaking sound? [Pause.] Open your eyes. [Click 2 to reveal the prompt.] Turn to your partner.*

**PROMPT 2:** “[My little brother] is making the creaking sound . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the word *creak* and ask:

**Q** *What’s the new word we are learning that means “make a sharp, squeaking sound”?*

Tell the students that tomorrow they will talk more about the words they learned today.

### Teacher Note

Listen as the partners talk. If the students struggle to suggest what might make the creaking sound, call for their attention and think aloud about what might be making it. For example, say “My little brother is making the creaking sound. He followed us into the house, and the floor is creaking as he walks across it.” Then ask the question again.

## Materials

- Chart paper and a marker

### Teacher Note

For a list of common idioms, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Idioms” list in the General Resources section.

### Teacher Note

Post the “Idioms” chart to use throughout the year.

## MORE STRATEGY PRACTICE

### Discuss Idioms

Write the phrase “get-up-and-go” where everyone can see it. Remind the students that “get-up-and-go” is an idiom and that an *idiom* is “an expression or phrase that means something different from what it appears to mean.” Review that when we say that someone has get-up-and-go, we do not mean that the person gets up and goes somewhere. Instead, we mean that the person is full of energy.

Explain that there are thousands of idioms in the English language and that people use idioms because they are a way to say ordinary things in interesting or unusual ways. For example, if someone is feeling great because something wonderful has happened to him, he might say, “I’m on top of the world.” Explain that “on top of the world” is an idiom that means “feeling terrific!”

Explain that “hot under the collar” is another idiom people use to describe how they are feeling.

Discuss as a class:

**Q** *What do you think someone means when she says, “I was really hot under the collar”?*

Have a few volunteers share their thinking with the class. If necessary, explain that “hot under the collar” means “angry—so angry that you feel flushed and hot.”

Explain that “put on your thinking cap” is an idiom that students sometimes hear teachers use at school.

Ask and discuss as a class:

**Q** *What do you think it means if a teacher asks you to put on your thinking cap? (think hard)*

Write the title “Idioms” on a sheet of chart paper and post where everyone can see it. Write the idioms “get-up-and-go,” “hot under the collar,” and “put on your thinking cap” on the chart. Ask the students to listen for other idioms and to look for them in their reading. Throughout the year, encourage the students to share other idioms they think of with the class; then add the idioms the students suggest to the chart.

# Review “Get-up-and-go,” Sag, and Creak

# Day 4

## In this lesson, the students:

- Review and practice using the words *sag* and *creak* and the idiom “get-up-and-go” from Day 3
- Build their speaking and listening skills
- Listen respectfully to the thinking of others and share their own

## Words Reviewed

### get-up-and-go

“Get-up-and-go” means “energy.”

### sag

*Sag* means “droop or hang down.”

### creak

*Creak* means “make a sharp, squeaking sound.”

## REVIEW THE WORDS

### 1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Display the daily review cards (🔊 WA8). Remind the students that yesterday they learned three words from the story *The Old Woman Who Named Things*. Point to the following words as you review the pronunciation and meaning: “get-up-and-go,” *sag*, and *creak*. Tell the students that today they will think more about these words.

Ask:

**Q** Which of yesterday’s words might you use in your writing? How might you use the word?

Give the students a few moments to think. Then click 🔊 on the daily review cards (WA8) to reveal the prompt. Have a few volunteers use the prompt to share their thinking with the class.

## Materials

- Daily review cards (WA8)
- Daily review activity (WA9)
- Copy of this week’s family letter (BLM2) for each student

### ELPS 2.C.iii

#### Step 1

(all, beginning on page 23  
and continuing on to  
page 24)

**ELPS 1.B.i**

(Teacher Notes in green margin on page 24)

**Teacher Note**

If a student uses a word ungrammatically, restate the student's sentence using correct grammar. For example, say "What you said shows that you know the meaning of the word, but we usually say . . ."

**Teacher Note**

Each sentence on the daily review activity (WA9) has a corresponding number: the first sentence is ❶; the second sentence is ❷; the third sentence is ❸. To play the game, click the corresponding number four times:

- The first click reveals the sentence.
- The second click reveals the prompt.
- The third click highlights the correct answer and reveals the sentence with the missing word in place.
- The fourth click clears the screen.

**ELPS 2.C.iii**

Step 2 and Step 3  
(all, beginning on page 24 and continuing on to page 25)

**Teacher Note**

You might explain that the students may need to change the form of the word to complete the sentence by adding an ending such as *-s*, *-ing*, or *-ed*.

get-up-and-go

sag

creak

**PROMPT 1:** I might use the word \_\_\_\_\_ in my writing. I might write . . .

❶

**PROMPT 1:** "I might use the word [creak] in my writing. I might write . . ."

## PRACTICE USING THE WORDS

### 2 Introduce the Game "What's the Missing Word?"

Tell the students that they will play a game called "What's the Missing Word?" Explain that you will read some sentences aloud and that a word will be missing from each one. Explain that the students will decide which vocabulary word could replace the missing word and explain why they think so. Tell the students that they will discuss the first sentence as a class, and then you will ask partners to discuss the other sentences with each other and share their thinking with the class.

Display the daily review activity (🎧 WA9) and begin playing the game:

1. Point to the words "get-up-and-go," *sag*, and *creak*. Then click ❶ to reveal the first sentence and read it aloud. Point out that a word is missing.

- Sentence 1: *It was easy to see that the old man was tired by the way his body \_\_\_\_\_.*

2. Give the students a few moments to think about the sentence. Then ask:

**Q** *What's the missing word? Why do you think so?*

Click ❶ again to reveal the prompt. Point to the prompt and read it aloud.

**PROMPT:** "I think [*sagged*] is the missing word because . . ."

Have a few volunteers use the prompt to share their thinking with the class.

3. Conclude the discussion of this sentence by clicking ❶ a third time to highlight the correct vocabulary word and reveal the sentence with the correct word in place.

WA9

creak	sag	get-up-and-go
-------	-----	---------------

**SENTENCE 1:** It was easy to see that the old man was tired by the way his body sagged.

❶   ❷   ❸

4. Click ❶ to clear the screen.

### 3 Continue Playing the Game in Pairs

Now play the game in pairs:

1. Click ❷ to reveal the second sentence. Read the sentence aloud twice, slowly and clearly.
  - Sentence 2: “I cleaned my room,” Jorge said to his mom. “What else do you want me to do? I’m full of \_\_\_\_\_.”
2. Give the students a few moments to think about the sentence. Then ask:

**Q** What’s the missing word? Why do you think so? [Click ❷ again and read the prompt aloud.] Turn to your partner.

**PROMPT:** “I think [‘get-up-and-go’] is the missing word because . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention and have one or two volunteers share their thinking with the class.

3. Conclude the discussion of this sentence by clicking ❷ a third time to highlight the correct vocabulary word and reveal the sentence with the correct word in place.
4. Click ❷ to clear the screen.

Using the same procedure, discuss the following sentence:

- Sentence 3: *The rusty gate \_\_\_\_\_ when I opened it. (creaked)*

Tell the students that tomorrow they will talk more about some of the words they have been learning.

#### Teacher Note

Send home with each student a copy of this week’s family letter (BLM2). Encourage the students to talk about this week’s words with their families.

**TEKS 3.D.i**  
Student/Teacher Narrative

**TEKS 3.D.i**  
Student/Teacher Activity  
Extension  
(last sentence in paragraph)

### Teacher Note

For a list of common homophones, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Homophones” list in the General Resources section.

## EXTENSION

### Discuss Homophones

Write the words *creak* and *creek* where everyone can see them. Ask the students what they notice about the words. Tell the students that the words are homophones and explain that *homophones* are “words that sound the same but have different spellings and meanings.” Point to *creak* and review that *creak* means “make a sharp, squeaking sound.” Point to *creek* and explain that a *creek* is “a stream.” Discuss other examples of homophones, such as *bare* and *bear*, *know* and *no*, and *be* and *bee*. Ask the students for additional examples of homophones and discuss the different meanings of each pair of words.

# Day 5

## Ongoing Review

### Materials

- Ongoing review cards (WA10)

### In this lesson, the students:

- Review words learned earlier
- Build their speaking and listening skills
- Listen respectfully to the thinking of others and share their own

### Words Reviewed

**bizarre**

*Bizarre* means “very strange or odd.”

**creak**

*Creak* means “make a sharp, squeaking sound.”

**effective**

Something effective works well or produces the result that is wanted.

**get-up-and-go**

“Get-up-and-go” means “energy.”

**ineffective**

Something ineffective is not effective. It does not work well or produce the result that is wanted.

**sag**

*Sag* means “droop or hang down.”

## ABOUT ONGOING REVIEW

Research shows that it is critical for students to use a word repeatedly over an extended period of time if the word is to become a permanent part of their vocabularies. Each week we provide an activity for reviewing words. The words reviewed today are the six words the students learned this week. Beginning next week, the review will include words from the most recent week and previous weeks. For more information about Ongoing Review and helping the students retain vocabulary, see “Retaining the Words” in the Introduction.

## REVIEW THE WORDS

### 1 Briefly Review the Words

Gather the class with partners sitting together, facing you. Display the ongoing review cards (🕒 WA10). Remind the students that they learned these words from and about *A Bad Case of Stripes* and *The Old Woman Who Named Things*. Explain that today they will talk more about the words.

Point to the word *bizarre*, pronounce it, and have the students say it.

Ask:

Q *What do you know about the word bizarre?*

Have one or two volunteers share their thinking with the class. Remind them to use the word *bizarre* as they share their ideas.

Use the same procedure to review the remaining words.

## PRACTICE USING THE WORDS

### 2 Introduce the Game “Which Word Am I?”

Tell the students that partners will play a game called “Which Word Am I?” Direct the students’ attention to the ongoing review cards (🕒 WA10) and point to the words. Explain that you will give a clue about one of the words. Partners will figure out which word it is and explain why they think so. Then you will ask a few pairs to share their thinking with the class. Explain that a clue may describe more than one word.

Tell the students that before they do the activity in pairs, they will practice as a class. Begin by reading the following clue aloud twice:

- *I’m how you would describe a sore throat treatment that makes your throat feel better.*

Then ask:

Q *Which word am I? Why do you think that?*

### Teacher Note

Even when the students know the meaning of a word, it is often difficult for them to articulate a definition. For this reason, we do not ask the students the question “What does the word *bizarre* mean?” Instead we ask them what they know about the word, giving them an opportunity to show their understanding of the word’s meaning in various ways (for example, by using the word in a sentence, giving an example of a situation in which the word might be used, or acting out the word). If the students do not recall the meaning of the word, tell them.

Click ❶ on the ongoing review cards (WA10) to reveal the prompt.

WA10

bizarre	creak	effective
get-up-and-go	ineffective	sag

**PROMPT 1:** I think the word is \_\_\_\_\_ because . . .

❶

**PROMPT 1:** “I think the word is [*effective*] because . . .”

Give the students a few moments to think; then have one or two volunteers use the prompt to share their thinking with the class.

### 3 Continue Playing the Game in Pairs

Now play the game in pairs. Read the following clue aloud twice:

- *I'm what you are full of when you are feeling energetic.*

Point to the words on the ongoing review cards (WA10) and ask:

 **Q** Which word am I? Why do you think that? [Point to prompt 1.] Turn to your partner.

**PROMPT 1:** “I think the word is [*‘get-up-and-go’*] because . . .”

Have partners use the prompt to discuss the questions. When most pairs have finished talking, signal for their attention and have one or two volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following:

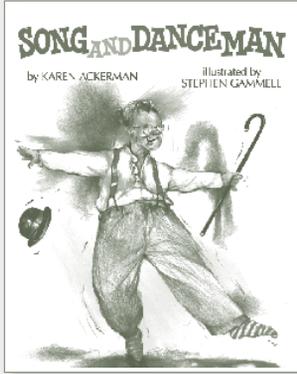

- *I'm what an old, worn-out sofa does. (sag/creak)*
- *I'm the sound an old floor makes when you walk on it. (creak)*
- *I'm the opposite of effective. (ineffective)*
- *I'm how you would describe a purple cow that oinks like a pig. (bizarre)*

Tell the students that next week they will learn more new words.

# Week 2

## RESOURCES

### Read-aloud

- *Song and Dance Man* by Karen Ackerman, illustrated by Stephen Gammell

### More Strategy Practice

- “Talk More About the Meanings of *Trim*”
- “Review the Prefix *in-*”

### Assessment Resource Book

- Week 2 vocabulary assessment

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

### Whiteboard Activities

- WA1–WA9

### Assessment Form

- “Class Vocabulary Assessment Record” sheet (CA1)

### Reproducibles

- Week 2 family letter (BLM1)
- (Optional) “Week 2 Word Cards” (BLM2)
- (Optional) “Week 2 Crossword Puzzle” (BLM3)

### Professional Development Media

- “Using Web-based Whiteboard Activities” tutorial (AV42)

# OVERVIEW

## Words Taught

*reminisce*

*trim*

*transform*

*sidesplitting*

*enthusiastic*

*adore*

## Words Reviewed

bizarre

effective

get-up-and-go

ineffective

sag

## Word-learning Strategies

- Recognizing words with multiple meanings
- Recognizing synonyms
- Recognizing idioms (review)
- Using the prefix *in-* to determine word meanings (review)

## Vocabulary Focus

- Students learn and use six words from or about the story.
- Students discuss words with multiple meanings.
- Students discuss synonyms.
- Students review idioms and the prefix *in-*.
- Students review words learned earlier.
- Students build their speaking and listening skills.

## Social Development Focus

- Students practice the procedure for “Think, Pair, Share.”
- Students share their partners’ thinking with the class.
- Students analyze the effect of their behavior on others and on the group work.
- Students develop the skill of explaining their thinking.

## DO AHEAD

- ✓ This week the students use “Think, Pair, Share” to discuss their thinking in pairs. You may wish to review the procedure for “Think, Pair, Share” prior to Day 1 (see Step 1 in Unit 1, Week 2, Day 1 of the *Teacher’s Manual*). To see an example of how to use this strategy with your students, view “Using ‘Think, Pair, Share’” (AV8).
- 
- ✓ (Optional) Prior to Day 1, review the more strategy practice activity “Talk More About the Meanings of *Trim*” on page 38.
  - ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this week’s family letter (BLM1). Make enough copies to send one letter home with each student.
  - ✓ Prior to Day 5, make a copy of the “Class Vocabulary Assessment Record” sheet (CA1); see page 151 of the *Assessment Resource Book*.
  - ✓ (Optional) Prior to Day 5, review the more strategy practice activity “Review the Prefix *in-*” on page 51.
  - ✓ (Optional) Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the following materials: “Week 2 Word Cards” (BLM2) and “Week 2 Crossword Puzzle” (BLM3). These materials can be used to provide your students with more opportunities to review the words. For more information, see “Additional Ways to Review the Words” in the Introduction.

# Introduce *Reminisce, Trim, and Transform*

# Day 1

## In this lesson, the students:

- Learn and use the words *reminisce*, *trim*, and *transform*
- Discuss words with multiple meanings
- Discuss synonyms
- Practice using “Think, Pair, Share”
- Develop the skill of explaining their thinking

## Words Taught

### **reminisce**

*Reminisce* means “think or talk about events in the past.”

### **trim** (p. 9)

*Trim* means “decorate or add ornaments to something.” *Trim* also means “cut or clip something to make it tidy or make it fit.”

### **transform**

*Transform* means “change completely.”

## ABOUT RECOGNIZING WORDS WITH MULTIPLE MEANINGS

This week we introduce the students to recognizing words with multiple meanings, another strategy that they can use to figure out word meanings as they read independently. The students learn that many words have more than one meaning and that the meanings are often very different. They learn that when they encounter a word with multiple meanings in their reading, they can usually figure out the correct meaning by thinking about how the word is used. This week the students explore the multiple meanings of the word *trim*. In subsequent lessons and in More Strategy Practice activities, they will discuss other multiple-meaning words such as *establish*, *boost*, and *focus*. For a complete table of the multiple-meaning words taught in grade 4, see Appendix C. For more information about recognizing words with multiple meanings and other word-learning strategies, see “Independent Word-learning Strategies” in the Introduction.

## ABOUT RECOGNIZING SYNONYMS

In this lesson, the students are introduced to *synonyms*, or “words that mean the same thing or almost the same thing.” Connecting a new word to a known word that is a synonym helps the students remember the new word. Synonyms also provide the students with words that can replace overused words in their writing, making the writing more interesting. For a complete table of the synonyms discussed in the program, see Appendix C. For more information about recognizing synonyms and other word-learning strategies, see “Independent Word-learning Strategies” in the Introduction.

## Materials

- *Song and Dance Man*
- Word card 7 (WA1)
- Word card 8 (WA2)
- Word card 9 (WA3)

### Teacher Note

Incorporate this week's social development focuses into the lessons by encouraging the students to listen respectfully to one another and to take responsibility for their learning and behavior. At the end of a lesson, you might ask the students what they did to be good listeners. For more about social development in the vocabulary lessons, see "Social Development and Cooperative Structures" in the Introduction.

### Teacher Note

If the students struggle with the pronunciation of *reminisce*, you might have them say the word two or three times as you point to the syllables in the word.

### Teacher Note

To review the procedure for "Think, Pair, Share," see Step 1 in Unit 1, Week 2, Day 1 of the *Teacher's Manual*.

### Teacher Note

Listen as partners talk. If the students struggle to remember events, stimulate their thinking by asking questions such as "What is something fun you have done with your family or friends that you like to remember and talk about?" and "What place have you visited that you like to talk about with your family or friends?"

## INTRODUCE AND USE *REMINISCE*

### 1 Introduce and Define *Reminisce*

Gather the students with partners sitting together, facing you. If necessary, review the procedure and your expectations for how the students will gather.

Show the cover of *Song and Dance Man*, read the title and the name of the author aloud, and remind the students that they heard this story earlier. Explain that the words they will learn this week are from or about this story. Show pages 4–5 and review that Grandpa was an entertainer who sang and danced when he was a younger man. Read page 5 aloud.

Point out that when his grandchildren visit, Grandpa reminisces, or tells them about the "good old days." Tell the students that *reminisce* is the first word they will learn today, and explain that *reminisce* means "think or talk about events in the past." Point out that when Grandpa thinks and talks about the days long ago when he was a song and dance man, he reminisces.

Display word card 7 (🗉 WA1) and have the students say the word *reminisce*.

### 2 Talk About Reminiscing

Explain that we usually use the word *reminisce* to talk about pleasant or enjoyable events from the past, rather than about unhappy memories. Give an example of something pleasant you reminisce about.

#### You might say:

"I often reminisce with my family about fun trips we have taken together. One of my favorite memories is a trip we took to an amusement park. There was a huge roller coaster at the park. I went on the roller coaster with my children, and we had a wonderful time."

Use "Think, Pair, Share" to discuss:

**Q** *What is something pleasant in your past that you reminisce about with your family or friends?*

Give the students a few moments to think about the question.

Click 1 on word card 7 (WA1) to reveal the first prompt. Then say "Turn to your partner." Have partners take turns using the prompt to answer the questions.

reminisce

**PROMPT 1:** I **reminisce** about . . .

1

**PROMPT 1:** “I reminisce about . . .”

When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the word *reminisce* and ask:

**Q** *What’s the new word we are learning that means “think or talk about events in the past”?*

## INTRODUCE AND USE *TRIM*

### 3 Introduce and Define *Trim*

Show pages 8–9 of *Song and Dance Man* and review that Grandpa takes the children to the attic where he keeps the clothes he wore when he was a song and dance man. Read page 9 aloud, emphasizing the word *trimmed*.

Tell the students that *trim* is the next word they will learn today, and explain that *trim* means “decorate or add ornaments to something.” Point to the trunk in the illustration on page 8 and explain that Grandpa’s old trunk is trimmed, or decorated, in leather and brass. Point to the leather straps, the brass buckles, and the brass corners on the trunk. Then point to the banjo case in the illustration, and point out that it is also trimmed, or decorated, around the edges in leather.

Display word card 8 (🌐 WA2) and have the students say the word *trim*.

### 4 Discuss Trimming a Birthday Card

Explain that when tailors or dressmakers make coats or dresses, they sometimes trim, or decorate, the collars or cuffs with fur or velvet. Explain that when teachers or students make a holiday bulletin board, they sometimes trim, or decorate, the edges of the bulletin board with colorful designs or drawings such as snowflakes or Valentine’s Day

### Teacher Note

Follow this procedure for all subsequent “Think, Pair, Share” activities.

### 🌐 ELL Note

English Language Learners may struggle to understand verbal definitions. Using illustrations in a book to introduce a word provides the students with critical visual support for the word’s meaning.

### Teacher Note

Listen as partners talk. If the students struggle to think of ways to trim the card, support them by asking questions such as “How might you color the edges of the card to decorate it?” or “What might you draw along the edges of the card to decorate it?”

### ELL Note

You might make a quick sketch of a birthday card and use a student’s suggestions to trim the edges.

### Technology Tip

To find web-based activities that focus on recognizing words with multiple meanings, you might search online using the keywords “whiteboard multiple-meaning words activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

### Teacher Note

Repeating the definitions of the word and having the students pronounce the word are additional opportunities for the students to hear the word and think about its meanings.

For more practice with the meanings of *trim*, see the more strategy practice activity “Talk More About the Meanings of *Trim*” on page 38.

hearts. Point out that when people make greeting cards, they sometimes trim, or decorate, the edges of the cards.

Ask the students to imagine they are making a birthday card for a friend. Have them suppose that they want to make the card extra nice by trimming, or decorating, the edges of the card.

Use “Think, Pair, Share” to discuss:

**Q** *What might you do to trim the edges of your friend’s birthday card?*  
[Pause; click ❶ on WA2 to reveal the first prompt.] *Turn to your partner.*

**PROMPT 1:** “To trim the edges of the card, I might . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

## 5 Introduce Words with Multiple Meanings

Tell the students that some words have more than one meaning and that the meanings may be very different. Point to the word *trim* on word card 8 (WA2) and review that in the story, *trim* means “decorate or add ornaments to something.” Explain that *trim* has another meaning.

Discuss as a class:

**Q** *What else do you know about the word trim?*

Click ❷ to reveal the prompt.

**PROMPT 2:** “I think *trim* also means . . .”

Have one or two volunteers use the prompt to share their thinking with the class. Then discuss the following question:

**Q** *What do you do when you trim hair or trim grass?*

Click ❸ to reveal the next prompt.

**PROMPT 3:** “When you trim [hair/grass], you . . .”

Have one or two volunteers use the prompt to share their thinking with the class. Tell the students that *trim* can also mean “cut or clip something to make it tidy or make it fit.” Explain that people trim their hair and nails to keep them tidy or cut them shorter. They trim grass and bushes in their yards to keep them short and tidy. Point out that they might also trim a picture to fit into a frame.

Point to the word *trim* and ask:

**Q** *What’s the new word we are learning that means “decorate or add ornaments to something” or “cut or clip something to make it tidy or make it fit”?*

# INTRODUCE AND USE *TRANSFORM*

## 6 Introduce and Define *Transform* and Introduce Synonyms

Show pages 14–15 of *Song and Dance Man* and review that Grandpa puts on a show for the children. Read page 14 aloud. Explain that when Grandpa dances, the children “forget that it’s Grandpa dancing” because he transforms before the children’s eyes from a slow-moving old man into a singing and dancing entertainer.

Tell the students that *transform* is the last word they will learn today, and explain that *transform* means “change completely.” Point out that *transform* and *change* are synonyms, and explain that *synonyms* are “words that mean the same thing or almost the same thing.” Tell the students that thinking about a word they know—like *change*—can help them understand and remember a new word they are learning—like *transform*.

Display word card 9 (🌐 WA3) and have the students say the word *transform*.

## 7 Discuss Transforming

Explain that some animals transform, or change completely, as they develop. For example, caterpillars transform into butterflies and tadpoles transform into frogs. Explain that in stories or movies, ordinary people sometimes transform into superheroes. Ask the students to name a few stories they know in which a character transforms into someone or something else.

Use “Think, Pair, Share” to discuss:

 **Q** *If you could transform into something or someone else, what would it be? Why?* [Pause; click 1 on WA3 to reveal the prompt.] *Turn to your partner.*

**PROMPT 1:** “I would transform into a [bird] because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the word *transform* and ask:

**Q** *What’s the new word we are learning that means “change completely”?*

Tell the students that tomorrow they will talk more about the words they learned today.

**ELPS 1.D.i**  
Step 6 and Step 7 (all)

### **ELL Note**

The Spanish cognate of *transform* is *transformar*.

### **Technology Tip**

To find web-based activities that focus on recognizing synonyms, you might search online using the keywords “whiteboard synonyms activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

**ELPS 2.E.iii**  
Step 7  
(all, including the Teacher Note next to Step 7 in the green margin)

### **Teacher Note**

Frequently repeating a word when you introduce it reinforces its pronunciation and meaning.

---

## MORE STRATEGY PRACTICE

### Talk More About the Meanings of *Trim*

Remind the students that words can have more than one meaning and that the meanings are often very different. Write the word *trim* where everyone can see it. Review that *trim* means “decorate or add ornaments to something” and “cut or clip something to make it tidy or make it fit.”

Tell the students that when they hear or read a word that has more than one meaning, they can usually figure out the correct meaning by thinking about how the word is used. Explain that you will read a scenario, or imaginary situation, that includes the word *trim*. Partners will decide whether *trim* means “decorate or add ornaments to something” or “cut or clip something to make it tidy or make it fit.”

Read the following scenario aloud twice:

- *Mrs. Temple wanted her daughter’s wedding dress to be special, so she trimmed the sleeves and hem of the dress with beautiful white lace.*

Ask:

**Q** *Does trim mean “decorate or add ornaments to something” or “cut or clip something to make it tidy or make it fit”? Why? Turn to your partner.*

Write the following prompt where everyone can see it. Have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT:** “*Trim* means [decorate or add ornaments to something] because . . .”

Using the same procedure, discuss the following scenario:

- *Mr. Juarez looked around his yard. “My goodness,” he thought. “The apple tree has grown too tall. It’s time to trim it.”*

# Review *Reminisce*, *Trim*, and *Transform*

# Day 2

## In this lesson, the students:

- Review and practice using the words *reminisce*, *trim*, and *transform* from Day 1
- Develop the skill of explaining their thinking
- Work in a responsible way

## Words Reviewed

### **reminisce**

*Reminisce* means “think or talk about events in the past.”

### **trim**

*Trim* means “decorate or add ornaments to something.” *Trim* also means “cut or clip something to make it tidy or make it fit.”

### **transform**

*Transform* means “change completely.”

## REVIEW THE WORDS

### 1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Display the daily review cards (WA4), and remind the students that yesterday they learned three words from or about the story *Song and Dance Man*. Explain that today they will think more about these words.

Point to the word *reminisce* and use “Think, Pair, Share” to discuss:

**Q** *With whom do you like to reminisce? Why do you like to reminisce with that person?* [Pause; click 1 on WA4 to reveal the first prompt.] Turn to your partner.

reminisce trim transform

**PROMPT 1:** I like to **reminisce** with \_\_\_\_\_  
because . . .

1 2 3 4 5 6

WA4

## Materials

- Daily review cards (WA4)

### Teacher Note

When a word is shown in square brackets, point to the word before you ask the question.

**ELPS 2.E.iii**  
Step 2  
(all, including the  
Teacher Note next  
to Step 2 in the  
green margin)

### Teacher Note

If the students struggle to answer the questions, call for their attention. Reread the scenario aloud, and explain that *reminisce* does not make sense in the scenario because it says that Tim “calls his friends to reminisce about all the fun they will have at the party.” Explain that the party is in the future and *reminisce* means “think or talk about events in the past.”

**PROMPT 1:** “I like to reminisce with [my sister] because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Repeat the procedure to review the remaining words, using the following questions:

[trim]

**Q** *What might you use to trim weeds? Why?* [Pause; click 2 to reveal the prompt.] *Turn to your partner.*

**PROMPT 2:** “To trim weeds, I might use . . .”

[transform]

**Q** *If you wanted to transform the appearance of your bedroom, what might you do?* [Pause; click 3 to reveal the prompt.] *Turn to your partner.*

**PROMPT 3:** “I might transform the appearance of my bedroom by . . .”

## PRACTICE USING THE WORDS

### 2 Introduce the Game “Does That Make Sense?”

Tell the students that partners will play a game called “Does That Make Sense?” Explain that you will read a scenario, or imaginary situation, that includes one of the vocabulary words. Partners will decide whether or not the word makes sense in the scenario and explain why they think so.

Tell the students that before they play the game in pairs, they will practice playing as a class. Point to the word *reminisce* on the daily review cards (WA4) and tell the students that the first scenario includes the word *reminisce*. Read the following scenario aloud twice:

- *Next week is Tim’s birthday, and he is planning to have a party. He calls his friends to reminisce about all the fun they will have at the party.*

Ask:

**Q** *Does the word reminisce make sense in the scenario? Why do you think that?*

Give the students a few moments to think about the questions. Then click 4 to reveal the prompt. Have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT 4:** “The word *reminisce* [does/does not] make sense because . . .”

### 3 Play the Game in Pairs

Have the students play the game in pairs. Point to the word *trim* on the daily review cards (WA4) and explain that the next scenario includes the word *trim*. Remind the students that as they listen to the scenario, they are to think about whether or not the word *trim* makes sense in the scenario. Then partners will share their thinking.

Read the following scenario aloud twice:

- *The students in Mrs. Keene’s class decide to make a Thanksgiving bulletin board. They trim the bulletin board with drawings of pumpkins and turkeys.*

Ask:

**Q** *Does the word trim make sense in the scenario? Why do you think that?* [Pause; click 5 to reveal the prompt.] *Turn to your partner.*

**PROMPT 5:** “The word *trim* [does/does not] make sense because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following scenario:

**[transform]**

- *Ramon worked hard on his yard. What was once dry, bare earth became a beautiful garden filled with colorful flowers. When his neighbors walk by, they tell him, “You’ve done a wonderful job, Ramon. Your yard is transformed.”*

Ask:

**Q** *Does the word transform make sense in the scenario? Why do you think that?* [Pause; click 6 to reveal the prompt.] *Turn to your partner.*

**PROMPT 6:** “The word *transform* [does/does not] make sense because . . .”

Tell the students that tomorrow they will learn and talk about three new words.

# Day 3

## Introduce *Sidesplitting*, *Enthusiastic*, and *Adore*

### Materials

- *Song and Dance Man*
- Word card 10 (WA5)
- Word card 11 (WA6)
- Word card 12 (WA7)

### In this lesson, the students:

- Learn and use the idiom *sidesplitting* and the words *enthusiastic* and *adore*
- Review idioms
- Share their partners' thinking with the class
- Develop the skill of explaining their thinking

### Words Taught

#### *sidesplitting*

*Sidesplitting* means "extremely funny."

#### *enthusiastic*

When you are enthusiastic about something, you are excited about it or interested in it.

#### *adore*

*Adore* means "love or be very fond of someone or something."

## INTRODUCE AND USE *SIDESPLITTING*

### 1 Introduce and Define *Sidesplitting* and Review Idioms

Gather the class with partners sitting together, facing you.

Show the cover of *Song and Dance Man* to the students and review that earlier they learned three words from or about the story. Explain that today they will learn three more words about the story.

Show pages 20–21 and review that Grandpa is entertaining his grandchildren with a comedy routine. Read pages 20–21 aloud. Point to the illustration on page 21 and tell the students that the children think Grandpa's comedy routine is *sidesplitting*. Tell the students that *sidesplitting* is the first word they will learn today, and explain that *sidesplitting* means "extremely funny."

Display word card 10 (🌍 WA5) and have the students say the word *sidesplitting*.

Point to the word *sidesplitting* and explain that *sidesplitting* is an idiom. Review that the students learned the idiom "get-up-and-go" earlier and that an *idiom* is "an expression or phrase that means something different from what it appears to mean." Explain that when the children see Grandpa's funny routine, their sides do not actually split open from

### ELL Note

Idioms can be especially difficult for English Language Learners to understand and use. To help make the meaning of *sidesplitting* clearer, you might act out the way someone might hold his sides while laughing very hard.

laughing, but they are laughing so hard it *seems* like their sides might split open. Explain that sometimes people hold their sides when they laugh very hard because it can be painful.

## 2 Talk About Things That Are Sidesplitting

Use “Think, Pair, Share” to discuss:

-  **Q** *When have you seen or heard something sidesplitting, or something so funny that you laughed really, really hard?* [Pause; click 1 on WA5 to reveal the first prompt.] *Turn to your partner.*

sidesplitting

**PROMPT 1:** It was **sidesplitting** when . . .

1

WA5

**PROMPT 1:** “It was sidesplitting when . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the word *sidesplitting* and ask:

- Q** *What’s the new idiom we are learning that means “extremely funny”?*

## INTRODUCE AND USE ENTHUSIASTIC

### 3 Introduce and Define *Enthusiastic*

Show pages 26–27 of *Song and Dance Man* and review that in this part of the story Grandpa finishes his performance.

Read page 26 aloud. Point to the illustration on page 26 and explain that the children are enthusiastic about Grandpa’s performance. Tell the students that *enthusiastic* is the next word they will learn today. Explain that when you are enthusiastic about something, you are excited about it or interested in it.

### Teacher Note

If you started an idiom chart, add the word *sidesplitting* to it.

### ELL Note

The Spanish cognate of *enthusiastic* is *entusiasta*.

## Teacher Note

If the students struggle with the pronunciation of *enthusiastic*, you might have them say the word two or three times as you point to the syllables on the chart. You might also mention that the word *enthusiastic* is related to the word *enthusiasm* and that *enthusiasm* is “great excitement or interest.”

## ELL Note

Using illustrations in a book to introduce a word provides the students with critical visual support for the word’s meaning.

Display word card 11 (🌐 WA6) and have the students say the word *enthusiastic*.

Point to the illustration on page 26 again, and discuss as a class:

**Q** *What are the children doing that shows they are enthusiastic, or excited, about Grandpa’s performance?*

Click ❶ on word card 11 (WA6) to reveal the first prompt. Have a few volunteers use the prompt to share their thinking with the class.

**PROMPT 1:** “The children show they are enthusiastic by . . .”

If necessary, explain that the children show they are enthusiastic by standing, clapping, and shouting. Their big smiles also show they are enthusiastic.

## 4 Talk About Being Enthusiastic

Remind the students that when you are enthusiastic about something, you are excited about it or interested in it. Give a few examples of things you or people you know are enthusiastic about.

### You might say:

“I am enthusiastic about running. Every morning I run three miles no matter what the weather is like. My husband is enthusiastic about gardening. He spends a lot of time outdoors, taking care of the lawn and garden. My son is enthusiastic about movies. He goes to lots of movies and watches many others at home.”

Explain that partners will talk about things they are enthusiastic about, and then some students will share their partners’ thinking with the class.

Ask:

 **Q** *What is something you are enthusiastic about? What do you do that shows you are enthusiastic?* [Click ❷ on WA6 to reveal the prompt.] *Turn to your partner.*

**PROMPT 2:** “I am enthusiastic about [baseball]. I show I am enthusiastic by [playing baseball with my friends and watching baseball games on TV].”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention. Then click ❸ to reveal the next prompt. Have a few volunteers use the prompt to share their partners’ thinking with the class.

**PROMPT 3:** “My partner is enthusiastic about [baseball]. She shows she is enthusiastic by [playing baseball with her friends and watching baseball games on TV].”

Point to the word *enthusiastic* and ask:

Q *What's the new word we are learning that means "feeling excited about or interested in something"?*

## INTRODUCE AND USE ADORE

### 5 Introduce and Define Adore

Show pages 28–29 of *Song and Dance Man* and review that at the end of the story Grandpa hugs the children. Read page 28 aloud. Point to the illustration on page 28 and explain that Grandpa adores the children and they adore him. Tell the students that *adore* is the last word they will learn today, and explain that *adore* means “love or be very fond of someone or something.”

Display word card 12 (🎧 WA7) and have the students say the word *adore*.

### 6 Talk About People and Things We Adore

Explain that partners will talk about people they adore, and then some students will share their partners' thinking with the class.

Ask:

Q *Who is someone you adore? Why?* [Click 1 on WA7 to reveal the first prompt.] *Turn to your partner.*

**PROMPT 1:** “I adore [my mother] because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students' attention. Then click 2 to reveal the next prompt. Have a few volunteers use the prompt to share their partners' thinking with the class.

**PROMPT 2:** “My partner adores [her mother] because . . .”

Explain that people can also adore *things*, such as favorite foods, animals, or places. For example, some people adore pizza and other people adore spaghetti. Some people adore puppies and other people adore kittens. Some people adore a day at the beach and other people adore a day at the zoo.

Tell the students that partners will talk about things they adore, and then some students will share their partners' thinking with the class.

Ask:

Q *What is something you adore? Why?* [Click 1 to reveal prompt 1.] *Turn to your partner.*

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students' attention. Then click 2

#### ELL Note

The Spanish cognate of *adore* is *adorar*.

# Day 4

## Review *Sidesplitting*, *Enthusiastic*, and *Adore*

### Materials

- Daily review cards (WA8)
- Copy of this week's family letter (BLM1) for each student
- (Optional) Copy of the "Week 2 Crossword Puzzle" (BLM3) for each student

### Teacher Note

Rather than giving the meaning yourself, you might have the students tell what they know about the word.

to reveal prompt 2. Have a few volunteers use the prompt to share their partners' thinking with the class.

Point to the word *adore* and ask:

**Q** *What's the new word we are learning that means "love or be very fond of someone or something"?*

Tell the students that tomorrow they will talk more about the words they learned today.

### In this lesson, the students:

- Review and practice using the words *sidesplitting*, *enthusiastic*, and *adore* from Day 3
- Develop the skill of explaining their thinking
- Work in a responsible way

### Words Reviewed

#### ***sidesplitting***

*Sidesplitting* means "extremely funny."

#### ***enthusiastic***

When you are enthusiastic about something, you are excited about it or interested in it.

#### ***adore***

*Adore* means "love or be very fond of someone or something."

## REVIEW THE WORDS

### 1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Display the daily review cards (WA8) and remind the students that yesterday they learned three words about the story *Song and Dance Man*. Point to each of the following words as you review the pronunciation and meaning: *sidesplitting*, *enthusiastic*, and *adore*. Tell the students that today they will think more about the words.

Then discuss as a class:

**Q** *Would you find it sidesplitting if someone you adored slipped on the ice and fell? Why?*

Click ❶ on the daily review cards (WA8) to reveal the first prompt. Have a few volunteers use the prompt to share their thinking with the class.

WA8

sidesplitting enthusiastic adore

**PROMPT 1:** I [would/would not] find it **sidesplitting** if someone I **adored** slipped and fell because . . .

❶ ❷ ❸ ❹ ❺

**PROMPT 1:** “I [would/would not] find it sidesplitting if someone I adored slipped and fell because . . .”

Then ask:

**Q** *Would you be enthusiastic about going to a place you adore? Why?*

Click ❷ to reveal the next prompt and have a few volunteers use the prompt to share their thinking with the class.

**PROMPT 2:** “I [would/would not] be enthusiastic about going to a place I adore because . . .”

## PRACTICE USING THE WORDS

### 2 Introduce the Activity “Which Word Goes With?”

Tell the students that partners will do an activity called “Which Word Goes With?” Tell them that you will write a word like *fun*, *friend*, or *play* where everyone can see it. Explain that they are to think about which of yesterday’s vocabulary words goes with the word you write. Tell the students that when you say “Turn to your partner,” partners will discuss which word goes with the word you wrote and explain why they think so. Then you will ask some pairs to share their thinking with the class.

Point out that the word you write might go with more than one of the vocabulary words. Explain that partners may not always agree and that is fine. What is important is that they explain their thinking.

## Teacher Note

If the students struggle to make associations, think aloud about associations you might make and why. For example, say “I think *enthusiastic* goes with *fun* because if I think something is fun, I’m enthusiastic about it. I think *sidesplitting* goes with *fun*, too, because if something is sidesplitting, it is really funny. I also think *adore* can go with *fun*. If something is fun, you adore doing it.” Then continue the activity by discussing the word *friend* as a class, rather than in pairs.

## Teacher Note

If the students continue to have trouble making associations, think aloud about questions such as “How might the word *adore* go with *friend*? Who is a friend that you adore? Why do you adore your friend?” “How might the word *enthusiastic* go with *friend*? What is something you are enthusiastic about doing with a friend?” and “How might the word *sidesplitting* go with *friend*? What is something sidesplitting you have seen a friend do or heard a friend say?”

## Teacher Note

Send home with each student a copy of this week’s family letter (BLM1). Encourage the students to talk about this week’s words with their families.

## Teacher Note

To provide students with additional review of words taught during Weeks 1 and 2, you might distribute a copy of the “Week 2 Crossword Puzzle” (BLM3) to each student.

Tell the students that before they do the activity in pairs, they will practice doing it as a class. Write the word *fun* where everyone can see it, and read the word aloud. Then point to the daily review cards (WA8) and ask:

**Q** Which of yesterday’s words do you think goes with fun? Why do you think that?

Give the students a few moments to think about the questions. Then click **3** to reveal the prompt. Have a few volunteers use the prompt to share their thinking with the class.

**PROMPT 3:** “I think [*enthusiastic*] goes with *fun* because . . .”

## 3 Do the Activity in Pairs

Now have the students do the activity in pairs. Write the word *friend* where everyone can see it and pronounce the word.

Ask:

**Q** Which of yesterday’s words do you think goes with friend? Why do you think that? [Click **4** to reveal the prompt.] Turn to your partner.

**PROMPT 4:** “I think [*adore*] goes with *friend* because . . .”

Have partners use the prompt to discuss the questions. When most pairs have finished talking, signal for the students’ attention. Have one or two volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the word *play*.

**Q** Which of yesterday’s words do you think goes with play? Why do you think that? [Click **5** to reveal the prompt.] Turn to your partner.

**PROMPT 5:** “I think [*enthusiastic*] goes with *play* because . . .”

Tell the students that tomorrow they will talk more about some of the words they have been learning.

## In this lesson, the students:

- Review words learned earlier
- Develop the skill of explaining their thinking
- Work in a responsible way

## Words Reviewed

### bizarre

*Bizarre* means “very strange or odd.”

### effective

Something effective works well or produces the result that is wanted.

### get-up-and-go

“Get-up-and-go” means “energy.”

### ineffective

Something ineffective is not effective. It does not work well or produce the result that is wanted.

### sag

*Sag* means “droop or hang down.”

## REVIEW THE WORDS

### 1 Briefly Review the Words

Gather the class with partners sitting together, facing you. Display the ongoing review cards (WA9). Remind the students that they learned these words earlier. Tell the students that today they will talk more about the words.

Point to the word *bizarre* and ask:

**Q** *What do you know about the word bizarre?*

Have one or two volunteers share their thinking with the class. Remind them to use the word *bizarre* as they share their ideas.

Use the same procedure to review the remaining words.

## PRACTICE USING THE WORDS

### 2 Discuss “Would You?” Questions

Tell the students that you will ask some questions about the words. Explain that first partners will talk about each question. Then you will ask a few volunteers to share their thinking with the class.

## Materials

- Ongoing review cards (WA9)
- “Class Vocabulary Assessment Record” sheet (CA1)

### ELPS 2.I.iii

#### Step 2

(all, beginning on page 49 and continuing on to page 50)

Point to the words *bizarre* and *sag* on the ongoing review cards (WA9) and ask:

-  **Q** *Would you think it was bizarre if a friend wore a pair of pants that sagged? Why?* [Click **1** on WA9 to reveal the first prompt.] *Turn to your partner.*

WA9

bizarre      effective      get-up-and-go  
ineffective      sag

**PROMPT 1:** I [would/would not] think it was **bizarre** if a friend wore a pair of pants that **sagged** because . . .

**1**   **2**   **3**   **4**

**PROMPT 1:** “I [would/would not] think it was bizarre if a friend wore a pair of pants that sagged because . . .”

Have partners use the prompt to discuss the questions. When most pairs have finished talking, signal for the students’ attention. Have one or two volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following questions:

**[effective, sag]**

-  **Q** *Would you say that an effective way to fix a sagging mattress is to put a board under it? Why?* [Click **2** to reveal the prompt.] *Turn to your partner.*

**PROMPT 2:** “I [would/would not] say that an effective way to fix a sagging mattress is to put a board under it because . . .”

**[bizarre, ineffective]**

-  **Q** *Would you say that doing bizarre things is an ineffective way to make friends? Why?* [Click **3** to reveal the prompt.] *Turn to your partner.*

**PROMPT 3:** “I [would/would not] say that doing bizarre things is an ineffective way to make friends because . . .”

**[effective, get-up-and-go]**

-  **Q** *Would you say that eating a good breakfast is an effective way to have get-up-and-go in the morning? Why?* [Click **4** to reveal the prompt.] *Turn to your partner.*

**PROMPT 4:** “I [would/would not] say that eating a good breakfast is an effective way to have get-up-and-go in the morning because . . .”

Tell the students that next week they will learn more new words.

## MORE STRATEGY PRACTICE

### Review the Prefix *in-*

Prepare a sheet of chart paper titled “Words with the Prefix *in-*.” Below the title, write the sentence *The prefix in- means “not.”* Review that a *prefix* is a “letter or group of letters that is added to the beginning of a word to make a new word.” Post the chart where everyone can see it and write the word *ineffective* on the chart.

Point to the letters *in* in *ineffective* and review that *in-* is a prefix that means “not.” Review that when the prefix *in-* is added to the word *effective*, it makes the word *ineffective*, which means “not effective.” Remind the students that when something is ineffective, it is does not work well or produce the result that is wanted.

Name a few other familiar words with the prefix *in-*, discuss their meanings, and add them to the chart; for example: *inaccurate*, *infrequent*, and *insane*. Invite the students to listen and watch for more examples of words that use the prefix *in-*. Add any new examples that students suggest to the chart.

### CLASS VOCABULARY ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students’ responses show that they understand what the words mean?
- Do the students have difficulty explaining their thinking when responding to the questions? (Note the words with which they have difficulty.)
- Do they enjoy learning and using new words?

Record your observations on the “Class Vocabulary Assessment Record” sheet (CA1); see page 151 of the *Assessment Resource Book*.

Use the following suggestions to support struggling students:

- If **only a few students** understand a word’s meaning, reteach the word using the vocabulary lesson in which it was first taught as a model.
- If **about half of the students** understand a word’s meaning, provide further practice by inviting the students to tell or write stories in which they use the word.

For more information about reviewing and practicing the words, see “Retaining the Words” in the Introduction.

### Materials

- Chart paper and a marker

### Teacher Note

For a complete table of words in the vocabulary lessons that use the prefix *in-*, see Appendix C. For a list of common prefixes, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Prefixes” list in the General Resources section.

### Teacher Note

Post the “Words with the Prefix *in-*” chart to use throughout the year.

### Teacher Note

For more information about whole-class assessment, see “Class Vocabulary Assessment” in the Assessment Overview of the *Assessment Resource Book*.

# Week 3

## RESOURCES

### Read-aloud

- *Shattering Earthquakes* by Louise and Richard Spilsbury

### More Strategy Practice

- “Use the Clues”

### Extension

- “Explore Similes in *Shattering Earthquakes*”

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

### Whiteboard Activities

- WA1–WA11

### Reproducibles

- Week 3 family letter (BLM1)
- (Optional) “Week 3 Word Cards” (BLM2)

### Professional Development Media

- “Using Web-based Whiteboard Activities” tutorial (AV42)

# OVERVIEW

## Words Taught

slight  
topple  
severe  
landscape  
tilt  
rubble

## Words Reviewed

adore  
enthusiastic  
reminisce  
transform  
trim

## Word-learning Strategies

- Recognizing synonyms (review)
- Using context to determine word meanings

## Vocabulary Focus

- Students learn and use six words from the book.
- Students review synonyms.
- Students use context to determine word meanings.
- Students review words learned earlier.
- Students build their speaking and listening skills.

## Social Development Focus

- Students work in a responsible way.
- Students develop the skill of explaining their thinking.
- Students share their partners' thinking with the class.

## 1 DO AHEAD

- ✓ Prior to Day 1, draw a simple picture where everyone can see it. (For example, you might draw a single tree with only two or three limbs or a house with few details.) You will ask the students to suggest slight changes to the picture.
- ✓ (Optional) Prior to Day 1, review the more strategy practice activity “Use the Clues” on page 60.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this week’s family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ (Optional) Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the “Week 3 Word Cards” (BLM2). These cards can be used to provide your students with more opportunities to review the words. For more information, see “Additional Ways to Review the Words” in the Introduction.

# Introduce *Slight*, *Topple*, and *Severe*

# Day 1

## In this lesson, the students:

- Learn and use the words *slight*, *topple*, and *severe*
- Review synonyms
- Use context to determine word meanings
- Develop the skill of explaining their thinking

## Words Taught

### **slight** (p. 4)

*Slight* means “small in amount or not serious, important, or noticeable.”

### **topple** (p. 9)

*Topple* means “fall over or make something fall over.”

### **severe** (p. 12)

*Severe* means “causing great damage or pain.”

## Materials

- *Shattering Earthquakes*
- Word card 13 (WA1)
- Word card 14 (WA2)
- “Sentences from *Shattering Earthquakes*” chart (WA3)
- Word card 15 (WA4)

## ABOUT USING CONTEXT TO DETERMINE WORD MEANINGS

This week the students explore using context to determine word meanings, an important word-learning strategy that they can use in their independent reading. In this lesson, the students learn that they can sometimes figure out the meaning of a word by reading the sentence that includes the word, or the sentence that comes before or after that sentence, and looking for clues. In subsequent lessons, the students will review and practice the strategy. (For a list of the weeks in which using context to determine word meanings is reviewed, see Appendix C.) In this program, the students practice the strategy only when the text of a read-aloud provides explicit clues to a word’s meaning. If you wish to use other texts to provide the students with more practice using context to determine word meanings, we suggest you look for words that are clearly defined or explained by the context, so that the students will not have to guess at the meanings. For more information about using context to determine word meanings and other word-learning strategies, see “Independent Word-learning Strategies” in the Introduction.

## INTRODUCE AND USE *SLIGHT*

### 1 Introduce and Define *Slight*

Gather the students with partners sitting together, facing you.

Show pages 4–5 of *Shattering Earthquakes* and review that this chapter explains what an earthquake is and what happens during earthquakes.

Read the second paragraph on page 4 aloud, beginning with the sentence “An earthquake is when the surface of the Earth moves.” Emphasize the word *slight* when you come to it.

Tell the students that *slight* is the first word they will learn today. Explain that *slight* means “small in amount or not serious, important, or noticeable.” Explain that most earthquakes are small and that people may only feel a slight, or barely noticeable, trembling during a small earthquake.

Display word card 13 (C WA1) and have the students say the word *slight*.

## 2 Make a Slight Change to a Picture

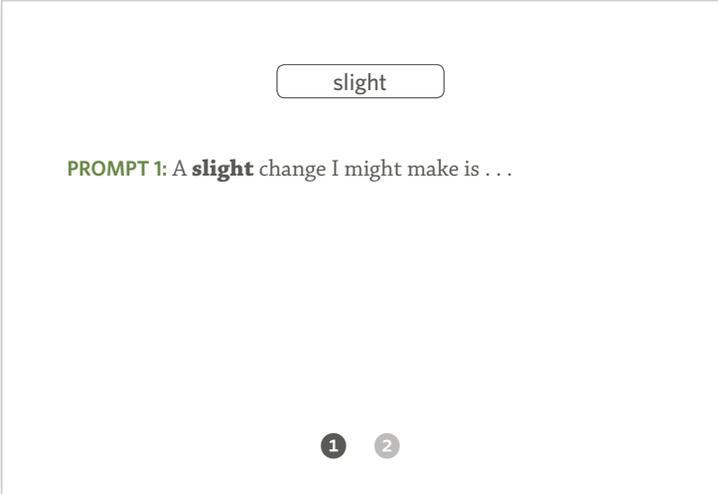

Tell the students that when people make a slight change to something, the change is small and not very important or noticeable. Give examples of slight changes you have made recently.

### You might say:

“I made a slight change to our schedule today by starting science 15 minutes earlier than our usual time. It was a small change that I don’t think many of you noticed. I usually eat cold cereal with blueberries for breakfast, but this morning I made a slight change and had cold cereal with bananas instead.”

Direct the students’ attention to the picture you drew before beginning the lesson. Tell the students to think about a slight change they might make to the picture. Explain that the change might be something they add or take away—but it must be slight. Use “Think, Pair, Share” to discuss:

 **Q** *What is a slight change you might make to this picture?* [Pause; click **1** on WA1 to reveal the first prompt.] *Turn to your partner.*

slight

**PROMPT 1:** A **slight** change I might make is . . .

1 2

WA1

**PROMPT 1:** “A slight change I might make is . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class. Then discuss as a class:

**Q** *Is [Jessica’s] change slight? Why?*

Click **2** on word card 13 (WA1) to reveal the next prompt, and have a few volunteers use the prompt to share their thinking with the class.

**PROMPT 2:** “[Jessica]’s change [is/is not] slight because . . .”

Point to the word *slight* and ask:

**Q** *What’s the new word we are learning that means “small in amount or not serious, important, or noticeable”?*

## INTRODUCE AND USE *TOPPLE*

### 3 Introduce and Define *Topple* and Review Synonyms

Show pages 6–7 of *Shattering Earthquakes* and review that this chapter describes both the causes of earthquakes and the destructive effects that earthquakes can have. Show pages 8–9, and remind the students that an earthquake’s strength is measured on a scale from 1 to 10. Point to the description of the Richter scale ratings on page 9, and ask the students to listen carefully as you read the description of an earthquake that measures over 7.0. Then read the description aloud, emphasizing the word *topple*: “Major earthquake that causes severe damage and can topple buildings over a wide area.”

Tell the students that *topple* is the next word they will learn today. Explain that *topple* means “fall over or make something fall over.” Point out that the words *topple* and *fall* are synonyms. Point to the photograph on page 9, and explain that a very strong earthquake in Turkey caused the building in the photo to topple, or fall.

Display word card 14 (WA2) and have the students say the word *topple*.

### 4 Discuss Toppling

Remind the students that strong earthquakes can be very dangerous and can cause buildings to topple. Discuss as a class:

**Q** *What other structures might topple in an earthquake?*

Click **1** on word card 14 (WA2) to reveal the first prompt. Have a few volunteers use the prompt to share their thinking with the class.

**PROMPT 1:** “[A bridge] might topple in an earthquake.”

#### Teacher Note

If you started a synonym chart, add the words *topple* and *fall* to it. Remind the students that they can use a word like *topple* in their writing to replace an overused word like *fall*.

#### Technology Tip

To find web-based activities that focus on recognizing synonyms, you might search online using the keywords “whiteboard synonyms activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

**TEKS 3.B.i**  
**TEKS 3.B.ii**  
Student/Teacher Narrative  
Step 5  
(all, beginning on page 58 and  
continuing on to page 59)

### Technology Tip

To find web-based activities that focus on using context to determine word meanings, you might search online using the keywords “whiteboard context clues activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

### Teacher Note

Alternatively, you may wish to write the context sentences where everyone can see them.

### Teacher Note

If the students do not immediately determine the meaning of *severe* from the context, give them the definition rather than having them guess.

Tell the students that sometimes you can see a tree that has toppled. Discuss as a class:

**Q** *What might cause a tree to topple?*

Click **2** to reveal the next prompt, and have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT 2:** “[A hurricane] might cause a tree to topple.”

Explain that we can also use the word *topple* to talk about people falling, especially from high places. For example, people sometimes topple from ladders or from chairs or footstools they are standing on. Children sometimes topple from trees or bikes.

Use “Think, Pair, Share” to discuss:

**Q** *When have you toppled or seen someone topple?* [Pause; click **3** on WA2 to reveal the prompt.] *Turn to your partner.*

**PROMPT 3:** “I toppled [from my bike] when . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the word *topple* and ask:

**Q** *What’s the new word we are learning that means “fall over or make something fall over”?*

## INTRODUCE AND USE SEVERE

### **5** Introduce Severe and Introduce Using Context to Determine Word Meanings

Show pages 12–13 of *Shattering Earthquakes* and review that this chapter tells what happens during a powerful earthquake. Read the first paragraph on page 12 aloud, emphasizing the word *severe*.

Tell the students that *severe* is the last word they will learn today. Display the “Sentences from *Shattering Earthquakes*” chart ( WA3), and explain that these are the sentences you just read. Point to the word *severe* and underline it. Tell the students that they can sometimes figure out the meaning of an unfamiliar word—like *severe*—by reading the sentence that includes the word or the sentence that comes before or after it and looking for clues. Tell the students that as you read the sentences again, you want them to think about what the word *severe* might mean and which words in the sentences are clues to the meaning of *severe*.

Read the sentences on the chart aloud. Then discuss as a class:

**Q** *Based on what you just heard, what do you think the word severe might mean?*

Point to the first prompt and read it aloud.

WA3

### Sentences from *Shattering Earthquakes*

Earthquakes usually do most damage at the epicenter, but shock waves can make land for miles around shake and tremble. In a severe earthquake, the ground can rise and fall like waves in the sea. In the worst cases, the entire shape of the land can be changed.

**PROMPT 1:** I think *severe* might mean . . .

**PROMPT 2:** The clues \_\_\_\_\_ help me figure out the meaning of the word *severe*.

**PROMPT 1:** “I think *severe* might mean . . .”

Have a few volunteers use the prompt to share their thinking with the class. If necessary, explain that *severe* means “causing great damage or pain.” Point out that powerful earthquakes can be severe, or cause great damage. Then ask:

**Q** *What clues help you figure out the meaning of the word severe?*

Point to the second prompt and have a few volunteers use the prompt to share their thinking with the class.

**PROMPT 2:** “The clues [‘the ground can rise and fall like waves in the sea’ and ‘the entire shape of the land can be changed’] help me figure out the meaning of the word *severe*.”

Circle the context clues on the chart as the students identify them. If necessary, point out that “the ground can rise and fall like waves in the sea” and “the entire shape of the land can be changed” are clues that help us figure out that a severe earthquake is one that causes great damage.

Display word card 15 (WA4) and have the students say the word *severe*.

## 6 Play “Is It Severe?”

Tell the students that partners will play a game called “Is It Severe?” Explain that you will describe something; then partners will discuss whether what you described is severe or not severe and explain why they think so. Begin with the following scenario:

- *Yoni has a headache that is worse than ever before. His head is throbbing, he has trouble seeing clearly, and he needs to lie down for several hours.*

Ask:

-  **Q** *Is Yoni's headache severe or not? Why do you think so?* [Click **1** on WA4 to reveal the prompt.] *Turn to your partner.*

**PROMPT 1:** "I think it [is/is not] severe because . . ."

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, have partners discuss the following scenarios:

- *Mari skins her knee while playing softball. It hurts, but she can keep playing, and she later scores the winning run.*
-  **Q** *Is Mari's injury severe or not? Why do you think so?* [Point to the prompt.] *Turn to your partner.*
- *The weatherman predicts extremely hot temperatures all week. He says that people should drink a lot of water and he warns them not to spend too much time outside.*
-  **Q** *Is the weather severe? Why do you think so?* [Point to the prompt.] *Turn to your partner.*

Point to the word *severe* and ask:

- Q** *What's the new word we are learning that means "causing great damage or pain"?*

## Materials

- Chart paper and a marker

---

## MORE STRATEGY PRACTICE

### Use the Clues

Write the following sentences on a sheet of chart paper, leaving blanks as shown below:

- *Sam is enthusiastic about going to camp this summer. He's talked about nothing else for weeks. As he waves goodbye to his parents, he feels \_\_\_\_\_.*
- *When Sam comes home, he says, "Camp was \_\_\_\_\_. I learned to swim, ride horses, and live in the woods. I want to go back next year."*

Remind the students that when they are reading and come to a word they do not know, they can sometimes figure out the meaning of the word by rereading the sentence that includes the word, or the sentence that comes before or after it, and looking for clues. Tell the students that today partners will play a game called “Use the Clues.” Explain that partners will look for clues to a word that is missing from a sentence.

Direct the students’ attention to the first example. Point to the blank and explain that as you read the sentences aloud, you want the students to think about what the missing word might be and what words in the sentences are clues to the missing word. Tell the students that more than one word might make sense in a sentence and that the word does not need to be a vocabulary word. Explain that partners may not always agree about what the missing word should be, and that is fine. What is important is that the students explain their thinking.

Read the first example aloud twice, saying “blank” for the missing word.

Use “Think, Pair, Share” to discuss:

**Q** *What’s the missing word? What words are clues to the missing word?*  
[Pause.] *Turn to your partner.*

Write the following prompt where everyone can see it, and have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT:** “I think the missing word is [*excited*] because . . .”

If necessary, explain that the missing word might be *excited* or *happy* and that “enthusiastic” and “he’s talked about nothing else for weeks” are clues.

Use the same procedure to discuss the second example.

---

### Teacher Note

You might review that when you are enthusiastic about something, you are excited about it or interested in it.

---

### Teacher Note

Accept all the words that the students can support with context clues from the sentences. If the students cannot suggest a word or suggest words that are not supported by the context, provide a word and point out the context clues. Then have the students discuss the second example.

---

### Teacher Note

Possible responses include *fun*, *terrific*, and *interesting*.

# Day 2

## Review *Slight*, *Topple*, and *Severe*

### Materials

- Daily review cards (WA5)

### In this lesson, the students:

- Review the words *slight*, *topple*, and *severe* from Day 1
- Explain their thinking
- Work in a responsible way

### Words Reviewed

#### **slight**

*Slight* means “small in amount or not serious, important, or noticeable.”

#### **topple**

*Topple* means “fall over or make something fall over.”

#### **severe**

*Severe* means “causing great damage or pain.”

## REVIEW THE WORDS

### 1 Briefly Review the Words

If necessary, review the procedure for gathering on the rug; then gather the class with partners sitting together, facing you.

Display the daily review cards (WA5). Remind the students that yesterday they learned three words from the book *Shattering Earthquakes*. Point to each of the following words as you review the pronunciation and meaning: *slight*, *topple*, and *severe*. Explain that today they will talk more about the words.

Ask:

**Q** Which of the words we learned yesterday do you think was interesting to talk about? Why? [Click 1 on WA5 to reveal the first prompt.]  
Turn to your partner.

slight

topple

severe

**PROMPT 1:** I think \_\_\_\_\_ was interesting to talk about because . . .

1

2

3

4

**PROMPT 1:** “I think [*severe*] was interesting to talk about because . . .”

Have the students use the prompt to share their thinking. After a few moments, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

## PRACTICE USING THE WORDS

### 2 Introduce the Activity “What Might You Say or Do?”

Tell the students that they will do an activity called “What Might You Say or Do?” Explain that you will describe an imaginary situation and then partners will use the vocabulary words to talk about what they might say or do in that situation. Tell the students that before they do the activity in pairs, they will practice as a class.

Ask the students to listen carefully as you read the following scenario aloud twice:

- *You and your family are just about to leave the house to go on a picnic when you hear a weather report on the radio that there is a slight chance that it will rain.*

**Q** *What might you say or do? Why?*

Click **2** on the daily review cards (WA5) to reveal the next prompt.

**PROMPT 2:** “If there were a slight chance of rain, I might . . .”

Have one or two volunteers use the prompt to share their thinking with the class.

**ELPS 1.A.i**  
Step 2 and Step 3  
(all, beginning on page 63  
and continuing on to  
page 64)

### 3 Do the Activity “What Might You Say or Do?” in Pairs

Continue the activity in pairs, having partners discuss the following scenario:

- *You are helping your younger sister build a castle out of blocks. The castle’s tower is very tall, and it looks like it could topple.*

**Q** *What might you say or do? Why?* [Click 3 to reveal the prompt.] *Turn to your partner.*

**PROMPT 3:** “If the tower looked like it could topple, I might . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class. Discuss the following scenario, using the same procedure:

- *You are playing basketball with your friends after school. One of your friends sprains his ankle and says that he is in severe pain.*

**Q** *What might you say or do? Why?* [Click 4 to reveal the prompt.] *Turn to your partner.*

**PROMPT 4:** “If my friend were in severe pain, I might . . .”

Tell the students that tomorrow they will learn and talk about three new words.

# Introduce *Landscape, Tilt,* and *Rubble*

# Day 3

## In this lesson, the students:

- Learn and use the words *landscape, tilt,* and *rubble*
- Explain their thinking
- Share their partners' thinking with the class

## Words Taught

### **landscape** (p. 13)

A *landscape* is a "large area of natural scenery that you can see from one place." A landscape might include hills, trees, mountains, lakes, or rivers.

### **tilt** (p. 13)

*Tilt* means "lean or tip to one side."

### **rubble** (p. 13)

*Rubble* is "broken pieces of brick, stone, or other material from a building that has been destroyed or demolished."

## Materials

- *Shattering Earthquakes*
- Word card 16 (WA6)
- Word card 17 (WA7)
- Word card 18 (WA8)

## INTRODUCE AND USE LANDSCAPE

### 1 Introduce and Define *Landscape*

Gather the class with partners sitting together, facing you.

Review that earlier the students learned three words from the book *Shattering Earthquakes*. Tell the students that today they will learn three more words from the book.

Show pages 12–13 of the book. Point to page 13 and review that this part of the book describes a huge earthquake that hit Mexico in 1985. Explain that the first paragraph reminds us that a severe earthquake can change the shape of the land. Read the first paragraph on page 13 aloud, emphasizing the word *landscapes*.

Tell the students that *landscape* is the first word they will learn today. Explain that a *landscape* is a "large area of natural scenery that you can see from one place." Tell the students that a landscape might include such natural scenery as hills, trees, mountains, lakes, or rivers. Point out that a powerful earthquake can change a landscape, or large area of natural scenery, by opening cracks in the Earth or changing the level of the land.

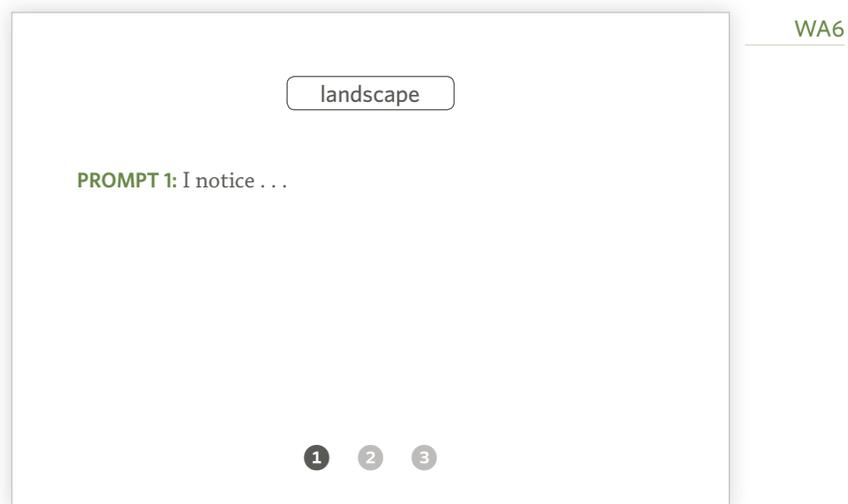

Display word card 16 (WA6) and have the students say the word *landscape*.

## 2 Discuss Landscapes

Show pages 6–7 of the book and direct the students’ attention to the photograph on page 7. Explain that it shows the landscape, or natural scenery, of an area near the West Coast of North America. Point to the fault line in the photograph, and explain that one thing you notice in this landscape is the fault line, or crack, caused by the rubbing together of plates beneath the Earth. Ask:

**Q** *What else do you notice about this landscape?*

Click **1** on word card 16 (WA6) to reveal the first prompt, and have one or two volunteers use the prompt to share their thinking with the class.

landscape

**PROMPT 1:** I notice . . .

1 2 3

WA6

**PROMPT 1:** “I notice [rocky hills and mountains and flat brown areas].”

Ask the students to imagine that they are flying in an airplane. They look out the window and see a rainforest landscape below them. Then ask the following:

 **Q** *What might you see in a rainforest landscape? What kind of natural scenery might you see in a rainforest?* [Click **2** on WA6 to reveal the next prompt.] *Turn to your partner.*

**PROMPT 2:** “In a rainforest landscape, I might see [trees and bushes].”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following:

 **Q** *What might you see in a desert landscape? What kind of natural scenery might you see in a desert?* [Click **3** to reveal the prompt.] *Turn to your partner.*

**PROMPT 3:** “In a desert landscape, I might see [sand dunes and different kinds of cactus].”

Point to the word *landscape* and ask:

**Q** *What's the new word we are learning that means a "large area of natural scenery that you can see from one place"?*

## INTRODUCE AND USE *TILT*

### 3 Introduce and Define *Tilt*

Show pages 12–13 of *Shattering Earthquakes* again, and remind the students that a huge earthquake struck Mexico City in 1985. Read the description of this earthquake on page 13 aloud: "The earthquake was so bad because the city sits on soil made of soft sand and clay. The shock waves shook the soil grains apart, turning it into quicksand. This caused buildings to tilt, shift, or even sink into it."

Tell the students that *tilt* is the next word they will learn today, and explain that *tilt* means "lean or tip to one side." Explain that the powerful earthquake in Mexico City turned the soil under buildings to quicksand, causing the buildings to tilt, or lean or tip to one side.

Display word card 17 (🗉 WA7) and have the students say the word *tilt*.

### 4 Talk About Tilting

Have a volunteer stand next to you. Then ask the volunteer to tilt his head. (Leave it up to the volunteer to tilt his head in whatever way he wants. He might tilt his head backward or forward or to the left or right. If the volunteer is not sure what to do, whisper an instruction into his ear.)

Discuss:

**Q** *What did you see [Milo] do when he tilted his head?*

Click 1 on word card 17 (WA7) to reveal the first prompt. Have a few volunteers use the prompt to share their thinking with the class.

**PROMPT 1:** "When [Milo] tilted his head, he . . ."

Then ask the volunteer to tilt his head in a different way than he did before. Ask:

**Q** *What did you see [Milo] do when he tilted his head this time? [Point to prompt 1.] Turn to your partner.*

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students' attention. Have a few volunteers use the prompt to share their thinking with the class.

Then discuss as a class:

**Q** *What other things besides buildings and heads can tilt? When have you seen something tilt?*

Click ❷ to reveal the next prompt and have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT 2:** “[A telescope] can tilt. I saw [a telescope] tilt when [I went to the observatory with my grandfather].”

Point to the word *tilt* and ask:

**Q** *What’s the new word we are learning that means “lean or tip to one side”?*

## INTRODUCE AND USE RUBBLE

### 5 Introduce and Define *Rubble*

Show page 13 of *Shattering Earthquakes* again. Read this sentence from the photo caption aloud, emphasizing the word *rubble*: “Once the dust clouds had cleared, it became obvious that much of Mexico City had been reduced to rubble.”

Tell the students that *rubble* is the last word they will learn today. Explain that *rubble* is “broken pieces of brick, stone, or other material from a building that has been destroyed or demolished.” Direct the students’ attention to the photo on page 13, and point out that the earthquake turned much of Mexico City to rubble, or broken pieces of buildings that had been destroyed.

Display word card 18 (WA8) and have the students say the word *rubble*.

### 6 Talk About Rubble

Tell the students that they will now discuss rubble with their partners and then share their partners’ thinking with the class. Ask:

**Q** *Why might you see rubble after an earthquake?* [Click ❶ on WA8 to reveal the first prompt.] *Turn to your partner.*

**PROMPT 1:** “You might see rubble after an earthquake because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and click ❷ on word card 18 (WA8) to reveal the next prompt. Have a few volunteers use the prompt to share their partners’ thinking with the class.

**PROMPT 2:** “My partner said that you might see rubble after an earthquake because . . .”

Using the same procedure, have partners discuss the following:

**Q** *When else might you see rubble? Why might you see it then?* [Click ❸ to reveal the prompt.] *Turn to your partner.*

#### Teacher Note

Support struggling students by reviewing the meaning of *rubble* and providing examples of when they might see rubble, such as after a fire, hurricane, or tornado, or at a demolition site.

**PROMPT 3:** “You might see rubble [during/after] [a fire] because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and click 4 to reveal the next prompt. Have one or two volunteers use the prompt to share their partners’ thinking with the class.

**PROMPT 4:** “My partner said that you might see rubble [during/after] [a fire] because . . .”

Point to the word *rubble* and ask:

**Q** *What’s the new word we are learning that means “broken pieces of brick, stone, or other material from a building that has been destroyed or demolished”?*

Tell the students that tomorrow they will talk more about the words they learned today.

---

## EXTENSION

### Explore Similes in *Shattering Earthquakes*

Direct the students’ attention to pages 6–7 of *Shattering Earthquakes*. Remind the students that this chapter of the book describes the way the layers of the Earth are formed and what causes earthquakes. Ask the students to listen carefully as you read from this page. Then read the second paragraph on page 6 aloud.

Point out that the authors of the book, Louise and Richard Spilsbury, help readers picture what happened to the layers of rock under the earth by writing, “Millions of years ago, this rock cracked, like the shell of an egg.” Tell the students that “this rock cracked, like the shell of an egg” is a simile. Explain that a *simile* is a “comparison of one thing to another using the word *like*, *as*, or *than*.” Point out that by saying the layer of rock cracked like an eggshell, the authors help readers picture how this layer broke apart into pieces—like an eggshell might break into pieces.

Show pages 8–9 and explain that, in this part of the book, the authors describe the ways in which earthquakes are strongest near the epicenter and explain that shock waves spread out in all directions. Tell the students that as you read from this part of the book, you want them to listen for what the shock waves are compared to. Then read the following sentence from page 8 aloud: “Shock waves ripple through the rocks all around the epicenter like ripples on a pond when you throw in a stone.” Ask:

**Q** *In the sentence you just heard, what are the shock waves in an earthquake compared to?*

**Q** *How does comparing these shock waves to ripples on a pond help you picture the way the force from an earthquake spreads out through an area?*

Tell the students that good writers like Louise and Richard Spilsbury use similes to help readers picture in their minds what they are describing. Ask the students to listen and watch for other similes in books that they hear and read.

# Day 4

## Review *Landscape, Tilt,* and *Rubble*

### Materials

- Daily review cards (WA9)
- Copy of this week's family letter (BLM1) for each student

### In this lesson, the students:

- Review the words *landscape*, *tilt*, and *rubble* from Day 3
- Explain their thinking
- Work in a responsible way

### Words Reviewed

#### landscape

A *landscape* is a "large area of natural scenery that you can see from one place." A landscape might include hills, trees, mountains, lakes, or rivers.

#### tilt

*Tilt* means "lean or tip to one side."

#### rubble

*Rubble* is "broken pieces of brick, stone, or other material from a building that has been destroyed or demolished."

## REVIEW THE WORDS

### 1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Remind the students that yesterday they learned three words from *Shattering Earthquakes*. Display the daily review cards (WA9). Point to each of these words as you review the pronunciation and meaning: *landscape*, *tilt*, and *rubble*. Tell the students that today they will think more about the words.

Use "Think, Pair, Share" to discuss the following:

**Q** *If you were writing a story about a famous photographer, which of yesterday's words might you use? How might you use the word? [Pause; then click 1 on WA9 to reveal the first prompt.] Turn to your partner.*

landscape

tilt

rubble

**PROMPT 1:** I might use the word \_\_\_\_\_. I might write . . .

1
2
3
4

**PROMPT 1:** “I might use the word [*landscape*]. I might write . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

## PRACTICE USING THE WORDS

### 2 Introduce the Activity “What Do You Think About?”

Tell the students that partners will do an activity called “What Do You Think About?” Direct the students’ attention to the words on the daily review cards (WA9) and explain that you want the students to describe what they think about, or what pictures come into their minds, when they hear each of the words.

Tell the students that before they do the activity in pairs, they will practice as a class. Point to and pronounce the word *tilt* and explain that *tilt* is the first word the students will think about.

Model the activity by closing your eyes and describing what comes into your mind when you hear the word *tilt*.

**You might say:**

“When I hear the word *tilt*, I think about the Leaning Tower of Pisa in Italy. When the tower was first built, it stood upright. Over time, it started tilting, or leaning, to one side.”

Have the students close their eyes, and then ask:

**Q** *What do you think about when you hear the word tilt? Why?*

Give the students a few moments to think about the questions; then have them open their eyes. Click **2** on the daily review cards (WA9) to

#### Teacher Note

If the students struggle to make associations, support them by asking questions such as “What object do you picture in your mind when you hear the word *tilt*? What might cause something or someone to tilt?”

reveal the prompt, and have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT 2:** “When I hear the word *tilt*, I think about . . .”

### 3 Do the Activity “What Do You Think About?” in Pairs

Point to and pronounce the word *landscape*. Have the students close their eyes; then use “Think, Pair, Share” to discuss:

**Q** *What do you think about when you hear the word landscape? Why?* [Pause.] *Open your eyes.* [Click 3 to reveal the next prompt.] *Turn to your partner.*

**PROMPT 3:** “When I hear the word *landscape*, I think about . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following:

**Q** *What do you think about when you hear the word rubble? Why?* [Pause.] *Open your eyes.* [Click 4 to reveal the prompt.] *Turn to your partner.*

**PROMPT 4:** “When I hear the word *rubble*, I think about . . .”

Tell the students that tomorrow they will talk more about some of the words they have been learning.

#### Teacher Note

If the students struggle to make associations, support them by asking questions such as “What kind of landscape do you think is beautiful to look at? What would you see in a mountain landscape?”

#### Teacher Note

If the students struggle to make associations, support them by asking questions such as “When have you seen rubble? What causes rubble?”

#### Teacher Note

Send home with each student a copy of this week’s family letter (BLM1). Encourage the students to talk about this week’s words with their families.

## In this lesson, the students:

- Review words learned earlier
- Develop the skill of explaining their thinking
- Work in a responsible way

## Words Reviewed

### adore

*Adore* means “love or be very fond of someone or something.”

### enthusiastic

When you are enthusiastic about something, you are excited about it or interested in it.

### reminisce

*Reminisce* means “think or talk about events in the past.”

### transform

*Transform* means “change completely.”

### trim

*Trim* means “decorate or add ornaments to something.” *Trim* also means “cut or clip something to make it tidy or make it fit.”

## REVIEW THE WORDS

### 1 Briefly Review the Words

Gather the class with partners sitting together, facing you. Display the ongoing review cards (WA10). Remind the students that they learned these words earlier. Explain that today they will talk more about the words.

Point to the word *adore* and ask:

**Q** *What do you know about the word adore?*

Have one or two volunteers share their thinking with the class. Remind them to use the word *adore* when they share their ideas.

Repeat this procedure to review the remaining words.

## PRACTICE USING THE WORDS

### 2 Review the Game “What’s the Missing Word?”

Tell the students that partners will play “What’s the Missing Word?” Review that you will read a sentence that has one word missing; then partners will decide which of the vocabulary words best fits the sentence and explain why they think it is that word.

## Materials

- Ongoing review cards (WA10)
- Ongoing review activity (WA11)

### ELPS 4.C.i

Step 1 and Step 2  
(all, beginning on page 73 and continuing on to page 75)

## Teacher Note

You might explain that the students may need to change the form of the word to complete the sentence by adding an ending such as *-s*, *-ing*, or *-ed*.

## Teacher Note

Each sentence on the ongoing review activity (WA11) has a corresponding number: the first sentence is ①; the second sentence is ②; the third sentence is ③; and so on. To play the game, click the corresponding number four times:

- The first click reveals the sentence.
- The second click reveals the prompt.
- The third click highlights the correct answer and reveals the sentence with the missing word in place.
- The fourth click clears the screen.

Display the ongoing review activity (WA11) and begin playing the game:

1. Click ① to reveal the first sentence. Point to the sentence and read it aloud.

- Sentence 1: *The bride's dress was \_\_\_\_\_ in satin and lace.*

2. Give the students a few moments to think about the sentence and the missing word. Then point to the five word choices and ask:

**Q** *What's the missing word in this sentence? Why do you think so? Turn to your partner.*

Click ① again to reveal the prompt.

**PROMPT:** "I think [*trimmed*] is the missing word because . . ."

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

3. Conclude the discussion by clicking ① a third time to highlight the correct vocabulary word and reveal the sentence with the correct word in place.

WA11

4. Click ① to clear the screen.

Using the same procedure, discuss the remaining sentences:

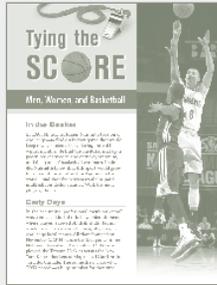

- Sentence 2: *The \_\_\_\_\_ crowd cheered loudly when their team ran onto the field.* (enthusiastic)
- Sentence 3: *Morgan always listens closely to her grandfather's stories. She loves to hear him \_\_\_\_\_ about his life when he was younger.* (reminisce)

- Sentence 4: *The wig, makeup, and costume completely \_\_\_\_\_ the actor's appearance.* (transform, transformed)
- Sentence 5: *"I \_\_\_\_\_ cheese," exclaimed Maggie Mouse. "It's my favorite food."* (adore)
- Sentence 6: *"Please \_\_\_\_\_ my moustache," Al said to his barber. "I must look my best."* (trim)

Tell the students that next week they will learn more new words.

## Word-learning Strategies

- Using the suffix *-er* to determine word meanings
- Recognizing synonyms (review)
- Recognizing words with multiple meanings (review)

## Vocabulary Focus

- Students learn and use six words from or about the articles.
- Students use the suffix *-er* to determine word meanings.
- Students review words with multiple meanings.
- Students review synonyms.
- Students review words learned earlier.
- Students build their speaking and listening skills.

## Social Development Focus

- Students work in a responsible way.
- Students develop the skill of explaining their thinking.
- Students share their partners' thinking with the class.

## **J** DO AHEAD

- ✓ (Optional) Prior to Day 1, review the more strategy practice activity “Discuss Other Words with the Suffix *-er*” on page 82.
- ✓ (Optional) Prior to Day 3, review the more strategy practice activity “Start a Synonym Chart” on page 91.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this week’s family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ Prior to Day 5, make a copy of the “Class Vocabulary Assessment Record” sheet (CA1); see page 152 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, make a class set of the “Individual Vocabulary Assessment: Word Check 1” answer sheet (IA1); see page 156 of the *Assessment Resource Book*. Make enough copies for each student to have one; set aside a reference copy for yourself. Also, make a class set of the “Individual Vocabulary Assessment Student Record” sheet (SR1); see page 224 of the *Assessment Resource Book*. Use this sheet to record each student’s scores from Word Checks 1–7 over the course of the year. You might also make a copy of the “Individual Vocabulary Assessment Class Record” sheet (CR1); see page 226 of the *Assessment Resource Book*. Use this sheet to record the scores of all of the students in the class across the year.
- ✓ (Optional) Prior to Day 5, make a master copy of the “Student Self-assessment” response sheet (SA1); see page 159 of the *Assessment Resource Book*. Write the words you have chosen to be assessed on the master copy. Then make enough copies for each student to have one.
- ✓ (Optional) Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the following materials: “Week 4 Word Cards” (BLM2) and “Week 4 Crossword Puzzle” (BLM3). These materials can be used to provide your students with more opportunities to review the words. For more information, see “Additional Ways to Review the Words” in the Introduction.

# Introduce *Rowdy, Rowdier,* and *Impressive*

## Day 1

### In this lesson, the students:

- Learn and use the words *rowdy*, *rowdier*, and *impressive*
- Use the suffix *-er* to determine word meanings
- Develop the skill of explaining their thinking

### Words Taught

#### **rowdy** (p. 100)

*Rowdy* means “wild and noisy.”

#### **rowdier**

*Rowdier* means “more rowdy, or more wild and noisy.”

#### **impressive** (p. 101)

Something impressive has a strong effect on your mind. You notice and remember it.

### Materials

- “Tying the Score: Men, Women, and Basketball” (see pages 100–101)
- Word card 19 (WA1)
- Word card 20 (WA2)
- Word card 21 (WA3)

## INTRODUCE AND USE ROWDY

### 1 Introduce and Define *Rowdy*

Gather the class with partners sitting together, facing you.

Tell the students that the words they will learn today are from or about the article “Tying the Score: Men, Women, and Basketball,” which they heard earlier. Review that the article compares men’s and women’s professional basketball. Remind the students that the article begins by telling how the game of basketball started.

Read the first two sentences aloud, emphasizing the word *rowdy*. Tell the students that *rowdy* is the first word they will learn today, and explain that *rowdy* means “wild and noisy.” Review that physical education teacher James Naismith tried to find a game that rowdy, or wild and noisy, students could play indoors during the winter.

Display word card 19 (WA1) and have the students say the word *rowdy*.

### 2 Talk About Being Rowdy

Explain that people sometimes become rowdy, or wild and noisy, when they are excited or having fun. For example, people might become rowdy when they are playing games with their friends or when they are at a party or sporting event such as a basketball or baseball game.

### Teacher Note

You might have the students bring their *Student Response Books* to the rug and turn to page 8 to follow along as you read from the article.

## Teacher Note

Listen as partners talk. If the students struggle to recall times they have been rowdy, support them by asking questions such as “When have you played a noisy game with your friends?” and “When have you been so excited you couldn’t keep still or keep quiet?” If the students cannot recall times they have been rowdy, ask, “When have you seen other people being rowdy?”

## Technology Tip

To find web-based activities that focus on using suffixes to determine word meanings, you might search online using the keywords “whiteboard suffixes activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

## Teacher Note

You might point out that when you add the suffix *-er* to *rowdy*, you change the *y* to an *i* to spell *rowdier*.

Use “Think, Pair, Share” to discuss:

**Q** *When have you been rowdy? What were you doing?* [Pause; click 1 on WA1 to reveal the prompt.] *Turn to your partner.*

WA1

rowdy

**PROMPT 1:** I was **rowdy** when . . .

1

**PROMPT 1:** “I was rowdy when . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the word *rowdy* and ask:

**Q** *What’s the new word we are learning that means “wild and noisy”?*

## INTRODUCE AND USE ROWDIER

### 3 Introduce *Rowdier* and Discuss the Suffix *-er*

Display word card 20 (WA2) and have the students say the word *rowdier*. Tell the students that this is the next word they will learn today.

Point to the letters *er* in *rowdier* and tell the students that *-er* is a suffix. Explain that a *suffix* is a “letter or group of letters that is added to the end of a word to make a new word.” Explain that the suffix *-er* often means “more” and that when *-er* is added to the word *rowdy*, it makes the word *rowdier*, which means “more rowdy, or more wild and noisy.”

### 4 Discuss Times the Students Might Be Rowdier

Explain that we use the word *rowdier* to make comparisons. For example, a group of children who are running, jumping, and shouting are rowdier than a group of children who are playing more quietly.

Ask:

**Q** *At what time of the day are you likely to be rowdier: in the morning or in the evening? Why?* [Click 1 on WA2 to reveal the prompt.] *Turn to your partner.*

**PROMPT 1:** “I’m likely to be rowdier [in the morning] because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the word *rowdier* and ask:

**Q** *What’s the new word we are learning that means “more rowdy, or more wild and noisy”?*

## INTRODUCE AND USE IMPRESSIVE

### 5 Introduce and Define *Impressive*

Remind the students that in the article they learned that basketball programs for men developed earlier than programs for women, but that by the 1950s women’s programs were beginning to grow.

Read the second paragraph of the section called “Early Days” on page 101 aloud, emphasizing the word *impressive*.

Tell the students that *impressive* is the last word they will learn today, and explain that something impressive has a strong effect on your mind. You notice and remember it.

Explain that in the 1950s, few women basketball players were as tall as Nera White, so her height was impressive. People noticed how tall she was and remembered watching her play.

Display word card 21 (🌐 WA3) and have the students say the word *impressive*.

### 6 Discuss Impressive Things and People

Remind the students that impressive things have a strong effect on your mind and that you notice and remember them. Provide some examples of impressive things that you have seen.

**You might say:**

“When I was whale watching in Hawaii, a huge whale surfaced near the boat. I had never seen a whale that close, so it was a very impressive sight. I’ll never forget it. On TV the other night, I saw a story about a young man who can speak six languages. That’s impressive! Not many people can do that. I thought the stories you wrote about our trip to the recycling center were impressive. They had so many details, and they were extremely clear and interesting. Your stories had a strong effect on me.”

Use “Think, Pair, Share” to discuss:

**Q** *When have you seen something impressive? Why was it impressive?*  
[Pause; click 1 on WA3 to reveal the first prompt.] *Turn to your partner.*

#### ELL Note

The Spanish cognate of *impressive* is *impressionante*.

#### Teacher Note

You might explain that *impressive* is a form of the word *impress*. Something that impresses you has a strong effect on you.

#### Teacher Note

Listen as partners talk. If the students struggle to recall impressive things, support them by asking questions such as “When have you seen something that made you say ‘Wow!’?” “When have you seen something you’ll never forget?” or “When have you seen something at a museum, on TV, or in a movie that was impressive?”

## Teacher Note

If the students struggle to recall an impressive person, ask questions such as “Who is someone that you respect or admire?” and “Who did something that caused you to say, ‘Wow!’?”

### ELPS 1.D.i

More Strategy Practice (all)

## Materials

- Chart paper and a marker

## Teacher Note

For a complete table of the words that end with the suffix *-er* taught in grade 4 and the weeks in which they are introduced, see Appendix C.

## Teacher Note

You might explain that when you add the suffix *-er* to *healthy* and *silly*, you change the *y* to *i* to spell *healthier* and *sillier*.

**PROMPT 1:** “I saw [a big dinosaur skeleton at the natural history museum]. It was impressive because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Remind the students that people can be impressive, too. For example, Nera White was impressive because of her height and her skills as a basketball player.

Discuss as a class:

**Q** *Who is a person you think is impressive? Why?*

Click **2** on word card 21 (WA3) to reveal the prompt, and have a few volunteers use the prompt to share their thinking with the class.

**PROMPT 2:** “I think [my Uncle Gene] is impressive because . . .”

Point to the word *impressive* and ask:

**Q** *What’s the new word we are learning that means “having a strong effect on your mind”?*

## MORE STRATEGY PRACTICE

### Discuss Other Words with the Suffix *-er*

Prepare a sheet of chart paper titled “Words with the Suffix *-er*.” Under the title write, “The suffix *-er* means ‘more.’” Write the word *rowdier* on the chart.

Remind the students that earlier they learned the word *rowdier*. Point to the letters *er* in *rowdier* on the chart, and review that *-er* is a suffix that means “more.” Review that when *-er* is added to the word *rowdy*, it makes the word *rowdier*, which means “more rowdy, or more wild and noisy.”

Write the word *sharp* on the chart and ask:

**Q** *What word do you make when you add the suffix *-er* to the word sharp?*

**Q** *What does the word sharper mean?*

Using the same procedure, have the students add the suffix *-er* to the words *healthy* and *silly* and discuss their meanings.

# Review *Rowdy, Rowdier,* and *Impressive*

## Day 2

### In this lesson, the students:

- Review the words *rowdy*, *rowdier*, and *impressive* from Day 1
- Develop the skill of explaining their thinking
- Work in a responsible way

### Words Reviewed

#### **rowdy**

*Rowdy* means “wild and noisy.”

#### **rowdier**

*Rowdier* means “more rowdy, or more wild and noisy.”

#### **impressive**

Something impressive has a strong effect on your mind. You notice and remember it.

## REVIEW THE WORDS

### 1 Briefly Review the Words

Gather the class with partners sitting together, facing you. Display the daily review cards (WA4). Remind the students that yesterday they learned three words from the article “Tying the Score.” Point to each of the following words as you review the pronunciation and meaning: *rowdy*, *rowdier*, and *impressive*. Explain that today they will learn more about the words.

Point to the word *rowdy* and ask:

 **Q** *What might you do if the person sitting next to you at a school assembly is being rowdy?* [Click 1 on WA4 to reveal the first prompt.] Turn to your partner.

rowdyrowdierimpressive

**PROMPT 1:** If the person next to me is being **rowdy**,  
I might . . .

1 2 3

WA4

### Materials

- Daily review cards (WA4)
- “Tell Me a Story” chart (WA5)

**PROMPT 1:** “If the person next to me is being rowdy, I might . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following questions to review the remaining words:

[rowdier]

 **Q** *Are you likely to be rowdier when you play a game with your friends outside or inside? Why?* [Click 2 to reveal the prompt.] *Turn to your partner.*

**PROMPT 2:** “I’m likely to be rowdier when I play a game with my friends [outside/inside] because . . .”

[impressive]

 **Q** *How might you feel if someone read a story you wrote and said, “I think your story is impressive”? Why?* [Click 3 to reveal the next prompt.] *Turn to your partner.*

**PROMPT 3:** “If someone said my story was impressive, I might feel [good] because . . .”

## PRACTICE USING THE WORDS

### 2 Review the Activity “Tell Me a Story”

Tell the students that partners will do the activity “Tell Me a Story.” Review that you will tell the beginning of a story that includes one of the vocabulary words. Then the students will use their imaginations and what they know about the word to make up an ending for the story.

Display the “Tell Me a Story” chart (🗨️ WA5) and show story 1 and its accompanying prompt. Tell the students that story 1 uses the word *impressive*. Then read the story aloud, slowly and clearly.

- **Story 1:** *Tomiko and Peter were hiking in the woods. Tomiko stopped and pointed. “Look at that, Peter!” she exclaimed. “Wow!” Peter whistled. “That’s impressive!” The impressive thing the children saw in the woods was . . .*

Use “Think, Pair, Share” to discuss:

 **Q** *How might you finish the story? What impressive thing did they see?* [Pause; point to prompt 1.] *Turn to your partner.*

### Teacher Note

If the students have difficulty thinking of an ending, review the definition of *impressive* and think aloud about a possible ending. For example, say “The impressive thing they saw was a beautiful waterfall.” Then reread the beginning of the story and repeat the questions.

### Tell Me a Story

Tomiko and Peter were hiking in the woods. Tomiko stopped and pointed. “Look at that, Peter!” she exclaimed. “Wow!” Peter whistled. “That’s impressive!” The impressive thing the children saw in the woods was . . .

**PROMPT 1:** The **impressive** thing the children saw was . . .

**PROMPT 1:** “The impressive thing the children saw was . . .”

Have partners use the prompt to take turns answering the questions. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss the following stories on the chart (WA5):

- Story 2: *David and his brother went to a baseball game, but they came home early because the crowd was too rowdy. “What did the rowdy crowd do?” their sister asked. David explained. “The rowdy crowd . . .”*

**Q** How might you finish the story? What did the rowdy crowd do? [Pause; point to prompt 2.] Turn to your partner.

**PROMPT 2:** “The rowdy crowd . . .”

- Story 3: *“I’m exhausted,” Mrs. Johnson moaned to her husband. “Yesterday the children were rowdy. They ran through the house jumping and shouting. But today they were even rowdier. They . . .”*

**Q** How might you finish the story? What did the children do that was rowdier than running, jumping, and shouting through the house? [Pause; point to prompt 3.] Turn to your partner.

**PROMPT 3:** “Mrs. Johnson’s children were rowdier because they . . .”

Explain that tomorrow the students will learn three new words.

# Day 3

## Introduce *Analyze*, *Trend*, and *Boost*

### Materials

- “Food for Thought: Cafeteria Menus Shape Up” (see pages 102–103)
- Word card 22 (WA6)
- “Analyze Evidence” list (WA7)
- Word card 23 (WA8)
- Word card 24 (WA9)

### Teacher Note

You might have the students bring their *Student Response Books* to the rug and turn to page 10 to follow along as you read from the article.

### ELL Note

The Spanish cognate of *analyze* is *analizar*.

### In this lesson, the students:

- Learn and use the words *analyze*, *trend*, and *boost*
- Review synonyms
- Review words with multiple meanings
- Share their partners’ thinking with the class
- Develop the skill of explaining their thinking

### Words Taught

#### **analyze**

*Analyze* means “study or examine carefully.”

#### **trend** (p. 102)

A *trend* is “the way in which something is changing.”

#### **boost** (p. 103)

*Boost* means “increase or improve.” *Boost* also means “push up from below.”

## INTRODUCE AND USE ANALYZE

### 1 Introduce and Define *Analyze* and Review Synonyms

Gather the class with partners sitting together, facing you.

Review that earlier the students learned three words from the article “Tying the Score.” Explain that today they will learn three words from another article they heard earlier, “Food for Thought.”

Review that the article tells how cafeteria menus in many schools have changed, with healthy foods replacing foods high in sugar and fat.

Read the first two sentences in the second paragraph of “Lighten Up” aloud:

**p. 102** “More than half of elementary and secondary students in the United States eat lunches provided by their schools. The increase in health problems such as diabetes and obesity made many people look closely at what students were eating.”

Explain that the increase in children’s health problems led many people to analyze what students eat for lunch at school. Tell the students that *analyze* is the first word they will learn today, and explain that *analyze* means “study or examine carefully.” Point out that the words *analyze*, *study*, and *examine* are synonyms, and remind the

students that *synonyms* are “words that mean the same thing or almost the same thing.”

Display word card 22 (🗨️ WA6) and have the students say the word *analyze*. Then discuss as a class:

**Q** *What is one profession in which someone analyzes people or things? What do the people doing that job analyze?*

Give the students a few moments to think. Then click 1 on word card 22 (WA6) to reveal the prompt. Have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT 1:** “One profession in which someone analyzes people or things is [doctor]. People doing that job analyze [patients to help them recover from illnesses or injuries].”

## 2 Analyze Evidence

Remind the students that when you analyze something, you study or examine it carefully. Explain that when police officers arrive at the scene of a crime, they analyze, or carefully study, the evidence to see if they can figure out what happened.

Ask the students to imagine that they are police officers who have been called to the home of Mrs. Rose O’Hara. Mrs. O’Hara says that someone has stolen a TV from her living room.

Display the “Analyze Evidence” list (🗨️ WA7). Explain that this list describes the evidence the police discover at Mrs. O’Hara’s house. Then read the list of evidence aloud.

### Analyze Evidence

- An open living room window with one shattered pane of glass
- A brick on the living room floor
- Two sets of muddy footprints on the ground outside the living room window
- One set of muddy footprints on the living room floor

**PROMPT 1:** After **analyzing** the evidence, I think . . .

WA7

Tell the students that you want them to quietly analyze, or carefully study, the evidence. Then, after analyzing the evidence, partners will discuss what they think happened. Give the students a few moments to analyze the evidence.

Then ask:

**Q** *After analyzing the evidence, what do you think happened at Mrs. O’Hara’s house? [Point to the prompt on WA7.] Turn to your partner.*

**PROMPT 1:** “After analyzing the evidence, I think . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the word *analyze* and ask:

**Q** *What’s the new word we are learning that means “study or examine carefully”?*

## INTRODUCE AND USE TREND

### 3 Introduce and Define *Trend*

Review that the increase in children’s health problems caused people to analyze school lunch options.

Finish reading the second paragraph under the heading “Lighten Up” on page 102 aloud, emphasizing the word *trend*.

Tell the students that *trend* is the next word they will learn today, and explain that a *trend* is “the way in which something is changing.” Explain that analyzing school lunches has led to a trend, or change, toward healthier menus. Menus are changing to include healthier foods.

Display word card 23 (🗨️ WA8) and have the students say the word *trend*.

### 4 Play “What’s the Trend?”

Tell the students that partners will play a game called “What’s the Trend?” Explain that Milton is the name of an imaginary boy in fourth grade. Tell the students that you will describe a trend, or the way in which something is changing, at Milton’s school. Partners will figure out what the trend is. Then a few students will share with the class what their partners said.

Begin by reading the following scenario aloud twice:

- *Last year hardly any of the students in Milton’s class brought their lunches to school. Instead they bought lunch in the cafeteria. But this year, almost all of Milton’s classmates bring their lunches to school. Only a few students are buying lunch.*

Ask:

 **Q** *What is the trend in Milton’s class? What is changing and how is it changing?* [Click ❶ on WA8 to reveal the prompt.] Turn to your partner.

**PROMPT 1:** “The trend in Milton’s class is . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention. Then click ❷ on

#### Teacher Note

Milton is an imaginary character who appears in activities periodically. If any of your students or their friends is named Milton, you may want to choose another name for the character.

word card 23 (WA8) to reveal the next prompt, and have a few volunteers use the prompt to share their partners' thinking with the class.

**PROMPT 2:** "My partner said that the trend in Milton's class is . . ."

Using the same procedure, discuss the following scenarios:

- *At the beginning of the year, just about everyone in Milton's class was reading mysteries. But now hardly anyone is reading mysteries. Instead almost everyone is reading science fiction stories.*
- *For a while, most of the students in Milton's class were walking to school each day. But as the weather got colder, more and more students began to take the bus to school.*

Point to the word *trend* and ask:

**Q** *What's the new word we are learning that means "the way in which something is changing"?*

## INTRODUCE AND USE BOOST

### 5 Introduce and Define *Boost* and Review Synonyms

Remind the students that eating healthy food can help them focus better on their schoolwork. Read the first bullet under the heading "Food for Focus" aloud, emphasizing the word *boost*:

**p. 103** "Although foods high in sugar—such as soda and cookies—will give you an energy boost, it won't last long. It's better to eat foods such as whole-wheat bread, whole-wheat pasta, and fresh fruit. These foods help keep your energy level consistent all day."

Tell the students that *boost* is the last word they will learn today. Explain that *boost* means "increase or improve" and point out that the words *boost*, *increase*, and *improve* are synonyms.

Explain that food that is high in sugar will boost, or increase, your energy—but the boost in energy will not last long. Foods like whole-wheat bread and fruit keep energy levels consistent.

Display word card 24 (WA9) and have the students say the word *boost*.

### 6 Review the Activity "Imagine That!"

Tell the students that partners will do the activity "Imagine That!" Remind the students that they will imagine a scene that you describe. Then they will use the word *boost* to talk about what they imagined. Ask the students to imagine the following scenario as you read it aloud:

- *You play on a neighborhood softball team. You are a good player, but you want to be even better.*

### Technology Tip

To find web-based activities that focus on recognizing words with multiple meanings, you might search online using the keywords “whiteboard multiple-meaning words activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

### Teacher Note

If the students struggle to recall times they have boosted someone or been boosted, ask alternative questions such as “When have you seen someone being boosted?” or “When might you need to boost someone?”

Ask:

-  **Q** *What might you do to boost, or improve, your skills as a softball player?* [Click **1** on WA9 to reveal the first prompt.] Turn to your partner.

**PROMPT 1:** “I might boost my skills by . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following scenario:

- *Your best friend is on your softball team. In this week’s game, your friend strikes out twice. After the game, she says to you, “I’m just not any good. I shouldn’t play at all.”*

Ask:

-  **Q** *What might you say or do to boost your friend’s confidence?* [Click **2** to reveal the prompt.] Turn to your partner.

**PROMPT 2:** “To boost my friend’s confidence, I might . . .”

## **7** Discuss Another Meaning of *Boost*

Remind the students that many words have more than one meaning and that often the meanings are very different.

Direct the students’ attention to word card 24 (WA9) and review that in the article the word *boost* means “increase or improve.” Explain that the word *boost* has another meaning; *boost* can also mean “push up from below.” Explain that when you boost someone, you push or hold him up, usually so that the person can reach something high or climb up onto something.

Discuss as a class:

- Q** *When have you boosted someone, or when has someone boosted you?*

Click **3** on word card 24 (WA9) to reveal the prompt, and have a few volunteers use the prompt to share their thinking with the class.

**PROMPT 3:** “I boosted [my friend Raymond] when . . .”

Point to the word *boost* and ask:

- Q** *What’s the new word we are learning that means “increase or improve” or “push up from below”?*

Tell the students that tomorrow they will talk more about the words they learned today.

---

## MORE STRATEGY PRACTICE

### Start a Synonym Chart

Help the students develop an understanding of synonyms by starting a synonym chart. Write the title “Synonyms” at the top of a sheet of chart paper and post the chart where everyone can see it. Remind the students that *synonyms* are “words that mean the same thing or almost the same thing.” Review that thinking about the synonyms of a word can help them remember the word and its meaning.

Write the synonyms *boost*, *increase*, and *improve* on the chart, and remind the students that they learned these synonyms this week. Invite the students to add other synonyms they know to the chart. If the students have trouble thinking of synonyms, stimulate their thinking by reminding them that they learned the synonyms *transform* and *change* during Week 2, and add the words to the chart.

Explain that when they write stories, the students can use the synonyms they are learning in their writing. For example, instead of using the word *improve* in a story, they can use the word *boost*. Explain that using a synonym helps them avoid using the same word over and over again and makes their writing more interesting. During writing time, remind the students to use synonyms, and refer them to the chart for examples of synonyms they might use.

Throughout the year, encourage the students to share other synonyms they think of with the class; then add the synonyms the students suggest to the chart.

## MORE ELL SUPPORT

### Discuss Favorite Fruits and Vegetables

Review that the article “Food for Thought: Cafeteria Menus Shape Up” tells how cafeteria menus in schools have changed, with healthy foods such as fresh fruits and vegetables replacing foods high in sugar and fat. Ask:

**Q** *What is your favorite fruit? What do you like about it? Turn to your partner.*

Have the students use the following prompt to share their thinking with a partner:

**PROMPT:** “[Grapes] are my favorite fruit because [they are easy to put into your mouth and they taste sweet and juicy].”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the group. Then ask:

**Q** *What is your favorite vegetable? How do you like it cooked or served?*

### Materials

- Chart paper and a marker

---

### Teacher Note

Post the “Synonyms” chart to use throughout the year.

---

### Teacher Note

You may want to ask these and the following questions one at a time, giving the students time to respond to the first question before asking the second question.

---

### Teacher Note

You may want to bring in three or more types of fruits or vegetables for the children to taste, compare, and discuss.

# Day 4

## Review *Analyze, Trend,* and *Boost*

### Materials

- Daily review cards (WA10)
- Daily review activity (WA11)
- Copy of this week’s family letter (BLM1) for each student
- (Optional) Copy of the “Week 4 Crossword Puzzle” (BLM3) for each student

Have the students use the prompt to share their thinking with a partner:

**PROMPT:** “[Potatoes] are my favorite vegetable. I like them [mashed].”

Have volunteers use the prompt to share their thinking with the group.

### In this lesson, the students:

- Review the words *analyze*, *trend*, and *boost* from Day 3
- Develop the skill of explaining their thinking
- Work in a responsible way

### Words Reviewed

#### **analyze**

*Analyze* means “study or examine carefully.”

#### **trend**

A *trend* is “the way in which something is changing.”

#### **boost**

*Boost* means “increase or improve.” *Boost* also means “push up from below.”

## REVIEW THE WORDS

### 1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Display the daily review cards (WA10). Remind the students that yesterday they learned three words from the article “Food for Thought.” Point to each of the words as you review the pronunciation and meaning: *analyze*, *trend*, and *boost*. Explain that today they will learn more about the words.

Ask the students to imagine that they are writing a TV commercial for a new health drink called “Wowie Kapowie.”

Discuss as a class:

**Q** Which of yesterday’s words might you use in your commercial? How might you use the word?

Click 1 on the daily review cards (WA10) to reveal the prompt. Have a few volunteers use the prompt to share their thinking with the class.

analyze

trend

boost

**PROMPT 1:** I might use the word \_\_\_\_\_. I might write . . .

1

**PROMPT 1:** “I might use the word [*boost*]. I might write . . .”

## PRACTICE USING THE WORDS

### 2 Play “What’s the Missing Word?”

Tell the students that partners will play “What’s the Missing Word?” Review that you will read a sentence that has one word missing; then partners will decide which of the vocabulary words best fits the sentence and explain why they think it is that word.

Display the daily review activity (🕒 WA11) and begin playing the game with students in pairs:

1. Click **1** to reveal the first sentence. Point to the sentence and read it aloud.
  - Sentence 1: *People complained when the restaurant \_\_\_\_\_ its prices.*

2. Give the students a few moments to think about the sentence and the missing word. Then point to the five word choices and ask:

**Q** *What’s the missing word in this sentence? Why do you think so? Turn to your partner.*

Click **1** again to reveal the prompt.

**PROMPT:** “I think [*boosted*] is the missing word because . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

3. Conclude the discussion by clicking **1** a third time to highlight the correct vocabulary word and reveal the sentence with the correct word in place.

#### Teacher Note

You might explain that the students may need to change the form of the word to complete the sentence by adding an ending such as *-s*, *-ing*, or *-ed*.

#### Teacher Note

Each sentence on the daily review activity (WA11) has a corresponding number: the first sentence is **1**; the second sentence is **2**; the third sentence is **3**; and so on. To play the game, click the corresponding number four times:

- The first click reveals the sentence.
- The second click reveals the prompt.
- The third click highlights the correct answer and reveals the sentence with the missing word in place.
- The fourth click clears the screen.

analyze

trend

boost

**SENTENCE 1:** People complained when the restaurant boosted its prices.

1 2 3 4

### Teacher Note

Send home with each student a copy of this week's family letter (BLM1). Encourage the students to talk about this week's words with their families.

### Teacher Note

To provide students with additional review of words taught during Weeks 3 and 4, you might distribute a copy of the "Week 4 Crossword Puzzle" (BLM3) to each student.

4. Click 1 to clear the screen.

Using the same procedure, discuss the remaining sentences:

- Sentence 2: *Because of high gas prices, there is a \_\_\_\_\_ toward buying smaller cars.* (trend)
- Sentence 3: *Duquane \_\_\_\_\_ the problem and figured out how to solve it.* (analyzed)
- Sentence 4: *Ellen \_\_\_\_\_ her friend over the fence.* (boosted/boosts)

Tell the students that tomorrow they will talk more about some of the words they have been learning.

**In this lesson, the students:**

- Review words learned earlier
- Develop the skill of explaining their thinking
- Work in a responsible way

**Words Reviewed****creak**

*Creak* means “make a sharp, squeaking sound.”

**reminisce**

*Reminisce* means “think or talk about events in the past.”

**severe**

*Severe* means “causing great damage or pain.”

**sidesplitting**

*Sidesplitting* means “extremely funny.”

**topple**

*Topple* means “fall over or make something fall over.”

**REVIEW THE WORDS****1** Briefly Review the Words

Gather the class with partners sitting together, facing you. Display the ongoing review cards (WA12). Remind the students that they learned these words earlier. Explain that today they will talk more about the words.

Point to the word *sidesplitting*, pronounce it, and have the students say it.

Ask:

**Q** *What do you know about the word sidesplitting?*

Have one or two volunteers share their thinking with the class. Remind them to use the word *sidesplitting* as they share their ideas.

Repeat the procedure to review the remaining words.

**Materials**

- Ongoing review cards (WA12)
- “Class Vocabulary Assessment Record” sheet (CA1)
- Class set of the “Individual Vocabulary Assessment: Word Check 1” answer sheet (IA1)
- Class set of the “Individual Vocabulary Assessment Student Record” sheet (SR1)
- “Individual Vocabulary Assessment Class Record” sheet (CR1)
- (Optional) Class set of the “Student Self-assessment” response sheet (SA1)

## PRACTICE USING THE WORDS

### 2 Introduce the Activity “What Do You Think Will Happen?”

Tell the students that partners will do an activity called “What Do You Think Will Happen?” Explain that you will read a scenario that includes one of the vocabulary words. Then partners will use their imaginations and what they know about the word to tell what they think will happen next.

Explain that before they do the activity in pairs, the students will practice as a class. Then read the following scenario aloud twice:

- *Emma buys a box of ice pops for her sisters during a severe heat wave. She accidentally leaves the ice pops in her car all afternoon.*

Ask:

Q *What do you think will happen to the ice pops during the severe heat wave?*

Give the students a few moments to think about the question. Then click 1 on the ongoing review cards (WA12) to reveal the first prompt. Have one or two volunteers use the prompt to share their thinking with the class.

WA12

PROMPT 1: “During the severe heat wave, the ice pops will . . .”

### 3 Do the Activity “What Do You Think Will Happen?” in Pairs

Continue the activity in pairs using the following scenario:

- *Kwan tiptoes into the bedroom to see if his baby sister is asleep. As he gets near her crib, the floor creaks.*

Use “Think, Pair, Share” to discuss:

**Q** *What do you think will happen when the floor creaks?* [Pause; click **2** on WA12 to reveal the next prompt.] *Turn to your partner.*

**PROMPT 2:** “When the floor creaks . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following scenarios:

- *Karen has a trained monkey named Coco. “Watch,” Karen tells her friend Nate. “When I say, ‘Go, Coco,’ she’ll do a sidesplitting trick.”*

**Q** *What do you think will happen? What sidesplitting trick will Coco do?* [Pause; click **3** to reveal the prompt.] *Turn to your partner.*

**PROMPT 3:** “When Coco does a sidesplitting trick, she . . .”

- *Lisa removes a can of peaches from the bottom of the stack at the grocery store. The entire stack of cans begins to topple.*

**Q** *What do you think will happen when the stack of cans begins to topple?* [Pause; click **4** to reveal the next prompt.] *Turn to your partner.*

**PROMPT 4:** “When the stack of cans begins to topple . . .”

- *David’s father said he had a story to tell him. Then he started to reminisce.*

**Q** *What do you think will happen? What will David’s father reminisce about?* [Pause; click **5** to reveal the next prompt.] *Turn to your partner.*

**PROMPT 5:** “When David’s father reminisces, he . . .”

Tell the students that next week they will learn more new words.

## Assessment Notes

### CLASS VOCABULARY ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students’ predictions show that they understand what the words mean?
- Do the students have difficulty using any of the words to explain their predictions? (Note the words with which they have difficulty.)
- Are they using the vocabulary words outside of the vocabulary lessons?

Record your observations on the “Class Vocabulary Assessment Record” sheet (CA1); see page 152 of the *Assessment Resource Book*.

*(continues)*

### Teacher Note

For more information about the vocabulary assessments, see “About Vocabulary Assessments” in the Assessment Overview of the *Assessment Resource Book*.

## Assessment Notes *(continued)*

Use the following suggestions to support struggling students:

- If **only a few students** understand a word's meaning, reteach the word using the vocabulary lesson in which it was first taught as a model.
- If **about half of the students** understand a word's meaning, provide further practice by asking the students questions that require them to use the word to talk about their own experiences. For example, if the students are struggling with the word *reminisce*, ask questions such as "What events in the past do you like to reminisce about?"

For more information about reviewing and practicing the words, see "Retaining the Words" in the Introduction.

### INDIVIDUAL VOCABULARY ASSESSMENT NOTE

Before continuing with the week 5 lesson, take this opportunity to assess individual students' understanding of words taught in Weeks 1–4 using the "Individual Vocabulary Assessment: Word Check 1" answer sheet (IA1) on page 156 of the *Assessment Resource Book*. You might record the progress of individual students and the progress of your students as a whole using the "Individual Vocabulary Assessment Student Record" sheet (SR1) and the "Individual Vocabulary Assessment Class Record" sheet (CR1); see pages 224–226 of the *Assessment Resource Book*. For instructions on administering this assessment, see "Completing the Individual Vocabulary Assessment" on page 153 of the *Assessment Resource Book*.

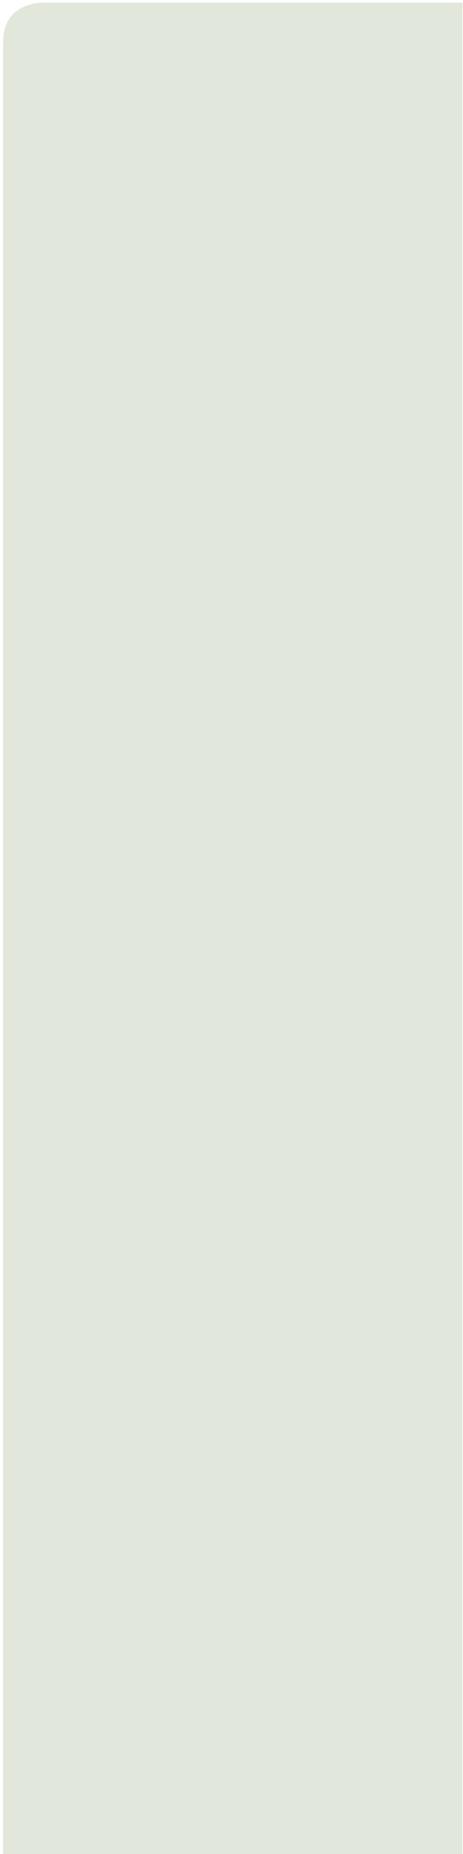

### STUDENT SELF-ASSESSMENT NOTE

In addition to or in place of the Individual Vocabulary Assessment, you might have each student evaluate her understanding of words taught in Weeks 1–4 using the "Student Self-assessment" response sheet (SA1). For instructions on administering this assessment, see "Completing the Student Self-assessment" on page 157 of the *Assessment Resource Book*.

#### Teacher Note

For more information, view "Using the Individual Vocabulary Assessment" (AV51).

# Tying the SCORE

## Men, Women, and Basketball

### In the Basket

In 1891, PE teacher James Naismith took on a challenge—to find an indoor game that would keep rowdy students busy during the cold winter months. He had the caretaker nail up a peach basket at each end of the gymnasium, and the game of basketball was born. Little did Naismith know that this sport would grow to be one of the most watched games in the world—and that the players would be paid multimillion-dollar salaries. Well, the male players, that is!

### Early Days

In the beginning, professional men's basketball was seen as a kind of sideshow entertainment where players showed off their skills. Teams would travel from town to town, stopping to challenge local teams. All that changed on November 1, 1946, when the first game in the National Basketball Association (NBA) was played: the Toronto Huskies versus the New York Knickerbockers at Maple Leaf Gardens in Toronto, Canada. The game drew a crowd of 7,090 people—a huge number for that time.

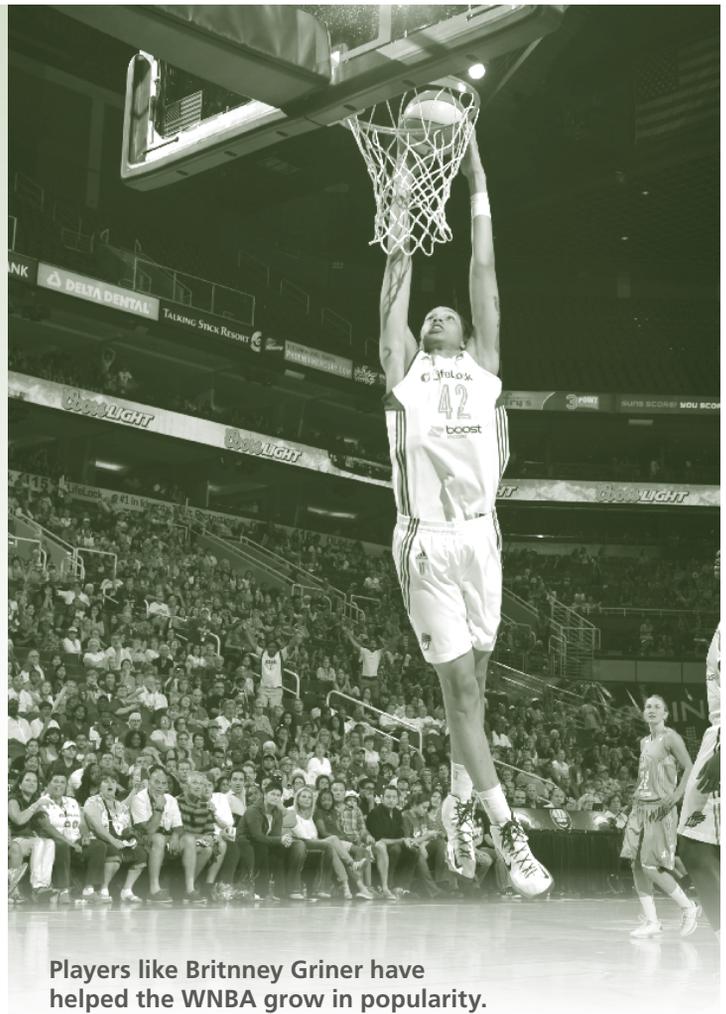

Women’s basketball got off to a slower start, but by the 1950s, women’s college basketball was going strong. Women even had their own superstar player—the extraordinary Nera White. Standing at an impressive 6 feet, 1 inch, White regularly sank baskets from center court. Fast-forward to 1996: hot on the heels of the U.S. women’s team winning a gold medal at the Olympics, the Women’s National Basketball Association (WNBA) was formed. Women finally had a national league of their own.

## A Numbers Game

The WNBA is not yet as financially successful as the NBA, but that’s probably because men’s basketball had a 50-year head start. However, the number of WNBA fans keeps growing. In 2013, the WNBA signed a 10-year extension on its television contract with one of the largest sports networks, ESPN. Many WNBA players have become household names and have huge fan clubs.

Today, the NBA and WNBA are the same in some ways but very different in others. Both are exciting to watch, and they attract large crowds. However, an NBA player can earn close to 100 times

Players like Brittney Griner have helped the WNBA grow in popularity.

more than a player in the WNBA. That’s something women players want to see changed. As more people watch WNBA games and advertisers pay higher prices for TV time slots, women players may just get their wish.

# Food for Thought

## Cafeteria Menus Shape Up

It's your favorite time of day. In the cafeteria line, you're on the hunt for hot dogs, but you can't find them anywhere. No fries or Hawaiian pizza are in sight, either. Your stomach's growling. So what's on the menu today?

### Lighten Up

School lunches aren't what they used to be. Before, you might have been able to fill your tray with foods such as pizza, hot dogs, or fries. Now, your lunch tray is more likely to include foods like grilled chicken, whole-wheat pasta, fresh fruits and vegetables, and low-fat yogurt. Your school isn't the only one that's changing its menu. Schools across the United States and around the world are replacing their high-fat, high-sugar lunches with healthier ones.

More than half of elementary and secondary students in the United States eat lunches provided by their schools. The increase in health problems such as diabetes and obesity made many people look closely at what students were eating. Schools realized that healthier lunch options could help stop some of the health problems from getting worse, so a trend toward healthier lunches began. Finally, in 2012, the government released guidelines that require schools to serve meals that limit calories and include whole grains, fruits, and a variety of vegetables.

A healthy lunch includes a variety of tasty foods.

## Food for Focus

Research shows that food affects your concentration. Eating a healthy meal may help you to focus better on your schoolwork. Here are some food facts for thought:

- Although foods high in sugar—such as soda and cookies—will give you an energy boost, it won't last long. It's better to eat foods such as whole-wheat bread, whole-wheat pasta, and fresh fruit. These foods help keep your energy level consistent all day.
- Your brain does need a good supply of fat to work well, but not the kind of fat found in foods such as cheeseburgers and hot dogs. By eating foods containing healthier fats—like fish, nuts, and seeds—you'll be helping to keep your brain in good shape.
- Chocolate and many sodas contain caffeine, which can give you energy but also leave you feeling jittery, making it hard to concentrate on your work.

Switching from eating high-fat, high-sugar foods to healthier choices might not be easy, but the benefits are certain—you'll have more energy to get you through the day and the ability to concentrate when you need to.

## Changes Schools Are Making

In school cafeterias across the United States, healthy foods have replaced foods high in sugar and fat. Here are some simple changes schools are making to provide healthy and delicious lunches for their students:

### Increasing Whole Grains

- Replacing foods made with white flour—such as white bread, flour tortillas, and saltine crackers—with foods made with whole grains—such as whole-wheat or rye bread, whole-wheat tortillas, and whole-grain crackers
- Replacing white rice with brown rice, wild rice, or quinoa (KEEN-wah)

### Reducing Sugar

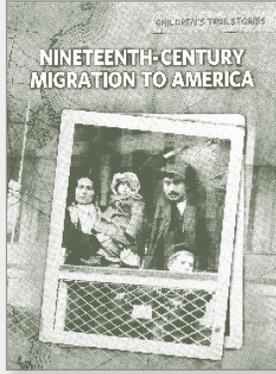

- Replacing chocolate milk with plain, low-fat milk
- Replacing canned fruit with fresh fruit

### Reducing Unhealthy Fat

- Replacing deep-fried foods like chicken nuggets and french fries with roasted chicken and root vegetables such as sweet potatoes, parsnips, carrots, and rutabagas
- Replacing potato chips and onion dip with raw vegetables and hummus dip

# Week 5

## RESOURCES

### Read-aloud

- *Nineteenth-Century Migration to America* by John Bliss

### More Strategy Practice

- “Discuss Using a Glossary”
- “Discuss Shades of Meaning with *Plead* and *Ask*”

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

### Whiteboard Activities

- WA1–WA9

### Reproducibles

# OVERVIEW

## Words Taught

*hardship*

*seek*

*yearn*

*plead*

*experience*

*custom*

## Words Reviewed

*impressive*

*landscape*

*rowdy*

*slight*

*trend*

## Word-learning Strategies

- Recognizing synonyms (review)
- Recognizing shades of meaning
- Using a dictionary, glossary, or thesaurus

## Vocabulary Focus

- Students learn and use six words from or about the book.
- Students review synonyms.
- Students recognize shades of meaning.
- Students use a print dictionary and a glossary to determine word meanings.
- Students review words learned earlier.
- Students build their speaking and listening skills.

## Social Development Focus

- Students analyze why it is important to be respectful.
- Students develop the skill of explaining their thinking.
- Students share their partners' thinking with the class.

## 1 DO AHEAD

- ✓ Prior to Day 3, collect enough dictionaries so that each pair of students will have one to share. Pairs of students will learn how to use the dictionary to determine a word's meaning.
- ✓ Prior to Day 3, read aloud pages 26–27 of *Nineteenth-Century Migration to America*. Note that these pages were not read during the *Making Meaning* lesson. You will want to familiarize the students with this text before discussing the word *custom*.
- ✓ (Optional) Prior to Day 3, review the more strategy practice activity “Discuss Using a Glossary” on page 118.
- ✓ (Optional) Prior to Day 4, review the more strategy practice activity “Discuss Shades of Meaning with *Plead* and *Ask*” on page 121.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this week's family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ (Optional) Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the “Week 5 Word Cards” (BLM2). These cards can be used to provide your students with more opportunities to review the words.

# Introduce *Hardship*, *Seek*, and *Yearn*

# Day 1

## In this lesson, the students:

- Learn and use the words *hardship*, *seek*, and *yearn*
- Discuss synonyms
- Explain their thinking

## Words Taught

### **hardship**

A *hardship* is “something that causes difficulty, pain, or suffering.”

### **seek**

Seek means “try to find.”

### **yearn** (p. 5)

*Yearn* means “wish or long for something very strongly, especially something difficult to get.”

## Materials

- *Nineteenth-Century Migration to America*
- Word card 25 (WA1)
- Word card 26 (WA2)
- Word card 27 (WA3)

## INTRODUCE AND USE *HARDSHIP*

### 1 Introduce and Define *Hardship*

Gather the students with partners sitting together, facing you.

Show the cover of *Nineteenth-Century Migration to America* and remind the students that they heard the book earlier. Explain that the new words they will learn this week are from or about the book. Show pages 4–5 and review that the first chapter of the book explains that the United States is a country of immigrants, and that people migrated to the United States for different reasons. Then read these sentences from page 4 aloud: “Some, like the Chinese, went to work on the railroads and in the mines. Irish and Jewish immigrants went because of troubles at home.”

Tell the students that people from Ireland and Jewish people from many countries came to this country because they faced hardships in their homelands. Tell the students that *hardship* is the first word they will learn today, and explain that a *hardship* is “something that causes difficulty, pain, or suffering.” Tell the students that some people in Ireland did not have enough food to eat, which is a terrible hardship, or difficulty. They came to America to escape starvation. Jewish people were sometimes mistreated in their homelands because of their religion, and they came to the United States to escape this hardship, or difficulty.

Display word card 25 (WA1) and have the students say the word *hardship*.

## 2 Talk About Hardships

Tell the students that natural disasters, such as earthquakes, hurricanes, and floods, often can cause hardships for people. A hurricane, for example, can destroy people's homes and cause great difficulty, pain, and suffering.

Use "Think, Pair, Share" to discuss the following:

-  **Q** *What other hardships might people face after a hurricane? [Pause; click 1 on WA1 to reveal the prompt.] Turn to your partner.*

hardship

**PROMPT 1:** One **hardship** people might face is . . .

1

WA1

**PROMPT 1:** "One hardship people might face is [not having enough food]."

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the word *hardship* and ask:

- Q** *What's the new word we are learning that means "something that causes difficulty, pain, or suffering"?*

## INTRODUCE AND USE SEEK

### 3 Introduce and Define Seek

Tell the students that the next word they will learn today is *seek*, and explain that *seek* means "try to find." Explain that because of the hardships they faced at home, millions of people came to the United States to seek, or try to find, a better life.

Display word card 26 (C WA2) and have the students say the word *seek*.

#### Teacher Note

Many students will be familiar with the word *seek* from playing "Hide and Seek." Explain that thinking and talking about a familiar word gives the students a chance to learn more about it and practice using it.

## 4 Discuss Seeking

Explain that we often use the word *seek* when we talk about trying to find things such as safety, pleasure, or peace and quiet. For example, we might seek, or try to find, safety from a storm by going to a shelter. We might seek pleasure, or fun, by going to a movie with a friend. Ask:

**Q** *If you are seeking, or trying to find, peace and quiet at home, where do you go?* [Click ❶ on WA2 to reveal the first prompt.] *Turn to your partner.*

**PROMPT 1:** “When I’m seeking peace and quiet, I . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

Discuss as a class:

**Q** *If you had a problem and were seeking advice, whom would you talk to? Why?*

Click ❷ on word card 26 (WA2) to reveal the prompt.

**PROMPT 2:** “If I were seeking advice, I would talk to [my brother] because . . .”

Have a few volunteers use the prompt to share their thinking with the class.

Point to the word *seek* and ask:

**Q** *What’s the new word we are learning that means “try to find”?*

## INTRODUCE AND USE YEARN

### 5 Introduce and Define *Yearn* and Review Synonyms

Direct the students’ attention to page 5 of the book, and remind them that the Statue of Liberty was the first thing many immigrants saw when they arrived in the United States. Review that the poem on the Statue of Liberty includes the following lines:

**p. 5** Give me your tired, your poor  
Your huddled masses yearning to breathe free

Tell the students that the last word they will learn today is *yearn*. Explain that *yearn* means “wish or long for something very strongly, especially something difficult to get.” Point out that *yearn*, *wish*, and *long for* are synonyms.

Explain that the statue and the poem were meant to welcome the immigrants, many of whom were poor and yearned, or strongly wished, to be free and find a better life in the United States.

Display word card 27 (❸ WA3) and have the students say the word *yearn*.

### Teacher Note

If you started a synonym chart, add the word *yearn* and its synonyms to it. Remind the students that they can use synonyms—like *yearn*—in their writing to replace overused words—like *wish*—to make their writing more interesting.

### Teacher Note

Support struggling students by asking questions such as “What is something you *really, really* want to do? To buy? To see? To try?” and “What is something that you *really, really* want but that is hard or impossible to get?” If the students continue to struggle, ask alternative questions such as “What is something you have yearned for in the past? Did you get what you yearned for?”

## 6 Discuss Things We Yearn For

Explain that all of us yearn, or wish very strongly, for something at some time in our lives. For example, we might yearn to see people we have not seen in a long time, or we might yearn to go to places we have never been before. We might yearn to do things that are new or exciting.

Use “Think, Pair, Share” to discuss:

**Q** *What is something you yearn for? Why?* [Pause; click 1 on WA3 to reveal the prompt.] *Turn to your partner.*

**PROMPT 1:** “I yearn to [go skiing with my dad] because . . .”

Point to the word *yearn* and ask:

**Q** *What’s the new word we are learning that means “wish or long for something very strongly, especially something difficult to get”?*

# Day 2

## Review *Hardship*, *Seek*, and *Yearn*

### Materials

- Daily review cards (WA4)

### In this lesson, the students:

- Review the words *hardship*, *seek*, and *yearn* from Day 1
- Share their partners’ thinking with the class
- Explain their thinking

### Words Reviewed

#### **hardship**

A *hardship* is “something that causes difficulty, pain, or suffering.”

#### **seek**

Seek means “try to find.”

#### **yearn**

*Yearn* means “wish or long for something very strongly, especially something difficult to get.”

## REVIEW THE WORDS

### 1 Briefly Review the Words

Gather the class with partners sitting together, facing you. Display the daily review cards (WA4). Remind the students that yesterday they learned three words from or about the book *Nineteenth-Century Migration to America*. Explain that they will learn more about the words today.

Tell the students that you will ask them some questions about the words, which they will discuss with their partners. Ask them to listen carefully to what their partners say so that they can share their partners' thinking with the class.

Point to the word *hardship* and ask:

**Q** *Why would it be a hardship to be without electricity for several days?* [Click **1** on WA4 to reveal the first prompt.] *Turn to your partner.*

hardshipseekyearn

**PROMPT 1:** It [would/would not] be a **hardship** because . . .

12345678

WA4

**PROMPT 1:** “It [would/would not] be a hardship because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention. Then click **2** on the daily review cards (WA4) to reveal the next prompt. Have a few volunteers use the prompt to share their partners' thinking with the class.

**PROMPT 2:** “My partner thinks it [would/would not] be a hardship because . . .”

Using the same procedure, review and discuss the following:

[seek]

**Q** *If you were having trouble with a homework assignment, from whom would you seek help? Why?* [Click **3** to reveal the prompt.] *Turn to your partner.*

**PROMPT 3:** “I would seek help from [my mom] because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention. Then click **4** to reveal the next prompt. Have a few volunteers use the prompt to share their partners' thinking with the class.

**PROMPT 4:** “My partner would seek help from [her mom] because . . .”

[yearn]

**Q** *If you hated dancing, would you yearn to take ballet lessons? Why?*  
[Click 5 to reveal the next prompt.] Turn to your partner.

**PROMPT 5:** “I [would/would not] yearn to take ballet lessons because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention. Then click 6 to reveal the next prompt, and have one or two volunteers use the prompt to share their partners’ thinking with the class.

**PROMPT 6:** “My partner [would/would not] yearn to take ballet lessons because . . .”

## PRACTICE USING THE WORDS

### 2 Review the Activity “Which Word Goes With?”

Tell the students that partners will do the activity “Which Word Goes With?” Review that you will write a word where everyone can see it. Then partners will discuss which of yesterday’s vocabulary words goes with the word you wrote and explain why.

Explain that the word you wrote might go with more than one of the vocabulary words. Tell the students that partners may not always agree and that is fine. What is important is that they explain their thinking.

Tell the students that before they do the activity in pairs, they will practice as a class. Write the word *food* where everyone can see it and read the word aloud. Then point to the daily review cards (WA4) and ask:

**Q** *Which of yesterday’s words do you think goes with food? Why do you think that?*

Give the students a few moments to think about the questions. Then click 7 on the daily review cards (WA4) to reveal the prompt. Have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT 7:** “I think [yearn] goes with *food* because . . .”

### 3 Do the Activity “Which Word Goes With?” in Pairs

Write the word *winter* where everyone can see it and read it aloud.

Use “Think, Pair, Share” to discuss:

**Q** *Which of yesterday’s words do you think goes with winter? Why do you think that?* [Pause; click 8 to reveal the prompt.] Turn to your partner.

**PROMPT 8:** “I think [*hardship*] goes with *winter* because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

Explain that tomorrow the students will learn three new words.

### Teacher Note

If the students have trouble making associations, think aloud about associations you might make, or ask questions such as “How might the word *seek* go with *food*? When might you seek food? What foods do you seek when you’re hungry?” “How might the word *yearn* go with *food*? When might you most yearn for something to eat?” and “How might the word *hardship* go with *food*? Why would not having enough food be a hardship?”

# Introduce *Plead, Experience,* and *Custom*

# Day 3

## In this lesson, the students:

- Learn and use the words *plead, experience,* and *custom*
- Discuss shades of meaning
- Use print dictionaries to determine word meanings
- Explain their thinking

## Words Taught

### ***plead***

*Plead* means “beg.” When you plead, you ask for something in a strong or serious way.

### **experience** (p. 17)

An *experience* is “something you have done, seen, or taken part in.”

### **custom** (p. 26)

A custom is “something that has been done for a long time and has become widely accepted.”

## ABOUT RECOGNIZING SHADES OF MEANING

This week the students begin an exploration of shades of meaning that continues throughout the program. In this lesson, they are introduced to recognizing shades of meaning among verbs that differ in manner through a discussion of the words *plead* and *ask*. In later lessons, they will discuss shades of meaning among other verbs that differ in manner and among adjectives that differ in intensity (for example, *enraged* and *angry*). Recognizing differences among words helps the students remember the words and enables them to use more precise and interesting words in conversation and in their writing. For a complete table of the words with shades of meaning discussed in the vocabulary lessons, see Appendix C. For more information about recognizing shades of meaning and other word-learning strategies, see “Independent Word-learning Strategies” in the Introduction.

## ABOUT USING A DICTIONARY, GLOSSARY, AND THESAURUS

In lessons and More Strategy Practice activities across the year, the students explore using print and digital dictionaries and thesauruses, and print glossaries. On Day 3 of this lesson, the students are introduced to using a print dictionary (through the word *experience*) and to using a glossary. For a complete list of lessons or More Strategy Practice activities in which dictionaries, glossaries, and thesauruses are explored, see Appendix C. For more information about using a dictionary, glossary, and thesaurus and other word-learning strategies, see “Independent Word-learning Strategies” in the Introduction.

## Materials

- *Nineteenth-Century Migration to America*
- Word card 28 (WA5)
- Dictionaries, collected ahead
- Word card 29 (WA6)
- Word card 30 (WA7)

# INTRODUCE AND USE PLEAD

## 1 Introduce and Define *Plead*

Gather the class with partners sitting together, facing you.

Review that earlier the students learned three words from or about the book *Nineteenth-Century Migration to America*. Explain that today they will learn three more words from or about the book.

Show pages 12–13 of the book and remind the students that this chapter tells about Lee Chew, who dreamed of going from China to the United States. Show page 14 and read the paragraph aloud.

Tell the students that the first word they will learn today is *plead*, and explain that *plead* means “beg.” Explain that when you plead, you ask for something in a strong or serious way. Review that Lee pleaded with, or begged, his parents to let him go to America. He wanted to go very badly, so he asked his parents for permission in a very strong or serious way.

Display word card 28 (WA5) and have the students say the word *plead*.

## 2 Introduce Shades of Meaning and Act Out Pleading

Remind the students that when you plead for something, you do not simply ask for it, you beg for it, or ask for it in a very strong or serious way. Ask the students to listen and watch as you ask for a drink of water and then plead for a drink. Then ask the following question twice, first in a non-pleading voice and then in a pleading voice: “May I please have a drink of water?”

Discuss as a class:

Q *What did you notice about the way I looked and sounded when I asked for a drink of water?*

Click 1 on word card 28 (WA5) to reveal the first prompt.

plead

**PROMPT 1:** When you asked for a drink of water, you . . .

1 2 3

WA5

### Technology Tip

To find web-based activities that focus on recognizing shades of meaning, you might search online using the keywords “whiteboard shades of meaning activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

**ELPS 2.C.i**  
**Step 2**  
**(all, beginning on page 114 and continuing on to page 115)**

**PROMPT 1:** “When you asked for a drink of water, you . . .”

Have one or two volunteers use the prompt to share their thinking with the class. Then ask:

**Q** *What did you notice about the way I looked and sounded when I pleaded for a drink of water?*

Click **2** to reveal the next prompt.

**PROMPT 2:** “When you pleaded for a drink of water, you . . .”

Use “Think, Pair, Share” to discuss:

**Q** *When have you pleaded with someone? What did you say when you pleaded, and how did you say it? [Pause; click **3** on WA5 to reveal the next prompt.] Turn to your partner.*

**PROMPT 3:** “I pleaded when \_\_\_\_\_. When I pleaded, I said . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class. Ask each volunteer to repeat what he or she said in a pleading voice.

Point to the word *plead* and ask:

**Q** *What’s the new word we are learning that means “beg”?*

## INTRODUCE AND USE EXPERIENCE

### 3 Introduce Using a Dictionary

Tell the students that the next word they will learn is also from the book *Nineteenth-Century Migration to America*. Explain that they will do something different to learn about this word—they will use a dictionary. Show the cover of the dictionary, read the title aloud, and ask:

**Q** *What is a dictionary? When have you used a dictionary?*

Have a few volunteers share their thinking with the class. If necessary, explain that a *dictionary* is a “book that lists words in alphabetical (A-B-C) order and gives their meanings and other information.” Point out that any time the students are not sure what a word means, they can look it up in the dictionary.

Distribute a dictionary to each pair of students. Have partners open their dictionaries to the second page of word entries. Point out the guide words at the top of the page and explain that the guide words are the first and last words found on the page. Explain that the guide words can help them find the page that has the word they are looking for. Also point out that the words are listed alphabetically (A-B-C order) on the page and that each word is followed by its meaning or meanings. Discuss as a class:

**Q** *What other information about the words is provided on this page?*

Have a few volunteers share their thinking with the class. As necessary and appropriate, point out that a dictionary gives the spelling of each word; its division into syllables; the pronunciation; the part of speech (whether the word is a noun, verb, adjective, or other part of speech); and other forms of the word, such as the *-ing* and *-ed* forms of a verb. Point out that, for some words, a sentence that shows how one might use the word is also provided.

#### 4 Use the Dictionary to Discuss the Word *Experience*

Show pages 16–17 of *Nineteenth-Century Migration to America*. Read the first paragraph on page 17 aloud, emphasizing the word *experiences*. Tell the students that *experience* is the next word they will learn today, and explain that they will use the dictionary to find the meaning of *experience*. Display word card 29 (WA6) and have the students say the word *experience*.

Give partners a few minutes to find the word *experience* in their dictionaries.

When most pairs have finished talking, ask a volunteer to read the definition of *experience* aloud. If necessary, remind the students that an *experience* is “something you have done, seen, or taken part in.” Explain that after arriving in the United States, Lee’s experiences, or the things that he did, included working at several different jobs and living in both San Francisco and New York City.

#### 5 Discuss the Students’ Experiences

Tell the students that every day we have experiences—we see things, or do things, or things happen to us. Explain that we forget most of these experiences because they are ordinary and not important to us, but that some experiences are so special and important that we remember them clearly, even if they happened a long time ago. Provide a few examples of experiences that you remember from long ago and an example of a recent experience you consider important.

##### You might say:

“I remember the experience of graduating from high school. I was both excited and nervous, and I could tell how proud my parents were. I also remember the experience of traveling outside of the country for the first time. I didn’t know the language that people spoke, and I was often confused, but I had a wonderful time. Recently, I was jogging and got chased by a large, scary dog. I got away, but that’s an experience I think I’ll remember for quite a while!”

Ask:

**Q** *What is an experience that you remember clearly? It might be a recent experience or one that happened a long time ago.* [Click 1 on WA6 to reveal the first prompt.] *Turn to your partner.*

#### Teacher Note

Circulate as the students are looking up the word. If many students are struggling, call for their attention. Model using the guide words in your copy of the dictionary to find the word. Then give the students another minute or two to find the word.

**PROMPT 1:** “I remember the experience of . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention and have a few volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss the following:

**Q** *What experience in the future are you looking forward to? Why?* [Click 2 to reveal the prompt.] *Turn to your partner.*

**PROMPT 2:** “I am looking forward to the experience of [visiting my grandparents this summer] because . . .”

Point to the word *experience* and ask:

**Q** *What’s the new word we are learning that means “something that you have done, seen, or taken part in”?*

## INTRODUCE AND USE CUSTOM

### 6 Introduce and Define *Custom*

Show pages 26–27 of *Nineteenth-Century Immigration to America*. Tell the students that this chapter explains that people continue to migrate to the United States from many different countries. Point to the photograph on page 26 and read the caption aloud: “People from around the world bring new customs and ideas to the United States.” Tell the students that *custom* is the last word they will learn today. Explain that a *custom* is “something that has been done for a long time and has become widely accepted.” Explain that immigrants bring their customs, or ways of doing things, with them and that these customs become part of life in America.

Display word card 30 (WA7) and have the students say the word *custom*.

### 7 Discuss Customs

Tell the students that the customs of a country often are associated with holidays and other special occasions that are festive and fun. For example, in the United States it is a custom for people to celebrate the Fourth of July by watching fireworks. This is something that Americans have done for many years, and it has become widely accepted. During the Thanksgiving holiday, it is a custom for families to enjoy a turkey dinner together. On May 5, it is a custom for Mexican Americans to celebrate Cinco de Mayo by gathering with friends and family members for food, music, and dancing.

Explain that families often have their own special customs for celebrating holidays or other festive occasions. Give some examples of customs in your family or in other families you know.

#### Teacher Note

Pages 26–27 of *Nineteenth-Century Migration to America* were not taught as part of the *Making Meaning* lesson. Be sure to read these pages aloud before teaching and discussing the word *custom* in this lesson.

**You might say:**

“To celebrate birthdays in my family, it is our custom to send each other funny cards or gifts. It is also a family custom for all of us to gather at my parents’ house on their wedding anniversary and share a wonderful meal.”

Use “Think, Pair, Share” to discuss:

**Q** *What is a custom your family has for celebrating holidays or other festive occasions?* [Pause; click 1 on WA7 to reveal the first prompt.] *Turn to your partner.*

**PROMPT 1:** “A custom my family has is [giving money in red envelopes to celebrate the new year].”

Point to the word *custom* and ask:

**Q** *What’s the new word we are learning that means “something that has been done for a long time and has become widely accepted”?*

Tell the students that tomorrow they will talk more about the words they learned today.

## Materials

- *Nineteenth-Century Migration to America*

## Teacher Note

You might explain that words defined in a glossary may appear in the text in colored type or in italics (slanted type) instead of in bold type. Review that such words are called *keywords*.

## MORE STRATEGY PRACTICE

### Discuss Using a Glossary

Direct the students’ attention to the glossary on page 30 of *Nineteenth-Century Migration to America*. Tell the students that a *glossary* is a “list of words the author thinks readers might need to know to understand the book.” Explain that a glossary is usually found at the end of a book and is organized like a dictionary—it lists the words in alphabetical order and tells what each word means.

Tell the students that if they come across a word in a nonfiction book that they do not understand, they can often look it up in the glossary to find out what it means. Explain that authors will often use bold type to help readers know which words in a book can be found in the glossary.

Show page 14 and point out the term *steerage*. Point out that *steerage* appears in bold type, which tells readers that they can look up its meaning in the glossary. Turn back to the glossary and model using it by looking up *steerage* alphabetically and reading the definition.

Then show page 16 and ask:

**Q** *What words on this page might we find in the glossary? Why do you say that?*

If necessary, point out that we can find the words *quarter* and *laundry* in the glossary. We know that because they are in bold type. Invite volunteers to turn to the glossary on page 30 of the book and read the definitions of *quarter* and *laundry*.

# Review *Plead, Experience,* and *Custom*

# Day 4

## In this lesson, the students:

- Review the words *plead*, *experience*, and *custom* from Day 3
- Explain their thinking

## Words Reviewed

### ***plead***

*Plead* means “beg.” When you plead, you ask for something in a strong or serious way.

### ***experience***

An *experience* is “something you have done, seen, or taken part in.”

### ***custom***

A *custom* is “something that has been done for a long time and has become widely accepted.”

## REVIEW THE WORDS

### 1 Briefly Review the Words

Gather the class with partners sitting together, facing you. Display the daily review cards (WA8). Remind the students that yesterday they learned three words from or about *Nineteenth-Century Migration to America*. Point to each of these words as you review the pronunciation and meaning: *plead*, *experience*, and *custom*. Explain that today they will think more about the words.

Discuss as a class:

**Q** Which of yesterday’s words do you think was especially interesting to talk about? Why?

Click 1 on the daily review cards (WA8) to reveal the first prompt. Have one or two volunteers use the prompt to share their thinking with the class.

## Materials

- Daily review cards (WA8)
- Copy of this week’s family letter (BLM1) for each student

plead      experience      custom

**PROMPT 1:** The word \_\_\_\_\_ was especially interesting to talk about because . . .

1   2

**PROMPT 1:** “The word [*custom*] was especially interesting to talk about because . . .”

## PRACTICE USING THE WORDS

### 2 Review the Game “Which Word Am I?”

Tell the students that partners will play the game “Which Word Am I?” Point to the vocabulary words on the daily review cards (WA8), and review that you will give a clue about one of these words; partners will figure out which word they think the clue is about and discuss why they think that. Then you will ask a few pairs to share their thinking with the class.

Begin by reading the following clue aloud twice:

- *I’m what you would do if you asked your sister for help in a very serious way.*

Ask:

**Q** *Which word am I? Why do you think that?* [Click 2 on WA8 to reveal the prompt.] *Turn to your partner.*

**PROMPT 2:** “I think the word is [*plead*] because . . .”

Have partners use the prompt to discuss the questions. When most pairs have finished talking, signal for their attention. Have one or two volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following clues:

- *I'm something that people have done for a long time, like wearing green clothes on Saint Patrick's Day.* (custom)
- *I'm something that you have done, like going on a sleepover or finding a four-leaf clover.* (experience)
- *I'm what you might do if you really want to do something and your parents have said no.* (plead)

Tell the students that tomorrow they will talk more about some of the words they have been learning.

---

## MORE STRATEGY PRACTICE

### Discuss Shades of Meaning with *Plead* and *Ask*

Write the words *plead* and *ask* where everyone can see them. As a class, discuss:

**Q** *How are the words plead and ask alike? How are they different?*

If necessary, review that *plead* and *ask* mean about the same thing, with one important difference: if you plead for something, you don't calmly ask for it, you ask for it in a very strong and serious way; you beg for it.

Ask:

**Q** *If you desperately needed to go to the library to finish your report for school, would you plead for a ride there or simply ask for it? Why? Turn to your partner.*

After partners have talked, have one or two volunteers briefly share their thinking with the class. Then ask:

**Q** *If you were eating dinner and wanted some more broccoli, would you plead for it or simply ask for it? Why? Turn to your partner.*

After partners have talked, have one or two volunteers share their thinking.

Tell the students that now that they know the word *plead*, they have just the right word to use in their writing when they want to describe begging or asking for something in a very strong and serious way.

---

### Teacher Note

Send home with each student a copy of this week's family letter (BLM1). Encourage the students to talk about this week's words with their families.

**ELPS 2.C.i**  
**More Strategy Practice (all)**

---

### Teacher Note

You might start a chart of words with shades of meaning entitled "Just the Right Word." Write the word *plead* on the chart, along with its definition, "beg."

### Materials

- Ongoing review cards (WA9)

### In this lesson, the students:

- Review words learned earlier
- Explain their thinking

### Words Reviewed

#### **impressive**

Something impressive has a strong effect on your mind. You notice and remember it.

#### **landscape**

A *landscape* is a “large area of natural scenery that you can see from one place.” A landscape might include hills, trees, mountains, lakes, or rivers.

#### **rowdy**

*Rowdy* means “wild and noisy.”

#### **slight**

*Slight* means “small in amount or not serious, important, or noticeable.”

#### **trend**

A *trend* is “the way in which something is changing.”

## REVIEW THE WORDS

### 1 Briefly Review the Words

Gather the class with partners sitting together, facing you. Display the ongoing review cards (WA9) and remind the students that they learned these words earlier. Explain that today they will talk more about the words.

Point to the word *impressive*, pronounce it, and have the students say it.

Ask:

**Q** *What do you know about the word impressive?*

Have one or two volunteers share their thinking with the class. Remind them to use the word *impressive* as they share their ideas.

Repeat the procedure to review the remaining words.

## PRACTICE USING THE WORDS

### 2 Review “Does That Make Sense?”

Tell the students that partners will play the game “Does That Make Sense?” Review that you will read a scenario that includes one of the vocabulary words. Partners will decide whether or not the word makes sense in the scenario and explain why they think so.

Direct the students' attention to the ongoing review cards (WA9) and point to the word *impressive*. Explain that the first scenario includes the word *impressive*. Then read the following scenario aloud twice:

- *Vicki and her mother are at the circus. A little car races around the ring and stops. Out of the car steps a clown, then another, and another, and another, until twenty clowns appear. "Wow! That's impressive!" Vicki shouts.*

Ask:

**Q** Does the word *impressive* make sense in the scenario? Why do you think that? [Click 1 on WA9 to reveal the prompt.] Turn to your partner.

WA9

impressivelandscaperowdy

slighttrend

**PROMPT 1:** The word \_\_\_\_\_ [does/does not] make sense because . . .

1

**PROMPT 1:** "The word [*impressive*] [does/does not] make sense because . . ."

Using the same procedure, discuss the following scenarios:

**[landscape]**

- *Jack and Erica have been hiking up a mountain all day. When they get to the top, they can see for miles around. "Look at that," says Erica. "From up here, you can really see the whole landscape."*

**[rowdy]**

- *Jen and her sister are quietly writing stories in their room. Their mother walks into the room and scolds them, saying, "You are much too rowdy!"*

**[slight]**

- *Victor accidentally drops his camera on the floor. There is a small scratch on the side, but it still works well and nothing is broken. "I'm glad that the damage is so slight," says Victor.*

**[trend]**

- *On Monday it was hot. On Tuesday it was hotter. On Wednesday it was hotter still. "Wow!" said Mr. Garcia. "I don't like this trend in the weather."*

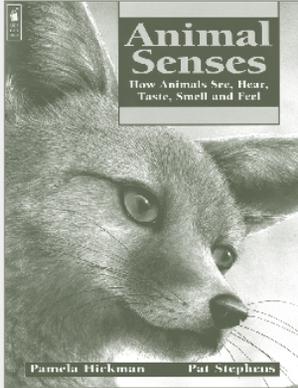

Tell the students that next week they will learn more new words.

### Teacher Note

Listen as partners talk. If the students struggle to answer the questions, call for their attention. Reread the scenario aloud, and explain that the word *impressive* does make sense because it is impressive that twenty clowns fit into a little car. It is something that would have a strong effect on your mind. You would notice and remember it.

# Week 6

## RESOURCES

### Read-aloud

- *Animal Senses: How Animals See, Hear, Taste, Smell and Feel* by Pamela Hickman, illustrated by Pat Stephens

### More Strategy Practice

- “Discuss Another Meaning of *Critical*”

### Extensions

- “Discuss the Prefix *un-*”
- “Discuss the Prefix *dis-*”

### Assessment Resource Book

- Week 6 vocabulary assessment

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

### Whiteboard Activities

- WA1–WA11

### Assessment Form

- “Class Vocabulary Assessment Record” sheet (CA1)

### Reproducibles

- Week 6 family letter (BLM1)
- (Optional) “Week 6 Word Cards” (BLM2)
- (Optional) “Week 6 Crossword Puzzle” (BLM3)

### Professional Development Media

- “Using Web-based Whiteboard Activities” tutorial (AV42)

# OVERVIEW

## Words Taught

*dissimilar*

focus

*function*

sensitive

*critical*

obstacle

## Words Reviewed

custom

experience

hardship

rowdier

tilt

## Word-learning Strategies

- Recognizing antonyms (review)
- Recognizing words with multiple meanings (review)
- Using context to determine word meanings (review)

## Vocabulary Focus

- Students learn and use six words from or about the book.
- Students review antonyms.
- Students review words with multiple meanings.
- Students use context to determine word meanings.
- Students review words learned earlier.
- Students build their speaking and listening skills.

## Social Development Focus

- Students develop the skill of explaining their thinking.

## ① DO AHEAD

- ✓ Prior to Day 4, review the more strategy practice activity “Discuss Another Meaning of *Critical*” on page 142.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this week’s family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ Prior to Day 5, make a copy of the “Class Vocabulary Assessment Record” sheet (CA1); see page 160 of the *Assessment Resource Book*.
- ✓ (Optional) Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the following materials: “Week 6 Word Cards” (BLM2) and “Week 6 Crossword Puzzle” (BLM3). These materials can be used to provide your students with more opportunities to review the words.

# Introduce *Dissimilar*, *Focus*, and *Function*

# Day 1

## In this lesson, the students:

- Learn and use the words *dissimilar*, *focus*, and *function*
- Review antonyms
- Review words with multiple meanings
- Explain their thinking

## Words Taught

### *dissimilar*

*Dissimilar* means “not similar, or not alike.” If two things are dissimilar, they are different.

### *focus* (p. 10)

*Focus* means “adjust the eyes to see something clearly.” *Focus* also means “concentrate your attention or effort on something.”

### *function*

A *function* is a “purpose, role, or job.”

## ABOUT ABBREVIATED LESSONS

Beginning this week, parts of the lesson that are essentially the same from week to week are abbreviated. Teacher Notes refer you to a fully written-out example of each abbreviated part, if you wish to review it. For more information about abbreviated lessons, see “Full and Abbreviated Lessons” in the Introduction.

## INTRODUCE AND USE *DISSIMILAR*

### 1 Introduce and Define *Dissimilar* and Review Antonyms

Briefly review *Animal Senses*.

Show pages 6–7, read the chapter title on page 6 aloud, and review that this part of the book gives information about how humans and animals use their eyes to see. Read page 6 aloud.

Tell the students that the first word they will learn today is *dissimilar*. Display word card 31 (WA1) and have the students say the word *dissimilar*. Explain that *dissimilar* means “not similar, or not alike” and that *dissimilar* and *similar* are antonyms.

Explain that if two things are dissimilar, they are different. Tell the students that, as you reread part of page 6 aloud, you want them to

## Materials

- *Animal Senses*
- Word card 31 (WA1)
- Word card 32 (WA2)
- Word card 33 (WA3)

### TEKS 7.F.i

Student/Teacher Activity Step 1 (all, beginning on page 127 and continuing on to page 128)

### Teacher Note

For an example of how to introduce the week's vocabulary words and review the read-aloud text, see Week 2, Day 1, Step 1.

### Teacher Note

If you started an antonym chart, add the words *similar* and *dissimilar* to it.

### Technology Tip

To find web-based activities that focus on recognizing antonyms, you might search online using the keywords “whiteboard antonyms activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

### Teacher Note

For an example of how to prompt the students to use a word, see Week 1, Day 1, Step 4.

**ELPS 1.A.ii**  
Step 2 (all)

listen for ways that humans and birds are dissimilar, or different, in the way they use their eyes to see around them.

Read the first three sentences on page 6 aloud, stopping after “A bird has to turn its whole head to look around.”

Discuss as a class:

**Q** *In what way are humans and birds dissimilar in how they use their eyes to see around them?*

Click **1** on word card 31 (WA1) to reveal the first prompt. Have one or two volunteers use the prompt to share their thinking with the class.

dissimilar

**PROMPT 1:** The way that humans and birds are **dissimilar** is . . .

1
2
3

WA1

**PROMPT 1:** “The way that humans and birds are dissimilar is . . .”

## **2** Discuss Ways That Things and People Are Dissimilar

Remind the students that if two things are dissimilar, they are different.

Use “Think, Pair, Share” to discuss:

**Q** *In what ways are third grade and fourth grade dissimilar? [Pause; click **2** on WA1 to reveal the next prompt.] Turn to your partner.*

**PROMPT 2:** “One way that third grade and fourth grade are dissimilar is . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

Tell the students that one reason people might become friends is that they are similar in certain ways. For example, they might have similar interests or similar personalities. Point out that good friends can also be dissimilar, or different, in certain ways.

Discuss as a class:

**Q** *What is one way that you and your best friend are dissimilar?*

Click 3 to reveal the prompt and have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT 3:** “One way that my best friend and I are dissimilar is . . .”

Have one or two volunteers use the prompt to share their thinking with the class.

Point to the word *dissimilar* and review the pronunciation and meaning of the word.

## INTRODUCE AND USE *FOCUS*

### 3 Introduce and Define *Focus*

Show pages 10–11 of *Animal Senses*, read the section title on page 10 aloud, and review that this part of the book gives information about animals’ sense of sight. Read the first two sentences on page 10 aloud, emphasizing the word *focus*.

Tell the students that *focus* is the next word they will learn today, and explain that *focus* means “adjust the eyes to see something clearly.”

Point out that many animals that hunt other animals for food have eyes in the front of their heads. Both eyes focus on, or adjust to see clearly, the same thing at the same time, which helps predators track their prey.

Display word card 32 (WA2) and have the students say the word *focus*.

### 4 Experiment with Focusing

Tell the students that they will do an experiment. Explain that they will each hold an index finger at arm’s length, and look at the finger. Then they will each slowly move the finger toward their nose, and then slowly move it back to arm’s length. Tell the students that you want them to notice what happens as their eyes focus on their moving fingers.

Have the students do the experiment.

Ask:

**Q** *What did you notice as your eyes focused on your finger?* [Click 1 on WA2 to reveal the first prompt.] *Turn to your partner.*

**PROMPT 1:** “As my eyes focused on my finger, I noticed . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class. If necessary, explain that when their eyes focused on one finger at arm’s length, they could see it clearly, and tell the students that we say that the finger was “in focus.” Then point out that as they moved the finger closer, it became blurry, and tell the students that we say that the finger was “out of focus.”

#### Teacher Note

For an example of how to end the discussion of a word, see Week 1, Day 1, Step 6.

#### ELPS 2.C.iv

Steps 3–6

(all, beginning on page 129 and continuing on to page 131)

#### Teacher Note

You might model the experiment before having the students do it.

## Technology Tip

To find web-based activities that focus on recognizing words with multiple meanings, you might search online using the keywords “whiteboard multiple-meaning words activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

### TEKS 3.B.ii

Student/Teacher Activity

Step 6

(all, beginning on page 130 and continuing on page 131)

### Teacher Note

You might write the two definitions where everyone can see them.

## 5 Discuss Another Meaning of *Focus*

Review that some words have more than one meaning and that the meanings may be very different.

Direct the students’ attention to word card 32 (WA2) and point to the word *focus*. Review that in the book, *focus* means “adjust the eyes to see something clearly.” Tell the students that *focus* has another meaning. Explain that *focus* can also mean “concentrate your attention or effort on something.”

Give some examples of times when you or the students have focused, or concentrated attention or effort on something.

#### You might say:

“When our new baby came home, our whole family focused, or concentrated its attention, on him. Right now you are focusing, or concentrating your efforts, on learning vocabulary words.”

Ask:

**Q** *When have you focused, or concentrated your attention or effort, on something?* [Click 2 on WA2 to reveal the prompt.] Turn to your partner.

**PROMPT 2:** “When [I was painting a picture of our farm], I focused on [making sure the light and shadow looked as real as possible].”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

## 6 Talk More About the Meanings of *Focus*

Remind the students that when they hear or read a word that has more than one meaning, they can usually figure out the correct meaning by thinking about how the word is used. Explain that you will read a scenario that includes the word *focus*. Partners will decide whether *focus* means “adjust the eyes to see something clearly” or “concentrate your attention or effort on something.”

Read the following scenario aloud twice:

- *The girl scouts are meeting today. They will focus on planning their camping trip.*

Ask:

**Q** *In the scenario, does focus mean “adjust the eyes to see something clearly” or “concentrate your attention or effort on something”? Why?* [Click 3 to reveal the prompt.] Turn to your partner.

**PROMPT 3:** “*Focus* means [concentrate your attention or effort on something] because . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following scenario:

- *Milo’s dad is farsighted. He wears eyeglasses that help his eyes focus on objects up close.*

Point to the word *focus* and review the pronunciation and meaning of the word.

## INTRODUCE AND USE FUNCTION

### 7 Introduce and Define *Function*

Tell the students that the last word they will learn today is *function* and explain that a *function* is a “purpose, role, or job.”

Show pages 16–17 of *Animal Senses* and review that this part of the book gives information about animals’ ears and sense of hearing. Explain that ears serve several important functions, or purposes, for animals. Tell the students that as you read about animals’ ears, you want them to listen for the functions, or purposes, of the ears.

Read the following sentences from page 16 aloud: “No matter what they look like, ears help animals in many ways. With them animals can hear danger approaching, listen for food and water, communicate with other animals and help locate a mate.”

Display word card 33 (🌐 WA3) and have the students say the word *function*. Then ask:

Q *What is a function, or purpose, of animals’ ears?*

Click ① on word card 33 (WA3) to reveal the first prompt, and have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT 1:** “A function of animals’ ears is [to hear danger approaching].”

### 8 Discuss the Functions of Things and People

Remind the students that a *function* is a “purpose, role, or job.” Ask the students to hold out their hands with their palms facing them. Have them move their fingers and thumbs.

Ask:

Q *What is a function, or purpose, of our hands? What jobs do our hands do?*  
[Click ② on WA3 to reveal the prompt.] *Turn to your partner.*

**PROMPT 2:** “A function of our hands is . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

#### ELPS 1.F.i

Step 7 and Step 8  
(all, beginning on page 131 and continuing on to page 132)

#### ELL Note

The Spanish cognate of *function* is *función*.

Explain that people also have functions, or purposes, roles, or jobs. For example, a teacher’s function is to teach her students and help them learn.

Discuss as a class:

**Q** *What do you think a student’s function is?*

Click **3** to reveal the next prompt.

**PROMPT 3:** “A student’s function is . . .”

Point to the word *function* and review the pronunciation and meaning of the word.

### Teacher Note

For a list of common prefixes, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Prefixes” list in the General Resources section.

## EXTENSION

### Discuss the Prefix *un-*

Write the words *unfocused* and *focus* where everyone can see them. Underline the *un* in *unfocused* and explain that *un-* is a prefix. Remind the students that a *prefix* is a “letter or group of letters that is added to the beginning of a word to make a new word.” Explain that the prefix *un-* means “not.” Point out that when *un-* is added to the word *focused*, it makes the word *unfocused*, which means “not focused, or out of focus.”

Have the students discuss the meaning of other words that have the prefix *un-*, such as *unable*, *unfair*, *unhappy*, *untied*, and *unwell*.

# Day 2

## Review *Dissimilar*, *Focus*, and *Function*

### Materials

- Daily review cards (WA4)
- Daily review activity (WA5)

### In this lesson, the students:

- Review and practice using the words *dissimilar*, *focus*, and *function* from Day 1
- Explain their thinking

### Words Reviewed

#### **dissimilar**

*Dissimilar* means “not similar, or not alike.” If two things are dissimilar, they are different.

#### **focus**

*Focus* means “adjust the eyes to see something clearly.” *Focus* also means “concentrate your attention or effort on something.”

#### **function**

A *function* is a “purpose, role, or job.”

# REVIEW THE WORDS

## 1 Briefly Review the Words

Display the daily review cards (🗉 WA4). Review the pronunciation and meaning of each word.

Ask:

**Q** *What are two sports you like that are dissimilar? How are they dissimilar?* [Click 1 on WA4 to reveal the first prompt.] *Turn to your partner.*

WA4

dissimilar focus function

**PROMPT 1:** Two sports I like that are **dissimilar** are \_\_\_\_\_ and \_\_\_\_\_. One way they are **dissimilar** is . . .

1 2 3

**PROMPT 1:** “Two sports I like that are dissimilar are [golf] and [rugby]. One way they are dissimilar is . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Using the same procedure, ask the following questions:

**Q** *What is the function of a police officer?* [Click 2 to reveal the prompt.] *Turn to your partner.*

**PROMPT 2:** “The function of a police officer is . . .”

**Q** *How might you feel if you walked into a crowded room and all the people focused their attention on you?* [Click 3 to reveal the prompt.] *Turn to your partner.*

**PROMPT 3:** “If the people focused their attention on me, I might feel . . .”

### Teacher Note

For an example of how to review the words, see Week 1, Day 2, Step 1.

### Teacher Note

For an example of how to introduce this game, see Week 1, Day 4, Step 2.

### Teacher Note

Each sentence on the daily review activity (WA5) has a corresponding number: the first sentence is ①; the second sentence is ②; the third sentence is ③; and so on. To play the game, click the corresponding number four times:

- The first click reveals the sentence.
- The second click reveals the prompt.
- The third click highlights the correct answer and reveals the sentence with the answer in place.
- The fourth click clears the screen.

### Teacher Note

If you are not using an interactive whiteboard, you might write the review words and the sentences where everyone can see them.

## PRACTICE USING THE WORDS

### 2 Play “What’s the Missing Word?”

Tell the students that partners will play the game “What’s the Missing Word?” Remind the students that you will read a sentence that has a word missing. Partners must decide which of the vocabulary words is the missing word and explain why they think so.

Display the daily review activity (WA5) and begin playing the game:

1. Click ① to reveal the first sentence. Point to the sentence and read it aloud.
  - Sentence 1: *When I wake up in the morning, I try to get my sleepy eyes to \_\_\_\_\_.*
2. Give the students a few moments to think about the sentence. Then point to the word choices and ask:

Q *What’s the missing word? Why do you think so?* [Click ① again to reveal the first prompt.] *Turn to your partner.*

**PROMPT:** “I think [*focus*] is the missing word because . . .”

Have a few volunteers use the prompt to share their thinking with the class.

3. Conclude the discussion by clicking ① a third time to highlight the correct vocabulary word and reveal the sentence with the correct word in place.

WA5

4. Click ① to clear the screen.

### 3 Continue Playing the Game

Use the same procedure to continue playing the game.

1. Click 2 to reveal the second sentence and read it aloud.
  - Sentence 2: *Even though they are twins, Becki and Brianne are \_\_\_\_\_ because they have very different personalities.*
2. Give the students a few moments to think about the sentence. Then point to the word choices and ask:

**Q** *What's the missing word? Why do you think so? [Click 2 again to reveal the prompt.] Turn to your partner.*

**PROMPT:** "I think [*dissimilar*] is the missing word because . . ."

Have partners take turns using the prompt to talk about the questions. Then have one or two volunteers use the prompt to share their thinking with the class.

3. Conclude the discussion by clicking 2 a third time to highlight the correct vocabulary word and reveal the sentence with the correct word in place.
4. Click 2 to clear the screen.

Use the same procedure to discuss the following sentences:

- Sentence 3: *The \_\_\_\_\_ of the president is to lead the country.* (function)
- Sentence 4: *Today we will \_\_\_\_\_ on finding a solution to the problem.* (focus)

---

## EXTENSION

### Discuss the Prefix *dis-*

Write the word *dissimilar* where everyone can see it. Underline *dis* and explain that *dis-* is a prefix. Remind the students that a *prefix* is a "letter or group of letters that is added to the beginning of a word to make a new word." Explain that the prefix *dis-* means "not" or "the opposite of." Point out that when *dis-* is added to the word *similar*, it makes the word *dissimilar*, which means "not similar, or not alike."

Have the students discuss the meaning of other words that use the prefix *dis-*, such as *disagree*, *discomfort*, *disconnect*, *disinterested*, and *disobey*.

---

### Teacher Note

For a list of common prefixes, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the "Prefixes" list in the General Resources section.

# Day 3

## Introduce *Sensitive*, *Critical*, and *Obstacle*

### Materials

- *Animal Senses*
- “Sentence from *Animal Senses*” chart (WA6)
- Word card 34 (WA7)
- Word card 35 (WA8)
- Word card 36 (WA9)

**ELPS 1.F.i**  
Step 1  
(all, beginning on page 136  
and continuing on to page  
137)

### Teacher Note

Alternatively, you may wish to write the context sentence where everyone can see it.

### Technology Tip

To find web-based activities that focus on using context to determine word meanings, you might search online using the keywords “whiteboard context clues activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

### In this lesson, the students:

- Learn and use the words *sensitive*, *critical*, and *obstacle*
- Review using context to determine word meanings
- Review words with multiple meanings
- Explain their thinking

### Words Taught

#### **sensitive** (p. 16)

*Sensitive* means “sharp, quick, or alert.” *Sensitive* also means “easily offended or hurt.”

#### **critical**

*Critical* means “extremely important or absolutely necessary.”

#### **obstacle** (p. 21)

An *obstacle* is “something that blocks or gets in your way.”

## INTRODUCE AND USE *SENSITIVE*

### 1 Introduce *Sensitive* and Use Context to Determine Its Meaning

Show pages 16–17 of *Animal Senses* and review that this part of the book gives information about animals’ ears and sense of hearing. Read the following sentence from page 16 aloud, emphasizing the word *sensitive*: “Many animals have very sensitive ears and can hear sounds that we can’t.”

Tell the students that *sensitive* is the first word they will learn today. Display the “Sentence from *Animal Senses*” chart (WA6) and explain that this is the sentence you just read.

Point to the word *sensitive* and underline it. Tell the students that they can sometimes figure out the meaning of an unfamiliar word—like *sensitive*—by reading the sentence that includes the word or the sentence that comes before or after it and looking for clues. Tell the students that as you read the sentence again, you want them to think about what the word *sensitive* might mean and which words in the sentence are clues to the meaning of *sensitive*.

#### **TEKS 3.B.i**

Student/Teacher Activity  
Step 1  
(third paragraph in the step to  
the end of the step on page 137)

Read the sentence aloud again. Then discuss as a class:

**Q** *Based on what you just heard, what do you think the word sensitive might mean?*

Point to the first prompt and read it aloud.

### Sentence from *Animal Senses*

Many animals have very sensitive ears and can hear sounds that we can't.

**PROMPT 1:** I think **sensitive** might mean . . .

**PROMPT 2:** The clue \_\_\_\_\_ helps me figure out the meaning of the word **sensitive**.

WA6

### Teacher Note

If the students do not immediately determine the meaning of *sensitive* from the context, give them the definition rather than having them guess.

**PROMPT 1:** “I think *sensitive* might mean . . .”

Have a few volunteers use the prompt to share their thinking with the class. If necessary, explain that *sensitive* means “sharp, quick, or alert.” Explain that many animals have sensitive ears that can hear sounds that humans cannot hear.

Then ask:

**Q** *What clue helps you figure out the meaning of the word sensitive?*

Point to the second prompt and have a few volunteers use the prompt to share their thinking with the class.

**PROMPT 2:** “The clue [‘can hear sounds that we can’t’] helps me figure out the meaning of the word *sensitive*.”

Circle the context clues on the chart as the students identify them. If necessary, point out that the words “can hear sounds that we can’t” help us figure out that sensitive means “sharp, quick, or alert.”

Display word card 34 (WA7) and have the students say the word *sensitive*.

## 2 Discuss Another Meaning of *Sensitive*

Review that many words have more than one meaning and that the meanings may be very different. Point to the word *sensitive* on word card 34 (WA7), and review that in the book *sensitive* means “sharp, quick, or alert.” Explain that *sensitive* can also mean “easily offended or hurt.” Explain that a sensitive person is easily offended or easily gets his feelings hurt by things that other people do or say.

Remind the students that when they hear or read a word that has more than one meaning, they can usually figure out the correct meaning by thinking about how the word is used. Tell the students that you will read a scenario that includes the word *sensitive*. Partners will then decide whether *sensitive* means “sharp, quick, or alert” or “easily offended or hurt.”

Read the following scenario aloud twice:

- *Morris is sensitive about his singing. He doesn't sing in front of other people because he is afraid they will tease him.*

Ask:

**Q** *In the scenario, does sensitive mean “sharp, quick, or alert” or “easily offended or hurt”? Why? [Click 1 on WA7 to reveal the prompt.] Turn to your partner.*

sensitive

**PROMPT 1:** *Sensitive* means \_\_\_\_\_ because . . .

1

WA7

**PROMPT 1:** “*Sensitive* means [easily offended or hurt] because . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following scenario:

- *Mrs. Flynn has a sensitive nose. With one sniff, she can tell what someone is cooking and what ingredients are in the dish.*

Point to the word *sensitive* and review the pronunciation and meaning of the word.

## INTRODUCE AND USE CRITICAL

### 3 Introduce and Define *Critical*

Show pages 18–19 of *Animal Senses* and explain that this part of the book gives more information about animals’ ears and hearing. Read the following sentence from page 19 aloud: “Animals use sound to find food

and mates and to avoid danger, so locating sounds can be the key to survival.”

Tell the students that the next word they will learn is *critical*. Explain that *critical* means “extremely important or absolutely necessary.” Point out that being able to locate sounds is critical, or extremely important, for animals’ survival because it helps them find food and mates and avoid danger.

Display word card 35 (🌍 WA8) and have the students say the word *critical*.

#### 4 Play “Critical or Not Critical?”

Tell the students that partners will play a game called “Critical or Not Critical?” Explain that you will describe something; then partners will discuss whether the thing you describe is critical or not critical to them and explain why they think so. Tell the students that partners may not always agree and that is fine. What is important is that they explain their thinking.

Begin by saying:

- *food and water*

Ask:

**Q** *Are food and water critical or not critical to you? Why?* [Click 1 on WA8 to reveal the first prompt.] *Turn to your partner.*

**PROMPT 1:** “[Food and water] [are/are not] critical to me because . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following:

- *friends*
- *video games*

Point to the word *critical* and review the pronunciation and meaning of the word.

## INTRODUCE AND USE OBSTACLE

#### 5 Introduce and Define *Obstacle*

Show pages 20–21 of *Animal Senses* and read the chapter title on page 20 aloud. Review that this part of the book tells how animals such as bats use sound to help them survive. Read the title of the text box on page 21 and the first bullet aloud, emphasizing the word *obstacles*.

Tell the students that *obstacle* is the last word they will learn today. Explain that an *obstacle* is “something that blocks or gets in your way.” Point out that bats detect and avoid obstacles, or things that are in their

#### ELL Note

The Spanish cognate of *obstacle* is *obstáculo*.

way, by making sounds that bounce off the obstacles and come back to their ears as echoes.

Display word card 36 (🗣️ WA9) and have the students say the word *obstacle*.

## 6 Discuss Obstacles

Provide a few examples of obstacles that you have encountered.

### You might say:

“Sometimes when I’m driving, I come upon obstacles in the road—for example, a piece of rubber from a truck tire or boxes that have fallen from a truck. I must drive around the obstacles. Recently I went into my attic to get a box of dishes I had stored there. A huge chest of drawers was in the way. The chest of drawers was an obstacle. I had to move it to get to the dishes.”

Use “Think, Pair, Share” to discuss:

**Q** *When have you come across an obstacle, or something that blocked or got in your way?* [Pause; click 1 on WA9 to reveal the prompt.] *Turn to your partner.*

**PROMPT 1:** “I came across an obstacle when . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Point to the word *obstacle* and review the pronunciation and meaning of the word.

### Teacher Note

Support struggling students by asking questions such as “When have you tried to go somewhere on your bike or on foot, but an obstacle blocked your way?” and “When have you tried to get something, but an obstacle blocked your way?”

# Day 4

## Review *Sensitive, Critical,* and *Obstacle*

### Materials

- Daily review cards (WA10)
- Copy of this week’s family letter (BLM1) for each student
- (Optional) Copy of the “Week 6 Crossword Puzzle” (BLM3) for each student

### In this lesson, the students:

- Review and practice using the words *sensitive*, *critical*, and *obstacle* from Day 3
- Explain their thinking

### Words Reviewed

#### **sensitive**

*Sensitive* means “sharp, quick, or alert.” *Sensitive* also means “easily offended or hurt.”

#### **critical**

*Critical* means “extremely important or absolutely necessary.”

#### **obstacle**

An *obstacle* is “something that blocks or gets in your way.”

## REVIEW THE WORDS

### 1 Briefly Review the Words

Display the daily review cards (🗉 WA10). Review the pronunciation and meaning of each word.

Ask:

**Q** Which of the words we learned yesterday do you think was especially interesting to talk about? Why? [Click 1 on WA10 to reveal the first prompt.] Turn to your partner.

WA10

sensitivecriticalobstacle

**PROMPT 1:** I think \_\_\_\_\_ was especially interesting to talk about because . . .

1 2 3 4

**PROMPT 1:** “I think [*obstacle*] was especially interesting to talk about because . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

## PRACTICE USING THE WORDS

### 2 Do the Activity “Which Word Goes With?”

Tell the students that partners will do the activity “Which Word Goes With?”

Remind the students that you will write a word where everyone can see it; then partners will think about which of the vocabulary words they learned yesterday goes with the word you write. Explain that the word you write might go with more than one of the vocabulary words. Tell the students that partners may not always agree and that is fine. The most important thing is that they explain *why* they think the words go together.

Write the word *hurt* where everyone can see it and read the word aloud.

#### Teacher Note

For an example of how to introduce this activity, see Week 2, Day 4, Step 2.

### Teacher Note

If the students struggle to make associations, think aloud about associations you might make and why. For example, say “I think *sensitive* goes with *hurt*, because if you are sensitive it is easy to get your feelings hurt. I think *critical* can go with *hurt*, too, because it is critical that you look both ways when crossing a street, or you might get hurt. I also think *obstacle* goes with *hurt*, because if you fall over an obstacle, you can hurt yourself.”

### Teacher Note

Send home with each student a copy of this week’s family letter (BLM1). Encourage the students to talk about this week’s words with their families.

### Teacher Note

To provide students with additional review of words taught during Weeks 5 and 6, you might distribute a copy of the “Week 6 Crossword Puzzle” (BLM3) to each student.

### Teacher Note

You might write the two definitions where everyone can see them.

Point to the daily review cards (WA10) and use “Think, Pair, Share” to discuss:

**Q** Which of yesterday’s words do you think goes with *hurt*? Why do you think that? [Pause; click **2** to reveal the next prompt.] Turn to your partner.

**PROMPT 2:** “I think [*sensitive*] goes with *hurt* because . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

Write the word *important* where everyone can see it and read the word aloud. Use “Think, Pair, Share” to discuss:

**Q** Which of yesterday’s words do you think goes with *important*? Why do you think that? [Pause; click **3** to reveal the prompt.] Turn to your partner.

**PROMPT 3:** “I think [*sensitive*] goes with *important* because . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, ask:

**Q** Which of yesterday’s words do you think goes with *careful*? Why do you think that? [Pause; click **4** to reveal the prompt.] Turn to your partner.

**PROMPT 4:** “I think [*obstacle*] goes with *careful* because . . .”

## MORE STRATEGY PRACTICE

### Discuss Another Meaning of *Critical*

Review that some words have more than one meaning and that the meanings are often very different. Write the word *critical* where everyone can see it, read the word aloud, and review that *critical* means “extremely important or absolutely necessary.” Explain that the word *critical* can also mean “disapproving or finding something wrong.” Explain that if someone is critical of what you are doing, she disapproves of it or thinks it is wrong.

Remind the students that when they hear or read a word that has more than one meaning, they can usually figure out the correct meaning by thinking about how the word is used. Explain that you will read a scenario that includes the word *critical*. Partners will then decide whether *critical* means “extremely important or absolutely necessary” or “disapproving or finding something wrong.”

Read the following scenario aloud twice:

- *The band members’ uniforms are old and shabby. It is critical that they get new ones.*

Ask:

**Q** *In the scenario, does critical mean “extremely important or absolutely necessary” or “disapproving or finding something wrong”? Why? Turn to your partner.*

Read the following prompt aloud and have volunteers use the prompt to share their thinking with the class.

**PROMPT:** “*Critical* means [extremely important or absolutely necessary] because . . .”

Using the same procedure, discuss the following scenario:

- *Mr. Lee is critical of his rowdy neighbors. He says they make too much noise.*

Point to the word *critical* and review the pronunciation and meanings of the word.

---

### Teacher Note

You might review that *rowdy* means “wild and noisy.”

## Ongoing Review

## Day 5

### In this lesson, the students:

- Review words learned earlier
- Build their speaking and listening skills
- Explain their thinking

### Words Reviewed

#### custom

A *custom* is “something that has been done for a long time and has become widely accepted.”

#### experience

An *experience* is “something you have done, seen, or taken part in.”

#### hardship

A *hardship* is “something that causes difficulty, pain, or suffering.”

#### rowdier

*Rowdier* means “more rowdy, or more wild and noisy.”

#### tilt

*Tilt* means “lean or tip to one side.”

### ABOUT ABBREVIATED ONGOING REVIEW ACTIVITIES

Parts of the Ongoing Review activity have been abbreviated. A Teacher Note refers you to a fully written-out example of the activity, if you wish to review it.

---

### Materials

- Ongoing review cards (WA11)

### Teacher Note

For an example of how to review the words, see Week 2, Day 5, Step 1.

### Teacher Note

For an example of how to introduce this activity, see Week 4, Day 5, Step 2.

## REVIEW THE WORDS

### 1 Briefly Review the Words

Display the ongoing review cards (🔊 WA11). Review the pronunciation and meaning of each word.

## PRACTICE USING THE WORDS

### 2 Review the Activity “What Do You Think Will Happen?”

Tell the students that partners will do the activity “What Do You Think Will Happen?” Remind the students that you will describe a situation that uses one of the vocabulary words. Then partners will use their imaginations and what they know about the word to tell what they think will happen next.

Explain that before they do the activity in pairs, the students will practice as a class.

Read the following scenario aloud twice:

- *Bart and his family are camping when a thunderstorm strikes. As the wind grows stronger, the poles holding up their tent start to tilt sideways.*

Ask:

**Q** *What do you think will happen as the tent’s poles tilt sideways?*

Give the students a few moments to think about the question. Then click 🔊 on the ongoing review cards (WA11) to reveal the prompt. Have one or two volunteers use the prompt to share their thinking with the class.

custom    experience    hardship

rowdier    tilt

**PROMPT 1:** As the tent's poles **tilt** sideways . . .

1   2   3   4   5

WA11

**PROMPT 1:** “As the tent’s poles tilt sideways . . .”

### 3 Do the Activity in Pairs

Continue the activity in pairs, using the following scenario:

- *Edna is worried about the man who lives in the park. She tells her mother, “He faces many hardships. He doesn’t have a place to sleep or a place to wash. It’s very cold in the winter, and he doesn’t have warm clothes. Let’s help him deal with these hardships.”*

Use “Think, Pair, Share” to discuss:

**Q** *What do you think will happen? What will Edna and her mother do to help the man deal with his hardships? [Pause; click 2 on WA11 to reveal the prompt.] Turn to your partner.*

**PROMPT 2:** “To help him deal with his hardships, they will . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following scenarios:

- *Theresa has listened to her uncle talk about sailing for years. She loves his stories, but she wants to do more than just hear about sailing. Theresa decides she must have her own experience of sailing.*

**Q** *What do you think will happen? What will Theresa do to have her own experience of sailing? [Pause; click 3 to reveal the prompt.] Turn to your partner.*

**PROMPT 3:** “To have her own experience of sailing, Theresa will . . .”

- *After Thanksgiving, Mr. Williams brings several large boxes up from the basement. “What’s in the boxes?” asks his youngest son. “Are we decorating the house again for the holidays?” asks his daughter. “It’s important to keep our customs alive,” replies Mr. Williams.*

**Q** *What do you think will happen? How will the family keep its customs alive? [Pause; click 4 to reveal the prompt.] Turn to your partner.*

**PROMPT 4:** “To keep its customs alive, the family will . . .”

- *Mr. Hahn is working at the kitchen table paying the bills. His children are chasing one another around the table. He asks them to be quiet, but they just get rowdier.*

**Q** *What do you think will happen? What will Mr. Hahn do when the children get rowdier? [Pause; click 5 to reveal the prompt.] Turn to your partner.*

**PROMPT 5:** “When the children get rowdier, Mr. Hahn . . .”

## Teacher Note

For more information about whole-class assessment, see “Class Vocabulary Assessment” in the Assessment Overview of the *Assessment Resource Book*.

## CLASS VOCABULARY ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students’ predictions show that they understand what the words mean?
- Do the students have difficulty making predictions with any of the words? (Note the words with which they have difficulty.)
- Do they enjoy learning and using new words?

Record your observations on the “Class Vocabulary Assessment Record” sheet (CA1); see page 160 of the *Assessment Resource Book*.

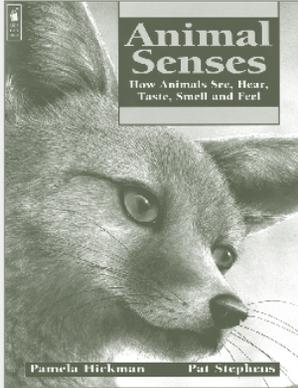

Use the following suggestions to support struggling students:

- If **only a few students** understand a word’s meaning, reteach the word using the vocabulary lesson in which it was first taught as a model.
- If **about half of the students** understand a word’s meaning, provide further practice through an activity modeled on the game “Make a Choice” (see Week 1, Day 2, Step 2). For example, if the students are struggling with the word *rowdier*, play “Make a Choice” by giving two scenarios and having partners discuss in which scenario someone is acting rowdier. (For example, ask “Which boy is rowdier: a boy who reads quietly to himself or a boy who jumps up and down on the couch?”)

# Week 7

## RESOURCES

### Read-aloud

- *Animal Senses: How Animals See, Hear, Taste, Smell and Feel* by Pamela Hickman, illustrated by Pat Stephens

### More Strategy Practice

- “Discuss the Prefix *in-*”
- “Discuss the Suffix *-ly*”

### Extension

- “Fun with Puns”

### More ELL Support

- “Talk More About the Suffix *-ly*”

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

### Whiteboard Activities

- WA1–WA7

### Reproducibles

- Week 7 family letter (BLM1)
- (Optional) “Week 7 Word Cards” (BLM2)

### Professional Development Media

- “Using Web-based Whiteboard Activities” tutorial (AV42)

# OVERVIEW

## Words Taught

nosing around  
edible  
*inedible*  
consistent  
*inconsistent*  
*consistently*

## Words Reviewed

critical  
dissimilar  
focus  
obstacle  
rubble

## Word-learning Strategies

- Recognizing idioms (review)
- Using the prefix *in-* to determine word meanings (review)
- Recognizing antonyms (review)
- Using the suffix *-ly* to determine word meanings

## Vocabulary Focus

- Students learn and use six words from or about the book.
- Students review idioms.
- Students review the prefix *in-* and the suffix *-ly*.
- Students review antonyms.
- Students review words learned earlier.
- Students build their speaking and listening skills.

## Social Development Focus

- Students work in a responsible way.
- Students build on one another's thinking during class discussions.
- Students develop the skill of explaining their thinking.

## ① DO AHEAD

- ✓ (Optional) Prior to Day 2, review the more strategy practice activity “Discuss the Prefix *in-*” on page 157.
- ✓ (Optional) Prior to Day 3, review the more strategy practice activity “Discuss the Suffix *-ly*” on page 161.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this week’s family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ (Optional) Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print “Week 7 Word Cards” (BLM2). These cards can be used to provide your students with more opportunities to review the words.

# Introduce “Nosing Around,” *Edible, and Inedible*

# Day 1

## In this lesson, the students:

- Learn and use the idiom “nosing around” and the words *edible* and *inedible*
- Review idioms
- Review the prefix *in-*
- Review antonyms
- Work in a responsible way
- Explain their thinking

## Words Taught

### **nosing around** (p. 27)

“Nosing around” means “snooping, or searching in a sneaky way.”

### **edible** (p. 34)

*Edible* means “safe to eat.”

### **inedible**

*Inedible* means “not edible, or not safe to eat.”

## ABOUT ABBREVIATED LESSONS

Beginning in Week 6, parts of the lesson that are essentially the same from week to week are abbreviated. Teacher Notes refer you to a fully written-out example of each abbreviated part, if you wish to review it. For more information about abbreviated lessons, see “Full and Abbreviated Lessons” in the Introduction.

## INTRODUCE AND USE “NOSING AROUND”

### 1 Introduce and Define “Nosing Around”

Briefly review *Animal Senses*. Show pages 26–27 and review that this part of the book tells about animals’ sense of smell. Point to the “Not just noses” text box on page 27, and read the title aloud. Review that insects and other animals do not have noses, yet they still have a sense of smell.

Read the boxed text aloud, emphasizing the words “nosing around.”

Tell the students that they will learn the phrase “nosing around” today, and explain that “nosing around” means “snooping, or searching in a sneaky way.”

## Materials

- *Animal Senses*
- Word card 37 (WA1)
- Word cards 38–39 (WA2)

### **ELPS 2.C.ii**

Step 1 and Step 2

(all, beginning on page 151 and continuing on to page 153)

## Teacher Note

For an example of how to introduce the week’s vocabulary words and review the read-aloud text, see Week 2, Day 1, Step 1.

## Teacher Note

The students may be familiar with the word *nosy*. You might explain that a *nosy* person is a person who is nosing around, or snooping.

### Teacher Note

If you started an idiom chart, add “nosing around” to it.

### Teacher Note

You might tell the students that the author’s funny use of “nosing around” is a pun. Explain that a *pun* is a “joke based on one word that has two meanings or on two words that have the same sound but different meanings.” See the extension “Fun with Puns” on page 154 for more about puns.

### Teacher Note

For an example of how to prompt the students to use a word, see Week 1, Day 1, Step 4.

Tell the students that “nosing around” is an idiom, and review that an *idiom* is “an expression or phrase that means something different from what it appears to mean.” Explain that when we say that someone is nosing around, we do not mean that the person is moving his nose around. Instead, we mean that the person is snooping.

Tell the students that when the author says “nosing around comes naturally” to us, she is making a joke. She does not mean that snooping comes naturally to us, but that we naturally use our noses to investigate our world.

Display word card 37 (🗉 WA1) and have the students say “nosing around.”

## 2 Play “Is Milton Nosing Around?”

Tell the students that they will play a game called “Is Milton Nosing Around?” Explain that you will describe something our make-believe friend Milton is doing; then partners will decide whether or not he is nosing around, or snooping.

Begin by reading the following scenario aloud twice:

- *Milton wonders what his friend Max brought to school for lunch, so without asking he looks inside Max’s lunchbox.*

Ask:

**Q** *Is Milton nosing around? Why?* [Click 1 on WA1 to reveal the first prompt.] *Turn to your partner.*

nosing around

**PROMPT 1:** Milton [is/is not] **nosing around** because . . .

1

WA1

**PROMPT 1:** “Milton [is/is not] nosing around because . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following scenarios:

- *Milton wants to play a board game during free time. He asks his teacher for permission, and then looks through the board games to find the game he wants.*
- *Milton is curious to know what his sister has been writing in her diary, so when his sister is away, he reads her diary.*

Point to the idiom “nosing around” and review the pronunciation and meaning of the phrase.

## INTRODUCE AND USE *EDIBLE AND INEDIBLE*

### 3 Introduce and Define *Edible*

Show pages 34–35 of *Animal Senses*, read the chapter title aloud, and explain that this part of the book tells about animals’ sense of touch. Read page 34 aloud, emphasizing the word *edible*.

Tell the students that *edible* is the next word they will learn today, and explain that *edible* means “safe to eat.” Tell the students that our government has inspectors to check our food and that the inspectors put labels on the food to tell us that it is edible. Explain that many animals have a different way to find out if food is edible. These animals use the sense of touch to find food that is edible, or safe to eat.

Display word cards 38–39 (🔊 WA2) and click to reveal word card 38. Have the students say the word *edible*.

### 4 Introduce and Define *Inedible*, Review the Prefix *in-*, and Review Antonyms

Tell the students that the last word they will learn today is *inedible*. Click to reveal word card 39 and have the students say the word *inedible*. Point to the prefix *in-* in *inedible*. Remind the students that a *prefix* is a “letter or group of letters that is added to the beginning of a word to make a new word.” Review that the prefix *in-* means “not.”

Discuss as a class:

**Q** *Based on what you know about the word edible and the prefix in-, what do you think the word inedible means?*

If necessary, explain that *inedible* means “not edible, or not safe to eat.” Point out that *edible* and *inedible* are antonyms.

### 5 Play “Edible or Inedible?”

Tell the students that partners will play a game called “Edible or Inedible?” Explain that you will describe a food; then partners will decide whether the food is edible or inedible and explain why they think so.

#### Teacher Note

For an example of how to end the discussion of a word, see Week 1, Day 1, Step 6.

#### Teacher Note

If you started an antonym chart, add the words *edible* and *inedible* to it.

## Teacher Note

The students might reasonably argue that the part of the apple that is brown is inedible, but that the rest of the apple is edible.

Begin with the following food description:

- *An apple with a brown spot*

Ask:

**Q** *Is the apple edible or inedible? Why?* [Click ❶ on WA2 to reveal the first prompt.] *Turn to your partner.*

**PROMPT 1:** “The apple is [edible/inedible] because . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following:

- *A piece of pizza that has been sitting on the kitchen counter for three days*

**Q** *Is the piece of pizza edible or inedible? Why?* [Click ❷ to reveal the prompt.] *Turn to your partner.*

**PROMPT 2:** “The piece of pizza is [edible/inedible] because . . .”

- *A piece of popcorn that you find under your sofa*

**Q** *Is the piece of popcorn edible or inedible? Why?* [Click ❸ to reveal the prompt.] *Turn to your partner.*

**PROMPT 3:** “The piece of popcorn is [edible/inedible] because . . .”

Point to the words *edible* and *inedible* and review the pronunciation and meaning of the words.

## EXTENSION

### Fun with Puns

Write the following pun where everyone can see it: *A bicycle can't stand on its own because it is two tired.*

Explain that a *pun* is “a joke based on one word that has two meanings or on two words that have the same sound but different meanings.”

Direct the students' attention to the sentence and explain that it is a pun. Then read the pun aloud and discuss the joke, or the play on the words *two* and *tire*.

Tell the students that there are many types of puns and provide a few examples, such as those that follow. After each pun, discuss how the use of language makes it funny.

- *I wondered why the baseball was getting bigger. Then it hit me.*
- *If a clock is hungry, does it go back four seconds?*
- *Why are playing cards like wolves?* [Pause, ask for ideas, then repeat the question and give the answer.] *They come in packs.*

## Teacher Note

Prior to the activity, you might write all of the puns where everyone can see them. Seeing the puns as they discuss them may help the students better understand the fun use of language.

- *How do you fix a broken tomato?* [Pause, ask for ideas, and then repeat the question and give the answer.] *With tomato paste.*
- *Did you hear about the man whose whole left side was cut off?* [Pause, ask for ideas, and then repeat the question and then give the answer.] *He's all right now.*

### Teacher Note

For a list of common puns, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the "Puns" list in the General Resources section.

## Review "Nosing Around," Edible, and Inedible

# Day 2

### In this lesson, the students:

- Review and practice using the idiom "nosing around" and the words *edible* and *inedible* from Day 1
- Work in a responsible way
- Explain their thinking

### Words Reviewed

#### nosing around

"Nosing around" means "snooping, or searching in a sneaky way."

#### edible

*Edible* means "safe to eat."

#### inedible

*Inedible* means "not edible, or not safe to eat."

### Materials

- Daily review cards (WA3)

## REVIEW THE WORDS

### 1 Briefly Review the Words

Display the daily review cards (🔊 WA3). Review the pronunciation and meaning of each word.

Discuss as a class:

- Q *Which of yesterday's words do you think was especially fun to talk about? Why do you think that?*

Click 1 on the daily review cards (WA3) to reveal the first prompt. Have a few volunteers use the prompt to share their thinking with the class.

### Teacher Note

For an example of how to review the words, see Week 1, Day 2, Step 1.

nosing around

edible

inedible

**PROMPT 1:** I think \_\_\_\_\_ was especially fun to talk about because . . .

1 2 3 4

**PROMPT 1:** “I think [‘nosing around’] was especially fun to talk about because . . .”

## PRACTICE USING THE WORDS

### 2 Play the Game “Does That Make Sense?”

Tell the students that partners will play the game “Does That Make Sense?” Point to “nosing around” on the daily review cards (WA3), and explain that you will read a scenario that includes the idiom “nosing around.” Partners will then discuss whether “nosing around” makes sense in the scenario and explain why they think so.

Read the following scenario aloud twice:

- *Alexandra bought a birthday present for her little brother. She was about to wrap the present when she discovered that her brother had opened the door to her room and was peeking in to see what she was doing. “You’re such a snoop,” Alexandra said with a laugh. “Stop nosing around.”*

Ask:

-  **Q** Does “nosing around” make sense in the scenario? Why do you think so? [Click **2** on WA3 to reveal the prompt.] Turn to your partner.

**PROMPT 2:** “‘Nosing around’ [does/does not] make sense because . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following scenarios:

**[edible]**

- *Mr. Chin was grocery shopping. He saw a peach covered with ugly black spots. “This peach is rotten and quite edible,” he said.*

-  **Q** Does edible make sense in the scenario? Why do you think so? [Click **3** to reveal the prompt.] Turn to your partner.

#### Teacher Note

For an example of how to introduce this activity, see Week 2, Day 2, Step 2.

**PROMPT 3:** “*Edible* [does/does not] make sense because . . .”

[*inedible*]

- *Ms. Bales likes the taste of fresh mushrooms, but she never cooks with the mushrooms that grow in her yard because they are poisonous and inedible.*

**Q** Does *inedible* make sense in the scenario? Why do you think so? [Click 4 to reveal the prompt.] Turn to your partner.

**PROMPT 4:** “*Inedible* [does/does not] make sense because . . .”

---

## MORE STRATEGY PRACTICE

### Discuss the Prefix *in-*

Write the title “Words with the Prefix *in-*” on a sheet of chart paper. Under the title, write *The prefix in- means “not.”* Write the word *inedible* on the chart.

Remind the students that earlier they learned the word *inedible*. Point to the letters *in* in *inedible* on the chart and review that *in-* is a prefix that means “not.” Explain that when the prefix *in-* is added to the word *edible*, which means “safe to eat,” it makes the word *inedible*. Review that *inedible* means “not edible, or not safe to eat.”

Write the word *incomplete* on the chart. Discuss as a class:

**Q** Based on what you know about the prefix *in-* and the word *complete*, what do you think the word *incomplete* means? What do we mean when we say something is *incomplete*?

Write the following prompt where everyone can see it, and have a few volunteers use the prompt to share their thinking with the class.

**PROMPT:** “*Incomplete* means [‘not complete’]. If something is *incomplete*, it . . .”

If necessary, explain that *incomplete* means “not complete, or not whole or finished.” If something is *incomplete*, it is missing some parts or is not done.

Using the same procedure, discuss the following words:

- *invisible*
- *incorrect*

Remind the students that earlier they learned the word *ineffective*, which means “not effective,” and add *ineffective* to the chart. Post the chart, and invite the students to listen and watch for more examples of words that use the prefix. Add any new examples to the chart.

### Materials

- Chart paper and a marker

# Day 3

## Introduce *Consistent*, *Inconsistent*, and *Consistently*

### Materials

- *Animal Senses*
- Word cards 40–41 (WA4)
- Word card 42 (WA5)

### In this lesson, the students:

- Learn and use the words *consistent*, *inconsistent*, and *consistently*
- Use the suffix *-ly* to determine word meanings
- Work in a responsible way
- Explain their thinking

### Words Taught

#### **consistent** (p. 37)

*Consistent* means “always the same.”

#### **inconsistent**

*Inconsistent* means “not consistent, or not always the same.”

#### **consistently**

*Consistently* means “in a consistent way, or in a way that is always the same.”

## INTRODUCE AND USE *CONSISTENT* AND *INCONSISTENT*

### 1 Introduce and Define *Consistent*

Show pages 36–37 of *Animal Senses* and review that this part of the book tells about the sense of touch. Point to the “Losing touch” text box on page 37, read the title aloud, and review that we do not notice some things that are touching us.

Read the boxed text aloud, emphasizing the word *consistent*. Tell the students that *consistent* is the first word they will learn today, and explain that *consistent* means “always the same.” Explain that consistent touches are touches that always feel the same. Point out that because the touch of your clothing on your skin is consistent, or always the same, you do not notice it after a while.

Point to the pictures of the dog on page 37. Explain that at first the dog is bothered by the feel of his collar because it is new. But later the dog gets used to the consistent feel of the collar—the collar always feels the same—and he no longer notices it.

Display word cards 40–41 (WA4), click to reveal word card 40, and have the students say the word *consistent*.

## 2 Introduce *Inconsistent*, Review the Prefix *in-*, and Review Antonyms

Tell the students that the next word they will learn today is *inconsistent*. Click to reveal word card 41 and have the students say the word *inconsistent*.

Point to the prefix *in-* in *inconsistent*, and review that *in-* is a prefix that means “not.”

Discuss as a class:

**Q** *Based on what you know about the word consistent and the prefix in-, what do you think the word inconsistent means?*

If necessary, explain that *inconsistent* means “not consistent, or not always the same.” Point out that *consistent* and *inconsistent* are antonyms.

## 3 Play “Consistent or Inconsistent?”

Tell the students that partners will play a game called “Consistent or Inconsistent?” Explain that you will describe something a person is doing; then partners will decide whether the person is being consistent or inconsistent and explain why.

Begin with the following description:

- *Martha runs every day, rain or shine.*

Ask:

**Q** *Is Martha consistent or inconsistent? Why? [Click 1 on WA4 to reveal the first prompt.] Turn to your partner.*

consistent inconsistent

**PROMPT 1:** Martha is [**consistent/inconsistent**] because . . .

1 2 3

WA4

**PROMPT 1:** “Martha is [consistent/inconsistent] because . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

### Teacher Note

If you started an antonym chart, add the words *consistent* and *inconsistent* to it.

If you started a chart of words that use the prefix *in-*, add the word *inconsistent* to it.

### Teacher Note

You might review that earlier the students learned the suffix *-er*, which means “more,” and that they discussed the suffix in the word *rowdier*.

### Technology Tip

To find web-based activities that focus on using suffixes to determine word meanings, you might search online using the keywords “whiteboard suffixes activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

Using the same procedure, discuss the following descriptions:

- *Joshua’s work in math is sometimes very good, but other times he doesn’t try very hard and his work needs improvement.*

**Q** *Is Joshua consistent or inconsistent? Why?* [Click 2 to reveal the prompt.] Turn to your partner.

**PROMPT 2:** “Joshua is [consistent/inconsistent] because . . .”

- *Michelle always remembers to feed her hamster before she goes to school.*

**Q** *Is Michelle consistent or inconsistent? Why?* [Click 3 to reveal the prompt.] Turn to your partner.

**PROMPT 3:** “Michelle is [consistent/inconsistent] because . . .”

Point to the words *consistent* and *inconsistent* and review the pronunciation and meaning of the words.

## INTRODUCE AND USE CONSISTENTLY

### 4 Introduce and Define *Consistently* and Introduce the Suffix *-ly*

Tell the students that the last word they will learn today is *consistently*. Display word card 42 (WA5) and have the students say the word *consistently*.

Point to the suffix *-ly* and explain that *-ly* is a suffix. Review that a *suffix* is a “letter or group of letters that is added to the end of a word to make a new word.” Explain that the suffix *-ly* means “in a certain way.” Point out that when the suffix *-ly* is added to the word *consistent*, it makes the word *consistently*. Explain that *consistently* means “in a consistent way or in a way that is always the same.”

### 5 Discuss Things We Do Consistently

Explain that there are many things we do consistently, or in a way that is always the same. Give some examples of things that you do consistently.

#### You might say:

“I consistently call my mother on Sundays at four o’clock in the afternoon. In the mornings, I consistently follow a routine. I get up, have a cup of tea and a piece of toast, and then I sit in my favorite chair and read the paper. I consistently listen to the same radio station on the way to work.”

Use “Think, Pair, Share” to discuss:

**Q** *What is something that you do consistently?* [Pause; click 1 on WA5 to reveal the first prompt.] *Turn to your partner.*

**PROMPT 1:** “I consistently . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Point to the word *consistently* and review the pronunciation and meaning of the word.

---

## MORE STRATEGY PRACTICE

### Discuss the Suffix *-ly*

Write the title “Words with the Suffix *-ly*” on a sheet of chart paper. Under the title, write *The suffix -ly means “in a certain way.”* Write the word *consistently* on the chart.

Review that a *suffix* is a “letter or group of letters that is added to the end of a word to make a new word.” Review that the suffix *-ly* means “in a certain way” and that when *-ly* is added to the word *consistent*, it makes the word *consistently*. Review that *consistently* means “in a consistent way, or in a way that is always the same.”

Write the word *quickly* on the chart. Point out that *quickly* is made up of the word *quick* and the suffix *-ly*.

Ask:

**Q** *Based on what you know about the word quick and the suffix -ly, what do you think the word quickly means? Turn to your partner.*

Write the following prompt where everyone can see it and have a few volunteers use the prompt to share their thinking with the class.

**PROMPT:** “I think *quickly* means . . .”

If necessary, explain that *quickly* means “in a quick way, or fast.”

Using the same procedure, discuss the words *sadly* and *gladly*.

Then discuss as a class:

**Q** *What is a word that ends with the suffix -ly and means “in a wise way”?*

**Q** *What is a word that ends with the suffix -ly and means “in a cruel way”?*

Write the words *wisely* and *cruelly* on the chart.

---

### Teacher Note

Support struggling students by asking questions such as “What is something you do consistently [in the morning before school/when you first get to school/when you get home after school]?”

---

### Materials

- Chart paper and a marker

---

### Teacher Note

For a list of common suffixes, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Suffixes” list in the General Resources section.

## MORE ELL SUPPORT

### Teacher Note

We recommend that you do the more strategy practice activity on the previous page before doing this activity.

### Talk More About the Suffix *-ly*

Display the chart entitled “Words with the Suffix *-ly*” (see More Strategy Practice on page 161). Review that *-ly* is a suffix and that a *suffix* is a “letter or group of letters that is added to the end of a word to make a new word.” Remind the students that the suffix *-ly* means “in a certain way” and that when *-ly* is added to the word *consistent*, it makes the word *consistently*, which means “in a consistent way, or in a way that is always the same.”

Point to the word *quickly* on the chart. Review that *quickly* means “in a quick way, or fast.” Have the students think of a time when they or someone they know moved quickly. Ask a few volunteers to use the following prompt to share their thinking with the class.

**PROMPT:** “[I] moved quickly when [I was trying to run faster than my dad at the park].”

Repeat this process with the word *gladly*. Ask the students to think of a time when they gladly did something. Then have one or two volunteers use the following prompt to share their thinking with the class.

**PROMPT:** “I gladly [let my sister have my bike after I got a new one for my birthday].”

# Day 4

## Review *Consistent*, *Inconsistent*, and *Consistently*

### Materials

- Daily review cards (WA6)
- Copy of this week’s family letter (BLM1) for each student

### In this lesson, the students:

- Review and practice using the words *consistent*, *inconsistent*, and *consistently* from Day 3
- Work in a responsible way
- Explain their thinking

### Words Reviewed

#### **consistent**

*Consistent* means “always the same.”

#### **inconsistent**

*Inconsistent* means “not consistent, or not always the same.”

#### **consistently**

*Consistently* means “in a consistent way, or in a way that is always the same.”

## REVIEW THE WORDS

### 1 Briefly Review the Words

Display the daily review cards (WA6). Review the pronunciation and meaning of each word.

Use “Think, Pair, Share” to discuss:

**Q** Which of yesterday’s words might you use if you were writing a story about a typical school day? How might you use the word? [Pause; click 1 on WA6 to reveal the first prompt.] Turn to your partner.

consistent inconsistent consistently

**PROMPT 1:** I might use the word \_\_\_\_\_. I might write . . .

1 2 3 4

WA6

**PROMPT 1:** “I might use the word [*consistently*]. I might write . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

## PRACTICE USING THE WORDS

### 2 Play “Does That Make Sense?”

Tell the students that partners will play the game “Does That Make Sense?”

Point to the word *consistent* on the daily review cards (WA6). Explain that you will read a scenario that includes the word *consistent*; then partners will decide whether the word *consistent* makes sense in the scenario and explain why.

Read the following scenario aloud twice:

- *Mr. Kumar gets home from work every night at 5:00 p.m. He is consistent.*

Ask:

**Q** Does consistent make sense in the scenario? Why? [Click 2 on WA6 to reveal the prompt.] Turn to your partner.

### Teacher Note

Send home with each student a copy of this week's family letter (BLM1). Encourage the students to talk about this week's words with their families.

**PROMPT 2:** "Consistent [does/does not] make sense because . . ."

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following scenarios:

**[inconsistent]**

- *Jenny's baseball team is inconsistent. They win every game.*

 **Q** Does inconsistent make sense in the scenario? Why? [Click 3 to reveal the prompt.] Turn to your partner.

**PROMPT 3:** "Inconsistent [does/does not] make sense because . . ."

**[consistently]**

- *Tomas is consistently late to swim practice. He is almost always on time.*

 **Q** Does consistently make sense in the scenario? Why? [Click 4 to reveal the prompt.] Turn to your partner.

**PROMPT 4:** "Consistently [does/does not] make sense because . . ."

# Day 5

## Ongoing Review

### Materials

- Ongoing review cards (WA7)

### In this lesson, the students:

- Review words learned earlier
- Work in a responsible way
- Explain their thinking

### Words Reviewed

#### critical

*Critical* means "extremely important or absolutely necessary."

#### dissimilar

*Dissimilar* means "not similar, or not alike." If two things are dissimilar, they are different.

#### focus

*Focus* means "adjust the eyes to see something clearly." *Focus* also means "concentrate your attention or effort on something."

#### obstacle

An *obstacle* is "something that blocks or gets in your way."

#### rubble

*Rubble* is "broken pieces of brick, stone, or other material from a building that has been destroyed or demolished."

## ABOUT ABBREVIATED ONGOING REVIEW ACTIVITIES

Parts of the Ongoing Review activity have been abbreviated. A Teacher Note refers you to a fully written-out example of the activity, if you wish to review it.

## REVIEW THE WORDS

### 1 Briefly Review the Words

Display the ongoing review cards (WA7) and review the pronunciation and meaning of each word.

## PRACTICE USING THE WORDS

### 2 Review the Activity “What Do You Think About?”

Tell the students that partners will do the activity “What Do You Think About?” Direct the students’ attention to the words on the ongoing review cards (WA7). Remind the students that you want them to describe what they think about, or what pictures come into their minds, when they hear each of the words.

Model the activity by closing your eyes and describing what comes into your mind when you hear the word *dissimilar*.

#### You might say:

“When I hear the word *dissimilar*, I think about my older sister Nan. We are sisters, but we are dissimilar in many ways. I’m outgoing, and Nan is shy. I enjoy sports, but Nan doesn’t. We don’t even look alike.”

Have the students close their eyes. Then use “Think, Pair, Share” to discuss:

**Q** *What do you think about when you hear the word dissimilar? Why?* [Pause.] *Open your eyes.* [Click 1 on WA7 to reveal the prompt.] *Turn to your partner.*

criticaldissimilarfocus

obstaclerubble

**PROMPT 1:** When I hear the word \_\_\_\_\_, I think about \_\_\_\_\_ because . . .

1

WA7

#### Teacher Note

For an example of how to review the words, see Week 2, Day 5, Step 1.

#### Teacher Note

For an example of how to introduce this activity, see Week 3, Day 4, Step 2.

#### Teacher Note

If the students struggle to make associations, support them by asking questions such as “What [people/places/animals] do you think about when you hear the word *dissimilar*?” “Who is someone who is dissimilar from you?” and “How are [summer and winter/ Monday and Friday] dissimilar?”

**PROMPT 1:** “When I hear the word [*dissimilar*], I think about [summer and winter] because . . .”

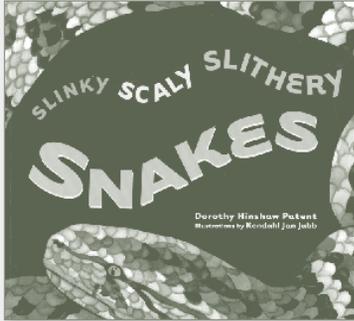

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss the remaining words.

# Week 8

## RESOURCES

### Read-aloud

- *Slinky Scaly Slithery Snakes* by Dorothy Hinshaw Patent, illustrated by Kendahl Jan Jubb

### More Strategy Practice

- “Discuss Another Meaning of *Keen*”
- “Discuss Synonyms of *Blotch*”

### Extension

- “Review Homophones”

### Assessment Resource Book

- Week 8 vocabulary assessments

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

### Whiteboard Activities

- WA1–WA10

### Assessment Forms

- “Class Vocabulary Assessment Record” sheet (CA1)
- “Individual Vocabulary Assessment: Word Check 2” answer sheet (IA1)
- “Individual Vocabulary Assessment Student Record” sheet (SR1)
- “Individual Vocabulary Assessment Class Record” sheet (CR1)
- (Optional) “Student Self-assessment” response sheet (SA1)

### Reproducibles

- Week 8 family letter (BLM1)
- (Optional) “Week 8 Word Cards” (BLM2)
- (Optional) “Week 8 Crossword Puzzle” (BLM3)

# OVERVIEW

## Words Taught

keen

*ideal*

flee

*resemble*

blotch

*lethal*

## Words Reviewed

analyze

boost

plead

seek

yearn

## Word-learning Strategies

- Recognizing words with multiple meanings (review)
- Recognizing synonyms (review)

## Vocabulary Focus

- Students learn and use six words from or about the book.
- Students review words with multiple meanings.
- Students review synonyms.
- Students review words learned earlier.
- Students build their speaking and listening skills.

## Social Development Focus

- Students analyze why it is important to be responsible.
- Students listen respectfully to the thinking of others and share their own.
- Students develop the skill of explaining their thinking.

## **J** DO AHEAD

- ✓ Prior to Day 1, read page 19 of *Slinky Scaly Slithery Snakes* aloud. This page was not read during the *Making Meaning* lesson. You will want to familiarize the students with this text before discussing the word *keen*.
- ✓ (Optional) Prior to Day 1, review the more strategy practice activity “Discuss Another Meaning of *Keen*” on page 174.
- ✓ Prior to Day 3, read page 21 of *Slinky Scaly Slithery Snakes* aloud. This page was not read during the *Making Meaning* lesson. You will want to familiarize the students with this text before discussing the word *lethal*.
- ✓ (Optional) Prior to Day 3, review the more strategy practice activity “Discuss Synonyms of *Blotch*” on page 182.
- ✓ Prior to Day 4, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this week’s family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ Prior to Day 5, make a copy of the “Class Vocabulary Assessment Record” sheet (CA1); see page 161 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, make a class set of the “Individual Vocabulary Assessment: Word Check 2” answer sheet (IA1); see page 165 of the *Assessment Resource Book*. Make enough copies for each student to have one; set aside a reference copy for yourself.
- ✓ (Optional) Prior to Day 5, make a master copy of the “Student Self-assessment” response sheet (SA1); see page 168 of the *Assessment Resource Book*. Write the words you have chosen to be assessed on the master copy. Then make enough copies for each student to have one.
- ✓ (Optional) Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the following materials: “Week 8 Word Cards” (BLM2) and “Week 8 Crossword Puzzle” (BLM3). These materials can be used to provide your students with more opportunities to review the words.

## In this lesson, the students:

- Learn and use the words *keen*, *ideal*, and *flee*
- Review synonyms
- Review words with multiple meanings
- Listen respectfully to the thinking of others and share their own
- Develop the skill of explaining their thinking

## Words Taught

### **keen** (p. 5)

*Keen* means “sharp, quick, or alert.”

### **ideal**

*Ideal* means “perfect.” Something ideal is the best that it can be.

### **flee** (p. 11)

*Flee* means “run away from danger.”

## INTRODUCE AND USE KEEN

### 1 Introduce and Define Keen

Briefly review *Slinky Scaly Slithery Snakes*.

Show pages 4–5 and review that this part of the book gives information about a snake’s body.

Read the first three sentences of page 5 aloud, emphasizing the word *keen*. Tell the students that *keen* is the first word they will learn today, and explain that *keen* means “sharp, quick, or alert.” Explain that a snake’s keen, or sharp, senses help it find prey. Display word card 43 (WA1) and have the students say the word *keen*.

Show pages 18–19 and explain that this part of the book gives more information about a snake’s senses. Explain that, as you read page 19 aloud, you want the students to listen for which of a snake’s senses is especially keen, or sharp. Read page 19 aloud.

Discuss as a class:

**Q** *Which of a snake’s senses is especially keen? How does a snake use this sense?*

Click **1** on word card 43 (WA1) to reveal the prompt. Have a few volunteers use the prompt to share their thinking with the class.

## Materials

- *Slinky Scaly Slithery Snakes*
- Word card 43 (WA1)
- Word card 44 (WA2)
- Word card 45 (WA3)

keen

**PROMPT 1:** A snake's \_\_\_\_\_ is especially **keen**.  
It \_\_\_\_\_ by . . .

1 2 3

**PROMPT 1:** “A snake’s [sense of smell] is especially keen. It [smells] by . . .”

## 2 Discuss Keen Senses and Minds

Review that animals use their keen senses to survive in the world—to find food and avoid danger. Explain that having keen, or sharp, senses is also important for people.

Discuss as a class:

**Q** *Why is having a keen sense of sight important for people? A keen sense of hearing? A keen sense of smell?*

Click **2** to reveal the prompt and have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT 2:** “A keen sense of [sight/hearing/smell] is important because . . .”

Explain that we also use the word *keen* to describe sharp, or smart, thinking. We say that an intelligent person has a “keen mind.”

Ask:

 **Q** *Who do you think has a keen mind? Why do you think that?* [Click **3** to reveal the prompt.] *Turn to your partner.*

**PROMPT 3:** “I think [my dad] has a keen mind. I think that because . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Point to the word *keen* and review the pronunciation and meaning of the word.

### Teacher Note

If the students struggle to answer the questions, ask, “What problems might people have if they do not have keen senses of sight, hearing, and smell?”

## INTRODUCE AND USE *IDEAL*

### 3 Introduce and Define *Ideal* and Review Synonyms

Show pages 8–9 of *Slinky Scaly Slithery Snakes* and review that this part of the book tells how snakes move in water, across sand, and through trees. Read the first sentence on page 9 aloud.

Explain that trees are an ideal home for many snakes, and tell the students that *ideal* is the next word they will learn. Explain that *ideal* means “perfect.”

Tell the students that the words *ideal* and *perfect* are synonyms. Explain that something ideal is the best that it can be. For some snakes, a tree is the ideal home, or the best possible home it could have.

Display word card 44 (🌍 WA2) and have the students say the word *ideal*.

### 4 Talk About an Ideal Vacation

Explain that an ideal vacation would be the best vacation you can imagine. Provide an example of what you or someone you know would consider an ideal vacation.

**You might say:**

“For me an ideal vacation would be a trip to a warm, sunny place by the seashore. I would lie on the beach, swim in the warm water, and read. My husband loves to be outside in nature, so an ideal vacation for him would be camping and hiking in the woods.”

Tell the students that partners will discuss their ideal vacations, and then some students will share their partners’ thinking with the class.

Ask:

**Q** *What would be your ideal vacation? Why?* [Click ❶ on WA2 to reveal the first prompt.] *Turn to your partner.*

**PROMPT 1:** “My ideal vacation would be [staying all summer on my grandma’s farm] because . . .”

After partners have talked, click ❷ on word card 44 (WA2) to reveal the next prompt. Have one or two volunteers use the prompt to share their partners’ thinking with the class.

**PROMPT 2:** “My partner’s ideal vacation would be . . .”

Point to the word *ideal* and review the pronunciation and meaning of the word.

#### ELL Note

The Spanish cognate of *ideal* is *ideal*.

#### Teacher Note

If you started a synonym chart, add the words *ideal* and *perfect* to it. Remind the students that they can use synonyms, like *ideal*, to replace overused words, like *perfect*, in their writing.

## INTRODUCE AND USE *FLEE*

### 5 Introduce and Define *Flee*

Show pages 10–11 of *Slinky Scaly Slithery Snakes* and review that this part of the book tells how snakes avoid attacks or scare their enemies. Read page 11 aloud, emphasizing the word *flee*.

Tell the students that *flee* is the last word they will learn today, and explain that *flee* means “run away from danger.”

Point out that the cobra spits venom in its enemies’ eyes and then flees, or slithers away as fast as possible.

Display word card 45 (🗉 WA3) and have the students say the word *flee*.

### 6 Discuss “Would You?” Questions

Tell the students that you will ask some questions and partners will use the word *flee* to discuss their thinking.

Ask:

 **Q** *Would you flee if you saw a mouse in your house? Why?* [Click 1 on WA3 to reveal the prompt.] *Turn to your partner.*

**PROMPT 1:** “I [would/would not] flee because . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following:

 **Q** *Would you flee if you were walking down the street and saw a crowd of people running toward you? Why?* [Point to prompt 1.] *Turn to your partner.*

**Q** *Would you flee if a bee were buzzing around you? Why?* [Point to prompt 1.] *Turn to your partner.*

Point to the word *flee* and review the pronunciation and meaning of the word.

---

## MORE STRATEGY PRACTICE

### Discuss Another Meaning of *Keen*

Review that some words have more than one meaning and that the meanings may be very different.

Write the word *keen* where everyone can see it. Review that in the book, *keen* means “sharp, quick, or alert.” Tell the students that the word *keen*

### Materials

- Chart paper and a marker (optional)

can also mean “eager or enthusiastic.” Explain that a person who is keen about baseball is enthusiastic about the game and eager to play, watch, or learn about it.

Remind the students that when they hear or read a word that has more than one meaning, they can usually figure out the correct meaning by thinking about how the word is used. Explain that you will read a scenario, or imaginary situation, that includes the word *keen*; then partners will decide whether *keen* means “sharp, quick, or alert” or “eager or enthusiastic.”

Read the following scenario aloud twice:

- *Erika is keen about science. She reads science books, takes science classes after school, and does science experiments at home. She hopes to become a scientist.*

Ask:

**Q** *In the scenario, does keen mean “sharp, quick, or alert” or “eager or enthusiastic”? Why? Turn to your partner.*

Write the following prompt where everyone can see it, and have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT:** “*Keen* means [eager or enthusiastic] because . . .”

Using the same procedure, discuss the following scenario:

- *Eagles have keen vision. Their vision is so keen that they can see a rabbit moving through the brush from high in the sky.*

### Teacher Note

You might review that when you are enthusiastic about something, you are excited about it or interested in it.

You might explain that the words *keen*, *eager*, and *enthusiastic* are synonyms. If you started a synonym chart, add these words to it.

## Review Keen, Ideal, and Flee

## Day 2

### In this lesson, the students:

- Review the words *keen*, *ideal*, and *flee* from Day 1
- Develop the skill of explaining their thinking
- Work in a responsible way

### Words Reviewed

#### keen

*Keen* means “sharp, quick, or alert.”

#### ideal

*Ideal* means “perfect.” Something ideal is the best that it can be.

#### flee

*Flee* means “run away from danger.”

### Materials

- Daily review cards (WA4)

## REVIEW THE WORDS

### 1 Briefly Review the Words

Display the daily review cards (🗉 WA4) and review the pronunciation and the meaning of each word. Ask:

-  **Q** Which of these words might you use to describe a dog's sense of smell? Why? [Click 1 on WA4 to reveal the first prompt.] Turn to your partner.

WA4

keenidealflee

**PROMPT 1:** You might use the word \_\_\_\_\_ to describe a dog's sense of smell because . . .

1 2 3 4 5 6

**PROMPT 1:** “You might use the word [*keen*] to describe a dog's sense of smell because . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following questions:

-  **Q** Which word might you use to tell what people do when they run out of a burning building? Why? [Click 2 to reveal the prompt.] Turn to your partner.

**PROMPT 2:** “You might use the word [*flee*] to tell what people do when they run out of a burning building because . . .”

-  **Q** Which word might you use to describe perfect weather for a swim party? [Click 3 to reveal the prompt.] Why? Turn to your partner.

**PROMPT 3:** “You might use the word [*ideal*] to describe perfect weather for a swim party because . . .”

## PRACTICE USING THE WORDS

### 2 Discuss Questions Using the Words

Explain that you will have the students use the vocabulary words to answer some questions.

Begin with the following scenario:

**Q** *If you were riding your bike and saw a big dog approaching, would you flee? Why?* [Click 4 to reveal the prompt.] *Turn to your partner.*

**PROMPT 4:** “If I saw a big dog approaching, I [would/would not] flee because . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following:

**Q** *What do you think is the ideal season of the year? Why?* [Click 5 to reveal the prompt.] *Turn to your partner.*

**PROMPT 5:** “I think [autumn] is the ideal season of the year because . . .”

**Q** *Which sense do you think is your keenest: hearing, sight, or smell? Why?* [Click 6 to reveal the prompt.] *Turn to your partner.*

**PROMPT 6:** “I think [sight] is my keenest sense because . . .”

---

## EXTENSION

### Review Homophones

Write the words *flee* and *flea* where everyone can see them. Ask the students what they notice about the words. Explain that the words are homophones and remind the students that *homophones* are “words that sound the same but are spelled differently and have different meanings.” Review that *flee* means “run away from danger,” and then explain that a *flea* is “a jumping insect that feeds on warm-blooded animals.”

Discuss other homophones, such as *peer* and *pier*, *blew* and *blue*, and *sail* and *sale*. Ask the students for additional examples.

---

### Teacher Note

You might explain that *approach* means “move closer to someone or something.”

**TEKS 3.D.i**  
**TEKS 3.D.ii**  
**TEKS 3.D.iii**  
Student/Teacher Activity  
Extension (all)

---

### Teacher Note

For a list of common homophones, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to view the “Homophones” list in the General Resources section.

# Day 3

## Introduce *Resemble*, *Blotch*, and *Lethal*

### Materials

- *Slinky Scaly Slithery Snakes*
- Word card 46 (WA5)
- Word card 47 (WA6)
- Word card 48 (WA7)

### In this lesson, the students:

- Learn and use the words *resemble*, *blotch*, and *lethal*
- Review synonyms
- Share their partners' thinking with the class
- Develop the skill of explaining their thinking

### Words Taught

#### **resemble**

*Resemble* means "look or be like something or someone else."

#### **blotch** (p. 17)

A *blotch* is a "spot or stain."

#### **lethal**

*Lethal* means "deadly, or able to kill."

## INTRODUCE AND USE *RESEMBLE*

### 1 Introduce and Define *Resemble*

Show pages 14–15 of *Slinky Scaly Slithery Snakes* and review that this part of the book tells how snakes' coloring and markings help them survive.

Read page 14 aloud. Point out that harmless king and milk snakes resemble, or look like, poisonous snakes, which fools their enemies into leaving them alone.

Tell the students that *resemble* is the first word they will learn today, and explain that *resemble* means "look or be like something or someone else." Display word card 46 (WA5) and have the students say the word *resemble*.

Show page 16 of the book and point to the tree snake. Explain that as you read this part of the book aloud, you want the students to listen for how some tree snakes resemble, or look like, their surroundings, and how this helps them.

Read page 16 aloud. Ask:

**Q** *How do some tree snakes resemble their surroundings?* [Click 1 on WA5 to reveal the first prompt.] *Turn to your partner.*

resemble

**PROMPT 1:** Some tree snakes **resemble** their surroundings by . . .

1 2 3 4

**PROMPT 1:** “Some tree snakes resemble their surroundings by . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class. Then use the same procedure to discuss the following:

**Q** *How does resembling their surroundings help the snakes?* [Click **2** to reveal the prompt.] *Turn to your partner.*

**PROMPT 2:** “Resembling their surroundings helps the snakes by . . .”

If necessary, explain that the green color of some tree snakes resembles the green of the tree leaves. This helps the snakes hide both from predators and from the snakes’ prey. Their long thin bodies also resemble vines.

Point to the word *resemble* and review the pronunciation and meaning of the word.

## 2 Talk About Resembling

Explain that, even though snakes come in many different sizes and colors, they resemble, or look like, one another in certain ways. For example, all snakes have the same shape. Explain that even though a pet cat and a lion are different in many ways, they are both members of the cat family, and they resemble each other in certain ways.

Discuss as a class:

**Q** *How do a pet cat and a lion resemble each other?*

Click **3** to reveal the prompt and have a few volunteers use the prompt to share their thinking with the class.

**PROMPT 3:** “They resemble each other because they both . . .”

Explain that a person can resemble another person. For example, people in the same family often resemble each other. Explain that a person can

also resemble someone he or she is not related to. For example, a person can resemble a famous athlete or movie star.

Use “Think, Pair, Share” to discuss:

**Q** *Who do you think you resemble, or look like? How do you resemble that person?* [Pause; click 4 to reveal the prompt.] *Turn to your partner.*

**PROMPT 4:** “I think I resemble [my grandfather]. We resemble each other because [our eyes and noses look alike].”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

Point to the word *resemble* and review the pronunciation and meaning of the word.

## INTRODUCE AND USE *BLOTCH*

### 3 Introduce and Define *Blotch*

Show page 17 of *Slinky Scaly Slithery Snakes* and review that the colors of some snakes resemble their surroundings and help them blend in.

Read the following sentence from page 17 aloud, emphasizing the word *blotches*: “Snakes decorated with spots and blotches also blend in with their surroundings, making them hard to see.”

Tell the students that *blotch* is the next word the students will learn today, and explain that a *blotch* is a “spot or stain.”

Show the illustration on page 18. Point out the blotches, or spots, on the snake’s skin, and explain how the snake’s colors and blotches help it blend in with the soil, bark, and leaves of the forest.

Display word card 47 (WA6) and have the students say the word *blotch*.

### 4 Talk About Blotches

Remind the students that a *blotch* is a “spot or stain.”

Ask:

**Q** *What might make a blotch on a tablecloth?* [Click 1 on WA6 to reveal the first prompt.] *Turn to your partner.*

**PROMPT 1:** “[Ketchup dripping from a sandwich] might make a blotch on a tablecloth.”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

Discuss as a class:

**Q** *Where might you see blotches of paint?*

Click **2** on word card 47 (WA6) to reveal the next prompt.

**PROMPT 2:** “I might see blotches of paint . . .”

Point to the word *blotch* and review the pronunciation and meaning of the word.

## INTRODUCE AND USE *LETHAL*

### **5** Introduce and Define *Lethal* and Review Synonyms

Show pages 20–21 of *Slinky Scaly Slithery Snakes* and explain that this part of the book tells about poisonous snakes. Read the first two paragraphs on page 21 aloud.

Tell the students that *lethal* is the last word the students will learn today, and explain that *lethal* means “deadly, or able to kill.”

Tell the students that the words *lethal* and *deadly* are synonyms. Explain that the fangs of a pit viper inject lethal, or deadly, poison that kills its prey.

Display word card 48 (**C** WA7) and have the students say the word *lethal*.

### **6** Play “Lethal or Not Lethal?”

Tell the students that partners will play “Lethal or Not Lethal?” Explain that you will describe something; then partners will discuss whether the thing you described is lethal or not lethal and explain why.

Begin with the following:

- *A puppy*

Ask:

**Q** *Is a puppy lethal or not lethal? Why?* [Click **1** on WA7 to reveal the prompt.] *Turn to your partner.*

**PROMPT 1:** “A [puppy] [is/is not] lethal because . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following:

- *A great white shark*
- *A banana*

Point to the word *lethal* and review the pronunciation and meaning of the word.

#### **ELL Note**

The Spanish cognate of *lethal* is *letal*.

#### **Teacher Note**

If you started a synonym chart, add the words *lethal* and *deadly* to it.

## MORE STRATEGY PRACTICE

### Discuss Synonyms of *Blotch*

Review that *synonyms* are “words that mean the same thing or almost the same thing,” and explain that the words *spot* and *stain* are synonyms of the word *blotch*.

Use “Think, Pair, Share” to discuss:

**Q** *What other words are synonyms of the word blotch? [Pause.] Turn to your partner.*

Write the following prompt where everyone can see it, and have one or two volunteers use the prompt to share their thinking with the class.

**PROMPT:** “A synonym of *blotch* is . . .”

#### Teacher Note

Possible synonyms include *smudge*, *dot*, *speck*, *blot*, *smear*, *patch*, and *splotch*. If you started a synonym chart, add the words *blotch*, *spot*, *stain*, and any other synonyms the students suggest to it.

## Day 4

## Review *Resemble*, *Blotch*, and *Lethal*

#### Materials

- Daily review cards (WA8)
- Copy of this week’s family letter (BLM1) for each student
- (Optional) Copy of the “Week 8 Crossword Puzzle” (BLM3) for each student

#### In this lesson, the students:

- Review the words *resemble*, *blotch*, and *lethal* from Day 3
- Develop the skill of explaining their thinking
- Work in a responsible way

#### Words Reviewed

##### **resemble**

*Resemble* means “look or be like something or someone else.”

##### **blotch**

A *blotch* is a “spot or stain.”

##### **lethal**

*Lethal* means “deadly, or able to kill.”

## REVIEW THE WORDS

### 1 Briefly Review the Words

Display the daily review cards (WA8). Review the pronunciation and meaning of each word.

Point to the word *resemble* and ask:

**Q** *How does a square resemble a rectangle? [Click 1 on WA8 to reveal the first prompt.] Turn to your partner.*

resemble
blotch
lethal

**PROMPT 1:** A square **resembles** a rectangle because . . .

1
2
3
4
5
6

**PROMPT 1:** “A square resembles a rectangle because . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following questions:

**Q** *Would you eat a banana that has black blotches on its skin? Why?*  
[Click **2** to reveal the prompt.] Turn to your partner.

**PROMPT 2:** “I [would/would not] eat a banana that has black blotches on its skin because . . .”

**Q** *Would you drink a liquid with a label that reads “Lethal if swallowed”? Why?* [Click **3** to reveal the prompt.] Turn to your partner.

**PROMPT 3:** “I [would/would not] drink a liquid with a label that reads ‘Lethal if swallowed’ because . . .”

## PRACTICE USING THE WORDS

### 2 Discuss “Would You?” Questions

Explain that you will ask some “Would You?” questions that include the vocabulary words, and then partners will discuss their thinking.

Begin by asking:

**Q** *Would you buy a shirt that resembled a shirt you already owned? Why?*  
[Click **4** to reveal the prompt.] Turn to your partner.

**PROMPT 4:** “I [would/would not] buy a shirt that resembled a shirt I already owned because . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

## Teacher Note

Send home with each student a copy of this week's family letter (BLM1). Encourage the students to talk about this week's words with their families.

## Teacher Note

To provide students with additional review of words taught during Weeks 7 and 8, you might distribute a copy of the "Week 8 Crossword Puzzle" (BLM3) to each student.

Using the same procedure, discuss the following questions:

**Q** *Would you want a job taking care of lethal animals? Why?* [Click 5 to reveal the prompt.] *Turn to your partner.*

**PROMPT 5:** "I [would/would not] want a job taking care of lethal animals because . . ."

**Q** *If you noticed that a friend had a blotch of mustard on his shirt, would you tell him? Why?* [Click 6 to reveal the prompt.] *Turn to your partner.*

**PROMPT 6:** "I [would/would not] tell him if he had a blotch of mustard on his shirt because . . ."

# Day 5

## Ongoing Review

### Materials

- Ongoing review cards (WA9)
- Ongoing review activity (WA10)
- "Class Vocabulary Assessment Record" sheet (CA1)
- Class set of the "Individual Vocabulary Assessment: Word Check 2" answer sheet (IA1)
- Class set of the "Individual Vocabulary Assessment Student Record" sheet (SR1)
- "Individual Vocabulary Assessment Class Record" sheet (CR1)
- (Optional) Class set of the "Student Self-assessment" response sheet (SA1)

### In this lesson, the students:

- Review words they learned earlier
- Develop the skill of explaining their thinking
- Work in a responsible way

### Words Reviewed

#### analyze

Analyze means "study or examine carefully."

#### boost

Boost means "increase or improve." Boost also means "push up from below."

#### plead

Plead means "beg." When you plead, you ask for something in a strong or serious way.

#### seek

Seek means "try to find."

#### yearn

Yearn means "wish or long for something very strongly, especially something difficult to get."

## REVIEW THE WORDS

### 1 Briefly Review the Words

Display the ongoing review cards (WA9) and review the pronunciation and meaning of each word.

## PRACTICE USING THE WORDS

### 2 Introduce the Game “Find Another Word”

Tell the students that partners will play the game “Find Another Word.” Explain that you will show several sentences that have one or more words underlined. Tell the students that you will read each sentence aloud; then partners will decide which of the vocabulary words could replace the underlined part of the sentence. Tell the students that before partners play the game with one another, they will play the game as a class.

Display the ongoing review activity (WA10) and begin playing the game:

1. Click 1 to reveal the first sentence. Point to the sentence and read it aloud, emphasizing the underlined word.

- Sentence 1: *Jessica can't get over the fence, so her friend pushes her.*

2. Give the students a few moments to think about the sentence and the underlined word. Then point to the five word choices and ask:

**Q** Which vocabulary word could replace the underlined word in the sentence? Why?
