“I think my first sentence is fine as is so I’ll copy that exactly as it appears in my first draft. In my second sentence, I replaced the words “to go fast on her skates more than anything.” Instead, I wrote ‘the wind in her face when she skated really fast.’ Before the phrase “the wind in her face,” I’ll add: *the feeling of*. I’ll add those words as I recopy the sentence. The next two sentences seem strong as they are. Now I need to add the two new sentences about Lucy’s neighborhood and her inner thoughts. I’ll leave the next sentence as it is, but I want to describe what the milkman’s voice sounded like. I’m going to add: *in a voice that sounded like a bassoon.*”

### Second Draft

Lucy loved to roller skate. Everyone in the  
neighborhood knew that she loved the feeling of  
the wind in her face when she skated really fast.  
Every day she skated up and down her block as  
fast as she could. It was never fast enough. Her

(continues)

(continued)

block was flat, and there were no hills nearby to

help her go faster. "I wish I could find a way to

go faster," thought Lucy.

Every day the milkman would steer his horse-

drawn cart down Lucy's block to deliver bottles

of milk. He would always call out, in a voice that

sounded like a bassoon, "Have you skated fast

enough yet?"

After you have written several sentences, ask:

**Q** *What kinds of changes did you notice I made as I started writing my second draft?*

As the students respond, write their observations on a sheet of chart paper titled "Things We Can Revise in Our Second Drafts." Use "Think, Pair, Share" to discuss:

**Q** *What other kinds of changes might you make while writing your second draft? [pause] Turn to your partner.*

Have volunteers share their thinking.

**Students might say:**

"You made it clearer by adding *the feeling of*."

"In addition to what [Kevin] said, you added a sensory detail about how the milkman's voice sounded."

"We can look for other places where we can add transition words."

"We can make sure we show what the characters think and feel."

Add the students' ideas to the chart. Encourage the students to refer to the chart while they are working on their second drafts.

### Technology Tip

If the students write their second drafts on computers, they should double-space the drafts and print them out.

### Teacher Note

Save the “Things We Can Revise in Our Second Drafts” chart to use on Day 3 and throughout the process of writing second drafts.

You will need a complete, charted second draft of your story to use on Day 5 of this week. You might wish to create a projectable chart of the draft. For more information about whiteboard activities in the *Being a Writer* program, view the “Using CCC’s Whiteboard Activities” tutorial (AV73).

## WRITING TIME

### 3 Begin Writing Second Drafts

Distribute lined paper and have the students work silently on their revisions and second drafts for 20–30 minutes.

Join the students in writing for a few minutes, and then walk around and observe, assisting students as needed.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students incorporate their revisions into a second draft?
- Are the second drafts improvements on their first drafts?

Support any student who is having difficulty by asking her questions such as:

- Q *I notice that you marked this part of your draft for revision. What were you thinking about when you marked it?*
- Q *Read this passage aloud with the new sentence you want to add. Does that make sense? If not, how can you change it so it does make sense?*

Record your observations on the “Class Assessment Record” sheet (CA8); see page 61 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Reflect on Writing Second Drafts

Briefly discuss questions such as the following:

- Q *What was challenging about writing a second draft?*
- Q *Who made a further revision to your story as you were writing your second draft? Tell us about it.*
- Q *What other ideas can we add to the “Things We Can Revise in Our Second Drafts” chart?*

Add any revision ideas the students have to the chart. Explain that tomorrow the students will continue to work on their second drafts.

## In this lesson, the students:

- Explore using adjectives to make writing descriptive
- Continue to write second drafts
- Ask one another questions about their writing

## GETTING READY TO WRITE

### 1 Explore Adjectives

Have the students get their notebooks, *Student Writing Handbooks*, and pencils, and sit at desks with partners together. Explain that the students will continue to work on their second drafts today and that they will make their writing as descriptive as possible so readers will be able to imagine what is happening in their stories. Explain that one way writers make their writing descriptive is by using interesting adjectives.

Briefly review that an *adjective* is a word that describes a noun and that a *noun* is a word for a person (or any living thing), place, or thing. Write several nouns (such as *girl, forest, trees, snow*) where everyone can see them and, together as a class, add adjectives before or after the nouns. Underline each adjective (see diagram below).

- small girl
- dark forest
- trees, tall and pointy
- white snow

### 2 Analyze Adjectives in an Excerpt from *Morning on the Lake*

Show the cover of *Morning on the Lake* and remind the students that they heard this story earlier in the unit. Briefly review the story using the question that follows, and be ready to reread from the text to help the students remember the story. Ask:

**Q** *What do you remember about this story?*

Have the students open their *Student Writing Handbooks* to page 14. At the same time, display the “Excerpt from *Morning on the Lake*”

## Materials

- *Morning on the Lake*, from Week 3
- *Student Writing Handbook* page 14
- “Excerpt from *Morning on the Lake*” chart (WA26)
- “Things We Can Revise in Our Second Drafts” chart from Day 2
- Loose, lined paper for second drafts
- “Class Assessment Record” sheet (CA9)

## Skill Practice Note

If the students need more practice using nouns and adjectives, take time to review these skills (see Lesson 7 and Lesson 22 in the *Skill Practice Teaching Guide*).

## ELL Note

You might provide the prompt “I remember that . . .” to your English Language Learners to help them verbalize their answers to this question.

### Skill Practice Note

You might point out that the author writes “big orange ball” and not “orange big ball.” Explain that when we use adjectives (describing words) for size and color, the size comes before the color. Explain that “an orange big ball” sounds wrong because the words *orange* and *big* are in the wrong order. For more practice with ordering adjectives within sentences according to conventional patterns, see Lesson 22 in the *Skill Practice Teaching Guide*.

(WA26) chart. Explain that this is a passage from *Morning on the Lake* in which the author uses adjectives to help us imagine what is happening in the story. Read the passage aloud to the class and ask:

**Q** *What adjectives does the author use in this passage? Turn to your partner.*

Have partners discuss the question for a moment and underline any adjectives they notice in their *Student Writing Handbooks*; then signal for their attention. Call on a few volunteers to share adjectives they found, and underline these on the chart. As the students report, ask follow-up questions such as:

**Q** *How do the adjectives [slow, quiet] make us feel about [the grandfather’s voice]?*

**Q** *[The boy sees his grandfather as a “large silhouette against the pink morning sky.”] What do you picture when you read those words?*

#### Students might say:

“The words ‘gray blanket’ made me imagine the mist lying on top of the lake like a gray blanket. It made the scene seem gentle.”

“The adjectives ‘slow, quiet’ make the grandfather sound peaceful and calm.”

“I picture the grandfather looking like a black shadow against the pink sky. It almost looks like a painting.”

## 3 Review Drafts for Adjectives

Ask the students to look closely at their own drafts and find places where they used, or could use, adjectives to describe nouns in their stories. Ask and discuss as a class:

**Q** *Who found an adjective that they like? Read us that sentence.*

**Q** *If you did not find an adjective, where might you add one to make a sentence more interesting?*

Explain that you would like the students to think about adjectives they could add to make their stories more descriptive as they write today. Encourage them to refer to the “Things We Can Revise in Our Second Drafts” chart for other revision ideas.

## WRITING TIME

### 4 Continue to Write Second Drafts

Have the students work silently on their second drafts for 20–30 minutes, paying attention to adjectives in their stories. Make sure they have access to more lined writing paper if they need it.

Join them in writing for a few minutes; then walk around the class and observe, assisting students as needed.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to use adjectives to enrich their descriptions?
- Are they able to incorporate their revisions into a second draft?
- Does their writing communicate clearly?

Identify what, if anything, is unclear in the students' writing. Support any student who is having difficulty by asking him to reread his writing and by asking questions and offering suggestions such as:

- Q *Does your story make sense? What part doesn't make sense? How can you rewrite it so it makes sense?*
- Q *Can you find a place in your story where you used an adjective you liked? Let's see whether we can find places in your story to add adjectives.*
- Q *What adjective could you add to help us imagine what the [snake] in your story is like?*

Record your observations on the "Class Assessment Record" sheet (CA9); see page 62 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Share Revisions and Reflect

Have a few volunteers share passages they revised by reading the original and revised passages. As the students share, probe their thinking by asking:

- Q *[Kael], how do you think your revision improves your piece?*
- Q *What questions can we ask [Kael] about his revision?*

Ask and briefly discuss:

- Q *Who made revisions to the adjectives in your story today? Tell us about it.*

Explain that the students will continue to work on their second drafts tomorrow.

### Facilitation Tip

As you continue to focus on  **pacing class discussions**  this week, consider:

- Do most students stay engaged for the duration of most discussions?
- What do the students look like when they are engaged? What do they look like when they become disengaged?
- What contributes to loss of focus on the part of the students?
- Are the students getting used to you not calling on every student with a hand up?

Continue to practice the techniques listed in the previous Facilitation Tip for speeding up or deepening a discussion. To see this Facilitation Tip in action, view "Pacing Class Discussions" (AV20).

# Day 4

## Writing Second Drafts

### Materials

- *The Day of Ahmed's Secret* from Week 3
- "Point of View in Two Stories" chart (WA27)
- *Student Writing Handbook* page 15
- *Night of the Gargoyles* from Week 1
- Loose, lined paper for second drafts

## EXTENSION

### Continue to Explore Descriptive Language

Give the students more experience with descriptive language by occasionally having them share passages in books they are reading independently. Discuss questions such as:

- Q *How does the language in that passage help you imagine [what is happening/where the story takes place]?*
- Q *What adjectives does the author use? What do those adjectives make you imagine?*

### In this lesson, the students:

- Explore first- and third-person points of view
- Explore pronouns and practice writing consistently from a single point of view
- Continue to write second drafts
- Ask one another questions about their writing

### ABOUT POINT OF VIEW

In this lesson, the students learn to recognize the first-person point of view (the *I* narrator) and learn that when there is no *I* narrator, stories are usually being told from a third-person point of view. They look closely at the pronouns in the writing to determine the point of view, and they explore writing from a single point of view. The work in this lesson lays the foundation for continued instruction in later grades on the first- and third-person points of view, including maintaining a consistent point of view for any particular piece of writing.

## GETTING READY TO WRITE

### 1 Explore First- and Third-person Points of View

Have the students stay at their desks today. Have them get out their notebooks, *Student Writing Handbooks*, and pencils. Explain that the students will continue to work on their second drafts today. Tell them that you would like them to pay close attention to the point of view of their stories as they write.

Explain that *point of view* refers to who is telling the story. Some authors use an *I* narrator to tell the story; this is called the *first-person point of view*. When there is no *I* narrator, the author is usually writing from the *third-person point of view*.

Write the following where everyone can see it:

“I” = first person  
no “I” = third person (usually)

Explain that the book *The Day of Ahmed’s Secret* is written from the first-person point of view. Show and reread pages 3–4; then ask:

**Q** *Who is I in this story? How do you know?*

Display the “Point of View in Two Stories” chart (WA27) as you have the students open their *Student Writing Handbooks* to page 15, where the opening sentences of *The Day of Ahmed’s Secret* and *Night of the Gargoyles* are reproduced. Read the first excerpt together as a class. Ask:

**Q** *What words tell us that this is written from a first-person point of view?*

**Students might say:**

“I have a secret”

“My secret will be like a friend to me”

“My donkey pulls the cart I ride on”

“I have many stops to make”

As volunteers respond, underline the pronouns on the chart. Explain that the underlined words are pronouns and that a *pronoun* is a word that takes the place of a noun. Explain that the pronouns *I*, *me*, *my*, and *mine* are called *first-person pronouns*.

Show the cover of the book *Night of the Gargoyles*, and explain that this story has no *I* narrator—the person telling the story is not a character in the story. *Night of the Gargoyles* is told from a third-person point of view. Together, read the second excerpt on the “Point of View in Two Stories” chart. Point out that one helpful clue to recognizing a story told from the third-person point of view is that first-person pronouns do not appear in it.

Ask the students to look closely at their own drafts and determine whether they are telling their stories using the first-person or third-person point of view. Discuss as a class:

**Q** *If you are using the first-person point of view, read us a sentence in which the I narrator is speaking.*

**Q** *If you don’t have an I telling your story, read us the first couple of sentences in your story so we can hear what the third-person point of view sounds like.*

### Skill Practice Note

For more practice with pronouns, see Lesson 8 and Lesson 9 in the *Skill Practice Teaching Guide*.

### Teacher Note

You may wish to point out that if a story is written using a third-person point of view, characters' thoughts and speech may still be in the first person. You might provide an example such as, "Every day she skated up and down her block as fast as she could. 'I wish I could find a way to go faster,' thought Lucy."

Explain that once the students have determined whether they have an *I* narrator or not, they should continue to write their entire story using this same point of view so that their readers are not confused about who is telling the story.

Encourage the students to pay attention to point of view as they work on their second drafts today.

## WRITING TIME

### 2 Continue to Write Second Drafts

Have the students work silently on their second drafts for 20–30 minutes, paying attention to using a single point of view. Make sure they have access to more lined writing paper.

Join the students in writing for a few minutes; then confer with individual students.

### TEACHER CONFERENCE NOTE

Continue to confer with individual students about the piece each is developing for publication. Ask the student to tell you about the part he is working on now and to read some of his writing aloud to you. As you listen, consider:

- Does this student's story have a character with distinct traits that are shown through action, speech, or thought?
- Does something interesting or important happen to the character?
- Does the story make sense? Is it easy to follow what is happening, when, and to whom?
- Does the student use transitional words and phrases?
- Does the ending draw the story's events to a close?
- Does the student use sensory details to convey the setting?
- Does the student use adjectives to make the writing more descriptive?
- Does the student use the first- or third-person point of view consistently?

*(continues)*

## TEACHER CONFERENCE NOTE *(continued)*

Support the student in integrating the elements of fiction by asking questions such as:

- Q *What kind of personality does your main character have?*
- Q *What actions, thoughts, or speech [have you added/could you add] to show who the character is?*
- Q *What interesting or important thing happens to your character?*
- Q *What transitional words and phrases [did/could] you use to help connect events or ideas?*
- Q *What [did/could] you write to bring the story to a close?*
- Q *When and where does the story take place? What descriptive words can you use to tell the reader how the place looks, feels, sounds, or smells?*
- Q *What adjective(s) could you add before the word [desert] to describe what it's like there?*
- Q *Which point of view, first- or third-person, [did/could] you use in your story?*

Document your observations for each student on a “Conference Notes: Focus 2” record sheet (CN2); see page 68 of the *Assessment Resource Book*. Beginning next week, the focus of the individual student conferences will change. If you have not met with all of your students to discuss the questions above, you may wish to do so before changing the conference focus.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Share Revisions and Reflect

Have a few volunteers share passages they revised by reading the original and the revised passages. As the students share, probe their thinking by asking:

- Q *[Alexi], how do you think your revision improves your piece?*
- Q *What questions can we ask [Alexi] about her revision?*

Explain that partners will confer about their stories tomorrow.

# Day 5

## Self-assessing and Pair Conferencing

### Materials

- “Notes About Fiction” chart from Week 4
- “Self-assessment Questions” chart, prepared ahead
- Your charted second draft from Day 2
- “Questions for My Partner About My Draft” chart from Unit 3, Week 4
- “Class Assessment Record” sheet (CA10)

### In this lesson, the students:

- Assess their own writing
- Initiate pair conferences about their drafts
- Ask for and receive feedback about their writing
- Give feedback in a helpful way
- Write and confer responsibly during Writing Time

## GETTING READY TO WRITE

### 1 Prepare to Self-assess

Have the students get their notebooks and pencils and sit at desks with partners together. Remind the students that in the past few weeks they have learned about character, setting, and plot in fiction stories. Briefly review the “Notes About Fiction” chart and ask:

**Q** *What else have you learned about fiction that we can record on the chart?*

Add any suggestions to the chart. Then direct the students’ attention to the “Self-assessment Questions” chart (see “Do Ahead” on page 291). Explain that you would like the students to ask themselves these questions as they reread their drafts today. Read the questions aloud.

Show your revised second draft and briefly model rereading it, asking yourself the questions, and thinking aloud about the answers.

#### You might say:

“In my story, my character Lucy goes for a wild ride on her roller skates and ends up headfirst in a haystack. I think the detail about the horse-drawn cart tells the reader that the story takes place in the past. The phrase ‘bumping over cobblestones and splashing through old mud puddles’ describes the setting. Transitional words like ‘One day,’ ‘then,’ and ‘But’ help the reader connect events and ideas. As I reread the story, I can tell that there isn’t anything that doesn’t fit with the rest of the story. My ending wraps up the piece in an interesting and satisfying way.”

### 2 Self-assess and Think About What to Ask Partners

Ask the students to reread their own drafts and ask themselves the “Self-assessment Questions.” After most students have had time to finish, signal for their attention and have a few volunteers share their thinking with the class. As they share, follow up by asking:

**Q** *What will you add to or change in your story to make your [character/setting/plot] more [believable/interesting/descriptive]?*

Ask and briefly discuss:

**Q** *What questions do you want to ask your partner today about your draft?*

As the students report questions, record them on the “Questions for My Partner About My Draft” chart. Remind the students that they started this chart earlier in the year, and review the questions on it. Ask:

**Q** *What other questions on this chart do you want to ask your partner today?*

**Students might say:**

“I want to ask my partner if she can imagine what’s happening.”

“I want to ask my partner if he can tell what I learned from what I wrote.”

“I want to find out whether anything is confusing to my partner.”

Explain that partners will read their drafts aloud to each other, including their revisions, and then ask each other questions about their own drafts.

### 3 Prepare to Write and Initiate Pair Conferences

Explain that today the students will make the revisions they are thinking about and then work on finishing their second drafts. When they finish their second drafts, they will initiate a conference with a partner to get feedback before starting to work on their final versions.

Remind the students of the procedure for initiating their own pair conferences by reviewing that you will give a signal about halfway through Writing Time, after which the students may confer in pairs if they are ready. The students should ask their assigned partner first. If their own partner is busy writing and would rather not stop to confer, they may ask another student. Ask and briefly discuss:

**Q** *If someone asks you to confer, but you would rather keep writing, how will you respond to the person respectfully?*

**Q** *What problems can arise when you are initiating a pair conference? What will you do to avoid those problems today?*

Redirect the students’ attention to the “Self-assessment Questions” chart and explain that you would like partners to discuss both pieces of writing during the pair conferences using the questions on the chart.

## WRITING TIME

### 4 Write Independently and Confer

Have the students work silently on their second drafts. After about 15 minutes of writing, signal that the students may confer in pairs if they are ready. Remind them to discuss the “Self-assessment Questions” during the conference. Assure students who are still working on their second drafts that they will have other opportunities in the coming week to confer with a partner.

#### Teacher Note

Not all of the students will be ready to confer today. Those who need to continue working on their second drafts should do so during Writing Time into Week 6 and confer about the drafts when they are finished.

## CLASS ASSESSMENT NOTE

Observe the students as they initiate and participate in pair conferences, and ask yourself:

- Are the students able to find a partner and begin pair conferences with minimal disruption to the class?
- What problems are they having initiating pair conferences?
- Are they giving each other feedback about the questions on the chart?

Support any pair that is having difficulty by asking questions such as:

- Q *What difficulties are you having in your conference?*
- Q *What are you trying to accomplish during this conference? What is preventing you from accomplishing that?*
- Q *What can you do to solve that problem? If that doesn't work, what else can you try?*

Record your observations on the "Class Assessment Record" sheet (CA10); see page 63 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Writing and Pair Conference Time

Gather the students to discuss how they did writing and conferring during Writing Time today. Remind them that in the writing community the goal of giving feedback is to help each person create the best possible piece of writing. Ask:

- Q *If you participated in a pair conference today, what feedback did you receive from your partner that was helpful to you?*
- Q *If you continued to write while pair conferences were happening, were you able to concentrate? Why or why not?*
- Q *What problems arose today during the pair conference time? What effect did those problems have on our writing community? How can we avoid those problems next time?*

Explain that the students will complete their second drafts next week and proofread and publish their stories.

### Teacher Note

Save the "Self-assessment Questions" chart to use in Week 6.

---

## TECHNOLOGY EXTENSION

### Publish Student Writing Online

Next week the students will publish their fiction stories for the class library. Some students might also be interested in publishing their writing online. There are a number of websites where students can do so. Search for them using the keywords “publishing student writing online.” Publishing online allows family members and friends to easily access and enjoy students’ writing.

# Week 6

## OVERVIEW

### Writing Focus

- Students proofread their second drafts for spelling and punctuation.
- Students learn how to punctuate speech and punctuate for effect.
- Students write their final versions and publish them as books.
- Students present their books to the class from the Author’s Chair.
- Students confer with one another and the teacher.

### Social Development Focus

- Students work in a responsible way.
- Students help one another improve their writing.
- Students act in fair and caring ways.
- Students express interest in and appreciation for one another’s writing.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA28–WA35

#### Assessment Forms

- “Class Assessment Record” sheets (CA11–CA13)
- “Conference Notes: Focus 3” record sheet (CN3)
- “Individual Writing Assessment” record sheet (IA1)
- “Student Self-assessment” record sheet (SA1)

#### Reproducible

- Fiction genre unit family letter (BLM1)

#### Professional Development Media

- “Social Reflection” (AV14)

## DO AHEAD

- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA11) on page 64 of the *Assessment Resource Book*.
- ✓ Prior to Day 2, make a class set of the “Conference Notes: Focus 3” record sheet (CN3) on page 70 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA12) on page 65 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, decide on how you would like the students to make their books. Gather any materials they will need (for example, construction paper for covers, drawing paper for illustrations, markers, staples).
- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA13) on page 66 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student’s published piece.
- ✓ (Optional) If computers are available, you might have some students type and print out their final versions.

## TEACHER AS WRITER

*“By the time I am nearing the end of a story, the first part will have been reread and altered and corrected at least one hundred and fifty times. I am suspicious of both facility and speed. Good writing is essentially rewriting. I am positive of this.”*

— Roald Dahl

Reread the drafts you have written and select one to develop. Consider:

- Who is telling this story?
- What actions, thoughts, or speech could you add to reveal character traits or relationships among characters?
- What event or action that is both surprising and believable could you add to this plot?
- Where and when does this story take place? What descriptive language could you add to help the reader see, hear, smell, or feel this setting?

# Day 1

## Completing Second Drafts and Proofreading

### Materials

- *Student Writing Handbook* page 16
- “Speech Punctuation in Two Stories” chart (WA28)
- “Writing Time” chart (WA29)
- “Self-assessment Questions” chart from Week 5
- “Class Assessment Record” sheet (CA11)

### Teacher Note

You might review that speech between characters is called *dialogue*.

### In this lesson, the students:

- Explore and practice punctuating speech
- Begin proofreading their drafts
- Initiate pair conferences about their drafts
- Ask for and receive feedback about their writing
- Write and confer responsibly during Writing Time

## GETTING READY TO WRITE

### 1 Explore Speech Punctuation

Have the students remain at their seats. Have them get out their notebooks, *Student Writing Handbooks*, and pencils.

Remind the students that earlier they learned that good writers often include speech in a fiction story to help readers better understand a character’s personality. Explain that today they are going to learn how writers punctuate speech.

Display the “Speech Punctuation in Two Stories” chart (WA28) and ask the students to open their *Student Writing Handbooks* to page 16, where the chart is reproduced.

Explain that the first excerpt is from *Miss Rumphius*. Read the excerpt together as a class. Ask:

- Q *Who are the characters that are speaking in this passage? How can you tell?*
- Q *How can you tell the difference between the words they are actually saying—the dialogue—and the other words in the story?*

#### Students might say:

“Alice and her grandfather are speaking because it says ‘Alice would say’ and ‘said her grandfather.’”

“The words each character is saying have quotation marks around them.”

Underline words and quotation marks on the chart as the students report them. If necessary, point out that authors use quotation marks to let the reader know which words the characters are saying or thinking. Quotation marks surround what the characters say, marking the start and end of each piece of dialogue. Explain that there are several ways to correctly punctuate dialogue but that end punctuation in speech always goes inside the quotation marks.

Explain that the second excerpt is from *The Day of Ahmed's Secret*. Read the excerpt together as a class. Ask:

- Q *Who is speaking in this passage? How can you tell?*
- Q *What do you notice about the way speech is punctuated in this passage, compared to the passage from Miss Rumphius?*

**Students might say:**

"Ahmed is speaking. I can tell because the story is about Ahmed's secret, and in this part he's telling his secret."

"I notice that the sentence with the quotation marks can start at the beginning of a paragraph or in the middle of a paragraph."

"I notice Ahmed speaks and then there's a little break that says 'I say' and then he speaks some more."

Again, underline words and quotation marks on the chart as the students report them.

## 2 Review Drafts for Speech Punctuation

Ask the students to look closely at any speech they included in their own drafts to see whether they punctuated it correctly. Have them compare their punctuated speech to the passages on *Student Writing Handbook* page 16 to make sure they are using one of the correct methods.

Explain that the students will continue working on their second drafts today. Those who have completed their second drafts and conferred with partners may begin proofreading their stories. Remind the students to use their word banks and proofreading notes, which they learned to use at the beginning of the year, to check spelling and correctness in their drafts.

## WRITING TIME

### 3 Write Independently and Confer in Pairs

Display the "Writing Time" chart (WA29) and have the students work silently on the charted tasks for 20–30 minutes.

#### Writing Time

- Try to finish your second draft.
- Check to make sure you punctuate speech correctly throughout your story.
- Begin proofreading your second draft for publication.

WA29

Remind the students that you will signal after 10–15 minutes of silent writing to indicate that they may confer in pairs about their drafts. Direct their attention to the "Self-assessment Questions" chart and remind partners to give each other feedback using these questions today.

### Skill Practice Note

For more practice with punctuating speech, see Lesson 29 in the *Skill Practice Teaching Guide*.

### Teacher Note

You will review using the word bank and proofreading notes with the whole class tomorrow. If any of the students need help using them today, review briefly with individual students or with a small group.

Join the students in writing for a few minutes; then walk around and observe, assisting students as needed.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to correctly punctuate the speech in their stories?
- Do they incorporate their revisions into a second draft?
- Does their writing communicate clearly?

Identify what, if anything, is unclear in the students' writing. Support any student who is having difficulty by asking questions and offering suggestions such as:

Q *What are some of the things your character says in your story?*

Q *Are the quotation marks and commas in the right places? How do you know?*

Q *How can you change the word [said] to a more interesting word?*

Record your observations on the "Class Assessment Record" sheet (CA11); see page 64 of the *Assessment Resource Book*.

After 10–15 minutes, signal to indicate that the students may confer in pairs; then signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Share Revisions and Reflect

Ask a few volunteers to share passages they revised by reading the original and revised passages. As the students share, probe their thinking by asking:

Q *[Andre], how do you think your revision improves your piece?*

Q *What questions can we ask [Andre] about his revision?*

Ask and briefly discuss:

Q *Did you make any revisions today to speech punctuation in your story? Tell us about it.*

---

## EXTENSION

### Continue to Explore Speech and Dialogue in Fiction

Continue to raise the students' awareness of the use of speech and dialogue in fiction by occasionally having them share dialogue in books they are reading independently.

Discuss questions such as:

- Q *Who is speaking in the passage you read? What do you find out about the characters from this [speech/dialogue]?*
- Q *What other words does the author use to mean [said]? Why might the author have chosen to use those words instead of [said]?*

## Proofreading

# Day 2

### In this lesson, the students:

- Review punctuating speech
- Listen for run-on sentences as they read their drafts aloud
- Proofread for spelling, grammar, and punctuation
- Ask for and receive feedback about their writing
- Give feedback in a helpful way

## GETTING READY TO WRITE

### 1 Review Punctuating Speech and Record in Proofreading Notes

Have the students remain at their seats. Have them get out their notebooks, *Student Writing Handbooks*, and pencils. Remind them that they learned about punctuating speech yesterday and thought about the speech in their own stories. Ask and briefly discuss:

- Q *What did you learn about some of the ways to punctuate speech correctly?*

Remind the students that they learned to proofread their drafts using the proofreading notes in the *Student Writing Handbook* (see Unit 2, Week 2, Day 3 on page 103). They will use this resource to proofread their fiction drafts.

Ask the students to open their *Student Writing Handbooks* to the Proofreading Notes section as you display the “Proofreading Notes” chart (WA30). Write the notes in the diagram below on the chart and ask the students to copy them into their proofreading notes.

### Materials

- *Student Writing Handbooks*
- “Proofreading Notes” chart (WA30)
- “Run-on Fiction Sentences” chart (WA31)
- “Writing Time” chart (WA32)
- Loose, lined paper for final versions
- “Self-assessment Questions” chart from Day 1
- Class set of “Conference Notes: Focus 3” record sheets (CN3)

### Proofreading Notes

Rule	Example	Notes
Punctuating speech	See examples on <u>Student Writing Handbook</u> page 16.	End-of-sentence punctuation for sentence being spoken goes inside quotation marks.

Encourage the students to refer to their proofreading notes and other *Student Writing Handbook* pages to remind them about speech punctuation and to help them use it correctly in their stories.

## 2 Discuss Proofreading for Run-on Sentences

Explain that the students will proofread their second drafts today to make sure they have corrected all errors before publishing the stories. In addition to using their word bank and proofreading notes, they will also look for any run-on sentences. Explain that a *run-on sentence* is usually made of two or more complete sentences that have been “run together” without a joining word (a conjunction) such as *or*, *and*, *so*, or *but*. Point out that run-on sentences often look like really long sentences.

Display the “Run-on Fiction Sentences” chart (WA31). Ask the students to watch and listen as you read the first passage aloud, pausing only at the comma and the period at the end. Ask:

- Q *What did you notice about the way the passage sounded when I read it?*
- Q *What run-on sentences do you notice in the passage?*

#### Students might say:

“It doesn’t sound right.”

“In addition to what [Alyssa] said, some of the sentences sound funny—like they go on too long.”

“I noticed a sentence that sounded like it might be two sentences squished together. It was confusing.”

If necessary, point out that right now the passage does not sound right when it is read aloud because it contains several run-on sentences. Model rereading the passage while thinking aloud about how to split the run-ons into two or more complete sentences, capitalizing the first word in each new sentence and adding a period at the end.

**You might say:**

"The first sentence, 'Every day she skated up and down her block as fast as she could,' sounds right. It's a complete thought and a complete sentence all by itself, so I'll leave it alone. I think the second sentence might be a run-on. I can hear it when I read 'It was never fast enough every day the milkman would steer.' That sounds like the end of one sentence and the beginning of another sentence squished together. I'll put a period between *enough* and *every*, remembering to capitalize the *E* in *Every*. Next there's a complete sentence, 'He would always call out, 'Have you skated fast enough yet?'" I think the last sentence might be a run-on because it's really long and sounds funny. I'll try putting a period after *on* and capitalizing *One*. Now I'll read my new sentence aloud: *One day, Lucy heard the milkman's cart and got an idea.* That sounds better, and the sentence has both a subject (*Lucy*) and a predicate (*heard the milkman's cart and got an idea*)."

Follow this same procedure with the second passage on the "Run-on Fiction Sentences" chart.

Explain that you would like the students to read their drafts aloud to listen for run-on sentences. Encourage the students to split any run-on sentences into two or more complete sentences. Remind them to capitalize the first word of each complete sentence and add a period at the end.

### 3 Review Proofreading for Spelling and Conventions

Remind the students that they learned how to use the word bank and proofreading notes to help them proofread their drafts for spelling and correctness (see Unit 2, Week 2, Day 2 on page 98 for review). Briefly review these procedures by reminding the students to:

- Circle words that they are unsure how to spell and look them up in the word bank. If necessary, the students will add words to their word banks after looking up the correct spelling in a dictionary or other resource.
- Use their proofreading notes as a checklist of things to look for in their drafts. They will correct errors in their drafts by crossing them out and writing the corrections next to or above them.

Explain that the students will work toward finishing their second drafts and proofreading them today. Any students who have completed their proofreading may begin writing the final version of their stories by copying their revised second drafts in their best handwriting on loose, lined paper. They may single-space their final versions.

#### Skill Practice Note

For more practice producing complete sentences and correcting run-on sentences, see Lesson 1 and Lesson 5 in the *Skill Practice Teaching Guide*.

#### Teacher Note

You may have students who have not yet finished their second drafts. Assure them that they will have time to finish their drafts and confer with their partners before moving on to proofreading. Ask all the students to pay attention as you review proofreading, so they will be able to do this step when they are ready.

## WRITING TIME

### 4 Complete Second Drafts and Confer in Pairs

Display the “Writing Time” chart (WA32) and have the students work silently on the charted tasks for 20–30 minutes.

#### Writing Time

- Read your draft aloud and check for periods.
- Proofread for run-on sentences.
- Proofread your draft for spelling and correctness.
- Begin writing your final version on loose, lined paper.

WA32

Remind the students that you will signal after 10–15 minutes of silent writing to indicate that they may confer in pairs when they are ready. Remind them to give feedback using the questions on the “Self-assessment Questions” chart.

Join the students in writing for a few minutes; then confer with individual students.

#### TEACHER CONFERENCE NOTE

Confer with individual students who seem to need extra support in preparing their second drafts for publication. Consider:

- What does this student need to work on to be ready to publish her story?

Discuss questions such as:

- Q *What are you working on right now?*
- Q *Do you have any long sentences that might be run-ons? Let's reread them and see whether they need to be divided into shorter sentences.*
- Q *What else do you need to do to be ready to write your final version?*

Document your observations for each student on a “Conference Notes: Focus 3” record sheet (CN3); see page 70 of the *Assessment Resource Book*.

After 10–15 minutes, signal to indicate that the students may confer in pairs; then signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect as a Class

Gather the students to discuss how they did during writing and pair conference time today. Discuss questions such as:

- Q *If you worked on proofreading your draft for spelling today, how did that go? What words did you find in your word bank? How did you check on words that were not in your word bank?*
- Q *If you participated in a pair conference today, how did you help your partner? How did your partner help you?*
- Q *What did you do to take responsibility for yourself during Writing Time today?*

### Teacher Note

The end-of-lesson reflection is important to the students' growth as writers and to their social development. We encourage you to allow at least 5 minutes at the end of each period to help the students reflect on their work and interactions. For more information about social development, see "Values and Social Skills" on page xxviii. To learn more, view "Social Reflection" (AV14).

## Proofreading

## Day 3

### In this lesson, the students:

- Explore and practice punctuating for effect
- Continue proofreading their drafts
- Initiate pair conferences about their drafts
- Ask for and receive feedback about their writing
- Write and confer responsibly during Writing Time

### Materials

- *Student Writing Handbook* page 17
- "Punctuation for Effect in Three Stories" chart (WA33)
- "Writing Time" chart (WA34)
- "Self-assessment Questions" chart from Day 2
- "Class Assessment Record" sheet (CA12)

## GETTING READY TO WRITE

### 1 Explore Punctuation for Effect

Have the students remain at their seats. Have them get out their notebooks, *Student Writing Handbooks*, and pencils.

Remind the students that earlier they discussed how writers punctuate speech in a story. They also read their second drafts aloud to listen for run-ons and corrected them by splitting them into two or more complete sentences. Explain that today the students are going to learn about another way that writers use punctuation to make their stories more interesting for readers.

Project the "Punctuation for Effect in Three Stories" chart (📄 WA33) and ask the students to open to *Student Writing Handbook* page 17, where the chart is reproduced. Point out that the first passage, from *Miss Rumphius*, has two exclamation points. Ask the students to listen to how your voice changes when you read the sentences ending in

## Teacher Note

You might explain that an ellipsis usually indicates that words are missing or a thought is incomplete. You might explain that parentheses are used here to show that a thought or idea has been added.

## Teacher Note

You will review the procedures for publishing stories with the whole class tomorrow. Support students who are ready to begin publishing today by reviewing procedures briefly with individuals or with a small group.

exclamation points. Read the excerpt aloud, using an exclamatory tone when you read the second paragraph. Ask:

**Q** *What did you notice about how my voice changed when I read the sentences ending in exclamation points? How did the change in my voice make you feel?*

### Students might say:

"Your voice got louder and more excited when you read the sentences with the exclamation points. It made me feel excited."

Follow the same procedure to read the second passage and discuss the use of the series of dots called an *ellipsis* and to read the third passage and discuss the use of parentheses.

### Students might say:

"You stopped when you got to the dots. Stopping added a lot of suspense. It made me wonder what was going to happen next."

"Your voice got softer when you read the sentence in the parentheses. It felt like you were stepping outside the main story to tell us a little side comment."

Point out that authors use punctuation marks to affect the way we read and react to stories. Punctuation guides us to read stories loudly or softly, or to pause in our reading to create suspense. Explain that authors choose punctuation for effect carefully; for example, if every sentence in a story ended in an exclamation point, the punctuation mark would lose its power to signal excitement or loudness.

## 2 Review Drafts for Punctuation for Effect

Ask the students to read their drafts and see whether there are any places where they use, or could use, exclamation points, ellipses, or parentheses. Have them compare their punctuated speech to the passages on *Student Writing Handbook* page 17 to make sure they are using one of the correct methods.

Explain that the students will continue working on their second drafts today. Those who have completed their second drafts and conferred with partners may begin proofreading their stories. Remind the students to use their word bank and proofreading notes to check spelling and correctness in their drafts.

## WRITING TIME

### 3 Write Independently and Confer in Pairs

Display the "Writing Time" chart (WA34) and have the students work silently on the charted tasks for 20–30 minutes.

### Writing Time

- Try to finish your second draft.
- See if there are places in your story where you can add punctuation for effect.
- Begin proofreading your second draft for publication.

Remind the students that you will signal after 10–15 minutes of silent writing to indicate that they may confer in pairs about their drafts. Direct their attention to the “Self-assessment Questions” chart and remind partners to give each other feedback using these questions today.

Join the students in writing for a few minutes; then walk around and observe, assisting students as needed.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to correctly punctuate the speech in their stories?
- Are they able to use punctuation for effect?
- Do they incorporate their revisions into a second draft?
- Does their writing communicate clearly?

Identify what, if anything, is unclear in the students’ writing. Support any student who is having difficulty by asking questions and offering suggestions such as:

- Q *What are some of the things your character says in your story?*
- Q *Are the quotation marks and commas in the right places? How do you know?*
- Q *How can you use punctuation to make this part more [suspenseful/exciting]?*

Record your observations on the “Class Assessment Record” sheet (CA12); see page 65 of the *Assessment Resource Book*.

After 10–15 minutes, signal to indicate that the students may confer in pairs; then signal to let the students know when Writing Time is over.

# Day 4

## Publishing

### Materials

- “Writing Time” chart (WA35)
- Loose, lined paper for final versions
- Materials for publishing stories
- (Optional) Computers for typing and printing final versions

**TEKS 11.E.1**  
Student/Teacher Narrative  
Step 1 (all, beginning on page  
322 and continuing on to  
page 323)

## SHARING AND REFLECTING

### 4 Share Revisions and Reflect

Have a few volunteers share passages they revised by reading the original and revised passages. As the students share, probe their thinking by asking:

- Q *[Anita], how do you think your revision improves your piece?*
- Q *What questions can we ask [Anita] about her revision?*

### In this lesson, the students:

- Finish writing and proofreading their second drafts
- Write their final versions and make them into books
- Share materials and equipment fairly
- Handle materials and equipment responsibly
- Act considerately toward others

## GETTING READY TO WRITE

### 1 Prepare to Publish Stories

Have the students remain at their desks. Explain that today they will finish writing and proofreading their second drafts and then begin writing their final versions and making them into books. Review any procedures you would like the students to follow to make their books (for example, how to handle art supplies, how to share computers, and where to place published stories for Author’s Chair sharing tomorrow).

Briefly discuss how the students will share materials and equipment fairly and act considerately toward one another as they work on their books. Ask questions such as:

- Q *What will you do today to take care of our book-making materials? Why is that important?*
- Q *If you want to use something that someone else is using, like the computer or the hole-punch, what can you do to share it fairly?*
- Q *If you’re using something that someone else wants to use, what can you do to share it fairly?*
- Q *What else can we do to act considerately toward one another as we publish our books today?*

Explain that you will check in with the students at the end of the lesson to see how they did sharing the materials fairly and acting considerately toward one another.

## WRITING TIME

### 2 Write Final Drafts and Confer in Pairs

Display the “Writing Time” chart (🗨️ WA35) and have the students write silently for 20–30 minutes.

#### Writing Time

- Finish proofreading your draft for spelling and correctness.
- Write your final version on loose, lined paper.
- Gather your final pages into a book with a cover (and include illustrations, if you wish).

WA35

Remind the students that you will signal after 10–15 minutes of silent writing to indicate that they may confer in pairs about their second drafts. Join them in writing for a few minutes; then confer with individual students.

#### TEACHER CONFERENCE NOTE

Continue to confer with individual students who seem to need extra support in preparing their second drafts for publication. Consider:

- What does this student need to work on to be ready to publish his story?

Discuss questions such as:

- Q *What are you working on right now?*
- Q *Do you have any long sentences that might be run-ons? Let's reread them and see whether they need to be divided into shorter sentences.*
- Q *What else do you need to do to be ready to write your final version?*

Document your observations for each student on a “Conference Notes: Focus 3” record sheet (CN3); see page 70 of the *Assessment Resource Book*.

After 10–15 minutes, signal to indicate that the students may confer in pairs; then signal to let the students know when Writing Time is over.

TEKS 11.E.i  
Student/Teacher Activity  
Step 2 (all)

# Day 5

## Publishing

### Materials

- “Notes About Fiction” chart from Week 5
- Loose, lined paper for final versions
- Materials for publishing books from Day 4
- “Class Assessment Record” sheet (CA13)
- A chair to use as the Author’s Chair
- Copy of this unit’s family letter (BLM1) for each student

### Teacher Note

If necessary, refer the students to the “Notes About Fiction” chart.

## SHARING AND REFLECTING

### 3 Reflect on Sharing Materials Fairly and Being Considerate

Gather the students and help them reflect on how they did sharing materials fairly and acting considerately toward one another by discussing:

- Q *What did you do today to use our materials fairly? What problems did you have? How can we avoid those problems next time?*
- Q *What other considerate behaviors did you notice today? How did those help our writing community?*

Explain that the students will begin sharing their published books from the Author’s Chair tomorrow.

### In this lesson, the students:

- Reflect on writing fiction
- Write their final versions and make them into books
- Present their books from the Author’s Chair
- Express interest in and appreciation for one another’s writing
- Ask one another questions about their writing

## GETTING READY TO WRITE

### 1 Reflect on Writing Fiction

Gather the class with partners sitting together, facing you. Remind the students that over the past six weeks, they learned about fiction and each took a piece of fiction through the writing process, from a first draft to a published book. Ask:

- Q *What have you learned about how to write a good fiction story?*

#### Students might say:

“I learned that a good fiction story has an interesting character.”

“I learned that if you describe the setting really well, it helps people imagine your story.”

“I learned about using punctuation to affect how my readers feel when they read my story.”

“I learned that you can use adjectives to make your story more interesting.”

Use “Think, Pair, Share” to have partners discuss each of the following questions. For each question, have a few volunteers share their thinking with the class.

- Q *What is one way your final story has turned out better than your first draft?* [pause] *Turn to your partner.*
- Q *What is one thing you are glad you learned about writing fiction?* [pause] *Turn to your partner.*
- Q *What did you find challenging about writing fiction?* [pause] *Turn to your partner.*

Remind the students that writers become better writers as they practice writing over and over. Encourage students who feel particularly drawn to fiction to continue to write fiction during their free time.

Explain that the students will continue to work on publishing their stories today and begin sharing their stories from the Author’s Chair.

## WRITING TIME

### 2 Write Independently and Confer in Pairs

Ask the students to return to their seats. Have them finish writing their final versions and making them into books. Remind them that you will signal after 10–15 minutes of silent writing that they may confer in pairs. Join them in writing for a few minutes; then walk around and observe.

### CLASS ASSESSMENT NOTE

Observe the students without intervening and ask yourself:

- Have most students had time to complete, or nearly complete, a fiction story for the class library?
- Have I conferred with every student twice during this unit?
- Which students would benefit from another conference with me to help them finish their stories?
- What evidence do I see that the students have learned something about character, plot, setting, and the other elements of fiction covered in this unit?
- Are the students bringing a relaxed, creative attitude to their writing?

Record your observations on the “Class Assessment Record” sheet (CA13); see page 66 of the *Assessment Resource Book*.

After 10–15 minutes, signal to indicate that the students may confer in pairs; then signal to let the students know when Writing Time is over.

### Facilitation Tip

Reflect on your experience over the past weeks with **pacing class discussions**. Do the pacing techniques feel comfortable and natural to you? Do you find yourself using them throughout the school day? What effect has your focus on pacing had on your students’ participation in discussions? We encourage you to continue to think about how to pace class discussions throughout the year.

## SHARING AND REFLECTING

### 3 Review Sharing Writing from the Author's Chair

Gather the class with partners sitting together, facing the Author's Chair. Explain that in the coming days the students will read their published stories aloud and hear and enjoy one another's stories.

Remind the students of the procedure you have established for presenting books from the Author's Chair. If necessary, review the procedures you established for Author's Chair sharing in Unit 2, Week 2 (see "Do Ahead" on page 95).

### 4 Review Speaking Clearly and Expressing Interest in One Another's Writing

Before asking a student to share from the Author's Chair today, discuss how the students will act, both as presenting authors and as members of the audience. Ask and discuss:

- Q *Why is it important to speak in a loud, clear voice when you're sharing your book with the class?*
- Q *If you're in the audience and you can't hear the author, how can you politely let him or her know?*
- Q *How will you let the author know that you're interested in his or her story? Why is it important to express interest in one another's writing?*

Encourage the students to be attentive audience members, and tell them that you will check in with them afterward to see how they did.

### 5 Conduct Author's Chair Sharing

Ask a student who has completed her story to read it aloud from the Author's Chair. At the end of the reading, facilitate a discussion using questions like the ones that follow, and give the author an opportunity to respond to the class's comments and questions.

- Q *What was interesting to you about [Janice's] story? Turn to your partner.*
- Q *What kind of character has [Janice] created? What clues did you hear that told you that?*
- Q *What did you hear in the story that was creative?*
- Q *What sensory details did you hear as you listened to the story? What did they make you imagine?*
- Q *What questions can we ask [Janis] about her story?*

Follow this same procedure to have other students share from the Author's Chair, as time permits.

## 6 Reflect on Audience Behavior During Author's Chair Sharing

Ask and briefly discuss questions such as:

- Q *What did we do well as an audience today? What might we want to work on the next time authors share their work?*
- Q *If you shared a book today, how did the audience make you feel? What did the audience members do that made you feel [relaxed/nervous/proud]?*

Assure the students that everyone will have a chance to share published stories from the Author's Chair in the coming days. After they are read aloud, the stories will be placed in the class library so the students can read them during independent reading time.

## EXTENSION

### Write Letters Home About Fiction

Provide letter-writing practice for the students by having them write a letter home about what they have learned about fiction writing. Stimulate their thinking by reviewing the "Notes About Fiction" chart and discussing questions such as:

- Q *What's special about fiction writing?*
- Q *What steps did you go through to develop and publish your own fiction story?*
- Q *What is one thing you're proud of about your published fiction story?*

If necessary, review the elements of a letter (date, salutation, body, closing, and signature) by modeling or writing a shared sample letter with the class. Have the students write and proofread their letters; then attach each student's letter to a copy of his own published story and send it home.

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of the Fiction unit. You will need to reassign partners before you start the next unit.
- Send home with each student the student's published piece and a copy of this unit's family letter (BLM1). Encourage the students to share their published pieces with their families. Remind the students to bring the pieces back to class after their families have read them so they can be placed in the class library.
- Save the students' published writing (or copies of it) to use for reflection and discussion in Unit 9.

### Teacher Note

For information on wrapping up this unit and conducting unit assessments, see "End-of-unit Considerations" on this page.

### Teacher Note

Make time in the coming weeks for the students to share their published fiction stories from the Author's Chair until everyone has had a chance to do so.

### Skill Practice Note

For practice with using commas in the dates, addresses, greetings, and closings of letters, see Lesson 28 in the *Skill Practice Teaching Guide*.

## Assessments

- Before continuing with the next unit, take this opportunity to assess individual students' writing from this unit. See "Completing the Individual Writing Assessment" (IA1) on page 72 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students' published writing home to share with their families, you might have each student analyze her writing using the "Student Self-assessment" record sheet (SA1) on page 71 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension "Introduce 'Student Self-assessment'" on page 114.
- (Optional) Prior to beginning the next unit, you might wish to prepare the students for the end-of-year standards-based writing performance task by teaching the Narrative Writing unit on page 1 of the *Writing Performance Task Preparation Guide*. For more information, see "Teaching the Units" on page vi of the preparation guide.

# Being a Writer™

SECOND EDITION

## The Collaborative Classroom

The Collaborative Classroom differs from traditional learning environments in that students and teachers work together on shared academic and social goals.

The Collaborative Classroom is an intentional environment in which collaboration goes beyond conventional cooperation and compliance. Students become caring members of a learning community who take responsibility for their own learning. As students think, talk, and share ideas, they come to value the thinking of others. They become thoughtful writers and engaged speakers and listeners. They discuss and debate big ideas with respect, clarity, and understanding.

## The Collaborative Classroom in *Being a Writer*

The *Being a Writer* program embodies the practices of the Collaborative Classroom.

Students of *Being a Writer* demonstrate:

- Deeper understanding of content
- Ownership of their own learning
- Intrinsic motivation to remain on task
- Improved self-esteem
- An increase in academic performance

*“As we practice collaboration, we are building community. It has changed our school climate and helped our students academically. They now have the language to work together differently and resolve problems quickly. We have reduced interruptions during academic instruction and don’t lose important learning time. We have increased student engagement, which ensures increased academic achievement and gains.”*

# Expository Nonfiction

During this six-week unit, the students immerse themselves in nonfiction texts about countries. Then partners select a country to research together. Each pair of students writes, revises, and publishes an informational report about that country. The students learn research skills, such as taking notes, categorizing information by subtopic, and conducting effective Internet searches. They learn about features of expository text, such as author biography sections and tables of contents. They write an introduction to their report that captures the reader's interest. Partners use facts and examples to add substance to their writing, transitional words and phrases to link ideas, and conclusions that bring a report to a close. The students practice relevant skills and conventions, such as correcting run-on sentences and fragments. Partners share resources fairly, make decisions together, and take responsibility for their own part of the work.

# Week 1

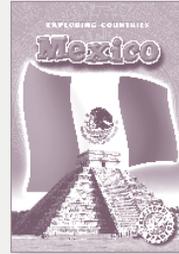

## OVERVIEW

### **Australia**

by Xavier Niz

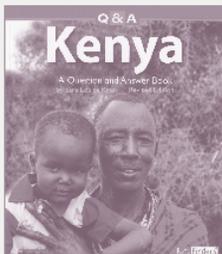

Learn interesting facts about the smallest continent in the world.

### **Mexico**

by Colleen Sexton

Learn fascinating facts about the United States' neighbor to the south.

### **Kenya: A Question and Answer Book**

by Sara Louise Kras

Kenya's geography, history, and culture are explored in a question-and-answer format.

### **A Visit to Italy**

by Rachael Bell

Interesting information about Italy is provided, including some Italian words and phrases.

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

### **Whiteboard Activities**

- WA1–WA3

### **Assessment Form**

- “Class Assessment Record” sheet (CA1)

### **Professional Development Media**

- “Cooperative Structures Overview” (AV9)
- “Using ‘Turn to Your Partner’” (AV11)
- “Using ‘Think, Pair, Share’” (AV13)
- “Introducing Vocabulary During a Read-aloud” (AV30)
- “Cultivating Curiosity in Expository Writing” (AV47)

## Writing Focus

- Students hear and discuss expository nonfiction.
- Students explore different ways to organize and present information in nonfiction.
- Students begin reading and writing about countries that interest them.
- Students cultivate curiosity about nonfiction topics.

## Social Development Focus

- Students act in fair and caring ways.
- Students make decisions and solve problems respectfully.

## DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding. Or, do a picture walk and have partners who speak the same primary language talk to each other in that language about what they see in the illustrations.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see “Random Pairing” on page xxix and “Considerations for Pairing ELLs” on page lii. For more information, view “Cooperative Structures Overview” (AV9).
- ✓ Prior to Day 3, collect nonfiction books, magazines, articles, and other written materials about different countries and their geography, people, culture, and so on. Select texts that are informational (expository) and that represent a variety of nonfiction styles.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA1) on page 84 of the *Assessment Resource Book*.

## TEACHER AS WRITER

*“Curiosity urges you on—the driving force.”*

— John Dos Passos

Nonfiction writers aren’t necessarily experts on the topics they write about, but they are curious and ask themselves questions, conduct research, and communicate what they learn in an interesting way.

In this unit, the students write about countries that interest them. List some things you are curious to know about other countries. Consider:

- What interests you about traveling to other countries?
- What is a country you have visited? What do you know about that country? What do you want to know?
- What is a country you have not visited? What would you do if you visited there?

## ⌚ DO AHEAD *(continued)*

- ✓ (Optional) Prior to Day 3, you might teach the following Technology Mini-lessons: Mini-lesson 1, “Navigating Safely Online”; Mini-lesson 2, “Maintaining Privacy Online”; and Mini-lesson 3, “Showing Respect Online,” in Appendix A to help the students learn how to participate safely in online communities. For more information, see “About Digital Citizenship Lessons” on page 690.

## In this lesson, the students:

- Work with new partners
- Hear and discuss expository nonfiction
- Explore how information is organized and presented
- List countries and topics that interest them

## ABOUT TEACHING NONFICTION WRITING

There are three phases to the Expository Nonfiction genre unit in grade 4: Immersion and Topic Exploration; Topic Selection, Research, and Drafting; and Revision, Proofreading, and Publication. During each two-week phase, the students learn interesting ways information can be organized and presented in nonfiction, while letting their curiosity lead their exploration of information about countries of the world.

In Weeks 1 and 2, the students read many nonfiction resources about countries and write short pieces about what they are learning. This prepares them to select, in pairs, one country of interest to research and write an informational report about. During Weeks 3 and 4, pairs of students research their chosen countries and begin drafting their informational nonfiction reports. The last two weeks of the unit are spent exploring nonfiction craft and conventions and integrating these as appropriate into their final drafts.

The structure of this unit can be used as a model when having students research, write, and publish on topics other than countries, including states, animals, nature topics, and other social studies or science topics.

## GETTING READY TO WRITE

### 1 Pair Students and Discuss Working Together

Randomly assign partners and make sure they know each other's names (see "Do Ahead" on page 337). Have the students bring their notebooks and pencils and gather with partners sitting together, facing you.

Explain that over the next six weeks partners will work together to explore writing nonfiction. They will hear and discuss nonfiction books and write about topics that interest them.

Have partners take a couple of minutes to talk about some of the things they have written so far this year. Signal for their attention and ask:

**Q** *What did you learn about the writing your partner has done this year?*

## Materials

- *Australia*
- *Everything Reptile* from Unit 1
- "Writing Time" chart (WA1)

## Teacher Note

The partners you assign today will stay together for the unit. If necessary, take a few minutes at the beginning of today's lesson to let them get to know each other better by talking informally in a relaxed atmosphere.

## Teacher Note

If you are teaching other programs from the Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the writing lessons.

### Teacher Note

If necessary, remind the students to use the discussion prompts to connect their ideas to those of others. The prompts are:

- “I agree with \_\_\_\_\_ because . . .”
- “I disagree with \_\_\_\_\_ because . . .”
- “In addition to what \_\_\_\_\_ said, I think . . .”

### Teacher Note

You might point out that Australia is both a continent and a country. Explain that the United States is a country on the North American continent, along with Mexico and Canada. Point out the North American continent and indicate the rough location of each of the three countries.

### Teacher Note

To review the procedure for defining vocabulary during the read-aloud, see Unit 1, Week 1, Day 1, Step 3 (page 8). For more information, view “Introducing Vocabulary During a Read-aloud” (AV30).

All of the read-aloud books in this unit feature glossaries. Glossaries are introduced on Day 2 of this week.

## 2 Introduce Nonfiction

Show the cover of *Everything Reptile* from Unit 1. Remind the students that they heard this example of nonfiction earlier in the year. Ask and briefly discuss:

**Q** *What do you know about nonfiction?*

#### Students might say:

“Nonfiction is real. It’s about true things.”

“I agree with [Elias] because you can learn facts from nonfiction.”

“It’s not a made-up story.”

“In addition to what [Wendy] said, I think it can be about science, like animals or planets.”

Point out that nonfiction writers write about real things that they are curious about. They write about these topics in a way that helps readers become curious about them as well. Explain that in the coming weeks the students will hear different examples of nonfiction to help them get ideas for their own nonfiction writing.

## 3 Read Parts of *Australia* Aloud

Show the cover of *Australia* and read the title and author’s name aloud. Show page 4 and identify Australia on the map; then ask and briefly discuss:

**Q** *What do you think you know about Australia? What would you like to know?*

Explain that you will read parts of the book aloud, and invite the students to think as they listen about what kinds of information the author gives in this book.

Read pages 5–9, 12–13, and 16–19 slowly and clearly, showing the photographs and pointing out features (such as maps, headings, captions, and the graph on page 16) as you read them. Clarify vocabulary as you read.

### Suggested Vocabulary

**equator:** imaginary line around the middle of Earth halfway between the North and South Poles (p. 5)

**climate:** usual weather in a place (p. 5)

**tropical:** hot and rainy (p. 7)

**marsupials:** animals that carry their young in pouches (p. 13)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**unique:** not like anything else (p. 5)

**coast:** land that is next to an ocean or a sea (p. 7)

**deserts:** very dry areas of land (p. 7)

**coral reef:** long line of hard material on the sea bottom (p. 13)

**population density:** how close together people live (p. 16)

**least populated continent:** continent with the fewest people (p. 17)

## 4 Discuss the Book

Ask:

**Q** *What are some things you learned about Australia from the parts I read? Turn to your partner.*

Have a few volunteers share what they learned.

Ask and briefly discuss:

**Q** *What else would you like to know about Australia?*

Show the table of contents and read some of the chapter headings aloud. Explain that interested students may read more chapters about Australia on their own later, if they wish.

## 5 Discuss Countries of Interest

Use “Think, Pair, Share” to discuss:

**Q** *What other country would you like to read about, and why? [pause] Turn to your partner.*

Have a few volunteers share their ideas with the class. As they report, follow up by asking:

**Q** *What do you want to know about the country you picked?*

Explain that during Writing Time today the students may make a list of countries that interest them, write things they would like to know about a country, or write about anything they choose. Make *Australia* available for the students to look at, if they wish.

## WRITING TIME

### 6 Write Independently

Have the students sit at desks with partners together. Display the “Writing Time” chart (WA1) and have them write for 20–30 minutes.

### Teacher Note

To review the procedure for “Turn to Your Partner,” see Unit 1, Week 1, Day 2 (page 11). To see an example, view “Using ‘Turn to Your Partner’ ” (AV11).

### Teacher Note

Remember to pause for 10 seconds for the students to think before you say “Turn to your partner.” To review the procedure for “Think, Pair, Share,” see Unit 1, Week 2, Day 1 (page 32). To see an example, view “Using ‘Think, Pair, Share’ ” (AV13).

### Teacher Note

Note that on Days 1 and 2 of the unit, the students may write nonfiction or anything else they choose. On Day 3, after exposure to a few more examples of nonfiction, they will all begin writing in this genre.

### Writing Time

- Write a list of countries that interest you.
- Write things you'd like to know about a country.
- Write about anything you choose.

If necessary, remind the students to double-space their writing. Also, review that during silent writing there should be no talking, whispering, or walking around. Join the students in writing for a few minutes; then walk around the room and observe them, assisting students as needed.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 7 Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. Encourage them to listen carefully, as they will be responsible for sharing what their partners wrote about with the class.

After a moment, signal for their attention and ask:

- Q *What did your partner write about today?*
- Q *What did you and your partner do to work well together when talking and sharing your writing?*

### ELL Note

You might provide the prompt “My partner wrote about . . .” to your English Language Learners to help them verbalize their answers to this question.

# Day 2

## Exploring Nonfiction

### Materials

- *Kenya: A Question and Answer Book*
- *Australia* from Day 1
- World map
- “Writing Time” chart (WA2)

### In this lesson, the students:

- Hear and discuss expository nonfiction
- Explore how information is organized and presented
- Quick-write questions they could ask about other countries
- Cultivate curiosity

### ABOUT CULTIVATING CURIOSITY AS A WRITER

Curiosity is an important quality for students to cultivate, both as readers and as budding writers of nonfiction. We want them to learn that they do not need to know everything about a topic before they start writing about it; it is enough to be curious about it and know how to go about finding information. Writing is

a process of discovering what we do not know, finding out about those things, and communicating about them in a way that informs and/or makes others curious, too.

This is a good time of year to schedule field trips to stimulate the students' curiosity about topics that they can then research back in the classroom. Consider taking the students to diverse neighborhoods or cultural events.

## GETTING READY TO WRITE

### 1 Discuss Curiosity

Have the students bring their notebooks and pencils and gather with partners sitting together, facing you. Review that yesterday the students began exploring nonfiction. They heard parts of the book *Australia* and thought about countries they are curious about. Ask and briefly discuss:

**Q** *Why might curiosity be an important quality for a writer to have?*

**Students might say:**

"It's good for writers to be curious so they can find out lots of interesting things and write about them."

"If writers aren't curious, they won't get interested in anything to write about."

Explain that writers do not need to know a lot about a topic when they begin writing about it, but they do need to be curious about it. By researching things they are curious about, they gather interesting information that they can share with others in their writing.

Explain that today the students will hear a nonfiction book that is also about a country but is written in a different style than *Australia*.

### 2 Read Aloud and Discuss Parts of *Kenya: A Question and Answer Book*

Show the cover of *Kenya: A Question and Answer Book* and read the title and author's name aloud. Tell the students that in this book, Sara Louise Kras writes some questions about a country called Kenya, and then answers these questions.

Locate Kenya on the classroom world map, and note that it is a country on the continent of Africa. Ask:

**Q** *What are you curious to know about this country? Turn to your partner.*

Have a few volunteers share what they would like to know.

Show the table of contents on page 3 and explain that it lists the questions that the author writes about. Read some of the questions aloud. Tell the students that the author includes some special features that give more information about Kenya. Read the list of features aloud.

#### Teacher Note

For more information about expository nonfiction, view "Cultivating Curiosity in Expository Writing" (AV47).

#### ELL Note

If necessary, define *curiosity* as "a wish to know more about something."

Show and read pages 4–5, pointing out the map and its legend. Explain the legend symbols, such as the star for the capital city, and locate those symbols on the map.

Read pages 6–7, 16–19, and 24–27 slowly and clearly, showing the photographs and pointing out features (such as headings, fact boxes, graphs, and captions) as you read them. Clarify vocabulary as you read.

### Suggested Vocabulary

**United Kingdom:** English-speaking country in Europe on an island near France (locate on a world map) (p. 6)

**ethnic:** having to do with a group of people who share a language, culture, and way of life (p. 24)

**livestock:** farm animals that are kept, raised, and used by people (p. 26)

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**merchants:** people who sell things (p. 24)

**herd cattle:** gather and move animals used for meat or milk (p. 24)

**crops:** plants that are grown and used by people (p. 26)

Show pages 28–32 and read the title and something on each page to acquaint the students with the features. (For example, on page 28 you might read the average temperatures in January and in July and compare these to the temperatures during those months where you live.) After you read the heading “Glossary” on page 30, explain that this is a list of words that the author defines for the reader. Point out that the words are listed in alphabetical order. Ask and briefly discuss:

**Q** *What is something you learned from this book about Kenya?*

**Q** *What is a question the author didn’t answer that you would like to know more about?*

Use “Think, Pair, Share” to discuss:

 **Q** *What are some different ways that the author provides information about Kenya in this book? [pause] Turn to your partner.*

Have volunteers share their thinking.

#### Students might say:

“She asks and answers questions.”

“She includes pictures with captions.”

“There are boxes with interesting facts.”

“I saw maps and graphs.”

### 3 Quick-write: Generating Questions About Countries

Have the students open their notebooks to the writing ideas section. Ask them to think quietly for a moment about the following questions:

Q *If you were going to write a question-and-answer book about another country, what country would you choose?*

Q *What questions could you write about?*

Have the students take 5 minutes to jot down their questions. Then have them discuss their questions in pairs.

Signal for the students' attention and give them a few minutes to write any additional questions they thought of while they were talking. Have a few volunteers share some of their questions with the class.

Explain that during Writing Time today the students may add to their lists of questions, add to the lists of countries that they started yesterday, write something they know about a country, or write about anything they choose. Make *Kenya: A Question and Answer Book* available for the students to look at, if they wish.

## WRITING TIME

### 4 Write Independently

Ask the students to return to their seats with partners sitting together. Display the "Writing Time" chart (WA2) and have them write silently for 20–30 minutes.

#### Writing Time

- Add to the list of questions you started in the quick-write.
- Add to the list of countries that you started yesterday.
- Write something you know about a country.
- Write about anything you choose.

WA2

Join the students in writing for a few minutes; then walk around the room and observe them, assisting students as needed.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Share Writing and Reflect on Curiosity

Ask partners to talk briefly about what they wrote about today. Ask them to be ready to share with the class what their partners wrote about.

#### ELL Note

If necessary, simplify these questions by rephrasing them in the following way:

Q *What country do you want to know more about?*

Q *What do you want to know about that country? How can you write that as a question?*

#### Teacher Note

If you notice that students are experiencing difficulty writing questions, stop and have a few students share the questions they have written and/or suggest a few of your own. Then have the students resume writing for a few more minutes.

After a moment, signal for their attention and ask:

Q *What did your partner write about today?*

Q *What did your partner write that you are curious to know more about?*

Have a few volunteers share with the class.

# Day 3

## Exploring Nonfiction

### Materials

- *Mexico*
- *Kenya: A Question and Answer Book* from Day 2
- *Australia* from Day 1
- World map
- Chart paper and a marker
- Expository nonfiction books, magazine articles, and other written materials about a variety of countries, collected ahead
- “Writing Time” chart (WA3)
- “Class Assessment Record” sheet (CA1)

### In this lesson, the students:

- Hear, read, and discuss expository nonfiction about countries
- Explore how information is organized and presented
- Write about what they learned and what they are curious about
- Share materials fairly
- Discuss and solve problems that arise in their work together

## GETTING READY TO WRITE

### 1 Briefly Review

Gather the class with partners sitting together, facing you. Review that the students heard parts of two nonfiction texts this week. In *Australia*, the author used pictures and text to tell facts about the country. The author of *Kenya: A Question and Answer Book* used questions and answers to organize information.

Explain that today the students will hear a book about another country. Invite them to think about how this book presents information in a way that is similar to or different from the other two books.

### 2 Read Aloud and Discuss Parts of *Mexico*

Show the front cover of *Mexico* and read the title aloud. Show the photograph of the author on the back cover and read her name aloud. Then show and read the table of contents on page 3. After you read the “Glossary” heading, show page 30 and review that a glossary is a list of words that the author defines for the reader. Remind the students that glossaries list words in alphabetical order. Return to the table of contents and read the remaining headings aloud. After you read the

“Index” heading, show page 32 and read a few items in the index. Ask and briefly discuss:

**Q** *Why might it be helpful to a reader to have an index in a book?*

Explain that you will read a few of the chapters aloud and that you will use the glossary to define words as you read. Read pages 4–6, 10–13, and 22–25 aloud slowly and clearly, showing the photographs and pointing out features (such as headings, captions, maps, the chart on page 13, and the “fun fact” and “Did you know?” features) as you read them. Define each word in bold as you read by turning to the glossary on page 30 and showing and reading the definition.

Ask and briefly discuss:

**Q** *What were you surprised to learn about Mexico?*

**Q** *How is this book similar to Kenya: A Question and Answer Book? How is it different?*

Show the table of contents on page 3 again and ask:

**Q** *How did Colleen Sexton organize information about Mexico?*

**Students might say:**

“I was surprised to learn that there are so many wild animals in Mexico.”

“All the chapter titles in the book about Kenya are questions. In this book, only the first chapter title is a question.”

“The book about Kenya has boxes titled ‘Fact!’ that give extra information. The book about Mexico has boxes, too, but they’re titled ‘fun fact.’”

“Colleen Sexton thought of different kinds of information to include, like information about Mexico’s land and wild animals. She wrote a chapter about each kind of information.”

As the students report ideas, record them on a piece of chart paper titled “Ways to Present Nonfiction Information.”

### **3** Discuss Nonfiction Resources

Explain that the students have now heard three books about countries and that they will have a chance to learn and write about other countries as well. Later in this unit, each pair of students will select a country to research in detail, write about it, and share their writing with the class. To prepare, they will spend the rest of this week and next week exploring different countries they are curious about.

Emphasize that the students should not become attached to any particular country at this point; the goal for the next week is to explore many different countries rather than any one country in depth.

#### **Teacher Note**

Save the “Ways to Present Nonfiction Information” chart to use on Day 4 and throughout the unit.

## Teacher Note

Some options for distributing the nonfiction books and materials are:

- While the class is still gathered, read the titles of some of the books aloud and hand books to the students who show interest in those topics.
- Lay the materials out on a table and call table groups to come and browse.
- Expand the nonfiction area of the class library and invite the students to browse and help themselves.
- Place a selection of materials in several baskets and rotate the baskets among table groups over the coming days.

## ELL Note

Consider finding resources about countries written in your students' primary languages.

## Teacher Note

Note that the Writing Time is shortened for a few days to accommodate the reading of nonfiction texts.

Direct the students' attention to the nonfiction books and materials you have collected. Explain that they may explore these resources as well as any others they might find (for example, at the library or on the Internet) about countries that interest them. Explain that the students will need to share these resources over the coming weeks, and ask:

- Q *What will we need to do to share these books and materials fairly?*
- Q *If someone is reading a book you want to look at, what can you do?*
- Q *If you are reading a book someone else is interested in, what can you do to share it fairly?*

Encourage the students to try the methods they suggested for sharing the materials fairly. Tell them you will check in with them at the end of the lesson to see how they did.

Explain how you will distribute the materials, and then have partners sit together at desks.

## WRITING TIME

### 4 Read Nonfiction Texts About Countries

Have the students spend 15–20 minutes browsing the nonfiction materials and reading about countries they are curious about. Interested students might visit the school library or search online during this period. Be ready to assist the students with finding information about countries and topics that interest them.

### 5 Write About Nonfiction Reading

Call for the students' attention and have them close their books and other materials. Use “Think, Pair, Share” to discuss:

- Q *What did you find out from your reading today, and what are you curious about?* [pause] *Turn to your partner.*

After partners have shared, have a few volunteers share their thinking with the class.

#### Students might say:

“I read about Japan. I found out that warriors in ancient times were called *samurai*. I'm curious to know what the samurai were like.”

“I read about Argentina. I found out that December is summer and June is winter in Argentina. I want to know what it's like to have New Year's Eve in the summer.”

Have the students open their notebooks to the next blank page. Display the “Writing Time” chart (WA3) and have them write silently for 5–10 minutes.

### Writing Time

- Write one or two interesting things you found out about a country.
- Write one or two things you are curious to know.
- Add any new topics that interest you in your writing ideas section.

As the students write, walk around and observe them, assisting students as needed.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to write about things they have learned or are curious about?

If you notice many students struggling to write, call for their attention and model writing as a class. Call on a volunteer to report what she read about, interesting things she learned, and things she is curious about. Record this information where everyone can see it. After modeling, have the students resume writing on their own for a few more minutes.

Record your observations on the “Class Assessment Record” sheet (CA1); see page 84 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over. Explain that they will continue to explore countries tomorrow.

Ask the students to return the nonfiction materials they read today so others can read them tomorrow. Remind them not to become attached to any particular book or country at this point; they will explore many different countries before choosing one to explore in depth.

## SHARING AND REFLECTING

### 6 Reflect on Sharing Materials Fairly

Ask and briefly discuss:

- Q *What did you do to share the books and materials fairly today?*
- Q *What problems did you have sharing the materials? What can we do tomorrow to avoid those problems?*

### Teacher Note

Keep the collection of expository nonfiction texts available for the students' use throughout this unit.

#### Students might say:

"I was waiting to look at the book about China, but the person who was reading it gave it to someone else when she was done."

"Maybe we could put a self-stick note on the front of the book with the names of the people who want to look at it."

"I agree with [Ron]. Then we can just pass the book to the next person on the list."

"In addition to what [Ron and Darlene] said, I think we should try not to take too long with a book if we know other people want to see it."

Explain that you will remind the students about their proposed solutions before they browse nonfiction books again tomorrow.

# Day 4

## Exploring Nonfiction

### Materials

- *A Visit to Italy*
- *Mexico* from Day 3
- World map
- "Ways to Present Nonfiction Information" chart from Day 3
- Chart paper and a marker
- Collected nonfiction texts
- "Writing Time" chart (WA3) from Day 3

### In this lesson, the students:

- Hear, read, and discuss expository nonfiction
- Explore how information is organized and presented
- Write about what they learned and what they are curious about
- Share materials fairly
- Assess how a solution is working and modify it, if necessary

## GETTING READY TO WRITE

### 1 Briefly Review

Gather the class with partners sitting together, facing you. Show the cover and table of contents of *Mexico*. Ask:

**Q** *What do you remember about the book Mexico?*

**Q** *How is the information organized and presented in this book?*

If necessary, remind the students that information in *Mexico* is organized into chapters by topic.

Explain that the students will hear another nonfiction book organized by topic today. Encourage them to think as they listen about what the topics are.

## 2 Read Aloud and Discuss the First Half of *A Visit to Italy*

Show the cover of *A Visit to Italy* and read the title aloud. Locate Italy on a world map and point out that it is a country on the continent of Europe. Show and read aloud the table of contents on page 3 and ask:

**Q** *What are some things we might learn from this book?*

Read the sentence under the table of contents, and then show the glossary on page 31. Explain that you will use the glossary to define words as you read the first half of the book aloud.

Read pages 4–17 aloud slowly and clearly, showing the photographs and pointing out features (such as headings and captions) as you read them. Define the words in bold type as you read by turning to the glossary on page 31 and showing and reading the definitions.

Ask and briefly discuss:

**Q** *What is something you learned about Italy from this book?*

**Q** *How is this book similar to the book Mexico? How is it different?*

**Q** (Show the table of contents on page 3.) *How did the author organize information about Italy?*

As the students report ideas, add them to the “Ways to Present Nonfiction Information” chart.

### Students might say:

“I learned that Italy is shaped like a boot.”

“Both books have lots of photos and captions.”

“Both have some of the same sections at the back of the book, like a glossary, an index, and a list of interesting facts.”

“Almost all of the chapter titles in *A Visit to Italy* are one word. Some of the chapter titles in the book about Mexico tell a little more, like ‘Going to School’ and ‘A Land of Contrasts.’”

Explain that you will read aloud the rest of the book tomorrow.

## 3 Brainstorm Topics

Point out that *A Visit to Italy* is organized by topics, such as homes, food, and clothes. Use “Think, Pair, Share” to discuss:

**Q** *If we were going to write a book like A Visit to Italy called A Visit to Our Country, what topics might we write about? [pause] Turn to your partner.*

After a moment, ask volunteers to report their suggestions and record them on a sheet of chart paper titled “A Visit to Our Country.”

## A Visit to Our Country

Where You'll Find Us

Our History

Our Food

Our Fashions

### Teacher Note

Save the “A Visit to Our Country” chart to use on Day 5.

Explain that during Writing Time today the students will continue to explore information about countries they are curious about. Encourage them, as they read, to notice how information is organized by topic. Remind them of your expectations regarding the handling of collected materials, and remind them of any solutions they proposed yesterday for sharing the materials more fairly. Tell them you will check in with them later to see how they did. Have partners sit together at desks.

## WRITING TIME

### 4 Read Nonfiction Texts About Countries

Have the students spend 15–20 minutes browsing the nonfiction materials and reading about countries they are curious about. Interested students might visit the school library or search online. Be ready to assist the students with thinking about countries and topics and finding information about them.

### 5 Write About Nonfiction Reading

Call for the students’ attention and have them close their books and other materials. Ask and briefly discuss:

**Q** *When reading today, what did you notice about how the information is organized?*

**Q** *What did you find out from your reading, and what are you curious to know more about? [pause] Turn to your partner.*

Have the students open their notebooks to the next blank page. Display the “Writing Time” chart (WA3) and have the students work silently on the charted tasks for 5–10 minutes.

### Teacher Note

As the students work, ask individuals what they notice about how information is organized in the sources they are reading.

### Writing Time

- Write one or two interesting things you found out about a country.
- Write one or two things you are curious to know.
- Add any new topics that interest you in your writing ideas section.

As the students write, walk around and observe them, assisting students as needed. Signal to let the students know when Writing Time is over.

Ask the students to return the nonfiction materials they read today so others can read them tomorrow.

## SHARING AND REFLECTING

### 6 Reflect on Writing and Sharing Materials Fairly

Invite interested students to read aloud what they wrote today in their notebooks. Ask and briefly discuss questions such as:

- Q *What did you hear your classmates share that makes you curious?*
- Q *What did you do to share the materials fairly today? How did that work?*
- Q *What problems, if any, are we still having with sharing materials fairly? What else can we do to avoid those problems next time?*

### Materials

- *A Visit to Italy* from Day 4
- “A Visit to Our Country” chart from Day 4 and a marker
- Collected nonfiction texts
- “Writing Time” chart (WA3) from Day 4

### In this lesson, the students:

- Hear, read, and discuss expository nonfiction
- Explore how information is organized and presented
- Write about what they learned and what they are curious about
- Share materials fairly
- Assess how a solution is working and modify it if necessary

## GETTING READY TO WRITE

### 1 Gather and Briefly Review

Gather the class with partners sitting together, facing you. Show the cover and table of contents of *A Visit to Italy*. Ask:

Q *What do you remember about A Visit to Italy?*

Q *How is the information organized and presented in A Visit to Italy?*

If necessary, remind the students that information in *A Visit to Italy* is organized into chapters by topic.

Explain that the students will hear the second half of *A Visit to Italy* today. Encourage them to pay attention to what the topics are as they listen.

### 2 Read Aloud and Discuss the Second Half of *A Visit to Italy*

Show the glossary on page 31 and explain that you will use the glossary to define words as you read the second half of the book aloud.

Read pages 18–29 aloud slowly and clearly, showing the photographs and pointing out features (such as headings and captions) as you read them. Clarify vocabulary in bold as you read by turning to the glossary on page 31 and showing and reading the definition.

Ask and briefly discuss:

Q *What is something you learned about Italy from the second half of this book?*

### 3 Brainstorm Topics

Remind the students that *A Visit to Italy* is organized by topics, such as language, school, and free time. Direct the students’ attention to the “A Visit to Our Country” chart and read aloud the topics listed on it. Use “Think, Pair, Share” to discuss:

Q *If we were going to write a book called A Visit to Our Country, what other topics might we write about? [pause] Turn to your partner.*

After a moment, ask volunteers to report their suggestions and add them to the chart.

Explain that during Writing Time today the students will continue to explore information about countries they are curious about. Encourage them, as they read, to notice how information is organized by topic. Remind them of your expectations regarding the handling of collected materials, and remind them of any solutions they proposed yesterday for sharing the materials more fairly. Tell them that you will check in with them later to see how they did.

Have the students get their notebooks and pencils and sit at desks with partners together. Make *A Visit to Italy* available for the students to look at, if they wish.

## WRITING TIME

### 4 Read Nonfiction Texts About Countries

Have the students spend 15–20 minutes browsing the nonfiction materials and reading about countries they are curious about. Interested students might visit the school library or search online. Be ready to assist the students in thinking about countries and topics and finding information about them.

### 5 Write About Nonfiction Reading

Call for the students' attention and have them close their books and other materials. Ask and briefly discuss:

Q *When reading today, what did you notice about how the information is organized?*

Q *What did you find out from your reading, and what are you curious to know more about?* [pause] *Turn to your partner.*

#### Teacher Note

As the students work, ask individuals what they notice about how information is organized in the sources they are reading.

Have the students open their notebooks to the next blank page. Display the “Writing Time” chart (C WA3) and have the students work silently on the charted tasks for 5–10 minutes.

WA3

### Writing Time

- Write one or two interesting things you found out about a country.
- Write one or two things you are curious to know.
- Add any new topics that interest you in your writing ideas section.

As the students write, walk around and observe them, assisting students as needed. Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Reflect on Writing and Sharing Materials Fairly

Invite interested students to read aloud what they wrote in their notebooks today. Ask and briefly discuss questions such as:

- Q *What did you do to share the materials fairly today? How did that work?*
- Q *What problems, if any, are we still having with sharing materials fairly? What else can we do to avoid those problems next time?*

Explain that next week the students will continue to explore other countries they are curious about. Later in this unit, each pair of students will select a country to research in detail and then write about it and share their writing with the class.

# Week 2

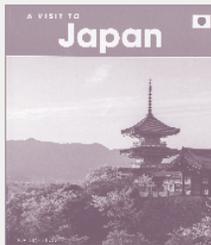

## OVERVIEW

### ***The Ultimate Fact Book***

by Andrew Wojtanik

Written by an eighth-grader, this book gives facts about all the countries of the world.

### ***A Visit to Japan***

by Peter and Connie Roop

Japan's language, history, people, and culture are explored.

## Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

### **Whiteboard Activity**

- WA3

### **Assessment Forms**

- “Class Assessment Record” sheets (CA2–CA3)

### **Professional Development Media**

- “Asking Facilitative Questions” (AV22)
- “Adapting Lessons for English Language Learners” (AV32)

## Writing Focus

- Students hear and discuss expository nonfiction.
- Students think about different ways to organize and present information in nonfiction.
- Students read and write about countries that interest them.
- Students cultivate and express curiosity.

## Social Development Focus

- Students act in fair and caring ways.
- Students make decisions and solve problems respectfully.
- Students express interest in and appreciation for one another's writing.

## DO AHEAD

- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2) on page 85 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, collect globes, atlases, and maps to help the students identify countries they might wish to research and write about.
- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA3) on page 86 of the *Assessment Resource Book*.

## TEACHER AS WRITER

*“Writing is like exploring. . . . As an explorer makes maps of the country he has explored, so a writer’s works are maps of the country he has explored.”*

— Lawrence Osgood

Choose one of the topics you listed last week and write that topic at the top of a blank page in your notebook. Then write five questions you have about that topic and five places you could go to look for answers. For example, you might write:

### The Netherlands

- What languages are spoken there?
- What are the major industries?
- How is the country governed?
- What famous people come from there?
- What will I want to see and do if I visit?

Places to look for answers might include a world atlas, library books, the Internet, a globe, and travel books.

# Day 1

## Exploring Nonfiction

### Materials

- *The Ultimate Fact Book*
- Collected nonfiction texts from Week 1
- “Writing Time” chart (WA3) from Week 1
- “Ways to Present Nonfiction Information” chart from Week 1

### In this lesson, the students:

- Hear, read, and discuss expository nonfiction
- Write about what they learned and what they are curious about
- Share materials fairly

## GETTING READY TO WRITE

### 1 Briefly Review Nonfiction

Gather the class with partners sitting together, facing you. Remind the students that last week they began exploring nonfiction writing, or writing that gives true information about real things. Explain that they will continue to hear, read, and discuss nonfiction this week in preparation for selecting a country to research and write about next week.

### 2 Read Aloud Parts of *The Ultimate Fact Book* and Discuss

Show the cover of *The Ultimate Fact Book* and read the title and author’s name aloud. Explain that the author, who is an adult now, wrote this book when he was in middle school and preparing for a national contest. Read page 9 aloud, stopping after “For example, you won’t find rain forests listed for Iceland.” Clarify vocabulary as you read.

### Suggested Vocabulary

**geography:** the study of Earth and its physical features

**independent:** not ruled by another country

**physical:** having to do with the land

**political:** having to do with the government and people

**environmental/economic:** having to do with the climate, natural resources, and how people in the country make money

Show pages 19 and 20 and explain that the author organized the information about Afghanistan by first listing some basic facts about the country and then providing information in three categories—physical, political, and environmental/economic. Read the basic information and a fact or two in each category aloud. Point out that a map of the country is also provided.

Ask and briefly discuss the questions that follow. Be ready to reread from the book to help the students recall what they heard.

**Q** *What facts did you hear about Afghanistan?*

**Q** *What are you curious to know about Afghanistan?*

Repeat this process with Zimbabwe on pages 376–377 of the book.

Explain that during Writing Time today the students will continue to explore information about countries that they are curious about. Remind them of your expectations regarding the handling of collected materials. Have partners get their notebooks and pencils and sit together at desks. Make *The Ultimate Fact Book* available for the students to look at on their own, if they wish.

## WRITING TIME

### 3 Read Nonfiction Texts About Countries

Have the students spend 15–20 minutes browsing the nonfiction materials and reading about countries they are curious about.

Interested students might visit the school library or search online during this period. Be ready to assist the students in finding information about countries that interest them.

### 4 Write About Nonfiction Reading

Call for the students' attention and have them close their books and other materials. Ask and briefly discuss:

**Q** *When reading today, what did you notice about how the information you looked at is organized?*

**Q** *What did you find out from your reading today, and what are you curious about? [pause] Turn to your partner.*

After partners have shared, have a few volunteers share their thinking with the class.

Have the students open their notebooks to the next blank page. Display the “Writing Time” chart (WA3) and have the students work silently on the charted tasks for 5–10 minutes.

#### Writing Time

- Write one or two interesting things you found out about a country.
- Write one or two things you are curious to know.
- Add any new topics that interest you in your writing ideas section.

WA3

As the students write, walk around and observe them, assisting students as needed. Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Nonfiction

Ask and briefly discuss questions such as:

- Q *You've had a chance so far to hear and read several nonfiction texts. What have you learned about nonfiction?*
- Q *What are some different ways that you've noticed authors organize and present nonfiction information?*

As volunteers share ways authors communicate nonfiction, add any methods not yet listed to the “Ways to Present Nonfiction Information” chart.

Invite interested students to read aloud what they wrote in their notebooks today.

---

## EXTENSION

### Read More About Andrew Wojtanik

The students may be interested to know more about the young author of *The Ultimate Fact Book*. Read and discuss the “Note from the Author” on pages 7–8. Be ready to clarify vocabulary, if needed.

# Day 2

## Exploring Nonfiction

### Materials

- *A Visit to Japan*
- World map
- Collected nonfiction texts
- Chart paper and a marker
- “Writing Time” chart (WA3) from Day 1

### In this lesson, the students:

- Hear, read, and discuss expository nonfiction
- Quick-write about things they want to know about countries
- Write about what they learned and what they are curious about

## GETTING READY TO WRITE

### 1 Discuss Curiosity

Have the students bring their notebooks and pencils and gather with partners sitting together, facing you. Explain that it is important for nonfiction writers to be curious about many things and that learning

a little bit about a topic can often lead to greater curiosity about it. Remind the students that they have let their curiosity guide their exploration of nonfiction about countries. Ask them to review their writing from the past few days and think about what they have learned and what they would like to know more about.

After a few minutes, call for the students' attention and explain that today you will read a book about Japan. Ask:

**Q** *What are some things you are curious to know about Japan? Turn to your partner.*

Have a few volunteers share what they would like to know with the class. Invite the students to notice if the parts of the book you read provide information about some of the things they want to know about Japan and to think about what else they would like to know.

## **2** Read Aloud and Discuss Parts of *A Visit to Japan*

Show the cover of *A Visit to Japan* and read the title and the authors' names aloud. Show the table of contents on page 3 and read the topics aloud. Point out that the authors have included some special features at the end of the book. Read the titles of these special features aloud.

Read pages 4–5 and discuss the map on page 4. Locate Japan on your classroom world map and explain that even though Japan is made up of islands, it is considered part of the continent of Asia.

Show the table of contents again and invite the students to suggest a chapter for you to read aloud. Read aloud the chapter, showing the photographs and pointing out features (such as headings and captions) as you read them. Define words in bold type as you read by using the glossary on page 31 of the book. Follow the same procedure to read a few more chapters, stopping after you have read about a third of the items listed in the table of contents.

Ask and briefly discuss:

**Q** *What did you learn about Japan that you were curious about?*

**Q** *What questions did this book raise for you?*

## **3** Quick-write: What I Want to Know About a Country

Ask the students to think quietly to themselves for a minute or two about the following question:

**Q** *If you found out that you were taking a trip to another country—someplace you've never been—what would you want to know about that country?*

Have the students turn to the next blank page in their notebooks, title it “What I Want to Know About a Country,” and list some things they would like to know.

After about 5 minutes, call for the students' attention and ask partners to share their lists with each other. After the partners have talked, ask a few volunteers to share some of the topics on their lists with the class. As they report, record their ideas on a sheet of chart paper titled "Things We Want to Know About Countries."

## Things We Want to Know About Countries

Where is it?

What language do the people speak?

What do they eat?

What holidays do they have?

Explain that during Writing Time the students may continue to browse the nonfiction materials and read about countries that interest them. Invite them to look for information about any of the topics or questions listed on the chart. Remind them of your expectations regarding the handling of collected materials, and have partners sit together at desks. Make *A Visit to Japan* available for the students to look at on their own, if they wish.

## WRITING TIME

### 4 Read Nonfiction Texts About Countries

Have the students spend 15–20 minutes browsing the nonfiction materials and reading about countries they are curious about. Interested students might visit the school library or search online during this period. Be ready to assist the students in finding information about countries that interest them.

### 5 Write About Nonfiction Reading

Call for the students' attention and have them close their books and other materials. Use "Think, Pair, Share" to discuss:

**Q** *What did you find out from your reading today, and what are you curious about?* [pause] *Turn to your partner.*

After partners have shared, have a few volunteers share their thinking with the class.

Have the students open their notebooks to the next blank page. Display the “Writing Time” chart (WA3) and have the students work silently on the charted tasks for 5–10 minutes.

### Writing Time

- Write one or two interesting things you found out about a country.
- Write one or two things you are curious to know.
- Add any new topics that interest you in your writing ideas section.

WA3

As the students write, walk around and observe them, assisting students as needed. Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Reflect on Writing

Ask and briefly discuss:

- Q *What is a topic that you explored? What did you find out?*
- Q *What else would you like to add to our “Things We Want to Know About Countries” chart?*

As the students suggest topics, add them to the chart.

### Teacher Note

Save the “Things We Want to Know About Countries” chart to use on Day 3 and throughout the unit.

## Exploring Nonfiction

## Day 3

### In this lesson, the students:

- Hear, read, and discuss expository nonfiction
- Quick-write about things they want to know about countries
- Write about what they learned and what they are curious about
- Share materials fairly

## GETTING READY TO WRITE

### 1 Briefly Review *A Visit to Japan*

Have the students bring their notebooks and pencils and gather with partners sitting together, facing you. Remind the students that they

### Materials

- *A Visit to Japan* from Day 2
- Collected nonfiction texts
- “Things We Want to Know About Countries” chart from Day 2 and a marker
- “Writing Time” chart (WA3) from Day 2
- “Class Assessment Record” sheet (CA2)

have been letting their curiosity guide their exploration of nonfiction about countries. Review that yesterday they heard a few chapters from the book *A Visit to Japan*. Ask and briefly discuss the questions that follow. Be ready to reread from the book to help the students recall what they heard.

**Q** *What are some things you learned about Japan? Turn to your partner.*

**Q** *What else are you curious to know about Japan?*

Invite the students to notice if the parts of the book you read today provide information about some of the things they want to know about Japan and to think about what else they would like to know.

## **2** Read Aloud and Discuss Parts of *A Visit to Japan*

Show the table of contents again and invite the students to suggest a chapter for you to read aloud. Read aloud the chapter, showing the photographs and pointing out features (such as headings and captions) as you read them. Define words in bold by using the glossary on page 31 of the book. Ask and briefly discuss:

**Q** *What else did you learn about Japan that you were curious about?*

**Q** *What questions did this book raise for you?*

## **3** Quick-write: What I Want to Know About a Country

Remind the students that yesterday they did a quick-write about a country they have never been to. Ask the students to think quietly to themselves for a minute or two about another country they have never been to. Then ask:

**Q** *If you found out that you were taking a trip to another country you have never visited, what would you want to know about that country?*

Have the students turn to the next blank page in their notebooks, title it “What I Want to Know About a Different Country,” and list some things they would like to know.

After about 5 minutes, call for the students’ attention and ask partners to share their lists with each other. After the partners have talked, ask a few volunteers to share some of the topics on their lists with the class. As they report, record their ideas on the “Things We Want to Know About Countries” chart.

## Things We Want to Know About Countries

Where is it?

What language do the people speak?

What do they eat?

### Writing Time

- Write one or two interesting things you found out about a country.
- Write one or two things you are curious to know.
- Add any new topics that interest you in your writing ideas section.

As the students write, walk around and observe them, assisting students as needed.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to write information they have learned about other countries?

If you notice students struggling to write, call for the class’s attention and ask a few volunteers to read what they have written so far aloud. Then have the students resume writing on their own for a few more minutes.

Record your observations on the “Class Assessment Record” sheet (CA2); see page 85 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Reflect on Writing

Ask and briefly discuss:

- Q *What is a topic that you explored? What did you find out?*
- Q *What else would you like to add to our “Things We Want to Know About Countries” chart?*

As the students suggest topics, add them to the chart.

**In this lesson, the students:**

- Hear, read, and discuss expository nonfiction
- Write about what they learned and what they are curious about
- Share materials fairly

**GETTING READY TO WRITE****1** Revisit *The Ultimate Fact Book*

Gather the class with partners sitting together, facing you. Show the cover of *The Ultimate Fact Book* and remind the students that they heard some facts about two countries, Afghanistan and Zimbabwe, from this book earlier in the week. Explain that you will read facts about a few more countries today.

Direct the students' attention to the classroom world map and ask:

**Q** *What country shall we read about?*

Use the students' suggestions to read select facts about several countries that interest them. For each country, read the basic information and a fact or two in each category—physical, political, and environmental/economic—and then discuss:

**Q** *What facts did you hear about [Brazil]?*

**Q** *What are you curious to know about [Brazil]?*

Explain that during Writing Time the students may continue to browse the nonfiction materials and read about countries they are interested in. Remind them of your expectations regarding the handling of collected materials. Have the students get their notebooks and pencils and sit at desks with partners together. Make *The Ultimate Fact Book* available for the students to look at on their own, if they wish.

**WRITING TIME****2** Read Nonfiction Texts About Countries

Have the students spend 15–20 minutes browsing the nonfiction materials and reading about countries they are curious about. Interested students might visit the school library or search the Internet during this period. Be ready to assist the students in finding information about countries that interest them.

**Materials**

- *The Ultimate Fact Book* from Day 1
- World map
- Collected nonfiction texts
- “Things We Want to Know About Countries” chart from Day 3 and a marker
- “Writing Time” chart (WA3) from Day 3

### 3 Write About Nonfiction Reading

Call for the students' attention and have them close their books and other materials. Use "Think, Pair, Share" to discuss:

Q *What did you find out from your reading today, and what are you curious about?* [pause] *Turn to your partner.*

Q *What else would you like to add to our "Things We Want to Know About Countries" chart?*

After partners have shared, have a few volunteers share their thinking with the class. As they report, record their ideas on the "Things We Want to Know About Countries" chart.

Have the students open their notebooks to the next blank page. Display the "Writing Time" chart (WA3) and have the students work silently on the charted tasks for 5–10 minutes.

WA3

#### Writing Time

- Write one or two interesting things you found out about a country.
- Write one or two things you are curious to know.
- Add any new topics that interest you in your writing ideas section.

As the students write, walk around and observe them, assisting students as needed. Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Reflect on Writing

Invite interested students to read aloud what they wrote today in their notebooks. As the students share, discuss as a class questions such as:

Q *What can we ask [Jamal] about what he wrote?*

Q *What did you hear that makes you curious to learn more?*

#### ELL Note

Tomorrow partners will begin working on a joint nonfiction report about a country they agree to research.

If you have beginning English speakers, consider having each of them join an existing pair of fluent English speakers for this project. While you will need to provide support to trios to make sure pairs are integrating the third student and that they are sharing the work fairly, the benefit to ELLs of having two fluent English speakers to interact with and listen to will make this additional support worthwhile.

To learn more, view "Adapting Lessons for English Language Learners" (AV32).

## In this lesson, the students:

- Identify and list countries they are curious about in pairs
- Narrow their lists
- Reach agreement before making decisions
- Make fair decisions

## GETTING READY TO WRITE

### 1 Review Writing from the Past Two Weeks

Have the students get their notebooks and pencils and sit at desks with partners together. Explain that to get ready to write their nonfiction reports, each pair of students will list the countries they have explored up until now, identify any other countries that interest them, and narrow their list.

Have the students spend a few moments quietly rereading the writing in their own notebooks and circling any country names they have written.

### 2 Make a Joint List of Countries

After a few moments, call for the students' attention and explain that part of the writing process is to have choices of topics they might write about. Today partners will develop a joint list of countries they have read and written about so far. Provide each pair with a sheet of lined paper and have partners write their names on it.

Give partners a few minutes to make a joint list of all of the countries they have written about so far.

### 3 Identify Other Countries of Interest

When most pairs of students have completed their lists, call for their attention and ask:

**Q** *Did you and your partner read and write about any of the same countries? Which ones?*

**Q** *Which countries on your list are both of you curious about? Turn to your partner.*

Direct the students' attention to the maps, globes, and atlases you have collected. Explain that partners may use these resources today, in addition to the nonfiction books, to find at least three more countries that they both might be interested in researching and writing about. Suggest that they look for countries in areas of the world they have not

## Materials

- A sheet of lined paper for each pair of students
- Collected nonfiction texts
- Collected globes, maps, and atlases
- "Class Assessment Record" sheet (CA3)

### ELL Note

If you have decided to have ELL students join existing pairs, give the trios a few minutes to talk informally and get to know one another before they begin to work together.

### ELL Note

Monitor trios of students to make sure that ELLs are being integrated into the work and are contributing to the joint lists of countries.

### Teacher Note

If your students have not yet worked with an atlas, show one, explain that it is a book of maps, and discuss how it is organized.

### Teacher Note

You may want to let the students spread out around the classroom during the conferences so partners can hear one another.

yet explored. Explain that after they have added three more countries, they can use the resources to learn more about any of the countries on their lists. Ask:

- Q *What can you do to be sure both of you agree before adding a country to your list?*
- Q *If another pair is looking at a resource that you want to use, what can you do?*

## WRITING TIME

### 4 Identify More Countries of Interest

Give partners ample time to add at least three more countries that they are both interested in to their lists. As they work, walk around and observe them, assisting as needed.

### CLASS ASSESSMENT NOTE

Circulate among pairs. Observe the students and ask yourself:

- Are partners staying on task, using the resources and discussing the countries of interest to them?
- Are partners agreeing on countries to add to their lists?
- Are they able to find information about the countries they have chosen?

Support any pair that struggles by asking questions such as:

- Q *What countries are you thinking about adding to your list?*
- Q *If you can't agree on whether or not to add [Portugal] to your list, what can you do?*
- Q *If you can't find information on the country you're thinking about, what other country could you consider?*

Record your observations on the "Class Assessment Record" sheet (CA3); see page 86 of the *Assessment Resource Book*.

Call for the students' attention and have them put away their books and other materials. Ask and briefly discuss:

- Q *How did you make decisions about the countries to add to your list? Did you both think that was fair? If not, what might you do differently next time?*

### 5 Narrow the Lists

Explain that each pair of students will review their joint list and circle three countries that both partners are interested in researching and writing about. Use "Think, Pair, Share" to discuss:

- Q *What are some ways you and your partner can work together to choose countries? [pause] Turn to your partner.*

Have volunteers share their thinking.

**Students might say:**

"We can go through the list together and pick three that we both are curious about."

"We can each pick six and see if we have three of the same and choose those."

"Maybe I could agree to one country my partner really likes, she could agree to one I really like, and we could find one we both like."

Give partners a few minutes to agree on and circle three countries. Explain that next week they will decide together on one of the three countries to research and write about.

## SHARING AND REFLECTING

### 6 Reflect on Partner Work

Ask and discuss questions such as:

- Q *Today you and your partner worked together to make the first of many decisions you will make during the next few weeks. What did you do to make sure you both agreed before making a decision?*
- Q *Why is it important that your decision feels fair to both of you?*
- Q *How are we doing with building a caring writing community in our class? Why do you think so?*
- Q *What can we do to continue to make this a safe place for everyone to write and share their thinking?*

### Facilitation Tip

During this unit, we invite you to practice **asking facilitative questions** during class discussions to help the students respond directly to one another, not just to you. After a student comments, ask the class questions such as:

- Q *Do you agree or disagree with [Daniel]? Why?*
- Q *What questions can we ask [Daniel] about what he said?*
- Q *What can you add to what [Daniel] said?*

To see this Facilitation Tip in action, view "Asking Facilitative Questions" (AV22).

### Teacher Note

Have partners put their joint list in a safe place to use again next week.

# Week 3

## OVERVIEW

### Writing Focus

- Students select countries to research and write about.
- Students do pre-research writing about their countries.
- Students explore using effective Internet search terms.
- Students identify and use various sources of information.
- Students take notes in their own words.
- Students cultivate curiosity.

### Social Development Focus

- Students make decisions and solve problems respectfully.
- Students work in a responsible way.
- Students act in fair and caring ways.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA4–WA7

#### Assessment Forms

- “Class Assessment Record” sheets (CA4–CA5)
- “Conference Notes: Focus 1” record sheet (CN1)

#### Professional Development Media

## **J** DO AHEAD

- ✓ Prior to Day 1, decide on a country (for example, Australia) that you will use to model the process of researching and writing an informational report. Collect resources about that country, such as books or information printed from online sources. Think ahead about what you know about the country you have chosen.
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA4) on page 87 of the *Assessment Resource Book*.
- ✓ Prior to Day 2, decide if you will allow small groups of students to visit the library, media center, computer lab, or another location in the school to research their countries during Writing Time. Arrange for this ahead of time with the librarian or other adults in the school.
- ✓ Prior to Day 2, generate four or five questions about the country you have chosen to use for modeling (for example, questions about the country’s animals, native people, schools, and sports). Identify passages in your sources that give information about these questions.
- ✓ Prior to Day 3, spend some time becoming familiar with a few search engines and decide which one you will use for modeling during the lesson. Many search engines are available, including some that are intended for students’ use. Check that the preferences on the search engine you select to use with the class have been set to “Strict,” “Safe,” or a comparable setting.
- ✓ Prior to Day 3, prepare a paper chart titled “How to Turn a Research Question into a Search Query” with the following numbered items on it:
  1. Write down your research question.
  2. Circle the words you definitely need.
  3. Cross out unnecessary words.
  4. Add or substitute more specific words, if needed.
  5. Decide in what order to write the words.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA5) on page 88 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, make a class set of the “Conference Notes: Focus 1” record sheet (CN1) on page 94 of the *Assessment Resource Book*.

## TEACHER AS WRITER

*“Get your facts first, and then you can distort ’em as much as you please.”*

— Mark Twain

Choose another country from the list you made in Week 2 and repeat that activity. Write five questions that you have about the country and see if you can find answers to your questions at the library, on the Internet, or through other sources.

# Day 1

## Selecting Topics

### Materials

- *The Ultimate Fact Book* from Week 2
- A self-stick note for each pair
- World map
- “Pre-research Writing” chart (WA4)
- “Class Assessment Record” sheet (CA4)
- “Things We Want to Know About Countries” chart from Week 2 and a marker

### Teacher Note

To see an example of this technique, view “Supporting Note-taking and Partner Work” (AV48).

### In this lesson, the students:

- With a partner, select a country to research and write about
- Do pre-research writing about their countries
- Reach agreement before making decisions
- Make fair decisions
- Cultivate curiosity

### ABOUT SUPPORTING PARTNER WORK

In this unit, each student works with a partner to produce a nonfiction report about a country they both are curious about. Their writing in this unit will consist primarily of factual information they have found in books and other sources. The partner work is intended to support the students by inciting discussion about the facts they find, what those facts mean, whether they want to include those facts in their written report, and how they will write about those facts in their own words.

Both partners are responsible for the form and content of the final product, and each partner is responsible for researching and writing a part. During this process, partners talk about their thinking and learn from each other as they negotiate to reach agreements and make decisions together.

The cooperative work in this unit may challenge your students. The goals are for them to learn how to handle problems as they arise and to make decisions that both partners think are fair. If you notice partners struggling to work together, use these occasions as learning opportunities. Ask questions such as:

**Q** *What problem are you trying to solve? Why is it important to solve it?*

**Q** *What is a solution you can both live with, even if it's not your first choice?*

**Q** *Is that solution fair to both of you? Why or why not?*

### GETTING READY TO WRITE

#### 1 Briefly Review

Have the students bring their pencils and their joint lists of countries from last week and gather with partners sitting together, facing you. Review that the students have been hearing and discussing nonfiction texts about countries and exploring countries that interest them.

Show the cover of *The Ultimate Fact Book* and remind the students that Andrew Wojtanik wrote this book because he loves geography and wanted information to help him in the National Geographic Bee. Now he hopes that the book he has written will help others become interested in geography.

Explain that in the coming weeks each pair of students will explore and write about a country they are curious about. Like Andrew Wojtanik, they will write to satisfy their own curiosity and to help others understand and enjoy learning about the country they choose. They will then publish their report and put it in the nonfiction section of the class library.

## 2 Discuss and Select Topics

Remind the students that last week partners worked together to select three countries they might research and write about. Have partners review their three choices.

Signal for their attention and explain that they will now select one of the three countries they listed to research and write about in the coming weeks. Ask and briefly discuss:

**Q** *What can you do to make sure you choose a country that both you and your partner are curious about?*

Give each pair of students a self-stick note; ask partners to write their names on it and, once they decide, the name of the country they will research and write about. Provide several minutes for partners to choose a country. When most pairs of students are finished, call for their attention. Ask and briefly discuss:

**Q** *How did you and your partner make your decision? What are some ways that other partners decided?*

**Q** *What problems did you have making the decision? How did you handle those problems?*

Have the students in each pair report the name of the country they have chosen and put their self-stick note on that country on the classroom world map. If many students have chosen the same country or have chosen countries on only one or two continents, you might discuss the need to provide the class library with information about a greater variety of countries. Ask if any pairs of students are willing to research a second choice.

Use “Think, Pair, Share” to discuss:

**Q** *What do you notice about the countries we’ve chosen? [pause] Turn to your partner.*

Have volunteers share their thinking.

### Students might say:

“Most of the countries are above the equator.”

“Only a few of us will research countries in Asia.”

“Many of us are curious about countries in South America.”

## 3 Model Pre-research Writing About a Country

Tell the students that you have selected a country that you are curious about. You will research and write a report about this country to model

### ELL Note

Monitor trios of students to make sure that ELLs are participating in selecting the countries for their trios to research.

### Teacher Note

In the coming three weeks, you will model researching your chosen country, writing and organizing notes about it, and using the notes to begin writing a nonfiction report about it. (Diagrams throughout the unit show how to model the process for the students.) The students will follow your example to research and write about their own countries. Plan to research and take notes about your country, gathering additional resources if necessary, so you have notes to use in the modeling.

for the students what they will do in the coming weeks. Name the country (for example, Australia; see “Do Ahead” on page 375).

Explain that today the students in each pair will do some pre-research writing about their country to find out what they already know, or think they know, about it. Display the “Pre-research Writing” chart (WA4). Ask the students to watch as you think aloud about what you know, or think you know, about this country, and what else you are curious to find out. Write several sentences on the chart.

### Pre-research Writing

Australia is the only country that is also a whole continent. It is called “The Land Down Under” because it is located below the equator. Most of the people live along the coast. The center of Australia is called the “outback.” Australia is home to kangaroos and koalas. One thing I wonder about Australia is what kind of sports Australians like to play.

WA4

### Teacher Note

Save the “Pre-research Writing” chart (WA4) to use on Day 2 and throughout the unit.

Explain that during Writing Time each student will do some pre-research writing about her pair’s chosen country in her own notebook. Then partners will share what they have written with each other. Encourage the students to write freely about everything they know, or think they know, about their country, as well as what else they are curious to find out.

## WRITING TIME

### 4 Do Pre-research Writing

Have the students get their notebooks and sit at desks with partners together. Have them spend 15–20 minutes writing silently what they know, or think they know, about their country. Join the students in writing for a few minutes; then walk around the room and observe them, assisting students as needed.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students write freely and with interest about their countries?

If you notice any student having difficulty writing, ask the student to tell you what he knows about the country. You might also ask whether he has written anything about this country in the past two weeks. If so, have the student review that writing. If not, ask the student to write what he is curious to know.

Record your observations on the “Class Assessment Record” sheet (CA4); see page 87 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect in Pairs on Pre-research Writing

Have partners read and discuss their pre-research writing with each other. After they have had time to share, ask and briefly discuss:

**Q** *What did your partner write about your country that you didn't write?*

**Q** *What are some things that you and your partner are both curious to know about your country? [pause] Turn to your partner.*

Add any topics not already listed to the “Things We Want to Know About Countries” chart.

Explain that tomorrow partners will continue to discuss what they are curious about and then begin their research.

#### Teacher Note

Collect any additional resources you can find related to your students' chosen countries to use in Day 2.

## Developing Research Questions

## Day 2

#### In this lesson, the students:

- Review and discuss pre-research writing
- Generate research questions about their countries
- Identify and use various sources of information
- Cultivate curiosity
- Reach agreement before making decisions
- Make fair decisions

#### ABOUT GENERATING RESEARCH QUESTIONS

This week and next, partners generate questions to research about the countries they have chosen and then research those questions. In today's lesson, you will model the process of generating several questions, drawing on the “Things We Want to Know About Countries” chart and your own pre-research writing for inspiration. Then partners will do the same. Generating research questions may prove challenging for your students. Support struggling students by asking questions such as:

**Q** *What is a question on the “Things We Want to Know About Countries” chart that you would like to ask about the country you are researching? How might you write that question?*

**Q** *What did you include in your pre-research writing that you would like to learn more about?*

After generating a list of questions, some students may become overly focused on finding the answers, ignoring other interesting information that could enrich

#### Materials

Step 1 (all)

their reports. Over the coming weeks, continue to discuss with your students the importance of approaching their research with curiosity. Encourage each pair of students to continue adding to their list of questions and to take notes on anything they find interesting about their chosen country, whether or not it answers one of their original questions.

## GETTING READY TO WRITE

### 1 Discuss Pre-research Writing

Have the students bring their notebooks and pencils and gather with partners sitting together, facing you. Review that partners selected a country to research and write about together and that they did pre-research writing about the topic yesterday. Remind them that the purpose of pre-research writing is to help them see what they already know, or think they know, and to determine what they want to find out.

Display the “Pre-research Writing” chart (WA4) from yesterday, and read it aloud. Then look at the “Things We Want to Know About Countries” chart from yesterday and think aloud about questions you have about the country you are researching. Record these questions on a sheet of chart paper titled “Research Questions.”

#### You might say:

“I wrote a bit about the animals in Australia. I’d like to know more about them. I also wonder who the native people of Australia are. I’d also like to research what school is like for children in Australia and what sports Australians like to play.”

### Research Questions

What animals are found in Australia?

Who are the native people of Australia?

What is Australian school like?

What sports do Australians like to play?

### Teacher Note

Save the “Research Questions” chart to use on Day 3 and throughout the unit.

Point out that the students will have an easier time finding information about their topics if they have specific questions that they can research.

Explain that partners will now review their pre-research writing and together agree on four or five questions that they are both interested in researching.

## 2 Review Pre-research Writing and Brainstorm Research Questions

Ask the students to individually reread their pre-research writing from yesterday. Distribute a sheet of lined paper to each pair, and ask partners to agree on and write four or five questions about their chosen country that both partners are curious about.

When most pairs of students are finished, signal for their attention and have a few volunteers report their research questions to the class.

Briefly discuss:

**Q** *How did you and your partner agree on your research questions? What problems or challenges did you have? How did you handle them?*

Explain that during Writing Time today partners will begin looking for sources of information about their research questions.

## 3 Discuss Searching for Resources

Explain that partners may use multiple sources, including the nonfiction books you have gathered, other books or media materials available in the classroom or school library, or online resources. Ask:

**Q** *Where might you and your partner look for information about the questions you've chosen to research? Turn to your partner.*

If you have decided to have small groups of students visit the library, media center, or other locations in the school to look for resources, discuss how the students will take responsibility for themselves outside the classroom. Discuss:

**Q** *What will you do to act in a considerate and responsible way at the [library]? Why is that important?*

## WRITING TIME

### 4 Add to Research Questions and Search for Information

Have the students sit at desks with partners together. Display the “Writing Time” chart (WA5), and have the students work in pairs on the charted tasks for 20–30 minutes. Be ready to assist them in writing questions and finding information about their research questions.

### Writing Time

- Add to your list of questions about your country.
- Search for information about your country.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Taking Responsibility During the Information Search

Ask and briefly discuss questions such as:

- Q *Who added a research question to your list? Tell us about it.*
- Q *What did you and your partner do today to act responsibly as you looked for resources?*
- Q *What problems did you have? What can you do tomorrow to avoid those problems? Why will it be important for you to try to avoid those problems?*

Explain that the students will continue to research their countries over the next couple of weeks. Distribute a folder to each pair of students, and have partners write their names on it. Explain that they will keep all of the papers related to their report in this folder. Have them place their sheet of research questions and any other loose papers in their folder. Have partners decide who will keep the folder until the next lesson.

## In this lesson, the students:

- Learn and use the terms *search engine*, *search term*, and *search query*
- Identify the best terms for an effective search query
- Reach agreement before making decisions

## GETTING READY TO WRITE

### 1 Review and Introduce Searching for Information Online

Have the students bring their notebooks, folders, and pencils and gather with partners sitting together, facing the whiteboard. Review that each pair of students selected a country to research and write a nonfiction informational report about. They wrote down what they know about their country and then agreed on four or five research questions.

Review that to research their countries, the students may use multiple sources, including online resources. Explain that today the students will learn how to use a search engine to find information on the Internet. Explain that a *search engine* is a computer program that searches the Internet using words you type into a search bar. Finding the information you are looking for requires knowing how to choose the best words, or *search terms*, to type into a search engine.

### 2 Model Choosing the Best Terms for a Search Query

Direct the students' attention to the whiteboard with the search engine displayed and show where to type in the search terms. Explain that good researchers start with a research question and then identify words within the question to use for their search.

Direct the students' attention to the "Research Questions" chart. Choose one of your charted questions and rewrite it on a sheet of chart paper. Explain that you will use the question to help you identify a set of words for your search and that the set of words you choose is called a *search query*.

Explain that a search query tells a search engine exactly what information you are looking for. Search queries are not usually complete sentences because they only use words directly related to the focus of the search. Ask the students to listen carefully as you think aloud about how to change the question (for example, "What kinds of animals are there in Australia?") into a search query.

## Materials

- Whiteboard with a search engine displayed, prepared ahead
- "Research Questions" chart from Day 2
- Chart paper and a marker
- "How to Turn a Research Question into a Search Query" chart, prepared ahead
- "Writing Time" chart (WA6)

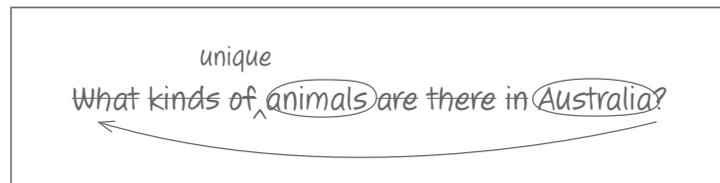

## Technology Tip

If after today's lesson your students need more support with choosing effective search terms, you might teach Technology Mini-lesson 4, "Choosing Effective Search Terms," which closely matches today's instruction. (If only some students need more support, you might teach Mini-lesson 4 just to those students.)

If your students do not need further support choosing search terms, you might skip Technology Mini-lesson 4 and teach Technology Mini-lessons 5-8, which provide further instruction on conducting online searches. If possible, teach this set of mini-lessons (located in Appendix A) in order and at corresponding stages in the students' research. For example, teach Technology Mini-lesson 7, "Evaluating Research Sources," after the students have searched for and collected several online sources. For more information, see "About Teaching the Online Research Lessons" on page 700.

**You might say:**

"I know I need the word *Australia* because it is the country I am researching, and I need the word *animals* because it will give me the specific information about Australia that I want. So *Australia* and *animals* are my keywords—I am going to circle them. I don't need the words *What*, *kinds*, *of*, *are*, *there*, and *in* because they don't say anything about the information I need, so I will cross them out. Now I have the words *animals* and *Australia*, but what I really want to know is what animals are unique to Australia, or found only in Australia, so I should add the word *unique* before *animals*. I think it makes sense to put the name of the country first, so my search query will be: *Australia unique animals*."

Type the search query into the search engine's search bar and display the results. Read some of the results aloud. Use "Think, Pair, Share" to discuss:

**Q** Which of these results do you think will have information about [the unique animals of Australia]? Why? [pause] Turn to your partner.

If the students do not mention it, point out any results that look like they directly address your research question.

### **3** Choose the Best Terms for a Search Query

Explain that the students will follow the same procedure to turn a different research question into a search query. Post the chart titled "How to Turn a Research Question into a Search Query" (see "Do Ahead" on page 375). Read each step aloud.

#### How to Turn a Research Question into a Search Query

1. Write down your research question.
2. Circle the words you definitely need.
3. Cross out unnecessary words.
4. Add or substitute more specific words if needed.
5. Decide in what order to write the words.

Write another research question (for example, “What people are native to Australia?”) where everyone can see it and have the students copy it onto the next blank page in their notebooks. Explain that partners will read the question carefully and follow the steps on the chart to decide on a search query. Ask and briefly discuss:

**Q** *What can you and your partner do if you don’t agree about what words to include in your search query or what order to put the words in?*

**Students might say:**

“If we don’t agree, we can talk about why we think a word should be used or not used in the search query.”

“In addition to what [Len] said, we can explain to our partner why we think the words in the search query should go in a certain order.”

“We can write different search queries for the same question, and later we can try them out and see how each one works.”

Have pairs work together to write search queries for the research question you wrote. Walk around the room and observe. If necessary, direct the students’ attention to the “How to Turn a Research Question into a Search Query” chart and remind them to follow each step. Review that search queries use only words directly related to the research question. When most pairs of students have finished, signal for their attention and have a few volunteers share their search queries with the class. Remind the students that a search query tells a search engine exactly what information to search for about a research question.

Explain that during Writing Time today each pair of students will follow the same procedure to turn one of their own research questions into a search query.

## WRITING TIME

### 4 Write Search Queries

Have the students sit at desks with partners together. Have each pair of students take their shared list of questions out of their writing folder and place it where both partners can see it as they work. Display the “Writing Time” chart (WA6). Have partners work together on the charted tasks for 5–10 minutes. Encourage them to refer to the “How to Turn a Research Question into a Search Query” chart. As the students write, walk around and observe them, assisting students as needed.

#### Writing Time

- Pick a question from your list.
- Turn the question into a search query.
- Repeat these steps for other questions on your list.

WA6

Signal to let the students know when Writing Time is over.

#### Teacher Note

The students may decide on a search query such as *Australian native people* or *native Australians*.

#### Teacher Note

Save the “How to Turn a Research Question into a Search Query” chart to use throughout the unit.

## SHARING AND REFLECTING

### 5 Reflect on What the Students Learned

Have partners review their questions and search queries together. Then, as a class, discuss questions such as:

**Q** *What is one question on your list? How did you and your partner turn that question into a search query? Tell us about it.*

As volunteers share, type their search queries into the search engine on the whiteboard and ask:

**Q** *Which of these research results do you think will have information about [the unique animals of Australia]? Why?*

Explain that the students will continue to research their countries tomorrow. Have them place their sheets of research questions and any other loose papers in their folders.

# Day 4

## Researching and Taking Notes

### Materials

- Collected nonfiction texts
- “Research Notes” chart (WA7)
- “Research Questions” chart from Day 3
- Print and online sources of information about your chosen country
- Index cards and rubber bands for students’ notes
- “Class Assessment Record” sheet (CA5)

### In this lesson, the students:

- Identify and use various sources of information
- Take notes in their own words
- Reach agreement before making decisions
- Make fair decisions
- Share the work fairly

### ABOUT TEACHING NOTE-TAKING SKILLS

Taking notes requires summarization and organization skills, the ability to write what one has learned in one’s own words, and the ability to cite sources. In this unit, the students take notes on 3" × 5" or 4" × 6" index cards. The cards help them to be succinct and to organize their notes in preparation for writing. The students learn to include source information on each card using the author’s last name and a page number (or website). Including this information will assist the students if they need to go back to the source to clarify or add information.

Be aware that writing notes in their own words can be challenging for elementary students. Look for opportunities to model this process frequently, asking the students to help you restate written information in their own words. Plan to monitor and encourage the students, but do not worry if you notice students copying from the text, as many of them will not master writing notes in their own words until they are older.

# GETTING READY TO WRITE

## 1 Briefly Review

Gather the class with partners sitting together, facing you. Review that together, partners selected a country to research and write a nonfiction informational report about. They wrote down what they think they know about their country and agreed on four or five questions to research. Then they wrote Internet search queries for some of their questions.

Explain that today the students will begin doing their research, both to confirm what they think they know and to get information about the questions they wrote. Partners will work together to research and take notes about things they want to include in their informational report.

## 2 Model Researching and Taking Notes

Display the “Research Notes” chart (🎧 WA7). Ask the students to watch as you model how you would like them to take notes. Use the following procedure to model:

- Read the “Research Questions” chart aloud and identify one that you found some information about.
- Show the sources of information you found about your country.
- Read aloud the information in each source that addresses the question.
- Think aloud about the information you read.
- On the “Research Notes” chart, model writing a note in your own words, indicating the source in parentheses (either by author and page number or by website). Also model writing your initials in the upper right directly above the note.

### You might say:

“I did an Internet search with the search terms *Australia unique animals* and found a website called *amazing-aussie-animals.com*. I printed out some information from that website. It says, ‘For millions of years, Australia has been surrounded by water on all sides—in other words, it is an island. Separation from other land masses has allowed Australian wildlife to evolve independently. . . . Many creatures and plants that live here are unique to this country.’ This tells me the animals of Australia are different from those found anywhere else because they evolved on an island, separate from animals in other parts of the world.”

### Teacher Note

You might model taking notes from a few different sources, such as the Internet, a book, and an encyclopedia.

### Teacher Note

If your school has an official policy on plagiarism, you might review it with your students. Facilitate a class discussion by asking questions such as:

- Q *What questions do you have about plagiarism?*
- Q *What might you do if you are having trouble writing a note in your own words?*

#### TEKS 1.D.i

#### Student/Teacher Narrative Step 3 (all)

### Research Notes

L.R.

Many Australian animals are found nowhere else in the world because they evolved on an island, separate from other animals in the world.

([amazing-australian-animals.com](http://amazing-australian-animals.com))

Use the same procedure to model another example of taking notes.

Point out that notes are most helpful when they are paraphrased, brief and written in the writer’s own words, rather than copied exactly from the source. Explain that if a writer copies the exact words or ideas from a source in her notes, she might accidentally copy those words and ideas into her own report. Tell the students that when a writer uses someone else’s exact words and ideas in her own writing without giving the original writer credit it is called *plagiarism*. Explain that plagiarism is stealing someone else’s work and calling it your own and that plagiarism can result in serious consequences for any writer, whether she is a student, a journalist, or a professional author.

Explain that the students will take their notes on index cards, one note per card. Point out that having the notes on cards will help the students organize them when they get ready to write their informational reports. Ask them to write both partners’ initials on each card.

### 3 Get Ready to Work Together

Have partners reread their list of brainstormed research questions from yesterday. Explain that the questions are just starting places; partners should look for and take notes about any information that they find interesting about their country.

Explain that partners will need to work together to research and take notes about their country. Ask and briefly discuss:

- Q *What will you and your partner do to share your work fairly today?*
- Q *What can you and your partner do if you don’t agree about whether to take notes about a piece of information?*

#### Students might say:

“We’ll read a book together and stop when we want to write a note about something.”

“We’ll each look in a different book but talk to each other about interesting things we read so we can take notes about them.”

“We can take turns writing the notes.”

“If we don’t agree, we can say why we think something is interesting enough to take notes on.”

Encourage partners to try the things they suggested, and tell them that you will check in with them to see how they did.

## WRITING TIME

### 4 Research Nonfiction Topics and Take Notes

Distribute index cards to the students, and have them begin researching and taking notes about their topics. They may talk in soft voices during this time about their work.

As the students write, circulate and observe, assisting students as needed.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners agreeing on interesting facts to write about their country?
- Are they writing notes in their own words?
- Are they writing just one piece of information per card?
- Are they sharing the work?

If necessary, stop the class to remind the students of the procedures to follow when taking their notes. If you notice partners having difficulty sharing the work, stop them and discuss questions such as:

- Q *What is each of you responsible for accomplishing?*
- Q *Is the way you are sharing the work fair? Why or why not?*
- Q *What can you do to share the work fairly?*
- Q *Why is it important that both of you do your part of the work on this project?*

Record your observations on the “Class Assessment Record” sheet (CA5); see page 88 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over. Remind them to write their initials on all of their cards.

## SHARING AND REFLECTING

### 5 Reflect on What the Students Learned

Have partners review their notes together. Then, as a class, discuss questions such as:

- Q *What is one interesting fact you and your partner learned about your country today?*
- Q *As you listened to [Arisa and Nick] share about their country, what did you hear that makes you curious?*
- Q *What was [interesting/challenging] about doing research today? What suggestions do you have that might help someone else with this challenge?*

Point out that curiosity leads to learning and that learning often leads to more curiosity.

TEKS 13.B.ii  
TEKS 13.C.i  
TEKS 13.C.ii

Student/Teacher Activity  
Step 4 (all, including the Class  
Assessment Note)

### Teacher Note

Some pairs of students may still be looking for resources today. This is to be expected. On any given day you are likely to have pairs working at different stages of their projects.

### Technology Tip

You might enlist a parent volunteer or an older student to help small groups of students search online. Encourage the students to print out information they find about their countries.

If your school has an acceptable use policy, review it with the students. Also confirm that the search settings on your school's computers are set to “Strict,” “Safe,” or a comparable setting.

### Facilitation Tip

Continue to **ask facilitative questions** to help the students respond to one another. When the students direct their responses to you, redirect them toward the class by asking questions like:

- Q *Do you agree or disagree with what [Travis] just said, and why?*
- Q *What questions can we ask [Travis] about what he said?*
- Q *Why does what [Travis] said make sense?*

Much of the learning in this program relies on creating a dynamic discourse among the students. Facilitative questions teach them that their comments contribute to a class discussion and that they are responsible for listening to one another and responding.

# Day 5

## Researching and Taking Notes

### Materials

- Collected nonfiction texts
- “Research Notes” chart (WA7) from Day 4
- Sources of information about your country

### 6 Reflect on Sharing Work Fairly

Ask and briefly discuss:

- Q *How did you and your partner share the work fairly today?*
- Q *If you did not share the work fairly, what will you do tomorrow to share the work fairly? Why will that be important to do?*

Explain that the students will continue to share work fairly as they research their countries tomorrow. Provide the students with rubber bands to bind their cards together. Have them put their cards in their folders or another secure place until the next lesson.

## EXTENSION

### Continue Research During Other Times of the Day

You might have the students continue doing research and taking notes during other times of the day. They might use independent time, the library period, or after-school activity time. Also encourage the students to use the public library or their home computers to continue their research and writing.

### In this lesson, the students:

- Identify and use various sources of information
- Take notes in their own words
- Reach agreement before making decisions
- Share the work fairly

## GETTING READY TO WRITE

### 1 Discuss the Research Process

Gather the class with partners sitting together, facing you. Review that the students began researching their chosen topics yesterday. Explain that today they will continue to research and take notes about their topics. Ask and briefly discuss:

- Q *Was it hard or easy to find information about your topic yesterday? What made it hard or easy?*
- Q *What did you do to locate information about your topic?*

**Students might say:**

"I looked in the table of contents of a book to see if there was a chapter on the food people in China eat."

"I looked up *language* in the index, and that told me the page to go to in the book."

"I wanted to find information about castles in Ireland. First, I tried searching online using the word *castles*. I got way too many results, so I tried *Ireland castles* and found information just about castles in Ireland."

As the students share ways they located information, stop periodically to ask pairs to discuss:

**Q** How might you use [Rena's] method of finding information?

## 2 Model Researching and Taking Notes

Display the "Research Notes" chart (WA7) from yesterday. Ask the students to watch as you model another example of researching and taking notes. Follow the procedure you used on Day 4, Step 2 (see page 387) to model locating information, reading it aloud, thinking aloud about it, and writing a note about it in your own words. This time, invite the students to help you write the note.

**You might say:**

"I printed out more information about wombats from the Internet. Wombats are an Australian animal I'm curious about. This source says, 'The wombat has the distinction of being the world's largest burrowing animal. . . . It is most often described as resembling a small bear.' How can I capture that briefly in my own words? One idea I heard is that I write: *Wombats look like small bears*. I'll start with that. Then I might add: *They are the largest animal in the world to burrow*. I'll write that next. Another suggestion is that I should make it clear that *burrow* means 'dig into the ground.' I can add that to my second sentence this way: *They are the largest animal in the world to burrow, or dig into the ground.*"

Add your initials to the upper right-hand corner of the note and write the source in parentheses beneath the note. Then model another example using the same procedure.

Explain that the students will continue to research and take notes today about their topics. Remind them to take notes not only about their questions but also about other interesting information they find. Remind them to try to write their notes briefly and in their own words.

## WRITING TIME

### 3 Research Nonfiction Topics and Take Notes

and offer assistance. Once all partners seem to be working independently, begin conferring with pairs of students, one at a time.

## TEACHER CONFERENCE NOTE

Today you will begin conferring with individual pairs and continue conferring with them into next week. Ask partners to tell you the country they are researching and what they are learning about that country. Focus your conversations on what the partners are curious about, what they are learning, and how they are capturing what they are learning in their notes. Ask questions such as:

- Q *What country are the two of you researching? What question about that country is each of you researching now?*
- Q *What have you found out about your question? Read me one of your notes.*
- Q *What else do you want to know? What sources might you use to find information about that?*

If you ask a student to read you a note and you find it confusing, ask the student what the note means. Explain why you were confused and ask the partners how the note might be rewritten more clearly.

Document your observations for each student on a separate “Conference Notes: Focus 1” record sheet (CN1); see page 94 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over. Remind both partners in each pair to write their initials on all of their cards.

## SHARING AND REFLECTING

### 4 Reflect on Researching and Taking Notes

Have partners review their notes together to make sure that they are written in their own words and that what they have written makes sense. Explain that if they find a note confusing, they should work together to decide what is confusing about it and how to make it clearer. Explain that partners may need to refer to the source of the information to help them rewrite it.

After several minutes, briefly discuss:

- Q *Who has an example of a confusing note? What did you do to make the note clearer?*
- Q *Why do you think it is important to paraphrase, or write notes using your own words, instead of plagiarizing, or using the author’s exact words?*
- Q *What have you learned about taking notes? What suggestions do you have to help others?*

Have the students reflect on their partner work by asking:

**Q** *What did you and your partner do to share the work fairly today?*

Explain that partners will continue to research their topics next week. Have them bind their index cards with a rubber band and put them in their folder or another secure place until then.

## TECHNOLOGY EXTENSION

### Use a Class Blog for Reflection

Create a class blog and, in the coming weeks, invite the students to reflect on what they are learning about writing informational reports. Post reflection questions such as the second question in Step 4 on page 392. After discussing the questions as a class, have interested students post their comments. Review the comments periodically and, with the respondents' permission, discuss comments with the class.

### Technology Tip

For information about setting up and maintaining a class blog, view the "Creating a Class Blog" tutorial (AV76).

# Week 4

## OVERVIEW

### Writing Focus

- Students use various sources of information to research countries.
- Students take notes in their own words.
- Students organize their notes in preparation for writing.
- Students draft informational reports and include facts, details, and other information.
- Students explore transitional words and phrases.
- Students confer with one another and the teacher.

### Social Development Focus

- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students work in a responsible way.

### Online Resources

## DO AHEAD

- ✓ Prior to Day 2, look for information about any of the research questions you charted last week about your country (for example, questions about the country's animals, native people, schools, and sports). Take notes on what you find, eight to ten notes altogether. Copy your notes onto 5" × 7" index cards, with one note per card. Think about how you will group your notes and what heading you will assign each group (for example, "Geography and Climate," "Animals," "Native People," "School Life," and "Favorite Sports").
- ✓ Prior to Day 2, prepare wall space by the whiteboard where you can post your sorted index cards. The space should be close enough to the interactive whiteboard that you can read the notes while you model writing on the lined writing chart (WA10) on Day 3.
- ✓ Prior to Day 2, make a copy of the "Class Assessment Record" sheet (CA6) on page 89 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, review your organized note cards from Day 2 and think ahead about how you might begin drafting an informational report about your country. Include appropriate information from your pre-research writing as well as from your notes.
- ✓ Prior to Day 3, make a copy of the "Class Assessment Record" sheet (CA7) on page 90 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, title a sheet of chart paper "Transitional Words and Phrases for Reports." Under the title, list the following: *another, for example, also, because, besides, especially, particularly, for instance, in other words*.
- ✓ Prior to Day 4, make a class set of the "Conference Notes: Focus 2" record sheet (CN2) on page 95 of the *Assessment Resource Book*.

## TEACHER AS WRITER

*"We write about what we don't know about what we know."*

— Grace Paley

Reread the questions you wrote about a country in Teacher as Writer over the past two weeks. Choose one or two questions and try to find some information about them using the resources you have collected for your students. As you look for information, consider:

- Is it hard or easy to locate information about your questions? Would modifying your questions make it easier? How?
- What tools or methods are you using to locate information (for example, tables of contents, indexes, glossaries, search engines)? What skills do you need to use these tools successfully?

### Materials

- Collected nonfiction texts
- Index cards and rubber bands
- “Writing Time” chart (WA8)
- (Optional) “Research Notes” chart (WA7) from Week 3
- (Optional) Sources of information about your topic from Week 3
- (Optional) “Research Questions” chart from Week 3

**TEKS 7.E.i**  
Student/Teacher Narrative  
Step 1 (all)

### Teacher Note

If necessary, model researching and taking notes about your topic again using the “Research Notes” chart (WA7) and the procedure you used in Week 3, Day 4, Step 2 (page 387). Model locating specific information using the table of contents, index, glossary, etc. Read information from your sources aloud and ask the students to help you write brief notes in your own words.

### In this lesson, the students:

- Continue to research topics
- Take notes in their own words
- Check each other’s notes for understanding
- Share the work fairly

## GETTING READY TO WRITE

### 1 Review Pre-research Writing and Notes

Have the students bring their notebooks and folders and gather with partners sitting together, facing you. Review that the students began researching their countries in pairs last week. Ask the students to quietly reread their pre-research writing and their notes; then call for their attention and ask:

**Q** *After starting your research, did you change your mind about something you wrote in your pre-research writing? Tell us about it.*

Use “Think, Pair, Share” to discuss:

**Q** *What is something new that both you and your partner have learned about your topic? [pause] Turn to your partner.*

After partners have discussed the question, have one or two volunteers share with the class. Remind the students that the purpose of their research (and the writing they will do later in the week) is to satisfy their own curiosity about their topics and also to help others become curious about them.

Explain that today partners will continue to research and take notes about their questions, things they thought they knew about their topic (from their pre-research writing), and any new things they have become curious about.

**TEKS 1.D.i**  
Student/Teacher  
Activity  
Step 2 (all)

### 2 Discuss How Partners Will Work Together

Explain that today each pair of students will continue to research and take notes about their topic. Later this week each pair of students will begin drafting a nonfiction report about their topic.

**Q** Ask partners to spend a few minutes discussing what they want to accomplish today and how they will share the work in a fair way.

## WRITING TIME

### 3 Research Nonfiction Topics and Take Notes

Display the “Writing Time” chart (WA8). Have partners sit together at desks and work on the charted tasks for 20–30 minutes.

#### Writing Time

- Find resources for your topic.
- Research and take notes in your own words about your questions, things you thought you knew, and new things you have become curious about.
- Share the work fairly.

WA8

Distribute more index cards as needed and have the students research and take notes about their topics. As they work, circulate, observe, and offer assistance. When pairs of students seem to be working independently, confer with one pair at a time.

#### TEACHER CONFERENCE NOTE

As you did in Week 3, confer with individual pairs about their research and the notes they took. Ask partners to tell you the country they are researching and what they are learning about that country. Focus your conversations on what the partners are curious about, what they are learning, and how they are capturing what they are learning in their notes. Ask questions such as:

- Q *What country are the two of you researching? What question about that country is each of you researching now?*
- Q *What have you found out about your question? Read me one of your notes.*
- Q *What else do you want to know? What sources might you use to find information about that?*

If you ask a student to read you a note and you find it confusing, ask the student what the note means. Explain why you were confused and ask the partners how the note might be rewritten more clearly.

Beginning in Day 4, the focus of the individual student conferences will change. If you have not met with all of your students to discuss the questions above, you may wish to do so before changing the conference focus.

Document your observations for each student on a separate “Conference Notes: Focus 1” record sheet (CN1); see page 94 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

#### Teacher Note

The Writing Time routine established early in the year helps the students settle quickly into focused writing. To learn more, view “Predictable Structure of the Writing Lessons” (AV3).

Step 3 (all)

## SHARING AND REFLECTING

### 4 Reflect on Researching and Taking Notes

Have partners review their notes together. Ask:

- Q *What was it like to take notes in your own words today? Read us one of your notes.*
- Q *What is one interesting fact you and your partner learned about your topic today?*
- Q *Take a look at your pre-research writing. What have you learned about your topic that confirms (is the same as) what you thought you knew? What have you learned that is different from what you thought you knew?*

Explain that partners will begin organizing their notes tomorrow in preparation for writing their informational report. They will have time to continue researching their topic as well.

Provide rubber bands as needed and have partners bind together their cards and put them in their folder or another secure place until tomorrow.

## Day 2

## Organizing Research

### Materials

- *A Visit to Japan* from Week 2
- *Australia* from Week 1
- Collected nonfiction texts
- Your research notes written on 5" x 7" index cards
- Blank wall space to post note cards
- Blank cards to write section titles for your research notes
- Index cards and rubber bands
- “Writing Time” chart (WA9)
- “Class Assessment Record” sheet (CA6)

### In this lesson, the students:

- Modify and expand their thinking based on research
- Organize their notes in preparation for writing
- Reach agreement before making decisions
- Agree and disagree in a caring way
- Share the work fairly

## GETTING READY TO WRITE

### 1 Briefly Review

Gather the class with partners sitting together, facing the whiteboard. Review that they have been working in pairs to research and take notes about their topics.

Explain that nonfiction authors want their readers to become curious and learn about their topics, so they organize their information in ways that will interest readers and be easy to understand.

Review that the students have seen many ways authors organize nonfiction information. Show the covers of *A Visit to Japan* and *Australia*, and remind the students that they heard these books earlier in the unit. Show the table of contents of *A Visit to Japan* and explain that

this book is organized by *subtopics*, or smaller topics within the larger topic of Japan. Then show the table of contents of *Australia* and explain that this book is also organized by subtopics. Explain that the students will organize their own nonfiction reports by subtopics this week.

## 2 Model Organizing Notes

Ask the students to watch as you model organizing your notes by subtopics. Read aloud the notes you wrote on index cards as you post them on a wall or the board. Explain that some of the notes can be put together because they are about the same subtopic. Model putting notes about similar subtopics together, and writing a heading for each category on an index card above each group of notes.

**You might say:**

"I have information about Australia's location and what its weather is like. I also have information about Australian animals. I'll write the subtopic headings that I think will be helpful to readers: *Geography and Climate* and *Animals*."

Ask:

**Q** *What other notes can we put together? What could we call this group of notes?*

If possible, use the students' suggestions to categorize the notes. Write a subtopic heading above each group of notes. If the students have difficulty categorizing the notes, continue to model while thinking aloud.

### TEKS 13.E.i

Student/Teacher Narrative  
Step 2 (all, beginning on page 399 and continuing on to page 400)

### Teacher Note

On Day 3, you will model drafting your report on the whiteboard as you refer to your research notes.

### Teacher Note

Prior to Day 3, research the students' suggestions and write additional notes on 5" x 7" index cards (about additional subtopics, if necessary).

### Teacher Note

You might choose to keep the cards posted for the Day 3 lesson.

### Facilitation Tip

Continue to **ask facilitative questions** to build accountability for listening and participation during class discussions. Redirect students' comments to the class by asking:

- Q *Do you agree or disagree with [Ricki]? Why?*
- Q *What questions can we ask [Ricki] about what she said?*
- Q *What can you add to what [Ricki] said?*

After categorizing your notes, point out that these are the facts that you will include in your written report about your topic. Ask:

- Q *Do you think I have enough information for my report? Why or why not?*
- Q *Which subtopics do you think might need more information? Why?*
- Q *What additional subtopics might I want to include in my report? Why?*

#### Students might say:

"You only have one note under 'Favorite Sports.' You might want to add a few more notes to that subtopic."

"Maybe you can include information about the languages spoken in Australia."

Use rubber bands to bind together each group of notes with its heading.

## 3 Discuss How Partners Will Work Together

Explain that today each pair of students will organize their notes into subtopics (groups), write the names of the subtopics on blank index cards, decide where they need more information and do more research, and bind together each group of notes with the name of its subtopic.

Point out that there are usually multiple ways that notes can be organized and that partners will need to talk until they agree on the best way to organize their notes. Ask and briefly discuss:

- Q *If you and your partner disagree about how to organize your notes, what will you do?*
- Q *Why is it important to disagree in a respectful way?*

Point out that people sometimes disagree when they are working together and that people can disagree while maintaining respect for one another. Encourage partners to be aware of how they are disagreeing with each other and tell them that you will check in with them at the end of the lesson.

Ask partners to spend a few minutes discussing what they will do and how they will share the work in a fair way.

## WRITING TIME

### 4 Organize Notes for Writing

Have the students get their research notes, folders, and pencils and sit at desks with partners together. Display the "Writing Time" chart ( WA9) and have partners work on the charted tasks for 20–30 minutes. When

pairs of students have finished organizing their notes, have them signal to you so you can review their work.

WA9

### Writing Time

- Organize your notes into subtopics (groups).
- Write the names of the subtopics on index cards.
- Decide where you need more information and continue researching.
- Bind together the groups of notes with the subtopic headings.

As the students work, circulate, observe, and assist as needed.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do partners seem able to categorize their notes in ways that make sense?
- Do they categorize all their notes?
- Are they able to agree on how to categorize their notes?
- If they don't agree at first, do they keep talking until they reach agreement?

Support any pair that struggles by asking questions such as:

- Q *What notes seem to belong together? Why do you think so?*
- Q *What other notes could go into your ["Food"] group? Why do you think so?*

Be aware that categorizing information can be challenging for some students; this is to be expected. They may have difficulty defining subtopics or consistently sorting their notes into those subtopics. They may want to discard notes that do not fit, or become preoccupied with having the same number of notes in each subtopic. Encourage them to try their best to organize all their notes in a way that makes sense (perhaps creating an "Other Interesting Facts" category for outliers).

Record your observations on the "Class Assessment Record" sheet (CA6); see page 89 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Partner Work

Ask:

- Q *Which subtopics did you and your partner decide you needed more information about? What made you decide that?*
- Q *Did you and your partner disagree about anything when you were organizing your notes? If so, what? What did you do to disagree in a respectful way? How did you reach agreement?*

Explain that tomorrow partners will finish organizing their notes, if necessary, and begin writing their informational reports.

Have partners put their work away in a secure place until tomorrow.

#### Teacher Note

Allow students who need more time researching to do so before you teach the Day 3 lesson.

---

## EXTENSION

### Discuss Elements of Nonfiction Across the School Day

Take time at the end of independent reading periods and other times during the day to discuss the nonfiction students are reading. Have the students share the titles and authors of the books they are reading and explain what the books are about. Discuss questions such as:

- Q *How do you know that the book you are reading is nonfiction?*
- Q *What true information are you learning about from the book?*
- Q *What features (such as illustrations, captions, diagrams, graphs, tables of contents, and glossaries) of nonfiction do you see in your book?*

## In this lesson, the students:

- Order their grouped notes in preparation for writing
- Decide how they will share the writing fairly
- Begin drafting their informational reports
- Include facts, details, definitions, and other information related to their topics
- Check for understanding
- Reach agreement before making decisions

## GETTING READY TO WRITE

### 1 Review Ways to Organize Nonfiction

Gather the class with partners sitting together, facing the whiteboard. Review that they have grouped their research notes into subtopics in preparation for writing. Explain that today partners will put their grouped notes in the order in which they want to write about them and that they will then begin writing drafts of their reports. Ask:

**Q** *What have you found out about your country that you think other people will be excited or curious to learn about? Turn to your partner.*

After partners have talked, signal for their attention and explain that you will model ordering your grouped notes and beginning to write a draft.

### 2 Model Ordering Your Notes and Beginning a Draft

Direct the students' attention to your posted index cards. Think aloud about the order in which you want to introduce each subtopic.

#### You might say:

"I think I will write about Australian animals first, because I think those facts will really capture my reader's attention. Then I will write about native people, school, sports, and the languages spoken in Australia, in that order."

Display the lined writing chart (WA10). Read aloud your first group of notes and think aloud about how you might want to start writing this section of your report. Explain that you want to grab your reader's attention and provide facts, details, definitions, and other information to make your report clear and accurate (correct).

## Materials

- Your grouped research notes from Day 2, posted near the whiteboard
- Lined writing chart (WA10)
- "Writing Time" chart (WA11)
- Loose, lined paper for writing drafts
- "Class Assessment Record" sheet (CA7)

**You might say:**

“For the subtopic ‘Animals,’ I have notes about marsupials, wombats, and why the animals in Australia are different. I think I will grab my reader’s attention by writing a beginning about the unusual animals in Australia. That will make my readers curious, and it will communicate some important facts about Australia.”

Model writing a few sentences about this subtopic, double-spaced, on the chart, pointing out the notes you are using as you write. Ask:

- Q *What is another sentence I can write about [Australian animals]?*
- Q *What shall I tell about next? What sentence can I write to tell about that?*
- Q *What is a fact, detail, or definition I can include to make this report as clear and accurate as possible?*

WA10

Animals

To see unusual animals, just go to Australia! Many of the

animals there are different from animals you'll find anywhere

else. Australia is an island, so the animals there have evolved

separately from the animals in other parts of the world.

One type of animal found in Australia is the marsupial.

Most female marsupials have pouches to carry their babies in. A

kangaroo is a marsupial, and so is a wombat. What is a wombat?

It looks like a small bear, although some people think it looks like

a pig. A wombat likes to burrow in the ground. In fact, it is the

largest burrowing animal in the world.

Use the students' suggestions to write a few more sentences. If the students have difficulty suggesting sentences, model writing a few more yourself. Point out that you are trying to write in a way that makes the subject as interesting and clear as possible for your readers.

### 3 Discuss How Partners Will Work Together

Explain that today partners will work together to order their notes, reread their notes to make sure the order makes sense, and begin writing. Tell them that you expect both partners to participate in the writing, so they will need to decide who will write which subtopics (groups). They will put the parts together into one report when they publish it for the class.

Ask partners to spend a few minutes discussing what they want to accomplish today and how they will share the work in a fair way. After a moment, signal for the students' attention. Ask and briefly discuss:

**Q** *What part of your pair work are you responsible for today?*

## WRITING TIME

### 4 Begin Drafting Informational Reports

Have the students get their research notes, folders, and pencils, and sit at desks, partners together. Display the "Writing Time" chart (WA11) and have partners work for 20–30 minutes to order their notes and draft their informational report.

#### Writing Time

- Arrange your subtopics (grouped notes) in the order in which you want them to be in your report.
- Reread your notes and make sure the order makes sense.
- Begin writing a draft of your report, double-spaced, on loose, lined paper.
- Try to grab your reader's attention and provide facts, details, definitions, and other information.
- Share the writing fairly.

WA11

As the students work, circulate, observe, and offer assistance as needed.

### Teacher Note

Save the model draft on the lined writing chart (WA10) to use on Day 4 and throughout the unit.

**TEKS 11.B.xii**

**TEKS 12.B.i**

Student/Teacher Activity

Step 4 (all, beginning on page 405 and continuing on to page 406)

### ELL Note

Monitor trios of students to make sure that ELLs are participating in the work. Students who speak limited English may not be able to help with the writing. If necessary, help them contribute to their trio's work in other ways, such as by reading the research notes aloud or by drawing and labeling diagrams to accompany the final report.

### Teacher Note

For more information, view “Managing Pair Conferences” (AV8).

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners able to decide on an order of the subtopics for their report?
- Does the order make sense?
- Are both partners writing sections of their report?
- Are the students able to use their notes to write coherently about their topics?
- Are they double-spacing their drafts?

Support any pair that struggles by asking questions such as:

- Q *What do you want to write about first to grab your reader’s attention?*
- Q *What do you want to write about next?*
- Q *What part is each partner working on? Is that a fair way to share the work? Why or why not? [What will you do differently to share the work fairly?]*

Record your observations on the “Class Assessment Record” sheet (CA7); see page 90 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Confer in Pairs About Drafts

Have partners read their writing to each other and check to make sure they each understand what the other has written. After a few moments, signal for their attention and ask:

- Q *Do you understand everything your partner wrote today? If not, what can you ask your partner to help you understand?*
- Q *If your partner is confused about something you wrote, how can you revise it to make it clearer?*

Invite volunteers to share examples from their own writing as they answer these questions.

### 6 Reflect on Partner Work

Ask and briefly discuss:

- Q *What did you do to take responsibility for your own part of the work today? How did that help your pair work?*
- Q *What did you and your partner do to reach agreement about how to write your informational report? If you didn’t agree at first, what did you do to reach agreement?*

Have the students place all of the papers related to their reports in their folders. If they have identified books or other resources about the countries they are researching, they may keep them in their desks to use later in the week.

## Drafting and Pair Conferring

# Day 4

### In this lesson, the students:

- Draft their informational reports
- Explore transitional words and phrases
- Include facts, details, definitions, and other information related to their topics
- Confer with one another about their drafts
- Work responsibly in pairs
- Share the work fairly

## GETTING READY TO WRITE

### 1 Explore Transitional Words and Phrases

Gather the class with partners sitting together, facing you. Review that they began writing drafts of their informational reports yesterday. Explain that they will continue to work on their drafts today.

Explain that one way the students might make their reports clearer and easier to follow is by adding *transitional words and phrases*. Explain that these are words and phrases that help readers connect ideas in a report. Direct the students' attention to the "Transitional Words and Phrases for Reports" chart. Read aloud the words and phrases listed on the chart. Ask:

**Q** *What other transitional words and phrases might you use in a report to help readers connect ideas?*

Add the students' ideas to the chart.

**TEKS 12.B.iii**  
Student/Teacher Narrative  
Step 2 (all, beginning on page 407 and continuing on to page 408)

### 2 Model Adding to a Draft

Explain that before the students work on their drafts, you will model adding to your draft. Display the model draft on the lined writing chart (WA10) from Day 3. Using the procedure from yesterday (see Day 3, Step 2 on page 403), model adding to your informational report by reading your notes, thinking aloud about what you might write, and writing. Include transitional words and phrases as you write. Also point out facts, details, definitions, and other information you are adding to your report.

### Materials

- "Transitional Words and Phrases for Reports" chart, prepared ahead
- Your grouped research notes from Day 2
- The model draft on the lined writing chart (WA10) from Day 3
- "Writing Time" chart (WA12)
- Loose, lined paper for writing drafts
- Class set of "Conference Notes: Focus 2" record sheets (CN2)

### Teacher Note

If you have already taught the Personal Narrative, Fiction, and/or Opinion Writing genre units, remind the students that they explored transitional words and phrases in those units. Explain that the transitional words and phrases listed on the chart are especially useful in nonfiction reports.

### Teacher Note

Save the "Transitional Words and Phrases for Reports" chart to use on Day 5 and throughout the unit.

### Technology Tip

For more transitional words and phrases, you might search online using the keywords "transitional words and phrases."

Elicit the students' help in developing more sentences. Ask questions such as:

- Q (Point to a note.) *I want to include this information about [the fact that native Australians are called Aboriginals and Torres Strait Islanders]. What sentence could I write to get this information across in an interesting way?*
- Q *What is another fact, detail, definition, or interesting piece of information I can include?*
- Q *What transitional word or phrase could I use here to make it clear that [I'm telling about a second way natives took care of the land]?*

WA10

Native Australians

The two native groups in Australia are Aboriginals and

Torres Strait Islanders. Today only 2 out of every 100 people

are native, but before 1788, when the first Europeans arrived,

all Australians were natives. Native Australians have a history

of taking excellent care of the land. For example, they used

only the plants and animals that they needed. Also, they were

careful not to waste anything—in other words, they did not

create much trash. Anyone who cares about the environment

can learn a lot by studying native Australian ways.

If the students have difficulty suggesting sentences, continue thinking aloud and writing a few more yourself. Point out that you are trying to make your report as interesting and clear as possible for your readers.

Encourage the students to continue to think about how to make their topics interesting and clear for their readers as they write today. Remind them to include facts, details, definitions, and other interesting information and to use transitional words and phrases to connect ideas.

### 3 Discuss How Partners Will Work Together

Remind the students that you expect both partners to participate in the writing. They will each write different parts (subtopics), and then they will put the parts together into one report when they publish it for the class.

Ask partners to spend a few minutes reviewing what they have written so far and deciding what they will write today.

## WRITING TIME

### 4 Draft Informational Reports

Display the “Writing Time” chart (🗨️ WA12). Have partners sit together at desks and work silently for 20–30 minutes to draft their informational reports. When pairs of students seem to be working independently, confer with one pair at a time.

WA12

#### Writing Time

- Continue writing your report.
- Try to grab your reader’s attention and provide facts, details, definitions, and other information.
- Use transitional words and phrases to connect ideas.
- Share the writing fairly.

### TEACHER CONFERENCE NOTE

This week and next, confer with individual pairs about their drafts. Ask partners to read their drafts aloud and to tell you their plan for their report. Ask questions such as:

- Q *What did you write in your pre-research writing that you want to include in your draft?*
- Q *What questions did you originally write that you will answer in your draft?*
- Q *How did you group and order your notes? What made you decide to organize them that way?*
- Q *What is a fact, detail, definition, or other piece of information that would help your reader learn about [the languages spoken in India]?*
- Q *What transitional word or phrase might you use to help the reader move from this idea to the next one?*
- Q *What else do you want to know? What sources might you use to find information about that?*

Document your observations for each student on a separate “Conference Notes: Focus 2” record sheet (CN2); see page 95 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Confer in Pairs About Drafts

Have partners read their writing to each other and check to make sure they each understand what the other has written. After a few moments, signal for their attention and ask:

- Q *Do you understand everything your partner wrote today? If not, what can you ask your partner to help you understand?*
- Q *If your partner is confused about something you wrote, how can you revise it to make it clearer?*

Invite volunteers to share examples from their own writing as they answer these questions.

### 6 Reflect on Partner Work

Ask and briefly discuss:

- Q *What did you do to take responsibility for your part of the work today? How did that help your pair work?*
- Q *What did you and your partner do to reach agreement about how to write your informational report? If you didn't agree, what did you do to reach agreement?*

Have each pair of students put papers related to their informational report in their folder.

## Day 5

## Drafting and Pair Conferencing

### Materials

- “Transitional Words and Phrases for Reports” chart from Day 4
- “Writing Time” chart (WA12) from Day 4
- Loose, lined paper for writing drafts

### In this lesson, the students:

- Draft their informational reports
- Include facts, details, definitions, and other information related to their topics
- Explore transitional words and phrases
- Confer with one another about their drafts
- Work responsibly in pairs
- Share the work fairly

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders, report drafts, and pencils and gather with partners sitting together, facing you. Review that they

have been writing drafts of their informational reports. Remind the students that they have been using facts, details, definitions, and other information in their reports and connecting those ideas using transitional words and phrases. Ask:

- Q *Why is it important to use facts, details, definitions, and other interesting information and examples in your report?*
- Q *Why is it important to use transitional words and phrases to connect ideas in your report?*

**Students might say:**

"I want to give facts in my report because I want my readers to learn true information about [Zimbabwe]."

"Details are important to include because they make writing more interesting to read."

"I want to define a word when I think readers might not know it. Otherwise, readers could lose interest and stop reading."

"It's important to use transitional words and phrases to help readers move from one idea to the next one, so they don't get confused."

Ask the students to reread what they have written so far and to notice whether their reports are interesting and make sense. Discuss:

- Q *What do you notice about what you've written so far?*
- Q *What do you want to do today as you work to complete this draft?*

**Students might say:**

"I notice that I left something out."

"My report seems like a list of facts. I want to make it more interesting."

"I want to work on the order of the information for one subtopic so it makes more sense."

## 2 Discuss How Partners Will Work Together

Explain that today partners will continue to draft their reports. If a partner finishes the part of the draft he has been working on, then both partners should review that part to make sure it is clear and complete. If partners agree that this part is complete, then they should choose another of their subtopics for the partner to work on.

Ask partners to spend a few minutes reviewing what they have written so far and deciding what they will write today.

## WRITING TIME

### 3 Draft Informational Reports

Display the "Writing Time" chart (C WA12). Have partners sit together at desks and work for 20–30 minutes to draft their informational reports.

### Writing Time

- Continue writing your report.
- Try to grab your reader's attention and provide facts, details, definitions, and other information.
- Use transitional words and phrases to connect ideas.
- Share the writing fairly.

When the students seem to be working independently, confer with one pair at a time.

### TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about their drafts. Ask partners to read their drafts aloud and to tell you their plan for their report. Ask questions such as:

- Q *What did you write in your pre-research writing that you want to include in your draft?*
- Q *What questions did you originally write that you will answer in your draft?*
- Q *How did you group and order your notes? What made you decide to organize them that way?*
- Q *What is a fact, detail, definition, or other piece of information that would help your reader learn about [the languages spoken in India]?*
- Q *What transitional word or phrase might you use to help the reader move from this idea to the next one?*
- Q *What else do you want to know? What sources might you use to find information about that?*

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 95 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Confer in Pairs About Drafts

Have partners read their writing to each other and check to make sure they each understand what the other has written. After a few moments, signal for their attention and ask:

- Q *Do you understand everything your partner wrote today? If not, what can you ask your partner to help you understand?*
- Q *If your partner is confused about something you wrote, how can you revise it to make it clearer?*

Invite volunteers to share examples from their own writing as they answer these questions.

### 5 Reflect on Partner Work

Ask and briefly discuss:

- Q *What did you do to take responsibility for your own part of the work today? How did that help your pair work?*
- Q *What did you and your partner do to reach agreement about how to write your informational report? If you didn't agree, what did you do to reach agreement?*

Have pairs of students put all the papers related to their informational reports in their folders.

# Week 5

## OVERVIEW

### Writing Focus

- Students finish drafting their informational reports.
- Students write introductions and endings for their reports.
- Students analyze and revise their reports.
- Students write author biography sections.
- Students confer with one another and the teacher.

### Social Development Focus

- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students help one another improve their writing.
- Students work in a responsible way.
- Students build on one another's thinking.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA10, WA13–WA17

#### Assessment Forms

- “Class Assessment Record” sheet (CA8)
- “Conference Notes: Focus 2” record sheet (CN2)

#### Professional Development Media

- “Building a Community of Writers” (AV1)
- “Asking Facilitative Questions” (AV22)

## DO AHEAD

- ✓ Prior to Day 2, think about what you might include in an introduction to your report.
- ✓ Prior to Day 3, finish writing the model draft of your informational report.
- ✓ Prior to Day 3, prepare a sheet of chart paper titled “Revising Informational Reports” with the following questions written on it:  
*Order: Does the order of information make sense? How might I change it?*  
*Interest: What might I change to better capture my reader’s interest?*  
*Completeness: What more do I need to add so the report gives enough information about the country?*
- ✓ Prior to Day 4, decide how you will combine pairs of students to form groups of four.
- ✓ Prior to Day 4, prepare a sheet of chart paper titled “Does It All Make Sense?” with the following questions written on it:  
*Does this writing make sense? Can I track what the author is saying?*  
*Is there a place where I am confused? Where?*  
*What have I heard in this report that makes me curious?*
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA8) on page 91 of the *Assessment Resource Book*.

## TEACHER AS WRITER

*“To me, writing a book is a great voyage of discovery; what attracts me to a subject in part is what I don’t know about it, what I can learn from it.”*

— David McCullough

Think about the subjects you are attracted to. What is something you would like to know about one of those subjects? Write your reflections in your notebook.

# Day 1

## Drafting and Pair Conferencing

### Materials

- *The Ultimate Fact Book* from Week 2
- The model draft on the lined writing chart (WA10) from Week 4
- Chart paper and a marker
- “Writing Time” chart (WA13)
- Loose, lined paper for writing drafts

### Facilitation Tip

Continue to practice **asking facilitative questions** during class discussions to help the students respond directly to one another. Redirect students' comments to the class by asking:

- Q *Do you agree or disagree with [Talulah]? Why?*
- Q *What questions can we ask [Talulah] about what she said?*
- Q *What can you add to what [Talulah] said?*

To see this Facilitation Tip in action, view “Asking Facilitative Questions” (AV22).

### In this lesson, the students:

- Explore and write interesting introductions
- Draft their informational reports
- Make decisions about the completeness of a draft
- Check each other's writing for understanding
- Give feedback in a helpful way

### MORE ABOUT FACILITATING PARTNER WORK

This week students in each pair combine their writing into a single report, write an introduction and conclusion together, and make many decisions. Partners also give each other feedback about their writing. This cooperative work may challenge your students. If you notice partners struggling to work together, ask them questions such as:

- Q *What problem are you trying to solve? Why is it important to solve it?*
- Q *What is a solution you can both live with, even if it's not your first choice?*
- Q *Is that solution fair to both of you? Why or why not?*

## GETTING READY TO WRITE

### 1 Explore Interesting Introductions

Have the students bring their folders and gather with partners sitting together, facing you.

Remind the students that their published reports will be placed in the class library for other students to read. Explain that today the students will spend some time thinking about what they want to write at the very beginning of their reports to capture the reader's attention. Show the cover of *The Ultimate Fact Book* and explain that the students will explore how the author of this book chose to begin it.

Show and read the first two paragraphs on page 7 of *The Ultimate Fact Book* aloud; then ask and briefly discuss:

- Q *What is the author doing on this page to prepare the reader for what is coming in the book?*
- Q *What does the author do to get you interested in reading this book?*

**Students might say:**

"The author prepares you for all the information about countries in the book by sharing what sparked his interest in learning about different parts of the world. That makes you feel interested too."

"The author describes what a big deal the National Geographic Bees are. Since this book helped him win one year, knowing how big those contests are makes you interested in seeing how he organized his study guide and what he included in it."

If necessary, point out that the author wrote an opening that captures the reader's attention.

## 2 Model Writing an Interesting Introduction

Ask the students to watch as you model writing an interesting introduction. Display the model draft on the lined writing chart (WA10) from Week 4. Model writing an introduction on a sheet of chart paper, thinking aloud about what you might write.

**You might say:**

"For this report, I think I'll write an introduction similar to Andrew Wojtanik's. I'm going to share with the reader how I got interested in researching Australia and what it was like to work on my report. I want to communicate my excitement about the topic to my readers."

As you write, elicit the students' help. Ask questions such as:

- Q *What can I write to make readers feel excited about my topic?*
- Q *How can I get readers curious to learn about Australian animals?*
- Q *What is an interesting detail I could include about Australian schools that will make readers want to find out more?*

### Introduction

Have you ever traveled to Australia? If so, you are lucky! If not, I hope that by reading this report you will feel almost as if you have been there.

In this report you will read about the unique animals of Australia, including ones you are familiar with, like kangaroos, and ones that might be new to you, like wombats. You will find

out about the native people of Australia and their powerful connection to the land. You will learn about Australian schools, including the “School of the Air.” Finally, you will find out what the most popular Australian sports are.

So buckle your seatbelt and get ready to travel to the “land down under.” I hope this voyage will make you eager to keep learning about Australia—and perhaps one day to take an actual trip to this amazing country.

If the students have difficulty suggesting sentences, continue thinking aloud and writing a few more yourself. Point out that you are trying to make your introduction as interesting as possible for your readers so they will want to read your report.

Tell the students that authors introduce their books in many different ways, and suggest that the students look at some of the introductions in the resources they have used to get other ideas.

### 3 Discuss How Partners Will Work Together

Explain that today partners will decide on the type of introduction that they will write, discuss how they will share the work of writing it, and begin writing. They will also finish drafts for all of their subtopics.

Ask partners to spend a few minutes discussing what they want to accomplish today.

## WRITING TIME

### 4 Continue Drafting Informational Reports

Display the “Writing Time” chart (WA13). Have partners sit together at desks and work on the charted tasks for 20–30 minutes.

#### Writing Time

- Decide on the type of introduction you will write.
- Write your introduction.
- Finish writing the drafts for all your subtopics.

## TEACHER CONFERENCE NOTE

As you did in Week 4, continue to confer with individual pairs about their drafts. Ask partners to read their drafts aloud and to tell you their plan for their report. Ask questions such as:

- Q *What did you write in your pre-research writing that you want to include in your draft?*
- Q *What questions did you originally write that you will answer in your draft?*
- Q *How did you group and order your notes? What made you decide to organize them that way?*
- Q *What is a fact, detail, definition, or other piece of information that would help your reader learn about [the languages spoken in India]?*
- Q *What transitional word or phrase might you use to help the reader move from this idea to the next one?*
- Q *What can you write in your introduction to make your reader want to keep reading?*

Document your observations for each student on a separate “Conference Notes: Focus 2” record sheet (CN2); see page 95 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Confer in Pairs About Drafts

Ask partners to read to each other what they have written today and to make sure they each understand what the other has written. Give them time to clarify any confusion in their writing. Briefly discuss:

- Q *What type of introduction did you decide to write? How did you share the work of writing it?*

### Teacher Note

Questions like this help the students develop good working relationships with their partners. When students feel connected to others, they learn to relax and take the risks necessary to grow academically, socially, and ethically. For more information, view “Building a Community of Writers” (AV1).

## 6 Reflect on Partner Work

Ask and briefly discuss:

**Q** *Did you and your partner disagree about anything today? If so, what did you do to reach agreement?*

Explain that tomorrow partners will think about writing an ending for their reports and will finish their drafts. Have the partners put all the papers related to their informational report in their folder.

---

## EXTENSION

### Explore Strong Opening Sentences for Subtopics

Remind the students that the opening sentences of a piece of writing need to grab the reader’s attention, making him want to keep reading. Review that informational reports are usually divided into sections, with each section featuring a different subtopic. Explain that good nonfiction writers pay attention to the opening sentences of each section, making them as interesting as possible so that readers will want to read about each subtopic.

Read the opening sentences from a few chapters in *Mexico* (for example, you might read the opening sentences on pages 10, 18, 20, 24, and 26). Discuss as a class what the author does in these opening sentences to make the reader curious to learn more. Then have the students revise the opening sentences of their subtopics as needed in order to grab the reader’s attention.

## In this lesson, the students:

- Explore endings that bring a report to a close
- Finish drafting their informational reports
- Reach agreement before making decisions
- Check each other's writing for understanding
- Give feedback in a helpful way

## GETTING READY TO WRITE

### 1 Analyze Closing Sentences

Have the students bring their *Student Writing Handbooks* and pencils and gather with partners sitting together, facing you. Explain that today you will ask them to think about an important feature of informational reports: endings that bring a report to a close.

Explain that the closing sentences of a piece of writing need to wrap up the piece. Explain that you will read the closing sentences from the book *Mexico*, which they heard earlier, and ask them to think about how the author brings the book to a close.

Show and read page 27 of *Mexico* aloud; then ask and briefly discuss:

- Q *What does the author do to wrap up this book?*
- Q *What words, phrases, or sentences show you that you have reached the end of the book?*

#### Students might say:

"The author gives a summary of some of the subtopics she covered in the book."

"She says 'As you have seen.' That's kind of like saying 'you've reached the end of the book.'"

"She also says 'If you ever visit Mexico, you might see something you learned from this book.' That's like saying 'I've taught you what I can; now maybe you can go to Mexico and see for yourself what I wrote about.'"

Have the students open their *Student Writing Handbooks* to page 18, where the closing sentences of three informational reports are reproduced. At the same time, display the "Closing Sentences from Three Informational Reports" chart (WA14). Explain that these

**Q** *What words, phrases, or sentences show you that you have reached the end of the report?*

As volunteers respond, underline the words, phrases, and sentences they mention on the chart.

Ask the students to work in pairs to read the remaining closing sentences and underline phrases and sentences that they feel are especially effective at wrapping up the reports.

After several minutes, signal for the students’ attention. Ask volunteers to report what they talked about for each of the closings, and underline words, phrases, and sentences they mention on the chart. As they report, ask:

**Q** *How does that [word/phrase/sentence] help wrap up the report?*

## 2 Discuss How Partners Will Work Together

Explain that today partners will decide what to write as their closing sentences, discuss how they will share the work of writing them, and write them. If they have not finished drafts for all of their subtopics, they will do so.

Ask partners to spend a few minutes discussing what they want to accomplish today.

## WRITING TIME

### 3 Finish Drafting Informational Reports

Have the students get their folders, notebooks, and pencils and sit at desks with partners together. Display the “Writing Time” chart (WA15) and have partners work on the charted tasks for 20–30 minutes.

#### Writing Time

- Decide what you will write to wrap up your report.
- Write your closing sentences.
- Finish writing the drafts for all your subtopics.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Confer in Pairs and Reflect

Have partners read their writing from today to each other and check to make sure each of them understands what the other has written. Give them time to clarify any confusion in their writing. Ask and briefly discuss:

- Q *What did you decide to write in your closing sentences? How did you share the work of writing it?*
- Q *Did you and your partner disagree about anything today? If so, what did you do to reach agreement?*

Explain that tomorrow partners will begin to revise their drafts. Have partners put all the papers related to their informational report in their folder.

### Teacher Note

If the students in many pairs still need time to finish writing their drafts, give them an opportunity to do this before moving on to Day 3.

### In this lesson, the students:

- Check their drafts for order, interest, and completeness
- Share the work fairly
- Work responsibly in pairs
- Discuss and solve problems that arise in their work together

## GETTING READY TO WRITE

### 1 Model Analyzing and Revising a Draft

Have the students bring their folders and pencils and gather with partners sitting together, facing you. Explain that today partners will reread their drafts to see what they need to add or change to improve them.

Explain that you want to check three things about your draft today. Direct the students’ attention to the “Revising Informational Reports” chart (see “Do Ahead” on page 415) and read the listed items aloud. Explain that you would like the students’ feedback to help you revise your draft. Explain that you will read your draft aloud as the students think about the three listed items. Display the model draft on the lined writing chart (WA10) from Day 1 and read it aloud.

### Revising Informational Reports

*Order: Does the order of information make sense? How might I change it?*

*Interest: What might I change to better capture my reader’s interest?*

*Completeness: What more do I need to add so the report gives enough information about the country?*

Use “Think, Pair, Share” to discuss each of these three items. Revise your draft based on the students’ suggestions and your own thinking.

**You might say:**

"I originally thought that after my introduction I would write about Australia's animals. It might make more sense to start with the section on native people because that section includes information about Australia's geography and history. Knowing that information would be useful to readers as they read the rest of my report."

## 2 Analyze Drafts

Ask the students to silently read their drafts, thinking about the questions related to order, interest, and completeness. Once most students have finished reading, ask partners to talk with each other about their thinking, discussing the changes and additions that they might make.

After a few minutes, signal for the students' attention and discuss:

- Q *What did you and your partner discuss about the order of the information in your report?*
- Q *What do you plan to add to your draft? Why?*

## 3 Discuss How Partners Will Work Together

Explain that today partners will make the changes and additions they have discussed.

Ask partners to spend a few minutes deciding what they want to accomplish today and how they will share the work fairly.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Partner Work

Ask and briefly discuss:

- Q *How did you and your partner take responsibility for your own parts of the work today?*
- Q *What problems did you have? What will you do tomorrow to avoid those problems?*

Explain that partners will get feedback from another pair of students tomorrow. Have partners put all the papers related to their informational report in their folder.

## In this lesson, the students:

- Ask for and receive feedback about their writing
- Give feedback in a helpful way
- Ask one another questions about their writing
- Discuss and solve problems that arise in their work together
- Finish drafting their informational reports
- Include one another and contribute to group work

## GETTING READY TO WRITE

### 1 Prepare for Group Conferences

Have the students bring their folders and gather with partners sitting together, facing you. Explain that today each pair will meet with another pair to confer about their informational reports (see “Do Ahead” on page 415.) They will share their drafts and get feedback from the other pair about anything confusing or unclear; then each pair will make any necessary revisions until they are convinced that their report makes sense and is complete.

Remind the students that in the writing community, the goal of giving feedback is to help each person create the best possible piece of writing. In pairs and then as a class, discuss:

- Q *What have you learned about giving feedback respectfully? Turn to your partner.*
- Q *What problems can arise when giving feedback? How will you avoid those problems today? Turn to your partner.*

### 2 Prepare to Give Feedback: Does It All Make Sense?

Explain that, as the students listen to one another’s writing, you would like them to ask themselves some questions. Direct the students’ attention to the “Does It All Make Sense?” chart (see “Do Ahead” on page 415) and read the questions aloud.

## Materials

- “Does It All Make Sense?” chart, prepared ahead
- The model draft on the lined writing chart (WA10) from Day 3
- Loose, lined paper for writing drafts
- “Class Assessment Record” sheet (CA8)

**ELPS 5.G.ii**  
Steps 3–5  
(all, beginning on page 427 and continuing on to page 429)

## Does It All Make Sense?

Does this writing make sense? Can I track what the author is saying?

Is there a place where I am confused? Where?

What have I heard in this report that makes me curious?

Display the model draft on the lined writing chart (WA10) from Day 3. Help the students practice giving feedback about these questions by reading your draft aloud, including your revisions. Use “Think, Pair, Share” to have partners consider and discuss the questions about your draft. Then ask a few volunteers to give you feedback about your draft using the questions.

Encourage the students to listen carefully to their group members when conferring and be ready to report the feedback they heard to the class.

### 3 Confer in Groups

Have pairs move into the groups of four you have assigned. Give them ample time to read aloud their drafts and confer. As they work, circulate, observe, and offer assistance.

### CLASS ASSESSMENT NOTE

Circulate among conferring groups of four. Observe the students and ask yourself:

- Are groups staying on task, reading and discussing their writing?
- Are group members asking one another questions about their drafts?
- Are they giving feedback in a helpful and respectful way?

Make note of any problems you notice groups having to bring up during the reflection discussion.

Record your observations on the “Class Assessment Record” sheet (CA8); see page 91 of the *Assessment Resource Book*.

When most groups have had time to discuss their drafts, signal for the class’s attention.

## 4 Reflect on Feedback Received

Ask and briefly discuss as a class:

**Q** *What did the members of your group do to be respectful during your conference?*

Remind the students that authors pay close attention to feedback about what is unclear or confusing in their writing. Although authors might not follow every suggestion they receive, the feedback helps them improve their work until it is the best piece of writing possible. Use “Think, Pair, Share” to discuss:

 **Q** *What feedback did you hear today that you might use when you rewrite your draft? [pause] Turn to your partner.*

**Q** *What feedback do you want to think more about before deciding whether to use it or not? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class.

## 5 Discuss How Partners Will Work Together

Explain that today partners will work together to make any agreed-upon revisions and reread their drafts to make sure they are as clear, interesting, and complete as they can be.

 Ask partners to spend a few minutes deciding what they want to accomplish today and how they will share the work.

# WRITING TIME

## 6 Revise Informational Reports

 Have partners sit together at desks and work for 20–30 minutes to make the changes and additions as they discussed.

As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with one pair at a time.

### TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about their drafts. Ask partners to read their drafts aloud and to tell you their plan for their report. Ask questions such as:

## EXTENSION

### Teach Cooperative Structures for Group Work

Look for opportunities throughout the school day for the students to work in groups of four (or three or five, if necessary). Two cooperative structures you can teach them to use during group work are "Heads Together" and "Group Brainstorming" (see "Cooperative Structures" on page xxx). Group work can be more challenging for students than pair work. Take time to discuss problems, as well as how group members are including one another and contributing responsibly to the work.

## In this lesson, the students:

- Explore and write author biography sections
- Finish drafting their informational reports
- Reach agreement before making decisions
- Check each other's writing for understanding
- Give feedback in a helpful way

## GETTING READY TO WRITE

### 1 Explore "About the Author" Sections

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Explain that today you will ask them to think about an important feature of informational reports: sections that tell about the author.

Explain that these sections give information about the author's life and often his or her expertise (knowledge) of the topic discussed in the book. Explain that you will read the section titled "About the Author" from the back cover of the book *Mexico*, which they heard earlier, and ask them to think about what they learn about the author.

Have the students open their *Student Writing Handbooks* to page 19, where the "About the Author" section from *Mexico* is reproduced. At the same time, display the "Excerpt from *Mexico*" chart (WA16). Together read the passage; then ask and briefly discuss:

- Q *What do you find out about the author?*
- Q *What words or phrases show you that the author is an expert on the subject of Mexico?*

#### Students might say:

"I found out that geography is her favorite topic to write about."

"'Colleen has written more than 100 nonfiction books for kids.' That shows she really knows what she's doing when she writes a book like this."

"In addition to what [Gino] said, the sentence 'She worked on books about countries and cultures around the world' shows that she has a lot of experience with writing about countries."

As volunteers respond, underline the words and phrases they mention on the chart.

## Materials

- "Excerpt from *Mexico*" chart (WA16)
- *Student Writing Handbook* page 19
- The model draft on the lined writing chart (WA10) from Day 4
- "Writing Time" chart (WA17)
- Loose, lined paper for writing drafts

## 2 Model Writing a Section About the Author

Ask the students to watch as you model writing a section about the author. Display the model draft on the lined writing chart (WA10) from Day 4. Model writing a section about the author at the bottom of the document, below the last section, thinking aloud about what you might write.

### You might say:

"I want to let my readers know that I love Australia and that I have the necessary knowledge to write an accurate report about Australia. I also want to let my readers know a little bit about me as a person because I think if my readers feel connected to me, that will help make them interested in what I write."

As you write, elicit the students' help. Ask questions such as:

- Q *What can I write to let readers know that I have the knowledge needed to write this report?*
- Q *What can I share with readers to help them get to know me a little bit?*

WA10

About the Author

Lawrence Rabb has taught informational report writing

to hundreds of students in his twelve years as an elementary

school teacher. He enjoys helping his students understand the

importance of what he calls "getting the facts straight."

Mr. Rabb became interested in Australia when an Australian

family moved in next door. He loved listening to their musical

accents and hearing stories about their homeland. Since then

he has read many, many books, articles, and websites about this

fascinating country.

If the students have difficulty suggesting sentences, continue thinking aloud and writing a few more yourself. Point out that you are trying to make your writing demonstrate to your readers that you are a friendly, interesting person with expertise on the topic of Australia.

### 3 Discuss How Partners Will Work Together

Explain that partners will each contribute to their “About the Authors” section. They will talk with each other about what they might write and then each write their part. Suggest that the students look through the resources they have used to get other ideas for their “About the Authors” section.

Ask partners to spend a few minutes discussing what they want to accomplish today.

## WRITING TIME

### 4 Continue Drafting Informational Reports

Have the students get their folders and pencils and sit at desks, partners together. Display the “Writing Time” chart (WA17) and have partners work on the charted tasks for 20–30 minutes.

#### Writing Time

- Decide what you will each write about yourself.
- Share your ideas with your partner.
- Write your part of the “About the Authors” section.

WA17

As the students work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with one pair at a time.

### TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about their drafts. Ask partners to read their drafts aloud and to tell you their plan for their report. Ask questions such as:

- Q *What did you write in your pre-research writing that you want to include in your draft?*
- Q *What questions did you originally write that you will answer in your draft?*
- Q *How did you group and order your notes? What made you decide to organize them that way?*
- Q *What is a fact, detail, definition, or other piece of information that would help your reader learn about [the languages spoken in India]?*

(continues)

## TEACHER CONFERENCE NOTE *(continued)*

- Q *What transitional word or phrase might you use to help the reader move from this idea to the next one?*
- Q *What can you write in your introduction to make your reader want to keep reading?*
- Q *What closing sentences can you write to wrap up your report?*
- Q *How might you revise your report so it [makes sense/captures your reader's interest/gives enough information]?*
- Q *What might you write in an "About the Author" section to introduce yourself to your reader?*

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 95 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Confer in Pairs About Drafts

Ask partners to read to each other what they have written today and to make sure they each understand what the other has written. Give them time to clarify any confusion in their writing. Briefly discuss:

- Q *What was something you shared about yourself in your part of the "About the Authors" section?*

### 6 Reflect on Partner Work

Ask and briefly discuss:

- Q *Did you and your partner disagree about anything today? If so, what did you do to reach agreement?*

Tell the students they will publish the final versions of their reports next week. Have partners put papers related to their informational report in their folder.

# WRITING ABOUT READING

## Write Opinions About a Nonfiction Text

Remind the students that they have heard and read a great deal of nonfiction about countries over the past several weeks. Ask:

**Q** *What does a good informational book or report about a country include?*

As volunteers share, list their ideas where everyone can see them.

Explain that you will reread the book *Mexico*. Ask the students to think as they listen about which items on the list the book includes. Read the book aloud and stop periodically during the reading to have the students discuss the items they notice.

Explain that you would like the students to write an opinion piece about whether or not they think a particular nonfiction book is well written. Direct the students' attention to the list you just created and explain that one way of forming an opinion about the book is to consider whether it includes the characteristics or features that good informational books and reports about countries usually include. Ask the students to watch as you think aloud and model writing an opinion about *Mexico*. Be sure to support your opinion with information and features from the book and with information from the list of things to include in nonfiction about a country.

### You might say:

"I think that *Mexico* is an excellent example of informational text about a country. I'll start by writing: *The book Mexico by Colleen Sexton is an excellent example of a nonfiction text about a country.* Notice that I stated my opinion and put the book's title and the author's name in the opening sentence. Now I need to explain my thinking using facts and details. I'll write: *Sexton captivates the reader with the use of colorful photos, maps, fact boxes, and charts and helps the reader make sense of the text through a table of contents, glossary, an index, and other useful lists of information. Sexton's writing is clear and interesting; every sentence is easy to understand, and several chapters begin with opening sentences that capture the reader's imagination. The 'About the Author' section on the back cover leaves no doubt that Sexton is an expert writer of nonfiction about countries. Perhaps best of all, Mexico is filled with interesting facts, details, definitions, and other information.* Now I need a closing sentence. I'll write: *I highly recommend Colleen Sexton's book to readers curious to learn more about Mexico.*"

Tell the students that people may differ about how well written they think a particular published work is, and that is fine. The important thing is that they explain their thinking by using facts and details from the piece and information from the list of things to include in nonfiction about a country. Invite the students to write about *Mexico* or any of the other nonfiction texts read aloud earlier in the unit or that they read for their own research. Give them time to browse the titles, select a text, and reread it.

## Materials

- Read-aloud books from Weeks 1–2
- Collected nonfiction texts

## Teacher Note

If the students have difficulty generating ideas, think aloud about what the class has learned about expository nonfiction and add the items you mention to the chart. The list does not need to be exhaustive or perfectly mirror the following list but should include several of these items:

- Clear, interesting writing
- Maps, charts, illustrations, photos, captions
- Table of contents
- Glossary
- Subtopics with titles
- Subtopics organized in a way that makes sense
- Facts, details, definitions, or other information related to the topic
- Transitional words and phrases that help the reader connect ideas
- Strong opening sentences that grab the reader's attention
- Ending that brings a report to a close
- Introduction
- "About the Author" section
- Absence of punctuation, spelling, and grammar mistakes

When all of the students have selected and reread their texts, explain that they should each start their opinion piece with an opening sentence that states their opinion and includes the title of the text and the author's name, give a reason for their opinion and a fact or detail to support their reason, and provide a closing sentence that wraps up their writing. Have the students write about their opinions. If time permits, invite the students to share their opinions with the class.

# Week 6

## OVERVIEW

### Writing Focus

- Students proofread for spelling, grammar, and punctuation errors.
- Students write final versions of their informational reports.
- Students write tables of contents.
- Students publish completed reports.
- Students present their informational reports to the class from the Author’s Chairs.
- Students confer with one another and the teacher.

### Social Development Focus

- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students express interest in and appreciation for one another’s writing.
- Students give their full attention to the person who is speaking.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA18–WA22

#### Assessment Forms

- “Class Assessment Record” sheets (CA9–CA10)
- “Individual Writing Assessment” record sheet (IA1)
- “Student Self-assessment” record sheet (SA1)

#### Reproducible

- Expository Nonfiction genre unit family letter (BLM1)

#### Professional Development Media

- “Using Presentation Tools” tutorial (AV77)

## DO AHEAD

- ✓ Prior to Day 1, decide how the students will publish their final versions for the class library. For example, each pair of students might make a book (see “Tips for Managing the Program in Your Classroom” on page xli), a poster with the final version attached to it, or a multimedia presentation (see the technology extension “Create Multimedia Presentations” on page 445; also see Technology Mini-lesson 10, “Creating Presentations,” in Appendix A). Gather any necessary materials.
- ✓ Prior to Day 1, locate books with tables of contents in your collection of nonfiction books about countries to show as examples.
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA9) on page 92 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA10) on page 93 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student’s published piece.
- ✓ (Optional) If computers are available, you might have some students type and print out their drafts. You may want to recruit parent volunteers to help the students do so. In addition, you might teach Technology Mini-lesson 9, “Creating Documents,” in Appendix A.

## TEACHER AS WRITER

*“I get pieces, flashes of an idea, an image, and I won’t know what it means, but I’ll be fascinated by it. It’s all there in that first instant—it’s complete—but all I know is the wonder and the curiosity.”*

— Mekeel McBride

Think about the informational report you wrote as a model for the students over the past few weeks. What have you learned about the country as you researched and wrote about it? What surprised you? What are you curious about now? Jot your reflections in your notebook and consider writing more about this country at a later time.

### Materials

- *Student Writing Handbooks*
- “Nonfiction Passages with Run-on Sentences” chart (WA18)
- “Writing Time” chart (WA19)
- Supply of lined paper for final versions
- “Class Assessment Record” sheet (CA9)
- (Optional) Computers for typing and printing final versions

**ELPS 5.F.i**  
Step 3 and Step 4  
(all, beginning on page  
440 and continuing on  
to page 442)

### In this lesson, the students:

- Proofread for spelling and punctuation
- Listen for run-on sentences as they read their drafts aloud
- Begin writing their final versions
- Reach agreement before making decisions
- Share the work fairly

## GETTING READY TO WRITE

### 1 Prepare to Proofread First Drafts

Have the students get their folders, pencils, and *Student Writing Handbooks* and sit at desks with partners together. Remind the students that last week they completed the first drafts of their informational reports and began to revise them. Today each pair of students will continue to revise their draft and proofread it to be sure they have corrected all errors before publishing it. This will help their classmates easily read and understand it.

Remind the students that they learned to proofread their drafts for spelling and punctuation using the Word Bank and Proofreading Notes sections in the *Student Writing Handbook*. Explain that they will use these resources today to proofread their informational reports.

### 2 Discuss Proofreading for Spelling

Ask the students to begin rereading their drafts (even if they are not finished with them) and circle any words that they are not sure how to spell. Stop the students after a couple of minutes and ask:

**Q** *What words have you circled so far?*

Have a few volunteers report the words they circled. Have the students check the word bank to see if the words they circled are listed. If not, encourage them to check the spelling by another method during Writing Time today and to make sure to add the correctly spelled word to their word banks. The students can check the spelling of a word by asking you or another student, finding the word in a published book, or looking it up in a dictionary or online.

### 3 Discuss Proofreading for Run-on Sentences

Remind the students that their proofreading notes are a checklist of things to pay attention to when they proofread their drafts. Ask:

**Q** *What is listed in your proofreading notes that you will check for in your draft today?*

Point out that, in addition to checking for the rules already listed in their proofreading notes, such as capital letters at the beginnings of sentences and proper nouns (nouns that name a specific person, place, or thing), the students should also check for run-on sentences. Explain that a *run-on sentence* is usually made of two or more complete sentences that have been “run together” without a conjunction (connecting word) such as *or*, *and*, *so*, or *but*. Point out that run-on sentences often look like really long sentences.

Display the “Nonfiction Passages with Run-on Sentences” chart (WA18). Ask the students to watch and listen as you read the first passage aloud, pausing only at the commas and the periods. Ask:

- Q *What did you notice about the way the passage sounded when I read it?*
- Q *What run-on sentences do you notice in the passage?*

**Students might say:**

“It doesn’t sound right.”

“In addition to what [Wai] said, some of the sentences sound funny—like they go on too long.”

“I noticed a sentence that sounded like it might be two sentences squished together. It was confusing.”

If necessary, point out that right now the passage does not sound right when it is read aloud because it contains two run-on sentences. Model rereading the passage while thinking aloud about how to split the run-ons into several complete sentences, capitalizing the first word in each new sentence and adding a period at the end. Invite the students to help you.

**You might say:**

“Some of us think that the first sentence is a run-on. I agree. I can hear it when I read, ‘There are 4,000 islands in Japan most people live on the four biggest islands.’ That sounds like the end of one sentence and the beginning of another sentence squished together. I’ll put a period after *Japan* and capitalize *Most*. The second sentence sounds right. It’s a complete thought and a complete sentence all by itself, so I’ll leave it alone. I think that the third sentence is a run-on. I can hear it when I read, ‘Japan has many mountains and volcanoes some of the volcanoes erupt.’ That sounds like two sentences squished together. One suggestion I hear is to put a period between *volcanoes* and *some*, remembering to capitalize the *S* in *Some*.”

Follow this same procedure with the second passage on the “Nonfiction Passages with Run-on Sentences” chart.

## 4 Discuss How Partners Will Work Together

Review that the students will proofread their drafts for spelling and punctuation using their word banks and proofreading notes in their *Student Writing Handbooks*. Then they will read their drafts aloud and

### Skill Practice Note

The students will have more opportunities to practice proofreading for spelling and to practice recognizing run-on sentences in the other genre units. For more practice producing complete sentences and correcting run-on sentences, see Lesson 1 and Lesson 5 in the *Skill Practice Teaching Guide*.

listen for any run-on sentences. They should split run-ons into two or more complete sentences. Remind them to capitalize the first word of each complete sentence and add a period at the end. If they finish, they should begin copying their final drafts on loose, lined paper.

Ask partners to spend a few minutes discussing what they will work on today and how they will share the work fairly.

## WRITING TIME

### 5 Proofread and Write Final Versions

Display the “Writing Time” chart (WA19) and have partners work on the charted tasks for 20–30 minutes.

WA19

#### Writing Time

- Proofread your draft for spelling and punctuation.
- Check for run-on sentences.
- If you finish proofreading, begin copying your final version on loose, lined paper.

As the students work, circulate and observe, assisting as needed.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners working together fairly to write a final version of their informational report?
- Are they catching and correcting spelling, grammar, and punctuation errors?

Support any pair that struggles by asking questions such as:

- Q *What is each of you responsible for accomplishing?*
- Q *Is the way you are sharing the work fair? Why or why not?*
- Q *What can you do to share the work fairly?*
- Q *Why is it important that both of you do your part of the work on this project?*

Record your observations on the “Class Assessment Record” sheet (CA9); see page 92 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Reflect on Proofreading

Briefly discuss questions such as:

- Q *What corrections did you make when you proofread your draft?*
- Q *What words did you find in your word bank? How did you check on words that were not in the word bank?*
- Q *Who found errors using your proofreading notes? Tell us about them.*

Have partners put all the papers related to their informational report in their folder.

## EXTENSION

### Cite Print Sources in a Bibliography

Show page 31 of *Mexico* and explain that this is a *bibliography*, or a list of the sources that the author, Colleen Sexton, used to write her book. Tell the students that the bibliography usually appears at the end of a nonfiction piece. Explain that whenever the students refer to or use information from a book, article, website, or other source in their reports, they need to *cite* it, or list the source of the information in a bibliography.

Explain that each *citation*, or book, article, or website, in a bibliography needs to include enough information for readers to be able to identify and find the source, and that there are rules for how to list the information. Tell the students that they will learn what information to include when they cite a book or printed article.

Write the following citation example where everyone can see it:

Walters, Drew. Australian Animals. Chicago:  
Wonderkid Press, 2012. Print.

Point out that this is a book citation and that the parts of the citation are written in a specific order. Ask the students to listen as you describe each part.

#### You might say:

"The author's last name goes first, then the author's first name, separated by a comma. Notice there's a period at the end of the first name. The title of the book comes next, underlined. The city where the publisher of the book is located comes next, followed by a colon. Then comes the name of the publisher, followed by a comma and the year of publication. One more period follows, and then the type of the publication comes last. Here it's 'Print' because it's for a printed book. The citation ends with a period."

**TEKS 13.G.i**  
Student/Teacher Narrative  
Extension (all)

#### Technology Tip

You might also teach Technology Mini-lesson 8, "Citing Online Sources," in Appendix A.

#### Teacher Note

You might explain that the type of publication might be *print* or *web*.

List the parts of a book citation where everyone can see them:

- Author's last name (followed by a comma)
- Author's first name (followed by a period)
- Book title (underlined, followed by a period)
- City (followed by a colon)
- Publisher (followed by a comma)
- Year of publication (followed by a period)
- Type of publication (followed by a period)

**TEKS 13.G.i**  
Student/Teacher Activity  
Extension  
(paragraphs between charts on  
page 444)

Have partners gather their sources and work together to write a citation for a book. Then have volunteers from a few pairs write their citations where everyone can see them. Discuss the citations as a class.

Repeat the same procedure for an article citation, using the following citation and list:

Dinh, Tiffany. "Native Peoples of the Land Down Under." Journeys 10 February 2012: 3-6. Print.

- Author's last name (followed by a comma)
- Author's first name (followed by a period)
- Article title (in quotation marks with a period before the end quotation marks)
- Magazine name and edition number (underlined)
- Month and year of magazine edition (followed by a colon)
- Page numbers the article appears on (followed by a period)
- Type of publication (followed by a period)

Show the bibliography from *Mexico* again, and point out that the citations are organized in a list that is alphabetical by last name of author. Remind the students to write citations for all the sources they used in their research, and explain that they will organize these alphabetically into a bibliography to include at the end of their reports.

## TECHNOLOGY EXTENSION

### Create Multimedia Presentations

Have the students develop their informational reports into multimedia presentations. Begin by discussing the various types of multimedia the students might incorporate into their reports (for example, images, video, audio, or animations) and the ways that multimedia can make a report more informative and engaging. Then have the students work in pairs to determine how to present their reports visually.

For additional support, see Technology Mini-lesson 10, “Creating Presentations,” in Appendix A.

**TEKS 13.H.i**  
Student/Teacher Activity  
Technology Extension (all)

### Technology Tip

For more information about presenting reports visually and using presentation tools, view the “Using Presentation Tools” tutorial (AV77).

## Proofreading

## Day 2

### In this lesson, the students:

- Proofread for sentence fragments
- Write their final versions
- Add illustrations and captions
- Reach agreement before making decisions
- Share the work fairly

## GETTING READY TO WRITE

### 1 Prepare to Proofread First Drafts

Have the students get their folders and pencils and sit at desks with partners together. Explain that the students will begin copying their first drafts into final versions. Before this step, they will take time to proofread their writing for one more thing to make sure that it is free from errors.

### Materials

- “Nonfiction Passages with Sentence Fragments” chart (WA20)
- “Writing Time” chart (WA21)
- Supply of lined paper for final versions
- (Optional) Computers for typing and printing final versions

## 2 Discuss Proofreading for Sentence Fragments

Tell the students they will proofread their drafts today to see if they have any *sentence fragments*, or incomplete sentences. Explain that many sentence fragments can be identified because they do not have a *subject* that tells who or what a sentence is about or a *predicate* that tells what the subject does or did (or both). Point out that incomplete sentences should be changed to form complete sentences.

Display the “Nonfiction Passages with Sentence Fragments” chart (WA20). Ask the students to watch and listen as you read the first passage aloud. Ask:

- Q *What did you notice about the way the passage sounded when I read it?*
- Q *What sentence fragments, or incomplete sentences, do you see in the passage?*

### Students might say:

“It doesn’t sound right.”

“In addition to what [Rudy] said, some of the sentences sound funny—like something is missing.”

If necessary, point out that right now the passage does not sound right when read aloud, because it contains several sentence fragments. Model rereading the passage and thinking aloud about how to transform the fragments into complete sentences or combine them with other complete sentences.

### You might say:

“‘Farmers in the country wear traditional work clothes’ is a complete sentence. It has a subject and a predicate. But ‘Such as baggy trousers and straw hats’ is a sentence fragment. The fragment gives examples of work clothes, so I’ll add it to the complete sentence that came just before. Now the revised sentence says: *Farmers in the country wear traditional work clothes, such as baggy trousers and straw hats.* That sounds right and is a complete sentence. The next two sentences are complete—they each have a subject and a predicate—but the one after that, ‘With a large sash,’ is a fragment. It describes how kimonos are tied, so I’ll try combining it with the previous sentence: *Kimonos are long silk robes that are tied with a large sash.* The remaining two sentences are complete sentences.”

Follow this same procedure with the second passage on the “Nonfiction Passages with Sentence Fragments” chart.

## 3 Discuss How Partners Will Work Together

Explain that during Writing Time the students will reread their drafts and look for sentence fragments. They should transform any fragments

### Skill Practice Note

For more practice using subjects and predicates and recognizing and correcting fragments, see Lesson 1 and Lesson 4 in the *Skill Practice Teaching Guide*.

into complete sentences or combine them with other complete sentences. Then they should continue writing their final versions. If they finish, they may add images and captions to their reports.

Ask partners to spend a few minutes discussing what they will work on today and how they will share the work fairly.

## WRITING TIME

### 4 Proofread and Write Final Versions

Display the “Writing Time” chart (WA21) and have partners work on the charted tasks for 20–30 minutes. As they work, circulate, observe, and offer assistance.

#### Writing Time

- Proofread your draft for sentence fragments.
- Write your final version on loose, lined paper.
- If you finish, add illustrations and captions.

WA21

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Proofreading

Ask and briefly discuss:

**Q** *What corrections did you make when you proofread your draft?*

Have partners put papers related to their informational report in their folder.

## WRITING ABOUT READING

### Write Persuasive Paragraphs About Countries

Explain that people often pick countries to travel to based on recommendations that they read in travel brochures, blogs, magazines, books, and websites.

Point out that over the last several weeks the students have become experts on particular countries. Explain that they can use what they know about their countries to persuade others to visit it. Ask:

**Q** *What is something you might tell about your country to persuade readers to visit it?*

**TEKS 11.C.iii**  
Student/Teacher Activity  
Step 4 (all)

#### Materials

- Collected nonfiction texts
- Blank paper for making travel brochures
- Crayons, colored pencils, or markers
- (Optional) Professional travel brochures or other short, persuasive passages about countries

## Teacher Note

If necessary, explain that a *travel brochure* is a very thin booklet—often a single, folded piece of paper—that usually has writing and pictures about a place.

You might read aloud one or two travel brochures or other nonfiction passages that succinctly attempt to persuade readers to visit particular countries. After reading them aloud, you might invite the students to identify reasons the authors give for why readers should visit those countries.

### Students might say:

"I would tell how people can relax on the beautiful, clean beaches."

"I would tell about how special and fun the German winter holidays are."

"I would describe the amazing creatures and plants they would see in the tropical rainforests."

Explain that the students will write paragraphs that could be used in travel brochures intended to get readers excited about visiting the countries they researched. Explain that they will support their thinking with facts and details about the countries. Ask the students to watch as you model writing a paragraph about why readers should visit the country you researched. Be sure to support your writing with facts and details about the country.

### You might say:

"I want to start my paragraph with a sentence or two that gets readers really excited and curious about Australia. I'll start by writing: *Wouldn't you love to visit a country where you can enjoy outdoor sports, see beautiful beaches and waterfalls, and encounter truly strange animals and plants?*

Notice that I tried to think of things about Australia that would persuade my readers to want to go there. Now I need to explain my thinking using facts and details. I'll write: *Australia is a country that loves sports, from surfing to tennis to cricket. You can participate—or just settle back and watch the top athletes perform. Are you eager to hit the nature trail? Make the trek to the famous Uluru rock, snorkel in the Great Barrier Reef, or visit Kakadu National Park, which is inhabited by many animals. Speaking of animals, did you know that many of those found in Australia evolved there and nowhere else? You will be fascinated by the cute koalas and the rainbow lorikeet, named for its colorful feathers.* Those sentences all include facts I know from doing my research on Australia. Now I need a closing sentence. I'll write: *If you're looking for a country that has it all, look no farther—Australia is the place for you.*"

Invite the students to write about the countries they researched and to refer to nonfiction texts they used for their research. Explain that they should each start the paragraph with an opening sentence that tries to persuade the reader to visit the country, give facts or details to support the sentence, and provide a closing sentence that wraps up the writing. Have the students write their persuasive paragraphs. If time permits, invite the students to share their writing with the class. You might have the students create travel brochures for their countries using the persuasive paragraphs and illustrations.

## In this lesson, the students:

- Explore and develop tables of contents
- Finish writing their final versions
- Reach agreement before making decisions
- Share the work fairly

## GETTING READY TO WRITE

### 1 Explore Tables of Contents

Have the students bring their folders and gather with partners sitting together, facing you. Remind them that they have been proofreading their reports and writing their final versions. Explain that this week they will publish their reports. They will share the reports from the Author's Chairs and then take the reports home to show their families before placing them in the class library.

Remind the students that the purpose of their informational reports is to help their classmates become interested in and curious about the countries they selected to research. Explain that one way authors spark their readers' curiosity and help them know what is in a book by providing a table of contents. Show and read the table of contents on page 3 of *Kenya: A Question and Answer Book*. Ask and briefly discuss:

**Q** *What do you notice about the way this table of contents is organized?*

**Q** *How might this table of contents help a reader?*

Point out that the table of contents in *Kenya: A Question and Answer Book* has two parts: a list of the headings, beginning with "Where is Kenya?" and a "Features" section that includes such things as the glossary, a list of websites, and suggestions for reading more.

Show the table of contents in several of the other books in your collection and discuss how they are organized. Note that both the titles "Table of Contents" and "Contents" are used, the headings are listed along with their page numbers in the order they appear in the book, and special features are often listed at the end. Ask each pair of students to look at their informational report and discuss what they will list in their table of contents.

After a few minutes, signal for the students' attention. Explain that before partners can complete their table of contents, they need to finish writing their final draft so that they will know the page numbers for each of their headings.

## Materials

- *Kenya: A Question and Answer Book* from Week 1
- Other nonfiction books about countries with tables of contents
- Loose, lined paper for final versions
- Materials for publishing informational reports
- "Writing Time" chart (WA22)
- "Class Assessment Record" sheet (CA10)
- (Optional) Computers for typing and printing final versions

## 2 Discuss How Partners Will Work Together

Explain that today partners will finish writing their final draft, number their pages, and create a table of contents that shows where different sections begin. When they are finished, they may add illustrations and captions to their report.

Ask partners to spend a few minutes deciding what they will accomplish today and how they will share the work fairly.

## WRITING TIME

### 3 Write Final Versions and Tables of Contents

Display the “Writing Time” chart (WA22). Have the students sit at desks with partners together and work for 20–30 minutes.

WA22

#### Writing Time

- Finish copying your final version.
- Discuss and write a table of contents.
- If you finish, add illustrations and captions.

As the students work, circulate, observe, and offer assistance.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners working together fairly to write a final version of their informational report?
- Are they including a table of contents?

Support any pair that struggles by asking questions such as:

- Q *What is each of you responsible for accomplishing?*
- Q *Is the way you are sharing the work fair? Why or why not?*
- Q *What can you do to make it so you are sharing the work fairly?*
- Q *Why is it important that both of you do your part of the work on this project?*

Record your observations on the “Class Assessment Record” sheet (CA10); see page 93 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Reflect and “Preview” Reports as a Class

Explain that each pair of students will give the class a “preview” of their informational report by reading aloud any two sentences from it. Ask partners to quietly reread their report and select two interesting sentences (one for each partner) to read aloud. Give them a few moments to select their sentences; then ask the class to listen carefully to one another’s sentences and to think about which ones make them curious.

Go around the room and have the students read their sentences aloud, without comment. When all have read, ask and briefly discuss:

**Q** *What sentences did you hear that made you curious?*

Remind the students that they will begin sharing their published reports from the Author’s Chairs tomorrow. Have partners put papers related to their informational report in their folder.

## Writing Final Versions and Publishing

## Day 4

### In this lesson, the students:

- Publish their informational reports
- Handle materials responsibly
- Share materials fairly
- Make decisions about how they will present their reports from the Author’s Chairs
- Express interest in and appreciation for one another’s writing
- Ask one another questions about their writing

## GETTING READY TO WRITE

### 1 Discuss Handling and Sharing Materials

Have the students get their folders and pencils sit at desks with partners together. Explain that the students will finish writing their final versions and will begin sharing them from the Author’s Chairs today. Explain the method you have chosen for publication (see “Do Ahead” on page 439), and review any procedures you would like the students to follow (for example, how to handle art supplies, how to use the computers, and where to place published stories for Author’s Chair sharing).

### Materials

- Materials for publishing informational reports
- Two chairs to use for Author’s Chair sharing (or three for trios)

 **ELL Note**

Support trios, as necessary, to make sure that all three students in each trio have a role in presenting their report to the class.

Briefly discuss how the students will share materials fairly, handle them responsibly, and help one another. Ask and briefly discuss questions such as:

- Q *What will you do today to take care of our [book-making] materials? Why is that important?*
- Q *If you want to use something, such as the computer or the hole punch, but someone else is using it, what can you do?*
- Q *If you're using something and someone else wants to use it, what can you do to share it fairly?*
- Q *How can we be helpful to one another as we publish our reports today?*

## **2** Discuss How Partners Will Work Together

Explain that today partners will work to finish publishing their report and then decide and practice how they will present it to the class (for example, decide what sections each partner will read aloud). Briefly discuss:

- Q *What are some ways partners might share the presentation of their report?*

Explain that the students who finish the publication process today will begin sharing their reports from the Author's Chairs. Tell the students that Writing Time will be a bit shorter to allow time for this sharing. Ask partners to spend a few minutes deciding what they will accomplish and how they will share their work today.

## **WRITING TIME**

### **3** Publish Reports and Prepare to Share

For 15–20 minutes, have partners work on publishing their informational report and preparing to present it. As they work, circulate, observe, and offer assistance.

Signal to let the students know when Writing Time is over.

## **SHARING AND REFLECTING**

### **4** Review Sharing Writing from the Author's Chairs

Gather the class with partners sitting together, facing the Author's Chairs. If necessary, remind them of the procedure you established for presenting books from the Author's Chair (see Unit 2, Week 2, "Do Ahead" on page 95).

Before asking partners to share from the Author's Chairs today, discuss how the students will act, both as presenting authors and as members of the audience.

Ask and discuss:

- Q *Why is it important to speak in a loud, clear voice when you're reading your report to the class?*
- Q *If you're in the audience and you can't hear the author, how can you politely let him or her know?*
- Q *How will you let the authors know that you're interested in their report? Why is it important to express interest in one another's writing?*

Encourage the students to be attentive and considerate audience members, and tell them that you will check in with them afterward to see how they did.

## 5 Conduct Author's Chair Sharing

Ask partners who have finished publishing their informational report to read it aloud from the Author's Chairs. At the end of the sharing, facilitate a discussion using questions like those that follow, and give the authors an opportunity to respond to the class's comments and questions:

- Q *What did you learn about [China] from hearing [Dante and Thuy's] report?*
- Q *What are you curious about after hearing their report?*
- Q *What questions can we ask [Dante and Thuy] about their report?*

Follow this procedure and have other pairs of students share from the Author's Chairs as time permits. Explain that tomorrow partners who have not finished publishing will have time to do so and to share their reports from the Author's Chairs.

## 6 Reflect on Audience Behavior During Author's Chair Sharing

Ask and briefly discuss:

- Q *What did we do well as an audience today? What might we want to work on the next time authors share their work?*
- Q *If you shared your report today, how did the members of the audience make you feel? What did they do that made you feel [relaxed/nervous/proud]?*

# Day 5

## Writing Final Versions and Publishing

### Materials

- Materials for publishing informational reports
- Two (or three) chairs to use for Author's Chair sharing
- Copy of the Expository Nonfiction genre unit family letter (BLM1) for each student

### Facilitation Tip

Reflect on your experience over the past weeks with **asking facilitative questions**. Does this technique feel comfortable and natural for you? Do you find yourself using it throughout the school day? What effect has using this technique had on your students' listening and participation in discussions? We encourage you to continue to use and reflect on this technique throughout the year.

### In this lesson, the students:

- Review and reflect on writing nonfiction
- Finish publishing their reports
- Present their reports from the Author's Chairs
- Express interest in and appreciation for one another's writing
- Ask one another questions about their writing
- Give their full attention to the person who is speaking

## GETTING READY TO WRITE

### 1 Review and Reflect on Writing Nonfiction

Have the students get their folders (unless they have already shared their published reports from the Author's Chairs) and pencils and sit at desks with partners together. Remind the students that over the past six weeks they have learned about writing nonfiction and have each worked with a partner to research and write a nonfiction report about a country they were curious about. Ask:

**Q** *What have you learned about writing nonfiction over the past weeks?*

#### Students might say:

"I learned that you can write about things you are curious about."

"I agree with [Brad]. I learned that you can find out about things by researching them."

"In addition to what [Jacqui] said, I learned that you can take notes and use them in your nonfiction writing."

"I learned ways to capture the reader's attention and make the reader curious about my topic."

Use "Think, Pair, Share" to discuss:

**Q** *What was your favorite part of working on your informational report?* [pause] *Turn to your partner.*

**Q** *What is one thing you are glad you learned about writing nonfiction?* [pause] *Turn to your partner.*

**Q** *What did you find challenging about writing nonfiction?* [pause] *Turn to your partner.*

Remind the students that writers become better over time as they practice writing again and again. Encourage students who feel drawn to nonfiction to continue to research and write about nonfiction topics they are interested in during their free time and outside of school.

Explain that today partners will finish publishing their report and then decide and practice how they will present it to the class. Those who have finished may write anything they choose during Writing Time.

Explain that after Writing Time more partners will share their reports with the class from the Author's Chairs. Ask partners to spend a few minutes deciding what they will accomplish and how they will share their work today.

## WRITING TIME

### 2 Finish Publishing Reports and Prepare to Share

Have partners work on publishing and preparing to share for 10–15 minutes. As they work, circulate, observe, and offer assistance.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Conduct Author's Chair Sharing

Gather the class with partners sitting together, facing the Author's Chairs. Remind presenters to speak in loud, clear voices and audience members to show interest in and appreciation for their classmates' writing.

Have partners read their report aloud from the Author's Chairs. At the end of the sharing, facilitate a discussion using questions like those that follow. Give the authors an opportunity to respond to the class's comments and questions:

- Q *What did you learn about [the people of Ghana] from hearing [Tomás and Cara's] report?*
- Q *What are you curious about after hearing their report?*
- Q *What questions can we ask [Tomás and Cara] about their report?*

Repeat this procedure to have other partners share from the Author's Chairs, as time permits.

Assure the students that the students who have not yet shared will get to share their published informational reports from the Author's Chairs in the coming days.

### 4 Reflect on Interactions and Thank One Another

Ask and briefly discuss:

- Q *What did we do well as an audience today? What do we still want to work on the next time authors share their work?*
- Q *If you shared a report today, how did the members of the audience make you feel? What did they do that made you feel [relaxed/nervous/proud]?*

#### Teacher Note

Continue to have pairs of students share their nonfiction informational reports from the Author's Chairs until everyone has had a chance to do so.

### Teacher Note

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on this page.

### Skill Practice Note

For practice with using commas in the dates, addresses, greetings, and closings of letters, see Lesson 28 in the *Skill Practice Teaching Guide*.

Point out that partners have worked closely together for several weeks to research and write about the countries they chose. Ask and briefly discuss:

- 
- Q *In what ways did you and your partner help each other on this project?*
  - Q *What do you appreciate about how your partner worked with you? Turn to your partner.*

Ask partners to take a moment to thank each other for their help and collaboration.

---

## EXTENSION

### Write Letters Home About Nonfiction

Provide letter-writing practice for the students by having them each write a letter home about what they learned about nonfiction from working on their informational reports. Discuss questions such as:

- Q *What’s special about nonfiction writing?*
- Q *What steps did you and your partner go through to research and write about your country?*
- Q *What is one thing you’re proud of about your published informational report?*

If necessary, review the elements of a letter (date, salutation, body, closing, and signature) by modeling or writing a shared sample letter with the class. Have the students write and proofread their letters; then attach each student’s letter to a copy of the published informational report she helped to write and send it home.

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of the Expository Nonfiction genre unit. You will need to reassign partners before you start the next genre unit.
- Make copies of the published report so that each partner can take a copy home to share with his or her family. Place the original reports in the class library.
- Send home with each student a copy of the student’s published report and a copy of this unit’s family letter (BLM1). Encourage the students to share their published reports with their families.
- Save the students’ published writing (or copies of it) to use for reflection and discussion in Unit 9.

## Assessments

- Before continuing with the next unit, take this opportunity to assess individual students' writing from this unit. See "Completing the Individual Writing Assessment" (IA1) on page 98 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students' published writing home to share with their families, you might have each student analyze his writing using the "Student Self-assessment" record sheet (SA1) on page 97 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension "Introduce 'Student Self-assessment'" on page 114.
- (Optional) Prior to beginning the next unit, you might wish to prepare the students for the end-of-year CCSS-type writing performance task by teaching the Informative/Explanatory Writing unit on page 55 of the *Writing Performance Task Preparation Guide*. For more information, see "Teaching the Units" on page vi of the preparation guide.

# Genre

## Functional Writing

During this three-week unit, the students explore functional writing. They read and discuss recipes and directions, explore craft elements of functional writing, and write directions for others to follow. They explore using modal auxiliaries, such as *can*, *may*, and *must*, in their directions. As the students write, they consider the audience and purpose of their directions, and review them for sequence, completeness, accuracy, and clarity. The students frequently work with partners and in groups of four during the unit. They reach agreement and make decisions together, work responsibly, share the work and materials fairly, and give and receive feedback respectfully.

## TEACHER AS WRITER

*“A writer is someone who pays attention to the world.”*

— Susan Sontag

Most of us are surrounded by, and rely on, functional writing—written language that helps us function. This week, join your students in beginning to explore functional writing by making a list of all the functional writing you encounter daily, including what you write yourself. Think about directions, signs, lists, flyers, online text, and other sources of information.

### Writing Focus

- Students hear, read, and discuss functional writing.
- Students explore how information is communicated in functional writing.
- Students explore audience and purpose in functional writing.
- Students discuss, follow, and write directions.

### Social Development Focus

- Students work in a responsible way.
- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students help one another improve their writing.

## DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and check for understanding.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see “Random Pairing” on page xxix and “Considerations for Pairing ELLs” on page lii. For more information, view “Cooperative Structures Overview” (AV9).
- ✓ Prior to Day 1, collect examples of functional writing such as cookbooks, recipes, online maps with directions, and books about how to make things or do simple activities. Include books about how to draw different things, such as animals and cartoon characters. You might search for titles online using the keywords “children’s drawing books.” Make this collection available to the students throughout the unit.
- ✓ In the Day 1 lesson, you will follow the students’ directions to make a peanut butter and jelly sandwich. Prior to Day 1, if your class is peanut-free, or if you or your students have other dietary restrictions, plan to make a different easy snack (for example, cut vegetables with hummus).

(continues)

## ⌚ DO AHEAD *(continued)*

- ✓ Prior to Day 5, create a simple line drawing of a cartoon character at the top of a sheet of chart paper. Leave room below to write the directions needed to draw it. This character should be very simple, needing no more than five or six steps to draw (see the example in Week 1, Day 5, Step 1 on page 482).
- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA1) on page 116 of the *Assessment Resource Book*.

## In this lesson, the students:

- Work with new partners
- Discuss recipe directions
- Write about how to make a sandwich
- Reach agreement before making decisions
- Work responsibly in pairs

## ABOUT TEACHING FUNCTIONAL WRITING

The purpose of functional writing, like all nonfiction, is to inform or explain. While expository nonfiction provides information about a topic—such as the animals of New Zealand—functional nonfiction explains how to do something. For example, functional writing might explain how to brush your teeth, use a microwave, create a website, or build a rocket. Functional writing, in varying forms of lists, labels, menus, and schedules, also helps people with daily living.

The goals of this unit are to introduce the students to functional writing, help them think about the craft elements involved in functional writing, and provide opportunities for them to create functional writing. There are two phases to this unit: Immersion and Drafting (two weeks), and Revision, Proofreading, and Publication (one week). During the first phase, the students explore and try their hand at functional writing. In the second phase, they write, revise, and publish directions for a game and make a class book.

## GETTING READY TO WRITE

### 1 Pair Students and Introduce Functional Writing

Randomly assign partners (see “Do Ahead” on page 465) and make sure they know each other’s names. Gather the students with partners sitting together, facing you.

Explain that during the next three weeks, partners will work together to explore functional writing. Tell the students that functional writing helps people learn how to do things, get from one place to another, and complete everyday tasks (jobs), such as buying groceries and paying bills. Point out that there are many types of functional writing, such as lists, recipes, menus, game directions, and schedules. Tell the students that in this unit they will explore functional writing that explains how to do things.

## Materials

- Jar of peanut butter
- Jar of jam or jelly
- Loaf of bread
- Knife, cutting board, paper towels, and paper plate
- Desk or small table
- Loose, lined paper for each pair of students
- Chart paper and a marker
- (Optional) Examples of functional writing, collected ahead

## Teacher Note

For more information about functional writing, view “Exploring Functional Writing” (AV50).

## Teacher Note

The partners you assign today will stay together for the unit. If necessary, take a few minutes at the beginning of today’s lesson to let them get to know each other better by talking informally in a relaxed atmosphere.

## Teacher Note

If you are teaching other programs from the Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the writing lessons.

## Teacher Note

As you discuss different types of functional writing, you might show some examples from the functional writing you collected (see “Do Ahead” on page 465).

### **ELL Note**

If necessary, simplify the second question by rephrasing it in the following way:

- Q** *You want to make a peanut butter and jelly sandwich. What do you do first?*
- Q** *What could you write to tell about that?*

### **Teacher Note**

The point of this activity is to have fun while helping the students understand the need for clear, step-by-step directions. For example, if the first volunteer directs you to “Spread peanut butter on the bread,” you might try to spread the whole peanut butter jar on the full loaf. When the class shouts, “No!” innocently ask, “What’s wrong?” Have partners discuss how they would change the direction, and then have the first volunteer amend his direction. If he says, “Open the jar and use a knife to spread the peanut butter on the bread,” you might start to spread the peanut butter on the top of the entire loaf. Have some paper towels on hand.

### **TEKS 1.B.iii**

Student/Teacher Narrative  
Step 3

(all, beginning on page 468 and continuing on to page 470)

## **2** Discuss Giving Directions

Point out that recipes are a type of functional writing that tells how to make different kinds of food. Ask and briefly discuss:

- Q** *What do you know how to make to eat?*
- Q** *If you were going to write directions for making a peanut butter and jelly sandwich, what would you write?*

Explain that you would like the students to help you make a peanut butter and jelly sandwich (see “Do Ahead” on page 465). Show them the ingredients and the utensils you have collected, displayed on a desk or table.

Invite a volunteer to give you a direction for what to do first. Follow the direction exactly as stated by the student (see the Teacher Note). Then have partners briefly discuss the next direction to give you. Continue in this manner until the sandwich has been made.

Use “Think, Pair, Share” to discuss:

- Q** *What did you learn about giving good directions? [pause] Turn to your partner.*

Have a few volunteers share with the class.

#### **Students might say:**

- “I learned that you can’t think someone will just know what you mean. You have to say it.”
- “In addition to what [Amanda] said, you have to be really clear.”
- “I learned that it’s important to give the directions in the right order.”
- “I learned that you can’t leave anything out. You need to think about everything the person needs to know.”

Explain that when the students gave you directions for making the sandwich, you exaggerated your lack of understanding in order to show the importance of clear, correct, and complete directions.

## **3** Shared Writing: How to Make a Peanut Butter and Jelly Sandwich

Explain that today the students will write directions for making a sandwich. Tell them that they will practice by helping you write a recipe for making a peanut butter and jelly sandwich. Ask:

- Q** *What information will readers need?*

#### **Students might say:**

- “They will need to know the ingredients.”
- “In addition to what [Jorge] said, they will need to know if they need any tools, like a knife.”
- “They will need the directions for making the sandwich.”

Title a sheet of chart paper “Peanut Butter and Jelly Sandwich.” Ask:

- Q *How should we list the ingredients and the utensils?*
- Q *What is the first direction we should write? Do you agree or disagree with what [Alexis] said? Why or why not?*
- Q *What direction should we write next?*

Use the students’ suggestions to write the recipe on the chart paper (see diagram below for an example).

## Peanut Butter and Jelly Sandwich

You need:

- 2 slices of bread
- jar of peanut butter
- jar of jelly
- plate
- knife

Directions:

1. Place the bread on the plate.
2. Open the jar of peanut butter and use the knife to spread some peanut butter on one side of a slice of bread.
3. Open the jar of jelly and use the knife to spread some jelly on one side of the other slice of bread.
4. Put together the sides of the bread with the peanut butter and the jelly on them.
5. Cut the sandwich in half, if you want.

Explain that today partners will decide on a type of sandwich and together write directions for making it. Use “Think, Pair, Share” to discuss:

- Q *What kind of sandwich do you know how to make? [pause] Turn to your partner.*
- Q *If you don’t know how to make a real sandwich, what kind of “silly sandwich” could you make up? [pause] Turn to your partner.*

### Teacher Note

Regularly remind the students to use the discussion prompts they learned when they participate in class discussions. The prompts are:

- “I agree with \_\_\_\_\_ because...”
- “I disagree with \_\_\_\_\_ because...”
- “In addition to what \_\_\_\_\_ said, I think...”

## Teacher Note

If necessary, stimulate the students' imaginations about silly sandwiches by suggesting some like those in the "Students might say" note; then ask, "What other silly sandwiches could you make up?"

After a moment, signal for the students' attention, have a few volunteers share with the class, and list their sandwich ideas where everyone can see them.

### Students might say:

"I could make up a silly sandwich with blueberries and broccoli on it!"  
"My silly sandwich would have pickles, scrambled eggs, and plums."

## 4 Discuss How Partners Will Work Together

Remind the students that an important part of working well with a partner is listening to each other's ideas and making sure that both partners agree before making a decision. Discuss:

**Q** *What can you do if you don't agree about the type of sandwich?*

### Students might say:

"We could pick a third type of sandwich that we can both agree on."  
"We could choose one ingredient from my sandwich and one ingredient from my partner's sandwich. Together they could make a new kind of sandwich."  
"We could write directions for both sandwiches."

Mention that during Writing Time today you will observe how partners work together; later you will talk with the students about what you notice. Briefly discuss:

**Q** *What will you and your partner do to work responsibly?*

### Students might say:

"We'll get to work right away."  
"We'll work quietly and not bother our neighbors."  
"We'll listen to each other's ideas and make sure we both agree on a decision."

Encourage the students to keep these things in mind as they work today.

## WRITING TIME

### 5 Write Sandwich Directions

Have the students get their pencils and sit at desks with partners together. Distribute loose, lined paper to each pair, and have partners work together for 20–30 minutes to agree on a type of sandwich and write directions for making it. If they finish, they may write about anything they choose.

Join the students in writing for a few minutes and then circulate and observe; assist pairs as necessary.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Reflect on Partner Work

Go around the room and have the students in each pair share the name of the sandwich they wrote about. Ask and briefly discuss questions such as:

- Q *What sandwiches did you hear about that got your imagination going?*
- Q *Who found it easy to agree on and write directions for your sandwich? Who found it hard to agree? Why?*
- Q *What went well working with your partner today? What do you need to work on?*

Have partners put their directions in a safe place. Explain that tomorrow the students will continue to explore functional writing.

## EXTENSION

### Practice Giving and Following Directions

Have the students do the following activity during math time to practice giving and following directions. Have partners stand a folder upright between them so that they cannot see each other's desks. Have one partner:

- Use geoboards, tangrams, or pattern blocks to make a design on his side of the folder.
- Give directions to the other partner, who tries to make the same design using her own materials on the other side of the folder.
- Have the partner who followed the directions restate them using the design she created as a guide (e.g. "First, I placed the equilateral triangle on top of the square. Then I put the circle on top of the triangle....")

Have partners remove the folder to see if their designs match. Then ask them to switch roles and do the activity again.

### Materials

- Geoboards, tangrams, or pattern blocks
- One folder for each pair of students

## Exploring Functional Writing

### Materials

- “Carrot Salad” (see page 486)
- “Carrot and Raisin Salad” (see page 487)
- *Student Writing Handbook* pages 20–21
- “Carrot Salad” chart (WA1)
- “Carrot and Raisin Salad” chart (WA2)
- Collection of functional writing, prepared ahead
- Loose, lined paper for each pair
- Chart paper and a marker
- “Writing Time” chart (WA3)

### Teacher Note

To review the procedure for defining vocabulary during the read-aloud, see Unit 1, Week 1, Day 1, Step 3 (page 8). For more information, view “Introducing Vocabulary During a Read-aloud” (AV30).

### Teacher Note

If the students have difficulty answering these questions, suggest some ideas like those in the “Students might say” note; then ask, “What else do you notice?”

### In this lesson, the students:

- Hear, read, and discuss recipe directions
- Explore audience and purpose in functional writing
- Write a recipe
- Share the work fairly
- Handle materials responsibly

## GETTING READY TO WRITE

### 1 Briefly Review Functional Writing

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Review that yesterday the students began exploring functional writing, particularly the type of functional writing that helps people learn how to do things. Remind them that they discussed and wrote directions for how to make a sandwich. Explain that today they will continue to explore functional writing that gives directions.

### 2 Read and Discuss “Carrot Salad”

Display the “Carrot Salad” chart (WA1) (also see “Carrot Salad” on page 486). Explain that this recipe is from a cookbook written for young people, *Children’s Quick and Easy Cookbook* by Angela Wilkes. Point out that in this recipe the author uses two headings, “You will need” and “What to do.” Read the recipe aloud, including all text features (such as captions and notes about preparation time). Clarify vocabulary as you read.

### Suggested Vocabulary

**peel:** take the outer skin off of fruits or vegetables

**grate:** shred food, such as cheese, into small, thin pieces

**broiler:** part of an oven used for toasting food

**toss:** mix

Ask and briefly discuss:

- Q *What information does the author give in the “You will need” section? What do you notice about how the author lists this information?*
- Q *What does the author do in the “What to do” section to help the reader follow the directions?*

**Students might say:**

"The author lists all of the equipment needed first."

"The author gives all of the ingredients and shows pictures of them."

"The directions are step-by-step."

"In addition to what [Ramón] said, there are photos of what to do."

"In addition to what [Jordana] said, there is a photo of what the salad will look like when it is finished."

### 3 Read and Discuss "Carrot and Raisin Salad"

Display the "Carrot and Raisin Salad" chart (C WA2) (also see "Carrot and Raisin Salad" on page 487). Explain that this recipe is from another cookbook for children, *The Jumbo Vegetarian Cookbook* by Judi Gillies and Jennifer Glossop. Point out that these authors also use the heading "You Will Need," just as in the recipe "Carrot Salad."

Read the recipe aloud, including all text features. Clarify vocabulary as you read.

#### Suggested Vocabulary

**intermediate:** medium level of difficulty

**despair:** worry

**utensils:** kitchen tools

**chef's knife:** sharp knife that a professional cook might use

**whisk:** utensil with thin wire loops attached to a handle, used for mixing wet ingredients

**juicer:** machine or utensil that gets juice from fruits and vegetables

Have partners turn to *Student Writing Handbook* pages 20–21, where the two salad recipes are reproduced. Use "Think, Pair, Share" to discuss:

**Q** *What is similar and what is different about how the two recipes are written?* [pause] *Turn to your partner.*

Signal for the students' attention and have a few volunteers share with the class.

**Students might say:**

"'Carrot Salad' lists utensils first and ingredients second. 'Carrot and Raisin Salad' lists ingredients first, utensils second."

"Both recipes keep the list of salad ingredients separate from the list of ingredients for the dressing. Also, both recipes tell you exactly how much of each ingredient you need."

"Both recipes put a number next to each step in the directions."

"'Carrot and Raisin Salad' tells you the recipe isn't that hard to make. 'Carrot Salad' doesn't tell you if the recipe is easy or hard."

#### Teacher Note

If the students have difficulty answering this question, follow up by asking:

**Q** *What is [similar/different] about how the authors list the ingredients and utensils?*

**Q** *What is [similar/different] about how the authors wrote the directions?*

### Teacher Note

Save the “Writing Good Directions” chart to use on Day 3 and throughout the unit.

## 4 Discuss Audience and Purpose

Explain that authors of functional writing consider several things when writing directions. One thing authors ask themselves is who their *audience* is, or who they are writing the directions for. Title a sheet of chart paper “Writing Good Directions.” Beneath the title, write the question *Who is the audience for the directions?* Ask and briefly discuss:

- Q *Who is the audience for these carrot salad recipes?*
- Q *How might directions for a carrot salad look different in a cookbook for children compared to a cookbook for adults?*

### Students might say:

“The audience for both recipes is children.”

“Directions for children might use simpler words. They might explain more things.”

“Children might need pictures of each step in a recipe, especially if they are just learning to read.”

“There are some things children shouldn’t do by themselves in the kitchen. A kids’ cookbook might say, ‘Ask a grown-up to help’ for some steps.”

Point out that authors also ask themselves what the *purpose* of their writing is, or why they are writing the directions. If the purpose is to help children successfully prepare a carrot salad, the author will make sure that the information would be clear to a child reading the recipe. Add the question *What is the author’s purpose in writing the directions?* to the “Writing Good Directions” chart.

## 5 Introduce the Collection of Functional Writing

Show the students the examples of functional writing you collected (see “Do Ahead” on page 465). Point out some of the different types of directions in the collection. Explain that the students may look at the materials in this collection to find examples of directions and how authors write them differently, depending on their audience and purpose. Explain any classroom procedures for using the collection.

Explain that during Writing Time today partners will work together. They may continue to write directions for a sandwich or something else to eat. They may also use the “Carrot Salad” and “Carrot and Raisin Salad” recipes in their *Student Writing Handbooks* to help them think about how to write their directions.

## WRITING TIME

### 6 Write in Pairs and Explore Functional Writing

Have the students get their notebooks and pencils and sit at desks with partners together. Display the “Writing Time” chart (C WA3).

Encourage the students to think about the audience and purpose of their directions as they write, and remind them to double-space their writing. Explain that during Writing Time today you will observe how partners work together and how the students handle the functional writing collection. Later, you will ask the students to reflect on how they did.

Have partners work quietly together for 20–30 minutes on the charted tasks.

### Writing Time

- Write directions for making something to eat.
- Browse the functional writing collection for examples of directions.

WA3

Join the students in writing for a few minutes. Then circulate and observe, assisting pairs as needed.

Signal to let the students know when Writing Time is over. Have them return any functional writing they borrowed from the class collection.

## SHARING AND REFLECTING

### 7 Reflect on Partner Work

Ask and briefly discuss:

- Q *Yesterday you discussed how you worked well with your partner and what you needed to improve. What did you work on today? What went well?*
- Q *What did you do to handle our functional writing materials responsibly? Why is that important?*
- Q *I noticed that [the room got noisy when people were browsing the collection]. What can we do next time to avoid this problem?*

Explain that tomorrow the students will continue to explore functional writing.

## EXTENSION

### Follow and Write Recipes

Have the students make either or both of the carrot salad recipes or a recipe from another cookbook in the functional writing collection. Alternatively, you might have them write a favorite family recipe to contribute to a class cookbook titled *Our Family Favorites* or write a family recipe that reflects their heritage for a class *Our Food Heritage* cookbook.

### Facilitation Tip

During this unit, we encourage you to **avoid repeating or paraphrasing** the students' responses. It is easy to habitually repeat what students say when they speak too softly or to paraphrase them when they do not express themselves clearly. This teaches students to listen to you but not necessarily to one another. Try refraining from repeating or paraphrasing and see what happens. Encourage the students to take responsibility by asking one another to speak up or by asking a question if they do not understand what a classmate has said.

To see this Facilitation Tip in action, view "Avoid Repeating or Paraphrasing" (AV26).

For special considerations for English Language Learners, see "Additional Strategies for Supporting ELLs" on page xlix.

### Teacher Note

Keep the collection of functional writing available for the students' use throughout this unit.

### Technology Tip

To help your students learn how to search online and understand search results, see the following Technology Mini-lessons in Appendix A: Mini-lesson 4, “Choosing Effective Search Terms”; Mini-lesson 5, “Understanding Search Results”; and Mini-lesson 6, “Using Filters to Narrow Results.” For more information, see “About Teaching the Online Research Lessons” on page 700.

## TECHNOLOGY EXTENSION

### Search Online for Child-friendly Recipes

Invite the students to search online for more recipes written for children. As a class, brainstorm some foods for which the students would be interested in finding recipes. Discuss what search query might be useful in an Internet search to locate such recipes; then guide the students as they perform a search for recipes and identify relevant websites. As a class, navigate the websites to find recipes that interest them. Read the recipe directions aloud, point out any text features, and discuss.

You might invite the students to print out and take home a recipe to make with a family member. After they have done so, discuss questions such as:

- Q *Who do you think is the audience for this recipe? What was the author’s purpose in writing the recipe?*
- Q *Were the recipe directions easy or hard to follow? Why?*
- Q *Would you recommend this recipe to other students? Tell us why or why not.*

# Day 3

## Exploring Functional Writing

### Materials

- 1-2-3 Draw Cartoon People
- “Writing Good Directions” chart from Day 2
- *Student Writing Handbook* page 22
- “Basic Shapes and Lines” chart (WA4)
- “Heads (Front View)” chart (WA5)
- Drawing paper for each student
- Chart paper and a marker
- “Writing Time” chart (WA6)
- Collection of functional writing

### In this lesson, the students:

- Explore audience and purpose in functional writing
- Hear, read, and discuss directions for drawing
- Draw and label cartoon faces
- Use Writing Time responsibly

**TEKS 10.B.i**  
Student/Teacher Activity  
Step 1 (all, beginning on  
page 476 and continuing  
on to page 477)

## GETTING READY TO WRITE

### 1 Read Parts of 1-2-3 Draw Cartoon People and Draw

Have the students get their *Student Writing Handbooks* and pencils and sit at desks with partners together. Remind the students that they have been exploring functional writing and that they have read and written directions for making something to eat. Explain that today they will explore another example of functional writing that gives directions.

Show the cover of *1-2-3 Draw Cartoon People* and read the title and author’s name aloud. Read pages 4–8 aloud, showing the illustrations and clarifying vocabulary as you read.

## Suggested Vocabulary

**sketching:** making a quick, rough drawing with light lines (p. 5)

**doodling:** drawing while thinking about or doing something else (p. 5)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**unique expression:** one-of-a-kind face (p. 7)

Flip through the book and show a few more pages to give the students an idea of the contents; then, referring to the question on the “Writing Good Directions” chart, ask and briefly discuss:

**Q** *Who is the audience for this book, or who is going to read it?*

**Q** *What is the purpose of this book, or why did the author write it?*

If necessary, point out that the audience for this book is children and the purpose is to teach them how to draw cartoon people.

Distribute a sheet of drawing paper to each student. Invite the class to join you in following some of the directions in the book. Display the “Basic Shapes and Lines” chart ( WA4) and remind the students that you just read aloud this page from the book. Reread it aloud and ask the students to practice drawing some of the lines and shapes on their drawing paper.

After a few moments, call for the students’ attention and display the “Heads (Front View)” chart ( WA5). Remind them that you read these pages from *1-2-3 Draw Cartoon People* earlier. Reread each step aloud, following the directions on a sheet of chart paper while the students follow along on their own papers.

When you and the students have finished drawing, ask and briefly discuss:

**Q** *What does the author of this book do to help us learn to draw a cartoon head?*

### Students might say:

“The author numbers the steps so you can do them in order.”

“In addition to what [Victor] said, each step only has a little bit to do. That makes it easier to learn.”

“I agree with [Deborah]. The drawings also help us see what to do.”

## **2** Explore Facial Expressions of Cartoon Characters

Have the students turn to *Student Writing Handbook* page 22, “Expressions and Emotions.” Explain that this page is also from the book *1-2-3 Draw Cartoon People*. Ask the students to follow along in their

**TEKS 10.C.ii**  
Student/Teacher Activity  
Step 1 (last discussion  
question on page 477)

### Teacher Note

If the students have difficulty answering this question, suggest some ideas like those in the “Students might say” note; then ask, “What else does the author do?”

handbooks as you read the same page aloud (see page 16 in *1-2-3 Draw Cartoon People*). Ask:

**Q** *What does the artist do differently in the [sad face] compared to the [happy face]?*

**Q** *What expressions or emotions can you think of to draw?*

Distribute drawing paper and have the students draw two or three circles on their papers for faces. Then invite them to try drawing different expressions by changing the lines for the eyes and for the mouth and to label each expression.

Point out that illustrations in functional writing can be useful in showing how to do something. Explain that the students will continue to explore functional writing during Writing Time today.

## WRITING TIME

### 3 Write Independently

Display the “Writing Time” chart (WA6) and have the students work on the charted tasks for 20–30 minutes.

#### Writing Time

- Use what you learned today to draw and label your own cartoon faces.
- Write another recipe or directions for how to make or do something.
- Browse the functional writing collection to get ideas.

WA6

Make *1-2-3 Draw Cartoon People* and any other drawing books you have collected available for interested students to browse during Writing Time.

Join the students in writing for a few minutes; then circulate and observe, assisting students as needed.

Signal to let the students know when Writing Time is over. Have them return to the class collection any functional writing that they borrowed and place any loose papers in their folders.

## SHARING AND REFLECTING

### 4 Reflect on Functional Writing

Ask and briefly discuss:

**Q** *What did you do to work responsibly during Writing Time today?*

**Q** You've explored two types of functional writing so far this week—recipes and directions for drawing. How are these two types of functional writing similar? How are they different?

**Students might say:**

"They both have step-by-step directions."

"Pictures help you understand both."

"A recipe needs a list of ingredients, and drawing directions don't."

Explain that tomorrow the students will explore more directions for drawing.

 **ELL Note**

You might provide the prompts "They are similar because..." and "They are different because..." to your English Language Learners to help them verbalize their answers to these questions.

## Exploring Functional Writing

## Day 4

### In this lesson, the students:

- Hear, read, and discuss directions for drawing
- Compare directions
- Act responsibly during Writing Time

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Show the cover of *1-2-3 Draw Cartoon People* and remind the students that yesterday they learned about drawing cartoon faces from this functional writing book. Explain that today they will read and discuss directions from another book about drawing cartoon characters.

### 2 Read and Discuss "Expressions"

Have the students turn to *Student Writing Handbook* page 23, as you display the "Expressions" chart (WA7). (See also "Expressions" on page 488.) Explain that this page is from the book *Drawing Cartoons* by Anna Milbourne. Read "Expressions" aloud, including the labels on the illustrations, as the students follow along in their handbooks. Clarify vocabulary as you read.

### Suggested Vocabulary

**essential:** very important

**lopsided:** bigger on one side than on the other

### Materials

- *1-2-3 Draw Cartoon People* from Day 3
- *Student Writing Handbook* pages 23–24
- "Expressions" chart (WA7)
- "Expressions" (see page 488)
- "Writing Good Directions" chart from Day 3
- "Making a character" chart (WA8)
- "Making a character" (see page 489)
- "Writing Time" chart (WA9)
- Collection of functional writing

### TEKS 9.F.i

### TEKS 10.C.i

[Student/Teacher Activity Step 2 and Step 3 \(all, beginning on page 479 and continuing on to page 480\)](#)

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**add character:** make it more interesting

**vary:** change

**mischievous:** playful

**bashful:** shy

Ask and briefly discuss:

- Q *What information does the author give you in the “A basic face” section? What do you notice about how the author lists the information?*
- Q *What information does the author give you in the “Changing expressions” section? In what ways are the illustrations in this section helpful?*

### Students might say:

“In ‘A basic face’ the author explains how to draw a cartoon face with two eyes and a mouth.”

“I agree with [Joaquin]. I also noticed that the author uses numbers to list the steps for making the face.”

“In ‘Changing expressions’ the author shows lots of faces with different expressions. She tells readers to try copying them.”

“The illustrations are helpful because they give readers ideas about different expressions they can draw.”

## 3 Read and Discuss “Making a character”

Explain that the students will now explore more directions from the same book. Have them turn to *Student Writing Handbook* page 24, as you display the “Making a character” chart (WA8). (See also “Making a character” on page 489.) Read “Making a character” aloud, including the caption, as the students follow along in their handbooks.

Ask and briefly discuss:

- Q *What information does the author give you on this page? What do you notice about how the author gives the information?*
- Q *In what ways are the illustrations helpful?*

### Students might say:

“The author tells how to make a cartoon character. She says you can make a circle for a face and then add legs or wings.”

“I notice that the author doesn’t use steps when she gives these directions.”

“The illustrations help because they show different cartoon characters we can draw.”

## 4 Discuss the Two Sets of Directions

Point out that both “Expressions” and “Making a character” give directions for drawing cartoon characters with various facial expressions.

Use “Think, Pair, Share” to discuss:

- Q** *In what ways are these two pages of directions similar? How are they different? [pause] Turn to your partner.*
- Q** *Do you think you can draw a cartoon character using the directions on these pages? Why or why not? [pause] Turn to your partner.*

### Students might say:

“Both directions are about drawing cartoon characters.”

“The first page of directions uses a number for each step. The second page of directions doesn’t have any numbers.”

“I agree with [Diana]. Also, the first page of directions shows lots of different expressions for cartoon characters with labels. The second doesn’t.”

“I think I could draw a cartoon face using the directions on the first page. The steps are really clear. It might be harder to follow the second set of directions because they don’t do as much explaining.”

Point out that the way directions (and other types of functional writing) are written can make them easier or harder for readers to understand and follow. Invite the students to think during Writing Time today about various ways they can write directions.

## WRITING TIME

### 5 Write Independently

Have the students return to their desks. Display the “Writing Time” chart (WA9) and have the students work on the charted tasks for 20–30 minutes.

#### Writing Time

- Use what you learned today to draw your own cartoon character.
- Write a recipe or directions for how to make or do something.
- Browse the functional writing collection to get ideas.

WA9

Make *1-2-3 Draw Cartoon People* and any other drawing books you have collected available for interested students to share during Writing Time.

Join the students in writing for a few minutes; then circulate and observe, assisting students as needed.

Signal to let the students know when Writing Time is over. Have them return to the class collection any functional writing that they borrowed.

### Teacher Note

If the students have difficulty answering the questions, ask them to turn to pages 23–24 in their *Student Writing Handbooks* and review “Expressions” and “Making a character.”

# Day 5

## Exploring Functional Writing

### Materials

- 1-2-3 Draw Cartoon People from Day 4
- *Student Writing Handbook* pages 22–24
- Charted drawing of a cartoon character, prepared ahead
- Drawing paper for each student
- “Writing Time” chart (WA10)
- Collection of functional writing
- Chart paper and a marker
- “Class Assessment Record” sheet (CA1)

## SHARING AND REFLECTING

### 6 Reflect on Functional Writing and Working Responsibly

Ask and briefly discuss questions such as:

- Q *What did you write about today?*
- Q *What interesting information did you come across when browsing the functional writing collection? Tell us about it.*
- Q *What did you do to work responsibly during Writing Time today? What do you need to work on tomorrow?*

Explain that tomorrow each student will draw his own cartoon character and begin to write directions for drawing that character.

### In this lesson, the students:

- Write directions for drawing a cartoon character
- Explore audience and purpose in functional writing
- Share ways they have dealt with challenges in their writing

## GETTING READY TO WRITE

### 1 Shared Writing: Write Directions for a Cartoon Character

Have the students get their *Student Writing Handbooks* and pencils and sit at desks with partners together. Show the cover of *1-2-3 Draw Cartoon People* and remind the students that this week they learned about drawing cartoon characters from this and other functional writing books. Explain that today they will have a chance to create and write directions for their own cartoon characters. Next week partners will exchange directions and try drawing each other’s characters.

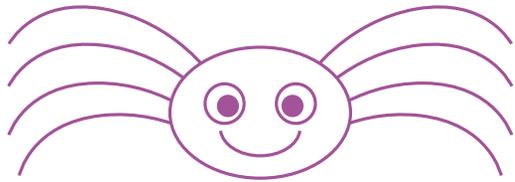

Display the cartoon character you drew at the top of a sheet of chart paper (see “Do Ahead” on page 466) and explain that you would like the students’ help with writing directions for drawing the cartoon. Write the first step and an accompanying sketch under the cartoon (see diagram on page 483); then ask:

- Q *What direction shall I write next to explain how to draw my character?*

Use the students' suggestions to write the remaining steps for your drawing, thinking aloud as you model writing each step.

**You might say:**

"First, I'll write the number 1 to tell readers that this is the first step. Then I'll write the direction: *Draw an oval for the head.* I drew an oval to illustrate Step 1. Now I'll think about the second thing I do to draw my cartoon character. One suggestion is that I add the eyes next. Because this is the second step, I'll write the number 2. Then I'll ask myself, 'What do my character's eyes look like? Exactly what shape are they?' They are round with a black dot inside each one. Now, how can I write that so the direction is easy to follow? I'll try writing: *Draw two circles for the eyes. Draw a black dot in each of them.* I'll finish Step 2 by drawing a little picture to show readers exactly what I mean."

1. Draw an oval for the head. 
2. Draw two circles for the eyes. Draw a black dot in each of them. 
3. Draw a curve for the mouth. 
4. Draw a curved line along the side of the head to make a leg. Make eight legs in all. 

## 2 Prepare to Draw Cartoon Characters

Have the students turn to "Expressions and Emotions" on *Student Writing Handbook* page 22. Remind them that earlier this week they learned about drawing facial expressions from this page and that today they can refer to it to help them draw their cartoon characters. Then have the students turn to pages 23–24 of their *Student Writing Handbooks*. Remind them that yesterday they read and discussed the directions on these pages, "Expressions" and "Making a character." Invite the students to reread these three pages to help them get ideas and draw their cartoon characters.

## WRITING TIME

### 3 Write Independently

Display the “Writing Time” chart (🗨️ WA10) and read it aloud.

WA10

#### Writing Time

- Draw two or three cartoon characters and then pick one.
- Write directions for drawing that character. Draw a picture to go with each step in your directions.
- If you finish early, write directions for drawing another cartoon character or browse the functional writing collection.

Ask and briefly discuss:

- Q *When you write your cartoon character directions, who will be your audience?*
- Q *What do you want your reader to learn from your directions? What will be the purpose?*

If necessary, point out to the students that their partners will be the audience for their directions and the purpose of the directions is to teach their partners how to draw their cartoon characters.

Distribute drawing paper and have the students work silently for 20–30 minutes. As they work, walk around and observe, assisting students as needed.

#### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students each able to draw a simple character and write directions for how to draw it?
- Are they able to write directions that others can follow?

Support struggling students by having each describe his cartoon character to you (without your looking at it) and by asking:

- Q *What is the first thing you do to draw your character? How can you write that as a sentence?*
- Q *What do you do next?*

If you notice many students struggling to write directions, call the class together and model another example as you did in Step 1 of the lesson; then have the students resume their own writing.

Record your observations on the “Class Assessment Record” sheet (CA1); see page 116 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Briefly Reflect on Challenges

Ask and briefly discuss:

- Q *What was challenging about writing directions for drawing your cartoon character?*
- Q *How did other people deal with that challenge?*

Remind the students that next week they will exchange their directions with their partners and try to draw each other's cartoon characters. Have the students place their directions and drawings in their folders until the next lesson.

#### Teacher Note

Be sure all students have completed the directions for their drawings before the next lesson.

# Carrot Salad

from *Children's Quick and Easy Cookbook* by Angela Wilkes

 15 MINUTES  SERVES 4

## CARROT SALAD

### You will need

Cutting board • Kitchen brush or vegetable peeler • Grater • Cookie sheet  
Lemon squeezer • Small jar with lid  
Salad bowl with servers

#### For the salad

 6 large carrots

 1 tablespoon sunflower seeds

 ½ cup (85 g) raisins

#### For the dressing

 ½ orange

 ½ lemon

 1 teaspoon honey

 3 tablespoons hazelnut or olive oil

¼ teaspoon prepared French mustard

Salt and pepper

Decorate the salad by sprinkling a few extra raisins and sunflower seeds over the top.

### What to do

**1** Scrub or peel the carrots and grate them coarsely. Toast the sunflower seeds lightly under the broiler for a few minutes.

**2** Squeeze the juice out of the orange and lemon. Put the dressing ingredients into a jar, screw on the lid, and shake well.

**3** Put the carrot, sunflower seeds, and raisins into a salad bowl. Pour the dressing over the top and toss the salad.

# Expressions

from *Drawing Cartoons* by Anna Milbourne

## Expressions

An essential part of drawing cartoons is being able to draw expressions. You can draw lots of different expressions very simply. Then, you can use these to create complete cartoon characters.

👉 Take an online lesson in how to draw some simple faces. Or, play a game online, adding parts to a potato to create funny faces. For a link to these Web sites, go to [www.usborne-quicklinks.com](http://www.usborne-quicklinks.com)

### A basic face

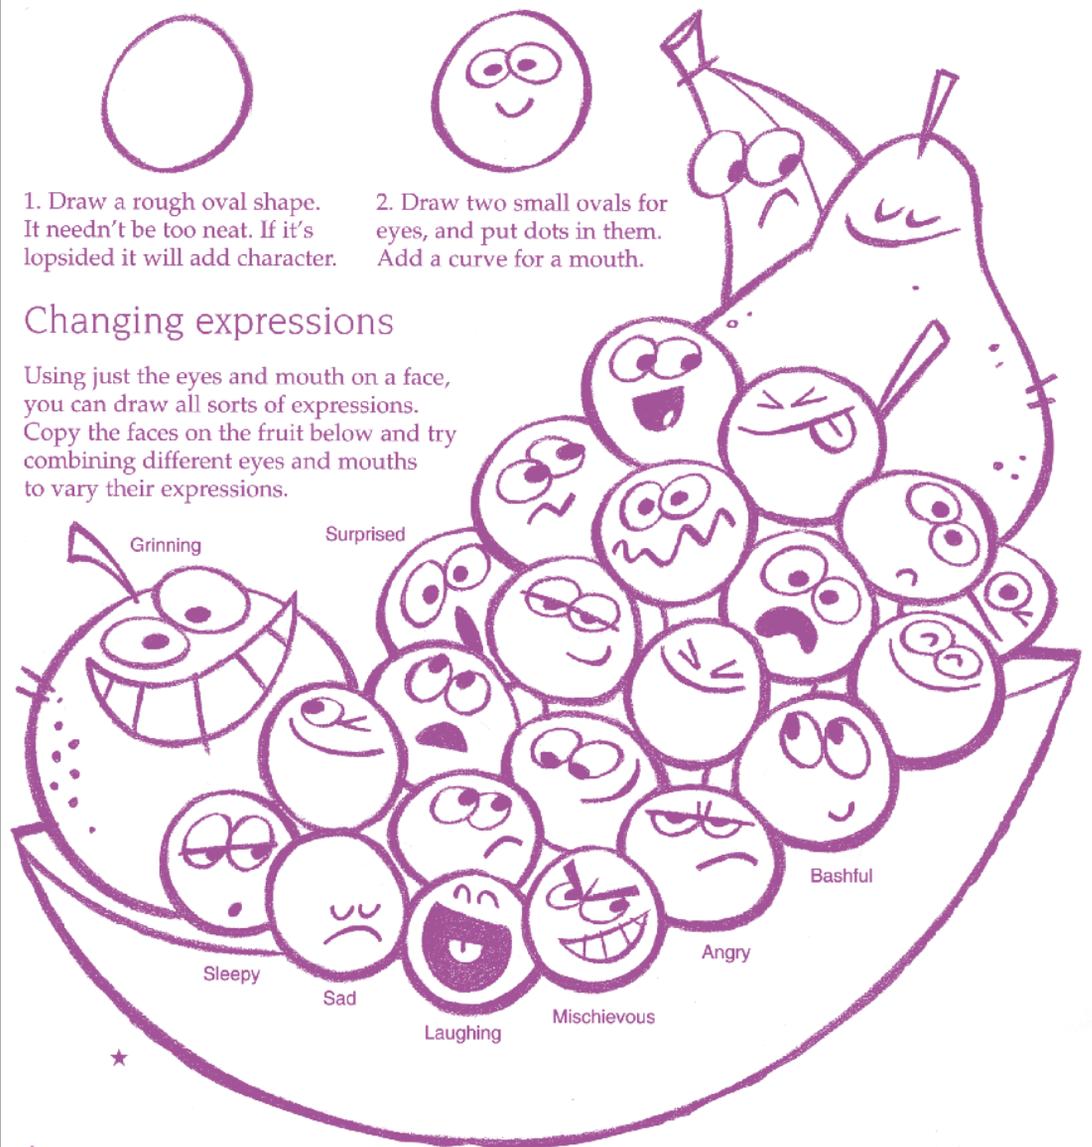

1. Draw a rough oval shape. It needn't be too neat. If it's lopsided it will add character.

2. Draw two small ovals for eyes, and put dots in them. Add a curve for a mouth.

### Changing expressions

Using just the eyes and mouth on a face, you can draw all sorts of expressions. Copy the faces on the fruit below and try combining different eyes and mouths to vary their expressions.

## Making a character

from *Drawing Cartoons* by Anna Milbourne

### Making a character

A basic circle face, with just a mouth and eyes, already has lots of personality. Without adding much more, you can make simple cartoon characters. For example, just add legs to make a spider, or add wings and legs to make a flying insect.

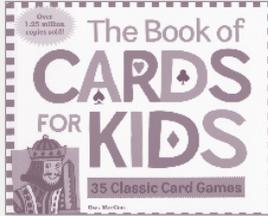

In a cartoon garden, even the flowers can have faces.

# Week 2

## OVERVIEW

### *The Book of Cards for Kids*

by Gail MacColl

This little book provides rules for a collection of exciting, fast, fun card games.

### Excerpts

### *"1, 2, 3 Dragon" and "Catching Stars"*

by students at Germantown Academy, PA (see pages 510–512)

These sets of directions, written by students in Pennsylvania, describe how to play two games from other cultures.

## TEACHER AS WRITER

*“I find that [the writing] process has started to become essential to me in my life, just as it is to take walks, to exercise, to eat, to ride a bicycle.”*

— David Leavitt

Review your list of functional writing from last week. Consider the following questions and write your reflections in your notebook:

- What functional writing do you do nearly every day? Who is the audience, and what is the purpose?
- What functional writing helps you most in your job? Who is the audience, and what is the purpose?
- What functional writing do you most like to do? Why?

### Writing Focus

- Students hear, read, and discuss functional writing.
- Students explore sequence, completeness, accuracy, and clarity in functional writing.
- Students discuss, follow, and write directions for games.

### Social Development Focus

- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students help one another improve their writing.

## DO AHEAD

- ✓ Prior to Day 1, make a class set of the “Conference Notes: Focus 1” record sheet (CN1) on page 119 of the *Assessment Resource Book*.
- ✓ Prior to Day 2, read pages 32–34 in *The Book of Cards for Kids* to familiarize yourself with the rules for the card game *Authors*. You might play a round or two of the game as well.
- ✓ Prior to Day 3, play a game of tic-tac-toe to refresh your memory about the rules of this game.
- ✓ Prior to Day 4, make a class set of the “Conference Notes: Focus 2” record sheet (CN2) on page 120 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, collect items commonly used in games (such as cards, dice, spinners, marbles, and string) for the students to use to play games and write game directions. Decide if you want to include materials for outdoor games as well (such as balls or flying discs). After reading the lesson, determine any procedures that you want the students to follow for using the materials.
- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA2) on page 117 of the *Assessment Resource Book*.

# Day 1

## Exploring Functional Writing

### Materials

- “Writing Good Directions” chart from Week 1
- “Excerpt from 1-2-3 Draw Cartoon People” chart (WA11)
- “Heads (Front View)” chart (WA5) from Week 1
- Drawing paper for each student
- “Writing Time” chart (WA12)
- Collection of functional writing
- Class set of “Conference Notes: Focus 1” record sheets (CN1)

### Teacher Note

To review the procedure for “Think, Pair, Share,” see Unit 1, Week 2, Day 1 (page 32). To see an example, view “Using ‘Think, Pair, Share’” (AV13).

### In this lesson, the students:

- Explore sequence in functional writing
- Give feedback respectfully
- Revise directions based on partner feedback

**TEKS 10.B.i**  
Student/Teacher Narrative  
Step 1 (all)

## GETTING READY TO WRITE

### 1 Discuss Sequence in Functional Writing

Have the students get their notebooks, folders, and pencils and sit at desks with partners together. Remind them that last week they began exploring functional writing that tells how to do things. Direct their attention to the “Writing Good Directions” chart, read the items on the chart, and explain that they will add to the chart this week as they learn more about writing good directions.

Display the “Excerpt from 1-2-3 Draw Cartoon People” chart (WA11) and explain that this is another page from the book. Read the directions aloud and point out that the directions are written in the order in which they should be done. Use “Think, Pair, Share” to discuss:

**Q** *Why does it make sense for the directions to be in this order?* [pause] *Turn to your partner.*

After a few moments, signal for the students’ attention and have a few pairs share with the class what they discussed.

#### Students might say:

“The order makes sense because you draw the head before drawing the face and hair.”

“It wouldn’t make sense to draw the hair first because you wouldn’t know where to put it.”

“It’s like the author wants us to draw the big parts first, then the smaller parts.”

Display the “Heads (Front View)” chart (WA5) from Week 1 and remind the students that they learned how to draw a cartoon head from these directions. Reread directions 1–3 and ask and briefly discuss:

**Q** *Would these directions work if they were written in a different order? Why or why not?*

Explain that the *sequence*, or order, of information is very important to think about when writing directions. On the “Writing Good Directions” chart, add *Does the order of the directions make sense?*

## 2 Review Drafts for Sequence

Ask the students to read the directions they wrote last week for drawing their cartoon characters, asking themselves the question *Does the order of the directions make sense?* Have them make any changes to their writing so that they can answer “yes” to this question.

When most of the students have finished making their revisions, call for their attention. Ask and briefly discuss:

**Q** *What changes did you make to the order of your directions? Why did you make them?*

### Students might say:

“I changed my directions so that I draw the head first and then the body.”

“I switched the order of the steps so that I start by drawing the big things.

The details get added later.”

“Before, I had just two really long steps in my directions. I divided the two long steps into four shorter steps. Now the order makes more sense.”

## 3 Exchange Directions with Partners

Explain that partners will exchange directions and follow them to draw each other’s cartoon characters. Ask and briefly discuss:

**Q** *If you have difficulty following your partner’s directions, what might you do?*

### Students might say:

“I can read the directions again really carefully.”

“I can look at the pictures next to each step.”

“In addition to what [Jada] said, I can look at the drawing of the finished cartoon character.”

“If I get confused, I can politely ask my partner to explain.”

Distribute drawing paper to the students. Then have partners exchange their directions for drawing cartoon characters and follow each other’s directions. After a few minutes, signal for the students’ attention and explain that partners will give each other feedback on how well each was able to understand and follow the other’s directions. Briefly discuss:

**Q** *What do you know about how to give feedback respectfully?*

Explain that later today you will ask the students to reflect about how they gave their partners feedback.

Direct the students’ attention back to the question *Does the order of the directions make sense?* on the “Writing Good Directions” chart, and encourage partners to give each other feedback about this question. Briefly review the other questions on the “Writing Good Directions” chart and remind partners to think about them, as well.

Allow time for partners to give each other feedback; then signal for the students’ attention. Explain that during Writing Time today each student will use his partner’s feedback to revise his own directions, if necessary.

### Teacher Note

If necessary, remind the students that in the writing community, the goal of giving feedback is to help the other person create the best possible piece of writing. It is important that each student share what she likes about her partner’s piece and also offer suggestions and questions to help her partner improve the piece. For more information, view “Building a Community of Writers” (AV1).

## WRITING TIME

### 4 Write Independently

Display the “Writing Time” chart (WA12) and have the students work silently on the charted tasks for 20–30 minutes.

WA12

#### Writing Time

- Think about your partner’s feedback and revise your directions, if necessary.
- Write directions for drawing another cartoon character.
- Browse the functional writing collection to get ideas.

Encourage the students to think about whether the order of their directions makes sense as they write. Provide the students with more drawing paper, as needed, and make the functional writing collection available for interested students to browse during Writing Time. When the students seem to be working independently, begin conferring with individual students.

#### Teacher Note

To see an example of a teacher conferring with individual students, view “Conferring About Functional Writing” (AV49).

#### TEACHER CONFERENCE NOTE

During the next few days, confer with individual students. Ask each student to show you a piece of her functional writing and read it aloud to you. As you listen, ask yourself:

- Are the directions clear and easy to follow?
- Does the sequence of the directions make sense?

If possible, try following the student’s directions. Then probe her thinking by asking questions such as:

- Q *I’m not clear about how to [draw the eye]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *I could [put the curved line] here or here. Where should it go? How will you write that in your directions?*
- Q *I’m confused about the order of what I’m to do. Do I [finish the legs] before I [draw the arms]? How can you make that clear in your directions?*

Document your observations for each student on a “Conference Notes: Focus 1” record sheet (CN1); see page 119 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Revisions and on Writing Directions

Briefly discuss:

- Q *What did you do today to give feedback respectfully to your partner?*
- Q *What changes did you make in your cartoon directions based on your partner's feedback?*

Explain that tomorrow the students will hear and discuss another example of functional writing.

## Exploring Functional Writing

## Day 2

### In this lesson, the students:

- Hear, follow, and discuss game directions
- Explore completeness in functional writing
- Play games fairly and respectfully

## GETTING READY TO WRITE

### 1 Read Parts of *The Book of Cards for Kids* Aloud

Have the students bring their *Student Writing Handbooks* and gather in a circle with partners sitting together. Review that earlier they heard parts of 1-2-3 *Draw Cartoon People* and thought about how to write good directions. Explain that today they will hear parts of another book of directions.

Show *The Book of Cards for Kids* and read the title and the author's name aloud. Show and read the back cover of the book aloud; then ask:

- Q *Who is the audience for this book? What will readers learn from this book?*

#### Students might say:

"The audience for this book is kids. That's why it's called *The Book of Cards for Kids*."

"Kids will learn how to play card games."

"I agree with [Carl]. Kids can also use this book to teach their families or friends how to play."

Show the deck of cards that came with the book and flip through it to show the students what cards look like. Display examples of the four suits in the deck, as well as examples of picture cards and numbered cards.

Then ask the students to listen as you read parts of the introduction aloud.

### Materials

- *The Book of Cards for Kids* and its accompanying deck of cards
- *Student Writing Handbook* page 25
- "Writing Good Directions" chart from Day 1
- A set of playing cards for each group of four students
- Collection of functional writing
- "Writing Time" chart (WA13)

### Teacher Note

To play the game Authors successfully, the students need to be able to identify the four suits (spades, clubs, hearts, diamonds). They also need to understand that some cards in a suit have pictures (King, Queen, Jack, Ace), while other cards are simply numbered. To assist the students as they play, you might write the names of the suits and draw a simple picture of each symbol where everyone can see them during the game.

Read “Playing Games,” “Shuffle,” and “Deal” on pages 10–11 aloud. Ask and briefly discuss:

**Q** *What have you learned so far about playing cards from this piece of functional writing?*

**Students might say:**

“Each card game is different. Sometimes you win by collecting certain cards. Other times you win by getting rid of your cards.”

“You shouldn’t peek at the cards other players are holding. Also, always hold your own cards so that the faces don’t show.”

“You usually start a game by shuffling the cards.”

“After shuffling the cards, the dealer hands them out to each player.”

## 2 Demonstrate and Play Authors

Show page 32 and read the heading “Authors” aloud. Ask:

**Q** *Who has played Authors before? What do you know about this game?*

Explain that the students will learn to play this game, using these directions. Have four volunteers sit in the middle of the circle and ask the rest of the class to gather around to watch the game. Hand the large deck of cards to one of the players in the middle of the circle and explain that this student will be the dealer. Read pages 32–34 aloud, pausing after each step so the players can demonstrate the game. Be ready to model, reread, and clarify directions or vocabulary as needed.

### Suggested Vocabulary

**object:** point or goal (p. 32)

**strategy:** helpful tip (p. 34)

When the players finish demonstrating the game, have all the students return to their seats in the circle. Ask the students to turn to *Student Writing Handbook* page 25, where the directions for Authors are reproduced. Have them quietly reread the directions; then ask and briefly discuss:

**Q** *What questions do you have about how to play this game?*

**Q** *What does it mean to be a “good sport” when playing a game? How can you be a good sport when playing Authors?*

**Students might say:**

“A good sport plays fair. A good sport doesn’t peek at other people’s cards.”

“A good sport is someone who is nice when he wins and nice when he loses.”

“You could be a good sport by always giving the card to the person who asks, if you have it.”

“You could be a good sport by congratulating the winner.”

### Facilitation Tip

Continue to try to **avoid repeating or paraphrasing** the students’ responses. Help them learn to participate responsibly in class discussions by encouraging them to ask one another to speak up or to ask a question if they do not understand what a classmate has said. For special considerations for English Language Learners, see “Additional Strategies for Supporting ELLs” on page xlix.

Explain that now all the students will play Authors. Remind the students that if they have questions as they play the game, they can reread the rules in their handbooks. Join each pair of students with another to create groups of four, provide each group with a deck of cards, and have groups sit in circles (or at tables) to play the game. Allow enough time for most of the groups to play two rounds of the game.

### 3 Explore Completeness in Functional Writing

Signal the end of game play and collect the cards. Ask and briefly discuss:

- Q *What examples of being a good sport did you notice in your group?*
- Q *Look at the directions for Authors in your handbook. Did the directions give you all the information you needed to play the game? If not, what other information did you need?*

**Students might say:**

"The directions don't say when a turn is over."

"I agree with [Juliet]. The directions sort of made us think that each person gets one turn no matter what, but they didn't say that."

"Some games say that if you get the card you need or if you make a book, then you get to take another turn. This game didn't say that, either."

Explain that when authors write directions, they need to think about whether they have included all of the information the reader needs to do the activity. On the "Writing Good Directions" chart, write the question *Does the reader have all of the information needed?* Explain that during Writing Time today the students will continue to draft and explore functional writing.

## WRITING TIME

### 4 Write Independently

Have the students return to their desks. Display the "Writing Time" chart (WA13) and have the students work silently on the charted tasks for 20–30 minutes.

#### Writing Time

- Write directions for a recipe, for drawing a cartoon character, or for doing something else.
- Browse the functional writing collection to get ideas.

WA13

Encourage the students to think about whether their directions give readers all of the information they need to do the activity. Make the functional writing collection available for interested students to browse during Writing Time, provide the students with more drawing paper as needed, and remind them to double-space their writing. When the

#### Teacher Note

If you notice students struggling to think of functional writing topics, remind them that functional writing can take many forms: it can tell people how to do an activity, create something, travel someplace, reach a goal, or locate something. Discuss functional writing students might draft about their daily routines at home or in the classroom. Topics might include how to make a bed, how to care for a pet, what to do during a fire drill, how to check out books from the school library, how to operate a computer, or how to study for a spelling test.

students seem to be working independently, begin conferring with individual students.

## TEACHER CONFERENCE NOTE

Continue to confer with individual students. Ask each student to show you a piece of his functional writing and read it aloud to you. As you listen, ask yourself:

- Are the directions clear and easy to follow?
- Does the sequence of the directions make sense?
- Does the reader have all of the information needed?

If possible, try following the student's directions. Then probe his thinking by asking questions such as:

- Q *I'm not clear about how to [draw the eye]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *I could [put the curved line] here or here. Where should it go? How will you write that in your directions?*
- Q *I'm confused about the order of what I'm to do. Do I [finish the legs] before I [draw the arms]? How can you make that clear in your directions?*
- Q *How should I [draw the feet]? I don't see anything about that in the directions. Does that information need to be included? How might you write that?*

Document your observations for each student on a "Conference Notes: Focus 1" record sheet (CN1); see page 119 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Playing Fairly and Writing

Ask and briefly discuss questions such as:

- Q *What did you do to be a good sport while playing Authors? How might you work on being a good sport next time you play a game?*
- Q *What functional writing did you do today? Tell us about it.*
- Q *What interesting information did you find in the functional writing collection? Tell us about it.*

Explain that tomorrow the students will think about games they know and explore writing game directions.

## In this lesson, the students:

- Quick-write ideas for games they know how to play
- Help write directions for a game
- Explore sequence and completeness in functional writing

## GETTING READY TO WRITE

### 1 Briefly Review Functional Writing

Have the students bring their notebooks and pencils and gather with partners sitting together, facing you. Ask and briefly discuss:

**Q** *What have you learned about functional writing so far?*

If necessary, review the “Writing Good Directions” chart to help the students remember what they learned. Add any new ideas they mention.

Remind the students that yesterday they followed directions to play the card game Authors and then discussed how the directions were written. Explain that today they will make a list of other games they know how to play and write directions for a game as a class.

### 2 Quick-write: Games We Know How to Play

Use “Think, Pair, Share” to discuss:

**Q** *What simple games do you know how to play that you could write directions for? [pause] Turn to your partner.*

Signal for the students’ attention. Have a few volunteers share with the class; record their ideas on a sheet of chart paper titled “Games We Know How to Play.” Then ask the students to open their notebooks to the next blank page in the writing ideas section and list other simple games they know how to play for which they could write directions.

After about five minutes, call for the students’ attention and have a few more volunteers share ideas with the class. Add their ideas to the chart.

### 3 Play Tic-Tac-Toe

Briefly review the items on the “Games We Know How to Play” chart and ask:

**Q** *Who has played the game tic-tac-toe?*

## Materials

- “Writing Good Directions” chart from Day 2
- Chart paper and a marker
- “Writing Time” chart (WA14)
- Collection of functional writing

## Teacher Note

The students might think of games such as hide-and-seek, tic-tac-toe, hangman, hearts, checkers, and pick-up sticks.

### Teacher Note

You might have pairs play a few rounds of tic-tac-toe before going on to Step 2 of the lesson. If more than a few students are not familiar with tic-tac-toe, choose another game to play that most of the students are familiar with.

### Teacher Note

Save the “Games We Know How to Play” chart to use on Day 4.

**TEKS 1.B.iii**  
Student/Teacher Activity  
Step 4  
(all, beginning on page 500 and continuing on to page 501)

### Teacher Note

If the students struggle to provide directions or struggle with the order of the directions, have them close their eyes and imagine playing the game.

Draw a tic-tac-toe grid where everyone can see it and invite a volunteer to come and play a round of the game with you. After playing, ask:

**Q** *If we wanted to write directions for playing tic-tac-toe, what information might we include?*

**Students might say:**

“We can write that the goal is to get three X’s or O’s in a row.”

“We could write that you need pencils and paper.”

“We could write that this is a game for two people.”

## 4 Shared Writing: Game Directions

Write the title “Directions for Tic-Tac-Toe” on a sheet of chart paper. Tell the students that the audience for the directions will be people their age and younger. Ask the following questions, and use the students’ suggestions to write directions for the game:

**Q** *How many players are there in tic-tac-toe?*

**Q** *What is the object or goal of the game? (How do you win?)*

**Q** *What do players need to do to get ready to play?*

**Q** *What is the first direction we should write? What shall we write next?*

### Directions for Tic-Tac-Toe

#### Number of Players

- two

#### Equipment

- paper

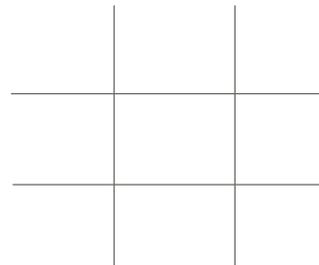

- a pencil for each player

#### Object of the Game

- to get three X’s or three O’s in a row

#### Get Ready

1. Make a tic-tac-toe board like this.

2. Decide who will be the O’s and who will be the X’s.

3. In a fair way, decide who will be first.

(continues)

(continued)

### Play

1. The first player makes an X or an O in one of the squares.
2. The second player takes a turn.
3. Keep taking turns, trying to get three X's or O's in a row.
4. The first player to get three in a row draws a line through them and calls out "tic-tac-toe."

Reread the game directions aloud and then ask:

- Q Does the order of the directions make sense? Why or why not?
- Q Does the reader have all the information needed to play the game? Why or why not?

Use the students' suggestions to revise the directions, if necessary.

Refer to the "Writing Good Directions" chart and remind the students that these are questions they should ask themselves when doing functional writing. Explain that during Writing Time today the students may add to their lists of games, write more directions, or continue to explore the functional writing collection to get ideas.

## WRITING TIME

### 5 Write Independently

Display the "Writing Time" chart (WA14) and have the students work silently on the charted tasks for 20–30 minutes.

#### Writing Time

- Add to the list of games in your notebook.
- Write directions for a recipe, for drawing a cartoon character, or for doing something else.
- Browse the functional writing collection to get ideas.

WA14

Make the functional writing collection available for interested students to browse during Writing Time. When the students seem to be working independently, begin conferring with individual students.

### Teacher Note

Save the "Directions for Tic-Tac-Toe" chart to use on Day 4 and throughout the unit.

## TEACHER CONFERENCE NOTE

Continue to confer with individual students. Ask each student to show you a piece of her functional writing and read it aloud to you. As you listen, ask yourself:

- Are the directions clear and easy to follow?
- Does the sequence of the directions make sense?
- Does the reader have all of the information needed?

If possible, try following the student's directions. Then probe her thinking by asking questions such as:

- Q *I'm not clear about how to [draw the eye]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *I could [put the curved line] here or here. Where should it go? How will you write that in your directions?*
- Q *I'm confused about the order of what I'm to do. Do I [finish the legs] before I [draw the arms]? How can you make that clear in your directions?*
- Q *How should I [draw the feet]? I don't see anything about that in the directions. Does that information need to be included? How might you write that?*

Document your observations for each student on a "Conference Notes: Focus 1" record sheet (CN1); see page 119 of the *Assessment Resource Book*. Beginning tomorrow, the focus of the individual student conferences will change. If you have not met with all of your students to discuss the questions above, you may wish to do so before changing the conference focus.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Reflect on Writing and Responsibility

Ask and briefly discuss questions such as:

- Q *What functional writing did you do today? Tell us about it.*
- Q *What interesting information did you find in the functional writing collection? Tell us about it.*
- Q *What did you do to handle our functional writing materials responsibly?*

Explain that tomorrow each pair of students will pick a game and write directions for it.

## In this lesson, the students:

- Select games and begin drafting directions for them
- Explore sequence and completeness in functional writing
- Reach agreement before making decisions
- Share the work fairly

## GETTING READY TO WRITE

### 1 Introduce Writing Game Directions

Have the students bring their notebooks and pencils and gather with partners sitting together, facing you. Explain that the students will spend the next few days drafting game directions and that the audience for these directions will be their classmates. The directions will be published in a class book of games, which will go into the class library to be used whenever students want to review the rules of a game or learn how to play a new game.

### 2 Discuss Game Ideas and Prepare to Write

Explain that today each pair of students will review game ideas on the “Games We Know How to Play” chart and in their notebooks. Partners will then talk about games they both like and circle two or three games that they might want to write about.

Give partners a few minutes to review their lists, agree on two or three games, and circle them. Signal for the students’ attention and discuss:

- Q *What games did you and your partner circle?*
- Q *What are some things you might think about in order to choose one game to write about?*

#### Students might say:

“It shouldn’t be too complicated.”

“You should really know how to play it.”

“It should be interesting to write about.”

“In addition to what [Zack] said, it should be interesting to other kids in the class.”

Explain that during Writing Time today partners will choose one of the games they circled and play it, if possible. After discussing how to play

## Materials

- “Games We Know How to Play” chart from Day 3
- “Directions for Tic-Tac-Toe” chart from Day 3
- “Writing Good Directions” chart from Day 3
- Materials for playing games, prepared ahead
- Loose, lined paper for each student
- “Writing Time” chart (WA15)
- Class set of “Conference Notes: Focus 2” record sheets (CN2)

## Teacher Note

The cooperative work in this lesson is designed to encourage partners to choose a game, play the game and discuss it, and agree on what to write.

## Teacher Note

As each partner will do her own writing, you will have two sets of directions for each game. Compile them into two identical class books at the end of the unit.

the game and agreeing on the rules, each partner will write her own directions for the game. Point out that since every student will do her own writing, each pair will end up with two sets of directions for the game they selected.

Explain any procedures for using the game materials (see “Do Ahead” on page 491). Encourage the students to use the headings on the “Directions for Tic-Tac-Toe” chart, if they wish, and to refer to the “Writing Good Directions” chart. Remind each pair of students to play their game or, if that is not possible in the classroom, to close their eyes and imagine their game as they write.

## WRITING TIME

### 3 Write Game Directions

Have the students sit at desks with partners together. Distribute writing paper and remind the students to write on every other line. Display the “Writing Time” chart (WA15) and have partners work for 20–30 minutes on the charted tasks.

WA15

#### Writing Time

- With your partner, review your lists of games and select one.
- Discuss how to play the game and agree on the rules.
- If possible, play the game together.
- Write your own directions for the game. Each partner should do his or her own writing.

When the students seem to be working independently, begin conferring with one pair at a time.

## TEACHER CONFERENCE NOTE

During the coming week, confer with individual pairs about the game directions each partner is writing for the class book. Have partners show and read you their directions. As you imagine or try to play the game, ask yourself:

- Are the directions clear and easy to follow?
- Are the directions in an order that makes sense?
- Are the directions complete and accurate?

*(continues)*

## TEACHER CONFERENCE NOTE *(continued)*

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *What is the object of this game? How will you write that?*
- Q *What do players need to do to get ready? How will you write that?*
- Q *I'm confused by this direction. What does a player do? How can you rewrite the direction so it says that?*
- Q *How will the players know when the game is over?*

If partners have picked a game that you feel is too complex for this writing activity, help them pick a simpler game to write about.

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 120 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Share Game Topics and Reflect on Partner Work

Briefly discuss:

- Q *How did you and your partner work together to choose a game? What did you do well? What might you work on next time?*
- Q *What was fun about writing your game directions? What was challenging?*

Go around the room and have each pair of students share the name of the game they chose and the object of that game. After all pairs have shared, briefly discuss as a class:

- Q *What game are you curious to learn to play? What makes you curious?*

Explain that tomorrow partners will continue to work on their drafts. Have the students place their directions in their folders until the next lesson.

# Day 5

## Drafting and Revising

### Materials

- “1, 2, 3 Dragon” (see page 510)
- “Catching Stars” (see page 512)
- *Student Writing Handbook* pages 26–28
- “1, 2, 3 Dragon” chart (WA16)
- “Writing Good Directions” chart from Day 4
- “Catching Stars” chart (WA17)
- “Directions for Tic-Tac-Toe” chart from Day 4
- “Writing Time” chart (WA18)
- Materials for playing games from Day 4
- Loose, lined paper for each student
- “Class Assessment Record” sheet (CA2)

### Teacher Note

If you lack space in the class to demonstrate the game, you can demonstrate it outdoors or simply have the students stay at their seats and close their eyes to imagine themselves playing the game as you reread the directions aloud.

### Teacher Note

If the students do not mention the inconsistency between “Object” and the second bullet in “End of a Round” (about what happens if the head tags the tail), you might point it out using language like that in the “Students might say” note.

### In this lesson, the students:

- Explore accuracy and clarity in functional writing
- Draft game directions
- Play their games and revise their directions
- Reach agreement before making decisions
- Share the work fairly

## GETTING READY TO WRITE

### 1 Read “1, 2, 3 Dragon” and Demonstrate

Have the students get their folders, pencils, and *Student Writing Handbooks* and sit at desks with partners together. Remind the students that yesterday each pair of students chose a game and began writing directions for a class game book. Explain that today the students will read and discuss game directions written by other students and then continue to work on their own game directions.

Explain that students in a school in Pennsylvania researched and wrote directions for games played in other countries and that directions for two of these games are reproduced in their *Student Writing Handbooks*. Have them turn to “1, 2, 3 Dragon” on pages 26–27 as you display the “1, 2, 3 Dragon” chart (WA16). Then have the students follow along as you read the text aloud. (See also “1, 2, 3 Dragon” on page 510.)

Briefly demonstrate the game by having a few volunteers form a line, with each player holding the shoulders of the person in front to show what the “dragon” would look like. Read the directions aloud again, pausing after each step to have the players act out, in slow motion, what the game would look like (avoiding running or falling in the classroom).

### 2 Explore Accuracy and Clarity in Game Directions

Have the volunteers return to their seats, and ask all the students to review the game directions in their handbooks again. After a moment, ask:

**Q** *What do you notice about the directions for this game? Turn to your partner.*

Signal for the students’ attention and have a few volunteers share their thinking with the class.

**Students might say:**

"It says when the head catches the tail, the head goes to the end of the line. But it also says that the object of the game is to tag the tail as many times as you can while you are the head. I'm confused."

"I agree with [Mark]. It's confusing about what you're supposed to do after the head catches the tail."

"In addition to what [Gayle] said, I'm confused about the difference between 'catch' and 'tag.'"

Point out that authors of functional writing must be sure that their writing is accurate and clear so that their readers will not be confused. Explain that when directions are *accurate*, they are correct, with no mistakes or misleading information, and that when directions are written clearly, they tell the reader exactly what to do. On the "Writing Good Directions" chart, add *Are the directions accurate and clear?*

Display the "Catching Stars" chart (🎯 WA17). (See also "Catching Stars" on page 512.) Have the students turn to "Catching Stars" on *Student Writing Handbook* page 28 and read these directions quietly to themselves (or softly with partners), asking themselves if they would know exactly what to do in this game. After they have had time to read, ask:

**Q** *Are these directions accurate and clear? Why or why not?*

**Students might say:**

"The directions for 'Catching Stars' are accurate and clear because there aren't any mistakes and I know exactly what to do."

"I agree with [Kris] because there isn't anything in the directions that's confusing."

Explain that during Writing Time today partners will work on the game directions they started yesterday. After they have written their directions, partners should try following them to play their game and then revise any directions that seem confusing or unclear.

Direct the students' attention to the "Writing Good Directions" chart. Remind them to think about the questions on the chart as they write, and reread them aloud, if necessary. You might also suggest that the students review the "Directions for Tic-Tac-Toe" chart for more ideas.

## WRITING TIME

### 3 Work on Game Directions

Display the "Writing Time" chart (🎯 WA18) and have partners work on the charted tasks for 20–30 minutes. Provide additional lined paper as needed.

### Writing Time

- Finish drafting your game directions.
- Reread your directions and follow them to play your game.
- Mark any directions that need revision.
- Revise your directions.

Walk around and observe the students, assisting as needed.

### Teacher Note

If a game requires more than two players, outdoor play, or equipment that is not readily available, have partners imagine and talk through each step of the game rather than play it.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners working together in a productive way?
- Are they sharing the work fairly?
- Are they writing directions that are clear and easy to follow?
- Are the directions complete and in an order that makes sense?

Support any pair that struggles by asking questions such as:

- Q *What is the object of this game? How will you write that?*
- Q *What do players need to do to get ready? How will you write that?*
- Q *How will the players know when the game is over?*

If partners have picked a game that you feel is too complex for this writing activity, help them pick a simpler game to write about.

Record your observations on the “Class Assessment Record” sheet (CA2); see page 117 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Discuss Partner Work

Ask and briefly discuss questions such as:

- Q *What did you find out when playing your game? What revisions did you make?*
- Q *What did you and your partner do to share the work fairly today? What do you want to do [the same way/differently] next time to share the work fairly?*

Remind the students that next week they will exchange their directions with another pair and try one another’s games. Have the students place their directions in their folders until the next lesson.

---

## EXTENSION

### Explore More Card Games

Have the students read and try to follow the directions for some of the other card games in *The Book of Cards for Kids*. After the students have played a game, discuss questions such as:

- Q *Did the order of the directions make sense? If not, how might you change the order?*
- Q *Did the directions give you all the information you needed to play the game? If not, what other information did you need?*
- Q *Were the directions accurate and clear? If not, how might you change them?*

## Excerpt

### 1, 2, 3 Dragon

by students at Germantown Academy, PA

#### **State the name of your game and why you chose it.**

The name of the game is 1, 2, 3 Dragon. We chose it because it can include everyone, because it's tiring, because of its simplicity, and because it looked fun and challenging.

#### **List the countries where it is played and its origin.**

Variations of the game are played all over the world, but with different rules, scoring, and names.

1, 2, 3 Dragon originated in China and is played by small children, usually to celebrate the New Year. During the Chinese New Year they have dancing dragons, games and food. Dragons are important because they mean good luck.

#### **Describe how your game is played. State the object of the game. Clearly describe the rules.**

10 or more people form a line with each player holding the shoulders of the person in front of them.

The person in the front is the "Head."

The person at the back of the line is the "Tail."

#### **To Begin:**

The tail shouts "1, 2, 3 dragon."

The head leads the line and tries to catch the tail.

The line must stay together the whole time.

#### **End of a Round:**

If the dragon breaks, the dragon dies. The head moves to the end of the line and becomes the tail.

If the head catches the tail, play stops and the head goes to the end of the line.

The second person in line now becomes the head.

## 1, 2, 3 Dragon

*(continued)*

### **Object:**

The object is to tag the tail as many times as you can while you are the head. A point is scored for each successful tag. Some people prefer to play without points.

### **List the equipment needed.**

10 or more players.

Playing area.

Ages: 8 or older.

### Catching Stars

by students at Germantown Academy, PA

**State the name of your game and why you chose it.**

We chose this game because we like the game “Mr. Fox” and this is very similar.

**List the countries where it is played and its origin.**

This game was developed by the pygmy tribes in Africa.

**Describe how your game is played. State the object of the game. Clearly describe the rules.**

It takes seven or more players to play this game.

Divide the players into two groups: Stars and Catchers

Set up two boundaries about twenty feet apart.

Catchers: stand in the middle of the two boundaries.

Stars: stand on one side of the boundaries.

Catchers: say “star light, star bright, how many stars are out tonight.”

Stars: say “more than you can catch!”

The stars run across to the other end and try not to get tagged. The winner is the last person to get caught.

**List the equipment needed.**

None. This is a simple running game.

# Week 3

## OVERVIEW

### Writing Focus

- Students review directions for sequence, completeness, accuracy, and clarity.
- Students explore using *can*, *may*, and *must* in directions.
- Students proofread their drafts for spelling, punctuation, and grammar.
- Students write final versions of their game directions.
- Students present their game directions to the class from the Author's Chair.

### Social Development Focus

- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students help one another improve their writing.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA19–WA22

#### Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “Conference Notes: Focus 2” record sheet (CN2)
- “Individual Writing Assessment” record sheet (IA1)
- “Student Self-assessment” record sheet (SA1)

#### Reproducible

- Functional Writing genre unit family letter (BLM1)

#### Professional Development Media

- “Using ‘Turn to Your Partner’” (AV11)
- “Social Reflection” (AV14)
- “Planning a Lesson” (AV33)

## DO AHEAD

- ✓ Prior to Day 1, decide how you will combine pairs of students to form groups of four.
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA3) on page 118 of the *Assessment Resource Book*.
- ✓ Prior to Day 1, make a class set of the “Conference Notes: Focus 2” record sheet (CN2) on page 120 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student’s published piece.
- ✓ (Optional) Prior to Day 2, review the functional writing pieces you have written and select a single set of directions to use to model adding modal auxiliaries such as *can*, *may*, and *must* to a draft. Prepare your sample writing to display. Alternatively, you can use the “Sample Functional Writing Draft” chart (WA20). To learn more, view “Planning a Lesson” (AV33).
- ✓ (Optional) If computers are available, you might have some students type and print out their functional writing pieces for the class book. You might want to recruit parent volunteers to help the students to do so. In addition, you might teach Technology Mini-lesson 9, “Creating Documents,” in Appendix A.

## TEACHER AS WRITER

*“You never know what you will learn until you start writing.”*

— Anita Brookner

Think of something you know how to do well, and imagine teaching someone else how to do it. Write a draft of the directions for this activity, and then ask yourself the questions on the “Writing Good Directions” chart. Revise the draft, if needed. Consider giving the directions to a friend or colleague to try the activity and give you feedback.

# Day 1

## Group Conferring and Revising

### Materials

- “Writing Good Directions” chart from Week 2
- Materials for playing games from Week 2
- “Class Assessment Record” sheet (CA3)

### Teacher Note

If a game requires more than two players or equipment not readily available, have partners imagine and talk through each step of the game rather than play it.

### ELL Note

Consider combining pairs in such a way that English Language Learners who speak the same primary language are in groups together. This will provide support for their discussion about the activities.

### In this lesson, the students:

- Confer in groups of four about their game directions
- Explore sequence, completeness, accuracy, and clarity in functional writing
- Ask for and receive feedback about their writing
- Give feedback in a helpful way
- Revise their game directions

## GETTING READY TO WRITE

### 1 Exchange Game Directions and Play

Have the students get their folders and pencils. Review that last week partners worked together to write game directions for a class book. Explain that today each pair of students will join another to form a group of four, and then they will exchange directions with the other pair in the group, play or imagine playing the other pair’s game, and give helpful feedback (see “Do Ahead” on page 515).

Explain that, after pairs exchange their game directions, you would like them to read the other pair’s directions and try following them (or imagine following them; see the Teacher Note) to play the game. Tell them that, as they try to follow the directions, you would like them to ask themselves the questions on the “Writing Good Directions” chart and be ready to give the other pair feedback about the questions. If necessary, review the questions on the chart.

Put pairs together to form groups of four and ask group members to sit together.

Have pairs exchange game directions. Since each partner did her own writing, there should be two copies of the game directions: one for each student in the other pair. Distribute any necessary materials the students need, and have them read and play the games.

### 2 Confer in Groups About Game Directions

After pairs have had sufficient time to read and try each other’s game directions, signal for the students’ attention. Redirect their attention to the “Writing Good Directions” chart and use “Think, Pair, Share” to have partners discuss:

**Q** *Does the order of the directions make sense?* [pause] Turn to your partner.

Q *Does the reader have all of the information needed?* [pause] Turn to your partner.

Q *Are the directions accurate and clear?* [pause] Turn to your partner.

After partners have discussed all three questions, explain that they will give feedback to the other pair in the group about the directions. Ask and briefly discuss:

Q *If you and your partner were confused about any of the directions, how might you give that feedback in a respectful and helpful way?*

**Students might say:**

"We could say, 'We're not sure we understand what this direction means. Could you please explain it?'"

"We could say that we're not sure what to do first and what to do next, and we could talk about it."

"We could say that we need more information to know what to do and ask what else they could say."

"We could say that it would help to see a picture of a step and ask them to draw one."

Have pairs give each other feedback. As they confer, circulate and observe.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students give one another useful feedback?
- Do they give and receive the feedback respectfully?
- Do the students discuss possible revisions?

Note any difficulties that you observe groups having and prepare to discuss them later as a class.

Record your observations on the "Class Assessment Record" sheet (CA3); see page 118 of the *Assessment Resource Book*.

After most of the groups have finished talking, signal for the students' attention. Ask and briefly discuss questions such as:

Q *What feedback did you get that helped you?*

Q *What was helpful about how the students in the other pair talked to you?*  
*Take a moment to thank them.*

Q *What suggestions do you have for how the students in the other pair might give feedback in the future? Take a moment to tell them.*

Explain that during Writing Time today the students in each pair will use the feedback they received to help them revise their game directions.

## WRITING TIME

### 3 Revise and Complete Drafts

Have partners work on revising their game directions for 20–30 minutes. If they finish, they may write whatever they choose for the rest of the period.

When the students seem to be working independently, confer with one pair at a time.

### TEACHER CONFERENCE NOTE

This week, continue to confer with individual pairs about the game directions each partner is writing for the class book. Have partners show and read you their directions. As you play the game (or imagine playing it), ask yourself:

- Are the directions clear and easy to follow?
- Are the directions in an order that makes sense?
- Are the directions complete and accurate?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

**Q** *What is the object of this game? How will you write that?*

**Q** *What do players need to do to get ready? How will you write that?*

**Q** *I'm confused by this direction. What does a player do? How can you rewrite the direction so it says that?*

**Q** *How will the players know when the game is over?*

If partners have picked a game that you feel is too complex for this writing activity, help them pick a simpler game to write about.

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 120 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Reflect on Revisions

Ask and briefly discuss:

**Q** *What is one piece of feedback you and your partner gave to the other pair about their game directions? Why did you give them this feedback?*

**Q** *What is one of the changes you and your partner made to your game directions today? Read it to us. Why did you make this change?*

Have the students place their directions in their folders until the next lesson.

## In this lesson, the students:

- Explore using *can*, *may*, or *must*
- Mark places in their directions where they use, or could use, *can*, *may*, or *must*
- Revise their directions for sequence, completeness, accuracy, and clarity
- Share the work fairly

## GETTING READY TO WRITE

### 1 Briefly Review Purpose of Revision

Have the students get their folders and pencils and sit at desks with partners together. Review that yesterday they revised their directions with feedback from another pair. Remind them that the purpose of revision is to make their game directions as clear, complete, and accurate as possible before they publish them in the class book.

Explain that today you will ask them to think about a way they might revise their directions.

### 2 Discuss *Can*, *May*, and *Must*

Explain that authors of functional writing often use the words *can*, *may*, and *must* to make their directions clearer and easier for readers to understand. Show the cover of *The Book of Cards for Kids* and remind the students that they used directions from this book to play the game Authors. Tell them that you will read a brief passage from those directions aloud. Ask the students to listen for the word *must* and to think about why the author might have used it. On page 33 of the book, read the first paragraph after the subheading “Play.”

Ask and briefly discuss:

- Q *The directions say that a player must ask for the exact card he or she wants, for instance, the 9 of spades. What might happen if a player ignored this and asked for several different cards?*
- Q *Why might the author have used the word must here?*

#### Students might say:

“If players ignored that part of the directions, the game wouldn’t work. You wouldn’t be able to play.”

“In addition to what [Ben] said, I think the author says players ‘must ask’ for the exact card because it’s really important for them to do that.”

“I agree with [Tosha]. The author used *must* because this is a rule of the game. You have to do it if you want to play.”

## Materials

- *The Book of Cards for Kids* from Week 2
- “Revising to Add *Can*, *May*, or *Must*” chart (WA19)
- A pad of small (1½" × 2") self-stick notes for each student
- Your sample directions OR “Sample Functional Writing Draft” chart (WA20)
- “Writing Good Directions” chart from Day 1
- “Writing Time” chart (WA21)

## ELPS 5.E.i

### Steps 2–4

(all, beginning on page 519 and continuing on to page 522)

If necessary, point out that the word *must* tells readers that they have to follow this direction; it is a rule of the game. Explain that authors of functional writing often use *must* to signal to readers when a particular direction is absolutely necessary and has to be followed. Write the word *must* where everyone can see it; next to it add a *rule*, *something you have to do*.

Explain that authors of functional writing use *can* and *may* to tell readers when a particular direction is a *suggestion*, or something that they might consider doing but do not have to do.

Point out that directions for the game Authors could include the sentence *Players may sit around a table*. Explain that this is an example of a suggestion. Players do not have to sit around a table in order to play the game; they can sit on the floor instead. Write the words *can* and *may* where everyone can see them; next to them write a *suggestion*.

### 3 Facilitate Guided Rereading of Directions

Have partners quietly reread their directions and look up when they are finished. Distribute self-stick notes to the students and explain that you will ask them to look for and think about a few specific things in their drafts.

Display the “Revising to Add *Can*, *May*, or *Must*” chart (WA19) and read the prompts aloud, one at a time, giving partners several quiet minutes after each prompt to review their drafts and mark passages with the self-stick notes.

#### Revising to Add *Can*, *May*, or *Must*

- Find a place where you use, or could use, the word *can* or *may* to help readers understand that you are making a suggestion. Put a self-stick note in the margin next to that place and write *suggestion* on it.
- Find a place where you use, or could use, the word *must* to help readers understand that this particular part of the directions is a rule that has to be followed. Put a self-stick note in the margin next to the place and write *rule* on the note.

WA19

### 4 Model Revising to Add *Can*, *May*, or *Must*

Without sharing as a class, explain that partners will look at the places they marked with self-stick notes and make revisions to their directions.

Display your own writing or the “Sample Functional Writing Draft” chart (WA20) and read it aloud. If you are using your own writing, begin by writing *suggestion* in the margin next to a place where you could use *can* or *may* and writing *rule* next to two places where you could use *must*.

Ask the students to watch as you model revising to make your directions clearer and easier for readers to understand.

**You might say:**

"To get ready for a game of tic-tac-toe, players need to decide who will go first. This can be difficult to decide in a fair way, so maybe I'll give players a suggestion about how to decide fairly. I'll add this sentence at the end of step 3: *For example, players can flip a coin to decide.* Since this is just a suggestion (something players might do but don't have to do), I used the word *can*. Now I'll think about places I might use the word *must* to make rules of the game more clear. For instance, tic-tac-toe doesn't work if a player marks more than one square during a turn. I'll add a sentence about that to step 1: *He must mark just one square.* The word *must* tells readers that this is a rule; it has to be followed. Another important rule is that players must mark only blank squares. It's not allowed to mark a square that the other player has already marked. I'll add a sentence about that to step 2: *She must choose a square that is blank.* I included the word *must* so that readers understand this is a rule of the game."

WA20

## Sample Functional Writing Draft

### Directions for Tic-Tac-Toe

**Number of Players:**

- two

**Equipment:**

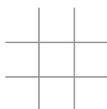

- paper
- a pencil for each player

**Object of the Game:**

- to get three X's or three O's in a row

**Get Ready:**

1. Make a tic-tac-toe board like this.

2. Decide which player will use O as his mark and which player will use X as her mark.
3. Decide which player will go first. It's best to decide in a fair way. *For example, players can flip a coin to decide.* *suggestion*

**Play:**

1. The first player draws his mark in a square. *He must mark just one square.* *rule*
2. Now the second player takes her turn. She draws her mark in one square. *She must choose a square that is blank.* *rule*
3. The players continue to take turns marking squares, trying to get three X's or three O's in a row.
4. The first player to get three X's or three O's in a row draws a line through them and says "Tic-tac-toe!" Now the game is over.

Step 5 (all, beginning on  
page 522 and continuing on  
to page 523)

Explain that during Writing Time today the students will follow the same procedure to revise their own directions. You might invite them to review the “Writing Good Directions” chart and to ask themselves the questions on the chart as they revise.

## WRITING TIME

### 5 Continue Revising Drafts

Display the “Writing Time” chart (📄 WA21) and have the students work silently on the charted tasks for 20–30 minutes.

#### Writing Time

- Review places you marked with self-stick notes.
- Add *can*, *may*, or *must* to make your directions clearer and easier to follow.
- Make any other revisions that improve your directions.
- Remove the self-stick notes as you finish revising.
- If you finish, work on another piece of functional writing.

WA21

Join the students in writing for a few minutes; then confer with individual pairs.

### TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about the game directions each partner is writing for the class book. Have partners show and read you their directions. As you play the game (or imagine playing it), ask yourself:

- Are the directions clear and easy to follow?
- Are the directions in an order that makes sense?
- Are the directions complete and accurate?
- Have partners used *can*, *may*, or *must* to make the directions clearer and easier to understand?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *What is the object of this game? How will you write that?*
- Q *What do players need to do to get ready? How will you write that?*
- Q *I'm confused by this direction. What does a player do? How can you rewrite the direction so it says that?*
- Q *How will the players know when the game is over?*
- Q *Where is a place you might use can, may, or must to make your directions clearer and easier to understand?*

(continues)

## TEACHER CONFERENCE NOTE *(continued)*

If partners have picked a game that you feel is too complex for this writing activity, help them pick a simpler game to write about.

Document your observations for each student on a separate “Conference Notes: Focus 2” record sheet (CN2); see page 120 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Share and Reflect on Revisions

Help the students reflect on their work during Writing Time today by asking questions such as:

**Q** *Who added can, may, or must to their directions today? Read us that sentence. How does this make your directions clearer and easier to follow?*

**Q** *What other revisions did you make today? Tell us about a revision.*

Explain that tomorrow the students will proofread their drafts and write final versions. Have the students place their directions in their folders until the next lesson.

## Proofreading

## Day 3

### In this lesson, the students:

- Proofread their drafts for spelling, punctuation, and grammar
- Write the final versions of their pieces
- Reach agreement before making decisions
- Share materials fairly

## GETTING READY TO WRITE

### 1 Discuss Proofreading for Spelling and Conventions

Have the students get their folders, pencils, and *Student Writing Handbooks* and sit at desks with partners together. Remind the students

### Materials

- *Student Writing Handbooks*
- Supply of loose, lined paper for final versions
- (Optional) Computers for typing and printing final versions

that yesterday they revised their game directions and that their directions will ultimately go into a book of game directions for the class library.

Explain that today partners will work together to proofread their drafts and then start writing their final versions. Remind them that they should use the word bank and proofreading notes in their *Student Writing Handbooks* to help them proofread their drafts for spelling and correctness (see Unit 2, Week 2, Day 2 on page 98 and Unit 2, Week 2, Day 3 on page 103). Briefly review these procedures by reminding partners to:

- Circle words in their drafts that they are unsure how to spell and look them up in the word bank. Add any words that are not already in their word bank after looking up the correct spellings in a dictionary or other source.
- Use the proofreading notes as a list of things to check in their drafts before publishing. They will correct any errors by crossing out each error on the draft and writing the correction above it.

Ask and briefly discuss:

**Q** *How will you and your partner be sure you agree that something needs to be changed and how to change it?*

**Q** *What will you do if you don't agree?*

Encourage partners to keep their ideas in mind as they work together today.

## WRITING TIME

### **2** Proofread Drafts and Write Final Versions

Have partners work on proofreading their drafts. Provide lined paper to pairs who finish proofreading and are ready to begin their final versions. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with one pair at a time.

### TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about the game directions each partner is writing for the class book. Have partners show and read you their directions. As you play the game (or imagine playing it), ask yourself:

- Are the directions clear and easy to follow?
- Are the directions in an order that makes sense?
- Are the directions complete and accurate?
- Have partners used *can*, *may*, or *must* to make the directions clearer and easier to understand?

*(continues)*

## TEACHER CONFERENCE NOTE *(continued)*

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *What is the object of this game? How will you write that?*
- Q *What do players need to do to get ready? How will you write that?*

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 120 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Reflect on Proofreading

Ask and briefly discuss:

- Q *What words did you find in your word bank today? How did you check on words that were not in the word bank?*
- Q *What corrections did you make in your draft after reviewing your proofreading notes?*

Have the students put loose papers into their folders and explain that partners will finish working on their final versions tomorrow.

# Day 4

## Writing Final Versions and Publishing

### Materials

- “Writing Time” chart (WA22)
- Supply of loose, lined paper for final versions
- Two chairs to use for Author’s Chair sharing
- (Optional) Computers for typing and printing final versions

### In this lesson, the students:

- Finish writing their final versions
- Present their game directions from the Author’s Chairs
- Express interest in and appreciation for one another’s writing
- Ask one another questions about their writing

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students get their folders and pencils and sit at desks with partners together. Explain that they will finish working on the final versions of their game directions. Pairs who finish will begin sharing their pieces from the Author’s Chairs after Writing Time.

## WRITING TIME

### 2 Finish Final Versions

Display the “Writing Time” chart (WA22) and read it aloud.

#### Writing Time

- Finish proofreading your draft using your word bank and proofreading notes.
- Finish writing the final version of your game directions.

WA22

Have the students think quietly to themselves for a moment about the following question:

**Q** *What do you need to work on today to be ready to share your game directions from the Author’s Chairs?*

After a moment, have partners begin working on their final versions. When they finish, they may write about anything they choose. As they work, circulate, observe, and offer assistance. When the pairs seem to be working independently, confer with one pair at a time.

## TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about the game rules each partner is writing for the class book. Have partners show and read you their directions. As you play the game (or imagine playing it), ask yourself:

- Are the directions clear and easy to follow?
- Are the directions in an order that makes sense?
- Are the directions complete and accurate?
- Have partners used *can*, *may*, or *must* to make the directions clearer and easier to understand?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

**Q** *What is the object of this game? How will you write that?*

**Q** *How will the players know when the game is over?*

**Q** *Where is a place you might use can, may, or must to make your directions clearer and easier to understand?*

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 120 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Conduct Author's Chair Sharing

Gather the class with partners sitting together, facing the Author's Chairs. Explain that one partner in each pair will read his game directions (unless their directions are written very differently, in which case both partners will read their directions). Give each pair of students a few moments to decide which partner will read the directions. If necessary, review the procedures you established for Author's Chair sharing in Unit 2, Week 2 (see "Do Ahead" on page 95).

Call on a pair of students to come to the Author's Chairs to read aloud one set of directions for their game. Remind the reader to speak in a loud, clear voice, and remind the audience to show interest in and

### Teacher Note

The end-of-lesson reflection is important to the students' growth as writers and to their social development. We encourage you to allow at least 5 minutes at the end of each period to help the students reflect on their work and interactions. For more information about social development, see "Values and Social Skills" on page xxviii. To learn more, view "Social Reflection" (AV14).

appreciation for their classmates' writing. At the end of the sharing, facilitate a discussion using questions like those that follow. Give the authors an opportunity to respond to the class's comments and questions.

- Q *What did you learn about playing [Snap] from this pair's directions?*
- Q *What questions can we ask [Glenn] and [Joanne] about what they wrote?*

Follow this procedure to have other pairs share from the Author's Chairs.

## 4 Reflect on Audience Behavior During Author's Chair Sharing

Ask and briefly discuss:

- Q *What did we do well as an audience today? What do we still want to work on the next time our authors share their work?*
- Q *If you shared today, how did the audience members make you feel? What did they do that made you feel [relaxed/nervous/proud]?*

Explain that more pairs of students will share their directions from the Author's Chairs tomorrow.

## WRITING ABOUT READING

### Write Persuasively About Games

Have partners briefly review their game directions. Explain that each partner will write a persuasive letter to his classmates about why they should want to play his game. Ask:

- Q *Think about your game directions. What makes your game interesting or fun to play? In your opinion, why should people want to play it?*

#### Students might say:

"Our game is fun because you get to run around a lot."

"People should want to play our game because you can play it with just a few friends or with lots of people."

"Our game can be played anywhere. All you need is a deck of cards. That's one reason I think people will like playing it."

"In addition to what [Lucy] said, our game is exciting because it has lots of twists and turns. People will definitely like that."

Explain to the students that when they write their persuasive letters, they need to support their opinions with facts and details about their games. Ask the students to watch as you think aloud and model writing a persuasive letter about why you think people in the class should want to play your game.

**You might say:**

"I'll start by writing today's date and then a salutation: *Dear classmates.* I'll remember to put a comma after the word *classmates.* Now I can begin my letter on the next line. First I'll write a sentence that tells my partner's name and the name of our game: *Jerry and I wrote directions for the game tic-tac-toe.* Now I will write my opinion about the game and one reason why people in our class will want to play it: *I think tic-tac-toe is a great game, and you will love playing it. First, tic-tac-toe is easy to play! There are just a few rules, and they are simple to remember.* Now I'll add a second reason: *Another reason why you will enjoy tic-tac-toe is that you can play it anywhere. You don't need a big space or lots of equipment. All you need is a piece of paper and a pencil. In fact, you can even play it on the sidewalk with a piece of chalk.* If I can think of a third reason, I'll add it, too: *Also, we think you will want to play tic-tac-toe because it just needs two players. Sometimes it's hard to find enough people to play a game. That's not a problem with tic-tac-toe.* Now I'll write some concluding sentences to finish my letter: *So go ahead and try playing tic-tac-toe. You will have a great time!* Since this is a letter, I need to add a closing (with a comma after it) and then sign my name: *Sincerely, Mrs. Roberts.*"

Remind the students that they should each start their letters with today's date, a salutation, and opening sentences that state their partner's name, the title of their game, and their opinion about the game. Explain that the body of their letters should include one or two reasons why other students should choose their game to play. Remind them that they should wrap up their letters with a closing and a signature. If time permits, invite the students to share their persuasive letters with the class. Include the letters with the game directions in the class book at the end of the unit.

## Writing Final Versions and Publishing

## Day 5

**In this lesson, the students:**

- Reflect on functional writing
- Finish writing their final versions
- Present their game directions from the Author's Chairs
- Express interest in and appreciation for one another's writing
- Ask one another questions about their writing

### GETTING READY TO WRITE

#### 1 Review and Reflect on Functional Writing

Have the students get their folders and pencils and sit at desks with partners together. Remind them that they have been exploring

**Materials**

- "Writing Good Directions" chart from Day 2
- Loose, lined paper for final versions
- Two chairs to use for Author's Chair sharing
- Copy of this unit's family letter (BLM1) for each student
- (Optional) Computers for typing and printing final versions

### Facilitation Tip

Reflect on your experience over the past three weeks with **avoiding repeating or paraphrasing** students' responses. Does this practice feel natural to you? Are you integrating it into class discussions throughout the school day? What effect is it having on the students? Are they participating more responsibly in class discussions? We encourage you to continue to try this practice and reflect on the students' responses as you facilitate class discussions in the future.

### Teacher Note

To review the procedure for "Turn to Your Partner," see Unit 1, Week 1, Day 2 (page 11). To see an example, view "Using 'Turn to Your Partner'" (AV11).

functional writing that gives directions for how to do something. Direct their attention to the "Writing Good Directions" chart, and review the items on the chart. In pairs and as a class, discuss:

- Q *Which of these questions were the most challenging for you to think about as you wrote your game directions, and why? Turn to your partner.*
- Q *What did you like best about writing your game directions? Turn to your partner.*
- Q *What have you learned about functional writing? Turn to your partner.*

Remind the students that writers become better over time as they practice writing over and over. Encourage the students who feel drawn to functional writing to continue to read and write it during their free time.

Explain that today partners will finish writing the final versions of their game directions and share them from the Author's Chairs.

## WRITING TIME

### 2 Finish Final Versions

Have partners work on their final versions. If they have already finished, they may write anything else they choose.

As the students work, circulate, observe, and offer assistance. When pairs seem to be working independently, confer with one pair at a time.

### TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about the game directions each partner is writing for the class book. Have partners show and read you their directions. As you play the game (or imagine playing it), ask yourself:

- Are the directions clear and easy to follow?
- Are the directions in an order that makes sense?
- Are the directions complete and accurate?
- Have partners used *can*, *may*, or *must* to make the directions clearer and easier to understand?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *What is the object of this game? How will you write that?*
- Q *What do players need to do to get ready? How will you write that?*
- Q *I'm confused by this direction. What does a player do? How can you rewrite the direction so it says that?*
- Q *How will the players know when the game is over?*
- Q *Where is a place you might use can, may, or must to make your directions clearer and easier to understand?*

(continues)

## TEACHER CONFERENCE NOTE *(continued)*

Document your observations for each student on a separate “Conference Notes: Focus 2” record sheet (CN2); see page 120 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Conduct Author’s Chair Sharing

Gather the class with partners sitting together, facing the Author’s Chairs. Remind the students that one partner in each pair will read his game directions (unless their directions are written very differently, in which case both partners may read their directions). As you did yesterday, give each pair of students a few moments to decide which partner will read their directions.

Call on a pair of students to come to the Author’s Chairs to read aloud one set of directions for their game. Remind the partner who will read to do so in a loud, clear voice. Also remind the audience to show interest in and appreciation for their classmates’ writing. At the end of the sharing, facilitate a discussion using questions like those that follow, and then give the authors an opportunity to respond to the class’s comments and questions.

- Q *What did you learn about [hopscotch] from this pair’s directions?*
- Q *What questions can we ask [Pedro] and [Kaitlin] about what they wrote?*

Follow this procedure to have other pairs share from the Author’s Chairs.

### 4 Reflect on Audience Behavior During Author’s Chair Sharing

Ask and briefly discuss:

- Q *What did we do well as an audience today? What do we still want to work on the next time authors share their work?*
- Q *If you shared today, how did the audience members make you feel? What did they do that made you feel [relaxed/nervous/proud]?*

Assure pairs who have not yet shared that they will get to share their pieces from the Author’s Chairs in the coming days. Explain that after all the directions are read aloud, you will compile them into two identical books (one book for each partner’s directions) and place them in the class library so the students can read them whenever they want to check game directions or learn a new game.

#### Teacher Note

Make time in the coming days for pairs to share their game directions from the Author’s Chairs until all pairs have had a chance to do so.

#### Teacher Note

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on page 532.

### Skill Practice Note

For practice with using commas in the dates, addresses, greetings, and closings of letters, see Lesson 28 in the *Skill Practice Teaching Guide*.

## EXTENSION

### Write Letters Home About Functional Writing

Provide letter-writing practice for the students by having them each write a letter home about what they learned about functional writing. Stimulate their thinking by reviewing the “Writing Good Directions” chart and discussing questions such as:

- Q *What did you learn about functional writing?*
- Q *What steps did you go through to develop and publish your game directions?*
- Q *What functional writing might you read or write at home?*

If necessary, review the elements of a letter (date, address, salutation, body, closing, and signature) by modeling or writing a shared sample letter with the class. Have the students write and proofread their letters; then attach each student’s letter to a copy of his published game directions and send it home.

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of the Functional Writing genre unit. You will need to reassign partners before you start the next genre unit.
- Send home with each student the student’s published piece and a copy of this unit’s family letter (BLM1). Encourage the students to share their published directions with their families. Remind the students to bring the pieces back to class after their families have read them so they can be placed in the class books of games.
- Save the students’ published writing (or copies of it) to use for reflection and discussion in Unit 9.

### Assessments

- Before continuing with the next unit, take this opportunity to assess individual students’ writing from this unit. See “Completing the Individual Writing Assessment” (IA1) on page 122 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students’ published writing home to share with their families, you might have each student analyze her writing using the “Student Self-assessment” record sheet (SA1) on page 121 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension “Introduce ‘Student Self-assessment’ ” on page 114.

# Genre

# Opinion Writing

During this three-week unit, the students read and write persuasive essays defending particular opinions as they explore elements of opinion writing. They brainstorm topics they have strong opinions about, and each student selects an opinion to write about. The students learn to identify an audience and purpose for their essays, state their opinions and support them with reasons, and use transitional words and phrases to connect opinions with reasons. They write introductions that capture the reader's interest and conclusions that restate their opinions and bring their essays to a close. They practice relevant skills and conventions, such as indenting paragraphs and correcting run-on sentences. They confer in pairs and revise their essays based on partner feedback. Socially, they express their own opinions as they learn to respect and consider the opinions of others. They also express interest in and appreciation for one another's writing.

# Week 1

## OVERVIEW

### Essays

#### “Bugs Are Creepy”

(see page 558)

Bugs look creepy and disgusting, and they bother people.

#### “Insects Are Amazing”

(see page 559)

Insects are very important to nature, and they are interesting to watch and study.

#### “Helping Other Countries”

(see page 560)

The United States should use its wealth to help other countries that do not have as much money.

#### “It Is Our Money and We Need It”

(see page 561)

Our country should keep our money to help our own schools and to support the U.S. economy.

## TEACHER AS WRITER

*“We do not write because we want to; we write because we must.”*

— W. Somerset Maugham

In this unit, the students explore opinion writing—a type of writing intended to persuade readers of the author’s opinion through well-thought-out argument and evidence. Much writing that states and supports an opinion arises from an author’s sense that something is amiss and needs to be addressed or corrected.

Make a list of topics that you feel compelled to address in your own life, community, country, or the world. What bothers you about these things? Are they unfair? Inconvenient? Wrong in other ways? Jot down some notes about your thoughts in your notebook.

### Writing Focus

- Students hear and discuss persuasive essays.
- Students identify the purpose and audience for persuasive essays.
- Students think about what information is communicated in persuasive essays.
- Students generate opinions they feel strongly about for persuasive essays.

### Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students respectfully consider the opinions of others.
- Students work in a responsible way.

## DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see “Random Pairing” on page xxix and “Considerations for Pairing ELLs” on page lii. For more information, view “Cooperative Structures Overview” (AV9).
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1) on page 134 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA2) on page 135 of the *Assessment Resource Book*.

# Day 1

## Exploring Opinion Writing

### Materials

- “Bugs Are Creepy” (see page 558)
- *Student Writing Handbook* page 29

### In this lesson, the students:

- Work with new partners
- Share what they learn about their partners
- Hear and discuss a persuasive essay
- Think about the author’s purpose
- Write about things that interest them

### ABOUT OPINION WRITING

In this unit, the students explore the elements of opinion writing by crafting persuasive essays, and they learn that the purpose of a persuasive essay is to persuade the reader of the author’s opinion. They identify topics that they have strong opinions about and think about who the intended audience of a persuasive essay might be. They explore how essays can be structured as they learn to state an opinion in the opening paragraph, support the opinion in subsequent paragraphs, use transitional words to connect opinions and reasons, and reaffirm the opinion in closing.

The students learn that many published persuasive essays contain researched facts and data to support a given position. Although the students are not expected to research their topics in grade 4, you might wish to incorporate a stronger research focus into this unit by having the students find data and other information about their topics to support their positions. If so, be ready to help them find resources about their topics at the library or on the Internet.

There are two phases to this unit: Immersion and Drafting (two weeks) and Revision, Proofreading, and Publication (one week). During the first phase, the students explore and try their hand at writing persuasive essays. In the second phase, they write, revise, and publish their persuasive essays for a class collection, and they consider ways to publish their essays for a wider audience beyond the classroom.

### GETTING READY TO WRITE

#### 1 Pair Students and Discuss Working Together

Randomly assign partners (see “Do Ahead” on page 539) and make sure they know each other’s names. Explain that partners will work together for the next three weeks.

### Teacher Note

The partners you assign today will stay together for the unit. If necessary, take a few minutes at the beginning of today’s lesson to let them get to know each other better by talking informally in a relaxed atmosphere.

### Teacher Note

If you are using other programs from the Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the writing lessons.

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Have partners take a few minutes to talk about some of the things they have written so far this year. Signal for their attention and ask:

- Q *What did you learn about the writing your partner has done this year?*
- Q *What have you learned about working with someone else that will help you in working with your new partner?*

## 2 Read “Bugs Are Creepy” Aloud

Explain that in this unit the students will focus on writing a special kind of nonfiction. Tell them that you will read aloud a short *essay*, or piece of nonfiction writing. Invite them to think about what the author’s opinion is in this essay.

Without identifying it as a persuasive essay, read “Bugs Are Creepy” (on page 558) aloud slowly and clearly.

### ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

**antennae:** long thin body parts on top of the head of an insect for touching and smelling

**miniature aliens:** very small creatures from another planet

**allergic to:** made sick by

## 3 Reread the Essay and Discuss the Author’s Purpose

Have the students open to page 29 of their handbooks. Have partners read “Bugs Are Creepy” together. Ask them to think as they read about the author’s opinion. After partners have had a chance to read the essay, signal for their attention. Ask and briefly discuss:

- Q *What is the author’s opinion about bugs? How do you know?*
- Q *Do you agree with the author’s opinion? Why or why not?*

#### Students might say:

“The author thinks that bugs and insects are ‘creepy.’”

“I agree with [Karla]. He gives lots and lots of reasons why he thinks they are gross and creepy.”

“I don’t agree with the author because the things that are ‘creepy’ about bugs for the author are not creepy for me.”

“In addition to what [Pete] said, I don’t want a fly eating my food, but I think most bugs are kind of cool.”

Point out that the author is trying to *persuade*, or convince, the reader that bugs are disgusting and annoying; that is the author’s *purpose*, or

### Teacher Note

If necessary, explain to the students that an *opinion* is a strongly held point of view. When we give an opinion, we are telling what we think about something.

### TEKS 10.A.i

Student/Teacher Narrative  
Step 3 (all, beginning on page 541 and continuing through the second paragraph on page 542)

### Teacher Note

Regularly remind the students to use the discussion prompts they learned when they participate in class discussions. The prompts are:

- “I agree with \_\_\_\_\_ because . . .”
- “I disagree with \_\_\_\_\_ because . . .”
- “In addition to what \_\_\_\_\_ said, I think . . .”

reason for writing. Explain that this kind of opinion writing is called a *persuasive essay*.

Point out that the author states a clear opinion in the first paragraph: “I think that bugs are creepy, gross, and annoying.” Then he supports that opinion with several reasons in the paragraphs that follow.

Explain that the students will spend the next few weeks exploring and learning to write persuasive essays. Ask:

**Q** *Why might it be good to know how to write a persuasive essay?*

**Students might say:**

“You could send a persuasive essay to the president or other leaders to explain why you think something is unfair or should be changed.”

“If there is something that you want to change at school, like having more recess, you could write a persuasive essay about it and send the essay to the principal.”

“I agree with [Olivia]. You can write a persuasive essay to try to convince other people to agree with your opinion.”

Explain that during Writing Time today the students may begin thinking about opinions they have that they might want to write a persuasive essay about, or they may write about anything else they choose.

## WRITING TIME

### 4 Write Independently

Have the students get their notebooks and pencils and sit at desks with partners together for 20–30 minutes of silent writing. During this time, they may list opinions or topics they might want to write a persuasive essay about or write about anything they choose.

If necessary, remind the students that all of their writing should be double-spaced and that there should be no talking, whispering, or walking around during the silent writing period. Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Briefly Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. Alert the students to be ready to share their partners’ ideas with the class. After a moment, signal for their attention and ask:

**Q** *What did your partner write about today?*

**Q** *What did you and your partner do to work well together when you were talking and sharing your writing?*

### Teacher Note

Note that on Days 1 and 2 of this week, the students may do persuasive writing or write about anything else they choose. On Day 3, after exposure to more examples of persuasive writing, all the students will be asked to begin writing in this genre.

## In this lesson, the students:

- Hear and discuss a persuasive essay
- Think about the author’s audience and purpose
- Generate possible opinions for persuasive essays
- Write about things that interest them

## GETTING READY TO WRITE

### 1 Discuss Audience

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Review that yesterday the students read a persuasive essay titled “Bugs Are Creepy.” Ask:

**Q** *What do you remember about the author’s opinion about bugs in this essay? Turn to your partner.*

Have partners discuss their thinking. After a few moments, signal for the students’ attention and have them turn to page 29 of their handbooks and briefly review the essay. Ask:

- Q** *What is the author’s purpose, or what is his reason for writing this essay?*
- Q** *Who might the author be trying to convince that bugs are creepy, and why?*

#### Students might say:

“His purpose is to make us agree that bugs are creepy.”

“I think this author is writing to someone who likes bugs.”

“In addition to what [Chase] said, I think he is writing to a science teacher who wants him to study bugs. I think so because people study bugs in science, and the author wants the teacher to know how he feels about bugs.”

Point out that while many different kinds of people may read a persuasive essay, authors of persuasive essays usually have a certain kind of *audience* (reader) in mind when they are writing. In this case, the audience is probably people who like bugs.

Title a piece of chart paper “Things We Notice About Persuasive Essays.” Under the title, add the following items: *Author’s purpose is to convince the reader about something* and *Author writes with a certain audience in mind*.

Explain that today the students will hear and read a persuasive essay by a different author. Encourage them to think about this author’s purpose for writing and the audience she might have in mind.

## 2 Read “Insects Are Amazing” Aloud

Have the students turn to page 30 of their handbooks and invite them to follow along as you read the essay. Read “Insects Are Amazing” (on page 559) aloud slowly and clearly.

### ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

**bug:** annoy or bother (second appearance of the word)

**aphids:** tiny insects that eat plants

**break it down:** turn it into dirt

**scents:** smells

**think twice:** think hard and then change your mind

## 3 Discuss the Author’s Audience and Purpose

Ask:

**Q** *What is the author’s purpose in writing this essay, or what is she trying to convince us of? Turn to your partner.*

After a moment, have a few volunteers share their thinking.

#### Students might say:

“She’s trying to convince us that insects are important.”

“In addition to what [Katie] said, I think she wants us to study bugs instead of killing them.”

Remind the students that in the persuasive essay they read yesterday, the author tried to convince them of the opposite point of view. Ask and briefly discuss:

**Q** *Who do you think is the audience for “Insects Are Amazing,” or who is the author writing to?*

**Q** *In the sentence “I actually think they are amazing,” the author tells us exactly what her opinion is. She then gives several reasons that support her opinion. What reasons does she give?*

**Q** *Compare this essay to the one you read yesterday. Which essay is more persuasive to you, and why?*

**Students might say:**

"I think the audience might be kids who kill insects for fun because they don't know much about insects. Otherwise, why would the author be trying to convince them?"

"One reason the author gives is that insects are cool to watch. She also says they are interesting to learn about."

"I think today's essay is more persuasive. It gives more facts about good things insects do and explains some ways that insects are cool."

"I disagree with [Stephan]. Yesterday's essay is more convincing to me because the author gives lots of reasons why bugs are creepy and gross."

## 4 Generate Possible Opinions for Persuasive Essays

Explain that people often write persuasive essays when they have strong opinions about whether something is good or bad, or right or wrong. In the two essays the students have read so far, one author feels that bugs are creepy while the other feels that bugs are amazing. Title a sheet of chart paper "Possible Opinions for Persuasive Essays." Under the title write *Bugs are creepy* and *Bugs are amazing*.

Ask the students to watch as you write a few other opinions on the chart. Add a few sentences that reflect opinions that you hold.

### Possible Opinions for Persuasive Essays

- *Bugs are creepy.*
- *Bugs are amazing.*
- *We should have more recess.*
- *Basketball is the most exciting sport.*
- *Sharing with your classmates is important.*
- *Watching a lot of TV is not healthy.*

Use "Think, Pair, Share" to discuss:

**Q** *What opinions do you have that you might be able to write a persuasive essay about? [pause] Turn to your partner.*

### Teacher Note

Save the "Possible Opinions for Persuasive Essays" chart to use on Day 3 and throughout the unit. Tomorrow you will model choosing one opinion from the chart and using it to do a quick-write.

### Teacher Note

To review the procedure for "Think, Pair, Share," see Unit 1, Week 2, Day 1 (page 32). To see an example, view "Using 'Think, Pair, Share'" (AV13).

## Teacher Note

If the students struggle to come up with ideas, ask follow-up questions such as:

- Q *What is something that annoys or bothers you [at school/at home/in our community/in the world]?*
- Q *What is something you feel strongly about?*
- Q *What do you think is really important or worthwhile?*

Have a few volunteers share their thinking.

### Students might say:

- "It's not right to exclude people."
- "Mystery books are the most interesting books to read."
- "I have a strong opinion that cabbage is gross."
- "Snakes are the best pets."
- "I think anyone who sees bullying should report it."

As the students report ideas, record them on the chart. Tell them that you will add to the chart as they think of more ideas in the coming days.

Explain that today the students may continue to think about and list opinions for persuasive essays, write about some of their opinions, or write about anything they choose.

## WRITING TIME

### 5 Write Independently

Have the students get their notebooks and pencils and sit at desks with partners together. Display the "Writing Time" chart (WA1) and have them write silently for 20–30 minutes.

#### Writing Time

- Think about and list opinions you might want to write a persuasive essay about.
- Write about your opinions.
- Write about anything you choose.

WA1

Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Briefly Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. Alert the students to be ready to share their partners' ideas with the class. After a moment, signal for their attention and ask:

- Q *What did your partner write about today?*
- Q *What did you and your partner do to work well together when you were talking and sharing your writing?*

## In this lesson, the students:

- Hear, discuss, and write persuasive essays
- Think about features of persuasive essays
- Think about the author’s audience and purpose
- Quick-write about their opinions

## GETTING READY TO WRITE

### 1 Review Persuasive Essays

Have the students bring their *Student Writing Handbooks*, notebooks, and pencils and gather with partners sitting together, facing you. Review that they read two persuasive essays earlier this week on the topic of insects. Have them open their handbooks to page 29 and briefly review “Bugs Are Creepy.” After a few minutes, ask them to turn to page 30 and review “Insects Are Amazing.”

When the students have finished reviewing the essays, ask and briefly discuss:

- Q *What opinions about insects do the authors of these two essays have?*
- Q *What are some reasons the authors give to support their opinions?*

Review that both “Bugs Are Creepy” and “Insects Are Amazing” are examples of persuasive essays. Point out that each author clearly states an opinion early in the essay and then gives several reasons that support that opinion.

Direct the students’ attention to the “Things We Notice About Persuasive Essays” chart from Day 2. Leave a blank line or space below the most recent entry. Add the following items after the blank line: *Author clearly states opinion early in the essay* and *Author gives reasons that support the opinion*.

Explain that today the students will hear and read another persuasive essay, this one on a different topic. Invite them to think as they read about what they notice the author doing.

### 2 Read “Helping Other Countries” Aloud

Have the students turn to page 32 of their handbooks. Explain that this essay is about raising money to send to other countries to help them buy things they need. Invite the students to follow along in their handbooks as you read “Helping Other Countries” (on page 560) aloud. Read the essay aloud slowly and clearly, clarifying vocabulary as you read.

## Materials

- “Helping Other Countries” (see page 560)
- *Student Writing Handbook* pages 29–34
- “Things We Notice About Persuasive Essays” chart from Day 2
- “Possible Opinions for Persuasive Essays” chart from Day 2
- Chart paper and a marker
- “Writing Time” chart (WA2)

**TEKS 12.C.i**  
**TEKS 12.C.ii**  
Student/Teacher Narrative  
Step 1 (all)

## Teacher Note

On Week 2, Day 2, the students will learn about writing interesting openings that capture the reader’s attention. Leaving a blank line, as described here, will allow for this item to appear in a logical sequence when it is added to the “Things We Notice About Persuasive Essays” chart in Week 2.

## Teacher Note

To review the procedure for defining vocabulary during a read-aloud, see Unit 1, Week 1, Day 1, Step 3 (page 8). For more information, view “Introducing Vocabulary During a Read-aloud” (AV30).

## Suggested Vocabulary

**debated:** discussed

**polluted:** dirty and unhealthy

## ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**only dream about:** want but can never get

**sneakers:** shoes

**hottest:** most fashionable

**vitamins:** natural substances that are in foods and that help people be healthy

### 3 Discuss the Author's Audience and Purpose

Ask and briefly discuss:

- Q *What is the author's purpose in writing, or what is he trying to convince us to believe?*
- Q *Who do you think the author's audience is, or who is he writing to?*
- Q *In the sentence "I definitely think we should send money to other countries that need it," the author states his opinion clearly and in one sentence. He then gives us several reasons for his opinion. What reasons does he give?*

#### Students might say:

"The author is trying to convince us that we should send money to poor countries around the world."

"I agree with [Sarafina]. I think the audience might be people who don't want to help people they don't know."

"The author says that we should give money because then people in poorer countries can have important things like clean water or medicine."

### 4 Quick-write: Opinions

Direct the students' attention to the "Possible Opinions for Persuasive Essays" chart and review the items on it. Explain that the students will each choose one opinion from the chart that they feel strongly about and do a 5-minute quick-write about it. Ask the students to watch as you model doing a quick-write about an opinion.

Select an opinion you can write about from the "Possible Opinions for Persuasive Essays" chart. On another piece of chart paper, model first

writing a sentence stating that opinion, followed by some reasons that support it. Think aloud as you write.

**You might say:**

"I'll choose an opinion from the chart I feel strongly about so that I'll be able to think of plenty of things to write. My opinion is that watching a lot of TV is not healthy. First I'll write an opening sentence that states my opinion: *I think that watching a lot of TV is not healthy.* Notice that I state my opinion clearly and in one sentence so that the reader can understand it right away. Next I'll try to persuade the reader by writing reasons that support my opinion. Here's my first reason: *People who watch a lot of TV sit around and do not get enough exercise.* I'll add a bit more detail to the reason: *Our bodies need exercise to stay healthy!* Now I'll write a second reason that supports my opinion: *Also, TV can be bad for people's brains.* I'll add some detail to this reason: *Watching too much TV makes people unable to concentrate or pay attention.*"

When you finish writing, review that you stated your opinion clearly in the first sentence and then wrote a few reasons that support your opinion. Point out that you added some detail to each reason to make it more persuasive.

Use "Think, Pair, Share" to discuss:

**Q** *What opinion on the chart will you choose, and what will you write?*  
[pause] *Turn to your partner.*

After partners have talked, ask the students to each open to the next blank page of their notebooks and to write for 5 minutes.

When time is up, call for the students' attention and have a few volunteers share what they wrote with the class. Explain that during Writing Time today you would like all the students to write about their opinions. Each student may continue the piece he started during the quick-write, or he may start a new piece and write about any opinions he feels strongly about.

## WRITING TIME

### 5 Write Independently

Ask the students to return to their seats. Display the "Writing Time" chart (WA2) and have them write silently for 10–15 minutes.

#### Writing Time

- Continue the piece you started during the quick-write.
- Start a new piece about an opinion you have.

WA2

#### Teacher Note

Save the charted model quick-write to use on Day 4.

#### Teacher Note

Today's Writing Time has been shortened to 10–15 minutes to accommodate the teacher modeling, cooperative work, and quick-write in Step 4.

# Day 4

## Exploring Opinion Writing

### Materials

- “Things We Notice About Persuasive Essays” chart from Day 3
- Charted model quick-write from Day 3
- “Writing Time” chart (WA3)
- “Possible Opinions for Persuasive Essays” chart from Day 3
- “Class Assessment Record” sheet (CA1)

Remind the students to double-space all writing in their notebooks so they have space to revise later, if necessary. Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Briefly Share Writing and Reflect

Ask and briefly discuss questions such as:

- Q *What opinion did you write about today?*
- Q *Who stated an opinion clearly in one sentence? Read it to us.*
- Q *What reasons did you give for your opinion? Read one reason to us.*

Explain that the students will continue to write about their opinions tomorrow.

### In this lesson, the students:

- Hear, discuss, and write persuasive essays
- Think about features of persuasive essays
- Think about the author’s audience and purpose

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students get their notebooks and pencils and sit at desks with partners together. Remind the students that yesterday they read a third persuasive essay, “Helping Other Countries,” and continued adding to their list of things they notice about persuasive essays. Ask:

- Q *What are some things we notice about persuasive essays?*

#### Students might say:

“A persuasive essay is about the writer’s opinion.”

“I agree with [Danielle]. People write these essays to convince other people to agree with them.”

“We notice that writers explain their opinions at the beginning of the essays.”

“In addition to what [Tarik] said, persuasive essays have reasons that support the opinion.”

If necessary, briefly review the items on the “Things We Notice About Persuasive Essays” chart. If the students suggest new ideas, add them to the chart.

Review that yesterday the students also did a quick-write about an opinion they feel strongly about. Direct the students’ attention to the charted model quick-write from Day 3 as an example. Remind them that they stated their opinions clearly and then wrote some reasons that supported their opinions. Ask:

Q *What opinion did you write about yesterday?*

Q *What is a reason you gave to support your opinion?*

After a few volunteers have shared, explain that today the students will continue writing about their opinions. Ask:

Q *What other opinions do you have that you might want to write about?*  
*Turn to your partner.*

## WRITING TIME

### 2 Write Independently

Display the “Writing Time” chart (WA3) and have the students write silently for 20–30 minutes.

#### Writing Time

- Continue the opinion piece you started yesterday during the quick-write.
- Start a new piece about an opinion you have.
- State your opinion clearly in your piece.
- Add reasons that support your opinion.

WA3

Remind the students that they may refer to the “Possible Opinions for Persuasive Essays” chart for ideas. Join them in writing for a few minutes; then walk around the room and observe.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to identify opinions to write about?
- Can they state their opinions clearly in their writing?
- Can they give reasons that support their opinions?

If you notice many students struggling to write after 10–15 minutes, call for the class’s attention and have a few volunteers share what they have written so far; then have the students resume writing on their own for a few more minutes.

Record your observations on the “Class Assessment Record” sheet (CA1); see page 134 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Briefly Share Writing and Reflect

Ask and briefly discuss questions such as:

- Q *What opinion did you write about today?*
- Q *Who stated an opinion clearly at the beginning of your piece? Read it to us.*
- Q *What reasons did you give for your opinion? Read one of them to us.*

Explain that the students will continue to write about their opinions tomorrow.

### Facilitation Tip

During this unit, we invite you to practice **responding neutrally with interest** during class discussions. To respond neutrally means to refrain from overtly praising (for example, “Great idea” or “Good job”) or criticizing (for example, “That’s wrong”) the students’ responses. While it may feel more natural to avoid criticism rather than praise, research shows that both kinds of responses encourage students to look to you, rather than to themselves, for validation. To build the students’ intrinsic motivation, try responding with genuine curiosity and interest (for example, “Interesting—say more about that”) while avoiding evaluative statements, whether positive or negative.

To see this Facilitation Tip in action, view “Responding Neutrally with Interest” (AV24).

## In this lesson, the students:

- Hear and discuss a persuasive essay
- Think about the author’s audience and purpose
- Write about their opinions
- Respectfully consider the opinions of others

## GETTING READY TO WRITE

### 1 Gather and Review Persuasive Essays

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Review that yesterday they read a persuasive essay about helping other countries by sending them money. Have the students open their handbooks to page 32, and give them a few minutes to review “Helping Other Countries.” Then ask and briefly discuss:

**Q** *What opinion does the author of this essay have about sending money to other countries?*

#### Students might say:

“The author thinks that giving money is a good thing to do.”

“I agree with [Charlene]. The author says that people in the U.S. should send money to other countries because even a little bit of money could help them a lot.”

“In addition to what [Jonah] said, the author says that it’s more important to help people than it is to spend money so you can have fancy stuff.”

Direct the students’ attention to the “Things We Notice About Persuasive Essays” chart. Review that in a persuasive essay, the author has a purpose and audience in mind, clearly states an opinion early in the essay, and includes reasons that support the opinion.

Explain that today the students will hear and read another persuasive essay about sending money to other countries, this one with a different point of view. Invite them to think about what the author’s opinion is in this essay.

## Materials

- “It Is Our Money and We Need It” (see page 561)
- *Student Writing Handbook* pages 32–34
- “Things We Notice About Persuasive Essays” chart from Day 4
- “Possible Opinions for Persuasive Essays” chart from Day 4
- “Writing Time” chart (WA4)
- “Class Assessment Record” sheet (CA2)

## 2 Read Aloud “It Is Our Money and We Need It”

Have the students turn to page 34 of their handbooks. Invite them to follow along as you read “It Is Our Money and We Need It” (on page 561) aloud. Read the essay aloud slowly and clearly, clarifying vocabulary as you read.

### Suggested Vocabulary

**collection drive:** event to have people give money to help others

**salary:** money someone gets for doing a job

**the economy is bad:** many people don’t have jobs and can’t buy the things they need

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**urging:** asking

**supplies:** things that are needed or wanted

**benefit:** help

## 3 Discuss the Author’s Audience and Purpose

Ask and briefly discuss:

**Q** *What sentence early in the essay tells us exactly what this author’s opinion is about sending money to other countries?*

If necessary, explain that this sentence in the first paragraph states the author’s opinion: “I think that people in our country should not give money to help other countries.” Remind the students that the author’s purpose in a persuasive essay is to convince the reader to agree with her opinion. Then have partners briefly discuss:

**Q** *What are some reasons the author gives to support her opinion that we should not send money to other countries? Turn to your partner.*

**Q** *Who do you think is the audience, or who is the author writing to? Turn to your partner.*

Invite a few volunteers to share their responses with the class.

### Students might say:

“One reason the author gives is that our schools need things like pencils.”

“Another reason the author gives is that the economy is bad in many parts of our country. She thinks that we should spend our money here, not in other countries.”

“I think the audience is people who want to raise money to help other countries.”

## 4 Add to the “Possible Opinions for Persuasive Essays” Chart

Direct the students’ attention to the “Possible Opinions for Persuasive Essays” chart and review the items on it. Remind the students that the two essays they read about sending money to other countries had *opposing* opinions, or opinions that are the opposite of each other. Point out that the two essays about insects had opposing opinions, too. Add the following sentences to the chart: *We should send money to help other countries* and *We should not send money to help other countries*. Ask:

**Q** *What other opinions do you have that you might be able to write a persuasive essay about?*

Add any suggestions to the chart.

Explain that during Writing Time today you would like all the students to write about their opinions. Remind the students to state their opinions clearly in their writing and to include reasons that support their opinions. Tell them that they may refer to the “Possible Opinions for Persuasive Essays” chart for ideas.

## WRITING TIME

### 5 Write Independently

Have the students get their notebooks and pencils and sit at desks with partners together. Display the “Writing Time” chart (WA4) and have them write silently for 20–30 minutes.

#### Writing Time

- Continue the opinion piece that you started yesterday.
- Start a new piece about an opinion you have.
- State your opinion clearly in your piece.
- Add reasons that support your opinion.

WA4

Join the students in writing for a few minutes; then walk around the room and observe.

#### Teacher Note

Save the “Possible Opinions for Persuasive Essays” and the “Things We Notice About Persuasive Essays” charts to use in Week 2.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to identify opinions to write about?
- Can they state their opinions clearly in their writing?
- Can they give reasons that support their opinions?

If you notice many students struggling to write after 10–15 minutes, call for the class’s attention and have a few volunteers share what they have written so far; then have the students resume writing on their own for a few more minutes.

Record your observations on the “Class Assessment Record” sheet (CA2); see page 135 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Share Writing and Discuss Disagreeing Respectfully

Ask partners to share what they wrote with each other. Alert the students to be ready to share their partners’ ideas with the class. After a few moments, signal for their attention and ask:

- Q *What opinion did your partner write about today?*
- Q *Do you have the same opinion as your partner or a different opinion? Explain.*

Explain that in the coming week the students will each develop a persuasive essay on a topic they feel strongly about. They will share their opinions in pairs and with the whole class, and they may sometimes disagree or have opposing opinions. Ask:

- Q *Why is it important that we find a respectful way to talk to one another about our opinions, especially if we disagree?*

#### Students might say:

“It’s important to talk about our opinions because that’s how we learn from each other.”

“It’s important to be respectful because we’re all allowed to have our own opinions.”

“It’s OK if we disagree. We’re not all going to think the same thing all the time.”

Explain that the students will explore ways to talk about their opinions in a respectful way in the coming weeks.

---

## EXTENSION

### Read Editorials and Letters to the Editor

Collect newspapers and magazines that have op-ed pieces or letters to the editor that might be accessible for your students. Read these together as a class or make them available for the students to read independently. Take time to discuss what the author's opinion is, how that opinion is supported in the piece, and whether the students are persuaded by the piece. You might encourage interested students to write persuasive letters in response to an op-ed piece they read.

## Essay

### Bugs Are Creepy

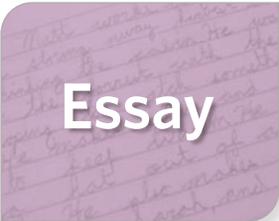

I think that bugs are creepy, gross, and annoying. I don't like them. In fact, I hate them.

When I say "bugs," I mean all insects and spiders. I think they are all creepy. For example, they are often furry with long skinny legs. Many have wiggly antennae, and some have wings and can fly. They look weird, like miniature aliens. Who knows, they might be aliens! I have no idea why they exist.

Another terrible thing about bugs is that bugs bite! Mosquitoes, spiders, ants, earwigs, and many other kinds of bugs bite. Some bugs like ticks or mosquitoes bite you to suck your blood. Yuck! Others bite you just to hurt you, whether you are going to kill them or not. One time, a tiny black ant bit me, and it really hurt. Some bug bites can even kill you, like a scorpion's bite and the bites of certain spiders like black widows. Also, you might die or get sick if you get stung by a bee and are allergic to bee stings.

Since bugs are everywhere, you can't get away from them. They are in the city, and they are in nature. For instance, you can find them on the sidewalk and in the dirt. They are in the garden under every rock and on the prettiest flowers. They are in your house. They are in your kitchen and on your food! Do you really feel like eating food after a fly has landed on it and taken a bite? Gross! Bugs even come out at night to fly around lights. I just can't get away from them!

As you can see, I think that bugs are strange, disgusting, and really annoying. I don't want to see them, touch them, or be bitten by them. I'm sure I'm not the only person who feels this way about bugs. . . . I bet you do, too!

## Essay

### Insects Are Amazing

I don't like when people call insects "bugs." That means that they bug them. Insects don't bug me. I actually think they are amazing. They are cool to watch, fun to play with, and interesting to learn about.

Insects are very important because they help plants and animals. For example, ladybugs eat aphids. Aphids eat the flowers in your garden. If you want a healthy garden, leave those ladybugs alone. Also, when an animal or a plant dies, insects eat it to help break it down. If you don't want a lot of smelly dead animals around, let those insects do their work. Also, many animals eat insects. I bet you think birds are beautiful. If there were no bugs, many birds would die because they need insects to eat.

Insects are also cool to watch and learn about. They do all sorts of cool things. For instance, ants can carry ten times their weight! In addition, ants and many other kinds of insects like bees can communicate without talking. They can tell each other where food is or where danger is by the way they move or by leaving scents. Have you ever watched all the moths that fly to a light at night? Why do they do that? How come they don't run into each other? These are the kinds of questions that entomologists (people who study insects) ask and get to figure out. That to me sounds like a pretty cool job.

Lastly, I don't see why insects are such a big deal since they don't usually bother people. Most insects live under rocks or in places that people don't always go. Most just want to be left alone. It seems to me that we should just leave them alone and let them do their work. When we do see them, we should just study them and learn more about them.

I hope you will think twice before you kill the next insect you see. That insect might be food for an animal, or it might be helping in some way you don't know about. Maybe, if you think twice, you will even agree with me that insects are amazing.

## Essay

### Helping Other Countries

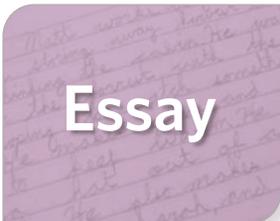

Recently my class debated whether or not we should collect money to send to poor countries. I definitely think we should send money to other countries that need it. If we did, people in those countries could have things like clean water and they would see America as kind and caring. What seems like a little money to us is sometimes a lot of money to people in a poor country.

Here in America, we have so many things that the people in poor countries only dream about. We have toys for kids, schools, cars, clean water, nice clothes, and food. In many poor countries, kids and adults are dying because they are drinking polluted water or because they can't get the medicine they need. Sometimes there aren't any schools for the kids. Here in America, so many kids have fancy sneakers or video games that they don't need. What is more important: for you to be able to have the newest, hottest sneakers or for a family to be able to eat?

Also, if America would give some money to poorer countries, I think other countries would see that we are friendly and that we care. Maybe the world would be more peaceful if big countries like America shared some of their money with countries that need more.

Finally, a little amount of money to us is a lot to a person in a poor country. For example, if you bought a \$40 pair of sneakers instead of a \$60 pair, you could send \$20 to a family so they could buy a goat. That goat would provide them with milk to drink with their meals. They would get vitamins that they need to help them be healthy. Also, the goat could have babies, and the family could eat some or sell them to buy other things.

If every person in America gave a little money, it would add up to a lot. It would make a big difference to people in other countries who don't have as much as we do. That's why I think that we should give money to help people in parts of the world that need help.

## Essay

### It Is Our Money and We Need It

Has there ever been a collection drive at your school urging you to give money to another country far away from the United States? Sometimes the money that is collected goes to build schools in other countries. The money also buys pencils and pays the salary of a teacher in a foreign country. I think that people in our country should not give money to help other countries for a few reasons.

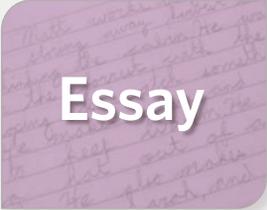

We should not give our money away because our own schools need it. Many schools in this country don't have enough supplies. For example, our class usually doesn't have a supply of pencils to use. We have to bring pencils from home most of the time. I don't see why we should be expected to buy pencils for children in other countries when American children don't even have a steady supply of pencils. We should worry about ourselves before we worry about other countries.

Another reason we should keep our money is that the economy is bad in many parts of the United States. Thousands of people are losing their jobs and houses. The last thing we, as a country, need to be doing with our money is giving it away to pay a teacher's salary in a foreign country. I don't see how giving away our money for something that will not benefit our country is going to help our economy.

We have enough problems here, and we need to think about helping our own people first. For those reasons, I don't think the United States should give money to help other countries.

## TEACHER AS WRITER

*“I’m still doing business at the same old stand—love, work, war, death, what the world is like outside this window tonight.”*

— Alan Dugan

Look at the list of topics you feel compelled to address that you wrote in Week 1. Select one item on the list and write a paragraph that expresses your opinion about why this topic is important and what you think should be done about it. Do the same for several other items on the list that you feel strongly about.

### Writing Focus

- Students hear and discuss persuasive essays.
- Students each choose a topic and write a persuasive essay about it.
- Students state opinions and use reasons to support them.
- Students explore transitional words and phrases.
- Students explore strong openings and conclusions for persuasive essays.

### Social Development Focus

- Students listen to the thinking of others and share their own.
- Students respectfully consider the opinions of others.
- Students express interest in and appreciation for one another’s writing.
- Students act in fair and caring ways.

## DO AHEAD

- ✓ Prior to Day 1, make a class set of the “Conference Notes” record sheet (CN1) on page 137 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, decide if you will allow small groups of students to visit the library, media center, computer lab, or another location in the school to research their topics during Writing Time. Arrange for this ahead of time with the librarian or other adults in the school.
- ✓ Prior to Day 4, prepare a sheet of chart paper titled “Transitional Words and Phrases for Persuasive Essays.” Under the title, list the following: *another, for example, also, because, besides, especially, particularly, for instance, in addition, in fact, in order to, since*.

# Day 1

## Exploring Opinion Writing

### Materials

- “Bike Helmets” (see page 584)
- *Student Writing Handbook* page 35
- “Things We Notice About Persuasive Essays” chart from Week 1 and a marker
- “Possible Opinions for Persuasive Essays” chart from Week 1
- Class set of “Conference Notes” record sheets (CN1)

### Teacher Note

The Getting Ready to Write routine established early in the year helps the students quickly settle into the lesson. For more information, view “Predictable Structure of the Writing Lessons” (AV3).

### Teacher Note

For more information about opinion writing, view “Exploring Opinion Writing” (AV52).

### In this lesson, the students:

- Hear, discuss, and write a persuasive essay
- Think about the author’s audience and purpose
- Choose an opinion and audience for a persuasive essay
- Respectfully consider the opinions of others
- Agree and disagree in a caring way

## GETTING READY TO WRITE

### 1 Briefly Review Persuasive Essays

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Remind the students that last week they began exploring persuasive essays. They read four persuasive essays—two about insects and two about sending money to help other countries. Ask:

**Q** *What did you learn last week about persuasive essays?*

Briefly review the “Things We Notice About Persuasive Essays” chart and add any new ideas to the chart. Remind the students that they brainstormed opinions that they might want to write a persuasive essay about. Review the items on the “Possible Opinions for Persuasive Essays” chart.

### 2 Discuss Expressing Personal Opinions

Explain that the authors of last week’s essays expressed their opinions, even though they probably knew some people would disagree with them. Ask and briefly discuss:

**Q** *If you really believe something, why is it important to express that opinion, even though others might not agree with you?*

#### Students might say:

“It’s important to express your opinion because people need to think for themselves.”

“When we all express our opinions, we have more interesting discussions.”

“It’s important because everyone’s opinion counts.”

“I agree with [Ali]. Plus, we live in a free country, and people are allowed to express their opinions.”

Tell the students that they will read and discuss another persuasive essay today, and then they will begin writing persuasive essays about

opinions that are important to them. Tell them that it is important for all the students in the class to feel safe and comfortable expressing their opinions, both in speaking and in writing. Ask:

**Q** *What can you do when listening to other people's opinions to make it safe and comfortable for everyone?*

**Students might say:**

"When I'm listening to someone else, I can try to see things from that person's point of view."

"I can try to listen really carefully and be nice, even if I don't agree."

"If I disagree with someone, I can use our prompt 'I disagree with him because . . .'"

"In addition to what [Serena] said, maybe I'll change my mind when I hear someone else's opinion."

Encourage the students to keep these ideas in mind as they listen to others' opinions. Tell them that you will check in with them later to see how they did.

### 3 Read "Bike Helmets" Aloud

Have the students open to page 35 of their handbooks. Invite them to follow along as you read the essay "Bike Helmets" (on page 584) aloud, slowly and clearly.

#### ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

**helmet:** hard hat that protects the head

**prevent serious head injuries:** stop someone's head from being hurt

### 4 Discuss the Author's Audience and Purpose

Ask:

**Q** *What is the author trying to convince us about in this essay? Turn to your partner.*

**Q** *Who is the audience, or who do you think the author is trying to convince? Turn to your partner.*

**Q** *What are some reasons the author gives to support the opinion that people should wear bike helmets? Turn to your partner.*

Have a few volunteers share their thinking.

#### TEKS 10.D.ii

Student/Teacher Activity  
Step 4 (all, beginning on page 565 and continuing on to page 566)

#### Facilitation Tip

Continue to focus on **responding neutrally with interest** during class discussions by refraining from overtly praising or criticizing the students' responses. Instead build the students' intrinsic motivation by responding with genuine curiosity and interest; for example:

- "Interesting—say more about that."
- "What you said makes me curious. I wonder . . ."
- "You have a point of view that's [similar to/different from] what [Jackson] just said. How is it [similar/different]?"

**Students might say:**

"I think when the author says that people should wear a helmet every time they ride a bike, it tells us pretty clearly what his opinion is."

"I think the audience is probably kids and young people. The author wants to convince them to wear helmets."

"One reason that supports this opinion is that it is the law in most towns and cities."

"In addition to what [Satya] said, another reason is that wearing a helmet could save your life."

As a class, discuss:

**Q** *Do you agree or disagree with the opinion in this essay? Why?*

## **5** Select an Opinion and Audience for a Persuasive Essay

Direct the students' attention to the "Possible Opinions for Persuasive Essays" chart and review the items on it. Add the sentence *People should wear a helmet every time they ride a bike* to the chart. Ask:

**Q** *What other opinions for persuasive essays could we add to the chart?*

Add any suggestions to the chart. Explain that today the students will each choose one opinion that they have not yet written about and begin writing a draft of a persuasive essay in their notebooks. This week they will work on writing and developing their essays, including revising their opening sentences. Next week they will revise their essays further and proofread them. Then they will publish their essays for the class to read.

Use "Think, Pair, Share" to discuss:

**Q** *What opinion do you feel strongly enough about to publish a persuasive essay about it? [pause] Turn to your partner.*

**Q** *In addition to your classmates, who will the audience for your essay be, or who will you be trying to convince? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class. As they report, emphasize that they should keep their audience in mind as they write today.

**You might say:**

"[Gabriel] says he wants to convince his mother that he should be able to watch TV as long as he finishes his homework. While he is writing his essay, he's going to remember who he is trying to convince."

## WRITING TIME

### **6** Write Independently

Have the students get their notebooks and pencils, sit at desks with partners together, and work on their persuasive essays for 20–30 minutes.

Remind them to write their drafts double-spaced in their notebooks. Join them in writing for a few minutes; then begin conferring with individual students.

## TEACHER CONFERENCE NOTE

Over the next two weeks, confer with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Does the student state her opinion clearly in the opening paragraph?
- Does the student give several different reasons that support her opinion?

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 137 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 7 Briefly Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. Alert the students to be ready to share their partners’ ideas with the class. After a moment, signal for their attention and ask questions such as:

Q *What opinion did your partner write about today? Who is your partner trying to convince in his or her essay?*

Q *Do you and your partner agree or disagree with each other’s opinions? Turn to your partner.*

Q *What did your partner say to let you know that he or she respects your opinion?*

Explain that the students will continue to develop their persuasive essays tomorrow.

**TEKS 11.B.xii**  
Student/Teacher Narrative  
Step 1 and Step 2 (all,  
beginning on page 568 and  
continuing on to page 569)

### In this lesson, the students:

- Explore, discuss, and write strong openings and clear statements of opinion in persuasive essays
- Draft persuasive essays
- Express interest in and appreciation for one another’s writing

## GETTING READY TO WRITE

### 1 Discuss Interesting Opening Paragraphs

Have the students get their *Student Writing Handbooks*, notebooks, and pencils and sit at desks with partners together. Briefly review that yesterday they each chose an opinion they feel strongly about and began writing a persuasive essay. Explain that over the next four days they will develop their essays and that you will help them focus on and strengthen different parts of the essays to make them as persuasive as possible.

Direct the students’ attention to the “Things We Notice About Persuasive Essays” chart, and review that good persuasive essays have a clear statement of opinion early in the piece. Tell the students that good persuasive essays also have an interesting opening that captures the reader’s attention. In the blank space that you left in the “Things We Notice About Persuasive Essays” chart in Week 1, write *Author captures the reader’s attention with an interesting opening paragraph*. Explain that today the students will look at the opening paragraphs of several essays to see what the authors did to capture the reader’s attention and to make their opinions clear.

### 2 Analyze Opening Paragraphs

Display the “Bike Helmets” chart (WA5) and have the students look at the essay on page 35 of their handbooks. Read the first paragraph aloud as they follow along, and then ask:

**Q** *What sentence in the opening paragraph of this essay tells us exactly what the author’s opinion is?*

Underline the sentence “Well, I think riding without a helmet is dangerous and people should wear a helmet every time they ride a bike,” and ask the students to do the same in their handbooks. Point out that this author opens the essay with a question and then states his opinion by answering the question. Ask:

**Q** *Why might starting an essay with a question be a good way to capture the reader’s attention?*

**Students might say:**

"When we read a question, we might wonder why the author is asking that question."

"It's more interesting than just starting with 'Well, I think people should wear a helmet every time they ride a bike.'"

**Q** *If you wanted to start your essay with a question and then state your opinion in the answer, what might you write? Turn to your partner.*

Have a few volunteers share what their opening questions and answers might be.

**Students might say:**

"My essay could start with 'What is the most exciting sport? It's baseball!'"

"I could write, 'Should kids be able to vote for the president of our country? I vote yes!'"

"My opening sentences could be 'Should parents put a time limit on how long their kids can play video games? Yes, because like most kids, once I start playing, I can't stop.'"

Display the "Bugs Are Creepy" chart (WA6) and have the students look at the essay on page 29 of their handbooks. As you did with "Bike Helmets," read the first paragraph aloud as the students follow along. Then ask:

**Q** *What sentence in the opening paragraph of this essay tells us exactly what the author's opinion is?*

**Q** *How does the author capture the reader's attention?*

Underline the sentence "I think that bugs are creepy, gross, and annoying." If necessary, point out that the author uses strong emotion to grab the reader's attention: "In fact, I hate them."

Display the "Insects Are Amazing" chart (WA7) and follow the same procedure, reading the first paragraph of the essay aloud as the students follow along on page 30 of their handbooks.

Underline the sentence "I actually think they are amazing," pointing out that to capture the reader's attention, the author makes a joke about *bug* (an insect) and *bug* (to annoy).

Point out that, in both "Bugs Are Creepy" and "Insects Are Amazing," the authors write opening paragraphs that have clear statements of opinion and strong, specific language that captures the reader's attention.

### 3 Analyze Opening Paragraphs of the Students' Essays

Have the students reread the drafts of their essays quietly to themselves. After a moment, ask them to think—again quietly to themselves—about the questions that follow. Pause after each question to give the students time to think. Ask:

- Q *Do you have an opening sentence or question that will get your audience interested in reading your essay? [pause] If so, how will it interest them? If not, what might you write?*
- Q *Do you state your opinion clearly somewhere in the first paragraph? [pause] If not, where might you state it, and what could you write?*

Have partners discuss what they thought about. After a few moments, signal for their attention and have a few volunteers share their thinking with the class.

## WRITING TIME

### 4 Write Independently

Display the “Writing Time” chart (WA8) and have the students write silently for 20–30 minutes. If necessary, remind them to double-space their drafts.

#### Writing Time

- Work on your persuasive essay.
- Revise your opening sentences to get your reader interested.
- Make sure to state your opinion clearly in the first paragraph.
- Make sure to give reasons that support your opinion.

WA8

Join the students in writing for a few minutes; then confer with individual students.

## TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about his piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state his opinion clearly in the opening paragraph?
- Does the student give several different reasons that support his opinion?

Help the student extend his thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 137 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Share Opening Sentences and Reflect

Explain that each student will read her opening sentence aloud. Ask the students to listen carefully to one another’s sentences and to think about which sentences make them curious.

Go around the room and have the students each read their opening sentences aloud, without comment. When all have read, ask and briefly discuss:

- Q *What sentences did you hear that made you curious?*

Explain that the students will continue to develop their persuasive essays tomorrow.

### Teacher Note

To see an example of this technique, view “Sharing Opening Sentences and Reflecting” (AV53).

# Day 3

## Drafting Persuasive Essays

### Materials

- “Bugs Are Creepy” from Week 1 (see page 558)
- “Bike Helmets” from Day 1 (see page 584)
- “Things We Notice About Persuasive Essays” chart from Day 2 and a marker
- *Student Writing Handbook* pages 29 and 35
- “Writing Time” chart (WA9)

### Teacher Note

In the third paragraph, the supporting reason is that bugs bite. The author provides further support by providing facts about various types of bugs that bite and gives an example from his own life: the time he was bitten by an ant. In the fourth paragraph, the supporting reason is that bugs are everywhere; the author includes facts and details about all the places where bugs live.

### In this lesson, the students:

- Explore how authors use supporting paragraphs in persuasive essays
- Draft persuasive essays
- Express interest in and appreciation for one another’s writing
- Respectfully consider the opinions of others
- Agree and disagree in a caring way

## GETTING READY TO WRITE

### 1 Analyze Supporting Paragraphs of Essays

Have the students get their *Student Writing Handbooks*, notebooks, and pencils and sit at desks with partners together. Direct the students’ attention to the “Things We Notice About Persuasive Essays” chart. Review that good persuasive essays have a clear statement of opinion and that they also give reasons that support the opinion.

Tell the students that today they will look more closely at how authors of persuasive essays write and organize the reasons that support their opinions. Then the students will think about how they can make the supporting reasons in their own essays more persuasive.

Have the students turn to page 29 of their handbooks, where “Bugs Are Creepy” appears. Remind them that yesterday they reread the first paragraph to see how the author captures the reader’s attention and states a clear opinion. Explain that today you will reread the body (middle paragraphs) of the essay. Ask the students to follow along as they think about how the author has organized this essay.

Read the first two paragraphs of “Bugs Are Creepy” (on page 558) aloud. Explain that after stating his opinion in the first paragraph, the author uses the second paragraph to begin supporting his opinion. Point out that in this paragraph, the author includes facts and details about how bugs look (such as their skinny legs, their wiggly antennae, and their wings) to help readers understand exactly why he thinks bugs are creepy.

Read the third and fourth paragraphs aloud as the students follow along. Point out that each of the paragraphs gives a reason (with more facts and details) that supports the author’s opinion. Then ask:

- Q *Why might an author want to put each supporting reason in a separate paragraph?*
- Q *Why might an author want to add more facts and details about a supporting reason?*

**Students might say:**

"Putting each reason in a separate paragraph helps you follow the essay. The author gives you his opinion and then follows it with supporting reasons, one after another."

"It would be confusing if all his supporting reasons were in one paragraph and all mixed up."

"Adding facts and details can help convince readers. It also makes the essay more interesting to read."

Follow the same procedure with "Bike Helmets" (on page 584). Read the first four paragraphs aloud as the students follow along on page 35 of their handbooks. Point out that this essay is organized in a way similar to "Bugs Are Creepy": after clearly stating his opinion in the first paragraph, the author gives a reason that supports his opinion in each of the following paragraphs and adds facts and details about each reason.

Direct the students' attention to the "Things We Notice About Persuasive Essays" chart. Add *Author puts each supporting reason in its own paragraph* and *Author writes facts and details about each supporting reason*.

## 2 Analyze the Supporting Paragraphs of the Students' Essays

Have the students reread the drafts of their essays quietly to themselves. After a moment, ask them to quietly think about the following questions as you ask them, one at a time. Pause after each question to give the students time to think.

- Q *What are the reasons that support your opinion?*
- Q *How might you organize your reasons into paragraphs?*
- Q *What facts and details can you add to your essay to tell more about your reasons?*

Have partners discuss what they thought about. After a few moments, signal for their attention and have a few volunteers share their thinking with the class.

## 3 Prepare to Write and Discuss Resources

Explain that during Writing Time today the students will continue to work on their persuasive essays, giving reasons to support their opinions. Encourage them to refer back to the two essays they looked at today to help them organize their own essays.

Point out that some students may want to do research to find facts and details about their reasons. Invite them to look for more information on the Internet or in the class or school library. Ask:

- Q *Where might you look for information about the reasons you've chosen to research?*

### Technology Tip

See the technology extension "Use the Internet to Research Topics" on page 576 for ideas on how to support the students in researching online.

If you decide to have small groups of students visit the library, media center, or another location in the school to look for more information, discuss how the students will take responsibility for themselves outside the classroom. Ask:

**Q** *What will you do to act in a considerate and responsible way [at the library]? Why is that important?*

## WRITING TIME

### 4 Write Independently

Display the “Writing Time” chart (WA9) and have the students write silently for 20–30 minutes.

#### Writing Time

- Work on your persuasive essay.
- Include reasons that support your opinion.
- Think about what you can add to give more information about your reasons.

WA9

Remind the students to look at “Bugs Are Creepy” and “Bike Helmets,” if they wish, to help them organize their own essays. Join the class in writing for a few minutes; then confer with individual students.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state her opinion clearly in the opening paragraph?
- Does the student give several different reasons that support her opinion?
- Are the reasons supported by facts and details?

*(continues)*

## TEACHER CONFERENCE NOTE *(continued)*

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*
- Q *What other facts and details can you write about your reasons?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 137 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Share Opinion Statements and Reflect

Explain that each student will read one sentence from his essay that he feels is especially persuasive. Ask the students to listen carefully to their classmates’ sentences and to think about whether they agree or disagree with the opinions or reasons. Give the students a few minutes to select a sentence.

Go around the room and have the students each read their sentences aloud, without comment. When all the students have read their sentences, ask and briefly discuss:

- Q *What sentences did you hear that made you curious?*
- Q *What sentences did you hear that you agree with? Why?*
- Q *What sentences did you hear that you disagree with? Why?*
- Q *How are we doing with respectfully listening to one another and talking about our opinions? What can we do better?*

Explain that the students will continue drafting their persuasive essays tomorrow.

### Teacher Note

For more information about the importance of sharing and reflecting, view “Social Reflection” (AV14).

### Facilitation Tip

Continue to focus on **responding neutrally with interest** during class discussions by refraining from overtly praising or criticizing the students’ responses.

## TECHNOLOGY EXTENSION

### Use the Internet to Research Topics

You might choose to have the students research their topics online. If the students need support for doing so, you might teach Technology Mini-lesson 4, “Choosing Effective Search Terms,” located in Appendix A. (If only some students need support, you might teach Mini-lesson 4 to just those students.) You might customize Technology Mini-lesson 4 for this unit by using the essay “Bike Helmets” as an example. Model searching online to find more facts and details to strengthen the essay’s supporting paragraphs. You might begin by considering one of the essay’s supporting ideas, such as “It’s the law for kids to wear bike helmets,” “Bike helmets prevent serious head injuries,” or “When you ride your bike, you could get hit by a car,” and then model creating effective search terms. Possible search terms include “bike helmets law kids,” “bike helmets head injuries,” or “bike car accidents,” respectively.

You might also teach the following Technology Mini-lessons in Appendix A: Mini-lesson 5, “Understanding Search Results”; Mini-lesson 6, “Using Filters to Narrow Results”; Mini-lesson 7, “Evaluating Research Sources”; and Mini-lesson 8, “Citing Online Sources.” For more information about teaching Technology Mini-lessons 4–8, see “About Teaching the Online Research Lessons” on page 700.

# Day 4

## Drafting Persuasive Essays

### Materials

- “Things We Notice About Persuasive Essays” chart from Day 3 and a marker
- “Transitional Words and Phrases for Persuasive Essays” chart, prepared ahead
- “Insects Are Amazing” chart (WA7) from Day 2
- *Student Writing Handbook* page 30
- “Writing Time” chart (WA10)

**ELPS 5.E.i**  
**ELPS 5.F.iii**  
Steps 1–3  
(all, beginning on page 576 and continuing on to the top of page 578)

### In this lesson, the students:

- Explore how authors use transitional words and phrases in persuasive essays
- Draft persuasive essays
- Express interest in and appreciation for one another’s writing
- Respectfully consider the opinions of others
- Agree and disagree in a caring way

## GETTING READY TO WRITE

### 1 Explore Transitional Words and Phrases

Have the students bring their *Student Writing Handbooks*, notebooks, and pencils and gather with partners sitting together, facing you. Review that this week they are drafting persuasive essays about opinions they feel strongly about. Explain that they will continue to work on their drafts today.

Explain that one way the students might make their essays clearer and easier to follow is by adding *transitional words and phrases*. Explain that these are words and phrases that help readers understand how an opinion and the reasons that support it are linked (connected). On the “Things We Notice About Persuasive Essays” chart, add *Author uses transitional words and phrases to link opinion and reasons*.

Direct the students’ attention to the “Transitional Words and Phrases for Persuasive Essays” chart. Read aloud the words and phrases listed on the chart. Ask:

**Q** *What other transitional words and phrases might you use in a persuasive essay to link your opinion and the supporting reasons?*

Add the students’ ideas to the chart.

## 2 Analyze Transitional Words and Phrases in “Insects Are Amazing”

Display the “Insects Are Amazing” chart (WA7) and have the students open to *Student Writing Handbook* page 30, where the essay is reproduced. Read the first two paragraphs aloud as the students follow along. Point out that the author uses the transitional words and phrases *because*, *for example*, and *also* in the second paragraph. Underline the words and phrases on the chart. Explain that these transitional words and phrases help the reader understand how the reasons are connected to the opinion.

Have partners quietly read the third and fourth paragraphs of the essay in their handbooks. Ask them to work together to underline transitional words and phrases. Remind them to refer to the “Transitional Words and Phrases for Persuasive Essays” chart, if necessary, and to think about other transitional words they may know. After a few minutes, signal for the students’ attention and ask:

**Q** *What is a transitional word or phrase you underlined? Read the sentence where you found it.*

## 3 Analyze the Students’ Own Writing for Use of Transitional Words

Have the students reread their persuasive essay drafts and look up when they are finished. Say the following prompt, and then give the students a few quiet minutes to review their writing and mark passages.

- Find a place where you use, or might use, a transitional word or phrase to connect a reason back to your opinion. Draw a small star in the margin next to that place.

Have partners turn and share their ideas with each other. After a few moments, signal for the students’ attention and have a few volunteers share their thinking with the class.

### Teacher Note

If you have already taught the Personal Narrative, Fiction, and/or Expository Nonfiction genre units, remind the students that they explored transitional words and phrases in those units. Explain that the transitional words and phrases listed on the chart are especially useful in persuasive essays.

### Technology Tip

For more transitional words and phrases, you might search online using the keywords “transitional words and phrases.”

### Teacher Note

You might want to explain that the word *because* helps the reader understand that one reason insects are amazing is *because* they help plants and animals. The phrase *for example* helps the reader understand that “ladybugs eat aphids” is an *example* of how insects help plants.

### Teacher Note

If necessary, point out that the author uses the transitional words and phrases *also*, *for instance*, *in addition*, and *since* in the paragraphs. Students may also point out *Lastly*.

## Teacher Note

Save the “Transitional Words and Phrases for Persuasive Essays” chart to use throughout the unit.

Explain that the students will continue to work on their persuasive essays today. Encourage them to use transitional words and phrases to help readers connect the opinion and supporting reasons.

## WRITING TIME

### 4 Draft Persuasive Essays

Display the “Writing Time” chart (📄 WA10). Have the students return to their seats and work silently for 20–30 minutes on the charted tasks.

#### Writing Time

- Continue writing your persuasive essay.
- Include reasons that support your opinion.
- Use transitional words and phrases to connect your opinion and supporting reasons.

WA10

Remind the students to refer to the “Transitional Words and Phrases for Persuasive Essays” chart, if they wish. Join the class in writing for a few minutes; then confer with individual students.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about his piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state his opinion clearly in the opening paragraph?
- Does the student give several different reasons that support his opinion?
- Are the reasons supported by facts and details?
- Does the student use transitional words and phrases?

*(continues)*

## TEACHER CONFERENCE NOTE *(continued)*

Help the student extend his thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*
- Q *What other facts and details can you write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 137 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Briefly Share Writing and Reflect

Ask and briefly discuss questions such as those that follow. Invite volunteers to read one or two sentences of their writing aloud as they share.

- Q *Who added a transitional word or phrase to your essay? Tell us about it.*
- Q *How will adding this [word/phrase] help readers understand what you are saying in your essay?*

Explain that tomorrow the students will finish drafting their persuasive essays.

### Materials

- “Insects Are Amazing” from Week 1 (see page 559)
- “Bike Helmets” from Day 1 (see page 584)
- *Student Writing Handbook* pages 30 and 35
- “Things We Notice About Persuasive Essays” chart from Day 4 and a marker
- “Writing Time” chart (WA11)

### In this lesson, the students:

- Explore how authors conclude persuasive essays
- Finish drafting persuasive essays
- Express interest in and appreciation for one another’s writing

## GETTING READY TO WRITE

### 1 Analyze Conclusions of Essays

Have the students get their *Student Writing Handbooks*, notebooks, and pencils and sit at desks with partners together. Remind them that this week they explored how authors begin persuasive essays, clearly state opinions, support their opinions with reasons, and use transitional words and phrases to connect opinions and reasons. Explain that today the students will explore how authors conclude (end) their essays, and then they will think about how they want to conclude their own essays.

Have the students open to page 30 of their handbooks, where the essay “Insects Are Amazing” is reproduced (see page 559). Ask partners to review it together, focusing on the last paragraph of the essay. Encourage them to think about what the author writes in the last paragraph. After a few moments, signal for their attention and ask:

**Q** *What do you notice about the last paragraph of this essay?*

**Q** *What words or phrases show you that the essay has reached an end?*

#### Students might say:

“The author says she hopes that readers won’t kill insects.”

“I can tell it’s the end because the author says that she thinks insects are amazing and that maybe readers will agree with her now.”

“I agree with [Margaret]. The author says her opinion again, but in a way that’s a little bit different.”

If necessary, point out that the author restates (states again) her opinion at the end of the essay. Direct the students’ attention to the “Things We Notice About Persuasive Essays” chart and add *Author restates opinion at the end* to it.

Following the same procedure, have the students open to page 35 of their handbooks, where the essay “Bike Helmets” is reproduced (see page 584). Have partners review the essay, focusing on the last paragraph. After a few moments, signal for their attention and ask:

**Q** *What do you notice about the last paragraph of this essay?*

**Q** *What words or phrases show you that the essay has reached an end?*

**Students might say:**

"I notice that the author says his opinion again."

"I agree with [Dash]. The author says his opinion again, but in a different way: 'So please wear your helmet every time you ride.'"

"I can tell the essay is ending because the author really tries to convince the reader. He uses the word *please*."

If necessary, point out that this author also restates his opinion at the end of the essay.

## 2 Review Conclusions of the Students' Essays

Have the students review the drafts of their own persuasive essays for a few moments; then use "Think, Pair, Share" to discuss:

**Q** *What might you write to restate your opinion at the end of your essay?*  
[pause] *Turn to your partner.*

Signal for their attention and have a few volunteers share their thinking with the class.

## 3 Prepare to Write

On the "Things We Notice About Persuasive Essays" chart, underline the following four ideas:

- Author clearly states opinion early in the essay.
- Author gives reasons that support the opinion.
- Author uses transitional words and phrases to link opinion and reasons.
- Author restates opinion at the end.

Explain that during Writing Time today the students will finish drafting their persuasive essays and get ready to revise, proofread, and publish them next week. When they believe they are finished, they should look at the underlined items on the "Things We Notice About Persuasive Essays" chart and make sure they have included these things in their essays. They should also carefully reread their essays to check that they make sense.

# WRITING TIME

## 4 Write Independently

Display the "Writing Time" chart (🗨️ WA11). Have the students work silently for 20–30 minutes on the charted tasks.

**TEKS 12.C.i**  
**TEKS 12.C.ii**  
Student/Teacher Activity  
Step 1 and Step 2  
(all, beginning on page 581  
and continuing on to page

### Teacher Note

If the students have used class or library resources to find additional reasons, facts, or details for their persuasive essays this week, you might review the Unit 5 extension "Cite Print Sources in a Bibliography" (page 443). If the students have used online resources, you might teach Technology Mini-lesson 8, "Citing Online Sources," in Appendix A.

### Writing Time

- Finish writing your draft.
- Check the underlined items on the “Things We Notice About Persuasive Essays” chart.
- Carefully reread your essay to make sure it makes sense.

Join the students in writing for a few minutes; then confer with individual students.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state her opinion clearly in the opening paragraph?
- Does the student give several different reasons that support her opinion?
- Are the reasons supported by facts and details?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating her opinion?

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*
- Q *What other facts and details can you write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*
- Q *How can you restate your opinion at the end of your essay?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 137 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

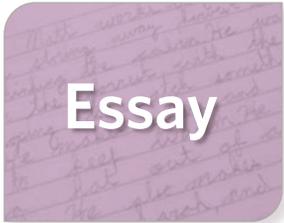

### 5 Share Concluding Paragraphs and Reflect

Explain that each student will read the last paragraph of his essay aloud. Ask the students to listen carefully to one another and to think about whether they can tell what each person's essay is about from the last paragraph.

Go around the room and have each student read his last paragraph aloud, without comment. When all have read, ask and briefly discuss:

- Q *Could you tell what most of the essays are about from the last paragraph? Why or why not?*
- Q *What's interesting about hearing just the last paragraph of other people's writing?*

Explain that the students will revise, proofread, and publish their persuasive essays next week.

## Essay

### Bike Helmets

What do you think when you see a kid riding a bike without a helmet? Well, I think riding without a helmet is dangerous and people should wear a helmet every time they ride a bike.

First of all, it is the law. In most towns and cities, kids and teens have to wear a bike helmet every time they ride a bike. If they do not, they will be stopped by the police and their parents will be called. So, if you don't want to be stopped by the police, wear your helmet.

When you are riding your bike on the street, you could get hit by a car. Cars go very fast, and when drivers pull out of parking spots and driveways, they might not see you riding your bike. If a car hits you, your head could hit the ground. If you are wearing a helmet, your head will be protected and the helmet will save your life.

Because bike helmets can prevent serious head injuries, parents and older kids should set a good example by wearing bicycle helmets when they ride. I know teens might not like the idea, but if everyone or almost everyone wears a helmet, kids won't think it is strange.

A bicycle helmet protects your head and could save your life if you fall off your bike. Also, it's the law for kids to wear helmets, and you don't want to break the law! So please wear your helmet every time you ride.

# Week 3

## OVERVIEW

### Writing Focus

- Students confer about their persuasive essays.
- Students revise their essays based on partner feedback.
- Students correct run-on sentences.
- Students proofread their essays for accuracy and correctness.
- Students identify and indent paragraphs.
- Students publish their persuasive essays for the class and possibly for a wider audience.

### Social Development Focus

- Students help one another improve their writing.
- Students express interest in and appreciation for one another's writing.
- Students listen respectfully to the thinking of others and share their own.
- Students respectfully consider the opinions of others.
- Students make decisions and solve problems respectfully.

### Online Resources

Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to find your online resources for this week.

#### Whiteboard Activities

- WA6, WA12–WA17

#### Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “Conference Notes” record sheet (CN1)
- “Individual Writing Assessment” record sheet (IA1)
- “Student Self-assessment” record sheet (SA1)

#### Reproducibles

- Opinion Writing genre unit family letter (BLM1)
- (Optional) “Too Much TV” (BLM2)

#### Professional Development Media

- “Managing Pair Conferences” (AV8)
- “Using Social Networking Sites” tutorial (AV78)

## DO AHEAD

- ✓ Prior to Day 1, prepare a sheet of chart paper titled “Questions to Ask Myself as I Listen” with the following questions written on it:  
*Is it clear what this author’s opinion is?*  
*Are there convincing reasons that support the opinion?*  
*Does this essay make sense? If not, where am I confused?*
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA3) on page 136 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student’s published piece.
- ✓ (Optional) If computers are available, you might teach Technology Mini-lesson 9, “Creating Documents,” in Appendix A to help the students type and print the final versions of their essays. Alternatively, you might recruit parent volunteers to help them do so.

## TEACHER AS WRITER

*“Look at what’s happening in this world. Every day there’s something exciting or disturbing to write about. With all that’s going on, how could I stop?”*

— Gwendolyn Brooks

Select one of the opinion paragraphs you wrote in Week 2 and develop it into a persuasive essay by listing several reasons that support your opinion. Devote a paragraph to each reason, providing information or a rationale to justify your opinion. When you finish, consider having a friend or colleague read it and give you feedback about whether he or she is persuaded by your essay, and why.

# Day 1

## Pair Conferencing and Revising

### Materials

- “Questions to Ask Myself as I Listen” chart, prepared ahead
- “Class Assessment Record” sheet (CA3)

### In this lesson, the students:

- Ask for and receive feedback about their writing
- Give feedback in a helpful way
- Ask one another questions about their writing
- Discuss and solve problems that arise in their work together

## GETTING READY TO WRITE

### 1 Prepare for Pair Conferences

Have the students get their notebooks and pencils and sit at desks with partners together. Explain that today partners will meet to confer about their drafts. They will share their drafts and get feedback about anything that is confusing or unclear; then they will make any necessary revisions.

Remind the students that, in the writing community, the goal of giving feedback is to help each person create the best possible piece of writing. Review that authors pay close attention to feedback about what is unclear or confusing in their writing. Although authors might not follow every suggestion they receive, the feedback helps them improve their work until it is the best piece of writing possible. Ask and briefly discuss:

- Q *What have you learned about giving feedback respectfully?*
- Q *What problems can arise when giving feedback? How will you avoid those problems today?*

### 2 Prepare to Give Feedback: Does It All Make Sense?

Explain that as partners listen to each other’s writing, you would like them to ask themselves a few questions. Direct the students’ attention to the “Questions to Ask Myself as I Listen” chart (see “Do Ahead” on page 587) and read the questions aloud.

## Questions to Ask Myself as I Listen

- Is it clear what this author's opinion is?
- Are there convincing reasons that support the opinion?
- Does this essay make sense? If not, where am I confused?

Encourage partners to ask themselves these questions and to listen carefully to each other. Explain that you would like the students to be ready to report the feedback they heard to the class.

### 3 Confer in Pairs

Give partners ample time to read one another's drafts and confer.

#### CLASS ASSESSMENT NOTE

Circulate among conferring pairs and observe the conferences without intervening. Ask yourself:

- Are pairs staying on task, reading and discussing their writing?
- Are they giving each other specific feedback about the charted questions?
- Are they giving feedback in a helpful and respectful way?

Make note of productive ways you see pairs interacting, as well as any problems, to bring up during Step 4.

Record your observations on the "Class Assessment Record" sheet (CA3); see page 136 of the *Assessment Resource Book*.

When most pairs have had time to discuss their drafts, signal for the class's attention.

### 4 Reflect on Feedback Received

Ask and briefly discuss:

- Q *What feedback did your partner give you that will help you revise your draft?*
- Q *How was your partner respectful when giving you feedback?*
- Q *I noticed that [partners were talking to each other in a kind way]. How did that affect your work together?*

#### Teacher Note

If necessary, signal about halfway through sharing time so partners can switch roles if they have not yet done so. For more information, view "Managing Pair Conferences" (AV8).

Explain that during Writing Time today the students will revise their drafts based on their partners' feedback.

## WRITING TIME

### 5 Finish Revising Drafts

Have the students work on revising their drafts. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with individual students.

### TEACHER CONFERENCE NOTE

As you did in Week 2, continue conferring with individual students about the piece each is developing for publication. Have each student tell you about his piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state his opinion clearly in the opening paragraph?
- Does the student give several different reasons that support his opinion?
- Are the reasons supported by facts and details?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating his opinion?

Help the student extend his thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*
- Q *What other facts and details can you write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*
- Q *How can you restate your opinion at the end of your essay?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 137 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Briefly Reflect on Writing

Help the students reflect on their work today by briefly discussing:

- Q *Who incorporated feedback from your partner in your revision today?  
Read us the original passage and then read us the revision.*

Tell the students that they will begin proofreading their drafts tomorrow.

## Proofreading

## Day 2

### In this lesson, the students:

- Proofread for spelling, punctuation, and grammar
- Listen for and correct run-on sentences

## GETTING READY TO WRITE

### 1 Prepare to Proofread

Have the students get their *Student Writing Handbooks*, pencils, and notebooks and sit at desks with partners together. Explain that tomorrow the students will begin copying their first drafts into final versions. Tell the students that they will publish their persuasive essays by sharing them with the class from the Author's Chair later in the week and by placing them in the class library.

Explain that the students will want to make their essays as clear as possible so nothing gets in the way of convincing their readers of their opinions. Today they will proofread their drafts to make sure they have corrected all errors before publishing.

### 2 Proofreading for Run-on Sentences

Explain to the students that they will practice listening for and correcting run-on sentences. Display the “Persuasive Essay Excerpts with Run-on Sentences” chart (WA12) and have the students open their *Student Writing Handbooks* to page 36, where the excerpts are reproduced. Ask the students to watch and listen as you read the first passage aloud, pausing only at the comma after *work* and the periods. Ask:

- Q *What did you notice about the way the passage sounded when I read it?*
- Q *What run-on sentences do you notice in the passage?*

### Materials

- “Persuasive Essay Excerpts with Run-on Sentences” chart (WA12)
- *Student Writing Handbook* page 36
- “Writing Time” chart (WA13)

**Students might say:**

"It doesn't sound right."

"In addition to what [Kim] said, some of the sentences sound funny—like they go on too long."

"I noticed a sentence that sounded like it might be two sentences squished together. It was confusing."

If necessary, point out that the passage does not sound right when it is read aloud because it contains several run-on sentences. Model rereading the passage while thinking aloud about how to split the first run-on into two complete sentences, capitalizing the first word in each new sentence and adding a period at the end. Demonstrate correcting the third run-on by using a comma and the conjunction *or* to join the two thoughts. Invite the students to help you.

**You might say:**

"One idea I heard is that the first sentence is a run-on. I agree.

I can hear it when I read: 'Volunteer work is very important in any community everyone should try doing some volunteer work, I think.'

That sounds like two sentences run together without a break between them. I'll put a period after *community* and capitalize *Everyone*.

The next sentence sounds like it might be a run-on, too. Listen: 'There are many different kinds of volunteer work here are some examples.'

We should put a period after *work* and capitalize *Here*. I'll do that.

The next sentence sounds correct. It is a complete thought and a complete sentence with a subject and predicate. I heard a comment that the next sentence is a run-on. I can hear it when I read: 'They can help out at the public library they can tutor students in after-school programs.' That sounds like two sentences squished together. Let's add the word *or* between *library* and *they*. I'll also remember to put a comma before *or*."

Have partners work together to read the second passage of "Persuasive Essay Excerpts with Run-on Sentences" and correct any run-on sentences. Remind the students that they can correct a run-on sentence by dividing it into two sentences or by using a comma and a conjunction, such as *and*, *but*, or *or*, to combine the thoughts. After a few minutes, signal for the students' attention and invite volunteers to tell the class how they corrected the passage.

Explain that you would like the students to read their own drafts aloud today, listen for any run-on sentences, and correct them. Remind the students to make sure they have used capital letters, periods, and commas as appropriate.

### **3** Review Proofreading with Word Bank and Proofreading Notes

Remind the students that in addition to correcting any run-on sentences, they should use their word banks and proofreading notes in their handbooks to help them proofread their drafts for spelling errors

#### **Skill Practice Note**

For more practice producing complete sentences and recognizing and correcting run-on sentences, see Lesson 1, Lesson 2, and Lesson 5 in the *Skill Practice Teaching Guide*.

and correctness before publishing. (See Unit 2, Week 2, Day 2 on page 98 for the introduction of the word bank and Unit 2, Week 2, Day 3 on page 103 for the introduction of the proofreading notes.) Briefly review these procedures by reminding the students to:

- Circle words in their drafts that they are unsure how to spell, and look them up in their word banks. If necessary, they will add words to their word banks after looking up the correct spellings in a dictionary or other resource.
- Use their proofreading notes as a list of things to check in their drafts before publishing. They will correct any errors by crossing them out and writing the corrections above them.

## WRITING TIME

### 4 Proofread Drafts

Display the “Writing Time” chart (📊 WA13) and have the students work on the charted tasks for 20–30 minutes. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with individual students.

#### Writing Time

- Check for run-on sentences.
- Proofread your draft for spelling, grammar, and punctuation.
- If you finish, work on any other piece of writing.

WA13

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state her opinion clearly in the opening paragraph?
- Does the student give several different reasons that support her opinion?
- Are the reasons supported by facts and details?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating her opinion?
- Has the student corrected any run-on sentences?

*(continues)*

## TEACHER CONFERENCE NOTE *(continued)*

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*
- Q *What other facts and details can you write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*
- Q *How can you restate your opinion at the end of your essay?*
- Q *Have you read your essay aloud to listen for any run-on sentences?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 137 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Proofreading

Ask and briefly discuss:

- Q *Who corrected a run-on sentence in your essay today? Read us the corrected sentence.*
- Q *What words did you find in your word bank today? How did you check on words that were not in the word bank?*
- Q *What corrections did you make in your draft after reviewing your proofreading notes?*

Explain that the students will begin working on their final versions tomorrow.

**In this lesson, the students:**

- Explore identifying and indenting paragraphs
- Work on their final versions for publication

**GETTING READY TO WRITE****1** Briefly Review

Have the students stay at their desks. Remind them that yesterday they read their essays aloud to listen for run-on sentences; they also proofread their essays for spelling, punctuation, and grammar errors. Tell them that today they will begin copying their first drafts into final versions. Before this step, they will think about another way to make their essays as easy to read and as persuasive as possible.

**2** Discuss Identifying and Indenting Paragraphs

Display the “Bugs Are Creepy” chart (WA6) and briefly review the essay. Point out that the essay is organized into paragraphs: the first paragraph introduces the author’s opinion; the second, third, and fourth paragraphs each give a supporting reason why the author thinks bugs are creepy; the final paragraph is the conclusion and restates the author’s opinion.

Ask:

- Q** *Why do you think the author might have decided to organize the essay into paragraphs?*

**Students might say:**

“The essay would be hard to read if it was just one big, long paragraph.”

“I agree with [Blake]. If the opinion and all the reasons were squished together in one paragraph, you would get confused about what the author is trying to say.”

“The paragraphs make me read more slowly so that I really pay attention to what the author is saying.”

If necessary, explain that using paragraphs helps writers organize their ideas and make their arguments stronger and easier for readers to understand. Point out that, in most cases, writers include one idea or reason in a paragraph, along with any supporting details or facts.

Explain that when writers begin a new paragraph, they *indent* it, so that the first sentence of the paragraph does not start at the left margin of the

page. Use the displayed “Bugs Are Creepy” chart (WA6) to point out examples of correctly indented paragraphs.

### 3 Model Identifying and Indenting Paragraphs

Display the “Persuasive Essay Without Indentation” chart (WA14) and have the students open their handbooks to page 37. Read the essay aloud as the students follow along. Ask and briefly discuss:

- Q *What is this author’s opinion about watching a lot of TV?*
- Q *How does it feel to read a draft of an essay that is written as one paragraph?*

**Students might say:**

“The author thinks that watching a lot of TV is unhealthy and bad for people.”

“Having the essay as just one paragraph makes it hard to follow everything the author is saying.”

“It hurts my eyes to read it. Also, I got kind of confused about some of the reasons.”

Explain that now you will work together with the class to revise the way this draft is organized. Ask the students to watch and listen as you reread the draft aloud and think about where you might create paragraphs.

Model rereading the draft while thinking aloud about how to mark the draft using the standard symbols for indentation and paragraphing (see diagram below). Invite the students to help you.

#### Persuasive Essay Without Indentation

¶ → | How much TV do you watch? Almost everybody watches some TV. Most people have a favorite show they enjoy viewing. That is fine, but I think that watching a lot of TV is not healthy or a good idea. ¶ People who watch too much TV sit around and don’t get enough exercise. Our bodies need regular exercise to stay healthy. That’s because exercise builds muscles. It helps people stay flexible. It also burns calories. ¶ Another big problem with TV is that it can be bad for people’s brains. Watching too much TV makes people unable to concentrate or pay attention. TV is especially bad for young children’s brains. It can change the way the brain works. ¶ In addition, watching TV takes time away from other

WA14

important parts of life. If people watch a lot of TV, they are probably not talking to their friends or family. They are probably not going outside and enjoying nature. It's true that TV can be fun to watch. It is a nice way to relax sometimes. But I think you will agree with me that watching a lot of TV is bad for your body, bad for your brain, and bad for your life!

**You might say:**

"To mark a sentence that should be indented, draw an arrow in the left margin next to that sentence, like this. I'll draw an arrow next to the first sentence because it should be indented as the start of the opening paragraph. I will also draw the symbol for a paragraph here in the margin. The paragraph symbol looks like a backward P with an extra line in it. Reading on, I find the sentence in which the author states her opinion: 'That is fine, but I think that watching a lot of TV is not healthy or a good idea.' That has to be part of the opening paragraph, too. Now I'll keep reading the draft, looking for where the second paragraph should begin. I heard someone say that the next sentence is the author's first supporting reason: 'People who watch too much TV sit around and don't get enough exercise.' Since each reason gets its own paragraph, I think I should indent this sentence and make it the start of the second paragraph. So I will draw the symbol for a new paragraph in the margin and also draw an arrow to show that the sentence with this reason should be indented. Reading on, I see that the next four sentences give facts and details about exercise, and so I think they are part of the same paragraph."

Finish modeling identifying and indenting paragraphs in the essay.

Explain that today you would like the students to reread their own drafts to check that their essays are organized into paragraphs and that each paragraph is correctly indented. Remind them to continue proofreading their drafts for spelling and other errors, if necessary. If they finish, they may begin copying their drafts neatly onto lined paper (or typing them on the computer) for their final versions.

## WRITING TIME

### 4 Proofread Drafts and Write Final Versions

Display the "Writing Time" chart (WA15) and have the students work on the charted tasks for 20–30 minutes. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with individual students.

### Writing Time

- Check that your essay is organized into paragraphs.
- Check that the first sentence of each paragraph is correctly indented.
- Continue proofreading your essay for spelling and punctuation errors.
- If you finish, begin copying your final version on loose, lined paper.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about his piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state his opinion clearly in the opening paragraph?
- Does the student give several different reasons that support his opinion?
- Are the reasons supported by facts and details?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating his opinion?
- Has the student corrected any run-on sentences?
- Has the student organized the essay into paragraphs that are correctly indented?

Help the student extend his thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 137 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Proofreading

Ask and briefly discuss:

**Q** *Who added a paragraph break in your essay today? Tell us about it.*

**Q** *What other changes did you make to your essay? How do these changes make your essay clearer or more persuasive?*

Explain that the students will finish working on their final versions tomorrow.

## WRITING ABOUT READING

### Write an Opinion Paragraph About a Persuasive Essay

Remind the students that they have heard and read a number of persuasive essays over the past few weeks. Ask and briefly discuss:

**Q** *What does a good persuasive essay include?*

If necessary, refer the students to the “Things We Notice About Persuasive Essays” chart. The students may also review the various persuasive essays they have read (starting on *Student Writing Handbook* page 29).

Explain that you will reread one essay that the students read earlier. Ask the students to think as they listen about whether this essay includes the various features of a well-written persuasive essay. Read “Helping Other Countries” (on page 560) aloud, stopping periodically during the reading to have the students discuss the items they notice.

Explain that one way to form an opinion about a persuasive essay is to consider whether you find it personally persuasive; a second way to form

### Materials

- “Things We Notice About Persuasive Essays” chart from Week 2
- “Helping Other Countries” from Week 1 (see page 560)
- *Student Writing Handbook*
- Copy of “Too Much TV” (BLM2) for each student

### Teacher Note

Prior to doing this activity, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print “Too Much TV” (BLM2). Make enough copies for each student to have one; set aside a copy for yourself.

an opinion is to consider whether the essay contains the characteristics or features that well-written persuasive essays usually include. Ask the students to watch as you think aloud and model writing an opinion paragraph about the essay “Helping Other Countries.”

**You might say:**

“After I read the persuasive essay ‘Helping Other Countries,’ I found myself agreeing with the author’s opinion. I also noticed that the essay had many of the features of a well-written persuasive essay. I’ll start by writing: *I think that ‘Helping Other Countries’ is a great example of a persuasive essay. After reading it, I completely agreed with the author that we should give money to people in poorer countries.* Notice that I stated my opinion and put the title of the essay in the opening sentences. Now I need to explain why I think this essay is well written, using details from the text. I’ll write: *I think this essay is well written because the author states his opinion clearly at the beginning. Also, he gives many good reasons why we should give money. He includes lots of facts. For example, he points out that in many countries, people don’t have important things like medicine, clean water, or schools for kids. He also says that a little bit of money from us can make a big difference in other parts of the world. I thought that was very persuasive.* What else do I notice about the essay? I’ll write: *In addition, the author does a good job of grabbing the reader’s attention by asking interesting questions, such as ‘What is more important: for you to be able to have the newest, hottest sneakers or for a family to be able to eat?’ When I read that, I was definitely persuaded to agree with the author!* Now I need some closing sentences. I’ll write: *I enjoyed reading ‘Helping Other Countries’ and found it very persuasive, too.”*

Tell the students that people may differ about how well written and persuasive they think a particular essay is, and that is fine. The important thing is that they explain their thinking by using details from the essay and information from the “Things We Notice About Persuasive Essays” chart.

Distribute a copy of “Too Much TV” (BLM2) to each student. Have them read the essay quietly.

When the students have finished reading “Too Much TV,” explain that they should each start their opinion paragraph with an opening sentence or two that states their opinion and includes the title of the essay, give a reason for their opinion and a fact or detail from the essay to support their reasons, and provide a closing sentence that restates their opinion and wraps up their paragraph. Have the students write about their opinions. If time permits, invite the students to share their opinion paragraphs with the class.

## In this lesson, the students:

- Finish writing their final versions
- Present their essays from the Author’s Chair
- Express interest in and appreciation for one another’s writing
- Ask one another questions about their writing
- Respectfully consider the opinions of others

## GETTING READY TO WRITE

### 2 Finish Final Versions of Persuasive Essays

Display the “Writing Time” chart (🕒 WA16) and read it aloud. Have the students think quietly to themselves for a moment about the following question:

**Q** *What do you need to work on today to be ready to share your persuasive essay from the Author’s Chair?*

After a moment, have the students begin working on the charted tasks for 20–30 minutes.

#### Writing Time

- Finish proofreading your draft using your word bank and proofreading notes.
- Finish writing the final version of your persuasive essay.
- Reread it to make sure it is free of errors.
- If you finish, work on any other piece of writing.

## SHARING AND REFLECTING

### 3 Review Sharing Writing from the Author’s Chair

Gather the class with partners sitting together, facing the Author’s Chair. Explain that each student will read his opinion essay to the class from the Author’s Chair. If necessary, remind them of the procedure you established for presenting from the Author’s Chair (see Unit 2, Week 2, “Do Ahead” on page 95).

Before asking a student to share from the Author’s Chair today, discuss how the students will act, both as presenting authors and as members of the audience. Ask and discuss:

- Q *How will you let the author know that you’re interested in his or her piece? Why is it important to express interest in one another’s writing?*
- Q *How will you show that you respect the author’s opinion, even if you disagree, and that you are carefully considering what he or she wrote?*

Remind the students that the purpose of the persuasive essay is to convince the reader of a particular opinion. Encourage them to think as they listen about whether they agree or disagree with the author’s opinion and whether the essay is convincing them to change their minds.

### 4 Conduct Author’s Chair Sharing

Ask a student who has finished the final version of her persuasive essay to read it aloud from the Author’s Chair. At the end of the sharing, facilitate a discussion using questions like those that follow, and give the author an opportunity to respond to the class’s comments and questions:

- Q *What did you learn about [dogs] from hearing [Ellen’s] essay?*
- Q *Do you agree or disagree with her opinion? Why?*
- Q *Were you persuaded to change your mind after hearing [Ellen’s] essay?*
- Q *What questions can we ask [Ellen] about what she wrote?*

Follow this procedure to have other students share from the Author’s Chair.

### 5 Reflect on Author’s Chair Sharing

Ask and briefly discuss:

- Q *What did we do well as an audience today? What might we want to work on the next time authors share their work?*
- Q *If you shared an essay today, did you feel that people were being respectful of your opinions and were considering them carefully? Why or why not?*

Explain that all of the students will get a chance to share their essays from the Author’s Chair in the coming days.

## TECHNOLOGY EXTENSION

### Have the Students Record Their Persuasive Essays

If you have access to recording equipment, consider having the students create audio or video recordings of their persuasive essays. Make the recorded narratives available in the classroom, school library, or online for others to enjoy.

## Writing Final Versions and Publishing

### Materials

- “Things We Notice About Persuasive Essays” chart from Week 2
- “Writing Time” chart (WA17)
- Supply of loose, lined paper for final versions
- Chair to use for Author’s Chair sharing
- Copy of this unit’s family letter (BLM1) for each student
- (Optional) Computers for typing and printing final versions

### Facilitation Tip

Reflect on your experience over the past three weeks with **responding neutrally with interest** during class discussions. Does this practice feel natural to you? Are you integrating it into class discussions throughout the school day? What effect is it having on the students? We encourage you to continue to try this practice and reflect on students’ responses as you facilitate class discussions in the future.

### In this lesson, the students:

- Finish writing their final versions
- Present their essays from the Author’s Chair
- Express interest in and appreciation for one another’s writing
- Ask one another questions about their writing
- Respectfully consider the opinions of others

## GETTING READY TO WRITE

### 1 Reflect on Persuasive Essays

Have the students stay in their seats. Review that over the past three weeks they learned about persuasive essays and took their own persuasive essays through the writing process, from first drafts to publication. Ask the following question, referring the students if necessary to the “Things We Notice About Persuasive Essays” chart:

**Q** *What have you learned about writing a persuasive essay?*

#### Students might say:

“I learned that people write persuasive essays to try to persuade others to agree with them.”

“I learned that it’s a good idea to write your opinion really clearly at the beginning of your essay.”

“A good persuasive essay has reasons that support the author’s opinion.”

“I learned that it also has facts and details to make the reasons more convincing.”

Explain that the students will finish working on the final versions of their persuasive essays. Students who finish will begin sharing their pieces from the Author’s Chair after Writing Time.

## WRITING TIME

### 2 Finish Final Versions of Persuasive Essays

Display the “Writing Time” chart (📄 WA17) and read it aloud. Have the students think quietly to themselves for a moment about the following question:

Q *What do you need to work on today to be ready to share your persuasive essay from the Author’s Chair?*

After a moment, have the students begin working on the charted tasks for 20–30 minutes.

#### Writing Time

- Finish writing the final version of your persuasive essay.
- Reread it to make sure it is free of errors.
- If you finish, work on any other piece of writing.

### 3 Gather for Author’s Chair Sharing

Gather the class with partners sitting together, facing the Author’s Chair. Briefly discuss how they will act as members of the audience. Ask:

- Q *What will you do to be a respectful member of the audience today?*

Encourage the students to be attentive and considerate audience members, and tell them that you will check in with them to see how they did.

Remind the students to think as they listen about whether they agree or disagree with the author’s opinion and whether the essay is convincing enough to change their minds.

### 4 Conduct Author’s Chair Sharing

Have a student read her persuasive essay aloud from the Author’s Chair. At the end of the sharing, facilitate a discussion using questions like

those that follow, and give the author an opportunity to respond to the class’s comments and questions:

- Q *What did you learn about [organic food] from hearing [Kim’s] essay?*
- Q *Do you agree or disagree with her opinion? Why?*
- Q *Were you persuaded to change your mind after hearing [Kim’s] essay?*
- Q *What questions can we ask [Kim] about what she wrote?*

Follow this procedure to have other students share from the Author’s Chair.

## 5 Reflect on Audience Behavior During Author’s Chair Sharing

Ask and briefly discuss:

- Q *How did we improve as an audience today? What should we continue to work on the next time authors share their work?*
- Q *What is something an audience member did that showed respect when you read your essay today?*

Assure the students that they will all get to share their published essays from the Author’s Chair in the coming days. Explain that after the students have shared their persuasive essays from the Author’s Chair, they may take the essays home to share with their families. Then the students will bring the essays back to class, and you will compile them into a class book. This book will be available for the students to read during independent reading time.

---

## EXTENSION

### Write Letters Home About Opinion Writing

Provide letter-writing practice for the students by having them write letters home to tell what they learned about opinion writing. Stimulate their thinking by reviewing the “Things We Notice About Persuasive Essays” chart and discussing questions such as:

- Q *What’s special about opinion writing?*
- Q *What steps did you go through to develop and publish your opinion piece?*
- Q *What is one thing you’re proud of about your published opinion piece?*

If necessary, review the elements of a letter (date, salutation, body, closing, and signature) by modeling or writing a shared sample letter with the class. Have the students write and proofread their letters; then attach each student’s letter to a copy of his own published piece and send it home.

---

### Teacher Note

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on page 608.

---

### Skill Practice Note

For practice with using commas in the dates, addresses, greetings, and closings of letters, see Lesson 28 in the *Skill Practice Teaching Guide*.

### Technology Tip

To help your students learn how to participate safely in online communities, you might teach the following Technology Mini-lessons: Mini-lesson 1, “Navigating Safely Online”; Mini-lesson 2, “Maintaining Privacy Online”; and Mini-lesson 3, “Showing Respect Online.” See Appendix A. For more information about these mini-lessons see “About Digital Citizenship Lessons” on page 690.

For more information, view the “Using Social Networking Sites” tutorial (AV78).

## TECHNOLOGY EXTENSION

### Share Persuasive Essays on a Social Networking Site

A social networking site designed specifically for students can be a safe and engaging forum for exchanging ideas and opinions. If you or your school has established such a site, have the students post their persuasive essays there. Encourage the students to read and comment on one another’s pieces. Before the students post their work, discuss social media etiquette and the importance of taking responsibility for public comments.

## End-of-unit Considerations

### Wrap Up the Unit

- This is the end of the Opinion Writing genre unit. You will need to reassign partners before you start the next genre unit.
- Send home with each student the student’s published piece and a copy of this unit’s family letter (BLM1). Encourage the students to share their published pieces with their families. Remind the students to bring the pieces back to class after their families have read them so they can be placed in the class library.
- Save the students’ published writing (or copies of it) to use for reflection and discussion in Unit 9.

### Assessments

- Before continuing with the next unit, take this opportunity to assess individual students’ writing from this unit. See “Completing the Individual Writing Assessment” (IA1) on page 140 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students’ published writing home to share with their families, you might have each student analyze her writing using the “Student Self-assessment” record sheet (SA1) on page 139 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension “Introduce ‘Student Self-assessment’ ” on page 114.
- (Optional) Prior to beginning the next unit, you might wish to prepare the students for the end-of-year CCSS-type writing performance task by teaching the Opinion Writing unit on page 105 of the *Writing Performance Task Preparation Guide*. For more information, see “Teaching the Units” on page vi of the preparation guide.

# Genre

# Poetry

During this two-week unit, the students hear, discuss, and write poetry. They think about what makes a poem a poem and informally explore imagery, sound, and form in poetry. They learn to listen to the language in poems and think about what poems look like on the page. They generate ideas for poems, including writing about feelings, objects, weather, animals, and things that make noise. The students learn that poets can break capitalization and punctuation rules intentionally, and they think about what this would look like in their own poems. They tap into their creativity and express interest in and appreciation for one another's creativity and writing.

# Week 1

## OVERVIEW

The icon features the word "Poems" in a large, white, sans-serif font. Above it, in a smaller, lighter font, is the text "The evening star beautiful of all stars".

### Poems

**"Feeling Ill"** by Michael Rosen (see page 637)

This poem captures the sensations of being sick in bed.

**"Lullaby"** by Kristine O'Connell George (see page 638)

Personification creates an image of a tree gently rocking the birds in her branches to sleep.

**"lawnmower"** by Valerie Worth (see page 639)

In this poem, a lawnmower spits and grinds across a lawn.

**"Windy Nights"** by Rodney Bennett (see page 640)

Wind rattles, rumbles, and roars in this poem.

**"Up and Down"** by Douglas Florian (see page 641)

This poem describes the ups and downs of wildlife in a tree.

**"Egg"** by Kristine O'Connell George (see page 642)

The words form an egg shape in this poem about—eggs!

**"Crickets"** by Myra Cohn Livingston (see page 643)

Repetition, onomatopoeia, and alliteration make crickets come alive in this poem.

## TEACHER AS WRITER

*“Poetry is the language of extremity. . . . You feel something potent and then you transfer it onto the page.”*

— Li-Young Lee

This week take time to read poetry. As you read, consider:

- What makes a poem a poem?

Write your thoughts in your writing notebook and add to it as you get new ideas.

### Writing Focus

- Students hear, discuss, and write poems.
- Students think about what a poem is.
- Students explore imagery and form in poems.
- Students explore onomatopoeia, repetition, and alliteration in poems.
- Students generate and quick-write ideas for poems.
- Students cultivate their creativity.

### Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students express interest in and appreciation for one another’s writing.

## DO AHEAD

- ✓ Consider reading this unit’s poems with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding. If possible, show the students related photographs, video, or objects (such as a video of someone mowing a lawn for the poem “lawnmower,” or an egg for the poem “Egg”) to aid their comprehension.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see “Random Pairing” on page xxix and “Considerations for Pairing ELLs” on page lii. For more information, view “Cooperative Structures Overview” (AV9).
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA1) on page 152 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, make a class set of the “Conference Notes” record sheet (CN1) on page 154 of the *Assessment Resource Book*.

# Day 1

## Exploring Poetry

### Materials

- “Feeling Ill” (see page 637)
- *Student Writing Handbook* page 38
- Chart paper and a marker
- “Writing Time” chart (WA1)

### Teacher Note

For more information about poetry, view “Exploring Poetry” (AV55).

### Teacher Note

The partners you assign today will stay together for the unit. If necessary, take a few minutes at the beginning of today’s lesson to let them get to know each other better by talking informally in a relaxed atmosphere.

### Teacher Note

If you are using other programs from the Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the writing lessons.

### In this lesson, the students:

- Work with new partners
- Hear and discuss a poem
- Think about what makes a poem a poem
- Explore sensory details in poems
- Quick-write ideas for a “feeling” poem

### IMMERSION IN POETRY

In this unit, the students generate ideas and write poems using published poems as models and sources of inspiration. They learn that poems use words and images to communicate feelings and create vivid pictures in the reader’s mind. They develop an intuitive understanding of what poetry is by exploring *images* (for example, sensory details, metaphor, personification), *sounds* (for example, repetition, alliteration, onomatopoeia), and *forms* (for example, line length, stanzas). While the learning of literary terms is not emphasized at grade 4, exploring these concepts and how they function in poems is.

The students are encouraged to activate their imaginations and take creative risks in this unit. They see how poets often create their own rules and even intentionally break rules for poetic effect. The students learn that poetry gives writers endless freedom in using words to express their ideas.

## GETTING READY TO WRITE

### 1 Pair Students and Discuss Working Together

Randomly assign partners (see “Do Ahead” on page 615) and make sure they know each other’s names. Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Explain that over the next two weeks partners will work together to explore writing poetry.

Ask:

**Q** *What have you learned about being a good partner? Turn to your partner and tell him or her what you will do to be a good partner.*

After a moment, signal for the students' attention and discuss as a class:

**Q** *What did your partner say he or she will do to be a good partner to you?*

Encourage partners to keep these things in mind as they start working together today.

## 2 Introduce Poetry

Ask the students to flip through their *Student Writing Handbooks* and to stop on any page that has a poem on it. After a moment, signal for their attention. Ask partners to look at each other's pages to see if they agree that they have both stopped on poems. Ask and briefly discuss as a class:

**Q** *How do you know that you stopped on a poem?*

**Q** *What do you think makes a poem a poem?*

### Students might say:

"I know it's a poem because it has lots of short lines."

"I know it's a poem because it has rhyming words."

"A poem doesn't take up the whole page, like a story."

"In addition to what [Paola] said, I think a poem gives you a picture in your head."

Explain that you will read a poem aloud today, and encourage the students to continue to think as they listen about what makes a poem a poem.

## 3 Read and Discuss "Feeling Ill"

Ask the students to close their handbooks and listen as you read the poem "Feeling Ill" by Michael Rosen aloud. Invite them to imagine what is happening in this poem as they listen.

Read "Feeling Ill" on page 637 (including the title) aloud twice, slowly and clearly. Ask:

**Q** *What did you imagine as you listened to this poem? Turn to your partner.*

Have a few volunteers share their thinking with the class. Ask the students to open to *Student Writing Handbook* page 38, where "Feeling Ill" is reproduced. Explain that in "Feeling Ill" the poet uses *sensory details*, or words that help us imagine what is happening in the poem using our senses. Ask the students to reread the poem to themselves and notice the sensory details. Then ask:

**Q** *What sensory details does the poet include to help you see what's happening? Hear? Feel? Smell or taste?*

### Teacher Note

To review the procedure for "Turn to Your Partner," see Unit 1, Week 1, Day 2 (page 11). To see an example, view "Using 'Turn to Your Partner'" (AV11).

### Teacher Note

Regularly remind the students to use the discussion prompts they learned when they participate in class discussions. The prompts are:

- "I agree with \_\_\_\_\_ because . . ."
- "I disagree with \_\_\_\_\_ because . . ."
- "In addition to what \_\_\_\_\_ said, I think . . ."

## Teacher Note

Save the “Notes About Poems” chart to use on Day 2 and throughout the unit.

## Teacher Note

To review the procedure for “Think, Pair, Share,” see Unit 1, Week 2, Day 1 (page 32). To see an example, view “Using ‘Think, Pair, Share’” (AV13).

## Skill Practice Note

For practice with recognizing verbs, see Lesson 14 in the *Skill Practice Teaching Guide*.

## Teacher Note

If the students have difficulty answering the question, suggest some examples like those in the diagram; then ask, “What other ideas for lines do you have?”

### Students might say:

“The words ‘smelling the orange on the table’ make me imagine that smell as I’m lying in bed.”

“I started to feel a headache when I read ‘holding my head with my hand.’”

“‘Waiting for the clock to change’ makes me think of how long it seems like it takes to feel better when you get sick.”

Explain that most poems include sensory details; they are one thing that makes a poem a poem. Title a sheet of chart paper “Notes About Poems,” and underneath, write *Poems have sensory details that help us see, hear, smell, taste, and feel what’s happening.*

Ask:

**Q** *What else do you think makes “Feeling Ill” a poem?*

As the students respond, record their ideas on the chart. If the students suggest ideas that apply to some (but not all) poems, begin these chart entries with the word *some* (for example, *Some poems rhyme* and *Some poems have short lines*). Explain that you will continue to add to the chart in the coming days.

## 4 Quick-write: Ideas for a “Feeling” Poem

Use “Think, Pair, Share” to discuss:

**Q** *Imagine that we are writing a poem like “Feeling Ill,” but it is called “Feeling Happy.” What sensory details might we include in the poem to help a reader see, hear, smell, taste, and feel what makes us feel happy? [pause] Turn to your partner.*

Without discussing the question as a class, point out that all the lines in “Feeling Ill” begin with a verb (or action word) that ends with *-ing*. Then ask:

**Q** *What lines that begin with verbs ending with *-ing* might we include in our poem?*

Have a few volunteers share their ideas with the class. As they report, record their ideas on a sheet of chart paper titled “Ideas About Feeling Happy.”

## Ideas About Feeling Happy

- eating fresh strawberries
- kicking a soccer ball
- playing with my cousin
- smelling bread baking in the oven
- hearing my favorite music
- tasting macaroni

Explain that the students will choose another feeling (such as sad, angry, silly, or bored) and quick-write lines that begin with verbs ending with *-ing* that they could include in a poem about that feeling. Have them open to the next blank page in the writing ideas section of their notebooks and write their ideas for 5 minutes. Encourage them to quickly write whatever ideas come to mind.

When time is up, call for the students' attention and have a few volunteers share their lines with the class. Explain that during Writing Time today the students may write more lines to create a poem like "Feeling Ill" or write about anything they choose.

## WRITING TIME

### 5 Write Independently

Have the students sit at desks with partners together. Display the "Writing Time" chart (WA1) and have the students write silently for 20–30 minutes.

#### Writing Time

- Write more lines to create a poem like "Feeling Ill."
- Write about anything you choose.

WA1

If necessary, remind the students that during Writing Time there should be no talking, whispering, or walking around. Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

Signal to let the students know when Writing Time is over.

#### Teacher Note

Post the "Ideas About Feeling Happy" chart for the students to refer to throughout the unit.

#### Teacher Note

Note that on Days 1-3 of this week, the students may write poems or anything else they choose. On Day 4, after exposure to several more poems, all of the students will be asked to begin writing poems.

## SHARING AND REFLECTING

### 6 Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. After a moment, signal for their attention and ask:

- Q *What did your partner write about today?*
- Q *What did you and your partner do to work well together when talking and sharing your writing?*

# Day 2

## Exploring Poetry

### Materials

- “Lullaby” (see page 638)
- “lawnmower” (see page 639)
- “Notes About Poems” chart from Day 1
- *Student Writing Handbook* pages 39–40
- “Writing Time” chart (WA2)

### In this lesson, the students:

- Hear and discuss poems
- Explore sensory details in poems
- Quick-write ideas for poems about objects
- Explore personification
- Speak clearly and listen to one another
- Discuss and solve problems that arise in their work together

### LITERARY CONCEPTS IN GRADE 4

In this unit, the students explore the literary concepts that follow. This work prepares them for more formal instruction about literary terms in poetry in subsequent grades. While we encourage you to introduce the students to literary terms where appropriate, having the students use the terms themselves is not a focus of this unit. The formal definitions below are for your reference; within the lessons we suggest alternative, student-friendly definitions to use with your class.

- *alliteration*: repeating consonant sounds at the beginning of successive words (“Sing a song of sixpence.”)
- *metaphor*: direct or indirect assertion that a thing is something else (“Life is a broken-winged bird that cannot fly.”)
- *onomatopoeia*: representing something using words that imitate the sounds associated with it (*splash, pitter-patter, tick-tock*)
- *personification*: endowing a thing or an animal with human characteristics (“The wind stood up and gave a shout.”)
- *repetition*: repeating words or sounds for poetic effect (“Bells, bells, bells”)
- *rhyme*: words ending with the same sound (*twinkle* and *sprinkle*)
- *rhythm*: pattern of stresses and pauses in a poem
- *simile*: a comparison of two things, connected by words such as *like* or *as* (“My love is like a red, red rose.”)

# GETTING READY TO WRITE

## 1 Briefly Review Poetry

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Review that yesterday the students began exploring poetry. They read the poem “Feeling Ill” and brainstormed lines for other “feeling” poems. Briefly review the items on the “Notes About Poems” chart. Remind the students that you will add items to the chart throughout the unit.

## 2 Read and Discuss “Lullaby”

Tell the students that you will read aloud a poem called “Lullaby” by Kristine O’Connell George. Ask the students to close their eyes and create a picture in their minds as they listen to the poem. Then read “Lullaby” on page 638 (including the title) aloud twice, slowly and clearly. Clarify vocabulary during the first reading.

### Suggested Vocabulary

**patter:** walk softly with small steps

Have the students open their eyes; then ask:

**Q** *What did you hear that helps you imagine the tree in your mind?*

Ask the students to open to *Student Writing Handbooks* page 39, where “Lullaby” is reproduced. Explain that in the poem the poet writes about the tree as if it were a person and that writing about things in this way is called *personification*.

Ask the students to reread the poem silently to themselves and, as they read, to look for places where the author writes about the tree as if it were a person. When the students have finished reading, ask:

**Q** *What examples of personification do you notice? What words does the poet use to write about the tree as if it were a person?*

#### Students might say:

“She says the tree sighs.”

“In addition to what [Tremaine] said, the poet calls the tree ‘she’ instead of ‘it.’”

“She says the tree ‘rocks her birds to sleep.’”

## 3 Read and Discuss “lawnmower”

Tell the students that the other poem you will read today is called “lawnmower” by Valerie Worth. Ask the students to turn to *Student Writing Handbook* page 40, where “lawnmower” is reproduced. Explain that “lawnmower” is another poem that uses personification. Ask

Step 2)

### Teacher Note

To review the procedure for defining vocabulary during the read-aloud, see Unit 1, Week 1, Day 1, Step 3 (page 8). For more information, view “Introducing Vocabulary During a Read-aloud” (AV30).

### Facilitation Tip

During this unit, we invite you to practice **asking questions once** and then waiting. This means not repeating the question or asking it again a different way; it means just asking the question once and then **using wait-time** for the students to think before calling on anyone to respond. If students are confused by a question or need to hear it again, have them ask you to repeat or rephrase the question. This builds student responsibility for focusing on the discussion and helps them develop the habit of listening the first time. To see this Facilitation Tip in action, view “Asking Questions Once and Using Wait-time” (AV28).

the students to follow along as you read the poem and look for places where the poet writes about the lawnmower as if it were a person. Read “lawnmower” on page 639 (including the title) aloud twice, slowly and clearly. Clarify vocabulary during the first reading.

### Suggested Vocabulary

**grinds:** rubs together hard

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**lawnmower:** machine that cuts grass

**spitting:** tossing out from the mouth

Ask and briefly discuss:

- Q *What examples of personification did you notice? What words does the poet use to write about a lawnmower as if it were a person?*
- Q *What sensory details do you notice in this poem that help you imagine what’s happening?*

#### Students might say:

“The poet says the lawnmower has teeth and a head, and that it spits.”

“I agree with [Jana]. It says that the lawnmower doesn’t know what it’s throwing away.”

“The words ‘thick, green spray’ helped me picture what the grass looks like when the mower spits it out.”

“At the end, the words ‘soft, delicious’ helped me imagine what the grass might feel and taste like.”

### ELL Note

If necessary, simplify this question by rephrasing it in the following way:

- Q *Look around the classroom. We could write a poem about the pencil sharpener. What else could we write a poem about?*

### Teacher Note

Objects in the classroom might include staplers, scissors, pencils or pens, books, pencil sharpeners, the clock, and personal belongings, such as hats, shoes, and lunchboxes.

## 4 Quick-write: Ideas for Poems About Objects

Remind the students that in the poems “Lullaby” and “lawnmower” the poets write about objects as if they were people. Ask and have the students think quietly to themselves about the following question:

- Q *If you were going to write a poem about an object in the classroom, what might it be?*

Ask the students to get the objects they are thinking about and carry them back to their seats with their writing materials. (If students select the same object, you might have those students move to sit together.) Have students who are not able to carry their objects back to their seats sit where they can see the objects. Tell the students that you would like them to look carefully at the objects they selected and to think about the following questions:

- Q *What sensory details might you use to describe what your object looks like? Sounds like? Smells like? Feels like?*

**Q** *If your object came to life, what might it do?*

After the students have had a chance to think, signal for their attention. Have them open to the next blank page in their notebooks, write the name of the object at the top of the page, and quick-write some ideas for what they could include in a poem about that object.

Have the students write for 3–4 minutes; then call for their attention and have a few volunteers share their ideas with the class. After sharing, ask the students to resume writing for a few more minutes.

Call for the students' attention and have a few volunteers share what they wrote.

**Students might say:**

"My object is a stapler. I wrote that it is long, gray, and cold, and that it chews through a sheet of paper."

"I wrote that my pencil is wearing a yellow jumpsuit and dances around on the paper."

Direct the students' attention to the "Notes About Poems" chart and add *Poems can be about anything* and *You can write about an object as if it were a person (personification)*.

Explain that during Writing Time today the students may continue what they started during the quick-write, continue writing "feeling" poems with lines that begin with verbs ending with *-ing* (from Day 1), or write about anything they choose.

## WRITING TIME

### 5 Write Independently

Have the students sit at desks with partners together. Display the "Writing Time" chart (WA2) and have the students write silently for 20–30 minutes.

#### Writing Time

- Continue writing what you started during the quick-write.
- Continue to write "feeling" poems.
- Write about anything you choose.

WA2

Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

Signal to let the students know when Writing Time is over.

#### **ELL Note**

English Language Learners may benefit from drawing their ideas before they write. Encourage them to draw what they want to write about and to talk quietly with you or a partner about what they drew. If necessary, write down key words and phrases they want to use so they can copy the words into their writing.

## SHARING AND REFLECTING

### 6 Share Writing and Reflect

Ask partners to talk together briefly about what they wrote today. After a moment, signal for their attention and ask:

- Q *What did your partner write about today?*
- Q *Did you or your partner write about an object? Read us what you wrote.*
- Q *What problems did you and your partner have working together today? What will you do to avoid those problems next time?*

# Day 3

## Exploring Poetry

### Materials

- “Windy Nights” (see page 640)
- “Notes About Poems” chart from Day 2
- *Student Writing Handbook* pages 38–41
- “Writing Time” chart (WA3)
- “Class Assessment Record” sheet (CA1)

### ELL Note

You might provide the prompt “I notice . . .” to your English Language Learners to help them verbalize their responses to this question.

### In this lesson, the students:

- Hear and discuss poems
- Explore rhyme and sensory details in poems
- Explore personification and alliteration in poems
- Quick-write ideas for poems about weather

## GETTING READY TO WRITE

### 1 Discuss Rhyme in Poetry

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Review that this week the students have been exploring poetry and that they read and heard three poems (“Feeling Ill,” “Lullaby,” and “lawnmower”). Have the students open to *Student Writing Handbook* page 38. Explain that you would like the students to read the poems and notice which of the poems have words that rhyme. Then give the students a few minutes to read the poems. Ask:

- Q *Which of the poems have words that rhyme? Why do you say that?*

If necessary, point out that “lawnmower” has words that rhyme (*spray*, *away*, and *hay*) and so does “Lullaby” (*cheep* and *sleep*). Explain that some people think that poems must rhyme, but, in fact, some poems rhyme and some do not. Point out that “Feeling Ill” has no words that rhyme. On the “Notes About Poems” chart, add *Some poems rhyme and some don’t*.

Briefly review other items on the chart and ask the students to listen for rhymes and the other things listed as they hear a new poem today.

## 2 Read and Discuss “Windy Nights”

Tell the students that you will read aloud a poem called “Windy Nights” by Rodney Bennett. Ask the students to close their eyes and imagine what is happening in the poem as they listen.

Read “Windy Nights” (including the title) aloud once, slowly and clearly.

### ELL Vocabulary

English Language Learners may benefit from having the following vocabulary defined:

**chimneys:** parts of a house that let smoke out from the fireplace

**rude:** not polite

Have the students open their eyes. Ask them to open to *Student Writing Handbook* page 41, where “Windy Nights” is reproduced and then reread the poem to themselves. After a moment, ask:

**Q** *What do you notice about how this poet writes about the wind?*

#### Students might say:

“He writes as if the wind is alive.”

“I agree with [Levi]. The poet says the wind is ‘rude.’ Usually you would call a person rude but not the wind.”

“In addition to what [Anita] said, he uses the word *racing*. That makes you think of someone running.”

As the students share, refer to any items they mention on the “Notes About Poems” chart, if appropriate.

## 3 Discuss the Way Words Sound in the Poem

Ask the students to read the poem aloud with you, paying attention to the way the words sound as they read. Read the poem aloud; then ask:

**Q** *What rhyming words do you notice in this poem?*

**Q** *What sound at the beginning of words do you notice over and over in this poem?*

**Q** *Why do you think the poet included so many words that have the /r/ sound in this poem? Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

#### Students might say:

“I notice that the last words in the second and fourth lines rhyme.”

“All the /r/ sounds make you think the wind is really blowing hard and tearing everything up.”

Explain that the repetition of beginning sounds, such as /r/ in this poem, is called *alliteration*. Point out that poets may use alliteration to make poems sound like what they are about—in this case, the wind.

**TEKS 10.D.iv**  
Student/Teacher Activity  
Step 3 (discussion questions)

**TEKS 10.D.iv**  
Student/Teacher Narrative  
Step 3 (last paragraph on page 625  
and the first paragraph on page 626)

On the “Notes About Poems” chart, add *Repetition of beginning sounds (alliteration) can help a poem sound like what it is about.*

## 4 Quick-write: Ideas for Poems About Weather

Ask and briefly discuss:

**Q** *If you were going to write a poem like “Windy Nights” about another kind of weather, what kind of weather might you write about?*

**Students might say:**

“rain”

“snow”

“tornadoes”

“a hot, sunny day”

“foggy days”

Ask the students to open to the next blank page in the writing section of their notebooks and write the name of the type of weather they are thinking about at the top of the page. Have them think quietly to themselves about the questions that follow as you ask them, one at a time:

**Q** *What sensory details might you use to describe this type of weather?*

**Q** *How might you write about this type of weather as if it were a person?*

After the students have had a chance to think, have partners share their thinking. After a moment, signal for their attention and have them quick-write some ideas for what they could include in a poem about the weather.

Have the students write for 3–4 minutes; then call for their attention and have a few volunteers share their ideas with the class. After sharing, ask the students to resume writing for a few more minutes.

Call for the students’ attention and have a few volunteers share what they wrote.

**Students might say:**

“I wrote about a hot, dry day. I want to describe things you would find in the desert, like a cactus or sand.”

“I thought about rain. I think I would want to use words like *splash*, *slosh*, and *pitter-patter*.”

“I thought about a tornado. I’m going to write about how it tears up everything in its path.”

Explain that during Writing Time today the students may continue what they started during the quick-write, continue writing ideas for poems about objects or feelings, or write about anything they choose.

### ELL Note

If necessary, simplify this question by rephrasing it in the following way:

**Q** *If this type of weather were a person, what might it do?*

## WRITING TIME

### 5 Write Independently

Have the students sit at desks with partners together. Display the “Writing Time” chart (🗨️ WA3) and have the students write silently for 20–30 minutes.

#### Writing Time

- Continue writing what you started during the quick-write.
- Continue to write about objects or feelings.
- Write about anything you choose.

WA3

Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students seem to be writing freely and creatively?
- Are they engaged in their writing?
- Do they seem overly cautious or inhibited about what they put on paper?

After about 10 minutes, support any student who struggles to start by asking questions such as:

- Q *What kind of weather could you write about?*
- Q *What sensory details can you write to describe what [a windy day] sounds like? Looks like? Feels like?*
- Q *What does [wind] sound like? What words make you think of the sound of [wind]?*

Record your observations on the “Class Assessment Record” sheet (CA1); see page 152 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 6 Share Writing and Reflect

Ask partners to talk briefly together about what they wrote today. After a moment, signal for their attention and ask:

- Q *What did your partner write about today?*
- Q *Did you or your partner write about weather? Read us what you wrote.*

Explain that all of the students will start writing poems tomorrow, and they will continue to draft poems during the coming week. Tell them that they will eventually select one of their drafted poems to improve, revise, and publish in a class collection of poetry.

# Day 4

## Exploring Poetry and Pair Conferring

### Materials

- “Up and Down” (see page 641)
- “Egg” (see page 642)
- “Windy Nights” from Day 3 (see page 640)
- “Lullaby” and “lawnmower” from Day 2 (see pages 638–639)
- “Feeling Ill” from Day 1 (see page 637)
- *Student Writing Handbook* pages 38–43
- “Notes About Poems” chart from Day 3
- Class set of “Conference Notes” record sheets (CN1)

### In this lesson, the students:

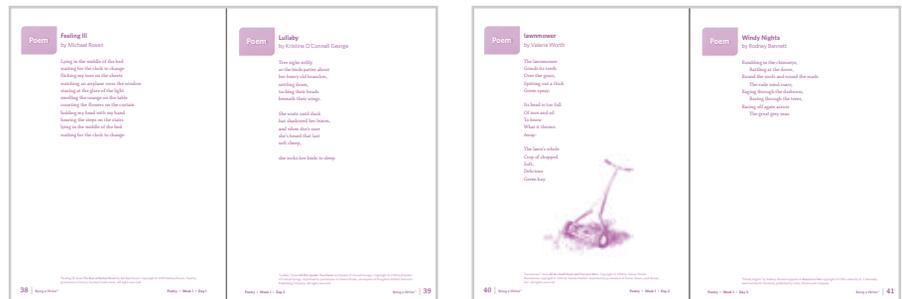

- Hear, discuss, and write poems
- Think about what poems look like on the page
- Explore sensory details in a poem
- Express interest in and appreciation for one another’s writing

## GETTING READY TO WRITE

### 1 Explore Form in Poetry

Have the students get their *Student Writing Handbooks* and sit at desks with partners together. Review that this week they read the poems “Feeling Ill,” “Lullaby,” “lawnmower,” and “Windy Nights” and thought about what makes a poem a poem. Tell the students that one thing that makes a poem a poem is its *form*, or what it looks like on the page.

Explain that you would like one partner in each pair to open her *Student Writing Handbook* to pages 38–39, while the other partner opens his handbook to pages 40–41. By laying the books side by side, the students in each pair should be able to see all four poems from this week.

Ask:

- Q *What do you notice about how these poems look on the page?*
- Q *In what ways do they look similar? In what ways do they look different?*

Point out that some poems have short lines (as in “lawnmower”), some have longer lines (as in “Feeling Ill”), and some have both (as in “Lullaby”)

and “Windy Nights”). Also point out that some poems have *stanzas*, or sections separated by a space, while others do not. Ask:

**Q** *What do you notice about the stanzas in “lawnmower”?*

**Students might say:**

“I notice that the poem has three stanzas.”

“In addition to what [Wen] said, each stanza has five lines.”

Direct the students’ attention to the “Notes About Poems” chart, and add *Poems can have short or long lines*, *Some poems have stanzas*, and *Some poems have the same number of lines in each stanza*.

## 2 Read and Discuss “Up and Down” and “Egg”

Tell the students that you will read a poem called “Up and Down” by Douglas Florian aloud. Invite the students to listen for sounds and images that help them imagine what is happening in the poem. Ask the students to close their eyes and listen as you read the poem aloud.

Read “Up and Down” on page 641 (including the title) aloud once, slowly and clearly. Clarify vocabulary during the first reading.

### Suggested Vocabulary

**for later referral:** to get later

### ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

**jay:** kind of bird

**buries:** puts in the ground

Have the students open their eyes. Ask them to open to *Student Writing Handbook* page 42, where “Up and Down” is reproduced, and then read the poem to themselves. Ask:

**Q** *What sensory details are included in this poem? Turn to your partner.*

**Q** *What do you notice about how this poem looks on the page? Turn to your partner.*

**Q** *What else do you notice about this poem?*

**Students might say:**

“The word *screeching* really makes me hear that bird!”

“Where it says ‘Up in a tree’ the words go up on the page.”

“I agree with [Tori]. Also, the word *down* goes down on the page.”

“All the lines are pretty short.”

“It has some rhymes in it—*jay* and *away*, and *squirrel* and *referral*.”

Point out that poets sometimes arrange words or letters in unusual ways to help communicate what the poem is about. On the “Notes About Poems” chart, add *Some poems have words or letters placed on the page in unusual ways.*

Ask the students to turn to page 43 of their handbooks and follow along as you read “Egg” by Kristine O’Connell George aloud. Read “Egg” on page 642 (including the title) aloud slowly and clearly; then ask:

**Q** *What do you notice about the shape of this poem? Why do you think the poet did that?*

**Students might say:**

“The poet is writing a poem about eggs in an egg shape!”

“She probably wants us to see the egg when we read the poem.”

Point out that poets think carefully about what their poems look like on the page and that the shape of a poem can help the reader understand what the poem is about. On the “Notes About Poems” chart, add *A poem’s shape can help the reader understand what it’s about.*

Explain that today you would like each student to pick one of the five poems they read this week and try writing a poem that looks similar to it on the page. Encourage them to write poems using their quick-write ideas from earlier in the week. They may also write poems about any other topics they choose. Review the items on the “Notes About Poems” chart and encourage the students to use some of these ideas in their poems. Tell the students that you will give them a chance to share their writing with their partners at the end of Writing Time.

## WRITING TIME

### 3 Draft Poems in the Students’ Notebooks

Have the students write poems silently for 20–30 minutes. If necessary, remind them to write their drafts, double-spaced, in their notebooks. Join the students in writing for a few minutes; then begin conferring with individual students.

### TEACHER CONFERENCE NOTE

Over the coming days, confer with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in his poem?
- Does the student include other elements of poetry?

*(continues)*

### Teacher Note

You may want to shorten today’s Writing Time to leave more time for the pair conferences in Step 4.

### Teacher Note

To see an example of a teacher conferring with individual students, view “Conferring About Poetry” (AV54).

## TEACHER CONFERENCE NOTE *(continued)*

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 154 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Confer in Pairs About Poems

Gather the class with partners sitting together, facing you. Explain that partners will read what they wrote today to each other and confer about it. Ask:

- Q *What would you like your partner to do to show that he or she is interested in your writing and your creative ideas?*

#### Students might say:

- "I would like my partner to listen as I read my poem."
- "I would like my partner to ask me questions about the poem."
- "I would like my partner to tell me the part she likes."
- "I would like my partner to notice the sensory details I used."

Have partners share their writing with each other.

Observe the students closely and provide sufficient time for both partners to share their writing before signaling for their attention.

### 5 Reflect on Pair Conferences and Poems

Help the students reflect on their work today by asking questions such as:

- Q *What did your partner do to show interest in your writing and creative ideas?*
- Q *What did you do to show interest in your partner's writing?*
- Q *What sensory details did your partner include in his or her poem? What did you imagine from those details?*
- Q *Did you or your partner place letters or words on the page in unusual ways? Tell us about that.*

### Teacher Note

If necessary, signal to the students about halfway through sharing time so partners can switch roles if they have not yet done so.

## Teacher Note

Prior to doing this activity, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print “Sometimes Poems” by Judith Viorst (BLM2). Make enough copies for each student to have one; set aside a copy for yourself.

## EXTENSION

### Read and Discuss “Sometimes Poems”

Tell the students that you will read a poem called “Sometimes Poems” by Judith Viorst aloud. Distribute a copy of “Sometimes Poems” (BLM2) to each student and ask the students to follow along as you read it aloud. Read the poem aloud, slowly and clearly. Ask:

- Q *What do you notice about the shape of this poem?*
- Q *What happens in this poem? How does the poem’s shape help us understand what happens?*

#### Students might say:

“Where it says ‘sometimes poems are short and fat,’ the poem looks short and fat.”

“I agree with [Rocky]. But the poems she writes are tall and thin, so the poem looks tall and thin. There’s only one word on each line.”

“In addition to what [Fiona] said, she accidentally sits on a poem, so that part’s written sideways like it’s squashed.”

Remind the students that the shape of a poem and the way the letters and words are arranged on the page can help readers understand what the poem is about. Encourage them to try writing shape poems and to experiment with different arrangements of letters and words on the page.

# Day 5

## Exploring Poetry

### Materials

- “Crickets” (see page 643)
- “Notes About Poems” chart from Day 4
- *Student Writing Handbook* page 44
- “Animals and Things That Make Noise” chart (WA4)

### In this lesson, the students:

- Hear, discuss, and write poems
- Explore how repetition, onomatopoeia, and shape function in a poem
- Explore sensory details in a poem
- Quick-write ideas for poems about animals and things that make noise

## GETTING READY TO WRITE

### 1 Explore Elements of Poetry

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Review that the students have been thinking about sensory details and sounds in poems, as well as what poems look like on the page. Ask the students to open their notebooks and briefly review the poems they have written. Ask and briefly discuss:

- Q *What is an interesting sensory detail you have written? Read that detail aloud to us.*
- Q *What sounds have you intentionally included in a poem? Read us a few words with those sounds.*
- Q *What decisions have you made about what a poem looks like on the page? Show us the poem and tell us about your decisions.*

## 2 Read and Discuss “Crickets”

Ask the students to open to *Student Writing Handbook* page 44 and follow along quietly as you read the poem “Crickets” by Myra Cohn Livingston aloud. Invite them to think about what the poet might be trying to do in the poem.

Read “Crickets” aloud, slowly and clearly; then read the poem aloud again, this time having the students read aloud with you. Ask and briefly discuss:

- Q *What do you notice about this poem? Turn to your partner.*
- Q *How does the way the words are placed on the page help you to understand what it’s about?*
- Q *What does this poem sound like? How does the poet create that sound?*

### Students might say:

“I notice that the poem has two sides. It makes you think that crickets are talking to each other.”

“The two columns of words in the poem look like a cricket’s antennae.”

“Words like *tick* and *click* sound like the sounds crickets make.”

“In addition to what [Xavier] said, I notice she repeats words over and over. That makes it sound more like crickets chirping.”

Point out that the poet repeats sounds like /t/ and /k/, as well as entire words and phrases such as *time*, *tick*, *night*, and *they tell* to make this poem sound like what it is about—crickets chirping. Explain that repeating entire words or phrases in poems is called *repetition*.

Point out that another way this poet makes the poem sound like what it is about is by using words like *tick* and *click*, which sound like a cricket’s chirp. Explain that words like *tick* and *click* are examples of *onomatopoeia*, and that onomatopoeia is “the use of words that sound like what they are describing.” On the “Notes About Poems” chart, add *Poets may repeat words or phrases to create sound in poems (repetition)* and *Poems can include words that sound like what the poem is about (onomatopoeia)*.

**TEKS 10.D.iv**  
Student/Teacher Activity  
Step 2 (all)

### Teacher Note

For more practice with onomatopoeia, see the extension “Explore Onomatopoeia” on page 636.

### ELL Note

If necessary, simplify this question by rephrasing it in the following way:

**Q** *Crickets are animals that make noise. What is another animal that makes noise? What else can you think of that makes noise?*

## **3** Quick-write: Ideas for Poems About Animals and Things That Make Noise

Ask and have the students think quietly to themselves about the following question:

**Q** *“Crickets” is a poem about an insect that makes noise. If you were going to write a poem about an animal or thing that makes noise, what might you write about?*

After giving the students a moment to think, display the “Animals and Things That Make Noise” chart ( WA4) and call on a few volunteers to share their thinking with the class. As the students share, record their ideas on the chart.

When there are two or three ideas on the chart, have the students each open to the next blank page in their notebooks and list more things that move or make noise that they could write a poem about.

After about 5 minutes, call for the students’ attention and have a few more volunteers share their thinking with the class. Continue to add their ideas to the “Animals and Things That Make Noise” chart.

### **Animals and Things That Make Noise**

- snake
- a barking dog
- birds chirping
- the fire alarm
- an ambulance
- TV

WA4

Explain that during Writing Time today the students will continue to write poems. Encourage them to write poems about animals or other things that make noise and to include repetition in their poems if they can. Briefly review the “Notes About Poems” chart and encourage the students to think about including sensory details, shapes, and sounds to help readers understand what the poem is about.

## **WRITING TIME**

### **4** Write Independently

Have the students return to their seats and write poems silently for 20–30 minutes. Join them in writing for a few minutes; then confer with individual students.

## TEACHER CONFERENCE NOTE

Continue to confer with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in her poem?
- Does the student include other elements of poetry?

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *Where might you use repetition? How might that help a reader understand your poem? What other sounds are you including?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 154 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Creativity

Tell the students that poets must tap into their creativity to write poems that readers can imagine and enjoy. Explain that *creativity*, or the ability to create something new or to recreate something familiar in a new way, helps poets write unique poems about ordinary things like eggs and lawnmowers.

Ask the students to review the poetry they wrote today and to choose one line to share with the class. Encourage each student to choose a line he likes or that he believes shows his creativity. After a moment, go around the room and have each student read his line aloud, without comment.

After the students have read their lines, facilitate discussion among the students by asking questions such as:

- Q *What lines did you hear that got your imagination going?*
- Q *What words did you hear that made you feel as if you could sense what was being described?*
- Q *What questions do you want to ask a classmate about his or her writing?*

Explain that the students will continue to work on poems during the coming week.

### Teacher Note

To see an example of this technique, view "Sharing One Line and Reflecting" (AV56).

---

## EXTENSIONS

### Explore Sensing Like a Poet

Collect objects that make sounds; that have interesting shapes, colors, or textures; or that have unique smells or tastes. Have the students handle, listen to, smell, taste, and/or feel the objects and brainstorm words to describe what they are sensing. Chart the brainstormed words and invite the students to write poems about the objects using the words.

### Explore Onomatopoeia

Remind the students that they heard the poem “Windy Nights” earlier. Explain that in addition to using alliteration to create the sound of wind, the poet also uses onomatopoeia, or words that sound like what they are describing. Tell the students that you will read “Windy Nights” aloud again and that as you read, you want them to listen for words that are examples of onomatopoeia. Read the poem aloud, emphasizing the words *rumbling*, *rattling*, and *roars*. Ask:

**Q** *What words did you hear in the poem that are examples of onomatopoeia?*

Have volunteers share their thinking. If necessary, point out that *rumbling*, *rattling*, and *roars* are examples of onomatopoeia. Tell the students that by using words like these, the poet helps us imagine what the poem is about.

## Feeling Ill

by Michael Rosen

Lying in the middle of the bed  
waiting for the clock to change  
flicking my toes on the sheets  
watching an airplane cross the window  
staring at the glare of the light  
smelling the orange on the table  
counting the flowers on the curtain  
holding my head with my hand  
hearing the steps on the stairs  
lying in the middle of the bed  
waiting for the clock to change.

## Lullaby

by Kristine O'Connell George

Tree sighs softly  
as the birds patter about  
her heavy old branches,  
settling down,  
tucking their heads  
beneath their wings.

She waits until dusk  
has shadowed her leaves,  
and when she's sure  
she's heard that last  
soft cheep,

## lawnmower

by Valerie Worth

The lawnmower  
Grinds its teeth  
Over the grass,  
Spitting out a thick  
Green spray;

Its head is too full  
Of iron and oil  
To know  
What it throws  
Away:

The lawn's whole  
Crop of chopped  
Soft,  
Delicious  
Green hay.

## Windy Nights

by Rodney Bennett

Rumbling in the chimneys,  
Rattling at the doors,  
Round the roofs and round the roads  
The rude wind roars;  
Raging through the darkness,  
Raving through the trees,  
Racing off again across  
The great grey seas.

# Week 2

## OVERVIEW

### Poems

#### “Over My Toes”

by Michael Rosen (see page 664)

Listen to the sea washing over toes in this poem.

#### “cow”

by Valerie Worth (see page 665)

The poet uses similes to describe a moving cow.

### Excerpts

#### “Poet Quotes: What Is Poetry?”

(see page 666)

Professional poets discuss what poetry is to them.

## TEACHER AS WRITER

### *Rain*

*Like a drummer's brush,  
the rain hushes the surface of tin  
porches.*

— Emanuel di Pasquale

Read the poem above aloud and listen to the sounds of the words. Notice how the sounds of the words support the meaning of the poem.

This week try writing some short poems that include words with sounds that support the meaning of your poem. If helpful, use the poem above as a model. Here's an example of a poem modeled on "Rain":

### *Wind*

*Like a magician's whip,  
the wind whistles and flaps the  
white sheets.*

### Writing Focus

- Students hear, discuss, and write poems.
- Students explore alliteration and repetition in poems.
- Students explore similes in poems.
- Students review their poetry drafts and select one to revise, proofread, and publish.
- Students revise their poems, thinking about images, sound, and form.
- Students explore intentionally breaking punctuation and capitalization rules in poetry.

### Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students help one another improve their writing.
- Students express interest in and appreciation for one another's writing.

## DO AHEAD

- ✓ Prior to Day 3, make a copy of the "Class Assessment Record" sheet (CA2) on page 153 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit's family letter (BLM1). Make enough copies to send one letter home with each student's published piece.
- ✓ (Optional) If computers are available, you might have some students type and print out their poems. You can also recruit parent volunteers to help the students do so. In addition, you might teach Technology Mini-lesson 10, "Creating Presentations," in Appendix A to help the students learn how to use visuals to enhance their poems.

### Materials

- “Over My Toes” (see page 664)
- “Notes About Poems” chart from Week 1
- *Student Writing Handbook* page 45

### In this lesson, the students:

- Hear, discuss, and write poems
- Explore how alliteration and repetition function in a poem

## GETTING READY TO WRITE

### 1 Briefly Review Poetry

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Remind the students that they have been exploring poetry and that last week they thought about sensory details, alliteration, repetition, and onomatopoeia in poems, as well as what poems look like on the page.

As you did last week, have the students briefly review the poems they have written; then ask and briefly discuss:

- Q *What is an interesting sensory detail you have written? Read that detail aloud to us.*
- Q *What is a sound you have intentionally included in a poem? Read us a few words with that sound.*
- Q *What decisions have you made about what a poem looks like on the page? Show us the poem and tell us about your decisions.*
- Q *Where is a place you used repetition? Read that part to us. Why did you decide to repeat those words?*

### 2 Read and Discuss “Over My Toes”

Tell the students that you will read another poem aloud today called “Over My Toes” by Michael Rosen. Briefly review the “Notes About Poems” chart and ask the students to notice how the poet includes some of the items on the chart in this poem.

Ask the students to close their eyes and listen as you read the poem aloud. Read “Over My Toes” on page 664 (including the title) aloud once, slowly and clearly.

Have the students open their eyes and turn to *Student Writing Handbook* page 45, where “Over My Toes” is reproduced. Read the poem aloud again, this time having the students read it aloud with you. Ask and briefly discuss:

- Q *What is this poem about? Turn to your partner.*
- Q *What does this poem sound like? How does the poet create that sound?*

**Students might say:**

"This poem is about being at the beach with your toes in the sand and water."

"The poet uses alliteration by repeating the /s/ sound. It's like you can hear the ocean."

"The repetition in the poem reminds me of waves washing up on the beach again and again."

As the students mention items that appear on the "Notes About Poems" chart, point them out.

Explain that during Writing Time today the students will continue to write poems. Encourage them to think about the sounds of their words and to try including repetition to help readers imagine what the poem is about. Remind the students to refer to the "Notes About Poems" chart as they write.

## WRITING TIME

### 3 Write Independently

Have the students sit at desks with partners together. Have them write poems silently for 20–30 minutes. Join the students in writing for a few minutes; then confer with individual students.

### TEACHER CONFERENCE NOTE

As you did last week, confer with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in his poem?
- Does the student include other elements of poetry?

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *Where might you use repetition? How might that help a reader understand your poem? What other sounds are you including?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 154 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

### Facilitation Tip

Continue to practice **asking questions once** without repeating or rewording them and then **using wait-time**. Notice the effect this has on the students' attentiveness during class discussions.

## Day 2

### Materials

- “cow” (see page 665)
- “Notes About Poems” chart from Day 1
- *Student Writing Handbook* page 46

## SHARING AND REFLECTING

### 4 Reflect on Creativity

Have the students review the poems they wrote today and each choose one line to share with the class. Encourage each student to choose a line that she believes shows her creativity. After a moment, go around the room and have each student read her line aloud, without comment.

After the students have read their lines, facilitate discussion among the students by asking:

- Q *What lines did you hear that got your imagination going?*
- Q *What questions do you want to ask a classmate about his or her writing?*

Explain that the students will confer in pairs about their poems tomorrow.

## Exploring Poetry and Pair Conferring

### In this lesson, the students:

- Hear, discuss, and write poems
- Explore similes in a poem
- Confer in pairs about poems
- Express interest in and appreciation for one another's writing

## GETTING READY TO WRITE

### 1 Explore Elements of Poetry

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Have the students briefly review the poems they have written; then ask and briefly discuss:

- Q *What is an interesting sensory detail you have written? Read that detail aloud to us.*
- Q *What is a sound you have intentionally included in a poem? Read us a few words with that sound.*
- Q *What decisions have you made about what a poem looks like on the page? Show us the poem and tell us about your decisions.*
- Q *Where is a place you used repetition? Read that part to us. Why did you decide to repeat those words?*

## 2 Read and Discuss “cow”

Explain that you will read another poem aloud today called “cow” by Valerie Worth. Briefly review the “Notes About Poems” chart and ask the students to notice how the poet includes some of the items on the chart in this poem.

Have the students close their eyes and listen as you read the poem aloud. Read “cow” on page 665 (including the title) aloud once, slowly and clearly.

### Suggested Vocabulary

**jut:** stick out

Have the students open their eyes. Ask them to open to *Student Writing Handbook* page 46, where “cow” is reproduced. Ask the students to read the poem to themselves. Then ask and briefly discuss:

**Q** What do you notice about this poem? Turn to your partner.

**Q** According to this poet, how does a cow move?

If necessary, point out that this poet says the cow moves like a mountain. Ask:

**Q** What words does this poet use to help us imagine this cow moving like a mountain?

#### Students might say:

“The poet talks about how ‘her hipbones jut like sharp peaks’ of mountains.”

“It says her ‘hoofs thump like dropped rocks.’ I can hear the cow’s hooves going ‘thump, thump, thump’ as she walks.”

Explain that poets often compare one thing to another in poems, and explain that when you compare one thing to another using the words *like* or *as*, it is called a *simile*.

On the “Notes About Poems” chart, add *Poets often use simile (compare one thing to another using the word like or as)*.

## 3 Brainstorm Other Animal Similes

Ask and briefly discuss:

**Q** If a cow moves like a mountain, what kind of animal might move like a river? A train? A rock? A yo-yo?

#### Students might say:

“A snake is long and winding, like a river.”

“I think a horse runs like a train. Really fast!”

“Turtles are like rocks. They just sit there. They don’t move around much at all.”

“Maybe chimpanzees move like yo-yos. They swing from branches and go up and down.”

### Teacher Note

You may want to shorten today's Writing Time to leave more time for the pair conferences in Step 5.

Explain that during Writing Time today the students will continue to write poems. Encourage them to include some of their ideas about how animals move in their poems. Tell the students that you will give them a chance to share their writing with their partners at the end of Writing Time.

Briefly review the “Notes About Poems” chart and encourage the students to refer to the chart as they write today.

## WRITING TIME

### 4 Write Independently

Have the students return to their seats and write poems silently for 20–30 minutes. Join them in writing for a few minutes; then confer with individual students.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in her poem?
- Does the student include other elements of poetry?

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *Where might you use repetition? How might that help a reader understand your poem? What other sounds are you including?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 154 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Confer in Pairs About Poems

Gather the class with partners sitting together, facing you. Explain that each student will choose one poem to read to his partner today and that you would like the listening partner to close her eyes and try to get a picture in her mind as she listens to the poem. After hearing the poems, the students will tell their partners what they imagined as they listened. Ask:

- Q *How will you read your poem so your partner is able to get a picture in his or her mind?*
- Q *What kinds of things will you listen for to help you get a picture in your mind?*

**Students might say:**

"I will read my poem slowly so my partner can think about the words."

"I will listen for sensory details, like what things look like or sound like."

Encourage the students to read their poems aloud more than once, if necessary. Have partners share their writing.

Observe the students closely and provide sufficient time for both partners to share their poems before signaling for their attention.

### 6 Reflect on Pair Conferences and Poems

Help the students reflect on their work today by asking:

- Q *What picture did you get in your mind as you listened to your partner's poem today?*
- Q *What did you do to show interest in your partner's writing?*

Tell the students that tomorrow they will each choose one poem to revise and publish in a class book.

#### Teacher Note

If necessary, signal to the students about halfway through sharing time so partners can switch roles if they have not yet done so.

#### Teacher Note

The end-of-lesson reflection is important to the students' growth as writers and to their social development. We encourage you to allow at least 5 minutes at the end of each period to help the students reflect on their work and interactions. For more information about social development, see "Values and Social Skills" on page xxviii. You may also view "Social Reflection" (AV14).

# Day 3

## Selecting and Revising Drafts

### Materials

- “Notes About Poems” chart from Day 2
- Pad of small (1½" × 2") self-stick notes for each student
- “Writing Time” chart (WA5)
- “Class Assessment Record” sheet (CA2)

### TEKS 12.A.ii

Student/Teacher Activity  
Step 2 and Step 3 (all, beginning on page 652 and continuing on to page 653)

### Teacher Note

The purpose of this guided rereading is to give the students experience with critically reading and thinking about their drafts *before* beginning to revise. Note that some students will not be finished with their drafts and will need time in the coming days both to complete and revise them.

### In this lesson, the students:

- Review their poetry drafts and select one to develop and publish
- Reread their writing critically
- Analyze and revise for images, sounds, and form
- Ask one another questions about their writing

## GETTING READY TO WRITE

### 1 Review and Select Drafts

Have the students stay in their seats. Review that the students have been writing drafts of poems, and explain that today they will look through all their drafts and select one to develop for publication in a class book.

Remind the students that they have been thinking about what makes a poem a poem. Direct their attention to the “Notes About Poems” chart and review the items on it. Ask and briefly discuss:

**Q** *As you’re looking through your poems, what might you want to look for to help you decide on one to develop?*

#### Students might say:

“I want to look for a poem that has some good sensory details.”

“I wrote some poems with interesting sounds. I think I’ll pick one of those.”

“I want my poem to be different from everyone else’s, so I’m going to look for one that is really unique.”

Give the students a few minutes to review and select their poems. If they finish, have them select a second poem to develop if they have time.

### 2 Facilitate Guided Rereading of Drafts

Explain that the students will carefully reread their drafts and that you will help them think about ways they can add to, revise, and improve their poems. Have them quietly reread their drafts and look up when they are finished.

Distribute a pad of self-stick notes to each student. Explain that you will ask the students to look for and think about several specific things in their drafts.

Say the following and give the students several minutes to review their drafts and mark passages with self-stick notes:

- Find one place in your poem where you describe, or could describe, something using sensory details. Put a self-stick note in the margin next to that place and write *sensory details* on it.

When most students have finished, call for their attention and ask a few volunteers to read what they marked. Probe their thinking by asking questions such as:

**Q** *What do you hope your reader will imagine when reading that line?*

Using the same procedure, take the students through the following prompts, saying them one at a time and giving the students time to mark passages before having volunteers share.

- Do the sounds of the words in your poem help to communicate what the poem is about? Find a place where you might be able to use onomatopoeia and add some interesting-sounding words. Also find a place where you might use alliteration or repetition to create sound in your poem. Put a self-stick note in the margin next to that place and write *sounds* on it.
- Does your poem have a particular shape? If so, does the shape help to communicate what your poem is about? If you think you can change the shape to better communicate what your poem is about, put a self-stick note in the margin next to that place and write *shape* on it.

## WRITING TIME

### 3 Reread and Revise Poems

Display the “Writing Time” chart (WA5) and have the students work silently on the charted tasks for 20–30 minutes.

#### Writing Time

- Review the things you marked with self-stick notes.
- Revise your poem.
- Remove the self-stick notes when you finish revising.
- If necessary, continue adding to your poem until it is finished.

WA5

If the students finish, they may follow the same procedure to review and revise a second poem. Join the students in writing for a few minutes; then walk around the class and observe, assisting students as needed.

#### Teacher Note

If the students have difficulty finding and marking sensory details, make the prompt more specific by saying:

- Mark a place where you describe, or could describe, what something looks like.
- Mark a place where you describe, or could describe, what something sounds like.
- Mark a place where you describe, or could describe, what something smells or tastes like.
- Mark a place where you describe, or could describe, what something feels like.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to revise their drafts to include sensory details and/or sounds?
- Are they thinking about what their poems look like on the page?
- Do they seem engaged in revising their poems?

Support any student who struggles by asking questions such as:

- Q *What were you thinking about when you marked this place on your draft?*
- Q *What words could you add to help the reader [see/hear/smell/taste/feel] what you're writing about?*
- Q *Read your poem aloud. What sounds do you hear? Do those sounds help to communicate what your poem is about? If not, what words might have the sounds that would make sense in your poem?*
- Q *What do you want your poem to look like on the page? How can you arrange the words so it looks like that?*

Record your observations on the "Class Assessment Record" sheet (CA2); see page 153 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Reflect on Revisions and Creativity

Have the students review their revisions from today and each choose one revised line to share with the class. Encourage each student to choose a line that he feels is an improvement over the original line and that shows his creativity. After a moment, go around the room and have each student read his line aloud, without comment.

After the students have read their lines, facilitate discussion among the students by asking:

- Q *How does the line you read improve your poem?*
- Q *What lines did you hear your classmates read that got your imagination going?*
- Q *What questions do you want to ask a classmate about his or her writing?*

Explain that the students will proofread and begin writing final versions of their poems tomorrow.

# WRITING ABOUT READING

## Write Opinions About a Poem

Tell the students that you will read a poem aloud called “mosquito” by Valerie Worth. Briefly review the “Notes About Poems” chart and ask the students to think about which of these things the poet has done in the poem. Distribute copies of the poem, and ask the students to follow along as you read it aloud. Read the poem aloud, slowly and clearly.

Ask:

- Q *What do you like about this poem?*
- Q *What things on the “Notes About Poems” chart do you notice in “mosquito”? Why do you think the poet decided to include these things?*

### Students might say:

“The poet uses a lot of /s/ sounds in the poem. That makes it sound like a mosquito buzzing.”

“She says the mosquito ‘sings,’ which is something people do.”

“‘Wings as clear as windows’ is a simile. It helps me imagine what the mosquito’s wings look like.”

Explain that a poet may decide to include many of the items on the “Notes About Poems” chart in her poem or none at all. What is important is that the items she includes are used effectively, or that they help the reader understand what the poem is about. Explain that you would like the students to write short opinion paragraphs about whether or not they think items from the “Notes About Poems” chart are used effectively in “mosquito” and why. Ask the students to watch as you model writing one such opinion paragraph.

### You might say:

“I want to write about how the poet compares the mosquito to other things. I’ll start by writing: *In the first stanza of ‘mosquito,’ the poet compares the mosquito to a person by saying it ‘sings in the ear.’ In the second stanza, she makes another comparison when she says ‘wings/As clear/As windows.’ I think these comparisons are effective because they make me think about the mosquito in a new way—as something human-like and beautiful instead of as a bug that stings. I think that is Valerie Worth’s point in this poem. I’ll write: I think these comparisons are effective because they help the reader think about mosquitoes in a new way, and that is what the poem is about. Now I need a closing sentence. I’ll write: Valerie Worth’s poem makes me want to look at other things in new ways.*”

Tell the students that they will now write their own opinion paragraphs about whether or not they think items from the “Notes About Poems” chart are used effectively in “mosquito” and why; then have the students write their opinions. If time permits, invite the students to share their opinion paragraphs with the class.

## Materials

- Copy of “mosquito” (BLM3) for each student
- “Notes About Poems” chart

## Teacher Note

Prior to doing this activity, visit the CCC Learning Hub ([cclearninghub.org](http://cclearninghub.org)) to access and print “mosquito” (BLM3). Make enough copies for each student to have one; set aside a copy for yourself.

## Teacher Note

Items from the “Notes About Poems” chart that appear in “mosquito” include: sensory details (*sting, sings, clear, sleek, velvets, slender, glitters*); repetition/alliteration (*more/mosquito, sting/sings, wings/windows, she/six/slender/swatter*); personification (“she sings,” “she bends six slender knees”); simile (“wings as clear as windows”); rhyme (*sting/sings, knees/sees*); sound (the /s/ sounds throughout the poem are suggestive of a mosquito’s buzz); and three stanzas with five lines each.

# Day 4

## Proofreading

### Materials

- “Lullaby” chart (WA6)
- “Crickets” chart (WA7)
- “Feeling Ill” chart (WA8)
- *Student Writing Handbook* pages 38–46
- Supply of loose, lined paper for final versions
- (Optional) Computers for typing and printing final versions

### In this lesson, the students:

- Explore how poets follow and break punctuation and capitalization rules
- Decide how they will punctuate and capitalize their poems
- Proofread and correct spelling and punctuation
- Begin writing the final versions of their poems

## GETTING READY TO WRITE

### 1 Discuss How Poets Follow and Break Rules

Have the students get their notebooks, *Student Writing Handbooks*, and pencils and sit at desks with partners together. Explain that today the students will work on the final versions of their poems and that tomorrow they will publish them by sharing them from the Author’s Chair. Then the students will contribute their poems to a book for the class library.

Explain that the students will proofread their poems for spelling errors and make sure they have used punctuation and capitalization in their poems exactly the way they want to. Tell the students that poets do not always follow the rules when it comes to punctuation and capitalization. When they break the rules, they do so on purpose, not accidentally. Explain that before the students look at their own poems and decide how to punctuate and capitalize them, they will look at how poets follow and break these rules. Ask:

**Q** *When writing sentences, what do we usually do at the beginning and end to make sure they are written correctly?*

If necessary, remind the students that a sentence begins with a capital letter and ends with a period, question mark, or exclamation point.

Display the “Lullaby” chart (WA6) and have the students turn to this poem on *Student Writing Handbook* page 39.

Ask them to scan the poem to see if the poet follows the rules for punctuating and capitalizing sentences. After a moment, ask:

**Q** *Does this poet follow the rules for punctuating and capitalizing sentences in this poem? Why do you say that?*

As the students refer to punctuation and capitalization in the poem, underline or circle the punctuation marks and letters on the chart. If necessary, point out that this poet follows the rules by capitalizing the first letter in each of the two sentences in the poem and ending each sentence with a period.

Next, display the “Crickets” chart (C WA7) and ask the students to turn to this poem on *Student Writing Handbook* page 44.

Ask:

**Q** *What do you notice about how this poem is punctuated? Turn to your partner.*

Have a few volunteers share with the class. If necessary, point out that “Crickets” has no punctuation or capitalization at all, and explain that this is an example of a poet breaking the rules of sentence writing and punctuation on purpose. She breaks the rules because she wants the poem to sound a certain way when it is read aloud. Repeat this procedure with “Feeling Ill” (C WA8), marking on the chart the places the students refer to as they share their ideas.

## 2 Review Drafts for Punctuation and Capitalization

Ask the students to review their poems and think quietly to themselves about the following questions:

- Q** *Do you follow the rules of capitalizing the first letters of sentences and using periods at the ends? If so, do you do this all the way through your poem?*
- Q** *If you did not start out following these rules, what did you do instead? Do you want to leave your poem this way or revise it to follow the rules?*
- Q** *If you choose not to follow the rules, do you do this consistently all the way through your poem?*

Give the students a few moments to check and revise their punctuation and capitalization, and encourage them to use the poems in their *Student Writing Handbooks* as models for how to punctuate their own poems.

## 3 Review Proofreading for Spelling and Conventions

Remind the students that in addition to checking their sentence punctuation and capitalization, they should use their word banks and proofreading notes in their *Student Writing Handbooks* to help them proofread their drafts for spelling and correctness (see Unit 2, Week 2, Day 2 on page 98 and Unit 2, Week 2, Day 3 on page 103).

Briefly review these procedures by reminding the students to:

- Circle words in their drafts that they are unsure how to spell, and look the words up in their word banks. They will add to their word banks any words that are not already there after looking up the correct spellings in a dictionary or other source.
- Use their proofreading notes as a list of things to check before publishing. The students will correct any errors by crossing out each error and writing the correction above it (unless, for some reason, they choose to intentionally break the rule).

### Teacher Note

If necessary, point out that “Feeling Ill” starts with a capital letter and ends with a period, and contains phrases but no sentences. Explain that this is another example of a poet intentionally breaking the rules of sentence writing and punctuation so that the poem will sound a certain way when it is read aloud.

## WRITING TIME

### 4 Proofread Drafts and Write Final Versions

Have the students work on proofreading their poems. Provide loose, lined paper to students who finish proofreading and are ready to begin their final versions. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with individual students.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in his poem?
- Does the student include other elements of poetry?

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *Where might you use repetition? How might that help a reader understand your poem? What other sounds are you including?*
- Q *Have you decided to punctuate your poem with periods and to use capital letters? If you decided to follow the rules, are you doing this all the way through your poem? If not, what are you doing instead?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 154 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 5 Reflect on Proofreading

Ask and briefly discuss:

- Q *What words did you find in your word bank today? How did you check on words that were not in the word bank?*

Q *What corrections did you make in your draft after reviewing your proofreading notes?*

Explain that the students will finish working on their final versions tomorrow.

## Publishing

# Day 5

### In this lesson, the students:

- Think about the question “What is poetry?”
- Write the final versions of their poems
- Present their poems from the Author’s Chair
- Express interest in and appreciation for one another’s writing
- Ask one another questions about their writing

## GETTING READY TO WRITE

### 1 Think About “What Is Poetry?”

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Remind them that they began this unit by considering the question “What makes a poem a poem?” Tell them that many poets have tried to answer a similar question: “What is poetry?”

Ask the students to open to *Student Writing Handbook* page 47 and follow along as you read some poets’ definitions of poetry aloud. Invite the students to think as they listen about what their own definition of poetry might be.

Read “Poet Quotes: What Is Poetry?” (on page 666) aloud, slowly and clearly.

Ask and briefly discuss:

Q *What did you think about as you read these poets’ definitions of poetry?*

Q *What definitions do you agree with? Disagree with? Why?*

Use “Think, Pair, Share” to discuss:

Q *How would you answer the question “What is poetry?” [pause] Turn to your partner.*

After partners have had a chance to share, have a few volunteers share their thinking with the class.

Explain that each poet has his or her own ideas about what poetry is. Invite the students to continue to think about this question as they write their final versions today.

### Materials

- “Poet Quotes: What Is Poetry?” (see page 666)
- *Student Writing Handbook* page 47
- Supply of loose, lined paper for final versions
- “Notes About Poems” chart from Day 3
- A chair to use for Author’s Chair sharing
- Copy of this unit’s family letter (BLM1) for each student
- (Optional) Computers for typing and printing final versions

### Facilitation Tip

Reflect on your experience over the past two weeks with **asking questions once** without repeating or rewording them and then **using wait-time**. Does this technique feel comfortable and natural for you? Do you find yourself using it throughout the school day? What effect has using this technique had on your students’ attentiveness and responsiveness in discussions? We encourage you to continue to use and reflect on this technique throughout the year.

## WRITING TIME

### 2 Finish Final Versions of Poems

Have the students work on finishing their final versions. If they finish, they may proofread and write the final version of a second poem. When they seem to be working independently, confer with individual students.

### TEACHER CONFERENCE NOTE

Continue conferring with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in her poem?
- Does the student include other elements of poetry?

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *Where might you use repetition? How might that help a reader understand your poem? What other sounds are you including?*
- Q *Have you decided to punctuate your poem with periods and to use capital letters? If you decided to follow the rules, are you doing this all the way through your poem? If not, what are you doing instead?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 154 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 3 Review Sharing Writing from the Author's Chair

Have the students bring their published poems and gather with partners sitting together, facing the Author's Chair. If necessary, remind the students of the procedure you established for presenting from the Author's Chair (see Unit 2, Week 2, "Do Ahead" on page 95).

Before asking the students to share from the Author's Chair today, discuss how they will act, both as presenting authors and as members of the audience. Ask and discuss:

*Q How will you let the author know that you're interested in his or her poem? Why is it important to express interest in one another's writing?*

Direct the students' attention to the "Notes About Poems" chart and review the items on it. Encourage them to listen for things that appear on the chart as they hear one another's poems.

#### 4 Conduct Author's Chair Sharing

Have a student read his poem aloud twice, slowly and clearly, from the Author's Chair. At the end of the sharing, facilitate a discussion using questions like those that follow, and give the author an opportunity to respond to the class's comments and questions.

*Q What did you imagine as you listened to [Kenji's] poem?*

*Q What did you enjoy about hearing [Kenji's] poem?*

*Q (Refer to the "Notes About Poems" chart.) What items on the "Notes About Poems" chart did you notice in [Kenji's] poem?*

*Q What questions can we ask [Kenji] about his poem?*

Repeat this procedure to have other students share from the Author's Chair.

#### 5 Reflect on Audience Behavior During Author's Chair Sharing

Ask and briefly discuss:

*Q What did we do well as an audience today? What might we want to work on the next time poets share their work?*

*Q If you shared a poem today, did you feel that people were interested in and appreciative of your efforts? Why or why not?*

Assure the students that they will all get to share their published poems from the Author's Chair in the coming days. After all of the poems are read aloud, assemble them in a class book, and place the book in the class library so the students can read it during independent reading time.

Remind the students that poets, like all writers, become better over time as they practice writing more and more. Encourage students who feel drawn to poetry to continue to write poems during their free time.

#### Teacher Note

As the students share their poems from the Author's Chair, collect the poems to compile into a class book.

#### Teacher Note

If necessary, plan another time so all of the students have an opportunity to share their poems from the Author's Chair.

#### Teacher Note

For information on wrapping up this unit and conducting unit assessments, see "End-of-unit Considerations" on page 662.

## Teacher Note

Prior to doing this activity, identify 3–4 audio recordings of poets reading their poetry that you can play for the students. The Children’s Poetry Archive offers many such recordings to choose from. To find it, search online with the keywords “children’s poetry archive.” You might also search for recordings elsewhere on the Internet using the keywords “poets reading their own poetry.”

## Technology Tip

For more information about using web-based resources, view the “Using Web-based Teaching Resources” tutorial (AV75).

## Skill Practice Note

For practice with using commas in the dates, addresses, greetings, and closings of letters, see Lesson 28 in the *Skill Practice Teaching Guide*.

# TECHNOLOGY EXTENSION

## Listen to Poets Read Their Poetry Aloud

Remind the students that over the past couple of weeks they have listened to you read many poems aloud and they have read poems aloud themselves. Explain that hearing poetry read aloud can help the listener better understand the poem.

Tell the students that they are going to listen to some recordings of poets reading their poetry; then play for them the examples you identified. Stop after each poem and have the students discuss what they noticed about the way the poet read the poem (for example, the poet may have read some parts quickly and other parts slowly, or the poet may have read some parts loudly and some parts quietly).

If you have access to recording equipment, consider having the students create audio or video recordings of themselves reading their poems. Make the recorded poems available in the classroom or school library for others to enjoy.

# EXTENSION

## Write Letters Home About Poetry

Provide letter-writing practice for the students by having them write a letter home about what they learned about writing poetry. Stimulate their thinking by reviewing the “Notes About Poems” chart and discussing questions such as:

- Q *What makes a poem a poem?*
- Q *What else did you learn about writing poetry?*
- Q *What steps did you go through to develop and publish your own poem?*

If necessary, review the elements of a letter (date, greeting, body, closing, and signature) by modeling or writing a shared sample letter with the class. Have the students write and proofread their letters; then attach each student’s letter to a copy of his published poem and send it home along with this unit’s family letter.

# End-of-unit Considerations

## Wrap Up the Unit

- This is the end of the Poetry genre unit. You will need to reassign partners before you start the next genre unit.

- Send home with each student a copy of the student’s published poem and a copy of this unit’s family letter (BLM1). Encourage the students to share their published poems with their families.
- Save the students’ published writing (or copies of it) to use for reflection and discussion in Unit 9.

## Assessments

- Before continuing with the next unit, take this opportunity to assess individual students’ writing from this unit. See “Completing the Individual Writing Assessment” (IA1) on page 156 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students’ published writing home to share with their families, you might have each student analyze her writing using the “Student Self-assessment” record sheet (SA1) on page 155 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension “Introduce ‘Student Self-assessment’ ” on page 114.

## Poet Quotes: What Is Poetry?

“Poetry is things that are true expressed in words that are beautiful.”

— Dante

“It takes probably hundreds of things coming together at the right moment to make a poem.”

— Elizabeth Bishop

“Poetry is painting that is felt rather than seen.”

— Leonardo da Vinci

“Poetry is the rhythmical creation of beauty in words.”

— Edgar Allan Poe

“I know it’s a poem if it blows the top of my head off.”

— Robert Hass

# Unit 9

# Revisiting The Writing Community

During this one-week unit, the students review the writing they have done this year and reflect on their growth as writers and as members of the classroom writing community. They write letters to next year's class about what it means to be a writer, reflect on and write about a favorite author, and plan their summer writing. They thank their classmates for supporting them this year, and they express interest in and appreciation for one another's writing and thinking.

## TEACHER AS WRITER

*“Your first duty as a writer is to write to please yourself. And you have no duty towards anyone else.”*

— Iris Chang

This week take some time to look over the writing you have done this year in your writing notebook. Compare the first few pieces you wrote with your latest pieces. What do you notice about how you have changed or grown as a writer? What challenges did you grapple with? How has your attitude about yourself as a writer changed? What do you hope for your writing practice in the coming year? Write and date your reflections in your writing notebook.

### Writing Focus

- Students review their writing from the year.
- Students reflect on their growth as writers.
- Students write to next year’s class about how to be good writers.
- Students write about their favorite authors.
- Students plan their summer writing.

### Social Development Focus

- Teacher and students build the writing community.
- Students act in fair and caring ways.
- Students build on one another’s thinking.
- Students express interest in and appreciation for one another’s writing.

## DO AHEAD

- ✓ If you used the “Conference Notes” record sheet (CN1) from Unit 1 as a survey of the students’ goals and interests (see page 11 of the *Assessment Resource Book*), you might review the students’ responses to those questions prior to beginning your independent writing conferences this week. Have the completed record sheets available to refer to during your conferences.
- ✓ Prior to Day 1, gather all the students’ published writing from the classroom library, including individual pieces, pair work, and class books. Disassemble class books and return each student’s work. You might copy pair work and have partners decide who will take the original and who will take the copy. If necessary, provide folders so the students can keep all of their pieces together.
- ✓ Prior to Day 1, gather all the students’ filled writing notebooks from the year, and return each student’s work.
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA1) on page 172 of the *Assessment Resource Book*.
- ✓ Prior to Day 1, make a class set of the “Conference Notes” record sheet (CN1) on page 174 of the *Assessment Resource Book*.

(continues)

## **J** DO AHEAD *(continued)*

- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA2) on page 173 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, collect books written by authors the class studied this year (for example, *Sylvester and the Magic Pebble* by William Steig, *The Bicycle Man* by Allen Say, and *Owl Moon* by Jane Yolen).
- ✓ Prior to Day 5, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student’s writing.
- ✓ (Optional) Prior to beginning Unit 9, plan a time to obtain an end-of-year writing sample from your students. For more information, see “Obtaining an End-of-year Writing Sample” on page 168 of the *Assessment Resource Book*. If you collected a beginning-of-year writing sample, your students can compare the two pieces of writing in Day 1, Step 5 (see page 674).

## In this lesson, the students:

- Review their writing from the year
- Reflect on and write about how they have grown as writers
- Think about challenges they faced and what they have learned about writing
- Listen to the thinking of others and share their own
- Express interest in and appreciation for one another's writing

## GETTING READY TO WRITE

### 1 Discuss Goals for the Week

Have the students sit at desks today. Have them get their notebooks, published writing from the year, and pencils.

Explain that during this last week of the *Being a Writer* program, the students will review the writing they did this year and think about how they have grown as writers and as members of a writing community. They will also reflect on and write about what they have learned about good writing, reflect on and write about a favorite author, and plan their summer writing.

### 2 Review Published Writing from the Year

Distribute a pad of small self-stick notes to each student, and explain that the students will first look through their published pieces from the year. Display the “Reflecting on Writing” chart (WA1) and tell the students that you would like them to think about the questions as they review their pieces.

#### Reflecting on Writing

- What is one of the best published pieces of writing you have done this year? Mark it with the word *best* on a self-stick note.
- What piece of writing did you have the most fun working on this year? Mark it with the word *fun* on a self-stick note.
- What piece of writing was the most challenging for you? Mark it with the word *challenging* on a self-stick note.

WA1

Point out that the students might decide to put multiple self-stick notes on a single piece of writing.

Give the students ample time to look through their published pieces and mark them with self-stick notes. When most of the students have

## Materials

- Students' filled notebooks
- Students' published writing
- “Reflecting on Writing” chart (WA1)
- Pad of small self-stick notes for each student
- “Class Assessment Record” sheet (CA1)
- Class set of “Conference Notes” record sheets (CN1)

## Teacher Note

You will not assign new partners this week. Have the students work with their partners from the previous unit or with someone sitting near them.

## Teacher Note

This lesson may require an extended class period.

marked their best, most fun, and most challenging pieces, signal for their attention. Have them separate out the marked pieces of writing and put their other published pieces away.

### 3 Review Notebook Writing

Explain that for each of the flagged pieces, the students will find the drafts they wrote for those pieces in their notebooks and mark them with self-stick notes. Tell them that you would like them to reread those drafts and try to remember what it was like to write them.

Give the students ample time to review their notebooks, and then signal for their attention.

### 4 Share Marked Pieces with Another Student

Explain that the students will each share their thinking about the pieces of writing they marked with another student sitting near them. Encourage partners to tell each other what they remember about working on each piece and why they chose these as their best, most fun, and most challenging. Have partners share their writing with each other.

As partners share, walk around, listen, and observe.

#### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to explain why they marked a piece as their best, most fun, or most challenging?
- Do they refer to their first drafts or other steps in the writing process in talking about their pieces?
- Do they listen carefully to each other?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 172 of the *Assessment Resource Book*.

After allowing enough time for both partners to share their writing, signal for attention. Have a few volunteers each tell the class about one piece of writing they marked and share what they thought about it.

### 5 Get Ready to Write About Growth as Writers

Ask the students to look at the first few drafts they wrote in their notebooks and to compare them with the last few drafts they wrote. After a moment, ask the students to think to themselves as they listen to the questions that follow. Ask the questions one at a time, pausing after each question to give the students time to think.

- Q *What do you notice about the way you wrote at the beginning of the year, compared to the way you write now?*

#### Teacher Note

If you collected beginning- and end-of-year writing samples, you might have the students compare those pieces of writing rather than the drafts in their notebooks.

Q *What kinds of words did you use in your early pieces, compared to your more recent pieces?*

Q *How do you think you have changed as a writer this year?*

Without sharing as a class, explain that you would like the students to open to the next blank page in their notebooks and write their reflections about how they think they have grown or changed as writers this year, based on looking at their work from the beginning and the end of the year. They do not need to write answers for each question you asked.

## WRITING TIME

### 6 Write Reflections About Growth as Writers

Have the students write their reflections silently for 10–20 minutes. If they finish, they may write about anything else they choose.

#### TEACHER CONFERENCE NOTE

You may wish to confer once more with individual students this week, using their three marked pieces of writing as the topic of the conference. Ask each student to show you her marked pieces of writing and briefly tell you about each one. Help the student think about what it was like to write these pieces and how she has grown as a writer this year. Ask the student questions such as the following and record her responses:

Q *Which piece did you mark as your [best/most fun/most challenging]? Why?*

Q *What do you remember about working on this piece?*

Q *How do you feel about your writing?*

Q *How do you feel when you are asked to read your own writing to the class?*

Q *What did you like writing about this year?*

Q *What do you do best as a writer?*

Q *How do you think you have changed as a writer this year?*

Q *What are some things you might want to write about this summer?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 174 of the *Assessment Resource Book*.

#### Teacher Note

As you confer, you might compare the student’s responses to the questions on the “Conference Notes” record sheet (CN1) from Unit 1 with her responses to the questions on the “Conference Notes” record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask her what led to those changes.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 7 Share Reflections

Ask the students to reread what they wrote today and each underline a sentence that tells one way they think they have grown or changed as a writer this year. Give them a moment to select their sentences, and then go around the room and have each student read his sentence aloud to the class, without comment.

When all students have read their sentences about how they have grown or changed, ask and briefly discuss as a class:

- Q *What did you hear about how your classmates have grown as writers this year?*
- Q *What questions do you want to ask a classmate about the sentence he or she shared?*

Explain that tomorrow the students will continue to reflect on how they have grown and what they have learned as writers.

### SOCIAL SKILLS ASSESSMENT NOTE

During this final week of the program, assess the students' social skill development using the "Social Skills Assessment Record" sheet (SS1); see page 176 of the *Assessment Resource Book*. Compare your notes from the fall, winter, and spring, and evaluate each student's social skill development over the course of the year.

## Day 2

## Reflecting on Writing

### Materials

- "Ways to Be a Good Writer" chart (WA2)
- Loose, lined paper for writing letters
- *Student Writing Handbooks*
- "Class Assessment Record" sheet (CA2)

### In this lesson, the students:

- Write to next year's class about ways to be good writers
- Get ideas by listening to others

## GETTING READY TO WRITE

### 1 Review Genres Explored This Year

Have the students stay at their desks today. Remind them that they reflected yesterday on how they have changed or grown as writers over the past year. Point out that they have learned a lot about how

to be good writers of personal narratives, fiction stories, nonfiction informational pieces, opinion pieces, functional texts, and poetry.

Explain that today the students will reflect on what they have learned about how to be a good writer. Then they will write letters to next year's fourth-grade class to help them become good writers.

## 2 Reflect on Ways to Be a Good Writer

Use “Think, Pair, Share” to discuss:

**Q** *What have you learned about how to be a good writer?* [pause] *Turn to your partner.*

Display the “Ways to Be a Good Writer” chart (WA2). After the students have talked in pairs, signal for their attention and have volunteers report their thinking to the class. As they share, record their ideas on the chart.

### Ways to Be a Good Writer

- Use sensory details.
- Check to see if your writing makes sense.
- Revise to improve your writing.
- Practice writing all the time.
- Write about what interests you.

WA2

Explain that during Writing Time today, the students will each write a letter to next year's fourth-grade class, giving them some advice to help them become good writers. Tell them that they may include things listed on the chart as well as other ideas they have. Point out that the letters should be written in their own words and should be friendly and encouraging.

If necessary, write the date, a greeting (for example, you might write *Dear next year's fourth graders*) and a closing (for example, *Sincerely*) where everyone can see it. As you write, point out the correct placement of commas in each part of the letter.

## WRITING TIME

### 3 Write Letters to Next Year's Class Independently

Distribute loose, lined paper and have the students write their letters for 20–30 minutes. If they finish, have them proofread their letters for spelling and punctuation using their word banks and proofreading notes in their *Student Writing Handbooks*.

As the students work, walk around the room and observe them, assisting as needed.

### Teacher Note

If the students have difficulty generating ideas for this question, suggest some ideas like those in the “Ways to Be a Good Writer” chart. Then ask:

**Q** *What else have you learned about how to be a good writer?*

### Skill Practice Note

For more practice with using commas in the dates, greetings, and closings of letters, see Lesson 28 in the *Skill Practice Teaching Guide*.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students write confidently about ways to be a good writer?
- Do students who seemed cautious or inhibited about their writing early in the year write more freely now?
- Do they confidently use their word banks and proofreading notes to proofread their writing?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 173 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Share Letters and Reflect on Working Together

Have each student share his letter with someone sitting nearby. Remind the students to listen carefully so they can share what their partners wrote with the class.

After giving some time for the students to share, signal for their attention and discuss:

- Q *What advice did your partner include in his or her letter to next year’s class?*
- Q *Is your partner’s letter friendly and encouraging? What does your partner write to make it feel that way?*
- Q *What did you do to help your work with your partner go well today?*

If necessary, give the students time to finish writing and proofreading their letters; then collect the letters and save them to share with your incoming class this fall.

### Technology Tip

For more information about setting up and maintaining a class blog, view the “Creating a Class Blog” tutorial (AV76).

## TECHNOLOGY EXTENSION

### Post Letters on a Class Blog

If you created a class blog this year, some students might be interested in posting their letters for next year’s fourth graders on it. You might use the students’ posted letters to introduce your incoming class to commenting on blog posts.

## In this lesson, the students:

- Review authors studied this year
- Reflect on and write about their favorite authors
- Listen to the thinking of others and share their own

## GETTING READY TO WRITE

### 1 Review Authors Explored This Year

Have the students stay at their desks today. Remind them that they have been thinking about how they have grown as writers over the past year. Review that this year the students read and discussed examples of good writing by different authors to help them get ideas for their own writing. They also learned about the writing practices of authors like William Steig, Allen Say, and Jane Yolen. Show the cover of one of the books you collected and read the title and author's name aloud. Ask and briefly discuss:

- Q *What do you remember about this book?*
- Q *What do you remember learning about this author?*
- Q *What do you like about this author's writing?*

Repeat the procedure with the remaining authors. Explain that today the students will reflect on and write about their favorite authors.

### 2 Reflect on Favorite Authors

Tell the students that you would like each of them to think about an author that has inspired or influenced them as a writer. Explain that it may be an author they studied in the *Being a Writer* program, or it may be the author of another book they have enjoyed reading or hearing. Encourage them to recall authors that have given them ideas for their own writing or have helped them think about writing in a new way. Use “Think, Pair, Share” to discuss:

- Q *Who is one of your favorite authors?* [pause] *Turn to your partner.*

Display the “Reflecting on Authors” chart (WA3) and ask the students to think to themselves as they listen to the following questions. Pause after each question to give the students time to think.

## Materials

- Collected books by authors studied this year
- “Reflecting on Authors” chart (WA3)

## Teacher Note

If the students have difficulty thinking about a favorite author, have them first think about a favorite book and why they enjoyed it. If necessary, support them by providing names of the authors of books they mention.

### Reflecting on Authors

- What do you like about the author's writing?
- Has the author influenced your writing in some way? If so, how?
- What question(s) might you ask the author if he or she were here?

Give partners several minutes to share their thinking and discuss the questions. Then signal for their attention and have a few volunteers share their thinking with the class.

#### Students might say:

"One of my favorite authors is William Steig. I like how he uses long, funny words in his books. Sometimes I try to do that, too."

"After hearing Allen Say's books, I started writing stories based on my memories. I want to know what book was his favorite to write and why."

"I was inspired to write fantasy stories after reading the Harry Potter books by J. K. Rowling. I'd like to ask her where she got the idea for the series."

"I admire how, in *Owl Moon*, Jane Yolen makes you feel like you are part of the story. You can almost feel the moonlight and the cold when you are reading that book."

"I like books by Jon Scieszka. Reading his books showed me that good writing is sometimes crazy and funny."

Explain that during Writing Time today, each student will write her reflections about the author she chose. Encourage each student to write what she likes about the author's writing, how the author has influenced her own writing, and a question she would ask the author if he or she were here.

## WRITING TIME

### 3 Write About an Author Independently

Have the students open to the next blank page in their notebooks and write their reflections silently for 10–20 minutes. If they finish, they may write about anything else they choose. Walk around the room and observe, assisting students as needed.

## TEACHER CONFERENCE NOTE

Continue to confer with individual students today, using their marked pieces of writing from Day 1 as the topic of the conference. Ask each student to show you his marked pieces of writing and briefly tell you about each one. Help the student think about what it was like to write these pieces and how he has grown as a writer this year. Ask the student questions such as the following and record his responses:

- Q *Which piece did you mark as your [best/most fun/most challenging]? Why?*
- Q *What do you remember about working on this piece?*
- Q *How do you feel about your writing?*
- Q *How do you feel when you are asked to read your own writing to the class?*
- Q *What did you like writing about this year?*
- Q *What do you do best as a writer?*
- Q *How do you think you have changed as a writer this year?*
- Q *What are some things you might want to write about this summer?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 174 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Share Reflections

Have the students reread what they wrote today and each underline one sentence she wants to share about her favorite author. Give the students a moment to select their sentences. Then go around the room and have each student read her sentence aloud to the class, without comment.

When all of the students have read their sentences, ask and briefly discuss as a class:

- Q *Which author sounds interesting to you?*
- Q *What question do you want to ask a classmate about the sentence he or she shared?*

### Teacher Note

As you confer, you might compare the student’s responses to the questions on the “Conference Notes” record sheet (CN1) from Unit 1 with his responses to the questions on the “Conference Notes” record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask him what led to those changes.

### Materials

- “Writing Habits of Professional Authors” (see page 687)
- A highlighter or marker for each student
- “Writing Time” chart (WA4)

### In this lesson, the students:

- Learn about the writing habits of professional authors
- Plan their summer writing
- Get ideas by listening to others
- Express interest in and appreciation for one another’s writing

## GETTING READY TO WRITE

### 1 Generate Topics to Write About Over the Summer

Have the students stay at their desks today. Review that they have been looking back over the year and thinking about what they have learned and how they have grown as writers. Tell them that today they will look forward and think about how they plan to keep writing over the summer.

Ask the students to open to the writing ideas sections of their notebooks and to review the ideas they wrote over the year. Allow sufficient time for the students to review their ideas, and then ask:

**Q** *What are some ideas you didn’t get a chance to write about this year that you are still interested in writing about? Turn and talk to someone sitting next to you.*

Distribute a highlighter or marker to each student. Explain that you would like them to highlight or mark ideas in their notebooks that they are still interested in writing about. After they have had a chance to highlight their ideas, ask them to turn to a blank page and spend a few more minutes brainstorming and listing other ideas they might want to write about this summer. After a moment, ask and discuss as a class:

**Q** *What are some things you might want to write about this summer?*

**Q** *Why is it important for you to keep writing on your own this summer?*

#### Students might say:

“It’s important to keep writing on our own so we don’t forget how to be good writers over the summer.”

“It’s important to keep writing so we can keep getting better at writing.”

“In addition to what [Ansel] said, it’s important to keep writing because it’s fun!”

Point out that most professional authors have daily habits that help them keep writing. They have a special time and place in which they write, and they write for a certain length of time. Sometimes they use particular materials, like a certain pen or kind of paper. Explain that today you will read some quotes by professional authors about their

writing habits. The students will then think about what kinds of habits they want to have to help them keep writing over the summer.

## 2 Read and Discuss Some Professional Authors' Writing Habits

Read "Writing Habits of Professional Authors" (see page 687) aloud slowly and clearly, clarifying vocabulary as you read.

### Suggested Vocabulary

**cubicle:** small work area

**lull:** short, quiet break

**teak:** kind of wood

Ask and briefly discuss:

**Q** *What habits did you hear about?*

**Q** *What ideas did this give you about habits you can set for yourself at home to help you keep writing this summer?*

Explain that during Writing Time today, you would like the students to write in their notebooks about what they will do to help them continue to write this summer. Encourage them to write specific habits they want to establish, such as where, when, how often, and how long they will write each day. Also invite them to think about what objects they would like to have around them to help them write.

If the students finish, they may add to their lists of topics to write about this summer or choose one of those ideas and write about it.

## WRITING TIME

### 3 Write About Writing Habits Independently

Display the "Writing Time" chart (WA4) and have the students work silently for 20–30 minutes.

#### Writing Time

- Write about what you will do to help yourself continue writing this summer.
- Add to your list of topics to write about over the summer.
- Pick one of your summer topics and start writing about it.

WA4

As the students work, walk around and observe, assisting students as needed, or continue to confer with individual students.

## Teacher Note

As you confer, you might compare the student's responses to the questions on the "Conference Notes" record sheet (CN1) from Unit 1 with her responses to the questions on the "Conference Notes" record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask her what led to those changes.

## TEACHER CONFERENCE NOTE

You may wish to confer once more with individual students this week, using their three marked pieces of writing from Day 1 as the topic of the conference. Ask each student to show you her marked pieces of writing and briefly tell you about each one. Help the student think about what it was like to write these pieces and how she has grown as a writer this year. Ask the student questions such as the following and record her responses:

- Q *Which piece did you mark as your [best/most fun/most challenging]? Why?*
- Q *What do you remember about working on this piece?*
- Q *How do you feel about your writing?*
- Q *How do you feel when you are asked to read your own writing to the class?*
- Q *What did you like writing about this year?*
- Q *What do you do best as a writer?*
- Q *How do you think you have changed as a writer this year?*
- Q *What are some things you might want to write about this summer?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 174 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

## SHARING AND REFLECTING

### 4 Share Plans for Summer Writing

Ask the students to reread what they wrote today and each underline a sentence that tells one thing he will do to help keep writing this summer. Give the students a moment to select their sentences. Then go around the room and have each student read his sentence aloud to the class, without comment.

When all the students have read their sentences, ask and briefly discuss as a class:

- Q *What ideas did you hear that you want to add to your list?*
- Q *What questions do you want to ask a classmate about the sentence he or she shared?*

Give the students a moment to add ideas to their lists, if they wish. Encourage them to continue writing as much as they can this summer and to focus on enjoying their own writing.

## In this lesson, the students:

- Reflect on their contributions to the writing community
- Reflect on how they have benefited from the writing community
- Thank one another for their help

## GETTING READY TO SHARE

### 1 Reflect on the Classroom Writing Community

Have the students stay at their desks today. Remind them that they reflected on how they have grown as writers earlier in the week. Explain that today they will have a chance to think about how they did with creating a safe and caring writing community this year and how they have personally grown as members of the community.

Have the students close their eyes and visualize as you ask the following questions. Pause after each question to give them time to think.

- Q *What has it felt like to be a part of our writing community this year?*
- Q *What have you done to contribute to our community this year?*
- Q *What are three things your partners or classmates have done to help you become a better writer this year?*

Have the students open their eyes, turn to the next blank page in their notebooks, and write the three things their classmates or partners have done to help them become better writers this year.

After the students have had time to list their ideas, call for their attention.

## SHARING AND REFLECTING

### 2 Share Reflections and Thank One Another

Have the students bring their notebooks and gather in a circle. Explain that each student will choose one of the three things she listed to read aloud to the class. Point out to the students that it is important to take time to thank people who have been helpful to them, and invite them to say “Thank you” to the class after they read.

Give the students a moment to select what they will read aloud. Then go around the room and have each student read her selection and then say “Thank you.” When all the students have read their selections, ask and discuss:

- Q *How have we done at creating a caring and safe community this year? What makes you think so?*

## Materials

- Copy of this unit’s family letter (BLM1) for each student

## Teacher Note

Some ways students have helped each other become better writers this year include brainstorming ideas together, giving each other feedback, working on some writing projects together (such as the nonfiction informational piece), asking each other questions about their writing, and showing interest and appreciation when sharing from the Author’s Chair.

**Q** *How have you grown in your ability to work with partners this year?*

**Students might say:**

"I think we did a good job creating a community this year. Whenever we had problems, we talked about them so we could get along better."

"I agree with [Paolo] because the more we got to know each other, the more we were a community."

"I used to be too shy to talk to my partner, but now I feel I can talk to any partner I have."

You might want to share some of your general observations about ways your students have changed or grown as members of the community over the year.

**You might say:**

"I remember how some students didn't want to work with their assigned partners at the beginning of the year. Now you are much better at working with any partner. I also notice that you relied much more heavily on me at the beginning of the year to help you solve your problems. Now you are able to solve many problems by yourselves."

Encourage the students to continue to write and to become caring members of their classroom writing community next year.

## End-of-unit Considerations

### Wrap Up the Unit

- Send home with each student the student's published pieces, writing notebook, and a copy of this unit's family letter (BLM1). Encourage the students to share their published pieces with their families.

### Assessment

- (Optional) If you obtained end-of-year writing samples, you might want to reflect on each student's writing using the "End-of-year Writing Sample Record" sheet (WS2) on page 170 of the *Assessment Resource Book*. For more information on analyzing the writing samples, see "Obtaining an End-of-year Writing Sample" on page 168 of the *Assessment Resource Book*. If you collected beginning-of-year writing samples, you might assess each student's growth as a writer by comparing your comments on the "Beginning-of-year Writing Sample Record" sheet (WS1) with your comments on the "End-of-year Writing Sample Record" sheet (WS2).

## Writing Habits of Professional Authors

“Get up very early and get going at once; in fact [write] first and wash afterwards.”

— W. H. Auden

“I generally write for three or four hours at a sitting, mornings as a rule.”

— Saul Bellow

“The writer . . . withdraws to some quiet corner, a bedroom perhaps, or any cubicle with a chair and table, and applies himself to his blank paper. Two hours a day are needed, three hours are better, four are heroic.”

— Gerald Warner Brace

“My goal is to write only one sentence a day. I write this on the bus on my way to work. I usually find that I write more than just one sentence, but the important point is that I have accomplished the goal I set by 9:00 a.m.”

— Lavinia Dobler

“Now I keep a typewriter with a sheet of paper in it on the end of the kitchen table. When I have a five-minute lull and the children are playing quietly, I sit down and knock out a paragraph.”

— Lois Duncan

“I have a nice teak desk, long and wide, on which I keep special things: crisp new legal pads and No. 2 pencils with good rubber erasers that don’t leave red smears; a dark blue draftsman lamp that twists and bends like a tall, limber skeleton; a small quartz clock that silently flicks the minutes . . . and an orange tomcat who lies on a blanket and snores.”

— Gail Godwin

## Mini-lesson 1

## Navigating Safely Online

**J** DO AHEAD

- ✓ Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the digital citizenship family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ Prepare a chart titled “Our Digital Citizenship Contract” (see Step 4 on page 692).
- ✓ Find out if your school has an acceptable use policy that the students and their families need to sign before the students can use the computers. Be prepared to review it with the students in Step 4.

**Materials**

- “Our Digital Citizenship Contract” chart, prepared ahead
- Copy of the digital citizenship family letter (BLM1) for each student

**In this lesson, the students:**

- Work in pairs
- Learn and use the term *digital citizen*
- Compare staying safe online to staying safe in the real world
- Reflect on rules for staying safe online

**ABOUT DIGITAL CITIZENSHIP LESSONS**

In Technology Mini-lessons 1-3, the students think about and discuss how to use the Internet in safe, secure, and respectful ways. The lessons culminate with the students signing an “Our Digital Citizenship Contract,” which lists rules and agreements for responsible online behavior at school. After each lesson, the students are encouraged to share what they learned with their families and create similar rules and agreements for online behavior when not at school. If possible, plan to teach all three digital citizenship lessons in order before the students do research online.

**1** Gather the Students and Discuss Going Online

Gather the class with partners sitting together, facing you. If possible, have current writing partners work together.

Tell the students that one way to find resources for their research projects is to search for information on the Internet. Remind them that the Internet is a worldwide resource that millions of people use every day. Using the Internet, or going online, can connect the students to the world and allow them to find interesting facts and information. Ask:

**Q** *What kinds of things do you like to do online?*

## **2** Introduce Digital Citizenship

Tell the students that, just as they need to be responsible citizens in real life by following rules and treating people well, they also need to be responsible citizens when they are online. The connections they have with people and information when they go online is in many ways like being part of a community. Being responsible and making good choices in this community is called being a *good digital citizen*. Tell the students that one way to be a good digital citizen is to follow certain online safety rules.

## **3** Compare Staying Safe Online to Staying Safe in the Real World

Explain that staying safe when going online can be similar to staying safe in the real world. Ask the students to listen as you describe the following scenario aloud:

“Marco wants to go to his friend Leo’s house to play. He and Leo live in the same neighborhood and Marco knows how to get there, so he asks for permission to walk there on his own. Marco’s mom says yes and reminds him to stay safe and be careful.”

Point out that Marco asked for permission before he walked to Leo’s house. This helped him stay safe because his mom knew where he was going. Ask:

**Q** *What might Marco do to stay safe while walking to Leo’s? How will that keep him safe?*

**Students might say:**

“Marco should walk on sidewalks and look both ways before crossing the street.”

“Marco should go straight to Leo’s and not stop anywhere else along the way. That way he won’t get lost.”

Then use “Think, Pair, Share” to have partners discuss the question that follows. After a moment, have a few volunteers share their ideas with the class.

**Q** *How might going online be similar to going for a walk in your neighborhood? [pause] Turn to your partner.*

**Students might say:**

"You can visit a lot of different places when you go online and there might be places that aren't safe to go to."

"The Internet is a really big place and it's easy to get lost if you don't know where you're going."

"You don't want to talk to people you don't know."

If the students do not mention it, point out that there are countless numbers of websites on the Internet, so it is important to know what to look for and what to avoid. Explain that just as it is important to know where to turn when walking to a friend's house, it is important to know which websites are safe to visit and which sites should be avoided. Just like it is important not to talk to people you do not know when walking to a friend's house, it is important not to talk to people you do not know online. Point out that, just as you would tell an adult if you noticed anything suspicious on a walk, it is important to tell an adult if you notice anything suspicious online. Tell the students that it is also important to ask for help whenever they need it.

#### **4** Introduce Class Rules for Staying Safe Online

Explain that this year the students will have opportunities to go online at school and that today they will discuss the rules they need to follow to stay safe. Post the chart titled "Our Digital Citizenship Contract" and read each rule to the class.

#### **Teacher Note**

You may want to give the students specific examples of ways they will use the Internet at school this year.

#### **Teacher Note**

If your school has an acceptable use policy that students and their families need to sign before the students can use the computers, review it with the students and confirm that the settings on the search engines on your school's computers are set to "Strict," "Safe," or a comparable mode.

### *Our Digital Citizenship Contract*

*We will get permission before going online.*

*We will ask the teacher or a responsible adult before going to an unknown website.*

*We will ask the teacher or a responsible adult for help if we come across any information that is confusing or makes us uncomfortable.*

*We will ask the teacher or a responsible adult before downloading anything from the Internet onto the computer.*

*We will ignore advertisements and pop-ups that appear on the page.*

*We will leave computer and search settings alone.*

*We will follow all school computer rules.*

## 5 Reflect on Online Safety Rules

Use “Think, Pair, Share” to have the students discuss how the rules will help keep them safe online by asking questions such as:

**Q** *Why do you think [asking for help before going to an unknown website] is important? [pause] Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

### Students might say:

“We should ask for help before going to a new website because the teacher will know whether or not it’s a safe site to visit.”

“We should ignore ads because they don’t have any information we need for our schoolwork.”

Then ask:

**Q** *What else might we do to stay safe online? Why do you think that?*

As the students share, add their ideas to the chart.

Explain that you would like the students to pledge, or promise, to follow these rules for staying safe online. Tell them that in coming lessons they will discuss other ways to be good digital citizens and add them to the chart.

## 6 Discuss Staying Safe Online When Not at School

Tell the students that you would like them to discuss with their families the rules for online safety they learned today, and encourage them to come up with similar rules for staying safe when they are online outside of school.

Plan to check in with the students throughout the year to discuss how they are doing with following the online safety rules.

### Teacher Note

Save the “Our Digital Citizenship Contract” chart to use in Technology Mini-lesson 2.

### Teacher Note

Send home with each student a copy of the digital citizenship family letter (BLM1).

### Teacher Note

You might have the class share ideas for favorite kid-friendly websites and post the list where everyone can see it. Give the students time to explore these websites and continue to add new ones to the list throughout the year.

## DO AHEAD

- ✓ Add the online privacy rules to the “Our Digital Citizenship Contract” chart (see Step 3 on page 695). Cover the new rules with another sheet of paper until you introduce them in Step 3.

### Materials

- “Our Digital Citizenship Contract” chart from Technology Mini-lesson 1

### Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 1 on page 690).

### In this lesson, the students:

- Work in pairs
- Recognize when it is appropriate to share private information
- Reflect on class rules for online privacy

## 1 Introduce Maintaining Privacy Online

Gather the class with partners sitting together, facing you. If possible, have current writing partners work together.

Remind the students that they have been thinking about what it means to be a good digital citizen. In the previous lesson, they learned that staying safe online is a lot like staying safe in the real world. Direct their attention to the “Our Digital Citizenship Contract” chart (with the privacy rules covered) and briefly review the safety rules the students have learned for using the Internet. Tell them that another way to be a good digital citizen is to follow certain online privacy rules, or rules for keeping their private information safe. Explain that following these rules will help protect both themselves and their computers when they are online.

## 2 Discuss When to Share Private Information

Tell the students that the kind of information that is important to keep private online can be similar to the kind of information that is important to keep private in real life. Ask them to listen as you describe the following scenario:

“Lauren can’t wait to go to the baseball game with her family. She loves baseball and knows everything about it. When she and her family get to the stadium, Lauren is the first to enter the aisle of seats and sits next to someone she doesn’t know. The person she sits next to is also a huge baseball fan, so during the game they talk about their favorite baseball teams and the best games they’ve ever seen.”

Ask:

- Q *Do you think it is appropriate (OK) for Lauren to share information about her favorite team and games with the person sitting next to her? Why?*
- Q *Imagine that Lauren's new friend asked her for her [e-mail address]. Do you think that would be appropriate? Why or why not?*

**Students might say:**

"I think it is fine for her to share her favorite team. They're just making baseball conversation."

"There's no reason for Lauren to share her e-mail address. She doesn't know the person well."

"I'd be suspicious if someone I didn't know asked me for my e-mail address. I don't think it would be OK for Lauren to share that information."

Then use "Think, Pair, Share" to discuss questions such as:

- Q *How is sharing [your favorite baseball team] with someone you don't know different than sharing [your e-mail address or your phone number]? [pause] Turn to your partner.*
- Q *Do you think it is a good idea to share [your computer password] with someone you don't know? Why do you think that? [pause] Turn to your partner.*

Explain that contact information, such as your name, phone number, and e-mail address, and information such as computer passwords are *private*—or information you share only with people you know and trust. Tell the students that, just as they do not share private information with people they do not know in real life, they should not share private information with people they do not know online.

### 3 Introduce Class Rules for Online Privacy

Ask and briefly discuss:

- Q *Have you ever been asked to share information about yourself online? If yes, what kind of information?*

**Students might say:**

"I have to enter my password to check my e-mail."

"I go to a kids' website that asks for my e-mail address and password."

"One video game site I like asks for my age."

Tell the students that to protect themselves and their computers they should never share private information about themselves, their families, or their computers when they are online. Explain that when they use the Internet at school, they will need to follow certain privacy rules. Direct their attention to the "Our Digital Citizenship Contract" chart and uncover the rules that you added to it.

Read each rule to the class:

## Our Digital Citizenship Contract

We will keep personal contact information private.

We will keep sign-in information private.

We will keep passwords private.

We will keep personal photos private.

### 4 Reflect on Online Privacy Rules

Use “Think, Pair, Share” to discuss why each rule is important. Ask:

**Q** *Why do you think it's important to [keep your contact information private] when online? [pause] Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

#### Students might say:

“If you share your e-mail address on a website, you should know what the people are going to use it for. They might just want to sell you something.”

“Giving someone your password is like giving them the keys to your house. It gives them access to all of your stuff.”

“It's hard to know if you can trust someone you've never met.”

Ask:

**Q** *What other privacy rules might we want to add to the chart? Why do you think that?*

As the students share, add their ideas to the chart.

Explain that you would like the students to pledge, or promise, to follow the online privacy rules, just as they did with the online safety rules.

### 5 Discuss Maintaining Online Privacy When Not at School

Tell the students that you would like them to discuss with their families the online privacy rules they learned today. Encourage them to come up with similar rules for maintaining privacy online outside of school. Plan to check in with the students throughout the year to discuss how they are doing with following the online privacy rules.

#### Teacher Note

Save the “Our Digital Citizenship Contract” chart to use in Technology Mini-lesson 3.

### In this lesson, the students:

- Work in pairs
- Compare online interactions with face-to-face interactions
- Generate classroom agreements for showing respect online

## 1 Gather the Students and Review Digital Citizenship

Gather the class with partners sitting together, facing you. If possible, have current writing partners work together.

Remind the students that they have been talking about how to stay safe and maintain privacy while using the Internet. Briefly review the “Our Digital Citizenship Contract” chart and ask:

**Q** *How can these rules help you stay safe online?*

Tell the students that today they will talk about ways to show respect to one another when online.

## 2 Discuss Being a Respectful Community Member

Remind the students that they have been focusing this year on building a writing community in which they treat one another with respect, and point out ways you have observed them being respectful.

### You might say:

“I’ve noticed that you share the materials in your groups and that you listen well to the person who is talking. I’ve also noticed how you use kind words when speaking to one another. You also give respectful and helpful feedback to your writing partners.”

Ask and briefly discuss:

**Q** *What are other ways you show one another respect?*

### Students might say:

“If someone has a different opinion than I do, I respect it.”

“I treat everyone like I would want to be treated.”

“I don’t gossip about other people.”

## 3 Compare Online and Face-to-face Communication

Explain that communicating with people online is similar to communicating with people face-to-face—with some very important differences. Point out ways the students have interacted (communicated) or might interact with one another online this year, such as by e-mailing

### Materials

- “Our Digital Citizenship Contract” chart from Technology Mini-lesson 2
- Chart paper and a marker
- Paper and pencil for each student

### Teacher Note

Plan to teach this lesson soon after teaching the first two technology mini-lessons (see Technology Mini-lesson 1 on page 690 and Technology Mini-lesson 2 on page 694).

### Teacher Note

If you have established class norms for respectful behavior, you may want to review them.

or by posting a comment on a class blog or website. Then use “Think, Pair, Share” to discuss questions such as:

**Q** *How is [e-mailing a friend] similar to [talking to a friend at school]? How is it different? [pause] Turn to your partner.*

**Q** *What do you think is the most important difference between online and face-to-face communication? Why do you think that? [pause] Turn to your partner.*

**Students might say:**

“You can’t see the person you are talking to online so it’s hard to tell how that person feels.”

“It’s different because people might not care as much about being respectful if they don’t think they will ever meet the person they are interacting with.”

“Sometimes it’s easier to say things over e-mail than it is when you are face-to-face.”

If necessary, point out to the students that they often cannot see the person they are interacting with online so it is easy to forget that they are communicating with a real person who has feelings. They cannot see the person’s facial expressions or body language, so it is difficult to tell how that person is reacting to their e-mails or comments. This means the students need to pay special attention to the tone of their writing to make sure their messages are clear and respectful. Also, point out that, as good digital citizens, they need to be respectful even when they do not know the person they are interacting with online.

#### **4** Generate Ideas for Being Respectful Online

Tell the students that you want them to develop a set of agreements for respectful online behaviors to add to the “Our Digital Citizenship Contract” chart. Explain that you would like them to begin by thinking about and discussing a few situations. Use “Think, Pair, Share” to discuss:

**Q** *Students from another class have posted their published stories on the school website, and the teacher asks you to read and comment on them. How can you show respect in your comments? [pause] Turn to your partner.*

**Q** *For a class blog, I ask you to debate the pros and cons about fourth graders having cell phones. Members of the class have very different opinions on the topic. How might you show respect in your posts? [pause] Turn to your partner.*

**Q** *You are researching online for a class project about India. You come across a blog on India written by a student you’ve never met. As you read it, you find inaccurate (wrong) information and decide to point this out in a comment. What might you do before posting your comment? [pause] Turn to your partner.*

After partners have discussed the questions, have a few volunteers share their ideas with the class, and write them down on a piece of chart paper. As they share, facilitate a discussion by asking questions such as:

- Q *Why is [rereading what you wrote before posting a comment] important?*
- Q *How will [thinking about how the other person might feel] help you be respectful?*

## 5 Decide on Agreements and Sign the Class Contract

Have the class review the ideas you recorded and together decide on a list of four or five agreements that represent the way they want to treat one another online.

Ask questions such as:

- Q *Can we combine any of these ideas into one agreement? If so, which ones?*
- Q *Is there anything that is not on this list? What is it?*

### Students might say:

"I think we can combine 'not gossiping online' with 'not making fun of someone's opinion.' We could just say that we will respect others' feelings."

"We can combine 'imagine the person is sitting across a table from you' and 'picture how the person might react.' We can just say that we will remember that we are talking to real people online."

Continue the discussion until everyone agrees on the list and then add the agreements to the "Our Digital Citizenship Contract" chart.

Remind the students that agreeing to use the Internet in safe, secure, and respectful ways will help them be good digital citizens. State your expectation that the students will try their best to act according to the rules and agreements on the contract when they are online at school. Take time to have the students sign the class contract (and sign it yourself).

## 6 Discuss Showing Respect Online When Not at School

Tell the students that you would like them to discuss with their families the agreements for showing respect online that they listed today. Encourage them to come up with similar agreements for showing respect when they are online outside of school.

Distribute writing paper and explain that you would like the students to write down the entire "Our Digital Citizenship Contract" chart to bring home to share with their families.

Throughout the year, review the students' commitment to be good digital citizens and check in regularly to see how they are doing. You may decide to modify or add to the class contract as needed.

### Teacher Note

If necessary, restate the class agreements positively and record them as "We will . . ." statements. For example:

- We will always use respectful language in our writing.
- We will reread what we write before we e-mail or post a comment.
- We will think about others' feelings before we post a comment.
- We will remember there is a real person on the other end of the computer.
- We will choose to be respectful with all people we communicate with online, whether we know them or not.

### Teacher Note

This discussion might require another class period. Reaching agreement may mean deleting, combining, or modifying ideas on the list.

### Teacher Note

Post the "Our Digital Citizenship Contract" chart near the classroom computer(s) for the students to refer to when they go online throughout the year.

## DO AHEAD

- ✓ Prepare a chart titled “How to Turn a Research Question into a Search Query” (see Step 3 on page 702). If you have already taught the Expository Nonfiction unit, you can use the paper chart you created for use in Week 3, Day 3 of that unit (see page 384).
- ✓ Become familiar with a few search engines and decide which one you will use for this lesson (see the Teacher Note on page 701).
- ✓ Check that the preferences on the search engine you select to use with the class have been set to “Strict,” “Safe,” or a comparable setting.

### Materials

- Whiteboard with a search engine displayed, prepared ahead
- Chart paper and a marker
- “How to Turn a Research Question into a Search Query” chart, prepared ahead
- Students’ writing notebooks and pencils

### Teacher Note

Technology Mini-lesson 4 closely matches the instruction in Week 3, Day 3 of the Expository Nonfiction unit. If you have already taught that unit and your students need further support choosing search terms, you might teach Mini-lesson 4. (If only some students need more support, you might teach Mini-lesson 4 just to those students.) If your students do not need further support choosing search terms, you might skip Mini-lesson 4 and teach Mini-lessons 5–8.

### In this lesson, the students:

- Work in pairs
- Learn and use the terms *search engine*, *search term*, and *search query*
- Identify the best terms for an effective search query

### ABOUT TEACHING THE ONLINE RESEARCH LESSONS

In Technology Mini-lessons 4–8, the students learn how to search effectively for online research sources, evaluate the credibility of the sources they find, and give credit for the sources they use. If possible, start teaching these lessons when the students begin doing research online. The skills taught in the lessons build on one another, so plan to teach them in order and at corresponding stages in the students’ research. For example, teach “Technology Mini-lesson 4: Choosing Effective Search Terms” after the students have identified a research topic, and teach “Technology Mini-lesson 7: Evaluating Research Sources” after the students have searched for and collected several online sources.

## 1 Introduce Searching for Information Online

Have the students bring their notebooks and pencils and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Remind the students that they have been searching for information about their research topics. Today they will learn how to use a search engine to find information on the Internet. Explain that a *search engine* is a web-based tool that searches the Internet using words you type into a search bar. Finding the information you are looking for requires

knowing how to choose the best words, or *search terms*, to type into a search engine.

## 2 Model Choosing Best Terms for a Search Query

Direct the students' attention to the search engine displayed on the whiteboard and point to the search bar where search terms are entered. Explain that good researchers start with a research question and then identify words within the question to use for their search. For example, if you are researching China and want to know more about schools there, you might start with the research question, "What are schools like in China?"

Write the question on a piece of chart paper where everyone can see it. Explain that you will use the question to help you identify a set of words for your search and that the set of words you choose is called a *search query*.

Explain that a search query tells a search engine exactly what information is needed. Search queries are not usually complete sentences because they use only words directly related to the topic of the search. Ask the students to listen carefully as you think aloud about and model how to change the question, "What are schools like in China?" into a search query.

### You might say:

"I know I need the word *China* because it is the country I am researching, and I need *schools* because it is the specific information about China that I want. So *China* and *schools* are my search terms—I am going to circle them. [Circle *schools* and *China*.] I don't need the words *what*, *are*, *like*, and *in* because they don't say anything about the information I need, so I will cross them out. [Cross out *what*, *are*, *like*, and *in*.] Now I have the words *schools* and *China*, but what I really want to know is what school in China is like for kids your age, so I should add the word *elementary* before the word *schools*. [Write *elementary* before *schools*.] Also, I specifically want to know how the school system in China compares to the school system here, so I am going to change *elementary schools* to *elementary school system*. [Write *system* after *schools*.] Now I have *elementary school system* and *China*. I think it makes sense to put the name of the country first, so my search query will be: *China elementary school system*."

elementary      system  
What are schools like in China?

Type the search query into the search engine's search bar and display the results. Read some of the results aloud. Use "Think, Pair, Share" to discuss:

**Q** How useful do you think these search results will be for the research topic? [pause] Turn to your partner.

If needed, point out any results that directly address your research topic.

### Teacher Note

Many search engines are available, including some that are intended for students' use. You may already have a preferred search engine that you use most often. Spend some time becoming familiar with a few search engines and decide which one you'll use for this lesson.

### Teacher Note

After discussing the search query results with the students, you may want to demonstrate how changing the order of the words in your search query affects the search results.

### 3 Choose Best Terms for a Search Query

Explain that the students will follow the same procedure to turn a different research question into a search query. Post the chart titled “How to Turn a Research Question into a Search Query” and read each step aloud:

#### How to Turn a Research Question into a Search Query

1. Write down your research question.
2. Circle the words you definitely need.
3. Cross out unnecessary words.
4. Add or substitute more specific words if needed.
5. Decide in what order to write the words.

Write *What is special about the buildings in China?* under “What are schools like in China?” and have the students copy it in their notebooks.

Ask partners to read the question carefully and follow the steps on the chart to decide on a search query.

Walk around the room and observe. If necessary, direct the students’ attention to the chart and remind them to follow each step. Review that queries use only words directly related to the research topic.

When most pairs have finished, signal for attention and have a few volunteers share their queries with the class.

Remind the students that a search query tells a search engine exactly what information to search for about a research topic. Save the “How to Turn a Research Question into a Search Query” chart to post as needed later.

### 4 Continue Online Research

Explain that the students will use what they learned today in their own research. Have them open their notebooks and identify any questions they still have about their research topics. Invite them to use the “How to Turn a Research Question into a Search Query” chart to write queries about their topics.

When the students have demonstrated that they know how to choose effective search terms, see Technology Mini-lesson 5 to teach them how to understand their search results.

#### Teacher Note

The students may decide on a search query such as *unique Chinese buildings* or *famous Chinese buildings*.

#### Teacher Note

If your school has an acceptable use policy, review it with the students.

## DO AHEAD

- ✓ Read Steps 2 and 3 of the lesson to familiarize yourself with the features of a search results page and of web addresses.
- ✓ Prepare a chart titled “Common Domain Suffixes” (see Step 4 on page 705).
- ✓ Type the query *China elementary school system* into a search engine and have the search results page ready to display on the whiteboard in Step 2.
- ✓ Identify a couple of examples of websites with different domain suffixes, and bookmark them to display on the whiteboard in Step 4.

### In this lesson, the students:

- Work in pairs
- Learn and use the terms *search result*, *web address*, and *domain suffix*
- Explore the features of a search results page
- Learn key parts of web addresses
- Identify potentially useful sites for their research topics

## 1 Introduce Search Results Page

Have the students bring their notebooks and pencils and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Remind the students that they can use an Internet search engine to find information about a research topic. Review that in the previous lesson they discussed how to choose search terms for a query. Explain that today they will discuss the page that lists the results of a query and learn how to decide which websites to use in their research.

## 2 Discuss Features of a Search Results Page

Display the search results page you prepared ahead and review that this is the page that appeared when you typed *China elementary school system* into the search bar. Explain that this page is called the *search results page*. Tell the students that a results page will look different depending on the search engine you use but that all search results pages have features in common. Discuss these features by first pointing to the list of websites in the main column of the page and explaining that these websites are sources of information about China’s elementary school system. Tell the students that they will look more closely at the websites later.

### Materials

- Whiteboard with search results displayed, prepared ahead
- Chart paper and a marker
- “Common Domain Suffixes” chart, prepared ahead
- “Web Address Example” chart (WA1)
- Students’ writing notebooks and pencils
- “Evaluating Search Results” chart (WA2)

### Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 4 on page 700). You may want to briefly review the previous lesson before starting this one.

Point to the advertisements on the page and explain that advertisements are often marked with the words *Ads* or *Sponsored Results* and are frequently listed in the left- or right-hand column or at the top or bottom of the page. Tell the students that when they are doing research, they should ignore the advertisements. Ads are trying to sell something and, for that reason, they are not a good source of information about a research topic.

Next, point out the filters, which are often found across the top of the page or in the left-hand panel. Explain that *filters* are search tools that let you control the kind of information that will be displayed on the page. Tell the students they will learn about filters in another lesson.

Direct the students' attention back to the list of websites in the main column of the page and review that these are the *search results*, or sources of information you might explore to find out about China's elementary school system. Point to a website and explain that the title is underlined and the search terms are bold. The text below the underlined title is called a *snippet* and is a small piece of text taken directly from the website. Point to the web address and explain that the *web address* is usually underneath the title or on the last line of the result.

If the students need more practice understanding the parts of an individual search result, choose one or two more to review with the class.

### 3 Identify Parts of a Web Address

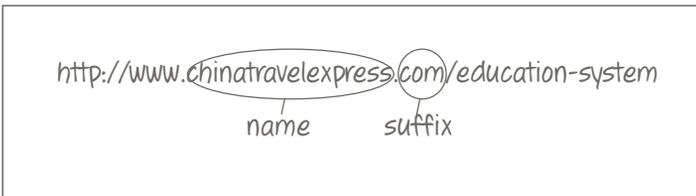

Tell the students that anyone can post information on the Internet, so not all of what they find will be useful or reliable for research. Good researchers know how to look for clues about the type of information that a source, such as a website, will provide in order to choose the best sources to use for their report. One way to do this is to look at the parts of a web address, which can always be found in the address bar that is usually located at the top of the page.

Choose one of the web addresses from your search results page and write it on a piece of chart paper. Circle and label the name (the text that follows *http://www* and precedes a suffix like *.com* or *.org*).

Ask the students to listen as you describe and label each part of the address: the site's name, the domain suffix, and the information that follows the suffix.

**You might say:**

"The name of a website in a web address sometimes gives information about where the website comes from and whether or not it will help in our research. The name of a website is usually found after the letters *http* and *www*. The name of this site is *china travel express*, which means it's probably a website for people who plan to travel to China. Sometimes there is no *http* or *www* in the address. [Circle and label the suffix.] The last part, or *domain suffix*, of a website comes after the name and also gives helpful information about the website. The suffix of this website is *.com*. The string of text that comes after the suffix can also include helpful information. In this address, it says that the website will have information about education in China. Thinking about the name, suffix, and information after the suffix tells me that this website teaches tourists about education in China."

Use "Think, Pair, Share" to discuss:

**Q** *Do you think this website will be useful for my research topic? Why or why not?* [pause] *Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

**Students might say:**

"I think it will be useful because it looks like it will have information about education in China."

"Since it's a travel website, it might just be trying to sell you trips to China."

## 4 Discuss Domain Suffixes

Tell the students that the domain suffix identifies the purpose and audience of the website. Explain that there are many different domain suffixes and that it is important to understand what they mean. Post the chart titled "Common Domain Suffixes" and read the examples aloud.

## Common Domain Suffixes

- *.com: a commercial website*
- *.edu: an educational institution, such as an elementary school or college*
- *.gov: a government website*
- *.org: often a nonprofit organization. Nonprofit organizations are groups that help people by providing education and other resources.*
- *Countries' domain suffixes: countries sometimes have their own suffixes, for example, China (.cn), the United Kingdom (.uk), Brazil (.br), etc.*

Display some examples of websites with different domain suffixes (prepared ahead), one at a time. As you display each website, point out the domain suffix in the web address and facilitate a brief discussion about the kind of information each site provides. Use “Think, Pair, Share” to discuss questions such as:

**Q** *What kind of website is this? What do you think people use it for? [pause] Turn to your partner.*

**Q** *How is this website similar to others you've seen? How is it different? [pause] Turn to your partner.*

Remind the students that understanding what a domain suffix means will help them choose the best sources for their research. Explain that they should always ask for help if they are confused or do not recognize a suffix. They will have the chance to add other suffixes to the chart throughout the year.

If the students need more practice understanding domain suffixes, choose one or two more website examples to discuss with the class.

### 5 Explore the Parts of a Web Address

Explain that the class will work together to explore the parts of another web address from your query results. Display the “Web Address Example” chart (WA1) or substitute a web address of your choice.

#### Web Address Example

<http://www.anytownobserver.com/2014/01/15/opinion/cheung>

WA1

Use “Think, Pair, Share” to discuss:

- Q** *What is the [suffix/name] of this website? What does it tell you about the kind of site it is? [pause] Turn to your partner.*
- Q** *What does the information after the name tell you about the website? [pause] Turn to your partner.*
- Q** *Do you think this site might be helpful for my research? Why or why not? [pause] Turn to your partner.*

Remind the students that understanding the parts of a web address will help them decide which sites will be useful for their research topics and which sites they can skip.

If the students need more practice exploring the parts of web addresses, choose one or two more to review with the class. Tell them that you will post the charted labeled web address and the “Common Domain Suffixes” chart for use throughout the year.

## 6 Evaluate Search Results

Explain that the students will use what they learned today to help them choose websites for their research topics. Display the “Evaluating Search Results” chart (WA2). Have the students open their notebooks and write down the instructions from the chart. Explain that the next time they use the computer they will follow these instructions for evaluating their search results.

### Evaluating Search Results

- Choose a query for your research topic.
- Type the query into a search engine and print the first page of results.
- Look at the search results and think about the important parts of the web addresses.
- Circle the sites you think might be good sources of information for your research. Write the reasons you chose these sites.

WA2

When the students have demonstrated that they know how to evaluate their search results, see Technology Mini-lesson 6 to teach them how to narrow their results.

### Teacher Note

If possible, have the students evaluate their search results soon after you teach this lesson.

## Mini-lesson 6

# Using Filters to Narrow Results

### ⌚ DO AHEAD

- ✓ Type the query *China elementary school system* into a search engine and have the search results page ready to display in Step 2.
- ✓ Familiarize yourself with the filters of the search engine you use and practice narrowing search results using the activities described in Steps 2–4.
- ✓ Prepare the “Filters We Can Use” chart using the filters listed in Step 4, or list other filters you would like the students to explore this year (see Step 4 on page 709).

### Materials

- Whiteboard with search results displayed, prepared ahead
- Chart paper and a marker
- Students’ writing notebooks and pencils

### Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 5 on page 703). You may want to briefly review the previous lesson before starting this one.

### In this lesson, the students:

- Work in pairs
- Learn and use the term *filters*
- Explore search engine filtering tools

## 1 Introduce Narrowing a Search

Have the students bring their notebooks and pencils and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Tell the students that, as they search for information about their research projects on the Internet, they will sometimes need to narrow, or focus, their search to get more specific information. Explain that today they will learn how to use filters on a results page to focus a search.

## 2 Discuss Filters

Display the page of search results you prepared ahead of time and point out that this is the results page that appeared when you typed the query *China elementary school system* into the search engine’s search bar. Point to the filters on the page and explain that *filters* are tools that let you control the kind of information that will be displayed on the results page. Read the names of the filters aloud. Then ask:

Q *What kind of information do you think will be displayed if we click the [Videos] filter? What kind of information do you think will be filtered (left) out?*

### 3 Model Using a Filter

Explain that not all search engines provide the same filters, but there are some commonly used ones. You will demonstrate how to use one commonly used filter, and then the class will work together to explore other filters.

Explain that you would like to include photographs in your report about schools in China. Tell the students that the Images filter will narrow the search results by searching for images, or pictures, specifically related to your topic. Ask the students to watch and listen carefully as you click the Images filter and demonstrate how to use it.

**You might say:**

“When I click the Images filter, I get a page of pictures related to schools in China. But what I really want are photos of students in their classrooms and schools, so I will click the Photos advanced search filter to narrow my results even more. The advanced search filters are usually displayed under the main filters or are displayed under the main filters when I click Search Tools. [Click the Photos filter.] That helps a lot. Now I have many photos to choose from. I can focus my results even more by choosing the size of a photo and even a specific color. [Click an image.] When I click an image, I get a link to its source. When I find an image I want to use, I will write the web address down in my writing notebook so that I will remember where to find it again.”

Use “Think, Pair, Share” to discuss:

**Q** *How did the Images filter change my results? [pause] Turn to your partner.*

**Q** *Do you think these results are useful? Why or why not? [pause] Turn to your partner.*

After a moment, have a few volunteers share their ideas with the class.

**Students might say:**

“All the results are photographs.”

“Some of the photographs are of kids in classrooms.”

“I think there are some pictures that would be good to include in your report.”

### 4 Use Filters to Narrow Results

Explain that the students will practice using other filters to continue searching for specific information about China. Post the “Filters We Can Use” chart and briefly describe each filter listed.

### Teacher Note

You may want to add to this list throughout the year.

### Teacher Note

If possible, have the students practice narrowing their searches and print useful research sources soon after you teach this lesson. Have the students save their printed online sources to use in Technology Mini-lessons 7-8.

## Filters We Can Use

- Images
- Maps
- News
- Videos

Direct the students' attention back to the search results page on the whiteboard. Use "Think, Pair, Share" to discuss:

**Q** *What filter(s) might I use to see what teaching actually looks like in the Chinese classroom? [pause] Turn to your partner.*

Have a few volunteers share their ideas. If necessary, explain that the Videos filter might provide examples of teaching in Chinese classrooms. Click the Videos filter and display the search results. Ask:

**Q** *How did the Videos filter change my results?*

**Q** *Do you think these results are useful? Why or why not?*

#### Students might say:

"Now the only results on the page are videos."

"I think the results are useful because there are a lot of videos showing Chinese classrooms."

"Now you can actually see videos of what classrooms are like in China!"

Use the same procedure to demonstrate how to use the News and Maps filters, or invite volunteers to the whiteboard to practice using the filters. Discuss the results with the class.

Point out that when the students use filters to narrow a search, the results may not always be useful for their research topics. Remind them that good researchers always evaluate and choose their research sources carefully.

Tell the students that you will post the "Filters We Can Use" chart for them to use throughout the rest of the year.

## 5 Use Filters for Research

Explain that the students can use filtering tools to narrow search results for their own research. Have the students write down in their notebooks the filters they would like to use. Explain that the next time they use the school computer they will work in pairs to narrow their searches and print any information that is useful for their research topics.

When the students have demonstrated that they know how to narrow their search results, see Technology Mini-lesson 7 to teach them how to choose credible sources for their research.

## DO AHEAD

- ✓ Prepare a chart titled “Questions to Ask When Evaluating a Source” (see Step 3 on page 712).
- ✓ Type the query *China elementary school system* into a search engine and have the search results page ready to display in Step 4.

### In this lesson, the students:

- Work in pairs
- Evaluate research sources
- Choose credible sources for their research

## 1 Introduce Evaluating Sources

Gather the class with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Point out that many of the students have begun to research their topics on the Internet and are ready to choose sources for their research projects. Remind the students that anyone can post information on the Internet so it is important to choose their sources carefully. Explain that today the students will learn how to identify sources of information they can trust and use.

## 2 Discuss the Characteristics of a Good Source

Tell the students that the sources they use for their reports should have information that is reliable, current, and accurate. Display the “Characteristics of a Good Research Source” chart (WA3) and briefly discuss each term with the class.

### Characteristics of a Good Research Source

- reliable: trustworthy or dependable
- current: up-to-date or recently written
- accurate: correct, without mistakes

Tell the students that in order to determine whether a source is reliable, current, and accurate they need to evaluate the source, or think carefully about it.

### Materials

- “Characteristics of a Good Research Source” chart (WA3)
- “Questions to Ask When Evaluating a Source” chart, prepared ahead
- Whiteboard with search results displayed, prepared ahead
- Students’ printed online sources from Technology Mini-lesson 6
- “Evaluating Research Sources” chart (WA4)

### Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 6 on page 708). You may want to briefly review the previous lesson before starting this one.

WA3

### 3 Introduce Questions for Evaluating a Source

Explain that good researchers ask themselves questions about a source when deciding whether or not to use it. Post the “Questions to Ask When Evaluating a Source” chart and tell the students to listen as you read each question aloud:

**Questions to Ask When  
Evaluating a Source**

Reliable:

- Who is the author of the page? Is the author an expert? How do I know?
- What is the web address? Is the information from a site that is trustworthy? How do I know?

Current:

- When was the information written?
- Do the links from the site work, or are they outdated?

Accurate:

- Are there sources listed for the information on the page? What are they?
- Can you find other sources with the same information?

Point out that the students will not always find answers to all the questions, but asking them will help them decide if the source has information they can trust.

### 4 Model Evaluating a Research Source

Display the search results page you prepared ahead of time and remind the students that this is the results page for the query *China elementary school system*. Click one of the website results. Read the information on the website aloud and ask the students to listen as you consider whether or not the source is reliable, current, and accurate by answering the questions on the “Questions to Ask When Evaluating a Source” chart.

**You might say:**

"First I will answer questions to evaluate whether or not the site is reliable. This page doesn't list a specific author, but I can see from the web address that the site is based in China because of the domain suffix. The site seems to be a source of news and information about China, so I think it's trustworthy. Now I'll answer questions to decide if the information is current. It doesn't say when the information was written, but one paragraph refers to the years 2001-2005, which means it's not very current. [Click other links on the site.] All the links are working and the information on other pages of this site is current. Last, I will answer questions to see if the site is accurate. There are no sources listed on the page but I can find some of the same information on a few other websites about education in China. I think I can use the information on this site for my research, but I think it would be good to find sites with more current information, too."

## 5 Evaluate Research Sources

Explain that the class will work together to evaluate another research source. Redisplay the search results page from Step 4 and click another result to display a website.

Read aloud the information on the page as the students follow along. Then have partners evaluate the reliability of the source by answering the questions under "Reliable" on the chart. After a moment, have volunteers share what they discussed with the class.

**Students might say:**

"The author's name was hard to find. It's all the way down at the bottom of the page."

"The website is a news and information site for kids, so I think it's trustworthy."

In the same way, have partners answer the questions about the currency and accuracy of the source. Then ask:

- Q** *Do you think this is a good source to use for my research project? Why or why not?*
- Q** *What other questions might be important to add to the "Questions to Ask When Evaluating a Source" chart? Why do you think that?*

Add the students' suggestions to the chart and explain that you will post the chart for the students to use throughout the year.

## 6 Continue Evaluating Sources

Have the students return to their seats with partners sitting together. Ask them to spend a few moments gathering the sources they printed for their topics. Display the "Evaluating Research Sources" chart (WA4) and have them work quietly for 10–15 minutes.

## Teacher Note

If possible, have the students use the computer to evaluate their research sources soon after you teach this lesson.

Explain that the next time they use the computer they will answer any questions that require them to check links or look for additional sources with the same information.

## Evaluating Research Sources

- Read the information on the page carefully.
- Read the questions on the “Questions to Ask When Evaluating a Source” chart and write down any answers you find.
- Write down whether you think the source is reliable, current, and accurate and include reasons why.

WA4

When the students have demonstrated that they know how to choose reliable, current, and accurate sources for their research projects, see Technology Mini-lesson 8 to teach them how to cite the sources.

# Mini-lesson 8

# Citing Online Sources

## TEKS 13.G.i

Student/Teacher Activity  
Technology Mini-lesson  
(all, beginning on page 714 and  
continuing on to page 717)

## Materials

- “Sample Citation” chart (WA5)
- “What to Include in an Online Citation” chart, prepared ahead
- “Sample Website” chart (WA6)
- Chart paper and a marker
- Students’ writing notebooks and pencils
- Students’ printed online sources from Technology Mini-lesson 6

## Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 7 on page 711). You may want to briefly review the previous lesson before starting this one.

## DO AHEAD

- ✓ Prepare a chart titled “What to Include in an Online Citation” (see Step 3 on page 715).

## In this lesson, the students:

- Work in pairs
- Learn and use the terms *cite*, *bibliography*, and *URL*
- Write citations for electronic sources

## 1 Introduce Citing Sources

Have the students bring their notebooks and pencils and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Review that the students are choosing sources from the Internet to use in their research. They are reading the sources and taking notes about the information in their own words. Explain that whenever they refer to or use information from a source in a report, they need to *cite* it, or list the source of the information in a section of the report called a bibliography. Explain that a *bibliography* is the “list of books, articles, and/or websites used in a research report” and that it is usually found

at the end of a report. Tell the students that today they will learn what information to include in a citation in a bibliography.

## 2 Discuss Information to Include in Citations

Explain that each citation, or reference of a book, article, or website, in a bibliography needs to include enough information for readers to be able to identify and find the source, and that there are rules for how to list the information. Tell the students that citations for electronic sources need to indicate that a source was found online. Explain that the *URL*, or web address, does not need to be included because web addresses can change and a source may be found in more than one place on the Internet. Display the “Sample Citation” chart (WA5) and explain that this is an example of how a citation is written for a website.

### Sample Citation

Cheung, Taylor. “It’s Elementary, China.” *The Anytown Observer Online*. The Anytown Observer, Inc., 15 Jan. 2014.  
Web. 16 May 2014.

WA5

Point out that the parts of the citation are written in a specific order, and ask the students to listen as you describe each part.

#### You might say:

“The author’s last name goes first, followed by a comma and then the author’s first name. The title of the source comes next in quotation marks. If the source is a page from a website or is part of a more complete work, like a book, the title of the complete source is written next, in italics if you’re typing, or underlined if you’re writing by hand. The publisher name, or organization affiliated with the site, and publication date are written next, separated by a comma. The medium of publication, or the type of publication in which the source was found, comes next. Electronic sources are identified by the word *Web*. The date the source was accessed, or found, is the final part of the citation. A period belongs between each piece of information and at the very end of the citation.”

## 3 Practice Citing Sources

Explain that partners will work together to write a citation for a website. Post the “What to Include in an Online Citation” chart and tell the students that they may not always find all the information on the list, but they should include as much information as possible when they write citations.

## What to Include in an Online Citation

- author's name (last name, first name)
- title of document, in quotation marks
- title of complete work (i.e., website, book, or project), in italics (if typed) or underlined (if handwritten)
- publisher name and publication date, separated by a comma
- medium of publication (Web)
- date of access

Display the “Sample Website” chart (WA6) and have partners work together to write a citation for the displayed sample in their notebooks.

### Sample Website

WA6

Walk around the room and observe. Be ready to support the students in finding the information they need. Ask questions such as:

- Q *Where might you find the [publication date] for this site?*
- Q *What might you do if you can't find the [title of the complete work]?*

Explain that when a page on a website does not provide all the information needed for a citation, it is sometimes helpful to click additional links (but not ads) on the website. Let the students know that when they cannot find all the information, they should include as much information as possible.

After the students have finished, write out the citation for the displayed source on a sheet of chart paper and have partners check their work.

Huey, Lorita. "Education in China and the United States." *PTVU Public Broadcasting*. PTVU Public Broadcasting, Inc., 17 Dec. 2013. Web. 26 Mar. 2014.

If they need more practice writing online citations, display one or two more web pages to discuss with the class.

Post the "What to Include in an Online Citation" chart for the students to use throughout the year.

#### 4 Cite Sources for Research

Explain that the students will use the same procedure to write citations for the research sources they have chosen. Have them spend a few moments gathering their printed sources, or invite them to search for sources on the computer and begin writing their citations.

## Creating Documents

## Mini-lesson 9

### DO AHEAD

- ✓ Prepare a chart titled "Important Keyboard Features" (see Step 2 on page 718).
- ✓ Visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print "Sample Keyboards" (BLM2). Make enough copies for each student to have one; set aside a copy for yourself. Two types of keyboards are provided; you may want to give the students only the sample that matches the keyboards they will be using at school.
- ✓ Practice creating, saving, and storing a document to prepare for the modeling you will do in Steps 2 and 3. Decide how you would like the students to name and store their documents on the computer.
- ✓ Prepare a chart titled "Keyboard Shortcuts" (see Step 4 on page 720). Note that certain computers' keyboards use the Control key for shortcuts while others use Command. Likewise, some keyboards have a key named Return while others use Enter, and the same for Delete versus Backspace. When creating your chart, copy the words from the diagram that match the keyboards that you and your students will be using.

## Materials

- Whiteboard with a word-processing application displayed
- “Important Keyboard Features” chart, prepared ahead
- Copy of “Sample Keyboards” (BLM2) for each student
- “Keyboard Shortcuts” chart, prepared ahead

## Teacher Note

You are likely to have students who are very familiar with word-processing software and others who have little knowledge or experience with it. You may want to provide support for less-experienced students by pairing them with more-experienced students.

## Teacher Note

Whether you use the Command or Control key will depend on the type of computer or keyboard you have at your school.

## In this lesson, the students:

- Work in pairs
- Learn the term *word processing*
- Explore important keyboard features and shortcuts
- Practice creating documents

## 1 Introduce Word Processing

Gather the class with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Explain to the students that this year they will be publishing some of their writing using a computer. Tell them that creating documents on the computer is called *word processing*, and that today they will learn some basic word-processing skills.

## 2 Model Creating a Document

Display your computer’s desktop on the whiteboard and demonstrate how to move the cursor around the screen to find and open a word-processing application. Model how to use the drop-down menu to open a new document, type in words, and use various keyboard features.

### You might say:

“Once I have opened my word-processing application, I can create a new blank document by going to the File menu and clicking on New. Now I can type my story into the document. As I type, I can create a capital letter by holding down the Shift key and then typing the letter. The Caps Lock key will make all the letters I type capitals. Another job of the Shift key is to allow me to type the characters shown on the upper part of certain keys. For example, when I want to type in parentheses, I hold down the Shift key first and then type the 9 or 0 key. Another useful feature is the [Command/Control] key, which provides a shortcut for certain tasks. For example, instead of using the drop-down menu to create a new document, I can hold down the [Command/Control] key and then type the N key as a shortcut.”

Post the “Important Keyboard Features” chart and distribute a copy of “Sample Keyboards” (BLM2) to each student. Ask the students to locate each feature on their “Sample Keyboards” as you read the chart aloud.

## Important Keyboard Features

- *Shift*: Hold down to type capital letters or characters on the upper part of key.
- *Command/Control*: Hold down with another key for a keyboard shortcut.
- *Return/Enter*: Press to move the cursor to the next line on page.
- *Tab*: Press to indent a line of writing.
- *Delete/Backspace*: Press to erase the text before the cursor.

Ask and briefly discuss:

**Q** *What other keyboard features do you know how to use?*

Add the students' suggestions to the chart and invite volunteers to the computer to demonstrate for the class how they are used.

### 3 Model Saving and Finding a Document

Point out that when the students create documents on the computer, they can save and store them on the computer for future use. Ask the students to listen and watch as you demonstrate how to name, save, and store your document using the File menu. Then model how to close, find, and open it again.

#### **You might say:**

"To save my document, I go to the File menu and choose Save. This takes me to the window that allows me to name my document and decide where to save it so that I can find it after it is closed. There are many places to store, or put, a document on the computer, so I've made a folder where I can put all my writing. I'll show you where to store your writing on the computer when you create your own documents. Once I've saved my document, I can close it by clicking Close in the File menu. To reopen it, I can click Open in the File menu, which gives me a list of documents. Clicking the name of my document, then clicking Open, will open it up again."

Briefly point out all the drop-down menus in the application and demonstrate any additional tasks and shortcuts you think might be helpful for the students to know. Ask:

**Q** *What questions do you have about how to [save a document]?*

**Q** *What other features of the word-processing application do you know how to use?*

## 4 Create and Save a Document

Explain that the class will work together to create, save, and store a document. Post the “Keyboard Shortcuts” chart and explain that the students may use this chart and the “Important Keyboard Features” chart to remind them how to do certain tasks.

### Keyboard Shortcuts

- Open a document: [Command/Control] + O
- Close a document: [Command/Control] + W
- Print a document: [Command/Control] + P
- Save a document: [Command/Control] + S
- Bold text: [Command/Control] + B
- Italic text: [Command/Control] + I
- Underline text: [Command/Control] + U

Invite a volunteer to the computer to demonstrate how to open a new document and type in a sentence. Then ask several more volunteers to demonstrate other tasks. Finally, have a volunteer save and store the document. Be ready to assist the students by answering questions or helping to solve any problems that arise.

Ask and briefly discuss:

- Q *What new keyboard features did you learn today?*
- Q *What keyboard shortcuts do you think are most helpful?*

Tell the students that you will post the “Useful Keyboard Features” and “Keyboard Shortcuts” charts for them to use throughout the year.

## 5 Use Word Processing to Publish Writing

Explain that the next time the students work on a school computer, they will work in pairs to practice typing, formatting, and saving their writing.

### Teacher Note

If possible, have the students practice word processing soon after you teach this lesson. You may want to provide support for less-experienced students by giving them additional time to practice using the application.

## DO AHEAD

- ✓ Review your presentation application and prepare how you will model using the application to create a presentation in Step 2. Find videos, pictures, or other graphics to insert in your presentation and save those on your hard drive.
- ✓ Prepare a chart titled “Creating a Presentation” (see Step 3 on page 722).

### In this lesson, the students:

- Work in pairs
- Learn basic features of presentation applications
- Explore how to incorporate special features into a presentation
- Practice creating presentation slides

## 1 Introduce Creating Presentations

Have the students bring their notebooks and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Explain to the students that when they finish a piece of writing, there are various ways they might share their published writing with the class. One way is to create presentations using the computer. Explain that presentation applications let them add special features to their writing, such as pictures. Today they will learn how to use a presentation application to create a slideshow using text, pictures, maps, shapes, graphs, charts, and video. Use “Think, Pair, Share” to have partners discuss why they might want to add these special features to their reports. Ask:

- Q *When might you want to add [a graph] to a presentation or report? [pause] Turn to your partner.*
- Q *How might including [photographs] in your presentation make it more interesting for your audience? [pause] Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

### Students might say:

- “I could use a graph to show how the population of my country has changed year-to-year.”
- “Photographs can show what I am describing about my country.”

### TEKS 13.H.i

Student/Teacher Narrative  
Technology Mini-lesson 10  
(all, beginning on page 721  
and continuing on to page  
723)

### Materials

- Whiteboard with a presentation application displayed
- “Creating a Presentation” chart, prepared ahead
- Students’ writing notebooks

### Teacher Note

You are likely to have students who are very familiar with presentation applications and others who have little knowledge or experience with them. You may want to provide support for less-experienced students by partnering them with more-experienced students.

## 2 Model Creating Slides

Display your computer’s desktop on the whiteboard and demonstrate how to move the cursor around the screen to find and open your presentation application. Then model applying a theme, typing words, changing the font size and color, and inserting a new slide. Using the various tabs, buttons, and menus in the application, model inserting special features, such as videos, pictures, or other graphics.

### You might say:

“When the presentation application is open, I can create a new presentation by going to the File menu and clicking New Presentation. Then I can choose a theme for my presentation by clicking the Themes [tab/button] and deciding which one to use. I can use the keyboard to type text into the slide and change its size and color by going to the Format menu and choosing Font. To insert a new slide, I click the New Slide [tab/button] at the top of my application window. I can apply the same theme—the look and feel—or a different theme to each new slide. I can insert a picture by going to the Pictures tab and choosing the artwork or photograph I want. I can do the same thing to insert videos or other graphics, like charts, shapes, or tables.”

Ask:

**Q** *What are some other features of presentation applications you know how to use?*

Invite volunteers to the computer to demonstrate for the class how to use the features they suggest. Then continue to model how to save, name, and store your presentation.

### You might say:

“To save my presentation, I go to the File menu and choose Save. This takes me to a window that allows me to name my presentation and decide where I want it to be stored. I’ve made a special folder where I can save my report presentations, and I’ll show you where to save yours on the computer, too. Once I’ve saved it, I close it by clicking Close in the File menu. To reopen it, I click Open in the File menu, which gives me the list of presentations. Clicking the name of my presentation, then clicking Open, will open it up again.”

Ask and briefly discuss:

**Q** *What questions do you have about creating a presentation?*

## 3 Create and Save a Presentation as a Class

Explain that the class will work together to practice opening a new presentation and adding various features to the slides. Later, the students will have the chance to create their own presentations based on a finished piece of writing. Post the “Creating a Presentation” chart and explain that the class will do each task in the order listed.

## Creating a Presentation

1. Open a new presentation.
2. Apply a theme.
3. Type in a sentence and change the font size and color.
4. Insert at least two new slides.
5. Insert a picture and a video on different slides.
6. Save the presentation with a name you choose.

Invite volunteers to the computer to demonstrate for the class how to do each task. Be ready to assist the students by answering questions or helping to solve any problems that may arise.

### 4 Create Presentations

Explain that the students will create presentations to share some of their published writing. Have them open their notebooks and think about what pieces they might want to share as a presentation. Use “Think, Pair, Share” to discuss:

**Q** *What writing projects have you worked on that might be fun to share as a presentation?* [pause] *Turn to your partner.*

**Q** *What kind of things would you like to include in your presentation?* [pause] *Turn to your partner.*

Plan to give the students at least two class sessions to work on their presentations with their partners. Continue to model how to use presentation applications throughout the year.

#### Teacher Note

You may want to provide support for less-experienced students by giving them additional time to practice using the application.

#### Teacher Note

To show your students an example of how a student added photographs, graphics, and other features to a presentation of her research on roller coasters, view “Roller Coasters Presentation” (AV79). Explain to the students that this presentation was created by a fifth-grade student who is using the *Being a Writer* program. Display the sideshow, click through the slides one at a time, and point out the features the author included, such as photographs and links to other information.

## The Collaborative Classroom

The Collaborative Classroom differs from traditional learning environments in that students and teachers work together on shared academic and social goals.

The Collaborative Classroom is an intentional environment in which collaboration goes beyond conventional cooperation and compliance. Students become caring members of a learning community who take responsibility for their own learning. As students think, talk, and share ideas, they come to value the thinking of others. They become thoughtful writers and engaged speakers and listeners. They discuss and debate big ideas with respect, clarity, and understanding.

## The Collaborative Classroom in *Being a Writer*

The *Being a Writer* program embodies the practices of the Collaborative Classroom.

Students of *Being a Writer* demonstrate:

- Deeper understanding of content
- Ownership of their own learning
- Intrinsic motivation to remain on task
- Improved self-esteem
- An increase in academic performance

*“As we practice collaboration, we are building community. It has changed our school climate and helped our students academically. They now have the language to work together differently and resolve problems quickly. We have reduced interruptions during academic instruction and don’t lose important learning time. We have increased student engagement, which ensures increased academic achievement and gains.”*

# Introduction

The *Skill Practice Teaching Guide*, along with the *Student Skill Practice Book*, provides 30 weeks of mini-lessons in grammar, usage, and mechanics skills that supplement writing instruction in the *Being a Writer* program. Skill Practice Notes in the *Being a Writer Teacher’s Manual* alert teachers to instructional moments when a mini-lesson in grammar, usage, capitalization, or punctuation might help students with their writing. At grades 1–2, most skill instruction in the core lessons occurs during the shared or modeled portions of the lesson. At grades 3–6, most skill instruction occurs during the revision and proofreading phases of the writing process. Additional instruction and practice in skills and conventions for grades 1–6 are provided in this teaching guide and the accompanying practice pages.

The *Skill Practice Teaching Guide* includes:

- 25 mini-lessons and 5 review lessons
- Interactive whiteboard activities to promote student participation and support instruction
- *Student Skill Practice Book* corrections
- Individual student and class assessment forms
- Three diagnostic proofreading passage scoring keys

The *Student Skill Practice Book* includes:

- Three practice book pages per lesson (the third of which can be scored)
- A *Student Grammar Guide* containing grammar terms with definitions and examples
- Three diagnostic proofreading passages for formative assessment of language standards

## Language Skills Support in the *Being a Writer Teacher’s Manual*

The *Being a Writer* program supports students’ acquisition of grammar, usage, and mechanics skills. The “Grade 4 Skills Correlation to *Being a Writer*” table on the following pages shows where a skill is taught in the grade 4 *Teacher’s Manual* and where Skill Practice Notes refer to lessons in the *Skill Practice Teaching Guide*.

## Making the Most of a Mini-lesson

There are three main ways to incorporate the lessons in the *Skill Practice Teaching Guide* into the *Being a Writer* program:

- Teach the 30 lessons in sequence.
- Teach specific skills to support work in a particular genre, as suggested by Skill Practice Notes in the *Being a Writer Teacher’s Manual*.
- Use the formative assessments in Appendix C at the beginning, middle, and end of the year. The first two assessments can be used to determine which lessons to teach and to whom, and the final assessment can be used to evaluate student progress at the end of the year.

Each mini-lesson includes an introduction, teacher-guided practice, and a set of three optional practice pages for students. Many lessons also offer opportunities for students to collaborate with peers; the icon  serves as a marker for collaborative activities. Mini-lessons also encourage student participation via interactive whiteboard activities. The interactive whiteboard activities challenge students to complete tasks designed to help them identify and use common English language conventions. Students might be asked to the whiteboard to drag a correct answer from a word box into a blank, to click a blank to reveal an answer, or to use the pen tool to correct a sentence fragment. Facsimiles of the whiteboard activities appear with answers in each lesson of the *Skill Practice Teaching Guide* at point of use. All whiteboard activities are also available on the CCC Learning Hub to print and project, or to use as paper-and-pencil activities.\*

---

## Using the Student Skill Practice Book

Three optional student practice pages are provided in the *Student Skill Practice Book* for each lesson. Activities are scaffolded. For example, the first page of a lesson might involve a simple task, such as identifying a language element; the second page might invite students to choose which language element works best in a specific context; and the third page might call for more sophisticated tasks, such as proofreading a written work for accuracy. All three pages offer a brief writing prompt to give the students an opportunity to use the language skill in original writing.

The third page of each set of practice pages for each lesson can be scored to evaluate student progress and inform instruction. The scores can be added to the “Skill Practice Student Record” sheet and the “Skill Practice Class Record” sheet to record individual and class results. For students who need additional support, this page is also available as an interactive

whiteboard activity for reteaching. For more information about using the practice pages in the *Student Skill Practice Book* to evaluate student progress, see “Skill Practice Assessment” found in Appendix B.

---

## Assessing Language Skills

Three diagnostic language skills tasks in Appendix C of this guide offer the opportunity to assess students’ development and mastery of the grade-level language standards.

Student copies of the proofreading and editing tasks appear in the back of the *Student Skill Practice Book* on page 103. In Appendix C of this guide, you will find instructions for conducting, scoring, and analyzing the assessment, along with annotated versions of the tasks that serve as scoring keys. The scoring keys also list standard(s) addressed by each item.

You may wish to administer a diagnostic proofreading and editing task at the beginning, middle, and end of the year. Appendix C includes two cumulative report forms per task—one for recording individual student results and one for recording class results—that allow you to track progress and to identify specific skills requiring additional review, reteaching, and practice. These forms are also available on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)), and they can be accessed through the CCC ClassView™ assessment app ([classview.org](http://classview.org)).

## INTRODUCTION

1. Explain that a **sentence** is a group of words that tells a complete thought. Point out that every sentence has two main parts: a **subject** that tells whom or what the sentence is about and a **predicate** that tells what the subject does or is.
2. Display the “Complete Sentences” activity (WA1). Read the first sentence aloud and ask:

**Q** Which words tell whom or what the sentence is about—Most plants or get their food from the soil and the sun? (Most plants)

**Q** Which words tell what the subject does? (get their food from the soil and the sun)

Invite volunteers to respond. Then draw one line under *Most plants* and two lines under *get their food from the soil and the sun*. Tell the students that *Most plants* is the subject of the sentence: it tells whom or what the sentence is about. Explain that *get their food from the soil and the sun* is the predicate: it tells what most plants do.

3. Repeat the process for sentences 2–6.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

4. Point to the subject, *Most plants*, in sentence 1. Ask:

Q Which word tells exactly what the sentence is about—Most or plants? (plants)

Explain that the most important word in a subject is called the **simple subject**, and that the **complete subject** includes all of the words that tell whom or what the sentence is about. Draw a box around *plants*.

WA1

1. Most plants get their food from the soil and the sun.
2. Some plants eat insects for their dinner.
3. Different plants trap insects in different ways.
4. One plant produces a sticky substance.
5. Bugs stick to this substance.
6. The unlucky bugs die.

5. Point to the predicate, *get their food from the soil and the sun*, in sentence 1. Ask:

Q Which word tells what the plants do? (get)

Explain that the most important word in the predicate is called the **simple predicate** and that the simple predicate is a verb. Then explain that the **complete predicate** includes all of the words that tell what the subject does or is. Draw a box around *get*.

6. Have a volunteer read sentence 2 aloud. Ask:

Q Which word in the subject is most important? (plants)

Q Which word in the predicate is most important? (eat)

Invite a volunteer to the whiteboard to draw boxes around the simple subject and the simple predicate. Repeat the process for sentences 3–6.

7. Use sentence 5 to point out that sometimes the complete subject and the simple subject are the same. Use sentence 6 to point out that the complete predicate and the simple predicate can also be the same.

## GUIDED PRACTICE

8. Display the “Complete Sentences” activity (WA2). Read the first sentence aloud and ask, pausing after each question for one or two volunteers to answer:

Q What is the complete subject? (A fly)

Q What is the complete predicate? (crawls up the stem of a Venus flytrap)

Explain that *Venus flytrap* is the name of a plant. Then ask:

Q What is the most important word in the complete subject? (fly)

Q What is the most important word in the complete predicate? (crawls)

Click the blank to the right of the labels *Simple Subject* and *Simple Predicate* beneath sentence 1. Use *Venus flytrap* to point out that a simple subject is sometimes more than one word.

WA2

1. A fly crawls up the stem of a Venus flytrap.

Simple Subject: fly Simple Predicate: crawls

2. The Venus flytrap shuts its leaves around the insect.

Simple Subject: Venus flytrap Simple Predicate: shuts

3. Insects provide food for the plant.

Simple Subject: Insects Simple Predicate: provide

4. These plants grow in soil with very little food.

Simple Subject: plants Simple Predicate: grow

9. Repeat the process for the remaining sentences. Ask the students to identify the sentence in which the complete subject and the simple subject are the same. (Sentence 3; *Insects* is both the complete and simple subject.)

10. Have the students work in pairs to write a paragraph, using complete sentences. Ask them to underline each simple subject once and each simple predicate twice.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about something they like to do in nature. It can be anything from planting a garden to watching the weather to swimming in a lake.

## Optional Practice

Have the students complete pages 1–3 in their *Student Skill Practice Books*, independently or in pairs, to practice writing complete sentences. Note that page 3 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 3 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

## INTRODUCTION

1. Explain to the students that today they will learn how to connect simple sentences. Point out that a simple sentence contains a subject and a predicate and expresses a complete thought.
2. Display the “Compound Sentences” activity (WA5). Ask the students to listen carefully as you read sentences 1–4, which are all simple sentences. Then read the sentences aloud and ask:

**Q** *What did you notice about how these sentences sounded as I read them?*

#### Students might say:

“The sentences were all really short.”

“I agree with Chris, and all the short sentences together sounded choppy.”

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Allow a few volunteers to respond. Then explain that to make these simple sentences longer and more interesting, we can use the word *and* to join pairs of sentences together. In the blank between sentences 1 and 2, write the word *and*. Then replace the period after the word *bikes* with a comma and read the new sentence: *I like to look at bikes, and I love to ride them.*

Point to the word *and* in the new sentence, and explain that *and* is a connecting word we call a **conjunction**. Explain that when we use a conjunction like *and* to connect simple sentences, we form what is called a **compound sentence**. Point to the comma in the sentence, and explain that we put a comma before a conjunction in a compound sentence.

WA5

and but or

(1) I like to look at bikes, and (2) I love to ride them.

(3) I go almost anywhere on my bike, and (4) I get there

pretty fast. (5) Last week I decided to form a bike club. (6) New

members can be experienced riders, or (7) <sup>†</sup>They can be

beginners. (8) Members must take good care of their bikes, and

they must name them. (9) Names like Torpedo and Meteor are

good, but (10) <sup>†</sup>The name should mean something to the

bike's owner. (11) I will try to come up with a better name.

3. Have the students silently read sentences 3 and 4. Ask:

**Q** *How can we use the conjunction and to make these two simple sentences a compound sentence?*

Write *and* on the line, and replace the period with a comma before the conjunction.

Read the new compound sentence aloud: *I go almost anywhere on my bike, and I get there pretty fast.*

4. Read sentence 5 aloud. Tell the students that using a variety of sentence lengths makes writing more interesting. Point out that you have formed two compound sentences in this paragraph, so you will leave this sentence as it is.

5. Read sentences 6 and 7 aloud. Explain that these sentences show a choice between two kinds of members—those who have ridden a bike for a while and those who are beginners. Explain that, instead of the conjunction *and*, we use another conjunction, *or*, to join two sentences that show a choice.

Write *or* on the line, replace the period after the first sentence with a comma, make the *T* in *They* lowercase, and read the new sentence aloud: *New members can be experienced riders, or they can be beginners.*

6. Read sentence 8 aloud and ask:

**Q** *Is this sentence a simple sentence or a compound sentence? Why do you say that?*

If necessary, point out that the sentence is a compound sentence that uses the conjunction *and*.

7. Read sentences 9 and 10 aloud. Explain that these sentences show a contrast, or difference, between kinds of bike names. Explain that to join sentences like these that show a contrast or difference we use a third conjunction—*but*.

Write *but* on the line, replace the period with a comma, make the *T* in *The* lowercase, and read the new sentence aloud: *Names like Torpedo and Meteor are good, but the name should mean something to the bike's owner.*

8. Read sentence 11 aloud and remind the students that this is a simple sentence. Point out that ending with a simple sentence helps add variety to the writing.

## GUIDED PRACTICE

9. Display the “Compound Sentences” activity (🗨️ WA6). Explain that the students will now practice using the conjunctions *and*, *but*, and *or* to combine simple sentences into compound sentences. Review that *and* shows similarities between ideas, *but* shows a contrast or a difference, and *or* shows a choice.

Lionel might join the karate club, or he could try out for the chorus.

3. The karate club meets after school. Lionel has to walk the dog then.

4. Lionel decided to join the chorus. Next year he might try karate.

Lionel decided to join the chorus, but next year he might try karate.

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

WA6

10. Read sentence pair 1 aloud. Then ask the students to discuss these questions in pairs:

**Q** Which conjunction can you use to combine these simple sentences into a compound sentence? Why would you use this conjunction?

As a class, have the students discuss which conjunction they would use and why. Then invite a volunteer to the whiteboard. Have him write the conjunction on the line and place the comma where it belongs. Ask the student to read the compound sentence aloud.

11. Repeat the process with the remaining sentence pairs.

12. Have the students work in pairs to write a paragraph, using both simple and compound sentences.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about an activity they both enjoy doing.

## Optional Practice

Have the students complete pages 4–6 in their *Student Skill Practice Books*, independently or in pairs, to practice forming compound sentences. Note that page 6 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 6 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### Teacher Note

You might have the students write brief explanations in the Proofreading Notes section of their *Student Writing Handbooks* of how each conjunction connects ideas.

## INTRODUCTION

1. Remind the students that they have learned about two kinds of sentences: simple sentences and compound sentences. Review that a simple sentence tells a complete thought and can stand on its own, and a compound sentence is formed by joining two simple sentences using the conjunction *and*, *or*, or *but*. Explain that today the students will learn how to combine a simple sentence with a group of words that does not tell a complete thought.

2. Display the “Complex Sentences” activity (WA9). Point to and read the complete sentence aloud: *Yesterday was special*. Ask:

**Q** *Is this a complete sentence? Why or why not? (Yes. It tells a complete thought.)*

Allow students time to think, and invite one or two volunteers to respond. Then point to and read *Because I made a new friend* aloud. Ask:

**Q** *Is this a complete sentence? Why or why not? (No. It does not tell a complete thought.)*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

After volunteers respond, explain that the ideas in these two groups of words are connected—*Because I made a new friend* tells why *Yesterday was special*—so the two groups of words can be combined into a single sentence joined by the word *because*.

WA9

after because before if when while

1. Yesterday was special. Because I made a new friend.  
Yesterday was special because I made a new friend.
2. I met my new pal by accident while I was shopping at Shoe Shack.
3. I noticed him because he was wearing a Bobcats baseball cap.
4. I spotted the cap when he wandered into the store.
5. I wore the same cap when I played on my old school's baseball team.
6. I had to meet this boy before he left the store.

3. Write the sentence *Yesterday was special because I made a new friend*. Explain that you have formed a **complex sentence**—a sentence made up of one complete sentence and one group of words that depends on the complete sentence in order to make sense. Draw one line under the complete sentence and two lines under the group of words that depends on it in order to make sense. As you underline the parts, explain that *Because I made a new friend* is not a complete thought; it depends on the complete sentence *Yesterday was special* to make sense.
4. Point to the words in the word box: *after*, *because*, *before*, *if*, *when*, and *while*. Explain that these words are special conjunctions that join the two parts of a complex sentence. Circle the word *because* in the complex sentence you wrote.
5. Draw the students' attention to sentence 2. Draw one line under the part that can stand alone (*I met my new pal by accident*), and draw two lines under the part that depends on the complete sentence in order to make sense (*while I was shopping at Shoe Shack*). Ask:  
**Q** Which conjunction joins the two ideas? (*while*)  
Circle the conjunction. Point out that when you use a conjunction to join the parts of a complex sentence, you do not put a comma before the conjunction.
6. Repeat the process for sentences 3–6.

## GUIDED PRACTICE

7. Display the “Complex Sentences” activity (C WA10). Tell the students that you will read a paragraph containing complex sentences that are missing conjunctions. Explain that you will work together to choose the conjunction that best combines the two parts of each complex sentence.

### Teacher Note

As you identify the conjunction in each sentence, tell the students how the parts of each sentence are related. Point out that *after*, *before*, *when*, and *while* show when events happen; *because* signals a cause or reason why something happens.

WA10

after    because    before    if    when    while

I walked over to the boy while he was trying on some sneakers. I asked him if he played for the Boomtown Bobcats. “No. I played for Berryville,” he answered. “I just moved here. I go to Kirkwood now.” I was shocked when he said that. I had just started at Kirkwood, too. We walked out of the store together after his mom paid for the shoes. I asked him if he wanted to toss a ball around on Saturday. We exchanged addresses before we said good-bye. I was really happy because I had made a new friend.

8. Point to and read aloud *I walked over to the boy and he was trying on some sneakers*. Ask:
  - Q *How are these two groups of words related? (They are related by time. The second group of words tells what was happening as the narrator walked over to the boy.)*
  - Q *Which conjunction can we use to join these two groups of words? (while) Do you need a comma in this complex sentence? (No.)*
9. Continue through the paragraph, reading the sentences aloud and having volunteers take turns choosing the correct conjunction to combine the two parts of each complex sentence. Drag and drop the conjunctions into the blanks. Once all of the conjunctions have been placed, read the completed paragraph aloud.

10. Have the students work in pairs to write a paragraph, using simple sentences as well as compound and complex sentences.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a time when they first met a teacher, classmate, or other friend.

## Optional Practice

Have the students complete pages 7–9 in their *Student Skill Practice Books*, independently or in pairs, to practice using conjunctions in complex sentences. Note that page 9 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 9 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

**INTRODUCTION**

1. Tell the students that in this lesson they will learn how to correct **sentence fragments**, or incomplete sentences. The fragments are missing a subject, a predicate, or both. Explain that knowing how to make sentences complete will help the students express their ideas clearly.
2. Display the “Sentence Fragments” activity (📄 WA13). Read the sentence in the box. Ask:

**Q** *Is this a complete sentence? Why or why not? (It is a complete sentence. It expresses a complete thought. It has both a subject and a predicate.)*

Remind the students that a complete sentence has a subject that tells who or what the sentence is about, and a predicate that tells what the subject does or is. Invite volunteers to identify the complete subject (*Sea turtles*) and the complete predicate (*live in the ocean*) in the sentence in the box.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

3. Direct the students' attention to item 1. Explain that a group of words that is punctuated like a sentence but does not express a complete thought is called a *sentence fragment*. It is missing a subject, a predicate, or both. Read aloud item 1 and ask:

**Q** *Is this a sentence or a sentence fragment? (a fragment) What is missing?*

Give the students a few moments to think, and then invite one or two volunteers to respond. Explain that this group of words is missing a subject; then click the blank to reveal the complete sentence. Read it aloud and explain that the sentence tells who or what comes ashore to build nests: *Sea turtles come ashore to build their nests.*

WA13

Sea turtles live in the ocean.

1. Come ashore to build their nests.  
Sea turtles come ashore to build their nests.
2. A tiny sea turtle.  
A tiny sea turtle crawls toward the ocean.
3. In the sand.  
It leaves its footprints in the sand.
4. Spots the turtle from the sky!  
A hungry bird spots the turtle from the sky!

4. Repeat the process for the remaining items. Remind the students that changing sentence fragments into complete sentences will make their thoughts easier for readers to understand.

---

### Teacher Note

Point out the use of the exclamation point in sentence 4. Explain that the writer used this to show excitement or a strong feeling. Here, the baby turtle is in danger of being eaten by the bird, and the exclamation point conveys the danger. You might suggest that the students determine the best end punctuation for their sentences as they write and use exclamation points only where they would be most effective.

## GUIDED PRACTICE

5. Tell the students that next they will practice correcting some sentence fragments.
6. Display the “Sentence Fragments” activity (🎧 WA14). Read the first fragment aloud. Ask:

**Q** *What is missing—the subject, the predicate, or both? (the subject)*

Read the two options below the fragment aloud and ask:

**Q** *Which answer choice is a complete sentence?*

Click the first answer choice. Guide the students to see that the subject *The bird* was added to form a complete sentence. Ask the students to explain why the other option is incorrect. (It is still missing a subject.)

---

### Teacher Note

If the students are unsure about what is missing, follow up with additional questions. (For example, “Do we know who or what dove toward the baby turtle? If we do not know who or what is performing an action, then the subject is missing.”)

WA14

1. Dives toward the baby turtle!
  - a. The bird dives toward the baby turtle!
  - b. Dives toward the baby turtle and squawks!
2. The scared turtle on the beach.
  - a. Moves faster on the beach.
  - b. The scared turtle moves faster.
3. The baby sea turtle into the water.
  - a. Escapes into the water.
  - b. The baby sea turtle escapes.

7. Continue guiding the students through the sentence fragments, reading them aloud and helping the students determine what is missing and which answer choice forms a complete sentence. Then ask, pausing after each question for a few volunteers to respond:

**Q** *How does the exclamation point in item 1 add to the story?*

**Q** *Would you change the end punctuation in any of these sentences? Why or why not?*

**Students might say:**

"The exclamation point makes me suddenly start to worry about the turtle."

"I agree with Miguel. I also wouldn't add any other exclamation points."

"I disagree with Darla. I would add an exclamation point to the third sentence to show that the writer was really happy the turtle escaped."

8. Have the students work in pairs to write a paragraph using complete sentences. Ask the partners to check each other's work to ensure that there are no sentence fragments.

---

**Teacher Note**

If the students have difficulty thinking of a topic to write about, suggest that they write about a baby animal they both have seen.

## Optional Practice

Have the students complete pages 10–12 in their *Student Skill Practice Books*, independently or in pairs, to practice writing complete sentences. Note that page 12 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 12 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

 **ELL Note**

In Spanish, complete sentences do not always include a subject. Therefore, students with this language background may need additional practice correcting fragments missing the subject.

## INTRODUCTION

1. Tell the students that they will practice recognizing and correcting **run-on sentences**, two or more sentences joined together without correct punctuation or a connecting word. Explain that writing sentences correctly makes the writing clear and easy to follow.
2. Display the “Run-on Sentences” activity (WA17). Read the first run-on sentence aloud. Ask:

**Q** *What do you notice about this sentence?*

Invite a few volunteers to respond. If necessary, point out that there are two sentences running together with no punctuation at all. Ask:

**Q** *How can we correct this sentence?*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Give the students a few moments to think, and invite one or two volunteers to respond. Then explain that one way to show where one thought ends and the other begins in a run-on sentence is to divide it into two sentences. Add a period after *instrument* and capitalize *she* to correct the run-on. Repeat the process with sentence 2.

WA17

and but or because

1. Katia wanted to play a musical instrument, <sup>S</sup>she chose the clarinet.
2. Her parents bought her a used clarinet, <sup>T</sup>then she signed up for classes.
3. Katia was excited about her first lesson, <sup>and</sup>she gave her parents a hug.
4. Learning was hard for Katia, <sup>but</sup>she wouldn't give up.
5. She practiced every day, <sup>because</sup>she wanted to try out for the band.

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

3. Explain that another way to correct a run-on sentence is to use a conjunction, such as *and*, *but*, *or*, or *because*, to join the thoughts together.
4. Read run-on sentence 3 aloud, and ask students which conjunction from the word box makes sense in the sentence. Add the conjunction *and* after the word *lesson* to connect the two related ideas. Ask students what else is needed to complete the sentence. (a comma before the conjunction *and*)
5. Reread the sentence aloud and ask:
  - Q *What kind of sentence is this? (compound) What does the conjunction tell you? (The ideas in the two sentences are similar; they relate to the same event.)*
6. Repeat the process with sentences 4 and 5. Point out that the corrected version of sentence 5 is made up of two groups of words: one that can stand alone and one that cannot. Have a volunteer identify each and tell whether a comma is needed before the conjunction *because*. (No.)
7. After all the run-ons have been corrected, reread the passage aloud. Ask:
  - Q *Why is it good to know about different ways to correct a run-on sentence? (Correcting run-ons in different ways adds variety to the writing. Some sentences will be long and others will be short.)*
  - Q *How can writing sentences correctly improve your writing?*

Give the students time to think, and invite one or two volunteers to respond. If necessary, remind the students that writing sentences correctly helps clarify ideas and make them easy to follow.

### Teacher Note

If the students are having difficulty determining where to divide sentences, suggest that they read the writing aloud and listen to where their voices naturally pause. Model rereading sentence 1 aloud. Ask:

Q *Where do you hear a pause? (after the word instrument)*

## GUIDED PRACTICE

- Tell the students that together you will read a passage that contains some run-on sentences and determine how to correct them.
- Display the “Run-on Sentences” activity (WA18). Read the passage aloud and ask:

Q *What do you notice about this passage? (The ideas are hard to follow. It has run-on sentences.)*

Q *What is the first run-on sentence? What is one way we can fix it?*

Give the students a few moments to think. Invite a volunteer to the whiteboard. Have her use the pen to correct the sentence. (Accept either of the following: The student might add a period after *flute* and capitalize *sometimes* to divide the run-on into two simple sentences, or add a comma and the conjunction *and* after *flute* to create a compound sentence.)

**Conjunctions:** and but or because

Katia often played the wrong notes on her flute, sometimes  
she felt like giving up. She tried out for the band, but at first she  
didn't get in. Katia's friend Nico was in the band, he knew she was  
disappointed. He told her she could keep trying, or she could give up.  
Katia was determined to play in the band, and her determination  
finally paid off. Katia felt proud because she had been accepted as a new  
band member.

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

WA18

10. Continue reading the remaining sentences aloud and helping volunteers correct them. Suggest that the students use each conjunction in the word box at least once. After the run-ons have all been corrected, reread the passage aloud. Ask:

**Q** *How is the writing different now that the run-ons have been corrected? (The meaning is clearer.)*

11. Have the students work in pairs to write a paragraph. Ask them to check their work to ensure that all the sentences are written correctly.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about learning how to do something new, such as playing an instrument, learning a sport, or riding a bike.

## Optional Practice

Have the students complete pages 13–15 in their *Student Skill Practice Books*, independently or in pairs, to practice correcting run-on sentences. Note that page 15 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 15 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### Teacher Note

You might have the students write an example of one way they corrected a run-on sentence in the Proofreading Notes section of their *Student Writing Handbooks*.

### Whiteboard Activities

- “Review” activity (WA21)
- “Review” activity (WA22)
- “Review” activity (WA23)

## REVIEW

1. Explain to the students that they are going to review what they have learned about sentences in Lessons 1–5. Remind the students that they have learned how to:
  - Recognize a complete sentence
  - Form compound and complex sentences
  - Recognize and correct sentence fragments and run-on sentences

2. Display the “Review” activity (WA21). Read aloud the definition of a sentence and the two parts every sentence must have. Have the students read the first sample sentence. Ask:

**Q** *What is the complete subject in this sentence?*

Invite a volunteer to respond, and confirm the student’s response by drawing a line under the complete subject. (*My older sister*) Remind the students that the simple subject is the most important word in the complete subject. Invite a volunteer to identify the simple subject. (*sister*)

3. Repeat the process for the complete and simple predicate, using the next two sample sentences.

A **sentence** is a group of words that expresses a complete thought. It includes a subject and a predicate.

- The **subject** tells whom or what the sentence is about.

My older sister just got a new bike.

- The **predicate** tells what the subject does or is.

Patricia rides up steep hills. She is very athletic.

A **sentence fragment** does not express a complete thought. To change a fragment to a complete sentence, add information.

\_\_\_\_\_ My brothers \_\_\_\_\_ ride bikes in the summer.

My parents \_\_\_\_\_ ride on rough, rocky trails \_\_\_\_\_.

Sample answers are listed above. Answers may vary.

4. Then explain that a sentence fragment is not a complete sentence because it is missing a subject, a predicate, or both. Point to the first example of a sentence fragment and ask:

**Q** *What needs to be added to make this fragment a complete thought? (a subject)*

Invite the students to suggest a subject to complete the sentence. Write one of their answers on the line. (Sample answer: *My brothers*)

5. Repeat the process for the second example of a sentence fragment. Ask the students what needs to be added, and have a volunteer suggest a complete predicate to complete the sentence. (Sample answer: *ride on rough, rocky trails*)
6. Display the “Review” activity (🔗 WA22). Remind the students that they have learned about two different ways to join sentences. Read aloud the definition of a compound sentence. Ask:

**Q** *Which conjunction best links the two thoughts in this sentence?*

Click the blank to confirm the student’s answer. Point out that a comma precedes the word *but*.

A **compound sentence** connects two simple sentences using the words *and*, *but*, or *or*. Place a comma before the connecting word.

I like all four seasons, **but** fall is the best!

A **complex sentence** is made up of a group of words that can stand on its own and a group of words that cannot. Complex sentences use conjunctions like *before*, *after*, or *while*. No comma is needed before the conjunction.

I always put on my helmet **before** I ride my bike.

7. Repeat the procedure for the example of a complex sentence. Ask the students to suggest a conjunction that could complete the sentence. (*before*) Point out that no comma is needed before the conjunction.
8. Finally, explain to the students that sometimes, in a rush to write down ideas, thoughts may run together in a sentence with no connecting words or punctuation.
9. Display the “Review” activity (🕒 WA23) and review the two suggestions for correcting a run-on sentence. Have volunteers apply each one to the example sentence. Then click to see the answers.

A **run-on sentence** is made up of two or more sentences that run together without punctuation or a connecting word.

- One way to correct a run-on sentence is to separate it into two or more complete sentences.

You just walked into a bike shop. **T**here are so many different bikes!

- Another way to correct a run-on sentence is to join the thoughts together with a connecting word.

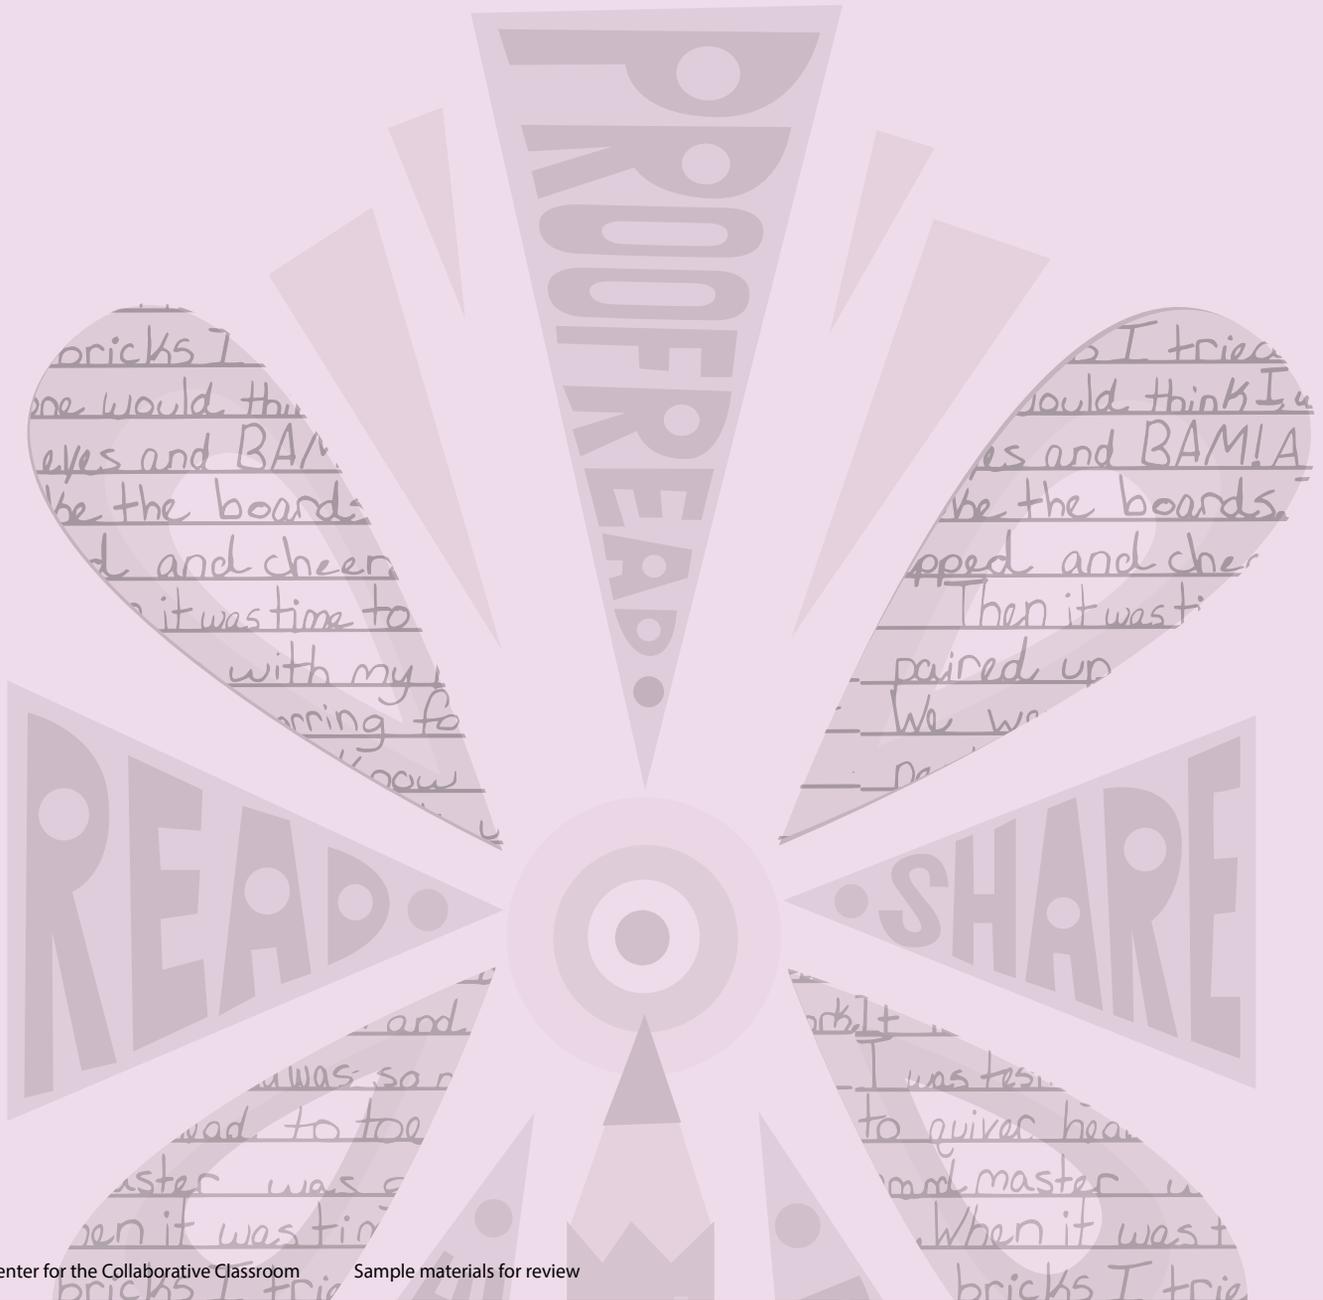

You just walked into a bike shop, **and** there are so many different bikes!

## Optional Practice

Have the students complete pages 16–18 in their *Student Skill Practice Books*, independently or in pairs, to practice writing sentences correctly.

## INTRODUCTION

1. Explain to the students that in this lesson they will learn about nouns. Remind them that a **noun** is a word that names a person, a place, an animal, a thing, or an idea. A noun can be singular or plural. A **singular noun** names one. A **plural noun** names more than one.
2. Display the “Singular, Plural, and Possessive Nouns” activity (WA1). Read the first sentence aloud and ask:

**Q** *Does the underlined noun name a person, place, or thing? (person) Is it singular or plural? (singular)*

If necessary, point out that *dentist* names one person and is, therefore, a singular noun. Ask:

**Q** *What word can we use to complete the second sentence? (dentists)*

Explain that we need the plural form of *dentist* because the writer is talking about “more than one.” Ask:

**Q** *How do we form the plural of dentist? (add -s)*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Give the students time to think, and then invite one or two volunteers to respond. Click the blank to reveal the word *dentists* and read the sentence aloud. Point out that most nouns form their plural by adding *-s*.

WA1

1. I don't want to go to the dentist today. I do not like dentists .
2. I know this day might be bad. We all have bad days once in a while.
3. I make a wish that I won't have any cavities. Sometimes, wishes come true.
4. I take my lucky penny with me. Maybe I should put two lucky pennies in my pocket.
5. If I brush twice a day, I'll never lose a tooth. I like all my teeth just where they are!

3. Repeat the process for the remaining sentences, explaining the following rules for forming plural nouns:
  - Sentence 2: Add *-s* to form the plural of most nouns.
  - Sentence 3: Add *-es* to a noun that ends with *s*, *x*, *sh*, or *ch*.
  - Sentence 4: To form the plural of a noun that ends with a consonant + *y*, change the *y* to an *i* and add *-es*.
  - Sentence 5: Some nouns form their plural by changing their spellings. These are called **irregular nouns**.

### Teacher Note

If you wish to provide practice forming irregular plural nouns, demonstrate forming these plurals: *mouse/mice*, *goose/geese*, *child/children*, *woman/women*, and *man/men*. Point out that some nouns have the same spelling in their singular and plural form: *sheep/sheep*, *deer/deer*, *fish/fish*, and *moose/moose*.

4. Display the “Singular, Plural, and Possessive Nouns” activity (🕒 WA2). Read aloud the three phrases in the word box and point out the underlined words. Explain that these nouns are called **possessive nouns**. They show ownership, or what belongs to a person, place, or thing. Ask:

Q *What belongs to the boy?* (penny) *What belongs to the girls?* (dimes) *What belongs to the women?* (purses)

Explain that *the boy's penny* is a short way of saying “the penny that belongs to the boy”; *the girls' dimes* is a short way of saying “the dimes that belong to the girls”; and

*the women's purses* is a short way of saying "the purses that belong to the women."  
Then ask:

**Q** *What is similar in each of these possessive nouns? What is different?*

As needed, point out that each possessive noun includes an apostrophe; however, sometimes the apostrophe is placed before an *s* and sometimes it is placed after it. Use the examples to explain how to form singular and plural possessive nouns:

- Add an apostrophe and *-s* to a singular noun, such as *boy*.
- Add just an apostrophe to a plural noun ending with *s*, such as *girls*.
- Add an apostrophe and *-s* to a plural noun that does not end with *s*, such as *women*.

the boy's penny (the penny that belongs to the boy)  
the girls' dimes (the dimes that belong to the girls)  
the women's purses (the purses that belong to the women)

WA2

1. The dentist's office is big.
2. Dr. Rooter's name is written on the door.
3. Two girls'  jackets are hanging on the coat rack.
4. Children's toys are in a box in the corner.
5. The assistants'  computers are on the desk.

5. Read the first sentence below the word box aloud and ask:

**Q** *How can we make dentist a possessive noun?*

Give the students a few moments to think, and invite one or two volunteers to respond. Then add an apostrophe and *-s* to form the possessive noun *dentist's*. Read the completed sentence aloud and invite a volunteer to explain why adding *'s* is correct. (*Dentist* is a singular noun.)

6. Invite volunteers to the whiteboard to complete the remaining sentences. After all the possessive nouns have been formed, ask:

**Q** *Why is it important to know how to use possessive nouns correctly?*

**Students might say:**

"Possessive nouns are a great way to show who owns something."

"I agree with Kim. You can show who owns something in just a few words."

"If you don't write possessive nouns correctly, your reader could get confused."

## GUIDED PRACTICE

7. Display the “Singular, Plural, and Possessive Nouns” activity (WA3). Have the students work in pairs to read the passage and discuss which answer choices should be used to complete the sentences.

8. Read the first two sentences aloud and ask:

**Q** Which form of the noun dentist should we use here? Why? (dentist’s; The possessive noun should be used because it shows that the chair belongs to the dentist.)

Invite a volunteer to circle the correct answer and explain why it is correct.

### Teacher Note

You might wish to use these sentences to highlight the importance of using context in determining which noun form to use.

It was finally my turn to see Dr. Rooter. I sat down in an enormous (dentists, dentist’s) chair. There were (boxs, boxes) of (toothbrushs, toothbrushes) everywhere. The doctor said hello. He said he hoped I didn’t have any (cavity’s, cavities). His smile helped me relax. Then I heard (womens’, women’s) laughter, and that made me giggle. Dr. Rooter said, “Open wide!” Then he cleaned my (tooths, teeth).

Afterward he told my mom, “Your (sons’, son’s) job is to keep up the good work.”

“Not so bad!” I thought as I rubbed my lucky (pennys, pennies).

WA3

9. Continue guiding the students through the story, calling on volunteers to choose the answers that complete it. After all the nouns have been chosen, reread the story aloud.

10. Have the students work in pairs to write a paragraph that includes singular and plural nouns, as well as singular and plural possessive nouns.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a visit to the dentist.

## Optional Practice

Have the students complete pages 19–21 in their *Student Skill Practice Books*, independently or in pairs, to practice forming singular and plural nouns, as well as singular and plural possessive nouns. Note that page 21 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 21 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### **ELL Note**

In Chinese, Vietnamese, and other Asian languages, there is no plural form for nouns. In Spanish plurals are formed by adding *-es* to nouns ending with any consonant or *y*. Therefore, students from these language backgrounds may need additional practice with plural nouns.

---

### **ELL Note**

In Spanish, Haitian Creole, and Vietnamese, there are no possessive noun forms. Possession is shown through the use of phrases such as “the penny of the boy.”

## INTRODUCTION

1. Tell the students that they will practice recognizing and using **pronouns**, or words that take the place of nouns. Explain that using pronouns correctly helps writers compose smooth, clear sentences.
2. Display the “Subject and Object Pronouns” activity (🗨️ WA6). Point out the subject pronouns in the word box. Explain that a **subject pronoun** can take the place of the subject of a sentence. Read the two sentences aloud and identify the subject of both. (*Liz*) Ask:

🗨️ *What do you notice about these sentences? How do they sound?*

Invite a few volunteers to respond. If necessary, point out that repeating *Liz* makes the sentences sound choppy or unnatural. Explain that replacing *Liz* with a subject pronoun will make the sentences sound more natural. Ask:

🗨️ *Which pronoun can we use to replace the name Liz?*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Give the students a few moments to think, and have one or two volunteers respond. Click *Liz* to reveal the pronoun *She*, and explain that when you replace a subject that is “one female” you use *she*. Ask:

**Q** *If the subject were Tom instead of Liz, which pronoun would you use? (He)*

WA6

**Subject Pronouns:** I You He She It We They

1. Liz plays the drums. **She** practices every day.
2. Mr. Stewart is the music teacher. **He** gives drum lessons.
3. The Hendrick twins take guitar lessons. **They** will perform in a talent show next week.
4. The talent show is on Tuesday. **It** starts at 7:00 p.m.
5. Liz and I are going to the show. **We** will go there together.

3. Repeat the process for the remaining sentence pairs. Read the revised sentences aloud. Point out that pronouns make the sentences easier to understand and make the writing sound more natural.
4. Display the “Subject and Object Pronouns” activity (📄 WA7). Point out the object pronouns in the word box and explain that an **object pronoun** can take the place of a noun that is the object of a sentence. Explain that the object of a sentence receives the action of the verb. Explain that object pronouns can also follow words such as *with*, *to*, *of*, *from*, and *for*.

WA7

**Object Pronouns:** me you him her it us them

1. The Hendrick twins invited Liz to their house. They needed **her** for singing practice.
2. The twins had written a new song. Liz learned **it**.
3. I listened to Liz, Josh, and Jake. I clapped for **them**.
4. Some neighbors spoke with Mr. Hendrick about the loud music. They discussed the problem with **him**.
5. This surprised Liz, the twins, and me. The music pleased **us**!

5. Read the first sentence pair aloud, and identify the subject and verb in the first sentence. (*The Hendrick twins; invited*) Explain that *Liz* is the object of the sentence because *Liz* is the person who has been invited—*Liz* receives the action of the verb. Point out that *Liz* is repeated in the second sentence. Ask:

**Q** Which pronoun can we use to replace the name *Liz*?

Give the students a few moments to think, and have one or two volunteers respond. Click *Liz* to reveal the pronoun *her*, and explain that, when you replace an object that is “one female,” you use the pronoun *her*.

6. Repeat this process for the remaining sentence pairs. Explain that:
- The pronoun *it* refers to a thing, so *it* replaces *the new song*.
  - The pronoun *them* refers to more than one person, so *them* replaces *Liz, Josh, and Jake*.
  - The pronoun *him* refers to “one male,” so *him* replaces *Mr. Hendrick*.
  - The pronoun *us* refers to one or more people plus the speaker, so *us* replaces *Liz, the twins, and me*.

Point out that, in item 3, *Liz, Josh, and Jake* follows the word *for* and that, in item 4, *Mr. Hendrick* follows the word *with*. Remind the students that object pronouns can be used after words like those.

7. Write these sentences on the board: *I helped you. You helped me*. Explain that:
- The pronoun *I* is used only when you are talking about yourself as a subject; the pronoun *me* is used only as an object or after a word such as *with* or *to*.
  - The pronoun *you* can be used as both a subject and an object, and it can take the place of either a singular or a plural noun.

## GUIDED PRACTICE

8. Display the “Subject and Object Pronouns” activity (🗨️ WA8). Tell the students that they will read a story that is missing some words. Explain that you will work together to choose the correct subject and object pronouns to complete the story.

9. Read the first three sentences aloud and ask:

**Q** Who tightened the strings? (Josh) Can we insert the name *Josh* here? (Yes.) Would that be the best way to complete this sentence? Why or why not? (No. The sentence would sound choppy and repetitive. A pronoun would sound better.)

Help the students identify the correct pronoun by asking:

**Q** Which pronouns in the word box refer to one boy? (he; him) Which pronoun, he or him, should be used to complete the sentence? Why?

Guide the students to see that because *Josh* is the subject, *Josh* should be replaced by the subject pronoun *he*. Drag and drop *he* into the first blank.

10. Continue guiding the students through the story, reading the sentences aloud and helping volunteers choose the correct pronouns to complete them. After all of the pronouns have been placed, read the completed story aloud.

<b>Subject Pronouns:</b>	I	You	she	he	it	We	they
<b>Object Pronouns:</b>	me	you	her	him	it	us	them

The Hendrick twins were getting ready to go on stage. Josh realized that his guitar needed to be tuned. Quickly he tightened the strings and tested each one. “Hurry up!” Jake whispered to him. “You and I are playing next.”

“Don’t worry,” Josh said. “You and I will do fine. We have practiced a lot. The audience is going to love us.”

Just then the announcer called the boys’ names. The twins walked onto the stage, and they began to play.

11. Have the students work in pairs to write a paragraph, using at least two subject and two object pronouns.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a musical group or a song they like and explain why.

## Optional Practice

Have the students complete pages 22–24 in their *Student Skill Practice Books*, independently or in pairs, to practice using subject and object pronouns. Note that page 24 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 24 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

### Teacher Note

You might have the students write the rules for when to use subject and object pronouns, and provide examples of each, in the Proofreading Notes section of their *Student Writing Handbooks*.

### ELL Note

In Vietnamese and some other Southeast Asian languages, there is no gender distinction between third-person singular pronouns. Therefore, students from these language backgrounds may need additional practice with singular pronouns.

## INTRODUCTION

1. Explain to the students that in this lesson they will learn more about pronouns, or words that take the place of nouns.
2. Display the “Possessive Pronouns” activity (WA11). Read aloud the pronouns in the word box, and explain that **possessive pronouns** show possession, or ownership. Remind the students that they already know how to form and use possessive nouns.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

my your His her Its our Their

1. Raymond has a hobby. **His** hobby is flying kites.
2. One kite is shaped like a triangle. **Its** shape is good for catching the wind.
3. Two kites have long tails. **Their** tails spin in the wind.
4. One day a girl in the park demonstrated **her** kite trick.
5. The girl asked, "Do you like **my** kite trick?"

3. Read the first sentence pair aloud, and have a volunteer point out the possessive noun. (*Raymond's*) Ask:

**Q** *What belongs to Raymond?* (a hobby; flying kites)

Explain that one of the possessive pronouns in the word box can take the place of the possessive noun *Raymond's*. Then, ask:

**Q** *Which possessive pronoun can take the place of Raymond's?* (His)

Click *Raymond's* to reveal *His*. Then reread the two sentences aloud. Point out that the word *his* shows that one male owns something.

4. Repeat the process for the remaining sentences. Tell the students when to use each possessive pronoun:
  - *Its* shows that one thing owns something.
  - *Their* shows that more than one person, place, or thing owns something.
  - *Her* shows that one female owns something.
  - *My* shows that the speaker owns something.

Explain that:

- The pronoun *your* refers to something that belongs to just you, or to you and others. (*I like your kite.*)
- The pronoun *our* refers to something belonging to the speaker and to someone else. (*Sandy likes our kite.*)

5. After the sentences have been completed, have a volunteer read them aloud. Point to the phrases: *his hobby*; *its shape*; *their tails*; *her kite trick*; *my kite trick*. Explain that each possessive pronoun was placed before a noun to show ownership of that noun.

## Teacher Note

A possessive pronoun takes the place of a possessive noun to show ownership: **Ben's coat/his coat; Sara's bike/her bike**. When a pronoun is used before a noun, as in these examples, it also may be called a *possessive adjective*. The terms *possessive pronoun* and *possessive adjective* are both correct for words such as *his* and *her*. The second edition of the *Being a Writer* program uses the term *possessive pronoun*.

6. Display the “Possessive Pronouns” activity (🗨️ WA12) and explain that some possessive pronouns stand alone—they are not followed by a noun. Point to the possessive pronouns in the word box. Then read the first sentence pair aloud. Explain that a possessive pronoun can be used to replace the possessive noun *Raymond's*. Reread the second sentence aloud and ask:

**Q** Which possessive pronoun can we use to replace Raymond's?

Give the students a few moments to think, and invite one or two volunteers to respond. Click *Raymond's* to reveal the word *his*. Point out that when you replace a possessive noun such as *Raymond's* that is “one male,” you use the possessive pronoun *his*.

7. Repeat the process with the remaining sentences. Help the students articulate when to use each possessive pronoun:
  - Use *hers* to replace “one female.”
  - Use *theirs* to replace “more than one person, place, or thing.”
  - Use *yours* to refer to something that belongs to just you, or you and some other people.

mine yours his hers ours theirs

1. Raymond flies the blue kite with the long tail.  
The blue kite with the long tail is **his**.
2. The girl has a kite with a red tail.  
The red-tailed kite is **hers**.
3. The green and yellow kites belong to the women.  
The green and yellow kites are **theirs**.
4. “Does the beautiful silver kite belong to Jamie?”  
“Jamie, is the beautiful silver kite **yours**?”

WA12

### Teacher Note

You might want to write the following sentences on the board: *The kite is mine.*  
*The kite is ours.* Then explain:

- The pronoun *mine* refers to something that belongs to me.
- The pronoun *ours* refers to something that belongs to me and someone else.

8. After all the sentences have been completed, invite a volunteer to read them aloud.

## GUIDED PRACTICE

9. Display the “Possessive Pronouns” activity (🗎 WA13). Explain to the students that next they are going to practice using possessive pronouns.

WA13

<b>Used before a noun:</b>	my	your	his	her	its	Our	their
<b>Stands alone:</b>	mine	yours	his	hers	ours	theirs	

The town was having its first contest for beginning kite flyers.

Franco and his friend Ben took their kites out to the big field to practice. The boys easily got the kites up in the air.

After a few minutes, Franco shouted to Ben, “Hey! Our strings are getting twisted. Can you keep your kite away from mine?”

Two kite flyers nearby said, “We’re lucky those kites are not ours.”

10. Read the first sentence aloud and ask the students which possessive pronoun they could use in the blank. Invite a volunteer to the whiteboard. Have him drag and drop *its* into the sentence, and then read the sentence aloud. Ask the students why this pronoun is the correct choice.
11. Repeat the process with the remaining sentences. After all the pronouns have been placed, ask a volunteer to read the story aloud.

### Teacher Note

If necessary, help the students choose the correct pronoun by following up with additional questions. (For example, “Does the pronoun come before a noun or does the pronoun stand alone?”)

12. Have the students work in pairs to write a paragraph using at least three possessive pronouns.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a hobby they have or would like to have.

## Optional Practice

Have the students complete pages 25–27 in their *Student Skill Practice Books*, independently or in pairs, to practice using possessive pronouns. Note that page 27 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 27 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### Teacher Note

To help the students use possessive pronouns correctly, you might have them make a chart similar to this one in the Proofreading Notes section of their *Student Writing Handbooks*. Have the students underline the pronouns that can stand alone.

Singular	Plural
my, <u>mine</u>	our, <u>ours</u>
your, <u>yours</u>	your, <u>yours</u>
her, <u>hers</u> , <u>his</u> , its	their, <u>theirs</u>

---

### ELL Note

In Spanish, the article *the* is sometimes used instead of some possessive pronouns that precede a noun, for example: “The girl flew **the** kite.” Students with these language backgrounds may need additional practice with possessive pronouns.

## INTRODUCTION

1. Remind the students that they have learned that a pronoun is a word that takes the place of a noun. Explain that today they will learn more about pronouns.
2. Display the “Relative Pronouns” activity (🎯 WA16). Point to the words in the word box and explain that these words are a type of pronoun called **relative pronouns**. Read the relative pronouns aloud.

Point to sentence 1 and explain that, as you read the sentence aloud, you want the students to look and listen for the relative pronoun. Then read sentence 1 aloud. Ask:

**Q** *What relative pronoun is used in the sentence? (who)*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

3. Draw a box around *who* and underline *who did superhuman things*. Explain that we call *who* a relative pronoun because it introduces a group of words that relates to, or gives more information about, a noun or another pronoun in the sentence. Point to *who did superhuman things*. Ask:

Q What noun do the words *who did superhuman things* give more information about? (heroes)

Q What do the words *who did superhuman things* tell about the noun *heroes*? (The words tell why the heroes are special—they did things no real human could do.)

### Teacher Note

You might want to point out that the noun being described, *heroes*, comes directly before the group of words that describes it. You might also point out that *who did superhuman things* cannot stand on its own.

WA16

who whom whose which that

1. Tall tales are stories about make-believe heroes who did superhuman things.
2. Paul Bunyan, whose story is famous, is a tall-tale character.
3. Paul Bunyan, who was as big as a redwood, cut down trees for a living.
4. He had a gigantic ox named Babe that was bright blue.
5. The Great Lakes region, which is Paul's home, is where many stories took place.
6. Babe, whom many people remember, is almost as famous as Paul Bunyan.

4. Repeat the process with sentences 2–6, drawing a box around each relative pronoun, underlining each group of words that describes a noun or pronoun, and circling the noun or pronoun that the group of words gives more information about.
5. After completing all of the sentences, point out that *who* and *whom* are used only when talking about people, *that* and *which* are used to talk about things, and *whose* is used for both people and things to show ownership.

### Teacher Note

You might want to point out that, unlike subject, object, and possessive pronouns, relative pronouns do not have different forms for referring to males and females or for referring to one or more than one. A relative pronoun follows both singular and plural nouns and is used for both males and females.

### Teacher Note

As you work through the lesson, explain the distinctions between *who* and *whom*, and *that* and *which*:

- *Who* refers to the subject of the sentence.
- *Whom* refers to the object of a verb or preposition.
- *That* introduces information necessary to understand the sentence.
- *Which* introduces extra information—information that might be interesting but is not necessary.

## GUIDED PRACTICE

6. Explain that the students will now practice using the correct relative pronoun to complete some sentences.
7. Display the “Relative Pronouns” activity (📄 WA17). Read the first sentence aloud. Then ask:

**Q** *Which relative pronoun would you use to join the two parts of this sentence? Why would you use this pronoun?*

Give the students time to think. Then invite a few volunteers to respond. Point out that the pronoun *that* is used because it introduces a group of words that gives necessary information. It tells about the kind of *things* Bunyan and Babe did. Invite a volunteer to the whiteboard. Have her drag and drop *that* into the sentence and then read the sentence aloud.

who   that   whom   whose   which   that

Paul Bunyan and Babe did things that no real person or animal could do. In the early 1900s, a reporter, whose name was James MacGillivray, wrote stories about Bunyan. The reporter may have based his stories on tales that he heard from loggers. Loggers are people who make a living by cutting down trees. Later, people wrote books about Paul Bunyan. This folk hero, whom people still write about, lives on. People have even put up statues of him. You can visit these statues, which you are sure to enjoy.

WA17

8. Continue guiding the students through the paragraph, reading the sentences aloud and having volunteers select the relative pronouns and explain their choices. After all the pronouns have been placed, invite a volunteer to read the paragraph aloud.

9. Have the students work in pairs to write a paragraph, using at least three relative pronouns.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a superhero from the movies or TV.

---

### Teacher Note

You might have the students list each relative pronoun and when it is used in the Proofreading Notes section of their *Student Writing Handbooks*.

## Optional Practice

Have the students complete pages 28–30 in their *Student Skill Practice Books*, independently or in pairs, to practice using relative pronouns. Note that page 30 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 30 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

Relative pronouns are not used in Vietnamese and Korean. In Hmong, the relative pronoun *who* is used with both people and objects. Students with these language backgrounds may need additional practice with relative pronouns.

## INTRODUCTION

1. Remind the students that they already know how to use subject, object, and possessive pronouns to replace nouns. Tell the students that today they will learn more about using these pronouns correctly.
2. Display the “Noun-Pronoun Agreement” activity (WA20). Point out the singular and plural pronouns in the word box. Explain that when a pronoun replaces a noun, it must **agree**, or match, in number with the noun it is replacing. Explain that singular pronouns replace singular nouns, and plural pronouns replace plural nouns.

Also explain that pronouns must match the gender of the noun. If the noun names a male, then we use *he* or *his*; if the noun names a female, we use *she*, *her*, or *hers*.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

3. Read the first sentence pair aloud. Identify *Eduardo* as a noun and the subject of the first sentence. Then ask:

Q *Is Eduardo a singular or plural noun? Is Eduardo a boy or a girl?*

Q *Which pronoun should we use to replace Eduardo?*

**Students might say:**

"It is a singular noun. *Eduardo* is the name of one boy."

"We should use the pronoun *he* for *Eduardo*."

"I agree with Blake. *Eduardo* is one boy so we should use *he*."

Allow a few volunteers to respond. Then click the blank to reveal the pronoun *He*. Point out that the pronoun *He* and the noun *Eduardo* each name one male: the pronoun agrees in both number and gender with the noun *Eduardo*.

WA20

**Singular Pronouns:** I you he she it me him her

**Plural Pronouns:** we you us they them

**Possessive Pronouns:** my your his hers its our their

1. Eduardo is nine. **He** loves airplanes.
2. Eduardo says the airport is **his** favorite place.
3. Eduardo's Aunt Magali works at the airport. Sometimes, Aunt Magali and Eduardo visit **it**.
4. Eduardo watches planes take off. He watches **them** land, too.
5. Aunt Magali asks Eduardo, "Would **you** like to meet a pilot?"
6. His aunt adds, "**I** can arrange that!"

4. Repeat the process with sentences 2–6, pointing out how each pronoun agrees in number and gender with the noun it replaces or refers to. As needed, point out that, in item 3, we use *it* because the noun the pronoun replaces names one place. In item 4, we use *them* because the noun the pronoun replaces is plural. Also point out that *you* and *I* (items 5 and 6) refer to either a male or a female.

**Teacher Note**

As you identify the missing pronouns, you might review that the subject pronouns (*he, you, I*) take the place of the subject of the sentence, the object pronouns (*it, them*) take the place of a noun that is the object of the sentence, and the possessive pronoun (*his*) shows ownership.

5. When all the pronouns have been revealed, invite volunteers to read the sentences aloud. Ask:

**Q** Which pronouns in the word box can be used for either singular or plural nouns? (you, your)

## GUIDED PRACTICE

6. Display the “Noun-Pronoun Agreement” activity (📄 WA21). Explain to the students that next they are going to read a paragraph that is missing some pronouns and that you will work together to choose the pronouns that correctly match the nouns they are replacing.

WA21

I	mine	you	She	her	They	their	his	your
---	------	-----	-----	-----	------	-------	-----	------

Eduardo wrote down all his questions for the pilot.  
On Saturday he met Dorothy Kagan. She flies big jets.  
Ms. Kagan asked Eduardo, “What do you like about planes?”  
Eduardo replied that he loves the roar of their engines. “Do you want to be a pilot?” Ms. Kagan asked.  
Eduardo yelled out, “I sure do!” Then she pinned something on his sweater and said, “Here are your official pilot’s wings!”

7. Read the first sentence aloud and guide the students to identify the missing pronoun. Ask:

**Q** Which pronoun should you use in the sentence? Why? (his; The pronoun refers to Eduardo’s question.)

Invite a volunteer to the whiteboard. Have her drag and drop *his* into the sentence and then read the sentence aloud. Point out that the pronoun is a possessive pronoun referring to one male, Eduardo.

### Teacher Note

As you identify each missing pronoun, you might ask volunteers to tell whether the pronoun is a subject, an object, or a possessive pronoun.

8. Continue guiding the students through the paragraph, reading the sentences aloud and inviting volunteers to select the pronouns and explain their choices. After all the pronouns have been placed, have a volunteer read the paragraph aloud.

9. Have the students work in pairs to write a paragraph, using at least five pronouns. Tell the students to make sure that each pronoun agrees with the noun it refers to.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a place they like to go on weekends.

## Optional Practice

Have the students complete pages 31–33 in their *Student Skill Practice Books*, independently or in pairs, to practice using correct noun-pronoun agreement. Note that page 33 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 33 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

In languages such as Chinese (oral language only), Haitian Creole, Hmong, and Vietnamese, there is no gender difference for third-person singular pronouns. Students with these language backgrounds may need additional practice with gender agreement of nouns and pronouns.

## INTRODUCTION

1. Explain to the students that in this lesson they will practice using words that are often confused because they sound the same. Explain that when writers use the wrong word in their writing, readers can get confused.
2. Display the “Commonly Misused Words” activity (🎯 WA24). Read aloud the words *to*, *too*, and *two* and their definitions. Ask:

**Q** *How are these words alike? How are they different?*

Give the students a few moments to think, and invite one or two volunteers to respond. If necessary, explain that the words sound alike, but are spelled differently and have different meanings.

3. Read sentence 1 aloud and ask:

**Q** *Which word from the word list correctly completes the sentence?*

Give the students a few moments to think, and have one or two volunteers respond. Then drag and drop the word *to* into the blank to complete the sentence. Have another volunteer explain why *to* is the correct choice. (Selena is going in the direction of the store; she is going toward the store.)

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills.

For more information, see Appendix C.

4. Repeat the process for sentences 2 and 3. Remind the students to check the definitions if they are not sure which word fits the context of the sentence.

WA24

to	a direction word meaning “toward”
too	also
two	a number that equals one plus one
its	shows ownership for <i>it</i>
it’s	a contraction for <i>it is</i>

1. Selena was going to the corner store for some milk.
2. Her mother gave her two dollar bills.
3. “Can Mishia go, too?” Selena asked.
4. “Sure, it’s okay with me,” her mother replied.
5. “Remember, the store keeps its dairy products in aisle 3.”

5. Read aloud the words *its* and *it’s* and their definitions. Ask:

**Q** *How are these words alike? How are they different?*

Give the students a few moments to think, and invite one or two volunteers to respond. If necessary, explain that the words sound alike, but are spelled differently and have different meanings.

6. Read sentence 4 aloud and ask:

**Q** *Which word correctly completes this sentence? Why?*

Allow students time to think, and have one or two volunteers respond. As necessary, explain that the contraction *it’s* belongs in the sentence. Rephrase the sentence: “Sure, it is okay with me.” Drag and drop the word *it’s* into the blank. Repeat the process for sentence 5.

### Teacher Note

Students may be confused by the lack of an apostrophe in the possessive pronoun *its*. Explain that, unlike a possessive noun, a possessive pronoun does not have an apostrophe. The word *it’s* (with an apostrophe) is a contraction, or short form for *it is*.

7. Display the “Commonly Misused Words” activity (WA25). Read aloud the words *their*, *there*, and *they’re* and their definitions. Have a volunteer explain how the words are alike and how they are different.

8. Read the first two paragraphs aloud and ask:

**Q** Which word from the word box correctly completes the second sentence?

Allow students time to think, and invite one or two volunteers to respond. Then write the word *there* in the blank to complete the sentence. Have another volunteer explain why *there* is the correct choice. (It shows where Selena is going—the Super Food Mart.)

WA25

their	shows ownership for <i>they</i>
there	indicates a place
they're	a contraction for <i>they are</i>
your	shows ownership for <i>you</i>
you're	a contraction for <i>you are</i>

“Would you like to walk to Super Food Mart with me? I need to go there,” Selena said to Mishia.

“I do, too,” Mishia replied. “The bakers are known for their fancy cupcakes. They're having a sale on them today!”

“You're good at keeping secrets,” Selena giggled.

“Your sister’s party is going to be a big surprise!”

9. Repeat the process for the second paragraph, reminding the students to check the definitions if they are unsure which word fits the context of the sentence.
10. Read aloud the words *your* and *you're* and their definitions. Point to the first sentence in the third paragraph and ask:

**Q** Which word correctly completes this sentence? Why?

If necessary, explain that the contraction *you're* belongs in the sentence. Rephrase the sentence: “You are good at keeping secrets.” Repeat the process for the last sentence.

### Teacher Note

Remind the students that a possessive pronoun, like any other word, must be capitalized if it is the first word in a sentence.

## GUIDED PRACTICE

11. Have the students work in pairs to write the three spellings of *to/too/two*; the three spellings of *their/there/they're*; the two spellings of *its/it's*; and the two spellings of *your/you're*. Confirm responses as pairs of volunteers spell aloud each set of words.
12. Remind the students that these words not only are spelled differently, they also have different meanings.
13. Display the “Commonly Misused Words” activity (WA26). Explain to the students that next they will practice using these words in sentences. Read the first sentence aloud. Then point to the word choices after the sentence and ask:

**Q** Which word correctly completes this sentence? Why?

Drag and drop the word *two* into the blank. Have a volunteer read the complete sentence aloud.

14. Repeat the process for the remaining sentences.

1. My dog-walking business is just <u>two</u> weeks old.	too	two
2. <u>Its</u> name is “Out and About.”	It’s	Its
3. <u>There</u> is the sign outside my apartment building.	There	Their
4. I like dogs because <u>they’re</u> loyal and loving.	their	they’re
5. However, dogs can be a handful, <u>too</u> .	to	too
6. If you can’t handle a dog, <u>your</u> business won’t last long.	your	you’re
7. If <u>you’re</u> responsible, then your customers will trust you.	your	you’re
8. And the dogs will come <u>to</u> you when you call.	to	too

WA26

15. Have the students work in pairs to write a paragraph using at least one example from each of the four sets of commonly misused words.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a business they would like to start.

## Optional Practice

Have the students complete pages 34–36 in their *Student Skill Practice Books*, independently or in pairs, to practice writing commonly misused words correctly. Note that page 36 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 36 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

Commonly misused words can be particularly difficult for English Language Learners. They may need extra practice memorizing the spellings and matching them to the correct meanings. Create charts to help the students remember how to use these words correctly. For example:

- T-o, t-o, just one o tells you which way to go.
- T-o-o, t-o-o, more than one o means the same as also.
- T-w-o, t-w-o, with w it's the number two.

---

### Teacher Note

You might have the students write each of these commonly misused words and their definitions in the Proofreading Notes section of their *Student Writing Handbooks*.

### Whiteboard Activities

- “Review” activity (WA29)
- “Review” activity (WA30)
- “Review” activity (WA31)
- “Review” activity (WA32)

## REVIEW

1. Explain to the students that they are going to review what they have learned about nouns and pronouns in Lessons 7–12. Remind the students that they have learned how to:
  - Recognize and use singular, plural, and possessive nouns
  - Recognize and use subject, object, possessive, and relative pronouns
  - Form plural and possessive nouns, and possessive pronouns
  - Choose a pronoun that agrees with the noun it is replacing
2. Display the “Review” activity (🎤 WA29). Read aloud the definition of a noun, and guide the students in distinguishing between a singular and a plural noun. Point to single items in the classroom. Have volunteers supply the plural forms, for example: *one desk/two desks*.

A **noun** is a word that names a person, a place, an animal, a thing, or an idea. A noun can be singular or plural. A **singular noun** names one.

A **plural noun** names more than one.

- Add -s to form the plural of most nouns: **brothers**, **sisters**.
- Add -es to nouns that end with s, x, sh, ch: **buses**, **boxes**, **wishes**, **patches**.
- Change the y to an i and add -es to a noun that ends with a consonant + y: **blueberries**, **cities**, **families**, **stories**.
- Change the spelling for the plural of some irregular nouns: **men**, **women**.

A **possessive noun** shows ownership.

- Add 's to make singular nouns possessive: **Kevin's jacket**.
- Add an apostrophe after the s for plurals that end with s: **the dogs' bones**.

3. Have different volunteers read aloud each of the four possible ways to form plural nouns. For the first three, invite volunteers to the whiteboard. Have them circle the letter or letters that form the plural and pronounce the singular form of each word. For the irregular nouns, circle the part of the word that changes in spelling. Then have volunteers spell the singular form of each irregular noun. Confirm the students' responses orally.

4. Read aloud the definition of a possessive noun. Have volunteers fill in the blanks to form a singular possessive noun using an apostrophe and s, and a plural possessive noun using an apostrophe after the s.

5. Have the students work in pairs to choose one item of clothing they are each wearing and show ownership of that item by writing a phrase that includes a possessive noun; for example, *Lucy's earrings* or *Javier's shirt*. Repeat the process, providing a plural noun so that each student may form a plural possessive noun; for example, *the hamsters' cage* or *the students' lunchroom*. Have a few volunteers share their phrases with the class.

6. Display the "Review" activity (WA30). Remind the students that a pronoun takes the place of a noun. Read aloud the definition of a subject pronoun and the sample sentences below it. Ask:

- Q *What is the subject of the first sentence? (Evie and Nicole) What pronoun can we use to replace this subject? (They)*
- Q *What is the subject of the second sentence? (Evie) What pronoun can we use to replace this subject? (She)*

Click each sentence's subject to confirm the students' responses. If necessary, remind them that a pronoun must agree with the noun it is replacing in number and gender. *Evie and Nicole* is a compound subject, so we use the pronoun that stands for "more than one." *Evie* represents "one female," so we use the pronoun *she*.

WA30

A **subject pronoun** replaces a noun that is the subject of a sentence. It tells whom or what the sentence is about.

**They** are my twin sisters. **She** lost a front tooth.

An **object pronoun** replaces a noun that receives the action of the verb.

Evie put **it** under the pillow. Nicole was excited for **her**.

A **possessive pronoun** shows ownership.

The dollar beneath the pillow was **Evie's** reward.

Nicole said, "That money is **Evie's**! It's for the lost tooth!"

7. Read aloud the definition of an object pronoun and the sample sentences below it. Help the students identify the object of each sentence. (*the tooth; Evie*) Have the students decide on the object pronoun that best replaces each one. (*it; her*) Click the object of each sentence to confirm the students' responses.
8. Invite a volunteer to read aloud the definition of a possessive pronoun. Help the students identify the possessive pronoun in each sentence. Challenge the students by asking:  
**Q** *What possessive noun would we use to replace each possessive pronoun? (Evie's)*  
Confirm the students' responses by clicking each possessive pronoun.
9. Display the "Review" activity (🗨️ WA31) and read aloud the definition of a relative pronoun. Ask the students to orally identify the relative pronoun in each sentence and the group of words that follows it. Then, sentence by sentence, ask:  
**Q** *What noun does this group of words describe? (Uncle Vito; Pizza Supreme; ingredients; customers)*  
Confirm the students' responses first by clicking the relative pronoun they have identified and then by clicking the noun each word group describes.

A **relative pronoun** introduces a group of words that gives more information about a noun or another pronoun in the sentence.

**noun** **relative pronoun**  
 Uncle Vito, whose story has been told many times, is known as  
 “The Pizza King.”

**noun** **relative pronoun**  
 It was his Pizza Supreme that made him famous.

**noun** **relative pronoun**  
 He uses three secret ingredients, which add a lot of flavor to the pizza.

**noun** **relative pronoun**  
 Many customers, who wait for hours to get in, describe his pizza  
 as the best on the planet!

10. Finally, display the “Review” activity (WA32). Remind the students that a pronoun must agree in number and gender with the noun it is replacing. Read the sample sentences aloud and invite volunteers to identify nouns that are repetitive and could be replaced by pronouns. Have them offer replacement pronouns. Confirm their responses by clicking *the men’s* and *Grandma*.

When a pronoun replaces a noun, it must **agree in number** with the noun it is replacing.

- Singular pronouns replace singular nouns. Plural pronouns replace plural nouns.

How can four men from a tropical country compete in a winter sport?  
 The movie *Cool Runnings* tells **their** story!

When a pronoun replaces a noun, it must **agree in gender** with the noun it is replacing.

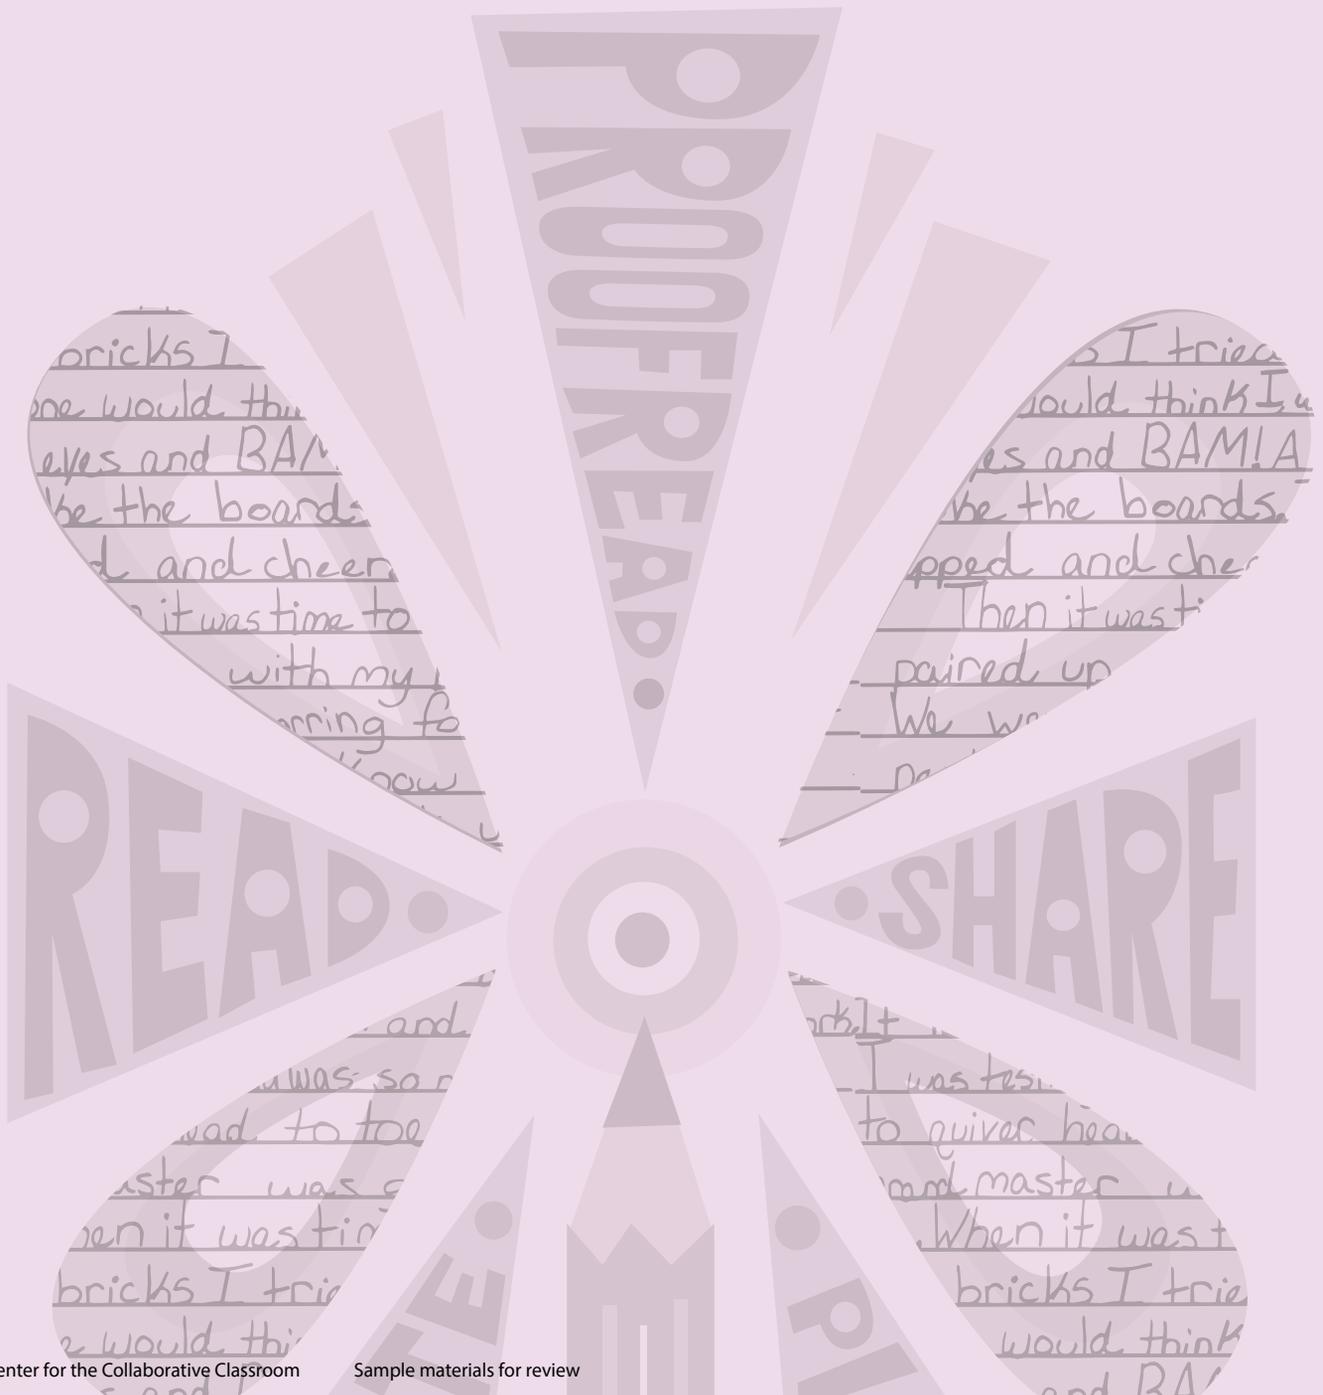

- Female pronouns replace female nouns. Male pronouns replace male nouns.

Grandma is a clown who performs in the Big Apple Circus. **She** wears a curly white wig and carries an enormous handbag.

## Optional Practice

Have the students complete pages 37–39 in their *Student Skill Practice Books*, independently or in pairs, to practice using nouns and pronouns correctly.

**INTRODUCTION**

1. Explain to the students that in this lesson they will learn about **verbs**, or words that tell what someone or something does, is, or is like. Tell the students that verbs are the words that will make their writing come alive. By choosing the right verbs, they can keep readers on the edge of their seats.
2. Display the “Verbs” activity (🎧 WA1). Explain that some verbs show action. They tell exactly what the subject does. Read the first sentence aloud and have a volunteer identify the simple subject. (*wren*) Then ask:

**Q** *Which words in this sentence tell what the wren does? (lives and builds)*

Have one or two volunteers respond, and confirm students’ responses by clicking *lives* and *builds*. The label *action verb* will appear over each word. Repeat the process for sentence 2.

3. Have a volunteer read sentence 3 aloud and identify the subject. (*wrens*) Ask the students which word shows action. (*defend*)

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Point out that sometimes an action verb is made up of two words: a **main verb** and a **helping verb**. The main verb describes the action; the helping verb usually comes before the main verb and does not show action. Ask:

**Q** *In this sentence, which word is the main verb? (defend) What is its helping verb? (will)*

WA1

1. A cactus wren **lives** in the desert and **builds** its nest in a cactus or a bush.
2. This bird **uses** dry grass for the nest and **lines** the inside with feathers.
3. Cactus wrens **will** **defend** their nests from other animals.
4. Sometimes these birds **may** **destroy** the nests of other birds.
5. A cactus wren **can** **survive** the desert because it **does** not **need** much water.
6. The cactus wren's nest **is** a good home. It **seems** cozy and safe.

Have a volunteer confirm the answers by clicking *will* and *defend* to reveal the labels. Repeat the process for sentence 4.

4. Before reading sentence 5, explain that usually a helping verb comes right before its main verb, but not always. Point out the first helping and main verb pair. (*can survive*) Then ask:

**Q** *Are there any other verbs in this sentence? (yes; need) Does need have a helping verb? (yes; does) What word comes between does and need? (not)*

Click each helping and main verb to reveal their labels.

5. Ask the students to read the first sentence in item 6 and identify the subject. (*nest*) Then ask:

**Q** *Is the nest doing anything in this sentence? Do any words show an action?*

**Students might say:**

"No, because a nest can't do anything."

"I agree with Peyton. Nests can't even move, so there aren't any words that show an action."

Allow a few volunteers to respond; then click the words *is* and *seems* to reveal the label *linking verb*. Explain that **linking verbs** do not show action. Instead, they link, or connect, the subject to words that tell what the subject is or is like—much the way an equals sign works in math. Tell the students that some common linking verbs are *is*, *are*, *become*, and *seem*. Have a volunteer identify what the nest "equals" in each sentence in item 6. (*a good home; cozy and safe*)

## GUIDED PRACTICE

6. Display the “Verbs” activity (🗨️ WA2). Explain to the students that they will read a passage about another kind of desert animal. Explain that they will look for all the verbs in the passage and tell what kind each one is.

WA2

The desert kangaroo rat is <sup>L</sup>an interesting <sup>A</sup>animal. It hops on its big back legs. The rat’s legs are strong, and the rat can <sup>H</sup>jump <sup>M</sup>as far as nine feet. These powerful legs <sup>A</sup>help the rat in other ways, too. If an unwelcome visitor is nearby, the kangaroo rat <sup>L</sup>drums <sup>A</sup>the ground with its feet. The sound may <sup>H</sup>scare <sup>M</sup>the other animal away. Also, when the rat <sup>A</sup>meets an enemy, such as a rattlesnake, the rat will <sup>H</sup>kick <sup>M</sup>sand in the animal’s face. If the rat is lucky, the snake will <sup>H</sup>slither <sup>M</sup>off. Otherwise, the rat <sup>L</sup>becomes dinner!

7. Invite a volunteer to read the first two sentences aloud and to locate the verb in each one. (*is* and *hops*) Ask which one is an action verb. (*hops*) Write A (for Action) above *hops*. Then ask if *hops* has a helping verb. (No.) Next, point to *is* and ask:
- Q What kind of verb is the word *is*? (*linking*) What does it link? (The desert kangaroo rat with an interesting animal)
- Write L (for Linking) above the word *is* and draw lines under the two linked parts.
8. Invite a volunteer to read the third sentence aloud. Ask the student to point out the first verb in the third sentence and to say whether it is an action or a linking verb. (*are*; linking) Then ask:
- Q What other verbs are in the third sentence? (*can jump*) What kind of verb is *can*? (*helping verb*) What verb is it helping? (*jump*) What kind of verb is *jump*? (*main/action verb*)
- Write H (for Helping) above *can* and M (for Main) above *jump*.
9. Continue working through the passage. Have volunteers take turns finding verbs and marking them with A, L, H, or M. When you reach the last sentence of the passage, remind the students that an action verb can have a helping verb. Then ask them if they think a linking verb can also have a helping verb. (Yes.)

---

### Teacher Note

You may want to introduce additional linking verbs, such as *looks*, *feels*, and *smells*, using sentences that show the contrast between a state of being and an action, for example:

- The rat **looks** nervous. (versus) The rat **looks** into the hole.
- The rat **feels** hungry. (versus) The rat **feels** the ground with its feet.
- The rat **smells** stinky. (versus) The rat **smells** the seeds.

10. Have the students work in pairs to write a description, using at least two action verbs, two linking verbs, and one helping verb.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about being in a desert. Ask the students to imagine how the desert feels, looks, and sounds and what the animals are doing.

## Optional Practice

Have the students complete pages 40–42 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying and using action, linking, and helping verbs. Note that page 42 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 42 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

Use sheltering strategies to help English Language Learners understand the difference between action and linking verbs. For example, have the students pantomime the action verb in sentence 2. For linking verbs, have the students copy sentences 8 and 9 on paper, replacing *is* and *becomes* with equals signs.

## INTRODUCTION

1. Explain to the students that they will practice recognizing and using verb tenses. Point out that a **verb tense** tells when the action in a sentence takes place.
2. Display the “Simple Verb Tenses” activity (WA5) and read the name of each simple verb tense aloud (present, past, future). Ask:

**Q** Which verb tense would you use if you wanted to write about something that happened yesterday? Something that is going to happen tomorrow? Something that is happening right now? (past; future; present)

**Q** Why do you think it’s important to use verb tenses correctly in your writing? (They help your reader follow the order of events; they keep your reader from getting confused.)

Ask the students to read the passage silently. Have volunteers take turns matching each underlined verb to its verb tense. Click the words to confirm their responses. Ask:

**Q** How is this article organized? (in time order; from the past to the present to the future)

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Point out that using verb tenses to clearly show the order of events helps make the passage easy for readers to follow.

WA5

present   past   future

Long, long ago, people traveled only on foot. They carried bundles on their backs or dragged their belongings along the ground. Eventually, people rode on the backs of animals. This made things a lot easier.

Today millions of people travel in cars or take buses from place to place. Travelers on airplanes go thousands of miles in just a few hours.

In the future maybe jets will travel under water. Inventors will think of new kinds of transportation. Perhaps no one will walk at all anymore.

- Reread the first sentence and point to *traveled*. Explain that the past tense of many verbs is formed by adding *-ed*.
- Read the next sentence aloud and have the students identify the two past-tense verbs in it. Click to reveal the labels: *past tense of carry*; *past tense of drag*. Use these examples to help the students articulate the rules for adding *-ed*:
  - If a word ends with *y*, change the *y* to *i* before adding *-ed*.
  - If a word ends with a consonant after a short vowel, double the consonant before adding *-ed*.
- Explain that some verbs have irregular past-tense forms. They change in different ways. Have the students work in pairs to find two irregular past-tense verbs in this paragraph and identify their present-tense forms. (*rode/ride*; *made/make*) Then invite one or two volunteers to share their answers and to check them by clicking the verbs.

### Teacher Note

For practice with irregular past-tense verbs, work with the students to identify the past-tense forms of the following: *take/took*; *go/went*; *bring/brought*; *think/thought*. Also, work together to use the past tense of the following verbs in sentences that apply to the article: *drive/drove*; *fly/flew*.

- Point to the beginning of the second paragraph. Have volunteers take turns locating all the present-tense verbs in the paragraph.

### Teacher Note

Explain that the present tense is used to show not only something happening at this very moment, but something that happens regularly. (For example, ask: “In this paragraph, do you think *Today* means ‘just this day,’ or ‘every day in general?’”) (“every day in general”)

- Point to the third paragraph. Remind the students that the action takes place in the future. Ask them what has been added in front of *travel* to form the future tense. (the helping verb *will*) Explain that the future tense of almost all verbs is formed by adding *will* before the present-tense form of the verb. Continue through the paragraph, having volunteers take turns locating the future-tense verbs.

## GUIDED PRACTICE

- Display the “Simple Verb Tenses” activity (🎯 WA6). Explain to the students that they will read each sentence and choose the correct tense of the verb to complete it.

WA6

take	took	will take
------	------	-----------

1. Now that I am in fourth grade, I take the bus to school.

miss	missed	will miss
------	--------	-----------

2. Yesterday I missed the bus and had to walk.

drive	drove	will drive
-------	-------	------------

3. Tomorrow Jesse’s dad will drive us to school in his truck.

arrive	arrived	will arrive
--------	---------	-------------

4. Tía Laura will arrive on a train from New York later today.

leave	left	will leave
-------	------	------------

5. The train left Grand Central Station two hours ago.

- Read the first sentence aloud and the three verb choices above it. Ask:

**Q** Which verb tense do you think we should use in this sentence? (present) Why? (The person is now in fourth grade and is regularly taking the bus.)

Invite a volunteer to identify the present-tense form of the verb (*take*) and to drag and drop it into the blank.

- Repeat the process for the remaining sentences.

11. Have the students work in pairs to write a comparison, using two present-tense, two past-tense, and two future-tense verbs.

---

### Teacher Note

For students who need additional support in choosing a topic, suggest that they compare being in fourth grade to being in third grade and what they expect fifth grade will be like.

## Optional Practice

Have the students complete pages 43–45 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying and using correct verb tenses. Note that page 45 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 45 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### Teacher Note

You might have the students write the definitions of the past-, present-, and future-tense verbs and provide examples of each in the Proofreading Notes section of their *Student Writing Handbooks*.

---

### ELL Note

In Chinese, Hmong, and Vietnamese, verbs do not change form to show different tenses. Instead, verb tense is usually shown through time words and other context clues: “When I live in Guadalajara as a child, I speak only Spanish.”/“When I lived in Guadalajara as a child, I spoke only Spanish”; and, “I go to middle school next fall.”/“I will go to middle school next fall.”

## INTRODUCTION

1. Tell the students that in this lesson they will practice using verb forms that show action that continues over a period of time.
2. Display the “Progressive Verb Tenses” activity (🗨️ WA9). Read the sentences in the box aloud. Then ask:
  - Q Which sentence describes an action that is going on right now? (the first one)
  - Q Which sentence describes an action that was happening in the past? (the third one)
  - Q Which sentence describes an action that will be happening in the future? (the second one)

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Point out that each sentence has two verbs—a main verb ending with *-ing* and a helping verb that is a form of the verb *be*. Explain that the main and helping verbs in these sentences are called **progressive verbs** because they show action that continues. Then explain that:

- The **present-progressive** form consists of the helping verb *am, are, or is* plus a main verb ending with *-ing*. (*am packing*)
- The **past-progressive** form consists of the helping verb *was or were* plus a main verb ending with *-ing*. (*was helping*)
- The **future-progressive** form consists of the helping verbs *will be* plus a main verb ending with *-ing*. (*will be going*)

I am packing a picnic for my family.

We will be going to the beach tomorrow.

You <sup>HV</sup> are <sup>MV</sup> coming with us, right?

WA9

3. Read the first sentence of the passage aloud. Give the students a few moments to think about when the action occurs—now, in the past, or in the future—and how they know. Then have one or two volunteers identify the main verb and the helping verb in the sentence. Click each word to reveal the label *MV* (for *Main Verb*) or *HV* (for *Helping Verb*). Point out that the helping verb *is* shows that the sentence is in the present tense. Then continue working through the passage, one sentence at a time.

### Teacher Note

If necessary, explain these rules for using forms of the verb *be*.

- Use *is* and *are* to describe actions that are happening now.
- Use *is* when the subject is a singular noun, or when the subject is *he, she, or it*.
- Use *are* when the subject is a plural noun, or when the subject is *they, we, or you*.
- Use *was* and *were* to describe actions that were happening in the past.
- Use *was* when the subject is a singular noun, or when the subject is *I, he, she, or it*.
- Use *were* when the subject is a plural noun, or when the subject is *they, we, or you*.

## GUIDED PRACTICE

4. Display the “Progressive Verb Tenses” activity (🗨️ WA10). Tell the students that next they will read a story that contains several present- and past-progressive verbs. Explain that the helping verbs are missing, and that you will work together to choose the correct form of *be* to complete each sentence.

am	is	are	was	were
am	is	are	was	were

Last night my twin brothers were cooking dinner when I walked into the kitchen. A pot of soup was boiling over. Drops of sticky stuff were dripping from the counter. The oven timer was beeping.

“The potatoes are burning!” I shouted. “The soup is splattering all over the stove! This dinner is turning into a disaster. You two are making a big mess. I am getting Mom. And I am not cleaning up!”

WA10

5. Read the first sentence aloud. Have a volunteer identify the subject of the sentence. (*my twin brothers*) Then ask:

**Q** Which form of *be* should we use? (*were*) Why? (*The action is happening in the past and the subject is plural.*)

**Students might say:**

“We should use *were* because the action is happening in the past.”

“I agree with Kai. We also should use *were* because the subject is plural—there are two brothers.”

Allow one or two volunteers to respond. Then invite another volunteer to drag and drop *were* into the blank and read the completed sentence aloud.

6. Continue working through the story. Tell the students that they are going to use each helping verb twice. Read the sentences aloud and invite volunteers to the whiteboard to drag and drop the correct form of *be* into each blank.

### Teacher Note

Help the students understand that, in the second paragraph, the present-progressive tense should be used because, even though the story takes place in the past, the writer is quoting exactly what the character said in that moment of the story.

7. After all of the helping verbs have been placed correctly, read the completed story aloud.
8. Have the students work in pairs to write a paragraph, using at least two present-progressive and two past-progressive verbs.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write a comparison of what the class was doing an hour ago with what the class is doing now.

## Optional Practice

Have the students complete pages 46–48 in their *Student Skill Practice Books*, independently or in pairs, to practice using progressive verb tenses. Note that page 48 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 48 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### Teacher Note

You might want to use the verbs *making* and *dripping* to review the rules for adding an ending to a verb that ends with silent *e*, or a consonant after a short vowel sound (the *e* is dropped before *-ing* is added; the consonant is doubled before *-ing* is added).

## INTRODUCTION

1. Tell the students that in this lesson they will learn more about verb tenses. Remind the students that a verb’s tense shows when the action in a sentence happened. Explain that using the correct verb tenses when writing helps make the order of events clear for readers.
2. Display the “Perfect Verb Tenses” activity (WA13). Read the first pair of sentences aloud. Have a volunteer identify the verb in the first sentence and its tense. (*collects*; present) Circle the word *collects*. Then reread the second sentence and ask:  
**Q** *Is the action in the second sentence taking place before or after the action in the first sentence? (before) How can you tell?*

Allow students a few moments to think, and invite one or two volunteers to respond. If necessary, point out the context clue *since last Tuesday* and that the main verb ends with *-ed*, which shows past tense. Circle *collected*.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Then have a volunteer identify the helping verb. (*has*) Underline *has* and tell the students that using the helping verb *has* or *have* with the past-tense form of a main verb shows that the action started in the past and may still be happening. This is called the **present-perfect tense**.

WA13

1. Maurice collects interesting rocks. He has collected five new rocks since last Tuesday.
2. Maurice and his classmates learn about rocks at school. The children have learned about rocks of all shapes and sizes.
3. Maurice keeps his rock collection at home on a shelf. He has kept it there for two years.
4. The rocks get dusty on the shelf. They have gotten very dusty lately.

3. Repeat the process with sentence pair 2. This time also underline the subjects in both sentences and point out that *have* is used when the subject names more than one person or thing, or when the subject is the pronoun *I*, *you*, *we*, or *they*.
4. Read sentence pair 3 aloud and have one or two volunteers identify the verbs and their tenses in both sentences. (*keeps*, present; *has kept*, present-perfect) Then ask:

**Q** *What is different about the main verb in the second sentence?*

**Students might say:**

"It's *kept* instead of *keeped*."

"It doesn't look like a past-tense verb because it doesn't end with *-ed*."

Allow a few volunteers to respond. Then circle *keeps* and *kept* and underline *has*. Explain that *kept* is the past-tense form of *keep*; it is an irregular verb. It does not end with *-ed*.

5. Use a similar process for sentence pair 4, but point out that *get* is irregular in two ways. Invite a volunteer to name its simple past-tense form. (*got*) Point out that the form used as the main verb in the perfect tense is not *got* or *gotted*, but *gotten*.
6. Display the "Perfect Verb Tenses" activity (📄 WA14). Read the first pair of sentences aloud, and have one or two volunteers identify the verb and its tense in the first sentence. (*looked*; past) Circle the word *looked*. Then reread the second sentence and ask:

**Q** *Is the action in the second sentence taking place before or after the action in the first sentence? (before) How can you tell?*

Give the students a few moments to think, and invite volunteers to respond. If necessary, point out the context clue *many times before*. Then underline *had* and explain that using the helping verb *had* with the past-tense form of a main verb

shows that the action was completed before another action in the past. This is called the **past-perfect tense**.

WA14

1. Last week Maurice looked for rocks at the park. He had looked there many times before.
2. Maurice's friends went to the park with him last week. They had gone with him the week before, too.

7. Read sentence pair 2 aloud and have a few volunteers identify the verbs and their tenses in both sentences. (*went*, past; *had gone*, past-perfect) Then circle *went* and *gone* and underline *had*. Invite a volunteer to name the present-tense form of *went* and *gone*. (*go*) Point out that *go* is another verb that is irregular in two ways: the form used as the main verb in the perfect tense is not *went* or *wented*, but *gone*.

## GUIDED PRACTICE

8. Display the “Perfect Verb Tenses” activity (🎧 WA15). Tell the students that next they will read a story that contains several missing present-perfect and past-perfect verbs. Explain that you will work together to choose the correct form of the verb shown in parentheses to complete each sentence.

WA15

have seen	had seen	has see
-----------	----------	---------

1. Maurice discovered some interesting rocks down by the pond.  
He had seen them there the day before.  
(see)

have found	have finded	had found
------------	-------------	-----------

2. “Look!” he shouted. “I have found one with black and white speckles!”  
(find)

had maked	has made	had made
-----------	----------	----------

3. The rock was wet and shaped like an egg. The force of water  
had made it smooth and shiny over time.  
(make)

9. Read the first sentence pair aloud and the three verb choices above it. Ask:

Q Which verb tense, past-perfect or present-perfect, do you think we should use to complete the second sentence? (past-perfect) Why? (The action of “seeing” took place the day before the action of “discovering.”)

10. Invite a volunteer to the whiteboard. Have him identify the correct past-perfect form of the verb (*had seen*) and drag and drop it into the blank. Repeat the process for the remaining sentences.

---

### Teacher Note

If the students need help with sentence pairs 2 and 3, explain that *find* and *make* are irregular verbs; their past-tense forms are *found* and *made*, not *finded* and *made*.

11. Have the students work in pairs to write a paragraph, using at least one present-perfect verb and one past-perfect verb.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about something they would like to collect, or a collection they both have. It might be rocks, leaves, seashells, or baseball cards.

## Optional Practice

Have the students complete pages 49–51 in their *Student Skill Practice Books*, independently or in pairs, to practice using perfect verb tenses. Note that page 51 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 51 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

In Hmong, Vietnamese, and Spanish, the verb *have* is used differently than in English. Students from these language backgrounds may, therefore, need additional practice using *have* as a helping verb.

---

### ELL Note

This verb tense may present a particular challenge for English Language Learners. You may wish to create and post this chart for reference.

Present	Past	Perfect
see	saw	(have, has, had) seen
write	wrote	written
begin	began	begun
make	made	made
find	found	found
show	showed	shown
give	gave	given
come	came	come

## INTRODUCTION

1. Tell the students that in this lesson they will learn about a special kind of helping verb.
2. Display the “Modal Auxiliary Verbs” activity (WA18). Read aloud the words and their definitions.
3. Tell the students that these helping verbs are called **modal auxiliary verbs**. Explain that they express conditions, or how likely or unlikely something is.
4. Read the first sentence aloud and ask:

**Q** Which of the verbs above could be used to replace the words *am allowed* to?

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Give the students a few moments to think, and have one or two volunteers respond. Then click *am allowed to*, changing it to the helping verb *may*. Repeat the process for the phrase *am required to*. If necessary, point out that *may* is used to show that an action is allowed, while *must* is used to show that an action is required. Invite a volunteer to read the sentence aloud with the new words in place.

5. Repeat the process with the remaining sentences. As a class, discuss the subtle differences in meanings of the helping verbs as you click to put them in place.
6. After all the phrases have been replaced with helping verbs, have the students reread the paragraph. Guide the students in summarizing that the helping verbs in this paragraph all show conditions, or how likely or unlikely something is.

WA18

<u>may, might</u>	allowed to
<u>can, could</u>	able to
<u>may, might, could</u>	possibly in the future
<u>will, would</u>	definitely in the future, in that case
<u>must, should, ought to</u>	required to, need to, expected to

My mother says I **may** go to the party, but first I **must** clean my room. If I **can** finish by noon, she **will** drive me there. The work **ought to** take half an hour, but it **could** take longer. I **should** hurry. Otherwise, I **might** arrive too late. Then I **would** miss the fun.

### Teacher Note

You may want to tell the students that *may*, *could*, and *should* can have additional meanings besides the ones used in the passage. Use the following sentences as examples:

- She **may** be late to the party. (possibly will)
- He told me that he **could** give me a ride. (was definitely able to)
- The drive **should** take about ten minutes. (is expected to)

## GUIDED PRACTICE

7. Display the “Modal Auxiliary Verbs” activity (C WA19). Explain to the students that they will choose a helping verb from the word box to complete each sentence, using the meaning in parentheses as a clue.

WA19

will   may   could   must   should   might

1. You may invite ten people to the party.  
(are allowed to)

2. We must send out invitations soon.  
(are required to)

3. We should mail them by Friday.  
(probably need to)

4. Trey will bring drinks.  
(definitely plans to)

5. He might bring ice cream, too.  
(possibly will)

6. Lisa could help me blow up balloons.  
(is possibly able to)

8. Read sentence 1 aloud, using the words in parentheses to fill the blank. Then direct the students’ attention to the words in the word box. Ask:

**Q** Which of these helping verbs belongs in the blank? Why?

If necessary, point out that *may* belongs in the blank because it expresses permission. *May* means “are allowed to.” Invite a volunteer to the whiteboard. Have him drag and drop *may* into the sentence and read the completed sentence aloud.

9. Repeat the process for the remaining sentences.

10. Have the students work in pairs to write a paragraph, using at least four modal auxiliary verbs.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, you might suggest that they write about planning an event, such as a class party, bake sale, or field trip.

## Optional Practice

Have the students complete pages 52–54 in their *Student Skill Practice Books*, independently or in pairs, to practice using modal auxiliary verbs. Note that page 54 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 54 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

Use the following examples to review word order with English Language Learners. Point out that:

- Negative words such as *not* and *never* usually come between the helping verb and the main verb.

She **might** not **go** to the party. I **will** never **forget** your last party.

- In a question, the helping verb usually begins the sentence, followed by the subject and then the main verb.

**Can** Carlos **come** to my party? **Should** we **go** now?

## INTRODUCTION

1. Tell the students that in this lesson they will learn how to make the subject of a sentence match the verb in the sentence.
2. Display the “Subject-Verb Agreement” activity (WA22). Read the two sentences in the box aloud. Have a few volunteers identify the simple subject and simple predicate in each sentence. (*ant, smells; ants, smell*) Ask them to describe how the verb changes, depending on whether the subject is singular or plural. (When the subject is singular,

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

the verb has an -s at the end. When the subject is plural, the verb does not have an -s.)

Explain that a verb must agree in number with its subject:

- If the subject is singular, add -s or -es to the verb.
- If the subject is plural, do not add -s or -es to the verb.
- When the subject is *I* or *you*, do not add -s or -es to the verb.

One ant smells salami.

Soon all the ants smell it.

1. **An ant crawls** across a dead log.
2. **One bee buzzes** around the flowers.
3. **A crow flies** high overhead.
4. A **frog and toad croak** near the pond.

WA22

3. Read sentence 1 aloud. Have the students identify the subject. (*Ants*) Ask:  
**Q** *Is the word Ants singular or plural? (plural) Which word tells what the ants do? (crawl)*  
Click *Ants*, changing it to *An ant*. Elicit that it is now a singular noun and ask:  
**Q** *What do you think needs to happen to the verb crawl now? (It also needs to change.)*  
Click *crawl*, changing it to *crawls*, and ask the students how the verb changed. (An *s* was added at the end.)
4. Repeat the process for sentences 2 and 3, using *buzz/buzzes* and *fly/flies* to explain that:
  - -es is added to verbs ending with *zz*, *s*, *sh*, *ch*, or *x*.
  - *y* is changed to *i* before -es is added to words ending with a consonant + *y*.
5. Read sentence 4 aloud. Have one or two volunteers identify the subject and say whether it is singular or plural. (*frog*; singular) Click *frog* to reveal *frog and toad*. Ask:  
**Q** *What happened to the subject? Is it still a single noun? (No.) So, what should happen to croaks? (The s should be dropped.) Why?*  
Point out that the subject of the sentence is a compound that refers to more than one thing. Click *croaks* to confirm the answer.
6. Display the “Subject-Verb Agreement” activity (🎯 WA23). Read the first pair of sentences aloud and have the students identify the subject and verb in each sentence. (*robin is*; *It has*) Click *robin* and *It* to reveal *robins* and *They* and ask how the subjects changed. Then ask:  
**Q** *What do you think needs to happen to the verbs now?*

Give the students a few moments to confer, and have one or two volunteers respond. Then click *is* to reveal *are*. Explain that the verbs *is* and *are* are both present-tense forms of the irregular verb *be*. Tell the students to use *is* when the subject of a sentence is singular and *are* when the subject is plural.

1. The **robins are** on a bush. **They have** a wiggly worm.
2. **I am** in the meadow. **You are** there, too.
3. **I have** a ladybug in a jar. **You have** a grasshopper.

WA23

7. Invite a volunteer to click *has*, changing it to *have*. Explain that the verbs *has* and *have* are also irregular. Tell the students to use *has* when the subject of a sentence is singular and *have* when the subject of a sentence is plural.
8. Repeat the process for the next two pairs of sentences, pointing out that:
  - *Am* is used instead of *is* or *are* when the subject of a sentence is *I*.
  - *Have* is used instead of *has* when the subject of a sentence is *I*.
  - When the subject of a sentence is *you*, the forms *are* and *have* are used—whether *you* stands for one person or more than one.

### Teacher Note

You may want to point out that *be* is also irregular in the past tense. Explain that:

- *Was* is used when the subject is a singular noun or the pronoun *I*, *he*, *she*, or *it*.
- *Were* is used when the subject is a plural noun or the pronoun *you*, *we*, or *they*.

## GUIDED PRACTICE

9. Display the “Subject-Verb Agreement” activity (WA24). Tell the students that they will read a passage about singing insects. Explain that you will work together to choose the correct form of each verb in parentheses.
10. Read the first sentence aloud. Invite one or two volunteers to identify the subject and to say whether it tells about one or more than one. (*Lara and Jack*; more than one)  
Underline *Lara and Jack* and ask:

**Q** Which form of the verb goes with a subject that tells about more than one? (walk)

Invite a volunteer to circle *walk*.
11. Continue working through the passage, having volunteers take turns underlining the subjects and circling the correct verbs.

Lara and Jack (walk, walks) through the grass. The field (is, are) full of flowers. Lara (hear, hears) a high-pitched chirping sound.

“I (know, knows) what that sound is,” says Lara. “Male crickets (make, makes) it with their wings. Their wings (has, have) special parts that rub together. One part (has, have) a scraper. It (scratch, scratches) against the other part. Grasshoppers also (has, have) the ability to chirp. I (am, are) sure that one is nearby.”

“You (is, are) a real expert on insects!” Jack (reply, replies).

12. After all of the correct verbs have been circled, read the completed passage aloud.

13. Have the students work in pairs to write a paragraph, using a combination of singular and plural subjects with present-tense verbs.

### Teacher Note

If the students have difficulty thinking of a topic to write about, you might suggest that they write about taking a walk and describing what they might see and hear.

## Optional Practice

Have the students complete pages 55–57 in their *Student Skill Practice Books*, independently or in pairs, to practice using correct subject-verb agreement. Note that page 57 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 57 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

### ELL Note

In Chinese, Korean, Hmong, Vietnamese, and Haitian Creole, verbs have the same form regardless of whether the subject is singular or plural. Students from these language backgrounds, therefore, will likely need additional support and practice with subject-verb agreement.

### Teacher Note

You might have the students write the rules for subject-verb agreement, along with examples, in the Proofreading Notes section of their *Student Writing Handbooks*.

**INTRODUCTION**

1. Tell the students that in this lesson they will explore the differences between formal and informal English. Explain that **formal** English is language they should use when speaking or writing to an adult, or giving a report in school. **Informal** English is language to use with their friends.

Point out that good writers think about the **audience**, the person or people who will read their writing. They also consider the **purpose**, or the reason they are writing, and choose the style that is best for that situation.

2. Display the “Formal and Informal English” activity (🎧 WA27). Read the first pair of examples aloud and point out that they both tell about the same topic but in different ways. If necessary, explain that *LOL* stands for “laughing out loud” and is commonly used in e-mails and text messages. Then ask:

**Q** *Which of these sounds like something you’d write to a friend? Which sounds more like a book report? Why?*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

**Students might say:**

"Example *a* sounds like something I'd write to a friend because of the *LOL*."

"All the sentences in the second example are complete. That makes it sound like a book report."

"I agree with Dylan because of the *LOL* and also because example *a* has an incomplete sentence."

Allow a few volunteers to respond. Then click the letters *a*. and *b*. to reveal the labels *informal* and *formal*. Point out that, because example *a*. includes an abbreviation and an incomplete sentence, it sounds more casual. Also point out that, in addition to having complete sentences, example *b*. has more formal-sounding words such as *several times*.

Tell the students that, when they write to a friend or someone they know well, they can use sentence fragments and playful language; when they write for a school assignment or test, they should use complete sentences and formal words.

WA27

**informal**

1. a. LOL, I just finished reading *Clown Club*! So hilarious.

**formal**

b. The book *Clown Club* was hilarious. I laughed out loud several times.

**formal**

2. a. Dear Mr. Mayor:

My classmates and I think you are smart. Could you please come and talk to our class? We are interested in learning more about what it is like to be the leader of a city.

**informal**

b. Hey Mayor! It's like cool that you're the boss of the city. Come to my school and talk about all the stuff you do!

3. Invite a volunteer to read the next pair of examples aloud. Ask:

**Q** Which of these would you use if you were writing a letter to the mayor of your city? Why?

Allow students time to think, and invite one or two volunteers to respond. Then click *a*. and *b*. to reveal the labels *formal* and *informal*. Point out that people, especially adults, take you more seriously when you use formal language. It lets them know that you take *them* seriously. That may make them more open to your ideas or requests.

Lead the students in a discussion about the differences between examples *a*. and *b*. and what makes *a*. more appropriate for the audience (the mayor) and purpose (an invitation to visit the class). Call attention to:

- The greetings *Dear Mr. Mayor* and *Hey Mayor*
- Casual language such as *cool*, *boss*, and *stuff*, versus more formal words such as *classmates*, *interested*, and *leader*
- The contractions *It's* and *you're*, versus *it is* and *you are*
- The use of the word *please* in example *a*.

## GUIDED PRACTICE

4. Display the “Formal and Informal English” activity (🗨️ WA28). Explain to the students that they will read several sentences that are written in an informal style and look for ways to change the sentences to make them sound more formal.

1. I **cannot** wait to **see** that new movie. **Do you want to** go with me?
2. **No, thank you, I am spending time** with my **grandfather** this weekend.
3. **You should not** read this book. **It is bad.**
4. In the story, a **girl** and her **best friend** meet a **man** from outer space.
5. I **could not** stand the ending. I was **very confused.**

WA28

5. Read the first sentence aloud and have pairs of students discuss which informal words they would change. Remind them to look for contractions, casual language (or slang), and incomplete sentences.

Allow pairs time to confer, and invite a few volunteers to respond. Then click the words *can't*, *check out*, and *Wanna*, one at a time, revealing the words *cannot*, *see*, and *Do you want to*. Discuss each change and the reason for it:

- *Can't* is changed to *cannot*, to get rid of the contraction.
  - *Check out* is changed to *see*, because *check out* is too casual.
  - *Wanna* is changed to *Do you want to*, to fix the incomplete sentence and because *Wanna* isn't a real word.
6. Point out that there are other ways that the sentences could have been changed. Invite a few volunteers to suggest other ways, such as:
    - *Can't wait* could be changed to *am excited*.
    - *Check out* could be changed to *go to*.
    - *Wanna* could be changed to *Would you like to*.
  7. Repeat the process for the rest of the sentences. For sentence 4, you may need to explain that *BFF* is an abbreviation for “best friend forever.”
  8. Have the students work in pairs to write two versions of a paragraph, using formal English in one and informal English in the other.

### Teacher Note

If the students have difficulty thinking of a topic to write about, you might suggest that they write about a book they have just read.

## Optional Practice

Have the students complete pages 58–60 in their *Student Skill Practice Books*, independently or in pairs, to practice using formal and informal English. Note that page 60 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 60 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

### Teacher Note

You might have the students make a list of all the different kinds of writing they can think of and the best style to use for each one. Have them include their list in the Proofreading Notes section of their *Student Writing Handbooks*.

Formal	Informal
School assignment (research report, book report, etc.)	E-mail or text message
Test answers	Postcard
Presentation	Note
Letter to a newspaper or magazine	Letter to a friend or relative
Letter to an important person in the community	Writing in a journal
Letter to a business owner	Shopping list
Thank-you note	Birthday card

### ELL Note

Many languages have informal and formal ways of saying things, depending on the context and/or the relationship between the speaker and the listener. Invite the students to share formal and informal ways of speaking in their language, such as different ways to say *hello*.

### Whiteboard Activities

- “Review” activity (WA31)
- “Review” activity (WA32)
- “Review” activity (WA33)

## REVIEW

1. Explain to the students that they are going to review what they have learned about verbs in Lessons 14–20. Remind the students that they have learned how to:
  - Identify and use action and linking verbs
  - Identify and use main and helping verbs
  - Recognize and form different verb tenses
  - Make subjects and verbs agree when writing sentences
2. Display the “Review” activity (WA31) and read aloud the definition of a verb. Then invite a volunteer to read aloud the definition of the first type of verb (*action*). Ask:

**Q** *What is the action verb in the sample sentence? (sleep)*

Give the students time to think, and invite a volunteer to respond. Check the response by clicking *sleep*.

- Repeat the process for the definition of a linking verb. Remind the students that the linking verb *are* is a form of the verb *be*. Replace the subject with other pronouns, and ask:

**Q** Which linking verb would we use if the subject of the sentence were I? (am) If the subject were he, she, or it? (is) If the subject were we, they, or you? (are)

WA31

A **verb** tells what someone or something does, is, or is like.

- An **action verb** shows action. It tells what the subject does.

The kittens **action verb** sleep in the sun.

- A **linking verb** connects the subject to words that tell what the subject is or is like.

The kittens **linking verb** are tiny. They **linking verb** seem scared.

- A **main verb** often has a **helping verb**. Helping verbs can help show when events happen, or how likely an event is.

The kittens **helping verb** may **main verb** run to their mother. She **helping verb** will **main verb** not leave them.

You may want to review other linking verbs, such as *become*, *look*, and *feel*. Use the sentence *They seem scared* as a model for other sentences, such as *They soon become playful*; *They look adorable*; and *They feel soft and fluffy*.

- Invite a volunteer to read the explanation of helping and main verbs aloud and to identify each in the sample sentences. Remind the students that the helping verb and main verb can be separated by another word, such as *not*, *never*, or *also*.

After checking their responses (*may*, *run*, *will*, and *leave*), invite volunteers to share other helping verbs they know, such as *can*, *will*, *does*, *is/are*, *have/has*, *must*, and *might*. Then have volunteers take turns using these words in sentences.

- Display the “Review” activity (WA32) and have a volunteer read aloud the definition of a simple present-tense verb. Read the sample sentences aloud to review the rule for forming a verb that agrees with its subject. Ask:

**Q** Why does the verb *play* have an *s* at the end in the first sentence, but not in the second? (Because the subject of the first sentence is singular, and the subject of the second one is plural.)

Click *cat* and *plays* to confirm that when the subject is a singular noun (or is the pronoun *he*, *she*, or *it*), the verb ends with *-s* or *-es*. Click *cats* and *play* to review that if the subject is a plural noun (or the pronoun *I*, *you*, *we*, or *they*), nothing is added.

6. Read the definition of a simple present-tense verb aloud, and have volunteers take turns identifying past-tense verbs in the examples. Click *bumped*, *fell*, and *broke* to check the answers. Then have a volunteer identify the present-tense form of each of these. (*bump*; *fall*; *break*) Invite several volunteers to share other irregular past-tense verbs they know and their present-tense forms.

You may also want to review the spelling rules for adding *-ed*:

- If a word ends with *y*, change the *y* to *i*.
- If a word ends with silent *e*, drop the silent *e*.
- If a word ends with a consonant after a short vowel, double the consonant.

WA32

- A **simple present-tense** verb tells about something happening now.

The form of the verb must agree with its subject.

singular subject simple present tense plural subject simple present tense  
The cat plays with the string. Two other cats play with a ball.

- A **simple past-tense** verb tells about something that has already happened. Some are formed with *-ed*, but others are irregular.

regular past tense irregular past tense irregular past tense  
One cat bumped into a lamp. The lamp fell over and broke.

- A **simple future-tense** verb tells about something that is going to happen. The future tense is formed with the helping verb *will*.

simple future tense simple future tense  
Mom will be home soon. She will put the cats outside!

7. Have one or two volunteers read the definition and sample sentences for simple future-tense verbs aloud and identify them in each sentence. Click *will be* and *will put* to check the answers.
8. Display the “Review” activity (🔊 WA33) and read aloud the explanation of the two kinds of progressive verb tenses. Invite a volunteer to identify each type in the sample sentences. Click the verbs to check the answers. (present-progressive: *am petting*, *is purring*; past-progressive: *was playing*, *were napping*)

Then invite volunteers to summarize how each tense is formed:

- The present-progressive is formed by using the present-tense form of *be* (*am*, *is*, or *are*) with a main verb ending with *-ing*.
- The past-progressive is formed by using the past-tense form of *be* (*was* or *were*) with a main verb ending with *-ing*.
- The form of *be* must always agree with its subject.

- The **present-progressive** tense shows action continuing right now. The **past-progressive** tense shows action continuing in the past.

**present-progressive tense**                      **present-progressive tense**  
I am petting the cat at this moment. It is purring loudly.

**past-progressive tense**                      **past-progressive tense**  
Earlier, the cat was playing while the kittens were napping.

- The **present-perfect** tense shows that an action started in the past but continues up to the present. The **past-perfect** tense shows that an action was completed before another action in the past.

**simple present tense**    **present-perfect tense**  
The cats like tuna. They have eaten Sam's lunch!

**past-perfect tense**                      **simple past tense**  
He had left the tuna on a plate, and the cats discovered it.

9. Read aloud the explanation of the two perfect verb tenses. Have the students silently read the sample sentences. Then invite a few volunteers to identify the verbs and their tenses. (*like*, simple present; *have eaten*, present-perfect; *had left*, past-perfect; *discovered*, simple past) Check the answers by clicking the verbs. Then ask:

**Q** *Which verb shows what happened first in time? (had left) Which happened next? (discovered) After that? (have eaten) Which verb shows what is still true in the present? (like)*

## Optional Practice

Have the students complete pages 61–63 in their *Student Skill Practice Books*, independently or in pairs, to practice using verbs correctly.

## INTRODUCTION

1. Explain to the students that **adjectives** are words that describe nouns or pronouns. Adjectives can tell about many things, such as color, size, and shape. Tell the students that in this lesson they will practice identifying different types of adjectives and using them in the correct order.
2. Display the “Adjectives and Order of Adjectives in Sentences” activity (WA1). Read the adjectives above the chart aloud. Ask, pausing after each question to have one or two volunteers respond:

**Q** Which adjectives name a number or an amount?

**Q** Which adjectives name an opinion, a size, a shape, or a color?

As the volunteers respond, drag and drop the adjectives where they belong in the chart.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

huge	beautiful	yellow	square	oval	tiny
three	blue	many	ugly	all	funny

Amount	Opinion	Size	Shape	Color
three	beautiful	huge	square	yellow
many	ugly	tiny	oval	blue
all	funny			

3. Explain that when writers use several adjectives to describe something, the adjectives are used in a certain order. Point out the headings for each column in the chart. Explain that the categories are in the order in which adjectives should be used.
4. Display the “Adjectives and Order of Adjectives in Sentences” activity (🎯 WA2). Read the two sentences above the chart aloud. Ask:

**Q** Which sentence sounds more natural? Why?

**Students might say:**

“The first sentence sounds strange and not natural.”

“I agree with Kiran. The adjectives in the first sentence are out of order. That’s why the second one sounds better.”

Allow a few volunteers to respond. If necessary, read the sentences aloud again, asking the students to pay attention to the order of adjectives. Have a volunteer drag and drop each adjective from the second sentence where it belongs in the chart.

I saw two yellow beautiful butterflies.

I saw two beautiful yellow butterflies.

Amount	Opinion	Size	Shape	Color
two	beautiful			yellow

## GUIDED PRACTICE

5. Display the “Adjectives and Order of Adjectives in Sentences” activity (📄 WA3). Explain to the students that next they are going to practice using adjectives in the right order to complete sentences. Remind them that using adjectives in the correct order helps their sentences sound clearer and make more sense.

WA3

Amount	Opinion	Size	Shape	Color
four	beautiful	tiny	round	orange
two	pretty	little	square	white
one	cute			black

Elliott spent one day with his grandpa volunteering at an animal shelter. Elliott saw four cute little cats that had just been brought in. The cats were crowded in a tiny square crate. A pretty orange kitty rubbed up against the crate. Then two friendly black cats came over to say hello. Both cats had beautiful white marks on their chests. The orange kitty had five small round spots on her back.

Sample answers are listed above. Answers may vary.

6. Read the paragraph aloud, inserting the word *blank* for each missing word.
7. Then read the first sentence aloud and ask:

**Q** *What kind of adjective would make the most sense here?*

Give the students a few moments to think, and invite one or two volunteers to respond. Help the students see that an adjective that tells about the amount or number would make the most sense here.

### Teacher Note

You may want to try adjectives from other categories to show that they do not make sense in the context of this sentence.

8. Then read aloud the adjectives listed in the Amount column. Point out that just one adjective will work in this sentence. Then ask:

**Q** *Which of these words works with day? Why?*

If necessary, point out that the adjectives *two* and *four* would describe many days, not just one day. Drag and drop the word *one* into the blank to complete the sentence correctly. Invite a volunteer to read the completed sentence aloud.

9. Have the students work in pairs to identify possible adjectives—and the correct order of the adjectives—to complete the remaining sentences. Tell the students that for some blanks, more than one answer is possible.

10. Invite pairs to share their answers as you record them, discussing the order and guiding the students to make corrections as necessary. Once the paragraph is completed, read it aloud.

11. Have the students work in pairs to write a paragraph using different types of adjectives. Tell them to make sure that they have used the adjectives in the correct order.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write a descriptive paragraph about their classroom or another school space.

## Optional Practice

Have the students complete pages 64–66 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying and using adjectives correctly. Note that page 66 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 66 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

Using adjectives in an incorrect order is a problem more common to non-native speakers of English. Native speakers of English are more likely to have an intuitive sense when the order is wrong. You may want to post a chart similar to the charts on the whiteboard activities for students to refer to. Add words from the students' writing to each category as the year progresses.

## INTRODUCTION

1. Explain to the students that in this lesson they will learn about **adverbs**, words that describe or give information about verbs or adjectives.
2. Display the “Adverbs” activity (🎯 WA6). Read the first sentence aloud and ask, pausing after each question for a volunteer to respond:

**Q** *What is the verb in this sentence? (moves) Which word tells about the action? (gracefully)*

Click *moves* to reveal the label *verb*. Then click *gracefully* to reveal the label *adverb*. Explain that *gracefully* describes the verb *moves*. *Gracefully* tells how the action happens. Point out that adverbs that end with *-ly* often tell how something happens.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

1. My friend Galina moves gracefully through the water.
2. Galina's mother, Mrs. Belachuk, watches her patiently.
3. She always encourages her daughter's efforts.
4. Tomorrow Galina's swim team will compete at Union Street School.
5. Mrs. Belachuk will drive Galina there.

3. Repeat the process for sentence 2, inviting one or two volunteers to identify the verb and the word that describes it. (*watches*; *patiently*) Then ask:

**Q** What does *patiently* tell us about the action? (*how it is done*)

**Students might say:**

"*Patiently* tells how the action was done."

"It describes the verb *watches*."

"I agree with Cheng. It tells us how the subject watches—patiently."

4. After a few volunteers respond, point out that some adverbs do not end with *-ly*. These adverbs usually tell *when* or *where* an action happens.
5. Have volunteers read the remaining sentences aloud, one at a time, identifying the verb and the adverb. Confirm each student's response by clicking the verb and the adverb to reveal their labels.
6. Then ask the students what the adverb tells us in each sentence. Give them time to think, and have a few volunteers respond. (The adverbs in sentences 3 and 4 tell *when*. The adverb in sentence 5 tells *where*.)
7. Display the "Adverbs" activity (🎧 WA7). Point out to the students that adverbs can also describe adjectives. These adverbs can tell *how much* or *to what extent*.

1. Galina is a very good swimmer.
2. She is a really hard worker.
3. She swims laps that are quite long.
4. Galina's big brother is so supportive!
5. Her little sister, Oksana, is extremely jealous, however!

8. Read the first sentence aloud. Point out the word *good*. Explain that *good* is an adjective that describes the word *swimmer*. Then ask:

**Q** Which word describes good by telling “how good”?

Give the students a few moments to think, and invite one or two volunteers to respond. Then click *very* to reveal that it is an adverb. Explain that the adverb *very* describes the adjective *good*; it tells how good a swimmer Galina is.

9. Read the remaining sentences aloud, one at a time. Have volunteers take turns identifying the adverb that describes each underlined adjective. Guide the students by asking:

- How good a swimmer is Galina? (**very** good)
- How hard a worker is she? (**really** hard)
- How long are the laps? (**quite** long)
- How supportive is her brother? (**so** supportive)
- How jealous is her sister? (**extremely** jealous)

Confirm the students’ responses by clicking each adverb to reveal its label.

## GUIDED PRACTICE

10. Display the “Adverbs” activity (🎧 WA8). Read the first sentence aloud and ask:

**Q** Which word is the adverb in this sentence? What verb does the adverb describe?

Give the students time to think, and invite one or two volunteers to respond. Then draw a line under the word *monthly* and identify it as the adverb. Draw an arrow from *monthly* to *happens*, and point out that *happens* is the verb that the adverb tells about. Explain that the adverb tells *when* the action happens.

WA8

1. Our school’s Sports Day happens monthly.
2. All of the schools in the county will participate then.
3. Our swim team wins races regularly.
4. Our soccer team started the year slowly.
5. Now our players usually win their games.

**Bonus:**

6. Pavel is a really great athlete.
7. He’s so small.
8. Our team was completely surprised.

11. Have the students work in pairs to read sentences 2–5 and identify the adverbs and the verbs they tell about. Then invite volunteers to take turns using the pen to underline the adverbs and draw arrows to the verbs they describe. Ask:

**Q** *What does this adverb tell you: when, where, or how the action takes place? (In sentence 2, the adverb tells when; in sentences 3, 4, and 5, the adverbs tell how.)*

12. After the students have completed sentences 2–5, direct their attention to Bonus sentences 6–8. Remind them that some adverbs describe adjectives. Then read sentence 6 and ask:

**Q** *How great an athlete is Pavel? (really great)*

Invite a volunteer to the whiteboard and have her draw an arrow from *really* to *great*.

13. Repeat the process for sentences 7 and 8.

14. Have the students work in pairs to write a paragraph, using adverbs.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about watching a sports event.

## Optional Practice

Have the students complete pages 67–69 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying and using adverbs correctly. Note that page 69 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 69 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

In some languages, adverbs aren't used at all. In Hmong, for instance, a verb might be said twice to describe an action, such as "I talk talk" to mean "I talk fast." Help the students understand that English has a special type of word to tell about actions. Give example sentences such as "Tanya runs quickly" and "I am speaking slowly." Have the students repeat them and build new sentences with the same adverbs.

## INTRODUCTION

1. Remind the students that they have learned that an adverb is a word that can describe a verb by telling *how*, *when*, or *where*. Some adverbs describe adjectives by telling *how much* or *to what extent*. Explain that in this lesson they will learn about another type of adverb.
2. Display the “Relative Adverbs” activity (WA11). Point to the words in the word box. Explain that the words *when*, *where*, and *why* are often used as relative adverbs. A **relative adverb** introduces a group of words that describes or gives more information about a noun.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

when   where   why

1. It was a sad day when I said good-bye to my friends.
2. I moved to a new city where I didn't know anyone.
3. I can't remember a time when I was so unhappy.
4. My mom understood the reason why I was so lonely.

3. Point to sentence 1 and explain to the students that, as you read sentence 1 aloud, you want them to look and listen for the relative adverb. Then read the first sentence aloud and ask:

**Q** Which relative adverb is used in the sentence? (when)

Invite a volunteer to answer. Then circle *when* and underline *when I said good-bye to my friends*. Point to *when I said good-bye to my friends*. Ask:

**Q** Which noun do the words *when I said good-bye to my friends* give more information about? (day)

**Q** What do they tell about the noun? (The words give more information about the day—the narrator had to say good-bye to his friends on that day.)

### Teacher Note

You might want to point out that the noun being described, *day*, comes directly before the relative adverb *when*. You might also point out that *when I said good-bye to my friends* cannot stand on its own.

4. Repeat the process with sentence 2, circling the relative adverb and then underlining it and the group of words that follows. Ask:
  - Q** Which noun do the words *where I didn't know anyone* describe? (city)
  - Q** What do they tell about the noun? (The words give more specific information about the place—the narrator doesn't know anyone there.)
5. Read sentence 3 aloud. Invite a volunteer to the whiteboard. Ask him to circle the relative adverb (*when*) and then underline it and the group of words that follows. Have a different volunteer identify the noun that the words *when I was so unhappy* describe. (*a time*) Remind the students that *when* and the words that follow it refer to the time something happened.

6. Have another volunteer read sentence 4 aloud. Circle the relative adverb *why* and underline the words *why I was so lonely*. Ask:
- Q Which noun do these words describe? (the reason)
- Q What do they tell about the noun? (The words tell the reason why the narrator didn't want to move.)
7. Summarize what students have learned about the relative adverbs *when*, *where*, and *why* and how they can be used to introduce groups of words that describe nouns:
- A group of words that begins with *when* often follows a word that names a time.
  - A group of words that begins with *where* often follows a word that names a place.
  - A group of words that begins with *why* often follows the word *reason*.

## GUIDED PRACTICE

8. Tell the students that next they will practice using the relative adverbs *when*, *where*, and *why* to link groups of words to the nouns they tell more about.
9. Display the “Relative Adverbs” activity (📄 WA12). Read sentence 1 aloud. Then ask the students:
- Q Which relative adverb would you use to join I went to my new school for the first time to the rest of the sentence? Why?

Invite a few volunteers to respond. As needed, point out that the adverb *when* is used because it introduces a group of words that tells about a time. Invite a volunteer to drag and drop *when* into the blank. Read the sentence aloud.

where when why where when

I remember the day when I went to my new school for the first time. I didn't want to be in a place where I didn't know anyone. In class a friendly boy asked me the reason why I looked unhappy. I explained my situation. He said that everyone at the school was really friendly, and I would make friends quickly. Still I wanted to be back at my old school where everyone knew me. “You will change your mind in a few weeks when you get to know everyone,” he said. He was right!

WA12

10. Continue guiding the students through the paragraph, reading the sentences aloud and having volunteers select the relative adverbs and explain their choices. After all the adverbs have been placed, read the paragraph aloud.

11. Have the students work in pairs to write a paragraph using all three relative adverbs.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about moving to a new place or being someplace where they didn't know anyone.

---

### Teacher Note

You might have the students list the relative adverbs along with a brief explanation of how each is used to connect ideas in the Proofreading Notes section of their *Student Writing Handbooks*.

## Optional Practice

Have the students complete pages 70–72 in their *Student Skill Practice Books*, independently or in pairs, to practice using relative adverbs. Note that page 72 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 72 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

## INTRODUCTION

1. Explain to the students that in this lesson they will learn to use words and phrases that add important details to sentences.
2. Display the “Prepositions and Prepositional Phrases” activity (📄 WA15). Read the first sentence of the paragraph aloud. Ask:

**Q** Which words tell where the squirrels keep their food? (in safe places)

Give the students a few moments to think, and invite a volunteer to respond. Click the phrase *in safe places* to reveal a box around the word *in*. Explain that the word *in* is a **preposition**—a word that shows the relationship between words in a sentence. In this sentence, the word *in* shows the relationship between *food* and *safe places*.

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Squirrels keep their food in safe places. Squirrels sometimes bury their food in the ground. A squirrel might dig several holes, but put a nut only into one hole. The squirrel might bury a nut and then fake burying another nut beside it. It might bury a nut under a bush. The squirrel might also store nuts in a nest. This keeps the food safe from other hungry animals.

3. Follow the same process for the rest of the sentences in the passage, asking questions such as “Which words tell where squirrels bury their food?” to guide the students’ thinking. Point out each preposition. Explain that the prepositions *in*, *beside*, and *under* describe where something is; the preposition *from* shows the relationship between the *food* and *other hungry animals*.
4. Display the “Prepositions and Prepositional Phrases” activity (🎧 WA16). Explain that a **prepositional phrase** includes a preposition, a noun or pronoun, and any other words in between. Read the first sentence of this passage aloud and ask:

Q Which underlined phrase in this sentence begins with a preposition? (on my birthday)

Click the underlined phrase to highlight it. Point out that this phrase tells when the party will take place.

My parents said I could have a party on my birthday. I wanted a party at Tilden Park. Tilden is a huge park in Berkeley, and many people have parties there. My parents reserved a spot in a large meadow. We played games on the grass. We had prizes for the game winners. We also gave prizes to everyone else. Everyone had a great time, and people stayed until sunset. It was the best birthday of my life!

5. Repeat the process for the remaining sentences. Ask the students to think about which underlined phrase begins with a preposition. Then click the prepositional phrase to highlight it. Finally, discuss what information the prepositional phrase adds to the sentence.

Point out that a prepositional phrase can tell about:

- Time (*on Sunday; at 3:00 p.m.*)
- Location (*in New York; at the playground*)
- Relationship (*a friend of my mother; a player on the team*)

## GUIDED PRACTICE

6. Display the “Prepositions and Prepositional Phrases” activity (C WA17). Have the students work in pairs to read the passage and identify the prepositions and prepositional phrases. Invite volunteers to draw a line under each prepositional phrase and circle each preposition.

On Saturday our school will hold a nature walk. Our tour guide, Ms. Weiss, is an expert on plants. We will meet in the school cafeteria at 6:00 a.m. Students should bring their permission forms to school. The forms should be signed by a parent or guardian. The buses will leave at 6:30 sharp. We should be back by 10:00 a.m.

WA17

7. Once the students have identified each prepositional phrase, talk together about the information provided by each one. Ask:

**Q** *What does the phrase On Saturday tell you? (when the school will hold a nature walk)*

8. Repeat the process for the remaining sentences.
9. Once all of the prepositions and prepositional phrases have been identified, discuss with the students how prepositional phrases help readers understand what the writer is saying. Point out that prepositional phrases often add important details to sentences about *how*, *when*, and *where* actions take place.

10. Have the students work in pairs to write a paragraph, using prepositional phrases.

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write a descriptive paragraph about something they can see in the classroom or out the classroom window.

## Optional Practice

Have the students complete pages 73–75 in their *Student Skill Practice Books*, independently or in pairs, to practice recognizing and using prepositions and prepositional phrases. Note that page 75 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 75 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### **ELL Note**

The meanings of prepositions do not always correspond directly from English to other languages. In Spanish the word *en* can mean “in” or “on.” For example, “Pon el libro en la mesa” means “Put the book **on** the table,” not “Put the book **in** the table.” You might use classroom objects to demonstrate what each preposition means.

**Whiteboard Activities**

- “Review” activity (WA20)
- “Review” activity (WA21)
- “Review” activity (WA22)

**REVIEW**

1. Explain to the students that they are going to review what they have learned about adjectives, adverbs, and prepositional phrases in Lessons 22–25. Point out that these words are all **modifiers**, words that tell about other words. Remind the students that they have learned how to:
  - Recognize adjectives and use them in the correct order
  - Recognize and use adverbs, including relative adverbs
  - Recognize and use prepositions and prepositional phrases
2. Display the “Review” activity (🎯 WA20). Read aloud the definition of an adjective and the information about the order in which adjectives are used. Have a volunteer read the sentence pair aloud. Ask:

**Q** *What is being described in the first sentence? (Angie’s basketball moves) What is being described in the second sentence? (Angie’s basketball hoop)*

Point to the word *moves* and invite a volunteer to act out one or two familiar basketball “moves.” Then ask:

**Q** *Which words in the first sentence are adjectives, or words that describe Angie’s basketball moves? Which words in the second sentence are adjectives that describe the hoop in Angie’s driveway?*

**Q** *What does each adjective tell about the noun it describes?*

**Students might say:**

"The adjective *several* tells the amount of moves that Angie has."

"*Round* and *red* tell the shape and color of her basketball hoop."

"In addition to what Sam said, *one* also tells about Angie's hoop. It tells the amount."

Allow several students to respond. Then confirm the students' responses by clicking the words *several*, *excellent*, and *little* in sentence 1, and *one*, *round*, and *red* in sentence 2 to reveal the label *adjective*. Discuss what each adjective tells about the noun it describes, and how the adjectives used follow the order described in the definition.

WA20

An **adjective** is a word that tells about a noun or a pronoun.

Adjectives can tell about *amount*, *opinion*, *size*, *shape*, or *color*, usually in that order.

adjective adjective adjective  
Angie has several excellent little moves she uses in basketball.

adjective adjective adjective  
She has one round red hoop in her driveway for practicing.

An **adverb** is a word that tells about a verb or an adjective. Adverbs can tell *when*, *where*, *how*, or *to what extent*.

adverb adverb  
Angie dribbles the ball steadily and then stops.

adverb adverb adverb  
She quickly leaps up and makes a totally amazing shot.

3. Read the definition and the example sentences for adverbs aloud. Then have one or two volunteers identify the adverbs in the first sentence and the verb each one describes. Click each adverb to reveal its label. Repeat the process for the second example sentence.

4. Discuss the adverbs in both sentences. Ask:

**Q** *What do the adverbs tell about the words they describe?*

**Students might say:**

"The adverb *steadily* tells *how*. It describes how Angie dribbles the ball."

"I agree with Kiran. *Quickly* also tells *how*. It tells how she leaps up."

"The word *totally* describes the adjective *amazing*. Angie's shot is totally amazing!"

If the students don't identify all the adverbs, make sure to point out that *steadily* describes the verb *dribbles* and tells *how*; *then* describes the verb *stops* and tells *when*; *quickly* describes the verb *leaps* and tells *how*; *up* describes the verb *leaps* and tells *where*; *totally* describes the adjective *amazing* and tells *to what extent*.

5. Display the “Review” activity (🗨️ WA21). Remind the students that they learned that the relative adverbs *when*, *where*, and *why* are adverbs that introduce groups of words that relate to and give more information about a noun or pronoun. Read the information about when to use each relative adverb aloud. Then ask:

Q Which relative adverb best completes the first sentence? (where)

Invite one or two volunteers to respond. Click the blank to confirm the answer. Discuss why the word makes the most sense in the context of the sentence. Repeat the process for the other two sentences.

WA21

The **relative adverbs** *when*, *where*, and *why* each introduce a group of words that tells more about a noun or pronoun in the sentence.

- *Where* introduces a group of words that tells about a place.

Uncle Leo’s house is the place **where** the family will gather.

- *Why* introduces a group of words that tells about the reason for something.

Great-Grandma Maggie’s 85th birthday is the reason **why** the family will all be together.

- *When* introduces a group of words that tells about a time.

The party will be held on a day **when** everyone is free.

6. Display the “Review” activity (🗨️ WA22) and review the definition of a preposition. Have volunteers take turns identifying the preposition in each sentence. Then click to confirm the students’ answers.

A **preposition** is a word used to show the relationship between words. Prepositions like *in*, *at*, *around*, *below*, and *under* describe the position or location of something.

Miguel's poster is **preposition** on the classroom wall.

The words **preposition** at the top say, "Keep Our School Safe."

- A **prepositional phrase** includes a preposition, a noun or pronoun, and any other words in between.

Colorful pictures **prepositional phrase** on the poster show safety tips.

Miguel has included labels **prepositional phrase** under the pictures.

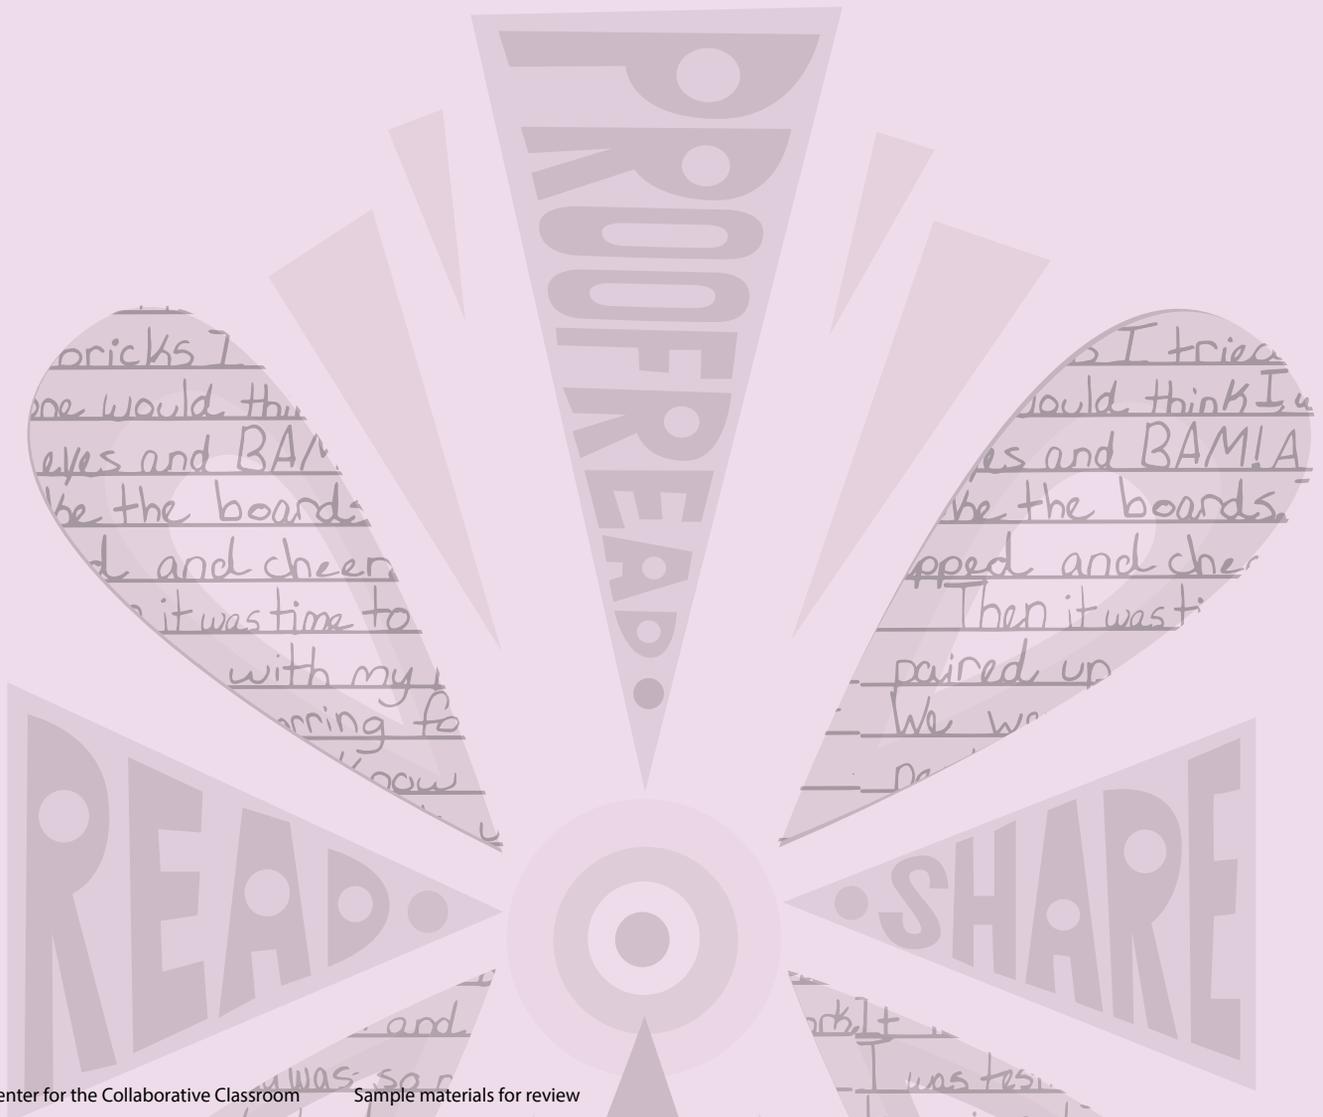

7. Repeat the procedure with the definition and examples of a prepositional phrase.

## Optional Practice

Have the students complete pages 76–78 in their *Student Skill Practice Books*, independently or in pairs, to practice using adjectives, adverbs, relative adverbs, prepositions, and prepositional phrases correctly.

## INTRODUCTION

1. Remind the students that a noun can name a person, a place, an animal, a thing, or an idea and that an adjective describes a noun or a pronoun. Tell the students that next they will learn how to capitalize nouns and adjectives that refer to particular people, places, and things.
2. Display the “Proper Nouns, Proper Adjectives, and Titles of Address” activity (WA1). Read the first sentence of the passage aloud. Ask, pausing after each question for a volunteer to answer:

**Q** *Which words tell the name of a specific person? (Ms. Markova) Which word tells the name of a specific country? (Russia)*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Click *Ms. Markova* and *Russia* to confirm the students' responses. Explain that these words are called **proper nouns** because they name specific people, places, or things. Explain that almost all proper nouns begin with a capital letter. Tell the students that because *Ms. Markova* names a specific person, it is a proper noun; because *Russia* names a specific country, it is a proper noun.

Point out the title *Ms.*, noting the capital letter and the period after it. Explain that when a title is a part of a person's name, it is also capitalized.

WA1

Our music teacher, **proper noun** Ms. Markova, was born in **proper noun** Russia. She loves to play music for us by famous **proper adjective** Russian **proper noun** composers, such as **proper noun** Igor Stravinsky. She also shows us videos of the **proper noun** Bolshoi Ballet. Music and dance are a very **proper adjective** important part of **proper adjective** Russian culture.

**proper noun** Ms. Markova also has taught us some facts about her homeland. The **proper noun** world's largest country, **proper noun** Russia spans 22 time zones and two continents— **proper noun** Europe and **proper noun** Asia. It has a population of around 140,000,000 people— **proper noun** **proper noun** **proper adjective** minus one. Last year, on **proper noun** July 4, **proper noun** Ms. Markova became an **proper adjective** American citizen.

3. Explain that **proper adjectives** can be made from proper nouns. Read the rest of the first paragraph aloud. Ask:

**Q** *What word in the first paragraph is similar to Russia?*

Invite a volunteer to respond, and click *Russian* in the second sentence to confirm the response. Point out that *Russian* is a proper adjective that is made from a proper noun. Here *Russian* modifies, or tells more about, the noun *composers*. Then click *Russian* in the fourth sentence, pointing out that it modifies the noun *culture*. Explain that the proper noun *Russian* describes a specific history, language, land, and people. Tell the students that proper adjectives begin with a capital letter.

4. Read the rest of the passage aloud as the students follow along. Then invite volunteers to take turns identifying and clicking the proper nouns and proper adjectives.
5. After you and the students have finished identifying the proper nouns and proper adjectives, reread the passage and invite volunteers to identify whether each proper noun names a person, place, or thing. Then ask which word each proper adjective describes.

## GUIDED PRACTICE

6. Explain that next you will identify more proper nouns and proper adjectives.
7. Display the “Proper Nouns, Proper Adjectives, and Titles of Address” activity (🔊 WA2). Read the first sentence aloud and ask:

Q Which words in this sentence name a specific person? (Dr. Ana Morales)

Click to highlight *Dr. Ana Morales*. Point out that her title, *Dr.*, is capitalized and ends with a period. Then ask:

Q Which words in the same sentence name a specific school? (Kennedy Elementary School)

Click *Kennedy Elementary School*, and explain that it is a proper noun because it names a specific school. Point out that each word is capitalized in the name of the school.

Read the second sentence aloud, and invite one or two volunteers to identify the proper nouns, including the title, and the proper adjective. (proper nouns: *Dr. Morales* and *Chile*; proper adjective: *Chilean*)

Dr. Ana Morales is the popular principal at Kennedy Elementary School. Dr. Morales is Chilean, so we decided to do a school-wide project on Chile for her. We posted pictures and facts about Chile on a bulletin board in the hall. Here are some of the things we found out: Chile is the world’s longest country. It’s 2,700 miles long—the same distance as between San Francisco and New York City. It’s about twice the size of California. Its money is the Chilean peso. We sang a song in Spanish, the official language of this South American country. Dr. Morales was delighted.

WA2

8. Have volunteers take turns reading the sentences aloud and identifying and clicking the proper nouns and proper adjectives.
9. After the students have found the proper nouns and proper adjectives, go back and talk about how the nouns and adjectives are the same and how they are different. Help the students understand that the proper nouns can stand on their own and the proper adjectives describe nouns.

10. Have the students work in pairs to write a paragraph using proper nouns and proper adjectives. Have them make sure to include at least one title of address.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write an informational paragraph about a country or a city they both know about.

## Optional Practice

Have the students complete pages 79–81 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying and using proper nouns and proper adjectives correctly. Note that page 81 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 81 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### Teacher Note

Some students may be confused by the fact that some proper nouns and proper adjectives are the same word. For example, in the phrase “the Spanish language,” the word *Spanish* is a proper adjective because it modifies *language*. In the sentence “My family speaks Spanish,” *Spanish* is a noun and the object of *speaks*. Help the students understand that they can distinguish between nouns and adjectives by how those words function in a sentence.

## INTRODUCTION

1. Remind the students that there are many uses for commas in writing. Explain that in this lesson the students will practice using commas in dates, in addresses and locations, and in the greetings and closings of letters.
2. Display the “Commas in Letters” activity (📄 WA5). Read the date aloud and explain that this is the date the letter was written. Point out the comma in the date and circle it. Then ask:

**Q** *What is the comma between? (the day of the month and the year)*

Invite one or two volunteers to answer. If the students say “between 5 and 2017,” make sure they understand that the first number is the day of the month, and the second is the year. Draw a line under the day of the month and draw two lines under the year.

Remind the students that commas are usually used to separate things, such as the two parts of a sentence or the items in a list. Ask:

**Q** *Why is it helpful to separate these two parts of a date?*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

July 5, 2017

Dear Grandma Lucy,

We are having a wonderful time visiting Uncle Ray in Lynn  
Massachusetts! Yesterday we walked to the beach and watched the  
Fourth of July fireworks explode over the water. It was awesome!  
The only thing missing is you.

Love,

Ayeesha

Give the students a few moments to think, and invite one or two volunteers to respond. If necessary, mention that when you have numbers close to each other, as they appear in dates, the comma helps make it clear that the first number stands for one thing and the other number stands for something else. By using commas correctly in dates, writers make sure their readers will read those dates correctly.

- Repeat the process for the comma at the end of the greeting and the comma at the closing. Circle the commas as volunteers identify them. Ask questions such as these to help the students analyze why the commas are helpful in this type of writing:

**Q** *What does each comma set off or separate? Does having the comma help the reader? Why or why not?*

Some students may think that some of the commas are not necessary, such as the ones after the greeting and the closing, since they appear on separate lines. Suggest that those commas actually connect those parts of the letter with the text that follows; the comma after the greeting makes it feel as if the writer of the letter is talking to, or addressing, a person. The closing sets up the signature in a similar way.

- Remind the students that commas are also used to separate the name of a town or city from the name of the state. Read the body of the letter aloud. Have a volunteer find the comma between the city and the state and circle it. Discuss why commas are used to separate these names.
- Display the “Commas in Letters” activity (WA6). Explain to the students that it shows an addressed envelope for mailing the letter they just read. Point out the address and the return address of the sender, and ask:

**Q** *How are the commas on the envelope used?*

**Students might say:**

“Some commas separate the street addresses from the apartment numbers.”

“The commas after the cities separate them from the states.”

Allow a few volunteers to respond, and circle each comma as it is discussed.

## GUIDED PRACTICE

6. Display the “Commas in Letters” activity (WA7). Explain to the students that next they are going to practice putting commas where they belong in a letter.

 Washington, D.C. 20515

Dear Representative:

Would you be willing to answer some questions about your job for my school report? Please write and let me know.

Sincerely,  
 Javier Diaz

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

7. Point out that some letters—usually business letters or those to someone you don't know—include the sender's address at the top right of the letter. Have the students take turns reading aloud the lines in the address in the top right. Explain that there are some commas missing. Ask:

**Q** *Based on what you know about commas in addresses, where would you add commas in the address? Where would you add a comma in the date?*

Give the students some time to think, and invite a few volunteers to respond. Then write each comma in the space between the street address and the apartment number, between the city and the state, and between the day and the year.

8. Direct the students' attention to the second address and the rest of the letter. Have a few volunteers identify the places where commas belong. (between *Washington* and *D.C.* and after the closing) Write the commas.

---

### Teacher Note

Point out the colon in the greeting. Explain that a business letter is more formal than a friendly letter. To give the letter a more formal tone, the greeting is followed by a colon rather than a comma.

9. Have the students work in pairs to write a letter using commas and a colon in the correct places.

---

### Teacher Note

If the students have difficulty thinking of someone to write to, suggest that they write a letter to a company to tell how much they like a product.

## Optional Practice

Have the students complete pages 82–84 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying and using commas correctly. Note that page 84 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 84 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

In some languages, such as Spanish and French, dates are written with the day first, followed by the month, with no comma between them. Give the students extra practice writing different dates, such as today's date, their birthday, and the date of the next school holiday. Remind them that, in English, the month is written first, followed by the day of the month, followed by a comma, followed by the year.

## INTRODUCTION

1. Explain to the students that when they write a narrative, they may want to include dialogue, or the speakers’ exact words. Tell the students that it is important to use commas and quotation marks to clearly show a speaker’s exact words; otherwise, readers may become confused about who is speaking. Tell the students that in this lesson they will learn how to use single and double quotation marks in their writing. Further explain that they will learn an additional use of commas—to set off a speaker’s exact words.
2. Display the “Commas and Quotation Marks in Dialogue and Direct Quotations” activity (📄 WA10). Explain that this passage is a dialogue between a great-grandmother and her great-grandchild. Read the passage aloud, pausing at each comma and emphasizing Great-Grandma’s exact words. Then ask, pausing after each question for one or two volunteers to answer:
 

Q *What is the first thing Great-Grandma says? (“We had fun expressions.”) How do you know? (The quotation marks, the comma, and the words my great-grandma explained indicate that these are Great-Grandma’s exact words.)*

\*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

The last time I visited Great-Grandma, she described the slang she used in the old days.

“We had fun expressions,” my great-grandma explained.

“We said ‘clam’ when we meant ‘dollar.’”

“Weird,” I said. “You used sea animals to describe money.”

“We used lots of animal words,” she said. “Instead of saying,

“I think you’re great,” we said, “You’re the cat’s pajamas.” If we

liked something, we said, “That’s just ducky.”

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

3. Circle the double quotation marks, and explain that double quotation marks are used to show the exact words a character is speaking. Ask:

**Q** *What other punctuation do you notice in addition to the quotation marks? (a comma)*

Underline the comma, and explain that a comma is used to separate the speaker’s exact words from the rest of the sentence. If the comma comes after the quotation, it is placed before the ending quotation mark.

4. Reread the third sentence and circle the quotation marks around “We said ‘clam’ when we meant ‘dollar.’”
5. Then underline the single quotation marks around *clam* and *dollar* and ask:

**Q** *Why are single quotation marks used here?*

Give students time to think, and invite a few volunteers to respond. As necessary, explain that single quotation marks are used around the words *clam* and *dollar* to show that Great-Grandma is repeating words that have been spoken before. Point out the period at the end of this sentence.

6. Read the third paragraph aloud. Write the quotation marks and the commas. Ask, pausing after each question for one or two volunteers to respond:

**Q** *Whose exact words are set inside these quotation marks? (the narrator’s) How do you know? (The quotation marks, the comma, and the words I said indicate that these are the narrator’s exact words.)*

Continue through the dialogue, writing single and double quotation marks and commas, and having volunteers identify the speakers. If necessary, prompt students by asking, “Is it Great-Grandma, the narrator, or someone who has spoken these words in the past?”

## GUIDED PRACTICE

7. Display the “Commas and Quotation Marks in Dialogue and Direct Quotations” activity (📄 WA11). Explain to the students that next they are going to practice identifying where double and single quotation marks and commas are placed in a passage that includes dialogue.

WA11

“We had other fun expressions too,” Great-Grandma continued. “Scram” meant “leave quickly.” “I’ve got the heebie-jeebies” meant “I’m nervous.”

“That’s just ‘ducky,’” I said to Great-Grandma. “You’re the cat’s pajamas, but I should scram.” I promised Dad I’d give him the “clams” I owe him before 4:00 p.m. He’ll get the heebie-jeebies if I’m late,” I said as I headed out the door.

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

8. Read the first paragraph aloud. Have a volunteer circle the double quotation marks, put a box around the single quotation marks, and draw a line under each comma. Ask, pausing after each question for one or two volunteers to respond:

**Q** *What do the double quotation marks set off? How are the single quotation marks used? What does the comma do in the sentence?*

As necessary, remind the students that the double quotation marks set off the exact words of a speaker; the single quotation marks set off words the speaker is repeating that have been spoken before; and the comma separates the speaker’s exact words from the rest of the sentence.

9. Read the second paragraph aloud. Invite a few volunteers to help you add the missing commas and quotation marks. Make sure that the students understand how the punctuation marks make it clear who is saying what in the passage.

### Teacher Note

Point out that the comma in the fifth sentence has a different role from the other commas in this passage. Ask the students why this comma is in place. If necessary, explain that it comes before the conjunction in a compound sentence.

10. Have the students work in pairs to write a dialogue. Have them make sure that they have used double and single quotation marks that set off each speaker's words or the words they are repeating that have been spoken before. Have them make sure to insert a comma when necessary.

---

### Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write a dialogue between two friends, using some of the slang from the dialogue they just read.

## Optional Practice

Have the students complete pages 85–87 in their *Student Skill Practice Books*, independently or in pairs, to practice identifying and using double and single quotation marks and commas correctly. Note that page 87 can be scored, allowing you to assess how well each student understands the lesson skill.

## Reteaching

For students who need additional instruction, note that activities A and B on page 87 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

---

### ELL Note

In some languages—and even in English in Great Britain—dialogue is set off with single quotation marks rather than double. Explain that, in American English, double quotations are used to set off a speaker's words, and single quotation marks are used *within* double quotations. Show the students examples of dialogue in some of the books in the classroom.

---

### Teacher Note

Have the students write examples of the use of single and double quotation marks in the Proofreading Notes section of their *Student Writing Handbooks*.

## Whiteboard Activities

- “Review” activity (WA14)
- “Review” activity (WA15)
- “Review” activity (WA16)

## REVIEW

1. Explain to the students that they are going to review what they have learned about capitalization and punctuation in Lessons 27–29. Remind the students that they have learned how to:
  - Capitalize proper nouns, proper adjectives, and titles
  - Place commas in letters
  - Place commas and quotation marks in dialogue and direct quotations
2. Display the “Review” activity (WA14) and have volunteers read the definition of a proper noun and the sample sentences aloud. Ask:

**Q** Which words in the sample sentences are proper nouns? (Mr. Velasquez; Sanchez Street; Arrow Neighborhood Garden)

Have a few volunteers respond, and confirm their responses by clicking the proper nouns. Ask:

**Q** What is true about all of the proper nouns?

Give students time to think, and invite one or two volunteers to respond. If necessary, point out that every proper noun begins with a capital letter.

3. Repeat the process with the definitions and sample sentences for titles and then for proper adjectives. Invite several volunteers to suggest other examples of titles and proper adjectives.

A **proper noun** names a particular person, place, animal, or thing and begins with a capital letter.

Our neighbor **proper noun** Mr. Velasquez is organizing a community group.

The group is going to grow a garden on **proper noun** Sanchez Street.

It will be called **proper noun** Arrow Neighborhood Garden.

- A **proper name** can include a title. The title is also capitalized.

**title** Dr. Fontana will let us use a plot of land she owns.

- An adjective made from a proper noun is called a **proper adjective**. Proper adjectives are also capitalized.

The group will grow **proper adjective** Thai peppers and **proper adjective** Japanese eggplants.

4. Display the “Review” activity (🗨️ WA15). Have volunteers read aloud the information about using commas in a letter. Ask, pausing after each question for one or two volunteers to respond:

**Q** *Where should we place a comma to separate parts of an address? To separate the day of the month from the year? To separate the greeting from the body of the letter? To separate the closing from the signature?*

Click the places where the commas should go to reveal the answers. If the students have difficulty locating where the commas should be placed, review the rules and help them locate a place in the example that matches a rule.

**Commas** set off information in different parts of a letter.

Use commas in addresses to separate a street name from an apartment number and a city from a state name.

2756 Sandoval Way, Apt. 312  
Bella Vista, AK 72715

In the date, use a comma to separate the day of the month from the year.

August 25, 2017

Dear Grandpa Jack,

We are planning a community garden. May I call you to get your gardening advice?

Use a comma to separate the greeting from the body of the letter and the closing of the letter from the signature.

Love,  
Sophia

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

5. Display the “Review” activity (🎯 WA16). Have volunteers take turns reading aloud the rules about using quotation marks and the sample sentences. Point out that the examples include the exact words two people are saying to each other. Ask, pausing after the question for one or two volunteers to respond:

Q Which words should have double quotation marks around them?

Write the quotation marks as the students respond.

WA16

**Quotation marks** are used to show the exact words a speaker says.

- Use **double quotation marks** to show what a speaker is saying.

“It was nice of you to write to your grandfather,” said Mr. Velasquez.

- Use **single quotation marks** to show quoted words or words that have been said before when they appear within double quotations.

“My grandfather told me, ‘I’ll be happy to answer any questions your friends have,’” said Sophia.

- A **comma** can be used to separate the speaker’s exact words from the rest of the sentence.

“Please thank your grandfather,” Mr. Velasquez said.

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

6. Repeat the procedure for the rules and examples for single quotation marks and comma placement. Remind the students that single quotation marks set off quoted words that the speaker is repeating—words that have been said before. Remind the students that a comma is usually used to set off the quoted words from the part of the sentence that tells who is speaking. Emphasize that the comma comes *before* any ending quotation marks.
7. Finally, explain to the students that it’s important to capitalize and punctuate correctly in their writing. Capitalization and punctuation help make the meaning clear to their readers.

## Optional Practice

Have the students complete pages 88–90 in their *Student Skill Practice Books*, independently or in pairs, to practice capitalizing and punctuating correctly.

Ms. Abigail Jenner

1200 Madison Street, Apt. 4

Houston, TX 77005

Dear Ms. Jenner,

I just finished reading your book about the pioneer family in Austin, Texas, in the 1850s. I really enjoyed the story, especially the part where Asa helps his mother fight off wolves. That was really exciting.

I love to write stories and want to be an author when I grow up. What advice would you give a fourth-grader who has this dream?

Sincerely,

Clifton Jackson

B. Write a letter to an author you admire. Remember to use commas correctly in your addresses, your date, and your closing. Use a colon after the greeting. (You may need to invent the author's address.)

## Family Journeys

- A. Read the letter. Circle each punctuation mark that is in the wrong place. Draw an arrow from it to where it belongs. (9 points)

Mr. Mark Lieu  
1778 Carey Street Apt. 2  
San Francisco CA 94114

Dear Mr. Lieu:

I just read your book about how your family came to San Francisco, California, from Shanghai China. I thought the book was very interesting. My family came to St. Paul Minnesota, in the 1970s from Sabyoury Laos. I would like to write about their experiences. How did you find out about your family history? What kind of questions did you ask? I'm looking forward to your advice.

Yours truly  
Lis Khang

- B. Write a letter to a family member. Tell about something fun or exciting that has happened recently. Circle the commas you used in the addresses, the date, the greeting, and the closing of your letter. (6 points)

## Scary Stories

- A. Circle the double quotation marks. Put a box around the single quotation marks. Underline the commas that separate a speaker's words from the speaker.

My mom likes to tell scary stories. One night she found me wide awake past bedtime. "Move over," she said, and sat down next to me.

"It was a dark and stormy night," Mom said. "A boy named Tyler couldn't sleep."

"Why not?" I asked.

"The wind was making a strange sound outside his window," Mom said. "It sounded as though it was saying, 'Tyler, Tyler, Tyler!'"

"I don't like this story," I said.

Mom continued, "The wind said, 'Tyler! Tyler! I'm going to come and get you if you don't go to sleep!'"

Suddenly Mom grabbed me and yelled, "Got you!"

I jumped halfway to the ceiling. "That's not funny," I said.

"But I can take a hint." Soon I snuggled down under the covers and went to sleep.

- B. Write a dialogue between two people who are telling a scary story. Use double quotation marks, single quotation marks, and commas correctly.

## Amelia

- A. Read the story. Add any missing single or double quotation marks and commas. (10 points)

My friend Luka has a baby sister named Amelia. She makes noises, but she doesn't talk yet. Luka is pretty good at figuring out what she's saying.

"When she yells, it means she's tired, but it can mean other stuff too," Luka explained to me. "One time it meant, 'Hey, Luka, let's build a spaceship.' So we built this awesome spaceship in the den."

Just then Amelia started howling. I said, "This one's easy. She's saying, 'Feed me.'"

"No," Luka said, "she's not. She's saying, 'I'm bored. Tell Mom we want to go to the movies.'"

- B. Write a dialogue between two people in which they quote someone else.

Carets used to indicate insertion of punctuation are for reference only.

## Communicating with Cats and Dogs

- A. Proofread the dialogue. Add any missing single or double quotation marks and commas. (10 points)

My neighbor Mr. Kite and I were walking his dog Waldo when Waldo came to a stop.

"Oh no! He always does this," Mr. Kite groaned. I bent down and said, "What's up, Waldo?"

Waldo woofed softly and looked up at me.

"Maybe he's saying, 'My legs are sore,'" I told Mr. Kite.

Mr. Kite shook his head. "I know what the problem is," he said. "Waldo is saying, 'I prefer to be carried at this point.'"

"Smart dog," I said, as I picked up Waldo and tucked him under my arm. "At your service!"

- B. Write a dialogue between two people trying to figure out what an animal is saying. (5 points)

Carets used to indicate insertion of punctuation are for reference only.

## Crafts from Many Countries

- A. Read the passage. Draw a circle around the proper nouns and a box around the proper adjectives.

The community center on Center Drive held its third international fair last weekend. The fair included crafts from many countries, such as Honduras, Senegal and Cambodia. On display were Haitian baskets and Kenyan wood carvings. The most popular items were beautiful pieces of Mexican silver jewelry.

- B. Find the proper nouns and proper adjectives. Capitalize them by crossing out lowercase letters and writing the capital letters above them.

D J S  
dr. janita sruarez gave a lecture on supporting local crafts people. She told us of a group of women from huaragua who make purses to sell in the united states. She also told us about a guatemalan group that sells paintings done by local artists. P C R A professor draig yoberts spoke about american clothing shops that buy products from west african weavers.

- C. Write a paragraph about a food you like that is originally from another country. Use proper nouns and proper adjectives.

## Where to Go?

A. Proofread the dialogue. Add any missing single or double quotation marks and commas.

"I would like to travel someday," Travon told his friend Rafe.

There are places I really want to see."  
"Like where, Trave?" Rafe asked. "I'm happy to stay right here,"

he said.

"The other day my uncle got back from Iceland. He said that it was amazing. It has natural hot springs, great river rafting, and lots of friendly people. But he also said, 'In the winter, it can stay dark for as long as twenty hours,'" Travon explained.

"I'd rather go someplace with lots of sun, warm weather, and sandy beaches," Rafe responded. "I want to go someplace where the slogan is, 'Come lie on our beaches and relax!'"

B. Write a dialogue between two friends. Have them talk about where they would go if they could travel anywhere.

## SKILL PRACTICE ASSESSMENT

### Using the Skill Practice Pages

Each mini-lesson in the *Skill Practice Teaching Guide* has three corresponding practice pages in the *Student Skill Practice Book*. (These are referenced in the “Optional Practice” section at the end of each mini-lesson.) The first two practice pages provide opportunities for the students to practice a language skill in pairs or individually. The third page can be assigned for additional practice, or it can be completed by students independently and then scored to evaluate progress and inform instruction. You can also use the scores as a basis for assigning a language skills grade and/or include the scores in each student’s overall unit score on the “Individual Writing Assessment.” (For more information, see “Individual Writing Assessment” in the *Assessment Resource Book*.)

You can use the “Skill Practice Student Record” sheet (SR1) on page 179 to create a cumulative record of each student’s scores, and you can use the “Skill Practice Class Record” sheet (CR1) on page 180 to record and track your students’ progress as a class.

### SCORING THE SKILL PRACTICE PAGES

- ✓ After the students complete the first two practice pages for a lesson (either in pairs or individually), have each student complete the third practice page independently. (We recommend having students complete the practice pages over several days.)
- ✓ Make a class set of “Skill Practice Student Record” sheets (SR1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 179. If you would like to record your assessment data electronically, go to [classview.org](http://classview.org) to access the record sheet using the CCC ClassView app.
- ✓ Collect each student’s *Student Skill Practice Book* and locate the practice page you wish to score. (The page number of the practice page can be found in the “Optional Practice” section at the end of each lesson in the teaching guide.)
- ✓ Locate the answer key for the practice page you wish to score in Appendix A, “*Student Skill Practice Book Corrections*,” in this teaching guide.
- ✓ For each student, score the practice page and then calculate the total number of points earned using the point values indicated on the answer key. For example, each activity on *Student Skill Practice Book* page 3 is worth 5 points. (See the facsimile of the annotated practice page on page 131 of this teaching guide.)

- ✓ Record the total number of points earned out of 15 in the “Score” column on the “Skill Practice Student Record” sheet (SR1). Record the *Being a Writer* unit during which the lesson was taught and any notes you have about the student’s work. (For example, if you taught Lessons 1–3 while teaching Unit 2 in *Being a Writer* you might record a “2” in the “Taught in Unit/Genre” column.)
- ✓ Consider whether you would like to include the scores from the practice pages in each student’s overall unit score on the “Individual Writing Assessment” record sheet (located in the *Assessment Resource Book*) for the *Being a Writer* unit during which the lessons were taught. For example, if you taught Lessons 1–3 while teaching Unit 2 in *Being a Writer*, consider whether you will include the scores for the practice pages from those lessons in the overall unit score in the Individual Writing Assessment for Unit 2. (Note that if you include the scores from the practice pages, the overall unit score in the Individual Writing Assessment will be based equally on the student’s writing score and the total points earned on the practice pages. You might wish to weight the scores differently to align with your school’s or district’s grading system.)
- ✓ If you choose to enter this data directly into the CCC ClassView app, you have the option of having the scores automatically appear in the “Individual Writing Assessment” record sheet and calculated into each student’s overall unit score. Scores will also automatically appear in each student’s Student Profile. From there, the data can be shared digitally with parents, colleagues, and administrators.

## GRADE-LEVEL LANGUAGE SKILLS ASSESSMENT

Three diagnostic proofreading passages offer formative assessment of grade-level language standards. Each passage gives students three opportunities to show their mastery of a set of grade-level language skills. The proofreading passages appear in the back of the *Student Skill Practice Book* on page 103, while annotated versions of the passages are provided in this appendix as scoring keys. If student responses indicate the need for additional practice with a skill, you may teach the lesson in the *Skill Practice Teaching Guide* that corresponds to that skill.

There are two cumulative reports that identify which skill is addressed in each assessment item and where that skill is taught in the *Skill Practice Teaching Guide*. The “Diagnostic Proofreading Passages: Student Report” (DS1) can be used to track an individual student’s progress throughout the year; whereas, the “Diagnostic Proofreading Passages: Class Grouping Report” (DR1) is used to group the students around language skills for which they need additional practice. To assess student mastery of grade-level skills throughout the year, administer a diagnostic proofreading passage at the beginning, middle, and end of the year. Then use the student and class reports to identify students who are struggling with specific skills and may benefit from instruction, practice, or review in small groups.

Everything you need to conduct each assessment, including instructions and forms, can be found in this appendix or on the CCC ClassView assessment app ([classview.org](http://classview.org)). You may choose to record your students’ progress using printed copies of the forms from this guide or from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). You can access the CCC ClassView app by tapping the linked assessment icons in the *Digital Teacher’s Set*, by directly accessing the app at [classview.org](http://classview.org), or via the CCC Learning Hub.

# Diagnostic Proofreading Passage 1

## CONDUCTING THE ASSESSMENT

1. Have the students turn to “Diagnostic Proofreading Passage 1” on page 104 in their *Student Skill Practice Books*. You may also visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to download, print, and distribute to each student the “Diagnostic Proofreading Passage 1” (BLM1).
2. Tell the students that today they are going to proofread and correct a story to show what they know about good writing. Explain that there may be more than one way to correct an error and to think about what sounds best.
3. State your expectations for how the students will behave while you are conducting the assessment. For example, students should stay in their seats, work silently, and raise their hands if they have questions.
4. Direct the students’ attention to the directions and read them aloud. Explain that they are going to correct a story written by someone they don’t know.
5. Have the students begin.
6. When the students have finished, collect their work.

## SCORING THE ASSESSMENT

1. Use the “Diagnostic Proofreading Passage 1: Scoring Key” (DP1) to review student work. Read each student’s edited passage against the scoring key.
2. Annotate each scoring key using the following marks:
  - a. Place a check mark beside each item that the student has answered correctly.
  - b. Place an X beside each incorrect answer.
3. Transfer results from the scoring key to the “Diagnostic Proofreading Passages: Student Report” (DS1) as follows:
  - a. Write the student’s name at the top of the report, and insert the date the assessment was conducted. If this is not the first proofreading passage of the year, you might skip this step and use your previous student report.
  - b. Find the column labeled *Items for Passage 1*. Insert the date the assessment was conducted.

- c. Circle the corresponding number for each assessment item the student has marked correctly.
  - d. Tally the number of items correct and insert that number in the last row of the Items for Passage 1 column labeled *Total Number Correct*. This will show you how an individual student performed on the language skills that were tested in “Diagnostic Proofreading Passage 1.”
4. After all the proofreading passages have been completed, tally the number of items correct across each row and insert the total in the Total Items Correct column. This will show you how the student performs across all three proofreading passages.

---

### Teacher Note

The diagnostic proofreading passages also can be scored using the CCC ClassView assessment app, which can be accessed by tapping the links in your *Digital Teacher's Set* or through the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

## ANALYZING THE ASSESSMENT

Use the information you gather from the assessment to help inform your instruction.

1. Make note of any standard for which a student has marked only one of three items correctly. This student is likely to need instruction in the language convention associated with that standard.
2. When a student scores 0–1 on a skill, record her name in the Proofreading Passage 1 column of the “Diagnostic Proofreading Passages: Class Grouping Report” (DR1) beside the applicable standard.
3. After all of the student names have been recorded, students who require instruction will have been grouped by the language convention(s) that they need to practice.
4. Refer to the right-hand column of the “Class Grouping Report” to find the lessons that correspond to each convention. Use the lessons to instruct each group.
5. File the completed assessments in the students’ assessment folders.

### Proofreading Passage 1

A student wrote this draft of a story. Correct all the errors you find.

My little brother Carl made a snowball ~~who~~<sup>that</sup> he wanted to give to our mom. He is too little to understand that it would melt inside the house. I told Carl, but he ~~should~~<sup>would</sup> not believe me. I decided to do a (science little) experiment to show him. I can still remember the time ~~where~~<sup>when</sup> Mr. Chang did this experiment for us in preschool.

I told Carl ~~to~~<sup>to</sup> make two (round big) snowballs. We put one in a (glass large) dish ~~through~~<sup>on</sup> the Kitchen counter. I wrapped the other snowball in plastic, ~~then~~<sup>T</sup> I put it ~~at~~<sup>in</sup> the freezer.

Mom saw a dish of water, ~~When~~<sup>W</sup> she got home. Before she ~~should~~<sup>could</sup> ask, I said, "Carl, show Mom your surprise." I lifted Carl, ~~And~~<sup>a</sup> he reached inside the freezer. The snowball was frozen.

"I made this snowball for you," Carl said. Then he added, "Mom, do you know that the water in the dish used to be another snowball? You ~~may~~<sup>must</sup> keep a snowball very cold, or it will melt."

# Diagnostic Proofreading Passage 3

## CONDUCTING THE ASSESSMENT

1. Have the students turn to “Diagnostic Proofreading Passage 3” on page 108 in their *Student Skill Practice Books*. You may also visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to download, print, and distribute to each student the “Diagnostic Proofreading Passage 3” (BLM3).
2. Tell the students that today they are going to proofread and correct a story to show what they know about good writing. Explain that there may be more than one way to correct an error and to think about what sounds best.
3. State your expectations for how the students will behave while you are conducting the assessment. For example, students should stay in their seats, work silently, and raise their hands if they have questions.
4. Direct the students’ attention to the directions and read them aloud. Explain that they are going to correct a story written by someone they don’t know.
5. Have the students begin.
6. When the students have finished, collect their work.

## SCORING THE ASSESSMENT

1. Use the “Diagnostic Proofreading Passage 3: Scoring Key” (DP3) to review student work. Read each student’s edited passage against the scoring key.
2. Annotate each scoring key using the following marks:
  - a. Place a check mark beside each item that the student has answered correctly.
  - b. Place an X beside each incorrect answer.
3. Transfer results from the scoring key to the “Diagnostic Proofreading Passages: Student Report” (DS3) as follows:
  - a. Write the student’s name at the top of the report. If this is not the first proofreading passage of the year, you might skip this step and use your previous student report.
  - b. Find the column labeled *Items for Passage 3*. Insert the date the assessment was conducted.

- c. Circle the corresponding number for each assessment item the student has marked correctly.
  - d. Tally the number of items correct and insert that number in the last row of the Items for Passage 3 column labeled *Total Number Correct*. This will show you how an individual student performed on the language skills that were tested in “Diagnostic Proofreading Passage 3.”
4. After all the proofreading passages have been completed, tally the number of items correct across each row and insert the total in the Total Items Correct column. This will show you how the student performs across all three proofreading passages.

---

### Teacher Note

The diagnostic proofreading passages also can be scored using the CCC ClassView assessment app, which can be accessed by tapping the links in your *Digital Teacher’s Set* or through the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

## ANALYZING THE ASSESSMENT

Use the information you gather from the assessment to help inform your instruction.

1. Make note of any standard for which a student has marked only one of three items correctly. This student is likely to need instruction in the language convention associated with that standard.
2. When a student scores 0–1 on a skill, record her name in the Proofreading Passage 3 column of the “Diagnostic Proofreading Passages: Class Grouping Report” (DR1) beside the applicable standard.
3. After all of the student names have been recorded, students who require instruction will have been grouped by the language convention(s) that they need to practice.
4. Refer to the right-hand column of the “Class Grouping Report” to find the lessons that correspond to each convention. Use the lessons to instruct each group.
5. File the completed assessments in the students’ assessment folders.

### Proofreading Passage 3

A student wrote this draft of a story. Correct all the errors you find.

<sup>was</sup><sup>1</sup>

new calf got out of the pasture, and he is heading toward Green  
<sup>P</sup><sup>2</sup>ark Highway!” Hank, <sup>who</sup><sup>3</sup> ~~what~~ is a strong <sup>T</sup><sup>4</sup>texan, got in the  
driver’s seat of the pick-up truck. Grandpa grabbed a rope and  
<sup>in</sup><sup>5</sup> sat ~~at~~ the other seat. I climbed into the back of the truck.

When we caught up with the runaway calf, Grandpa said to  
Hank, <sup>^</sup><sup>6</sup> “Get a little closer to the calf, <sup>^</sup><sup>7</sup> but don’t scare him.”

I had heard stories about Grandpa’s early days in the rodeo, <sup>^</sup><sup>8</sup>  
but I had never seen him in action. As Grandpa leaned out the  
window, he twirled the rope, <sup>a</sup><sup>9</sup> ~~And~~ tossed <sup>its</sup><sup>10</sup> ~~it’s~~ loop around the  
calf’s neck.

“Slow down now, Hank!” <sup>^</sup><sup>11</sup>roared Grandpa. Hank slowed the  
truck to a crawl, <sup>^</sup><sup>12</sup> and we drove back ~~at~~ <sup>to</sup><sup>13</sup> the farm. The calf  
trotted beside us the whole way.

Hank chuckled and said, <sup>^</sup><sup>14</sup> “I’m going ~~too~~ <sup>to</sup><sup>15</sup> make you a T-shirt  
<sup>that</sup><sup>16</sup> ~~who~~ will have the words *Champion Pick-up Truck Cowboy* on it.”

# Introduction

With the advent of standards-based performance assessments, students are required to analyze and gather information from multiple sources and then produce writing in a specified genre. In standards-based end-of-year summative writing assessments, students are assessed on how well their writing exhibits the qualities of effective writing, as well as how successfully they evaluate, interpret, and integrate information from the sources. These performance-based writing assessments provide teachers, administrators, parents, and the students themselves with evidence of how well students have acquired the skills needed for research and writing.

The goal of the *Writing Performance Task Preparation Guide* is to provide students with strategies they can use to do their best writing in three genres: narrative, informative/explanatory, and opinion. The instruction helps you guide the students through the entire performance task, step by step. The students learn that each task has several parts, and they find out what is expected of them in each part. The guided practice also shows them how to apply what they already know about good writing. This practice and support helps the students gain the confidence they need to perform well when they take a standards-based writing assessment.

The units in this guide use the same pedagogy and five-day lesson structure as other units in the *Being a Writer* program. Support materials—including student handouts, interactive whiteboard activities, assessment record sheets, and instructional media—can be accessed via the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). For more information about the CCC Learning Hub, see “Using the Technology Features” on page xlv of the *Teacher’s Manual*.

# Teaching the Units

## How the Units Are Organized

The *Writing Performance Task Preparation Guide* includes three units: Narrative Writing, Informative/Explanatory Writing, and Opinion Writing. Each unit includes a Guided Practice Performance Task and one week of lessons. During the one week of lessons, the students complete the Guided Practice Performance Task as a class with support from you.

### **GUIDED PRACTICE PERFORMANCE TASK**

The Guided Practice Performance Tasks in this guide are designed to elicit the same types of thinking that will be required of students when completing standards-based writing performance tasks. These tasks require each student to gather and evaluate information about a given topic from multiple sources, use the information to answer research questions, and then produce an extended piece of writing.

Each performance includes teacher directions, student directions, source materials, graphic organizers, research questions, and scoring rubrics for the research questions. The tasks are not computerized and can be administered in a classroom environment using pencils, paper, and other classroom resources.

### **LESSONS**

Each one-week unit consists of five days of lessons. During the lessons, the students work as a class, in pairs, and independently to complete each portion of a performance task. As the students progress through the lessons, they are introduced to and then practice using strategies such as asking themselves questions about a source while reading, rereading a source, and rereading and analyzing their writing. These strategies help the students:

- Check for comprehension while reading or viewing a variety of sources (videos, articles, simulated web articles, and a journal entry)
- Take notes from the sources and use graphic organizers to sort and record information
- Analyze directions to determine what they are being asked to do
- Evaluate, interpret, and integrate information from multiple sources to answer research questions
- Write cohesive pieces using the characteristics of good writing for the genre
- Evaluate their writing for characteristics of good writing and for elements of the genre

**Day 1** The students discuss the purpose of a performance-based writing assessment and the importance of doing their best on the assessment. They think about what they have learned about the characteristics of good writing and the elements of the genre. Then the students are introduced to the topic they will write about. They are provided with one or more sources about the topic and learn to stop occasionally when reviewing the source(s) to ask themselves questions about what they are learning. In pairs, they take notes on the source(s) and they each use a graphic organizer to sort and record information from the source(s).

**Day 2** The students are introduced to one or more additional sources, and they use the strategies from Day 1 to analyze what they have learned from the source(s). They again work in pairs to take notes, and they each use a graphic organizer to record and organize information from the source(s).

**Day 3** The students learn how to analyze three research questions to determine exactly what each question is asking them to do. They work in pairs to generate answers to the questions and then write their own answers to each question using information from the sources and their notes. With guidance from you, the students review their answers to make sure that they have crafted quality responses to each question.

**Day 4** The students focus on using information from the sources, with the aid of their notes and their answers to the research questions, to each write a cohesive piece in response to a provided writing assignment. First, the students analyze the writing assignment to determine what it is asking them to do. Then you model writing the first few paragraphs of your own piece using information from all of the sources. (You can write your own piece or use the model provided in the lesson.) The students talk with their partners about what they might write and then write their own pieces.

**Day 5** On the final day, you share your completed piece with the students. (You can use your own piece or the model provided in the lesson.) As you share, you point out how you incorporated what you know about good writing and how you met the requirements of the writing assignment. The students then analyze their own writing for the qualities of a well-written piece during a guided rereading, facilitated by you.

## Planning and Teaching the Lessons

The units in this guide can be taught in any order; however, we recommend teaching each unit after you complete the corresponding genre unit in the *Teacher's Manual*. (For a suggestion on how to include the units in this guide in your instruction for the year, see the Sample Calendar on page xxxiii of the *Teacher's Manual*.)

To prepare to teach the lessons, begin by reading the unit's introductory pages. The unit's opening page introduces you to the topic of the Guided Practice Performance Task and acquaints you with the goals of the unit, while the Overview table provides a general outline of the unit. The Resources list specifies the physical materials and the supplemental activities

for the entire unit, while the Online Resources list indicates all of the materials that are available digitally on the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)).

Next, read the writing and social development focuses in the Week Overview. The Do Ahead section alerts you to special requirements for the week and any preparations you should make ahead of time. Preview the lessons and note how the instruction supports the unit's writing and social development focuses from lesson to lesson. Also note the lessons that may require an extended class period.

## **USING A GUIDED PRACTICE PERFORMANCE TASK AS A PRACTICE TEST**

Since the students complete each Guided Practice Performance Task with extensive support from you and in collaboration with their partners, the students' writing is not scored. However, if you feel that your students are ready to complete a performance task independently after completing two of the units, the final Guided Practice Performance Task in this guide can be administered as a practice test. Simply administer the final performance task without the instructional support.

**Scoring the Students' Writing** If you choose to administer one of the Guided Practice Performance Tasks as a practice test, the research questions in Part 1 can be scored using the rubrics included at the end of the performance task.

We recommend that you score the students' writing using your state test's writing rubric, which will identify the elements of writing emphasized in your state. The qualities of good writing emphasized in this guide are those taught and practiced throughout the *Being a Writer* program: writing a strong opening and closing; using transition words, sensory details, and interesting words; including elements of the genre; following writing rules for punctuation, spelling, grammar, and capitalization; and clear organization. If your state test's writing rubric emphasizes other elements, you might incorporate instruction of those elements in the lessons by modeling their use during the teacher modeling in Day 4 of each unit.

# Narrative Writing

During this one-week unit, the students prepare for the narrative writing portion of a standards-based end-of-year writing performance task. They discuss what they have learned about narrative (fiction) writing and complete a practice performance task as a class, guided by the teacher. The task requires the students to each write a story about traveling west in an imaginary wagon train on the Oregon Trail. To learn about the pioneers and their experiences while migrating west, the students look at a map of the Oregon Trail and read an article and a journal. They take notes about what they learn, and use information from the sources and their notes to answer research questions and write stories. Socially, the students listen respectfully to the thinking of others and share their own, make decisions with their partners, and explain their thinking.

# Week OVERVIEW

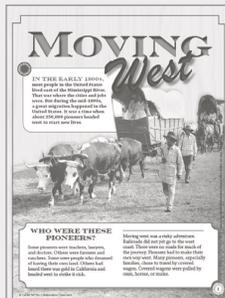

## "The Oregon Trail" map (BLM1)

The route of pioneers who traveled west along the Oregon Trail is shown on this map.

## "My Trip on the Wagon Train" journal (BLM5)

James Parker, a pioneer boy, writes in this fictional journal about his experiences traveling in a wagon train on the Oregon Trail.

## "Moving West" article (BLM2)

This article provides a brief history of the American pioneers' migration along the Oregon Trail in the mid-1800s.

### Writing Focus

- Students reflect on what they have learned about narrative (fiction) writing.
- Students view and discuss a map about the topic.
- Students read an article and a journal about the topic, and take notes.
- Students answer research questions about the topic, and plan and write stories.
- Students revise and proofread their writing.

### Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students make decisions together.
- Students explain their thinking.

## DO AHEAD

- ✓ Prior to Day 1, read "Guided Practice Performance Task: Narrative Writing" on pages 32–36. This unit's lessons are based on this guided practice performance task. During the unit, the students complete this

## DO AHEAD *(continued)*

performance task with instructional support and guidance from the teacher. For more information about how the performance task is used in the lesson, see “About the Guided Practice Performance Task” on page 6.

- ✓ Prior to Day 1, familiarize yourself with the content of the map “The Oregon Trail” (BLM1) and locate the cities and examples of terrain referenced in the lesson.
- ✓ Prior to Day 1, read the article “Moving West” (BLM2) to familiarize yourself with the content.
- ✓ Prior to Day 1, prepare several sheets of chart paper so that they resemble the “Article and Journal Notes” graphic organizer (BLM3) the students will use in Days 1 and 2.
- ✓ Prior to Day 1, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the student handouts (see “Reproducibles” on page 2). Make a class set of copies of each handout listed, except for “Student Directions for Part 1” (BLM4). You might want to have extra copies of the graphic organizer available for the students.
- ✓ Prior to Day 1, prepare a class set of writing folders for the students to use to organize their materials throughout the week.
- ✓ Prior to Day 2, read the journal “My Trip on the Wagon Train” (BLM5) to familiarize yourself with the content.
- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA1) on page 52.
- ✓ Prior to Day 3, prepare a sheet of chart paper so that it resembles the “Research Questions” sheet (BLM6) the students will use. You may want to write each question on a separate piece of chart paper.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2) on page 53.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA3) on page 54.

*“A good head and good heart are always a formidable combination. But when you add to that a literate tongue or pen, then you have something very special.”*

— Nelson Mandela

As your students approach the day of the end-of-year writing performance task, take a step back and view the larger picture. Naturally you want your students to do well on the test. Beyond the demands of this particular test, what are your hopes for your students as writers? How do you hope that having a “literate pen” combined with a good head and a good heart will serve each of them? Write in your journal about your aspirations for your students. Consider sharing your writing with your students.

# Day 1

## Viewing a Map, Reading an Article, and Taking Notes

### Materials

- Copy of the map “The Oregon Trail” (BLM1) for each student
- Copy of the article “Moving West” (BLM2) for each student
- Chart paper and a marker
- “The Oregon Trail” chart (WA1)
- “Moving West” chart (WA2)
- “Article and Journal Notes” chart, prepared ahead
- Copy of the “Article and Journal Notes” graphic organizer (BLM3) for each student
- A writing folder for each student

### Teacher Note

We recommend that you teach this unit after the class completes the Fiction genre unit.

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 5 and then finish the lesson later in the day or the next day.

### Teacher Note

The partners you assign today will stay together for the entire unit.

### In this lesson, the students:

- Work with new partners
- Reflect on what they know about good narrative (fiction) writing
- View and discuss a map
- Read and discuss an article
- Take notes on the article as a class and in pairs
- Explain their thinking

### ABOUT THE GUIDED PRACTICE PERFORMANCE TASK

During this unit, the students complete a narrative writing performance task as a class with instructional support from you. The purpose for this guided practice performance task is to prepare the students for standards-based end-of-year performance tasks they will be required to complete independently. Five days of instruction are provided during which the students’ writing is neither timed nor scored. This unit’s performance task is not computerized and can be administered in a classroom environment using pencils, paper, and other classroom resources.

The topic of the performance task is traveling west by wagon train on the Oregon Trail. The task consists of three sections: an Introductory Classroom Activity (students are introduced to the topic and examine two sources), Part 1 (students examine an additional source and answer research questions about the topic), and Part 2 (students write their own stories). For more information about each section, see “Task Overview” on page 33. For the complete performance task on which this unit’s instruction is based, see “Guided Practice Performance Task: Narrative Writing” on pages 32–36.

## GETTING READY TO WRITE

### 1 Pair Students and Introduce the Performance Task

Randomly assign partners and make sure they know each other’s names. Have the students bring their pencils and sit at desks with partners together.

Tell the students that at the end of the school year, all the students in their grade will complete a reading and writing assignment called a *performance task*. (You might explain that a *task* is a “job that needs to be done.”) Explain that the purpose for the performance task is to show how well they are developing and growing as readers and writers. This is important information for them as students, as well as for their families, teachers, and principal.

Remind the students that for the past several weeks they have been doing fiction writing. Explain that fiction writing is sometimes called narrative writing and that a narrative is a story. Tell the students that narrative, or story, writing is one type of writing they will do on the end-of-year performance task. Explain that during the next several days they will learn strategies for doing well on the narrative writing portion of the performance task.

## 2 Discuss What the Class Has Learned About Narrative Writing

Point out that the students have learned a lot about how to write good narrative, or fiction, pieces. Explain that they can use what they have learned to help them do well on the performance task. Ask and discuss the questions that follow as a class. Encourage the students to use the discussion prompts they have learned as they talk to one another.

- Q *What have you learned about good narrative, or fiction, writing?*
- Q *What did you do to make your narrative piece interesting and easy to read?*

### Students might say:

“It gets the reader hooked right from the beginning of the story.”

“I agree with [Jeremy]. I also think it has interesting characters and events.”

“Sometimes it includes dialogue.”

“It describes where the story is happening.”

“In addition to what [Jeremy and Lisset] said, it stays focused and makes sense.”

As the students respond, record their ideas on a sheet of chart paper titled “What We Have Learned About Narrative Writing.” If the students do not mention the following qualities of good narrative writing, briefly review them and add them to the chart.

### Teacher Note

You might explain to the students that narrative writing can be about true events from their own lives, which we call *personal narrative*, or about fictional (made-up) events. For the next several days, they will be focusing on fictional narratives.

### Teacher Note

The discussion prompts are:

- “I agree with \_\_\_\_\_ because...”
- “I disagree with \_\_\_\_\_ because...”
- “In addition to what \_\_\_\_\_ said, I think...”

### What We Have Learned About Narrative Writing

- Begins with an opening that makes the reader want to keep reading
- Includes interesting characters and events
- Describes the setting of the story
- Has a chronological sequence of events
- Sometimes includes dialogue
- Stays focused and makes sense
- Uses sensory details
- Establishes a point of view
- Follows writing rules for spelling, punctuation, capitalization, and grammar

Tell the students that you will post the chart where everyone can see it so that they can keep what they have learned about good narrative writing in mind as they prepare for the narrative writing performance task.

### 3 Introduce the Topic of the Guided Practice Performance Task

Explain that today you will introduce the students to the topic of the performance task, and they will look at a map and read an article about the topic. In the coming days, they will learn more about the topic by reading a journal. Then, as a class, they will use what they learned to answer research questions and write stories about the topic.

Tell the students that they are going to learn about what it was like to travel west by wagon train in the mid-1800s. Explain that this was a time in United States history when many people migrated, or moved, from the eastern part of the United States to the West in search of a better life.

Write the words *migration* and *pioneers* where everyone can see them. Explain that *migration* means “moving from one place to settle in another place.” Tell the students that the people who were migrating were called *pioneers*, and that *pioneers* are the “first people to explore or settle a new area.” Explain that many pioneers traveled west in covered wagons along a route called the Oregon Trail.

### 4 Introduce and Discuss a Map

Tell the students that the first source of information they will look at is a map of the Oregon Trail. Display the chart “The Oregon Trail” (WA1) and distribute a copy of the map (BLM1) to each student. Point to the

#### Teacher Note

You might explain that a *source* is “something that information comes from, such as a book, video, website, or article.”

beginning of the trail in Independence, Missouri, and to the end of the trail in Oregon City, Oregon, and explain that the trail was about 2,000 miles long. Ask:

**Q** *What else do you notice about the map of the Oregon Trail?*

If necessary, point out that the trail crossed plains, deserts, rivers, and mountains. Explain that the students will learn more about the westward migration of pioneers by reading an article about the topic.

## **5** Introduce the Article and Read It Aloud with Stops

Tell the students that now they will read an article called “Moving West.” Explain that the article discusses who the pioneers were, why they migrated west, and what the journey was like. Display the “Moving West” chart (WA2) and distribute a copy of the article (BLM2) to each student. Tell the students that for this task you will read the article aloud, but when they do performance tasks on their own, they will read any source materials independently.

Ask the students to follow along as you read the article aloud, and explain that you will stop during the reading to have pairs discuss what they are learning. Read the title of the article and the first three paragraphs aloud, slowly and clearly. Stop after:

“Covered wagons were pulled by oxen, horses, or mules.”

Ask and briefly discuss:

**Q** *What did you learn about the pioneers and their experiences while migrating west in the part of the article you just heard? Turn to your partner.*

Without sharing as a class, continue reading the article. Follow the same procedure to have the students discuss what they learned at the following stops:

“It is estimated that one out of ten pioneers never finished the journey.”

“After planning the next day’s journey, they fell asleep wondering what tomorrow would bring.”

## **WRITING TIME**

### **6** Reread the Article and Take Notes as a Class and in Pairs

Post the “Article and Journal Notes” chart that you prepared ahead and distribute a copy of the “Article and Journal Notes” graphic organizer (BLM3) to each student.

Tell the students that you will read the article again, and that as a class and in pairs, they will use this note-taking chart, called a *graphic organizer*, to take notes on what they are learning about the westward

migration of pioneers along the Oregon Trail. Point out that the graphic organizer is divided into three sections. Point to and read each section heading aloud.

Explain that you will read the article again and stop during the reading, as you did before. At each stop, the students will discuss what they have learned and where they will record their notes on the graphic organizer. Tell the students that this information will be useful when they plan and write their stories about traveling west by wagon train.

Read the article and stop (as you did before) after:

“Covered wagons were pulled by oxen, horses, or mules.”

Discuss as a class:

- Q** *What did you learn about the pioneers and their experiences while traveling west in the part of the article you just heard?*
- Q** *Where might you put a note saying [some pioneers were teachers] on the graphic organizer? Why?*

**Students might say:**

“I learned that pioneers were people who went west to start new lives. We should put that in the ‘Other Notes’ section.”

“The pioneers were all kinds of people: teachers, lawyers, doctors, farmers, and ranchers. That would go in the ‘Other Notes’ section.”

“I didn’t know that there were no roads going west. That should go in the first section because it could help describe the roughness of the trail.”

As the students respond, model writing their responses as notes in the appropriate places on the chart, and have the students copy the notes onto their own graphic organizers.

Using the same procedure, read the next section of the article. Have the students discuss what they learned as a class and model taking notes.

Stop after:

“It is estimated that one out of ten pioneers never finished the journey.”

At the last stop, have the students discuss what they learned in pairs (rather than as a class) and record their notes on their graphic organizers. Stop after:

“After planning the next day’s journey, they fell asleep wondering what tomorrow would bring.”

Have a few volunteers share what they discussed and where they recorded their notes on the graphic organizer. As they share, add their ideas to the chart.

### Teacher Note

You may want to review that notes are most helpful when they are brief and written in the writer’s own words rather than copied exactly from the source.

### Teacher Note

If the students have difficulty deciding where on the graphic organizer to record their notes, call for their attention and model writing their ideas in the appropriate places on the chart.

## Article and Journal Notes

### Sights Along the Trail

- no roads or railroads to see
- deserts, mountains, forests, and rivers
- other covered wagons

### Experiences Traveling in a Wagon Train

- traveled 10 to 20 miles a day for 5 or 6 months
- had to unpack and repack the wagon to cross rivers
- faced sickness, accidents, floods, snow, and thieves
- one out of ten pioneers never finished the journey
- wagons traveled in trains of 25 to 250 wagons led by a captain
- scouts who knew the way guided the wagon trains
- pioneers helped each other when needed
- pioneers walked alongside the wagons
- formed a circle of wagons at night for protection
- camped near water
- everyone had a job to do
- pioneers sang songs, told stories, and talked at night

### Other Notes:

- about 350,000 pioneers migrated west between 1843 and 1859
- pioneers were teachers, lawyers, doctors, farmers, ranchers
- some pioneers went in search of land, some gold
- Oregon Trail starts in Missouri and ends in Oregon
- Oregon Trail is about 2,000 miles long

Tell the students that tomorrow they will read a journal written by James Parker, a pioneer boy who traveled west on the Oregon Trail. Explain that the students will add notes on what they learn from the journal to this graphic organizer.

Distribute a writing folder to each student and explain that this is where the students will keep all of their materials for the week. Have the students put their materials inside their folders and keep them in their desks.

## Teacher Note

Save the “What We Have Learned About Narrative Writing” chart and the “Article and Journal Notes” chart to use throughout the unit.

# Day 2

## Materials

- Copy of the journal “My Trip on the Wagon Train” (BLM5) for each student
- “Article and Journal Notes” chart from Day 1
- “Student Directions for Part 1” chart (WA3); also available as (BLM4)
- Additional page(s) of the “Article and Journal Notes” chart, prepared ahead
- “My Trip on the Wagon Train” chart (WA4)
- Extra copies of the “Article and Journal Notes” graphic organizer (BLM3) for students, if needed
- A marker
- “Class Assessment Record” sheet (CA1)

## Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 3 and then finish the lesson later in the day or the next day.

## SHARING AND REFLECTING

### 7 Reflect

Ask and briefly discuss:

**Q** *In what ways did you and your partner work well together today?*

## Reading a Journal and Taking Notes

### In this lesson, the students:

- Review what they have learned about pioneers and traveling west by wagon train
- Read and discuss a journal about the topic
- Take notes on the journal in pairs
- Make decisions together
- Work in a responsible way

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils and sit at desks with partners together. Review that the students are completing a narrative writing task about traveling west by wagon train to prepare for the end-of-year performance task. Review that yesterday they discussed what they have learned about good narrative writing. They also read an article about moving west by wagon train, discussed it as a class, and took notes about what they learned.

Direct the students’ attention to the “Article and Journal Notes” chart from Day 1. Briefly review the notes by asking:

**Q** *What did you learn about the pioneers and their experiences while traveling west in the article we read yesterday?*

Tell the students that today they will learn more about pioneers traveling west by reading a journal written by a pioneer boy on the Oregon Trail.

### 2 Introduce Student Directions for Part 1

Display the “Student Directions for Part 1” chart (WA3). Explain that these are directions for the first part of the performance task, in which the students examine another source about westward migration and

write responses to research questions. Tell the students that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, you will read the journal aloud, rather than have the students read it on their own, and they will take more time than the directions say to complete the steps. Explain that when the students do performance tasks on their own later, they will follow the directions exactly.

### 3 Introduce the Journal and Read It Aloud with Stops

Tell the students that today’s source is a journal titled “My Trip on the Wagon Train.” Explain that the journal was written by a pioneer boy named James Parker who traveled west on the Oregon Trail with his family. Explain that this journal, or diary, is a written record of the boy’s experiences during his travels. Display the “My Trip on the Wagon Train” chart (WA4) and distribute a copy of the journal (BLM5) to each student. Point to the date of each entry and explain that James started his journal in May of 1853 and stopped writing entries in October of the same year. Ask them to follow along as you read the journal entries aloud, and explain that you will stop during the reading to have pairs discuss what they are learning.

Read the title and the first two entries (including the dates) aloud, slowly and clearly. Stop after:

“He told us to watch out for rattlesnakes.”

Ask:

**Q** *What did you learn about the pioneers and their experiences while traveling west in the part of the journal you just heard? Turn to your partner.*

Without sharing as a class, continue reading the journal. Follow the same procedure to have the students discuss what they learned at the following stops:

“Some families have left and are headed south for Utah or Texas.”

“I can hardly wait to find out what our new life here will be like!”

## WRITING TIME

### 4 Reread the Journal and Take Notes in Pairs

Direct the students’ attention to the “Article and Journal Notes” chart from Day 1 and explain that you will add notes from the journal to this graphic organizer. Explain that as you read the journal again you will stop, and partners will discuss what more they learned and then write notes in the appropriate places on their own graphic organizers. Remind the students that they will use the information they collect to help them answer research questions and write stories about traveling west by wagon train.

### Teacher Note

The purpose for showing the “Student Directions for Part 1” chart (WA3) is to briefly introduce the students to the type of directions they will encounter when they do performance tasks by themselves. It is not necessary to take the students through all the directions now. They will have the experience of “following” the directions over the next few days. As you complete various parts of the directions, you might redisplay the chart and point out the steps the students have completed.

Read the journal and stop (as you did before) after:

“He told us to watch out for rattlesnakes.”

Ask the following questions one at a time, without discussing them as a class:

- Q *What more did you learn about the pioneers and their experiences while traveling west in the part of the journal you just heard?*
- Q *Where will you write a note about what you have learned on the graphic organizer, and why will you write the note there?*

Say “Turn to your partner,” and give partners a few minutes to share their thinking and write notes about what they learned on their graphic organizers. As they work, circulate, observe, and offer assistance.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners able to agree about what information to include in their notes?
- Are they able to describe the sights they might see along the trail?
- Are they able to describe the experiences they might have while traveling in a wagon train?
- Are they writing notes in their own words?

If you notice many students having difficulty writing notes, call for the class’s attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate place on the chart. As necessary, encourage the students to reread the journal to collect the information they need.

Record your observations on the “Class Assessment Record” sheet (CA1); see page 52.

After a few minutes, ask volunteers to share their thinking about what they learned and where they recorded notes on their graphic organizers. Then add their ideas to the chart.

Using the same procedure, stop, discuss, and take notes at the following places in the journal:

“Some families have left and are headed south for Utah or Texas.”

“I can hardly wait to find out what our new life here will be like!”

### Teacher Note

When you have completely filled the first “Article and Journal Notes” chart with your notes, model continuing your note-taking on a second sheet of prepared chart paper. Tell the students that if they completely fill one graphic organizer with their notes, they can continue taking notes on a second graphic organizer.

### Article and Journal Notes

#### Sights Along the Trail

- flat prairie land, meadows, and fields
- tornadoes
- Sioux men on horseback
- people from towns along the trail
- thunder and lightning
- rattlesnakes
- horse and ox bones
- broken wagon wheels
- graves
- green forests and steep trails

#### Experiences Traveling in a Wagon Train

- lost track of what day it is
- ate things like bacon and biscuits for breakfast
- had to feed the animals
- hot weather
- some people turned around and headed back to Missouri
- oxen need to rest on steep trails
- need to get through mountains before winter came
- sometimes wheels got stuck in mud or river
- men work together to free stuck wagons
- took many months to complete the journey

Other Notes:

Page 2

Tell the students that tomorrow they will work together, using the sources and their notes, to answer research questions about traveling west in a wagon train on the Oregon Trail. Have them put their materials inside their folders.

## SHARING AND REFLECTING

### 5 Reflect

Ask and briefly discuss:

- Q *Why do you think it is a good idea to read a source more than once, like we did today?*
- Q *What did you do today to work in a responsible way?*

## Writing Responses to Research Questions

## Day 3

### In this lesson, the students:

- Read and discuss research questions about traveling west by wagon train, as a class
- Identify words in the questions that give clues about what to write
- Write responses to the questions as a class and independently
- Reflect on and revise their responses

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils and sit at desks with partners together. Remind the students that they are learning strategies they can use to do well on the end-of-year performance task. Direct the students' attention to the "Article and Journal Notes" chart from Day 2 and review that the students read an article and a journal about pioneers migrating west on the Oregon Trail and took notes about what they learned. Explain that today they will use their notes and the sources to answer research questions about traveling west by wagon train.

### 2 Model Reading a Question and Writing a Response

Post the "Research Questions" chart that you prepared ahead. Distribute a copy of the "Research Questions" sheet (BLM6) to each student, and have the students write their names and the date on their sheets. Explain that these are the questions the students will answer in Part 1 of the performance task.

Tell the students that the first step in writing a response to a question is to read and think carefully about the question. Point to Question 1 on the chart and ask the students to listen closely as you read it aloud twice. Discuss:

- Q *What information is this question asking for?*

### Teacher Note

Save the "Article and Journal Notes" chart to use throughout the rest of the unit.

### Materials

- "Article and Journal Notes" chart from Day 2
- "Research Questions" chart, prepared ahead
- Copy of the "Research Questions" sheet (BLM6) for each student
- A marker
- "The Oregon Trail" chart (WA1) from Day 1
- "My Trip on the Wagon Train" chart (WA4) from Day 2
- "Class Assessment Record" sheet (CA2)

### Teacher Note

The consortia that are developing the end-of-year performance tasks plan to deliver the assessment electronically. This means that individual students will have computer or tablet access to all research sources, including videos, as they respond to questions and write extended pieces.

Have a few volunteers share their thinking. If necessary, point out that the question is asking you to describe how the map of the Oregon Trail helps you better understand the boy's journal. Underline "add to your understanding of the boy's pioneer journal" on the chart.

Ask the students to watch as you model writing a response to the first question on the chart, thinking aloud as you write. Display the chart "The Oregon Trail" (WA1) and model reviewing the source and your notes for the information you need. Then display the "My Trip on the Wagon Train" chart (WA4) and follow the same procedure.

#### You might say:

"I know that the question is asking how the map helps me understand the boy's journal. I can see how long the Oregon Trail is on the map, and that helps me understand why the journey took so many months. I'll write: *The map shows how far it is from Missouri to Oregon, and that helps me understand why the journey took so long.* Also, the boy wrote about how difficult the journey was when the wagon had to cross the rivers and go through the mountains. I can see where the mountains and rivers are on the map, and that helps me understand where the most difficult parts of the journey were. I'll write: *I can also see the mountains and rivers on the map. That helps me understand where the most difficult parts of the journey were.*"

### Research Questions

1. How does the map add to your understanding of the boy's journal?

*The map shows how far it is from Missouri to Oregon, and that helps me understand why the journey took so long. I can also see the mountains and rivers on the map. That helps me understand where the most difficult parts of the journey were.*

## 3 Read and Discuss Questions as a Class

Explain that the students will read and discuss Questions 2 and 3 as a class. Then, during Writing Time, the students will work in pairs to discuss what they might write in response to those questions, and each write their own responses on their "Research Questions" sheet.

Point to Question 2 on the "Research Questions" chart and read it aloud twice. Ask and discuss:

**Q** *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, explain that the question is asking for three pieces of information: "what about the journey would be the most difficult" and "two reasons." Underline those key phrases on the chart.

Follow the same procedure to discuss Question 3. If necessary, explain that the question is asking what kind of scenery they might see while

traveling west on the Oregon Trail and for details from the sources. On the chart, underline “what kind of scenery would you see” and “details from the sources.” Point out that both the article and the journal contain information that the students can use to answer this question.

## WRITING TIME

### 4 Discuss Questions in Pairs and Write Answers

Have partners discuss what they might write in response to Questions 2 and 3. Review that each student will write his own response to the questions on his “Research Questions” sheet. Remind the students to use details from their notes and from the sources in their responses. As the students work, circulate, observe, and offer assistance.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students’ responses indicate that they understand what each question is asking?
- Are they able to incorporate details from their notes and the sources in their responses?

If you notice the students struggling to write responses, support them by asking questions such as:

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the source can you find that information?*
- Q *How might you include information from your notes and the sources in your answer?*

Record your observations on the “Class Assessment Record” sheet (CA2); see page 53.

### 5 Facilitate Guided Rereading and Revising of Responses

Tell the students that they will now reread their responses to Questions 2 and 3 and then reflect on the quality of their responses by thinking about some questions you will ask.

Have the students quietly reread their responses to Question 2 and look up when they are finished. Ask the following questions one at a time, pausing after each one to give them a moment to review their writing and, if necessary, their sources and notes:

- Q *Do you think your response clearly describes what you think would be the most difficult part of traveling west by wagon train? If not, what might you write instead?*

**Q** Does your response include at least two reasons why you think it would be the most difficult part? If not, what might you add or take out to improve it?

Without discussing as a class, have the students revise their responses as necessary. Remind them to refer to their sources and notes if needed.

Using the same procedure, ask the following questions and then have the students reflect on and revise their responses to Question 3:

**Q** Do you think your response clearly describes what you would see if you were a pioneer traveling on the Oregon Trail? If not, what might you add or take out to improve it?

**Q** Do you think your response includes enough details from the sources? If not, what details might you add?

## SHARING AND REFLECTING

### 6 Share Responses and Reflect

Have a few volunteers share with the class what they wrote in response to Question 2. As they share, use their ideas to model writing a well-crafted response to the question on the “Research Questions” chart.

Following the same procedure, model writing a response to Question 3.

#### Research Questions

2. If you were a pioneer traveling west by wagon train, what about the journey would be the most difficult for you? Give at least two reasons based on the sources.

*The most difficult part of the journey would be how long it takes. The trip would be around 2,000 miles and we would only travel 10 to 20 miles a day. We would be traveling for five or six months during different seasons. It can be difficult to travel when it is very hot or very cold.*

3. If you were a pioneer traveling on the Oregon Trail, what kind of scenery would you see? Use details from the sources in your answer.

*If I were a pioneer traveling on the Oregon Trail, I would see flat prairie land at first. Later I might see forests when traveling through the mountains. Sometimes I would come close to a town and would see the people that lived there.*

Have the students reflect on their work by asking:

**Q** Do you think your notes helped you write good responses to the questions? Why or why not?

Tell the students that tomorrow they will use the sources, their notes, and their answers to the research questions to each write a story about traveling west by wagon train on the Oregon Trail. Have them put their materials inside their folders.

### Teacher Note

Save the “Research Questions” chart to use on Day 4.

## In this lesson, the students:

- Plan and write stories about traveling west by wagon train on the Oregon Trail
- Include qualities of a well-written narrative in their writing
- Reflect on how they felt about writing their stories
- Listen respectfully to the thinking of others

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils and sit at desks with partners together. Point to the “Research Questions” chart and remind the students that yesterday they completed the first part of the guided practice performance task—answering questions about traveling west by wagon train. Explain that today they will work together on the second part of the task—writing stories about traveling west by wagon train on the Oregon Trail.

### 2 Introduce and Discuss the Story-writing Task

Display the “Student Directions for Part 2” chart (WA5) and distribute a copy of the directions (BLM7) to each student. Explain that these are directions for the second part of the performance task, in which each student writes a story about traveling west by wagon train on the Oregon Trail. Review that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, they will take more time than the directions say to write their stories. Remind the students that when they do performance tasks on their own, they will need to follow the directions exactly.

Ask the students to listen as you read each section of the directions aloud, using the following procedure:

1. Read the section “Your Task” aloud and review that the students may use the sources, their notes, and their answers to the research questions to help them write their stories. Remind the students that when they do performance tasks on their own they will be timed, but that today they will not be.
2. Read the section “Your Writing Assignment” aloud and review that each student needs to write a story about traveling west in a wagon train on the Oregon Trail. Remind them that they can each be any character they want, but that they need to use information from the sources to write their stories.

## Materials

- “Student Directions for Part 2” chart (WA5)
- Copy of “Student Directions for Part 2” (BLM7) for each student
- “What We Have Learned About Narrative Writing” chart from Day 2
- “Article and Journal Notes” and “Research Questions” charts from Day 3
- “The Oregon Trail” chart (WA1) from Day 3
- “Moving West” chart (WA2) from Day 1
- “My Trip on the Wagon Train” chart (WA4) from Day 3
- Lined writing chart (WA6) for modeling
- “Writing Time” chart (WA7)
- Supply of lined paper for writing stories
- “Class Assessment Record” sheet (CA3)

## Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 3 and then finish the lesson later in the day or the next day.

## TEKS 11.A.i

**Student/Teacher Narrative**  
Step 2 and Step 3 (all, beginning on page 21 and continuing on to page 24)

3. Read the section “Begin Work on Your Narrative” aloud. Point out the information that is relevant for this performance task (for example, “plan,” “write,” and “revise”) and underline it.
4. Read the list of qualities of a well-written narrative aloud. Point out that the list is similar to the list the class created on the “What We Have Learned About Narrative Writing” chart. Tell the students that they may refer to both lists as they write their stories.

Ask and briefly discuss:

**Q** *What questions do you have about the directions for writing the story?*

Tell the students that they will do the writing task together as a class, and that this will help prepare the students to do a task like this on their own.

### **3** Model Planning and Starting the Story

Tell the students that you will model writing the first two paragraphs of the story. Remind them that the story needs to describe what it was like traveling west in a wagon train on the Oregon Trail and that it needs to include details from the sources.

Explain that you will write an opening paragraph to introduce the setting and the focus of the story, and then you will write a paragraph about the beginning of the trip. Direct the students’ attention to the qualities of a well-written narrative in the directions (BLM7) and explain that as you write the story, you will include these qualities in your writing.

Display the lined writing chart (C WA6) and model writing a paragraph that introduces the setting and the focus of the story. Then write a paragraph describing the beginning of the journey. Think aloud as you write, and remember to model reviewing your notes and the sources to find the information you need. Be sure to include qualities of a well-written narrative, such as a setting and story focus, and descriptions and sensory details.

#### **You might say:**

“My opening paragraph needs to introduce readers to the setting and the focus of the story and make them want to keep reading. My story is going to be about a family traveling west by wagon train on the Oregon Trail, and I am going to be the mother. I’ll write: *On a warm spring day in May, my family and I said goodbye to our friends in Missouri. We were moving west to buy our own land and start a farm.* This shows I understood the assignment because my story is about a pioneer traveling west on the Oregon Trail. I need to introduce readers to the focus of the story, which is what happened during our trip, so I’ll write: *It took months to prepare for the trip and pack our covered wagon. I thought that was difficult, but it was nothing compared to the difficulties we faced during our trip.* In the last sentence, I think the part ‘it was nothing compared to the difficulties we faced during the trip’ will make readers want to know more about what happened on the trip.”

My next paragraph will describe the first part of the trip. I will use information from my notes and the sources to describe the sights along the trail and experiences traveling in a wagon train. The map shows that the first part of the trail goes through flat prairie lands. I'll write: *At the beginning of the journey we traveled across beautiful prairie land. All I could see was a sea of green in every direction.* I think the description of the prairie will help readers picture the setting in their minds. Now I'll add other details to help the reader understand what the trip was like. I'll write: *We made good time then, traveling about 15 miles a day. The children were happy and sang songs as they walked alongside our wagon.* In my notes I wrote that it became hard to keep track of time. I also remember reading in the journal that the days could sometimes get very hot. Those are good details to include in my story. I'll write: *But as spring turned into summer, the days became really hot. The children were tired from walking, and their skin was red from the sun. The days started to run together and I could hardly keep track of time."*

On a warm spring day in May, my family and I said goodbye to our friends in Missouri. We were moving west to buy our own land and start a farm. It took months to prepare for the trip and pack our covered wagon. I thought that was difficult, but it was nothing compared to the difficulties we faced during the trip.

At the beginning of our journey we traveled across beautiful prairie land. All I could see was a sea of green in every direction. We made good time then, traveling about 15 miles a day. The children were happy and sang songs as they walked alongside our wagon. But as spring turned into summer, the days became really hot. The children were tired, and their skin was red from the sun. The days started to run together and I could hardly keep track of time.

After you have modeled writing the first two paragraphs of the story, stop and explain that during Writing Time today the students will write their own stories. Explain that the students will use their notes and sources to write an opening paragraph and several other paragraphs to describe their trip traveling by wagon train on the Oregon Trail. Use "Think, Pair, Share" to discuss:

**Q** *What might you write about in your story today? [pause] Turn to your partner.*

### Teacher Note

You might remind the students that their stories need to be about traveling in a wagon train on the Oregon Trail, but that they may choose any characters and events to include in their stories.

**TEKS 11.A.i**  
Student/Teacher Activity  
Step 4 (all, beginning on  
page 24 and continuing on  
to page 25)

After a few moments, signal for the students' attention and remind them that each student will write her own story. Explain that you will also finish your story and share it with the class tomorrow.

## WRITING TIME

### 4 Write Stories

Explain that when the students complete the actual performance task they will write their stories using a computer, but that today they are practicing on paper. Distribute loose, lined sheets of paper and explain that the students will use this paper to write their stories. Display the "Writing Time" chart (WA7) and have them work quietly for 30–40 minutes. As they work, circulate, observe, and offer assistance.

WA7

#### Writing Time

- Reread the writing assignment in "Student Directions for Part 2."
- Write an opening paragraph that introduces the focus of the story and hooks the reader.
- Include interesting characters and events in the story.
- Include sensory details and other qualities of a well-written narrative in your story.
- Write a conclusion that wraps up the story.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Does the students' writing indicate that they understand the task?
- Are they able to introduce the topic and the setting in the opening paragraph of the story?
- Does their writing stay on topic?
- Are they able to incorporate information from their notes and the sources into their stories?

If you notice a student having difficulty starting to write after 5–10 minutes, help stimulate his thinking by asking questions such as:

- Q *What is the topic of your story? What might you write to introduce the topic and the setting of the story?*
- Q *How might you use your notes to help you decide what to write in your story?*
- Q *What information from your notes or the sources might you use to describe [traveling in a wagon train]?*

Record your observations on the "Class Assessment Record" sheet (CA3); see page 54.

Signal the end of Writing Time. Tell the students that tomorrow they will have time to revise and proofread their stories. Have them put their stories and other materials in their folders.

## SHARING AND REFLECTING

### 5 Reflect on Writing Stories

Ask and briefly discuss:

- Q *What did you enjoy about writing your story today? What did you find challenging?*
- Q *What did you and your partner do to listen respectfully to each other as you shared ideas about what you might write in your stories?*

### Teacher Note

Prior to teaching the Day 5 lesson, you will need to write the rest of your story (see the diagram in Day 5, Step 2 on page 26). Include information from the sources, sensory details, and other qualities of a well-written narrative in your story. Save the completed story on the lined writing chart (WA6) to use on Day 5.

## Revising and Proofreading a Story

## Day 5

### In this lesson, the students:

- Revise their stories
- Proofread their stories
- Express interest in and appreciation for one another's writing
- Reflect on what they have learned and how that will help them on the end-of-year performance task

### Materials

- Completed story on the lined writing chart (WA6) from Day 4
- "Student Directions for Part 2" chart (WA5) from Day 4

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils and sit at desks with partners together. Remind them that yesterday they each planned and wrote a story about traveling west by wagon train on the Oregon Trail. Explain that today they will have the opportunity to revise and proofread their stories.

### 2 Discuss Your Story

Display the completed story on the lined writing chart (WA6) and tell the students that yesterday you finished your story. Ask them to follow along as you read it aloud. Review that the opening paragraph introduces the focus and the setting of the story and hooks the reader. In the remaining paragraphs, point out the clear organization, the use of sensory details to make the story more interesting, and other qualities of a well-written narrative.

**You might say:**

"In my first paragraph, I explained that the story would be about my family moving west to buy our own land and start a farm. I tried to hook the reader by saying that packing the covered wagon was nothing compared to the difficulties we faced during the trip. I think that will make the reader want to keep reading to find out what happened during the trip.

My story stays focused, and the events of the story make sense. After the introduction, I described the first part of the trip, and then I moved on to describe the middle and end of the trip. I stayed on the topic throughout the story.

I included specific information from the sources to describe the scenery and events. For example, when describing the beginning of the trip, I wrote about traveling on the prairie and mentioned that the wagon train traveled about 15 miles a day. Also, when writing about the challenges the characters faced, I described how the baby got sick and how the wagon wheel needed to be replaced.

I used sensory details to describe the setting. For example, in the second paragraph, I described the prairie land. I wrote 'All I could see was a sea of green in every direction' to help the reader imagine what the prairie looks like. In the fourth paragraph, I wrote that the family was 'happily exploring and playing in the dense, green trees' to help the reader imagine what it might feel like to be in the mountains.

The last sentence, 'I can't imagine anything in my life being harder than this trip,' wraps up the story in an interesting way and lets the reader know the story has come to an end."

WA6

On a warm spring day in May, my family and I said goodbye to our friends in Missouri. We were moving west to buy our own land and start a farm. It took months to prepare for the trip and pack our covered wagon. I thought that was difficult, but it was nothing compared to the difficulties we faced during the trip.

WA6

After several days of rain and thunderstorms on the prairie, the baby got sick and had a fever. I was terribly worried. My husband and I thought about turning back, but we knew that would not make her better. My husband was the captain of our wagon train, and everyone was depending on him. Finally, we met some local people who gave us medicine for the baby. Thankfully, it worked and soon she was her laughing, happy self again!

The entire trail had been bumpy, but when we arrived in the mountains it was so bumpy that I had to walk. It was hard to walk up the steep, rocky trail for hours carrying a baby. Everybody was so tired, including the oxen. Then one of our back wheels hit a rock and broke. Luckily the family behind us had an extra wheel that they gave to us. It took a long time to put on the spare. The kids and I didn't mind because we were happily exploring and playing in the green trees. It sure looked different than back home.

Thankfully, we made it through the mountains before winter. Tomorrow we are supposed to arrive in Oregon City. I can hardly wait! My husband says we have been traveling for five months but it seems longer to me. I can't imagine anything in my life being harder than this trip.

## WRITING TIME

### 3 Facilitate Guided Rereading of Stories

Tell the students that they will have time today to finish their stories, but that first they will reread what they have written. Then you will ask some questions for them to think about. Have them quietly reread their writing and look up when they are finished.

Ask the following questions one at a time, giving the students 1–2 minutes after each question to quietly review their writing and mark passages:

- Q *Do you think your opening paragraph does a good job of introducing the setting and the focus of the story? If not, what might you write instead?*
- Q *Do you think your story is clearly focused throughout and that the events happen logically? If you don't think your story is focused, what might you change to make it focused? Underline parts of your story you might change or move around.*
- Q *Are there places where you used, or could use, details from the sources to make your story more interesting? Put a check mark in the margin next to those places.*
- Q *Are there places where you used, or could use, sensory details to describe the setting, characters, or events of the story? Put a star in the margin next to each of those places.*
- Q *Do you think your conclusion does a good job of wrapping up your writing and letting the reader know that the story has come to an end? If not, what might you write instead?*

Without discussing as a class, have the students resume writing for another 10–15 minutes.

#### 4 Facilitate Proofreading of Stories

Display the “Student Directions for Part 2” chart (WA5) and remind the students that it states that a well-written narrative “follows rules for spelling, punctuation, capitalization, and grammar.” Explain that the students will proofread their stories to find and correct any spelling, punctuation, capitalization, and grammar errors. Ask:

- Q *Why will you want to proofread your story before turning it in?*
- Q *What will you check for when you are proofreading?*

**Students might say:**

“Mistakes could make my writing harder to read and understand.”

“I would check to make sure I’ve capitalized names and the beginning of every sentence.”

“In addition to what [Annakari] said, I want to make sure every sentence ends with a period, a question mark, or an exclamation point.”

“In addition to what [Annakari and Manav] said, I want to correct any spelling errors I find.”

Give the students 5–10 minutes to proofread their stories and make any necessary corrections.

## SHARING AND REFLECTING

### 5 Share Writing and Reflect

Have a few volunteers share their stories with the class; then ask:

Q *What qualities of good narrative writing did you notice in [Evan's] story?*

Q *What questions can you ask [Rosa] about her writing?*

Review that this week the students have been learning strategies for doing well on the end-of-year performance task. Ask and briefly discuss:

Q *What have you learned this week that will help you do well on the performance task? Turn to your partner.*

---

## EXTENSIONS

### Complete a Diagnostic Proofreading Passage

To assess how your students are progressing with Language Standards, you might choose to administer a Diagnostic Proofreading Passage in Appendix C of the *Skill Practice Teaching Guide* (also see “Assessing Language Skills” on page xi).

### Complete a Writing Practice Performance Task Independently

Many states provide a practice performance task that students complete independently. It can be given right after the guided practice, or at a later time.

Introduce the performance task by reminding the students that they spent one week learning about and preparing for the narrative writing portion of the end-of-year writing performance task. Explain that the students will now have the opportunity to do a practice performance task on their own on a different topic, and that they can use what they learned to do their best work on the task. Tell them that they will do this practice performance task under conditions like those they will experience when completing the end-of-year performance task, and that this will help them to be better prepared to do well.

# Task Overview

---

## Introductory Classroom Activity 20 MINUTES

This whole-class activity introduces the students to the topic of the performance task—traveling west by wagon train on the Oregon Trail—and helps prepare the students to answer research questions and write narratives about the topic. As part of this activity, the students will look at a map of the Oregon Trail. Then they will read and discuss an article about westward migration in the United States during the mid-1800s titled “Moving West.” They will also be reminded of the features of good narrative writing.

During the introductory activity, the teacher will lead a whole-class discussion about the map and the article. The students may take notes using the provided graphic organizer to help them prepare for writing. The students may use their notes from the Introductory Classroom Activity when they plan, write, and revise their own multi-paragraph narratives in Part 2.

## Part 1 35 MINUTES

The students will read journal entries written by a pioneer boy traveling west on the Oregon Trail. The students are encouraged to take notes using the provided graphic organizer to help them prepare for writing. Then the students will respond to three research questions that require them to analyze, evaluate, interpret, and integrate information.

## Part 2 70 MINUTES

The students will each plan, write, and revise a narrative about traveling west by wagon train on the Oregon Trail. They may refer to the sources from the Introductory Classroom Activity and Part 1, any notes they took, and their answers to the research questions. The students may not, however, change their answers to the questions.

## Scoring

The research questions in Part 1 can be scored with the rubrics included at the end of this performance task (see “Scoring Rubrics for Research Questions” on page 37). Any notes, prewriting, or drafts will not be scored.

## Teacher Preparation

- Make sufficient blank paper and writing tools available for students to use in taking notes. You might make extra copies of the graphic organizers.
- Make a class set of copies of the student handouts on pages 40–49.
- Make dictionaries available to use during Part 2 of the performance task. (Some standards-based assessments are computer-based with many of the student materials, including access to spell-check, available within the testing environment. For the purpose of student practice, the materials for the guided practice performance task have been modified so that they can be administered using pencils, paper, and other classroom resources.)

---

## Teacher Directions for the Introductory Classroom Activity

---

### 1 Introduce the Topic

Tell the students that they are going to learn about what it was like to travel west by wagon train in the mid-1800s. Explain that this was a time in United States history when many people migrated, or moved, from the eastern part of the United States to the west in search of a better life.

Write the words *migration* and *pioneers* where everyone can see them. Explain that *migration* means “moving from one place to settle in another place.” Tell the students that the people who were migrating were called *pioneers* and that *pioneers* are the “first people to explore or settle a new area.” Explain that many pioneers traveled west in covered wagons along a route called the Oregon Trail.

### 2 Examine a Source

Distribute the map “The Oregon Trail” (see Student Handout 1 on page 40) and explain that this is a map that shows the route of the Oregon Trail. Point to the beginning of the trail in Independence, Missouri, and to the end of the trail in Oregon City, Oregon, and explain that the trail was about 2,000 miles long. Lead a brief whole-class discussion using the following question:

**Question:** *What else do you notice about the map of the Oregon Trail?*

If necessary, point out that the trail crossed plains, deserts, rivers, and mountains.

Tell the students that now they will read an article about pioneers who traveled west on the Oregon Trail. Distribute the article “Moving West” and the “Article and Journal Notes” graphic organizer (see Student Handouts 2–3 on pages 41–43). Tell the students that they can take notes about the article as they read it.

Have the students read the article, and then lead a whole-class discussion using the following question:

**Question:** *What did you learn about the pioneers and their experiences while traveling west on the Oregon Trail from the article?*

### 3 Explain the Writing Task

Tell the students that in a few minutes they will examine another source about the pioneers who traveled west. Then they will use all of the sources and their notes to answer some questions and write their own narratives about traveling west by wagon train on the Oregon Trail.

Discuss with the students the characteristics of a well-written narrative. A narrative:

- Establishes a setting and story focus
- Establishes a point of view for the narrator
- Stays on focus throughout the narrative
- Has a plot that develops logically
- Uses descriptions and sensory details
- Has a logical conclusion
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

Answer any questions the students might have and then move on to Part 1 of the performance task.

---

## Teacher Directions for Parts 1 and 2

---

### Part 1 35 MINUTES

1. Distribute copies of the source material, graphic organizer (if needed), student directions, and research questions (see Student Handouts 3–6 on pages 43–48) to each student, and have the students write their names on all materials. Note that the students should not receive the directions specific to writing their narratives until Part 2.
2. Tell the students to read “Student Directions for Part 1” (see Student Handout 4 on page 44). Remind the students they will have 35 minutes for Part 1, and then tell them to begin.
3. To help the students plan their time, alert them when 15 minutes and 5 minutes remain in Part 1.
4. Signal to let the students know that Part 1 is over.

## BREAK

## Part 2 70 MINUTES

1. Distribute a copy of “Student Directions for Part 2” (see Student Handout 7 on page 49) to each student. Make sure that the students have access to all of the sources, graphic organizers, any other notes, and their answers to the research questions. Remind the students that they may not change the answers to the research questions from Part 1.
2. Tell the students to read “Student Directions for Part 2” and explain that their writing assignment is included in these directions.
3. After 15 minutes have elapsed, suggest that the students begin writing their narratives.
4. Alert the students when 30 minutes remain.
5. Alert the students when 15 minutes remain, and suggest that they begin revising their narratives.
6. Signal to let the students know that Part 2 is over and collect all materials from each student.

# Scoring Rubrics for Research Questions

---

## 2-Point Research Rubric

### Question 1:

*How does the map add to your understanding of the boy's journal?*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives sufficient evidence of how the map adds to the reader's understanding of the journal.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives limited evidence of how the map adds to the reader's understanding of the journal.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not give evidence of how the map adds to the reader's understanding of the journal. The response may be incomplete, incorrect, vague, or completely absent.

#### Sample 2-Point Response

The map shows how far it is from Missouri to Oregon, and that helps me understand why the journey took so long. I can also see the mountains and rivers on the map. That helps me understand where the most difficult parts of the journey were.

#### Sample 1-Point Response

The map shows the Oregon Trail.

#### Sample 0-Point Response

The Oregon Trail is in the United States.

## 2-Point Research Rubric

### Question 2:

*If you were a pioneer traveling west by wagon train, what about the journey would be the most difficult for you? Give at least two reasons based on the sources.*

Use Evidence	
<b>2</b>	The response gives sufficient evidence of the ability to cite evidence to support opinions and ideas. The response expresses an opinion about what part of the journey would be most difficult and gives sufficient evidence from the sources to support the opinion.
<b>1</b>	The response gives limited evidence of the ability to cite evidence to support opinions and ideas. The response expresses an opinion about what part of the journey would be most difficult and gives limited evidence from the sources to support the opinion.
<b>0</b>	The response provides no evidence of the ability to cite evidence to support opinions and ideas. The response expresses an opinion about what part of the journey would be most difficult, but does not give evidence from the sources to support the opinion.

#### Sample 2-Point Response

The most difficult part of the journey would be how long it takes. The trip would be around 2,000 miles and we would only travel 10 to 20 miles a day. We would be traveling for five or six months during different seasons. It can be difficult to travel when it is very hot or very cold.

#### Sample 1-Point Response

The most difficult part of the journey would be emptying the wagon to cross rivers.

#### Sample 0-Point Response

The most difficult part of the journey would be getting ready to go.

## 2-Point Research Rubric

### Question 3:

*If you were a pioneer traveling on the Oregon Trail, what kind of scenery would you see? Use details from the sources in your answer.*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives sufficient evidence of what kind of scenery a pioneer would see along the Oregon Trail.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives limited evidence of what kind of scenery a pioneer would see along the Oregon Trail.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not give evidence of what kind of scenery a pioneer would see along the Oregon Trail. The response may be incomplete, incorrect, vague, or completely absent.

#### Sample 2-Point Response

If I were a pioneer traveling on the Oregon Trail, I would see flat prairie land at first. Later I might see forests when traveling through the mountains. Sometimes I would come close to a town and would see the people that lived there.

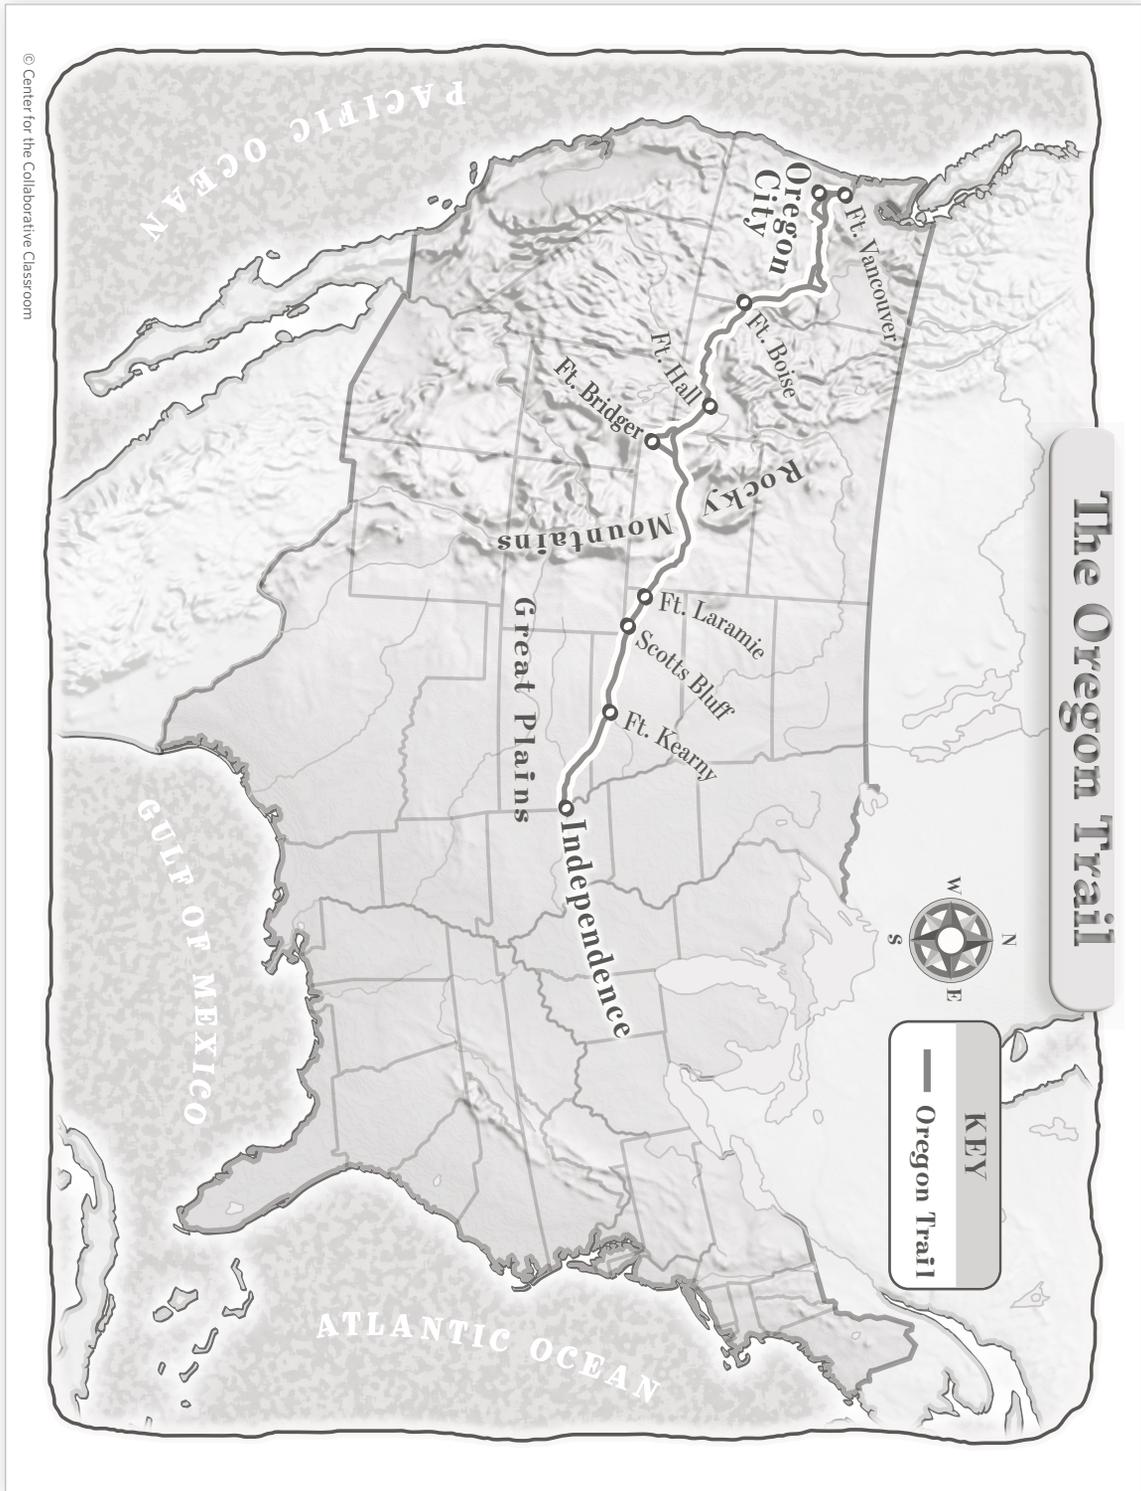

#### Sample 1-Point Response

The Oregon Trail goes through the mountains.

#### Sample 0-Point Response

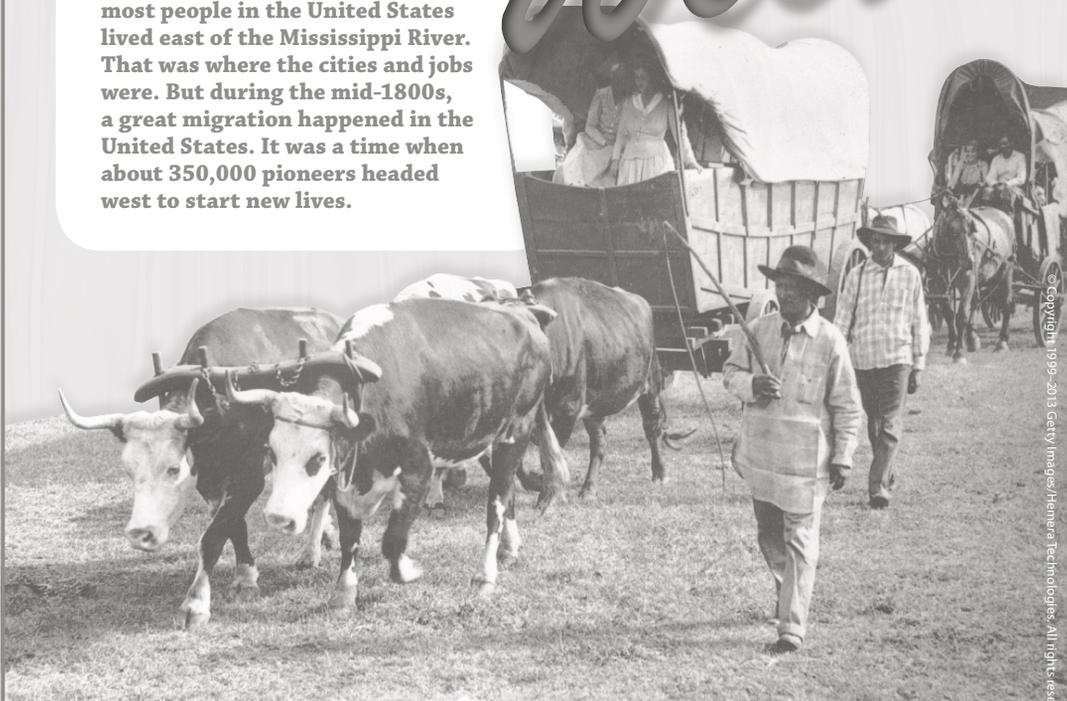

There would be lots of different kinds of scenery.

# MOVING *West*

**IN THE EARLY 1800s, most people in the United States lived east of the Mississippi River. That was where the cities and jobs were. But during the mid-1800s, a great migration happened in the United States. It was a time when about 350,000 pioneers headed west to start new lives.**

## **WHO WERE THESE PIONEERS?**

Some pioneers were teachers, lawyers, and doctors. Others were farmers and ranchers. Some were people who dreamed of having their own land. Others had heard there was gold in California and headed west to strike it rich.

Moving west was a risky adventure. Railroads did not yet go to the west coast. There were no roads for much of the journey. Pioneers had to make their own way west. Many pioneers, especially families, chose to travel by covered wagon. Covered wagons were pulled by oxen, horses, or mules.

## Student Handout 2 (continued)

### TRAVELING IN A COVERED WAGON

Pioneers packed all of the supplies they needed for their trip in their covered wagons. These included clothes, food, medical supplies, tools, and equipment. Most pioneers chose to head west on a route called the Oregon Trail. The Oregon Trail started in Independence, Missouri, and ended in Oregon City, Oregon. It was a big challenge. The trail was about 2,000 miles long!

Covered wagons traveled only 10 to 20 miles a day. That meant the journey would usually take five or six months. On the way, the pioneers crossed deserts, mountains, and rivers. To cross a deep river, pioneers sometimes had to unpack their wagons and put their things into boats. The pioneers also faced sickness, accidents, floods, snow, and thieves. It is estimated that one out of ten pioneers never finished the journey.

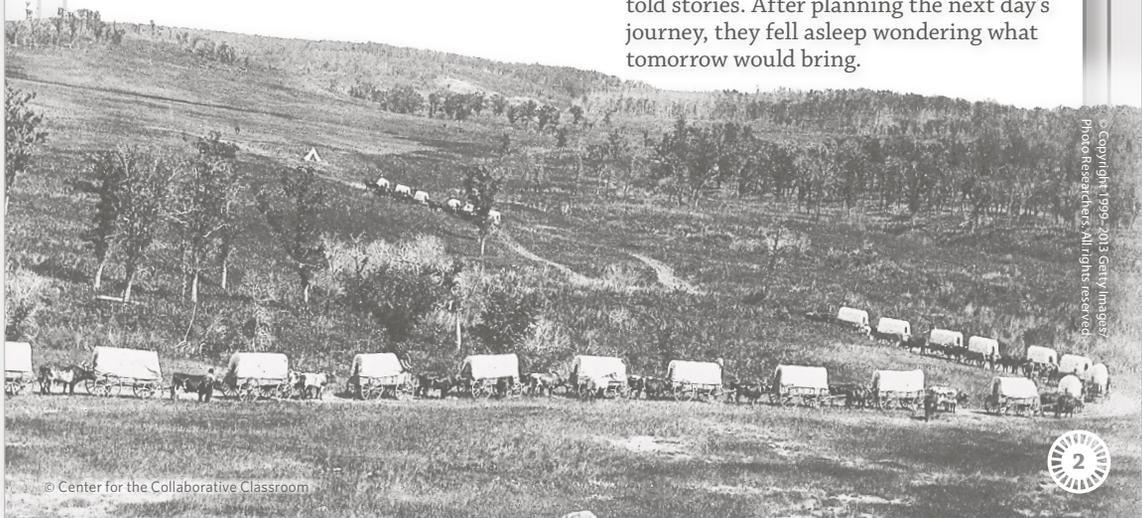

### WAGON TRAINS

Covered wagons rolled west in long lines called wagon trains. There might be 25 to 250 wagons in a wagon train. A captain led the group of wagons on the trail and made the big decisions. A scout who knew the way served as a guide during the trip. In a wagon train, people depended on each other. For example, if a wagon wheel broke, somebody might offer a spare.

During the day, most pioneers—including children—walked alongside their wagons. After a hard day's travel, a wagon train would camp for the night. The wagons looped around in a big circle to form a wall of protection. Drinking water was important for the pioneers and their animals, so they camped near water whenever possible.

Everyone had a job at camp. Clothes needed to be washed. A campfire had to be built. The animals had to be cared for. Dinner needed to be cooked. After the meal, people usually visited with others in the camp. Sometimes they sang songs and told stories. After planning the next day's journey, they fell asleep wondering what tomorrow would bring.

## Student Directions for Part 1

### Part 1 (35 minutes)

#### Your Task

You will read a journal written by a boy who traveled west in a wagon train on the Oregon Trail. Then you will answer three research questions about what you have learned. In Part 2, you will write a narrative about taking an imaginary trip in a wagon train. You will be able to refer to the sources, your notes, and the answers to the research questions when you write your narrative.

#### Steps to Follow

In order to plan and write your narrative, you will do the following:

1. Read the source.
2. Take notes about the information in the source using a graphic organizer.
3. Answer three research questions to help you think about key information in the source.

#### Directions for Beginning

You will have 35 minutes to read the source, take notes, and answer the research questions. Your answers will be scored.

# My Trip on the Wagon Train

by James Parker

May 20, 1853

"Wagons ho!" Papa calls out. Papa rides on horseback next to our new covered wagon. From my seat in the front, I hold the reins. The oxen step forward, and we roll into our place in the wagon train.

Mama sits next to me holding baby Sara. Caleb walks next to the wagon. There are 80 wagons with cloth-covered tops in our wagon train. Papa's job is making sure that everyone is doing fine. That leaves me in the driver's seat. I feel very grown-up being in the front of the wagon.

The trail is very bumpy. We have to make sure everything is tied down really tight.

June 15, 1853

The prairie land here is very flat. There are meadows and fields that stretch as far as I can see.

Every day I see something new. Yesterday, I saw my first tornado! I'm really glad it was miles away. We also saw some Sioux men on horseback in the distance. Papa said they were probably out hunting.

Sometimes we pass by towns. People wave hello or walk alongside the wagons to talk. A boy my age rode a pony next to us for a while today. He told us to watch out for rattlesnakes.

*July 10, 1853*

*Is it Tuesday? Thursday? It is easy to lose track out here. We wake up each morning and fix breakfast. Most days we have biscuits and bacon. Then we feed the animals, pack up, and go.*

*The days can be awfully hot. Sometimes I get sleepy in the front of the wagon. The reins slip from my fingers. Then the oxen slow down and rest in the heat. When that happens, the people in the wagons behind us shout to get moving!*

*To help stay awake today, I asked Mama if we are almost there. She told me that Oregon is still about 1,200 miles away. We are only going about 15 miles every day.*

*Even with the heat, Caleb and I don't mind being part of a wagon train. Our favorite part of the day is singing songs around the campfire after supper.*

*Not everyone feels the same way. Some people have gotten sick. Others have had accidents or just cannot take the strain of such a long, hard trip. Some of those people have turned around and headed back to Missouri.*

*August 9, 1853*

*Today there were thunderstorms. The lightning frightened baby Sara and the animals.*

*This morning, I spotted a rattlesnake along the trail and thought about the boy on the pony. The snake was coiled up, shaking its tail as a warning. I steered our wagon away from it.*

*Along the way, I have seen many things on the trail. Broken wagon wheels dot the path. Horse and ox bones have turned white in the sun. Here and there is a lonely grave. It reminds me that we have been luckier than a lot of folks.*

*Our wagon train keeps getting smaller. Some families have left and are headed south for Utah or Texas.*

*September 22, 1853*

*We are in the mountains now. There are green forests and steep trails. The oxen need to rest more often. Some days we can only go 5 miles. We must get through the mountains before winter!*

*Yesterday, we crossed a shallow river. It didn't look the least bit dangerous. We didn't even unpack the wagon to cross. But then one of the wheels got stuck in the rocks in the riverbed. The wagon was leaning to one side. We were afraid that all of our belongings would wind up in the water. Papa and some of the other men had to dig up the rocks to free the wagon.*

*October 18, 1853*

*A gentle mist fell as our wagon rolled into Oregon City today. I saw some people pointing at our covered wagon. I turned and noticed that the clean white top is now torn and dirty. I looked over at Caleb. He is brown and lean now. Not the soft city boy he was last spring. And baby Sara has started to talk! I expect I have changed, too.*

*Tonight we will all get much-needed rest. Tomorrow Papa will go to see about buying some land. I can hardly wait to find out what our new life here will be like!*

## Student Directions for Part 2

### Part 2 (70 minutes)

#### Your Task

You will have 70 minutes to write your narrative. You should review your notes and sources. Then plan, write, and revise your writing. You may also refer to the answers you wrote to the research questions in Part 1, but you cannot change those answers. Your narrative should use details from the sources.

#### Your Writing Assignment

Imagine you are a pioneer traveling west in a wagon train on the Oregon Trail. Write a narrative about your trip. You can be any character you like. Your narrative might be about your thoughts and feelings while traveling. Perhaps you met some interesting people or had some exciting adventures. Just make sure to use information from the sources in your narrative.

#### Begin Work on Your Narrative

Manage your time carefully so that you can:

- Plan your narrative (15 minutes)
- Write your narrative (40 minutes)
- Revise and edit for a final draft (15 minutes)

You may use a dictionary to check spelling.

#### Things to Remember

Remember that a well-written narrative:

- Establishes a setting and story focus
- Establishes a point of view for the narrator
- Stays on focus throughout the narrative
- Has a plot that develops logically
- Uses descriptions and sensory details
- Has a logical conclusion
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

**Considerations:**

If you notice many students having difficulty writing notes, call for the class’s attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate place on the chart. As necessary, encourage the students to reread the journal to collect the information they need.

Other observations:			

**Considerations:**

If you notice the students struggling to write responses, support them by asking questions such as:

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the source can you find that information?*
- Q *How might you include information from your notes and the sources in your answer?*

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students

Other observations:			

**Considerations:**

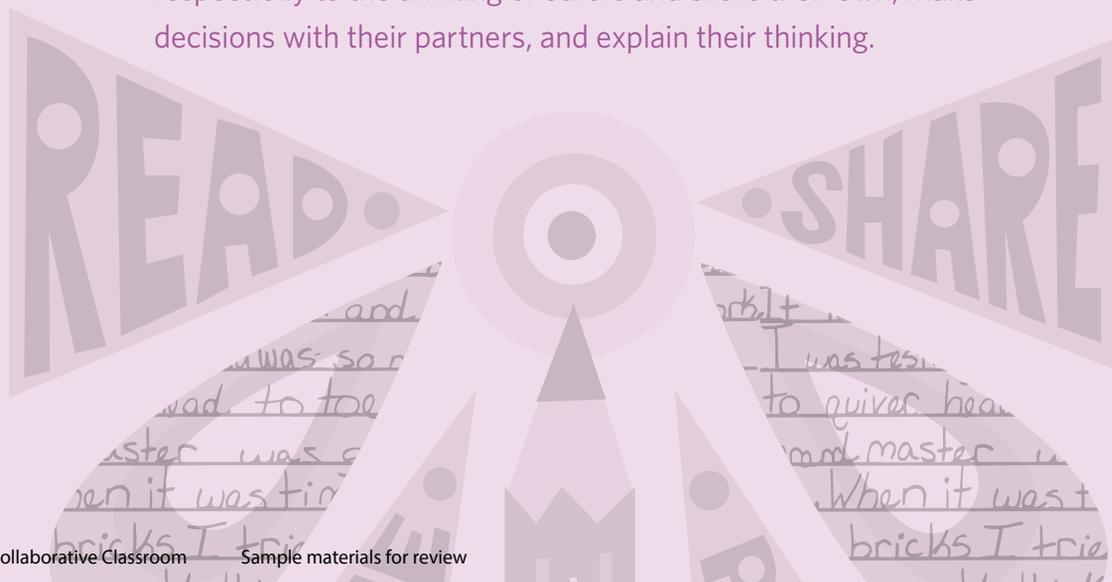

If you notice a student having difficulty starting to write after 5-10 minutes, help stimulate his or her thinking by asking questions such as:

- Q *What is the topic of your story? What might you write to introduce the topic and the setting of the story?*
- Q *How might you use your notes to help you decide what to write in your story?*
- Q *What information from your notes or the sources might you use to describe [traveling in a wagon train]?*

# Unit

# Informative/ Explanatory Writing

During this one-week unit, the students prepare for the informative/explanatory writing portion of a standards-based end-of-year writing performance task. They discuss what they have learned about informative/explanatory (nonfiction) writing and complete a practice performance task as a class, guided by the teacher. The students begin by watching two short videos and reading two articles from a simulated website about exploring Mars. They each take notes about what they learn, and use information from the sources and their notes to answer research questions and write a report about the topic. Socially, the students listen respectfully to the thinking of others and share their own, make decisions with their partners, and explain their thinking.

# Week OVERVIEW

## “Mars in a Minute: Is Mars Red Hot?” video (IV1)

Learn about the temperature of Mars in this video.

## “Mars: Exploring a New Frontier” article (BLM1)

This article discusses the possibility of humans exploring Mars.

## “Mars in a Minute: How Do You Get to Mars?” video (IV2)

This video provides future space travelers with tips to remember when planning a trip to Mars.

## “The Challenges of Space Travel” article (BLM4)

The many challenges of long-distance space travel are discussed in this article.

### Writing Focus

- Students reflect on what they have learned about informative/explanatory (nonfiction) writing.
- Students watch and discuss two videos about the topic.
- Students read two articles about the topic and take notes.
- Students answer research questions about the topic, and plan and write reports.
- Students revise and proofread their writing.

### Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students make decisions together.
- Students explain their thinking.

## DO AHEAD

- ✓ Prior to Day 1, read “Guided Practice Performance Task: Informative/Explanatory Writing” on pages 84–88. This unit’s lessons are based on this guided practice performance task. During the unit, the students complete this performance task with instructional support and guidance from the teacher. For more information about how the

# Day 1

## Watching Videos, Reading an Article, and Taking Notes

### Materials

- “Mars In a Minute: Is Mars Red Hot?” video (IV1)
- “Mars In a Minute: How Do You Get to Mars?” video (IV2)
- Copy of the article “Mars: Exploring a New Frontier” (BLM1) for each student
- Chart paper and a marker
- “Mars: Exploring a New Frontier” chart (WA1)
- “Article 1 Notes” chart, prepared ahead
- “Article 1 Notes” graphic organizer (BLM2) for each student
- A writing folder for each student

### Teacher Note

We recommend that you teach this unit after the class completes the Expository Nonfiction genre unit.

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 4 and then finish the lesson later in the day or the next day.

### Teacher Note

The partners you assign today will stay together for the entire unit.

### In this lesson, the students:

- Work with new partners
- Reflect on what they know about good nonfiction (informative/explanatory) writing
- Watch and discuss two videos
- Read and discuss an article about exploring Mars
- Take notes on the article as a class and in pairs
- Explain their thinking

### ABOUT THE GUIDED PRACTICE PERFORMANCE TASK

During this unit, the students complete an informative/explanatory writing performance task as a class with instructional support from you. The purpose for this guided practice performance task is to prepare the students for standards-based end-of-year performance tasks they will be required to complete independently. Five days of instruction are provided during which the students’ writing is neither timed nor scored. This unit’s performance task is not computerized and can be administered in a classroom environment using pencils, paper, and other classroom resources.

The topic of the performance task is exploring Mars, and the task consists of three sections: an Introductory Classroom Activity (students are introduced to the topic and examine sources), Part 1 (students examine an additional source and answer research questions about the topic), and Part 2 (students write their own reports). For more information about each section, see “Task Overview” on page 85. For the complete performance task on which this unit’s instruction is based, see “Guided Practice Performance Task: Informative/Explanatory Writing” on pages 84–88.

## GETTING READY TO WRITE

### 1 Pair Students and Introduce the Performance Task

Randomly assign partners and make sure they know each other’s names. Have the students bring their pencils and sit at desks with partners together.

Tell the students that at the end of the school year all the students in their grade will complete a reading and writing assignment called a *performance task*. (You might explain that a *task* is a “job that needs to be done.”) Explain that the purpose for the performance task is to show how well they are developing and growing as strong readers and writers. This is important information for them as students, as well as for their families, teachers, and principal.

Remind the students that for the past several weeks they have been doing nonfiction writing, and explain that nonfiction writing—also called informative or explanatory writing—is one type of writing they will do on the end-of-year performance task. Tell the students that during the next several days they will learn strategies for doing well on the informative/explanatory writing portion of the performance task.

## 2 Discuss What the Class Has Learned About Informative Writing

Point out that the students have learned a lot about how to write good informative, or nonfiction, pieces, and explain that they can use what they have learned to help them do well on the performance task. Ask and discuss the questions that follow as a class. Encourage the students to use the discussion prompts they have learned as they talk to one another.

- Q *What have you learned about good informative, or nonfiction, writing?*
- Q *What did you do to make your informative piece interesting and easy to read?*

### Students might say:

“It grabs the reader’s attention right from the start.”

“I agree with [Luca]. I also think that it is based on research. It includes facts about a topic.”

“It uses transition words to connect thoughts.”

“In addition to what [Park and Marta] said, it is clearly organized and makes sense.”

“Sometimes it includes maps and photographs about the topic.”

As the students respond, record their ideas on a sheet of chart paper titled “What We Have Learned About Informative Writing.” If the students do not mention the following qualities of good informative writing, briefly review them and add them to the chart.

### Teacher Note

The discussion prompts are:

- “I agree with \_\_\_\_\_ because . . .”
- “I disagree with \_\_\_\_\_ because . . .”
- “In addition to what \_\_\_\_\_ said, I think . . .”

### What We Have Learned About Informative Writing

- Uses strong opening and closing sentences
- Is based on research
- Presents facts about a topic
- Uses transition words
- Sometimes includes text features
- Is clearly organized and makes sense
- Makes the reader want to know more about the topic
- Follows writing rules for spelling, punctuation, capitalization, and grammar

Tell the students that you will post the chart where everyone can see it so that they can keep what they have learned about good informative writing in mind as they prepare for the informative/explanatory writing performance task.

### 3 Introduce the Topic of the Guided Practice Performance Task

Explain that today you will introduce the students to the topic of the performance task. They will watch two videos and read an article about the topic. In the coming days, they will learn more about the topic by reading another article. Then, as a class, they will use what they learned to answer research questions and write reports about the topic.

Tell the students that they are going to learn about exploring Mars. Write the words *astronaut* and *atmosphere* where everyone can see them. Explain that an *astronaut* is a “person who travels into outer space,” and that when astronauts travel to outer space they leave Earth’s atmosphere. Tell the students that *atmosphere* is the “mass of gases that surround Earth or another planet.”

Write the word *oxygen* where everyone can see it and tell the students that *oxygen* is a “gas found in Earth’s atmosphere” and that humans need to breathe oxygen to stay alive. Explain that there is no oxygen to breathe in outer space, so astronauts need to bring it with them when they travel there.

Write the words *space capsule* and tell the students that this is the “small part of a spaceship where people and animals ride.” Explain that it is a sealed container that provides pressure and air for astronauts to breathe while in outer space.

## 4 Watch and Discuss the Videos

Tell the students that they will now watch two videos about Mars from a website called “Mission to Mars.” The first video discusses the temperature on Mars, and the second video describes how to travel through space to Mars. Explain that you will play the videos, and after each one you will ask the students to talk in pairs about what they learned. Then they will read and discuss an article from the “Mission to Mars” website.

Play the video “Mars in a Minute: Is Mars Red Hot?” (🎥 IV1). Ask:

**Q** *What did you learn about Mars in the video you just saw? Turn to your partner.*

Have a few volunteers share their thinking with the class.

### Students might say:

“Mars is much colder than Earth because it’s farther from the Sun.”

“The atmosphere on Mars is much thinner than on Earth.”

“If you visited Mars, you would have to wear a space suit to stay warm.”

Play the next video “Mars in a Minute: How Do You Get to Mars?” (🎥 IV2) and follow the same procedure to have the students discuss what they learned.

## 5 Introduce the Article and Read It Aloud with Stops

Tell the students that now they will read an article from the same website. Explain that this article discusses space exploration and why scientists think it might be possible for humans to live on Mars. It also describes some of the challenges humans would face if they tried to live on Mars. Display the “Mars: Exploring a New Frontier” chart (🎥 WA1) and distribute a copy of the article (BLM1) to each student. Tell the students that for this task you will read the article aloud, but when they do performance tasks on their own they will read any source materials independently.

Explain that you will stop during the reading to have pairs discuss what they learned. Ask them to follow along as you read the article aloud; then read the title and the first part of the article aloud, slowly and clearly.

Stop after:

“That leaves Mars, the planet closest to Earth.”

Ask and briefly discuss:

**Q** *What did you learn about space exploration or surviving on Mars in the part of the article you just heard? Turn to your partner.*

Without sharing as a class, continue reading the article. Following the same procedure, have the students discuss what they learned at the next two stops:

“They will also protect people from harmful solar radiation.”

“The next step in exploring Mars is to send humans there.”

### Teacher Note

If the students struggle to answer the question, you might play the video a second time and then repeat the question.

### Teacher Note

You might explain that a *source* is “something that information comes from, such as a book, video, website, or article.”

## WRITING TIME

### 6 Reread the Article and Take Notes as a Class and in Pairs

Post the “Article 1 Notes” chart that you prepared ahead and distribute a copy of the “Article 1 Notes” graphic organizer (BLM2) to each student.

Tell the students that you will read the article again, and that as a class they will use a note-taking chart, called a *graphic organizer*, to take notes on what they are learning about exploring Mars. Explain that the graphic organizer has a column to list general facts about Mars, a column to list challenges of surviving on Mars, and a section at the bottom for other notes. Point to and read each column heading aloud. Explain that you will read the article again and stop three times. At each stop, the students will discuss what they have learned and where they will record their notes on the graphic organizer.

Read the article and stop (as you did before) after:

“That leaves Mars, the planet closest to Earth.”

Discuss as a class:

**Q** *What more did you learn about space exploration or surviving on Mars in the part of the article you just heard?*

**Q** *Where might you put a note saying that [Mars is the closest planet to Earth] on the graphic organizer? Why?*

#### Students might say:

“I learned that the first human walked on the Moon in 1969. That should go in the ‘Other Notes’ section.”

“The Moon is not a good place for humans because it does not have water or oxygen. We should put that in the ‘Other Notes’ section because it isn’t a fact about Mars or a challenge of surviving on Mars.”

“We can write that Mars is the closest planet to Earth in the left-hand column because it is a fact about Mars.”

“I learned that it is too cold for humans to live on Mars without protection. I think that belongs in the right-hand column.”

As the students respond, model writing their responses as notes in the appropriate places on the chart, and have the students copy the notes onto their own graphic organizers.

Using the same procedure, read the next section of the article. Have the students discuss what they learned as a class, and model taking notes.

Stop after:

“They will also protect people from harmful solar radiation.”

### Teacher Note

You may want to review that notes are most helpful when they are brief and written in the writer’s own words rather than copied exactly from the source.

At the last stop, have the students discuss what they learned in pairs (rather than as a class) and record their notes on their graphic organizers. Stop after:

"The next step in exploring Mars is to send humans there."

Have a few volunteers share what they discussed and where they recorded their notes on the graphic organizer. As they share, add their ideas to the chart.

Tell the students that tomorrow they will learn more about the challenges of exploring Mars by reading another article from the same website.

### Teacher Note

If the students have difficulty deciding where on the graphic organizer to record their notes, call for their attention and model writing each idea in the appropriate places on the chart.

### Teacher Note

Save the “What We Have Learned About Informative Writing” chart and the “Article 1 Notes” chart to use throughout the unit.

# Day 2

### Materials

- Copy of the article “The Challenges of Space Travel” (BLM4) for each student
- “Article 1 Notes” chart from Day 1
- “Student Directions for Part 1” chart (WA2; also available as BLM3)
- “The Challenges of Space Travel” chart (WA3)
- “Article 2 Notes” chart, prepared ahead
- “Article 2 Notes” graphic organizer (BLM5) for each student
- A marker
- “Class Assessment Record” sheet (CA1)

Distribute a writing folder to each student and explain that this is where the students will keep all of their materials for the week. Have the students put their materials inside their folders and keep them in their desks.

## SHARING AND REFLECTING

### 7 Reflect

Ask and briefly discuss:

Q *In what ways did you and your partner work well together today?*

## Reading an Article and Taking Notes

### In this lesson, the students:

- Review what they have learned about exploring Mars
- Read and discuss an article about the topic
- Take notes on the article in pairs
- Make decisions together
- Work in a responsible way

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Review that the students are working together to complete an informative writing task about exploring Mars to prepare for the end-of-year performance task. Remind the students that yesterday they discussed what they have learned about good informative writing. They also watched two videos and read an article about surviving on Mars, discussed them as a class, and took notes on the article.

Direct the students’ attention to the “Article 1 Notes” chart from Day 1. Briefly review the notes by asking:

Q *What did you learn about space exploration or Mars from the article we read yesterday?*

Tell the students that today they will learn about the challenges of traveling through space by reading another article.

## 2 Introduce Student Directions for Part 1

Display the “Student Directions for Part 1” chart (WA2). Explain that these are directions for the first part of the performance task, in which the students read another article from the same website and write responses to research questions. Tell the students that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, you will read the article aloud rather than have the students read it on their own, and they will take more time than the directions say to complete the steps. Explain that when the students do performance tasks on their own later, they will follow the directions exactly.

## 3 Introduce the Article and Read It Aloud with Stops

Tell the students that now they will read an article that discusses some of the challenges of space travel and talks about what kind of person makes a successful astronaut. Display the “The Challenges of Space Travel” chart (WA3) and distribute a copy of the article (BLM4) to each student. Remind the students that for this task you will read the article aloud as you did yesterday, but when they do performance tasks on their own they will read any source materials independently. Ask them to follow along as you read the article aloud, and explain that you will stop during the reading to have pairs discuss what they are learning.

Read the title and the first two paragraphs of the article aloud, slowly and clearly. Stop after:

“It takes a special kind of person to do this.”

Ask:

**Q** *What did you learn about the challenges of space travel in the part of the article you just heard? Turn to your partner.*

Without sharing as a class, continue reading the article. Following the same procedure, have the students discuss what they learned at the next two stops:

“For the long trip to Mars, it will be very important to find astronauts who can sleep without the natural rhythms of Earth’s day and night.”

“Their bravery will make the first step in sending humans to Mars possible.”

## WRITING TIME

### 4 Reread the Article and Take Notes in Pairs

Post the “Article 2 Notes” chart that you prepared ahead and distribute a copy of the “Article 2 Notes” graphic organizer (BLM5) to each student. Explain that as you read the article again you will stop, and partners will discuss what more they learned and then write notes in the appropriate

### Teacher Note

The purpose of showing the “Student Directions for Part 1” chart (WA2) is to briefly introduce the students to the type of directions they will encounter when they do performance tasks by themselves. It is not necessary to take the students through all the directions now. They will have the experience of “following” the directions over the next few days. As you complete various parts of the directions, you might redisplay the chart and point out the steps the students have completed.

places on their own graphic organizers. Remind the students that they will use the notes later to help them answer research questions and write reports about exploring Mars.

Read the article and stop (as you did before) after:

“It takes a special kind of person to do this.”

Ask the following questions one at a time, without discussing them as a class:

- Q *What did you learn about the challenges of space travel in the part of the article you just heard?*
- Q *Where will you write a note about what you have learned on the graphic organizer, and why will you write the note there?*

Say “Turn to your partner,” and give partners a few minutes to share their thinking and write notes about what they learned on their graphic organizers. As they work, circulate, observe, and offer assistance.

## CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners able to agree about what information to include in their notes?
- Are they recording notes in the appropriate place on their graphic organizers?
- Are they writing notes in their own words?

If you notice many students having difficulty writing notes, call for the class’s attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate place on the chart. As necessary, encourage the students to reread the article to collect the information they need.

Record your observations on the “Class Assessment Record” sheet (CA1); see page 102.

After a few minutes, ask volunteers to share their thinking about what they learned and where they recorded notes on their graphic organizers. Then add their ideas to the chart.

Using the same procedure, stop, discuss, and take notes at the following places in the article:

“For the long trip to Mars, it will be very important to find astronauts who can sleep without the natural rhythms of Earth’s day and night.”

“Their bravery will make the first step in sending humans to Mars possible.”

Article 2 Notes  
 “The Challenges of Space Travel”

Facts About Traveling in Space	Challenges of Space Travel for Astronauts
<ul style="list-style-type: none"> <li>- no sunrise and sunset, no day and night in outer space</li> <li>- not getting enough sleep affects people’s thinking, emotions, and health</li> <li>- astronauts travel in space capsules</li> <li>- muscles and bones become weak because there is less gravity</li> </ul>	<ul style="list-style-type: none"> <li>- must take everything you need with you</li> <li>- need to fix everything yourself in emergency situations (no 911!)</li> <li>- no day and night can make it hard to sleep</li> <li>- have to live in a small space with other people</li> <li>- everything floats because there is less gravity</li> <li>- being weightless weakens muscles and bones</li> <li>- miss family and friends</li> </ul>

Other Notes:

- takes 7 or 8 months to get to Mars
- Linenger was on a space station for 5 months and lost 65% of his strength and 14% of his bone mass
- scientists are looking for ways to keep astronauts healthy during the voyage; one idea is to build a space capsule that spins and creates gravity for astronauts in space

Tell the students that tomorrow they will work together, using the sources and their notes, to answer research questions about exploring Mars. Have them put their materials inside their folders.

## SHARING AND REFLECTING

### 5 Reflect

Ask and briefly discuss:

- Q *Why do you think it is a good idea to read an article more than once, like we did today?*
- Q *What did you do to work in a responsible way?*

### Teacher Note

Save the “Article 2 Notes” chart to use throughout the rest of the unit.

# Day 3

## Writing Responses to Research Questions

### Materials

- “Article 1 Notes” chart from Day 1
- “Article 2 Notes” chart from Day 2
- “Research Questions” chart, prepared ahead
- Copy of “Research Questions” sheet (BLM6) for each student
- A marker
- “Mars: Exploring a New Frontier” chart (WA1) from Day 1
- “The Challenges of Space Travel” chart (WA3) from Day 2
- “Class Assessment Record” sheet (CA2)

### In this lesson, the students:

- Read and discuss research questions about exploring Mars as a class
- Identify words in the questions that give clues about what to write
- Write responses to the questions as a class and independently
- Reflect on and revise their responses

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Remind the students that they are learning strategies they can use to do well on the end-of-year performance task. Refer to the article notes charts from Days 1 and 2 and review that the students watched two videos and read two articles about exploring Mars and took notes about what they learned. Explain that today they will use their notes and the articles to answer research questions about exploring Mars.

### 2 Model Reading a Question and Writing a Response

Post the “Research Questions” chart that you prepared ahead. Distribute a copy of the “Research Questions” sheet (BLM6) to each student, and have the students write their names and the date on their sheets. Explain that these are the questions the students will answer in Part 1 of the performance task.

Tell the students that the first step in writing a response to a question is to read and think carefully about the question. Point to Question 1 on the chart and ask the students to listen closely as you read it aloud twice. Discuss:

**Q** *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, point out that the question is asking why Mars is “a better place for humans to live than the Moon.” Underline that phrase on the chart.

Point to the statement following the question and read it aloud. Explain that “use details from the sources” means that the students should use facts and other details from their article notes and the sources to write their responses.

Ask the students to watch as you model writing a response to the first question on the chart, thinking aloud as you write. Display the “Mars: Exploring a New Frontier” chart (WA1) and point out that most of the information you need to answer this question will be in this article and in your notes. Be sure to model reviewing your notes and the article for the information you need.

**You might say:**

“I know the question is asking me to describe why Mars is a better place for humans to live than the Moon. In my notes for the first article, I wrote that the Moon does not have the amount of water and oxygen that humans need to live. There is part of my answer right there! I’ll write: *The Moon does not have enough water or oxygen for humans to survive.* My notes also say that there is water in the ice caps on the poles of Mars and some water vapor in the atmosphere on Mars. I’ll write: *Mars has water in its polar ice caps and in the atmosphere.* I remember that the article says that the atmosphere on Mars is mostly carbon dioxide but that scientists know how to turn it into oxygen. (Point to the paragraph in the article where you found this information.) I’ll write: *Also, the carbon dioxide in Mars’ atmosphere can be turned into oxygen for humans to breathe.*”

### Research Questions

1. Why is Mars a better place for humans to live than the Moon? Use details from the sources in your answer.

*The Moon does not have enough water or oxygen for humans to survive. Mars has water at its polar ice caps and in the atmosphere. Also, the carbon dioxide in Mars’ atmosphere can be turned into oxygen for humans to breathe.*

### 3 Read and Discuss Questions as a Class

Explain that the students will read and discuss Questions 2 and 3 as a class. Then, during Writing Time, the students will work in pairs to discuss what they might write in response to those questions, and each write their own response on their “Research Questions” sheets.

Point to Question 2 on the “Research Questions” chart and read it aloud twice. Ask and discuss:

**Q** *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, point out that the question is asking for information about “what happens to humans when they spend a long time in outer space” and for “details from the sources.” Underline those key phrases on the chart.

### Teacher Note

The consortia that are developing the end-of-year performance tasks plan to deliver the assessment electronically. This means that individual students will have computer or tablet access to all research sources, including videos, as they respond to questions and write extended pieces.

Follow the same procedure to discuss Question 3. If necessary, explain that the question is asking for information about “the challenges of living on Mars” and for “details from the sources.” Point out that both articles contain information they can use to answer this question.

## WRITING TIME

### 4 Discuss Questions in Pairs and Write Answers

Have partners discuss what they might write in response to Questions 2 and 3. Review that each student will write his own response to the questions on his “Research Questions” sheet. Remind the students to use details from their notes and from the articles in their responses. As the students work, circulate, observe, and offer assistance.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students’ responses indicate that they understand what each question is asking?
- Are they able to incorporate details from their notes and the sources in their responses?

If you notice the students struggling to write responses, support them by asking questions such as:

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the sources can you find that information?*
- Q *How might you include information from your notes and the sources in your answer?*

Record your observations on the “Class Assessment Record” sheet (CA2); see page 103.

### 5 Facilitate Guided Rereading and Revising of Responses

Tell the students that they will now reread their responses to Questions 2 and 3 and then reflect on the quality of their responses by thinking about some questions you will ask.

Have the students quietly reread their responses to Question 2 and look up when they are finished. Ask the following questions one at a time, pausing after each one to give them a moment to review their writing and, if necessary, their sources and notes.

**Q** Do you think your response does a good job of describing what happens to humans when they are in space for a long time? If not, what might you add or take out to improve it?

**Q** Do you think your response includes enough details from the sources? If not, what details might you add?

Without discussing as a class, have the students revise their responses as necessary. Remind them to refer to their sources and notes if needed.

Using the same procedure, ask the following questions and then have the students reflect on and revise their responses to Question 3:

**Q** Do you think your response does a good job of explaining the challenges of living on Mars? If not, what might you add or take out to improve it?

**Q** Do you think your response includes enough details from the sources? If not, what details might you add?

## SHARING AND REFLECTING

### 6 Share Responses and Reflect

Have a few volunteers share with the class what they wrote in response to Question 2. As they share, use their ideas to model writing a well-crafted response to the question on the “Research Questions” chart.

Following the same procedure, model writing a response to Question 3.

#### Research Questions

2. What happens to humans when they spend a long time in outer space? Use details from the sources in your answer.

People are weightless in outer space. It makes their muscles and bones get weak.

3. What are some of the challenges of living on Mars? Use details from the sources in your answer.

If humans go to Mars, they will need to live inside habitats for protection. They will have to make their own oxygen to breathe. When they go outside, they will have to wear space suits and carry their own oxygen.

Have the students reflect on their work by asking:

**Q** Do you think your notes helped you write good responses to the questions? Why or why not?

Tell the students that tomorrow they will each use the sources, their notes, and their answers to the research questions to write reports about exploring Mars. Have them put their materials inside their folders.

#### Teacher Note

Save the “Research Questions” chart to use on Day 4.

# Day 4

## Writing a Report

### Materials

- “Student Directions for Part 2” chart (WA4)
- Copy of “Student Directions for Part 2” (BLM7) for each student
- “What We Have Learned About Opinion Writing” chart from Day 2
- “Article 1 Notes,” “Article 2 Notes,” and “Research Questions” charts from Day 3
- “Mars: Exploring a New Frontier” chart (WA1) from Day 3
- “The Challenges of Space Travel” chart (WA3) from Day 3
- Lined writing chart (WA5) for modeling
- “Writing Time” chart (WA6)
- Supply of lined paper for writing reports
- “Class Assessment Record” sheet (CA3)

### Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 3 and then finish the lesson later in the day or the next day.

### In this lesson, the students:

- Plan and write reports about exploring Mars
- Include qualities of a well-written report in their writing
- Reflect on how they felt about writing their reports
- Listen respectfully to the thinking of others

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Point to the “Research Questions” chart and remind the students that yesterday they completed the first part of the guided practice performance task—answering questions about exploring Mars. Explain that today they will work together on the second part of the task—writing reports about exploring Mars.

### 2 Introduce and Discuss the Report-writing Task

Display the “Student Directions for Part 2” chart (WA4) and distribute a copy of the directions (BLM7) to each student. Explain that these are directions for the second part of the performance task, in which each student writes a report about exploring Mars. Review that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, they will take more time than the directions say to write their reports. Remind the students that when they do performance tasks on their own later, they will need to follow the directions exactly.

Ask the students to listen as you read each section of the directions aloud, using the following procedure:

1. Read the section “Your Task” aloud and review that the students may use the sources, their notes, and their answers to the research questions to help them write their reports. Remind the students that when they do performance tasks on their own they will be timed, but that today they will not be.
2. Read the section “Your Writing Assignment” aloud and review that each student needs to write a report about exploring Mars. Remind them what information they are to include and that they should use details from the sources in their reports.

3. Read the section “Begin Work on Your Report” aloud and point out the information that is relevant for this performance task (for example, “plan,” “write,” and “revise”) and underline it.
4. Read the list of qualities of a well-written report aloud. Point out that the list is similar to the list the class created on the “What We Have Learned About Informative Writing” chart. Tell the students that they may refer to both lists as they write their reports.

Ask and briefly discuss:

**Q** *What questions do you have about the directions for writing the report?*

Tell the students that they will do the writing task together as a class and that this will help prepare the students to do a task like this on their own.

### **3** Model Planning and Starting the Report

Tell the students that you will model writing the first two paragraphs of the report. Remind them that the report needs to discuss exploring Mars, including reasons why scientists have chosen Mars, the challenges of space flight to Mars, and what life on Mars would be like for astronauts. Tell them that you will write an opening paragraph to introduce the topic of the report, and then you will write a paragraph about why scientists think humans can live on Mars. Direct the students’ attention to the qualities of a well-written report in the directions (BLM7) and explain that as you write the report, you will include these qualities in your writing.

Display the lined writing chart (WA5) and model writing a paragraph that introduces the topic and establishes the main idea. Then write a paragraph about why scientists chose Mars. Think aloud as you write, and remember to model reviewing your notes and the sources to find the information you need. Be sure to include qualities of a well-written report, such as clear organization, transition words to connect ideas, and evidence from the sources to support the main idea.

**You might say:**

“My opening paragraph needs to introduce the topic, or main idea, of the report and make the reader want to know more about it. I’ll write: *Could you imagine going to another planet? People have wanted to figure out how to travel to other planets for a long time. Scientists believe that Mars is the only other planet where humans might be able to live. However, living there will be difficult. Getting there will also be a challenge.* This shows I understood the assignment because I’ve introduced the topic of the report and some ideas that will be discussed in the report. I think the first sentence will hook my reader because it is a question and will make my reader want to keep reading.

The next paragraph will be about why scientists think humans can live on Mars. I have a lot of information about this in the first column and 'Other Notes' section of my notes. My response to Question 1 also provides useful information. I'll write: *Humans need water and oxygen to live. Mars has water in polar ice caps and in the atmosphere. Oxygen can be made out of the carbon dioxide that is in the atmosphere on Mars.* In my notes, I wrote that the day and night cycle on Mars is only about 40 minutes different than Earth's. The second article said that scientists think humans can get used to this difference. I think these are important details to include, so I'll write: *Mars is also a good choice because its day and night cycle is only about 40 minutes different than Earth's. Scientists think humans on Mars can get used to this difference.*"

After you have modeled writing the first two paragraphs of the report, stop and explain that during Writing Time today the students will write their own reports about exploring Mars. Explain that the students will use their notes and sources to write an opening paragraph and several other paragraphs about the ideas listed in the directions. Use "Think, Pair, Share" to discuss:

**Q** *What might you write about in your report today? [pause] Turn to your partner.*

After a few moments, signal for the students' attention and remind them that each student will write her own report. Explain that you will finish your report, and share it with the class tomorrow.

# WRITING TIME

## 4 Write Reports

Explain that when the students complete the actual performance task they will write their reports using a computer, but that today they are practicing on paper. Distribute loose, lined sheets of paper and explain that they will use this paper to write their reports. Display the “Writing Time” chart (WA6) and have them work quietly for 30–40 minutes. As they work, circulate, observe, and offer assistance.

WA6

### Writing Time

- Reread the writing assignment in “Student Directions for Part 2.”
- Write an opening paragraph that introduces the topic and hooks the reader.
- Include evidence (facts and other details) from the sources in your writing.
- Include transition words and other qualities of a well-written report in your writing.
- Write a conclusion that wraps up the writing.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Does their writing indicate that they understand the task?
- Are they able to introduce the topic in the opening paragraph of the report?
- Does their writing stay on topic?
- Are they able to incorporate information from their notes and the sources into their reports?

If you notice a student having difficulty starting to write after 5–10 minutes, help stimulate his thinking by asking questions such as:

- Q *What is the topic of your report? What might you write in the opening paragraph to introduce the topic?*
- Q *How might you use your notes to help you organize your report?*
- Q *What information from your notes or the sources might you use to explain [what the challenges of space travel are]?*

Record your observations on the “Class Assessment Record” sheet (CA3); see page 104.

Signal the end of Writing Time. Tell the students that tomorrow they will have time to revise and proofread their reports. Have them put their materials in their folders.

### Teacher Note

Prior to teaching the Day 5 lesson, you will need to write the rest of your report (see the diagram in Day 5, Step 2 on page 79). Include evidence from the sources, transition words, and other qualities of a well-written report in your writing. Save your completed report on the lined writing chart (WA5).

# Day 5

### Materials

- Completed report on the lined writing chart (WA5) from Day 4
- “Student Directions for Part 2” chart (WA4) from Day 4

## SHARING AND REFLECTING

### 5 Reflect on Writing Reports

Ask and briefly discuss:

- Q *What did you enjoy about writing your report today? What did you find challenging?*
- Q *What did you and your partner do to listen respectfully to each other as you shared about what you might write in your reports?*

## Revising and Proofreading a Report

### In this lesson, the students:

- Revise their reports
- Proofread their reports
- Express interest in and appreciation for one another’s writing
- Reflect on what they have learned and how that will help them on the end-of-year performance task

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils and sit at desks with partners together. Remind them that yesterday they each planned and wrote a report about exploring Mars. Explain that today they will have the opportunity to revise and proofread their reports.

### 2 Discuss Your Report

Display the completed report on the lined writing chart (WA5) and tell the students that yesterday you finished your report. Ask them to follow along as you read it aloud. Review that the opening paragraph introduces the topic, or main idea, and hooks the reader. In the remaining paragraphs, point out the clear organization, the use of evidence from the sources, the use of transition words to connect ideas, and other qualities of a well-written report.

**You might say:**

"I introduced the topic of exploring Mars in the first paragraph. I tried to hook the reader by asking an interesting question. I think that will make the reader want to keep reading to find out more.

My report is clearly organized. After the introduction, I wrote a paragraph about why scientists think humans can live on Mars, a paragraph about the challenges of traveling in space, and a paragraph about what life would be like for astronauts living on Mars. I stayed on the topic throughout the report.

I included specific evidence from the sources to support the topic of each paragraph. For example, when explaining why scientists think people can live on Mars, I included details about how Mars has some of the water and oxygen that humans will need to live. Also, when describing the challenges of getting and living there, I discussed specific examples, like the difference in gravity and the need to wear space suits.

I used transition words to connect one idea to the next. For example, in the first paragraph, I used the word *although* to show I was introducing a contrasting idea. I did the same thing at the start of the third paragraph. In the second paragraph about why scientists chose Mars, I used the word *also* when giving reasons why humans might be able to live on Mars. In other places in my report, I used words like *however*, *additionally*, and *another* to connect ideas.

My concluding sentence, *Living on Mars is possible, but it will not come without challenges!* sums up the report and lets the reader know the piece has come to an end."

Could you imagine going to another planet? People have wanted to figure out how to travel to other planets for a long time. Scientists believe that Mars is the only other planet where humans might be able to live. However, living there will be difficult. Getting there will also be a challenge.

Humans need water and oxygen to live. Mars has water in polar ice caps and in the atmosphere. Oxygen can be made out of the carbon dioxide that is in the atmosphere on Mars. Mars is also a good choice because its day and night cycle is only about 40 minutes different than Earth's. Scientists think humans on Mars can get used to this difference.

Mars. Since there is no day or night in space, astronauts may have trouble sleeping. Without enough sleep, they may have trouble thinking clearly. One of the biggest challenges of traveling to Mars, however, is that there is less gravity in space than there is on Earth. With less gravity, the astronauts will feel weightless and float free. Over time, this will weaken their muscles and bones.

Once astronauts are on Mars, they will have more challenges. They will have to live in small habitats for protection from the cold, solar radiation, and dust storms. They will also have to wear space suits every time they leave their habitats. Additionally, astronauts will have to make their own oxygen and carry it with them whenever they are outside. Another challenge will be that astronauts will need to live on less water than what they are used to on Earth. Living on Mars is possible, but it will not come without challenges!

## WRITING TIME

### 3 Facilitate Guided Rereading of Reports

Tell the students that they will have time today to finish their reports, but that first they will reread what they have written. Then you will ask some questions for them to think about. Have them quietly reread their writing and look up when they are finished.

Ask the following questions one at a time, giving the students 1–2 minutes after each question to quietly review their writing and mark passages:

- Q *Do you think your opening paragraph does a good job of introducing the topic and stating the main idea? If not, what might you write instead?*
- Q *Will the organization of your report be clear to the reader? If you don't think the organization is clear, what might you move around to make it clearer? Underline parts of the report you might change or move around.*
- Q *Are there places where you used, or could use, evidence from the sources to support your main idea? Put a check mark in the margin next to those places.*

- Q *Are there places where you used, or could use, transition words to connect one idea to the next? Put a star in the margin next to each of those places.*
- Q *Do you think your conclusion does a good job of wrapping up your writing and letting the reader know that the report has come to an end? If not, what might you write instead?*

Without discussing as a class, have the students resume writing for another 10–15 minutes.

#### 4 Facilitate Proofreading of Reports

Display the “Student Directions for Part 2” chart (WA4) and remind the students that it says that a well-written report “follows rules for spelling, punctuation, capitalization, and grammar.” Explain that the students will proofread their reports to find and correct any spelling, punctuation, capitalization, and grammar errors. Ask:

- Q *Why will you want to proofread your report before turning it in?*
- Q *What will you check for when you are proofreading?*

**Students might say:**

“Mistakes could make my writing harder to read and understand.”

“I will check to make sure I’ve capitalized names and the beginning of every sentence.”

“In addition to what [Leo] said, I want to make sure every sentence ends with a period, a question mark, or an exclamation point.”

“In addition to what [Leo and Saja] said, I want to correct any spelling errors I find.”

Give the students 5–10 minutes to proofread their reports and make any necessary corrections.

## SHARING AND REFLECTING

#### 5 Share Writing and Reflect

Have a few volunteers share their reports with the class; then ask:

- Q *What qualities of good informative writing did you notice in [Roberta’s] report?*
- Q *What questions can you ask [Roberta] about her writing?*

Review that this week the students have been learning strategies for doing well on the end-of-year performance task. Ask and briefly discuss:

- Q *What have you learned this week that will help you do well on the performance task? Turn to your partner.*

---

## EXTENSIONS

### Complete a Diagnostic Proofreading Passage

To assess how your students are progressing with Language Standards, you might choose to administer a Diagnostic Proofreading Passage in Appendix C of the *Skill Practice Teaching Guide* (also see “Assessing Language Skills” on page xi).

### Complete a Writing Practice Performance Task Independently

Many states provide a practice performance task that the students complete independently. It can be given right after the guided practice, or at a later time.

Introduce the performance task by reminding the students that they spent one week learning about and preparing for the informative/explanatory end-of-year writing performance task. Explain that the students will now have the opportunity to do a practice performance task on their own on a different topic, and that they can use what they learned to do their best work on the task. Tell them that they will do this practice performance task under conditions like those they will experience when completing the end-of-year performance task, and that this will help them to be better prepared to do well.

# Task Overview

---

## Introductory Classroom Activity 20 MINUTES

This whole-class activity introduces students to the topic of the performance task, exploring Mars, and helps prepare the students to answer research questions and write reports about the topic. As part of this activity, the students will watch two short videos about Mars, and then read and discuss an article about exploring outer space from a simulated website called “Mission to Mars.” They will also be reminded of the features of a well-written report.

During the introductory activity, the teacher will lead a whole-class discussion about the videos and article. The students may take notes to help them prepare for writing. The students may use their notes from the Introductory Classroom Activity when they plan, write, and revise their own multi-paragraph reports in Part 2.

## Part 1 35 MINUTES

The students will read another article from the simulated website “Mission to Mars.” Students are encouraged to take notes using graphic organizers to help them prepare for writing. Then the students will respond to three research questions that require them to analyze, evaluate, interpret, and integrate information.

## Part 2 70 MINUTES

The students will each plan, write, and revise a report about exploring Mars. They may refer to all of the sources from the Introductory Classroom Activity and Part 1, any notes they took, and their answers to the research questions. They may not, however, change their answers to the questions.

## Scoring

The research questions in Part 1 can be scored with the rubrics included at the end of this performance task (see “Scoring Rubrics for Research Questions” on page 89). Any notes, prewriting, and drafts will not be scored.

## Teacher Preparation

- Make sufficient blank paper and writing tools available for students to use in taking notes. You might make extra copies of the graphic organizers.
- Make a class set of copies of the student handouts on pages 92–100.
- Make dictionaries available to use during Part 2 of the performance task. (Some standards-based assessments are computer-based with many of the student materials, including access to spell-check, available within the testing environment. For the purpose of student practice, the materials for the guided practice performance task have been modified so that they can be administered using pencil, paper, and other classroom resources.)

## Teacher Directions for the Introductory Classroom Activity

---

### 1 Introduce the Topic

Tell the students that they are going to learn about exploring Mars. Write the words *astronaut* and *atmosphere* where everyone can see them. Explain that an *astronaut* is a “person who travels into outer space,” and that when astronauts travel to outer space they leave Earth’s atmosphere. Tell the students that *atmosphere* is the “mass of gases surrounding Earth or another planet.”

Write the word *oxygen* where everyone can see it, and tell the students that *oxygen* is a “gas found in Earth’s atmosphere” and that humans need to breathe oxygen to stay alive. Explain that there is no oxygen to breathe in outer space, so astronauts need to bring it with them when they travel there.

Write the words *space capsule* and tell the students that this is the “small part of a spaceship where people and animals ride.” Explain that it is a sealed container that provides pressure and air for astronauts to breathe while in outer space.

### 2 Examine Sources

Tell the students that they will watch and discuss two videos about Mars from a website called “Mission to Mars.” Then they will read and discuss an article from the same website titled “Mars: Exploring a New Frontier.”

Play the videos “Mars in a Minute: Is Mars Red Hot?” (🎧 IV1) and “Mars in a Minute: How Do You Get to Mars?” (🎧 IV2) one at a time.

After viewing each video, lead a whole-class discussion using the following question:

**Question 1:** *What did you learn about Mars in the video you just saw?*

The videos are very short, so you may wish to play each one a second time during the discussion if students have difficulty recalling details.

After viewing and discussing the videos, distribute the article “Mars: Exploring a New Frontier” (see Student Handout 1 on page 92) and the graphic organizer “Article 1 Notes” (see Student Handout 2 on page 94). Tell the students that they can take notes about the article as they read it. Once the students have finished reading the article, lead a whole-class discussion using the following question:

**Question 2:** *What did you learn about surviving on Mars from the article?*

### 3 Explain the Writing Task

Tell the students that in a few minutes they will examine another article from the website “Mission to Mars.” Then the students will use the articles and their notes to answer some questions and write their own reports about exploring Mars.

Discuss with the students the characteristics of a well-written report. A report:

- Establishes a main idea
- Gives evidence from the sources to support the main idea
- Is well-organized and stays on topic
- Explains information clearly
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

Answer any questions the students might have and then move on to Part 1 of the performance task.

## Teacher Directions for Parts 1 and 2

---

### Part 1 35 MINUTES

1. Distribute copies of the source material, graphic organizers, student directions, and research questions (see Student Handouts 3–6 on pages 95–99) to each student and have the students write their names on all materials. Note that the students should not receive the directions specific to writing their report until Part 2.
2. Tell the students to read “Student Directions for Part 1” (see Student Handout 3 on page 95). Remind the students they will have 35 minutes for Part 1 and then have them begin.
3. To help the students plan their time, alert them when 15 minutes and 5 minutes remain in Part 1.
4. Signal to let the students know that Part 1 is over.

## BREAK

## Part 2 70 MINUTES

1. Distribute a copy of “Student Directions for Part 2” (see Student Handout 7 on page 100) to each student. Make sure that the students have access to all of the sources, graphic organizers, any other notes, and their answers to the research questions. Remind the students that they may not change the answers to the research questions from Part 1.
2. Tell the students to read “Student Directions for Part 2” and explain that their writing assignment is included in these directions.
3. After 15 minutes have elapsed, suggest that the students begin writing their reports.
4. Alert the students when 30 minutes remain.
5. Alert the students when 15 minutes remain, and suggest that they begin revising their reports.
6. Signal to let the students know that Part 2 is over and collect all materials from each student.

## 2-Point Research Rubric

### Question 1:

*Why is Mars a better place for humans to live than the Moon? Use details from the sources in your answer.*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides sufficient reasons for why Mars is a better place for humans to live than the Moon.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides limited reasons for why Mars is a better place for humans to live than the Moon.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not provide reasons for why Mars is a better place for humans to live than the Moon. The response is incomplete, incorrect, vague, or completely absent.

#### Sample 2-Point Response

The Moon does not have enough water or oxygen for humans to survive. Mars has water in its polar ice caps and in the atmosphere. Also, the carbon dioxide in Mars' atmosphere can be turned into oxygen for humans to breathe.

#### Sample 1-Point Response

There is water at the north and south poles of Mars. It's very cold on Mars so the water is frozen.

#### Sample 0-Point Response

Mars is about 35 million miles from Earth.

## 2-Point Research Rubric

### Question 2:

*What happens to humans when they spend a long time in outer space? Use details from the sources in your answer.*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides a sufficient description of the effects of long-term weightlessness.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides a limited description of the effects of long-term weightlessness.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not describe the effects of long-term weightlessness. The response is incomplete, incorrect, vague, or completely absent.

#### Sample 2-Point Response

People are weightless in outer space. It makes their muscles and bones get weak.

#### Sample 1-Point Response

People must exercise so they don't get too weak.

#### Sample 0-Point Response

Astronauts miss their families.

## 2-Point Research Rubric

### Question 3:

*What are some of the challenges of living on Mars? Use details from the sources in your answer.*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response sufficiently describes some of the challenges of living on Mars.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides a limited description of the challenges of living on Mars.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not describe the challenges of living on Mars. The response is incomplete, incorrect, vague, or completely absent.

#### Sample 2-Point Response

If humans go to Mars, they will have to live inside habitats for protection. They will have to make their own oxygen to breathe. When they go outside, they will have to wear space suits and carry their own oxygen.

#### Sample 1-Point Response

People could die if they go outside without a space suit.

#### Sample 0-Point Response

Mars is different than Earth. It's hard to live on another planet.

Is Mars Red Hot? How Do You Get to Mars?

Mars: Exploring a New Frontier  
The Challenges of Space Travel

## Mars: *Exploring a New Frontier*

*Humans have always had the desire to see what's "out there." What's over this hill? What's on the other side of that ocean? There have always been daring people who just had to explore new frontiers.*

In 1957 the Soviet Union launched the world's first artificial satellite. It was named Sputnik I. It signaled the beginning of a new age of space exploration. Progress was swift. By 1969 the first human walked on the Moon!

After the moonwalk, people began to think about whether they could live on the Moon or another planet. But which one might be able to support life? While the Moon is close, it does not have the amount of water and oxygen humans need to live. Mercury and Venus are also close to Earth. However, they are way too hot because they are near the sun. Most of the planets beyond Earth are made of gas, so there is no land to live on. That leaves Mars, the planet closest to Earth.

## Can people survive on Mars?

Scientists believe it is possible for humans to survive on Mars. The atmosphere is mostly carbon dioxide. However, scientists know how to turn it into oxygen. The oxygen can be used for breathing and also for making rocket fuel.

Another reason to pick Mars is that it has water. There are ice caps at the north and south poles of Mars. The atmosphere also has some water vapor.

Additionally, the cycle of day and night on Mars is only 40 minutes different than on Earth. It is believed that humans could get used to this small difference.

Still, Mars would be a challenging place to live. It is too cold for humans to stay there without special clothing and shelter. The atmospheric pressure on Mars is also lower than on Earth. It would cause a person's blood to boil and then freeze.

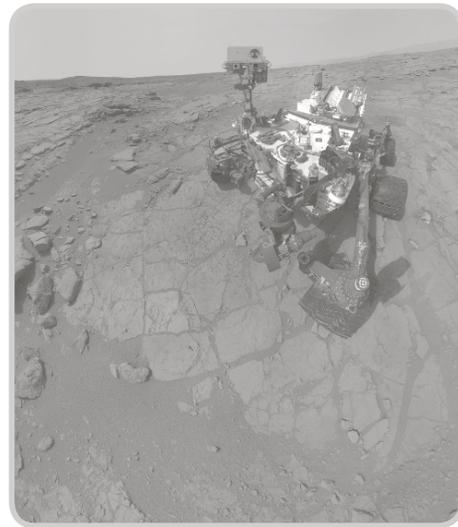

But these problems can be overcome. When outside, people will have to wear space suits for protection. They will have to carry their own oxygen, like scuba divers.

People will also have to live in specially designed shelters called habitats. These habitats will control the pressure and temperature. They will also have oxygen for people to breathe. When there are dust and sand storms, the habitats will provide protection. They will also protect people from harmful solar radiation.

## How are scientists exploring Mars?

In recent years, scientists have sent "rovers" to Mars to explore the planet's surface. The rovers can collect soil samples and take pictures, but scientists want to know more. The next step in exploring Mars is to send humans there.

## Student Directions for Part 1

### Part 1 (35 minutes)

#### Your Task

You will read another article titled “The Challenges of Space Travel” from the website “Mission to Mars.” Then you will answer three research questions about what you have learned. In Part 2, you will write a report about exploring Mars. You will be able to look at the printed sources, your notes, and the answers to the research questions when you write your report.

#### Steps to Follow

In order to plan and write your report, you will do the following:

1. Read the article.
2. Take notes about the information in the source using a graphic organizer.
3. Answer three research questions to help you think about key information in the sources.

#### Directions for Beginning

You will have 35 minutes to examine the sources, take notes, and answer the research questions. Your answers will be scored.

Is Mars Red Hot? How Do You Get to Mars?

Mars: Exploring a New Frontier  
The Challenges of Space Travel

## The Challenges of Space Travel

*The first humans who travel to Mars will be astronauts who go to explore this strange new world. Then these explorers will make the long journey back to Earth. The trips to and from Mars might be even more challenging than living there!*

### Living and working in space

Space travel is not easy. Astronauts have to be away from their families and friends for a long time. They have to live and work in a small space capsule with other astronauts. The space is so cramped that some travelers might get nervous. Others might even feel a sense of panic. There is also no chance to be alone. Astronauts who travel to Mars will have to live in a space capsule for seven to eight months. The trip back to Earth will also take seven to eight months. It takes a special kind of person to do this.

© Center for the Collaborative Classroom

(continues)

## Student Handout 4 *(continued)*

Courtesy NASA.gov/Robert Markowitz

Living and working in space is similar to camping in the wilderness. It's not for everyone. Astronauts must have a sense of adventure. They must be willing to take risks and be eager to experience the unknown. They must also be prepared and take absolutely everything they need with them. Additionally, they must be able to fix equipment that breaks and handle any emergency without help. They cannot dial 911 from space!

Another challenge for astronauts is getting enough sleep. In outer space, there is no sunrise and sunset, no day and night. Some people cannot sleep normally under those conditions. Scientists have learned that people who do not sleep enough often cannot think clearly. Lack of sleep may also affect their emotions and their health. For the long trip to Mars, it will be very important to find astronauts who can sleep without the natural rhythms of Earth's day and night.

### Staying strong in space

Another issue for astronauts is gravity. On Earth we hardly ever think about gravity. It is just there. But when humans go into outer space, there is much less gravity. They float free—weightless. So does everything else that is not tied down! That might sound like

fun. However, it is not good for humans to be weightless for long. Bones and muscles become weaker because they do not have to carry the body's weight. For example, astronaut Jerry Linenger lived on a space station for about five months. When he returned to Earth, Linenger had lost 65 percent of his muscle strength and 14 percent of his bone mass. It took a long time and lots of exercise to get his strength back.

It takes seven to eight months to fly to Mars. That is more time than Linenger spent on the space station. That means astronauts who travel to Mars will be very weak when they arrive. Scientists are looking for ways to deal with this. One idea is to build a space capsule that spins while it travels. The spinning would create gravity within the capsule. There is no solution yet. But we will need to find one so that astronauts who travel to Mars can stay strong and healthy during their long journey.

Courtesy NASA.gov

When the first astronauts went into space in the 1960s, it was said that the astronauts had to have "the right stuff." That meant they had to have strong minds and bodies. Astronauts traveling to Mars will have to fly farther and longer than any astronauts before them. They truly must have "the right stuff." Their bravery will make the first step in sending humans to Mars possible.

## Student Directions for Part 2

### Part 2 (70 minutes)

#### Your Task

You will have 70 minutes to write your report. You should review your notes and sources. Then plan, write, and revise your writing. You may also refer to the answers you wrote to the research questions in Part 1, but you cannot change those answers.

#### Your Writing Assignment

Your class is getting ready for an open house for parents. Student reports will be on display. Write a report about exploring Mars to present at the open house.

Here are some ideas about what to include in your report:

- Why scientists think humans can live on Mars
- What the challenges of space travel are
- What it will be like for people who spend time on Mars

#### Begin Work on Your Report

Manage your time carefully so that you can:

- Plan your report (15 minutes)
- Write your report (40 minutes)
- Revise and edit for a final draft (15 minutes)

You may use a dictionary to check spelling.

#### Things to Remember

Remember that a well-written report:

- Establishes a main idea
- Gives evidence from the sources to support the main idea
- Is well-organized and stays on topic
- Explains information clearly
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

# Class Assessment Records

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>Are partners able to agree about what information to include in their notes?</li> </ul>			
<ul style="list-style-type: none"> <li>Are they recording their notes in the appropriate places on their graphic organizers?</li> </ul>			
<ul style="list-style-type: none"> <li>Are they writing notes in their own words?</li> </ul>			
<p>Other observations:</p>			

**Considerations:**

If you notice many students having difficulty writing notes, call for the class’s attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate place on the chart. As necessary, encourage the students to reread the article to collect the information they need.

**Considerations:**

If you notice the students struggling to write responses, support them by asking questions such as:

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the sources can you find that information?*
- Q *How might you include information from your notes and the sources in your answer?*

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
▪ Does their writing indicate that they understand the task?			
▪ Are they able to introduce the topic in the opening paragraph of the report?			
▪ Does their writing stay on topic?			
▪ Are they able to incorporate information from their notes and the sources into their reports?			
Other observations:			

**Considerations:**

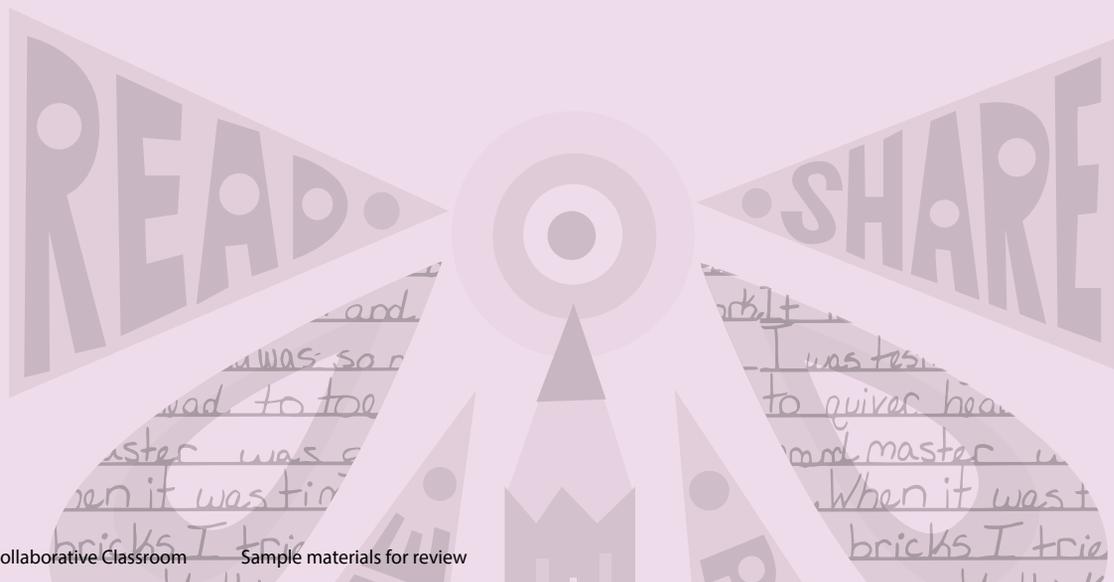

If you notice a student having difficulty starting to write after 5-10 minutes, help stimulate his or her thinking by asking questions such as:

- Q *What is the topic of your report? What might you write in the opening paragraph to introduce the topic?*
- Q *How might you use your notes to help you organize your report?*
- Q *What information from your notes or the sources might you use to explain [what the challenges of space travel are]?*

# Unit

# Opinion Writing

During this one-week unit, the students prepare for the opinion writing portion of a standards-based end-of-year writing performance task. They discuss what they have learned about opinion writing and complete a practice performance task as a class, guided by the teacher. They begin by reading and discussing two articles on the topic—inventions that changed people’s lives. They each take notes about what they learn, and use information from the sources and their notes to answer research questions and write an opinion essay about the topic. Socially, the students listen respectfully to the opinions of others and share their own, make decisions with their partners, and explain their thinking.

## “The Telephone” article (BLM1)

This article discusses how the invention of the telephone improved communication for people around the world.

## “The Gasoline-powered Engine” article (BLM4)

The invention of the gasoline-powered engine and how it impacted people’s lives are discussed in this article.

### Writing Focus

- Students reflect on what they have learned about opinion writing.
- Students read two articles about the topic and take notes.
- Students answer research questions about the topic, and plan and write opinion essays.
- Students revise and proofread their writing.

### Social Development Focus

- Students listen respectfully to the opinions of others and share their own.
- Students make decisions together.
- Students explain their thinking.

## DO AHEAD

- ✓ Prior to Day 1, read “Guided Practice Performance Task: Opinion Writing” on pages 132–136. This unit’s lessons are based on this guided practice performance task. During the unit, the students complete this performance task with instructional support and guidance from the teacher. For more information about how the performance task is used in the lesson, see “About the Guided Practice Performance Task” on page 110.
- ✓ Prior to Day 1, read the article “The Telephone” (BLM1) to familiarize yourself with the content.
- ✓ Prior to Day 1, prepare a sheet of chart paper so that it resembles the “Article Notes” graphic organizer the students will use (BLM2).
- ✓ Prior to Day 1, visit the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) to access and print the student handouts (see “Reproducibles” on page 106). Make a class set of copies of the handouts listed, except for “Student Directions for Part 1” (BLM3). You might want to have extra copies of the graphic organizer available for the students.
- ✓ Prior to Day 1, prepare a class set of writing folders for the students to use to organize their materials throughout the week.
- ✓ Prior to Day 2, read the article “The Gasoline-powered Engine” (BLM4) to familiarize yourself with the content.
- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA1) on page 150.
- ✓ Prior to Day 3, prepare a sheet of chart paper so that it resembles the “Research Questions” sheet (BLM5) the students will use. You may want to write each question on a separate piece of chart paper.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2) on page 151.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA3) on page 152.

*“If you’re not assessing all the time, how do you know if [students] are getting it or not? We need to know what they know so we can teach them what they don’t know.”*

— Jan Borelli, educator

All educators recognize the importance of assessing students to inform classroom instruction, but there is less agreement about the value of standardized testing as an assessment tool. What is your opinion of standardized testing? Do standardized tests help you “know what they know”? Do you have concerns about these tests? Write your thoughts and feelings about standardized testing in your journal.

# Day 1

## Reading an Article and Taking Notes

### Materials

- Copy of the article “The Telephone” (BLM1) for each student
- Chart paper and a marker
- “The Telephone” chart (WA1)
- “Article Notes” chart, prepared ahead
- Copy of “Article Notes” graphic organizer (BLM2) for each student
- A writing folder for each student

### Teacher Note

We recommend that you teach this unit after the class completes the Opinion Writing genre unit.

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 4 and then finish the lesson later in the day or the next day.

### Teacher Note

The partners you assign today will stay together for the entire unit.

### In this lesson, the students:

- Work with new partners
- Reflect on what they know about good opinion writing
- Read and discuss an article
- Take notes on an article as a class and in pairs
- Explain their thinking

### ABOUT THE GUIDED PRACTICE PERFORMANCE TASK

During this unit, the students complete an opinion writing performance task as a class with instructional support from you. The purpose for this guided practice performance task is to prepare the students for the standards-based end-of-year performance tasks they will be required to complete independently. Five days of instruction are provided during which the students' writing is neither timed nor scored. This unit's performance task is not computerized and can be administered in a classroom environment using pencils, paper, and other classroom resources.

The topic of the performance task is whether the invention of the telephone or the invention of the gasoline-powered engine has changed people's lives more. The task consists of three sections: an Introductory Classroom Activity (students are introduced to the topic and examine one of the sources), Part 1 (students examine an additional source and answer research questions about the topic), and Part 2 (students write their own opinion essays). For more information about each section, see “Task Overview” on page 133. For the complete performance task on which this unit's instruction is based, see “Guided Practice Performance Task: Opinion Writing” on page 132.

## GETTING READY TO WRITE

### 1 Pair Students and Introduce the Performance Task

Randomly assign partners and make sure they know each other's names. Have the students bring their pencils and sit at desks with partners together.

Tell the students that at the end of the school year, all the students in their grade will complete a reading and writing assignment called a *performance task*. (You might explain that a *task* is a “job that needs to be done.”) Explain that the purpose for the performance task is to show how well they are developing and growing as readers and writers. This is important information for them as students, as well as for their families, teachers, and principal.

Remind the students that for the past several weeks they have been doing opinion writing, and explain that opinion writing is one type of writing they will do on the end-of-year performance task. Tell the students that during the next several days they will learn strategies for doing well on the opinion writing portion of the performance task.

## 2 Discuss What the Class Has Learned About Opinion Writing

Point out that the students have learned a lot about how to write good opinion pieces, and explain that they can use what they have learned to help them do well on the performance task. Ask and discuss the questions that follow as a class. Encourage the students to use the discussion prompts they have learned as they talk to one another.

- Q *What have you learned about good opinion writing?*
- Q *What did you do to make your opinion piece interesting and easy to read?*

### Students might say:

“It clearly states an opinion in the opening sentence or paragraph.”

“I agree with [Marit]. It also gives several reasons that support the opinion.”

“It uses transition words to connect thoughts.”

“In addition to what [Tai and Rebecca] said, it is clearly organized and makes sense.”

“It often restates the opinion at the end of the essay.”

As the students respond, record their ideas on a sheet of chart paper titled “What We Have Learned About Opinion Writing.” If the students do not mention the following qualities of good opinion writing, briefly review them and add them to the chart.

### Teacher Note

The discussion prompts are:

- “I agree with \_\_\_\_\_ because...”
- “I disagree with \_\_\_\_\_ because...”
- “In addition to what \_\_\_\_\_ said, I think...”

### What We Have Learned About Opinion Writing

- Clearly states an opinion in the opening sentence or paragraph
- Gets the reader interested in knowing more
- Gives reasons that support the opinion
- Uses transition words
- Is clearly organized and makes sense
- Includes a conclusion that wraps up the writing and restates the opinion
- Follows writing rules for spelling, punctuation, capitalization, and grammar

Tell the students that you will post the chart where everyone can see it so that they can keep what they have learned about good opinion writing in mind as they prepare for the opinion writing performance task.

### 3 Introduce the Topic of the Guided Practice Performance Task

Explain that today you will introduce the students to the topic of the performance task, and they will read an article about the topic. In the coming days, they will learn more about the topic by reading another article. Then, as a class, they will use what they learned to answer research questions and write essays about the topic.

Tell the students that they are going to learn about some inventions that have changed the way people live. Write the word *invention* where everyone can see it and explain that an *invention* is a “useful new product or process.” Point out that some inventions, like the electric light and the Internet, become such important parts of our everyday lives that we cannot imagine living without them.

Tell the students that before the electric light was invented, people had to light their homes with candles or oil lamps. Have the students imagine walking around their homes at night without being able to turn on an electric light. Lead a brief whole-class discussion using the following question:

**Q** *In what ways would our lives be different if we didn't have electric lights?*

Then have the students imagine what it might be like to spend one day without using the Internet. Lead a brief whole-class discussion using the following question:

**Q** *What would be different at home if you didn't have the Internet? What would be different at school?*

#### 4 Introduce the Article and Read It Aloud with Stops

Tell the students that the first source of information they will read today is an article titled “The Telephone.” Explain that the article discusses the invention of the telephone and how it changed people’s lives. Display the chart “The Telephone” (C WA1) and distribute a copy of the article (BLM1) to each student.

Tell the students that for this task you will read the article aloud, but when they do performance tasks on their own, they will read any source materials independently. Explain that you will stop during the reading to have pairs discuss what they learned. Ask them to follow along as you read the article aloud. Read the title and the first part of the article aloud, slowly and clearly. Stop after:

“In other places, there was not enough money for them.”

Ask and briefly discuss:

**Q** *What did you learn about the telephone and how it changed people’s lives from the part of the article you just heard? Turn to your partner.*

Without sharing as a class, continue reading to the end of the article and follow the same procedure to have the students discuss what they learned.

## WRITING TIME

#### 5 Reread the Article and Take Notes as a Class and in Pairs

Post the “Article Notes” chart that you prepared ahead and distribute a copy of the “Article Notes” graphic organizer (BLM2) to each student.

Tell the students that you will reread the article, and that as a class and in pairs, they will use this note-taking chart, called a *graphic organizer*, to take notes about what they are learning about inventions that changed people’s lives. Point out that the graphic organizer has a column to write notes about how the invention of the telephone changed the way people live, a column to write notes about how the invention of the gasoline-powered engine changed the way people live, and a section at the bottom for other notes. Explain that today they will write notes in the left-hand column and in the “Other Notes” section. Explain that, as you read the article again, you will stop in the middle so that the students can discuss what they have learned and record notes on the graphic organizer. Then you will do the same with the second half of the article.

Read the article and stop (as you did before) after:

“In other places, there was not enough money for them.”

Discuss as a class:

**Q** *What did you learn about the telephone and how it changed people’s lives from the part of the article you just heard?*

#### Teacher Note

You might explain that a *source* is “something that information comes from, such as a book, video, website, or article.”

### Teacher Note

You may want to review that notes are most helpful when they are brief and written in the writer's own words rather than copied exactly from the source.

### Teacher Note

If the students have difficulty deciding where on the graphic organizer to record their notes, call for their attention and model writing their ideas in the appropriate places on the chart.

#### Students might say:

"I learned that people could not talk to friends and family who were far away before the telephone was invented."

"Telephones helped businesses be able to communicate quickly."

"I never knew that telephone cables under the ocean allowed people in the United States to talk to people in Europe."

As the students respond, model writing their responses as notes on the chart. Have the students copy the notes onto their own graphic organizers.

Continue reading to the end of the article. Have the students discuss what they learned in pairs (rather than as a class) and record their notes on their graphic organizers.

Have a few volunteers share what they discussed and where on their graphic organizers they wrote their notes. As they share, add their ideas to the chart.

Article Notes	
Ways Telephones Changed How People Live	Ways Gasoline-powered Engines Changed How People Live
<ul style="list-style-type: none"><li>- allow you to talk to friends and family who live far away (letters took weeks or months)</li><li>- allow businesses to communicate quickly</li><li>- cables under the ocean allowed people in the U.S. to talk to people in Europe</li><li>- cell phones connect people in parts of the world that aren't connected by telephone wires or cables</li><li>- cell phones are part of daily life</li><li>- can use cell phones to do banking</li><li>- people are now more connected than ever</li></ul>	
Other Notes: <ul style="list-style-type: none"><li>- telephone invented in 1876</li><li>- some places were too far away for telephone cables to reach</li></ul>	

Tell the students that tomorrow they will learn about another invention that changed people’s lives by reading and discussing an article about the gasoline-powered engine.

Distribute a writing folder to each student and explain that this is where the students will keep all of their materials for the week. Have the students put their materials inside their folders and keep them in their desks.

## SHARING AND REFLECTING

### 6 Reflect

Ask and briefly discuss:

*Q What did you and your new partner do to work well together today?*

# Reading an Article and Taking Notes

# Day 2

### In this lesson, the students:

- Review what they have learned about the invention of the telephone
- Read and discuss another article about the topic
- Take notes on the article in pairs
- Make decisions together
- Work in a responsible way

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit together with partners at desks. Review that the students are working together to complete an opinion writing task about whether the invention of the telephone or the invention of the gasoline-powered engine has changed people’s lives more. Review that yesterday the students discussed what they have learned about good opinion writing. They also read an article about the invention of the telephone, discussed it as a class, and took notes about what they learned. Direct the students’ attention to the “Article Notes” chart from Day 1. Briefly review the notes by asking:

*Q What did you learn about the invention of the telephone from the article we read yesterday?*

### Teacher Note

Save the “What We Have Learned About Opinion Writing” chart and the “Article Notes” chart to use throughout the unit.

### Materials

- Copy of the article “The Gasoline-powered Engine” (BLM4) for each student
- “Article Notes” chart from Day 1
- “Student Directions for Part 1” chart (WA2; also available as BLM3)
- “The Gasoline-powered Engine” chart (WA3)
- Extra copies of “Article Notes” graphic organizer (BLM2) for students, if needed
- A marker
- “Class Assessment Record” sheet (CA1)

### Teacher Note

The purpose for showing the “Student Directions for Part 1” chart (WA2) is to briefly introduce the students to the type of directions they will encounter when they do performance tasks by themselves. It is not necessary to take the students through all the directions now. They will have the experience of “following” the directions over the next few days. As you complete various parts of the directions, you might redisplay the chart and point out the steps the students have completed.

Tell the students that today they will read an article about another invention—the gasoline-powered engine.

## 2 Introduce Student Directions for Part 1

Display the “Student Directions for Part 1” chart (WA2). Explain that these are directions for the first part of the performance task in which the students examine another source about inventions and write responses to research questions. Tell the students that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, you will read the article aloud, rather than have the students read it on their own, and they will take more time than the directions say to complete the steps. Explain that when the students do performance tasks on their own later, they will follow the directions exactly.

## 3 Introduce the Article and Read It Aloud with Stops

Tell the students that today’s source is an article titled “The Gasoline-powered Engine” and that it discusses how the gasoline-powered engine changed people’s lives. Display the chart “The Gasoline-powered Engine” (WA3) and distribute a copy of the article (BLM4) to each student. Ask the students to follow along as you read the article aloud, and explain that you will stop during the reading to have pairs discuss what they are learning.

Read the title of the article and the first two paragraphs aloud, slowly and clearly. Stop after:

“People could move from place to place more quickly and easily than ever before.”

Ask:

**Q** *What did you learn about the gasoline-powered engine and how it changed people’s lives in the part of the article you just heard? Turn to your partner.*

Without sharing as a class, continue reading to the end of the article and follow the same procedure to have the students discuss what they learned.

## WRITING TIME

## 4 Reread the Article and Take Notes in Pairs

Direct the students’ attention to the “Article Notes” chart from Day 1 and explain that today you will take notes in the right-hand column and the “Other Notes” section of the graphic organizer.

Have the students get out their “Article Notes” graphic organizers (BLM2) from Day 1. Explain that as you read the article again you will stop, and partners will discuss what more they learned and then write

notes in the appropriate places on their own graphic organizers. Remind them that they will use the information they collect to answer research questions and write opinion essays about whether the invention of the telephone or the gasoline-powered engine has changed people's lives more.

Read the article and stop (as you did before) after:

"People could move from place to place more quickly and easily than ever before."

Ask the following question without discussing it as a class:

**Q** *What did you learn about the gasoline-powered engine and how it changed people's lives in the part of the article you just heard?*

Say "Turn to your partner," and give partners a few minutes to share their thinking and write notes about what they learned on their graphic organizers. As they work, circulate, observe, and offer assistance.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners able to agree about what information to include in their notes?
- Are they recording notes in the appropriate places on their graphic organizers?
- Are they writing notes in their own words?

If you notice many students having difficulty writing notes, call for their attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate place on the chart. As necessary, encourage the students to reread the article to collect the information they need.

Record your observations on the "Class Assessment Record" sheet (CA1); see page 150.

When most pairs have finished, ask volunteers to share their thinking about what they learned and where they recorded their notes on their graphic organizers. Then add their ideas to the chart.

Continue reading to the end of the article and using the same procedure, stop, discuss, and take notes.

### Teacher Note

Save the "Article Notes" chart to use throughout the rest of the unit.

Other Notes:

Tell the students that tomorrow they will work together, using the sources and their notes, to answer research questions about the invention of the telephone and the gasoline-powered engine. Have them put all their materials inside their folders.

## SHARING AND REFLECTING

### 5 Reflect

Ask and briefly discuss:

- Q *Why do you think it is a good idea to read a source more than once, like we did today?*
- Q *What did you do today to work in a responsible way?*

# Writing Responses to Research Questions

## Day 3

### In this lesson, the students:

- Read and discuss research questions about inventions that changed people’s lives as a class
- Identify words in the questions that give clues about what to write
- Write responses to the questions as a class and independently
- Reflect on and revise their responses

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Remind the students that they are learning strategies they can use to do well on the end-of-year performance task. Direct the students’ attention to the “Article Notes” chart from Day 2 and review that the students read two articles about inventions that changed the way people live and took notes about what they learned. Explain that today they will use their notes and the articles to answer research questions about the inventions.

### 2 Model Reading a Question and Writing a Response

Post the “Research Questions” chart that you prepared ahead. Distribute a copy of the “Research Questions” sheet (BLM5) to each student, and have the students write their names and the date on their sheets. Explain that these are the questions the students will answer in Part 1 of the performance task.

Tell the students that the first step in writing a response to a question is to read and think carefully about the question. Point to Question 1 on the chart and ask the students to listen closely as you read it aloud twice. Discuss:

**Q** *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, point out that the question is asking for “what is similar” about the telephone and the gasoline-powered engine. Underline that key phrase and the name of each invention on the chart.

Ask the students to watch as you model writing a response to the first question on the chart, thinking aloud as you write. Display the chart “The Telephone” (WA1) and model reviewing the source and your notes for the information you need. Then display the chart “The Gasoline-powered Engine” (WA3) and follow the same procedure.

### Materials

- “Article Notes” chart from Day 2
- “The Gasoline-powered Engine” chart (WA3) from Day 2
- “The Telephone” chart (WA1) from Day 1
- “Research Questions” chart, prepared ahead
- Copy of “Research Questions” sheet (BLM5) for each student
- A marker
- “Class Assessment Record” sheet (CA2)

### Teacher Note

The consortia that are developing the end-of-year performance tasks plan to deliver the assessment electronically. This means that individual students will have computer or tablet access to all research sources as they respond to questions and write extended pieces.

**You might say:**

"I know that the question is asking for what is similar about the telephone and the gasoline-powered engine. In my notes, I wrote that before people had the telephone, they could not easily talk to friends and family who lived far away. I also wrote that before gasoline-powered engines were used in cars, people had to use trains or horse-drawn wagons to travel. I think they are similar because both of these inventions changed people's lives. I'll write: *Both the telephone and the gasoline-powered engine changed people's lives when they were first invented.* Now I'll write about *how* they changed people's lives. I'll write: *The telephone helped people talk to family and friends who lived far away. The gasoline-powered engine helped people travel much more quickly.* Both articles also mention that these inventions are important parts of people's lives today. I'll write: *People still use both of these inventions today.*"

### Research Questions

1. What is similar about the telephone and the gasoline-powered engine? Use details from the sources in your answer.

*Both the telephone and the gasoline-powered engine changed people's lives when they were first invented. The telephone helped people talk to family and friends who lived far away. The gasoline-powered engine helped people travel much more quickly. People still use both of these inventions today.*

### 3 Read and Discuss Questions as a Class

Explain that the students will read and discuss Questions 2 and 3 as a class. Then, during Writing Time, the students will work in pairs to discuss what they might write in response to those questions, and each write their own responses on their "Research Questions" sheets.

Point to Question 2 on the "Research Questions" chart and read it aloud twice. Ask and discuss:

**Q** *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, point out that the question is asking "how did the invention of the telephone change the way people lived" and for "details from the sources." Underline those key phrases on the chart.

Follow the same procedure to discuss Question 3. If necessary, explain that the question is asking for "two ways the gasoline-powered engine changed people's lives" and for "details from the sources." Underline those key phrases on the chart.

## WRITING TIME

### 4 Discuss Questions in Pairs and Write Answers

Have partners discuss what they might write in response to Questions 2 and 3. Review that each student will write his own response to the questions on his “Research Questions” sheet. Remind the students to use details or examples from their notes and from the articles in their responses. As the students work, circulate, observe, and offer assistance.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students’ responses indicate that they understand what each question is asking?
- Are they able to incorporate information from their notes and the sources in their responses?

If you notice the students struggling to write responses, support them by asking questions such as:

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the source can you find that information?*
- Q *How might you include information from your notes and the sources in your answer?*

Record your observations on the “Class Assessment Record” sheet (CA2); see page 151.

### 5 Facilitate Guided Rereading and Revising of Responses

Tell the students that they will now reread their responses to Questions 2 and 3 and then reflect on the quality of their responses by thinking about some questions you will ask.

Have the students quietly reread their responses to Question 2 and look up when they are finished. Ask the following questions one at a time, pausing after each one to give them a moment to review their writing and, if necessary, their sources and notes:

- Q *Do you think your response does a good job of explaining how the invention of the telephone changed the way people lived? If not, what might you write instead?*
- Q *Do you think your response includes enough details from the sources? If not, what details might you add?*

Without discussing as a class, have the students revise their responses as necessary. Remind them to refer to their sources and notes if needed.

Using the same procedure, ask the following questions and then have the students reflect on and revise their responses to Question 3:

- Q *Do you think your answer clearly states two ways the gasoline-powered engine changed people's lives? If not, what might you add or take out to improve it?*
- Q *Do you think your response includes enough details from the sources? If not, what details might you add?*

## SHARING AND REFLECTING

### 6 Share Responses and Reflect

After several minutes, have a few volunteers share with the class what they wrote in response to Question 2. As they share, use their ideas to model writing a well-crafted response to the question on the “Research Questions” chart.

Following the same procedure, model writing a response to Question 3.

#### Research Questions

2. How did the invention of the telephone change the way people lived? Use details from the sources in your answer.

*Before the invention of the telephone, people had to send messages in the mail, which took a long time. The telephone allowed people to talk to others who lived far away.*

3. What are two ways the gasoline-powered engine changed people's lives? Use details from the sources in your answer.

*Before gasoline-powered engines, people usually traveled by train, boat, or horse-drawn wagon. The gasoline-powered engines in cars, trucks, and other vehicles allow us to travel more quickly. They have also made farming easier.*

Have the students reflect on their work by asking:

- Q *Do you think your notes helped you write good responses to the questions? Why or why not?*

Tell the students that tomorrow they will use the sources, their notes, and their answers to the research questions to each write an opinion essay about whether they think the telephone or the gasoline-powered engine changed people's lives more. Have them put their materials inside their folders.

### Teacher Note

Save the “Research Questions” chart to use on Day 4.

## In this lesson, the students:

- Plan and write opinion essays about whether the telephone or gasoline-powered engine changed people’s lives more
- Include qualities of a well-written opinion essay in their writing
- Reflect on how they felt about writing their essays
- Respectfully consider the opinions of others

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit together with partners at desks. Point to the “Research Questions” chart and remind the students that yesterday they completed the first part of the guided practice performance task—answering questions about inventions that changed the way people live. Explain that today partners will work together on the second part of the task—writing opinion essays about the topic.

### 2 Introduce and Discuss the Essay-writing Task

Display the “Student Directions for Part 2” chart (WA4) and distribute a copy of the directions (BLM6) to each student. Explain that these are directions for the second part of the performance task, in which the students each write an opinion essay about whether they think the invention of the telephone or the gasoline-powered engine changed people’s lives more. Review that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, they will take more time than the directions say to write their essays. Remind the students that when they do performance tasks on their own, they will need to follow the directions exactly.

Ask the students to listen as you read from each section of the directions aloud, using the following procedure:

1. Read the section “Your Task” aloud and review that the students may use the sources, their notes, and their answers to the research questions to help them write their essays. Remind the students that when they do performance tasks on their own they will be timed, but that today they will not be.

## Materials

- “Student Directions for Part 2” chart (WA4)
- Copy of “Student Directions for Part 2” (BLM6) for each student
- “Article Notes” and “Research Questions” charts from Day 3
- “The Gasoline-powered Engine” chart (WA3) from Day 3
- “The Telephone” chart (WA1) from Day 3
- Lined writing chart (WA5) for modeling
- “Writing Time” chart (WA6)
- Supply of lined paper for writing essays
- “Class Assessment Record” sheet (CA3)

## Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 3 and then finish the lesson later in the day or the next day.

2. Read the section “Your Writing Assignment” aloud and review that each student needs to write an essay that tells her opinion about whether the telephone or the gasoline-powered engine changed people’s lives more. The students will need to support their opinions with reasons from the sources.
3. Read the section “Begin Work on Your Essay” aloud, point out the information that is relevant for this practice task (for example, “plan,” “write,” and “revise”), and underline it.
4. Read the list of qualities of a well-written opinion essay aloud. Point out that the list is similar to the list the class created on the “What We Learned About Opinion Writing” chart. Tell the students that they may refer to both lists as they write their essays.

Ask and briefly discuss:

**Q** *What questions do you have about the directions for writing the opinion essay?*

Tell the students that they will do the writing task together as a class and that this will help prepare them to do tasks like this on their own.

### **3** Model Planning and Starting the Essay

Tell the students that you will model writing the first two paragraphs of the essay. Remind them that the essay needs to state an opinion clearly and support the opinion with reasons from the sources. Tell them that you will write an opening paragraph that states your opinion, and then you will write a paragraph describing one reason that supports your opinion. Direct the students’ attention to the qualities of a well-written opinion essay in the directions (BLM6) and explain that as you write the essay, you will include these qualities in your writing.

Display the lined writing chart (WA5) and model writing the first two paragraphs of the essay. Think aloud as you write, and remember to model reviewing your notes and the sources to find the information you need. Be sure to include qualities of a well-written opinion essay, such as clear organization and an opening paragraph that states your opinion.

#### **You might say:**

“My opening paragraph needs to state my opinion on the topic clearly. I also want the opening to get the reader interested in reading my essay. I’ll write: *There are many inventions that have changed the way people live. Inventions like the telephone and the gasoline-powered engine make our lives a lot easier, but the gasoline-powered engine changed our lives forever.* This shows I understood the assignment because I’ve stated my opinion clearly in the second sentence. I think saying ‘the gasoline-powered engine changed our lives forever’ will make my reader want to keep reading.

The next paragraph will describe one reason that supports my opinion. I have a lot of information in my notes about how the gasoline-powered engine changed people’s lives. One important

reason is that gasoline-powered engines made traveling so much faster because people could travel in cars and planes. I also have information about this in my answer to the third research question. I'll write: *One way the gasoline-powered engine changed people's lives is that it made traveling faster and easier. Today we travel in vehicles like cars, trucks, and planes.* I'll use the point from the article about how traveling used to be very difficult and slow. I'll write: *People used to have to travel by horse-drawn wagons, which could be difficult and took a long time."*

*There are many inventions that have changed the way people live. Inventions like the telephone and the gasoline-powered engine make our lives a lot easier, but the gasoline-powered engine changed our lives forever.*

*One way the gasoline-powered engine changed people's lives is that it made traveling faster and easier. Today we travel in vehicles like cars, trucks, and planes. People used to have to travel by horse-drawn wagons, which could be difficult and took a long time.*

WA5

After you have modeled writing the first two paragraphs of the essay, stop and explain that during Writing Time today the students will write their own opinion essays. Explain that they will use their notes and sources to each write an opening paragraph that clearly states their opinion and then describe several reasons that support their opinion. Use “Think, Pair, Share” to discuss:

**Q** *What might you write about in your opinion essay today?* [pause] *Turn to your partner.*

After a few moments, signal for the students' attention and remind them that each student will write her own essay. Explain that you will finish your essay and share it with the class tomorrow.

## WRITING TIME

### 4 Write Opinion Essays

Explain that when the students complete the actual performance task they will write their essays using computers, but that today they are practicing on paper. Distribute loose, lined sheets of paper and explain that they will use this paper to write their essays. Display the “Writing Time” chart (WA6) and have them work quietly for 30–40 minutes. As they work, circulate, observe, and offer assistance.

### Teacher Note

You might point out that the students' opinions may be different from yours and that is fine. Remind them that what is important is that they support their opinion with reasons from the sources.

### Writing Time

- Reread the writing assignment in “Student Directions for Part 2.”
- Write an opening paragraph that states your opinion and gets the reader interested in reading more.
- Give reasons to support your opinion.
- Include transition words and other qualities of a well-written essay in your piece.
- Write a conclusion that wraps up the writing.

### CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Does the students’ writing indicate that they understand the task?
- Are they able to clearly state their opinion in the opening paragraph of the essay?
- Does their writing stay on topic?
- Are they able to incorporate information from their notes and the sources into their essays?

If you notice a student is having difficulty starting to write after 5–10 minutes, help stimulate his thinking by asking questions such as:

- Q *What is the topic of your essay? What might you write in your opening paragraph to clearly state your opinion about the topic?*
- Q *How might you use your notes to help you decide what to write in your essay?*
- Q *What information from your notes or the sources can you use to support your opinion?*

Record your observations on the “Class Assessment Record” sheet (CA3); see page 152.

Signal the end of Writing Time. Tell the students that tomorrow they will have time to revise and proofread their essays. Have them put their essays and other materials in their folders.

## SHARING AND REFLECTING

### 5 Reflect on Writing Essays

Ask and briefly discuss:

- Q *What did you enjoy about writing your opinion essay today? What did you find challenging?*
- Q *What did you and your partner do to show respect for each other’s opinions as you shared ideas about your essays?*

### Teacher Note

Prior to teaching the Day 5 lesson, you will need to write the rest of your essay (see the diagram in Day 5, Step 2 on page 128). Include evidence from the sources, transition words, and other qualities of a well-written opinion essay in your writing. Save your completed essay on the lined writing chart (WA5).

# Revising and Proofreading an Essay

## Day 5

### In this lesson, the students:

- Revise their essays
- Proofread their essays
- Express interest in and appreciation for one another's writing
- Reflect on what they have learned and how that will help them on the end-of-year performance task

### Materials

- Completed essay on the lined writing chart (WA5) from Day 4
- "Student Directions for Part 2" chart (WA4) from Day 4

## GETTING READY TO WRITE

### 1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Remind them that yesterday they each planned and wrote an opinion essay about whether the invention of the telephone or the invention of the gasoline-powered engine changed people's lives more. Explain that today they will have the opportunity to revise and proofread their essays.

### 2 Discuss Your Essay

Display the completed essay on the lined writing chart (WA5) from Day 4 and tell the students that yesterday you completed your essay. Ask them to follow along as you read it aloud. Review that the opening paragraph clearly states your opinion and gets the reader interested in reading more. In the remaining paragraphs, point out the clear organization, the reasons to support your opinion, the use of transition words to connect ideas, and other qualities of a well-written essay.

#### You might say:

"I clearly stated my opinion about which invention I think changed people's lives more in the first paragraph. I tried to get the reader interested by writing that *the gasoline-powered engine changed our lives forever*. I think that will make the reader want to keep reading to find out more.

My essay is clearly organized. After stating my opinion in the introduction, I wrote a paragraph for each of the reasons supporting my opinion. I also stayed on the topic throughout the essay.

I used details from the sources in each paragraph. For example, in the fourth paragraph I compared how farmers used to use their hands or animals to do the work, but now gasoline-powered tractors and other machines make it easier.

I used transition words to connect one idea to the next. For example, I wrote *one way*, *another way*, and *finally* at the beginning of each paragraph to help the reader keep track of the reasons for my opinion.

My concluding sentence, *For all of these reasons, I think that the gasoline-powered engine changed the way people live more than the telephone*, restates my opinion and lets the reader know the piece has come to an end."

WAS

*There are many inventions that have changed the way people live. Inventions like the telephone and the gasoline-powered engine make our lives a lot easier, but the gasoline-powered engine changed our lives forever.*

*One way the gasoline-powered engine changed people's lives is that it made traveling faster and easier. Today we travel in vehicles like cars, trucks, and planes. People used to have to travel by horse-drawn wagons, which could be difficult and took a long time.*

*Another way the gasoline-powered engine changed people's lives is that it allowed us to transport goods to other countries and receive goods from other countries. I think this makes us more connected to the world.*

*Finally, gasoline-powered engines have made farming easier and faster. Farmers no longer have to do all the work by hand or by using animals. Tractors and other machines that run on gasoline-powered engines make farming easier and faster.*

*For all of these reasons, I think that the gasoline-powered engine changed the way people live more than the telephone.*

## WRITING TIME

### 3 Facilitate Guided Rereading of Essays

Tell the students that they will have time today to finish their essays, but that first they will reread what they have written. Then you will ask some questions for them to think about. Have them quietly reread their writing and look up when they are finished.

Ask the following questions one at a time, giving the students 1–2 minutes after each question to quietly review their writing and mark passages:

- Q *Do you think your opening paragraph states your opinion clearly and gets the reader interested in reading more? If not, what might you write instead?*
- Q *Will the organization of your essay be clear to the reader? If you don't think the organization is clear, what might you move around to make it clearer? Underline parts of the essay you might change or move around.*
- Q *Are there places where you gave, or could give, reasons from the sources to support your opinion? Put a check mark in the margin next to those places.*
- Q *Are there places where you used, or could use, transition words to connect one idea to the next? Put a star in the margin next to each of those places.*
- Q *Do you think your conclusion does a good job of wrapping up your writing and letting the reader know that the essay has come to an end? If not, what might you write instead?*

Without discussing as a class, have the students resume writing for another 10–15 minutes.

## 4 Facilitate Proofreading of Essays

Display the “Student Directions for Part 2” chart (WA4) and remind the students that it states that a well-written essay “follows rules for spelling, punctuation, capitalization, and grammar.” Explain that the students will proofread their essays to find and correct any spelling, punctuation, capitalization, and grammar errors. Ask:

- Q *Why will you want to proofread your essay before turning it in?*
- Q *What will you check for when you are proofreading?*

### Students might say:

“Mistakes could make my writing harder to read and understand.”

“I will check to make sure I've capitalized names and the beginning of every sentence.”

“In addition to what [Seray] said, I want to make sure every sentence ends with a period, a question mark, or an exclamation point.”

“In addition to what [Seray and Juan] said, I want to correct any spelling errors I find.”

Give the students 5–10 minutes to proofread their essays and make any necessary corrections.

## SHARING AND REFLECTING

### 5 Share Writing and Reflect

Have a few volunteers share their essays with the class; then ask:

Q *What qualities of good opinion writing did you notice in [Masao's] essay?*

Q *What questions can you ask [Masao] about his writing?*

Review that this week the students have been learning strategies for doing well on the end-of-year performance task. Ask and briefly discuss:

 Q *What have you learned this week that will help you do well on the performance task? Turn to your partner.*

---

## EXTENSIONS

### Complete a Diagnostic Proofreading Passage

To assess how your students are progressing with Language Standards, you might choose to administer a Diagnostic Proofreading Passage in Appendix C of the *Skill Practice Teaching Guide* (also see “Assessing Language Skills” on page xi).

### Complete a Writing Practice Performance Task Independently

Many states provide a practice performance task that the students complete independently. It can be given right after the guided practice, or at a later time.

Introduce the performance task by reminding the students that they spent one week learning about and preparing for the opinion writing portion of the end-of-year writing performance task. Explain that the students will now have the opportunity to do a practice performance task on their own on a different topic, and that they can use what they learned to do their best work on the task. Tell them that they will do this practice performance task under conditions like those they will experience when completing the end-of-year performance task, and that this will help them to be better prepared to do well.

# Task Overview

## Introductory Classroom Activity 20 MINUTES

This whole-class activity introduces the students to the topic of the performance task, inventions that changed people’s lives, and helps prepare the students to answer research questions and write opinion essays about the topic. As part of this activity, the students will discuss the impact of electricity and the Internet on their daily lives. Then they will read an article about the invention of the telephone. They will also be reminded of the features of a well-written opinion essay.

During the introductory activity, the teacher will lead a whole-class discussion about the article. The students may take notes using the provided graphic organizer to help them prepare for writing. The students may use their notes from the Introductory Classroom Activity when they plan, write, and revise their own multi-paragraph reports in Part 2.

## Part 1 35 MINUTES

The students will read and examine an article about the invention of the gasoline-powered engine. The students are encouraged to take notes using the provided graphic organizer to help them prepare for writing. Then the students will respond to three research questions that require them to analyze, evaluate, interpret, and integrate information.

## Part 2 70 MINUTES

The students will each plan, write, and revise an opinion essay about whether they think the invention of the telephone or the invention of the gasoline-powered engine changed people’s lives more. They may refer to all of the sources from the Introductory Classroom Activity and Part 1, any notes they took, and their answers to the research questions. The students may not, however, change their answers to the questions.

## Scoring

The research questions in Part 1 can be scored with the rubrics included at the end of this performance task (see “Scoring Rubrics for Research Questions” on page 137). Any notes, prewriting, or drafts will not be scored.

## Teacher Preparation

- Make sufficient blank paper and writing tools available for students to use in taking notes. You might make extra copies of the graphic organizers.
- Make a class set of copies of the student handouts on pages 140–147.
- Make dictionaries available to use during Part 2 of the performance task. (Some standards-based assessments are computer-based with many of the student materials, including access to spell-check, available within the testing environment. For the purpose of student practice, the materials for the guided practice performance task have been modified so that they can be administered using pencils, paper, and other classroom resources.)

## Teacher Directions for the Introductory Classroom Activity

---

### 1 Introduce the Topic

Tell students that they are going to learn about some inventions that have changed the way people live. Write the word *invention* where everyone can see it and explain that an *invention* is a “useful new product or process.” Point out that some inventions, like the electric light and the Internet, become such important parts of our everyday lives that we cannot imagine living without them.

Tell the students that before the electric light was invented, people had to light their homes with candles or oil lamps. Have the students imagine walking around their homes at night without being able to turn on an electric light. Lead a brief whole-class discussion using the following question:

**Question 1:** *In what ways would our lives be different if we didn’t have electric lights?*

Then have the students imagine what it might be like to spend one day without using the Internet. Lead a brief whole-class discussion using the following question:

**Question 2:** *What would be different at home if you didn’t have the Internet? What would be different at school?*

### 2 Examine a Source

Tell the students that they will read an article about the telephone and how it has affected people’s lives and then discuss it as a group.

Distribute the article “The Telephone” (see Student Handout 1 on page 140) and the “Article Notes” graphic organizer (see Student Handout 2 on page 142). Tell the students that they can take notes about the article as they read it.

Have the students read the article, and then lead a whole-class discussion using the following question:

**Question:** *How did the telephone change the way people communicate?*

### 3 Explain the Writing Task

Tell students that in a few minutes they will read an article about the invention of the gasoline-powered engine. Then the students will use the articles and their notes to answer some questions and write their own opinion essays about which invention, the telephone or the gasoline-powered engine, they think changed people’s lives more.

Discuss with the students the characteristics of a well-written opinion essay. An opinion essay:

- States an opinion
- Gives reasons that support the opinion
- Explains information clearly
- Provides a conclusion
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

Answer any questions the students might have and then move on to Part 1 of the performance task.

---

## Teacher Directions for Parts 1 and 2

---

### Part 1 35 MINUTES

1. Distribute copies of the source material, student directions, and research questions (see Student Handouts 3–5 on pages 143–146) to each student, and have the students write their names on all materials. Note that students should not receive the directions specific to writing their essays until Part 2.
2. Tell the students to read “Student Directions for Part 1” (see Student Handout 3 on page 143). Remind the students they will have 35 minutes for Part 1 and then tell them to begin.
3. To help the students plan their time, alert them when 15 minutes and 5 minutes remain in Part 1.
4. Signal to let the students know that Part 1 is over.

**BREAK**

## Part 2 70 MINUTES

1. Distribute a copy of “Student Directions for Part 2” (see Student Handout 6 on page 147) to each student. Make sure that the students have access to all of the sources, graphic organizers, any other notes, and their answers to the research questions. Remind the students that they may not change the answers to the research questions from Part 1.
2. Tell the students to read “Student Directions for Part 2” and explain that their writing assignment is included in these directions.
3. After 15 minutes have elapsed, suggest that the students begin writing their essays.
4. Alert the students when 30 minutes remain.
5. Alert the students when 15 minutes remain, and suggest that they begin revising their essays.
6. Signal to let the students know that Part 2 is over and collect all materials from each student.

# Scoring Rubrics for Research Questions

---

## 2-Point Research Rubric

### Question 1:

*What is similar about the telephone and the gasoline-powered engine? Use details from the sources in your answer.*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response states that each of them had a big impact on the way people lived when they were invented and continue to impact our daily lives.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response states that both are important in today's world.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not state a connection. The response may be incomplete, incorrect, vague, or completely absent.

#### Sample 2-Point Response

Both the telephone and the gasoline-powered engine changed people's lives when they were first invented. The telephone helped people talk to family and friends who lived far away. The gas-powered engine helped people travel much more quickly. People still use both of these inventions today.

#### Sample 1-Point Response

People use telephones and cars every day.

#### Sample 0-Point Response

They are both inventions.

## 2-Point Research Rubric

### Question 2:

*How did the invention of the telephone change the way people lived? Use details from the sources in your answer.*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives sufficient evidence of how having telephones impacted the way people lived.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives limited evidence of how having telephones impacted the way people lived.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not include evidence of how having telephones impacted the way people lived. The response may be incomplete, incorrect, vague, or completely absent.

#### Sample 2-Point Response

Before the invention of the telephone, people had to send messages in the mail, which took a long time. The telephone allowed people to talk to others who lived far away.

#### Sample 1-Point Response

People could talk to people who lived far away.

#### Sample 0-Point Response

People didn't use telegraphs anymore.

## 2-Point Research Rubric

### Question 3:

*What are two ways the gasoline-powered engine changed people's lives? Use details from the sources in your answer.*

Interpret and Integrate Information	
<b>2</b>	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives sufficient evidence of how the gasoline-powered engine impacted the way people lived.
<b>1</b>	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response gives limited evidence of how the gasoline-powered engine impacted the way people lived.
<b>0</b>	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not include evidence of how gasoline-powered engines impacted the way people lived. The response may be incomplete, incorrect, vague, or completely absent.

#### Sample 2-Point Response

Before gasoline-powered engines, people usually traveled by train, boat, or horse-drawn wagon. The gasoline-powered engines in cars, trucks, and other vehicles allow us to travel more quickly. They have also made farming easier.

#### Sample 1-Point Response

Most people in the world get around by cars that run on gasoline engines.

#### Sample 0-Point Response

The first cars were slower than horses.

# The Telephone

For thousands of years, people communicated with friends and family who lived far away by sending written messages. People had to wait for weeks or even months for a letter to get from one part of the world to another.

## A New Way to Send Messages

That changed when the telegraph was invented in the 1830s. Messages could be sent over a wire by tapping a code for letters and numbers. The messages could be received almost instantly, but you could not hear a voice. Instead, the operator heard beeping sounds. The sounds were then translated into a written message. The telegraph was used widely until the invention of the telephone in 1876.

## Changing Communication Forever

The invention of the telephone changed communication forever. Like the telegraph, the telephone sent messages over a wire. But it did what the telegraph could not. It allowed you to hear a voice. It did not take long before people had telephones in their homes. They could talk to friends and family, even if they lived far away. Telephones also became an important tool for businesses. Buyers and sellers could communicate instantly. Telephone wires slowly connected cities across the United States. By 1915, a call could be made by a person in New York to a person in San Francisco. It was only a matter of time before people would be able to call someone who lived in another country.

In 1956, telephone cables were laid on the bottom of the Atlantic Ocean. The cables allowed people in the United States to talk on the telephone with people in Europe. As time went on, much of the world was connected by telephone cables and wires. But there were still parts of the world that were too far away for cables and wires to reach. In other places, there was not enough money for them.

The candlestick telephone was popular in the early 1900s.

## Connecting the Planet

Those problems were solved with the invention of wireless phones, also called cell phones. People started using cell phones in the 1980s. Within a few decades, people all over the world had them. Places that never had telephones before became connected.

There are places that don't have running water, but they have cell phones. In places where people used to walk for hours to check on a sick relative, they can now just call. Some parts of Africa have very few or no banks. Now people living there can do their banking with a cell phone. For example, a Masai tribesman in Kenya can sell his cattle and put the money in the bank using his phone.

At one time cell phones were considered a luxury. Now they are a necessary part of daily life. Nobody knows exactly how many people have cell phones. Estimates range from 4 to 6 billion people! The whole planet is more connected than at any time in history.

The first cell phones were huge!

## Student Directions for Part 1

### Part 1 (35 minutes)

#### Your Task

You will read an article describing another invention that changed people’s lives. Then you will answer three research questions about what you have learned. In Part 2, you will write an opinion essay about which invention—the telephone or the gasoline-powered engine—you think changed people’s lives more. You will be able to refer to the sources, your notes, and the answers to the research questions when you write your essay.

#### Steps to Follow

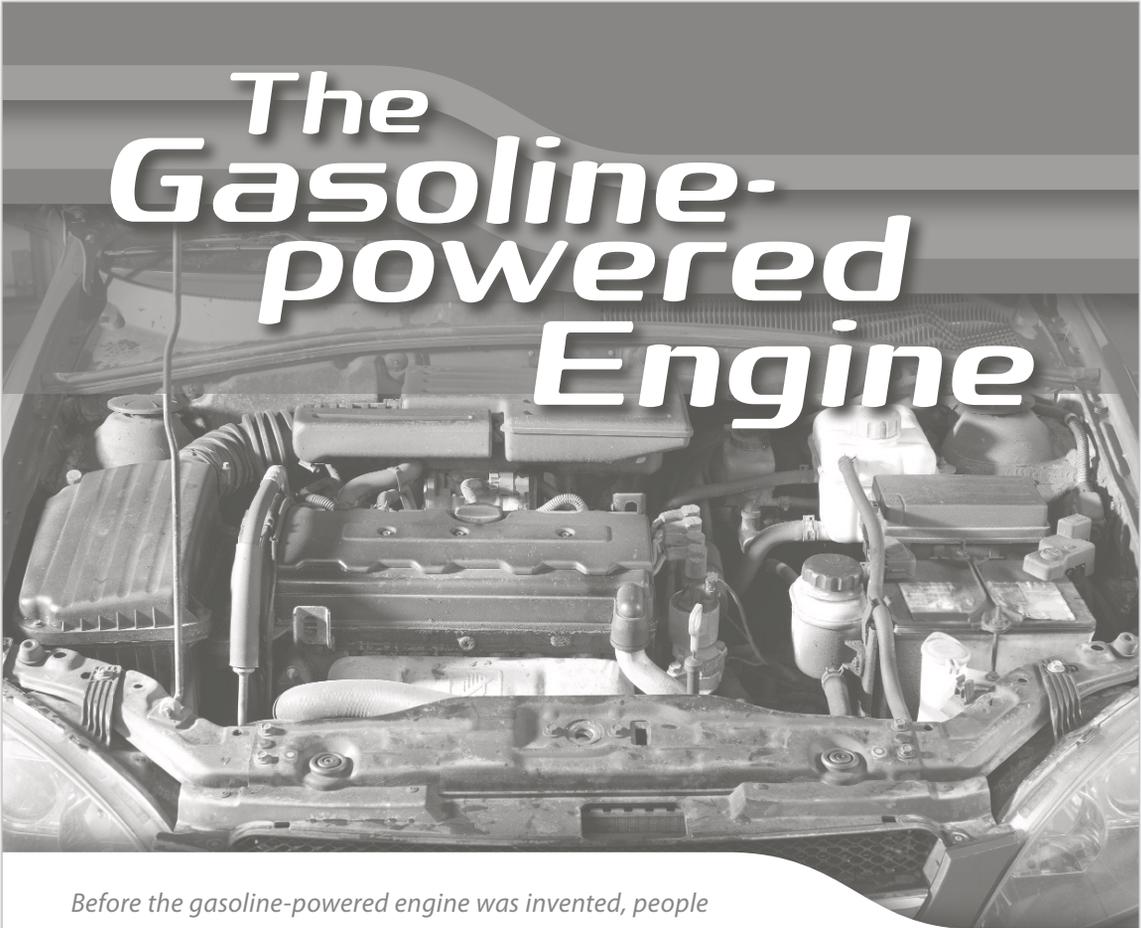

In order to plan and write your essay, you will do the following:

1. Read the source.
2. Take notes about the information in the source using a graphic organizer.
3. Answer three research questions to help you think about key information in the sources.

#### Directions for Beginning

You will have 35 minutes to read the sources, take notes, and answer the research questions. Your answers will be scored.

# The Gasoline-powered Engine

*Before the gasoline-powered engine was invented, people traveled by train, boat, or horse-drawn wagon. Merchants could only sell their goods in nearby towns. Farmers plowed and harvested their fields by hand or by using animals. Traveling and working in these ways could be very difficult and slow. The invention of the gasoline-powered engine in the mid-1880s allowed people to change how they traveled and worked.*

## Changing the Way People Traveled

It didn't take long for gasoline-powered engines to be used in cars and other vehicles. Cars quickly became a common way of getting around. Roads and highways were built for the cars to travel on. People could move from place to place more quickly and easily than ever before.

### Changing the Way People Worked

The gasoline-powered engine also made work faster and easier for many people. A manufacturer could send large amounts of goods from place to place by truck. Instead of plowing and harvesting by hand or with animals, farmers could now use tractors and other machines. Farmers could also use trucks to send their produce to market.

Later, the gasoline-powered engine led to the invention of other types of engines. The jet engine is one example. Today, jet engines are used in the airplanes that carry people and goods all over the world. You can go to a grocery store in the United States and buy bananas from South America and beef from Australia.

You can go just about anywhere on Earth and find cars and other vehicles that use gasoline-powered engines. They have become part of everyday life. It's safe to say that the gasoline-powered engine changed the world forever.

## Research Questions

**Directions:** Answer the three questions below. Write in the space provided after each question. You may refer to the sources and your notes to answer the questions.

1. What is similar about the telephone and the gasoline-powered engine? Use details from the sources in your answer.

2. How did the invention of the telephone change the way people lived? Use details from the sources in your answer.

## Student Directions for Part 2

### Part 2 (70 minutes)

#### Your Task

You will have 70 minutes to write your essay. You should review your notes and sources. Then plan, write, and revise your writing. You may also refer to the answers you wrote to the research questions in Part 1, but you cannot change those answers.

#### Your Writing Assignment

People's lives were changed by the invention of the telephone and the gasoline-powered engine. Write an opinion essay telling whether you think the invention of the telephone or the gasoline-powered engine changed people's lives more. Support your opinion with information from the sources you have read.

#### Begin Work on Your Essay

Manage your time carefully so that you can:

- Plan your essay (15 minutes)
- Write your essay (40 minutes)
- Revise and edit for a final draft (15 minutes)

You may use a dictionary to check spelling.

#### Things to Remember

Remember that a well-written opinion essay:

- States an opinion
- Gives reasons that support the opinion
- Explains information clearly
- Provides a conclusion
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

# Class Assessment Records

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>Are partners able to agree about what information to include in their notes?</li> </ul>			
<ul style="list-style-type: none"> <li>Are they recording their notes in the appropriate places on their graphic organizers?</li> </ul>			
<ul style="list-style-type: none"> <li>Are they writing notes in their own words?</li> </ul>			
Other observations:			

**Considerations:**

If you notice many students having difficulty writing notes, call for the class’s attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate place on the chart. As necessary, encourage the students to reread the article to collect the information they need.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>▪ Do the students' responses indicate that they understand what each question is asking?</li> </ul>			
<ul style="list-style-type: none"> <li>▪ Are they able to incorporate information from their notes and the sources in their responses?</li> </ul>			
Other observations:			

**Considerations:**

If you notice the students struggling to write responses, support them by asking questions such as:

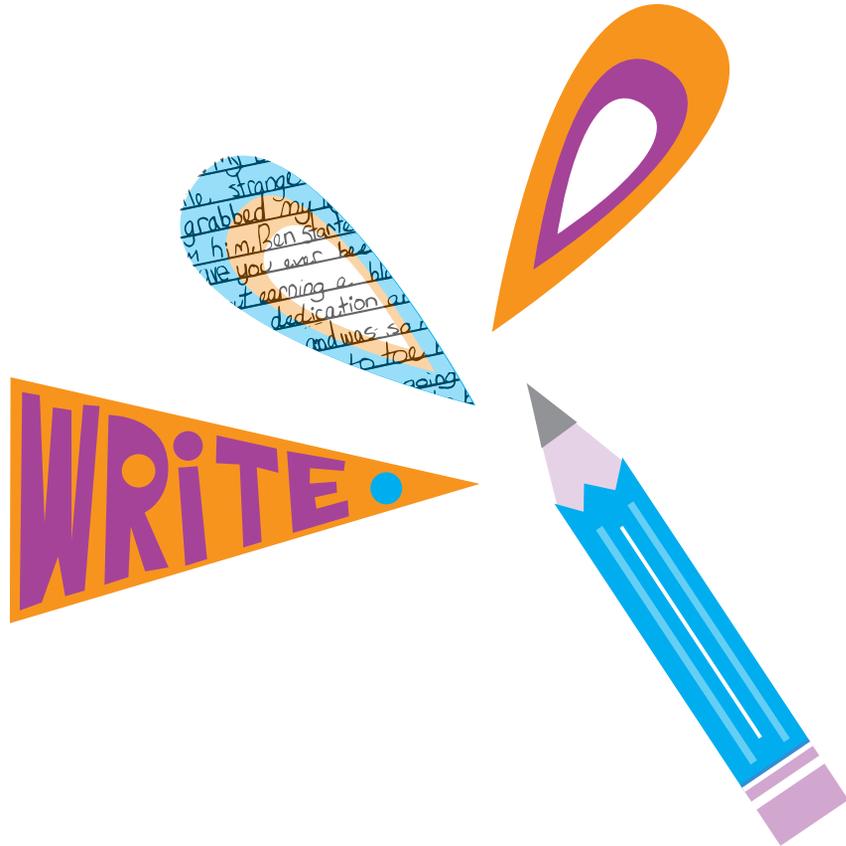

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the source can you find that information?*
- Q *How might you include information from your notes and the sources in your answer?*

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
▪ Does the students' writing indicate that they understand the task?			
▪ Are they able to clearly state their opinion in the opening paragraph of the essay?			
▪ Does their writing stay on topic?			
▪ Are they able to incorporate information from their notes and the sources into their essays?			
Other observations:			

**Considerations:**

If you notice a student having difficulty starting to write after 5-10 minutes, help stimulate his or her thinking by asking questions such as:

- Q *What is the topic of your essay? What might you write in your opening paragraph to clearly state your opinion about the topic?*
- Q *How might you use your notes to help you decide what to write in your essay?*
- Q *What information from your notes or the sources can you use to support your opinion?*

Poem

## I'm Sorry!

by Jack Prelutsky

I'm sorry I squashed a banana in bed,  
I'm sorry I bandaged a whole loaf of bread,  
I'm sorry I pasted the prunes to your pants,  
I'm sorry I brought home the ants.

I'm sorry for letting the dog eat the broom,  
I'm sorry for freeing a frog in your room,  
I'm sorry I wrote on the wall with sardines,  
I'm sorry I sat on the beans.

I'm sorry for putting the peas in my hair,  
I'm sorry for leaving the eggs on your chair,  
I'm sorry for tying a can to the cat,  
I'm sorry for being a brat!

# I'm Much Too Tired to Play Tonight

by Jack Prelutsky

I'm much too tired to play tonight,  
I'm much too tired to talk,  
I'm much too tired to pet the dog  
or take him for a walk,  
I'm much too tired to bounce a ball,  
I'm much too tired to sing,  
I'm much too tired to try to think  
about a single thing.

I'm much too tired to laugh tonight,  
I'm much too tired to smile,  
I'm much too tired to watch TV  
or read a little while,  
I'm much too tired to drink my milk  
or even nod my head,  
but I'm not nearly tired enough  
to have to go to bed.

# The Fly Is In

by Shel Silverstein

The fly is in  
The milk is in  
The bottle is in  
The fridge is in  
The kitchen is in  
The house is in  
The town.

The flea is on  
The dog is on  
The quilt is on  
The bed is on  
The carpet is on  
The floor is on  
The ground.

The worm is under  
The ground is under  
The grass is under  
The blanket is under  
The diaper is under  
The baby is under  
The tree.

The bee is bothering  
The puppy is bothering  
The dog is bothering  
The cat is bothering  
The baby is bothering  
Mama is bothering  
Me.

### from “The Missing Moon” in *The Moon and I* by Betsy Byars

I heard a noise.

I got up and glanced over the porch railing. There was the snake on the ground, cornered in an angle of the chimney. A neighbor’s calico cat—Ginger—held it in place.

My heart actually leapt, like in poetry.

Thank you, Ginger.

Ginger and the snake were involved in a tense, eyeball-to-eyeball face-off.

The sounds I had heard were coming from the cat. These were low, throaty growls that couldn’t have had much effect because snakes don’t have ears.

The snake remained coiled, silent, alert, and ready. The tip of its tail began to quiver.

Perhaps, I thought, the snake was gearing up for one of those brave, absurd fights my husband had spoken of. I was torn between wanting to see the snake in action and not wanting to see it bite its own body.

Like a mother whose child is threatened, I slapped my hands against the side of the railing.

“Go home, Ginger!”

The cat looked up, startled. Then she dashed into the woods, taking the shortcut for home.

My snake remained for a moment, testing the climate with flicks of its dark, forked tongue. Then, apparently satisfied that the danger had passed, the snake began uncoiling.

## Excerpt from “The Missing Moon” *(continued)*

The black color was startling against the green ivy, and I could see that the snake was longer than I had thought—about six feet.

The snake began to move in a series of graceful S-curves, its head a few inches off the ground.

It circled the chimney. The movement was as slick as mercury.

## Essay

### Little Things

by Sara Roberts

excerpted from *Teen Ink: What Matters*

*Always and in everything let there be reverence.*

— Confucius

My grandmother, whom I call Gramcracker, has taught me so many amazing things. My favorite was how, when she was a little girl, the smallest things meant so much to her. I envy that about her. In our generation, not many people think that way. Everything is “I have” or “I want.” No one really appreciates the little things in life.

I often sit with Gramcracker and talk about everyday things. One time outside, I was talking with her, and a beautiful, brilliantly colored monarch butterfly flew past us. I really didn’t think about it, but Gramcracker certainly did. She said, “That monarch reminds me of when I was little.” So, of course, like every curious child, I asked her to tell me the story.

Gramcracker told me that when she was little and lived on a farm, there was a manure pile that for some reason attracted dozens of monarch butterflies. My grandma always wanted pretty, colorful curtains for her room, and so she had decided that she would pin dried butterflies on her curtains to make them beautiful. One day, she took a net and a jar and scooped a bunch into the jar, sealing it tight. My gramcracker hid them so her parents wouldn’t find out. A few days later her parents called her downstairs saying, “Look what we found in our closet!” Gramcracker couldn’t believe it. They had found her butterflies, but the once-beautiful butterflies were not beautiful anymore. Their wings were torn from trying to escape from the jar. They wouldn’t make pretty curtains anymore. She felt horrible for killing them. She had

wanted beautiful curtains so much that she had killed those butterflies just to get them. Yet she still felt sad because she wouldn't have her pretty curtains. From that day on, she learned to enjoy nature, not capture it.

I never forgot that story. Last Christmas I wanted to find something special for Gramcracker, so I made a wooden frame for a small window. Then I put cloth over the windows and tied them back like curtains. For the final touch, I put fake butterflies on the curtains, just as she had wanted all those years ago.

She couldn't believe that I had gone through so much trouble just to give her the curtains she always wanted. When I gave my gramcracker her present, she loved it so much that she started to cry.

I will never forget her story about the butterflies. I also will never forget how she showed me how to respect nature's beauty. I love my gramcracker so much for teaching me respect. I hope one day I can teach my grandchildren as many things as my gramcracker has taught me.

# Opening Sentences from Three Personal Narratives

Every Sunday morning, Mama cooked a special breakfast. Beefsteak or pork chops, something like that. She and Papa had coffee or tea, and we had Postum. And rolls. Mama could make the best old rolls, they were some kind of good!

— from “Hot Rolls” (*Childtimes*)

Mama used to say, “You always have to learn things the hard way, don’t you, Lessie?”

— from “Learning the Hard Way” (*Childtimes*)

I glanced up and saw it.  
Snake, I said to myself. That looks like a snake.  
I got up out of my porch rocking chair and went closer.  
That *is* a snake.

# Closing Sentences from Three Personal Narratives

I'd keep on until Papa said, "Little duckie"—that's what he called us—"Little duckie," he'd say, "if you eat any more, you won't be able to get out of your chair." And that would be the end of that.

— from "Hot Rolls" (*Childtimes*)

Now I understand that life always returns whatever you give. Your life is not a coincidence, but a mirror of your actions.

— from "The Mirror"

I will never forget her story about the butterflies. I also will never forget how she showed me how to respect nature's beauty. I love my gramcracker so much for teaching me respect. I hope one day I can teach my grandchildren as many things as my gramcracker has taught me.

### from *Miss Rumphius*

by Barbara Cooney

The next spring Miss Rumphius was not very well. Her back was bothering her again, and she had to stay in bed most of the time.

The flowers she had planted the summer before had come up and bloomed in spite of the stony ground. She could see them from her bedroom window, blue and purple and rose-colored.

“Lupines,” said Miss Rumphius with satisfaction. “I have always loved lupines the best. I wish I could plant more seeds this summer so that I could have still more flowers next year.”

But she was not able to.

After a hard winter spring came. Miss Rumphius was feeling much better. Now she could take walks again. One afternoon she started to go up and over the hill, where she had not been in a long time.

“I don’t believe my eyes!” she cried when she got to the top. For there on the other side of the hill was a large patch of blue and purple and rose-colored lupines!

“It was the wind,” she said as she knelt in delight. “It was the wind that brought the seeds from my garden here! And the birds must have helped!”

Then Miss Rumphius had a wonderful idea!

### from *Roxaboxen*

by Alice McLerran

A town of Roxaboxen began to grow, traced in lines of stone: Main Street first, edged with the whitest ones, and then the houses. . . . At first the houses were very plain, but soon they all began to add more rooms. The old wooden boxes could be shelves or tables or anything you wanted. You could find pieces of pottery for dishes. Round pieces were best.

---

After a while they added other streets. Frances moved to one of them and built herself a new house outlined in desert glass, bits of amber, amethyst, and sea-green: a house of jewels.

---

Sometimes in the winter, when everybody was at school and the weather was bad, no one went to Roxaboxen at all, not for weeks and weeks. . . . And spring came, and the ocotillo blossomed, and everybody sucked the honey from its flowers, and everybody built new rooms, and everybody decided to have jeweled windows.

### from *Morning on the Lake* (1)

by Jan Bourdeau Waboose

Grandfather stretches out his steady, strong arm. I hold onto it and climb into the canoe. It feels wobbly, so I sit very still. We begin to drift away from shore. Because I am in the front looking out, I cannot see my grandfather's face. But I know that he is smiling. I hear the dip of his paddle on the water and imagine many tiny bubbles trailing behind us on the glassy surface. I watch my reflection on the water as we glide.

It is still in the early morning. There is no wind and it feels cool and damp. Everything is silent, except for the sound of the paddle.

---

The morning is no longer serene and still. Birds chirp their morning songs across the lake. I sense the animals stirring on the shore. The mist is gone. The sun, full and warm, shines bright above the trees. The wind ripples the water. The leaves sway gently in the scented breeze.

## Closing Sentences from Three Stories

When you go owling  
you don't need words  
or warm  
or anything but hope.  
That's what Pa says.  
The kind of hope  
that flies  
on silent wings  
under a shining  
Owl Moon.

— from *Owl Moon*

“Look,” I say. “Look, I can write my name.”

I write my name over and over as they watch, and I think of my name now lasting longer than the sound of it, maybe even lasting, like the old buildings in the city, a thousand years.

— from *The Day of Ahmed's Secret*

More than fifty years later, Frances went back and Roxaboxen was still there. She could see the white stones bordering Main Street, and there where she had built her house the desert glass still glowed—amethyst, amber, and sea-green.

### from *Morning on the Lake* (2)

by Jan Bourdeau Waboose

“Morning is calling. It is time.”

I hear my grandfather’s slow, quiet voice in the distance. There is no need for him to say it again. I jump out of bed, rub the sleep from my eyes and pull on my T-shirt and pants. As I run to the lake where he stands, waiting, I see his large silhouette against the pink morning sky. He is staring out at the cool, calm water. Morning mist looks like a gray blanket covering the lake. The sun is a big orange ball hiding behind the trees. I imagine it being pulled up by spiders’ strings.

## Point of View in Two Stories

Today I have a secret, and all day long my secret will be like a friend to me.

Tonight I will tell it to my family, but now I have work to do in my city.

My donkey pulls the cart I ride on. I have many stops to make today. The streets are crowded. Everyone is going somewhere. Like me, everyone has something important to do.

— from *The Day of Ahmed's Secret*

The gargoyles squat  
high on corners  
staring into space,  
their empty eyes unblinking  
till night comes.

Then there is movement  
in the shadowy corners  
as the gargoyles creep  
on stubs of feet  
along the high ledges  
and peer,  
nearsighted,  
into rooms where mummies lie  
in boxes, long and thin  
as coffins, ribboned round  
with painted boats and figures  
dark as night.

## Speech Punctuation in Two Stories

In the evening Alice sat on her grandfather’s knee and listened to his stories of faraway places. When he had finished, Alice would say, “When I grow up, I too will go to faraway places, and when I grow old, I too will live beside the sea.”

“That is all very well, little Alice,” said her grandfather, “but there is a third thing you must do.”

“What is that?” asked Alice.

“You must do something to make the world more beautiful,” said her grandfather.

“All right,” said Alice. But she did not know what that could be.

— from *Miss Rumphius*

Instead of telling them about my day, I say, “Look, I have something to show you.”

It is time to tell my secret. I take a deep breath.

“Look,” I say. “Look, I can write my name.”

As you have learned, Haiti has not had it easy. The 2010 earthquake was devastating, and most Haitians are very poor. But as you have also learned, Haiti is a country filled with rhythmic music and joyful dance, a country where parents treasure their children above all else.

With all its amazing artifacts and monuments—the Rosetta Stone, the Pyramids, and the Great Sphinx, to name just a few—it’s easy to understand why tourism is one of the top ways Egypt makes money. From the days of the pharaohs to our own times, Egypt has remained one of the world’s most interesting cultures. I hope you have enjoyed this exploration of a great civilization.

# Expressions and Emotions

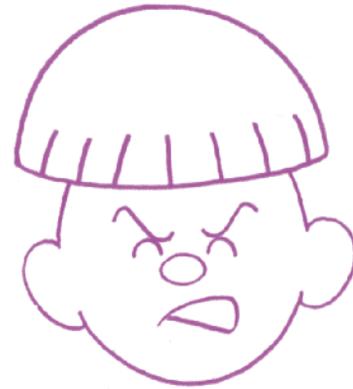

from *1-2-3 Draw Cartoon People* by Steve Barr

## Expressions and Emotions

In these drawings, can you see how eyes and mouths show feelings? Experiment with different shapes and lines when you draw mouths and eyes. Have fun! Discover for yourself what looks cool! For now, though, let's try a few basic facial expressions...

# Expressions

from *Drawing Cartoons* by Anna Milbourne

## Expressions

An essential part of drawing cartoons is being able to draw expressions. You can draw lots of different expressions very simply. Then, you can use these to create complete cartoon characters.

Take an online lesson in how to draw some simple faces. Or, play a game online, adding parts to a potato to create funny faces. For a link to these Web sites, go to [www.usborne-quicklinks.com](http://www.usborne-quicklinks.com)

### A basic face

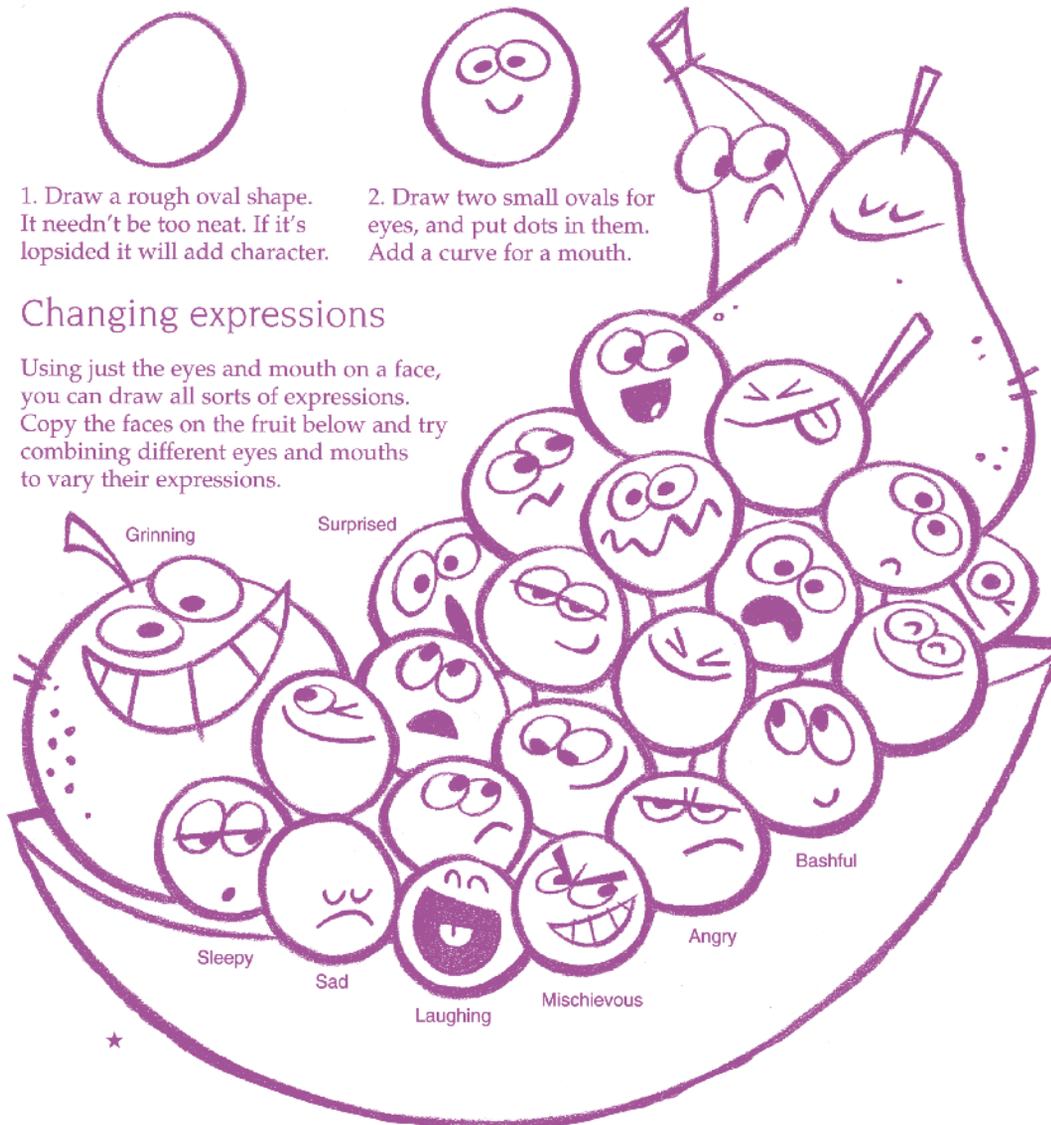

1. Draw a rough oval shape. It needn't be too neat. If it's lopsided it will add character.

2. Draw two small ovals for eyes, and put dots in them. Add a curve for a mouth.

### Changing expressions

Using just the eyes and mouth on a face, you can draw all sorts of expressions. Copy the faces on the fruit below and try combining different eyes and mouths to vary their expressions.

## Making a character

from *Drawing Cartoons* by Anna Milbourne

### Making a character

A basic circle face, with just a mouth and eyes, already has lots of personality. Without adding much more, you can make simple cartoon characters. For example, just add legs to make a spider, or add wings and legs to make a flying insect.

In a cartoon garden, even the flowers can have faces.

CARDS FOR KIDS

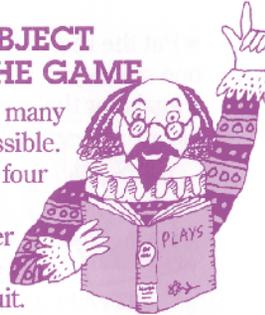

## AUTHORS

4–6 PLAYERS

This game used to be played with cards that showed authors and the titles of their books. The same game goes by the name *Happy Families*.

### OBJECT OF THE GAME

To collect as many books as possible. A book is all four cards of the same number or letter, one from each suit.

### SET UP

**ALL PLAYERS:** Pick a card from the deck. The player with the highest card deals.

### START

**DEALER:** Shuffle the cards. Deal out all the cards, one at a time and face down. It's all right if some players have

more cards than others.

**ALL PLAYERS:** Look at your cards. Arrange them so that cards with the same number are side by side in your hand.

### PLAY

**PLAYER ON DEALER'S LEFT:** You go first. Decide what cards you need to make a book. Ask one of the other players for one of those cards. You must ask for the exact card—for instance, the 9♠.

**ALL PLAYERS:** If you are asked for a card and you have it, you must hand it over. But if you only have a similar card—for instance, the 9♣—say, “No.”

**Warning:** If you say you don't have a card when you do, you'll pay a penalty when the other players find out—you'll have to give one of your cards to each of the other players.

- Play goes around to the left, with each player asking for cards and collecting books.
- When you have a book of four matching cards, show it to the other players, then put it face down in front of you.
- If you run out of cards by

making a book, you must sit out the rest of the game. You will still count up the number of books you collected for scoring at the end of the game.

- When all the books have been collected and everyone is out of cards the game is over. The player with the most books is the winner.

### PLAYER ON DEALER'S LEFT:

When everyone has finished counting their books, gather

### STRATEGY

Pay attention! Listen to what other players are asking for, even if they aren't asking you. If you hear a player ask for the 7♠, for instance, you'll know she's trying to make a book of Sevens. If you are also collecting Sevens, you'll ask that player for her Sevens when your turn comes around.

up the cards. You will deal the next game.

### 1, 2, 3 Dragon

#### State the name of your game and why you chose it.

The name of the game is 1, 2, 3 Dragon. We chose it because it can include everyone, because it's tiring, because of its simplicity, and because it looked fun and challenging.

#### List the countries where it is played and its origin.

Variations of the game are played all over the world, but with different rules, scoring, and names.

1, 2, 3 Dragon originated in China and is played by small children, usually to celebrate the New Year. During the Chinese New Year they have dancing dragons, games and food. Dragons are important because they mean good luck.

#### Describe how your game is played. State the object of the game. Clearly describe the rules.

- 10 or more people form a line with each player holding the shoulders of the person in front of them.
- The person in the front is the “Head.”
- The person at the back of the line is the “Tail.”

#### To Begin:

- The tail shouts “1, 2, 3 dragon.”
- The head leads the line and tries to catch the tail.
- The line must stay together the whole time.

## 1, 2, 3 Dragon *(continued)*

### End of a Round:

- If the dragon breaks, the dragon dies. The head moves to the end of the line and becomes the tail.
- If the head catches the tail, play stops and the head goes to the end of the line.
- The second person in line now becomes the head.

### Object:

The object is to tag the tail as many times as you can while you are the head. A point is scored for each successful tag. Some people prefer to play without points.

### List the equipment needed.

- 10 or more players.
- Playing area.
- Ages: 8 or older.

### Catching Stars

by students at Germantown Academy, PA

#### State the name of your game and why you chose it.

We chose this game because we like the game “Mr. Fox” and this is very similar.

#### List the countries where it is played and its origin.

This game was developed by the pygmy tribes in Africa.

#### Describe how your game is played. State the object of the game. Clearly describe the rules.

- It takes seven or more players to play this game.
- Divide the players into two groups: Stars and Catchers
- Set up two boundaries about twenty feet apart.
- Catchers: stand in the middle of the two boundaries.
- Stars: stand on one side of the boundaries.
- Catchers: say “star light, star bright, how many stars are out tonight.”
- Stars: say “more than you can catch!”
- The stars run across to the other end and try not to get tagged. The winner is the last person to get caught.

#### List the equipment needed.

- None. This is a simple running game.

## Bugs Are Creepy

I think that bugs are creepy, gross, and annoying. I don't like them. In fact, I hate them.

When I say "bugs," I mean all insects and spiders. I think they are all creepy. For example, they are often furry with long skinny legs. Many have wiggly antennae, and some have wings and can fly. They look weird, like miniature aliens. Who knows, they might be aliens! I have no idea why they exist.

Another terrible thing about bugs is that bugs bite! Mosquitoes, spiders, ants, earwigs, and many other kinds of bugs bite. Some bugs like ticks or mosquitoes bite you to suck your blood. Yuck! Others bite you just to hurt you, whether you are going to kill them or not. One time, a tiny black ant bit me, and it really hurt. Some bug bites can even kill you, like a scorpion's bite and the bites of certain spiders like black widows. Also, you might die or get sick if you get stung by a bee and are allergic to bee stings.

Since bugs are everywhere, you can't get away from them. They are in the city, and they are in nature. For instance, you can find them on the sidewalk and in the dirt. They are in the garden under every rock and on the prettiest flowers. They are in your house. They are in your kitchen and on your food! Do you really feel like eating food after a fly has landed on it and taken a bite? Gross! Bugs even come out at night to fly around lights. I just can't get away from them!

As you can see, I think that bugs are strange, disgusting, and really annoying. I don't want to see them, touch them, or be bitten by them. I'm sure I'm not the only person who feels this way about bugs. . . . I bet you do, too!

## Insects Are Amazing

I don't like when people call insects "bugs." That means that they bug them. Insects don't bug me. I actually think they are amazing. They are cool to watch, fun to play with, and interesting to learn about.

Insects are very important because they help plants and animals. For example, ladybugs eat aphids. Aphids eat the flowers in your garden. If you want a healthy garden, leave those ladybugs alone. Also, when an animal or a plant dies, insects eat it to help break it down. If you don't want a lot of smelly dead animals around, let those insects do their work. Also, many animals eat insects. I bet you think birds are beautiful. If there were no bugs, many birds would die because they need insects to eat.

Insects are also cool to watch and learn about. They do all sorts of cool things. For instance, ants can carry ten times their weight! In addition, ants and many other kinds of insects like bees can communicate without talking. They can tell each other where food is or where danger is by the way they move or by leaving scents. Have you ever watched all the moths that fly to a light at night? Why do they do that? How come they don't run into each other? These are the kinds of questions that entomologists (people who study insects) ask and get to figure out. That to me sounds like a pretty cool job.

Lastly, I don't see why insects are such a big deal since they don't usually bother people. Most insects live under rocks or in places that people don't always go. Most just want to be left alone. It seems to me that we should just leave them alone and let them

*(continues)*

## Insects Are Amazing *(continued)*

do their work. When we do see them, we should just study them and learn more about them.

I hope you will think twice before you kill the next insect you see. That insect might be food for an animal, or it might be helping in some way you don't know about. Maybe, if you think twice, you will even agree with me that insects are amazing.

## Helping Other Countries

Recently my class debated whether or not we should collect money to send to poor countries. I definitely think we should send money to other countries that need it. If we did, people in those countries could have things like clean water and they would see America as kind and caring. What seems like a little money to us is sometimes a lot of money to people in a poor country.

Here in America, we have so many things that the people in poor countries only dream about. We have toys for kids, schools, cars, clean water, nice clothes, and food. In many poor countries, kids and adults are dying because they are drinking polluted water or because they can't get the medicine they need. Sometimes there aren't any schools for the kids. Here in America, so many kids have fancy sneakers or video games that they don't need. What is more important: for you to be able to have the newest, hottest sneakers or for a family to be able to eat?

Also, if America would give some money to poorer countries, I think other countries would see that we are friendly and that we care. Maybe the world would be more peaceful if big countries like America shared some of their money with countries that need more.

Finally, a little amount of money to us is a lot to a person in a poor country. For example, if you bought a \$40 pair of sneakers instead of a \$60 pair, you could send \$20 to a family so they could buy a goat. That goat would provide them with milk to drink with their meals. They would get vitamins that they need to help them be healthy. Also, the goat could have babies, and the family could eat some or sell them to buy other things.

*(continues)*

## Helping Other Countries *(continued)*

If every person in America gave a little money, it would add up to a lot. It would make a big difference to people in other countries who don't have as much as we do. That's why I think that we should give money to help people in parts of the world that need help.

## It Is Our Money and We Need It

Has there ever been a collection drive at your school urging you to give money to another country far away from the United States? Sometimes the money that is collected goes to build schools in other countries. The money also buys pencils and pays the salary of a teacher in a foreign country. I think that people in our country should not give money to help other countries for a few reasons.

We should not give our money away because our own schools need it. Many schools in this country don't have enough supplies. For example, our class usually doesn't have a supply of pencils to use. We have to bring pencils from home most of the time. I don't see why we should be expected to buy pencils for children in other countries when American children don't even have a steady supply of pencils. We should worry about ourselves before we worry about other countries.

Another reason we should keep our money is that the economy is bad in many parts of the United States. Thousands of people are losing their jobs and houses. The last thing we, as a country, need to be doing with our money is giving it away to pay a teacher's salary in a foreign country. I don't see how giving away our money for something that will not benefit our country is going to help our economy.

We have enough problems here, and we need to think about helping our own people first. For those reasons, I don't think the United States should give money to help other countries.

## Bike Helmets

What do you think when you see a kid riding a bike without a helmet? Well, I think riding without a helmet is dangerous and people should wear a helmet every time they ride a bike.

First of all, it is the law. In most towns and cities, kids and teens have to wear a bike helmet every time they ride a bike. If they do not, they will be stopped by the police and their parents will be called. So if you don't want to be stopped by the police, wear your helmet.

When you are riding your bike on the street, you could get hit by a car. Cars go very fast, and when drivers pull out of parking spots and driveways, they might not see you riding your bike. If a car hits you, your head could hit the ground. If you are wearing a helmet, your head will be protected and the helmet will save your life.

Because bike helmets can prevent serious head injuries, parents and older kids should set a good example by wearing bicycle helmets when they ride. I know teens might not like the idea, but if everyone or almost everyone wears a helmet, kids won't think it is strange.

A bicycle helmet protects your head and could save your life if you fall off your bike. Also, it's the law for kids to wear helmets, and you don't want to break the law! So please wear your helmet every time you ride.

## Persuasive Essay Excerpts with Run-on Sentences

Volunteer work is very important in any community everyone should try doing some volunteer work, I think. There are many different kinds of volunteer work here are some examples. People can clean up local parks. They can help out at the public library they can tutor students in after-school programs. They can volunteer at a hospital.

---

Volunteer work is a great way to meet new people it connects you to your community. When you volunteer, you meet other people from your city or neighborhood. You have fun together you get to know each other. Volunteer work is also great because it makes you feel proud and happy. You get a feeling of accomplishment because you are doing good things you may even learn some new skills.

## Essay

### Persuasive Essay Without Indentation

How much TV do you watch? Almost everybody watches some TV. Most people have a favorite show they enjoy viewing. That is fine, but I think that watching a lot of TV is not healthy or a good idea. People who watch too much TV sit around and don't get enough exercise. Our bodies need regular exercise to stay healthy. That's because exercise builds muscles. It helps people stay flexible. It also burns calories. Another big problem with TV is that it can be bad for people's brains. Watching too much TV makes people unable to concentrate or pay attention. TV is especially bad for young children's brains. It can change the way the brain works. In addition, watching TV takes time away from other important parts of life. If people watch a lot of TV, they are probably not talking to their friends or family. They are probably not going outside and enjoying nature. It's true that TV can be fun to watch. It is a nice way to relax sometimes. But I think you will agree with me that watching a lot of TV is bad for your body, bad for your brain, and bad for your life!

### Feeling III

by Michael Rosen

Lying in the middle of the bed  
waiting for the clock to change  
flicking my toes on the sheets  
watching an airplane cross the window  
staring at the glare of the light  
smelling the orange on the table  
counting the flowers on the curtain  
holding my head with my hand  
hearing the steps on the stairs  
lying in the middle of the bed  
waiting for the clock to change.

### Lullaby

by Kristine O'Connell George

Tree sighs softly  
as the birds patter about  
her heavy old branches,  
settling down,  
tucking their heads  
beneath their wings.

She waits until dusk  
has shadowed her leaves,  
and when she's sure  
she's heard that last  
soft cheep,

she rocks her birds to sleep.

### lawnmower

by Valerie Worth

The lawnmower  
Grinds its teeth  
Over the grass,  
Spitting out a thick  
Green spray;

Its head is too full  
Of iron and oil  
To know  
What it throws  
Away:

The lawn's whole  
Crop of chopped  
Soft,  
Delicious  
Green hay.

### Windy Nights

by Rodney Bennett

Rumbling in the chimneys,  
    Rattling at the doors,  
Round the roofs and round the roads  
    The rude wind roars;  
Raging through the darkness,  
    Raving through the trees,  
Racing off again across  
    The great grey seas.

The cow  
Coming  
Across the grass  
Moves  
Like a mountain  
Toward us;  
Her hipbones

Her hoofs  
Thump  
Like dropped  
Rocks:  
Almost  
Too late  
She stops.

## Poet Quotes: What Is Poetry?

“Poetry is things that are true expressed in words that are beautiful.”

— Dante

“It takes probably hundreds of things coming together at the right moment to make a poem.”

— Elizabeth Bishop

“Poetry is painting that is felt rather than seen.”

— Leonardo da Vinci

“Poetry is the rhythmical creation of beauty in words.”

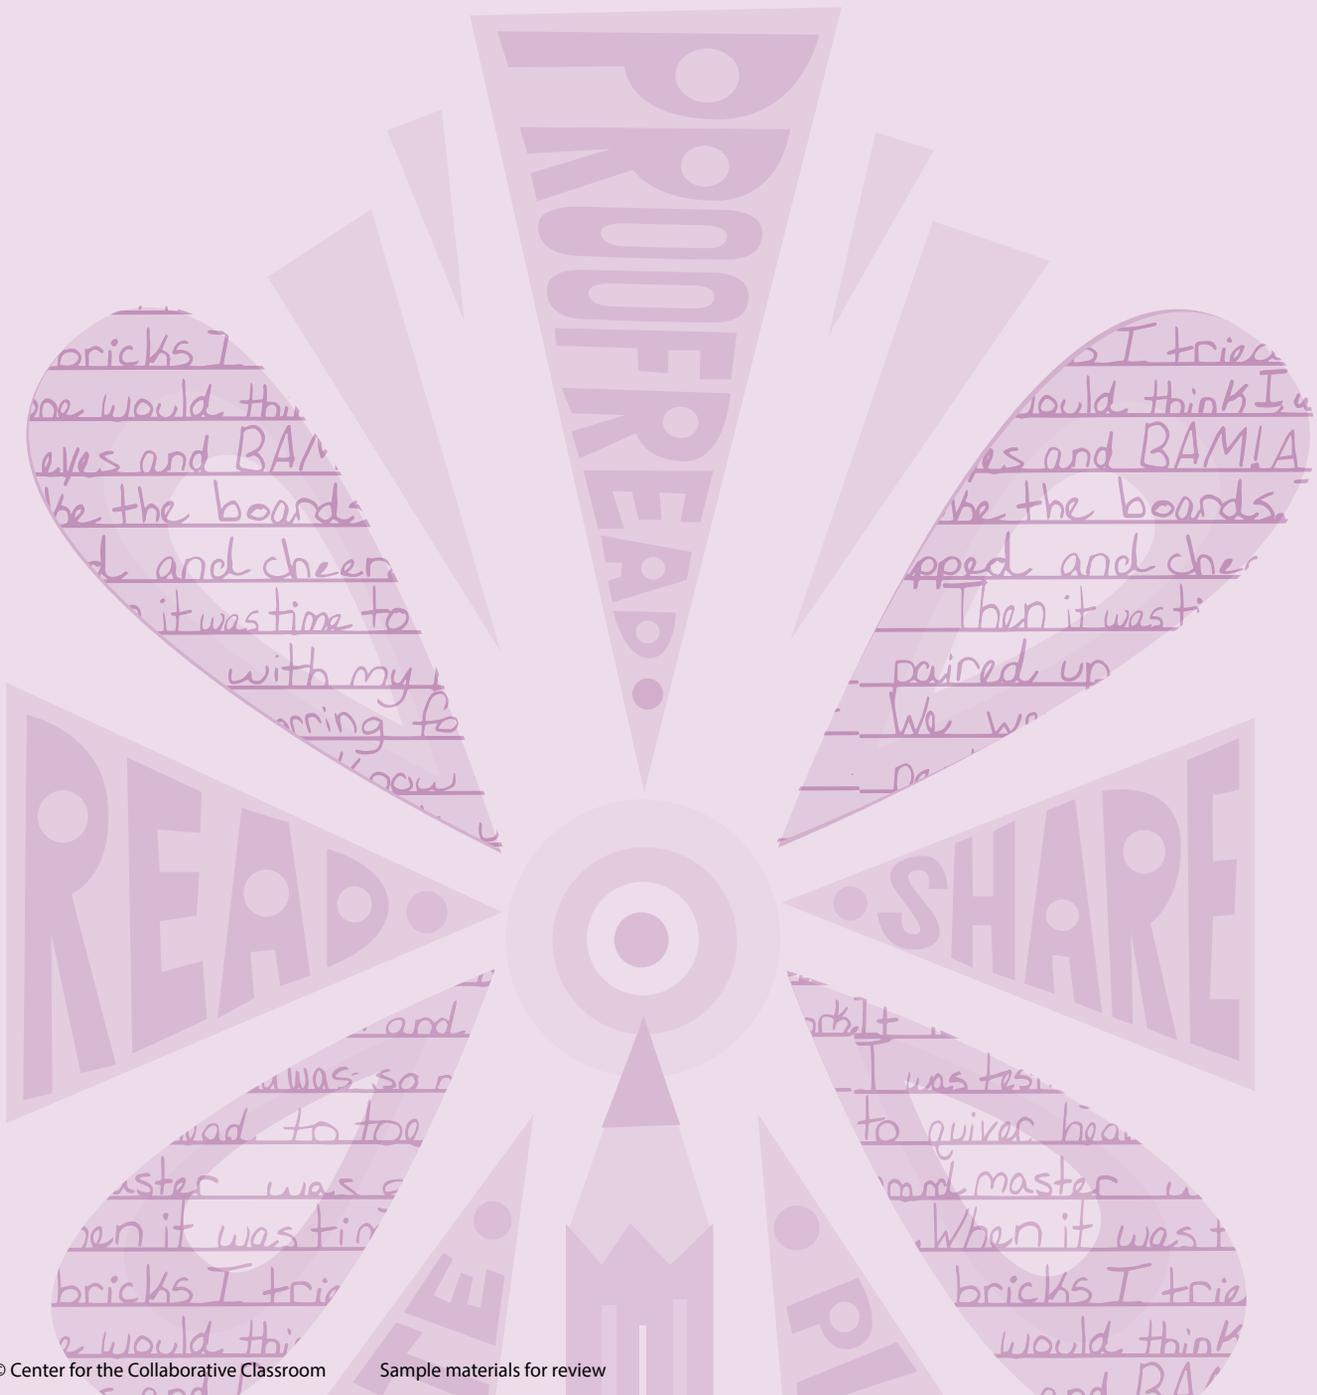

— Edgar Allan Poe

“I know it’s a poem if it blows the top of my head off.”

Dear Ms. Jenner

I just finished reading your book about the pioneer family in Austin Texas, in the 1850s. I really enjoyed the story, especially the part where Asa helps his mother fight off wolves. That was really exciting.

I love to write stories and want to be an author when I grow up. What advice would you give a fourth-grader who has this dream?

Sincerely

Clifton Jackson

My mom likes to tell scary stories. One night she found me wide awake past bedtime. "Move over," she said, and sat down next to me.

"It was a dark and stormy night," Mom said. "A boy named Tyler couldn't sleep."

"Why not?" I asked.

"The wind was making a strange sound outside his window," Mom said. "It sounded as though it was saying, 'Ty-ler, Ty-ler.'"

"I don't like this story," I said.

Mom continued, "The wind said, 'Ty-ler! Ty-ler! I'm going to come and get you if you don't go to sleep!'"

Suddenly Mom grabbed me and yelled, "Got you!"

I jumped halfway to the ceiling. "That's not funny," I said. "But I can take a hint." Soon I snuggled down under the covers and went to sleep.

- B. Write a dialogue between two people who are telling a scary story. Use double quotation marks, single quotation marks, and commas correctly.**

# Amelia

- A. Read the story. Add any missing single or double quotation marks and commas.**

My friend Luka has a baby sister named Amelia. She makes noises, but she doesn't talk yet. Luka is pretty good at figuring out what she's saying.

"When she yells, it means she's tired, but it can mean other stuff too, Luka explained to me. One time it meant, 'Hey, Luka, let's build a spaceship. So we built this awesome spaceship in the den.

Just then Amelia started howling. I said, "This one's easy. She's saying, Feed me.

"No Luka said, "she's not. She's saying I'm bored. Tell Mom we want to go to the movies.

- B. Write a dialogue between two people in which they quote someone else.**

# Communicating with Cats and Dogs

- A. Proofread the dialogue. Add any missing single or double quotation marks and commas.**

My neighbor Mr. Kite and I were walking his dog Waldo when Waldo came to a stop.

Oh no! He always does this,” Mr. Kite groaned.

I bent down and said “What’s up, Waldo?”

Waldo woofed softly and looked up at me.

“Maybe he’s saying My legs are sore,” I told Mr. Kite.

Mr. Kite shook his head. “I know what the problem is” he said. “Waldo is saying, I prefer to be carried at this point.

“Smart dog” I said, as I picked up Waldo and tucked him under my arm. “At your service!”

- B. Write a dialogue between two people trying to figure out what an animal is saying.**

# Crafts from Many Countries

- A. Read the passage. Draw a circle around the proper nouns and a box around the proper adjectives.**

The community center on Center Drive held its third international fair last weekend. The fair included crafts from many countries, such as Honduras, Senegal, and Cambodia. On display were Haitian baskets and Kenyan wood carvings. The most popular items were beautiful pieces of Mexican silver jewelry.

- B. Find the proper nouns and proper adjectives. Capitalize them by crossing out lowercase letters and writing the capital letters above them.**

dr. juanita suarez gave a lecture on supporting local crafts people. She told us of a group of women from nicaragua who make purses to sell in the united states. She also told us about a guatemalan group that sells paintings done by local artists. professor craig roberts spoke about american clothing shops that buy products from west african weavers.

- C. Write a paragraph about a food you like that is originally from another country. Use proper nouns and proper adjectives.**

# A Letter from Loie

**A. Read the letter. Add commas where they belong.**

September 15 2017

Benjamin Summers  
4825 Clarkson Blvd. Apt. 23  
Santa Fe NM 87508

Dear Ben

I am having an amazing time in Africa. The tour is wonderful! Yesterday we flew to Nairobi from Kampala Uganda. Tomorrow we head out to see the Serengeti National Park. I'll write more after we get back.

Much love

Aunt Loie

**B. Write a letter to a friend about a special place you have visited. Remember to use commas correctly in your friend's address, your date, your greeting, and your closing.**

# Where to Go?

- A. Proofread the dialogue. Add any missing single or double quotation marks and commas.**

“I would like to travel someday” Travon told his friend Rafe.  
There are places I really want to see.”

Like where, Trave?” Rafe asked. “I’m happy to stay right here,  
he said.

The other day my uncle got back from Iceland. He said that  
it was amazing. It has natural hot springs, great river rafting,  
and lots of friendly people. But he also said ‘In the winter, it can  
stay dark for as long as twenty hours,” Travon explained.

“I’d rather go someplace with lots of sun, warm weather, and  
sandy beaches” Rafe responded. I want to go someplace where  
the slogan is, ‘Come lie on our beaches and relax!”

- B. Write a dialogue between two friends. Have them talk about where they would go if they could travel anywhere.**

# Sentences

A **sentence** is a group of words that expresses a complete thought. It includes a subject and a predicate.

- The **subject** tells whom or what the sentence is about.

My older sister just got a new bike.

- The **predicate** tells what the subject does or is.

Patricia rides up steep hills. She is very athletic.

A **sentence fragment** does not express a complete thought. To change a fragment to a complete sentence, add information. Make sure that the sentence has both a subject and a predicate.

**Sentence fragment:** My parents.

**Sentence fragment:** Ride bikes in the summer.

**Complete sentence:** My parents ride bikes in the summer.

subject

predicate

A **compound sentence** connects two simple sentences using the **conjunctions**, or connecting words, *and*, *but*, or *or*. Place a comma before the conjunction.

I like all four seasons, but fall is the best!

Colorful leaves fall from trees, and we collect them.

We drink cider at the orchard, or we buy some fresh apple pie.

A **complex sentence** is made up of a group of words that can stand on its own and a group of words that cannot. Complex sentences use conjunctions like *before*, *after*, or *while*. No comma is needed before the conjunction.

I always put on my helmet before I ride my bike.

I feel great while I'm riding my bike.

I hope to get a racing bike after we return from our trip.

A **run-on sentence** is made up of two or more sentences that run together without punctuation or a connecting word.

**Run-on:** You just walked into a bike shop there are so many different bikes!

- One way to correct a run-on sentence is to separate it into two or more complete sentences.

**Correction:** You just walked into a bike shop. <sup>T</sup> there are so many different bikes!

- Another way to correct a run-on sentence is to join the thoughts together with a connecting word.

**Correction:** You just walked into a bike shop, <sup>and</sup> there are so many different bikes!

# Nouns

A **noun** is a word that names a person, a place, an animal, a thing, or an idea. A **singular noun** names one. A **plural noun** names more than one.

- Add *-s* to form the plural of most nouns: brotherss, sisterss.
- Add *-es* to nouns that end with *s*, *x*, *sh*, or *ch*: bus + *es* = busess;  
box + *es* = boxess; wish + *es* = wishess; patch + *es* = patchess.
- Change the *y* to an *i* and add *-es* to a noun that ends with a consonant + *y*: blueberry – *y* + *ies* = blueberriess; city – *y* + *ies* = citiess.
- Change the spelling for the plural of some irregular nouns:  
man/mens; child/childrens.

A **possessive noun** shows ownership.

- Add *'s* to make singular nouns possessive: Kevin's jacket.
- Add an apostrophe after the *s* for plurals that end with *s*:  
the dogs's bones.
- Add *'s* for plurals that do not end with *s*: the children's shoes.

# Pronouns

A **subject pronoun** replaces a noun that is the subject of a sentence. It tells whom or what the sentence is about.

Evie and Nicole are my twin sisters.      Evie lost a front tooth.  
They are my twin sisters.                      She lost a front tooth.

An **object pronoun** replaces a noun that receives the action of the verb. It can also follow words such as *with, to, of, for, or from*.

Evie put the tooth under the pillow.      Nicole was excited for Evie.  
Evie put it under the pillow.                  Nicole was excited for her.

A **possessive pronoun** shows ownership.

The dollar beneath the pillow was her reward.

Nicole said, “That money is yours! You lost the tooth!”

A **relative pronoun** introduces a group of words that gives more information about a noun or another pronoun in the sentence.

Uncle Vito, whose story has been told many times, is known as “The Pizza King.”

It was his Pizza Supreme that made him famous.

He uses secret ingredients, which add a lot of flavor to the pizza.

Many customers, who wait for hours to get in, describe his pizza as the best on the planet!

(continues)

## Pronouns *(continued)*

When a pronoun replaces a noun, it must **agree in number** with the noun it is replacing.

- Singular pronouns replace singular nouns.

Speed-skater Bonnie Blair represented the United States in the Winter Olympics. She won the gold medal three times in a row.

- Plural pronouns replace plural nouns.

How can four men from a tropical country compete in a winter sport? The movie *Cool Runnings* tells their story!

When a pronoun replaces a noun, it must also **agree in gender** with the noun it is replacing.

- Female pronouns replace female nouns.

Grandma is a clown who performs in the Big Apple Circus. She wears a curly white wig and carries a huge handbag.

- Male pronouns replace male nouns.

Emmett Kelley began his career as a trapeze artist. Later, he became the world-famous clown known as “Weary Willy.”

# Verbs

A **verb** tells what someone or something does, is, or is like.

- An **action verb** shows action. It tells what the subject does.

The kittens sleep in the sun.

- A **linking verb** connects the subject to words that tell what the subject is or is like.

The kittens are tiny. They seem scared.

- A **main verb** often has a **helping verb**. Helping verbs, such as *is* and *were*, help show when events happen. Other helping verbs, such as *may* and *could*, express conditions, or how likely or unlikely an event is. These helping verbs are called **modal auxiliary verbs**.

The kittens may run to their mother. She will not leave them.

Verbs have special forms called **tenses** that tell when the action takes place.

- A **simple present-tense** verb tells about something happening now. The form of the verb must agree with its subject.

The cat plays with the string. Two other cats play with a ball.

- A **simple past-tense** verb tells about something that has already happened. Some are formed with *-ed*, but others are irregular.

One cat bumped into a lamp. The lamp fell over and broke.

- A **simple future-tense** verb tells about something that is going to happen. The future tense is formed with the helping verb *will*.

Mom will be home soon. She will put the cats outside!

(continues)

## Verbs *(continued)*

- The **present-progressive** tense shows action continuing right now. The **past-progressive** tense shows action continuing in the past.

I am petting the cat at this moment. It is purring loudly.

Earlier, the cat was playing while the kittens were napping.

- The **present-perfect** tense shows that an action started in the past but continues up to the present. The **past-perfect tense** shows that an action was completed before another action in the past.

The cats like tuna. They have eaten Sam's lunch!

He had left the tuna on a plate, and the cats discovered it.

A verb must **agree in number** with its subject.

- When the subject is singular, use the singular form of the verb or helping verb.

The dog belongs to my brother. My brother is standing over there.

- When the subject is plural, use the plural form of the verb or helping verb.

My sisters like cats. They were playing with the cats before lunch.

- When the words in a compound subject are joined by *and*, use the plural form of the verb.

The cats and dogs sometimes play together.

# Adjectives

An **adjective** is a word that tells about a noun or a pronoun. Adjectives can tell about *amount*, *opinion*, *size*, *shape*, or *color*, usually in that order.

Angie has several excellent little moves she uses in basketball.

amount      opinion      size

She has one round red hoop in her driveway for practicing.

amount      shape      color

# Adverbs

An **adverb** is a word that tells about a verb or an adjective. Adverbs can tell *when*, *where*, *how*, or *to what extent*.

Angie dribbles the ball steadily and then stops.

how      when

She quickly leaps up and makes a totally amazing shot.

how      where      to what extent

The **relative adverbs** *when*, *where*, and *why* each introduce a group of words that tells more about a noun or pronoun in the sentence.

- *Where* introduces a group of words that tells about a place.

Uncle Leo's house is the place where the family will gather.

- *Why* introduces a group of words that tells about the reason for something.

Great-Grandma Maggie's 85th birthday is the reason why the family will all be together.

- *When* introduces a group of words that tells about a time.

The party will be held on a day when everyone is free.

# Prepositions

A **preposition** is a word used to show the relationship between words. Prepositions such as *in*, *on*, *at*, *around*, *below*, *across*, and *under* describe the position or location of something.

Miguel's beautiful poster is on the classroom wall.

The words at the top say, "Keep Our School Safe."

A **prepositional phrase** includes a preposition, a noun or pronoun, and any other words in between.

Colorful pictures on the poster show safety tips.

Miguel has included labels under the pictures.

# Capitalization

A **proper noun** names a particular person, place, animal, or thing and begins with a capital letter.

Our neighbor Mr. Velasquez is organizing a community group.

The group is going to grow a garden on Sanchez Street.

It will be called Arrow Neighborhood Garden.

A proper noun can include a **title**. The title is also capitalized.

Dr. Fontana will let us use a plot of land she owns.

An adjective made from a proper noun is called a **proper adjective**. Proper adjectives are also capitalized.

The group will grow Thai peppers and Japanese eggplants.

# Punctuation

**Commas** set off information in different parts of a letter.

Use commas in addresses to separate a street name from an apartment number and a city from a state name.

2756 Sandoval Way, Apt. 312  
Bella Vista, AR 72715

In the date, use a comma to separate the day of the month from the year.

August 25, 2017

Use a comma to separate the greeting from the body of the letter and the closing of the letter from the signature.

Dear Grandpa Jack,

We are planning a community garden. May I call you to get your gardening advice?

Love,  
Sophia

**Quotation marks** are used to show the exact words a speaker says.

- Use **double quotation marks** to show what a speaker is saying.  
“It was nice of you to write to your grandfather,” said Mr. Velasquez.
- Use **single quotation marks** to show quoted words or words that have been said before when they appear within double quotations.  
“My grandfather told me, ‘I’ll be happy to answer any questions your friends have,’” said Sophia.
- A **comma** can be used to separate the speaker’s exact words from the rest of the sentence.  
“Please thank your grandfather,” Mr. Velasquez said.

## Proofreading Passage 1

A student wrote this draft of a story. Correct all the errors you find.

My little brother Carl made a snowball who he wanted to give to our mom. He is too little to understand that it would melt inside the house. I told Carl but he should not believe me. I decided to do a science little experiment to show him. I can still remember the time where Mr. chang did this experiment for us in preschool.

I told Carl too make two round big snowballs. We put one in a glass large dish through the Kitchen counter. I wrapped the other snowball in plastic then I put it at the freezer.

Mom saw a dish of water. When she got home. Before she should ask, I said, Carl, show Mom your surprise.” I lifted Carl. And he reached inside the freezer. The snowball was frozen.

“I made this snowball for you” Carl said. Then he added, “Mom, do you know that the water in the dish used to be another snowball? You may keep a snowball very cold, or it will melt.”

“Carl, do you know what happens when we boil the water?” asked Mom.

“It means that you is getting ready to make tea,” answered Carl.

Mom chuckled and replied, “Let’s see what happens.” She put some water in a pot and then she placed it from a hot burner.

First, the water made bubbles, and soon steam is rising.

Mom gave us a really tasty snack so, Carl almost forgot about the pot of water. When he remembered to look, Carl exclaimed, “Its almost all gone! Where did the water go?”

I explained, “When you boil water, it turns to steam. The steam who goes into the air is their even though you can’t see it.”

“Mom, I’d like a glass of steam,” said Carl.

It looks like we having another lesson soon!

## Proofreading Passage 2

A student wrote this draft of a story. Correct all the errors you find.

We needed a way to cool off On such a hot and humid day. Dad decided that it can be a good time two try the new Olympia water Park what was built just a few miles from our house. I had seen exciting many pictures on the giant water slide and I could not wait to get their.

Finally, my sister Sara and I was standing at the top of the slide. "You go first, said Sara. "I'll be right behind you.

Sara almost landed on top of me. "Wow!" we said by the same time.

Then somebody yelled, Woo-hoo!" Dad was wave his arms as he slid down fast. He looked like a big great kid.

When Dad hit the pool. There was a gigantic splash who covered everybody nearby with water. I had a great view from the spot why I was standing. I was laugh so hard that I swallowed a mouthful of water.

Sara and I should not wait to do it again so we scrambled out of the pool and headed for the ladder. We were surprised to see Mrs. Wilson, our neighbor. She was standing right there beside the ladder.

“We didn’t know that you were here have you tried the slide yet?” asked Sara.

“My grandson Jake and I got here about 20 minutes ago and he has gone down the slide twice,” she answered. “I thought that he would be too small for the big slide, but he told me he should do it!”

From the top of the ladder, we could see our dad. He was standing from the bottom of the slide. He said that it was time to go home.

Before we left, we ate red huge strawberries over ice cream. What a great day it was!

## Proofreading Passage 3

A student wrote this draft of a story. Correct all the errors you find.

I walking to the house when Grandpa yelled to Hank, “The new calf got out of the pasture, and he is heading toward Green park Highway!” Hank, what is a strong texan, got in the driver’s seat of the pick-up truck. Grandpa grabbed a rope and sat at the other seat. I climbed into the back of the truck.

When we caught up with the runaway calf, Grandpa said to Hank “Get a little closer to the calf but don’t scare him.”

I had heard stories about Grandpa’s early days in the rodeo but I had never seen him in action. As Grandpa leaned out the window, he twirled the rope. And tossed it’s loop around the calf’s neck.

“Slow down now, Hank! roared Grandpa. Hank slowed the truck to a crawl and we drove back at the farm. The calf trotted beside us the whole way.

Hank chuckled and said, I’m going too make you a T-shirt who will have the words *Champion Pick-up Truck Cowboy* on it.”

We led the calf safely back to the pasture and locked the gate. Then we went back to the house that's when I asked Grandpa if he must show me pictures of his rodeo days. From under the bed, Grandpa pulled a dusty box why he kept his old photos. I should not wait to look inside. I found old two pictures of Grandpa as a young man. He wore a black tall cowboy hat and was hold a prize ribbon from dallas County. In another old photo, he sitting on a white big horse. It didn't look like Grandpa except with the smile. I must recognize that smile anywhere. Its the same one I see. When I look in the mirror.

# Assessment Overview

The assessments offered in the *Being a Writer*<sup>™</sup> program are designed to help you (1) make informed instructional decisions as you teach the program, and (2) track your students' writing growth and social development over time. The assumption is that all of your students are developing at their own pace into strong, capable writers and that they are all developing into principled, responsible people with strong interpersonal skills.

The *Being a Writer* program provides a comprehensive and flexible set of formative and summative assessments that enable you to track and evaluate your students' progress and needs, unit-by-unit and across the year. (For a brief description of each assessment, see "Assessments" on page vi.) As you teach the lessons in the *Teacher's Manual*, an assessment icon (📄) will alert you whenever an assessment is suggested. If you are using the *Digital Teacher's Set*, tapping the assessment icon opens the CCC ClassView<sup>™</sup> assessment app.

Everything you need to conduct each assessment, including instructions and forms, can be found in this book or accessed through the CCC ClassView app ([classview.org](http://classview.org)). You may choose to record your students' progress using printed copies of the forms from this book or from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). For more information, see "CCC ClassView App" below.

---

## CCC ClassView App

The CCC ClassView app is an online application that contains all of the assessment forms and instructions available in this *Assessment Resource Book*. This tool also enables you to electronically collect, sort, synthesize, and report assessment data for each student. When conducting the assessments, you can enter data directly into the CCC ClassView app and then generate reports on the progress of individual students and the class as a whole. You can access the CCC ClassView app by tapping the linked assessment icons in the *Digital Teacher's Set*, by directly accessing the app at [classview.org](http://classview.org), or via the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)). For more information about the assessment app, view the "Using the CCC ClassView App" tutorial (AV80).

# Assessments

## CLASS ASSESSMENT

Unit 1 • Week 1 • Day 4      Class Assessment Record • CA1

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
• Are the students writing in silence?			
• Are they staying in their seats?			

Other observations:

Considerations:  
If you notice students having difficulty staying in their seats or writing in silence, call for the class's attention and remind them of your expectations before having them resume writing. Be aware that some students may need to just sit and think for a while before they start writing. Give them uninterrupted time to do this.

4 | Being a Writer™ • Grade 4      © Center for the Collaborative Classroom

The class assessments are designed to help you assess the writing, and sometimes the social performance, of the whole class. As you teach the lessons, a Class Assessment Note in the *Teacher's Manual* will alert you when an assessment is suggested. During the class assessments you have the opportunity to observe the students as you ask yourself questions that focus your observations. These notes occur about once per week, usually during Writing Time, when the students are using the writing processes, craft, or skills that they are learning in the unit. Each Class Assessment Note has a corresponding "Class Assessment Record" sheet (CA) where you can record your observations. The record sheet reiterates the suggestions from the *Teacher's Manual* for how to proceed with the instruction based on your observations.

## TEACHER CONFERENCE

Personal Narrative      Conference Notes: Focus 1 • CN1

Student's Name: \_\_\_\_\_ Date: \_\_\_\_\_

Ask the student to show you his or her writing and read some of it aloud to you. Help the student extend his or her thinking about personal narrative by asking questions such as:

- Q Why did you choose to write about this [event/memory/thing]?
- Q What else do you remember about it that you can add to the narrative?
- Q What words are you using to describe what you [saw/heard/smelled/tasted/felt]?
- Q (Beginning Week 2, Day 5) What transitional words and phrases are you using to help readers connect ideas and events?
- Q What other experiences from your own life might you want to write about?

Other observations:

Next steps:

38 | Being a Writer™ • Grade 4      © Center for the Collaborative Classroom

Teacher conferences provide you with the opportunity to talk with individual students about their writing, identify areas of strength, and note areas in which a student needs more support. As you teach the lessons, a Teacher Conference Note in the *Teacher's Manual* will alert you when an individual teacher conference is suggested. These notes provide specific questions related to the students' writing that you might ask yourself or a student when conferring individually. Many notes also include suggestions for supporting struggling students. Each Teacher Conference Note has a corresponding "Conference Notes" record sheet (CN) where you can document your suggestions and observations that result from each conference. We

encourage you to confer with each student at least once or twice per unit, depending on the length of the unit. The "Conference Notes" record sheets from your writing conferences with the students also comprise an important source of information for the Individual Writing Assessment (see page vii).

## **Student Goals and Interests Survey**

The questions provided in the first “Conference Notes” record sheet can be used as a beginning-of-year survey of your students’ goals and interests. After you have conferred with all of your students, we recommend that you review the students’ responses to the questions and look both for patterns across the class and for individual comments that stand out for you. For example, you might note writing topics and genres that the students are interested in and whether the students exhibit an aversion to, or affinity for, writing. The information you gather can help you plan instruction for the coming months.

After analyzing your students’ responses, you might share with the class what you learned about them as writers and how you plan to help them build their love of writing over the course of the year. For ideas on how to facilitate a class discussion about the survey, see the extension “Discuss the Students’ Writing Goals and Interests” on page 65 of the *Teacher’s Manual*.

The questions in the final Teacher Conference Note of the year can serve as an end-of-year survey of your students’ perceptions of their growth as writers, a measure of their attitudes toward writing, and a summary of their goals for summer writing. After you have conferred with your students, you might share the information from this final survey with them, along with the initial survey, and discuss how the students’ attitudes toward writing have changed.

## **SOCIAL SKILLS ASSESSMENT**

The Social Skills Assessment allows you to note how well each student is learning and applying the social skills taught in the program. In addition to social skills, this assessment allows you to track how well each student integrates the values of responsibility, respect, fairness, caring, and helpfulness into his or her behavior. As you teach the lessons, a Social Skills Assessment Note in the *Teacher’s Manual* will alert you when a social skills assessment is suggested. We recommend that you do this assessment three times during the year—in the fall, winter, and spring. (If you teach in a year-round school, adapt as necessary to assess early in the year, midyear, and at the end of the year.) The “Social Skills Assessment Record” sheet (SS1) allows you to track how individual students are doing with particular skills over the course of the year (see page 175).

## **INDIVIDUAL WRITING ASSESSMENT**

The Individual Writing Assessment is designed to help you assess growth in the writing of individual students. The “Individual Writing Assessment” record sheet (IA) consists of two sections—Part A: Non-published Writing and Part B: Published Writing—and a few Reflection questions to help guide your assessment of each student’s growth.

The Non-published Writing section helps you analyze each student’s notebook writing or other non-published writing generated during a unit using a rubric that identifies the instruction and the writing tasks for each week of the unit. The purpose of this portion of the assessment is to help you determine whether the writing the student completes on a day-to-day basis shows evidence of the unit’s instruction.

## Part B: Published Writing

The Published Writing section helps you score each student’s published piece using a rubric that identifies certain descriptors of successful writing.\* You assess the writing to determine whether *almost all*, *much*,

*some*, or *almost none* of the writing shows evidence of each descriptor. Examples of scored student work are provided for each unit as models to help you score your students’ writing using the rubric.

**Reflection** The Reflection section in Part B provides questions that help you reflect on each student’s progress since the previous assessment and identify what you might focus on during the next unit’s instruction.

The information from the “Individual Writing Assessment” and the “Conference Notes” record sheets, combined with any scored *Student Skill Practice Book* activities, constitute a record of each student’s development over the unit. (For more information about scoring *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

If you need to use the scored writing as a basis for grading, the “Individual Writing Assessment” record sheet includes a section where an overall unit score can be calculated. Keep in mind that progress in the *Being a Writer* program is determined by an increase in scores over time, rather than by each unit’s score. The assumption is that all students are growing at their own pace into strong, capable writers. The “Individual Writing Assessment Class Record” sheet (CR1) is provided for you to record your students’ progress over the course of the year (see page 179). If you are using the CCC ClassView app, you can generate a variety of reports that track individual students’ progress as well as the progress of your class as a whole.

\*For information about the how this program’s “Descriptors of Successful Writing” relate to the 6+1 Traits®, used by many schools as part of writing assessment, see “The 6+1 Trait® Writing Model and the *Being a Writer* Program” on page xxiv of the *Teacher’s Manual*.

End-of-year writing samples are obtained from the students using the same prompt as the beginning-of-year writing samples. After obtaining the writing samples, we recommend that you analyze each student's writing using the "End-of-year Writing Sample Record" sheet (WS2). If you obtained both samples, comparing the "Beginning-of-year Writing Sample Record" and "End-of-year Writing Sample Record" sheets can help you evaluate your students' growth as writers and the effectiveness of the year's instruction. For more information, see "Obtaining an End-of-year Writing Sample" on page 168.

We suggest that you obtain the beginning-of-year writing samples during the first month of school and the end-of-year writing samples during the last unit of instruction in the program.

## Individual Assessment Folders

We recommend that you create a folder for each student in which to store collected writing samples and “Individual Writing Assessment,” “Conference Notes,” and “Student Self-assessment” record sheets. You may also want to make copies of each student’s scored writing and file these in the assessment folder. Periodically, you can use the materials in the folder to discuss the student’s progress with him or her, as well as with parents and other adults in the school. The folders can travel to the next grade with the students.

## Obtaining a Beginning-of-year Writing Sample

Conduct this assessment during the first month of the school year. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct the *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “Beginning-of-year Writing Sample Record” sheet (WS1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 4. Review the questions on the record sheet to help you prepare to analyze each student’s work.
- ✓ Plan to provide enough time for the students to complete the writing sample. You might base the amount of time on your school district’s requirements for similar writing tasks or simply provide your students with the time they need to complete their writing.
- ✓ Gather any additional materials needed to complete the writing task (for example, dictionaries, extra pencils, crayons, or markers) and make them available to your students.
- ✓ Write the following prompt where everyone can see it: *All of us enjoy having fun. Tell about a time when you did something fun.*

### CONDUCTING THE ASSESSMENT

1. Tell the students that today they will each write a piece to show what they know about good writing. Explain that the students should try to do their best writing in this piece.
2. State your expectations for how the students will behave while you are conducting the assessment (for example, students should stay in their seats, work silently, and raise their hands if they have questions). You might also tell the students what additional resources, if any, they can use as they write (such as drawing materials or a dictionary).
3. Direct the students’ attention to the prompt and explain that they will all write about this topic. Give the students a few moments to read the prompt.
4. Give the students a few moments to think about what they will write. (If you are conducting this assessment as a timed writing activity, tell the students how much time they will have to complete their writing and that you will let them know when they have 10 minutes remaining.)
5. Distribute writing paper and have the students begin.
6. Signal the end of the writing period and collect the students’ writing.

## ANALYZING THE ASSESSMENT

For each student's writing sample:

1. Read the piece carefully. As you read, think about the questions on the "Beginning-of-year Writing Sample Record" sheet (WS1) and record your observations. Make note of any writing conventions that the student uses consistently or inconsistently, and indicate which, if any, grade-level skills are absent from the writing.
2. Use the information you gather from the student's writing to help inform your instruction in the coming months. (For example, if you notice that many students struggle to write engaging opening sentences, you can make a note to emphasize that instruction when appropriate.)
3. Attach the completed record sheet to the writing sample and file it in the student's individual assessment folder.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>▪ Are the students writing in silence?</li> </ul>			
<ul style="list-style-type: none"> <li>▪ Are they staying in their seats?</li> </ul>			
<p>Other observations:</p>			

**Considerations:**

If you notice students having difficulty staying in their seats or writing in silence, call for the class’s attention and remind them of your expectations before having them resume writing. Be aware that some students may need to just sit and think for a while before they start writing. Give them uninterrupted time to do this.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
▪ Are the students writing in silence?			
▪ Are they staying in their seats?			
▪ Are they skipping lines in their notebooks?			
Other observations:			

**Considerations:**

If necessary, remind the class of your expectations for silent writing during this time. Note which students write easily and which ones have difficulty getting started. If you notice any student struggling to start writing after 10 minutes, pull him or her aside quietly and ask questions such as:

- Q *What are you thinking about right now?*
- Q *What interesting thing has happened in your life that you could write about? What could you write as a first sentence for that idea?*
- Q *What ideas have you written in your writing ideas section? Let's pick one and talk about what you might write.*

▪ Do the ideas connect in a way that makes sense?				
▪ Do the revisions make sense and improve the piece?				
▪ <i>(Beginning Week 2, Day 2)</i> Does the student recognize misspelled words and correct them?				
▪ <i>(Beginning Week 2, Day 3)</i> Does the student proofread his or her writing using his or her proofreading notes?				

Help the student revise unclear writing by rereading those passages back to him or her and explaining what is confusing you. Ask questions such as:

- Q *What do you want your reader to be thinking at this part? How can you write that?*
- Q *What is another way you can say this? Write that down.*
- Q *What sentence could you add to give your reader more information?*

## Thoughts About My Story

Things to look for in my writing:	I did it!	I did it some of the time.	I'm still working on it.
▪ I wrote a story.			
▪ My writing is clear. It is easy to tell what my writing is about, and my piece makes sense from beginning to end.			
▪ My writing is fun and interesting.			
▪ I used many interesting words that describe how things look, feel, sound, taste, and smell.			
▪ I have proofread my writing. I checked for: <ul style="list-style-type: none"> <li>- punctuation (. ? ! "Hi!" said Adam.)</li> <li>- capital letters (<b>B</b>etty lives in <b>A</b>ustin, <b>T</b>exas.)</li> <li>- spelling</li> </ul>			

### Reflection:

- What did you do to make your writing fun and interesting to read?
  
  
  
- What did you enjoy about Writing Time during this unit?

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “Individual Writing Assessment” record sheet (IA1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 28.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 22 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

## Hurt

Have you ever broken something in your body? My brother has. A few years ago we went to my cousin's birthday party. Logan, my brother, was on the trampoline by himself. He fell down while my mom was watching.

Can you believe it?! He broke his arm. It was a serious injury. He couldn't move his arm at all. We had to take him to the hospital right away.

A few hours after we got there my dad and I had to go home. My mom had to stay with Logan. The next morning we went to see Logan. We took him home after a while.

Poor Logan, he had to wear a cast. After a few weeks he got better. I'm just glad he is okay. I hope it won't happen again. Logan sure learned his lesson.

**Commentary:** This piece makes its subject clear—the time the narrator’s brother broke his arm—and maintains this focus throughout, ending with a reflection that provides a sense of closure. The writing would benefit from more information (How old was Logan? What exactly did he learn?). The use of direct address (*Have you ever . . . ? Can you believe it?!*) and personal commentary (*Poor Logan; I’m just glad he is okay*) are indications of individual expression. For the most part, ideas connect logically, although the third paragraph, with its abrupt leaps forward in time (*A few hours after; The next morning; after a while*) and lack of causal explanations for the events it describes, causes some confusion. Much of the vocabulary is fairly basic, but words such as *trampoline* and *serious injury* add interest. The piece correctly capitalizes and punctuates sentences, possessives, and contractions, and is free from errors in spelling.

The first time I saw My brother.

During Summer vacation all week I was at my cousins house, waiting to get picked up. After I got picked up my mom and dad said "I was having a baby brother". I was surprised and so was my mom when she first knew she was going to have a baby. My mom and I made a party for my brother Justin. A lot of people were there like my cousins and aunts. The party was so loud it sounded like this, boom, crash, boom. After a week later Justin came out. I was very happy. Now I had someone to play with.

**Commentary:** The title and narrative together make it clear that this piece is about the arrival of the author’s baby brother. The focus remains on this subject although the order of events is conveyed in a confusing way: was the baby brother born by the time the narrator was picked up, or later? The incorrect use of quotation marks (*my mom and dad said “I was having a baby brother”*), while an impressive attempt, contributes to this confusion. Individual expression is evident in the effort to set the scene and build drama. Many sentences are fluent though some of the language is awkward: *During Summervacation all week I was at my cousins house; My mom and I made a party; After a week later Justin came out.* Initial capitalization of the first words of sentences and end punctuation are correct, and there are few spelling errors. The vocabulary is relatively basic, and there is little evidence of the author’s individuality, although the creative use of the words *boom, crash, boom* add interest and help convey the sounds of a loud party.

smelled like pine. All we  
ate was meat and eggs.  
We were close to a creek

we made a bridge.

We saw a snake

It was 106°F when we  
ate lunch. Later we went

water was so refreshing.  
In the morning we

**Commentary:** The subject of this piece, a weekend in the woods, is clear from the outset, and every sentence provides more information about the event. Most sentences introduce new subject matter without further elaboration (*We saw a snake when we were swimming. It was 106°F when we ate lunch*), suggesting a lack of sustained thought and giving the piece a disjointed quality. Some individual expression is evident in sensory details such as *It smelled like pine* and *the water was so refreshing* and the colloquial expression *hit the road*. Much of the piece is punctuated and capitalized correctly, but missing end punctuation in some places interferes with sentence fluency. Nearly all of the spelling is correct with the exception of the homophone *two* used instead of *to*.

## Part B: Published Writing

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

**Considerations:**

If you notice many students having difficulty starting to write, call for the class’s attention and have partners talk to each other about what they might write. Have a few volunteers share their ideas with the class, and then have them resume silent writing. If necessary, remind students to double-space their writing.

**Considerations:**

If you notice that many students need more time to finish their drafts, make time for them to finish before going on to the Day 2 lesson. Students who have finished may work on another piece of writing.

Support any student who is having difficulty by asking him or her questions such as:

- Q *What else do you remember about it that you can add to the narrative?*
- Q *What words are you using to describe what you [saw/heard/smelled/tasted/felt]?*

Ask the student to tell you about the part he or she is working on now and to read his or her draft aloud.

As you listen to the student, ask yourself:	Yes	No	Not evident	Evidence:
▪ Does this student's writing communicate clearly? If not, what is unclear?				
▪ Does this student's piece describe an interesting personal experience?				
▪ Does the student use sensory details?				
▪ Does the student use transitional words and phrases?				
▪ Does the piece have a strong opening and a closing that wraps it up?				
▪ Do the revisions make sense and improve the piece?				
▪ ( <i>Beginning Week 4, Day 2</i> ) Does the student recognize and correct the commonly misused words <i>to/too/two</i> and <i>it's/its</i> ?

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “Individual Writing Assessment” record sheet (IA1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 50.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 44 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

The Painful Party

Have you ever had a friend burn you? I have. Every year my mom puts together a party for the block called a block party.

The 2011 block party is a party I will never forget. It all started when my mom had lit the warm cozy red fire. The party had been going on for quite a while and it was starting to get dark out.

My friends and I were playing board games on the grass when my mom said, "S'mores." My friends and I jumped up to get sticks and marshmallows. When our marshmallows were done we put them in crackers with Hershey chocolate and let them melt in our mouths. After we were done we made a few more. When we were all done we went back to playing board games.

1

About a half hour past when we finished the board games we put the games back in the boxes and started to run around. Soon I found a juicy red ripe tomato on the ground.

My friends were putting their sticks in blazing fire to see if the fire would stay on the sticks when I picked up the juicy, red tomato and got a water bottle. I was trying to plant the tomato when my friends came over to see what I was doing. One of my friends Camryn came over with her stick on fire.

I was planting the tomato when she swung her stick and burnt me on the head right over my eye, it really hurt! Camryn started screaming, "Sorry, sorry" almost like she needed everyone in the world to hear her. Then I splashed the water from the bottle onto my head.

That day I learned that my friend does not go good with sticks and fire. Especially when the stick is on fire. I know for sure that I will never forget that day.

**Commentary:** This piece clearly and engagingly describes an unfortunate accident in the narrator’s past. There is some confusion in the first two paragraphs about the sequence of events, although the confusion is due to the narrator’s ambitious attempt to provide context. For the most part, however, the sequence is clear, due in part to effective use of transitional words and phrases such as *It all started when, for quite a while, and that day*. The question at the beginning and the humorous commentary about the friend in the closing paragraphs, as well as the quirky behavior described (trying to plant a ripe tomato during a party) reveal an original mind, while sensory details such as *juicy red ripe tomato* and *blazing fire* further enliven the piece. Although sentences are correctly capitalized, many lack end punctuation, creating numerous run-ons. A handful of spelling errors and a fragment in the final paragraph create a few small bumps in a mostly smooth and enjoyable reading experience.

### *My Great Aunt*

*Every year when I would go to the Netherlands I would visit my great aunt.*

*We would visit her every year I thought she was very nice. Sometimes when we were in the Netherlands we would go to a restaurant that was near by we went there with my great aunt a few times at the restaurant I sometimes tried things my mom told me were good they were all tasty just like my mom had said some foods I thought tasted really good the odor smells very good as well those are some of my memories I had with her.*

*Then last year when it was five months before we were going to the Netherlands she died I was very sad. I had one time gotten a necklace from her it is purple and pink with leave shaped beads there are also round beads on it and it is very special to me.*

*This summer when I went to the Netherlands I was sad because I could not see my great aunt but I wish I could have seen her Sometimes I can hear her voice.*

**Commentary:** By the time the reader finishes reading this piece it is clear that its focus is the death of the narrator’s great-aunt. The piece makes an admirable attempt at laying a foundation for this revelation by using the first paragraph to establish the narrator’s relationship with the elder woman, although the description of the restaurant experiences drifts off course. Transitional words and phrases such as *Every year, a few times, and this summer* help the piece unfold logically, although the reader must infer connections between some of the sentences in the second paragraph. The opening sentence sets the scene, though it lacks dynamism; the final sentence creates a haunting ending. The author includes some sensory details—the description of the necklace is particularly evocative—but misses other opportunities to provide vivid description (the smell and taste of the food; the quality of the great-aunt’s voice). The lack of initial capitalization and end punctuation contributes to run-on sentences that mar the reading experience, although the spelling, with the exception of *leave* (instead of *leaf*) and *near by* (instead of *nearby*) is correct throughout.

My Trip

"Beep, beep, beep" my alarm clock. I got right up we had to go to Fresno. My mom and dad stayed for a couple days. When my mom and dad left me and my sister to stay with my auntie and uncle. We went to Santa Cruz to go to Monterey bay. My uncle got a new fast car and I got to ride in it. The tops went up and down. The beach was right down the street. So we went down the sand was soft. That night big waves came in. After a while they hit people. The waves sounded like lions. The next

morning there was a dead bird where our fire was. We threw in it. It made a popping sound

**Commentary:** The title and lively opening sentences suggest that this personal narrative describes a trip to Fresno, although the reader must work to discern that the destination is an uncle and aunt’s house in Fresno, and that Santa Cruz and Monterey Bay represent part of the Fresno journey and not a separate trip. Transitional words and phrases (*When, So, After a while, The next morning*) demonstrate an effort to guide the reader’s attention, though omission of words and facts causes confusion (How much time elapsed between when the waves came in and when they hit people? Was the fire built in the morning or the previous night?) and detracts from the piece’s fluency, as do fragments and run-ons. Details (*Beep beep beep, the sand was soft, The waves sounded like lions, It made a popping sound*) enliven the piece, and the vocabulary, though limited, fits the topic. The writing shows good command of punctuation and capitalization, and most words are spelled correctly.

- Q *Who is an interesting person you know who you can make up a story about?*
- Q *What makes this person happy? Unhappy?*
- Q *Let's say this person feels unhappy because of what you just described. What unusual thing could happen to help him or her feel better?*
- Q *Where do you imagine this story takes place? What is this place like? How does it [look/sound/smell/feel]?*

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the "Individual Writing Assessment" record sheet (IA1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 80.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 74 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

*Dragon Riders***Chapter 1: The Museum**

"We're going to the science museum for our field trip!" moaned Ms. Melanie's 5<sup>th</sup> grade class.

Everyone hated science except for the Morimoto twins. Melody and Sean Morimoto loved to learn and were pretty much the only kids in their class who were looking forward to the field trip.

On the day of the field trip, Ms. Melanie's class clambered onto the school bus. The windows of the bus quickly fogged up because of the cold January air.

When they were halfway to the museum, Melody put down the book that she was reading and asked Sean if he thought that there would be dragons there.

"I don't think so," Sean said, who was shivering in the cold.

"Well, I heard that there was going to be a mythical creature exhibit."

"Really?" Sean asked.

"Yup!"

"Yeah, ok!" Sean replied, not really believing her.

When they arrived at the museum they saw a documentary about molecules and then they were allowed to explore the museum.

"Let's go look for that exhibit!" Melody exclaimed.

Melody and Sean rushed upstairs and ran over to the new exhibits. Then, they approached a sign that read: Mythical Creatures. They swung open the large, blue doors and slowly crept inside.

"Wow!" Sean gasped. The twins had entered a huge, dark room that was only lit by the colored spotlights that shown on the mythical animals. There were models of graceful unicorns, magical mermaids, and fierce dragons!

"BOO!!!" yelled Melody, breaking the still silence.

"AHH!!! WHAT THE HECK ARE YOU DOING!?!?" screamed Sean.

"Scaring you!" she smirked.

1

Well knock it off!"

"Fine," Melody replied, still smiling happily.

Sean and Melody walked around the dark room looking at all of the displays. Then, they looked at the dragons. In the display there were two crimson dragons with long necks arched over a red egg.

Sean and Melody soon became mesmerized by the terrific animals. The dragons had long wings, sparkling scales, and intelligent, mysterious eyes. It was almost... well, almost as if they were... real.

"I told you that there would be dragons here!" laughed Melody, as she stuck her tongue at Sean.

"Yeah, whatever!" said Sean.

"Aren't the dragons magnificent?" exclaimed Melody in admiration.

"Yes, they're brilliant," Sean replied.

"Hey! Did they just... BLINK!?!?" screamed Melody in surprise.

"Blink!" Sean laughed, who was still mad at Melody for scaring him. "They can't blink! They're made of wax! I must be the sane twin!"

Even though Sean said that it wasn't possible for the dragons in the display to blink, he could've sworn that he saw them blink, too!

"Must've been a trick of the light," Melody muttered.

Then, Sean walked over to the sign describing the dragons.

"Hey, Mel! Look at this sign!" he exclaimed, "It says that some scientists believe that dragons may have lived hundreds of years ago!"

"Wow!" gasped Melody.

"They say that they are descendants of the dinosaurs, and that's why they are said to be so big and scaly!"

Melody looked back at the powerful dragons.

"They really are wonderful, she said, "Hey! Where's the egg!"

"Huh?"

Sean & Melody ran over to the exhibit and saw that the dragon egg was missing!

2

"What' happened!?! It was there a second ago!" screamed Sean

"Maybe, someone took it!" suggested Melody.

"But no one has been in here except for us, and we didn't take it!"

"I don't know, let's just tell the manager. Perhaps she knows what happened."

"Alright! Let's go!" Sean agreed.

**Chapter 2: Mr. Talive**

"What egg?" the manager asked.

"The egg that was in the dragon exhibit!" the twins said in unison.

"There was never an egg in the dragon exhibit," she replied.

"We saw one! You have got to believe us!" Melody pleaded.

"Here, if it will make you feel better, you can ask Mr. Talive. He is the one who puts together all the exhibits."

"Where can we find him?" asked Sean.

"Across the hall from the robotics lab," she explained.

"Thank you," said the twins as they ran to the robotics lab. Across the hall from the lab was a dark grey door labeled, "Mr. Talive: Art director."

"Knock on the door," Melody whispered.

"No, you do it!" Sean muttered back.

"I don't want to!"

"Come on!"

Suddenly, the door swung open and the twins came face-to-face with a tall, middle-aged man wearing a black pinstripe suit.

"What do ya' want?" he asked ruffly.

"Oh, umm. Well, we were in the mythical creature exhibit & we saw an egg in the dragon display, but then it disappeared," Sean explained quickly. He knew that he was right about the dragons, but he couldn't help feeling stupid saying it.

"There was never an egg in that display," replied Mr. Talive, a hint of suspicion in his voice.

"But we saw one!" said Melody, who was getting sick of people telling that there wasn't an egg in the dragon exhibit.

3

"Well, I'm sorry, but I never put an egg there."

"It's alright. Let's just go, Sean," muttered Melody feeling both embarrassed and annoyed at the same time.

The twins said good-bye and then ran to the cafe where their class was having lunch, but as soon as they left, a happy grin spread across Mr. Talive's face.

"It's them," he muttered.

...

**Chapter 5: A Legacy Continued**

... "Our family only has a dragon rider in it every 500 years! You two are extremely lucky, but I'm afraid we won't be able to live in London anymore."

"WHAT!" Sean & Melody screamed.

"Did you think that we would be able to raise a dragon here?"

"Fine. Where are we moving?" Sean asked.

"The mountains," Ms. Morimoto replied. "What are you going to name your dragon?"

"Ember," the twins whispered in unison.

"Wow! How did we both know that!?!?" Melody gasped.

"Like I said, you're dragon riders, and every dragon rider instinctively knows their dragon's name."

"Maybe being a dragon rider isn't so bad after all," Melody whispered.

"It isn't bad at all, it's a miracle," Ms. Morimoto replied softly.

**Commentary:** The first two chapters of this story (which continues on through another three chapters) and the ending demonstrate sophisticated control of the elements of fiction. The setup of a typical class trip to the museum with the possibility of a mythical creature exhibit and the clear contrast between the bored class and the studious, eager Morimoto twins create immediate interest. Details of setting (*The windows of the bus quickly fogged up because of the cold January air; who was shivering in the cold*), appropriate use of dialogue, and interesting words (such as *moaned, clambered, mythical, and mesmerized*) all serve to enrich the story and suggest an original imagination at work. Transitional phrases (*On the day of the field trip; When they were halfway to the museum*) help propel the story forward in time, while each chapter ends in a suspenseful way. The piece demonstrates excellent sentence fluency, spelling, and use of skills and conventions. All of these aspects of the piece combine to create an enthralling narrative, marred only slightly by an overreliance on exclamation points, the use of an ampersand at times instead of *and*, and a few misspelled words (*tounge, ruffly, anoyed*).

You think you know what your pet does when your not there, um... Well what if he can have his own pool, or car. Well, I found out. It was February 1st. It started in the morning. My cat usually comes in to get food, well I get ready for school. He was late. So I went outside and called his name. Guess what I saw. My own cat getting out of his own little car! He parked the car next door where a abandoned house is. He didnt see me look so I went inside and waffle (cat) came in, but I heard a loud noise like medal hit the floor. I looked at my cat and I see keys under him, he looked up at me and looked back down at the keys. I walked out to the car where my mom was waiting for me. She said, "this little car is that next door." I said "Kittys." She gave me a syco look then she laughed. Later I told some of my best friends (Vida, Marysot, Lizeth) what had happend. They didnt believe me. So when school was over I went home and I told my grandpa, granama and dad, They didnt believe me!

So I told my dad we should look for Pitty. We found him at the park. We walked to the park. We came up to a bush. There was a blinking light. We went behind the bush and there was a gate. There was a sentence saying "To activate, press paw against the paw mark on glass." Me and my dad hopped the fence and we found a garden and a huge house with fountains and flowers and green grass. Me and my dad walked to the house and knocked on it and a cat opened the door and yelled "They found us!" I explained to that cat why me and my dad were there. Simply because of Waffle. But then Waffle came to the door and said "How did you find me?" After, he showed us his house. "lets go home." I said. "OR," Waffle said,

**Commentary:** This fictional story features a narrator who discovers that his or her cat can drive. Lack of information about when or how the cat got lost, and about the confusing trip through the park (Where was the blinking light? Are the house and garden within the park?) diffuses the story line, and much of the piece lists actions without suggesting motives. Some attention to setting is shown in the scene involving the dropped keys and in the description of the huge house and garden, but the story would benefit from more sensory details and interesting adjectives. Sentences are for the most part fluent, although many have incorrect end marks. Several transitional words help move the story forward; in a couple of instances the incorrect use of transitions (for example, *So* at the beginning of the second page) further muddle the story line. There is some difficulty with homonyms (*your, medal, their*), but most words are spelled correctly. The use of dialogue and punctuation for effect energize the piece, which, despite a somewhat flat ending, exhibits a lively imagination.

### Rich, Rich Farmers

Once there were two rich farmers' that were spending their money on horses, chickens, pigs, sheep, and cows. The farmers were still rich so they bought a mansion and they bought a huge back yard so the animals could live with them too.

They wanted something else, so they bought a limonene and they were still rich. So they were thinking, what else could they buy so, one said "let's buy two pools one for us and one for the animals. We should because the animals like to get dirty all the time."

So then they had a little bit of money left so they went to a safe and they said, "Is this where you save and earn money?" The person that was helping them said "yes".

So they gave the money to the man and the man put the money in the safe. They left in the limonene and they had to wait for three long years. So they waited and waited and waited.

Then they got their money back and they were richer then the other time. They weren't famers any more they were stars they were rich stars. So they moved to Hollywood.

Then years passed and they enjoyed Hollywood because they got to be characters and they got more money and more money. Then they got the whole land for themselves, they were so happy.

Then they still have money so they saw a poor man under a tree with a tent so they gave him some money so he can have a house, a car, and everything else he needed.

Then, they still had a little bit of money so they spent all the money on food. So then they went back to being farmers and they really enjoyed it so they got married and lived happily ever after then they just woke up and said it was just all a dream well I have to go back to work.

**Commentary:** From the first sentence (*Once there were two rich farmers' . . .*) it is clear that this is a fictional narrative. Lacking a central plot, the story unfolds as a series of events regarding cash flow, connected by plentiful use of the transitional words *then* and *so*. The ending clearly brings the narrative to a close, though it reads as a familiar strategy for ending a story that is otherwise difficult to bring to a close. No one episode is dwelt on long enough for details of setting and character to emerge, though the farmers' generosity and kindness is revealed in their treatment of farm animals and a poor man they encounter. Many of the sentences are fluent, but the lack of internal punctuation in some cases (*They weren't farmers any more they were stars they were rich stars*) and incorrect use in others (*Once there were two rich farmers' that were . . .*) forces the reader to slow down in order to infer intended meanings. The piece maintains a consistent third-person point of view and exhibits correct capitalization and end punctuation, and most words are spelled correctly. Speech punctuation, with some errors, is attempted.

## Part B: Published Writing

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

- Q *What notes seem to belong together? Why do you think so?*
- Q *What other notes could go into your ["Food"] group? Why do you think so?*

Be aware that categorizing information can be challenging for some students; this is to be expected. They may have difficulty defining subtopics or consistently sorting their notes into those subtopics. They may want to discard notes that do not fit, or become preoccupied with having the same number of notes in each subtopic. Encourage them to try their best to organize all their notes in a way that makes sense (perhaps creating an "Other Interesting Facts" category for outliers).

- Q *What do you want to write about next?*
- Q *What part is each partner working on? Is that a fair way to share the work? Why or why not? [What will you do differently to share the work fairly?]*

- What did you enjoy about Writing Time during this unit?

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the "Individual Writing Assessment" record sheet (IA1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 111.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 100 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

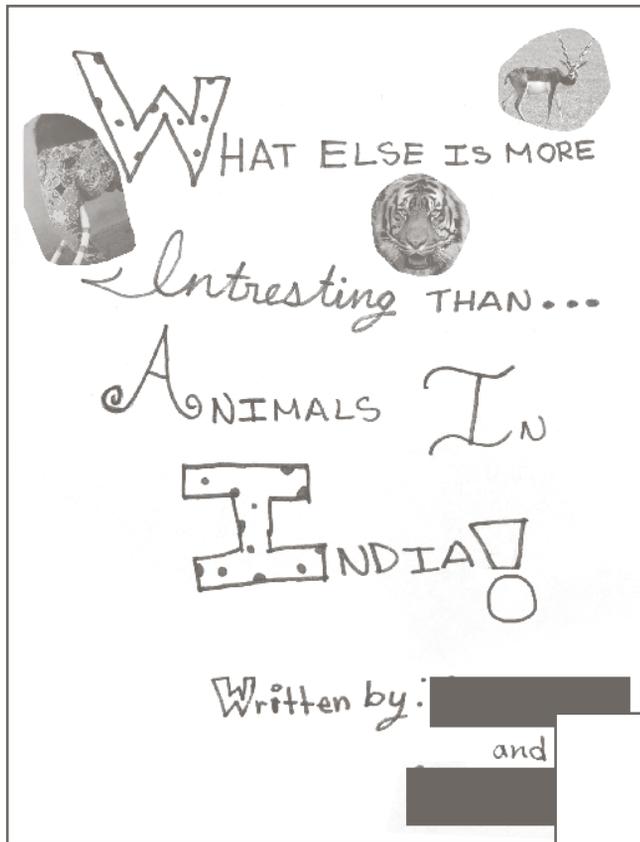

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

Examples of Scored Writing: Sample 1 *(continued)***Famous Animals of India**

People have shot animals for years... not knowing that we should respect them. Animals have been around for many years and some of them are famous in India. For example the Indian Elephant, which is the most famous animal in India, has been used for holidays and other important festivals. Usually, Indians respect the Bengal Tiger because it is India's national animal. Have you ever saw a Black Buck? Probably not! Because it is becoming extinct in India so now we need to save it for future generations!

**Extinct!**

Extinction causes a lot of problems. A lot of animals are disappearing in India. Could you believe that the Indian government has to set up nature preserves just to prevent the animals from disappearing. Thanks to the Indian government in 1969 we had about 2,000 Bengal Tigers and in 2005 we had about 4,500. This means in the future we won't need nature preserves because there will be about 10,000 Bengal Tigers!

Even though India contains 60% of the world's tigers, they are still disappearing. People usually kill them because they believe that the Bengal tigers' whiskers are very poisonous. They also kill them because people say that the tigers provide good medicine which gives good strength to people. Farmers kill the Bengal Tigers because the tigers mess with the farmers' cattle. But sometimes animals can use their body to help them survive.

**Amazing Body Facts**

Indian animals have body parts like us but different. An Indian Elephant can weigh up to 11,000 (about 6 tons!) they are also one of the largest animals on land. Can you believe that the Bengal Tigers' tail is 1 yard (36 inches), and is one of the largest cats in the world. Elephant tusks are made out of ivory, so it can bite into hard material. The tallest flying bird is the Sarus Crane. The King Cobra which is the longest animal in India is also capable of killing a human! Some adaptations like this one can help a person live.

2

**Humans have hands, but animals have. . .**

Indian animals have adaptations to help them live. Without their abilities most wouldn't be here. For example, the Bengal Tiger has excellent vision to help it hunt its prey. Another adaptation is that the White Rhino just looks like it has armor because of its skin. One more is that the white spots on the Bengal Tigers' ears help it see each other at night. All these help the animal live. But live where?

**Home Sweet Home**

You have a home and so do Indian animals. Most of them live in a 60 degree climate where it is dry and grassy. Camels usually roam around the deserts. These are the animals that make India very special!

**About the Authors**

■■■■ loves animals and she loves traveling. When she grows up she will travel to India and see the amazing animals she learned about when writing this report. She hopes to help save endangered species as a job. ■■■■ likes nonfiction better than fiction because he likes to read and write about facts. He learned a lot of interesting facts while he and ■■■■ were working on this paper.

**Commentary:** From its provocative opening to its clearly delineated subtopics and brief but thoughtful ending, this piece shows an excellent grasp of the genre of expository fiction while revealing the authors' creativity and commitment to their subject. The report focuses not on the country of India but on Indian animals—arguably a sensible resizing of an enormous topic. The authors keep the reader engaged through direct address (*Could you believe ...*) and the linking of one subtopic to the next. The latter strategy backfires in a couple of cases (see the last sentences in the "Extinct!" and "Amazing Body Facts" sections) when, in the process of laying the groundwork for the next section, the authors sacrifice logical connections with the preceding sentences. However, for the most part the piece develops in a logical way, thanks in part to skilled use of transitional words and phrases (*For example; Usually; because*). Facts are generally accurate. Most sentences are fluent,

and the vocabulary is varied and appropriate to the subject (*nature preserves; prevent; adaptations*). Some possessives (*worlds tigers; farmers cattle*) lack punctuation or are punctuated incorrectly, although contractions (*won't; wouldn't*) are used properly. A few spelling errors (including the word *Intresting* in the title), a sentence fragment, a run-on sentence, and subject-verb agreement problems somewhat mar an overall impressive piece of writing.

### FOOD

The country old custom is taking a siesta (nap) after lunch and dinner is served around 9 p.m. Spanish like seafood, which is plentiful and inexpensive. That is why the fishing industry is very important to Spain. A popular food in Spain is called the Paella, a dish with rice, vegetables, beef, chicken and seafood. A bunch of tapas, which are snacks and finger foods, can also be a full meal. Grapes are used for making wine and olives are used for making olive oil.

### Spain's Insane Facts

- Spain's State Flag, or Coat of Arms was adopted in 1931. It features the red & gold snakes of the civil war which dates to 1936.
- The official language of Spain is Castilian Spanish.
- The official song of Spain is Marcha Real.
- Spain is near a body of water, which is the Mediterranean Sea & Atlantic Ocean.
- Prado is the best known museum in Spain.
- Spain is really poor in natural resources.
- The animals are wolves, bears, grouse, ducks, partridges, rabbits, cooers, wild pigs, and Spanish ibex.

### ABOUT THE AUTHORS

[Redacted] didn't know anything about Spain before, she just thought it would be fun to learn. And it was. She loves basketball and singing along to her favorite music stars. [Redacted] is a fourth grader. She is lucky because she speaks two languages, Spanish, and English. Spain sounds like a great country to visit. Especially the tapas, yum! Her favorite activities are cooking, soccer, and just hanging with her friends.

### Introduction

Get ready, you're going to SPAIN!! We have been finding out a lot about this country and we're going to tell you everything we found out because Spain is a great country! It's got history, a big land and a lot of population, interesting education, and of course yummy food. So buckle your seat belt, here we go. To SPAIN!

### SPAIN'S HISTORY

The year 1492 was the year that Ferdinand and Isabella sent the Italian explorer Christopher Columbus across the Atlantic Ocean in search of a new trade route to Asia. Napoleon Bonaparte takes over Madrid, but the third of May 1808, Francisco Goya, showing Spain's resistors begin executing Napoleon troops. Spain's democratic form of government is called a parliamentary monarchy. The main people are the king prime minister, member of a cabinet, and a parliament. Most Spaniards are Roman Catholics, Protestants and Muslims. Spain is famous for there beautiful, historic castles built in the middle ages. History of also Spain can be shown in art. Spain has a lot of History doesn't it?

### Spain's Land and Population

Spain has a big land and a lot of population. Guess what. The size of Spain is 54,886 sq. mi. Did you know! The population of Spain is more than 38 million. Spain is the second largest country in Western Europe. Madrid, Spain's capital, and Barcelona, a city, are the biggest cities in Spain. Guess what? Spain is one of the leading tourist countries. Spain borders Portugal and France. Spain also borders the Mediterranean Sea. 65% of land is used for farming in Spain. Moana, Teide, a mountain, is the highest point in Spain, 12,162. Spain has seventeen land regions, but we only list seven just to explain: (1) the Basque (2) the Northern Mountains (3) the Ebro Basin (4) the Coastal Plains (5) the Guadalquivir Basin (6) the Balearic Islands and (7) the Canary Island. The Beach at Torremolinos a west of Malaga and is on Coastal, de Sol. That beach attracts thousands of foreign and Spanish visitors every year.

### SPAIN'S EDUCATION

When France ruled Spain from 1596 to 1795, its level of education and enrollment were behind the rest of Western Europe, especially France and Italy. Did you know that in 1967 only 3 out of every 100 students in primary school would make it all the way to college? That is not a lot. There was also very little space in public schools. When Spain became a democratic nation after the end of Franco's rule in 1975, children began to catch up with other progressive countries. They also got better grades. By 2002, Spain's literacy rate was 97.9% of those ages 15 were literate.

**Commentary:** This report is focused throughout on informing the reader about Spain. A table of contents guides the reader through several clearly delineated sections that include many interesting facts and details, and a helpful introduction previews what will be covered. The use of text features such as a map, phrases such as *Did you know!* and *Guess what?* and the playful subtitle *Spain's Insane Facts* reveal the authors' effort to keep the reader engaged. The history section confusingly includes information about Spain's government system and dominant religions, whereas needed information (who were Ferdinand and Isabella?) is omitted. In that section, the reader must puzzle over some of the grammar to determine intended meanings, such as the drifting second sentence with its disconcerting inclusion of what is apparently a reference to a Goya painting. The majority of

the information presented is accurate, although some statistics and details (such as the total given for Spain's population) appear to be from outdated sources. Most of the sentences in the rest of the report, however, are grammatically correct and clear, with a few lapses such as the reference to the mysterious *red & gold shapes of the civil war* and the agreement problem in the factoid about Spain's proximity to bodies of water. The lack of a conclusion leaves the reader hanging a bit, though the About the Authors section provides a sense of the authors' investment in their work. The piece exhibits few spelling errors.

**The Philippines is a beautiful country with beautiful traits. Here tips about the Philippines.**

### History

Here some interesting history about what happened in World War 2 Philippines vs. Japan. During this time the Philippines needed help from the U.S., so they can defeat Japan. Japan wanted was, for the Philippines to share their land with them but the Philippines denied it so they started war on the Philippines after Pearl Harbor in Hawaii. On July 26, 1941 General Douglas MacArthur sent 12,000 Philippine scouts and 16,000 American Soldiers were under MacArthur's command. On January 2, 1942 Japan invaded Manila. MacArthur their commander was being sent to jail by the U.S. because he was helping the Philippines.

Eventually he hid and escaped from them but didn't get caught. In 1945 World War 2 was almost over. After the war was over the U.S. Army Military Police arrested MacArthur. The year of Jose Rizal Spain wanted the Filipino people to become slaves to Spain. Someone had to fight, but who? He was a doctor at the time the Philippines really needed help. So Dr. Jose Rizal stood up and fought against the Spaniards. When one of the Spaniards tried to hurt one of the Filipinos Jose Rizal would stop them. After a few years the Philippines was freed from Spain. Now to celebrate Jose Rizal, we honor him every year on Dec 30. Here's last part of history. During Marcos times most of the Filipinos were being treated very badly, also most of the Filipinos wanted Ninoy Aquino as President of the Philippines. Marcos was very angry at Ninoy. So Marcos decided to put Ninoy in jail for nine months. After nine months Ninoy was freed from jail, and went to America with his family to get away from Marcos. After a few years when Ninoy came back to the Philippines, just after he got off the plane Ninoy was shot behind his back by one of Marcos's troops. Ninoy was buried in the hero's section with Jose Rizal. Now we honor them to be our heroes.

### Food

Most Filipinos make their food. Here's the food: pancit, palabok, leche flan, ube, adobo, longganisa, tocino, lechon, chocolate rice, rice, chocolate meat, and most of you know this Filipino food Lumpia. Pancit is mostly what Filipinos eat for special occasions. Pancit has noodles, vegetables, sometimes shrimp, and hotdogs. The desserts of the Philippines are: Halohalo, sumang (sweet rice), ube, leche flan, and many more. We hope you try these foods and like it.

Filipinos celebrate the world's longest religious holiday. The Christmas season begins Sept. 15, Christmas Carols start filling the air, a very cold winds and ends on Jan. After the Three Kings. About 5% are Muslims. The rest are made up of Christian denominations and Buddhist.

### Compare and Contrast of the Philippines and Japan

The Philippines has school Monday-Friday 7a.m.-1p.m.

Japan has school on Saturday. But the Philippines doesn't.

Japanese people eat sushi, Filipinos don't.

Filipinos speak Tagalog, Japanese people speak Japanese.

### Comparisons

The Philippines was in world war 2 Japan was also.

Japan has many interesting imports so does the Philippines.

They are both in Asia.

Japan wear uniforms to private schools, the Philippines also wear uniforms.

Both Countries believe in certain religions.

We hope you learned something about The Philippines and Japan.

### About the Authors

█ is in fourth grade at Bingham Elementary School. She knows a lot about the Philippines because she was born there. Her Mom and Dad speak Tagalog to her all the time. Her favorite food is adobo, sumang, and Lumpia.

█ goes to Bingham. She loves Philippine food, plus everyone in her family. Especially chocolate rice. She's going back there to visit when she's older.

**Commentary:** This report ambitiously attempts to report on not just one but two countries. The greater emphasis on the Philippines gives the piece a lopsided quality. Also uneven are the weights given to the different chapters: the lengthy history chapter contrasts awkwardly with the brevity of the food chapter, and two of the four chapters are lists. The table of contents outlines what is included, and headings clearly delineate subtopics. The piece is loaded with interesting facts and details, but the connections between sentences are often unclear. Particularly in the history chapter, information is jumbled together without regard to chronology, and there are few dates. Some facts are vague or presented inaccurately, and major factual errors occur in the discussion of General Douglas MacArthur’s role in World War II. Although the introduction

and conclusion come across as perfunctory, the report gives an air of authority in its intimate use of Aquino's first name and its knowledgeable list of foods, and demonstrates an awareness of the reader (in phrases like *Here's last part of history; most of you know this Filipino food Lumpia; and We hope you try these foods and like it.*). Sentence fragments (*Here tips about the Philippines; Because he was helping the Philippines; After the Three Kings*), missing words (*Here's last part of history; Japan wear uniforms to private schools*), and agreement problems (*try these foods and like it*) harm fluency and cause confusion. Some of these errors suggest second language issues. Most words are spelled correctly although more careful proofreading would catch inconsistencies.

## Part B: Published Writing

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

<ul style="list-style-type: none"> <li>Are they able to write directions that others can follow?</li> </ul>			
Other observations:			

**Considerations:**

Support struggling students by having each describe his or her cartoon character to you (without your looking at it) and by asking:

**Q** *What is the first thing you do to draw your character? How can you write that as a sentence?*

**Q** *What do you do next?*

If you notice many students struggling to write directions, call the class together and model another example as you did in Step 1 of the lesson; then have the students resume their own writing.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>▪ Are partners working together in a productive way?</li> </ul>

<p>Other observations:</p>			

**Considerations:**

Support any pair that struggles by asking questions such as:

- Q *What is the object of this game? How will you write that?*
- Q *What do players need to do to get ready? How will you write that?*
- Q *How will the players know when the game is over?*

If partners have picked a game that you feel is too complex for this writing activity, help them pick a simpler game to write about.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students

Ask the student to show you a piece of his or her functional writing and read it aloud to you.

As you listen to the student, ask yourself:	Yes	No	Not evident	Evidence:
▪ Are the directions clear and easy to follow?				
▪ Does the sequence of the directions make sense?				
▪ (Beginning Week 2, Day 2) Does the reader have all of the information needed?				

If possible, try following the student's directions. Then probe his or her thinking by asking questions such as:

- Q *I'm not clear about how to [draw the eye]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *I could [put the curved line] here or here. Where should it go? How will you write that in your directions?*
- Q *I'm confused about the order of what I'm to do. Do I [finish the legs] before I [draw the arms]? How can you make that clear in your directions?*
- Q *(Beginning Week 2, Day 2) How should I [draw the feet]? I don't see anything about that in the directions. Does that information need to be included? How might you write that?*

▪ Are the directions in an order that makes sense?				
▪ Are the directions complete and accurate?				
▪ <i>(Beginning Week 3, Day 2)</i> Have partners used <i>can, may, or must</i> to make the directions clearer and easier to understand?				

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *What is the object of this game? How will you write that?*
- Q *What do players need to do to get ready? How will you write that?*

## Thoughts About My Game Directions

Things to look for in my writing:	I did it!	I did it some of the time.	I'm still working on it.

"Hi!" said Adam.)</li> <li>- capital letters (<b>B</b>etty lives in <b>A</b>ustin, <b>T</b>exas.)</li> <li>- spelling</li> </ul> </li> </ul>			

### Reflection:

- What did you do to make your game directions fun, interesting, and easy to follow?
  
- What did you enjoy about Writing Time during this unit?

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “Individual Writing Assessment” record sheet (IA1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 130.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 124 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

**Commentary:** The title and subtitle of these directions make the game (*Bowling*) and its object (*How to knock those pins down!!!!*) clear immediately and convey a sense of fun. The materials list includes the items necessary to play the game, although readers must make the inference that the “10 empty water bottles” will serve as the bowling pins. Readers might also wish for additional information about the number of players, the game’s scoring system, and a description of the type of space best suited to play the game. The directions themselves are accurate, fairly detailed, and in a numbered sequence that makes sense. Although the writer does not explain where the player should stand while bowling, this does not detract from the overall clarity. The use of adverbs enlivens the directions and increases their precision (*Slowly and carefully, pull the hand that holds the ball back; Quickly, swing your hand forward and release the ball*). Sentences are fluent when read aloud, with correct punctuation, capitalization, and spelling.

**Commentary:** Although the title of these directions, “How to hit down Pins,” describes the object but not the name of the game, the materials list quickly makes it clear that the game is bowling. The most important items appear in the materials list, but additional preparatory information about the type of space required for bowling, the number of players, and the scoring system would have been helpful. The directions begin with a useful explanation of exactly how to grip the bowling ball, and the numbered sequence of directions is accurate. However, after the first step, the directions become vague and brief, and the vocabulary is basic (*Put your hand with the ball back; Swing and let go; Try to nock the pins down*). Although the sentences are fluent when read aloud, missing information (about the placement of the pins; exactly where the player should stand while bowling) makes it difficult to discern the precise meaning. With the exception of the first sentence, which is a run-on, the writing displays correct capitalization and punctuation. Spelling is mostly correct (with the exception of *nock* instead of *knock*).

### How to play catch

First grab a football it should be pumped up.

next put your fingers by the laces

then put your shoulders back and release the football.

try to throw it to the person your trying to throw it to.

now your playing catch. **have fun!**

**Commentary:** These directions, titled “How to play catch,” accurately describe the game and its object, although the absence of a materials list and any preparatory information (type of ball, where to play, number of players) might leave readers adrift. Although the directions are unnumbered, their order makes sense, and the use of *First*, *next*, *then*, and *now* demonstrate the writer’s awareness of sequence. The first step in the directions identifies the type of ball (a football) and helpfully reminds readers that it should be pumped up; the second step tells how to hold the ball, which is also helpful, although a brief description of football laces and their placement on the ball would make this step even more useful. More detail and description are needed in the remaining steps. Inconsistent capitalization and punctuation distract from the reading experience, but spelling is mostly correct (with the exception of *your* instead of *you’re*).

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

- What did you enjoy about Writing Time during this unit?

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “Individual Writing Assessment” record sheet (IA1) from the CCC Learning Hub ([cccllearninghub.org](http://cccllearninghub.org)) or from page 148.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 142 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

NO Smoking

I think there should be no smoking.

It is bad for your health. It makes your teeth yellow. I can hurt your lungs.

People can die from smoking. I am not going to smoke when I grow up. I don't like the smell of smoking. Sometimes when people smoke they just throw it on the ground. I don't like when people do that because it is polluting. Polluting is bad to do. One big thing I don't want to smoke is that you get lung cancer. When you have lung cancer sometimes die and that is sad. That's why I want people to stop smoking.

**Commentary:** In the opening sentence of this persuasive essay, the author clearly states an opinion (*I think there should be no smoking*). The author supports the opinion with multiple reasons (*It is bad for your health; I don't like the smell of smoking; it is polluting*) and includes details (*It makes your teeth yellow. I can hurt your lungs*), all of which support an impassioned and thoughtful stance on the issue addressed. While the reasons are individually compelling, they are not organized logically; the essay jumps from one reason to another without transitions, and only one transitional word (*because*) is employed. The single-paragraph structure further impairs the logical flow; reorganizing the piece into distinct paragraphs would help to organize the author's argument. There is some interesting vocabulary (*polluting; lung cancer*), although the few adjectives that appear are generic (*bad; sad*), and more descriptive language could be used. A clear, direct conclusion restates the opinion. Capitalization and end punctuation are correct, although the author omits apostrophes in contractions. A few proofreading errors persist, and the essay's single paragraph is not indented, but most of the spelling is correct.

**Commentary:** The author's opinion and its intended audience are quickly apparent in the title and opening sentences of this persuasive essay (*I think we should have a mini basketball court in our basement*). Supporting reasons are given, and the author's personal engagement is clear (*whenever you're board you can just go down to the basement and play the best sport ever invented and it's basketball*). In one instance, a fact about muscles makes a reason stronger (*playing basketball helps your muscles get more bigger and more stronger*). The persuasive power of the essay is further enhanced by two direct appeals to the author's father. A few transitional words and phrases are used (*Because; And by the way*), although *Because* begins a lengthy sentence fragment. Descriptive language is limited to basic adjectives (*bigger, stronger*). The essay lacks a conclusion and there is no paragraphing or indentation. However, individual sentences are mostly fluent when read aloud, and there are only a few spelling or proofreading errors.

**Commentary:** The opinion stated in the opening sentence of this persuasive essay is clear but not entirely fluent (*I want to convince people for no homework*). The piece seems to be aimed at a general audience. The first supporting reason given is valid and well-expressed (*Kids need time to play and burn off energy*). The rest of this brief, single-paragraph essay is devoted to an ambitious, if somewhat dubious, chain of reasoning about the environmental consequences of assigning homework on trees, oxygen, and the survival of all living things. Only one transitional word is used (*because*), and there are no adjectives or other descriptive words. Although the essay makes a strong impression on the reader, the absence of a conclusion or any restatement of the author's opinion weakens its overall persuasiveness. Correct capitalization is used, although two sentences are missing end punctuation. While spelling is conventional, there is an absence of indentation or paragraphing.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
▪ Do the students seem to be writing freely and creatively?			
▪ Are they engaged in their writing?			
▪ Do they seem overly cautious or inhibited about what they put on paper?			
Other observations:			

**Considerations:**

After about 10 minutes, support any student who struggles to start by asking questions such as:

- Q *What kind of weather could you write about?*
- Q *What sensory details can you write to describe what [a windy day] sounds like? Looks like? Feels like?*
- Q *What does [wind] sound like? What words make you think of the sound of [wind]?*

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students

Other observations:			

**Considerations:**

Support any student who struggles by asking questions such as:

- Q *What were you thinking about when you marked this place on your draft?*
- Q *What words could you add to help the reader [see/hear/smell/taste/feel] what you're writing about?*
- Q *Read your poem aloud. What sounds do you hear? Do those sounds help to communicate what your poem is about? If not, what words might have the sounds that would make sense in your poem?*
- Q *What do you want your poem to look like on the page? How can you arrange the words so it looks like that?*

Ask each student to show you a draft of a poem and to read it aloud to you.

As you listen to the student, ask yourself:	Yes	No	Not evident	Evidence:
▪ Is this student attempting to write a poem, rather than a story?				
▪ Does this student include sensory details in his or her poem?				
▪ Does the student include other elements of poetry?				

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*
- Q (Beginning Week 1, Day 5) *Where might you use repetition? How might that help a reader understand your poem? What other sounds are you including?*
- Q (Beginning Week 2, Day 4) *Have you decided to punctuate your poem with periods and to use capital letters? If you decided to follow the rules, are you doing this all the way through your poem? If not, what are you doing instead?*

## Thoughts About My Poem

Things to look for in my writing:	I did it!	I did it some of the time.	I'm still working on it.
▪ I wrote a poem instead of a story.			
▪ My writing is fun and interesting.			
▪ I used interesting words to describe how things look, feel, sound, taste, and smell.			
▪ The sound and shape of my poem help readers know what it is about.			
▪ I have proofread my writing. I checked for: <ul style="list-style-type: none"> <li>- spelling</li> <li>- following or not following the rules of punctuation and capitalization throughout my poem</li> </ul>			

**Reflection:**

- What did you do to make your writing fun and interesting to read?
  
  
  
  
  
  
  
  
  
  
- What did you enjoy about Writing Time during this unit?

## Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to [classview.org](http://classview.org) to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the "Individual Writing Assessment" record sheet (IA1) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 164.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 158 to help you prepare for scoring the students' work.

### CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

**Commentary:** It is clear from the title and content of the piece that this is a poem about a pencil. The long, narrow form of the poem further supports the content. The poet does a particularly good job of writing about the pencil as if it were alive by describing it writing, traveling, pointing, and waiting to do its *happy dance*. The poem contains many sensory details, most of which describe how the pencil looks and sounds (*long thin; yellow; Tap Tap*). The poet also incorporates some sound by using onomatopoeia and repetition (*Tap Tap! Tap Tap!*). The vocabulary is both interesting and effective in making pictures in the reader's mind. The poet's decision to leave the poem mostly unpunctuated calls attention to the exclamation marks (*Tap Tap!*) and the period at the end of the second stanza (*where each sentence ends.*), which also stands out because it is referring to sentence endings. The poet's creativity is evident throughout the poem, particularly in the interesting opening stanza and the energizing ending.

**Commentary:** This poem about a bibliophile bookshelf features sensory details describing the bookshelf's appearance (*big and metal, green and red, stuffed with knowledge*). The poet's originality is revealed in the portrayal of the bookshelf as if it were alive—never being bored, always reading, and going to the library and stealing books. The phrase *stuffed with knowledge* is vivid and leaves a reader wishing for more such imaginative uses of language. The poet incorporates sound into the poem by using repetition and alliteration (*book, by book, by book*), underscoring the methodical, determined approach of many a voracious reader. Sentences are capitalized and punctuated correctly, and almost all of the words are spelled conventionally (with the exception of *board* instead of *bored*).

**Commentary:** The title, shape, and content of this poem make its enticing subject clear. The catchy introduction (*Here there everywhere there's ice-cream in the towns*) shows creativity, while setting the reader up for a consistent rhyming pattern throughout the poem. The poem contains some sensory details that evoke the taste, color, and feel of ice cream (*It's cold burr; It's good yummy; It's refreshing; pink, bule, white and green*). The poet incorporates sound by using both repetition and alliteration (*drip down down down*). The vocabulary is reasonably effective in making pictures in the reader's mind, although some of the words (for example *good* and *yummy*) could be replaced by more original choices. The poet chose not to use end punctuation; commas are used but not consistently, and the lack of consistency does not support a discernable purpose. Some of the spelling is approximated (*to* for *too* and *nevr* for *never*); this and a couple of other errors (*bule* for *blue*, the hyphen in *ice-cream*) detract somewhat from the poem's overall effectiveness.

## Part B: Published Writing

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bullets listed under it.

## Revisiting The Writing Community

End-of-year Writing Sample (WS2) .....	168
Class Assessment Records (CA1-CA2) .....	172
Conference Notes (CN1) .....	174

## Obtaining an End-of-year Writing Sample

### PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “End-of-year Writing Sample Record” sheet (WS2) from the CCC Learning Hub ([ccclearninghub.org](http://ccclearninghub.org)) or from page 170. Review the questions on the record sheet to help you prepare to analyze each student’s work.
- ✓ Plan to provide enough time for the students to complete the writing sample. You might base the amount of time on your school district’s requirements for similar writing tasks or simply provide your students with the time they need to complete their writing.
- ✓ Gather any additional materials needed to complete the writing task (for example, dictionaries, extra pencils, crayons, or markers) and make them available to your students.
- ✓ Write the following prompt where everyone can see it: *All of us enjoy having fun. Tell about a time when you did something fun.*

### CONDUCTING THE ASSESSMENT

1. Tell the students that today they will each write a piece that shows what they know about good writing. Explain that the students should try to do their best writing in this piece.
2. State your expectations for how the students will behave while you are conducting the assessment (for example, students should stay in their seats, work silently, and raise their hands if they have questions). You might also tell the students what additional resources, if any, they can use as they write (such as drawing materials or a dictionary).
3. Direct the students’ attention to the prompt and explain that they will all write about this topic. Give the students a few moments to read the prompt.
4. Give the students a few moments to think about what they will write. (If you are conducting this assessment as a timed writing activity, tell the students how much time they will have to complete their writing and that you will let them know when they have 10 minutes remaining.)
5. Distribute writing paper and have the students begin.
6. Signal the end of the writing period and collect the students’ writing.

(continues)

## ANALYZING THE ASSESSMENT

For each student's writing sample:

1. Read the piece carefully. As you read, think about the questions on the “End-of-year Writing Sample Record” sheet (WS2) and record your observations. Make note of any writing conventions that the student uses consistently or inconsistently, and indicate which, if any, grade-level skills are absent from the writing.
2. Review the student's beginning- and end-of-year writing samples. Compare your comments on the student's “Beginning-of-year Writing Sample Record” sheet (WS1) from Unit 1 with those on the “End-of-year Writing Sample Record” sheet (WS2) to see how the student's writing has improved over the year.
3. Attach the completed record sheet to the writing sample and file it in the student's individual assessment folder. Consider passing the folder along to the student's teacher for next year.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>Are the students able to explain why they marked a piece as their best, most fun, or most challenging?</li> </ul>			
<ul style="list-style-type: none"> <li>Do they refer to their first drafts or other steps in the writing process in talking about their pieces?</li> </ul>			
<ul style="list-style-type: none"> <li>Do they listen carefully to each other?</li> </ul>			
<p>Other observations:</p>			

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> <li>Do the students write confidently about ways to be a good writer?</li> </ul>			
<ul style="list-style-type: none"> <li>Do students who seemed cautious or inhibited about their writing early in the year write more freely now?</li> </ul>

<p>Other observations:</p>			

Student's Name: \_\_\_\_\_ Date: \_\_\_\_\_

Ask the student to show you his or her marked pieces of writing and briefly tell you about each one. Help the student think about what it was like to write these pieces and how he or she has grown as a writer this year. Ask the student questions such as the following and record his or her responses:

Q *Which piece did you mark as your [best/most fun/most challenging]? Why?*

Q *What do you remember about working on this piece?*

Q *How do you feel about your writing?*

Q *How do you feel when you are asked to read your own writing to the class?*

Q *What did you like writing about this year?*

Q *What do you do best as a writer?*

Q *How do you think you have changed as a writer this year?*

Q *What are some things you might want to write about this summer?*

# Acknowledgments

Many people were involved in the development of the *Guided Spelling™* program, and we are grateful for their time, expertise, suggestions, and encouragement. We are particularly indebted to the teachers who piloted portions of the program; they took time and care in preparing to teach the lessons, gave us insights into the ways the program benefited their students, and provided comments and suggestions about program usability for teachers. Their cooperation and expert feedback have been invaluable.

# Introduction

Becoming a good speller involves more than simply memorizing words and passing tests. Both in and out of school students will need to spell and write many more words than they can possibly memorize. It is critical for them to know how to approach words that they have not learned for spelling tests. Knowledge about spelling empowers students to spell independently.

The *Guided Spelling* program is a curriculum designed for grades 1–6 with the primary goal of developing knowledgeable, independent, and *thoughtful* spellers. Thoughtful spellers know the content of English spelling: they know how to segment and spell by sounds, recognize patterns within words, add inflections, spell by syllables, add prefixes and suffixes, and apply morphemic spelling knowledge.

- **Segmenting and spelling by sounds**, for example, segmenting /săt/ into its sounds for spelling—/s/+/ă/+/t/—and spelling the word *sat*
- **Recognizing patterns within words**, for example, knowing that the sound /ō/ can be spelled **o\_e** as in *home*, **oa** as in *loan*, or **ow** as in *glow*
- **Adding inflections**, for example, doubling the **p** in *hop* and adding *-ed* to get *hopped*, or dropping the **e** in *hope* and adding *-ing* to get *hoping*
- **Spelling by syllables**—breaking words like *Friday* and *middle* into syllables and pronouncing the syllables in ways that reflect their spelling
- **Adding prefixes and suffixes**, for example, adding *dis-* to *connect* to form *disconnect* or adding *-able* to *desire* to form *desirable*
- **Applying morphemic spelling knowledge**, for example, knowing that the word *construction* is related to the word *construct*, so the final syllable is spelled *-tion*

Thoughtful spellers have also memorized the spelling of many words, especially high-frequency words (such as *mother*, *toward*, and *laugh*) and spell them automatically in their writing.

Finally, thoughtful spellers use all of their spelling knowledge in a metacognitive and deliberate manner. They anticipate the pitfalls of English. They know which spelling strategies to use in particular situations. They know when they don't know how to spell a word, and they know what resources to consult for assistance.

There is no substitute for thoughtful spelling. Computer spell-checkers fail to recognize a significant portion of misspellings; they often fail to offer the correct spelling for the intended word; and a weak speller is frequently unable to select the right spelling from the list the spell-checker provides (MacArthur et al. 1996; Pedler 2001).

The *Guided Spelling* program is specifically designed to support the development of thoughtful spellers through 15-minute daily lessons that are teacher-directed, multisensory, and interactive.

## ► **How the Guided Spelling Program Works**

At the heart of the *Guided Spelling* program is the daily guided spelling activity in which the students apply the spelling strategies they are learning by writing words as the teacher provides support and guidance. For each word spelled, the teacher follows three steps: (1) first, the teacher introduces the word; (2) second, the teacher provides guidance while the students spell the word; and (3) finally, the teacher provides feedback and the students correct any misspellings.

When introducing each word, the teacher pronounces the word and uses it in a sentence so that the students hear the word in context. Then the class repeats the word. Speaking the word aloud makes students more aware of the sounds in the word.

The teacher then provides guidance to help the students think about how to spell each word correctly. Before and while the students write a word, the teacher provides information that helps them think about how to approach the most challenging parts of the word. For example, in grade 4, teacher guidance often focuses on how to change the base word when a suffix is added, such as changing *y* to *i* before adding *ness*. Teacher guidance encourages students to do the thinking as they become increasingly aware of the decisions they need to make when spelling a word. Extensive explanation and modeling by the teacher ensure that the students understand the principles they are applying.

Once the students have written the word, they read and spell it aloud as the teacher writes it correctly on the board. Students then check their own work and correct any misspellings.

In guided spelling, students respond in unison to questions. Choral responses are very important in the teaching of spelling because spelling is strongly influenced by the writer's pronunciation: as students repeat the teacher's pronunciation, they learn the pronunciation that helps them spell. Choral responses also elicit a high level of student engagement by encouraging the participation of students who lack confidence and would not take the risk of responding individually. Finally, choral responses give the teacher an opportunity to assess student understanding on an ongoing basis.

The *Guided Spelling* lessons follow a weekly pattern: The teacher introduces the week's words on the first day, leads the students in guided spelling on Days 1–4, and gives a spelling test on Day 5. Every sixth week is a review week, and includes a pretest, a proofreading exercise, partner study time, a whole-class spelling discussion, and an end-of-week test. A five-day week for spelling is strongly encouraged, especially for students who are struggling. If the school schedule or other factors prevent a five-day-per-week spelling program, Day 4 of each week may be omitted.

Students learn spelling strategies in a safe, noncompetitive atmosphere. Teacher guidance promotes thoughtfulness and accuracy, while the program's multisensory elements create links among hearing, seeing, saying, and writing word parts and words. Because it assures success, *Guided Spelling* leads to student self-confidence and enthusiasm for spelling.

## ► **Features of the Program**

### **Research-based Instruction**

The content and teaching methodology used in the *Guided Spelling* program are based on extensive research in spelling content and how students learn. For more information, refer to the section “Research Basis for *Guided Spelling*” on page 484.

### **Strategies for Morphemic Spelling**

In the *Guided Spelling* program, the students use the structure of words to help them spell. They learn the generalizations for adding suffixes (including inflectional endings), such as doubling the last consonant and dropping *e*. They spell common prefixes, base words, and suffixes. They learn to use related words as spelling

clues; for example, *colony* is a clue for *colonial*. In grades 5 and 6, the students spell words with Greek and Latin roots such as *uni*, *medic*, *soci*, and *gress*.

### **Strategies for Spelling Polysyllabic Words**

In grades 3–6 of the *Guided Spelling* program, the students learn strategies for spelling polysyllabic words. Polysyllabic words are difficult because the pronunciation of a word does not always reflect the written syllables. For example, we pronounce *happy* as /hă-pē/, but the written syllables are *hap-* and *-py*. Polysyllabic words usually have at least one unaccented syllable with a vowel that is often difficult to spell, as in *benefit* and *separate*. In the *Guided Spelling* program, students spell base words by syllables and learn to focus on schwas and other unaccented vowels. They gain extensive experience with syllable boundaries and syllable types. In grades 4–6 they spell common syllables and word parts such as *-ture*, *-ence*, and *-able*.

### **Strategies for Spelling Think Words, Pattern Words, and Sight Words**

In grades 1–3 of the *Guided Spelling* program, the students learn strategies for spelling three types of words: think words, pattern words, and sight words. For example, when the students know consonant and short vowel sounds, they can spell most short vowel words without memorizing them. After they learn the generalizations for inflectional endings, they can also spell hundreds of words like *stops*, *stopped*, *filled*, *ended*, and *dishes*. In the *Guided Spelling* program, words that can be spelled without memorization are referred to as “think words” in grades 1–3.

For words that include sounds that have more than one common spelling (called “pattern words” in grades 2 and 3), students must memorize which spelling to use. For example, *coat* has the common spelling **oa** for the sound /ō/, but **o\_e** and **ow** are also common spellings for the sound /ō/. The speller who knows all the common spellings of the sound /ō/ has an advantage in spelling, but still must memorize which spelling is correct for each word.

Students will also encounter irregular words, or “sight words,” that have letters or letter combinations that represent sounds in uncommon ways. When writing the word *been*, for example, spellers might be tempted to spell it *bin* or *ben* (depending on how they pronounce the word); they must learn that *been* is

an irregular word and remember that *been* is spelled **b-e-e-n**. Strategies for memorizing sight words are taught and practiced in grades 1–3.

## Support for Phonemic Segmentation

Grade 1 of the *Guided Spelling* program includes extensive instruction in phonemic segmentation. Many beginning spellers have a difficult time perceiving the sounds in a word. They don't realize, for example, that the word *sat* is made up of the sounds /s/ + /ă/ + /t/. Students receive a great deal of support in identifying each sound (phoneme) in a word and learning how to write the letters in sequence.

## Word History

Beginning in grade 4, the *Teacher's Manual* provides frequent notes on the history of the spelling words. For example, *crocodile* comes from Greek words that meant *pebble-worm*; the Greeks noticed that this worm-like creature would lie in the sun on the pebbles by the side of the water. Through the history notes, students learn that the spelling, meaning, and pronunciation of words often change over time, and that many English words have origins in other languages and cultures. When a history note refers to a country or region, you may want to point out the area on a map.

## Instruction in Memorization

Methods for memorizing words are taught explicitly in the *Guided Spelling* program through modeling, practice of memory steps, and instruction in how to study. In addition, the students learn to use mnemonics (memory aids) and also keep records of words they've missed so they'll know which words they particularly need to study.

## High-frequency Words

The high-frequency words the students memorize in the *Guided Spelling* program were selected from studies of high-frequency words in school reading material (Carroll, Davies, and Richman 1971; Zeno et al. 1995). About 90% of the base words that the students memorize are base words in the 3,000 most frequent words listed by Zeno et al. Most of the remaining 10% are base words in words ranked 3,000–5,000 in frequency. The challenge words in grades 4–6 also come from base words in the 3,000–5,000 frequency range in Zeno et al.

## Frequent Review

Spelling concepts and specific words are reviewed multiple times in the *Guided Spelling* program. Each new spelling concept is emphasized during guiding for two weeks and usually appears in future lessons as well. At grades 1–3, every word to be mastered is studied for two consecutive weeks and then again in the review week. Each week in grades 4–6, the students study 10 of the previous week’s words. Review weeks include 50 words. If your schedule does not allow time for your students to study all 50 review words, select several representative words from each week being reviewed.

## Frequently Misspelled Words

Grades 4, 5, and 6 include review of commonly misspelled words taught in previous grades, such as contractions, compound words, homophones, numbers, and abbreviations. A list of frequently misspelled words also appears in the *Student Spelling Book* for student reference.

## Differentiated Instruction

*Guided Spelling* is designed for whole-class instruction; the structure of the program allows students at different levels to learn together. Instruction may also be differentiated, beginning in grade 2, to meet the needs of students struggling with grade-level content and those who need an extra challenge. Such individual needs can be met by varying the number of words studied each week. In the “Words Used This Week” list at the beginning of each week, stars indicate words for below-grade-level spellers; students who are struggling can concentrate on studying just these words. “Challenge words” are also provided for advanced spellers who are able to study and learn additional words independently.

## Support for English Language Learners

English Language Learners (ELLs) face many challenges in spelling. The spelling strategies taught in the *Guided Spelling* program are particularly helpful to English Language Learners. The program provides students with the concepts underlying English spelling, including the inflectional endings (such as *-ed*, *-ing*, and possessive endings) that are so difficult for English Language Learners. Research suggests that English Language Learners benefit from systematic, explicit instruction such as that provided by *Guided Spelling* (see page 485). Interactive

instruction during the daily guided spelling activity offers many opportunities for students to apply the concepts they've learned and receive immediate feedback.

In addition, English Language Learners have many opportunities to hear and speak spelling words aloud. By stressing the relation between spelling and pronunciation, *Guided Spelling* helps students develop in both areas simultaneously.

## **Notes About Regional Dialect and Pronunciation**

Students realize early in their schooling that there is not an exact correspondence between words as pronounced and words as spelled. Speakers of some regional dialects face a challenge when the spelling curriculum does not reflect their pronunciation. For example, most spelling programs, including *Guided Spelling*, teach **w** and **wh** (as in *weather* and *whether*) as representing different sounds, but many American English speakers pronounce them identically. The same is true for short **e** and short **i** (as in *pen* and *pin*) and short **o** and **aw** (as in *lot* and *law*). Notes about regional variations are included throughout the *Guided Spelling* program in the “Teacher Background” sections at the beginning of each week’s lessons.

## **Support for Transferring Spelling Knowledge to Writing**

It is essential for students to be able to transfer their spelling knowledge to their writing. To do so, students must be able to apply the concepts they have learned in spelling lessons to words that they have not encountered in class. Every day in the *Guided Spelling* program, students practice a variety of different spelling strategies that prepare them to spell new words. During daily guiding, students use these strategies on words beyond the weekly words to be mastered. With teacher support, the students become increasingly self-sufficient. In grades 4–6, they write four items independently each day, deciding which strategies to use and developing the key metacognitive ability of knowing when they need to seek help.

In grades 4–6, the students also engage in frequent partner work to practice expressing the reasoning behind English spelling; for example, partners explain to each other why they dropped **e** before the suffix in the word they have just written.

Class discussions raise awareness of how to spell correctly when writing. Students are provided with a “dictionary and personal word list” at the back of the *Student Spelling Book*, which allows

them to look up words as they proofread their writing, and record words they have misspelled. The weekly tests include “application words”—words that the students have not been explicitly taught but that they can figure out by applying the spelling concepts they have learned.

## **Assessment**

Assessment occurs through weekly spelling tests and teacher observation of student work during the daily guided spelling period. The *Teacher’s Manual* supports teachers in interpreting student progress and test performance and adapting instruction for group and individual needs that may arise.

## **Detailed Teacher’s Manual**

The *Guided Spelling Teacher’s Manual* provides strong support for teachers. The guiding procedures are shown in detail for the first two weeks and throughout the year when new material is introduced. At the beginning of each week in the *Teacher’s Manual* is an introduction that summarizes the new content, provides background and advisory notes, and lists all the words in the week’s lessons. Lessons are easy to implement and are written in step-by-step detail to support both teachers and students.

A separate book of blackline masters supplies reproducible homework for each week and, in grades 4–6, optional partner activities. These optional activities reinforce spelling concepts and encourage the students to apply their knowledge beyond their guided spelling practice to activities such as word sorting.

## **Student Spelling Books**

The *Student Spelling Book* for grades 4–6 includes a section at the beginning of each week with the week’s 15 new words and a sentence for each, plus 10 review words from the previous week. There is also a page for each day’s guided spelling lesson, where the students write the words for that day. Student references are provided at the back of the *Student Spelling Book*, and include the generalizations for adding suffixes, a “dictionary and personal word list,” and a list of frequently misspelled words.

## **Spelling-Sound Chart**

The spelling-sound chart, provided with the *Guided Spelling* program at grades 3–6, plays a critical role in helping students organize the complexities of spelling and phonics. Most of the items on the chart represent spelling-sound correspondences,

with each item representing one sound and listing common spellings for that sound. The illustration serves as a mnemonic to help students easily locate the spelling or spellings they are looking for. For example, the item with the illustration of the bone represents long **o** and shows the common spellings for the sound /ō/: **o\_e**, **oa\_**, **ow**, and **o**. The blanks show where other letters occur when the sound has that spelling. For example, when the sound /ō/ is spelled **oa**, one or more consonants will usually follow. When we hear the sound /ō/ at the end of a word, in most cases it will not be spelled **oa**. Hence the spelling on the chart is **oa\_**.

There are also three items on the chart that represent possessives: “girl’s hat,” “cats’ dish,” and “men’s dog.”

The chart should be posted in a location where it is visible to all students and the teacher can conveniently point to each item on the chart.

---

## ► Overview of Content in Grades 1–6

The *Guided Spelling* program content follows a developmental sequence, progressing from alphabetic spelling to patterns to morphemic spelling, as seen in the chart on the following page.

At each grade, the students also master the spelling of many high-frequency words: 30 irregular words at grade 1; 100 regular words and 100 irregular words at grade 2; 200 regular words and 100 irregular words at grade 3; and 375 words in each grade at grades 4, 5, and 6.

At grades 2 and 3, the students learn to spell homophones, compound words, contractions, and numbers. At grade 3, they are also introduced to spelling abbreviations, weekdays, and months. At grades 4–6, the students review contractions and other frequently misspelled words. At grades 4 and 5, they learn to spell unusual plurals. At grades 4–6, word history is frequently included in the guided spelling lessons.

## ► Grade 4 Content

In grade 4 of the *Guided Spelling* program, the students learn strategies for spelling polysyllabic words that include various types of syllables, syllable boundaries, and schwas. They learn the generalizations for adding suffixes, and they spell words with common prefixes and suffixes. They spell possessives, unusual plurals, and frequently misspelled words. Word history is included in many lessons. The students master 375 words.

### Phonemic Spelling Knowledge

- Review of vowels, for example, *tracks*, *complete*, *corner*, *fright*, *drew*, *amount*, *destroy*
- Schwas and other unaccented vowels, for example, *second*, *open*, *thousand*, *button*
- Syllable boundaries, for example, *un.til*, *fin.ish*, *i.de.a*
- Syllable types (constructions), for example, *hundered*, *pilot*, *complete*, *better*, *approach*, *example*

### Morphemic Spelling Knowledge

- Generalizations for adding suffixes, including inflectional endings such as *-ed* and *-ing*:
  - Single-syllable doubling, for example, *dropped*, *quitting*
  - Dropping *e*, for example, *dividing*, *excited*, *believable*
  - Changing *y* to *i*, for example, *replied*, *activities*, *easiest*
  - Polysyllabic doubling, for example, *beginning*, *controlled*, *unforgettable*
- Spelling possessives, for example, *today's*, *nations'*, *women's*
- Common prefixes, for example, *un-*, *re-*, *dis-*, *non-*, *mis-*, *pre-*
- Common suffixes, for example, *-ful*, *-less*, *-ness*, *-er*, *-or*, *-est*

### Other Spelling Knowledge

- Frequently misspelled words, for example, *though*, *field*, *of course*
- Homophones, for example, *through/threw*
- Contractions, for example, *can't*, *won't*, *it's*
- Unusual plurals, for example, *halves*, *teeth*, *potatoes*
- Word history, for example, *squirrel* comes from words meaning *little shadow-tail*

## Spelling Strategies

- Polysyllabic spelling, for example, *remember* → *re-mem-ber*;  
*sudden* → *sud-den*
- Using related words, for example, *act* → *action*;  
*discuss* → *discussion*

## ► Using Guided Spelling with Other Programs from Center for the Collaborative Classroom

---

The *Guided Spelling* program is the spelling component of a complete set of language arts curricula developed by Center for the Collaborative Classroom (CCC) and can be integrated with any of the programs described below. For complete information on Collaborative Classroom’s programs, visit our website at [collaborativeclassroom.org](http://collaborativeclassroom.org).

### **SIPPS**

The *Guided Spelling* program may be used in conjunction with CCC’s *SIPPS*® program (*Systematic Instruction in Phonological Awareness, Phonics, and Sight Words*). *SIPPS* is a decoding program that includes brief daily spelling instruction. When *SIPPS* is used with *Guided Spelling*, the spelling portion of the *SIPPS* lessons may be replaced with *Guided Spelling*.

### **Being a Writer**

The *Being a Writer*™ program is a yearlong curriculum for grades K–6 designed to help each student develop the creativity and skills of a writer. *Being a Writer* provides inspiration and motivation and a clear scope and sequence to develop students’ intrinsic desire to write regularly and to help students build a full understanding and appreciation of the craft and conventions of writing. The *Being a Writer* program provides students with ample opportunities to use their spelling skills while advocating teacher acceptance for “invented” spellings in the early grades.

### **Making Meaning**

The *Making Meaning*® program is a classroom-tested K–6 reading comprehension curriculum that combines the latest comprehension research with support for students’ social and ethical development. It uses read-aloud books to teach students nine different comprehension strategies while also developing their social values to create a supportive community of readers.

The *Vocabulary Teaching Guide* provides 30 weeks of vocabulary instruction that build students' word knowledge, supplementing and supporting the reading comprehension lessons in the *Making Meaning Teacher's Manual*. The students learn high-utility words found in or relating to the read-aloud texts. The lessons combine direct instruction in word meanings with activities that require the students to think about the words and use them as they talk with their partners and the class. Students also learn independent word-learning strategies, such as recognizing words with multiple meanings and using context and prefixes and suffixes to figure out word meanings.

## Short Vowels; Frequently Misspelled Words

### ► New Content

---

The sound /ă/ as in *catch* is spelled **a**.

The sound /ĕ/ as in *spend* is spelled **e**.

The sound /ĭ/ as in *skill* is spelled **i**.

The sound /ŏ/ as in *pond* is spelled **o**.

The sound /ŭ/ as in *lunch* is spelled **u**.

### ► Teacher Background

---

In Week 1 the students will review frequently misspelled words and short vowels taught in previous grades.

The first two weeks of the *Guided Spelling* program are structured to introduce the students gradually to the weekly and daily procedures for guided spelling. On Days 2, 3, and 4 of Week 1, the students will write fewer words than they will in later lessons so they can practice and get used to the basic steps for spelling and correcting words before doing a full lesson.

On Days 1 through 4 of each week, you will use the board or projector. Whichever you use, make sure all the students can see easily. If you are using a projector, you can make a transparency of the reusable form on *Blackline Masters* page 1. If you are using the board, you will need to write numbers on the board before each lesson (see the “Teacher Background” section at the beginning of each lesson). You will use the board or projector for two purposes:

- When the students read and spell each word aloud after writing it, you will write the correct word to help the students check their work.
- For some types of student questions you will write the answer for the students to read silently. This process is explained on page 12.

During the lessons, you will frequently ask the students questions to guide them through the steps to correct spelling. We recommend that the class give choral responses to your questions. The rationale for choral responses is given on page viii.

We suggest that you teach the lessons at a fairly quick pace. If some of the students make a mistake in a response, simply tell the class the correct answer and then repeat the question.

In addition to the main content of the spelling lessons (described in the “New Content” section each week), the *Guided Spelling* program includes additional “guiding points” (content in addition to the major focuses of each week). A comprehensive list of these guiding points appears in the “Scope and Sequence” chart on pages 489–494. Six guiding points are introduced this week: the sound /k/ directly after a short vowel in a one-syllable word is spelled **ck**, as in *tracks*; the sound /l/ at the end of a one-syllable short-vowel word is usually spelled **ll**, as in *skill*; the sound /ch/ directly after a short vowel in a single-syllable word is usually spelled **tch**, as in *catch*, though *which*, *much*, and *such* are common exceptions; the sound /j/ directly after a short vowel in a single-syllable word is spelled **dge**, as in *badge*; the suffix /əz/ is spelled **es**, as in *lunches*; preconsonantal nasals in consonant clusters, as in *pond*, are difficult.

The symbol /ə/ stands for an unaccented short **u** sound. It is called a “schwa.” It is used in the *Guided Spelling* program to indicate the unaccented vowel sound such as in the suffixes **es** and **ed** and in the words *second* and *ago*.

Compound words and homophones are introduced on Day 1.

Each day the students will write the last four words independently. You will continue to use the word in a sentence and have the students repeat it, but you will not provide further guiding unless the students request help. For a further explanation of independently written words, see page 4.

During this week’s pre-spelling activities, you will focus on using the spelling-sound chart to help spell short vowel sounds. For an explanation of the spelling-sound chart, see pages xiii–xiv.

An optional spelling activity for partners is provided each week. This enrichment activity reinforces spelling concepts, encourages the students to apply their knowledge beyond the words they write during guided spelling, and increases their interest in spelling. The activity for Week 1 can be found on *Blackline Masters* page 42.

In the introduction to each week, there is a chart entitled “Words Used This Week” (see below for an example). This chart contains a list of all words used in the week’s lessons for your reference:

<b>NEW WORDS</b>	Fifteen new words are introduced each week (except during review weeks). Weeks 1, 2, and 3 include several frequently misspelled words that were taught in previous grades. Beginning in Week 2, the students will be tested on the new words at the end of the week they are introduced.
<b>REVIEW WORDS</b>	These are ten words that were introduced in the previous week. The students will review these words and be tested on three of them at the end of the week.
<b>CHALLENGE WORDS</b>	These words are for your advanced spellers to memorize if you are differentiating instruction.
<b>APPLICATION WORDS ON THE TEST</b>	These are words on the test that have not been announced in advance. The purpose is to assess the students’ knowledge of the spelling concepts taught.
<b>ADDITIONAL WORDS IN DAILY GUIDED SPELLING</b>	These are words that the students will write during guided spelling to practice the concepts being taught in the week’s lessons. The students will not be tested on these words.
<b>FREQUENTLY MISPELLED WORDS</b>	Most weeks there will be some frequently misspelled words that the students will memorize and/or write in guided spelling. These have been taught in earlier grades but need periodic review because they are often missed in student writing.

## ► Words Used This Week

The stars indicate words for below-grade-level spellers in classes where spelling instruction is differentiated (see pages 29–30 for more information). Note that Week 1 does not have review words, challenge words, or application words.

<b>NEW WORDS</b>	*catch, *spend, *skills, *pond, *lunches, *tracks, *badge, *a lot, cannot, through, off, field, what, young, spread
<b>ADDITIONAL WORDS IN DAILY GUIDED SPELLING</b>	swept, badges, catches, spreads, fields, spends, stretches
<b>FREQUENTLY MISPELLED WORDS</b>	a lot, cannot, through, off, field, what

## ► Teacher Background

Each week on Day 1 you will use the following procedure to introduce the new words (see “Words Used This Week” on page 3):

- Read each word and sentence as the students follow along in their *Student Spelling Books*.
- Explain the spelling features in each word and have the students underline the parts that have to be memorized, for example, **ea** in *spread*.

During guided spelling in this day’s introductory lesson, the students will write eight of the new words. If you are using a projector, make a transparency of the reusable form (*Blackline Masters* page 1). If you are using the board, number from 1 to 8.

During guided spelling you will frequently tell your students that if they aren’t sure how to spell part of a word they should raise their hand to ask you. This encourages the students to *know when they don’t know* how to spell a word—an important metacognitive skill in spelling. Respond to their questions by writing the answers on the board or overhead to the left of the item number. For example, if a student asks how to spell the sound /j/ in *badge*, write **dge** to the left of number 7. This process is explained on page 481.

Each day the students will write the last four words independently. You will continue to use the word in a sentence and have the students repeat it, but you will not provide further guiding unless the students request help. Encourage the students to raise their hands and ask for help when they need it. You will respond by writing the answer on the board or overhead to the left of the item number. One major purpose of the independently written items is to develop the students’ willingness to seek spelling assistance when they need it. Knowing when to seek help is a key metacognitive ability among good spellers.

If you have not already done so, post the spelling-sound chart in your classroom where all the students can see it easily.

## ► Pre-spelling: Using the Spelling-Sound Chart

**ELPS 5.A.i**  
Pre-spelling Activities  
(all, beginning on page 5  
and continuing to the top  
of page 6)

► Point to the first picture on the top row of the spelling-sound chart.

This chart will help you in spelling. This is a cat “at the chair.” Let’s say you are spelling the word *splash*, and you’re not sure how to spell the sound /ă/. Look for the picture of the cat “at the chair” and see the spelling under the picture: **a**.

The top row shows the short vowels. The short vowels will be important this year in words that are polysyllabic. A *polysyllabic* word has more than one syllable.

► Point to each of the other four short vowel pictures and tell its name: “edge of the chair,” “in the chair,” “on the chair,” and “under the chair.”

a . . . . . ► Point to **a**\_ on the chart.

Where is the cat? (Students: at the chair) Sound? (Students: /ă/)

► Point to the blank in **a**\_.

This means that when the short vowel sound /ă/ is spelled **a**, there will be one or more letters after **a**.

i . . . . . ► Point to **i**\_ on the chart.

Where is the cat? (Students: in the chair) Sound? (Students: /ĭ/)

e . . . . . ► Point to **e**\_ on the chart.

Where is the cat? (Students: edge of the chair) Sound? (Students: /ĕ/)

o . . . . . ► Point to **o**\_ on the chart.

Where is the cat? (Students: on the chair) Sound? (Students: /ŏ/)

u . . . . . ► Point to **u**\_ on the chart.

Where is the cat? (Students: under the chair) Sound? (Students: /ŭ/)

still . . . . . I’ll write *still*.

► Write **st** on the board.

Which picture shows the sound /ĭ/? (Students: in the chair)

How do I spell the sound /ĭ/? (Students: i)

► Finish writing *still*.

stretch . . . . . I'll write *stretch*.

► Write **str** on the board.

Which picture shows the sound /ě/? (Students: edge of the chair)

How do I spell the sound /ě/? (Students: e)

► Finish writing *stretch*.

► Distribute a *Student Spelling Book* to each student. Have the students write their name on the inside front cover. Have them open to page 3.

At the beginning of every week, you will see the words that you will learn. There is a sentence for each word. Follow along as I read the words and sentences.

1. catch . . . . . Number 1: catch. Catch the ball when I throw it to you.

► Point to the “at the chair” picture on the spelling-sound chart.

The “at the chair” picture is for the sound /ă/.

The sound /ch/ after a short vowel in a one-syllable word is usually spelled **t-c-h**.

2. spend . . . . . Number 2: spend. I spend at least 30 minutes every day reading for pleasure.

► Point to the “edge of the chair” picture.

The “edge of the chair” picture is for the sound /ě/.

*Spend* is easy when you think of the sounds, but it might be hard to hear the last two sounds: spend.

3. skills . . . . . Number 3: skills. My batting skills have improved since I've been practicing.

► Point to the “in the chair” picture.

The “in the chair” picture is for the sound /ĩ/.

I will have you underline the parts that need to be memorized.

The sound // after a short vowel in a one-syllable word is usually spelled **I-I**. Find the word *skills* that is next to number 3. Underline **I-I**.

4. pond . . . . . Number 4: pond. My friend and I like to catch and release frogs at the pond.

► Point to the “on the chair” picture.

The “on the chair” picture is for the sound /õ/.

*Pond* is easy when you think of the sounds, but it might be hard to hear /nd/ at the end.

5. lunches . . . . . Number 5: lunches. We carried our lunches in our backpacks.

► Point to the “under the chair” picture.

The “under the chair” picture is for the sound /ŭ/.

The base word is *lunch*. The suffix is /əz/.

6. tracks . . . . . Number 6: tracks. The train tracks went through the center of town.

It may be hard to hear **tr** in *tracks*.

The sound /k/ after a short vowel in a one-syllable word is spelled **c-k**.

7. badge . . . . . Number 7: badge. The police officer showed us her badge when we visited the police station.

The sound /j/ after a short vowel in a one-syllable word is spelled **d-g-e**.

8. a lot . . . . . Number 8: a lot. I see that a lot of leaves have fallen.

**FREQUENTLY MISPELLED WORDS** *A lot* is frequently misspelled. Many people write *a lot* incorrectly. In guided spelling we will often practice frequently misspelled words so that you will not be confused by them.

The expression *a lot* is two words. Underline the space between the two words.

9. cannot . . . . . Number 9: cannot. I cannot meet you after school.

**FREQUENTLY MISPELLED WORD** *Cannot* is a frequently misspelled word.

*Cannot* is a compound word made of *can* and *not*. A compound word is made of two smaller words with no space in between.

10. through . . . . . Number 10: through. The train slowed before going through the tunnel.

TEKS 3.D.ii  
TEKS 3.D.iii

(instruction relating to item #10: through)

**FREQUENTLY MISPELLED WORD** *Through* is a frequently misspelled word.

**HOMOPHONE** *Through* is a homophone. Homophones are words that sound the same but are spelled differently.

► Write on the board: through threw

*Through*, as in *Sunlight is coming through the window*, is spelled **t-h-r-o-u-g-h**.

*Threw*, as in *She threw the ball*, is spelled **t-h-r-e-w**.

Find the word *through* that is next to number 10. Underline **o-u-g-h**. We have to memorize **o-u-g-h**.

11. off . . . . . Number 11: off. Please turn off the lights before leaving the room.  
FREQUENTLY MISSPELLED WORD *Off* is a frequently misspelled word.  
Underline **f-f**. We have to memorize **f-f**.

12. field . . . . . Number 12: field. The owl flew over the field searching for mice.  
FREQUENTLY MISSPELLED WORD *Field* is a frequently misspelled word.  
Underline **i-e**. We have to memorize **i-e**.

13. what . . . . . Number 13: what. I wonder what time the movie starts.  
FREQUENTLY MISSPELLED WORD *What* is a frequently misspelled word.  
Underline **a**. We have to memorize **a**.

14. young . . . . . Number 14: young. The young deer stared at us.  
Underline **o-u**. We have to memorize **o-u**.

15. spread . . . . . Number 15: spread. We spread the blanket on the grass for the picnic.  
Underline **e-a**. We have to memorize **e-a**.

**ELPS 5.C.i**  
Guided Spelling  
(first paragraph and numbers 1–8)

► Have your students turn to page 4.

Now you'll write eight of this week's words. I'm going to say each word and you will write it, but this is not a test. I will help you think about each word so that you write it correctly. If you're not sure how to spell a word, raise your hand to ask me for help. It is important to *know when you don't know*.

1. catch . . . . . Number 1: catch. Catch the ball when I throw it to you.  
*Say catch.* (Students: catch)

If you're not sure how to spell the short vowel sound /ă/, look for the cat at the chair. The sound /ch/ after a short vowel in a one-syllable word is spelled **t-c-h**. Write *catch*.

In guided spelling you will check each word after you write it. This is how you will check your work: Everyone will read and spell the word together. You will point under each letter as you spell.

► Tell the class how you want them to point to each letter (for example, with their finger, pencil point, or eraser).

Let's practice. Read and spell *catch*. (Students: catch, c-a-t-c-h) Let's practice again, and as you read and spell, I will write the word.

► At number 1, write *catch* as the students read and spell. (Students: catch, c-a-t-c-h)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

2. spend . . . . . Number 2: spend. I spend at least 30 minutes every day reading for pleasure. Say *spend*. (Students: spend)

Listen to the sounds: spend. If you're not sure how to spell the short vowel sound /ĕ/, look for the cat at the edge of the chair. Write *spend*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 2, write *spend* as the students read and spell. (Students: spend, s-p-e-n-d)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

3. tracks . . . . . Number 3: tracks. The train tracks went through the center of town. Say *tracks*. (Students: tracks)

The base word is *track*. Listen to the sounds: track. If you're not sure how to spell the short vowel sound /ă/, look for the cat at the chair. The sound /k/ after a short vowel in a one-syllable word is spelled **c-k**. Write *tracks*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *tracks* as the students read and spell. (Students: tracks, t-r-a-c-k-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

4. lunches . . . . . Number 4: lunches. We carried our lunches in our backpacks. Say *lunches*. (Students: lunches)

The base word is *lunch*. If you're not sure how to spell the short vowel sound /ŭ/, look for the cat under the chair. Write *lunch*.

The suffix is /əz/. Add /əz/.

Now you will check your work. *Lunches* has two syllables.

Whenever we check a word with more than one syllable, read the word and then read and spell by syllables. Let's practice. Say "lunches, lunch-, l-u-n-c-h, -es, e-s." (Students: lunches, lunch-, l-u-n-c-h, -es, e-s) Everyone read the word again, and then read and spell by syllables as I write it. Point under each letter as you spell.

► At number 4, write *lunches* as the students read and spell. (Students: lunches, lunch-, l-u-n-c-h, -es, e-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

### NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. skills. . . . . Number 5: skills. My batting skills have improved since I've been practicing. Say *skills*. (Students: skills)

Write *skills*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 5.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 5, write *skills* as the students read and spell. (Students: skills, s-k-i-l-l-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

6. pond . . . . . Number 6: pond. My friend and I like to catch and release frogs at the pond. Say *pond*. (Students: pond)

Write *pond*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 6.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 6, write *pond* as the students read and spell. (Students: pond, p-o-n-d)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

7. badge . . . . . Number 7: badge. The police officer showed us her badge when we visited the police station. Say *badge*. (Students: badge)

Write *badge*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 7.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 7, write *badge* as the students read and spell. (Students: badge, b-a-d-g-e)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

8. a lot. . . . . Number 8: a lot. I see that a lot of leaves have fallen. Say *a lot*. (Students: a lot)

Write *a lot*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 8.

Now you will check your work. Everyone read and spell as I write the word. Point under each letter as you spell. Say “new word” before you spell the second word.

► At number 8, write *a lot* as the students read and spell. (Students: a lot, a, new word, l-o-t)

Check your words. Are they spelled like what I wrote? If you made a mistake, draw a line through the words. Write the correct words above them.

## ► Teacher Background

The first few guided spelling lessons are designed to give the students detailed practice with the guided spelling procedures, and fewer words are introduced in these lessons. In guided spelling today, the students will spell eight words.

The development of the students' metacognitive abilities is an important goal of the *Guided Spelling* program. Strong spellers anticipate common pitfalls in English words, and they are aware when they do not know part of a word. In *Guided Spelling*, you will often alert your students to difficult word parts. You will encourage your students to ask questions and you will frequently offer help.

When students have a question, give the answer by writing the spelling on the board or overhead to the left of the number of the word. Don't answer aloud. Students who aren't sure of the spelling look at what you wrote, and the students who know the spelling write without being told.

In this lesson the students will write the homophone *through*. In the *Guided Spelling* program commonly confused homophones are identified, and you will guide the students in spelling the correct one in each case. If your students have an advanced vocabulary, you may want to mention additional homophones as they appear, such as *wrote/rote*.

If you are using the board instead of the reusable form (*Blackline Masters* page 1), number from 1 to 8.

## ► Pre-spelling: Using the Spelling-Sound Chart

We'll review the short vowel sounds and their pictures on the chart.

o. . . . . ► Point to **o**\_ on the chart.

**Where is the cat?** (Students: on the chair) **Sound?** (Students: /*ō*/)

e. . . . . ► Point to **e**\_ on the chart.

**Where is the cat?** (Students: edge of the chair) **Sound?**  
(Students: /*ě*/)

- i . . . . . ▶ Point to **i**\_ on the chart.  
Where is the cat? (Students: in the chair) Sound? (Students: /i/)
- a . . . . . ▶ Point to **a**\_ on the chart.  
Where is the cat? (Students: at the chair) Sound? (Students: /ă/)
- u . . . . . ▶ Point to **u**\_ on the chart.  
Where is the cat? (Students: under the chair) Sound?  
(Students: /ü/)
- splash . . . . . I'll write *splash*.  
▶ Write **spl** on the board.  
Which picture shows the sound /ă/? (Students: at the chair)  
How do I spell the sound /ă/? (Students: a)  
▶ Finish writing *splash*.
- strict . . . . . I'll write *strict*.  
▶ Write **str**.  
Which picture shows the sound /i/? (Students: in the chair)  
How do I spell the sound /i/? (Students: i)  
▶ Finish writing *strict*.

## ▶ Guided Spelling

▶ Have your students open their spelling books to page 5. They will write eight words in this lesson. Remind your students that guided spelling is not a test. You will help them think about each word so that they write it correctly. If they are not sure how to spell a word, they should raise their hand to ask for help.

1. cannot . . . . . Number 1: cannot. I cannot meet you after school. Say *cannot*.  
(Students: cannot)  
*Cannot* is a compound word. A compound word is a word made of two smaller words. When you write a compound word, do not leave a space between the two smaller words. Write *cannot*.  
Now you will check your work. *Cannot* has two syllables. Whenever we check a word with more than one syllable, read the word and then read and spell by syllables. Let's practice. Say "*cannot, can-, c-a-n, -not, n-o-t.*" (Students: cannot, can-, c-a-n, -not, n-o-t) Everyone read the word again and read and spell by syllables as I write it. Point under each letter as you spell.  
▶ At number 1, write *cannot* as the students read and spell.  
(Students: cannot, can-, c-a-n, -not, n-o-t)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

2. through . . . . . Number 2: through. The train slowed before going through the tunnel. Say *through*. (Students: through)

TEKS 2.B.xv  
TEKS 2.B.xvi  
Student/Teacher Narrative  
Guided Spelling section  
(Word: through)

HOMOPHONE *Through* is a homophone. It's not *threw*, as in *She threw the ball*. It's *through*, as in *through the window*.

Be careful here. The vowel sound in *through* has an unusual spelling. If you know the spelling, write *through*. If you're not sure how to spell it, raise your hand and look up here as I write it.

► If any students raise their hands, write **ough** to the left of number 2.

Write *through*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 2, write *through* as the students read and spell. (Students: through, t-h-r-o-u-g-h)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

3. spread . . . . . Number 3: spread. We spread the blanket on the grass for the picnic. Say *spread*. (Students: spread)

Be careful here. The vowel sound in *spread* has an unusual spelling. If you know the spelling, write *spread*. If you're not sure how to spell it, raise your hand and look up here as I write it.

► If any students raise their hands, write **ea** to the left of number 3.

Write *spread*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *spread* as the students read and spell. (Students: spread, s-p-r-e-a-d)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

4. field . . . . . Number 4: field. The owl flew over the field searching for mice. Say *field*. (Students: field)

Be careful here. The vowel sound in *field* has an unusual spelling. If you know the spelling, write *field*. If you're not sure how to spell it, raise your hand and look up here as I write it.

► If any students raise their hands, write **ie** to the left of number 4.

Write *field*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 4, write *field* as the students read and spell.  
(Students: field, f-i-e-l-d)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

### NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. what . . . . . Number 5: what. I wonder what time the movie starts. Say *what*.  
(Students: what)

Write *what*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 5.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 5, write *what* as the students read and spell.  
(Students: what, w-h-a-t)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

6. young . . . . . Number 6: young. The young deer stared at us. Say *young*.  
(Students: young)

Write *young*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 6.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 6, write *young* as the students read and spell.  
(Students: young, y-o-u-n-g)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

7. swept . . . . . Number 7: swept. He swept the classroom floor. Say *swept*.  
(Students: swept)

Write *swept*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 7.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 7, write *swept* as the students read and spell.  
(Students: swept, s-w-e-p-t)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

8. off . . . . . Number 8: off. Please turn off the lights before leaving the room.  
Say *off*. (Students: off)

Write *off*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 8.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 8, write *off* as the students read and spell.  
(Students: off, o-f-f)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

## ► Teacher Background

In guided spelling today, the students will write eight words. If you are using the board instead of the reusable form (*Blackline Masters* page 1), number from 1 to 8.

## ► Pre-spelling: Using the Spelling-Sound Chart

► If your students do not yet spell the short vowel sounds accurately, review all the short vowel sounds and pictures as in the Day 2 pre-spelling activity.

We'll use the spelling-sound chart to help us spell short vowels.

swift . . . . . I'll write *swift*.

► Write **sw**.

Which picture shows the sound /ɪ/? (Students: in the chair)

How do I spell the sound /ɪ/? (Students: i)

► Finish writing *swift*.

shelf . . . . . I'll write *shelf*.

► Write **sh**.

Which picture shows the sound /ɛ/? (Students: edge of the chair)

How do I spell the sound /ɛ/? (Students: e)

► Finish writing *shelf*.

## ► Guided Spelling

Open your spelling books to page 6.

1. young . . . . . Number 1: young. Young elephants are called *calves*. Say *young*. (Students: young)

Be careful here. The vowel sound in *young* has an unusual spelling. If you know the spelling, write *young*. If you're not sure how to spell it, raise your hand and look up here as I write it.

► If any students raise their hands, write **ou** to the left of number 1.

Write *young*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 1, write *young* as the students read and spell.  
(Students: young, y-o-u-n-g)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

2. off . . . . . Number 2: off. The diver dove off the highest diving platform.  
Say *off*. (Students: off)

If you're not sure how to spell the short vowel sound /ɔ/, look for the cat on the chair. Be careful here. If you're not sure how to spell the sound /f/ in *off*, raise your hand and look up here as I write it.

► If any students raise their hands, write **ff** to the left of number 2.

Write *off*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 2, write *off* as the students read and spell.  
(Students: off, o-f-f)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

3. skills. . . . . Number 3: skills. He practices piano so he can improve his skills.  
Say *skills*. (Students: skills)

If you're not sure how to spell the short vowel sound /i/, look for the cat in the chair. If you're not sure how to spell the sound /l/ after a short vowel in a one-syllable word, raise your hand and look up here as I write it.

► If any students raise their hands, write **ll** to the left of number 3.

Write *skills*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *skills* as the students read and spell.  
(Students: skills, s-k-i-l-l-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

4. badges . . . . . Number 4: badges. All of the park rangers wear badges.

Say *badges*. (Students: badges)

If you're not sure how to spell the short vowel sound /ă/, look for the cat at the chair. If you aren't sure how to spell the sound /j/ after a short vowel in a one-syllable word, raise your hand and look up here as I write it.

► If any students raise their hands, write **dge** to the left of number 4.

Write *badges*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 4, write *badges* as the students read and spell. (Students: badges, b-a-d-g-e-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. cannot . . . . . Number 5: cannot. We cannot talk during the performance.

Say *cannot*. (Students: cannot)

Write *cannot*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 5.

Now you will check your work. When you check a word with more than one syllable, you will read the word first. Then you will read and spell the word by syllables. *Cannot*, *can-*, **c-a-n**, *-not*, **n-o-t**. Everyone read the word. (Students: cannot) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 5, write *cannot* as the students read and spell by syllables. (Students: can-, c-a-n, -not, n-o-t)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

6. catches . . . . . Number 6: catches. The bat catches moths in midair. Say *catches*.

(Students: catches)

Write *catches*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 6.

Now you will check your work. Everyone read the word.  
(Students: catches) *Catches* has two syllables: *catch-es*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 6, write *catches* as the students read and spell by syllables. (Students: catch-, c-a-t-c-h, -es, e-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

7. spreads . . . . . Number 7: spreads. She spreads butter on her toast. Say *spreads*.  
(Students: spreads)

Write *spreads*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 7.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 7, write *spreads* as the students read and spell.  
(Students: spreads, s-p-r-e-a-d-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

8. lunches . . . . . Number 8: lunches. We ordered lunches from the cafeteria for the field trip. Say *lunches*. (Students: lunches)

Write *lunches*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 8.

Now you will check your work. Everyone read the word.  
(Students: lunches) *Lunches* has two syllables: *lunch-es*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 8, write *lunches* as the students read and spell by syllables. (Students: lunch-, l-u-n-c-h, -es, e-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

# Week 1 Day 4

## ► Teacher Background

---

In guided spelling today, the students will write eight words. If you are using the board instead of the reusable form (*Blackline Masters* page 1), number from 1 to 8.

## ► Pre-spelling: Using the Spelling-Sound Chart

---

► If your students do not yet spell the short vowel sounds accurately, review all the short vowel sounds and pictures as in the Day 2 pre-spelling activity.

We'll use the spelling-sound chart to help us spell short vowels.

block. . . . . I'll write *block*.

► Write **bl** on the board.

Which picture shows the sound /ɒ/? (Students: on the chair)

How do I spell the sound /ɒ/? (Students: o)

► Finish writing *block*.

brush. . . . . I'll write *brush*.

► Write **br**.

Which picture shows the sound /ʊ/? (Students: under the chair)

How do I spell the sound /ʊ/? (Students: u)

► Finish writing *brush*.

## ► Guided Spelling

---

► Have your students open their spelling books to page 7.

1. pond . . . . . Number 1: pond. We found many different types of plants at the pond. Say *pond*. (Students: pond)

Listen to the sounds: pond. If you're not sure how to spell the short vowel sound /ɒ/, look for the cat on the chair. Write *pond*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 1, write *pond* as the students read and spell. (Students: pond, p-o-n-d)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

2. a lot. . . . . Number 2: a lot. There were a lot of people watching the parade. Say *a lot*. (Students: a lot)

Be careful here. The expression *a lot* is two words. If you're not sure how to spell the short vowel sound /ɒ/, look for the cat on the chair. Write *a lot*.

Now you will check your work. Everyone read and spell as I write. Point under each letter as you spell. Say "new word" before you spell the second word.

► At number 2, write *a lot* as the students read and spell. (Students: a lot, a, new word, l-o-t)

Check your words. Are they spelled like what I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

3. fields . . . . . Number 3: fields. This time of year the wheat fields are golden. Say *fields*. (Students: fields)

Be careful here. The vowel sound in *fields* has an unusual spelling. If you know the spelling, write *fields*. If you're not sure how to spell it, raise your hand and look up here as I write it.

► If any students raise their hands, write **ie** to the left of number 3.

Write *fields*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *fields* as the students read and spell. (Students: fields, f-i-e-l-d-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

4. what . . . . . Number 4: what. What is making that terrible noise? Say *what*. (Students: what)

Be careful here. The vowel sound in *what* has an unusual spelling. If you know the spelling, write *what*. If you're not sure how to spell it, raise your hand and look up here as I write it.

► If any students raise their hands, write **a** to the left of number 4.

Write *what*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 4, write *what* as the students read and spell.  
(Students: what, w-h-a-t)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

### NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. spends . . . . . Number 5: spends. She spends a lot of time practicing piano.  
Say *spends*. (Students: spends)

Write *spends*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 5.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 5, write *spends* as the students read and spell.  
(Students: spends, s-p-e-n-d-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

6. stretches. . . . . Number 6: stretches. Elastic stretches. Say *stretches*.  
(Students: stretches)

Write *stretches*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 6.

Now you will check your work. Everyone read the word.

(Students: stretches) *Stretches* has two syllables: *stretch-es*.

Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 6, write *stretches* as the students read and spell by syllables. (Students: stretch-, s-t-r-e-t-c-h, -es, e-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

7. through. . . . . Number 7: through. On a hot day, I enjoy running through the sprinklers. Say *through*. (Students: through)

Write *through*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 7.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 7, write *through* as the students read and spell. (Students: through, t-h-r-o-u-g-h)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

8. tracks. . . . . Number 8: tracks. The railroad tracks are on the outskirts of town. Say *tracks*. (Students: tracks)

Write *tracks*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 8.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 8, write *tracks* as the students read and spell. (Students: tracks, t-r-a-c-k-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

## ► Teacher Background

Make a copy of the Week 1 homework practice page (*Blackline Masters* page 2) for each student, plus an extra copy for your own reference as you introduce the homework procedures to the students.

The lesson today will prepare the students for the weekly homework that begins in Week 2. Today's homework page will be used for in-class practice only; the students will not take homework home this week.

## ► Guided Spelling

**TEACHER NOTE** When several instructions are given one after another, a small square (■) indicates that you should pause to allow the students time to respond to a question or instruction.

- Hand out the Week 1 homework practice page.
- Tell the students that beginning next week they will have homework to help them memorize the spelling words. In this lesson they will practice the method for doing homework.
- Have the students follow along as you read the top of the homework practice page:

*Week 1 Homework Practice. Name.*

Write your name. ■ Let's continue reading:

*Practice the memory steps for each word.*

*Step 1: Read the word. Say the syllables to help you spell.*

*Step 2: Underline any hard parts.*

*Step 3: Cover the word. Say and write the word by syllables.  
Check.*

I. catch . . . . . Number 1: catch. We'll do the memory steps together.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell.* Everyone read. (Students: catch) *Catch* has only one syllable.

STEP 2 . . . Step 2 is *Underline any hard parts.* If *catch* has any parts that are hard for you to remember, underline those parts.

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check. Catch has only one syllable. Everyone cover catch. Find line number 1. Everyone say catch. ■ Write catch. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.*

2. spend . . . . . Number 2: spend. We'll do the memory steps together.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell. Everyone read. (Students: spend) Spend has only one syllable.*

STEP 2 . . . Step 2 is *Underline any hard parts. If spend has any parts that are hard for you to hear or remember, underline those parts.*

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check. Everyone cover the word. Find line number 2. Everyone say and write spend. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.*

3. skills. . . . . Number 3: skills. We'll do the memory steps together.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell. Everyone read. (Students: skills) Skills has only one syllable.*

STEP 2 . . . Step 2 is *Underline any hard parts. If skills has any parts that are hard for you to remember, underline those parts.*

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check. Everyone cover the word. Find line number 3. Everyone say and write skills. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.*

4. pond . . . . . ► Have a volunteer demonstrate the memory steps for *pond*. Then have all the students practice individually.

5. lunches . . . . . Number 5: lunches. We'll do the memory steps together.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell. Everyone read. (Students: lunches) The base word lunch is one syllable. The suffix /əz/ is one syllable. I'll say lunches by syllables: lunch-es. Say lunches by syllables. (Students: lunch-es)*

STEP 2 . . . Step 2 is *Underline any hard parts. If lunches has any parts that are hard for you to remember, underline those parts.*

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check. ► Demonstrate how to say and write the word one syllable at a time.*

Everyone cover the word. Find line number 5. Everyone say and write *lunches* by syllables. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

- 6. tracks . . . . . ► Have a volunteer demonstrate the memory steps for *tracks*. Then have all the students practice individually.
- 7. badge . . . . . ► Have a volunteer demonstrate the memory steps for *badge*. Then have all the students practice individually.
- 8–15 . . . . . ► Have the students practice the memory steps for numbers 8–15 individually.

## Doubling with Single-syllable Words; Frequently Misspelled Words

### ELPS 5.C.ii

New Content and Teacher Background sections (all, beginning on page 28 and continuing on to page 30)

### ► New Content

If the base word is one syllable, has one vowel, and ends with one consonant, and if the suffix begins with a vowel, we double the last consonant of the base word before the suffix, as in *hopped*, *stopping*, *reddish*, *sadder*, and *flatten*.

### ► Teacher Background

Make a copy of the Week 2 homework page (*Blackline Masters* page 3) for each student.

If you are using the board, number from 1 to 8 for Day 1 of this week.

Beginning this week, the students will frequently refer to the spelling generalizations in the back of their *Student Spelling Books* on pages 184 and 185. Have them attach a self-stick note to those pages so that they can turn to them quickly.

To help the students understand this week's generalization for doubling the last consonant, you will have them write first the base word, then the suffix, and then the whole word for three items each day this week. These items in the *Student Spelling Book* look like this:

\_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

When the students check a word with more than one syllable, they will first read the word and then read and spell each syllable, for example, *letting*, *let-*, **l-e-t**, *-ting*, **t-i-n-g**. Note that many one-syllable words become two syllables when suffixes are added, such as *want*, *want-ed*, *cut*, *cut-ting*.

Contractions are introduced on Day 1.

Mnemonics are introduced on Day 1. A mnemonic is a memory aid. The word is pronounced nə-mŏn-ĭc (note the unusual silent **m**), and it comes from the same root as *mind*, *mental*, and *amnesia*. Mnemonics have an important place in subjects like spelling that require extensive memorization. The guided spelling lessons include frequent reminders of groups of words with parts that sound the same and are spelled the same, for example *don't* and *won't*.

Abbreviations are introduced on Day 4.

On Day 1 of each week, the students will write the first eight of this week's new words. On Day 2 they will write the other seven new words and three additional words that illustrate the week's new spelling concepts. On Days 3 and 4 they will write all of the week's new words, often with suffixes, plus several other words that demonstrate the week's new and review spelling concepts.

Beginning this week, the students will often work with a partner to analyze the hard parts of the tenth word on Days 2, 3, and 4. For example, you say, "Turn to your neighbor. Explain why you doubled **t** in *quitting*."

Also beginning this week, the students will practice memorizing the last word in guided spelling on Days 2, 3, and 4. They will use the memory steps that they are using in their spelling homework. You may want to have the partners spell the word aloud together after the third memory step.

Two additional guiding points are introduced this week: words that end in **x** are exceptions to the doubling generalization, such as *mix* (*mixed*); the sound /s/ at the end of a one-syllable short vowel word is often spelled **ss** (*dress*).

In the pre-spelling activities this week, you will model doubling the final consonant of a single-syllable word before adding a suffix that begins with a vowel.

An optional spelling activity for partners is provided each week in the *Blackline Masters* book. The activity for Week 2 can be found on page 43.

## **WEEKLY SPELLING TESTS**

The first weekly spelling test is on Day 5 of this week. It consists of all of the week's new words, three review words, and two application words. The application words assess the students' knowledge of the spelling concepts and are not announced in advance. The form of the weekly tests is traditional word dictation.

You may wish to differentiate instruction by having your below-grade-level, average, and advanced spellers memorize different

numbers of words for the test. If you do decide to do so, talk privately with each student to explain which words to study. Below-grade-level spellers will study just the words with stars in front of them on each week’s word list. Average spellers will study all words except the challenge words. Advanced spellers will study all words including the challenge words.

### WEEKLY HOMEWORK

In Week 2, the students begin doing weekly homework. On Day 1, hand out the homework duplicated from *Blackline Masters* page 3. Collect and check the homework using the same procedure you use for other homework.

The purpose of the homework is for the students to memorize the spelling of each new word and rememorize the review words. The memory steps will aid in learning the words. We recommend that the students write the words just once for homework during the week. Research indicates that merely writing words many times will not result in memorization (Schlagal 2002).

If you are differentiating spelling instruction, have the below-grade-level spellers do the homework just for the starred words. Have the average spellers study the 25 new and review words. Have the advanced spellers study those 25 words and then independently memorize the challenge words at the bottom of the homework page.

### ► Words Used This Week

NEW WORDS	*dropped, *letting, *cutting, *scrubbed, *quitting, *setting, *mixed, *dressed, can’t, don’t, won’t, wanted, touch, though, clue
REVIEW WORDS	*lunches, *badge, *pond, *tracks, *catch, field, young, cannot, spread, off
CHALLENGE WORDS	whizzing, throbbed, knitting, waxed, juice
APPLICATION WORDS ON THE TEST	splint, fetches
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	shopped, snapping, didn’t, chopped, clues, fudge, St., slipping, stringing
FREQUENTLY MISPELLED WORDS	can’t, don’t, won’t, wanted, touch, didn’t, St.

# Week 2 Day 1

## ► Teacher Background

In the pre-spelling activities this week, you will model doubling the final consonant of a single-syllable word before adding a suffix that begins with a vowel. If your students have difficulty distinguishing between vowels and consonants, have them first say whether each letter in the word is a vowel or a consonant.

## ► Pre-spelling: Doubling

This week I'll show you that you may have to change the base word when you add a suffix.

► Write on the board: hop hopped

Read these words with me: *hop, hopped*.

hopped . . . . . ► Point to *hopped*.

What is the base word in *hopped*? (Students: hop)

Look at *hopped*. I had to write another **p**. That is called *doubling*. I made two of them. Say "double."

Turn to page 184 in the back of your *Student Spelling Book*. We'll read the single-syllable doubling generalization together:

*IF the base word has*

*- one syllable,*

*- one vowel,*

*- and one consonant after the vowel*

*AND the suffix begins with a vowel,*

*THEN double the last consonant.*

ripped . . . . . I will write *ripped*. I *ripped* my jacket. *Ripped*. First I write the base word, *rip*.

► Write *rip* on the board. Point to **i**.

I see *one* vowel.

► Point to **p**.

I see *one* consonant after the vowel. The suffix **e-d** begins with a vowel.

► Point to **p**.

I need to double this last consonant. I add another **p**.

I add **e-d**. *Ripped*.

## Introduce This Week's Words

---

► Have your students open their *Student Spelling Books* to page 8 and follow along as you read the words and sentences.

1. dropped . . . . . Number 1: dropped. I accidentally dropped the dish.  
The base word is *drop*. The **p** was doubled, and then the suffix **e-d** was added.
2. letting . . . . . Number 2: letting. Our teacher is letting us work together.  
The base word is *let*. The **t** was doubled, and then the suffix *-ing* was added.
3. cutting . . . . . Number 3: cutting. They were cutting up some paper for a collage.  
The base word is *cut*. The **t** was doubled, and then the suffix *-ing* was added.
4. scrubbed . . . . . Number 4: scrubbed. The doctor scrubbed her hands before surgery.  
The base word is *scrub*. The **b** was doubled, and then the suffix **e-d** was added.
5. quitting . . . . . Number 5: quitting. We will be quitting the game when it gets dark.  
The base word is *quit*. The **t** was doubled, and then the suffix *-ing* was added.
6. setting . . . . . Number 6: setting. I was setting the dishes on the table.  
The base word is *set*. The **t** was doubled, and then the suffix *-ing* was added.
7. mixed . . . . . Number 7: mixed. We mixed several colors to get the paint color we wanted.  
Words that end in **x** are exceptions to the doubling generalization. We never double **x**.
8. dressed . . . . . Number 8: dressed. My little sister dressed her dolls.  
The base word is *dress*. Underline **s-s**. We have to memorize **s-s**. The suffix is **e-d**.

9. can't . . . . . Number 9: can't. We can't walk against a red light.  
 FREQUENTLY MISPELLED WORD *Can't* is a frequently misspelled word.  
 CONTRACTION *Can't* is a contraction of the compound word *cannot*. Underline the entire word: **c-a-n-apostrophe-t**.
10. don't . . . . . Number 10: don't. I don't often get to stay up late.  
 FREQUENTLY MISPELLED WORD *Don't* is a frequently misspelled word.  
 CONTRACTION *Don't* is a contraction of the two words *do not*.  
 Underline the entire word: **d-o-n-apostrophe-t**.
11. won't . . . . . Number 11: won't. My parents won't let me stay up late on school nights.  
 FREQUENTLY MISPELLED WORD *Won't* is a frequently misspelled word.  
 CONTRACTION *Won't* is a contraction of the two words *will not*.  
 MNEMONIC Here is a mnemonic (nə-mŏn-ĭc) for *won't* and *don't*. They rhyme and they end the same way: **o-n-apostrophe-t**. A mnemonic is something that helps you remember.  
 Underline the entire word: **w-o-n-apostrophe-t**.
12. wanted . . . . . Number 12: wanted. I wanted a game for my birthday.  
 FREQUENTLY MISPELLED WORD *Wanted* is a frequently misspelled word.  
 The base word is *want*. The suffix is **e-d**. Underline **a**.
13. touch . . . . . Number 13: touch. This material is soft to the touch.  
 FREQUENTLY MISPELLED WORD *Touch* is a frequently misspelled word. Underline **o-u**.
14. though . . . . . Number 14: though. She went for a walk even though it was raining.  
 Underline **o-u-g-h**.
15. clue . . . . . Number 15: clue. The detective needed one more clue to solve the case.  
 Underline **u-e**.

## NUMBERS 16–25 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- |              |            |
|--------------|------------|
| 16. *lunches | 21. field  |
| 17. *badge   | 22. young  |
| 18. *pond    | 23. cannot |
| 19. *tracks  | 24. spread |
| 20. *catch   | 25. off    |

## ► Guided Spelling

### TEKS 2.B.i

Student/Teacher Narrative

Guided Spelling section

(Words: dropped, letting, cutting)

► Have your students turn to page 10. They will write eight of this week’s new words.

I’m going to say each word and you will write it, but this is not a test. I will help you think about each word so that you write it correctly. If you’re not sure how to spell a word, raise your hand to ask me for help. It is important to *know when you don’t know*.

I. dropped . . . . . Number I: dropped. I accidentally dropped the dish. Say *dropped*. (Students: dropped)

Base word? (Students: drop) Listen to the sounds: drop. Write *drop* in the first space at number I.

Suffix? (Students: e-d) Write **e-d** in the second space.

*Dropped*. What do you have to decide? (Students: Do we double?)

Everyone turn to page 184. We’ll read the single-syllable doubling generalization together: “IF the base word has one syllable, one vowel, and one consonant after the vowel AND the suffix begins with a vowel, THEN double the last consonant.” Turn back to page 10, number I. Does *drop* have one syllable?

(Students: yes) Everyone point to **o**. Does *drop* have one vowel? (Students: yes) Everyone point to **p**. Does *drop* have one consonant after the vowel? (Students: yes) Does the suffix begin with a vowel? (Students: yes) Will you double the last consonant of *drop*? (Students: yes) Write *dropped* in the third space.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 1, write *dropped* as the students read and spell. (Students: dropped, d-r-o-p-p-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

2. letting . . . . . Number 2: letting. Our teacher is letting us work together.

Say *letting*. (Students: letting)

Base word? (Students: let) Write *let* in the first space at number 2.

Suffix? (Students: -ing) Write *-ing* in the second space.

*Letting*. What do you have to decide? (Students: Do we double?) Everyone turn to page 184. We'll read the single-syllable doubling generalization together: "IF the base word has one syllable, one vowel, and one consonant after the vowel AND the suffix begins with a vowel, THEN double the last consonant." Turn back to page 10, number 2. Does *let* have one syllable?

(Students: yes) Everyone point to **e**. Does *let* have one vowel?

(Students: yes) Everyone point to **t**. Does *let* have one consonant after the vowel? (Students: yes) You're writing *letting*. Does the suffix begin with a vowel? (Students: yes) Will you double the last consonant of *let*? (Students: yes) Write *letting* in the third space.

Now you will check your work. When you check a word with more than one syllable, you will read the word first. Then you will read and spell the word by syllables. *Letting*, *let-*, **l-e-t**, *-ting*, **t-i-n-g**. Everyone read the word. (Students: letting) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 2, write *letting* as the students read and spell by syllables. (Students: let-, l-e-t, -ting, t-i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

3. mixed . . . . . Number 3: mixed. We mixed several colors to get the paint color we wanted. Say *mixed*. (Students: mixed)

Base word? (Students: mix) Write *mix*.

*Mixed*. What do you have to decide? (Students: Do we double?) When a word ends with **x**, we do *not* double. Finish writing *mixed*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *mixed* as the students read and spell. (Students: mixed, m-i-x-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

4. scrubbed. . . . . Number 4: scrubbed. The doctor scrubbed her hands before surgery. Say *scrubbed*. (Students: scrubbed)

Base word? (Students: scrub) Write *scrub*.

*Scrubbed*. What do you have to decide? (Students: Do we double?)

Does *scrub* have one syllable? (Students: yes) Everyone point

to **u**. Does *scrub* have one vowel? (Students: yes) Everyone

point to **b**. Does *scrub* have one consonant after the vowel?

(Students: yes) You're writing *scrubbed*. Does the suffix begin

with a vowel? (Students: yes) Will you double the last consonant

of *scrub*? (Students: yes) Finish writing *scrubbed*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 4, write *scrubbed* as the students read and spell. (Students: scrubbed, s-c-r-u-b-b-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. quitting. . . . . Number 5: quitting. We will be quitting the game when it gets dark. Say *quitting*. (Students: quitting)

Reread page 184 if you need to. Write the base word, then the suffix, and then the whole word *quitting*.

Now you will check your work. Everyone read the word.

(Students: quitting) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 5, write *quitting* as the students read and spell by syllables. (Students: quit-, q-u-i-t, -ting, t-i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

6. setting . . . . . Number 6: setting. I was setting the dishes on the table. Say *setting*. (Students: setting)

Reread page 184 if you need to. Write *setting*.

Now you will check your work. Everyone read the word.

(Students: setting) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 6, write *setting* as the students read and spell by syllables. (Students: set-, s-e-t, -ting, t-i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

7. cutting . . . . . Number 7: cutting. They were cutting up some paper for a collage. Say *cutting*. (Students: cutting)

Reread page 184 if you need to. Write *cutting*.

Now you will check your work. Everyone read the word. (Students: cutting) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 7, write *cutting* as the students read and spell by syllables. (Students: cut-, c-u-t, -ting, t-i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

8. dressed. . . . . Number 8: dressed. My little sister dressed her dolls. Say *dressed*. (Students: dressed)

Reread page 184 if you need to. Write *dressed*.

► If any students raise their hands to ask how to spell the sound /s/, write s-s to the left of number 8.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 8, write *dressed* as the students read and spell. (Students: dressed, d-r-e-s-s-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

## ► Introduce the Homework

Hand out the Week 2 homework. Explain to the students that they will study by using the memory steps they practiced last week. Explain your procedure for collecting and checking homework.

Tell the students that the words on the homework page includes all of this week’s 15 new words and 10 review words from last week. All of the new words and some of the review words will be on the test on Day 5. The test will also have two “application” words that are not on the homework. The application words will show that the students understand what they have been learning in spelling.

If you are differentiating instruction, talk privately to each below-grade-level speller. Tell each one to study just the starred words. Tell the advanced spellers that they are responsible for memorizing all words including the challenge words at the bottom of the page, but they are not expected to write the challenge words for homework unless they feel they need to.

## ► Teacher Background

### 5.C.iii Teacher Background and Pre-spelling: Doubling sections

In the pre-spelling activities in this lesson, you will model doubling the final consonant of a single-syllable word before adding a suffix that begins with a vowel. If your students have difficulty distinguishing between vowels and consonants, have them first say whether each letter in the word is a vowel or a consonant.

If you are using the board, number from 1 to 10.

## ► Pre-spelling: Doubling

Turn to page 184 in the back of your *Student Spelling Book*. We'll read the single-syllable doubling generalization together: "IF the base word has one syllable, one vowel, and one consonant after the vowel AND the suffix begins with a vowel, THEN double the last consonant."

humming . . . . . Help me write *humming*. A *humming* sound came from the motor.

Base word? (Students: hum)

► Write *hum* on the board.

Is the base word one syllable? (Students: yes)

► Point to **u**.

Is there one vowel? (Students: yes)

► Point to **m**.

Is there one consonant after the vowel? (Students: yes)

*Humming*. Suffix? (Students: -ing) Does the suffix begin with a vowel? (Students: yes)

Will we double **m**? (Students: yes)

► Add *ming*.

Humming.

## ► Guided Spelling

► Have your students open their spelling books to page 11. They will write ten words in this lesson.

1. *shopped* . . . . . Number 1: *shopped*. They *shopped* for new school clothes. Say *shopped*. (Students: *shopped*)

Base word? (Students: *shop*) Write *shop* in the first space at number 1.

Suffix? (Students: *e-d*) Write **e-d** in the second space.

*Shopped*. What do you have to decide? (Students: Do we double?) Everyone turn to page 184. We'll read the single-syllable doubling generalization together: "IF the base word has one syllable, one vowel, and one consonant after the vowel AND the suffix begins with a vowel, THEN double the last consonant." Turn back to page 11, number 1. Does *shop* have one syllable? (Students: yes) Everyone point to **o**. Does *shop* have one vowel? (Students: yes) Everyone point to **p**. Does *shop* have one consonant after the vowel? (Students: yes) You're writing *shopped*. Does the suffix begin with a vowel? (Students: yes) Will you double the last consonant of *shop*? (Students: yes) Write *shopped* in the third space.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 1, write *shopped* as the students read and spell. (Students: *shopped*, s-h-o-p-p-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

2. *wanted* . . . . . Number 2: *wanted*. I *wanted* a game for my birthday. Say *wanted*. (Students: *wanted*)

Base word? (Students: *want*) Be careful here. The vowel sound is spelled **a**. Write *want* in the first space at number 2.

Suffix? (Students: *e-d*) Write **e-d** in the second space.

*Wanted*. What do you have to decide? (Students: Do we double?) Does *want* have one syllable? (Students: yes) Everyone point to **a**. Does *want* have one vowel? (Students: yes) Everyone point to **n-t**. Does *want* have one consonant after the vowel? (Students: no) Will you double the last consonant of *want*? (Students: no) Write *wanted* in the third space.

Now you will check your work. Everyone read the word. (Students: *wanted*) *Wanted* has two syllables: *want-ed*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 2, write *wanted* as the students read and spell by syllables. (Students: *want-*, *w-a-n-t*, *-ed*, *e-d*)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

3. can't . . . . . Number 3: can't. We can't walk against a red light. Say *can't*.  
(Students: can't)

CONTRACTION *Can't* is a contraction of *cannot*. In *can't* the apostrophe stands for two letters left out: **n-o**.

If you know how to spell *can't*, write *can't*. If you're not sure, raise your hand and look up here as I write it.

► If any students raise their hands, write *can't* to the left of number 3.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *can't* as the students read and spell.  
(Students: can't, c-a-n-apostrophe-t)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

4. clue . . . . . Number 4: clue. The detective needed one more clue to solve the case. Say *clue*. (Students: clue)

Be careful here. The vowel sound in *clue* has an unusual spelling. If you know the spelling, write *clue*. If you're not sure, raise your hand and look up here as I write it.

► If any students raise their hands, write **ue** to the left of number 4.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 4, write *clue* as the students read and spell.  
(Students: clue, c-l-u-e)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

5. won't . . . . . Number 5: won't. My parents won't let me stay up late on school nights. Say *won't*. (Students: won't)

CONTRACTION *Won't* is an unusual contraction that comes from *will not*.

MNEMONIC Here is a mnemonic (nə-mŏn-ĭc) for *won't* and *don't*. They rhyme and they end the same way: **o-n-apostrophe-t**.

Write *won't*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 5, write *won't* as the students read and spell.  
(Students: won't, w-o-n-apostrophe-t)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

6. *though* . . . . . Number 6: *though*. She went for a walk even though it was raining. Say *though*. (Students: *though*)

Be careful here. The vowel sound in *though* has an unusual spelling. If you know the spelling, write *though*. If you're not sure, raise your hand and look up here as I write it.

► If any students raise their hands, write **ough** to the left of number 6.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 6, write *though* as the students read and spell. (Students: *though*, t-h-o-u-g-h)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

### NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

7. *snapping* . . . . . Number 7: *snapping*. Stay away from the snapping turtle. Say *snapping*. (Students: *snapping*)

Reread page 184 if you need to. Write the base word, then the suffix, and then the whole word *snapping*.

Now you will check your work. Everyone read the word. (Students: *snapping*) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 7, write *snapping* as the students read and spell by syllables. (Students: snap-, s-n-a-p, -ping, p-i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

8. *don't* . . . . . Number 8: *don't*. I don't often get to stay up late. Say *don't*. (Students: *don't*)

Write *don't*.

► If any students raise their hands, write the correct spelling to the left of number 8.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 8, write *don't* as the students read and spell. (Students: *don't*, d-o-n-apostrophe-t)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

9. didn't . . . . . Number 9: didn't. He didn't want to play with us at the park. Say *didn't*. (Students: didn't)

CONTRACTION *Didn't* is a contraction of *did not*.

Write *didn't*.

► If any students raise their hands, write the correct spelling to the left of number 9.

Now you will check your work. Everyone read the word. (Students: didn't) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 9, write *didn't* as the students read and spell by syllables. (Students: did-, d-i-d, -n't, n-apostrophe-t)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

10. touch . . . . . Number 10: touch. Don't touch the hot stove. Say *touch*. (Students: touch)

Write *touch*.

► If any students raise their hands, write the correct spelling to the left of number 10.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 10, write *touch* as the students read and spell. (Students: touch, t-o-u-c-h)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

MEMORY STEPS Every week on Days 2, 3, and 4, you will do the memory steps for word number 10.

STEP 1 . . . Step 1 is *Read the word*. (Students: touch)

STEP 2 . . . Step 2 is *Underline any hard parts*.

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check.* Everyone cover the word. Find the line under number 10. Say and write *touch*. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

# Week 2 Day 3

## ▶ Teacher Background

---

If you are using the board, number from 1 to 10.

## ▶ Pre-spelling: Doubling

---

▶ If your students have difficulty distinguishing between vowels and consonants, have them first say whether each letter in the word *hot* is a vowel or a consonant.

Turn to page 184 in the back of your *Student Spelling Book*. We'll read the single-syllable doubling generalization together: "IF the base word has one syllable, one vowel, and one consonant after the vowel AND the suffix begins with a vowel, THEN double the last consonant."

hotter . . . . . Help me write *hotter*. *It was much hotter today than yesterday.*

Base word? (Students: hot)

▶ Write *hot* on the board.

Is the base word one syllable? (Students: yes)

▶ Point to **o**.

Is there one vowel? (Students: yes)

▶ Point to **t**.

Is there one consonant after the vowel? (Students: yes)

*Hotter*. Suffix? (Students: -er) Does the suffix begin with a vowel? (Students: yes)

Will we double **t**? (Students: yes)

▶ Add *ter*.

Hotter.

## ▶ Guided Spelling

---

▶ Have your students open their spelling books to page 12. They will write ten words in this lesson.

1. chopped . . . . . Number 1: chopped. They chopped wood to burn in their fireplace. Say *chopped*. (Students: chopped)

Base word? (Students: chop) Write *chop* in the first space at number 1.

Suffix? (Students: e-d) Write **e-d** in the second space.

*Chopped*. What do you have to decide? (Students: Do we double?) Does *chop* have one syllable? (Students: yes) Everyone point to **o**. Does *chop* have one vowel? (Students: yes) Everyone point to **p**. Does *chop* have one consonant after the vowel? (Students: yes) You're writing *chopped*. Does the suffix begin with a vowel? (Students: yes) Will you double the last consonant of *chop*? (Students: yes) Write *chopped* in the third space.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 1, write *chopped* as the students read and spell. (Students: chopped, c-h-o-p-p-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

2. mixed. . . . . Number 2: mixed. The play got mixed reviews; some people liked it, some didn't. Say *mixed*. (Students: mixed)

Base word? (Students: mix) Write *mix* in the first space at number 2.

Suffix? (Students: e-d) Write **e-d** in the second space.

*Mixed*. What do you have to decide? (Students: Do we double?) When a word ends with **x**, we do *not* double. Write *mixed* in the third space.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 2, write *mixed* as the students read and spell. (Students: mixed, m-i-x-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

3. won't . . . . . Number 3: won't. I won't be going to your house after school today. Say *won't*. (Students: won't)

CONTRACTION *Won't* is an unusual contraction that comes from *will not*.

MNEMONIC Here is a mnemonic (nə-mŏn-ĭc) for *won't* and *don't*. They rhyme and they end the same way: **o-n-apostrophe-t**.

Write *won't*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *won't* as the students read and spell. (Students: won't, w-o-n-apostrophe-t)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

4. dropped . . . . . Number 4: dropped. The bird dropped a twig onto its nest. Say *dropped*. (Students: dropped)

Base word? (Students: drop) Listen to the sounds: drop. Write *drop*. *Dropped*. What do you have to decide? (Students: Do we double?) Does *drop* have one syllable? (Students: yes) Everyone point to **o**. Does *drop* have one vowel? (Students: yes) Everyone point to **p**. Does *drop* have one consonant after the vowel? (Students: yes) You're writing *dropped*. What is the suffix? (Students: e-d) Does the suffix begin with a vowel? (Students: yes) Will you double the last consonant of *drop*? (Students: yes) Finish writing *dropped*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 4, write *dropped* as the students read and spell. (Students: dropped, d-r-o-p-p-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

5. though . . . . . Number 5: though. She hiked to the top even though she was tired. Say *though*. (Students: though)

Be careful here. The vowel sound in *though* has an unusual spelling. If you know the spelling, write *though*. If you're not sure, raise your hand and look up here as I write it.

► If any students raise their hands, write **ough** to the left of number 5.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 5, write *though* as the students read and spell. (Students: though, t-h-o-u-g-h)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

6. clues . . . . . Number 6: clues. There were no clues as to who stole the money. Say *clues*. (Students: clues)

Be careful here. The vowel sound in *clue* has an unusual spelling. If you know the spelling, write *clues*. If you're not sure, raise your hand and look up here as I write it.

► If any students raise their hands, write **ue** to the left of number 6.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 6, write *clues* as the students read and spell.  
(Students: clues, c-l-u-e-s)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

### NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

7. cutting . . . . . Number 7: cutting. We will be cutting the lower branches of the tree. Say *cutting*. (Students: cutting)

Reread page 184 if you need to. Write the base word, then the suffix, and then the whole word *cutting*.

Now you will check your work. Everyone read the word.  
(Students: cutting) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 7, write *cutting* as the students read and spell by syllables. (Students: cut-, c-u-t, -ting, t-i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

8. can't. . . . . Number 8: can't. I can't wait to see my grandparents. Say *can't*.  
(Students: can't)

Write *can't*.

► If any students raise their hands, write the correct spelling to the left of number 8.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 8, write *can't* as the students read and spell.  
(Students: can't, c-a-n-apostrophe-t)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

9. fudge . . . . . Number 9: fudge. My aunt made a batch of delicious fudge for the party. Say *fudge*. (Students: fudge)

Write *fudge*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 9.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 9, write *fudge* as the students read and spell.  
(Students: fudge, f-u-d-g-e)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

10. quitting . . . . . Number 10: quitting. I'm quitting the basketball team because I injured my knee. Say *quitting*. (Students: quitting)

Reread page 184 if you need to. Write *quitting*.

Now you will check your work. Everyone read the word.  
(Students: quitting) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 10, write *quitting* as the students read and spell by syllables. (Students: quit-, q-u-i-t, -ting, t-i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

PARTNER STUDY On most days in guided spelling, I will ask you a question about word number 10. You and your neighbor will tell each other the answer. Now turn to your neighbor. Explain why you doubled **t** in *quitting*.

MEMORY STEPS Now we'll practice the memory steps for number 10, *quitting*.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell.*  
(Students: quitting, quit-ting)

STEP 2 . . . Step 2 is *Underline any hard parts.*

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check.* Everyone cover the word. Find the line under number 10. Say and write *quitting* by syllables. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

► **Teacher Background**

If you are using the board, number from 1 to 10.

► **Pre-spelling: Doubling**

► If your students have difficulty distinguishing between vowels and consonants, have them first say whether each letter in the word *dot* is a vowel or a consonant.

Turn to page 184 in the back of your *Student Spelling Book*. We'll read the single-syllable doubling generalization together: "IF the base word has one syllable, one vowel, and one consonant after the vowel AND the suffix begins with a vowel, THEN double the last consonant."

dotted . . . . . Help me write *dotted*. She dotted every *i*.

Base word? (Students: dot)

► Write *dot* on the board.

Is the base word one syllable? (Students: yes)

► Point to **o**.

Is there one vowel? (Students: yes)

► Point to **t**.

Is there one consonant after the vowel? (Students: yes)

*Dotted*. Suffix? (Students: -ed) Does the suffix begin with a vowel? (Students: yes)

Will we double **t**? (Students: yes)

► Add *ted*.

Dotted.

► **Guided Spelling**

► Have your students open their spelling books to page 13. They will write ten words in this lesson.

1. dressed. . . . . Number 1: dressed. We all got dressed up for the party.

Say *dressed*. (Students: dressed)

Base word? (Students: dress) Write *dress* in the first space at number 1.

Suffix? (Students: e-d) Write **e-d** in the second space.

*Dressed*. What do you have to decide? (Students: Do we double?) Does *dress* have one syllable? (Students: yes) Everyone point to **e**. Does *dress* have one vowel? (Students: yes) Everyone point to **s-s**. Does *dress* have one consonant after the vowel? (Students: no) Will you double the last consonant of *dress*? (Students: no) You're writing *dressed*. Write *dressed* in the third space.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 1, write *dressed* as the students read and spell. (Students: dressed, d-r-e-s-s-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

2. setting . . . . . Number 2: setting. The setting for the mystery was at a haunted house. Say *setting*. (Students: setting)

Base word? (Students: set) Write *set* in the first space at number 2.

Suffix? (Students: -ing) Write *-ing* in the second space.

*Setting*. What do you have to decide? (Students: Do we double?) Does *set* have one syllable? (Students: yes) Everyone point to **e**. Does *set* have one vowel? (Students: yes) Everyone point to **t**. Does *set* have one consonant after the vowel? (Students: yes) You're writing *setting*. Does the suffix begin with a vowel? (Students: yes) Will you double the last consonant of *set*? (Students: yes) Write *setting* in the third space.

Now you will check your work. Everyone read the word. (Students: setting) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 2, write *setting* as the students read and spell by syllables. (Students: set-, s-e-t, -ting, t-i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

3. don't . . . . . Number 3: don't. We don't have pets in my home. Say *don't*. (Students: don't)

CONTRACTION *Don't* is a contraction.

MNEMONIC Here is a mnemonic (nə-mŏn-ĭc) for *don't* and *won't*. They rhyme and they end the same way.

If you know the spelling, write *don't*. If you're not sure, raise your hand and look up here as I write it.

► If any students raise their hands, write the correct spelling to the left of number 3.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *don't* as the students read and spell.  
(Students: don't, d-o-n-apostrophe-t)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

4. scrubbed . . . . . Number 4: scrubbed. The windows were dirty after the storm, so we scrubbed them. Say *scrubbed*. (Students: scrubbed)

Base word? (Students: scrub) Write *scrub*.

*Scrubbed*. What do you have to decide? (Students: Do we double?) Does *scrub* have one syllable? (Students: yes) Everyone point to **u**. Does *scrub* have one vowel? (Students: yes) Everyone point to **b**. Does *scrub* have one consonant after the vowel? (Students: yes) You're writing *scrubbed*. Does the suffix begin with a vowel? (Students: yes) Will you double the last consonant of *scrub*? (Students: yes) Finish writing *scrubbed*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 4, write *scrubbed* as the students read and spell.  
(Students: scrubbed, s-c-r-u-b-b-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

5. touch . . . . . Number 5: touch. The baby likes to touch my nose. Say *touch*.  
(Students: touch)

Be careful here. The vowel sound in *touch* has an unusual spelling. If you know the spelling, write *touch*. If you're not sure, raise your hand and look up here as I write it.

► If any students raise their hands, write **ou** to the left of number 5.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 5, write *touch* as the students read and spell.  
(Students: touch, t-o-u-c-h)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

6. St. . . . . Number 6: Street. The envelope was addressed to 555 Cornell St. Say *Street*. (Students: Street)

FREQUENTLY MISSPELLED WORD The abbreviation for *Street* is a frequently misspelled word. This abbreviation is also the abbreviation for *Saint*, as in *St. Louis*.

Write the abbreviation for *Street* as you would write it when addressing an envelope.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 6, write *St.* as the students read and spell. (Students: Street, capital S-t-period)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

7. slipping . . . . . Number 7: slipping. He was slipping on the ice as he tried to cross the frozen pond. Say *slipping*. (Students: slipping)

Reread page 184 if you need to. Write the base word, then the suffix, and then the whole word *slipping*.

Now you will check your work. Everyone read the word. (Students: slipping) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 7, write *slipping* as the students read and spell by syllables. (Students: slip-, s-l-i-p-, -ping, p-i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

8. wanted . . . . . Number 8: wanted. I wanted to spend more time outside on my vacation. Say *wanted*. (Students: wanted)

Reread page 184 if you need to. Write *wanted*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 8.

Now you will check your work. Everyone read the word. (Students: wanted) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 8, write *wanted* as the students read and spell by syllables. (Students: want-, w-a-n-t-, -ed, e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

9. stringing . . . . . Number 9: stringing. Kindergartners love stringing wooden beads. Say *stringing*. (Students: stringing)

Reread page 184 if you need to. Write *stringing*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 9.

Now you will check your work. Everyone read the word. (Students: stringing) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 9, write *stringing* as the students read and spell by syllables. (Students: string-, s-t-r-i-n-g, -ing, i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

10. letting . . . . . Number 10: letting. I will be letting my sister borrow my tennis racket. Say *letting*. (Students: letting)

Reread page 184 if you need to. Write *letting*.

Now you will check your work. Everyone read the word. (Students: letting) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 10, write *letting* as the students read and spell by syllables. (Students: let-, l-e-t, -ting, t-i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

PARTNER STUDY Turn to your neighbor and explain why you doubled **t** in *letting*.

MEMORY STEPS Now we'll practice the memory steps for number 10, *letting*.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell.* (Students: letting, let-ting)

STEP 2 . . . Step 2 is *Underline any hard parts.*

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check.* Everyone cover the word. Find the line under number 10. Say and write *letting* by syllables. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

## Weekly Test

### ► Teacher Background

---

The first weekly spelling test is in this lesson. It consists of all 15 of the week's new words, 3 review words, and 2 application words. The form of the weekly tests is traditional word dictation.

The application words assess the students' knowledge of the spelling concepts and are not announced in advance. Tell your students that numbers 1 and 2 are not words that they have memorized for the test, but that they can easily spell the words if they think about what they have learned.

Provide the students with paper for the spelling test.

If you are not differentiating spelling instruction, have all students write the first 20 words. If you are differentiating instruction, have the below-grade-level spellers spell the first 13 words, the average spellers spell the first 20 words, and the advanced spellers spell all 22 words.

We recommend that you collect the tests and correct them yourself so that you can conduct an informal assessment of your class's progress. As you correct the tests, notice particularly the students' spelling of the application words, numbers 1 and 2. Note that students with numerous errors on the test may not be ready for grade 4 spelling.

### ► Administer the Spelling Test

---

Hand out test paper. Have the students put their names at the top and number from 1 to 20.

The test words appear on the following page. Pronounce each word and use it in a sentence. You may use the sentences that are provided. Note that the students do not write the sentences.

## Words with Long a Spelled a-consonant-e, ai, and ay; Frequently Misspelled Words

### ► New Content

---

Long **a** is often spelled **a-consonant-e**, **ai**, or **ay**, as in *relate*, *exclaim*, and *day*.

The sound /ā/ at the end of a word is usually spelled **ay**, as in *today*.

### ► Teacher Background

---

Make a copy of the Week 3 homework (*Blackline Masters* page 4) for each student.

This week you will introduce the students to a routine for spelling sounds with multiple spellings. For example, if you dictate the word *brain*, some students may not know whether to spell *brane* or *brain*. In the spelling routine, you say, “Question?” meaning, “Ask me a question if you don’t know which spelling of the sound /ā/ to use for *brain*.” The students ask, “Which /ā/?” Then you will tell them to use the second spelling under the “cake” picture on the spelling-sound chart. Students who *do* know the correct spelling may write the word without asking “Which /ā/?” and without consulting the chart.

The letter **y** is sometimes a vowel. It is a vowel when it is part of the vowel spellings **ay**, **ey**, **oy**, and **uy**, as in *stay*, *key*, *boy*, and *buy*. It is also a vowel when it has the sound of long **i**, as in *style* or *supply*, short **i** as in *typical*, and long **e** as in *happy*. The letter **w** acting as a vowel will be introduced in Week 11. Recognizing that **y** and **w** are sometimes vowels will help the students apply the doubling generalization. For example, we do not double **y** or **w** in *staying* or *fewer*.

Two additional guiding points are introduced this week: the sound /j/ after a long vowel is spelled **g**, as in *page*; the sound /s/ after a long vowel is spelled **c** or **s**, as in *place* and *base*.

The first two weeks of lessons included detailed instructions to support you and your students in learning the basic procedures of guided spelling. Beginning with Week 3, the instructions are abbreviated.

- The cue “Careful” alerts you and the students to an unusual spelling in a word.
- The cue “Offer help” reminds you to ask your students to raise their hands if they don’t know how to spell part of a word. You write the spelling on the board or overhead to the left of the item number. See page 481 for an example of the procedure for offering help.
- The expected student responses are no longer written out in the lessons. When several instructions are given one after another, a small square (■) indicates that you pause while the students respond orally or in writing.
- The cue “Check” reminds you to do the entire checking procedure for each word. See page 478 for an example of the checking procedure. When checking a polysyllabic word, have the students read and spell each syllable.

On Day 1 of this week, you will show the students how to keep a record of words they missed on the spelling test. In their *Student Spelling Books* they will write **S**, for “need to study,” on the line next to each word they missed.

On Day 4, the students will study the words they missed on last week’s test. The students will do this on Day 4 of each week of the *Guided Spelling* program (except the review weeks).

In Week 3, there are two pre-spelling activities each day. The first focuses on the meaning of the terms “short vowel” and “long vowel.” If your students are confident identifying long and short vowel sounds, you may omit this activity. In the second pre-spelling activity, the students will practice the routine for asking for help when they spell a sound with multiple spellings.

An optional spelling activity for partners is provided each week in the *Blackline Masters* book. The activity for Week 3 can be found on page 44.

► **Pre-spelling #1: Short and Long Vowels**

► Remind your students that in spelling it is important to know the name and sound of each short and long vowel.

short o . . . . . ► Point to **o** on the spelling-sound chart.

What is the sound of short **o**?

short a . . . . . ► Point to **a** on the spelling-sound chart.

What is the sound of short **a**?

short u . . . . . ► Point to **u** on the spelling-sound chart.

What is the sound of short **u**?

short e . . . . . ► Point to **e** on the spelling-sound chart.

What is the sound of short **e**?

short i . . . . . ► Point to **i** on the spelling-sound chart.

What is the sound of short **i**?

Now let's review the long vowel sounds.

long a . . . . . ► Point to the “cake” picture.

The “cake” picture reminds us where to look for the spellings of long **a**, /ā/. Sound? (Students: /ā/)

long e . . . . . ► Point to the “tree” picture.

The “tree” picture reminds us where to look for the spellings of long **e**, /ē/. Sound? (Students: /ē/)

long i . . . . . ► Point to the “kite” picture.

The “kite” picture reminds us where to look for the spellings of long **i**, /ī/. Sound? (Students: /ī/)

long o . . . . . ► Point to the “bone” picture.

The “bone” picture reminds us where to look for the spellings of long **o**, /ō/. Sound? (Students: /ō/)

long u . . . . . ▶ Point to the “mule” picture.

The “mule” picture reminds us where to look for the spellings of long **u**, /ū/. Sound? (Students: /ū/)

---

▶ **Pre-spelling #2: Ask Which Spelling**

Today I’ll show you how I can help you spell long vowel sounds.

Look at the “cake” picture for long **a**. How many ways can we spell the sound /ā/? (Students: four)

When you spell long vowel sounds, you need to learn which spelling to use.

sprain . . . . . Let’s say you are writing the word *sprain*, *I don’t want to sprain my ankle*, but you aren’t sure which spelling of the sound /ā/ to use. I will say, “Question?” That means “Ask me a question if you aren’t sure how to spell this sound.” You will ask, “Which /ā/?” That means “Which spelling under the ‘cake’ picture is the right one for *sprain*?”

I will say, “Use the second spelling under the ‘cake’ picture.” Which is the second spelling under the “cake” picture? (Students: a-i-blank) The blank means that there is usually a letter after **a-i**. In *sprain* the letter is **n**. How do you spell the sound /ā/ in *sprain*? (Students: a-i)

▶ Write *sprain* on the board.

frame. . . . . Let’s practice. *Frame*. Question? You ask, “Which /ā/?” (Students: which /ā/?) Use the first spelling under the “cake” picture. How do you spell the sound /ā/ in *frame*? You say, “a-blank-e.” (Students: a-blank-e)

▶ Point to the blank in **a\_e**.

The blank means that there will be a letter here. In *frame* the letter is **m**.

sweep . . . . . *Sweep*. What vowel sound do you hear in *sweep*? (Students: /ē/) Question? (Students: which /ē/?) Use the second spelling under the “tree” picture. How do you spell the sound /ē/ in *sweep*? (Students: e-e)

stone. . . . . *Stone*. What vowel sound do you hear in *stone*? (Students: /ō/) Question? (Students: which /ō/?) Use the first spelling under the “bone” picture. How do you spell the sound /ō/ in *stone*? (Students: o-blank-e)

## ► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 14 and follow along as you read the words and sentences.

1. space . . . . . Number 1: space. There is space on the shelf to store more books.

► Point to **a\_e** under the “cake” picture.

The “cake” picture has the long **a** spellings under it. The sound /ā/ in *space* is spelled **a-blank-e**. Underline **a** and **e**. Underline **c**.

2. brain . . . . . Number 2: brain. The orca whale has a large brain for a marine mammal.

► Point to **ai\_** under the “cake” picture.

The sound /ā/ in *brain* is spelled **a-i**. Underline **a-i**.

3. clay . . . . . Number 3: clay. We used clay to form animals for the jungle diorama.

► Point to **\_ay** under the “cake” picture.

The sound /ā/ in *clay* is spelled **a-y**. When we hear the sound /ā/ at the end of a word, we spell it **a-y**.

4. age. . . . . Number 4: age. We didn't know the dog's age.

Underline **a** and **e**.

5. plain. . . . . Number 5: plain. Several hundred buffalo were grazing on the plain.

**HOMOPHONE** *Plain* is a homophone. It's not *plane*, a plane that flies. It's *plain*, The buffalo were grazing on the plain.

Underline **a-i**.

6. sprayed. . . . . Number 6: sprayed. When the skunk sprayed, it smelled awful.

The base word is *spray*. When we hear the sound /ā/ at the end of a word, we spell it **a-y**. In the vowel spelling **a-y** the letter **y** is a vowel. The suffix **e-d** was added.

7. Ms. . . . . . Number 7: Ms. Ms. Holmes is our principal.

**FREQUENTLY MISSPELLED WORD** *Ms.* is a frequently misspelled word. Underline the whole word.

8. Mr. . . . . . Number 8: Mr. Mr. Childers teaches band to the fourth and fifth graders.

**FREQUENTLY MISSPELLED WORD** *Mr.* is a frequently misspelled word. Underline the whole word.

9. Miss . . . . . Number 9: Miss. I told Miss Stanton that I would return the book tomorrow.  
 FREQUENTLY MISPELLED WORD *Miss* is a frequently misspelled word. There is no period after *Miss*.
10. Mrs. . . . . . Number 10: Mrs. Mrs. Stewart had her class put on a play.  
 FREQUENTLY MISPELLED WORD *Mrs.* is a frequently misspelled word. Underline the whole word.
11. were . . . . . Number 11: were. I wish we were going to the amusement park together.  
 FREQUENTLY MISPELLED WORD *Were* is a frequently misspelled word. Underline **e** and **e**.
12. where. . . . . Number 12: where. I can never remember where I put my shoes.  
 FREQUENTLY MISPELLED WORD *Where* is a frequently misspelled word. Underline **e** and **e**.
13. skipped . . . . . Number 13: skipped. She skipped softball practice Tuesday.  
 The base word is *skip*. The **p** was doubled, and then the suffix **e-d** was added.
14. of course. . . . . Number 14: of course. I will help you study for the quiz, of course.  
 Underline *of*. Underline **o-u** and **s-e** in *course*.
15. won . . . . . Number 15: won. Our team won the game by one goal.  
 HOMOPHONE *Won* is a homophone. It's not the number *one*. It's *won*, *Our team won*.  
 Underline **o**.

**NUMBERS 16–25 ARE REVIEW WORDS.**

► Optional: Have the class read the review words with you:

- |               |            |
|---------------|------------|
| 16. *mixed    | 21. though |
| 17. *scrubbed | 22. touch  |
| 18. *dressed  | 23. can't  |
| 19. *quitting | 24. clue   |
| 20. *setting  | 25. won't  |

## ► Guided Spelling

► Have your students turn to page 16. They will write eight of this week's new words.

I'm going to say each word and you will write it, but this is not a test. I will help you think about each word so that you write it correctly. If you're not sure how to spell a word, raise your hand to ask me for help. It is important to *know when you don't know*.

1. space . . . . . Number 1: space. There is space on the shelf to store more books. Say *space*.

What are the first two sounds? (Students: /sp/) Write the first two letters.

What is the next sound? (Students: /ā/) Which picture shows the ways to spell the sound /ā/? (Students: cake)

► Point to **a\_e**.

For *space* we will use the first spelling. What is the first spelling? (Students: a-blank-e)

► Point to **a**.

Write **a**.

► Point to the blank.

The sound /s/ in *space* is spelled **c**. Write **c**. ■ The spelling is **a-blank-e**. What part do you still have to write? (Students: e) Add **e**. (Check.)

2. brain . . . . . Number 2: brain. The orca whale has a large brain for a marine mammal. Say *brain*.

What vowel sound do you hear in *brain*? (Students: /ā/) Which picture shows the ways to spell the sound /ā/? ■ If you're not sure how to spell the word, raise your hand. Question?

(Students with raised hands: which /ā/?) Use the second spelling under the "cake" picture. Write *brain*. (Check.)

3. clay . . . . . Number 3: clay. We used clay to form animals for the jungle diorama. Say *clay*.

When we hear the sound /ā/ at the end of a word, we spell it **a-y**. Write *clay*. (Check.)

4. age . . . . . Number 4: age. We didn't know the dog's age. Say *age*.

If you're not sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ā/?) Use the first spelling under the "cake" picture. The sound /j/ after a long vowel is spelled **g**. Write *age*. (Check.)

**NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.**

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. plain. . . . . Number 5: plain. Several hundred buffalo were grazing on the plain. Say *plain*.

Write *plain*. (Check.)

6. sprayed. . . . . Number 6: sprayed. When the skunk sprayed, it smelled awful. Say *sprayed*.

Write *sprayed*. (Check.)

7. Ms.. . . . . Number 7: Ms. Ms. Holmes is our principal. Say *Ms*.

Write *Ms*. (Check.)

8. Mr.. . . . . Number 8: Mr. Childers teaches band to the fourth and fifth graders. Say *Mr*.

Write *Mr*. (Check.)

 **Introduce the Homework**

Hand out the Week 3 homework.

---

 **Record Words Missed**

Return the students' spelling tests from Week 2. Have them turn to pages 8 and 9 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word.

If your students are accustomed to using highlighters, you may want to have them highlight the words they missed.

The application words, numbers 1 and 2 on the test, are not on pages 8 and 9.

► **Pre-spelling #1: Short and Long Vowels**

I'll say a short or long vowel sound and you tell me what it is called. For example, I'll say "/ā/" as in *take*" and you'll say "long a."  
 /ī/ as in *dime* ■ /ă/ as in *glad* ■ /ē/ as in *these* ■ /ā/ as in *game*

► **Pre-spelling #2: Ask Which Spelling**

When you hear a vowel sound with more than one spelling, ask me which spelling to use.

wait. . . . . Let's practice. I will say, "Wait. Question?" You ask, "Which /ā/?"  
 (Students: which /ā/?) I will say, "Use the second spelling under the 'cake' picture."

blade . . . . . *Blade*. What vowel sound do you hear in *blade*? (Students: /ā/)  
 Question? (Students: which /ā/?) Use the first spelling under the "cake" picture. How do you spell the sound /ā/ in *blade*?  
 (Students: a-blank-e)

float . . . . . *Float*. What vowel sound do you hear in *float*? (Students: /ō/)  
 Question? (Students: which /ō/?) Use the second spelling under the "bone" picture. How do you spell the sound /ō/ in *float*?  
 (Students: o-a-blank)

throne . . . . . *Throne*. What vowel sound do you hear in *throne*? (Students: /ō/)  
 Question? (Students: which /ō/?) Use the first spelling under the "bone" picture. How do you spell the sound /ō/ in *throne*?  
 (Students: o-blank-e)

► **Guided Spelling**

► Have your students turn to page 17.

l. cage . . . . . Number l: cage. We often let my pet parrot out of its cage.  
 Say *cage*.  
 What vowel sound do you hear in *cage*? (Students: /ā/) Which picture shows the ways to spell the sound /ā/? ■ If you're not sure how to spell the word, raise your hand. Question?

(Students with raised hands: which /ā/?) Use the first spelling under the “cake” picture. The sound /j/ after a long vowel is spelled **g**. Write *cage*. (Check.)

2. *swaying*. . . . . Number 2: *swaying*. The palm trees were *swaying* in the breeze. Say *swaying*.

Base word? ■ When we hear the sound /ā/ at the end of a word, we spell it **a-y**. Write *sway*. ■ In the vowel spelling **a-y**, the **y** is a vowel. Add the suffix. (Check.)

3. *won* . . . . . Number 3: *won*. Our team *won* the game by one goal. Say *won*.

HOMOPHONE *Won* is a homophone. It’s not the number *one*. It’s *won*, *He won the prize*.

Careful. (Offer help.) Write *won*. (Check.)

4. *Miss* . . . . . Number 4: *Miss*. I told *Miss Stanton* that I would return the book tomorrow. Say *Miss*.

Write *Miss* now. (Check.)

5. *of course* . . . . . Number 5: *of course*. I will help you study for the quiz, *of course*. Say *of course*.

Careful. The expression *of course* is two words. (Offer help.) Write *of course*. (Check.)

6. *where*. . . . . Number 6: *where*. I can never remember where I put my shoes. Say *where*.

Careful. (Offer help.) Write *where*. (Check.)

**NOW YOU’LL WRITE FOUR WORDS INDEPENDENTLY.**

If you’re not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

7. *waist* . . . . . Number 7: *waist*. I tied a rope belt around my *waist* for my pirate costume. Say *waist*.

Write *waist*. (Check.)

8. *were* . . . . . Number 8: *were*. I wish we *were* going to the amusement park together. Say *were*.

Write *were*. (Check.)

9. *Mrs.* . . . . . Number 9: *Mrs.* *Mrs. Stewart* had her class put on a play. Say *Mrs.* Write *Mrs.* (Check.)

10. *skipped* . . . . . Number 10: *skipped*. She skipped softball practice Tuesday.  
Say *skipped*.

Write *skipped*. (Check.)

**PARTNER STUDY** Turn to your neighbor. Explain why you doubled **p** in *skipped*.

**MEMORY STEPS** Now we'll practice the memory steps for *skipped*.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell.*  
(Students: *skipped*)

STEP 2 . . . Step 2 is *Underline any hard parts.*

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check.*  
Everyone cover the word. Find the line under number 10. Write *skipped*. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

► **Teacher Background**

Remember to teach the lessons at a fairly quick pace; this will help sustain the students’ effort and interest. Each day’s lesson is intended to last about 15 minutes.

► **Pre-spelling #1: Short and Long Vowels**

I’ll tell you the name of a sound and you will tell me the sound. For example, I’ll say “long e” and you’ll say “/ē/.”

long o ■ short i ■ long a ■ short u

► **Pre-spelling #2: Ask Which Spelling**

When you hear a vowel sound with more than one spelling, ask me which spelling to use.

knee . . . . . Let’s practice. I will say, “Knee. Question?” You ask, “Which /ē/?” (Students: which /ē/?) I will say, “Use the second spelling under the ‘tree’ picture.”

grown . . . . . *Grown. How he’s grown!* What vowel sound do you hear in *grown*? (Students: /ō/) Question? (Students: which /ō/?) Use the third spelling under the “bone” picture. How do you spell the sound /ō/ in *grown*? (Students: o-w)

drain . . . . . *Drain. What vowel sound do you hear in drain?* (Students: /ā/) Question? (Students: which /ā/?) Use the second spelling under the “cake” picture. How do you spell the sound /ā/ in *drain*? (Students: a-i)

treat . . . . . *Treat. What vowel sound do you hear in treat?* (Students: /ē/) Question? (Students: which /ē/?) Use the third spelling under the “tree” picture. How do you spell the sound /ē/ in *treat*? (Students: e-a)

## ► Guided Spelling

► Have your students turn to page 18.

1. fainted . . . . . Number 1: fainted. It was so hot today that I almost fainted.  
Say *fainted*.

Base word? ■ What vowel sound do you hear in *faint*?  
(Students: /ā/) Which picture shows the ways to spell the sound /ā/? ■ If you're not sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ā/?)  
Use the second spelling under the "cake" picture. Write *faint*.  
*Fainted*. Add the suffix. (Check.)

2. were . . . . . Number 2: were. We were all going to the store. Say *were*.  
Careful. (Offer help.) Write *were*. (Check.)

3. Ms. . . . . . Number 3: Ms. Ms. Shiramoto is our new science teacher.  
Say *Ms*.  
Careful. (Offer help.) Write *Ms*. (Check.)

4. of course . . . . . Number 4: of course. I will go to your band concert, of course.  
Say *of course*.  
Careful. The expression *of course* is two words. (Offer help.)  
Write *of course*. (Check.)

5. won . . . . . Number 5: won. He won the school spelling bee. Say *won*.  
HOMOPHONE *Won* is a homophone. It's not the number *one*.  
It's *won*, *He won a prize*.  
Careful. (Offer help.) Write *won*. (Check.)

6. Miss . . . . . Number 6: Miss. We received a wonderful gift from Miss Evans.  
Say *Miss*.  
Write *Miss* now. (Check.)

**NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.**

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

7. plain . . . . . Number 7: plain. I prefer plain, not fancy, clothes. Say *plain*.  
Write *plain*. (Check.)

8. flipped . . . . . Number 8: flipped. I flipped the coin and won the toss. Say *flipped*.  
Write *flipped*. (Check.)

9. spacecraft . . . . . Number 9: spacecraft. The spacecraft orbits the Earth.  
Say *spacecraft*.  
Write *spacecraft*. (Check.)

10. clay. . . . . Number 10: clay. There was a lot of clay in the garden soil.  
Say *clay*.  
Write *clay*. (Check.)

PARTNER STUDY Turn to your neighbor. Explain why the end of *clay* is spelled **a-y**.

MEMORY STEPS Now we'll practice the memory steps for *clay*.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell.*  
(Students: *clay*)

STEP 2 . . . Step 2 is *Underline any hard parts.*

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables.*  
*Check.* Everyone cover the word. Find the line under number 10.  
Write *clay*. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

► **Teacher Background**

After the guided spelling activity, have the students briefly study the words they missed on last week’s test.

► **Pre-spelling #1: Short and Long Vowels**

I’ll say a short or long vowel sound and you will tell me what it is called. For example, I’ll say “/ā/ as in *make*” and you’ll say “long a.”

/ā/ as in *fame* ■ /ī/ as in *side* ■ /ī/ as in *pitch* ■ /ū/ as in *mule*

► **Pre-spelling #2: Ask Which Spelling**

When you hear a vowel sound with more than one spelling, ask me which spelling to use.

fright . . . . . Let’s practice. I will say, “*Fright*. Question?” You ask, “Which /ī/?” (Students: which /ī/?) I will say, “Use the second spelling under the ‘kite’ picture.”

shame . . . . . *Shame*. What vowel sound do you hear in *shame*? (Students: /ā/) Question? (Students: which /ā/?) Use the first spelling under the “cake” picture. How do you spell the sound /ā/ in *shame*? (Students: a-blank-e)

throat . . . . . *Throat*. What vowel sound do you hear in *throat*? (Students: /ō/) Question? (Students: which /ō/?) Use the second spelling under the “bone” picture. How do you spell the sound /ō/ in *throat*? (Students: o-a)

globe . . . . . *Globe*. What vowel sound do you hear in *globe*? (Students: /ō/) Question? (Students: which /ō/?) Use the first spelling under the “bone” picture. How do you spell the sound /ō/ in *globe*? (Students: o-blank-e)

## ► Guided Spelling

► Have your students turn to page 19.

1. ages . . . . . Number 1: ages. As cheese ages, it develops more flavor.  
Say *ages*.  
Base word? ■ What vowel sound do you hear in *age*?  
(Students: /ā/) Which picture shows the ways to spell the sound /ā/? ■ If you're not sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ā/?)  
Use the first spelling under the "cake" picture.  
Remember how to spell the sound /j/ after a long vowel. Finish writing *ages*. (Check.)
2. skipped. . . . . Number 2: skipped. I skipped over the introduction of the book.  
Say *skipped*.  
Base word? ■ Write *skip*.  
*Skipped*. What do you have to decide? (Students: Do we double?)  
Does *skip* have one syllable? (Students: yes) Everyone point to **i**.  
Does *skip* have one vowel? (Students: yes) Everyone point to **p**.  
Does *skip* have one consonant after the vowel? (Students: yes)  
*Skipped*. Does the suffix begin with a vowel? (Students: yes)  
Will you double the last consonant of *skip*? (Students: yes)  
Finish writing *skipped*. (Check.)
3. Mr. . . . . . Number 3: Mr. Mr. Johnson is our basketball coach. Say *Mr*.  
Careful. (Offer help.) Write *Mr*. (Check.)
4. where. . . . . Number 4: where. I know exactly where I placed my backpack.  
Say *where*.  
Careful. (Offer help.) Write *where*. (Check.)
5. sprayed. . . . . Number 5: sprayed. We sprayed the paint on the fence.  
Say *sprayed*.  
Base word? ■ When we hear the sound /ā/ at the end of a word, we spell it **a-y**. Write *spray*. ■ In the vowel spelling **a-y**, the letter **y** is a vowel. Add the suffix. (Check.)
6. Mrs. . . . . . Number 6: Mrs. Mrs. Sears will be our docent at the history museum. Say *Mrs*.  
Careful. (Offer help.) Write *Mrs*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

7. dripping . . . . . Number 7: dripping. She was dripping wet after the downpour.

Say *dripping*.

Write *dripping*. (Check.)

8. trays . . . . . Number 8: trays. Our lunch was served on trays. Say *trays*.

Write *trays*. (Check.)

► **Student Study**

Have the students turn to pages 8 and 9. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

### ► Teacher Background

---

The weekly spelling test consists of all 15 of the week's new words, 3 review words, and 2 application words. The application words assess the students' knowledge of the spelling concepts and are not announced in advance. Tell your students that numbers 1 and 2 are not words that they have memorized for the test, but that they can easily spell the words if they think about what they have learned.

Provide the students with paper for the spelling test.

If you are not differentiating spelling instruction, have all students write the first 20 words. If you are differentiating instruction, have the below-grade-level spellers spell the first 13 words, the average spellers spell the first 20 words, and the advanced spellers spell all 22 words.

We recommend that you collect the tests and correct them yourself so that you can conduct an informal assessment of your class's progress. As you correct the tests, notice particularly the students' spelling of the application words, numbers 1 and 2. Note that students with numerous errors on the test may not be ready for grade 4 spelling.

### ► Administer the Spelling Test

---

Hand out test paper. Have the students put their names at the top and number from 1 to 20.

The test words appear on the following page. Pronounce each word and use it in a sentence. You may use the sentences that are provided. Note that the students do not write the sentences.

## Polysyllabic Spelling

### ► New Content

---

When writing a word that has more than one syllable, spell one syllable at a time.

The way we say a polysyllabic word does not always correspond to the way it is written. For example, the syllables in *puppy* sound like /pŭ-pĕ/ but they are written as *pup* and *py*.

### ► Teacher Background

---

Make a copy of the Week 4 homework (*Blackline Masters* page 5) for each student.

On Day 2 of this week, you will introduce the “dictionary and personal word list” (found on pages 174–181 in the *Student Spelling Book*). The students will use the dictionary and personal word list during writing and not during guided spelling.

On Day 3 of this week, you will introduce the “frequently misspelled words” list (found on pages 186 and 187 in the *Student Spelling Book*). The students may consult this list during writing and not during guided spelling.

This week the students will practice the memory steps individually after word number 10 on Days 2, 3, and 4. You have led the students through the memory steps several times, so they should be familiar enough with them to practice without your support.

Three additional guiding points are introduced this week: when we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself, for example, *pa-per* and *pro-gram*; if the vowel sound after /s/ is spelled **e**, **i**, or **y**, the sound /s/ is often spelled **c**, as in *cent*, *city*, and *fancy*; the sound /k/ at the end of a syllable is usually spelled **c**, as in *picnic*.

The students will be introduced to two syllable constructions this week. A *closed syllable* contains a short vowel and ends with

one or more consonants, for example, both syllables in *district*. An *open syllable* ends with one long vowel, such as *pī* in *pilot*.

In the pre-spelling activities this week, you will model how to spell polysyllabic words by syllables.

An optional spelling activity for partners is provided each week in the *Blackline Masters* book. The activity for Week 4 can be found on page 45.

Student/Teacher Narrative  
Polysyllabic Spelling and  
Pronouncing Words by  
Syllables sections (all,  
beginning on page 76 and  
continuing on to page 77)

### POLYSYLLABIC SPELLING

Beginning this week, you will guide the students in spelling polysyllabic words. We read and spell polysyllabic words by syllables (for example, *ham-mer*) and by morphemic, or structural, units (for example, *refillable*), not sound by sound. Many students need explicit instruction in polysyllabic spelling because they are used to spelling by sounds. In *Guided Spelling* you support your students in polysyllabic spelling in several ways.

- In pre-spelling activities, you will model how to spell by syllables.
- When introducing the week's new words, you will show your students where to mark the syllable boundaries with a dot, for example, between the two f's in *traff-ic*. Syllable boundaries are also called *syllable divisions*.
- In guided spelling, the students will say each word by syllables before writing.
- You will pronounce each word so that the students can hear the individual syllables clearly, for example, *be-came*, *plas-tic*. Be sure to pause between syllables so that the division will be clear. For more information see the next section, "Pronouncing Polysyllabic Words by Syllables."
- The students will write the polysyllabic word one syllable at a time and pronounce each syllable before they write it.
- In the checking step of guided spelling, the students will read and spell each polysyllabic word by syllables.

### PRONOUNCING POLYSYLLABIC WORDS BY SYLLABLES

Whenever the written syllables of a word are different from the spoken syllables, you'll say, "I'll say the syllables for spelling." Then you will see the word divided into syllables as in a dictionary. In other words, the word is divided into written syllables (for example, *hap-py*), not syllables as spoken in conversation (*hă-py*). The *Teacher's Manual* gives the syllables, but not the pronunciation.

How will you pronounce each syllable? There two options:

- The first option is to pronounce each syllable with the same vowel sound that the word has in typical conversational speech. For example, for *about* you say *ə-bout*, for *collect* you say *cal-lect*, and for *second* you say *sĕc-and*. When a syllable is spelled differently from the way it sounds, offer help. Say, “If you’re not sure how to spell this syllable, look up here,” then write the syllable on the board or overhead for the students who are not sure enough to write it on their own.
- The second option is to pronounce each syllable in an exaggerated way to give the students clues about spelling. For example, saying *ā-bout* lets the students know that the schwa in the first syllable is spelled **a**. This exaggeration will help many students remember that *about* begins with **a**. Saying *Wed-nes-day* helps students with the troublesome part of *Wednesday*. Here are a few examples of exaggerated pronunciation: *īm-mē-dī-āte*, *ā-gō*, *hŭn-drĕd*, *tŭn-nĕl*, *hăb-ĭt*.

This exaggeration approach is fairly common; it seems to be second nature to teachers when they’re teaching spelling. It is a time-honored way of helping students spell. We recommend the exaggeration option because of the mnemonic value to the students. Teachers with a background in phonics will be comfortable with this approach. If your exaggeration confuses English Language Learners (ELLs) about the correct pronunciation of the word, have the students say the word one additional time after the checking process.

If you use exaggerated pronunciation, you do not need to offer as much help as is indicated in the lessons. For example, if you have said *ā-bout*, you do not need to offer help for the first syllable.

## ► Words Used This Week

NEW WORDS	*finish, *explain, *until, *became, *public, *unless, *plastic, *traffic, expect, insect, it’s, hitting, case, prove, blood
REVIEW WORDS	*sprayed, *Ms., *clay, *space, *plain, won, Miss, were, of course, skipped
CHALLENGE WORDS	insist, entertain, demonstrate, pace, soup
APPLICATION WORDS ON THE TEST	gray, switched
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	district, index, splendidly, concentrate, nails, finishes, expected, insects, explained, picnics, because, jays
FREQUENTLY MISSPELLED WORDS	it’s, because

► **Teacher Background**

When you and the students pronounce words by syllables, there should be a pause between syllables to indicate the syllable boundary clearly. For example, say *fin...ish*, not *finnish*.

In the checking step, the students will read and spell each word by syllables. For some words the pronunciation by syllables is quite different from the pronunciation of the whole word. You may want to have your students pronounce the whole word again at the end of the checking step. This may benefit the English Language Learners (ELLs) in particular. The reminder to have the students pronounce the whole word again is included in Weeks 4 and 5.

TEKS 2.A.xxviii  
Student/Teacher Activity  
Pre-spelling: Spelling by Syllables and Introduce This Week's Words sections (all, beginning on page 78 and continuing on to page 79)

► **Pre-spelling: Spelling by Syllables**

This week we'll begin spelling polysyllabic base words. Say "polysyllabic." ■ *Polysyllabic* means *having more than one syllable*. We will spell every polysyllabic word by syllables. I will show you how.

intend . . . . . *Intend. I intend to finish my work. First I say intend by syllables: in-tend.*

Then I say and spell each syllable: *in-*, **i-n**, *-tend*, **t-e-n-d**.

► Write *intend* on the board as you spell by syllables.

detail . . . . . *Detail. I described it in detail. First I say detail by syllables: de-tail.*

The first syllable is *de-*.

► Point to **e** under the "tree" picture on the spelling-sound chart.

When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself. In *detail* the first syllable is spelled **d-e**.

► Write *de*.

The second syllable is *-tail*, **t-a-i-l**.

► Add *tail*.

*Detail.*

## ► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 20 and follow along as you read the words and sentences.

1. finish . . . . . Number 1: finish. I will finish my homework on time.

**TEKS 2.B.xix**  
Student/Teacher Narrative  
Introduce This Week's Words  
(Word: finish, explain, until,  
became, public, unless, plastic)

*Finish* has two syllables. I will tell you where each syllable begins and ends for spelling. In other words, I will tell you the syllable boundaries. When we know the syllable boundaries, we spell more correctly. You will put a dot to show the boundary. Listen to me say *finish* by syllables: *fin...ish*. Everyone put a dot after the **n**.

► Write *fin.ish* on the board.

2. explain . . . . . Number 2: explain. Our teacher will explain the rules for the science fair.

I will tell you the syllables for spelling: *ex...plain*. Put a dot at the syllable boundary. ■ Underline **a-i**.

3. until . . . . . Number 3: until. Don't cross the street until the light turns green.

*Un-til*. Put a dot at the syllable boundary.

4. became. . . . . Number 4: became. It became dark as the clouds covered the sun.

**TEKS 2.A.vi**  
Student /Teacher Narrative  
Introduce This Week's Words  
(Word: became)

*Be-came*. Put a dot at the syllable boundary. ■ The first syllable ends with a long **e** sound. When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself. Underline **a** and the last **e**. ■ The syllable *be-* is called an *open syllable*. An open syllable ends with one long vowel.

5. public . . . . . Number 5: public. The public library is open most Saturdays.

*Pub-lic*. Put a dot at the syllable boundary. ■ The second syllable is *-lic*. When a syllable in a polysyllabic word ends with the sound /k/, it is usually spelled **c**.

6. unless. . . . . Number 6: unless. I won't go to the game unless you join me.

*Un-less*. Put a dot at the syllable boundary. ■ Underline **s-s**.

7. plastic. . . . . Number 7: plastic. I put the plastic bottle in the recycling bin.

*Plas-tic*. Put a dot at the syllable boundary. ■ The second syllable is *-tic*. When a syllable in a polysyllabic word ends with the sound /k/, it is usually spelled **c**.

8. traffic . . . . . Number 8: traffic. There was a lot of traffic on the freeway this morning.  
When we say the syllables they sound like *tră-fic*, but the syllables for spelling are *traf-fic*. Put a dot at the syllable boundary. ■ When a syllable in a polysyllabic word ends with the sound /k/, it is usually spelled **c**.
9. expect . . . . . Number 9: expect. I expect to do well on the test because I studied hard.  
*Ex-pect*. Put a dot at the syllable boundary. ■ Both syllables in this word are called *closed syllables*. A closed syllable has a short vowel and ends with one or more consonants.
10. insect . . . . . Number 10: insect. The monarch butterfly is a beautiful insect.  
*In-sect*. Put a dot at the syllable boundary.
11. it's . . . . . Number 11: it's. It's going to be a warm and sunny day.  
FREQUENTLY MISSPELLED WORD *It's* is a frequently misspelled word.  
HOMOPHONE *It's* is a homophone. The word is not *its*, *The dog wagged its tail*. The word is *it's*, *It's cold outside*.  
CONTRACTION The word *it's* is a contraction for *it is*.
12. hitting . . . . . Number 12: hitting. I hope to be hitting the ball out of the baseball park!  
*Hit-ting*. Put a dot at the syllable boundary. The base word is *hit*. The **t** was doubled and **i-n-g** was added.
13. case . . . . . Number 13: case. In case you forgot, your book is due today.  
Underline **a** and **e**.
14. prove . . . . . Number 14: prove. The lawyer had to prove her case to the jury.  
Underline **o** and **e**.
15. blood . . . . . Number 15: blood. Mosquitoes suck blood.  
Underline **o-o**.

**NUMBERS 16–25 ARE REVIEW WORDS.**

► Optional: Have the class read the review words with you:

- |              |               |

Before you write a polysyllabic word in guided spelling, you will pronounce the word by syllables. Say *finish* by syllables. (The students might say *fin-ish* or *fi-nish*.) I will often say the syllables in a way that will help you spell. *Fin-ish*. Repeat the syllables. (Students: *fin-ish*) First syllable? (Students: *fin-*) Write *fin-*.  
Second syllable? (Students: *-ish*) Write *-ish*.  
When we check a word with more than one syllable, you will read the word and then read and spell by syllables. Read the word. (Students: *finish*) Read and spell by syllables as I write the word.  
► At number 1, write *finish* as the students read and spell. (Students: *fin-*, *f-i-n*, *-ish*, *i-s-h*)
2. explain . . . . . Number 2: explain. Our teacher will explain the rules for the science fair. Say *explain*.  
Say *explain* by syllables. ■ First syllable? ■ Write *ex-*.  
Second syllable? ■ Question? (Students with raised hands: which /ā/?) Use the second spelling under the “cake” picture. Write *-plain*. (Check.)
3. until . . . . . Number 3: until. Don’t cross the street until the light turns green. Say *until*.  
Say *until* by syllables. ■ First syllable? ■ Write *un-*.  
Second syllable? ■ Write *-til*. (Check.)
4. became. . . . . Number 4: became. It became dark as the clouds covered the sun. Say *became*.

Second syllable? ■ Question? (Students with raised hands: which /ā/?) Use the first spelling under the “cake” picture. Write *-came*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. public . . . . . Number 5: public. The public library is open most Saturdays.

Say *public*.

Write *public*. (Check.)

6. unless . . . . . Number 6: unless. I won't go to the game unless you join me.

Say *unless*.

Write *unless*. (Check.)

7. plastic . . . . . Number 7: plastic. I put the plastic bottle in the recycling bin.

Say *plastic*.

Write *plastic*. (Check.)

8. traffic . . . . . Number 8: traffic. There was a lot of traffic on the freeway this morning. Say *traffic*.

I'll say the syllables in a way that will help you spell: *traf-fic*.

Write *traffic*. (Check.)

► To benefit your ELLs, have the class repeat the word: *traffic*.

---

► **Introduce the Homework**

Hand out the Week 4 homework.

---

► **Record Words Missed**

Return the students' spelling tests from Week 3. Have them turn to pages 14 and 15 and find any word they missed on the test. Have them write **S** on the line next to the number of the word. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on pages 14 and 15.

## ► Teacher Background

Pronounce each polysyllabic word so that the students can hear the individual syllables clearly. Be sure that both you and the students pause between syllables so that the division will be clear, for example, *dis...trict*, not *disstric*.

In this lesson, you will introduce the students to the dictionary and personal word list (found on pages 174–181 in the *Student Spelling Book*). The dictionary and personal word list consists of the words on the weekly lists excluding challenge words. The dictionary and personal word list may be used by the students in their classroom writing if they need help to accurately spell words studied in spelling this year.

## ► Pre-spelling: Spelling by Syllables

In this lesson we'll continue to spell polysyllabic base words. Say "polysyllabic." ■ What does *polysyllabic* mean?

conflict . . . . . *Conflict. The conflict was settled soon. First I say conflict by syllables: con-flict.*

Then I say and spell each syllable: *con-*, **c-o-n**, *-flict*, **f-l-i-c-t**.

► Write *conflict* on the board as you spell by syllables.

Both syllables in this word are closed syllables. A closed syllable has a short vowel and ends with one or more consonants.

program . . . . . *Program, pro-gram. The first syllable is pro-*

► Point to **o** under the "bone" picture.

When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself. In *program* the first syllable is spelled **p-r-o**.

► Write *pro*.

The second syllable is *-gram*, **g-r-a-m**.

► Add *gram*.

*Program*. The syllable *pro-* is an open syllable. An open syllable ends with one long vowel.

## ► Guided Spelling

► Have your students turn to page 23.

1. expect . . . . . Number 1: expect. I expect to do well on the test because I studied hard. Say *expect*.

Say *expect* by syllables. ■ First syllable? ■ Write *ex-*.

Second syllable? ■ Write *-pect*.

When we check a word with more than one syllable, you will read the word and then read and spell by syllables. Read the word. (Students: expect) Read and spell by syllables as I write the word.

► At number 1, write *expect* as the students read and spell. (Students: ex-, e-x, -pect, p-e-c-t)

Check your word.

2. it's . . . . . Number 2: it's. It's going to be a warm and sunny day. Say *it's*.

HOMOPHONE *It's* is a homophone. The word is not *its*, *The dog wagged its tail*. The word is *it's*, *It's cold outside*.

CONTRACTION The word *it's* is a contraction for *it is*.

Write *it's*. (Check.)

3. prove . . . . . Number 3: prove. The lawyer had to prove her case to the jury. Say *prove*.

Careful. (Offer help.) Write *prove*. (Check.)

4. district . . . . . Number 4: district. The school district's office is located downtown. Say *district*.

Say *district* by syllables. ■ I'll say the syllables for spelling: *dis-tract*. Repeat the syllables. ■ First syllable? ■ Write *dis-*.

Second syllable? ■ Listen to the sounds: *tract*. Write *-tract*. (Check.)

5. hitting. . . . . Number 5: hitting. I hope to be hitting the ball out of the baseball park! Say *hitting*.

Base word? (Students: hit) Write *hit*.

*Hitting*. What do you have to decide? (Students: Do we double?)

Does *hit* have one syllable? (Students: yes) Everyone point

to **i**. Does *hit* have one vowel? (Students: yes) Everyone point to **t**.

Does *hit* have one consonant after the vowel? (Students: yes)

You're writing *hitting*. What is the suffix? (Students: -ing) Does the

suffix begin with a vowel? (Students: yes) Will you double the last

consonant of *hit*? (Students: yes) Finish writing *hitting*. (Check.)

6. blood . . . . . Number 6: blood. Mosquitoes suck blood. Say *blood*.  
Careful. (Offer help.) Write *blood*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

7. index . . . . . Number 7: index. I sprained my index finger. Say *index*.  
Write *index*. (Check.)

8. case . . . . . Number 8: case. In case you forgot, your book is due today.  
Say *case*.  
Write *case*. (Check.)

9. splendidly . . . . . Number 9: splendidly. You performed your scene splendidly.  
Say *splendidly*.  
I'll say the syllables for spelling: *splen-did-ly*. Write *splendidly*.  
(Check.)

10. insect . . . . . Number 10: insect. The monarch butterfly is a beautiful insect.  
Say *insect*.  
Write *insect*. (Check.)

MEMORY STEPS Now each of you do the memory steps for *insect* quietly by yourself.

## ► Introduce the Dictionary and Personal Word List

---

Have the students turn to the dictionary and personal word list, beginning on *Student Spelling Book* page 174. Explain how they might use it during writing:

- As the students write, they may look up words that they have studied in spelling this year.
- Students may keep track of words they misspell in class writing. When they spell a word incorrectly, they find it on the list and write **S** in the space in front of the word. Remind the students that **S** means “I need to study this word.”
- Students may add words in the spaces below the words for each letter.

► **Teacher Background**

Pronounce each polysyllabic word so that the students can hear the individual syllables clearly. Be sure that both you and the students pause between syllables so that the division will be clear, for example, *plas...tic*, not *plassstic*.

Remember to teach the lessons at a fairly quick pace; this will help sustain the students' effort and interest. Each day's lesson is intended to last about 15 minutes.

In this lesson you will introduce the list of frequently misspelled words (found on pages 186 and 187 in the *Student Spelling Book*). The students may consult this list during their classroom writing.

► **Pre-spelling: Spelling by Syllables**

In this lesson we'll continue to spell polysyllabic base words. Say "polysyllabic." ■ What does *polysyllabic* mean?

finished . . . . . *Finished*. The base word is *finish*. First I say *finish* by syllables: *fin-ish*. Then I say and spell each syllable: *fin-*, **f-i-n**, *-ish*, **i-s-h**.

- Write *finish* on the board as you spell by syllables. Point to **sh**. I see two consonants at the end. I will not double.
  - Add *ed*.
- Finished.

tidy . . . . . *Tidy*. First I say *tidy* by syllables: *ti-dy*. The first syllable is *ti-*.

- Point to **i** under the "kite" picture.
- When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself.
- Write *ti* on the board.
- The next syllable is *-dy*. When we hear the sound /ē/ at the end of a word with more than one syllable, we usually spell it **y**.
- Add *dy*.

*Tidy*. The syllable *ti-* is an open syllable. An open syllable ends with one long vowel.

## ► Guided Spelling

► Have your students turn to page 24.

1. concentrate . . . . . Number 1: concentrate. I need to concentrate and study for the test. Say *concentrate*.  
Say *concentrate* by syllables. ■ I'll say the syllables for spelling: *con-cen-trate*. Repeat the syllables. ■ First syllable? ■ Write *con-*.  
Second syllable? ■ Careful. If the sound after /s/ is spelled *e*, *i*, or *y*, the sound /s/ is often spelled *c*. Write *-cen-*.  
Last syllable? ■ Question? (Students with raised hands: which /ā/?) Use the first spelling under the "cake" picture. Write *-trate*. (Check.)
2. prove . . . . . Number 2: prove. I wanted to prove to my parents that I could handle the job. Say *prove*.  
Careful. (Offer help.) Write *prove*. (Check.)
3. public . . . . . Number 3: public. The public transportation in our city is very good. Say *public*.  
Say *public* by syllables. ■ First syllable? ■ Write *pub-*.  
Second syllable? ■ The sound /k/ at the end of a syllable is usually spelled *c*. Write *-lic*. (Check.)  
*Public*. Both syllables in *public* are closed syllables. A closed syllable has a short vowel and ends with one or more consonants.
4. blood . . . . . Number 4: blood. I skinned my knee and got blood on my pants. Say *blood*.  
Careful. (Offer help.) Write *blood*. (Check.)
5. plastic . . . . . Number 5: plastic. We covered the leftover food in plastic wrap. Say *plastic*.  
Say *plastic* by syllables. ■ First syllable? ■ Write *plas-*.  
Second syllable? ■ The sound /k/ at the end of a syllable is usually spelled *c*. Write *-tic*. (Check.)
6. nails . . . . . Number 6: nails. She had her nails done at the salon. Say *nails*.  
Question? (Students with raised hands: which /ā/?) Use the second spelling under "cake" picture. Write *nails*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

7. finishes . . . . . Number 7: finishes. Whoever finishes the race first will win the trophy. Say *finishes*.

Write *finishes*. (Check.)

8. until . . . . . Number 8: until. I can't wait until school ends and I go to camp. Say *until*.

Write *until*. (Check.)

9. expected. . . . . Number 9: expected. He expected to play the first base position. Say *expected*.

Write *expected*. (Check.)

10. it's . . . . . Number 10: it's. It's going to rain today, so don't forget your umbrella. Say *it's*.

Write *it's*. (Check.)

PARTNER STUDY Turn to your neighbor and explain why *it's* has an apostrophe.

MEMORY STEPS Now each of you do the memory steps for *it's* quietly by yourself.

► **Introduce the Frequently Misspelled Words List**

---

Have the students turn to the list of frequently misspelled words on *Student Spelling Book* pages 186 and 187. Tell the students that these words are frequently missed in writing. If they have a hard time remembering the spelling of a common word, the word may be on this list. You may want to have them mark the page with a self-stick note for easy reference.

► **Teacher Background**

Pronounce each polysyllabic word so that the students can hear the individual syllables clearly. Be sure that both you and the students pause between syllables so that the division will be clear, for example, *traf...fic*, not *traffffic*.

► **Pre-spelling: Spelling by Syllables**

In this lesson we'll continue to spell polysyllabic base words. Say "polysyllabic." ■ What does *polysyllabic* mean?

expanding . . . . . *Expanding. Expanding means getting larger. The base word is expand. First I say expand by syllables: ex-pand.*

Then I say and spell each syllable: ex-, **e-x**, -*pand*, **p-a-n-d**.

► Write *expand* on the board as you spell by syllables. Point to **nd**.

I see two consonants at the end. I will not double.

► Add *ing*.

*Expanding.* All three syllables in this word are closed syllables. A closed syllable has a short vowel and ends with one or more consonants.

gravy . . . . . *Gravy. First I say gravy by syllables: gra-vy. The first syllable is gra-*

► Point to **a** under the "cake" picture.

When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself.

► Write *gra* on the board.

The next syllable is -*vy*. When we hear the sound /ē/ at the end of a word with more than one syllable, we usually spell it **y**.

► Add *vy*.

*Gravy.* The syllable *gra-* is an open syllable. An open syllable ends with one long vowel.

## Guided Spelling

► Have your students turn to page 25.

1. unless . . . . . Number 1: unless. He will fail unless he works harder. Say *unless*.  
Say *unless* by syllables. ■ First syllable? ■ Write *un-*.  
Second syllable? ■ Careful. The sound /s/ at the end of *-less* is spelled **s-s**. Write *-less*. (Check.)

2. insects . . . . . Number 2: insects. We found all kinds of insects in the garden.  
Say *insects*.  
Base word? ■ Say *insect* by syllables. ■ First syllable? ■ Write *in-*.  
Second syllable? ■ Listen to the sounds: sect. Finish writing *insects*.  
(Check.)

3. explained . . . . . Number 3: explained. I explained my science project to the class.  
Say *explained*.  
Base word? ■ Say *explain* by syllables. ■ First syllable? ■ Write *ex-*.  
Second syllable? ■ Question? (Students with raised hands: which /ā/?)  
Use the second spelling under the “cake” picture. Write *-plain*.  
*Explained*. Everyone point to **ai** in *explain*. There are two vowels, so you will not double the last consonant. Finish writing *explained*.  
(Check.)

4. picnics . . . . . Number 4: picnics. We love to have picnics at the park. Say *picnics*.  
Base word? ■ Say *picnic* by syllables. ■ First syllable? ■ The sound /k/ at the end of a syllable is usually spelled **c**. Write *pic-*.  
Second syllable? ■ Finish writing *picnics*. (Check.)

5. traffic . . . . . Number 5: traffic. Because it was a holiday, there wasn’t much traffic. Say *traffic*.  
Say *traffic* by syllables. ■ I’ll say the syllables for spelling: *traf-fic*. Repeat the syllables. ■ First syllable? ■ Write *traf-*.  
Second syllable? ■ Write *-fic*. (Check.)

► To benefit ELLs, have the class repeat the word: *traffic*.

6. case . . . . . Number 6: case. We had a case of chicken pox in our class.  
Say *case*.  
Question? (Students with raised hands: which /ā/?)  
Use the first spelling under the “cake” picture. Write *case*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

7. because. . . . . Number 7: because. We had lunch outside because it was such a beautiful day. Say *because*.

FREQUENTLY MISPELLED WORD *Because* is a frequently misspelled word.

Write *because*. (Check.)

8. jays . . . . . Number 8: jays. The jays built a nest in the oak tree. Say *jays*.

Write *jays*. (Check.)

9. became. . . . . Number 9: became. It became warm after the fog burned off. Say *became*.

Write *became*. (Check.)

10. hitting. . . . . Number 10: hitting. During the storm the tree branches were hitting against the house. Say *hitting*.

Write *hitting*. (Check.)

PARTNER STUDY Turn to your neighbor and explain why you doubled **t** in *hitting*.

MEMORY STEPS Now each of you do the memory steps for *hitting* quietly by yourself.

---

► **Student Study**

Have the students turn to pages 14 and 15. If they missed any words on the test last week, they have put an **S** by each one. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, talk privately to each below-grade-level speller. Tell each one to study just the starred words. Tell the advanced spellers that they are responsible for memorizing all words including the challenge words at the bottom of the page, but they are not expected to write the challenge words for homework unless they feel they need to.

## Weekly Test

### ► Teacher Background

---

The weekly spelling test consists of all 15 of the week's new words, 3 review words, and 2 application words. The application words assess the students' knowledge of the spelling concepts and are not announced in advance. Tell your students that numbers 1 and 2 are not words that they have memorized for the test, but that they can easily spell the words if they think about what they have learned.

Provide the students with paper for the spelling test.

If you are not differentiating spelling instruction, have all students write the first 20 words. If you are differentiating instruction, have the below-grade-level spellers spell the first 13 words, the average spellers spell the first 20 words, and the advanced spellers spell all 22 words.

We recommend that you collect the tests and correct them yourself so that you can conduct an informal assessment of your class's progress. As you correct the tests, notice particularly the students' spelling of the application words, numbers 1 and 2. Note that students with numerous errors on the test may not be ready for grade 4 spelling.

### ► Administer the Spelling Test

---

Hand out test paper. Have the students put their names at the top and number from 1 to 20.

The test words appear on the following page. Pronounce each word and use it in a sentence. You may use the sentences that are provided. Note that the students do not write the sentences.

1. gray

## Syllables with Schwas

### ► New Content

---

A schwa is the sound of unaccented short **u**.

Many syllables in English words contain schwas. Schwas can be spelled in many ways, for example, **o** as in *second*, **a** as in *ago*, **u** as in *upon*, and **e** as in *moment*.

### ► Teacher Background

---

Make a copy of the Week 5 homework (*Blackline Masters* page 6) for each student.

Schwas are particularly troublesome in English spelling. Many words contain schwas, and schwas have many different spellings. Syllables that are pronounced with schwas in some regional dialects are not pronounced with schwas in other regional dialects. In the *Guided Spelling* program, you will help your students recognize schwas by telling them which syllables have schwas. You will help them spell words with schwas either by writing the correct spelling on the board or through exaggerated pronunciation. The section “Pronouncing Polysyllabic Words by Syllables” under “Teacher Background” in Week 4 (pages 76–77) explains the two alternatives for guiding.

A schwa sound is designated by this symbol: /ə/.

Schwas are not the only unaccented vowels in English. Many unaccented vowels sound like /i/ as in *return* and *climate*. Dictionaries show the pronunciation of some unaccented syllables with no vowel, for example, /butn/ for *button* and /mountn/ for *mountain*. In guided spelling you will offer help to the students for unaccented vowels.

If your students are surprised when you tell them that particular syllables do or do not have a schwa, remind them that regional pronunciations vary. Furthermore, dictionaries do not always concur on how a particular word is correctly pronounced.

One additional guiding point is introduced this week: the sound /f/ is sometimes spelled **ph**, as in *phone*.

In the pre-spelling activities this week, the students will practice listening for schwas in words.

## ► Words Used This Week

NEW WORDS	*second, *ago, *upon, *moment, *open, *hundred, *even, *idea, area, let's, splitting, chair, afraid, again, against
REVIEW WORDS	*finish, *public, *plastic, *unless, *explain, prove, expect, it's, blood, hitting
CHALLENGE WORDS	honest, definite, garbage, robin, threat
APPLICATION WORDS ON THE TEST	contest, stray
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	elephant, button, pilot, opens, tunnel, seconds, areas, today, seven hundred, chairs, alphabet, closet, he'll, ideas
FREQUENTLY MISPELLED WORDS	let's

► **Pre-spelling: Hearing Schwas**

► Write on the board: pilot around canal

When we speak English words, many syllables have the vowel sound /ə/. The sound /ə/ is called a *schwa*. Say “schwa.” ■ Schwas can be a challenge in spelling because they can be spelled in many ways.

pilot . . . . . ► Point to **o** in *pilot*.

When we say *pilot*, we say the second syllable as /lət/. The vowel sound is a schwa. This schwa is spelled **o**.

around . . . . . ► Point to **a** in *around*.

When we say *around*, we say the first syllable as /ə/. The vowel sound is a schwa. This schwa is spelled **a**.

canal . . . . . ► Point to the first **a** in *canal*.

When we say *canal*, we say the first syllable as /kə/. The vowel sound is a schwa. This schwa is spelled **a**.

► **Introduce This Week’s Words**

► Have your students open their *Student Spelling Books* to page 26 and follow along as you read the words and sentences. Have them mark the syllable boundaries as you say each word by syllables.

1. second . . . . . Number 1: second. He came in second in the foot race.

I will tell you the syllables for spelling. You mark the syllable boundaries. *Sec-ond*. Put a dot after **c**. ■ The second syllable has a schwa. Underline **o**.

2. ago . . . . . Number 2: ago. I got my first library card two years ago.

*A-go*. ■ The first syllable has a schwa. Underline **a**.

3. upon . . . . . Number 3: upon. “Once upon a time” is the beginning of most fairy tales.

*Up-on*. ■ The first syllable has a schwa. Underline **u**.

4. moment . . . . . Number 4: moment. The lights went out for just a moment during the storm.  
*Mo-ment.* ■ The second syllable has a schwa. Underline **e**.
5. open . . . . . Number 5: open. The store will open at 10:00 a.m.  
*O-pen.* ■ The second syllable has a schwa. Underline **e**.
6. hundred . . . . . Number 6: hundred. A hundred monarch butterflies were clustered on a branch.  
*Hun-dred.* ■ Underline **e**.
7. even . . . . . Number 7: even. Fifty is an even number.  
*E-ven.* ■ The second syllable has a schwa. Underline **e**.
8. idea . . . . . Number 8: idea. He had an idea for his science report.  
*I-de-a.* ■ The third syllable has a schwa. Underline **a**.
9. area . . . . . Number 9: area. Our class met at the picnic area.  
*Ar-e-a.* ■ Underline **a-r**. ■ The third syllable has a schwa. Underline the last **a**.
10. let's . . . . . Number 10: let's. Let's all join in and sing together.  
FREQUENTLY MISSPELLED WORD *Let's* is a frequently misspelled word.  
HOMOPHONE *Let's* is a homophone. It's not *lets*, *She lets us study together*. It's *let's*, *Let's go*.  
CONTRACTION *Let's* is a contraction of *let us*.
11. splitting . . . . . Number 11: splitting. We will be splitting up into two teams.  
*Split-ting.* The base word is *split*. The **t** was doubled and **i-n-g** was added.
12. chair . . . . . Number 12: chair. I sat in a comfortable chair and read my book.  
Underline **a-i**.
13. afraid . . . . . Number 13: afraid. Some people are afraid of heights.  
*A-fraid.* ■ The first syllable has a schwa. Underline **a**. ■ In the second syllable, underline **a-i**.

## ► Guided Spelling

---

► Have your students turn to page 28. Remind them that guided spelling is not a test. You will help them think about each word so that they write it correctly. When they're not sure, they should raise their hands to ask for help.

In the checking procedure for polysyllabic words, the students first read the word and then read and spell each syllable as you write it.

1. second . . . . . Number 1: second. He came in second in the foot race.  
*Say second.*

*Say second by syllables. (Students may say se-cond or sec-ond.)*  
The second syllable has a schwa. Now I'll say the syllables in a way that will help you spell: *sec-ond*. Repeat the syllables. ■  
First syllable? ■ Remember how to spell the sound /k/ at the end of a syllable. Write *sec-*.

Second syllable? ■ If you're not sure how to spell this syllable, raise your hand to ask me and look up here as I write it.

► If any students raise their hands to ask about *-ond*, write the correct spelling to the left of the number 1.

*Write -ond.* (Check.)

► To benefit your ELLs, have the class repeat the word: *second*.

2. ago . . . . . Number 2: ago. I got my first library card two years ago. Say *ago*.  
Say *ago* by syllables. ■ The first syllable has a schwa. Now I'll say the syllables in a way that will help you spell: *a-go*. Repeat the syllables. ■ First syllable? ■ (Offer help.) Write *a-*.  
Second syllable? ■ Write *-go*. (Check.)

## Review of Weeks 1, 2, 3, and 4

### ► Teacher Background

Duplicate the three homework pages for this week (*Blackline Masters* pages 7–9).

On Day 1, you will give a pretest. The students will correct the pretests in class as you read the answers. The students will note which words they need to study.

The Day 2 lesson introduces proofreading practice. The students will work with partners to find spelling errors in sentences.

On Day 3, the students will study for the review test with partners.

The Day 4 lesson includes a class discussion to help the students become more aware of how to spell correctly when writing.

On Day 5, you will give the review test.

If you are differentiating instruction, speak privately with each below-grade-level speller: they will study just the starred words on *Student Spelling Book* pages 32 and 33. Have the average spellers study all the words except the challenge words. Have the advanced spellers study all the words, including the challenge words.

In the pre-spelling activities this week, which begin on Day 2, the students will continue to practice hearing schwas in words.

| 14. became    | She became a doctor because she wanted to help people.       |
| 15. dropped   | The trees dropped their leaves earlier than usual this year. |

### ► Correct the Pretest

---

Read and spell the 15 words out loud. For each word, have the students point under each letter of their words as you spell. If any students did not spell a word correctly, have them draw a line through each word they missed.

---

▶ **Record Words Missed on the Pretest**

---

Have the students turn back to pages 32 and 33. These are the words that will be reviewed this week. If they missed any words on the pretest, have them find the words here and write **S** in front of each one. These are the words that they especially need to study.

---

▶ **Introduce the Homework**

---

Hand out the homework for Week 6. There are three pages of homework this week. The students will practice every review word.

---

▶ **Record Words Missed on Last Week's Test**

---

Return the students' spelling tests from Week 5. Have them turn to pages 26 and 27 and find any words they missed on the test. Have them write **S** on the line next to the number of each missed word. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

## Proofreading

### ► Teacher Background

---

The activity in this lesson develops proofreading skills. The students will work with partners to find the misspelled words and write them correctly in their *Student Spelling Books*. There are one, two, three, or no words misspelled in each sentence.

In the pre-spelling activities this week, the students will continue to practice hearing schwas in words.

### ► Pre-spelling: Hearing Schwas

---

Let's practice hearing schwas. I will say a word the way I speak when I'm having a conversation. You say which syllable has a schwa. For example, I say "compare" and you say "first syllable."

attract . . . . . *Attract*. (Students: first syllable)

parallel . . . . . *Parallel*. (Students: second syllable)

attend . . . . . *Attend*. (Students: first syllable)

### ► Partner Proofreading

---

Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three.

Have your students open their books to page 35. The sentences on this page include many words that the students have studied, but some of them are misspelled. Have the students read the sentences with their partners and look for the misspelled words. Have them draw a line through each misspelled word and write the correct word above it. There may be a sentence with all words correct.

As the students work, monitor and assist those who need extra support in proofreading.

## ► Correct Sentences Together

---

► Read each sentence. Have the students tell you each word that is misspelled and how to spell it correctly. Write the correct word on the board. If the students made a mistake, have them draw a line through the incorrect word.

1. Mr. and Mrs Smith were letting us walk through their feild.

Misspelled words? (Students: Mrs., capital M-r-s-period, through, t-h-r-o-u-g-h, field, f-i-e-l-d)

► Write *Mrs.*, *through*, and *field* on the board as the students read and spell the words.

2. He will explain how the young insects find their food.

Misspelled words? (Students: no misspelled words)

3. Of course we'll finnish on time unles we are interrupted.

Misspelled words?

► Write *course*, *finish*, and *unless* on the board as the students read and spell the words.

4. They scrubed the tables before serving the lunchs. Misspelled words?

► Write *scrubbed* and *lunches* on the board as the students read and spell the words.

5. We wo'nt be quitting practice untill the coach says it's time.

Misspelled words?

► Write *won't*, *quitting*, and *until* on the board as the students read and spell the words.

## ► Record Words Missed in Proofreading

---

If there are misspelled words that the students did not find in proofreading, have them turn back to pages 32 and 33 and write **S** next to each word missed. If there are any words that they did not write correctly, have them write **S** next to those words on pages 32 and 33. These are words the students especially need to study.

## Partner Study

### ► Teacher Background

During partner study time, the students will study for the review test with a partner. Have the students work with their partners from Day 2. First model the study procedure with a partner. Then have a few pairs model the procedure for the class. As partners practice for partner study, circulate and help pairs as needed.

### ► Pre-spelling: Hearing Schwas

Let's practice hearing schwas. I will say a word the way I speak when I'm having a conversation. You say which syllable has a schwa. For example, I say "silent" and you say "second syllable."

dragon . . . . . *Dragon*. (Students: second syllable)

assist . . . . . *Assist*. (Students: first syllable)

bottom . . . . . *Bottom*. (Students: second syllable)

### ► Partner Study

► Have your students open their spelling books to pages 32 and 33. Explain that they will study this week's words with a partner to review the words and practice identifying and explaining the hard parts of each word.

► Explain the partner study procedure.

In partner study, you take turns telling each other which word you choose to spell aloud and which parts of the word are hard to spell. For example, you turn to your neighbor and say, "I will spell number 7, *spread*. The hard part is *e-a*." Then you cover the word and spell it aloud as your partner checks. If you make a mistake, both of you cover the word and spell it together. Then you write **S** in front of the word to remind you to study it.

Your partner then follows the same procedure using a different word.

- ▶ Model the procedure with a partner. Have the students practice if necessary.
- ▶ Circulate as partners work. Observe the students and help them as necessary to study the words together. Encourage the students to choose words that are hard for them.

## Spelling Discussion

### ► Teacher Background

The purpose of today’s spelling discussion is to encourage your students to use in their everyday writing the strategies practiced and learned in guided spelling. In the drafting stage of writing, the students’ focus should be on recording their ideas without stopping to worry about spelling, but in the revision/proof-reading stage the students should pay careful attention to spelling.

### ► Pre-spelling: Hearing Schwas

Now we’ll practice hearing schwas. I will say a word the way I speak when I’m having a conversation. Each word has three syllables. One or two of the syllables have schwas. You say which syllables have schwas. For example, I say “attendance” and you say “first and third syllables.”

horizon . . . . . *Horizon*. (Students: first and third syllables)

recommend . . . . . *Recommend*. (Students: second syllable)

alphabet . . . . . *Alphabet*. (Students: second syllable)

### ► Spelling Discussion

In the *Guided Spelling* program this year, you will memorize 15 new words each week for 25 weeks. There are no new words in the review weeks. You will memorize a total of 375 new words. Yet when you write, there are thousands of words that you may want to use, so you will also learn other spelling strategies to help you spell when you are writing. Besides memorizing words, what are some ways you can help yourself spell correctly when you write?

Students might say:

“I can spell the word by syllables.”

“If the word has a schwa, I can make sure I spell it correctly.”

“I can use the spelling-sound chart.”

“I can think about whether I need to double the last consonant.”

“If the word is a homophone, I can think about which one is correct in the sentence.”

“If it’s a short vowel word, I can sound it out.”

“I can write the word and see whether it looks right.”

“I can look up the word in my ‘dictionary and personal word list’ at the back of my spelling book or I can look it up in the classroom dictionary.”

“I can use the spell-checker on my computer.”

► If the students have difficulty thinking of how they can spell words correctly when they are writing, share one or two of the ideas listed above and then ask them to think of additional ways.

---

### ► **Partner Study**

If time permits, have the students study the review words on pages 32 and 33 with their partners, as on Day 3 of this week. This is a brief activity of 1 or 2 minutes.

## Weekly Test

For details about the weekly test, see page 53.

## ► Ongoing Assessment of Spelling Progress

Take some time to assess the progress of your students.

Were there many errors on the regular short vowels? If so, reteach pre-spelling from Week 1 and the first daily pre-spelling activity from Week 3. This will reinforce the students' knowledge of the names and sounds of the short vowels as well as how to use the spelling-sound chart. Short vowels are very important in both polysyllabic and single-syllable spelling.

Were there many errors on memory parts of words? The memory parts are the letter sequences that must be memorized because they can't be figured out using phonics knowledge. Examples are the underlined letters in these words: *brain*, *though*, *through*, and *prove*. If the students are making errors on the memory parts, discuss the importance of spelling homework. Be sure the students and parents understand the homework instructions and the importance of using the three memory steps.

If you have been differentiating instruction, are your below-grade-level, average, and advanced spellers correctly designated? Consider the students' performance on all spelling tests to date. If some students have consistently made several errors on the tests, consider having them memorize fewer words each week. If average spellers have made no errors on the tests, they may be able to learn the challenge words each week. Consider student effort as well as performance, however. Some students with perfect tests may have studied intensely and would find it difficult to memorize additional words.

Do your students need encouragement to transfer their knowledge from *Guided Spelling* lessons to their writing? When they ask how to spell a word during writing, have them ask about the parts of the word they're not sure of. Provide the guiding and assistance that you would provide during a *Guided Spelling* lesson.

## Syllables with Long e Spelled e-consonant-e, ee, ea, and y

### ► New Content

---

Long **e** is often spelled **e-consonant-e**, **ee**, or **ea**, as in *complete*, *week*, and *season*.

The sound /ē/ at the end of a polysyllabic word is usually spelled **y**, as in *plenty*.

### ► Teacher Background

---

Make a copy of the Week 7 homework (*Blackline Masters* page 10) for each student.

The spelling **y** for the sound /ē/ at the end of a polysyllabic word is shown as \_\_\_y under the “tree” picture on the spelling-sound chart, along with the other long **e** spellings. The long blank in \_\_\_y indicates that the spelling is used in polysyllabic words. Other spellings of the sound /ē/ at the end of a polysyllabic word are much less frequent than **y** and include such words as *coffee*, *recipe*, *monkey*, and *Pattie*.

In some regions, speakers pronounce **y** at the end of a polysyllabic word as an unaccented short **i**.

The students will be introduced to two more syllable constructions this week. A *vowel-consonant-e syllable* includes a single vowel followed by a consonant and **e**; this syllable type appears at the end of a base word, as in *complete*. In a *vowel team syllable*, the vowel sound is spelled with two letters, as in **ee** in *between* and **ea** in *reason*.

This week the students will be introduced to word history notes that will appear throughout the year. The notes will show changes in language (spelling, meaning, and pronunciation) as well as influences on English from other languages. When a note refers to a particular country, you may want to point out the country on a map.

One additional guiding point is introduced this week: the sound /n/ at the beginning of a word is sometimes spelled **kn** (*knee*).

Beginning this week, the lessons will no longer include the instruction to have the class repeat the word at the end of guiding for the special benefit of English Language Learners. However, if it helps your students to pronounce the word this additional time, continue to include the step.

A few reminders:

- Be sure your class understands that guided spelling is not a test. The students should listen to your step-by-step guidance so that they write the words correctly.
- Encourage your students to ask questions, even in the items they write independently. *Knowing when we don't know* is an important metacognitive ability in spelling.
- Teach the lessons at a fairly quick pace. Difficult concepts will be reviewed many times.
- If some of the students make a mistake in the choral response, tell the class the correct answer and repeat the question.

In the pre-spelling activity, which begins on Day 2 of this week, the students will practice the routine for asking for help when they spell a sound with multiple spellings.

## ► Record Words Missed

Return the students' spelling tests from Week 6. Have them turn to pages 32 and 33 and find any word they missed on the test. Have them write **S** on the line next to the number of the word. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

► **Teacher Background**

In the pre-spelling activity, the students will practice the routine for asking for help when they spell a sound that has multiple spellings.

► **Pre-spelling: Ask Which Spelling**

When you hear a vowel sound with more than one spelling, ask me which spelling to use.

speed . . . . . Let’s practice. *Speed*. What vowel sound do you hear in *speed*? (Students: /ē/) Question? You ask, “Which /ē/?” (Students: which /ē/?) I’ll say, “Use the second spelling under the ‘tree’ picture.” You look under the “tree” picture to find the second spelling. How do you spell the sound /ē/ in *speed*? (Students: e-e)

drain . . . . . *Drain*. We’ll have to *drain* the tub. What vowel sound do you hear in *drain*? (Students: /ā/) Question? (Students: which /ā/?) Use the second spelling under the “cake” picture. How do you spell the sound /ā/ in *drain*? (Students: a-i)

squeal . . . . . *Squeal*. We heard the pigs *squeal*. What vowel sound do you hear in *squeal*? (Students: /ē/) Question? (Students: which /ē/?) Use the third spelling under the “tree” picture. How do you spell the sound /ē/ in *squeal*? (Students: e-a)

theme . . . . . *Theme*. What vowel sound do you hear in *theme*? (Students: /ē/) Question? (Students: which /ē/?) Use the first spelling under the “tree” picture. How do you spell the sound /ē/ in *theme*? (Students: e-blank-e)

► **Guided Spelling**

► Have your students turn to page 39.

I. eighteen . . . . . Number I: *eighteen*. My older brother turned *eighteen* today. Say *eighteen*.

FREQUENTLY MISSPELLED WORD *Eighteen* is a frequently misspelled word.

Say *eighteen* by syllables. ■ Now I'll say the syllables for spelling: *eight-een*. Repeat the syllables. ■ First syllable? ■ Careful. (Offer help.) Write *eight-*.

Second syllable? ■ Question? ■ Use the second spelling under the "tree" picture. Write *-een*. (Check.)

2. underneath . . . . . Number 2: underneath. His dog loves to sleep underneath the coffee table. Say *underneath*.

Say *underneath* by syllables. ■ First syllable? ■ Write *un-*.

Second syllable? ■ It's spelled **d-e-r**.

Last syllable? ■ Question? ■ Use the third spelling under the "tree" picture. Write *-neath*. (Check.)

The last syllable in *underneath* is called a *vowel team syllable*. The vowel sound is spelled with two letters, **e-a**.

3. either . . . . . Number 3: either. You may play either soccer or basketball. Say *either*.

Say *either* by syllables. ■ First syllable? ■ Careful. It's spelled **e-i**. Write *ei-*.

Second syllable? ■ It's spelled **t-h-e-r**. (Check.)

4. neither . . . . . Number 4: neither. She has neither a pen nor a pencil. Say *neither*.

Say *neither* by syllables. ■ First syllable? ■ Careful. It's spelled **n-e-i**. Write *nei-*.

Second syllable? ■ It's spelled **t-h-e-r**. (Check.)

5. crazy . . . . . Number 5: crazy. The noise is driving me crazy! Say *crazy*.

Say *crazy* by syllables. ■ First syllable? ■ Remember how to spell a long vowel sound at the end of a syllable. Write *cra-*.

Second syllable? ■ The sound /ē/ at the end of a polysyllabic word is usually spelled **y**. Write *-zy*. (Check.)

6. clapped. . . . . Number 6: clapped. The audience clapped wildly after the performance. Say *clapped*.

Base word? ■ Write *clap*.

*Clapped*. What do you have to decide? (Students: Do we double?)

Does *clap* have one syllable? (Students: yes) One vowel?

(Students: yes) One consonant after the vowel? (Students: yes)

*Clapped*. Suffix? (Students: e-d) Does the suffix begin with a

vowel? (Students: yes) Will you double the last consonant of *clap*?

(Students: yes) Finish writing *clapped*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. sudden . . . . . Number 7: sudden. All of a sudden the rain poured down.  
Say *sudden*.  
I'll say the syllables for spelling: *sud-den*. Write *sudden*. (Check.)

8. away . . . . . Number 8: away. I am going away to summer camp for two weeks. Say *away*.  
Write *away*. (Check.)

9. problem . . . . . Number 9: problem. This problem requires three steps.  
Say *problem*.  
Write *problem*. (Check.)

10. program . . . . . Number 10: program. The after-school art program is very popular. Say *program*.  
Write *program*. (Check.)

PARTNER STUDY Turn to your neighbor. Explain why you wrote **o** in the first syllable.

MEMORY STEPS Do the memory steps for *program*.

# Week 7 Day 3

## ► Pre-spelling: Ask Which Spelling

When you hear a vowel sound with more than one spelling, ask me which spelling to use.

cloak . . . . . *Cloak.* He wore a cloak. What vowel sound do you hear in *cloak*? (Students: /ō/) Question? (Students: which /ō/?) Use the second spelling under the “bone” picture. How do you spell the sound /ō/ in *cloak*? (Students: o-a)

creep . . . . . *Creep.* What vowel sound do you hear in *creep*? (Students: /ē/) Question? (Students: which /ē/?) Use the second spelling under the “tree” picture. How do you spell the sound /ē/ in *creep*? (Students: e-e)

bowl . . . . . *Bowl.* What vowel sound do you hear in *bowl*? (Students: /ō/) Question? (Students: which /ō/?) Use the third spelling under the “bone” picture. How do you spell the sound /ō/ in *bowl*? (Students: o-w)

heap . . . . . *Heap.* What vowel sound do you hear in *heap*? (Students: /ē/) Question? (Students: which /ē/?) Use the third spelling under the “tree” picture. How do you spell the sound /ē/ in *heap*? (Students: e-a)

## ► Guided Spelling

► Have your students turn to page 40.

1. knees . . . . . Number 1: knees. I skinned my knees as I slid into home plate. Say *knees*.

Base word? ■ Careful. The word begins with **k-n**. Question? ■ Use the second spelling under the “tree” picture. Finish writing *knees*. (Check.)

2. neither . . . . . Number 2: neither. The paint was neither blue nor green, but a shade in between. Say *neither*.

Say *neither* by syllables. ■ First syllable? ■ Careful. It’s spelled **n-e-i**. Write *nei-*.

Second syllable? ■ It's spelled **t-h-e-r**. (Check.)

The first syllable in *neither* is called a *vowel team syllable*. The vowel sound is spelled with two letters, **e-i**.

3. complete . . . . . Number 3: complete. It took me a month to complete my science project. Say *complete*.

Say *complete* by syllables. ■ The first syllable has a schwa. Now I'll say the syllables for spelling: *com-plete*. Repeat the syllables. ■ First syllable? ■ (Offer help.) Write *com-*.

Second syllable? ■ Question? ■ Use the first spelling under the "tree" picture. Write *-plete*. (Check.)

The second syllable in *complete* is called a *vowel-consonant-e syllable*. A vowel-consonant-e syllable includes a single vowel followed by a consonant and **e**.

4. either . . . . . Number 4: either. We could take either path to get to the campsite. Say *either*.

Say *either* by syllables. ■ First syllable? ■ Careful. It's spelled **e-i**. Write *ei-*.

Second syllable? ■ It's spelled **t-h-e-r**. (Check.)

5. between . . . . . Number 5: between. The cat was caught between the fence and the wall, but I got it out. Say *between*.

Say *between* by syllables. ■ Now I'll say the syllables for spelling: *be-tween*. Repeat the syllables. ■ First syllable? ■ (Offer help.) Write *be-*.

Second syllable? ■ Question? ■ Use the second spelling under the "tree" picture. Write *-tween*. (Check.)

6. problem . . . . . Number 6: problem. The mechanic can solve her engine problem. Say *problem*.

Say *problem* by syllables. ■ The second syllable has a schwa. Now I'll say the syllables for spelling: *prob-lem*. Repeat the syllables. ■ First syllable? ■ Write *prob-*.

Second syllable? ■ (Offer help.) Write *-lem*. (Check.)

## ► Student Study

Have the students turn to pages 26 and 27. If they missed a word on the test in Week 5, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

## Syllables with er, ir, and ur

### ► New Content

The sound /er/ is often spelled **er**, **ir**, or **ur**, as in *person*, *third*, and *surface*.

### ► Teacher Background

Make a copy of the Week 8 homework (*Blackline Masters* page 11) for each student.

The students will be introduced to another syllable construction this week. An *r-controlled syllable* includes a single vowel followed by **r**, as in *remark*, *center*, *thirteen*, *orbit*, and *urgent*.

In previous weeks the guiding has specified, “I’ll say the syllables for spelling: *com-plete*. Repeat the syllables.” Beginning in this week the guiding for this sequence is condensed to, “For spelling say *com-plete*.”

One additional guiding point is introduced this week: the sound /z/ after a long vowel is spelled **z** or **s**, as in *blaze* and *rise*.

In the pre-spelling activity, which begins on Day 2 of this week, the students will practice identifying base words and suffixes.

### ► Words Used This Week

### ► Student Study

Have the students turn to pages 36 and 37. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

For details about the weekly test, see page 53.

## Syllables with Long **i** Spelled **i-consonant-e, igh, and y**

---

### ► New Content

Long **i** is often spelled **i-consonant-e, igh,** or **y,** as in *provide,* *flight,* and *fry.*

The sound /i/ at the end of a word is usually spelled **y,** as in *sky* and *deny.*

---

### ► Teacher Background

Make a copy of the Week 9 homework (*Blackline Masters* page 12) for each student.

In the *Guided Spelling* program, the students will learn *all right* as two words. Dictionaries and usage books do not agree on whether *alright* is accepted usage.

Three additional guiding points are introduced this week: The sound /i/ in the middle is sometimes spelled **y,** as in *type;* the sound /k/ after a long vowel is spelled **k,** as in *woke;* when we hear a long vowel followed by a consonant sound in the last syllable of a polysyllabic word, the syllable usually ends with vowel-consonant-**e,** as in *crocodile* and *refuse.*

You may wish to occasionally consult the appendices for reminders of the guiding procedures: checking procedure, page 478; memory steps, page 479; offering help, page 481; and the index to full guiding, page 495.

In the pre-spelling activity, which begins on Day 2 of this week, you will model dropping **e** to prepare the students for the drop **e** generalization in Week 10.

▶ **Introduce the Homework**

---

Hand out the Week 9 homework.

---

▶ **Record Words Missed**

---

Return the students' spelling tests from Week 8. Have them turn to pages 42 and 43 and find any word they missed on the test. Have them write **S** on the line next to the number of the word. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

► **Teacher Background**

In the pre-spelling activity this week, you will model dropping **e** to prepare the students for the drop **e** generalization in Week 10.

► **Pre-spelling: Suffixes on Consonant-e Words**

This year you will add suffixes to many words that end with consonant-**e**. I will show you when to drop **e**. If the base word ends with consonant-**e** and the suffix begins with a vowel, we drop **e**.

riding . . . . . I will write *riding*. *She's riding her bike*. The base word is *ride*.

► Write *ride* on the board. Point to **de**.

The base word ends with consonant-**e**. The suffix **-ing** begins with a vowel. I will drop **e** and then add **-ing**.

► Erase **e** and add *ing*.

Riding.

named . . . . . I will write *named*. *I named my cat Jumper*. The base word is *name*.

## ▶ Student Study

---

Have the students turn to pages 42 and 43. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Drop e Generalization

### ► New Content

If the base word ends with consonant-**e** and the suffix begins with a vowel, then we drop the final **e** of the base word before adding the suffix, as in *closer*, *shiny*, *taking*, and *lovable*.

### ► Teacher Background

Make a copy of the Week 10 homework (*Blackline Masters* page 13) for each student.

To help the students understand this week's generalization for dropping **e**, you will have them write first the base word, then the suffix, and then the whole word for three items each day this week. These items in the *Student Spelling Book* look like this:

\_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Words that end with **ce** or **ge** are exceptions to the drop **e** generalization when the suffix begins with **a** or **o**. We keep **e** so that **c** and **g** will retain their soft sounds, as in *rechargeable* and *courageous*.

Several final-**e** words are correct with or without **e**: *mileage/milage*, *likeable/likable*, *loveable/lovable*, *moveable/movable*, and *useable/usable*.

If a word ends with consonant-**e** and the suffix begins with a consonant, we do not drop the final **e**, as in *wakes*, *careful*, *closeness*, and *senseless*. One exception is *wholly*. *Judgment* and *acknowledgment* are preferred, but *judgement* and *acknowledgement* are acceptable.

The *-ly* form of words that end with consonant-**l-e** is consonant-**l-y**, as in *possibly*, *terribly*, and *wiggly*. In the *Guided Spelling* program, such words are taught phonemically (i.e., by sound) rather than morphemically (i.e., base word plus suffix).

Your students may ask about suffixes on base words that end with vowel-vowel, such as *continued*, *arguing*, *argument*, *truly*, *agreed*, and *agreement*. The generalizations covering these words are complex. Advise your students to consult the dictionary when spelling these words.

In words like *located*, *escaping*, and *dividing*, the *e* at the end of the base word has been dropped before the suffix beginning with a vowel. Dictionaries syllabicate these words as *lo-cat-ed*, *es-cap-ing*, and *di-vid-ing*. Pronounce these words with a long vowel in the second syllable: *lo-cāt-ed*, *es-cāp-ing*, and *di-vīd-ing*.

In the pre-spelling activities, which begin on Day 2 of this week, the students will practice deciding whether to drop *e* before a suffix.

# Week 10 Day 1

## ► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 54 and follow along as you read the words and sentences. Have them mark the syllable boundaries as you say each word by syllables.

1. waving . . . . . Number 1: waving. The ship's passengers were waving good-bye.  
The base word is *wave*. The suffix *-ing* begins with a vowel. The **e** was dropped and the suffix was added. Underline **a**.
2. traded . . . . . Number 2: traded. They traded the books they had just read.  
The base word is *trade*. The suffix **e-d** begins with a vowel. The **e** in the base word was dropped, and **e-d** was added to make *traded*. Underline **a** and **e**.
3. smiling . . . . . Number 3: smiling. My friend is usually happy and is often smiling.  
The base word is *smile*. The suffix *-ing* begins with a vowel. The **e** was dropped and the suffix was added. Underline the first **i**.
4. located . . . . . Number 4: located. The movie theater is located near the bookstore.  
*Lo-cat-ed*. ■ The second syllable boundary is between **t** and **e**. The base word is *locate*. The suffix **e-d** begins with a vowel. The **e** in the base word was dropped, and **e-d** was added to make *located*. Underline **a** and **e**.
5. provided . . . . . Number 5: provided. The teacher provided us with art paper.  
*Pro-vid-ed*. ■ The second syllable boundary is between **d** and **e**. The first syllable has a schwa. Underline **o**. ■ The base word is *provide*. The suffix **e-d** begins with a vowel. The **e** in the base word was dropped, and **e-d** was added to make *provided*. Underline **i** and **e**.
6. escaping . . . . . Number 6: escaping. They don't want the lizard escaping from its cage.  
*Es-cap-ing*. ■ The second syllable boundary is between **p** and **i**. Underline **e**. ■ The base word is *escape*. The suffix *-ing* begins with a vowel. The **e** was dropped and the suffix was added. Underline **a**.

7. dividing . . . . . Number 7: dividing. We were dividing the crackers between us.  
*Di-vid-ing.* ■ The base word is *divide*. The suffix *-ing* begins with a vowel. The **e** was dropped and the suffix was added. In the second syllable, underline **i**.
8. together . . . . . Number 8: together. They walked home together.  
*To-geth-er.* ■ The first syllable has a schwa. Underline **o**. Underline **e-r**.
9. certain . . . . . Number 9: certain. She is certain that she returned the book.  
*Cer-tain.* ■ Underline **c**. Underline **e-r**. ■ Underline **a-i**.
10. modern. . . . . Number 10: modern. Computers are a modern way of writing.  
*Mod-ern.* ■ Underline **e-r**.
11. history . . . . . Number 11: history. We studied the history of our town.  
 HISTORY The word *history* now means what happened in the past. It used to also mean fiction because authors who wrote fiction wanted readers to think their stories were true.  
*His-to-ry.* ■ The second syllable has a schwa. Underline **o**.
12. never . . . . . Number 12: never. I never go bike riding without wearing a helmet.  
*Nev-er.* ■ Underline **e-r**.
13. side . . . . . Number 13: side. The dolphin swam along the side of the boat.  
 Underline **i** and **e**.
14. become. . . . . Number 14: become. Ducklings quickly become larger.  
*Be-come.* ■ Underline the first **e**. ■ In the second syllable, underline **o** and **e**.  
 MNEMONIC The second syllable, *-come*, is also in the words *come*, *income*, and *outcome*.
15. believe . . . . . Number 15: believe. I believe the concert begins at 7:00 p.m.  
*Be-lieve.* ■ Underline the first **e**. ■ In the second syllable, underline **i-e** and **e**.

## NUMBERS 16–25 ARE REVIEW WORDS.

**▶ Introduce the Homework**

---

Hand out the Week 10 homework.

---

**▶ Record Words Missed**

---

Return the students' spelling tests from Week 9. Have them turn to pages 48 and 49 and find any word they missed on the test. Have them write **S** on the line next to the number of the word. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

# Week 10 Day 2

## ▶ Teacher Background

---

In the pre-spelling activities this week, the students will practice deciding whether to drop **e** before a suffix.

## ▶ Pre-spelling: Deciding Whether to Drop e

---

▶ This activity is an oral exercise, but if your students need additional support, write the words on the board.

We will practice deciding whether to drop **e** before a suffix. Turn to page 184 in the back of your *Student Spelling Book*. We'll read the drop **e** generalization together.

*IF the base word ends with consonant-e

## ▶ Student Study

---

Have the students turn to pages 48 and 49. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

For details about the weekly test, see page 53.

## Syllables with Long o Spelled o-consonant-e, oa, and ow

### ► New Content

---

Long **o** is often spelled **o-consonant-e**, **oa**, or **ow**, as in *alone*, *coat*, and *below*.

The sound /ō/ at the end of a word is usually spelled **ow**, as in *grow*.

### ► Teacher Background

---

Make a copy of the Week 11 homework (*Blackline Masters* page 14) for each student.

Although the sound /ō/ at the end of high-frequency words is usually spelled **ow**, there are several exceptions, such as *radio*, *potato*, and *buffalo*.

The letter **w** acts as a vowel in the vowel spellings **aw**, **ew**, and **ow**, as in *jaw*, *few*, and *low*. Recognizing that **y** and **w** are sometimes vowels will help the students apply the doubling generalization. We do not double **y** or **w**, as in *staying* and *fewer*.

One additional guiding point is introduced this week: the sound /r/ at the beginning of a word is sometimes spelled **wr**, as in *write*.

In the pre-spelling activities, which begin on Day 2 of this week, the students will practice deciding whether to drop **e** before a suffix.

# Week 11 Day 1

## ► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 60 and follow along as you read the words and sentences. Have them mark the syllable boundaries as you say each word by syllables.

1. those . . . . . Number 1: those. She likes those red apples.

► Point to **o\_e** under the “bone” picture on the spelling-sound chart.

The picture shows a **b**one for the sound /ō/. The sound /ō/ in *those* is spelled **o-blank-e**. Underline **o** and **e**. ■ The sound /z/ in *those* is spelled **s**. Underline **s**.

2. coast . . . . . Number 2: coast. They sailed along the rocky coast.

► Point to **oa\_** under the “bone” picture.

The sound /ō/ in *coast* is spelled **o-a**.

► Point to the blank in **oa\_**.

The blank means that **o-a** is usually not at the end of a word. Underline **o-a**.

3. known . . . . . Number 3: known. I haven't known him long.

The sound /n/ at the beginning of *known* is spelled **k-n**. Underline **k-n**.

► Point to **ow** under the “bone” picture.

The sound /ō/ in *known* is spelled **o-w**. Underline **o-w**.

4. follow . . . . . Number 4: follow. My dog loves to follow me.

*Fol-low*. ■ When you hear the sound /ō/ at the end of a word, it is usually spelled **o-w**.

5. wrote . . . . . Number 5: wrote. He wrote a letter to his grandparents.

The sound /r/ at the beginning of *wrote* is spelled **w-r**. Underline **w-r**. ■ Underline **o** and **e**.

6. approach . . . . . Number 6: approach. The biologist will approach the tree snake cautiously.  
*Ap-proach.* ■ The first syllable has a schwa. Underline **a**. ■ In the second syllable, underline **o-a**.
7. growth . . . . . Number 7: growth. There was a lot of growth in our garden this summer.  
 Underline **o-w**.
8. yellow . . . . . Number 8: yellow. The daisy was a bright, cheerful yellow.  
*Yel-low.* ■ When you hear the sound /ō/ at the end of a word, it is usually spelled **o-w**.
9. spoke . . . . . Number 9: spoke. I spoke to my friend on the telephone.  
 Underline **o** and **e**.
10. everything . . . . . Number 10: everything. The bus holds everything we need for our trip.  
*Everything* is a compound word. The first syllable boundary is unusual. The first syllable is **e-v-e**. *Eve-ry-thing.* ■ Underline the first syllable: **e-v-e**.
11. surface . . . . . Number 11: surface. The pool toys were floating on the surface.  
*Sur-face.* ■ Underline **u-r**. Underline **a** and **e**. ■ In the second syllable the sound /s/ is spelled **c**. Underline **c**.
12. slightly . . . . . Number 12: slightly. This swimsuit is slightly damp.  
*Slight-ly.* ■ Underline **i-g-h**.
13. saved . . . . . Number 13: saved. Her catch saved the game for her team.  
 The base word is *save*. The suffix **e-d** begins with a vowel. The **e** in the base word was dropped, and **e-d** was added to make *saved*. Underline **a** and **e**.
14. dance . . . . . Number 14: dance. We learned to dance in P.E. class.  
 Underline **c-e**.
15. breakfast . . . . . Number 15: breakfast. I like fruit and cereal for breakfast.  
*Break-fast.* ■ Underline **e-a**. ■ The second syllable has a schwa. Underline **a**.  
 MNEMONIC One meaning of the word *fast* is *not eat*. *Breakfast* used to mean *break one's fast*, or *have a meal after not eating all night*.

NUMBERS 16–25 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- |               |             |
|---------------|-------------|
| 16. *escaping | 21. history |
| 17. *dividing | 22. side    |
| 18. *traded   | 23. never   |
| 19. *together | 24. certain |
| 20. *provided | 25. believe |

► **Introduce the Homework**

Hand out the Week 11 homework.

---

► **Record Words Missed**

Return the students' spelling tests from Week 10. Have them turn to pages 54 and 55 and find any word they missed on the test. Have them write **S** on the line next to the number of the word. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

# Week 11 Day 2

## ► Teacher Background

In the pre-spelling activities this week, the students will practice deciding whether to drop **e** before a suffix.

 **Student Study**

Have the students turn to pages 54 and 55. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

## Review of Weeks 5, 7, 8, 9, and 10

### ► Teacher Background

---

Duplicate the three homework pages for this week (*Blackline Masters* pages 15–17).

On Day 1, you will give a pretest. The students will correct the pretests in class as you read the answers. The students will note which words they need to study.

The Day 2 lesson is proofreading practice. The students will work with partners to find spelling errors in sentences.

On Day 3, the students will study for the review test with partners.

The Day 4 lesson includes a class discussion about learning spelling words.

On Day 5, you will give the review test.

If you are differentiating instruction, speak privately with each below-grade-level speller. They will study just the starred words on *Student Spelling Book* pages 66 and 67. Have the average spellers study all the words except the challenge words. Have the advanced spellers study all the words including the challenge words.

In the pre-spelling activities, which begin on Day 2 of this week, you will model ways for students to memorize the spelling of words.

stirring, completing

## Pretest

### ► Administer the Pretest

---

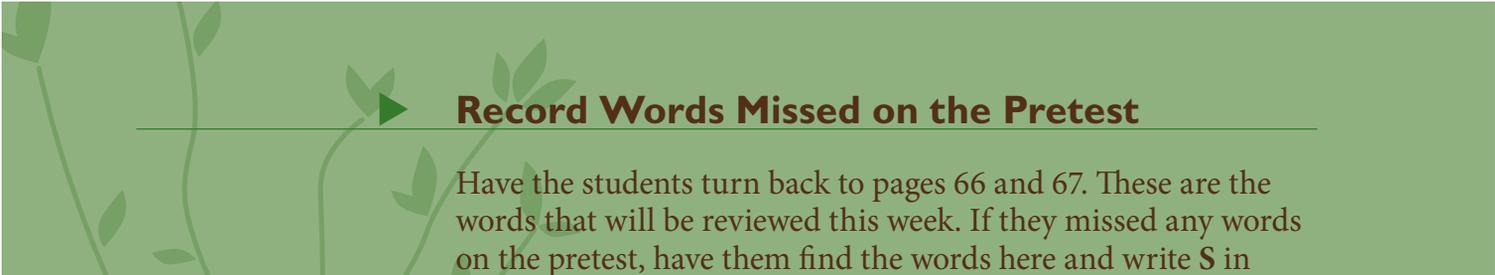

Have your students turn to page 68 in their *Student Spelling Books*. Explain that this week they will review ten words each from Weeks 5, 7, 8, 9, and 10. The pretest in this lesson will help them identify words they especially need to study.

- |               |  |
|---------------|--|
| 1. hundred    | One hundred pennies equal one dollar.                      |
| 2. type       | Which type of juice do you like best?                      |
| 3. America    | North America is one of the seven continents of the world. |
| 4. even       | She wasn't even a minute late.                             |
| 5. whenever   | We'll go to the grocery store whenever you're ready.       |
| 6. separate   | The recipe says to separate the egg yolk from the white.   |
| 7. area       | They picked up litter in the playground area.              |
| 8. afraid     | Don't be afraid of my dog.                                 |
| 9. shoulder   | He carried the backpack over his shoulder.                 |
| 10. second    | I was second in line when the bell rang.                   |
| 11. again     | They will read the chapter again.                          |
| 12. all right | He fell down, but he is all right.                         |
| 13. beyond    | The play structure is located beyond the soccer field.     |
| 14. modern    | The new building had a modern design.                      |
| 15. least     | He had the least distance to walk of anyone in the class.  |

### ► Correct the Pretest

---

Read and spell the 15 words out loud. For each word, have the students point under each letter in their word as you spell. If they did not spell a word correctly, have them draw a line through the word.

---

## ▶ Record Words Missed on the Pretest

Have the students turn back to pages 66 and 67. These are the words that will be reviewed this week. If they missed any words on the pretest, have them find the words here and write **S** in front of each one. These are the words that they especially need to study.

---

## ▶ Introduce the Homework

Hand out the homework for Week 12. There are three pages of homework this week. The students will practice every review word.

---

## ▶ Record Words Missed on Last Week's Test

Return the students' spelling tests from Week 11. Have them turn to pages 60 and 61 and find any word they missed on the test. Have them write **S** on the line next to the number of the word. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

## Proofreading

### ► Teacher Background

---

In the pre-spelling activities this week, you will model ways for students to memorize the spelling of words.

### ► Pre-spelling: Memorizing Words

---

► Write *shoulder* on the board.

Let's think about how to memorize the spelling of words.

shoulder. . . . . One of the review words this week is *shoulder*.

If I say the word by syllables, it will help me remember the letter **l** at the end of the first syllable: *shoul-der*.

I know that **o-u** is an unusual spelling for the sound /ō/, so I visualize the first syllable.

I visualize the second syllable so that I will remember **e-r**.

### ► Partner Proofreading

---

Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three.

Have your students open their books to page 69. The sentences on this page include many words that the students have studied, but some of them are misspelled. Have the students read the sentences with their partners and look for the misspelled words. Have them draw a line through each misspelled word and write the correct word above it. There may be a sentence with all words correct.

As the students work, monitor and assist those who need extra support in proofreading.

## ▶ Correct Sentences Together

▶ Read each sentence. Have the students tell you each word that is misspelled and how to spell it correctly. Write the correct word on the board. If the students made a mistake, have them draw a line through the incorrect word.

1. They went to aide the person who had been hirt. Misspelled words?

▶ Write *aid* and *hurt* on the board as the students read and spell the words.

2. Everyone claped after the sience program about enurgy. Misspelled words?

▶ Write *clapped*, *science*, and *energy* on the board as the students read and spell the words.

3. The book is probably locatted on the shelf behind you. Misspelled words?

▶ Write *probably* and *located* on the board as the students read and spell the words.

4. Lets deside which project to work on together. Misspelled words?

▶ Write *Let's* and *decide* on the board as the students read and spell the words.

5. Their friends were smileing and waveing as they drove away to retern home. Misspelled words?

▶ Write *smiling*, *waving*, and *return* on the board as the students read and spell the words.

6. The sudden noise gave a fright to the shy little mouse. Misspelled words? (Students: no misspelled words)

## ▶ Record Words Missed in Proofreading

If there are misspelled words that the students did not find in proofreading, have them turn back to pages 66 and 67 and write **S** next to each word missed. If there are any words that they did not write correctly, have them write **S** next to those words on pages 66 and 67. These are words the students especially need to study.

## Partner Study

### ► Pre-spelling: Memorizing Words

---

► Write *dividing* on the board.

Let's think about how to memorize the spelling of words.

dividing . . . . . One of the review words this week is *dividing*.

I say it by syllables: *di-vid-ing*.

I exaggerate the first syllable so that it sounds like /dī/.

I remember the drop **e** generalization.

### ► Partner Study

---

Have your students open their spelling books to pages 66 and 67. Remind them how to study their spelling words with a partner. In partner study the students take turns telling each other which word they choose to spell aloud. The students also say which parts of the word are hard to spell. For example, one student says, "I will spell number 4, *hundred*. The hard part is **e** because it's a schwa." She covers the word and spells it aloud as her partner checks. If she makes a mistake, both partners cover the word and spell it together. The partner who made the mistake writes **S** in front of the word to remind her to study it.

You may want to model the partner study before your students begin.

## Spelling Discussion

### ▶ Teacher Background

The purpose of today’s spelling discussion is to exchange ideas about ways to memorize spelling words. Hearing other students’ strategies will enrich each student’s approach to studying.

### ▶ Pre-spelling: Memorizing Words

▶ Write *program* on the board.

Let’s think about how to memorize the spelling of words.

program. . . . . One of the review words this week is *program*.

I say it by syllables: *pro-gram*.

I remember that a long vowel at the end of a syllable is usually spelled with the letter itself, so it is easy to remember **p-r-o**.

The second syllable is easy because I hear the short **a**: *-gram*.

### ▶ Spelling Discussion

TEKS 1.B.ii  
Student/Teacher Activity  
Spelling Discussion  
section  
(First paragraph and  
"Students  
might say" note)

Turn to page 66 and 67 in your spelling books. These are the words you are studying for the review test this week. There are many ways to learn words for a spelling test. I have shown you some of them this week in our pre-spelling activities. What are some ways you might memorize specific words on this list?

Students might say:

“I could say words by syllables and think how each syllable is spelled, for example, *be-tween* and *mod-ern*.”

“I could exaggerate when I pronounce the word, such as *dīviding*, *sepārate*.”

“I like to make up phrases with words that have the same spelling, like *I’m playing against him again*.”

“I can think about the drop **e** generalization.”

“I can think about the parts that are unusual; for example, *shoulder* has **s-h-o-u-l**; *all right* is two words; and *believe* has **l-i-e-v-e**.”

“I could visualize the word in my mind.”

► If the students have difficulty sharing ideas, share one or two of the ideas listed on the previous page and then ask them to think of additional ways they might memorize the words on the list.

---

► **Partner Study**

If time permits, have the students study the review words on pages 66 and 67 with their partners, as on Day 3 of this week. This is a brief activity of 1 or 2 minutes.

## Weekly Test

For details about the weekly test, see page 53.

| 22. advising | I'm advising you not to leave without an umbrella. |

## ► Ongoing Assessment of Spelling Progress

Take some time to assess the progress of your students.

Were there many errors on numbers 1 and 2, the application words (the words the students did not study) and on other words with suffixes, such as *clapped*, *escaping* and *located*? You may need to provide more support during daily guided spelling. For example, before the students spell a word with a suffix, have them reread the related generalization on page 184.

Were there many errors on memory parts of words? The memory parts are the letter sequences that must be memorized because they can't be figured out using knowledge of phonics or word structure. Examples are the underlined letters in the following words: *waving*, *separate*, *shoulder*, and *fright*. If the students are making errors on the memory parts, discuss the importance of spelling homework. Be sure the students and parents understand the homework instructions and the importance of using the three memory steps.

If you have been differentiating instruction, are your below-grade-level, average, and advanced spellers correctly designated? Consider the students' performance on all spelling tests to date. If some students have consistently made several errors on the tests, consider having them memorize fewer words each week. If average spellers have made no errors on the tests, they may be able to learn the challenge words each week. Consider student effort as well as performance, however. Some students with perfect tests may have studied intensely and would find it difficult to memorize additional words.

Do your students need encouragement to transfer their knowledge from *Guided Spelling* lessons to their writing? When they ask how to spell a word during writing, have them ask about the parts of the word they're not sure of. Provide the guiding and assistance that you would provide during a *Guided Spelling* lesson.

## Syllables with **or** and **ore**; Syllables with **ar**

### ► New Content

---

The sound /or/ at the beginning or in the middle of a word is usually spelled **or**, as in *north*.

The sound /ar/ is spelled **ar**, as in *remark*.

The sound /or/ at the end of a word is usually spelled **or** or **ore**, as in *for* and *more*.

### ► Teacher Background

---

Make a copy of the Week 13 homework (*Blackline Masters* page 18) for each student.

As is the case with many other English spelling-sound relationships, **or** and **ore** are complicated by varying regional pronunciations. For example, for some speakers *for* and *shore* rhyme; **or** and **ore** can be taught as two spellings of a single sound. If, however, your students do not pronounce *for* and *shore* as rhyming words, teach the particular spelling for each sound.

One additional guiding point is introduced this week: at the end of a word the sound /k/ after **r** is usually spelled **k**, as in *remark*.

Reminders:

- Be sure your class understands that guided spelling is not a test. The students should listen to your step-by-step guidance so that they write the words correctly.
- Encourage your students to ask questions, even in the four independently written words in daily guided spelling. *Knowing when we don't know* is an important metacognitive ability in spelling.

- Teach the lessons at a fairly quick pace. Difficult concepts will be reviewed many times.
- If some of the students make a mistake in a choral response, tell the class the correct answer and repeat the question.

In the pre-spelling activities, which begin on Day 2 this week, you will show the students some ways to decide between *-tion* and *-sion* in preparation for Week 15.

## ► Words Used This Week

NEW WORDS	*born, *shore, *start, *form, *mark, *corner, *forest, *began, knowledge, matter, wife, wasting, alone, another, brother
REVIEW WORDS	*yellow, *known, *follow, *coast, *those, *growth, saved, everything, dance, surface
CHALLENGE WORDS	fort, orbit, argue, remind, target
APPLICATION WORDS ON THE TEST	glow, chopped
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	fork, margin, before, orange, microphones, marked, starting, participate, corners, forty-fourth, shores, arrow, forming
FREQUENTLY MISSPELLED WORDS	before, forty, fourth

# Week 13 Day 1

## ► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 70 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. born. . . . . Number 1: born. He was born in September.

► Point to **or** under the “fork” picture on the spelling-sound chart.

The picture shows a fork for the sound /or/. The sound /or/ at the beginning or in the middle of a word is usually spelled **o-r**.

2. shore . . . . . Number 2: shore. We collected seashells at the shore.

► Point to **\_ore** under the “fork” picture.

The sound /or/ in *shore* is spelled **o-r-e**.

► Point to the blank in **\_ore**.

The blank means that we don't usually use the spelling **o-r-e** at the beginning of a word. Underline **o-r-e**.

3. start. . . . . Number 3: start. The race will start at the library.

► Point to **ar** under the “art car” picture.

The picture shows an art car for the sound /ar/. The sound /ar/ is spelled **a-r**.

4. form. . . . . Number 4: form. We will form the clay into pots.

The sound /or/ in the middle of a word is usually spelled **o-r**.

5. mark . . . . . Number 5: mark. He will mark the board for the carpenter.

Look at the “art car” picture to spell the sound /ar/.

6. corner . . . . . Number 6: corner. The store is at the corner.

*Cor-ner*. ■ Underline **e-r**.

7. forest . . . . . Number 7: forest. The deer wandered through the forest.

*For-est*. ■ Underline **e**.

8. began . . . . . Number 8: began. We began the school day with a math review.  
*Be-gan.* ■ Underline **e**.
9. knowledge . . . . . Number 9: knowledge. His grandfather has a lot of knowledge about gardening.  
*Knowl-edge.* ■ Underline **k-n**. Underline **o-w**. Underline **e-d-g-e**.  
MNEMONIC Here is a mnemonic: *knowledge* is related to *know*. When you *know* something, you have *knowledge*.
10. matter . . . . . Number 10: matter. I will finish no matter how long it takes.  
*Mat-ter.* ■ Underline **e-r**.
11. wife . . . . . Number 11: wife. My uncle's wife is my aunt.  
Underline **i** and **e**.
12. wasting . . . . . Number 12: wasting. I am very careful about not wasting water.  
*Wast-ing.* ■ The base word is *waste*. The suffix *-ing* begins with a vowel. The **e** was dropped and the suffix was added. Underline **a**.
13. alone . . . . . Number 13: alone. The dog was alone in the backyard.  
*A-lone.* ■ The first syllable has a schwa. Underline **a**.  
Underline **o** and **e**.
14. another . . . . . Number 14: another. I would like to have another tropical fish.  
*An-oth-er.* ■ The first syllable has a schwa. Underline **a**.  
Underline **o**. Underline **e-r**.
15. brother . . . . . Number 15: brother. Her brother will drive her to her friend's house.  
*Broth-er.* ■ Underline **o**. Underline **e-r**.

**NUMBERS 16–25 ARE REVIEW WORDS.**

► Optional: Have the class read the review words with you:

- |             |                |
|-------------|----------------|
| 16. *yellow | 21. *growth    |
| 17. *known  | 22. saved      |
| 18. *follow | 23. everything |
| 19. *coast  | 24. dance      |
| 20. *those  | 25. surface    |

## ► Guided Spelling

► Have your students turn to page 72.

1. born. . . . . Number 1: born. He was born in September. Say *born*.  
The sound /or/ in the middle of a word is spelled **o-r**. Write *born*.  
(Check.)
2. shore . . . . . Number 2: shore. We collected seashells at the shore. Say *shore*.  
Question? ■ Use the second spelling under the “fork” picture.  
Write *shore*. (Check.)
3. start. . . . . Number 3: start. The race will start at the library. Say *start*.  
If you’re not sure how to spell the sound /ar/, look under the  
“art car” picture. Write *start*. (Check.)
4. form. . . . . Number 4: form. We will form the clay into pots. Say *form*.  
The sound /or/ in the middle of a word is spelled **o-r**. Write *form*.  
(Check.)

NOW YOU’LL WRITE FOUR WORDS INDEPENDENTLY.

If you’re not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. mark . . . . . Number 5: mark. He will mark the board for the carpenter.  
Say *mark*.  
Write *mark*. (Check.)
6. corner . . . . . Number 6: corner. The store is at the corner. Say *corner*.  
Write *corner*. (Check.)
7. forest . . . . . Number 7: forest. The deer wandered through the forest.  
Say *forest*.  
I’ll say the syllables for spelling: *for-est*. Write *forest*. (Check.)
8. began . . . . . Number 8: began. We began the school day with a math review.  
Say *began*.  
I’ll say the syllables for spelling: *be-gan*. Write *began*. (Check.)

---

▶ **Introduce the Homework**

---

Hand out the Week 13 homework.

▶ **Record Words Missed**

---

Return the students' spelling tests from Week 12. Have them turn to pages 66 and 67 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

► **Teacher Background**

In the pre-spelling activities this week, you will show the students some ways to decide between *-tion* and *-sion* in preparation for Week 15 guided spelling.

► **Pre-spelling: Syllables *-tion* and *-sion***

Soon in guided spelling you will be writing words that end with **t-i-o-n** and **s-i-o-n**. Deciding whether to write **t-i-o-n** or **s-i-o-n** can be very confusing in English spelling. I will show you how to use clues.

dictation. . . . . I will write *dictation*. First I say *dictation* by syllables: *dic-ta-tion*.

► Write *dicta* on the board.

Now I must decide whether to use **t-i-o-n** or **s-i-o-n**. *Dictation* is related to *dictate*. *Dictate* ends with **t-e**. I will use **t-i-o-n**.

► Add *tion*.

*Dictation*. Here are other examples.

hesitation . . . . . The word *hesitation* is related to *hesitate*. Spell the last syllable of *hesitation*. (Students: t-i-o-n)

translation . . . . . The word *translation* is related to *translate*. Spell the last syllable of *translation*. (Students: t-i-o-n)

pollution . . . . . The word *pollution* is related to *pollute*. Spell the last syllable of *pollution*. (Students: t-i-o-n)

► **Guided Spelling**

► Have your students turn to page 73.

l. fork . . . . . Number l: fork. The fork is usually placed on the left side of a plate. Say *fork*.

The sound /or/ in the middle of a word is spelled **o-r**. At the end of a word the sound /k/ after the letter **r** is usually spelled **k**. Write *fork*. (Check.)

2. margin . . . . . Number 2: margin. My teacher wrote comments in the margin.  
Say *margin*.  
Say *margin* by syllables. ■ For spelling say *mar-gin*. ■ First syllable? ■  
Write *mar-*.  
Second syllable? ■ (Offer help.) Write *-gin*. (Check.)
3. brother. . . . . Number 3: brother. Her brother will drive her to her friend's  
house. Say *brother*.  
Say *brother* by syllables. ■ For spelling say *broth-er*. ■ First  
syllable? ■ Careful. (Offer help.) Write *broth-*.  
Second syllable? ■ Question? ■ Use the first spelling under the  
“robot” picture. Write *-er*. (Check.)
4. knowledge. . . . . Number 4: knowledge. His grandfather has a lot of knowledge  
about gardening. Say *knowledge*.  
Say *knowledge* by syllables. ■ For spelling say *knowl-edge*. ■  
First syllable?  
MNEMONIC Here is the mnemonic: *knowledge* is related to *know*.  
Write *knowl-*.  
Second syllable? ■ Careful. It's spelled **e-d-g-e**.
5. alone . . . . . Number 5: alone. The dog was alone in the backyard. Say *alone*.  
Say *alone* by syllables. ■ The first syllable has a schwa. For spelling  
say *a-lone*. ■ First syllable? ■ (Offer help.) Write *a-*.  
Second syllable? ■ Question? ■ Use the first spelling under the  
“bone” picture. Write *-lone*. (Check.)
6. before . . . . . Number 6: before. She will study hard before taking the test.  
Say *before*.  
FREQUENTLY MISSPELLED WORD *Before* is a frequently  
misspelled word.  
Say *before* by syllables. ■ For spelling say *be-fore*. ■ First syllable? ■  
(Offer help.) Write *be-*.  
Second syllable? ■ Question? ■ Use the second spelling under the  
“fork” picture. Write *-fore*. (Check.)  
  
NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.
7. wife . . . . . Number 7: wife. My uncle's wife is my aunt. Say *wife*.  
Write *wife*. (Check.)

8. another . . . . . Number 8: another. I would like to have another tropical fish.  
Say *another*.  
I'll say the syllables for spelling: *an-oth-er*. Write *another*. (Check.)

9. matter . . . . . Number 9: matter. I will finish no matter how long it takes.  
Say *matter*.  
I'll say the syllables for spelling: *mat-ter*. Write *matter*. (Check.)

10. wasting . . . . . Number 10: wasting. I am very careful about not wasting water.  
Say *wasting*.  
Write *wasting*. (Check.)

**PARTNER STUDY** Turn to your neighbor. Explain why you dropped **e**.

**MEMORY STEPS** Do the memory steps for *wasting*.

# Week 13 Day 3

## ► Pre-spelling: Syllables *-tion* and *-sion*

I will show you how to use clues to help you decide whether to use **t-i-o-n** or **s-i-o-n**.

permission . . . . . I will write *permission*. The word *permission* is related to the word *permit*.

► Write *permit* on the board.

*Permit* ends with **i-t**. Here is something surprising. *Permission* ends with **s-i-o-n**. When a word that ends with /shən/ is related to a word that ends with **i-t**, the syllable /shən/ is spelled **s-i-o-n**.

► Write *permission* on the board.

*Permission*. Here are other examples.

admission . . . . . The word *admission* is related to *admit*. Spell the last syllable of *admission*. (Students: s-i-o-n)

submission . . . . . The word *submission* is related to *submit*. Spell the last syllable of *submission*. (Students: s-i-o-n)

omission. . . . . The word *omission* is related to *omit*. Spell the last syllable of *omission*. (Students: s-i-o-n)

## ► Guided Spelling

► Have your students turn to page 74.

1. forest . . . . . Number 1: forest. It was cool and damp in the forest. Say *forest*. Say *forest* by syllables. ■ For spelling say *for-est*. ■ First syllable? ■ Write *for-*.

Second syllable? ■ (Offer help.) Write *-est*. (Check.)

2. another . . . . . Number 2: another. She checked out another book from the library. Say *another*.

# Week 14 Introduction

## Syllables with Long **u** and Sound /**oo**/

### ► New Content

Long **u** is usually spelled **u-consonant-e**, as in *mule*.

The sound /**oo**/ is often spelled **u-consonant-e**, **ew**, or **oo**, as in *include*, *flew*, and *smooth*.

### ► Teacher Background

Make a copy of the Week 14 homework (*Blackline Masters* page 19) for each student.

The pronunciation of words with **u\_e**, **oo**, and **ew** varies according to regional dialect. Some people pronounce the second syllable of *produce* as /dūs/, whereas others say /dōs/.

Beginning this week, the guiding for dropping **e** before *-ed* and *-ing* is reduced. If your students continue to need full support for dropping **e**, continue to guide them as in Week 10.

In the pre-spelling activities, which begin on Day 2 this week, you will show the students some ways to decide between *-tion* and *-sion* in preparation for Week 15.

### ► Words Used This Week

NEW WORDS	*huge, *tool, *include, *drew, *used to, *produce, *afternoon, *different, figure, tonight, priced, shown, force, view, police
REVIEW WORDS	*mark, *forest, *shore, *began, *corner, knowledge, wife, matter, another, brother

► **Introduce the Homework**

Hand out the Week 14 homework.

---

► **Record Words Missed**

Return the students' spelling tests from Week 13. Have them turn to pages 70 and 71 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

# Week 14 Day 2

## ► Teacher Background

In the pre-spelling activities this week, you will show the students some ways to decide between *-tion* and *-sion* in preparation for Week 15 guided spelling.

## ► Pre-spelling: Syllables *-tion* and *-sion*

Soon in guided spelling you will be writing words that end with **t-i-o-n** and **s-i-o-n**. Deciding whether to write **t-i-o-n** or **s-i-o-n** can be very confusing in English spelling. I will show you how to use clues.

action . . . . . I will write *action*. First I say *action* by syllables: *ac-tion*.

► Write *ac* on the board.

Now I must decide whether to use **t-i-o-n** or **s-i-o-n**. *Action* is related to *act*. Act ends with a consonant and then **t**. I will use **t-i-o-n**.

► Add *tion*.

*Action*. Here are other examples.

subtraction . . . . . The word *subtraction* is related to *subtract*. Spell the last syllable of *subtraction*. (Students: t-i-o-n)

 **Student Study**

Have the students turn to pages 70 and 71. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

For details about the weekly test, see page 53.

## Syllables *-tion* and *-sion*

---

### ► New Content

Related words are often clues for spelling *-tion* and *-sion*. For example, a clue for *action* is found in the related word *act*.

---

### ► Teacher Background

Make a copy of the Week 15 homework (*Blackline Masters* page 20) for each student.

The syllables *-tion* and *-sion* are a challenge in English spelling:

- The written syllable *-tion* has various pronunciations, as in *nation*, *suggestion*, and *equation*. The written syllable *-sion* has two common pronunciations, as in *division* and *mission*.
- The spoken syllable /shən/ has many spellings, for example, *nation*, *mission*, *musician*, *fashion*, and *ocean*. In guided spelling you will teach that the spoken syllable /shən/ is usually spelled **tion**.
- The spoken syllable /zhən/ is usually spelled **sion** but there are exceptions, as in *equation*.

The chart on the following page describes clues that will help your students decide between *-tion* and *-sion*.

Beginning in this week, an instruction labeled THINK appears for some words. You will say, “Let’s think,” and remind the students of a spelling clue in a related word.

One additional guiding point is introduced this week: when the last syllable of a base word is /chər/, it is usually spelled **ture**.

In the pre-spelling activities, which begin on Day 2 this week, you will explain possessive words to the students in preparation for Week 16 guided spelling.

 **Introduce the Homework**

---

Hand out the Week 15 homework.

---

 **Record Words Missed**

---

Return the students' spelling tests from Week 14. Have them turn to pages 76 and 77 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

## ► Teacher Background

The pre-spelling activities this week introduce the students to possessives. Possessives are one of the more difficult concepts in English for several reasons:

- In general, a possessive shows ownership. *The girl's hat* can mean that the girl *owns* the hat; it *belongs to* her. Yet *the girl's hat* can also mean that the girl *has* the hat, as in *The girl's hat was one she borrowed from her friend*. *The men's job* means the job *of* the men. *Boys' shoes* means shoes *for* boys, yet *the boys' shoes* can mean either shoes *for* boys, as in *The boys' shoes in that store are the latest styles*, or the shoes *of* the boys, as in *The boys' shoes needed to be replaced*.
- Readers must be able to determine whether the possessive is singular (as in *the girl's dogs*) or plural (as in *the girls' dogs*). Spellers must select and spell the correct possessive to say what they mean.
- The apostrophe in a possessive does not have the same function as an apostrophe in a contraction.

Possessives are especially difficult for English Language Learners, as well as for other speakers who do not usually pronounce the *s* in possessives. Many students will need an extended period of modeling and guiding to master the spelling of possessives.

## ► Pre-spelling: Possessives

I will explain possessive words to you.

girl's . . . . . ► Write on the board: The girl's hat is blue.

*The girl's hat is blue.* This sentence shows us that the hat *belongs to* the girl. The girl *owns* the hat.

► Cover 's.

We know there is one girl.

► Point to *girl's*.

The word *girl's* is a possessive. Say "possessive."

► Write on the board: girls girl's

These two words are not the same.

► Point to *girls*.

This means “more than one girl.”

► Point to *girl's*.

This is possessive.

► Write on the board: didn't girl's hat

► Point to *didn't* and *girl's*.

Both of these words have apostrophes. In the contraction *didn't* what does the apostrophe show? (Students: a letter was left out) In *girl's* the apostrophe does *not* show letters left out. The apostrophe shows that the word is possessive.

► Point to the “girl's hat” picture on the spelling-sound chart.

This is the picture for the possessive “girl's hat.”

## ► Guided Spelling

► Have your students turn to page 85.

1. mission . . . . . Number 1: mission. Astronauts receive their orders from mission control. Say *mission*.

Say *explosion* by syllables. ■ First syllable? ■ Write *ex-*.

Second syllable? ■ Write *-plo-*.

Last syllable?

**THINK** Let's think about two clues. First, the syllable /zhən/ is usually spelled **s-i-o-n**. Second, *explosion* is related to *explode*. If a /zhən/ word is related to a word that ends with **d-e**, /zhən/ is spelled **s-i-o-n**. Finish writing *explosion*. (Check.)

**HISTORY** The English word *explode* comes from the ancient Romans' word *explodere*, which meant “to drive the actors off the stage with hisses and boos.”

3. future . . . . . Number 3: future. A new soccer field is planned for the future.  
Say *future*.  
Say *future* by syllables. ■ First syllable? ■ Write *fu*-.

## Spelling Possessives

### ► New Content

---

If we write about *one boy's hat*, we show that one boy owns the hat by adding apostrophe-s. We make *boy* possessive.

If we write about *the five boys' team*, we show that it's the team of the five boys by adding an apostrophe. We make *boys* possessive.

If we write about *the men's team*, we show that it's the team of the men by adding apostrophe-s. We make *men* possessive.

### ► Teacher Background

---

Make a copy of the Week 16 homework (*Blackline Masters* page 21) for each student.

The Teacher Background for Week 15, Day 2, on page 248, explains the spelling of possessives.

Three additional guiding points are introduced this week: when a word that ends with /shən/ is related to a word that ends with **it**, /shən/ is spelled **sion** (*permission* is related to *permit*); when a word that ends with /shən/ is related to a word that ends with **te**, /shən/ is spelled **tion** (*operation* is related to *operate*); when the last syllable of a polysyllabic base word ends with /ɪj/ (often pronounced /əj/), /ɪj/ is spelled **age**, as in *damage* and *postage* (an exception is *knowledge*).

You may wish to occasionally consult the appendices for reminders of the guiding procedures: checking procedure, page 478; memory steps, page 479; offering help, page 481; and the index to full guiding, page 495.

In the pre-spelling activities, which begin on Day 2 of this week, you will model the spelling of possessives.

# Week 16 Day 1

## ► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 88 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. today's . . . . . Number 1: today's. They will have today's spelling test after lunch.

*To-day's*. ■ It's the spelling test of today. *Today's* is a possessive. Start underlining *today's*, but stop when you get to the apostrophe. What have you underlined? (Students: today) The part you underlined shows that there is just one today.

The first syllable has a schwa. Draw another line under **o**.

2. nation's. . . . . Number 2: nation's. One of our nation's symbols is the bald eagle.

*Na-tion's*. ■ It's a symbol of the nation. *Nation's* is a possessive. Start underlining *nation's*, but stop when you get to the apostrophe. What have you underlined? (Students: nation) The part you underlined shows that there is just one nation.

Underline **t-i-o-n**.

3. nations'. . . . . Number 3: nations'. The nations' leaders discussed how to protect their shared coastline.

*Na-tions'*. ■ The leaders are leaders of the nations. *Nations'* is a possessive. Start underlining *nations'*, but stop when you get to the apostrophe. What have you underlined? (Students: nations) The part you underlined shows that there is more than one nation.

4. children's. . . . . Number 4: children's. The children's zoo has an animal nursery.

*Chil-dren's*. ■ The zoo is for children. *Children's* is a possessive. Start underlining *children's*, but stop when you get to the apostrophe. What have you underlined? (Students: children) The part you underlined shows that there are *children*, more than one child.

The second syllable has a schwa. Underline **e**.

5. tree's . . . . . Number 5: tree's. Our one tree's branches shade our backyard.  
*Tree's*. The branches are branches of our one tree. *Tree's* is a possessive. Start underlining *tree's*, but stop when you get to the apostrophe. What have you underlined? (Students: tree) The part you underlined shows that there is just one tree.  
 Underline **e-e**.
6. trees' . . . . . Number 6: trees'. Many trees' canopies keep the rain forest cool and damp.  
*Trees'*. These are canopies of many trees. *Trees'* is a possessive. Start underlining *trees'*, but stop when you get to the apostrophe. What have you underlined? (Students: trees) The part you underlined shows that there is more than one tree.
7. women's . . . . . Number 7: women's. The women's softball tournament will be this weekend.  
 FREQUENTLY MISPELLED WORD *Women* is a frequently misspelled word.  
*Wom-en's*. ■ It is the tournament of the women. *Women's* is a possessive. Start underlining *women's*, but stop when you get to the apostrophe. What have you underlined? (Students: women) The part you underlined shows that there are *women*, more than one woman.

# Week 17 Day 1

## ► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 94 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. shook . . . . . Number 1: shook. I shook my head in disbelief.

► Point to the “book” picture on the spelling-sound chart.

The picture shows a book for the sound /oo/. The sound /oo/ is spelled **o-o**.

2. round . . . . . Number 2: round. Their kitchen table is round.

► Point to **ou** under the “ouch” picture on the spelling-sound chart.

The picture shows a hurt knee for the sound /ou/: “ouch.”

► Point to the blank in **ou** . . . . .

The blank means that we don't usually use this spelling at the end of a word. The sound /ou/ in *round* is spelled **o-u**. Underline **o-u**.

3. cow . . . . . Number 3: cow. The cow grazed in the meadow.

► Point to **ow** under the “ouch” picture.

When you hear the sound /ou/ at the end of a word, it is usually spelled **o-w**.

4. wool . . . . . Number 4: wool. Most of my winter sweaters are made from wool.

Look at the “book” picture to spell the sound /oo/ in *wool*.

5. amount . . . . . Number 5: amount. The amount of flour needed is two cups.

*A-mount*. ■ The first syllable has a schwa. Underline **a**. Underline **o-u**.

6. flower . . . . . Number 6: flower. A rose is a fragrant flower.

**HOMOPHONE** Flower is a homophone. It's not the *flour* in *bread*. It's a *flower*, such as a rose.

*Flow-er*. ■ Underline **o-w**. Underline **e-r**.

7. mountain . . . . . Number 7: mountain. There was snow on the mountain year round.  
*Moun-tain.* ■ Underline **o-u**. Underline **a-i**.
8. allow . . . . . Number 8: allow. Does the museum allow dogs?  
*Al-low.* ■ The first syllable has a schwa. Underline **a**.

▶ **Introduce the Homework**

---

Hand out the Week 17 homework.

---

▶ **Record Words Missed**

---

Return the students' spelling tests from Week 16. Have them turn to pages 88 and 89 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

# Week 17 Day 2

## ► Pre-spelling: Memorizing Words

► Write *flower* and *flour* on the board. Point to *flower*.

Let's think about how to memorize the spelling of words.

*flower* . . . . . One of the words you will learn this week is *flower*. When I study *flower*, I have to remember that it's a homophone. I'm learning the *flower* that blossoms, not *flour* that's in bread.

The word *flower* that I am studying has two syllables: *flow-er*.

I will visualize **o-w** and **e-r** to help me remember them.

## ► Guided Spelling

► Have your students turn to page 97.

1. *wound* . . . . . Number 1: *wound*. I wound up the old alarm clock. Say *wound*.

Question? ■ Use the first spelling under the "ouch" picture. Write *wound*. (Check.)

2. *year's* . . . . . Number 2: *year's*. This year's rainfall has been less than predicted. Say *year's*.

What do we call the word *year's*? (Students: possessive) How many years, one or more than one? (Students: one) Write *year*. ■ Make *year* possessive by adding apostrophe-**s**. (Check.)

3. *hook* . . . . . Number 3: *hook*. Hang your coat on the hook. Say *hook*.

If you're not sure how to spell the sound /**oo**/, look under the "book" picture. Write *hook*. (Check.)

4. *education* . . . . . Number 4: *education*. My sister will finish her college education this spring. Say *education*.

Say *education* by syllables. ■ The second syllable has a schwa. For spelling say *ed-u-ca-tion*. ■ First syllable? ■ Write *ed-*.

Second syllable? ■ (Offer help.) Write *-u-*.

Third syllable? ■ Write *-ca-*.

Last syllable? ■ *Education* is related to *educate*. When a word that ends with /**shən**/ is related to a word that ends with **te**, the syllable /**shən**/ is spelled **t-i-o-n**. Finish writing *education*. (Check.)

5. cover . . . . . Number 5: cover. The back cover had information about the author. Say *cover*.  
Say *cover* by syllables. ■ For spelling say *cov-er*. ■ First syllable? ■ Careful. (Offer help.) Write *cov-*.  
Second syllable? ■ Question? ■ Use the first spelling under the “robot” picture. Write *-er*. (Check.)

6. discover . . . . . Number 6: discover. You’ll discover many tiny creatures in a garden. Say *discover*.  
Say *discover* by syllables. ■ For spelling say *dis-cov-er*. ■ First syllable? ■ Write *dis-*.  
Second syllable? ■ Careful. (Offer help.) Write *-cov-*.  
Third syllable? ■ Question? ■ Use the first spelling under the “robot” picture. Write *-er*. (Check.)

NOW YOU’LL WRITE FOUR WORDS INDEPENDENTLY.

7. cool . . . . . Number 7: cool. It became cool at sunset. Say *cool*.  
Write *cool*. (Check.)

8. bow . . . . . Number 8: bow. The singer took a bow after her performance. Say *bow*.

Write *order*. (Check.)

10. temperature. . . . . Number 10: temperature. We set the oven temperature at 375 degrees. Say *temperature*.  
I’ll say the syllables for spelling: *tem-per-a-ture*. Write *temperature*. (Check.)

MEMORY STEPS Do the memory steps for *temperature*.

# Week 17 Day 3

## ► Pre-spelling: Memorizing Words

► Write *education* on the board.

Let's think about how to memorize the spelling of words.

education . . . . . One of this week's words is *education*.

This word can be confusing because it sounds as if it has **g** in it. When I say it by syllables, I will exaggerate so I hear **d** and hear long **u**: *ed-ū-ca-tion*.

The word *education* is related to *educate*, so it's easy to remember that the last syllable it spelled **t-i-o-n**.

## ► Guided Spelling

► Have your students turn to page 98.

1. mountains . . . . . Number 1: mountains. They saw mountains in the distance. Say *mountains*.

Base word? ■ Say *mountain* by syllables. ■ For spelling say *moun-tain*. ■ First syllable? ■ Question? ■ Use the first spelling under the "ouch" picture. Write *moun-*.

Second syllable? ■ (Offer help.) Finish writing *mountains*. (Check.)

2. cooled . . . . . Number 2: cooled. The water cooled at night. Say *cooled*.

Base word? ■ Question? ■ Use the first spelling under the "hoot owl" picture. Write *cool*.

*Cooled*. What do you have to decide? (Students: Do we double?) Does *cool* have one syllable? (Students: yes) One vowel? (Students: no, two) Will you double the last consonant of *cool*? (Students: no) Finish writing *cooled*. (Check.)

3. men's . . . . . Number 3: men's. The men's water polo team won the game. Say *men's*.

FREQUENTLY MISPELLED WORD *Men's* is a frequently misspelled word.

What do we call the word *men's*? (Students: possessive) *The men's team*. A team of one man or of men? ■ Write *men*. ■ Make *men* possessive by adding apostrophe-s. (Check.)

4. **temperatures** . . . . . Number 4: temperatures. The temperatures in the desert often top 100 degrees. Say *temperatures*.  
Base word? ■ Say *temperature* by syllables. ■ For spelling say *tem-per-a-ture*. ■ First syllable? ■ Write *tem-*.  
Second syllable? ■ Question? ■ Use the first spelling under the “robot” picture. Write *-er-*.  
Third syllable? ■ (Offer help.) Write *-a-*.  
Last syllable? ■ When you hear the syllable /chər/ at the end of a base word, it’s usually spelled **t-u-r-e**, as in *nature* and *future*. Finish writing *temperatures*. (Check.)

5. **amount** . . . . . Number 5: amount. The amount of money in his wallet is not enough to buy the toy. Say *amount*.  
Say *amount* by syllables. ■ The first syllable has a schwa. For spelling say *a-mount*. ■ First syllable? ■ Write *a-*.  
Second syllable? ■ Question? ■ Use the first spelling under the “ouch” picture. Write *-mount*. (Check.)

6. **cover** . . . . . Number 6: cover. I cover my ears when the fireworks go off. Say *cover*.  
Say *cover* by syllables. ■ For spelling say *cov-er*. ■ First syllable? ■ Careful. (Offer help.) Write *cov-*.  
Second syllable? ■ Question? ■ Use the first spelling under the “robot” picture. Write *-er*. (Check.)

**NOW YOU’LL WRITE FOUR WORDS INDEPENDENTLY.**

7. **discover** . . . . . Number 7: discover. The treasure hunters hope to discover the sunken ship. Say *discover*.  
Write *discover*. (Check.)

8. **aloud** . . . . . Number 8: aloud. She read the poem both silently and aloud. Say *aloud*.  
Careful. *Aloud* is a homophone. I’ll say the syllables for spelling: *a-loud*. Write *aloud*. (Check.)

9. **shook** . . . . . Number 9: shook. The ground shook during the earthquake. Say *shook*.  
Write *shook*. (Check.)

10. cow's . . . . . Number 10: cow's. Our cow's name is Softie. Say cow's.

Write cow's. (Check.)

**PARTNER STUDY** Turn to your neighbor. Explain how you spelled the possessive cow's in the sentence *Our cow's name is Softie.*

**MEMORY STEPS** Do the memory steps for cow's.

## ► Pre-spelling: Memorizing Words

► Write *temperature* on the board.

Let's think about how to memorize the spelling of words.

temperature . . . . . One of this week's words is *temperature*.

This word can be confusing because some people say /tem-pə-chər/. I will say *temperature* by syllables to help me remember to spell *all* the syllables: *tem-per-a-ture*.

I have to remember **e-r** in the second syllable, so I visualize **e-r**.

I have to remember how to spell the third syllable, so I will exaggerate **a**: *tem-per-ā-ture*.

The last syllable will be easy. When the last syllable of a base word is /chər/, it's usually spelled **t-u-r-e**.

## ► Guided Spelling

► Have your students turn to page 99.

1. powder . . . . . Number 1: powder. Mix water with the paint powder. Say *powder*.

Say *powder* by syllables. ■ First syllable? ■ Question? ■ Use the second spelling under the "ouch" picture. Write *pow-*.

Second syllable? ■ Question? ■ Use the first spelling under the "robot" picture. Write *-der*. (Check.)

2. round . . . . . Number 2: round. They drew perfectly round circles with a compass. Say *round*.

Question? ■ Use the first spelling under the "ouch" picture. Write *round*. (Check.)

3. rose's . . . . . Number 3: rose's. The rose's petals fell to the ground when I picked it. Say *rose's*.

What do we call the word *rose's*? (Students: possessive) How many roses, one or more than one? (Students: one) Write *rose*. ■ Make *rose* possessive by adding apostrophe-**s**. (Check.)

4. allowed . . . . . Number 4: allowed. Her little sister is not allowed to cross the street by herself. Say *allowed*.

Base word? ■ Say *allow* by syllables. ■ The first syllable has a schwa. For spelling say *al-low*. ■ First syllable? ■ (Offer help.)  
Write *al-*.

Second syllable? ■ The sound /ou/ at the end of a word is usually spelled **o-w**. Finish writing *allow*.

*Allowed*. The letter **w** acts as a vowel in the vowel spelling **o-w**.  
Just add **e-d**. (Check.)

5. flower . . . . . Number 5: flower. I have one beautiful flower in a vase. Say *flower*.

HOMOPHONE *Flower* is a homophone. It's not *flour in bread*. It's a *flower that grows in the garden*.

Say *flower* by syllables. ■ For spelling say *flow-er*. ■ First syllable? ■ Question? ■ Use the second spelling under the "ouch" picture.  
Write *flow-*.

Second syllable? ■ Question? ■ Use the first spelling under the "robot" picture. Write *-er*. (Check.)

6. order . . . . . Number 6: order. We lined up in alphabetical order. Say *order*.

Say *order* by syllables. ■ First syllable? ■ Write *or-*.

Second syllable? ■ Question? ■ Use the first spelling under the "robot" picture. Write *-der*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. wool. . . . . Number 7: wool. The wool blanket is warm and soft. Say *wool*.

Write *wool*. (Check.)

8. too . . . . . Number 8: too. There was too much glue on the paper. Say *too*.

FREQUENTLY MISSPELLED WORD *Too* is a frequently misspelled word.

Write *too*. (Check.)

9. education . . . . . Number 9: education. My cousin will continue his education after high school. Say *education*.

I'll say the syllables for spelling: *ed-u-ca-tion*. Write *education*. (Check.)

10. year's . . . . . Number 10: year's. This year's Fourth of July parade will be on Friday. Say *year's*.

Write *year's*. (Check.)

PARTNER STUDY Turn to your neighbor. Explain how you spelled the possessive *year's* in the sentence *This year's Fourth of July parade will be on Friday*.

MEMORY STEPS Do the memory steps for *year's*.

## ▶ Student Study

---

Have the students turn to pages 88 and 89. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

## Review of Weeks 11, 13, 14, 15, and 16

### ► Teacher Background

Duplicate the three homework pages for this week (*Blackline Masters* pages 23–25).

The structure of the review weeks is as follows:

Day 1: Pretest

Day 2: Proofreading with a partner

Day 3: Studying for the review test with a partner

Day 4: Class discussion on spelling

Day 5: Review week test

See Week 6, page 111, for more details about the structure of the review weeks.

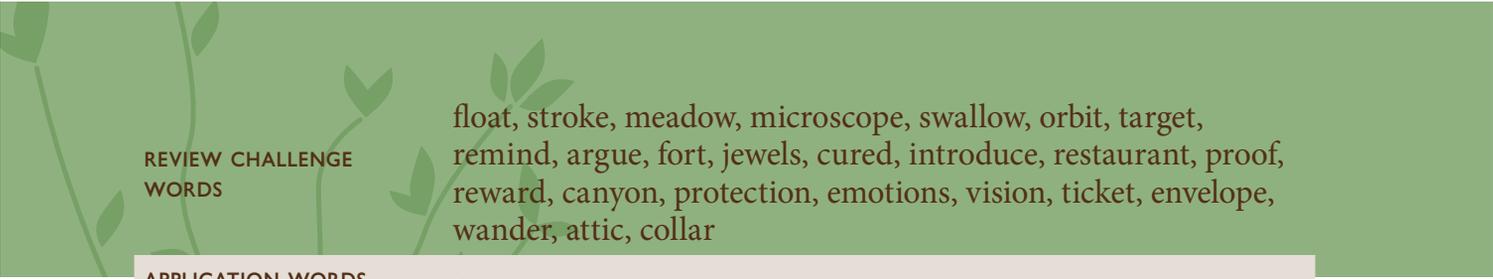

For information on differentiating instruction based on your students' needs, see Week 2, pages 29–30.

In the pre-spelling activities, which begin on Day 2 this week, you will model the spelling of suffixes on base words that end with consonant-y, such as *replies*, *worried*, *replying*, and *happiness*. These activities prepare the students for the change y to i generalization in Week 19.

| 15. alone     | He was alone in the room.                             |

### ► Correct the Pretest

---

Read and spell the 15 words out loud. For each word, have the students point under each letter in their word as you spell. If any students did not spell a word correctly, have them draw a line through each word they misspelled.

---

## ▶ Record Words Missed on the Pretest

Have the students turn back to pages 100 and 101. These are the words that will be reviewed this week. If they missed any words on the pretest, have them find the words here and write **S** in front of each one. These are the words that they especially need to study.

---

## ▶ Introduce the Homework

Hand out the homework for Week 18. There are three pages of homework this week. The students will practice every review word.

---

## ▶ Record Words Missed on Last Week's Test

Return the students' spelling tests from Week 17. Have them turn to pages 94 and 95 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

## Proofreading

### ▶ Teacher Background

**ELPS 5.C.iii**  
Teacher Background and  
Pre-spelling: Endings on  
Consonant-y Words  
sections

In the pre-spelling activities this week, you will model how to add suffixes to base words that end with consonant-y. This will prepare the students for writing similar words in Week 19. More information about adding suffixes to consonant-y words is included in the Week 19 introduction.

**TEKS 2.A.ii**  
**TEKS 2.A.xviii**  
Student/Teacher Narrative  
Pre-spelling: Endings on Consonant y  
Words (Instruction under the  
words worried and replying)

### ▶ Pre-spelling: Endings on Consonant-y Words

Next week you will add endings to words that end with consonant-y. I will show you how.

worried . . . . . I will spell *worried*. The base word is *worry*.

▶ Write on the board: worry + ed

If the base word ends with a consonant and then **y** and the suffix begins with any letter except **i**, we change **y** to **i** before we add the suffix. *Worry* ends with a consonant and then **y**. *Worried*. The suffix begins with **e**. I change **y** to **i** and add **e-d**. *Worried*.

▶ Write *worried* on the board.

replying . . . . . I will spell *replying*. The base word is *reply*.

▶ Write on the board: reply + ing

If the base word ends with a consonant and then **y** and the suffix begins with **i**, we just add **i-n-g**. *Replying*.

▶ Write *replying* on the board.

### ▶ Partner Proofreading

Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three.

Have your students open their books to page 103. The sentences on this page include many words that the students have studied, but some of them are misspelled. Have the students read the

sentences with their partners and look for the misspelled words. Have them draw a line through each misspelled word and write the correct word above it. There may be a sentence with all words correct.

As the students work, monitor and assist those who need extra support in proofreading.

## ▶ **Correct Sentences Together**

---

▶ Read each sentence. Have the students tell you each word that is misspelled and how to spell it correctly. Write the correct word on the board. If the students made a mistake, have them draw a line through the incorrect word.

1. That nations' population passed the one million mark.  
Misspelled words?

▶ Write *nation's* on the board as the students read and spell the word.

2. They gained knowlage by paying attension to other students' ansers. Misspelled words?

▶ Write *knowledge*, *attention*, and *answers* on the board as the students read and spell the words.

3. The iland off the coast had a beautiful sandy shor.  
Misspelled words?

▶ Write *island* and *shore* on the board as the students read and spell the words.

4. The childrens parents' make brekfast every morning.  
Misspelled words?

▶ Write *children's*, *parents*, and *breakfast* on the board as the students read and spell the words.

5. We saw on television that todays weather will be warm in the afternoon and slightly cooler tonite. Misspelled words?

▶ Write *television*, *today's*, and *tonight* on the board as the students read and spell the words.

6. I use to follow my bruther wherever he went. Misspelled words?

▶ Write *used* and *brother* on the board as the students read and spell the words.

## ▶ Record Words Missed in Proofreading

---

If there are misspelled words that the students did not find in proofreading, have them turn back to pages 100 and 101 and write **S** next to each word missed. If there are any words that they did not write correctly, have them write **S** next to those words on pages 100 and 101. These are words the students especially need to study.

## Partner Study

### ► Pre-spelling: Endings on Consonant-y Words

I will add endings to words that end with consonant-y.

replies . . . . . I will spell *replies*. The base word is *reply*.

► Write on the board: reply + es

To add /z/ to a word that ends with a consonant and then y, change y to i and add e-s.

► Write *replies* on the board.

copying . . . . . I will spell *copying*. The base word is *copy*.

► Write on the board: copy + ing

If the base word ends with a consonant and then y and the suffix begins with i, we just add i-n-g. *Copying*.

► Write *copying* on the board.

### ► Partner Study

Have your students open their spelling books to pages 100 and 101. Remind them how to study their spelling words with a partner. In partner study the students take turns telling each other which word they choose to spell aloud. The students also say which parts of the word are hard to spell. For example, one student says, “I will spell number 26, *different*. The hard parts are remembering the three syllables, e-r in the second syllable, and e in the last syllable.” He covers the word and spells it aloud as his partner checks. If he makes a mistake, both partners cover the word and spell it together. The partner who made the mistake writes S in front of the word to remind him to study it.

You may want to model the partner study before your students begin.

## Spelling Discussion

### ▶ Teacher Background

---

The purpose of today's spelling discussion is to identify resources for spelling and to consider the advantages and disadvantages of each.

### ▶ Pre-spelling: Endings on Consonant-y Words

---

I will add endings to words that end with consonant-**y**.

happiness . . . . . I will spell *happiness*. The base word is *happy*.

▶ Write on the board: happy + ness

If the base word ends with a consonant and then **y** and the suffix begins with any letter except **i**, we change **y** to **i** before we add the suffix. *Happy* ends with a consonant and then **y**. *Happiness*. The suffix begins with **n**. I change **y** to **i** and add **-ness**. *Happiness*.

▶ Write *happiness* on the board.

tries . . . . . I will spell *tries*. The base word is *try*.

▶ Write on the board: try + es

To add /z/ to a word that ends with a consonant and then **y**, change **y** to **i** and add **e-s**.

▶ Write *tries* on the board.

### ▶ Spelling Discussion

---

There are times when we just can't figure out the correct spelling of a word. We need to consult a resource. Let's name the resources we can use for spelling and think about the advantages and disadvantages of each one.

Students might say:

“The ‘dictionary and personal word list’ in the *Student Spelling Book*.”

**Advantages:**

“It’s handy because it’s in the back of my *Student Spelling Book*.”

“It’s easy to look up words in it.”

“I can add words that are hard for me and find them quickly.”

**Disadvantages:**

“It contains only the words that we are studying in spelling this year.”

“It doesn’t tell me which homophone a word is.”

“The ‘frequently misspelled words’ list in the *Student Spelling Book*.”

**Advantages:**

“It’s in the back of my *Student Spelling Book*.”

“It’s easy to look up words.”

“I can write on it and mark the words that I often miss.”

“If a word is a homophone, it tells me which one.”

**Disadvantages:**

“There are some words that I misspell often that are not on this list.”

“The dictionary.”

**Advantages:**

“The dictionary has information that I might need or be interested in: syllables, pronunciation, definitions, the word in a sentence, the history of the word, illustrations.”

“If a word is a homophone, it tells me which one.”

**Disadvantages:**

“I don’t have a dictionary at my desk.”

“The dictionary is so large that it takes time to look up the word.”

“If I don’t know how to spell the word correctly, it might be hard to find. For example, if I don’t know that *koala* begins with **k**, I would be looking under **c**.”

“A spell-checker on a computer.”

**Advantages:**

“It shows me which words might be misspelled.”

“It gives me choices of correctly spelled words. Often I recognize the word I need.”

“It’s quick.”

**Disadvantages:**

“It doesn’t mark all the incorrect words. If I wrote the wrong homophone, the spell-checker won’t know.”

“Sometimes I don’t know which choice is the word I’m trying to use.”

“It doesn’t know whether I have spelled a possessive correctly.”

## ▶ Ongoing Assessment of Spelling Progress

Take some time to assess the progress of your students.

Were there many errors on *-tion* and *-sion* words? Consider repeating the pre-spelling activities of Weeks 13 and 14. Were there many errors on possessive words? Many students require an extended period of time to become proficient in spelling possessives. Guiding on possessives will continue through grade 6 of the *Guided Spelling* program.

Were there many errors on memory parts of words? The memory parts are the letter sequences that must be memorized because they can't be figured out using knowledge of phonics or word structure. Examples are the underlined letters in the following words: *produce*, *island*, and *different*. If the students are making errors on the memory parts, discuss the importance of spelling homework. Be sure the students and parents understand the homework instructions and the importance of using the three memory steps.

If you have been differentiating instruction, are your below-grade-level, average, and advanced spellers correctly designated? Consider the students' performance on all spelling tests to date. If some students have consistently made several errors on the tests, consider having them memorize fewer words each week. If average spellers have made no errors on the tests, they may be able to learn the challenge words each week. Consider student effort as well as performance, however. Some students with perfect tests may have studied intensely and would find it difficult to memorize additional words.

Do your students need encouragement to transfer their knowledge from *Guided Spelling* lessons to their writing? When they ask how to spell a word during writing, have them ask about the parts of the word they're not sure of. Provide the guiding and assistance that you would provide during a *Guided Spelling* lesson.

## Change **y** to **i** Generalization

### ► New Content

If the base word ends with consonant-**y** and the suffix begins with any letter except **i**, we change **y** to **i**, as in *plentiful*, *ugliest*, *mysterious*, and *happiness*.

If the base word ends with consonant-**y** and the suffix is */z/*, change **y** to **i** and add **es**, as in *puppies* and *hurries*.

### ► Teacher Background

Make a copy of the Week 19 homework (*Blackline Masters* page 26) for each student.

Guided spelling this week includes two “no change” generalizations that also involve **y** at the end of a word:

- If the base word ends with consonant-**y** and the suffix begins with **i**, we just add the suffix, as in *marrying* and *babyish*.
- If the base word ends with vowel-**y**, just add the suffix, as in *staying*, *obeyed*, *employable*, and *buying*. Exceptions: *paid*, *laid*, *daily*.

There are a few exceptions to the generalization for changing **y** to **i**, for example, *slyness*, *dryness*, and *flyable*. Dictionaries vary as to whether both words in the following pairs are acceptable: *drier/dryer*, *driest/dryest*, *drily/dryly*, *shier/shyer*, *shiest/shyest*, *slier/slyest*, *slily/slyly*, and *frier/fryer*.

To help the students understand this week’s generalization for changing **y** to **i**, you will have them write first the base word, then the suffix, and then the whole word for three items each day this week. These items in the *Student Spelling Book* look like this:

\_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Some of your students may know rhymes to remind them of changing **y** to **i** before **-es** and **-ed**: Change **y** to **i** and add e-s.  
Change **y** to **i** and add e-d.

### Reminders:

- Be sure your class understands that guided spelling is not a test. The students should listen to your step-by-step guidance so that they write the words correctly.
- Encourage your students to ask questions, even in the four independently written words in daily guided spelling. *Knowing when they don't know* is an important metacognitive ability in spelling.
- Teach the lessons at a fairly quick pace. Difficult concepts will be reviewed many times.
- If some of the students make a mistake in a choral response, tell the class the correct answer and repeat the question.

In the pre-spelling activities, which begin on Day 2 of this week, the students will practice asking how to spell the last syllable of words that end with the sounds /əl/, such as *stumble*, *final*, and *level*, in preparation for guided spelling in Week 20.

## ► Words Used This Week

NEW WORDS	*replied, *stories, *copying, *married, *babies, *activities, *supplies, *picture, nature, room, conditions, streets', understood, sugar, worry
REVIEW WORDS	*allow, *flower, *mountain, *cow, *shook, cover, order, temperature, discover, education
CHALLENGE WORDS	groceries, fasten, alphabet, victories, relying

FREQUENTLY MISSPELLED WORDS	classroom

# Week 19 Day 1

## ► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 104 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. replied . . . . . Number 1: replied. She replied to the question.  
*Re-plied.* ■ Underline the first **e**. ■ The base word is *reply*. The suffix **e-d** does not begin with **i**. The **y** was changed to **i** and **e-d** was added.
2. stories . . . . . Number 2: stories. The librarian reads children's stories aloud.  
*Sto-ries.* ■ Underline **o**. ■ The base word is *story*. The **y** was changed to **i** and **e-s** was added.
3. copying . . . . . Number 3: copying. I will be copying your address into my book.  
*Cop-y-ing.* ■ The base word is *copy*. The suffix **-ing** begins with **i**, so **y** was not changed.
4. married . . . . . Number 4: married. Their parents were married in Paris.  
*Mar-ried.* ■ Underline **a-r**. ■ The base word is *marry*. The suffix **e-d** does not begin with **i**. The **y** was changed to **i** and **e-d** was added.
5. babies . . . . . Number 5: babies. The babies were sleeping in the nursery.  
*Ba-bies.* ■ The base word is *baby*. The **y** was changed to **i** and **e-s** was added.
6. activities . . . . . Number 6: activities. There were many activities at the school carnival.  
*Ac-tiv-i-ties.* ■ The base word is *activity*. The **y** was changed to **i** and **e-s** was added.
7. supplies . . . . . Number 7: supplies. I need to get new school supplies.  
*Sup-plies.* ■ The first syllable has a schwa. Underline **u**. ■ The base word is *supply*. The **y** was changed to **i** and **e-s** was added.

8. picture . . . . . Number 8: picture. My grandmother put my picture on her mantel.  
*Pic-ture*. ■ Underline **t-u-r-e**.
9. nature. . . . . Number 9: nature. We hiked on the nature trail to the redwood trees.  
*Na-ture*. ■ Underline **t-u-r-e**.
10. room . . . . . Number 10: room. There is plenty of room for everyone.  
► If your students pronounce this word as /rōm/, have them underline **o-o**.
11. conditions . . . . . Number 11: conditions. The weather conditions were excellent for skiing.  
*Con-di-tions*. ■ The first syllable has a schwa. Underline **o** in the first syllable. Underline **t-i-o-n**.
12. streets' . . . . . Number 12: streets'. Our city streets' dividing lines need repainting.  
*Streets'*. These are lines of many streets. *Streets'* is a possessive. Start underlining *streets'*, but stop when you get to the apostrophe. What have you underlined? (Students: streets) The part you underlined shows that there is more than one street. Underline **e-e**.
13. understood . . . . . Number 13: understood. They understood all of the rules of the game.  
*Un-der-stood*. ■ Underline **e-r**.
14. sugar. . . . . Number 14: sugar. We made lemonade from lemon, water, and sugar.  
*Sug-ar*. ■ Underline **s**. Underline **u**. Underline **a-r**.
15. worry . . . . . Number 15: worry. Don't worry about the test; I'm sure you did well.  
*Wor-ry*. Underline **o-r**.

**NUMBERS 16–25 ARE REVIEW WORDS.**

► Optional: Have the class read the review words with you:

- |               |                 |
|---------------|-----------------|
| 16. *allow    | 21. cover       |
| 17. *flower   | 22. order       |
| 18. *mountain | 23. temperature |
| 19. *cow      | 24. discover    |
| 20. *shook    | 25. education   |

## ► Guided Spelling

► Have your students turn to page 106.

1. replied . . . . . Number 1: replied. She replied to the question. Say *replied*.

Base word? ■ Say *reply* by syllables. ■ For spelling say *re-ply*. ■

First syllable? ■ (Offer help.) Write *re-* in the first space at number 1.

Second syllable? ■ Finish writing *reply* in the first space at number 1.

*Replied*. Suffix? (Students: **e-d**) Write **e-d** in the second space.

*Replied*. What do you have to decide? (Students: Do we change **y** to **i**?) Everyone turn to page 185. We'll read the change **y** to **i** generalization together: "IF the base word ends with consonant-**y** AND the suffix begins with any letter except **i**, THEN change **y** to **i**." Turn back to page 106, number 1. Everyone point to **l-y**.

Does *reply* end with a consonant and then **y**? (Students: yes)

Everyone point to **e** in **e-d**. Does the suffix begin with a letter that is not **i**? (Students: yes)

Will you change **y** to **i**? (Students: yes)

Write *replied* in the third space. (Check.)

2. supplies . . . . . Number 2: supplies. I need to get new school supplies.

(Students: e-d) Does the suffix begin with a letter that is not **i**? (Students: yes) Will you change **y** to **i**? (Students: yes) Finish writing *married*. (Check.)

### NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. babies. . . . . Number 5: babies. The babies were sleeping in the nursery.  
Say *babies*.

Reread the change **y** to **i** generalization on page 185 if you need to. Write the base word, then the suffix, and then the whole word *babies*. (Check.)

6. activities . . . . . Number 6: activities. There were many activities at the school carnival. Say *activities*.

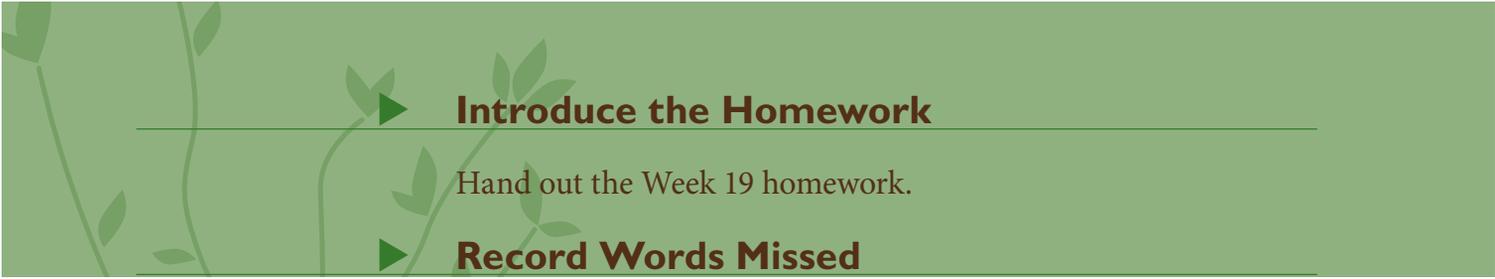

I'll say the syllables for spelling: *ac-tiv-i-ties*. Write *activities*. (Check.)

7. stories . . . . . Number 7: stories. The librarian reads children's stories aloud. Say *stories*.

I'll say the syllables for spelling: *sto-ries*. Write *stories*. (Check.)

8. picture . . . . . Number 8: picture. My grandmother put my picture on her mantel. Say *picture*.

Write *picture*. (Check.)

## ▶ Introduce the Homework

Hand out the Week 19 homework.

## ▶ Record Words Missed

Return the students' spelling tests from Week 18. Have them turn to pages 100 and 101 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

## ▶ Teacher Background

In the pre-spelling activities this week, the students will practice asking how to spell the last syllable of words that end with the sounds /əl/, such as *stumble*, *final*, and *level*.

## ▶ Pre-spelling: Sounds /əl/ at the End

▶ Write on the board: gentle metal camel fossil capitol

The sounds /əl/ at the end of polysyllabic words are spelled several ways. You will usually use **l-e** or **a-l**, but sometimes you will use **e-l**, **i-l**, or **o-l**.

I will say a word. You ask, “How do we spell the last syllable?”

grumble . . . . . *Grumble*. (Students: How do we spell the last syllable?) The syllable *-ble* is spelled **b-l-e**.

vessel. . . . . *Vessel*. (Students: How do we spell the last syllable?) The syllable *-sel* is spelled **s-e-l**.

equal . . . . . *Equal*. (Students: How do we spell the last syllable?) The syllable *-qual* is spelled **q-u-a-l**.

## ▶ Guided Spelling

## Student Study

Have the students turn to pages 94 and 95. If they missed a word on the test in Week 17, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

## Syllables Ending in Consonant-l-e and Consonant-a-l

---

### ► New Content

Final syllables that end with /əl/ are usually spelled consonant-**l-e**, as in *stable* and *puzzle*, or consonant-**a-l**, as in *final* and *legal*.

---

### ► Teacher Background

Make a copy of the Week 20 homework (*Blackline Masters* page 27) for each student.

When the last syllable of a polysyllabic word ends with the sounds /əl/, the syllable usually ends with **le** or **al**, as in *middle* and *final*. Sometimes it ends with **el**, **il**, or **ol**, as in *level*, *fossil*, and *symbol*.

The students will be introduced to a syllable construction this week. A *consonant-l-e syllable* is the last syllable of a base word and consists of a consonant followed by **le**, as in *table*, *simple*, and *uncle*.

When you and the students pronounce words by syllables, there should be a pause between syllables to indicate the syllable boundary clearly. For example, say “sev...er...al,” not “sevvverral.”

In the pre-spelling activities, which begin on Day 2 this week, the students will practice adding suffixes to base words.

# Week 20 Day 1

## ► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 110 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. table . . . . . Number 1: table. We set the table for dinner.  
*Ta-ble.* ■ Underline **b-l-e**.  
The second syllable in *table* is called a *consonant-l-e syllable*. A consonant-**l-e** syllable is the last syllable of a base word. It is a consonant followed by **l-e**. Here are some other words that have consonant-**l-e** syllables: *angle*, *people*, *settle*, and *puzzle*.
2. several . . . . . Number 2: several. There are several peaches in the bowl.  
*Sev-er-al.* ■ Underline **e-r**. The last syllable has a schwa. Underline **a-l**.
3. level . . . . . Number 3: level. Some areas of Death Valley are below sea level.  
*Lev-el.* ■ The second syllable has a schwa. Underline **e-l**.
4. example . . . . . Number 4: example. This painting is an example of the artist's early work.  
*Ex-am-ple.* ■ Underline **p-l-e**.
5. animal . . . . . Number 5: animal. The koala is an animal native to Australia.  
*An-i-mal.* ■ The last syllable has a schwa. Underline **m-a-l**.
6. travel . . . . . Number 6: travel. My aunt loves to travel to South America.  
*Trav-el.* ■ The second syllable has a schwa. Underline **e-l**.
7. bicycle . . . . . Number 7: bicycle. She rode her bicycle to her friend's house.  
*Bi-cy-cle.* ■ Underline **c** and **y**. Underline **c-l-e**.

 **Student Study**

---

Have the students turn to pages 104 and 105. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Syllables with **oi** and **oy**; Syllables with /aw/ Spelled **au**, **aw**, and **a**

### ► New Content

---

The sound /oi/ is spelled **oi** or **oy**, as in *choice* and *annoy*.

The sound /oi/ at the end of a word is usually spelled **oy**, as in *destroy* and *employ*.

The sound /aw/ is often spelled **au** or **aw**, as in *audience* and *awful*.

The sound /aw/ before the sound /l/ is often spelled **a**, as in *always* and *tall*.

The sound /aw/ at the end of a word is usually spelled **aw**, as in *jaw* and *law*.

### ► Teacher Background

---

Make a copy of the Week 21 homework (*Blackline Masters* page 28) for each student.

In some regions, speakers pronounce **au**, **aw**, and short **o** identically.

Spelling the sound /aw/ before the sound /l/ requires attention, as the spelling could be **au**, **aw**, or just **a**, as in *haul*, *crawl*, *halt*, and *fall*.

One additional guiding point is introduced this week: the sounds /awl/ at the beginning of a polysyllabic word are usually spelled **al**, as in *almost*, *although*, and *altogether*.

The pre-spelling activities, which begin on Day 2 this week, focus on the prefixes *un-*, *re-*, and *dis-* in preparation for writing prefixes in Week 22.

# Week 21 Day 1

## ► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 116 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. soil. . . . . Number 1: soil. The soil was perfect for growing vegetables.

► Point to **oi** under the “noisy toy” picture on the spelling-sound chart.

The picture shows a **noisy toy** for the sound /oi/. Underline **o-i**.

2. destroy. . . . . Number 2: destroy. A big fire can destroy many homes.

*De-stry*. ■ Underline **e**.

► Point to **oy** under the “noisy toy” picture.

When you hear the sound /oi/ at the end of a word, it is usually spelled **o-y**.

3. fault. . . . . Number 3: fault. It was her fault that the dog got out of the yard.

► Point to **au** under the “awful yawn” picture on the spelling-sound chart.

The picture shows an “**awful yawn**” for the sound /aw/. Underline **a-u**.

4. law. . . . . Number 4: law. The law requires you to wear your seatbelt.

► Point to **aw** under the “**yawn**” picture.

When you hear the sound /aw/ at the end of a word, it is usually spelled **a-w**.

5. already. . . . . Number 5: already. She has already graduated from high school.

*Al-read-y*.

► Point to **a(l)** under the “**yawn**” picture.

When the first syllable of a polysyllabic word sounds like /awl/, it is usually spelled **a-l**. Other examples are *altogether*, *although*, *also*, and *always*. Underline **a-l**. Underline **e-a**.

6. all ready . . . . . Number 6: all ready. The dinner was all ready, so we sat down to eat.

FREQUENTLY MISSPELLED WORDS *All ready* and *already* are frequently confused and frequently misspelled. You need to think of the meaning of the sentence to know whether to use *all ready* or *already*.

► Point to **a(II)** under the “yawn” picture.

**A-I-I** is the spelling for the word *all* and many rhyming words, such as *call*, *fall*, *small*, *mall*, and *hall*. Underline **a-I-I**. ■ Underline the space between the two words.

*Read-y*. ■ Underline **e-a**.

7. although . . . . . Number 7: although. She did not respond, although she knew the answer.

*Al-though*. ■ Underline **a-l**. Underline **o-u-g-h**.

8. family . . . . . Number 8: family. We will have a family reunion at the park.

*Fam-i-ly*.

9. result . . . . . Number 9: result. Your hard work will result in a good grade.

*Re-sult*. ■ Underline **e**. Underline **s**.

10. lake's . . . . . Number 10: lake's. The lake's shoreline is steep and rocky.

*Lake's*. It is the shoreline of a lake. *Lake's* is a possessive. Start underlining *lake's*, but stop when you get to the apostrophe. What have you underlined? (Students: *lake*) The part you underlined shows that there is one lake. Underline **a** and **e**.

11. power . . . . . Number 11: power. The house is heated with solar power.

*Pow-er*. ■ Underline **o-w**. Underline **e-r**.

12. factories . . . . . Number 12: factories. Many car factories are located nearby.

*Fac-to-ries*. ■ The second syllable has a schwa. Underline **o**. ■ The base word is *factory*. The **y** was changed to **i** and **e-s** was added.

13. little . . . . . Number 13: little. The little books were in a basket.

*Lit-tle*. ■ Underline **t-l-e**.

14. machine . . . . . Number 14: machine. The mechanic used a machine to lift the car.

*Ma-chine*. ■ The first syllable has a schwa. Underline **a**. Underline **c-h**. Underline **i** and **e**.

15. taught. . . . . Number 15: taught. I taught my brother how to write his name.

Underline **a-u-g-h**.

MNEMONIC Here’s a mnemonic: **a-u-g-h** is in the words *taught*, *caught*, and *daughter*.

**NUMBERS 16–25 ARE REVIEW WORDS.**

► Optional: Have the class read the review words with you:

- 16. \*several      21. libraries
- 17. \*travel      22. around
- 18. \*example    23. single

► **Introduce the Homework**

Hand out the Week 21 homework.

---

► **Record Words Missed**

Return the students' spelling tests from Week 20. Have them turn to pages 110 and 111 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

# Week 21 Day 2

► **Student Study**

Have the students turn to pages 110 and 111. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

For details about the weekly test, see page 53.

## Prefixes *un-*, *re-*, and *dis-*

### ► New Content

The prefixes *un-*, *re-*, and *dis-* are three common prefixes, as in *unimportant*, *recycle*, and *disagree*.

When adding a prefix to a base word, we do not change the spelling of the base word.

### ► Teacher Background

Make a copy of the Week 22 homework (*Blackline Masters* page 29) for each student.

In a few instances, there is a hyphen between a prefix and the base word: before a capitalized word (for example, *mid-February* and *non-Asian*); to avoid ambiguity (for example, *re-create* and *re-collect*); with the prefixes *self-*, *all-*, and *ex-* (for example, *self-confidence*, *all-powerful* and *ex-secretary*); or to avoid awkwardness (for example, *semi-invalid*).

The pre-spelling activities, which begin on Day 2 this week, focus on the suffixes *-ful*, *-less*, and *-ness* in preparation for guided spelling in Week 23.

► **Introduce the Homework**

Hand out the Week 23 homework.

---

► **Record Words Missed**

Return the students' spelling tests from Week 22. Have them turn to pages 122 and 123 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

# Week 23 Day 2

## ► Pre-spelling: Memorizing Words

Let's think about how to memorize the spelling of words.

friendliness . . . . . ► Write on the board: friendly friendliness

One of the words you will study this week is *friendliness*. This is a word with a base word and two suffixes.

Some people mix up *i* and *e* in the base word *friend*. Here is a mnemonic: *end* at the end of *friend*.

*Friendliness* comes from *friendly*. The *y* was changed to *i* before *-ness*. If you remember when to change *y* to *i*, adding *-ness* is easy.

Spelling *-ness* is probably easy because you see it on many words.

## ► Guided Spelling

► Have your students turn to page 131.

1. harmful . . . . . Number 1: harmful. Bike riding without a helmet can be harmful. Say *harmful*.

Base word? ■ Write *harm*.

*Harmful*. Suffix? ■ *-ful* begins with a consonant. Just add *-ful*. (Check.)

2. height . . . . . Number 2: height. I have grown in height this year; I'm taller than I was last year. Say *height*.

Careful. The vowel sound is spelled **e-i-g-h**. Write *height*. (Check.)

3. looseness . . . . . Number 3: looseness. The looseness of his jacket felt comfortable. Say *looseness*.

**FREQUENTLY MISSPELLED WORD** The base word *loose* is a frequently misspelled word.

*Looseness*. Base word? ■ Question? ■ Use the first spelling under the “hoot owl” picture. Careful. The end is spelled **s-e**. Write *loose*.

*Looseness*. What do you have to decide? (Students: Do we drop e?) Everyone turn to page 184. We'll read the drop e generalization together: "IF the base word ends with consonant-**e** AND the suffix begins with a vowel, THEN drop **e**." Turn back to page 131, number 3.

*Looseness*. Suffix? ■ -Ness begins with a consonant. Just add -ness. (Check.)

4. audience . . . . . Number 4: audience. The audience clapped wildly for the performers. Say *audience*.

Say *audience* by syllables. ■ The last syllable has a schwa. For spelling say *au-di-ence*. ■ First syllable? ■ Question? ■ Use the first spelling under the "yawn" picture. Write *au-*.

Second syllable? ■ Careful. It's spelled **d-i**. Write *-di-*.

Third syllable? ■ Careful. It's spelled **e-n-c-e**. Write *-ence*. (Check.)

5. scoreless . . . . . Number 5: scoreless. It was a scoreless game; neither team made any goals. Say *scoreless*.

Scoreless. Base word? ■ Question? ■ Use the second spelling under the "fork" picture. Write *score*.

Scoreless. What do you have to decide? (Students: Do we drop e?) Suffix? ■ -Less begins with a consonant. Just add -less. (Check.)

6. physical . . . . . Number 6: physical. I need a physical exam before I can join the team. Say *physical*.

Say *physical* by syllables. ■ For spelling say *phys-i-cal*. ■ First syllable? ■ Careful. It's spelled **p-h-y-s**. Write *phys-*.

Second syllable? ■ Write *-i-*.

Last syllable? ■ (Offer help.) Write *-cal*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. uninteresting . . . . . Number 7: uninteresting. That story was very uninteresting; I didn't enjoy it at all. Say *uninteresting*.

I'll say the syllables for spelling: *un-in-ter-est-ing*. Write *uninteresting*. (Check.)

8. colonies . . . . . Number 8: colonies. There were ant colonies located on the hill. Say *colonies*.

I'll say the syllables for spelling: *col-o-nies*. Write *colonies*. (Check.)

9. president. . . . . Number 9: president. The president of the university spoke to the graduating class. Say *president*.  
I'll say the syllables for spelling: *pres-i-dent*. Write *president*.  
(Check.)

10. weight. . . . . Number 10: weight. The veterinarian recommends that our cat lose some weight. Say *weight*.  
Write *weight*. (Check.)

PARTNER STUDY Turn to your neighbor. Explain what is unusual about the spelling of *weight*.

MEMORY STEPS Do the memory steps for *weight*.

# Week 23 Day 3

## ► Pre-spelling: Memorizing Words

Let's think about how to memorize the spelling of words.

weight . . . . . ► Write on the board: weight height

One of the words you will study this week is *weight*. This word is unusual, but there are a few words with the sound /ā/ spelled **e-i-g-h**. Think of *weigh*, *neighbor*, and *eight*.

It might help to learn *weight* and *height* at the same time. They do not rhyme, but both are spelled **e-i-g-h-t**.

You might learn *weight* by visualizing **e-i-g-h** or by saying it to yourself a few times: **e-i-g-h, e-i-g-h, e-i-g-h**.

## ► Guided Spelling

► Have your students turn to page 132.

1. tasteless . . . . . Number 1: tasteless. The water is fresh and thirst quenching, but tasteless. Say *tasteless*.

Tasteless. Base word? ■ Question? ■ Use the first spelling under the “cake” picture. Write *taste*.

*Tasteless*. What do you have to decide? (Students: Do we drop e?) Suffix? ■ -Less begins with a consonant. Just add -less. (Check.)

2. weight . . . . . Number 2: weight. The weight of the pebbles sank the toy boat. Say *weight*.

HOMOPHONE *Weight* is a homophone. It's not *wait*, as in *wait for me*. It's *weight*, the heaviness of the pebbles.

HISTORY The word *weight* used to relate to carrying, not to heaviness. The words *weight*, *wagon*, and *vehicle* all came from one very ancient word.

MNEMONIC Here is a mnemonic for *weight*: the vowel sound is spelled the same as in the number *eight*, *weigh*, and *neighbor*.

Write *weight*. (Check.)

3. physical. . . . . Number 3: physical. We should get physical exercise daily.  
Say *physical*.  
Say *physical* by syllables. ■ For spelling say *phys-i-cal*. ■ First syllable? ■ Careful. It's spelled **p-h-y-s**. Write *phys-*.  
Second syllable? ■ Write *-i-*.  
Last syllable? ■ (Offer help.) Write *-cal*. (Check.)
4. height. . . . . Number 4: height. The tree has doubled in height; it is taller than the house. Say *height*.  
MNEMONIC Here is a mnemonic: remember your height and weight.  
Careful. (Offer help.) Write *height*. (Check.)
5. mouthful. . . . . Number 5: mouthful. I ate a mouthful of oatmeal. Say *mouthful*.  
Base word? ■ Question? ■ Use the first spelling on the “ouch” card. Write *mouth*.  
*Mouthful*. Suffix? ■ *-ful* begins with a consonant. Just add *-ful*. (Check.)
6. president . . . . . Number 6: president. The president of the company spoke to the employees. Say *president*.  
Say *president* by syllables. ■ The third syllable has a schwa. For spelling say *pres-i-dent*. ■ First syllable? ■ Careful. It ends with **s**. Write *pres-*.  
Second syllable? ■ Write *-i-*.  
Third syllable? ■ (Offer help.) Write *-dent*. (Check.)
- NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.
7. unselfishly . . . . . Number 7: unselfishly. He unselfishly shared his lunch with his friend. Say *unselfishly*.  
Write *unselfishly*. (Check.)
8. weightlessness . . . . . Number 8: weightlessness. Astronauts experience weightlessness in space. Say *weightlessness*.  
Write *weightlessness*. (Check.)
9. thoughtfully . . . . . Number 9: thoughtfully. She stared thoughtfully out the window. Say *thoughtfully*.  
Write *thoughtfully*. (Check.)

10. **brightness** . . . . . Number 10: brightness. The brightness of the sun has faded the curtains. Say *brightness*.

Write *brightness*. (Check.)

**PARTNER STUDY** Turn to your neighbor. Explain why you did not double **t**.

**MEMORY STEPS** Do the memory steps for *brightness*.

## ► Pre-spelling: Memorizing Words

Let's think about how to memorize the spelling of words.

physical . . . . . ► Write *physical* on the board.

One of the words you will study this week is *physical*. This word may be one of the hardest that you will learn this year because there are five parts that could be spelled other ways. You just have to learn the correct spelling.

The syllables are *phys-i-cal*.

In the first syllable, the sound /f/ is spelled **p-h**. The sound /ɪ/ is spelled **y**. The sound /z/ is spelled **s**.

The second syllable almost sounds like a schwa. It's spelled **i**.

The last syllable ends with the sounds /əl/. The syllable is spelled **c-a-l**.

## ► Guided Spelling

► Have your students turn to page 133.

1. colonies . . . . . Number 1: colonies. The grove of trees is home to colonies of bees. Say *colonies*.

Base word? ■ Say *colony* by syllables. ■ The second syllable has a schwa. For spelling say *col-o-ny*. ■ First syllable? ■ Write *col-*.

Second syllable? ■ (Offer help.) Write *-o-*.

Third syllable? ■ Finish writing *colonies*. (Check.)

2. office . . . . . Number 2: office. We checked in at the office when we returned from the field trip. Say *office*.

Say *office* by syllables. ■ For spelling say *of-fice*. ■ First syllable? ■ Write *of-*.

Second syllable? ■ (Offer help.) Careful. The sound /s/ is spelled **c**. Write *-fice*. (Check.)

3. colorless . . . . . Number 3: colorless. The glass jar is clear and colorless.

Say *colorless*.

Base word? ■ Say *color* by syllables. ■ For spelling say *col-or*. ■

First syllable? ■ Careful. (Offer help.) Write *col-*.

Second syllable? ■ Careful. (Offer help.) Write *-or*.

*Colorless*. Suffix? ■ *-Less* begins with a consonant. Just add *-less*. (Check.)

4. uninterestingly . . . . . Number 4: uninterestingly. They presented their report uninterestingly, and their listeners were bored. Say *uninterestingly*.

Prefix? ■ Write *un-*.

The base word is *interest*. Say *interest* by syllables. ■ For spelling say *in-ter-est*. ■ First syllable? ■ Write *in-*.

Second syllable? ■ Question? ■ Use the first spelling under the “robot” picture. Write *-ter-*.

Third syllable? ■ (Offer help.) Write *-est*.

*Uninterestingly* has two suffixes. First suffix? (Students: *-ing*)

The base word ends with two consonants, so you will not double. Just add *-ing*.

*Uninterestingly*. Second suffix? (Students: *-ly*) *-Ly* begins with a consonant. Just add *-ly*. (Check.)

5. friendliness . . . . . Number 5: friendliness. His friendliness makes him very popular with his classmates. Say *friendliness*.

Base word? ■ Careful. (Offer help.) Write *friend*.

*Friendliness* comes from *friendly*, so you will write *friendly* first.

Suffix? (Students: *-ly*) *-Ly* begins with a consonant. Just add *-ly*.

Now you’ll make *friendly* into *friendliness*. What do you have to decide? (Students: Do we change *y* to *i*?) Does *friendly* end with a consonant and then *y*? (Students: yes) Suffix? (Students: *-ness*)

Does the suffix begin with a letter that is not *i*? (Students: yes)

Will you change *y* to *i*? (Students: yes) Finish writing *friendliness*. (Check.)

6. fearfully . . . . . Number 6: fearfully. He fearfully stepped to the edge of the diving board. Say *fearfully*.

Base word? ■ Question? ■ Use the third spelling under the “tree” picture. Write *fear*.

*Fearfully* has two suffixes. First suffix? (Students: *-ful*) Decide whether to double *r*. Finish writing *fearful*.

*Fearfully*. Second suffix? (Students: *-ly*) *-Ly* begins with a consonant. Just add *-ly*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. *rewinding* . . . . . Number 7: *rewinding*. He was *rewinding* the tape back to the beginning. Say *rewinding*.  
FREQUENTLY MISPELLED WORD The base word *wind* is a frequently misspelled word.  
Write *rewinding*. (Check.)
8. *hearing* . . . . . Number 8: *hearing*. I was *hearing* beautiful piano playing coming from the music room. Say *hearing*.  
FREQUENTLY MISPELLED WORD The base word *hear* is a frequently misspelled word.  
Write *hearing*. (Check.)
9. *helplessness* . . . . . Number 9: *helplessness*. They had a sense of *helplessness* after their home flooded. Say *helplessness*.  
Write *helplessness*. (Check.)
10. *audience* . . . . . Number 10: *audience*. There was a large *audience* for the concert. Say *audience*.  
I'll say the syllables for spelling: *au-di-ence*. Write *audience*. (Check.)  
MEMORY STEPS Do the memory steps for *audience*.

---

▶ **Student Study**

Have the students turn to pages 122 and 123. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

For details about the weekly test, see page 53.

## Review of Weeks 17, 19, 20, 21, and 22

### ► Teacher Background

Duplicate the three homework pages for this week (*Blackline Masters* pages 31–33).

The structure of the review weeks is as follows:

Day 1: Pretest

Day 2: Proofreading with a partner

Day 3: Studying for the review test with a partner

Day 4: Class discussion on spelling

Day 5: Review week test

See Week 6, page 111, for more details about the structure of the review weeks.

For information on differentiating instruction based on your students' needs, see Week 2, pages 29–30.

The pre-spelling activities, which begin on Day 2 this week, will focus on the prefixes *non-*, *mis-*, and *pre-*.

### ► Correct the Pretest

---

Read and spell the 15 words out loud. For each word, have the students point under each letter in their word as you spell. If any students did not spell a word correctly, have them draw a line through each word they misspelled.

---

▶ **Record Words Missed on the Pretest**

---

Have the students turn back to pages 134 and 135. These are the words that will be reviewed this week. If they missed any words on the pretest, have them find the words here and write **S** in front of each one. These are the words that they especially need to study.

---

▶ **Introduce the Homework**

---

Hand out the homework for Week 24. There are three pages of homework this week. The students will practice every review word.

---

▶ **Record Words Missed on Last Week's Test**

---

Return the students' spelling tests from Week 23. Have them turn to pages 128 and 129 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

## Proofreading

### ▶ Teacher Background

---

The pre-spelling activities this week focus on the prefixes *non-*, *mis-*, and *pre-*.

### ▶ Pre-spelling: Prefixes

---

Next week you will spell words that begin with three common prefixes: *non-*, *mis-*, and *pre-*.

The prefix *non-* usually means *not*. A nondrip bottle doesn't drip. The prefix *non-* is spelled **n-o-n**.

nonflying . . . . . Nonflying. Penguins and ostriches are nonflying birds.

Prefix? ■ How do you spell the prefix? ■ What is the meaning of the prefix? ■ What is the meaning of *nonflying*?

nonreader . . . . . Nonreader. My four-year-old sister is still a nonreader.

Prefix? ■ How do you spell the prefix? ■ What is the meaning of the prefix? ■ What is the meaning of *nonreader*?

### ▶ Partner Proofreading

---

Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three.

Have your students open their books to page 137. The sentences on this page include many words that the students have studied, but some of them are misspelled. Have the students read the sentences with their partners and look for the misspelled words. Have them draw a line through each misspelled word and write the correct word above it. There may be a sentence with all words correct.

Monitor the students as they work and assist those who need extra support in proofreading.

## ▶ Correct Sentences Together

---

▶ Read each sentence. Have the students tell you each word that is misspelled and how to spell it correctly. Write the correct word on the board. If the students made a mistake, have them draw a line through the incorrect word.

1. Factaries use wool from animils such as sheep and alpacas to produce clothing. Misspelled words?

▶ Write *factories* and *animals* on the board as the students read and spell the words.

2. Next summer their family will traval a thousand miles by bycycle. Misspelled words?

▶ Write *travel*, *thousand*, and *bicycle* on the board as the students read and spell the words.

3. This years' cool temperatures have been very unusual. Misspelled words?

▶ Write *year's* and *unusual* on the board as the students read and spell the words.

4. She disconectted the powar cord from the mechine. Misspelled words?

▶ Write *disconnected*, *power*, and *machine* on the board as the students read and spell the words.

5. We've all ready had several activities to promote recycling. Misspelled words?

▶ Write *already* and *recycling* on the board as the students read and spell the words.

6. The teacher taught them about the soil condisions and the amout of water needed to grow tropical flours. Misspelled words?

▶ Write *conditions*, *amount*, and *flowers* on the board as the students read and spell the words.

## ▶ Record Words Missed in Proofreading

---

If there are misspelled words that the students did not find in proofreading, have them turn back to pages 134 and 135 and write **S** next to each word missed. If there are any words that they did not write correctly, have them write **S** next to those words on pages 134 and 135. These are words the students especially need to study.

## Partner Study

### ► Pre-spelling: Prefixes

---

The prefix *mis-* usually means *wrong*. A misspelled word is not spelled correctly. The prefix *mis-* is spelled **m-i-s**.

misreading . . . . . Misreading. You were misreading my handwriting when you thought that *hum* was *ham*.

Prefix? ■ How do you spell the prefix? ■ What is the meaning of the prefix? ■ What is the meaning of *misreading*?

misplaced . . . . . Misplaced. My book has been misplaced.

Prefix? ■ How do you spell the prefix? ■ What is the meaning of the prefix? ■ What is the meaning of *misplaced*?

### ► Partner Study

---

Have your students open their spelling books to pages 134 and 135. Remind them how to study their spelling words with a partner. In partner study the students take turns telling each other which word they choose to spell aloud. The students also say which parts of the word are hard to spell. For example, one student says, “I will spell number 45, *unusual*. The hard parts are **s-u** and **a-l**.” She covers the word and spells it aloud as her partner checks. If she makes a mistake, both partners cover the word and spell it together. The partner who made the mistake writes **S** in front of the word to remind her to study it.

You may want to model the partner study before your students begin.

## Spelling Discussion

### ► Teacher Background

---

The purpose of today’s discussion is to help your students think about proofreading their writing for spelling. In the drafting stage of writing, the students’ focus should be on recording their ideas without stopping to worry about spelling, but in the revision/proofreading stage the students should pay careful attention to spelling.

### ► Pre-spelling: Prefixes

---

The prefix *pre-* usually means *before*. You take a pretest before the regular test. The prefix *pre-* is spelled **p-r-e**.

preflight . . . . . Preflight. The pilots went through their preflight checks.

Prefix? ■ How do you spell the prefix? ■ What is the meaning of the prefix? ■ What is the meaning of *preflight*?

preowned. . . . . Preowned. Everything in the thrift shop was preowned.

Prefix? ■ How do you spell the prefix? ■ What is the meaning of the prefix? ■ What is the meaning of *preowned*?

### ► Spelling Discussion

---

One part of proofreading your writing is to be sure your spelling is correct. When you proofread, how do you check your spelling? How do you identify any mistakes and correct them?

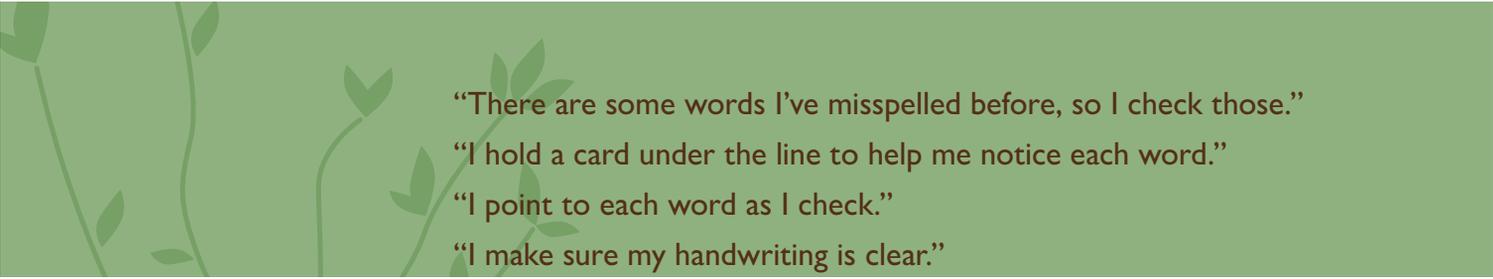

Students might say:

“I know that some words are hard to spell, so I make sure to check those.”

“I read the polysyllabic words by syllables and look at each syllable.”

“I check whether I spelled the schwas correctly.”

“I see whether I’ve added the suffixes correctly. For example, did I double the last consonant or drop **e** correctly?”

“There are some words I’ve misspelled before, so I check those.”

“I hold a card under the line to help me notice each word.”

“I point to each word as I check.”

“I make sure my handwriting is clear.”

“I look up the word in a dictionary or the back of my *Student Spelling Book*, or I use a spell-checker.”

---

▶ **Partner Study**

If time permits, have the students study the review words on pages 134 and 135 with their partners, as on Day 3 of this week. This is a brief activity of 1 or 2 minutes.

## Weekly Test

For details about the weekly test, see page 53.

## ▶ Ongoing Assessment of Spelling Progress

---

Take some time to assess the progress of your students.

Were there many errors on adding suffixes to words that end with consonant-y? Consider having the students reread the change y to i generalization on *Student Spelling Book* page 185 before they add a suffix to a final y word during guided spelling.

Were there many errors on memory parts of words? The memory parts are the letter sequences that must be memorized because they can't be figured out using knowledge of phonics or word structure. Examples are the underlined letters in the following words: mountain, total, and fault. If the students are making errors on the memory parts, discuss the importance of spelling homework. Be sure the students and parents understand the homework instructions and the importance of using the three memory steps.

If you have been differentiating instruction, are your below-grade-level, average, and advanced spellers correctly designated? Consider the students' performance on all spelling tests to date. If some students have consistently made several errors on the tests, consider having them memorize fewer words each week. If average spellers have made no errors on the tests, they may be able to learn the challenge words each week. Consider student effort as well as performance, however. Some students with perfect tests may have studied intensely and would find it difficult to memorize additional words.

Do your students need encouragement to transfer their knowledge from *Guided Spelling* lessons to their writing? When they ask how to spell a word during writing, have them ask about the parts of the word they're not sure of. Provide the guiding and assistance that you would provide during a *Guided Spelling* lesson.

## Prefixes *non-*, *mis-*, and *pre-*

### ► New Content

The prefixes *non-*, *mis-*, and *pre-* are common prefixes, as in *nonfat*, *misspell*, and *pregame*.

### ► Teacher Background

Make a copy of the Week 25 homework (*Blackline Masters* page 34) for each student.

Reminders:

- Be sure your class understands that guided spelling is not a test. The students should listen to your step-by-step guidance so that they write the words correctly.
- Encourage your students to ask questions, even in the items they write independently. *Knowing when they don't know* is an important metacognitive ability in spelling.
- Teach the lessons at a fairly quick pace. Difficult concepts will be reviewed many times.
- If some of the students make a mistake in a choral response, tell the class the correct answer and repeat the question.

In the pre-spelling activities, which begin on Day 2 this week, the students will practice adding suffixes to base words.

2. specially . . . . . Number 2: specially. We had a specially arranged dinner for my parents' anniversary. Say *specially*.

Base word? ■ Say *special* by syllables. ■ The second syllable has a schwa. For spelling say *spe-cial*. ■ First syllable? ■ Write *spe-*.

Second syllable? ■ Careful. The sound /sh/ is spelled **c-i**. (Offer help.) Finish writing *special*.

*Specially*. Suffix? ■ Just add *-ly*. (Check.)

3. eighty-one. . . . . Number 3: eighty-one. My great-grandmother just turned eighty-one. Say *eighty-one*.

FREQUENTLY MISSPELLED WORDS *Eighty* and *one* are frequently misspelled words.

Numbers like *ninety-two*, *twenty-six*, *seventy-four*, and *thirty-three* have a hyphen.

*Eighty-one*. *Eighty*. Say *eighty* by syllables. ■ For spelling say *eight-y*. ■ First syllable? ■ Careful. It's spelled like the number *eight*.

MNEMONIC Here's the mnemonic. The vowel sounds in *eight*, *weigh*, *weight*, and the first syllable of *neighbor* are spelled the same. Write *eight-*.

Second syllable? ■ Finish writing *eighty*. ■ Now write a hyphen.

*Eighty-one*. Add *one*. (Check.)

4. truthfully. . . . . Number 4: truthfully. I told him truthfully that I had not broken the vase. Say *truthfully*.

FREQUENTLY MISSPELLED WORD The base word *truth* is a frequently misspelled word.

*Truthfully*. Base word? ■ Careful. The vowel sound is spelled **u**. Write *truth*.

*Truthfully*. First suffix? ■ Just add *-ful*.

Second suffix? ■ Just add *-ly*. (Check.)

5. student's. . . . . Number 5: student's. The last student gave her report. The student's report was excellent. Say *student's*.

What do we call the word *student's*? (Students: possessive)

The report is of how many students, one or more than one?

(Students: one) First you'll write *student*. The schwa is spelled **e**.

Write *student*. ■ *The student's report*. Make *student* possessive by adding apostrophe-s. (Check.)

6. wireless . . . . . Number 6: wireless. The wireless connection in our house went out during the storm. Say *wireless*.

HISTORY The first type of wireless telephone was invented in the 1890s.

*Wireless*. Base word? ■ Question? ■ Use the first spelling under the “kite” picture. Write *wire-*.

*Wireless*. What do you have to decide? (Students: Do we drop e?) The suffix *-less* begins with a consonant. Just add *-less*. (Check.)

### NOW YOU’LL WRITE FOUR WORDS INDEPENDENTLY.

7. nonhuman . . . . . Number 7: nonhuman. Though our dog is part of our family, he is nonhuman. Say *nonhuman*.

Write *nonhuman*. (Check.)

8. mismatched. . . . . Number 8: mismatched. I accidentally wore a pair of mismatched socks to school. Say *mismatched*.

Write *mismatched*. (Check.)

9. misunderstanding . . . . . Number 9: misunderstanding. There must be some misunderstanding; I don’t have a sister. Say *misunderstanding*.

Write *misunderstanding*. (Check.)

10. precooked. . . . . Number 10: precooked. The rice had been precooked, so we just reheated it. Say *precooked*.

Write *precooked*. (Check.)

PARTNER STUDY Turn to your neighbor. Explain why you did not double **k**.

MEMORY STEPS Do the memory steps for *precooked*.

## ► Student Study

Have the students turn to pages 128 and 129. If they missed a word on the test in Week 23, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Unusual Plurals

### ► New Content

Some singular nouns that end in **f** or **fe** have a plural form ending in **ves**, as in *halves*, *leaves*, *wives*, and *lives*.

The plural of some nouns is made by a change to the base word, as in *women*, *teeth*, *geese*, and *mice*.

The singular and plural are the same for some nouns, for example, *sheep*, *deer*, and *salmon*.

For some words that end with consonant-**o**, we just add **s** to form the plural, as in *pianos* and *solos*; for other words we add **es**, as in *potatoes*, *tomatoes* and *heroes*.

### ► Teacher Background

Make a copy of the Week 26 homework (*Blackline Masters* page 35) for each student.

One additional guiding point is introduced this week: if the singular noun ends with vowel-**o**, just add **s** to form the plural, as in *zoos* and *studios*.

In the pre-spelling activities, which begin on Day 2 this week, you will explain accent in polysyllabic words and model doubling in preparation for guided spelling in Week 27.

Student/Teacher Narrative  
Introduce This Week's Words  
(Words: lives, halves, ourselves,  
teeth, sheep, potatoes)

## ► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 144 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. life . . . . . Number 1: life. We studied the life cycle of the monarch butterfly.  
Underline **i** and **e**.
2. lives . . . . . Number 2: lives. Health professionals save lives every day.  
*Lives* is the plural of *life*. For some words we make the plural by changing **f** or **f-e** to **v-e-s**, for example, the plural of *leaf* is *leaves* and the plural of *knife* is *knives*. Underline **i** and **e**.
3. halves . . . . . Number 3: halves. Cut the tomatoes into halves.  
*Halves* is the plural of *half*. Underline silent **l**.
4. ourselves . . . . . Number 4: ourselves. We need to do this project by ourselves.  
*Our-selves*. ■ *Ourselves* is a compound word. Underline **o-u**. ■ The second small word *-selves* is the plural of *self*.
5. teeth . . . . . Number 5: teeth. She gets her teeth cleaned at the dentist's office.  
*Teeth* is the plural of *tooth*. Underline **e-e**.
6. sheep . . . . . Number 6: sheep. The sheep grazed on the hillside.  
*Sheep* can be singular or plural: one sheep or many sheep.  
Underline **e-e**.
7. potatoes . . . . . Number 7: potatoes. I love roasted potatoes for dinner.  
*Po-ta-toes*. ■ The first syllable has a schwa. Underline **o**. ■ The base word is *potato*. The last syllable of the base word is spelled **t-o**. In the last syllable, underline **o**. ■ Draw a circle around the base word *potato*. ■ The suffix is **e-s**. Underline **e-s**.
8. except . . . . . Number 8: except. I can go swimming every day except Monday.  
► If your students pronounce *except* and *accept* as homophones, explain the homophones.

HOMOPHONE *Except* is a homophone. It's not *accept* meaning receive. It's *except* as in *every day except Monday*.

*Ex-cept*. ■ Underline **c**.

9. environment . . . . . Number 9: environment. Lions live in a hot and dry environment.

*En-vi-ron-ment*. ■ The third syllable has a schwa. Underline **o**. ■ The last syllable has a schwa. Underline **e**.

10. join. . . . . Number 10: join. They will join hands and dance in a circle.

Underline **o-i**.

11. disappear . . . . . Number 11: disappear. The plane flew into the clouds and seemed to disappear.

*Dis-ap-pear*. ■ *Dis-* is a prefix. The next syllable has a schwa. Underline **a**. In the last syllable, underline **e-a**.

12. darkness . . . . . Number 12: darkness. Most owls hunt only when darkness comes.

*Dark-ness*. ■ *-Ness* is a suffix.

13. secret . . . . . Number 13: secret. They kept their mother's present a secret until her birthday.

*Se-cret*. ■ Underline the second **e**.

14. valley . . . . . Number 14: valley. A stream ran through the valley.

*Val-ley*. ■ Underline **e-y**.

15. control . . . . . Number 15: control. He learned how to control his dog at dog training class.

*Con-trol*. ■ The first syllable has a schwa. Underline the first **o**. Underline the second **o**.

### NUMBERS 16–25 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- |                       |               |
|-----------------------|---------------|
| 16. *nonfiction       | 21. direction |
| 17. *misbehaved       | 22. ahead     |

| 19. *pregame          | 24. special   |
| 20. *nonhuman         | 25. wireless  |

## ► Guided Spelling

► Have your students turn to page 146.

1. potatoes . . . . . Number 1: potatoes. I love roasted potatoes for dinner.

Say *potatoes*.

Base word? ■ Say *potato* by syllables. ■ The first syllable has a schwa. For spelling say *po-ta-to*. ■ First syllable? ■ (Offer help.)

Write *po-*.

Second syllable? ■ Write *-ta-*.

Third syllable? ■ Careful. It's spelled **t-o**. Write *-to*.

*Potatoes*. Everyone point to **t-o**. For some words that end with consonant-**o**, we just add **s** to form the plural; for other words, we add **e-s**. For *potatoes* add **e-s**. (Check.)

2. lives . . . . . Number 2: lives. Health professionals save lives every day.

Say *lives*.

*Lives* is the plural of *life*. Question? ■ Use the first spelling under the “kite” picture. Write *lives*. (Check.)

3. halves . . . . . Number 3: halves. Cut the tomatoes into halves. Say *halves*.

*Halves* is the plural of *half*. First you'll write *half*. Careful. There is a silent **l** after **a**. Write *half*.

*Halves*. Change **f** to **v-e-s**. (Check.)

4. ourselves . . . . . Number 4: ourselves. We need to do this project by ourselves.

Say *ourselves*.

*Ourselves* is a compound word. Say *ourselves* by syllables. ■

First syllable? ■ Write *our-*.

Second syllable? ■ *-Selves* is the plural of *self*. Write *-selves*. (Check.)

**NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.**

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. teeth . . . . . Number 5: teeth. She gets her teeth cleaned at the dentist's office. Say *teeth*.

Write *teeth*. (Check.)

6. sheep . . . . . Number 6: sheep. The sheep grazed on the hillside. Say *sheep*.

Write *sheep*. (Check.)

7. life . . . . . Number 7: life. We studied the life cycle of the monarch butterfly.  
Say *life*.  
Write *life*. (Check.)
8. except . . . . . Number 8: except. I can go swimming every day except Monday.  
Say *except*.  
I'll say the syllables for spelling: *ex-cept*. Write *except*. (Check.)

 **Introduce the Homework**

---

Hand out the Week 26 homework.

---

 **Record Words Missed**

---

Return the students' spelling tests from Week 25. Have them turn to pages 138 and 139 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

► **Teacher Background**

In the pre-spelling activities this week, you will explain accent in polysyllabic words and model doubling in preparation for guided spelling in Week 27. The generalization for doubling in polysyllabic words includes identifying the syllable that is accented, or stressed, in the base word. The concept of accent is difficult for some students. The pre-spelling activity in this lesson focuses on accent.

► **Pre-spelling: Doubling with Polysyllabic Words**

► Write on the board: produce desert

Next week in guided spelling, you will be doubling the final consonant before a suffix in some polysyllabic words. You'll need to know which syllable is accented.

produce . . . . . ► Point to *produce*.

This word can be produce, as in *The factory will produce cars*. The accent is on the second syllable, *-duce*. This word can also be produce, meaning *fruits and vegetables*. The accent is on the first syllable, *prod-*.

desert . . . . . ► Point to *desert*.

This word can be desert, a *hot, dry, sandy place*. The accent is on the first syllable, *des-*. This word can also be desert, meaning *leave someone or something*. The accent is on the second syllable, *-sert*.

► **Guided Spelling**

► Have your students turn to page 147.

l. loaf . . . . . Number l: loaf. We used a loaf of bread to make the sandwiches. Say *loaf*.

Question? ■ Use the second spelling under the “bone” picture. Write *loaf*. (Check.)

2. loaves . . . . . Number 2: loaves. The loaves of bread were stacked on the shelf. Say *loaves*.  
*Loaves* is the plural of *loaf*. First write *loaf*.  
*Loaves*. Change **f** to **v-e-s**. (Check.)
3. control . . . . . Number 3: control. He learned how to control his dog at dog training class. Say *control*.  
 Say *control* by syllables. ■ The first syllable has a schwa. For spelling say *con-trol*. ■ First syllable? ■ (Offer help.) Write *con-*.  
 Second syllable? ■ Careful. The vowel sound is spelled **o**. Write *-trol*. (Check.)
4. oxen . . . . . Number 4: oxen. The oxen pulled the plow slowly across the field. Say *oxen*.  
*Oxen* is the plural of *ox*. Write *ox-*.  
*Oxen*. Add **e-n**. (Check.)  
 HISTORY Long ago many English words were made plural by adding **e-n**. Now there are just a few, such as *oxen* and *children*. Sometimes you might hear *brethren* as the plural of *brother*.
5. disappear . . . . . Number 5: disappear. The plane flew into the clouds and seemed to disappear. Say *disappear*.  
 Prefix? ■ Write *dis-*.  
 Base word? ■ Say *appear* by syllables. ■ The first syllable has a schwa. For spelling say *ap-pear*. ■ First syllable? ■ (Offer help.) Write *ap-*.  
 Second syllable? ■ Careful. The vowel sound is spelled **e-a**. Write *-pear*. (Check.)
6. valley . . . . . Number 6: valley. A stream ran through the valley. Say *valley*.  
 Say *valley* by syllables. ■ For spelling say *val-ley*. ■ First syllable? ■ Write *val-*.  
 Second syllable? ■ Careful. The vowel sound is spelled **e-y**. Finish writing *valley*. (Check.)
- NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.
7. darkness . . . . . Number 7: darkness. Most owls hunt only when darkness comes. Say *darkness*.  
 Write *darkness*. (Check.)

8. join . . . . . Number 8: join. They will join hands and dance in a circle.  
Say *join*.

Write *join*. (Check.)

9. secret . . . . . Number 9: secret. They kept their mother's present a secret until  
her birthday. Say *secret*.

I'll say the syllables for spelling: *se-cret*. Write *secret*. (Check.)

10. environment . . . . . Number 10: environment. Lions live in a hot and dry  
environment. Say *environment*.

I'll say the syllables for spelling: *en-vi-ron-ment*. Write *environment*.  
(Check.)

**PARTNER STUDY** Turn to your neighbor, say the word *environment*,  
and then discuss which vowels are schwas.

**MEMORY STEPS** Mark the syllable boundaries as I say the syllables  
for spelling: *en-vi-ron-ment*. Now do the memory steps for  
*environment*.

► **Pre-spelling: Doubling with Polysyllabic Words**

When we add suffixes to some polysyllabic words, we have to double the last consonant. It's like doubling in single-syllable words, but in polysyllabic words we have to think about accent, too.

admitted . . . . . I will spell *admitted*. *She admitted that she forgot her lunch.*

Base word?

► Write *admit + ed* on the board. Point to **it**.

*Admit* ends with one vowel and then one consonant. Here is the new question that we ask about polysyllabic words: is the accent on the *last* syllable? In *admit* the accent is on the last syllable. The suffix **e-d** begins with a vowel. I will double **t**. *Admitted*.

► Write *admitted*.

forbidding . . . . . I will spell *forbidding*. *Their parents were forbidding them to watch television that evening.* Base word?

► Write *forbid + ing* on the board. Point to **id**.

*Forbid* ends with one vowel and then one consonant. Here is the new question: is the accent on the *last* syllable? In *forbid* the accent is on the last syllable. The suffix **-ing** begins with a vowel. I will double **d**. *Forbidding*.

► Write *forbidding*.

► **Guided Spelling**

► Have your students turn to page 148.

l. life's . . . . . Number 1: life's. She wrote about her life's joys and sorrows. Say *life's*.

What do we call the word *life's*? (Students: possessive) Are the joys of one life or more than one? (Students: one) First write *life*. ■ *Her life's joys*. Make *life* possessive by adding apostrophe-s. (Check.)

2. radios. . . . . Number 2: radios. The passengers' radios needed to be shut off before the plane could depart. Say *radios*.  
 Say *radio* by syllables. ■ For spelling say *ra-di-o*. ■ First syllable? ■ Write *ra-*.  
 Second syllable? ■ Careful. It's spelled **d-i**. Write *-di-*.  
 Third syllable? ■ Careful. It's spelled **o**. Write *-o*.  
*Radios*. Everyone point to **i-o**. When a word ends with a vowel and then **o**, just add **s** to make the plural. Finish writing *radios*. (Check.)
3. valleys. . . . . Number 3: valleys. From the airplane we saw several green valleys. Say *valleys*.  
 Base word? ■ Say *valley* by syllables. ■ For spelling say *val-ley*. ■ First syllable? ■ Write *val-*.  
 Second syllable? ■ Careful. The vowel sound is spelled **e-y**. Finish writing *valleys*. (Check.)
4. control. . . . . Number 4: control. The remote control is on the coffee table. Say *control*.  
 Say *control* by syllables. ■ The first syllable has a schwa. For spelling say *con-trol*. ■ First syllable? ■ (Offer help.) Write *con-*.  
 Second syllable? ■ Careful. It's spelled **t-r-o-l**. Write *-trol*. (Check.)
5. teeth . . . . . Number 5: teeth. The guard dog showed his teeth when he growled. Say *teeth*.  
 Question? ■ Use the second spelling under the "tree" picture. Write *teeth*. (Check.)  
 HISTORY For some English words we form the plural by changing the middle of the word, for example, the plural of *tooth* is *teeth*, the plural of *mouse* is *mice*, the plural of *foot* is *feet*, the plural of *man* is *men*, and the plural of *goose* is *geese*.
6. environment . . . . . Number 6: environment. Alligators live in a hot, wet environment. Say *environment*.  
 Say *environment* by syllables. ■ The third and fourth syllables have schwas. For spelling say *en-vi-ron-ment*. ■ First syllable? ■ (Offer help.) Write *en-*.  
 Second syllable? ■ Write *-vi-*.  
 Third syllable? ■ (Offer help.) Write *-ron-*.  
 Last syllable? ■ (Offer help.) Write *-ment*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. halves . . . . . Number 7: halves. Put the apple halves on a plate. Say *halves*.  
Write *halves*. (Check.)
8. misjudged . . . . . Number 8: misjudged. I'm sorry I misjudged you; you did tell the truth. Say *misjudged*.  
Write *misjudged*. (Check.)
9. potatoes . . . . . Number 9: potatoes. We peeled the potatoes and made potato salad. Say *potatoes*.  
I'll say the syllables for spelling: *po-ta-toes*. Write *potatoes*.  
(Check.)
10. disappearing . . . . . Number 10: disappearing. The fog will be disappearing soon.  
Say *disappearing*.  
I'll say the syllables for spelling: *dis-ap-pear-ing*. Write *disappearing*.  
(Check.)
- PARTNER STUDY Turn to your neighbor. Explain why you did not double **r**.
- MEMORY STEPS Do the memory steps for *disappearing*.

## ► Pre-spelling: Doubling with Polysyllabic Words

When we add suffixes to some polysyllabic words, we have to double the last consonant.

permitted. . . . . I will spell *permitted*. *The teacher permitted us to work together.*  
Base word?

► Write *permit + ed* on the board. Point to **it**.

*Permit* ends with one vowel and then one consonant. Here is the new question: is the accent on the *last* syllable? In *permit* the accent is on the last syllable. The suffix **e-d** begins with a vowel. I will double **t**. *Permitted*.

► Write *permitted*.

forgotten . . . . . I will spell *forgotten*. *He had forgotten his homework.* Base word?

► Write *forgot + en* on the board. Point to **ot**.

*Forgot* ends with one vowel and then one consonant. Here is the new question: is the accent on the *last* syllable? In *forgot* the accent is on the last syllable. The suffix **-en** begins with a vowel. I will double **t**. *Forgotten*.

► Write *forgotten*.

## ► Guided Spelling

► Have your students turn to page 149.

1. secret. . . . . Number 1: secret. The detective discovered the secret passage.  
Say *secret*.

Say *secret* by syllables. ■ For spelling say *se-cret*. ■ First syllable? ■ Write *se-*.

Second syllable? ■ (Offer help.) Finish writing *secret*. (Check.)

2. joined. . . . . Number 2: joined. The audience joined in with the performers and sang along. Say *joined*.

Base word? ■ Question? ■ Use the first spelling under the “noisy toy” picture. Finish writing *joined*. (Check.)

3. *except* . . . . . Number 3: *except*. I have all the markers *except* one. Say *except*.  
▶ If your students pronounce *except* and *accept* as homophones, explain the homophones.

HOMOPHONE *Except* is a homophone. It's not *accept* meaning *receive*. It's *except* as in *all except one*.

Say *except* by syllables. ■ For spelling say *ex-cept*. ■ First syllable? ■ Write *ex-*.

Second syllable? ■ Write *-cept*. (Check.)

4. *darkness* . . . . . Number 4: *darkness*. When *darkness* falls, the bats come out to eat insects. Say *darkness*.

Base word? ■ Write *dark-*.

Suffix? ■ Add *-ness*. (Check.)

5. *lives* . . . . . Number 5: *lives*. Rescue workers risk their *lives* to save others. Say *lives*.

*Lives* is the plural of *life*. Question? ■ Use the first spelling under the "kite" picture. Write *lives*. (Check.)

6. *sheep* . . . . . Number 6: *sheep*. The *sheep* were herded by two border collies. Say *sheep*.

Question? ■ Use the second spelling under the "tree" picture. Write *sheep*. (Check.)

HISTORY For some English words, the plural is the same as the singular, for example, *sheep*, *deer*, *reindeer*, and *salmon*.

### NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. *predawn* . . . . . Number 7: *predawn*. All was quiet at the *predawn* hour. Say *predawn*.

Write *predawn*. (Check.)

8. *themselves* . . . . . Number 8: *themselves*. They washed *themselves* quickly. Say *themselves*.

Write *themselves*. (Check.)

9. *I'd've* . . . . . Number 9: *I'd've*. *I'd've* been at your game if I could have. Say *I'd've*.

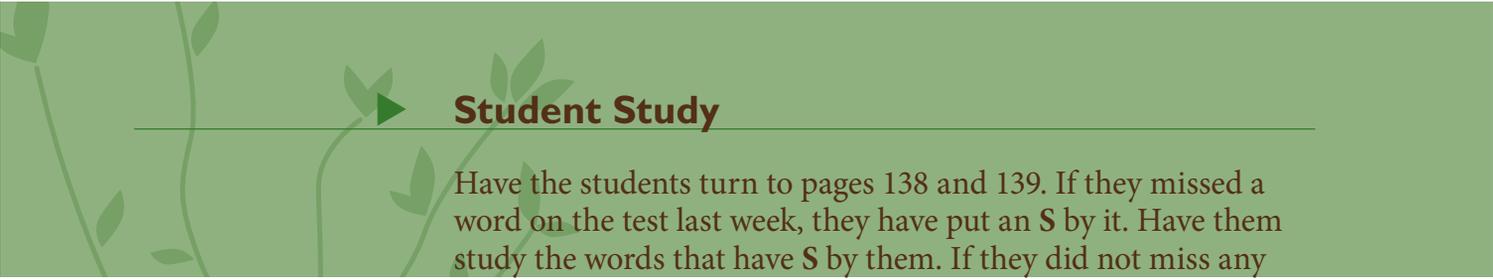

CONTRACTION *I'd've* is a contraction of *I* and *would* and *have*.

Write *I'd've*. (Check.)

10. *ourselves* . . . . . Number 10: *ourselves*. We'd like to be alone; give us a moment to *ourselves*. Say *ourselves*.

Write *ourselves*. (Check.)

MEMORY STEPS Do the memory steps for *ourselves*.

## Student Study

---

Have the students turn to pages 138 and 139. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

## Doubling with Polysyllabic Words

### ► New Content

If the base word is polysyllabic *and* if the last syllable has one vowel and ends with one consonant *and* if the accent is on the last syllable, then we double the last consonant before we add a suffix that begins with a vowel, as in *beginning*, *admitted*, *repellent*, and *forgotten*.

### ► Teacher Background

Make a copy of the Week 27 homework (*Blackline Masters* page 36) for each student.

The generalization for doubling polysyllabic words includes identifying the syllable that is accented, or stressed, in the base word. The concept of accent is difficult for some students. You will support them by telling them which syllable in the base word is accented.

Guided spelling this week includes the “no change” generalization that also involves polysyllabic words: if the base word is polysyllabic *and* if the last syllable has one vowel and ends with one consonant *and* if the polysyllabic base word does not have the accent on the last syllable, we do not double the last consonant, as, for example, in *traveling*, *gardener*, and *listening*. Exceptions are *programmed* and *kidnapped*.

To help the students understand this week’s generalization for doubling the last consonant, you will have them write first the base word, then the suffix, and then the whole word for three items each day this week. These items in the *Student Spelling Book* look like this:

\_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

The pre-spelling activities, which begin on Day 2 this week, focus on the spelling and meaning of the suffixes *-er*, *-est*, and *-or* in preparation for guided spelling in Week 28.

## ► Words Used This Week

NEW WORDS	*beginning, *controlled, *happened, *forgetting, *remembered, *maybe, *minute, *bottom, difficult, unnumbered, lateness, misheard, wives, ocean, lie
REVIEW WORDS	*except, *sheep, *life, *ourselves, *potatoes, darkness, environment, secret, control, join

FREQUENTLY MISSPELLED WORDS	guess, heard

# Week 27 Day 1

## ► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 150 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. beginning . . . . . Number 1: beginning. The table of contents is at the beginning of the book.

*Be-gin-ning*. ■ Underline **e**. ■ The base word is *begin*. It is polysyllabic, ends with **i-n**, and the accent is on the last syllable, so **n** was doubled.

2. controlled . . . . . Number 2: controlled. He controlled the toy car with a remote control device.

*Con-trolled*. ■ The first syllable has a schwa. Underline **o**. ■ Underline the second **o**. ■ The base word is *control*. It is polysyllabic, ends with **o-l**, and the accent is on the last syllable, so **l** was doubled.

3. happened . . . . . Number 3: happened. Her birthday happened to fall on the last day of school.

*Hap-pened*. ■ The second syllable has a schwa. In the second syllable, underline the first **e**. ■ The base word is *happen*. It is polysyllabic and it ends with **e-n**, but the accent is not on the last syllable, so **n** was not doubled.

4. forgetting . . . . . Number 4: forgetting. I won't be forgetting my homework tomorrow.

*For-get-ting*. ■ The base word is *forget*. It is polysyllabic, ends with **e-t**, and the accent is on the last syllable, so **t** was doubled.

5. remembered . . . . . Number 5: remembered. She remembered to return her library book.

*Re-mem-bered*. ■ In the first syllable, underline **e**. ■ In the third syllable, underline **e-r**. The base word is *remember*. It is polysyllabic and it ends with **e-r**, but the accent is not on the last syllable, so the last **r** was not doubled.

6. maybe . . . . . Number 6: maybe. I'm not sure whether I'll go; maybe I will.  
*May-be.*  
 MNEMONIC Here is a mnemonic: *maybe* is a compound word made of *may* and *be*.
7. minute . . . . . Number 7: minute. We'll be finished in one minute.  
*Min-ute.* ■ Underline **u** and **e**.
8. bottom. . . . . Number 8: bottom. The class rode on the lake in a glass-bottom boat.  
*Bot-tom.* ■ The second syllable has a schwa. Underline **o**.
9. difficult . . . . . Number 9: difficult. The math homework was difficult.  
*Dif-fi-cult.*
10. unnumbered . . . . . Number 10: unnumbered. The pages of the book were unnumbered.  
*Un-num-bered.* ■ *Un-* is a prefix. In the third syllable, underline **e-r**. The base word is *number*. It is polysyllabic and it ends with **e-r**, but the accent is not on the last syllable, so the last **r** was not doubled.
11. lateness . . . . . Number 11: lateness. He has a problem with lateness; he never gets to practice on time.  
*Late-ness.* ■ The base word is *late*. Underline **a** and **e**. *-Ness* is a suffix.
12. misheard . . . . . Number 12: misheard. I misheard the time and was late for the movie.  
 FREQUENTLY MISSPELLED WORD The base word *heard* is a frequently misspelled word.  
*Mis-heard.* ■ *Mis-* is a prefix. Underline **e-a**.
13. wives . . . . . Number 13: wives. Both wives and husbands joined in the activity.  
*Wives* is the plural of *wife*. Underline **i** and **e**.
14. ocean . . . . . Number 14: ocean. An ocean separates North America from Asia.  
*O-cean.* ■ Underline **c-e**. The second syllable has a schwa. Underline **a**.
15. lie. . . . . Number 15: lie. My dog will lie on her cushion.  
 Underline **i-e**.

## NUMBERS 16–25 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- |                |                 |
|----------------|-----------------|
| 16. *except    | 21. darkness    |
| 17. *sheep     | 22. environment |
| 18. *life      | 23. secret      |
| 19. *ourselves | 24. control     |
| 20. *potatoes  | 25. join        |

## ► Guided Spelling

► Have your students turn to page 185.

This week you will spell polysyllabic words in which you have to double the last consonant. We'll read the polysyllabic doubling generalization together: "IF the base word is polysyllabic and ends with one vowel and one consonant and has the accent on the last syllable AND the suffix begins with a vowel, THEN double the last consonant."

► Have your students turn to page 152.

1. beginning. . . . . Number 1: beginning. The table of contents is at the beginning of the book. Say *beginning*.

Base word? ■ It's spelled **b-e...g-i-n**. Write *begin* in the first space at number 1.

*Beginning*. Suffix? ■ Write **-ing** in the second space.

*Beginning*. What do you have to decide? (Students: Do we double?) *Begin* ends with one vowel and then one consonant: **i-n**. The accent is on the last syllable: *begin*. Draw a circle around **g-i-n**. The suffix **-ing** begins with a vowel. Will you double the last consonant of *begin*? (Students: yes) Write *beginning* in the third space. (Check.)

2. controlled. . . . . Number 2: controlled. He controlled the toy car with a remote control device. Say *controlled*.

Base word? ■ Write *control* in the first space at number 2.

*Controlled*. Suffix? ■ Write **e-d** in the second space.

*Controlled*. What do you have to decide? (Students: Do we double?) *Control* ends with one vowel and then one consonant: **o-l**. The accent is on the last syllable: *control*. Draw a circle around **t-r-o-l**. The suffix **e-d** begins with a vowel. Will you double the last consonant of *control*? (Students: yes) Write *controlled* in the third space. (Check.)

3. remembered . . . . . Number 3: remembered. She remembered to return her library book. Say *remembered*.  
Base word? ■ It's spelled **r-e...m-e-m...b-e-r**. Write *remember*.  
*Remembered*. What do you have to decide? (Students: Do we double?) *Remember* ends with one vowel and then one consonant: **e-r**. The accent is on the second syllable, not the last syllable: *remember*. Will you double the last consonant of *remembered*? (Students: no, just add e-d) Finish writing *remembered*. (Check.)

4. forgetting . . . . . Number 4: forgetting. I won't be forgetting my homework tomorrow. Say *forgetting*.  
Base word? ■ It's spelled **f-o-r...g-e-t**. Write *forget*.  
*Forgetting*. What do you have to decide? (Students: Do we double?) *Forget* ends with one vowel and then one consonant: **e-t**. The accent is on the last syllable: *foret*. The suffix *-ing* begins with a vowel. Will you double the last consonant of *forgetting*? (Students: yes) Finish writing *forgetting*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

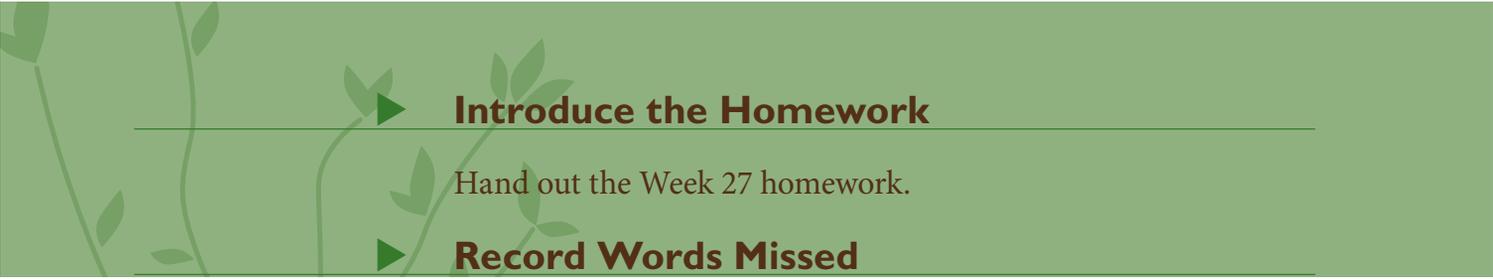

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. happened . . . . . Number 5: happened. Her birthday happened to fall on the last day of school. Say *happened*.  
I'll say the syllables of the base word for spelling: *hap-pen*. Write the base word, then the suffix, and then the whole word *happened*. (Check.)

6. maybe . . . . . Number 6: maybe. I'm not sure whether I'll go; maybe I will. Say *maybe*.  
MNEMONIC Here is the mnemonic: *maybe* is a compound word. Write *maybe*. (Check.)

7. minute . . . . . Number 7: minute. We'll be finished in one minute. Say *minute*.  
I'll say the syllables for spelling: *min-ute*. Write *minute*. (Check.)

8. bottom. . . . . Number 8: bottom. The class rode on the lake in a glass-bottom boat. Say *bottom*.  
I'll say the syllables for spelling: *bot-tom*. Write *bottom*. (Check.)

## ▶ Introduce the Homework

---

Hand out the Week 27 homework.

## ▶ Record Words Missed

Return the students' spelling tests from Week 26. Have them turn to pages 144 and 145 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

# Week 27 Day 2

## ► Teacher Background

The pre-spelling activities this week focus on the spelling and meaning of the suffixes *-er*, *-est*, and *-or* in preparation for guided spelling in Week 28.

## ► Pre-spelling: Suffixes

 **Student Study**

Have the students turn to pages 144 and 145. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Weekly Test

For details about the weekly test, see page 53.

## Suffixes *-er*, *-or*, and *-est*

### ► New Content

The suffixes *-er*, *-or*, and *-est* are common suffixes, as in *teacher*, *wider*, *actor*, and *hardest*.

### ► Teacher Background

Make a copy of the Week 28 homework (*Blackline Masters* page 37) for each student.

The suffix *-er* has two common meanings: “a person or thing that,” as in *baker* and *stopper*, and “more than,” as in *wider*.

The pre-spelling activities, which begin on Day 2 this week, focus on the word parts *-able* and *-ible* in preparation for guided spelling in Week 29.

## ► Student Study

---

Have the students turn to pages 150 and 151. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

## Word Parts *-able* and *-ible*

### ► New Content

The word parts *-able* and *-ible* are common, as in *vegetable* and *possible*. They are often suffixes, as in *washable* and *sensible*.

### ► Teacher Background

Make a copy of the Week 29 homework (*Blackline Masters* page 38) for each student.

The word parts *-able* and *-ible* are often misspelled because of their identical or nearly identical pronunciation. Dictionaries generally show the pronunciation of *-able* as /əbəl/ and *-ible* as /əbəl/ or /ɪbəl/.

One additional guiding point is introduced this week: words that end with **ce** or **ge** are exceptions to the drop **e** generalization when the suffix begins with **a** or **o**, for example, *rechargeable* and *courageous*.

In the pre-spelling activities, which begin on Day 2 this week, the students will practice adding suffixes to base words.

### ► Words Used This Week

► **Introduce the Homework**

---

Hand out the Week 29 homework.

► **Record Words Missed**

---

Return the students' spelling tests from Week 28. Have them turn to pages 156 and 157 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

| 15. cleanest        | My dad said my room was the cleanest he had ever seen it.    |

### ► Correct the Pretest

---

Read and spell the 15 words out loud. For each word, have the students point under each letter in their word as you spell. If they did not spell a word correctly, have them draw a line through the word.

---

▶ **Record Words Missed on the Pretest**

---

Have the students turn back to pages 168 and 169. These are the words that will be reviewed this week. If they missed any words on the pretest, have them find the words here and write **S** in front of each one. These are the words that they especially need to study.

---

▶ **Introduce the Homework**

---

Hand out the homework for Week 30. There are three pages of homework this week. The students will practice every review word.

---

▶ **Record Words Missed on Last Week's Test**

---

Return the students' spelling tests from Week 29. Have them turn to pages 162 and 163 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

## Proofreading

### ▶ Teacher Background

---

In the pre-spelling activities this week, you will model ways for students to memorize the spelling of words.

### ▶ Pre-spelling: Memorizing Words

---

▶ Write *environment* on the board.

Let's think about how to memorize the spelling of words.

environment . . . . . *Environment*. When most people say *environment*, you can't hear all the syllables that you have to spell. So I say the syllables for spelling: *en-vi-ron-ment*.

There are two schwas to memorize. If I exaggerate the pronunciation, it will be easier to remember how to spell the schwas: *ěn-vī-rŏn-měnt*.

Here is a mnemonic: the name *Ron* is in *environment*.

### ▶ Partner Proofreading

---

Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three.

Have your students open their books to page 171. The sentences on this page include many words that the students have studied, but some of them are misspelled. Have the students read the sentences with their partners and look for the misspelled words. Have them draw a line through each misspelled word and write the correct word above it. There may be a sentence with all words correct.

As the students work, monitor and assist those who need extra support in proofreading.

## ► Correct Sentences Together

---

► Read each sentence. Have the students tell you each word that is misspelled and how to spell it correctly. Write the correct word on the board. If the students made a mistake, have them draw a line through the incorrect word.

1. Humans do not have teeth at the begining of their lifes.

Misspelled words?

► Write *beginning* and *lives* on the board as the students read and spell the words.

2. When a nonfiction book is too difficult, it can seem uninteresting. Misspelled words? (Students: no misspelled words)

3. After the teacher spoke about lateness, they tried to arrive earlier. Misspelled words?

► Write *teacher* and *earlier* on the board as the students read and spell the words.

4. Watch these potatos' disapear mouthful by mouthful.

Misspelled words?

► Write *potatoes* and *disappear* on the board as the students read and spell the words.

5. Astronomers can teach students' to mesure the brighness of each star. Misspelled words?

► Write *students*, *measure*, and *brightness* on the board as the students read and spell the words.

6. I mispelled a word, so I had to re studdy it. Misspelled words?

► Write *misspelled* and *restudy* on the board as the students read and spell the words.

## ► Record Words Missed in Proofreading

---

If there are misspelled words that the students did not find in proofreading, have them turn back to pages 168 and 169 and write **S** next to each word missed. If there are any words that they did not write correctly, have them write **S** next to those words on pages 168 and 169. These are words the students especially need to study.

## Partner Study

### ► Pre-spelling: Memorizing Words

---

► Write *special* on the board.

Let's think about how to memorize the spelling of words.

special . . . . . *Special*. Focus on the two hard parts. First, the sound /sh/ is spelled **c-i**. Second, the end of the word is spelled **a-l**.

It might help you to visualize the second syllable *-cial*, or to repeat the spelling to yourself: **c-i-a-l, c-i-a-l**.

### ► Partner Study

---

Have your students open their spelling books to pages 168 and 169. Remind them how to study their spelling words with a partner. In partner study the students take turns telling each other which word they choose to spell aloud. The students also say which parts of the word are hard to spell. For example, one student says, "I will spell number 41, *actor*. The hard part is **o-r**." He covers the word and spells it aloud as his partner checks. If he makes a mistake, both partners cover the word and spell it together. The partner who made the mistake writes **S** in front of the word to remind him to study it.

You may want to model the partner study before your students begin.

## Spelling Discussion

### ▶ Teacher Background

---

The purpose of today’s spelling discussion is for the students to consider how to improve their spelling beyond spelling lessons.

### ▶ Pre-spelling: Memorizing Words

---

▶ Write *potatoes* on the board.

Let’s think about how to memorize the spelling of words.

potatoes . . . . . *Potatoes*. Saying the syllables for spelling helps you remember **o** in the first syllable: *po-ta-toes*.

The end of the base word *potato* is spelled **o**, not **o-w**.

The suffix is **e-s**. Here are two mnemonics. First, *potatoes* and *tomatoes* rhyme, and both end with **t-o-e-s**. The second is supposed to be funny: I’d dance on my toes for potatoes and tomatoes.

### ▶ Spelling Discussion

---

English is a language with thousands and thousands of words, and many of them are not easy to spell, even for grown-ups. To be good spellers we need to continue learning. For example, it helps to really notice words and how they are spelled when you are reading, especially if you have never seen the word before. What are some ways you can learn more about spelling even when you are not working on spelling in school?

Students might say:

“After I’ve seen a word many times when I read, I can tell whether it looks right when I write it.”

“I notice words when I am reading.”

“If I’ve never seen the word before, I look at the spelling.”

“I notice words that have the same base word as a word we’ve studied. For example, we studied *control*, and I might see the word *uncontrollably* in a book.”

“I notice words with the prefixes and suffixes we’ve studied.”

“When I hear a new word, I sometimes think how it might be spelled.”

“I could keep a list of words I often miss.”

“I could keep a list of homophones.”

---

▶ **Partner Study**

If time permits, have the students study the review words on pages 168 and 169 with their partners, as on Day 3 of this week. This is a brief activity of 1 or 2 minutes.

## Weekly Test

For details about the weekly test, see page 53.

# Routine for Checking Words

During guided spelling, the students receive immediate feedback by checking each word they have written before the teacher begins the next item. For the first two weeks of grade 4, the checking procedure for each word is provided in detail in the *Teacher's Manual*, as shown below:

1. cannot . . . . . Number 1: cannot. I cannot meet you after school. Say *cannot*.  
(Students: cannot)

*Cannot* is a compound word. A compound word is a word made of two smaller words. When you write a compound word, do not leave a space between the two smaller words. Write *cannot*.

Now you will check your work. *Cannot* has two syllables. Whenever we check a word with more than one syllable, read the word and then read and spell by syllables. Point under each letter as you spell.

► At number 1, write *cannot* as the students read and spell.  
(Students: cannot, can-, c-a-n, -not, n-o-t)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

Beginning in Week 3, the checking procedure is no longer written out for each word. The notation “(Check.)” reminds you to lead the students through the entire checking process, as shown below:

5. plastic. . . . . Number 5: plastic. We covered the leftover food in plastic wrap.  
Say *plastic*.

Say *plastic* by syllables. ■ First syllable? ■ Write *plas-*.

Second syllable? ■ The sound /k/ at the end of a syllable is usually spelled **c**. Write *-tic*. (Check.)

# Memory Steps

## The Guided Spelling Memory Steps

Students benefit from using a systematic approach to studying their spelling words. In grade 4 of the *Guided Spelling* program, you will teach your students a three-step method that is particularly useful for polysyllabic words:

- STEP 1 . . . Read the word. Say the syllables to help you spell.
- STEP 2 . . . Underline any hard parts.
- STEP 3 . . . Cover the word. Say and write the word by syllables. Check.

## Using the Memory Steps in Daily Guided Spelling

For the first three weeks, you will lead your students through the memory steps for several words each week. The following example shows full guiding for a class that is not yet familiar with the memory steps.

10. quitting . . . . . Number 10: quitting. I'm quitting the basketball team because I injured my knee. Say *quitting*. (Students: quitting)

Write *quitting*.

(Check.)

PARTNER STUDY Turn to your neighbor. Explain why you doubled **t** in *quitting*.

MEMORY STEPS Now we'll practice the memory steps for number 10, *quitting*.

STEP 1 . . . Step 1 is Read the word. Say the syllables to help you spell. (Students: quitting, quit-ting)

STEP 2 . . . Step 2 is Underline any hard parts.

STEP 3 . . . Step 3 is Cover the word. Say and write the word by syllables. Check. Everyone cover the word. Find the line under number 10. Say and write *quitting* by syllables. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

Beginning in Week 4, you will no longer lead the students through each memory step. You will have the students practice the memory steps independently for word number 10 on Days 2, 3, and 4 each week, as shown below:

10. program . . . . . Number 10: program. The after-school art program is very popular. Say *program*.

Write *program*. (Check.)

PARTNER STUDY Turn to your neighbor. Explain why you wrote **o** in the first syllable.

MEMORY STEPS Do the memory steps for *program*.

### Using the Memory Steps in Homework

In the *Guided Spelling* program, the students use the memory steps in their homework to study and memorize the weekly words. They will be familiar with the steps from daily guided spelling. The *Blackline Masters* book provides a homework page for each week that lists the words to be studied and provides space to write the words; the memory steps are printed at the top of each homework page for the students to refer to.

# Routines for Offering Help

The development of students' metacognitive abilities is an important goal of the *Guided Spelling* program. Strong spellers anticipate common pitfalls in English words, and they are aware when they do not know part of a word. In *Guided Spelling* you will often alert your students to difficult word parts. You will encourage your students to ask questions and you will frequently offer help.

The *Guided Spelling* program has two routines in grade 4 for offering help during guiding. One is for unusual spellings (such as **ou** in *touch*) and unaccented vowels (such as the schwa in *tunnel*). The second routine is for the common vowel spellings on the spelling-sound chart (such as **a\_e**, **ai\_**, and **\_ay** under the “cake” picture).

## Offering Help for Unusual Spellings and Unaccented Vowels

When your students are writing a syllable with an unusual spelling or an unaccented vowel, you invite them to ask for help if they need it. You then give help by writing the spelling on the board or projector to the left of the number of the word. You should not say the spelling aloud. The students who aren't sure of the spelling can look at the board or screen, while the students who know the spelling may write it without assistance.

For the first two weeks, this routine is written out in detail in the *Teacher's Manual*, as shown below:

5. touch . . . . . Number 5: touch. The baby likes to touch my nose. Say *touch*.  
(Students: touch)

Be careful here. The vowel sound in *touch* has an unusual spelling. If you know the spelling, write *touch*. If you're not sure, raise your hand and look up here as I write it.

► If any students raise their hands, write **ou** to the left of number 5.

(Check.)

Beginning in Week 3, the routine for offering help is no longer written out. The notation “(Offer help.)” is the reminder that you should follow this routine, as seen below:

2. tunnel. . . . . Number 2: tunnel. We drove through the long, dark tunnel.  
Say *tunnel*.  
Say *tunnel* by syllables. ■ The second syllable has a schwa. Now I’ll say the syllables for spelling: *tun-nel*. Repeat the syllables. ■ First syllable? ■ Write *tun-*.  
Second syllable? ■ (Offer help.) Write *-nel*. (Check.)

### Offering Help for Common Vowel Spellings on the Spelling-Sound Chart

When your students are writing vowels for sounds with more than one common spelling, you assist them during guiding using the “Question?” routine. For example, if the students are writing the word *brain*, some may not know whether to spell it *brane* or *brain*. In the routine, you say, “Question?” meaning, “Ask me a question if you don’t know which spelling of the sound /ā/ to use for *brain*.” The students ask, “Which /ā/?” Then you tell them to use the second spelling under the “cake” picture on the spelling-sound chart. Students who *do* know the correct spelling may write the word without asking “Which /ā/?” and without consulting the chart.

In Week 3 of the *Teacher’s Manual*, you introduce the students to this routine during pre-spelling, as shown below:

sprain . . . . . Let’s say you are writing the word *sprain*, I don’t want to *sprain* my ankle, but you aren’t sure which spelling of the sound /ā/ to use. I will say, “Question?” That means “Ask me a question if you aren’t sure how to spell this sound.” You will ask, “Which /ā/?” That means “Which spelling under the ‘cake’ picture is the right one for *sprain*?”  
I will say, “Use the second spelling under the ‘cake’ picture.” Which is the second spelling under the “cake” picture?  
(Students: a-i-blank) The blank means that there is usually a letter after **a-i**. In *sprain* the letter is **n**. How do you spell the sound /ā/ in *sprain*? (Students: a-i)

The routine is gradually abbreviated as the students become accustomed to it. An example of the abbreviated routine is shown below. The box (■) indicates that you should pause for the students' response, in this case, "Which /ē/?"

3. least. . . . . Number 3: least. I ride my bike to school at least once a week.  
Say *least*.

Question? ■ Use the third spelling under the "tree" picture.  
Write *least*. (Check.)

# Research Basis for *Guided Spelling*

The *Guided Spelling* program is based on four areas of research: developmental stages, explicit instruction, word frequency, and basal spelling instruction.

## Developmental Stages of Spelling

Edmund Henderson and his colleagues at the University of Virginia conducted extensive studies of developing spellers and identified specific stages of increasing proficiency (Henderson 1990; Henderson and Templeton 1986). The following summary of stages is based on Bob Schlagal's (2001) description of these stages.

- **Nonphonetic Stage:** Children write with strings of letters unrelated to the spelling or sounds of the words.
- **Semiphonetic Stage:** Students become aware that letters can represent sounds, and they use what they know of letter sounds (and letter names, if necessary) to spell. For example, one child wrote “WE LKRNHS” for “We like our new house” (p. 154).
- **Phonetic Stage:** Students are learning the spellings of short vowels. They represent most long vowels by the name of the sound, for example, PLEZ for *please* (p. 155). Students continue to master the more difficult consonant combinations, for example, **mp**, **nd**, and **dr**. They tend to spell the inflectional ending **s** as **Z** and **ed** as **T** or **D** (p. 156).
- **Within Word Pattern Stage:** Students gain proficiency with the multiple spellings of vowel sounds, for example, **ee** and **ea** for the sound /ē/. They become more aware of vowel sounds in syllables. They master the spellings for the inflectional endings **s**, **es**, **ed**, and **ing**.
- **Syllable Juncture Stage:** Students gain proficiency in changing the end of certain base words before adding inflectional endings, for example, doubling **p** in *stopped* and dropping **e** for *waving*. Students' understanding of polysyllabic spelling increases to include correct spelling of many open syllables (e.g., *paper*) and closed syllables (e.g., *happy*).

- **Derivational Constancy Stage:** Students become aware that words derived from the same source can provide clues about spelling. For example, the speller can easily spell **e** in *competition* by making a connection with the word *compete*. Students in this stage apply knowledge of prefixes, suffixes, and Greek and Latin roots that appear in thousands of English words.

Henderson's findings have been studied, refined, and promoted by other investigators (for example, Invernizzi and Hayes 2004; Moats 2006), who strongly recommend that spelling instruction facilitate progress through these stages. The *Guided Spelling* program is carefully structured with this in mind.

## Explicit Instruction

The *Guided Spelling* program is based on principles of systematic, explicit instruction. Research on teacher effects as summarized and analyzed by Barak Rosenshine (1995) supports the positive impact of presenting new material in small steps and guiding student practice, as well as providing detailed explanations, providing active practice for students, asking for frequent student responses to check student understanding, and providing systematic feedback and correction (p. 264).

In particular, English Language Learners have been shown to benefit from systematic, explicit orthophonemic instruction (Mathes et al. 2007; Vaughn et al. 2005). Students with learning disabilities also benefit from direct spelling instruction (Graham 1999; Wanzek et al. 2006). Explicit, systematic methods of spelling instruction were pioneered by Samuel Orton, Anna Gillingham, and Bessie Stillman. The core of their methods consisted of explicit teaching of sound-symbol correspondences, focus on individual syllables as well as words, extensive practice applying key spelling rules, and a combination of visual, auditory, and kinesthetic learning (Gillingham and Stillman 1997).

## Word Frequency

Two major studies of word frequency were used as the basis of word selection for the *Guided Spelling* program. In the first study, John Carroll, Peter Davies, and Barry Richman analyzed five million words of running text in all content areas of school curricular materials in grades 3 through 9 (1971). In the second study, Susan Zeno and others analyzed 17 million words from more than 6,000 textbooks and other materials used in U.S. schools and colleges (1995). The highest-frequency words identified in these studies are the words most frequently encountered

by students and those that the students will need to spell in their school writing.

## Basal Spelling Approach

Basal spelling instruction has been a common feature of American education for decades. Research has supported the effectiveness of having weekly lists to study and memorize, practice throughout the week, a weekly test, frequent review, and instruction in study methods (Schlagal 2002). The *Guided Spelling* program includes these basic features while also going beyond straight memorization to support students with strategies and tools for spelling and developing students' metacognitive awareness of their spelling knowledge.

## Additional Resources

Additional resources used in the development of the *Guided Spelling* program include the following:

- For pronunciation and syllable boundaries of words: *New Oxford American Dictionary* (2005), *Pocket Oxford American Dictionary of Current English* (2002), *Merriam-Webster OnLine* ([www.merriam-webster.com](http://www.merriam-webster.com))
- For word history: *Dictionary of Word Origins* (Ayto 1990), *New Oxford American Dictionary* (2005), *American Heritage Dictionary of the English Language* (1971)
- For syllable types: *Speech to Print: Language Essentials for Teachers* (Moats 2000)
- For high-frequency prefixes: "Teaching Prefixes: As Good as It Gets?" in *Vocabulary Instruction: Research to Practice* (Graves 2004)
- For related words as spelling clues: "Theory, Nature, and Pedagogy of Higher-order Orthographic Development in Older Students" in *Development of Orthographic Knowledge and the Foundations of Literacy* (Templeton 1992)
- For frequently misspelled words: *Written Vocabulary of Elementary School Pupils, Ages 6–14* (Smith and Ingersoll 1984)

# Index to Full Guiding

In the *Guided Spelling* program, when spelling concepts (such as doubling the final consonant before a suffix) and spellings (such as **ir** or **oa**) are first introduced, the *Teacher's Manual* provides maximum support during guided spelling. The support is gradually decreased to reflect the students' increasing proficiency.

As you observe your students daily and analyze their weekly test performance, you may decide they need to continue receiving maximum support for a particular concept for several days or weeks. The purpose of this index is to direct you to the location of maximum guidance for each spelling element.

This index has two sections. The first is a list of spelling concepts such as changing **y** to **i**, contractions, and possessives. The second is a list of specific spellings such as **ee** and **-tion**. To review the fullest level of support for dropping **e**, for example, locate “dropping **e** before a suffix” under “Spelling Concept” below. “Page 171, #1: *waving*” indicates that the full guidance for dropping **e** can be found beginning on page 171 of the *Teacher's Manual*, in the entry for word number 1, *waving*.

# Index of Words Taught at Grade 4

The words listed below are the words that are specifically taught, studied, and tested at grade 4 of the *Guided Spelling* program. The number after each word indicates the week in which the word is introduced. For teachers who are differentiating instruction for students at different levels, asterisks (\*) indicate the words that below-grade-level spellers learn; the letters “ch” signify optional challenge words for advanced spellers.

# Guided Spelling™

Developing Thoughtful Spellers

The *Guided Spelling* program is a research-based, yearlong curriculum for grades 1–6. Students learn to become thoughtful spellers and master the high-frequency words they will need in their writing. The 15-minute daily lessons are teacher-directed, multisensory, and interactive. In grade 4 of the *Guided Spelling* program, the students learn strategies for spelling polysyllabic words that include various types of syllables, syllable boundaries, and schwas. They learn the generalizations for adding suffixes, and they spell words with common prefixes and suffixes. They review possessives and frequently misspelled words.

Grade 4 Content	Examples
<b>Phonemic Spelling Knowledge</b>	
Vowels review	tracks, complete, corner, fright, drew, amount, destroy
Schwas	second, open, thousand
Syllable boundaries	un.til, fin.ish, i.de.a
Syllable types (constructions)	hundred, pilot, complete, better, approach, example
<b>Morphemic Spelling Knowledge</b>	
Generalizations for adding suffixes (including inflectional endings)	Single-syllable doubling (dropped) Dropping <b>e</b> (dividing) Changing <b>y</b> to <b>i</b> (replied) Polysyllabic doubling (beginning)
Spelling possessives	today's, nations', women's
Prefixes	un-, re-, dis-, non-, mis-, pre-
Suffixes	-ful, -less, -ness, -er, -or, -est
<b>Other Spelling Knowledge</b>	
Frequently misspelled words	though, field, of course
Homophones	through/threw
Contractions	can't, won't, it's
Unusual plurals	halves, teeth, potatoes
Word history	<i>Squirrel</i> comes from words meaning <i>little shadow-tail</i>
<b>Spelling Strategies</b>	
Polysyllabic spelling	remember → re-mem-ber; sudden → sud-den
Using related words	act → action; discuss → discussion
<b>Studying and Memorizing High-frequency Words</b> (375 words)	plain, reason, purpose, decision, easiest, impossible
