- Q *Who is this story about? What happens? When and where does it happen?*
- Q *Why do you think the lotus seed is so important to Bà?*
- Q *What does the lotus seed help Bà and her family remember?*

4 Quick-write: Creating Stories About Single Objects

Point out that in *The Lotus Seed* the author creates an entire story about a single object: a seed. She describes what happens to the seed over time and how it affects the people around it.

Ask the students to think about other objects they might create a story about. Brainstorm a few ideas as a class (for example, a musical instrument, a pencil, a baseball). Then ask the students to open their notebooks to the next blank page in the writing ideas section, label it “Objects to Create Stories About,” and quick-write a list of objects they might be able to create stories about.

After several minutes, signal for their attention and ask volunteers to share their ideas with the class.

Explain that today the students may choose one of the ideas they wrote during the quick-write to write a story about, or they may work on any other made-up stories. Remind them to look at the “Notes About Fiction” chart to help them get ideas.

WRITING TIME

5 Draft Fiction Pieces

Ask the students to return to their seats. Display the “Writing Time” chart (🌐 WA10) and have the students write silently for 20–30 minutes.

Writing Time

- Write a story about a single object.
- Work on a story you started earlier.
- Start a new story.

WA10

Join the students in writing for a few minutes; then confer with individual students.

ELL Note

You might provide the prompt “I think . . .” or “I believe . . .” to your English Language Learners to help them verbalize their responses to these questions. To learn more, view “Adapting Lessons for English Language Learners” (AV32).

Teacher Note

The Writing Time routine established early in the year helps students settle quickly into focused writing. To learn more, view “Predictable Structure of the Writing Lessons” (AV3).

TEACHER CONFERENCE NOTE

Continue to confer with individual students. Ask the student to show you a piece of his writing and read some of it aloud to you. Ask questions such as:

- Q *What is this story about?*
- Q *Who [is/are] the character(s)? What is interesting about [him/her/them]?*
- Q *What do you imagine might happen to [him/her/them]?*
- Q *When and where do you imagine this story takes place?*
- Q *What speech or dialogue might you include in this story?*
- Q *What part are you going to work on next?*

Document your observations for each student on a “Conference Notes: Focus 1” record sheet (CNI); see page 67 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

6 Reflect on Writing Process and Attitude

Help the students reflect on their work together by discussing questions such as those that follow. Invite them to read passages of their writing aloud to the class as they respond.

- Q *What writing ideas came out of your imagination today?*
- Q *Who wrote a story about a single object? Tell us about it.*

Help the students reflect on their attitudes toward writing by asking:

- Q *How did you feel as you wrote today? If you got stuck, what happened? What do you want to try tomorrow to help you in your writing?*

Explain that the students will continue to hear, discuss, and draft fiction tomorrow.

In this lesson, the students:

- Hear, discuss, and draft fiction
- Explore how characters are developed
- Reflect on creativity in their own writing
- Ask one another questions about their writing

GETTING READY TO WRITE

1 Read *Just a Dream* Aloud

Have the students bring their *Student Writing Handbooks* and pencils, and gather with partners sitting together, facing you. Introduce *Just a Dream* by Chris Van Allsburg. Remind the students that they heard *The Wreck of the Zephyr* and *The Sweetest Fig* by the same author. Ask:

Q *What was unusual or interesting about the books by Chris Van Allsburg we read earlier?*

Encourage the students to think as they listen about how *Just a Dream* is similar to the books they heard earlier by this author.

Read the story aloud slowly and clearly, showing the illustrations and clarifying vocabulary as you read.

Suggested Vocabulary

Mount Everest: name of the highest mountain on Earth (p. 24)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

fire hydrant: covered pipe in the street to which firefighters connect water hoses (p. 4; refer to the illustration)

the future: times that haven't happened yet (p. 9)

dump: large garbage heap (p. 12)

Materials

- *Just a Dream*
- *The Sweetest Fig* from Week 2
- *The Wreck of the Zephyr* from Week 2
- *Student Writing Handbook* page 16
- “Character-plot-setting” chart from Week 2
- “Notes About Fiction” chart from Week 2
- “Writing Time” chart (WA11)

Facilitation Tip

Continue to focus on **pacing class discussions** so they are neither too short nor too long. Scan the whole class (not just the students who are responding) and use techniques such as the following:

- Call on just a few students to respond to each question, even if others have their hands up.
- Use “Turn to Your Partner” if many students want to speak. Then call on just two or three students to share with the whole class.
- Restate the question if the discussion strays from the original topic.
- Ask pairs to discuss whether they agree or disagree with what a classmate has just said.
- Use wait-time before calling on anyone to respond.

Teacher Note

Some sentences in the passage that reveal Walter’s personality are “he crumpled up the empty bag and threw it at a fire hydrant,” “Walter couldn’t understand why anyone would want a tree for a present,” and “‘And I’m not getting some dumb plant,’ he told Rose.”

ELL Note

You might provide the prompt “This story is about . . .” to your English Language Learners to help them verbalize their responses to these questions.

2 Discuss Character Development in the Story

Facilitate a class discussion using the questions that follow, and be ready to reread from the story to help the students recall what they heard.

- Q *Who is Walter, and what do we find out about him?*
- Q *What happens to Walter in this story?*
- Q *How is this story similar to *The Wreck of the Zephyr* or *The Sweetest Fig*?*

Remind the students that stories are built around interesting characters and that authors help us get interested in characters by showing us, through their actions, thoughts, and speech, what the characters are like.

3 Analyze an Excerpt from the Story

Have the students sit at desks with partners together and open their *Student Writing Handbooks* to page 16, where a passage from *Just a Dream* is reproduced. Ask them to read through the passage once by themselves. After several minutes, signal for the students’ attention and ask:

- Q *What words can you use to describe Walter?*

Students might say:

“Litterbug”

“Careless”

“Doesn’t care about the environment”

Have the students reread the passage in pairs and underline words or phrases that reveal Walter’s personality.

After several minutes, signal for the students’ attention. Ask and briefly discuss as a class:

- Q *What words or phrases did you underline? What does that tell you about Walter’s personality?*
- Q *What do the things that Walter says reveal about him?*

Remind the students that authors reveal their characters’ personalities by telling us their actions, thoughts, and speech. Help the students recall that authors use details to develop a story’s plot and setting in addition to its characters. Refer to the “Character-plot-setting” chart and remind the students that they filled in the chart for *The Sweetest Fig* and *Uncle Jed’s Barbershop* last week. Reread the chart aloud, draw a line under the previous entries, and write *Walter*, *litterbug*, and *unkind* under the character heading. Then ask:

- Q *What happens in this story? When and where does it happen?*

As the students respond, record their thinking on the chart.

<i>character (someone)</i>	<i>plot (something happens)</i>	<i>setting (somewhere (in time)</i>
Walter litterbug unkind	Walter dreams that the future is polluted. He starts caring about the environment.	his neighborhood his dream world

Explain that the students will continue to write fiction today. Encourage them to think of ways to describe their characters' actions, thoughts, and speech as they write. Encourage them to also look at the "Notes About Fiction" chart to help them get ideas.

WRITING TIME

4 Draft Fiction Pieces

Ask the students to return to their seats. Display the "Writing Time" chart (🕒 WA11) and have the students write silently for 20–30 minutes.

Writing Time

- Work on a story you started earlier.
- Start a new story.
- Think about characters' actions, thoughts, and speech.

WA11

Join the students in writing for a few minutes; then confer with individual students.

TEACHER CONFERENCE NOTE

Continue to confer with individual students. Ask the student to show you a piece of her writing and read some of it aloud to you. Ask questions such as:

Q *What is this story about?*

(continues)

TEACHER CONFERENCE NOTE *(continued)*

- Q *Who [is/are] the character(s)? What is interesting about [him/her/them]?*
- Q *What do you imagine might happen to [him/her/them]?*
- Q *When and where do you imagine this story takes place?*
- Q *What speech or dialogue might you include in this story?*
- Q *What part are you going to work on next?*

Document your observations for each student on a “Conference Notes: Focus 1” record sheet (CN1); see page 67 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Share One Sentence and Reflect on Creativity

As you did last week, ask the students to review the writing they did today and each choose one sentence to share with the class. Encourage them to choose sentences that they believe show their creativity. Ask them to underline their sentences. After a moment, ask each student to read his sentence aloud to the class, without comment.

After the students have shared their sentences, facilitate a discussion by asking questions such as:

- Q *What sentence did you hear that got you interested in someone else’s writing?*
- Q *What questions do you want to ask a classmate about his or her writing?*

Remind the students that everyone is creative and can become more creative by writing and doing creative things, such as drawing, playing musical instruments, and solving interesting problems in their own way. Review that the students will continue to develop their creativity throughout the year.

EXTENSION

Write Stories to Go with *The Mysteries of Harris Burdick*

The Mysteries of Harris Burdick by Chris Van Allsburg is a book of mysterious illustrations with short captions but no stories (for example,

children ride a rail car on tracks that descend into the sea, and a strange bump under a carpet perplexes a man). Obtain a copy of this book from your school or public library and invite the students to make up stories to go with some of these illustrations. Gather to look at the illustrations together and to brainstorm ideas about what might be happening in each illustration; then encourage interested students to write stories using their ideas.

Drafting Fiction

Day 3

In this lesson, the students:

- Explore character, plot, and setting
- Hear, discuss, and draft fiction
- Explore using dialogue to reveal character
- Cultivate a relaxed attitude toward writing

Materials

- *The Summer My Father Was Ten*
- “Notes About Fiction” chart from Day 2
- “Character-plot-setting” chart from Day 2
- “Writing Time” chart (WA12)

GETTING READY TO WRITE

1 Read *The Summer My Father Was Ten* Aloud

Gather the class with partners sitting together, facing you. Refer to the “Notes About Fiction” chart and remind the students that in a fiction story, *something happens to someone somewhere in time*. Explain that you will read another story aloud today, and encourage the students to think about how it tells about something that happens to someone somewhere in time.

Show the cover of *The Summer My Father Was Ten* and read the title and names of the author and illustrator aloud. Read the story aloud slowly and clearly, showing the illustrations and clarifying vocabulary as you read.

Suggested Vocabulary

mulch: spread leaves, straw, or other materials on the ground around plants (p. 5)

trudged: walked slowly in a tired way (p. 6)

trowel: small shovel (p. 6)

pulp: soft, juicy part of fruit (p. 12)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

bouquets: bunches of picked flowers (p. 5)

vacant lot: small piece of land without any buildings on it (p. 6)

weeding: pulling up unwanted plants in a garden (p. 8)

accent: particular way of pronouncing words (p. 8)

hollow: empty inside (p. 12)

uprooted: pulled up with roots attached (p. 12)

trampled: crushed by being stepped on (p. 16)

stammered: spoke in an uncertain way, stopping often and repeating words (p. 22)

nursing home: place where elderly people are cared for (p. 29)

2 Discuss the Story

Facilitate a class discussion by referring to the “Character-plot-setting” chart and by asking the questions that follow. Be ready to reread from the story to help the students recall what they heard. Ask:

Q *Who is this story about? Why do you think so?*

Q *What happens to the father in this story?*

Q *Where does this story take place? How would you describe the places in this story?*

Draw a line under yesterday’s entries and record the students’ thinking about *The Summer My Father Was Ten* on the chart.

<i>character (someone)</i>	<i>plot (something happens)</i>	<i>setting (somewhere in time)</i>
<i>the father careless</i>	<i>He ruins Mr. Bellavista’s garden with his friends.</i>	<i>his neighborhood when he was a kid</i>
<i>likes to get messy</i>	<i>He tries to make it up to Mr. Bellavista</i>	<i>Mr. Bellavista’s garden</i>

Remind the students that stories are built around interesting characters and that authors help us get interested in characters by showing us, through the characters’ actions, thoughts, and speech, what the characters are like.

Encourage the students to include characters' actions, thoughts, and speech as they draft fiction stories today. Also remind them to look at the "Notes About Fiction" chart to help them get ideas.

WRITING TIME

3 Draft Fiction Pieces

Ask the students to return to their seats. Display the "Writing Time" chart (📄 WA12) and have the students write silently for 20–30 minutes.

Writing Time

- Work on a story you started earlier.
- Start a new story.
- Continue to think about characters' actions, thoughts, and speech.

WA12

Join the students in writing for a few minutes; then confer with individual students.

TEACHER CONFERENCE NOTE

Continue to confer with individual students as they write fiction drafts. Ask the student to show you a piece of his writing and read some of it aloud to you. Ask questions such as:

- Q *What is this story about?*
- Q *Who [is/are] the character(s)? What is interesting about [him/her/them]?*
- Q *What do you imagine might happen to [him/her/them]?*
- Q *When and where do you imagine this story takes place?*
- Q *What speech or dialogue might you include in this story?*
- Q *What part are you going to work on next?*

Document your observations for each student on a "Conference Notes: Focus 1" record sheet (CN1); see page 67 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

- *Student Writing Handbook* page 15
- “Writing Time” chart (WA13)
- “Class Assessment Record” sheet (CA4)

SHARING AND REFLECTING

4 Briefly Share Writing and Reflect on Attitude

Ask and briefly discuss questions such as the one that follows. Invite the students to read passages of their writing aloud as they share.

Q *What ideas came out of your imagination in your writing today?*

Help the students reflect on their attitudes toward writing by asking:

Q *How did you feel as you wrote today? If you got stuck, what happened? What do you want to try tomorrow to help you in your writing?*

Encourage the students to take a relaxed attitude toward their writing practice as they continue to draft fiction pieces.

In this lesson, the students:

- Explore character, plot, and setting
- Draft fiction
- Cultivate a relaxed attitude toward writing

GETTING READY TO WRITE

1 Review the “Character-plot-setting” Chart

Have the students get out their notebooks, *Student Writing Handbooks*, and pencils and sit at desks with partners together. Review the “Character-plot-setting” chart and remind the students that in a fiction story something happens to someone somewhere in time.

2 Quick-write: Character, Plot, and Setting in a Draft

Remind the students that in Week 2 they completed a “Character-plot-setting” chart for a fiction piece they wrote. Explain that you would like them to complete a “Character-plot-setting” chart for another fiction piece they have written. Have them turn to *Student Writing Handbook* page 15, where a blank “Character-plot-setting” chart is reproduced. Encourage the students to refer to the charted notes, if necessary.

Have the students open their notebooks to the story they chose and complete a “Character-plot-setting” chart for it. After several minutes, signal for their attention. Use “Think, Pair, Share” to discuss:

Q Which of the three elements (character, setting, or plot) might you want to focus on if you continue to add to this story? [pause] Turn to your partner.

Have a few volunteers share their notes and thinking with the class.

Explain that during Writing Time today the students may continue to work on this story or another story they started earlier, or they may start a new story. Remind them that it is perfectly fine to leave drafts incomplete and start new ones. Encourage them to think about character, setting, and plot as they write, and to relax and use their imaginations in their writing today.

WRITING TIME

3 Draft Fiction Pieces

Ask the students to return to their seats. Display the “Writing Time” chart (📄 WA13) and have the students write silently for 20–30 minutes.

Writing Time

- Work on a story you started earlier.
- Start a new story.
- Think about character, setting, and plot.

WA13

Join the students in writing for a few minutes; then walk around and observe, assisting students as needed.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students seem to be writing with a relaxed and free attitude, inspired by their own thoughts?
- If they seem overly cautious or inhibited, do they eventually start writing freely?

Support any student who is still struggling to start after about 10 minutes by asking her questions such as:

Q Who is an interesting person you know who you can make up a story about?

(continues)

Teacher Note

If pairs have difficulty discussing this question, signal for the class’s attention and have partners discuss the following questions, one at a time:

- Q** What might you add to make your character more interesting? Turn to your partner.
- Q** What might you add to make your setting more interesting? Turn to your partner.
- Q** What might you add to make your plot (or what happens) more interesting? Turn to your partner.

CLASS ASSESSMENT NOTE *(continued)*

Q *What makes this person happy? Unhappy?*

Q *Let's say this person feels unhappy because of what you just described. What unusual thing could happen to help him or her feel better?*

Q *When and where do you imagine this story takes place?*

As the student responds to the questions, have her write the responses in her notebook and continue to write what happens.

Record your observations on the "Class Assessment Record" sheet (CA4); see page 57 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Briefly Share Writing and Reflect on Attitude

Ask and briefly discuss questions such as the one that follows. Invite the students to read passages of their writing aloud as they share.

Q *What ideas came out of your imagination in your writing today?*

Help the students reflect on their attitudes toward writing by asking:

Q *How did you feel as you wrote today? If you got stuck, what happened? What do you want to try tomorrow to help you in your writing?*

Encourage the students to take a relaxed attitude toward their writing practice as they continue to draft fiction pieces.

EXTENSION

Discuss the Setting in *The Summer My Father Was Ten*

Explain that good writers show what a setting is like by using sensory details (details that describe what characters might see, smell, taste, feel, or touch). Read aloud page 6 of *The Summer My Father Was Ten*. Have the students visualize the setting as you read. Invite them to share details from the passage that helped them imagine the settings. Point out that describing a setting using sensory details helps a reader imagine it vividly.

In this lesson, the students:

- Explore character, setting, and plot
- Draft fiction
- Express interest in and appreciation for one another's writing
- Ask for and receive feedback about their writing
- Give feedback in a helpful way

Materials

- “Notes About Fiction” chart from Day 4
- “Writing Time” chart (WA14)
- “Questions for My Partner About My Draft” chart from Week 2

GETTING READY TO WRITE

1 Review Character, Setting, and Plot in Stories

Have the students get their notebooks and pencils, and sit at desks with partners together. Remind the students that this week they explored the way character, setting, and plot are developed in three stories: *The Summer My Father Was Ten*, *Just a Dream*, and *The Lotus Seed*. Review that in a fiction story something happens to someone somewhere in time, and that the terms *plot*, *character*, and *setting* are used to describe these features of fiction. Encourage the students to continue to think of ways to develop the characters, setting, and plot in their own stories as they write today. Also remind them to look at the “Notes About Fiction” chart to help them get ideas.

WRITING TIME

2 Draft Fiction Pieces

Display the “Writing Time” chart (WA14) and have the students write silently for 20–30 minutes.

Writing Time

- Work on a story you started earlier.
- Start a new story.
- Continue to think about character, plot, and setting.

WA14

Join the students in writing for a few minutes; then confer with individual students.

Teacher Note

You may want to shorten today's Writing Time to leave more time for the pair conferences in Step 3.

TEACHER CONFERENCE NOTE

Continue to confer with individual students as they write fiction drafts. Ask the student to show you a piece of her writing and read some of it aloud to you. Ask questions such as:

- Q *What is this story about?*
- Q *Who [is/are] the character(s)? What is interesting about [him/her/them]?*
- Q *What do you imagine might happen to [him/her/them]?*
- Q *When and where do you imagine this story takes place?*
- Q *What speech or dialogue might you include in this story?*
- Q *What part are you going to work on next?*

Document your observations for each student on a “Conference Notes: Focus 1” record sheet (CN1); see page 67 of the *Assessment Resource Book*. Beginning next week, the focus of the individual student conferences will change. If you have not met with all of your students to discuss the questions above, you may wish to do so before changing the conference focus.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

3 Confer in Pairs About Fiction Drafts

Explain that partners will now read one of their fiction drafts to the other and confer about both partners’ drafts. If necessary, briefly review the procedure for pair conferring and remind the students that *conferring* means not only reading their writing to each other but talking about it as well.

Direct the students’ attention to the “Questions for My Partner About My Draft” chart. Remind the students that they started this chart earlier in the year, and review the questions on it. Ask:

- Q *What other questions might you want to ask your partner about your draft?*

Students might say:

“I want to ask my partner if he can imagine what’s happening.”

“I want to ask my partner if she can picture the setting.”

“I want to find out whether anything is confusing to my partner.”

Add any new questions to the chart and encourage the students to use the questions in their pair conferences today.

Have partners share their writing. Scan the class, without intervening, providing sufficient time for both partners to share their writing before signaling for their attention.

4 Reflect on Pair Conferences and Writing Attitude

Help partners reflect on their work together by asking:

- Q *What questions did you ask your partner about your story? What did your partner say?*
- Q *What did you do to show interest in your partner's writing?*

Help the students reflect on their attitudes toward writing by asking:

- Q *How did you feel as you wrote today? If you got stuck, what happened? What do you want to try tomorrow to help you in your writing?*

Explain that the students will continue to explore and draft fiction next week.

Teacher Note

If necessary, signal about halfway through sharing time so partners can switch roles, if they have not yet done so.

TEACHER AS WRITER

“Before I write down one word, I have to have the character in mind through and through. I must penetrate into the last wrinkle of his soul . . . down to the last button, how he stands and walks, how he conducts himself, what his voice sounds like. Then I do not let him go until his fate is fulfilled.”

— Henrik Ibsen

Review the characters you have created in your drafts and select one who intrigues you. Write a detailed description of that character. Consider:

- What was this character like as a youngster?
- How does he or she dress?
- What physical movements does he or she do unconsciously?
- What is he or she unusually good or bad at?

Writing Focus

- Students review their fiction drafts, and each selects one to develop, revise, proofread, and publish.
- Students learn about a professional author’s writing process.
- Students analyze their drafts and think of ways to develop characters and plot.
- Students explore transitional words and phrases.
- Students explore endings that bring a story’s events to a close.
- Students confer with one another and the teacher.

Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students help one another improve their writing.
- Students express interest in and appreciation for one another’s writing.
- Students make decisions and solve problems respectfully.

DO AHEAD

- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA5) on page 58 of the *Assessment Resource Book*.
- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA6) on page 59 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, prepare a sheet of chart paper titled “Transitional Words and Phrases.” Add the headings *Connect events in a story* and *Connect ideas in a story*. Under the first heading, list the following: *one time, one day, when, a few days later, yet, from that day on, and then*. Under the second heading, list the following: *but, also, again, besides, especially, particularly, for example, for instance, and in other words*.
- ✓ Prior to Day 3, make a class set of the “Conference Notes: Focus 2” record sheet (CN2) on page 68 of the *Assessment Resource Book*.

(continues)

DO AHEAD *(continued)*

- ✓ Prior to Day 5, create a chart titled “Questions About My Partner’s Draft” with the following questions written on it:

Am I getting to know the character’s personality? How?

Does something interesting or important happen to the character?

Can I follow what is happening in the story? Am I confused at any point?

Are there transitional words and phrases that help me connect events and ideas?

Does the ending bring the story’s events to a close?

- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA7) on page 60 of the *Assessment Resource Book*.

- ✓ (Optional) Prior to Day 2, review the fiction pieces you have written and select a single page to use to model adding details to a draft. Prepare your sample writing to display. Alternatively, you can use the “Sample Fiction Draft” chart (WA17). To learn more, view “Planning a Lesson” (AV33).

In this lesson, the students:

- Learn about a professional author’s writing process
- Review their fiction drafts and each selects one to develop and publish
- Reread their writing critically
- Complete the first drafts of their selected fiction pieces

DEVELOPING AND PUBLISHING FICTION STORIES

In Weeks 4–6 of this unit, each student selects one fiction draft written in the prior three weeks to develop for publication for the class library. Each student takes this piece through guided analysis (in which you help look for specific ways to improve their stories) and revision, writing a second draft before publication. The students learn important writing skills and conventions as they proofread their drafts.

While students usually select pieces that are appropriate for class publication, you may occasionally have students who want to publish pieces containing content you feel is questionable (such as excessive violence or inappropriate language). Work with these students individually to help them understand that they may write about whatever they wish in their notebooks, but they should select pieces for publication that everyone will want to read and that will be appropriate for the class library.

GETTING READY TO WRITE

1 Introduce the Writing Focus for the Coming Three Weeks

Gather the class with partners sitting together, facing you. Remind them that over the past three weeks they have been drafting fiction pieces. Explain that today they will review their drafts, and each will select one piece to develop into a published story for the classroom library.

Remind the students that so far this year they have learned about several professional authors and how they devote a lot of time to rethinking, revising, and improving their writing. Explain that today the students will learn about another professional author’s writing process before they begin their work.

Materials

- “About Chris Van Allsburg” (page 289)
- *Just a Dream* from Week 3
- *The Sweetest Fig* from Week 3
- *The Wreck of the Zephyr* from Week 3
- “Writing Time” chart (WA15)
- “Class Assessment Record” sheet (CA5)

2 Learn About Chris Van Allsburg

Remind the students that they have heard three stories by Chris Van Allsburg: *The Wreck of the Zephyr*, *The Sweetest Fig*, and *Just a Dream*. Ask and briefly discuss:

Q *Based on his stories, what kind of person do you think Chris Van Allsburg might be? Why?*

Explain that you will read an excerpt from Chris Van Allsburg's website. Read "About Chris Van Allsburg" on page 289 aloud slowly and clearly.

ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

kennel: place that takes care of dogs when their owners are away

acutely: very

deficiencies: weaknesses

Facilitation Tip

Continue to focus on **pacing class discussions** by scanning the class and using techniques such as the following:

- Call on just a few students to respond to each question.
- Use "Turn to Your Partner" if many students want to speak. Then call on just two or three students to share with the whole class.
- Restate the question if the discussion strays from the original topic.
- Ask pairs to discuss whether they agree or disagree with what a classmate has just said.
- Use wait-time before calling on anyone to respond.

Ask and briefly discuss:

Q *What did you find out about Chris Van Allsburg?*

Q *Chris Van Allsburg says that even when he is writing about "strange and incredible events," he tries to convince the reader that the events could actually happen by using real people as models for the characters. How might that help make his stories more real?*

Q *Does he seem like an author who is easily satisfied with his work? Why or why not?*

Students might say:

"I found out why Chris Van Allsburg puts Fritz into all his books."

"By drawing people in a way that makes them look real, he makes it easier to believe that the strange events are real, too."

"I think he is satisfied. He won a Caldecott Medal."

"I disagree with [Lanie]. I think he's not easily satisfied because he says he wishes he could do everything over again."

Point out that it takes Chris Van Allsburg seven to nine months to make a book and that he writes and rewrites the story before he starts the final illustrations. Explain that, like him, the students will decide on a story to make into a book and begin rewriting it today.

3 Prepare to Review Fiction Drafts

Explain that during Writing Time the students will reread all their fiction drafts and each select one to revise and publish as a book. The drafts they select can be pieces they have started but not finished.

Encourage them to choose pieces that they can imagine making changes to and that they think their classmates will enjoy. Ask:

Q *As you're looking through your drafts, what might you want to look for to help you decide on one to develop?*

Students might say:

"I want to look for a draft that I really like or have some strong feelings about."

"I will look for drafts that have characters I like."

"I want my story to be different from everyone else's, so I'm going to look for a draft that is unique."

4 Reread Drafts and Select One to Develop

Have the students return to their seats, reread all their fiction drafts, and each select one to develop and publish. Students who select drafts before the time is up can start thinking about what they can add, change, or improve.

As the students review their drafts, circulate around the room and support them by asking questions such as:

Q *Why did you choose this piece to revise?*

Q *What can you imagine adding or changing in this piece to make it more interesting?*

If you notice any students selecting pieces with limited potential for revision (for example, pieces they feel are already "perfect," very long or very short pieces, or pieces that are not double-spaced), gently guide them toward more workable pieces.

WRITING TIME

5 Complete First Drafts of Selected Pieces

Display the "Writing Time" chart (🗨️ WA15) and have the students write silently for 20–30 minutes.

Writing Time

- Finish writing your draft.
- Think about characters' actions, thoughts, and speech.
- Think about plot and setting.

WA15

Join the students in writing for 5–10 minutes, and then circulate around the room and observe, assisting students as needed.

Teacher Note

If a student wants to publish a piece that is already very long, encourage him to identify one section of it to develop and publish for the class library. He may continue to work on other parts of the story on his own at another time.

CLASS ASSESSMENT NOTE

Observe the students as they work on their drafts. Ask yourself:

- Have the students selected drafts that lend themselves to revision?
- Will the students have finished drafts that they can start revising tomorrow?

If you notice that many students need more time to complete their drafts, make time for them to do so before going on to the Day 2 lesson. Any student who has finished may work on another piece of writing.

Record your observations on the “Class Assessment Record” sheet (CA5); see page 58 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

6 Reflect on Writing

Help the students reflect on their work today by asking:

- Q *What draft did you choose to revise?*
- Q *Why did you choose that piece to revise?*

Explain that the students will begin revising their drafts tomorrow.

Teacher Note

An in-depth interview with Chris Van Allsburg is available on Center for the Collaborative Classroom’s website (collaborativeclassroom.org/chris-van-allsburg). The interview uses sophisticated vocabulary aimed at an adult readership. You might read it to gain background knowledge about Van Allsburg and choose passages from it to share with your students.

Technology Tip

For more information about using web-based resources, view the “Using Web-based Teaching Resources” tutorial (AV75).

TECHNOLOGY EXTENSION

Watch or Read an Interview with Chris Van Allsburg

Chris Van Allsburg, the author of *Just a Dream*, has written and illustrated many books for children. To learn more about the author and his work, have the students watch a video of him speaking about his writing or read another interview with him. To find a video or print interview with the author, search online with his name and the keyword “video” or “interview.” After the students watch the video or read the interview, have them discuss what they learned about the author’s life and his thoughts about writing.

In this lesson, the students:

- Reread their writing critically
- Mark places in their drafts where characters are revealed through actions, thoughts, or speech
- Begin revising their drafts
- Reflect on creativity in their own writing

GETTING READY TO WRITE

1 Facilitate Guided Rereading of Drafts

Have the students stay at their seats today. Ask them to open their notebooks to the fiction draft they each selected yesterday. Explain that today you will help them think about how they might revise and improve their drafts in preparation for publishing them. Ask the students to reread their drafts quietly and look up when they are finished.

Distribute a pad of self-stick notes to each student. Explain that you will ask the students to look for and think about several specific things in their drafts.

Display the “Revising to Develop Characters” chart (WA16) and read the prompts aloud, one at a time, giving the students several quiet minutes after each prompt to review their drafts and mark passages with the self-stick notes.

Revising to Develop Characters

- How does your main character act? Find a place in your draft where you describe, or could describe, your main character’s actions. Mark the margin next to that place with a self-stick note and write *actions* on it.
- What does your main character say or think? Find a place in your draft where you describe, or could describe, your character’s speech or thoughts. Mark the margin next to that place with a self-stick note and write *speech* or *thoughts* on it.

WA16

Materials

- Pad of small (1½" x 2") self-stick notes for each student
- “Revising to Develop Characters” chart (WA16)
- Your sample writing OR the “Sample Fiction Draft” chart (WA17)
- “Writing Time” chart (WA18)
- “Class Assessment Record” sheet (CA6)

Teacher Note

The purpose of the guided rereading is to give the students experience reading their drafts critically *before* they begin to revise.

Teacher Note

Plan to have pads of self-stick notes available for the students to use during the revision phase of each genre unit. If necessary, model attaching a self-stick note to the outer margin of a notebook page so it marks the text without covering it up.

Teacher Note

You might review that speech between characters is called *dialogue*.

2 Model Revising to Develop Characters

Without sharing as a class, explain that during Writing Time today the students will look at the places they marked with self-stick notes and revise those places. Explain that they will each incorporate their revisions into a second draft next week.

Display your own writing or the “Sample Fiction Draft” chart (🗨️ WA17) and read it aloud. If you are using your own writing, begin by writing *actions* in the margin next to a place where you could describe your main character’s actions, and *thoughts* or *speech* next to a place where you could add your character’s thoughts or speech. Ask the students to watch as you model adding information about a character. Think aloud about a place you want to revise. Model using a caret (arrow) to insert new text and crossing out text to delete.

You might say:

“I want to add some information about why Bernard likes to chew gum. I will delete ‘from chewing gum’ and add a new sentence: *He figured that if some of the best baseball players in the world could chew gum, so could he.*”

WA17

Sample Fiction Draft

On Bernard’s birthday, he did not wish for toys, books, or games, like other kids. He wished for gum. Bernard loved to chew gum more than anything in the world.

“Bernard, you must stop chewing so much gum,” his parents said.

“Why?”

“Because your teeth will all rot and fall out.”

“Because,” added his sister, Pearl, “it’s disgusting.”

He figured that if some of the best baseball players in the world could chew gum, so could he. But this did not stop Bernard ~~from chewing gum.~~ *thoughts actions*

Using the same procedure, model one or two more examples of adding actions, thoughts, or speech to your draft. Explain that the students will follow the same procedure to revise their own drafts today.

WRITING TIME

3 Revise First Drafts

Display the “Writing Time” chart (🗨️ WA18) and have the students work silently on the charted tasks for 20–30 minutes.

Teacher Note

Save the revised “Sample Fiction Draft” chart to use on Day 3.

Writing Time

- Add actions, thoughts, and speech to your draft to tell about your character.
- Remove the self-stick note when you finish revising.
- If you finish, work on another piece of writing.

Join the students in writing for a few minutes; then walk around the class and observe, assisting students as needed.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students seem engaged in thinking of ways to develop their drafts?
- Are they focusing on developing their characters?
- Do they have ideas for actions, speech, and thoughts they could write to reveal character?

Support any student who is having difficulty by asking her questions such as:

- Q *What were you thinking about when you marked this place on your draft?*
- Q *What kind of personality does your character have?*
- Q *What could your character do or say at this point to show his or her personality?*

Record your observations on the “Class Assessment Record” sheet (CA6); see page 59 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over. Explain that they will continue to work on their drafts tomorrow.

SHARING AND REFLECTING

4 Reflect on Writing and Creativity

Help the students reflect on their work by asking questions such as:

- Q *What ideas did you have for describing your character today?*
- Q *What ideas did you have that you feel were creative or original today? Tell us about them.*

Remind the students how important it is to use their imaginations, both while writing drafts and during revision. Encourage them to strive to make their stories as creative and interesting as they can.

Day 3

Analyzing and Revising Drafts

Materials

- “Transitional Words and Phrases” chart, prepared ahead
- “Notes About Fiction” chart from Week 3
- “Revising for Plot” chart (WA19)
- Your revised sample writing OR revised “Sample Fiction Draft” chart (WA17) from Day 2
- “Writing Time” chart (WA20)
- Class set of “Conference Notes: Focus 2” record sheets (CN2)

TEKS 11.B.ii
TEKS 11.B.vii
TEKS 11.B.xii
Student/Teacher Narrative
Step 2

In this lesson, the students:

- Reread their writing critically
- Explore transitional words and phrases
- Mark places in their drafts where they can add to the plot
- Revise their drafts
- Reflect on creativity in their own writing

GETTING READY TO WRITE

1 Briefly Review Purpose of Revision

Have the students stay at their desks today. Ask them to take out their notebooks and pencils and to open their notebooks to the stories they are developing. Review that they began to analyze and revise their drafts yesterday. Remind them that the purpose of revision is to make their stories as interesting and readable as possible before they publish them for their classmates.

Explain that today you will ask them to think about ways they might strengthen the plots (what happens) in their drafts.

2 Explore Transitional Words and Phrases

Explain that one way the students might make their plots clearer and easier to follow is by adding *transitional words and phrases*. Explain that these are words and phrases that help readers connect events and ideas in a story. Direct the students’ attention to the “Transitional Words and Phrases” chart. Read aloud the words and phrases listed under the heading *Connect events in a story*. Ask:

Q *What other transitional words and phrases might you use in a story to help readers connect events?*

Add the students’ ideas to the chart. Then explain that other transitional words and phrases help readers connect ideas in a story. Read aloud the words and phrases under the heading *Connect ideas in a story*. Ask:

Q *What other transitional words and phrases might you use in a story to help readers connect ideas?*

Add the students’ ideas to the chart.

Direct the students' attention to the "Notes About Fiction" chart and add *transitional words and phrases help the reader connect ideas or events* to the chart.

3 Continue Guided Rereading of Drafts

Have the students quietly reread their drafts and look up when they are finished. Have them get out their self-stick notes, and explain that you will ask them to look for and think about several specific things in their drafts.

Display the "Revising for Plot" chart (📄 WA19) and read the prompts aloud one at a time, giving the students several quiet minutes after each prompt to review their drafts and mark passages with the self-stick notes.

Revising for Plot

- Find a place where you use, or could use, a transitional word or phrase to help readers connect events. Put a self-stick note in the margin next to that place and write *connect events* on it.
- Find a place where you use, or could use, a transitional word or phrase to help readers connect ideas. Put a self-stick note in the margin next to that place and write *connect ideas* on it.
- Find the place in your draft where the most interesting or important thing happens, or could happen, to your character. Mark the margin next to that place with a self-stick note and write *most important* on it.
- Will your readers be able to follow what happens from the beginning to the end of your story? If you think a place might be confusing, mark the margin next to that place with a self-stick note and write *confusing* on it.

WA19

4 Model Revising to Develop the Plot

Without sharing as a class explain that, as they did yesterday, the students will look at the places they marked with self-stick notes and make revisions to their stories. Remind them that they will incorporate these revisions into a second draft next week.

Display your own writing or the "Sample Fiction Draft" chart (📄 WA17) and read it aloud. If you are using your own writing, begin by writing *connect events* or *connect ideas* in the margin next to a place where you could add a transitional word or phrase, *most important* in the margin next to the most interesting or important thing that happens to your main character, and *confusing* next to a place that might confuse your reader.

Teacher Note

For more transitional words and phrases, you might search online using the keywords "transitional words and phrases."

Ask the students to watch as you model revising to make your plot (what happens in your story) as interesting as possible. Model adding and, if necessary, deleting text.

You might say:

"I could add a transition to make the story easier to follow. I will add: *As they were sailing back to shore.* I think that will help readers understand when the boat hits the rock. Maybe I could add another sentence to build the story's excitement just before it gets to the most important part. I will add: *She pointed to a big blue fin circling the boat. 'Is that a shark?' she gasped.* Finally, I don't want to include anything that will confuse readers, so I'm going to cross out 'Bernard suddenly noticed that his jaw felt sore.'"

WA17

most
important

As they were sailing back to shore,

^ The family heard a horrible, crunching sound.

"What was that?" cried Bernard's mother.

"We've hit a rock," his father replied. "It's ripped a hole in the boat."

Water began sloshing into the boat around their feet.

She pointed to a big blue fin circling the boat. "Is that a shark?" she gasped.

"We're sinking!" screamed Pearl.

Bernard calmly removed a golf ball-sized wad of gum from his mouth. What a waste, he thought, a perfectly good piece of gum that even had some flavor left in it.

He stuffed the gum into the hole, and immediately the water stopped pouring in. ~~Bernard suddenly noticed that his jaw felt sore.~~

confusing

"Bernard saves the day!" his parents cried, throwing their arms around him. Even Pearl hugged him.

Using this same procedure, model one or two more examples of adding transitional words or phrases and adding to the plot. Explain that the students will follow the same procedure to revise their own drafts today.

WRITING TIME

5 Continue Revising Drafts

Display the "Writing Time" chart (WA20) and have the students work silently on the charted tasks for 20–30 minutes.

Writing Time

- Add transitional words and phrases to help readers connect events and ideas.
- Add information about what happens to make your plot more interesting.
- Remove the self-stick notes as you finish revising.
- If you finish, work on another piece of writing.

Join the students in writing for a few minutes; then begin conferring with individual students about the pieces they are developing for publication.

 Step 5

TEACHER CONFERENCE NOTE

Over the next two weeks, confer again with individual students, this time talking with them about the piece each is developing for publication. Ask the student to tell you about the part she is working on now and to read some of her writing aloud to you. As you listen, consider:

- Does this student’s story have a character with distinct traits that are shown through action, speech, or thought?
- Does something interesting or important happen to the character?
- Does the story make sense? Is it easy to follow what is happening, when, and to whom?
- Does the student use transitional words and phrases?

Support the student in integrating the elements of fiction by asking questions such as:

- Q *What kind of personality does your main character have?*
- Q *What actions, thoughts, or speech [have you added/could you add] to show who the character is?*
- Q *What interesting or important thing happens to your character?*
- Q *What transitional words and phrases [did/could] you use to help connect events or ideas?*

Document your observations for each student on a “Conference Notes: Focus 2” record sheet (CN2); see page 68 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

Day 4

Analyzing and Revising Drafts

Materials

- *Student Writing Handbook* page 17
- “Closing Sentences from Three Stories” chart (WA21)
- “Notes About Fiction” chart from Day 3
- “Writing Time” chart (WA22)

SHARING AND REFLECTING

6 Reflect on Writing and Creativity

Help the students reflect on their work during Writing Time today by asking:

- Q *How did you add to or revise the events in your story to make the plot more interesting?*
- Q *What ideas did you have that you feel were creative or original today? Tell us about them.*

Explain that the students will continue revising their stories tomorrow.

In this lesson, the students:

- Explore endings that bring a story’s events to a close
- Reread their writing critically
- Revise their drafts
- Express interest in one another’s writing

GETTING READY TO WRITE

1 Analyze Closing Sentences

Have the students get out their notebooks, *Student Writing Handbooks*, and pencils, and sit at desks with partners together. Review that they began to analyze and revise their drafts yesterday. Remind them that the purpose of revision is to make their pieces as interesting and readable as possible before they publish them for their classmates. Explain that today you will ask them to think about an important feature of all narratives: endings that bring a story’s events to a close.

Point out that the closing sentences of a piece of writing need to wrap up the piece. Explain that you will read the closing sentences from some stories they heard earlier and ask them to think as they listen about how the authors bring each story’s events to a close.

Have the students open their *Student Writing Handbooks* to page 17, where the closing sentences are reproduced. At the same time, display the “Closing Sentences from Three Stories” chart (WA21). Together, read the first passage, from *The Summer My Father Was Ten*, and ask:

- Q *What does the author do to wrap up this story?*
- Q *What words or phrases show you that the story has reached an end?*

Students might say:

"It returns to the beginning of the story. It repeats the description of the garden."

"I agree with [Jorge]. The author brings you back to the beginning by repeating the words *the summer my father was ten*."

"In addition to what [Sharon and Jorge] said, when you go back to the beginning, it feels satisfying. It feels like you've completed a circle."

As volunteers respond, underline the words and phrases they mention on the chart.

Have the students work in pairs to read the remaining closing sentences and underline words and sentences that they feel are especially effective at wrapping up the pieces.

After several minutes, signal for the students' attention. Ask volunteers to report what they talked about for each of the closings, and underline words and phrases they mention on the chart. As they report, ask:

Q *How does that [word/sentence] help wrap up the story?*

2 Review Closing Sentences in Drafts

Direct the students' attention to the "Notes About Fiction" chart and add *an ending brings the story's events to a close*. Have the students reread the last few sentences of their own fiction drafts. Ask and have the students think to themselves about:

Q *How might you revise your closing sentences to wrap up your story?*

Without discussion as a class, explain that the students will revise their closing sentences today.

WRITING TIME

3 Revise Closing Sentences

Display the "Writing Time" chart (WA22) and have the students write silently for 20–30 minutes.

Writing Time

- Revise your closing sentences to end your story in a satisfying way.
- Make any other revisions or additions so your piece is complete and as interesting as it can be.
- If you finish, work on another piece of writing.

WA22

Join the students in writing for a few minutes; then confer with individual students.

Teacher Note

Words or phrases the students might report include:

- "the trees he and Rose had planted so many years ago" (from *Just a Dream*)
- "and tell them about the day my grandmother saw the emperor cry" (from *The Lotus Seed*)

TEACHER CONFERENCE NOTE

Continue to confer with individual students about the piece each is developing for publication. Ask the student to tell you about the part he is working on now and to read some of his writing aloud to you. As you listen, consider:

- Does this student’s story have a character with distinct traits that are shown through action, speech, or thought?
- Does something interesting or important happen to the character?
- Does the story make sense? Is it easy to follow what is happening, when, and to whom?
- Does the student use transitional words and phrases?
- Does the ending bring the story’s events to a close?

Support the student in integrating the elements of fiction by asking questions such as:

- Q *What kind of personality does your main character have?*
- Q *What actions, thoughts, or speech [have you added/could you add] to show who the character is?*
- Q *What interesting or important thing happens to your character?*
- Q *What transitional words and phrases [did/could] you use to help connect events or ideas?*
- Q *What [did/could] you write to bring the story to a close?*

Document your observations for each student on a “Conference Notes: Focus 2” record sheet (CN2); see page 68 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Share Closing Sentences as a Class

Have a few volunteers share the closing sentences of their fiction stories. As students share, encourage discussion by asking the class questions such as those that follow. Be ready to ask the volunteers to reread what they shared, if necessary.

- Q *What words did you hear in [Leora’s] closing sentence(s) that wrapped up the piece for you?*
- Q *What ideas, if any, does this give you for your own closing sentences?*

Explain that partners will confer about their stories tomorrow.

In this lesson, the students:

- Ask for and receive feedback about their writing
- Give feedback in a helpful way
- Ask one another questions about their writing
- Anticipate and solve problems that arise in their work together
- Share their partners' thinking with the class

GETTING READY TO WRITE

1 Prepare for Pair Conferences

Have the students bring their notebooks and pencils, and gather with partners sitting together, facing you. Explain that today partners will meet to confer about their drafts. Remind the students that in the writing community, the goal of giving feedback is to help each person create the best possible piece of writing. Ask and briefly discuss:

- Q *What have you learned about giving feedback respectfully?*
- Q *What problems can arise when you are conferring with a partner? How will you avoid those problems today?*

2 Prepare to Give Feedback About Character and Plot

Tell the students that during pair conference time today, partners will read and tell each other about their stories, including their revisions, and receive feedback about character and plot.

Explain that, as the students listen to their partners' stories, you would like them to ask themselves five questions. Direct the students' attention to the "Questions About My Partner's Draft" chart and read the questions aloud. Then project your revised writing from Day 3 or the revised "Sample Fiction Draft" chart (WA17) and read it aloud, along with any revisions. Use "Think, Pair, Share" to have the students discuss your draft using the charted questions.

After a few moments, signal for the students' attention and have a few volunteers give you feedback about your draft using the five questions.

3 Confer in Pairs

Encourage partners to listen carefully to each other and be ready to report to the class what each other said.

Give the students ample time to confer in pairs.

Materials

- "Questions About My Partner's Draft" chart, prepared ahead
- Your revised sample writing OR revised "Sample Fiction Draft" chart (WA17) from Day 3
- "Class Assessment Record" sheet (CA7)
- "Writing Time" chart (WA23)

CLASS ASSESSMENT NOTE

Circulate among conferring pairs and observe without intervening. Ask yourself:

- Are pairs staying on task, reading and discussing their writing?
- Are they giving each other specific feedback about the questions related to character development and plot?
- Are they giving feedback in a helpful way?

Note any difficulties you observe to discuss with the students during the reflection discussion.

Record your observations on the “Class Assessment Record” sheet (CA7); see page 60 of the *Assessment Resource Book*.

When most pairs have had time to discuss their drafts, call for the class’s attention.

4 Reflect on Feedback

Gather the class and briefly discuss:

- Q *What was helpful about the way your partner talked to you today?*
- Q *What problems, if any, did you have during pair conferences? What will you do to avoid those problems next time?*

Share any problems you noticed and discuss what the students will do to avoid those problems next time. Ask:

- Q *What is one thing your partner told you about your piece?*

Remind the students that authors pay close attention to feedback about what is unclear or confusing in their writing. Although authors might not follow every suggestion they receive, the feedback helps them improve their work until it is the best piece of writing possible.

Explain that during Writing Time today the students will revise their drafts based on their partners’ feedback.

WRITING TIME

5 Revise Drafts Based on Conference Feedback

Ask the students to return to their seats. Display the “Writing Time” chart (WA23) and have the students work silently on the charted tasks for 20–30 minutes.

Writing Time

- Revise your draft based on partner feedback.
- Finish writing and revising your story.
- If you finish, work on another piece of writing.

During Writing Time, confer with individual students about their writing.

TEACHER CONFERENCE NOTE

Continue to confer with individual students about the piece each is developing for publication. Ask the student to tell you about the part she is working on now and to read some of her writing aloud to you. As you listen, consider:

- Does this student's story have a character with distinct traits that are shown through action, speech, or thought?
- Does something interesting or important happen to the character?
- Does the story make sense? Is it easy to follow what is happening, when, and to whom?
- Does the student use transitional words and phrases?
- Does the ending bring the story's events to a close?

Support the student in integrating the elements of fiction by asking questions such as:

- Q *What kind of personality does your main character have?*
- Q *What actions, thoughts, or speech [have you added/could you add] to show who the character is?*
- Q *What interesting or important thing happens to your character?*
- Q *What transitional words and phrases [did/could] you use to help connect events or ideas?*
- Q *What [did/could] you write to bring the story to a close?*

Document your observations for each student on a "Conference Notes: Focus 2" record sheet (CN2); see page 68 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

6 Reflect on Writing

Help the students reflect on their work today by briefly discussing:

Q *What feedback from your partner did you incorporate into your revision today? Tell us about it.*

Explain that the students will start writing a second draft of their story in the coming week.

About Chris Van Allsburg

excerpted from chrisvanallsburg.com

Where do you get your ideas?

The ideas for my books come to me in different ways. For instance, I once was standing in my kitchen one morning, and saw two ants on the counter top. I believed the ants came from my back yard, and began to wonder what a trip from the back yard to my kitchen would be like for an ant. That started me thinking about a story of two ants and their unusual journey into a house. The story became, *Two Bad Ants*. . . . Ideas for stories are all around.

What does it take to write and illustrate a book?

It takes me between 7 and 9 months to write the story and make the pictures that become a book. The picture making part takes much longer than the writing part. In almost every case, the original pictures I make are much larger than they appear in the finished books.

How do you make your pictures look so real?

The kind of stories I write are mostly fantasies. When a story is about strange and incredible events, I think it's important that the pictures convince the reader that the events described actually could happen. That is why I try to make my pictures look real. I do this by using real people as models of the characters in my books and by . . . [making] the places shown in the pictures appear as if they really exist.

Why do you put that little white dog in all of your books? Do you have a dog like that?

The first story that I wrote, *The Garden of Abdul Gasazi*, had a dog in it named Fritz. When I thought about the kind of dog I wanted Fritz to be, I decided he should be a bull terrier. Unfortunately, I didn't know any bull terriers that could be my model for drawing pictures. I found some photographs, but they were not what I needed. What I needed was a real dog. . . . Not long after that,

About Chris Van Allsburg

(continued)

[my brother-in-law] acquired a bull terrier puppy, and named him Winston. Winston became the model for Fritz, and because he was my brother-in-law's dog, I thought of Winston as a kind of nephew. Sadly, Winston had an accident that sent him to the big dog kennel in the sky at a young age. I decided to commemorate the contribution he made to my first book by including him (or at least a tiny part of him) in all of my books.

In his Caldecott Medal acceptance speech, Chris Van Allsburg says:

An award does not change the quality of a book. I'm acutely aware of the deficiencies in all of my work. I sometimes think I'd like to do over everything I've ever done and get it right. But I know that a few years later I'd want to do everything over a third time.

This award carries with it a kind of wisdom for someone like me. It suggests that the success of art is not dependent on its nearness to perfection but its power to communicate. Things can be right without being perfect.

Week 5

OVERVIEW

Writing Focus

- Students analyze their drafts and think of ways to develop the setting.
- Students develop second drafts of their stories, integrating revisions.
- Students explore prepositions and prepositional phrases.
- Students explore first- and third-person points of view.
- Students confer with one another and the teacher.

Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students help one another improve their writing.
- Students make decisions and solve problems respectfully.

DO AHEAD

- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA8) on page 61 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, create a chart titled “Sentences Using Prepositions and Prepositional Phrases” with the following sentences written on it:
The cat ate its dinner under the table.
Under the table, the cat ate its dinner.
The cat, under the table, ate its dinner.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA9) on page 62 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, create a chart titled “Self-assessment Questions” with the following questions written on it:
In the story, does something interesting happen to someone somewhere in time?
Does the main character act, think, and speak in a way that shows what he or she is like?
Are there transitional words and phrases that help connect events and ideas?
Does every sentence of the story make sense?
Does the ending bring the story’s events to a close?
- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA10) on page 63 of the *Assessment Resource Book*.
- ✓ (Optional) If computers are available, you might have some students type and print out their drafts. You can also recruit parent volunteers to help the students do so. In addition, you might teach Technology Mini-lesson 10, “Creating Presentations,” in Appendix A , to help the students learn how to incorporate visuals into their stories.

TEACHER AS WRITER

“The plot is the line on which I hang the wash, and the wash is what I care about.”

— Robert B. Parker

Reread the description of the character you wrote in Week 4. Explore plot this week by having something interesting, important, or challenging happen to your character. Describe what happens to the character before and after the event. Consider:

- What makes the experience interesting, important, or challenging to your character?
- What is this character like before the situation? After?
- What does the character learn by going through this experience?

Day 1

Analyzing and Revising Drafts

Materials

- “Revising for Setting” chart (WA24)
- Your revised sample writing OR revised “Sample Fiction Draft” chart (WA17) from Week 4
- “Writing Time” chart (WA25)

In this lesson, the students:

- Reread their writing critically
- Mark places in their drafts to develop setting and descriptive language
- Review their drafts
- Reflect on creativity in their own writing

GETTING READY TO WRITE

1 Discuss Setting in Fiction

Have the students remain at their desks and ask them to get out their notebooks and pencils. Explain that today they will finish revising their fiction stories by thinking more about the setting of the story. Tomorrow they will begin writing the second drafts of their stories, incorporating all their revisions.

If necessary, remind the students that the *setting* of a story is the place and time in which the story occurs. Ask the students to think quietly for a moment about where and when their stories occur.

2 Continue Guided Rereading of Drafts

Have the students quietly reread their drafts and look up when they are finished. Have them get out their self-stick notes and explain that you will ask them to look for and think about several specific things in their drafts.

Display the “Revising for Setting” chart (WA24) and read the prompts aloud, one at a time, giving the students several quiet minutes after each prompt to review their drafts and mark passages with the self-stick notes.

Revising for Setting

- Where and when does your story take place? Find a place in your draft where you describe, or could describe, the setting. Put a self-stick note in the margin next to that place and write *setting* on it.
- What might someone see or hear in your setting? Find places where you could add words to describe how it looks or sounds. Put a self-stick note in the margin next to that place and write *look* or *sound* on it.
- What might someone smell or feel in your setting? Find places where you could add words to describe how it smells or feels. Put a self-stick note in the margin next to that place and write *smell* or *feel* on it.

3 Model Revising to Develop the Setting

Without sharing as a class, explain that, as they did last week, the students will look at the places in their drafts that they marked with self-stick notes and make revisions to their stories. They will revise directly on their first drafts, writing on self-stick notes if they run out of room on the paper. Remind them that they will incorporate these revisions into their second drafts.

Display your own writing or the “Sample Fiction Draft” chart (WA17) and read it aloud. If you are using your own writing, begin by writing *setting* in the margin next to a place where you describe, or could describe, the setting; *look* or *sound* next to a place where you describe, or could describe, the look or sound of something; and *smell* or *feel* next to a place where you describe, or could describe, the smell or feel of something. Ask the students to watch as you model revising to more clearly describe the setting. Model adding text using a caret and, if necessary, deleting text.

You might say:

“I want to add a description about where Bernard and his family go sailing. I’ll add: *along the rocky coast where seals sunbathe*. Now my sentence is: *Bernard and his family went sailing along the rocky coast where seals sunbathe*. I also want to add some details to help readers see and feel what Bernard sees and feels. After the phrase ‘by evening,’ I’ll add the phrase: *when the sky turned pink and the breeze grew cold*.”

WRITING TIME

4 Revise to Develop the Setting

Display the “Writing Time” chart (WA25) and have the students write silently for 20–30 minutes.

Writing Time

- Revise your draft to make the setting come to life using sensory details.
- Make any other revisions or additions so your piece is complete and as interesting as it can be.
- If you finish, work on another piece of writing.

WA25

During Writing Time, confer with individual students about their writing.

TEACHER CONFERENCE NOTE

Continue to confer with individual students about the piece each is developing for publication. Ask the student to tell you about the part she is working on now and to read some of her writing aloud to you. As you listen, consider:

- Does this student’s story have a character with distinct traits that are shown through action, speech, or thought?
- Does something interesting or important happen to the character?
- Does the story make sense? Is it easy to follow what is happening, when, and to whom?
- Does the student use transitional words and phrases?
- Does the ending bring the story’s events to a close?
- Does the student use sensory details to convey the setting?

(continues)

TEACHER CONFERENCE NOTE *(continued)*

Support the student in integrating the elements of fiction by asking questions such as:

- Q *What kind of personality does your main character have?*
- Q *What actions, thoughts, or speech [have you added/could you add] to show who the character is?*
- Q *What interesting or important thing happens to your character?*
- Q *What transitional words and phrases [did/could] you use to help connect events or ideas?*
- Q *What [did/could] you write to bring the story to a close?*
- Q *When and where does the story take place? What descriptive words can you use to tell the reader how the place looks, feels, sounds, or smells?*

Document your observations for each student on a “Conference Notes: Focus 2” record sheet (CN2); see page 68 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Reflect on Writing and Creativity

Help the students reflect on their work by asking:

- Q *What ideas did you have for describing your setting today?*
- Q *What ideas did you have that you feel are creative or original? Tell us about them.*

Remind the students that it is important to use their imaginations, both when writing drafts and during revision. Help the students reflect on their participation in this discussion by asking:

- Q *What did you do during sharing time today to show you were interested in what your classmates said?*

Remind the students that they will begin to work on their second drafts tomorrow.

ELL Note

Questions like this help to create a sense of community that benefits everyone. English Language Learners in particular rely on having a supportive environment in which they can take the risks necessary to grow academically, socially, and ethically. For more information, view “Building a Community of Writers” (AV1).

Materials

- Your revised sample writing OR revised “Sample Fiction Draft” chart (WA17) from Day 1
- Two pieces of chart paper (one with lines) and a marker
- Loose, lined paper for second drafts
- “Class Assessment Record” sheet (CA8)

In this lesson, the students:

- Generate ideas for improvements to make while writing second drafts
- Begin writing second drafts

WRITING SECOND DRAFTS

Over the next several days, the students write second drafts of their stories. In the process, they explore first- and third-person points of view, incorporate prepositions and prepositional phrases, learn how to punctuate speech, and correct run-on sentences.

It is important that the students understand that a second draft is an improved, more interesting, and more complete version of the first draft. If you observe students who are copying their first drafts without making further revisions, work with these students individually to help them identify ways to revise and improve their writing.

GETTING READY TO WRITE

1 Prepare to Write Second Drafts

Have the students get their notebooks and pencils and sit at desks with partners together. Tell the students that during Writing Time they will make revisions to the places they marked with self-stick notes and then begin writing their second drafts on loose, lined paper. Explain that they will write on every other line, because this will give them space to make corrections as they get ready to write a final version later on.

Point out that a second draft should be an improved, more interesting, and more complete version of the story they began in their first draft. If the students find themselves copying their first draft onto the lined paper without any revisions, they are probably not writing true second drafts and should ask for help.

2 Model Beginning to Write a Second Draft

Ask the students to watch as you model beginning to write a second draft. Display your own writing or the “Sample Fiction Draft” chart (WA17). Read the first sentence aloud and model writing that sentence, with revisions, on every other line of the lined chart paper. Repeat this process until you have modeled incorporating several revisions into your second draft.

You might say:

"I think my first and second sentences are fine as they are, so I'll copy them exactly as they appear in my first draft. In my third sentence, I want to replace the words 'anything in the world.' Instead, I'll write: *puppies love to chew socks and cows love to chew their cuds*. I'll add those words as I recopy the sentence. The next sentence seems strong as it is, but I want to add some detail to the dialogue. I'll describe the way Bernard answers his parents. I'm going to add: *he asked between chomps*."

Second Draft

On Bernard's birthday, he did not wish for

toys, books, or games, like other kids. He

wished for gum. Bernard loved to chew gum

more than puppies love to chew socks and

cows love to chew their cuds.

"Bernard, you must stop chewing so much

gum," his parents said.

"Why?" he asked between chomps.

After you have written several sentences, ask:

- Q** *What kinds of changes did you notice I made as I started writing my second draft?*

As the students respond, write their observations on a sheet of chart paper titled “Things We Can Revise in Our Second Drafts.” Use “Think, Pair, Share” to discuss:

Q *What other kinds of changes might you make while writing your second draft? [pause] Turn to your partner.*

Have volunteers share their thinking.

Students might say:

“You made it funnier by adding the part about puppies and cows.”

“In addition to what [Jared] said, you added a detail about how Bernard answered his parents.”

“We can look for other places where we can add transition words.”

“We can make sure we show what the characters think and feel.”

Add the students’ ideas to the chart. Encourage the students to refer to the chart while they are working on their second drafts.

WRITING TIME

3 Begin Writing Second Drafts

Distribute lined paper and have the students work silently on their revisions and second drafts for 20–30 minutes.

Join the students in writing for a few minutes, and then walk around and observe, assisting students as needed.

Technology Tip

If the students write their second drafts on computers, they should double-space the drafts and print them out.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students incorporate their revisions into a second draft?
- Are the second drafts improvements on their first drafts?

Support any student who is having difficulty by asking her questions such as:

Q *I notice that you marked this part of your draft for revision. What were you thinking about when you marked it?*

Q *Read this passage aloud with the new sentence you want to add. Does that make sense? If not, how can you change it so it does make sense?*

Record your observations on the “Class Assessment Record” sheet (CA8); see page 61 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Reflect on Writing Second Drafts

Briefly discuss questions such as the following:

- Q *What was challenging about writing a second draft?*
- Q *Who made a further revision to your story as you were writing your second draft? Tell us about it.*
- Q *What other ideas can we add to the “Things We Can Revise in Our Second Drafts” chart?*

Add any revision ideas the students have to the chart. Explain that tomorrow the students will continue to work on their second drafts.

Teacher Note

Save the “Things We Can Revise in Our Second Drafts” chart to use throughout the process of writing second drafts.

You will need a complete, charted second draft of your story to use on Day 5 of this week. You might wish to create a projectable chart of the draft. For more information about whiteboard activities in the *Being a Writer* program, view the “Using CCC’s Whiteboard Activities” tutorial (AV73).

Writing Second Drafts

Day 3

In this lesson, the students:

- Explore using prepositions and prepositional phrases
- Continue to write second drafts
- Ask one another questions about their writing

GETTING READY TO WRITE

1 Explore Prepositions and Prepositional Phrases

Have the students get out their notebooks, pencils, and *Student Writing Handbooks* and sit at desks with partners together. Explain that the students will continue to work on their second drafts and that they will make their writing as clear as possible so readers will be able to follow what is happening in their stories. Point out that today they will explore one way writers make their writing more interesting and easy to follow—by varying the way their sentences look and sound.

Direct the students’ attention to the “Sentences Using Prepositions and Prepositional Phrases” chart and use “Think, Pair, Share” to discuss:

- Q *What do you notice about these sentences? What changes from sentence to sentence?*

Have volunteers share their thinking; then discuss as a class:

- Q *What part of the sentence tells where the cat ate its dinner?*

Materials

- “Sentences Using Prepositions and Prepositional Phrases” chart, prepared ahead, and a marker
- *Student Writing Handbook* page 18
- “Excerpt from *The Summer My Father Was Ten*” chart (WA26)
- Loose, lined paper for second drafts
- “Class Assessment Record” sheet (CA9)

Students might say:

"The sentences mean the same thing but they say it in three different ways."

"In addition to what [Alma] said, all the sentences have the same words but in different orders."

"In addition to what [Alma and Jun] said, 'under the table' is at the end of the first sentence, at the beginning of the second sentence, and in the middle of the third sentence."

" 'Under the table' is the part that tells where the cat ate its dinner."

Underline the phrase "under the table" in each sentence. If necessary, explain that the words "under the table" tell where the cat ate its dinner and that those words can be moved to different parts of the sentence without changing the meaning of the sentence.

Sentences Using Prepositions and Prepositional Phrases

The cat ate its dinner under the table.

Under the table, the cat ate its dinner.

The cat, under the table, ate its dinner.

Teacher Note

Not all prepositions show position, but this loose definition will help students remember a preposition's function. Exceptions to the "shows position" definition include *of*, *by*, and *for*, which show the relationship between other words in a sentence. Also, moving a prepositional phrase within a sentence can change the sentence's meaning. Students may need help determining whether changing a prepositional phrase's position affects the sentence's meaning.

Teacher Note

Two other ways the sentence can be rewritten are "Before his race, the runner drank water" and "The runner, before his race, drank water."

Skill Practice Note

If the students need more practice using prepositions and prepositional phrases, take time to review these skills (see Lesson 20 in the *Skill Practice Teaching Guide*).

Explain that the group of words "under the table" begins with a preposition. Tell them that a *preposition* is a "word that often shows position in place or time," such as *under*, *over*, *before*, and *after*. Point out to the students that the word *position* is in the word *preposition*, which can help them remember that prepositions often show position. Tell the students that the group of words "under the table" is called a *prepositional phrase*.

Write the following sentence below the other sentences on the chart: *The runner drank water before his race*. Ask students to identify the words that show when the runner drank water. Underline "before his race." Ask:

Q *What are two ways we can rewrite this sentence by moving the prepositional phrase "before his race"?*

Use the students' ideas to write two more versions of the sentence on the chart. Then underline the phrase "before his race" in all three sentences.

Explain that good writers know how to use prepositional phrases to vary the way their sentences look and sound.

2 Analyze an Excerpt from *The Summer My Father Was Ten*

Have the students open their Student Writing Handbooks to page 18. At the same time, display the “Excerpt from *The Summer My Father Was Ten*” (WA26) chart. Explain that this is a passage from *The Summer My Father Was Ten* in which the author uses prepositional phrases. Read the passage aloud to the class and ask:

Q *What prepositional phrases does the author use in this passage? Turn to your partner.*

Underline the prepositional phrases as the students identify them (*to my grandmother, in Mr. Bellavista’s apartment, to opera, on the radio*). Remind the students that writers sometimes experiment with the placement of prepositional phrases so that their sentences do not all look or sound the same. Point to the prepositional phrase *in Mr. Bellavista’s apartment* in the sentence “Then they all ate dinner together in Mr. Bellavista’s apartment and listened to opera on the radio.” Ask:

Q *Where else in the sentence might the writer have placed this prepositional phrase and still created a sentence that makes sense?*

Students might say:

“Then in Mr. Bellavista’s apartment they all ate dinner together and listened to opera on the radio.”

“Then they all ate dinner together and listened to opera on the radio in Mr. Bellavista’s apartment.”

3 Review Drafts for Prepositions and Prepositional Phrases

Ask the students to look closely at their own drafts, find a place where they might rewrite a sentence by moving a prepositional phrase, and rewrite that sentence. After several minutes, ask and discuss as a class:

Q *Who rewrote a sentence by moving a prepositional phrase? Tell us about it.*

Explain that you would like the students to think about how to revise sentences by moving prepositional phrases as they write today.

WRITING TIME

4 Continue to Write Second Drafts

Have the students work silently on their second drafts for 20–30 minutes, paying attention to prepositions and prepositional phrases in their stories. Make sure they have access to more lined writing paper, if they need it.

Join them in writing for a few minutes; then walk around the class and observe, assisting students as needed.

Facilitation Tip

As you continue to focus on **pacing class discussions** this week, consider:

- Do most students stay engaged for the duration of most discussions?
- What do the students look like when they are engaged? What do they look like when they become disengaged?
- What contributes to loss of focus on the part of the students?
- Are the students getting used to you not calling on every student with a hand up?

Continue to practice the techniques listed in the previous Facilitation Tip for speeding up or deepening a discussion. To see this Facilitation Tip in action, view “Pacing Class Discussions” (AV20).

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to use prepositions and prepositional phrases to make their writing easy to follow?
- Are they able to incorporate their revisions into a second draft?
- Does their writing communicate clearly?

Identify what, if anything, is unclear in the students' writing. Support any student who is having difficulty by asking him to reread his writing and by asking questions and offering suggestions such as:

- Q *Does your story make sense? What part doesn't make sense? How can you rewrite it so it makes sense?*
- Q *Can you find a place where you might move a prepositional phrase to make a sentence clearer or to vary the way your sentences sound?*

Record your observations on the “Class Assessment Record” sheet (CA9); see page 62 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Share Revisions and Reflect

Have a few volunteers share passages they revised by reading the original and revised passages. As the students share, probe their thinking by asking:

- Q *[Thanh], how do you think your revision improves your piece?*
- Q *What questions can we ask [Thanh] about his revision?*

Ask and briefly discuss:

- Q *Who made revisions today using prepositions and prepositional phrases in your story? Tell us about it.*

Explain that the students will continue to work on their second drafts tomorrow.

In this lesson, the students:

- Explore first- and third-person points of view
- Explore pronouns and practice writing consistently from a single point of view
- Continue to write second drafts
- Ask one another questions about their writing

ABOUT POINT OF VIEW

In this lesson, the students learn to recognize the first-person point of view (the *I* narrator) and learn that when there is no *I* narrator, stories are usually being told from a third-person point of view. They look closely at the pronouns in the writing to determine the point of view, and they practice writing consistently from a single point of view. The work in this lesson lays the foundation for continued instruction in later grades on the first-, and third-person points of view, including how to decide on a point of view for any particular piece of writing.

GETTING READY TO WRITE

1 Explore First- and Third-person Points of View

Have the students stay at their desks today. Have them get out their notebooks, *Student Writing Handbooks*, and pencils. Explain that the students will continue to work on their second drafts today, and that you would like them to pay close attention to the point of view of their stories as they write.

Explain that *point of view* refers to who is telling the story. Explain that some authors use an *I* narrator to tell the story; this is called the *first-person point of view*. When there is no *I* narrator, the author is usually writing from the *third-person point of view*.

Where everyone can see it, write:

“I” = first person
no “I” = third person (usually)

Materials

- “Point of View in Two Stories” chart (WA27)
- *Student Writing Handbook* page 19
- “Proofreading Notes: Point of View” chart (WA28)
- Loose, lined paper for second drafts

TEKS 10.E.i
TEKS 10.E.ii
Student/Teacher Narrative
Step 1

Display the “Point of View in Two Stories” chart (WA27) as you have the students open their *Student Writing Handbooks* to page 19, where the opening sentences of *Uncle Jed’s Barbershop* and *The Sweetest Fig* are reproduced. Read the first excerpt together as a class. Ask:

Q *What words tell us that this excerpt is written from a first-person point of view?*

Students might say:

“my granddaddy’s brother”

“Uncle Jedediah was *mine*”

“He used to come by *our* house”

As volunteers respond, underline the first-person pronouns on the chart. Explain that *my*, *mine*, and *our* are pronouns and, if necessary, that *pronouns* are words that take the place of nouns. Explain that these particular pronouns are called *first-person pronouns* and that *I*, *me*, *we*, and *us* are other examples of first-person pronouns. (You might write the pronouns *I*, *me*, *my*, *mine*, *we*, *us*, and *our* where everyone can see them.)

Together read the second excerpt from *The Sweetest Fig*. Ask:

Q *How can we tell that this excerpt is not written from a first-person point of view?*

If necessary, point out that first-person pronouns do not appear in this excerpt. The pronoun *he* indicates that the story is being told by someone outside the story, or from the third-person point of view.

2 Record in Proofreading Notes

Remind the students that they learned to proofread their drafts using the proofreading notes in the *Student Writing Handbook* (see Unit 2, Week 2, Day 3 on page 103). They will use this resource to proofread their stories.

Ask the students to open their *Student Writing Handbooks* to the Proofreading Notes section as you display the “Proofreading Notes: Point of View” chart (WA28). Write the notes in the diagram on the next page on the chart, and ask the students to copy them into their proofreading notes.

Proofreading Notes

Rule	Example	Notes
First-person point of view (“I” narrator)	“Every year my father and I plant a garden.”	First-person pronouns: I, my, me, mine, we, us, our(s)
Third-person point of view (no “I” narrator)	“Eva unwrapped a cinnamon Danish, opened her notebook, and stared helplessly at the wide, white pages.”	No first-person pronouns. Someone outside the story is telling it.

Encourage the students to refer to their proofreading notes to help them remember the difference between first- and third-person points of view. As they work on their second drafts today, encourage them to continue to pay attention to using the same point of view consistently throughout their stories.

WRITING TIME

3 Continue to Write Second Drafts

Have the students work silently on their second drafts for 20–30 minutes, paying attention to using a single point of view. Make sure they have access to more lined writing paper.

Join the students in writing for a few minutes; then confer with individual students.

TEACHER CONFERENCE NOTE

Continue to confer with individual students about the piece each is developing for publication. Ask the student to tell you about the part she is working on now and to read some of her writing aloud to you. As you listen, consider:

- Does this student’s story have a character with distinct traits that are shown through action, speech, or thought?
- Does something interesting or important happen to the character?

(continues)

TEACHER CONFERENCE NOTE *(continued)*

- Does the story make sense? Is it easy to follow what is happening, when, and to whom?
- Does the student use transitional words and phrases?
- Does the ending bring the story's events to a close?
- Does the student use sensory details to convey the setting?
- Does the student use prepositions and prepositional phrases to vary sentences or make the writing easy to follow?
- Does the student use the first- or third-person point of view consistently?

Support the student in integrating the elements of fiction by asking questions such as:

- Q *What kind of personality does your main character have?*
- Q *What actions, thoughts, or speech [have you added/could you add] to show who the character is?*
- Q *What interesting or important thing happens to your character?*
- Q *What transitional words and phrases [did/could] you use to help connect events or ideas?*
- Q *What [did/could] you write to bring the story to a close?*
- Q *When and where does the story take place? What descriptive words can you use to tell the reader how the place looks, feels, sounds, or smells?*
- Q *Which sentences can you revise using prepositions and prepositional phrases?*
- Q *Which point of view, first- or third-person, [did/could] you use in your story?*

Document your observations for each student on a "Conference Notes: Focus 2" record sheet (CN2); see page 68 of the *Assessment Resource Book*. Beginning next week, the focus of the individual student conferences will change. If you have not met with all of your students to discuss the questions above, you may wish to do so before changing the conference focus.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Share Revisions and Reflect

Have a few volunteers share passages they revised by reading the original and the revised passages. As the students share, probe their thinking by asking:

- Q *[Melissa], how do you think your revision improves your piece?*
- Q *What questions can we ask [Melissa] about her revision?*

Explain that partners will confer about their stories tomorrow.

EXTENSION

Further Explore Point of View

Give the students more experience with point of view by occasionally having them share about the point of view in books they are reading independently. Ask questions such as:

- Q *Who is telling the story in your book? How do you know?*
- Q *Is there an I narrator? If so, can you tell who it is?*
- Q *If there is no I telling the story, which character's feelings and thoughts is the author telling you most about? How do you know?*

Self-assessing and Pair Conferencing

Day 5

In this lesson, the students:

- Assess their own writing
- Initiate pair conferences about their drafts
- Ask for and receive feedback about their writing
- Give feedback in a helpful way
- Write and confer responsibly during Writing Time

GETTING READY TO WRITE

1 Prepare to Self-assess

Have the students get their notebooks and pencils and sit at desks with partners together. Remind the students that in the past few weeks they have learned about character, setting, and plot in a fiction story. Briefly review the “Notes About Fiction” chart and ask:

- Q *What else have you learned about fiction that we can record on the chart?*

Add any suggestions to the chart. Then direct the students’ attention to the “Self-assessment Questions” chart and explain that you would like the students to ask themselves these questions as they reread their drafts today. Read the questions aloud.

Show your revised second draft and briefly model rereading your draft, asking yourself the questions, and thinking aloud about the answers.

Materials

- “Notes About Fiction” chart from Week 4
- “Self-assessment Questions” chart, prepared ahead
- Your charted second draft from Day 2
- “Class Assessment Record” sheet (CA10)
- “Questions for My Partner About My Draft” chart from Unit 3, Week 4

You might say:

"In my story, something happens to Bernard on a sailboat in the bay. He saves the day by filling a hole in his family's boat with his chewing gum. When he thinks, 'what a waste, there's still some flavor in the gum,' it shows how much he hates to part with his gum. As I reread the story, I can tell that there isn't anything that happens that doesn't fit with the rest of the story."

2 Self-assess and Think About What to Ask Partners

Ask the students to reread their own drafts and ask themselves the "Self-assessment Questions." After most students have had time to finish, signal for their attention and have a few volunteers share their thinking with the class. As they share, follow up by asking:

- Q *What will you add to or change in your story to make your [character/setting] more [believable/interesting/descriptive]?*
- Q *What will you add to or change in your story to make your plot (or the things that happen) make sense?*

Ask and briefly discuss:

- Q *What questions do you want to ask your partner today about your draft?*

As the students report questions, record them on the "Questions for My Partner About My Draft" chart. Remind the students that they started this chart earlier in the year, and review the questions on it. Ask:

- Q *What other questions on this chart do you want to ask your partner today?*

Students might say:

"I want to ask my partner if she can imagine what's happening."
"I want to ask my partner if he can tell what I learned from what I wrote."
"I want to find out whether anything is confusing to my partner."

Explain that partners will read their drafts aloud to each other, including their revisions, and then ask each other questions about their own drafts.

3 Prepare to Write and Initiate Pair Conferences

Explain that today the students will make the revisions they are thinking about and then work on finishing their second drafts. When they finish their second drafts, they will initiate a conference with a partner to get feedback before starting to work on their final versions.

Remind the students of the procedure for initiating their own pair conferences. Review that you will give a signal about halfway through Writing Time, after which the students may confer in pairs if they are

ready. The students should ask their assigned partner first. If their own partner is busy writing and would rather not stop to confer, they may ask another student. Ask and briefly discuss:

- Q *If someone asks you to confer, but you would rather keep writing, how will you respond to the person respectfully?*
- Q *What problems can arise when you are initiating a pair conference? What will you do to avoid those problems today?*

Redirect the students' attention to the "Self-assessment Questions" chart and explain that you would like partners to discuss both pieces of writing during the pair conferences using the questions on the chart.

WRITING TIME

4 Write Independently and Confer

Have the students work silently on their second drafts. After about 15 minutes of writing, signal that the students may confer in pairs if they are ready. Remind them to discuss the "Self-assessment Questions" during the conference. Assure students who are still working on their second drafts that they will have other opportunities in the coming week to confer with a partner.

CLASS ASSESSMENT NOTE

Observe the students as they initiate and participate in pair conferences, and ask yourself:

- Are the students able to find a partner and begin pair conferences with minimal disruption to the class?
- What problems are they having initiating pair conferences?
- Are they giving each other feedback about the questions on the chart?

Support any pair that is having difficulty by asking questions such as:

- Q *What difficulties are you having in your conference?*
- Q *What are you trying to accomplish during this conference? What is preventing you from accomplishing that?*
- Q *What can you do to solve that problem? If that doesn't work, what else can you try?*

Record your observations on the "Class Assessment Record" sheet (CA10); see page 63 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

Teacher Note

Not all of the students will be ready to confer today. Those who need to continue working on their second drafts should do so during Writing Time into Week 6 and confer about the drafts when they are finished.

SHARING AND REFLECTING

5 Reflect on Writing and Pair Conference Time

Gather the students to discuss how they did writing and conferring during Writing Time today. Remind them that in the writing community the goal of giving feedback is to help each person create the best possible piece of writing. Ask:

- Q *If you participated in a pair conference today, what feedback did you receive from your partner that was helpful to you?*
- Q *If you continued to write while pair conferences were happening, were you able to concentrate? Why or why not?*
- Q *What problems arose today during the pair conference time? What effect did those problems have on our writing community? How can we avoid those problems next time?*

Explain that the students will complete their second drafts next week and proofread and publish their stories.

Teacher Note

Save the “Self-assessment Questions” chart to use in Week 6.

TECHNOLOGY EXTENSION

Publish Student Writing Online

Next week the students will publish their fiction stories for the class library. Some students might also be interested in publishing their writing online. There are a number of websites where students can do so. Search for them using the keywords “publishing student writing online.” Publishing online allows family members and friends to easily access and enjoy students’ writing.

Week 6

OVERVIEW

Writing Focus

- Students proofread their second drafts for spelling and punctuation.
- Students learn to write consistently in a single verb tense.
- Students learn how to punctuate speech.
- Students write their final versions and publish them as books.
- Students present their books to the class from the Author’s Chair.
- Students confer with one another and the teacher.

Social Development Focus

- Students work in a responsible way.
- Students help one another improve their writing.
- Students act in fair and caring ways.
- Students express interest in and appreciation for one another’s writing.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA29–WA36

Assessment Forms

- “Class Assessment Record” sheets (CA11–CA13)
- “Conference Notes: Focus 3” record sheet (CN3)
- “Individual Writing Assessment” record sheet (IA1)
- “Student Self-assessment” record sheet (SA1)

Reproducible

- Fiction genre unit family letter (BLM1)

Professional Development Media

- “Social Reflection” (AV14)

DO AHEAD

- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA11) on page 64 of the *Assessment Resource Book*.
- ✓ Prior to Day 2, make a class set of the “Conference Notes: Focus 3” record sheet (CN3) on page 70 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA12) on page 65 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, decide on how you would like the students to make their books. Gather any materials they will need (for example, construction paper for covers, drawing paper for illustrations, markers, staples).
- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA13) on page 66 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student’s published piece.
- ✓ (Optional) If computers are available, you might have some students type and print out their final versions.

TEACHER AS WRITER

“By the time I am nearing the end of a story, the first part will have been reread and altered and corrected at least one hundred and fifty times. I am suspicious of both facility and speed. Good writing is essentially rewriting. I am positive of this.”

— Roald Dahl

Reread the drafts you have written and select one to develop. Consider:

- Who is telling this story?
- What actions, thoughts, or speech could you add to reveal character traits or relationships among characters?
- What event or action that is both surprising and believable could you add to this plot?
- Where and when does this story take place? What descriptive language could you add to help the reader see, hear, smell, or feel this setting?

Day 1

Completing Second Drafts and Proofreading

Materials

- *The Sweetest Fig* from Week 2
- *Student Writing Handbook* page 20
- “Verb Tense in Two Stories” chart (WA29)
- “Writing Time” chart (WA30)
- “Self-assessment Questions” chart from Week 5
- “Class Assessment Record” sheet (CA11)

In this lesson, the students:

- Explore present and past verb tenses
- Practice writing consistently in a single verb tense
- Begin proofreading their drafts
- Initiate pair conferences about their drafts
- Ask for and receive feedback about their writing
- Write and confer responsibly during Writing Time

GETTING READY TO WRITE

1 Explore Verb Tense

Have the students remain at their seats. Have them get out their notebooks, *Student Writing Handbooks*, and pencils.

Remind the students that last week they explored point of view and worked on making sure they used a consistent point of view throughout their stories. Explain that, like point of view, the *verb tense* must be consistent all the way through a story, unless the author deliberately wants to change it.

Remind the students that verbs are action words; explain that verbs can be written in the past, present, or future tense. Authors use verb tense to communicate whether the story happened in the past, is happening right now, or will happen in the future.

Display the “Verb Tense in Two Stories” chart (WA29) and ask the students to open their *Student Writing Handbooks* to page 20, where the chart is reproduced. Together, read the excerpt from *The Sweetest Fig*. Explain that this story is written in the past tense. Ask:

Q *What are some of the verbs, or action words, in this passage?*

Underline the verbs on the chart as the students report them.

Together, read the excerpt from *The Summer My Father Was Ten*. Explain that this excerpt is written in the present tense. Ask:

Q *What are some of the verbs, or action words, in this passage?*

Underline the verbs as the students report them.

If necessary, remind the students that many verbs, like *jump*, *moan*, and *look* can be changed from present to past tense by adding *-ed* at the end (*jumped*, *moaned*, *looked*). Other verbs have entirely different forms in the present and past tenses (such as *keep* and *kept* and *tell* and *told*).

Teacher Note

The students might notice the following verbs in the excerpt: *was*, *kept*, *jumped*, *met*, *had*, *begged*, *told*, *moaned*, *looked*, *took*, and *said*.

Teacher Note

The students might notice the following verbs in the excerpt: *plant*, *grow*, *pull*, *pop*, *water*, *mulch*, *tend*, *has to walk*, and *tells*.

Explain that authors must be careful not to unintentionally change the verb tense in the middle of a story because this could confuse readers about when the story is happening.

2 Review Drafts to Determine Verb Tense

Ask the students to look closely at the verbs in their own drafts and determine whether they are using the past or present tense. (Point out that the future tense is rarely used for stories.) Ask:

- Q *Are you using the past tense in your story? Read us a few of the verbs that tell you that you're using the past tense.*
- Q *Are you using the present tense in your story? Read us the first two or three sentences of your story so we can hear the present-tense verbs.*

Explain that once the students have determined whether they are using the past or present tense, they should write their entire story using that verb tense.

Explain that the students will work on their second drafts again today. Those who have completed their second drafts and conferred with partners may begin proofreading to get their stories ready for publication. Remind the students to use their word banks and proofreading notes, which they learned to use at the beginning of the year, to check spelling and correctness in their drafts.

WRITING TIME

3 Write Independently and Confer in Pairs

Display the “Writing Time” chart (WA30) and have the students work silently on the charted tasks for 20–30 minutes.

Writing Time

- Try to finish your second draft.
- Check to make sure you are using the same verb tense throughout your story.
- Begin proofreading your second draft for publication.

WA30

Remind the students that you will signal after 10–15 minutes of silent writing to indicate that they may confer in pairs about their drafts. Direct their attention to the “Self-assessment Questions” chart and remind partners to give each other feedback using these questions today.

Join the students in writing for a few minutes; then walk around and observe, assisting students as needed.

Teacher Note

The students may notice that the verb *broke* in the excerpt from *The Summer My Father Was Ten* is in the past tense. If they do, point out that the author intentionally shifts to the past tense briefly to tell us something that happened before the main part of the story (Mrs. Murowski “broke her hip last winter”) and then returns to the present tense (“has to walk with a cane”).

Skill Practice Note

For more practice with recognizing and correcting shifts in verb tense, see Lesson 15 in the *Skill Practice Teaching Guide*. You might also do the Extension activity “Further Explore Verb Tense” (see page 326).

Teacher Note

You will review using the word bank and proofreading notes with the whole class on Day 3 of this week. If any of the students need help using them today, review briefly with individuals or with a small group.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to write consistently in the past or present tense?
- Do they incorporate their revisions into a second draft?
- Does their writing communicate clearly?

Identify what, if anything, is unclear in the students' writing. Support any student who is having difficulty by asking questions and offering suggestions such as:

Q *What are some of the action words at the beginning of your story?*

Q *Do those words tell about something that happened before or something that's happening now?*

Q *How can you change the word [fly] to the past tense?*

Record your observations on the "Class Assessment Record" sheet (CA11); see page 64 of the *Assessment Resource Book*.

After 10–15 minutes, signal to indicate that the students may confer in pairs; then signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Share Revisions and Reflect

Ask a few volunteers to share passages they revised by reading the original and revised passages. As the students share, probe their thinking by asking:

Q *[Avi], how do you think your revision improves your piece?*

Q *What questions can we ask [Avi] about his revision?*

Ask and briefly discuss:

Q *Did you make any revisions today to the verb tense in your story? Tell us about it.*

In this lesson, the students:

- Explore and practice punctuating speech
- Begin proofreading their drafts
- Initiate pair conferences about their drafts
- Ask for and receive feedback about their writing
- Use writing and pair conference time responsibly

GETTING READY TO WRITE**1 Explore Speech Punctuation**

Have the students remain at their seats. Have them get out their notebooks, *Student Writing Handbooks*, and pencils. Remind the students that earlier they learned that good writers often include speech in a fiction story to help readers better understand a character’s personality. Explain that today they are going to review how writers punctuate speech.

Display the “Speech Punctuation in Two Stories” chart (C WA31) and ask the students to open to *Student Writing Handbook* page 21, where the chart is reproduced. Together, read the first excerpt from *Sweet Music in Harlem*. Ask:

- Q** *Who is speaking in this passage? How can you tell?*
- Q** *How can you tell the difference between the words he is actually saying and the other words in the story?*

Students might say:

“Uncle Click is speaking because it says ‘called Uncle Click from the bathroom.’”

“The words he is saying have quotation marks around them.”

Underline words and quotation marks on the chart as the students report them. Explain that authors use quotation marks to let the reader know which words the characters are saying aloud. Quotation marks surround what the characters say, marking the start and end of each piece of dialogue. Tell the students that there are several ways to correctly punctuate speech but that ending punctuation in speech always goes inside the quotation marks.

Explain that the second excerpt is from *Nothing Ever Happens on 90th Street*. Read the excerpt together as a class. Ask:

- Q** *Who is speaking in this passage? How can you tell?*
- Q** *What do you notice about the way speech is punctuated in this passage, compared to the passage from *Sweet Music in Harlem*?*

Materials

- *Student Writing Handbook* page 21
- “Speech Punctuation in Two Stories” chart (WA31)
- “Writing Time” chart (WA32)
- “Self-assessment Questions” chart from Day 1
- “Class Assessment Record” sheet (CA12)

Teacher Note

You might review that speech between characters is called *dialogue*.

ELPS 4.C.iv
Steps 1–3

Skill Practice Note

You might point out that the author places a comma after the name *C. J.* The comma sets the name apart from the rest of the sentence so the reader can easily understand who is being spoken to. For more practice with punctuating speech and direct address, see Lesson 27 and Lesson 28 in the *Skill Practice Teaching Guide*.

Students might say:

"I notice that the sentence with the quotation marks can start at the beginning of a paragraph or in the middle of a paragraph."

"I notice that the author didn't put *he said* after the last thing Mr. Sims says because it's already clear that Mr. Sims is the one talking."

Again, underline words and quotation marks on the chart as the students report them. Explain that authors may use other punctuation to help readers notice dialogue in a story. Ask the students to follow along in their handbooks as you read aloud "'You are mistaken, my dear,' Mr. Sims said." Point out the comma between the words *my dear* and *Mr. Sims*. Explain that this comma separates Mr. Sims's dialogue (exact words) from the rest of the sentence.

2 Review Drafts for Speech Punctuation

Ask the students to look closely at any speech they included in their own drafts to see whether they punctuated it correctly. Have them compare their punctuated speech to the passages on *Student Writing Handbook* page 21 to make sure they are using one of the correct methods.

Explain that the students will continue working on their second drafts today. Those who have completed their second drafts and conferred with partners may begin proofreading their stories. Remind the students to refer to their word banks and proofreading notes, which they learned to use at the beginning of the year, to check spelling and correctness in their drafts.

WRITING TIME

3 Write Independently and Confer in Pairs

Display the "Writing Time" chart (WA32) and have the students work silently on the charted tasks for 20–30 minutes.

Writing Time

- Try to finish your second draft.
- Check to make sure you punctuate speech correctly throughout your story.
- Begin proofreading your second draft for publication.

WA32

Remind the students that you will signal after 10–15 minutes of silent writing to indicate that they may confer in pairs about their drafts. Direct their attention to the “Self-assessment Questions” chart and remind partners to give each other feedback using these questions today.

Join the students in writing for a few minutes; then walk around and observe, assisting students as needed.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to correctly punctuate the speech in their stories?
- Do they incorporate their revisions into a second draft?
- Does their writing communicate clearly?

Identify what, if anything, is unclear in the students’ writing. Support any student who is having difficulty by asking questions and offering suggestions such as:

- Q *What are some of the things your character says in your story?*
- Q *Are the quotation marks and commas in the right places? How do you know?*
- Q *How can you change the word [said] to a more interesting word?*

Record your observations on the “Class Assessment Record” sheet (CA12); see page 65 of the *Assessment Resource Book*.

After 10–15 minutes, signal to indicate that the students may confer in pairs; then signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Share Revisions and Reflect

Have a few volunteers share passages they revised by reading the original and revised passages. As the students share, probe their thinking by asking:

- Q *[Gabrielle], how do you think your revision improves your piece?*
- Q *What questions can we ask [Gabrielle] about her revision?*

Ask and briefly discuss:

- Q *Did you make any revisions today to speech punctuation in your story? Tell us about it.*

Day 3

Proofreading

Materials

- *Student Writing Handbooks*
- “Proofreading Notes” chart (WA33)
- “Run-on Fiction Sample” chart (WA34)
- Loose, lined paper for final versions
- “Writing Time” chart (WA35)
- “Self-assessment Questions” chart from Day 2
- Class set of “Conference Notes: Focus 3” record sheets (CN3)

EXTENSION

Continue to Explore Speech and Dialogue in Fiction

Continue to raise the students’ awareness of the use of speech and dialogue in fiction by occasionally having them share dialogue in books they are reading independently. Discuss questions such as:

- Q *Who is speaking in the passage you read? What do you find out about the characters from this [speech/dialogue]?*
- Q *What other words does the author use to mean [said]? Why might the author have chosen to use those words instead of [said]?*

In this lesson, the students:

- Review past and present verb tenses
- Listen for run-on sentences as they read their drafts aloud
- Proofread for spelling, grammar, and punctuation
- Ask for and receive feedback about their writing
- Give feedback in a helpful way

GETTING READY TO WRITE

1 Briefly Review Verb Tense and Record in Proofreading Notes

Have the students remain at their seats. Have them get out their notebooks, *Student Writing Handbooks*, and pencils. Remind them that they learned about verb tense earlier in the week and thought about tense in their own stories. Ask and briefly discuss:

- Q *What did you find out about the verb tense you are using in your own story?*

Ask the students to open their *Student Writing Handbooks* to their proofreading notes as you display the “Proofreading Notes” chart (WA33). Write the notes in the diagram below on the chart and ask the students to copy them into their proofreading notes.

Proofreading Notes

Rule	Example	Notes
present tense	plant, grow, pull, pop, tell	Verb is happening now.
past tense	planted, grew, pulled, popped, told	Verb happened before. Often ends in “-ed.”

2 Discuss Proofreading for Run-on Sentences

Explain that the students will also proofread their drafts today to see if they have any run-on sentences. Explain that a *run-on sentence* is usually made of two or more complete sentences that have been “run together” without a conjunction such as *or*, *and*, *so*, or *but*. Point out that run-on sentences often look like really long sentences. Point out that run-on sentences should be joined with a conjunction or split to form two complete sentences.

Display the “Run-on Fiction Sample” chart (WA34) and have the students turn to page 22 of their *Student Writing Handbooks*, where the information on the chart is reproduced. Ask the students to watch and listen as you read the first passage aloud. Ask:

Q *What did you notice about the way the passage sounded when I read it?*

Students might say:

“It doesn’t sound right.”

“In addition to what [Miguel] said, some of the sentences sound funny—like they go on too long.”

Q *What run-on sentences do you see in the passage?*

If necessary, point out that right now the passage does not sound right when read aloud, because it contains several run-ons. Model rereading the passage and thinking aloud about how to split the run-ons into two or more complete sentences or how to join them with conjunctions.

You might say:

“The first complete thought is ‘On Bernard’s birthday, he did not wish for toys, books, or games, like other kids.’ The second complete thought is ‘he wished for gum.’ I know that I have to separate the two thoughts by placing a period or a conjunction between them. I’ll put a period after the phrase ‘like other kids.’ That leaves ‘he wished for gum’ running into ‘Bernard loved to chew gum.’ I’ll separate those thoughts with another period. Since the phrase ‘more than puppies love to chew socks and cows love to chew their cud’s’ doesn’t make sense by itself, I know that it must be connected to ‘Bernard loved to chew gum.’ The complete sentence must be: *Bernard loved to chew gum more than puppies love to chew socks and cows love to chew their cud’s.*”

Skill Practice Note

You might remind the students that a sentence tells a complete thought and contains a *subject* (who or what a sentence is about) and a *predicate* (what the subject does or did). For more practice using subjects and predicates, and recognizing and correcting run-ons, see Lesson 1, Lesson 2, and Lesson 5 in the *Skill Practice Teaching Guide*.

Teacher Note

You may have students who have not yet finished their second drafts. Assure them that they will have time to finish their drafts and confer with partners before moving on to proofreading. Ask all the students to pay attention as you review proofreading, so they will be able to do this step when they are ready.

Teacher Note

You will review the procedures for publishing stories with the whole class tomorrow. Support students who are ready to begin publishing today by reviewing procedures briefly with individuals or with a small group.

Explain that you would like the students to read their drafts aloud to listen for run-on sentences. Encourage the students to split any run-on sentences into two or more complete sentences or join them with conjunctions.

3 Review Using the Word Bank and Proofreading Notes

Remind the students that they learned how to use the word bank and proofreading notes to help them proofread their drafts for spelling and correctness (see Unit 2, Week 2, Day 2 on page 98 for review). Briefly review these procedures by reminding the students to:

- Circle words that they are unsure how to spell and look them up in the word bank. If necessary, the students will add words to their word banks after looking up the correct spelling in a dictionary or other resource.
- Use their proofreading notes as a checklist of things to look for in their drafts. They will correct errors in their drafts by crossing them out and writing the corrections next to or above them.

Explain that the students will work toward finishing their second drafts and proofreading them today. Students who have completed their proofreading may begin writing the final version of their stories by copying their revised second drafts in their best handwriting on loose, lined paper. They may single-space their final versions.

WRITING TIME

4 Complete Second Drafts and Confer in Pairs

Display the “Writing Time” chart (WA35) and have the students work silently on the charted tasks for 20–30 minutes.

Writing Time

- Read your draft aloud and check for periods.
- Proofread for run-on sentences.
- Proofread for spelling and correctness.
- Begin writing your final version on loose, lined paper.

WA35

Remind the students that you will signal after 10–15 minutes of silent writing to indicate that they may confer in pairs when they are ready. Remind them to give feedback using the questions on the “Self-assessment Questions” chart.

Join the students in writing for a few minutes; then confer with individual students.

TEACHER CONFERENCE NOTE

Confer with individual students who seem to need extra support in preparing their second drafts for publication. Consider:

- What does this student need to work on to be ready to publish his story?

Discuss questions such as:

- Q *What are you working on right now?*
- Q *Do you have an I narrator telling your story? Are you using a consistent point of view throughout the story?*
- Q *Are you using the same verb tense all the way through your story? If you accidentally switched, how will you revise so all the verbs are in the same tense?*
- Q *Do you have any long sentences that might be run-ons? Let's reread them and see whether they need to be divided into shorter sentences.*
- Q *What else do you need to do to be ready to write your final version?*

Document your observations for each student on a "Conference Notes: Focus 3" record sheet (CN3); see page 70 of the *Assessment Resource Book*.

After 10–15 minutes, signal to indicate that the students may confer in pairs; then signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Reflect as a Class

Gather the students to discuss how they did during writing and pair conference time today. Discuss questions such as:

- Q *If you worked on proofreading your draft for spelling today, how did that go? What words did you find in your word bank? How did you check on words that were not in the word bank?*
- Q *If you participated in a pair conference today, how did you help your partner? How did your partner help you?*
- Q *What did you do to take responsibility for yourself during Writing Time today?*

Teacher Note

The end-of-lesson reflection is important to the students' growth as writers and to their social development. We encourage you to allow at least 5 minutes at the end of each period to help the students reflect on their work and interactions. For more information about social development, see "Values and Social Skills" on page xxviii. To learn more, view "Social Reflection" (AV14).

EXTENSION

Further Explore Verb Tense

Give the students more experience with past, present, and future verb tenses by occasionally having the students share about the verb tenses in the books they are reading independently. Ask questions such as:

- Q *Is the author using the past, present, or future verb tense in the book you are reading? How do you know?*
- Q *Does the author switch verb tenses over the course of your book? If so, why do you think he or she did that?*
- Q *If you are reading something written in the future verb tense, read it aloud to us. Why do you think the future verb tense makes sense for this piece of writing?*

Day 4

Publishing

Materials

- “Writing Time” chart (WA36)
- Loose, lined paper for final versions
- Materials for publishing stories
- (Optional) Computers for typing and printing final versions

In this lesson, the students:

- Finish writing and proofreading their second drafts
- Write their final versions and make them into books
- Share materials and equipment fairly
- Handle materials and equipment responsibly
- Act considerately toward others

GETTING READY TO WRITE

1 Prepare to Publish Stories

Have the students remain at their desks. Explain that they will finish writing and proofreading their second drafts and then begin writing their final versions and making them into books today. Review any procedures you would like the students to follow to make their books (for example, how to handle art supplies, how to share computers, and where to place published stories for Author’s Chair sharing tomorrow).

Briefly discuss how the students will share materials and equipment fairly and act considerately toward one another as they work on their books. Ask:

- Q *What will you do today to take care of our book-making materials? Why is that important?*
- Q *If you want to use something that someone else is using, like the computer or the hole-punch, what can you do to share it fairly?*
- Q *If you're using something that someone else wants to use, what can you do to share it fairly?*
- Q *What else can we do to act considerately toward one another as we publish our books today?*

Explain that you will check in with the students at the end of the lesson to see how they did sharing the materials fairly and acting considerately toward one another.

WRITING TIME

2 Write Final Drafts and Confer in Pairs

Display the “Writing Time” chart (WA36) and have the students write silently for 20–30 minutes.

Writing Time

- Finish proofreading your draft for spelling and correctness.
- Write your final version on loose, lined paper.
- Gather your final pages into a book with a cover (and include illustrations, if you wish).

WA36

Remind the students that you will signal after 10–15 minutes of silent writing to indicate that they may confer in pairs about their second drafts. Join them in writing for a few minutes; then confer with individual students.

TEACHER CONFERENCE NOTE

Continue to confer with individual students who seem to need extra support in preparing their second drafts for publication. Consider:

- What does this student need to work on to be ready to publish her story?

Discuss questions such as:

- Q *What are you working on right now?*
- Q *Do you have an I narrator telling your story? Are you using a consistent point of view throughout the story?*
- Q *Are you using the same verb tense all the way through your story? If you accidentally switched, how will you revise so all the verbs are in the same tense?*
- Q *Do you have any long sentences that might be run-ons? Let's reread them and see whether they need to be divided into shorter sentences.*
- Q *What else do you need to do to be ready to write your final version?*

Document your observations for each student on a "Conference Notes: Focus 3" record sheet (CN3); see page 70 of the *Assessment Resource Book*.

After 10–15 minutes, signal to indicate that the students may confer in pairs; then signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

3 Reflect on Sharing Materials Fairly and Being Considerate

Gather the students and help them reflect on how they did sharing materials fairly and acting considerately toward one another by discussing:

- Q *What did you do today to use our materials fairly? What problems did you have? How can we avoid those problems next time?*
- Q *What other considerate behaviors did you notice today? How did those help our writing community?*

Explain that the students will begin sharing their published books from the Author's Chair tomorrow.

In this lesson, the students:

- Reflect on writing fiction
- Write their final versions and make them into books
- Present their books from the Author's Chair
- Express interest in and appreciation for one another's writing
- Ask one another questions about their writing

GETTING READY TO WRITE**1 Reflect on Writing Fiction**

Gather the class with partners sitting together, facing you. Remind the students that over the past six weeks they learned about fiction and each took a piece of fiction through the writing process, from a first draft to a published book. Ask:

Q *What have you learned about how to write a good fiction story?*

Students might say:

- "I learned that a good fiction story has an interesting character."
- "I learned that something happens to the main character in the story."
- "I learned that you can tell a story using an *I* narrator."
- "I learned about verb tenses."

Use "Think, Pair, Share" to have partners discuss each of the following questions. For each question, have a few volunteers share their thinking with the class.

- Q** *What is one way your final story has turned out better than your first draft?* [pause] *Turn to your partner.*
- Q** *What is one thing you are glad you learned about writing fiction?* [pause] *Turn to your partner.*
- Q** *What did you find challenging about writing fiction?* [pause] *Turn to your partner.*

Remind the students that writers become better writers as they practice writing over and over. Encourage students who feel particularly drawn to fiction to continue to write fiction during their free time.

Explain that the students will continue to work on publishing their stories today and begin sharing their stories from the Author's Chair.

Materials

- "Notes About Fiction" chart from Week 5
- Loose, lined paper for final versions
- Materials for publishing books from Day 4
- "Class Assessment Record" sheet (CA13)
- A chair to use as the Author's Chair
- Copy of this unit's family letter (BLM1) for each student

Teacher Note

If necessary, refer the students to the "Notes About Fiction" chart.

Facilitation Tip

Reflect on your experience over the past weeks with **pacing class discussions**. Do the pacing techniques feel comfortable and natural to you? Do you find yourself using them throughout the school day? What effect has your focus on pacing had on your students' participation in discussions? We encourage you to continue to think about how to pace class discussions throughout the year.

WRITING TIME

2 Write Independently and Confer in Pairs

Ask the students to return to their seats. Have them finish writing their final versions and making them into books. Remind them that you will signal after 10–15 minutes of silent writing that they may confer in pairs. Join them in writing for a few minutes; then walk around and observe.

CLASS ASSESSMENT NOTE

Observe the students without intervening and ask yourself:

- Have most students had time to complete, or nearly complete, a fiction story for the class library?
- Have I conferred with every student twice during this unit?
- Which students would benefit from another conference with me to help them finish their stories?
- What evidence do I see that the students have learned something about character, plot, point of view, and verb tense?
- Are the students bringing a relaxed, creative attitude to their writing?

Record your observations on the “Class Assessment Record” sheet (CA13); see page 66 of the *Assessment Resource Book*.

After 10–15 minutes, signal to indicate that the students may confer in pairs; then signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

3 Review Sharing Writing from the Author’s Chair

Gather the class with partners sitting together, facing the Author’s Chair. Explain that in the coming days the students will read their published stories aloud and hear and enjoy one another’s stories.

Remind the students of the procedure you have established for presenting books from the Author’s Chair. If necessary, review Unit 2, Week 2, Day 5 (page 110), where Author’s Chair sharing was introduced.

4 Review Speaking Clearly and Expressing Interest in One Another’s Writing

Before asking a student to share from the Author’s Chair today, discuss how the students will act, both as presenting authors and as members of the audience. Ask and discuss:

- Q *Why is it important to speak in a loud, clear voice when you’re sharing your book with the class?*

- Q *If you're in the audience and you can't hear the author, how can you politely let him or her know?*
- Q *How will you let the author know that you're interested in his or her story? Why is it important to express interest in one another's writing?*

Encourage the students to be attentive audience members, and tell them that you will check in with them afterward to see how they did.

5 Conduct Author's Chair Sharing

Ask a student who has completed his story to read it aloud from the Author's Chair. At the end of the reading, facilitate a discussion using questions like the ones that follow, and give the author an opportunity to respond to the class's comments and questions.

- Q *What was interesting to you about [Sidney's] story? Turn to your partner.*
- Q *What kind of character has [Sidney] created? What clues did you hear that told you that?*
- Q *What did you hear in the story that was creative?*
- Q *What sensory details did you hear as you listened to the story? What did they make you imagine?*
- Q *What questions can we ask [Sidney] about his story?*

Follow this same procedure to have other students share from the Author's Chair, as time permits.

6 Reflect on Audience Behavior During Author's Chair Sharing

Ask and briefly discuss questions such as:

- Q *What did we do well as an audience today? What might we want to work on the next time authors share their work?*
- Q *If you shared a book today, how did the audience make you feel? What did the audience members do that made you feel [relaxed/nervous/proud]?*

Assure the students that everyone will have a chance to share published stories from the Author's Chair in the coming days. After they are read aloud, the stories will be placed in the class library so the students can read them during independent reading time.

Teacher Note

Make time in the coming weeks for the students to share their published fiction stories from the Author's Chair until everyone has had a chance to do so.

EXTENSION

Write Letters Home About Fiction

Provide letter-writing practice for the students by having them write a letter home about what they have learned about fiction writing. Stimulate their thinking by reviewing the “Notes About Fiction” chart and discussing questions such as:

- Q *What’s special about fiction writing?*
- Q *What steps did you go through to develop and publish your own fiction story?*
- Q *What is one thing you’re proud of about your published fiction story?*

If necessary, review the elements of a letter (date, salutation, body, closing, and signature) by modeling or writing a shared sample letter with the class. Have the students write and proofread their letters; then attach each student’s letter to a copy of her own published story and send it home.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of the Fiction unit. You will need to reassign partners before you start the next unit.
- Send home with each student the student’s published piece and a copy of this unit’s family letter (BLM1). Encourage the students to share their published pieces with their families. Remind the students to bring the pieces back to class after their families have read them so they can be placed in the class library.
- Save the students’ published writing (or copies of it) to use for reflection and discussion in Unit 9.

Assessments

- Before continuing with the next unit, take this opportunity to assess individual students’ writing from this unit. See “Completing the Individual Writing Assessment” (IA1) on page 72 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students’ published writing home to share with their families, you might have each student analyze his writing using the “Student Self-assessment” record sheet (SA1) on page 71 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension “Introduce ‘Student Self-assessment’ ” on page 114.

- (Optional) Prior to beginning the next unit, you might wish to prepare the students for the end-of-year standards-based writing performance task by teaching the Narrative Writing unit on page 1 of the *Writing Performance Task Preparation Guide*. For more information, see “Teaching the Units” on page vi of the preparation guide.

Being a Writer™

SECOND EDITION

The Collaborative Classroom

The Collaborative Classroom differs from traditional learning environments in that students and teachers work together on shared academic and social goals.

The Collaborative Classroom is an intentional environment in which collaboration goes beyond conventional cooperation and compliance. Students become caring members of a learning community who take responsibility for their own learning. As students think, talk, and share ideas, they come to value the thinking of others. They become thoughtful writers and engaged speakers and listeners. They discuss and debate big ideas with respect, clarity, and understanding.

The Collaborative Classroom in *Being a Writer*

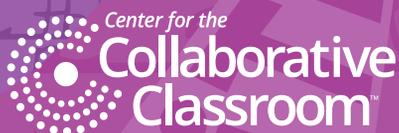

The *Being a Writer* program embodies the practices of the Collaborative Classroom.

Students of *Being a Writer* demonstrate:

- Deeper understanding of content
- Ownership of their own learning
- Intrinsic motivation to remain on task
- Improved self-esteem
- An increase in academic performance

“As we practice collaboration, we are building community. It has changed our school climate and helped our students academically. They now have the language to work together differently and resolve problems quickly. We have reduced interruptions during academic instruction and don’t lose important learning time. We have increased student engagement, which ensures increased academic achievement and gains.”

Genre

Expository Nonfiction

During this six-week unit, the students immerse themselves in nonfiction texts about topics of interest to them. Then partners select a topic to research together. Each pair of students writes, revises, and publishes an informational report about that topic. The students learn research skills, such as taking notes, categorizing information by subtopic, and conducting effective Internet searches. They learn about features of expository text, such as author biographies and bibliographies. Partners write an introduction to their report that captures the reader's interest. They use facts and examples to add substance to their writing and transitional words and phrases to link ideas. The students practice relevant skills and conventions, such as how to create text features and correct run-on sentences. Partners share resources fairly, make decisions together, and take responsibility for their own part of the work.

Week 1

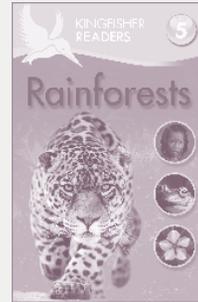

OVERVIEW

I Wonder Why Penguins Can't Fly and other questions about polar lands

by Pat Jacobs

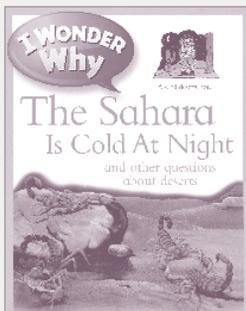

Why is Antarctica colder than the Arctic? How are icebergs formed? These questions and more are explored in this book about polar lands.

Rainforests

by James Harrison

Photographs, illustrations, and well-organized text provide an introduction to a fragile ecosystem.

I Wonder Why The Sahara Is Cold At Night and other questions about deserts

by Jackie Gaff

The mysteries of the Sahara desert are explored using a question-and-answer format.

TEACHER AS WRITER

“Curiosity urges you on—the driving force.”

— John Dos Passos

Nonfiction writers aren't necessarily experts on the topics they write about, but they are curious and ask themselves questions, conduct research, and communicate what they learn in an interesting way.

In this unit, the students write about topics that interest them. List some topics you are curious about. Consider:

- What part of the world do you wish you knew more about?
- What in the natural world have you always wanted to understand?
- What is something you take for granted that you wish you knew more about?
- What current event has a history that you want to learn more about?

Writing Focus

- Students hear and discuss expository nonfiction.
- Students explore different ways to organize and present information in nonfiction.
- Students begin reading and writing about topics that interest them.
- Students cultivate curiosity about nonfiction topics.

Social Development Focus

- Students act in fair and caring ways.
- Students make decisions and solve problems respectfully.

DO AHEAD

- ✓ Consider reading this unit's read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding. Or, do a picture walk and have partners who speak the same primary language talk to each other in that language about what they see in the illustrations.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see “Random Pairing” on page xxix and “Considerations for Pairing ELLs” on page lii. For more information, view “Cooperative Structures Overview” (AV9).
- ✓ Prior to Day 4, collect nonfiction books, magazines, articles, and other written materials on a variety of topics, particularly topics related to Earth or social sciences (such as current events, geography, countries and cultures, natural disasters, the environment, weather, and ecosystems). Select texts that are informational (expository) and that represent a variety of nonfiction styles.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1) on page 84 of the *Assessment Resource Book*.

⌚ DO AHEAD *(continued)*

- ✓ (Optional) Prior to Day 3, you might teach the following Technology Mini-lessons in Appendix A: Mini-lesson 1, “Navigating Safely Online”; Mini-lesson 2, “Maintaining Privacy Online”; and Mini-lesson 3, “Showing Respect Online” to help the students learn how to participate safely in online communities. For more information, see “About Digital Citizenship Lessons” on page 702.

In this lesson, the students:

- Work with new partners
- Hear and discuss expository nonfiction
- Explore how information is organized and presented
- Explore and write about topics that interest them

ABOUT TEACHING NONFICTION WRITING

There are three phases to the Expository Nonfiction genre unit in grade 5: Immersion and Topic Exploration; Topic Selection, Research, and Drafting; and Revision, Proofreading, and Publication. During each two-week phase, the students learn interesting ways to organize and present information while cultivating their own curiosity about many fascinating topics.

In Weeks 1 and 2, the students read nonfiction resources about various topics, particularly topics related to Earth or the social sciences, and they write short pieces about the interesting things they learn about those topics. This process prepares them to select, in pairs, one topic of interest to research and write an informational report about. During Weeks 3 and 4, pairs of students research their chosen topics and begin drafting their informational nonfiction reports. The last two weeks of the unit are spent exploring nonfiction craft and conventions and integrating these as appropriate into their final drafts.

The structure of this unit can be used as a model when having students research, write, and publish on a variety of topics, including nature, inventions, countries, and other social studies or science topics.

GETTING READY TO WRITE

1 Pair Students and Discuss Working Together

Randomly assign partners and make sure they know each other's names (see "Do Ahead" on page 343). Have the students bring their notebooks and pencils and gather with partners sitting together, facing you.

Explain that over the next six weeks partners will work together to explore writing nonfiction. They will hear and discuss interesting nonfiction books and write about topics that interest them.

Have partners take a couple of minutes to talk about some of the things they have written so far this year. Signal for their attention and ask:

Q *What did you learn about the writing your partner has done this year?*

Materials

- *I Wonder Why Penguins Can't Fly*
- *Can It Rain Cats and Dogs?* from Unit 1
- Chart paper and a marker
- "Writing Time" chart (WA1)

Teacher Note

The partners you assign today will stay together for the unit. If necessary, take a few minutes at the beginning of today's lesson to let them get to know each other better by talking informally in a relaxed atmosphere.

Teacher Note

If you are teaching other programs from the Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the writing lessons.

Teacher Note

If necessary, remind the students to use the discussion prompts to connect their ideas to those of others. The prompts are:

- "I agree with _____ because . . ."
- "I disagree with _____ because . . ."
- "In addition to what _____ said, I think . . ."

Teacher Note

To review the procedure for defining vocabulary during the read-aloud, see Unit 1, Week 1, Day 1, Step 3 (page 8).

For more information, view "Introducing Vocabulary During a Read-aloud" (AV30).

2 Introduce Nonfiction

Show the cover of *Can It Rain Cats and Dogs?* from Unit 1. Remind the students that they heard this example of nonfiction earlier in the year. Ask and briefly discuss:

Q *What do you know about nonfiction?*

Students might say:

"Nonfiction is real. It's about true things."

"I agree with [Jacob] because you can learn facts from nonfiction."

"It's not a made-up story."

"In addition to what [Delia] said, it can be about science, like animals or planets."

Point out that nonfiction writers present true information on topics they are curious about. They write about these topics in a way that helps readers become curious about them as well. Explain that in the coming weeks the students will hear different examples of nonfiction to help them get ideas for their own nonfiction writing.

3 Read Parts of *I Wonder Why Penguins Can't Fly Aloud*

Show the cover of *I Wonder Why Penguins Can't Fly* and read the title aloud. Then show the title page and read the author's name aloud. Explain that you will read parts of the book aloud, and invite the students to think about how the author presents information in this book.

Show the table of contents and read some of the chapter headings aloud. Then read pages 4–11 (including the captions) aloud slowly and clearly, showing the illustrations and clarifying vocabulary as you read.

Suggested Vocabulary

poles: very top and very bottom of Earth (p. 4)

magnetic field: area that has the power to attract iron or steel (p. 5)

mercury: liquid metal in a thermometer that rises in heat and falls in cold (p. 7)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

tilted: leaning to one side (p. 4)

magnet: metal that pulls iron or steel toward it (p. 5)

compass: instrument that tells which direction is north (refer to illustration) (p. 5)

thermometer: instrument that tells temperature (p. 7)

surrounded: in the middle of people or things (p. 7)

mammoth: prehistoric animal like a hairy elephant (refer to illustration) (p. 9)

As a class, select a few more questions from the “Contents” page and read those chapters aloud.

4 Discuss the Story and Generate Nonfiction Topics

Use “Think, Pair, Share” to discuss:

Q *What did you find out about Earth and seasons?* [pause] Turn to your partner.

Q *If you were going to write a book like this one called I Wonder _____, what might you write about?* [pause] Turn to your partner.

Have volunteers share their thinking.

Students might say:

“I would write *I Wonder Who Invented Snowboarding* because that’s my favorite sport.”

“I would write a book called *I Wonder Why the Titanic Sank*.”

“I would write *I Wonder What Happened to the Mummies* because I’m really interested in mummies.”

After partners have shared their thinking, have a few volunteers share their ideas with the class. Record their ideas on a sheet of chart paper titled “I Wonder _____.”

I Wonder _____

- who invented snowboarding
- why the Titanic sank
- what happened to the mummies
- what causes natural disasters
- what’s in fast food

Teacher Note

Remember to pause for 10 seconds for the students to think before you say “Turn to your partner.” To review the procedure for “Think, Pair, Share,” see Unit 1, Week 2, Day 1 (page 30). To see an example, view “Using ‘Think, Pair, Share’” (AV13).

Teacher Note

Note that on Days 1 and 2 of the unit, the students may write nonfiction or anything else they choose. On Day 3, after exposure to a few more examples of nonfiction, they will all begin writing in this genre.

ELL Note

You might provide the prompt “My partner wrote about . . .” to your English Language Learners to help them verbalize their answers to this question.

5 Review Nonfiction Topics in Writing Notebooks

Ask the students to open to the writing ideas section of their notebooks and review the nonfiction topics they have listed so far this year. Ask and briefly discuss:

Q *What nonfiction topics on your list have you written about so far this year?*

Q *Which of those topics are you still interested in writing about?*

Have the students put a star next to topics they still want to explore and write about.

Explain that during Writing Time today the students may add nonfiction topics to their writing ideas section, think of more ideas for *I Wonder* books, or write about anything else they choose. Make *I Wonder Why Penguins Can't Fly* available for the students to look at if they wish.

WRITING TIME

6 Write Independently

Have the students sit together at desks with partners together. Display the “Writing Time” chart ( WA1) and have them write for 20–30 minutes.

Writing Time

- Add nonfiction topics to your writing ideas section.
- Think of other ideas for *I Wonder* _____ books.
- Write about anything you choose.

WA1

If necessary, remind the students to double-space their writing. Also, review that during Writing Time there should be no talking, whispering, or walking around. Join the students in writing for a few minutes; then walk around the room and observe them, assisting students as needed.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

7 Share Writing and Reflect

Ask partners to briefly tell each other what they wrote about today. Encourage them to listen carefully, as they will be responsible for sharing with the class what their partners wrote about.

After a moment, signal for their attention and ask:

Q *What did your partner write about today?*

Q *What did you and your partner do to work well together when talking and sharing your writing?*

In this lesson, the students:

- Hear and discuss expository nonfiction
- Explore how information is organized and presented
- Quick-write questions they could ask about a nonfiction topic
- Explore and write about topics that interest them
- Cultivate curiosity

ABOUT CULTIVATING CURIOSITY AS A WRITER

Curiosity is an important quality for students to cultivate, both as readers and as budding writers of nonfiction. We want them to learn that they do not need to know everything about a topic before they start writing about it; it is enough to be curious about it and know how to go about finding information. Writing is a process of discovering what we do not know, finding out about those things, and communicating about them in a way that informs and/or makes others curious, too.

To support the goal of cultivating curiosity, consider scheduling field trips to science or art museums, cultural events, or parks and other natural settings during this unit. It is also helpful to collect written resources related to these places for the students to explore back in the classroom.

GETTING READY TO WRITE

1 Discuss Curiosity

Have the students bring their notebooks and pencils and gather with partners sitting together, facing you. Review that yesterday the students began exploring nonfiction. They heard parts of the book *I Wonder Why Penguins Can't Fly* and thought about nonfiction topics they are curious about. Ask and briefly discuss:

Q *Why might curiosity be an important quality for a writer to have?*

Students might say:

"It's good for writers to be curious so they can find out lots of interesting things and write about them."

"If writers aren't curious, they won't get interested in anything to write about."

Explain that writers do not need to know a lot about a topic when they begin writing about it, but they do need to be curious about it. By researching things they are curious about, they gather interesting information that they can share with others in their writing.

Materials

- *I Wonder Why The Sahara Is Cold At Night*
- "Writing Time" chart (WA2)

Teacher Note

For more information about expository nonfiction, view "Cultivating Curiosity in Expository Writing" (AV47).

ELL Note

If necessary, define *curiosity* as "a wish to know more about something."

Explain that today you will read parts of another nonfiction book aloud. Encourage the students to think as they listen about what interests them.

2 Read Aloud and Discuss Parts of *I Wonder Why The Sahara Is Cold At Night*

Show the cover of *I Wonder Why The Sahara Is Cold At Night* and read the title aloud. Then show the title page and read the author's name aloud. Show and read the first few entries in the table of contents and then read pages 4–11. Show the illustrations and read the captions. Clarify vocabulary as you read.

Suggested Vocabulary

annual: yearly (p. 5)

gravelly: made up of small stones and pebbles (p. 5)

salt flats: hard ground where water dried up and left salt (p. 5)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

sweater: a thick, warm shirt, often made from wool (p. 4)

shrubby plants: short plants that look like bushes (p. 6)

roughly the same size: about the same size (p. 7)

spooky: scary, frightening (p. 9)

Ask and briefly discuss:

- Q *What is something interesting you've learned so far about deserts?*
- Q *What are you curious about?*
- Q *How does the author give us information about the desert in this book?*

3 Quick-write: Generate Questions About a Nonfiction Topic

Ask the students to review the nonfiction topics they starred yesterday in their notebooks and pick one that they have not yet written about. Have them open to the next blank page in their writing notebooks and write that topic at the top of the page. Ask them to think quietly for a moment about the following question:

- Q *If you were going to write a question-and-answer book about the topic you chose, what questions could you write about?*

Have the students take 5 minutes to jot down their own questions. Then have them discuss their topics and questions in pairs. Signal for their attention and have them write any additional questions they

Teacher Note

If the students have difficulty reporting things they are curious about, mention one or two things you are curious about; then ask the question again.

ELL Note

If necessary, simplify this question by rephrasing it in the following way:

- Q *What topic do you want to know more about?*
- Q *What do you want to know about that topic? How can you write that as a question?*

thought of while they were talking. Have a few volunteers share their topics and some of their questions with the class.

Explain that during Writing Time today the students may write more questions about the topics they chose, questions for other topics that interest them, or anything they choose. Make *I Wonder Why The Sahara Is Cold At Night* available for the students to look at, if they wish.

WRITING TIME

4 Write Independently

Ask the students to return to their seats with partners sitting together. Display the “Writing Time” chart (🗨️ WA2) and have them write silently for 20–30 minutes.

Writing Time

- Add to the list of questions you began in the quick-write.
- Write questions about other nonfiction topics.
- Write what you know about a particular topic.
- Write about anything you choose.

WA2

Join the students in writing for a few minutes; then walk around the room and observe them, assisting students as needed.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Briefly Share Writing and Reflect on Curiosity

Ask partners to talk briefly about what they wrote about today. Ask them to be ready to share with the class what their partners wrote about.

After a moment, signal for their attention and ask:

- Q *What did your partner write about today?*
- Q *What did your partner write that you are curious to know more about?*

Have a few volunteers share with the class.

Materials

- *I Wonder Why The Sahara Is Cold At Night* from Day 2
- “Writing Time” chart (WA2) from Day 2

In this lesson, the students:

- Hear and discuss expository nonfiction
- Explore how information is organized and presented
- Quick-write questions they could ask about a nonfiction topic
- Explore and write about topics that interest them
- Cultivate curiosity

GETTING READY TO WRITE

1 Briefly Review Curiosity

Have the students bring their notebooks and pencils and gather with partners sitting together, facing you. Review that yesterday the students heard parts of the book *I Wonder Why The Sahara Is Cold At Night* and thought about nonfiction topics they are curious about.

Remind the students that writers do not need to know a lot about a topic when they begin writing about it, but they do need to be curious about it. By researching things they are curious about, they gather interesting information that they can share with others in their writing.

Explain that today you will read aloud more parts of *I Wonder Why The Sahara Is Cold At Night*. Encourage the students to think as they listen about what interests them.

2 Read Aloud and Discuss Parts of *I Wonder Why The Sahara Is Cold At Night*

Remind the students that *I Wonder Why The Sahara Is Cold At Night* asks and answers questions about deserts. Then show the table of contents and read some of the entries listed for pages 12–31. Invite the students to suggest entries for you to read aloud. Read the entries aloud, showing the illustrations and reading aloud the accompanying captions.

Ask and briefly discuss:

- Q *What is something interesting you’ve learned so far about deserts?*
- Q *What are you curious about?*

Teacher Note

If the students have difficulty reporting things they are curious about, mention one or two things you are curious about; then ask the question again.

3 Quick-write: Generating Questions About a Nonfiction Topic

Remind the students that yesterday they reviewed the nonfiction topics they had previously starred in their notebooks and picked one that they had not yet written about. Ask them to do the same today with a different topic in their notebooks. Have them open to the next blank page in their notebooks and write that topic at the top of the page. Ask them to think quietly for a moment about the following question:

Q *If you were going to write a question-and-answer book about the topic you chose, what questions could you write about?*

Have the students take 5 minutes to jot down their own questions. Then have them discuss their topics and questions in pairs. Signal for their attention and have them write any additional questions they thought of while they were talking. Have a few volunteers share their topics and questions with the class.

Explain that during Writing Time today the students may write more questions about the topics they chose, questions for other topics that interest them, or anything they choose. Make *I Wonder Why The Sahara Is Cold At Night* available for the students to look at, if they wish.

WRITING TIME

4 Write Independently

Ask the students to return to their seats with partners sitting together. Display the “Writing Time” chart (WA2) and have them write silently for 20–30 minutes.

Writing Time

- Add to the list of questions you began in the quick-write.
- Write questions about other nonfiction topics.
- Write what you know about a particular topic.
- Write about anything you choose.

WA2

Join the students in writing for a few minutes; then walk around the room and observe them, assisting students as needed.

Signal to let the students know when Writing Time is over.

ELL Note

If necessary, simplify this question by rephrasing it in the following way:

- Q** *What topic do you want to know more about?*
- Q** *What do you want to know about that topic? How can you write that as a question?*

SHARING AND REFLECTING

5 Briefly Share Writing and Reflect on Curiosity

Ask partners to talk briefly about what they wrote about today. Ask them to be ready to share with the class what their partners wrote about.

After a moment, signal for their attention and ask:

Q *What did your partner write about today?*

Q *What did your partner write that you are curious to know more about?*

Have a few volunteers share with the class.

Day 4

Exploring Nonfiction

Materials

- *Rainforests*
- *I Wonder Why The Sahara Is Cold At Night* from Day 3
- *I Wonder Why Penguins Can't Fly* from Day 1
- Chart paper and a marker
- Expository nonfiction books, magazine articles, and other written materials about a variety of topics, collected ahead
- “Writing Time” chart (WA3)
- “Class Assessment Record” sheet (CA1)

In this lesson, the students:

- Hear, read, and discuss expository nonfiction
- Explore nonfiction topics
- Write about what they learned and what they are curious about
- Share materials fairly
- Assess how a solution is working and modify it, if necessary

GETTING READY TO WRITE

1 Discuss Organization in Nonfiction Books

Gather the class with partners sitting together, facing you. Show the covers of *I Wonder Why Penguins Can't Fly* and *I Wonder Why The Sahara Is Cold At Night*, and remind the students that they heard these books earlier in the week. Review that the authors of these two books used questions and answers to organize and present the information. Tell the students that today you will read part of another nonfiction book that organizes information in a different way.

2 Read Aloud and Discuss Part of *Rainforests*

Show the cover of *Rainforests* and read the title aloud. Then show the title page and read the author's name aloud. Show and read the table of contents on page 3 and ask:

Q *What are some things we might learn about in this book?*

Show pages 46–47 and explain that this is a *glossary*, or list of words that the author defines for the reader. Tell the students that glossaries list words in alphabetical order. Explain that you will read part of *Rainforests*

aloud and you will use the glossary to define words as you read. Read pages 4–17 slowly and clearly, showing the illustrations and pointing out features (such as headings, sidebars, and captions) as you read them. Define the words in bold type as you read by turning to the glossary on pages 46–47 and showing and reading the definitions. If necessary, clarify other vocabulary as you read.

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

acrobats: circus performers who perform tricks high in the air (p. 13)

rely: depend upon (p. 15)

soak up: fill with something, the way a sponge fills with water (p. 15)

hardly any: very few (p. 16)

twigs: small, thin sticks (p. 16)

rot: turn bad—the way fruit turns soft, brown, and bad to eat (p. 16)

Ask and briefly discuss:

- Q *What are you curious about as you listen to the reading?*
- Q (Show pages 4–5 and 6–7.) *In the first two chapters, the author writes about what rainforests are and where they are found. What other topics related to the rainforest does he write about?*

Students might say:

“The author writes about the rainforest’s canopy.”

“I agree with [Emile]. He also tells about the rainforest floor.”

“In addition to what [Laura] said, he tells about what it feels like to be in the rainforest.”

Show the table of contents on page 3 and point out that the author organized the information into smaller topics, or subtopics, within the larger topic of rainforests. Subtopics in the book include who lives there (for example, “Rainforest peoples”) and how the rainforest is being destroyed (for example, “Rainforests in danger”).

3 Discuss Nonfiction Resources

Explain that, beginning today, all of the students will focus on reading and writing nonfiction during Writing Time. Tell them that later in the unit, each pair of students will select one topic to research in detail and write an informational report about it to share with the class. To prepare, they will spend the rest of this week and next week exploring different nonfiction topics they are curious about.

Emphasize that the students should not become attached to any particular topic at this point; the goal for the next week is to explore many different topics rather than any one topic in depth.

Teacher Note

Some options for distributing the nonfiction books and materials are:

- While the class is still gathered, read some of the book topics aloud and hand books to the students who show interest in those topics.
- Lay the materials out on a table and call groups to come and browse.
- Expand the nonfiction area of the class library and invite the students to browse and help themselves.
- Place a selection of materials in several baskets and rotate the baskets among table groups over the coming days.

ELL Note

Consider finding nonfiction resources written in your students' primary languages.

Teacher Note

As the students work, ask individuals what they notice about how information is organized in the sources they are reading.

TEKS 9.D.iii

Student/Teacher Activity
Step 5 (all)

Teacher Note

Note that the Writing Time is shortened for the next few days to accommodate the reading of nonfiction texts.

Direct the students' attention to the nonfiction books and materials you have collected. Explain that they may explore these resources as well as any others they might find (for example, at the library or on the Internet) about topics that interest them. Explain that the students will need to share these resources over the coming weeks and ask:

- Q *What will we need to do to share these books and materials fairly?*
- Q *If someone is reading a book you want to look at, what can you do?*
- Q *If you are reading a book someone else is interested in, what can you do to share it fairly?*

Encourage the students to try the methods they suggested for sharing the materials fairly. Tell them you will check in with them at the end of the lesson to see how they did.

Explain how you will distribute the materials, and then have partners sit together at desks.

WRITING TIME

4 Read Nonfiction Texts

Have the students spend 15–20 minutes browsing the nonfiction materials and reading about topics they are curious about. Interested students might visit the school library or search online. Be ready to assist the students with thinking of different subjects they are interested in and finding information about those topics.

5 Write About Nonfiction Reading

Call for the students' attention and have them close their books and other materials. Ask and briefly discuss:

Q *When reading today, what did you notice about how the information is organized?*

Q *What did you find out from your reading, and what are you curious about?*
[pause] *Turn to your partner.*

Have the students open their notebooks to the next blank page. Display the “Writing Time” chart (WA3) and have the students work silently on the charted tasks for 5–10 minutes.

Writing Time

- Write one or two interesting things you found out about a topic today.
- Write one or two things you are curious about.
- Add any new topics that interest you in your writing ideas section.

WA3

As the students write, walk around and observe them, assisting students as needed.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to write about things they have learned or are curious about?

If you notice many students struggling to write, call for their attention and model writing as a class. Call on a volunteer to report what she read about, interesting things she learned, and things she is curious about. Record this information where everyone can see it. After modeling, have the students resume writing on their own for a few more minutes.

Record your observations on the “Class Assessment Record” sheet (CA1); see page 84 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

Ask the students to return the nonfiction materials they read today so others can read them tomorrow.

SHARING AND REFLECTING

6 Reflect on Writing and Sharing Materials Fairly

Invite interested students to read aloud what they wrote today in their notebooks. Ask and briefly discuss questions such as:

- Q *What topics did you explore today?*
- Q *What are you curious about after your reading and writing?*
- Q *How did you share the nonfiction materials fairly? How did that work?*
- Q *What problems, if any, are we still having with sharing materials fairly? What else can we do to avoid those problems next time?*

Teacher Note

Keep the collection of expository nonfiction texts available for the students' use throughout this unit.

Materials

- *Rainforests* from Day 4
- Chart paper and a marker
- Collected nonfiction texts
- “Writing Time” chart (WA3) from Day 4

In this lesson, the students:

- Hear, read, and discuss expository nonfiction
- Explore how information is organized and presented
- Write about what they learned and what they are curious about
- Share materials fairly
- Assess how a solution is working and modify it if necessary

GETTING READY TO WRITE

1 Gather and Briefly Review

Gather the class with partners sitting together, facing you. Show the cover and table of contents of *Rainforests*. Ask:

Q *What do you remember about Rainforests?*

Q *How is the information organized and presented in Rainforests?*

If necessary, remind the students that information in *Rainforests* is organized into chapters by topic.

Explain that the students will hear the last few chapters of *Rainforests* today. Encourage them to think as they listen about what the topics are.

2 Read Aloud and Discuss Part of *Rainforests*

Show the glossary on pages 46–47 and explain that you will use the glossary to define words as you read the last section of the book aloud.

Read pages 36–45 aloud slowly and clearly, showing the photographs and pointing out features (such as headings and captions) as you read them. Clarify vocabulary in bold as you read by turning to the glossary on pages 46–47 and showing and reading the definition. If necessary, clarify other vocabulary as you read.

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

tribes: groups (p. 36)

stilts: long sticks (refer to illustration) (p. 37)

canoes: boats (p. 37)

ancient ceremonies: special events that have been celebrated for a very long time (p. 37)

fair trade: products from other countries that were bought for a fair price (p. 45)

3 Brainstorm Topics

Ask and briefly discuss:

Q *What were you curious about as you listened to the reading?*

Point out that the author writes about a problem related to the rainforests in these chapters. He describes how the rainforests are being destroyed and how there are efforts being made to save them. Explain that the students can also write nonfiction that deals with problems in the world and how the problems might be solved.

Have the students use “Think, Pair, Share” to discuss:

Q *What problems in the world could you explore and write about, and what might you want to find out about those problems? [pause] Turn to your partner.*

After a moment, ask volunteers to report their suggestions and record them on a chart titled “Problems We Can Write About.”

Problems We Can Write About

Shrinking rainforests: What can be done to protect what is left?

Pollution: How can we clean up the environment?

Global warming: What can be done about it?

Prejudice: Why are people prejudiced and what can we do about it?

Poverty: Why are so many people in the world poor?

Explain that during Writing Time today the students may look for information about problems in the world they are curious about, or they may explore other nonfiction topics that interest them. Encourage them, as they read, to notice how information is organized by topic. Remind them of your expectations regarding the handling of collected materials, and remind them of any solutions they proposed yesterday for sharing the materials more fairly. Tell them you will check in with them later to see how they did.

Teacher Note

Save the “Problems We Can Write About” chart to use in Week 2.

Teacher Note

As the students work, ask individuals what they notice about how information is organized in the sources they are reading.

WRITING TIME

4 Read Nonfiction Texts

Have the students get their notebooks and pencils and sit at desks with partners together. Have them spend 15–20 minutes browsing the nonfiction materials and reading about topics they are curious about. Interested students might visit the school library or search online. Be ready to assist the students with thinking about topics and finding information about them.

5 Write About Nonfiction Reading

Call for the students' attention and have them close their books and other materials. Ask and briefly discuss:

Q *When reading today, what did you notice about how the information is organized?*

Q *What did you find out from your reading, and what are you curious to know more about? [pause] Turn to your partner.*

Have the students open their notebooks to the next blank page. Display the “Writing Time” chart (WA3) and have the students work silently on the charted tasks for 5–10 minutes.

Writing Time

- Write one or two interesting things you found out about a topic today.
- Write one or two things you are curious about.
- Add any new topics that interest you in your writing ideas section.

WA3

As the students write, walk around and observe them, assisting students as needed. Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

6 Reflect on Writing and Sharing Materials Fairly

Ask and briefly discuss questions such as:

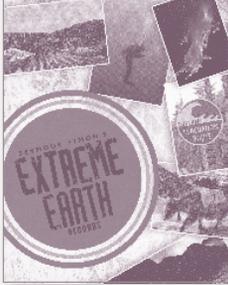

Q *What problems in the world did you explore today?*

- Q *What did you do to share the materials fairly today? How did that work?*
- Q *What problems, if any, are we still having with sharing materials fairly? What else can we do to avoid those problems next time?*

Explain that next week the students will continue to explore different topics they are curious about. Later in this unit, each pair of students will select a topic to research in detail and then write about it and share their writing with the class.

Week 2

OVERVIEW

Extreme Earth Records

by Seymour Simon

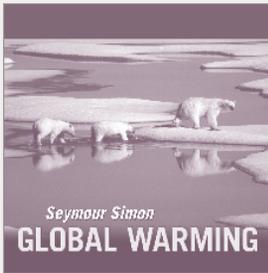

The book explores Earth's highest peaks, lowest valleys, coldest and hottest regions, and other extreme environments.

“About Seymour Simon”

excerpted from *From Paper Airplanes to Outer Space* by Seymour Simon (see page 381)

Seymour Simon describes what it is like to be a nonfiction author.

Global Warming

by Seymour Simon

The book explains what causes global warming and what might be done to deal with the problem.

TEACHER AS WRITER

*“Writing is like exploring. . . .
As an explorer makes maps of
the country he has explored, so
a writer’s works are maps of the
country he has explored.”*

— Lawrence Osgood

Choose one of the topics you listed last week and write that topic at the top of a blank page in your notebook. Then write five questions you have about that topic and five places you could go to look for answers. For example, you might write:

Antarctica

- What lives there?
- Who has explored it?
- Is it changing over time?
- What interesting things have happened there?
- How is the South Pole different from the North Pole?

Places to look for answers might include a world atlas, library books, the Internet, a globe, and memoirs of sailors who explored the area.

Writing Focus

- Students hear and discuss expository nonfiction.
- Students think about different ways to organize and present information in nonfiction.
- Students learn about a professional author’s writing practice.
- Students read and write about topics that interest them.
- Students cultivate and express curiosity about nonfiction topics.

Social Development Focus

- Students act in fair and caring ways.
- Students make decisions and solve problems respectfully.
- Students express interest in and appreciation for one another’s writing.

DO AHEAD

- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2) on page 85 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA3) on page 86 of the *Assessment Resource Book*.

Day 1

Exploring Nonfiction

Materials

- *Extreme Earth Records*
- Chart paper and a marker
- Collected nonfiction texts from Week 1
- “Writing Time” chart (WA3) from Week 1

In this lesson, the students:

- Hear, read, and discuss expository nonfiction
- Generate ideas for nature topics they can write about
- Write about what they learned and what they are curious about
- Share materials fairly

GETTING READY TO WRITE

1 Briefly Review Nonfiction

Gather the class with partners sitting together, facing you. Remind the students that last week they began exploring nonfiction writing, or writing that gives true information about real things. Explain that they will continue to hear, read, and discuss nonfiction this week in preparation for selecting a topic to research and write about next week.

2 Read Parts of *Extreme Earth Records* Aloud

Show the cover of *Extreme Earth Records* and read the title and author’s name aloud. Explain that Seymour Simon is a well-known children’s book author who has written many nonfiction books about the natural world. Invite the students to think as they listen about things in nature that they might want to write about. Read pages 9–19 aloud, showing the photographs and clarifying vocabulary as you read.

Suggested Vocabulary

acclimate: become used to conditions, such as weather and altitude (p. 9)

suffocating: dying due to lack of air (p. 9)

uncontaminated: pure, free of pollution (p. 10)

siblings: brothers and sisters (p. 17)

remote: far from other places (p. 17)

crested: having head feathers that stick straight up (p. 18)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

your eyes twitch: your eye muscles move quickly on their own (p. 9)

glacier: thick sheet of ice (p. 9)

bacteria: very small living things (p. 10)

frostbite: skin damage caused by extreme cold (p. 10)

paved roads: roads with a smooth, firm surface (p. 14)

battered: hit hard many times (p. 17)

Ask and briefly discuss:

Q *What are you curious about as you listen?*

Flip through a few more pages of the book, showing the photographs. Explain that the book tells about other extreme places, like the rainiest and snowiest, and about extreme events, such as earthquakes, volcanic eruptions, and tsunamis.

3 Generate Ideas for Nature Topics to Write About

Point out that the students have heard read-alouds about different nature topics, including polar regions, deserts, and rainforests. Use “Think, Pair, Share” to discuss:

Q *What other topics about the natural world are you curious about?* [pause]
Turn to your partner.

After a moment, ask volunteers to share their ideas and record them on a sheet of chart paper titled “Nature Topics We Can Write About.”

Nature Topics We Can Write About

Tornadoes: What causes them and where do they happen?

Earthquakes: What causes them and how can people prepare for them?

Volcanoes: Where are they and why do they erupt?

Planets: How many are in our solar system and which ones can be seen without a telescope?

Weather: How do scientists predict it?

Explain that during Writing Time the students may look for information about nature topics they are curious about, or they may continue to explore any other nonfiction topics that interest them. Remind them of your expectations regarding the handling of collected materials. Have students get their notebooks and pencils and sit at desks with partners together.

Teacher Note

Save the “Nature Topics We Can Write About” chart for use on Day 2.

WRITING TIME

4 Read Nonfiction Texts

Have the students spend 15–20 minutes browsing the nonfiction materials and reading about topics they are curious about.

Interested students might visit the school library or search online during this period. Be ready to assist the students in thinking of different topics that interest them and finding information about those topics.

5 Write About Nonfiction Reading

Call for the students' attention and have them close their books and other materials. Ask and briefly discuss:

Q *When reading today, what did you notice about how the information is organized?*

Q *What did you find out from your reading today, and what are you curious about? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class.

Have the students open their notebooks to the next blank page. Display the “Writing Time” chart (WA3) and have the students work silently on the charted tasks for 5–10 minutes.

Writing Time

- Write one or two interesting things you found out about a topic today.
- Write one or two things you are curious about.
- Add any new topics that interest you in your writing ideas section.

WA3

As the students write, walk around and observe them, assisting students as needed. Signal to let the students know when Writing Time is over.

Ask the students to return the nonfiction materials they read today so others can read them tomorrow. Remind them not to become attached to any particular book or topic at this point; they will explore many different topics before choosing one to explore in depth.

SHARING AND REFLECTING

6 Reflect on Nonfiction

Ask and briefly discuss questions such as:

- Q *You've had a chance to hear and read several nonfiction texts. What have you learned about nonfiction?*
- Q *What are some different ways that you have noticed authors organize and present nonfiction information?*

Invite interested students to read aloud what they wrote in their notebooks today.

Exploring Nonfiction

Day 2

In this lesson, the students:

- Hear, read, and discuss expository nonfiction
- Write about what they learned and what they are curious about
- Share materials fairly

GETTING READY TO WRITE

1 Discuss Curiosity

Have the students bring their notebooks and pencils and gather with partners sitting together, facing you. Review that the students have been developing their curiosity about nonfiction topics and that it is important for nonfiction writers to be curious about many things. Point out that learning a little bit about a topic can often lead to greater curiosity about it. Ask and briefly discuss:

- Q *What topics are you curious about now that you weren't very curious about before? What has helped you become curious?*

Encourage the students to continue to develop their curiosity as they explore and read about topics that interest them. Explain that you will read from another book about the natural world today, and invite the students to think as they listen about what they are curious about.

2 Discuss the Glossary and Index in *Global Warming*

Show the cover of *Global Warming* and read the title and author's name aloud. Remind the students that they heard parts of *Extreme Earth Records* by the same author yesterday. Point out that the author has

Materials

- *Global Warming*
- *Extreme Earth Records* from Day 1
- "Nature Topics We Can Write About" chart from Day 1 and a marker
- Collected nonfiction texts
- "Writing Time" chart (WA3) from Day 1

included some special features at the end of the book. Read the heading “Glossary” aloud, and review that a *glossary* is an alphabetical list of words found in the book, along with their definitions.

Read the heading “Index” aloud, and explain that an *index* is also an alphabetical list of words found in the book, with page numbers next to them. Readers who want to learn about a topic they think might be included in the book can look up the topic in the index and then turn to the page listed next to the topic. Read aloud some of the words in the index and invite a volunteer to pick one. Read aloud the first page number listed for the word. Then turn to the page listed and read a short passage that includes that word. Follow the same procedure to look up one or two more words from the index.

3 Read and Discuss the First Half of *Global Warming*

Read pages 5–15 of *Global Warming* slowly and clearly, showing the photographs. Define difficult words such as *atmosphere*, *carbon dioxide*, and *greenhouse gases* as you read by turning to the glossary on page 32 and showing and reading the definitions. If necessary, clarify other vocabulary as you read.

Suggested Vocabulary

average: normal, in the middle between a high point and a low point (p. 5)

impact: effect, result (p. 5)

variations: differences (p. 9)

convert: change (p. 10)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

bounces: moves quickly in the opposite direction after hitting something (p. 6)

balance: steady amount (p. 10)

Ask and briefly discuss:

- Q *What did you learn about global warming that you were curious about?*
- Q *What questions did this book raise for you?*

4 Add Ideas to “Nature Topics We Can Write About” Chart

Briefly review the “Nature Topics We Can Write About” chart, and remind the students that they brainstormed these nonfiction topics yesterday. Ask and briefly discuss:

- Q *What other topics about nature might you want to learn more about?*

TEKS 13.A.ii
Student/Teacher Activity
Step 4

Have a few volunteers share their ideas with the class. As they report, add their ideas to the “Nature Topics We Can Write About” chart.

Nature Topics We Can Write About

Tornadoes: What causes them and where do they happen?

Earthquakes: What causes them and how can people prepare for them?

Volcanoes: Where are they and why do they erupt?

Planets: How many are in our solar system and which ones can be seen without a telescope?

Weather: How do scientists predict it?

Hibernation: Why do some animals hibernate and others don't?

Gasoline: What is it and where does it come from?

Electricity: What is it and how do we make it?

Explain that during Writing Time the students may continue to browse the nonfiction materials and look for information about nature topics they are curious about, or they may explore any other nonfiction topics that interest them. Remind them of your expectations regarding the handling of collected materials, and have partners sit together at desks. Make *Global Warming* available for the students to look at on their own, if they wish.

WRITING TIME

5 Read Nonfiction Texts

Have the students spend 15–20 minutes browsing the nonfiction materials and reading about topics they are curious about. Interested students might visit the school library or search online during this period. Be ready to assist the students in thinking of different subjects that interest them and finding information about those topics.

6 Write About Nonfiction Reading

Call for the students' attention and have them close their books and other materials. Use "Think, Pair, Share" to discuss:

Q *What did you find out from your reading today, and what are you curious about?* [pause] *Turn to your partner.*

After partners have shared, have a few volunteers share their thinking with the class.

Have the students open their notebooks to the next blank page. Display the "Writing Time" chart (WA3) and have the students work silently on the charted tasks for 5–10 minutes.

Writing Time

- Write one or two interesting things you found out about a topic today.
- Write one or two things you are curious about.
- Add any new topics that interest you in your writing ideas section.

WA3

As the students write, walk around and observe them, assisting students as needed. Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

7 Reflect on Writing

Ask and briefly discuss:

Q *What nature topics did you explore today?*

Q *What else would you like to add to our "Nature Topics We Can Write About" chart?*

As the students suggest topics, add them to the chart.

Teacher Note

Save the "Nature Topics We Can Write About" chart to use on Day 3 and throughout the unit.

In this lesson, the students:

- Hear, read, and discuss expository nonfiction
- Write about what they learned and what they are curious about
- Share materials fairly

GETTING READY TO WRITE**1** Briefly Review *Global Warming*

Have the students bring their notebooks and pencils and gather with partners sitting together, facing you. Remind the students that they have been developing their curiosity about nonfiction topics and that it is important for nonfiction writers to be curious about many things. Review that yesterday they heard a few chapters from the book *Global Warming*. Ask and briefly discuss the questions that follow. Be ready to reread from the book to help the students recall what they heard.

Q What are some things you learned about global warming? Turn to your partner.

Q What else are you curious to know about global warming?

Invite the students to notice if the parts of the book you read today provide information about some of the things they want to know about global warming and to think about what else they would like to know.

2 Read Aloud and Discuss the Second Half of *Global Warming*

Show the cover of *Global Warming* and read pages 16–31 aloud, showing the photographs as you read. Define difficult words and phrases such as *El Niño*, *glacier*, *ice sheet*, and *incandescent lightbulb* as you read by turning to the glossary on page 32 and showing and reading the definition. If necessary, clarify other vocabulary as you read.

Suggested Vocabulary

receding: growing smaller (p. 16)

limestone: white rock containing the shells and skeletons of sea creatures (p. 20)

bleaches: whitens (p. 20)

droughts: periods of time with little or no rain (p. 23)

Materials

- *Global Warming* from Day 2
- *Extreme Earth Records* from Day 1
- “Nature Topics We Can Write About” chart from Day 2 and a marker
- “Problems We Can Write About” chart from Week 1
- Collected nonfiction texts
- “Writing Time” chart (WA3) from Day 2
- “Class Assessment Record” sheet (CA2)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

wiped out: completely killed (p. 20)

solar: sun-made (p. 27)

sturdy: hard to break (p. 28)

efficient: does not waste energy (p. 29)

Ask and briefly discuss:

- Q *What did you learn about global warming that you were curious about?*
- Q *What questions did this book raise for you?*

3 Add Ideas to “Nature Topics We Can Write About” Chart

Briefly review the “Nature Topics We Can Write About” chart and remind the students that they brainstormed these nonfiction topics.

Ask and briefly discuss:

- Q *What other topics about nature, such as global warming, might you want to learn more about?*

Have a few volunteers share their ideas with the class. As they report, add their ideas to the “Nature Topics We Can Write About” chart.

Nature Topics We Can Write About

Tornadoes: What causes them and where do they happen?

Earthquakes: What causes them and how can people prepare for them?

Volcanoes: Where are they and why do they erupt?

Planets: How many are in our solar system and which ones can be seen without a telescope?

(continues)

(continued)

Weather: How do scientists predict it?

Hibernation: Why do some animals hibernate and others don't?

Gasoline: What is it and where does it come from?

Electricity: What is it and how do we make it?

Rocks: How do they form? Where do they come from?

The heart: How does it work? What makes it beat?

Clouds: Why are there different shapes of clouds?

Explain that during Writing Time the students may continue to browse the nonfiction materials and look for information about nature topics they are curious about, or they may explore any other nonfiction topics that interest them. Tell students that if they wish they may also refer to the “Problems We Can Write About” chart from last week. Remind them of your expectations regarding the handling of collected materials, and have partners sit together at desks.

WRITING TIME

4 Read Nonfiction Texts

Have the students spend 15–20 minutes browsing the nonfiction materials and reading about topics they are curious about. Interested students might visit the school library or search online during this period. Be ready to assist the students in thinking of different subjects that interest them and finding information about those topics.

5 Write About Nonfiction Reading

Call for the students’ attention and have them close their books and other materials. Use “Think, Pair, Share” to discuss:

Q *What did you find out from your reading today, and what are you curious about?* [pause] *Turn to your partner.*

After partners have shared, have a few volunteers share their thinking with the class.

Have the students open their notebooks to the next blank page. Display the “Writing Time” chart (C WA3) and have the students work silently on the charted tasks for 5–10 minutes.

WA3

Writing Time

- Write one or two interesting things you found out about a topic today.
- Write one or two things you are curious about.
- Add any new topics that interest you in your writing ideas section.

As the students write, walk around and observe them, assisting students as needed.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to write information they have learned about other topics?

If you notice students struggling to write, call for the class’s attention and ask a few volunteers to read what they have written so far aloud. Then have the students resume writing on their own for a few more minutes.

Record your observations on the “Class Assessment Record” sheet (CA2); see page 85 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

6 Reflect on Writing

Ask and briefly discuss:

- Q *What topics did you explore today?*
- Q *What else would you like to add to our “Nature Topics We Can Write About” chart?*
- Q *What other problems can we add to our “Problems We Can Write About” chart?*

As the students suggest topics, add them to the chart.

In this lesson, the students:

- Hear, read, and discuss expository nonfiction
- Learn about a professional author's writing practice
- Write about what they learned and what they are curious about
- Share materials fairly

GETTING READY TO WRITE**1** Briefly Review *Extreme Earth Records* and *Global Warming*

Gather the class with partners sitting together, facing you. Review that the students heard parts of two nonfiction books by Seymour Simon this week: *Extreme Earth Records* and *Global Warming*. Ask and briefly discuss:

Q *After hearing parts of Extreme Earth Records and Global Warming, what kind of person do you think Seymour Simon, the author, might be?*

Explain that today the students will learn a little about Seymour Simon from his book *From Paper Airplanes to Outer Space*, in which he describes his life as an author. Invite the students to imagine what it would be like to be a nonfiction writer as they listen.

2 Read and Discuss “About Seymour Simon”

Read “About Seymour Simon” (see page 381) aloud, slowly and clearly.

Ask and briefly discuss the following questions. Be ready to reread from the text to help the students recall what they heard. Ask:

Q *What clues did you hear that tell you that Seymour Simon is a curious person?*

Q *How does he get information about things he is curious about?*

Q *Would you enjoy a life as a nonfiction author? Why or why not?*

Explain that during Writing Time today the students may continue to browse the nonfiction materials and read about nonfiction topics that interest them. Remind them of your expectations regarding the handling of collected materials. Have the students get their notebooks and pencils and sit at desks with partners together. Make *Global Warming* and *Extreme Earth Records* available for the students to look at on their own, if they wish.

Materials

- *Global Warming* from Day 3
- *Extreme Earth Records* from Day 3
- “About Seymour Simon” (see page 381)
- Collected nonfiction texts
- “Nature Topics We Can Write About” chart from Day 3 and a marker
- “Writing Time” chart (WA3) from Day 3

WRITING TIME

Writing Time

- Write one or two interesting things you found out about a topic today.
- Write one or two things you are curious about.
- Add any new topics that interest you in your writing ideas section.

WA3

ELL Note

Tomorrow partners will begin working on a joint nonfiction report about a topic they agree to research.

If you have beginning English speakers, consider having each of them join an existing pair of fluent English speakers for this project. While you will need to provide support to trios to make sure pairs are integrating the third student and that they are sharing the work fairly, the benefit to ELLs of having two fluent English speakers to interact with and listen to will make this additional support worthwhile.

To learn more, view "Adapting Lessons for English Language Learners" (AV32).

As the students write, walk around and observe them, assisting students as needed.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Reflect on Writing

Invite interested students to read aloud what they wrote today in their notebooks. As the students share, discuss as a class questions such as:

Q *What can we ask [Ming] about what he shared?*

Q *What did you hear that makes you curious about [Ming's] topic?*

EXTENSION

Explore Other Books by Seymour Simon

Consider reading and discussing other nonfiction books by Seymour Simon, including *Lightning*, *Volcanoes*, *Oceans*, and *Destination: Space*.

TECHNOLOGY EXTENSION

Watch or Read an Interview with Seymour Simon

Seymour Simon, the author of *Global Warming* and *Extreme Earth Records*, has written many books for children. To learn more about the author and his work, have the students watch or read an interview with him. To find a video or print interview with the author, search online using his name and the keyword “video” or “interview.” After the students watch the video or read the interview, have them discuss what they learned about the author’s life and his thoughts about writing.

Teacher Note

An interview with Seymour Simon is available on the Center for the Collaborative Classroom’s website (collaborativeclassroom.org/seymour-simon).

Technology Tip

For more information about using web-based resources, view the “Using Web-based Teaching Resources” tutorial (AV75).

Exploring Nonfiction and Pair Conferring

Day 5

In this lesson, the students:

- Discuss topics they are curious about in pairs
- Cultivate and express curiosity
- Explore and write about nonfiction topics in pairs
- Make fair decisions

GETTING READY TO WRITE

1 Review Writing from the Past Two Weeks

Have the students bring their notebooks and pencils and gather with partners sitting together, facing you. Explain that today partners will meet to confer about the nonfiction topics they have explored over the past two weeks. They will share what they wrote about various topics they explored and talk about what they learned.

Ask the students to spend a few moments quietly rereading the writing they have done in their own notebooks over the past two weeks. After

Materials

- A sheet of lined paper for each pair of students
- Collected nonfiction texts
- “Writing Time” chart (WA3) from Day 4
- “Class Assessment Record” sheet (CA3)

ELL Note

If you have decided to have ELL students join existing pairs, give the trios a few minutes to talk informally and get to know one another before they begin to work together.

Facilitation Tip

During this unit, we invite you to practice **asking facilitative questions** during class discussions to help the students respond directly to one another, not just to you. After a student comments, ask the class questions such as:

- Q *Do you agree or disagree with [Ken]? Why?*
- Q *What questions can we ask [Ken] about what he said?*
- Q *What can you add to what [Ken] said?*

To see this Facilitation Tip in action, view “Asking Facilitative Questions” (AV22).

Teacher Note

You may want to let the students spread out around the classroom during the conferences so partners can hear each other.

sufficient time, signal for their attention and have them think to themselves about the following questions:

- Q *What topics have you explored so far?*
- Q *What are you curious about as you review your writing?*

2 Discuss Expressing Curiosity in a Partner’s Work

Explain that as partners share today about the topics they have explored, it will be important for them to express curiosity about each other’s topics and find out as much as they can about them.

Ask a student volunteer to read aloud one piece she wrote during the past two weeks. As a class, discuss:

- Q *What questions can we ask [Abbie] about her topic?*
- Q *If you were going to research [Abbie’s] topic, what would you want to know more about?*

Students might say:

“[Abbie], what else did you find out about volcanoes?”

“When you read about volcanoes, what did you find out about volcanoes that are active today?”

“I’m curious about what causes volcanoes and why they are more common in some parts of the world than others.”

Encourage partners to ask each other questions like these and to express their curiosity as they share their writing and thinking today.

3 Confer in Pairs

Give partners ample time to share their writing from the past two weeks with each other. As they work, walk around and observe them, offering assistance as needed.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners staying on task, sharing their writing and thoughts about topics?
- Are they asking each other questions and expressing their curiosity?

Note any difficulties you observe to discuss with the students during the reflection discussion.

Record your observations on the “Class Assessment Record” sheet (CA3); see page 86 of the *Assessment Resource Book*.

When most pairs have had time to discuss their writing, signal for the class’s attention.

4 Reflect on Pair Conferences

Ask and discuss:

- Q *What topics got you and your partner talking today? What did you talk about?*
- Q *Did you feel like your partner was curious about the topics you shared? What made you feel that way?*
- Q *I noticed that [some partners were doing other things while their partner was sharing with them]. Why do we want to avoid that in our community? What can we do next time to [support our partners]?*

Explain that during Writing Time today partners will work together to explore nonfiction topics that they both are interested in.

Encourage the students to explore any topics or questions that came up during their conferences today. Remind them of your expectations regarding the handling of collected materials, and have partners sit together at desks.

WRITING TIME

5 Read Nonfiction Texts in Pairs

Have partners spend 15–20 minutes browsing the nonfiction materials and reading about topics they are both curious about. Interested pairs might visit the school library or search online. Be ready to assist the students with finding information about topics that interest them.

6 Write About Nonfiction Reading

Call for the students' attention and have them close their books and other materials. Use “Think, Pair, Share” to discuss:

- Q *What did you find out from your reading today, and what are you curious about? [pause] Turn to your partner.*

Have the students open their writing notebooks to the next blank page. Display the “Writing Time” chart (WA3) and have the students work silently on the charted tasks for 5–10 minutes.

Writing Time

- Write one or two interesting things you found out about a topic today.
- Write one or two things you are curious about.
- Add any new topics that interest you in your writing ideas section.

WA3

As the students write, walk around and observe them, assisting students as needed.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

7 Reflect on Writing

Invite interested students to read aloud what they wrote today in their notebooks. As the students share, discuss as a class questions such as:

Q *What can we ask [Amber] about what she shared?*

Q *What did you hear that makes you curious about [Amber's] topic?*

Excerpt

About Seymour Simon

excerpted from *From Paper Airplanes to Outer Space*
by Seymour Simon

“I began writing when I was a child. I loved reading science fiction stories, so my first story was about space monsters. I wrote it in my notebook when I was in second grade. Years later I wrote a book called *Space Monsters*. I often write about things that I remember from my childhood.

“All my life I’ve loved to explore the world around me. At first, I explored what I found near my home. Then I learned that I could explore by reading. I read about dinosaurs, sharks, whales, and wolves and explored mountains, oceans, deserts, and volcanoes.

“With books I could explore distant places. But with my imagination I could go even further. I looked up at the night sky and learned how to find the North Star and recognize the Big Dipper. I wondered whether distant stars had planets with people living on them.

“Now I’m writing books about all these things.

“For my books about oceans, volcanoes, deserts, mountains, and the seasons, I go to the place I’m writing about and take the photographs myself. For my books about comets, meteors, the earth, the moon, the sun, and the different planets, I get the most up-to-date information from space scientists around the world. We write letters and talk on the telephone. I also use the Internet to do research.

“Children often ask me, ‘Will you ever run out of ideas for books?’

“I reply, ‘I can’t imagine that ever happening.’

“Our world and the universe are so full of wonders and marvels to observe and explore—and of course, to write about!”

Excerpts from *From Paper Airplanes to Outer Space* by Seymour Simon from *Meet the Author* collection published by Richard C. Owen Publishers, Katonah, NY 10536 — www.RCOwen.com.

Week 3

OVERVIEW

Writing Focus

- Students select nonfiction topics to research and write about.
- Students do pre-research writing to determine what they are curious about.
- Students explore using effective Internet search terms.
- Students identify and use various sources of information.
- Students take notes in their own words.
- Students cultivate curiosity.

Social Development Focus

- Students make decisions and solve problems respectfully.
- Students work in a responsible way.
- Students act in fair and caring ways.

DO AHEAD

- ✓ Prior to Day 1, choose a topic from either the “Problems We Can Write About” chart or the “Nature Topics We Can Write About” chart (for example, tsunamis) to use to model the process of researching and writing an informational report. Collect resources about the topic, such as books or information printed from online sources. Think ahead about what you know about the topic you have chosen.
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA4) on page 87 of the *Assessment Resource Book*.
- ✓ Prior to Day 2, decide if you will allow small groups of students to visit the library, media center, computer lab, or another location in the school to research their topics during Writing Time. Arrange for this ahead of time with the librarian or other adults in the school.
- ✓ Prior to Day 2, generate four or five questions about the topic you have chosen for modeling (for example: What causes a tsunami? How big and fast can a tsunami be? What interesting facts are there about tsunamis?). Identify passages in your sources that give information about these topics.
- ✓ Prior to Day 3, spend some time becoming familiar with a few search engines and decide which one you will use for modeling during the lesson. Many search engines are available, including some that are intended for students’ use. Check that the preferences on the search engine you select to use with the class have been set to “Strict,” “Safe,” or a comparable setting.
- ✓ Prior to Day 3, prepare a paper chart titled “How to Turn a Research Question into a Search Query” with the following numbered items on it:
 1. Write down your research question.
 2. Circle the words you definitely need.
 3. Cross out unnecessary words.
 4. Add or substitute more specific words if needed.
 5. Decide in what order to write the words.

TEACHER AS WRITER

“Get your facts first, and then you can distort ’em as much as you please.”

— Mark Twain

Choose another topic from the list you made in Week 2 and repeat that activity. Write five questions you have about that topic and see if you can find answers to your questions at the library, on the Internet, or through other sources.

⌚ DO AHEAD *(continued)*

- ✓ Prior to Day 4, prepare a paper chart titled “Important Information About Books and Websites” (see diagram on page 397).
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA5) on page 88 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, make a class set of the “Conference Notes: Focus 1” record sheet (CN1) on page 94 of the *Assessment Resource Book*.

In this lesson, the students:

- Discuss topics they have explored
- With a partner, select a topic to research and write about
- Do pre-research writing about their topics
- Reach agreement before making decisions
- Make fair decisions
- Cultivate curiosity

ABOUT SUPPORTING PARTNER WORK

In this unit, each student works with a partner to produce a nonfiction report about a topic they both are curious about. Their writing in this unit will consist primarily of factual information they have found in books and other sources. The partner work is intended to support the students by inciting discussion about the facts they find, what those facts mean, whether they want to include those facts in their written report, and how they will write about those facts in their own words.

Both partners are responsible for the form and content of the final product, and each partner is responsible for researching and writing a part. During this process, partners talk about their thinking and learn from each other as they negotiate to reach agreements and make decisions together.

The cooperative work in this unit may challenge your students. The goals are for them to learn how to handle problems as they arise and to make decisions that both partners think are fair. If you notice partners struggling to work together, use these occasions as learning opportunities. Ask questions such as:

- Q *What problem are you trying to solve? Why is it important to solve it?*
- Q *What is a solution you can both live with, even if it's not your first choice?*
- Q *Is that solution fair to both of you? Why or why not?*

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their pencils and notebooks and gather with partners sitting together, facing you. Review that they have been hearing and discussing various kinds of nonfiction texts and exploring topics that interest them.

Materials

- A self-stick note for each pair
- “Pre-research Writing” chart (WA4)
- “Class Assessment Record” sheet (CA4)
- “Problems We Can Write About” chart from Week 2
- “Nature Topics We Can Write About” chart from Week 2

Teacher Note

To see an example of this technique, view “Supporting Note-taking and Partner Work” (AV48).

Teacher Note

In this unit, each pair of students may decide on any topic of interest to research, as long as both partners agree. This can be both motivating and challenging for students. If their topic is very different from the topic you are modeling with, they may not benefit from your modeling to the extent they need (for example, in categorizing and ordering their notes in Week 4). If you feel that students—either your whole class or specific pairs—need this support, have them choose a topic from the “Problems We Can Write About” chart or the “Nature Topics We Can Write About” chart, and plan to model with a topic from one of these charts as well.

TEKS 1.B.i

Student/Teacher Activity Step 2

Teacher Note

If you notice partners having difficulty agreeing on a topic, support them by asking them questions such as:

- Q** *What topics did you each research over the past two weeks that were interesting? What similar topic can the two of you research together?*
- Q** *Let’s look at the writing ideas section in your notebooks. What topics did you both list?*
- Q** *It doesn’t seem like either of you will get your first choice. What second or third choice might you be able to agree on?*

ELL Note

Monitor trios of students to make sure that ELLs are participating in selecting the topics for their trios to research.

TEKS 1.D.i

Student/Teacher Narrative Step 2 (third paragraph on)

Remind the students that they learned about Seymour Simon and that he, like many nonfiction authors, writes because he loves to explore topics that interest him. Ask and briefly discuss:

- Q** *What topics have you begun to explore and wonder about over the past two weeks?*

Explain that in the coming weeks each pair of students will explore and write an informational report on a topic they are curious about. Like Seymour Simon, they will write to satisfy their own curiosity and to help others understand and enjoy learning about the topic they choose. They will publish their report and put it in the nonfiction section of their class library.

2 Discuss and Select Topics

Ask the students to spend a few minutes reviewing their own writing from Weeks 1 and 2. After sufficient time, call for their attention. Then have them review with their partners the topics they have explored.

Signal for their attention and explain that each pair of students will select one topic to research and write about in the coming weeks. Point out that it should be a topic that is new and interesting to both partners. Before they select, ask and briefly discuss:

- Q** *What can you do to make sure you choose a topic that both you and your partner are curious about?*
- Q** *Why is it important that one partner doesn’t just “give in” to the other?*
- Q** *If you want to work on a particular topic but your partner doesn’t want to, what can you do?*

Students might say:

“I think it’s important for both partners to be happy with the topic because otherwise one partner will not be as interested as the other.”

“In addition to what [Samuel] said, if your partner doesn’t agree with your first choice, you might have to go with your second choice.”

“My partner and I will keep talking until we find a topic we’re both excited about.”

Have partners talk and decide on a topic they are very curious about. Encourage partners to keep talking until both partners agree, and discourage the use of methods like “Rock, Paper, Scissors” to decide. You might suggest that partners who are struggling spend some time looking at nonfiction books together. Students in some pairs may need additional time tomorrow to discuss and agree on their topics.

When most students are finished, signal for their attention. Ask and briefly discuss:

- Q** *How did you and your partner make your decision? What’s another way a pair of students decided?*
- Q** *What problems did you have making the decision? How did you solve those problems?*

Have the students in each pair report their topic to you, one at a time.

3 Model Pre-research Writing About a Topic

Tell the students that you have selected a topic that you are curious about. Name the topic (for example, tsunamis; see “Do Ahead” on page 383). Explain that you will research and write a report about this topic to model for the students what they will do in the coming weeks.

Explain that today the students in each pair will do some pre-research writing about their topic to find out what they already know, or think they know, about it. Display the “Pre-research Writing” chart (WA4). Ask the students to watch as you think aloud about what you know, or think you know, about this topic, and what else you are curious to find out. Write several sentences on the chart.

Pre-research Writing

Tsunamis are one of the most powerful forces on Earth. They are giant waves that start out in the ocean and do an enormous amount of damage when they hit the shore. I think tsunamis often happen after large earthquakes. One thing I wonder is if tsunamis happen only because of earthquakes or if they can happen for other reasons, too.

WA4

Explain that during Writing Time each student will do some pre-research writing about her pair’s chosen topic in her own notebook. Then partners will share what they have written with each other. Encourage the students to write freely about everything they know, or think they know, about their topic, as well as what else they are curious to find out.

WRITING TIME

4 Do Pre-research Writing

Have the students sit at desks with partners together. Have them spend 15–20 minutes writing what they know, or think they know, about their topic. Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

Teacher Note

Keep a record of the topics the students have selected, and use it to help you gather resources for them to use. Allow the students in each pair to choose whatever topic they both find interesting at this point. There will be opportunities in the coming days for you to provide guidance and help them narrow topics that are too broad.

Teacher Note

In the coming three weeks, you will model researching your chosen topic, writing and organizing notes about it, and using the notes to begin writing a nonfiction report about it. (Diagrams throughout the unit show how to model the process for the students.) The students will follow your example to research and write about their own topics. Plan to research and take notes about your topic, gathering additional resources if necessary, so you have notes to use in the modeling.

Teacher Note

Save the “Pre-research Writing” chart (WA4) to use on Day 2 and throughout the unit.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students write freely and with interest about their topics?

If you notice any student having difficulty writing, ask the student to tell you what he knows about the topic. You might also ask whether he has written anything about this topic in the past two weeks. If so, have the student review that writing. If not, ask the student to write what he is curious to know.

Record your observations on the “Class Assessment Record” sheet (CA4); see page 87 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Reflect in Pairs on Pre-research Writing

Have partners read and discuss their pre-research writing with each other. After they have had time to share, ask and briefly discuss:

Q *What did your partner write about your topic that you did not write?*

Q *What are some things that you and your partner are both curious to know about this topic? [pause] Turn to your partner.*

Explain that tomorrow partners will continue to discuss what they are curious about and then begin their research.

Teacher Note

Collect any additional resources you can find related to your students' chosen topics to use in Day 2.

In this lesson, the students:

- Review and discuss pre-research writing
- Generate research questions about their topics
- Identify and use various sources of information
- Cultivate curiosity
- Reach agreement before making decisions
- Make fair decisions

ABOUT GENERATING RESEARCH QUESTIONS

This week and next, partners generate questions to research about the topics they have chosen and then research those questions. In today's lesson, you will model the process of generating several questions, drawing on your own pre-research writing for inspiration. Then partners will do the same. Generating research questions may prove challenging for your students. Support struggling students by asking questions such as:

Q *What is a question that you would like to ask about the topic you are researching? How might you write that question?*

Q *What did you include in your pre-research writing that you would like to learn more about?*

Once the students have generated a list of questions, some may become overly focused on finding the answers, ignoring other interesting information that could enrich their reports. Over the coming weeks, continue to discuss with your students the importance of approaching their research with curiosity. Encourage each pair of students to continue adding to their list of questions and to take notes on anything they find interesting about their chosen topic, whether or not it answers one of their original questions.

GETTING READY TO WRITE

1 Discuss Pre-research Writing

Have the students bring their notebooks and pencils and gather with partners sitting together, facing you. Review that partners selected a topic to research and write about together and that they did pre-research writing about the topic yesterday. Remind them that the purpose of pre-research writing is to help them see what they already know, or think they know, and to determine what they want to find out.

Display the “Pre-research Writing” chart (WA4) from Day 1, and read it aloud. Think aloud about questions you have about the topic you are

Materials

- “Pre-research Writing” chart (WA4) from Day 1
- Chart paper and a marker
- Collected nonfiction texts from Weeks 1 and 2, as well as additional resources related to the students’ chosen topics
- “Writing Time” chart (WA5)

researching. Record these questions on a sheet of chart paper titled “Questions About Tsunamis.”

You might say:

“I wrote a bit about how tsunamis happen after earthquakes. I’d like to know more about what causes them. I also wonder how big and fast they can be. I’d also like to research what was the most destructive tsunami ever and other interesting facts.”

Questions About Tsunamis

What causes a tsunami?

How big and fast can a tsunami be?

Where and when were the most destructive tsunamis?

How do scientists predict tsunamis?

What interesting facts are there about tsunamis?

Teacher Note

Save the “Questions About Tsunamis” chart to use on Day 3 and throughout the unit.

Point out that the students will have an easier time finding information about their topics if they have specific questions that they can research.

Explain that partners will now review their pre-research writing and together agree on four or five questions that they are both interested in researching.

2 Review Pre-research Writing and Brainstorm Research Questions

Ask the students to individually reread their pre-research writing from yesterday. Use “Think, Pair, Share” to discuss:

Q *What is one question you and your partner might want to focus on when you begin researching your topic? [pause] Turn to your partner.*

After partners have had time to share, signal for their attention and have volunteers report their questions to the class. Record their questions on a sheet of chart paper titled “Examples of Research Questions.”

TEKS 13.A.i
TEKS 13.A.iii
Student/Teacher Narrative
Step 2

Teacher Note

If you notice many partners having difficulty reaching agreement, signal for the class’s attention and discuss the problem by asking:

Q *What’s challenging about trying to reach agreement?*

Q *If neither you nor your partner can agree on your first choice, what second or third choice might you be able to agree on? Turn to your partner and discuss.*

Examples of Research Questions

Why do bats hang upside down?

What causes hurricanes?

How did a Chihuahua evolve from a wolf?

What is it like inside a tornado?

Are the polar ice caps melting?

Where does a hamburger come from?

Ask and briefly discuss:

- Q *What did you and your partner do to make sure you both agreed before making your decision?*
- Q *What problems or challenges did you have? How did you handle them?*

Explain that during Writing Time today the students in each pair will agree on three more questions they might want to focus on when they start researching their topic. They will write the questions in their own notebooks and then begin looking for answers to their questions using various sources of information.

3 Discuss Searching for Resources

Explain that partners may use any resources they can find to research their questions. Resources include the nonfiction books you have gathered for the class, other books or media materials available in the classroom or school library, or online resources. Ask partners to discuss:

- Q *Where might you and your partner go to look for information about the questions you have chosen to research? Turn to your partner.*

If you have decided to have small groups of students visit the library, media center, or other locations in the school to look for resources, discuss how the students will take responsibility for themselves outside the classroom. Discuss:

- Q *What will you do to act in a considerate and responsible way at the [library]? Why is that important?*

TEKS 13.C.i

TEKS 13.C.ii

Student/Teacher Narrative

Step 3

Teacher Note

Save the “Examples of Research Questions” chart to use on Day 3 and throughout the unit.

Teacher Note

If you notice that the students in a pair are discussing a very broad topic (such as “water” or “history”) and having difficulty narrowing it to reasonable research questions, support them by asking questions such as:

- Q *[Water] is a very broad topic to research. What are three things you find most interesting about it?*
- Q *What questions might you be able to write about those things?*

If necessary, guide the students by suggesting questions that are specific enough to research (for example, *Where does our drinking water come from?*) and ask them to generate a few more questions like it.

Step 4

WRITING TIME

4 Agree on Research Questions and Search for Information

Have partners sit together at desks. Display the “Writing Time” chart (WA5), and have the students work in pairs on the charted tasks for 20–30 minutes. Be ready to assist them in writing questions and finding information about their research questions.

Writing Time

- Agree on and write at least three research questions about your topic.
- Search for sources of information about your topic.

WA5

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Reflect on Taking Responsibility During the Information Search

Ask and briefly discuss questions such as:

- Q *What is one research question you and your partner agreed on?*
- Q *What did you and your partner do today to act responsibly as you looked for resources?*
- Q *What problems did you have? What can you do tomorrow to avoid those problems? Why will it be important for you to try to avoid those problems?*

Explain that the students will continue to research their questions over the next couple of weeks. If they have identified books or other resources about their topics, they may keep them in their desks to use later in the week.

In this lesson, the students:

- Learn and use the terms *search engine*, *search term*, and *search query*
- Identify the best terms for an effective search query
- Reach agreement before making decisions

GETTING READY TO WRITE

1 Briefly Review and Introduce Searching for Information Online

Have the students bring their notebooks and pencils and gather with partners sitting together, facing the whiteboard. Review that each pair of students selected a topic to research and write an informational report about. The partners then wrote down what they know about their topic and then agreed on four or five research questions.

Review that to research their topics, the students may use multiple sources, including online resources. Explain that today the students will learn how to use a search engine to find information on the Internet. Explain that a *search engine* is a computer program that searches the Internet using words you type into a search bar. Finding the information you are looking for requires knowing how to choose the best words, or *search terms*, to type into a search engine.

2 Model Choosing the Best Terms for a Search Query

Direct the students' attention to the whiteboard with the search engine displayed and show where to type in the search terms. Explain that good researchers start with a research question and then identify words within the question to use for their searches.

Direct the students' attention to the "Examples of Research Questions" chart. Choose one of your charted questions and rewrite it on a sheet of chart paper. Explain that you will use the question to help you identify a set of words for your search and that the set of words you choose is called a *search query*.

Explain that a search query tells a search engine exactly what information you are looking for. Search queries are not usually complete sentences because they only use words directly related to the focus of the search. Ask the students to listen carefully as you think aloud about how to change the question (for example, "What causes a tsunami?") into a search query.

Materials

- Whiteboard with a search engine displayed, prepared ahead
- "Examples of Research Questions" chart from Day 2
- Chart paper and a marker
- "How to Turn a Research Question into a Search Query" chart, prepared ahead
- "Writing Time" chart (WA6)
- A sheet of loose, lined paper for each pair
- A folder for each pair of students

Technology Tip

If after today's lesson your students need more support with choosing effective search terms, you might teach Technology Mini-lesson 4, "Choosing Effective Search Terms," which closely matches today's instruction. (If only some students need more support, you might teach Mini-lesson 4 just to those students.)

If your students do not need further support choosing search terms, you might skip Technology Mini-lesson 4 and teach Technology Mini-lessons 5-8 which provide further instruction on conducting online searches. If possible, teach this set of mini-lessons (located in Appendix A) in order and at corresponding stages in the students' research. For example, teach Technology Mini-lesson 7, "Evaluating Research Sources," after the students have searched for and collected several online sources. For more information, see "About Teaching the Online Research Lessons" on page 712.

You might say:

"I know I need the word *tsunami* because it is the topic I am researching, and I need the word *causes* because it will give me the specific information about tsunamis that I want. So *tsunami* and *causes* are my keywords—I am going to circle them. I don't need the words *What* or *a* because they don't say anything about the information I need, so I will cross them out. Now I have the words *tsunami* and *causes*. I think it makes sense to put the name of the topic first and what I want to know about it second, so my search query will be: *tsunami causes*."

What causes a tsunami?

Type the search query into the search engine's search bar and display the results. Read some of the results aloud. Use "Think, Pair, Share" to discuss:

Q Which of these results do you think will have information about [the causes of tsunamis]? Why? [pause] Turn to your partner.

If the students do not mention them, point out any results that look like they directly address your research question.

3 Choose the Best Terms for a Search Query

Explain that the students will follow the same procedure to turn a different research question into a search query. Post the chart titled "How to Turn a Research Question into a Search Query" and read each step aloud.

How to Turn a Research Question into a Search Query

1. Write down your research question.
2. Circle the words you definitely need.
3. Cross out unnecessary words.
4. Add or substitute more specific words if needed.
5. Decide in what order to write the words.

Write another research question (for example, “How big and fast can tsunamis be?”) where everyone can see it and have the students copy it onto the next blank page in their notebooks. Explain that partners will read the question carefully and follow the steps on the chart to decide on a search query. Ask and briefly discuss:

Q *What can you and your partner do if you don’t agree about what words to include in your search query or what order to put the words in?*

Students might say:

“If we don’t agree, we can talk about why we think a word should be used or not used in the search query.”

“In addition to what [Tumaini] said, we can explain to our partner why we think the words in the search query should go in a certain order.”

“We can write different search queries for the same question, and later we can try them out and see how each one works.”

Distribute a sheet of lined paper to each pair of students. Have partners work together to write search queries for the research question you wrote. Walk around the room and observe. If necessary, direct the students’ attention to the “How to Turn a Research Question into a Search Query” chart and remind them to follow each step. Review that search queries use only words directly related to the research question. When most pairs of students have finished, signal for their attention and have a few volunteers share their search queries with the class. Remind the students that a search query tells a search engine exactly what information to search for about a research question.

Explain that during Writing Time today each pair of students will follow the same procedure to turn one of their own research questions into a search query.

WRITING TIME

4 Write Search Queries

Have the students sit at desks with partners together. Have them look at the lists of questions they compiled in their writing notebooks. Display the “Writing Time” chart (WA6). Have partners work together on the charted tasks for 5–10 minutes. Encourage them to refer to the “How to Turn a Research Question into a Search Query” chart. As the students write, walk around and observe them, assisting as needed.

Writing Time

- Pick a question from your list.
- Turn the question into a search query.
- Repeat these steps for other questions on your list.

WA6

Signal to let the students know when Writing Time is over.

Teacher Note

The students may decide on a search query such as *tsunami how big how fast* or *tsunami big fast*.

Teacher Note

Save the “How to Turn a Research Question into a Search Query” chart to use throughout the unit.

TEKS 13.A.iii
Student/Teacher Activity
Step 4

SHARING AND REFLECTING

5 Reflect on What the Students Learned

Have partners review their questions and search queries together. Then, as a class, discuss questions such as:

Q *What is one question on your list? How did you and your partner turn that question into a search query? Tell us about it.*

As volunteers share, type their search queries into the search engine on the whiteboard and ask:

Q *Which of these research results do you think will have information about [early airplanes]? Why?*

Explain that the students will continue to research their topics tomorrow. Distribute a folder to each pair of students, and have partners write their names on it. Explain that they will keep all of the papers related to their report in this folder. Have them place their sheet of search queries and any other loose papers in the folder. Have partners decide who will keep the folder until the next lesson.

Day 4

Researching and Taking Notes

Materials

- Collected nonfiction texts
- “Research Notes” chart (WA7)
- “Examples of Research Questions” chart from Day 3
- “Important Information About Books and Websites” chart, prepared ahead
- Print and online sources of information about your chosen topic
- Index cards and rubber bands for students’ notes
- “Class Assessment Record” sheet (CA5)

In this lesson, the students:

- Identify and use various sources of information
- Take notes in their own words
- Reach agreement before making decisions
- Make fair decisions
- Share the work fairly

ABOUT TEACHING NOTE-TAKING SKILLS

Taking notes requires summarization and organization skills, the ability to write what one has learned in one’s own words, and the ability to cite sources. In this unit, the students take notes on 3" × 5" or 4" × 6" index cards. The cards help them to be succinct and to organize their notes in preparation for writing their reports and bibliographies. The students learn to include source information on each card using the author’s last name and a page number (or website). Including this information will assist the students if they need to go back to the source to clarify or add information.

Be aware that writing notes in their own words can be challenging for elementary students. Look for opportunities to model this process frequently,

asking the students to help you restate written information in their own words. Plan to monitor and encourage the students, but do not worry if you notice students copying from the text, as many of them will not master writing notes in their own words until they are older.

GETTING READY TO WRITE

1 Briefly Review

Gather the class with partners sitting together, facing you. Review that together, partners selected a topic to research and write a nonfiction informational report about. They wrote down what they think they know about their topic and agreed on four or five questions to research. Then they wrote Internet search queries for some of their questions.

Explain that today the students will begin doing their research, both to confirm what they think they know and to get information about the questions they wrote. Partners will work together to research and take notes about things they want to include in their informational report.

2 Model Researching and Taking Notes

Direct the students' attention to the "Important Information About Books and Websites" chart (see "Do Ahead" on page 383) and read it aloud.

Important Information About Books and Websites

When you take notes from a book, write down: the author's first and last name, the book's title, the city of publication, the publisher, page number, and the year of publication.

When you take notes from a website, write down: the author's first and last name, the website's title, the URL (web address), and the date you accessed the website.

Display the "Research Notes" chart (WA7) and ask the students to watch as you model how you would like them to take notes. Use the following procedure to model:

- Read the "Examples of Research Questions" chart aloud and identify one that you found some information about.

Teacher Note

This lesson may require an extended class period.

Student/Teacher Narrative
Step 2

Teacher Note

If possible, model using a table of contents, index, glossary, and/or the Internet to locate information about your topic.

- Show the sources of information you found about your topic.
- Read aloud the information in each source that addresses the question.
- Think aloud about the information you read.
- On the “Research Notes” chart, model writing a note in your own words, and model referring to the “Important Information About Books and Websites” chart when writing down information about the source. Also, model writing your initials in the upper right directly above the note.

You might say:

“I did an Internet search with the search terms *tsunami causes* and found a website called *all-about-tsunamis.com*. I printed out some information from that website. It says, ‘Tsunamis usually happen because part of Earth’s crust suddenly rises or falls beneath the ocean. The motion disturbs the water above, sending a large wave toward the shore. Sometimes tsunamis are created by volcanoes or landslides on mountains beneath the ocean.’ This tells me that tsunamis form when Earth’s crust moves, when volcanoes erupt, or when landslides occur beneath the ocean. I’ll write that information on a note card. I’ll also write down important information about the website because later I’ll need to include a list of all the books and websites I have used in my research. I’m going to try to find and write down the website’s author and title, the URL (web address), and the date I *accessed*, or used, the site. I can’t find the author’s name, which sometimes happens, but I can find the website title, ‘All About Tsunamis,’ so I’ll write that down. The date I accessed the site is March 19, 2014, and the URL is *all-about-tsunamis.com*, so I’ll write those things down, too.”

“All About Tsunamis.” Accessed March 19, 2014 (all-about-tsunamis.com)

Teacher Note

You might model taking notes from a few different sources, such as the Internet, a book, and an encyclopedia.

Note that the students are not yet expected to record their sources in bibliographic format. They will focus on the correct format in Week 6.

Use the same procedure to model another example of taking notes.

Point out that notes are most helpful when they are brief and written in the writer’s own words, rather than copied exactly from the source. Explain that the notes should also contain the important information about the source, and tell the students that they can look at the “Important Information About Books and Websites” chart to see what information to write down.

Explain that the students will take their notes on index cards, one note per card. Point out that having the notes and the important information about their sources on cards will help the students organize them when they get ready to write their informational reports. Ask them to write both partners' initials on each card.

3 Get Ready to Work Together

Have partners reread their list of brainstormed questions from yesterday. Explain that the questions are just starting places; partners should look for and take notes about any information that they find interesting about their topic.

Explain that partners will need to work together to research and take notes about their topic. Ask and briefly discuss:

- Q *What will you and your partner do to share your work fairly today?*
- Q *What can you and your partner do if you don't agree about whether to take notes about a piece of information?*

Students might say:

- "We'll read a book together and stop when we want to write a note about something."
- "We'll each look in a different book but talk to each other about interesting things we read so we can take notes about them."
- "We can take turns writing the notes."
- "If we don't agree, we can say why we think something is interesting enough to take notes on."

Encourage partners to try the things they suggested, and tell them that you will check in with them to see how they did.

WRITING TIME

Teacher Note

Save the "Research Notes" (WA7) and "Important Information About Books and Websites" charts to use in the coming weeks.

To help students cite online sources, you might also teach Technology Mini-lesson 8, "Citing Online Sources," in Appendix A.

Teacher Note

Some pairs of students may still be looking for resources today. This is to be expected. On any given day you are likely to have pairs working at different stages of their projects.

Technology Tip

You might enlist a parent volunteer or an older student to help small groups of students search online. Encourage the students to print out information they find about their topics.

If your school has an acceptable use policy, review it with the students. Also confirm that the search settings on your school's computers are set to "Strict," "Safe," or a comparable setting.

Facilitation Tip

Continue to **ask facilitative questions** to help the students respond to one another. When the students direct their responses to you, redirect them toward the class by asking questions like:

- Q *Do you agree or disagree with what [Dante] just said, and why?*
- Q *What questions can we ask [Dante] about what he said?*
- Q *Why does what [Dante] said make sense?*

Much of the learning in this program relies on creating a dynamic discourse among the students. Facilitative questions teach them that their comments contribute to a class discussion and that they are responsible for listening to one another and responding.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners agreeing on interesting facts to write about their topic?
- Are they writing notes in their own words?
- Are they writing just one piece of information per card?
- Are they sharing the work?

If necessary, stop the class to remind the students of the procedures to follow when taking their notes. If you notice partners having difficulty sharing the work, stop them and discuss questions such as:

- Q *What is each of you responsible for accomplishing?*
- Q *Is the way you are sharing the work fair? Why or why not?*
- Q *What can you do to share the work fairly?*
- Q *Why is it important that both of you do your part of the work on this project?*

Record your observations on the “Class Assessment Record” sheet (CA5); see page 88 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over. Remind them to write their initials on all of their cards.

SHARING AND REFLECTING

5 Reflect on What the Students Learned

Have partners review their notes together. Then, as a class, discuss questions such as:

- Q *What is one interesting fact you and your partner learned about your topic today?*
- Q *As you listened to [Melanie and Todd] share about their topic, what did you hear that makes you curious?*
- Q *What was [interesting/challenging] about doing research today? What suggestions do you have that might help someone else with this challenge?*

Point out that curiosity leads to learning and that learning often leads to more curiosity.

6 Reflect on Sharing Work Fairly

Ask and briefly discuss:

- Q *How did you and your partner share the work fairly today?*
- Q *If you did not share the work fairly, what will you do tomorrow to share the work fairly? Why will that be important to do?*

Explain that the students will continue to share work fairly as they research their topics tomorrow. Provide the students with rubber bands to bind their cards. Have them put their cards in their folders or another secure place until the next lesson.

EXTENSION

Continue Research During Other Times of the Day

You might have the students continue doing research and taking notes during other times of the day. They might use independent time, the library period, or after-school activity time. Also encourage the students to use the public library or their home computers to continue their research and writing.

Researching and Taking Notes

Day 5

In this lesson, the students:

- Identify and use various sources of information
- Take notes in their own words
- Reach agreement before making decisions
- Share the work fairly

GETTING READY TO WRITE

1 Discuss the Research Process

Gather the class with partners sitting together, facing you. Review that the students began researching their chosen topics yesterday. Explain that today they will continue to research and take notes about their topics. Ask and briefly discuss:

- Q *Was it hard or easy to find information about your topic yesterday? What made it hard or easy?*
- Q *What did you do to locate information about your topic?*

Students might say:

"I looked in the table of contents of a book to see if there was a chapter on why bats don't just lie down to sleep."

"I looked up *hurricane* in the index, and that told me the page to go to in the book."

"I wanted to find information about how people first tamed wolves and how different dog breeds are created."

Materials

- Collected nonfiction texts
- "Research Notes" chart (WA7) from Day 4
- "Examples of Research Questions" chart from Day 4
- "Important Information About Books and Websites" chart from Day 4
- Sources of information about your topic
- Index cards and rubber bands
- Class set of "Conference Notes: Focus 1" record sheets (CN1)

TEKS 13.F.i
Student/Teacher Narrative
Step 2

Teacher Note

You might have the students place self-stick notes in their sources on the pages containing information they are using in their notes so that they can easily locate these pages later in the research process.

Teacher Note

Save the “Research Notes” chart (WA7) to use in Week 4.

As the students share ways they located information, stop periodically to ask pairs to discuss:

Q How might you use [Alexa’s] method of finding information?

2 Model Researching and Taking Notes

Display the “Research Notes” chart (WA7) from yesterday. Ask the students to watch as you model another example of researching and taking notes. Follow the procedure you used on Day 4, Step 2 (see page 397) to model locating information, reading it aloud, thinking aloud about it, and writing a note about it in your own words. This time, invite the students to help you write the note.

You might say:

“I found a book about tsunamis that explains how animals may be able to hear the sounds or feel the vibrations of a tsunami before the wave hits shore. This book says, ‘Some animals are capable of hearing very low sounds that humans cannot hear. It may be that animals can hear the sound or feel the vibrations of an approaching tsunami before humans do.’ How can I capture that briefly in my own words? One suggestion I heard is that I write: *Some animals hear sounds that humans cannot hear.* I’ll start with that. Then I might add: *Some animals may be able to hear a distant tsunami before people do.* Perhaps I should also make it clear that the animals may be able to feel vibrations caused by the tsunami. I can add that to my second sentence this way: *Some animals may be able to hear or feel the rumble of a distant tsunami before people do.* Now before I forget to do it, I’m going to look at the ‘Important Information About Books and Websites’ chart and then copy down the information about the source that I’ll need later. The book’s author is Kimberly Malone, and the title is *Anything and Everything You Could Possibly Want to Know About Tsunamis.* I’ll also write down that the book was published in Boston by LMNO Publishers in 2011.”

Add your initials to the upper right-hand corner of the note, and in parentheses beneath the note, write the book’s author, title, city of publication, and year of publication. Then model another example using the same procedure.

Explain that the students will continue to research and take notes today about their topics. Remind them to take notes not only about their questions but also about other interesting information they find. Remind them to try to write their notes briefly and in their own words and to copy down the important information about each book and website they use for their research.

WRITING TIME

3 Research Nonfiction Topics and Take Notes

Have the students get their pencils and shared folders and sit at desks with partners together. Distribute more cards as needed and have them research and take notes about their topics. As the students work, circulate, observe, and offer assistance. Once all partners seem to be working independently, begin conferring with pairs of students, one at a time.

TEACHER CONFERENCE NOTE

Today you will begin conferring with individual pairs and continue conferring with them into next week. Ask partners to tell you the topic they are researching and what they are learning about that topic. Focus your conversations on what the partners are curious about, what they are learning, and how they are capturing what they are learning in their notes. Ask questions such as:

- Q *What topic are the two of you researching? What question about that topic is each of you researching now?*
- Q *What have you found out about your question? Read me one of your notes.*
- Q *What else do you want to know? What sources might you use to find information about that?*

If you ask a student to read you a note and you find it confusing, ask the student what the note means. Explain why you were confused and ask the partners how the note might be rewritten more clearly.

Document your observations for each student on a separate “Conference Notes: Focus 1” record sheet (CN1); see page 94 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over. Remind both partners in each pair to write their initials on all of their cards.

SHARING AND REFLECTING

4 Reflect on Researching and Taking Notes

Have partners review their notes together to make sure that what they have written makes sense. Explain that if they find a note confusing, they should work together to decide what is confusing about it and how to make it clearer. Explain that partners may need to refer to the source of the information to help them rewrite it.

Teacher Note

To see an example of a teacher conferring with individual students, view “Conferring About Expository Nonfiction” (AV46).

(third question)

 **Technology Tip**

For information about setting up and maintaining a class blog, view the “Creating a Class Blog” tutorial (AV76).

After several minutes, briefly discuss:

- Q *Who has an example of a confusing note? What did you do to make the note clearer?*
- Q *What have you learned about taking notes? What suggestions do you have to help others?*
- Q *Why might it be important to try to take notes in your own words, instead of writing down an author’s words?*

Have the students reflect on their partner work by asking:

- Q *What did you and your partner do to share the work fairly today?*

Explain that partners will continue to research their topics next week. Have them bind their index cards with a rubber band and put them in their folder or another secure place until then.

TECHNOLOGY EXTENSION

Use a Class Blog for Reflection

Create a class blog and, in the coming weeks, invite the students to reflect on what they are learning about writing informational reports. Post reflection questions such as the second question in Step 4 on page 403. After discussing the questions as a class, have interested students post their comments. Review the comments periodically and, with the respondents’ permission, discuss comments with the class.

When you take notes from a book, write down: the author’s first and last name, the book’s title, the city of publication, the publisher, and the year of publication.

When you take notes from a website, write down: the author’s first and last name, the website’s title, the URL (web address), and the date you accessed the website.

Week 4

OVERVIEW

Writing Focus

- Students use various sources of information to research topics.
- Students modify and expand their thinking based on research.
- Students take notes in their own words.
- Students organize their notes in preparation for writing.
- Students draft informational reports and include facts, details, and other information.
- Students explore transitional words and phrases.
- Students confer with one another and the teacher.

Social Development Focus

- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students work in a responsible way.

J DO AHEAD

- ✓ Prior to Day 2, look for information about any of the research questions you charted last week about your topic (for example, questions about what causes tsunamis, how they damage coastal towns, how scientists predict them, how people are warned about them, and other interesting facts). Take notes on what you find, eight to ten notes altogether. Copy your notes onto 5" × 7" index cards, with one note per card. Think about how you will group your notes and what heading you will assign each group (for example, "Causes," "Damage," "Prediction," "Warning," and "Other Interesting Facts").
- ✓ Prior to Day 2, make a copy of the "Class Assessment Record" sheet (CA6) on page 89 of the *Assessment Resource Book*.
- ✓ Prior to Day 2, prepare wall space by the whiteboard where you can post your sorted index cards. The space should be close enough to the interactive whiteboard that you can read the notes while you model writing on the lined writing chart (WA10) on Day 3.
- ✓ Prior to Day 3, review your organized note cards from Day 2 and think ahead about how you might begin drafting an informational report about your topic. Include appropriate information from your pre-research writing as well as from your notes.
- ✓ Prior to Day 3, make a copy of the "Class Assessment Record" sheet (CA7) on page 90 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, title a sheet of chart paper "Transitional Words and Phrases for Reports." Under the title, list the following: *another, for example, also, because, besides, especially, particularly, for instance, in other words, consequently, eventually, furthermore, however, in addition, in fact, on the other hand, similarly, since, therefore, to summarize*.
- ✓ Prior to Day 4, make a class set of the "Conference Notes: Focus 2" record sheet (CN2) on page 95 of the *Assessment Resource Book*.

TEACHER AS WRITER

"We write about what we don't know about what we know."

— Grace Paley

Reread the questions you wrote concerning a nonfiction topic in Teacher as Writer over the past two weeks. Choose one or two questions and try to find some information about those questions using the resources you have collected for your students. As you look for information, consider:

- Is it hard or easy to locate information about your questions? Would modifying your questions make it easier? How?
- What tools or methods are you using to locate information (for example, tables of contents, indexes, glossaries, search engines)? What skills do you need to use these tools successfully?

Day 1

Researching and Taking Notes

Materials

- Collected nonfiction texts
- “Important Information About Books and Websites” chart from Week 3
- Index cards and rubber bands
- “Writing Time” chart (WA8)
- (Optional) “Research Notes” chart (WA7) from Week 3
- (Optional) “Examples of Research Questions” chart from Week 3
- (Optional) Sources of information about your topic from Week 3

Teacher Note

If necessary, model researching and taking notes about your topic again using the “Research Notes” chart (WA7) and the procedure you used in Week 3, Day 4, Step 2 (page 397). Model locating specific information using the table of contents, index, glossary, etc. Read information from your sources aloud and ask the students to help you write brief notes in your own words.

In this lesson, the students:

- Continue to research topics
- Take notes in their own words
- Check each other’s notes for understanding
- Share the work fairly

GETTING READY TO WRITE

1 Review Pre-research Writing and Notes

Have the students bring their notebooks and folders and gather with partners sitting together, facing you. Review that the students began researching their topics in pairs last week. Ask the students to quietly reread their pre-research writing and their notes; then call for their attention and ask:

Q *After starting your research, did you change your mind about anything you wrote in your pre-research writing? If so, tell us about it.*

Use “Think, Pair, Share” to discuss:

Q *What is something new that both you and your partner have learned about your topic? [pause] Turn to your partner.*

After partners have discussed the question, have one or two volunteers share with the class. Remind the students that the purpose of their research (and the writing they will do later in the week) is to satisfy their own curiosity about their topics and also to help others become curious about them.

Explain that today partners will continue to research and take notes about their questions, things they thought they knew about their topic (from their pre-research writing), and any new things they have become curious about.

2 Discuss How Partners Will Work Together

Remind the students that, as they research and take notes today, they should consult the “Important Information About Books and Websites” chart when writing down their sources. Later this week each pair of students will begin drafting a nonfiction report about their topic.

Ask partners to spend a few minutes discussing what they want to accomplish today and how they will share the work in a fair way.

TEKS 1.D.i
Student/Teacher Activity
Step 2

WRITING TIME

3 Research Nonfiction Topics and Take Notes

Display the “Writing Time” chart (WA8). Have partners sit together at desks and work on the charted tasks for 20–30 minutes.

Writing Time

- Find resources for your topic.
- Research and take notes in your own words about your questions, things you thought you knew, and new things you have become curious about.
- Share the work fairly.

WA8

Distribute more index cards as needed and have the students research and take notes about their topics. As they work, circulate, observe, and offer assistance. When pairs of students seem to be working independently, confer with one pair at a time.

TEACHER CONFERENCE NOTE

As you did in Week 3, confer with individual pairs about their research and the notes they took. Ask partners to tell you the topic they are researching and what they are learning about that topic. Focus your conversations on what the partners are curious about, what they are learning, and how they are capturing what they are learning in their notes. Ask questions such as:

- Q *What topic are the two of you researching? What question about that topic is each of you researching now?*
- Q *What have you found out about your question? Read me one of your notes.*
- Q *What else do you want to know? What sources might you use to find information about that?*

If you ask a student to read you a note and you find it confusing, ask the student what the note means. Explain why you were confused and ask the partners how the note might be rewritten more clearly.

Beginning in Day 4, the focus of the individual student conferences will change. If you have not met with all of your students to discuss the questions above, you may wish to do so before changing the conference focus.

Document your observations for each student on a separate “Conference Notes: Focus 1” record sheet (CN1); see page 94 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

Teacher Note

The Writing Time routine established early in the year helps the students settle quickly into focused writing. To learn more, view “Predictable Structure of the Writing Lessons” (AV3).

SHARING AND REFLECTING

4 Reflect on Researching and Taking Notes

Have partners review their notes together. Ask:

- Q *What was it like to take notes in your own words today? Read us one of your notes.*
- Q *What is one interesting fact you and your partner learned about your topic today?*
- Q *Take a look at your pre-research writing. What have you learned about your topic that confirms (is the same as) what you thought you knew? What have you learned that is different from what you thought you knew?*

Explain that partners will begin organizing their notes tomorrow in preparation for writing their informational report. They will have time to continue researching their topic as well.

Provide rubber bands as needed and have partners bind together their cards and put them in their folder or another secure place until tomorrow.

Day 2

Organizing Research

Materials

- *Extreme Earth Records* from Week 2
- *I Wonder Why Penguins Can't Fly* from Week 1
- Collected nonfiction texts
- Your research notes written on 5" x 7" index cards
- Blank wall space to post note cards
- Blank cards to write section titles for your research notes
- Index cards and rubber bands
- "Class Assessment Record" sheet (CA6)
- "Writing Time" chart (WA9)

In this lesson, the students:

- Modify and expand their thinking based on research
- Organize notes in preparation for writing
- Reach agreement before making decisions
- Agree and disagree in a caring way
- Share the work fairly

GETTING READY TO WRITE

1 Briefly Review

Gather the class with partners sitting together, facing the whiteboard. Review that they have been working in pairs to research and take notes about their topics.

Explain that nonfiction authors want their readers to become curious and learn about their topics, so they organize their information in ways that will interest readers and be easy to understand.

Review that the students have seen many ways authors organize nonfiction information. Show the covers of *Extreme Earth Records* and *I Wonder Why Penguins Can't Fly*, and remind the students that they heard these books earlier. Show the table of contents of *Extreme Earth Records* and explain that this book is organized by *subtopics*, or smaller topics. Then show the table of contents of *I Wonder Why Penguins Can't Fly* and explain that this book is also organized by subtopics. Explain that the students will organize their own nonfiction reports by subtopics this week.

2 Model Organizing Notes

Ask the students to watch as you model organizing your notes by subtopics. Read aloud the notes you wrote on index cards as you post them on a wall or the board. Explain that some of the notes can be put together because they are about the same subtopic. Model putting notes about similar subtopics together and writing a heading for each category on an index card above each group of notes.

You might say:

"I can combine 'Tsunamis are created by giant earthquakes, landslides, or volcanoes under or near the ocean' and 'Huge amounts of water move quickly and cause giant waves.' Both notes are about what causes tsunamis. I'll write the subtopic heading that I think will be helpful to readers: *Causes of Tsunamis*."

Ask:

Q *What other notes can we put together? What could we call this group of notes?*

If possible, use the students' suggestions to categorize the notes. Write a subtopic heading above each group of notes. If the students have difficulty categorizing the notes, continue to model while thinking aloud.

After categorizing your notes, point out that these are the facts that you will include in your written report about your topic. Ask:

- Q Do you think I have enough information for my report? Why or why not?
- Q Which subtopics do you think might need more information? Why?
- Q What additional subtopics might I want to include in my report? Why?

Students might say:

“You only have one note under ‘Other Interesting Facts.’ You might want to add a few more notes to that subtopic.”

“Maybe you can include information about the tsunami that hit the coasts of the Indian Ocean in 2004.”

Use rubber bands to bind together each group of notes with its heading.

Teacher Note

Prior to Day 3, research the students’ suggestions and write additional notes on 5" × 7" index cards (about additional subtopics, if necessary).

Teacher Note

You might choose to keep the cards posted for the Day 3 lesson.

3 Discuss How Partners Will Work Together

Explain that today each pair of students will organize their notes into subtopics (groups), write the names of the subtopics on blank index cards, decide where they need more information and do more research, and bind together each group of notes with the name of its subtopic.

Point out that there are usually multiple ways that notes can be organized and that partners will need to talk until they agree on the best way to organize their notes. Ask and briefly discuss:

Q *If you and your partner disagree about how to organize your notes, what will you do?*

Q *Why is it important to disagree in a respectful way?*

Point out that people sometimes disagree when they are working together and that people can disagree while maintaining respect for one another. Encourage partners to be aware of how they are disagreeing with each other and tell them that you will check in with them at the end of the lesson.

Ask partners to spend a few minutes discussing what they will do and how they will share the work in a fair way.

WRITING TIME

4 Organize Notes for Writing

Have the students get their research notes, folders, and pencils and sit at desks, partners together. Display the “Writing Time” chart (WA9) and have partners work on the charted tasks for 20–30 minutes. When pairs of students have finished organizing their notes, have them signal to you so you can review their work.

Writing Time

- Organize your notes into subtopics (groups).
- Write the names of the subtopics on index cards.
- Decide where you need more information and continue researching.
- Bind together the groups of notes with the subtopic headings.

Q *What can you add to what [Ruby] said?*

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do partners seem able to categorize their notes in ways that make sense?
- Do they categorize all their notes?
- Are they able to agree on how to categorize their notes?
- If they do not agree at first, do they keep talking until they reach agreement?

Support any pair that struggles by asking questions such as:

Q *What notes seem to belong together? Why do you think so?*

Q *What other notes could go into your ["Turning Trash into Treasures"] group? Why do you think so?*

Be aware that categorizing information can be challenging for some students; this is to be expected. They may have difficulty defining subtopics or consistently sorting their notes into those subtopics. They may want to discard notes that do not fit, or become preoccupied with having the same number of notes in each subtopic. Encourage them to try their best to organize all their notes in a way that makes sense (perhaps creating an "Other Interesting Facts" category for outliers).

Record your observations on the "Class Assessment Record" sheet (CA6); see page 89 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Reflect on Partner Work

Ask:

Q *Which subtopics did you and your partner decide you needed more information about? What made you decide that?*

Q *Did you and your partner disagree about anything when you were organizing your notes? If so, what? What did you do to disagree in a respectful way? How did you reach agreement?*

Explain that tomorrow partners will finish organizing their notes, if necessary, and begin writing their informational reports.

Have partners put their work away in a secure place until tomorrow.

Teacher Note

Allow students who need more time researching to do so before you teach the Day 3 lesson.

EXTENSION

Discuss Elements of Nonfiction Across the School Day

Take time at the end of independent reading periods and other times during the day to discuss the nonfiction students are reading. Have students share the titles and authors of the books they are reading and explain what the books are about. Discuss questions such as:

- Q *How do you know that the book you are reading is nonfiction?*
- Q *What true information are you learning about from the book?*
- Q *What features (such as illustrations, captions, diagrams, graphs, tables of contents, and glossaries) of nonfiction do you see in your book?*

Drafting and Pair Conferencing

Day 3

In this lesson, the students:

- Order their grouped notes in preparation for writing
- Decide how they will share the writing fairly
- Begin drafting their informational reports
- Include facts, details, definitions, and other information related to their topics
- Check for understanding
- Reach agreement before making decisions

GETTING READY TO WRITE

1 Review Ways to Organize Nonfiction

Gather the class with partners sitting together, facing the whiteboard. Review that they have grouped their research notes into subtopics in preparation for writing. Explain that today partners will put their grouped notes in the order in which they want to write about them and then begin writing drafts of their reports. Ask:

- Q *What have you found out about your topic that you think other people will be excited or curious to learn about? Turn to your partner.*

After partners have talked, signal for their attention and explain that you will model ordering your grouped notes and beginning to write a draft.

Materials

- Your grouped research notes from Day 2, posted near the whiteboard
- Lined writing chart (WA10)
- “Writing Time” chart (WA11)
- Loose, lined paper for writing drafts
- “Class Assessment Record” sheet (CA7)

TESK 12.B.iii
Student/Teacher Narrative
Step 2

2 Model Ordering Your Notes and Beginning a Draft

Direct the students' attention to your posted index cards. Think aloud about the order in which you want to introduce each subtopic.

You might say:

"I think I will write about the size and speed of tsunamis first, because I think those facts will really capture my reader's attention. Then I will write about the causes of tsunamis, how scientists predict tsunamis, how people are warned about them, and then follow that with 'Other Interesting Facts.'"

Display the lined writing chart (WA10). Read aloud your first group of notes and think aloud about how you might want to start writing this section of your report. Explain that you want to grab your reader's attention and provide facts, details, definitions, and other information to make your report clear and accurate (correct).

You might say:

"Maybe I can start by writing: *It might be hard to believe, but a tsunami can be 100 feet high.*"

Model writing a few sentences about this subtopic, double-spaced, on the chart, pointing out the notes you are using as you write. Ask:

- Q *What is another sentence I can write about [the size and speed of tsunamis]?*
- Q *What shall I tell about next? What sentence can I write to tell about that?*
- Q *What is a fact, detail, or definition I can include to make this report as clear and accurate as possible?*

WA10

Size and Speed of Tsunamis

It might be hard to believe, but a tsunami can be 100 feet

high. That is as tall as an eight-story building! It can travel

across the ocean as fast as a jumbo jet, at about 500 miles

per hour. You can't see a tsunami traveling across the ocean. It

does not become visible until it gets close to shore. By then, it is

too late to escape it.

Teacher Note

Save the model draft on the lined writing chart (WA10) to use on Day 4 and throughout the unit.

Use the students' suggestions to write a few more sentences. If the students have difficulty suggesting sentences, model writing a few more yourself. Point out that you are trying to write in a way that makes the topic as interesting and clear as possible for your readers.

3 Discuss How Partners Will Work Together

Explain that today partners will work together to order their notes, reread their notes to make sure the order makes sense, and begin writing. Tell them that you expect both partners to participate in the writing, so they will need to decide who will write which subtopics (groups). They will put their parts together into one report when they publish it for the class.

Ask partners to spend a few minutes discussing what they want to accomplish today and how they will share the work in a fair way. After a moment, signal for the students' attention. Ask and briefly discuss:

Q *What part of your pair work are you responsible for today?*

WRITING TIME

4 Begin Drafting Informational Reports

Have the students get their research notes, folders, and pencils and sit at desks, partners together. Display the "Writing Time" chart (WA11) and have partners work for 20–30 minutes to order their notes and draft their informational report.

Writing Time

- Arrange your subtopics (grouped notes) in the order in which you want them to be in your report.
- Reread your notes and make sure the order makes sense.
- Begin writing a draft of your report, double-spaced, on loose, lined paper.
- Try to grab your reader's attention and provide facts, details, definitions, and other information.
- Share the writing fairly.

WA11

As the students work, circulate, observe, and offer assistance as needed.

Steps 3 and 4

ELL Note

Monitor trios of students to make sure that ELLs are participating in the work. Students who speak limited English may not be able to help with the writing. If necessary, help them contribute to their trio's work in other ways, such as by reading the research notes aloud or by drawing and labeling diagrams to accompany the final report.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners able to decide on an order of the subtopics for their report?
- Does the order make sense?
- Are both partners writing sections of their report?
- Are the students able to use their notes to write coherently about their topics?
- Are they double-spacing their drafts?

Support any pair that struggles by asking questions such as:

- Q *What do you want to write about first to grab your reader's attention?*
- Q *What do you want to write about next?*
- Q *What part is each partner working on? Is that a fair way to share the work? Why or why not? [What will you do differently to share the work fairly?]*

Record your observations on the "Class Assessment Record" sheet (CA7); see page 90 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Confer in Pairs About Drafts

Have partners read their writing to each other and check to make sure they each understand what the other has written. After a few moments, signal for their attention and ask:

- Q *Do you understand everything your partner wrote today? If not, what can you ask your partner to help you understand?*
- Q *If your partner is confused about something you wrote, how can you revise it to make it clearer?*

Invite volunteers to share examples from their own writing as they answer these questions.

6 Reflect on Partner Work

Ask and briefly discuss:

- Q *What did you do to take responsibility for your own part of the work today? How did that help your pair work?*
- Q *What did you and your partner do to reach agreement about how to write your informational report? If you did not agree at first, what did you do to reach agreement?*

Teacher Note

For more information, view "Managing Pair Conferences" (AV8).

TEKS 11.C.x

Step 5

Have the students place all of the papers related to their reports in their folders. If they have identified books or other resources about the topics they are researching, they may keep them in their desks to use later in the week.

Drafting and Pair Conferring

Day 4

In this lesson, the students:

- Draft their informational reports
- Explore transitional words and phrases
- Include facts, details, definitions, and other information related to their topics
- Confer with one another about their drafts
- Work responsibly in pairs
- Share the work fairly

GETTING READY TO WRITE

1 Explore Transitional Words and Phrases

Gather the class with partners sitting together, facing you. Review that they began writing drafts of their informational reports yesterday. Explain that they will continue to work on their drafts today.

Explain that one way the students might make their reports clearer and easier to follow is by adding *transitional words and phrases*. Explain that these are words and phrases that help readers connect ideas in a report. Direct the students' attention to the "Transitional Words and Phrases for Reports" chart. Read aloud the words and phrases listed on the chart. Ask:

Q *What other transitional words and phrases might you use in a report to help readers connect ideas?*

Add the students' ideas to the chart.

2 Model Adding to a Draft

Explain that before the students work on their drafts, you will model adding to your draft. Display the model draft on the lined writing chart (WA10) from Day 3. Using the procedure from yesterday (see Day 3, Step 2 on page 416), model adding to your informational report by reading your notes, thinking aloud about what you might write, and writing. Include transitional words and phrases as you write. Also point out facts, details, definitions, and other information you are adding to your report.

Materials

- "Transitional Words and Phrases for Reports" chart, prepared ahead
- Your grouped research notes from Day 2
- The model draft on the lined writing chart (WA10) from Day 3
- "Writing Time" chart (WA12)
- Loose, lined paper for writing drafts
- Class set of "Conference Notes: Focus 2" record sheets (CN2)

Teacher Note

If you have already taught the Personal Narrative, Fiction, and/or Opinion Writing genre units, remind the students that they explored transitional words and phrases in those units. Explain that the transitional words and phrases listed on the chart are especially useful in nonfiction reports.

Teacher Note

Save the "Transitional Words and Phrases for Reports" chart to use on Day 5 and throughout the unit.

Technology Tip

For more transitional words and phrases, you might search online using the keywords "transitional words and phrases."

Elicit the students' help in developing more sentences. Ask questions such as:

- Q (Point to a note.) *I want to include this information about [how animals seem to hear or feel a tsunami before it happens]. What sentence could I write to get this information across in an interesting way?*
- Q *What is another fact, detail, definition, or interesting piece of information I can include?*
- Q *What transitional word or phrase could I use here to make it clear that [I'm telling about another idea about how animals sense that a tsunami is coming]?*

Other Interesting Facts

Strangely, many animals seem able to escape the disaster

of tsunamis. When they sense one coming, they quickly climb

to higher ground. Witnesses report that before the giant

tsunami hit the coasts of the Indian Ocean in 2004, elephants

trumpeted and climbed nearby hills. In addition, dogs wouldn't

go outside, and zoo animals hid in their shelters. Some people

believe animals have a "sixth sense" that humans don't have.

However, many scientists point out that some animals just have

much better hearing than humans, so they heard the tsunami's

approach well before people did.

WA10

If the students have difficulty suggesting sentences, continue thinking aloud and writing a few more yourself. Point out that you are trying to make your report as interesting and clear as possible for your readers.

Encourage the students to continue to think about how to make their topics interesting and clear for their readers as they write today. Remind them to include facts, details, definitions, and other interesting information and to also use transitional words and phrases to connect ideas.

3 Discuss How Partners Will Work Together

Remind the students that you expect both partners to participate in the writing. They will each write different parts (subtopics), and then they will put the parts together into one report when they publish it for the class.

Ask partners to spend a few minutes reviewing what they have written so far and deciding what they will write today.

WRITING TIME

4 Draft Informational Reports

Display the “Writing Time” chart (WA12). Have partners sit together at desks and work silently for 20–30 minutes to draft their informational reports. When pairs of students seem to be working independently, confer with one pair at a time.

Writing Time

- Continue writing your report.
- Try to grab your reader’s attention and provide facts, details, definitions, and other information.
- Use transitional words and phrases to connect ideas.

TEACHER CONFERENCE NOTE

This week and next, confer with individual pairs about their drafts. Ask partners to read their drafts aloud and to tell you their plan for their report. Ask questions such as:

- Q *What did you write in your pre-research writing that you want to include in your draft?*
- Q *What questions did you originally write that you will answer in your draft?*
- Q *How did you group and order your notes? What made you decide to organize them that way?*
- Q *What is a fact, detail, definition, or other piece of information that would help your reader learn about [how firefighters put out forest fires]?*

Q *What transitional word or phrase might you use to help the reader move from this idea to the next one?*

Q *What else do you want to know? What sources might you use to find information about that?*

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Confer in Pairs About Drafts

Have partners read their writing to each other and check to make sure they each understand what the other has written. After a few moments, signal for their attention and ask:

Q *Do you understand everything your partner wrote today? If not, what can you ask your partner to help you understand?*

Q *If your partner is confused about something you wrote, how can you revise it to make it clearer?*

Invite volunteers to share examples from their own writing as they answer these questions.

6 Reflect on Partner Work

Ask and briefly discuss:

Q *What did you do to take responsibility for your part of the work today? How did that help your pair work?*

Q *What did you and your partner do to reach agreement about how to write your informational report? If you did not agree, what did you do to reach agreement?*

Have each pair of students put papers related to their informational report in their folder.

In this lesson, the students:

- Draft their informational reports
- Include facts, details, definitions, and other information related to their topics
- Explore transitional words and phrases
- Confer with one another about their drafts
- Work responsibly in pairs
- Share the work fairly

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their folders, report drafts, and pencils and gather with partners sitting together, facing you. Review that they have been writing drafts of their informational reports. Remind the students that they have been using facts, details, definitions, and other information in their reports and connecting those ideas using transitional words and phrases. Ask:

- Q *Why is it important to use facts, details, definitions, and other interesting information and examples in your report?*
- Q *Why is it important to use transitional words and phrases to connect ideas in your report?*

Students might say:

"I want to give facts in my report because I want my readers to learn true information about [how asteroids form]."

"Details are important to include because they make writing more interesting to read."

"I want to define a word when I think readers might not know it. Otherwise, readers could lose interest and stop reading."

"It's important to use transitional words and phrases to help readers move from one idea to the next one, so they don't get confused."

Ask the students to reread what they have written so far and to notice whether their reports are interesting and make sense. Discuss:

- Q *What do you notice about what you have written so far?*
- Q *What do you want to do today as you work to complete this draft?*

Materials

- "Transitional Words and Phrases for Reports" chart from Day 4
- "Writing Time" chart (WA12) from Day 4
- Loose, lined paper for writing drafts

Students might say:

"I notice that I left something out."

"My report seems like a list of facts. I want to make it more interesting."

"I want to work on the order of the information for one subtopic so it makes more sense."

2 Discuss How Partners Will Work Together

Explain that today partners will continue to draft their reports. If a partner finishes the part of the draft he has been working on, then both partners should review that part to make sure it is clear and complete. If partners agree that this part is complete, then they should choose another of their subtopics for the partner to work on.

Ask partners to spend a few minutes reviewing what they have written so far and deciding what they will write today.

Week 5

OVERVIEW

Writing Focus

- Students finish drafting their informational reports.
- Students explore and integrate text features into their reports.
- Students write introductions and endings for their reports.
- Students analyze and revise their reports.
- Students write author biography sections.
- Students confer with one another and the teacher.

Social Development Focus

- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students help one another improve their writing.
- Students work in a responsible way.
- Students build on one another's thinking.

DO AHEAD

- ✓ Prior to Day 3, think ahead about what you might include in an introduction to your report.
- ✓ Prior to Day 3, finish writing the model draft of your informational report.
- ✓ Prior to Day 4, decide how you will combine pairs of students to form groups of four.
- ✓ Prior to Day 4, prepare a sheet of chart paper titled “Does It All Make Sense?” with the following questions written on it:
 - Does this writing make sense? Can I track what the author is saying?*
 - Is there a place where I am confused? Where?*
 - What have I heard in this report that makes me curious?*
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA8) on page 91 of the *Assessment Resource Book*.

TEACHER AS WRITER

“To me, writing a book is a great voyage of discovery; what attracts me to a subject in part is what I don’t know about it, what I can learn from it.”

— David McCullough

Think about the subjects you are attracted to. What is something you would like to know about those subjects? Write your reflections in your notebook.

Day 1

Drafting and Pair Conferencing

Materials

- *Rainforests* from Week 1
- *Student Writing Handbook* pages 23–24
- The model draft on the lined writing chart (WA10) from Week 4
- Loose, lined paper for writing drafts
- Chart paper and a marker
- A pad of small (1½" × 2") self-stick notes for each pair
- Unlined paper for text features
- “Writing Time” chart (WA13)

In this lesson, the students:

- Explore and use expository text features
- Draft their informational reports
- Share the work fairly
- Reach agreement before making decisions
- Assess how a solution is working and modify it if necessary

MORE ABOUT FACILITATING PARTNER WORK

This week students in each pair combine their writing into a single report, write an introduction together, and make many decisions. Partners also give each other feedback about their writing. This cooperative work may challenge your students. If you notice partners struggling to work together, ask them questions such as:

Q *What problem are you trying to solve? Why is it important to solve it?*

Q *What is a solution you can both live with, even if it's not your first choice?*

Q *Is that solution fair to both of you? Why or why not?*

GETTING READY TO WRITE

1 Reread and Share Sentences

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you.

Remind the students that last week they began drafting their nonfiction informational reports. Review that the purpose of these reports is to help their classmates become curious about their topics.

Ask the students to quietly reread their own writing from last week and each select one sentence that they feel might help others become curious about their topics. Tell them that you would like each student to read his sentence aloud. Ask the students to listen carefully to one another's sentences and to think about which ones make them curious.

Go around the room and have the students read their sentences aloud, without comment. When all have read, ask and briefly discuss:

Q *What sentences did you hear that make you curious?*

Explain that the students will continue to work on their drafts today, and encourage them to write in a way that helps others become as curious as they are about their topics.

2 Explore Expository Text Features

Point out that nonfiction often includes various text features, such as maps and photographs, to provide additional information and to make the writing more interesting. Explain that the students will look closely at some of these features today and decide whether they want to include such features in their own informational reports.

Show the cover of *Rainforests*, and remind the students that they heard this book earlier in the unit. Ask them to open to *Student Writing Handbook* pages 23–24 as you show pages 6–7 of the book. Point out the expository text features on these pages (map, caption, heading, words in bold type, photograph, labeled illustration). Ask the students to follow along as you read these pages aloud and to think about how these features help them understand the main text.

Read page 6 aloud; then point out the regions on the map that show where rainforests are found today (dark green in the book; shaded on the *Student Writing Handbook* excerpt). Ask and briefly discuss:

- Q *What information do the map and its caption provide that helps us understand the text?*
- Q *What information do the headings and words in bold type provide that helps us understand the text?*
- Q *How does the labeled illustration help us understand the text?*

Write *map*, *caption*, and *heading* on a sheet of chart paper titled “Text Features.” Read page 7 aloud; then ask:

- Q *How does the photograph help us understand the text?*

Have a few volunteers share with the class; then add *photographs* to the “Text Features” chart. Follow the same procedure to discuss the labeled illustration of animals.

Point out that the word in bold type on page 6 (*equator*) is defined in the glossary on pages 46–47 of the book. Show the glossary and read a few definitions aloud. Add *word in bold type* and *glossary* to the chart.

3 Model Marking Your Draft for Text Features

Show and reread the model draft of your informational report on the lined writing chart (WA10). Think aloud about text features you might want to include in your report to give more information and help your readers understand the text. Point to each place in your draft where you might include a feature, and explain your thinking. Model writing the name of the text feature in the margin next to the place where the feature will go.

Facilitation Tip

Continue to practice **asking facilitative questions** during class discussions to help the students respond directly to one another. Redirect students' comments to the class by asking:

- Q *Do you agree or disagree with [Anne]? Why?*
- Q *What questions can we ask [Anne] about what she said?*
- Q *What can you add to what [Anne] said?*

To see this Facilitation Tip in action, view “Asking Facilitative Questions” (AV22).

Teacher Note

Save the “Text Features” chart to use on Day 2 and throughout the week.

Technology Tip

You might teach Technology Mini-lesson 9, “Creating Documents,” in Appendix A before discussing how to add text features to informational reports.

Teacher Note

Students will learn how to create a bibliography on Week 6, Day 3 in this unit.

Teacher Note

The students may write or draw their text features, copy them out of books, cut them out of magazines, or download them from the Internet.

TEKS 1.D.i Student/Teacher Activity Step 5

You might say:

“I might want to include a map of the Indian Ocean here to show which countries were hit by the great tsunami of 2004. I will write *map* next to that spot in the margin of my draft. I might also want to include an illustration that shows a wave next to a building to show my reader just how high a 100-foot wave is. I will write *illustration* next to that sentence in the margin of my draft.”

4 Discuss Adding Text Features to Informational Reports

Reread the items on the “Text Features” chart; then use “Think, Pair, Share” to discuss:

Q *What text features might you want to include in your report and why?*
[pause] *Turn to your partner.*

After partners have talked, have a few volunteers share their thinking with the class. Ask and briefly discuss:

Q *Where might you go for help in creating your text feature?*

5 Discuss How Partners Will Work Together

Explain that today partners will decide what text features they want to include in their report and begin creating them on separate sheets of paper. Point out that if they include photographs in their report, they must include captions that tell about the photographs.

Explain that partners will decide where in their report the text features will go and mark those places with self-stick notes. The notes will remind them to leave space for those text features when they copy their draft into its final version.

Briefly discuss:

Q *Today you and your partner have many decisions to make. What have you learned about making decisions with a partner that will help you?*

Q *What are some ways to make a fair decision if you and your partner don't agree at first?*

Ask partners to spend a few minutes deciding what they want to accomplish today and how they will share the work fairly. Remind them that both partners need to be writing sections of their joint draft.

WRITING TIME

6 Draft Informational Reports

Have the students get their notebooks, folders, and pencils and sit at desks with partners together. Display the “Writing Time” chart (WA13) and have partners work on the charted tasks for 20–30 minutes.

Writing Time

- Decide what text features to include.
- Use self-stick notes to show where in your draft the text features will go.
- Continue drafting your informational report.
- Begin creating text features for your report.

As the students work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with one pair at a time.

TEACHER CONFERENCE NOTE

As you did in Week 4, continue to confer with individual pairs about their drafts. Ask partners to read their drafts aloud and to tell you their plan for their report. Ask questions such as:

- Q *What did you write in your pre-research writing that you want to include in your draft?*
- Q *What questions did you originally write that you will answer in your draft?*
- Q *How did you group and order your notes? What made you decide to organize them that way?*
- Q *What is a fact, detail, definition, or other piece of information that would help your reader learn about [how firefighters put out forest fires]?*
- Q *What transitional word or phrase might you use to help the reader move from this idea to the next one?*
- Q *What text features can you include to make the information in your report even more interesting and clear?*

Document your observations for each student on a separate “Conference Notes: Focus 2” record sheet (CN2); see page 95 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

7 Confer in Pairs and Reflect

Have partners read their writing from today to each other and check to make sure they each understand what the other has written. Give them time to clarify any confusion in their writing; then ask and briefly discuss questions such as:

- Q *What text features have you and your partner decided to include? How did you decide?*
- Q *What did you do to work responsibly on your part of the work today? How did that help your pair work?*
- Q *Did you and your partner disagree about anything today? If so, what did you do to reach agreement?*

Explain that partners will continue to work on their reports tomorrow. Have the pairs of students put all the papers related to their informational reports in their folders.

Teacher Note

Questions like this help the students develop good working relationships with their partners. When students feel connected to others, they learn to relax and take the risks necessary to grow academically, socially, and ethically. For more information, view “Building a Community of Writers” (AV1).

Day 2

Drafting and Pair Conferencing

Materials

- *Rainforests* from Week 1
- “Text Features” chart from Day 1
- Loose, lined paper for writing drafts
- Unlined paper for text features
- “Writing Time” chart (WA14)

In this lesson, the students:

- Explore and use informational text features
- Draft their informational reports
- Share the work fairly
- Reach agreement before making decisions

GETTING READY TO WRITE

1 Gather and Briefly Review

Gather the students with partners sitting together, facing you. Review that yesterday they began thinking about text features to include in their informational reports. Direct their attention to the “Text Features” chart and review the items on it. Ask and briefly discuss:

- Q *Which text features are you and your partner planning to include in your report? Tell us about them.*

Explain that today the students will explore a few more text features and decide if they want to include these features in their own reports.

2 Explore More Informational Text Features

Leaf through *Rainforests* and draw the students' attention to the table of contents (page 3). Read it aloud and ask:

Q *Why might you want to include a table of contents?*

Add *table of contents* to the “Text Features” chart.

Follow this procedure to look at and discuss *diagrams with labels* (for example, page 9), *fact boxes* (for example, “Hidden World” on page 13 and “Trunks and roots” on page 17), and the *index* (page 48), each time adding the name of that feature to the chart.

3 Discuss Adding Text Features to Informational Reports

Use “Think, Pair, Share” to discuss:

Q *What other text features might you want to include in your report and why?* [pause] *Turn to your partner.*

After partners have talked, have a few pairs of students share their thinking with the class.

Explain that today partners will continue working on their drafts, including any text features they want to add. Remind them to use self-stick notes to show where text features will go when they write their final versions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Confer in Pairs and Reflect

Have partners read their writing from today to each other and check to make sure they each understand what the other has written. Give them time to clarify any confusion in their writing; then ask and briefly discuss:

- Q *What text features have you and your partner decided to include?*
- Q *How are you sharing the work? Do you feel you are sharing it fairly? If not, what might you want to do differently tomorrow to share the work more fairly?*

Explain that partners will continue to work on their reports tomorrow. Have each pair of students put papers related to their informational report in their joint folder.

EXTENSION

Discuss Text Features in Other Nonfiction

Take time at the end of independent reading periods and other times during the day to discuss text features in the nonfiction students are reading. Have students share the titles and authors of the books they are reading and tell what the books are about. Discuss questions such as:

- Q *What features (such as illustrations, captions, diagrams, graphs, tables of contents, and glossaries) of nonfiction do you see in your book?*
- Q *How do those features give you more information or help you understand the text?*

Drafting and Pair Conferring

Day 3

In this lesson, the students:

- Explore and write interesting introductions
- Draft their informational reports
- Make decisions about the completeness of a draft
- Check each other's writing for understanding
- Give feedback in a helpful way

GETTING READY TO WRITE

1 Explore Interesting Introductions

Have the students bring their folders and gather with partners sitting together, facing you.

Remind the students that their published reports will be placed in the class library for other students to read. Explain that today the students will spend some time thinking about what they want to write at the very beginning of their reports to capture the reader's attention. Show the covers of *Global Warming* and *Extreme Earth Records* and explain that the students will explore how the authors of these books chose to begin them.

Materials

- *Global Warming* from Week 2
- *Extreme Earth Records* from Week 2

Student/Teacher Narrative
Steps 1 and 2

Show and read page 5 of *Global Warming* aloud; then ask and briefly discuss:

- Q *What is the author doing on this page to prepare the reader for what is coming in the book?*
- Q *What does the author do to get you interested in reading this book?*

Students might say:

"The author gets you interested by making you imagine what Earth was like thousands of years ago. That makes you want to read and find out what can cause changes in Earth's climate."

"In addition to what [Peter] said, the author makes reading the book seem fun, like you're hearing a story, not just learning facts."

"Also, the author asks questions that make you think hard about the topic. They make you want to keep reading to get some answers."

Repeat this procedure with page 9 of *Extreme Earth Records* (reading only the first paragraph on the page).

2 Model Writing an Interesting Introduction

Ask the students to watch as you model writing an interesting introduction. Display the model draft on the lined writing chart (WA10) from Day 1. Model writing an introduction on a sheet of chart paper, thinking aloud about what you might write.

You might say:

"For this report, I think I'll write an introduction similar to Seymour Simon's in *Global Warming*. I'm going to create a picture in my reader's mind that will make him or her excited to read more about my topic."

As you write, elicit the students' help. Ask questions such as:

- Q *What can I write to make readers feel excited about my topic?*
- Q *How can I get readers curious to learn about tsunamis?*
- Q *What is an interesting detail I could include about tsunamis that will make readers want to find out more?*

Introduction

A wave taller than your school sweeps in and washes everything away—people, buildings, pets, trees, and cars. This isn't an action movie's special effect. This terrifying disaster

(continued)

has really happened. A wave like this one is called a tsunami. Although tsunamis are rare, they can cause so much damage and destroy so many lives that people remember them for a long time. It is important for people who live near a coast, especially the coasts of the Pacific and Indian Oceans, to know what tsunamis are and how to be prepared for them.

If the students have difficulty suggesting sentences, continue thinking aloud and writing a few more yourself. Point out that you are trying to make your introduction as interesting as possible for your readers so they will want to read your report.

Tell the students that authors introduce their books in many different ways and suggest that the students look at some of the introductions in the resources they have used to get other ideas.

3 Discuss How Partners Will Work Together

Explain that today partners will decide on the type of introduction that they will write, discuss how they will share the work of writing it, and begin writing. They will also finish drafts for all of their subtopics. Ask partners to spend a few minutes discussing what they want to accomplish today.

WRITING TIME

4 Continue Drafting Informational Reports

Display the “Writing Time” chart (WA15). Have the students sit together at desks with partners and work on the charted tasks for 20–30 minutes.

- Decide on the type of introduction you will write.
- Write your introduction.
- Finish writing the drafts for all your subtopics.

4 and Teacher Conference
Note (last question)

Circulate, observe, and offer assistance. When pairs of students seem to be working independently, confer with one pair at a time.

TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about their drafts. Ask partners to read their drafts aloud and to tell you their plan for their report. Ask questions such as:

- Q *What did you write in your pre-research writing that you want to include in your draft?*
- Q *What questions did you originally write that you will answer in your draft?*
- Q *How did you group and order your notes? What made you decide to organize them that way?*
- Q *What is a fact, detail, definition, or other piece of information that would help your reader learn about [how firefighters put out forest fires]?*
- Q *What transitional word or phrase might you use to help the reader move from this idea to the next one?*
- Q *What text features can you include to make the information in your report even more interesting and clear?*
- Q *What can you write in your introduction to make your reader want to keep reading?*

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 95 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Confer in Pairs About Drafts

Ask partners to read to each other what they have written today and to make sure they each understand what the other has written. Give them time to clarify any confusion in their writing. Briefly discuss:

- Q *What type of introduction did you decide to write? How did you share the work of writing it?*

6 Reflect on Partner Work

Ask and briefly discuss:

Q *Did you and your partner disagree about anything today? If so, what did you do to reach agreement?*

Explain that tomorrow partners will think about writing an ending for their report and will finish writing their drafts. Have partners put all the papers related to their informational report in their folder.

EXTENSION

Explore Strong Opening Sentences for Subtopics

Remind the students that the opening sentences of a piece of writing need to grab the reader's attention, making her want to keep reading. Review that informational reports are usually divided into sections, with each section featuring a different subtopic. Explain that good nonfiction writers pay attention to the opening sentences of each section, making them as interesting as possible so that readers will want to read about each subtopic.

Read the opening sentences from a few chapters in *Extreme Earth Records* (for example, you might read the opening sentences on pages 13, 17, 21, and 25). Discuss as a class what the author does in these opening sentences to make the reader curious to learn more. Then have the students revise the opening sentences of their subtopics as needed in order to grab the reader's attention.

Day 4

Group Conferencing

Materials

- “Does It All Make Sense?” chart, prepared ahead
- The model draft on the lined writing chart (WA10) from Day 3
- Loose, lined paper for writing drafts
- “Class Assessment Record” sheet (CA8)

In this lesson, the students:

- Ask for and receive feedback about their writing
- Give feedback in a helpful way
- Ask one another questions about their writing
- Discuss and solve problems that arise in their work together
- Finish drafting their informational reports
- Include one another and contribute to group work

GETTING READY TO WRITE

1 Prepare for Group Conferences

Have the students bring their folders and gather with partners sitting together, facing you. Explain that today each pair will meet with another pair to confer about their informational reports (see “Do Ahead” on page 427). They will share their drafts and get feedback from the other pair about anything confusing or unclear; then each pair will make any necessary revisions until they are convinced that their report makes sense and is complete.

Remind the students that in the writing community, the goal of giving feedback is to help each person create the best possible piece of writing. In pairs and as a class, discuss:

Q *What have you learned about giving feedback respectfully? Turn to your partner.*

Q *What problems can arise when giving feedback? How will you avoid those problems today? Turn to your partner.*

2 Prepare to Give Feedback: Does It All Make Sense?

Explain that, as the students listen to one another’s writing, you would like them to ask themselves some questions. Direct the students’ attention to the “Does It All Make Sense?” chart (see “Do Ahead” on page 427) and read the questions aloud.

ELPS 5.G.ii
Steps 2–4

Does It All Make Sense?

Does this writing make sense? Can I track what the author is saying?

Is there a place where I am confused? Where?

What have I heard in this report that makes me curious?

Display the model draft on the lined writing chart (🗨️ WA10) from Day 3. Help the students practice giving feedback about these questions by reading your draft aloud, along with any revisions. Use “Think, Pair, Share” to have partners consider and discuss the questions about your draft. Then ask a few volunteers to give you feedback about your draft using the questions.

Encourage the students to listen carefully to their group members when conferring and be ready to report the feedback they heard to the class.

3 Confer in Groups

Have pairs move into the groups of four you have assigned. Give them ample time to read aloud their drafts and confer. As they work, circulate, observe, and offer assistance.

CLASS ASSESSMENT NOTE

Circulate among conferring groups of four. Observe the students and ask yourself:

- Are groups staying on task, reading and discussing their writing?
- Are group members asking one another questions about their drafts?
- Are they giving feedback in a helpful and respectful way?

Make note of any problems you notice groups having to bring up during the reflection discussion.

Record your observations on the “Class Assessment Record” sheet (CA8); see page 91 of the *Assessment Resource Book*.

When most groups have had time to discuss their drafts, signal for the class’s attention.

4 Reflect on Feedback Received

Ask and briefly discuss as a class:

Q *What did the members of your group do to be respectful during your conference?*

Remind the students that authors pay close attention to feedback about what is unclear or confusing in their writing. Although authors might not follow every suggestion they receive, the feedback helps them improve their work until it is the best piece of writing possible. Use “Think, Pair, Share” to discuss:

 **Q** *What feedback did you hear today that you might use when you rewrite your draft? [pause] Turn to your partner.*

Q *What feedback do you want to think more about before deciding whether to use it or not? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class.

5 Discuss How Partners Will Work Together

Explain that today partners will work together to make any agreed-upon revisions and reread their drafts to make sure they are as clear, interesting, and complete as they can be.

 Ask partners to spend a few minutes deciding what they want to accomplish today and how they will share the work.

WRITING TIME

6 Revise Informational Reports

 Have partners sit together at desks and work for 20–30 minutes to make the changes and additions as they discussed.

As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with one pair at a time.

TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about their drafts. Ask partners to read their drafts aloud and to tell you their plan for their report. Ask questions such as:

Q *What did you write in your pre-research writing that you want to include in your draft?*

Q *What questions did you originally write that you will answer in your draft?*

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

7 Briefly Reflect on Writing

Help the students reflect on their work today by briefly discussing:

- Q *What feedback did you incorporate into your draft today? Tell us about it.*

Have partners put all the papers related to their informational report in their folder.

EXTENSION

Teach Cooperative Structures for Group Work

Look for opportunities throughout the school day for the students to work in groups of four (or three or five, if necessary). Two cooperative structures you can teach them to use during group work are “Heads Together” and “Group Brainstorming” (see “Cooperative Structures” on page xxx). Group work can be more challenging for students than pair work. Take time to discuss problems, as well as how group members are including one another and contributing responsibly to the work.

Materials

- “Author Biography Section from *Global Warming*” chart (WA16)
- *Student Writing Handbook* page 25
- The model draft on the lined writing chart (WA10) from Day 4
- “Writing Time” chart (WA17)
- Loose, lined paper for writing drafts

In this lesson, the students:

- Explore and write author biography sections
- Finish drafting their informational reports
- Reach agreement before making decisions
- Check each other’s writing for understanding
- Give feedback in a helpful way

GETTING READY TO WRITE

1 Explore “About the Author” Sections

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Explain that today you will ask them to think about an important feature of informational reports: sections that tell about the author.

Explain that these sections give information about the author’s life and often his or her expertise (knowledge) of the topic discussed in the book. Explain that you will read the section that tells about Seymour Simon from the book *Global Warming*, which they heard earlier, and ask them to think about what they learn about the author.

Have the students open their *Student Writing Handbooks* to page 25, where the information about Seymour Simon from *Global Warming* is reproduced. At the same time, display the “Author Biography Section from *Global Warming*” chart (WA16). Read the passage together. If necessary, explain that a *dean* is someone who has earned one of the highest positions in a school, so calling Seymour Simon “the dean” means that he is seen as the top expert in the children’s science field. Ask and briefly discuss:

- Q *What do you find out about the author?*
- Q *What words or phrases show you that the author is an expert on writing about science for young people?*

Students might say:

“I found out that he has written more than 250 books for young readers.”

“He also won a bunch of awards for being a great science writer.”

“In addition to what [Garry] said, the *New York Times* said that he’s one of the best writers in the field of children’s science.”

As volunteers respond, underline the words and phrases they mention on the chart.

2 Model Writing a Section About the Author

Ask the students to watch as you model writing a section about the author. Display the model draft on the lined writing chart (WA10) from Day 4. Model writing a section about the author at the bottom of the document, below the last section, thinking aloud about what you might write.

You might say:

"I want to let my readers know that I'm really interested in tsunamis and that I have the necessary knowledge to write an accurate report about them. I also want to let my readers know a little bit about me as a person because I think if my readers feel connected to me, that will help make them interested in what I write."

WA10

About the Author

Juliana Barillo has taught informational report writing to

hundreds of students in her 15 years as an elementary school

teacher. She enjoys helping her students understand the

importance of what she calls "finding the beauty in science."

Mrs. Barillo became interested in tsunamis after reading

about the tsunami that hit the Japanese coast in 2011. She

wanted to know more about how scientists predict tsunamis and

how communities warn people when a tsunami is predicted. She

has read many, many books, articles, and websites about these

fascinating but terrifying waves.

When Mrs. Barillo is not teaching or writing, she enjoys

spending time with her husband, Craig, her son, Jeffrey, and

their parakeet, Captain Hook.

As you write, elicit the students' help. Ask questions such as:

- Q *What can I write to let readers know that I have the knowledge needed to write this report?*
- Q *What can I share with readers to help them get to know me a little bit?*

If the students have difficulty suggesting sentences, continue thinking aloud and writing a few more yourself. Point out that you are trying to make your writing demonstrate to your readers that you are a friendly, interesting person with expertise on the topic of tsunamis.

3 Discuss How Partners Will Work Together

Explain that partners will each contribute to their “About the Authors” section. They will talk with each other about what they might write and then each write their part. Suggest that the students look through the resources they have used to get other ideas for their “About the Authors” section.

Ask partners to spend a few minutes discussing what they want to accomplish today.

WRITING TIME

4 Continue Drafting Informational Reports

Have the students get their folders and pencils and sit at desks, partners together. Display the “Writing Time” chart (WA17) and have partners work on the charted tasks for 20–30 minutes.

Writing Time

- Decide what you will each write about yourself.
- Share your ideas with your partner.
- Write your part of the “About the Authors” section.

WA17

As the students work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with one pair at a time.

TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about their drafts. Ask partners to read their drafts aloud and to tell you their plan for their report. Ask questions such as:

- Q *What did you write in your pre-research writing that you want to include in your draft?*
- Q *What questions did you originally write that you will answer in your draft?*
- Q *How did you group and order your notes? What made you decide to organize them that way?*
- Q *What is a fact, detail, definition, or other piece of information that would help your reader learn about [how firefighters put out forest fires]?*
- Q *What transitional word or phrase might you use to help the reader move from this idea to the next one?*
- Q *What text features can you include to make the information in your report even more interesting and clear?*
- Q *What can you write in your introduction to make your reader want to keep reading?*
- Q *How might you revise your report so it [makes sense/captures your reader's interest/gives enough information]?*
- Q *What might you write in an "About the Author" section to introduce yourself to your reader?*

Document your observations for each student on a separate "Conference Notes: Focus 2" record sheet (CN2); see page 95 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Confer in Pairs About Drafts

Ask partners to read to each other what they have written today and to make sure they each understand what the other has written. Give them time to clarify any confusion in their writing. Briefly discuss:

- Q *What was something you shared about yourself in your part of the "About the Authors" section?*

6 Reflect on Partner Work

Ask and briefly discuss:

Q *Did you and your partner disagree about anything today? If so, what did you do to reach agreement?*

Tell the students that they will publish the final versions of their reports next week. Have partners put all the papers related to their informational report in their folder.

Materials

- Read-aloud books from Weeks 1–2
- Collected nonfiction texts

ELPS 5.B.ii
Writing About Reading

WRITING ABOUT READING

Write Opinions About a Nonfiction Text

Remind the students that they have heard and read a great deal of nonfiction about various topics over the past several weeks. Ask:

Q *What does a good informational book or report include?*

As volunteers share, list their ideas where everyone can see them.

Explain that you will reread the first three pages of the book *I Wonder Why Penguins Can't Fly*. Ask the students to think as they listen about which items on the list the book includes. Read the first three pages of the book aloud and stop periodically during the reading to have the students discuss the items they notice.

Explain that you would like the students to write an opinion piece about whether or not they think a particular nonfiction book is well written. Direct the students' attention to the list you just created and explain that one way of forming an opinion about the book is to consider whether it includes the characteristics or features that good informational books and reports usually include. Ask the students to watch as you think aloud and model writing an opinion about *I Wonder Why Penguins Can't Fly*. Be sure to support your opinion with information and features from the book and with information from the list of things to include in nonfiction about a topic.

You might say:

"I think that *I Wonder Why Penguins Can't Fly* is a good example of informational text. I'll start by writing: *The book I Wonder Why Penguins Can't Fly by Pat Jacobs is a good example of a nonfiction text.* Notice that I stated my opinion and put the book's title and the author's name in the opening sentence. Now I need to explain my thinking using facts and details. I'll write: *Jacobs grabs your attention from the very first page by asking questions readers have probably wondered about. The author keeps the reader interested with colorful illustrations and helps the reader make sense of the text through a table of contents, an index, and a question-and-answer format that is easy to follow. Jacobs's writing is clear and interesting; every sentence is easy to understand. Perhaps best of all, I Wonder Why Penguins Can't Fly is filled with fascinating facts, details, definitions, and other information.* Now I need a closing sentence. I'll write: *I strongly recommend Pat Jacobs's book to readers who wish to find out more about polar regions.*"

Tell the students that people may differ about how well written they think a particular published work is, and that is fine. The important thing is that they explain their thinking by using facts and details from the piece. Invite the students to write about *I Wonder Why Penguins Can't Fly* or any of the other nonfiction texts read aloud earlier in the unit or that they read for their own research. Give them time to browse the titles, select a text, and reread it.

When the students have selected and reread their texts, explain that they should each start their opinion piece with an opening sentence that states their opinion and includes the title of the text and the author's name, give a reason for their opinion and a fact or detail to support their reason, and provide a closing sentence that wraps up their writing. Have the students write about their opinions. If time permits, invite the students to share their opinions with the class.

Teacher Note

If the students have difficulty generating ideas, think aloud about what the class has learned about expository nonfiction and add the items you mention to the chart. The list does not need to be exhaustive or perfectly mirror the following list but should include several of these items:

- Clear, interesting writing
- Maps, charts, illustrations, photos, captions
- Table of contents
- Glossary
- Subtopics with titles
- Subtopics organized in a way that makes sense
- Facts, details, definitions, or other information related to the topic
- Transitional words and phrases that help the reader connect ideas
- Strong opening sentences that grab the reader's attention
- Introduction
- "About the Author" section
- Absence of punctuation, spelling, and grammar mistakes

Week 6

OVERVIEW

Writing Focus

- Students proofread for spelling, grammar, and punctuation errors.
- Students write final versions of their informational reports.
- Students write bibliographies.
- Students publish completed reports.
- Students present their informational reports to the class from the Author's Chairs.
- Students confer with one another and the teacher.

Social Development Focus

- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students express interest in and appreciation for one another's writing.
- Students give their full attention to the person who is speaking.

DO AHEAD

- ✓ Prior to Day 1, decide how the students will publish their final versions for the class library. For example, each pair of students might make a book (see “Tips for Managing the Program in Your Classroom” on page xli), a poster with the final version attached to it, or a multimedia presentation (see the technology extension “Create Multimedia Presentations” on page 455; also see Technology Mini-lesson 8, “Citing Online Sources” and Technology Mini-lesson 10, “Creating Presentations,” in Appendix A). Gather any necessary materials.
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA9) on page 92 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA10) on page 93 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student’s published piece.
- ✓ (Optional) If computers are available, you might have some students type and print out their drafts. You may want to recruit parent volunteers to help the students do so. In addition, you might teach Technology Mini-lesson 9, “Creating Documents,” in Appendix A.

TEACHER AS WRITER

“I get pieces, flashes of an idea, an image, and I won’t know what it means, but I’ll be fascinated by it. It’s all there in that first instant—it’s complete—but all I know is the wonder and the curiosity.”

— Mekeel McBride

Think about the informational report you wrote as a model for the students over the past few weeks. What have you learned about the topic as you researched and wrote about it? What surprised you? What are you curious about now? Jot your reflections in your notebook and consider writing more about this topic at a later time.

Materials

- “Nonfiction Passages with Run-on Sentences” chart (WA18)
- *Student Writing Handbooks*
- “Writing Time” chart (WA19)
- Supply of lined paper for final versions
- “Class Assessment Record” sheet (CA9)
- (Optional) Computers for typing and printing final versions

In this lesson, the students:

- Proofread for spelling and punctuation
- Listen for run-on sentences as they read their drafts aloud
- Begin writing their final versions
- Reach agreement before making decisions
- Share the work fairly

GETTING READY TO WRITE

1 Prepare to Proofread First Drafts

Have the students get their folders, pencils, and *Student Writing Handbooks* and sit at desks with partners together. Remind the students that last week they completed the first drafts of their informational reports and began to revise them. Today each pair of students will continue to revise their draft and proofread it to be sure they have corrected all errors before publishing it. This will help their classmates easily read and understand it.

Remind the students that they learned to proofread their drafts for spelling and punctuation using the Word Bank and Proofreading Notes sections in the *Student Writing Handbook*. Explain that they will use these resources today to proofread their informational reports.

2 Discuss Proofreading for Spelling

Ask the students to begin rereading their drafts (even if they are not finished with them) and circle any words that they are not sure how to spell. Stop the students after a couple of minutes and ask:

Q *What words have you circled so far?*

Have a few volunteers report the words they circled. Have the students check the word bank to see if the words they circled are listed. If not, encourage them to check the spelling by another method during Writing Time today and to make sure to add the correctly spelled word to their word banks. The students can check the spelling of a word by asking you or another student, finding the word in a published book, or looking it up in a dictionary or online.

3 Discuss Proofreading for Run-on Sentences

Remind the students that their proofreading notes are a checklist of things to pay attention to when they proofread their drafts. Ask:

Q *What is listed in your proofreading notes that you will check for in your draft today?*

Point out that, in addition to checking for the rules already listed in their proofreading notes, such as capital letters at the beginnings of sentences and proper nouns (nouns that name a specific person, place, thing, or organization), the students should also check for run-on sentences. Remind students that a *run-on sentence* is usually made of two or more complete sentences that have been “run together” without a conjunction (connecting word) such as *or*, *and*, *so*, or *but*. Point out that run-on sentences often look like really long sentences.

Display the “Nonfiction Passages with Run-on Sentences” chart (📄 WA18). Ask the students to watch and listen as you read the first passage aloud, pausing only at the period. Ask:

Q *What did you notice about the way the passage sounded when I read it?*

Q *What run-on sentences do you notice in the passage?*

Students might say:

“It doesn’t sound right.”

“In addition to what [Bettina] said, some of the sentences sound funny—like they go on too long.”

“I noticed a sentence that sounded like it might be two sentences squished together. It was confusing.”

If necessary, point out that right now the passage does not sound right when it is read aloud because it contains run-on sentences. Model rereading the passage while thinking aloud about how to split the run-ons into several complete sentences or about how to join them into one complete sentence. Invite the students to help you.

You might say:

“Some of us think that the first sentence is a run-on. I agree. I can hear it when I read, ‘All living things need water to survive coping with dry desert weather is tough for plants and animals.’ That sounds like the end of one sentence and the beginning of another sentence squished together. I can join the two sentences with a connecting word by putting a comma after *survive*, and adding *so* before *coping*. Now the two sentences are joined correctly. Next, I think that the second sentence is a run-on, too. I can join the two sentences with a connecting word by putting a comma after the first *roots* in that sentence and adding *and* before *some*.”

Follow this same procedure with the second passage on the “Nonfiction Passages with Run-on Sentences” chart.

ELPS 5.F.i
Steps 3–5

Skill Practice Note

The students will have more opportunities to practice recognizing run-on sentences in the other genre units. For more practice producing complete sentences and correcting run-on sentences, see Lesson 1, Lesson 2, and Lesson 5 in the *Skill Practice Teaching Guide*.

4 Discuss How Partners Will Work Together

Review that the students will proofread their drafts for spelling and punctuation using their word banks and proofreading notes in their *Student Writing Handbooks*. Then they will read their drafts aloud and listen for any run-on sentences. They should split run-ons into two or more complete sentences. Remind them to capitalize the first word of each complete sentence and add a period at the end. If they finish, they should begin copying their final drafts on loose, lined paper.

Ask partners to spend a few minutes discussing what they will work on today and how they will share the work fairly.

WRITING TIME

5 Proofread and Write Final Versions

Display the “Writing Time” chart (WA19) and have partners work on the charted tasks for 20–30 minutes.

Writing Time

- Proofread your draft for spelling and punctuation.
- Check for run-on sentences.
- If you finish proofreading, begin copying your final version on loose, lined paper.

WA19

As the students work, circulate and observe, assisting as needed.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners working together fairly to write a final version of their informational report?
- Are they catching and correcting spelling, grammar, and punctuation errors?

Support any pair that struggles by asking questions such as:

- Q *What is each of you responsible for accomplishing?*
- Q *Is the way you are sharing the work fair? Why or why not?*
- Q *What can you do to share the work fairly?*
- Q *Why is it important that both of you do your part of the work on this project?*

Record your observations on the “Class Assessment Record” sheet (CA9); see page 92 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

6 Reflect on Proofreading

Briefly discuss questions such as:

- Q *What corrections did you make when you proofread your draft?*
- Q *What words did you find in your word bank? How did you check on words that were not in the word bank?*
- Q *Who found errors using your proofreading notes? Tell us about them.*

Have partners put all the papers related to their informational report in their folder.

TECHNOLOGY EXTENSION

Create Multimedia Presentations

Have the students develop their informational reports into multimedia presentations. Begin by discussing the various types of multimedia the students might incorporate into their reports (for example, images, video, audio, or animations) and the ways that multimedia can make a report more informative and engaging. Then have the students work in pairs to determine how to present their reports visually.

For additional support, see Technology Mini-lesson 10, “Creating Presentations,” in Appendix A.

Materials

- “Nonfiction Passages with Sentence Fragments” chart (WA20)
- “Writing Time” chart (WA21)
- Supply of lined paper for final versions
- (Optional) Computers for typing and printing final versions

In this lesson, the students:

- Proofread for sentence fragments
- Write their final versions
- Add illustrations and captions
- Reach agreement before making decisions
- Share the work fairly

GETTING READY TO WRITE

1 Prepare to Proofread First Drafts

Have the students get their folders and pencils and sit at desks with partners together. Explain that the students will begin copying their first drafts into final versions. Before this step, they will take time to proofread their writing for one more thing to make sure that it is free from errors.

2 Discuss Proofreading for Sentence Fragments

Explain that the students will proofread their drafts today to see if they have any *sentence fragments*, or incomplete sentences. Explain that many sentence fragments can be identified because they do not have a *subject* that tells who or what a sentence is about or a *predicate* that tells what the subject does or did (or both). Point out that incomplete sentences should be changed to form complete sentences.

Display the “Nonfiction Passages with Sentence Fragments” chart (WA20). Ask the students to watch and listen as you read the first passage aloud. Ask:

- Q *What did you notice about the way the passage sounded when I read it?*
- Q *What sentence fragments, or incomplete sentences, do you see in the passage?*

Students might say:

“It doesn’t sound right.”

“In addition to what [Dillon] said, some of the sentences sound funny—like something is missing.”

If necessary, point out that right now the passage does not sound right when read aloud, because it contains several sentence fragments. Model rereading the passage and thinking aloud about how to transform the fragments into complete sentences or combine them with other complete sentences.

You might say:

“‘The climate and the weather’ isn’t a complete sentence because it lacks a predicate, but I can combine it with the sentence that follows so that I get: *Some people mix up the climate and the weather.* ‘The average weather over a long period of time’ doesn’t make sense by itself, but I can add a predicate and combine it with the fragment that follows to form a complete sentence: *The average weather over a long period of time is called the climate.* I can do the same thing to fix the next fragment, but I also have to add a few words to make the sentence sound smooth and make sense: *The sunshine yesterday and the rain today are examples of the weather.* Looking at the remainder of the paragraph, I see that there is one fragment and one complete sentence, so I’m going to try to fit the fragment into the complete sentence: *Climate scientists are concerned about the average weather over many years, not the daily weather.*”

Follow this same procedure with the second passage on the “Nonfiction Passages with Sentence Fragments” chart.

3 Discuss How Partners Will Work Together

Explain that during Writing Time the students will reread their drafts and look for sentence fragments. They should transform any fragments into complete sentences or combine them with other complete sentences. Then they should continue writing their final versions. If they finish, they may add images and captions to their reports.

Ask partners to spend a few minutes discussing what they will work on today and how they will share the work fairly.

WRITING TIME

4 Proofread and Write Final Versions

Display the “Writing Time” chart (WA21) and have partners work on the charted tasks for 20–30 minutes. As they work, circulate, observe, and offer assistance.

Writing Time

- Proofread your draft for sentence fragments.
- Write your final version on loose, lined paper.
- If you finish, add illustrations and captions.

- Q *What corrections did you make when you proofread your draft?*
- Q *What words did you find in your word bank? How did you check on words that were not in the word bank?*
- Q *Who found errors using your proofreading notes? Tell us about them.*

Have partners put papers related to their informational report in their folder.

Materials

Student/Teacher Narrative
Writing About Reading
(first paragraph through second-to-last paragraph)

Teacher Note

Some students might need help thinking of a problem related to the topic of their informational reports. Explain that they may select a problem only loosely related to their original topics.

WRITING ABOUT READING

Write Persuasive Paragraphs About Problems Related to Nonfiction Topics

Point out that over the last several weeks the students have become experts on a topic, and many of them have learned about problems related to their topics. Explain that they can use what they know about the topic and a related problem to write persuasively about that problem. (For example, the students might write to convince others that the problem is important and that they should care about solving it.) Ask:

- Q *What is a problem related to the topic you have chosen?*
- Q *Why do you think that people should care about this problem? In your opinion, why is this problem important?*
- Q *What are some things that people can do to solve this problem?*

Students might say:

"My report is about bats. I would write about the problem that bats could become extinct. I think people should care about this problem because bats do good things for the environment, like eating insects and pollinating crops."

"My topic is the sun. One problem related to the sun is that many people don't wear sunscreen and then they get skin cancer. I would write about why people should always wear sunscreen when they spend time outside."

"I'd write about the problem of dogs being abandoned on the street. I would try to convince people to think hard about being a responsible pet owner before they decide to get a dog."

Explain that the students will each write a paragraph that persuades people to care about or try to solve a problem related to the topic of their informational report. Explain that they will support their thinking with

facts and details about the topic. Ask the students to watch as you model writing a persuasive paragraph to convince people who live near oceans that they should always be prepared for a tsunami. Be sure to support your writing with facts and details about the topic.

You might say:

"My nonfiction topic is tsunamis. One problem related to tsunamis is that many people who live in coastal areas aren't prepared for this kind of emergency. I want to persuade these people to take tsunamis seriously and get prepared. I'll start by writing: *Do you live near the ocean? If you do, you should always be prepared for tsunamis and know what to do. Many people are not prepared for these deadly events, and I think that is a big problem.* Notice that I stated the problem and my opinion about it in the opening sentences. Now I need to explain why people should get prepared using facts and details I've learned about tsunamis. I'll write: *Tsunamis can happen suddenly. They are fast, moving at a speed of hundreds of miles per hour. In fact, people often have only a few minutes to flee from approaching tsunamis. Every second counts when a huge, destructive tsunami is coming! If you don't have an escape plan ready beforehand, you might not know what to do or where to go.* Now I will explain some things people in coastal areas can do to get prepared: *Here are some simple ways to get prepared. First, you should know your tsunami evacuation route—in other words, you should know how you're going to get to a safe place. Also, you should keep a wind-up radio at home so that you can listen to emergency broadcasts even if you lose electrical power. Finally, if there is a big earthquake, you should head to high ground away from the coast even before you hear about an official tsunami warning.* Those sentences all include facts I know from doing my research on tsunamis. Now I need some closing sentences. I'll write: *Now you know why it's very important to be prepared for tsunamis. Don't let you or your family get caught off guard by these sudden, life-threatening waves.*"

Tell the students that people may differ in their opinions about problems and how important certain problems are, and that is fine. The important thing is that they explain their opinions by using facts and details about the problem. Invite the students to write about a problem related to the topic they researched and to refer to nonfiction texts they used for their research.

Explain that they should each start the paragraph with opening sentences that identify the problem and state their own opinion about it. They should then try to persuade the reader to agree with their opinion by giving facts and details that support it. They should end the paragraph with closing sentences that wrap up the writing and restate their opinion.

Have the students write their persuasive paragraphs. If time permits, invite the students to share their opinions with the class. You might have the students create brochures about using the persuasive paragraphs and illustrations.

Day 3

Writing Final Versions

Materials

- “Bibliography of Print and Online Sources” chart (WA22)
- “Important Information About Books and Websites” chart from Week 3
- Supply of loose, lined paper for final versions
- Materials for publishing informational reports
- “Writing Time” chart (WA23)
- “Class Assessment Record” sheet (CA10)
- (Optional) Computers for typing and printing final versions

TEKS 13.G.i Student/Teacher Narrative Step 1

In this lesson, the students:

- Explore and develop bibliographies
- Finish writing their final versions
- Reach agreement before making decisions
- Share the work fairly

GETTING READY TO WRITE

1 Explore Bibliographies

Have the students get their sources and reports and sit at desks with partners together. Remind them that they have been proofreading their reports and writing their final versions. Explain that this week they will publish their reports. They will share the reports from the Author’s Chairs and then take the reports home to show their families before placing them in the class library.

Remind the students that the purpose of their informational reports is to help their classmates become interested in and curious about the topics they selected to research. Explain that one way authors spark their readers’ curiosity and help them know what else to read about a topic is by providing a *bibliography*, or a list of sources the author used while writing the book.

Display the “Bibliography of Print and Online Sources” chart (WA22). Ask and briefly discuss:

- Q *What do you notice about the way this bibliography is organized?*
- Q *How might this bibliography help a reader?*

Students might say:

“The sources are listed alphabetically by the last name of the author.”

“A reader who wants to check on how correct the facts are in the book could go look them up in the sources.”

“A reader who wants to learn more about the topic could get ideas from looking at the bibliography about other things to read about it.”

Point out that this bibliography lists print resources, like books and articles, and online resources, such as an organization’s website and an online encyclopedia. Also point out that the bibliography lists the sources in alphabetical order by the authors’ last names. Remind the students that they have been referring to the “Important Information About Books and Websites” chart when taking notes about their sources.

Explain that the information they wrote down about their books and websites will now help them write their bibliographies.

Tell the students that the parts of a bibliographic citation are written in a specific order. Write the following example citation where everyone can see it.

Alexander, Tim. The Big Book of Tsunami Facts.
New York: XYZ Books, 2010. Print.

Point out that this is a book citation, and ask the students to listen as you describe each part.

You might say:

"The author's last name goes first, then the author's first name, separated by a comma. Notice there's a period at the end of the first name. The title of the book comes next, underlined. The city where the publisher of the book is located comes next, followed by a colon. Then comes the name of the publisher, followed by a comma and the year of the book's publication and a period. The word *Print* comes next, since this is a book. The citation ends with a period."

Use the same procedure to discuss citing online sources.

Explain that before the students can complete their bibliographies, they need to be sure that they have recorded the title, author's name, and publication information for each of their sources. Ask each pair of students to look through their index cards and make sure they have recorded information about each of the sources they used to research their topic. After a few minutes, call for the students' attention. Explain that before they complete their bibliographies, they should finish writing their final drafts.

2 Discuss How Partners Will Work Together

Explain that today each pair of students will finish writing their final draft, number their pages, and create a bibliography that lists the sources they consulted. When they are finished, they may add illustrations and captions to their report.

Ask partners to spend a few minutes deciding what they will accomplish today and how they will share the work fairly.

Technology Tip

You might also teach Technology Mini-lesson 8, "Citing Online Sources," in Appendix A.

Teacher Note

Some students may need help in returning to sources they consulted and copying the information they need for their bibliographies.

WRITING TIME

3 Write Final Versions and Bibliographies

Display the “Writing Time” chart (WA23). Have the students sit at desks with partners together and work for 20–30 minutes.

WA23

Writing Time

- Finish copying your final version.
- Discuss and write a bibliography.
- If you finish, add illustrations and captions.

As the students work, circulate, observe, and offer assistance.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners working together fairly to write a final version of their informational report?
- Are they including a bibliography?

Support any pair that struggles by asking questions such as:

- Q *What is each of you responsible for accomplishing?*
- Q *Is the way you are sharing the work fair? Why or why not?*
- Q *What can you do to make it so you are sharing the work fairly?*
- Q *Why is it important that both of you do your part of the work on this project?*

Record your observations on the “Class Assessment Record” sheet (CA10); see page 93 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Reflect and “Preview” Reports as a Class

Explain that each pair of students will give the class a “preview” of their informational report by reading aloud any two sentences from it. Ask partners to quietly reread their report and select two interesting sentences (one for each partner) to read aloud. Give them a few moments to select their sentences; then ask the class to listen carefully to one another’s sentences and to think about which ones make them curious.

Go around the room and have the students read their sentences aloud, without comment. When all have read, ask and briefly discuss:

Q *What sentences did you hear that made you curious?*

Remind the students that they will begin sharing their published reports from the Author's Chairs tomorrow. Have partners put all the papers related to their informational report in their folder.

Writing Final Versions and Publishing

Day 4

In this lesson, the students:

- Publish their informational reports
- Handle materials responsibly
- Share materials fairly
- Make decisions about how they will present their reports from the Author's Chairs
- Express interest in and appreciation for one another's writing
- Ask one another questions about their writing

Materials

- Materials for publishing informational reports
- Two chairs to use for Author's Chair sharing (or three for trios)

GETTING READY TO WRITE

1 Discuss Handling and Sharing Materials

Have the students get their folders and sit at desks with partners together. Explain that the students will finish writing their final versions and will begin sharing them from the Author's Chairs today. Explain the method you have chosen for publication (see "Do Ahead" on page 451), and review any procedures you would like the students to follow (for example, how to handle art supplies, how to use the computers, and where to place published stories for Author's Chair sharing).

Briefly discuss how the students will share materials fairly, handle them responsibly, and help one another. Ask and briefly discuss questions such as:

- Q** *What will you do today to take care of our [book-making] materials? Why is that important?*
- Q** *If you want to use something, such as the computer or the hole punch, but someone else is using it, what can you do?*
- Q** *If you're using something and someone else wants to use it, what can you do to share it fairly?*
- Q** *How can we be helpful to one another as we publish our reports today?*

ELL Note

Support trios, as necessary, to make sure that all three students in each trio have a role in presenting their report to the class.

2 Discuss How Partners Will Work Together

Explain that today partners will work to finish publishing their report and then decide and practice how they will present it to the class (for example, decide what sections each partner will read aloud). Briefly discuss:

Q *What are some ways partners might share the presentation of their report?*

Explain that the students who finish the publication process today will begin sharing their reports from the Author's Chairs. Tell the students that Writing Time will be a bit shorter to allow time for this sharing. Ask partners to spend a few minutes deciding what they will accomplish and how they will share their work today.

WRITING TIME

3 Publish Reports and Prepare to Share

For 15–20 minutes, have partners work on publishing their informational report and preparing to present it. As they work, circulate, observe, and offer assistance.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Review Sharing Writing from the Author's Chairs

Gather the class with partners sitting together, facing the Author's Chairs. If necessary, remind them of the procedure you established for presenting books from the Author's Chair (see Unit 2, Week 2, "Do Ahead" on page 95).

Before asking partners to share from the Author's Chairs today, discuss how the students will act, both as presenting authors and as members of the audience.

Ask and discuss:

Q *Why is it important to speak in a loud, clear voice when you're reading your report to the class?*

Q *If you're in the audience and you can't hear the author, how can you politely let him or her know?*

Q *How will you let the authors know that you're interested in their report? Why is it important to express interest in one another's writing?*

Encourage the students to be attentive and considerate audience members, and tell them that you will check in with them afterward to see how they did.

5 Conduct Author's Chair Sharing

Ask partners who have finished publishing their informational report to read the report aloud from the Author's Chairs. At the end of the sharing, facilitate a discussion using questions like those that follow, and give the authors an opportunity to respond to the class's comments and questions:

- Q *What did you learn about [motorcycles] from hearing [Tracy and Jared's] report?*
- Q *What are you curious about after hearing their report?*
- Q *What questions can we ask [Tracy and Jared] about their report?*

Follow this procedure and have other pairs of students share from the Author's Chairs as time permits. Explain that tomorrow partners who have not finished publishing will have time to do so and to share their reports from the Author's Chairs.

6 Reflect on Audience Behavior During Author's Chair Sharing

Ask and briefly discuss:

- Q *What did we do well as an audience today? What might we want to work on the next time authors share their work?*
- Q *If you shared your report today, how did the members of the audience make you feel? What did they do that made you feel [relaxed/nervous/proud]?*

Day 5

Writing Final Versions and Publishing

Materials

- Materials for publishing informational reports
- Two (or three) chairs to use for Author's Chair sharing
- Copy of the Expository Nonfiction genre unit family letter (BLM1) for each student

Facilitation Tip

Reflect on your experience over the past weeks with **asking facilitative questions**. Does this technique feel comfortable and natural for you? Do you find yourself using it throughout the school day? What effect has using this technique had on your students' listening and participation in discussions? We encourage you to continue to use and reflect on this technique throughout the year.

In this lesson, the students:

- Review and reflect on writing nonfiction
- Finish publishing their reports
- Present their reports from the Author's Chairs
- Express interest in and appreciation for one another's writing
- Ask one another questions about their writing
- Give their full attention to the person who is speaking

GETTING READY TO WRITE

1 Review and Reflect on Writing Nonfiction

Have the students get their folders (unless they have already shared their published reports from the Author's Chairs) and pencils and sit at desks with partners together. Remind the students that over the past six weeks they have learned about writing nonfiction and have each worked with a partner to research and write a nonfiction report about a topic they were curious about. Ask:

Q *What have you learned about writing nonfiction over the past weeks?*

Students might say:

"I learned that you can write about things you are curious about."

"I agree with [Prema]. I learned that you can find out about things by researching them."

"In addition to what [Bryan] said, I learned that you can take notes and use them in your nonfiction writing."

"I learned ways to capture the reader's attention and make the reader curious about my topic."

Use "Think, Pair, Share" to discuss:

Q *What was your favorite part of working on your informational report? [pause] Turn to your partner.*

Q *What is one thing you are glad you learned about writing nonfiction? [pause] Turn to your partner.*

Q *What did you find challenging about writing nonfiction? [pause] Turn to your partner.*

Remind the students that writers become better over time as they practice writing again and again. Encourage students who feel drawn to nonfiction to continue to research and write about nonfiction topics they are interested in during their free time and outside of school.

Explain that today partners will finish publishing their report and then decide and practice how they will present it to the class. Those who have finished may write anything they choose during Writing Time.

Explain that after Writing Time more partners will share their reports with the class from the Author's Chairs. Ask partners to spend a few minutes deciding what they will accomplish and how they will share their work today.

WRITING TIME

2 Finish Publishing Reports and Prepare to Share

Have partners work on publishing and preparing to share for 10–15 minutes. As they work, circulate, observe, and offer assistance.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

3 Conduct Author's Chair Sharing

Gather the class with partners sitting together, facing the Author's Chairs. Remind presenters to speak in loud, clear voices and audience members to show interest in and appreciation for their classmates' writing.

Have partners read their report aloud from the Author's Chairs. At the end of the sharing, facilitate a discussion using questions like those that follow. Give the authors an opportunity to respond to the class's comments and questions:

- Q *What did you learn about [global warming] from hearing [Lisa and Tim's] report?*
- Q *What are you curious about after hearing their report?*
- Q *What questions can we ask [Lisa and Tim] about their report?*

Repeat this procedure to have other partners share from the Author's Chairs, as time permits.

Assure the students that the students who have not yet shared will get to share their published informational reports from the Author's Chairs in the coming days.

4 Reflect on Interactions and Thank One Another

Ask and briefly discuss:

- Q *What did we do well as an audience today? What do we still want to work on the next time authors share their work?*
- Q *If you shared a report today, how did the members of the audience make you feel? What did they do that made you feel [relaxed/nervous/proud]?*

Teacher Note

Continue to have pairs of students share their nonfiction informational reports from the Author's Chairs until everyone has had a chance to do so.

Teacher Note

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on this page.

Point out that partners have worked closely together for several weeks to research and write about the topics they chose. Ask and briefly discuss:

- 
- Q *In what ways did you and your partner help each other on this project?*
 - Q *What do you appreciate about how your partner worked with you? Turn to your partner.*

Ask partners to take a moment to thank each other for their help and collaboration.

EXTENSION

Write Letters Home About Nonfiction

Provide letter-writing practice for the students by having them each write a letter home about what they learned about nonfiction from working on their informational reports. Discuss questions such as:

- Q *What’s special about nonfiction writing?*
- Q *What steps did you and your partner go through to research and write about your topic?*
- Q *What is one thing you’re proud of about your published informational report?*

If necessary, review the elements of a letter (date, salutation, body, closing, and signature) by modeling or writing a shared sample letter with the class. Have the students write and proofread their letters; then attach each student’s letter to a copy of the published informational report she helped to write and send it home.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of the Expository Nonfiction genre unit. You will need to reassign partners before you start the next genre unit.
- Make copies of the published report so that each partner can take a copy home to share with his or her family. Place the original reports in the class library.
- Send home with each student a copy of the student’s published report and a copy of this unit’s family letter (BLM1). Encourage the students to share their published reports with their families.
- Save the students’ published writing (or copies of it) to use for reflection and discussion in Unit 9.

Assessments

- Before continuing with the next unit, take this opportunity to assess individual students' writing from this unit. See "Completing the Individual Writing Assessment" (IA1) on page 98 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students' published writing home to share with their families, you might have each student analyze his writing using the "Student Self-assessment" record sheet (SA1) on page 97 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension "Introduce 'Student Self-assessment'" on page 114.
- (Optional) Prior to beginning the next unit, you might wish to prepare the students for the end-of-year standards-based writing performance task by teaching the Informative/Explanatory Writing unit on page 55 of the *Writing Performance Task Preparation Guide*. For more information, see "Teaching the Units" on page vi of the preparation guide.

Genre

Functional Writing

During this three-week unit, the students explore functional writing. They read and discuss various types of functional writing and write directions for getting from one place to another. They explore craft elements of functional writing, including completeness, accuracy, and clarity, and they focus on using specific language and details in their writing. They explore using correlative conjunctions, such as *either/or* and *both/and*, in their directions. The students work with partners and in groups of four during the unit. They reach agreement and make decisions together, work responsibly, and give and receive feedback respectfully.

Week 1

OVERVIEW

Writing Focus

- Students hear, read, and discuss functional writing.
- Students explore how information is communicated in functional writing.
- Students explore accuracy, clarity, and completeness in functional writing.
- Students explore audience and purpose in functional writing.
- Students discuss, follow, and write directions.

Social Development Focus

- Students work in a responsible way.
- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students help one another improve their writing.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA5

Assessment Forms

- “Class Assessment Record” sheets (CA1–CA2)

Professional Development Media

- “Cooperative Structures Overview” (AV9)
- “Using ‘Think, Pair, Share’” (AV13)
- “Avoid Repeating or Paraphrasing” (AV26)
- “Exploring Functional Writing” (AV50)

DO AHEAD

- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see “Random Pairing” on page xxix and “Considerations for Pairing ELLs” on page lii. For more information, view “Cooperative Structures Overview” (AV9). 
- ✓ Prior to Day 1, collect examples of functional writing such as cookbooks, recipes, online maps with directions, schedules, menus, flyers, and books about how to make or do things. Make this collection available to the students throughout the unit.
- ✓ Prior to Day 2, pick an object in the classroom and write a set of directions titled “Directions to a Secret Object (1)” that directs a reader from the classroom door to the object. (You might use the example on page 483 as a guide.) The directions should be specific and detailed. Include a brief description of the object and its exact location at the end of the directions. Write the directions (or type and then upload them) on the “Directions to a Secret Object (1)” chart (WA1). Prepare a handheld copy of the directions to read aloud to the class prior to displaying the chart.
- ✓ Prior to Day 3, write a set of *incomplete* directions to a different secret object in the classroom and title them “Directions to a Secret Object (2).” (You might use the example on page 488 as a guide.) You might leave out important information such as a starting point, a description of the object, or a direction to turn. Write the directions on the “Directions to a Secret Object (2)” chart (WA3). Prepare a handheld copy of the directions to read aloud to the class prior to displaying the chart.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1) on page 113 of the *Assessment Resource Book*.

TEACHER AS WRITER

“A writer is someone who pays attention to the world.”

— Susan Sontag

Most of us are surrounded by, and rely on, functional writing—or written language that helps us function. This week, join your students in beginning to explore functional writing by making a list of all the functional writing you encounter daily, including what you write yourself. Think about directions, signs, lists, flyers, online text, and other sources of information.

⌚ DO AHEAD *(continued)*

- ✓ Prior to Day 5, prepare a handheld version of a “secret pattern” and accompanying directions for drawing it to use to model writing directions (see the example on page 494).
- ✓ Prior to Day 5, collect folders that are sturdy enough to stand upright on a desk (one for each pair).
- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA2) on page 114 of the *Assessment Resource Book*.

Exploring Functional Writing

Day 1

In this lesson, the students:

- Work with new partners
- Look for and read functional writing inside and outside the classroom
- Act responsibly during a school walk
- Handle materials responsibly

ABOUT TEACHING FUNCTIONAL WRITING

The purpose of functional writing, like all nonfiction, is to inform or explain. While expository nonfiction provides information about a topic—such as the animals of New Zealand—functional nonfiction explains how to do something. For example, functional writing might explain how to brush your teeth, use a microwave, create a website, or build a rocket. Functional writing, in varying forms of lists, labels, menus, and schedules, also helps people with daily living.

The goals of this unit are to introduce the students to functional writing, help them think about the craft elements involved in functional writing, and provide opportunities for them to create functional writing. There are two phases to this unit: Immersion and Drafting (two weeks), and Revision, Proofreading, and Publication (one week). During the first phase, the students explore and try their hand at functional writing. In the second phase, they write, revise, and publish walking directions to a place near their school or home and contribute their directions to a class book.

GETTING READY TO WRITE

1 Pair Students and Introduce Functional Writing

Randomly assign partners (see “Do Ahead” on page 477) and make sure they know each other’s names. Gather the students with partners sitting together, facing you.

Explain that during the next three weeks, partners will work together to explore functional writing. Tell the students that functional writing helps people learn how to do things, get from one place to another, and complete everyday tasks (jobs), such as buying groceries and paying bills. Point out that there are many types of functional writing, such as lists, recipes, menus, game directions, and schedules. Explain that in this unit the students will explore functional writing that gives walking directions to particular places.

ELPS 4.C.ii
Steps 1–4

Materials

- Chart paper and a marker
- Examples of functional writing, collected ahead

Teacher Note

For more information about functional writing, view “Exploring Functional Writing” (AV50).

Teacher Note

The partners you assign today will stay together for the unit. If necessary, take a few minutes at the beginning of today’s lesson to let them get to know each other better by talking informally in a relaxed atmosphere.

Teacher Note

If you are teaching other programs from the Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the writing lessons.

Teacher Note

As you discuss different types of functional writing, you might show some examples from the functional writing you collected (see “Do Ahead” on page 477).

Teacher Note

If the students have difficulty answering this question, suggest some ideas like those in the “Students might say” note; then ask, “What other functional writing do you see in our classroom?”

Teacher Note

You might take the students to the main office, the library, or another public space in the school that has examples of functional texts in plain view. If a walk around the school is not possible, provide time for the students to explore the functional texts you collected (see Step 5) and then, as a class, list the different types of functional writing they explored (see Step 4).

Point out one or two examples of functional writing in the classroom, and then have the students discuss:

Q *What other functional writing do you see in our classroom? Turn to your partner.*

Have volunteers share their thinking.

Students might say:

“The schedule on the board tells us the activities we’ll be working on today and the time we’ll be doing them.”

“The map on the wall tells us where to go in case of a fire.”

“The sign by the sink gives us tips for how to stay healthy and not spread germs.”

Signal for the students’ attention and have a few volunteers share with the class. As they share, record the functional writing they identify on a sheet of chart paper titled “Types of Functional Writing.” Briefly discuss how each type of functional writing is helpful.

2 Introduce the School Walk

Tell the students that today they will take a walk around the school to look for more examples of functional writing. Explain that during the walk you will stop a few times so that the students can look around and quietly talk about the types of functional writing they see. Remind the students that it is important to take responsibility for themselves outside the classroom. Discuss:

Q *What will you do to act in a considerate and responsible way as we walk around the school? Why is that important?*

Students might say:

“We’ll walk quietly in the hallways so that we don’t bother anyone. If we need to talk, we’ll whisper.”

“If we walk by another class, we’ll smile at the students but not talk to them.”

“We will be considerate by not distracting our friends when we walk by their classrooms.”

Tell the students that because it is important that they talk quietly during the walk, you will ask them to turn and *whisper* to their partners when discussing questions. Encourage the students to keep in mind what they talked about, and tell them that you will check in with them at the end of the walk to see how they did.

3 Take a Class Walk Around the School

Lead the students to a spot in the school that contains functional writing, such as the main office. Bring paper and a pencil so you can record their observations. At the first stop, ask:

Q *What functional writing do you see? Turn and whisper to your partner.*

Signal for the students' attention and have a few volunteers quietly share their observations. If necessary, share one or two examples of functional writing you notice. Jot down the functional texts the students mention. After a few students have shared, continue the walk, stopping to notice functional writing in other areas of the school.

4 List Types of Functional Writing as a Class

When you return to the classroom, have the students sit together, facing you. Ask and briefly discuss:

Q *What functional writing did you see on our walk?*

Have a few volunteers share with the class, and as they share, record the types of functional writing they mention on the “Types of Functional Writing” chart. If necessary, remind the students of the functional texts they identified during the walk. Ask and briefly discuss:

Q *What information does the author of the [lunch menu/field trip permission slip/book fair flyer] give the reader? Why is that information helpful?*

Remind the students that in this unit they will focus on functional writing that gives a reader walking directions from one place to another.

5 Introduce the Collection of Functional Writing

Show the students the functional writing that you collected (see “Do Ahead” on page 477). Point out some of the different types of functional writing in the collection. Explain that the students may look at the materials in this collection today, and throughout the unit, to explore different types of functional writing. Explain any procedures for using the collection, such as sharing materials and handling them carefully.

Tell the students that during Writing Time they might also experiment with writing functional texts. For example, they might write a flyer about an upcoming class event, a schedule for their after-school activities, or a “to-do” list.

WRITING TIME

6 Write Independently and Explore Functional Writing

Ask the students to return to their seats for 20–30 minutes of silent work. They may browse the functional writing collection, or they may experiment with writing different types of functional texts.

Join the students in writing for a few minutes. Then circulate and observe, assisting students as needed.

Signal to let the students know that Writing Time is over. Have them return any functional writing they borrowed from the class collection.

Teacher Note

Save the “Types of Functional Writing” chart to use on Day 2.

SHARING AND REFLECTING

7 Reflect on Acting Responsibly

Ask and briefly discuss:

- Q *What did you do to act responsibly during the walk? How do you think that helped the people around us?*
- Q *What problems, if any, did we have as a class? What can we do to avoid those problems in the future?*

Tell the students that next week they will go on more walks around the school.

Teacher Note

Keep the collection of functional writing available for the students' use throughout this unit.

Day 2

Exploring Functional Writing

Materials

- “Types of Functional Writing” chart from Day 1
- Handheld copy of “Directions to a Secret Object (1)” chart, prepared ahead
- Chart paper and a marker
- “Directions to a Secret Object (1)” chart (WA1), prepared ahead
- Collection of functional writing
- “Writing Time” chart (WA2)

In this lesson, the students:

- Explore directions for how to walk from one place to another
- Explore accuracy and clarity in functional writing
- Handle materials responsibly

GETTING READY TO WRITE

1 Briefly Review Functional Writing

Gather the class with partners sitting together, facing you. Refer to the “Types of Functional Writing” chart and remind the students that yesterday they explored functional writing in the classroom and around the school. Review that functional writing helps people learn how to do things and complete everyday tasks. Explain that today they will explore functional writing that gives people walking directions from one place to another.

2 Introduce the “Find the Secret Object” Game

Tell the students that they are going to play a game called “Find the Secret Object.” Explain that you will read a set of directions that leads a person from the classroom door to a secret object somewhere in the room. Do not yet display the charted directions. Explain that as you read the directions aloud, you want the students to imagine following them and then guess what the secret object is.

Have the students imagine that they are standing at the door, facing into the classroom. Read your handheld copy of “Directions to a Secret Object (1)” aloud slowly and clearly, pausing between each step (see the example in Step 3). Without sharing as a class, ask the students to nod if they think they know what the secret object is.

Tell the students that you will read the directions again, and invite a student volunteer to follow the directions as you read them aloud. Ask the rest of the class to again imagine following the directions as the volunteer walks through the classroom. After you have finished reading the directions, have the volunteer touch the secret object. Ask:

Q *Who else thinks the secret object is [the folder]? What makes you think that?*

3 Explore Accuracy and Clarity in Directions

Explain that when you write directions it is important to ask yourself whether the directions are accurate and clear. If they are not, your readers will be confused. Write the question *Are the directions accurate and clear?* on a sheet of chart paper titled “Writing Good Directions.” Explain that when directions are *accurate*, they are correct, with no mistakes or misleading information, and that when directions are written clearly, they tell the reader exactly what to do.

Display the “Directions to a Secret Object (1)” chart (📄 WA1) and remind the students that you just read these directions aloud (see the example below).

Directions to a Secret Object (1)

1. Start with your back toward the classroom door so that you are facing the coat hooks.
2. Walk straight ahead. Stop when you reach the edge of the carpet. Turn left so that you are facing the back of the room.
3. Walk straight, along the edge of the carpet. Stop when you reach the round table.
4. Walk around the table. Stop when you get to the red chair.
5. Turn so that you are facing the windows and walk straight ahead. Stop when you get to Kenny’s desk.
6. Turn left. You should be facing the computer table.
7. Walk straight ahead. Stop when you reach the computer table.
8. Look at the computer. The secret object is to the right of the keyboard. It is smooth, rectangular, and flat. It holds papers and has a picture of our school mascot on it.

WA1

Give the students a few minutes to read the directions silently to themselves. Ask:

Q *Are these directions accurate and clear? Why or why not?*

Teacher Note

If the volunteer does not follow a direction correctly, stop her, clarify the direction, and have her try again.

TEKS 1.B.iii

Student/Teacher Narrative
Steps 3 and 4

TEKS 10.D.ii

Student/Teacher Narrative
Step 3

Teacher Note

Save the “Writing Good Directions” chart to use on Day 3 and throughout the unit.

Facilitation Tip

During this unit, we encourage you to **avoid repeating or paraphrasing** the students’ responses. It is easy to habitually repeat what students say when they speak too softly or to paraphrase them when they do not express themselves clearly. This teaches students to listen to you but not necessarily to one another. Try refraining from repeating or paraphrasing and see what happens. Encourage the students to take responsibility by asking one another to speak up or by asking a question if they do not understand what a classmate has said.

To see this Facilitation Tip in action, view “Avoid Repeating or Paraphrasing” (AV26).

For special considerations for English Language Learners, see “Additional Strategies for Supporting ELLs” on page xlix.

Teacher Note

If the students have difficulty answering this question, stimulate their thinking by suggesting some ideas like those in the “Students might say” note; then ask, “What other words or details make these directions easy to follow or understand?”

Students might say:

“I think the directions are accurate and clear because I know exactly what to do.”

“I agree with [Thérèse] because there isn’t anything in the directions that’s confusing.”

“I think the directions are clear because we all agreed that [the folder] was the secret object.”

Direct the students’ attention to the first few steps of the directions. Tell the students that using specific words and details in directions helps make them easy to follow and understand, and give a few examples of this from your directions.

You might say:

“The words *facing the coat hooks* help the reader understand the first step. If that wasn’t written, the reader might start walking in the wrong direction. The word *straight* also helps make the directions easier to follow because it tells the reader in what direction to walk.”

Then use “Think, Pair, Share” to discuss:

Q *What other words or details in these directions make them easy to follow or understand? Why?* [pause] *Turn to your partner.*

Have volunteers share their thinking.

Students might say:

“The words *round table* and *red chair* are helpful details because they tell the reader which chair and table they should be looking for.”

“The words *smooth*, *rectangular*, and *flat* are good details because there are lots of objects on the computer table, but only a few fit that description.”

4 Shared Writing: “Find the Secret Object” Game

Explain that tomorrow the students will write their own directions to a secret object in the classroom. Today they will practice writing accurate and clear directions by helping you write directions from a location in the classroom, such as your desk, to a secret object in the room. Tell the students that the secret object has to be one that does not change in appearance and does not move from one place to another. Ask:

Q *What object should we choose to be the secret object?*

Q *What information will the reader need to find the object?*

Students might say:

“The reader will need to know where to start.”

“In addition to what [Troy] said, the reader will need to know what direction to face when she starts.”

“The reader will need a few hints that describe what the object is.”

Title a sheet of chart paper “Find the Secret Object.” Then ask questions such as:

- Q *What is the first direction we should write? Do you agree or disagree with what [Alexis] said? Why or why not?*
- Q *What direction should we write next? What word or detail might we add to the direction to make it accurate and clear?*
- Q *What should we write next? How can we make the direction as clear as possible?*
- Q *What might we write to describe the [pencil sharpener]?*

Use the students’ suggestions to write the directions and the description of the object on the chart paper (see example below).

Find the Secret Object

1. Start by standing near the front right corner of Mr. Kramer’s desk.
2. Face the bulletin board, and walk toward the rectangular table.
3. When you get to the table, stop and turn left. You should be facing the world map.
4. Walk straight and stop when you reach the sink.
5. The secret object is on the counter to the left of the pencil holder. It is electric and has a small hole on the top.

5 Suggest Secret Objects in the Classroom

Use “Think, Pair, Share” to discuss:

- Q *If you were to write “Find the Secret Object” directions, what object might you choose and where might the directions start? [pause] Turn to your partner.*

Have volunteers share their thinking.

Teacher Note

Regularly remind the students to use the discussion prompts they learned when they participate in class discussions. The prompts are:

- “I agree with _____ because . . .”
- “I disagree with _____ because . . .”
- “In addition to what _____ said, I think . . .”

Teacher Note

If the students have difficulty generating ideas, you might model writing a description of the object that gives more specific clues about its location, what it is used for, or what it looks like. You might write, *The secret object is on the counter to the left of the pencil holder. It is electric and has a small hole on the top.* Then ask, “What else might we write to describe the [pencil sharpener]?”

Teacher Note

If necessary, stimulate the students’ imaginations by suggesting some ideas like those in the “Students might say” note on the next page; then ask, “What other objects can you write directions to? Where might the directions start?” Encourage the students to choose a starting point and an object that will require writing a minimum of five or six steps.

Teacher Note

Writing a clear and accurate description of an object can be challenging for the students. For that reason, the students practice writing descriptions of objects during Writing Time today. Tomorrow they will focus on writing directions to the object.

Teacher Note

If the students have difficulty generating ideas, you might model writing a description of the object that gives more specific clues about its location, what it is used for, or what it looks like. You might write, *The object is round and shows water and land. It is located on the shelf next to the atlases.* Then ask, “What else might we write to describe the [globe]?”

Students might say:

“I can write directions from your desk to the turn-in basket.”

“I can write directions from the gerbil cage to the file cabinet.”

“I might write directions from the water fountain to the red dictionary in the writing center.”

“I could write directions from the classroom door to the fish magnet on the whiteboard.”

Record their ideas on a sheet of chart paper titled “Secret Objects.” Explain that during Writing Time today the students will pick two or three possible secret objects and write a description of each one. Tell them that they will practice by helping you write a description of one of the objects on the chart. Circle one of the objects on the chart. Ask and briefly discuss:

Q *What might we write to describe the [globe]?*

Use the students’ suggestions to write a brief description of the object on the chart paper.

Explain that during Writing Time today the students will list possible secret objects, pick two or three objects, and write a description of each one. When they finish, they can practice writing different types of functional texts or browse the functional writing collection.

WRITING TIME

6 Write Independently and Explore Functional Writing

Have the students return to their seats. Display the “Writing Time” chart (WA2) and have the students work quietly for 20–30 minutes on the charted tasks.

Writing Time

- Write a list of possible secret objects.
- Write a description of two or three objects on your list.
- When you finish, practice writing different types of functional texts, or browse the functional writing collection for ideas.

WA2

Join the students in writing for a few minutes. Then circulate and observe, assisting students as needed.

Signal to let the students know when Writing Time is over. Have them return any functional writing they borrowed from the class collection.

SHARING AND REFLECTING

7 Reflect on Writing

Ask and briefly discuss questions such as:

- Q *What possible secret objects did you list?*
- Q *Was it challenging to write a description of an object? Why or why not?*
- Q *What other functional writing did you do today? Tell us about it.*
- Q *What interesting information did you find in the functional writing collection? Tell us about it.*

Explain that tomorrow the students will each pick a secret object and write “Find the Secret Object” directions for their classmates to follow.

Drafting and Revising

Day 3

In this lesson, the students:

- Explore directions for how to get from one place to another
- Explore accuracy, clarity, and completeness in functional writing
- Write directions to a secret object in the classroom
- Give feedback in a helpful way
- Revise their directions

GETTING READY TO WRITE

1 Briefly Review Functional Writing

Gather the class with partners sitting together, facing you. Review that yesterday the students began exploring functional writing that tells people how to get from one place to another. Remind them that they read and discussed directions that used specific words and details, they made a list of secret objects, and they wrote descriptions of a few of the objects in their notebooks. Explain that today the students will pick a secret object from their list and draft a set of “Find the Secret Object” directions.

2 Read and Discuss Incomplete Directions

Tell the students that you will read another set of directions that lead a person to a secret object in the room. Do not yet display the charted directions. Explain that as you read the directions aloud, you want them to imagine following the directions and then guess what the secret

Materials

- Collection of functional writing

object is. Read your handheld copy of “Directions to a Secret Object (2)” aloud slowly and clearly, pausing between each step (see example in Step 3 below).

Ask:

- Q *What do you think the secret object is? What makes you think that?*
- Q *Does anyone disagree with [Hanwei]? Why?*

If the students do not agree about what the secret object is, tell them what it is.

3 Explore Completeness in Directions

Display the “Directions to a Secret Object (2)” chart (WA3) and remind the students that you just read these directions aloud (see example below).

Directions to a Secret Object (2)

1. Start at Mr. Kramer's desk.
2. Walk straight ahead. Stop when you get to the chair.
3. Walk toward the desk.
4. Walk straight ahead. Stop when you get to the bookshelf.
5. The secret object is on the shelf. It is small and rectangular.

WA3

Have the students quietly reread the directions; then discuss:

- Q *Did the directions give you all of the information you needed to find the secret object? If not, what other information did you need?*

Students might say:

“The first step was hard to understand. I didn’t know where to start or which direction to walk.”

“I agree with [Sheila]. I imagined starting from behind the desk but if you start there, the rest of the directions don’t make sense.”

“It seems like a step is missing. The reader needs to know which way to turn after stopping at the chair.”

“The description of the secret object does not have enough detail. There are lots of small, rectangular objects on the bookshelf.”

Explain that when you write directions, you need to think about whether you included all of the information a reader needs to get from one place to another. On the “Writing Good Directions” chart, write the question *Does the reader have all of the information needed?*

Direct the students’ attention back to the directions. Use “Think, Pair, Share” to discuss:

- Q *What information might we add to these directions to make them clearer and easier to understand? [pause] Turn to your partner.*

Teacher Note

To review the procedure for “Think, Pair, Share,” see Unit 1, Week 2, Day 1 (page 30). To see an example, view “Using ‘Think, Pair, Share’” (AV13).

Signal for the students' attention. Have a few volunteers share with the class. Record their revisions on the "Directions to a Secret Object (2)" chart (WA3).

Tell the students that you will read the directions again, and invite a student volunteer to follow the directions as you read them aloud. Ask the rest of the class to again imagine following the directions and to notice whether or not they interpret the directions in the same way as the volunteer. After reading the directions, have the volunteer touch the secret object.

Ask:

Q *Did our revisions make it easier to find the secret object? Why or why not?*

Have a few volunteers share their thinking.

4 Get Ready to Write Directions

Explain that during Writing Time today the students will review their secret object ideas in their notebooks, pick a secret object, and then draft a set of "Find the Secret Object" directions. Remind them that the secret object has to be something that does not change in appearance and is not moved from one place to another. Direct the students' attention to the "Writing Good Directions" chart, and remind the students to think about the questions as they write.

WRITING TIME

5 Write Directions to a Secret Object

Have the students return to their seats. Display the "Writing Time" chart (WA4). Have the students work for 20–30 minutes to select a secret object and write a set of "Find the Secret Object" directions. Remind them to write on every other line.

Writing Time

- Review your list of secret objects.
- Pick an object from your list and draft a set of "Find the Secret Object" directions.
- When you finish, practice writing different types of functional texts, or browse the functional writing collection for ideas.

WA4

Join the students in writing for a few minutes. Then circulate and observe, assisting students as needed.

Signal to let the students know when Writing Time is over.

Teacher Note

The students will need to complete drafts of their directions before they can continue with today's lesson. You might provide extra time today for the students to finish their drafts and then finish the rest of the lesson at another time.

SHARING AND REFLECTING

6 Exchange Directions with Partners

Explain that partners will exchange directions, imagine following the directions to find the secret object, and then give each other feedback about the directions.

Ask and briefly discuss:

Q *If you have difficulty following your partner's directions, what might you do?*

Q *What do you know about how to give feedback respectfully?*

Encourage the students to use the questions on the “Writing Good Directions” chart as they give each other feedback today.

Allow time for partners to exchange directions, follow them, and give each other feedback. Then give the students a few minutes to use their partners' feedback to revise their directions, if necessary.

7 Reflect on Revisions and on Writing Directions

Briefly discuss:

Q *What changes did you make in your directions based on your partner's feedback?*

Q *What have you learned about writing good directions?*

Explain that tomorrow each pair of students will exchange their directions with another pair and try to guess one another's secret objects. Have the students place their directions in their folders until the next lesson.

EXTENSION

Write Directions to a Secret Object at Home

Have the students write “Find the Secret Object” directions to a secret object located at home. The directions might be written for a family member or friend to follow. Remind them to think about the questions on the “Writing Good Directions” chart as they write.

In this lesson, the students:

- Confer in groups of four about their directions
- Explore completeness, accuracy, and clarity in functional writing
- Ask for and receive feedback about their writing
- Give feedback in a helpful way
- Revise their directions

GETTING READY TO WRITE

1 Exchange and Imagine Following Directions

Have the students get their “Find a Secret Object” directions. Review that yesterday the students wrote directions to a secret object in the classroom. Explain that today each pair will join another to form groups of four, and then each student will take a turn reading his directions to the group. The other group members will imagine following the student’s directions, guess the secret object, and give helpful feedback.

Put pairs together to form groups of four and ask group members to sit together.

Have each student take a turn reading her directions to her group, while the students in the other pair in her group first imagine following the directions and then guess the secret object.

2 Confer in Groups About Directions

After the students have had sufficient time to read and imagine following each other’s directions, signal for their attention.

Refer to the “Writing Good Directions” chart and have the students first think about and then discuss each question on the chart in groups of four:

Q *Are the directions accurate and clear?* [pause] *Discuss in your group of four.*

Q *Does the reader have all of the information needed?* [pause] *Discuss in your group of four.*

After the students have discussed both questions, ask and briefly discuss:

Q *If you were confused about any of the directions, how might you give that feedback in a respectful and helpful way?*

Step 1

ELL Note

Consider combining pairs in such a way that English Language Learners who speak the same primary language are in groups together. This will provide support for their discussion about the directions.

Students might say:

"I could say, 'I'm not sure I understand what this direction means. Could you please explain it?'"

"I could say that I'm not sure what the secret object is, and then we could talk about it."

"I could say that I need more information to know what to do, and ask what details he could add."

Have the students give one another other feedback. As they confer, circulate and observe.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students give one another useful feedback?
- Do they give and receive feedback respectfully?
- Do the students discuss possible revisions?

Note any difficulties that you observe groups having and prepare to discuss them later as a class.

Record your observations on the "Class Assessment Record" sheet (CA1); see page 113 of the *Assessment Resource Book*.

Ask and briefly discuss:

- Q *What feedback did you get that helped you?*
- Q *What was helpful about how the other students in your group talked to you? Take a moment to thank them.*
- Q *What suggestions do you have for how the other students might give feedback in the future? Take a moment to tell them.*

Explain that during Writing Time today the students will use the feedback they received to help them revise their directions, if necessary. Explain that they will think about what they might add to their directions to make them clearer. On the "Writing Good Directions" chart, write the question *If the directions are not clear, what might you add to make them clearer?*

WRITING TIME

3 Revise Drafts

Have the students return to their seats and work on revising their secret object directions for 20–30 minutes, if necessary. Join the students in writing for a few minutes and then circulate and observe, assisting students as needed. If they finish, they may write another set of directions for their partners to follow or browse the functional writing collection for ideas.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Reflect on Revisions

Ask and briefly discuss:

Q *What is one change you made to your directions today? Read it to us. Why did you make this change?*

Explain that tomorrow the students will continue to explore functional writing.

Exploring Functional Writing

Day 5

In this lesson, the students:

- Write and follow directions for drawing a simple pattern
- Explore audience and purpose in functional writing
- Reflect on the challenges of writing clear and accurate directions

GETTING READY TO WRITE

1 Discuss Audience and Purpose

Have the students get their pencils and sit at desks with partners together. Remind the students that they have been exploring functional writing. Direct their attention to the “Writing Good Directions” chart and read the items on it. Explain that in addition to these things, authors of functional writing consider whom they are writing for, or who their audience is. Ask and briefly discuss:

Q *Who is the audience for the directions to a secret object that you wrote?*

Q *Imagine that you are writing directions to a secret object for an audience of second graders who are visiting the classroom. How might the directions be different?*

Students might say:

“I would use simpler words that second graders would understand.”

“I think I would need to explain more things for the second graders.”

“If I was writing directions for second graders, I might need to say, ‘Ask a grown-up for help’ because there are some things second graders shouldn’t do by themselves.”

Add the question *Who is the audience for the directions?* to the “Writing Good Directions” chart. Explain that authors of functional writing also consider what the *purpose* of their writing is, or why they are writing.

Materials

- “Writing Good Directions” chart from Day 4
- Handheld version of a secret pattern and directions for drawing it, prepared ahead (see example on page 494)
- Chart paper and a marker
- “Writing Time” chart (WA5)
- Drawing paper for the students
- Loose, lined paper for the students
- Sturdy folder for each pair
- Collection of functional writing
- “Class Assessment Record” sheet (CA2)

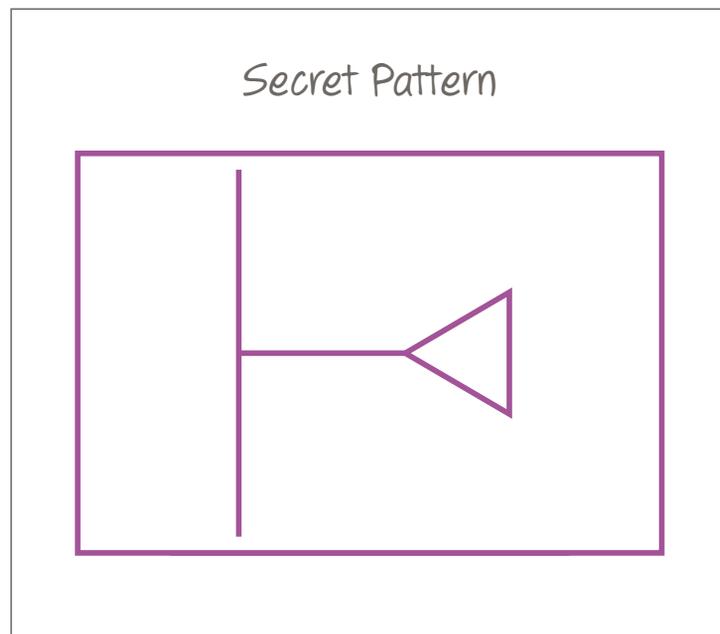

Teacher Note

Although these instructions are for drawing a pattern, this activity could be done using geoboards, tangrams, pattern blocks, or other materials instead.

2 Shared Writing: Write Directions to Draw a Secret Pattern

Tell the students that today they will write directions for a secret pattern. Explain that they each will draw a pattern without letting their partner see what they drew. Then they will write directions for drawing the pattern for their partners to follow. Later, partners will exchange directions and try to draw each other's patterns.

Tell the students that, before they draw a secret pattern and write directions for it, you would like their help in writing directions for a pattern you will draw. Then draw your secret pattern (see example below) on chart paper.

Write the first step. If you are writing directions for the pattern provided, the first step might be *1. Draw a vertical line (one that goes up and down) about as long as your hand in the center of the paper.* Then ask:

Q *What direction shall I write next to explain how to draw my pattern?*

Use the students' suggestions to write the remaining steps for your pattern, thinking aloud as you model writing each step.

You might say:

"First, I'll write the number 1 to tell readers that this is the first step. Then I'll write this direction: *Draw a vertical line (one that goes up and down) about as long as your hand in the center of the paper.* What's the second thing I should do when I draw my pattern? I think I should draw the line that sticks out to the right of the first line. I want to be clear about where the line goes and how long it should be, so I'll write: *About halfway up the first line, draw a horizontal line (one that lies flat) that sticks out to the right. This line should be about half the length of the first line.* Because this is the second step, I'll write the number 2 in front of those sentences. What should I say to draw after that? One suggestion I heard is that I should tell the reader to draw the triangle at the end of the second line. Now, how can I write that so the directions are clear and easy to follow and the triangle turns out to be the right size? I'll try writing: 3. *Draw a triangle with one point touching the end of the second line. The triangle's sides should all be about the same length, about as long as your thumb.* And my final step is an easy one. I'll write: 4. *Draw one big rectangle around the two lines and the triangle.*"

Secret Pattern

1. Draw a vertical line (one that goes up and down) about as long as your hand in the center of the paper.
2. About halfway up the first line, draw a horizontal line (one that lays flat) that sticks out to the right. This line should be about half the length of the first line.
3. Draw a triangle with one point touching the end of the second line. The triangle's sides should all be about the same length, about as long as your thumb.
4. Draw one big rectangle around the two lines and the triangle.

3 Prepare to Draw Secret Patterns

Tell the students that the patterns they draw should be simple so that it will be easy for them to write clear and accurate directions for their

partners to follow. Review that when they are finished, partners will exchange directions and try to draw each other's patterns.

WRITING TIME

4 Write Independently

Display the "Writing Time" chart (C WA5) and read it aloud.

WA5

Writing Time

- Place an empty folder so that it stands upright between you and your partner, hiding your drawing from one another.
- Next, draw a simple pattern on drawing paper.
- Then, write directions for drawing your pattern on lined paper. Be sure the directions are as clear and as accurate as possible.

Distribute drawing paper and empty folders. If necessary, demonstrate how to position the folder between partners so that they cannot see each other's work. Have the students work silently for 20–30 minutes. As they work, walk around and observe, assisting students as needed. If students finish early, they may repeat the activity with another pattern or browse the functional writing collection to get ideas.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students each able to draw a simple pattern and write directions for how to draw it?
- Are they able to write directions that others can follow?

Support struggling students by having each student describe her pattern to you (without your looking at it) and by asking:

Q *What is the first thing you do to draw your pattern? How can you write that as a sentence?*

Q *What do you do next?*

If you notice many students struggling to write directions, call the class together and model another example as you did in Step 2 of the lesson; then have the students resume their own writing.

Record your observations on the "Class Assessment Record" sheet (CA2); see page 114 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Exchange Patterns and Reflect on Challenges

Have partners exchange patterns, follow each other's directions, and compare their drawings to the originals.

Ask and briefly discuss as a class:

Q *What was interesting or enjoyable about writing directions for drawing your pattern?*

Q *What did your partner do to make his directions clear and accurate?*

Tell the students that next week they will continue practicing writing clear and accurate directions. Have the students return their partners' directions and place their own directions and drawings in their folders.

EXTENSION

Exchange Patterns with Other Students

Have the students exchange the directions for their secret patterns with other students in the classroom and try to draw each other's patterns. Afterwards, have them compare their drawings to the originals. Have them discuss what was challenging about following each other's directions and what in the directions helped them understand what to draw.

Week 2

OVERVIEW

Writing Focus

- Students hear, read, and discuss functional writing.
- Students explore completeness, accuracy, and clarity in functional writing.
- Students explore specific language and details in functional writing.
- Students discuss, follow, and write directions to a location in the school.

Social Development Focus

- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students help one another improve their writing.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA6–WA13

Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “Conference Notes” record sheet (CN1)

Reproducible

- “‘Places’ Cards” (BLM1)

Professional Development Media

- “Building a Community of Writers” (AV1)
- “Conferring About Functional Writing” (AV49)

DO AHEAD

- ✓ Prior to Day 1, write a set of directions from the classroom door to a place in the school using a sheet of chart paper. Write a title for the chart (for example, “Directions to the School Library”). (You might use the example on page 502 as a guide.) The directions should be specific and detailed. Include a brief description of the destination and describe your classroom so any reader would be able to locate it. Create a reduced version of your charted directions and make a class set for the students to use during the lesson; set aside a copy for yourself.
- ✓ Prior to Day 2, visit the CCC Learning Hub (ccclearninghub.org) to access and print the “Places’ Cards” (BLM1). Make enough copies for each pair of students to have one of the cut-out cards. Fill in the blank on each card with a location around the school (for example, the library, computer lab, science room, counselor’s office, multipurpose room, art room, music room, and lost-and-found area). If possible, choose locations that require the students to write directions with at least five or six steps. Put the cut-out cards in a small bag.
- ✓ Prior to Day 3, write a set of directions to a place familiar to your students (for example, from the classroom to the playground), leaving out important information. (You might use the example on page 507 as a guide.) Write or upload your directions on the “Directions to the Playground” chart ( WA7).
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA3) on page 115 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, write a set of directions from a person’s house to a place familiar to your students (for example, a post office), incorporating landmarks and specific details. (You might use the example on page 511 as a guide.) Prepare your directions for display. Alternatively, you can use the “Directions to the Post Office” chart ( WA9).

(continues)

TEACHER AS WRITER

“I find that [the writing] process has started to become essential to me in my life, just as it is to take walks, to exercise, to eat, to ride a bicycle.”

— David Leavitt

Review your list of functional writing from last week. Consider the following questions and write your reflections in your notebook:

- What functional writing do you do nearly every day? Who is the audience, and what is the purpose?
- What functional writing helps you most in your job? Who is the audience, and what is the purpose?
- What functional writing do you most like to do? Why?

⌚ DO AHEAD *(continued)*

- ✓ Prior to Day 4, make a class set of the “Conference Notes” record sheet (CN1) on page 117 of the *Assessment Resource Book*.
- ✓ (Optional) Prior to Day 5, review the functional writing pieces you have written and select a single set of directions to use to model adding the conjunctions *either/or* and *both/and* to a draft. Prepare your sample writing to display. Alternatively, you can use the “Directions to the Science Museum” chart (WA12).

In this lesson, the students:

- Act responsibly during a school walk
- Explore accuracy and clarity in functional writing
- Write directions to and from a location in the school
- Reach agreement before making decisions
- Work responsibly in pairs

GETTING READY TO WRITE

1 Review Functional Writing

Gather the class with partners sitting together, facing you. Remind them that last week they wrote directions to a secret object in the classroom. Explain that this week and next they will write directions to and from locations around the school, and you will compile the directions into a class book. The book will go into the class library. The *audience*, or readers, for the book will be new students or guests, and the purpose of the book will be to help readers find out how to get to various places in the school.

2 Read Your Directions Aloud

Tell the students that you will read a set of directions that lead a person from the classroom to a place in the school (see diagram on page 502 for an example). (Do not yet display the charted directions.) Tell the students that as you read the directions aloud, you want them to imagine following them and then guess what the place is.

Have the students imagine they are standing at the door, with their backs to the classroom. Read a copy of the directions you prepared (see “Do Ahead” on page 499) aloud slowly and clearly, pausing after each step. Remind the students to think quietly and not to call out the place as you read the directions.

Materials

- Your charted directions to a school location (for example, “Directions to the School Library”), prepared ahead but not posted (see Step 2)
- Class set of copies of the charted directions, prepared ahead
- “Writing Good Directions” chart from Week 1
- Collection of functional writing
- “Writing Time” chart (WA6)

Teacher Note

This lesson may require an extended class period.

Teacher Note

In order to have the students guess what the place is, be sure to avoid using the name of the place when you read the directions aloud. For example, you might substitute “the library” (in the last step of the example chart) with “this place” or “your destination” instead. You will post the charted directions in Step 5 (see page 503).

Directions to the School Library

1. Stand with your back to the classroom door, facing outside. When you leave the classroom, turn right and follow the path straight ahead.
2. Keep walking straight. You will pass Mrs. Weber's room, Mr. Park's room, and the computer lab. After you pass the computer lab, you will see another path going to the left. Turn left onto that sidewalk.
3. Walk straight until you reach the place where the two paths meet and make a "T."
4. Turn left where the two paths meet. Walk straight toward the main building.
5. Open the door and enter the building. Walk straight down the hallway. You will pass Mrs. Young's room, Mr. Hall's room, and the main office.
6. Your destination is straight ahead, just past the main office. It is located at the end of the hall next to the entrance of the school.

Ask and briefly discuss:

Q *What is the secret place? What makes you think that?*

Distribute a copy of the directions to each student. Tell the students that they will take a class walk following the directions. Explain that as they follow the directions you would like them to think about the details and specific language you used to make the directions accurate, clear, and easy to understand.

3 Discuss Being Responsible Outside the Classroom

Remind the students that last week they took a walk around the school to look for examples of functional writing.

Ask and briefly discuss:

Q *What did we do to act in a considerate and responsible way as we walked around the school?*

Q *What problems did we have that we need to work on during today's walk?*

Encourage the students to keep in mind what they talked about, and tell them that you will check in with them at the end of the lesson to see how they did.

4 Follow Your Directions

Explain that partners will walk together as the class follows you to the location you chose. Lead the students to the location. As you follow the directions, give the students time to read each step to themselves. When you arrive at the location, ask:

Q *What words or phrases made these directions clear and easy to understand? Turn and whisper to your partner.*

Tell the students that they should pay careful attention to the route they take back to the classroom. Explain that they will use the information to help write a set of directions from the location back to the classroom. Lead the students back to the classroom using an alternate route, if possible.

5 Discuss Your Directions

Gather the class and have partners sit together, facing you. Direct the students' attention to the "Writing Good Directions" chart. Remind the students that good directions are accurate and clear and contain enough information for the reader to follow them.

Post the charted directions and explain that these are the directions the students just followed. Ask and briefly discuss:

Q *Which words or phrases make these directions clear and easy to understand? What makes you think that?*

Students might say:

"The words 'facing outside' in step 1 make the directions clear because it tells the reader which way he should be looking."

"In step 2, there is a list of rooms the reader will pass. That lets the reader know if she is going the right way."

"In step 3, the words 'where the two sidewalks meet and make a T help me picture where I should be standing.'"

As the students respond, underline the words in the directions that make them clear and easy to understand.

Teacher Note

Keep your charted directions to a school location as a model for the students' writing and as an optional resource in Week 3.

Teacher Note

If the students have difficulty answering the question, suggest some ideas like those in the "Students might say" note; then ask, "What other words or phrases make these directions clear and easy to understand?"

6 Discuss How Partners Will Work Together

Explain that the students will write directions from the school location they just visited back to the classroom. Explain that partners will discuss how to write directions back to the classroom from the location you chose, and then each student will write his own directions. Remind the students that the first step in the directions should tell readers where to start and in which direction to face.

Have partners spend a few minutes discussing what they will tell readers to do in order to get back to the classroom from your chosen location. When they are ready, have them return to their seats and begin writing their directions. Join the students in writing for a few minutes; then circulate and observe, assisting students as needed.

WRITING TIME

7 Write Directions Back to the Classroom

Display the “Writing Time” chart (WA6) and have the students work silently on the charted tasks for 15–20 minutes. Join the students in writing for a few minutes; then circulate and observe, assisting students as needed. Make the collection of functional writing available for interested students to browse during this time.

WA6

Writing Time

- Write directions back to our classroom from where we went earlier today.
- Be sure your first step says where to start and in which direction to face.
- Be sure your last step describes our classroom so that any reader would recognize it.
- If you finish, practice writing different types of functional texts, or browse the functional writing collection for ideas.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

8 Reflect on Reaching Agreement

Ask and briefly discuss questions such as:

- Q *What did you do to act responsibly during the walk? How do you think that helped the people around us?*
- Q *What problems, if any, did we have as a class? What can we do to avoid these problems in the future?*
- Q *Was it challenging to write directions back to our classroom? Why or why not?*

TECHNOLOGY EXTENSION

Search Online for Directions to Places

Invite the students to search online for directions to spots or places they would like to visit. Show the students that they can get directions instantly by entering an address for a starting point and an address for a destination into an online map service. Point out that the websites of many museums, parks, sports arenas, and other interesting places provide directions to help visitors find their way. As a class, brainstorm some places the students would be interested in going. Briefly discuss what keywords might be useful in an Internet search to locate such directions.

Next, guide the students as they perform a keyword search for directions and identify relevant websites. As a class, navigate the websites to find directions to places that interest them. Read the directions aloud, point out any text features, and discuss questions such as:

- Q *Who do you think is the audience for these directions? What was the author's purpose in writing the directions?*
- Q *Do you think the directions would be easy or hard to follow? Why?*
- Q *Would you recommend these directions to other students? Why or why not?*

Technology Tip

To help your students learn how to search online and understand search results, see the following Technology Mini-lessons in Appendix A: Mini-lesson 4, "Choosing Effective Search Terms"; Mini-lesson 5, "Understanding Search Results"; and Mini-lesson 6, "Using Filters to Narrow Results." For more information, see "About Teaching the Online Research Lessons" on page 712.

Exploring Functional Writing

Day 2

In this lesson, the students:

- Explore completeness, accuracy, and clarity in functional writing
- Write directions to and from a location in the school
- Reach agreement before making decisions
- Work responsibly in pairs

GETTING READY TO WRITE

1 Briefly Review

Have the students get their pencils and sit at desks with partners together. Remind them that yesterday they followed directions to a place you chose in the school and then they wrote directions from that location back to the classroom. Explain that today partners will pick a different place in the school, discuss possible routes to it, and begin to draft a set of directions, with one partner writing directions from the classroom to the place and the other partner writing directions from the place back to the classroom.

Materials

- Bag with "Places" cards (see BLM1), prepared ahead
- "Writing Good Directions" chart from Day 1
- Loose, lined paper for writing drafts

2 Choose a “Places” Card and Reach Agreement

Show the bag of “Places” cards (see “Do Ahead” on page 499) and explain that each pair of students will pick a card from the bag that has the name of a place in the school on it. Have each pair pick a “Places” card.

Explain that the students in each pair will decide which partner will write directions from the classroom to the place and which partner will write directions from the place back to the classroom. Have each pair of students decide which partner will write which set of directions.

When most partners have reached agreement, signal for the students’ attention. Explain that during Writing Time partners will discuss possible routes to and from their places. After discussing possible routes, partners will start to write their directions. Explain that the students will have time to finish their directions tomorrow. Direct the students’ attention to the “Writing Good Directions” chart, and remind them that their directions should be as accurate, clear, and complete as possible.

WRITING TIME

3 Write Directions

Distribute writing paper and remind the students to write on every other line. Have them work for 20–30 minutes to discuss possible routes with their partners and start writing their directions.

Signal to let the students know when Writing Time is over. Explain that tomorrow the students will finish writing their directions and then share them with their partners. Have the students place their drafts in their folders and put them away.

SHARING AND REFLECTING

4 Reflect on Reaching Agreement

Ask and briefly discuss questions such as:

- Q *How did you agree on which set of directions each of you will write?*
- Q *What problems did you have making the decision? How did you handle those problems?*
- Q *What might you do the same or differently next time?*

In this lesson, the students:

- Read and discuss directions for how to get from one place to another
- Explore completeness, accuracy, and clarity in functional writing
- Write directions to and from a location outside the classroom
- Act responsibly outside the classroom
- Work responsibly in pairs
- Give feedback in a helpful way

GETTING READY TO WRITE

1 Briefly Review

Have the students get the drafts of their directions and sit at desks with partners together. Remind them that yesterday each pair of students picked a place, discussed possible routes, and started to draft a set of directions, with one partner writing directions from the classroom to the place and the other partner writing directions from the place back to the classroom. Explain that today the students will finish writing their directions, share the directions with their partners, and revise and test their directions.

2 Explore Completeness, Accuracy, and Clarity

Direct the students' attention to the "Writing Good Directions" chart, and remind them that when they write directions, they need to ask themselves whether their directions are accurate and clear and include all of the information a reader needs.

Display the charted directions to a place familiar to your students (see "Do Ahead" on page 499) or use the "Directions to the Playground" chart (WA7).

Directions to the Playground

1. Go out the front door. Walk to the corner.
2. Turn. Walk straight ahead until you get to the stop sign.
3. Cross the street at the crosswalk.
4. Once you cross the street, cross the other street.
5. Turn and walk three blocks. The playground is on the right.

WA7

Materials

- "Writing Good Directions" chart from Day 2
- Charted directions to a place familiar to your students, prepared ahead, OR "Directions to the Playground" chart (WA7)
- Loose, lined paper for writing drafts
- "Class Assessment Record" sheet (CA3)
- Collection of functional writing
- "Writing Time" chart (WA8)

Tell the students that these are directions from a person's house to a nearby playground. Explain that you will read the directions aloud and that as you read, you want the students to close their eyes and imagine following the directions. Read the directions aloud, slowly and clearly, pausing after each step. Have the students open their eyes, and then give them a few moments to look at the directions. Ask:

Q *Are these directions clear and easy to understand? Do they give you all the information you need to get to the playground? If not, what other information do you need? [pause] Turn to your partner.*

Have volunteers share their thinking.

Students might say:

"The directions are very confusing. In step 1, I didn't know if I should walk straight or turn to get to the corner."

"I agree with [Brianna] that the directions are confusing. I didn't know which direction to turn at the corner."

"The directions tell the reader to cross the street, but it isn't clear which street to cross."

Direct the students' attention back to the directions. Use "Think, Pair, Share" to discuss:

Q *What information might I add to these directions to make them clearer and easier to understand? [pause] Turn to your partner.*

Have volunteers share their ideas with the class and record their revisions on the chart.

Students might say:

"You could tell the reader what to do after he walks out the front door."

"You could add which direction to turn when you get to the corner."

"You might add street names to your directions so that the reader will know if she is in the right place."

"In addition to what [Pablo] said, you might add the name of the playground to your directions."

Teacher Note

If the students have difficulty answering this question, suggest some ideas like those in the "Students might say" note; then ask, "What else might I add to these directions to make them clearer and easier to understand?"

Teacher Note

Each student will need to have a completed draft to continue with today's lesson. You might need to finish the rest of the lesson at a later time so that students have extra time today to complete their drafts.

WRITING TIME

3 Complete Drafts

Have the students read their draft directions, asking themselves the questions on the "Writing Good Directions" chart. Have them make any changes to their writing so that they can answer "yes" to the questions. Give the students adequate time to reread and complete their drafts. Provide additional lined paper as needed.

4 Exchange Directions and Give Feedback

Explain that partners will exchange directions and imagine following them. They will then talk about which steps are clear and easy to understand and which steps need more details and clarity. Ask and briefly discuss:

Q *If you have difficulty imagining your partner's directions, how might you give that feedback in a respectful and helpful way?*

Students might say:

"I could say, 'I'm not sure where to go after step 3. Could you please explain it?'"

"I could say that a direction isn't clear, and then we could talk about it."

"I could say that I need more information to know what to do, and we could talk about what details my partner might add."

Remind the students to think about the questions on the "Writing Good Directions" chart as they read their partners' directions. Have the students read each other's directions and imagine following them.

Allow a few minutes for partners to give each other feedback. As they confer, circulate and observe, assisting students as needed.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners staying on task, reading and discussing their directions?
- Are they giving each other specific feedback using the questions on the "Writing Good Directions" chart?
- Are they giving feedback in a helpful and respectful way?

Note any difficulties that you observe partners having, and prepare to discuss them later as a class.

Record your observations on the "Class Assessment Record" sheet (CA3); see page 115 of the *Assessment Resource Book*.

When the students in most pairs have finished talking, signal for their attention. Explain that the students will use their partners' feedback to revise their directions, if necessary.

5 Revise and Test Directions

Tell the students that after they have made their revisions, partners will exchange directions and test the directions by following them together. Explain any procedures for leaving the classroom. Ask and briefly discuss:

Q *When you test your partner's directions, what might you do if you find that a step is not clear or accurate?*

Q *What will you do to act in a considerate and responsible way as you walk around the school?*

Teacher Note

If necessary, remind the students that in the writing community, the goal of giving feedback is to help the other person create the best possible piece of writing. It is important that each student share what she likes about her partner's piece and also offer suggestions and questions to help her partner improve the piece. For more information about developing the writing community, view "Building a Community of Writers" (AV1).

Teacher Note

You may wish to limit the number of students who are out of the classroom at any given time. (Note that pairs of students will have additional time on Day 4 to test their directions.) If students finish revising their directions but cannot immediately leave the classroom to test them, you might invite the students to write another set of directions to the place using a different route, explore the functional text writing collection, or write other types of functional text.

Teacher Note

If you notice students struggling to think of functional writing topics, discuss functional writing they might draft about their daily routines at home or in the classroom. Topics might include how to make a bed, how to care for a pet, what to do during a fire drill, how to check out books from the school library, how to operate a computer, or how to study for a spelling test.

Students might say:

"I could make a note on the directions so that I remember to talk to my partner about that step."

"I can look for details my partner might add to his directions to make them clearer."

"I might make a note to add another step."

Have the students begin revising their drafts. As pairs of students finish their revisions, allow them to leave the classroom to test their directions.

Display the "Writing Time" chart (WA8) and have the students work on the charted tasks when they return from testing their directions.

Writing Time

- Return your partner's directions and give each other feedback.
- Revise your directions based on your partner's feedback.
- Write other types of functional text.

WA8

Signal to let the students know when Writing Time is over. Have the students place their drafts in their folders and put them away.

SHARING AND REFLECTING

6 Reflect on Working with Partners

Briefly discuss:

- Q *What was fun about writing your directions? What was challenging?*
- Q *What did you and your partner do to work responsibly today? What do you want to do [the same way/differently] next time?*

In this lesson, the students:

- Read and discuss directions for how to get from one place to another
- Explore using specific language and details in functional writing
- Write and revise directions to and from a location outside the classroom
- Act responsibly outside the classroom
- Work responsibly in pairs

Materials

- Your sample directions, prepared ahead, OR “Directions to the Post Office” chart (WA9)
- “Writing Time” chart (WA10)
- Class set of “Conference Notes” record sheets (CN1)

GETTING READY TO WRITE

1 Discuss Adding Landmarks to Directions

Have the students get the drafts of their directions and sit at desks with partners together. Remind them that yesterday they worked with their partners to finish writing drafts of directions to and from a place in the school.

Display your own directions (see “Do Ahead” on page 499) or the “Directions to the Post Office” chart (WA9), and tell the students that these are directions from a person’s house to a post office (or the destination in your directions).

WA9

Directions to the Post Office

1. Walk out the front door, carefully walk down the steps, and then turn left at the bottom of the stairs. You are walking along Elm Street.
2. Walk straight ahead, stopping at the stop sign on the corner. You should be standing at the corner of Elm Street and Bruce Street.
3. Turn left onto Bruce Street. There should be a bus stop and a bench on your left.
4. Keep walking along Bruce Street until you get to the stoplight. You should see a shoe store on the corner across the street.
5. Cross the street and walk toward the shoe store.
6. Continue walking straight. You’ll pass the shoe store, the flower shop, and the nail salon. The post office is next door to the nail salon. If you reach the stoplight at Maple Avenue, you’ve gone too far.

Facilitation Tip

Continue to try to **avoid repeating or paraphrasing** the students' responses. Help them learn to participate responsibly in class discussions by encouraging them to ask one another to speak up or to ask a question if they do not understand what a classmate has said. For special considerations for English Language Learners, see "Additional Strategies for Supporting ELLs" on page xlix.

Tell the students that you will read the directions aloud and that as you read, you want them to close their eyes and imagine following the directions. Read the directions aloud, slowly and clearly, pausing after each step. Have the students open their eyes, and then give them a few moments to look at the directions. Ask:

-  **Q** *Are these directions clear and easy to understand? What makes you think that? Turn to your partner.*
- Q** *Do they give you all the information you would need to get to the post office? If not, what other information do you need? Turn to your partner.*

Review that one way you can make directions clear and easy to understand is by adding specific language and details to the directions. Ask:

-  **Q** *What specific language or details make these directions easy to follow or understand? Turn to your partner.*

Tell the students that details like "a bench," "the shoe store," and "the nail salon" are landmarks. Explain that a *landmark* is an object that is easily seen and helps people find their way to a place. Invite the students to think about landmarks they might add to their own directions during Writing Time today.

Explain that today partners will continue revising their direction drafts and then test each other's directions by following them. Review any procedures for leaving the classroom. Ask and briefly discuss:

- Q** *When you test your partner's directions, what might you do if you find that a step is not clear or accurate?*
- Q** *What will you do to act in a considerate and responsible way as you walk through the school?*

WRITING TIME

2 Revise and Test Directions

Display the "Writing Time" chart ( WA10), and have the students work quietly for 20–30 minutes. Join the students in writing for a few minutes; then circulate and observe, assisting students as needed.

Writing Time

- Exchange directions with your partner and test your partner's directions by following them.
- Return the directions to your partner and give each other feedback.
- Revise your directions based on your partner's feedback.
- Add specific language, details, and landmarks to your directions.
- If you finish, write directions to your place using a different route.

WA10

When pairs of students seem to be working independently, begin conferring with individual pairs.

TEACHER CONFERENCE NOTE

During this week and next, confer with individual pairs about the directions they are writing. Have partners who have tested and revised their directions show and read them to you. As you imagine following the directions, ask yourself:

- Are the directions clear and easy to follow?
- Are the directions complete and accurate?
- Do the directions use specific language and details?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *I'm not clear about [where to start]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *You wrote, ["Turn when you get to the double doors"]. In which direction should I go? How will you write that in your directions?*
- Q *I'm confused about this direction. There are [two rooms across from the library]. How do I know which one you are writing directions to? How can you make that clear in your directions?*

If partners have chosen to give directions that are too complex for this writing activity, help them pick a destination that can be reached with simpler directions.

Document your observations for each student on a separate "Conference Notes" record sheet (CN1); see page 117 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

3 Reflect on Writing Directions

Briefly discuss:

- Q *What changes did you make to your directions after testing them?*
- Q *What have you learned about how to write good directions?*

Teacher Note

To see an example of a teacher conferring with individual students, view "Conferring About Functional Writing" (AV49).

Materials

- “Revising to Add *Either/Or* and *Both/And*” chart (WA11)
- A pad of small (1½" × 2") self-stick notes for each student
- Your sample directions, prepared ahead, OR “Directions to the Science Museum” chart (WA12)
- “Writing Good Directions” chart from Day 3
- “Writing Time” chart (WA13)

ELPS 5.E.i
Steps 2–5

In this lesson, the students:

- Explore using *either/or* and *both/and*
- Mark places in their directions where they use, or could use, *either/or* and *both/and*
- Revise their directions for completeness, accuracy, and clarity
- Share the work fairly

GETTING READY TO WRITE

1 Briefly Review Purpose of Revision

Have the students get their folders and pencils and sit at desks with partners together. Review that yesterday they revised their directions with feedback from their partners. Remind them that the purpose of revision is to make their directions as clear, complete, and as accurate as possible before they publish them in the class book. Explain that today you will ask them to think about a way they might revise their directions.

2 Discuss *Either/Or* and *Both/And*

Explain that authors of functional writing sometimes use the conjunctions *either/or* and *both/and* to make their directions clearer and easier for readers to understand. Write the conjunctions *either/or* and *both/and* where everyone can see them. Below them, write the following sentence: *When you enter our building, either take the elevator or go up the stairs to the second floor.* Explain that the sentence is from a set of directions. Read the sentence aloud; then ask and briefly discuss:

Q *The directions say to either take the elevator or go up the stairs. Why do you think the author used the conjunction pair either/or?*

Students might say:

“I think the author wanted to make it clear that the reader has a choice about what to do next.”

“I agree with [Angie]. Using *either/or* lets a reader know that there are two right ways to complete that step in the directions.”

Write the following sentence where everyone can see it: *Sometimes our doorbell doesn’t work, so both ring the bell and knock on the door.* Read the sentence aloud; then ask and briefly discuss:

Q *The directions say to both ring the bell and knock on the door. Why do you think the author used both/and?*

Students might say:

"I think the author wanted to make it clear that there are two things to do during that step in the directions."

"I agree with [Marcus]. Using *both/and* lets a reader know that it's important to do two things, not just one."

Review that using *either/or* gives readers a choice about what to do next while using *both/and* tells readers to do two things instead of just one. Next to the words *either/or*, add *gives a choice*. Next to the words *both/and*, add *shows two things to do*.

3 Facilitate Guided Rereading of Directions

Have partners quietly reread their directions and look up when they are finished. Distribute self-stick notes to the students and explain that you will ask them to look for and think about a few specific things in their drafts.

Display the "Revising to Add *Either/Or* and *Both/And*" chart (📄 WA11) and read the prompts aloud, one at a time, giving the students several quiet minutes after each prompt to review their drafts and mark passages with the self-stick notes.

Revising to Add *Either/Or* and *Both/And*

- Find a place where you use, or could use, *either/or* to help readers understand that you are giving them a choice. Put a self-stick note in the margin next to that place, and write *gives a choice* on it.
- Find a place where you use, or could use, *both/and* to help readers understand that they have to do two things in that step of the directions. Put a self-stick note in the margin next to the place and write *do two things*.

WA11

4 Model Revising to Add *Either/Or* and *Both/And*

Without sharing as a class, explain that the students will look at the places they marked with self-stick notes and make revisions to their directions.

Display your own set of directions (see "Do Ahead" on page 499) or the "Directions to the Science Museum" chart (📄 WA12) and read it aloud. If you are using your own writing, begin by writing *gives a choice* in the margin next to a place where you could use *either/or* and writing *do two things* next to places where you could use *both/and*. Ask the students to watch as you model revising to make your directions clearer and easier for readers to understand.

Skill Practice Note

For practice with using conjunctions like *either/or* and *both/and*, see Lesson 21 in the *Skill Practice Teaching Guide*.

You might say:

“When you give directions that might be dangerous, it’s a good idea to remind people to be safe. I can be even more specific about how to be safe in step 3 by telling my readers to do two things. I’ll link the two things using the pair of conjunctions *both/and*, so the first part of that sentence becomes: *Carefully look both right and left before you cross Stonehurst Drive*. In step 4, I gave the readers a choice, but I wrote it in two sentences. If I use the pair of conjunctions *either/or*, I can give that choice in one sentence: *You can either continue walking uphill on Buckingham to the museum or turn right on Cambridge, which ends up at the museum, too*. In step 5, there’s another spot where I should be clear about how to be careful. I’ll rewrite that step using *both/and* so that I tell my readers to do two things: *Newcastle can be a very busy road, so remember to both use the crosswalk at the corner and wait for the walk sign to light up when you cross the street*. I give readers another choice when I tell them how to enter the museum in step 6. I can combine the two sentences in that step into one sentence by using the conjunctions *either/or*: *Enter the museum either through the doors next to the giant spider mobiles or through the doors farther down Newcastle Road, next to the statue of the centipede*.”

WA12

Directions to the Science Museum

1. Begin from the school’s main entrance. The main entrance is next to the principal’s office. The flagpole is just outside the entrance.
2. Head down the path to the sidewalk along Stonehurst Drive and turn right. Walk along Stonehurst Drive until you see the corner of Buckingham Road across the street on your left. You will see a big white house with a huge oak tree on the corner.
3. Carefully, ^{look both right and left before you} cross Stonehurst Drive and then walk uphill ^{do two things} on Buckingham Road for four blocks to Cambridge Avenue. There is a pharmacy with a yellow sign on the corner of Cambridge and Buckingham.
4. You can ^{either} continue walking uphill on Buckingham to the museum. ^{gives a choice} Another way to go is to ^{or} turn right on Cambridge, which ends up at the museum, too. It takes a little longer to walk up Cambridge, but it is a quieter street than Buckingham, and the hill is not as steep.
5. When you reach Newcastle Road, you will see the science museum across the street from where you are standing. Newcastle can be a very busy road, so remember to ^{both use the crosswalk at the corner and wait for the walk sign to light up} be careful ^{do two things} when you cross the street.
6. Enter the museum ^{either} through the doors next to the giant spider mobiles. ^{or} You can also enter ^{gives a choice} through the doors farther down Newcastle Road, next to the statue of the centipede.

Explain that during Writing Time today the students will follow the same procedure to revise their own directions. You might also invite them to review the “Writing Good Directions” chart and to ask themselves the questions on the chart as they revise.

WRITING TIME

5 Continue Revising Drafts

Display the “Writing Time” chart (📄 WA13) and have the students work silently on the charted tasks for 20–30 minutes.

Writing Time

- Review places you marked with self-stick notes.
- Add *either/or* and *both/and* to make your directions clearer and easier to follow.
- Remove the self-stick notes as you finish revising.
- If you finish, work on another piece of functional writing.

WA13

Join the students in writing for a few minutes; then confer with individual pairs.

TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about the directions they are writing. Have partners who have tested and revised their directions show and read them to you. As you imagine following the directions, ask yourself:

- Are the directions clear and easy to follow?
- Are the directions complete and accurate?
- Do the directions use specific language and details?
- Has each partner used *either/or* or *both/and* to make the directions clearer and easier to understand?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *I'm not clear about [where to start]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *You wrote, ["Turn when you get to the double doors"]. In which direction should I go? How will you write that in your directions?*
- Q *I'm confused about this direction. There are [two rooms across from the library]. How do I know which one you are writing directions to? How can you make that clear in your directions?*
- Q *Where is a place you might use either/or or both/and to make your directions clearer and easier to understand?*

(continues)

TEACHER CONFERENCE NOTE *(continued)*

If partners have chosen to give directions that are too complex for this writing activity, help them pick a destination that can be reached with simpler directions.

Document your observations for each student on a separate “Conference Notes” record sheet (CN1); see page 117 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

6 Share and Reflect on Revisions

Help the students reflect on their work during Writing Time today by asking questions such as:

- Q *Who added either/or or both/and to their directions today? Read us that sentence. How does this make your directions clearer and easier to follow?*
- Q *What other revisions did you make today? Tell us about a revision.*

Explain that in the next lesson the students will proofread their drafts and write final versions. Have them put their drafts in their folders until the next lesson.

Week 3

OVERVIEW

Writing Focus

- Students review directions for accuracy, clarity, and completeness.
- Students explore commas in a series in directions.
- Students proofread their drafts for spelling, punctuation, and grammar.
- Students write final versions of their directions.
- Students present their directions to the class from the Author’s Chair.

Social Development Focus

- Students make decisions and solve problems respectfully.
- Students act in fair and caring ways.
- Students express interest in and appreciation for one another’s writing.

J DO AHEAD

- ✓ Prior to Day 1, decide how you will combine pairs of students to form groups of four.
- ✓ Prior to Day 1, make a class set of the “Conference Notes” record sheet (CN1) on page 117 of the *Assessment Resource Book*.
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA4) on page 116 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM2). Make enough copies to send one letter home with each student’s published piece.
- ✓ (Optional) Prior to Day 2, review the functional writing pieces you have written and select a single set of directions to use to model adding commas in a series to a draft. Prepare your sample writing to display. Alternatively, you can use the “Directions to the Movie Theater” chart (WA14). To learn more, view “Planning a Lesson” (AV33).
- ✓ (Optional) If computers are available, you might have some students type and print out their functional writing pieces for the class book. You might want to recruit parent volunteers to help the students to do so. In addition, you might teach Technology Mini-lesson 9, “Creating Documents,” in Appendix A.

TEACHER AS WRITER

“You never know what you will learn until you start writing.”

— Anita Brookner

Think of something you know how to do well, and imagine teaching someone else how to do it. Write directions for this activity, and then ask yourself the questions on the “Writing Good Directions” chart. Revise the draft, if needed. Consider giving the directions to a friend or colleague to try the activity and give you feedback.

Day 1

Group Confering and Revising

Materials

- “Writing Good Directions” chart from Week 2
- “Class Assessment Record” sheet (CA4)

ELL Note

Consider combining pairs in such a way that English Language Learners who speak the same primary language are in groups together. This will provide support for their discussion about the activities.

Teacher Note

Ask group members to refrain from discussing the destinations of their directions with the rest of the class. Explain that later in the week, each pair of students will read their directions from the Author’s Chair, and the audience will have the opportunity to guess the destinations.

In this lesson, the students:

- Confer in groups of four about their directions
- Explore accuracy, clarity, and completeness in functional writing
- Ask for and receive feedback about their writing
- Give feedback in a helpful way
- Revise their directions

GETTING READY TO WRITE

1 Exchange Directions and Imagine Following Them

Have the students get their folders and pencils. Review that earlier partners wrote directions to and from a place in the school. Explain that today each pair of students will join another to form a group of four (see “Do Ahead” on page 521). Then they will exchange directions with the other pair in the group, imagine following the other pair’s directions, and give helpful feedback.

Tell the students that as they read the other pair’s set of directions and imagine following them, you would like them to ask themselves the questions on the “Writing Good Directions” chart and be ready to give the other pair feedback based on the questions. If necessary, review the questions on the chart.

Put pairs together to form groups of four and ask group members to sit together.

Have pairs exchange directions. Have each pair of students read the other pair’s directions quietly to themselves and imagine following the directions.

2 Confer in Groups About Directions

After pairs have had sufficient time to read and imagine following each other’s directions, signal for the students’ attention. Direct their attention to the “Writing Good Directions” chart, and underline the first three questions on the list. Use “Think, Pair, Share” to have partners discuss:

Q *Are the directions accurate and clear?* [pause] Turn to your partner.

Q *Does the reader have all of the information needed?* [pause] Turn to your partner.

Q *If the directions are not clear, what might you add to make them clearer?* [pause] Turn to your partner.

After partners have discussed all three questions, explain that they will give feedback to the other pair in their group about the directions. Ask and briefly discuss:

Q *If you and your partner were confused about any of the directions, how might you give that feedback in a respectful and helpful way?*

Students might say:

"We could say, 'We're not sure we understand what this direction means. Could you please explain it?'"

"We could say that we got confused when reading a step, and then we could talk about it."

"We could say that we need more information to know what to do and ask what details they could add."

"We could say that it would help to see a picture of a step and ask them to draw one."

Have pairs give each other feedback. As they confer, circulate and observe.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students give one another useful feedback?
- Do they give and receive feedback respectfully?
- Do the students discuss possible revisions?

Note any difficulties that you observe groups having and prepare to discuss them later as a class.

Record your observations on the "Class Assessment Record" sheet (CA4); see page 116 of the *Assessment Resource Book*.

After most of the groups have finished talking, signal for the students' attention. Ask and briefly discuss questions such as:

- Q** *What feedback did you get that helped you?*
- Q** *What was helpful about how the students in the other pair talked to you? Take a moment to thank them.*
- Q** *What suggestions do you have for how the students in the other pair might give feedback in the future? Take a moment to tell them.*

Explain that during Writing Time today the students in each pair will use the feedback they received to help them revise their directions.

WRITING TIME

3 Revise Drafts Based on Feedback

Have the students sit at desks with partners together and work on revising their directions for 20–30 minutes. If they finish, they may write another set of directions for their partners to follow or write whatever they choose.

When the students seem to be working independently, confer with one pair at a time.

TEACHER CONFERENCE NOTE

Continue conferring with individual pairs about the directions each partner is writing. Have partners who have tested and revised their directions show and read them to you. As you imagine following the directions, ask yourself:

- Are the directions clear and easy to follow?
- Are the directions complete and accurate?
- Do the directions use specific language and details?
- Has each partner used *either/or* or *both/and* to make the directions clearer and easier to understand?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *I'm not clear about [where to start]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *You wrote, ["Turn when you get to the double doors"]. In which direction should I go? How will you write that in your directions?*
- Q *I'm confused about this direction. There are [two rooms across from the library]. How do I know which one you are writing directions to? How can you make that clear in your directions?*
- Q *Where is a place you might use either/or or both/and to make your directions clearer and easier to understand?*

If partners have chosen to give directions that are too complex for this writing activity, help them pick a destination that can be reached with simpler directions.

Document your observations for each student on a separate "Conference Notes" record sheet (CN1); see page 117 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Reflect on Revisions

Ask and briefly discuss:

- Q *What is one piece of feedback you and your partner gave to the other pair about their directions? Why did you give them this feedback?*
- Q *What is one of the changes you and your partner made to your directions today? Read it to us. Why did you make this change?*

Explain that tomorrow the students will proofread their drafts and write final versions. Have them place their directions in their folders until the next lesson.

Proofreading

Day 2

In this lesson, the students:

- Reread their writing critically
- Explore using commas in a series
- Analyze their drafts for commas in a series
- Begin writing their final versions

GETTING READY TO WRITE

1 Briefly Review

Have the students get their folders and pencils and sit at desks with partners together. Review that last week partners wrote and tested directions to and from a place in the school, and that yesterday they revised their directions after receiving feedback from another pair. Remind the students that their directions will be bound together as a class book.

2 Discuss Commas in a Series

Display the “Directions to the Movie Theater” chart (WA14). Tell the students that these are sample directions from a library to a movie theater. Have them follow along as you read the directions aloud. (If necessary, read the directions twice.)

Materials

- “Directions to the Movie Theater” chart (WA14)
- “Directions to the Skate Park” chart (WA15)
- *Student Writing Handbook* page 26
- Supply of loose, lined paper for final versions
- “Writing Time” chart (WA16)
- (Optional) Computers for typing and printing final versions

Directions to the Movie Theater

1. To get to the movie theater from the city library, exit the building either through the main doors or through the side entrance by the stairs. Pass between the stone lions out front, turn left, walk three blocks toward the river, and turn right onto Grand Avenue.
2. Once on Grand Avenue you'll walk past a pet store, a bike shop, and a fruit stand.
3. Continue walking down Grand Avenue until you reach the stoplight at First Street.
4. Turn right on First Street. The movie theater is on the right, before you reach Park Street.
5. You can enter the theater through the parking structure on Grand Avenue, the main entrance on First Street, or the side entrance off Park Street.

Point to and underline the series in the second sentence of step 1, and explain that a list of three or more things is a *series*. Reread step 2 aloud; then ask:

Q *What series do you see in this sentence? Turn to your partner.*

If necessary, point out that “a pet store,” “a bike shop,” and “a fruit stand” are a series of things—in this case, a series of landmarks. Underline the series in the sentence, and then reread the rest of the directions aloud. Ask:

Q *What other series do you see in these directions? Turn to your partner.*

Underline the series in step 5. Have the students look at all of the underlined series. Use “Think, Pair, Share” to have the students first think about and then discuss:

Q *What do you notice about how commas are used in a series? [pause] Turn to your partner.*

If necessary, point out that commas are used between the items (things) in a series. Point out that in a series of three or more items, the word *and* or *or* is used after the final comma.

Display the “Directions to the Skate Park” chart (WA15) and have the students turn to *Student Writing Handbook* page 26, where the directions are reproduced. Explain that these are sample directions from a school to a skate park and that the directions have been written without using commas in a series. Ask the students to follow along and listen carefully as you read the directions aloud.

Directions to the Skate Park

1. To get from Golden Elementary School to the skate park, go out the main entrance of the school and turn right. Follow the sidewalk around the parking lot go past the bike rack and stop at the crosswalk.
2. Wait for the crossing guard to signal you to cross the street. Once you cross the street, turn right and walk two blocks. You should see a house that has two big trees a birdbath and a bright blue doghouse in the yard.
3. Turn left at the stop sign. You will walk up a big hill down the other side and up another hill. Once you get to the top of the second hill, turn left.
4. The skate park is down the street on the left. You will know you are at the skate park if you see a purple and gold "Welcome Skateboarders" banner a half-pipe and lots of ramps.

Reread the first step; then ask:

Q *What series do you see in the second sentence of step 1? Where should commas be added? Turn to your partner.*

After a moment, signal for the students' attention, have a few volunteers share with the class, and add commas where appropriate.

Ask partners to reread the remaining steps and discuss where other commas in a series are needed. After a few minutes, ask volunteers to help you add commas to the remaining series in the directions.

3 Review Drafts

Ask the students to reread their drafts and think quietly to themselves about the following questions:

Q *Where have you used commas in a series in your directions?*

Q *Where might you be able to revise your directions to add a series with commas?*

Have partners talk about their thinking for a few minutes; then have a few volunteers share with the class.

Explain that the students will review their drafts to see if they can use commas in a series in their directions; then they will begin working on their final versions by copying their drafts on loose, lined paper.

WRITING TIME

4 Write Final Versions

Display the "Writing Time" chart (📄 WA16) and have the students work silently on the charted tasks for 20–30 minutes. Provide lined paper for

Continue conferring with individual pairs about the directions each partner is writing. Have partners who have tested and revised their directions show and read them to you. As you imagine following the directions, ask yourself:

TEACHER CONFERENCE NOTE *(continued)*

Document your observations for each student on a separate “Conference Notes” record sheet (CN1); see page 117 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Reflect on Revisions and Partner Work

Help the students reflect on their work during Writing Time today by asking questions such as:

- Q *Who added a series with commas to your directions? Read us that sentence. How does this make your directions clearer and easier to follow?*
- Q *What other revisions did you make today? Tell us about a revision.*
- Q *How did you and your partner work responsibly today?*

Explain that tomorrow the students will proofread their drafts and continue working on their final versions. Have the students place their directions in their folders until the next lesson.

Proofreading

Day 3

In this lesson, the students:

- Proofread their drafts for spelling, punctuation, and grammar
- Write their final versions
- Reach agreement before making decisions

GETTING READY TO WRITE

1 Briefly Review

Have the students get their folders, pencils, and *Student Writing Handbooks* and sit at desks with partners together. Remind the students that yesterday they revised their directions to use commas in a series and began writing their final versions.

Materials

- *Student Writing Handbooks*
- Supply of loose, lined paper for final versions
- “Writing Time” chart (WA17)
- (Optional) Computers for typing and printing final versions

Teacher Note

If necessary, remind the students who have already begun writing their final versions to correct any misspellings or errors they may have copied into them.

Explain that today partners will work together to proofread their drafts and then finish writing their final versions. Remind the students that they should use their word bank and proofreading notes to help them proofread their drafts for spelling and correctness (see Unit 2, Week 2, Day 2 on page 98 and Unit 2, Week 2, Day 3 on page 103). Briefly review these procedures by reminding the students to:

- Circle words in their drafts that they are unsure how to spell and look them up in the word bank. Add any words that are not already in their word bank after looking up the correct spellings in a dictionary or other resource.
- Use the proofreading notes as a list of things to check in their drafts before publishing. They will correct any errors by crossing out each error and writing the corrections above it.

Ask and briefly discuss:

Q *How will you and your partner be sure you agree that something needs to be changed and how to change it?*

Q *What will you do if you don't agree?*

Encourage partners to keep their ideas in mind as they work together today.

WRITING TIME

2 Proofread Drafts and Write Final Versions

 Display the “Writing Time” chart ( WA17) and have partners work on the charted tasks for 20–30 minutes. Provide lined paper to pairs who finish proofreading and are ready to begin writing final versions.

Writing Time

- Finish proofreading your directions.
- Begin copying your draft into its final version.

WA17

As they work, circulate, observe, and offer assistance. When the pairs seem to be working independently, confer with one pair at a time.

TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about the directions each partner is writing. Have partners who have tested and revised their directions show and read them to you. As you imagine following the directions, ask yourself:

- Are the directions clear and easy to follow?
- Are the directions complete and accurate?
- Do the directions use specific language and details?
- Has each partner used *either/or* or *both/and* to make the directions clearer and easier to understand?
- Has each partner used a series with commas to make the directions easier to follow?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask them questions such as:

- Q *I'm not clear about [where to start]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *You wrote, ["Turn when you get to the double doors"]. In which direction should I go? How will you write that in your directions?*
- Q *I'm confused about this direction. There are [two rooms across from the library]. How do I know which one you are writing directions to? How can you make that clear in your directions?*
- Q *Where is a place you might use either/or or both/and to make your directions clearer and easier to understand?*
- Q *Where is a place you might add a series with commas to make your directions easier to follow?*

Document your observations for each student on a separate "Conference Notes" record sheet (CN1); see page 117 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

3 Reflect on Proofreading

Ask and briefly discuss:

- Q *What words did you find in your word bank today? How did you check on words that were not in the word bank?*
- Q *What corrections did you make in your draft after reviewing your proofreading notes?*

Explain that partners will continue working on their final versions tomorrow. Have the students place any loose papers in their folders until the next lesson.

Day 4

Writing Final Versions and Publishing

Materials

- Supply of loose, lined paper for final versions
- “Writing Time” chart (WA18)
- Two chairs to use for Author’s Chair sharing
- (Optional) Computers for typing and printing final versions
- (Optional) Your charted directions to a school location (such as “Directions to the School Library”) from Week 2

In this lesson, the students:

- Finish writing their final versions
- Present their directions from the Author’s Chairs
- Express interest in and appreciation for one another’s writing
- Ask one another questions about their writing

GETTING READY TO WRITE

1 Discuss Sharing Writing from the Author’s Chairs

Have the students get their folders and pencils and sit at desks with partners together. Explain that they will finish working on the final versions of their directions. Pairs of students who finish will begin sharing their pieces from the Author’s Chairs after Writing Time.

WRITING TIME

2 Finish Final Versions

Display the “Writing Time” chart (WA18) and read it aloud.

Writing Time

- Finish proofreading your draft using your word bank and proofreading notes.
- Finish writing the final version of your directions.

WA18

Have the students think quietly to themselves for a moment about the following question:

Q *What do you need to work on today to be ready to share your directions from the Author’s Chairs?*

After a moment, have partners begin working on their final versions. When they finish, they may write about anything they choose. As they work, circulate, observe, and offer assistance. When the pairs seem to be working independently, confer with one pair at a time.

TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about the directions each partner is writing. Have partners who have tested and revised their directions show and read them to you. As you imagine following the directions, ask yourself:

- Are the directions clear and easy to follow?
- Are the directions complete and accurate?
- Do the directions use specific language and details?
- Has each partner used *either/or* or *both/and* to make the directions clearer and easier to understand?
- Has each partner used a series with commas to make the directions easier to follow?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *I'm not clear about [where to start]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *You wrote, ["Turn when you get to the double doors"]. In which direction should I go? How will you write that in your directions?*
- Q *I'm confused about this direction. There are [two rooms across from the library]. How do I know which one you are writing directions to? How can you make that clear in your directions?*
- Q *Where is a place you might use either/or or both/and to make your directions clearer and easier to understand?*
- Q *Where is a place you might add a series with commas to make your directions easier to follow?*

Document your observations for each student on a separate "Conference Notes" record sheet (CN1); see page 117 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

3 Conduct Author's Chair Sharing

Gather the class with partners sitting together, facing the Author's Chairs. Explain that when each pair of students shares their directions from the Author's Chairs, they will leave out the name of their place so that the audience can guess the place. First, one author will read the directions from the classroom to the place; then the other author will read the directions from the place back to the classroom. Explain that the audience members will use the first student's directions to guess the place and the second student's directions to confirm their thinking.

TEKS 1.B.iii
Student/Teacher Activity
Step 3
(first two paragraphs)

Teacher Note

If necessary, direct the students' attention to the charted directions to a school location you created last week (for example, "Directions to the School Library"). Model reading the directions, leaving out the name of the destination and replacing it with "this place."

If necessary, review the procedures you established for Author’s Chair sharing in Unit 2, Week 2 (see “Do Ahead” on page 95). Call on a pair of students to come to the Author’s Chairs to read their directions aloud. Remind each reader to speak in a loud, clear voice, and remind the audience to show interest in and appreciation for their classmates’ writing. Also remind the audience that they will use the first student’s directions to guess the place and the second student’s directions to confirm their thinking. After the first student shares, ask:

 **Q** *What do you think the place is? What makes you think that? Turn to your partner.*

Without discussing as a class, have the second student share her directions; then ask:

 **Q** *After hearing the directions back to the classroom, do you think your guess is correct? Why or why not? Turn to your partner.*

At the end of the sharing, facilitate a discussion using questions like those that follow. Give the authors an opportunity to respond to the class’s comments and questions.

Q *What do you think the place is? What makes you think that?*

Q *What did you hear in the second set of directions that confirmed your thinking or made you change your mind?*

Q *What questions can we ask [Veronica] and [Finn] about what they wrote?*

Follow this procedure to have other pairs share from the Author’s Chairs.

4 Reflect on Audience Behavior During Author’s Chair Sharing

Ask and briefly discuss:

Q *What did we do well as an audience today? What do we still want to work on the next time authors share their work?*

Q *If you shared today, how did the audience members make you feel? What did they do that made you feel [relaxed/nervous/proud]?*

Explain that more pairs of students will share their directions from the Author’s Chairs tomorrow.

Teacher Note

The end-of-lesson reflection is important to the students’ growth as writers and to their social development. We encourage you to allow at least 5 minutes at the end of each period to help the students reflect on their work and interactions. For more information about social development, see “Values and Social Skills” on page xxviii. You may also view “Social Reflection” (AV14).

EXTENSION

Explore Writing Directions from Maps

Have the students explore maps of your school or town. Invite them to write directions to and from different locations on the maps. You might also invite the students to make maps to go along with the directions they wrote during this unit.

Writing Final Versions and Publishing

Day 5

In this lesson, the students:

- Reflect on functional writing
- Finish writing their final versions
- Present their directions from the Author's Chairs
- Express interest in and appreciation for one another's writing
- Ask one another questions about their writing

GETTING READY TO WRITE

1 Review and Reflect on Functional Writing

Have the students get their folders and pencils and sit at desks with partners together. Remind them that they have been writing directions and that directions are a type of functional writing. Direct their attention to the "Writing Good Directions" chart, and review the items on the chart. In pairs and as a class, discuss:

- Q *Which of these questions were the most challenging for you to think about as you wrote your directions, and why? Turn to your partner.*
- Q *What did you like best about writing your directions? Turn to your partner.*
- Q *What have you learned about functional writing? Turn to your partner.*

Remind the students that writers become better over time as they practice writing over and over. Encourage the students who feel drawn to functional writing to continue to read and write a variety of functional texts during their free time

Explain that today partners will finish writing the final versions of their directions and share them from the Author's Chairs.

WRITING TIME

2 Finish Final Versions

Have partners work on their final versions. If they have already finished, they may write anything else they choose.

As the students work, circulate, observe, and offer assistance. When they seem to be working independently, confer with one pair at a time.

Materials

- "Writing Good Directions" chart from Day 1
- Supply of loose, lined paper for final versions
- Two chairs to use for Author's Chair sharing
- Copy of this unit's family letter (BLM2) for each student
- (Optional) Computers for typing and printing final versions

Facilitation Tip

Reflect on your experience over the past three weeks with **avoiding repeating or paraphrasing** students' responses. Does this practice feel natural to you? Are you integrating it into class discussions throughout the school day? What effect is it having on the students? Are they participating more responsibly in class discussions? We encourage you to continue to try this practice and reflect on the students' responses as you facilitate class discussions in the future.

Teacher Note

To review the procedure for "Turn to Your Partner," see Unit 1, Week 1, Day 2 (page 11). To see an example, view "Using 'Turn to Your Partner'" (AV11).

TEACHER CONFERENCE NOTE

Continue to confer with individual pairs about the directions each partner is writing. Have partners who have tested and revised their directions show and read them to you. As you imagine following the directions, ask yourself:

- Are the directions clear and easy to follow?
- Are the directions complete and accurate?
- Do the directions use specific language and details?
- Has each partner used *either/or* or *both/and* to make the directions clearer and easier to understand?
- Has each partner used a series with commas to make the directions easier to follow?

Help partners revise unclear writing by rereading those passages back to them and explaining what is confusing to you. Ask questions such as:

- Q *I'm not clear about [where to start]. What can you tell me that will help me know what to do? How will you write that in your directions?*
- Q *You wrote, ["Turn when you get to the double doors"]. In which direction should I go? How will you write that in your directions?*
- Q *I'm confused about this direction. There are [two rooms across from the library]. How do I know which one you are writing directions to? How can you make that clear in your directions?*
- Q *Where is a place you might use either/or or both/and to make your directions clearer and easier to understand?*
- Q *Where is a place you might add a series with commas to make your directions easier to follow?*

Document your observations for each student on a separate "Conference Notes" record sheet (CN1); see page 117 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

3 Conduct Author's Chair Sharing

Gather the class with partners sitting together, facing the Author's Chairs. As you did yesterday, remind authors to speak in a loud, clear voice. Also remind the audience members to show interest in and appreciation for their classmates' writing.

Call on a pair of students to come to the Author's Chairs and read their directions aloud. Remind the audience members that they will use the

first student's directions to guess the place and the second student's directions to confirm their thinking. After the first student shares, ask:

Q *What do you think the place is? What makes you think that? Turn to your partner.*

Without discussing as a class, have the second student share her directions, and then ask:

Q *After hearing the directions back to the classroom, do you think your guess is correct? Why or why not? Turn to your partner.*

At the end of the sharing, facilitate a discussion using questions like those that follow. Give the authors an opportunity to respond to the class's comments and questions.

Q *What do you think the place is? What makes you think that?*

Q *What did you hear in the second set of directions that confirmed your thinking or made you change your mind?*

Q *What questions can we ask [Greg] and [Joy] about what they wrote?*

Follow this procedure to have other pairs share from the Author's Chairs.

4 Reflect on Audience Behavior During Author's Chair Sharing

Ask and briefly discuss:

Q *What did we do well as an audience today? What do we still want to work on the next time authors share their work?*

Q *If you shared today, how did the audience members make you feel? What did they do that made you feel [relaxed/nervous/proud]?*

Assure pairs who have not yet shared that they will get to share their directions from the Author's Chairs in the coming days. Explain that after all the directions are read aloud, you will compile them into a book and place it in the class library so new students and guests to the school can read them whenever they want to know how to get someplace in the school.

WRITING ABOUT READING

Write Persuasively About Knowing How to Write Directions

Have the students briefly discuss why it is useful to know how to write directions from one place to another. Explain that they each will write a brief persuasive piece explaining their ideas. Ask:

Q *When do you think you might have to write directions to somewhere for someone?*

Teacher Note

Make time in the coming days for pairs to share their directions from the Author's Chairs until all pairs have had a chance to do so.

Teacher Note

For information on wrapping up this unit and conducting unit assessments, see "End-of-unit Considerations" on page 538.

Students might say:

"If I have a baseball game in another town, I might need to give directions to my mom."

"If a friend is coming to my house, I might need to tell him how to get there."

"It might be easier to write directions than to draw a map."

Explain to the students that when they write their persuasive pieces, they need to support their opinions with facts and details. Ask the students to watch as you think aloud and model writing a persuasive piece about why you think it is a good idea to know how to write directions.

You might say:

"First I'll write a sentence that grabs my readers' attention. I'll start with a statement that most people will agree with: *No one wants to spend their time lost and wandering in circles. But that's what many people end up doing when they set off to find a place without directions.* Now I'm going to give a couple of examples to show that knowing how to write directions can save you a lot of time and frustration. I'll write: *If you know how to write clear and accurate directions, you can help your friends find your house quickly. This will give you more time to hang out. Also, knowing how to write directions can keep you from showing up late to games, parties, and school events.* Next, I'm going to reply to a point that I bet a lot of my readers are thinking. I'll write: *Even though many people can get directions easily on their computers and smartphones, sometimes technology doesn't work right. It's often easier and cheaper to write directions with a pen and paper.* Now I'll write a concluding section: *A good set of directions can make the difference between a great trip and a terrible one. Learning how to write directions is worth the time and effort.*"

Remind the students that their persuasive pieces should include at least two reasons to support their opinions about the usefulness of knowing how to write directions. If time permits, invite the students to share their persuasive pieces with the class. Include the pieces with the directions in the class book at the end of the unit.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of the Functional Writing genre unit. You will need to reassign partners before you start the next genre unit.
- Send home with each student the student's published piece and a copy of this unit's family letter (BLM2). Encourage the students to share their published directions with their families. Remind the students to bring the pieces back to class after their families have read them so they can be placed in the class library.
- Save the students' published writing (or copies of it) to use for reflection and discussion in Unit 9.

Assessments

- Before continuing with the next unit, take this opportunity to assess individual students' writing from this unit. See "Completing the Individual Writing Assessment" (IA1) on page 120 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students' published writing home to share with their families, you might have each student analyze his writing using the "Student Self-assessment" record sheet (SA1) on page 119 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension "Introduce 'Student Self-assessment'" on page 114.

Genre

Opinion Writing

During this three-week unit, the students read and write persuasive essays defending particular opinions as they explore the elements of opinion writing. They brainstorm topics they have strong opinions about, and each student selects an opinion to write about. The students learn to identify an audience and purpose for their essays, state and support their opinions with reasons, and use transitional words and phrases to connect opinions with reasons. They write introductions that capture their reader's interest and conclusions that restate their opinions and bring their essays to a close. They practice relevant skills and conventions, such as placing commas after introductory words, phrases, and clauses in sentences and correcting sentence fragments. They confer in pairs and revise their essays based on partner feedback. Socially, they express their own opinions as they learn to respect and consider the opinions of others. They also express interest in and appreciation for one another's writing.

TEACHER AS WRITER

“We do not write because we want to; we write because we must.”

— W. Somerset Maugham

In this unit, the students explore opinion writing—a type of writing intended to persuade readers of the author’s opinion through well-thought-out argument and evidence. Much writing that states and supports an opinion arises from an author’s sense that something is amiss and needs to be addressed or corrected.

Make a list of topics that you feel compelled to address in your own life, community, country, or the world. What bothers you about these things? Are they unfair? Inconvenient? Wrong in other ways? Jot down some notes about your thoughts in your notebook.

Writing Focus

- Students hear and discuss persuasive essays.
- Students identify the purpose and audience for persuasive essays.
- Students think about what information is communicated in persuasive essays.
- Students generate opinions they feel strongly about for persuasive essays.

Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students respectfully consider the opinions of others.
- Students work in a responsible way.

DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see “Random Pairing” on page xxix and “Considerations for Pairing ELLs” on page lii. For more information, view “Cooperative Structures Overview” (AV9).
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1) on page 132 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, make a copy of the “Class Assessment Record” sheet (CA2) on page 133 of the *Assessment Resource Book*.

Teacher Note

The partners you assign today will stay together for the unit. If necessary, take a few minutes at the beginning of today’s lesson to let them get to know each other better by talking informally in a relaxed atmosphere.

Teacher Note

If you are using other programs from the Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the writing lessons.

In this lesson, the students:

- Work with new partners
- Share what they learn about their partners
- Hear and discuss a persuasive essay
- Think about the author’s purpose
- Write about things that interest them

ABOUT OPINION WRITING

In this unit, the students explore the elements of opinion writing by crafting persuasive essays, and they learn that the purpose of a persuasive essay is to persuade the reader of the author’s opinion. They identify topics that they have strong opinions about and think about who the intended audience of a persuasive essay might be. They explore how essays can be structured as they learn to state an opinion in the opening paragraph, support the opinion in subsequent paragraphs, use transitional words to connect opinions and reasons, and reaffirm the opinion in closing.

The students learn that many published persuasive essays contain researched facts and data to support a given position. Although the students are not expected to research their topics in grade 5, you might wish to incorporate a stronger research focus into this unit by having the students find data and other information about their topics to support their positions. If so, be ready to help them find resources about their topics at the library or on the Internet.

There are two phases to this unit: Immersion and Drafting (two weeks) and Revision, Proofreading, and Publication (one week). During the first phase, the students explore and try their hand at writing persuasive essays. In the second phase, they write, revise, and publish their persuasive essays for a class collection, and they consider ways to publish their essays for a wider audience beyond the classroom.

GETTING READY TO WRITE

1 Pair Students and Discuss Working Together

Randomly assign partners (see “Do Ahead” on page 547) and make sure they know each other’s names. Explain that partners will work together for the next three weeks.

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Have partners take a few minutes to talk about some of the things they have written so far this year. Signal for their attention and ask:

- Q *What did you learn about the writing your partner has done this year?*
- Q *What have you learned about working with someone else that will help you in working with your new partner?*

2 Read “WARNING: Too Much TV Is Hazardous to Your Health” Aloud

Explain that in this unit the students will focus on writing a special kind of nonfiction. Tell them that you will read aloud a short *essay*, or piece of nonfiction writing. Invite them to think about what the author’s opinion is in this essay.

Without identifying it as a persuasive essay, read “WARNING: Too Much TV Is Hazardous to Your Health” (on page 566) aloud slowly and clearly, clarifying vocabulary as you read.

Suggested Vocabulary

- negative consequences:** bad things that happen as a result of something
- excessive:** too much
- promotes:** encourages
- sedentary lifestyles:** ways of living without enough exercise
- obesity:** state of being very overweight
- decade:** ten years
- diminished:** went down

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

- an abundance of evidence:** lots of reasons
- harms:** hurts
- reduce inactivity:** get more active

Ask and briefly discuss:

- Q *What is the author trying to do in this essay?*

3 Reread the Essay and Discuss the Author’s Purpose

Have the students open to page 27 of their handbooks. Point out that this essay is adapted from a factsheet from a group called the TV-Turnoff Network. Have partners read “WARNING: Too Much TV Is Hazardous to Your Health” together. Ask them to think as they read about the author’s

Teacher Note

If necessary, explain to the students that an *opinion* is a strongly held point of view. When we give an opinion, we are telling what we think about something.

Teacher Note

To review the procedure for defining vocabulary during a read-aloud, see Unit 1, Week 1, Day 1, Step 3 (page 8). For more information, view “Introducing Vocabulary During a Read-aloud” (AV30).

Teacher Note

Regularly remind the students to use the discussion prompts they learned when they participate in class discussions. The prompts are:

- “I agree with _____ because . . .”
- “I disagree with _____ because . . .”
- “In addition to what _____ said, I think . . .”

Teacher Note

Note that on Days 1 and 2 of this week, the students may do persuasive writing or write about anything else they choose. On Day 3, after exposure to more examples of persuasive writing, all the students will be asked to begin writing in this genre.

opinion. After partners have had a chance to read the essay, signal for their attention. Ask and briefly discuss:

- Q *What is the author trying to convince us to believe? How do you know?*
- Q *Did this essay change what you believe? Why or why not?*

Students might say:

- “I think the author is trying to convince us not to watch too much TV.”
- “I agree with [Paula]. The author gives lots and lots of reasons why TV isn’t good for people, especially kids.”
- “I am convinced because the author put in quotes by scientists.”
- “I’m not convinced that watching TV is as bad as the author says.”

Point out that the author is trying to *persuade*, or convince, the reader that watching too much TV is harmful, especially for children; that is the author’s *purpose*, or reason for writing. Explain that this kind of opinion writing is called a *persuasive essay*.

Point out that the author states a clear opinion in the first paragraph: “our television habit has serious negative consequences.” The author supports that opinion with several reasons in the paragraphs that follow.

Explain that the students will spend the next few weeks exploring and learning to write persuasive essays. Ask:

- Q *Why might it be good to know how to write a persuasive essay?*

Students might say:

- “If something is happening that you don’t like, you could write a persuasive essay about it and send the essay to the newspaper. If other people read it, they might agree with you.”
- “I agree with [Sandeep]. You might write a persuasive essay to try to convince other people to agree with your opinion.”
- “You might want to send a persuasive essay to the president or other leaders to explain why you think something is unfair or should be changed.”

Explain that during Writing Time today the students may begin thinking about opinions they have that they might want to write a persuasive essay about, or they may write about anything else they choose.

WRITING TIME

4 Write Independently

Have the students get their notebooks and pencils and sit at desks with partners together for 20–30 minutes of silent writing. During this time, they may list opinions or topics they might want to write a persuasive essay about or write about anything they choose.

If necessary, remind the students that all of their writing should be double-spaced and that there should be no talking, whispering, or walking around during the silent writing period. Join the students in

writing for a few minutes; then walk around the room and observe, assisting students as needed.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Briefly Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. Alert the students to be ready to share their partners' ideas with the class. After a moment, signal for their attention and ask:

- Q *What did your partner write about today?*
- Q *What did you and your partner do to work well together when you were talking and sharing your writing?*

Exploring Opinion Writing

Day 2

In this lesson, the students:

- Hear and discuss a persuasive essay
- Think about the author's audience and purpose
- Generate possible opinions for persuasive essays
- Write about things that interest them

GETTING READY TO WRITE

1 Discuss Audience

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Review that yesterday the students read a persuasive essay titled "WARNING: Too Much TV Is Hazardous to Your Health." Ask:

- Q *What do you remember about what the author is trying to do in this essay? Turn to your partner.*

Have partners discuss their thinking. After a few moments, signal for the students' attention and have them turn to page 27 of their handbooks and briefly review the essay. Ask:

- Q *What is the author's purpose, or what is his reason for writing this essay?*
- Q *Who might the author be trying to convince that watching TV is unhealthy, and why?*

Teacher Note

To review the procedure for "Turn to Your Partner," see Unit 1, Week 1, Day 2 (page 11). To see an example, view "Using 'Turn to Your Partner'" (AV11).

Teacher Note

Save the “Things We Notice About Persuasive Essays” chart to use on Day 3 and throughout the unit.

Students might say:

“The author’s purpose is to make us agree that too much TV is bad.”

“I think this author is writing to people who watch too much TV.”

“In addition to what [Blanca] said, I think the author is writing to parents of kids. I think so because in the first paragraph it says ‘our kids.’”

Point out that while many different kinds of people may read a persuasive essay, authors of persuasive essays usually have a certain kind of *audience* (reader) in mind when they are writing. In this case, the audience is probably people who watch a lot of TV or whose families watch a lot of TV.

Title a piece of chart paper “Things We Notice About Persuasive Essays.” Under the title, add the following items: *Author’s purpose is to convince the reader about something* and *Author writes with a certain audience in mind*.

Explain that today the students will hear and read a persuasive essay by a different author. Encourage them to think about this author’s purpose for writing and the audience he might have in mind.

2 Read Aloud “Television: The Most Disparaged Resource of the Information Age”

Have the students turn to page 29 of their handbooks and invite them to follow along as you read the essay. Explain that this essay is written by a teenager named Salmaan S. and that *disparaged* means “spoken badly about.”

Read aloud “Television: The Most Disparaged Resource of the Information Age” (on page 567) slowly and clearly, clarifying vocabulary as you read.

Suggested Vocabulary

audio-visual stimuli: things you can hear and see

most efficient means of mass communication: best ways to communicate with lots of people

politics: the activities of government

witness: watch happen

appliance: machine

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

transfer thoughts and ideas: tell other people thoughts and ideas

other cultures: other kinds of people

unites: brings together

enormous: huge

3 Discuss the Author’s Audience and Purpose

Ask:

Q *What is Salmaan S.’s purpose in writing, or what is he trying to convince us of in this essay? Turn to your partner.*

After a moment, have a few volunteers share their thinking.

Students might say:

“He’s trying to convince us that watching TV is not a waste of time.”

“He’s saying that TV is important because it brings people together.”

Remind the students that in the persuasive essay they read yesterday, the author tried to convince them of the opposite point of view. Ask and briefly discuss:

Q *Who do you think is the audience for this essay, or who is Salmaan S. writing to?*

Q *In the sentence “Well, I strongly disagree with the viewpoint that television is a waste of time,” Salmaan tells exactly what his opinion is. He then gives us several reasons that support his opinion. What reasons does he give?*

Q *Compare this essay to the one you read yesterday. Which essay is more persuasive to you, and why?*

Students might say:

“I think the audience might be people who think TV is a waste of time. Otherwise, why would he be trying to convince them?”

“I agree with [Ricardo]. One reason Salmaan gives to support his opinion is that TV is one of the quickest ways to present an idea clearly.”

“I think yesterday’s essay is more persuasive. It gives reasons for why TV is just bad for your health.”

“I disagree with [Gwen] a little bit. Today’s essay makes me realize how much we can learn from watching TV, but yesterday’s essay made me think about why we shouldn’t watch it too much.”

4 Generate Possible Opinions for Persuasive Essays

Explain that people often write persuasive essays when they have strong opinions about whether something is good or bad, or right or wrong. In the two essays the students have read so far, one author feels that too much TV can be harmful while the other feels that television is a good thing. On a sheet of chart paper titled “Possible Opinions for Persuasive Essays,” write the sentences *Watching too much TV is harmful* and *Television is educational*.

Ask the students to watch as you write a few other opinions on the chart. Add a few sentences that reflect opinions that you hold.

Teacher Note

If the students struggle to come up with ideas, ask follow-up questions such as:

- Q *What is something that annoys or bothers you [at school/at home/in our community/in the world]?*
- Q *What is something you feel strongly about?*
- Q *What do you think is really, really cool or important?*

on to p. 555)

Possible Opinions for Persuasive Essays

- Watching too much TV is harmful.
- Television is educational.
- People should not eat donuts for breakfast.
- Our school should offer jazz band as an after-school activity.
- Recess should be ten minutes longer.
- We should learn to dance in school.

Use “Think, Pair, Share” to discuss:

Q *What opinions do you have that you might be able to write a persuasive essay about? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

- “It’s not right to exclude people.”
- “Turkey-hunting season is too short.”
- “Children should be allowed to vote.”
- “I should get a bigger allowance than my brother.”
- “Kids should stand up to bullies.”

As the students report ideas, record them on the chart. Tell them that you will add to the chart as they think of more ideas in the coming days.

Explain that today the students may continue to think about and list opinions for persuasive essays, write about some of their opinions, or write about anything they choose.

WRITING TIME

5 Write Independently

Have the students get their notebooks and pencils and sit at desks with partners together. Display the “Writing Time” chart (WA1) and have them write silently for 20–30 minutes.

- Write about your opinions.
- Write about anything you choose.

SHARING AND REFLECTING

6 Briefly Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. Alert the students to be ready to share their partners' ideas with the class. After a moment, signal for their attention and ask:

- Q *What did your partner write about today?*
- Q *What did you and your partner do to work well together when you were talking and sharing your writing?*

Exploring Opinion Writing

Day 3

In this lesson, the students:

- Hear, discuss, and write persuasive essays
- Think about features of persuasive essays
- Think about the author's audience and purpose
- Quick-write about their opinions

GETTING READY TO WRITE

1 Review Persuasive Essays

Have the students bring their *Student Writing Handbooks*, notebooks, and pencils and gather with partners sitting together, facing you. Review that they read two persuasive essays earlier this week on the topic of television. Have them open their handbooks to page 27 and briefly review "WARNING: Too Much Television Is Hazardous to Your Health." After a few minutes, ask them to turn to page 29 and review "Television: The Most Disparaged Resource of the Information Age."

Materials

- "Animal Experimentation Saves Lives" (see page 568)
- *Student Writing Handbook* page 30
- "Things We Notice About Persuasive Essays" chart from Day 2
- "Possible Opinions for Persuasive Essays" chart from Day 2
- Chart paper and a marker
- "Writing Time" chart (WA2)

Teacher Note

On Week 2, Day 2, the students will learn about writing interesting openings that capture the reader's attention. Leaving a blank line, as described here, will allow for this item to appear in a logical sequence when it is added to the "Things We Notice About Persuasive Essays" chart in Week 2.

When the students have finished reviewing the essays, ask and briefly discuss:

Q *What opinions about television do the authors of these two essays have?*

Q *What are some reasons the authors give to support their opinions?*

Review that both "WARNING: Too Much Television Is Hazardous to Your Health" and "Television: The Most Disparaged Resource of the Information Age" are examples of persuasive essays. Point out that each author clearly states an opinion early in the essay and then gives several reasons that support that opinion.

Direct the students' attention to the "Things We Notice About Persuasive Essays" chart from Day 2. Leave a blank line or space below the most recent entry. Add the following items after the blank line: *Author clearly states opinion early in the essay* and *Author gives reasons that support the opinion*.

Explain that today the students will hear and read another persuasive essay, this one on a different topic. Invite them to think about what else they notice the author doing as they read.

2 Read "Animal Experimentation Saves Lives" Aloud

Have the students turn to page 30 of their handbooks. Explain that *animal experimentation* means "using animals in science experiments to learn about human diseases and to develop medicines and other products for human use." Often these animals feel pain and die as a result of these experiments. Point out that animal experimentation is an example of a topic that many people have strong opinions about.

Invite the students to follow along in their handbooks as you read aloud "Animal Experimentation Saves Lives" (on page 568). Read the essay aloud slowly and clearly, clarifying vocabulary as you read.

Suggested Vocabulary

vaccines: medicines that prevent disease

polio epidemic crippled and killed children: many, many children were crippled and killed by a disease called polio

sacrifice: kill for a reason

priorities: what's important

with a fast reproduction rate: that have a lot of babies quickly

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

it may not be common knowledge: people may not know this

diabetes . . . cancer, AIDS/HIV: names of diseases

claiming thousands of lives: killing thousands of people

rodents: the family of animals that includes rats and mice

3 Discuss the Author’s Audience and Purpose

Ask and briefly discuss:

- Q *What is Giovanni P.’s purpose in writing, or what is he trying to convince us to believe?*
- Q *Who do you think Giovanni’s audience is, or who is he writing to?*
- Q *In the sentence “The use of animal experimentation should be recognized and accepted as a tool in saving lives,” the author states his opinion clearly and in one sentence. He then gives us several reasons for his opinion. What reasons does he give?*
- Q *Do you agree or disagree with the author’s opinion? Why?*

Students might say:

“He’s trying to convince us that it’s okay to experiment on animals because it benefits everyone.”

“I agree with [Lars]. I think the audience might be people who disagree with animal experimentation.”

“The author gives examples of how animal experimentation cured polio and rabies.”

4 Quick-write: Opinions

Direct the students’ attention to the “Possible Opinions for Persuasive Essays” chart and review the items on it. Explain that each student will choose one opinion from the chart that they feel strongly about and do a 5-minute quick-write about it. Ask the students to watch as you model doing a quick-write about an opinion.

Select an opinion you can write about from the “Possible Opinions for Persuasive Essays” chart. On another piece of chart paper, first model writing a sentence stating that opinion, and then model writing some reasons that support it. Think aloud as you write.

You might say:

“I’ll choose an opinion from the chart that I feel strongly about so that I’ll be able to think of plenty things to write. My opinion is that people should not eat donuts for breakfast. First I’ll write an opening sentence that states my opinion: *I think people should not eat donuts for breakfast.* Notice that I stated my opinion clearly and in one sentence so that the reader can understand it right away. Next I’ll try to persuade the reader by writing reasons that support my opinion. Here’s my first reason: *Donuts are full of sugar and fat.* I’ll add a bit more detail to the reason: *They give you energy for a short time and then leave you feeling tired and hungry again long before lunch.* Now I’ll write a second reason that supports my opinion: *Also, donuts are bad for your teeth.* I’ll add some detail to this reason: *The sugar in them gives you cavities, which are painful and expensive to fix.*”

When you finish writing, review that you stated your opinion clearly in the first sentence and then wrote a few reasons that support your

opinion. Point out that you added some detail to each reason to make it more persuasive.

Use “Think, Pair, Share” to discuss:

Q *What opinion on the chart will you choose, and what will you write?*
[pause] *Turn to your partner.*

After partners have talked, ask the students to each open to the next blank page of their notebooks and to write for 5 minutes.

When time is up, call for the students' attention and have a few volunteers share what they wrote with the class. Explain that during Writing Time today you would like all the students to write about their opinions. Each student may continue the piece she started during the quick-write, or she may start a new piece and write about any opinions she feels strongly about.

WRITING TIME

5 Write Independently

Ask the students to return to their seats. Display the “Writing Time” chart (WA2) and have them write silently for 10–15 minutes.

Writing Time

- Continue the piece you started during the quick-write.
- Start a new piece about an opinion you have.

Remind the students to double-space all writing in their notebooks so they have space to revise later, if necessary. Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

6 Briefly Share Writing and Reflect

Ask and briefly discuss questions such as:

- Q** *What opinion did you write about today?*
- Q** *Who stated an opinion clearly in one sentence? Read it to us.*
- Q** *What reasons did you give for your opinion? Read one of them to us.*

Explain that the students will continue to write about their opinions tomorrow.

In this lesson, the students:

- Hear, discuss, and write persuasive essays
- Think about features of persuasive essays
- Think about the author’s audience and purpose

GETTING READY TO WRITE

1 Briefly Review

Have the students get their notebooks and pencils and sit at desks with partners together. Remind the students that yesterday they read a third persuasive essay, “Animal Experimentation Saves Lives,” and continued adding to their list of things they notice about persuasive essays. Ask:

Q *What are some things we notice about persuasive essays?*

Students might say:

“A persuasive essay is about the writer’s opinion.”

“I agree with [Guillermo]. People write these essays to convince other people to agree with them.”

“We notice that writers explain their opinions at the beginning of the essays.”

“In addition to what [Rachel] said, persuasive essays have reasons that support the opinion.”

If necessary, briefly review the items on the “Things We Notice About Persuasive Essays” chart. If the students suggest new ideas, add them to the chart.

Review that yesterday the students also did a quick-write about an opinion they feel strongly about. Direct the students’ attention to the charted model quick-write from Day 3 as an example. Remind them that they stated their opinions clearly and then wrote some reasons that supported their opinions. Ask:

Q *What opinion did you write about yesterday?*

Q *What is a reason you gave to support your opinion?*

After a few volunteers have shared, explain that today the students will continue writing about their opinions. Ask:

Q *What other opinions do you have that you might want to write about?
Turn to your partner.*

 **Facilitation Tip**

During this unit, we invite you to practice **responding neutrally with interest** during class discussions. To respond neutrally means to refrain from overtly praising (for example, “Great idea” or “Good job”) or criticizing (for example, “That’s wrong”) the students’ responses. While it may feel more natural to avoid criticism rather than praise, research shows that both kinds of responses encourage students to look to you, rather than to themselves, for validation. To build the students’ intrinsic motivation, try responding with genuine curiosity and interest (for example, “Interesting—say more about that”) while avoiding evaluative statements, whether positive or negative. To see this Facilitation Tip in action, view “Responding Neutrally with Interest” (AV24).

WRITING TIME

2 Write Independently

Display the “Writing Time” chart (WA3) and have the students write silently for 20–30 minutes.

Writing Time

- Continue the opinion piece you started yesterday during the quick-write.
- Start a new piece about an opinion you have.
- State your opinion clearly in your piece.
- Add reasons that support your opinion.

WA3

Remind the students that they may refer to the “Possible Opinions for Persuasive Essays” chart for ideas. Join them in writing for a few minutes; then walk around the room and observe.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to identify opinions to write about?
- Can they state their opinions clearly in their writing?
- Can they give reasons that support their opinions?

If you notice many students struggling to write after 10–15 minutes, call for the class’s attention and have a few volunteers share what they have written so far; then have the students resume writing on their own for a few more minutes.

Record your observations on the “Class Assessment Record” sheet (CA1); see page 132 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

3 Briefly Share Writing and Reflect

Ask and briefly discuss questions such as:

- Q *What opinion did you write about today?*
- Q *Who stated an opinion clearly at the beginning of your piece? Read it to us.*
- Q *What reasons did you give for your opinion? Read one of them to us.*

Explain that the students will continue to write about their opinions tomorrow.

In this lesson, the students:

- Hear and discuss a persuasive essay
- Think about the author’s audience and purpose
- Write about their opinions
- Respectfully consider the opinions of others

GETTING READY TO WRITE

1 Gather and Review Persuasive Essays

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Review that yesterday they read a persuasive essay about how animal experimentation benefits people. Have the students open their handbooks to page 30, and give them a few minutes to review “Animal Experimentation Saves Lives.” Then ask and briefly discuss:

Q *What opinion does the author of this essay have about animal experimentation?*

Students might say:

“The author thinks it’s a good idea to experiment on animals.”

“I agree with [Allison]. The author says that animal experimentation helps find cures for awful diseases.”

“In addition to what [Clayton] said, the author says that many people would suffer and die without animal experimentation.”

Direct the students’ attention to the “Things We Notice About Persuasive Essays” chart. Review that in a persuasive essay, the author has a purpose and audience in mind, clearly states an opinion early in the essay, and includes reasons that support the opinion.

Explain that today the students will hear and read another persuasive essay about animal experimentation, this one with a different point of view. Invite them to think about what the author’s opinion is in this essay.

2 Read Aloud “Animal Testing: Here Is the Truth”

Have the students turn to page 31 of their handbooks. Invite them to follow along as you read “Animal Testing: Here Is the Truth” (on page 569) aloud. Read the essay aloud slowly and clearly, clarifying vocabulary as you read.

Materials

- “Animal Testing: Here Is the Truth” (see page 569)
- *Student Writing Handbook* pages 30–31

Suggested Vocabulary

detergents: soaps

cosmetics: make-up

side effects: unexpected, harmful results, such as an allergic reaction

advantageous: good for, beneficial

solutions: liquid chemicals

cloned human cells: human cells made in a laboratory

Food and Drug Administration: government department responsible for the safety of food, medicine, and other products

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

blinded: made unable to see

alternatives: other ideas or ways

3 Discuss the Author's Audience and Purpose

Ask and briefly discuss:

Q *What sentences early in the essay tell us exactly what this author's opinion is about animal testing?*

If necessary, explain that these sentences in the first paragraph state the author's opinion: "Even though animal testing is advantageous to humans, I believe humankind should not test products on animals. It is cruel and unnecessary." Remind the students that the author's purpose in a persuasive essay is to convince the reader to agree with her opinion. Then have partners briefly discuss:

Q *What are some reasons the author gives to support her opinion that animal testing is cruel and unnecessary? Turn to your partner.*

Q *Who do you think is the audience, or who is Emma writing to? Turn to your partner.*

Invite a few volunteers to share their responses with the class.

Students might say:

"One reason the author gives is the horrible tests that make the animals suffer and die."

"In addition to what [Karen] said, the author says scientists have alternatives to animal testing."

"I think the audience is people who think animal testing is okay. She's trying to convince them that it's not."

"I agree with [Connor], but I also think the audience is people who don't even know animal testing happens."

4 Add to the “Possible Opinions for Persuasive Essays” Chart

Direct the students’ attention to the “Possible Opinions for Persuasive Essays” chart and review the items on it. Remind the students that the two essays they read about television had *opposing* opinions, or opinions that are the opposite of each other. Point out that the two essays about animal experimentation had opposing opinions, too. Add the following sentences to the chart: *We should continue experimenting on animals* and *We should stop experimenting on animals*. Ask:

Q *What other opinions do you have that you might be able to write a persuasive essay about?*

Add any suggestions to the chart.

Explain that during Writing Time today you would like all the students to write about their opinions. Remind the students to state their opinions clearly in their writing and to include supporting reasons. Tell them that they may refer to the “Possible Opinions for Persuasive Essays” chart for ideas.

WRITING TIME

5 Write Independently

Have the students get their notebooks and pencils and sit at desks with partners together. Display the “Writing Time” chart (WA4) and have them write silently for 20–30 minutes.

Writing Time

- Continue the opinion piece that you started yesterday.
- Start a new piece about an opinion you have.
- State your opinion clearly in your piece.
- Add reasons that support your opinion.

WA4

Join the students in writing for a few minutes; then walk around the room and observe.

Teacher Note

Save the “Possible Opinions for Persuasive Essays” and the “Things We Notice About Persuasive Essays” charts to use in Week 2.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to identify opinions to write about?
- Can they state their opinions clearly in their writing?
- Can they give reasons that support their opinions?

If you notice many students struggling to write after 10–15 minutes, call for the class’s attention and have a few volunteers share what they have written so far; then have the students resume writing on their own for a few more minutes.

Record your observations on the “Class Assessment Record” sheet (CA2); see page 133 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

6 Share Writing and Discuss Disagreeing Respectfully

Ask partners to share what they wrote with each other. Alert the students to be ready to share their partners’ ideas with the class. After a few moments, signal for their attention and ask:

- Q *What opinion did your partner write about today?*
- Q *Do you have the same opinion as your partner or a different opinion? Explain.*

Explain that in the coming week the students will each develop a persuasive essay on a topic they feel strongly about. They will share their opinions in pairs and with the whole class, and they may sometimes disagree or have opposing opinions. Ask:

- Q *Why is it important that we find a respectful way to talk to one another about our opinions, especially if we disagree?*

Students might say:

“It’s important to talk about our opinions because that’s how we learn from one another.”

“It’s important to be respectful because we’re all allowed to have our own opinions.”

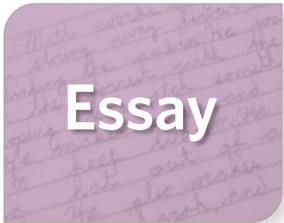

“It’s OK if we disagree. We’re not all going to think the same thing all the time.”

Explain that the students will explore ways to talk about their opinions in a respectful way in the coming weeks.

EXTENSION

Read Editorials and Letters to the Editor

Collect newspapers and magazines that have op-ed pieces or letters to the editor that might be accessible for your students. Read these together as a class or make them available for the students to read independently. Take time to discuss what the author's opinion is, how that opinion is supported in the piece, and whether the students are persuaded by the piece. You might encourage interested students to write persuasive letters in response to an op-ed piece they read.

WARNING: Too Much TV Is Hazardous to Your Health

adapted from a RealVision factsheet on the TV-Turnoff Network

More than four hours a day: that's how much television Americans watch on average. As an abundance of evidence makes clear, our television habit has serious negative consequences. Excessive TV-watching cuts into family time, harms our kids' ability to read and perform well in school, encourages violence, and promotes sedentary lifestyles and obesity.

TV Undermines Family Time

Many people feel that they do not have enough time to spend with their families. . . . Television plays a crucial role. In the average American household, there are at least two televisions, and 67 percent of Americans report always or often watching television while eating dinner. Families who watch little or no television often find that they have more time to spend with one another.

TV Harms Reading and Academic Performance

Excessive television-watching harms reading skills. . . . Researcher[s] [found] more than a decade ago that “reading scores diminished sharply for those students watching more than four hours a day.” Researchers such as Jane Healy of Harvard argue that watching TV instead of reading may actually [change] the physical structure of the brain as it develops, making learning and working in the schoolroom environment difficult.

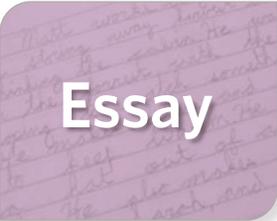

TV Encourages Violence

The evidence is overwhelming: violence on TV promotes violent behavior in real life. The Center on Media and Child Health at Harvard lists more than 2,000 reports on the links between media exposure and increases in violence. Those studies have established that the amount of media violence a child sees is similar to the amount of real violence that the child acts out. The connection between those two things is stronger than the connection between calcium intake and healthy bones! It's nearly as strong as the link between smoking and lung cancer.

TV Promotes Sedentary Lifestyles and Obesity

Americans, by and large, do not get enough physical exercise. We spend most of our free time watching television, which promotes obesity and its related illnesses. According to Dr. William Dietz at the Centers for Disease Control, “The easiest way to reduce inactivity is to turn off the TV set. Almost anything else uses more energy than watching TV.”

Television: The Most Disparaged Resource of the Information Age

by Salmaan S., Westford, MA
adapted from TeenInk.com

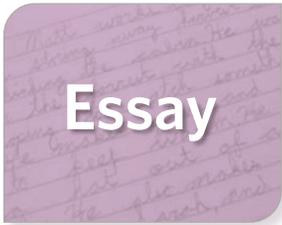

Almost every day one can hear some mention of “The TV Generation.” Many harshly label television as a “drug,” claiming that millions of children every day waste their time in front of this electronic altar. Well, I strongly disagree with the viewpoint that television is a waste of time.

Today, there are many different ways to transfer thoughts and ideas. Of these, television, with its combination of audio-visual stimuli, is one of the quickest to present an idea clearly and completely. To say that television is not important is to say that learning about other cultures thousands of miles away by seeing and hearing is a waste of time. In this age of information, television is one of the most efficient means of mass communication available to man.

Millions of people keep up with the latest news thanks to television. They can stay informed about politics, witness historic events, cheer for their sports teams, and explore places they might never have seen otherwise, all because of television.

Television unites mankind because people separated by distance, skin color, language and wealth can all relate to some of the things they see on TV. No other appliance of the information age is as quick and widely used around the world as television. Failing to acknowledge the positive value of this resource to mankind is an enormous mistake.

Animal Experimentation Saves Lives

by Giovanni P., San Gabriel, CA
adapted from TeenInk.com

It may not be common knowledge, but animals save lives each and every day. Animal experimentation has existed since ancient times to contribute to human life and survival. These experiments became the building blocks of health and medicine, [including] research of diabetes, vaccines, cancer, AIDS/HIV and open-heart surgery. As a result, many people have been saved. The use of animal experimentation should be recognized and accepted as a tool in saving lives.

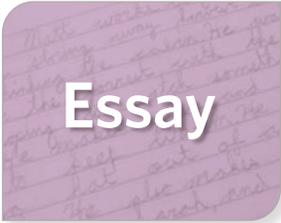

In the 1940s and 1950s, a polio epidemic crippled and killed children and newborns. Without animal experimentation [to develop a polio vaccine], polio would still be claiming thousands of lives each year. Many would not be alive today without it.

Louis Pasteur, a French chemist, helped save animals as well as humans when he developed a vaccine for rabies [using animal experimentation]. Today, animal-lovers everywhere do not have to put their pets “to sleep” if they [catch] rabies. Instead they can just go to their veterinarian and get this preventive vaccine.

“Nobody I know of in biological research, who has to sacrifice animals, likes it,” says Richard Jones, a biology professor at Colorado University. “It is a matter of priorities. You work for the greater good.” [Millions of] animals are used [in experiments], of which 90% are rodents. So it’s not as if scientists experiment on endangered species; they use animals with a fast reproduction rate that are abundant.

Humans have vast intelligence, and through this intelligence, they have a moral duty: to protect all living things and make sure they survive and flourish. Animal experimentation helps humans help themselves, as well as the animals around them.

Essay

Animal Testing: Here Is the Truth

by Emma H., New York, NY
adapted from TeenInk.com

Almost every major company that sells detergents, body washes, or cosmetics tests their products on animals to assure the public that there will be no side effects when using their product. Even though animal testing is advantageous to humans, I believe humankind should not test products on animals. [It] is cruel and unnecessary.

Every year thousands of animals are killed, tortured, or left with burns, broken bones, and other terrible conditions. According to the National Anti-Vivisection Society, these are some of the most common yet horrifying tests used on animals: in the D test, solutions are dropped directly into the eyes of rabbits and in seven days of testing, the rabbits experience excruciating pain and most are blinded. Then there is the LD-50 test [which forces animals to inhale, swallow, and digest chemicals]. In this test, 50% of the animals die.

What will scientists test products on if not animals? With modern technology, many alternatives have been found by caring scientists [including computer tests and tests on cloned human cells]. These are only a few of the alternatives, but they show that animals are not the only choice for experimentation.

The Food and Drug Administration [urges] companies to conduct tests to ensure the safety of their products. As a result, animals continue to be the victims of harsh treatment and risk death. There are many alternatives to know if a product is safe. Animal testing is immoral and wrong.

Week 2

OVERVIEW

Essay

“School Uniforms”

adapted from an essay by Akinyi R. on TeenInk.com
(see page 593)

School uniforms eliminate distractions in school, create a less judgmental environment, and save time and money.

TEACHER AS WRITER

“I’m still doing business at the same old stand—love, work, war, death, what the world is like outside this window tonight.”

— Alan Dugan

Look at the list of topics you feel compelled to address that you wrote in Week 1. Select one item on the list and write a paragraph that expresses your opinion about why this topic is important and what you think should be done about it. Do the same for several other items on the list that you feel strongly about.

Writing Focus

- Students hear and discuss persuasive essays.
- Students each choose a topic and write a persuasive essay about it.
- Students state opinions and use reasons to support them.
- Students explore transitional words and phrases.
- Students explore strong openings and conclusions for persuasive essays.

Social Development Focus

- Students listen to the thinking of others and share their own.
- Students respectfully consider the opinions of others.
- Students express interest in and appreciation for one another’s writing.
- Students act in fair and caring ways.

DO AHEAD

- ✓ Prior to Day 1, make a class set of the “Conference Notes” record sheet (CN1) on page 135 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, decide if you will allow small groups of students to visit the library, media center, computer lab, or another location in the school to research their topics during Writing Time. Arrange for this ahead of time with the librarian or other adults in the school.
- ✓ Prior to Day 4, prepare a sheet of chart paper titled “Transitional Words and Phrases for Persuasive Essays.” Under the title, list the following: *moreover, in conclusion, finally, to illustrate, however, specifically, similarly, in the same way, on the other hand, in contrast, consequently, in other words, on the contrary.*

Day 1

Exploring Opinion Writing

Materials

- “School Uniforms” (see page 593)
- *Student Writing Handbook* page 32
- “Things We Notice About Persuasive Essays” chart from Week 1 and a marker
- “Possible Opinions for Persuasive Essays” chart from Week 1
- Class set of “Conference Notes” record sheets (CN1)

Teacher Note

The Getting Ready to Write routine established early in the year helps the students quickly settle into the lesson. For more information, view “Predictable Structure of the Writing Lessons” (AV3).

Teacher Note

For more information about opinion writing, view “Exploring Opinion Writing” (AV52).

In this lesson, the students:

- Hear, discuss, and write a persuasive essay
- Think about the author’s audience and purpose
- Choose an opinion and audience for a persuasive essay
- Respectfully consider the opinions of others
- Agree and disagree in a caring way

GETTING READY TO WRITE

1 Briefly Review Persuasive Essays

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Remind the students that last week they began exploring persuasive essays. They read four persuasive essays—two about TV viewing and two about animal experimentation. Ask:

Q *What did you learn last week about persuasive essays?*

Briefly review the “Things We Notice About Persuasive Essays” chart and add any new ideas to the chart. Remind the students that they brainstormed opinions that they might want to write a persuasive essay about. Review the items on the “Possible Opinions for Persuasive Essays” chart.

2 Discuss Expressing Personal Opinions

Explain that the authors of last week’s essays expressed their opinions, even though they probably knew some people would disagree with them. Ask and briefly discuss:

Q *If you really believe something, why is it important to express that opinion, even though others might not agree with you?*

Students might say:

“It’s important to express your opinion because people need to think for themselves.”

“I agree with [Akeisha]. Plus, we live in a free country, and people are allowed to express their opinions.”

“In addition to what [Jason] said, we can learn from each other if we all express our opinions.”

Tell the students that they will read and discuss another persuasive essay today, and then they will begin writing persuasive essays about opinions that are important to them. Tell them that it is important for all the students in the class to feel safe and comfortable expressing their opinions, both in speaking and in writing. Ask:

Q *What can you do when listening to other people's opinions to make it safe and comfortable for everyone?*

Students might say:

"When I'm listening to someone else, I can try to see things from that person's point of view."

"I can try to listen really carefully and be nice, even if I don't agree."

"If I disagree with someone, I can use our prompt 'I disagree with her because . . .'"

"In addition to what [Ron] said, maybe I'll change my mind when I hear someone else's opinion."

Encourage the students to keep these ideas in mind as they listen to others' opinions. Tell them that you will check in with them later to see how they did.

3 Read "School Uniforms" Aloud

Have the students open to page 32 of their handbooks, and invite them to follow along as you read the essay "School Uniforms" (on page 593). Read the essay aloud slowly and clearly, clarifying vocabulary as you read.

Suggested Vocabulary

eliminate: take away

parochial school: private school connected with a church

economic advantages or disadvantages: wealth or lack of wealth (poverty)

aptitude: ability to learn

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

appropriate: the right thing to wear

were no longer obvious: could not be seen anymore

impress anyone: make anyone think highly of me

Facilitation Tip

Continue to focus on **responding neutrally with interest** during class discussions by refraining from overtly praising or criticizing the students' responses. Instead build the students' intrinsic motivation by responding with genuine curiosity and interest; for example:

- "Interesting—say more about that."
- "What you said makes me curious. I wonder . . ."
- "You have a point of view that's [similar to/different from] what [Jenna] just said. How is it [similar/different]?"

ELPS 3.G.i
ELPS 3.G.ii
Step 5

4 Discuss the Author's Audience and Purpose

Ask:

- Q *What is the author trying to convince us about in this essay? Turn to your partner.*
- Q *Who is the audience, or who do you think the author is trying to convince? Turn to your partner.*
- Q *What reasons does the author give to support the opinion that students should wear uniforms in public schools? Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

"I think the sentence 'I believe students in public school should be required to wear them' tells us pretty clearly what this author's opinion is."

"I think the author is trying to convince kids in school and the people who make decisions about school rules."

"One reason Akinyi gives to support her opinion is that uniforms take away the distractions of clothes so kids can focus on studying."

"In addition to what [Levon] said, it sounds like wearing uniforms saves time and money."

As a class, discuss:

- Q *Do you agree or disagree with the opinion in this essay? Why?*

5 Select an Opinion and Audience for a Persuasive Essay

Direct the students' attention to the "Possible Opinions for Persuasive Essays" chart and review the items on it. Add the sentences *Uniforms should be required in public school* and *Uniforms should not be required in public school* to the chart. Ask:

- Q *What other opinions for persuasive essays could we add to the chart?*

Add any suggestions to the chart. Explain that today the students will each choose one opinion that they have not yet written about and begin writing a draft of a persuasive essay in their notebooks. This week they will work on writing and developing their essays, including revising their opening sentences. Next week they will revise their essays further and proofread them. Then they will publish their essays for the class to read.

Use "Think, Pair, Share" to discuss:

- Q *What opinion do you feel strongly enough about to publish a persuasive essay about it? [pause] Turn to your partner.*
- Q *In addition to your classmates, who will you be trying to convince, or who will be the audience for your essay? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class. As they report, emphasize that they should keep their audience in mind as they write today.

You might say:

"[Emma] says she wants to convince her mother that she should be allowed to play video games as much as she likes as long as she finishes her homework. While she's writing her essay, she's going to remember who she's trying to convince."

WRITING TIME

6 Write Independently

Have the students get their notebooks and pencils, sit at desks with partners together, and work on their persuasive essays for 20–30 minutes. Remind them to write their drafts double-spaced in their notebooks. Join them in writing for a few minutes; then begin conferring with individual students.

TEACHER CONFERENCE NOTE

Over the next two weeks, confer with individual students about the piece each is developing for publication. Have each student tell you about his piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Does the student state his opinion clearly in the opening paragraph?
- Does the student give several different reasons that support his opinion?

Help the student extend his thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 135 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

Teacher Note

To see an example of a teacher conferring with individual students, view "Conferring About Opinion Writing" (AV51).

SHARING AND REFLECTING

7 Briefly Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. Alert the students to be ready to share their partners' ideas with the class. After a moment, signal for their attention and ask questions such as:

Q *What opinion did your partner write about today? Who is your partner trying to convince in his or her essay?*

Q *Do you and your partner agree or disagree with each other's opinions? Turn to your partner.*

Q *What did your partner say to let you know that he or she respects your opinion?*

Explain that the students will continue to develop their persuasive essays tomorrow.

Day 2

Drafting Persuasive Essays

Materials

- “School Uniforms” chart (WA5)
- “WARNING: Too Much TV Is Hazardous to Your Health” chart (WA6)
- “Television: The Most Disparaged Resource of the Information Age” chart (WA7)
- “Things We Notice About Persuasive Essays” chart from Day 1 and a marker
- *Student Writing Handbook* pages 27–29 and 32
- “Writing Time” chart (WA8)

In this lesson, the students:

- Explore, discuss, and write strong openings and clear statements of opinion in persuasive essays
- Draft persuasive essays
- Express interest in and appreciation for one another's writing

GETTING READY TO WRITE

1 Discuss Interesting Opening Paragraphs

Have the students get their *Student Writing Handbooks*, notebooks, and pencils and sit at desks with partners together. Briefly review that yesterday they each chose an opinion they feel strongly about and began writing a persuasive essay. Explain that over the next four days they will develop their essays and that you will help them focus on and strengthen different parts of the essays to make them as persuasive as possible.

Direct the students' attention to the “Things We Notice About Persuasive Essays” chart, and review that good persuasive essays have a clear statement of opinion early in the piece. Tell the students that good persuasive essays also have an interesting opening that captures the reader's attention. In the blank space that you left in the “Things We Notice About Persuasive Essays” chart, write *Author captures the reader's attention with an interesting opening paragraph*. Tell the students that

today they will look at the opening paragraphs of several essays to see what the authors did to capture the reader's attention and to make their opinions clear.

2 Analyze Opening Paragraphs

Display the “School Uniforms” chart (WA5) and have the students look at the essay on page 32 of their handbooks. Read the first paragraph aloud as they follow along, and then ask:

Q *What sentence in the opening paragraph of this essay tells us exactly what the author's opinion is?*

Underline the sentence “Yes, and I believe students in public school should be required to wear them,” and ask the students to do the same in their handbooks. Point out that this author opens the essay with a question and then states her opinion by answering the question. Ask:

Q *Why might starting an essay with a question be a good way to capture the reader's attention?*

Students might say:

“When we read a question, we might get curious about the answer.”

“It's more interesting than just starting with ‘I believe students in public school should be required to wear uniforms.’”

Q *If you wanted to start your essay with a question and then state your opinion in the answer, what might you write? Turn to your partner.*

Have a few volunteers share what their opening questions and answers might be.

Students might say:

“My essay could start with ‘What is our after-school program missing? A hip-hop class!’”

“I could write, ‘Should the driving age be lowered? Yes, I think it should be lowered to 12 years old.’”

“My opening sentences could be ‘What's the worst thing that could happen to you at recess? The worst thing would be to have no one help you stand up to a bully.’”

Display the “WARNING: Too Much TV Is Hazardous to Your Health” chart (WA6) and have the students look at page 27 of their handbooks. As you did with “School Uniforms,” read the first paragraph aloud as the students follow along. Then ask:

Q *What sentence in the opening paragraph of this essay tells us exactly what the author's opinion is?*

Q *How does the author capture the reader's attention?*

Underline the sentence “As an abundance of evidence makes clear, our television habit has serious negative consequences.”

TEKS 12. C.ii
Student/Teacher Narrative
Step 2

Display the “Television: The Most Disparaged Resource of the Information Age” chart (C WA7) and follow the same procedure, reading the first paragraph of the essay aloud as the students follow along on page 29 of their handbooks.

Underline the sentence “Well, I strongly disagree with the viewpoint that television is a waste of time,” pointing out the phrase *I strongly disagree*.

Point out that, in both “WARNING: Too Much TV Is Hazardous to Your Health” and “Television: The Most Disparaged Resource of the Information Age,” the authors write opening paragraphs that have clear statements of opinion and strong, specific language that captures the reader’s attention.

3 Analyze Opening Paragraphs of the Students’ Essays

Have the students reread the drafts of their essays quietly to themselves. After a moment, ask them to think—again quietly to themselves—about the questions that follow. Pause after each question to give the students time to think. Ask:

Q *Do you have an opening sentence or question that will get your audience interested in reading your essay? [pause] If so, how will it interest them? If not, what might you write?*

Q *Do you state your opinion clearly somewhere in the first paragraph? [pause] If not, where might you state it, and what could you write?*

Have partners discuss what they thought about. After a few moments, signal for their attention and have a few volunteers share their thinking with the class.

WRITING TIME

4 Write Independently

Display the “Writing Time” chart (C WA8) and have the students write silently for 20–30 minutes. If necessary, remind them to double-space their drafts.

Writing Time

- Work on your persuasive essay.
- Revise your opening sentences to get your reader interested.
- Make sure to state your opinion clearly in the first paragraph.
- Make sure to give reasons that support your opinion.

WA8

Join the students in writing for a few minutes; then confer with individual students.

TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state her opinion clearly in the opening paragraph?
- Does the student give several different reasons that support her opinion?

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 135 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Share Opening Sentences and Reflect

Explain that each student will read his opening sentence aloud. Ask the students to listen carefully to one another’s sentences and to think about which sentences make them curious.

Go around the room and have the students each read their opening sentences aloud, without comment. When all have read, ask and briefly discuss:

- Q *What sentences did you hear that made you curious?*

Explain that the students will continue to develop their persuasive essays tomorrow.

Teacher Note

To see an example of this technique, view “Sharing Opening Sentences and Reflecting” (AV53).

Day 3

Drafting Persuasive Essays

Materials

- “WARNING: Too Much TV Is Hazardous to Your Health” from Week 1 (see page 566)
- “School Uniforms” from Day 1 (see page 593)
- “Things We Notice About Persuasive Essays” chart from Day 2 and a marker
- *Student Writing Handbook* pages 27 and 32
- “Writing Time” chart (WA9)

TEKS 10.B.i

TEKS 11.C.ix

Student/Teacher Narrative
Step 1

In this lesson, the students:

- Explore how authors use supporting paragraphs in persuasive essays
- Draft persuasive essays
- Express interest in and appreciation for one another’s writing
- Respectfully consider the opinions of others
- Agree and disagree in a caring way

GETTING READY TO WRITE

1 Analyze Supporting Paragraphs of Essays

Have the students get their *Student Writing Handbooks*, notebooks, and pencils and sit at desks with partners together. Direct the students’ attention to the “Things We Notice About Persuasive Essays” chart. Review that good persuasive essays have a clear statement of opinion and that they also give reasons that support the opinion.

Tell the students that today they will look more closely at how authors of persuasive essays write and organize the reasons that support their opinions. Then the students will think about how they can make the supporting reasons in their own essays more persuasive.

Have the students turn to page 27 of their handbooks, where “WARNING: Too Much TV Is Hazardous to Your Health” appears. Remind them that yesterday they reread the first paragraph to see how the author captures the reader’s attention and states a clear opinion. Explain that today you will reread the body (middle paragraphs) of the essay. Ask the students to follow along as they think about how the author has organized this essay.

Read the first paragraph of “WARNING: Too Much TV Is Hazardous to Your Health” (on page 566) aloud; then read the four paragraph headings. Point out that after stating the opinion in the first paragraph, the author lists the four main supporting reasons that will be discussed in more detail in the four paragraphs of the essay (namely, TV undermines family time, harms reading and school performance, encourages violence, and promotes sedentary lifestyles and obesity). Then ask:

Q *Why might an author want to organize his or her essay in this way?*

Students might say:

“It helps you keep track of the reasons if the author lists them up front.”

“If you don’t have time to read the whole essay you can still find out the main reasons in the first paragraph.”

Read the next two paragraphs aloud as the students follow along. Point out that each of the paragraphs gives more information about its heading, including facts and details from other resources (such as quotes from scientists and results of research studies). Ask:

Q *Why might an author want to add more facts and details about a supporting reason?*

Students might say:

"Adding facts and details can help convince readers."

"In addition to what [Juanita] said, facts and details also make the essay more interesting to read."

Follow the same procedure with "School Uniforms" (on page 593). Read the first four paragraphs aloud as the students follow along on page 32 of their handbooks. Point out that this essay is organized in a way similar to the previous one: after clearly stating her opinion in the first paragraph, the author gives a reason that supports her opinion in each of the three following paragraphs and adds facts and details about each reason.

Direct the students' attention to the "Things We Notice About Persuasive Essays" chart and add *Author puts each supporting reason in its own paragraph* and *Author writes facts and details about each supporting reason*.

2 Analyze the Supporting Paragraphs of the Students' Essays

Have the students reread the drafts of their essays quietly to themselves. After a moment, ask them to quietly think about the following questions as you ask them, one at a time. Pause after each question to give the students time to think.

Q *What are the reasons that support your opinion?*

Q *Do you list any of your supporting reasons in your first paragraph? If you wanted to use this technique, what could you write?*

Q *What facts and details can you add to your essay to tell more about your supporting reasons?*

Have partners discuss what they thought about. After a few moments, signal for their attention and have a few volunteers share their thinking with the class.

Technology Tip

See the technology extension “Use the Internet to Research Topics” on page 584 for ideas on how to support the students in researching online.

3 Prepare to Write and Discuss Resources

Explain that during Writing Time today the students will continue to work on their persuasive essays, giving reasons to support their opinions. Encourage them to refer back to the two essays they looked at today to help them organize their own essays.

Point out that some students may want to do research to find facts and details about their reasons. Invite them to look for more information on the Internet or in the class or school library. Ask:

Q *Where might you look for information about the reasons you’ve chosen to research?*

If you decide to have small groups of students visit the library, media center, or other locations in the school to look for more information, discuss how the students will take responsibility for themselves outside the classroom. Ask:

Q *What will you do to act in a considerate and responsible way [at the library]? Why is that important?*

WRITING TIME

4 Write Independently

Display the “Writing Time” chart (WA9) and have the students write silently for 20–30 minutes.

WA9

Writing Time

- Work on your persuasive essay.
- Include reasons that support your opinion.
- Think about what you can add to give more information about your reasons.

Remind the students to look at “WARNING: Too Much TV Is Hazardous to Your Health” and “School Uniforms,” if they wish, to help them organize their own essays. Join the class in writing for a few minutes; then confer with individual students.

TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about his piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state his opinion clearly in the opening paragraph?
- Does the student give several different reasons that support his opinion?
- Are the reasons supported by facts and details?

Help the student extend his thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*
- Q *What other facts and details can you write about your reasons?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 135 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Share Opinion Statements and Reflect

Explain that each student will read one sentence from her essay that she feels is especially persuasive. Ask the students to listen carefully to their classmates’ sentences and to think about whether they agree or disagree with the opinions or reasons. Give the students a few minutes to select a sentence.

Teacher Note

For more information about the importance of sharing and reflecting, view “Social Reflection” (AV14).

ELPS 3.G.i
ELPS 3.G.ii
Step 5

Facilitation Tip

Continue to focus on **responding neutrally with interest** during class discussions by refraining from overtly praising or criticizing the students' responses.

Go around the room and have the students each read their sentences aloud, without comment. When all the students have read their sentences, ask and briefly discuss:

- Q *What sentences did you hear that made you curious?*
- Q *What sentences did you hear that you agree with? Why? That you disagree with? Why?*
- Q *How are we doing with respectfully listening to one another and talking about our opinions? What can we do better?*

Explain that the students will continue drafting their persuasive essays tomorrow.

TECHNOLOGY EXTENSION

Use the Internet to Research Topics

You might choose to have the students research their topics online. If they need support for doing so, you might teach Technology Mini-lesson 4, “Choosing Effective Search Terms,” located in Appendix A. (If only some students need support, you might teach Mini-lesson 4 to just those students.) You might customize Technology Mini-lesson 4 for this unit by using the essay “WARNING: Too Much TV Is Hazardous to Your Health” as an example. Model searching online to find more facts and details to strengthen the essay’s supporting paragraphs. You might begin by considering one of the essay’s supporting ideas, such as “TV Undermines Family Time,” “TV Harms Reading and Academic Performance,” or “TV Encourages Violence,” and then model creating effective search terms. In this case, the essay subheadings themselves make effective search terms.

You might also teach the following Technology Mini-lessons in Appendix A: Mini-lesson 5, “Understanding Search Results”; Mini-lesson 6, “Using Filters to Narrow Results”; Mini-lesson 7, “Evaluating Research Sources”; and Mini-lesson 8, “Citing Online Sources.” For more information about teaching Technology Mini-lessons 4–8, see “About Teaching the Online Research Lessons” on page 712.

In this lesson, the students:

- Explore how authors use transitional words and phrases in persuasive essays
- Draft persuasive essays
- Express interest in and appreciation for one another's writing
- Respectfully consider the opinions of others
- Agree and disagree in a caring way

GETTING READY TO WRITE

1 Explore Transitional Words and Phrases

Have the students bring their *Student Writing Handbooks*, notebooks, and pencils and gather with partners sitting together, facing you. Review that this week they are drafting persuasive essays about opinions they feel strongly about. Explain that they will continue to work on their drafts today.

Explain that one way the students might make their essays clearer and easier to follow is by adding *transitional words and phrases*. Explain that these are words and phrases that help readers understand how an opinion and the reasons that support it are linked (connected). On the “Things We Notice About Persuasive Essays” chart, add *Author uses transitional words and phrases to link opinion and reasons*.

Direct the students' attention to the “Transitional Words and Phrases for Persuasive Essays” chart. Read aloud the words and phrases listed on the chart. Ask:

Q *What other transitional words and phrases might you use in a persuasive essay to link your opinion and the supporting reasons?*

Add the students' ideas to the chart.

Materials

- “Things We Notice About Persuasive Essays” chart from Day 3 and a marker
- “Transitional Words and Phrases for Persuasive Essays” chart, prepared ahead
- “School Uniforms” chart (WA5) from Day 2
- *Student Writing Handbook* page 32
- “Writing Time” chart (WA10)

Teacher Note

If you have already taught the Personal Narrative, Fiction, and/or Expository Nonfiction genre units, remind the students that they explored transitional words and phrases in those units. Explain that the transitional words and phrases listed on the chart are especially useful in persuasive essays.

Technology Tip

For more transitional words and phrases, you might search online using the keywords “transitional words and phrases.”

Teacher Note

You might want to explain that the word *also* helps the reader understand that “create an environment in which children will be judged on personality rather than style” is another reason why public schools should require students to wear uniforms. The word *however* helps the reader understand that “economic advantages or disadvantages were no longer obvious” is a different, or contrasting, thought from “students came from diverse backgrounds.”

Teacher Note

If necessary, point out that the author uses *consequently* in the third paragraph, *moreover* and *too* in the fourth paragraph, and *in conclusion* in the fifth paragraph.

2 Analyze Transitional Words and Phrases in “School Uniforms”

Display the “School Uniforms” chart (WA5) and have the students open to *Student Writing Handbook* page 32, where the essay is reproduced. Read the first two paragraphs aloud as the students follow along. Point out that the author uses the transitional words *also* and *finally* in the first paragraph and *however* in the second paragraph. Underline the words on the chart. Explain that these transitional words help the reader understand how the reasons are connected to the opinion.

Have partners quietly read the third, fourth, and fifth paragraphs of the essay in their handbooks. Ask them to work together to underline transitional words and phrases. Remind them to refer to the “Transitional Words and Phrases for Persuasive Essays” chart, if necessary, and to think about other transitional words they may know. After a few minutes, signal for the students’ attention and ask:

Q *What is a transitional word or phrase you underlined? Read the sentence where you found it.*

3 Analyze the Students’ Own Writing for Use of Transitional Words

Have the students reread their persuasive essay drafts and look up when they are finished. Say the following prompt, and then give the students a few quiet minutes to review their writing and mark passages.

- Find a place where you use, or might use, a transitional word or phrase to connect a reason back to your opinion. Draw a small star in the margin next to that place.

Have partners turn and share their ideas with each other. After a few moments, signal for the students’ attention and have a few volunteers share their thinking with the class.

Explain that the students will continue to work on their persuasive essays today. Encourage them to use transitional words and phrases to help readers connect the opinion and supporting reasons.

WRITING TIME

4 Draft Persuasive Essays

Display the “Writing Time” chart (WA10). Have the students return to their seats and work silently for 20–30 minutes on the charted tasks.

Writing Time

- Continue writing your persuasive essay.
- Include reasons that support your opinion.
- Use transitional words and phrases to connect your opinion and supporting reasons.

Remind the students to refer to the “Transitional Words and Phrases for Persuasive Essays” chart, if they wish. Join the class in writing for a few minutes; then confer with individual students.

TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state her opinion clearly in the opening paragraph?
- Does the student give several different reasons that support her opinion?
- Are the reasons supported by facts and details?
- Does the student use transitional words and phrases?

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*
- Q *What other facts and details can you write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 135 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Drafting Persuasive Essays

Materials

- “Television: The Most Disparaged Resource of the Information Age” from Week 1 (see page 567)
- “School Uniforms” from Day 3 (see page 593)
- *Student Writing Handbook* pages 29 and 32

TEKS 11.B.iii
TEKS 11.B.viii
TEKS 11.B.xiii
Student/Teacher Narrative
Step 1

In this lesson, the students:

- Explore how authors conclude persuasive essays
- Finish drafting persuasive essays
- Express interest in and appreciation for one another’s writing

GETTING READY TO WRITE

1 Analyze Conclusions of Essays

Have the students get their *Student Writing Handbooks*, notebooks, and pencils and sit at desks with partners together. Remind them that this week they explored how authors begin persuasive essays, clearly state opinions, support their opinions with reasons, and use transitional words and phrases to connect opinions and reasons. Explain that today the students will explore how authors conclude (end) their essays, and then they will think about how they want to conclude their own essays.

Have the students open to page 29 of their handbooks, where the essay “Television: The Most Disparaged Resource of the Information Age” is reproduced (see page 567). Ask partners to review it together, focusing on the last paragraph of the essay. Encourage them to think about what the author writes in the last paragraph. After a few moments, signal for their attention and ask:

- Q *What do you notice about the last paragraph of this essay?*

Students might say:

"In the first two sentences, the author summarizes a few of his supporting reasons."

"He also states his opinion again in the last paragraph, which helps you remember what he wants you to believe."

"I agree with [Sebastian]. The author says what he believes again, but in a way that's a little bit different than the first time."

If necessary, point out that the author restates (states again) his opinion at the end of the essay. Direct the students' attention to the "Things We Notice About Persuasive Essays" chart and add *Author restates opinion at the end*.

Following the same procedure, have the students open to page 32 of their handbooks, where the essay "School Uniforms" is reproduced (see page 593). Have partners review the essay, focusing on the last paragraph. After a few moments, signal for their attention and ask:

Q *What do you notice about the last paragraph of this essay?*

Q *What words or phrases show you that the essay has reached an end?*

Students might say:

"I notice that the author summarizes her supporting reasons."

"I agree with [Lori]. The author gives her supporting reasons again, but in one sentence: 'In conclusion, when I wore a uniform, I started my day worry-free, focused on my schoolwork and felt judged by who I was on the inside.'"

"I can tell the essay is ending because the author uses the phrase 'In conclusion,' and she also states her opinion again: 'I believe children should be required to wear uniforms in public schools.'"

If necessary, point out that this author also restates her opinion at the end of the essay.

2 Review Conclusions of the Students' Essays

Have the students review the drafts of their own persuasive essays for a few moments; then use "Think, Pair, Share" to discuss:

Q *What might you write to restate your opinion at the end of your essay?*
[pause] *Turn to your partner.*

Signal for their attention and have a few volunteers share their thinking with the class.

TEKS 11.C.x

3 Prepare to Write

On the “Things We Notice About Persuasive Essays” chart, underline the following four ideas:

- Author clearly states opinion early in the essay.
- Author gives reasons that support the opinion.
- Author uses transitional words and phrases to link opinion and reasons.
- Author restates opinion at the end.

Explain that during Writing Time today the students will finish drafting their persuasive essays and get ready to revise, proofread, and publish them next week. When they believe they are finished, they should look at the underlined items on the “Things We Notice About Persuasive Essays” chart and make sure they have included these things in their essays. They should also carefully reread their essays to check that they make sense.

WRITING TIME

4 Write Independently

Display the “Writing Time” chart (WA11). Have the students work silently for 20–30 minutes on the charted tasks.

Writing Time

- Finish writing your draft.
- Check the underlined items on the “Things We Notice About Persuasive Essays” chart.
- Carefully reread your essay to make sure it makes sense.

Join the students in writing for a few minutes; then confer with individual students.

Teacher Note

If the students have used class or library resources to find additional reasons, facts, or details for their persuasive essays this week, you might review the lesson on exploring bibliographies in Unit 5, Week 6, Day 3 (page 460). If students have used online resources, you might teach Technology Mini-lesson 8, “Citing Online Sources,” in Appendix A.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Share Concluding Paragraphs and Reflect

Explain that each student will read the last paragraph of her essay aloud. Ask the students to listen carefully to one another and to think about whether they can tell what each person’s essay is about from the last paragraph.

Go around the room and have each student read her last paragraph aloud, without comment. When all have read, ask and briefly discuss:

- Q *Could you tell what most of the essays are about from the last paragraph? Why or why not?*
- Q *What's interesting about hearing just the last paragraph of other people's writing?*

Explain that the students will revise, proofread, and publish their persuasive essays next week.

Essay

School Uniforms

by Akinyi R., Westford, MA
adapted from TeenInk.com

Are school uniforms appropriate for public school students? Yes, and I believe students in public school should be required to wear them. Uniforms eliminate the distractions of designer clothes so students can focus on their studies. Uniforms also create an environment in which children will be judged on personality rather than style. Finally, uniforms save time and money.

While I was attending a parochial school, I experienced the luxury of wearing uniforms. At my school, students came from diverse backgrounds. Inside the building, however, our economic advantages or disadvantages were no longer obvious. My friends and I were able to focus on academics and concern for others rather than the latest fashions. Since we looked similar, we remained attentive to the teacher and our work. I learned that my effort, attitude and aptitude were more important than my clothes.

Wearing uniforms helped me realize I don't need to impress anyone by the clothes I wear. School uniforms helped children who did not have "stylish" clothes to be treated fairly. Consequently, I was judged by my character, not the price of my jeans. I had a chance to show my personality without worry that I was out of style. This set the tone in the school system that all individuals were to be treated as equals.

Moreover, I never had to waste time deciding what to wear before school. A clean uniform was easy to maintain. My parents saved a lot of money, too. I did not need a variety of colors, styles and designer fashions in my wardrobe. Wearing uniforms helped me learn I did not always have to buy clothes I wanted when I wanted them.

In conclusion, when I wore a uniform, I started my day worry-free, focused on my schoolwork and felt judged by who I was on the inside. My family and I saved time and money. I believe children should be required to wear uniforms in public schools.

Week 3

OVERVIEW

Writing Focus

- Students confer about their persuasive essays.
- Students revise their essays based on partner feedback.
- Students correct sentence fragments.
- Students proofread their essays for accuracy and correctness.
- Students use commas after introductory words, phrases, and clauses.
- Students publish their persuasive essays for the class and possibly for a wider audience.

Social Development Focus

- Students help one another improve their writing.
- Students express interest in and appreciation for one another's writing.
- Students listen respectfully to the thinking of others and share their own.
- Students respectfully consider the opinions of others.
- Students make decisions and solve problems respectfully.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA5, WA12–WA17

Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “Conference Notes” record sheet (CN1)
- “Individual Writing Assessment” record sheet (IA1)
- “Student Self-assessment” record sheet (SA1)

Reproducibles

- Opinion Writing genre unit family letter (BLM1)
- (Optional) “Lower My Brother’s Allowance” (BLM2)

Professional Development Media

- “Managing Pair Conferences” (AV8)
- “Using Social Networking Sites” tutorial (AV78)

DO AHEAD

- ✓ Prior to Day 1, prepare a sheet of chart paper titled “Questions to Ask Myself as I Listen” with the following questions written on it:
Is it clear what this author’s opinion is?
Are there convincing reasons that support the opinion?
Does this essay make sense? If not, where am I confused?
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA3) on page 134 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student’s published piece.
- ✓ (Optional) If computers are available, you might teach Technology Mini-lesson 9, “Creating Documents,” in Appendix A to help the students type and print the final versions of their essays. Alternatively, you might recruit parent volunteers to help them do so.

TEACHER AS WRITER

“Look at what’s happening in this world. Every day there’s something exciting or disturbing to write about. With all that’s going on, how could I stop?”

— Gwendolyn Brooks

Select one of the opinion paragraphs you wrote in Week 2 and develop it into a persuasive essay by listing several reasons that support your opinion. Devote a paragraph to each reason, providing information or a rationale to justify your opinion. When you finish, consider having a friend or colleague read it and give you feedback about whether he or she is persuaded by your essay, and why.

Day 1

Pair Conferencing and Revising

Materials

- “Questions to Ask Myself as I Listen” chart, prepared ahead
- “Class Assessment Record” sheet (CA3)

In this lesson, the students:

- Ask for and receive feedback about their writing
- Give feedback in a helpful way
- Ask one another questions about their writing
- Discuss and solve problems that arise in their work together

GETTING READY TO WRITE

1 Prepare for Pair Conferences

Have the students get their notebooks and pencils and sit at desks with partners together. Explain that today partners will meet to confer about their drafts. They will share their drafts and get feedback about anything that is confusing or unclear; then they will make any necessary revisions.

Remind the students that, in the writing community, the goal of giving feedback is to help each person create the best possible piece of writing. Review that authors pay close attention to feedback about what is unclear or confusing in their writing. Although authors might not follow every suggestion they receive, the feedback helps them improve their work until it is the best piece of writing possible. Ask and briefly discuss:

- Q *What have you learned about giving feedback respectfully?*
- Q *What problems can arise when giving feedback? How will you avoid those problems today?*

2 Prepare to Give Feedback: Does It All Make Sense?

Explain that as partners listen to one another’s writing, you would like them to ask themselves a few questions. Direct the students’ attention to the “Questions to Ask Myself as I Listen” chart (see “Do Ahead” on page 595) and read the questions aloud.

Questions to Ask Myself as I Listen

- Is it clear what this author's opinion is?
- Are there convincing reasons that support the opinion?
- Does this essay make sense? If not, where am I confused?

Encourage partners to ask themselves these questions and to listen carefully to each other. Explain that you would like the students to be ready to report the feedback they heard to the class.

3 Confer in Pairs

Give partners ample time to read one another's drafts and confer.

CLASS ASSESSMENT NOTE

Circulate among conferring pairs and observe the conferences without intervening. Ask yourself:

- Are pairs staying on task, reading and discussing their writing?
- Are they giving each other specific feedback about the charted questions?
- Are they giving feedback in a helpful and respectful way?

Make note of productive ways you see pairs interacting, as well as any problems, to bring up during Step 4.

Record your observations on the "Class Assessment Record" sheet (CA3); see page 134 of the *Assessment Resource Book*.

When most pairs have had time to discuss their drafts, signal for the class's attention.

4 Reflect on Feedback Received

Ask and briefly discuss:

- Q *What feedback did your partner give you that will help you revise your draft?*
- Q *How was your partner respectful when giving you feedback?*
- Q *I noticed that [partners were talking to each other in a kind way]. How did that affect your work together?*

Teacher Note

If necessary, signal about halfway through sharing time so partners can switch roles if they have not yet done so. For more information, view "Managing Pair Conferences" (AV8).

Explain that during Writing Time today the students will revise their drafts based on their partners' feedback.

WRITING TIME

5 Finish Revising Drafts

Have the students work on revising their drafts. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with individual students.

TEACHER CONFERENCE NOTE

As you did in Week 2, continue conferring with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state her opinion clearly in the opening paragraph?
- Does the student give several different reasons that support her opinion?
- Are the reasons supported by facts and details?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating her opinion?

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*
- Q *What other facts and details can you write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*
- Q *How can you restate your opinion at the end of your essay?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 135 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

6 Briefly Reflect on Writing

Help the students reflect on their work today by briefly discussing:

- Q *Who incorporated feedback from your partner in your revision today?
Read us the original passage and then read us the revision.*

Tell the students that they will begin proofreading their drafts tomorrow.

Proofreading

Day 2

In this lesson, the students:

- Proofread for spelling, punctuation, and grammar
- Listen for and correct sentence fragments

GETTING READY TO WRITE

1 Prepare to Proofread

Have the students get their *Student Writing Handbooks*, notebooks, and pencils and sit at desks with partners together. Explain that tomorrow the students will begin copying their first drafts into final versions. Tell the students that they will publish their persuasive essays by sharing them with the class from the Author’s Chair later in the week and by placing them in the class library.

Explain that the students will want to make their essays as clear as possible so nothing gets in the way of convincing their readers of their opinions. Today they will proofread their drafts to make sure they have corrected all errors before publishing.

2 Proofreading for Sentence Fragments

Explain to the students that they will practice listening for and correcting sentence fragments. Display the “Persuasive Essay Excerpts with Sentence Fragments” chart (C WA12) and have the students open their *Student Writing Handbooks* to page 34, where the excerpts are reproduced. Ask the students to watch and listen as you read the first passage aloud. Ask:

- Q *What did you notice about the way the passage sounded when I read it?*

Materials

- “Persuasive Essay Excerpts with Sentence Fragments” chart (WA12)
- *Student Writing Handbook* page 34
- “Writing Time” chart (WA13)

Students might say:

"It doesn't sound right."

"In addition to what [Kimo] said, some of the sentences sound funny. They stop before they should."

"I noticed a sentence that sounded like it might need more words added. It was confusing."

Q *What sentence fragments do you notice in the passage?*

If necessary, point out that the passage does not sound right when it is read aloud because it contains several *sentence fragments*, or incomplete sentences. Model rereading the passage while thinking aloud about how to correct the fragments. As necessary, point out how you capitalize the first word in each new sentence and add a period at the end. Invite the students to help you.

You might say:

"One idea I heard is that the first sentence is okay but the second is a fragment. I agree. I can hear it when I read 'As an abundance of evidence makes clear.' That sounds like it should be part of a longer sentence. The next sentence is 'Our television habit has serious negative consequences.' I can join that sentence with the fragment before. Now my sentence is: *As an abundance of evidence makes clear, our television habit has serious negative consequences.* We think the next sentence sounds okay, but the last parts of the paragraph sound like fragments, too. If we join those fragments with the sentence that comes before them, we end up with a complete sentence. Listen, now it's: *Excessive TV-watching cuts into family time, harms our kids' ability to read and perform well in school, encourages violence, and promotes sedentary lifestyles and obesity.*"

Have partners work together to read the second passage of "Persuasive Essay Excerpts with Sentence Fragments" (WA12) and correct any fragments. After a few minutes, signal for the students' attention and invite volunteers to tell the class how they corrected the passage.

Explain that you would like the students to read their own drafts aloud today to listen for and correct any sentence fragments. Remind the students to make sure they have used capital letters, periods, and other punctuation as appropriate.

3 **Review Proofreading with Word Bank and Proofreading Notes**

Remind the students that in addition to correcting any sentence fragments, they should use their word banks and proofreading notes in their handbooks to help them proofread their drafts for spelling errors and correctness before publishing. (See Unit 2, Week 2, Day 2 on page 98 for the introduction of the word bank and Unit 2, Week 2, Day 3 on

Skill Practice Note

For more practice producing complete sentences and correcting fragments, see Lesson 1 and Lesson 5 in the *Skill Practice Teaching Guide*.

page 103 for the introduction of the proofreading notes.) Briefly review these procedures by reminding the students to:

- Circle words in their drafts that they are unsure how to spell, and look them up in their word banks. If necessary, they will add words to their word banks after looking up the correct spellings in a dictionary or other resource.
- Use their proofreading notes as a list of things to check in their drafts before publishing. They will correct any errors by crossing them out and writing the corrections above them.

WRITING TIME

4 Proofread Drafts

Display the “Writing Time” chart (📄 WA13) and have the students work on the charted tasks for 20–30 minutes. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with individual students.

Writing Time

- Check for sentence fragments.
- Proofread your draft for spelling, grammar, and punctuation.
- If you finish, work on any other piece of writing.

WA13

TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about his piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state his opinion clearly in the opening paragraph?
- Does the student give several different reasons that support his opinion?
- Are the reasons supported by facts and details?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating his opinion?
- Has the student corrected any sentence fragments?

(continues)

TEACHER CONFERENCE NOTE *(continued)*

Help the student extend his thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*
- Q *What other facts and details can you write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*
- Q *How can you restate your opinion at the end of your essay?*
- Q *Have you read your essay aloud to listen for any sentence fragments?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 135 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Reflect on Proofreading

Ask and briefly discuss:

- Q *Who corrected a sentence fragment in your essay today? Read us the corrected sentence.*
- Q *What words did you find in your word bank today? How did you check on words that were not in the word bank?*
- Q *What corrections did you make in your draft after reviewing your proofreading notes?*

Explain that the students will begin working on their final versions tomorrow.

In this lesson, the students:

- Explore using commas after introductory elements
- Work on their final versions for publication

GETTING READY TO WRITE**1** Briefly Review

Have the students stay at their desks. Remind them that yesterday they read their essays aloud to listen for sentence fragments; they also proofread their essays for spelling, punctuation, and grammar errors. Tell them that today they will begin copying their first drafts into final versions. Before this step, they will think about another way to make their essays as easy to read and as persuasive as possible.

2 Discuss Using Commas After Introductory Elements

Display the “School Uniforms” chart (C WA5) and briefly review the essay. Point out that some of the sentences in “School Uniforms” begin with an introductory word, phrase, or clause followed by a comma. Explain that introductory words and phrases are often transition words, such as *moreover* and *in conclusion*. Ask:

- Q *Where do you see the author using an introductory word, phrase, or clause followed by a comma?*

Students might say:

“The author begins the last sentence of the first paragraph with the word *finally*, and she follows *finally* with a comma.”

“She begins the first sentence of the second paragraph with *While I was attending a parochial school*. That phrase introduces the sentence.”

“In the fourth paragraph, she begins the first sentence with the introductory word *moreover* and follows the word with a comma.”

If necessary, explain that using a comma after introductory words, phrases, and clauses makes sentences easier for readers to understand. Point out that the comma separates the introductory word, phrase, or clause from the main idea of the sentence.

Materials

- “School Uniforms” chart (WA5) from Week 2
- “Persuasive Paragraph Without Commas Following Introductory Elements” chart (WA14)
- *Student Writing Handbook* page 35
- “Writing Time” chart (WA15)
- Supply of loose, lined paper for final versions
- (Optional) Computers for typing and printing final versions

Skill Practice Note

For more practice with using commas after introductory elements, see Lesson 26 in the *Skill Practice Teaching Guide*.

3 Practice Using Commas After Introductory Elements

Display the “Persuasive Paragraph Without Commas Following Introductory Elements” chart (📄 WA14) and have the students open their handbooks to page 35. Explain that you will work together with the class to add commas after introductory words, phrases, and clauses. Ask the students to watch and listen as you read the draft aloud and think about where you might add commas. Model reading the draft while thinking aloud to identify introductory words, phrases, and clauses and to add commas after them. Invite the students to help you.

You might say:

“I see an introductory phrase at the start of the first sentence, ‘On my wooden kitchen table.’ I’ll place a comma after it. I heard someone say that the second sentence begins with an introductory phrase, too: ‘Every single Monday morning.’ I’ll put a comma after that phrase, too. Let’s add a comma after the third sentence’s introductory phrase: ‘From my mother’s purse.’ The sixth and seventh sentences begin with introductory phrases as well: ‘On the one hand’ and ‘On the other hand,’ so I’ll add commas after those phrases. We see that there’s an introductory word at the start of the next sentence: ‘Honestly.’ And there’s another one beginning the last sentence: ‘Therefore.’ I’ll place commas after both of them.”

Explain that today you would like the students to reread their own drafts to see if they use introductory words, phrases, and clauses and, if so, to make sure they place commas after them. Remind them to continue proofreading their drafts for spelling and other errors, if necessary. If they finish, they may begin copying their drafts neatly onto lined paper (or typing them on the computer) for their final versions.

WRITING TIME

4 Proofread Drafts and Write Final Versions

Display the “Writing Time” chart (📄 WA15) and have the students work on the charted tasks for 20–30 minutes. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with individual students.

Writing Time

- Check that your essay is organized into paragraphs.
- Check that you placed commas after introductory words, phrases, and clauses.
- If you finish, begin copying your final version on loose, lined paper.

WA15

TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state her opinion clearly in the opening paragraph?
- Does the student give several different reasons that support her opinion?
- Are the reasons supported by facts and details?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating her opinion?
- Has the student corrected any sentence fragments?
- Has the student placed commas after introductory words, phrases, and clauses?

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*
- Q *What other facts and details can you write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*
- Q *How can you restate your opinion at the end of your essay?*
- Q *Have you read your essay aloud to listen for any sentence fragments?*
- Q *Have you placed commas after introductory words, phrases, and clauses?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 135 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

Materials

- “Things We Notice About Persuasive Essays” chart from Week 2
- “School Uniforms” chart (WA5) from Week 2
- *Student Writing Handbook*
- Copy of “Lower My Brother’s Allowance” (BLM2) for each student

Teacher Note

Prior to doing this activity, visit the CCC Learning Hub (ccclearninghub.org) to access and print “Lower My Brother’s Allowance” (BLM2). Make enough copies for each student to have one; set aside a copy for yourself.

SHARING AND REFLECTING

5 Reflect on Proofreading

Ask and briefly discuss:

- Q *Who added a comma after an introductory word, phrase, or clause today? Tell us about it.*
- Q *What other changes did you make to your essay? How do these changes make your essay clearer or more persuasive?*

Explain that the students will finish working on their final versions tomorrow.

WRITING ABOUT READING

Write an Opinion Paragraph About a Persuasive Essay

Remind the students that they have heard and read a number of persuasive essays over the past few weeks. Ask and briefly discuss:

- Q *What does a good persuasive essay include?*

If necessary, refer the students to the “Things We Notice About Persuasive Essays” chart. The students may also page through their handbooks (starting on page 27) to review the various persuasive essays they have read.

Explain that you will reread one essay that the students read earlier. Display the “School Uniforms” chart (WA5). Ask the students to think as they listen about whether this essay includes the various features of a well-written persuasive essay. Read the essay aloud, stopping periodically during the reading and having the students discuss the items they notice.

Explain that one way of forming an opinion about a persuasive essay is to consider whether you find it personally persuasive; a second way to form an opinion is to consider whether the essay contains the characteristics or features that well-written persuasive essays usually include. Ask the students to watch as you think aloud and model writing an opinion paragraph about the essay “School Uniforms.”

You might say:

"After I read the persuasive essay 'School Uniforms,' I found myself agreeing with the author's opinion. I also noticed that the essay had many of the features of a well-written persuasive essay. I'll start by writing: *I think that 'School Uniforms' is a great example of a persuasive essay. After reading it, I completely agreed with the author that public schools should require students to wear uniforms.* Notice that I stated my opinion and put the title of the essay in the opening sentences. Now I need to explain why I think this essay is well written, using details from the text. I'll write: *I think this essay is well written because the author states her opinion clearly at the beginning. Also, she gives many persuasive reasons why students should wear uniforms. For example, she points out that when she had to wear a uniform in school, she didn't have to worry about other kids judging her clothes. She also mentions the fact that the uniform rule saved her family a lot of money. I thought that was very persuasive.* What else do I notice about the essay? I'll write: *In addition, the author says that wearing uniforms helps students focus on their schoolwork. I would have liked to hear more details about why she thinks uniforms help students concentrate.* Now I need some closing sentences. I'll write: *Even though I would have liked to hear more about some of the author's reasons, I found most of 'School Uniforms' very persuasive."*

Tell the students that people may differ about how well written and persuasive they think a particular essay is, and that is fine. The important thing is that they explain their thinking by using details from the essay and information from the "Things We Notice About Persuasive Essays" chart.

Distribute a copy of "Lower My Brother's Allowance" (BLM2) to each student. Have them read the essay quietly.

When the students have finished reading "Lower My Brother's Allowance," explain that they should each start their opinion paragraph with an opening sentence or two that states their opinion and includes the title of the essay, give a reason for their opinion and a fact or detail from the essay to support their reason, and provide a closing sentence that restates their opinion and wraps up their paragraph. Have the students write about their opinions. If time permits, invite the students to share their opinion paragraphs with the class.

Day 4

Writing Final Versions and Publishing

Materials

- “Writing Time” chart (WA16)
- Supply of loose, lined paper for final versions
- Chair to use for Author’s Chair sharing
- (Optional) Computers for typing and printing final versions

TEKS 11.E.i
Student/Teacher Narrative
Step 2 and Teacher Conference Note

In this lesson, the students:

- Finish writing their final versions
- Present their essays from the Author’s Chair
- Express interest in and appreciation for one another’s writing
- Ask one another questions about their writing
- Respectfully consider the opinions of others

GETTING READY TO WRITE

1 Briefly Review

Have the students stay in their seats. Explain that they will finish working on the final versions of their persuasive essays. Students who complete their essays today will begin sharing their pieces from the Author’s Chair after Writing Time.

WRITING TIME

2 Finish Final Versions of Persuasive Essays

Display the “Writing Time” chart (WA16) and read it aloud. Have the students think quietly to themselves for a moment about the following question:

Q *What do you need to work on today to be ready to share your persuasive essay from the Author’s Chair?*

After a moment, have the students begin working on the charted tasks for 20–30 minutes.

Writing Time

- Finish proofreading your draft using your word bank and proofreading notes.
- Finish writing the final version of your persuasive essay.
- Reread it to make sure it is free of errors.
- If you finish, work on any other piece of writing.

WA16

When the students seem to be working independently, confer with individual students.

TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about his piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state his opinion clearly in the opening paragraph?
- Does the student give several different reasons that support his opinion?
- Are the reasons supported by facts and details?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating his opinion?
- Has the student corrected any sentence fragments?
- Has the student placed commas after introductory words, phrases, and clauses?

Help the student extend his thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*
- Q *What reason will you write about first? Second? Third?*
- Q *What other facts and details can you write about your reasons?*
- Q *Where can you use a transitional word or phrase to help readers connect your opinion and supporting reasons?*
- Q *How can you restate your opinion at the end of your essay?*
- Q *Have you read your essay aloud to listen for any sentence fragments?*
- Q *Have you placed commas after introductory words, phrases, and clauses?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 135 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

3 Review Sharing Writing from the Author’s Chair

Gather the class with partners sitting together, facing the Author’s Chair. Explain that each student will read her opinion essay to the class from the Author’s Chair. If necessary, remind them of the procedure you established for presenting from the Author’s Chair (see Unit 2, Week 2, “Do Ahead” on page 95).

Before asking a student to share from the Author’s Chair today, discuss how the students will act, both as presenting authors and as members of the audience. Ask and discuss:

- Q *How will you let the author know that you’re interested in his or her piece? Why is it important to express interest in one another’s writing?*
- Q *How will you show that you respect the author’s opinion, even if you disagree, and that you are carefully considering what he or she wrote?*

Remind the students that the purpose of the persuasive essay is to convince the reader of a particular opinion. Encourage them to think as they listen about whether they agree or disagree with the author’s opinion and whether the essay is convincing them to change their minds.

4 Conduct Author’s Chair Sharing

Ask a student who has finished the final version of his persuasive essay to read it aloud from the Author’s Chair. At the end of the sharing, facilitate a discussion using questions like those that follow, and give the author an opportunity to respond to the class’s comments and questions:

- Q *What did you learn about [basketball] from hearing [Nick’s] essay?*
- Q *Do you agree or disagree with his opinion? Why?*
- Q *Were you persuaded to change your mind after hearing [Nick’s] essay?*
- Q *What questions can we ask [Nick] about what he wrote?*

Follow this procedure to have other students share from the Author’s Chair.

5 Reflect on Author’s Chair Sharing

Ask and briefly discuss:

- Q *What did we do well as an audience today? What might we want to work on the next time authors share their work?*
- Q *If you shared an essay today, did you feel that people were being respectful of your opinions and were considering them carefully? Why or why not?*

Explain that all of the students will get a chance to share their essays from the Author’s Chair in the coming days.

TECHNOLOGY EXTENSION

Have the Students Record Their Persuasive Essays

If you have access to recording equipment, consider having the students create audio or video recordings of their persuasive essays. Make the recorded narratives available in the classroom, school library, or online for others to enjoy.

Writing Final Versions and Publishing

Day 5

In this lesson, the students:

- Finish writing their final versions
- Present their essays from the Author's Chair
- Express interest in and appreciation for one another's writing
- Ask one another questions about their writing
- Respectfully consider the opinions of others

GETTING READY TO WRITE

1 Reflect on Persuasive Essays

Have the students stay in their seats. Review that over the past three weeks they learned about persuasive essays and took their own persuasive essays through the writing process, from first drafts to publication. Ask the following question, referring the students if necessary to the “Things We Notice About Persuasive Essays” chart:

Q *What have you learned about writing a persuasive essay?*

Students might say:

“I learned that people write persuasive essays to try to persuade others to agree with them.”

“I learned that it's a good idea to write your opinion really clearly at the beginning of your essay.”

“A good persuasive essay has reasons that support the author's opinion.”

“I learned that it also has facts and details to make the reasons more convincing.”

Explain that the students will finish working on the final versions of their persuasive essays. Students who finish will begin sharing their pieces from the Author's Chair after Writing Time.

Materials

- “Things We Notice About Persuasive Essays” chart from Week 2
- “Writing Time” chart (WA17)
- Supply of loose, lined paper for final versions
- Chair to use for Author's Chair sharing
- Copy of this unit's family letter (BLM1) for each student
- (Optional) Computers for typing and printing final versions

Facilitation Tip

Reflect on your experience over the past three weeks with **responding neutrally with interest** during class discussions. Does this practice feel natural to you? Are you integrating it into class discussions throughout the school day? What effect is it having on the students? We encourage you to continue to try this practice and reflect on students' responses as you facilitate class discussions in the future.

WRITING TIME

2 Finish Final Versions of Persuasive Essays

Display the “Writing Time” chart (📄 WA17) and read it aloud. Have the students think quietly to themselves for a moment about the following question:

Q *What do you need to work on today to be ready to share your persuasive essay from the Author’s Chair?*

After a moment, have the students begin working on the charted tasks for 20–30 minutes.

Writing Time

- Finish writing the final version of your persuasive essay.
- Reread it to make sure it is free of errors.
- If you finish, work on any other piece of writing.

WA17

When the students seem to be working independently, confer with individual students.

TEACHER CONFERENCE NOTE

Continue conferring with individual students about the piece each is developing for publication. Have each student tell you about her piece and read it aloud to you as you ask yourself the following questions:

- Is this student able to identify an opinion to write about?
- Is the student able to write an opening that gets the reader interested?
- Does the student state her opinion clearly in the opening paragraph?
- Does the student give several different reasons that support her opinion?
- Are the reasons supported by facts and details?
- Does the student use transitional words and phrases?
- Does the student conclude the essay by restating her opinion?
- Has the student corrected any sentence fragments?
- Has the student placed commas after introductory words, phrases, and clauses?

(continues)

TEACHER CONFERENCE NOTE *(continued)*

Help the student extend her thinking about persuasive essays by asking questions such as:

- Q *What is the opinion you are writing about?*
- Q *Who are you trying to convince? What do you want to convince them of?*
- Q *Why do you believe your opinion is correct? What other reasons can you give?*
- Q *What [question/sentence] might you write as your opening to get your reader interested in your piece?*
- Q *How can you state your opinion clearly in the opening paragraph?*

- Q *How can you restate your opinion at the end of your essay?*
- Q *Have you read your essay aloud to listen for any sentence fragments?*
- Q *Have you placed commas after introductory words, phrases, and clauses?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 135 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

3 Gather for Author’s Chair Sharing

Gather the class with partners sitting together, facing the Author’s Chair. Briefly discuss how they will act as members of the audience. Ask:

- Q *What will you do to be a respectful member of the audience today?*

Encourage the students to be attentive and considerate audience members, and tell them that you will check in with them to see how they did.

Remind the students to think as they listen about whether they agree or disagree with the author’s opinion and whether the essay is convincing enough to change their minds.

4 Conduct Author's Chair Sharing

Have a student read his persuasive essay aloud from the Author's Chair. At the end of the sharing, facilitate a discussion using questions like those that follow, and give the author an opportunity to respond to the class's comments and questions:

- Q *What did you learn about [gardening] from hearing [Gael's] essay?*
- Q *Do you agree or disagree with his opinion? Why?*
- Q *Were you persuaded to change your mind after hearing [Gael's] essay?*
- Q *What questions can we ask [Gael] about what he wrote?*

Follow this procedure to have other students share from the Author's Chair.

5 Reflect on Audience Behavior During Author's Chair Sharing

Ask and briefly discuss:

- Q *How did we improve as an audience today? What should we continue to work on the next time authors share their work?*
- Q *What is something an audience member did that showed respect when you read your essay today?*

Assure the students that they will all get to share their published essays from the Author's Chair in the coming days. Explain that after the students have shared their persuasive essays from the Author's Chair, they may take the essays home to share with their families. Then the students will bring the essays back to class, and you will compile them into a class book. This book will be available for the students to read during independent reading time.

Teacher Note

For information on wrapping up this unit and conducting unit assessments, see "End-of-unit Considerations" on page 615.

EXTENSION

Write Letters Home About Opinion Writing

Provide letter-writing practice for the students by having them write letters home to tell what they learned about opinion writing. Stimulate their thinking by reviewing the "Things We Notice About Persuasive Essays" chart and discussing questions such as:

- Q *What's special about opinion writing?*
- Q *What steps did you go through to develop and publish your opinion piece?*
- Q *What is one thing you're proud of about your published opinion piece?*

If necessary, review the elements of a letter (date, salutation, body, closing, and signature) by modeling or writing a shared sample letter with the class. Have the students write and proofread their letters; then attach each student's letter to a copy of her own published piece and send it home.

TECHNOLOGY EXTENSION

Share Persuasive Essays on a Social Networking Site

A social networking site designed specifically for students can be a safe and engaging forum for exchanging ideas and opinions. If you or your school has established such a site, have the students post their persuasive essays there. Encourage the students to read and comment on one another's pieces. Before the students post their work, discuss social media etiquette and the importance of taking responsibility for public comments.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of the Opinion Writing genre unit. You will need to reassign partners before you start the next genre unit.
- Send home with each student the student's published piece and a copy of this unit's family letter (BLM1). Encourage the students to share their published pieces with their families. Remind the students to bring the pieces back to class after their families have read them so they can be placed in the class library.
- Save the students' published writing (or copies of it) to use for reflection and discussion in Unit 9.

Assessments

- Before continuing with the next unit, take this opportunity to assess individual students' writing from this unit. See "Completing the Individual Writing Assessment" (IA1) on page 139 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students' published writing home to share with their families, you might have each student analyze her writing using the "Student Self-assessment" record sheet (SA1) on page 138 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension "Introduce 'Student Self-assessment'" on page 114.

Technology Tip

To help your students learn how to participate safely in online communities, you might teach the following Technology Mini-lessons in Appendix A: Mini-lesson 1, "Navigating Safely Online"; Mini-lesson 2, "Maintaining Privacy Online"; and Mini-lesson 3, "Showing Respect Online." For more information about these mini-lessons, see "About Digital Citizenship Lessons" on page 702.

For more information, view the "Using Social Networking Sites" tutorial (AV78).

- 
- (Optional) Prior to beginning the next unit, you might wish to prepare the students for the end-of-year standards-based writing performance task by teaching the Opinion Writing unit on page 107 of the *Writing Performance Task Preparation Guide*. For more information, see “Teaching the Units” on page vi of the preparation guide.

Genre

Poetry

During this two-week unit, the students hear, discuss, and write poetry. They think about what makes a poem a poem and informally explore imagery, sound, and form in poetry. They learn to listen to the language in poems and think about what poems look like on the page. They generate ideas for poems, including writing about objects, weather, things that move or make noise, and months of the year. They learn that poets can break punctuation and capitalization rules intentionally, and they think about what this would look like in their own poems. They tap into their creativity and express interest in and appreciation for one another's creativity and writing.

Week 1

OVERVIEW

Poems

“September”

by John Updike (see page 646)

Fall sensations pervade this poem about September.

“The Sea” and “Porch Light”

by Deborah Chandra (see pages 647 and 648)

Nature and an everyday object are personified using sensory details in these two poems.

“Child Frightened by a Thunderstorm”

by Ted Kooser (see page 649)

Thunder takes on a menacing personality in this poem.

“fireworks” and “flamingo”

by Valerie Worth (see pages 650 and 651)

The shape of these poems creates the image of fireworks bursting in the air and a flamingo’s long, skinny legs.

“Windshield Wiper”

by Eve Merriam (see page 652)

Sound, shape, and repetition weave together to tell about windshield wipers.

Writing Focus

- Students hear, discuss, and write poems.
- Students think about what a poem is.
- Students explore imagery, sound, and form in poems.
- Students generate and quick-write ideas for poems.
- Students cultivate their creativity.

Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students express interest in and appreciation for one another's writing.

DO AHEAD

- ✓ Consider reading this unit's poems with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding. If possible, show the students related photographs, video, or objects (such as a video of fireworks going off for the poem "fireworks," or a porch light for the poem "Porch Light") to aid their comprehension.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see "Random Pairing" on page xxix and "Considerations for Pairing ELLs" on page lii. For more information, view "Cooperative Structures Overview" (AV9).
- ✓ Prior to Day 3, make a copy of the "Class Assessment Record" sheet (CA1) on page 152 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, make a class set of the "Conference Notes" record sheet (CN1) on page 154 of the *Assessment Resource Book*.

TEACHER AS WRITER

"Poetry is the language of extremity. . . . You feel something potent and then you transfer it onto the page."

— Li-Young Lee

This week take time to read poetry. As you read, consider:

- What makes a poem a poem?

Write your thoughts in your writing notebook and add to it as you get new ideas.

Day 1

Exploring Poetry

Materials

- “September” (see page 646)
- *Student Writing Handbook* page 36
- Chart paper and a marker
- “Writing Time” chart (WA1)

Teacher Note

For more information about poetry, view “Exploring Poetry” (AV55).

Teacher Note

The partners you assign today will stay together for the unit. If necessary, take a few minutes at the beginning of today's lesson to let them get to know each other better by talking informally in a relaxed atmosphere.

Teacher Note

If you are using other programs from the Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the writing lessons.

In this lesson, the students:

- Work with new partners
- Hear and discuss a poem
- Think about what makes a poem a poem
- Explore sensory details and images in poems
- Quick-write ideas for poems about months of the year

IMMERSION IN POETRY

In this unit, the students generate ideas and write poems using published poems as models and sources of inspiration. They learn that poems use words and images to communicate feelings and create vivid pictures in the reader's mind. They develop an intuitive understanding of what poetry is by exploring *images* (for example, sensory details, metaphor, personification), *sounds* (for example, repetition, alliteration, onomatopoeia), and *forms* (for example, line length, stanzas). While the learning of literary terms is not emphasized at grade 5, exploring these concepts and how they function in poems is.

The students are encouraged to activate their imaginations and take creative risks in this unit. They see how poets often create their own rules and even intentionally break rules for poetic effect. The students learn that poetry gives writers endless freedom in using words to express their ideas.

GETTING READY TO WRITE

1 Pair Students and Discuss Working Together

Randomly assign partners (see “Do Ahead” on page 623) and make sure they know each other's names. Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Explain that over the next two weeks partners will work together to explore writing poetry.

Ask:

Q *What have you learned about being a good partner? Turn to your partner and tell him or her what you will do to be a good partner.*

After a moment, signal for the students' attention and discuss as a class:

Q *What did your partner say he or she will do to be a good partner to you?*

Encourage partners to keep these things in mind as they start working together today.

2 Introduce Poetry

Ask the students to flip through their *Student Writing Handbooks* and to stop on any page that has a poem on it. After a moment, signal for their attention. Ask partners to look at each other's pages to see if they agree that they have both stopped on poems. Ask and briefly discuss as a class:

Q *How do you know that you stopped on a poem?*

Q *What do you think makes a poem a poem?*

Students might say:

"I know it's a poem because it has lots of short lines."

"I know it's a poem because it has rhyming words."

"A poem doesn't take up the whole page, like a story."

"In addition to what [Andre] said, I think a poem gives you a picture in your head."

Explain that you will read a poem aloud today, and encourage the students to continue to think about what makes a poem a poem as they listen.

3 Read and Discuss "September"

Ask the students to close their handbooks and listen as you read the poem "September" by John Updike aloud. Invite them to imagine what is happening in this poem as they listen.

Read "September" on page 646 (including the title) aloud twice, slowly and clearly.

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

well-honeyed: with lots of honey

chrysanthemums: a kind of flower that blooms in the fall

suds: soap bubbles

Teacher Note

To review the procedure for "Turn to Your Partner," see Unit 1, Week 1, Day 2 (page 11). To see an example, view "Using 'Turn to Your Partner'" (AV11).

Teacher Note

Regularly remind the students to use the discussion prompts they learned when they participate in class discussions. The prompts are:

- "I agree with _____ because . . ."
- "I disagree with _____ because . . ."
- "In addition to what _____ said, I think . . ."

TEKS 10.D.i
Student/Teacher Activity
Step 3

Teacher Note

Save the “Notes About Poems” chart to use on Day 2 and throughout the unit.

Teacher Note

To review the procedure for “Think, Pair, Share,” see Unit 1, Week 2, Day 1 (page 30). To see an example, view “Using ‘Think, Pair, Share’” (AV13).

Teacher Note

If necessary, explain that an *image* in a poem is a description that helps you imagine, or picture in your mind, what is happening in the poem.

Ask:

Q *What did you imagine as you listened to this poem? Turn to your partner.*

Have a few volunteers share their thinking with the class. Ask the students to open to *Student Writing Handbook* page 36, where “September” is reproduced. Explain that in “September” the poet uses *sensory details*, or words that help us imagine what is happening in the poem using our senses. Ask the students to reread the poem to themselves and notice the sensory details. Then ask:

Q *What sensory details does the poet include to help you see what the month of September is like? Hear? Feel? Smell or taste?*

Students might say:

“The words *breezes taste of apple peel* make me imagine tasting apples and feeling the breeze on my face.”

“I hear the bee buzzing when I read ‘The bee, his hive well-honeyed, hums.’”

“‘New books and blackboard chalk’ make me think of the first day of school. That happens in September.”

Explain that most poems include sensory details; they are one thing that makes a poem a poem. Title a sheet of chart paper “Notes About Poems,” and underneath, write *Poems have sensory details that help us see, hear, smell, taste, and feel what’s happening.*

Ask:

Q *What else do you think makes “September” a poem?*

As the students respond, record their ideas on the chart. If the students suggest ideas that apply to some (but not all) poems, begin these chart entries with the word *some* (for example, *Some poems rhyme* and *Some poems have short lines*). Explain that you will continue to add to the chart in the coming days.

4 Quick-write: Ideas for Poems About Months

Use “Think, Pair, Share” to discuss:

Q *Imagine that we are writing a poem like “September” for the month of July. What words and images might we include in the poem to help a reader see, hear, smell, taste, and feel the month of July? [pause] Turn to your partner.*

After partners have discussed the question, signal for their attention and call on a few volunteers to share their ideas with the class. As they respond, record their ideas on a sheet of chart paper titled “Ideas About July.”

Ideas About July

- juicy watermelon
- short pants
- splashing, dripping
- wet bathing suit
- the smell of pool water
- toes in the hot sand

Explain that the students will choose another month of the year and quick-write words and images they could include in a poem about that month. Have them open to the next blank page in the writing ideas section of their notebooks and write their ideas for 5 minutes. Encourage them to quickly write whatever ideas come to mind.

When time is up, call for the students' attention and have a few volunteers share their lists of words and images with the class. Explain that during Writing Time today the students may continue to add to their lists, write words and images for a different month, or write about anything they choose.

WRITING TIME

5 Write Independently

Have the students sit at desks with partners together. Display the "Writing Time" chart (WA1) and have the students write silently for 20–30 minutes.

Writing Time

- Add to the list you started in the quick-write.
- Write words and images for a different month.
- Write about anything you choose.

WA1

If necessary, remind the students that during Writing Time there should be no talking, whispering, or walking around. Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

Signal to let the students know when Writing Time is over.

ELL Note

If necessary, simplify this question by rephrasing it in the following way:

- Q *The poem we read is about September. Let's think about another month. What is the month of July like?*
- Q *What do you do in July? What do you see? Hear? Feel?*

Teacher Note

Post the "Ideas About July" chart for the students to refer to throughout the unit.

Teacher Note

Note that on Days 1–3 of this week, the students may write poems or anything else they choose. On Day 4, after exposure to several more poems, all of the students will be asked to begin writing poems.

SHARING AND REFLECTING

6 Share Writing and Reflect

Ask partners to talk briefly about what they wrote today. After a moment, signal for their attention and ask:

- Q *What did your partner write about today?*
- Q *What did you and your partner do to work well together when talking and sharing your writing?*

Day 2

Exploring Poetry

Materials

- “The Sea” (see page 647)
- “Porch Light” (see page 648)
- “Notes About Poems” chart from Day 1
- *Student Writing Handbook* pages 37–38
- “Writing Time” chart (WA2)

In this lesson, the students:

- Hear and discuss poems
- Explore sensory details in poems
- Quick-write ideas for poems about objects
- Explore personification
- Speak clearly and listen to one another
- Discuss and solve problems that arise in their work together

LITERARY CONCEPTS IN GRADE 5

In this unit, the students explore the literary concepts that follow. This work prepares them for more formal instruction about literary terms in poetry in subsequent grades. While we encourage you to introduce the students to literary terms where appropriate, having the students use the terms themselves is not a focus of this unit. The formal definitions below are for your reference; within the lessons we suggest alternative, student-friendly definitions to use with your class.

- *alliteration*: repeating consonant sounds at the beginning of successive words (“Sing a song of sixpence.”)
- *metaphor*: direct or indirect assertion that a thing is something else (“Life is a broken-winged bird that cannot fly.”)
- *onomatopoeia*: representing something using words that imitate the sounds associated with it (*splash, pitter-patter, tick-tock*)
- *personification*: endowing a thing or an animal with human characteristics (“The wind stood up and gave a shout.”)
- *repetition*: repeating words or sounds for poetic effect (“Bells, bells, bells”)
- *rhyme*: words ending with the same sound (*twinkle and sprinkle*)
- *rhythm*: pattern of stresses and pauses in a poem
- *simile*: a comparison of two things, connected by words such as *like* or *as*, (“My love is like a red, red rose.”)

GETTING READY TO WRITE

1 Briefly Review Poetry

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Review that yesterday the students began exploring poetry. They read the poem “September” and brainstormed words and images for other months of the year. Briefly review the items on the “Notes About Poems” chart. Remind the students that you will add items to the chart throughout the unit.

2 Read and Discuss “The Sea”

Tell the students that you will read aloud a poem called “The Sea” by Deborah Chandra. Ask the students to close their eyes and create a picture in their minds as they listen to the poem. Then read “The Sea” on page 647 (including the title) aloud twice, slowly and clearly. Clarify vocabulary during the first reading.

Suggested Vocabulary

clutching: holding onto something tightly

discontented: unhappy

grainy: not smooth

Have the students open their eyes; then ask:

Q *What sensory details do you notice in “The Sea” that help you imagine what’s happening?*

Students might say:

“When I read ‘clutching at the rocky cliffs,’ it makes me imagine the waves crashing hard against the cliffs.”

“I agree with [Penelope]. The words ‘slides slowly back into itself’ make me imagine the waves going back into the ocean.”

Ask the students to open to *Student Writing Handbook* page 37, where “The Sea” is reproduced. Explain that in the poem the poet writes about the sea as if it were a person and that writing about things in this way is called *personification*.

Ask the students to reread the poem silently to themselves and, as they read, to look for places where the author writes about the sea as if it were a person. When the students have finished reading, ask:

Q *What examples of personification do you notice? What words does the poet use to write about the sea as if it were a person?*

TEKS 9.B.ii

TEKS 10.D.iii

Student/Teacher Activity
Steps 2 and 3

Teacher Note

To review the procedure for defining vocabulary during the read-aloud, see Unit 1, Week 1, Day 1, Step 3 (page 8). For more information, view “Introducing Vocabulary During a Read-aloud” (AV30).

Facilitation Tip

During this unit, we invite you to practice **asking questions once** and then waiting. This means not repeating the question or asking it again a different way; it means just asking the question once and then **using wait-time** for the students to think before calling on anyone to respond. If students are confused by a question or need to hear it again, have them ask you to repeat or rephrase the question. This builds student responsibility for focusing on the discussion and helps them develop the habit of listening the first time. To see this Facilitation Tip in action, view “Asking Questions Once and Using Wait-time” (AV28).

Students might say:

"She says the sea has 'long green arms.'"

"The word *gripping* makes me imagine the sea hanging on tightly to the sand."

"In addition to what [Jermaine] said, she said that the sea is trying 'to climb out on dry land.'"

3 Read and Discuss "Porch Light"

Tell the students that you will read a poem called "Porch Light" by Deborah Chandra. Explain that this is another poem that uses personification.

Ask the students to turn to *Student Writing Handbook* page 38, where "Porch Light" is reproduced, and follow along as you read the poem aloud. Read "Porch Light" on page 648 aloud twice (including the title), slowly and clearly. Ask and briefly discuss:

- Q *What examples of personification did you notice? What words does Deborah Chandra use to write about the porch light as if it were a person?*
- Q *What sensory details do you notice in this poem that help you imagine what's happening?*

Students might say:

"The poet says the porch light 'catches moths and holds them,' as if it's catching moths with its hands and holding them."

"She says that the porch light has 'a tight yellow fist.'"

"In addition to what [Georgia] said, it can 'loosen its hot grip.' A real porch light can't grip anything."

"When the porch light catches the moths, they are 'trapped and flapping.' I imagine tiny moths flapping their wings and bouncing around the light."

4 Quick-write: Ideas for Poems About Objects

Remind the students that in the poems "The Sea" and "Porch Light" the poets write about an ocean and a porch light as if they were people. Ask and have the students think quietly to themselves about the following question:

- Q *If you were going to write a poem about an object in the classroom, what might it be?*

Ask the students to get the objects they are thinking about and carry them back to their seats with their writing materials. (If students select the same object, you might have those students move to sit together.) Have students who are not able to carry their objects back to their seats sit where they can see the objects. Explain that you would like the

ELL Note

If necessary, simplify this question by rephrasing it in the following way:

- Q *Look around the classroom. We could write a poem about the pencil sharpener. What else could we write a poem about?*

Teacher Note

Objects in the classroom might include staplers, scissors, pencils or pens, books, pencil sharpeners, the clock, and personal belongings, such as hats, shoes, and lunchboxes.

students to look carefully at the objects they selected and to think to themselves about the following questions:

- Q *What sensory details might you use to describe what your object looks like? Sounds like? Smells like? Feels like?*
- Q *If your object came to life, what might it do?*

After the students have had a chance to think, signal for their attention. Have them open to the next blank page in their notebooks, write the name of the object at the top of the page, and quick-write some ideas for what they could include in a poem about that object.

Have the students write for 3–4 minutes; then call for their attention and have a few volunteers share their ideas with the class. After sharing, ask the students to resume writing for a few more minutes.

Call for the students' attention and have a few volunteers share what they wrote.

Students might say:

"My object is a pencil sharpener. I wrote that it is small and orange, and that it's always hungry."

"I wrote that my scissors are sleek and silvery and have sharp, pointy teeth."

Direct the students' attention to the "Notes About Poems" chart and add *Poems can be about anything* and *You can write about an object as if it were a person (personification)*.

Explain that during Writing Time today the students may continue what they started during the quick-write, continue brainstorming words and images for months of the year (from Day 1), or write about anything they choose.

WRITING TIME

5 Write Independently

Have the students sit at desks with partners together. Display the "Writing Time" chart (WA2) and have the students write silently for 20–30 minutes.

Writing Time

- Continue writing what you started during the quick-write.
- Continue to write words and images for months of the year.
- Write about anything you choose.

WA2

Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed. Signal to let the students know when Writing Time is over.

ELL Note

English Language Learners may benefit from drawing their ideas before they write. Encourage them to draw what they want to write about and to talk quietly with you or a partner about what they drew. If necessary, write down key words and phrases they want to use so they can copy the words into their writing.

SHARING AND REFLECTING

6 Share Writing and Reflect

Ask partners to talk together briefly about what they wrote today. After a moment, signal for their attention and ask:

- Q *What did your partner write about today?*
- Q *Did you or your partner write about an object? Read us what you wrote.*
- Q *What problems did you and your partner have working together today? What will you do to avoid those problems next time?*

Day 3

Exploring Poetry

Materials

- “Child Frightened by a Thunderstorm” (see page 649)
- “Notes About Poems” chart from Day 2
- *Student Writing Handbook* page 39
- “Writing Time” chart (WA3)
- “Class Assessment Record” sheet (CA1)

Teacher Note

If the students have difficulty identifying rhyming patterns in the poems, you might reread each poem aloud, one stanza at a time, and ask the students to underline the words that rhyme. Then repeat the question.

ELL Note

You might provide the prompt “I notice...” to your English Language Learners to help them verbalize their responses to this question.

In this lesson, the students:

- Hear and discuss poems
- Explore rhyme and sensory details in poems
- Explore personification and onomatopoeia
- Quick-write ideas for poems about weather

GETTING READY TO WRITE

1 Discuss Rhyme in Poetry

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Review that this week the students have been exploring poetry and that they have read and heard three poems (“September,” “The Sea,” and “Porch Light”). Have the students open to *Student Writing Handbook* page 36. Explain that you would like the students to read the poems and notice which of the poems have words that rhyme. Then give the students a few minutes to read the poems. Ask:

- Q *What do you notice about the rhyming patterns in these three poems?*

If necessary, point out that the poems “September” and “The Sea” each have two lines that rhyme in each stanza, while “Porch Light” has no predictable rhyming pattern. Explain that some people think that poems must rhyme, but, in fact, some poems rhyme and some do not. On the “Notes About Poems” chart, add *Some poems rhyme and some don’t*.

Briefly review other items on the chart and ask the students to listen for rhymes and the other things listed as they hear a new poem today.

2 Read and Discuss “Child Frightened by a Thunderstorm”

Tell the students that you will read aloud a poem called “Child Frightened by a Thunderstorm” by Ted Kooser. Ask the students to close their eyes and imagine what is happening in this poem as they listen.

Read “Child Frightened by a Thunderstorm” aloud once, slowly and clearly. Clarify vocabulary as you read.

Suggested Vocabulary

peonies: a kind of flower

shears: scissors

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

nested: made a nest

bouquets: bunches of flowers

Have the students open their eyes. Ask them to open to *Student Writing Handbooks* page 39, where “Child Frightened by a Thunderstorm” is reproduced, and then reread the poem to themselves. After a moment, ask:

Q *What do you notice about how this poet writes about thunder?*

Students might say:

“He writes as if the thunder is alive.”

“I agree with [Lowell]. The poet says the thunder ‘snipped bouquets of branches for its bed.’ That’s what a person or an animal would do.”

“In addition to what [Amy] said, he describes the thunder like a giant bird. It has wings and a beak and red eyes.”

As the students share, refer to any items they mention on the “Notes About Poems” chart, if appropriate.

3 Discuss the Way Words Sound in the Poem

Tell the students that poets often choose words for the way they sound and that this helps readers imagine what the poem is about. Ask:

Q *What does thunder sound like?*

Students might say:

“Thunder goes BOOM!”

“Rumble, rumble, rumble . . .”

“Crash!”

TEKS 9.B.i
TEKS 10.D.iv
Student/Teacher Activity
Step 3

Teacher Note

Words in the poem with sounds reminiscent of thunder include *rumpled*, *crushed*, and *clattering*.

ELL Note

If necessary, simplify this question by rephrasing it in the following way:

Q *If this type of weather were a person, what might it do?*

Ask the students to read the poem aloud with you, paying attention to the sound of the words as they read. Invite them to listen for words that remind them of the sound of thunder.

Read the poem aloud; then ask:

Q *What words in the poem remind you of the sound of thunder? Turn to your partner.*

Have a few volunteers share their thinking with the class. Point out that the use of words that sound like what they are describing is called *onomatopoeia* and that the word *clatter* is an example of this. On the “Notes About Poems” chart, add *Poems can include words that sound like what the poem is about (onomatopoeia)*.

4 Quick-write: Ideas for Poems About Weather

Ask and briefly discuss:

Q *If you were going to write a poem like “Child Frightened by a Thunderstorm” about another kind of weather, what kind of weather might you write about?*

Students might say:

“wind”

“snow”

“tornadoes”

“a hot, sunny day”

“foggy days”

Ask the students to open to the next blank page in the writing section of their notebooks and write the name of the type of weather they are thinking about at the top of the page. Have them think quietly to themselves about the questions that follow as you ask them, one at a time:

Q *What sensory details might you use to describe this type of weather?*

Q *How might you write about this type of weather as if it were a person?*

Q *What might you do in that kind of weather?*

After the students have had a chance to think, have partners share their thinking. After a moment, signal for their attention and have them quick-write some ideas for what they could include in a poem about the weather.

Have the students write for 3–4 minutes; then call for their attention and have a few volunteers share their ideas with the class. After sharing, ask the students to resume writing for a few more minutes.

Call for the students’ attention and ask a few volunteers to share what they wrote.

Students might say:

"I thought about rain. I wrote the words *mud puddle*, *dripping umbrella*, *splash*, and *pitter-patter*."

"I wrote about snow. I thought of words that mean 'cold,' like *freezing*, *icy*, and *shivering*."

"I wrote about wind. I wrote the words *push* and *pull* to describe what it does to trees."

Explain that during Writing Time today the students may continue what they started during the quick-write, continue writing ideas for poems about objects or months of the year, or write about anything they choose.

WRITING TIME

5 Write Independently

Have partners sit together at desks. Display the "Writing Time" chart (WA3) and have the students write silently for 20–30 minutes.

Writing Time

- Continue writing what you started during the quick-write.
- Continue to write ideas for poems about objects or months of the year.
- Write about anything you choose.

WA3

Join the students in writing for a few minutes; then walk around the room and observe, assisting students as needed.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students seem to be writing freely and creatively?
- Are they engaged in their writing?
- Do they seem overly cautious or inhibited about what they put on paper?

After about 10 minutes, support any student who struggles to start by asking questions such as:

- Q *What kind of weather could you write about?*
- Q *What sensory details can you write to describe what [a rainy day] sounds like? Looks like? Feels like?*
- Q *What does [rain] sound like? What words make you think of the sound of [rain]?*

Record your observations on the "Class Assessment Record" sheet (CA1); see page 152 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

6 Share Writing and Reflect

Ask partners to talk together briefly about what they wrote today. After a moment, signal for their attention and ask:

Q *What did your partner write about today?*

Q *Did you or your partner write about weather? Read us what you wrote.*

Explain that all of the students will start writing poems tomorrow, and they will continue to draft poems during the coming week. Tell them that they will eventually select one of their drafted poems to improve, revise, and publish in a class collection of poetry.

Day 4

Exploring Poetry and Pair Conferring

Materials

- “fireworks” (see page 650)
- “flamingo” (see page 651)
- “Child Frightened by a Thunderstorm” from Day 3 (see page 649)
- “The Sea” and “Porch Light” from Day 2 (see pages 647–648)
- “September” from Day 1 (see page 646)
- *Student Writing Handbook* pages 36–41
- “Notes About Poems” chart from Day 3
- Class set of “Conference Notes” record sheets (CN1)

In this lesson, the students:

- Hear, discuss, and write poems
- Think about what poems look like on the page
- Explore the way words sound in poems
- Express interest in and appreciation for one another’s writing

GETTING READY TO WRITE

1 Explore Form in Poetry

Have the students get their *Student Writing Handbooks* and sit at desks with partners together. Review that this week the students read the poems “September,” “The Sea,” “Porch Light,” and “Child Frightened by a Thunderstorm” and thought about what makes a poem a poem. Point out that one thing that makes a poem a poem is its *form*, or what it looks like on the page.

Explain that you would like one partner in each pair to open his *Student Writing Handbook* to pages 36–37, while the other partner opens her handbook to pages 38–39. By laying the books side by side, the students in each pair should be able to see all four poems from this week.

Ask:

- Q What do you notice about how these poems look on the page?
- Q In what ways do they look similar? In what ways do they look different?

Point out that some poems have short lines (as in “September,” “The Sea,” and “Porch Light”) and others have long lines (as in “Child Frightened by a Thunderstorm”). Also point out that some poems have stanzas, or sections separated by a space, while others do not. Ask:

- Q What do you notice about the stanzas in each of these poems?

Students might say:

- “I notice that in ‘September’ there are four stanzas with four lines each.”
- “In ‘The Sea,’ each stanza has four lines.”
- “I agree with [Wade]. The poem ‘Porch Light’ doesn’t have any stanzas and some lines are only one word.”
- “‘Child Frightened by a Thunderstorm’ doesn’t have any stanzas.”

Direct the students’ attention to the “Notes About Poems” chart. Add *Poems can have short or long lines, Some poems have stanzas, and Some poems have the same number of lines in each stanza.*

2 Read and Discuss “fireworks” and “flamingo”

Tell the students that you will read a poem called “fireworks” by Valerie Worth aloud. Ask the students to close their eyes and listen for sounds and images that help them imagine fireworks as you read.

Read “fireworks” on page 650 (including the title) aloud once, slowly and clearly.

ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined, including:

- climbs:** goes up
- flare:** burst of fire
- invisible:** not seen

TEKS 10.D.i
Student/Teacher Narrative
Step 2
(fourth paragraph)

Have the students open their eyes. Ask them to turn to *Student Writing Handbook* page 40, where “fireworks” is reproduced, and then read the poem to themselves. Ask:

- Q What sensory details help you see and hear these fireworks? Turn to your partner.
- Q What words in this poem remind you of the sound of fireworks? Turn to your partner.
- Q What else do you notice about this poem?

Students might say:

“The words *green sparks* and *gold spears* make me picture big green fireworks.”

“The words *thud*, *cracks*, and *claps* really sound like fireworks!”

“The lines start small and get longer, just like fireworks start small then burst into huge shapes in the sky.”

“In addition to what [Victoria] said, this poem doesn’t have any stanzas.”

Point out that poets sometimes arrange words or letters in unusual ways to help communicate what the poem is about. On the “Notes About Poems” chart, add *Some poems have words or letters placed on the page in unusual ways.*

Ask the students to turn to page 41 of their handbooks and follow along as you read “flamingo” by Valerie Worth aloud. Read “flamingo” on page 651 aloud slowly and clearly; then ask:

- Q What do you notice about the shape of this poem? Turn to your partner.
- Q How does the shape of the poem “flamingo” help you imagine a flamingo?
- Q Why do you think the poet might have shaped “flamingo” this way?

Students might say:

“It has two tall and skinny stanzas.”

“The shape of the poem ‘flamingo’ makes me think of a flamingo standing on one tall leg.”

“Maybe the poet shaped ‘flamingo’ like this because in the poem the flamingo switches legs, so there are two stanzas that look like flamingo legs.”

Point out that poets think carefully about what their poems look like on the page and that the shape of a poem can help the reader understand what the poem is about. On the “Notes About Poems” chart, add *A poem’s shape can help the reader understand what it’s about.*

Explain that today you would like the students to pick one of the six poems they read this week and try writing a poem that looks similar to it on the page. Encourage them to write poems using their quick-write ideas from earlier in the week. They may also write poems about any other topics they choose. Review the items on the “Notes About Poems” chart and encourage the students to use some of these ideas in their poems. Tell the students that you will give them a chance to share their writing with their partners at the end of Writing Time.

WRITING TIME

3 Draft Poems in the Students' Notebooks

Have the students write poems silently for 20–30 minutes. Join the students in writing for a few minutes; then begin conferring with individual students.

TEACHER CONFERENCE NOTE

Over the coming days, confer with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in his poem?
- Does the student include other elements of poetry?

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 154 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Confer in Pairs About Poems

Gather the class with partners sitting together, facing you. Explain that partners will read what they wrote today to each other and confer about it. Ask:

- Q *What would you like your partner to do to show that he or she is interested in your writing and your creative ideas?*

Students might say:

- "I would like my partner to listen as I read my poem."
- "I would like my partner to ask me questions about the poem."
- "I would like my partner to tell me the part she likes."
- "I would like my partner to notice the sensory details I used."

Have partners share their writing with each other.

Teacher Note

You may want to shorten today's Writing Time to leave more time for the pair conferences in Step 4.

Teacher Note

To see an example of a teacher conferring with individual students, view "Conferring About Poetry" (AV54).

Teacher Note

If necessary, signal to the students about halfway through sharing time so partners can switch roles if they have not yet done so.

Observe the students closely and provide sufficient time for both partners to share their writing before signaling for their attention.

5 Reflect on Pair Conferences and Poems

Help the students reflect on their work today by asking questions such as:

- Q *What did your partner do to show interest in your writing and creative ideas?*
- Q *What did you do to show interest in your partner's writing?*
- Q *What sensory details did your partner include in his or her poem? What did you imagine from those details?*

Teacher Note

Prior to doing this activity, visit the CCC Learning Hub (ccclearninghub.org) to access and print “crickets” by Valerie Worth (BLM2). Make enough copies for each student to have one; set aside a copy for yourself.

EXTENSION

Read and Discuss “crickets”

Tell the students that you will read a poem called “crickets” by Valerie Worth aloud. Distribute a copy of “crickets” (BLM2) to each student and ask them to follow along as you read it aloud. Read the poem aloud, slowly and clearly. Ask:

- Q *What do you notice about the shape of this poem?*
- Q *How does the shape of the poem “crickets” help you imagine a cricket?*

Students might say:

“I agree with [Drew]. The poem ‘crickets’ has a couple of lines with more than one word, but most of the lines are one-word lines.”

“Maybe the poet shaped ‘crickets’ like this because when you read one line at a time, it could sound like a cricket chirping.”

Remind the students that the shape of a poem and the way the letters and words are arranged on the page can help readers understand what the poem is about. Encourage them to try writing shape poems and to experiment with different arrangements of letters and words on the page.

In this lesson, the students:

- Hear, discuss, and write poems
- Think about what poems look like on the page
- Explore how repetition functions in a poem
- Explore sensory details in a poem
- Informally explore rhythm in a poem
- Quick-write ideas for poems about things that move or make noise

GETTING READY TO WRITE**1 Explore Elements of Poetry**

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Review that the students have been thinking about sensory details and sounds in poems, as well as what poems look like on the page. Ask the students to open their notebooks and briefly review the poems they have written. Ask and briefly discuss:

- Q *What is an interesting sensory detail you have written? Read that detail aloud to us.*
- Q *What sounds have you intentionally included in a poem? Read us a few words that sound like what they are describing.*
- Q *What decisions have you made about what a poem looks like on the page? Show us the poem and tell us about your decisions.*

2 Read and Discuss “Windshield Wiper”

Ask the students to open to *Student Writing Handbook* page 42 and follow along quietly as you read the poem “Windshield Wiper” by Eve Merriam aloud. Invite them to think about what this poet might be trying to do.

Read “Windshield Wiper” on page 652 aloud once, slowly and clearly. Clarify vocabulary as you read.

Suggested Vocabulary

bumbershoot: funny word for umbrella

Materials

- “Windshield Wiper” (see page 652)
- “Notes About Poems” chart from Day 4
- *Student Writing Handbook* page 42
- “Things That Move or Make Noise” chart (WA4)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

downpour: heavy rain

macintosh: raincoat

Read the poem aloud again, this time having the students read aloud with you. Ask and briefly discuss:

- Q *What do you notice about this poem? Turn to your partner.*
- Q *How does the way the words are placed on the page help you to understand what it's about?*
- Q *What does this poem sound like? How does the poet create that sound?*

Students might say:

"I notice that the poem has two sides, just like there are two windshield wipers on a car."

"When you read the poem aloud, it sounds like the windshield wipers are going back and forth, back and forth."

"In addition to what [Zoe] said, the poet makes it sound like that because she repeats almost every line."

Point out that this poet creates the rhythm of windshield wipers by using repetition. Explain that *repetition* means "repeating words or phrases."

On the "Notes About Poems" chart, add *Some poems repeat words or phrases to create sound in poems (repetition)*. Ask:

- Q *What sensory details does the poet include? Why do those details make sense in this poem?*

Students might say:

"Having 'fog smog' and 'tissue paper' makes sense at the beginning because it makes you feel like you can't see out of the window very well."

"At the end of the poem, it stops raining and the window gets clear."

3 Quick-write: Ideas for Poems About Things That Move or Make Noise

Have the students think quietly to themselves about the following question:

- Q *"Windshield Wiper" is a poem about something that moves and makes noise. If you were going to write a poem about something that moves or makes noise, what might it be?*

ELL Note

If necessary, simplify this question by rephrasing it in the following way:

- Q *Windshield wipers move or make noise. What is something else that moves or makes noise?*

After giving the students a moment to think, display the “Things That Move or Make Noise” chart (📄 WA4) and call on a few volunteers to share their thinking with the class. As the students share, record their ideas on the chart.

When there are two or three ideas on the chart, have the students each open to the next blank page in their notebooks and list more things that move or make noise that they could write a poem about.

After about 5 minutes, call for the students’ attention and have a few more volunteers share their thinking with the class. Continue to add their ideas to the “Things That Move or Make Noise” chart.

Things That Move or Make Noise

- a skateboard
- a bicycle
- the bubbles in our fish tank
- the wheel our hamster runs on
- a bouncing basketball
- a seesaw

WA4

Explain that during Writing Time today the students will continue to write poems. Encourage them to write poems about things that move or make noise, if they wish. Briefly review the “Notes About Poems” chart and encourage them to think about including sensory details, as well as repetition, shapes, and sounds, to help the reader imagine what the poem is about.

WRITING TIME

4 Write Independently

Have the students return to their seats and write poems silently for 20–30 minutes. Join them in writing for a few minutes; then confer with individual students.

TEACHER CONFERENCE NOTE

Continue to confer with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in her poem?
- Does the student include other elements of poetry?

(continues)

TEACHER CONFERENCE NOTE *(continued)*

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *Where might you use repetition? How might that help a reader understand your poem? What other sounds are you including?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 154 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Reflect on Creativity

Tell the students that poets must tap into their creativity to write poems that readers can really imagine and enjoy. Explain that *creativity*, or the ability to create something new or to re-create something familiar in a new way, helps poets write unique poems about ordinary things like windshield wipers and porch lights.

Ask the students to review the poetry they wrote today and to choose one line to share with the class. Encourage each student to choose a line that he believes shows his creativity. After a moment, go around the room and have each student read his line aloud, without comment.

After the students have read their lines, facilitate discussion among the students by asking:

- Q *What lines did you hear that got your imagination going?*
- Q *What words did you hear that made you feel as if you could sense what was being described?*
- Q *What questions do you want to ask a classmate about his or her writing?*

Explain that the students will continue to work on poems during the coming week.

Teacher Note

To see an example of this technique, view "Sharing One Line and Reflecting" (AV56).

EXTENSION

Explore Sensing Like a Poet

Collect objects that make sounds; that have interesting shapes, colors, or textures; or that have unique smells or tastes. Have the students handle, listen to, smell, taste, and/or feel the objects and brainstorm words to describe what they are sensing. Chart the brainstormed words and invite the students to write poems about the objects using the words.

September

by John Updike

The breezes taste
Of apple peel.
The air is full
Of smells to feel—

Ripe fruit, old footballs,
Drying grass,
New books and blackboard
Chalk in class.

The bee, his hive
Well-honeyed, hums
While Mother cuts
Chrysanthemums.

Like plates washed clean
With suds, the days
Are polished with
A morning haze.

Poem

The Sea

by Deborah Chandra

Clutching at the rocky cliffs,
The discontented sea
Slides slowly back into itself
On slippery hands and knees.

Gripping with its long green arms,
It hugs the grainy sand,
Searching for a fingerhold
To climb out on dry land.

Porch Light

At night
the porch light
catches moths
and holds them,
trapped
and
flapping,
in a tight
yellow fist.
Only when I
turn the switch
will it loosen
its hot
grip.

Poem

Child Frightened by a Thunderstorm

by Ted Kooser

Thunder has nested in the grass all night
and rumpled it, and with its outstretched wings
has crushed the peonies. Its beak was bright,
sharper than garden shears and, clattering,
it snipped bouquets of branches for its bed.
I could not sleep. The thunder's eyes were red.

Then the rocket

Climbs the air,

A dull red flare,

To hang, a moment,

Invisible, before

Its shut black shell cracks

And claps against the ears,

Breaks and billows into bloom,

Spilling down clear green sparks, gold spears,

Silent sliding silver waterfalls and stars.

Week 2

OVERVIEW

Poems

“Gentle Sound of Rain”

by Lee Emmett (see page 676)

Rain drops, plops, and splatters in this poem.

“I Love the Look of Words”

by Maya Angelou (see page 677)

Words tumble like popcorn onto the page.

Excerpts

TEACHER AS WRITER

Writing Focus

- Students hear, discuss, and write poems.
- Students explore alliteration and repetition in poems.
- Students explore simile and metaphor in poems.
- Students review their poetry drafts and select one to revise, proofread, and publish.
- Students revise their poems, thinking about images, sound, and form.
- Students explore intentionally breaking punctuation and capitalization rules in poetry.

Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students help one another improve their writing.
- Students express interest in and appreciation for one another's writing.

DO AHEAD

- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2) on page 153 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit's family letter (BLM1). Make enough copies to send one letter home with each student's published piece.
- ✓ (Optional) If computers are available, you might have some students type and print out their poems. You can also recruit parent volunteers to help the students do so. In addition, you might teach Technology Mini-lesson 10, “Creating Presentations,” in Appendix A to help the students learn how to use visuals to enhance their poems.

Rain

*Like a drummer's brush,
the rain hushes the surface of tin
porches.*

— Emanuel di Pasquale

Read the poem above aloud and listen to the sounds of the words. Notice how the sounds of the words support the meaning of the poem.

This week try writing some short poems that include words with sounds that support the meaning of your poem. If helpful, use the poem above as a model. Here's an example of a poem modeled on “Rain”:

Wind

*Like a magician's whip,
the wind whistles and flaps the
white sheets.*

Day 1

Exploring Poetry

Materials

- “Gentle Sound of Rain” (see page 676)
- “Notes About Poems” chart from Week 1
- *Student Writing Handbook* page 43

TEKS 12.A.i
Student/Teacher Narrative
Step 1

In this lesson, the students:

- Hear, discuss, and write poems
- Explore sensory details in a poem
- Explore how alliteration and onomatopoeia function in poems
- Informally explore rhythm in a poem

GETTING READY TO WRITE

1 Briefly Review Poetry

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Remind the students that they have been exploring poetry and that last week they thought about sensory details, personification, onomatopoeia, rhyme, and repetition in poems, as well as what poems look like on the page.

As you did last week, have the students briefly review the poems they have written; then ask and briefly discuss:

- Q *What is an interesting sensory detail you have written? Read that detail aloud to us.*
- Q *What sounds have you intentionally included in a poem? Read us a few words that sound like what they are describing.*
- Q *What decisions have you made about what a poem looks like on the page? Show us the poem and tell us about your decisions.*
- Q *Where is a place you used repetition? Read that part to us. Why did you decide to repeat those words?*

2 Read and Discuss “Gentle Sound of Rain”

Tell the students that you will read another poem aloud today called “Gentle Sound of Rain” by Lee Emmett. Briefly review the “Notes About Poems” chart and ask the students to notice how the poet includes some of the items on the chart in this poem.

Ask the students to close their eyes and listen as you read the poem aloud. Read “Gentle Sound of Rain” on page 676 (including the title) aloud once, slowly and clearly. Clarify vocabulary as you read.

Suggested Vocabulary

corrugations: ridges or grooves

crevices: small, narrow openings

pock-marked: something that is covered in marks or holes

crescendo: increase in the loudness of something

brassy cymbal: brass plate that is struck with a drumstick to make music

cacophony: unpleasant loud sounds

deafening: extremely loud

Have the students open their eyes. Ask them to turn to *Student Writing Handbook* page 43, where “Gentle Sound of Rain” is reproduced and then reread the poem to themselves. After a moment, ask:

Q *What do you notice about how the poet writes about the rain?*

Students might say:

“The poem has lots of words like *dripping* and *dropping* and *pings* and *plopping* that sound like rain.”

“The poem starts with a light rain, and then it rains harder and harder.”

“Words like *swishing* and *rushing* make me think of a rainstorm.”

3 Discuss the Way Words Sound in the Poem

Ask the students to read the poem aloud with you, paying attention to the way the words sound as they read. Read the poem aloud together; then ask:

Q *What rhyming words do you notice in this poem?*

Q *Why do you think the poet included so many words that have the /sh/ sound?*

Q *What sound at the beginning of words do you notice over and over in this poem?*

Students might say:

“I notice that this poem has some rhyming words, like *gutters* and *splutters* and *rushing* and *gushing*.”

“All the /sh/ sounds remind me of cars driving through puddles on the road.”

“The poet uses repetition of beginning sounds with the words *puddles* *plopping*. Those words make it sound like rain hitting puddles.”

Explain that the repetition of beginning sounds, such as /p/ and /d/ in this poem, is called *alliteration*. Point out that poets may use alliteration to make poems sound like what they are about, in this case, the rain. On the “Notes About Poems” chart, add *Repetition of beginning sounds (alliteration) can help a poem sound like what it is about.*

Step 4

Point out that another way this poet makes this poem sound like what it is about is by using *onomatopoeia*. Remind the students that onomatopoeia is the use of words that sound like what they are describing, and point out that words like *gurgling* and *splashing* are examples of onomatopoeia.

Explain that during Writing Time today the students will continue to write poems. Encourage them to think about the sounds of their words and to try including repetition to help readers imagine what the poem is about. Remind the students to refer to the “Notes About Poems” chart as they write.

WRITING TIME

4 Write Independently

Have the students return to their seats and write poems silently for 20–30 minutes. Join them in writing for a few minutes; then confer with individual students.

TEACHER CONFERENCE NOTE

As you did last week, confer with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in his poem?
- Does the student include other elements of poetry?

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what’s happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *Where might you use repetition? How might that help a reader understand your poem? What other sounds are you including?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 154 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Reflect on Creativity

Have the students review the poems they wrote today and each choose one line to share with the class. Encourage each student to choose a line that she believes shows her creativity. After a moment, go around the room and have each student read her line aloud, without comment.

After the students have read their lines, facilitate discussion among the students by asking:

- Q *What lines did you hear that got your imagination going?*
- Q *What questions do you want to ask a classmate about his or her writing?*

Explain that the students will confer in pairs about their poems tomorrow.

EXTENSION

Explore Onomatopoeia

Remind the students that they heard the poems “fireworks” and “Gentle Sound of Rain” earlier. Review that the authors of these poems use words that sound like what the poem is about. Read the poem “fireworks” aloud, emphasizing the words *thud*, *cracks*, and *claps*. Point out that words like *thud*, *cracks*, and *claps* are examples of onomatopoeia, and that *onomatopoeia* is the “use of words that sound like what they are describing.”

Tell the students that you will read the poem “Gentle Sound of Rain” aloud and that as you read, you want them to listen for other examples of onomatopoeia—or words that sound like what they are describing. Read the poem aloud. Ask:

- Q *What words did you hear in the poem that are examples of onomatopoeia?*

Have volunteers share their thinking. If necessary, point out that *plopping*, *pings*, *gurgling*, and *splashing* are examples of onomatopoeia. Tell the students that by using words like these, the poet helps us imagine what the poem is about.

Facilitation Tip

Continue to practice **asking questions once** without repeating or rewording them and then **using wait-time**. Notice the effect this has on the students’ attentiveness during class discussions.

- *Student Writing Handbook* pages 39 and 44
- Chart paper and a marker

In this lesson, the students:

- Hear, discuss, and write poems
- Explore sensory details in a poem
- Explore simile and metaphor
- Quick-write similes for words
- Express interest in and appreciation for one another’s writing

GETTING READY TO WRITE

1 Explore Elements of Poetry

Have the students bring their notebooks, *Student Writing Handbooks*, and pencils and gather with partners sitting together, facing you.

Have the students briefly review the poems they have written; then ask and briefly discuss:

- Q *What is an interesting sensory detail you have written? Read that detail aloud to us.*
- Q *What is a sound you have intentionally included in a poem? Read us a few words with that sound.*
- Q *What decisions have you made about what a poem looks like on the page? Show us the poem and tell us about your decisions.*
- Q *Where is a place you used repetition? Read that part to us. Why did you decide to repeat those words?*

2 Read and Discuss “I Love the Look of Words”

Explain that you will read a poem aloud today called “I Love the Look of Words” by Maya Angelou. Briefly review the “Notes About Poems” chart and ask the students to notice how the poet includes some of the items on the chart in this poem.

Ask the students to close their eyes and listen as you read the poem aloud. Read “I Love the Look of Words” on page 677 (including the title) aloud once, slowly and clearly.

ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

skillet: frying pan

gobbles: eats

perfuming: making something smell like perfume

Have the students open their eyes and ask them to turn to *Student Writing Handbook* page 44, where “I Love the Look of Words” is reproduced. Ask the students to read the poem to themselves. Then ask and briefly discuss:

Q What do you notice about this poem? Turn to your partner.

Q According to this poet, what is reading like?

If necessary, point out that reading words is like eating popcorn to this poet. Ask:

Q What words does this poet use to help us understand that reading words is like eating popcorn?

Students might say:

“The poet talks about how ‘black words leap’ from the page like ‘popcorn leaps’ from the pan.”

“Her brain gobbles them up just like her mouth gobbles up popcorn.”

“It says that the ideas from the words stick to her like the smell of butter after she eats popcorn.”

Tell the students that poets often write about one thing as if it is *like* another thing, or compare one thing to another. Explain that when you compare one thing to another using the words *like* or *as* it is called a *simile*.

Tell the students that poets also write about one thing as if it is another thing, and that is called a *metaphor*. Have the students turn to *Student Writing Handbook* page 39, where “Child Frightened by a Thunderstorm” is reproduced. Reread the poem and ask the students to follow along. Ask:

Q What do you notice about this poem? Turn to your partner.

Q According to this poet, what is thunder like?

If necessary, point out that the poet writes as if the thunder is a giant bird with red eyes. Ask:

Q What words does this poet use to help us understand that thunder is a giant bird with big red eyes?

Students might say:

“The poet talks about how thunder ‘nested in the grass’ like a bird.”

“The poet writes about thunder’s ‘outstretched wings.’”

On the “Notes About Poems” chart, add *Poets often use simile (compare one thing to another using the words like or as)* and *Poets often use metaphor (write about one thing as if it is another thing)*.

3 Quick-write: “Words Are Like _____” Similes

Write *Words Are Like _____* at the top of a sheet of chart paper. Below them, write the word *popcorn*. Ask and have the students think quietly to themselves about:

Q What are words like to you?

Teacher Note

If the students have difficulty generating ideas, suggest some like those in Step 3; then ask, “What other ideas do you have?”

Call on a few students to share their thinking with the class, and record their ideas on the chart. Without sharing too many ideas, have the students open to the next blank page in their notebooks and list more ideas for what words are like.

After about 5 minutes, call for the students' attention and have volunteers share their thinking with the class. Continue to add their ideas to the "Words Are Like" _____ chart.

Words Are Like _____

- popcorn
- ants marching across the page
- puzzle pieces
- birds that fly through your mind
- letters that dance together
- blobs of paint

Explain that during Writing Time today the students will continue to write poems. Encourage them to include similes in their poems. Tell the students that you will give them a chance to share their writing with their partners at the end of Writing Time.

Briefly review the "Notes About Poems" chart and encourage the students to refer to the chart as they write today.

WRITING TIME

4 Write Independently

Have the students return to their seats and write poems silently for 20–30 minutes. Join them in writing for a few minutes; then confer with individual students.

Teacher Note

You may want to shorten today's Writing Time to leave more time for the pair conferences in Step 5.

TEACHER CONFERENCE NOTE

Continue conferring with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in her poem?
- Does the student include other elements of poetry?

(continues)

TEACHER CONFERENCE NOTE *(continued)*

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *Where might you use repetition? How might that help a reader understand your poem? What other sounds are you including?*
- Q *Where might you compare one thing to another? How might you write that?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 154 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Confer in Pairs About Poems

Gather the class with partners sitting together, facing you. Explain that each student will choose a poem to read to his partner today and that you would like the listening partner to close her eyes and try to get a picture in her mind as she listens to the poem. After hearing the poems, the students will tell their partners what they imagined as they listened. Ask:

- Q *How will you read your poem so your partner is able to get a picture in his or her mind?*
- Q *What kinds of things will you listen for to help you get a picture in your mind?*

Students might say:

"I will read my poem slowly so my partner can think about the words."

"I will listen for sensory details, like what things look like or sound like."

Encourage the students to read their poems aloud more than once, if necessary. Have partners share their writing.

Observe the students closely and provide sufficient time for both partners to share their poems before signaling for their attention.

Teacher Note

If necessary, signal to the students about halfway through sharing time so partners can switch roles if they have not yet done so.

Teacher Note

The end-of-lesson reflection is important to the students' growth as writers and to their social development. We encourage you to allow at least 5 minutes at the end of each period to help the students reflect on their work and interactions.

For more information about social development, see "Values and Social Skills" on page xxviii. You may also view "Social Reflection" (AV14).

6 Reflect on Pair Conferences and Poems

Help the students reflect on their work today by asking:

Q *What picture did you get in your mind as you listened to your partner's poem today?*

Q *What did you do to show interest in your partner's writing?*

Remind the students that they will each choose one poem to revise and publish in a class book.

Day 3

Selecting and Revising Drafts

Materials

- "Notes About Poems" chart from Day 2
- Pad of small (1½" × 2") self-stick notes for each student
- "Writing Time" chart (WA5)
- "Class Assessment Record" sheet (CA2)

In this lesson, the students:

- Review their poetry drafts and select one to develop and publish
- Reread their writing critically
- Analyze and revise for images, sounds, and form
- Ask one another questions about their writing

GETTING READY TO WRITE

1 Review and Select Drafts

Have the students stay in their seats. Review that the students have been writing drafts of poems, and explain that today they will look through all their drafts and select one to develop for publication in a class book.

Remind the students that they have been thinking about what makes a poem a poem. Direct their attention to the "Notes About Poems" chart and review the items on it. Ask and briefly discuss:

Q *As you're looking through your poems, what might you want to look for to help you decide on one to develop?*

Students might say:

"I want to look for a poem that has some good sensory details."

"I wrote some poems with interesting sounds. I think I'll pick one of those."

"I want my poem to be different from everyone else's, so I'm going to look for one that is unique."

Give the students a few minutes to review and select their poems. If they finish, have them select a second poem to develop if they have time.

2 Facilitate Guided Rereading of Drafts

Explain that the students will carefully reread their drafts and that you will help them think about ways they can add to, revise, and improve their poems. Have them quietly reread their drafts and look up when they are finished.

Distribute a pad of self-stick notes to each student. Explain that you will ask the students to look for and think about several specific things in their drafts.

Say the following prompt and give the students several minutes to review their drafts and mark passages with self-stick notes:

- Find one place in your poem where you describe, or could describe, something using sensory details. Put a self-stick note in the margin next to that place and write *sensory details* on it.

When most students have finished, call for their attention and ask a few volunteers to read what they marked. Probe their thinking by asking questions such as:

Q *What do you hope your reader will imagine when reading that line?*

Using the same procedure, take the students through the following prompts, saying them one at a time and giving the students time to mark passages before having volunteers share.

- Do the sounds of the words in your poem help to communicate what the poem is about? Find a place where you might be able to use onomatopoeia and add some interesting-sounding words. Also find a place where you might use alliteration or repetition to create sound in your poem. Put a self-stick note in the margin next to that place and write *sounds* on it.
- Do you have stanzas in your poem? If so, do you have the same number of lines in each stanza? If not, put a self-stick note in the margin next to that place so you can decide if you want to give all of the stanzas the same number of lines. Write *number of lines* on the note.
- Does your poem have a particular shape? If so, does the shape help to communicate what your poem is about? If you think you can change the shape to better communicate what your poem is about, put a self-stick note in the margin next to that place and write *shape* on it.

WRITING TIME

3 Reread and Revise Poems

Display the “Writing Time” chart (📄 WA5) and have the students work silently on the charted tasks for 20–30 minutes.

Teacher Note

The purpose of this guided rereading is to give the students experience with critically reading and thinking about their drafts *before* beginning to revise. Note that some students will not be finished with their poems and will need time this week both to complete and revise them.

Teacher Note

If the students have difficulty finding and marking sensory details, make the prompt more specific by saying:

- Mark a place where you describe, or could describe, what something looks like.
- Mark a place where you describe, or could describe, what something sounds like.
- Mark a place where you describe, or could describe, what something smells or tastes like.
- Mark a place where you describe, or could describe, what something feels like.

Writing Time

- Review the things you marked with self-stick notes.
- Revise your poem.
- Remove the self-stick notes when you finish revising.
- If necessary, continue adding to your poem until it is finished.

If the students finish, they may follow the same procedure to review and revise a second poem. Join the students in writing for a few minutes; then walk around the class and observe, assisting students as needed.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to revise their drafts to include sensory details and/or sounds?
- Are they thinking about what their poems look like on the page?
- Do they seem engaged in revising their poems?

Support any student who struggles by asking questions such as:

- Q *What were you thinking about when you marked this place on your draft?*
- Q *What words could you add to help the reader [see/hear/smell/taste/feel] what you're writing about?*
- Q *Read your poem aloud. What sounds do you hear? Do those sounds help to communicate what your poem is about? If not, what words might have the sounds that would make sense in your poem?*
- Q *What do you want your poem to look like on the page? How can you arrange the words so it looks like that?*
- Q *Where might you compare one thing to another? How might you write that?*

Record your observations on the "Class Assessment Record" sheet (CA2); see page 153 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Reflect on Revisions and Creativity

Have the students review their revisions from today and each choose one revised line to share with the class. Encourage each student to

choose a line that he feels is an improvement over the original line and that shows his creativity. After a moment, go around the room and have each student read his line aloud, without comment.

After the students have read their lines, facilitate discussion among the students by asking:

- Q *How does the line you read improve your poem?*
- Q *What lines did you hear your classmates read that got your imagination going?*
- Q *What questions do you want to ask a classmate about his or her writing?*

Explain that the students will proofread and begin writing final versions of their poems tomorrow.

WRITING ABOUT READING

Write Opinions About a Poem

Tell the students that you will read a poem aloud called “Autumn Leaves” by Deborah Chandra. Briefly review the “Notes About Poems” chart and ask the students to think about which of these things the poet has done in the poem. Distribute copies of the poem, and ask the students to follow along as you read it aloud; then read the poem aloud, slowly and clearly.

Ask:

- Q *What do you like about this poem?*
- Q *What things on the “Notes About Poems” chart do you notice in “Autumn Leaves”? Why do you think the poet decided to include these things?*

Students might say:

“There are short lines and no stanzas.”

“She says the leaves ‘wander,’ which is something people do.”

“The words *crackling* and *crunching* sound like dry leaves moving around or getting stepped on. These words help me imagine what the leaves sound like.”

Explain that a poet may decide to include many of the items on the “Notes About Poems” chart in her poem or none at all. What is important is that the items she includes are used effectively, or that they help the reader understand what the poem is about. Explain that you would like the students to write short opinion paragraphs about whether or not they think items from the “Notes About Poems” chart are used effectively in “Autumn Leaves” and why. Ask the students to watch as you model writing one such opinion paragraph.

Materials

- Copy of “Autumn Leaves” (BLM3) for each student
- “Notes About Poems” chart

Teacher Note

Prior to doing this activity, visit the CCC Learning Hub (ccclearninghub.org) to access and print “Autumn Leaves” (BLM3). Make enough copies for each student to have one; set aside a copy for yourself.

Teacher Note

You might clarify the following vocabulary as you read:

- **scuttle:** move quickly
- **tumble:** jump around and move your body in an athletic way
- **grieving:** feeling sadness

Teacher Note

Items from the “Notes About Poems” chart that appear in “Autumn Leaves” include: sensory details (“wind-ruffled,” “brown”); personification (“scuttle down gutters,” “wander the sidewalks,” “grieving for summer,” “with gasps and sighs,” “they call their goodbyes”); rhyme (*sighs/goodbyes*); onomatopoeia (*crackling* and *crunching* sound like leaves being stepped on); and short lines and one-word lines.

You might say:

“I want to write about how the poet describes leaves as if they are people. I’ll start by writing: *In ‘Autumn Leaves,’ the poet writes about the leaves as if they are people. First, she writes about the way they move by saying they ‘wander the sidewalks.’ Then she writes about the leaves drying up and dying by writing that they ‘gasp’ and ‘sigh.’ The poet also writes about the leaves saying goodbye by writing ‘they call their goodbyes.’ I think this personification is effective because it makes me think about the leaves in a new way—as something human-like and emotional, instead of as debris that falls from trees. I think that is Deborah Chandra’s point in this poem. I’ll write: I think this personification is effective because it helps the reader think about leaves in a new way, and that is what the poem is about. Now I need a closing sentence. I’ll write: Deborah Chandra’s poem makes me want to look at other things in new ways.*”

Tell the students that they will now write their own opinion paragraphs about whether or not they think items from the “Notes About Poems” chart are used effectively in “Autumn Leaves” and why; then have the students write their opinions. If time permits, invite the students to share their opinion paragraphs with the class.

Day 4

Proofreading

Materials

- “Child Frightened by a Thunderstorm” chart (WA6)
- “Windshield Wiper” chart (WA7)
- “I Love the Look of Words” chart (WA8)
- *Student Writing Handbook* pages 36–44
- Supply of loose, lined paper for final versions
- (Optional) Computers for typing and printing final versions

TEKS 12.A.ii
Student/Teacher Narrative
Step 1

In this lesson, the students:

- Explore how poets follow and break punctuation and capitalization rules
- Decide how they will punctuate and capitalize their poems
- Proofread and correct spelling and punctuation
- Begin writing the final versions of their poems

GETTING READY TO WRITE

1 Discuss How Poets Follow and Break Rules

Have the students get their notebooks, *Student Writing Handbooks*, and pencils and sit at desks with partners together. Explain that today they will work on the final versions of their poems and that tomorrow they will publish them by sharing them from the Author’s Chair. Then the students will contribute their poems to a book for the class library.

Explain that the students will proofread their poems for spelling errors and make sure they have used punctuation and capitalization in their poems exactly the way they want to. Tell the students that poets do not always follow the rules when it comes to punctuation and capitalization. When they break the rules, they do so on purpose, not accidentally.

Explain that before the students look at their own poems and decide how to punctuate and capitalize them, they will look at how poets follow and break these rules. Ask:

Q *When writing sentences, what do we usually do at the beginning and end to make sure they are written correctly?*

If necessary, remind the students that a sentence begins with a capital letter and ends with a period, question mark, or exclamation point.

Display the “Child Frightened by a Thunderstorm” chart (📄 WA6) and have the students turn to this poem on *Student Writing Handbook* page 39.

Ask them to scan the poem to see if the poet follows the rules for punctuating and capitalizing sentences. After a moment, ask:

Q *Does this poet follow the rules for punctuating and capitalizing sentences in this poem? Why do you say that?*

As the students refer to punctuation and capitalization in the poem, underline or circle the punctuation marks and letters on the chart. If necessary, point out that this poet follows the rules by capitalizing the first letter in each of the four sentences in the poem and ending each sentence with a period.

Next, display the “Windshield Wiper” chart (📄 WA7) and ask the students to turn to this poem on *Student Writing Handbook* page 42.

Ask:

Q *What do you notice about how this poem is punctuated? Turn to your partner.*

Have a few volunteers share with the class. If necessary, point out that “Windshield Wiper” has no punctuation or capitalization at all, and explain that this is an example of a poet breaking sentence writing and punctuation rules on purpose. She breaks the rules because she wants the poem to sound a certain way when it is read aloud. Repeat this procedure with “I Love the Look of Words” (📄 WA8), marking on the chart the places the students refer to as they share their ideas.

2 Review Drafts for Punctuation and Capitalization

Ask the students to review their poems and think quietly to themselves about the following questions:

- Q** *Do you follow the rules of capitalizing the first letters of sentences and using periods at the ends? If so, do you do this all the way through your poem?*
- Q** *If you did not start out following these rules, what did you do instead? Do you want to leave your poem this way or revise it to follow the rules?*
- Q** *If you choose not to follow the rules, do you do this consistently all the way through your poem?*

Teacher Note

If necessary, point out that while “Windshield Wiper” has no punctuation at all, “I Love the Look of Words” begins with standard sentence punctuation but leaves out some punctuation in the last stanza. If there’s time, you might ask:

Q *Why do you think Maya Angelou chose to leave out punctuation in the last stanza?*

If your students have difficulty answering this question, explain that one idea is that the words in the last stanza are treated more like popcorn piled into a bowl than parts of sentences.

Give the students a few moments to check and revise their punctuation and capitalization, and encourage them to use the poems in their *Student Writing Handbooks* as models for how to punctuate and capitalize their own poems.

3 Review Proofreading for Spelling and Conventions

Remind the students that in addition to checking their sentence punctuation and capitalization, they should use their word bank and proofreading notes in their *Student Writing Handbooks* to help them proofread their drafts before publishing (see Unit 2, Week 2, Day 2 on page 98 and Unit 2, Week 2, Day 3 on page 103). Briefly review these procedures by reminding the students to:

- Circle words in their drafts that they are unsure how to spell, and look the words up in their word banks. They will add to their word banks any words that are not already there after looking up the correct spellings in a dictionary or other source.
- Use their proofreading notes as a list of things to check before publishing. The students will correct any errors by crossing out each error and writing the correction above it (unless, for some reason, they choose to intentionally break the rule).

WRITING TIME

4 Proofread Drafts and Write Final Versions

Have the students work on proofreading their poems. Provide loose, lined paper to students who finish proofreading and are ready to begin their final versions. As they work, circulate, observe, and offer assistance. When the students seem to be working independently, confer with individual students.

TEACHER CONFERENCE NOTE

Continue conferring with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in his poem?
- Does the student include other elements of poetry?

(continues)

TEACHER CONFERENCE NOTE *(continued)*

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *Where might you use repetition? How might that help a reader understand your poem? What other sounds are you including?*
- Q *Where might you compare one thing to another? How might you write that?*
- Q *Have you decided to punctuate your poem with periods and to use capital letters? If you decided to follow the rules, are you doing this all the way through your poem? If not, what are you doing instead?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 154 of the *Assessment Resource Book*. As questions are added to this note, take time to check in with those students with whom you have already conferred to ask them those questions.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

5 Reflect on Proofreading

Ask and briefly discuss:

- Q *What words did you find in your word bank today? How did you check on words that were not in the word bank?*
- Q *What corrections did you make in your draft after reviewing your proofreading notes?*

Explain that the students will finish working on their final versions tomorrow.

Materials

- “Poet Quotes: What Is Poetry?” (see page 678)
- *Student Writing Handbook* page 45
- Supply of loose, lined paper for final versions
- “Notes About Poems” chart from Day 3
- A chair to use for Author’s Chair sharing
- Copy of this unit’s family letter (BLM1) for each student
- (Optional) Computers for typing and printing final versions

Facilitation Tip

Reflect on your experience over the past two weeks with **asking questions once** without repeating or rewording them and then **using wait-time**. Does this technique feel comfortable and natural for you? Do you find yourself using it throughout the school day? What effect has using this technique had on your students’ attentiveness and responsiveness in discussions? We encourage you to continue to use and reflect on this technique throughout the year.

In this lesson, the students:

- Think about the question “What is poetry?”
- Write the final versions of their poems
- Present their poems from the Author’s Chair
- Express interest in and appreciation for one another’s writing
- Ask one another questions about their writing

GETTING READY TO WRITE

1 Think About “What Is Poetry?”

Have the students bring their *Student Writing Handbooks* and gather with partners sitting together, facing you. Remind them that they began this unit by considering the question “What makes a poem a poem?” Tell them that many poets have tried to answer a similar question: “What is poetry?”

Ask the students to open to *Student Writing Handbook* page 45 and follow along as you read some poets’ definitions of poetry aloud. Invite the students to think as they listen about what their own definition of poetry might be.

Read “Poet Quotes: What Is Poetry?” (on page 678) aloud, slowly and clearly.

Ask and briefly discuss:

Q *What did you think about as you read these poets’ definitions of poetry?*

Q *What definitions do you agree with? Disagree with? Why?*

Use “Think, Pair, Share” to discuss:

Q *How would you answer the question “What is poetry?” [pause] Turn to your partner.*

After partners have had a chance to share, have a few volunteers share their thinking with the class. Invite the students to continue to think about this question as they finish writing their final versions today.

WRITING TIME

2 Finish Final Versions of Poems

Have the students work on finishing their final versions. If they finish, they may proofread and write the final version of a second poem. When they seem to be working independently, confer with individual students.

TEACHER CONFERENCE NOTE

Continue conferring with individual students about the poems they are writing. Ask each student to show you a draft of a poem and to read it aloud to you. Ask yourself:

- Is this student attempting to write a poem, rather than a story?
- Does this student include sensory details in her poem?
- Does the student include other elements of poetry?

Support the student by asking questions such as:

- Q *What is this poem about?*
- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*
- Q *Where might you use repetition? How might that help a reader understand your poem? What other sounds are you including?*
- Q *Where might you compare one thing to another? How might you write that?*
- Q *Have you decided to punctuate your poem with periods and to use capital letters? If you decided to follow the rules, are you doing this all the way through your poem? If not, what are you doing instead?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 154 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

3 Review Sharing Writing from the Author's Chair

Have the students bring their published poems and gather with partners sitting together, facing the Author's Chair. If necessary, remind the students of the procedures you established for presenting from the Author's Chair (see Unit 2, Week 2, "Do Ahead" on page 95).

Before asking the students to share from the Author's Chair today, discuss how they will act, both as presenting authors and as members of the audience. Ask and discuss:

- Q *How will you let the author know that you're interested in his or her poem? Why is it important to express interest in one another's writing?*

Direct the students' attention to the "Notes About Poems" chart and review the items on it. Encourage them to listen for things that appear on the chart as they hear one another's poems.

Teacher Note

As the students share their poems from the Author's Chair, collect the poems to compile into a class book.

Teacher Note

If necessary, plan another time so all of the students get to share their poems from the Author's Chair.

Teacher Note

For information on wrapping up this unit and conducting unit assessments, see "End-of-unit Considerations" on page 675.

Teacher Note

Prior to doing this activity, identify 3–4 audio recordings of poets reading their poetry that you can play for the students. The Children's Poetry Archive offers many such recordings to choose from. To find it, search online with the keywords "children's poetry archive." You might also search for recordings elsewhere on the Internet using the keywords "poets reading their own poetry."

4 Conduct Author's Chair Sharing

Have a student read his poem aloud twice, slowly and clearly, from the Author's Chair. At the end of the sharing, facilitate a discussion using questions like those that follow, and give the author an opportunity to respond to the class's comments and questions.

- Q *What did you imagine as you listened to [Cameron's] poem?*
- Q *What did you enjoy about hearing [Cameron's] poem?*
- Q (Refer to the "Notes About Poems" chart.) *What items on the "Notes About Poems" chart did you notice in [Cameron's] poem?*
- Q *What questions can we ask [Cameron] about his poem?*

Repeat this procedure to have other students share from the Author's Chair.

5 Reflect on Audience Behavior During Author's Chair Sharing

Ask and briefly discuss:

- Q *What did we do well as an audience today? What might we want to work on the next time poets share their work?*
- Q *If you shared a poem today, did you feel that people were interested in and appreciative of your efforts? Why or why not?*

Assure the students that they will all get to share their published poems from the Author's Chair in the coming days. After the poems are read aloud, assemble the poems in a class book, and place the book in the class library so the students can read it during independent reading time.

Remind the students that poets, like all writers, become better over time as they practice writing more and more. Encourage students who feel drawn to poetry to continue to write poems during their free time.

TECHNOLOGY EXTENSION

Listen to Poets Read Their Poetry Aloud

Remind the students that over the past couple of weeks they have listened to you read many poems aloud and they have read poems aloud themselves. Explain that hearing poetry read aloud can help the listener better understand the poem.

Tell the students that they are going to listen to some recordings of poets reading their poetry; then play for them the examples you identified. Stop after each poem and have the students discuss what they noticed about the way the poet read the poem (for example, the poet may have read some parts quickly and other parts slowly, or the poet may have read some parts loudly and some parts quietly).

If you have access to recording equipment, consider having the students create audio or video recordings of themselves reading their poems. Make the recorded poems available in the classroom or school library for others to enjoy.

EXTENSION

Write Letters Home About Poetry

Provide letter-writing practice for the students by having them write a letter home about what they learned about writing poetry. Stimulate their thinking by reviewing the “Notes About Poems” chart and discussing questions such as:

- Q *What makes a poem a poem?*
- Q *What else did you learn about writing poetry?*
- Q *What steps did you go through to develop and publish your own poem?*

If necessary, review the elements of a letter (date, greeting, body, closing, and signature) by modeling or writing a shared sample letter with the class. Have the students write and proofread their letters; then attach each student’s letter to a copy of her published poem and send it home along with this unit’s family letter.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of the Poetry genre unit. You will need to reassign partners before you start the next genre unit.
- Send home with each student a copy of the student’s published poem and a copy of this unit’s family letter (BLM1). Encourage the students to share their published poems with their families.
- Save the students’ published writing (or copies of it) to use for reflection and discussion in Unit 9.

Assessments

- Before continuing with the next unit, take this opportunity to assess individual students’ writing from this unit. See “Completing the Individual Writing Assessment” (IA1) on page 156 of the *Assessment Resource Book*.
- (Optional) Prior to sending the students’ published writing home to share with their families, you might have each student analyze his writing using the “Student Self-assessment” record sheet (SA1) on page 155 of the *Assessment Resource Book*. For more information about administering this assessment, see the extension “Introduce ‘Student Self-assessment’ ” on page 114.

Gentle Sound of Rain

by Lee Emmett

gentle sound of rain
in puddles plopping
pings metal corrugations
dripping and dropping

swishing and rushing
gushing into gutters
gurgling in down-pipes
running water splutters

pushing into crevices
washing window-panes
dashing down drive-ways
flushing out drains

splashing onto roads
spatters parked cars
forms scatter-patterns
like pock-marked Mars

crashing to crescendo
as brassy cymbal's roar
cacophony on roof
deafening downpour

Poem

I Love the Look of Words

by Maya Angelou

Popcorn leaps, popping from the floor
of a hot black skillet
and into my mouth.
Black words leap
snapping from the white
page. Rushing into my eyes. Sliding
into my brain which gobbles them
the way my tongue and teeth
chomp the buttered popcorn.

When I have stopped reading,
ideas from the words stay stuck
in my mind, like the sweet
smell of butter perfuming my
fingers long after the popcorn
is finished.

I love the book and the look of words
the weight of ideas that popped into my mind
I love the tracks
of new thinking in my mind.

Unit 9

Revisiting The Writing Community

During this one-week unit, the students review the writing they have done this year and reflect on their growth as writers and as members of the classroom writing community. They write letters to next year's class about what it means to be a writer, reflect on and write about a favorite author, and plan their summer writing. They thank their classmates for supporting them this year, and they express interest in and appreciation for one another's writing and thinking.

TEACHER AS WRITER

“Your first duty as a writer is to write to please yourself. And you have no duty towards anyone else.”

— Iris Chang

This week take some time to look over the writing you have done this year in your writing notebook. Compare the first few pieces you wrote with your latest pieces. What do you notice about how you have changed or grown as a writer? What challenges did you grapple with? How has your attitude about yourself as a writer changed? What do you hope for your writing practice in the coming year? Write and date your reflections in your writing notebook.

Writing Focus

- Students review their writing from the year.
- Students reflect on their growth as writers.
- Students write to next year’s class about how to be good writers.
- Students write about their favorite authors.
- Students plan their summer writing.

Social Development Focus

- Teacher and students build the writing community.
- Students act in fair and caring ways.
- Students build on one another’s thinking.
- Students express interest in and appreciation for one another’s writing.

DO AHEAD

- ✓ If you used the “Conference Notes” record sheet (CN1) from Unit 1 as a survey of the students’ goals and interests (see page 11 of the *Assessment Resource Book*), you might review the students’ responses to those questions prior to beginning your independent writing conferences this week. Have the completed record sheets available to refer to during your conferences.
- ✓ Prior to Day 1, gather all the students’ published writing from the classroom library, including individual pieces, pair work, and class books. Disassemble class books and return each student’s work. You might copy pair work and have partners decide who will take the original and who will take the copy. If necessary, provide folders so the students can keep all of their pieces together.
- ✓ Prior to Day 1, gather all the students’ filled writing notebooks from the year, and return each student’s work.
- ✓ Prior to Day 1, make a copy of the “Class Assessment Record” sheet (CA1) on page 172 of the *Assessment Resource Book*.
- ✓ Prior to Day 1, make a class set of the “Conference Notes” record sheet (CN1) on page 174 of the *Assessment Resource Book*.

(continues)

DO AHEAD *(continued)*

- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA2) on page 173 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, collect books written by authors the class studied this year (for example, *The True Story of the 3 Little Pigs!* by Jon Scieszka, *My Rotten Redheaded Older Brother* by Patricia Polacco, and *The Wreck of the Zephyr* by Chris Van Allsburg).
- ✓ Prior to Day 5, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student’s writing.
- ✓ (Optional) Prior to beginning Unit 9, plan a time to obtain an end-of-year writing sample from your students. For more information, see “Obtaining an End-of-year Writing Sample” on page 168 of the *Assessment Resource Book*. If you collected a beginning-of-year writing sample, your students can compare the two pieces of writing in Day 1, Step 5 (see page 686).

In this lesson, the students:

- Review their writing from the year
- Reflect on and write about how they have grown as writers
- Think about challenges they faced and what they have learned about writing
- Listen to the thinking of others and share their own
- Express interest in and appreciation for one another's writing

GETTING READY TO WRITE

1 Discuss Goals for the Week

Have the students stay at their desks for the lesson today. Have them get their notebooks, published writing from the year, and pencils.

Explain that during this last week of the *Being a Writer* program, the students will review the writing they did this year and think about how they have grown as writers and as members of a writing community. They will also reflect on and write about what they have learned about good writing, reflect on and write about a favorite author, and plan their summer writing.

2 Review Published Writing from the Year

Distribute a pad of small self-stick notes to each student, and explain that the students will first look through their published pieces from the year. Display the “Reflecting on Writing” chart (WA1) and tell the students that you would like them to think about the questions as they review their pieces.

Reflecting on Writing

- What is one of the best published pieces of writing you have done this year? Mark it with the word *best* on a self-stick note.
- What piece of writing did you have the most fun working on this year? Mark it with the word *fun* on a self-stick note.
- What piece of writing was the most challenging for you? Mark it with the word *challenging* on a self-stick note.

WA1

Point out that the students might decide to put multiple self-stick notes on a single piece of writing.

Give the students ample time to look through their published pieces and mark them with self-stick notes. When most of the students have

Materials

- Students' filled notebooks
- Students' published writing
- “Reflecting on Writing” chart (WA1)
- Pad of small self-stick notes for each student
- “Class Assessment Record” sheet (CA1)
- Class set of “Conference Notes” record sheets (CN1)

Teacher Note

You will not assign new partners this week. Have the students work with their partners from the previous unit or with other students sitting near them.

Teacher Note

This lesson may require an extended class period.

marked their best, most fun, and most challenging pieces, signal for their attention. Have them separate out the marked pieces of writing and put their other published pieces away.

3 Review Notebook Writing

Explain that for each of the flagged pieces, the students will find the drafts they wrote for those pieces in their notebooks and mark them with self-stick notes. Tell them that you would like them to reread those drafts and try to remember what it was like to write them.

Give the students ample time to review their notebooks, and then signal for their attention.

4 Share Marked Pieces with Another Student

Explain that the students will each share their thinking about the pieces of writing they marked with another student sitting near them. Encourage partners to tell each other what they remember about working on each piece and why they chose these as their best, most fun, and most challenging. Have partners share their writing with each other.

As partners share, walk around, listen, and observe.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to explain why they marked a piece as their best, most fun, or most challenging?
- Do they refer to their first drafts or other steps in the writing process in talking about their pieces?
- Do they listen carefully to each other?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 172 of the *Assessment Resource Book*.

After allowing enough time for both partners to share their writing, signal for attention. Have a few volunteers each tell the class about one piece of writing they marked and share what they thought about it.

5 Get Ready to Write About Growth as Writers

Ask the students to look at the first few drafts they wrote in their notebooks and to compare them with the last few drafts they wrote. After a moment, ask the students to think to themselves as they listen to the questions that follow. Ask the questions one at a time, pausing after each question to give the students time to think.

- Q *What do you notice about the way you wrote at the beginning of the year, compared to the way you write now?*

Teacher Note

If you collected beginning- and end-of-year writing samples, you might have the students compare those pieces of writing rather than the drafts in their notebooks.

Q *What kinds of words did you use in your early pieces, compared to your more recent pieces?*

Q *How do you think you have changed as a writer this year?*

Without sharing as a class, explain that you would like the students to open to the next blank page in their notebooks and write their reflections about how they think they have grown or changed as writers this year, based on looking at their work from the beginning and the end of the year. They do not need to write answers for each question you asked.

WRITING TIME

6 Write Reflections About Growth as Writers

Have the students write their reflections silently for 10–20 minutes. If they finish, they may write about anything else they choose.

TEACHER CONFERENCE NOTE

You may wish to confer once more with individual students this week, using their three marked pieces of writing as the topic of the conference. Ask each student to show you her marked pieces of writing and briefly tell you about each one. Help the student think about what it was like to write these pieces and how she has grown as a writer this year. Ask the student questions such as the following and record her responses:

Q *Which piece did you mark as your [best/most fun/most challenging]? Why?*

Q *What do you remember about working on this piece?*

Q *How do you feel about your writing?*

Q *How do you feel when you are asked to read your own writing to the class?*

Q *What did you like writing about this year?*

Q *What do you do best as a writer?*

Q *How do you think you have changed as a writer this year?*

Q *What are some things you might want to write about this summer?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 174 of the *Assessment Resource Book*.

Teacher Note

As you confer, you might compare the student’s responses to the questions on the “Conference Notes” record sheet (CN1) from Unit 1 with her responses to the questions on the “Conference Notes” record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask her what led to those changes.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

7 Share Reflections

Ask the students to reread what they wrote today and each underline a sentence that tells one way they think they have grown or changed as a writer this year. Give them a moment to select their sentences, and then go around the room and have each student read his sentence aloud to the class, without comment.

When all students have read their sentences about how they have grown or changed, ask and briefly discuss as a class:

- Q *What did you hear about how your classmates have grown as writers this year?*
- Q *What questions do you want to ask a classmate about the sentence he or she shared?*

Explain that tomorrow the students will continue to reflect on how they have grown and what they have learned as writers.

SOCIAL SKILLS ASSESSMENT NOTE

During this final week of the program, assess the students' social skill development using the "Social Skills Assessment Record" sheet (SS1); see page 176 of the *Assessment Resource Book*. Compare your notes from the fall, winter, and spring, and evaluate each student's social skill development over the course of the year.

Day 2

Reflecting on Writing

Materials

- "Ways to Be a Good Writer" chart (WA2)
- Loose, lined paper for writing letters
- *Student Writing Handbooks*
- "Class Assessment Record" sheet (CA2)

In this lesson, the students:

- Write to next year's class about ways to be good writers
- Get ideas by listening to others

GETTING READY TO WRITE

1 Review Genres Explored This Year

Have the students stay at their desks today. Remind them that they reflected yesterday on how they have changed or grown as writers over the past year. Point out that they have learned a lot about how

to be good writers of personal narratives, fiction stories, nonfiction informational pieces, opinion pieces, functional texts, and poetry.

Explain that today the students will reflect on what they have learned about how to be a good writer. Then they will write letters to next year's fifth-grade class to help them become good writers.

2 Reflect on Ways to Be a Good Writer

Use “Think, Pair, Share” to discuss:

Q *What have you learned about how to be a good writer?* [pause] *Turn to your partner.*

Display the “Ways to Be a Good Writer” chart (WA2). After the students have talked in pairs, signal for their attention and have volunteers report their thinking to the class. As they share, record their ideas on the chart.

Ways to Be a Good Writer

- Use sensory details.
- Check to see if your writing makes sense.
- Revise to improve your writing.
- Practice writing all the time.
- Write about what interests you.

WA2

Explain that during Writing Time today, the students will each write a letter to next year's fifth-grade class, giving them some advice to help them become good writers. Tell them that they may include things listed on the chart as well as other ideas they have. Point out that the letters should be written in their own words and should be friendly and encouraging.

If necessary, write the date, a greeting (for example, you might write *Dear next year's fifth graders*), and a closing (for example, *Sincerely*) where everyone can see it. As you write, point out the correct placement of commas in each part of the letter.

WRITING TIME

3 Write Letters to Next Year's Class Independently

Distribute loose, lined paper and have the students write their letters for 20–30 minutes. If they finish, have them proofread their letters for spelling and punctuation using their word banks and proofreading notes in their *Student Writing Handbooks*.

As the students work, walk around the room and observe them, assisting as needed.

Teacher Note

If the students have difficulty generating ideas for this question, suggest some ideas like those in the “Ways to Be a Good Writer” chart. Then ask:

Q *What else have you learned about how to be a good writer?*

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students write confidently about ways to be a good writer?
- Do students who seemed cautious or inhibited about their writing early in the year write more freely now?
- Do they confidently use their word banks and proofreading notes to proofread their writing?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 173 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Share Letters and Reflect on Working Together

Have each student share his letter with someone sitting nearby. Remind the students to listen carefully so they can share what their partners wrote with the class.

After giving some time for the students to share, signal for their attention and discuss:

- Q *What advice did your partner include in his or her letter to next year’s class?*
- Q *Is your partner’s letter friendly and encouraging? What does your partner write to make it feel that way?*
- Q *What did you do to help your work with your partner go well today?*

If necessary, give the students time to finish writing and proofreading their letters; then collect the letters and save them to share with your incoming class this fall.

Technology Tip

For more information about setting up and maintaining a class blog, view the “Creating a Class Blog” tutorial (AV76).

TECHNOLOGY EXTENSION

Post Letters on a Class Blog

If you created a class blog this year, some students might be interested in posting their letters for next year’s fifth graders on it. You might use the students’ posted letters to introduce your incoming class to commenting on blog posts.

In this lesson, the students:

- Review authors studied this year
- Reflect on and write about their favorite authors
- Listen to the thinking of others and share their own

GETTING READY TO WRITE

1 Review Authors Explored This Year

Have the students stay at their desks today. Remind them that they have been thinking about how they have grown as writers over the past year. Review that this year the students read and discussed examples of good writing by different authors to help them get ideas for their own writing. They also learned about the writing practices of authors like Jon Scieszka, Patricia Polacco, and Chris Van Allsburg. Show the cover of one of the books you collected and read the title and author's name aloud. Ask and briefly discuss:

- Q *What do you remember about this book?*
- Q *What do you remember learning about this author?*
- Q *What do you like about this author's writing?*

Repeat the procedure with the remaining authors. Explain that today the students will reflect on and write about their favorite authors.

2 Reflect on Favorite Authors

Tell the students that you would like each of them to think about an author that has inspired or influenced them as a writer. Explain that it may be an author they studied in the *Being a Writer* program, or it may be the author of another book they have enjoyed reading or hearing. Encourage them to recall authors that have given them ideas for their own writing or have helped them think about writing in a new way. Use “Think, Pair, Share” to discuss:

- Q *Who is one of your favorite authors?* [pause] *Turn to your partner.*

Display the “Reflecting on Authors” chart (WA3) and tell the students that you would like them to think about each question as you read it aloud. Pause after each question to give the students time to think.

Materials

- Collected books by authors studied this year
- “Reflecting on Authors” chart (WA3)

Teacher Note

If the students have difficulty thinking about a favorite author, have them first think about a favorite book and why they enjoyed it. If necessary, support them by providing names of the authors of books they mention.

Reflecting on Authors

- What do you like about the author's writing?
- Has the author influenced your writing in some way? If so, how?
- What question(s) might you ask the author if he or she were here?

Give partners several minutes to share their thinking and discuss the questions. Then signal for their attention and have a few volunteers share their thinking with the class.

Students might say:

"One of my favorite authors is William Steig. I like how he uses long, funny words in his books."

"I like how books by Jon Scieszka are sometimes crazy and funny. I'd like to ask him which of his books was most fun to write."

"Chris Van Allsburg's illustrations communicate so much of what his books are about. I try to do that with my illustrations, too."

"Patricia Polacco is an inspiration to me. She had to work hard to become a successful writer and I really enjoy her books."

"I love reading Jerry Spinelli's books. I wish I could ask him where he gets his ideas for stories."

Explain that during Writing Time today, each student will write her reflections about the author she chose. Encourage each student to write what she likes about the author's writing, how the author has influenced her own writing, and a question she would ask the author if he or she were here.

WRITING TIME

3 Write About an Author Independently

Have the students open to the next blank page in their notebooks and write their reflections silently for 10–20 minutes. If they finish, they may write about anything else they choose. Walk around the room and observe, assisting students as needed.

TEACHER CONFERENCE NOTE

Continue to confer with individual students today, using their marked pieces of writing from Day 1 as the topic of the conference. Ask each student to show you his marked pieces of writing and briefly tell you about each one. Help the student think about what it was like to write these pieces and how he has grown as a writer this year. Ask the student questions such as the following and record his responses:

- Q *Which piece did you mark as your [best/most fun/most challenging]? Why?*
- Q *What do you remember about working on this piece?*
- Q *How do you feel about your writing?*
- Q *How do you feel when you are asked to read your own writing to the class?*
- Q *What did you like writing about this year?*
- Q *What do you do best as a writer?*
- Q *How do you think you have changed as a writer this year?*
- Q *What are some things you might want to write about this summer?*

Document your observations for each student on a “Conference Notes” record sheet (CN1); see page 174 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Share Reflections

Have the students reread what they wrote today and each underline one sentence she wants to share about her favorite author. Give the students a moment to select their sentences. Then go around the room and have each student read her sentence aloud to the class, without comment.

When all of the students have read their sentences, ask and briefly discuss as a class:

- Q *Which author sounds interesting to you?*
- Q *What question do you want to ask a classmate about the sentence he or she shared?*

Teacher Note

As you confer, you might compare the student’s responses to the questions on the “Conference Notes” record sheet (CN1) from Unit 1 with his responses to the questions on the “Conference Notes” record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask him what led to those changes.

Materials

- “Writing Habits of Professional Authors” (see page 699)
- A highlighter or marker for each student
- “Writing Time” chart (WA4)

In this lesson, the students:

- Learn about the writing habits of professional authors
- Plan their summer writing
- Get ideas by listening to others
- Express interest in and appreciation for one another’s writing

GETTING READY TO WRITE

1 Generate Topics to Write About Over the Summer

Have the students stay at their desks today. Review that they have been looking back over the year and thinking about what they have learned and how they have grown as writers. Tell them that today they will look forward and think about how they plan to keep writing over the summer.

Ask the students to open to the writing ideas sections of their notebooks and to review the ideas they wrote over the year. Allow sufficient time for the students to review their ideas, and then ask:

Q *What are some ideas you didn’t get a chance to write about this year that you are still interested in writing about? Turn and talk to someone sitting next to you.*

Distribute a highlighter or marker to each student. Explain that you would like them to highlight or mark ideas in their notebooks that they are still interested in writing about. After they have had a chance to highlight their ideas, ask them to turn to a blank page and spend a few more minutes brainstorming and listing other ideas they might want to write about this summer. After a moment, ask and discuss as a class:

Q *What are some things you might want to write about this summer?*

Q *Why is it important for you to keep writing on your own this summer?*

Students might say:

“It’s important to keep writing on our own so we don’t forget how to be good writers over the summer.”

“It’s important to keep writing so we can keep getting better at writing.”

“In addition to what [Andy] said, it’s important to keep writing because it’s fun!”

Point out that most professional authors have daily habits that help them keep writing. They have a special time and place in which they write, and they write for a certain length of time. Sometimes they use particular materials, like a certain pen or kind of paper. Explain that

today you will read some quotes by professional authors about their writing habits. The students will then think about what kinds of habits they want to have to help them keep writing over the summer.

2 Read and Discuss Some Professional Authors' Writing Habits

Read “Writing Habits of Professional Authors” (see page 699) aloud slowly and clearly, clarifying vocabulary as you read.

Suggested Vocabulary

cubicle: small work area

lull: short, quiet break

teak: kind of wood

Ask and briefly discuss:

Q *What habits did you hear about?*

Q *What ideas did this give you about habits you can set for yourself at home to help you keep writing this summer?*

Explain that during Writing Time today, you would like the students to write in their notebooks about what they will do to help them continue to write this summer. Encourage them to write specific habits they want to establish, such as where, when, how often, and how long they will write each day. Also invite them to think about what objects they would like to have around them to help them write.

If the students finish, they may add to their lists of topics to write about this summer or choose one of those ideas and write about it.

WRITING TIME

3 Write About Writing Habits Independently

Display the “Writing Time” chart (WA4) and have the students work silently for 20–30 minutes.

Writing Time

- Write about what you will do to help yourself continue writing this summer.
- Add to your list of topics to write about over the summer.
- Pick one of your summer topics and start writing about it.

WA4

As the students work, walk around and observe, assisting as needed, or continue to confer with individual students.

Teacher Note

As you confer, you might compare the student's responses to the questions on the "Conference Notes" record sheet (CN1) from Unit 1 with her responses to the questions on the "Conference Notes" record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask her what led to those changes.

TEACHER CONFERENCE NOTE

You may wish to confer once more with individual students this week, using their three marked pieces of writing from Day 1 as the topic of the conference. Ask each student to show you her marked pieces of writing and briefly tell you about each one. Help the student think about what it was like to write these pieces and how she has grown as a writer this year. Ask the student questions such as the following and record her responses:

- Q *Which piece did you mark as your [best/most fun/most challenging]? Why?*
- Q *What do you remember about working on this piece?*
- Q *How do you feel about your writing?*
- Q *How do you feel when you are asked to read your own writing to the class?*
- Q *What did you like writing about this year?*
- Q *What do you do best as a writer?*
- Q *How do you think you have changed as a writer this year?*
- Q *What are some things you might want to write about this summer?*

Document your observations for each student on a "Conference Notes" record sheet (CN1); see page 174 of the *Assessment Resource Book*.

Signal to let the students know when Writing Time is over.

SHARING AND REFLECTING

4 Share Plans for Summer Writing

Ask the students to reread what they wrote today and each underline a sentence that tells one thing he will do to help keep writing this summer. Give the students a moment to select their sentences. Then go around the room and have each student read his sentence aloud to the class, without comment.

When all the students have read their sentences, ask and briefly discuss as a class:

- Q *What ideas did you hear that you want to add to your list?*
- Q *What questions do you want to ask a classmate about the sentence he or she shared?*

Give the students a moment to add ideas to their lists, if they wish. Encourage them to continue writing as much as they can this summer and to focus on enjoying their own writing.

In this lesson, the students:

- Reflect on their contributions to the writing community
- Reflect on how they have benefited from the writing community
- Thank one another for their help

GETTING READY TO SHARE

1 Reflect on the Classroom Writing Community

Have the students stay at their desks today. Remind them that they reflected on how they have grown as writers earlier in the week. Explain that today they will have a chance to think about how they did with creating a safe and caring writing community this year and how they have personally grown as members of the community.

Have the students close their eyes and visualize as you ask the following questions. Pause after each question to give them time to think.

- Q *What has it felt like to be a part of our writing community this year?*
- Q *What have you done to contribute to our community this year?*
- Q *What are three things your partners or classmates have done to help you become a better writer this year?*

Have the students open their eyes, turn to the next blank page in their notebooks, and write the three things their classmates or partners have done to help them become better writers this year.

After the students have had time to list their ideas, call for their attention.

SHARING AND REFLECTING

2 Share Reflections and Thank One Another

Have the students bring their notebooks and gather in a circle. Explain that each student will choose one of the three things she listed to read aloud to the class. Point out to the students that it is important to take time to thank people who have been helpful to them, and invite them to say “Thank you” to the class after they read.

Give the students a moment to select what they will read aloud. Then go around the room and have each student read her selection and then say “Thank you.” When all the students have read their selections, ask and discuss:

- Q *How have we done at creating a caring and safe community this year? What makes you think so?*

Materials

- Copy of this unit’s family letter (BLM1) for each student

Teacher Note

Some ways students have helped each other become better writers this year include brainstorming ideas together, giving each other feedback, working on some writing projects together (such as the nonfiction informational piece), asking each other questions about their writing, and showing interest and appreciation when sharing from the Author’s Chair.

Q *How have you grown in your ability to work with partners this year?*

Students might say:

"I think we did a good job creating a community this year. Whenever we had problems, we talked about them so we could get along better."

"I agree with [Paulie] because the more we got to know each other, the more we were a community."

"I used to be too shy to talk to my partner, but now I feel I can talk to any partner I have."

You might want to share some of your general observations about ways your students have changed or grown as members of the community over the year.

You might say:

"I remember how some students didn't want to work with their assigned partners at the beginning of the year. Now you are much better at working with any partner. I also notice that you relied much more heavily on me at the beginning of the year to help you solve your problems. Now you are able to solve many problems by yourselves."

Encourage the students to continue to write and to become caring members of their classroom writing community next year.

End-of-unit Considerations

Wrap Up the Unit

- Send home with each student the student's published pieces, writing notebook, and a copy of this unit's family letter (BLM1). Encourage the students to share their published pieces with their families.

Assessment

- (Optional) If you obtained end-of-year writing samples, you might want to reflect on each student's writing using the "End-of-year Writing Sample Record" sheet (WS2) on page 170 of the *Assessment Resource Book*. For more information on analyzing the writing samples, see "Obtaining an End-of-year Writing Sample" on page 168 of the *Assessment Resource Book*. If you collected beginning-of-year writing samples, you might assess each student's growth as a writer by comparing your comments on the "Beginning-of-year Writing Sample Record" sheet (WS1) with your comments on the "End-of-year Writing Sample Record" sheet.

The background of the graphic features faint, overlapping text from various sources, including phrases like "I know by her voice," "saying, but the others didn't know," "making it as long as you can," "said Ph," "her arms round Mother's wa," "remember," "In Russia at the time of the rich people," "say anything about the things that ought to be," "or about the things that ought to be," and "make poor people better and happier. Excerpts

Writing Habits of Professional Authors

“Get up very early and get going at once; in fact [write] first and wash afterwards.”

— W. H. Auden

“I generally write for three or four hours at a sitting, mornings as a rule.”

— Saul Bellow

“The writer . . . withdraws to some quiet corner, a bedroom perhaps, or any cubicle with a chair and table, and applies himself to his blank paper. Two hours a day are needed, three hours are better, four are heroic.”

— Gerald Warner Brace

“My goal is to write only one sentence a day. I write this on the bus on my way to work. I usually find that I write more than just one sentence, but the important point is that I have accomplished the goal I set by 9:00 a.m.”

— Lavinia Dobler

“Now I keep a typewriter with a sheet of paper in it on the end of the kitchen table. When I have a five-minute lull and the children are playing quietly, I sit down and knock out a paragraph.”

— Lois Duncan

“I have a nice teak desk, long and wide, on which I keep special things: crisp new legal pads and No. 2 pencils with good rubber erasers that don't leave red smears; a dark blue draftsman lamp that twists and bends like a tall, limber skeleton; a small quartz clock that silently flicks the minutes . . . and an orange tomcat who lies on a blanket and snores.”

— Gail Godwin

TECHNOLOGY MINI-LESSONS

Mini-lesson 1

Navigating Safely Online

DO AHEAD

- ✓ Visit the CCC Learning Hub at cclearninghub.org to access and print the digital citizenship family letter (BLM1). Make enough copies to send home one letter with each student.
- ✓ Prepare a chart titled “Our Digital Citizenship Contract” (see Step 4 on page 704).
- ✓ Find out if your school has an acceptable use policy that the students and their families need to sign before the students can use the computers. Be prepared to review it with the students in Step 4.

Materials

- “Our Digital Citizenship Contract” chart, prepared ahead
- Copy of the digital citizenship family letter (BLM1) for each student

In this lesson, the students:

- Work in pairs
- Learn and use the term *digital citizen*
- Compare staying safe online to staying safe in the real world
- Reflect on rules for staying safe online

ABOUT DIGITAL CITIZENSHIP LESSONS

In Technology Mini-lessons 1-3, the students think about and discuss how to use the Internet in safe, secure, and respectful ways. The lessons culminate with the students signing an “Our Digital Citizenship Contract,” which lists rules and agreements for responsible online behavior at school. After each lesson, the students are encouraged to share what they learned with their families and create similar rules and agreements for online behavior when not at school. If possible, plan to teach all three digital citizenship lessons in order before the students do research online.

1 Gather the Students and Discuss Going Online

Gather the class with partners sitting together, facing you. If possible, have current writing partners work together.

Tell the students that one way to find resources for their research projects is to search for information on the Internet. Remind them that the Internet is a worldwide resource that millions of people use every day. Using the Internet, or going online, can connect the students to the world and allow them to find interesting facts and information. Ask:

Q *What are some ways you use the Internet?*

2 Introduce Digital Citizenship

Tell the students that, just as they need to be responsible citizens in real life by following rules and treating people well, they also need to be responsible citizens when they are online. The connections they have with people and information when they go online is in many ways like being part of a community. Being responsible and making good choices in this community is called being a *good digital citizen*. Tell the students that one way to be a good digital citizen is to follow certain online safety rules.

3 Compare Staying Safe Online to Staying Safe in the Real World

Explain that staying safe when going online can be similar to staying safe in the real world. Ask the students to listen as you describe the following scenario aloud:

“Karla wants to meet some friends at the neighborhood pool. She lives very close to the pool and knows how to get there, so she asks for permission to walk there on her own. Her mom says yes and reminds her to stay safe and be careful.”

Point out that Karla asked for permission before she walked to the pool. This helped her stay safe because her mom knew where she was going. Ask:

Q *What might Karla do to stay safe while walking to the pool? How will that keep her safe?*

Students might say:

“She should stay on the sidewalks and cross only at crosswalks.”

“Karla should only go where she told her mom she was going. That way her mom will know where she is if she needs to find her.”

Then use “Think, Pair, Share” to have partners discuss the question that follows. After a moment, have a few volunteers share their ideas with the class.

Q *How might going online be similar to going for a walk in your neighborhood? [pause] Turn to your partner.*

Students might say:

"The Internet is such a big place—you have to know where you are going so you don't get lost."

"There are places on the Internet that aren't safe. You should only go where you have permission to go."

"You may cross paths with people you don't know."

If the students do not mention it, point out that there are countless numbers of websites on the Internet, so it is important to know what to look for and what to avoid. Explain that just as it is important to know where to turn when walking to the neighborhood pool, it is important to know which websites are safe to visit and which sites should be avoided. Just like it is important not to talk to people you do not know when walking to the neighborhood pool, it is important not to talk to people you do not know online. Point out that, just as you would tell an adult if you noticed anything suspicious on a walk, it is important to tell an adult if you notice anything suspicious online. Tell the students that it is also important to ask for help whenever they need it.

4 Introduce Class Rules for Staying Safe Online

Explain that this year the students will have opportunities to go online at school and that today they will discuss the rules they need to follow to stay safe. Post the "Our Digital Citizenship Contract" chart and read each rule to the class.

Teacher Note

You may want to give the students specific examples of ways they will use the Internet at school this year.

Teacher Note

If your school has an acceptable use policy that students and their families need to sign before the students can use the computers, review it with the students and confirm that the settings on the search engines on your school's computers are set to "Strict," "Safe," or a comparable mode.

Our Digital Citizenship Contract

We will get permission before going online.

We will ask the teacher or a responsible adult before going to an unknown website.

We will ask the teacher or a responsible adult for help if we come across any information that is confusing or makes us uncomfortable.

We will ask the teacher or a responsible adult before downloading anything from the Internet onto the computer.

We will ignore advertisements and pop-ups that appear on the page.

We will leave computer and search settings alone.

We will follow all school computer rules.

5 Reflect on Online Safety Rules

Use “Think, Pair, Share” to have the students discuss how the rules will help keep them safe online by asking:

Q *Why do you think [asking for help before going to an unknown website] is important? [pause] Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

Students might say:

“We should ask for help before going to a new website because the teacher will know whether or not it’s a safe site to visit.”

“It’s important to ignore ads because they are trying to sell something and we won’t be buying anything online when we are at school.”

Then ask:

Q *What else might we do to stay safe online? Why do you think that?*

As the students share, add their ideas to the chart.

Explain that you would like the students to pledge, or promise, to follow these rules for staying safe online. Tell them that in coming lessons they will discuss other ways to be good digital citizens and add them to the chart.

6 Discuss Staying Safe Online When Not at School

Tell the students that you would like them to discuss with their families the rules for online safety they learned today, and encourage them to come up with similar rules for staying safe when they are online outside of school.

Plan to check in with the students throughout the year to discuss how they are doing with following the online safety rules.

Teacher Note

Save the “Our Digital Citizenship Contract” chart to use in Technology Mini-lesson 2.

Teacher Note

Send home with each student a copy of the digital citizenship family letter (BLM1).

Teacher Note

You might have the class share ideas for favorite kid-friendly websites and post the list where everyone can see it. Give the students time to explore these websites and continue to add new ones to the list throughout the year.

DO AHEAD

- ✓ Add the online privacy rules to the “Our Digital Citizenship Contract” chart (see Step 3 on page 707). Cover the new rules with another sheet of paper until you introduce them in Step 3.

Materials

- “Our Digital Citizenship Contract” chart from Technology Mini-lesson 1

Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 1 on page 702).

In this lesson, the students:

- Work in pairs
- Recognize when it is appropriate to share private information
- Reflect on class rules for online privacy

1 Introduce Maintaining Privacy Online

Gather the class with partners sitting together, facing you. If possible, have current writing partners work together.

Remind the students that they have been thinking about what it means to be a good digital citizen. In the previous lesson, they learned that staying safe online is a lot like staying safe in the real world. Direct their attention to the “Our Digital Citizenship Contract” chart (with the privacy rules covered) and briefly review the safety rules the students have learned for using the Internet. Tell them that another way to be a good digital citizen is to follow certain online privacy rules, or rules for keeping their private information safe. Explain that following these rules will help protect both themselves and their computers when they are online.

2 Discuss When to Share Private Information

Tell the students that the kind of information that is important to keep private online can be similar to the kind of information that is important to keep private in real life. Ask them to listen as you describe the following scenario:

“Tenzin is doing a research report about roller coasters and visits his neighborhood library to collect some books on the topic. He finds several books and sits at a table to look through them. Another boy sitting at the table asks Tenzin why all his books are about roller coasters. They start talking about their favorite roller coasters and discover that they both like to play the same online roller coaster video game.”

Ask:

- Q *Do you think it is appropriate (OK) for Tenzin to share his favorite roller coasters with the boy at the table? Why?*
- Q *Imagine that Tenzin's new friend asked him for his [video game password]. Do you think that would be appropriate? Why or why not?*

Students might say:

"I think it is fine for him to talk about roller coasters. They're talking about things they like."
"Tenzin shouldn't share his password. He doesn't know the other boy at all."
"I'd be suspicious if someone I didn't know asked me for one of my passwords."

Then use "Think, Pair, Share" to discuss questions such as:

- Q *How is sharing [your favorite roller coaster] with someone you don't know different than sharing [your password]? [pause] Turn to your partner.*
- Q *Do you think it is a good idea to share [your home address] with someone you don't know? Why do you think that? [pause] Turn to your partner.*

Explain that contact information, such as your name, phone number, and e-mail address, and information such as computer passwords are *private*—or information you share only with people you know and trust. Tell the students that, just as they do not share private information with people they do not know in real life, they should not share private information with people they do not know online.

3 Introduce Class Rules for Online Privacy

Ask and briefly discuss:

- Q *Have you ever been asked to share information about yourself online? If so, what kind of information?*

Students might say:

"A lot of people post pictures on a blog I read."
"Some video game sites ask for my birthday."
"Sometimes I have to enter my name to get onto some kids' websites."

Tell the students that to protect themselves and their computers they should never share private information about themselves, their families, or their computers when they are online. Explain that when they use the Internet at school, they will need to follow certain privacy rules. Direct their attention to the "Our Digital Citizenship Contract" chart and uncover the rules that you added to it.

Read each rule to the class:

Our Digital Citizenship Contract

We will keep personal contact information private.

We will keep sign-in information private.

We will keep passwords private.

We will keep personal photos private.

4 Reflect on Online Privacy Rules

Use “Think, Pair, Share” to discuss why each rule is important. Ask:

Q *Why do you think it's important to [keep your contact information private] when online? [pause] Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

Students might say:

“You should be comfortable being contacted by the people you give your phone number or e-mail address to. If you aren’t, then you shouldn’t give them that information.”

“Giving someone your password is like giving them the keys to your house. It gives them access to all of your stuff.”

“You should know how someone will use the information you give them.”

Ask:

Q *What other privacy rules might we want to add to the chart? Why do you think that?*

As the students share, add their ideas to the chart.

Explain that you would like the students to pledge, or promise, to follow the online privacy rules, just as they did with the online safety rules.

5 Discuss Maintaining Online Privacy When Not at School

Tell the students that you would like them to discuss with their families the online privacy rules they learned today. Encourage them to come up with similar rules for maintaining privacy online outside of school. Plan to check in with the students throughout the year to discuss how they are doing with following the online privacy rules.

Teacher Note

Save the “Our Digital Citizenship Contract” chart to use in Technology Mini-lesson 3.

In this lesson, the students:

- Work in pairs
- Compare online interactions with face-to-face interactions
- Generate classroom agreements for showing respect online

1 Gather the Students and Review Digital Citizenship

Gather the class with partners sitting together, facing you. If possible, have current writing partners work together.

Remind the students that they have been talking about how to stay safe and maintain privacy while using the Internet. Briefly review the “Our Digital Citizenship Contract” chart and ask:

Q *How can these rules help you stay safe online?*

Tell the students that today they will talk about ways to show respect to one another when online.

2 Discuss Being a Respectful Community Member

Remind the students that they have been focusing this year on building a writing community in which they treat one another with respect, and point out ways you have observed them being respectful.

You might say:

“I’ve noticed that you respectfully listen to others’ opinions. I’ve also noticed that you look at the person who is talking and you use kind language when giving feedback to your writing partners.”

Ask and briefly discuss:

Q *What are other ways you show one another respect?*

Students might say:

“I help other students when they need it.”

“I don’t interrupt others when they are talking.”

“I am responsible with the materials in class so that others can use them, too.”

3 Compare Online and Face-to-face Communication

Explain that communicating with people online is similar to communicating with people face-to-face—with some very important differences. Point out ways the students have interacted (communicated) or might interact with one another online this year, such as by e-mailing

Materials

- “Our Digital Citizenship Contract” chart from Technology Mini-lesson 2
- Chart paper and a marker
- Paper and pencil for each student

Teacher Note

Plan to teach this lesson soon after teaching the first two technology mini-lessons (see Technology Mini-lesson 1 on page 702 and Technology Mini-lesson 2 on page 706).

Teacher Note

If you have established class norms for respectful behavior, you may want to review them.

or by posting a comment on a class blog or website. Then use “Think, Pair, Share” to discuss questions such as:

- Q *How is [e-mailing a friend] similar to [talking to a friend at school]? How is it different? [pause] Turn to your partner.*
- Q *What do you think is the most important difference between online and face-to-face communication? Why do you think that? [pause] Turn to your partner.*

Students might say:

“You can’t see the person you are talking to online so it’s hard to tell how that person feels.”

“It’s different because people might not care as much about being respectful if they don’t think they will ever meet the person they are interacting with.”

“Sometimes it’s easier to say things over e-mail than it is when you are face-to-face.”

If necessary, point out to the students that they often cannot see the person they are interacting with online so it is easy to forget that they are communicating with a real person who has feelings. They cannot see the person’s facial expressions or body language, so it is difficult to tell how that person is reacting to their e-mails or comments. This means the students need to pay special attention to the tone of their writing to make sure their messages are clear and respectful. Also, point out that, as good digital citizens, they need to be respectful even when they do not know the person they are interacting with online.

4 Generate Ideas for Being Respectful Online

Tell the students that you want them to develop a set of agreements for respectful online behaviors to add to the “Our Digital Citizenship Contract” chart. Explain that you would like them to begin by thinking about and discussing a few situations. Use “Think, Pair, Share” to discuss:

- Q *Students from another class have posted their published research projects on the school website, and the teacher asks you to read and comment on them. How can you show respect in your comments? [pause] Turn to your partner.*
- Q *For a class blog, you need to debate the pros and cons about watching TV. Members of the class have very different opinions on the topic. How might you show respect in your posts? [pause] Turn to your partner.*
- Q *You are researching online for a report about roller coasters. You come across a blog about roller coasters written by a student you’ve never met. As you read it, you find inaccurate (wrong) information and decide to point this out in a comment. What might you do before posting your comment? [pause] Turn to your partner.*

After partners have discussed the questions, have a few volunteers share their ideas with the class, and write them down on a piece of chart paper. As they share, facilitate a discussion by asking questions such as:

- Q *Why is [rereading what you wrote before posting a comment] important?*
- Q *How will [thinking about how the other person might feel] help you be respectful?*

5 Decide on Agreements and Sign the Class Contract

Have the class review the ideas you recorded and together decide on a list of four or five agreements that represent the way they want to treat one another online.

Ask questions such as:

- Q *Can we combine any of these ideas into one agreement? If so, which ones?*
- Q *Is there anything that is not on this list? What is it?*

Students might say:

"We can combine 'listen to others' opinions' with 'treat others how you want to be treated.' We could just say that we will respect others' feelings."

"We can combine 'don't use put-downs' and 'write only kind words when interacting.' We can just say that we will use respectful language in our writing."

Continue the discussion until everyone agrees on the list and then add the agreements to the "Our Digital Citizenship Contract" chart.

Remind the students that agreeing to use the Internet in safe, secure, and respectful ways will help them be good digital citizens. State your expectation that the students will try their best to act according to the rules and agreements on the contract when they are online at school. Take time to have the students sign the class contract (and sign it yourself).

6 Discuss Showing Respect Online When Not at School

Tell the students that you would like them to discuss with their families the agreements for showing respect online that they listed today. Encourage them to come up with similar agreements for showing respect when they are online outside of school.

Distribute writing paper and explain that you would like the students to write down the entire "Our Digital Citizenship Contract" chart to bring home to share with their families.

Throughout the year, review the students' commitment to be good digital citizens and check in regularly to see how they are doing. You may decide to modify or add to the class contract as needed.

Teacher Note

If necessary, restate the class agreements positively and record them as "We will ..." statements. For example:

- We will always use respectful language in our writing.
- We will reread what we write before we e-mail or post a comment.
- We will think about others' feelings before we post a comment.
- We will remember there is a real person on the other end of the computer.
- We will choose to be respectful with all people we communicate with online, whether we know them or not.

Teacher Note

This discussion might require another class period. Reaching agreement may mean deleting, combining, or modifying ideas on the list.

Teacher Note

Post the "Our Digital Citizenship Contract" chart near the classroom computer(s) for the students to refer to when they go online throughout the year.

Materials

- Whiteboard with a search engine displayed
- Chart paper and a marker
- “How to Turn a Research Question into a Search Query” chart, prepared ahead
- Students’ writing notebooks and pencils

Teacher Note

Technology Mini-lesson 4 closely matches the instruction in Week 3, Day 3 of the Expository Nonfiction unit. If you have already taught that unit and your students need further support choosing search terms, you might teach Mini-lesson 4. (If only some students need more support, you might teach Mini-lesson 4 just to those students.) If your students do not need further support choosing search terms, you might skip Mini-lesson 4 and teach Mini-lessons 5–8.

DO AHEAD

- ✓ Prepare a chart titled “How to Turn a Research Question into a Search Query” (see Step 3 on page 714). If you have already taught the Expository Nonfiction unit, you can use the paper chart you created for use in Week 3, Day 3 of that unit (see page 393).
- ✓ Become familiar with a few search engines and decide which one you will use for this lesson (see the Teacher Note on page 713).
- ✓ Check that the preferences on the search engine you select to use with the class have been set to “Strict,” “Safe,” or a comparable setting.

In this lesson, the students:

- Work in pairs
- Learn and use the terms *search engine*, *search term*, and *search query*
- Identify the best terms for an effective search query

ABOUT TEACHING THE ONLINE RESEARCH LESSONS

In Technology Mini-lessons 4–8, the students learn how to search effectively for online research sources, evaluate the credibility of the sources they find, and give credit for the sources they use. If possible, start teaching these lessons when the students begin doing research online. The skills taught in the lessons build on one another, so plan to teach them in order and at corresponding stages in the students’ research. For example, teach “Technology Mini-lesson 4: Choosing Effective Search Terms” after the students have identified a research topic, and teach “Technology Mini-lesson 7: Evaluating Research Sources” after the students have searched for and collected several online sources.

1 Introduce Searching for Information Online

Have the students bring their notebooks and pencils and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Remind the students that they have been searching for information about their research topics. Today they will learn how to use a search engine to find information on the Internet. Explain that a *search engine* is a web-based tool that searches the Internet using words you type into a search bar. Finding the information you are looking for requires

knowing how to choose the best words, or *search terms*, to type into a search engine.

2 Model Choosing Best Terms for a Search Query

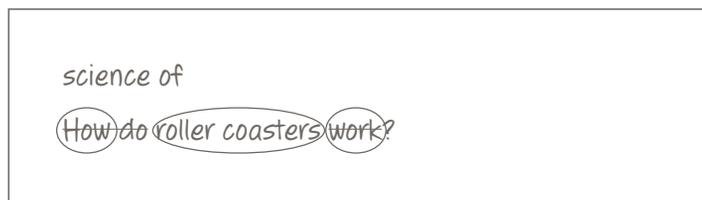

Direct the students' attention to the search engine displayed on the whiteboard and point to the search bar where search terms are entered. Explain that good researchers start with a research question and then identify words within the question to use for their search. For example, if you are researching roller coasters and want to find out how they work, you might start with the research question "How do roller coasters work?"

Write the question on a piece of chart paper where everyone can see it. Explain that you will use the question to help you identify a set of words for your search and that the set of words you choose is called a *search query*.

Explain that a query tells a search engine exactly what information is needed. Search queries are not usually complete sentences because they use only words directly related to the topic of the search. Ask the students to listen carefully as you think aloud about and model how to change the question, "How do roller coasters work?" into a search query.

You might say:

"I know I need the words *roller coasters* because that is what I am researching, and I need *how* and *work* because that is the specific information about roller coasters that I want. So *roller coasters*, *how*, and *work* are my search terms—I am going to circle them. [Circle *roller coasters*, *how* and *work*.] I don't need the word *do* because it doesn't say anything about the information I need, so I will cross it out. [Cross out *do*.] Now I have the words *how*, *roller coasters*, *work*. My search query could be *how roller coasters work*, but that sounds a lot like my original question. What I really want to know is the science that makes roller coasters work, so I will substitute the words *science of* for *how* and *work*. [Cross out *how* and *work* and write *science of* above *roller coasters*.] That sounds better. So now my search query will be: *science of roller coasters*."

Type the search query into the search engine's search bar and display the results. Read some of the results aloud. Use "Think, Pair, Share" to discuss:

Q *How useful do you think these search results will be for the research topic?*
[pause] *Turn to your partner.*

If needed, point out any results that directly address your research topic.

Teacher Note

Many search engines are available, including some that are intended for students' use. You may already have a preferred search engine that you use most often. Spend some time becoming familiar with a few search engines and decide which one you'll use for this lesson.

Teacher Note

After discussing the search query results with the students, you may want to demonstrate how changing the order of the words in your search query affects the search results.

3 Choose Best Terms for a Search Query

Explain that the students will follow the same procedure to turn a different research question into a search query. Post the chart titled “How to Turn a Research Question into a Search Query” and read each step aloud:

How to Turn a Research Question into a Search Query

1. Write down your research question.
2. Circle the words you definitely need.
3. Cross out unnecessary words.
4. Add or substitute more specific words if needed.
5. Decide in what order to write the words.

Write *When was the first roller coaster built?* under “How do roller coasters work?” and have the students copy it in their notebooks. Ask partners to read the question carefully and follow the steps on the chart to decide on a search query.

Walk around the room and observe. If necessary, direct the students’ attention to the chart and remind them to follow each step. Review that queries use only words directly related to the research topic.

When most pairs have finished, signal for attention and have a few volunteers share their queries with the class.

Remind the students that a search query tells a search engine exactly what information to search for about a research topic. Save the “How to Turn a Research Question into a Search Query” chart to post as needed later.

4 Continue Online Research

Explain that the students will use what they learned today in their own research. Have them open their notebooks and identify any questions they still have about their research topics. Invite them to use the “How to Turn a Research Question into a Search Query” chart to write queries about their topics.

When the students have demonstrated that they know how to choose effective search terms, see Technology Mini-lesson 5 to teach them how to understand their search results.

Teacher Note

The students may decide on a search query such as *first roller coaster* or *roller coaster time line*.

Teacher Note

If your school has an acceptable use policy, review it with the students.

DO AHEAD

- ✓ Read Steps 2 and 3 of the lesson to familiarize yourself with the features of a search results page and web addresses.
- ✓ Prepare a chart titled “Common Domain Suffixes” (see Step 4 on page 717).
- ✓ Type the query *science of roller coasters* into a search engine and save the search results page for use in Step 2.
- ✓ Identify a couple of examples of websites with different domain suffixes, and bookmark them to display on the whiteboard in Step 4.

In this lesson, the students:

- Work in pairs
- Learn and use the terms *search result*, *web address*, and *domain suffix*
- Explore the features of a search results page
- Learn key parts of web addresses
- Identify potentially useful sites for their research topics

1 Introduce Search Results Page

Have the students bring their notebooks and pencils and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Remind the students that they can use an Internet search engine to find information about a research topic. Review that in the previous lesson they discussed how to choose search terms for a query. Explain that today they will discuss the page that lists the results of a query and learn how to decide which websites to use in their research.

2 Discuss Features of a Search Results Page

Display the search results page you prepared ahead and review that this is the page that appeared when you typed *science of roller coasters* into the search bar. Explain that this page is called the *search results page* and that a results page will look different depending on the search engine you use but that all search results pages have features in common. Discuss these features by first pointing to the list of websites in the main column of the page and explaining that these websites are sources of information

Materials

- Whiteboard with search results displayed, prepared ahead
- Chart paper and a marker
- “Common Domain Suffixes” chart, prepared ahead
- “Web Address Example” chart (WA1)
- Students’ writing notebooks and pencils
- “Evaluating Search Results” chart (WA2)

Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 4 on page 712). You may want to briefly review the previous lesson before starting this one.

about the science of roller coasters. Tell the students that they will look more closely at the websites later.

Point to the advertisements on the page and explain that advertisements are often marked with the words *Ads* or *Sponsored Results* and are frequently listed in the left- or right-hand column or at the top or bottom of the page. Tell the students that when they are doing research, they should ignore the advertisements. Ads are trying to sell something and, for that reason, they are not a good source of information about a research topic.

Next, point out the filters, which are often found across the top of the page or in the left-hand panel. Explain that *filters* are search tools that let you control the kind of information that will be displayed on the page. Tell the students they will learn about filters in another lesson.

Direct the students' attention back to the list of websites in the main column of the page and review that these are the main *search results*, or sources of information you might explore to find out about the science of roller coasters. Point to a website and explain that the title is underlined and the search terms are bold. The text below the underlined title is called a *snippet* and is a small piece of text taken directly from the website. Point to the web address and explain that the *web address* is usually underneath the title or on the last line of the result.

If the students need more practice understanding the parts of an individual search result, choose one or two more to review with the class.

3 Identify Parts of a Web Address

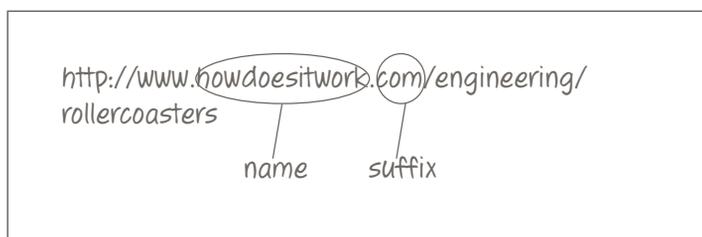

Tell the students that anyone can post information on the Internet, so not all of what they find will be useful or reliable for research. Good researchers know how to look for clues about the type of information that a source, such as a website, will provide in order to choose the best sources to use for their report. One way to do this is to look at the parts of a web address, which can always be found in the address bar that is usually located at the top of the page.

Choose one of the web addresses from your search results page and write it on a piece of chart paper. Circle and label the name (the text that follows *http://www* and precedes a suffix like *.com* or *.org*).

Ask the students to listen as you describe and label each part of the address: the site's name, the domain suffix, and the information that follows the suffix.

You might say:

"The name of a website in a web address sometimes gives information about where the website comes from and whether or not it will help in our research. The name of a website is usually found after the letters *http* and *www*. The name of this site is *how does it work*, which means it's probably a website filled with information about how things work. Sometimes there is no *http* or *www* in the address. [Circle and label the suffix.] The last part, or *domain suffix*, of a website comes after the name and also gives helpful information about the website. The suffix of this website is *.com*. The string of text that comes after the suffix can also include helpful information. In this address, it says that the website will have information about the structure and engineering of roller coasters. Thinking about the name, suffix, and information after the suffix tells me that this website will be about how the engineering of roller coasters makes them work."

Use "Think, Pair, Share" to discuss:

Q *Do you think this website will be useful for my research topic? Why or why not?* [pause] *Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

Students might say:

"I think it will be useful because it is about how roller coasters work."

"I don't know if it will be helpful. Since it's called 'How Does It Work,' maybe it's just asking the same thing we are."

4 Discuss Domain Suffixes

Tell the students that the domain suffix identifies the purpose and audience of the website. Explain that there are many different domain suffixes and that it is important to understand what they mean. Post the chart titled "Common Domain Suffixes" and read the examples aloud.

Common Domain Suffixes

- *.com: a commercial website*
- *.edu: an educational institution, such as an elementary school or college*
- *.gov: a government website*
- *.org: often a nonprofit organization. Nonprofit organizations are groups that help people by providing education and other resources.*
- *Countries' domain suffixes: countries sometimes have their own suffixes, for example, China (.cn), the United Kingdom (.uk), Brazil (.br), etc.*

Display some examples of websites with different domain suffixes (prepared ahead), one at a time. As you display each website, point out the domain suffix in the web address and facilitate a brief discussion about the kind of information each site provides. Use “Think, Pair, Share” to discuss questions such as:

Q *What kind of website is this? What do you think people use it for? [pause] Turn to your partner.*

Q *How is this website similar to others you've seen? How is it different? [pause] Turn to your partner.*

Remind the students that understanding what a domain suffix means will help them choose the best sources for their research. Explain that they should always ask for help if they are confused or do not recognize a suffix. They will have the chance to add other suffixes to the chart throughout the year.

If the students need more practice understanding domain suffixes, choose one or two more website examples to discuss with the class.

5 Explore the Parts of a Web Address

Explain that the class will work together to explore the parts of another web address from your query results. Display the “Website Address Example” chart (WA1) or substitute a web address of your choice.

Web Address Example

<http://www.amusementparkhistoryonline.org/rollercoasters>

WA1

Use “Think, Pair, Share” to discuss:

- Q *What is the [suffix/name] of this website? What does it tell you about the kind of site it is? [pause] Turn to your partner.*
- Q *What does the information after the name tell you about the website? [pause] Turn to your partner.*
- Q *Do you think this site might be helpful for my research? Why or why not? [pause] Turn to your partner.*

Remind the students that understanding the parts of a web address will help them decide which sites will be useful for their research topics and which sites they can skip.

If the students need more practice exploring the parts of web addresses, choose one or two more to review with the class. Tell them that you will post the charted labeled web address and the “Common Domain Suffixes” chart for use throughout the year.

6 Evaluate Search Results

Explain that the students will use what they learned today to help them choose websites for their research topics. Display the “Evaluating Search Results” chart (WA2). Have the students open their notebooks and write down the instructions from the chart. Explain that the next time they use the computer, they will follow these instructions for evaluating their search results.

Evaluating Search Results

- Choose a query for your research topic.
- Type the query into a search engine and print the first page of results.
- Look at the search results and think about the important parts of the web addresses.
- Circle the sites you think might be good sources of information for your research. Write the reasons you chose these sites.

WA2

When the students have demonstrated that they know how to evaluate their search results, see Technology Mini-lesson 6 to teach them how to narrow their results.

Teacher Note

If possible, have the students evaluate their search results soon after you teach this lesson.

⌚ DO AHEAD

- ✓ Type the query *science of roller coasters* into a search engine and have the search results page ready to display in Step 2.
- ✓ Familiarize yourself with the filters of the search engine you use and practice narrowing search results using the activities described in Steps 2–4.
- ✓ Prepare the “Filters We Can Use” chart using the filters listed in Step 4, or list other filters you would like the students to explore this year (see Step 4 on page 721).

Materials

- Whiteboard with search results displayed, prepared ahead
- Chart paper and a marker
- Students’ writing notebooks and pencils

Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 5 on page 715). You may want to briefly review the previous lesson before starting this one.

In this lesson, the students:

- Work in pairs
- Learn and use the term *filters*
- Explore search engine filtering tools

1 Introduce Narrowing a Search

Have the students bring their notebooks and pencils and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Tell the students that, as they search for information about their research projects on the Internet, they will sometimes need to narrow, or focus, their search to get more specific information. Explain that today they will learn how to use filters on a results page to focus a search.

2 Discuss Filters

Display the page of search results you prepared ahead of time and point out that this is the results page that appeared when you typed the query *science of roller coasters* into the search engine’s search bar. Point to the filters on the page and explain that *filters* are tools that let you control the kind of information that will be displayed on the results page. Read the names of the filters aloud. Then ask:

Q *What kind of information do you think will be displayed if we click the [Images] filter? What kind of information do you think will be filtered (left) out?*

3 Model Using a Filter

Explain that not all search engines provide the same filters, but there are some commonly used ones. You will demonstrate how to use one commonly used filter, and then the class will work together to explore other filters.

Explain that you would like to include videos in your report about the science of roller coasters. Tell the students that the Videos filter will narrow the search results by searching for videos specifically related to your topic. Ask the students to watch and listen carefully as you click the Videos filter and demonstrate how to use it.

You might say:

“When I click the Videos filter, I get a page of videos related to the science of roller coasters. But what I really want are brief videos to include in my report, so I will click the [Duration/Length] advanced search filter to narrow my results even more. The advanced search filters are usually displayed under the main filters or are displayed under the main filters when I click Search Tools. [Click the Any Duration or a comparable filter and choose one option.] I’ll choose (Short) 0–4 minutes. That helps a lot. Now I have many short videos to choose from. If I wanted to focus my results even more I could choose the quality of the video and even the time the video was posted on the Internet. [Click a video.] When I click a video, I get a link to its source. When I find a video I want to use, I will write the web address down in my writing notebook so that I will remember where to find it again.”

Use “Think, Pair, Share” to discuss:

Q *How did the Videos filter change my results? [pause] Turn to your partner.*

Q *Do you think these results are useful? Why or why not? [pause] Turn to your partner.*

After a moment, have a few volunteers share their ideas with the class.

Students might say:

“All the results are videos.”

“Some of the videos are connected to specific science websites, so there will probably be helpful information in them.”

“The videos that are advertisements won’t be useful. I think you have to read the title of the video carefully before you click it.”

4 Use Filters to Narrow Results

Explain that the students will practice using other filters to continue searching for specific information about the science of roller coasters. Post the “Filters We Can Use” chart and briefly describe each filter listed.

Teacher Note

You may want to add to this list throughout the year.

Filters We Can Use

- Images
- Maps
- News
- Places
- Videos

Direct the students' attention back to the search results page on the whiteboard. Use "Think, Pair, Share" to discuss:

Q *What filter(s) might I use to find articles about roller coasters? [pause]
Turn to your partner.*

Have a few volunteers share their ideas. If necessary, explain that the News filter might provide articles from different news websites. Click the News filter and display the search results on the whiteboard. Ask:

Q *How did the News filter change my results?*

Q *Do you think these results are useful? Why or why not?*

Students might say:

"Now the only results on the page are news articles, so it definitely helped focus the results."

"I think that some of the results are useful but not all the articles are related to the topic."

"You should read the snippet before clicking it so you can get an idea of whether or not it's related to the topic."

Use the same procedure to demonstrate how to use the Images and Maps filters, or invite volunteers to the whiteboard to practice using the filters. Discuss the results with the class.

Point out that when the students use filters to narrow a search, the results may not always be useful for their research topics. Remind them that good researchers always evaluate and choose their research sources carefully.

Tell the students that you will post the "Filters We Can Use" chart for them to use throughout the rest of the year.

5 Use Filters for Research

Explain that the students can use filtering tools to narrow search results for their own research. Have the students write down in their notebooks the filters they would like to use. Explain that the next time they use the school computer they will work in pairs to narrow their searches and print any information that is useful for their research topics.

When the students have demonstrated that they know how to narrow their search results, see Technology Mini-lesson 7 to teach them how to choose credible sources for their research.

Teacher Note

If possible, have the students practice narrowing their searches and print useful research sources soon after you teach this lesson. Have the students save their printed online sources to use in Technology Mini-lessons 7-8.

Evaluating Research Sources

Mini-lesson 7

DO AHEAD

- ✓ Prepare a chart titled “Questions to Ask When Evaluating a Source” (see Step 3 on page 724).
- ✓ Type the query *science of roller coasters* into a search engine and have the search results page ready to use in Step 4.

In this lesson, the students:

- Work in pairs
 - Evaluate research sources
 - Choose credible sources for their research
- TEKS 13.D.i**
TEKS 13.D.ii
Student/Teacher Narrative
Steps 1-4

1 Introduce Evaluating Sources

Gather the class with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Point out that many of the students have begun to research their topics on the Internet and are ready to choose sources for their research projects. Remind the students that anyone can post information on the Internet so it is important to choose their sources carefully. Explain that today the students will learn how to identify sources of information they can trust and use.

2 Discuss the Characteristics of a Good Source

Tell the students that the sources they use for their reports should have information that is reliable, current, and accurate. Display the

Materials

- “Characteristics of a Good Research Source” chart (WA3)
- “Questions to Ask When Evaluating a Source” chart, prepared ahead
- Whiteboard with search results displayed, prepared ahead
- Students’ printed online sources from Technology Mini-lesson 6
- “Evaluating Research Sources” chart (WA4)

Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 6 on page 720). You may want to briefly review the previous lesson before starting this one.

“Characteristics of a Good Research Source” chart (WA3) and briefly discuss each term with the class.

WA3

Characteristics of a Good Research Source

- reliable: trustworthy or dependable
- current: up-to-date or recently written
- accurate: correct, without mistakes

Tell the students that in order to determine whether a source is reliable, current, and accurate they need to evaluate the source, or think carefully about it.

3 Introduce Questions for Evaluating a Source

Explain that good researchers ask themselves questions about a source when deciding whether or not to use it. Post the “Questions to Ask When Evaluating a Source” chart and tell the students to listen as you read each question aloud:

Questions to Ask When Evaluating a Source

Reliable:

- Who is the author of the page? Is the author an expert? How do I know?
- What is the web address? Is the information from a site that is trustworthy? How do I know?

Current:

- When was the information written?
- Do the links from the site work, or are they outdated?

Accurate:

- Are there sources listed for the information on the page? What are they?
- Can you find other sources with the same information?

Point out that the students will not always find answers to all the questions, but asking them will help them decide if the source has information they can trust.

4 Model Evaluating a Research Source

Display the search results page you prepared ahead of time and remind the students that this is the results page for the query *science of roller coasters*. Click one of the website results. Read the information on the website aloud and ask the students to listen as you consider whether or not the source is reliable, current, and accurate by answering the questions on the “Questions to Ask When Evaluating a Source” chart.

You might say:

“First I will answer questions to evaluate whether or not the site is reliable. This page lists the author toward the bottom of the page. The web address shows that it is a university’s website and there is a class title written under the author’s name, so I think it is written by a college student. This page seems to be a research paper written for a class, so even though it may provide helpful information, the author is not an expert. Now I’ll answer questions to decide if the information is current. The paper is dated 2002, which means it’s not very current. [Click other links on the page.] When I click other links, I can see they’re working and the information on other parts of this site is current. Last, I will answer questions to see if the site is accurate. There are sources listed in the bibliography link, and I can find some of the same information on a few other websites about the science of roller coasters. I might be able to use the information on this site in my report, but I will want to try to find more current resources written by experts, too.”

5 Evaluate Research Sources

Explain that the class will work together to evaluate another research source. Redisplay the search results page from Step 4 and click another result to display a website.

Read aloud the information on the page as the students follow along. Then have partners evaluate the reliability of the source by answering the questions under “Reliable” on the chart. After a moment, have volunteers share what they discussed with the class.

Students might say:

“The website is a museum site for kids, so I think it’s reliable.”
“There is no author listed. We should try to find answers to the other questions.”

TEKS 13.D.i
TEKS 13.D.ii
Student/Teacher Activity
Steps 5 and 6

In the same way, have partners answer the questions about the currency and accuracy of the source. Then ask:

- Q *Do you think this is a good source to use for my research project? Why or why not?*
- Q *What other questions might be important to add to the “Questions to Ask When Evaluating a Source” chart? Why do you think that?*

Add the students’ suggestions to the chart and explain that you will post the chart for the students to use throughout the year.

6 Continue Evaluating Sources

Have the students return to their seats with partners sitting together. Ask them to spend a few moments gathering the sources they printed for their topics. Display the “Evaluating Research Sources” chart (WA4) and have them work quietly for 10–15 minutes. Explain that the next time they use the computer they will answer any questions that require them to check links or look for additional sources with the same information.

WA4

Teacher Note

If possible, have the students use the computer to evaluate their research sources soon after you teach this lesson.

Evaluating Research Sources

- Read the information on the page carefully.
- Read the questions on the “Questions to Ask When Evaluating a Source” chart and write down any answers you find.
- Write down whether you think the source is reliable, current, and accurate and include reasons why.

When the students have demonstrated that they know how to choose reliable, current, and accurate sources for their research projects, see Technology Mini-lesson 8 to teach them how to cite the sources.

DO AHEAD

- ✓ Prepare a chart titled “What to Include in an Online Citation” (see Step 3 on page 727).

In this lesson, the students:

- Work in pairs
- Learn and use the terms *cite*, *bibliography*, and *URL*
- Write citations for electronic sources

1 Introduce Citing Sources

Have the students bring their writing notebooks and pencils and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Review that the students are choosing sources from the Internet to use in their research. They are reading the sources and taking notes about the information in their own words. Explain that whenever they refer to or use information from a source in a report, they need to *cite* it, or list the source of the information in a section of the report called a bibliography. Explain that a *bibliography* is the “list of books, articles, and/or websites used in a research report” and that it is usually found at the end of a report. Tell the students that today they will learn what information to include in a citation in a bibliography.

2 Discuss Information to Include in Citations

Explain that each citation, or reference of a book, article, or website, in a bibliography needs to include enough information for readers to be able to identify and find the source, and that there are rules for how to list the information. Tell the students that citations for electronic sources need to indicate that a source was found online. Explain that the *URL*, or web address, does not need to be included because web addresses can change and a source may be found in more than one place on the Internet. Display the “Sample Citation” chart (WA5) and explain that this is an example of how a citation is written for a website.

Materials

- “Sample Citation” chart (WA5)
- “What to Include in an Online Citation” chart, prepared ahead
- “Sample Website” chart (WA6)
- Chart paper and a marker
- Students’ writing notebooks and pencils
- Students’ printed online sources from Technology Mini-lesson 6

Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 7 on page 723). You may want to briefly review the previous lesson before starting this one.

Sample Citation

Delgado, Rosario. "How Do Roller Coasters Work?"
Amusement Park History Online. Amusement Park History,
Inc., 1998–2013. Web. 11 May 2014.

Point out that the parts of the citation are written in a specific order, and ask the students to listen as you describe each part.

You might say:

"The author's last name goes first, followed by a comma and then the author's first name. The title of the source comes next in quotation marks. If the source is a page from a website or is part of a more complete work, like a book, the title of the complete source is written next, in italics if you're typing or underlined if you're writing by hand. The publisher name, or organization affiliated with the site, and publication date are written next, separated by a comma. The medium of publication, or the type of publication in which the source was found, comes next. Electronic sources are identified by the word *Web*. The date the source was accessed, or found, is the final part of the citation. A period belongs between each piece of information and at the very end of the citation. Since this source's title already includes end punctuation, we don't have to use a period there."

3 Practice Citing Sources

Explain that partners will work together to write a citation for a website. Post the "What to Include in an Online Citation" chart and tell them that they may not always find all the information on the list, but they should include as much information as possible when they write citations.

What to Include in an Online Citation

- author's name (last name, first name)
- title of document, in quotation marks
- title of complete work (i.e., website, book, or project) in italics (if typed) or underlined (if handwritten)
- publisher name and publication date, separated by a comma
- medium of publication (*Web*)
- date of access

Display the “Sample Website” chart (WA6) and have partners work together to write a citation for the displayed sample in their notebooks.

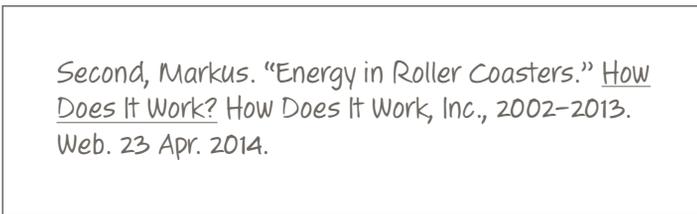

WA6

Walk around the room and observe. Be ready to support the students in finding the information they need. Ask questions such as:

- Q Where might you find the [title of the complete work] for this site?
- Q What might you do if you can't find the [publication date]?

Explain that when a page on a website does not provide all the information needed for a citation, it is sometimes helpful to click additional links (but not ads) on the website. Let the students know that when they cannot find all the information, they should include as much information as possible.

After the students have finished, write out the citation for the displayed source on a sheet of chart paper and have partners check their work.

If they need more practice writing online citations, display one or two more web pages to discuss with the class.

Post the “What to Include in an Online Citation” chart for the students to use throughout the year.

4 Cite Sources for Research

Explain that the students will use the same procedure to write citations for the research sources they have chosen. Have them spend a few moments gathering their printed sources, or invite them to search for sources on the computer and begin writing their citations.

DO AHEAD

- ✓ Prepare a chart titled “Important Keyboard Features” (see Step 2 below).
- ✓ Visit the CCC Learning Hub (cclearninghub.org) to access and print “Sample Keyboards” (BLM2). Make enough copies for each student to have one. Two types of keyboards are provided; you may want to give the students only the sample that matches the keyboards they will be using at school.
- ✓ Practice creating, saving, and storing a document to prepare for the modeling you will do in Steps 2 and 3. Decide how you would like the students to name and store their documents on the computer.
- ✓ Prepare a chart titled “Keyboard Shortcuts” (see Step 4 on page 732). Note that certain computers’ keyboards use the Control key for shortcuts while others use Command. Likewise, some keyboards have a key named Return while others use Enter, and the same for Delete versus Backspace. When creating your chart, copy the words from the diagram that match the keyboards that you and your students will be using.

Materials

- Whiteboard with a word-processing application displayed
- “Important Keyboard Features” chart, prepared ahead
- Copy of “Sample Keyboards” (BLM2) for each student
- “Keyboard Shortcuts” chart, prepared ahead

Teacher Note

You are likely to have students who are very familiar with word-processing software and others who have little knowledge or experience with it. You may want to provide support for less-experienced students by pairing them with more-experienced students.

In this lesson, the students:

- Work in pairs
- Learn the term *word processing*
- Explore important keyboard features and shortcuts
- Practice creating documents

1 Introduce Word Processing

Gather the class with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Explain to the students that this year they will be publishing some of their writing using a computer. Tell them that creating documents on the computer is called *word processing*, and that today they will learn some basic word-processing skills.

2 Model Creating a Document

Display your computer’s desktop on the whiteboard and demonstrate how to move the cursor around the screen to find and open a word-

processing application. Model how to use the drop-down menu to open a new document, type in words, and use various keyboard features.

You might say:

“Once I have opened my word-processing application, I can create a new blank document by going to the File menu and clicking on New. Now I can type my story into the document. As I type, I can create a capital letter by holding down the Shift key and then typing the letter. The Caps Lock key will make all the letters I type capitals. Another job of the Shift key is to allow me to type the characters shown on the upper part of certain keys. For example, when I want to type in parentheses, I hold down the Shift key first and then type the 9 or 0 key. Another useful feature is the [Command/Control] key, which provides a shortcut for certain tasks. For example, instead of using the drop-down menu to create a new document, I can hold down the [Command/Control] key and then type the N key as a shortcut.”

Post the “Important Keyboard Features” chart and distribute a copy of “Sample Keyboards” (BLM2) to each student. Ask the students to locate each feature on their “Sample Keyboards” as you read the chart aloud.

Important Keyboard Features

- *Shift: Hold down to type capital letters or characters on the upper part of key.*
- *Command/Control: Hold down with another key for a keyboard shortcut.*
- *Return/Enter: Press to move the cursor to the next line on page.*
- *Tab: Press to indent a line of writing.*
- *Delete/Backspace: Press to erase the text before the cursor.*

Ask and briefly discuss:

Q *What other keyboard features do you know how to use?*

Add the students’ suggestions to the chart and invite volunteers to the computer to demonstrate for the class how they are used.

3 Model Saving and Finding a Document

Point out that when the students create documents on the computer, they can save and store them on the computer for future use. Ask the students to listen and watch as you demonstrate how to name, save, and store your document using the File menu. Then model how to close, find, and open it again.

Teacher Note

Whether you use the Command or Control key will depend on the type of computer or keyboard you have at your school.

You might say:

“To save my document, I go to the File menu and choose Save. This takes me to the window that allows me to name my document and decide where to save it so that I can find it after it is closed. There are many places to store, or put, a document on the computer, so I’ve made a folder where I can put all my writing. I’ll show you where to store your writing on the computer when you create your own documents. Once I’ve saved my document, I can close it by clicking Close in the File menu. To reopen it, I can click Open in the File menu, which gives me a list of documents. Clicking the name of my document, then clicking Open, will open it up again.”

Briefly point out all the drop-down menus in the application and demonstrate any additional tasks and shortcuts you think might be helpful for the students to know. Ask:

- Q *What questions do you have about how to [save a document]?*
- Q *What other features of the word-processing application do you know how to use?*

4 Create and Save a Document

Explain that the class will work together to create, save, and store a document. Post the “Keyboard Shortcuts” chart and explain that the students may use this chart and the “Important Keyboard Features” chart to remind them how to do certain tasks.

Keyboard Shortcuts

- Open a document: [Command/Control] + O
- Close a document: [Command/Control] + W
- Print a document: [Command/Control] + P
- Save a document: [Command/Control] + S
- Bold text: [Command/Control] + B
- Italic text: [Command/Control] + I
- Underline text: [Command/Control] + U

Invite a volunteer to the computer to demonstrate how to open a new document and type in a sentence. Then ask several more volunteers to demonstrate other tasks. Finally, have a volunteer save and store the document. Be ready to assist the students by answering questions or helping to solve any problems that arise.

Ask and briefly discuss:

- Q *What new keyboard features did you learn today?*
- Q *What keyboard shortcuts do you think are most helpful?*

Tell the students that you will post the “Useful Keyboard Features” and “Keyboard Shortcuts” charts for them to use throughout the year.

5 Use Word Processing to Publish Writing

Explain that the next time the students work on a school computer, they will work in pairs to practice typing, formatting, and saving their writing.

Teacher Note

If possible, have the students practice word processing soon after you teach this lesson. You may want to provide support for less-experienced students by giving them additional time to practice using the application.

Mini-lesson 10

DO AHEAD

- ✓ Review your presentation application and prepare how you will model using the application to create a presentation in Step 2. Find videos, pictures, or other graphics to insert in your presentation and save those on your hard drive.
- ✓ Prepare a chart titled “Creating a Presentation” (see Step 3 on page 735).

In this lesson, the students:

- Work in pairs
- Learn basic features of presentation applications
- Explore how to incorporate special features into a presentation
- Practice creating presentation slides

1 Introduce Creating Presentations

Have the students bring their notebooks and gather with partners sitting together, facing the whiteboard. If possible, have current writing partners work together.

Explain to the students that when they finish a piece of writing, there are various ways they might share their published writing with the class. One way is to create presentations using the computer. Explain that presentation applications let them add special features to their writing, such as pictures. Today they will learn how to use a presentation application to create a slideshow using text, pictures, maps, shapes, graphs, charts, and video. Use “Think, Pair, Share” to have partners discuss why they might want to add these special features to their reports. Ask:

- Q *When might you want to add [graphs or charts] to a presentation or report? [pause] Turn to your partner.*
- Q *How might including [videos] in your presentation make it more interesting for your audience? [pause] Turn to your partner.*

Materials

- Whiteboard with a presentation application displayed
- “Creating a Presentation” chart, prepared ahead
- Students’ writing notebooks

Teacher Note

You are likely to have students who are very familiar with presentation applications and others who have little knowledge or experience with them. You may want to provide support for less-experienced students by partnering them with more-experienced students.

After a moment, have a few volunteers share their thinking with the class.

Students might say:

“Charts help you show something instead of just writing about it.”

“You could use a video to show how a roller coaster moves.”

2 Model Creating Slides

Display your computer’s desktop on the whiteboard and demonstrate how to move the cursor around the screen to find and open your presentation application. Then model applying a theme, typing words, changing the font size and color, and inserting a new slide. Using the various tabs, buttons, and menus in the application, model inserting special features, such as videos, pictures, or other graphics.

You might say:

“When the presentation application is open, I can create a new presentation by going to the File menu and clicking New Presentation. Then I can choose a theme for my presentation by clicking the Themes [tab/button] and deciding which one to use. I can use the keyboard to type text into the slide and change its size and color by going to the Format menu and choosing Font. To insert a new slide, I click the New Slide [tab/button] at the top of my application window. I can apply the same theme—the look and feel—or a different theme to each new slide. I can insert a picture by going to the Insert menu or Pictures tab and choosing the artwork or photograph I want. I can do the same thing to insert videos or other graphics, like charts, shapes, or tables. I can even insert a link to a website or another document on my computer by going to the Insert menu and scrolling down to Hyperlink.”

Ask:

Q *What are some other features of presentation applications you know how to use?*

Invite volunteers to the computer to demonstrate for the class how to use the features they suggest. Then continue to model how to save, name, and store your presentation.

You might say:

“To save my presentation, I go to the File menu and choose Save. This takes me to a window that allows me to name my presentation and decide where I want it to be stored. I’ve made a special folder where I can save my report presentations, and I’ll show you where to save yours on the computer, too. Once I’ve saved it, I close it by clicking Close in the File menu. To reopen it, I click Open in the File menu, which gives me the list of presentations. Clicking the name of my presentation, then clicking Open, will open it up again.”

Ask and briefly discuss:

Q *What questions do you have about creating a presentation?*

3 Create and Save a Presentation as a Class

Explain that the class will work together to practice opening a new presentation and adding various features to the slides. Later, the students will have the chance to create their own presentations based on a finished piece of writing. Post the “Creating a Presentation” chart and explain that the class will do each task in the order listed.

Creating a Presentation

1. Open a new presentation.
2. Apply a theme.
3. Type in a sentence and change the font size and color.
4. Insert at least two new slides.
5. Insert a picture and a video on different slides.
6. Insert a hyperlink on one slide.
7. Save the presentation with a name you choose.

Invite volunteers to the computer to demonstrate for the class how to do each task. Be ready to assist the students by answering questions or helping to solve any problems that may arise.

4 Create Presentations

Explain that the students will create presentations to share some of their published writing. Have them open their notebooks and think about what pieces they might want to share as a presentation. Use “Think, Pair, Share” to discuss:

- Q *What writing projects have you worked on that might be fun to share as a presentation?* [pause] *Turn to your partner.*
- Q *What kind of things would you like to include in your presentation?* [pause] *Turn to your partner.*

Plan to give the students at least two class sessions to work on their presentations with their partners. Continue to model how to use the presentation application throughout the year.

Teacher Note

To show your students an example of how a student added photographs, graphics, and other features to a presentation of her research on roller coasters, view “Roller Coasters Presentation” (AV79). Explain to the students that this presentation was created by a fifth-grade student who is using the *Being a Writer* program. Display the slideshow, click through the slides one at a time, and point out the features the author included, such as photographs and links to other information.

Teacher Note

You may want to provide support for less-experienced students by giving them additional time to practice using the application.

Being a Writer™

SECOND EDITION

The Collaborative Classroom

The Collaborative Classroom differs from traditional learning environments in that students and teachers work together on shared academic and social goals.

The Collaborative Classroom is an intentional environment in which collaboration goes beyond conventional cooperation and compliance. Students become caring members of a learning community who take responsibility for their own learning. As students think, talk, and share ideas, they come to value the thinking of others. They become thoughtful writers and engaged speakers and listeners. They discuss and debate big ideas with respect, clarity, and understanding.

The Collaborative Classroom in *Being a Writer*

The *Being a Writer* program embodies the practices of the Collaborative Classroom.

Students of *Being a Writer* demonstrate:

- Deeper understanding of content
- Ownership of their own learning
- Intrinsic motivation to remain on task
- Improved self-esteem
- An increase in academic performance

“As we practice collaboration, we are building community. It has changed our school climate and helped our students academically. They now have the language to work together differently and resolve problems quickly. We have reduced interruptions during academic instruction and don’t lose important learning time. We have increased student engagement, which ensures increased academic achievement and gains.”

Introduction

The *Skill Practice Teaching Guide*, along with the *Student Skill Practice Book*, provides 30 weeks of mini-lessons in grammar, usage, and mechanics skills that supplement writing instruction in the *Being a Writer* program. Skill Practice Notes in the *Being a Writer Teacher’s Manual* alert teachers to instructional moments when a mini-lesson in grammar, usage, capitalization, or punctuation might help students with their writing. At grades 1–2, most skill instruction in the core lessons occurs during the shared or modeled portions of the lesson. At grades 3–5, most skill instruction occurs during the revision and proofreading phases of the writing process. Additional instruction and practice in skills and conventions for grades 1–5 are provided in this teaching guide and the accompanying practice pages.

The *Skill Practice Teaching Guide* includes:

- 25 mini-lessons and 5 review lessons
- Interactive whiteboard activities to promote student participation and support instruction
- *Student Skill Practice Book* corrections
- Individual student and class assessment forms
- Three diagnostic proofreading passage scoring keys

The *Student Skill Practice Book* includes:

- Three practice book pages per lesson (the third of which can be scored)
- A *Student Grammar Guide* containing grammar terms with definitions and examples
- Three diagnostic proofreading passages for formative assessment of language standards

Language Skills Support in the *Being a Writer Teacher’s Manual*

The *Being a Writer* program supports students’ acquisition of grammar, usage, and mechanics skills. The “Grade 5 Skills Correlation to *Being a Writer*” table on the following pages shows where a skill is taught in the grade 5 *Teacher’s Manual* and where Skill Practice Notes refer to lessons in the *Skill Practice Teaching Guide*.

Making the Most of a Mini-lesson

There are three main ways to incorporate the lessons in the *Skill Practice Teaching Guide* into the *Being a Writer* program:

- Teach the 30 lessons in sequence.
- Teach specific skills to support work in a particular genre, as suggested by Skill Practice Notes in the *Being a Writer Teacher’s Manual*.
- Use the formative assessments in Appendix C at the beginning, middle, and end of the year. The first two assessments can be used to determine which lessons to teach and to whom, and the final assessment can be used to evaluate student progress at the end of the year.

Each mini-lesson includes an introduction, teacher-guided practice, and a set of three optional practice pages for students. Many lessons also offer opportunities for students to collaborate with peers; the icon  serves as a marker for collaborative activities. Mini-lessons also encourage student participation via interactive whiteboard activities. The interactive whiteboard activities challenge students to complete tasks designed to help them identify and use common English language conventions. Students might be asked to the whiteboard to drag a correct answer from a word box into a blank, to click a blank to reveal an answer, or to use the pen tool to correct a sentence fragment. Facsimiles of the whiteboard activities appear with answers in each lesson of the *Skill Practice Teaching Guide* at point of use. All whiteboard activities are also available on the CCC Learning Hub to print and project, or to use as paper-and-pencil activities.*

Using the *Student Skill Practice Book*

Three optional student practice pages are provided in the *Student Skill Practice Book* for each lesson. Activities are scaffolded. For example, the first page of a lesson might involve a simple task, such as identifying a language element; the second page might invite students to choose which language element works best in a specific context; and the third page might call for more sophisticated tasks, such as proofreading a written work for accuracy. All three pages offer a brief writing prompt to give the students an opportunity to use the language skill in original writing.

The third page of each set of practice pages for each lesson can be scored to evaluate student progress and inform instruction. The scores can be added to the “Skill Practice Student Record” sheet and the “Skill Practice Class Record” sheet to record individual and class results. For students who need additional support, this page is also available as an interactive

*Drag-and-drop activities become fill-in-the-blank activities; click-to-reveal activities become activities in which you write a label above a picture, word, or phrase, or cross out a word and write the correction above it.

whiteboard activity for reteaching. For more information about using the practice pages in the *Student Skill Practice Book* to evaluate student progress, see “Skill Practice Assessment” found in Appendix B.

Assessing Language Skills

Three diagnostic proofreading and editing tasks in Appendix C of this guide offer the opportunity to assess students’ development and mastery of the language standards.

Student copies of the proofreading and editing tasks appear in the back of the *Student Skill Practice Book* on page 103. In Appendix C of this guide, you will find instructions for conducting, scoring, and analyzing the assessment, along with annotated versions of the tasks that serve as scoring keys. The scoring keys also list standard(s) addressed by each item.

You may wish to administer a diagnostic proofreading and editing task at the beginning, middle, and end of the year. Appendix C includes two cumulative report forms per task—one for recording individual student results and one for recording class results—that allow you to track progress and to identify specific skills requiring additional review, reteaching, and practice. These forms are also available on the CCC Learning Hub (ccclearninghub.org), and they can be accessed through the CCC ClassView™ assessment app (classview.org).

INTRODUCTION

1. Explain to the students that a **sentence** is a group of words that tells a complete thought. A sentence begins with a capital letter and ends with a punctuation mark. Point out that every sentence has two main parts: a **subject** that tells whom or what the sentence is about, and a **predicate** that tells what the subject does or is.
2. Display the “Complete Sentences” activity (🎯 WA1). Read the first sentence aloud and ask:

Q Which words tell whom or what the sentence is about—The cold Arctic or lies in the most northern part of the world? (The cold Arctic)

Q Which words tell what the subject does or is? (lies in the most northern part of the world)

Draw one line under *The cold Arctic* and two lines under *lies in the most northern part of the world*. Then tell the students that *The cold Arctic* is the subject of the sentence—it tells whom or what the sentence is about. Explain that *lies in the most northern part of the world* is the predicate—it tells what the Arctic does or is.

*Use these assessments to check students’ application and assess their more information, see Appendix C.

1. The cold Arctic lies in the most northern part of the world.
2. The Arctic Ocean covers a large part of this treeless region.
3. The water in the ocean is thick ice during most of the year.
4. People live in this very cold climate.
5. A few animals survive.

3. Repeat the process for sentences 2–5.
4. Point to the subject, *The cold Arctic*, in sentence 1. Ask the students which word tells exactly what the sentence is about. (*Arctic*) Draw a box around *Arctic* and explain that the most important word in a subject is called the **simple subject**. The **complete subject** includes all of the words that tell whom or what the sentence is about.
5. Then point to the predicate in sentence 1, *lies in the most northern part of the world*. Ask the students which word tells what the Arctic does. (*lies*) Draw a box around *lies* and explain that the most important word in the predicate is called the **simple predicate**, and that the simple predicate is a verb. Then explain that the **complete predicate** includes all of the words that tell what the subject does or is.
6. Invite volunteers to the whiteboard to read each remaining sentence aloud, and identify the simple subject and the simple predicate. Then guide the students to draw a box around each one.

Teacher Note

Use sentence 2 to point out that the simple subject may be more than one word when it is the name of something. Use sentence 4 to point out that sometimes the complete subject and the simple subject are the same. Use sentence 5 to point out that the complete predicate and the simple predicate can also be the same. Note that each sentence begins with a capital letter and ends with a punctuation mark.

7. Display the next “Complete Sentences” activity (🗨️ WA2). Explain that a sentence may have a **compound subject**—two or more simple subjects that have the same predicate. Point out that the simple subjects in a compound subject can be joined by the **conjunction**, or connecting word, *and* or *or*. Read the first sentence aloud and ask:

Q Which two words tell whom or what the sentence is about? (Bears, wolves)

Underline each simple subject, and circle the conjunction *and*.

WA2

1. Bears and wolves live in the Arctic.
2. Many seals and foxes also make their homes in this region.
3. The animals adapt to their environment and survive the cold.
4. For protection the fox's dark summer coat turns white and blends in with the snow.
5. Foxes hunt small mammals or capture birds for food.
6. Many Arctic animals depend on the ice for survival and are at risk from climate change.

8. Repeat the process for sentence 2.
9. Read sentence 3 aloud. Explain that a sentence may have a **compound predicate**—two or more simple predicates that are joined by the conjunction *and* or *or*. Ask:

Q Which two words tell what the animals do? (adapt; survive)

Underline each simple predicate and circle the conjunction *and*.

10. Repeat the process for sentences 4–6.

GUIDED PRACTICE

11. Display the next “Complete Sentences” activity (🗨️ WA3). Tell the students that they are going to identify complete and simple subjects and predicates, as well as compound subjects and predicates.

WA3

1. Reindeer, also known as caribou, live in the Arctic.
2. A reindeer's coat has two layers of fur and keeps the animal warm.
3. These animals travel in groups for safety and run really fast.
4. The creatures eat grass or munch on leaves in summer.
5. Bears and wolves hunt reindeer.

12. Read the first sentence aloud and ask:

Q *What is the complete subject of the sentence? (Reindeer, also known as caribou) What is the simple subject of the sentence? (Reindeer)*

Q *What is the complete predicate? (live in the Arctic) What is the simple predicate? (live)*

Invite a volunteer to underline the complete subject and circle the simple subject or subjects. Then ask the student to draw two lines under the complete predicate and circle the verb or verbs.

13. Repeat the process for sentences 2–5.

14. Have the students work in pairs to write a paragraph, using complete sentences. Ask them to include at least one sentence with a compound subject and one with a compound predicate.

Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a favorite animal.

ELL Note

In Spanish and some Asian languages, such as Chinese and Japanese, sentences do not always have a subject. Therefore, students from these language backgrounds may need additional practice with complete sentences.

Optional Practice

Have the students complete pages 1–3 in their *Student Skill Practice Books*, independently or in pairs, to practice writing complete sentences. Note that page 3 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 3 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

INTRODUCTION

1. Tell the students that today they will learn how to connect simple sentences. Explain that a **simple sentence** contains a subject and a predicate, and expresses a complete thought.
2. Display the “Compound Sentences” activity (📄 WA6). Ask the students to listen carefully as you read sentences 1–4, which are all simple sentences. Then read the sentences aloud and ask:

Q *What did you notice about how these sentences sounded as I read them?*

If necessary, point out that the sentences are all short, which makes them sound choppy. Explain that to make these simple sentences longer and more interesting, we can use the word *and* to join pairs of sentences together. Write the word *and*. Then cross out the capital *S* in *She* and replace it with a lowercase *s*. Replace the period after *School* with a comma, and read the new sentence aloud: *Davida goes to Boxwood School, and she is in Mr. Rosetti’s sixth-grade class*. Point out that the ideas in the joined sentences relate to each other: they both tell about Davida and her school.

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Explain that when we join two simple sentences with related information we use a special kind of conjunction, or connecting word, called a **coordinating conjunction**. Point to the coordinating conjunctions *and*, *but*, *or*, and *so* in the word box. Remind the students that they used two of these conjunctions, *and* and *or*, to form compound subjects and compound predicates. Explain that when we use a coordinating conjunction to connect simple sentences with related information or ideas, we form what is called a **compound sentence**. Point to the comma in the sentence and explain that we put a comma before a coordinating conjunction in a compound sentence.

WA6

and but or so

(1) Davida goes to Boxwood School, and (2) ^SShe is in Mr. Rosetti's sixth-grade class. (3) Davida loves school, and (4) ^SShe gets good grades in all subjects. (5) This year the school started a tutoring program. (6) Sixth graders can help younger students with reading, or (7) ^TThey can help them with math. (8) Davida likes math, but (9) ^SShe would rather help someone with reading. (10) Davida wants others to love reading as much as she does, so (11) ^SShe signs up to help a third-grader improve her reading skills.

3. Have the students silently read sentences 3 and 4. Ask:

Q *How can we use the coordinating conjunction and to make these two simple sentences a compound sentence?*

Q *How are the ideas in the two simple sentences related?*

Have a volunteer go to the whiteboard and write *and* in the blank, replace the period with a comma before the conjunction, cross out the capital *S* in *She*, and replace it with a lowercase *s*. As needed, explain that both sentences tell about the kind of student Davida is. Read the new compound sentence aloud.

Teacher Note

If necessary remind the students to always change the capital at the beginning of the second sentence to a lowercase letter.

4. Read sentence 5 aloud. Tell the students that using different types of sentences with different lengths adds variety to their writing and makes it more interesting. Since the paragraph now has two compound sentences at the beginning, you will leave sentence 5 as a simple sentence.
5. Read sentences 6 and 7 aloud. Explain that these sentences show a choice between two school subjects—reading and math. Explain that instead of the coordinating conjunction *and*, we use another conjunction—*or*—to join two sentences that show a choice.

Write *or* in the blank, replace the period after the first sentence with a comma, replace the *T* in *They* with a *t*, and read the new compound sentence aloud.

6. Read sentences 8 and 9 aloud. Explain that these sentences show a contrast or difference between the subjects that Davida likes. Explain that to join sentences that show a contrast or difference, we use a third coordinating conjunction—*but*.

Write *but* in the blank, replace the period with a comma, replace the *S* in *She* with an *s*, and read the new compound sentence aloud.

7. Read sentences 10 and 11 aloud. Explain that these sentences show a cause-and-effect relationship: Davida signed up to help a struggling third-grader because Davida loves reading. Explain that to join sentences that show that one event is the result of another, we use a fourth coordinating conjunction—*so*.

Write *so* in the blank, replace the period with a comma, replace the *S* in *She* with an *s*, and read the new compound sentence aloud.

Teacher Note

You might want to tell the students that an easy way to check whether the coordinating conjunction *so* correctly joins two sentences is to substitute *so* with *for that reason* and see if the two sentences make sense together.

GUIDED PRACTICE

8. Display the “Compound Sentences” activity (WA7). Explain that the students will now practice using the coordinating conjunctions *and*, *but*, *or*, and *so* to combine simple sentences to make compound sentences. Review that *and* shows similarities between ideas, *but* shows a contrast or a difference, *or* shows a choice, and *so* shows a cause-and-effect relationship.

9. Read sentence pair 1 aloud. Then ask the students to discuss these questions in pairs:

Q Which coordinating conjunction can you use to combine these simple sentences into a compound sentence? Why would you use this conjunction?

As a class, have the students discuss which conjunction they would use and why. Then have a volunteer write the coordinating conjunction in the blank and place the comma where it belongs. Also have the student cross out the capital letter that begins the

second sentence and replace it with a lowercase letter. Then ask the volunteer to read the compound sentence aloud.

WA7

and but or so

1. Davida finally met Bea, and ^S she introduced herself to the little girl.
2. Davida could start the lesson right away, or ^S she could get to know Bea a little first.
3. Davida decided to chat for a short while, so Bea would feel more comfortable.
4. Bea felt a little shy, but ^S she was happy to be getting some help.

10. Repeat the process with the remaining sentence pairs.

11. Have the students work in pairs to write a paragraph, using both simple and compound sentences. Encourage the students to use as many of the four coordinating conjunctions as possible.

Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about helping a younger child learn to do something.

Optional Practice

Have the students complete pages 4–6 in their *Student Skill Practice Books*, independently or in pairs, to practice writing compound sentences. Note that page 6 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 6 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

Teacher Note

You might have the students write brief explanations of how each of the four coordinating conjunctions connects ideas in the Proofreading Notes section of their *Student Writing Handbooks*.

INTRODUCTION

1. Remind the students that they have learned about two kinds of sentences: simple sentences and compound sentences. Review that a simple sentence tells a complete thought and can stand on its own, and that a compound sentence is formed by joining two simple sentences using the coordinating conjunctions *and*, *or*, *but*, or *so*. Also explain that today the students will learn how to combine a simple sentence with a group of words that does not tell a complete thought to form a type of sentence called a **complex sentence**.

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

2. Display the “Dependent and Independent Clauses” activity (📄 WA10). Point to and read the complete sentence aloud: *I am not lonely*. Ask:

Q *Is this a complete sentence? Why or why not? (Yes. It tells a complete thought.)*

Point to and read aloud: *Although I have no brothers or sisters*. Ask:

Q *Is this a complete sentence? Why or why not? (No. It does not tell a complete thought.)*

Explain that each group of words is called a *clause*. Each has a subject and a predicate; however, one can stand alone and one cannot. Have a volunteer reread the clause *I am not lonely*. Point out that this is called an **independent clause** because it can stand on its own. Have another volunteer reread: *Although I have no brothers or sisters*. Explain that this clause is called a **dependent clause** because it cannot stand on its own. It needs, or depends on, an independent clause to express a complete thought.

WA10

although because if since unless when

1. I am not lonely. Although I have no brothers or sisters.
I am not lonely although I have no brothers or sisters.
2. I invite friends to my house when I want to play with others.
3. If I had brothers and sisters, I would not get all of my parents' attention.
4. Since my grandpa moved in, the two of us spend time together.
5. I don't have to share my room unless my cousins come to visit.
6. Because I have my own room, I can put posters everywhere.

3. On the line, write the sentence: *I am not lonely although I have no brothers or sisters*. Explain that you have joined the independent clause with the dependent clause to form a type of sentence called a *complex sentence*. Guide the students to see that the ideas in this complex sentence relate to each other and tell about the same child. Draw one line under the independent clause; draw two lines under the dependent clause.
4. Point to the words in the word box: *although, because, if, since, unless, when*. Explain that these words are a special kind of conjunction called a **subordinating conjunction**. They connect an independent clause and a dependent clause. Circle the conjunction *although* in the sentence you wrote. Point out that the subordinating conjunction comes at the beginning of a dependent clause.

Teacher Note

Explain that the subordinating conjunction reveals how the parts of a complex sentence are related: *although* shows contrast; *if* and *unless* show a condition (they tell that one event must happen before another can take place); *when* and *since* show time; and *because* signals a cause, or reason why something happens.

5. Read sentences 2 and 3 aloud. Draw one line under each independent clause and two lines under each dependent clause. Ask:

Q *What's different about these two sentences?*

Give the students time to think. Then invite a few volunteers to respond.

Students might say:

"Sentence 3 starts with the conjunction, and sentence 2 doesn't."

"So in sentence 3, the dependent clause comes first, and in sentence 2 the independent clause comes first."

Circle the subordinating conjunction in sentence 3. Then ask:

Q *How is the punctuation different in the two sentences? (Sentence 3 has a comma after the first clause, but sentence 2 doesn't.)*

Invite volunteers to respond. Point out that when the dependent clause comes at the beginning of the sentence, a comma separates the dependent clause from the independent clause. When the dependent clause comes at the end of the sentence, no comma is needed.

6. Explain that changing the placement of the dependent clause adds variety to our writing and makes it more interesting.
7. Continue to identify the clauses and the subordinating conjunctions in the remaining sentences. Underline the independent clauses once and the dependent clauses twice, and circle the conjunctions. Have volunteers explain in each case why there is or is not a comma.

Teacher Note

You may wish to explain that the order of dependent and independent clauses can be reversed without changing the meaning of the sentence. Use the first sentence as an example.

GUIDED PRACTICE

8. Display the next “Dependent and Independent Clauses” activity (🎧 WA11). Tell the students that you will read a paragraph containing complex sentences that are missing a subordinating conjunction. Explain that you will work together to choose the conjunction that best combines the dependent and independent clauses.

WA11

Although	because	If	since
unless	when	,	,

I like being the oldest kid in my family because I get to stay up later than my sisters. I will be the first one to drive when we are all older. I'll have to drive my sisters around sometimes unless other people give them rides. Although my kid sisters sometimes bother me , _____ I like teaching them. I have learned patience since I started helping them with homework. If my sisters would just leave me alone now and then , _____ I would have more time to myself.

9. Point to and read aloud: *I like being the oldest kid in my family and I get to stay up later than my sisters.* Ask:

Q *How are the two clauses related? (One is a reason, or cause, for the other. The second clause tells the reason why the narrator likes being the oldest.)*

Q *Which subordinating conjunction can we use to join the clauses? (because)*

Drag and drop the conjunction into the blank. Ask the students why a comma is not needed in this complex sentence. (Because the dependent clause comes after the independent clause.)

10. Continue guiding the students through the paragraph, reading the sentences aloud and helping the students to choose the correct subordinating conjunction for each complex sentence. Invite volunteers to come to the whiteboard to drag and drop the correct conjunction into each blank. For sentences 4 and 6, have the students drag and drop a comma into the space after the dependent clause. Once all of the conjunctions and commas have been placed, read the completed paragraph aloud.

11. Have the students work in pairs to write a paragraph, using simple and complex sentences.

Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about having or not having brothers or sisters.

Optional Practice

Have the students complete pages 7–9 in their *Student Skill Practice Books*, independently or in pairs, to practice writing complex sentences. Note that page 9 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 9 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

ELL Note

In some Asian languages such as Cantonese, Vietnamese, and Korean, a second subordinating conjunction is added to introduce the independent clause, for example: “Because I am the oldest child, **so** I have the most chores to do.” Students with these language backgrounds may require more practice forming complex sentences.

INTRODUCTION

1. Tell the students that in this lesson they will learn how to combine related sentences to form sentences with compound subjects and compound predicates. Remind the students that a compound subject has two or more subjects joined by the conjunction *and* or *or*; a compound predicate has two or more verbs joined by the conjunction *and* or *or*. Explain that knowing how to combine sentences will help them write smooth sentences that vary in style and length.
2. Display the first “Combining Sentences” activity (🎧 WA14). Read the two sentences in item 1 aloud and ask:

Q *What do you notice about these sentences?*

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Students might say:

"The sentences are short and sound choppy."

"I agree with Ramona. Also, the predicate *goes to the movies* is used in both sentences, so the sentences sound odd and repetitive."

As necessary, point out that two or more short sentences in a row can sound choppy. Explain that we can combine two sentences with the same predicate by linking the subjects. Ask:

Q *What is the subject of each sentence? (Carlton; Eva)*

Q *What word can we use to combine the two subjects to form a compound subject? (and)*

Click the blank to reveal the combined sentence with the compound subject, *Carlton and Eva*. Draw the students' attention to the verb, and explain that the singular form of the verb *goes* must now change to the plural form in order to agree in number with the compound subject *Carlton and Eva*.

WA14

1. Carlton goes to the movies. Eva goes to the movies.

Carlton and Eva go to the movies.

2. The huge screen is new. The excellent sound system is new.

The huge screen and excellent sound system are new.

3. The two friends meet. The two friends take the bus to the theater.

The two friends meet and take the bus to the theater.

4. They could buy two small snacks. They could share one big snack.

They could buy two small snacks or share one big snack.

5. Carlton might buy water. He might decide to save the money instead.

Carlton might buy water or decide to save the money instead.

3. Repeat the process for the sentences in item 2, pointing out that the singular form of the verb *is* changes to the plural form *are* to agree with the compound subject *screen and sound system*.

4. Read the sentences in item 3 aloud and ask:

Q *What do you notice about the subject of each sentence? (The subject is the same in both sentences.)*

Tell the students that we can combine related sentences with the same subject by combining the predicates. Ask:

Q *What is the predicate of each sentence? (meet; take the bus to the theater)*

Q *What word can we use to combine the two predicates to form a compound predicate? (and)*

Click the blank to reveal the sentence with the compound predicate. Read it aloud, pointing out the two verbs, *meet* and *take*, in the compound predicate.

- Repeat the process for the remaining items, pointing out the conjunction *or* in items 4 and 5. Also point out that, in the combined sentences for both items 4 and 5, the two main verbs share one helping verb.

Teacher Note

If necessary, remind the students that the conjunction *and* connects ideas that are similar while the conjunction *or* shows choice.

- After completing the items, point out that there is often more than one way to combine two sentences. For example, we might combine the two sentences in item 3 by creating a complex sentence: *After the friends meet, they take the bus to the theater.* If the students repeat *the friends* in the independent clause, point out that they should replace it with *they* to avoid repetition. Then ask:

Q *How can we combine the sentences in item 4 to form a compound sentence? (by adding a comma and the conjunction *or* after snacks)*

- Display the next “Combining Sentences” activity (📄 WA15). Read the two sentences in item 1 aloud. Explain that we can also combine sentences when one sentence identifies or describes someone or something mentioned in another sentence. Ask:

Q *What does Carlton always talk about? (Superman) What does the second sentence tell you about Superman? (He is Carlton’s favorite superhero.)*

Tell the students that we can move the phrase *his favorite superhero* after *Superman* at the end of the first sentence.

Click the blank to reveal the combined sentence and read it aloud. Point to *his favorite superhero* and explain that a phrase that identifies or tells more about someone or something is called an **appositive**. It follows the noun it identifies. Ask:

Q *Which punctuation mark do we use when we add the appositive? (comma)*

Point out that commas are used to set off the appositive from the rest of the sentence.

1. Carlton always talks about Superman. Superman is his favorite superhero.

Carlton always talks about Superman, his favorite superhero.

2. Superman was born on an imaginary planet. The planet is called Krypton.

Superman was born on an imaginary planet, Krypton.

3. Mr. and Mrs. Kent adopted him on Earth. They were a very nice couple.

Mr. and Mrs. Kent, a very nice couple, adopted him on Earth.

4. The boy lived with them for many years. He came to be known as Clark Kent.

The boy, Clark Kent, lived with them for many years.

8. Repeat the process for the remaining sentences. Ask:

Q *How does using appositives improve your writing? (Using appositives helps create smoother and more interesting sentences.)*

GUIDED PRACTICE

9. Tell the students that next they will practice combining sentences by forming sentences with compound subjects, compound predicates, or appositives.

10. Display the next “Combining Sentences” activity (📄 WA16). Read item 1 aloud, and tell the students that they can combine the two sentences by changing the second sentence into an appositive.

Have the students work in pairs to discuss how to combine the sentences. Call on a volunteer to provide the response. Write the appositive in the blank and read the combined sentence aloud. Ask:

Q *What punctuation do we need to add? (commas to set off the appositive from the rest of the sentence)*

Invite a volunteer to the whiteboard to add the commas, using the pen tool.

1. Clark Kent was always in search of a good story. He was a news reporter for the *Daily Planet*.

Clark Kent, a news reporter for the *Daily Planet*, was always in search of a good story.

2. To become Superman, Kent put on a special blue bodysuit. Kent wore a red cape.

To become Superman, Kent put on a special blue bodysuit and wore a red cape.

3. Carlton liked the movie *Superman Returns*. His friend Alonzo liked the movie, too.

Carlton and his friend Alonzo liked the movie *Superman Returns*.

4. The boys might see *Superman: Unbound* later. *Superman: Unbound* is an animated film.

The boys might see *Superman: Unbound* , an animated film, later.

11. Repeat the process for the remaining items, guiding the students to combine the sentences in the following ways:

- Item 2: Form a compound predicate with *and*.
- Item 3: Form a compound subject with *and*.
- Item 4: Form an appositive set off by commas.

Teacher Note

You might wish to have the students combine the sentences in item 3 by forming a compound sentence. Invite volunteers to explain which combined sentence they prefer and why.

12. Have the students work in pairs to write a paragraph, using both short and long sentences. Have them include sentences with compound subjects, compound predicates, and appositives.

Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a favorite movie or superhero.

Optional Practice

Have the students complete pages 10–12 in their *Student Skill Practice Books*, independently or in pairs, to practice combining sentences. Note that page 12 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 12 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

INTRODUCTION

1. Tell the students that they will learn how to correct **sentence fragments**, sentences that are incomplete because they are missing a subject, a predicate, or both. They also will practice recognizing and correcting **run-on sentences**, two or more complete sentences joined together without correct punctuation or a conjunction. Explain that writing sentences correctly makes ideas clear and easy to follow.
2. Display the “Sentence Fragments and Run-on Sentences” activity (📄 WA19). Read the first two items aloud: Ask:

Q *Which group of words is a complete sentence? (the first one) Which is not a complete sentence? (the second one) Why not?*

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

If necessary, explain that *The view from the top* is not a complete sentence because it is missing a predicate—we don't know what the view from the top is like. Remind the students that a complete sentence has a subject that tells whom or what the sentence is about and a predicate that tells what the subject does or is. Ask:

Q *What predicate could we add to The view from the top to make it express a complete thought?*

Invite a few volunteers to respond. Click the blank to reveal the complete sentence. Read it aloud, pointing to the subject and the predicate.

WA19

People like tall buildings. The view from the top.

The view from the top is fantastic.

1. A bridge designer, Gustave Eiffel.
A bridge designer, Gustave Eiffel, built the Eiffel Tower in Paris, France, in 1889.
2. Stands over 1,000 feet (over 300 meters) tall.
This tall building stands over 1,000 feet (over 300 meters) tall.
3. For about forty years.
For about forty years, the Eiffel Tower was the tallest structure in the world.

3. Direct the students' attention to item 1. Explain that a group of words that is punctuated like a sentence but does not have both a subject and predicate is called a *sentence fragment*. Read item 1 aloud and ask:

Q *Is this a sentence or a sentence fragment? Why?*

Invite a few volunteers to respond. If necessary, explain that this group of words is a sentence fragment. It is missing a predicate—we do not know what Gustave Eiffel did. Click the blank to reveal the complete sentence.

4. Repeat the process for the remaining sentences, and point out that item 3 is missing both a subject and a predicate. Remind the students that changing sentence fragments into complete sentences makes their writing clearer and easier to understand.

5. Display the next "Sentence Fragments and Run-on Sentences" activity (WA20). Read the first run-on sentence aloud. Ask:

Q *What do you notice about this sentence?*

Students might say:

"The sentence is really long."

"I agree with Jared. Also, it includes more than one idea. So, it seems more like two sentences than one."

As necessary, point out that this is a run-on sentence: two sentences run together with no punctuation. Ask:

Q *How can we correct this sentence?*

Give the students a few minutes to think, and invite a few volunteers to respond. Then explain that one way to show where one thought ends and the other begins in a run-on sentence is to separate it into two sentences. Add a period after *tower* and capitalize *workers* to correct the run-on.

WA20

1. Eiffel used iron and steel to build the tower. ^Wworkers put together over 18,000 pieces of iron.
2. People can take an elevator to the top, ^{or} they can walk up 674 steps to the second level.
3. Visitors stand on decks, ^{and} they look out at the beautiful city of Paris.
4. Gustave Eiffel was nicknamed "magician of iron" ^{because} he miraculously built the tower quickly and on schedule.
5. ^{Although m} Many other buildings today stand taller than the Eiffel Tower, ^{this} monument is still special.

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

6. Explain that another way to correct a run-on sentence is to use a coordinating conjunction, such as *and*, *or*, *but*, or *so*, to join the two thoughts into one sentence. Read run-on sentence 2 aloud, and invite a volunteer to tell which conjunction sounds best. (*or*) Add the conjunction *or* after *top* to connect the two related ideas. Ask the students what else they need to complete the sentence. (a comma before the conjunction *or*)

7. Reread the sentence aloud and ask:

Q *What kind of sentence is this? (compound)*

Q *What does the conjunction tell you? (There are choices.)*

Repeat the process with sentence 3. If necessary, explain that *and* tells that the ideas in the two sentences are similar; they both relate to the same event.

8. Explain that another way to correct a run-on sentence is to use a subordinating conjunction, such as *because* or *although*, to connect the two thoughts into one sentence. Read item 4 aloud, and ask students which subordinating conjunction sounds better. Write *because* after *iron* to connect the two related ideas. Have one or two volunteers identify the dependent and independent clauses in the complex sentence and tell whether a comma is needed before the conjunction *because*. (No.)
9. Repeat the process with sentence 5, adding the subordinating conjunction *Although* before *Many* and changing the capital *M* to a lowercase *m*. Invite a volunteer to tell whether a comma is needed after the dependent clause. (Yes.)
10. After all the run-ons have been corrected, reread the sentences aloud. Ask:
 - Q *Why is it good to know different ways to correct a run-on sentence? (Correcting run-ons in different ways adds variety to the writing.)*
 - Q *How does writing sentences correctly improve the writing?*

Students might say:

"Writing sentences correctly makes them easier for readers to understand."

"I agree with Tyler. Using the correct conjunctions can also help clarify ideas."

Teacher Note

If the students are having difficulty determining where to split sentences, suggest that they read the writing aloud and listen to where their voices naturally pause.

GUIDED PRACTICE

11. Display the next "Sentence Fragments and Run-on Sentences" activity (📄 WA21). Tell the students that together you will read a passage with sentence fragments and run-on sentences, and determine how to correct them.
12. Read the passage aloud. Then ask, pausing after each question for one or two volunteers to respond:
 - Q *What do you notice about this passage? (The ideas are hard to follow. The passage has sentence fragments and run-on sentences.)*
 - Q *Which is the first sentence fragment? What is one way we can fix it?*

Invite a volunteer to the whiteboard to use the pen to add the predicate *visited Paris* from the chart. Then ask:

- Q *Which is the first run-on sentence? What is one way we can fix it?*

After a minute or two, have a volunteer use the pen to correct the run-on. (Accept either of the following: dividing the run-on into two simple sentences or adding a comma and a conjunction from the chart to create a compound sentence.)

Subject	Predicate	Conjunctions
she	visited Paris	and but When

Last summer my Aunt Cena ^{visited Paris}. One day my aunt went to see
 the Eiffel Tower ^{and} she was amazed by it. My aunt decided to walk
 up the stairs to the second level ^{but} she took the elevator after
 climbing about 350 steps. ^{she} Still loved the monument. ^{When s} She got to
 the top of the tower, she looked out at Paris in amazement. Aunt
 Cena didn't want to leave ^{and} she just stood there snapping photo
 after photo. She e-mailed me all 20 of them ^{but} they all looked alike!

13. Continue guiding the students through the sentence fragments and run-on sentences, reading them aloud and helping volunteers correct them. After the fragments and run-ons have all been corrected, reread the passage aloud. Ask:

Q *How is the writing different now that the sentence fragments and run-ons have been corrected? (The meaning is much clearer.)*

14. Have the students work in pairs to write a paragraph, using a variety of sentence types. Ask the students to check their work to ensure that all the sentences are written correctly.

Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about an amazing building they have seen or read about.

Optional Practice

Have the students complete pages 13–15 in their *Student Skill Practice Books*, independently or in pairs, to practice correcting sentence fragments and run-on sentences. Note that page 15 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 15 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

Teacher Note

You might have the students write an example of one way they corrected a sentence fragment and one way they corrected a run-on sentence in the Proofreading Notes section of their *Student Writing Handbooks*.

ELL Note

In some Asian languages, such as Cantonese and Vietnamese, a subject pronoun is omitted in a subordinate clause, for example: "If want to be healthy, you should eat your vegetables." Students with these language backgrounds may need more help when using subordinating conjunctions to correct run-on sentences.

Whiteboard Activities

- “Review” activity (WA24)
- “Review” activity (WA25)
- “Review” activity (WA26)
- “Review” activity (WA27)

REVIEW

1. Explain to the students that they are going to review what they have learned about sentences in Lessons 1–5. Remind the students that they have learned how to:
 - Recognize a complete sentence
 - Distinguish a dependent from an independent clause
 - Form compound sentences and complex sentences
 - Combine sentences using compound subjects, compound predicates, and appositives
 - Correct run-on sentences and sentence fragments
2. Display the first “Review” activity (🎯 WA24). Read aloud the definitions of a sentence, a subject, and a predicate. Invite a volunteer to the whiteboard to draw one line under the complete subject and two lines under the complete predicate. Ask:
 - Q *What is the most important word in the complete subject called? (the simple subject)*
 - Q *What is the most important word in the complete predicate called? (the simple predicate)*Invite one or two volunteers to the whiteboard to circle the simple subject and the simple predicate in the first sample sentence. (*anteater*; *has*)

A **sentence** is a group of words that expresses a complete thought. It includes both a subject and a predicate.

- The **subject** tells whom or what the sentence is about. The **predicate** tells what the subject does or is.

The giant anteater has a long nose and a bushy tail.

- A **compound subject** is made up of two or more subjects that have the same predicate and are joined by the **conjunction**, or connecting word, *and* or *or*.

Ants and termites fear this odd-looking creature.

- A **compound predicate** is made up of two or more predicates that have the same subject and are joined by the **conjunction**, or connecting word, *and* or *or*.

A hungry anteater flicks its tongue into an anthill and eats the ants.

3. Remind the students that they have also learned about compound subjects and compound predicates. Have volunteers read the definition of each one aloud and draw a line under the compound subject in the second sample sentence and two lines under the compound predicate in the third sample sentence. Ask:

Q *What are the two simple subjects in the compound subject? (ants; termites)*

Q *What are the two simple predicates in the compound predicate? (flicks; eats)*

4. Display the next “Review” activity (WA25). Read aloud the definition of a compound sentence, as well as the two sample sentences. Invite a few volunteers to the whiteboard to draw one line under each simple sentence, and then circle the comma and the conjunction. Discuss how the conjunctions *and*, *but*, *or*, and *so* differ in meaning. Then ask:

Q *When would you use the conjunction and? When would you use the conjunction but?*

Invite a few volunteers to respond. If necessary, explain that *and* is used to join two sentences with similar ideas, while *but* joins contrasting ideas.

A **compound sentence** is made up of two related sentences joined by a comma and a coordinating conjunction, such as *and*, *or*, *but*, or *so*.

Today is my sister's birthday, and I made her an unusual cake.

My sister loves chocolate cake, but I made her a papier-mâché one instead.

A **complex sentence** is made up of an **independent clause**, or a sentence that can stand by itself, and a **dependent clause**, which has a subject and a verb but cannot stand by itself. The dependent clause begins with a subordinating conjunction, such as *although*, *while*, or *because*.

Although it wasn't real, the cake was very special.

My sister really loved it because I had painted a horse on top.

5. Next read the definition for a complex sentence aloud. Check for understanding of the difference between an independent and a dependent clause by asking:

Q *Is a simple sentence a dependent or an independent clause? Why?*

Give the students a few moments to think, and invite a few volunteers to respond. If necessary, remind them that a simple sentence is an independent clause; it is a complete thought that can stand on its own.

6. Read the two sample sentences aloud. Then invite one or two volunteers to the whiteboard to draw one line under the independent clause and two lines under the dependent clause in each sentence. Circle the subordinating conjunction in each dependent clause, and remind the students that this conjunction signals the start of the dependent clause. Ask:

Q *What happens when the dependent clause comes first in a sentence? (You need to put a comma at the end of the dependent clause.)*

Circle the comma after the word *real*.

7. Display the third “Review” activity (WA26). Read the sentence at the top of the page aloud, and discuss students’ experiences combining sentences to improve their writing. Remind the students that combining short, related sentences makes the writing sound less choppy.

To combine sentences, you can use a compound subject, a compound predicate, or an appositive.

- Combine two sentences with the same predicate but different subjects by forming a **compound subject**.

Federico ~~helps on the farm~~, ^{and} Angela helps on the farm.

- Combine two sentences with the same subject but different predicates by forming a **compound predicate**.

Federico's family grows olives, ~~Federico's family~~ ^{and} makes olive oil.

- Combine two sentences by creating an **appositive**, a word or phrase that tells more about someone or something.

Angelini Olive Grove ^{is} the family farm, ~~Angelini Olive Grove~~ was started about eighty years ago.

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

- Read aloud each rule and then the sample sentence pair that follows. Ask:

Q *How could you combine these two sentences to make one sentence that is less repetitive?*

Invite a few volunteers to use the pen to edit and combine each sentence pair. Ask the students to identify the compound predicate, the compound subject, and the appositive in each new sentence.

- Display the last “Review” activity (WA27). Remind the students that fragments and run-on sentences can make their writing unclear and hard for the reader to understand.

- Read aloud the definition of sentence fragments and the sample items that follow. Ask:

Q *What needs to be added to each fragment to make a complete sentence? (predicate; subject; subject and predicate)*

Give the students time to think, and invite a few volunteers to respond. Then click each fragment to reveal possible corrections.

- Read aloud the definition of run-on sentences and the sample item that follows. Ask the students to come up with ways to fix the run-on sentence. Then click the sample sentence to reveal one possible way to correct it. Invite a volunteer to explain why each correction was made.

Sentence fragments are incomplete sentences. They do not express complete thoughts. You can correct sentence fragments by adding a subject, a predicate, or both.

These small, bitter fruits look like grapes.

The best olives are filled with rich oil.

An olive turns from green to purple-black.

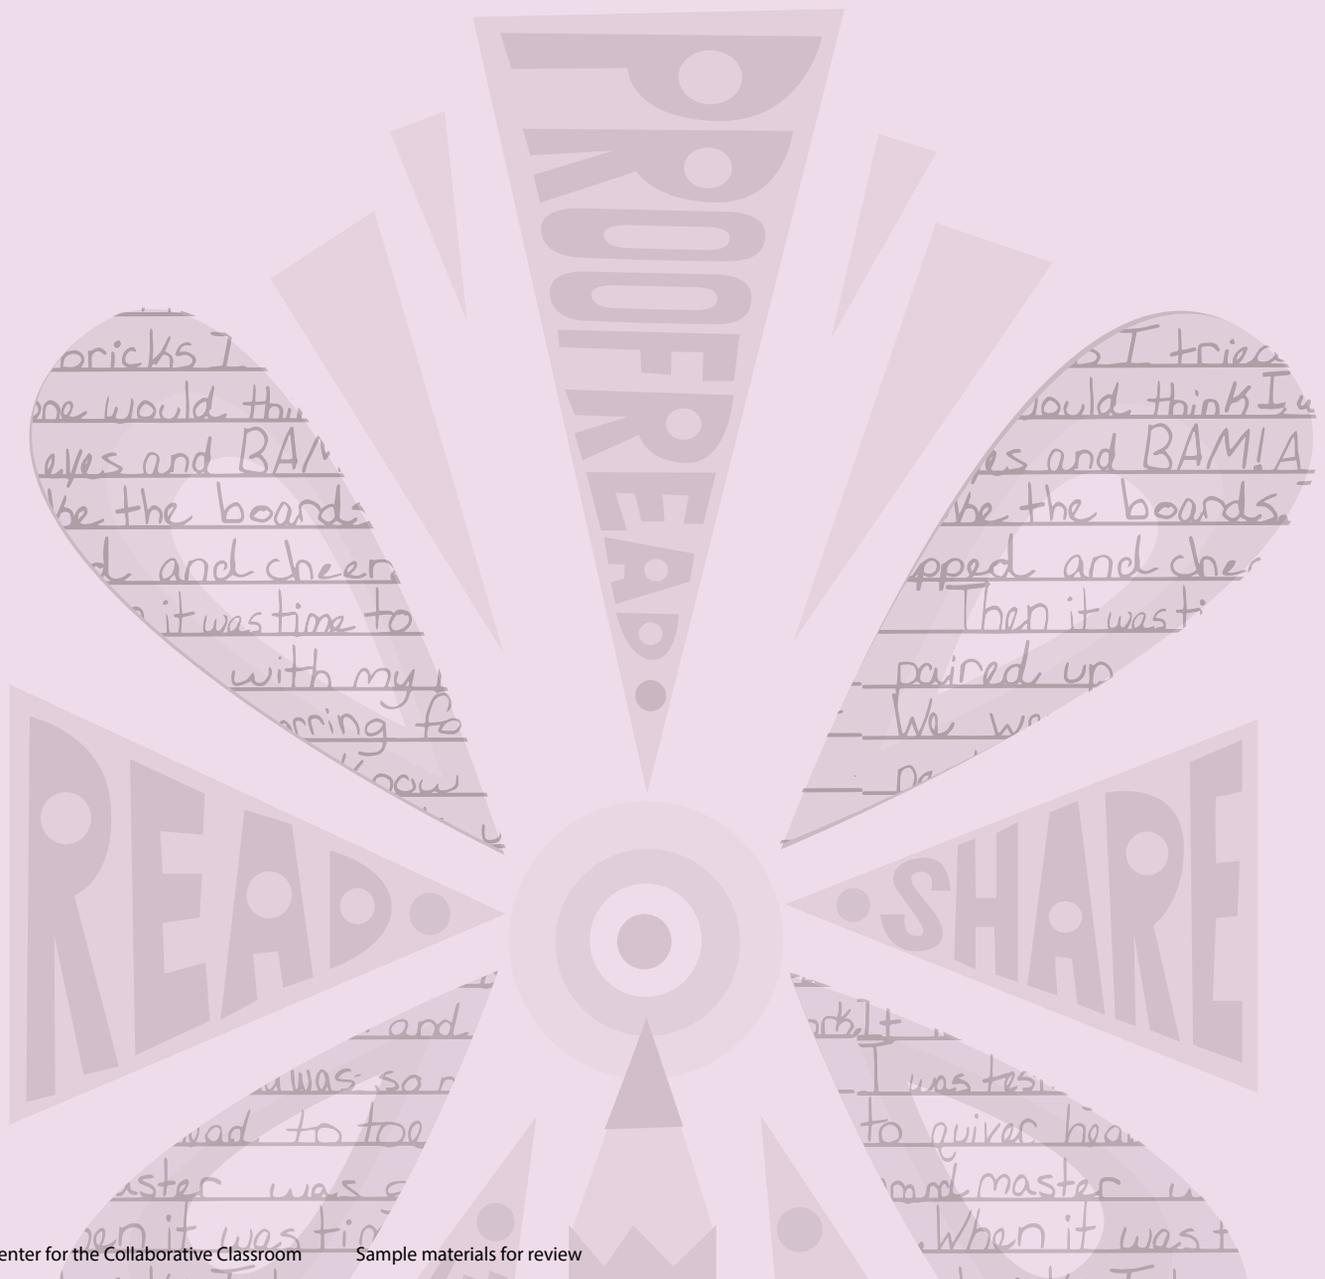

Run-on sentences are two or more sentences that run together. You can correct run-on sentences by separating the sentences, or by combining them with a conjunction and the proper punctuation.

An olive tree can live longer than two thousand years. Its bark becomes twisted as it gets older.

Optional Practice

Have the students complete pages 16–18 in their *Student Skill Practice Books*, independently or in pairs, to practice using sentences correctly in their writing.

INTRODUCTION

1. Tell the students that in this lesson they will learn about nouns. Explain that a **noun** is a word that names a person, a place, an animal, a thing, or an idea. A **singular noun** names one person, place, animal, thing, or idea, and a **plural noun** names more than one.
2. Display the “Nouns and Possessive Nouns” activity (📄 WA1). Read the first sentence aloud and ask:

Q Does the underlined noun name a person, a place, an animal, a thing, or an idea? (person) Is it singular or plural? (singular)

If necessary, point out that *teacher* names one person and is, therefore, a singular noun. Ask:

Q What word can we use to complete the second sentence? (teachers) How do we form the plural of teacher?

Give the students time to think, and invite one or two volunteers to respond. Write the plural noun *teachers* on the line and point out that most nouns form their plural by

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

adding -s. Invite a volunteer to read the sentence aloud. If necessary, explain that we need the plural form of *teacher* since the writer is talking about “more than one.” Ask:

Q Which word in the sentence gives you a clue that we are talking about more than one teacher? (Some)

Tell the students to pay attention to the other words in a sentence to help them figure out whether the singular or plural form of a noun is needed.

WA1

1. My teacher knows a lot about ancient Egypt.
Some teachers from our town have visited Egypt.
2. In my class, I learned that Egypt is in Africa.
I enjoy all of my history classes.
3. Egypt is an interesting country.
I want to learn about as many countries as I can.
4. Mr. Kahn talked about the life of King Tut.
Egyptian kings had fascinating lives.
5. King Tut was a child when he became king.
Children are not often kings.
6. One animal that Egyptians ate is the antelope, which is similar to a deer.
Deer live in many parts of the world.

3. Repeat the process for the remaining sentences, explaining the following rules for forming plural nouns:
 - Sentence 2: Add *-es* to a noun that ends with *s*, *ss*, *x*, *sh*, or *ch*.
 - Sentence 3: To form the plural of a noun that ends with a consonant + *y*, change the *y* to *i* and add *-es*.
 - Sentence 4: To form the plural of a noun that ends with *f* or *fe*, replace the *f* or *fe* with *-ves*.
 - Sentence 5: Some nouns form their plural by changing their spelling. These are called **irregular nouns**.
 - Sentence 6: Some nouns have the same spelling in their singular and plural form.

Teacher Note

If you wish to provide practice forming the plural of words ending with *f* or *fe*, demonstrate forming these plurals: *scarf/scarves*, *shelf/shelves*, *calf/calves*. If you wish to provide practice forming irregular plural nouns, demonstrate forming these plurals: *mouse/mice*, *goose/geese*, *woman/women*, *man/men*, *foot/feet*.

Teacher Note

After completing the activity, invite the students to identify the common and proper nouns in the sentences. If necessary, remind the students that a common noun names any person, place, animal, thing, or idea; it does not begin with a capital letter. A proper noun names a particular person, place, or thing; all proper nouns begin with a capital letter, and each important word in the proper noun is capitalized.

4. Display the next “Nouns and Possessive Nouns” activity (WA2). Read the three phrases in the box aloud and point out the underlined words. Point out that these nouns show ownership, or what belongs to a person, place, or thing. Then ask:

Q *What belongs to the king? (a crown) What belongs to the queens? (dresses) What belongs to the children? (toys)*

Explain that each phrase is a short way of saying “the _____ that belong/belongs to the _____.” (*crown/king; dresses/queens; toys/children*) Ask:

Q *What is similar in each of these possessive nouns? What is different?*

As needed, point out that each possessive noun ends with an apostrophe; however, sometimes the apostrophe is placed before the *s* and sometimes it is placed after it. Use the examples to explain how to form both singular and plural possessive nouns:

- Add an apostrophe and *-s* to a singular noun, such as *king*.
- Add just an apostrophe to a plural noun ending with *s*, such as *queens*.
- Add an apostrophe and *-s* to a plural noun that does not end in *s*, such as *children*.

the king's crown: *the crown that belongs to the king*
the queens' dresses: *the dresses that belong to the queens*
the children's toys: *the toys that belong to the children*

1. A team of scientists found King Tut's tomb and mummy in 1922.
2. The scientists' discovery amazed the world.
3. The mummy's face was covered with a gold mask.
4. The king's death at age nineteen has been a mystery.
5. People's curiosity about the death of the “boy king” grew.
6. Today some researchers' reports show that Tut may have died of natural causes.

5. Read the first sentence below the box aloud and ask:

Q *How can we make Tut a possessive noun?*

WA2

Invite a volunteer to respond. Then add an apostrophe and -s to form the possessive noun *Tut's*. Read the completed sentence aloud and invite a volunteer to explain why adding 's is correct. (*Tut* is a singular noun.)

6. Invite volunteers to the whiteboard to complete the remaining sentences. After all of the possessive nouns have been formed, ask:

Q *Why is it important to know how to use possessive nouns correctly?*

Students might say:

"Possessive nouns are a great way to show who owns something."

"I agree with Allie. You can show who owns something in just a few words."

"If you don't write possessive nouns correctly, your reader could get confused."

GUIDED PRACTICE

7. Display the next "Nouns and Possessive Nouns" activity (WA3). Have the students work in pairs to read the passage and discuss which answer choices should be used to complete the sentences.

(Bess's) Bess') class saw an exhibit of treasures from the tomb of King Tut. The (tombs, tomb's) contents included gold statues and his crown. The students learned that scientists have found almost 600 (mummies) mummys in Egypt. Often (thiefs, thieves) robbed tombs to get the treasures. Imagine the (student's, students') delight at seeing these amazing objects. The class also saw a painting of ancient Egyptians who were hunting (fish) fishes). Some kids wanted to take photos in the dim room, but camera (flashes, flashes) were not allowed.

WA3

8. Read the first sentence aloud. Ask:

Q *Which form of the noun Bess should we use here? Why?*

Invite a volunteer to use the pen to circle the answer and explain why it is correct.

Then have one or two volunteers identify words or phrases in the first sentence that help to determine which noun to use.

9. Continue working through the passage, reading each sentence aloud and having a volunteer circle the correct answer and explain why it is correct.

10. Have the students work in pairs to write a paragraph that includes singular and plural nouns, as well as singular and plural possessive nouns. Encourage the students to include at least one proper noun.

Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about an amazing object they have read about or have seen in person or on TV.

Optional Practice

Have the students complete pages 19–21 in their *Student Skill Practice Books*, independently or in pairs, to practice using singular, plural, and possessive nouns. Note that page 21 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 21 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

Teacher Note

You might have the students write the rules for forming plural nouns and possessive nouns along with examples in the Proofreading Notes section of their *Student Writing Handbooks*.

ELL Note

In Chinese, Vietnamese, Korean, and other Asian languages, there is no plural form for nouns. In these Asian languages and also in Spanish, there is no plural form after a number, for example: “The boy has three dog.” Therefore, students from these language backgrounds may need additional practice with plural nouns.

ELL Note

In Spanish, Haitian Creole, and Vietnamese, there are no possessive noun forms. Possession is shown through use of phrases such as “the penny of the boy.” In Haitian Creole and Vietnamese, the noun’s owner follows the object, for example: “bike the girl” instead of “the girl’s bike.” Therefore, students from these language backgrounds may need additional practice with possessive nouns.

INTRODUCTION

1. Tell the students that in this lesson they will practice identifying and using pronouns correctly. Remind the students that **pronouns** are words that take the place of nouns. Tell them that using pronouns in the right combination with nouns can help them write smooth, clear sentences that tell who is doing what without being repetitious.
2. Display the first “Subject and Object Pronouns” activity (🎯 WA6). Read the list of subject pronouns aloud and explain that a **subject pronoun** can take the place of the subject of a sentence.

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Subject Pronouns: I You He She It We They

1. Ruby loves pizza. **She** is making a chicken-and-pineapple pizza.
2. Lukas is making a veggie pizza. **He** is using peppers, onions, and olives.
3. Campbell and I like plain pizza. **We** just add extra sauce.
4. The crust is made of wheat dough. **It** will get crispy in the oven.
5. The pizzas are ready to bake. **They** will take about 20 minutes to cook.

3. Read sentence pair 1 aloud. Have the students identify the subject in each one. (*Ruby*) Ask:

Q *What do you notice about how these sentences sound together?*

If necessary, point out that repeating *Ruby* makes the sentences sound choppy and unnatural. Tell the students that replacing the subject of the second sentence with a pronoun will make the sentences flow more naturally. Ask them which pronoun they think should replace *Ruby* in the second sentence. Have one or two volunteers respond, and then click *Ruby* to reveal the pronoun *She*. Elicit that when you replace a subject that is “one female,” you use the pronoun *she*.

4. Repeat the process for the remaining sentence pairs, eliciting that:
 - *He* is used to refer to one male.
 - *We* is used to refer to the speaker plus one or more people.
 - *It* is used to refer to one thing.
 - *They* is used to refer to more than one thing or person.

Read the revised sentences aloud and guide the students to notice how replacing the second subject with a pronoun makes the writing sound better.

5. Display the second “Subject and Object Pronouns” activity (🔊 WA7). Read the list of **object pronouns** aloud and explain that an object pronoun can take the place of a noun that receives the action of a verb. An object pronoun can also follow a preposition such as *on*, *to*, *of*, *at*, or *for*.

Object Pronouns: me you him her it us them

1. Mrs. Bellini checks the pizzas. She carefully removes **them** from the oven.
2. Mrs. Bellini cuts each pizza. She slices **it** into four pieces.
3. Ruby gives plates to Lukas, Campbell, and me. She also gives **us** plenty of napkins.
4. Lukas offers Ruby a slice of veggie pizza. He hands **her** a slice.
5. Ruby thanks Lukas. She gives **him** a slice of pizza, too.

6. Ask a volunteer to read sentence pair 1 aloud. Point out that, in these sentences, *the pizzas* is the object of, or receives the action of, the verbs *checks* and *removes*. Then ask:

Q *What can we do to avoid repeating the pizzas in the second sentence? (Replace the pizzas with an object pronoun.)*

Click *the pizzas* in the second sentence to reveal the pronoun *them* and explain that the pronoun *them* is used to replace an object that is “more than one thing or person.”

7. Have a volunteer read sentence pair 2 aloud. Then ask the students which pronoun they think should replace *each pizza* in the second sentence. After giving the students a few moments to respond, remind them that the word *each* in front of *pizza* makes this a singular noun. Then click *each pizza* to reveal the pronoun *it*. Elicit that when you replace an object that is “one thing,” you use the pronoun *it*.
8. Repeat the process for the rest of the sentences, eliciting that:
 - *Us* is used to refer to the speaker plus one or more people.
 - *Her* is used to refer to one female.
 - *Him* is used to refer to one male.

Teacher Note

For the pronouns *I*, *you*, and *me*, write the following sentences on the board: *I share with you. You share with me.* Then use these sentences to explain that:

- The pronoun *I* is used only when you are talking about yourself as a subject, while *me* is used only as an object or after a preposition.
- The pronoun *you* can be used as both a subject and an object, and it can take the place of either a singular or a plural noun.

GUIDED PRACTICE

9. Display the third “Subject and Object Pronouns” activity (WA8). Explain to the students that they will read a passage that is missing some pronouns and will work together to fill in the blanks.

I	he	she	it	We	they
You	me	him	her	us	them

Campbell and I share a pizza. We both agree that there is just the right amount of sauce on it. Campbell takes a big bite.

“Owww! It’s hot,” he cries and drops the pizza on Ruby’s lap.

“Oh no! You have made a mess,” she shouts at him.

“These are my favorite jeans, and now they have tomato sauce all over them!”

Lukas jumps up to help her but knocks over my water glass.

So now I am all wet! Mrs. Bellini gives me a towel.

Who knew pizza could cause so much trouble for all of us?

WA8

10. Read aloud the words in the word box. Then read the first two sentences aloud. Ask:

Q *Who is sharing a pizza? (Campbell and I) Is Campbell and I a subject or an object? (subject)*

Q *Could we insert Campbell and I at the beginning of the second sentence? (Yes.) Should we? Why or why not? (No. The sentence would sound choppy and repetitive. A pronoun would sound better.)*

Q *Which pronoun from the word box would you use to replace Campbell and I? (We)*

Drag and drop *We* into the blank at the beginning of the second sentence. Then have a volunteer read the completed sentence aloud.

11. Continue working through the story. Once all of the pronouns have been correctly placed, have a volunteer read the completed passage aloud.

12. Have the students work in pairs to write a paragraph using at least six pronouns, including three subject and three object pronouns.

Teacher Note

If the students have difficulty thinking of a topic, suggest that they write about having a fun meal together. It can be a true or made-up story.

Optional Practice

Have the students complete pages 22–24 in their *Student Skill Practice Books*, independently or in pairs, to practice using subject and object pronouns. Note that page 24 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 24 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

ELL Note

In Vietnamese and some other Southeast Asian languages, there is no gender distinction between third-person singular pronouns. Therefore, students from these language backgrounds may need additional practice with singular pronouns.

INTRODUCTION

1. Tell the students that in this lesson they will learn more about pronouns, or words that take the place of nouns.
2. Display the “Possessive Pronouns” activity (🎯 WA11). Read the pronouns in the word box aloud, and explain that **possessive pronouns** show possession, or ownership. Remind the students that they already know how to form and use possessive nouns.
3. Read the first sentence pair aloud, and have a volunteer point out the possessive noun. (*Raoul’s*) Ask:

Q *Which words show what belongs to Raoul?* (parents and sister)

Explain that one of the possessive pronouns in the word box can take the place of the possessive noun *Raoul’s*. Then ask:

Q *Which possessive pronoun can take the place of Raoul’s?* (His)

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Click *Raoul's* to reveal *His*. Then reread the two sentences aloud. Point out that the word *his* shows that “one male owns something.” Also point out that the pronoun shows ownership but does not have an apostrophe.

WA11

my your His Her Its our Their

1. Raoul visited the Arizona desert. **His** parents and sister went, too.
2. Raoul's sister, Lara, loves the desert. **Her** favorite animal is the bobcat.
3. She thinks the bobcat is beautiful. **Its** fur is soft and spotted.
4. The kids' parents studied the desert. **Their** parents are scientists.
5. They said, “Kids, let's get ready for **our** hike up the ridge.”

4. Repeat the process for the remaining sentences. Explain that:
 - *Her* shows that one female owns something.
 - *Its* shows that one thing owns something.
 - *Their* shows that more than one person, place, or thing owns something.
 - *Our* shows that the speaker and one or more people own something.

Explain that:

- The pronoun *my* shows that something belongs to the speaker. (*I like my photos of the desert plants.*)
 - The pronoun *your* refers to something that belongs to one or more people that you are addressing. (*I like your photos.*)
5. After the sentences have been completed, have a volunteer read them aloud. Point to the phrases: *His parents*, *Her favorite animal*, *Its fur*, *Their parents*, *our hike*. Explain that each of the possessive pronouns was placed before a noun to show ownership of that noun. If necessary, also point out that an adjective, or describing word, may come before the noun, as in *Her favorite animal*, in which case the possessive pronoun comes before the adjective.

Teacher Note

A possessive pronoun takes the place of a possessive noun to show ownership: **Ben's coat/his coat**; **Sara's bike/her bike**. When a pronoun is used before a noun, as in these examples, it also may be called a *possessive adjective*. The terms *possessive pronoun* and *possessive adjective* are both correct for words such as *his* and *her*. The second edition of the *Being a Writer* program uses the term *possessive pronoun*.

6. Display the next “Possessive Pronouns” activity (🎧 WA12) and explain that some possessive pronouns stand alone—they are not followed by a noun. Point to the possessive pronouns in the word box. Then read the first sentence pair aloud. Tell the students that a possessive pronoun can be used to replace the possessive noun *Raoul’s*. Ask:

Q Which possessive pronoun can we use to replace *Raoul’s*?

Give the students time to think, and invite a volunteer to respond. Then click *Raoul’s* to reveal *his*. Remind the students that a possessive pronoun must agree in number and gender with the noun it replaces. When you replace a possessive noun such as *Raoul’s* that is “one male’s,” you use the possessive pronoun *his*.

mine his hers ours yours theirs

1. Raoul puts on his backpack. The blue backpack is **his**.
2. Lara puts on her backpack. The green backpack is **hers**.
3. Lara puts on her red-striped hat. She says, “This cool hat is **mine** .”
4. She hands Raoul a white baseball cap. Lara says, “This hat is **yours** .”

WA12

7. Repeat the process with the remaining sentences. Help the students articulate when to use each possessive pronoun:
- Use *hers* to replace “one female’s.”
 - Use *mine* to refer to something that belongs to you, the person who is speaking.
 - Use *yours* to refer to something that belongs to one or more people you are addressing.

Teacher Note

You might want to write the following sentences on the board: *These backpacks are ours. Those backpacks are theirs.* Then explain that:

- The pronoun *ours* refers to something that belongs to the speaker and someone else.
 - The pronoun *theirs* refers to something that belongs to more than one person.
8. After all of the sentences have been completed, invite a volunteer to read them aloud. Ask:

Q Why is it important to know how to use possessive pronouns correctly?

Students might say:

"Possessive pronouns show what belongs to a person, place, or thing, and you can use them instead of repeating the same noun."

"I agree with Kevin. You have to use them correctly when you speak or write, or someone else could get really confused."

GUIDED PRACTICE

9. Display the next "Possessive Pronouns" activity (🗣️ WA13). Explain to the students that they are going to practice using possessive pronouns. Have the students work in pairs to read the passage and discuss which answer choices should be used to complete the sentences.

WA13

Use before a noun: my your his her its our their

Stands alone: mine yours his hers ours theirs

As they began the walk, Raoul's mom said, "Raoul, would you carry our map?" Raoul led his family down the trail. They saw tall cactus plants on their walk. Dad explained that the height of a cactus is a hint about its age. He said to Raoul, "That tall plant on your right is about 100 years old." The group saw lizards sitting in the sun. As the group observed a big brown lizard, the wind blew off Raoul's hat.

Another hiker caught it and asked Dad, "Is this yours?"

Lara pointed to Raoul and said, "No. It's his."

10. Read the first sentence aloud and ask the students which possessive pronoun they could use in the blank. Invite a volunteer to the whiteboard to drag and drop *our* into the blank and then read the sentence aloud. Ask the students why this pronoun is the correct choice.
11. Repeat the process with the remaining sentences. After all the pronouns have been placed, invite a volunteer to read the story aloud.

Teacher Note

If necessary, help the students choose the correct pronoun by asking: "Does the pronoun come before a noun or does the pronoun stand alone?" Point out that *his* is in both groups; it can both come before a noun and stand alone.

12. Have the students work in pairs to write a paragraph using at least four possessive pronouns.

Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about a favorite outdoor activity.

Optional Practice

Have the students complete pages 25–27 in their *Student Skill Practice Books*, independently or in pairs, to practice using possessive pronouns. Note that page 27 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 27 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

Teacher Note

To help the students use possessive pronouns correctly, you might have them make a chart similar to this one in the Proofreading Notes section of their *Student Writing Handbooks*. Have the students underline the pronouns that can stand alone.

Singular	Plural
my, <u>mine</u>	our, <u>ours</u>
your, <u>yours</u>	your, <u>yours</u>
her, <u>hers</u> , <u>his</u> , its	their, <u>theirs</u>

ELL Note

In Spanish the article *the* is sometimes used instead of some possessive pronouns that precede a noun, for example: “The boy lost **the** hat.” Students with this language background may need additional practice with possessive pronouns.

INTRODUCTION

1. Remind the students that they already know how to use subject, object, and possessive pronouns to replace nouns. Tell the students that in this lesson they will learn more about making sure that a pronoun **agrees** with, or matches, the noun that it replaces in a sentence.
2. Display the first “Noun-Pronoun Agreement” activity (📄 WA16). Use the chart to review subject, object, and possessive pronouns. Remind the students that:
 - Singular pronouns take the place of singular nouns, and plural pronouns take the place of plural nouns.
 - The pronouns *he*, *she*, *him*, *her*, and *his* also show gender, or whether the person who is referred to is male or female.

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Invite volunteers to identify the two pronouns that show neither number nor gender. (*you, your*)

ELL Note

In many languages, including Chinese, Haitian Creole, Hmong, Korean, and Vietnamese, there is no distinction between subject and object pronouns. In Vietnamese, there is also no distinction between subject and possessive pronouns. You may want to create a chart like the one shown in WA16 to post in your classroom for students from these language backgrounds.

WA16

	Singular	Plural
Subject Pronouns	I, you, he, she, it	we, you, they
Object Pronouns	me, you, him, her, it	us, you, them
Possessive Pronouns	my, your, his, her, its	our, their

1. When Sara got home from school, she could not find her coat.
(antecedent: Sara; subject pronoun: she; possessive pronoun: her)
2. Two boys found Sara's coat on the bus. They gave the coat to the bus driver.
(antecedent: boys; subject pronoun: They)
3. The bus driver brought the coat to school and put it in the Lost-and-Found box.
(antecedent: the coat; object pronoun: it)
4. Sara saw Colin and Nigel at school the next day and thanked them.
(antecedent: Colin and Nigel; object pronoun: them)

3. Read the sentence in item 1 aloud and have the students identify the two pronouns in it. (*she; her*) Ask:

Q *Is she a subject or an object pronoun? (subject) Is her a subject pronoun or a possessive pronoun? (possessive)*

Click *she* and *her* to reveal the labels *subject pronoun* and *possessive pronoun*. Then ask:

Q *Are she and her singular or plural? (singular) Are they male, female, or neither? (female)*

Have the students locate the noun in the sentence that matches *she* and *her* in number and gender. (*Sara*) Click *Sara* to reveal the label *antecedent* and explain that an **antecedent** is the noun that a pronoun replaces or refers back to. A pronoun must always **agree in number** and **gender** with its antecedent.

4. Read the pair of sentences in item 2 aloud. Have the students identify the pronoun in the second sentence and tell what kind of pronoun it is. (*They*; subject pronoun) Click *They* to confirm the answer. Then explain that a pronoun's antecedent may be in the

same sentence or in a previous one. Help the students find the antecedent of *They* in the first sentence. (*boys*) Click *boys* to confirm, and then elicit that *They* and *boys* are both plural. Point out that plural pronouns are the same for both males and females, so there is no need to match the gender of the antecedent.

- Repeat the process for item 3, having volunteers identify pronouns and their antecedents as you click to confirm their responses. For item 4, point out that the nouns *Colin* and *Nigel* are singular, but together they form a compound object. Explain that a **compound object**, like a compound subject, is made up of two or more parts joined by a conjunction. When the conjunction is *and*, the compound object is considered plural; so the pronoun that replaces it is plural, too (*them*).

GUIDED PRACTICE

- Display the next “Noun-Pronoun Agreement” activity (🗨️ WA17). Explain to the students that they will read a paragraph that is missing some pronouns and that you will work together to choose the pronouns that correctly match the nouns they are replacing or referring to.

WA17

He	She	it	You	they	him
them	his	her	your	their	

The students were always leaving their belongings on the bus. Mr. Huang, the bus driver, was always finding them. It was his job to bring the items to the Lost-and-Found box. He frequently told the students, “ You need to keep better track of your things!” But they didn’t listen.

The Lost-and-Found box was full of interesting items. Sara found her coat under three sweaters and five socks. She also saw a cap that belonged to her little brother. Ty would be thrilled when Sara returned it to him.

- Read the first sentence aloud and help the students identify the missing pronoun. (*their*) Ask:

Q *Why is this the correct pronoun? (The antecedent of their is students; their is a possessive pronoun that refers to the students’ belongings.)*

Invite a volunteer to the whiteboard to drag and drop *their* into the blank and then read the sentence aloud.

8. Continue guiding the students through the paragraph, reading the sentences aloud and having volunteers drag and drop pronouns into the blanks and explain their choices. After all the pronouns have been placed, invite a volunteer to read the paragraph aloud.

9. Have the students work in pairs to write a paragraph, using a subject, object, and possessive pronoun.

Teacher Note

If the students have difficulty thinking of a topic, suggest that they write about losing or finding something.

Optional Practice

Have the students complete pages 28–30 in their *Student Skill Practice Books*, independently or in pairs, to practice noun-pronoun agreement. Note that page 30 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

Whiteboard Activities

- “Review” activity (WA20)
- “Review” activity (WA21)
- “Review” activity (WA22)
- “Review” activity (WA23)

REVIEW

1. Explain to the students that they are going to review what they have learned about nouns and pronouns in Lessons 7–10. Remind the students that they have learned how to:
 - Recognize and use singular, plural, and possessive nouns
 - Recognize and use subject, object, and possessive pronouns
 - Choose a pronoun that agrees with its antecedent, or the noun it is replacing or referring back to
2. Display the first “Review” activity (WA20). Read the definition of a noun aloud and guide the students to distinguish between a singular and a plural noun. Have volunteers point to an item in the classroom, such as a pencil, and then supply the singular and plural forms, for example: *one pencil/two pencils*.

A **noun** is a word that names a person, a place, an animal, a thing, or an idea. A noun can be singular or plural.

- Add -s to form the plural of most nouns: **nickels**_____, **dimes**_____.
- Add -es to nouns that end with s, ss, x, sh, ch: **dress**es_____, **boxes**_____, **wish**es_____, **lunch**es_____.
- Change the y to an i and add -es to a noun that ends with a consonant + y: **penny**ies_____, **spy**ies_____.
- Replace the f or fe with -ves for nouns that end with f or fe: **scarf**ves_____, **wife**ves_____.
- Change the spelling to form the plural of some irregular nouns: **child**ren_____, **teeth** ee_____.
- Keep the same spelling for some irregular plurals: **sheep**, **deer**.

3. Invite volunteers to read aloud each of the six possible ways to form plural nouns. For all but the last, have them say and spell the plural form of the words. Write their responses on the lines, pointing out the changes in spellings. Then invite volunteers to read aloud the words whose singular and plural forms are the same. Ask them to think of other nouns whose plural form does not change, for example: *fish*, *bison*, *jeans*, and *scissors*.
4. Display the next “Review” activity (🗨 WA21). Read the definition of a possessive noun aloud. Have volunteers say and spell the singular possessive form of the noun and the plural possessive form. Click each blank to reveal the correct possessive form, pointing out whether the apostrophe comes before the s or after it.

A **possessive noun** shows ownership.

- Add 's to make a singular noun possessive: **a baby's toy**.
- Add an apostrophe after the s for plurals that end with s: **the babies' bottles**.
- Add 's for plurals that do not end with s: **the children's notebooks**.

5. Have the students work in pairs, with each student naming a favorite possession. Then have them work together to write a phrase for each object, using a possessive noun to show ownership, for example: *Kati's football* or *Ari's dinosaur bone*. Repeat the process, providing a plural noun so that the students in each pair may form a plural possessive noun, for example: *the girls' bikes* or *the children's teddy bears*.

6. Display the next “Review” activity (WA22). Remind the students that a pronoun takes the place of a noun. Read aloud the definition of a subject pronoun and the sample sentences below it. Ask:

Q *What is the subject of the first sentence? (Lil and Drew) What pronoun can we use to replace the subject? (They)*

Q *What is the subject of the second sentence? (Lil) What pronoun can we use to replace the subject? (She)*

Click the underlined subject in each sentence to confirm the students’ responses. If necessary, point out that *Lil and Drew* is a compound subject, so we use the subject pronoun *They* that stands for “more than one.” Lil represents “one female,” so we use the pronoun *She*. Ask the students why it is important to use subject pronouns correctly. (They make the writing clearer and less repetitive.)

WA22

A **subject pronoun** replaces a noun that is the subject of a sentence. It tells whom or what the sentence is about.

They wash cars to earn money. **She** gets a new bike.

An **object pronoun** replaces a noun that receives the action of the verb. It can also follow a word such as *with, to, at, for, below, or from*.

Lil rides **it** everywhere. Lil waves to **him**.

A **possessive pronoun** shows ownership.

Lil is proud of **her** new bike.

Drew tells Lil, “Your bike is much faster than **mine**.”

7. Read aloud the definition of an object pronoun and the sample sentences that follow. Guide the students to identify the objects in the sample sentences. (*the bike; Drew*) Have one or two volunteers choose the object pronoun that best replaces each noun. (*it; him*) Click the underlined object in each sample sentence to confirm the students’ responses.

Teacher Note

Point out that in the second sentence, the object pronoun *him* follows the preposition *to*.

If necessary, review how the subject pronouns *I, you, he, and it* and the object pronouns *me, you, her, us, and them* are used, for example: *I* is used when talking about yourself as a subject while *me* is used as an object or after a preposition.

8. Invite a volunteer to read aloud the definition of a possessive pronoun. Remind the students that some possessive pronouns, such as *my*, *your*, *her*, and *our*, come before a noun. Read the first sample sentence aloud and ask:

Q Which possessive pronoun would we use to replace Lil's? (her) Why? (Her shows that one female owns something.)

Click *Lil's* to confirm the students' responses. Point out that the possessive pronoun *Your* in the next sentence also comes before a noun. Then remind the students that some possessive pronouns, such as *mine*, *yours*, and *ours*, stand alone. Ask:

Q Which possessive pronoun would we use to replace my bike? (mine) Why? (Mine is used to refer to something that belongs to the speaker.)

Click *my bike* to confirm the students' responses.

9. Display the next "Review" activity (WA23). Invite a volunteer to read aloud the first explanation of noun-pronoun agreement. Read the sample sentences aloud and ask:

Q Which pronoun could you use to replace parrots? (them) Why? (Parrots is a plural noun, so we use a plural pronoun.) Is them a subject, object, or possessive pronoun? (object pronoun)

Confirm the students' responses by clicking the blank.

10. Have a volunteer read the second explanation aloud and ask:

Q Which pronoun could you use to replace Cal? (he) Why? (He is used to refer to one male.) Is he a subject, object, or possessive pronoun? (subject pronoun)

As needed, review that gender indicates whether a word refers to a male or female. Confirm the students' responses by clicking the blank.

The noun that a pronoun replaces or refers back to is called the **antecedent**. A pronoun and its antecedent must **agree**, or match, in **number**. Singular pronouns replace singular nouns. Plural pronouns replace plural nouns.

Cal has two parrots. The boy loves to teach words to them.

A pronoun and its antecedent must also agree in **gender**.

Cal teaches the parrots one new sentence a week. Today he taught the birds to say, "That's yucky!"

INTRODUCTION

1. Tell the students that in this lesson they will practice using verbs and simple verb tenses. Explain that verbs not only make the action in writing come alive; they also help clarify the order of events.
2. Display the first “Verbs” activity (WA1). Read the definition of action verbs aloud. Then read the first sentence aloud and have the students identify the verb. (*wears*) Check the students’ responses by clicking *wears* to reveal the label *action verb*.

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Action verbs tell what someone or something does.

My grandmother **action verb** wears eyeglasses.

She **helping verb** can **main verb** read better with glasses.

Linking verbs connect a subject to words that tell what the subject is or is like.

Grandma's glasses **linking verb** are ovals with red frames.

The glasses **linking verb** look good on her.

Glasses **helping verb** can **main verb** be very stylish.

3. Read the second sentence aloud. Tell the students that an action verb can have two parts—a helping verb and a main verb. The **main verb** describes the action, while the **helping verb** adds meaning about the time or possibility of the action. Ask:

Q Which word shows action in this sentence? (read)

Q Which word is the helping verb? (can)

Invite volunteers to respond. Then confirm their responses by clicking *can* and *read* to reveal the labels *helping verb* and *main verb*.

4. Read the definition of linking verbs aloud. Then read the first sentence aloud and have the students identify the linking verb. (*are*) Confirm the response by clicking *are* to reveal the label *linking verb*.

Teacher Note

Point out to the students that *are* is a form of the irregular verb *be*. Explain that:

- *Are* is used when the subject is plural (as in *glasses*) or the pronoun *they, we, or you*.
- *Is* is used when the subject is singular or the pronoun *he, she, or it*.
- *Am* is used when the subject is *I*.

5. Read the next sentence aloud and have the students identify the verb. (*look*) Ask:

Q Are the glasses actually “looking” at something? (No.) What kind of verb is *look* in this sentence? (*linking verb*)

Confirm the response by clicking *look* to reveal the label *linking verb*. Point out that the verbs *look, feel, smell, sound, and grow* can all be action or linking verbs.

Teacher Note

Use the following sentences to introduce two other common linking verbs, *become* and *seem*:

- Our eyesight often **becomes** weaker as we age.
- Distant and close-up objects **seem** blurry.

6. Read the last sentence aloud. Tell the students that linking verbs, like action verbs, can have two parts. Have the students identify the helping and main verbs in the sentence. (*can*; *be*) Click *can* and *be* to reveal the labels *helping verb* and *main verb*.
7. Display the next “Verbs” activity (🎧 WA2) and tell the students that verbs can be used to tell when the action in a sentence takes place. Read the names of the three tenses aloud. Ask:

Q Which tense would you use if you wanted to write about something that is happening right now or happens regularly? (*present*) Something that happened yesterday? (*past*) Something that is going to happen tomorrow? (*future*)

WA2

Simple Verb Tenses: present past future

Grandma **present tense** likes her new glasses. I **past tense** picked them out for her last week after the dog **past tense** carried away her old glasses and **past tense** dropped them down the stairs. The frames **past tense** broke and the lenses **past tense** fell out. Grandma **past tense** was so upset! From now on, she **future tense** will hide her glasses from the dog.

8. Ask the students to read the passage silently, paying attention to the verbs. Then return to the first sentence and read it aloud. Have the students identify the verb and its tense. (*likes*; *present*) Confirm the answer by clicking *likes* to reveal the label *present tense*.
9. Read the second sentence aloud and have the students identify the three verbs in it. (*picked*; *carried*; *dropped*) Ask:

Q When is the action in this sentence taking place? (*last week*; *in the past*)

Click *picked*, *carried*, and *dropped* to reveal the label *past tense* over each one. Point out that the past tense of many verbs is formed by adding *-ed*. Then use *carried* and *dropped* to remind the students that:

- If a word ends with a consonant + *y*, the *y* is changed to *i* before adding *-ed*.
- If a word ends with a consonant after a short vowel, the consonant is doubled before adding *-ed*.

10. Explain that not all past-tense verbs end with *-ed*. Many verbs have irregular past-tense forms. Read the next two sentences aloud. Invite a few volunteers to find the irregular verbs and to identify their present-tense forms. (*broke, break; fell, fall; was, is*) Confirm the answers by clicking the verbs. Then point out that *was* is a past-tense form of the verb *be* and is used with a singular subject; *were* is used when the subject is plural or the pronoun is *you*.

 **ELL Note**

Irregular past-tense verbs may present a particular challenge for English Language Learners. You may wish to create and post additional past-tense forms for reference:

Present	Past
see	saw
write	wrote
begin	began
become	became
find	found
tell	told
give	gave
feel	felt

11. Read the last sentence aloud and have the students identify the future-tense verb. (*will hide*) Click *will hide* to reveal the label *future tense*. Elicit that the simple future tense of most verbs is formed by adding *will* before the present-tense form of the verb.

 **ELL Note**

In Chinese, Hmong, and Vietnamese, there are no tense inflections. Verb tense is usually indicated through the context of the sentence, or by adding some expression of time.

GUIDED PRACTICE

12. Display the third “Verbs” activity ( WA3). Explain to the students that they will read the passage and circle the form of the verb that correctly completes each sentence.

Only a few years ago, Grandma's eyes (are, ^{LV} were) as sharp as a fox's. She (^{AV} recognized, will recognize) people from far away. But last year her eyes (^{LV} became, become) weaker. These days she (used, ^{AV} uses) her glasses for everything. She (^{HV AV} can see, saw) only shapes without them. But she (^{AV} hears, heard) really well. Her doctor says that her eyes (^{HV LV} grew, will grow) weaker in time. She (^{HV AV} lose, may lose) some hearing, too. Still, I (^{HV AV} will love, loved) her forever.

13. Have a volunteer read the first sentence of the passage aloud. Ask:

Q *When is the action taking place in this sentence? (a few years ago)*

Q *Which form of the verb should we circle? (were)*

Repeat the process with the rest of the passage.

14. After all the verbs have been circled correctly, have a volunteer read the completed passage aloud. Then work with the students to identify the action verbs, linking verbs, and helping verbs. Write *AV*, *LV*, or *HV* above each verb accordingly.
15. Have the students work in pairs to write a paragraph, using at least one past-tense, one present-tense, and one future-tense verb.

Teacher Note

If the students have difficulty thinking of a topic, suggest that they write about something that has changed about both of them over time, such as age, height, or hairstyle.

Optional Practice

Have the students complete pages 34–36 in their *Student Skill Practice Books*, independently or in pairs, to practice using verbs. Note that page 36 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 36 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

INTRODUCTION

1. Tell the students that in this lesson they will learn about a verb tense called the *perfect tense*. Explain that writers use the **perfect tense** when they want to show that one action has started or has been completed before another action in the past, present, or future.
2. Display the first “Perfect Verb Tenses” activity (WA6). Read the first pair of sentences aloud. Have the students identify the verb in the first sentence and its tense. (*plays*; present) Circle the word *plays*. Then reread the second sentence and ask:

Q *Has the action in the second sentence taken place before or after the action in the first sentence? (before) How can you tell?*

Give the students a moment to think, and invite one or two volunteers to respond. If necessary, point out the context clue *since the second grade* and that the main verb ends with *-ed*, which shows past tense. Circle *played*.

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

3. Have the students identify the helping verb in the second sentence. (*has*) Underline *has* and tell the students that using *has* or *have* with the past-participle form of a verb shows that the action started in the past and has finished or may still be happening. This is called the **present-perfect tense**.

Teacher Note

Explain that the past participle of a regular verb is the same as its simple past-tense form (the present-tense form + *-ed*). The past participle of an irregular verb is either the same as its simple past-tense form (for example, *catch/caught/has caught*) or another form altogether (for example, *throw/threw/has thrown*).

WA6

1. Isaiah plays a lot of soccer. He has played soccer since the second grade.
2. Isaiah's parents watch every game. They have watched all ten games this year.
3. The Tigers usually win. They have won six of the last seven games.
4. Isaiah gives soccer lessons to me. He has given me some good tips.

4. Repeat the process with the next pair of sentences. This time underline the subjects in both sentences and remind the students that *have* is used when the subject is the pronoun *I*, *you*, *we*, or *they*.
5. Read sentence pair 3 aloud, and have the students identify the verbs and their tenses in both sentences. (*win*, present; *have won*, present-perfect) Circle *win* and *won* and underline *have*. Then ask:

Q *What is the past participle of win? (won)*

Repeat the process for sentence pair 4, eliciting that *given* is the past participle of *give(s)*. Then ask the students to name the simple past-tense forms of *win* and *give*. (*won*; *gave*)

6. Display the next “Perfect Verb Tenses” activity (WA7). Read the first sentence pair aloud. Have the students identify the verb and its tense in the first sentence. (*kicked*; past) Circle the word *kicked*. Then reread the second sentence and ask:

Q *Did the action in the second sentence take place before or after the action in the first sentence? (before)*

Have a volunteer identify the helping verb in the second sentence. (*had*) Underline *had* and explain that using *had* with the past participle of a verb shows that the action was completed before another action in the past. This is called the **past-perfect tense**.

WA7

Isaiah kicked two goals in Saturday's game. He had kicked one goal in the game last week.

Most likely, our team will go to Finals again this year. By the end of today, the Tigers will have won more games than all the other teams together.

7. Read the second pair of sentences aloud. Have one or two volunteers identify the verb and its tense in the first sentence. (*will go*; future) Underline *will* and circle *go*.

Q *Will the action in the second sentence take place before or after the action in the first sentence? (before)*

Then reread the second sentence, and underline *will have*. Explain that using *will have* with the past participle of a verb shows that the action has started or has been completed before another action in the future. This is called the **future-perfect tense**. Circle the past participle *won*.

ELL Note

The perfect tenses may present a particular challenge for English Language Learners. You may wish to create and post this chart for reference:

Present Tense	Simple Past Tense	Perfect Tenses (<i>has, have, had, or will have</i> + _____)
see	saw	seen
write	wrote	written
begin	began	begun
make	made	made
find	found	found
show	showed	shown
take	took	taken
come	came	come

GUIDED PRACTICE

8. Display the third “Perfect Verb Tenses” activity ( WA8). Tell the students that next they will read a passage and work together to choose the correct perfect-tense form of each verb shown in parentheses.

have lost had lost will have lost

1. The Tigers beat the Cobras in the Finals last year. The Tigers

_____ had lost _____ to the Cobras the year before.
(lose)

has led had led will have led

2. This year Isaiah is the team captain. He _____ has led _____ the Tigers to
(lead)
many victories already.

have been had been will have been

3. If the Tigers win in the Finals, they will be League Champions. All of

Isaiah's hard work _____ will have been _____ worth it.
(be)

9. Read the first sentence pair aloud and the three verb choices above it. If necessary, point out that *beat* (rather than *beated*) is the past-tense form of the verb *beat*. Then ask:

Q Which perfect tense—present-, past-, or future-perfect—should we use to complete the second sentence? (past-perfect) Why? (The action of beating the Cobras took place in the past, and the action of losing took place even before that.)

Drag and drop *had lost* into the blank. Repeat the process for the remaining sentences.

10. Have the students work in pairs to write a paragraph, using at least four perfect-tense verbs. They can be any combination of verbs in the present-, past-, or future-perfect tense.

Teacher Note

If the students have difficulty thinking of a topic, suggest that they write about learning a new sport.

Optional Practice

Have the students complete pages 37–39 in their *Student Skill Practice Books*, independently or in pairs, to practice using perfect verb tenses. Note that page 39 can be scored, allowing you to assess how well each student understands the lesson skill.

INTRODUCTION

1. Tell the students that in this lesson they will learn how to use progressive verb tenses. Explain that writers use the progressive tense when they want to show an action progressing, or continuing, over a period of time.
2. Display the first “Progressive Verb Tenses” activity (WA11). Read the sentences in the first paragraph. Then ask:
 - Q Which sentence describes an action that is going on right now? (the first one) How can you tell? (the phrase Right now; the verb are)
 - Q Which sentence describes an action that was happening in the past? (the second one) How can you tell? (the phrase A minute ago; the verb were)
 - Q Which sentence describes an action that will be happening in the future? (the third one) How can you tell? (the phrase Five hours from now; the verb will be)

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Right now we **present-progressive** are walking through the gate at Epic Island Amusement Park. A minute ago we **past-progressive** were waiting in a long line outside the gate. Five hours from now, we **future-progressive** will be going home tired but happy.

Earlier this week my friend and I **past-progressive** were talking about Epic Island. She **past-progressive** was looking at the park's website. She said, "The park **present-progressive** is advertising a special deal right now. People **present-progressive** are getting tickets for half-price!"

3. Point out that the verb in each sentence has two parts—a main verb ending with *-ing* and a helping verb that is a form of the verb *be*. Explain that:
- The first sentence shows action going on at the present time, so it is in the **present-progressive tense**. The verb consists of a present-tense form of *be* plus a main verb ending in *-ing*. (Click *are walking* to reveal the label *present-progressive*.)
 - The second sentence shows action going on in the past, so it is in the **past-progressive tense**. The verb consists of a past-tense form of *be* plus a main verb ending in *-ing*. (Click *were waiting* to reveal the label *past-progressive*.)
 - The third sentence shows action that will be going on in the future, so it is in the **future-progressive tense**. The verb consists of the future-tense form of *be* plus a main verb ending with *-ing*. (Click *will be going* to reveal the label *future-progressive*.)

Teacher Note

If necessary, review the rules for forming the past, present, and future tenses of the verb *be*.

- To form the present tense, use *is* when the subject is singular or the pronoun is *he*, *she*, or *it*. Use *are* when the subject is plural or the pronoun *we*, *you*, or *they*. Use *am* when the subject is *I*.
- To form the past tense, use *was* when the subject is singular or the pronoun *I*, *he*, *she*, or *it*. Use *were* when the subject is plural or the pronoun *we*, *you*, or *they*.
- To form the future tense, use the helping verb *will* with *be*, no matter what the subject is.

4. Read the next paragraph aloud, one sentence at a time. Ask the students to identify each verb and to say whether it is in the progressive tense. If so, have the students say which type—past, present, or future. Confirm the answer by clicking the verb to reveal the label *past-progressive*, *present-progressive*, or *future-progressive*.

Point out that the future-progressive tense has two helping verbs, *will* and *be*. Also, review that a helping verb and a main verb are sometimes separated by one or more other words, as in the case of a question, for example: *Are you going there today?*

ELL Note

In many Asian languages, including Chinese, Hmong, Korean, and Vietnamese, the subject and verb are not inverted when forming a question. Students with these language backgrounds may need help understanding that, in English, a question is usually formed by switching the order of the subject and verb.

GUIDED PRACTICE

5. Display the second “Perfect Verb Tenses” activity ( WA12). Tell the students that they will read a passage containing several progressive-tense verbs. Explain that the helping verbs are missing, and that the class will work together to choose the correct form of *be* to complete each sentence.

WA12

am is is are was were will be

When we arrived at Epic Island, the wind was blowing.
We were worrying then that it might rain. But now the sun
 is shining, and we are getting warm. I am
drinking lemonade to stay cool, and my friend is eating a
frozen banana. We don’t want to eat or drink too much, though,
because soon we will be going on a ride called the Spinning
Wheel of Horror.

6. Read the first sentence aloud. Then ask:

Q *Which form of be should we put before blowing? (was) Why? (The subject of the action—wind—is singular, and the action is happening in the past.)*

Drag and drop *was* into the blank and have the students read the completed sentence aloud.

7. Continue working through the story, inviting volunteers to drag and drop the correct form of *be* into each blank and read the completed sentence aloud. After all of the helping verbs have been placed correctly, read the completed story aloud.

Teacher Note

You might want to use the verbs *shining* and *getting* to point out the rules for adding *-ing* to a verb:

- When a verb ends with silent *e*, drop the *e* before adding *-ing*.
- When a verb ends with a consonant after a short vowel sound, double the consonant before adding *-ing*.

8. Have the students work in pairs to write a paragraph, using at least three progressive-tense verbs. They can be any combination of verbs in the present-progressive, past-progressive, or future-progressive tense.

Teacher Note

If the students have difficulty thinking of a topic, suggest that they write about going someplace new or exciting with a friend.

Optional Practice

Have the students complete pages 40–42 in their *Student Skill Practice Books*, independently or in pairs, to practice using progressive verb tenses. Note that page 42 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 42 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

INTRODUCTION

1. Tell the students that in this lesson they will learn how to avoid incorrect shifts in verb tenses. Explain that when writing a passage, it is important to use the same verb tense throughout the passage unless there is a clear reason to change it. Good writers move back and forth in time only when it makes sense.
2. Display the first “Shifts in Verb Tense” activity (📄 WA15). Read the first paragraph aloud, and have the students identify all of the verbs. (*was, visited, talked, told, heard*) Underline each verb. Then ask:

Q *When does all of the action in this paragraph take place? (around the same time in the past) How can you tell? (The verbs are all in the past tense.)*

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Explain that when writing about something happening at a certain point in time—whether it is in the past, the present, or the future—it is important to keep all the verbs in the same tense.

WA15

Tuesday was Career Day at school. A dentist, a computer programmer, and a chef visited my class. They talked about their favorite parts of their jobs. They also told us about the challenges. We heard some great stories.

I ^{liked}~~like~~ Safety Day even more. A police officer spoke to us about the importance of the “buddy system.” Then a firefighter demonstrated the use of a fire extinguisher. He ^{aimed}~~aims~~ the nozzle at a “fire” made of orange paper. Then he ^{sprayed}~~sprays~~ the fire extinguisher, and white foam went everywhere!

3. Read the second paragraph aloud, and have a few volunteers identify all the verbs. (*like, spoke, demonstrated, aims, sprays, went*) Underline each verb. Ask:

Q *When is the action in this paragraph happening?*

Invite a volunteer to respond. Then point out that it’s hard to tell when the action is taking place because the verbs keep changing between past and present tense. Ask:

Q *What would fix this paragraph? (changing all the present-tense verbs to past-tense verbs, or vice-versa)*

4. Ask the students to assume that Career Day already happened. Then invite volunteers to the whiteboard to cross out each present-tense verb and write the past-tense verb above it. When all of the present-tense verbs have been changed, have a volunteer read the corrected paragraph aloud.
5. Display the second “Shifts in Verb Tense” activity (🌀 WA16). Read the paragraph aloud and point out that sometimes the tense does have to change in the middle of a paragraph. Tell the students that if they are writing about different actions that take place at different times, it is not only OK but also necessary to shift between tenses.

At school right now, we are learning about jobs in science.

A biologist and an engineer spoke to our class yesterday.

They told us that, in the future, the world will need a lot more scientists.

6. Have volunteers underline the verb(s) in each sentence. (*are learning, spoke, told, will need*) Then ask:

Q *Why did the writer put the second sentence in the past tense when the first sentence is in the present? (The action in the first sentence is continuing in the present, while the action in the second sentence has already passed.)*

Q *Why did the writer switch from the past to the future tense in the third sentence? (While the scientists were speaking in the past, they were talking about an action that hasn't happened yet.)*

GUIDED PRACTICE

7. Display the third “Shifts in Verb Tense” activity (🎧 WA17). Tell the students that they will read a passage and decide together which verbs should change to make the tenses correct.

Justin’s mom works at a TV station. Last week she **came** to our class. She explained to us that she operates the TV camera. I **had** a question for her, so I raised my hand. I **asked** her if she likes her job. She **said** it is fun but challenging.

8. Have the students read the passage to themselves. Then ask:

Q *When does the event in this passage take place—the past, present, or future? (the past) How do you know? (The writer says Last week.)*

Then read the first sentence aloud and point out the present-tense verb *works*. Ask:

Q *Why is this verb in the present tense if the story takes place in the past?*

Students might say:

“The writer starts by telling who the story is about and what she does for work. The sentence is not telling about something that happened.”

“I agree with Karena. Justin’s mom works at the station currently, not just in the past.”

9. Read the next sentence aloud and have one or two volunteers identify the verb and its tense. (*comes*; present) Ask:

Q *Is this verb in the correct tense? (No.) How should it be changed, and why? (It should be changed to the past tense, came, because the writer is telling about something that happened last week.)*

Confirm the answer by clicking *comes* to change it to *came*.

10. Read the next sentence aloud and have one or two volunteers identify the two verbs in it and their tenses. (*explained*, past; *operates*, present) Lead the students to understand that both verbs are correct because the action of explaining took place in the past, but the action of operating is still true in the present.
11. Use a similar process for the next two sentences, but elicit that the present-tense verbs *have* and *ask* should be changed to *had* and *asked*, while *likes* can stay in the present tense. Then repeat the process for the last sentence, eliciting that the future-tense verb (*will say*) should be changed to the past tense (*said*).
12. Once all of the verbs are correct, invite a volunteer to read the new passage aloud.
-  13. Have the students work in pairs to write a paragraph about an event that takes place in the past, present, or future. The paragraph should contain at least three verbs.

Teacher Note

If the students have difficulty thinking of a topic, suggest that they write about something special that happened or will happen at school.

Optional Practice

Have the students complete pages 43–45 in their *Student Skill Practice Books*, independently or in pairs, to practice using verb tenses appropriately. Note that page 45 can be scored, allowing you to assess how well each student understands the lesson skill.

INTRODUCTION

1. Tell the students that in this lesson they will learn how to make subjects and verbs match, or agree in number.
2. Display the first “Subject-Verb Agreement” activity (🗨️ WA20). Read the first two sample sentences in the box aloud. Have volunteers identify the simple subject and verb in each one. (*trumpet/is; Trombones/are*) Then have them tell which subject is singular and which is plural. (*trumpet* is singular; *Trombones* is plural.) Point out that each verb changes to agree with, or match, its subject in number. As forms of the verb *be*, the word *is* is used when the subject is singular, while *are* is used when the subject is plural.

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

A trumpet is a brass instrument. Trombones are brass instruments, too.

A trumpet makes a high sound. Trombones make a lower sound.

Trumpets and trombones are good instruments for jazz bands.

They produce sound when a player blows into the mouthpiece.

1. My **brother and sister play** in a high-school jazz band.
2. My **brother** performs a solo at every concert.
3. **Each player** in the band **practices** daily.

3. Repeat the procedure with the second pair of sample sentences. After volunteers have identified the simple subject and verb in each one, ask them to describe what happens to the verb, depending on whether the subject is singular or plural. (When the subject is singular, the verb has an *s* at the end. When the subject is plural, the verb does not have an *s*.) Review the rules for adding *-s* or *-es* to a verb:
 - Add *-s* or *-es* to the verb if the subject is a singular noun or the pronoun *he*, *she*, or *it*.
 - Do not add *-s* or *-es* to a verb when the subject is a plural noun or the pronoun *I*, *you*, *we*, or *they*.
4. Finally, read the last two sample sentences aloud. Remind the students that a sentence can have a compound subject, a subject made up of two or more parts joined by the conjunction *and* or *or*. Have a volunteer identify the compound subject in the fifth sample sentence. (*Trumpets and trombones*)

Explain that when the conjunction in a compound subject is *and*, the subject is considered plural, even if each noun or pronoun in it is singular.

Teacher Note

You might wish to explain that, if a compound subject includes the conjunction *or*, the verb must agree with the last item in the subject. For example, in the sentence "The trombone players or the drummer begins," we use the verb *begins* to agree with the last item in the compound subject, *drummer*, which is a singular noun.

5. Finally, point out the subject pronoun *They* and the verb *produce* in the last sentence. Ask:
 - Q *Why is this the correct form of the verb? (Because the subject pronoun They is plural, we do not add -s or -es to the verb.)*
6. Invite a volunteer to read sentence 1 aloud and to identify the simple subject and verb. (*brother; plays*) Ask:
 - Q *Is brother singular or plural? (singular)*

Then click *brother*, changing it to *brother and sister*, and ask:

Q *What do you think needs to happen to the verb plays now? (The s should be dropped.) Why? (Brother and sister is a compound subject with the conjunction and, which makes it plural, so the verb does not need an ending.)*

Click *plays*, changing it to *play*, to confirm the answer.

7. Invite a volunteer to read sentence 2 aloud and to identify the simple subject and verb. (*sister; performs*) Then click *sister*, changing it to *brother*, and ask:

Q *What do you think needs to happen to the verb performs? (nothing) Why? (Brother is also a singular noun, so the verb does not change.)*

8. Invite a volunteer to read sentence 3 aloud and to identify the complete subject. (*All the boys and girls*) Then click *All the boys and girls*, changing it to *Each player*, and ask:

Q *What do you think needs to happen to the verb practice now? (It must change to practices to agree with the singular subject, Each player.)*

Click *practice*, changing it to *practices*.

GUIDED PRACTICE

9. Display the second “Subject-Verb Agreement” activity (🗨️ WA21). Tell the students that they will read each sentence and decide which verb form is correct to make the subject and verb agree.

WA21

1. My aunt Marie (is, are) a good trumpet player.
2. My uncle Wyland (takes, take) trombone lessons.
3. Aunt Marie and Uncle Wyland (has, have) joined a marching band.
4. My aunt, my uncle, and the drummer (practices, practice) on the weekends.
5. The tuba player sometimes (joins, join) them.
6. The marching band (has, have) 25 people in it.
7. Every parade (attracts, attract) a huge crowd.
8. Teenagers (is, are) allowed to try out for the band.

10. Read sentence 1 aloud. Ask:

Q *What is the complete subject of this sentence? (My aunt Marie)*

Q *Is the subject singular or plural? (singular)*

Q *Which verb form should we use to correctly complete the sentence? (is)*

Circle *is* and have a volunteer read the sentence aloud.

11. Repeat the process with the rest of the sentences.

12. Have the students work in pairs to write a paragraph using at least two sentences with compound subjects.

Teacher Note

If the students have difficulty thinking of a topic, suggest that they write a paragraph comparing different musical instruments.

Optional Practice

Have the students complete pages 46–48 in their *Student Skill Practice Books*, independently or in pairs, to practice using correct subject-verb agreement. Note that page 48 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 48 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

ELL Note

In Chinese, Korean, Hmong, Vietnamese, and Haitian Creole, verbs have the same form regardless of whether the subject is singular or plural. Students from these language backgrounds, therefore, will likely need additional support and practice with subject-verb agreement.

Whiteboard Activities

- “Review” activity (WA24)
- “Review” activity (WA25)
- “Review” activity (WA26)

REVIEW

1. Explain to the students that they are going to review what they have learned about verbs in Lessons 12–16. Remind the students that they have learned how to:
 - Identify and use action, linking, main, and helping verbs
 - Identify and form simple, perfect, and progressive verb tenses
 - Shift correctly from one tense to another
 - Make subjects and verbs agree in number
2. Display the first “Review” activity (🎧 WA24) and read aloud the definition of an action verb and a linking verb. Then invite a volunteer to read the first two sample sentences aloud and to identify the verb in each one. (*lives; are*) Ask:

Q Which is an action verb and which is a linking verb? (action: *lives*; linking: *are*)

Check the answers by clicking *lives* and *are* to reveal the labels *action verb* and *linking verb*. Then read the rule for subject-verb agreement aloud, and invite volunteers to explain why there is an *s* at the end of *lives*. (Because *lives* agrees with the singular subject, *My cousin Ryan*.) Then have them explain why *are* is the correct form of *be* to use in the second sentence. (*Anchorage and Fairbanks* is a compound subject with the conjunction *and*, so it is plural and requires a plural form of *be*.)

Invite a few volunteers to tell which form of *be* is used when the subject of a sentence is:

- Singular (*is*)
- The pronoun *we*, *they*, or *you* (*are*)
- The pronoun *I* (*am*)

Teacher Note

You may want to review other common linking verbs, such as *look*, *feel*, *become*, and *seem*.

WA24

An **action verb** tells what someone or something does. A **linking verb** connects the subject to words that tell what the subject is or is like.

- Action and linking verbs must **agree in number** with their subjects.

My cousin Ryan **action verb** lives in Alaska.

Anchorage and Fairbanks **linking verb** are the largest cities in Alaska.

- Action and linking verbs can have **main verbs** and **helping verbs**.

I **helping verb** may **main verb** visit Ryan next summer. Alaska **helping verb** can **main verb** be beautiful in the summer.

3. Read aloud the statement about main and helping verbs. Then have volunteers identify the helping and main verb in each sentence. (*may*, *visit*; *can*, *be*) Click *may*, *visit*, *can*, and *be* to confirm the answers.
4. Display the next “Review” activity (🔊 WA25). Read the definition of the simple present tense aloud. Then ask the students to read the sample sentences silently, paying attention to the verbs. After giving the students time to read, underline the complete subject in each sentence, and circle the verb. Then ask:
 - Q *Why does the verb performs in the second sentence end with s, but not the verb pull in the first sentence? (The subject in the first sentence, dogs such as huskies and malamutes, is plural. The subject in the second sentence, A husky, is singular.)*
 - Q *Why is is the correct form of be in the third sentence? (Because the subject in the third sentence, A malamute, is singular.)*

Teacher Note

You may want to review the spelling rules for adding -s or -es to a verb:

- Add -s to most verbs ending with a consonant, a silent e, or a vowel + y.
- Add -es to verbs ending with zz, ss, sh, ch, or x.
- Change y to i before adding -es to verbs ending with a consonant + y.

The **simple present tense** tells about something happening now or regularly.

In Alaska dogs such as huskies and malamutes pull sleds across the snow.

A husky performs as well as a sled dog. A malamute is a good sled dog, too.

The **simple past tense** tells about something that has already happened. Some past-tense verbs are formed with *-ed*, but others are irregular.

Ryan's aunt competed in the Iditarod dogsled race last year.

Alaskans first held this race in 1973. Dick Wilmarth and his dogs won that year.

The simple **future tense** tells about something that is going to happen.

Ryan's aunt will race again next year. She and her dogs will train hard.

5. Read the definition of the simple past tense aloud. Then ask a volunteer to read the sample sentences aloud. Circle each verb and invite other volunteers to identify the present-tense form of each one. (*competed/compete; held/hold; won/win*)
6. Have the students read the definition and sample sentences for future-tense verbs. Circle the verb in each sentence. (*will race; will train*) Elicit that the future tense is formed by using the helping verb *will* before the main verb.
7. Display the last “Review” activity (🎧 WA26). Read the explanation of the perfect tense aloud. Ask the students to read the sample sentences silently and to notice the verbs. Then ask:

Q Which verb shows the present-perfect tense? (has been) Past-perfect? (had been)
Future-perfect? (will have been)

Check the answers by clicking the verbs. Then have the students summarize how each perfect tense is formed:

- The present-perfect is formed with the helping verb *have* or *has* and the past participle of the main verb. *Have* is used when the subject is plural or the pronoun *I* or *you*. *Has* is used when the subject is singular.
- The past-perfect is formed with the helping verb *had* and the past participle of the main verb.
- The future-perfect is formed with the helping verbs *will have* and the past participle of the main verb.

The **perfect tense** shows that one action has started or has been completed before another action in the past, present, or future.

Alaska **present-perfect** has been a state since 1959. Until that year the state **past-perfect** had been a U.S. Territory. In 2019 Alaska **future-perfect** will have been a state for 60 years.

The **progressive tense** shows an action continuing in the past, present, or future.

I **present-progressive** am writing a report about Alaska. Last night I **past-progressive** was gathering information about the climate. Tonight I **future-progressive** will be researching the cultures and traditions.

8. Read the explanation of the progressive tense aloud. Have the students read the sample sentences silently. Then ask:

Q Which verb shows the present-progressive tense? (am writing) Past-progressive? (was gathering) Future-progressive? (will be researching)

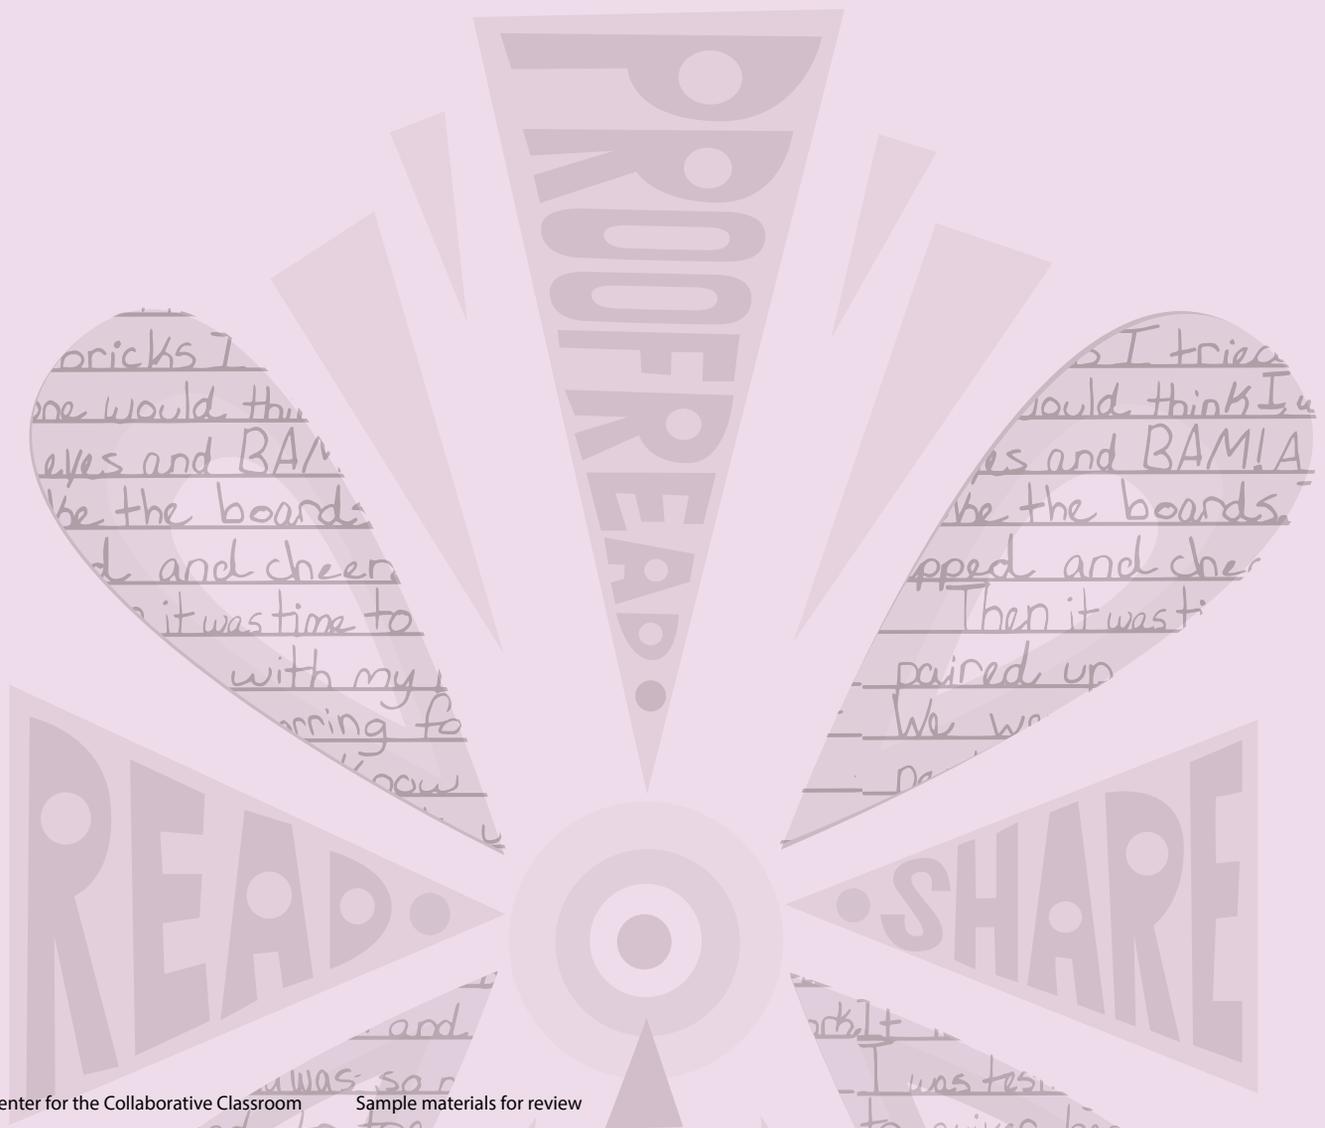

Check the answers by clicking the verbs. Then have the students summarize how each progressive tense is formed:

- The present-progressive is formed with the present-tense form of *be*. (*am, is, or are*)
 - The past-progressive is formed with the past-tense form of *be*. (*was or were*)
 - The future-progressive is formed with the future-tense form of *be*. (*will be*)
 - In the past- and present-progressive tenses, the form of *be* must always agree with its subject.
9. Read aloud the sample sentences for both the perfect and the progressive tenses. Point out that in each paragraph, the writer correctly shifts between the past, present, and future. Explain that, in this case, the shifts are OK because the writer is describing different points in time. But when you write about events taking place around the same time, remember not to switch tenses.

Optional Practice

Have the students complete pages 49–51 in their *Student Skill Practice Books*, independently or in pairs, to practice using verbs correctly.

INTRODUCTION

1. Tell the students that in this lesson they will practice identifying and using different types of adjectives. Remind the students that **adjectives** are words that describe nouns or pronouns. Explain that good writers use adjectives to add important details—to make sure that readers get the whole picture.
2. Display the first “Adjectives” activity (WA1) and have the students read the words in the word box. Tell the students that adjectives often describe how something looks, sounds, smells, feels, or tastes. An adjective can also tell how much of something there is. Adjectives such as *three* tell exactly how many. Adjectives such as *some* and *many* just tell about a general amount.

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

look	sound	smell	feel	taste	amount
------	-------	-------	------	-------	--------

1. A large black cat strolled across the street. look
2. The cat's fur was smooth and silky. feel
3. The cat found a stinky garbage can. smell
4. Someone had thrown out a delicious chicken wing. taste
5. A loud, deep growl suddenly startled the cat. sound
6. Two dogs with some drool on their chins appeared. amount

3. Read the first sentence aloud and point out the adjectives *large* and *black*. Have the students identify the subject they are describing. (*cat*) Ask:

Q *What do large and black describe—how the cat looks? sounds? feels? how many cats there are? (how it looks)*

Drag and drop *look* into the blank after sentence 1. Point out that an adjective that describes how something looks may tell about its color, shape, size, or some other trait you can see.

4. Use a similar process for sentence 2. (*Smooth* and *silky* describe how it feels to the touch.)

ELL Note

In Spanish, Hmong, and Vietnamese, an adjective immediately follows, rather than precedes, the noun it describes. Use sentences 1 and 2 to explain that, in English, the adjective usually comes before the word it describes or after a linking verb.

5. Repeat the process for sentences 3–5. For sentence 6, point out that both *two* and *some* describe an amount, but *two* tells an exact number while *some* describes a general amount. Invite a few volunteers to name other adjectives that tell general amounts, such as *few*, *several*, and *all*.

Teacher Note

Explain that when you list two (or more) adjectives in a row before a noun, you usually put a comma between the adjectives—unless the adjective before the noun is a color, as in sentence 1, or unless one of the adjectives is a number, such as “three big cats.”

6. Display the second “Adjectives” activity (WA2) and explain that some adjectives describe things by making a comparison. Read the definition of comparative adjectives aloud. Ask the students to read the sample sentence and to identify what two things are being compared. (a cat and dog) Explain that the comparative form of most adjectives is formed by adding *-er*. The word *than* usually appears after the adjective. (Remind the students, if necessary, that, when a word ends with a consonant + *y*, the *y* is changed to *i* before *-er* is added.)

Then read aloud the definition of superlative adjectives and the sample sentence. Ask the students what the cat is being compared to in this sentence. (all the pets in the neighborhood) Explain that the superlative form of most adjectives is formed by adding *-est*.

WA2

Comparative adjectives compare one person, place, animal, or thing to another.

The cat was friendlier than the dog.

Superlative adjectives compare one thing to two or more others.

The cat was the friendliest pet in the neighborhood.

Adjective	Comparative Form	Superlative Form
smart	smarter	smartest
dangerous	more dangerous	most dangerous
	less dangerous	least dangerous
good	better	best
bad	worse	worst

7. Direct the students’ attention to the first row of the chart, and circle the endings that were added to *smart* to create its comparative and superlative forms. Then call attention to the second row of the chart, and explain that some words would be too hard to say if you added *-er* or *-est*, either because they are too long or because they already have an ending such as *-ous* or *-ful*. Have volunteers identify how the comparative and superlative forms of *dangerous* were created. (comparative: *more/less* was placed before the word; superlative: *most/least* was placed before the word) Circle *more*, *less*, *most*, and *least*.
8. Direct the students’ attention to the last two rows of the chart and explain that the adjectives *good* and *bad* are exceptions; they change in completely different ways. Have the students read the comparative and superlative form of each adjective. Then invite volunteers to use each word in a sentence.

GUIDED PRACTICE

9. Display the third “Adjectives” activity (C WA3). Explain to the students that they will work together to complete the story by choosing the correct adjectives from the word box.

more comfortable	bright	tiniest	black
most important	worried	juicy	faster
fishy	several		

The dogs stared at the cat with _____ bright _____
_____ black _____ eyes. Their coats smelled _____ fishy _____,
and their fur was matted in _____ several _____ places. They thought
they were the most important animals in the world. But the cat
wasn't _____ worried _____. She knew she was _____ faster _____
than they were. She was also more comfortable in tight places.
She picked up the _____ juicy _____ chicken wing and darted into
the _____ tiniest _____ hole she could find.

WA3

10. Read the words in the word box aloud. Then read the first sentence of the story aloud. Point out that the word *eyes* has two blanks before it, so the students must find the two adjectives that could describe eyes. (*bright*; *black*) Ask:

Q Which word would you put first, *bright* or *black*? (*bright*) Why? (*Because the order of adjectives is usually amount, size, opinion, shape, and color, so black would go last.*)

Q Do we need to put a comma between *bright* and *black*? (*No.*) Why? (*Because black is a color, and you don't put a comma between a color word and the adjective before it.*)

Drag and drop *bright* and *black* into each blank. Have the students read the completed sentence aloud.

11. Have the students work in pairs to choose adjectives from the word box to complete the rest of the story. Tell them to use context clues to help them select the correct adjectives. Then invite volunteers to share their answers, and drag and drop the adjectives into the blanks. After all of the words have been placed, invite a volunteer to read the completed story aloud.

Teacher Note

For the sentences containing *faster* and *more comfortable*, point out that, even though the cat is being compared to more than one dog, the comparative form is used rather than the superlative because the two dogs together represent one point of comparison.

12. Have the students work in pairs to write a paragraph using at least five adjectives, including one comparative and one superlative adjective.

Teacher Note

If the students have difficulty thinking of a topic, suggest that they write a brief comparison of two kinds of animals, such as cats and dogs.

Optional Practice

Have the students complete pages 52–54 in their *Student Skill Practice Books*, independently or in pairs, to practice using adjectives. Note that page 54 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 54 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

INTRODUCTION

1. Tell the students that in this lesson they will learn how to use **adverbs**, or words that describe verbs and adjectives, to make their writing stronger. Explain that adverbs provide more details about an action. An adverb can tell *how*, *when*, or *where* something happens.
2. Display the first “Adverbs” activity (🎯 WA6). Read the first sentence aloud and have volunteers identify the two verbs in it. (*applauded*; *rose*) Click *applauded* and *rose* to reveal the label *verb* over each one. Then ask:

Q Which word describes how the audience applauded? (*excitedly*) Which word describes how the curtain rose? (*slowly*)

Click *excitedly* and *slowly*, revealing the label *adverb*. Point out that many adverbs that describe *how* end with *ly*. Also point out that an adverb can come either before or after the verb it describes.

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

1. The audience **verb** applauded **adverb** excitedly as the curtain **adverb** slowly **verb** rose.
2. The star of the play **adjective** quickly **verb** appeared **adverb** onstage.
3. The actor seemed **adverb** somewhat **adjective** nervous, and his face was **adverb** slightly **adjective** red.

3. Read the second sentence aloud and have a volunteer identify the verb in it. (*appeared*) Click *appeared* to confirm the answer. Then explain that there are two adverbs in this sentence. Ask:

Q Which word in this sentence tells when the star appeared? (*quickly*)

Q Which word tells where he appeared? (*onstage*)

Click *quickly* and *onstage* to reveal the label *adverb* over each one. Point out that many adverbs that explain *where* or *when* do not end with *ly*.

Teacher Note

Post a chart of other adverbs that describe *how*, *where*, or *when*, such as:

How	Where	When
quietly	outside	yesterday
cheerfully	ahead	suddenly
nervously	around	later
boldly	far	next

4. Read sentence 3 aloud. Explain that adverbs that describe adjectives usually tell *how much* or *to what extent*. Identify the two adjectives in the sentence. (*nervous*; *red*) Click *nervous* and *red* to reveal the label *adjective*. Then ask:

Q Which words tell how nervous and how red?

Invite a few volunteers to respond. Then click *somewhat* and *slightly* to reveal that these words are adverbs. You may want to provide additional examples of adverbs that could be placed in front of *nervous* or *red*, such as *very*, *always*, *too*, *surprisingly*, *never*, and *extremely*.

5. Display the next “Adverbs” activity (WA7), and tell the students that some adverbs compare actions. Read aloud the definition of comparative adverbs and the sample sentence. Have a volunteer identify what action is being compared in the sentence. (how close or far away the brothers are sitting from the stage) Explain that the comparative form of most adverbs is formed by adding *-er*. The word *than* usually appears after the adverb.

Then read aloud the definition of superlative adverbs and the sample sentence. Have a volunteer identify what action is being compared in this sentence. (how close or far away all the boys are sitting from the stage) Explain that the superlative form of most adverbs is formed by adding *-est*.

WA7

Comparative adverbs compare one action to another.

My brother sat closer to the stage than I did.

Superlative adverbs compare one action to two or more others.

Our friend Connor sat the closest of all.

Adverb	Comparative Form	Superlative Form
fast	faster	fastest
often	more often	most often
	less often	least often
well	better	best
badly	worse	worst

- Direct the students' attention to the first row of the chart, and circle the endings that were added to *fast* to create its comparative and superlative forms. Then call attention to the second row of the chart. Explain that some words would be too hard to say if you added *-er* or *-est*. Have volunteers identify how the comparative and superlative forms of *often* were created. (comparative: *more* and *less* were placed before the word; superlative: *most* and *least* were placed before the word) Circle *more*, *less*, *most*, and *least*.
- Direct the students' attention to the last two rows of the chart. Explain that the adverbs *well* and *badly* are exceptions; they change in completely different ways. Have volunteers read aloud the comparative and superlative form of each adverb as you circle it. Elicit that the adverb *well* changes to *better* and *best*; the adverb *badly* changes to *worse* and *worst*. Then invite volunteers to use each word in a sentence.

GUIDED PRACTICE

- Display the third "Adverbs" activity (WA8). Explain to the students that they will work together to complete the story by choosing the correct adverbs from the word box.

better	extremely	soon	angrily
finally	nervously	open	backstage

The director stood _____ backstage _____, by the dressing room.
 He glanced _____ nervously _____ at his watch. The play would be
 starting _____ soon _____, and no one had seen the star.
 She was _____ extremely _____ late. “Where is she?” he muttered
 _____ angrily _____. “No one can play the evil queen
 _____ better _____ than she can.” The door _____ finally _____
 swung _____ open _____, and Renata strolled in. “I’m so sorry.
 I was in a traffic jam.”

9. Read the words in the word box aloud. Then read the first sentence of the story aloud. Ask:

Q *Where is a dressing room, usually? Which adverb might describe where the director is standing? (backstage)*

Give students a few moments to think, and invite a volunteer to respond. Drag and drop *backstage* into the blank and read the completed sentence aloud.

10. Repeat the process for the rest of the story, helping volunteers use context clues to decide where to put each adverb. After all of the adverbs have been placed, read the completed story aloud. Invite volunteers to tell whether each adverb describes how, when, or where, and whether it makes a comparison.

11. Have the students work in pairs to write a paragraph, using at least four adverbs.

Teacher Note

If the students have difficulty thinking of a topic, suggest that they describe a play or movie they have seen recently.

Optional Practice

Have the students complete pages 55–57 in their *Student Skill Practice Books*, independently or in pairs, to practice using adverbs correctly. Note that page 57 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 57 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

ELL Note

Use sheltering strategies such as pantomime and facial expressions to help English Language Learners understand the meaning of unfamiliar adverbs. For example:

- Pantomime looking at your watch nervously.
- Demonstrate standing close to a table and then moving closer to it.

INTRODUCTION

1. Tell the students that in this lesson they will learn how to add more details to their sentences using prepositional phrases.
2. Display the first “Prepositions and Prepositional Phrases” activity (WA11). Read the first sentence pair aloud. Ask:
 - Q *When did Jason go swimming? (on Saturday) Where did he dive? (into the crowded pool)*

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Point out that the words *on Saturday* and *into the crowded pool* give details about when and where the action happened. Explain that these are **prepositional phrases**. Circle *on* and *into* and explain that a prepositional phrase begins with a **preposition**, or a word that shows position, direction, point in time, or another relationship.

Then underline the words *Saturday* and *pool* and explain that these words are the **objects of the prepositions**. They explain when Jason went and where Jason dove. Point out that a prepositional phrase always includes the preposition, the object of the preposition, and any words between them. Have the students identify the words between *into* and *pool*. (*the crowded*)

WA11

1. Jason went swimming on Saturday. He dove into the crowded pool.
2. Two girls were sitting on a pink towel. Jason accidentally splashed the girl on the left.
3. He was sorry about the accident.
4. Jason sat beside her on the edge of the pool and apologized.

3. Read the sentences in item 2 aloud. Ask:

Q *Where were the girls sitting? (on a pink towel) Who did Jason accidentally splash? (the girl on the left)*

Then have the students identify the prepositional phrase in each sentence. (*on a pink towel; on the left*) Circle each preposition, and underline the object of the preposition.

4. Read the sentence in item 3 aloud, pointing out the prepositional phrase. Invite a volunteer to the whiteboard to circle the preposition and underline the object. (*about; accident*)
5. Read the sentence in item 4 aloud. Point out that a sentence can have more than one prepositional phrase. Ask:

Q *How many prepositional phrases does this sentence have? (three—beside her; on the edge; of the pool)*

Circle each preposition and underline the object of the preposition.

GUIDED PRACTICE

6. Display the next “Prepositions and Prepositional Phrases” activity (WA12). Tell the students that you will work with them to complete each sentence with the correct prepositional phrase from the word box. Invite a volunteer to read the phrases in the word box aloud.

off the diving board	at the community pool	in the shallow part
with a whistle	about someone's safety	by 10:00 a.m.

1. Saturdays are always busy days at the community pool.
2. All the chairs are usually filled _____ by 10:00 a.m. _____
3. Little kids splash and play in the shallow part.
4. Children take turns jumping off the diving board.
5. A lifeguard _____ with a whistle _____ carefully watches the swimmers.
6. She blows the whistle if she feels concerned about someone's safety.

7. Read the first incomplete sentence aloud and point out that it is missing an important detail—exactly *where* Saturdays are busy. Ask:

Q Which prepositional phrase gives this information? (at the community pool)

Invite a volunteer to drag and drop the phrase into the blank and to read the completed sentence aloud.

8. Repeat the process for sentences 2–6.
9. Have the students work in pairs to write a paragraph, using three prepositional phrases.

Teacher Note

If the students have difficulty thinking of a topic, suggest that they write a description of a busy pool, park, or playground. The place can be real or imaginary.

Optional Practice

Have the students complete pages 58–60 in their *Student Skill Practice Books*, independently or in pairs, to practice using prepositions and prepositional phrases correctly. Note that page 60 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 60 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

INTRODUCTION

1. If you have previously taught the prerequisite lessons listed above, remind the students that they have already learned how to use certain conjunctions to combine words, phrases, and clauses. Tell the students that in this lesson they will learn about special pairs of conjunctions, called **correlative conjunctions**, that link words of equal weight in a sentence.
2. Display the first “Correlative Conjunctions” activity (WA15). Read aloud the list of conjunction pairs. Then read the sample sentence aloud and tell the students that, when they want to show a choice between two things, they can use the conjunction pair *either/or*. Ask:

Q *What choice is being shown here? (between cereal and eggs)*

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Point out that the conjunction pair *either/or* has been used to form a compound object in this sentence. If necessary, review that an object is the noun or pronoun that receives the action of a verb.

WA15

either/or neither/nor both/and not only/but also

For breakfast I usually eat either cereal or eggs.

1. Today I will eat cereal eggs.
2. Yesterday I ate cereal eggs.
3. I ate oatmeal scrambled eggs.

3. Point to sentence 1 and tell the students that they can use a conjunction pair to show what they are *not* choosing. Invite the students to identify which conjunction pair they would use to show what is *not* being chosen for breakfast. (*neither/nor*) Click the blanks to change them to *neither* and *nor* and have a volunteer read the sentence aloud. Emphasize that it is important to use *nor*—not *or*—with *neither*. Remind the students that the letter *n* at the beginning of each word is a way of adding *not* to *either/or*.
4. Point to sentence 2 and tell the students that they can also use a conjunction pair to show a combination of two things. Click the blanks, changing them to *both* and *and*, and have a volunteer read the sentence aloud.
5. Invite a volunteer to complete sentence 3 by clicking the blanks, changing them to *not only* and *but also*. Have the volunteer read the sentence aloud. Then point out that the conjunction pair *not only/but also* is sometimes used to show an addition—one thing building on or being added to another.
6. Display the next “Correlative Conjunctions” activity (WA16). Explain that the correlative conjunctions *either* and *or* form a compound subject in this sentence. Read the first sentence aloud and ask:

Q *What is the subject of this sentence? (Either Mom or Dad)*

Point out that the first conjunction (*Either*) comes before the first part of the subject (*Mom*), and the second conjunction (*or*) comes before the second part of the subject (*Dad*).

Compound Subject: Either Mom or Dad cooks breakfast for us every day.

Neither Mom nor Dad cooks breakfast for us.

Both Mom and Dad cook breakfast for us.

Not only Mom but also Dad cooks breakfast for us.

Compound Predicate: Mom will either make eggs or cook oatmeal.

Mom will neither make eggs nor cook oatmeal.

Mom will both make eggs and cook oatmeal.

Mom will not only make eggs but also cook oatmeal.

7. Work through the remaining examples, having students identify the conjunction that completes each compound subject. Click each blank to confirm the answers.
8. Read aloud the sample sentence for compound predicates. If necessary, review that a predicate is the part of a sentence that tells what the subject does or is. Then ask:

Q *What is the predicate of this sentence?* (will either make eggs or cook oatmeal)

Point out that, when correlative conjunctions are used in a compound predicate, the first conjunction comes before the first verb, *make*, and the second conjunction comes before the second verb, *cook*.
9. Work through the remaining examples, having volunteers identify the conjunction that completes each compound predicate. Click each blank to confirm the answer, and have the volunteers read the completed sentence aloud. After each sentence has been read, ask whether the conjunction pair shows a choice, a combination, or an addition.

GUIDED PRACTICE

10. Display the third “Correlative Conjunctions” activity (🎧 WA17). Tell the students that they will work together to complete the passage using the conjunctions in the word box.

either	neither	nor	both
and	not only	or	but also

Eating a healthy breakfast is good for both your body
 ___ and ___ your brain. If you skip breakfast, you may ___ not only ___
 feel tired but also have difficulty focusing. You can get protein by
 eating either eggs ___ or ___ plain yogurt. Adding fresh fruit to the
 yogurt will give it ___ both ___ extra flavor and more vitamins.
 Another great food is oatmeal because it is not only filling
 ___ but also ___ good for you. You can ___ either ___ stir in nuts or add
 dried fruit for extra flavor. Just avoid sugary foods because they are
 ___ neither ___ filling ___ nor ___ nutritious.

11. Read the first sentence aloud and have the students identify the correlative conjunction in it. (*both*) Ask:

Q Which conjunction belongs in the blank? Why? (The conjunction *and* belongs in the blank because *and* is used to join two related ideas together, and the word *both* tells us that the two ideas in this sentence are related.)

Invite a volunteer to the whiteboard to drag and drop *and* into the blank and to read the completed sentence aloud. Then ask:

Q Does the phrase both your body and your brain show a choice, a combination, or an addition? (a combination)

12. Continue working through the paragraph, having volunteers choose conjunctions and then drag and drop them into the blanks. After all of the conjunctions have been placed, read the entire passage aloud. Pause after each sentence to have volunteers decide whether the conjunction pair shows a choice, a combination, or an addition.

13. Have the students work in pairs to write a short passage, using at least three of the following conjunction pairs: *either/or*, *neither/nor*, *both/and*, *not only/but also*.

Teacher Note

If the students have difficulty thinking of a topic, suggest that they write about having breakfast.

Optional Practice

Have the students complete pages 61–63 in their *Student Skill Practice Books*, independently or in pairs, to practice using correlative conjunctions correctly. Note that page 63 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 63 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

- (Optional) “Diagnostic Proofreading Passages: Class Grouping Report” (DR1)*

INTRODUCTION

1. Tell the students that in this lesson they will learn two ways to express strong feelings or emotions in their writing.
2. Explain that good writers choose just the right words and the right punctuation to convey the emotion the writer or character is feeling. Explain that short words such as *wow*, *oops*, *oh*, and *ouch* can be used to express emotions. These words are called **interjections** because they are placed between sentences or at the beginning of a sentence.
3. Display the first “Interjections and Punctuation to Show Emotion” activity (WA20). Read the first paragraph aloud. Then ask:

Q Which of the words in this paragraph are interjections, or short words that express emotions? Which punctuation mark follows each interjection?

Invite a few volunteers to respond. Underline the interjections (*Boy*; *Wow*; *Okay*) and discuss with the students the strength of each emotion and which one seems the

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

strongest. (*Wow*) Circle the commas at the end of *Boy* and *Okay* and the exclamation point at the end of *Wow*. Discuss how the exclamation point conveys stronger emotion than the comma.

WA20

Boy! I'm tired. My father and I stayed up late watching coverage of the Extreme Games. Wow! You wouldn't believe what we saw! Okay, you might believe it, but it was pretty amazing anyway.

I'm a big skateboarding fan, so I love to see what's new in this sport. Man! What's not new? As a girl, I'm really interested in watching the females compete in a sport that some people think "belongs" to boys. Well, the girls are showing the boys just what can be done when they get on their skateboards.

Look out! These girls can skim, sail, and jump with the best of them!

4. Have volunteers identify each interjection in the second paragraph and the punctuation mark that follows it. Underline each interjection, and circle each exclamation mark or comma. Ask:

Q *How do the interjections and punctuation help convey the emotions expressed by the narrator?*

Students might say:

"The interjection *Man* and the exclamation point that follows it show the writer's strong emotion."

"I agree with Kenji. The interjection *Look out* also ends with an exclamation point and shows excitement."

"The interjection *Well* is not nearly as emotional. It has a comma after it and is part of the sentence that follows."

Help the students use the examples to infer the rules for using a comma or an exclamation point after an interjection. (If the interjection expresses a strong feeling, it is followed by an exclamation point and it is not part of the sentence. If an interjection does not show strong feeling, it is placed at the beginning of a sentence and is followed by a comma.)

GUIDED PRACTICE

5. Display the next “Interjections and Punctuation to Show Emotion” activity (WA21). Explain to the students that they will read a paragraph about bike safety. Tell them that the paragraph uses interjections and punctuation to express certain emotions.

My friend Esteban is big on wearing a helmet when skateboarding. Hey, you would be, too, if you’d experienced Esteban’s close call. One day when he was learning a new trick at the skateboard park, he wiped out, hitting his head on the pavement. Ouch! That could have resulted in a serious injury! Luckily, Esteban was wearing a helmet and other protective gear, so other than a few bruises, he wasn’t seriously hurt. Phew! Would Esteban tell you to wear protective gear while rebounding? Oh yeah! he would!

WA21

6. Read the first two sentences aloud and have the students identify the interjection and the punctuation that follows it. (*Hey*; a comma) Then underline the interjection and circle the comma. Ask:

Q *What emotion do the interjection and the punctuation after it express?*

Give the students a moment to think, and invite one or two volunteers to respond. Guide the students to see that *Hey*, followed by a comma, grabs the reader’s attention and suggests that the speaker is about to say how he or she feels about something.

7. Read the rest of the paragraph aloud. Invite volunteers to the whiteboard to underline the interjections and circle the punctuation. Then have them explain how the interjections and punctuation help express certain emotions.

8. Have the students work in pairs to write a paragraph that expresses emotion about a topic.

Teacher Note

If the students have difficulty thinking of a topic to write about, you might suggest that they write about how something dangerous could be made safer.

Optional Practice

Have the students complete pages 64–66 in their *Student Skill Practice Books*, independently or in pairs, to practice using interjections and punctuation to express emotions. Note that page 66 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 66 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

Teacher Note

You might have the students keep a list of interjections in the Proofreading Notes section of their *Student Writing Handbooks*.

INTRODUCTION

1. Tell the students that in this lesson they will explore the differences between formal and informal English. Explain that **formal** English is language they should use when speaking or writing to an adult, or giving a report in school. **Informal** English is language to use with their friends. Slang, contractions, and incomplete sentences all contribute to a less formal way of speaking and writing.
2. Point out that good writers think about the **audience**, the person or people who will read their writing. They also consider the **purpose**, or the reason they are writing, and choose the style that is best for that situation.
3. Display the first “Formal and Informal English” activity (📄 WA24). Read the first paragraph aloud. Then ask:

Q *Does this paragraph sound like something you would write to a friend or something you would write for a more formal school assignment?*

Invite one or two volunteers to respond and ask them to discuss their reasons for their answers. Make sure that they understand that the paragraph presents facts in a straightforward way, without slang or other casual language, so it’s an example of more formal English.

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

The Arctic fox has a dark coat during summer. Its coat turns white in the winter months. This helps the fox blend in with the snow, so that predators cannot spot it easily.

The Arctic wolf is also white. This helps the wolf when it hunts. Other animals cannot see the wolf coming. It has small ears, a short muzzle, and short legs. These adaptations also help to make the wolf a successful hunter.

The Arctic fox has a buddy named the Arctic wolf. The Arctic wolf is white too. The white fur makes it easy to blend into all that crazy snow and ice. This dude has little ears and short legs. Thanks to this stuff, the wolf is one awesome hunter.

4. Invite volunteers to read the next two paragraphs. Ask:

Q *Which of these paragraphs fits with the language of the first paragraph and why?*

Invite a few volunteers to respond. Have them identify language in the last paragraph that makes it more informal than the first two paragraphs. Underline the slang and colloquial expressions: *buddy*; *all that crazy snow and ice*; *This dude*; *Thanks to this stuff*; *one awesome hunter*. Ask the students to think of more formal ways to rewrite the informal sentences in the last paragraph.

Discuss with the students why it's important that the language you choose fit the audience, or people you are trying to reach. Work with the students to compare the examples of more formal language with the more casual language of the last paragraph.

GUIDED PRACTICE

5. Display the next “Formal and Informal English” activity (🗨️ WA25). Explain to the students that they will read two paragraphs on the same subject, one of which is written in formal English and the other of which is written in informal English.

Harry Houdini (1874–1926) was one of the world’s most daring escape artists. He escaped from prison cells, handcuffs, and metal boxes. His most famous escape was from a locked, water-filled tank.

Houdini’s real name was Ehrich Weisz. When he was a ~~kid~~ ^{child}, he did ~~like, all these~~ card tricks. Then he started escaping from places that were, ~~you know, totally~~ locked up! Those tricks were dangerous, ~~man~~. It was ~~pretty wild~~ ^{amazing} watching him ~~do~~ ^{perform} ~~this stuff. Cool guy!~~ ^{these daring feats. He was probably the greatest escape artist of all time!}

Sample answers are listed above. Answers may vary.

6. Have volunteers take turns reading the two paragraphs aloud. Ask the students to look for words and phrases that indicate a more informal style in one of the paragraphs. Invite a few volunteers to share their responses. Then work with the students to rewrite the second paragraph in more formal language.

7. Have the students work in pairs to write two versions of an informational paragraph, using formal English in one and informal English in the other.

Teacher Note

If the students have difficulty thinking of a topic to write about, you might suggest that they write about a performer they both admire.

Optional Practice

Have the students complete pages 67–69 in their *Student Skill Practice Books*, independently or in pairs, to practice using formal and informal language. Note that page 69 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 69 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

Teacher Note

You might have the students make a list of all the different kinds of writing they can think of and the best style to use for each one. Have them include their list in the Proofreading Notes section of their *Student Writing Handbooks*.

Whiteboard Activities

- “Review” activity (WA28)
- “Review” activity (WA29)
- “Review” activity (WA30)
- “Review” activity (WA31)

REVIEW

1. Explain to the students that they are going to review what they have learned in Lessons 18–23. Remind the students that they have learned how to use:
 - Adjectives and adverbs to describe and compare
 - Prepositions and prepositional phrases
 - Correlative conjunctions
 - Interjections and punctuation to show emotion
 - Formal and informal English
2. Display the first “Review” activity (🎤 WA28) and read the definition of an adjective aloud. Then read the first sample sentence aloud and have the students identify the adjectives in it. (*five, tiny, white, beautiful*) Invite volunteers to the whiteboard to circle each adjective and to draw an arrow to the word it describes. (*five, tiny, and white to pearls; beautiful and they*)

Read the next two sample sentences aloud and have volunteers identify the adjectives in each one. (*prettier, prettiest; more beautiful, most beautiful*) Circle each adjective as you review the following rules for forming comparative and superlative adjectives:

- To compare one thing to another, add *-er* to the adjective, unless it is a long word or already has an ending such as *-ful* or *-ous*. Then use the word *more* in front of it.
- The word *than* usually follows a comparative adjective.
- To compare more than two things, add *-est* to the adjective, unless it is a long word or already has an ending such as *-ful* or *-ous*. Then use the word *most* in front of it.

Teacher Note

Remind the students that the adjectives *good* and *bad* have special comparative and superlative forms. Invite the students to recall these forms. (*good: better, best; bad: worse, worst*)

WA28

An **adjective** describes a noun or a pronoun. It gives details about *what kind, how many, or how much*. You can also use adjectives to make comparisons.

The bracelet had five tiny white pearls, and they were beautiful.

This bracelet is prettier than that watch, but the ring is the prettiest of all.

The bracelet is more beautiful than the watch, but the ring is the most beautiful.

An **adverb** describes a verb or an adjective by giving details about *how, when, where, how much, or to what extent*. You can also use adverbs to make comparisons.

Amy found a very special ring earlier. It sparkled brilliantly when she held it up.

A ruby shines more brightly than a pearl. A diamond shines the most brightly of all gems.

3. Read the definition of an adverb aloud. Then read the first two sample sentences aloud, and invite volunteers to identify the adverbs and circle them. (*very, earlier, brilliantly, up*) Have the volunteers tell whether each adverb describes *how, when, where, how much, or to what extent*. (*very: to what extent; earlier: when; brilliantly: how; up: where*)

Read the next two sentences aloud and have volunteers identify the adverb in each one. (*more brightly; most brightly*) Circle each adverb as you review the following rules for forming comparative and superlative adverbs:

- To compare one action to another, usually add the word *more* or *less* before the adverb.
- The word *than* usually follows a comparative adverb.
- To compare more than two actions, usually add the word *most* or *least* before the adverb.

Teacher Note

Remind the students that the comparative and superlative forms of some adverbs, such as *soon*, *fast*, and *close*, do not use *more* and *most* (or *less* and *least*); instead they end with *-er* or *-est*. Also remind the students that the adverbs *well* and *badly* have special comparative and superlative forms. Invite the students to name these forms.

well	badly
better	worse
best	worst

4. Display the next “Review” activity (WA29). Read aloud the definitions of a preposition and a prepositional phrase. Then read the first sample sentence aloud and have the students identify the prepositional phrase. (*onto her finger*) Underline the prepositional phrase. Invite a volunteer to circle the preposition (*onto*) and to draw a box around the object of the preposition. (*finger*) Then ask:

Q *What does onto describe—position, direction, point in time, or another relationship? (direction)*

A **preposition** shows position, direction, point in time, or another relationship. A **prepositional phrase** contains the preposition, the object of the preposition, and any words in between.

Amy slid the ring onto her finger.

Amy hid the ring in the drawer of her desk. It would be safe in its hiding place.

WA29

5. Read the second sample sentence aloud and have volunteers identify and underline the three prepositional phrases in it. (*in the drawer; of her desk; in its hiding place*) Have volunteers circle the preposition and draw a box around the object of the preposition.

6. Display the third “Review” activity (🔊 WA30). Read the definition aloud. Then invite a volunteer to read the first sample sentence aloud. Ask:

Q *Do the conjunctions either and or together show a choice or a combination? (choice)*

Q *Do they form the subject, object, or predicate of this sentence? (object)*

Click the blank, changing it to *choice, object*. Repeat the process for the second and third sentences.

Correlative conjunctions show a choice, a combination, or an addition. They can form a compound subject, a compound object, or a compound predicate.

1. Amy had wanted either a ring or a bracelet.

choice, object

2. Both Amy and her cousin loved the ring.

combination, subject

3. The ring not only looked nice but also fit perfectly.

addition, predicate

WA30

7. Use the three sentences to review proper placement of correlative conjunctions:
- In a compound object, put the first conjunction before the first object, and the second conjunction before the second object.
 - In a compound subject, put the first conjunction before the first noun or pronoun, and the second conjunction before the second noun or pronoun.
 - In a compound predicate, put the first conjunction before the first verb, and the second conjunction before the second verb.

8. Display the last “Review” activity (🔊 WA31). Read aloud the rules for using formal and informal English. Then read the two examples aloud. Ask:

Q *Which of these sounds more like what you would write in a research report? (the first one)*

Q *Which of these sounds more like what you would say to a friend? (the second one)*

Write *F* (for *Formal*) in front of the first sentence and *I* (for *Informal*) in front of the second. Ask:

Q *Which words in the first example make it sound more formal? (requires a great deal of)*

Q *Which words in the second example make it sound more informal? (take forever; really cool; It's)*

Underline the formal and informal words in each example. Point out that the second example also includes an incomplete sentence. (*Seriously!*) Underline it.

Use **formal** English when writing or speaking to an adult, or when writing or speaking for a school assignment. Use **informal** English when writing or speaking to your friends.

F Diamonds form underground. The process requires a great deal of heat, pressure, and time.

I Diamonds take forever to form. It's a really cool process. Seriously!

Informal English often includes **interjections**, or short words that express feelings and reactions. An interjection is usually followed by an exclamation point or a comma.

Wow, I can't believe how beautiful that diamond is. Oh no!
I dropped it!

9. Read the paragraph about interjections aloud. Then invite a volunteer to read the sample sentences aloud and to identify the interjections. (*Wow*; *Oh no*) Underline *Wow* and *Oh no*. Ask:

Q *Which of these shows stronger emotion? (Oh no!) How can you tell? (The exclamation point after Oh no shows stronger feeling than the comma after Wow.)*

Circle the comma after *Wow* and the exclamation point after *Oh no*. Invite volunteers to list other interjections they know (for example, *Well*, *Ah*, *Hey*, *Oops*, *Yay*, and *Yikes*) and to try using them in place of *Wow* and *Oh no* in these sentences.

Optional Practice

Have the students complete pages 70–72 in their *Student Skill Practice Books*, independently or in pairs, to practice using modifiers and other parts of speech correctly.

INTRODUCTION

1. Remind the students that commas can be used to separate words or phrases in a sentence. Explain that in a **series**, or list, of three or more things in a sentence, commas are used to separate the items. Point out that a comma followed by *and* or *or* appears before the last item.
2. Display the first “Commas in a Series” activity (📄 WA1). Read the first two sentences aloud and ask:

Q *Where do you see commas in the second sentence?*

Circle the commas as the students identify them. Then ask:

Q *Which items are separated by those commas?*

Invite one or two volunteers to respond. Then underline the items *in a concert hall*, *in a music studio*, and *on a stage*. Draw a box around the word *or* before the last item and remind the students that the word *and* or *or* usually appears before the last item in a series and that a comma is placed before it.

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Why do some people sing in the shower? It's because they imagine themselves in a concert hall, in a music studio, or on a stage. The hard surfaces of a shower create echoes, rumbles, and booms. These can make your voice sound full, deep, and rich.

- Repeat the process for the rest of the paragraph, noting the use of *and* before the last item in each series. Explain that sometimes each item in the series is just one word and sometimes it is a phrase or even a clause.

GUIDED PRACTICE

- Display the next “Commas in a Series” activity (WA2). Have a volunteer read the first sentence aloud. Ask:

Q *What series of items can you find in this sentence? (dreamers, beginners, hopefuls)*

Then ask:

Q *Where should commas be placed to separate the items in this series? (after dreamers and beginners)*

Invite one or two volunteers to respond. Write commas between items in the series.

It isn't only dreamers, beginners, and hopefuls who sing in the shower. The singer Paul Simon likes the echo in his bathroom, so he turns on the faucet, runs the water, and plays his guitar there. Another musician set up speakers, amplifiers, and a recording system in his bathroom. Don't try this at home, though. It's dangerous to use electronic equipment near water.

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

5. Repeat the process for the next two sentences in the paragraph. Point out that neither of the last two sentences has a series in it.
6. Discuss with the students the different types of items separated by commas. Help them understand that the items can be different lengths and can be made up of different parts of speech, such as a series of nouns or a series of predicates.
7. Have the students work in pairs to write a paragraph, using items in a series. Have them circle the commas that separate the items and underline the items in each series.

Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about singing with a group in a special place.

Optional Practice

Have the students complete pages 73–75 in their *Student Skill Practice Books*, independently or in pairs, to practice using commas in a series. Note that page 75 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that activities A and B on page 75 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

INTRODUCTION

1. Remind the students that commas tell a reader when to pause. For example, a comma is used to separate an introductory clause from the rest of the sentence. Explain that in this lesson the students will learn when to use a comma to separate an introductory word or phrase from the rest of a sentence.
2. Explain that a comma can be used to set off phrases of four or more words that appear at the beginning of a sentence. If the phrase has fewer than four words, a comma is usually not needed.
3. Display the first “Commas After Introductory Words and Phrases” activity (WA5). Read the first sentence aloud, pausing after *school*. Ask:

Q *Which words make up the introductory phrase that should be set off by a comma in this sentence?*

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Give the students a few moments to respond. Then point out that the words *On the first day of school* make up the introductory phrase. Add a comma after *school*.

WA5

1. On the first day of school, the teacher assigned me a “new best friend.”
2. At a desk next to mine, my new friend Jeremy smiled at me.
3. By mid-morning I had taken Jeremy all around the school.
4. On our walk through the halls, I introduced Jeremy to my friends.
5. For the next week, Jeremy went everywhere with me.
6. One day we started talking about Japanese cartoons.
7. Surprisingly, we love the same cartoons!
8. In no time at all, Jeremy has become “a true best friend.”

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

4. Read the second sentence aloud, pausing after *mine*. Ask:

Q Which words make up the introductory phrase that should be set off by a comma in this sentence?

Give the students time to think, and invite a volunteer to respond. Then read the words *At a desk next to mine* and add a comma after *mine*.

5. Repeat the process for all remaining sentences except sentence 7. For sentence 7, point out that the first word needs to be set off from the rest of the sentence since it applies to the whole sentence. Then add a comma after *Surprisingly*.

GUIDED PRACTICE

6. Display “Commas After Introductory Words and Phrases” activity (WA6). Tell the students that they will read a paragraph that is missing some commas. Explain that you will work together to find introductory words and phrases that need to be set off from the rest of the sentence with a comma.
7. Have a volunteer read the first sentence aloud. Ask:

Q Which words make up the introductory phrase that should be set off from the rest of the sentence with a comma?

Guide the students to see that the words *Most days after school* make up the introductory phrase, and that *Jeremy and I hang out together* forms a complete sentence. Add a comma after *school* and have a volunteer read the entire sentence again, emphasizing the pause at the comma.

WA6

Most days after school, Jeremy and I hang out together.
On Tuesdays and Thursdays, we go to his house. During our
winter break, we watched a lot of Japanese animé, or
animated movies. Jeremy draws his own cartoon pictures,
and they have interesting details. Clearly, he is a very
talented artist. Alongside Jeremy I also draw pictures.
Sometime in the future, both of us would like to create our
own animé movie. In time I know we'll get there!

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

8. Continue guiding the students through the paragraph. Have volunteers read the sentences aloud and tell where commas belong as you add them. Note that, in the sixth sentence and in the final sentence, no comma is required because the introductory phrase has fewer than four words.
9. Have the students work in pairs to write a paragraph, using introductory words and phrases. Remind them to add commas as needed to set off introductory words and phrases of four words or more.

Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write about making a new friend at school.

Teacher Note

You may want to use the examples that follow to explain that a comma is sometimes needed after a brief introductory phrase to avoid confusing the reader. Display the examples without the commas, and read them aloud. Then add the commas, and invite volunteers to read them again.

- *After the spring, games will be scheduled for next season.*
- *Inside the garden, roses and other flowers were finally blooming.*

Optional Practice

Have the students complete pages 76–78 in their *Student Skill Practice Books*, independently or in pairs, to practice using commas to set off introductory words and phrases. Note that page 78 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that Activities A and B on page 78 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

Teacher Note

You might have the students write examples of sentences with introductory words and phrases set off by commas in the Proofreading Notes section of their *Student Writing Handbooks*.

INTRODUCTION

- Remind the students that commas tell a reader where to pause. A comma is used to separate the names of items in a list, the greeting from the body of a letter, the name of a city from the name of a state, and more. Explain to the students that in this lesson they will learn other uses of the comma.
- Display the “Commas to Set Off *Yes* and *No*, Tag Questions, and Nouns of Direct Address” activity (WA9). Explain that this is a dialogue between two classmates, Zeke and Alma. Ask the students to listen for the pause in your voice as you read the first item aloud. Then ask:

Q *Where did I pause? (after the boy’s name, Zeke)*

Write in the comma after the name, *Zeke*. Tell the students that *Zeke* is a **noun of direct address**; it names the person who is being spoken to. A comma is used to separate the noun of direct address from the rest of the sentence. Ask:

Q *Why might you want to pause after a noun of direct address?*

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Allow the students time to think, and invite one or two volunteers to respond. If necessary, explain that by pausing the speaker can claim the attention of the person being addressed.

WA9

1. “Zeke, did you read that book I loaned you?” asked Alma.
2. “Yes, I finished reading it last night,” replied Zeke.
3. “You didn’t happen to bring it to school today, did you?” Alma asked.
4. “I’m sorry, Alma,” Zeke said, shaking his head. “I forgot it.”
5. Alma replied, “Try to remember it tomorrow, would you?”
6. “Yes, I promise I will,” Zeke answered.

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

3. Read item 2 aloud, pausing after *Yes*, and ask:

Q *Based on where I paused, where do you think the comma belongs?*

Invite a volunteer to respond, and write in the comma after *Yes*. Explain that a comma is used to separate the introductory word *yes* or *no* from the rest of the sentence. Explain that usually these words introduce the answer to a question that has been asked.

4. Explain that **tag questions** are questions “tagged” onto or attached to the end of a statement. Then read item 3 aloud, pausing after the word *today*. Ask:

Q *Where should we add a comma in this sentence and why?*

If the students have difficulty identifying where the comma should go, point out that this sentence has two parts: a statement and a question. Then reread the sentence, reflecting the proper intonation for each part. Revisit the question with the students to ensure that they heard the difference in tone and the pause in your voice after the word *today*.

ELL Note

Tag questions can be particularly difficult for English Language Learners. These students may not have a similar construction in their primary language, making the form unfamiliar. Even if the students are familiar with a similar device in their primary language, such as the use of *verdad* (*true?*) in Spanish, they may still struggle with which tag question to use when. For example, they may use the same expression for all tag questions, such as “You are going to the game, isn’t it?” The students will benefit from repeated practice choosing a tag question from a list of questions and using it to complete a sentence frame, such as “You heard what the teacher said, (didn’t you)?”

- Repeat the process with items 4–6.

Teacher Note

In item 4, the noun of address comes after the words *I'm sorry*. Point out that, if a noun of address comes at the end of a sentence, the comma comes before the name.

GUIDED PRACTICE

- Display the “Commas to Set Off *Yes* and *No*, Tag Questions, and Nouns of Direct Address” activity (WA10). Tell the students that they will read more sentences that are missing commas. Explain that you will work together to decide where commas need to be added to set off *yes* or *no* at the beginning of a sentence, a tag question at the end of a sentence, and a noun of direct address.

Zaya called across the schoolyard to her friend, “Ricki, is that you?”

“Yes, it is!” said Ricki as she ran up to her best friend.

“I guess you didn’t recognize me, did you?”

“Your new haircut looks amazing, Ricki!” Zaya exclaimed.

“But don’t you like to keep your hair long?”

“No, I like to keep it short for the summer,” Ricki responded. “It gets so hot and muggy here, doesn’t it?”

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

WA10

- Read the first sentence aloud and ask:

Q *Where should we add a comma in this first sentence?*

Guide the students to see that there should be a comma after *Ricki*, which is a noun of direct address. Insert a comma after *Ricki*.

- Continue guiding the students through the rest of the passage, reading the sentences aloud, helping volunteers choose the places where commas are needed, and discussing why commas should go there. After all the commas have been added, read the paragraph aloud and discuss with the students how the commas indicate pauses in the sentences.

9. Have the students work in pairs to write a dialogue, using at least one noun of direct address, one introductory *yes* or *no*, and one tag question.

Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write a conversation between two friends who are discussing a way to change their appearances.

Optional Practice

Have the students complete pages 79–81 in their *Student Skill Practice Books*, independently or in pairs, to practice using commas to set off *yes*, *no*, tag questions, and nouns of direct address. Note that page 81 can be scored, allowing you to assess how well each student understands the lesson skill.

Teacher Note

You might have the students write examples of sentences with commas that set off *yes*, *no*, tag questions, and nouns of direct address in the Proofreading Notes section of their *Student Writing Handbooks*.

Reteaching

For students who need additional instruction, note that Activities A and B on page 81 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

INTRODUCTION

1. Explain to the students that when they write a narrative, they may want to include **dialogue**, or a speaker’s exact words. Tell the students that it is important to use commas and quotation marks to clearly show a speaker’s exact words; otherwise, readers may become confused about who is speaking. Tell the students that in this lesson they will learn how to use single and double quotation marks in their writing. Further explain that they will learn an additional use of commas—to set off a speaker’s exact words.
2. Display the “Commas and Quotation Marks in Dialogue and Direct Quotations” activity (WA13). Explain that this passage is a dialogue between a mother and

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

her daughter. Read the passage aloud, pausing at the commas and emphasizing each speaker's exact words. Then ask:

- Q *What is the first thing Mom says? How do you know? ("Call Mary, our mechanic"; The quotation marks and the words my mom told me indicate that these are Mom's exact words.)*

Mom and I were stranded when our car broke down. Call Mary, our mechanic, my mom told me. Tell me exactly what she says.

I called Mary on the cell phone and said, Hi, Mary. Our car broke down, and we really need your help!

Does anything look unusual under the hood? she asked.

Mary said, Does anything look unusual under the hood?

I told Mom.

Tell her it looks fine. Mom called from the front of the car, but we're in a bit of a hurry.

Mom said, It looks fine, but the wires are a bit furry.

WA13

3. Point out that double quotation marks are used to show the exact words a character is speaking. In the second sentence, circle the double quotation marks around the speaker's words and the comma that sets off the quote from the rest of the sentence. Ask:

- Q *What other punctuation do you notice in addition to the quotation marks? (a comma)*

Explain that a comma is often used to separate the speaker's exact words from the rest of the sentence. If the comma comes after the quotation, it is placed before the ending quotation mark.

4. Reread the third sentence and circle the quotation marks around "Tell me exactly what she says." Point out that these are also Mom's exact words and so they too are set off by quotation marks. Ask:

- Q *What other punctuation do you notice in addition to the quotation marks? (a period)*

Explain that, when the speaker's exact words come at the end of the sentence, they are followed by end punctuation: a period, a question mark, or an exclamation point. Ask:

- Q *What does Mom want her daughter to do?*

Give the students a few moments think. Invite volunteers to restate Mom's command in their own words.

Students might say:

"Mom wants her daughter to call the mechanic."

"I agree with Liang. Mom also wants her daughter to tell her exactly what the mechanic says."

5. Reread the next two paragraphs and circle all punctuation marks that set off speakers' exact words. Explain that the sentences within quotation marks must be punctuated like any other sentence. Guide the students in identifying each punctuation mark, in addition to the quotation marks, and explaining why it is there:
 - Paragraph 2, sentence 1: A comma separates the beginning of the sentence from the speaker's exact words. A comma and a period are used in the direct address. (*Hi, Mary.*)
 - Paragraph 2, sentence 2: A comma is used before the conjunction in a compound sentence. An exclamation point is used at the end of the sentence preceding the end quotation mark. It shows the excitement in the speaker's words.
 - Paragraph 3: A question mark is used at the end of the speaker's exact words preceding the end quotation mark. A period is used at the end of the sentence.

Teacher Note

Explain to the students that, when a quotation that is also a statement comes at the beginning of a sentence, a comma rather than a period is used to set it off from the rest of the sentence. The period then comes at the end of the sentence.

6. Reread the fourth paragraph, and circle the quotation marks. Invite the students to speculate about what the single quotation marks show. Explain that single quotation marks are used to show that the daughter is repeating someone else's words—the words of Mary, the mechanic. The single quotation marks distinguish the mechanic's words from the daughter's words. Point out the question mark, which is part of the quotation from Mary and appears within the single quotation marks.
7. Repeat the process with the rest of the passage, calling attention to the use of double quotation marks, single quotation marks, commas, and end punctuation. Guide volunteers to articulate the purpose of each one.

Teacher Note

Direct the students' attention to the fifth paragraph. Explain that, if a quotation is interrupted by words indicating who is speaking, then quotation marks are used to set off each part of the speaker's words. Point out that the words that identify the speaker are followed by a comma, and the second part of the quote begins with a lowercase letter. Further clarify by explaining that an interrupted quotation is one complete thought and, therefore, one complete sentence.

GUIDED PRACTICE

8. Display the “Commas and Quotation Marks in Dialogue and Direct Quotations” activity (WA14). Tell the students that they will read a continuation of the dialogue started earlier and add single and double quotation marks and commas to set off each speaker’s exact words.

WA14

“You must have hit an animal. You’d better call a tow truck,” Mary suggested.

“Mary said, ‘You’d better put a toad in the trunk,’ I told Mom.

“That sure seems strange,” Mom said, “but Mary’s the expert.” Still looking puzzled, she headed into the woods, looking for a toad.

“Thank goodness for cell phones,” I said to myself.

“Good communication is so important.”

There was silence on the phone. Then Mary asked, “What did you say?”

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

9. Invite a volunteer to read the first paragraph aloud. Ask:

Q *What is Mary, the mechanic, saying? Where should we place quotation marks? Where should we place a comma?*

Invite a few volunteers to respond. Add double quotation marks before *You* and then add a comma and double quotation marks after the word *truck*.

10. Read the second paragraph aloud. Then invite volunteers to differentiate between the words spoken by the daughter and the words that quote what the daughter says Mary has said. Add double and single quotation marks as well as the commas that set off each speaker’s words from the words that tell who the speaker is. Review with the students why the single quotation marks are used to set off Mary’s words. (The single quotation marks indicate a quotation within a quotation; they tell what the daughter is saying that Mary told her.)
11. Continue guiding the students through the rest of the dialogue, having volunteers read the sentences and suggest where the quotation marks and commas belong. Confirm their answers by adding the punctuation marks.

12. Have the students work in pairs to write a dialogue, using double and single quotation marks and commas to set off each speaker's exact words.

Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they write a dialogue between a father and son trying to solve a problem.

Optional Practice

Have the students complete pages 82–84 in their *Student Skill Practice Books*, independently or in pairs, to practice using commas and double and single quotation marks to set off speakers' exact words in dialogue and direct quotations. Note that page 84 can be scored, allowing you to assess how well each student understands the lesson skill.

Teacher Note

You might have the students write examples of correctly punctuated quotations in the Proofreading Notes section of their *Student Writing Handbooks*.

Reteaching

For students who need additional instruction, note that Activities A and B on page 84 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

ELL Note

In some languages—and even in English in Great Britain—dialogue is set off with single quotation marks rather than double. Explain that in American English, double quotation marks are usually used to set off a speaker's words and single quotation marks are used only when quoted words appear within another quotation. Show the students examples of dialogue in some of the books in the classroom.

INTRODUCTION

1. Tell the students that in this lesson they will learn how to correctly punctuate titles of books, magazines, stories, poems, movies, television shows, and song titles. Ask the students to suggest some writing assignments that require them to write titles. (book reports, research reports, literary responses, movie and television reviews) Tell the students that punctuating titles correctly can help their readers understand what they are writing about.
2. Explain to the students that book titles either appear in italic type (when input on a keyboard) or are underlined (when written by hand) to set them off from the text around them. Explain that the titles of television shows, movies, and magazines are also underlined or italicized. Tell the students that shorter works, such as short stories, poems, songs, and magazine articles, are set off with quotation marks.
3. Display the “Punctuating Titles” activity (🎧 WA17). Read the first two sentences aloud. Ask:

Q Which words are the title of a book? (Elephants: Gentle Giants) Which words are the title of a magazine article? (Are We Losing Our Elephants?)

*Use these assessments to check students’ application and assess their mastery of the grade-level language skills. For more information, see Appendix C.

Then ask how each title should be set off from the text around it. Invite volunteers to respond. Confirm the students' responses by clicking each title.

WA17

Ramón and Thuy were researching elephants for a science report. Their first stop was the school library, where they found the book Elephants: Gentle Giants and a magazine article called “Are We Losing Our Elephants?” On the Internet they found a list of books on elephants, including About Those Trunks and The Elephants of Asia. They also found some interesting articles on elephants, such as “African Giants: The Elephants of Kenya” and “Save the Elephants: Poachers in the Congo.” They even found a poem about elephants called “Such Magnificent Majesty.”

4. Read the rest of the paragraph aloud, following the same procedure. If the students have difficulty telling how the titles should be set off, review the rules for punctuating titles and help volunteers use clues in the paragraph to tell what kind of title each one is.

GUIDED PRACTICE

5. Display the “Punctuating Titles” activity (🗨️ WA18). Tell the students that they will read a paragraph with the titles of different types of media that need to be underlined or set off with quotation marks. Explain that they can use context clues from the paragraph to identify each type of title.

WA18

Ms. Lim's class was discussing things they like to listen to or watch. Emerson's group was talking about songs, such as “This Land Is Your Land” and “Waking Up Happy.” Antonio's group was talking about books, such as The Desert Adventure and Kids Know Everything. They were also discussing stories, such as “How Coyote Stole Fire.” Chanelle's group was talking about television shows, such as Kid Talk, and movies, such as Happy Feet and Lost in Space.

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

6. Read the first sentence aloud. Then have volunteers take turns reading the sentences aloud and going to the whiteboard to add the necessary title punctuation. Review the rules for setting off titles as necessary to help the students punctuate the titles correctly.

7. Have the students work in pairs to write a paragraph that includes the titles of different types of media.

Teacher Note

If the students have difficulty thinking of a topic to write about, suggest that they make a list of their favorite books, songs, television shows, and movies.

Optional Practice

Have the students complete pages 85–87 in their *Student Skill Practice Books*, independently or in pairs, to practice punctuating titles. Note that page 87 can be scored, allowing you to assess how well each student understands the lesson skill.

Reteaching

For students who need additional instruction, note that Activities A and B on page 87 in the *Student Skill Practice Book* are also available as interactive whiteboard activities that may be used for reteaching.

Teacher Note

You might have the students write examples of titles in the Proofreading Notes section of their *Student Writing Handbooks*.

- “Review” activity (WA23)
- “Review” activity (WA24)

REVIEW

1. Explain to the students that they are going to review what they have learned about punctuation in Lessons 25–29. Remind the students that they have learned how to use commas to set off:
 - Items in a series
 - Introductory words and phrases
 - *Yes* and *No*, tag questions, and nouns of direct address

They have also learned how to use:

- Commas and quotation marks with dialogue and direct quotations
 - Underlining, italics, and quotation marks to set off titles
2. Display the first “Review” activity (🎤 WA21) and read aloud the rule for using commas in a series.
 3. Have the students read the first sample sentence aloud. Then ask:
 - 🗨 *Which words are items in a series? (Firefighters, police officers, and emergency medical technicians) Where should we place commas in this sentence? (after Firefighters and police officers)*

Commas can be used to separate three or more items in a **series**, or list. A comma followed by *and* or *or* appears before the last item.

Firefighters, police officers, and emergency medical technicians are all trained to save lives.

They are trained to deal with people who have stopped breathing, had a heart attack, or have serious bleeding.

To be a successful emergency worker, you must have strength, courage, and training.

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

Confirm the students' responses by adding a comma after each item. Point out the conjunction *and* before the last item in the series and the comma that you added before it.

- Continue the process with the other two sentences. Have volunteers identify the items in each series and indicate where the commas should be placed. Add the commas to confirm their responses.
- Display the next "Review" activity (WA22). Read each rule and sample sentence aloud. Invite volunteers to the whiteboard to insert a comma and underline the word or phrase set off by the comma in each sentence.

A **comma** can be used after an **introductory word or phrase** to separate it from the rest of the sentence. Use a comma after single words that apply to the whole sentence. Use a comma after phrases that have four or more words.

"Clearly, fighting forest fires by smoke jumping is a meaningful job. After two years of smoke jumping, do you still find it exciting?"

A comma is used **after Yes or No** when it appears at the beginning of a sentence.

"Yes, it's very exciting to be a smoke jumper and put out forest fires."

A comma is used to **set off a noun of direct address**.

"Mr. Perez, what made you decide to become a smoke jumper?"

A comma is used **before a tag question** at the end of a sentence.

"Becoming a smoke jumper isn't easy, is it?"

When marking the whiteboard for the students, do not use carets to insert punctuation. They are shown here for reference only.

6. Have the students work in pairs to create their own sample sentences for each rule, using the activity samples as guides.
7. Display the next “Review” activity (WA23). Read aloud the rule at the top of the page and the sample sentence. Ask:

Q *What do you notice about where quotation marks and a comma are placed in this sentence?*

Invite a few volunteers to respond. Allow time for them to express in their own words that the quotation marks are placed at the beginning and end of someone’s exact words and that a comma is placed after the words identifying the speaker; in this case, after the words *Angel asked Ms. Patel*. Then circle the comma and the quotation marks.

WA23

Quotation marks and **commas** are used to set off a speaker’s exact words from the rest of the sentence.

Angel asked Ms. Patel, “When did you decide to become an emergency medical technician?”

If a **quotation is interrupted** by words telling who is speaking, use quotation marks to set off each part of the speaker’s words.

“I’ve wanted to do this work since I was a little girl,” Ms. Patel answered. “My grandfather fell when I was home with him. We called 911, and the EMTs were there in minutes.”

Single quotation marks within **double quotation marks** show that the speaker is repeating someone else’s written or spoken words.

Ms. Patel continued, “I read in a medical journal that ‘a matter of minutes can make all the difference in saving someone’s life.’ That’s when I knew that I wanted to help others by becoming an EMT.”

Teacher Note

If necessary, point out that the rules for punctuating the four kinds of sentences still apply, even though the sentences are direct quotations. If a speaker is asking a question, then a question mark appears at the end of the sentence. If the speaker is speaking with great emotion, then an exclamation point appears at the end of the sentence. The exception is a statement: If a statement appears at the beginning of the sentence, then a comma—rather than a period—follows the statement, preceding the end quotation mark and the words that tell who is speaking.

8. Read aloud the rule for interrupted quotations, as well as the sample sentences. Invite a volunteer to circle the comma and the quotation marks, explaining why there are open and closed quotation marks on either side of the words identifying the speaker.

Teacher Note

In this instance, the words that identify the speaker come after a complete sentence. Therefore, a comma follows the speaker's exact words and a period follows the words that identify the speaker.

Tell the students that, in some interrupted quotations, the words that identify the speaker come in the middle of a sentence. In those instances, a comma follows the identifying words and the second part of the quotation begins with a lowercase letter, for example: "I can see," the patient said, looking at his watch, "that the doctor is late for his appointment!"

9. Read aloud the rule for using single quotation marks within double quotation marks. Have volunteers provide examples of when they would quote another person's words (for example, repeating something you were instructed to do; repeating something you read in a book; quoting a memorable line from a movie, a song, a book, or a poem). Read the sample sentence aloud and point out that the speaker is quoting from a medical journal she has read. Have a volunteer read the words the speaker is quoting, and then circle the double quotation marks and single quotation marks.
10. Display the last "Review" activity (WA24). Remind the students that the titles of different works, such as books, movies, short stories, and songs, are punctuated in special ways to set them off from the others words in a text. Read the rule for book titles aloud and click to highlight each one. Ask:

Q *When would we underline a book title? (when we write it in our own handwriting) When would we set it in italics? (when we input it on a keyboard)*

Book titles should be underlined or put in italics to set them off from other text.

Life Among the Trees

My Year as a Forest Ranger

The titles of magazines, television shows, and movies should also be underlined or set in italics.

Time for Kids (magazine)

Kid Talk (TV show)

Finding Nemo (movie)

Shorter works, such as short stories, poems, songs, and magazine articles, are set off with quotation marks.

"The Dragon Rock" (short story)

"America the Beautiful" (song)

"Caterpillar" (poem)

"A Trip to Yosemite"

(magazine article)

WA24

11. Repeat the process with rest of the rules and examples. Be sure that the students understand which titles are underlined or italicized and which ones are set off with quotation marks.

12. Have the students work in pairs to make a list of the books, television shows, and songs that they enjoy. Ask them to share their titles with the class.

Optional Practice

Have the students complete pages 88–90 in their *Student Skill Practice Books*, independently or in pairs, to practice using punctuation to set off different types of text.

Also, the light bulb, phonograph, and movie camera (was, were) invented by Thomas Edison in New Jersey. But our teacher's favorite thing (may be, been) the spoon collection at the Lambert Castle Museum. There you (saw, can see) hundreds of different spoons from all over the world.

B. Write a verb from the word box to complete each sentence. Change the form of the verb, if necessary, to show the correct tense. Use each verb only once.

find donate have tell

If you go to the Lambert Castle Museum, you _____ will find some amazing spoons. A woman named Bertha Schaefer-Koempel _____ donated the collection to the museum in 1966. She _____ had more than 5,400 spoons in her possession when she died. Every spoon _____ tells a story about someone's adventures.

C. Write a brief passage about something that you or someone you know collects. Use past-, present-, and future-tense verbs.

Travel Plans

A. Read each sentence. Write the missing helping verb to correctly form the perfect or progressive tense.

Last night my family and I _____ were discussing our plans for the summer. My older brother Sam _____ was complaining because he _____ had hoped for something other than a trip to see Grandma. She moved to Chicago five years ago, and she _____ has lived there ever since. "I _____ am not going," Sam announced.

"If you don't go, you _____ will be missing all the fun," said Dad. "I _____ have already bought tickets to a Cubs game and the Planetarium. Also, we _____ will be going to a big festival in Millennium Park. Besides, by next month, it _____ will have been two years since we _____ have seen her."

B. Write a brief passage about a discussion you have had recently about making plans with friends or relatives. Use perfect- and progressive-tense verbs correctly.

The Most Important Star

A. Read the passage. Circle each adjective. Draw an arrow to the noun or pronoun it describes.

On dark cloudless nights, the sky twinkles with stars. However, there is one star that is special and it can be seen only during the day. That star is the sun. The sun provides us with bright light, warmth, and energy. Green plants convert the sun's energy into food. So when you eat a crunchy carrot or a sweet juicy strawberry, it is as if you are eating a small piece of sunshine.

B. Read the passage. Circle the correct form of the adjectives in parentheses to complete the sentences.

The sun is not the (brighter, brightest) star in the universe, but it is the (closest, most close) one to us. And it is (hotter, hottest) than any other object in our solar system. That is why you should protect your skin when you are outside. Your skin is (more important, importanter) than you may realize. Always wear sunscreen with the (most highest, highest) amount of protection you can find.

C. Write a paragraph about how the sun makes you feel. Use at least four adjectives.

Extreme Planets

A. Read the passage. Write an adjective from the word box to complete each sentence. Use each adjective only once.

three	largest	many	hottest	nearest
tiny	rough	smaller	hot	

Jupiter is a gigantic ball of swirling gas. It is the largest planet in our solar system. The size of Earth is tiny compared to Jupiter. In fact, only three planets are smaller than Earth: Mercury, Venus, and Mars.

Mercury is the planet that is nearest to the sun. It is made of rock, so its surface is hard and rough. It has many craters, similar to our moon's craters. Because Mercury is next to the sun, you can imagine how hot it is. However, Mercury is actually not the hottest planet in the solar system—Venus is. The temperature on Venus can get up to around 880 degrees Fahrenheit!

B. Imagine you discover a new planet. Write a brief description of it. Use at least four adjectives, including one comparative and one superlative adjective.

Moonlight

- A. Read each sentence. Write the adjective from the word box that means about the same thing as the underlined adjective. (5 points)

erie feathery distant quiet single

- The full moon rose over the faraway mountains. distant
- A long star twinkled in the sky. single
- Soft, wispy clouds floated past the moon. feathery
- The moonlight cast strange shadows on the ground. erie
- The night air was still and silent. quiet

- B. Proofread the passage. Cross out each incorrect adjective form. Write the correct form above it. (5 points)

Did you see the full moon last night? I think it was most beautiful the ~~beautifulest~~ moon I have ever seen. It was brighter and ~~more~~ larger than it has been all month. Tomorrow night it will ~~thinner~~ start to get ~~thinner~~ again. In two weeks we won't see it at all. The sky will be much ~~dark~~ darker than it is tonight. But that's OK. A moonless night is the ~~most~~ best time to see stars.

- C. Imagine you are looking down on Earth from the moon. Write a description of what you see and how it makes you feel. Use at least five adjectives, including one comparative and one superlative adjective. (5 points)

The Audition

- A. Read the passage. Draw an arrow from each underlined adverb to the verb or adjective being described.

Yesterday I auditioned for the part of Little Mouse in the school play. I read each line loudly and dramatically. I thought I had performed well. When I was done, Ms. Partridge applauded politely and said that my voice was certainly powerful. Ms. Partridge always says nice things. I walked away, feeling very happy.

- B. Read the passage. Circle the correct form of the adverb in parentheses to complete each sentence.

I did not get the part of Little Mouse. Ms. Partridge says I spoke (more forcefully, forceful) than I needed to. The character of Little Mouse is shy and speaks (least boldly, less boldly) than I did. Now I realize I should have studied the part (most careful, more carefully)! But I did speak the (loudest, most loudest) of anyone, and I pronounced my words the (more clearly, most clearly). So Ms. Partridge gave me the role of Narrator. I like that job (better, weller) anyway, because I get to be in every scene.

- C. Write a paragraph about how you think you'd act during an audition. Use at least four adverbs in your paragraph.

On the Red Carpet

A. Read the passage. Write an adverb from the word box to complete each sentence. Use each adverb only once.

often forward meanly more gracefully
brightly worst confidently badly

Cameras flashed brightly at the movie stars as they entered the theater. The actors waved to their adoring fans, who leaned forward to get autographs.

Action hero Ryan Duckling looked handsome in his tuxedo, strutting confidently down the red carpet. He was with Britney Glass, who wore a beautiful blue gown. She moved more gracefully than a ballet dancer, even though everyone knew she was suffering badly from a toe injury.

Next came movie director Charlie Keaton, who dressed the worst of anybody in Hollywood. He often came to events wearing weird hats and shoes. A few people booed at him meanly.

B. Imagine you see your favorite movie or TV star on the street. Write a paragraph about your experience. Use at least five adverbs.

In the Audience

A. Read each sentence. Write the adverb from the word box that means about the same thing as the underlined adverb. (5 points)

4. From the balcony those actors look very small. quite
5. At intermission people strolled outside to stretch their legs. outdoors

B. Proofread the passage. Cross out each incorrect adverb form. Write the correct form above it. (5 points)

Benji shifted ~~nervously~~ in his chair. It was almost time for his little sister's dance performance. He hoped she would dance better than everyone else in her class. She had certainly practiced hardest of everyone. Finally she came out on stage and bowed graciously. Benji clapped more proudly than anyone else in the audience.

C. Write a story about a time when you were nervous about something. Use at least five adverbs, including one that describes where and one that describes when. (5 points)

Olympic Heroes

A. Read the passage. Each prepositional phrase has been underlined. Circle its preposition, and draw a box around the object of the preposition.

In 1904 a man with a wooden leg won six medals at the Olympics. The man, George Eyser, was a gymnast from St. Louis. The Olympics were in St. Louis that year.

Eyser received three gold medals, two silver, and one bronze

for his performance in the gymnastics events.

B. Read each sentence. Underline the prepositional phrase in each sentence. Circle its preposition and draw a box around the object of the preposition.

1. Gymnast Kerri Strug was 18 years old when she went

to the 1996 Olympics.

2. Strug helped the women's gymnastics team win a gold medal

for the United States.

3. Strug had to perform on a badly injured ankle.

4. She felt terrible pain in her ankle, but she finished perfectly.

5. Strug's teammates on the sidelines clapped and cheered wildly.

6. The coach lifted her up and carried her in his arms.

7. Everyone knew Kerri Strug's name after that day.

8. People are still amazed by her accomplishment.

C. Write a paragraph about something difficult that you are proud of having done. Use at least three prepositional phrases.

Swimming in Sync

A. Complete each sentence by writing a prepositional phrase from the word box. Use each phrase only once.

for a long time about an interesting sport
in swimsuits with their arms and legs of the water

Last night I saw a television program about an interesting sport. This sport is called synchronized swimming, and it's a team sport. Swimmers perform difficult tricks on the surface of the water and below it.

They must be able to hold their breath for a long time and coordinate their movements with their teammates. The swimmers make precise movements with their arm and legs, stretching and twirling like ballet dancers in swimsuits.

B. Rewrite each sentence. Add a prepositional phrase that answers the question in parentheses.

1. I went swimming. (When?)
I went swimming in the late morning.
2. I put my towel down. (Where?)
I put my towel down on the first row of bleachers.
3. After swimming ten laps, I ate lunch. (With whom?)
After swimming ten laps, I ate lunch with my friend Lilia.

C. Imagine you are at the Olympics, watching your favorite sport. Describe what you see, using at least four prepositional phrases.

Sample answers are listed above. Answers may vary.

Diving Lessons

A. Circle the preposition in each sentence. Write position, direction, or time to tell what the preposition shows. (5 points)

- Jeremy walks toward the diving board's edge. direction
- The crowd below him chants his name. position
- After a moment Jeremy takes a deep breath. time
- He springs from the board and does a double-rotating-triple-back-flip. direction
- The spectacular dive is only in his imagination, position though.

B. Draw a line from each incomplete sentence to the prepositional phrase that completes it. Then write each new sentence. (4 points)

Stand off the edge.
 Put your hands over your head.
 Lean forward and bend with your knees slightly bent.
 Use your feet to push at the waist.

- Stand with your knees slightly bent.
- Put your hands over your head.
- Lean forward and bend at the waist.
- Use your feet to push off the edge.

C. Think of something you know how to do well. Write steps to explain it. Use at least six prepositional phrases. (6 points)

The Salad Bar

A. Read each sentence. Circle the correct conjunction to complete the sentence.

- At Biggerson's Salad Bar, you can get not only salad (or, but also) sandwiches.
- The sandwiches come on either wheat bread or a roll.
- At the salad bar, people both build their salads and (or) add to their sandwiches.
- Neither burgers (or, nor) hot dogs are served at Biggerson's.
- The food at Biggerson's is not only (but) delicious but also healthful.
- You can either eat there (but also, or) order the food to take home.

B. Read each sentence. Circle the conjunction that is in the wrong place, and draw an arrow to where it should go.

- I both like tomatoes and cucumbers in my salad.
- Carrots or celery (either) can make the salad extra crunchy.
- My sister puts neither dressing on her salad nor adds any cheese.
- The salad bar not only has lettuce but also peas and red beans.
- My sister and my dad like to both put chopped egg in their salad.
- Neither they add peppers nor onions.

C. Write a paragraph about what you like to put in your salad. Use the conjunction pairs both/and and not only/but also.

The Amazing Peanut

A. Read the passage. Complete each sentence by writing a conjunction from the word box.

both neither either nor and not only but also or

Did you know that a peanut is neither a pea nor a nut? It is actually a fruit. In fact, it is not only a fruit

but also a legume. Fruits are the part of a plant that has seeds, and legumes are fruits that grow in pods. Examples of legumes include both peas and lima beans.

Most fruits either develop on a vine or hang from a tree. However, a peanut grows on neither a vine nor a tree. It develops underground.

Peanuts are very nutritious. They contain not only a lot of protein but also healthy fats. Plus, they are a good source of both vitamin E and fiber. So the next time you want a healthy snack, either grab a handful of peanuts or make a peanut butter sandwich.

B. Write a paragraph about a kind of fruit or nut that you like. Use at least two of the following conjunction pairs: *either/or*, *neither/nor*, *both/and*, or *not only/but also*.

Lunchtime

A. Circle the conjunctions in each sentence. Write *choice*, *combination*, or *addition* to tell what each conjunction pair forms. (4 points)

3. Today we not only shared sandwiches but also traded fruit. addition
4. Neither Patrick nor I brought any chips today. choice

B. Read the passage. Write the correct conjunction to complete each sentence. (5 points)

both either and nor but also

"Oh no! Mom put both pickles and onions in my sandwich today," said Patrick. "I don't like either pickles or onions! They not only taste strong but also give me a stomachache."

"I love both pickles and onions!" I replied. "I'll put yours on my sandwich. They neither taste bad to me nor make me sick."

C. What do you like to put on a sandwich? What don't you like? Write a paragraph, using at least three conjunction pairs. (6 points)

My Brother's Soccer Games

- A. Underline the interjections in the paragraph. Circle the punctuation that expresses strong feeling. Draw a square around the punctuation that expresses milder feeling.

Boy! I'm tired of watching my little brother play soccer. My whole family goes to all his games. Hey! I know he's my little

brother, but those games eat up most of my free time. Good grief!

I could be doing dozens of other things instead! Last weekend my

little brother scored a really difficult goal. After the game he told

me that he'd made the goal because I was there cheering for him.

Yikes! Did I feel guilty or what? Well, I guess it's important that I go to his games, after all. What's a big brother for?

- B. Rewrite the sentences, adding punctuation to indicate the emotion shown in parentheses. Capitalize words as needed.

1. Boy it's awesome to have my big brother come to my soccer games. (strong)

Boy! It's awesome to have my big brother come to my soccer games.

2. Oh I'd play my best whether he came to the games or not. (mild)

Oh, I'd play my best whether he came to the games or not.

3. Well maybe I wouldn't push myself as hard if he weren't there. (mild)

C. Write a paragraph about an exciting adventure. Use at least three interjections and punctuation to express emotions. (6 points)

About That Smell . . .

A. Write *F* (for formal) or *I* (for informal) above each sentence.

- F* Dear Mr. Rose:
- F* For several weeks, I have noticed an unusual smell in the hall outside apartment 212. Buddy, you gotta have something nasty in there! I am not sure whether the odor is due to a wet dog or a moldy carpet. Man, you better do something about it, though!
- F* I would prefer not to have to complain to the landlord.

Your neighbor,

Ms. Johnson

B. Underline each sentence that is too informal for this informational paragraph on the water cycle.

- When the sun heats Earth, water on the surface of oceans and other bodies of water evaporates. What that means, dude, is that it turns into, like, vapor. The vapor rises into the atmosphere, where the cooler temperatures cause it to condense. So, like, this vapor stuff turns back into water droplets, forming a cloud thing. Then it rains. How cool is that?

C. Write a short paragraph about something in nature that interests you. Write it in informal language, as if you were writing an e-mail to a friend.

Didgeridoo

A. Circle a or b to show which sentence you would use for each type of writing.

1. Type of writing: a research report

- a) The didgeridoo is one of the world's oldest instruments.
- b. I think the didgeridoo is a really cool instrument.

2. Type of writing: an informative paragraph

- a) It is a heavy tube made by the native people of Australia.
- b. It's this tube-like thing that's made by these dudes in Australia.

3. Type of writing: an e-mail to a friend

- a. The native artists find a particular branch and cut it to match a certain length.
- b) These guys take a branch, and they, like, chop it into the size they want.

B. Read the paragraph. Rewrite it to sound more formal.

You oughta hear a didgeridoo when some dude blows away on it. Totally awesome! I gotta get me one.

It's interesting to hear the sound of the didgeridoo when someone plays it. It's quite amazing. I think it would be fun to have a didgeridoo.

C. Imagine you are giving a report at school about a kind of music or musical instrument that interests you. Write the first paragraph, using formal language.

Sample answers are listed above. Answers may vary.

What's Up?

A. Read the paragraph. Cross out the informal sentences and rewrite them above in a more formal way. (6 points)

Most jewels are stones that are dug from deep inside the earth. ~~Not pearls; man, no way.~~ Pearls are hard, round objects that grow inside living oysters. ~~See, when this oyster gets annoyed by something like sand, it makes a substance to cover it.~~ *When an oyster is irritated by something, such as a grain of sand, it makes gets annoyed by something like sand, it makes, like, this thing-to-cover-it.* The layers of material grow big and round. ~~Finally, the round object becomes a beautiful pearl.~~ *Finally, the round object becomes a beautiful pearl.* Next thing you know, it's an awesome pearl!

B. Read the informal sentences. Draw a line from each one to the sentence that shows a more formal way of writing it. (5 points)

- 1. No way. a. I made a mistake.
- 2. My bad. b. What is going on?
- 3. Chill. c. That seems unlikely.
- 4. What's up? d. That isn't very appealing.

Sample answers are listed above. Answers may vary.

Diamond Hunt

- A. Read the passage. Circle each adjective and draw a box around each adverb. Then draw an arrow to the word that each adjective or adverb describes.

Mario studied the old map carefully. It was badly wrinkled and smelled like a wet dog. Also, someone had spilled sticky liquid on it once. But Mario could read the five words on it clearly. I buried the diamonds here. A tiny arrow pointed to a spot next to a bridge. "This is a very special map," said Mario excitedly.

- B. Read the passage. Cross out each adjective or adverb in parentheses and write the correct form above it.

Mario was the ~~(bestest)~~ treasure hunter in the world. He ~~(more)~~ more easily knew he could find the diamonds ~~(easier)~~ than anyone else, but he would still have to move ~~(quietly)~~ more quickly than usual. The diamonds were the ~~(valuabable)~~ most valuable treasure he had ever looked for!

Mario studied the ground next to the bridge, looking for where the dirt seemed the ~~(deeese)~~ loosest. This was where the diamonds would be buried.

- C. Write a short story about finding a lost treasure. Use adjectives and adverbs in your story to give details and make comparisons.

Cave of the Crystals

- A. Read the passage. Underline each prepositional phrase. Circle the preposition. Draw a box around the object of the preposition.

There is a cave (in) northern Mexico where you will find an amazing treasure. To see it, you must go almost 1,000 feet (below) the ground. You must also fill your clothes (with) packs of ice because the air inside is so hot and humid.

What is so special (about) this cave? It contains gigantic, glittering crystals that are 36 feet long and several feet thick! Scientists travel (to) the cave (from) many countries to study these spectacular crystals.

- B. Write the correct conjunction to complete each sentence.

either both and but also

1. The Cave of the Crystals is not only hot _____ but also dark and humid.
2. Both time _____ and temperature have allowed the giant crystals to grow.
3. The crystals are _____ both sharp and delicate.
4. The crystals could _____ either crack or fall if they are not protected.

- C. Would you want to go into the Cave of the Crystals? Why or why not? Explain your answer, using prepositional phrases and correlative conjunctions.

Jazzy Jewelry

A. Read each paragraph. Underline the word or phrase in parentheses that best fits the style and purpose of the writing.

- Hi, Aunt Theresa! Thanks (a whole bunch, quite sincerely) for the pretty ring. The purple stone in the middle is (totally amazing, an incredible specimen). I hope you (did not, didn't) spend too much money on this!

- Gold is a type of mineral (that's called, known as) a metal. It is (considered quite valuable, worth tons of money) and is frequently used to make jewelry and other (stuff, decorative items) because it is easy to shape.

B. Write the interjection that best completes each sentence. Use each interjection only once. Add the correct punctuation after the interjection.

Hey	Oh no	Yay	Well
-----	-------	-----	------

- ____ Oh no! I can't believe I lost my favorite earrings!
 - ____ Well, I guess I should have been more careful with them.

 - ____ Yay! I'm so happy that I found them.
- C. Write a paragraph about something you own that is special to you. Write it in two ways: one for a school assignment, and the other as a message to a friend.

The Strange Antelope

A. Read the paragraph. Circle the commas that separate the items in a series.

A very strange antelope lives in the desert in Mongolia. It has long legs, big eyes, and a huge nose. Its nose allows it to warm cold air, filter out dust, and find food.

B. Read the paragraph. Underline the items in each series. Add commas where they are missing.

Today this strange antelope has almost disappeared. The antelope once lived in Alaska, Mongolia, and the United Kingdom.

Over the years people have hunted, caught, and killed many of them for their horns. The horns are taken, shipped to other countries, and used in medicines.

C. Write a paragraph describing an animal you have seen or read about. Use items in a series in your description. Make sure you put the commas in the right places.

Mountain Climber

A. Read the paragraph. Underline the items in a series. Add commas where they belong.

I have always wanted to be an outdoorsman, a sportsman,
and a mountain climber. When I was little, I used to climb
the sides of my crib, other furniture, and snow banks. Now I like
to rock climb, go on nature walks, and camp with my family.
I can't wait until I am old enough to backpack, climb, and
explore mountains.

B. Rewrite each sentence, adding commas to separate items in a series.

1. A mountain is a beautiful lonely and dangerous place.
A mountain is a beautiful, lonely, and dangerous place.
2. Mountain climbers face danger from snow ice and animals.
Mountain climbers face danger from snow, ice, and animals.
3. Some people say a mountain climber must be tough brave
and crazy!
Some people say a mountain climber must be tough, brave,
and crazy!

C. Write a paragraph about something you would like to do. Use items in a series to describe what that is and how you would do it. Use commas to separate the items.

Carets used to indicate insertion of punctuation are for reference only.

The Loneliest Tree in the World

A. Proofread this paragraph. Add any missing commas to separate items in a series. (11 points)

The loneliest tree in the world lived in the Sahara Desert. There was no other tree for 250 miles. Every animal in the desert nibbled at the tree, picked its leaves, and sat on it. Still the tree did not die. The secret of its survival was its roots, which were long sturdy, and winding. They reached deep into the ground, drank water, and kept the tree alive.

In 1973 a truck hit the tree. The tree's flowers, thorns, and leaves started to die. People cut the tree down, loaded it on a truck, and drove it to the Niger National Museum. A metal sculpture now stands where the tree was. Travelers still stop there, rest in the shade and read about the tree.

B. Write a descriptive paragraph about a special plant or tree. Include at least one series of items, and use commas to separate the items. (4 points)

Carets used to indicate insertion of punctuation are for reference only.

Little Miss Tag-along

- C. Write a paragraph about a friend or someone in your family. Use a comma to set off introductory phrases of four or more words.

Carets used to indicate insertion of punctuation are for reference only.

Strange Bedfellows!

A. Proofread the paragraph. Add any missing commas that should appear after introductory words or phrases. (6 points)

From his earliest memories, Jamison and his family have always had pets. As of last week, they had three cats, two dogs, a hamster, and a parakeet. At night the parakeet sleeps in his cage, and one of the dogs sleeps in the kitchen. On the floor of Jamison's bedroom, you will find the other animals. Surprisingly, the other dog, the three cats, and even the hamster snuggle together. On top of the pile, you will find Jazz, the hamster. Barkley the dog provides a solid base at the bottom of the pile. As for the three cats, they just slip in wherever they will fit.

B. Underline the introductory phrase in each sentence. Add a comma if needed to set it off from the rest of the sentence. (4 points)

1. In true nursery-rhyme style the cats are called Wynken, Blynken, and Nod.
2. Along with his best friend, Jamison's little brother named the cats.

1. "Jo, where are you going?"
2. "Hi, Monty. I want to get home in time for my favorite show."
3. "That's right. You always watch *Fighting Space Tigers*, don't you?"
4. "Yes, it's so cool when the Space Tigers capture the bad guys."
5. "I told you why I can't watch that show, didn't I?"
6. "No, I thought you watched it all the time."
7. "It's on during my clarinet lesson, Jo."

B. Rewrite the sentences correctly, adding commas where they belong.

1. "Monty you told me before, but I forgot."
 "Monty, you told me before, but I forgot."
2. "You like playing the clarinet don't you?"
 "You like playing the clarinet, don't you?"
3. "Yes I just wish my lesson could be at a different time!"
 "Yes, I just wish my lesson could be at a different time!"

C. Write a conversation between two friends about something they like to do. Use commas to set off nouns of direct address, the words yes and no, and tag questions.

Carets used to indicate insertion of punctuation are for reference only.

Tyler's Blog

A. Add the word or phrase in parentheses to the sentence and rewrite it on the line. Make sure you put commas where they belong.

1. "Look at this!" said Tyler. (Leah)

"Leah, look at this!" said Tyler.

2. "You're not on the school website again?" (are you)

"You're not on the school website again, are you?"

3. "I wanted to see if they posted my blog." (Yes)

"Yes, I wanted to see if they posted my blog."

4. "That's old news," Leah said. "Forget about it." (Tyler)

"That's old news," Leah said. "Forget about it, Tyler?"

5. "I had a good idea for our fifth-grade trip to Washington." (Well)

"Well, I had a good idea for our fifth-grade trip to Washington."

6. "I thought the teachers decided to call that off." (didn't they)

"I thought the teachers decided to call that off, didn't they?"

7. "It's still on, but we need to raise more funds." (No)

"No, it's still on, but we need to raise more funds."

8. "You want your band to play at a fund-raising concert?" (don't you)

"You want your band to play at a fund-raising concert, don't you?"

B. Write a dialogue between two people, with one person giving advice to another. Make sure you have used commas where they belong.

Let's Be Fair

A. Proofread the dialogue between a son and his parents. Add commas where they belong. (10 points)

"Mom and Dad, is it OK if my friends and I rehearse in my room tonight?"

"I'm not sure, Kevin," Mom said. "It gets awfully loud!"

"We're supposed to take turns, aren't we?"

"Yes, I guess you do have to take turns," agreed Dad.

"Dad, the next three weeks will be the other boys' turns."

"I'm really glad to hear that, Kevin."

"We aren't that bad, are we, Dad?"

"No, Kevin, you are actually pretty good—just really loud!"

B. Write a dialogue between a child and his or her parent. Include at least two nouns of direct address, one tag question, and the words *yes* and *no*. Make sure to put commas where they belong. (5 points)

Stuck in the Doghouse

A. Read the passage. Add single or double quotation marks to set off the dialogue and direct quotations.

Uncle Lee and I were trying to put together a doghouse that we bought from the hardware store. The man at the store promised us that it was easy to put together. It will take ten minutes," he said.

Well, Uncle Lee and I had been at it for three hours.

The garden was covered with wood, nails, and tools.

"This is ridiculous," Uncle Lee said. "The book says, 'Put the corners together.' Where are the corners?"

"Let me see that," I said. I looked at the book. It says,

"This birdhouse will provide a warm, dry shelter for the birds in your garden."

Uncle Lee's face turned red. "We're building a birdhouse!" he yelled.

B. Write a dialogue between two family members who are working together on something. Use commas and double and single quotation marks to set off the exact words of the speakers.

Carets used to indicate insertion of punctuation are for reference only.

Fear of Sharks

A. Add double or single quotation marks where they belong in the dialogue. Circle each comma that sets off the quoted material from the words that indicate who is speaking.

"Hey, Dad," Yasmin said. "We should go to the aquarium on Saturday. They have sharks there."

Dad cleared his throat. "Have you asked Mom?"

"I asked her," Yasmin said. "Her exact words were, 'What a great idea! It's time that your father faces his fear of sharks.'"

"I see," said Dad. "What else did she say?"

Yasmin thought for a moment and then replied, "Oh, she just said, 'The first step is to face your fear. It would really help Dad to be face-to-face with a shark.'"

"Wow," said Dad. "Mom really said that?"

"She really did," Yasmin answered.

B. Write a dialogue about facing a fear. Use double and single quotation marks and commas correctly.

Carets used to indicate insertion of punctuation are for reference only.

Thunder and Lightning

A. Proofread the passage. Add double and single quotation marks where they belong. (5 points)

My brother and I were fighting when Dad said, "Have either of you heard the story of Thunder and Lightning?"
 "No," we both said at once.

"There once were two brothers named Thunder and Lightning," Dad began. "All they ever did was fight and shout things like, 'Why don't you go back to your cloud!'"
 My brother and I rolled our eyes, but Dad went on.

B. Proofread the passage. Add commas where they belong to set off dialogue from the words that tell who is speaking. (4 points)

"After years of fighting, Lightning said to himself, 'I can't take this anymore! Thunder will have to live without me.' So Lightning zigzagged across the sky to find a new home."
 My brother said, "I bet Thunder said, 'I'm glad he's gone!'"
 "No, he didn't," my dad responded. "In fact, they missed each other terribly."

"So what happened to them?" I asked.
 "They decided to work together doing what they both do best," said Dad with a smile.

C. Write a dialogue between two people discussing a story or a folktale. Use single quotation marks, double quotation marks, and commas to set off dialogue. (6 points)

It's All About the Sources

A. Read the sentences. Underline the titles of books and movies. Add quotation marks to the titles of poems, songs, and magazine articles.

1. For my report on Antarctic expeditions, I found a book called Race to the Top.

2. I also found an article on the explorer Ernest Shackleton titled "Heartbreak on Ice."

3. There is a movie about his expedition called The Endurance, but I haven't seen it.

4. I even found a song called "The Spirit of Shackleton."
 5. I wrote a poem about Shackleton and called it Brave Explorer.

B. Underline the titles or add quotation marks based on the words in parentheses.

These are the sources André found for his report on Haitian cuisine:

1. Creole Spices and Sauces (book)

2. "How to Make Jerk Chicken" (magazine article)

3. Haitian Cooking (television show)

4. "In My Mama's Kitchen" (song)

C. Write a list that includes a book, a magazine article, and a television show title. Punctuate the titles correctly.

Wild Animals

A. Read the paragraph. Write the titles in parentheses on the lines, making sure to punctuate them correctly.

Jason and Mira were reading the book

Animals of the Bornean Jungle to research exotic animals.
(Animals of the Bornean Jungle)

They became interested in the topic when they saw the movie

Strange Encounters. The movie was based on an

(Strange Encounters)

article, "My Strange Encounters," written by Dr. Jared Wang,

(My Strange Encounters)

who had spent years in the jungles of Borneo.

B. Correct the errors in the punctuation of titles.

1. Jason is writing a story called Unbelievable!
collects weird animals.
 2. Mira is writing a poem about orangutans called Mother Love,
Ape Moms
 3. Mira was inspired by a movie called "Ape-Moms" about how
orangutans take care of their babies.
 4. The movie soundtrack included a great song called
"You'll Always Be My Baby."
You'll Always Be My Baby.
- C. Write a paragraph about animals that includes a book title, a song title, and a movie title.

The World Out There

A. Proofread the paragraph. Correct the punctuation of the titles in the paragraph. (5 points)

Emile wanted to write a story about space travel called

"Travels to the Beyond."
Travels to the Beyond. Deshaun offered to help with the

research and came up with a list of articles on space travel:

"A Trip to Mars," "Moon Landings," "NASA Predicts the Future."
A Trip to Mars, Moon Landings, and NASA Predicts the Future.

Where Will We Go Tomorrow?

Emerson found this book: "Where Will We Go Tomorrow?"

B. Write the following titles, punctuating them based on the hint in parentheses. (5 points)

1. The Voyages of the Enterprise X (movie)

The Voyages of the Enterprise X

2. I Believe in Stars (poem)

"I Believe in Stars"

3. We Are on a Journey (song)

"We Are on a Journey"

4. Space Travel in the 21st Century (book)

Space Travel in the 21st Century

5. Life on the Planet Mars (article)

"Life on the Planet Mars"

C. Write about sources on a topic of interest to you. Include two books, two articles, and one movie title on the subject. (5 points)

Do You Have Happy Feet?

- A. Read the paragraph. Underline each word or phrase in a series. Add commas to separate them.

You're sick of soccer, fed up with football, and bored with basketball. You want to learn how to dance. Maybe you know about some dance types, such as salsa, ballet, and hip-hop. But have you heard of the hula, the polka, or the bossa nova? There are thousands of dance forms all over this planet! Wherever you go, people are shimmying, shuffling, stomping, and swinging to music.

- B. Read the paragraph. Underline each book, magazine, and movie title. Add quotation marks to set off each magazine article or song title.

One of my favorite movies is Happy Feet. I love the way Mumble dances on his funny penguin feet. It really makes me laugh when the silly penguin Lovelace sings the song "My Way" and dances around. I read an article called "Penguin Babies of Antarctica" in the magazine Kids and Nature. I found a book at the library called Protecting the Penguins, and I'm looking forward to reading it.

- C. Write a paragraph about your favorite book, song, movie, and television show. Use commas and correct punctuation throughout.

My Wonderful Aunt U'i

- A. Read the paragraph. Circle the commas that appear after Yes, No, and introductory phrases of four or more words.

My Aunt U'i (pronounced OO-ee) was born and raised in Hawaii. No, she doesn't have any children, but she has four cats. "Four cats?" you might ask. Yes, she has four cats. Every day at five o'clock, Aunt U'i feeds them and then takes them for a walk. With a twinkle in her eye, she tells people that she has four furry babies.

- B. Read the paragraph. Add commas after Yes, No, and introductory phrases of four or more words.

After a long period of study, Aunt U'i became a neurological nurse. That means she helps doctors when they operate on people's brains. Nurse U'i is very popular at the hospital. Time and time again, doctors ask for her when they need help in the operating room. No, she can't work with all the doctors all the time. I think my Aunt U'i is awesome!

- C. Write a paragraph about one of your favorite friends or relatives. Use commas to set off Yes, No, and introductory phrases of four or more words.

Punctuation ■ Lesson 30 | 89

Caretts used to indicate insertion of punctuation are for reference only.

Tell Us, Officer Bolton

A. Proofread the passage. Add quotation marks and commas where they are missing in the dialogue.

Officer Bolton came to Madison's class to talk about his job as a police officer and to answer questions.

"When did you decide to be a policeman?" Madison asked

Officer Bolton.

"I knew I wanted to be a police officer after I read my father's journal," Officer Bolton responded. "He wrote, 'This has got to be the best job in the world, keeping my little neighborhood safe.' I know just how he feels."

B. Read the paragraph. Add commas after nouns of direct address and before tag questions.

"Officer Bolton, what is your favorite part of being a police officer in our neighborhood?" Ellery asked.

"Ellery, you probably think that I enjoy high-speed chases or capturing criminals the most, don't you?" Officer Bolton replied. "My favorite part is getting to know the people in the neighborhood."

C. Write a dialogue between two people talking about your neighborhood. Remember to use commas to set off nouns of direct address and tag questions.

Appendix B

SKILL PRACTICE ASSESSMENT

USING THE SKILL PRACTICE PAGES

Each mini-lesson in the *Skill Practice Teaching Guide* has three corresponding practice pages in the *Student Skill Practice Book*. (These are referenced in the “Optional Practice” section at the end of each mini-lesson.) The first two practice pages provide opportunities for the students to practice a language skill in pairs or individually. The third page can be assigned for additional practice, or it can be completed by students independently and then scored to evaluate progress and inform instruction. You can also use the scores as a basis for assigning a language skills grade and/or include the scores in each student’s overall unit score on the “Individual Writing Assessment.” (For more information, see “Individual Writing Assessment” in the *Assessment Resource Book*.)

You can use the “Skill Practice Student Record” sheet (SR1) on page 191 to create a cumulative record of each student’s scores, and you can use the “Skill Practice Class Record” sheet (CR1) on page 192 to record and track your students’ progress as a class.

Scoring the Skill Practice Pages

- ✓ After the students complete the first two practice pages for a lesson (either in pairs or individually), have each student complete the third practice page independently. (We recommend having students complete the practice pages over several days.)
- ✓ Make a class set of “Skill Practice Student Record” sheets (SR1) from the CCC Learning Hub (ccclearninghub.org) or from page 191. If you would like to record your assessment data electronically, go to classview.org to access the record sheet using the CCC ClassView app.
- ✓ Collect each student’s *Student Skill Practice Book* and locate the practice page you wish to score. (The page number of the practice page can be found in the “Optional Practice” section at the end of each lesson in the teaching guide.)
- ✓ Locate the answer key for the practice page you wish to score in Appendix A, “*Student Skill Practice Book Corrections*,” in this teaching guide.
- ✓ For each student, score the practice page and then calculate the total number of points earned using the point values indicated on the answer key. For example, each activity on *Student Skill Practice Book* page 3 is worth 5 points. (See the facsimile of the annotated practice page on page 143 of this teaching guide.)

- ✓ Record the total number of points earned out of 15 in the “Score” column on the “Skill Practice Student Record” sheet (SR1). Record the *Being a Writer* unit during which the lesson was taught and any notes you have about the student’s work. (For example, if you taught Lessons 1–3 while teaching Unit 2 in *Being a Writer* you might record a “2” in the “Taught in Unit/Genre” column.)
- ✓ Consider whether you would like to include the scores from the practice pages in each student’s overall unit score on the “Individual Writing Assessment” record sheet (located in the *Assessment Resource Book*) for the *Being a Writer* unit during which the lessons were taught. For example, if you taught Lessons 1–3 while teaching Unit 2 in *Being a Writer*, consider whether you will include the scores for the practice pages from those lessons in the overall unit score in the Individual Writing Assessment for Unit 2. (Note that if you include the scores from the practice pages, the overall unit score in the Individual Writing Assessment will be based equally on the student’s writing score and the total points earned on the practice pages. You might wish to weight the scores differently to align with your school’s or district’s grading system.)
- ✓ If you choose to enter this data directly into the CCC ClassView app, you have the option of having the scores automatically appear in the “Individual Writing Assessment” record sheet and calculated into each student’s overall unit score. Scores will also automatically appear in each student’s Student Profile. From there, the data can be shared digitally with parents, colleagues, and administrators.

Appendix C

GRADE-LEVEL LANGUAGE SKILLS ASSESSMENT

Three diagnostic proofreading passages offer formative assessment of grade-level language standards. Each passage gives students three opportunities to show their mastery of a set of grade-level language skills. The proofreading passages appear in the back of the *Student Skill Practice Book* on page 103, while annotated versions of the passages are provided in this appendix as scoring keys. If student responses indicate the need for additional practice with a skill, you may teach the lesson in the *Skill Practice Teaching Guide* that corresponds to that skill.

There are two cumulative reports that identify which skill is addressed in each assessment item and where that skill is taught in the *Skill Practice Teaching Guide*. The “Diagnostic Proofreading Passages: Student Report” (DS1) can be used to track an individual student’s progress throughout the year, whereas the “Diagnostic Proofreading Passages: Class Grouping Report” (DR1) is used to group the students around language skills for which they need additional practice. To assess student mastery of grade-level skills throughout the year, administer a diagnostic proofreading passage at the beginning, middle, and end of the year. Then use the student and class reports to identify students who are struggling with specific skills and may benefit from instruction, practice, or review in small groups.

Everything you need to conduct each assessment, including instructions and forms, can be found in this appendix or on the CCC ClassView assessment app (classview.org). You may choose to record your students’ progress using printed copies of the forms from this guide or from the CCC Learning Hub (ccclearninghub.org). You can access the CCC ClassView app by tapping the linked assessment icons in the *Digital Teacher’s Set*, by directly accessing the app at classview.org, or via the CCC Learning Hub.

Diagnostic Proofreading Passage 1

CONDUCTING THE ASSESSMENT

1. Have the students turn to “Diagnostic Proofreading Passage 1” on page 104 in their *Student Skill Practice Books*. You may also visit the CCC Learning Hub (ccclearninghub.org) to download, print, and distribute to each student the “Diagnostic Proofreading Passage 1” (BLM1).
2. Tell the students that today they are going to proofread and correct a story to show what they know about good writing. Explain that there may be more than one way to correct an error and to think about what sounds best.
3. State your expectations for how the students will behave while you are conducting the assessment. For example, students should stay in their seats, work silently, and raise their hands if they have questions.
4. Direct the students’ attention to the directions and read them aloud. Explain that they are going to correct a story written by someone they don’t know.
5. Have the students begin.
6. When the students have finished, collect their work.

SCORING THE ASSESSMENT

1. Use the “Diagnostic Proofreading Passage 1: Scoring Key” (DP1) to review student work. Read each student’s edited passage against the scoring key.
2. Annotate each scoring key using the following marks:
 - a. Place a check mark beside each item that the student has answered correctly.
 - b. Place an X beside each incorrect answer.
3. Transfer results from the scoring key to the “Diagnostic Proofreading Passages: Student Report” (DS1) as follows:
 - a. Write the student’s name at the top of the report. If this is not the first proofreading passage of the year, you might skip this step and use your previous student report.
 - b. Find the column labeled *Items for Passage 1*. Insert the date the assessment was conducted.
 - c. Circle the corresponding number for each assessment item the student has marked correctly.

- d. Tally the number of items correct and insert that number in the last row of the Items for Passage 1 column labeled *Total Number Correct*. This will show you how an individual student performed on the language skills that were tested in “Diagnostic Proofreading Passage 1.”
4. After all the proofreading passages have been completed, tally the number of items correct across each row and insert the total in the Total Items Correct column. This will show you how the student performs across all three proofreading passages.

Teacher Note

The diagnostic proofreading passages also can be scored using the CCC ClassView assessment app, which can be accessed by tapping the links in your *Digital Teacher's Set* or through the CCC Learning Hub (ccclearninghub.org).

ANALYZING THE ASSESSMENT

Use the information you gather from the assessment to help inform your instruction.

1. Make note of any standard for which a student has marked only one of three items correctly. This student is likely to need instruction in the language convention associated with that standard.
2. When a student scores 0–1 on a skill, record her name in the Proofreading Passage 1 column of the “Diagnostic Proofreading Passages: Class Grouping Report” (DR1) beside the applicable standard.
3. After all of the student names have been recorded, students who require instruction will have been grouped by the language convention(s) that they need to practice.
4. Refer to the right-hand column of the “Class Grouping Report” to find the lessons that correspond to each convention. Use the lessons to instruct each group.
5. File the completed assessments in the students’ assessment folders.

Proofreading Passage 1

A student wrote this draft of a story. Correct all the errors you find.

I first met Jim when he was riding his bike. He had tied a kite to the handlebars, and it ^{looked} ~~looks~~ like it might lift him right off the ground!

Jim saw me and ^{came} ~~comes~~ to a stop. He smiled and said, “Hi! You’re new around here, ^{aren’t} you? My name is Jim.”

“It’s nice to meet you, Jim. Yes, I’m new here. My name is Carson.”

Just then I heard a yip, ^a whine, and a bark. Jim scooped up a tiny ball of fur from the basket of his bike. “This is Gizmo.

She loves to ride with me. Our three dogs are Gizmo, Cher, ^{and} Tank. Neither Cher ~~or~~ ^{nor} Tank is small enough to fit in the basket.

Do you have pets, Carson?”

“I have a hamster, a parakeet, ^{and} a turtle,” I answered.

“We will get a puppy after we settle in. I want either a beagle ^{or} ~~nor~~ a cocker spaniel.”

At that very moment, ^{we} heard an odd flapping sound. Jim had ^{forgotten} ~~forgot~~ about the kite, and it ^{had} ~~will have~~ crashed to the

 raced over to the kite and was ~~growl~~^{growing} 14 at it. “As you can see,
 Gizmo thinks that her job is to protect me,” laughed Jim. 15

I noticed a few books in Jim’s basket, so I asked, “What
~~do~~^{are} 16 you reading?”

“I’m reading a book for my book report,” answered Jim.

“We had to choose either a biography ~~and~~^{or} 17 an autobiography.

I like Walt Disney movies a lot, so I chose the book Who Was

“I like Disney movies, too,” I replied. “My favorite is

I did not mention that I had written a poem about the movie.
 My poem was titled The Secret Life of Toys. I ~~am~~^{was} 21 afraid that
 Jim might not like poetry. Then I ~~was seeing~~^{saw} 22 another book in
 Jim’s basket titled *Rainy Day Poems*. Clearly, Jim and I would

Diagnostic Proofreading Passage 2

CONDUCTING THE ASSESSMENT

1. Have the students turn to “Diagnostic Proofreading Passage 2” on page 106 in their *Student Skill Practice Books*. You may also visit the CCC Learning Hub (ccclearninghub.org) to download, print, and distribute to each student the “Diagnostic Proofreading Passage 2” (BLM2).
2. Tell the students that today they are going to proofread and correct a story to show what they know about good writing. Explain that there may be more than one way to correct an error and to think about what sounds best.
3. State your expectations for how the students will behave while you are conducting the assessment. For example, students should stay in their seats, work silently, and raise their hands if they have questions.
4. Direct the students’ attention to the directions and read them aloud. Explain that they are going to correct a story written by someone they don’t know.
5. Have the students begin.
6. When the students have finished, collect their work.

SCORING THE ASSESSMENT

1. Use the “Diagnostic Proofreading Passage 2: Scoring Key” (DP2) to review student work. Read each student’s edited passage against the scoring key.
2. Annotate each scoring key using the following marks:
 - a. Place a check mark beside each item that the student has answered correctly.
 - b. Place an X beside each incorrect answer.
3. Transfer results from the scoring key to the “Diagnostic Proofreading Passages: Student Report” (DS1) as follows:
 - a. Write the student’s name at the top of the report. If this is not the first proofreading passage of the year, you might skip this step and use your previous student report.
 - b. Find the column labeled *Items for Passage 2*. Insert the date the assessment was conducted.
 - c. Circle the corresponding number for each assessment item the student has marked correctly.

- d. Tally the number of items correct and insert that number in the last row of the Items for Passage 2 column labeled *Total Number Correct*. This will show you how an individual student performed on the language skills that were tested in “Diagnostic Proofreading Passage 2.”
4. After all the proofreading passages have been completed, tally the number of items correct across each row and insert the total in the Total Items Correct column. This will show you how the student performs across all three proofreading passages.

Teacher Note

The diagnostic proofreading passages also can be scored using the CCC ClassView assessment app, which can be accessed by tapping the links in your *Digital Teacher's Set* or through the CCC Learning Hub (cccllearninghub.org).

ANALYZING THE ASSESSMENT

Use the information you gather from the assessment to help inform your instruction.

1. Make note of any standard for which a student has marked only one of three items correctly. This student is likely to need instruction in the language convention associated with that standard.
2. When a student scores 0–1 on a skill, record his name in the Proofreading Passage 2 column of the “Diagnostic Proofreading Passages: Class Grouping Report” (DR1) beside the applicable standard.
3. After all of the student names have been recorded, students who require instruction will have been grouped by the language convention(s) that they need to practice.
4. Refer to the right-hand column of the “Class Grouping Report” to find the lessons that correspond to each convention. Use the lessons to instruct each group.
5. File the completed assessments in the students’ assessment folders.

Proofreading Passage 2

A student wrote this draft of a story. Correct all the errors you find.

I had ^{planned}¹ ~~plan~~ to leave the house when my little brother was in the bath. Unfortunately, ² he came down the stairs just as I reached the front door.

“Maya, will you read to me?” he asked.

Scotty loved listening to stories, but I had ^{made}³ ~~make~~ plans to go to the gym. Well, I could either make Scotty happy ^{or}⁴ ~~not~~ make him cry.

“Come here, ⁵ Scotty,” I called. “Let’s pick a book.” I thought that he would choose his favorite book, Gloria Jean the Jumping Machine. ⁶ As you might have guessed, ⁷ this book ^{is}⁸ ~~be~~ about a kangaroo. Scotty likes to hop, skip, ⁹ and jump around the room while I am ^{reading}¹⁰ ~~read~~.

To my great surprise, ¹¹ Scotty picked one of my old books, “The Best of Mother Goose.”¹²

“Maya, this was yours, ¹³ wasn’t it?” he asked.

Proofreading Passage 3

A student wrote this draft of a story. Correct all the errors you find.

For many years now,¹ my family and I have ~~watch~~^{watched}² old movies on Friday nights. I especially love the really old ones that ~~be~~^{are}³ in black and white, but ~~either~~^{neither}⁴ my brother nor my sister ~~is liking~~^{likes}⁵ them much. Typically,⁶ a Friday night goes something like this: “Roy,⁷ which movie would you like to watch tonight?” Dad asks me. “Would you like to see The Wizard of Oz?”⁸ Although I ~~seen~~^{have}⁹ the movie a thousand times, I still love to hear the song Somewhere Over the Rainbow. Mom always sighs and ~~said~~^{says}¹², “That’s really beautiful, isn’t it?”¹³ Dad’s standard reply is, “Yes,¹⁴ it doesn’t get any better than that.” We have lots of other favorite films, too. Once we have decided which movie to watch, we make the popcorn,¹⁵ get something to drink, and settle comfortably on the couch. If my brother and sister complain, Dad says, “Either quit grumbling and watch,¹⁶ ~~nor~~ find something else to do.”

That’s why I was so surprised last Friday. My brother Craig had already gone to his room to finish “The Adventures of Huckleberry Finn” for his book report. My sister Gina ~~is~~ playing a video game. Dad called to them both, “Come and watch the movie with us.”

“Neither Gina ~~or~~ I wants to watch another old movie,” grumbled Craig.

“I insist,” said Dad.

We knew right away that this was a movie we had never ~~saw~~ seen before. The opening title said *The Wiz*, and the setting was New York. Even Craig and Gina were glued to the screen. Imagine our surprise when the Scarecrow ~~will turn~~ turned out to be Michael Jackson! My favorite part was when Dorothy, the Scarecrow, the Tin Man, and the Cowardly Lion sang together. Soon we all were ~~sing~~ singing along, “Ease on down, ease on down the road.”

I can hardly wait to see what Dad is going to choose next Friday.

Introduction

With the advent of standards-based performance assessments, students are required to analyze and gather information from multiple sources and then produce writing in a specified genre. In standards-based end-of-year summative writing assessments, students are assessed on how well their writing exhibits the qualities of effective writing, as well as how successfully they evaluate, interpret, and integrate information from the sources. These performance-based writing assessments provide teachers, administrators, parents, and the students themselves with evidence of how well students have acquired the skills needed for research and writing.

The goal of the *Writing Performance Task Preparation Guide* is to provide students with strategies they can use to do their best writing in three genres: narrative, informative/explanatory, and opinion. The instruction helps you guide the students through the entire performance task, step by step. The students learn that each task has several parts, and they find out what is expected of them in each part. The guided practice also shows them how to apply what they already know about good writing. This practice and support helps the students gain the confidence they need to perform well when they take a standards-based writing assessment.

The units in this guide use the same pedagogy and five-day lesson structure as other units in the *Being a Writer* program. Support materials—including student handouts, interactive whiteboard activities, assessment record sheets, and instructional media—can be accessed via the CCC Learning Hub (ccclearninghub.org). For more information about the CCC Learning Hub, see “Using the Technology Features” on page xliv of the *Teacher’s Manual*.

Teaching the Units

How the Units Are Organized

The *Writing Performance Task Preparation Guide* includes three units: Narrative Writing, Informative/Explanatory Writing, and Opinion Writing. Each unit includes a Guided Practice Performance Task and one week of lessons. During the one week of lessons, the students complete the Guided Practice Performance Task as a class with support from you.

GUIDED PRACTICE PERFORMANCE TASK

The Guided Practice Performance Tasks in this guide are designed to elicit the same types of thinking that will be required of students when completing standards-based writing performance tasks. These tasks require each student to gather and evaluate information about a given topic from multiple sources, use the information to answer research questions, and then produce an extended piece of writing.

Each performance includes teacher directions, student directions, source materials, graphic organizers, research questions, and scoring rubrics for the research questions. The tasks are not computerized and can be administered in a classroom environment using pencils, paper, and other classroom resources.

LESSONS

Each one-week unit consists of five days of lessons. During the lessons, the students work as a class, in pairs, and independently to complete each portion of a performance task. As the students progress through the lessons, they are introduced to and then practice using strategies such as asking themselves questions about a source while reading, rereading a source, and rereading and analyzing their writing. These strategies help the students:

- Check for comprehension while reading or viewing a variety of sources (a video, articles, a blog, a radio interview transcript, a letter to the editor, a travel brochure, and a map)
- Take notes from the sources and use graphic organizers to sort and record information
- Analyze directions to determine what they are being asked to do
- Evaluate, interpret, and integrate information from multiple sources to answer research questions
- Write cohesive pieces using the characteristics of good writing for the genre
- Evaluate their writing for characteristics of good writing and for elements of the genre

Day 1 The students discuss the purpose of a performance-based writing assessment and the importance of doing their best on the assessment. They think about what they have learned about the characteristics of good writing and the elements of the genre. Then the students are introduced to the topic they will write about. They are provided with one or more sources about the topic and learn to stop occasionally when reviewing the source(s) to ask themselves questions about what they are learning. In pairs, they take notes on the source(s) and they each use a graphic organizer to sort and record information from the source(s).

Day 2 The students are introduced to one or more additional sources, and they use the strategies from Day 1 to analyze what they have learned from the source(s). They again work in pairs to take notes, and they each use a graphic organizer to record and organize information from the source(s).

Day 3 The students learn how to analyze three research questions to determine exactly what each question is asking them to do. They work in pairs to generate answers to the questions and then write their own answers to each question using information from the sources and their notes. With guidance from you, the students review their answers to make sure that they have crafted quality responses to each question.

Day 4 The students focus on using information from the sources, with the aid of their notes and their answers to the research questions, to each write a cohesive piece in response to a provided writing assignment. First, the students analyze the writing assignment to determine what it is asking them to do. Then you model writing the first few paragraphs of your own piece using information from all of the sources. (You can write your own piece or use the model provided in the lesson.) The students talk with their partners about what they might write and then write their own pieces.

Day 5 On the final day, you share your completed piece with the students. (You can use your own piece or the model provided in the lesson.) As you share, you point out how you incorporated what you know about good writing and how you met the requirements of the writing assignment. The students then analyze their own writing for the qualities of a well-written piece during a guided rereading, facilitated by you.

Planning and Teaching the Lessons

The units in this guide can be taught in any order; however, we recommend teaching each unit after you complete the corresponding genre unit in the *Teacher's Manual*. (For a suggestion on how to include the units in this guide in your instruction for the year, see the Sample Calendar on page xxxiii of the *Teacher's Manual*.)

To prepare to teach the lessons, begin by reading the unit's introductory pages. The unit's opening page introduces you to the topic of the Guided Practice Performance Task and acquaints you with the goals of the unit, while the Overview table provides a general outline of the unit. The Resources list specifies the physical materials and the supplemental activities

for the entire unit, while the Online Resources list indicates all of the materials that are available digitally on the CCC Learning Hub (ccclearninghub.org).

Next, read the writing and social development focuses in the Week Overview. The Do Ahead section alerts you to special requirements for the week and any preparations you should make ahead of time. Preview the lessons and note how the instruction supports the unit’s writing and social development focuses from lesson to lesson. Also note the lessons that may require an extended class period.

USING A GUIDED PRACTICE PERFORMANCE TASK AS A PRACTICE TEST

Since the students complete each Guided Practice Performance Task with extensive support from you and in collaboration with their partners, the students’ writing is not scored. However, if you feel that your students are ready to complete a performance task independently after completing two of the units, the final Guided Practice Performance Task in this guide can be administered as a practice test. Simply administer the final performance task without the instructional support.

Scoring the Students’ Writing If you choose to administer one of the Guided Practice Performance Tasks as a practice test, the research questions in Part 1 can be scored using the rubrics included at the end of the performance task. (For an example, see “Scoring Rubrics for Research Questions” on page 91.)

We recommend that you score the students’ writing using your state test’s writing rubric, which will identify the elements of writing emphasized in your state. The qualities of good writing emphasized in this guide are those taught and practiced throughout the *Being a Writer* program: writing a strong opening and closing; using transition words, sensory details, and interesting words; including elements of the genre; following writing rules for punctuation, spelling, grammar, and capitalization; and clear organization. If your state test’s writing rubric emphasizes other elements, you might incorporate instruction of those elements in the lessons by modeling their use during the teacher modeling in Day 4 of each unit.

Narrative Writing

During this one-week unit, the students prepare for the narrative writing portion of a standards-based end-of-year writing performance task. They discuss what they have learned about narrative (fiction) writing and complete a practice performance task as a class, guided by the teacher. The task requires the students to each write a story about taking an imaginary trip to Washington, D.C., during which they visit some of the city's monuments and memorials. To learn about the monuments and memorials, the students look at a map of the city, watch a video, and read a brochure. They each take notes about what they learn, and use information from the sources and their notes to answer research questions and write their stories. Socially, the students listen respectfully to the thinking of others and share their own, make decisions with their partners, and explain their thinking.

Week

OVERVIEW

“National Mall and Memorial Parks” map (BLM1)

The monuments and memorials of the National Mall and Tidal Basin can be located on this map of Washington, D.C.

“Monuments of Washington, D.C.” brochure (BLM4)

Eight memorials are described in this brochure for visitors to the National Mall and Tidal Basin area of Washington, D.C.

“Lincoln Memorial” video (IV1)

A park ranger describes the Lincoln Memorial and shares his memories from the first time he visited the memorial.

Writing Focus

- Students reflect on what they have learned about narrative (fiction) writing.
- Students view and discuss a map about the topic.
- Students watch a video and read a brochure about the topic, and take notes.
- Students answer research questions about the topic, and plan and write stories.
- Students revise and proofread their writing.

Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students make decisions together.
- Students explain their thinking.

DO AHEAD

- ✓ Prior to Day 1, read “Guided Practice Performance Task: Narrative Writing” on pages 34–38. This unit’s lessons are based on this guided practice performance task. During the unit, the students complete this performance task with instructional support and guidance from the

teacher. For more information about how the performance task is used in the lesson, see “About the Guided Practice Performance Task” on page 6.

- ✓ Prior to Day 1, familiarize yourself with the content of the “National Mall and Memorial Parks” map (BLM1) and locate the sights referenced in the lesson.
- ✓ Prior to Day 1, watch the video “Lincoln Memorial” (IV1). Familiarize yourself with the content of the video and practice stopping at the points listed in the lesson (see Day 1, Step 5 on page 9).
- ✓ Prior to Day 1, prepare several sheets of chart paper so that they resemble the “Video and Brochure Notes” graphic organizer (BLM2) the students will use on Days 1 and 2.
- ✓ Prior to Day 1, visit the CCC Learning Hub (ccclearninghub.org) to access and print the student handouts (see “Reproducibles” on page 2). Make a class set of copies of each handout listed, except for the “Student Directions for Part 1” (BLM3). Make extra copies of the “Video and Brochure Notes” graphic organizer (BLM2), as students will need more than one sheet.
- ✓ Prior to Day 1, prepare a class set of writing folders for the students to use to organize their materials throughout the week.
- ✓ Prior to Day 2, read the brochure “Monuments of Washington, D.C.” (BLM4) to familiarize yourself with the content.
- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA1) on page 52.
- ✓ Prior to Day 3, prepare a sheet of chart paper so that it resembles the “Research Questions” sheet (BLM5) the students will use. You may want to write each question on a separate piece of chart paper.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2) on page 53.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA3) on page 54.

“A good head and good heart are always a formidable combination. But when you add to that a literate tongue or pen, then you have something very special.”

— Nelson Mandela

As your students approach the day of the end-of-year writing performance task, take a step back and view the larger picture. Naturally you want your students to do well on the test. Beyond the demands of this particular test, what are your hopes for your students as writers? How do you hope that having a “literate pen” combined with a good head and a good heart will serve each of them? Write in your journal about your aspirations for your students. Consider sharing your writing with your students.

Day 1

Viewing a Map, Watching a Video, and Taking Notes

Materials

- Copy of the “National Mall and Memorial Parks” map (BLM1) for each student
- “Lincoln Memorial” video (IV1)
- Chart paper and a marker
- “National Mall and Memorial Parks” chart (WA1)
- “Video and Brochure Notes” chart, prepared ahead
- Several copies of “Video and Brochure Notes” graphic organizer (BLM2) for each student
- A writing folder for each student

Teacher Note

We recommend that you teach this unit after the class completes the Fiction genre unit.

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 5 and then finish the lesson later in the day or the next day.

Teacher Note

The partners you assign today will stay together for the entire unit.

In this lesson, the students:

- Work with new partners
- Reflect on what they know about good narrative (fiction) writing
- View and discuss a map
- Watch and discuss a video
- Take notes on the video as a class and in pairs
- Explain their thinking

ABOUT THE GUIDED PRACTICE PERFORMANCE TASK

During this unit, the students complete a narrative writing performance task as a class with instructional support from you. The purpose for this guided practice performance task is to prepare the students for standards-based end-of-year performance tasks they will be required to complete independently. Five days of instruction are provided during which the students’ writing is neither timed nor scored. This unit’s performance task is not computerized and can be administered in a classroom environment, using pencils, paper, and other classroom resources.

The topic of the performance task is taking an imaginary trip to Washington, D.C., to visit the city’s monuments and memorials. The task consists of three sections: an Introductory Classroom Activity (students are introduced to the topic and examine two sources), Part 1 (students examine an additional source and answer research questions about the topic), and Part 2 (students write their own stories). For more information about each section, see “Task Overview” on page 34. For the complete performance task on which this unit’s instruction is based, see “Guided Practice Performance Task: Narrative Writing” on pages 34–38.

GETTING READY TO WRITE

1 Pair Students and Introduce the Performance Task

Randomly assign partners and make sure they know each other’s names. Have the students bring their pencils and sit at desks with partners together.

Tell the students that at the end of the school year, all the students in their grade will complete a reading and writing assignment called a *performance task*. (You might explain that a *task* is a “job that needs to be done.”) Explain that the purpose for the performance task is to show how well they are developing and growing as readers and writers. This is important information for them as students, as well as for their families, teachers, and principal.

Remind the students that for the past several weeks they have been doing fiction writing. Explain that fiction writing is sometimes called narrative writing and that a narrative is a story. Tell the students that narrative, or story, writing is one type of writing they will do on the end-of-year performance task. Explain that during the next several days, they will learn strategies for doing well on the narrative writing portion of the performance task.

2 Discuss What the Class Has Learned About Narrative Writing

Point out that the students have learned a lot about how to write good narrative, or fiction, pieces, and explain that they can use what they have learned to help them do well on the performance task. Ask and discuss the questions that follow as a class. Encourage the students to use the discussion prompts they have learned as they talk to one another.

- Q *What have you learned about good narrative, or fiction, writing?*
- Q *What did you do to make your narrative piece interesting and easy to read?*

Students might say:

“It gets the reader hooked right from the beginning of the story.”

“I agree with [Johan]. I also think it has interesting characters and events.”

“Sometimes it includes dialogue.”

“It describes where the story is happening.”

“In addition to what [Johan and Lara] said, it stays focused and makes sense.”

As the students respond, record their ideas on a sheet of chart paper titled “What We Have Learned About Narrative Writing.” If the students do not mention the following qualities of good narrative writing, briefly review them and add them to the chart.

Teacher Note

You might explain to the students that narrative writing can be about true events from their own lives, which we call *personal narrative*, or about fictional (made-up) events. For the next several days, they will be focusing on fictional narratives.

Teacher Note

The discussion prompts are:

- “I agree with _____ because...”
- “I disagree with _____ because...”
- “In addition to what _____ said, I think...”

What We Have Learned About Narrative Writing

- Begins with an opening that makes the reader want to keep reading
- Includes interesting characters and events
- Describes the setting of the story
- Has a chronological sequence of events
- Sometimes includes dialogue
- Stays focused and makes sense
- Uses sensory details
- Establishes a point of view
- Follows writing rules for spelling, punctuation, capitalization, and grammar

Tell the students that you will post the chart where everyone can see it so that they can keep what they have learned about good narrative writing in mind as they prepare for the narrative writing performance task.

3 Introduce the Topic of the Guided Practice Performance Task

Explain that today you will introduce the students to the topic of the performance task, and they will look at a map and see a video about the topic. In the coming days, they will learn more about the topic by reading a brochure. Then, as a class, they will use what they learned to answer research questions and write stories about the topic.

Tell the students that they are going to learn and then write about some of the monuments and memorials they might see if they took an imaginary trip to our nation's capital, Washington, D.C. Explain that the sources will focus on the major monuments and memorials in an area called the National Mall and the nearby Tidal Basin.

Write the words *monument* and *memorial* where everyone can see them. Explain that a *monument* is “something that is built in memory of a person or event.” Point out that *memorial* comes from the word *memory* and explain that a *memorial* is “something that keeps memories alive.” A holiday can be a memorial, such as Presidents’ Day or Martin Luther King, Jr. Day. A monument is also a type of memorial. For example, the Washington Monument is a memorial that was built to help us remember and honor George Washington.

4 Introduce and Discuss the Map

Tell the students that the first source of information they will look at is a map of Washington, D.C., that shows the monuments and memorials of the National Mall and Tidal Basin. Display the “National Mall and Memorial Parks” chart (📄 WA1) and distribute a copy of the map (BLM1) to each student. Point to the Lincoln Memorial on the left (west) side of the map, and explain that the Lincoln Memorial Reflecting Pool, the World War II Memorial, and the Washington Monument are located to the right (east) of the Lincoln Memorial. Point to the Tidal Basin and tell the students that several monuments are located around the Tidal Basin, including the Martin Luther King, Jr. Memorial, the Franklin Delano Roosevelt Memorial, and the Thomas Jefferson Memorial. Ask:

Q *What questions do you have about the map of Washington, D.C.?*

Explain that the students will learn more about Washington, D.C., by watching a video and reading a brochure about several of the monuments and memorials on this map.

5 Introduce the Video and Watch It with Stops

Tell the students that they will watch a video called “Lincoln Memorial.” Explain that in the video, a ranger shares some of the thoughts and feelings he had the first time he visited the Lincoln Memorial, and he also describes details about the memorial. Explain that you will play the video and stop it three times. At each stop, you will ask the students to talk in pairs about what they learned. Play the “Lincoln Memorial” video (📺 IV1), stopping after:

1:27 “. . . because everything is not right there in front of you. You have to search for a few things.”

Ask and briefly discuss:

Q *What did you learn about the Lincoln Memorial in the portion of the video you just saw? Turn to your partner.*

Without sharing as a class, continue to play the video. Following the same procedure, have the students discuss what they learned at the following stops:

2:50 “It’s almost as if that open hand is there to shake the hand of the South.”

4:05 “. . . and it makes perfect sense for him to be seated upon our American flag.”

Teacher Note

You might explain that a *source* is “something that information comes from, such as a book, video, website, or article.”

Teacher Note

A time bar is not provided in the “Lincoln Memorial” video, so the elapsed time shown for each stop is approximate.

WRITING TIME

6 Watch the Video Again and Take Notes as a Class and in Pairs

Post the “Video and Brochure Notes” chart that you prepared ahead and distribute a copy of the “Video and Brochure Notes” graphic organizer (BLM2) to each student.

Tell the students that you will play the video again, and that as a class and in pairs, they will use this note-taking chart, called a *graphic organizer*, to take notes on what they are learning about the Lincoln Memorial. Point out that the left-hand column is where they will write the name of the memorial as well as details and descriptions about it. Have the students write *Lincoln Memorial* in the left-hand column and underline it. Explain that they will list details and descriptions of the memorial below the name of the memorial or monument. Then point out the right-hand column and tell the students that this is where they will write any thoughts or feelings they might have if they were to visit the memorial. Explain that this information will be useful when they plan and write their stories about visiting the monuments of Washington, D.C.

Explain that you will stop the video three times, as you did before, and that at each stop, the students will discuss what they have learned and what thoughts and feelings they might have if they visited the Lincoln Memorial.

Play the video “Lincoln Memorial” (🎞 IV1), stopping after:

1:27 “... because everything is not right there in front of you. You have to search for a few things.”

Discuss as a class:

- Q *What did you learn about the Lincoln Memorial in the portion of the video you just saw?*
- Q *What thoughts or feelings might you have if you were visiting the Lincoln Memorial? Why?*

Students might say:

“I learned that there are names of states at the top of the Lincoln Memorial. I think I would feel proud if my state was there.”

“I would be excited to visit the Lincoln Memorial because Abraham Lincoln is a president I want to learn more about.”

“There are special details of the memorial that you have to look carefully to see.”

As the students respond, model writing their responses as notes in the appropriate places on the chart, and have the students copy the notes onto their own graphic organizers.

Teacher Note

You may want to review that notes are most helpful when they are brief and written in the writer’s own words rather than copied exactly from the source.

Using the same procedure, watch the next section of the video; stop the video to discuss what the students learned as a class, and model taking notes. Stop after:

2:50 "It's almost as if that open hand is there to shake the hand of the South."

At the last stop, have the students discuss what they learned in pairs (rather than as a class) and ask them to record their notes on their graphic organizers. Stop after:

4:05 "... and it makes perfect sense for him to be seated upon our American flag."

Have a few volunteers share what they discussed and what notes they recorded on their graphic organizers. As they share, add their ideas to the chart.

Tell the students that tomorrow they will read a brochure that describes several other monuments and memorials in Washington, D.C. Explain that the students will add notes on what they learn about other monuments and memorials to this graphic organizer.

Distribute a writing folder to each student and explain that this is where the students will keep all of their materials for the week. Have the students put their materials inside their folders and keep them in their desks.

Teacher Note

Save the “What We Have Learned About Narrative Writing” chart and the “Video and Brochure Notes” chart to use throughout the unit.

Day 2

Reading a Brochure and Taking Notes

Materials

- Copy of the brochure “Monuments of Washington, D.C.” (BLM4) for each student
- “Lincoln Memorial” video (IV1) from Day 1
- “Student Directions for Part 1” chart (WA2; also available as BLM3)
- “Video and Brochure Notes” chart from Day 1, additional page(s) of the chart (prepared ahead), and a marker
- “Monuments of Washington, D.C.” chart (WA3)
- Extra copies of “Video and Brochure Notes” graphic organizer (BLM2) for students, if needed
- “Class Assessment Record” sheet (CA1)

Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 4 and then finish the lesson later in the day or on the next day.

SHARING AND REFLECTING

7 Reflect

Ask and briefly discuss:

Q *What did you and your new partner do to work well together today?*

In this lesson, the students:

- Review what they have learned about the Lincoln Memorial
- Read and discuss a brochure about monuments in Washington, D.C.
- Take notes on the brochure in pairs
- Make decisions together
- Work in a responsible way

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Review that the students are working together to complete a narrative writing task about visiting monuments in Washington, D.C., to prepare for the end-of-year performance task. Remind the students that yesterday they discussed what they have learned about good narrative writing. They also saw a video about the Lincoln Memorial, discussed it as a class, and took notes about what they learned. Explain that today the students will learn more about the monuments and memorials in Washington, D.C.

2 Introduce Student Directions for Part 1

Display the “Student Directions for Part 1” chart (WA2). Explain that these are directions for the first part of the performance task, in which the students watch the video again, read a brochure about the monuments in Washington, D.C., and write responses to research questions. Tell the students that, because they are working together

to practice for the end-of-year assessment, they will not follow these directions exactly. For example, you will read the brochure aloud, rather than have the students read it on their own, and they will take more time than the directions say to complete the step. Explain that when the students do performance tasks on their own later, they will follow the directions exactly.

3 Watch the Video Again and Discuss What the Students Learned

Direct the students' attention to the "Video and Brochure Notes" chart from Day 1. Briefly review the notes by asking:

Q *What is something we learned about the Lincoln Memorial from the video?*

Explain that you will show the video again without stops. Ask the students to listen and watch for information about the Lincoln Memorial that they missed yesterday and might want to add to their notes.

Play the "Lincoln Memorial" video (🎥 IV1). Ask and briefly discuss:

Q *What more did you learn about the Lincoln Memorial?*

Have a few volunteers share their thinking with the class. As appropriate, add their ideas to the chart and have the students copy the information onto their graphic organizers.

Students might say:

"I heard that the statue shows Lincoln during the middle of the Civil War, thinking about how to keep the country together."

"In addition to what [Dylan] said, I learned that there are stars on the American flag to the left of Lincoln's right leg."

4 Introduce the Brochure and Read It Aloud with Stops

Tell the students that now they will read a brochure titled "Monuments of Washington, D.C." Explain that the brochure includes photos and descriptions of eight memorials near the Lincoln Memorial Reflecting Pool and around the Tidal Basin that a person who is visiting Washington, D.C., might wish to see. It also includes information about the famous cherry trees in the area. Display the "Monuments of Washington, D.C." chart (🎥 WA3) and distribute a copy of the brochure (BLM4) to each student. Remind the students that for this task you will read the brochure aloud, but when they do performance tasks on their own they will read any source materials independently. Ask them to follow along as you read the brochure aloud, and explain that you will stop during the reading to have pairs discuss what they are learning.

Read the title of the brochure and the information about the cherry trees, the Lincoln Memorial, and the Washington Monument aloud, slowly and clearly. Stop after:

"The walls at the base are 15 feet thick and ringed by a circle of American flags."

Teacher Note

The purpose for showing the "Student Directions for Part 1" chart (WA2) is to briefly introduce the students to the type of directions they will encounter when they complete performance tasks by themselves. It is not necessary to take the students through all the directions now. They will have the experience of "following" the directions over the next few days. As you complete various parts of the directions, you might redisplay the chart and point out the steps the students have completed.

Ask:

Q *In the part of the brochure you just heard, what did you learn about the sights and monuments you might see if you visited Washington, D.C.? Turn to your partner.*

Without sharing as a class, continue reading the brochure. Follow the same procedure to have the students discuss what they learned at the next two stops:

“The statue shows the strength of King, who inspired a nation—and the world.”

“The memorial is set in a hillside amid the greenery of Constitution Gardens, near the Lincoln Memorial.”

WRITING TIME

5 Reread the Brochure and Take Notes in Pairs

Direct the students’ attention to the “Video and Brochure Notes” chart from Day 1 and explain that you will add notes to this graphic organizer. Explain that as you read the brochure again you will stop, and partners will discuss what more they learned and then write notes in the appropriate places on their own graphic organizers. Remind the students that they will use the notes later to help them answer research questions and write stories about visiting Washington, D.C.

Read the brochure and stop (as you did before) after:

“The walls at the base are 15 feet thick and ringed by a circle of American flags.”

Ask the following questions one at a time, without discussing them as a class:

Q *In the part of the brochure you just heard, what more did you learn about the sights and monuments you might see if you visited Washington, D.C.?*

Q *What thoughts or feelings might you have while visiting the sights and monuments described in the brochure? Why?*

Say “Turn to your partner,” and give partners a few minutes to share their thinking and write notes about what they learned on their graphic organizers.

After a few minutes, ask volunteers to share their thinking about what they learned and what notes they recorded on their graphic organizers. Then add their ideas to the chart.

Using the same procedure, stop, discuss, and have partners take notes at the following places in the brochure:

“The statue shows the strength of King, who inspired a nation—and the world.”

“The memorial is set in a hillside amid the greenery of Constitution Gardens, near the Lincoln Memorial.”

As the students work, circulate, observe, and offer assistance.

Teacher Note

When you have completely filled the first “Video and Brochure Notes” chart with your notes, model continuing your note-taking on a second sheet of prepared chart paper. Tell the students that if they fill one graphic organizer with notes, they can continue taking notes on a second graphic organizer.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners able to agree about what information to include in their notes?
- Are they able to describe their thoughts and feelings about the sights and monuments?
- Are they writing notes in their own words?

If you notice many students having difficulty writing notes, call for the class's attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate place on the chart. As necessary, encourage the students to reread the brochure to collect the information they need.

Record your observations on the "Class Assessment Record" sheet (CA1); see page 52.

Tell the students that tomorrow they will work together, using the sources and their notes, to answer research questions about the monuments and memorials of Washington, D.C. Have them put their materials inside their folders.

SHARING AND REFLECTING

6 Reflect

Ask and briefly discuss:

- Q *Why do you think it is a good idea to read a source more than once, like we did today?*
- Q *What did you do today to work in a responsible way?*

Teacher Note

Save the “Video and Brochure Notes” charts to use throughout the rest of the unit.

Day 3

Writing Responses to Research Questions

Materials

- “Video and Brochure Notes” charts from Day 2
- “National Mall and Memorial Parks” chart (WA1) from Day 1
- “Monuments of Washington, D.C.” chart (WA3) from Day 2
- “Research Questions” chart, prepared ahead
- Copy of “Research Questions” sheet (BLM5) for each student
- A marker
- “Class Assessment Record” sheet (CA2)

In this lesson, the students:

- Read and discuss research questions about the monuments of Washington, D.C., as a class
- Identify words in the questions that give clues about what to write
- Write responses to the questions as a class and independently
- Reflect on and revise their responses

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Remind the students that they are learning strategies they can use to do well on the end-of-year performance task. Refer to the “Video and Brochure Notes” charts from Day 2 and review that the students looked at a map, watched a video, read a brochure about Washington, D.C., and took notes about what they learned. Explain that today they will use their notes and the sources to answer research questions about Washington, D.C.

2 Model Reading a Question and Writing a Response

Post the “Research Questions” chart that you prepared ahead. Distribute a copy of the “Research Questions” sheet (BLM5) to each student, and have the students write their names and the date on their sheets. Explain that these are the questions the students will answer in Part 1 of the performance task.

Tell the students that the first step in writing a response to a question is to read and think carefully about the question. Point to Question 1 on the chart and ask the students to listen closely as you read it aloud twice. Discuss:

Q *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, point out that the question is asking you to describe how you would “use the map and the brochure to plan your day” if you were visiting the monuments. Underline that phrase on the chart.

Ask the students to watch as you model writing a response to the first question on the chart, thinking aloud as you write. Be sure to model reviewing your notes, the map, and the brochure for the information you need.

You might say:

“I know that the question is asking how I would use the map and brochure to plan a day of visiting the monuments. The brochure describes the monuments, which will help me choose which ones I am most interested in seeing. I’ll write: *I’d use the brochure to pick the monuments I want to see the most.* The map shows where the monuments are located, so I would use it to decide which route to take to see the monuments. I’ll write: *I would look at the map to see where they are. Then I could decide the best order to visit them. Maybe there would be time to see more monuments if they are close together.*”

Research Questions

1. If you were going to visit the monuments for a day, how would you use the map and the brochure to plan your day?

I’d use the brochure to pick the monuments I want to see the most. I would look at the map to see where they are. Then I could decide the best order to visit them. Maybe there would be time to see more monuments if they are close together.

3 Read and Discuss Questions as a Class

Explain that the students will read and discuss Questions 2 and 3 as a class. Then, during Writing Time, the students will work in pairs to discuss what they might write in response to those questions, and each write their own responses on their “Research Questions” sheet.

Teacher Note

You may want to display the map (WA1) or the brochure (WA3), if needed.

The consortia that are developing the end-of-year performance tasks plan to deliver the assessment electronically. This means that individual students will have computer or tablet access to all research sources, including videos, as they respond to questions and write extended pieces.

Point to Question 2 on the “Research Questions” chart and read it aloud twice. Ask and discuss:

Q *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, explain that the question is asking for two pieces of information: “which monument interested you the most” and “two reasons why.” Underline those key phrases on the chart.

Follow the same procedure to discuss Question 3 as a class. If necessary, explain that the question is asking for a description of what you might see while standing on the steps of the Lincoln Memorial and for details from the sources. On the chart, underline “standing on the front steps of the Lincoln Memorial” and “details from the sources.”

WRITING TIME

4 Discuss Questions in Pairs and Write Answers

Have partners discuss what they might write in response to Questions 2 and 3. Review that each student will write his own response to the questions on his “Research Question” sheet. Remind the students to use details from their notes and from the map and brochure in their responses. As the students work, circulate, observe, and offer assistance.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students’ responses indicate that they understand what each question is asking?
- Are they able to incorporate details from their notes and the sources in their responses?

If you notice the students struggling to write responses, support them by asking questions such as:

Q *What information is the question asking for?*

Q *Where in your notes can you find that information? Where in the source can you find that information?*

Q *How might you include information from your notes and the sources in your answer?*

Record your observations on the “Class Assessment Record” sheet (CA2); see page 53.

5 Facilitate Guided Rereading and Revising of Responses

Tell the students that they will now reread their responses to Questions 2 and 3 and then reflect on the quality of their responses by thinking about the questions you will ask.

Have the students quietly reread their responses to Question 2 and look up when they are finished. Ask the following questions one at a time, pausing after each one to give them a moment to review their writing and, if necessary, their sources and notes:

- Q *Does your response clearly state the monument that interested you the most? If not, what might you write instead?*
- Q *Does your response include at least two reasons why the monument interested you? If not, what might you add or take out to improve it?*

Without discussing as a class, have the students revise their responses as necessary. Remind them to refer to the map, brochure, and their notes if needed.

Using the same procedure, ask the following questions and then have the students reflect on and revise their responses to Question 3:

- Q *Do you think your response clearly describes what you see while standing on the steps of the Lincoln Memorial? If not, what might you add or take out to improve it?*
- Q *Do you think your response includes enough details from the sources? If not, what details might you add?*

SHARING AND REFLECTING

6 Share Responses and Reflect

Have a few volunteers share with the class what they wrote in response to Question 2. As they share, use their ideas to model writing a well-crafted response to the question on the “Research Questions” chart.

Following the same procedure, model writing a response to Question 3.

Teacher Note

You may want to display the map (WA1) or the brochure (WA3), if needed.

Research Questions

2. Which monument interested you the most? Give at least two reasons why based on the information provided in the sources.

I liked the Martin Luther King, Jr. Memorial the best. I like what he did for civil rights. I also like the way it looks like he is part of a big rock.

3. Imagine you are standing on the front steps of the Lincoln Memorial. You are facing away from the memorial, with your back toward Lincoln. Use details from the sources to describe what you see.

From the steps, I can see the memorial in the Reflecting Pool. At the end of the pool is the World War II Veterans Memorial. In the distance I can see the Washington Monument because it's so tall.

Have the students reflect on their work by asking:

- Q** *Do you think your notes helped you write good responses to the questions? Why or why not?*

Tell the students that tomorrow they will use the sources, their notes, and their answers to the research questions to each write a story about visiting Washington, D.C. Have them put their materials inside their folders.

Teacher Note

Save the "Research Questions" chart to use on Day 4.

In this lesson, the students:

- Plan and write stories about visiting the monuments and memorials of Washington, D.C.
- Include qualities of a well-written narrative in their writing
- Reflect on how they felt about writing their stories
- Listen respectfully to the thinking of others

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Point to the “Research Questions” chart and remind the students that yesterday they completed the first part of the guided practice performance task—answering questions about the monuments and memorials of Washington, D.C. Explain that today pairs will work together on the second part of the task—writing stories about visiting the monuments and memorials of Washington, D.C.

2 Introduce and Discuss the Story-writing Task

Display the “Student Directions for Part 2” chart (WA4) and distribute a copy of the directions (BLM6) to each student. Explain that these are directions for the second part of the performance task, in which the students each write a story about visiting the monuments and memorials of Washington, D.C. Review that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, they will take more time than the directions say to write their stories. Remind the students that when they do performance tasks on their own, they will need to follow the directions exactly.

Ask the students to listen as you read each section of the directions aloud, using the following procedure:

1. Read the section “Your Task” aloud and review that the students may use the map, the brochure, their notes, and their answers to the research questions to help them write their stories. Remind the students that when they do performance tasks on their own they will be timed, but that today they will not be.

Materials

- “Student Directions for Part 2” chart (WA4)
- Copy of “Student Directions for Part 2” (BLM6) for each student
- “Video and Brochure Notes” and “Research Questions” charts from Day 3
- “National Mall and Memorial Parks” chart (WA1) from Day 3
- “Monuments of Washington, D.C.” chart (WA3) from Day 3
- Lined writing chart (WA5) for modeling
- “Writing Time” chart (WA6)
- Supply of lined paper for writing stories
- “Class Assessment Record” sheet (CA3)

Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 3 and then finish the lesson later in the day or the next day.

TEKS 11.A.i
Student/Teacher Narrative
Steps 2 and 3

2. Read the section “Your Writing Assignment” aloud and review that each student needs to write a story about visiting the monuments and memorials of Washington, D.C., in the springtime. Remind them that they can write their stories in any way they want, but that they need to include visits to at least three monuments or memorials.
3. Read the section “Begin Work on Your Narrative” aloud, point out the information that is relevant for this performance task (for example, “plan,” “write,” and “revise”), and underline it.
4. Read the list of qualities of a well-written narrative aloud. Point out that the list is similar to the list the class created on the “What We Have Learned About Narrative Writing” chart. Tell the students that they may refer to both lists as they write their stories.

Ask and briefly discuss:

Q *What questions do you have about the directions for writing the story?*

Tell the students that they will do the writing task together as a class, and that this will help prepare them to do tasks like this on their own.

3 Model Planning and Starting the Story

Tell the students that you will model writing the first two paragraphs of the story. Remind them that the story needs to describe a visit to at least three monuments or memorials in Washington, D.C., during the springtime, and that it needs to include details from the sources. Explain that you will write an opening paragraph to introduce the setting and the focus of the story, and then you will write a paragraph about visiting the first memorial. Direct the students’ attention to the qualities of a well-written narrative in the directions (BLM6) and explain that as you write the story, you will include these qualities in your writing.

Display the lined writing chart (C WA5) and model writing a paragraph that introduces the setting and the focus of the story. Then write a paragraph about visiting one of the memorials. Think aloud as you write, and remember to model reviewing your notes and the sources to find the information you need. Be sure to include qualities of a well-written narrative, such as a setting and story focus, and descriptions and sensory details.

You might say:

“My opening paragraph needs to introduce readers to the setting and the focus of the story and make them want to keep reading. My story is going to be about an imaginary trip to visit my best friend, Laney, in Washington, D.C. I’ll write: *During spring break, I visited my best friend, Laney, who moved to Washington, D.C., with her family last summer. I flew there on a plane all by myself! It was a great trip.* This shows I understood the assignment because my story is about visiting Washington, D.C., in the springtime. I think the sentence *It was a great*

trip will get readers hooked and make them want to know more about what happened on the trip. I need to introduce readers to the focus of the story, which is visiting the monuments and memorials, so I'll write: *On the first day, I went with Laney and her parents to visit several monuments and memorials near the National Mall and Tidal Basin.*

My next paragraph will describe what I saw when we arrived at the Tidal Basin area and visited the Washington Monument. I will use the information from my notes and the brochure to describe the cherry trees. I'll write: *When we first arrived at the Tidal Basin, I was so glad to be visiting in spring because there were cherry trees in bloom everywhere. The pink and white blossoms were so pretty.* I think the description of the blossoms will help readers picture the setting in their minds. Now I'll introduce readers to the first monument we visit in the story. I'll write: *There were dozens of cherry trees in bloom near one of my favorite sights, the Washington Monument.* In my notes about the Washington Monument, I wrote that it is 555.5 feet tall. I think that's an interesting detail to include. I'll write: *I've seen many pictures of this monument, but seeing it in person was really amazing. It is so tall. The ranger told us that it is 555.5 feet tall!* I'd also like to include information about the flags around the monument, so I'll write: *There is also a ring of American flags around the monument. I think this is appropriate because George Washington was our country's first president."*

WA5

Teacher Note

You might remind the students that the setting of their stories needs to be Washington, D.C., in the springtime, but that they may choose any characters and events to include in their stories.

TEKS 11.A.i
Student/Teacher Activity
Step 4

After you have modeled writing the first two paragraphs of the story, stop and explain that during Writing Time today the students will write their own stories. Explain that the students will use their notes and sources to write an opening paragraph and several other paragraphs to describe their visit to Washington, D.C. Use “Think, Pair, Share” to discuss:

Q *What might you write about in your story today?* [pause] *Turn to your partner.*

After a few moments, signal for the students’ attention and remind them that each student will write her own story. Explain that you will also finish your own story and share it with the class tomorrow.

WRITING TIME

4 Write Stories

Explain that when the students complete the actual performance task they will write their stories using a computer, but that today they are practicing on paper. Distribute loose, lined sheets of paper and explain that the students will use this paper to write their stories. Display the “Writing Time” chart (WA6) and have them work quietly for 30–40 minutes. As they work, circulate, observe, and offer assistance.

WA6

Writing Time

- Reread the writing assignment in “Student Directions for Part 2.”
- Write an opening paragraph that introduces the focus of the story and hooks the reader.
- Include interesting characters and events in the story.
- Include sensory details and other qualities of a well-written narrative in your story.
- Write a conclusion that wraps up the story.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Does the students' writing indicate that they understand the task?
- Are they able to introduce the topic and setting in the opening paragraph of the story?
- Does their writing stay on topic?
- Are they able to incorporate information from their notes and the sources into their stories?

If you notice a student having difficulty starting to write after 5–10 minutes, help stimulate his thinking by asking questions such as:

- Q *What is the topic of your story? What might you write to introduce the topic and the setting of the story?*
- Q *How might you use your notes to help you decide what to write in your story?*
- Q *What information from your notes or the sources might you use to describe [the cherry trees]?*

Record your observations on the “Class Assessment Record” sheet (CA3); see page 54.

Signal the end of Writing Time. Tell the students that tomorrow they will have time to revise and proofread their stories. Have them put their stories and other materials in their folders.

SHARING AND REFLECTING

5 Reflect on Writing Stories

Ask and briefly discuss:

- Q *What did you enjoy about writing your story today? What did you find challenging?*
- Q *What did you and your partner do to listen respectfully to each other as you shared ideas about what you might write in your stories?*

Teacher Note

Prior to teaching the Day 5 lesson you will need to write the rest of your story (see the diagram in Day 5, Step 2 on page 29). Include information from the sources, sensory details, and other qualities of a well-written narrative in your story. Save the completed story on the lined writing chart (WA5) to use on Day 5.

Day 5

Revising and Proofreading a Story

Materials

- Completed story on the lined writing chart (WA5) from Day 4
- “Student Directions for Part 2” chart (WA4) from Day 4

In this lesson, the students:

- Revise their stories
- Proofread their stories
- Express interest in and appreciation for one another’s writing
- Reflect on what they have learned and how that will help them on the end-of-year performance task

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Remind them that yesterday they each planned and wrote a story about visiting Washington, D.C. Explain that today they will have the opportunity to revise and proofread their stories.

2 Discuss Your Story

Display your completed story on the lined writing chart (WA5) and tell the students that yesterday you finished your story. Ask them to follow along as you read it aloud. Review that the opening paragraph introduces the focus and the setting of the story and hooks the reader. In the remaining paragraphs, point out the clear organization, the use of sensory details to make the story more interesting, and other qualities of a well-written narrative.

You might say:

“In my first paragraph, I explained that my story would be about visiting my best friend in Washington, D.C., during springtime, and that we spent the first day visiting several monuments near the National Mall and Tidal Basin. I tried to hook the reader by saying *It was a great trip*. I think that will make the reader want to keep reading to find out what happened during my trip.

My story stays focused and the events of the story make sense. After the introduction, I described each of the monuments we visited and how we ended our day with dinner. I stayed on the topic throughout the story.

I included specific information from the sources to describe the monuments. For example, when writing about the Washington Monument, I included its height and mentioned the ring of flags around it. Also, when writing about the Vietnam Veterans Memorial, I described how the wall is built into a hillside.

I used sensory details to describe the setting. For example, in the second paragraph, I described the blossoming cherry trees. I wrote *pink and white blossoms* to help the reader imagine what the trees look like. In the third paragraph, I wrote *the sun was shining and a cool breeze was blowing* to help the reader imagine what it might feel like to be there.

The last sentence, *Visiting Laney in Washington, D.C., was the highlight of my year*, wraps up the story in an interesting way and lets the reader know the story has come to an end."

WA5

During spring break I visited my best friend, Laney, who moved to Washington, D.C., with her family last summer. I flew there on a plane all by myself! It was a great trip. On the first day, I went with Laney and her parents to visit several monuments and memorials near the National Mall and Tidal Basin.

When we first arrived at the Tidal Basin, I was so glad to be visiting in spring because there were cherry trees in bloom everywhere. The pink and white blossoms were so pretty. There were dozens of cherry trees in bloom near one of my favorite sights, the Washington Monument. I've seen many pictures of this monument, but seeing it in person was really amazing. The ranger told us that it is 555.5 feet tall! There is also a ring of American flags around the monument. I think this is appropriate because George Washington was our country's first president.

After the Washington Monument, we walked along the Reflecting Pool to the Vietnam Veterans Memorial. The Veterans Memorial is a wall set in a hillside of Constitution Gardens. Seeing all the names of people who were killed or lost during the war upset me very much. Laney could tell I was feeling sad, so we decided to walk back toward the Reflecting Pool to rest on a bench. The sun was shining and a cool breeze was blowing. We could see that the Lincoln Memorial was very close by, so we decided to make that our last stop before dinner.

(continues)

(continued)

WA5

When we walked up the steps to the Lincoln Memorial, I could hardly believe how big the statue of Abraham Lincoln stood! The ranger told us that the statue shows Lincoln during the Civil War. When I stood on the steps of the Lincoln Memorial, I imagined what it must have been like when Martin Luther King, Jr., gave his famous "I have a dream" speech here so many years ago. Standing there, looking out toward the Reflecting Pool, I felt very grateful for leaders like Abraham Lincoln and Martin Luther King, Jr. I also felt grateful to be able to visit this place that honors our country's leaders and history.

On our way to dinner, I thanked Laney's parents for taking me to see the monuments and memorials. Visiting Laney in Washington, D.C., was the highlight of my year.

WRITING TIME

3 Facilitate Guided Rereading of Stories

Tell the students that they will have time today to finish their stories, but that first they will reread what they have written. Then you will ask some questions for them to think about. Have them quietly reread their writing and look up when they are finished.

Ask the following questions one at a time, giving the students 1–2 minutes after each question to quietly review their writing and mark passages:

- Q *Do you think your opening paragraph does a good job of introducing the setting and the focus of the story? If not, what might you write instead?*
- Q *Do you think the story is clearly focused throughout and that the events develop logically? If you don't think the story is focused, what might you change to make it focused? Underline parts of the story you might change or move around.*
- Q *Are there places where you used, or could use, details from the sources to make your story more interesting? Put a check mark in the margin next to those places.*

- Q *Are there places where you used, or could use, sensory details to describe the setting, characters, or events of the story? Put a star in the margin next to each of those places.*
- Q *Do you think your conclusion does a good job of wrapping up your writing and letting the reader know that the story has come to an end? If not, what might you write instead?*

Without discussing as a class, have the students resume writing for another 10–15 minutes.

4 Facilitate Proofreading of Stories

Display the “Student Directions for Part 2” chart (WA4) and remind the students that it states that a well-written narrative “follows rules for spelling, punctuation, capitalization, and grammar.” Explain that the students will proofread their stories to find and correct any spelling, punctuation, capitalization, and grammar errors. Ask:

- Q *Why will you want to proofread your story before turning it in?*
- Q *What will you check for when you are proofreading?*

Students might say:

“Mistakes could make my writing harder to read and understand.”

“I would check to make sure I’ve capitalized names and the beginning of every sentence.”

“In addition to what [Alanis] said, I want to make sure every sentence ends with a period, a question mark, or an exclamation point.”

“In addition to what [Alanis and Kevin] said, I want to correct any spelling errors I find.”

Give the students 5–10 minutes to proofread their stories and make any necessary corrections. As they work, circulate, observe, and offer assistance.

SHARING AND REFLECTING

5 Share Writing and Reflect

Have a few volunteers share their stories with the class; then ask:

- Q *What qualities of good narrative writing did you notice in [Jaden’s] story?*
- Q *What questions can you ask [Esmeralda] about her writing?*

Review that this week the students have been learning strategies for doing well on the end-of-year performance task. Ask and briefly discuss:

- Q *What have you learned this week that will help you do well on the performance task? Turn to your partner.*

EXTENSIONS

Complete a Diagnostic Proofreading Passage

To assess how your students are progressing with Language Standards, you might choose to administer a Diagnostic Proofreading Passage in Appendix C of the *Skill Practice Teaching Guide* (also see “Assessing Language Skills” on page xi).

Complete a Writing Practice Performance Task Independently

Many states provide a practice performance task that students complete independently. It can be given right after the guided practice, or at a later time.

Introduce the performance task by reminding the students that they spent one week learning about and preparing for the narrative writing portion of the end-of-year writing performance task. Explain that the students will now have the opportunity to do a practice performance task on their own on a different topic, and that they can use what they learned to do their best work on the task. Tell them that they will do this practice performance task under conditions like those they will experience when completing the end-of-year performance task, and that this will help them to be better prepared to do well.

Guided Practice Performance Task

GUIDED PRACTICE PERFORMANCE TASK: Narrative Writing

VISITING THE MONUMENTS OF WASHINGTON, D.C.

Resources

- Task Overview
- Teacher Directions for the Introductory Classroom Activity
- Teacher Directions for Parts 1 and 2
- Scoring Rubrics for Research Questions
- Student Handouts

Task Overview

Introductory Classroom Activity 20 MINUTES

This whole-class activity introduces the students to the topic of the performance task—taking an imaginary trip to Washington, D.C., to visit the city’s monuments and memorials—and helps prepare the students to answer research questions and write a narrative about the topic. As part of this activity, students will look at a map of the National Mall and Tidal Basin titled “National Mall and Memorial Parks” and then view and discuss a video about the Lincoln Memorial titled “Lincoln Memorial.” They will also be reminded of the features of good narrative writing.

During the introductory activity, the teacher will lead a whole-class discussion about the map and the video. The students may take notes using the provided graphic organizer to help them prepare for writing. The students may use their notes from the Introductory Classroom Activity when they plan, write, and revise their own multi-paragraph narratives about visiting the monuments of Washington, D.C., in Part 2.

Part 1 35 MINUTES

The students will view the video again and read a brochure that includes information about the monuments, the memorials, and the famous cherry trees in the area. The students are encouraged to take notes using the provided graphic organizer to help them prepare for writing. Then students will respond to three research questions that require them to analyze, evaluate, interpret, and integrate information.

Part 2 70 MINUTES

The students will plan, write, and revise narratives about visiting the monuments of Washington, D.C. The students may refer to all of the sources from the Introductory Classroom Activity and Part 1, any notes they took, and their answers to the research questions. They may not, however, change their answers to the questions.

Scoring

The research questions in Part 1 can be scored with the rubrics included at the end of this performance task (see “Scoring Rubrics for Research Questions” on page 39). Any notes, prewriting, and drafts will not be scored.

Teacher Preparation

- Make sufficient blank paper and writing tools available for students to use in taking notes. You might make extra copies of the graphic organizers.
- Make a class set of copies of the student handouts on pages 42–50.
- Make dictionaries available to use during Part 2 of the performance task. (Some standards-based assessments are computer-based with many of the student materials, including access to spell-check, available within the testing environment. For the purpose of student practice, the materials for the guided practice performance task have been modified so that they can be administered using pencil, paper, and other classroom resources.)

Teacher Directions for the Introductory Classroom Activity

1 Introduce the Topic

Tell students they are going to learn and then write about some of the monuments and memorials they might see if they took an imaginary trip to our nation’s capital, Washington, D.C. Explain that the sources will focus on the major monuments and memorials in an area called the National Mall and the nearby Tidal Basin.

Write the words *monument* and *memorial* where everyone can see them. Explain that a *monument* is “something that is built in memory of a person or event.” Point out that *memorial* comes from the word *memory* and explain that a *memorial* is “something that keeps memories alive.” A holiday can be a memorial, such as Presidents’ Day or Martin Luther King, Jr. Day. A monument is also a type of memorial. For example, the Washington Monument is a memorial that was built to help us remember and honor George Washington.

2 Examine Sources

Tell the students that the first source for this performance task is a map of the National Mall area in Washington, D.C. Distribute the “National Mall and Memorial Parks” map (see Student Handout 1 on page 42) and explain that it shows where some of Washington, D.C.’s, important memorials and monuments are located. Point out the Washington Monument and the Lincoln Memorial on the map.

Tell students that now they will watch a video about the Lincoln Memorial together and then discuss it as a group. In the video, a ranger for the National Park Service describes the memorial. Distribute the “Video and Brochure Notes” graphic organizer (see Student Handout 2 on page 43), and tell the students that they can take notes about the video as they watch it.

Show the “Lincoln Memorial” video. After viewing the video, lead a whole-class discussion using the following questions:

Question 1: *What did you learn about the Lincoln Memorial from the video?*

Question 2: *What thoughts or feelings might you have if you were visiting the Lincoln Memorial? Why?*

3 Explain the Writing Task

Tell students that in a few minutes they will examine an additional source about monuments and memorials in Washington, D.C. Then the students will use all of the sources, including their notes, to answer some research questions and write their own narrative about visiting the monuments and memorials of Washington, D.C.

Discuss with the students the characteristics of a well-written narrative. A narrative:

- Establishes a setting and story focus
- Establishes a point of view for the narrator
- Stays on focus throughout the narrative
- Has a plot that develops logically
- Uses descriptions and sensory details
- Has a logical conclusion
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

Answer any questions the students might have and then move on to Part 1 of the performance task. Students should keep any notes they took during the Introductory Classroom Activity to help them with their writing.

Teacher Directions for Parts 1 and 2

Part 1 35 MINUTES

1. Distribute copies of the source material, graphic organizer (if needed), student directions, and research questions (see Student Handouts 2–5 on pages 43–49) to each student and have the students write their names on all materials. Note that the students should not receive the directions specific to writing their narrative until Part 2.
2. Tell the students to read “Student Directions for Part 1” (see Student Handout 3 on page 44). Remind the students they will have 35 minutes for Part 1, and then tell them to begin.
3. To help the students plan their time, alert them when 15 minutes and 5 minutes remain in Part 1.
4. Signal to let the students know that Part 1 is over.

BREAK

Part 2 70 MINUTES

1. Distribute a copy of “Student Directions for Part 2” (see Student Handout 6 on page 50) to each student. Make sure the students have access to the printed sources, graphic organizers, and any other notes, as well as their answers to the research questions from Part 1. Remind the students that they may not change the answers to the questions from Part 1.
2. Tell the students to read “Student Directions for Part 2” and explain that their writing assignment is included in these directions.
3. After 15 minutes have elapsed, suggest that the students begin writing their essays.
4. Alert the students when 30 minutes remain.
5. Alert the students when 15 minutes remain, and suggest that they begin revising their essays.

Scoring Rubrics for Research Questions

2-Point Research Rubric

Question 1:

If you were going to visit the monuments for a day, how would you use the map and the brochure to plan your day?

Interpret and Integrate Information	
2	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response states that the brochure can be used to determine which monuments one would like to visit, and the map can be used to figure out a logical order for visiting the monuments in the brochure and for determining how many monuments it's feasible to visit.
1	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response states that the map can be used to locate the monuments.
0	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response is incomplete, incorrect, vague, or completely absent.

Sample 2-Point Response

I'd use the brochure to pick the monuments I want to see the most. I would look at the map to see where they are. Then I could decide the best order to visit them. Maybe there would be time to see more monuments if they are close together.

Sample 1-Point Response

I'd pick three monuments in the brochure and then find them on the map.

Sample 0-Point Response

I'd take the brochure and the map with me.

2-Point Research Rubric

Question 2:

Which monument interested you the most? Give at least two reasons why based on the information provided in the sources.

Use Evidence	
2	The response gives sufficient evidence of the ability to cite evidence to support opinions and ideas. The response expresses a preference and uses details from the sources to support the choice.
1	The response gives limited evidence of the ability to cite evidence to support opinions and ideas. The response states a preference but support for the choice is limited.
0	The response provides no evidence of the ability to cite evidence to support opinions and ideas. The response is incomplete, incorrect, vague, or completely absent.

Sample 2-Point Response

I liked the Martin Luther King, Jr. Memorial the best. I like what he did for civil rights. I also like the way it looks like he is part of a big rock.

Sample 1-Point Response

My favorite memorial is the Washington Monument because it is the tallest.

Sample 0-Point Response

I liked what the ranger said about the Lincoln Memorial.

2-Point Research Rubric

Question 3:

Imagine you are standing on the front steps of the Lincoln Memorial. You are facing away from the memorial, with your back toward Lincoln. Use details from the sources to describe what you see.

Interpret and Integrate Information	
2	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response describes the view across the Reflecting Pool, across the WWII Memorial, and on to the Washington Monument.
1	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response describes some but not all of what can be viewed.
0	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response is incomplete, incorrect, vague, or completely absent.

Sample 2-Point Response

From the steps, I can see the memorial in the Reflecting Pool. At the end of the pool is the World War II Memorial. In the distance I can see the Washington Monument because it's so tall.

Sample 1-Point Response

I can see the Washington Monument in the distance.

Sample 0-Point Response

There are cherry trees all around.

Student Directions for Part 1

Part 1 (35 minutes)

Your Task

You will watch the video of the park ranger at the Lincoln Memorial again, and then you will read a brochure about the monuments and nearby sights. Then you will answer three research questions about what you have learned. In Part 2, you will write a narrative about an imaginary visit to Washington, D.C. You will be able to refer to the sources, your notes, and the answers to the research questions when you write your narrative.

Steps to Follow

In order to plan and write your narrative, you will do the following:

1. Examine the sources.
2. Take notes about the information in the sources using the graphic organizers.
3. Answer three research questions to help you think about key information in the sources.

Directions for Beginning

You will have 35 minutes to examine the sources, take notes, and answer the research questions. Your answers will be scored.

Touring the Cherry Trees

There are about 3,000 cherry trees around the Tidal Basin and on the grounds of the Washington Monument.

Each spring, thousands of residents and visitors from around the world come to view the beautiful pink and white blossoms. The National Cherry Blossom Festival holds an annual parade. Colorful floats, balloons, and bands march down Constitution Avenue. Don't miss it if you're in town!

Rangers from the National Park Service offer programs to teach

visitors about the cherry trees:

Cherry Talks (30 minutes)
Learn about the history of the cherry trees during these daily programs.

Lantern Walks (2 hours)
Enjoy the memorials and blossoms at night. Bring your own flashlight.

Bike Tours (3 hours)
Enjoy the cherry blossoms without all the traffic! Bring your own bike, helmet, and water.

Lincoln Memorial

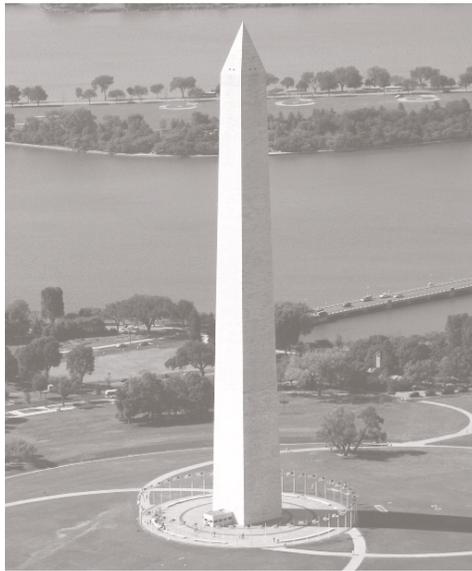

Abraham Lincoln was our 16th president. He served from 1861 until his assassination in 1865. Most visitors will recognize his memorial because it appears on the penny and the five-dollar bill. The 36 columns represent the 36 states in the Union at the time of Lincoln's death.

Inside, a larger-than-life statue of Lincoln looks out over the Reflecting Pool toward the Washington Monument. In 1963, huge crowds stood along the edge of the Reflecting Pool to hear Martin Luther King, Jr., deliver his famous "I Have a Dream . . ." speech. The memorial is especially beautiful at night when Lincoln's statue is bathed in light.

Washington Monument

This monument honors George Washington, our first president. He is often called the "father of our country."

Washington never got to see his monument. Building started in 1848, nearly 50 years after his death, and work stopped during the Civil War. It was finally completed in 1884.

This majestic marble landmark stands at the east end of the Reflecting Pool. The shape of the monument is called an "obelisk." It is 555.5 feet tall. The walls at the base are 15 feet thick and ringed by a circle of American flags.

★ 3

Thomas Jefferson Memorial

Thomas Jefferson was our third president and an author of the Declaration of Independence. His monument overlooks the Tidal Basin. Its columns and dome are similar in style to Jefferson's own home, Monticello. Inside is a 19-foot bronze statue of Jefferson. Some of his most famous writings appear on the walls.

★ 4

Franklin Delano Roosevelt Memorial

Franklin Roosevelt was the 32nd president and the only one to serve four terms. From 1933 to 1945, he led the United States through the Great Depression and World War II. Roosevelt will always be remembered for his inspiring words: "The only thing we have to fear is fear itself."

The memorial has four garden "rooms," one for each term in office. Each room's statues, murals, and quotes from Roosevelt tell the story of this difficult era.

★ 5

Martin Luther King, Jr. Memorial

Martin Luther King, Jr., was a pastor and a leader of the Civil Rights Movement. His goal was to gain equality for all without the use of violence. King was a powerful speaker and writer. He used these gifts in the struggle for civil rights. He won the Nobel Peace Prize when he was only 35 years old. King was assassinated in 1968 while leading a protest in Memphis.

King's image is carved out of a large piece of granite. It's as if he is part of the rock. The statue shows the strength of King, who inspired a nation—and the world.

World War II Memorial

© hdmeester/123RF Stock Photo

This memorial is located at the east end of the Reflecting Pool, between the Lincoln Memorial and the Washington Monument. It is dedicated to the citizens of the United States who served in World War II from 1939 to 1945. A wall of gold stars pays tribute to the 405,000 Americans who lost their lives. The dedication reads: “Here we mark the price of freedom.” The 24 bronze panels at the entrance show scenes from the war. The Rainbow Pool is framed by 56 granite columns representing wartime unity. Two 43-foot-tall pavilions stand for American victories over Germany and Japan in the war.

★ 7

Korean War Veterans Memorial

© mesuddogan/123RF Stock Photo

This memorial is dedicated to the idea that “freedom is not free.” It honors the 5.8 million members of the United States armed forces who served in the Korean War from 1950 to 1953.

There are 19 statues made of stainless steel that represent soldiers on patrol. Next to the statues is a mural on a granite wall. It displays more than 2,400 photos from the war. A Pool of Remembrance pays tribute to those who were killed, wounded, or missing in action.

★ 8

Vietnam War Veterans Memorial

Approximately 58,000 men and women of the United States armed forces were killed or missing in action in Vietnam from 1959 to 1975. Each of their names is inscribed on the memorial’s polished granite wall. It is often referred to simply as “the Wall.” The memorial is set in a hillside amid the greenery of Constitution Gardens, near the Lincoln Memorial.

NAME _____ DATE _____

Student Directions for Part 2

Part 2 (70 minutes)

Your Task

You will have 70 minutes to write your narrative. You should review your notes and sources. Then plan, write, and revise your writing. You may also refer to the answers you wrote to the research questions in Part 1, but you cannot change those answers.

Your Writing Assignment

Imagine you took a vacation to Washington, D.C. You visited the National Mall in the spring when the cherry trees were blooming. Write a narrative about the monuments and memorials that you visited. Your narrative should include visits to at least three monuments or memorials. Use details from the sources in your narrative.

You can write your narrative any way you choose. You might be with your family, with your friends, or on a school tour. Your narrative might be about your thoughts and feelings while sightseeing. Perhaps you met some interesting people along the way or went on a bicycle tour. Just make sure the setting is Washington, D.C., in the springtime.

Begin Work on Your Narrative

Manage your time carefully so that you can:

- Plan your narrative (15 minutes)
- Write your narrative (40 minutes)
- Revise and edit for a final draft (15 minutes)

You may use a dictionary to check spelling.

Things to Remember

Remember that a well-written narrative:

- Establishes a setting and story focus
- Establishes a point of view for the narrator
- Stays on focus throughout the narrative
- Has a plot that develops logically
- Uses descriptions and sensory details
- Has a logical conclusion
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

Class Assessment Records

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> Are partners able to agree about what information to include in their notes? 			
<ul style="list-style-type: none"> Are they able to describe their thoughts and feeling about the sights and monuments? 			
<ul style="list-style-type: none"> Are they writing notes in their own words? 			
<p>Other observations:</p>			

Considerations:

If you notice many students having difficulty writing notes, call for the class’s attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate place on the chart. As necessary, encourage the students to reread the brochure to collect the information they need.

Considerations:

If you notice the students struggling to write responses, support them by asking questions such as:

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the source can you find that information?*
- Q *How might you include information from your notes and the sources in your answer?*

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students

▪ Are they able to introduce the topic and setting in the opening paragraph of the story?			
▪ Does their writing stay on topic?			
▪ Are they able to incorporate information from their notes and the sources into their reports?			
Other observations:			

Considerations:

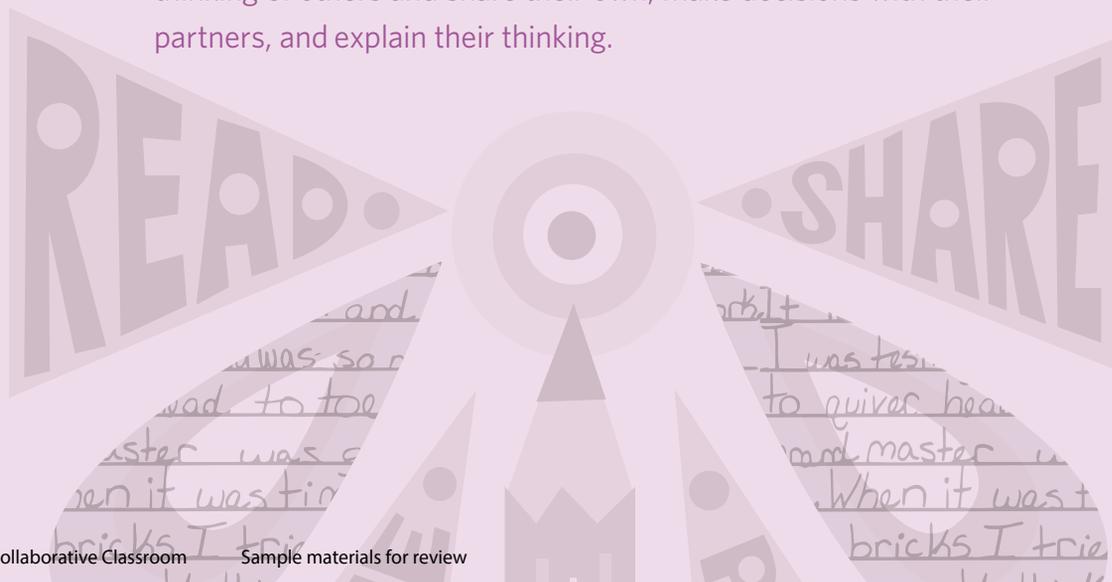

If you notice a student having difficulty starting to write after 5-10 minutes, help stimulate his or her thinking by asking questions such as:

- Q *What is the topic of your story? What might you write to introduce the topic and the setting of the story?*
- Q *How might you use your notes to help you decide what to write in your story?*
- Q *What information from your notes or the sources might you use to describe [the cherry trees]?*

Unit

Informative/ Explanatory Writing

During this one-week unit, the students prepare for the informative/explanatory writing portion of a standards-based end-of-year writing performance task. They discuss what they have learned about informative/explanatory (nonfiction) writing and complete a practice performance task as a class, guided by the teacher. The students begin by watching a video and reading an article about a topic—the transcontinental railroad. They each take notes about what they learn, and use information from the sources and their notes to answer research questions and write a report about the topic. Socially, the students listen respectfully to the thinking of others and share their own, make decisions with their partners, and explain their thinking.

This article provides a brief history of the transcontinental railroad.

Writing Focus

- Students reflect on what they have learned about informative/explanatory (nonfiction) writing.
- Students watch a video and read an article about the topic, and take notes.
- Students answer research questions about the topic, and plan and write reports.
- Students revise and proofread their writing.

Social Development Focus

- Students listen respectfully to the thinking of others and share their own.
- Students make decisions together.
- Students explain their thinking.

DO AHEAD

- ✓ Prior to Day 1, read “Guided Practice Performance Task: Informative/Explanatory Writing” on pages 86–90. This unit’s lessons are based on this guided practice performance task. During the unit, the students complete this performance task with instructional support

and guidance from the teacher. For more information about how the performance task is used in the lesson, see “About the Guided Practice Performance Task” on page 60.

- ✓ Prior to Day 1, watch the video “The Transcontinental Railroad” (IV1). Familiarize yourself with the content of the video, and practice stopping at the points listed in the lesson (see Day 1, Step 4 on page 63).
- ✓ Prior to Day 1, prepare a sheet of chart paper so that it resembles the “Video Notes” graphic organizer (BLM1) the students will use.
- ✓ Prior to Day 1, visit the CCC Learning Hub (ccclearninghub.org) to access and print the student handouts (see “Reproducibles” on page 56). Make a class set of copies of the handouts listed, except for the “Student Directions for Part 1” (BLM2). You might want to have extra copies of the graphic organizers available for the students.
- ✓ Prior to Day 1, prepare a class set of writing folders for the students to use to organize their materials throughout the week.
- ✓ Prior to Day 2, read the article “Building the Transcontinental Railroad” (BLM3) to familiarize yourself with the content.
- ✓ Prior to Day 2, prepare a sheet of chart paper so that it resembles the “Article Notes” graphic organizer (BLM4) the students will use.
- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA1) on page 104.
- ✓ Prior to Day 3, prepare a sheet of chart paper so that it resembles the “Research Questions” sheet (BLM5) the students will use. You may want to write each question on a separate piece of chart paper.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2) on page 105.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA3) on page 106.

“The difference between school and life? In school, you’re taught a lesson and then given a test. In life, you’re given a test that teaches you a lesson.”

— Tom Bodett

Think about a time when you took an important test. What was the purpose for the test? What did you do to prepare for it? How did you feel before, during, and after the test? How might your experience help you prepare your students for a high-stakes test? Write about your memories and reflections.

Day 1

Watching a Video and Taking Notes

Materials

- “The Transcontinental Railroad” video (IV1)
- Chart paper and a marker
- “Video Notes” chart, prepared ahead
- Copy of “Video Notes” graphic organizer (BLM1) for each student
- A writing folder for each student

Teacher Note

We recommend that you teach this unit after the class completes the Expository Nonfiction genre unit.

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 4 and then finish the lesson later in the day or the next day.

Teacher Note

The partners you assign today will stay together for the entire unit.

In this lesson, the students:

- Work with new partners
- Reflect on what they know about good nonfiction (informative/explanatory) writing
- Watch and discuss a video
- Take notes on the video as a class and in pairs

ABOUT THE GUIDED PRACTICE PERFORMANCE TASK

During this unit, the students complete an informative/explanatory writing performance task as a class with instructional support from you. The purpose for this guided practice performance task is to prepare the students for standards-based end-of-year performance tasks they will be required to complete independently. Five days of instruction are provided during which the students’ writing is neither timed nor scored. This unit’s performance task is not computerized and can be administered in a classroom environment, using pencils, paper, and other classroom resources.

The topic of the performance task is the transcontinental railroad. The task consists of three sections: an Introductory Classroom Activity (students are introduced to the topic and examine one of the sources), Part 1 (students examine an additional source and answer research questions about the topic), and Part 2 (students write their own reports). For more information about each section, see “Task Overview” on page 86. For the complete performance task on which this unit’s instruction is based, see “Guided Practice Performance Task: Informative/Explanatory Writing” on pages 86–90.

GETTING READY TO WRITE

1 Pair Students and Introduce the Performance Task

Randomly assign partners and make sure they know each other’s names. Have the students bring their pencils and sit at desks with partners together.

Tell the students that at the end of the school year, all the students in their grade will complete a reading and writing assignment called a *performance task*. (You might explain that a *task* is a “job that needs to be done.”) Explain that the purpose for the performance task is to show how well they are developing and growing as strong readers and writers. This is important information for them as students, as well as for their families, teachers, and principal.

Remind the students that for the past several weeks they have been doing nonfiction writing, and explain that nonfiction writing—also called informative or explanatory writing—is one type of writing they will do on the end-of-year performance task. Tell the students that during the next several days they will learn strategies for doing well on the informative/explanatory writing portion of the performance task.

2 Discuss What the Class Has Learned About Informative Writing

Point out that the students have learned a lot about how to write good informative, or nonfiction, pieces, and explain that they can use what they have learned to help them do well on the performance task. Ask and discuss the questions that follow as a class. Encourage the students to use the discussion prompts they have learned as they talk to one another.

- Q *What have you learned about good informative, or nonfiction, writing?*
- Q *What did you do to make your informative piece interesting and easy to read?*

Students might say:

“It grabs the reader’s attention right from the start.”

“I agree with [Jasper]. I also think that it is based on research. It includes facts about a topic.”

“It uses transition words to connect thoughts.”

“In addition to what [Laura and Sayed] said, it is clearly organized and makes sense.”

“Sometimes it includes maps and photographs about the topic.”

As the students respond, record their ideas on a sheet of chart paper titled “What We Have Learned About Informative Writing.” If the students do not mention the following qualities of good informative writing, briefly review them and add them to the chart.

Teacher Note

The discussion prompts are:

- “I agree with _____ because...”
- “I disagree with _____ because...”
- “In addition to what _____ said, I think...”

What We Have Learned About Informative Writing

- Uses strong opening and closing sentences
- Is based on research
- Presents facts about a topic
- Uses transition words
- Sometimes includes text features
- Is clearly organized and makes sense
- Makes the reader want to know more about the topic
- Follows writing rules for spelling, punctuation, capitalization, and grammar

Tell the students that you will post the chart where everyone can see it so that they can keep what they have learned about good informative writing in mind as they prepare for the informative/explanatory writing performance task.

3 Introduce the Topic of the Guided Practice Performance Task

Explain that today you will introduce the students to the topic of the performance task, and they will see a video about the topic. In the coming days, they will learn more about the topic by reading an article. Then, as a class, they will use what they learned to answer research questions and write reports about the topic.

Tell the students that they are going to learn and then write about the transcontinental railroad. Write the word *transcontinental* where everyone can see it. Explain that *trans* means “across” or “from one side to the other” and that *continental* comes from the word *continent*. Explain that a *transcontinental railroad* is a “railroad that goes from one side of a continent to the other.” Tell the students that the transcontinental railroad crossed the continent of North America, connecting the East Coast to the West Coast.

Write *1863 to 1869* where everyone can see it and explain that the railroad was built during these years. Point out that during this time the Civil War was being fought. Tell the students that the discovery of silver in Nevada and an increase in government land grants resulted in many people moving west during this time period.

Explain that *land grants* were “pieces of land given by the government to individuals or companies who were expected to farm or develop the land.” Most of this land was in the western part of the country, and many people moved west to settle on the land.

4 Introduce the Video and Watch It with Stops

Tell the students that they will watch a video called “The Transcontinental Railroad.” The video discusses the building of the railroad and the reasons that it was important for the United States. Explain that you will play the video and stop it three times. At each stop, you will ask the students to talk in pairs about what they learned. Play the video “The Transcontinental Railroad” (🎞 IV1), stopping as described below.

Stop after:

:58 “. . . a real urban metropolitan space like it is today.”

Ask and briefly discuss:

Q *What did you learn about the transcontinental railroad in the portion of the video you just saw? Turn to your partner.*

Without sharing as a class, continue to play the video. Following the same procedure, have the students discuss what they learned at the following stops:

1:40 “. . . this allowed the American economy to expand as it couldn’t have before the railroads.”

3:27 “. . . the global economic power it eventually became.”

WRITING TIME

5 Watch the Video Again and Take Notes as a Class and in Pairs

Post the “Video Notes” chart that you prepared ahead and distribute a copy of the “Video Notes” graphic organizer (BLM1) to each student.

Tell the students that you will play the video again, and that as a class and in pairs, they will use this note-taking chart, called a *graphic organizer*, to take notes on what they are learning about the transcontinental railroad. Explain that the graphic organizer has four sections. Point out that there is a question in each of the first three sections with room to take notes and that the last section is for other notes. Point to and read each question aloud.

Explain that you will stop the video three times, as you did before, and that at each stop, the students will discuss what they have learned and where they will record their notes on the graphic organizer.

Play the video “The Transcontinental Railroad” (🎞 IV1), stopping after:

:58 “. . . a real urban metropolitan space like it is today.”

Discuss as a class:

- Q *What did you learn about the transcontinental railroad in the portion of the video you just saw?*
- Q *Where might you put a note saying that [people could travel long distances faster than ever before] on the graphic organizer? Why?*

Students might say:

"The first transcontinental railroad was finished in 1869, but others were built later. That should go in the 'Other Notes' section."

"I learned that the railroad connected the country, coast to coast. We should put that under the third question because it helped unite the country."

"We can write that businesses could sell things to people living far away under the third question because that helped the economy grow."

"I learned that people could travel faster than before. I think that belongs under the third question because it describes how the railroad changed people's lives."

As the students respond, model writing their responses as notes in the appropriate places on the chart, and have the students copy the notes onto their own graphic organizers.

Using the same procedure, watch the next section of the video; stop the video to discuss what the students learned as a class, and model taking notes. Stop after:

1:40 "... this allowed the American economy to expand as it couldn't have before the railroads."

At the last stop, have the students discuss what they learned in pairs (rather than as a class) and ask them to record their notes on their graphic organizers. Stop after:

3:27 "... the global economic power it eventually became."

Have a few volunteers share what they discussed and where they recorded their notes on the graphic organizer. As they share, add their ideas to the chart.

Teacher Note

You may want to review that notes are most helpful when they are brief and written in the writer's own words rather than copied exactly from the source.

Teacher Note

If the students have difficulty deciding where on the graphic organizer to record their notes, call for their attention and model writing each idea in the appropriate section of the chart.

Video Notes

How was the railroad built?

- government gave land grants to build on unused land
- hired Chinese workers
- two-thirds of workers were Chinese
- Irish immigrants hired too

What were the challenges in building the railroad?

- needed thousands of workers
- it was dangerous work
- used explosives to blast tunnels

Why was the transcontinental railroad so important for the United States?

- people could travel faster
- united the country, coast to coast
- businesses could sell things to people far away
- helped the American economy grow

Other Notes:

- first transcontinental railroad completed in 1869
- other railroads were built later
- lots of opportunity in the western part of the country but hard to get there

Tell the students that tomorrow they will learn more about the transcontinental railroad by reading and discussing an article about how the railroad was built.

Distribute a writing folder to each student and explain that this is where the students will keep all of their materials for the week. Have the students put their materials inside their folders and keep them in their desks.

SHARING AND REFLECTING

6 Reflect

Ask and briefly discuss:

Q *What did you and your new partner do to work well together today?*

Teacher Note

Save the “What We Have Learned About Informative Writing” chart and the “Video Notes” chart to use throughout the unit.

Day 2

Reading an Article and Taking Notes

Materials

- Copy of the article “Building the Transcontinental Railroad” (BLM3) for each student
- “The Transcontinental Railroad” video (IV1) from Day 1
- “Student Directions for Part 1” chart (WA1; also available as BLM2)
- “Video Notes” chart from Day 1
- “Building the Transcontinental Railroad” chart (WA2)
- “Article Notes” chart (prepared ahead) and a marker
- Copy of “Article Notes” graphic organizer (BLM4) for each student
- “Class Assessment Record” sheet (CA1)

Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 4 and then finish the lesson later in the day or the next day.

Teacher Note

The purpose for showing the “Student Directions for Part 1” chart (WA1) is to briefly introduce the students to the type of directions they will encounter when they do performance tasks by themselves. It is not necessary to take the students through all the directions now. They will have the experience of “following” the directions over the next few days. As you complete various parts of the directions, you might redisplay the chart and point out the steps the students have completed.

In this lesson, the students:

- Discuss what they have learned about the transcontinental railroad
- Read and discuss an article about the transcontinental railroad
- Take notes on the article in pairs
- Make decisions together
- Work in a responsible way

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Review that the students are working together to complete an informative writing task about the transcontinental railroad to prepare for the end-of-year performance task. Remind the students that yesterday they discussed what they have learned about good informative writing. They also saw a video about the transcontinental railroad, discussed it as a class, and took notes about what they learned. Explain that today the students will learn more about the railroad.

2 Introduce Student Directions for Part 1

Display the “Student Directions for Part 1” chart (WA1). Explain that these are directions for the first part of the performance task, in which the students watch the video again, read an article, and write responses to research questions. Tell the students that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, you will read the article aloud rather than have the students read it on their own, and they will take more time than the directions say to complete the steps. Explain that when the students do performance tasks on their own later, they will follow the directions exactly.

3 Watch the Video Again and Discuss What the Students Learned

Direct the students’ attention to the “Video Notes” chart from Day 1. Briefly review the notes by asking:

- Q *What is something we learned about the transcontinental railroad from the video?*

Explain that you will show the video again without stops. Ask the students to listen and watch for information about the railroad that they missed yesterday and might want to add to their notes.

Play the video “The Transcontinental Railroad” (🎥 IV1). Ask and briefly discuss:

Q *What more did you learn about the transcontinental railroad?*

Have a few volunteers share their thinking with the class. As appropriate, add their ideas to the chart and have the students copy the information onto their graphic organizers.

Students might say:

“I learned that it wasn’t just faster to travel using the railroad, it was also cheaper.”

“In addition to what [Juana] said, I learned that many new cities were built close to the railroad.”

“I heard that the Chinese workers did the most dangerous jobs, like using explosives.”

4 Introduce the Article and Read It Aloud with Stops

Tell the students that now they will read an article titled “Building the Transcontinental Railroad.” The article discusses how the railroad was built, some of the challenges in building it, and why it was important for the United States. Display the “Building the Transcontinental Railroad” chart (🎥 WA2) and distribute a copy of the article (BLM3) to each student. Remind the students that for this task you will read the article aloud, but when they do a performance task on their own, they will read any source materials independently. Ask them to follow along as you read the article aloud, and explain that you will stop during the reading to have pairs discuss what they are learning.

Read the title of the article and the first three paragraphs aloud, slowly and clearly. Stop after:

“The company that laid the most track would receive more money and land grants.”

Point to the map under the paragraphs you just read and explain that it shows where the railroad companies started building the railroad lines (Sacramento and Omaha) and where the lines were finally joined (Promontory Point). Ask:

Q *What did you learn about the transcontinental railroad in the part of the article you just heard? Turn to your partner.*

Without sharing as a class, continue reading the article. Following the same procedure, have the students discuss what they learned at the next two stops:

“They proved themselves to be skilled and hardworking laborers who played a significant role in building the transcontinental railroad.”

“It’s fair to say that the transcontinental railroad changed America forever.”

Teacher Note

You might explain that a *source* is “something that information comes from, such as a book, video, website, or article.”

Point to the photograph on the last page of the article. Explain that it shows the last rail being laid to connect the railroad lines in Promontory Point, Utah. Then direct the students' attention to the timeline on the second page of the article and explain that it shows the important dates and events in the development of the transcontinental railroad. Point out that the timeline begins in 1830 when the first *steam locomotive* (train) was built in the United States, and it ends in 1869 when the Union Pacific and Central Pacific lines were joined with the golden spike at Promontory Point, Utah. Give the students a couple of minutes to read the timeline.

WRITING TIME

5 Reread the Article and Take Notes in Pairs

Post the “Article Notes” chart that you prepared ahead and distribute a copy of the “Article Notes” graphic organizer (BLM4) to each student.

Point out that this graphic organizer is organized just like the “Video Notes” graphic organizer, with the same questions and a section for other notes. Explain that as you read the article again you will stop, and partners will discuss what more they learned and then write notes in the appropriate places on their own graphic organizers. Remind the students that they will use the notes later to help them answer questions and write reports about the transcontinental railroad.

Read the article and stop (as you did before) after:

“The company that laid the most track would receive more money and land grants.”

Ask the following questions one at a time, without discussing them as a class:

- Q *What more did you learn about the transcontinental railroad in the part of the article you just heard?*
- Q *Where will you write a note about what you have learned on the graphic organizer, and why will you write the note there?*

Say “Turn to your partner,” and give partners a few minutes to share their thinking and write notes about what they learned on their graphic organizers. As they work, circulate, observe, and offer assistance.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners able to agree about what information to include in their notes?
- Are they recording notes in the appropriate section on their graphic organizers?
- Are they writing notes in their own words?

If you notice many students having difficulty writing notes, call for the class's attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate section on the chart. As necessary, encourage the students to reread the article to collect the information they need.

Record your observations on the "Class Assessment Record" sheet (CA1); see page 104.

After a few minutes, ask volunteers to share their thinking about what they learned and where they recorded notes on their graphic organizers. Then add their ideas to the chart.

Using the same procedure, stop, discuss, and take notes at the following places in the article:

"They proved themselves to be skilled and hardworking laborers who played a significant role in building the transcontinental railroad."

"It's fair to say that the transcontinental railroad changed America forever."

Article Notes

How was the railroad built?

- Abraham Lincoln signed the Pacific Railroad Act of 1862 that allowed the railroad to be built
- two companies built it: the Union Pacific Railroad and the Central Pacific Railroad
- Central Pacific Railroad started in Sacramento, California
- Union Pacific Railroad started in Omaha, Nebraska
- Chinese immigrants important to the building of the railroad
- companies joined tracks in 1869 at Promontory Point, Utah

(continues)

(continued)

Article Notes

What were the challenges in building the railroad?

- bad weather and flooding
- bridges collapsed and had to be rebuilt
- trees had to be brought in from far away
- Central Pacific Railroad had to build track through the Sierra Nevada mountains
- workers left when silver was discovered in Nevada
- weather created harsh conditions for workers
- had to blast through rock to build tunnels

Why was the transcontinental railroad so important for the United States?

- it was faster and easier for people to ride across the country
- goods could move more quickly

Other Notes:

- there were many railroads in the 1800s, but none that connected the Pacific to the Atlantic Coast
- Leland Stanford, C. P. Huntington, Mark Hopkins, and Charles Crocker were called "the big four"
- the last railroad tie was hammered down with a golden spike
- the first ride taken on the new transcontinental railroad was from Omaha to Sacramento

Tell the students that tomorrow they will work together, using the sources and their notes, to answer research questions about the transcontinental railroad. Have them put their materials inside their folders.

SHARING AND REFLECTING

6 Reflect

Ask and briefly discuss:

- Q *Why do you think it is a good idea to read an article more than once, like we did today?*
- Q *What did you do today to work in a responsible way?*

Teacher Note

Save the "Article Notes" chart to use throughout the rest of the unit.

Writing Responses to Research Questions

Day 3

In this lesson, the students:

- Read and discuss research questions about the transcontinental railroad as a class
- Identify words in the questions that give clues about what to write
- Write responses to the questions as a class and independently
- Reflect on and revise their responses

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Remind the students that they are learning strategies they can use to do well on the end-of-year performance task. Refer to the “Video Notes” and “Article Notes” charts from Days 1 and 2 and review that the students saw a video and read an article about the transcontinental railroad and took notes about what they learned. Explain that today they will use their notes and the article to answer research questions about the railroad.

2 Model Reading a Question and Writing a Response

Post the “Research Questions” chart that you prepared ahead. Distribute a copy of the “Research Questions” sheet (BLM5) to each student, and have the students write their names and the date on their sheets. Explain that these are the questions the students will answer in Part 1 of the performance task.

Tell the students that the first step in writing a response to a question is to read and think carefully about the question. Point to Question 1 on the chart and ask the students to listen closely as you read it aloud twice. Discuss:

Q *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, point out that the question is asking for two pieces of information: “what companies built the transcontinental railroad” and “how did they share the work.” Underline those key phrases on the chart.

Materials

- “Video Notes” and “Article Notes” charts from Days 1 and 2
- “Building the Transcontinental Railroad” chart (WA2) from Day 2
- “Research Questions” chart, prepared ahead
- Copy of “Research Questions” sheet (BLM5) for each student
- A marker
- “Class Assessment Record” sheet (CA2)

Point to the statement following the question and read it aloud. Explain that “use details from the sources” means that the students should use facts and other details from their video and article notes and the article itself to write their responses.

Ask the students to watch as you model writing a response to the first question on the chart, thinking aloud as you write. Display the “Building the Transcontinental Railroad” chart (CWA2) and be sure to model reviewing your notes and the article for the information you need.

Teacher Note

The consortia that are developing the end-of-year performance tasks plan to deliver the assessment electronically. This means that individual students will have computer or tablet access to all research sources, including videos, as they respond to questions and write extended pieces.

You might say:

“I know that the question is asking for the names of the companies that built the railroad and how they shared the work. In my notes on the article, I wrote the names of the two companies: the Union Pacific Railroad and the Central Pacific Railroad. I’ll write: *The Central Pacific Railroad and the Union Pacific Railroad were hired to build the transcontinental railroad.* That answers the first part of the question. The second part of the question asks how the companies shared the work. My notes on the article say that one company started in Sacramento and worked east and the other started in Omaha and worked west. I’ll write: *The Central Pacific Railroad started laying tracks in Sacramento, California, and worked east. The Union Pacific Railroad started in Omaha, Nebraska, and laid tracks to the west.* Another detail I can add from my notes is the year in which the two companies finally joined the two lines. I’ll write: *In 1869, the two railroad companies joined the tracks at Promontory Point, Utah.*”

Research Questions

1. What companies built the transcontinental railroad, and how did they share the work? Use details from the sources in your answer.

The Central Pacific Railroad and the Union Pacific Railroad were hired to build the transcontinental railroad. The Central Pacific Railroad started laying tracks in Sacramento, California, and worked east. The Union Pacific Railroad started in Omaha, Nebraska, and laid tracks to the west. In 1869, the two railroad companies joined the tracks at Promontory Point, Utah.

3 Read and Discuss Questions as a Class

Explain that the students will read and discuss Questions 2 and 3 as a class. Then, during Writing Time, the students will work in pairs to discuss what they might write in response to those questions, and each write their own response on their “Research Questions” sheets.

Point to Question 2 on the “Research Questions” chart and read it aloud twice. Ask and discuss:

Q *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, explain that the question is asking for two pieces of information: “what happened around 1865” and how that “affected work on the railroad.” Underline those key phrases on the chart.

Follow the same procedure to discuss Question 3. If necessary, explain that the question is asking what was *remarkable* (extraordinary or very unusual) about the building of the transcontinental railroad. On the chart, underline “building the transcontinental railroad” and “What was so remarkable about it?”

WRITING TIME

4 Discuss Questions in Pairs and Write Answers

Have partners discuss what they might write in response to Questions 2 and 3. Review that each student will write his own response to the questions on his “Research Questions” sheet. Remind the students to use details from their notes and from the article in their responses. As the students work, circulate, observe, and offer assistance.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students’ responses indicate that they understand what each question is asking?
- Are they able to incorporate details from their notes and the sources in their responses?

If you notice the students struggling to write responses, support them by asking questions such as:

Q *What information is the question asking for?*

Q *Where in your notes can you find that information? Where in the source can you find that information?*

Q *How might you include information from your notes and the sources in your answer?*

Record your observations on the “Class Assessment Record” sheet (CA2); see page 105.

5 Facilitate Guided Rereading and Revising of Responses

Tell the students that they will now reread their responses to Questions 2 and 3 and then reflect on the quality of their responses by thinking about the questions you will ask.

Have the students quietly reread their responses to Question 2 and look up when they are finished. Ask the following questions one at a time, pausing after each one to give them a moment to review their writing and, if necessary, their sources and notes:

- Q *Do you think your response does a good job of describing what happened around 1865 to affect work on the railroad? If not, what might you add or take out to improve it?*
- Q *Do you think your response includes enough details from the sources? If not, what details might you add?*

Without discussing as a class, have the students revise their responses as necessary. Remind them to refer to the article and their notes if needed.

Using the same procedure, ask the following questions and then have the students reflect on and revise their responses to Question 3:

- Q *Do you think your response does a good job of clearly describing what was remarkable about the building of the transcontinental railroad? If not, what might you add or take out to improve it?*
- Q *Do you think your response includes enough details from the sources? If not, what details might you add?*

SHARING AND REFLECTING

6 Share Responses and Reflect

Have a few volunteers share with the class what they wrote in response to Question 2. As they share, use their ideas to model writing a well-crafted response to the question on the “Research Questions” chart.

Following the same procedure, model writing a response to Question 3.

Research Questions

2. What happened around 1865 that affected work on the railroad?

Use details from the sources in your answer.

There was a shortage of workers because many of them left to mine for silver in Nevada. Chinese immigrants were hired because there weren't enough people to fill all the jobs. After the Civil War ended in 1865, many soldiers came to work on the railroad.

3. The article says that building the transcontinental railroad was one of the most remarkable accomplishments in the history of the United States. What was so remarkable about it? Use details from the sources in your answer.

The transcontinental railroad connected the two coasts of the United States. The railroad covered thousands of miles and required thousands of workers to build it. The workers sometimes had to work in very difficult conditions. After the railroad was finished, people could travel across the country in less than a week, and businesses could sell things to people living far away. That changed the United States forever.

Have the students reflect on their work by asking:

- Q** *Do you think your notes helped you write good responses to the questions? Why or why not?*

Tell the students that tomorrow they will each use the sources, their notes, and their answers to the research questions to write reports about the transcontinental railroad. Have them put their materials inside their folders.

Teacher Note

Save the "Research Questions" chart to use on Day 4.

Day 4

Writing a Report

Materials

- “Student Directions for Part 2” chart (WA3)
- Copy of “Student Directions for Part 2” (BLM6) for each student
- “Video Notes,” “Article Notes,” and “Research Questions” charts from Day 3
- “Building the Transcontinental Railroad” chart (WA2) from Day 3
- Lined writing chart (WA4) for modeling
- “Writing Time” chart (WA5)
- Supply of lined paper for writing reports
- “Class Assessment Record” sheet (CA3)

Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 3 and then finish the lesson later in the day or the next day.

In this lesson, the students:

- Plan and write reports about the transcontinental railroad
- Include qualities of a well-written report in their writing
- Reflect on how they felt about writing their reports
- Listen respectfully to the thinking of others

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Point to the “Research Questions” chart and remind the students that yesterday they completed the first part of the guided practice performance task—answering questions about the transcontinental railroad. Explain that today partners will work together on the second part of the task—writing reports about the transcontinental railroad.

2 Introduce and Discuss the Report-writing Task

Display the “Student Directions for Part 2” chart (WA3) and distribute a copy of the directions (BLM6) to each student. Explain that these are directions for the second part of the performance task, in which the students each write a report about the transcontinental railroad. Review that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, they will take more time than the directions say to write their reports. Remind the students that when they do performance tasks on their own, they will need to follow the directions exactly.

Ask the students to listen as you read each section of the directions aloud, using the following procedure:

1. Read the section “Your Task” aloud and review that the students may use the article, their notes, and their answers to the research questions to help them write their reports. Remind the students that when they do performance tasks on their own they will be timed, but that today they will not be.
2. Read the section “Your Writing Assignment” aloud and review that each student needs to write a report about the transcontinental railroad. Remind the students what information they are to include in their reports and point out that their notes are organized using the same ideas as those listed.

3. Read the section “Begin Work on Your Report” aloud, point out the information that is relevant for this performance task (for example, “plan,” “write,” and “revise”), and underline it.
4. Read the list of qualities of a well-written report aloud. Point out that the list is similar to the list the class created on the “What We Have Learned About Informative Writing” chart. Tell the students that they may refer to both lists as they write their reports.

Ask and briefly discuss:

Q *What questions do you have about the directions for writing the report?*

Tell the students that they will do the writing task together as a class, and that this will help prepare the students to do tasks like this on their own.

3 Model Planning and Starting the Report

Tell the students that you will model writing the first two paragraphs of the report. Remind them that the report needs to describe how the transcontinental railroad was built, what challenges were faced in building it, and why the railroad was so important for the United States. Tell them that you will write an opening paragraph to introduce the topic of the report, and then you will write a paragraph about how the railroad was built. Direct the students’ attention to the qualities of a well-written report in the directions (BLM6) and explain that as you write the report, you will include these qualities in your writing.

Display the lined writing chart (WA4) and model writing a paragraph that introduces the topic and establishes the main idea. Then write a paragraph about how the railroad was built. Think aloud as you write, and remember to model reviewing your notes and the article to find the information you need. Be sure to include qualities of a well-written report, such as clear organization, transition words to connect ideas, and evidence from the sources to support the main idea.

You might say:

“My opening paragraph needs to introduce the topic, or main idea, of the report and make the reader want to know more about it. I’ll write: *The completion of the first transcontinental railroad was a very important event in United States history. Construction of the railroad started in 1863 and was completed in 1869. There were many challenges in building it, but after it was finished, it connected the coasts and united the country.* This shows I understood the assignment because I’ve introduced the topic of the report and some ideas that will be discussed in the report. I think the first sentence will hook my reader because it says that completing the transcontinental railroad ‘was a very important event in United States history’ and will make my reader want to keep reading to find out why it was so important.

The next paragraph will describe how the railroad was built. I have a lot of information about this in my notes. My response to Question 1 also provides useful information. I’ll write: *The Central Pacific Railroad*

Company and the Union Pacific Railroad Company were hired to build the railroad. In my notes on the video, I wrote that the government gave land grants to those companies. I think that's an important detail to include. I'd also like to include how the companies shared the work, so I'll write: *The government gave land grants to those companies to build the railroad. The Central Pacific Railroad Company started laying tracks in Sacramento, California, and worked east. The Union Pacific Railroad Company started in Omaha, Nebraska, and laid tracks to the west.* I think this clearly explains how the railroad was built and uses evidence from my sources. I'd like to also include information about the workers in this paragraph, since they were such an important part of how the railroad was built. The article and my notes have facts about the workers that I can use. I'll write: *Irish and Chinese immigrants and many Civil War veterans worked on the railroad."*

WA4

The completion of the first transcontinental railroad was a very important event in United States history. Construction of the railroad started in 1863 and was completed in 1869. There were many challenges in building it, but after it was finished, it connected the coasts and united the country.

The Union Pacific Railroad Company started in Omaha, Nebraska, and laid tracks to the west. Irish and Chinese immigrants and many Civil War veterans worked on the railroad.

After you have modeled writing the first two paragraphs of the report, stop and explain that during Writing Time today the students will write their own reports about the transcontinental railroad. Explain that the students will use their notes and sources to write opening paragraphs and three other paragraphs about the ideas listed in the directions. Use “Think, Pair, Share” to discuss:

Q *What might you write about in your report today? [pause] Turn to your partner.*

After a few moments, signal for the students' attention and remind them that each student will write her own report. Explain that you will also finish your report and share it with the class tomorrow.

WRITING TIME

4 Write Reports

Explain that when the students complete the actual performance task they will write their reports using computers, but that today they are practicing on paper. Distribute loose, lined sheets of paper and explain that the students will use this paper to write their reports. Display the "Writing Time" chart (📄 WA5) and have them work quietly for 30–40 minutes. As they work, circulate, observe, and offer assistance.

WA5

Writing Time

- Reread the writing assignment in "Student Directions for Part 2."
- Write an opening paragraph that introduces the topic and hooks the reader.
- Include evidence (facts and other details) from the sources in your writing.
- Include transition words and other qualities of a well-written report in your writing.
- Write a conclusion that wraps up the writing.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Does the students' writing indicate that they understand the task?
- Are they able to introduce the topic in the opening paragraph of the report?
- Does their writing stay on topic?
- Are they able to incorporate information from their notes and the sources into their reports?

If you notice a student having difficulty starting to write after 5–10 minutes, help stimulate his thinking by asking questions such as:

- Q *What is the topic of your report? What might you write in the opening paragraph to introduce the topic?*
- Q *How might you use your notes to help you organize your report?*
- Q *What information from your notes or the sources might you use to explain [the challenges of building the railroad]?*

Record your observations on the "Class Assessment Record" sheet (CA3); see page 106.

Teacher Note

Prior to teaching the Day 5 lesson, you will need to write the rest of your report (see the diagram in Day 5, Step 2 on page 81). Include evidence from the sources, transition words, and other qualities of a well-written report in your writing. Save your completed report on the lined writing chart (WA4).

Day 5

Materials

- Completed report on the lined writing chart (WA4) from Day 4
- “Student Directions for Part 2” chart (WA3) from Day 4

Signal the end of Writing Time. Tell the students that tomorrow they will have time to revise and proofread their reports. Have them put their reports and other materials in their folders.

SHARING AND REFLECTING

5 Reflect on Writing Reports

Ask and briefly discuss:

- Q *What did you enjoy about writing your report today? What did you find challenging?*
- Q *What did you and your partner do to listen respectfully to each other as you shared about what you might write in your reports?*

Revising and Proofreading a Report

In this lesson, the students:

- Revise their reports
- Proofread their reports
- Express interest in and appreciation for one another’s writing
- Reflect on what they have learned and how that will help them on the end-of-year performance task

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Remind them that yesterday they each planned and wrote a report about the transcontinental railroad. Explain that today they will have the opportunity to revise and proofread their reports.

2 Discuss Your Report

Display the completed report on the lined writing chart (WA4) and tell the students that yesterday you finished your report. Ask them to follow along as you read it aloud. Review that the opening paragraph introduces the topic, or main idea, and hooks the reader. In the remaining paragraphs, point out the clear organization, the use of evidence from the sources, the use of transition words to connect ideas, and other qualities of a well-written report.

You might say:

"I introduced the topic of the transcontinental railroad in the first paragraph. I tried to hook the reader by saying that building the railroad was *a very important event in United States history*. I think that will make the reader want to keep reading to find out why it was important.

My report is clearly organized. After the introduction, I wrote a paragraph about how it was built, a paragraph about the challenges in building it, and a paragraph about why it was important for the United States. I stayed on the topic throughout the report.

I included specific evidence from the sources to support the topic of each paragraph. For example, when describing how the railroad was built, I listed the names of the companies that built it and how they shared the work. Also, when describing the challenges, I discussed specific examples like the shortage of workers and the weather.

I used transition words to connect one idea to the next. For example, in the paragraph about the challenges of building the railroad, I wrote *one challenge* and *another challenge* to help the reader keep track of the challenges discussed in the report. In the last paragraph, I used the words *for example* and *also* when giving examples of why the railroad was important for the United States.

My concluding sentence, *The transcontinental railroad connected the coasts and united the country*, wraps up the report in an interesting way and lets the reader know the piece has come to an end."

WA4

The completion of the first transcontinental railroad was a very important event in United States history. Construction of the railroad started in 1863 and was completed in 1869. There were many challenges in building it, but after it was finished, it connected the coasts and united the country.

The Central Pacific Railroad Company and the Union Pacific Railroad Company were hired to build the transcontinental railroad. The government gave land grants to those companies to build the railroad. The Central Pacific Railroad Company started laying tracks in Sacramento, California, and worked east. The Union Pacific Railroad Company started in Omaha, Nebraska, and laid tracks to the west. Irish and Chinese immigrants and many Civil War veterans worked on the railroad.

There were many challenges in building the railroad. One challenge was that it required thousands of workers because

it was such a big job. When silver was discovered in Nevada, many workers left to mine for silver and there was a shortage of workers. Another challenge was the weather. It could get very cold in the winter, especially in the mountains. In the desert, the sun's heat would make the workers very tired. Bridges were sometimes washed out by storms. Also, building the railroad was dangerous work. The workers had to use explosives to blast through the rock of mountains to create tunnels.

The two railroads finally came together at Promontory Point, Utah, in 1869, and the last railroad tie was hammered down with a golden spike. The completion of the railroad changed the United States forever. For example, traveling and transporting goods was faster and cheaper than taking a sea voyage. With the railroad, it only took six days to travel across the country. Also, businesses could sell things to people living far away, which helped the American economy grow. The transcontinental railroad connected the coasts and united the country.

WRITING TIME

3 Facilitate Guided Rereading of Reports

Tell the students that they will have time today to finish their reports, but that first they will reread what they have written. Then you will ask some questions for them to think about. Have them quietly reread their writing and look up when they are finished.

Ask the following questions one at a time, giving the students 1–2 minutes after each question to quietly review their writing and mark passages:

- Q** Do you think your opening paragraph does a good job of introducing the topic and stating the main idea? If not, what might you write instead?
- Q** Will the organization of your report be clear to the reader? If you don't think the organization is clear, what might you move around to make it clearer? Underline parts of the report you might change or move around.

- Q *Are there places where you used, or could use, evidence from the sources to support your main idea? Put a check mark in the margin next to those places.*
- Q *Are there places where you used, or could use, transition words to connect one idea to the next? Put a star in the margin next to each of those places.*
- Q *Do you think your conclusion does a good job of wrapping up your writing and letting the reader know that the report has come to an end? If not, what might you write instead?*

Without discussing as a class, have the students resume writing for another 10–15 minutes.

4 Facilitate Proofreading of Reports

Display the “Student Directions for Part 2” chart (WA3) and remind the students that it states that a well-written report “follows rules for spelling, punctuation, capitalization, and grammar.” Explain that the students will proofread their reports to find and correct any spelling, punctuation, and grammar errors. Ask:

- Q *Why will you want to proofread your report before turning it in?*
- Q *What will you check for when you are proofreading?*

Students might say:

“Mistakes could make my writing harder to read and understand.”

“I will check to make sure I’ve capitalized names and the beginning of every sentence.”

“In addition to what [Kyle] said, I want to make sure every sentence ends with a period, a question mark, or an exclamation point.”

“In addition to what [Ida and Kyle] said, I want to correct any spelling errors I find.”

Give the students 5–10 minutes to proofread their reports and make any necessary corrections. As they work, circulate, observe, and offer assistance.

SHARING AND REFLECTING

5 Share Writing and Reflect

Have a few volunteers share their reports with the class; then ask:

- Q *What qualities of good informative writing did you notice in [Lana’s] report?*
- Q *What questions can you ask [Lana] about her writing?*

Review that this week the students have been learning strategies for doing well on the end-of-year performance task. Ask and briefly discuss:

- Q *What have you learned this week that will help you do well on the performance task? Turn to your partner.*

EXTENSIONS

Complete a Diagnostic Proofreading Passage

To assess how your students are progressing with Language Standards, you might choose to administer a Diagnostic Proofreading Passage in Appendix C of the *Skill Practice Teaching Guide* (also see “Assessing Language Skills” on page xi).

Complete a Writing Practice Performance Task Independently

Many states provide a practice performance task that students complete independently. It can be given right after the guided practice, or at a later time.

Introduce the performance task by reminding the students that they spent one week learning about and preparing for the informative/explanatory writing portion of the end-of-year writing performance task. Explain that the students will now have the opportunity to do a practice performance task on their own on a different topic, and that they can use what they learned to do their best work on the task. Tell them that they will do this practice performance task under conditions like those they will experience when completing the end-of-year performance task, and that this will help them to be better prepared to do well.

Task Overview

Introductory Classroom Activity 20 MINUTES

This whole-class activity introduces the students to the topic of the performance task, the transcontinental railroad, and helps prepare the students to answer research questions and write reports about the topic. As part of this activity, the students will view and discuss a short video on the topic titled “The Transcontinental Railroad.” They will also be reminded of the features of good informative writing, or a well-written report.

During the introductory activity, the teacher will lead a whole-class discussion about the video. The students may take notes using the provided graphic organizer to help them prepare for writing. The students may use their notes from the Introductory Classroom Activity when they plan, write, and revise their own multi-paragraph reports about the transcontinental railroad in Part 2.

Part 1 35 MINUTES

The students will view the video again and read an article about the transcontinental railroad titled “Building the Transcontinental Railroad.” The article includes a map and photo of the era, as well as a timeline. The students are encouraged to take notes using the provided graphic organizer to help them prepare for writing. Then the students will respond to three research questions that require them to analyze, evaluate, interpret, and integrate information.

Part 2 70 MINUTES

The students will plan, write, and revise reports about the transcontinental railroad. They may refer to all of the sources from the Introductory Classroom Activity and Part 1, any notes they took, and their answers to the research questions. The students may not, however, change their answers to the questions.

Scoring

The research questions in Part 1 can be scored with the rubrics included at the end of this performance task (see “Scoring Rubrics for Research Questions” on page 91). Any notes, prewriting, and drafts will not be scored.

Teacher Preparation

- Make sufficient blank paper and writing tools available for students to use in taking notes. You might make extra copies of the graphic organizers.
- Make a class set of copies of the student handouts on pages 94–101.
- Make dictionaries available to use during Part 2 of the performance task. (Some standards-based assessments are computer-based with many of the student materials, including access to spell-check, available within the testing environment. For the purpose of student practice, the materials for the guided practice performance task have been modified so that they can be administered using pencils, paper, and other classroom resources.)

Teacher Directions for the Introductory Classroom Activity

1 Introduce the Topic

Tell the students that they are going to learn and then write about the transcontinental railroad. Write the word *transcontinental* where everyone can see it. Explain that *trans* means “across or from one side to the other.” Then point out that *continental* comes from the word *continent*. So a *transcontinental railroad* is a “railroad that goes from one side of a continent to the other.” Tell the students that the railroad crossed the continent of North America, connecting the East Coast to the West Coast.

Write *1863 to 1869* where everyone can see it, and explain that the railroad was built during these years. Point out that during this time the Civil War was being fought. Tell the students that the discovery of silver in Nevada and an increase in government land grants resulted in many people moving west during this time period.

Explain that *land grants* were “pieces of land given by the government to individuals or companies who were expected to farm or develop the land.” Most of this land was in the western part of the country, and many people moved west to settle on the land.

2 Examine a Source

Tell the students that they will watch a short video (3 minutes, 27 seconds) about the transcontinental railroad together and then discuss it as a group. Distribute the “Video Notes” graphic organizer (see Student Handout 1 on page 94), and tell the students that they can take notes about the video as they watch it.

Show the video “The Transcontinental Railroad.” After viewing the video, lead a whole-class discussion using the following questions:

Question 1: *Why was the transcontinental railroad important to the United States?*

Question 2: *How was the transcontinental railroad built?*

3 Explain the Writing Task

Tell the students that in a few minutes they will view the video again and read an article about the transcontinental railroad. Then the students will use all of the sources, including their notes, to answer some questions and write their own report about the railroad.

Discuss with the students the characteristics of a well-written report. A report:

- Establishes a main idea
- Gives evidence from the sources to support the main idea
- Is well-organized and stays on topic
- Explains information clearly
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

Answer any questions the students might have and then move on to Part 1 of the performance task. Students should keep any notes they took during the Introductory Classroom Activity to help them with their writing.

Teacher Directions for Parts 1 and 2

Part 1 35 MINUTES

1. Distribute copies of the source material, graphic organizers, student directions, and research questions (see Student Handouts 2–5 on pages 95–100) to each student, and have the students write their names on all materials. Note that the students should not receive the directions specific to writing their reports until Part 2.
2. Tell the students to read “Student Directions for Part 1” (see Student Handout 2 on page 95). Remind the students they will have 35 minutes for Part 1 and then tell them to begin.
3. To help the students plan their time, alert them when 15 minutes and 5 minutes remain in Part 1.
4. Signal to let the students know that Part 1 is over.

BREAK

Part 2 70 MINUTES

1. Distribute a copy of “Student Directions for Part 2” (see Student Handout 6 on page 101) to each student. Make sure the students have access to the printed source, graphic organizers, and any other notes, as well as the research questions from Part 1. Remind the students that they may not change the answers to the questions from Part 1.
2. Tell the students to read “Student Directions for Part 2” and explain that their writing assignment is included in these directions.
3. After 15 minutes have elapsed, suggest that the students begin writing their reports.
4. Alert the students when 30 minutes remain.
5. Alert the students when 15 minutes remain, and suggest that they begin revising their reports.
6. Signal to let the students know that Part 2 is over and collect all materials from each student.

Scoring Rubrics for Research Questions

2-Point Research Rubric

Question 1:

What companies built the transcontinental railroad, and how did they share the work? Use details from the sources in your answer.

Evaluate Information/Source	
2	The response gives sufficient evidence of the ability to distinguish relevant from irrelevant information such as fact from opinion. The response includes relevant information about how the transcontinental railroad was built, and is supported with relevant details from the sources.
1	The response gives limited evidence of the ability to distinguish relevant from irrelevant information such as fact from opinion. The response includes limited information about how the transcontinental railroad was built, and is supported with limited relevant details from the sources.
0	The response provides no evidence of the ability to distinguish relevant from irrelevant information such as fact from opinion. The response does not include an explanation of how the transcontinental railroad was built. The response does not include relevant details and may be vague, incorrect, or completely absent.

Sample 2-Point Response

The Central Pacific Railroad and the Union Pacific Railroad were hired to build the transcontinental railroad. The Central Pacific Railroad started laying tracks in Sacramento, California, and worked east. The Union Pacific Railroad started in Omaha, Nebraska, and laid tracks to the west. In 1869, the two railroad companies joined the tracks at Promontory Point, Utah.

Sample 1-Point Response

Two companies raced to build the railroad. They joined the railroad with a golden spike.

Sample 0-Point Response

Work on the transcontinental railroad started after Abraham Lincoln signed the Pacific Railroad Act of 1862.

2-Point Research Rubric

Question 2:

What happened around 1865 that affected work on the railroad? Use details from the sources in your answer.

Evaluate Information/Source	
2	<p>The response gives sufficient evidence of the ability to distinguish relevant from irrelevant information such as fact from opinion.</p> <p>The response includes a thorough explanation that soldiers went to work on the railroad when the Civil War ended, and Chinese workers were hired to fill the labor shortage. The response is supported with relevant details from the sources.</p>

The response does not include relevant details and may be vague, incorrect, or completely absent.</p>

Sample 2-Point Response

There was a shortage of workers because many of them left to mine for silver in Nevada. Chinese immigrants were hired because there weren't enough people to fill all the jobs. After the Civil War ended in 1865, many soldiers came to work on the railroad.

Sample 1-Point Response

Some soldiers worked on the railroad. Thousands of workers were needed.

Sample 0-Point Response

There was a Civil War in the United States.

2-Point Research Rubric

Question 3:

The article says that building the transcontinental railroad was one of the most remarkable accomplishments in the history of the United States. What was so remarkable about it? Use details from the sources in your answer.

Interpret and Integrate Information	
2	<p>The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information.</p> <p>The response includes a thorough explanation of what was remarkable about building the transcontinental railroad, including the challenges and impediments, and the effect of the railroad on commerce; the response is supported with relevant details from the sources.</p>
1	<p>The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information.</p> <p>The response includes a limited explanation of what was remarkable about building the transcontinental railroad, including the challenges and impediments, and the effect of the railroad on commerce; the response is supported with limited relevant details from the sources.</p>

The response does not include relevant details and may be vague, incorrect, or completely absent.</p>

Sample 2-Point Response

The transcontinental railroad connected the two coasts of the United States. The railroad covered thousands of miles and required thousands of workers to build it. The workers sometimes had to work in very difficult conditions. After the railroad was finished, people could travel across the country in less than a week, and businesses could sell things to people living far away. That changed the United States forever.

Sample 1-Point Response

It was very dangerous work to blast through rock to build the transcontinental railroad. Many Chinese laborers worked on the railroad. It was finished in 1869.

Sample 0-Point Response

Nobody had ever built a railroad like this before. It was a big job.

Part 1 (35 minutes)

Your Task

You will watch the video again and then read an article about the transcontinental railroad to learn more about the topic. Then you will answer three research questions about what you have learned. In Part 2, you will write a report about the transcontinental railroad. You will be able to refer to the sources, your notes, and the answers to the research questions when you write your report.

Steps to Follow

In order to plan and write your report, you will do the following:

1. Examine the sources.
2. Take notes about the information in the sources using graphic organizers.
3. Answer three research questions to help you think about key information in the sources.

Directions for Beginning

You will have 35 minutes to examine the sources, take notes, and answer the research questions. Your answers will be scored.

BUILDING THE Transcontinental Railroad

During the 1800s, there were many railroads. However, none of them connected the Pacific Ocean to the Atlantic Ocean. Some people dreamed of connecting the two coasts by rail. Several had even begun the planning. However, it wasn't until President Abraham Lincoln signed the Pacific Railroad Act of 1862 that the first transcontinental railroad got underway.

TWO RAILROAD COMPANIES, ONE GOAL

Leland Stanford has been given a lot of credit for getting the railroad started.

He was the president of the Central Pacific Railroad Company. C. P. Huntington was the vice president, and Mark Hopkins was the treasurer. Charles Crocker was in charge of the work. Together they were called "the big four."

Two railroad companies were hired to do the job. The Union Pacific Railroad Company would work west from Omaha, Nebraska. The Central Pacific Railroad Company, headed by Stanford, would work east from Sacramento, California. The company that laid the most track would receive more money and land grants.

The Central Pacific Railroad Company built east from Sacramento while the Union Pacific Railroad Company built west from Omaha. The two railroads came together at Promontory Point in Utah.

TRANSCONTINENTAL RAILROAD TIMELINE

A CHALLENGING TASK

Most of the Union Pacific Railroad workers were Irish immigrants and Civil War veterans. Bad weather and flooding slowed them down. Bridges were washed out and had to be rebuilt. Strong trees for building railroad ties and bridges were not available in the plains. Sometimes trees had to be hauled from miles away.

The Central Pacific Railroad laid track through California and Nevada and into Utah. They had to build in both the desert and through the Sierra Nevada mountains. The conditions were both harsh and dangerous. Winters in the mountains were very cold with deep snow. In the desert, there was no shade to protect against the heat.

It was also hard for the Central Pacific Railroad Company to find and keep workers. Silver was discovered in Nevada

around this time. Many of the workers left the railroad to mine for silver. There weren't enough men to build the railroad. In 1865 Charles Crocker started to hire Chinese immigrants.

The Chinese workers quickly showed they could work long hours in harsh conditions. One of the most dangerous jobs was using explosives to blast through rock to build tunnels and lay track. Men sometimes had to hang over cliffs by ropes to place the explosives. The Chinese workers did most of the blasting needed to build tunnels and lay track.

By 1869 more than 11,000 railroad workers were Chinese. They proved themselves to be skilled and hardworking laborers who played a significant role in building the transcontinental railroad.

JOINING THE RAILROADS

Both railroads were joined on May 10, 1869, at Promontory Point in Utah. People gathered to celebrate the completion of one of the most remarkable accomplishments in the history of the United States. To honor the occasion, the last railroad tie was hammered down with a golden spike by representatives from both railroads.

**TO HONOR THE OCCASION, THE
LAST RAILROAD TIE WAS HAMMERED
DOWN WITH A GOLDEN SPIKE
BY REPRESENTATIVES FROM
BOTH RAILROADS.**

Train service began five days later. The first trip was from Omaha, Nebraska, to Sacramento, California. It was now cheaper and faster to ride trains across the country than to travel any other way. The sea voyage around the southern tip of South America took at least four months. The land voyage by wagon took about six months. It took less than a week by rail! People and goods could at last move quickly across the country. It's fair to say that the transcontinental railroad changed America forever.

Many people gathered to celebrate the completion of the transcontinental railroad.

Part 2 (70 minutes)

Your Task

You will have 70 minutes to write your report. You should review your notes and sources. Then plan, write, and revise your writing. You may also refer to the answers you wrote to the research questions in Part 1, but you cannot change those answers.

Your Writing Assignment

Your class is getting ready for an open house for parents. Student reports will be on display. Write a report about the transcontinental railroad to present at the open house.

Here are some ideas about what to include in your report:

- How the railroad was built
- What the challenges were in building it
- Why the railroad was so important

Begin Work on Your Report

Manage your time carefully so that you can:

- Plan your report (15 minutes)
- Write your report (40 minutes)
- Revise and edit for a final draft (15 minutes)

You may use a dictionary to check spelling.

Things to Remember

Remember that a well-written report:

- Establishes a main idea
- Gives evidence from the sources to support the main idea
- Is well-organized and stays on topic
- Explains information clearly
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

Considerations:

If you notice many students having difficulty writing notes, call for the class’s attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate section on the chart. As necessary, encourage the students to reread the article to collect the information they need.

- Q *How might you use your notes to help you organize your report?*
- Q *What information from your notes or the sources might you use to explain [the challenges of building the railroad]?*

Unit

Opinion Writing

During this one-week unit, the students prepare for the opinion writing portion of a standards-based end-of-year writing performance task. They discuss what they have learned about opinion writing and complete a practice performance task as a class, guided by the teacher. The students begin by reading and discussing a blog, an interview, and a letter to the editor on the topic of whether the school board should buy educational video games and the electronic devices needed to play them in the classroom. They each take notes about what they learn, and use information from the sources and their notes to answer research questions and write an opinion essay about the topic. Socially, the students listen respectfully to the opinions of others and share their own, make decisions with their partners, and explain their thinking.

Writing Focus

- Students reflect on what they have learned about opinion writing.
- Students read and discuss a blog about the topic.
- Students read an interview and letter to the editor about the topic, and take notes.
- Students answer research questions about the topic, and plan and write opinion essays.
- Students revise and proofread their writing.

Social Development Focus

- Students listen respectfully to the opinions of others and share their own.
- Students make decisions together.
- Students explain their thinking.

DO AHEAD

- ✓ Prior to Day 1, read “Guided Practice Performance Task: Opinion Writing” on pages 136–140. This unit’s lessons are based on this guided practice performance task. During the unit, the students complete this performance task with instructional support and guidance from the teacher. For more information about how the performance task is used in the lesson, see “About the Guided Practice Performance Task” on page 112.
- ✓ Prior to Day 1, read the blog *The Teacher’s Room* (BLM1) and the interview “Q&A with Mrs. Garcia, 5th Grade Teacher” (BLM3) to familiarize yourself with the content in each source.
- ✓ Prior to Day 1, prepare a sheet of chart paper so that it resembles the “Interview Notes” graphic organizer (BLM4) the students will use.
- ✓ Prior to Day 1, visit the CCC Learning Hub (ccclearninghub.org) to access and print the student handouts (see “Reproducibles” on page 108). Make a class set of copies of the handouts listed, except for the “Student Directions for Part 1” (BLM2). You might want to have extra copies of the graphic organizers available for the students.
- ✓ Prior to Day 1, prepare a class set of writing folders for the students to use to organize their materials throughout the week.
- ✓ Prior to Day 2, read the letter to the editor “Video Games and Education” (BLM5) to familiarize yourself with the content.
- ✓ Prior to Day 2, prepare a sheet of chart paper so that it resembles the “Letter to the Editor Notes” graphic organizer (BLM6) the students will use.
- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA1) on page 156.
- ✓ Prior to Day 3, prepare a sheet of chart paper so that it resembles the “Research Questions” sheet (BLM7) the students will use. You may want to write each question on a separate piece of chart paper.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2) on page 157.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA3) on page 158.

“If you’re not assessing all the time, how do you know if [students] are getting it or not? We need to know what they know so we can teach them what they don’t know.”

— Jan Borelli, educator

All educators recognize the importance of assessing students to inform classroom instruction, but there is less agreement about the value of standardized testing as an assessment tool. What is your opinion of standardized testing? Do standardized tests help you “know what they know”? Do you have concerns about these tests? Write your thoughts and feelings about standardized testing in your journal.

Day 1

Reading a Blog and Interview and Taking Notes

Materials

- Copy of the blog *The Teacher's Room* (BLM1) for each student
- Copy of the interview "Q&A with Mrs. Garcia, 5th Grade Teacher" (BLM3) for each student
- Chart paper and a marker
- "The Teacher's Room Blog" chart (WA1)
- "Student Directions for Part 1" chart (WA2; also available as BLM2)
- "Q&A with Mrs. Garcia, 5th Grade Teacher" chart (WA3)
- "Interview Notes" chart, prepared ahead
- Copy of "Interview Notes" graphic organizer (BLM4) for each student

Teacher Note

▪ A writing folder for each student
We recommend that you teach this unit after the class completes the Opinion Writing genre unit.

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 6 and then finish the lesson later in the day or the next day.

Teacher Note

The partners you assign today will stay together for the entire unit.

In this lesson, the students:

- Work with new partners
- Reflect on what they know about good opinion writing
- Read and discuss a blog
- Read and discuss an interview
- Take notes on the interview as a class and in pairs
- Explain their thinking

ABOUT THE GUIDED PRACTICE PERFORMANCE TASK

During this unit, the students complete an opinion writing performance task as a class with instructional support from you. The purpose for this guided practice performance task is to prepare the students for standards-based end-of-year performance tasks they will be required to complete independently. Five days of instruction are provided during which the students' writing is neither timed nor scored. This unit's performance task is not computerized and can be administered in a classroom environment, using pencils, paper, and other classroom resources.

The topic of the performance task is whether schools should spend money for educational video games and the devices needed to play them. The task consists of three sections: an Introductory Classroom Activity (students are introduced to the topic and examine one of the sources), Part 1 (students examine additional sources and answer research questions about the topic), and Part 2 (students write their own opinion essays). For more information about each section, see "Task Overview" on page 136. For the complete performance task on which this unit's instruction is based, see "Guided Practice Performance Task: Opinion Writing" on pages 136-140.

GETTING READY TO WRITE

1 Pair Students and Introduce the Performance Task

Randomly assign partners and make sure they know each other's names. Have the students bring their pencils and sit at desks with partners together.

Tell the students that at the end of the school year, all the students in their grade will complete a reading and writing assignment called a *performance task*. (You might explain that a *task* is a “job that needs to be done.”) Explain that the purpose for the performance task is to show how well they are developing and growing as readers and writers. This is important information for them as students, as well as for their families, teachers, and principal.

Remind the students that for the past several weeks they have been doing opinion writing, and explain that opinion writing is one type of writing they will do on the end-of-year performance task. Tell the students that during the next several days they will learn strategies for doing well on the opinion writing portion of the performance task.

2 Discuss What the Class Has Learned About Opinion Writing

Point out that the students have learned a lot about how to write good opinion pieces, and explain that they can use what they have learned to help them do well on the performance task. Ask and discuss the questions that follow as a class. Encourage the students to use the discussion prompts they have learned as they talk to one another.

- Q *What have you learned about good opinion writing?*
- Q *What did you do to make your opinion piece interesting and easy to read?*

Students might say:

“It clearly states an opinion in the opening sentence or paragraph.”

“I agree with [Lani]. It also gives several reasons that support the opinion.”

“It uses transition words to connect thoughts.”

“In addition to what [Miles and Phoebe] said, it is clearly organized and makes sense.”

“It often restates the opinion at the end of the essay.”

As the students respond, record their ideas on a sheet of chart paper titled “What We Have Learned About Opinion Writing.” If the students do not mention the following qualities of good opinion writing, briefly review them and add them to the chart.

Teacher Note

The discussion prompts are:

- “I agree with _____ because...”
- “I disagree with _____ because...”
- “In addition to what _____ said, I think...”

What We Have Learned About Opinion Writing

- Clearly states an opinion in the opening sentence or paragraph
- Gets the reader interested in knowing more
- Gives reasons that support the opinion
- Uses transition words
- Is clearly organized and makes sense
- Includes a conclusion that wraps up the writing and restates the opinion
- Follows writing rules for spelling, punctuation, capitalization, and grammar

Tell the students that you will post the chart where everyone can see it so that they can keep what they have learned about good opinion writing in mind as they prepare for the opinion writing performance task.

3 Introduce the Topic of the Guided Practice Performance Task

Explain that today you will introduce the students to the topic of the performance task, and they will read a blog and an interview about the topic. In the coming days, they will learn more about the topic by reading a letter to the editor. Then, as a class, they will use what they learned to answer research questions and write essays about the topic.

Tell the students that they are going to read about using educational video games in school and then write opinion essays about whether their school board should spend money to buy them.

Ask:

Q *Do you play video games at home? If yes, what are your favorite video games to play?*

Point out that there are many different types of video games and that educational video games are a type of video game that is sometimes used in schools. Explain that educational video games are designed to be fun and to help you practice a skill or teach you something new.

Write the word *device* where everyone can see it, and explain that a *device* is “something made for a specific purpose.” Tell the students that there are many electronic devices that can be used for playing educational video games in school, such as computers, game systems, tablets, and smartphones.

4 Introduce and Read the Blog

Tell the students that the first source of information about educational video games that they will read today is a blog. Explain that a *blog* is a “website on which people share opinions, thoughts, and information.” Display “*The Teacher’s Room Blog*” chart (🎧 WA1) and distribute a copy of the blog (BLM1) to each student. Explain that the blog they will read is called “*The Teacher’s Room*” and that the author of the blog is a teacher named Diana Wu. Point to the “Welcome to *The Teacher’s Room*” section and tell the students that authors of blogs usually include a few sentences to introduce themselves to the reader and to explain why he or she is writing the blog; then read the section aloud.

Point to the blog post written by Diana Wu and the comments that follow it. Explain that the students will read one of Ms. Wu’s blog posts, as well as the comments from four teachers about the topic of her post—using educational video games in the classroom. Explain that the four teachers write about the reasons for and against using educational video games in the classroom. Explain that the “reasons for” are called *pros*, and the “reasons against” are called *cons*. Tell the students that for this task you will read the blog aloud, but when they do performance tasks on their own, they will read any source materials independently. Ask them to follow along as you read the blog aloud, slowly and clearly. Then ask:

Q *What did you learn from reading the blog post and the comments?*

Students might say:

“The teachers have different opinions about using educational video games in school.”

“One teacher says that math video games can be fun for kids and get them motivated about math.”

“Another teacher likes the games because they allow kids to learn at their own pace.”

If necessary, point out that teachers have many different opinions about using educational video games in the classroom.

5 Introduce Student Directions for Part 1

Display the “Student Directions for Part 1” chart (🎧 WA2). Explain that these are directions for the first part of the performance task in which the students examine two more sources about educational video games and write responses to research questions. Tell the students that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, you will continue to read the sources aloud, rather than have the students read the sources on their own, and they will take more time than the directions say to complete the steps. Explain that when the students do performance tasks on their own later, they will follow the directions exactly.

Teacher Note

You might explain that a *source* is “something that information comes from, such as a book, video, article, or website.”

Teacher Note

The purpose for showing the “Student Directions for Part 1” chart (WA2) is to briefly introduce the students to the type of directions they will encounter when they do performance tasks by themselves. It is not necessary to take the students through all the directions now. They will have the experience of “following” the directions over the next few days. As you complete various parts of the directions, you might redisplay the chart and point out the steps the students have completed.

6 Introduce the Interview and Read It Aloud with Stops

Tell the students that the next source of information they will read about educational video games is an interview with a fifth-grade teacher named Mrs. Garcia. Display the “Q&A with Mrs. Garcia, 5th Grade Teacher” chart (WA3) and distribute a copy of the interview (BLM3) to each student. Tell the students that Mrs. Garcia was interviewed on a radio program called *Education Today Radio* by a man named Mr. Spence. Explain that in the interview, Mrs. Garcia describes her experience with using educational video games in her classroom.

Ask the students to follow along as you read the interview aloud, and explain that again you will stop to have pairs discuss what they are learning. Then read the title and the first part of the interview aloud, slowly and clearly. Stop after:

“... the game stirred up so much interest in how irrigation works that we decided to make it the topic of a class project.”

Ask:

Q *What did you learn about Mrs. Garcia’s experience with video games in the part of the interview you just heard? Turn to your partner.*

Without sharing as a class, continue reading to the end of the interview. Following the same procedure, have the students discuss what they learned.

WRITING TIME

7 Reread the Interview and Take Notes as a Class and in Pairs

Post the “Interview Notes” chart that you prepared ahead and distribute a copy of the “Interview Notes” graphic organizer (BLM4) to each student.

Tell the students that you will reread the interview, and that as a class they will use this note-taking chart, called a *graphic organizer*, to take notes about what they are learning about using educational video games in school. Explain that the graphic organizer has columns to write the pros and the cons of using the games in the classroom. Explain that, as you read the interview, you will stop in the middle so that the students can discuss what they have learned and record their notes on their graphic organizers. Then you will do the same with the second half of the interview.

Read the interview and stop after:

“... the game stirred up so much interest in how irrigation works that we decided to make it the topic of a class project.”

Discuss as a class:

Q *What did you learn about using educational video games in school in the part of the interview you just heard?*

Students might say:

"I learned that educational video games can help make practicing math facts fun. I think that's a reason for using them because it will make kids want to practice more."

"Some people think that kids won't remember what they learn in video games. That's a reason not to use them in school."

"Mrs. Garcia tells about a video game that allows her students to work together in teams to solve problems. That's a reason to use the games."

As the students respond, model writing their responses as notes on the chart, and then ask:

Q *Is the fact that [some games allow students to work cooperatively] a pro or a con for using the games? Why do you say that?*

Have the students copy the notes onto their own graphic organizers.

Continue reading to the end of the interview. Have the students discuss what they learned in pairs (rather than as a class) and record their notes on their graphic organizers. Then have a few volunteers share what they discussed with the class and explain where on their graphic organizers they wrote their notes. As they share, add their ideas to the chart.

Interview Notes	
Pros (Reasons for)	Cons (Reasons against)
<ul style="list-style-type: none">- make practicing a skill (like math facts) fun- students can work at their own pace- some are team-based and teach students to work together- some allow students to solve problems together- help students get interested in learning more about a topic- provide fun learning experiences that motivate students- help students learn how to use technology	<ul style="list-style-type: none">- not all schools have the technology needed to use educational video games

Teacher Note

You may want to review that notes are most helpful when they are brief and written in the writer's own words rather than copied exactly from the source.

Teacher Note

Save the “What We Have Learned About Opinion Writing” chart and the “Interview Notes” chart to use throughout the unit.

Day 2

Materials

- Copy of the letter to the editor “Video Games and Education” (BLM5) for each student
- “Interview Notes” chart from Day 1
- “Video Games and Education” chart (WA4)
- “Letter to the Editor Notes” chart, prepared ahead
- Copy of “Letter to the Editor Notes” graphic organizer (BLM6) for each student
- A marker
- “Class Assessment Record” sheet (CA1)

Tell the students that tomorrow they will learn more about using educational video games in the classroom by reading and discussing a letter to the editor of a newspaper.

Distribute a writing folder to each student and explain that this is where the students will keep all of their materials for the week. Have the students put their materials inside their folders and keep them in their desks.

SHARING AND REFLECTING

8 Reflect

Ask and briefly discuss:

Q *What did you and your new partner do to work well together today?*

Reading a Letter to the Editor and Taking Notes

In this lesson, the students:

- Review what they have learned about using educational video games in the classroom
- Read and discuss a letter to the editor about the topic
- Take notes on the letter to the editor in pairs
- Make decisions together
- Work in a responsible way

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Review that the class is working together to complete an opinion writing task about the use of educational video games in the classroom to prepare for the end-of-year performance task. Remind the students that yesterday they discussed what they have learned about good opinion writing. They also read a blog and an interview about using educational video games in the classroom, discussed them as a class, and took notes on the interview.

Direct the students’ attention to the “Interview Notes” chart from Day 1. Briefly review the notes by asking:

Q *What did you learn about using educational video games in school from the interview we read yesterday?*

Tell the students that today they will read another source of information about educational video games. Remind them that they will then use the information they have collected to answer research questions and write essays about whether the school board should buy the electronic devices needed to use educational video games in school.

2 Introduce the Letter to the Editor and Read It Aloud with Stops

Tell the students that today's source is a letter to the editor of a newspaper. Display the "Video Games and Education" chart (WA4) and distribute a copy of the letter to the editor (BLM5) to each student. Explain that the author, Bob Gebhart, wrote the letter to express his opinions about using educational video games in the classroom. Ask them to follow along as you read the letter aloud, and explain that you will stop twice to have pairs discuss what they are learning.

Read the title of the letter and the first three paragraphs aloud, slowly and clearly. Stop after:

"But we can't do this at school unless we keep games out of the classroom."

Ask:

Q *What did you learn about Mr. Gebhart's opinion of educational video games in the part of the letter you just heard? Turn to your partner.*

Without sharing as a class, continue reading to the end of the letter and follow the same procedure to have the students discuss what they learned.

WRITING TIME

3 Reread the Letter and Take Notes in Pairs

Post the "Letter to the Editor Notes" chart that you prepared ahead and distribute a copy of the graphic organizer (BLM6) to each student.

Point out that this graphic organizer is organized just like the "Interview Notes" graphic organizer. Explain that as you read the letter again you will stop, and partners will discuss what they learned and then write notes in the appropriate places on their own graphic organizers.

Read the letter and stop (as you did before) after:

"But we can't do this at school unless we keep games out of the classroom."

Ask the following questions one at a time, without discussing them as a class:

Q *What did you learn about Mr. Gebhart's opinion of educational video games in the part of the letter you just heard?*

Q In which column of the graphic organizer will you write a note about what you learned, and why will you write the note there?

Say “Turn to your partner,” and give partners a few minutes to share their thinking and write notes about what they learned on their graphic organizers. As they work, circulate, observe, and offer assistance.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Are partners able to agree about what information to include in their notes?
- Are they recording notes in the appropriate section on their graphic organizers?
- Are they writing notes in their own words?

If you notice many students having difficulty writing notes, call for their attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate section on the chart. As necessary, encourage the students to reread the letter to collect the information they need.

Record your observations on the “Class Assessment Record” sheet (CA1); see page 156.

After a few minutes, ask volunteers to share their thinking about what they learned and where they recorded notes on their graphic organizers. Then add their ideas to the chart.

Continue reading to the end of the letter and using the same procedure, stop, discuss, and take notes.

Letter to the Editor Notes	
Pros (Reasons for)	Cons (Reasons against)
- some are designed well and allow players to solve problems	- school is not for “playing” - they discourage kids from going outside and exercising

(continues)

(continued)

Letter to the Editor Notes	
Pros (Reasons for)	Cons (Reasons against)
	<ul style="list-style-type: none">- that is all kids will want to do- parents can't control the amount of time kids are playing them at school- the devices needed to play them are expensive- money should be spent on books not games- most don't require thinking to win- more research is needed to determine if they increase student learning

Tell the students that tomorrow they will work together, using the sources and their notes, to answer research questions about using educational video games in the classroom. Have them put their materials inside their folders.

SHARING AND REFLECTING

4 Reflect

Ask and briefly discuss:

- Q *Why do you think it is a good idea to read a source more than once, like we did today?*
- Q *What did you do today to work in a responsible way?*

Teacher Note

Save the "Letter to the Editor Notes" chart to use throughout the rest of the unit.

Day 3

Writing Responses to Research Questions

Materials

- “Interview Notes” and “Letter to the Editor Notes” charts from Days 1 and 2
- “Video Games and Education” chart (WA4) from Day 2
- “Q&A with Mrs. Garcia, 5th Grade Teacher” chart (WA3) from Day 1
- “The Teacher’s Room Blog” chart (WA1) from Day 1
- “Research Questions” chart, prepared ahead
- Copy of “Research Questions” sheet (BLM7) for each student
- A marker
- “Class Assessment Record” sheet (CA2)

Teacher Note

The consortia that are developing the end-of-year performance tasks plan to deliver the assessment electronically. This means that individual students will have computer or tablet access to all research sources as they respond to questions and write extended pieces.

In this lesson, the students:

- Read and discuss research questions about using educational video games in the classroom as a class
- Identify words in the questions that give clues about what to write
- Write responses to the questions as a class and independently
- Reflect on and revise their responses

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Remind the students that they are learning strategies they can use to do well on the end-of-year performance task. Review that the students read a blog, an interview, and a letter to the editor about using educational video games in the classroom and took notes about what they learned. Explain that today they will use their notes and the sources to answer research questions about using video games in school.

2 Model Reading a Question and Writing a Response

Post the “Research Questions” chart that you prepared ahead. Distribute a copy of the “Research Questions” sheet (BLM7) to each student, and have the students write their names and the date on their sheets. Explain that these are the questions the students will answer in Part 1 of the performance task.

Tell the students that the first step in writing a response to a question is to read and think carefully about the question. Point to Question 1 on the chart and ask the students to listen closely as you read it aloud twice. Discuss:

Q *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, point out that the question is asking for “Mrs. Garcia’s opinion about using educational video games in the classroom.” Underline that key phrase on the chart.

Point to the statement following the question and read it aloud. Explain that “provide two reasons she gives for her opinion” means that the students should look for at least *two* reasons in their notes and the interview itself to write their responses.

Ask the students to watch as you model writing a response to the first question on the chart, thinking aloud as you write. Display the “Q&A with Mrs. Garcia, 5th Grade Teacher” (WA3) and be sure to model reviewing your notes and the interview for the information you need.

You might say:

"I know that the question is asking for Mrs. Garcia's opinion about using educational video games in the classroom. In my notes on her interview, I wrote many more pros than cons, so Mrs. Garcia clearly supports using educational video games. I'll write: *Mrs. Garcia thinks that using educational video games in the classroom is a good idea.* That answers the question, but I need to write two reasons she gives for her opinion. I'll write: *One reason is that certain educational video games allow students to work together to solve problems.* Now I'll add another reason that Mrs. Garcia mentioned at the end of her interview. I'll write: *Mrs. Garcia also points out that educational video games can help students learn to use technology, which is an important skill.*"

Research Questions

1. What is Mrs. Garcia's opinion about using educational video games in the classroom? Provide two reasons she gives for her opinion.

Mrs. Garcia thinks that using educational video games in the classroom is a good idea. One reason is that certain educational video games allow students to work together to solve problems. Mrs. Garcia also points out that educational video games can help students learn to use technology, which is an important skill.

3 Read and Discuss Questions as a Class

Explain that the students will read and discuss Questions 2 and 3 as a class. Then, during Writing Time, the students will work in pairs to discuss what they might write in response to those questions, and each write their own responses on their "Research Questions" sheets.

Point to Question 2 on the "Research Questions" chart and read it aloud twice. Ask and discuss:

Q *What information is this question asking for?*

Have a few volunteers share their thinking. If necessary, point out that the question is asking for "Mr. Gebhart's opinion" and "two reasons" he gives for his opinion. Underline those key phrases on the chart.

Follow the same procedure to discuss Question 3 as a class. If necessary, explain that the question is asking for the "many things schools must consider to help make educational video games successful learning tools for students" and for "details from the sources."

WRITING TIME

4 Discuss Questions in Pairs and Write Answers

Have partners discuss what they might write in response to Questions 2 and 3. Review that each student will write his own response to the questions on his “Research Questions” sheet. Remind the students to use details from their notes and from the sources in their responses. As the students work, circulate, observe, and offer assistance.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students’ responses indicate that they understand what each question is asking?
- Are they able to incorporate information from their notes and the sources in their responses?

If you notice the students struggling to write responses, support them by asking questions such as:

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the source can you find that information?*
- Q *How might you include information from your notes and the sources in your answer?*

Record your observations on the “Class Assessment Record” sheet (CA2); see page 157.

5 Facilitate Guided Rereading and Revising of Responses

Tell the students that they will now reread their responses to Questions 2 and 3 and then reflect on the quality of their responses by thinking about the questions you will ask.

Have the students quietly reread their responses to Question 2 and look up when they are finished. Ask the following questions one at a time, pausing after each one to give them a moment to review their writing and, if necessary, their sources and notes:

- Q *Do you think your response does a good job of clearly stating Mr. Gebhart’s opinion about using educational video games in the classroom? If not, what might you write instead?*

Q Does your response include at least two reasons Mr. Gebhart gives for his opinion? If not, what reasons might you add?

Without discussing as a class, have the students revise their responses as necessary. Remind them to refer to their sources and notes if needed.

Using the same procedure, ask the following questions and then have the students reflect on and revise their responses to Question 3:

Q Do you think your answer clearly explains what schools must consider to help make educational video games successful learning tools for students? If not, what might you add or take out to improve it?

Q Do you think your response includes enough details from the sources? If not, what details might you add?

SHARING AND REFLECTING

6 Share Responses and Reflect

After several minutes, have a few volunteers share with the class what they wrote in response to Question 2. As they share, use their ideas to model writing a well-crafted response to the question on the “Research Questions” chart.

Following the same procedure, model writing a response to Question 3.

Research Questions

2. Bob Gebhart wrote the letter to the editor. What is Mr. Gebhart's opinion about using educational video games in the classroom? Provide two reasons he gives for his opinion.

Bob Gebhart is against using educational video games in the classroom. One reason is that he thinks they keep children from playing outside and getting exercise. Another reason is that the devices needed to play the games are expensive, and he thinks schools should be spending money on more and better books.

3. There are many things schools must consider to help make educational video games successful learning tools for students. In addition to buying the actual games, what else do schools need to think about and plan for? Use details from the sources in your answer.

Schools need enough electronic devices for students to play games. Teachers need to know how to use the devices and which games are best for learning.

Teacher Note

Save the “Research Questions” chart to use on Day 4.

Day 4

Materials

- “Student Directions for Part 2” chart (WA5)
- Copy of “Student Directions for Part 2” (BLM8) for each student
- “Interview Notes,” “Letter to the Editor Notes,” and “Research Questions” charts from Day 3
- “Video Games and Education” chart (WA4) from Day 2
- “Q&A with Mrs. Garcia, 5th Grade Teacher” chart (WA3) from Day 1
- “*The Teacher’s Room* Blog” chart (WA1) from Day 1
- Lined writing chart (WA6) for modeling
- “Writing Time” chart (WA7)
- Supply of lined paper for writing essays
- “Class Assessment Record” sheet (CA3)

Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 3 and then finish the lesson later in the day or the next day.

Have the students reflect on their work by asking:

Q *Do you think your notes helped you write good responses to the questions? Why or why not?*

Tell the students that tomorrow they will use the sources, their notes, and their answers to the questions to each write opinion essays about whether the school board should buy the electronic devices needed to play educational video games in the classroom. Have them put their materials inside their folders.

Writing an Essay

In this lesson, the students:

- Plan and write opinion essays about using educational video games in schools
- Include qualities of a well-written opinion essay in their writing
- Reflect on how they felt about writing their essays
- Respectfully consider the opinions of others

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Point to the “Research Questions” chart and remind the students that yesterday they completed the first part of the guided practice performance task—answering questions about the pros and cons of using educational video games in school. Explain that today partners will work together on the second part of the task—writing opinion essays about the topic.

2 Introduce and Discuss the Essay-writing Task

Display the “Student Directions for Part 2” chart (WA5) and distribute a copy of the directions (BLM8) to each student. Explain that these are directions for the second part of the performance task, in which the students each write an opinion essay on the topic of using educational video games in schools. Review that, because they are working together to practice for the end-of-year performance task, they will not follow these directions exactly. For example, they will take more time than the directions say to write their essays. Remind the students that when they do performance tasks on their own later, they will need to follow the directions exactly.

Ask the students to listen as you read from each section of the directions aloud, using the following procedure:

1. Read the section “Your Task” aloud and review that the students may use the sources, their notes, and their answers to the research questions to help them write their essays. Remind the students that when they do performance tasks on their own they will be timed, but that today they will not be.
2. Read the section “Your Writing Assignment” aloud and review that each student needs to write an essay that tells his opinion about whether the school board should or should not buy educational video games and the electronic devices needed to play them in classrooms. The students will need to support their opinions with reasons from the sources—the blog, interview, and letter.
3. Read the section “Begin Work on Your Essay” aloud, point out the information that is relevant for this performance task (for example, “plan,” “write,” and “revise”), and underline it.
4. Read the list of qualities of a well-written opinion essay aloud. Point out that the list is similar to the list the class created on the “What We Learned About Opinion Writing” chart. Tell the students that they may refer to both lists as they write their essays.

Ask and briefly discuss:

- Q** *What questions do you have about the directions for writing the opinion essay?*

Tell the students that they will do the writing task together as a class and that this will help prepare them to do tasks like this on their own.

3 Model Planning and Starting the Essay

Tell the students that you will model writing the first two paragraphs of the essay. Remind them that the essay needs to state an opinion clearly and support the opinion with reasons from the sources. Tell them that you will write an opening paragraph that states your opinion, and then you will write a paragraph describing one reason that supports your opinion. Direct the students’ attention to the qualities of a well-written opinion essay in the directions (BLM8) and explain that as you write the essay, you will include these qualities in your writing.

Display the lined writing chart (WA6) and model writing the first two paragraphs of the essay. Think aloud as you write, and remember to model reviewing your notes and the sources to find the information you need. Be sure to include qualities of a well-written opinion essay, such as clear organization and an opening paragraph that states your opinion.

You might say:

"My opening paragraph needs to state my opinion on the topic clearly. I also want the opening to get the reader interested in reading my essay. I'll write: *Our school board should definitely buy educational video games and the devices we need to play them in our classrooms! Educational video games are the learning tool of the future, and every student should have the opportunity to benefit by playing them in school.* This shows I understood the assignment because I've stated my opinion clearly in the opening sentence. I think by saying that educational video games 'are the learning tool of the future,' I will make my reader want to keep reading.

The next paragraph will describe one reason that supports my opinion. I have a lot of information about the pros of using educational video games in my notes. One important pro is that they let students work at their own pace. I'll write: *One of the most important benefits of educational video games is that they allow students to learn at their own pace.* I will use Mrs. Garcia's point that this keeps students from getting bored or frustrated. I'll add: *When students can work at their own pace, they are less likely to get frustrated or bored in school."*

WA6

Our school board should definitely buy educational video games and the devices we need to play them in our classrooms! Educational video games are the learning tool of the future, and every student should have the opportunity to benefit by playing them in school.

One of the most important benefits of educational video games is that they allow students to learn at their own pace.

When students can work at their own pace, they are less likely to get frustrated or bored in school.

Teacher Note

You might point out that the students' opinions may be different from yours and that is fine. Remind them that what is important is that they support their opinions with reasons from the sources.

After you have modeled writing the first two paragraphs of the essay, stop and explain that during Writing Time today the students will write their own opinion essays. Explain that the students will use their notes and sources to each write an opening paragraph that clearly states their opinions and then describe several reasons that support their opinions. Use "Think, Pair, Share" to discuss:

Q *What might you write about in your essay today?* [pause] *Turn to your partner.*

After a few moments, signal for the students' attention and remind them that each student will write her own essay. Explain that you will also finish your essay and share it with the class tomorrow.

WRITING TIME

4 Write Opinion Essays

Explain that when the students complete the actual performance task they will write their essays using computers, but that today they are practicing on paper. Distribute loose, lined sheets of paper and explain that they will use this paper to write their essays. Display the “Writing Time” chart (WA7) and have them work quietly for 30–40 minutes. As they work, circulate, observe, and offer assistance.

WA7

Writing Time

- Reread the writing assignment in “Student Directions for Part 2.”
- Write an opening paragraph that states your opinion and gets the reader interested in reading more.
- Give reasons to support your opinion.
- Include transition words and other qualities of a well-written essay in your piece.
- Write a conclusion that wraps up the writing.

CLASS ASSESSMENT NOTE

Observe the students and ask yourself:

- Does the students’ writing indicate that they understand the task?
- Are they able to clearly state their opinion in the opening paragraph of the essay?
- Does their writing stay on topic?
- Are they able to incorporate information from their notes and the sources into their essays?

If you notice a student having difficulty starting to write after 5–10 minutes, help stimulate his thinking by asking questions such as:

- Q *What is the topic of your essay? What might you write in your opening paragraph to clearly state your opinion about the topic?*
- Q *How might you use your notes to help you decide what to write in your essay?*
- Q *What information from your notes or the sources can you use to support your opinion?*

Record your observations on the “Class Assessment Record” sheet (CA3); see page 158.

Signal the end of Writing Time. Tell the students that tomorrow they will have time to revise and proofread their essays. Have them put their essays and other materials in their folders.

Teacher Note

Prior to teaching the Day 5 lesson you will need to write the rest of your story (see the diagram in Day 5, Step 2 on page 131). Include reasons for your opinion, transition words, and other qualities of a well-written opinion essay in your piece. Save the completed essay on the lined writing chart (WA5).

Day 5

Materials

- Completed essay on the lined writing chart (WA6) from Day 4
- “Student Directions for Part 2” chart (WA5) from Day 4

SHARING AND REFLECTING

5 Reflect on Writing Essays

Ask and briefly discuss:

- Q *What did you enjoy about writing your opinion essay today? What did you find challenging?*
- Q *What did you and your partner do to show respect for each other’s opinions as you shared ideas about your essays?*

Revising and Proofreading an Essay

In this lesson, the students:

- Revise their essays
- Proofread their essays
- Express interest in and appreciation for one another’s writing
- Reflect on what they have learned and how that will help them on the end-of-year performance task

GETTING READY TO WRITE

1 Briefly Review

Have the students bring their folders and pencils, and sit at desks with partners together. Remind them that yesterday they each planned and wrote an opinion essay about whether the school board should buy educational video games and the electronic devices needed to play them in school. Explain that today they will have the opportunity to revise and proofread their essays.

2 Discuss Your Essay

Display the completed essay on the lined writing chart (WA6) from Day 4 and tell the students that yesterday you completed your opinion essay. Ask them to follow along as you read it aloud. Review that the opening paragraph clearly states your opinion and gets the reader interested in reading more. In the remaining paragraphs, point out the clear organization, the reasons to support your opinion, the use of transition words to connect ideas, and other qualities of a well-written essay.

You might say:

"I clearly stated my opinion about educational video games in the first paragraph. I tried to get the reader interested by saying that *educational video games are the learning tool of the future*. I think that will make the reader want to keep reading to find out more.

My essay is clearly organized. After stating my opinion in the introduction, I wrote a paragraph for each of the reasons supporting my opinion. I also stayed on the topic throughout the essay.

I used details from the sources in each paragraph. For example, when stating that educational video games are motivating for kids, I referred to Mrs. Garcia's point about video games being a fun way for kids to practice their math facts. Also, in the third paragraph I used her point that some educational video games require students to solve problems and work together as a team.

I used transition words to connect one idea to the next. For example, I wrote *one*, *another*, and *finally* at the beginning of each paragraph to help the reader keep track of the reasons for my opinion. In the third paragraph, I used the phrase *in addition* in my list of the skills educational video games require.

My concluding sentence, *For all of these reasons, I think our school board should buy educational video games and the devices we need to play them in the classroom*, restates my opinion and lets the reader know the piece has come to an end."

WA6

Our school board should definitely buy educational video games and the devices we need to play them in our classrooms! Educational video games are the learning tool of the future, and every student should have the opportunity to benefit by playing them in school.

One of the most important benefits of educational video games is that they allow students to learn at their own pace. When students can work at their own pace, they are less likely to get frustrated or bored in school.

Another great thing about educational video games is that some require students to solve problems. All teachers and parents will be happy about that! In addition, there are games in which students need to work as a team and cooperate with each other in order to be successful. Those kinds of learning experiences are very useful for students.

WA6

Finally, video games can motivate students to practice a skill. For example, students who need to practice their math facts might be more motivated if they are allowed to practice them using an educational video game. For all of these reasons, I think our school board should buy educational video games and the devices we need to play them in the classroom.

WRITING TIME

3 Facilitate Guided Rereading of Essays

Tell the students that they will have time today to finish their essays, but that first they will reread what they have written. Then you will ask some questions for them to think about. Have them quietly reread their writing and look up when they are finished.

Ask the following questions one at a time, giving the students 1–2 minutes after each question to quietly review their writing and mark passages:

- Q** *Do you think your opening paragraph states your opinion clearly and gets the reader interested in reading more? If not, what might you write instead?*
- Q** *Will the organization of your essay be clear to the reader? If you don't think the organization is clear, what might you move around to make it clearer? Underline parts of the essay you might change or move around.*
- Q** *Are there places where you gave, or could give, reasons from the sources to support your opinion? Put a check mark in the margin next to those places.*
- Q** *Are there places where you used, or could use, transition words to connect one idea to the next? Put a star in the margin next to each of those places.*
- Q** *Do you think your conclusion does a good job of wrapping up your writing and letting the reader know that the essay has come to an end? If not, what might you write instead?*

Without discussing as a class, have the students resume writing for another 10–15 minutes.

4 Facilitate Proofreading of Essays

Display the “Student Directions for Part 2” chart (🗨️ WA5) and remind the students that it states that a well-written essay “follows rules for spelling, punctuation, capitalization, and grammar.” Explain that the students will proofread their essays to find and correct any spelling, punctuation, capitalization, and grammar errors. Ask:

- Q *Why will you want to proofread your essay before turning it in?*
- Q *What will you check for when you are proofreading?*

Students might say:

“Mistakes could make my writing harder to read and understand.”

“I will check to make sure I’ve capitalized names and the beginning of every sentence.”

“In addition to what [Lenny] said, I want to make sure every sentence ends with a period, a question mark, or an exclamation point.”

“In addition to what [Lenny and Karis] said, I want to correct any spelling errors I find.”

Give the students 5–10 minutes to proofread their essays and make any necessary corrections. As they work, circulate, observe, and offer assistance.

SHARING AND REFLECTING

5 Share Writing and Reflect

Have a few volunteers share their essays with the class; then ask:

- Q *What qualities of good opinion writing did you notice in [Takashi’s] essay?*
- Q *What questions can you ask [Takashi] about his writing?*

Review that this week the students have been learning strategies for doing well on the end-of-year performance task. Ask and briefly discuss:

- Q *What have you learned this week that will help you do well on the performance task? Turn to your partner.*

EXTENSIONS

Complete a Diagnostic Proofreading Passage

To assess how your students are progressing with Language Standards, you might choose to administer a Diagnostic Proofreading Passage in Appendix C of the *Skill Practice Teaching Guide* (also see “Assessing Language Skills” on page xi).

Complete a Writing Practice Performance Task Independently

Many states provide a practice performance task that students complete independently. It can be given right after the guided practice, or at a later time.

Introduce the performance task by reminding the students that they spent one week learning about and preparing for the opinion writing portion of the end-of-year writing performance task. Explain that the students will now have the opportunity to do a practice performance task on their own on a different topic, and that they can use what they learned to do their best work on the task. Tell them that they will do this practice performance task under conditions like those they will experience when completing the end-of-year performance task, and that this will help them to be better prepared to do well.

Task Overview

Introductory Classroom Activity 20 MINUTES

This whole-class activity introduces the students to the topic of the performance task—whether a school should spend money for educational video games—and helps prepare the students to answer research questions and write opinion essays about the topic. As part of this activity, the students will discuss their experiences with video games and then read a blog about educational video games titled *The Teacher’s Room*. They will also be reminded of the features of good opinion writing.

During the introductory activity, the teacher will lead a whole-class discussion about the blog. The students may take notes using the provided graphic organizer to help them prepare for writing. The students may use their notes from the Introductory Classroom Activity when they plan, write, and revise their own multi-paragraph opinion essay about educational video games in Part 2.

Part 1 35 MINUTES

The students will examine two more sources about educational video games—an interview with a teacher and a letter to the editor for a newspaper. The students are encouraged to take notes using the provided graphic organizer to help them prepare for writing. Then the students will respond to three research questions that require them to analyze, evaluate, interpret, and integrate information.

Part 2 70 MINUTES

The students will plan, write, and revise opinion essays about whether their school board should approve a budget to buy educational video games and the electronic devices needed to play them. They may refer to all of the sources from the Introductory Classroom Activity and Part 1, any notes they took, and their answers to the research questions. The students may not, however, change their answers to the questions.

Scoring

The research questions in Part 1 can be scored with the rubrics included at the end of this performance task (see “Scoring Rubrics for Research Questions” on page 141). Any notes, prewriting, and drafts will not be scored.

Teacher Preparation

- Make sufficient blank paper and writing tools available for students to use in taking notes. You might make extra copies of the graphic organizers.
- Make a class set of copies of the student handouts on pages 144–153.
- Make dictionaries available to use during Part 2 of the performance task. (Some standards-based assessments are computer-based with many of the student materials, including access to spell-check, available within the testing environment. For the purpose of student practice, the materials for the guided practice performance task have been modified so that they can be administered using pencil, paper, and other classroom resources.)

Teacher Directions for the Introductory Classroom Activity

1 Introduce the Topic

Tell students that they are going to read about using educational video games in school and then write opinion essays about whether their school should spend money to buy them. Lead a whole-class discussion using the following question:

Question: *Do you play video games at home? If yes, what are your favorite video games to play?*

Point out that there are many different types of video games and that educational video games are a type of video game that is sometimes used in schools. Explain that educational video games are designed to be fun and help you practice a skill or teach you something new.

Write the word *device* where everyone can see it, and explain that a *device* is “something made for a specific purpose.” Tell the students that there are many electronic devices that can be used for playing educational video games in school, such as computers, game systems, tablets, and smartphones.

2 Examine a Source

Tell the students that they will read a blog about using educational video games in school and then discuss it as a group. Explain that a *blog* is a “website on which people share opinions and other information.” Tell the students that in this blog, teachers write about the reasons for and against using educational video games in the classroom. Explain that the “reasons for” are called *pros*, and the “reasons against” are called *cons*.

Distribute the blog *The Teacher’s Room* (see Student Handout 1 on page 144), and have the students read the blog to themselves.

Lead a whole-class discussion using the following question:

Question: *What did you learn from reading the blog post and comments?*

3 Explain the Writing Task

Tell students that in a few minutes they will examine two additional sources about using educational video games in schools. Then the students will use all of the sources to answer some research questions and write their own essay about whether their school board should approve a budget to buy the games and electronic devices needed to play them in classrooms.

Discuss with the students the characteristics of a well-written opinion essay. An opinion essay:

- States an opinion
- Gives reasons that support the opinion
- Explains information clearly
- Provides a conclusion
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

Answer any questions the students might have and then move on to Part 1 of the performance task. Students should keep any notes they took during the Introductory Classroom Activity to help them with their writing.

Teacher Directions for Parts 1 and 2

Part 1 35 MINUTES

1. Distribute copies of the sources, graphic organizers, student directions, and research questions (see Student Handouts 2–7 on pages 146–152) to each student, and have the students write their names on all materials. Note that the students should not receive the directions specific to writing their essays until Part 2.
2. Tell the students to read “Student Directions for Part 1” (see Student Handout 2 on page 146). Remind the students they will have 35 minutes for Part 1, and then tell them to begin.
3. To help the students plan their time, alert them when 15 minutes and 5 minutes remain in Part 1.
4. Signal to let the students know that Part 1 is over.

BREAK

Part 2 70 MINUTES

1. Distribute a copy of “Student Directions for Part 2” (see Student Handout 8 on page 153) to each student. Make sure that the students have access to all of the sources from the Introductory Classroom Activity and Part 1, and any notes they took, as well as their answers to the research questions. Remind the students that they may not change the answers to the questions from Part 1.
2. Tell the students to read “Student Directions for Part 2” and explain that their writing assignment is included in these directions.
3. After 15 minutes have elapsed, suggest that the students begin writing their essays.
4. Alert the students when 30 minutes remain.
5. Alert the students when 15 minutes remain, and suggest that they begin revising their essays.
6. Signal to let the students know that Part 2 is over and collect all materials from each student.

Scoring Rubrics for Research Questions

2-Point Research Rubric

Question 1:

*What is Mrs. Garcia's opinion about using educational video games in the classroom?
Provide two reasons she gives for her opinion.*

Interpret and Integrate Information	
2	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response states that Mrs. Garcia is for using games in the classroom and provides two relevant reasons from the source that show strong support for her opinion.
1	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response states that Mrs. Garcia is for using games in the classroom and provides two reasons with limited relevance and support for her opinion.
0	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not include an explanation of Mrs. Garcia's opinion and reasons for holding this opinion. The response may be incomplete, incorrect, vague, or completely absent.

Sample 2-Point Response

Mrs. Garcia thinks that using educational video games in the classroom is a good idea. One reason is that certain educational video games allow students to work together to solve problems. Mrs. Garcia also points out that educational video games can help students learn to use technology, which is an important skill.

Sample 1-Point Response

Mrs. Garcia is for video games. She thinks they are fun and students like them.

Sample 0-Point Response

Mrs. Garcia likes having games in her class.

2-Point Research Rubric

Question 2:

Bob Gebhart wrote the letter to the editor. What is Mr. Gebhart's opinion about using educational video games in the classroom? Provide two reasons he gives for his opinion.

Interpret and Integrate Information	
2	<p>The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information.</p> <p>The response states that Bob Gebhart is against using games in the classroom and provides two relevant reasons from the source that show strong support for his opinion.</p>
1	<p>The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information.</p> <p>The response states that Bob Gebhart is against using games in the classroom and provides two reasons with limited relevance and support for his opinion.</p>
0	<p>The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information.</p> <p>The response does not include an explanation of Bob Gebhart's opinion and reasons for holding that opinion. The response may be incomplete, incorrect, vague, or completely absent.</p>

Sample 2-Point Response

Bob Gebhart is against using educational video games in the classroom. One reason is that he thinks they keep children from playing outside and getting exercise. Another reason is that the devices needed to play the games are expensive, and he thinks schools should be spending money on more and better books.

Sample 1-Point Response

Bob Gebhart is against educational video games. He thinks we should wait for more research. Sooner or later everybody will use them.

Sample 0-Point Response

Bob Gebhart doesn't want students to play video games.

2-Point Research Rubric

Question 3:

There are many things schools must consider to help make educational video games successful learning tools for students. In addition to buying the actual games, what else do schools need to think about and plan for? Use details from the sources in your answer.

Interpret and Integrate Information	
2	The response gives sufficient evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response provides more than one issue from those presented in the sources.
1	The response gives limited evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response only mentions one issue, or may include a detail that is not an issue.
0	The response provides no evidence of the ability to locate, select, interpret, and integrate information within and among sources of information. The response does not include issues that schools must consider. The response may be incomplete, incorrect, vague, or completely absent.

Sample 2-Point Response

Schools need enough electronic devices for students to play games. Teachers need to know how to use the devices and which games are best for learning.

Sample 1-Point Response

Schools have to buy electronic devices to play the games. Most students already know how to play video games.

Sample 0-Point Response

Schools need more books not games.

Using Educational Video Games in the Classroom

Recently, my school has been trying to decide whether we should start using educational video games as a way to help students learn. Some of our teachers think it's a great idea. Other teachers are against it. I'm interested in hearing the opinions of teachers who are already using educational video games with their students. What are the pros and cons of using educational video games in the classroom? Please share your experiences.

When we started using educational video games in the classroom this year, some of the parents were upset. I needed a way to show them that educational games are different from the regular games kids play at home for fun.

When we had our first open house, I set up several computer stations for parents to try the educational video games. I even put cookies next to the computers so people would be drawn to the games. Well, it worked! The parents were all crowded around the computers, trying the various games. I heard people say things like, "Wish we could have had games like this when I was in school. This makes learning fun."

So if you are planning to start using games as a teaching tool, I suggest you find a way to reach parents. Let them know educational video games aren't all about "pow," "bang," "crash." I'm convinced the best way to do that is to let parents try these educational games for themselves.

I have one student who really struggles with math. He is often discouraged. Even though he tries hard, math is still a challenge. I gave this student an educational video game to practice multiplication. While it still wasn't easy, the game

Welcome to *The Teacher's Room*

My name is Diana Wu. I have been teaching for 16 years and have taught 3rd, 4th, and 5th grades most of those years. Writing is also a huge part of my life. I especially enjoy blogging about my experiences in the classroom and hearing from other teachers.

One of hardest things about being a teacher is keeping up with technology. I started *The Teacher's Room* so that I would have a place to share my experiences using technology with my students. I also hope to get ideas from other teachers who are trying new things. Please join in on the conversation!

changed his attitude. When he got a problem wrong, a buzzer went off and a balloon popped. It made him laugh. So he went on to the next problem in a good mood instead of feeling so discouraged. And when he got a problem right, there were fireworks, and a big gong made noise. That made him laugh even more.

It might take a while before I can tell if this student's math scores are improved. But in the meantime, I have a student with a whole different attitude about learning math. That's certainly a step in the right direction.

I love using educational video games in the classroom because they allow students to learn at their own pace. I find that students who are struggling to learn something can get frustrated and bored easily.

On the other hand, students who are high achievers might get bored if the material is too easy. Both kinds of students benefit from games because they can learn as fast or as slow as they want. Nobody gets frustrated or bored.

It doesn't matter whether I think it's a good idea or not. My school does not have enough electronic devices for playing games. Even if we did have enough, I'm not sure I want my students playing games when they should be learning. I'm just not convinced these educational video games really work.

Your Task

You will read two additional sources about educational video games. Then you will answer three research questions about what you have learned. In Part 2, you will write an opinion essay about whether a school should spend money for educational video games. You will be able to refer to the sources, your notes, and the answers to the research questions when you write your essay.

Steps to Follow

In order to plan and write your essay, you will do the following:

1. Examine the sources.
2. Take notes about the information in the sources using graphic organizers.
3. Answer three research questions to help you think about key information in the sources.

Directions for Beginning

You will have 35 minutes to read the sources, take notes, and answer the research questions. Your answers will be scored.

Q&A with Mrs. Garcia, 5th Grade Teacher

Host: Don Spence

Date: May 15

Time: 3:00–3:30 pm

Mr. Spence: Hello, everyone. I'm Don Spence, the host of *Education Today Radio*. Today we'll be talking with Grace Garcia about using educational video games in the classroom. Mrs. Garcia is a fifth-grade teacher at Park Elementary. This year, Mrs. Garcia is using educational video games in her classroom for the first time. We want to get her firsthand account of how it's working. Welcome, Mrs. Garcia!

Mrs. Garcia: Thank you for inviting me, Mr. Spence. I'm glad to be here.

Mr. Spence: Let's jump right into this topic. I've heard some people say that students don't remember what they learn with video games. Have you found this to be true?

Mrs. Garcia: No, I don't think students forget what they learn with video games any faster than if they had learned it using a textbook or worksheets. For example, in math, there's no substitute for practice when you're learning multiplication facts. So why not make the practice fun? Students would much rather play games to practice math than do lots of worksheets.

Mr. Spence: What kinds of games do your students like best?

Mrs. Garcia: We use a game in social studies class where the students are citizens of an ancient civilization. They get to create governments, establish trade and agriculture, build roads—all the things people do to live in a particular culture. The students work together in teams to solve problems. For example, maybe there wasn't enough rain to grow crops. They have to figure out what to do to feed everybody. This kind of game teaches them so much more than what they will read in their social studies textbook. It requires them to think creatively and work cooperatively.

Mr. Spence: I've heard people say that students won't want to read or do research anymore if they play a lot of games.

Mrs. Garcia: I find it is just the opposite. For example, in the game I mentioned earlier, students decided to research what plants could best survive with low rainfall or even a drought. They also researched irrigation systems to see if it would be possible to bring water from a nearby river to their fields. The game actually motivated them to learn things that could help them succeed at the game. In fact, the game stirred up so much interest in how irrigation works that we decided to make it the topic of a class project.

Q&A with Mrs. Garcia, 5th Grade Teacher

Mr. Spence: Do you find that students need some training to play the games?

Mrs. Garcia: Oh no! [laughter] They all know how to play the games. And if they don't, they pick it up really fast. It's the teachers who sometimes need training! [more laughter]

Mr. Spence: Would you recommend that other teachers use educational video games?

Mrs. Garcia: Well, there are certain things that are required to make educational video games part of classroom learning. First, a school must buy enough devices for use in the classroom so that all the students have an opportunity to use them, whether it's computers, tablets, or even a game system. Not all schools have this kind of technology. You also need principals and teachers who know how to use the technology and are aware of its benefits.

I've met some people, including teachers, who think that all video games are bad, even the educational ones. They think that learning and playing should be separate. Personally, I don't understand that point of view. I think learning should be as much fun as possible. I want my students to look forward to coming to school. Learning with games is one way to make it more fun. So if the technology is there, and teachers are on board with using technology in the classroom, then I would definitely recommend using educational video games.

Mr. Spence: Any other thoughts before we close the interview?

Mrs. Garcia: I have lots of other thoughts! But I'll stick to just one. Playing video games helps students learn how to use technology and gives them an opportunity to practice using it. The ability to use technology is an important skill for living in today's world. It's especially important for students who don't have access to technology outside of school. I'm really glad my students are getting the opportunity to learn how to use technology at the same time they are learning other subjects, such as social studies or math. In fact, one of my students has decided she wants to be a video game designer when she grows up!

Mr. Spence: Thank you so much for taking the time to talk with us today, Mrs. Garcia. Your students are lucky to have a teacher like you who cares not only about what they learn but also how they learn.

Letters to the Editor

Video Games and Education

Dear Editor:

Our school board is going to meet next month. One of the items under consideration is educational video games.

I am strongly against using educational video games in our classrooms. We don't send our children to school to play video games. We send them to learn. Too many children already spend their free time in front of a screen playing games instead of getting fresh air and exercise. The last thing they need is even more time spent playing video games in school.

Some children even get addicted to video games. As parents, we can control how much time children play games at home. But we can't do this at school unless we keep games out of the classroom.

While the games themselves may not cost a lot of money, the devices used to play them are expensive. How much is it going to cost to buy the computers or tablets needed to play the games? Video games are not necessary in a classroom—books are. I think the money should be spent on more and better books.

I'll admit that there may be some educational video games that are very well designed and require some problem-solving. However, most of the games I've seen do not require much thinking.

Maybe in a few years each student in our classrooms will have an electronic device. By then, there may be more research that shows whether educational video games are effective. We should wait and see before spending our tax dollars on educational video games. I urge the school board to vote for spending the money on things we are sure will benefit our students.

Sincerely yours,

Bob Gebhart

Student Directions for Part 2

Part 2 (70 minutes)

Your Task

You will have 70 minutes to write your essay. You should review your notes and sources. Then plan, write, and revise your writing. You may also refer to the answers you wrote to the research questions in Part 1, but you cannot change those answers.

Your Writing Assignment

Your school board is trying to decide whether to buy educational video games and devices that play them to use in classrooms. The school board has asked some students, including you, to share their opinions about whether this is a good idea. You will write an essay to present to members of the school board that states your opinion.

Here are some ideas about what to include in your essay:

- State your opinion about whether the school board should spend money for educational video games and devices to play them.
- Support your opinion with information from the sources you have read.

Begin Work on Your Essay

Manage your time carefully so that you can:

- Plan your essay (15 minutes)
- Write your essay (40 minutes)
- Revise and edit for a final draft (15 minutes)

You may use a dictionary to check spelling.

Things to Remember

Remember that a well-written essay:

- States an opinion
- Gives reasons that support the opinion
- Explains information clearly
- Provides a conclusion
- Uses language appropriate to the purpose and task
- Follows rules for spelling, punctuation, capitalization, and grammar

Class Assessment Records

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> Are partners able to agree about what information to include in their notes? 			
<ul style="list-style-type: none"> Are they recording their notes in the appropriate section on their graphic organizers? 			
<ul style="list-style-type: none"> Are they writing notes in their own words? 			
<p>Other observations:</p>			

Considerations:

If you notice many students having difficulty writing notes, call for the class’s attention and have a few volunteers share their ideas for what to write. Then model writing each idea in the appropriate section on the chart. As necessary, encourage the students to reread the letter to collect the information they need.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students

<ul style="list-style-type: none"> Are they able to incorporate information from their notes and the sources in their responses? 			
Other observations:			

Considerations:

If you notice the students struggling to write responses, support them by asking questions such as:

- Q *What information is the question asking for?*
- Q *Where in your notes can you find that information? Where in the source can you find that information?*
- Q *How might you include information from your notes and the sources in your answer?*

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
▪ Does the students' writing indicate that they understand the task?			
▪ Are they able to clearly state their opinion in the opening paragraph of the essay?			
▪ Does their writing stay on topic?			
▪ Are they able to incorporate information from their notes and the sources into their reports?			
Other observations:			

Considerations:

If you notice a student having difficulty starting to write after 5-10 minutes, help stimulate his or her thinking by asking questions such as:

- Q *What is the topic of your essay? What might you write in your opening paragraph to clearly state your opinion about the topic?*
- Q *How might you use your notes to help you decide what to write in your essay?*
- Q *What information from your notes or the sources can you use to support your opinion?*

Poem

The Hippopotamushrooms

by Jack Prelutsky

The hippopotamushrooms
Cannot wander very far.
How fortunate they're satisfied
Precisely where they are.
They feel no need to travel,
They're forever at their ease,
Relaxing on the forest floor
Beneath the shady trees.

The hippopotamushrooms
Suffer from deficient grace,
And their tubby, blobby bodies
Tend to take up too much space.
But they compensate with manners
For the things they lack in style . . .
They are models of politeness,
And they always wear a smile.

Oh Sleek Bananaconda

by Jack Prelutsky

Oh sleek Bananaconda,
You longest long long fellow,
How sinuous and sly you are,
How slippery, how yellow.

You slither on your belly,
And you slither on your chin.
You're only unappealing
As you shed your slinky skin.

Lemonade

by Rebecca Kai Dotlich

We pour
its liquid sweetness
from a tall
glass pitcher,
splashing
sunshine
on frosty squares
of ice,
lemon light
and slightly tart,
we gulp its gold—
licking our lips
with summer.

Backyard Bubbles

by Rebecca Kai Dotlich

One bubble
shimmies
from the wand
to waltz around
the backyard lawn.
One fragile globe
of soapy skin—
a glimmering
of breath within
a perfect pearl,
I blow again!
One more bubble
squeezes through,
one blushing bead
of water-blue;
and then
another
rinsed in pink
(shivering
with pastel ink)
dances on
a summer sigh,
shimmering
with shades of sky,
s-l-o-w-l-y slides
right out of sight;
backyard bubbles
taking flight.

Excerpt

from “Mrs. Seeton’s Whistle”

in *Knots in My Yo-yo String* by Jerry Spinelli

In the warmer months of the year the hokey-pokey man roamed the streets of town, pushing before him a white wooden cart. The bed of the cart was occupied by a block of ice covered with a dishtowel. Flanking the ice were two rows of bottles containing flavored liquids in a variety of colors that always reminded me of a barbershop shelf.

The hokey-pokey man knew kids. He knew our ways better than we did. As we got older and our routes about town changed, he was always there, ahead of us, waiting: at the dead-end barrier, outside the school, clattering along a random street. Coming upon him, we crowded around the cart.

He went into action. He flipped off the dishtowel, grabbed the ice shaver, clacked it like a castanet, and scraped ice until the scoop was full. He deposited a white snowball into a paper cone and awaited the first order.

“Lime!”

He snatched the lime bottle, shook it, and—*presto*—bright green snowball.

“Grape!”

“Orange!”

“Lemon!”

I waited till last, thinking about the flavors. I always decided on root beer.

We took off then, relishing the winter on our tongues, giving no thought to the hokey-pokey man. For he was not someone to think about. He was simply there. Where we were.

And then, in time, he wasn’t. Though still, on a summer’s day, when heat waves dance above the street, I sometimes imagine I see him in the distance, waiting where I have yet to arrive.

On Respect: What I Learned from Carl

by Nick Maney, age 17, from *Writing from the Heart: Young People Share Their Wisdom*, edited by Peggy Veljkovic and Arthur J. Schwartz

My mind seems always to return to the day that I met Carl. The city bus, with its mechanical hiss and its slightly dizzying engine-exhaust fumes, stopped at the corner of 31st and Centennial Drive to pick up the daily commuters, a group in which I was included. Boarding the bus, I looked, seemingly in vain, for a place to sit, because I hated standing in the aisle and being subjected to the rocking of the bus. At last, I spotted a place to sit near the back. The occupant of the seat next to the one I was going for was an older man in a grey suit, well-worn dress shoes, and a black hat like I always pictured reporters wearing, but without the little press card. Sliding into the seat next to the man, I began to read the book I'd been carrying, which was Jack Kerouac's *On the Road*. The man in the seat next to me introduced himself by asking if I'd read any other books like the one I was currently holding, books from the same era. When I told him I had, he seemed to become interested, and, to tell the truth, so did I.

He introduced himself as Carl. He told me about how he used to play the trumpet back in the fifties in jazz clubs. He asked if I like jazz, and I told him that I didn't really listen to it, that I liked punk music. Waiting for Carl to tell me that I should listen to "real music" I was shocked when he just smiled and nodded. He said, "you remind me of myself when I was your age. I remember how my parents hated jazz, how they couldn't see how I could listen to 'that awful noise.' I bet your parents say the same thing, don't they?" Now it was my turn to smile, amused with how right he was.

On Respect: What I Learned from Carl *(continued)*

As the bus ferried us from one side of the city to the other, Carl and I talked about a lot of different things. The more we talked, the more amazed I became at how much the two of us really had in common, despite the age difference. Finally, Carl got off at his stop, and mine was soon after. I haven't seen him since then, but the thought of our connection that day rarely leaves my mind.

Carl really made me think about how much we can learn from each other if we just break through the barriers we've got. I mean, I would have never thought before that day that I could have anything in common with someone so much older than I, just because of age. But Carl taught me that no matter what, we're all just people, and that we should make an extra effort to try and get to know our neighbors and people we see every day, regardless of age, or of race, religion, sex, or anything else. If we all took the time to attempt to understand each other, I think that the world would be a much better place that we could share together, as humans.

On Helping Others: Learning a Valuable Lesson

by Laia Mitchell, age 19, from *Writing from the Heart: Young People Share Their Wisdom*, edited by Peggy Veljkovic and Arthur J. Schwartz

From my seat in the van, the rows of tomato plants looked like neatly laid pick-up-sticks. It was harvest time near Quincy, Florida, picking season for hundreds of migrant workers. With a team of youth, I was ready to spend a week renovating an old church and community center. Yet after that week of labor, my most valuable lesson came not from my own efforts, but from spending time with the church community.

One kind family invited us to come with them to the tomato fields. Early in the morning we rose, dressed in long sleeves for protection, and went to meet the family. They smiled, slowing their routine to be patient with us. I met their daughter, who was almost my age. She and her brother taught me how to pick the best tomatoes, those of good size and color. In the hot sun, they showed us where they kept water, and laughed with us when we took breaks. I realized how much I had in common with the girl, two young people with hopes and dreams, separated only by space and culture. I learned what it is to understand, to be open to new people and ways of life. That Sunday, I met the girl and her brother again. They came to the church bringing tomatoes and fresh watermelon to share. This family, whose life depended on filling baskets with tomatoes, took precious time to share their profits with us, with me. They understood the joy and goodness of life far better than any of us, teenagers from the city. We were the ones who seemed to have everything, yet it was I who had so much to learn. From their warm and open kindness, I saw the beauty of sharing with others. They, who had little, truly understood the value of giving.

On Helping Others: Learning a Valuable Lesson

(continued)

I think often of the girl and her family, where they moved, and how they are living. Her family sparked my belief in the necessity of caring, compassionate respect for others. The migrant people showed me that I, one with so much, have a responsibility to share with those who have little. I went to spend a week giving and ended up receiving so much more. I believe that by giving, with honest respect and cooperation, we can truly be part of the human family.

by Chris Van Allsburg

Monsieur Bibot, the dentist, was a very fussy man. He kept his small apartment as neat and clean as his office. If his dog, Marcel, jumped on the furniture, Bibot was sure to teach him a lesson. Except on Bastille Day, the poor animal was not even allowed to bark.

One morning, Bibot met an old woman waiting at his office door. She had a toothache and begged the dentist to help.

“But you have no appointment,” he told her.

The woman moaned. Bibot looked at his watch. Perhaps there was time to make a few extra francs. He took her inside and looked in her mouth. “This tooth must come out,” he said with a smile.

As usual, Walter stopped at the bakery on his way home from school. He bought one large jelly-filled doughnut. He took the pastry from its bag, eating quickly as he walked along. He licked the red jelly from his fingers. Then he crumpled up the empty bag and threw it at a fire hydrant.

At home Walter saw Rose, the little girl next door, watering a tree that had just been planted. “It’s my birthday present,” she said proudly. Walter couldn’t understand why anyone would want a tree for a present. His own birthday was just a few days away, “And I’m not getting some dumb plant,” he told Rose.

Walter lay back and smiled. “I like it here,” he told the man, then drifted off to sleep in the shade of the two giant trees—the trees he and Rose had planted so many years ago.

Excerpt from *Rainforests*

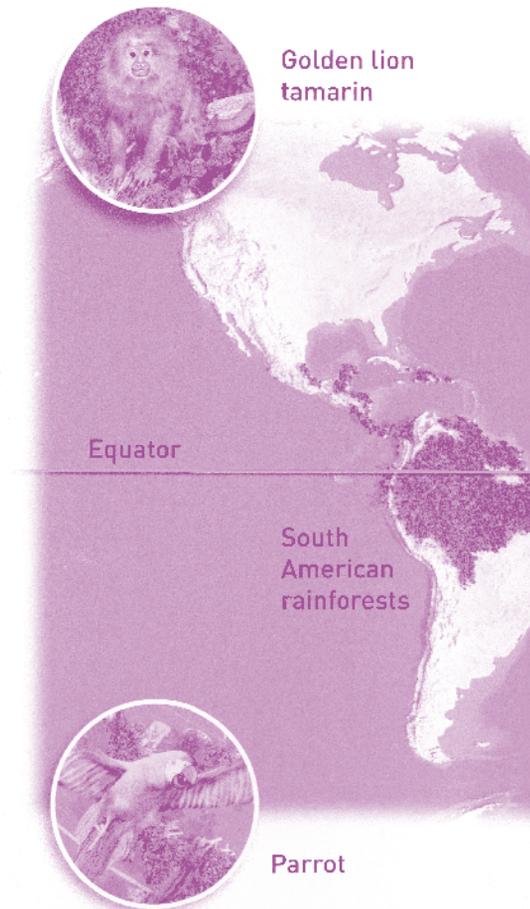

by James Harrison

Where are rainforests?

There are tropical rainforests on either side of the **equator**. The equator is an imaginary line that circles the middle of the world like a belt. The tropics are areas north and south of the equator. There are no seasons there, and the weather is hot and wet all the time. The tropics give their name to tropical rainforests.

Nearly half of all tropical rainforests are in South America. The next biggest rainforest area is in Africa. Other tropical rainforests are found in Southeast Asia and Australia.

The tropics: This map shows the tropical rainforests (in dark green) in a band around the equator. The equator is halfway between the North and South poles.

Directions to the Skate Park

1. To get from Golden Elementary School to the skate park, go out the main entrance of the school and turn right. Follow the sidewalk around the parking lot go past the bike rack and stop at the crosswalk.
2. Wait for the crossing guard to signal you to cross the street. Once you cross the street, turn right and walk two blocks. You should see a house that has two big trees a birdbath and a bright blue doghouse in the yard.
3. Turn left at the stop sign. You will walk up a big hill down the other side and up another hill. Once you get to the top of the second hill, turn left.
4. The skate park is down the street on the left. You will know you are at the skate park if you see a purple and gold “Welcome Skateboarders” banner a half-pipe and lots of ramps.

WARNING: Too Much TV Is Hazardous to Your Health

adapted from a RealVision factsheet on the TV-Turnoff Network

More than four hours a day: that's how much television Americans watch on average. As an abundance of evidence makes clear, our television habit has serious negative consequences. Excessive TV-watching cuts into family time, harms our kids' ability to read and perform well in school, encourages violence, and promotes sedentary lifestyles and obesity.

TV Undermines Family Time

Many people feel that they do not have enough time to spend with their families. . . . Television plays a crucial role. In the average American household, there are at least two televisions, and 67 percent of Americans report always or often watching television while eating dinner. Families who watch little or no television often find that they have more time to spend with one another.

TV Harms Reading and Academic Performance

Excessive television-watching harms reading skills. . . . Researcher[s] [found] more than a decade ago that “reading scores diminished sharply for those students watching more than four hours a day.” Researchers such as Jane Healy of Harvard argue that watching TV instead of reading may actually [change] the physical structure of the brain as it develops, making learning and working in the schoolroom environment difficult.

TV Encourages Violence

The evidence is overwhelming: violence on TV promotes violent behavior in real life. The Center on Media and Child Health at Harvard lists more than 2000 reports on the links

between media exposure and increases in violence. Those studies have established that the amount of media violence a child sees is similar to the amount of real violence that the child acts out. The connection between those two things is stronger than the connection between calcium intake and healthy bones! It's nearly as strong as the link between smoking and lung cancer.

TV Promotes Sedentary Lifestyles and Obesity

Americans, by and large, do not get enough physical exercise. We spend most of our free time watching television, which promotes obesity and its related illnesses. According to Dr. William Dietz at the Centers for Disease Control, “The easiest way to reduce inactivity is to turn off the TV set. Almost anything else uses more energy than watching TV.”

Television: The Most Disparaged Resource of the Information Age

by Salmaan S., Westford, MA, adapted from www.TeenInk.com

Almost every day one can hear some mention of “The TV Generation.” Many harshly label television as a “drug,” claiming that millions of children every day waste their time in front of this electronic altar. Well, I strongly disagree with the viewpoint that television is a waste of time.

Today, there are many different ways to transfer thoughts and ideas. Of these, television, with its combination of audio-visual stimuli, is one of the quickest to present an idea clearly and completely. To say that television is not important is to say that learning about other cultures thousands of miles away by seeing and hearing is a waste of time. In this age of information, television is one of the most efficient means of mass communication available to man.

Millions of people keep up with the latest news thanks to television. They can stay informed about politics, witness historic events, cheer for their sports teams, and explore places they might never have seen otherwise, all because of television.

Television unites mankind because people separated by distance, skin color, language and wealth can all relate to some of the things they see on TV. No other appliance of the information age is as quick and widely used around the world as television. Failing to acknowledge the positive value of this resource to mankind is an enormous mistake.

Animal Experimentation Saves Lives

by Giovanni P., San Gabriel, CA, adapted from
www.TeenInk.com

It may not be common knowledge, but animals save lives each and every day. Animal experimentation has existed since ancient times to contribute to human life and survival. These experiments became the building blocks of health and medicine, [including] research of diabetes, vaccines, cancer, AIDS/HIV, and open-heart surgery. As a result, many people have been saved. The use of animal experimentation should be recognized and accepted as a tool in saving lives.

In the 1940s and 1950s, a polio epidemic crippled and killed children and newborns. Without animal experimentation [to develop a polio vaccine], polio would still be claiming thousands of lives each year. Many would not be alive today without it.

Louis Pasteur, a French chemist, helped save animals as well as humans when he developed a vaccine for rabies [using animal experimentation]. Today, animal-lovers everywhere do not have to put their pets “to sleep” if they [catch] rabies. Instead they can just go to their veterinarian and get this preventive vaccine.

“Nobody I know of in biological research, who has to sacrifice animals, likes it,” says Richard Jones, a biology professor at Colorado University. “It is a matter of priorities. You work for the greater good.” [Millions of] animals are used [in experiments], of which 90% are rodents. So it’s not as if scientists experiment on endangered species; they use animals with a fast reproduction rate that are abundant.

Humans have vast intelligence, and through this intelligence, they have a moral duty: to protect all living things and make sure they survive and flourish. Animal experimentation helps humans help themselves, as well as the animals around them.

Animal Testing: Here Is the Truth

by Emma H., New York, NY, adapted from
www.TeenInk.com

Almost every major company that sells detergents, body washes, or cosmetics tests their products on animals to assure the public that there will be no side effects when using their product. Even though animal testing is advantageous to humans, I believe humankind should not test products on animals. [It] is cruel and unnecessary.

Every year thousands of animals are killed, tortured, or left with burns, broken bones, and other terrible conditions. According to the National Anti-Vivisection Society, these are some of the most common yet horrifying tests used on animals: In the D test, solutions are dropped directly into the eyes of rabbits and in seven days of testing, the rabbits experience excruciating pain and most are blinded. Then there is the LD-50 test [which forces animals to inhale, swallow, and digest chemicals]. In this test, 50% of the animals die.

What will scientists test products on if not animals? With modern technology, many alternatives have been found by caring scientists [including computer tests and tests on cloned human cells]. These are only a few of the alternatives, but they show that animals are not the only choice for experimentation.

The Food and Drug Administration [urges] companies to conduct tests to ensure the safety of their products. As a result, animals continue to be the victims of harsh treatment and risk death. There are many alternatives to know if a product is safe. Animal testing is immoral and wrong.

School Uniforms

by Akinyi R., Westford, MA, adapted from
www.TeenInk.com

Are school uniforms appropriate for public school students? Yes, and I believe students in public school should be required to wear them. Uniforms eliminate the distractions of designer clothes so students can focus on their studies. Uniforms also create an environment in which children will be judged on personality rather than style. Finally, uniforms save time and money.

While I was attending a parochial school, I experienced the luxury of wearing uniforms. At my school, students came from diverse backgrounds. Inside the building, however, our economic advantages or disadvantages were no longer obvious. My friends and I were able to focus on academics and concern for others rather than the latest fashions. Since we looked similar, we remained attentive to the teacher and our work. I learned that my effort, attitude and aptitude were more important than my clothes.

Wearing uniforms helped me realize I don't need to impress anyone by the clothes I wear. School uniforms helped children who did not have "stylish" clothes to be treated fairly. Consequently, I was judged by my character, not the price of my jeans. I had a chance to show my personality without worry that I was out of style. This set the tone in the school system that all individuals were to be treated as equals.

Moreover, I never had to waste time deciding what to wear before school. A clean uniform was easy to maintain. My parents saved a lot of money, too. I did not need a variety of colors, styles and designer fashions in my wardrobe. Wearing uniforms helped me learn I did not always have to buy clothes I wanted when I wanted them.

School Uniforms *(continued)*

In conclusion, when I wore a uniform, I started my day worry-free, focused on my schoolwork and felt judged by who I was on the inside. My family and I saved time and money. I believe children should be required to wear uniforms in public schools.

Persuasive Paragraph Without Commas Following Introductory Elements

On my wooden kitchen table I find a little money and a lot of injustice. Every single Monday morning my younger brother and I each receive one dollar. From my mother's purse the money comes in shiny coins or crisp bills. With sticky little paws my brother snatches his dollar and stuffs it in his pocket. I growl. On the one hand I know I'm being ungrateful. On the other hand I know I'm being cheated. Honestly I don't want to receive more money. I just want my brother to receive less. He's half my age. Therefore he should receive half my allowance.

Poem

September

by John Updike

The breezes taste
Of apple peel.
The air is full
Of smells to feel—

Ripe fruit, old footballs,
Drying grass,
New books and blackboard
Chalk in class.

The bee, his hive
Well-honeyed, hums
While Mother cuts
Chrysanthemums.

Like plates washed clean
With suds, the days
Are polished with
A morning haze.

The Sea

by Deborah Chandra

Clutching at the rocky cliffs,
The discontented sea
Slides slowly back into itself
On slippery hands and knees.

Gripping with its long green arms,
It hugs the grainy sand,
Searching for a fingerhold
To climb out on dry land.

Porch Light

by Deborah Chandra

At night
the porch light
catches moths
and holds them,
trapped
and
flapping,
in a tight
yellow fist.
Only when I
turn the switch
will it loosen
its hot
grip.

Child Frightened by a Thunderstorm

by Ted Kooser

Thunder has nested in the grass all night
and ruffled it, and with its outstretched wings
has crushed the peonies. Its beak was bright,
sharper than garden shears and, clattering,
it snipped bouquets of branches for its bed.
I could not sleep. The thunder's eyes were red.

First

A far thud,

Then the rocket

Climbs the air,

A dull red flare,

To hang, a moment,

Invisible, before

Its shut black shell cracks

And claps against the ears,

Breaks and billows into bloom,

Spilling down clear green sparks, gold spears,

Silent sliding silver waterfalls and stars.

Gentle Sound of Rain

by Lee Emmett

gentle sound of rain
in puddles plopping
pings metal corrugations
dripping and dropping

swishing and rushing
gushing into gutters
gurgling in down-pipes
running water splutters

pushing into crevices
washing window-panes
dashing down drive-ways
flushing out drains

splashing onto roads
spatters parked cars

crashing to crescendo
as brassy cymbal's roar
cacophony on roof
deafening downpour

I Love the Look of Words

by Maya Angelou

Popcorn leaps, popping from the floor
of a hot black skillet
and into my mouth.

Black words leap
snapping from the white
page. Rushing into my eyes. Sliding
into my brain which gobbles them
the way my tongue and teeth
chomp the buttered popcorn.

When I have stopped reading,
ideas from the words stay stuck
in my mind, like the sweet
smell of butter perfuming my
fingers long after the popcorn
is finished.

I love the book and the look of words
the weight of ideas that popped into my mind
I love the tracks
of new thinking in my mind.

Sentences

A **sentence** is a group of words that expresses a complete thought. It includes both a subject and a predicate.

- The **subject** tells whom or what the sentence is about. The **predicate** tells what the subject does or is.

The giant anteater has a long nose and a bushy tail.

- A **compound subject** is made up of two or more subjects that have the same predicate and are joined by the **conjunction**, or connecting word, *and* or *or*.

Ants and termites fear this odd-looking creature.

- A **compound predicate** is made up of two or more predicates that have the same subject and are joined by the **conjunction**, or connecting word, *and* or *or*.

A hungry anteater flicks its tongue into an anthill and eats the ants.

A **compound sentence** is made up of two related sentences joined by a comma and a **coordinating conjunction**, such as *and*, *or*, *but*, or *so*.

Today is my sister's birthday, and I made her an unusual cake.

My sister loves chocolate cake, but I made her a papier-maché one instead.

A **complex sentence** is made up of an **independent clause**, or a sentence that can stand by itself, and a **dependent clause**, which has a subject and a verb but cannot stand by itself. The dependent clause begins with a **subordinating conjunction**, such as *although*, *while*, *as*, or *because*. A comma separates an introductory dependent clause from the independent clause.

Although it wasn't real, the cake was very special.

My sister really loved it because I had painted a horse on top.

You can combine short related sentences to make your writing sound less choppy. To combine sentences, you can use a compound subject, a compound predicate, or an appositive.

- Combine two sentences with the same predicate but different subjects by forming a **compound subject**.

Federico helps on the farm. Angela helps on the farm.

Federico and Angela help on the farm.

- Combine two sentences with the same subject but different predicates by forming a **compound predicate**.

Federico's family grows olives. Federico's family makes olive oil.

Federico's family grows olives and makes olive oil.

- Combine two sentences by creating an **appositive**, a word or phrase that tells more about someone or something.

Angelini Olive Grove is the family farm. Angelini Olive Grove was started about eighty years ago.

Angelini Olive Grove, the family farm, was started about eighty years ago.

Sentence fragments are incomplete sentences. They do not express complete thoughts. You can correct sentence fragments by adding a subject, a predicate, or both.

Sentence fragment: These small bitter fruits.

Complete sentence: These small bitter fruits look like grapes.

predicate

Sentence fragment: Are filled with rich oil.

Complete sentence: The best olives are filled with rich oil.

subject

Sentence fragment: From green to purple-black.

Complete sentence: An olive turns from green to purple-black.

both

Sentences *(continued)*

Run-on sentences are two or more sentences that run together. You can correct run-on sentences by separating the sentences or by combining them with a conjunction and the proper punctuation.

Run-on: An olive tree can live longer than two thousand years its bark becomes twisted as it gets older.

Correction: An olive tree can live longer than two thousand years. Its bark becomes twisted as it gets older.

Correction: An olive tree can live longer than two thousand years, and its bark becomes twisted as it gets older.

Nouns

A **noun** is a word that names a person, a place, an animal, a thing, or an idea. A noun can be singular or plural. A **singular noun** names one. A **plural noun** names more than one.

- Add *-s* to form the plural of most nouns: nickel + *s* = nickels; dime + *s* = dimes.
- Add *-es* to nouns that end with *s*, *x*, *sh*, *ch*: dress + *es* = dresses; box + *es* = boxes; wish + *es* = wishes; lunch + *es* = lunches.
- Change the *y* to an *i* and add *-es* to a noun that ends with a consonant + *y*: penny – *y* + *ies* = pennies; spy – *y* + *ies* = spies.
- Replace the *f* or *fe* with *-ves* for nouns that end with *f* or *fe*: scarf – *f* + *ves* = scarves; wife – *fe* + *ves* = wives.
- Change the spelling to form the plural of some irregular nouns: child/children; tooth/teeth.
- Keep the same spelling for some irregular plurals: sheep/sheep; deer/deer.

A **possessive noun** shows ownership.

- Add *'s* to make a singular noun possessive: a baby's toy.
- Add an apostrophe after the *s* for plurals that end with *s*: the babies' cries.
- Add *'s* for plurals that do not end with *s*: the children's notebooks.

Pronouns

A **subject pronoun** replaces a noun that is the subject of a sentence. It tells whom or what the sentence is about.

Lil and Drew wash cars to earn money. They wash cars to earn money.

Lil gets a new bike. She gets a new bike.

An **object pronoun** replaces a noun that receives the action of the verb. It can also follow a word such as *with*, *to*, *at*, *for*, *below*, or *from*.

Lil rides the bike everywhere. Lil rides it everywhere.

Drew sees Lil at the playground. Drew sees her at the playground.

Lil waves to Drew. Lil waves to him.

A **possessive pronoun** shows ownership.

Lil is proud of her new bike.

Drew tells Lil, "Your bike is much faster than mine."

The noun that a pronoun replaces or refers back to is called the **antecedent**. A pronoun and its antecedent must **agree in number**, or match. Singular pronouns replace singular nouns. Plural pronouns replace plural nouns.

Cal has two parrots. The boy loves to teach words to them.

A pronoun and its antecedent must also **agree in gender**.

Cal teaches the parrots one new sentence a week. Today he taught the birds to say, "That's yucky!"

Verbs

An **action verb** tells what someone or something does. A **linking verb** connects the subject to words that tell what the subject is or is like.

Action verb: My cousin Ryan lives in Alaska.

Linking verb: Anchorage and Fairbanks are the largest cities in Alaska.

Action and linking verbs can have **main** and **helping verbs**.

I may visit Ryan next summer. Alaska can be beautiful in the summer.

Action and linking verbs must **agree in number** with their subjects. Use the singular form of the verb or helping verb with a singular subject. Use the plural form of the verb or helping verb with a plural subject.

Singular subject: Alaska is the largest state in the United States. It is twice the size of Texas.

Plural subject: The Aleutian Islands are part of Alaska. They extend into the Eastern Hemisphere.

The **simple present tense** tells about something happening now or regularly.

In Alaska dogs such as huskies and malamutes pull sleds across the snow.

A husky performs well as a sled dog. A malamute is a good sled dog, too.

The **simple past tense** tells about something that has already happened. Some past-tense verbs are formed with *-ed*, but others are irregular.

Ryan's aunt competed in the Iditarod dogsled race last year.

Alaskans first held this race in 1973. Dick Wilmarth and his dogs won that year.

(continues)

Verbs *(continued)*

The simple **future tense** tells about something that is going to happen.

Ryan's aunt will race again next year. She and her dogs will train hard.

The **perfect tense** shows that one action has started or has been completed before another action in the past, present, or future.

Alaska has been a state since 1959. Until that year, the state had been
present perfect past perfect
a U.S. Territory. In 2019, Alaska will have been a state for 60 years.
future perfect

The **progressive tense** shows an action continuing in the past, present, or future.

I am writing a report about Alaska. Last night I was gathering
present progressive past progressive
information about the climate. Tonight I will be researching the
future progressive
cultures and traditions.

It is important to avoid an incorrect **shift**, or change, in tense. An incorrect shift in verb tense could confuse the reader about when something happens or takes place.

Incorrect shift in tense: When I do research, I always wrote down the page numbers or website.

Correction: When I do research, I always write down the page numbers or website.

Modifiers and Other Parts of Speech

An **adjective** describes a noun or a pronoun. It gives details about *what kind, how many, or how much*.

The bracelet had five tiny white pearls, and they were beautiful.

You can also use adjectives to make comparisons. **Comparative** adjectives compare one person, place, animal, or thing to another. **Superlative** adjectives compare one thing to two or more others. Longer adjectives use *more* and *most* instead of *-er* and *-est*.

This bracelet is prettier than that watch, but the ring is the prettiest of all.

The bracelet is more beautiful than the watch, but the ring is the most beautiful of all.

An **adverb** describes a verb or an adjective by giving details about *how, when, where, or to what extent*.

Amy found a very special ring earlier. It sparkled brilliantly when she held it up.

to what extent

when

how

where

You can also use adverbs to make comparisons. Use *more* or *less* with an adverb when comparing two verbs. Use *the most* or *the least* when comparing three or more verbs.

A ruby shines more brightly than a pearl. A diamond shines the most brightly of all gems.

(continues)

Modifiers and Other Parts of Speech *(continued)*

A **preposition** shows position, direction, point in time, or another relationship. A **prepositional phrase** contains the preposition, the object of the preposition, and any words in between. A sentence can have more than one prepositional phrase.

Amy slid the ring onto her finger.
preposition object of the preposition

Amy hid the ring in the drawer of her desk.

It would be safe in its hiding place.

Correlative conjunctions show a choice, a combination, or an addition. These conjunctions can form a compound object, a compound subject, or a compound predicate.

Choice: Amy had wanted either a ring or a bracelet.
compound object

Combination: Both Amy and her cousin loved the ring.
compound subject

Addition: The ring not only looked nice but also fit perfectly.
compound predicate

Use **formal** English when writing or speaking to an adult, or when writing or speaking for a school assignment. Use **informal** English when writing or speaking to your friends.

Formal: Diamonds form underground. The process requires a great deal of heat, pressure, and time.

Informal: Diamonds take forever to form. It's a really cool process. Seriously!

Informal English often includes **interjections**, or short words that express feelings and reactions. An interjection is usually followed by an exclamation point or a comma.

Wow, I can't believe how beautiful that diamond is. Oh no!
I dropped it!

Punctuation

Commas can be used to separate three or more items in a **series**, or list. A comma followed by *and* or *or* appears before the last item.

Firefighters, police officers, and emergency medical technicians are all trained to save lives.

They are trained to deal with people who have stopped breathing, have had a heart attack, or have serious bleeding.

You must have strength, courage, and training to be a successful emergency worker.

A **comma** can be used after an **introductory word or phrase** to separate it from the rest of the sentence. Use a comma after single words that apply to the whole sentence. Use a comma after phrases that have four or more words.

“Clearly, fighting forest fires by smokejumping is a meaningful job.

After two years of smokejumping, do you still find it exciting?”

A comma is used **after the word Yes or No** when it appears at the beginning of a sentence.

“Yes, it’s very exciting to be a smokejumper and put out forest fires.”

A comma is used to **set off a noun of direct address**.

“Mr. Perez, what made you decide to become a smokejumper?”

A comma is used **before a tag question** at the end of a sentence.

“Becoming a smokejumper isn’t easy, is it?”

Quotation marks and **commas** are used to set off a speaker’s exact words from the rest of the sentence.

Theo asked Ms. Patel, “When did you decide to become an emergency medical technician?”

(continues)

Punctuation *(continued)*

If a **quotation is interrupted** by words telling who is speaking, use quotation marks to set off each part of the speaker's words.

“I've wanted to do this work since I was a little girl,” Ms. Patel answered. “My grandfather fell when I was home with him. We called 911, and the EMTs were there in minutes!”

Single quotation marks within **double quotation marks** show that the speaker is repeating someone else's written or spoken words.

Ms. Patel continued, “I read in a medical journal that ‘a matter of minutes can make all the difference in saving someone's life.’ That's when I knew that I wanted to help others by becoming an EMT.”

Book **titles** should be underlined or put in italics to set them off from other text. Underline the titles when you are writing them by hand. Set them off in italics when you are keying in titles on a keyboard.

Life Among the Trees

My Year as a Forest Ranger

The titles of magazines, television shows, and movies should also be underlined or set in italics.

Time for Kids (magazine)

Kid Talk (TV show)

Finding Nemo (movie)

Shorter works, such as short stories, poems, songs, and magazine articles, are set off with quotation marks.

“The Dragon Rock” (short story)

“Caterpillar” (poem)

“America the Beautiful” (song)

“A Trip to Yosemite” (magazine article)

Proofreading Passage 1

A student wrote this draft of a story. Correct all the errors you find.

I first met Jim when he was riding his bike. He had tied a kite to the handlebars, and it looks like it might lift him right off the ground!

Jim saw me and comes to a stop. He smiled and said, “Hi! You’re new around here aren’t you? My name is Jim.”

“It’s nice to meet you, Jim. Yes I’m new here. My name is Carson.”

Just then I heard a yip a whine, and a bark. Jim scooped up a tiny ball of fur from the basket of his bike. “This is Gizmo. She loves to ride with me. Our three dogs are Gizmo, Cher and Tank. Neither Cher or Tank is small enough to fit in the basket. Do you have pets Carson?”

“I have a hamster, a parakeet and, a turtle,” I answered. “We will get a puppy after we settle in. I want either a beagle nor a cocker spaniel.”

At that very moment we heard an odd flapping sound. Jim had forgot about the kite, and it will have crashed to the

ground. As soon as Gizmo could wiggle out of Jim’s arms, she raced over to the kite and was growl at it. “As you can see Gizmo thinks that her job is to protect me,” laughed Jim.

I noticed a few books in Jim’s basket, so I asked, “What do you reading?”

“I’m reading a book for my book report,” answered Jim. “We had to choose either a biography and an autobiography. I like Walt Disney movies a lot, so I chose the book *Who Was Walt Disney?* I just started to read it.”

“I like Disney movies, too,” I replied. “My favorite is *Toy Story*. I have seeing all the ones in the series, but I like the first one best.”

I did not mention that I had written a poem about the movie. My poem was titled *The Secret Life of Toys*. I am afraid that Jim might not like poetry. Then I was seeing another book in Jim’s basket titled *Rainy Day Poems*. Clearly Jim and I would become great friends.

Proofreading Passage 2

A student wrote this draft of a story. Correct all the errors you find.

I had plan to leave the house when my little brother was in the bath. Unfortunately he came down the stairs just as I reached the front door.

“Maya, will you read to me?” he asked.

Scotty loved listening to stories, but I had make plans to go to the gym. Well, I could either make Scotty happy nor make him cry.

“Come here Scotty,” I called. “Let’s pick a book.” I thought that he would choose his favorite book, Gloria Jean the Jumping Machine. As you might have guessed this book be about a kangaroo. Scotty likes to hop, skip and jump around the room while I am read.

To my great surprise Scotty picked one of my old books, “The Best of Mother Goose.”

“Maya, this was yours wasn’t it?” he asked.

“Yes it was,” I answer. “My favorite nursery rhyme was Jack and Jill. Either we can start with that, nor you can pick another one.”

“Please read me your favorite,” said Scotty.

He looked very eager, and I forgot that I had want to leave. We took Scotty’s blanket, the book and his cup of milk to the couch. It only takes a few minutes for Scotty to fall asleep. His legs started to twitch kick, and flop around. Maybe he was tumble down a hill in his dreams. Neither the lawn mowers or the noisy trucks disturb his sleep. I would be able to go to the gym after all.

Proofreading Passage 3

A student wrote this draft of a story. Correct all the errors you find.

For many years now my family and I have watch old movies on Friday nights. I especially love the really old ones that be in black and white, but either my brother nor my sister is liking them much. Typically a Friday night goes something like this: “Roy which movie would you like to watch tonight?” Dad asks me. “Would you like to see The Wizard of Oz?”

Although I seen the movie a thousand times I still love to hear the song Somewhere Over the Rainbow. Mom always sighs and said, “That’s really beautiful isn’t it?”

Dad’s standard reply is, “Yes it doesn’t get any better than that.”

We have lots of other favorite films, too. Once we have decided which movie to watch, we make the popcorn get something to drink, and settle comfortably on the couch.

If my brother and sister complain, Dad says, “Either quit grumbling and watch, nor find something else to do.”

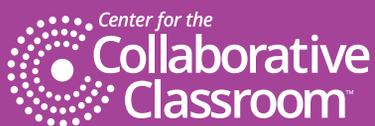

That’s why I was so surprised last Friday. My brother Craig had already gone to his room to finish “The Adventures of Huckleberry Finn” for his book report. My sister Gina is playing a video game. Dad called to them both, “Come and watch the movie with us.”

“Neither Gina or I wants to watch another old movie,” grumbled Craig.

“I insist,” said Dad.

We knew right away that this was a movie we had never saw before. The opening title said *The Wiz*, and the setting was New York. Even Craig and Gina were glued to the screen. Imagine our surprise when the Scarecrow will turn out to be Michael Jackson! My favorite part was when Dorothy the Scarecrow, the Tin Man and the Cowardly Lion sang together. Soon we all were sing along, “Ease on down, ease on down the road.”

I can hardly wait to see what Dad is going to choose next Friday.

Assessment Overview

The assessments offered in the *Being a Writer*[™] program are designed to help you (1) make informed instructional decisions as you teach the program, and (2) track your students' writing growth and social development over time. The assumption is that all of your students are developing at their own pace into strong, capable writers and that they are all developing into principled, responsible people with strong interpersonal skills.

The *Being a Writer* program provides a comprehensive and flexible set of formative and summative assessments that enable you to track and evaluate your students' progress and needs, unit-by-unit and across the year. (For a brief description of each assessment, see "Assessments" on page vi.) As you teach the lessons in the *Teacher's Manual*, an assessment icon (📄) will alert you whenever an assessment is suggested. If you are using the *Digital Teacher's Set*, tapping the assessment icon opens the CCC ClassView[™] assessment app.

Everything you need to conduct each assessment, including instructions and forms, can be found in this book or accessed through the CCC ClassView app (classview.org). You may choose to record your students' progress using printed copies of the forms from this book or from the CCC Learning Hub (ccclearninghub.org). For more information, see "CCC ClassView App" below.

CCC ClassView App

The CCC ClassView app is an online application that contains all of the assessment forms and instructions available in this *Assessment Resource Book*. This tool also enables you to electronically collect, sort, synthesize, and report assessment data for each student. When conducting the assessments, you can enter data directly into the CCC ClassView app and then generate reports on the progress of individual students and the class as a whole. You can access the CCC ClassView app by tapping the linked assessment icons in the *Digital Teacher's Set*, directly accessing the app at classview.org, or via the CCC Learning Hub (ccclearninghub.org). For more information about the assessment app, view the "Using the CCC ClassView App" tutorial (AV80).

Assessments

CLASS ASSESSMENT

Unit 1 • Week 1 • Day 4 Class Assessment Record • CA1

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
• Are the students writing in silence?			
• Are they staying in their seats?			

Other observations:

Considerations:
If you notice students having difficulty staying in their seats or writing in silence, call for the class's attention and remind them of your expectations before having them resume writing. Be aware that some students may need to just sit and think for a while before they start writing. Give them uninterrupted time to do this.

4 | Being a Writer™ • Grade 5 © Center for the Collaborative Classroom

The class assessments are designed to help you assess the writing, and sometimes the social performance, of the whole class. As you teach the lessons, a Class Assessment Note in the *Teacher's Manual* will alert you when an assessment is suggested. During the class assessments you have the opportunity to observe the students as you ask yourself questions that focus your observations. These notes occur about once per week, usually during Writing Time, when the students are using the writing processes, craft, or skills that they are learning in the unit. Each Class Assessment Note has a corresponding "Class Assessment Record" sheet (CA) where you can record your observations. The record sheet reiterates the suggestions from the *Teacher's Manual* for how to proceed with the instruction based on your observations.

TEACHER CONFERENCE

Personal Narrative Conference Notes: Focus 1 • CN1

Student's Name: _____ Date: _____

Ask the student to show you his or her writing and read some of it aloud to you. Help the student extend his or her thinking about personal narrative by asking questions such as:

- Q Why did you choose to write about this [event/memory/thing]?
- Q What else do you remember about it that you can add to the narrative?
- Q What words are you using to describe what you [saw/heard/smelled/tasted/felt]?
- Q (Beginning Week 2, Day 5) What verb tense—for example, past or present tense—are you using in your story?
- Q What other experiences from your own life might you want to write about?

Other observations:

Next steps:

38 | Being a Writer™ • Grade 5 © Center for the Collaborative Classroom

Teacher conferences provide you with the opportunity to talk with individual students about their writing, identify areas of strength, and note areas in which a student needs more support. As you teach the lessons, a Teacher Conference Note in the *Teacher's Manual* will alert you when an individual teacher conference is suggested. These notes provide specific questions related to the students' writing that you might ask yourself or a student when conferring individually. Many notes also include suggestions for supporting struggling students. Each Teacher Conference Note has a corresponding "Conference Notes" record sheet (CN) where you can document your suggestions and observations that result from each conference. We

encourage you to confer with each student at least once or twice per unit, depending on the length of the unit. The "Conference Notes" record sheets from your writing conferences with the students also comprise an important source of information for the Individual Writing Assessment (see page vii).

Student Goals and Interests Survey

The questions provided in the first “Conference Notes” record sheet can be used as a beginning-of-year survey of your students’ goals and interests. After you have conferred with all of your students, we recommend that you review the students’ responses to the questions and look both for patterns across the class and for individual comments that stand out for you. For example, you might note writing topics and genres that the students are interested in and whether the students exhibit an aversion to, or affinity for, writing. The information you gather can help you plan instruction for the coming months.

After analyzing your students’ responses, you might share with the class what you learned about them as writers and how you plan to help them build their love of writing over the course of the year. For ideas on how to facilitate a class discussion about the survey, see the extension “Discuss the Students’ Writing Goals and Interests” on page 64 of the *Teacher’s Manual*.

The questions in the final Teacher Conference Note of the year can serve as an end-of-year survey of your students’ perceptions of their growth as writers, a measure of their attitudes toward writing, and a summary of their goals for summer writing. After you have conferred with your students, you might share the information from this final survey with them, along with the initial survey, and discuss how the students’ attitudes toward writing have changed.

SOCIAL SKILLS ASSESSMENT

The Social Skills Assessment allows you to note how well each student is learning and applying the social skills taught in the program. In addition to social skills, this assessment allows you to track how well each student integrates the values of responsibility, respect, fairness, caring, and helpfulness into his or her behavior. As you teach the lessons, a Social Skills Assessment Note in the *Teacher’s Manual* will alert you when a social skills assessment is suggested. We recommend that you do this assessment three times during the year—in the fall, winter, and spring. (If you teach in a year-round school, adapt as necessary to assess early in the year, midyear, and at the end of the year.) The “Social Skills Assessment Record” sheet (SS1) allows you to track how individual students are doing with particular skills over the course of the year (see page 175).

INDIVIDUAL WRITING ASSESSMENT

The Individual Writing Assessment is designed to help you assess growth in the writing of individual students. The “Individual Writing Assessment” record sheet (IA) consists of two sections—Part A: Non-published Writing and Part B: Published Writing—and a few Reflection questions to help guide your assessment of each student’s growth.

The Non-published Writing section helps you analyze each student’s notebook writing or other non-published writing generated during a unit using a rubric that identifies the instruction and the writing tasks for each week of the unit. The purpose of this portion of the assessment is to help you determine whether the writing the student completes on a day-to-day basis shows evidence of the unit’s instruction.

Part B: Published Writing

The Published Writing section helps you score each student’s published piece using a rubric that identifies certain descriptors of successful writing.* You assess the writing to determine whether *almost all*, *much*,

some, or *almost none* of the writing shows evidence of each descriptor. Examples of scored student work are provided for each unit as models to help you score your students’ writing using the rubric.

Reflection The Reflection section in Part B provides questions that help you reflect on each student’s progress since the previous assessment and identify what you might focus on during the next unit’s instruction.

The information from the “Individual Writing Assessment” and the “Conference Notes” record sheets, combined with any scored *Student Skill Practice Book* activities, constitute a record of each student’s development over the unit. (For more information about scoring *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

If you need to use the scored writing as a basis for grading, the “Individual Writing Assessment” record sheet includes a section where an overall unit score can be calculated. Keep in mind that progress in the *Being a Writer* program is determined by an increase in scores over time, rather than by each unit’s score. The assumption is that all students are growing at their own pace into strong, capable writers. The “Individual Writing Assessment Class Record” sheet (CR1) is provided for you to record your students’ progress over the course of the year (see page xx). If you are using the CCC ClassView app, you can generate a variety of reports that track individual students’ progress as well as the progress of your class as a whole.

*For information about the how this program’s “Descriptors of Successful Writing” relate to the 6+1 Traits®, used by many schools as part of writing assessment, see “The 6+1 Trait® Writing Model and the *Being a Writer* Program” on page xxiv of the *Teacher’s Manual*.

End-of-year writing samples are obtained from the students using the same prompt as the beginning-of-year writing samples. After obtaining the writing samples, we recommend that you analyze each student's writing using the "End-of-year Writing Sample Record" sheet (WS2). If you obtained both samples, comparing the "Beginning-of-year Writing Sample Record" and "End-of-year Writing Sample Record" sheets can help you evaluate your students' growth as writers and the effectiveness of the year's instruction. For more information, see "Obtaining an End-of-year Writing Sample" on page 168.

We suggest that you obtain the beginning-of-year writing samples during the first month of school and the end-of-year writing samples during the last unit of instruction in the program.

Individual Assessment Folders

We recommend that you create a folder for each student in which to store collected writing samples and “Individual Writing Assessment,” “Conference Notes,” and “Student Self-assessment” record sheets. You may also want to make copies of each student’s scored writing and file these in the assessment folder. Periodically, you can use the materials in the folder to discuss the student’s progress with him or her, as well as with parents and other adults in the school. The folders can travel to the next grade with the students.

Obtaining a Beginning-of-year Writing Sample

Conduct this assessment during the first month of the school year. If you would like to administer this assessment online, go to classview.org to learn how you can conduct the *Being a Writer* assessments using the CCC ClassView online assessment app.

PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “Beginning-of-year Writing Sample Record” sheet (WS1) from the CCC Learning Hub (ccclearninghub.org) or from page 4. Review the questions on the record sheet to help you prepare to analyze each student’s work.
- ✓ Plan to provide enough time for the students to complete the writing sample. You might base the amount of time on your school district’s requirements for similar writing tasks or simply provide your students with the time they need to complete their writing.
- ✓ Gather any additional materials needed to complete the writing task (for example, dictionaries, extra pencils, crayons, or markers) and make them available to your students.
- ✓ Write the following prompt where everyone can see it: *Think about a day that you will always remember. Write a story about that day.*

CONDUCTING THE ASSESSMENT

1. Tell the students that today they will each write a piece to show what they know about good writing. Explain that the students should try to do their best writing in this piece.
2. State your expectations for how the students will behave while you are conducting the assessment (for example, students should stay in their seats, work silently, and raise their hands if they have questions). You might also tell the students what additional resources, if any, they can use as they write (such as drawing materials or a dictionary).
3. Direct the students’ attention to the prompt and explain that they will all write about this topic. Give the students a few moments to read the prompt.
4. Give the students a few moments to think about what they will write. (If you are conducting this assessment as a timed writing activity, tell the students how much time they will have to complete their writing and that you will let them know when they have 10 minutes remaining.)
5. Distribute writing paper and have the students begin.
6. Signal the end of the writing period and collect the students’ writing.

ANALYZING THE ASSESSMENT

For each student's writing sample:

1. Read the piece carefully. As you read, think about the questions on the "Beginning-of-year Writing Sample Record" sheet (WS1) and record your observations. Make note of any writing conventions that the student uses consistently or inconsistently, and indicate which, if any, grade-level skills are absent from the writing.
2. Use the information you gather from the student's writing to help inform your instruction in the coming months. (For example, if you notice that many students struggle to write engaging opening sentences, you can make a note to emphasize that instruction when appropriate.)
3. Attach the completed record sheet to the writing sample and file it in the student's individual assessment folder.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> ▪ Are the students writing in silence? 			
<ul style="list-style-type: none"> ▪ Are they staying in their seats? 			
<p>Other observations:</p>			

Considerations:

If you notice students having difficulty staying in their seats or writing in silence, call for the class’s attention and remind them of your expectations before having them resume writing. Be aware that some students may need to just sit and think for a while before they start writing. Give them uninterrupted time to do this.

▪ Are the students writing in silence?			
▪ Are they staying in their seats?			
▪ Are they skipping lines in their notebooks?			
Other observations:			

Considerations:

If necessary, remind the class of your expectations for silent writing during this time. Note which students write easily and which have difficulty getting started. If you notice any student struggling to start writing after 10 minutes, pull him or her aside and ask questions such as:

- Q *What are you thinking about right now?*
- Q *What interesting thing has happened in your life that you could write about? What could you write as a first sentence for that idea?*
- Q *What ideas have you written in your writing ideas section? Let's pick one and talk about what you might write.*

Ask the student to tell you about the part he or she is working on now and to read his or her draft aloud.

As you listen to the student, ask yourself:	Yes	No	Not evident	Evidence:
▪ Does this student's writing communicate clearly? If not, what is unclear?				
▪ Do the ideas connect in a way that makes sense?				
▪ Do the revisions make sense and improve the piece?				
▪ (<i>Beginning Week 2, Day 2</i>) Does the student recognize misspelled words and correct them?				
▪ (<i>Beginning Week 2, Day 3</i>) Does the student proofread his or her writing using his or her proofreading notes?				

Help the student revise unclear writing by rereading those passages back to him or her and explaining what is confusing you. Ask questions such as:

- Q *What do you want your reader to be thinking at this part? How can you write that?*
- Q *What is another way you can say this? Write that down.*
- Q *What sentence could you add to give your reader more information?*
- Q *What part are you going to work on next?*

Thoughts About My Story

Things to look for in my writing:	I did it!	I did it some of the time.	I'm still working on it.
▪ I wrote a story.			
▪ My writing is clear. It is easy to tell what my writing is about, and my piece makes sense from beginning to end.			
▪ My writing is fun and interesting.			
▪ I used many interesting words that describe how things look, feel, sound, taste, and smell.			
▪ I have proofread my writing. I checked for: <ul style="list-style-type: none"> - punctuation (. ? ! "Hi!" said Adam.) - capital letters (Betty lives in Austin, Texas.) - spelling 			

Reflection:

- What did you do to make your writing fun and interesting to read?

- What did you enjoy about Writing Time during this unit?

Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to classview.org to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “Individual Writing Assessment” record sheet (IA1) from the CCC Learning Hub (ccclearninghub.org) or from page 28.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 22 to help you prepare for scoring the students' work.

CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

Diving

You watch someone splash into the water with grace. In what feels like a second you're standing on the diving board 12 feet in the air at the sports complex pool. You're excited and nervous. Your legs shaking left to right you nervously prepare your dive. In one second you spring off the board. You feel the wind in your hair and you like it. You do three flips and splash into the water gracefully. As you enter the water you gulp. Did I do good enough? You think. Also you're cold and wet instantly. You open your eyes. You hear cheering from the surface. You burst with pride. A perfect triple flip dive! You swim up and in a second you're out of the water gasping for breath. You swim to the side, get out, and run for a towel. As you wrap yourself around the warm fluffy towel you tiredly watch a few other people go. "Wow!" You think to yourself they're amazing! There's no way you'll win now. The announcer walks up and grabs the microphone. "We have a winner!" He announces over the intercom. You're incredibly nervous you're thinking to yourself please be me please be me. The announcer breaks your thought. "For her amazing triple flip dive..." your heart's pounding so loud you can hear it now going thump thump. "Sarah Jones! You're in shock. "I won, I won!" You get your gold medal that very same evening. As they give you your medal you feel the taste of victory.

Commentary: The author opens with a compelling image and boldly tells the story from the second-person point of view. Creativity and individual expression come through in the first sentence (*You watch someone splash into the water with grace*), and the second-person perspective is sustained throughout the piece. After the diver enters the water, the sequence of events is a little difficult to follow, and punctuation errors add to the confusion (*Did I do good enough? You think. Also you're cold and wet instantly You open your eyes.*), but overall the story proceeds logically and most of the sentences are clear. The author demonstrates control over narrative elements by cultivating a sense of suspense when describing the announcement of the winning dive and by alternating between descriptions of the scene and the character's thoughts and emotions. The story ends on an uplifting note. The piece would have received a higher score if grammatical conventions had been applied consistently.

When I Cracked My Head Open

“Aaaaaah,” I screamed with little pieces of stone in my head. I cracked my head open at my house when I was six years old. I was at a little cliff and the grass was tickling my feet and I fell onto a pile of stone, headfirst. There was a big, bloody hole in my head and I screamed at the top of my lungs. I yelled, “Aaaaaaaaah”

My mom came to me while I was standing up and she was holding my head to stop the bleeding. In a calming voice she said, “Don’t worry you will be all right.”

My dad needed to get the stone out of my head with some tweezers. He told me some jokes while he was doing it because he was trying to make me feel better. My sister was crying because she cared about me. I needed to go to Children’s Hospital. My mom and my sister came, but my dad didn’t come because he needed to go to work. There was a T V at the hospital, but the doctor explained, “You can’t watch T V because you have an injured head”

Then I felt better and my mom took me home. I needed to wear a big, white Band-Aid that needed to go around my head and it was soft. When my mom looked at it, a few days later, it was all better

Commentary: The story maintains its focus on a painful accident, and the events described are easy to follow. The author would benefit from more practice in developing stories; the piece moves abruptly between events without describing feelings or actions in detail. Although sensory details are included, some of them seem irrelevant to the story. For instance, the grass tickling the author’s feet does not help the reader understand how the accident happened, and the sentence explaining who accompanied the author to the hospital seems unnecessary. The story would also benefit from more varied and descriptive vocabulary. While the author opens the story with an exciting first sentence, the conclusion seems rushed. Most sentences are fluent, spelling is correct, and there are few grammar or punctuation errors.

England is the one who invented cricket. They didn't win any world cup since they invented it. My favorite team is India ,hey won the world cup last year. They won the world cup 1982's. Since they won the world cup now they're on fire. They are winning all the games. They were against England, England lost badly. 90 all out. 170/4. Now there in first place in-t twenty matches. If you think that India have more titles you are incorrect.

I like cricket because my dad was watching cricket, and after awhile I started to watch and play cricket.

Commentary: The author of this piece succeeds in conveying excitement for the game of cricket and pride in the success of India’s team, but appears to be at the beginning stages of learning how to develop ideas and make logical connections between them. The essay jumps quickly from one idea to another in a stream-of-consciousness style that is difficult to follow. ELL issues might be contributing to errors in grammar and punctuation, which somewhat reduce the piece’s fluency.

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

Ask the student to show you his or her writing and read some of it aloud to you. Help the student extend his or her thinking about personal narrative by asking questions such as:

- Q *Why did you choose to write about this [event/memory/thing]?*
- Q *What else do you remember about it that you can add to the narrative?*
- Q *What words are you using to describe what you [saw/heard/smelled/tasted/felt]?*
- Q (Beginning Week 2, Day 5) *What verb tense—for example, past or present tense—are you using in your story?*
- Q *What other experiences from your own life might you want to write about?*

Thoughts About My Personal Narrative

Things to look for in my writing:	I did it!	I did it some of the time.	I'm still working on it.
▪ I wrote a story about something important that happened to me.			
▪ I included a lesson I learned or how I changed because of this event.			
▪ My writing is clear. It is easy to tell what my writing is about, and my piece makes sense from beginning to end.			
▪ My writing is fun and interesting.			
▪ I used many interesting words that describe how things look, feel, sound, taste, and smell.			
▪ I have proofread my writing. I checked for: <ul style="list-style-type: none"> - punctuation (. ? ! "Hi!" said Adam.) - capital letters (Betty lives in Austin, Texas.) - spelling 			

Reflection:

- What did you do to make your writing fun and interesting to read?

- What did you enjoy about Writing Time during this unit?

Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to classview.org to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “Individual Writing Assessment” record sheet (IA1) from the CCC Learning Hub (cccllearninghub.org) or from page 50.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 44 to help you prepare for scoring the students' work.

CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

CLIF JUMPING

I just wanted to get out of the water I didn't know why I jumped, but I did so the only way out was to swim to the shore.

It all happened on my trip to Oregon when I went on a rafting trip, we went on some rapids but all I could think about was the cliff jump, and finally the raft leader said

"Here we are!" As he pointed to the cliff.

"Ready?" said my dad

"yep." I said a little nervously I walked up the stony hill and my heart was thumping. When I was at the edge of the cliff looking 30 feet down my brother said

"Well are you gonna do it"

"Yes." I said "are you"?

"Obviously" said my brother, I took a breath and looked down.

"I'll show him he'll think he was a fool" I thought and I fell over the edge. "Oh boy" I thought I was heading towards the water in a belly flop position, "that's gonna hurt" I thought

I hit the water and a shock went through me, my head went under the 35' water I just wanted to get out. Then I found the strength to swim to the shore. The raft leader had rocks on a grill he said to put them down my shirt I thought that was weird but I did it anyways they warmed me up really good.

1

"Next time " I told my brother" you go first"and that is the story of my extremely fun and scary cliff jump and that you shouldn't jump from 30 feet up in a belly flop.

Commentary: This narrative is dramatic and easy to follow. The author chooses words carefully when describing perceptions and feelings (*I walked up the stony hill and my heart was thumping*), and crafts dialogue to reveal character and build suspense (*“Well are you gonna do it?”*). The opening sentence (*I just wanted to get out of the water*) is effective because it immediately raises a compelling question—what happened?—without explicitly asking one. By beginning the story with a vivid image from the final scene, the author demonstrates a sophisticated understanding of narrative structure. In the main body of the piece, there are some missed opportunities to develop the progression of events (for example, what was happening before the raft leader “finally” spoke?). The closing sentences are less successful than the opening ones, but they do show that the narrator learned something valuable from the experience described (*you shouldn’t jump from 30 feet up in a belly flop*). With the exception of the title, the author spells words correctly. The piece would read more fluently with more consistent use of capitalization and proper punctuation.

My Special Sombrero

On hot summer day my sweat fell to the ground while I was in church and I was 4 or 5 in hot country of Mexico.

Church had just finish and we were looking at the beautiful beach waves swishing around.

There was a store by the church and we went to see what they had. I saw some delicious food like churros, but my mom wouldn't buy me some because she said we could eat at the house. So I hit my leg frustrated that I couldn't get a churro and left feeling very depressed since I thought I wouldn't get anything from the store.

" Chito come here I found some stuff you might like," my Grandma said. She saw lots of Mexican sombreros.

" I'll buy you one Chito," my Dad said to me. All of them were too big, but then I saw the perfect one. It had a new smell and was a black and white sombrero. My dad bought it for me and I danced happily because if I had a churro it would be gone by now and the sombrero I still have in my closet. So that was my best day ever

Commentary: This piece demonstrates skill in choosing vivid details to reveal the narrator’s thoughts and feelings, although it leaves the reader wanting to hear even more about the people and places in the story. While the narrative focuses on a single event (the day the narrator got a sombrero) and its import, the ideas are not fully developed. Transitional words such as *but, because, and So* are used effectively, but there are abrupt shifts between scenes. For instance, one moment the author describes being in church, and the next, being at the beach watching the waves. The piece contains some grammatical errors, but the mistakes don’t cause much confusion, and the spelling is strong. Some of the phrasing (*Church had just finish*) suggests that the author may be an English Language Learner.

When I got an autograph from Joemantana

Joemantana was won of the greatest quarterback ever he won 4 super bowl rings. Until my grandma new the cousin of Joe Montana? She told me that she new the cousin of Joemantana.

So I told her to tell the cousin to get an autograpgtr4h from Joemantana and a few autographs pictures came. She had a nice surprise for me and I said,

It better not be homework. And it was a Joemantana autograph picture, I was happy, that said

To Collin best wishes JM, and my brother had the same thing but said to Cody I thought that was awesome to have one from him. Then I went to the store and they had a frame for me and my bro the same length as the picture it looked nice with it. And that is when I showed every one; the picture of Joemantana autograph with his super bowl rings, it looked like it had diamonds on the super bowel rings. And the awesome thing about that is my grandma knowing the cousin and getting an autograph from Joe Montana.

Commentary: This piece successfully conveys excitement over receiving an autograph from Joe Montana, although quick leaps between events and ideas make it difficult to keep up with the story. Transitional words are used although *until* is used improperly. Descriptive vocabulary is reserved for the ring (*it looked like it had diamonds*) and the frame (*the same length as the picture*). The opening sentence contains an engaging idea and the closing sentence emphasizes feelings of happiness and pride over owning the autograph. The same sentences highlight the author’s struggle to follow grammatical conventions, which impairs the piece’s fluency. Run-on sentences and errors in capitalization, punctuation, and spelling also make it challenging to follow this essay’s loosely linked ideas.

Part B: Published Writing

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

Considerations:

Identify any students who would benefit from another conference and confer with them as they finish their stories. Notice what evidence you can see that the students have learned something about plot, setting, and the other elements of fiction covered in this unit.

Student's Name: _____ Date: _____

Ask the student to show you a piece of his or her writing and read some of it aloud to you. Hold off on any feedback about grammar or spelling. Instead, focus on clarifying the student's ideas about the story he or she is writing. Ask questions such as:

- Q *What is this story about?*
- Q *Who [is/are] the character(s)? What is interesting about [him/her/them]?*
- Q *What do you imagine might happen to [him/her/them]?*
- Q *(Beginning Week 2, Day 1) When and where do you imagine this story takes place?*
- Q *(Beginning Week 2, Day 3) What speech or dialogue might you include in this story?*
- Q *What part are you going to work on next?*

Talk with the student about the piece he or she is developing for publication. Ask the student to tell you about the part he or she is working on now and to read some of his or her writing aloud to you.

As you listen to the student, ask yourself:	Yes	No	Not evident	Evidence:
▪ Does this student's story have a character with distinct traits that are shown through action, speech, or thought?				
▪ Does something interesting or important happen to the character?				
▪ Does the story make sense? Is it easy to follow what is happening, when, and to whom?				
▪ Does the student use transitional words and phrases?				
▪ <i>(Beginning Week 4, Day 4)</i> Does the ending bring the story's events to a close?				
▪ <i>(Beginning Week 5, Day 1)</i> Does the student use sensory details to convey the setting?				
▪ <i>(Beginning Week 5, Day 4)</i> Does the student use prepositions and prepositional phrases to vary sentences or make the writing easy to follow?				
▪ <i>(Beginning Week 5, Day 4)</i> Does the student use the first- or third-person point of view consistently?

Support the student in integrating the elements of fiction by asking questions such as:

- Q *What kind of personality does your main character have?*
- Q *What actions, thoughts, or speech [have you added/could you add] to show who the character is?*
- Q *What interesting or important thing happens to your character?*
- Q *What transitional words and phrases [did/could] you use to help connect events or ideas?*
- Q (Beginning Week 4, Day 4) *What [did/could] you write to bring the story to a close?*
- Q (Beginning Week 5, Day 1) *When and where does the story take place? What descriptive words can you use to tell the reader how the place looks, feels, sounds, or smells?*
- Q (Beginning Week 5, Day 4) *Which sentences can you revise using prepositions and prepositional phrases?*
- Q (Beginning Week 5, Day 4) *Which point of view, first- or third-person, [did/could] you use in your story?*

Provide extra support to the student as he or she prepares the second draft for publication. Consider:

- What does this student need to work on to be ready to publish his or her story?

Discuss questions such as:

Q *What are you working on right now?*

Q *Do you have an I narrator telling your story? Are you using a consistent point of view throughout the story?*

Q *Are you using the same verb tense all the way through your story? If you accidentally switched, how will you revise so all the verbs are in the same tense?*

Q *Do you have any long sentences that might be run-ons? Let's reread them and see whether they need to be divided into shorter sentences.*

Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to classview.org to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the "Individual Writing Assessment" record sheet (IA1) from the CCC Learning Hub (ccclearninghub.org) or from page 80.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 74 to help you prepare for scoring the students' work.

CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

Examples of Scored Writing: Sample 1

"Mama can I go to David's house to pick up some candles?" It was the only thing I could think of to get out of the house.

"Yes but be quick and don't stay out too late." Mama plopped three coins into my hand. They were new and shiny and they felt good in my small dirty hand. She kissed my head and showed me out the door. It was almost sundown and it was cold in my little town. I walked quickly for mama might get worried if I got home late. I was not just getting candles that night but I was doing something more, I was baking a cake for mama. Tomorrow was her birthday and I needed to do something special for her. David was my best friend and his father made candles. I thought that I could buy some for mama's cake. That day at school I had asked David if I could use his oven and he agreed to let me use it. I took out my hat.

"Wow" I mumbled as I looked at what I needed to get. This could take a long time. First I needed flour, eggs, and sugar and for those I would have to go all the way up main street to the bakers store. As I walked along the cobble stone streets I was entranced by aromatic smells coming from the bakery. I needed to

1

go and see what those smells were. I was quick on my feet and hurried over to the shop. Coming into a warm wonderful smelling shop was like coming from Alaska and going suddenly into the warm summers of Hawaii. I walked over to the counter where Sindy the baker was standing.

"Hi Sindy" I said getting up at the big woman.

"Oh hi there Rabecca, did you want to buy something today?"

"Maybe it wouldn't hurt to just buy one score?" I gave Sindy the money and scipped out side.

When I was almost to the bakers store I paid the market. There was a clanking noise and then Josef the market man came lumbering out carrying a box of fresh oranges.

"Hello Rabecca would you like to buy some oranges?"

"Hello and thanks for the offer maybe I will. You see I am baking a cake for my mother."

"Ah" he said smiling.

"I understand if you don't want to buy any today than?"

"No I do!" I said quickly. I bought four big, ripe, golden oranges. I was sucking on one when I realized I was at the top of the hill right in front of the bakers store. I slipped inside. A bell rang and I saw miss Bakers smiling face above the counter. I walked over

and said

"Hello miss Bakers I am baking a cake for my mother and here is the list." I handed her a thin square sheet of paper. She looked at it for a quick moment and then cheerfully stated

"I think we have just about everything you need here."

"good" I replied. For the next few minutes we marched around the store finding everything I needed to get for the cake. When we were all done, miss Baker gave me a paper bag and announced "That will be \$12.48 please." I started counting my money and I got to \$10.50 when I had no more money left.

"Oh no!" I sank down on my knees and started to do that thing where water comes in little drops out of your eyes.

"What's the matter?" asked miss Baker

"I don't have enough money to buy everything" I snided.

"Well its not the end of the world all you have to do is say so." She pulled me up to my feet, brushed my skirt off and said

"You take these" she handed me the bags of things I had planned to buy and then said

"Now run along and go make your mama's cake." I was so happy, so happy for words so I just hugged her before I went out

3

the door. As I walked down main street I was filled with joy. The sun was almost down as I hurried to David's house. We made the cake together and David's father gave me new wax candles to put in the cake. I thanked them all for letting me use their stove and scipped off to my house with a happy surprise sitting in a little brown box tied up with twine laying in my hands waiting to be opened.

Commentary: This story uses sensory details and realistic dialogue to create compelling characters and a vivid setting. Some of the author’s admirable attempts to be original don’t quite work, such as the highly wrought description of crying, but those failures are outweighed by other effective descriptions, such as images of the cobblestoned town and the lumbering grocer. Transitional words, like *as* and *when*, make the sequence of events clear, and prepositional phrases, such as *above the counter*, develop the details. The conclusion seems a bit rushed, but it does wrap up the story. Numerous spelling errors (*huryed, perring, scipped*) are somewhat distracting but, because they are reasonable approximations, do not significantly impact the piece’s fluency. A sound grasp of grammatical conventions is evident throughout.

It was a dark and stormy day in witch town. Etzel was just coming back from school when Penny the hamlet's dragon went running into Etzel's room and hid under a pile of black dresses. Laura, Daniel, and their mom were in the kitchen eating rat tail stew when they heard Penny loudly moaning. They got up and ran towards the dragon. You could see Penny had tears in her eyes so Daniel picked her up and we all saw she had a broken hand. We quickly and slowly at the same time placed her on the boom. Mom quickly and nervously jumped on too

and left to the creepy dragon hospital. We were all waiting around to see what happened except Etzel. She seemed like nothing happened she was in the room on the floor. That got me more mad than I already was so I got my behind off the chair and went to check the phone. You should of seen Etzel, she was turning red and spilling her lungs out it was cracking up. Then I heard a loud crack on the door. It was my mom saying Penny. She showed us the ways of Penny's hand. She had her own broken in 3 parts. I felt very sorry for Penny but in

2

that moment when it was about to start crying Penny appeared. She looked in so much pain. She just did her dragonly smile and jumped on me. Etzel did not get in trouble because it appeared to my mom as if it was just an accident. After a couple of days Penny's leg got better. Penny seemed to have a mind of her own because she kept livening Etzel with her fire breath. It was an awesome life. Etzel never got close to Penny and we lived happily ever after.

Commentary: We know this is a fiction story from the familiar opening (*It was a dark and stormy day*). The author sets up a problem (Penny the dragon’s broken hand) which is eventually resolved, and creates a vivid world through some sharp and often funny descriptions, such as the dragon diving beneath a pile of black dresses and the family eating rat tail stew. While a plot with a clear beginning, middle, and end is evident, it is unclear who the main character is. Characters are not developed, and the shift from a third-person narrator (*Laura, Daniel, and their mom were in the kitchen . . .*) to the use of *we* and *I* make it unclear who is telling the story. Because Itxel’s involvement in Penny’s injury is not described beyond her reaction (*she seemed like nothing happened*), we are confused by the ending (*Itxel did not get in trouble because it appeared to my mom as if it was just an accident*). Logic also breaks down when we read that Mom comes through the door carrying Penny, then learn contradictory information a few sentences later (*when I was about to start crying Penny appeared*). These examples suggest that more rereading aloud would be helpful during the writing process. Run-on sentences cause some confusion (*We were all waiting worried to see what happened except Itxel she seemed like nothing happened she was in the room on the phone*), and grammar problems further hamper fluency, but the majority of words are spelled correctly.

	"Nooo!" Jerry cried grabbing on to his mother, and his crying was heard all over Calisornia. "I don't want to leave!" cried Jerry "You have to," exclaimed Kay "look, do you see your brother or sister complaining?" questioned Kay "no" whispered Jerry.
	Mike, Joan, and Mike were outside the house on a warm fall. "I think we should make our own homes" said Mike "Me too" replied Joan "well, not me" said Jerry, "I should take Jerry with me" said Joan. So off they went.
	The next day Joan and Jerry decided to make a house made out of rubber. When the rubber house was completed they saw Mike making his house out of fur. When Mike finished Joan and Jerry went to visit Mike. "I'm so glad to see you Mike!" exclaimed Joan "so am I" responded Mike.
	Later that same day Jerry and Joan went back home. "Joan" whispered Jerry "What?" questioned Joan "I want to go to sleep!" exclaimed Jerry "ok, ok" said Joan. Joan tucked Jerry and he went to sleep. When Jerry was old enough he made his own home out of bricks.

Commentary: This story begins in an engaging way and incorporates several elements of fiction: characters, actions, and a sense of high stakes (*his crying was heard all over California*). An ear for fiction is evident in phrases such as *So off they went* and *Later that same day* and in the dialogue, which uses a variety of interesting synonyms for *said* (*exclaimed, questioned, whispered, responded*) and confidently places verbs before subjects (*questioned Kay; whispered Jerry*). Without the story’s title, it’s unclear that the characters are mice; they do not behave like mice, and the author does not describe their appearance. Disjunctions in the narrative, both within and between paragraphs, make it difficult to track the story line, while large spaces between paragraphs add to the sense of fragmentation. The author does provide an ending to the story, although it breaks abruptly from the story’s sequence of events. Punctuation and capitalization in and around quotes is often missing.

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

Support any pair that struggles by asking questions such as:

- Q *What notes seem to belong together? Why do you think so?*
- Q *What other notes could go into your ["Turning Trash into Treasures"] group? Why do you think so?*

Be aware that categorizing information can be challenging for some students; this is to be expected. They may have difficulty defining subtopics or consistently sorting their notes into those subtopics. They may want to discard notes that do not fit, or become preoccupied with having the same number of notes in each subtopic. Encourage them to try their best to organize all their notes in a way that makes sense (perhaps creating an "Other Interesting Facts" category for outliers).

Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to classview.org to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the "Individual Writing Assessment" record sheet (IA1) from the CCC Learning Hub (ccclearninghub.org) or from page 108.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 100 to help you prepare for scoring the students' work.

CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

Report on Anne Frank

Introduction

You are about to read about a girl named Anne. Anne was a girl who lived during world war II. She went through the Holocaust but she still had a lot of happiness for a while. She wrote about her life in a diary. It's a story of hope and fear and it's all true.

Anne Frank's Early Life

Anne was born in Germany in 1929. Anne's parents were Otto and Edith. She also had a big sister named Margot. Anne and her family were happy. Then the Nazi party came to power in Germany. That was in 1933. The Nazi party was a band of people led by Adolf Hitler. The Nazis didn't like Jewish people. That was bad for Anne since her family was Jewish. They were in danger. Therefore Anne and her family left Germany forever. They went to another country called the Netherlands.

World war II

For a long time, Anne lived in the Netherlands. She played and went to school. But then Hitler and Germany started World war II. Hitler wanted to take over other countries. So in 1940 Germany invaded the Netherlands. Anne and her family had to hide. Jewish people weren't safe because the Nazis were looking for them.

1

The Secret Annexe

Anne had a pretty good hiding place. Her father worked in a building that had rooms at the back. The three-story annex was separate from the rest of the building. It had three stories and there was a bathroom. The entry to her hiding place was through an opening and closing bookcase. Anne's father's friends brought the family food and helped them.

Anne's Diary

Anne Frank had a diary that she started to write in when she was 13 yrs old. She called this diary kitty. Anne Frank's family knew that she had a diary but they not even her friends thought that it would become famous. But they knew that she had a lot to say about everything. She wrote in her book all the time. Her father gave it to her for her birthday.

Anne Frank liked to talk a lot so her teachers called her "The Chatterbox." She didn't like the name so she wrote it in her diary. Also, she wrote about her friends, school, and boys. She wrote about her sister and parents and friends and how she wanted to be a journalist one day. One entry she wrote was on May 8, 1944. In that entry she wrote: "I want to see something of the world and do all kinds of exciting things."

Caught

Anne and her family hid for a long time. But in August 1944 they were found. When that happened, they were sent to a work camp. These were terrible prisons for Jewish people. At the camps people were made to work very, very hard. If they did not then they would be killed. The body's

would be stacked like fire wood and at the end of the day a truck would come by, pick them up and burn them. Anne was not killed by soldiers. She and her sister died of typhus, an illness that killed thousands of camp prisoners. She died just a few weeks before British soldiers freed the prisoners.

Why We Know About Anne

After Anne was caught, some friends found her diary in the annex. They saved it and kept it safe. After the war, her diary was published. People all over the world read it. People can also visit the house in the Netherlands where Anne hid. Today Anne Frank is famous everywhere.

About the Authors

██████████ is half jewish (and half catholic). He likes reading and basketball. He wants to grow up to be a politician and make sure the Holocaust never gets repeated. ██████████ likes to do cartooning and skateboarding. Reading about Anne Frank gave him bad dreams but he thinks everyone should so we make a better world.

Commentary: This report successfully presents factual information about the life of Anne Frank. The third-person point of view is used throughout, and the writers provide memorable details to help us understand this historical figure (*her teachers called her "The Chatterbox"; she wrote about her friends, school, and boys*) and the chilling events of her time (*The body's would be stacked like fire wood*). The quote from Anne's diary also adds variety and interest. Transitional words (*but; Therefore; Also*) help connect ideas smoothly. The report does an admirable job of providing historical context, presenting facts accurately, and keeping events in sequence, although readers would benefit from more information in some places (for instance, the important term *Holocaust* appears but is not defined, who found Anne and her family in their hiding place is not described, and the connection between the Nazi party and the camps is left unclear). These omissions together might suggest

lapses in research or, minimally, a need for the authors to be made more aware of the reader. Overall the piece is impressive, given that biographical writing is an especially challenging form of nonfiction, requiring the ability to place events in a larger context, describe them chronologically, and explain cause-and-effect relationships. While some descriptive vocabulary is used, the piece would benefit from more. With a few exceptions (*annex/annexe; world war II; they not even her friends; body's; jewish*), the writing is fluent and conforms to conventions. Introduction to Venus Fly Traps

Your about to learn about one of the most interesting and weirdest plants ever! It's called a Venus Fly Trap Read this report and find out all about it.

What are Venus Fly Traps?

Venus Fly traps are plants that have traps that look like mouths and eat flies. Venus Fly Traps are carnivorous which means that they eat insects. (There are other carnivorous plants that even eat small frogs!) Why do they like eating insects because they have lots of good nutrients. Venus fly traps grow in wet places like parts of North and South Carolina you can buy some at plant stores also. They are rare plants. But don't worry These plants do not bite people and they are only dangrous if you're an insect.

How do Venus Fly Traps attract flies?

The Venus Fly Traps let out a smell that flies can't resist and when the fly comes close enough the fly trap eats it. The mouth has two things that look like tiny spiky hairs that get hit then the mouth closes. So raindrops don't make the fly traps mouth close unless they hit them twice in a row which is extremely un-libly

Do Venus Fly traps need water and sun?

Yes they need water and sun because their still plants even though they eat insects You have to keep their soil pretty wet and they like to be sprayed with water too. They don't like to get too cold. It is a pretty easy carnivorous plant to grow. However, I think they do not like too much bright hot sunlight I had one on my windowsill that died because the sun was way too hot.

Can Venus Fly Traps see?

Many people have this question but no the plants don't see, instead the flies land on their mouths so then they can open and eat them. Scientists like to study why the Venus fly trap can open and catch the flies so fast!

Do Venus Fly Traps eat anything besides flies?

Yes, Venus Fly traps eat spiders, ants, lightning bugs, and moths. They do not eat pieces of paper or cereal or hamburger because it can make the fly trap get sick and die. In fact, it is bad to try to feed them anything other than insects. Also it takes energy for the fly traps to close. If they waste that energy to eat something it can't eat, it can be hurt.

Conclusion to Venus Fly Traps

Now you know all about Venus Fly Traps. Are you going to go out and buy one of these cool plants? Remember just don't feed it anything but insects!

About the Authors

Commentary: This expository piece uses a lively question-and-answer format to give information about a subject that is of palpable interest to the authors. The introduction immediately communicates the authors' enthusiasm. Early in the piece we learn the most pertinent piece of information about Venus flytraps (that they "are plants that have traps that look like mouths and eat flies"), which provides a context for the rest of the piece. Vocabulary is varied, interesting, and used correctly (*weirdest; nutrients; rare; attract; resist; spiky; bright; instead*). Although the well-chosen subheadings are in a logical sequence and the authors provide answers to the questions posed, some facts are incomplete, too vague to be easily verified, or difficult to follow. For instance, the explanation of the trap's trigger is confusing. These problems, combined with the lack of a bibliography, suggest a hasty writing process. Run-on sentences caused by missing end punctuation and spelling errors (*carnvorous; dangrous; flys*) also make some of the sentences difficult to follow. (Note: Due to space limitations, the two photographs and captions that the authors included are not shown here.)

Bald Eagles

This is a bald eagle.

Can you imagine a bird that was 6-8 ft long, people hunted these birds the one they called the bald eagle. Bald eagles are very strong. They are able to fly over 10,000 feet above sea level. It is able to dive at a speed of over 100 mph. The bald eagles talon are able to squeeze together at a strength of 10,000 lb. per square inch. For example if we had that much power of a bald eagle talon we can squeeze a metal cabinet. Did you know that only half of the eaglets only survived the first year. That is not a lot!

A bald eagle's life span ranges about 35 to 40 years old. When they grow up, bald eagles are so big they can be as long as 6 to 8 feet long from wing tip to wing tip, being as long as two kids.

Did you also know Bald eagles are the symbol of the United States of America. They are on our money for example if you really look at them and on the U.S. great seal. Bald eagles are native to north America bald eagles in the northern U.S. migrate to the southern U.S. Bald eagles were endangered in the early 1960s by humans

These are eagle chicks.

There was chemical DDT. If we were decreasing at that rate there wouldn't be any humans in the 1900s. But now bald eagles are protected and there are more of them.

They only live where there is a large area of water. They use their hooked beak to remove the scales. It can go at 44 mph to catch its food. The bald eagle's ancestor Proutarra was millions year old. For example, if our ancestors were that they would have been our great-great-great-great-great (you get the point) grandparents.

Another kind of eagle is a golden eagle. You can tell a bald eagle from a golden eagle because it's has a white head. The bald eagle has a white head that's how it got its name bald eagle a long time ago. It also has a yellow beak.

Commentary: The strengths of this piece lie in its clear effort to engage the reader (*Can you imagine; Did you know; You can tell*) and in the way it frequently draws dramatic comparisons to help readers understand some of the information that it provides. (For instance, the authors point out that an eagle’s wingspan is as long as two kids and explain that if we had strength comparable to that in an eagle’s talons, we could squeeze a metal cabinet.) However, the facts in the piece are difficult to verify and are not organized in a discernable sequence, subheadings are missing throughout, and few transitional words appear. An interesting introduction is attempted but is marred by its garbled articulation. Spelling and grammatical errors, particularly run-on sentences, make it difficult to follow this piece even though the authors manage to share their excitement for the subject matter. The report lacks an “About the Authors” section or a bibliography, and vocabulary remains fairly basic.

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

- What did you enjoy about Writing Time during this unit?

Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to classview.org to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the "Individual Writing Assessment" record sheet (IA1) from the CCC Learning Hub (ccclearninghub.org) or from page 128.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 122 to help you prepare for scoring the students' work.

CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

Directions to Our School Library

Matthew is new to the school and he needs to go to the library. So here's the directions I gave him. Start at the door of Mrs. Brown's classroom. Leave the classroom, make a right turn, and walk until you come to a mural on the wall made of colored tiles. Turn left at the mural and pass a glass door on your left. Don't go through that door. It's the teacher's lounge. Keep walking straight and you'll come to a blue medel pole in the middle of the hallway. Make a left turn at the blue pole and walk down that hallway. At the end of the hallway, make a rihgt turn. When you do, you will see a bubbler on the left. Keep going. In a few steps, you will pass both the boys' bathrom and the girls' bathroom on the right. When you see double doors on the left a few steps further, open them! Your there! You're in the school library!

Commentary: The writer clearly identifies the purpose and audience in the first sentence of this piece. Not only are easily recognized landmarks pointed out, but also the reader is warned about confusing spots on the route (*Don't go through that door. It's the teacher's lounge.*). She adds clarity to the piece by using the conjunction pair *both/and* and by punctuating a series of items with commas. Since the steps contain only a few spelling or grammatical errors and proceed in a sequence that makes sense, the directions are easy to follow, even after just a single read.

Start at the front door of Mrs. Bednar's room. First, turn right from the door. Keep going straight pass the brown wooden kindergarten cubbies till you reach the big blue pole in the middle of the hallway by the cat picture on the door. Then turn left by the greenish coat racks and keep going straight till you reach the girls bathroom. Turn right from there and walk approximately 20 feet and make a left turn you will see bubblers on the right (take a drink if you want). On the right you will see 2 big wooden doors walk through them then you are there at the librarys

Commentary: The writer states the purpose of the piece in the title (*Directions to school library*) and identifies a very specific starting point (*the front door of Mrs. Bednar’s room*). Helpful landmarks along the route are described (*brow wooden Kindergarten cubbies; greenish coat racks*) and most of the steps are listed in an order that makes sense. Still, there are some confusing moments; for instance, it’s unclear whether the greenish coat racks are in the same spot as the cat poster or whether the left turn lies further down the hall. Run-on sentences (*Turn right from there and walk approximately 20 feet and make a left turn you will see bubblers on the right*) and missing periods make some of the steps difficult to follow. Although the piece contains spelling errors (*brow, approximately, librarys*), overall the writer observes spelling conventions.

Commentary: The title (*Directions to library*) states the writing’s purpose and the endpoint of the directions. Although the writer identifies the starting point as the classroom door, which classroom is not made clear. A few easily identifiable landmarks along the route are described (*two doors of the left; restrooms; bubblers*), though the final steps are presented in a confusing way—should we expect to see the bubblers and the two doors on the left as soon as we make the final left turn, or are the two doors further down the hall? Run-on sentences and spelling errors make the directions difficult to understand even after multiple readings.

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

Keep Animals In Their Natural Habitat!

Have you ever been to an amusement park or a zoo when there are some animals that you don't normally see? Well they might have taken that animal from the wild! Animals need to stay in their natural environment. If zoos and amusement parks keep capturing them, they might become endangered. The reason I say this is because if you keep animals long enough, they may become more dependant on humans. Also they might not be used to the certain change of climate. Some of the times, by animals have to get use to how much space they have now. Some don't.

An example of animals becoming too dependant on humans, is that if they decide to send it back to the wild, they will forget how to feed themselves. So when they finally go back to their original home, they will be looking for humans, not food. If they can't find any humans they will starve, and die.

Could you imagine being a polar bear and you so used to the cold climate, and then you have to go to a hot and stuffy zoo? They don't have all of that fur plus black skin for nothing! Sure they try to make it colder for them, but it's still not the same.

Have you ever went to Marine World, or another amusement park, and watched the whale do tricks in that big stadium? Well what might be big for us, might not be so huge for the whale.

1 Some animals get so depressed on how much space they have and can even die. Think about it.

What's have the whole ocean. Compare that to the stadium.

Animals have a right to stay with their family in the wild and not get taken for someone else's entertainment. I would you ever want to be taken away from your home. I know I don't. So we need to keep animals in their natural environment.

Commentary: Despite the author's lack of content knowledge about the causes of animal endangerment, this piece argues persuasively that animals should remain in their natural habitats. While the logic of the last two sentences in the first paragraph is unclear, in general the piece proceeds sensibly: the first paragraph states the writer's thesis, subsequent paragraphs expand on it, and the final paragraph reiterates it. The author uses transitional words and phrases to link ideas (*also; so; An example of animals becoming too dependent on humans is*). The use of questions (*Would you ever want to be taken away from your home.*) and the impassioned tone (*They don't have all of that fur plus black skin for nothing!*) suggest awareness of the reader and personal investment in the topic. The piece displays highly fluent sentences, good spelling, and an overall command of taught skills, though occasionally words are used incorrectly (*get use to; your so used to; Have you ever went*) and some punctuation is omitted in the final paragraph.

Schools should not ban Sports

First of all, sports might be popular, and a lot of kids want to play when schools ban them. If kids only like one game and then the school bans that game then they won't be doing anything at recess. There will be less options at recess. Second, recess won't be fun without your favorite sport. You will have to play sports you might not like. You might be bored the whole recess. Also you won't get very much exercise. You will get out of shape. Recess might be your only source of exercise. You might even get overweight. PE will maybe be your only exercise and that not enough. Finally, you won't be able to focus in class. It will be hard to focus in class. You might talk or distract others. You will also distract yourself. And you might get in trouble. In conclusion, for these reasons, a lot of kids might be playing this sport bans it, recess won't be fun without your favorite sport, you won't get very much exercise, and you won't be able to focus in class. I think schools should not ban sports.

Commentary: This opinion piece makes a passionate case for allowing students to play sports during recess. It would be easier to understand the essay's purpose if it were stated in the first paragraph instead of only in the title, but the essay stays on topic and makes some persuasive points. The audience is presumably the school's administration, but occasionally the author seems to be writing to other students. The essay uses some transitional words and phrases (*Second*; *Finally*; *In conclusion*) and the author tries to make some reasons clearer by explaining them in more than one way. The essay also incorporates some interesting and relevant vocabulary words such as *popular*, *overweight*, and *distract*. While the piece would benefit from tighter organization, more careful use of transitional words, and a stronger opening and closing, most of the sentences are straightforward and easy to follow. A few tangled passages suggest that the piece would have benefitted from being read aloud and proofread.

I would like a dog. First dogs are loyal to you. You can teach dogs tricks. That are some of the reasons I would want a dog. Dogs will make me show you how responsible I am.

You can teach dogs tircks. Some of the tricks you can teach dogs are fetch, beg, stand up, sit down, turn arond. Also, roll and spek.

You can play with dogs. Outside and inside but more outside. If you are one of the people how like to play, you have a dog to play with. If I play with a dog, I will get exersize.

I won't bug you. I'll be playing with the dog. I'll wash the dog I will keep the dog healty and put out the food for the dog.

Commentary: Although the piece states clearly what the author wants and cites several supporting reasons, the argument does not develop much beyond an outline. The author's purpose and sense of conviction are hard to miss, and germane words (*loyal; fetch; exercise*) support the argument. However, the intended audience is unclear; the piece uses the pronoun *you* in ways that sometimes seem to refer to a general reader (*You can teach dogs tricks*) and other times to the author's parents (*I won't bug you*). The essay is divided into paragraphs that contain supporting facts, but those facts aren't organized or developed into a coherent argument. The piece contains several spelling errors, and run-on sentences and fragments make parts of the argument difficult to follow.

Part B: Published Writing

The bulleted items in Part B identify instruction in this unit that addresses particular descriptors of successful writing. A student is not expected to include every bulleted item in his or her final piece; rather, the bulleted items are examples of how a piece of writing might fulfill a particular descriptor. A piece of writing might successfully fulfill a descriptor without necessarily including the bulleted items listed under it.

- Q *What kind of weather could you write about?*
- Q *What sensory details can you write to describe what [a rainy day] sounds like? Looks like? Feels like?*
- Q *What does [rain] sound like? What words make you think of the sound of [rain]?*

▪ Is this student attempting to write a poem, rather than a story?				
▪ Does this student include sensory details in his or her poem?				
▪ Does the student include other elements of poetry?				

Support the student by asking questions such as:

- Q *What sensory details [are you including/can you include]? How will that help a reader imagine what's happening?*
- Q *What can you tell me about the lines and stanzas in your poem?*
- Q *What sounds are you thinking about as you write your poem?*

Thoughts About My Poem

Things to look for in my writing:	I did it!	I did it some of the time.	I'm still working on it.
▪ I wrote a poem instead of a story.			
▪ My writing is fun and interesting.			
▪ I used interesting words to describe how things look, feel, sound, taste, and smell.			
▪ The sound and shape of my poem help readers know what it is about.			
▪ I have proofread my writing. I checked for: <ul style="list-style-type: none"> - spelling - following or not following the rules of punctuation and capitalization throughout my poem 			

Reflection:

- What did you do to make your writing fun and interesting to read?

- What did you enjoy about Writing Time during this unit?

Completing the Individual Writing Assessment

Before continuing with the next unit, take this opportunity to assess each student's writing from this unit. The Individual Writing Assessment is guided by the assumption that each student is growing at his or her own pace into a strong, capable writer; therefore this assessment is designed to compare a student's work to his or her earlier writing, rather than to the writing of other students. If you would like to administer this assessment online, go to classview.org to learn how you can conduct *Being a Writer* assessments using the CCC ClassView online assessment app.

PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “Individual Writing Assessment” record sheet (IA1) from the CCC Learning Hub (ccclearninghub.org) or from page 164.
- ✓ Collect the students' writing notebooks, any other non-published writing, and their published pieces from the unit. Make a copy of each student's published piece, and return the original to the student or to the class library.
- ✓ Review Parts A and B on the record sheet (IA1) as well as the examples of scored writing starting on page 158 to help you prepare for scoring the students' work.

CONDUCTING THE ASSESSMENT

For each student:

1. Part A: Read the student's notebook and other non-published writing from the unit and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of the unit's instruction. Circle 4, 3, 2, or 1 to indicate your assessment for the writing tasks listed for each week.
2. Part B: Read the student's published piece carefully and determine whether *almost all* of the writing, *much* of the writing, *some* of the writing, or *almost none* of the writing shows evidence of each descriptor of successful writing. Circle 4, 3, 2, or 1 to indicate your assessment for each descriptor.
3. Calculate totals for Part A and Part B and add them together to determine the writing score.
4. (Optional) If you wish to include any *Student Skill Practice Book* pages in the student's overall unit score, calculate the total for these pages and then add it to the writing score to determine the overall unit score. (For more information about scoring the *Student Skill Practice Book* pages, see the *Skill Practice Teaching Guide*.)

(continues)

5. Review the “Conference Notes” record sheets for the student during this unit. Think about the Reflection questions on the “Individual Writing Assessment” record sheet (IA1) and write your responses in the space provided below each question.
6. Attach the completed assessment to the writing sample and file it, along with the “Conference Notes” record sheets and copies of any *Student Skill Practice Book* pages, in an individual assessment folder for the student.

Higher and taller
than every green tree.
I see the silent hawks overhead.
The river runs through me like a vein.
Swish Swish Swish Swish Swish Swish Swish!
Inhaling the forest pine and exhaling the cool mist,
I grow up to the turquoise sky and crumble down down down
down down down to the hard cool earth. Watch me fall, hear me rise.

Commentary: This poem's title, shape, and content unite to convey its subject: a mountain. The poem is rich with sensory details that evoke the look, sound, and feel of the mountain, as well as its wildlife and environment (*gray; rocky; higher; taller; green; silent*). The poet uses the techniques of onomatopoeia (*Swish*) and repetition to enhance the poem with sound, and effectively personifies the mountain by using the first-person voice to make it seem alive (*I see; The river runs through me like a vein; I grow up . . . and crumble down*). The poet also uses simile to express the connection between the mountain's river and a vein (*the river runs through me like a vein*). Individual expression and creativity are seen throughout the poem, particularly in the interesting word choices (*vein; inhaling; turquoise; crumble*) and captivating ending (*Watch me fall, hear me rise*). The spelling and punctuation are correct and conventional.

Commentary: This poem about an apple contains interesting sensory details that describe how the apple looks and feels (*shiny and smooth; Red as a Tomato; fat as a potato*). Creativity is demonstrated in the personification of the apple (*The apple just sits There, waiting*). The use of rhyme and simile to compare the apple to other fruits and vegetables (*Red as a Tomato, and fat as a potato*) adds to the poem's effectiveness. The poet consistently uses commas but no end punctuation, and this choice is effective, guiding the reader's attention while not overriding the capacity of line breaks to create stopping points. All of the words in the poem are spelled conventionally. While *shiny and smooth* is an apt description of an apple, it is arguably a bit on the familiar side, and the capitalization of *There, Red, and Tomato* come across as random rather than as contributing to the poem's meaning.

Commentary: It is clear from the title, structure, and content of the piece that it is a poem about popcorn. The poet creatively incorporates onomatopoeia and repetition (*Pop! Pop! Pop!* and *Crunch! Crunch! Crunch!*). The poem has three stanzas and consistently breaks sentence conventions, with the exception of exclamation marks; it is not clear why the third stanza warrants so many more exclamation marks than the rest of the poem. The diction remains simple. A few sensory details (*Dillices sof and sweet!*) add interest although the poem would benefit from more, and in the middle stanza, the description of taste is interrupted with a non sequitur (*Store or home*). Several words in the poem are misspelled or approximated, which slows the reader's comprehension.

Revisiting The Writing Community

End-of-year Writing Sample (WS2)	168
Class Assessment Records (CA1-CA2).....	172
Conference Notes (CN1)	174

Obtaining an End-of-year Writing Sample

PREPARING FOR THE ASSESSMENT

- ✓ Make a class set of the “End-of-year Writing Sample Record” sheet (WS2) from the CCC Learning Hub (ccclearninghub.org) or from page 170. Review the questions on the record sheet to help you prepare to analyze each student’s work.
- ✓ Plan to provide enough time for the students to complete the writing sample. You might base the amount of time on your school district’s requirements for similar writing tasks or simply provide your students with the time they need to complete their writing.
- ✓ Gather any additional materials needed to complete the writing task (for example, dictionaries, extra pencils, crayons, or markers) and make them available to your students.
- ✓ Write the following prompt where everyone can see it: *Think about a day that you will always remember. Write a story about that day.*

CONDUCTING THE ASSESSMENT

1. Tell the students that today they will each write a piece that shows what they know about good writing. Explain that the students should try to do their best writing in this piece.
2. State your expectations for how the students will behave while you are conducting the assessment (for example, students should stay in their seats, work silently, and raise their hands if they have questions). You might also tell the students what additional resources, if any, they can use as they write (such as drawing materials or a dictionary).
3. Direct the students’ attention to the prompt and explain that they will all write about this topic. Give the students a few moments to read the prompt.
4. Give the students a few moments to think about what they will write. (If you are conducting this assessment as a timed writing activity, tell the students how much time they will have to complete their writing and that you will let them know when they have 10 minutes remaining.)
5. Distribute writing paper and have the students begin.
6. Signal the end of the writing period and collect the students’ writing.

(continues)

ANALYZING THE ASSESSMENT

For each student's writing sample:

1. Read the piece carefully. As you read, think about the questions on the “End-of-year Writing Sample Record” sheet (WS2) and record your observations. Make note of any writing conventions that the student uses consistently or inconsistently, and indicate which, if any, grade-level skills are absent from the writing.
2. Review the student's beginning- and end-of-year writing samples. Compare your comments on the student's “Beginning-of-year Writing Sample Record” sheet (WS1) from Unit 1 with those on the “End-of-year Writing Sample Record” sheet (WS2) to see how the student's writing has improved over the year.
3. Attach the completed record sheet to the writing sample and file it in the student's individual assessment folder. Consider passing the folder along to the student's teacher for next year.

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> Are the students able to explain why they marked a piece as their best, most fun, or most challenging? 			
<ul style="list-style-type: none"> Do they refer to their first drafts or other steps in the writing process in talking about their pieces? 			
<ul style="list-style-type: none"> Do they listen carefully to each other? 			
<p>Other observations:</p>			

Observe the students and ask yourself:	All or most students	About half of the students	Only a few students
<ul style="list-style-type: none"> Do the students write confidently about ways to be a good writer? 			
<ul style="list-style-type: none"> Do students who seemed cautious or inhibited about their writing early in the year write more freely now? 			
<ul style="list-style-type: none"> Do they confidently use their word banks and proofreading notes to proofread their writing? 			
<p>Other observations:</p>			

Student's Name: _____ Date: _____

Ask the student to show you his or her marked pieces of writing and briefly tell you about each one. Help the student think about what it was like to write these pieces and how he or she has grown as a writer this year. Ask the student questions such as the following and record his or her responses:

Q *Which piece did you mark as your [best/most fun/most challenging]? Why?*

Q *What do you remember about working on this piece?*

Q *How do you feel about your writing?*

Q *How do you feel when you are asked to read your own writing to the class?*

Q *What did you like writing about this year?*

Q *What do you do best as a writer?*

Q *How do you think you have changed as a writer this year?*

Q *What are some things you might want to write about this summer?*

Acknowledgments

Many people were involved in the development of the *Guided Spelling™* program, and we are grateful for their time, expertise, suggestions, and encouragement. We are particularly indebted to the teachers who piloted portions of the program; they took time and care in preparing to teach the lessons, gave us insights into the ways the program benefited their students, and provided comments and suggestions about program usability for teachers. Their cooperation and expert feedback have been invaluable.

Introduction

Becoming a good speller involves more than simply memorizing words and passing tests. Both in and out of school students will need to spell and write many more words than they can possibly memorize. It is critical for them to know how to approach words that they have not learned for spelling tests. Knowledge about spelling empowers students to spell independently.

The *Guided Spelling* program is a curriculum designed for grades 1–6 with the primary goal of developing knowledgeable, independent, and *thoughtful* spellers. Thoughtful spellers know the content of English spelling: they know how to segment and spell by sounds, recognize patterns within words, add inflections, spell by syllables, add prefixes and suffixes, and apply morphemic spelling knowledge.

- **Segmenting and spelling by sounds**, for example, segmenting /săt/ into its sounds for spelling—/s/+/ă/+/t/—and spelling the word *sat*
- **Recognizing patterns within words**, for example, knowing that the sound /ō/ can be spelled **o_e** as in *home*, **oa** as in *loan*, or **ow** as in *glow*
- **Adding inflections**, for example, doubling the **p** in *hop* and adding *-ed* to get *hopped*, or dropping the **e** in *hope* and adding *-ing* to get *hoping*
- **Spelling by syllables**—breaking words like *Friday* and *middle* into syllables and pronouncing the syllables in ways that reflect their spelling
- **Adding prefixes and suffixes**, for example, adding *dis-* to *connect* to form *disconnect* or adding *-able* to *desire* to form *desirable*
- **Applying morphemic spelling knowledge**, for example, knowing that the word *construction* is related to the word *construct*, so the final syllable is spelled *-tion*

Thoughtful spellers have also memorized the spelling of many words, especially high-frequency words (such as *mother*, *toward*, and *laugh*) and spell them automatically in their writing.

Finally, thoughtful spellers use all of their spelling knowledge in a metacognitive and deliberate manner. They anticipate the pitfalls of English. They know which spelling strategies to use in particular situations. They know when they don't know how to spell a word, and they know what resources to consult for assistance.

There is no substitute for thoughtful spelling. Computer spell-checkers fail to recognize a significant portion of misspellings; they often fail to offer the correct spelling for the intended word; and a weak speller is frequently unable to select the right spelling from the list the spell-checker provides (MacArthur et al. 1996; Pedler 2001).

The *Guided Spelling* program is specifically designed to support the development of thoughtful spellers through 15-minute daily lessons that are teacher-directed, multisensory, and interactive.

► **How the *Guided Spelling* Program Works**

At the heart of the *Guided Spelling* program is the daily guided spelling activity in which the students apply the spelling strategies they are learning by writing words as the teacher provides support and guidance. For each word spelled, the teacher follows three steps: (1) first, the teacher introduces the word; (2) second, the teacher provides guidance while the students spell the word; and (3) finally, the teacher provides feedback and the students correct any misspellings.

When introducing each word, the teacher pronounces the word and uses it in a sentence so that the students hear the word in context. Then the class repeats the word. Speaking the word aloud makes students more aware of the sounds in the word.

The teacher then provides guidance to help the students think about how to spell each word correctly. Before and while the students write a word, the teacher provides information that helps them think about how to approach the most challenging parts of the word. For example, in grade 5, teacher guidance often focuses on how to spell schwas, as in *buffalo* and *maganet*. Teacher guidance encourages students to do the thinking as they become increasingly aware of the decisions they need to make when spelling a word. Extensive explanation and modeling by the teacher ensure that the students understand the principles they are applying.

Once the students have written the word, they read and spell it aloud as the teacher writes it correctly on the board. Students then check their own work and correct any misspellings.

In guided spelling, students respond in unison to questions. Choral responses are very important in the teaching of spelling because spelling is strongly influenced by the writer's pronunciation: as students repeat the teacher's pronunciation, they learn the pronunciation that helps them spell. Choral responses also elicit a high level of student engagement by encouraging the participation of students who lack confidence and would not take the risk of responding individually. Finally, choral responses give the teacher an opportunity to assess student understanding on an ongoing basis.

The *Guided Spelling* lessons follow a weekly pattern: The teacher introduces the week's words on the first day, leads the students in guided spelling on Days 1–4, and gives a spelling test on Day 5. Every sixth week is a review week, and includes a pretest, a proofreading exercise, partner study time, a whole-class spelling discussion, and an end-of-week test. A five-day week for spelling is strongly encouraged, especially for students who are struggling. If the school schedule or other factors prevent a five-day-per-week spelling program, Day 4 of each week may be omitted.

Students learn spelling strategies in a safe, noncompetitive atmosphere. Teacher guidance promotes thoughtfulness and accuracy, while the program's multisensory elements create links among hearing, seeing, saying, and writing word parts and words. Because it assures success, *Guided Spelling* leads to student self-confidence and enthusiasm for spelling.

► Features of the Program

Research-based Instruction

The content and teaching methodology used in the *Guided Spelling* program are based on extensive research in spelling content and how students learn. For more information, refer to the section “Research Basis for *Guided Spelling*” on page 527.

Strategies for Morphemic Spelling

In the *Guided Spelling* program, the students use the structure of words to help them spell. They learn the generalizations for adding suffixes (including inflectional endings), such as doubling the last consonant and dropping **e**. They spell common prefixes, base words, and suffixes. They learn to use related words as spelling

clues; for example, *colony* is a clue for *colonial*. In grades 5 and 6, the students spell words with Greek and Latin roots such as *uni*, *medic*, *soci*, and *gress*.

Strategies for Spelling Polysyllabic Words

In grades 3–6 of the *Guided Spelling* program, the students learn strategies for spelling polysyllabic words. Polysyllabic words are difficult because the pronunciation of a word does not always reflect the written syllables. For example, we pronounce *happy* as /hă-pē/, but the written syllables are *hap-* and *-py*. Polysyllabic words usually have at least one unaccented syllable with a vowel that is often difficult to spell, as in *benefit* and *separate*. In the *Guided Spelling* program, students spell base words by syllables and learn to focus on schwas and other unaccented vowels. They gain extensive experience with syllable boundaries and syllable types. In grades 4–6 they spell common syllables and word parts such as *-ture*, *-ence*, and *-able*.

Strategies for Spelling Think Words, Pattern Words, and Sight Words

In grades 1–3 of the *Guided Spelling* program, the students learn strategies for spelling three types of words: think words, pattern words, and sight words. For example, when the students know consonant and short vowel sounds, they can spell most short vowel words without memorizing them. After they learn the generalizations for inflectional endings, they can also spell hundreds of words like *stops*, *stopped*, *filled*, *ended*, and *dishes*. In the *Guided Spelling* program, words that can be spelled without memorization are referred to as “think words” in grades 1–3.

For words that include sounds that have more than one common spelling (called “pattern words” in grades 2 and 3), students must memorize which spelling to use. For example, *coat* has the common spelling **oa** for the sound /ō/, but **o_e** and **ow** are also common spellings for the sound /ō/. The speller who knows all the common spellings of the sound /ō/ has an advantage in spelling, but still must memorize which spelling is correct for each word.

Students will also encounter irregular words, or “sight words,” that have letters or letter combinations that represent sounds in uncommon ways. When writing the word *been*, for example, spellers might be tempted to spell it *bin* or *ben* (depending on how they pronounce the word); they must learn that *been* is

an irregular word and remember that *been* is spelled **b-e-e-n**. Strategies for memorizing sight words are taught and practiced in grades 1–3.

Support for Phonemic Segmentation

Grade 1 of the *Guided Spelling* program includes extensive instruction in phonemic segmentation. Many beginning spellers have a difficult time perceiving the sounds in a word. They don't realize, for example, that the word *sat* is made up of the sounds /s/ + /ă/ + /t/. Students receive a great deal of support in identifying each sound (phoneme) in a word and learning how to write the letters in sequence.

Word History

Beginning in grade 4, the *Teacher's Manual* provides frequent notes on the history of the spelling words. For example, *crocodile* comes from Greek words that meant *pebble-worm*; the Greeks noticed that this worm-like creature would lie in the sun on the pebbles by the side of the water. Through the history notes, students learn that the spelling, meaning, and pronunciation of words often change over time, and that many English words have origins in other languages and cultures. When a history note refers to a country or region, you may want to point out the area on a map.

Instruction in Memorization

Methods for memorizing words are taught explicitly in the *Guided Spelling* program through modeling, practice of memory steps, and instruction in how to study. In addition, the students learn to use mnemonics (memory aids) and also keep records of words they've missed so they'll know which words they particularly need to study.

High-frequency Words

The high-frequency words the students memorize in the *Guided Spelling* program were selected from studies of high-frequency words in school reading material (Carroll, Davies, and Richman 1971; Zeno et al. 1995). About 90% of the base words that the students memorize are base words in the 3,000 most frequent words listed by Zeno et al. Most of the remaining 10% are base words in words ranked 3,000–5,000 in frequency. The challenge words in grades 4–6 also come from base words in the 3,000–5,000 frequency range in Zeno et al.

Frequent Review

Spelling concepts and specific words are reviewed multiple times in the *Guided Spelling* program. Each new spelling concept is emphasized during guiding for two weeks and usually appears in future lessons as well. At grades 1–3, every word to be mastered is studied for two consecutive weeks and then again in the review week. Each week in grades 4–6, the students study 10 of the previous week’s words. Review weeks include 50 words. If your schedule does not allow time for your students to study all 50 review words, select several representative words from each week being reviewed.

Frequently Misspelled Words

Grades 4, 5, and 6 include review of commonly misspelled words taught in previous grades, such as contractions, compound words, homophones, numbers, and abbreviations. A list of frequently misspelled words also appears in the *Student Spelling Book* for student reference.

Differentiated Instruction

Guided Spelling is designed for whole-class instruction; the structure of the program allows students at different levels to learn together. Instruction may also be differentiated, beginning in grade 2, to meet the needs of students struggling with grade-level content and those who need an extra challenge. Such individual needs can be met by varying the number of words studied each week. In the “Words Used This Week” list at the beginning of each week, stars indicate words for below-grade-level spellers; students who are struggling can concentrate on studying just these words. “Challenge words” are also provided for advanced spellers who are able to study and learn additional words independently.

Support for English Language Learners

English Language Learners (ELLs) face many challenges in spelling. The spelling strategies taught in the *Guided Spelling* program are particularly helpful to English Language Learners. The program provides students with the concepts underlying English spelling, including the inflectional endings (such as *-ed*, *-ing*, and possessive endings) that are so difficult for English Language Learners. Research suggests that English Language Learners benefit from systematic, explicit instruction such as that provided by *Guided Spelling* (see page 528). Interactive

instruction during the daily guided spelling activity offers many opportunities for students to apply the concepts they've learned and receive immediate feedback.

In addition, English Language Learners have many opportunities to hear and speak spelling words aloud. By stressing the relation between spelling and pronunciation, *Guided Spelling* helps students develop in both areas simultaneously.

Notes About Regional Dialect and Pronunciation

Students realize early in their schooling that there is not an exact correspondence between words as pronounced and words as spelled. Speakers of some regional dialects face a challenge when the spelling curriculum does not reflect their pronunciation. For example, most spelling programs, including *Guided Spelling*, teach **w** and **wh** (as in *weather* and *whether*) as representing different sounds, but many American English speakers pronounce them identically. The same is true for short **e** and short **i** (as in *pen* and *pin*) and short **o** and **aw** (as in *lot* and *law*). Notes about regional variations are included throughout the *Guided Spelling* program in the “Teacher Background” sections at the beginning of each week’s lessons.

Support for Transferring Spelling Knowledge to Writing

It is essential for students to be able to transfer their spelling knowledge to their writing. To do so, students must be able to apply the concepts they have learned in spelling lessons to words that they have not encountered in class. Every day in the *Guided Spelling* program, students practice a variety of different spelling strategies that prepare them to spell new words. During daily guiding, students use these strategies on words beyond the weekly words to be mastered. With teacher support, the students become increasingly self-sufficient. In grades 4–6, they write four items independently each day, deciding which strategies to use and developing the key metacognitive ability of knowing when they need to seek help.

In grades 4–6, the students also engage in frequent partner work to practice expressing the reasoning behind English spelling; for example, partners explain to each other why they dropped **e** before the suffix in the word they have just written.

Class discussions raise awareness of how to spell correctly when writing. Students are provided with a “dictionary and personal word list” at the back of the *Student Spelling Book*, which allows

them to look up words as they proofread their writing, and record words they have misspelled. The weekly tests include “application words”—words that the students have not been explicitly taught but that they can figure out by applying the spelling concepts they have learned.

Assessment

Assessment occurs through weekly spelling tests and teacher observation of student work during the daily guided spelling period. The *Teacher’s Manual* supports teachers in interpreting student progress and test performance and adapting instruction for group and individual needs that may arise.

Detailed Teacher’s Manual

The *Guided Spelling Teacher’s Manual* provides strong support for teachers. The guiding procedures are shown in detail for the first two weeks and throughout the year when new material is introduced. At the beginning of each week in the *Teacher’s Manual* is an introduction that summarizes the new content, provides background and advisory notes, and lists all the words in the week’s lessons. Lessons are easy to implement and are written in step-by-step detail to support both teachers and students.

A separate book of blackline masters supplies reproducible homework for each week and, in grades 4–6, optional partner activities. These optional activities reinforce spelling concepts and encourage the students to apply their knowledge beyond their guided spelling practice to activities such as word sorting.

Student Spelling Books

The *Student Spelling Book* for grades 4–6 includes a section at the beginning of each week with the week’s 15 new words and a sentence for each, plus 10 review words from the previous week. There is also a page for each day’s guided spelling lesson, where the students write the words for that day. Student references are provided at the back of the *Student Spelling Book*, and include the generalizations for adding suffixes, a “dictionary and personal word list,” and a list of frequently misspelled words.

Spelling-Sound Chart

The spelling-sound chart, provided with the *Guided Spelling* program at grades 3–6, plays a critical role in helping students organize the complexities of spelling and phonics. Most of the items on the chart represent spelling-sound correspondences,

with each item representing one sound and listing common spellings for that sound. The illustration serves as a mnemonic to help students easily locate the spelling or spellings they are looking for. For example, the item with the illustration of the bone represents long **o** and shows the common spellings for the sound /ō/: **o_e**, **oa_**, **ow**, and **o**. The blanks show where other letters occur when the sound has that spelling. For example, when the sound /ō/ is spelled **oa**, one or more consonants will usually follow. When we hear the sound /ō/ at the end of a word, in most cases it will not be spelled **oa**. Hence the spelling on the chart is **oa_**.

There are also three items on the chart that represent possessives: “girl’s hat,” “cats’ dish,” and “men’s dog.”

The chart should be posted in a location where it is visible to all students and the teacher can conveniently point to each item on the chart.

► Overview of Content in Grades 1–6

The *Guided Spelling* program content follows a developmental sequence, progressing from alphabetic spelling to patterns to morphemic spelling, as seen in the chart on the following page.

At each grade, the students also master the spelling of many high-frequency words: 30 irregular words at grade 1; 100 regular words and 100 irregular words at grade 2; 200 regular words and 100 irregular words at grade 3; and 375 words in each grade at grades 4, 5, and 6.

At grades 2 and 3, the students learn to spell homophones, compound words, contractions, and numbers. At grade 3, they are also introduced to spelling abbreviations, weekdays, and months. At grades 4–6, the students review contractions and other frequently misspelled words. At grades 4 and 5, they learn to spell unusual plurals. At grades 4–6, word history is frequently included in the guided spelling lessons.

► Grade 5 Content

In grade 5 of the *Guided Spelling* program, the students extend their knowledge of polysyllabic spelling and the generalizations for adding suffixes. They utilize the strategy of using related words as spelling clues; for example, *operate* is a clue for *operation*. They spell possessives, prefixes, suffixes, Greek and Latin roots, and unusual plurals. They review frequently misspelled words. Word history is included in many lessons. The students master 375 words.

Phonemic Spelling Knowledge

- Review of vowels, for example, *knock*, *twice*, *goal*, *conocern*, *choice*
- Schwas and other unaccented vowels, for example, *buffalo*, *magunet*, *opposite*, *cotton*
- Syllable boundaries, for example, *in.tend*, *de.tail*, *shad.ow*, *li.on*
- Syllable types (constructions), for example, *twenty*, *paper*, *extreme*, *record*, *county*, *gentle*
- Word parts, for example, *-ive*, *-ture*, *-age*, *-able*, *-ous*, *-ent*, *-ance*

Morphemic Spelling Knowledge

- Generalizations for adding suffixes, including inflectional endings such as *-ed* and *-ing*:
 - Single-syllable doubling, for example, *skidded*, *swimmer*, *muddy*
 - Dropping **e**, for example, *requiring*, *supposed*, *smoky*, *guidance*
 - Changing **y** to **i**, for example, *satisfied*, *colonial*, *hungrier*
 - Polysyllabic doubling, for example, *permitting*, *preferred*, *flatten*
- Possessive nouns and pronouns, for example, *sister's*, *nurses'*, *children's*, *its*, *ours*
- Prefixes, for example, *fore-*, *sub-*, *semi-*, *in-*, *super-*, *co-*
- Suffixes, for example, *-er*, *-or*, *-eer*, *-ness*, *-y*, *-ful*, *-eth*
- Greek and Latin roots, for example, *port*, *uni*, *part*, *medic*, *micro*

Other Spelling Knowledge

- Frequently misspelled words, for example, *sense, thought, piece*
- Homophones, for example, *its/it's*
- Contractions, for example, *who's, o'clock, that'll*
- Unusual plurals, for example, *wolves, oxen, mice, tomatoes*
- Word history, for example, English *cheese* and Spanish *queso* both come from the Latin word *caseus*

Spelling Strategies

- Polysyllabic spelling, for example, *immediately* → *im-me-di-ate-ly*
- Using related words as spelling clues:
 - Clue for an unaccented vowel, for example, *colony* → *colonial*
 - Clue for *-tion* or *-sion*, for example, *operate* → *operation*; *divide* → *division*

► Using Guided Spelling with Other Programs from Center for the Collaborative Classroom

The *Guided Spelling* program is the spelling component of a complete set of language arts curricula developed by Center for the Collaborative Classroom (CCC) and can be integrated with any of the programs described below. For complete information on Collaborative Classroom's programs, visit our website at collaborativeclassroom.org.

SIPPS

The *Guided Spelling* program may be used in conjunction with CCC's *SIPPS*[®] program (*Systematic Instruction in Phonological Awareness, Phonics, and Sight Words*). *SIPPS* is a decoding program that includes brief daily spelling instruction. When *SIPPS* is used with *Guided Spelling*, the spelling portion of the *SIPPS* lessons may be replaced with *Guided Spelling*.

Being a Writer

The *Being a Writer*[™] program is a yearlong curriculum for grades K–6 designed to help each student develop the creativity and skills of a writer. *Being a Writer* provides inspiration and motivation and a clear scope and sequence to develop students' intrinsic desire to write regularly and to help students build a

full understanding and appreciation of the craft and conventions of writing. The *Being a Writer* program provides students with ample opportunities to use their spelling skills while advocating teacher acceptance for “invented” spellings in the early grades.

Making Meaning

The *Making Meaning*[®] program is a classroom-tested K–6 reading comprehension curriculum that combines the latest comprehension research with support for students’ social and ethical development. It uses read-aloud books to teach students nine different comprehension strategies while also developing their social values to create a supportive community of readers.

The *Vocabulary Teaching Guide* provides 30 weeks of vocabulary instruction that build students’ word knowledge, supplementing and supporting the reading comprehension lessons in the *Making Meaning Teacher’s Manual*. The students learn high-utility words found in or relating to the read-aloud texts. The lessons combine direct instruction in word meanings with activities that require the students to think about the words and use them as they talk with their partners and the class. Students also learn independent word-learning strategies, such as recognizing words with multiple meanings and using context and prefixes and suffixes to figure out word meanings.

Short Vowels; Frequently Misspelled Words

► New Content

The sound /ă/ as in *catch* is spelled **a**.

The sound /ĕ/ as in *spend* is spelled **e**.

The sound /ĭ/ as in *switch* is spelled **i**.

The sound /ŏ/ as in *knock* is spelled **o**.

The sound /ŭ/ as in *trunk* is spelled **u**.

► Teacher Background

In Week 1, the students will review frequently misspelled words and short vowels taught in previous grades.

The first two weeks of the *Guided Spelling* program are structured to introduce the students gradually to the weekly and daily procedures for guided spelling. On Days 2, 3, and 4 of Week 1, the students will write fewer words than they will in later lessons so they can practice and get used to the basic steps for spelling and correcting words before doing a full lesson.

On Days 1 through 4 of each week, you will use the board or projector. Whichever you use, make sure all the students can see easily. If you are using a projector, you can make a transparency of the reusable form on *Blackline Masters* page 1. If you are using the board, you will need to write numbers on the board before each lesson (see the “Teacher Background” section at the beginning of each lesson). You will use the board or projector for two purposes:

- When the students read and spell each word aloud after writing it, you will write the correct word to help the students check their work.
- For some types of student questions, you will write the answer for the students to read silently. This process is explained on page 12.

During the lessons, you will frequently ask the students questions to guide them through the steps to correct spelling. We recommend that the class give choral responses to your questions. The rationale for choral responses is given on page viii.

We suggest that you teach the lessons at a fairly quick pace. If some of the students make a mistake in a response, simply tell the class the correct answer and then repeat the question.

In addition to the main content of the spelling lessons (described in the “New Content” section each week), the *Guided Spelling* program includes additional “guiding points” (content in addition to the major focuses of each week). A comprehensive list of these guiding points appears in the “Scope and Sequence” chart on pages 532–537. Seven guiding points are introduced this week: the sound /n/ at the beginning of a word is sometimes spelled **kn**, as in *knock*; the sound /k/ directly after a short vowel in a one-syllable word is spelled **ck**, as in *track*; the sound /l/ at the end of a one-syllable short vowel word is usually spelled **ll**, as in *thrill*; the sound /ch/ directly after a short vowel in a single-syllable word is usually spelled **tch**, as in *switch*, though *which*, *much*, and *such* are common exceptions; the sound /j/ directly after a short vowel in a single-syllable word is spelled **dge**, as in *pledge*; the suffix /əz/ is spelled **es**, as in *lunches*; preconsonantal nasals in consonant clusters, as in *trunk*, are difficult.

The symbol /ə/ stands for an unaccented short **u** sound. It is called a “schwa.” It is used in the *Guided Spelling* program to indicate the unaccented vowel sound as in the suffixes *-es* and *-ed* and in the words *second* and *ago*.

Compound words, homophones, and contractions are introduced on Day 1.

Each day the students will write the last four words independently. You will continue to use the word in a sentence and have the students repeat it, but you will not provide further guiding unless the students request help. For a further explanation of independently written words, see page 4.

During this week’s pre-spelling activities, you will focus on using the spelling-sound chart to help the students spell short vowel sounds. For an explanation of the spelling-sound chart, see pages xiii–xiv.

An optional spelling activity is provided for partners each week. This enrichment activity reinforces spelling concepts, encourages the students to apply their knowledge beyond the words they write during guided spelling, and increases their interest in spelling. The activity for Week 1 can be found on *Blackline Masters* page 42.

In the introduction to each week, there is a chart entitled “Words Used This Week” (see below for an example). This chart contains a list of all words used in the week’s lessons for your reference:

NEW WORDS	Fifteen new words are introduced each week (except during review weeks). Weeks 1, 2, and 3 include several frequently misspelled words that were taught in previous grades. Beginning in Week 2, the students will be tested on the new words at the end of the week they are introduced.
REVIEW WORDS	These are ten words that were introduced in the previous week. The students will review these words and be tested on three of them at the end of the week.
CHALLENGE WORDS	These words are for your advanced spellers to memorize if you are differentiating instruction.
APPLICATION WORDS ON THE TEST	These are words that appear on the test that have not been announced in advance. The purpose is to assess the students’ knowledge of the spelling concepts taught.
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	These are words that the students will write during guided spelling (in addition to the week’s new words) to practice the concepts being taught in the week’s lessons.
FREQUENTLY MISPELLED WORDS	Most weeks will include one or more frequently misspelled words that the students will memorize and/or write in guided spelling. These have been taught in earlier grades but need periodic review because they are often missed in student writing.

Words Used This Week

The stars indicate words for below-grade-level spellers in classes where spelling instruction is differentiated (see pages 29–30 for more information).

NEW WORDS	*trunk, *skin, *knock, *nonfat, *pledge, *crops, *switches, *thrill, twelve, sense, know, halfway, something, you’re, couldn’t
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	sixth, knows, knocks, twitches, thrills
FREQUENTLY MISPELLED WORDS	sense, halfway, couldn’t, know, something, you’re

Week 1 Day 1

► Teacher Background

Each week on Day 1, you will use the following procedure to introduce the new words (see “Words Used This Week” on page 3):

- Read each word and sentence as the students follow along in their *Student Spelling Books*.
- Explain the spelling features in each word and have the students underline the parts that have to be memorized, for example, **I** in *halfway*.

During guided spelling in this day’s introductory lesson, the students will write eight of the new words. If you are using a projector, make a transparency of the reusable form (*Blackline Masters* page 1). If you are using the board, number from 1 to 8.

During guided spelling you will frequently tell your students that if they aren’t sure how to spell part of a word, they should raise their hand to ask you. This encourages the students to *know when they don’t know* how to spell a word—an important metacognitive skill in spelling. Respond to their questions by writing the answers on the board or projector to the left of the item number. For example, if a student asks how to spell the sound /l/ in *thrill*, write **ll** to the left of number 8. This process is explained on page 523.

Each day the students will write the last four words independently. You will continue to use each word in a sentence and have the students repeat it, but you will not provide further guiding unless the students request help. Encourage the students to raise their hands and ask for help when they need it. You will respond by writing the answer on the board or projector to the left of the item number. One major purpose of the independently written items is to develop the students’ willingness to seek spelling assistance when they need it. Knowing when to seek help is a key metacognitive ability among good spellers.

If you have not already done so, post the spelling-sound chart in your classroom where all the students can see it easily.

Pre-spelling: Using the Spelling-Sound Chart

ELPS 5.A.i
Pre-spelling section (all)

- ▶ Point to the top row of the spelling-sound chart.

This chart will help you in spelling. The top row shows the short vowels. The short vowels will be important this year in words that are polysyllabic. A *polysyllabic* word has more than one syllable.

- ▶ Point to the first picture.

This is a cat “at the chair.” Let’s say you are spelling the word *splash* and you’re not sure how to spell the sound /ă/. Look for the picture of the cat “at the chair” and see the spelling under the picture: **a**.

- ▶ Point to each other short vowel picture and tell its name: “edge of the chair,” “in the chair,” “on the chair,” and “under the chair.”

- a ▶ Point to **a**_ on the chart.

Where is the cat? (Students: at the chair) Sound? (Students: /ă/)

- ▶ Point to the blank in **a**_.

This means that when the short vowel sound /ă/ is spelled **a**, there will be one or more letters after **a**.

- i ▶ Point to **i**_ on the chart.

Where is the cat? (Students: in the chair) Sound? (Students: /ĭ/)

- e ▶ Point to **e**_ on the chart.

Where is the cat? (Students: edge of the chair) Sound? (Students: /ĕ/)

- u ▶ Point to **u**_ on the chart.

Where is the cat? (Students: under the chair) Sound? (Students: /ŭ/)

- o ▶ Point to **o**_ on the chart.

Where is the cat? (Students: on the chair) Sound? (Students: /ŏ/)

- slick I’ll write *slick*. *The icy street was slick*.

- ▶ Write **sl** on the board.

Which picture shows the sound /ĭ/? (Students: in the chair)

How do I spell the sound /ĭ/? (Students: i)

- ▶ Finish writing *slick*.

wren I'll write *wren*. *The song of the wren was cheerful.*

► Write **wr** on the board.

Which picture shows the sound /ě/? (Students: edge of the chair)

How do I spell the sound /ě/? (Students: e)

► Finish writing *wren*.

► **Introduce This Week's Words**

► Distribute a *Student Spelling Book* to each student. Have the students write their name on the inside front cover. Have them open to page 3.

At the beginning of every week, you will see the words that you will learn. There is a sentence for each word. Follow along as I read the words and sentences.

1. trunk Number 1: trunk. She keeps a spare tire in the trunk of her car.

► Point to the “under the chair” picture on the spelling-sound chart.

The “under the chair” picture is for the sound /ŭ/.

Each week I will tell you which parts may be hard to learn, and you will underline them in your spelling books.

The end of *trunk* sounds like /ungk/, but it's spelled **u-n-k**. Find the word *trunk* that is next to number 1. Underline **n-k**.

2. skin Number 2: skin. Protect your skin with sunscreen when you are outside.

► Point to the “in the chair” picture.

The “in the chair” picture is for the sound /i/.

3. knock Number 3: knock. I will knock on the door when I arrive.

The sound /n/ at the beginning of a word is sometimes spelled **k-n**. Find the word *knock* that is next to number 3. Underline **k-n**.

► Point to the “on the chair” picture.

The “on the chair” picture is for the sound /ö/. The sound /k/ after a short vowel in a one-syllable word is spelled **c-k**.

4. nonfat Number 4: nonfat. In nonfat milk, all the fat has been removed.

Non- is a prefix. The base word is *fat*.

► Point to the “at the chair” picture.

The “at the chair” picture is for the sound /ă/.

5. pledge Number 5: pledge. A pledge is a promise.
 ► Point to the “edge of the chair” picture.
 The “edge of the chair” picture is for the sound /ĕ/.
 The sound /j/ after a short vowel in a one-syllable word is spelled **d-g-e**.
6. crops Number 6: crops. The farmer’s main crops were broccoli and lettuce.
7. switches Number 7: switches. We flipped the switches to shut off the power.
 The base word is *switch*. The sound /ch/ after a short vowel in a one-syllable word is usually spelled **t-c-h**. The suffix is /əz/.
8. thrill. Number 8: thrill. What a thrill it was to ride the roller coaster!
 The sound // after a short vowel in a one-syllable word is usually spelled **l-l**. Find the word *thrill* that is next to number 8. Underline **l-l**.
9. twelve Number 9: twelve. We will eat lunch at twelve o’clock today.
 The sound /v/ at the end of a word is spelled **v-e**.
10. sense Number 10: sense. Owls have a very good sense of sight; they can see prey from far away.
 FREQUENTLY MISPELLED WORD *Sense* is a frequently misspelled word.
 Find the word *sense* that is next to number 10. Underline **s-e** at the end.
11. know. Number 11: know. I practiced my spelling words, and I know them all.
 FREQUENTLY MISPELLED WORD *Know* is a frequently misspelled word.
 HOMOPHONE *Know* is a homophone. Homophones are words that sound the same but are spelled differently.
 ► Write on the board: know no
Know, as in *I know the spelling words*, is spelled **k-n-o-w**.
No, the opposite of yes, is spelled **n-o**.
 Find the word *know* that is next to number 11. Underline **k-n**. Underline **o-w**.

12. halfway Number 12: halfway. Let's each start from home and meet halfway.
 FREQUENTLY MISSPELLED WORD *Halfway* is a frequently misspelled word.
Halfway is a compound word made of *half* and *way*. A compound word is made of two smaller words with no space in between.
 Find the word *halfway* that is next to number 12. Underline the silent **l**.
13. something Number 13: something. He knew he had forgotten something.
 FREQUENTLY MISSPELLED WORD *Something* is a frequently misspelled word.
Something is a compound word made of *some* and *thing*.
 Underline **o** and **e**.
14. you're Number 14: you're. I see that you're finished.
 FREQUENTLY MISSPELLED WORD *You're* is a frequently misspelled word.
 HOMOPHONE *You're* is a homophone. It's not *your* as in *your book*. It's *you're* as in *I see that you're finished*.
 CONTRACTION *You're* is a contraction of the two words *you* and *are*. Underline the entire word: **y-o-u-apostrophe-r-e**.
15. couldn't. Number 15: couldn't. She couldn't open the jar's lid.
 FREQUENTLY MISSPELLED WORD *Couldn't* is a frequently misspelled word.
 CONTRACTION *Couldn't* is a contraction of the two words *could* and *not*. Underline the entire word: **c-o-u-l-d-n-apostrophe-t**.

 **Guided Spelling**

ELPS 5.C.i
 Guided Spelling section (all)

► Have your students turn to page 4.

Now you'll write eight of this week's words. I'm going to say each word and you will write it, but this is not a test. I will help you think about each word so that you write it correctly. If you're not sure how to spell a word, raise your hand to ask me for help. It is important to *know when you don't know*.

1. pledge. Number 1: pledge. A pledge is a promise. Say *pledge*.
 (Students: *pledge*)
 If you're not sure how to spell the short vowel sound /ĕ/, look for the cat at the edge of the chair. The sound /j/ after a short vowel in a one-syllable word is spelled **d-g-e**. Write *pledge*.

In guided spelling you will check each word after you write it. This is how you will check your work: Everyone will read and spell the word together. You will point under each letter as you spell.

► Tell the class how you want them to point to each letter (e.g., use their finger, a pencil point, or an eraser).

Let's practice. Read and spell *pledge*. (Students: pledge, p-l-e-d-g-e)
Let's practice again, and as you read and spell, I will write the word.

► At number 1, write *pledge* as the students read and spell. (Students: pledge, p-l-e-d-g-e)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

2. knock. Number 2: knock. I will knock on the door when I arrive. Say *knock*. (Students: knock)

Be careful here. The beginning of *knock* is spelled **k-n**. If you're not sure how to spell the short vowel sound /*ɒ*/, look for the cat on the chair. The sound /*k*/ after a short vowel in a one-syllable word is spelled **c-k**. Write *knock*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 2, write *knock* as the students read and spell. (Students: knock, k-n-o-c-k)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

3. nonfat. Number 3: nonfat. In nonfat milk, all the fat has been removed. Say *nonfat*. (Students: nonfat)

First you'll write the prefix *non-*. If you're not sure how to spell the short vowel sound /*ɒ*/, look for the cat on the chair. Write *non-*.

Next you'll write the base word *fat*. You'll add the base word to the prefix with no space in between. If you're not sure how to spell the short vowel sound /*ă*/, look for the cat at the chair. Write *fat*.

Now you will check your work. *Nonfat* has two syllables. Whenever we check a word with more than one syllable, read the word and then read and spell by syllables. Let's practice.

Say “*nonfat, non-, n-o-n, -fat, f-a-t.*” (Students: *nonfat, non-, n-o-n, -fat, f-a-t*) Everyone read the word again, and then read and spell by syllables as I write it. Point under each letter as you spell.

► At number 4, write *nonfat* as the students read and spell. (Students: *nonfat, non-, n-o-n, -fat, f-a-t*)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

4. switches Number 4: switches. We flipped the switches to shut off the power. Say *switches*. (Students: *switches*)

The base word is *switch*. If you’re not sure how to spell the short vowel sound /i/, look for the cat in the chair. The sound /ch/ after a short vowel in a one-syllable word is usually spelled **t-c-h**. Write *switch*.

Switches. The suffix is /əz/. It’s spelled **e-s**. Add /əz/.

Now you will check your work. Everyone read the word. (Students: *switches*) *Switches* has two syllables: *switch-es*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 4, write *switches* as the students read and spell by syllables. (Students: *switch-, s-w-i-t-c-h, -es, e-s*)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

NOW YOU’LL WRITE FOUR WORDS INDEPENDENTLY.

If you’re not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. crops Number 5: crops. The farmer’s main crops were broccoli and lettuce. Say *crops*. (Students: *crops*)

Write *crops*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 5.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 5, write *crops* as the students read and spell. (Students: *crops, c-r-o-p-s*)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

6. trunk Number 6: trunk. She keeps a spare tire in the trunk of her car.
Say *trunk*. (Students: trunk)

Write *trunk*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 6.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 6, write *trunk* as the students read and spell.
(Students: trunk, t-r-u-n-k)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

7. skin Number 7: skin. Protect your skin with sunscreen when you are outside. Say *skin*. (Students: skin)

Write *skin*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 7.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 7, write *skin* as the students read and spell.
(Students: skin, s-k-i-n)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

8. thrill Number 8: thrill. What a thrill it was to ride the roller coaster!
Say *thrill*. (Students: thrill)

Write *thrill*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 8.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 8, write *thrill* as the students read and spell.
(Students: thrill, t-h-r-i-l-l)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

► Teacher Background

The first few guided spelling lessons are designed to give the students detailed practice with the guided spelling procedures, and fewer words are introduced in these lessons. In guided spelling today, the students will spell eight words.

The development of the students' metacognitive abilities is an important goal of the *Guided Spelling* program. Strong spellers anticipate common pitfalls in English words, and they are aware when they do not know part of a word. In *Guided Spelling* you will often alert your students to difficult word parts. You will encourage your students to ask questions, and you will frequently offer help. When students have a question, give the answer by writing the spelling to the left of the number of the word. Don't answer aloud. Students who aren't sure of the spelling look at what you wrote, and the students who know the spelling write without being told.

In this lesson, the students will write the homophone *know*. In the *Guided Spelling* program, commonly confused homophones are identified, and you will guide the students in spelling the correct one in each case. If your students have an advanced vocabulary, you may want to mention additional homophones as they appear in guiding, such as *bowl/boll/bole*.

If you are using the board instead of the reusable form (*Blackline Masters* page 1), number from 1 to 8.

► Pre-spelling: Using the Spelling-Sound Chart

We'll review the short vowel sounds and their pictures on the chart.

o ► Point to **o** on the chart.

Where is the cat? (Students: on the chair) Sound? (Students: /ɔ/)

e ► Point to **e** on the chart.

Where is the cat? (Students: edge of the chair) Sound?
(Students: /ě/)

- i ▶ Point to **i**_ on the chart.
Where is the cat? (Students: in the chair) Sound? (Students: /i/)
- a ▶ Point to **a**_ on the chart.
Where is the cat? (Students: at the chair) Sound? (Students: /ă/)
- u ▶ Point to **u**_ on the chart.
Where is the cat? (Students: under the chair) Sound?
(Students: /ü/)
- span I'll write *span*. *The bridge span was a quarter of a mile.*
▶ Write **sp**.
Which picture shows the sound /ă/? (Students: at the chair)
How do I spell the sound /ă/? (Students: a)
▶ Finish writing *span*.
- strum I'll write *strum*. *He likes to strum the banjo.*
▶ Write **str**.
Which picture shows the sound /ü/? (Students: under the chair)
How do I spell the sound /ü/? (Students: u)
▶ Finish writing *strum*.

▶ Guided Spelling

▶ Have your students open their spelling books to page 5. They will write eight words in this lesson. Remind your students that guided spelling is not a test. You will help them think about each word so that they write it correctly. If they are not sure how to spell a word, they should raise their hand to ask for help.

1. twelve Number 1: twelve. We will eat lunch at twelve o'clock today.
Say *twelve*. (Students: twelve)
If you're not sure how to spell the short vowel sound /ě/, look for the cat at the edge of the chair. Be careful at the end of *twelve*. It's spelled **v-e**. Write *twelve*.
Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.
▶ At number 1, write *twelve* as the students read and spell. (Students: twelve, t-w-e-l-v-e)
Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

2. sense Number 2: sense. Owls have a very good sense of sight; they can see prey from far away. Say *sense*. (Students: *sense*)

If you're not sure how to spell the short vowel sound /ĕ/, look for the cat at the edge of the chair. Be careful at the end of *sense*. It's spelled **s-e**. Write *sense*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 2, write *sense* as the students read and spell. (Students: *sense*, s-e-n-s-e)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

3. halfway Number 3: halfway. Let's each start from home and meet halfway. Say *halfway*. (Students: *halfway*)

First you'll write *half*. If you're not sure how to spell the short vowel sound /ă/, look for the cat at h the chair. Be careful here. *Half* has a silent letter. If you know how to spell *half*, write *half* now. If you're not sure, raise your hand and look up here as I write it.

► If any students raise their hands, write *half* to the left of number 3.

Halfway is a compound word. When you write a compound word, do not leave a space between the two smaller words. If you know how to spell *way*, add *way* now. If you're not sure, raise your hand and look up here as I write it.

► If any students raise their hands, write *way* to the left of number 3.

Now you will check your work. Everyone read the word. (Students: *halfway*) *Halfway* has two syllables. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 3, write *halfway* as the students read and spell. (Students: *half-*, *h-a-l-f*, *-way*, *w-a-y*)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

4. couldn't Number 4: couldn't. She couldn't open the jar's lid. Say *couldn't*. (Students: *couldn't*)

CONTRACTION *Couldn't* is a contraction of *could not*.

Be careful here. If you know how to spell *couldn't*, write *couldn't* now. If you're not sure about any part, raise your hand to ask me and look up here as I write it.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 4.

Now you will check your work. Everyone read the word.

(Students: couldn't) *Couldn't* has two syllables. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 4, write *couldn't* as the students read and spell by syllables. (Students: could-, c-o-u-l-d, -n't, n-apostrophe-t)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. know Number 5: know. I practiced my spelling words, and I know them all. Say *know*. (Students: know)

HOMOPHONE *Know* is a homophone. It's not *no*, the opposite of yes. It's *know* as in *I know the spelling words*. Write *know*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 5.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 5, write *know* as the students read and spell. (Students: know, k-n-o-w)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

6. something Number 6: something. He knew he had forgotten something. Say *something*. (Students: something)

Write *something*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 6.

Now you will check your work. Everyone read the word.

(Students: something) *Something* has two syllables. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 6, write *something* as the students read and spell by syllables. (Students: some-, s-o-m-e, -thing, t-h-i-n-g)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

7. sixth. Number 7: sixth. My sister will be in the sixth grade next year. Say *sixth*. (Students: sixth)

Write *sixth*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 7.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 7, write *sixth* as the students read and spell. (Students: sixth, s-i-x-t-h)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

8. you're. Number 8: you're. I see that you're finished. Say *you're*. (Students: you're)

HOMOPHONE *You're* is a homophone. It's not *your* as in *your book*. It's *you're* as in *I see that you're finished*.

CONTRACTION *You're* is a contraction of the two words *you* and *are*.

Write *you're*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 8.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 8, write *you're* as the students read and spell. (Students: you're, y-o-u-apostrophe-r-e)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

► Teacher Background

In guided spelling today, the students will write eight words. If you are using the board instead of the reusable form (*Blackline Masters* page 1), number from 1 to 8.

► Pre-spelling: Using the Spelling-Sound Chart

► If your students do not yet spell the short vowel sounds accurately, review all the short vowel sounds and pictures as in the Day 2 pre-spelling activity.

We'll use the spelling-sound chart to help us spell short vowels.

throb I'll write *throb*.

► Write **thr**.

Which picture shows the sound /*ō*/? (Students: on the chair)

How do I spell the sound /*ō*/? (Students: o)

► Finish writing *throb*.

trench I'll write *trench*. They dug a trench for the pipes.

► Write **tr**.

Which picture shows the sound /*ě*/? (Students: edge of the chair)

How do I spell the sound /*ě*/? (Students: e)

► Finish writing *trench*.

► Guided Spelling

► Have your students turn to page 6.

1. trunk Number 1: trunk. He will put the groceries in the trunk.
Say *trunk*. (Students: trunk)

Listen to the sounds: trunk. If you're not sure how to spell the short vowel sound /*ũ*/, look for the cat under the chair. The end of *trunk* sounds like /ungk/, but it's spelled **u-n-k**. Write *trunk*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 1, write *trunk* as the students read and spell.

(Students: trunk, t-r-u-n-k)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

2. couldn't Number 2: couldn't. I couldn't go to the game because I was ill.

Say *couldn't*. (Students: couldn't)

CONTRACTION *Couldn't* is a contraction of *could not*.

Be careful here. If you know how to spell *couldn't*, write *couldn't* now. If you're not sure about any part, raise your hand to ask me and look up here as I write it.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 2.

Now you will check your work. Everyone read the word. (Students: couldn't) *Couldn't* has two syllables. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 2, write *couldn't* as the students read and spell by syllables. (Students: could-, c-o-u-l-d, -n't, n-apostrophe-t)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

3. knows Number 3: knows. He knows the homework assignment for tonight. Say *knows*. (Students: knows)

Be careful here. If you know how to spell *knows*, write *knows* now. If you're not sure about any part, raise your hand to ask me and look up here as I write it.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 3.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *knows* as the students read and spell. (Students: knows, k-n-o-w-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

4. something Number 4: something. There is something in my shoe rubbing against my foot. Say *something*. (Students: something)

Something is a compound word. Be careful here. If you're not sure how to spell *some*, raise your hand and look up here as I write it.

► If any students raise their hands, write *some* to the left of number 4.

Write *something*.

Now you will check your work. Everyone read the word. (Students: *something*) *Something* has two syllables. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 4, write *something* as the students read and spell by syllables. (Students: *some-*, *s-o-m-e*, *-thing*, *t-h-i-n-g*)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. *nonfat*. Number 5: *nonfat*. I like to eat *nonfat* yogurt with my cereal. Say *nonfat*. (Students: *nonfat*)

Write *nonfat*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 5.

Now you will check your work. Everyone read the word. (Students: *nonfat*) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 5, write *nonfat* as the students read and spell by syllables. (Students: *non-*, *n-o-n*, *-fat*, *f-a-t*)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

6. *knocks*. Number 6: *knocks*. She *knocks* so softly that we hardly know she's there. Say *knocks*. (Students: *knocks*)

Write *knocks*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 6.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 6, write *knocks* as the students read and spell. (Students: *knocks*, *k-n-o-c-k-s*)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word you misspelled. Write the correct word above it.

7. *twelve* Number 7: *twelve*. The eggs came in a carton of *twelve*. Say *twelve*.
(Students: *twelve*)

Write *twelve*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 7.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 7, write *twelve* as the students read and spell.
(Students: *twelve*, t-w-e-l-v-e)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

8. *switches* Number 8: *switches*. The light switches are next to the door.
Say *switches*. (Students: *switches*)

Write *switches*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 8.

Now you will check your work. Everyone read the word.
(Students: *switches*) *Switches* has two syllables: *switch-es*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 8, write *switches* as the students read and spell by syllables. (Students: *switch-*, s-w-i-t-c-h, -es, e-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

► Teacher Background

In guided spelling today, the students will write eight words. If you are using the board instead of the reusable form (*Blackline Masters* page 1), number from 1 to 8.

► Pre-spelling: Using the Spelling-Sound Chart

► If your students do not yet spell the short vowel sounds accurately, review all the short vowel sounds and pictures as in the Day 2 pre-spelling activity.

We'll use the spelling-sound chart to help us spell short vowels.

throng I'll write *throng*. *A throng of people is a crowd.*

► Write **thr**.

Which picture shows the sound /ɒ/? (Students: on the chair)

How do I spell the sound /ɒ/? (Students: o)

► Finish writing *throng*.

crutch I'll write *crutch*. *She used a crutch while her leg healed.*

► Write **cr**.

Which picture shows the sound /ʌ/? (Students: under the chair)

How do I spell the sound /ʌ/? (Students: u)

► Finish writing *crutch*.

► Guided Spelling

► Have your students turn to page 7.

1. you're Number 1: you're. My mom says you're an excellent swimmer. Say *you're*. (Students: you're)

HOMOPHONE *You're* is a homophone. It's not *your* as in *your book*. It's *you're* as in *you're an excellent swimmer*.

CONTRACTION *You're* is a contraction of the two words *you* and *are*.

Be careful here. If you know how to spell *you're*, write *you're* now. If you're not sure about any part, raise your hand to ask me and look up here as I write it.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 1.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 1, write *you're* as the students read and spell. (Students: *you're*, y-o-u-apostrophe-r-e)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

2. twitches Number 2: twitches. My cat's tail twitches as I pull the yarn past her. Say *twitches*. (Students: *twitches*)

The base word is *twitch*. If you're not sure how to spell the short vowel sound /i/, look for the cat in the chair. The sound /ch/ after a short vowel in a one-syllable word is usually spelled **t-c-h**. Write *twitch*.

Twitches. The suffix is /əz/. It's spelled **e-s**. Add /əz/.

Now you will check your work. Everyone read the word. (Students: *twitches*) *Twitches* has two syllables: *twitch-es*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 2, write *twitches* as the students read and spell by syllables. (Students: *twitch-*, t-w-i-t-c-h, -es, e-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

3. thrills Number 3: thrills. The acrobat thrills the audience with her high-flying act. Say *thrills*. (Students: *thrills*)

If you're not sure how to spell the short vowel sound /i/, look for the cat in the chair. The sound /l/ after a short vowel in a one-syllable word is spelled **l-l**. Write *thrills*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *thrills* as the students read and spell. (Students: *thrills*, t-h-r-i-l-l-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

4. skin Number 4: skin. The skin of a snake is soft and smooth, not slimy. Say *skin*. (Students: skin)

If you're not sure how to spell the short vowel sound /i/, look for the cat in the chair. Write *skin*.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 4, write *skin* as the students read and spell. (Students: skin, s-k-i-n)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. halfway Number 5: halfway. We stopped halfway up the trail to have lunch. Say *halfway*. (Students: halfway)

Write *halfway*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 5.

Now you will check your work. Everyone read the word. (Students: halfway)

Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 5, write *halfway* as the students read and spell by syllables. (Students: half-, h-a-l-f, -way, w-a-y)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

6. crops Number 6: crops. The orange and grapefruit orchards produced huge crops of fruit. Say *crops*. (Students: crops)

Write *crops*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 6.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 6, write *crops* as the students read and spell. (Students: crops, c-r-o-p-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

7. pledge Number 7: pledge. I promised to do my best; I made a pledge.
Say *pledge*. (Students: pledge)

Write *pledge*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 7.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 7, write *pledge* as the students read and spell.
(Students: pledge, p-l-e-d-g-e)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

8. sense Number 8: sense. He showed good sense when he decided not to climb the tree. Say *sense*. (Students: sense)

Write *sense*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 8.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 8, write *sense* as the students read and spell.
(Students: sense, s-e-n-s-e)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

► Teacher Background

Make a copy of the Week 1 homework practice page (*Blackline Masters* page 2) for each student, plus an extra copy for your own reference as you introduce the homework procedures to the students.

The lesson today will prepare the students for the weekly homework that begins in Week 2. Today's homework page will be used for in-class practice only; the students will not have spelling homework this week.

► Guided Spelling

TEACHER NOTE When several instructions are given one after another, a small square (■) indicates that you should pause to allow the students time to respond to a question or instruction.

- Hand out the Week 1 homework practice page.
- Tell the students that beginning next week they will have homework to help them memorize the spelling words. In this lesson, they will practice the method for doing homework.
- Have the students follow along as you read the top of the homework practice page:

Week 1 Homework Practice. Name.

Write your name. ■ Let's continue reading:

Practice the memory steps for each word.

Step 1. Read the word. Say the syllables to help you spell.

Step 2. Underline any hard parts.

*Step 3. Cover the word. Say and write the word by syllables.
Check.*

1. trunk Number 1: trunk. We'll do the memory steps together.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell.* Everyone read. (Students: trunk) *Trunk* has only one syllable.

STEP 2 . . . Step 2 is *Underline any hard parts.* If *trunk* has any parts that are hard for you to hear or remember, underline those parts.

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check.* *Trunk* has only one syllable. Everyone cover *trunk*. Find line number 1. Everyone say *trunk*. ■ Write *trunk*. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

2. *skin* Number 2: *skin*. We'll do the memory steps together.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell.* Everyone read. (Students: *skin*) *Skin* has only one syllable.

STEP 2 . . . Step 2 is *Underline any hard parts.* If *skin* has any parts that are hard for you to hear or remember, underline those parts.

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check.* Everyone cover *skin*. Find line number 2. Everyone say and write *skin*. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

3. *knock*. Number 3: *knock*. We'll do the memory steps together.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell.* Everyone read. (Students: *knock*) *Knock* has only one syllable.

STEP 2 . . . Step 2 is *Underline any hard parts.* If *knock* has any parts that are hard for you to remember, underline those parts.

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check.* Everyone cover *knock*. Find line number 3. Everyone say and write *knock*. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

4. *nonfat*. Number 4: *nonfat*. We'll do the memory steps together.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell.* Everyone read. (Students: *nonfat*) Say *nonfat* by syllables: *non-fat*. (Students: *non-fat*)

STEP 2 . . . Step 2 is *Underline any hard parts.* If *nonfat* has any parts that are hard for you to remember, underline those parts.

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check.*
► Demonstrate at the board how to say and write the word one syllable at a time.

Everyone cover *nonfat*. Find line number 4. Everyone say and write *nonfat* by syllables. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

- 5. pledge ▶ Have a volunteer demonstrate the memory steps for *pledge*. Then have all the students practice individually.
- 6. crops ▶ Have a volunteer demonstrate the memory steps for *crops*. Then have all the students practice individually.
- 7–15 ▶ Have the students practice the memory steps for numbers 7–15 individually.

Doubling with Single-syllable Words; Frequently Misspelled Words

► New Content

If the base word is one syllable, has one vowel, and ends with one consonant *and* the suffix begins with a vowel, we double the last consonant of the base word before the suffix, as in *stopping*, *reddish*, *sadder*, and *flatten*.

► Teacher Background

Make a copy of the Week 2 homework page (*Blackline Masters* page 3) for each student.

If you are using the board, number from 1 to 8 for Day 1 of this week.

Beginning this week, the students will frequently refer to the spelling generalizations in the back of their *Student Spelling Books* on pages 184 and 185. Have them attach a self-stick note to those pages so that they can turn to them quickly.

To help the students understand this week's generalization for doubling the last consonant, you will have them write first the base word, then the suffix, and then the whole word for three items each day this week. These items in the *Student Spelling Book* look like this:

_____ + _____ = _____

When the students check a word with more than one syllable, they will first read the word and then read and spell each syllable, for example, *mised*, *mis-*, **m-i-s**, *-led*, **l-e-d**. Note that many one-syllable words become two syllables when suffixes are added, such as *skid* → *skid-ded* and *drink* → *drink-ing*.

Mnemonics are introduced on Day 1. A mnemonic is a memory aid. The word is pronounced *nə-mŏn-ĭc* (note the unusual

silent **m**), and it comes from the same root as *mind*, *mental*, and *amnesia*. Mnemonics have an important place in subjects like spelling that require extensive memorization. The guided spelling lessons include frequent reminders of groups of words with parts that sound the same and are spelled the same, for example *don't* and *won't*.

On Day 1 of each week, the students will write the first eight of this week's new words. On Day 2, they will write the other seven new words and three additional words that illustrate the week's new spelling concepts. On Days 3 and 4, they will write all of the week's new words, often with suffixes, plus several other words that demonstrate the week's new and review spelling concepts.

Beginning this week, the students will often work with a partner to analyze the hard parts of the tenth word on Days 2, 3, and 4. For example, you might say, "Turn to your neighbor. Take turns explaining why you doubled **n** in *thinner*."

Also beginning this week, the students will practice memorizing the last word in guided spelling on Days 2, 3, and 4. They will use the memory steps that they are using in their spelling homework. You may want to have the partners spell the word aloud together after the third memory step.

One additional guiding point is introduced this week: words that end in **x** are exceptions to the doubling generalization, such as *fix* → *fixing*.

In the pre-spelling activities this week, you will model doubling the final consonant of a single-syllable word before adding a suffix that begins with a vowel.

An optional spelling activity for partners is provided each week in the *Blackline Masters* book. The activity for Week 2 can be found on page 43.

WEEKLY SPELLING TESTS

The first weekly spelling test is on Day 5 of this week. It consists of all of the week's new words, three review words, and two application words. The application words assess the students' knowledge of the spelling concepts and are not announced in advance. The form of the weekly tests is traditional word dictation.

You may wish to differentiate instruction by having your below-grade-level, average, and advanced spellers memorize different numbers of words for the test. If you do decide to do so, talk privately with each student to explain which words to study. Below-grade-level spellers will study just the words with stars

in front of them on each week's word list. Average spellers will study all words except the challenge words. Advanced spellers will study all words including the challenge words.

WEEKLY HOMEWORK

In Week 2, the students begin doing weekly homework. On Day 1, hand out the homework duplicated from *Blackline Masters* page 3. Collect and check the homework using the same procedure you use for other homework.

The purpose of the homework is for the students to memorize the spelling of each new word and memorize the review words. The memory steps will aid in learning the words. We recommend that the students write the words just once for homework during the week. Research indicates that merely writing words many times will not result in memorization (Schlagal 2002).

If you are differentiating spelling instruction, have the below-grade-level spellers do the homework just for the starred words. Have the average spellers study the 25 new and review words. Have the advanced spellers study those 25 words and then independently memorize the challenge words at the bottom of the homework page.

► Words Used This Week

NEW WORDS	*trotting, *skidded, *swimmer, *camping, *muddy, *printed, *fixing, *misled, thought, I'm, who's, they've, which, sure, whole
REVIEW WORDS	*pledge, *knock, *crops, *nonfat, *thrill, *switches, something, sense, you're, halfway
CHALLENGE WORDS	bushes, strength, flatten, jogging, trimming
APPLICATION WORDS ON THE TEST	thrift, crunches
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	flipper, drinking, batter, drumming, thoughts, pumped, fixed, skidding, too, smudge, thinner
FREQUENTLY MISSPELLED WORDS	which, whole, they've, who's, thought, sure, I'm, too

Week 2 Day 1

ELPS 5.C.iii
Teacher Background and
Pre-spelling: Doubling
sections

In the pre-spelling activities this week, you will model doubling the final consonant of a single-syllable word before adding a suffix that begins with a vowel. If your students have difficulty distinguishing between vowels and consonants, have them first say whether each letter in the base word is a vowel or a consonant.

► Pre-spelling: Doubling

This week I'll show you that you may have to change the base word when you add a suffix.

► Write on the board: hop hopped

Read these words with me: *hop, hopped.*

hopped ► Point to *hopped*.

What is the base word in *hopped*?

Look at *hopped*. I had to write another **p**. That is called *doubling*. I made two of them. Say "double."

Turn to page 184 in the back of your *Student Spelling Book*. We'll read the single-syllable doubling generalization together:

IF the base word has

- one syllable,

- one vowel,

- and one consonant after the vowel

AND the suffix begins with a vowel,

THEN double the last consonant.

ripped I will write *ripped*. I *ripped* my jacket. *Ripped*. First I write the base word, *rip*.

► Write *rip* on the board. Point to **i**.

I see one vowel.

► Point to **p**.

I see one consonant after the vowel. The suffix **e-d** begins with a vowel.

► Point to **p**.

I need to double this last consonant. I add another **p**. I add **e-d**.
Ripped.

Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 8 and follow along as you read the words and sentences.

1. trotting Number 1: trotting. The horses were trotting around the track.
The base word is *trot*. The **t** was doubled and then the suffix *-ing* was added.
2. skidded Number 2: skidded. The player skidded into first base.
The base word is *skid*. The **d** was doubled and then the suffix **e-d** was added.
3. swimmer Number 3: swimmer. The swimmer made record time in the breaststroke.
The base word is *swim*. The **m** was doubled and then the suffix *-er* was added.
4. camping Number 4: camping. The hikers are camping in the desert.
The base word is *camp*. The suffix is *-ing*.
5. muddy Number 5: muddy. The rain boots were muddy; they were covered with mud.
The base word is *mud*. The **d** was doubled and then the suffix **y** was added.
6. printed Number 6: printed. School menus are printed on recycled paper.
The base word is *print*. The suffix is **e-d**.
7. fixing Number 7: fixing. The plumber was fixing the leaky faucet.
Words that end in **x** are exceptions to the doubling generalization. We never double **x**. The suffix is *-ing*.
8. misled Number 8: misled. We were misled by the wrong directions and got lost.
Mis- is a prefix. The base word is *led*.
9. thought Number 9: thought. We thought it was a funny movie.
FREQUENTLY MISPELLED WORD *Thought* is a frequently misspelled word.

MNEMONIC A *mnemonic* (nə-mŏn-ĭc) is something that helps you remember.

Here is a mnemonic for *thought*. The end of *thought* sounds like and is spelled the same as *ought*, *bought*, *brought*, and *fought*. Underline **o-u-g-h**.

10. I'm Number 10: I'm. My parents know I'm going to visit my friend.
FREQUENTLY MISPELLED WORD *I'm* is a frequently misspelled word.
CONTRACTION *I'm* is a contraction of the two words *I am*.
Underline the whole word: capital-**I**-apostrophe-**m**.
11. who's Number 11: who's. I wonder who's in charge.
FREQUENTLY MISPELLED WORD *Who's* is a frequently misspelled word.
HOMOPHONE *Who's* is a homophone. It's not *whose* as in *Whose book is this?* It's *who's* as in *I wonder who's in charge*.
CONTRACTION *Who's* is a contraction of the two words *who is*.
Underline the entire word: **w-h-o**-apostrophe-**s**.
12. they've Number 12: they've. I am surprised they've finished their work so quickly.
FREQUENTLY MISPELLED WORD *They've* is a frequently misspelled word.
CONTRACTION *They've* is a contraction of the two words *they have*.
Underline the entire word: **t-h-e-y**-apostrophe-**v-e**.
13. which Number 13: which. He considered which fruit to choose: an apricot or a banana.
FREQUENTLY MISPELLED WORD *Which* is a frequently misspelled word.
► If your students pronounce **wh** and **w** the same way, then *which* and *witch* are homophones.
Underline **c-h**.
14. sure Number 14: sure. She was sure her answer was right.
FREQUENTLY MISPELLED WORD *Sure* is a frequently misspelled word.
Underline **s**. Underline **u** and **e**.

Guided Spelling section
(trotting, fixing, camping)

► Have your students turn to page 10. They will write eight of this week's new words.

I'm going to say each word and you will write it, but this is not a test. I will help you think about each word so that you write it correctly. If you're not sure how to spell a word, raise your hand to ask me for help. It is important to *know when you don't know*.

I. trotting. Number I: trotting. The horses were trotting around the track. Say *trotting*. (Students: trotting)

Base word? (Students: trot) Listen to the sounds: trot. Write *trot* in the first space at number I.

Trotting. Suffix? (Students: -ing) Write *-ing* in the second space.

Trotting. What do you have to decide? (Students: Do we double?) Everyone turn to page 184. We'll read the single-syllable doubling generalization together: "IF the base word has one syllable, one vowel, and one consonant after the vowel AND the suffix begins with a vowel, THEN double the last consonant." Turn back to page 10, number I. Everyone point to **o**. Does *trot* have one vowel? (Students: yes) Everyone point to **t**. Does *trot* have one consonant after the vowel? (Students: yes) Does the suffix begin with a vowel? (Students: yes) Will you double the last consonant of *trot*? (Students: yes) Write *trotting* in the third space.

Now you will check your work. When you check a word with more than one syllable, you will read the word first. Then you will read and spell the word by syllables. *Trotting*, *trot-*, **t-r-o-t**, *-ting*, **t-i-n-g**. Everyone read the word. (Students: trotting) Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 1, write *trotting* as the students read and spell by syllables. (Students: trot-, t-r-o-t, -ting, t-i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

2. skidded. Number 2: skidded. The player skidded into first base. Say *skidded*. (Students: skidded)

Base word? (Students: skid) Write *skid* in the first space at number 2.

Skidded. Suffix? (Students: e-d) Write **e-d** in the second space.

Skidded. What do you have to decide? (Students: Do we double?) Everyone turn to page 184. We'll read the single-syllable doubling generalization together: "IF the base word has one syllable, one vowel, and one consonant after the vowel AND the suffix begins with a vowel, THEN double the last consonant." Turn back to page 10, number 2. Everyone point to **i**. Does *skid* have one vowel? (Students: yes) Everyone point to **d**. Does *skid* have one consonant after the vowel? (Students: yes) Does the suffix begin with a vowel? (Students: yes) Will you double the last consonant of *skid*? (Students: yes) Write *skidded* in the third space.

Now you will check your work. Everyone read the word. (Students: skidded) *Skidded* has two syllables: *skid-ded*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 2, write *skidded* as the students read and spell by syllables. (Students: skid-, s-k-i-d, -ded, d-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

3. fixing Number 3: fixing. The plumber was fixing the leaky faucet. Say *fixing*. (Students: fixing)

Base word? (Students: fix) Write *fix*.

Fixing. What do you have to decide? (Students: Do we double?) When a word ends with **x**, we do *not* double. Finish writing *fixing*.

Now you will check your work. Everyone read the word. (Students: fixing) *Fixing* has two syllables: *fix-ing*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 3, write *fixing* as the students read and spell by syllables. (Students: fix-, f-i-x, -ing, i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

4. camping Number 4: camping. The hikers are camping in the desert.

Say *camping*. (Students: camping)

Base word? (Students: camp) Write *camp*.

Camping. What do you have to decide? (Students: Do we double?)

Everyone point to **a**. Does *camp* have one vowel? (Students: yes)

Everyone point to **m-p**. Does *camp* have one consonant after the vowel? (Students: no, two) Will you double the last consonant of

camp? (Students: no) You're writing *camping*. What is the suffix?

(Students: -ing) Finish writing *camping*.

Let's check. Everyone read the word. (Students: camping) Read and spell the word by syllables as I write it.

► At number 4, write *camping* as the students read and spell. (Students: camp-, c-a-m-p, -ing, i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. swimmer. Number 5: swimmer. The swimmer made record time in the breaststroke. Say *swimmer*. (Students: swimmer)

Reread page 184 if you need to. Write the base word, then the suffix, and then the whole word *swimmer*.

Now you will check your work. Everyone read the word.

(Students: swimmer) *Swimmer* has two syllables: *swim-mer*.

Everyone read and spell the word by syllables as I write it.

Point under each letter as you spell.

► At number 5, write *swimmer* as the students read and spell by syllables. (Students: swim-, s-w-i-m, -mer, m-e-r)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

6. muddy Number 6: muddy. Their rain boots were muddy. Say *muddy*. (Students: muddy)

Reread page 184 if you need to. Write *muddy*.

Now you will check your work. Everyone read the word.

(Students: muddy) *Muddy* has two syllables: *mud-dy*. Everyone

read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 6, write *muddy* as the students read and spell by syllables. (Students: mud-, m-u-d, -dy, d-y)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

7. printed Number 7: printed. School menus are printed on recycled paper. Say *printed*. (Students: printed)

Write *printed*.

Now you will check your work. Everyone read the word. (Students: printed) *Printed* has two syllables: *print-ed*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 7, write *printed* as the students read and spell by syllables. (Students: print-, p-r-i-n-t, -ed, e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

8. misled. Number 8: misled. We were misled by the wrong directions and got lost. Say *misled*. (Students: misled)

Write *misled*.

Now you will check your work. Everyone read the word. (Students: misled) *Misled* has two syllables: *mis-led*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 8, write *misled* as the students read and spell by syllables. (Students: mis-, m-i-s, -led, l-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

► Introduce the Homework

Hand out the Week 2 homework. Explain to the students that they will study by using the memory steps they practiced last week. Explain your procedure for collecting and checking homework.

Tell the students that the words on the homework page include all of this week's 15 new words and 10 review words from last week. All of the new words and some of the review words will be on the test on Day 5. The test will also have two "application" words that are not on the homework. The application words will show that the students understand what they have been learning in spelling.

If you are differentiating instruction, talk privately to each below-grade-level speller. Tell each one to study just the starred words. Tell the advanced spellers that they are responsible for memorizing all words, including the challenge words at the bottom of the page, but that they are not expected to write the challenge words for homework unless they feel they need to.

► Teacher Background

In the pre-spelling activities in this lesson, you will model doubling the final consonant of a single-syllable word before adding a suffix that begins with a vowel. If your students have difficulty distinguishing between vowels and consonants, have them first say whether each letter in the word is a vowel or a consonant.

If you are using the board, number from 1 to 10.

► Pre-spelling: Doubling

Turn to page 184 in the back of your *Student Spelling Book*. We'll read the single-syllable doubling generalization together: "IF the base word has one syllable, one vowel, and one consonant after the vowel AND the suffix begins with a vowel, THEN double the last consonant."

humming Help me write *humming*. A humming sound came from the motor.

Base word? (Students: hum)

► Write *hum* on the board.

Is there one vowel? (Students: yes) Is there one consonant after the vowel? (Students: yes) *Humming*. Suffix? (Students: -ing) Does the suffix begin with a vowel? (Students: yes) Will we double **m**? (Students: yes) *Humming*.

► Add *ming*.

► Guided Spelling

► Have your students turn to page 11.

Write *fixed*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 10.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 10, write *fixed* as the students read and spell. (Students: fixed, f-i-x-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

PARTNER STUDY On most days in guided spelling, I will ask a question about word number 10. You and your neighbor will tell each other the answer.

Turn to your neighbor and take turns explaining why you did not double **x** in *fixed*.

MEMORY STEPS Now we'll practice the memory steps for number 10, *fixed*.

STEP 1 . . . Step 1 is *Read the word*. (Students: fixed)

STEP 2 . . . Step 2 is *Underline any hard parts*.

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check*. Everyone cover the word. Find the line under number 10. Say and write *fixed*. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

► **Teacher Background**

If you are using the board, number from 1 to 10.

► **Pre-spelling: Doubling**

► If your students have difficulty distinguishing between vowels and consonants, have them first say whether each letter in the word *dot* is a vowel or a consonant.

Turn to page 184 in the back of your *Student Spelling Book*. We'll read the single-syllable doubling generalization together: "IF the base word has one syllable, one vowel, and one consonant after the vowel AND the suffix begins with a vowel, THEN double the last consonant."

dotted Help me write *dotted*. She dotted every *i*.

Base word? (Students: dot)

► Write *dot*.

Is there one vowel? (Students: yes) Is there one consonant after the vowel? (Students: yes) *Dotted*. Suffix? (Students: e-d) Does the suffix begin with a vowel? (Students: yes) Will we double *t*? (Students: yes) *Dotted*.

► Add *ted*.

► **Guided Spelling**

► Have your students turn to page 13.

1. printed Number 1: printed. He printed his name at the top of the paper. Say *printed*. (Students: printed)

Base word? (Students: print) Write *print* in the first space at number 1.

Printed. Suffix? (Students: e-d) Write *e-d* in the second space.

Printed. What do you have to decide? (Students: Do we double?)

Everyone point to *i*. Does *print* have one vowel? (Students: yes)

Everyone point to *n-t*. Does *print* have one consonant after the vowel? (Students: no, two) Will you double the last consonant of *print*? (Students: no) Write *printed* in the third space.

Now you will check your work. Everyone read the word.
(Students: printed) *Printed* has two syllables: *print-ed*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 1, write *printed* as the students read and spell by syllables. (Students: print-, p-r-i-n-t, -ed, e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

2. skidding Number 2: skidding. Many cars were skidding on the icy streets that day. Say *skidding*. (Students: skidding)

Base word? (Students: skid) Write *skid* in the first space at number 2.

Skidding. Suffix? (Students: -ing) Write *-ing* in the second space.

Skidding. What do you have to decide? (Students: Do we double?) Everyone point to **i**. Does *skid* have one vowel? (Students: yes) Everyone point to **d**. Does *skid* have one consonant after the vowel? (Students: yes) Does the suffix begin with a vowel? (Students: yes) Will you double the last consonant of *skid*? (Students: yes) Write *skidding* in the third space.

Now you will check your work. Everyone read the word.
(Students: skidding) *Skidding* has two syllables: *skid-ding*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 2, write *skidding* as the students read and spell by syllables. (Students: skid-, s-k-i-d, -ding, d-i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

3. I'm Number 3: I'm. My coach is sure that I'm starting the game. Say *I'm*. (Students: I'm)

CONTRACTION *I'm* is a contraction of *I am*.

Be careful here. If you know how to spell *I'm*, write *I'm* now. If you're not sure about any part, raise your hand to ask me and look up here as I write it.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 3.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 3, write *I'm* as the students read and spell. (Students: I'm, capital-I-apostrophe-m)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

4. misled Number 4: misled. I did this page incorrectly because the instructions misled me. Say *misled*. (Students: misled)

Prefix? (Students: mis-)

If you're not sure how to spell the prefix *mis-*, raise your hand and look up here as I write it.

► If any students raise their hands, write *mis* to the left of number 4.

Finish writing *misled*.

Now you will check your work. Everyone read the word. (Students: misled) *Misled* has two syllables: *mis-led*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 4, write *misled* as the students read and spell by syllables. (Students: mis-, m-i-s, -led, l-e-d)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

5. sure Number 5: sure. He was sure he dialed the correct telephone number. Say *sure*. (Students: sure)

Be careful here. If you know how to spell *sure*, write *sure* now. If you're not sure about any part, raise your hand to ask me and look up here as I write it.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 5.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 5, write *sure* as the students read and spell. (Students: sure, s-u-r-e)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

6. too Number 6: too. It was too hot this afternoon for playing soccer. Say *too*. (Students: too)

FREQUENTLY MISSPELLED WORD *Too* is a frequently misspelled word.

HOMOPHONE *Too* is a homophone. It's not the number *two*. It's not *to* as in *I'm going to school*. It's *too* as in *It was too hot*.

Be careful here. If you know how to spell *too*, write *too* now. If you're not sure about any part, raise your hand to ask me and look up here as I write it.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 6.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 6, write *too* as the students read and spell.
(Students: *too*, t-o-o)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

7. camping Number 7: camping. My family enjoys camping at national parks in the summer. Say *camping*. (Students: camping)

Write the base word, then the suffix, and then the whole word *camping*.

Now you will check your work. Everyone read the word.
(Students: camping) *Camping* has two syllables: *camp-ing*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 7, write *camping* as the students read and spell by syllables. (Students: camp-, c-a-m-p, -ing, i-n-g)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

8. smudge. Number 8: smudge. There was a smudge on my glasses. Say *smudge*. (Students: smudge)

Write *smudge*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 8.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 8, write *smudge* as the students read and spell.
(Students: smudge, s-m-u-d-g-e)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

9. they've Number 9: they've. We know they've prepared an interesting report. Say *they've*. (Students: they've)

Write *they've*.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 9.

Now you will check your work. Everyone read and spell the word as I write it. Point under each letter as you spell.

► At number 9, write *they've* as the students read and spell. (Students: they've, t-h-e-y-apostrophe-v-e)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

10. thinner Number 10: thinner. The air gets thinner as you climb higher. Say *thinner*. (Students: thinner)

Write *thinner*.

Now you will check your work. Everyone read the word. (Students: thinner) *Thinner* has two syllables: *thin-ner*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 10, write *thinner* as the students read and spell by syllables. (Students: thin-, t-h-i-n, -ner, n-e-r)

Check your word. If you made a mistake, draw a line through the word. Write the correct word above it.

PARTNER STUDY Turn to your neighbor. Take turns explaining why you doubled **n** in *thinner*.

MEMORY STEPS Now we'll practice the memory steps for number 10, *thinner*.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell.* (Students: thinner, thin-ner)

STEP 2 . . . Step 2 is *Underline any hard parts.*

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check.* Everyone cover the word. Find the line under number 10. Say and write *thinner* by syllables. (Students: thin-, t-h-i-n, -ner, n-e-r) Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

Weekly Test

► Teacher Background

The first weekly spelling test is in this lesson. It consists of all 15 of the week's new words, 3 review words, and 2 application words. The form of the weekly tests is traditional word dictation.

The application words assess the students' knowledge of the spelling concepts and are not announced in advance. Tell your students that numbers 1 and 2 are not words that they have memorized for the test, but that they can easily spell the words if they think about what they have learned.

Provide the students with paper for the spelling test.

If you are not differentiating spelling instruction, have all students write the first 20 words. If you are differentiating instruction, have the below-grade-level spellers write the first 13 words, the average spellers write the first 20 words, and the advanced spellers write all 22 words.

We recommend that you collect the tests and correct them yourself so that you can conduct an informal assessment of your class's progress. As you correct the tests, notice particularly the students' spelling of the application words, numbers 1 and 2. Note that students with numerous errors may not be ready for grade 5 spelling.

► Administer the Spelling Test

Hand out test paper. Have the students put their names at the top and number from 1 to 20.

The test words appear on the following page. Pronounce each word and use it in a sentence. You may use the sentences that are provided. Note that the students do not write the sentences.

ALL STUDENTS

1. thrift I'll check the thrift store for our play props. (application word)
2. crunches The gravel on the road crunches under my feet. (application word)
3. misled The detectives were misled by the informant.

Long Vowels; Frequently Misspelled Words

► New Content

Long **a** is often spelled **a-consonant-e**, **ai**, or **ay**, as in *relate*, *exclaim*, and *day*.

The sound /ā/ at the end of a word is usually spelled **ay**, as in *today*.

Long **e** is often spelled **e-consonant-e**, **ee**, or **ea**, as in *complete*, *week*, and *season*.

The sound /ē/ at the end of a polysyllabic word is usually spelled **y**, as in *plenty*.

Long **i** is often spelled **i-consonant-e**, **igh**, or **y**, as in *provide*, *flight*, and *fry*.

The sound /ī/ at the end of a word is usually spelled **y**, as in *sky* and *deny*.

Long **o** is often spelled **o-consonant-e**, **oa**, or **ow**, as in *alone*, *coat*, and *below*.

Long **u** is often spelled **u-consonant-e**, as in *huge* and *compute*.

► Teacher Background

Make a copy of the Week 3 homework (*Blackline Masters* page 4) for each student.

This week you will introduce the students to the common spellings of the long vowel sounds. The long vowel sounds are found on the second row of the spelling-sound chart.

The spelling **y** for the sound /ē/ at the end of a polysyllabic word is shown as ___y, along with the other long **e** spellings, under the “tree” picture on the spelling-sound chart. The long blank in ___y indicates that the spelling is used in polysyllabic words. Other spellings of the sound /ē/ at the end of a polysyllabic word

are much less frequent than **y**, and include such words as *coffee*, *recipe*, *monkey*, and *Pattie*.

In some regions, speakers pronounce **y** at the end of a polysyllabic word as an unaccented short **i**.

Also this week, you will introduce the students to a routine for spelling sounds with multiple spellings. For example, if you dictate the word *throne*, some students may not know whether to spell it *throan* or *throne*. In the spelling routine, you say, “Question?” meaning, “Ask me a question if you don’t know which spelling of the sound /ō/ to use for *throne*.” The students ask, “Which /ō/?” You say, “Use the first spelling under the ‘bone’ picture on the spelling-sound chart.” Students who *do* know the correct spelling may write the word without asking “Which /ō/?” and without consulting the chart.

The letter **y** is sometimes a vowel. It is a vowel when it is part of the vowel spellings **ay**, **ey**, **oy**, and **uy**, as in *stay*, *key*, *boy*, and *buy*. It is also a vowel when it has the sound of long **i**, as in *style* or *supply*, short **i** as in *typical*, or long **e** as in *happy*. The letter **w** acts as a vowel in the vowel spellings **aw**, **ew**, and **ow**, as in *jaw*, *few*, and *low*. Recognizing that **y** and **w** are sometimes vowels will help the students apply the doubling generalization. We do not double **y** or **w**, as in *staying* and *fewer*.

The words *paid* and *laid* are exceptions to the way we usually add *-ed* to words that end with *-ay*.

Four additional guiding points are introduced this week: the sound /j/ after a long vowel is spelled **g**, as in *cage*; the sound /s/ after a long vowel is spelled **s** or **c**, as in *base* and *twice*; the sound /r/ at the beginning of a word is sometimes spelled **wr**, as in *write*; the sound /ō/ at the end of a word is usually spelled **o** or **ow**, as in *buffalo* and *shadow*.

This week the students will be introduced to word history notes that will appear throughout the year. The notes will show changes in language (spelling, meaning, and pronunciation) as well as influences on English from other languages. When a note refers to a particular country, you may want to point out the country on a map.

The first two weeks of lessons included detailed instructions to support you and your students in learning the basic procedures of guided spelling. Beginning with Week 3, the instructions are abbreviated.

- The cue “Careful” alerts you and the students to an unusual spelling in the word.

- The cue “Offer help” reminds you to ask your students to raise their hands if they don’t know how to spell part of a word. You write the spelling on the board or overhead to the left of the item number.
- Expected student responses are no longer always written out in the lessons. Where several instructions are given on one line, a small square (■) indicates that you pause while the students respond orally or in writing.
- The cue “Check” reminds you to do the entire checking procedure for each word. See page 520 for an example of the checking procedure. When checking a polysyllabic word, have the students read and spell each syllable.

On Day 1 of this week, you will show the students how to keep a record of words they missed on the spelling test. In their *Student Spelling Books* they will write **S** for “need to study” on the line next to each word they missed.

On Day 4, the students will study the words they missed on last week’s test. The students will do this on Day 4 of each week of the *Guided Spelling* program (except the review weeks).

In Week 3, there are two pre-spelling activities each day. The first focuses on the meaning of the terms “short vowel” and “long vowel.” If your students are confident identifying long and short vowel sounds, you may omit this activity. In the second pre-spelling activity, the students will practice the routine for asking for help when they spell a sound with multiple spellings.

An optional spelling activity for partners is provided each week in the *Blackline Masters* book. The activity for Week 3 can be found on page 44.

► Pre-spelling #1: Short and Long Vowels

► Remind your students that in spelling it is important to know the name and sound of each short and long vowel.

short o ► Point to **o**_ on the spelling-sound chart.

What is the sound of short **o**?

short a ► Point to **a**_ on the spelling-sound chart.

What is the sound of short **a**?

short u ► Point to **u**_ on the spelling-sound chart.

What is the sound of short **u**?

short e ► Point to **e**_ on the spelling-sound chart.

What is the sound of short **e**?

short i ► Point to **i**_ on the spelling-sound chart.

What is the sound of short **i**?

long a ► Point to the “cake” picture.

The second row on the spelling-sound chart shows the long vowels. The “cake” picture reminds us where to look for the spellings of long **a**, /ā/. Sound? (Students: /ā/)

long e ► Point to the “tree” picture.

The “tree” picture reminds us where to look for the spellings of long **e**, /ē/. Sound? (Students: /ē/)

long i ► Point to the “kite” picture.

The “kite” picture reminds us where to look for the spellings of long **i**, /ī/. Sound? (Students: /ī/)

long o ► Point to the “bone” picture.

The “bone” picture reminds us where to look for the spellings of long **o**, /ō/. Sound? (Students: /ō/)

long u ► Point to the “mule” picture.

The “mule” picture reminds us where to look for the spellings of long **u**, /ū/. Sound? (Students: /ū/)

► **Pre-spelling #2: Ask Which Spelling**

Today I’ll show you how I can help you spell long vowel sounds.

Look at the “cake” picture for long **a**. How many ways can we spell the sound /ā/? (Students: four)

When you spell long vowel sounds, you need to learn which spelling to use.

sprain Let’s say you are writing the word *sprain*, *I don’t want to sprain my ankle*, but you aren’t sure which spelling of the sound /ā/ to use. I will say, “Question?” That means, “Ask me a question if you aren’t sure how to spell this sound.” You will ask, “Which /ā/?” That means, “Which spelling under the ‘cake’ picture is the right one for *sprain*?”

I will say, “Use the second spelling under the ‘cake’ picture.” Which is the second spelling under the “cake” picture? (Students: a-i-blank) The blank means that there is usually a letter after **a-i**. In *sprain* the letter is **n**. How do you spell the sound /ā/ in *sprain*? (Students: a-i)

► Write *sprain* on the board.

maze Let’s practice. *Maze. They couldn’t find their way out of the maze.* Question? You ask, “Which /ā/?” (Students: which /ā/?) Use the first spelling under the “cake” picture. How do you spell the sound /ā/ in *maze*? You say “a-blank-e.” (Students: a-blank-e)

► Point to the blank in **a_e**.

The blank means that there will be a letter here. In *maze* the letter is **z**.

tweed *Tweed. He wore a tweed jacket.* What vowel sound do you hear in *tweed*? (Students: /ē/) Question? (Students: which /ē/?) Use the second spelling under the “tree” picture. How do you spell the sound /ē/ in *tweed*? (Students: e-e)

clove *Clove. She added a clove for flavor.* What vowel sound do you hear in *clove*? (Students: /ō/) Question? (Students: which /ō/?) Use the first spelling under the “bone” picture. How do you spell the sound /ō/ in *clove*? (Students: o-blank-e)

► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 14 and follow along as you read the words and sentences.

1. rays Number 1: rays. The sun's rays came through the window.
The base word is *ray*.
The sound /ā/ in the base word *ray* is spelled **a-y**. When we hear the sound /ā/ at the end of a word, we usually spell it **a-y**.
The letter **y** is sometimes a vowel. In **a-y**, the letter **y** is a vowel.
2. goals Number 2: goals. The soccer team scored two goals during the game.
Underline **o-a**.

Underline the entire word: **w-e-apostrophe-d**.

14. that'll Number 14: that'll. He knows that'll be his last time at bat for the game.

FREQUENTLY MISPELLED WORD *That'll* is a frequently misspelled word.

CONTRACTION *That'll* is a contraction of the two words *that will*.

Underline apostrophe-**l-l**.

15. their Number 15: their. They carried their camping gear in backpacks.

FREQUENTLY MISPELLED WORD *Their* is a frequently misspelled word.

HOMOPHONE *Their* is a homophone. It's not *there* as in *There you are*. It's the possessive *their* as in *their camping gear*.

Underline **e-i**.

NUMBERS 16–25 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- 16. *muddy 21. *trotting
- 17. *misled 22. I'm
- 18. *fixing 23. sure
- 19. *skidded 24. who's
- 20. *camping 25. they've

► **Guided Spelling**

► Have your students turn to page 16.

1. rays Number 1: rays. The sun's rays came through the window. Say *rays*.

Base word? (Students: ray) When we hear the sound /ā/ at the end of a word, we usually spell it **a-y**. Write *rays*. (Check.)

2. cage Number 2: cage. We keep the hamster in its cage. Say *cage*.

Write the first letter **c**. ■ What is the vowel sound? (Students: /ā/) Which picture shows the ways to spell the sound /ā/? (Students: cake)

► Point to **a_e**.

For *cage* we will use the first spelling. What is the first spelling? (Students: a-blank-e)

► Point to **a**.

Write **a**.

► Point to the blank.

The sound /j/ after a long vowel is spelled **g**. Write **g**. ■ The spelling is **a-blank-e**. What part do you still have to write? (Students: e) Add **e**. (Check.)

3. goals Number 3: goals. The soccer team scored two goals during the game. Say *goals*.

Base word? ■ What vowel sound do you hear in *goal*? (Students: /ō/) Which picture shows the ways to spell the sound /ō/? ■ If you're not sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ō/?) Use the second spelling under the "bone" picture. Write *goals*. (Check.)

4. twice Number 4: twice. I fell twice while I was skating. Say *twice*.
If you're not sure how to spell the word, raise your hand.
Question? (Students with raised hands: which /ī/?) Use the first spelling under the "kite" picture. Careful. The sound /s/ in *twice* is spelled *c*. Write *twice*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. throw. Number 5: throw. The catcher will throw the ball to the pitcher. Say *throw*.

Write *throw*. (Check.)

► If any students ask "Which /ō/?" say, "Use the third spelling under the 'bone' picture."

6. preflight Number 6: preflight. Astronauts have many preflight tasks. Say *preflight*.

Write *preflight*. (Check.)

7. airplane. Number 7: airplane. The airplane landed on the runway and taxied to the gate. Say *airplane*.

Write *airplane*. (Check.)

8. meatless Number 8: meatless. My cousin doesn't eat meat; all of his meals are meatless. Say *meatless*.

Write *meatless*. (Check.)

► **Introduce the Homework**

Hand out the Week 3 homework.

► **Record Words Missed**

Return the students' spelling tests from Week 2. Have them turn to pages 8 and 9 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

► **Pre-spelling #1: Short and Long Vowels**

I'll say a short or long vowel sound, and you tell me what it is called. For example, I'll say, "/ā/ as in *take*," and you'll say, "long a."

/ī/ as in *dime* ■ /ă/ as in *glad* ■ /ē/ as in *these* ■ /ā/ as in *game* ■
/ū/ as in *huge*

► **Pre-spelling #2: Ask Which Spelling**

When you hear a vowel sound with more than one spelling, ask me which spelling to use.

- vain Let's practice. I will say, "*Vain. They tried in vain. Question?*" You ask, "Which /ā/?" (Students: which /ā/?) I will say, "Use the second spelling under the 'cake' picture." How do you spell the sound /ā/ in *vain*? (Students: a-i)
- blade *Blade.* What vowel sound do you hear in *blade*? (Students: /ā/) Question? (Students: which /ā/?) Use the first spelling under the "cake" picture. How do you spell the sound /ā/ in *blade*? (Students: a-blank-e)
- moat *Moat.* There was a moat around the castle. What vowel sound do you hear in *moat*? (Students: /ō/) Question? (Students: which /ō/?) Use the second spelling under the "bone" picture. How do you spell the sound /ō/ in *moat*? (Students: o-a)
- bleach *Bleach.* What vowel sound do you hear in *bleach*? (Students: /ē/) Question? (Students: which /ē/?) Use the third spelling under the "tree" picture. How do you spell the sound /ē/ in *bleach*? (Students: e-a)

► **Guided Spelling**

► Have your students turn to page 17.

- I. throne Number I: throne. The queen sat on her throne. Say *throne*.
HOMOPHONE *Throne* is a homophone. It's not *thrown* as in *The ball was thrown over the fence*. It's *throne* as in *The queen sat on her throne*.

What vowel sound do you hear in *throne*? (Students: /ō/) Which picture shows the ways to spell the sound /ō/? (Students: bone) If you're not sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ō/?) Use the first spelling under the "bone" picture. Write *bone*. (Check.)

2. paid Number 2: paid. We paid for our tickets and went into the movie theater. Say *paid*.

If you're not sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ā/?) Use the second spelling under the "cake" picture. Write *paid*. (Check.)

3. cheese Number 3: cheese. The cafeteria served cheese sandwiches and salad for lunch today. Say *cheese*.

HISTORY You have probably heard of the ancient Romans. They were powerful about 2,000 years ago. Their capital was Rome, a city that still thrives today in the country of Italy.

► Point out Rome on a map.

The ancient Romans spoke a language called *Latin*. Many English words come from the Latin language. Our word *cheese* comes from the Latin word *caseus*. The Spanish word for *cheese*, *queso*, also comes from *caseus*.

If you're not sure how to spell *cheese*, raise your hand. Question? (Students with raised hands: which /ē/?) Use the second spelling under the "tree" picture. Careful. The sound /z/ in *cheese* is spelled **s-e**. Write *cheese*. (Check.)

4. that'll Number 4: that'll. He knows that'll be his last time at bat for the game. Say *that'll*.

CONTRACTION *That'll* is a contraction of *that will*.

Write *that'll*. (Check.)

5. waist Number 5: waist. I wore a belt around my waist. Say *waist*.

HOMOPHONE *Waist* is a homophone. It's not *waste* as in *the wastebasket*. It's *waist* as in *a belt around your waist*.

If you're not sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ā/?) Use the second spelling under the "cake" picture. Write *waist*. (Check.)

6. o'clock Number 6: o'clock. School begins at eight o'clock in the morning. Say *o'clock*.

CONTRACTION *O'clock* is an unusual contraction of the words of *the clock*.

First write the first letter of the word *of*. ■ Then write an apostrophe. ■ Then write *clock*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. *we'd* Number 7: *we'd*. She thought *we'd* be there by noon. Say *we'd*.
Write *we'd*. (Check.)

8. *their* Number 8: *their*. They carried their camping gear in backpacks.
Say *their*.
Write *their*. (Check.)

9. *piece* Number 9: *piece*. She molded the piece of clay into a bowl.
Say *piece*.
Write *piece*. (Check.)

10. *unwrapped* Number 10: *unwrapped*. He unwrapped his birthday gift.
Say *unwrapped*.
Write *unwrapped*. (Check.)

PARTNER STUDY Turn to your neighbor. Explain why you doubled **p**.

MEMORY STEPS Now we'll practice the memory steps for *unwrapped*.

STEP 1 . . . Step 1 is *Read the word. Say the syllables to help you spell.*
(Students: *un-wrapped*)

STEP 2 . . . Step 2 is *Underline any hard parts.*

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check.*
Everyone cover the word. Find the line under number 10. First say and write *un-*. ■ Then say and write *wrapped*. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

► **Teacher Background**

Remember to teach the lessons at a fairly quick pace; this will help sustain the students’ effort and interest. Each day’s lesson is intended to last about 15 minutes.

► **Pre-spelling #1: Short and Long Vowels**

I’ll tell you the name of a sound, and you will tell me the sound. For example, I’ll say, “long e,” and you’ll say, “/ē/.”

long o ■ short i ■ long a ■ short u ■ long e

► **Pre-spelling #2: Ask Which Spelling**

When you hear a vowel sound with more than one spelling, ask me which spelling to use.

slight Let’s practice. I will say, “*Slight. She had a slight cold. Question?*” You ask, “Which /ī/?” (Students: which /ī/?) I will say, “Use the second spelling under the ‘kite’ picture.” How do you spell the sound /ī/ in *slight*? (Students: i-g-h)

flown. *Flown. The bird has flown away. What vowel sound do you hear in flown?* (Students: /ō/) *Question?* (Students: which /ō/?) Use the third spelling under the “bone” picture. How do you spell the sound /ō/ in *flown*? (Students: o-w)

strait *Strait. The ship sailed through the strait. What vowel sound do you hear in strait?* (Students: /ā/) *Question?* (Students: which /ā/?) Use the second spelling under the “cake” picture. How do you spell the sound /ā/ in *strait*? (Students: a-i)

knead *Knead. He had to knead the bread dough. What vowel sound do you hear in knead?* (Students: /ē/) *Question?* (Students: which /ē/?) Use the third spelling under the “tree” picture. How do you spell the sound /ē/ in *knead*? (Students: e-a)

- HOMOPHONE *Piece* is a homophone. It's not *peace* as in *peace and quiet*. It's *piece* as in *a piece of watermelon*.
- MNEMONIC Here's a mnemonic: *piece of pie*. *Piece* and *pie* both begin with **p-i-e**.
- Careful. The sound /s/ in *piece* is spelled **c-e**. Write *piece*. (Check.)
2. preflight Number 2: preflight. The pilots made their preflight checks. Say *preflight*.
- Prefix? (Students: pre-) Write *pre-*.
- Base word? (Students: flight) What vowel sound do you hear in *flight*? (Students: /ī/) Which picture shows the ways to spell /ī/? ■ If you're not sure how to spell the word, raise your hand. Question? (Students with raised hands: which /ī/?) Use the second spelling under the "kite" picture. Write *flight*. (Check.)
3. unwrapped Number 3: unwrapped. I unwrapped the cheese and sliced it. Say *unwrapped*.
- Prefix? ■ Write *un-*.
- The base word is *wrap*. Careful. The beginning is spelled **w-r**. Write *wrap*. *Unwrapped*. What do you have to decide? (Students: Do we double?) Does *wrap* have one vowel? (Students: yes) One consonant after the vowel? (Students: yes) *Unwrapped*. Does the suffix begin with a vowel? (Students: yes) Will you double the last consonant of *wrap*? (Students: yes) Finish writing *unwrapped*. (Check.)
4. airplane. Number 4: airplane. The airplane soared over the city. Say *airplane*.
- Airplane* is a compound word. First you'll write *air*. If you're not sure how to spell *air*, raise your hand. Question? (Students with raised hands: which /ā/?) Use the second spelling under the "cake" picture. Write *air*. ■ Next you'll write *plane*. If you're not sure how to spell *plane*, raise your hand. Question? (Students with raised hands: which /ā/?) Use the first spelling under the "cake" picture. Finish writing *airplane*. (Check.)

5. their Number 5: their. The passengers stored their small bags under the airplane seats. Say *their*.
HOMOPHONE *Their* is a homophone. It's not *there* as in *There it is*. It's *their* as in *their house*.
Careful. (Offer help.) Write *their*. (Check.)

6. we'd Number 6: we'd. They hoped we'd be on time for the concert. Say *we'd*.
CONTRACTION *We'd* is a contraction of *we would* as in *They hoped we'd be on time*. *We'd* is also a contraction of *we had* as in *We'd been there before*.
Careful. (Offer help.) Write *we'd*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. beast Number 7: beast. The lion is just one beast of the African plains. Say *beast*.
HISTORY A thousand years ago people who spoke English used the word *deer* to mean *animals*. About 800 years ago they started using the word *beasts* instead of *deer*, and about 400 years ago they started using the word *animals* instead of *beasts*.
Write *beast*. (Check.)

8. shrugged Number 8: shrugged. He didn't know the answer, so he shrugged his shoulders. Say *shrugged*.
Write *shrugged*. (Check.)

9. cage Number 9: cage. My bird sleeps in its cage. Say *cage*.
Write *cage*. (Check.)

10. rays Number 10: rays. The sun's rays were hot that day. Say *rays*.
Write *rays*. (Check.)

PARTNER STUDY Turn to your neighbor. Explain why you spelled the sound /ā/ in *rays* **a-y**.

MEMORY STEPS Now we'll practice the memory steps for *rays*.

STEP 1 . . . Step 1 is *Read the word*. (Students: *rays*)

STEP 2 . . . Step 2 is *Underline any hard parts*.

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check*. Everyone cover the word. Find the line under number 10. Write *rays*. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

► **Teacher Background**

After the guided spelling activity, you will have the students briefly study the words they missed on last week’s test.

► **Pre-spelling #1: Short and Long Vowels**

I’ll say a short or long vowel sound, and you will tell me what it is called. For example, I’ll say, “/ā/ as in *make*,” and you’ll say, “long a.”

/ā/ as in *fame* ■ /ī/ as in *side* ■ /i/ as in *pitch* ■ /ū/ as in *mule*

► **Pre-spelling #2: Ask Which Spelling**

When you hear a vowel sound with more than one spelling, ask me which spelling to use.

- knights. Let’s practice. I will say, “*Knights. Knights lived in medieval days. Question?*” You ask, “Which /ī/?” (Students: which /ī/?) I will say, “Use the second spelling under the ‘kite’ picture.” How do you spell the sound /ī/ in *knights*? (Students: i-g-h)
- vane *Vane. The weather vane pointed to the north. What vowel sound do you hear in vane?* (Students: /ā/) *Question?* (Students: which /ā/?) Use the first spelling under the “cake” picture. How do you spell the sound /ā/ in *vane*? (Students: a-blank-e)
- steed. *Steed. A steed is a powerful horse. What vowel sound do you hear in steed?* (Students: /ē/) *Question?* (Students: which /ē/?) Use the second spelling under the “tree” picture. How do you spell the sound /ē/ in *steed*? (Students: e-e)
- tote. *Tote. She carried her books in a tote bag. What vowel sound do you hear in tote?* (Students: /ō/) *Question?* (Students: which /ō/?) Use the first spelling under the “bone” picture. How do you spell the sound /ō/ in *tote*? (Students: o-blank-e)

► Guided Spelling

► Have your students turn to page 19.

1. **throwing** Number 1: **throwing**. She will be **throwing** the first pitch of the game. Say *throwing*.
Base word? ■ The sound /ō/ at the end of a word is usually spelled **o** or **o-w**. In *throw* it's **o-w**. Write *throw*.
Throwing. In the vowel spelling **o-w**, the **w** acts as a vowel. Just add *-ing*. (Check.)
2. **sunlight** Number 2: **sunlight**. The **sunlight** brightened and warmed the room. Say *sunlight*.
Sunlight is a compound word. First write *sun*. ■ Next you'll write *light*. What vowel sound do you hear in *light*? ■ Which picture shows the ways to spell the sound /ī/? If you're not sure how to spell *light*, raise your hand. Question? (Students with raised hands: which /ī/?) Use the second spelling under the "kite" picture. Finish writing *sunlight*. (Check.)
3. **meatless** Number 3: **meatless**. He is a vegetarian; he eats **meatless** meals. Say *meatless*.
Base word? ■ If you're not sure how to spell *meat*, raise your hand. Question? (Students with raised hands: which /ē/?) Use the third spelling under the "tree" picture. Write *meat*.
Meatless. Suffix? ■ (Offer help.) Finish writing *meatless*. (Check.)
4. **paid** Number 4: **paid**. They **paid** for the tickets at the movie theater. Say *paid*.
If you're not sure how to spell *paid*, raise your hand. Question? (Students with raised hands: which /ā/?) Use the second spelling under the "cake" picture. Write *paid*. (Check.)
5. **goals** Number 5: **goals**. She set herself several **goals** for the school year. Say *goals*.
Base word? ■ If you're not sure how to spell *goal*, raise your hand. Question? (Students with raised hands: which /ō/?) Use the second spelling under the "bone" picture. Finish writing *goals*. (Check.)
6. **o'clock** Number 6: **o'clock**. At 12 **o'clock** the chime will strike twelve times. Say *o'clock*.
CONTRACTION *O'clock* is an unusual contraction of the words of *the clock*.
First write the first letter of the word *of*. ■ Then write an apostrophe. ■ Then write *clock*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. there Number 7: there. I placed the book over there near the window.
Say *there*.

FREQUENTLY MISPELLED WORD *There* is a frequently misspelled word.

Write *there*. (Check.)

8. weddings. Number 8: weddings. Many weddings have taken place in this park. Say *weddings*.

Write *weddings*. (Check.)

9. that'll Number 9: that'll. She hopes that'll be all she needs for the trip.
Say *that'll*.

Write *that'll*. (Check.)

10. twice Number 10: twice. The phone rang twice before he answered it.
Say *twice*.

Write *twice*. (Check.)

MEMORY STEPS Now we'll practice the memory steps for *twice*.

STEP 1 . . . Step 1 is *Read the word*. (Students: *twice*)

STEP 2 . . . Step 2 is *Underline any hard parts*.

STEP 3 . . . Step 3 is *Cover the word. Say and write the word by syllables. Check.* Everyone cover the word. Find the line under number 10. Write *twice*. ■ Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

► **Student Study**

Have the students turn to pages 8 and 9. If they missed a word on the test last week, they have put an S by it. Have them study the words that have S by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

Weekly Test

► Teacher Background

This week's spelling test consists of all 15 of the week's new words, 3 review words, and 2 application words. The application words assess the students' knowledge of the spelling concepts and are not announced in advance. Tell your students that numbers 1 and 2 are not words that they have memorized for the test, but the students can easily spell the words if they think about what they have learned.

Provide the students with paper for the spelling test.

If you are not differentiating spelling instruction, have all students write the first 20 words. If you are differentiating instruction, have the below-grade-level spellers write the first 13 words, the average spellers write the first 20 words, and the advanced spellers write all 22 words.

We recommend that you collect the tests and correct them yourself so that you can conduct an informal assessment of your class's progress. As you correct the tests, notice particularly the students' spelling of the application words, numbers 1 and 2. Note that students with numerous errors may not be ready for grade 5 spelling.

► Administer the Spelling Test

Hand out test paper. Have the students put their names at the top and number from 1 to 20.

The test words appear on the following page. Pronounce each word and use it in a sentence. You may use the sentences that are provided. Note that the students do not write the sentences.

Polysyllabic Spelling

► New Content

TEKS 2.A.xxiv

Student/Teacher Narrative

Polysyllabic Spelling section and Pronouncing Polysyllabic Words by Syllables section (all, beginning on page 75 and continuing on to page 77)

When writing a word that has more than one syllable, spell one syllable at a time.

The way we say a polysyllabic word does not always correspond to the way it is written. For example, the syllables in *puppy* sound like /pŭ-pĕ/ but they are written as *pup* and *py*.

► Teacher Background

Make a copy of the Week 4 homework (*Blackline Masters* page 5) for each student.

On Day 2 of this week, you will introduce the “dictionary and personal word list” (found on pages 174–181 in the *Student Spelling Book*). The students will use the dictionary and personal word list during writing and not during guided spelling.

On Day 3 of this week, you will introduce the “frequently misspelled words” list (found on pages 186–188 in the *Student Spelling Book*). The students may consult this list during writing and not during guided spelling.

This week the students will practice the memory steps individually after word number 10 on Days 2, 3, and 4. You have led the students through the memory steps several times, so they should be familiar enough with them to practice without your support.

One additional guiding point is introduced this week: when we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself, for example, *pa-per* and *pro-gram*.

The students will be introduced to four syllable constructions this week. A *closed syllable* contains a short vowel and ends with one or more consonants, for example, both syllables in *district*. An *open syllable* ends with one long vowel, such as *pī* in *pilot*. A *vowel-consonant-e syllable* includes a single vowel followed by

a consonant and **e**; this syllable type appears at the end of a base word, as in *complete*. In a *vowel team syllable*, the vowel sound is spelled with two letters, for example, **ee** in *between* and **ea** in *reason*.

Beginning on Day 5 of this week, the weekly test will include five application words. As on the tests of Weeks 2 and 3, numbers 1 and 2 on the test are words that the students can spell based on their knowledge of spelling concepts already covered. Numbers 3 through 5 are different forms of the base words studied this week. For example, in Week 4 the students will study *shadow*, *airplane*, and *intend*. Application words numbers 3 through 5 on the weekly test will be *shadows*, *airplanes*, and *intended*.

In the pre-spelling activities this week, you will model how to spell polysyllabic words by syllables.

An optional spelling activity for partners is provided each week in the *Blackline Masters* book. The activity for Week 4 can be found on page 45.

POLYSYLLABIC SPELLING

Beginning this week, you will guide the students in spelling polysyllabic words. We read and spell polysyllabic words by syllables (for example, *ham-mer*) and by morphemic, or structural, units (for example, *refillable*), not sound by sound. Many students need explicit instruction in polysyllabic spelling because they are used to spelling by sounds. In *Guided Spelling*, you support your students in polysyllabic spelling in several ways:

- In pre-spelling activities, you will model how to spell by syllables.
- When introducing the week’s new words, you will show your students where to mark the syllable boundaries, for example, between **n** and **f** in *con.flict*. Syllable boundaries are also called *syllable divisions*.
- In guided spelling, the students will say each word by syllables before writing.
- You will pronounce each word so that the students can hear the individual syllables clearly, for example, *be...came*, *plas...tic*. Be sure to pause between syllables so that the division will be clear. For more information see the next section, “Pronouncing Polysyllabic Words by Syllables.”
- The students will write the polysyllabic word one syllable at a time and pronounce each syllable before they write it.
- In the checking step of guided spelling, the students will read and spell each polysyllabic word by syllables.

PRONOUNCING POLYSYLLABIC WORDS BY SYLLABLES

Whenever the written syllables of a word are different from the spoken syllables, you'll say, "I'll say the syllables for spelling." Then you will see the word divided into syllables as in a dictionary. In other words, the word is divided into written syllables (for example, *hap-py*), not syllables as spoken in conversation (*hă-py*). The *Teacher's Manual* gives the syllables, but not the pronunciation.

How will you pronounce each syllable? There are two options:

- The first option is for the teacher to pronounce each syllable with the same vowel sound that the word has in typical conversational speech. For example, for *about* the teacher says ə-*bout*, for *collect* the teacher says cəl-*lect*, and for *second* the teacher says sēc-*ənd*. When a syllable is spelled differently from the way it sounds, the teacher offers help by saying, "If you're not sure how to spell this syllable, look up here," and then writing the syllable on the board for the students who are not confident enough to write it on their own.
- The second option is for the teacher to pronounce each syllable in an exaggerated way to give the students clues about spelling. For example, saying ā-*bout* lets the students know that the schwa in the first syllable is spelled **a**. This exaggeration will help many students remember that *about* begins with **a**. Saying *Wed-nes-day* helps students with the troublesome part of *Wednesday*. Examples of exaggerated pronunciation include: ĭm-mē-dī-āte, ā-gō, hŭn-drēd, tŭn-nēl, and hăb-ĭt.

This exaggeration approach is fairly common; teachers seem to do this by second nature when teaching spelling. We recommend the exaggeration option because of the mnemonic value to the students. Teachers with a background in phonics will be comfortable with this approach. If your exaggeration confuses English Language Learners about the correct pronunciation of the word, have the students say the word correctly one additional time after the checking process.

If you use exaggerated pronunciation, you will not need to offer as much help as is indicated in the lessons. For example, if you have said ā-*bout*, you will not need to offer help for the first syllable.

Week 4 Day 1

► Teacher Background

When you and the students pronounce words by syllables, there should be a pause between syllables to indicate the syllable boundary clearly. For example, say “buf...fa...lo,” not “buffallo.”

► Pre-spelling: Spelling by Syllables

TEKS 2.A.xxiv
Student/Teacher Narrative
Pre-spelling: Spelling by Syllables section
(expand, focus)

This week we'll begin spelling polysyllabic base words. Say “polysyllabic.” ■ *Polysyllabic* means with more than one syllable. We will spell every polysyllabic word by syllables. I will show you how.

expand *Expand. Water will expand as it becomes ice. First I say expand by syllables: ex-pand.*

Then I say and spell each syllable: ex-, **e-x**, -*pand*, **p-a-n-d**.

► Write *expand* on the board as you spell by syllables.

focus *Focus. Our focus today is spelling by syllables. First I say focus by syllables: fo-cus.*

The first syllable is *fo-*.

► Point to **o** under the “bone” picture on the spelling-sound chart.

When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself. In *focus* the first syllable is spelled **f-o**.

► Write *fo*.

The second syllable is *-cus*, **c-u-s**. *Focus*.

► Add *cus*.

► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 20 and follow along as you read the words and sentences.

I. intend *Number 1: intend. I intend to finish my homework before dinner. **Intend** has two syllables. I will tell you where each syllable begins and ends for spelling. That is, I will tell you the syllable*

boundaries. When we know the syllable boundaries, we spell more correctly. You will put a dot to show the boundary. Listen to me say *intend* by syllables: *in...tend*. Everyone put a dot after the first **n**.

► Write on the board: *in.tend*

2. **conflict** Number 2: **conflict**. The group considered how to resolve the conflict.

I will tell you the syllables for spelling: *con...flict*. Put a dot at the syllable boundary.

3. **twenty** Number 3: **twenty**. There were twenty books on the bookshelf.

Twen-ty. Put a dot at the syllable boundary.

► Point to **y** under the “tree” picture on the spelling-sound chart.

The sound /ē/ at the end of a polysyllabic word is usually spelled **y**.

The letter **y** at the end of a word is a vowel.

The first syllable, *twen-*, is called a *closed syllable*. A closed syllable has a short vowel and ends with one or more consonants.

4. **details** Number 4: **details**. Pay attention to the details of the directions.

De-tails. Put a dot at the syllable boundary. ■ The first syllable ends with a long **e** sound. When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself. The syllable *de-* is called an *open syllable*. An open syllable ends with one long vowel.

In the second syllable, underline **a-i**. The second syllable in *details* is called a *vowel team syllable*. The vowel sound is spelled with two letters, **a-i**.

5. **shadow** Number 5: **shadow**. The small mouse was hidden in the shadow of the plant.

Shad-ow. Put a dot at the syllable boundary. ■ Underline **o-w**.

In the vowel spelling **o-w**, the letter **w** acts as a vowel.

6. **extremely** Number 6: **extremely**. It was extremely hot today; it was over 100 degrees.

Ex-treme-ly. Put a dot at each syllable boundary. ■ In the second syllable, underline **e** and **e**. ■ The sound /ē/ at the end of a polysyllabic word is usually spelled **y**. The suffix *-ly* is very common.

7. deal Number 7: deal. She will deal the cards to each player.
Underline **e-a**.
8. low Number 8: low. They ran low on art supplies.
Underline **o-w**.
9. reach Number 9: reach. Can you reach to the top shelf?
Underline **e-a**.
10. laid Number 10: laid. She laid her head on the pillow and fell asleep.
Underline **a-i**.
11. tank Number 11: tank. He fills the gas tank regularly.
The end sounds like /angk/, but it's spelled **a-n-k**. Underline **n-k**.
12. hidden. Number 12: hidden. We found a baby lizard hidden in the garden.
Hid-den. Put a dot at the syllable boundary. ■ The base word is *hid*. The **d** was doubled and the suffix **e-n** was added.
13. steel Number 13: steel. The bridge was made of steel.
HOMOPHONE *Steel* is a homophone. It's not *steal* meaning *rob*.
It's the *steel* used to build strong buildings.
Underline **e-e**.
14. wide Number 14: wide. The door was wide open.
Underline **i** and **e**.
15. broad Number 15: broad. The road was flat and broad, with a lot of
space to ride.
Underline **o-a**.

NUMBERS 16–25 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- | | |
|---------------|---------------|
| 16. *airplane | 21. *rays |
| 17. *throw | 22. piece |
| 18. *goals | 23. unwrapped |
| 19. *twice | 24. we'd |
| 20. *cage | 25. paid |

► Guided Spelling

► Have your students turn to page 22.

1. conflict Number 1: conflict. The group considered how to resolve the conflict. Say *conflict*.

Before you write a polysyllabic word in guided spelling, you will pronounce the word by syllables. Say *conflict* by syllables. ■ First syllable? (Students: con-) Write *con-*.

Second syllable? (Students: -flict) Listen to the sounds: *flict*. Write *-flict*.

When we check a word with more than one syllable, you will read the word and then read and spell by syllables. Read the word. (Students: conflict) Read and spell by syllables as I write.

► At number 1, write *conflict* as the students read and spell. (Students: con-, c-o-n, -flict, f-l-i-c-t)

2. details Number 2: details. Pay attention to the details of the directions. Say *details*.

Base word? ■ Say *detail* by syllables. ■ First syllable? ■ When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself. Write *de-*.

Second syllable? ■ Question? (Students with raised hands: which /ā/?) Use the second spelling under the “cake” picture. Finish writing *details*. (Check.)

3. extremely Number 3: extremely. It was extremely hot today; it was over 100 degrees. Say *extremely*.

Base word? ■ Say *extreme* by syllables. ■ First syllable? ■ Write *ex-*.

Second syllable? ■ Question? (Students with raised hands: which /ē/?) Use the first spelling under the “tree” picture. Write *-treme*.

Extremely. Suffix? ■ Finish writing *extremely*. (Check.)

Point to the syllable *-treme* at the end of the base word *extreme*. It is called a *vowel-consonant-e syllable*. A vowel-consonant-e syllable includes a single vowel followed by a consonant and **e**.

4. deal Number 4: deal. She will deal the cards to each player. Say *deal*.

Question? (Students with raised hands: which /ē/?) Use the third spelling under the “tree” picture. Write *deal*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. intend. Number 5: intend. I intend to finish my homework before dinner.
Say *intend*.
Write *intend*. (Check.)
6. shadow. Number 6: shadow. The small mouse was hidden in the shadow
of the plant. Say *shadow*.
I will say the syllables in a way that will help you spell. *Shad-ow*.
Write *shadow*. (Check.)
7. twenty Number 7: twenty. There were twenty books on the bookshelf.
Say *twenty*.
Write *twenty*. (Check.)
8. low Number 8: low. They ran low on art supplies. Say *low*.
Write *low*. (Check.)

 **Introduce the Homework**

Hand out the Week 4 homework.

 **Record Words Missed**

Return the students' spelling tests from Week 3. Have them turn to pages 14 and 15 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The application words, numbers 1 and 2 on the test, are not on these pages.

► **Teacher Background**

Pronounce each polysyllabic word so that the students can hear the individual syllables clearly. Be sure that both you and the students pause between syllables so that the division will be clear, for example, *in...dex*, not *innndex*.

In this lesson, you will introduce the students to the dictionary and personal word list (found on *Student Spelling Book* pages 174–181). The dictionary and personal word list consists of the words on the weekly lists excluding challenge words. The dictionary and personal word list may be used by the students in their classroom writing if they need help to accurately spell words studied in spelling this year.

► **Pre-spelling: Spelling by Syllables**

In this lesson, we'll continue to spell polysyllabic base words. Say "polysyllabic." ■ What does *polysyllabic* mean?

impact *Impact. The impact of the crash damaged both cars. First I say impact by syllables: im-pact. Then I say and spell each syllable: im-, i-m, -pact, p-a-c-t.*

► Write *impact* on the board as you spell by syllables.

Both syllables in this word are closed syllables. A closed syllable has a short vowel and ends with one or more consonants.

crisis *Crisis. The fire outbreak was a crisis. Cri-sis. The first syllable is cri-*

► Point to **i** under the "kite" picture.

When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself. In *crisis* the first syllable is spelled **c-r-i**.

► Write *cri*.

The second syllable is *-sis*, **s-i-s**.

► Add *sis*.

Crisis. The syllable *cri-* is an open syllable. An open syllable ends with one long vowel.

► Guided Spelling

► Have your students turn to page 23.

1. index Number 1: index. She wears a ring on her index finger. Say *index*.

HISTORY The English word *index* comes from the Latin word *index*, which means *forefinger*. Our word *index* can also mean the list at the back of a book that tells us or points us to the page we need.

Say *index* by syllables. ■ First syllable? ■ Write *in-*.

Second syllable? ■ Careful. The end is spelled **x**. Write *-dex*. (Check.)

2. contrast Number 2: contrast. The house painter used a lighter color on the windows to contrast with the darker color of the walls. Say *contrast*.

Say *contrast* by syllables. ■ First syllable? ■ Write *con-*.

Second syllable? ■ Write *-trast*. (Check.)

3. steel. Number 3: steel. The bridge was made of steel. Say *steel*.

HOMOPHONE *Steel* is a homophone. It's not *steal* meaning *rob*. It's the *steel* used to build strong buildings.

Question? (Students with raised hands: which /ē/?) Use the second spelling under the "tree" picture. Write *steel*. (Check.)

In *steel*, **e-e** is a vowel team.

4. reach Number 4: reach. Can you reach to the top shelf? Say *reach*.

Question? (Students with raised hands: which /ē/?) Use the third spelling under the "tree" picture. Write *reach*. (Check.)

5. broad Number 5: broad. The road was flat and broad, with a lot of space to ride. Say *broad*.

Careful. The vowel sound is spelled **o-a**. Write *broad*. (Check.)

6. laid. Number 6: laid. She laid her head on the pillow and fell asleep. Say *laid*.

Question? (Students with raised hands: which /ā/?) Use the second spelling under the "cake" picture. Write *laid*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. tank Number 7: tank. He fills the gas tank regularly. Say *tank*.

Write *tank*. (Check.)

8. steal. Number 8: steal. The mouse may steal the cheese from the counter. Say *steal*.

HOMOPHONE *Steal* is a homophone. It's not the *steel* used to build auto frames. It's *steal* meaning *rob*.

Write *steal*. (Check.)

9. wide. Number 9: wide. The door was wide open. Say *wide*.

Write *wide*. (Check.)

In *wide*, **i-d-e** is a vowel-consonant-**e** spelling.

10. hidden. Number 10: hidden. We found a baby lizard hidden in the garden. Say *hidden*.

Write *hidden*. (Check.)

PARTNER STUDY Turn to your neighbor. Explain why you doubled **d**.

MEMORY STEPS Do the memory steps for *hidden*.

► Introduce the Dictionary and Personal Word List

Have the students turn to the dictionary and personal word list, beginning on page 174 of the *Student Spelling Book*. Explain how the students might use it during writing:

- As the students write, they may look up words that they have studied in spelling this year.
- Students may keep track of words they misspell in class writing. When they spell a word incorrectly, they find it on the list and write **S** in the space in front of the word. Remind the students that **S** means “I need to study this word.”
- Students may add words in the spaces below the words for each letter.

► Teacher Background

Pronounce each polysyllabic word so that the students can hear the individual syllables clearly. Be sure that both you and the students pause between syllables so that the division will be clear, for example, *in...tend...ed*, not *innntennnded*.

Remember to teach the lessons at a fairly quick pace; this will help sustain the students' effort and interest. Each day's lesson is intended to last about 15 minutes.

In this lesson, you will introduce the list of frequently misspelled words (found on pages 186 and 187 in the *Student Spelling Book*). The students may consult this list during their classroom writing.

► Pre-spelling: Spelling by Syllables

In this lesson, we'll continue to spell polysyllabic base words. Say "polysyllabic." ■ What does *polysyllabic* mean?

impressed. *Impressed. The story impressed her deeply. The base word is impress. First I say impress by syllables: im-press. Then I say and spell each syllable: im-, i-m, -press, p-r-e-s-s.*

► Write *impress* on the board as you spell by syllables. Point to *ss*.

I see two consonants at the end. I will not double. *Impressed.*

► Add *ed*.

tidy *Tidy. First I say tidy by syllables: ti-dy. The first syllable is ti-*

► Point to *i* under the "kite" picture.

When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself. In *tidy* the first syllable is spelled *t-i*.

► Write *ti* on the board.

The next syllable is *-dy*. When we hear the sound /ē/ at the end of a word with more than one syllable, we usually spell it *y*.

► Add *dy*.

Tidy. The syllable ti- is an open syllable. An open syllable ends with one long vowel.

► Guided Spelling

► Have your students turn to page 24.

1. intended Number 1: intended. He intended to finish the book, but he was interrupted. Say *intended*.
Base word? ■ Say *intend* by syllables. ■ First syllable? ■ Write *in-*.
Second syllable? ■ Write *-tend*.
Intended. The base word ends with two consonants. Just add **e-d**. (Check.)
2. contest Number 2: contest. There was a jumping frog contest at the county fair. Say *contest*.
Say *contest* by syllables. ■ First syllable? ■ Write *con-*.
Second syllable? ■ Write *-test*. (Check.)
Both syllables in *contest* are closed syllables. A closed syllable has a short vowel and ends with one or more consonants.
3. loan Number 3: loan. This book is on loan from the library. Say *loan*.
HOMOPHONE *Loan* is a homophone. It's not *lone* meaning *just one*. It's *loan* meaning *something borrowed*.
Question? (Students with raised hands: which /ō/?) Use the second spelling under the "bone" picture. Write *loan*. (Check.)
4. twenty Number 4: twenty. He needed twenty cents for the parking meter. Say *twenty*.
Say *twenty* by syllables. ■ First syllable? ■ Write *twen-*.
Second syllable? ■ Finish writing *twenty*. (Check.)
5. tank Number 5: tank. The fish tank needs cleaning. Say *tank*.
HISTORY The word *tank*, meaning a *container for storing liquid*, came to English from the Gujarati language in India. In India the word meant a *pond*.
► Point to India on a map.
Careful. The end sounds like /angk/, but it's spelled **a-n-k**. Write *tank*. (Check.)
6. shadow Number 6: shadow. In the late afternoon, my shadow is long. Say *shadow*.
Say *shadow* by syllables. ■ I will often say the syllables in a way that will help you spell. *Shad-ow*. Repeat the syllables. (Students: shad-ow) First syllable? (Students: shad-) Write *shad-*.

Second syllable? (Students: -ow) It's spelled **o-w**. Write -ow. (Check.)

In the vowel spelling **o-w**, the letter **w** acts as a vowel.

The second syllable in *shadow* is a vowel team syllable. The vowel sound is spelled with two letters, **o-w**.

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. reached. Number 7: reached. After several hours on the train, they reached their destination. Say *reached*.

Write *reached*. (Check.)

8. broad. Number 8: broad. The swimmer has broad shoulders. Say *broad*.

Write *broad*. (Check.)

9. deal Number 9: deal. They've learned a great deal about reptiles. Say *deal*.

Write *deal*. (Check.)

10. steel. Number 10: steel. The truck frame was made of steel. Say *steel*.

Write *steel*. (Check.)

PARTNER STUDY Turn to your neighbor. Take turns spelling one of the homophones *steel* or *steal*. Then explain to your partner the meaning of the word you spelled.

MEMORY STEPS Do the memory steps for number 10, *steel*.

► Introduce the Frequently Misspelled Words List

Have the students turn to the list of frequently misspelled words on pages 186 and 187 of the *Student Spelling Book*. Tell the students that these words are frequently missed in writing. If they have a hard time remembering the spelling of a common word, the word may be on this list. You may want to have them mark the page with a self-stick note for easy reference.

► **Teacher Background**

Pronounce each polysyllabic word so that the students can hear the individual syllables clearly. Be sure that both you and the students pause between syllables so that the division will be clear, for example, *pun...ish*, not *punnnish*.

► **Pre-spelling: Spelling by Syllables**

In this lesson, we'll continue to spell polysyllabic base words. Say "polysyllabic." ■ What does *polysyllabic* mean?

suspected *Suspected. The detective suspected that a crime had been committed. The base word is suspect. First I say suspect by syllables: sus-pect. Then I say and spell each syllable: sus-, s-u-s, -pect, p-e-c-t.*

- Write *suspect* on the board as you spell by syllables. Point to **ct**.
- I see two consonants at the end. I will not double. *Suspected.*
- Add *ed*.

gravy *Gravy. First I say gravy by syllables: gra-vy. The first syllable is gra-*

- Point to **a** under the "cake" picture.
- When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself.
- Write *gra* on the board.
- The next syllable is *-vy*. When we hear the sound /ē/ at the end of a word with more than one syllable, we usually spell it **y**.
- Add *vy*.
- Gravy.* The syllable *gra-* is an open syllable. An open syllable ends with one long vowel.

► **Guided Spelling**

- Have your students turn to page 25.

I. extremely *Number I: extremely. It was extremely cold this morning. Say extremely.*

Base word? ■ Say *extreme* by syllables. ■ First syllable? ■ Write ex-
Second syllable? ■ Question? (Students with raised hands: which /ē/?)
Use the first spelling under the “tree” picture. Write *-treme*.
Extremely. Suffix? ■ Finish writing *extremely*. (Check.)

The first syllable *ex-* is a closed syllable. A closed syllable has a short vowel and ends with one or more consonants.

The second syllable, *-treme*, is a vowel-consonant-*e* syllable. A vowel-consonant-*e* syllable includes a single vowel followed by a consonant and *e*.

2. hidden Number 2: hidden. They had hidden the key under the doormat. Say *hidden*.

Base word? ■ Write *hid*.

Hidden. What do you have to decide? (Students: Do we double?) Does *hid* have one vowel? (Students: yes) One consonant after the vowel? (Students: yes) *Hidden*. The suffix is spelled **e-n**. Will you double the last consonant of *hid*? (Students: yes) Finish writing *hidden*. (Check.)

3. low Number 3: low. The groups spoke in low voices. Say *low*.
The vowel sound is spelled **o-w**. Write *low*. (Check.)

4. cheap Number 4: cheap. These shoes were on sale; they were very cheap. Say *cheap*.

HOMOPHONE *Cheap* is a homophone. It’s not *cheep* meaning the sound of a bird. It’s *cheap* meaning not expensive.

Question? (Students with raised hands: which /ē/?) Use the third spelling under the “tree” picture. Write *cheap*. (Check.)

5. laid Number 5: laid. She laid the baby in the crib. Say *laid*.

Question? (Students with raised hands: which /ā/?) Use the second spelling under the “cake” picture. Write *laid*. (Check.)

6. ourselves Number 6: ourselves. We do all of the gardening ourselves. Say *ourselves*.

FREQUENTLY MISSPELLED WORD *Ourselves* is a frequently misspelled word.

Ourselves is a compound word. First you’ll write *our*. (Offer help.) Write *our*. Next you’ll add *selves*. Careful. The end is spelled **v-e-s**. Finish writing *ourselves*. (Check.)

The first syllable in *ourselves* is a vowel team syllable. The vowel sound is spelled with two letters, **o-u**.

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. **conflict** Number 7: **conflict**. I want to avoid conflict with my sister; I don't want to argue with her. Say *conflict*.
Write *conflict*. (Check.)
8. **wide**. Number 8: **wide**. It was a beautiful day, so we left the windows wide open. Say *wide*.
Write *wide*. (Check.)
9. **punish**. Number 9: **punish**. The judge will punish lawbreakers. Say *punish*.
I'll say the syllables for spelling: *pun-ish*. Write *punish*. (Check.)
10. **details**. Number 10: **details**. The news did not provide details of the accident. Say *details*.
I'll say the syllables for spelling: *de-tails*. Write *details*. (Check.)
- PARTNER STUDY Turn to your neighbor. Explain why you wrote **e** at the end of the first syllable.
- MEMORY STEPS Do the memory steps for *details*.

► **Student Study**

Have the students turn to pages 14 and 15. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

Weekly Test

Beginning on Day 5 of this week, the weekly test will include five application words. As on the tests of Weeks 2 and 3, numbers 1 and 2 on the test are words that the students can spell based on their knowledge of spelling concepts already covered. Numbers 3 through 5 are different forms of base words studied this week. For example, this week the students studied *shadow*, *airplane*, and *intend*. Application words numbers 3 through 5 on the weekly test are *shadows*, *airplanes*, and *intended*.

Provide the students with paper for the spelling test.

If you are not differentiating spelling instruction, have all the students write the first 20 words. If you are differentiating instruction, have the below-grade-level spellers write the first 13 words, the average spellers write the first 20 words, and the advanced spellers write all 22 words.

We recommend that you collect the tests and correct them yourself so that you can conduct an informal assessment of your class's progress. As you correct the tests, notice particularly the students' spelling of application words numbers 1 and 2. Note that students with numerous errors may not be ready for grade 5 spelling.

► Administer the Spelling Test

Hand out test paper. Have the students put their names at the top and number from 1 to 20.

The test words appear on the following page. Pronounce each word and use it in a sentence. You may use the sentences that are provided. Note that the students do not write the sentences.

ALL STUDENTS

1. hotter Lava from volcanoes is hotter than we can imagine. (application word)
2. spray Can you feel the spray from the waterfall? (application word)
3. shadows Our shadows are long on winter mornings. (application word)
4. airplanes The airplanes landed one by one. (application word)
5. intended My comment was intended as a compliment. (application word)
6. throw She will throw out the first ball of the game.
7. extremely The water in the reservoir is extremely high this year.
8. low Temperatures have been low this week.
9. conflict His outspoken views sometimes result in conflict with others.
10. details The detective checked all the details of the crime scene.
11. twice I've already asked him twice.
12. deal When a high-quality bicycle is inexpensive, it's a good deal.
13. twenty There were twenty backpacks lined up in the front of the classroom.

AVERAGE AND ADVANCED SPELLERS CONTINUE

14. steel The bridge is made of steel.
15. reach We won't reach the campsite until late afternoon.
16. wide The road is wide enough for bikes and cars.
17. tank The farm built a water tank on the hill near the farmhouse.
18. broad He flashed a broad grin at us.
19. laid She laid the tray down on the table.
20. hidden The kitten was hidden in the laundry basket.

ADVANCED SPELLERS CONTINUE

21. acre The house sits on an acre of land.
22. ruin They let the house fall into ruin.

Syllables with Schwas

► New Content

A schwa is the sound of unaccented short **u**.

Many syllables in English words contain schwas. Schwas can be spelled in many ways, for example, **o** as in *collect*, **a** as in *ago*, **i**–**e** as in *promise*, and **e** as in *moment*.

► Teacher Background

Make a copy of the Week 5 homework (*Blackline Masters* page 6) for each student.

Schwas are particularly troublesome in English spelling. Many words contain schwas, and schwas have many different spellings. Syllables pronounced with schwas in some regional dialects are not pronounced with schwas in other regional dialects. In the *Guided Spelling* program, you will help your students recognize schwas by telling them which syllables have schwas. You will help them spell words with schwas either by writing the correct spelling on the board or overhead or through exaggerated pronunciation. The section “Pronouncing Polysyllabic Words by Syllables” under “Teacher Background” in Week 4 (page 77) explains the two alternatives for guiding.

A schwa sound is designated by this symbol: /ə/.

Schwas are not the only unaccented vowels in English. Many unaccented vowels sound like /i/ as in *return* and *climate*. Dictionaries show the pronunciation of some unaccented syllables with no vowel, for example, /butn/ for *button* and /mountn/ for *mountain*. In guided spelling, you will offer help to the students for unaccented vowels.

If your students are surprised when you tell them that particular syllables do or do not have a schwa, remind them that regional pronunciations vary. Furthermore, dictionaries do not always concur on how a particular word is correctly pronounced.

In the checking step, the students will read and spell each word by syllables. For some words, the pronunciation by syllables is quite different from the pronunciation of the whole word. You may want to have your students pronounce the whole word again at the end of the checking step. This may benefit the English Language Learners (ELLs) in particular. The reminder to have the students pronounce the whole word again is included in Week 5.

Two additional guiding points are introduced this week: the sound /s/ is often spelled **c** before **e**, **i**, and **y**, as in *cent*, *city*, and *fancy*; the sound /k/ at the end of a syllable is usually spelled **c**, as in *picnic*.

In the pre-spelling activities this week, the students will practice listening for schwas in words.

► Words Used This Week

NEW WORDS	*promise, *buffalo, *kitchen, *immediately, *magnet, *opposite, *succeed, *cotton, depth, slept, shopping, bowl, advice, roll, value
REVIEW WORDS	*twenty, *extremely, *details, *conflict, *low, *shadow, wide, hidden, tank, steel
CHALLENGE WORDS	button, honesty, rocket, palm, elephant
APPLICATION WORDS ON THE TEST	public, stacked, detail, succeeding, magnets
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	compass, dragon, tunnel, magnets, depths, horizon, explains, succeeded, blankets, rolls, bowls, let's, insect
FREQUENTLY MISPELLED WORDS	let's

► **Pre-spelling: Hearing Schwas**

► Write on the board: pilot around promise

When we speak English words, many syllables have the vowel sound /ə/. The sound /ə/ is called a *schwa*. Say “schwa.” ■ Schwas can be a challenge in spelling because they can be spelled in many ways.

pilot ► Point to **o** in *pilot*.

When we say *pilot*, we say the second syllable as /lət/. The vowel sound is a schwa. This schwa is spelled **o**.

around ► Point to **a** in *around*.

When we say *around*, we say the first syllable as /ə/. The vowel sound is a schwa. This schwa is spelled **a**.

promise ► Point to **i** and **e** in *promise*.

When we say *promise*, we say the second syllable as /əs/. The vowel sound is a schwa. This schwa is spelled **i-blank-e**.

► **Introduce This Week’s Words**

► Have your students open their *Student Spelling Books* to page 26 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. promise Number 1: promise. If I promise to do something, I will do it.

I will tell you the syllables for spelling. You mark the syllable boundaries. *Prom-ise*. Put a dot after **m**. ■ The second syllable has a schwa. Underline **i** and **e**.

2. buffalo Number 2: buffalo. The American buffalo is a large, hairy mammal.

Buf-fa-lo. ■ The second syllable has a schwa. Underline **a**. Underline **o**.

3. kitchen Number 3: kitchen. They cooked and ate their meals in the kitchen.
Kitch-en. ■ Underline **t-c-h**. ■ The second syllable has a schwa. Underline **e**.
4. immediately Number 4: immediately. I was so hungry that I ate immediately.
Im-me-di-ate-ly. ■ The second syllable is *-me-*. When we hear a long vowel sound at the end of a syllable, it is usually spelled with the long vowel letter itself. In the third syllable, underline **i**. The fourth syllable has a schwa. Underline **a** and **e**.
5. magnet Number 5: magnet. The magnet kept the photo on the refrigerator.
Mag-net. ■ The second syllable has a schwa. Underline **e**.
6. opposite Number 6: opposite. The opposite of “enormous” is “tiny.”
Op-po-site. ■ The second syllable has a schwa. In the second syllable, underline **o**. ■ In the third syllable, underline **i** and **e**. Underline **s**.
7. succeed Number 7: succeed. He will try hard to succeed.
Suc-ceed. ■ The first syllable has a schwa. Underline **u**. Look at the second syllable. Sometimes the sound /s/ before **e**, **i**, and **y** is spelled **c**. In the second syllable, underline **c**. Underline **e-e**.
8. cotton Number 8: cotton. Her shirt and pants are made out of cotton.
Cot-ton. ■ In the second syllable, underline **o**.
9. depth Number 9: depth. The scientists will measure the depth of the lake.
10. slept Number 10: slept. My dog always slept on my bed.
11. shopping Number 11: shopping. We went shopping for groceries.
Shop-ping. ■ The base word is *shop*. The **p** was doubled and the suffix *-ing* was added.
12. bowl Number 12: bowl. She poured her cereal into the bowl.
Underline **o-w**.
13. advice Number 13: advice. The teacher gave good advice about how to study.
Ad-vice. ■ The first syllable has a schwa. Underline **a**. Underline **i** and **e**. Underline **c**.

14. roll Number 14: roll. He will roll up his sleeping bag.

Review of Weeks 1, 2, 3, and 4

► Teacher Background

Duplicate the three homework pages for this week (*Blackline Masters* pages 7–9).

On Day 1, you will give a pretest. The students will correct the pretests in class as you read the answers. The students will note which words they need to study.

The Day 2 lesson introduces proofreading practice. The students will work with partners to find spelling errors in sentences.

On Day 3, the students will study for the review test with partners.

The Day 4 lesson includes a class discussion on how to study spelling words for a test.

On Day 5, you will give the review test.

If you are differentiating instruction, speak privately with each below-grade-level speller: they will study just the starred words on *Student Spelling Book* pages 32 and 33. Have the average spellers study all the words on pages 32 and 33 except the challenge words. Have the advanced spellers study all words, including the challenge words.

In the pre-spelling activities this week, which begin on Day 2, you will model dropping final *e* before a suffix that begins with a vowel.

► Words Used This Week

REVIEW WORDS

*skin, *pledge, *trunk, *knock, *switches, couldn't, twelve, you're, know, sense, *swimmer, *fixing, *muddy, *printed, *skidded, thought, whole, they've, which, who's, *preflight, *cage, *goals, *meatless, *twice, o'clock, that'll, paid, their, unwrapped, *intend, *deal, *details, *extremely, *shadow, laid, reach, steel, broad, hidden

REVIEW CHALLENGE WORDS

flatten, bushes, strength, trimming, jogging, glow, faith, squeeze, throne, beard, ruin, museum, countryside, acre, poetry

APPLICATION WORDS ON THE TEST

skinned, jogger, skidding, fixed, switched

Pretest

► Administer the Pretest

Have your students turn to page 34 in their *Student Spelling Books*. Explain that this week they will review ten words each from Weeks 1 through 4. The pretest in this lesson will help them identify words they especially need to study.

- | | |
|---------------|--|
| 1. goals | The player scored two goals in the soccer game. |
| 2. couldn't | I'm sorry I couldn't come to your party. |
| 3. shadow | In the late afternoon, the house casts a shadow over the garden. |
| 4. steel | The skyscraper was made of steel and glass. |
| 5. cage | The parrot talked and squawked in its cage. |
| 6. whole | The whole soccer field was soaked. |
| 7. their | Their house was the smallest one on the block. |
| 8. muddy | "Don't walk on the rug with your muddy shoes!" my mother exclaimed. |
| 9. pledge | My neighbor said he would pledge ten cents per mile in the school walkathon. |
| 10. paid | Everyone paid admission before entering. |
| 11. trunk | Before she went to camp, my sister packed clothes in her trunk. |

| 13. extremely | On extremely hot days, the temperature can reach 100 degrees or more. |
| 14. broad | The ship's deck was long and broad. |
| 15. fixing | The plumber had trouble fixing the sink. |

► Correct the Pretest

Read and spell the 15 words out loud. For each word, have the students point under each letter of their word as you spell. If any students did not spell a word correctly, have them draw a line through each word they missed.

▶ **Record Words Missed on the Pretest**

Have the students turn back to pages 32 and 33. These are the words that will be reviewed this week. If they missed any words on the pretest, have them find the words here and write **S** in front of each one. These are the words that they especially need to study.

▶ **Introduce the Homework**

Hand out the homework for Week 6. There are three pages of homework this week. The students will practice every review word.

▶ **Record Words Missed on Last Week's Test**

Return the students' spelling tests from Week 5. Have them turn to pages 26 and 27 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, or 5, have them mark the form of the word that appears in their book. For example, if they missed number 3, *detail*, have them write **S** next to *details*.

Proofreading

► Teacher Background

The activity in this lesson develops proofreading skills. The students will work with partners to find the misspelled words and then write them correctly in their *Student Spelling Books*. There are one, two, three, or no words misspelled in each sentence.

In the pre-spelling activity this week, you will model dropping **e** to prepare the students for learning the drop **e** generalization in Week 7.

► Pre-spelling: Suffixes on Consonant-e Words

TEKS 2.A.iv
 TEKS 2.A.xviii

 TEKS 2.B.xv
 Student/Teacher Narrative
 Pre-spelling section
 (gliding, shiny)

gliding I will write *gliding*. *The skaters were gliding on the ice.* The base word is *glide*.

- Write on the board: glide + ing
- Point to **de**.

The base word ends with consonant-**e**. The suffix begins with a vowel. I will drop **e** and then add **i-n-g**. *Gliding*.

- Finish writing *gliding*.

shiny I will write *shiny*. *I found a shiny new dime.* The base word is *shine*.

- Write on the board: shine + y
- Point to **ne**.

The base word ends with consonant-**e**. The suffix is **y**. The suffix begins with a vowel. I will drop **e** and then add **y**. *Shiny*.

- Finish writing *shiny*.

► Partner Proofreading

Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three.

Have your students open their books to page 35. The sentences on this page include many words that the students have studied, but some of them are misspelled. Have the students read the sentences with their partners and look for the misspelled words. Then have the students work individually to draw a line through each misspelled word and write the correct word above it. There may be a sentence with all words correct.

As the students work, monitor and assist those who need extra support in proofreading.

► Correct Sentences Together

► Read each sentence. Have the students tell you each word that is misspelled and how to spell it correctly. Write the correct word on the board. If the students made a mistake, have them draw a line through the incorrect word.

1. The car skidded twice on Green Road, which was extremely muddy that day. Misspelled words?

► Write *which* and *extremely* on the board as the students read and spell the words.

2. At twelfe oclock sharp there was a loud knock at the door. Misspelled words?

► Write *twelve* and *o'clock* on the board as the students read and spell the words.

3. The swimer intended to reech his training goles by September. Misspelled words?

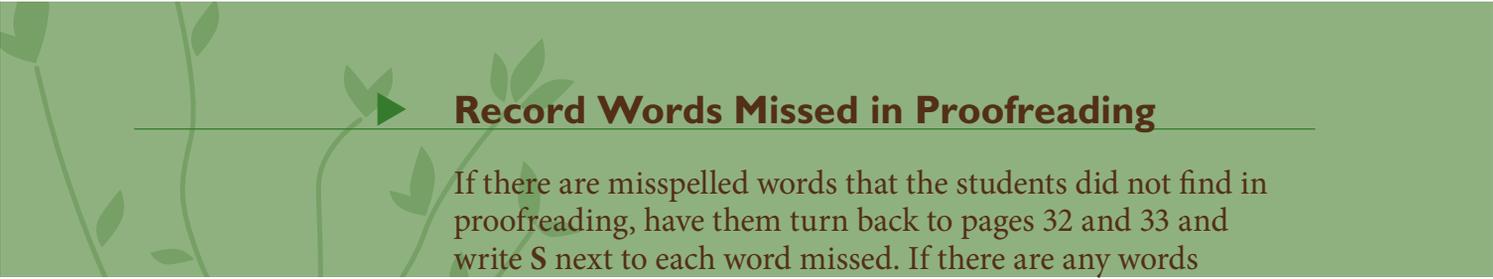

► Write *swimmer*, *reach*, and *goals* on the board as the students read and spell the words.

4. Whose unwrapped the present that was hiden so carefully? Misspelled words?

► Write *Who's* and *hidden* on the board as the students read and spell the words.

5. I know your adding more detales to your paragraph. Misspelled words?

► Write *you're* and *details* on the board as the students read and spell the words.

Record Words Missed in Proofreading

If there are misspelled words that the students did not find in proofreading, have them turn back to pages 32 and 33 and write **S** next to each word missed. If there are any words that they did not write correctly, have them write **S** next to those words on pages 32 and 33. These are words the students especially need to study.

Partner Study

► Teacher Background

During partner study time, the students will study for the review test with a partner. Have the students work with their partners from Day 2. First model the study procedure with a partner. Then have a few pairs model the procedure for the class. As the partners study, circulate and help pairs as needed.

► Pre-spelling: Suffixes on Consonant-e Words

I will show you when to drop **e**. If the base word ends with consonant-**e** and the suffix begins with a vowel, we drop **e**.

hiding. I will write *hiding*. My brother is *hiding*. The base word is *hide*.

► Write on the board: hide + ing

► Point to **de**.

The base word ends with consonant-**e**. The suffix *-ing* begins with a vowel. I will drop **e** and then add **i-n-g**. *Hiding*.

► Finish writing *hiding*.

baker. *Baker*. The baker kneaded the dough. The base word is *bake*.

► Write on the board: bake + er

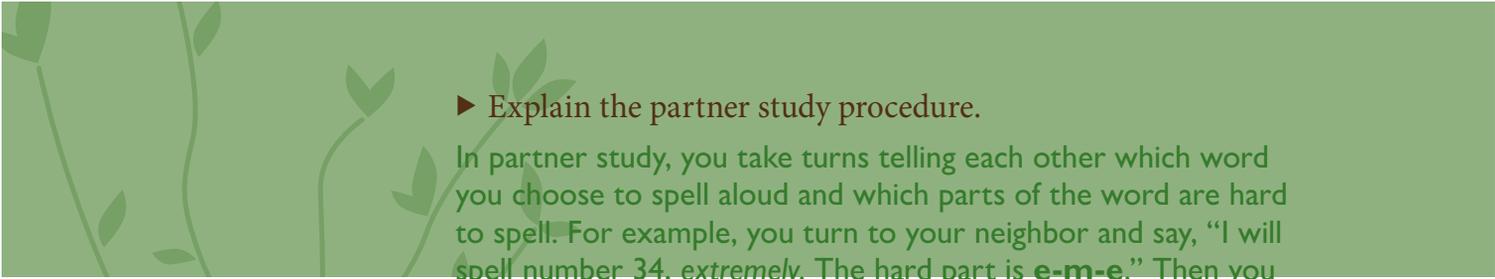

► Point to **ke**.

The base word ends with consonant-**e**. The suffix *-er* begins with the vowel **e**. I will drop **e** and then add **e-r**. *Baker*.

► Finish writing *baker*.

► Partner Study

► Have your students open their spelling books to pages 32 and 33. Explain that they will study this week's words with a partner to review the words and practice identifying and explaining the hard parts of each word.

► Explain the partner study procedure.

In partner study, you take turns telling each other which word you choose to spell aloud and which parts of the word are hard to spell. For example, you turn to your neighbor and say, “I will spell number 34, *extremely*. The hard part is **e-m-e**.” Then you cover the word and spell it aloud as your partner checks. If you make a mistake, both of you cover the word and spell it together. Then you write **S** in front of the word to remind you to study it.

► Model the procedure with a partner. Have the students practice if necessary.

► Circulate as partners work, observing the students and helping them as necessary to study the words together. Encourage the students to choose words that are hard for them.

Spelling Discussion

► Teacher Background

The purpose of today's spelling discussion is to exchange ideas about ways to memorize spelling words. Hearing other students' strategies will enrich each student's approach to studying.

► Pre-spelling: Suffixes on Consonant-e Words

I will show you when to drop **e**. If the base word ends with consonant-**e** and the suffix begins with a vowel, we drop **e**.

noisy I will write *noisy*. *One group was very noisy*. The base word is *noise*.

- Write on the board: noise + y
- Point to **se**.

The base word ends with consonant-**e**. The suffix begins with a vowel. I will drop **e** and then add **y**. *Noisy*.

- Finish writing *noisy*.

endurance *Endurance*. *Marathon runners have exceptional endurance*. The base word is *endure*.

- Write on the board: endure + ance
- Point to **re**.

The base word ends with consonant-**e**. The suffix **-ance** begins with the vowel **a**. I will drop **e** and then add **a-n-c-e**. *Endurance*.

- Finish writing *endurance*.

► Spelling Discussion

Turn to pages 32 and 33 in your spelling books. These are the words you are studying for the review test this week. There are many ways to learn words for a spelling test. What are some ways you might memorize specific words on this list?

Students might say:

“Some of the words are contractions. I could think about which words the contraction stands for. For example *who’s* stands for *who is* and *who has*.”

“I could say words by syllables and think how each syllable is spelled, for example, *shad-ow* and *de-tails*.”

“I could remember the doubling generalization.”

“I could think about the parts that are unusual, for example, *knock* starts with **k-n** and *broad* has **o-a**.”

“I could think which homophone the word is, for example *you’re* or *your*, *whole* or *hole*.”

“I could visualize the word in my mind.”

“I could say the hard parts over and over to myself.”

► If the students have difficulty sharing ideas, share one or two of the ideas listed above and then ask them to think of additional ways they might memorize the words on the list.

► Partner Study

If time permits, have the students study the review words on pages 32 and 33 with their partners, as on Day 3 of this week. This is a brief activity of 1 or 2 minutes.

▶ Ongoing Assessment of Spelling Progress

Take some time to assess the progress of your students.

Were there many errors on the regular short vowels? If so, reteach pre-spelling from Week 1 and the first daily pre-spelling activity from Week 3. These will reinforce the students' knowledge of the names and sounds of the short vowels as well as how to use the spelling-sound chart. Short vowels are very important in both single-syllable and polysyllabic spelling.

Were there many errors on memory parts of words? The memory parts are the letter sequences that must be memorized because they can't be figured out using phonics knowledge. Examples are the underlined letters in the following words: *reach*, *thought*, and *extremely*. If the students are making errors on the memory parts, discuss the importance of spelling homework. Be sure the students and parents understand the homework instructions and the importance of using the three memory steps.

If you have been differentiating instruction, are your below-grade-level, average, and advanced spellers correctly designated? Consider the students' performance on all spelling tests to date. If some students have consistently made several errors on the tests, consider having them memorize fewer words each week. If average spellers have made no errors on the tests, they may be able to learn the challenge words each week. Consider student effort as well as performance, however. Some students with perfect tests may have studied intensely and would find it difficult to memorize additional words.

Do your students need encouragement to transfer their knowledge from *Guided Spelling* lessons to their writing? When they ask how to spell a word during writing, have them ask about the *parts* of the word they're not sure of. Provide the guiding and assistance that you would provide during a *Guided Spelling* lesson.

Drop e Generalization

► New Content

If the base word ends with consonant-**e** and the suffix begins with a vowel, then we drop the final **e** of the base word before adding the suffix, as in *tamed*, *closing*, *wider*, *sensor*, *scaly*, and *lovable*.

► Teacher Background

Make a copy of the Week 7 homework (*Blackline Masters* page 10) for each student.

To help the students understand this week's generalization for dropping **e**, you will have them write first the base word, then the suffix, and then the whole word for three items each day this week. These items in the *Student Spelling Book* look like this:

_____ + _____ = _____

In words like *requiring* and *trader*, the **e** at the end of the base word has been dropped before the suffix beginning with a vowel. Dictionaries generally syllabicate such words as *re-quir-ing* and *trad-er*. Pronounce these words with a long vowel in the syllable preceding the suffix: *re-quir-ing* and *trād-er*.

Words that end with **ce** or **ge** are exceptions to the drop **e** generalization when the suffix begins with **a** or **o**. We keep **e** so that **c** and **g** will retain their soft sounds, as in *rechargeable* and *courageous*.

If a word ends with consonant-**e** and the suffix begins with a consonant, we do not drop final **e**, as in *wakes*, *careful*, *closeness*, and *senseless*. One exception is *wholly*. *Judgment* and *acknowledgment* are preferred, but *judgement* and *acknowledgement* are acceptable.

The *-ly* form of words that end with consonant-**l-e** is consonant-**l-y**, as in *possibly*, *terribly*, and *wiggly*. In the *Guided Spelling* program, such words are taught phonemically

(i.e., by sound) rather than morphemically (i.e., base word plus suffix).

Several final-*e* words with suffixes are correct with or without *e*: *mileage/milage*, *likable/likeable*, *lovable/loveable*, *movable/moveable*, and *usable/useable*.

Your students may ask about suffixes on base words that end with vowel-vowel, such as *continued*, *arguing*, *argument*, *truly*, *agreed*, and *agreement*. The generalizations covering these words are complex. Advise your students to consult the dictionary when spelling these words.

Three additional guiding points are introduced this week: sound /z/ after a long vowel is spelled **z** or **s**, as in *blaze* and *wise*; sound /k/ after a long vowel is spelled **k**, as in *smoke*; when we hear a long vowel followed by a consonant sound in the last syllable of a polysyllabic word, the syllable usually ends with vowel-consonant-*e*, as in *refuse* and *suppose*.

Beginning this week, the lessons will no longer include the instruction to have the class repeat the word at the end of guiding for the special benefit of ELLs. However, if it helps your students to pronounce the word this additional time, continue to include the step.

In the pre-spelling activities, which begin on Day 2 of this week, you will model ways for the students to memorize the spelling of words.

► Words Used This Week

NEW WORDS	*requiring, *smoky, *preparing, *trader, *broken, *wisest, *supposed to, *refusing, topic, swimming, upstairs, attach, palace, glance, fence
REVIEW WORDS	*opposite, *buffalo, *cotton, *immediately, *promise, slept, depth, bowl, shopping, value
CHALLENGE WORDS	meanwhile, holiday, excused, amazing, confusing
APPLICATION WORDS ON THE TEST	context, insist, smoking, refused, required
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	decorator, contributing, engaged, palaces, amazing, recommend, investigating, envelopes, coming, glanced
FREQUENTLY MISPELLED WORDS	coming

► **Introduce This Week's Words**

► Have your students open their *Student Spelling Books* to page 36 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. requiring Number 1: requiring. The teacher will be requiring us to do daily homework.
I'll tell you the syllables for spelling. You mark the syllable boundaries. *Re-quir-ing*. The second syllable boundary is after the second **r**. ■ The base word is *require*. The suffix *-ing* begins with a vowel. The final **e** in *require* was dropped and **i-n-g** was added to make *requiring*. Underline the first **e**.
2. smoky Number 2: smoky. The air was smoky after the brush fire.
Smok-y. The syllable boundary is after **k**. ■ The base word is *smoke*. The suffix *-y* begins with a vowel. The **e** in the base word was dropped and **y** was added. Underline **o**.
3. preparing Number 3: preparing. She is preparing for the test by studying.
Pre-par-ing. The second syllable boundary is after the second **r**. ■ The base word is *prepare*. The suffix *-ing* begins with a vowel. The final **e** in *prepare* was dropped and **i-n-g** was added to make *preparing*. Underline the first **e**.
4. trader Number 4: trader. A North American fur trader would travel great distances by canoe.
Trad-er. ■ The base word is *trade*. The suffix *-er* begins with the vowel **e**. The **e** of the base word was dropped and **e-r** was added. Underline **a**.
5. broken Number 5: broken. The leg on the chair is broken.
Bro-ken. ■ The base word is *broke*. The suffix *-en* begins with the vowel **e**. The **e** of the base word was dropped and **e-n** was added. Underline **o**.

6. wisest. Number 6: wisest. The owl is sometimes considered the wisest of birds.
Wis-est. ■ The base word is *wise*. The suffix *-est* begins with the vowel **e**. The **e** of the base word was dropped and **e-s-t** was added. Underline **i**. Underline **s**.
7. supposed to. Number 7: supposed to. We are supposed to brush our teeth at least twice a day.
Sup-posed to. ■ The base word of *supposed* is *suppose*. The suffix **e-d** begins with a vowel. The **e** of *suppose* was dropped and **e-d** was added. Underline **o**. Underline **s**. ■ The expression *supposed to* is two words. Underline the space between the two words.
8. refusing. Number 8: refusing. My dog was refusing to sit for a treat.
Re-fus-ing. ■ The base word is *refuse*. The suffix *-ing* begins with a vowel. The final **e** of *refuse* was dropped and *-ing* was added to make *refusing*. Underline **e**. Underline **s**.
9. topic Number 9: topic. The geography topic for this week is the mountain ranges of the western United States.
Top-ic. ■ Underline **i**.
10. swimming Number 10: swimming. He will be doing a lot of swimming in this hot weather.
Swim-ming. ■ The base word is *swim*. The **m** was doubled and then the suffix *-ing* was added.
11. upstairs Number 11: upstairs. The bedrooms of this house are upstairs.
Up-stairs. ■ *Upstairs* is a compound word. Underline **a-i**.
12. attach Number 12: attach. I will attach this light to my bike.
At-tach. ■ The first syllable has a schwa. Underline the first **a**.
13. palace Number 13: palace. The palace contained a hundred beautiful rooms.
Pal-ace. ■ In the second syllable, underline **a** and **e**. Underline **c**.
14. glance Number 14: glance. A glance is a quick look.
 Underline **c-e**.
15. fence. Number 15: fence. The fence keeps our dog in our yard.
 Underline **c-e**.

NUMBERS 16–25 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- | | |
|------------------|--------------|
| 16. *opposite | 21. slept |
| 17. *buffalo | 22. depth |
| 18. *cotton | 23. bowl |
| 19. *immediately | 24. shopping |
| 20. *promise | 25. value |

► **Guided Spelling**

► Have your students turn to page 38.

1. requiring Number 1: requiring. The teacher will be requiring us to do daily homework. Say *requiring*.

Base word? ■ Say *require* by syllables. ■ Now I'll say the syllables for spelling: *re-quire*. Repeat the syllables. ■ First syllable? ■ (Offer help.) Write *re-* in the first space at number 1.

Second syllable? ■ This is the last syllable of the base word. We hear a long vowel and then a consonant. Use the vowel-consonant-*e* spelling. Finish writing *require* in the first space.

Requiring. Suffix? ■ Write *-ing* in the second space.

Requiring. What do you have to decide? (Students: Do we drop *e*?) Everyone turn to page 184. We'll read the drop *e* generalization together: "IF the base word ends with consonant-*e* AND the suffix begins with a vowel, THEN drop *e*." Turn back to page 38, number 1. Everyone point to *r-e*. Does *require* end with a consonant and then *e*? (Students: yes) Everyone point to *i* in *-ing*. Does the suffix begin with a vowel? (Students: yes) Will you drop *e*? (Students: yes) Write *requiring* in the third space. (Check.)

2. smoky Number 2: smoky. The air was smoky after the brush fire. Say *smoky*.

Base word? ■ Question? ■ Use the first spelling under the "bone" picture. The sound /k/ after a long vowel is spelled **k**. Write *smoke* in the first space at number 2.

Suffix? ■ Write **y** in the second space.

Smoky. What do you have to decide? (Students: Do we drop *e*?) Everyone turn to page 184. We'll read the drop *e* generalization together: "IF the base word ends with consonant-*e* AND the suffix begins with a vowel, THEN drop *e*." Turn back to page 38, number 2. Everyone point to **k-e** in *smoke*. Does *smoke* end with

a consonant and then **e**? (Students: yes) Everyone point to **y**. Does the suffix begin with a vowel? (Students: yes) Will you drop the final **e** from *smoke*? (Students: yes) Write *smoky* in the third space. (Check.)

3. refusing. Number 3: refusing. My dog was refusing to sit for a treat. Say *refusing*.

Base word? ■ Say *refuse* by syllables. ■ Now I'll say the syllables for spelling: *re-fuse*. Repeat the syllables. ■ First syllable? ■ (Offer help.) Write *re-*.

Second syllable? ■ This is the last syllable of *refuse*. We hear a long vowel and then a consonant. Use the vowel-consonant-**e** spelling. The sound /z/ in *-fuse* is spelled **s**. Write *-fuse*.

Refusing. What do you have to decide? (Students: Do we drop **e**?) Everyone turn to page 184. We'll read the drop **e** generalization together: "IF the base word ends with consonant-**e** AND the suffix begins with a vowel, THEN drop **e**." Turn back to page 38, number 3.

Does *refuse* end with a consonant and then **e**? (Students: yes) Suffix? (Students: -ing) Does the suffix begin with a vowel? (Students: yes) Will you drop **e**? (Students: yes) Finish writing *refusing*. (Check.)

4. supposed to. Number 4: supposed to. We are supposed to brush our teeth at least twice a day. Say *supposed to*.

Supposed. Base word? ■ Say *suppose* by syllables. ■ The first syllable has a schwa. Now I'll say the syllables for spelling: *sup-pose*. Repeat the syllables. ■ First syllable? ■ (Offer help.) Write *sup-*.

Second syllable? ■ This is the last syllable of *suppose*. We hear a long vowel and then a consonant. Use the vowel-consonant-**e** spelling. The sound /z/ in *-pose* is spelled **s**. Write *-pose*.

Supposed. What do you have to decide? (Students: Do we drop **e**?) Does *suppose* end with a consonant and then **e**? (Students: yes) Suffix? (Students: e-d) Does the suffix begin with a vowel? (Students: yes) Will you drop **e**? (Students: yes) Finish writing *supposed to*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. trader. Number 5: trader. A North American fur trader would travel great distances by canoe. Say *trader*.

Write the base word, then the suffix, and then the whole word *trader*. (Check.)

6. wisest. Number 6: wisest. The owl is sometimes considered the wisest of birds. Say *wisest*.
Write *wisest*. (Check.)

7. preparing. Number 7: preparing. She is preparing for the test by studying. Say *preparing*.
I'll say the syllables for spelling: *pre-par-ing*. Write *preparing*. (Check.)

8. broken Number 8: broken. The leg on the chair is broken. Say *broken*.
Write *broken*. (Check.)

▶ **Introduce the Homework**

Hand out the Week 7 homework.

▶ **Record Words Missed**

Return the students' spelling tests from Week 6. Have them turn to pages 32 and 33 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

► **Pre-spelling: Memorizing Words**

- Remind your students that in the discussion on Day 4 of last week they talked about ways to learn words for spelling tests.
- Write *palace* on the board.

Let's think about how to memorize the spelling of words.

palace One of the words you will learn this week is *palace*. Saying the syllables for spelling helps me remember that there is only one **l**: *pal-ace*.

The second syllable has two hard parts. I have to remember the spelling of the vowel sound. I also have to remember that the sound /s/ is spelled **c**. I can visualize **a-c-e**, or I can say it to myself several times: **a-c-e, a-c-e**.

The second syllable is spelled like the word *ace*.

► **Guided Spelling**

- Have your students turn to page 39.

l. decorator Number **l**: decorator. A decorator is a person who chooses wall color, floors, and furniture for a home. Say *decorator*.

Base word? ■ Say *decorate* by syllables. ■ The second syllable has a schwa. Now I'll say the syllables for spelling: *dec-o-rate*. Repeat the syllables. ■ First syllable? ■ Write *dec-* in the first space at number **l**.

Second syllable? ■ (Offer help.) Write *-o-*.

Third syllable? ■ This is the last syllable of the base word. We hear a long vowel and then a consonant. Use the vowel-consonant-**e** spelling. Finish writing *decorate* in the first space.

Decorator. Suffix? ■ Write **o-r** in the second space.

Decorator. What do you have to decide? (Students: Do we drop **e**?) Everyone turn to page 184. We'll read the drop **e** generalization together: "IF the base word ends with consonant-**e** AND the suffix begins with a vowel, THEN drop **e**." Turn back to page 39, number **l**. Everyone point to **t-e**. Does *decorate* end with a consonant and then **e**? (Students: yes) Everyone point to **o**

in **o-r**. Does the suffix begin with a vowel? (Students: yes)
Will you drop **e**? (Students: yes) Write *decorator* in the third space. (Check.)

2. contributing Number 2: contributing. Our class will be contributing to the school penny drive. Say *contributing*.

Base word? ■ Say *contribute* by syllables. ■ The first syllable has a schwa. Now I'll say the syllables for spelling: *con-trib-ute*. Repeat the syllables. ■ First syllable? ■ (Offer help.) Write *con-* in the first space at number 2.

Second syllable? ■ Write *-trib-*.

Third syllable? ■ This is the last syllable of the base word. We hear a long vowel and then a consonant. Use the vowel-consonant-**e** spelling. Finish writing *contribute* in the first space.

Contributing. Suffix? ■ Write *-ing* in the second space.

Contributing. What do you have to decide? (Students: Do we drop **e**?) Everyone turn to page 184. We'll read the drop **e** generalization together: "IF the base word ends with consonant-**e** AND the suffix begins with a vowel, THEN drop **e**." Turn back to page 39, number 2. Everyone point to **t-e**. Does *contribute* end with a consonant and then **e**? (Students: yes) Everyone point to **i** in *-ing*. Does the suffix begin with a vowel? (Students: yes) Will you drop **e**? (Students: yes) Write *contributing* in the third space. (Check.)

3. attach Number 3: attach. I will attach this light to my bike. Say *attach*.

Say *attach* by syllables. ■ The first syllable has a schwa. Now I'll say the syllables for spelling: *at-tach*. Repeat the syllables. ■ First syllable? ■ (Offer help.) Write *at-*.

Second syllable? ■ Write *-tach*. (Check.)

4. glance Number 4: glance. A glance is a quick look. Say *glance*.

Listen to the sounds: glance. The end is spelled **c-e**. Write *glance*. (Check.)

5. upstairs Number 5: upstairs. The bedrooms of this house are upstairs. Say *upstairs*.

Upstairs is a compound word. Say *upstairs* by syllables. ■ First syllable? ■ Write *up-*.

Second syllable? ■ Question? ■ Use the second spelling under the "cake" picture. Write *-stairs*. (Check.)

6. palace Number 6: palace. The palace contained many beautiful rooms. Say *palace*.

HISTORY A Roman emperor built a magnificent house on a hill called *Palatine*. The Romans started using the name of the hill to mean a great and grand house. That word later became our English word *palace*.

Say *palace* by syllables. ■ Now I'll say the syllables for spelling: *pal-ace*. Repeat the syllables. ■ First syllable? ■ Write *pal-*. Second syllable? ■ (Offer help.) The sound /s/ in *palace* is spelled *c*. Write *-ace*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. engaged Number 7: engaged. My friend and I were deeply engaged in conversation. Say *engaged*.

I'll say the syllables for spelling: *en-gaged*. Write the base word, then the suffix, and then the whole word *engaged*. (Check.)

8. topic Number 8: topic. The geography topic for this week is the mountain ranges of the western United States. Say *topic*.

I'll say the syllables for spelling: *top-ic*. Write *topic*. (Check.)

9. fence Number 9: fence. The fence keeps our dog in our yard. Say *fence*. Write *fence*. (Check.)

10. swimming Number 10: swimming. He will be doing a lot of swimming in this hot weather. Say *swimming*.

Write *swimming*. (Check.)

PARTNER STUDY Turn to your neighbor. Explain why you doubled **m**.

MEMORY STEPS Do the memory steps for *swimming*.

► Pre-spelling: Memorizing Words

► Write *refusing* on the board.

Let's think about how to memorize the spelling of words.

refusing One of the words you will learn this week is *refusing*.

First I'll think of the base word *refuse*. I'll say *refuse* by syllables and exaggerate the first syllable: *rē-fuse*.

I'll remember **u-blank-e** because *-fuse* is the last syllable in the base word. I have to memorize **s**.

I know the drop **e** generalization, so I know how to write the end of *refusing*.

► Guided Spelling

► Have your students turn to page 40.

1. broken Number 1: broken. The dryer is broken, and the clothes are still wet. Say *broken*.

Base word? ■ Question? ■ Use the first spelling under the “bone” picture. The sound /k/ after a long vowel is spelled **k**. Write *broke* in the first space at number 1.

Suffix? ■ The suffix *-en* is spelled **e-n**. Write **e-n** in the second space.

Broken. What do you have to decide? (Students: Do we drop e?) Everyone turn to page 184. We'll read the drop **e** generalization together: “IF the base word ends with consonant-**e** AND the suffix begins with a vowel, THEN drop **e**.” Turn back to page 40, number 1. Everyone point to **k-e** in *broke*. Does *broke* end with a consonant and then **e**? (Students: yes) Everyone point to **e-n**. Does the suffix begin with a vowel? (Students: yes) Will you drop the final **e** from *broke*? (Students: yes) Write *broken* in the third space. (Check.)

2. preparing Number 2: preparing. She will be preparing a delicious meal for her guests. Say *preparing*.
- Base word? ■ Say *prepare* by syllables. ■ Now I'll say the syllables for spelling: *pre-pare*. Repeat the syllables. ■ First syllable? ■ (Offer help.) Write *pre-* in the first space at number 2.
- Second syllable? ■ This is the last syllable of the base word. We hear a long vowel and then a consonant. Use the vowel-consonant-*e* spelling. Finish writing *prepare* in the first space.
- Preparing*. Suffix? ■ Write *-ing* in the second space.
- Preparing*. What do you have to decide? (Students: Do we drop *e*?) Does *prepare* end with a consonant and then *e*? (Students: yes) Does the suffix begin with a vowel? (Students: yes) Will you drop *e*? (Students: yes) Write *preparing* in the third space. (Check.)
3. upstairs. Number 3: upstairs. One of the windows upstairs was left open. Say *upstairs*.
- Upstairs* is a compound word. Say *upstairs* by syllables. ■ First syllable? ■ Write *up-*.
- Second syllable? ■ Question? ■ Use the second spelling under the "cake" picture. Write *-stairs*. (Check.)
4. fence Number 4: fence. There was a fence around the pool. Say *fence*.
- HISTORY Long ago the word *fence* was short for *defense*. A fence around you could be a defense against enemies.
- Fence*. Listen to the sounds: fence. The end is spelled **c-e**. Write *fence*. (Check.)
5. topic Number 5: topic. The teacher reminded them to stay on the topic. Say *topic*.
- Say *topic* by syllables. ■ Now I'll say the syllables for spelling: *top-ic*. Repeat the syllables. ■ First syllable? ■ Write *top-*.
- Second syllable? ■ The sound /k/ at the end of a syllable is usually spelled **c**. Write *-ic*. (Check.)
6. palaces Number 6: palaces. Palaces are splendid homes for royalty. Say *palaces*.
- Base word? ■ Say *palace* by syllables. ■ Now I'll say the syllables for spelling: *pal-ace*. Repeat the syllables. ■ First syllable? ■ Write *pal-*.
- Second syllable? ■ (Offer help.) The sound /s/ in *palace* is spelled **c**. Finish writing *palaces*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. amazing. Number 7: amazing. There was an amazing sunset of purple, red, and orange. Say *amazing*.

I'll say the syllables for spelling: *a-maz-ing*. Write the base word, then the suffix, and then the whole word *amazing*. (Check.)

8. recommend. Number 8: recommend. The librarian will recommend a biography for my book report. Say *recommend*.

I'll say the syllables for spelling: *rec-om-mend*. Write *recommend*. (Check.)

9. requiring. Number 9: requiring. The teacher is requiring students to wear athletic shoes for P.E. Say *requiring*.

I'll say the syllables for spelling: *re-quir-ing*. Write *requiring*.

10. supposed to. Number 10: supposed to. We are supposed to have our chores done by the end of the day. Say *supposed to*.

I'll say the syllables of *supposed* for spelling: *sup-posed*. Write *supposed to*.

PARTNER STUDY Turn to your neighbor. Explain why you dropped **e** at the end of *suppose*.

MEMORY STEPS Do the memory steps for *supposed to*.

► **Pre-spelling: Memorizing Words**

► Write *smoky* on the board.

Let's think about how to memorize the spelling of words.

smoky One of the words you will learn this week is *smoky*.

You don't have to memorize *smoky* as long as you can spell the base word *smoke* and remember the drop **e** generalization.

► **Guided Spelling**

► Have your students turn to page 41.

1. trader. Number 1: trader. The trader exchanged tools for gold dust.
Say *trader*.

Base word? ■ Question? ■ Use the first spelling under the “cake” picture. Write *trade* in the first space by number 1.

Trader. Suffix? ■ The suffix *-er* is spelled **e-r**. Write **e-r** in the second space.

What do you have to decide? (Students: Do we drop **e**?) Everyone turn to page 184. We'll read the drop **e** generalization together: “IF the base word ends with consonant-**e** AND the suffix begins with a vowel, THEN drop **e**.” Turn back to page 41, number 1. Everyone point to **d-e** in *trade*. Does *trade* end with a consonant and then **e**? (Students: yes) Everyone point to **e-r**. Does the suffix begin with a vowel? (Students: yes) Will you drop the final **e** from *trade*? (Students: yes) Write *trader* in the third space. (Check.)

2. investigating. Number 2: investigating. The police are investigating the burglary at the store. Say *investigating*.

First syllable? ■ Write *in-* in the first space at number 2.

Second syllable? ■ Write *-ves-*.

Third syllable? ■ Write *-ti-*.

Fourth syllable? ■ This is the last syllable of the base word. We hear a long vowel and then a consonant. Use the vowel-consonant-**e** spelling. Finish writing *investigate* in the first space.

Investigating. Suffix? ■ Write *-ing* in the second space.

Investigating. What do you have to decide? (Students: Do we drop e?)
Does *investigate* end with a consonant and then e? (Students: yes)
Does the suffix begin with a vowel? (Students: yes) Will you drop e? (Students: yes) Write *investigating* in the third space. (Check.)

3. wisest. Number 3: wisest. He is the wisest of my friends. Say *wisest*.

Base word? ■ Question? ■ Use the first spelling under the “kite” picture. The sound /z/ in *wise* is spelled *s*. Write *wise*.

Wisest. What do you have to decide? (Students: Do we drop e?)
Does *wise* end with a consonant and then e? (Students: yes)
Suffix? ■ Does the suffix begin with a vowel? (Students: yes)
Will you drop the final e from *wise*? (Students: yes) Finish writing *wisest*. (Check.)

4. swimming Number 4: swimming. We will be swimming in the new city pool. Say *swimming*.

Base word? ■ Write *swim*.

Swimming. What do you have to decide? (Students: Do we double?)
Does *swim* have one vowel? (Students: yes) One consonant after the vowel? (Students: yes) *Swimming*. Suffix? (Students: -ing) Does the suffix begin with a vowel? (Students: yes) Will you double the last consonant of *swim*? (Students: yes) Finish writing *swimming*. (Check.)

5. envelopes Number 5: envelopes. I put my invitations in envelopes and mailed them. Say *envelopes*.

Base word? ■ Say *envelope* by syllables. ■ The second syllable has a schwa. Now I’ll say the syllables for spelling: *en-vel-ope*. Repeat the syllables. ■ First syllable? ■ Write *en-*.

Second syllable? ■ (Offer help.) Write *-vel-*.

Third syllable? ■ This is the last syllable. We hear a long vowel and then a consonant. Use the vowel-consonant-e spelling. Finish writing *envelopes*. (Check.)

Say *smoky*.

Write *smoky*. (Check.)

PARTNER STUDY Turn to your neighbor. Explain why you dropped **e**.

MEMORY STEPS Do the memory steps for *smoky*.

► **Student Study**

Have the students turn to pages 26 and 27. If they missed a word on the test in Week 5, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

Weekly Test

For details about the weekly test, see page 93.

ADVANCED SPELLERS CONTINUE

Syllables with r-controlled Vowels

► New Content

The sound /er/ is often spelled **er**, **ir**, or **ur**, as in *concern*, *third*, and *surface*.

The sound /or/ at the beginning or in the middle of a word is usually spelled **or**, as in *border* and *orbit*.

The sound /or/ at the end of a word is usually spelled **or** or **ore**, as in *for* and *explore*.

The sound /ar/ is spelled **ar**, as in *alarm*.

► Teacher Background

Make a copy of the Week 8 homework (*Blackline Masters* page 11) for each student.

As is the case with many other English spelling-sound relationships, **or** and **ore** are complicated by varying regional pronunciations. For example, for some speakers *for* and *shore* rhyme; **or** and **ore** can be taught as two spellings of a single sound. If, however, your students do not pronounce *for* and *shore* as rhyming words, teach the particular spelling for each sound.

The students will be introduced to another syllable construction this week. An *r-controlled syllable* includes a single vowel followed by **r**, as in *alarm*, *concern*, *thirteen*, *orbit*, and *urgent*.

In previous weeks the guiding has specified, “I’ll say the syllables for spelling: *com-plete*. Repeat the syllables.” Beginning in this week, the guiding for this sequence is condensed to, “For spelling say *com-plete*.”

A few reminders:

- Be sure your class understands that guided spelling is not a test. The students should listen to your step-by-step guidance so that they write the words correctly.

- Encourage your students to ask questions, even in the items they write independently. *Knowing when we don't know* is an important metacognitive ability in spelling.
- Teach the lessons at a fairly quick pace. Difficult concepts will be reviewed many times.
- If some of the students make a mistake in the choral response, tell the class the correct answer and repeat the question.

In the pre-spelling activities, which begin on Day 2 this week, you will model the spelling of suffixes added to base words that end with consonant-y, such as *buried*, *occupying*, *categories*, and *drowsiness*. These activities prepare the students for the change y to i generalization in Week 9.

▶ **Introduce the Homework**

Hand out the Week 8 homework.

▶ **Record Words Missed**

Return the students' spelling tests from Week 7. Have them turn to pages 36 and 37 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

► **Teacher Background**

In the pre-spelling activities this week, you will model the spelling of suffixes on base words that end with consonant-y. This will prepare the students for writing similar words in Week 9. More information about adding suffixes to consonant-y words is included in the Week 9 introduction.

► **Pre-spelling: Endings on Consonant-y Words**

Next week you will add endings to words that end with consonant-y. I will show you how.

Say *Saturday*.

FREQUENTLY MISSPELLED WORD *Saturday* is a frequently misspelled word.

HISTORY The ancient Romans believed in many gods and goddesses, for example Neptune, the god of the sea, and Venus, the goddess of love and beauty. They named a planet and a day of the week after their god Saturn. In English we call that weekday *Saturday*.

I'll say the syllables for spelling: Sat-ur-day. Write *Saturday*. (Check.)

9. ought Number 9: ought. You ought to do well on the test; you studied hard. Say *ought*.
Write *ought*. (Check.)

10. collects Number 10: collects. My brother collects insects in our backyard.
Say *collects*.

I'll say the syllables for spelling: col-lects. Write *collects*. (Check.)

PARTNER STUDY Turn to your neighbor. Take turns telling each other one hard part in *collects*.

MEMORY STEPS Do the memory steps for *collects*.

► **Student Study**

Have the students turn to pages 36 and 37. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

Change **y** to **i** Generalization

► New Content

If the base word ends with consonant-**y** and the suffix begins with any letter except **i**, we change **y** to **i**, as in *plentiful*, *ugliest*, *mysterious*, and *happiness*.

If the base word ends with consonant-**y** and the suffix is */z/*, we change **y** to **i** and add **es**, as in *puppies* and *hurries*.

► Teacher Background

Make a copy of the Week 9 homework (*Blackline Masters* page 12) for each student.

Guided spelling this week includes two “no change” generalizations that also involve **y** at the end of a word:

- If the base word ends with consonant-**y** and the suffix begins with **i**, we just add the suffix, as in *marrying* and *babyish*.
- If the base word ends with vowel-**y**, we just add the suffix, as in *staying*, *obeyed*, *employable*, and *buying*. Exceptions are *paid*, *laid*, and *daily*.

There are a few exceptions to the generalization for changing **y** to **i**, for example, *slyness*, *dryness*, and *flyable*. Dictionaries vary as to whether both words in the following pairs are acceptable: *drier/dryer*, *driest/dryest*, *drily/dryly*, *shier/shyer*, *shiest/shyest*, *slier/slyest*, *slily/slyly*, and *frier/fryer*.

To help the students understand this week’s generalization for changing **y** to **i**, you will have them write first the base word, then the suffix, and then the whole word for three items each day this week. These items in the *Student Spelling Book* look like this:

_____ + _____ = _____

Some of your students may know rhymes to remind them of changing **y** to **i** before **-es** and **-ed**: Change **y** to **i** and add e-s. Change **y** to **i** and add e-d.

In the pre-spelling activities, which begin on Day 2 this week, you will explain possessive nouns to the students in preparation for Week 11 guided spelling.

Beginning this week, the instruction labeled THINK appears for some words. You will say, “Let’s think,” and remind the students of a spelling clue in a related word.

Wag-on. ■ The second syllable has a schwa. Underline **o**.
12. describing Number 12: describing. He was describing the book to his classmates.
De-scrib-ing. ■ Underline **e**. ■ The base word is *describe*. The **e** was dropped and **i-n-g** was added.
13. wore Number 13: wore. He wore a dress shirt to the concert.
 HOMOPHONE *Wore* is a homophone. It's not *war* meaning *battles*. It's *wore* as in *He wore a shirt*.
 Underline **o-r-e**.
14. tongue Number 14: tongue. We taste different flavors with different parts of our tongue.
 Underline **o**. Underline **g-u-e**.
15. dozen Number 15: dozen. She bought a dozen eggs at the market.
Doz-en. ■ Underline **o**. ■ The second syllable has a schwa. Underline **e**.

NUMBERS 16–25 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- | | |
|------------------|-------------|
| 16. *border | 21. fought |
| 17. *dirty | 22. chapter |
| 18. *concern | 23. collect |
| 19. *prerecorded | 24. belong |
| 20. *misreported | 25. knees |

► Guided Spelling

► Have your students turn to page 50.

1. applied Number 1: applied. My sister has applied for college. Say *applied*.

Base word? ■ Say *apply* by syllables. ■ The first syllable has a schwa. For spelling say *ap-ply*. ■ First syllable? ■ (Offer help.)
Write *ap-* in the first space at number 1.

Second syllable? ■ The sound /ī/ at the end of a word is usually spelled **y**. Finish writing *apply* in the first space.

Applied. Suffix? (Students: e-d) Write **e-d** in the second space.

Applied. What do you have to decide? (Students: Do we change **y** to **i**?) Everyone turn to page 185. We'll read the change **y** to **i** generalization together: "IF the base word ends with consonant-**y** AND the suffix begins with any letter except **i**, THEN change **y** to **i**." Turn back to page 50, number 1. Everyone point to **I-y**. Does *apply* end with a consonant and then **y**? (Students: yes) Everyone point to **e** in **e-d**. Does the suffix begin with a letter that is not **i**? (Students: yes) Will you change **y** to **i**? (Students: yes) Write *applied* in the third space. (Check.)

▶ **Introduce the Homework**

Hand out the Week 9 homework.

▶ **Record Words Missed**

Return the students' spelling tests from Week 8. Have them turn to pages 42 and 43 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

► Teacher Background

The pre-spelling activities this week introduce the students to possessive nouns. Possessives are one of the more difficult concepts in English for several reasons:

- In general, a possessive noun shows ownership. *The girl's hat* can mean that the girl *owns* the hat; it *belongs to* her. Yet *the girl's hat* can also mean that the girl *has* the hat, as in *The girl's hat was borrowed from her friend*. *The men's job* means the job *of* the men. *Boys' shoes* means shoes *for* boys.
- Readers must be able to determine whether the possessive noun is singular (as in *the girl's dogs*) or plural (as in *the girls' dogs*). Spellers must select and spell the correct word to say what they mean.
- The apostrophe in a possessive noun does not have the same function as an apostrophe in a contraction.

Possessive pronouns do not have apostrophes: *yours, hers, its, ours, and theirs*.

If your students are not familiar with the meanings of the terms *noun* and *pronoun*, you may want to explain them.

Possessives are especially difficult for English Language Learners and for speakers who do not usually pronounce the *s* in possessives. Many students will need an extended period of modeling and guiding to master the spelling of possessives.

► Pre-spelling: Possessive Nouns

I will explain possessive nouns to you.

girl's ► Write on the board: The girl's hat is blue.

The girl's hat is blue. This sentence shows us that the hat *belongs to* the girl. The girl *owns* the hat.

► Cover 's.

We know there is one girl.

► Point to *girl's*.

The word *girl's* is a possessive noun. Say "possessive noun."

► Write on the board: girls girl's

These two words are not the same.

► Point to *girls*.

This means “more than one girl.”

► Point to *girl's*.

This is a possessive noun.

► Write on the board: didn't girl's hat

► Point to *didn't* and *girl's*.

Both of these words have apostrophes. In the contraction *didn't*, what does the apostrophe show? (Students: A letter is left out.) In *girl's* the apostrophe does *not* show letters left out. The apostrophe shows that the word is a possessive noun.

► Point to the “girl's hat” picture on the spelling-sound chart.

This is the picture for the possessive noun *girl's*, as in “girl's hat.”

► Guided Spelling

► Have your students turn to page 51.

► New Content

The sound /ōō/ is often spelled **u-consonant-e**, **ew**, or **oo**, as in *include*, *flew*, and *smooth*.

The sound /ōō/ is usually spelled **oo**, as in *foot*.

The sound /ou/ is often spelled **ou** or **ow**, as in *county* and *flower*.

The sound /ou/ at the end of a word is usually spelled **ow**, as in *allow*.

The sound /oi/ is spelled **oi** or **oy**, as in *choice* and *royal*.

The sound /oi/ at the end of a word is usually spelled **oy**, as in *destroy* and *employ*.

The sound /aw/ is often spelled **au** or **aw**, as in *applause* and *awful*.

The sound /aw/ at the end of a word is usually spelled **aw**, as in *raw*.

► Teacher Background

Make a copy of the Week 10 homework (*Blackline Masters* page 13) for each student.

The pronunciation of words with **u_e**, **oo**, and **ew** varies according to regional dialect. For example, some people pronounce the second syllable of *produce* as /dūs/, whereas others say /dōōs/.

In some regions, speakers pronounce **au**, **aw**, and short **o** identically.

Spelling the sound /aw/ before the sound /l/ requires attention, as the spelling could be **au**, **aw**, or just **a**, as in *haul*, *crawl*, *halt*, and *fall*.

In the pre-spelling activities, which begin on Day 2 of this week, you will model the spelling of possessive nouns and pronouns in preparation for Week 11 guided spelling.

▶ **Introduce the Homework**

Hand out the Week 10 homework.

▶ **Record Words Missed**

Return the students' spelling tests from Week 9. Have them turn to pages 48 and 49 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Week 10 Day 2

Possessive Nouns and Pronouns

► New Content

If we write about *one boy's hat*, we show that one boy owns the hat by adding apostrophe-s. We make *boy* possessive.

If we write about the *five boys' team*, we show that it's the team of the five boys by adding an apostrophe. We make *boys* possessive.

If we write about the *men's team*, we show that it's the team of the men by adding apostrophe-s. We make *men* possessive.

Possessive pronouns do not have apostrophes.

► Teacher Background

Make a copy of the Week 11 homework (*Blackline Masters* page 14) for each student.

The Teacher Background for Week 9, Day 2, on page 168, explains the spelling of possessive nouns and pronouns.

Possessive pronouns do not have apostrophes: *yours*, *hers*, *its*, *ours*, and *theirs*.

One additional guiding point is introduced this week: the sound /k/ is sometimes spelled **ch**, as in *character* and *ache*.

In the pre-spelling activities, which begin on Day 2 this week, you will show the students some ways to decide between *-tion* and *-sion* in preparation for Week 13.

Week 11 Day 1

► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 60 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. giant's Number 1: giant's. Beyond the wall was a fierce giant. The giant's head was huge.

Gi-ant's. ■ It's the head of one giant. *Giant's* is a possessive noun. Start underlining *giant's*, but stop when you get to the apostrophe. What have you underlined? (Students: giant) The part you underlined shows that there is just one giant.

The second syllable has a schwa. Draw another line under **a**.

2. giants' Number 2: giants'. Giants were fighting. The giants' battle was heard throughout the kingdom.

Gi-ants'. ■ The battle was fought by giants. *Giants'* in the second sentence is a possessive noun. Start underlining *giants'*, but stop when you get to the apostrophe. What have you underlined? (Students: giants) The part you underlined shows that there is more than one giant.

The second syllable has a schwa. Draw another line under **a**.

3. children's Number 3: children's. The children's section of the library is very popular.

Chil-dren's. ■ It is the section for children. *Children's* is a possessive noun. Start underlining *children's*, but stop when you get to the apostrophe. What have you underlined? (Students: children) The part you underlined shows that there are *children*, more than one child.

The second syllable has a schwa. Underline **e**.

4. its Number 4: its. A monarch butterfly is noticeable because its wings are black and orange.

Everyone point to *its* in *its wings*. *Its* is a possessive pronoun. Say *possessive pronoun*. (Students: possessive pronoun) Possessive pronouns do *not* have apostrophes.

► Write on the board or overhead: It's dark.

► Point to *It's*.

It's in *It's dark* is a contraction of *it is*, not a possessive pronoun.

5. sisters' Number 5: sisters'. The three daughters all had bikes. The sisters' bicycles were lined up in front of the house.

Sis-ter's. ■ The bicycles belonged to the three sisters. *Sisters'* is a possessive noun. Start underlining *sisters'*, but stop when you get to the apostrophe. What have you underlined? (Students: sisters) The part you underlined shows that there is more than one sister.

Underline **e-r**.

6. sister's Number 6: sister's. Her oldest sister's backpack was left on the table.

Sis-ter's. ■ There is just one oldest sister. *Sister's* is a possessive noun. Start underlining *sister's*, but stop when you get to the apostrophe. What have you underlined? (Students: sister) The part you underlined shows that there is just one sister.

Underline **e-r**.

7. it's Number 7: it's. Today is beautiful because it's sunny and warm.

HOMOPHONE *It's* is a homophone. The word is *not* the possessive pronoun *its* as in *its wings*.

CONTRACTION *It's* in *It's sunny* is a contraction of *it is*.

8. nurses' Number 8: nurses'. Nurses' uniforms used to be white.

The uniforms were worn by the nurses. *Nurses'* is a possessive noun. Start underlining *nurses'*, but stop when you get to the apostrophe. What have you underlined? (Students: nurses) The part you underlined shows that there is more than one nurse.

Underline **u-r**. Underline **e**.

9. rather. Number 9: rather. I'd rather go swimming than play tennis.

Rath-er. ■ Underline **e-r**.

10. defining. Number 10: defining. We used both context and the dictionary for defining the words.

De-fin-ing. ■ Underline **e**. ■ The base word is *define*. The **e** was dropped and the suffix *-ing* was added.

MNEMONIC When the dictionary is defining a word, it is giving a definition. The words *defining* and *definition* are related.

11. farther. Number 11: farther. Our classroom is farther from the office than yours.
Far-ther. ■ Underline **e-r**.
12. replying. Number 12: replying. I will be replying to the letter.
Re-ply-ing. ■ Underline **e**. ■ The base word is *reply*. The suffix *-ing* begins with **i**, so **y** was not changed.
13. announce. Number 13: announce. They will announce the winner tonight.
An-nounce. ■ The first syllable has a schwa. Underline **a**. ■ Underline **o-u**. Underline **c-e**.
14. character. Number 14: character. Her favorite character in the book was the hero.
Char-ac-ter. ■ Underline **c-h-a-r**. ■ In the second syllable, underline **a**. ■ Underline **e-r**.
15. stomach Number 15: stomach. The human stomach can digest many types of food.
Stom-ach. ■ Underline **o**. ■ The second syllable has a schwa. Underline **a-c-h**.

NUMBERS 16–25 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- | | |
|----------------|-------------|
| 16. *raw | 21. *flew |
| 17. *county | 22. pocket |
| 18. *football | 23. perhaps |
| 19. *uncrowded | 24. system |
| 20. *smoother | 25. route |

► Guided Spelling

► Have your students turn to page 62.

1. giant's. Number 1: giant's. Beyond the wall was a fierce giant. The giant's head was huge. Say *giant's*.
What do we call the word *giant's*? (Students: possessive noun)
How many giants are there, one or more than one? (Students: one)
Giant is spelled **g-i...a-n-t**. Write *giant*. ■ Make *giant* possessive by adding apostrophe-**s**. (Check.)

2. giants' Number 2: giants'. The giants' battle was heard throughout the kingdom. Say *giants'*.
 What do we call the word *giants'*? (Students: possessive noun)
 Is there one giant or more than one? (Students: more than one)
 Write the plural word *giants*. ■ Now make *giants* possessive.
 There's already an *s*. Just add an apostrophe at the end. (Check.)
3. children's. Number 3: children's. The children's section of the library is very popular. Say *children's*.
 What do we call the word *children's*? (Students: possessive noun)
 The second syllable of *children* is spelled **d-r-e-n**. Write *children*. ■
 Make *children* possessive by adding apostrophe-**s** at the end.
 (Check.)
4. its Number 4: its. A monarch butterfly is noticeable because its wings are black and orange. Say *its*.
 HOMOPHONE *Its* is a homophone. You're not going to write the contraction *it's*.
Its wings are black and orange. The word *its* is a possessive pronoun. Possessive pronouns do *not* have an apostrophe.
 Write *its*. (Check.)
- NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.
 If you're not sure how to spell part of the word, raise your hand to ask me. I will write the answer.
5. sisters' Number 5: sisters'. The three sisters' bicycles were lined up in front of the house. Say *sisters'*.
 Write *sisters'*. (Check.)
6. sister's Number 6: sister's. Her oldest sister's backpack was left on the table. Say *sister's*.
 Write *sister's*. (Check.)
7. it's Number 7: it's. Today is beautiful because it's sunny and warm. Say *it's*.
 CONTRACTION The word *it's* in *It's sunny and warm* is a contraction.
 Write *it's*. (Check.)
8. nurses' Number 8: nurses'. We checked in at the nurses' station at the hospital. Say *nurses'*.
 Write *nurses'*. (Check.)

▶ **Introduce the Homework**

Hand out the Week 11 homework.

▶ **Record Words Missed**

Return the students' spelling tests from Week 10. Have them turn to pages 54 and 55 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Week 11 Day 2

► Teacher Background

In the pre-spelling activities this week, you will show the students some ways to decide between *-tion* and *-sion* in preparation for Week 13 guided spelling.

TEKS 2.A.i

TEKS 2.A.xv

TEKS 2.B.viii

Student/Teacher Narrative

Pre-spelling section

(dictation, hesitation, translation, pollution)

► Pre-spelling: Syllables *-tion* and *-sion*

Soon in guided spelling, you will be writing words that end with **t-i-o-n** and **s-i-o-n**. Deciding whether to write **t-i-o-n** or **s-i-o-n** can be very confusing in English spelling. I will show you how to use clues.

dictation. I will write *dictation*. First I say *dictation* by syllables: *dic-ta-tion*.

► Write *dicta* on the board.

Now I must decide whether to use **t-i-o-n** or **s-i-o-n**. *Dictation* is related to *dictate*. *Dictate* ends with **t-e**. I will use **t-i-o-n**.

► Add *tion*.

Dictation. Here are other examples.

hesitation. The word *hesitation* is related to *hesitate*. Spell the last syllable of *hesitation*. (Students: t-i-o-n)

translation. The word *translation* is related to *translate*. Spell the last syllable of *translation*. (Students: t-i-o-n)

pollution. The word *pollution* is related to *pollute*. Spell the last syllable of *pollution*. (Students: t-i-o-n)

► Guided Spelling

► Have your students turn to page 63.

l. queen's. Number l: queen's. Horses from the queen's stables are exercised in the morning. Say *queen's*.

What do we call the word *queen's*? (Students: possessive noun) How many queens are there, one or more than one? (Students: one) Write *queen*. ■ Make *queen* possessive by adding apostrophe-s. (Check.)

2. announce Number 2: announce. They will announce the winner tonight. Say *announce*.
- Say *announce* by syllables. ■ The first syllable has a schwa. For spelling say *an-nounce*. ■ First syllable? ■ (Offer help.) Write *an-*.
 Second syllable? ■ Question? ■ Use the first spelling under the “ouch” picture. Careful. The end is spelled **c-e**. Finish writing *announce*. (Check.)
3. babies’ Number 3: babies’. The mothers walked to the park. They put their babies’ strollers on the grass. Say *babies’*.
- What do we call the word *babies’*? (Students: possessive noun)
 Is there one baby or more than one? (Students: more than one)
 Write the plural word *babies*. ■ Now make *babies* possessive. There’s already an **s**. Just add an apostrophe at the end. (Check.)
- HISTORY** The word *baby* probably came from the sounds a baby makes: “b-b-b.”
4. character Number 4: character. Her favorite character in the book was the hero. Say *character*.
- Say *character* by syllables. ■ For spelling say *char-ac-ter*. ■ First syllable? ■ Careful. It’s spelled **c-h-a-r**. Write *char-*.
 Second syllable? ■ (Offer help.) Write *-ac-*.
 Third syllable? ■ Question? ■ Use the first spelling under the “robot” picture. Write *-ter*. (Check.)
- In some words the sound /k/ is spelled **c-h**, as in *character*, *stomach*, *chemistry*, *chorus*, and *ache*.
5. ours Number 5: ours. The green sailboat is ours. Say *ours*.
- The word *ours* is a possessive pronoun. Possessive pronouns do not have an apostrophe: *yours*, *hers*, *its*, *ours* and *theirs*. Write *ours*. (Check.)
6. farther Number 6: farther. Our classroom is farther from the office than yours. Say *farther*.
- Say *farther* by syllables. ■ For spelling say *far-ther*. ■ First syllable? ■ Write *far-*.
 Second syllable? ■ Question? ■ Use the first spelling under the “robot” picture. Finish writing *farther*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. **defining** Number 7: defining. We used both context and the dictionary for defining the words. Say *defining*.

I'll say the syllables for spelling: *de-fin-ing*.

MNEMONIC The related word *definition* can help you with the first syllable of *defining*.

Write *defining*. (Check.)

8. **rather** Number 8: rather. I'd rather go swimming than play tennis. Say *rather*.

Write *rather*. (Check.)

9. **stomach** Number 9: stomach. The human stomach can digest many types of food. Say *stomach*.

10. **replying** Number 10: replying. I will be replying to the letter. Say *replying*.

I'll say the syllables for spelling: *re-ply-ing*. Write *replying*. (Check.)

PARTNER STUDY Turn to your neighbor. Explain why you did not change **y** to **i**.

MEMORY STEPS Do the memory steps for *replying*.

Week 11 Day 3

► Pre-spelling: Syllables *-tion* and *-sion*

I will show you how to use clues to help you decide whether to use **t-i-o-n** or **s-i-o-n**.

permission I will write *permission*. The word *permission* is related to the word *permit*.

► Write *permit* on the board.

Permit ends with **i-t**. Here is something surprising. *Permission* ends with **s-i-o-n**. When a word that ends with /shən/ is related to a word that ends with **i-t**, the syllable /shən/ is spelled **s-i-o-n**.

► Write *permission* on the board.

Permission. Here are other examples.

admission The word *admission* is related to *admit*. Spell the last syllable of *admission*. (Students: s-i-o-n)

► Write *admission* on the board.

submission The word *submission* is related to *submit*. Spell the last syllable of *submission*. (Students: s-i-o-n)

► Write *submission* on the board.

omission. The word *omission* is related to *omit*. Spell the last syllable of *omission*. (Students: s-i-o-n)

► Write *omission* on the board.

► Guided Spelling

► Have your students turn to page 64.

1. sisters' Number 1: sisters'. The two sisters' bedroom was on the second floor of the house. Say *sisters'*.

What do we call the word *sisters'*? (Students: possessive noun)

10. *its*. Number 10: *its*. My dog is going to *its* kennel for the night. Say *its*.

Write *its*. (Check.)

PARTNER STUDY *Its* and *it's* are homophones. Turn to your neighbor. Take turns spelling one of the homophones and using it in a sentence.

MEMORY STEPS Do the memory steps for *its*.

► **Student Study**

Have the students turn to pages 54 and 55. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

Weekly Test

For details about the weekly test, see page 93.

ADVANCED SPELLERS CONTINUE

Review of Weeks 5, 7, 8, 9, and 10

► Teacher Background

Duplicate the three homework pages for this week (*Blackline Masters* pages 15–17).

On Day 1, you will give a pretest. The students will correct the pretests in class as you read the answers. The students will note which words they need to study.

The Day 2 lesson is proofreading practice. The students will work with partners to find spelling errors in sentences.

On Day 3, the students will study for the review test with partners.

The Day 4 lesson includes a class discussion on proofreading.

On Day 5, you will give the review test.

If you are differentiating instruction, speak privately with each below-grade-level speller: they will study just the starred words on *Student Spelling Book* pages 66 and 67. Have the average spellers study all the words on pages 66 and 67 except the challenge words. Have the advanced spellers study all words, including the challenge words.

In the pre-spelling activities, which begin on Day 2 this week, you will show the students ways to decide between *-tion* and *-sion* in preparation for guided spelling in Week 13.

Pretest

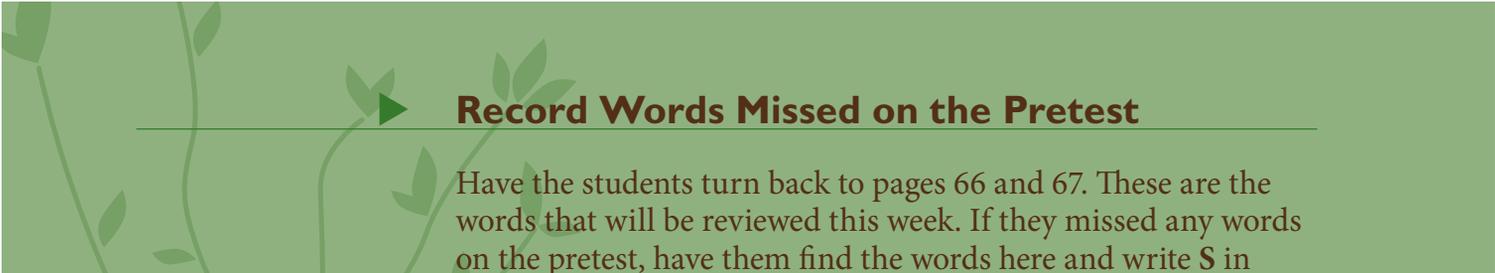

► Administer the Pretest

► Have your students turn to page 68 in their *Student Spelling Books*. Explain that this week they will review ten words each from Weeks 5 and 7 through 10. The pretest in this lesson will help them identify words they especially need to study.

- | | |
|----------------|---|
| 1. uncrowded | The train car was uncrowded so we all got seats. |
| 2. value | The value of a dollar equals the value of ten dimes. |
| 3. border | To cross the border we had to show our passports. |
| 4. refusing | We think our dog is sick because she is refusing to eat. |
| 5. supposed to | I am supposed to be home by 5:00. |
| 6. dozen | She bought a dozen bagels. |
| 7. smoother | After the dance lessons my steps were much smoother. |
| 8. wore | They wore their new uniforms for the game. |
| 9. promise | My mother made me promise to watch out for my sister. |
| 10. dirty | They were dirty after a morning working in the garden. |
| 11. colonial | The furniture was crafted in the colonial style. |
| 12. attach | A spider can attach its web to many structures. |
| 13. glance | She saw at glance that the room had been picked up. |
| 14. collect | He likes to collect miniature cars. |
| 15. route | My father checked our route on the map before we left for vacation. |

► Correct the Pretest

Read and spell the 15 words out loud. For each word, have the students point under each letter in their word as you spell. If they did not spell a word correctly, have them draw a line through the word.

▶ Record Words Missed on the Pretest

Have the students turn back to pages 66 and 67. These are the words that will be reviewed this week. If they missed any words on the pretest, have them find the words here and write **S** in front of each one. These are the words that they especially need to study.

▶ Introduce the Homework

Hand out the homework for Week 12. There are three pages of homework this week. The students will practice every review word.

▶ Record Words Missed on Last Week's Test

Return the students' spelling tests from Week 11. Have them turn to pages 60 and 61 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Proofreading

▶ Teacher Background

In the pre-spelling activities, which begin on Day 2 this week, you will show the students ways to decide between *-tion* and *-sion* in preparation for guided spelling in Week 13.

▶ Pre-spelling: Syllables *-tion* and *-sion*

I will show you how to use clues for **t-i-o-n** and **s-i-o-n**.

action I will write *action*. First I say *action* by syllables: *ac-tion*.

▶ Write *ac* on the board.

Now I must decide whether to use **t-i-o-n** or **s-i-o-n**. *Action* is related to *act*. Act ends with a consonant and then **t**. I will use **t-i-o-n**.

▶ Add *tion*.

Action. Here are other examples.

subtraction The word *subtraction* is related to *subtract*. *Subtract* ends with a consonant and then **t**. Spell the last syllable of *subtraction*. (Students: t-i-o-n)

prevention The word *prevention* is related to *prevent*. *Prevent* ends with a consonant and then **t**. Spell the last syllable of *prevention*. (Students: t-i-o-n)

selection The word *selection* is related to *select*. *Select* ends with a consonant and then **t**. Spell the last syllable of *selection*. (Students: t-i-o-n)

▶ Partner Proofreading

Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three.

Have your students open their books to page 69. The sentences on this page include many words that the students have studied, but some of them are misspelled. Have the students read the

sentences with their partners and look for the misspelled words. Then have the students work individually to draw a line through each misspelled word and write the correct word above it. There may be a sentence with all words correct.

As the students work, monitor and assist those who need extra support in proofreading.

► Correct Sentences Together

► Read each sentence. Have the students tell you each word that is misspelled and how to spell it correctly. Write the correct word on the board. If the students made a mistake, have them draw a line through the incorrect word.

1. Pioneers in unexplored territory regarded a broken wheel with concirn. Misspelled words?

► Write *unexplored* and *concern* on the board as the students read and spell the words.

2. The county had had its name for centurys. Misspelled words?

► Write *centuries* on the board as the students read and spell the word.

3. One evening during their visit to the country, they sat on the fense and gazed at a beautyful sunset. Misspelled words?

► Write *fence* and *beautiful* on the board as the students read and spell the words.

4. She's describing how a magnit attracts the oppasite end of another magnut. Misspelled words?

► Write *magnet*, *opposite*, and *magnet* on the board as the students read and spell the words.

5. The alarm rang in the smokey kitchin when he burned the roles. Misspelled words?

► Write *smoky*, *kitchen*, and *rolls* on the board as the students read and spell the words.

► Record Words Missed in Proofreading

If there are misspelled words that the students did not find in proofreading, have them turn back to pages 66 and 67 and write **S** next to each word missed. If there are any words that they did not write correctly, have them write **S** next to those words on pages 66 and 67. These are words the students especially need to study.

Partner Study

► Pre-spelling: Syllables *-tion* and *-sion*

I will show you clues for **t-i-o-n** and **s-i-o-n**.

confession I will write *confession*. The word *confession* is related to the word *confess*.

► Write *confess* on the board.

Confess ends with **s-s**. In *confession* the last syllable is **s-i-o-n**.

► Add *ion*.

Confession. Here are other examples.

impression The word *impression* is related to *impress*. Spell the last syllable of *impression*. (Students: s-i-o-n)

expression The word *expression* is related to *express*. Spell the last syllable of *expression*. (Students: s-i-o-n)

► Partner Study

Have your students open their spelling books to pages 66 and 67. Remind them how to study their spelling words with a partner. In partner study the students take turns telling each other which word they choose to spell aloud and which parts of the word are hard to spell. For example, one student says, “I will spell number 22, *border*. The hard part is **e-r**.” She covers the word and spells it aloud as her partner checks. If she makes a mistake, both partners cover the word and spell it together. The partner who made the mistake writes **S** in front of the word to remind her to study it.

You may want to model the partner study before your students begin.

Spelling Discussion

▶ Teacher Background

The purpose of today’s discussion is to help your students think about proofreading their writing for spelling. In the drafting stage of writing, the students’ focus should be on recording their ideas without stopping to worry about spelling, but in the revision/proofreading stage, the students should pay careful attention to spelling.

▶ Pre-spelling: Syllables *-tion* and *-sion*

I will show you clues for **t-i-o-n** and **s-i-o-n**.

conclusion I will write *conclusion*. I have two clues about the last syllable. First, the last syllable is /zhən/. The syllable /zhən/ is usually spelled **s-i-o-n**. My second clue is that *conclusion* is related to *conclude*.

▶ Write *conclude* on the board.

Conclude ends with **d-e**. If a /zhən/ word like *conclusion* is related to a word that ends with **d-e** like *conclude*, /zhən/ is spelled **s-i-o-n**.

▶ Write *conclusion* on the board.

Conclusion. Here are other examples.

collision The word *collision* is related to *collide*. Spell the last syllable of *collision*. (Students: s-i-o-n)

decision The word *decision* is related to *decide*. Spell the last syllable of *decision*. (Students: s-i-o-n)

invasion The word *invasion* is related to *invade*. Spell the last syllable of *invasion*. (Students: s-i-o-n)

► Spelling Discussion

One part of proofreading your writing is to be sure your spelling is correct. When you proofread, how do you check your spelling? How do you identify any mistakes and correct them?

Students might say:

“I know that some words are hard to spell, so I make sure to check those.”

“I read the polysyllabic words by syllables and look at each syllable.”

“I check whether I spelled the schwas correctly.”

“I see whether I’ve added the suffixes correctly. For example, did I double the last consonant or drop *e* correctly?”

“There are some words I’ve misspelled before, so I check those.”

“I hold a card under the line to help me notice each word.”

“I point to each word as I check.”

“I make sure my handwriting is clear.”

“I look the word up in a dictionary or the back of my *Student Spelling Book*, or I use a spell-checker.”

► Partner Study

If time permits, have the students study the review words on pages 66 and 67 with their partners, as on Day 3 of this week. This is a brief activity of 1 or 2 minutes.

Weekly Test

For details about the weekly test, see page 93.

ADVANCED SPELLERS CONTINUE

21. confusing This assignment was so confusing that I had to ask for help.
22. fortune Andrew Carnegie earned a fortune through steel manufacture.

▶ Ongoing Assessment of Spelling Progress

Take some time to assess the progress of your students.

Were there many errors on application words numbers 1 and 2 (the words the students did not study) and on other words with suffixes, such as *satisfied*, *preparing*, and *applying*? You may need to provide more support during daily guided spelling. For example, before the students spell a word with a suffix, have them reread the related generalization on page 184 or 185.

Were there many errors on memory parts of words? The memory parts are the letter sequences that must be memorized because they can't be figured out using knowledge of phonics or word structure. Examples are the underlined letters in the following words: *concern*, *immediate*, and *succeed*. If the students are making errors on the memory parts, discuss the importance of spelling homework. Be sure the students and parents understand the homework instructions and the importance of using the three memory steps.

If you have been differentiating instruction, are your below-grade-level, average, and advanced spellers correctly designated? Consider the students' performance on all spelling tests to date. If some students have consistently made several errors on the tests, consider having them memorize fewer words each week. If average spellers have made no errors on the tests, they may be able to learn the challenge words each week. Consider student effort as well as performance, however. Some students with perfect tests may have studied intensely and would find it difficult to memorize additional words.

Do your students need encouragement to transfer their knowledge from *Guided Spelling* lessons to their writing? When they ask how to spell a word during writing, have them ask about the *parts* of the word they're not sure of. Provide the guiding and assistance that you would provide during a *Guided Spelling* lesson.

Syllables *-tion* and *-sion*

► New Content

Related words are often clues for spelling *-tion* and *-sion*. See the chart on the following page for examples.

► Teacher Background

Make a copy of the Week 13 homework (*Blackline Masters* page 18) for each student.

The syllables *-tion* and *-sion* are a challenge in English spelling:

- The written syllable *-tion* has various pronunciations, as in *nation*, *suggestion*, and *equation*. The written syllable *-sion* has two common pronunciations, as in *division* and *mission*.
- The spoken syllable /shən/ has many spellings, for example, *nation*, *mission*, *musician*, *fashion*, and *ocean*. In guided spelling you will teach that the spoken syllable /shən/ is usually spelled **tion**.
- The spoken syllable /zhən/ is usually spelled **sion** but there are exceptions, as in *equation*.

The chart on the following page provides clues to help students decide when to use *-sion* and when to use *-tion*. These clues are taught during guided spelling this week.

In the pre-spelling activities, which begin on Day 2 of this week, the students will practice asking how to spell the last syllable of words that end with the sounds /əl/, such as *stumble*, *final*, and *level*, in preparation for Week 14 guided spelling.

Week 13 Day 1

► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 70 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. protection. Number 1: protection. Seatbelts protect us, and their protection makes us safer.
Pro-tec-tion. ■ The first syllable has a schwa. In the first syllable, underline **o**. Underline **t-i-o-n**. ■ Find the word *protect* in the sentence. Draw a circle around the clue **c-t**.
2. division. Number 2: division. This math problem requires division, so you will have to divide.
Di-vi-sion. ■ In the first syllable, underline **i**. Underline **s-i-o-n**. ■ Find the word *divide* in the sentence. Draw a circle around the clue **d-e**.
3. operation Number 3: operation. It's an unusually long operation when the doctors have to operate for seven hours.
Op-er-a-tion. ■ Underline **e-r**. Underline **t-i-o-n**. ■ Find the word *operate* in the sentence. Draw a circle around the clue **t-e**.
4. expression Number 4: expression. She likes to express herself with the expression "OK!"
Ex-pres-sion. ■ Underline **s-i-o-n**. ■ Find the word *express* in the sentence. Draw a circle around the clue **s-s**.
5. permission Number 5: permission. When their parents permit them to go to the park, they give permission.
Per-mis-sion. ■ Underline **e-r**. Underline **s-i-o-n**. ■ Find the word *permit* in the sentence. Draw a circle around the clue **i-t**.
6. suggestion. Number 6: suggestion. When you suggest a plan, you are making a suggestion.
Sug-ges-tion. ■ The first syllable has a schwa. Underline **u**. Underline **t-i-o-n**. ■ Find the word *suggest* in the sentence. Draw a circle around the clue **s-t**.

7. motionless. Number 7: motionless. While playing hide-and-seek, the girl tried to remain motionless so no one would find her.
Mo-tion-less. ■ Underline **t-i-o-n**. -Less is a suffix.
8. instructions. Number 8: instructions. When your teachers give instructions, they instruct you.
In-struc-tions. ■ Underline **t-i-o-n**. ■ Find the word *instruct* in the sentence. Draw a circle around the clue **c-t**.
9. degrees. Number 9: degrees. It is only 30 degrees outside!
De-grees. ■ In the first syllable, underline **e**. In the second syllable, underline **e-e**.
10. furry. Number 10: furry. My mother complains that our furry cat sheds all over the rug.
Fur-ry. ■ The base word is *fur*. Underline **u-r**. The **r** was doubled, and then the suffix **y** was added.
11. hungrier. Number 11: hungrier. “I’m hungrier than a bear!” my brother exaggerated.
Hun-gri-er. ■ The base word is *hungry*. The **y** was changed to **i** before the suffix **e-r**.
12. background Number 12: background. In the background of the photo were snow-capped mountains.
Back-ground. ■ *Background* is a compound word. Underline **o-u**.
13. captain’s Number 13: captain’s. Following the captain’s orders, the men lowered the mainsail.
Cap-tain’s. ■ *Captain’s* is a possessive noun. Start underlining *captain’s*, but stop when you get to the apostrophe. What have you underlined? (Students: *captain*) The part you underlined shows that there is just one captain.
Underline **a-i**.
14. earn Number 14: earn. On Fridays I babysit for my cousin to earn some spending money.
Underline **e-a-r**.
15. daughter Number 15: daughter. The woman and her young daughter held hands as they walked to the park.
Daugh-ter. ■ Underline **a-u-g-h**. Underline **e-r**.

MNEMONIC The vowel sound in the first syllable of *daughter* sounds the same and is spelled the same as the vowel sound in *caught* and *taught*: **a-u-g-h**.

NUMBERS 16–25 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- | | |
|-----------------|--------------|
| 16. *children's | 21. stomach |
| 17. *giant's | 22. rather |
| 18. *its | 23. announce |
| 19. *nurses' | 24. farther |
| 20. *giants' | 25. defining |

► Guided Spelling

► Have your students turn to page 72.

1. protection. Number 1: protection. Seatbelts protect us, and their protection makes us safer. Say *protection*.

Student/Teacher Narrative
Guided Spelling section
(protection, suggestion,
operation, instructions)

Say *protection* by syllables. ■ The first syllable has a schwa. For spelling say *pro-tec-tion*. ■ First syllable? ■ (Offer help.) Write *pro-*.

Second syllable? ■ Write *-tec-*.

Third syllable?

THINK Let's think about two clues. First, the syllable /shən/ is usually spelled **t-i-o-n**. Second, *protection* is related to *protect*. When a word that ends with /shən/ is related to a word that ends with consonant-**t**, /shən/ is spelled **t-i-o-n**. Finish writing *protection*. (Check.)

2. division. Number 2: division. This math problem requires division, so you will have to divide. Say *division*.

Say *division* by syllables. ■ For spelling say *di-vi-sion*. ■ First syllable? ■ Write *di-*.

Second syllable? ■ Write *-vi-*.

Last syllable?

THINK Let's think about two clues. First, the syllable /zhən/ is usually spelled **s-i-o-n**. Second, *division* is related to *divide*. *Divide* ends with **d-e**. If a /zhən/ word is related to a word that ends with **d-e**, /zhən/ is spelled **s-i-o-n**. Finish writing *division*. (Check.)

3. permission Number 3: permission. When their parents permit them to go to the park, they give permission. Say *permission*.

Say *permission* by syllables. ■ For spelling say *per-mis-sion*. ■ First syllable? ■ Question? ■ Use the first spelling under the “robot” picture. Write *per-*.

Second syllable? ■ Write *-mis-*.

Last syllable?

THINK Let’s think about a clue. *Permission* is related to *permit*. When a word that ends with /shən/ is related to a word that ends with **i-t**, the syllable /shən/ is spelled **s-i-o-n**. Another example is that *admission* is related to *admit*. Finish writing *permission*. (Check.)

4. suggestion Number 4: suggestion. When you suggest a plan, you are making a suggestion. Say *suggestion*.

Say *suggestion* by syllables. ■ The first syllable has a schwa. For spelling say *sug-ges-tion*. ■ First syllable? ■ (Offer help.) Write *sug-*.

Second syllable? ■ Write *-ges-*.

Last syllable?

THINK Let’s think about a clue. *Suggestion* is related to *suggest*. When a word that ends with /chən/ is related to a word that ends with **s-t**, /chən/ is spelled **t-i-o-n**. Finish writing *suggestion*. (Check.)

NOW YOU’LL WRITE FOUR WORDS INDEPENDENTLY.

If you’re not sure how to spell part of the word, raise your hand to ask me. I will write the answer.

5. operation Number 5: operation. It’s an unusually long operation when the doctors have to operate for seven hours. Say *operation*.

I’ll say the syllables for spelling: *op-er-a-tion*. Write *operation*. (Check.)

6. motionless Number 6: motionless. While playing hide-and-seek, the girl tried to remain motionless so no one would find her. Say *motionless*.

Write *motionless*. (Check.)

7. expression Number 7: expression. She likes to express herself with the expression “OK!” Say *expression*.

I’ll say the syllables for spelling: *ex-pres-sion*. Write *expression*. (Check.)

8. instructions. Number 8: instructions. When your teachers give instructions, they instruct you. Say *instructions*.
Write *instructions*. (Check.)

▶ **Introduce the Homework**

Hand out the Week 13 homework.

▶ **Record Words Missed**

Return the students' spelling tests from Week 12. Have them turn to pages 66 and 67 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Week 13 Day 2

▶ Teacher Background

In the pre-spelling activities this week, the students will practice asking how to spell the last syllable of words that end with the sounds /əl/, as in *stumble*, *final*, and *level*, in preparation for Week 14 guided spelling.

▶ Pre-spelling: Sounds /əl/ at the End

▶ Write on the board: example mental travel
fossil symbol

The sounds /əl/ at the end of a polysyllabic word are spelled several ways. You will usually use **l-e** or **a-l**, but sometimes you will use **e-l**, **i-l**, or **o-l**.

I will say a word. You ask, “How do we spell the last syllable?”

grumble *Grumble*. (Students: How do we spell the last syllable?) The syllable *-ble* is spelled **b-l-e**.

vessel. *Vessel*. (Students: How do we spell the last syllable?) The syllable *-sel* is spelled **s-e-l**.

equal *Equal*. (Students: How do we spell the last syllable?) The syllable *-qual* is spelled **q-u-a-l**.

▶ Guided Spelling

▶ Have your students turn to page 73.

l. furry. Number l: furry. My mother complains that our furry cat sheds all over the rug. Say *furry*.

Base word? ■ Question? ■ Use the third spelling under the “robot” picture. Write *fur*.

Furry. What do you have to decide? (Students: Do we double?) Does *fur* have one vowel? (Students: yes) One consonant after the vowel? (Students: yes) *Furry*. Suffix? ■ The letter **y** at the end of a word is a vowel. Does the suffix begin with a vowel? (Students: yes) Will you double? (Students: yes) Finish writing *furry*. (Check.)

2. explosion Number 2: explosion. They like to watch fireworks explode because they like the explosion of colors. Say *explosion*.
Say *explosion* by syllables. ■ First syllable? ■ Write *ex-*.
Second syllable? ■ Write *-plo-*.
Last syllable?
THINK Let's think about two clues. First, the syllable /zhən/ is usually spelled **s-i-o-n**. Second, *explosion* is related to *explode*. *Explode* ends with **d-e**. If a /zhən/ word is related to a word that ends with **d-e**, /zhən/ is spelled **s-i-o-n**. Finish writing *explosion*. (Check.)
3. captain's Number 3: captain's. Following the captain's orders, the men lowered the mainsail. Say *captain's*.
HISTORY Several English words come from the Latin word *caput*, meaning *head*. For example, a state capital is the head city of a state. The captain is the head of the ship.
The captain's orders. What do we call the word *captain's*? (Students: possessive noun) How many captains are there, one or more than one? (Students: one) *Captain*. The vowel sound in the second syllable is spelled **a-i**. Write *captain*. ■ *The captain's orders*. Make *captain* possessive by adding apostrophe-s. (Check.)
4. inspection Number 4: inspection. The teacher will inspect the desks carefully during monthly desk inspection. Say *inspection*.
Say *inspection* by syllables. ■ First syllable? ■ Write *in-*.
Second syllable? ■ Write *-spec-*.
Third syllable?
THINK Let's think about two clues. First, the syllable /shən/ is usually spelled **t-i-o-n**. Second, *inspection* is related to *inspect*. When a word that ends with /shən/ is related to a word that ends with consonant-t, /shən/ is spelled **t-i-o-n**. Finish writing *inspection*. (Check.)
5. degrees. Number 5: degrees. It is only 30 degrees outside! Say *degrees*.
Base word? ■ Say *degree* by syllables. ■ For spelling say *de-gree*. ■ First syllable? ■ (Offer help.) Write *de-*.
Second syllable? ■ Careful. The end is spelled **e-e**. Finish writing *degrees*. (Check.)

6. congratulations Number 6: congratulations. Congratulations! I couldn't wait to congratulate you on winning! Say *congratulations*.

Say *congratulations* by syllables. ■ The first and third syllables have schwas. For spelling say *con-grat-u-la-tions*. ■ First syllable? ■ (Offer help.) Write *con-*.

Second syllable? ■ Careful. It's spelled **g-r-a-t**. Write *-grat-*.

Third syllable? ■ (Offer help.) Write *-u-*.

Next syllable? ■ Write *-la-*.

Last syllable?

THINK Let's think. *Congratulations* is related to *congratulate*. When a word that ends with /shən/ is related to a word that ends with **t-e**, the syllable /shən/ is spelled **t-i-o-n**. Finish writing *congratulations*. (Check.)

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. earn Number 7: earn. On Fridays I babysit for my cousin to earn some spending money. Say *earn*.

Write *earn*. (Check.)

8. background Number 8: background. In the background of the photo were snow-capped mountains. Say *background*.

Write *background*. (Check.)

9. daughter Number 9: daughter. The woman and her young daughter held hands as they walked to the park. Say *daughter*.

ADVANCED SPELLERS CONTINUE

Syllables Ending in Consonant-l-e and Consonant-a-l

► New Content

Final syllables that end with /əl/ are usually spelled consonant-**l-e**, as in *gentle* and *article*, or consonant-**a-l**, as in *capital* and *metal*.

► Teacher Background

Make a copy of the Week 14 homework (*Blackline Masters* page 19) for each student.

When the last syllable of a polysyllabic word ends with the sounds /əl/, the syllable usually ends with **le** or **al**, as in *ankle* and *hospital*. Sometimes it ends with **el**, **il**, or **ol**, as in *camel*, *fossil*, and *capitol*.

Words with the last syllable /kəl/ may be spelled **cle** as in *uncle*, **kle** as in *ankle*, and **cal** as in *focal*. When a word ends with **ckle**, the syllable boundary is before **le**, as in *pick-le* and *tack-le*.

The students will be introduced to a syllable construction this week. A *consonant-l-e syllable* is the last syllable of a base word and consists of a consonant followed by **le**, as in *sample* and *bundle*.

When you and the students pronounce words by syllables, there should be a pause between syllables to indicate the syllable boundary clearly. For example, say “min...er...al,” not “minnerral.”

When countries and other parts of the world are mentioned in the history notes, point them out on a map.

In the pre-spelling activities, which begin on Day 2 this week, the students will practice adding suffixes to base words.

► **Introduce the Homework**

Hand out the Week 14 homework.

► **Record Words Missed**

Return the students' spelling tests from Week 13. Have them turn to pages 70 and 71 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

MEMORY STEPS Do the memory steps for *gentle*.

Week 14 Day 4

► Pre-spelling: Base Words and Suffixes

Help me add suffixes to base words.

politeness ► Write on the board: polite + ness

Politeness. She appreciated her class's politeness. Base word? (Students: polite) What do we have to decide? (Students: Do we drop e?) Does the base word end with consonant-e? (Students: yes) Does the suffix begin with a vowel? (Students: no) For *politeness*, do we keep e or drop e? (Students: keep e) *Politeness.*

► Write *politeness* on the board.

classifying ► Write on the board: classify + ing

Classifying. The students were classifying rocks by color and weight. What do we have to decide? (Students: Do we change y to i?) Does *classify* end with a consonant and then y? (Students: yes) The suffix begins with i. What will we do now? (Students: just add -ing) *Classifying.*

► Write *classifying* on the board.

► Guided Spelling

► Have your students turn to page 81.

1. sleepiest Number 1: sleepiest. We all were tired, but my little brother was the sleepiest by far. Say *sleepiest*.

The base word is *sleep*. Question? ■ Use the second spelling under the “tree” picture. Write *sleep*.

Sleepiest has two suffixes. First suffix? (Students: y) The base word has two vowels, so you will not double. Just add y.

Sleepiest. What do you have to decide? (Students: Do we change y to i?) Does *sleepy* end with a consonant and then y? (Students: yes) Suffix? (Students: -est) Does the suffix begin with a letter that is not i? (Students: yes) Will you change y to i? (Students: yes) Finish writing *sleepiest*. (Check.)

Syllables with *-ive*, *-ture*, and *-age*

► New Content

Final syllables that end with the sounds /iv/ usually end with *-ive*, as in *native* and *expressive*.

When the last syllable of a base word is /chər/, it is usually spelled *-ture*, as in *future* and *nature*.

Final syllables that end with the sounds /ij/ (often pronounced /əj/) usually end with *-age*, as in *damage* and *storage*.

► Teacher Background

Make a copy of the Week 15 homework (*Blackline Masters* page 20) for each student.

Final syllables that end with the sounds /ij/ (often pronounced /əj/) usually end with *-age*, but *knowledge* and *acknowledge* are exceptions.

Reminders:

- Be sure your class understands that guided spelling is not a test. The students should listen to your step-by-step guidance so that they write the words correctly.
- Encourage your students to ask questions, even in the items they write independently. *Knowing when we don't know* is an important metacognitive ability in spelling.
- Teach the lessons at a fairly quick pace. Difficult concepts will be reviewed many times.
- If some of the students make a mistake in a choral response, tell the class the correct answer and repeat the question.

The pre-spelling activities, which begin on Day 2 this week, focus on the word parts *-able* and *-ible* in preparation for guided spelling in Week 16.

► **Student Study**

Have the students turn to pages 76 and 77. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

Weekly Test

For details about the weekly test, see page 93.

ADVANCED SPELLERS CONTINUE

Word Parts *-able* and *-ible*

► New Content

The word parts *-able* and *-ible* are common, as in *vegetable* and *horrible*. They are often suffixes, as in *acceptable* and *collapsible*.

► Teacher Background

Make a copy of the Week 16 homework (*Blackline Masters* page 21) for each student.

The word parts *-able* and *-ible* are often misspelled because of their identical or nearly identical pronunciation. Dictionaries generally show the pronunciation of *-able* as /əbəl/ and *-ible* as /əbəl/ or /ɪbəl/.

One additional guiding point is introduced this week: base words that end with **ce** or **ge** are exceptions to the drop **e** generalization when the suffix begins with **a** or **o**, as in *rechargeable* and *courageous*.

The pre-spelling activities, which begin on Day 2 this week, focus on two types of related words: first, words that end in *-ble* and *-bly*, such as *acceptable* and *acceptably*; second, words that end in *-al* and *-ally*, such as *national* and *nationally*.

Words Used This Week

Review of Weeks 11, 13, 14, 15, and 16

► Teacher Background

Duplicate the three homework pages for this week (*Blackline Masters* pages 23–25).

The structure of the review weeks is as follows:

Day 1: Pretest

Day 2: Proofreading with a partner

Day 3: Study for the review test with a partner

Day 4: Class discussion on spelling

Day 5: Review week test

See Week 6, page 112, for more details about the structure of the review weeks.

For information on differentiating instruction based on your students' needs, see Week 2, pages 29–30.

In the pre-spelling activities, which begin on Day 2 of this week, you will model ways for students to memorize the spelling of words.

Pretest

► Administer the Pretest

► Have your students turn to page 102 in their *Student Spelling Books*. Explain that this week they will review ten words each from Weeks 11, 13, 14, 15, and 16. The pretest in this lesson will help them identify words they especially need to study.

1. replying

He was replying to the question when he was interrupted.

2. gentle

The girl had a very gentle horse for her first ride.

3. daughter

My mother is the only daughter in her family.

4. furniture

Occasionally it is fun to rearrange the furniture.

5. hungrier

After basketball practice, he was hungrier than ever.

6. motionless

It was so hot that the dogs lay almost motionless under the porch.

7. damaged

My library book got damaged in the rain, and I had to pay for it.

8. announce

They will announce the winners soon.

9. its

14. camera

My family always takes a camera on vacation.

15. comfortable

The teacher reminded the students to wear comfortable shoes for the hike.

► Correct the Pretest

Read and spell the 15 words out loud. For each word, have the students point under each letter in their word as you spell. If they did not spell a word correctly, have them draw a line through the word.

▶ Record Words Missed on the Pretest

Have the students turn back to pages 100 and 101. These are the words that will be reviewed this week. If they missed any words on the pretest, have them find the words here and write **S** in front of each one. These are the words that they especially need to study.

▶ Introduce the Homework

Hand out the homework for Week 18. There are three pages of homework this week. The students will practice every review word.

▶ Record Words Missed on Last Week's Test

Return the students' spelling tests from Week 17. Have them turn to pages 94 and 95 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Proofreading

► Pre-spelling: Memorizing Words

► Write on the board: sister's sisters'

Let's think about how to memorize the spelling of words.

sister's, sisters' Two of the words that you are reviewing this week are the singular possessive noun *sister's* and the plural possessive noun *sisters'*. To spell these words correctly, you need to listen to the sentence. Think about whether the sentence is about one sister or more than one sister. If the sentence is about one sister, write *sister* and then add apostrophe-**s**. If the sentence is about more than one sister, write the plural nouns *sisters* first. Then just add an apostrophe.

► Partner Proofreading

Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three.

Have your students open their books to page 103. The sentences on this page include many words that the students have studied, but some of them are misspelled. Have the students read the sentences with their partners and look for the misspelled words. Then have the students work individually to draw a line through each misspelled word and write the correct word above it. There may be a sentence with all words correct.

As the students work, monitor and assist those who need extra support in proofreading.

► Correct Sentences Together

► Read each sentence. Have the students tell you each word that is misspelled and how to spell it correctly. Write the correct word on the board. If the students made a mistake, have them draw a line through the incorrect word.

1. The two sister's dog was furry and adorable, but also very excitable. Misspelled words?

▶ Write *sisters'* on the board as the students read and spell the word.

2. Tomorrow the childrens' relative's will arrive for a visit. Misspelled words?

▶ Write *tomorrow*, *children's*, and *relatives* on the board as the students read and spell the words.

3. The dictionary is a valueable tool for difining difficult words. Misspelled words?

▶ Write *dictionary*, *valuable*, and *defining* on the board as the students read and spell the words.

4. My sisters responsibly asked our parents' permission to go to the discount store. Misspelled words?

▶ Write *responsibly* and *permission* on the board as the students read and spell the words.

5. This artical contains the explanation of the knee operasion. Misspelled words?

▶ Write *article* and *operation* on the board as the students read and spell the words.

▶ Record Words Missed in Proofreading

If there are misspelled words that the students did not find in proofreading, have them turn back to pages 100 and 101 and write **S** next to each word missed. If there are any words that they did not write correctly, have them write **S** next to those words on pages 100 and 101. These are words the students especially need to study.

Partner Study

► Pre-spelling: Memorizing Words

► Write *valuable* on the board.

Let's think about how to memorize the spelling of words.

valuable One word that you are reviewing this week is *valuable*. It helps to say and exaggerate the four syllables for spelling: *val-ū-ā-ble*.

► Partner Study

Have your students open their spelling books to pages 100 and 101. Remind them how to study their spelling words with a partner. In partner study, the students take turns telling each other which word they choose to spell aloud and which parts of the word are hard to spell. For example, one student says, "I will spell number 9, *stomach*. The hard parts are **o** and **a-c-h**." He covers the word and spells it aloud as his partner checks. If he makes a mistake, both partners cover the word and spell it together. The partner who made the mistake writes **S** in front of the word to remind him to study it.

You may wish to model the partner study before your students begin.

Spelling Discussion

▶ Teacher Background

The purpose of today’s spelling discussion is to identify resources for spelling and to consider the advantages and disadvantages of each.

▶ Pre-spelling: Memorizing Words

▶ Write *noticeable* on the board.

Let’s think about how to memorize the spelling of words.

noticeable. One word that you are reviewing this week is *noticeable*. There are three hard parts to remember. First, the end of the base word is **i-c-e**. Second, the suffix is **a-b-l-e**. Third, we don’t drop **e** before a suffix that begins with **a** or **o** because we want **c** to keep the sound /s/.

For some words you can make up a mnemonic sentence that will remind you of the hard parts, for example, *I was able to notice the ice even though it was dark.*

▶ Spelling Discussion

There are times when we just can’t figure out the correct spelling of a word. We need to consult a resource. Let’s name the resources we can use for spelling and think about the advantages and disadvantages of each one.

Students might say:

“The ‘dictionary and personal word list’ in the *Student Spelling Book*.”

Advantages:

“It’s handy because it’s in the back of my *Student Spelling Book*.”

“It’s easy to look up words in it.”

“I can add words that are hard for me and find them quickly.”

Disadvantages:

“It contains only the words that we are studying in spelling this year.”

“It doesn’t tell me which homophone a word is.”

“The ‘frequently misspelled words’ list in the *Student Spelling Book*.”

Advantages:

“It’s in the back of my *Student Spelling Book*.”

“It’s easy to look up words.”

“I can write on it and mark the words that I often miss.”

“If a word is a homophone, it tells me which one.”

Disadvantages:

“There are some words that I misspell often that are not on this list.”

“The dictionary.”

Advantages:

“The dictionary has information that I might need or be interested in: syllables, pronunciation, definitions, the word in a sentence, the history of the word, illustrations.”

“If a word is a homophone, it tells me which one.”

Disadvantages:

“I don’t have a dictionary at my desk.”

“The dictionary is so large that it takes time to look up the word.”

“If I don’t know how to spell the word correctly, it might be hard to find. For example, if I don’t know that *koala* begins with **k**, I would be looking under **c**.”

“A spell-checker on a computer.”

Advantages:

“It shows me which words might be misspelled.”

“It gives me choices of correctly spelled words. Often I recognize the word I need.”

“It’s quick.”

Disadvantages:

“It doesn’t mark all the incorrect words. If I wrote the wrong homophone, the spell-checker won’t know.”

“Sometimes I don’t know which choice is the word I’m trying to use.”

“It doesn’t know whether I have spelled a possessive correctly.”

 **Partner Study**

If time permits, have the students study the review words on pages 100 and 101 with their partners, as on Day 3 of this week. This is a brief activity of 1 or 2 minutes.

Weekly Test

For details about the weekly test, see page 93.

Ongoing Assessment of Spelling Progress

Take some time to assess the progress of your students.

Were there many mistakes on possessive nouns and pronouns, numbers 7, 11, and 17? If so, reteach the pre-spelling activities in Week 10. Were there many errors on *-tion* and *-sion*, numbers 6 and 10? If so, reteach the pre-spelling activities in Weeks 11 and 12.

Were there many errors on memory parts of words? The memory parts are the letter sequences that must be memorized because they can't be figured out using knowledge of phonics or word structure. Examples are the underlined letters in the following words: *noticeable*, *captain's*, and *muscles*. If the students are making errors on the memory parts, discuss the importance of spelling homework. Be sure the students and parents understand the homework instructions and the importance of using the three memory steps.

If you have been differentiating instruction, are your below-grade-level, average, and advanced spellers correctly designated? Consider the students' performance on all spelling tests to date. If some students have consistently made several errors on the tests, consider having them memorize fewer words each week. If average spellers have made no errors on the tests, they may be able to learn the challenge words each week. Consider student effort as well as performance, however. Some students with perfect tests may have studied intensely and would find it difficult to memorize additional words.

Do your students need encouragement to transfer their knowledge from *Guided Spelling* lessons to their writing? When they ask how to spell a word during writing, have them ask about the *parts* of the word they're not sure of. Provide the guiding and assistance that you would provide during a *Guided Spelling* lesson.

Syllables with *-ant* and *-ent*

► New Content

Final syllables that end with *-ant* and *-ent* are common, as in *abundant* and *silent*. They are often suffixes, as in *defiant* and *dependent*.

► Teacher Background

Make a copy of the Week 19 homework (*Blackline Masters* page 26) for each student.

-Ant and *-ent* at the end of a polysyllabic word are often misspelled because of their identical pronunciation. Both have a schwa.

When you and the students pronounce words by syllables, there should be a pause between syllables to indicate the syllable boundary clearly. For example, say “pleas...ant,” not “pleassant.”

In the pre-spelling activities, which begin on Day 2 of this week, the students will practice using related words as clues for spelling unaccented syllables. For example, *define* is a clue for *definition*.

► Words Used This Week

NEW WORDS	*independent, *servant, *excellent, *pleasant, *silent, *present (2), *accidentally, *content (2), disposable, needle, marriage, reasonable, enormous, remove, improve
REVIEW WORDS	*tightly, *easily, *truly, *curious, *tremendous, reusable, situation, signal, calm, detective
CHALLENGE WORDS	proficient, pearl, opponent, reluctant, resident
APPLICATION WORDS ON THE TEST	courageous, beautifully, independently, presents, pleasanter
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	dependent, consonants, participants, especially, improving, resident, responsible, seven hundred fourteen, reluctantly, removed
FREQUENTLY MISSPELLED WORDS	fourteen

► **Introduce This Week's Words**

► Have your students open their *Student Spelling Books* to page 104 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

Some English words, such as *independent* and *servant*, end with the sounds /ənt/. You need to remember whether the end is spelled **e-n-t** or **a-n-t**.

1. independent Number 1: independent. The American colonies declared themselves independent in 1776.
In-de-pend-ent. ■ In the second syllable, underline **e**. ■ In the last syllable, underline **e-n-t**.
2. servant Number 2: servant. When she first arrived in the United States, my grandmother worked as a servant.
Serv-ant. ■ Underline **e-r**. Underline **a-n-t**.
3. excellent Number 3: excellent. His handwriting is excellent.
Ex-cel-lent. ■ Underline **c**. The second syllable has a schwa. In the second syllable, underline **e**. ■ Underline **e-n-t**.
4. pleasant Number 4: pleasant. A pleasant smell wafted up from the kitchen.
Pleas-ant. ■ Underline **e-a**. Underline **a-n-t**.
MNEMONIC Here is a mnemonic. *Pleasant* is related to *please*. That will help you remember **e-a** in *pleasant*.
5. silent Number 5: silent. "Please take out a book for silent reading time," our teacher said.
Si-lent. ■ Underline **e-n-t**.
6. present, present. Number 6: present, present. The class will present a farewell present to their teacher.
This word can be pronounced two ways. First, *present*. The syllable boundary is after the first **e**. ■ *The class will present a gift*. Underline the first **e**. Underline **s**.

The second pronunciation is present. The syllable boundary is after **s**. ■ *They gave her a present.* Underline **s**. Underline **e-n-t**.

7. accidentally Number 7: accidentally. I accidentally dropped my pencil, and now I can't find it.

Ac-ci-den-tal-ly. ■ Underline **e-n-t**. Underline **a-l**.

8. content, content Number 8: content, content. She was content with the content of her new book about oceans.

This word can be pronounced two ways. First, content. The syllable boundary is after the first **n**. ■ *She was content with her book.* The first syllable has a schwa. Underline **o**.

Second, content. The syllable boundary is after the first **n**. ■ *She liked the content of the book.*

9. disposable Number 9: disposable. They used disposable cups on the picnic.

Dis-pos-a-ble. ■ The base word is *dispose*. The **e** was dropped before the suffix **a-b-l-e**. Underline **a-b-l-e**.

10. needle Number 10: needle. To sew on a button, you need a needle and thread.

Nee-dle. ■ Underline **e-e**. Underline **d-l-e**.

11. marriage Number 11: marriage. So far their marriage has lasted more than 50 years.

Mar-riage. ■ Underline **a-r**. Underline **i-a-g-e**.

12. reasonable Number 12: reasonable. The traffic moved along at a reasonable rate, and we arrived on time.

Rea-son-a-ble. ■ Underline **e-a**. ■ Underline **s**. ■ The second syllable has a schwa. Underline **o**. Underline **a-b-l-e**.

13. enormous Number 13: enormous. At the zoo, we saw enormous elephants and tiny baby chimpanzees.

E-nor-mous. ■ Underline **e**. Underline **o-u-s**.

14. remove Number 14: remove. My mother can remove that splinter for you.

Re-move. ■ In the first syllable, underline **e**. ■ In the second syllable, underline **o** and **e**.

15. improve Number 15: improve. I know I need to improve my handwriting.

Im-prove. ■ Underline **o** and **e**.

NUMBERS 16–25 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- | | |
|-----------------|---------------|
| 16. *tightly | 21. reusable |
| 17. *easily | 22. situation |
| 18. *truly | 23. signal |
| 19. *curious | 24. calm |
| 20. *tremendous | 25. detective |

► Guided Spelling

► Have your students turn to page 106.

1. independent Number 1: independent. The American colonies declared themselves independent in 1776. Say *independent*.
Say *independent* by syllables. ■ For spelling say *in-de-pend-ent*. ■ First syllable? ■ Write *in-*.
Second syllable? ■ (Offer help.) Write *-de-*.
Third syllable? ■ Listen to the sounds: pend. Write *-pend-*.
Last syllable? ■ Ask me, “**a-n-t** or **e-n-t**?” ■ It’s **e-n-t**. Finish writing *independent*. (Check.)

These two words are spelled the same way. Use one word as a clue. Write the word. (Check.)

► **Introduce the Homework**

Hand out the Week 19 homework.

► **Record Words Missed**

Return the students' spelling tests from Week 18. Have them turn to pages 100 and 101 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Week 19 Day 2

► Teacher Background

In the pre-spelling activities this week, the students will practice using related words as clues for spelling unaccented syllables. For example, *define* is a clue for *definition*.

► Pre-spelling: Related Words as Spelling Clues

► Write on the board: define definition

When you *define* a word, you give a *definition*. Related words are often spelling clues. The *i* in *define* is a clue for the second syllable of *definition*.

► Write on the board: comp_tition perf_ct maj_r

competition Competition. He planned to compete in the competition.

What related word is a clue for *competition*? (Students: compete)

► Point to the blank in *comp_tition*.

What letter will finish *competition*? (Students: e)

perfect. Perfect. If your paper is perfect, you have achieved perfection.

What related word is a clue for *perfect*? (Students: perfection)

► Point to the blank in *perf_ct*.

What letter will finish *perfect*? (Students: e)

major. Major. If the major part of the class votes yes, we'll have a majority.

What related word is a clue for *major*? (Students: majority)

► Point to the blank in *maj_r*.

What letter will finish *major*? (Students: o)

Student Study

Have the students turn to pages 94 and 95. If they missed a word on the test in Week 17, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

Weekly Test

Syllables with *-ance* and *-ence*

► New Content

Final syllables that end with *-ance* and *-ence* are common, as in *allegiance* and *evidence*. They are often suffixes, as in *attendance* and *correspondence*.

► Teacher Background

Make a copy of the Week 20 homework (*Blackline Masters* page 27) for each student.

Most polysyllabic words ending with the unaccented sounds /əns/ are spelled **ance** or **ence**. An exception is *license*.

Reminders:

- Be sure your class understands that guided spelling is not a test. The students should listen to your step-by-step guidance so that they write the words correctly.
- Encourage your students to ask questions, even in the items they write independently. *Knowing when we don't know* is an important metacognitive ability in spelling.
- Teach the lessons at a fairly quick pace. Difficult concepts will be reviewed many times.
- If some of the students make a mistake in a choral response, tell the class the correct answer and repeat the question.

In the pre-spelling activities, which begin on Day 2 of this week, the students will practice using related words as clues for spelling words that end in *-ant*, *-ance*, *-ent*, and *-ence*.

► Words Used This Week

NEW WORDS	*difference, *distance, *importance, *experience, *sentence, *performance, *balance, *table of contents, whisper, garbage, sensible, peacefully, assistants, review, mirror

 **Introduce the Homework**

Hand out the Week 20 homework.

 **Record Words Missed**

Return the students' spelling tests from Week 19. Have them turn to pages 104 and 105 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Latin Roots *port* and *uni*

► New Content

The Latin root *port* is the root of several English words, for example, *transport* and *export*.

The Latin root *uni* is the root of several English words, for example, *uniform* and *united*.

► Teacher Background

Make a copy of the Week 21 homework (*Blackline Masters* page 28) for each student.

A root is a part of a word that can be traced back to earlier forms of English and the languages from which English is derived. Week 21 introduces the students to word roots using two roots that are easily understood and are used in many words: *port* and *uni*. Knowledge of word roots is useful in English spelling. For example, knowing the spelling and meaning of *uni* helps us spell *uniform*, *unison*, and several other words.

The students may notice that the sound of some roots varies from word to word, as in *uniform*, *unite*, and *unique*. A root may be contained in one syllable, as in *trans-port*, or be parts of more than one syllable, as in *trans-por-ta-tion*.

Although one Greek or Latin root is the source of many English words, the root often has several shades of meaning in modern words. The meaning of the root *port*—*carry*—is fairly obvious in the words *transport*, *export*, and *portable*, but the link of *port* to *support*, *important*, and *opportunity* is complicated. Your students might be interested in investigating the etymologies of the words derived from the roots in Weeks 21 and 23 of the *Guided Spelling* program. (See “Resources for Students” on page 526.) The word histories show how the spellings and meanings have changed over the centuries.

In the pre-spelling activities, which begin on Day 2 of this week, the students will practice building words from a base word.

Week 21 Day 1

► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 116 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

This week we will notice word roots and use them in spelling. A word root is a part of a word that existed in the languages that English came from. We can think of a word root as a part of a word from which whole words grow. For example, the root *port* often means *carry*.

1. port Number 1: port. At a port, ships unload cargo carried from distant places.

Port.

2. transport Number 2: transport. Trucks transport large quantities of fruits and vegetables from farms to stores.

Trans-port.

WORD ROOT *Transport* comes from the Latin root *port*, meaning *carry*. When trucks transport vegetables, they carry them from one place to another. We call *port* a word root. ► **Introduce the Homework**

Hand out the Week 21 homework.

► **Record Words Missed**

Return the students' spelling tests from Week 20. Have them turn to pages 110 and 111 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Week 22 Introduction

Suffixes That Mean *a person who or a thing that*

► New Content

Several suffixes often mean *a person who or a thing that*, for example, *-ist* in *artist* and *-or* in *reflector*.

► Teacher Background

Make a copy of the Week 22 homework (*Blackline Masters* page 29) for each student.

In Week 22, the students will write words with the following suffixes: *-er*, *-or*, *-an*, *-eer*, *-ent*, and *-ist*.

Syllable boundaries do not always reflect the structure of a word. For example, the syllable boundaries of *artistic* are *ar-tis-tic*, but the word consists of the base word *art* plus the suffix *-ist* plus the suffix *-ic*.

In the pre-spelling activities, which begin on Day 2 of this week, the students will practice adding the suffixes *-er*, *-or*, and *-an* to base words and roots.

► Words Used This Week

▶ Record Words Missed

Return the students' spelling tests from Week 21. Have them turn to pages 116 and 117 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Week 22 Day 2

► Teacher Background

In the pre-spelling activity, the students will practice adding the suffixes *-er* and *-or* to base words.

► Pre-spelling: Suffixes *-er* and *-or*

The suffix /ər/, meaning *a person who* or *a thing that*, can be difficult to spell because it might be **e-r** or **o-r**. I will say a word with the suffix /ər/, and you ask, “**e-r** or **o-r**?”

reactor *Reactor*. (Students: e-r or o-r?) It’s **o-r**.

governor *Governor*. (Students: e-r or o-r?) It’s **o-r**.

Student/Teacher Narrative
Introduce This Week's Words section
(medicine, microscope, telephone)

► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 128 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. particles Number 1: particles. Particles are very small pieces.
Par-ti-cles. ■ Underline **c-l-e**.
WORD ROOT The word *particle* comes from the Latin root *part*, meaning *a small piece of*. Many English words have the root *part*.
2. apart Number 2: apart. The puzzle pieces came apart easily.
A-part. ■ The first syllable has a schwa. Underline the first **a**.
3. department Number 3: department. A department is part of a store or office.
De-part-ment. ■ In the first syllable, underline **e**. ■ The last syllable has a schwa. In the last syllable, underline **e**.
4. partly Number 4: partly. If you've partly done your job, you've done some pieces or parts of it.
Part-ly.
5. medicine Number 5: medicine. You need a doctor's prescription to get that medicine.
Med-i-cine. ■ In the first syllable, underline **e**. In the last syllable, underline **c**. Underline **i** and **e**.
WORD ROOT *Medicine* comes from the Latin word *medicus*, meaning *doctor*. The first five letters of *medicus* are **m-e-d-i-c**. Knowing the root **m-e-d-i-c** will help you spell words like *medical*, *medication*, and *medicine*.
6. microscope Number 6: microscope. With a microscope, we can see very small objects.
Mi-cro-scope. ■ The second syllable has a schwa. In the second syllable, underline **o**. In the last syllable, underline **o** and **e**.
WORD ROOT The Greek root *micro* means *small*.

▶ Introduce the Homework

Hand out the Week 23 homework.

▶ Record Words Missed

Return the students' spelling tests from Week 22. Have them turn to pages 122 and 123 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Week 23 Day 2

(Students: a small piece of)
Write *particles*. (Check.)
PARTNER STUDY Turn to your neighbor. Take turns telling each other a word besides *particles* that has the root *part*.
MEMORY STEPS Do the memory steps for *particles*.

► **Student Study**

Have the students turn to pages 122 and 123. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

Weekly Test

For details about the weekly test, see page 93.

Week 24 Introduction

Review of Weeks 17, 19, 20, 21, and 22

► Teacher Background

Duplicate the three homework pages for this week (*Blackline Masters* pages 31–33).

The structure of the review weeks is as follows:

Day 1: Pretest

Day 2: Proofreading with a partner

Day 3: Study for the review test with a partner

Day 4: Class discussion on spelling

Day 5: Review week test

See Week 6, page 112, for more details about the structure of the review weeks.

For information on differentiating instruction based on your students' needs, see Week 2, pages 29–30.

In the pre-spelling activities, which begin on Day 2, the students will spell syllables that come from Greek and Latin number prefixes and roots, for example, *bi* and *cent*.

► Words Used This Week

REVIEW WORDS

*truly, *actually, *curious, *easily, *serious, *proudly, calm, orange, journey, situation, *accidentally, *silent, *excellent, *pleasant, *independent, marriage, disposable, improve, reasonable, enormous, *experience, *difference, *balance, *distance, *importance, *performance, peacefully, mirror, sensible, review, *union, *uniform, *support, *united, *opportunity, absent, breakable, ambulance, painlessly, steady, *musician, *manager, *superintendent, *sailor, *fashion, *engineer, tear (2), innocent, attendance, surrounded

APPLICATION WORDS ON THE TEST

balancing, curiously, accidental, important, superintendents

Week 24 Day 1

Pretest

► Administer the Pretest

Have your students turn to page 136 in their *Student Spelling Books*. Explain that this week they will review ten words each from Weeks 17 and 19 through 22. The pretest in this lesson will help them identify words they especially need to study.

- | | |
|-----------------|--|
| 1. excellent | Their theater performance was excellent. |
| 2. tear | My brothers always manage to tear holes in the knees of their jeans. |
| 3. breakable | The dishes in this box are breakable. |
| 4. distance | We had to calculate the distance the train would go in an hour. |
| 5. engineer | An engineer works closely with the architect when a new building is constructed. |
| 6. review | Don't forget to review your spelling words before the test! |
| 7. sailor | Sometimes a sailor is at sea for months at a time. |
| 8. manager | The band's manager booked their concerts and handled travel arrangements. |
| 9. situation | He wasn't sure how to handle the situation. |
| 10. steady | If you can hold the handlebars steady, you'll have better control of your bike. |
| 11. curious | I was curious to hear what happened while I was away. |
| 12. improve | The weather should improve tomorrow. |
| 13. union | The workers' union negotiated a new contract. |
| 14. reasonable | My mother says I need to be home at a reasonable time. |
| 15. opportunity | I will take the opportunity to see that movie. |

► Correct the Pretest

Read and spell the 15 words out loud. For each word, have the students point under each letter in their word as you spell. If they did not spell a word correctly, have them draw a line through the word.

▶ Record Words Missed on the Pretest

Have the students turn back to pages 134 and 135. These are the words that will be reviewed this week. If they missed any words on the pretest, have them find the words here and write **S** in front of each one. These are the words that they especially need to study.

▶ Introduce the Homework

Hand out the homework for Week 24. There are three pages of homework this week. The students will practice every review word.

▶ Record Words Missed on Last Week's Test

Return the students' spelling tests from Week 23. Have them turn to pages 128 and 129 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Proofreading

▶ Teacher Background

In the pre-spelling activities this week, the students will spell syllables that come from Greek and Latin number prefixes and roots, for example, *bi* and *cent*.

▶ Pre-spelling: Number Syllables

You have already spelled words with *uni*, meaning *one*. This week we'll look at other Greek and Latin numbers that will help you spell.

biped The Latin root *bi* means *two*. It's spelled **b-i**. A biped is an animal with two feet. Spell *bi-* in *biped*. (Students: b-i)

bilingual A bilingual person speaks two languages. Spell *bi-* in *bilingual*. (Students: b-i)

biweekly *Biweekly* means *happening once every two weeks*. Spell *bi-* in *biweekly*. (Students: b-i)

triplets The Greek and Latin root *tri* means *three*. It's spelled **t-r-i**. *Triples* are three siblings born at the same time. What are the first three letters of *triplets*? (Students: t-r-i)

triangle A triangle is a figure with three sides. What are the first three letters of *triangle*? (Students: t-r-i)

trio A trio is a group of three musicians. What are the first three letters of *trio*? (Students: t-r-i)

▶ Partner Proofreading

Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three.

Have your students open their books to page 137. The sentences on this page include many words that the students have studied, but some of them are misspelled. Have the students read the

sentences with their partners and look for the misspelled words. Then have the students work individually to draw a line through each misspelled word and write the correct word above it. There may be a sentence with all words correct.

As the students work, monitor and assist those who need extra support in proofreading.

▶ **Correct Sentences Together**

▶ Read each sentence. Have the students tell you each word that is misspelled and how to spell it correctly. Write the correct word on the board. If the students made a mistake, have them draw a line through the incorrect word.

1. The students proudly displayed their excelent artistic work. Misspelled words?

▶ Write *excellent* on the board as the students read and spell the word.

2. The last syllable must often be memorized, as in *independant, silent, accident, difference, experiance, balence, and disposable*. Misspelled words?

▶ Write *independent, experience, and balance* on the board as the students read and spell the words.

3. The musicans were surounded by swirling dancers. Misspelled words?

▶ Write *musicians and surrounded* on the board as the students read and spell the words.

4. His grandmother advised him to be serous, sensable, and curious on his juorney through life. Misspelled words?

▶ Write *serious, sensible, and journey* on the board as the students read and spell the words.

▶ **Record Words Missed in Proofreading**

If there are misspelled words that the students did not find in proofreading, have them turn back to pages 134 and 135 and write **S** next to each word missed. If there are any words that they did not write correctly, have them write **S** next to those words on pages 134 and 135. These are words the students especially need to study.

Partner Study

► Pre-spelling: Number Syllables

- quart *Quart* is a Latin root meaning *fourth*. It's spelled **q-u-a-r-t**.
A quart is one-fourth of a gallon. Spell *quart*. (Students: q-u-a-r-t)
- quartet A quartet is a group of four musicians. What are the first five
letters of *quartet*? (Students: q-u-a-r-t)
- octopus *Oct* is a Greek and Latin root that means *eight*. It's spelled **o-c-t**.
An octopus has eight arms. What are the first three letters of
octopus? (Students: o-c-t)
- October. In one of the ancient Roman calendars, October was the
eighth month. What are the first three letters of *October*?
(Students: capital-O-c-t)
- octagon An octagon is a figure with eight sides. What are the first three
letters of *octagon*? (Students: o-c-t)

► Partner Study

Have your students open their spelling books to pages 134 and 135. Remind them how to study their spelling words with a partner. In partner study, the students take turns telling each other which word they choose to spell aloud and which parts of the word are hard to spell. For example, one student says, "I will spell number 3, *curious*. The hard parts are the first **u** and the **i**." She covers the word and spells it aloud as her partner checks. If she makes a mistake, both partners cover the word and spell it together. The partner who made the mistake writes **S** in front of the word to remind her to study it.

You may want to model partner study before your students begin.

Spelling Discussion

► Teacher Background

The purpose of today’s spelling discussion is for the students to consider how to improve their spelling beyond spelling lessons.

► Pre-spelling: Number Syllables

decathlon The root *dec*, meaning *ten*, comes from a Greek word. *Dec* is spelled **d-e-c**. In a decathlon, each athlete competes in ten events. What are the first three letters of *decathlon*?
(Students: d-e-c)

December In one of the ancient Roman calendars, December was the tenth month. What are the first three letters of *December*?
(Students: capital-D-e-c)

decade A decade is ten years. What are the first three letters of *decade*?
(Students: d-e-c)

century The root *cent*, meaning *hundred*, comes from a Latin word. *Cent* is spelled **c-e-n-t**. A century is one hundred years. What are the first four letters of *century*? (Students: c-e-n-t)

centenarian A centenarian is a person who is one hundred or more years old. What are the first four letters of *centenarian*? (Students: c-e-n-t)

centennial A centennial is a hundred-year anniversary. What are the first four letters of *centennial*? (Students: c-e-n-t)

► Spelling Discussion

English is a language with thousands and thousands of words, and many of them are not easy to spell, even for grown-ups. To be good spellers, we need to continue learning. For example, it helps to really notice words and how they are spelled when you are reading, especially if you have never seen the word before. What can you do to keep learning how to spell words when you are reading and writing during the day?

Students might say:

“After I’ve seen a word many times when I read, I can tell whether it looks right when I write it.”

“I notice words when I am reading.”

“If I’ve never seen the word before, I look at the spelling.”

“I notice words that have the same base word as a word we’ve studied. For example, we studied *independent*, and I might see the word *independence* in a book.”

“I notice words with the prefixes and suffixes we’ve studied, such as *-ous* and *-ist*.”

“I notice words with roots we’ve studied, such as *uni*, *tele*, and *port*.”

“When I hear a new word, I sometimes think how it might be spelled.”

“I could keep a list of words I often miss.”

“I could keep a list of homophones.”

► Partner Study

If time permits, have the students study the review words on pages 134 and 135 with their partners, as on Day 3 of this week. This is a brief activity of 1 or 2 minutes.

Weekly Test

For details about the weekly test, see page 93.

ADVANCED SPELLERS CONTINUE

21. proficient When I became more proficient in English, it was much easier to understand my schoolwork.
22. governor The governor of our state is up for reelection in November.

▶ Ongoing Assessment of Spelling Progress

Take some time to assess the progress of your students.

Were there many errors on memory parts of words? The memory parts are the letter sequences that must be memorized because they can't be figured out using knowledge of phonics or word structure. Examples are the underlined letters in the following words: *easily*, *important*, and *mirror*. If the students are making errors on the memory parts, discuss the importance of spelling homework. Be sure the students and parents understand the homework instructions and the importance of using the three memory steps.

If you have been differentiating instruction, are your below-grade-level, average, and advanced spellers correctly designated? Consider the students' performance on all spelling tests to date. If some students have consistently made several errors on the tests, consider having them memorize fewer words each week. If average spellers have made no errors on the tests, they may be able to learn the challenge words each week. Consider student effort as well as performance, however. Some students with perfect tests may have studied intensely and would find it difficult to memorize additional words.

Do your students need encouragement to transfer their knowledge from *Guided Spelling* lessons to their writing? When they ask how to spell a word during writing, have them ask about the *parts* of the word they're not sure of. Provide the guiding and assistance that you would provide during a *Guided Spelling* lesson.

Words with Prefixes

► New Content

Recognizing prefixes helps us spell many words, for example, *forearm*, *semisweet*, *injustice*, *cooperate*, *encode*, *antifreeze*, and *overgrown*.

► Teacher Background

Make a copy of the Week 25 homework (*Blackline Masters* page 34) for each student.

In this week, the students will spell words with the following prefixes: *fore-*, *sub-*, *semi-*, *in-*, *super-*, *co-*, *en-*, *re-*, *over-*, *dis-*, *inter-*, *anti-*, and *under-*.

In general there is no hyphen between a prefix and the base word. However, in a few instances there is a hyphen: before a capitalized word (for example, *mid-February* and *non-Asian*); to avoid ambiguity (for example, *re-create* and *re-collect*); with the prefixes *self-*, *all-*, and *ex-* (for example, *self-confidence*, *all-powerful*, and *ex-secretary*); and to avoid awkwardness (for example, *semi-invalid*).

Note that *paid*, *laid*, and *daily* are exceptions to the generalization for adding suffixes to base words that end in **ay**.

Reminders:

- Be sure your class understands that guided spelling is not a test. The students should listen to your step-by-step guidance so that they write the words correctly.
- Encourage your students to ask questions, even in the items they write independently. *Knowing when they don't know* is an important metacognitive ability in spelling.
- Teach the lessons at a fairly quick pace. Difficult concepts will be reviewed many times.
- If some of the students make a mistake in a choral response, tell the class the correct answer and repeat the question.

In the pre-spelling activities, which begin on Day 2 of this week, the students will practice spelling the prefixes *fore-*, *semi-*, and *en-*.

► Words Used This Week

NEW WORDS	*forearm, *subzero, *semisweet, *injustice, *supermarket, *cooperating, *encode, *refuel, repaid, overgrown, disrespect, intercontinental, confidence, transportation, apartment
REVIEW WORDS	*apart, *department, *photograph, *partly, *medicine, immigrant, effortless, computer, conference, layer

APPLICATION WORDS ON THE TEST	medic, earphones, refueled, cooperated, medicines
ADDITIONAL WORDS IN DAILY GUIDED SPELLING	antifreeze, invisible, underwater, encoded, disrespectful, forearms, interstate, apartments, microscopic, semicircle, seventy-three, participation, refueling
FREQUENTLY MISPELLED WORDS	water

Week 25 Day 1

► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 138 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. forearm Number 1: forearm. Your forearm is the part of your arm from your elbow to your hand.
Fore-arm. ■ *Fore-* is a prefix.
The prefix *fore-* often means *the front part*. Your forehead is the front part of your head.
2. subzero Number 2: subzero. A subzero temperature is one that is below zero degrees on a thermometer.
Sub-ze-ro. ■ *Sub-* is a prefix. Underline **o**.
The prefix *sub-* often means *below*.
3. semisweet. Number 3: semisweet. We used semisweet chocolate chips in the cookies.
Sem-i-sweet. ■ Underline **e-e**.
Semi- is a prefix that often means *partly or half*. Semisweet chocolate is partly sweet, but not as sweet as milk chocolate. A semicircle is half of a circle.
4. injustice Number 4: injustice. Being sent to prison without a trial is an injustice.
In-jus-tice. ■ Underline **i-c-e**.
In- is a prefix that often means *the opposite of*. If an answer is incorrect, it is wrong.
5. supermarket Number 5: supermarket. A supermarket is larger than a small market and sells a wide variety of goods.
Su-per-mar-ket. ■ In the last syllable, underline **e**.
The prefix *super-* often means *especially large*. A supersized package is unusually large.

6. cooperating Number 6: cooperating. The parents were amazed at the way the small groups were cooperating.
Co-op-er-at-ing. ■ Underline **e-r**.
Co- is a prefix meaning *together*. Coworkers work together.
7. encode Number 7: encode. To encode a message is to make it into a code.
En-code. ■ In the base word, underline **o** and **e**.
 The prefix *en-* in *encode* means *to make into*. An enlarged picture has been made larger. If a kitten endears itself to you, it makes itself dear or precious to you.
8. refuel Number 8: refuel. A gas station is a place where people refuel their cars.
Re-fu-el. ■ The last syllable of the base word has a schwa. In the last syllable, underline **e**.
Re- is a prefix that usually means *again*. If you take a retest, you take the test again.
9. repaid Number 9: repaid. If you've repaid money, you have paid it back to the lender.
Re-paid. ■ Underline **a-i**.
 In *repaid* the prefix *re-* means *back* or *in return*.
10. overgrown Number 10: overgrown. If no one clips or trims the plants in a garden, the garden will become overgrown.
O-ver-grown. ■ Underline **o-w**.
 The prefix *over-* often means *too much* or *excessively*. If you eat too much at Thanksgiving dinner, you have overeaten.
11. disrespect Number 11: disrespect. All people should be shown respect, not disrespect.
Dis-re-spect. ■ Underline the first **e**.
 The prefix *dis-* often means *the opposite of*. To show disrespect is to show the opposite of respect. If you disconnect a cord, you do the opposite of connecting it.

Introduce the Homework

Hand out the Week 25 homework.

▶ Record Words Missed

Return the students' spelling tests from Week 24. Have them turn to pages 134 and 135 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

ADVANCED SPELLERS CONTINUE

Unusual Plurals

► New Content

Some singular nouns that end in **f** or **fe** have a plural form ending in **ves**, as in *halves*, *leaves*, *wives*, and *lives*.

The plural of some nouns is made by a change to the base word, as in *women*, *teeth*, *geese*, and *mice*.

The singular and plural are the same for some nouns, as in *sheep*, *deer*, and *salmon*.

For some words that end with consonant-**o**, we just add **s** to form the plural, for example, *pianos* and *solos*. For other words, we add **es**, as in *potatoes*, *tomatoes*, and *heroes*.

If the singular noun ends with vowel-**o**, we just add **s** to form the plural, as in *zoos* and *studios*.

► Teacher Background

Make a copy of the Week 26 homework (*Blackline Masters* page 35) for each student.

If the base word ends with consonant-**o** and the suffix is /z/, we need to consult a dictionary. In some words, we just add **s**, as in *pianos*, *solos*, and *ratios*. In others we add **es**, as in *tomatoes*, *potatoes*, and *heroes*. In yet others, **es** and **s** are both acceptable, as in *cargoes* and *cargos*.

Advise the students to consult a dictionary for irregular plurals, though various dictionaries and computer spell-checkers do not always agree about which plurals are acceptable. For example, some dictionaries list *roofs*, *deers*, *salmons*, and *echos* as acceptable plurals in addition to *rooves*, *deer*, *salmon*, and *echoes*.

In the pre-spelling activities, which begin on Day 2 of this week, the students will practice building words from the base words *origin*, *produce*, and *memory*.

Week 26 Day 1

► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 144 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

Several words this week are unusual plurals.

1. wolves Number 1: wolves. One wolf howled to the other wolves.
Underline **o**. ■ For some words, we make the plural by changing **f** to **v-e-s**, for example, *half* and *halves*. In the sentence, underline *wolf* and *wolves*.
2. oxen Number 2: oxen. Each ox was strong, so the pair of oxen could pull a heavy wagon.
Ox-en. ■ The second syllable has a schwa. Underline **e**. ■ In the sentence, underline *ox* and *oxen*.
MNEMONIC In a few English words, the plural ends with **e-n**, as in *oxen* and *children*.
HISTORY Long ago other English plural words ended with **e-n**, such as *housen* for *houses* and *treen* for *trees*.
3. deer Number 3: deer. The deer ran gracefully to catch up with all the other deer.
HOMOPHONE *Deer* is a homophone. It's not *dear* as in *Dear Mary*. It's the animal *deer*.
Underline **e-e**.
For some words, the plural is the same as the singular, for example, *deer* and *sheep*. In the sentence, underline the singular *deer* and the plural *deer*.
4. radios Number 4: radios. All radios were on sale for a week.
Ra-di-os. ■ Underline **i**. Underline **o**. Underline **s**.
If the singular noun ends with vowel-**o**, such as *radio* or *zoo*, we just add **s** to form the plural.

5. tomatoes Number 5: tomatoes. It was the tastiest tomato of all the tomatoes he'd ever eaten.
To-ma-toes. ■ The first syllable has a schwa. Underline the first **o**.
 ► If your students pronounce the second syllable as /mö/, have them underline **a**.
 In the last syllable, underline **o**. Underline **e-s**. ■ In the sentence, underline *tomato* and *tomatoes*.
6. pianos Number 6: pianos. The music store had many instruments for sale, including two grand pianos.
Pi-a-nos. ■ Underline **i**. Underline **o**. Underline **s**.
7. mice Number 7: mice. Field mice live outdoors and eat seeds.
 Underline **i** and **e**. Underline **c**.
 To make some plurals, we change the base word, for example, *mouse* and *mice*, *goose* and *geese*, and *tooth* and *teeth*.
8. leaves Number 8: leaves. One leaf on the twig had turned orange, while the other leaves were still green.
 Underline **e-a**. Underline **v-e-s**. In the sentence, underline *leaf* and *leaves*.
9. knives Number 9: knives. The long knife is better for slicing bread than the short knives.
 Underline **k-n**. Underline **i**. Underline **v-e-s**.
 For some words, we make the plural by changing **f-e** to **v-e-s**, for example, *life* and *lives* and *wife* and *wives*. In the sentence, underline *knife* and *knives*.
10. salmon Number 10: salmon. First we spotted one salmon, then many salmon, as they swam upstream.
Salm-on. ■ Underline the silent **l**. ■ The second syllable has a schwa. Underline **o**. In the sentence, underline the singular *salmon* and the plural *salmon*.
11. university Number 11: university. In a university, the teachers of many subjects are gathered in one place.
U-ni-ver-si-ty. ■ In the second syllable, underline **i**. ■ Underline **e-r**. ■ In the next syllable, underline **i**.
12. reflector Number 12: reflector. My jacket has a strip of reflector tape so it can be seen in the dark.
Re-flec-tor. ■ The base word is *reflect*. Underline the first **e**. ■ The suffix is **o-r**.

13. particular. Number 13: particular. My mother is very particular about the best way to clean the kitchen.
Par-tic-u-lar. ■ Underline **u**. In the last syllable, underline **a-r**.
14. interchangeable. Number 14: interchangeable. The tires of the car and the truck were not interchangeable.
In-ter-change-a-ble. ■ *Inter-* is a prefix. The suffix is **a-b-l-e**.
 Underline **a-b-l-e**.
15. source. Number 15: source. The source of the Mississippi River is Lake Itasca.
 Underline **o-u**. Underline **c-e**.

NUMBERS 16–25 ARE REVIEW WORDS.

► Introduce the Homework

Hand out the Week 27 homework.

► Record Words Missed

Return the students' spelling tests from Week 26. Have them turn to pages 144 and 145 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Week 27 Day 2

► Teacher Background

In the pre-spelling activities this week, you will explain accent in polysyllabic words and model doubling in preparation for guided spelling in Week 28. The generalization for doubling polysyllabic words includes identifying the syllable that is accented, or stressed, in the base word. The concept of accent is difficult for some students. The pre-spelling activity in this lesson focuses on accent.

► Pre-spelling: Doubling with Polysyllabic Words

► Write on the board: produce desert

Next week in guided spelling, you will be doubling the final consonant before a suffix in some polysyllabic words. You'll need to know which syllable is accented.

produce ► Point to *produce*.

This word can be produce, as in *The factory will produce cars*. The accent is on the second syllable, *-duce*. This word can also be produce, meaning *fruits and vegetables*. The accent is on the first syllable, *prod-*.

desert ► Point to *desert*.

This word can be desert, a hot, dry, sandy place. The accent is on the first syllable, *des-*. This word can also be desert, meaning *leave someone or something*. The accent is on the second syllable, *-sert*.

► **Student Study**

Have the students turn to pages 144 and 145. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

Doubling with Polysyllabic Words

► New Content

If the base word is polysyllabic *and* if the last syllable has one vowel and ends with one consonant *and* if the accent is on the last syllable, then we double the last consonant before we add a suffix that begins with a vowel, as in *permitting*, *preferred*, and *flattened*.

► Teacher Background

Make a copy of the Week 28 homework (*Blackline Masters* page 37) for each student.

The generalization for doubling polysyllabic words includes identifying the syllable that is accented, or stressed, in the base word. The concept of accent is difficult for some students. You will support them by telling them which syllable in the base word is accented.

Guided spelling this week includes the “no change” generalization that also involves polysyllabic words: if the base word is polysyllabic *and* if the last syllable has one vowel and ends with one consonant *and* if the polysyllabic base word does *not* have the accent on the last syllable, we do not double the last consonant, for example, as in *considering*, *gardener*, and *offered*. Exceptions are *programmed* and *kidnapped*.

To help the students understand this week’s generalization for doubling the last consonant, you will have them write first the base word, then the suffix, and then the whole word for three items each day this week. These items in the *Student Spelling Book* look like this:

_____ + _____ = _____

In the pre-spelling activities, which begin on Day 2 this week, the students will practice adding suffixes to base words.

► Words Used This Week

NEW WORDS	*permitting, *preferred, *upsetting, *gardener, *reconsidering, *offered, *declared, *station, castle, paragraph, overcoat, echoes, practically, examine, pour
REVIEW WORDS	*youthful, *magically, *blindness, *wealthy, *daily, *fortieth, feathery, heroes, experiment, undated

ADDITIONAL WORDS IN DAILY GUIDED SPELLING	flattened, preferring, quarreling, permitted, poured, endangered, graphics, castles, examining, southeast, committed, paragraphs, readiness

Week 28 Day 1

► Introduce This Week's Words

► Have your students open their *Student Spelling Books* to page 158 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. permitting Number 1: permitting. Weather permitting, the wedding will be held outdoors.

Per-mit-ting. ■ Underline **e-r.** ■ The base word is *permit*. It is polysyllabic, ends with **i-t**, and the accent is on the last syllable, so **t** was doubled.

2. preferred Number 2: preferred. The cat preferred to sit by the fire.

Pre-ferred. ■ In the first syllable, underline **e.** ■ In the second syllable, underline **e-r.** ■ The base word is *prefer*. It is polysyllabic, ends with **e-r**, and the accent is on the last syllable, so **r** was doubled.

3. upsetting. Number 3: upsetting. The thunderstorm was upsetting to the younger children.

Up-set-ting. ■ The base word is *upset*. It is polysyllabic, ends with **e-t**, and the accent is on the last syllable, so **t** was doubled.

4. gardener. Number 4: gardener. The gardener knew the Latin name of every plant in the garden.

Gar-den-er. ■ The base word is *garden*. It is polysyllabic and ends with **e-n**, but the accent is *not* on the last syllable, so **n** was not doubled.

5. reconsidering. Number 5: reconsidering. My mom didn't think she wanted a new job, but now she's reconsidering.

Re-con-sid-er-ing. ■ *Re-* is a prefix. The base word is *consider*. The first syllable has a schwa. Underline **o.** Underline **e-r.** *Reconsider* is polysyllabic and ends with **e-r**, but the accent is *not* on the last syllable, so **r** was not doubled.

6. offered Number 6: offered. When my friend fell, I offered her a hand up.
Of-fered. ■ The base word is *offer*. Underline **e-r**. *Offer* is polysyllabic and ends with **e-r**, but the accent is *not* on the last syllable, so **r** was not doubled.
7. declared Number 7: declared. Great Britain declared war on the American colonies when they sought independence.
De-clared. ■ In the first syllable, underline **e**.
8. station Number 8: station. At the train station, we bought our tickets and walked to the platform.
Sta-tion. ■ Underline **t-i-o-n**.
9. castle Number 9: castle. A medieval castle usually had a moat to keep out intruders.
Cas-tle. ■ The **t** is silent. Underline **t-l-e**.
10. paragraph Number 10: paragraph. For homework we had to write the introductory paragraph.
Par-a-graph. ■ Underline **a-r**. ■ The second syllable has a schwa. In the second syllable, underline **a**.
 WORD ROOT *Paragraph* has the root *graph*, meaning *to write*.
11. overcoat Number 11: overcoat. He wore a sweater and an overcoat.
O-ver-coat. ■ *Over-* is a prefix. In the base word, underline **o-a**. The prefix *over-* sometimes means *worn on the outside*. An overcoat is put on over other clothes.
12. echoes Number 12: echoes. They heard many echoes in the cave, but the echo was the loudest when they all shouted together.
Ech-oes. ■ Underline **c-h**. In the last syllable, underline **o**. Underline **e-s**. ■ In the sentence, underline *echo* and *echoes*.
 In some words, the sound /k/ is spelled **c-h**, as in *echoes*, *character*, *stomach*, and *ache*.
13. practically Number 13: practically. My younger brother played with his friend around the corner practically every day.
Prac-ti-cal-ly. ■ Underline **i**. Underline **c-a-l**. The suffix is **l-y**.
14. examine Number 14: examine. We will examine the cells under a microscope.
Ex-am-ine. ■ Underline **i** and **e**.

15. pour Number 15: pour. Would you please pour me some orange juice?
HOMOPHONE *Pour* is a homophone. It's not *poor*, the opposite of *rich*. It's *pour* as in *pour me some juice*.
Underline **o-u**.

NUMBERS 16–25 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

- | | |
|----------------|----------------|
| 16. *youthful | 21. *fortieth |
| 17. *magically | 22. feathery |
| 18. *blindness | 23. heroes |
| 19. *wealthy | 24. experiment |
| 20. *daily | 25. undated |

► **Guided Spelling**

► Have your students turn to page 158.

1. preferred Number 1: preferred. The cat preferred to sit by the fire.
Say *preferred*.

Base word? ■ It's spelled **p-r-e...f-e-r**. Write *prefer* in the first space at number 1.

Preferred. Suffix? ■ Write **e-d** in the second space.

Preferred. What do you have to decide? (Students: Do we double?) *Prefer* ends with one vowel and then one consonant: **e-r**. The accent is on the last syllable: *prefer*. Write *reconsidering*. (Check.)

Introduce the Homework

Hand out the Week 28 homework.

Record Words Missed

Return the students' spelling tests from Week 27. Have them turn to pages 150 and 151 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Week 28 Day 2

▶ Teacher Background

In the pre-spelling activities this week, the students will practice adding suffixes to base words.

▶ Pre-spelling: Base Words and Suffixes

Help me add suffixes to base words.

▶ Write on the board: space + ous

spacious Spacious. A spacious school has a lot of space. It has large rooms and playgrounds.

English has several words in which the sound /sh/ is spelled **c-i**. You have already spelled *especially*, *musician*, and *magician*. To spell *spacious*, we drop **e** and add **i-o-u-s**.

▶ Write *spacious* on the board.

inferring Inferring. From the facts stated in the first paragraph, we were inferring the setting of the story.

Base word?

▶ Write *infer* on the board. Point to **er**.

Infer is a polysyllabic word. It ends with one vowel and then one consonant. In *infer* the accent is on the last syllable. In *inferring* the suffix begins with a vowel. Will we double **r**? (Students: yes) *Inferring*.

▶ Finish writing *inferring*.

▶ Guided Spelling

▶ Have your students turn to page 159.

l. flattened Number l: flattened. My father flattened the cardboard boxes before putting them in the recycling bin. Say *flattened*.

Base word? ■ Write *flat* in the first space at number l.

Flatten. First suffix? ■ Decide whether to double **t**. Finish writing *flatten* in the first space.

Flattened. Second suffix? ■ Write **e-d** in the second space.

Flattened. What do you have to decide? (Students: Do we double?) *Flatten* ends with one vowel and then one consonant: **e-n**. The accent is on the first syllable, not on the last syllable: *flatten*. Will you double the last consonant of *flatten*? (Students: no) Write *flattened* in the third space. (Check.)

Week 28 Day 4

► Pre-spelling: Base Words and Suffixes

Help me add suffixes to base words.

prospering Prospering. After several years of good weather for their crops, the farmers were prospering.

Base word?

► Write *prosper* on the board. Point to **er**.

Prosper is a polysyllabic word. It ends with one vowel and then one consonant. In *prosper* the accent is *not* on the last syllable. Will we double **r**? (Students: no) We just add *-ing*. *Prospering*.

► Add *ing*.

recurred. Recurred. The bitter cold temperatures recurred frequently in January.

Base word?

► Write *recur* on the board. Point to **ur**.

Recur is a polysyllabic word. It ends with one vowel and then one consonant. In *recur* the accent is on the last syllable. In *recurred* the suffix begins with a vowel. Will we double **r**? (Students: yes) *Recurred*.

► Finish writing *recurred*.

► Guided Spelling

► Have your students turn to page 161.

l. offered Number l: offered. Our neighbor offered us a ride to school. Say *offered*.

Base word? ■ It's spelled **o-f...f-e-r**. Write *offer* in the first space at number l.

Offered. Suffix? ■ Write **e-d** in the second space.

Offered. What do you have to decide? (Students: Do we double?) *Offer* ends with one vowel and then one consonant: **e-r**. The accent is on the first syllable, not the last syllable: *offer*. Will you double the last consonant? (Students: no) Write *offered* in the third space. (Check.)

2. preferring Number 2: preferring. These days my little sister is preferring to wear pants and not dresses. Say *preferring*.
- Base word? ■ It's spelled **p-r-e...f-e-r**. Write *prefer* in the first space at number 2.
- Preferring*. Suffix? ■ Write *-ing* in the second space.
- Preferring*. What do you have to decide? (Students: Do we double?) *Prefer* ends with one vowel and then one consonant: **e-r**. The accent is on the last syllable: *prefer*. Draw a circle around **f-e-r**. The suffix *-ing* begins with a vowel. Will you double the last consonant of *prefer*? (Students: yes) Write *preferring* in the third space. (Check.)
3. examining Number 3: examining. We were examining the map when someone asked if we needed help. Say *examining*.
- Base word? ■ Say *examine* by syllables. ■ For spelling say *ex-am-ine*. ■ First syllable? ■ Write *ex-*.
- Second syllable? ■ Write *-am-*.
- Third syllable? ■ Careful. It's spelled **i-n-e**. Finish writing *examining*. (Check.)
4. station Number 4: station. I'll meet you outside the subway station at 5:00. Say *station*.
- Say *station* by syllables. ■ First syllable? ■ Write *sta-*.
- Second syllable? ■ The syllable /shən/ is usually spelled **t-i-o-n**. Finish writing *station*. (Check.)
5. echoes Number 5: echoes. The old photos were echoes of the past. Say *echoes*.
- Base word? ■ Say *echo* by syllables. ■ For spelling say *ech-o*. ■ First syllable? ■ Careful. The sound /k/ in this syllable is spelled **c-h**. Write *ech-*.
- Second syllable? ■ It's spelled **o**. Finish writing *echo*.
- Echoes*. To form the plural of *echo*, add **e-s**. (Check.)
- Dictionaries do not all agree about the plural of *echo*. Some say that only **e-s** is correct. Others say that **e-s** is preferred, but **s** is also acceptable.
6. southeast Number 6: southeast. The wind blew in from the southeast. Say *southeast*.
- The four compound words for directions do not have hyphens: *southeast*, *southwest*, *northeast*, and *northwest*.

Southeast. First syllable? ■ Question? ■ Use the first spelling under the “ouch” picture. Write *south-*.

Second syllable? ■ Question? ■ Use the third spelling under the “tree” picture. Finish writing *southeast*. (Check.)

NOW YOU’LL WRITE FOUR WORDS INDEPENDENTLY.

7. committed. Number 7: committed. I have finally committed the times tables to memory. Say *committed*.

I’ll say the syllables of the base word for spelling: *com-mit*. Write the base word, then the suffix, and then the whole word *committed*. (Check.)

8. paragraphs Number 8: paragraphs. It was easy for him to write several paragraphs about his trip. Say *paragraphs*.

WORD ROOT What is the meaning of the root *graph*? (Students: write)

I’ll say the syllables for spelling: *par-a-graphs*. Write *paragraphs*. (Check.)

Review of Syllable Constructions and Divisions

► Teacher Background

Make a copy of the Week 29 homework (*Blackline Masters* page 38) for each student.

In this week, the students will review six syllable types:

- A *closed syllable* contains a short vowel and ends with one or more consonants, for example, both syllables in *district*.
- An *open syllable* ends with one long vowel, such as *pi-* in *pilot*.
- A *vowel-consonant-e syllable* includes a single vowel followed by a consonant and *e*; this syllable type appears at the end of a base word, as in *complete*.
- In a *vowel team syllable*, the vowel sound is spelled with two letters, for example, **ee** in *between* and **ea** in *reason*.
- An *r-controlled syllable* includes a single vowel followed by **r**, as in *alarm*, *concern*, *thirteen*, *orbit*, and *urgent*.
- A *consonant-l-e syllable* is the last syllable of a base word and consists of a consonant followed by **le**, as in *sample* and *bundle*.

There are several common types of syllable division patterns.

- In a VC/CV division pattern, the boundary is between a syllable that ends with vowel-consonant and a syllable that begins with consonant-vowel. Examples include *prac-tice*, *en-tire*, and *shel-ter*.
- In a VC/CCV division pattern, the boundary is between a syllable that ends with vowel-consonant and a syllable that begins with consonant-consonant-vowel. Examples include *han-dle*, *ad-dress*, and *re-spect*.
- In a V/CV division pattern, the boundary is between a syllable that ends with a vowel and a syllable that begins with consonant-vowel. Examples include *i-tem*, *be-neath*, *e-vent*, and *ea-ger*.

- In a VC/V division pattern, the boundary is between a syllable that ends with vowel-consonant and a syllable that begins with a vowel. Examples include *lim-it*, *spir-it*, and *lev-el*.
- In a V/V division pattern, the boundary is between a syllable that ends with a vowel and a syllable that begins with a vowel. Examples include *li-on*, *po-et*, and *fu-el*.

To help the students understand the types of syllable boundaries, the boundaries are shown in the *Student Spelling Book* on page 162, numbers 7–11. The letters before and after the syllable boundaries are labeled **v** (for “vowel”) and **c** (for “consonant”).

In the pre-spelling activities, which begin on Day 2 of this week, the students will practice using related words as clues for spelling unaccented syllables. For example, *atomic* is a clue for *atoms*.

Week 29 Day 1

► Introduce This Week's Words

TEKS 2.A.x

Student/Teacher Activity
Introduce This Week's Words section
(service, item, practice, entire,
beneath,
handle, shelter, limit, lion, event,
address)

► Have your students open their *Student Spelling Books* to page 162 and follow along as you read the words and sentences. Have them mark the syllable boundaries in the polysyllabic words as you read each one by syllables.

1. service Number 1: service. Guide dogs provide a valuable service to people who are blind or partially sighted.

Serv-ice. ■ Underline **e-r**. Underline **i-c-e**.

The first syllable is an **r**-controlled syllable: *serv-*.

MNEMONIC Here is a mnemonic. Several English words end with the sounds /is/ spelled **i-c-e**, including *service*, *justice*, *practice*, *notice*, and *prejudice*.

2. item Number 2: item. There was one item on the test that I just couldn't figure out.

I-tem. ■ The second syllable has a schwa. Underline **e**.

The first syllable is an open syllable. It ends with one long vowel: *i-*.

3. practice Number 3: practice. My friend has soccer practice every Tuesday and Thursday.

Prac-tice. ■ Underline **i-c-e**.

The first syllable is a closed syllable. It has a short vowel and ends with one consonant: *prac-*.

MNEMONIC Here is a mnemonic. Several English words end with the sounds /is/ spelled **i-c-e**, including *service*, *justice*, *practice*, *notice*, and *prejudice*.

4. entire Number 4: entire. The little girl was so excited that she skipped the entire way home.

En-tire.

The second syllable is a vowel-consonant-**e** syllable. It includes a single vowel followed by a consonant and **e**: *-tire*.

5. beneath Number 5: beneath. He hid the present beneath his jacket so his mom wouldn't see it.
Be-neath. ■ In the first syllable, underline **e**. ■ In the second syllable, underline **e-a**.
 The second syllable is a vowel team syllable. The vowel sound is spelled with two letters: *-neath*.
6. handle Number 6: handle. I loved that mug, but the handle broke off.
Han-dle. ■ Underline **d-l-e**.
 The second syllable is a consonant-**l-e** syllable: *-dle*.
7. shelter Number 7: shelter. After the hurricane, people found shelter in the local school.
Shel-ter. ■ Underline **e-r**.
 The letters before and after the syllable boundary are labeled: **v** for *vowel* and **c** for *consonant*. The syllable boundary is between two consonants. This is one syllable division pattern.
8. limit Number 8: limit. During the toy sale, there was a limit of two games per customer.
Lim-it.
 The syllable boundary is between a syllable that ends with vowel-consonant and a syllable that begins with a vowel. This is another syllable division pattern.
9. lion Number 9: lion. A female lion does not have a mane.
Li-on. ■ The second syllable has a schwa. Underline **o**.
 The syllable boundary is between two vowels. This is another syllable division pattern.
10. event Number 10: event. The final assembly program was a major event in the school year.
E-vent. ■ Underline the first **e**.
 The syllable boundary is between a syllable that ends with a vowel and a syllable that begins with consonant-vowel. This is another syllable division pattern.
11. address Number 11: address. We moved when I was four, but I can still remember my old address.
Ad-dress. ■ The first syllable has a schwa. Underline **a**.
 The syllable boundary is between a syllable that ends with vowel-consonant and a syllable that begins with consonant-consonant-vowel. This is another syllable division pattern.

12. underestimated Number 12: underestimated. I thought we would lose the game, but I had underestimated our team strength.
Un-der-es-ti-mat-ed. ■ The prefix *under-* in *underestimated* means *lower*. To underestimate your strength is to think that your strength is lower or less than it is.
13. eagerly Number 13: eagerly. The boy eagerly helped his teacher erase the board.
Ea-ger-ly. ■ Underline **e-a**. Underline **e-r**. *-ly* is a suffix.
14. forgotten. Number 14: forgotten. Our dog had not forgotten where she buried the bone.
For-got-ten. ■ The base word is *forgot*. It is polysyllabic, it ends with **o-t**, and the accent is on the last syllable, so **t** was doubled before the suffix **e-n** was added.
15. spirit. Number 15: spirit. The new student felt the spirit of friendliness in the classroom.
Spir-it. ■ Underline **i-r**.

NUMBERS 16–25 ARE REVIEW WORDS.

► Optional: Have the class read the review words with you:

Write *limit*. (Check.)

▶ **Introduce the Homework**

Hand out the Week 29 homework.

▶ **Record Words Missed**

Return the students' spelling tests from Week 28. Have them turn to pages 156 and 157 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Week 29 Day 2

▶ Teacher Background

In the pre-spelling activities this week, the students will practice using related words as clues for spelling unaccented syllables. For example, *atomic* is a clue for *atoms*.

▶ Pre-spelling: Related Words as Spelling Clues

▶ Write on the board: at_ms magn_t electr_cal

atoms Atoms. Atomic energy involves splitting atoms.

What related word is a clue for *atoms*? (Students: atomic)

▶ Point to the blank in *at_ms*.

What letter will finish *atoms*? (Students: o)

magnet. Magnet. One magnet had a stronger magnetic pull.

What related word is a clue for *magnet*? (Students: magnetic)

▶ Point to the blank in *magn_t*.

What letter will finish *magnet*? (Students: e)

electrical Electrical. The electrical wires that delivered the city's electricity were underground.

What related word is a clue for *electrical*? (Students: electricity)

▶ Point to the blank in *electr_cal*.

What letter will finish *electrical*? (Students: i)

▶ Guided Spelling

▶ Have your students turn to page 165.

I. address. Number I: address. We moved when I was four, but I can still remember my old address. Say *address*.

Say *address* by syllables. ■ For spelling say *ad-dress*. ■ First syllable? ■ Write *ad-*.

Second syllable? ■ Write *-dress*. (Check.)

Circle each closed syllable in *address*.

2. underestimated Number 2: underestimated. I thought we would lose the game, but I had underestimated our team strength. Say *underestimated*.
 Prefix? ■ What is the meaning of the prefix *under* in *underestimated*? (Students: lower)
 Base word? ■ Say *estimate* by syllables. ■ For spelling say *es-ti-mate*. ■ First syllable? ■ Write *es-*.
 Second syllable? ■ Write *-ti-*.

MEMORY STEPS Do the memory steps for *practice*.

Week 29 Day 4

► Pre-spelling: Related Words as Spelling Clues

► Write on the board: econ_my p_litical nec_ssary

economy Economy. When the economy is poor, people suffer economic hardship.

What related word is a clue for *economy*? (Students: economic)

► Point to the blank in *econ_my*.

What letter will finish *economy*? (Students: o)

political Political. People involved in politics study political issues.

What related word is a clue for *political*? (Students: politics)

► Point to the blank in *p_litical*.

What letter will finish *political*? (Students: o)

necessary Necessary. A necessity is something you believe is necessary.

What related word is a clue for *necessary*? (Students: necessity)

► Point to the blank in *nec_ssary*.

What letter will finish *necessary*? (Students: e)

► Guided Spelling

► Have your students turn to page 167.

1. 'twas Number 1: 'twas. The abbreviation 'twas used to be common at the beginning of stories. Say 'twas.

CONTRACTION 'Twas is a contraction of *it was*. It is unusual because the apostrophe is at the beginning.

Write 'twas. (Check.)

2. items Number 2: items. My mom put two more items in the grocery cart, then hurried to the checkout line. Say *items*.

Base word? ■ Say *item* by syllables. ■ The second syllable has a schwa. For spelling say *i-tem*. ■ First syllable? ■ Write *i-*.

Second syllable? ■ (Offer help.) Finish writing *items*. (Check.)

Circle the open syllable in *items*. ■ It's *i-*.

3. event Number 3: event. I can tell from the traffic that there is a special event at the theater. Say *event*.
Say *event* by syllables. ■ For spelling say *e-vent*. ■ First syllable? ■ (Offer help.) Write *e-*.
Second syllable? ■ Write *-vent*.
Circle the closed syllable in *event*. ■ It's *-vent*.

4. limit Number 4: limit. The library's borrowing limit is 20 books. Say *limit*.
Say *limit* by syllables. ■ For spelling say *lim-it*. ■ First syllable? ■ Write *lim-*.
Second syllable? ■ Write *-it*. (Check.)
Circle the two closed syllables in *limit*.

5. forgotten Number 5: forgotten. I thought I'd forgotten. Say *forgotten*.
Base word? ■ Write *forgot*.
Forgotten. What do you have to decide? (Students: Do we double?) *Forgot* ends with one vowel and then one consonant: **o-t**. The accent is on the last syllable: *forgot*. The suffix **e-n** begins with a vowel. Will you double the last consonant of *forgot*? (Students: yes) Finish writing *forgotten*. (Check.)
Circle the the **r**-controlled syllable in *forgotten*.

6. handle Number 6: handle. Be gentle when you handle the guinea pigs. Say *handle*.
Say *handle* by syllables. ■ First syllable? ■ Write *han-*.
Second syllable? ■ (Offer help.) Write *-dle*. (Check.)
Circle the consonant-**l-e** syllable in *handle*. ■ It's **d-l-e**.

NOW YOU'LL WRITE FOUR WORDS INDEPENDENTLY.

7. underestimated Number 7: underestimated. I had to turn in my project late because I underestimated the amount of time it would take. Say *underestimated*.
What is the meaning of the prefix *under-* in *underestimated*?
I'll say the syllables of the base word for spelling: *es-ti-mate*. Write *underestimated*. (Check.)

8. travelers Number 8: travelers. The travelers were amazed by the snowcapped mountains. Say *travelers*.
I'll say the syllables of the base word for spelling: *trav-el*. Write *travelers*. (Check.)

9. entirely Number 9: entirely. The brothers looked entirely different from one another. Say *entirely*.

Write *entirely*. (Check.)

10. good-bye Number 10: good-bye. Dictionaries do not agree on how to spell *good-bye*. Say *good-bye*.

If you look up this word in several dictionaries, you will find four ways to spell *good-bye* correctly.

Write *good-bye*.

► Write on the board or overhead:

good-by	good-bye
goodby	goodbye

If you spelled *good-bye* in any of these ways, you are correct.

PARTNER STUDY Turn to your neighbor. Take turns telling each other one way to spell *good-bye*.

► Student Study

Have the students turn to pages 156 and 157. If they missed a word on the test last week, they have put an **S** by it. Have them study the words that have **S** by them. If they did not miss any words on the test, have them study words that may be hard for them. This is a brief activity of 1 or 2 minutes.

If you are differentiating instruction, remind each below-grade-level speller to study just the starred words. The challenge words are for the advanced spellers only.

Weekly Test

For details about the weekly test, see page 93.

ALL STUDENTS

1. permitted Chewing gum in school is not permitted. (application word)
2. gardening Gardening is one of my mom’s favorite outdoor activities. (application word)
3. items We had only two items, so we stood in the express line. (application word)
4. handling When you buy from a catalog, there is usually a charge for shipping and handling. (application word)
5. limited On weekends the bus schedule is limited, so we had to wait a long time. (application word)
6. service My mom called a shuttle service to take us to the airport.
7. permitting Her parents wrote a note permitting her to leave school early.
8. beneath We couldn’t find the cat because he was hiding beneath the couch.
9. upsetting “Please stop yelling—you’re upsetting the baby,” my mom scolded us.
10. entire My brother ate an entire loaf of bread all by himself.
11. offered I forgot my lunch, so my friend offered me half his sandwich.
12. shelter They ran to the doorway to find shelter from the rain.
13. practice My dad makes me practice the piano every afternoon.

AVERAGE AND ADVANCED SPELLERS CONTINUE

14. spirit We have assemblies and sing our class songs to show our school spirit.
15. address She printed her grandparents’ address on the front of the envelope.
16. forgotten The forgotten lunchbox sat in the lost-and-found for a week.
17. lion The lion is sometimes called “the king of the jungle.”
18. underestimated I underestimated the cost of the books and didn’t bring enough money.

19. event

A wedding is an important, happy event in people's lives.

20. eagerly

The dog was waiting eagerly on the porch when we came home.

ADVANCED SPELLERS CONTINUE

21. defeated

Our team defeated our school's rival in the soccer game.

22. alertness

The dog's alertness made her a good watchdog.

Review of Weeks 23, 25, 26, 27, and 28

► Teacher Background

Duplicate the three homework pages for this week (*Blackline Masters* pages 39–41).

The structure of the review weeks is as follows:

Day 1: Pretest

Day 2: Proofreading with a partner

Day 3: Study for the review test with a partner

Day 4: Class discussion on spelling

Day 5: Review week test

See Week 6, page 112, for more details about the structure of the review weeks.

In the pre-spelling activities, which begin on Day 2 of this week, you will model ways for students to memorize the spelling of words.

► Words Used This Week

REVIEW WORDS

*microscope, *department, *medicine, *particles, *telephone, layer, immigrant, universe, conference, quarter, *supermarket, *forearm, *cooperating, *semisweet, *injustice, disrespect, repaid, apartment, intercontinental, confidence, *radios, *mice, *leaves, *tomatoes, university, knives, source, reflector, interchangeable, particular, *daily, *ninetieth, *magically, *fortieth, *awareness, dreamer, heroes, telescope, instruments, experiment, *upsetting, *preferred, *reconsidering, *declared, *gardener, paragraph, pour, echoes, examine, practically

REVIEW CHALLENGE WORDS

saxophone, medication, ghost, participate, telegraph, mold, semicircular, shield, interplanetary, unbelievably, preserve, satellite, schedule, error, vacuum, criminal, nutritious, allergic, courteous, remote, threatened, forbidden, bothering, delivered, interrupted

APPLICATION WORDS ON THE TEST

omitted, bordering, considered, telephoned, ninety

Pretest

► Administer the Pretest

► Have your students turn to page 170 in their *Student Spelling Books*. Explain that this week they will review ten words each from Weeks 23 and 25 through 29. The pretest in this lesson will help them identify words they especially need to study.

- | | |
|----------------|---|
| 1. declared | “You surprised me!” her mother declared. |
| 2. quarter | School is over at a quarter to three. |
| 3. mice | The mice built a cozy nest. |
| 4. paragraph | In my concluding paragraph, I wrote about the president’s accomplishments and failures. |
| 5. cooperating | A local plant nursery is cooperating with our school to create a garden on our campus. |
| 6. medicine | The mother gave the child medicine to reduce her fever. |
| 7. immigrant | An immigrant is someone who moves to another country. |
| 8. forearm | The broken glass left a scar on my left forearm. |
| 9. reflector | Even my bicycle helmet has a reflector to help keep me safe. |
| 10. leaves | We pressed the autumn leaves in a heavy book so they would keep their color. |
| 11. source | The deep well is the farm’s only source of fresh drinking water. |
| 12. gardener | The gardener shared her vegetables and flowers with her neighbors. |
| 13. pour | “When you set the table, please pour the milk,” my mom instructed. |
| 14. heroes | The soldiers were treated like heroes when they returned home. |
| 15. awareness | Political awareness means understanding what is happening in society and in politics. |

► Correct the Pretest

Read and spell the 15 words out loud. For each word, have the students point under each letter in their word as you spell. If they did not spell a word correctly, have them draw a line through the word.

▶ **Record Words Missed on the Pretest**

Have the students turn back to pages 168 and 169. These are the words that will be reviewed this week. If they missed any words on the pretest, have them find the words here and write **S** in front of each one. These are the words that they especially need to study.

▶ **Introduce the Homework**

Hand out the homework for Week 30. There are three pages of homework this week. The students will practice every review word.

▶ **Record Words Missed on Last Week's Test**

Return the students' spelling tests from Week 29. Have them turn to pages 162 and 163 and find any words they missed on the test. Have them write **S** on the line next to the number of each word they missed. The **S** is to remind them to study the word. The first two application words, numbers 1 and 2 on the test, are not on these pages. If the students missed any of the other three application words, numbers 3, 4, and 5, have them mark the form of the word that appears in their book.

Proofreading

► Pre-spelling: Memorizing Words

Let's think about how to memorize the spelling of words.

► Write *medicine* on the board. Point to **ic**.

medicine *Medicine*. The word root helps us spell this word. The root is **m-e-d-i-c**. As you know, it is the root in *medical* and *medication*. It's also the root in *medicine* and *medicinal*.

We need to memorize **i-n-e**.

► Partner Proofreading

Explain that the students will work with the person sitting next to them. Note that some students may have to work in a group of three.

Have your students open their books to page 171. The sentences on this page include many words that the students have studied, but some of them are misspelled. Have the students read the sentences with their partners and look for the misspelled words. Then have the students work individually to draw a line through each misspelled word and write the correct word above it. There may be a sentence with all words correct.

As the students work, monitor and assist those who need extra support in proofreading.

► Correct Sentences Together

► Read each sentence. Have the students tell you each word that is misspelled and how to spell it correctly. Write the correct word on the board. If the students made a mistake, have them draw a line through the incorrect word.

1. *On intercontinental flights, some jets can be refueled while flying.* Misspelled words? (Students: no misspelled words)

2. The astronomy department has a telescope and other astronomical instruments that the university is permitting the public to view. Misspelled words?

► Write *telescope* and *university* on the board as the students read and spell the words.

3. We used knives to cut the semisweet chocolate squares we bought at the supermarket. Misspelled words?

► Write *knives* and *semisweet* on the board as the students read and spell the words.

4. With a microscope, we could examine some practically invisible particles. Misspelled words?

► Write *microscope*, *examine*, and *practically* on the board as the students read and spell the words.

5. The dreamer preferred to think of ordinary life as magical. Misspelled words?

► Write *preferred* and *magical* on the board as the students read and spell the words.

► Record Words Missed in Proofreading

If there are misspelled words that the students did not find in proofreading, have them turn back to pages 168 and 169 and write **S** next to each word missed. If there are any words that they did not write correctly, have them write **S** next to those words on pages 168 and 169. These are words the students especially need to study.

Partner Study

► Pre-spelling: Memorizing Words

Let's think about how to memorize the spelling of words.

► Write on the board: tomatoes potatoes

tomatoes *Tomatoes.* Many people pronounce *tomatoes* to rhyme with *potatoes*. If you do, think of both words at the same time. In both words, the schwa in the first syllable is spelled **o**. The singular of both words ends with **o**. The plural of both words is formed with **e-s**.

The last syllable *-toes* is spelled the same as the word *toes*. You might think of a silly mnemonic, for example, *my toes look like tomatoes*.

► Partner Study

Have your students open their spelling books to pages 168 and 169. Remind them how to study their spelling words with a partner. In partner study, the students take turns telling each other which word they choose to spell aloud and which parts of the word are hard to spell. For example, one student says, "I will spell number 28, *reflector*. The hard part is **o-r**." He covers the word and spells it aloud as his partner checks. If he makes a mistake, both partners cover the word and spell it together. The partner who made the mistake writes **S** in front of the word to remind him to study it.

You may wish to model partner study before your students begin.

Spelling Discussion

▶ Teacher Background

The purpose of today’s discussion is to enhance the students’ metacognitive awareness of the difficulties in English spelling and strategies for becoming better spellers.

▶ Pre-spelling: Memorizing Words

Let’s think about how to memorize the spelling of words.

▶ Write on the board: preferred offered

preferred, offered The hardest part in these words is remembering whether to double the last consonant. In these words, the base words both end with one vowel followed by one consonant. We need to remember that we double when the accent is on the last syllable. Here’s a mnemonic: *I preferred to double*. Say that sentence to yourself a few times.

▶ Spelling Discussion

English spelling is difficult for many reasons. What are some challenges in English spelling and how can we meet these challenges?

Students might say:

“Many words aren’t spelled as they sound. We have to know which words these are, and we have to memorize them.”

“Many English sounds have more than one spelling. We need to memorize or find out which spelling to use.”

“Many words have schwas. Schwas can be spelled many ways.”

“We need to hear schwas in words.”

“We can think whether there is a related word that is a clue to the schwa.”

“I can say the word in a way that helps me spell it.”

“Some schwas just have to be memorized.”

“We can look up the word.”

“The generalizations for adding suffixes are complicated, but it’s important to know them.”

“There are always exceptions to the generalizations, and we need to memorize them.”

“It helps to know the prefixes and suffixes, but some sound alike, such as **a-b-l-e** and **i-b-l-e** and **a-n-c-e** and **e-n-c-e**. We have to think of ways to remember them.”

“English has many homophones. We have to think about the meaning of the sentence to know which one to use.”

“Sometimes it’s hard to look up a word when we don’t know how to spell it. We need to know different ways the beginning might be spelled.”

“Possessives can be hard. We have to think whether we need a singular or plural possessive, and we have to know how to spell them.”

▶ **Partner Study**

If time permits, have the students study the review words on pages 168 and 169 with their partners, as on Day 3 of this week. This is a brief activity of 1 or 2 minutes.

Weekly Test

For details about the weekly test, see page 93.

ALL STUDENTS

- | | |
|----------------|---|
| 1. omitted | I omitted a letter in one of my spelling words. (application word) |
| 2. bordering | My cousins live in the town bordering ours. (application word) |
| 3. considered | He is considered an expert on insects. (application word) |
| 4. telephoned | When my mom's friend telephoned, I forgot to write down the message. (application word) |
| 5. ninety | The final math test had ninety problems! (application word) |
| 6. injustice | Slaves suffered many years of injustice before finally gaining freedom. |
| 7. cooperating | "I appreciate the way table groups are cooperating," said the teacher. |
| 8. fortieth | I was the fortieth person in the long line. |
| 9. daily | Exercising daily will keep you healthy and strong. |
| 10. upsetting | It was upsetting to her that her friend was moving away. |
| 11. medicine | Long ago people made most medicines from plants. |
| 12. radios | The store had many radios to choose from. |
| 13. tomatoes | My mother grows tomatoes in her garden. |

My uncle's satellite radio has hundreds of stations.

22. nutritious

My mother insists I eat a nutritious breakfast every day.

Appendices

Routine for Checking Words

During guided spelling, the students receive immediate feedback by checking each word they have written before the teacher begins the next item. For the first two weeks of grade 5, the checking procedure for each word is provided in detail in the *Teacher's Manual*, as shown below:

4. switches Number 4: switches. We flipped the switches to shut off the power. Say *switches*. (Students: switches)

The base word is *switch*. If you're not sure how to spell the short vowel sound /ɪ/, look for the cat in the chair. The sound /ch/ after a short vowel in a one-syllable word is usually spelled **t-c-h**. Write *switch*.

Switches. The suffix is /əz/. It's spelled **e-s**. Add /əz/.

Now you will check your work. Everyone read the word. (Students: switches) *Switches* has two syllables: *switch-es*. Everyone read and spell the word by syllables as I write it. Point under each letter as you spell.

► At number 4, write *switches* as the students read and spell by syllables. (Students: switch-, s-w-i-t-c-h, -es, e-s)

Check your word. Is it spelled like the one I wrote? If you made a mistake, draw a line through the word. Write the correct word above it.

Beginning in Week 3, the checking procedure is no longer written out for each word. The notation "(Check.)" reminds you to lead the students through the entire checking process, as shown below:

2. contrast Number 2: contrast. The house painter used a lighter color on the windows to contrast with the darker color of the walls. Say *contrast*.

Say *contrast* by syllables. ■ First syllable? ■ Write *con-*.

Second syllable? ■ Write *-trast*. (Check.)

Memory Steps

The Guided Spelling Memory Steps

Students benefit from using a systematic approach to studying their spelling words. In grade 5 of the *Guided Spelling* program, you will teach your students a three-step method that is particularly useful for polysyllabic words:

- STEP 1 . . . Read the word. Say the syllables to help you spell.
- STEP 2 . . . Underline any hard parts.
- STEP 3 . . . Cover the word. Say and write the word by syllables. Check.

Using the Memory Steps in Daily Guided Spelling

For the first three weeks, you will lead your students through the memory steps for several words each week. The following example shows full guiding for a class that is not yet familiar with the memory steps.

10. thinner Number 10: thinner. The air gets thinner as you climb higher.
Say *thinner*. (Students: thinner)
Write *thinner*. (Check.)

MEMORY STEPS Now we'll practice the memory steps for number 10, *thinner*.

- STEP 1 . . . Step 1 is Read the word. Say the syllables to help you spell. (Students: thinner, thin-ner)
- STEP 2 . . . Step 2 is Underline any hard parts.
- STEP 3 . . . Step 3 is Cover the word. Say and write the word by syllables. Check. Everyone cover the word. Find the line under number 10. Say and write *thinner* by syllables. (Students: thin-, t-h-i-n, -ner, n-e-r) Check your word. If you made a mistake, draw a line through the word and start again at Step 1.

Beginning in Week 4, you will no longer lead the students through each memory step. You will have the students practice the memory steps independently for word number 10 on Days 2, 3, and 4 each week, as shown below:

10. buffalo Number 10: buffalo. Vast herds of buffalo used to graze on the plains. Say *buffalo*.

I'll say the syllables for spelling: *buf-fa-lo*. Write *buffalo*. (Check.)

MEMORY STEPS Do the memory steps for *buffalo*.

Using the Memory Steps in Homework

In the *Guided Spelling* program, the students use the memory steps in their homework to study and memorize the weekly words. They will be familiar with the steps from daily guided spelling. The *Blackline Masters* book provides a homework page for each week that lists the words to be studied and provides space to write the words; the memory steps are printed at the top of each homework page for the students to refer to.

Routines for Offering Help

The development of students' metacognitive abilities is an important goal of the *Guided Spelling* program. Strong spellers anticipate common pitfalls in English words, and they are aware when they do not know part of a word. In *Guided Spelling* you will often alert your students to difficult word parts. You will encourage your students to ask questions and you will frequently offer help.

The *Guided Spelling* program has two routines in grade 5 for offering help during guiding. One is for unusual spellings (such as **s** and **ure** in *sure*) and unaccented vowels (as in the second and third syllables in *opposite*). The second routine is for the common vowel spellings on the spelling-sound chart (such as **o_e**, **oa_**, and **ow** under the “bone” picture).

Offering Help for Unusual Spellings and Unaccented Vowels

When your students are writing a syllable with an unusual spelling or an unaccented vowel, you invite them to ask for help if they need it. You then give help by writing the spelling on the board or projector to the left of the number of the word. You should not say the spelling aloud. The students who aren't sure of the spelling can look at the board or screen, while the students who know the spelling may write it without assistance.

For the first two weeks, this routine is written out in detail in the *Teacher's Manual*, as shown below:

5. sure Number 5: sure. He was sure he dialed the correct telephone number. Say *sure*. (Students: *sure*)

Be careful here. If you know how to spell *sure*, write *sure* now. If you're not sure about any part, raise your hand to ask me and look up here as I write it.

► If any students raise their hands to ask about part of the word, write the correct spelling to the left of number 5.

(Check.)

Beginning in Week 3, the routine for offering help is no longer written out. The notation “(Offer help.)” is the reminder that you should follow this routine, as seen below:

I. opposite Number I: opposite. The opposite of “smooth” is “rough.”
Say *opposite*.
Say *opposite* by syllables. ■ The second syllable has a schwa. Now I’ll say the syllables for spelling: *op-po-site*. Repeat the syllables. ■
First syllable? ■ Write *op-*.
Second syllable? ■ (Offer help.) Write *-po-*.
Third syllable? ■ (Offer help.) Write *-site*. (Check.)

Offering Help for Common Vowel Spellings on the Spelling-Sound Chart

When your students are writing vowels for sounds with more than one common spelling, you assist them during guiding using the “Question?” routine. For example, if the students are writing the word *goal*, some may not know whether to spell it *gole*, *goal* or *gowl*. In the routine, you say, “Question?” meaning, “Ask me a question if you don’t know which spelling of the sound /ō/ to use for *goal*.” The students ask, “Which /ō/?” Then you tell them to use the second spelling under the “bone” picture on the spelling-sound chart. Students who *do* know the correct spelling may write the word without asking “Which /ō/?” and without consulting the chart.

In Week 3 of the *Teacher’s Manual*, you introduce the students to this routine during pre-spelling, as shown below:

sprain Let’s say you are writing the word *sprain*, *I don’t want to sprain my ankle*, but you aren’t sure which spelling of the sound /ā/ to use. I will say, “Question?” That means, “Ask me a question if you aren’t sure how to spell this sound.” You will ask, “Which /ā/?” That means, “Which spelling under the ‘cake’ picture is the right one for *sprain*?”
I will say, “Use the second spelling under the ‘cake’ picture.” Which is the second spelling under the “cake” picture? (Students: a-i-blank) The blank means that there is usually a letter after **a-i**. In *sprain* the letter is **n**. How do you spell the sound /ā/ in *sprain*? (Students: a-i)

The routine is gradually abbreviated as the students become accustomed to it. An example of the abbreviated routine is shown below. The box (■) indicates that you should pause for the students' response, in this case, "Which /ō/?"

3. bowl. Number 3: bowl. She put her cereal in the bowl. Say *bowl*.

Question? ■ Use the third spelling under the "bone" picture.
Write *bowl*. (Check.)

Resources for Students

The word histories that appear in daily guided spelling may make your students curious about language history and word etymologies. If so, they may enjoy some of the resources listed below:

- *Talk About English: How Words Travel and Change* by Janet Klausner (Thomas W. Crowell, 1990)
- *In a Word: 750 Words and Their Fascinating Stories and Origins* by Rosalie Baker (Cobblestone, 2003)
- *Where Words Come From* by Jack Umstatter (Franklin Watts, 2002)
- *Slangalicious: Where We Got That Crazy Lingo* by Gillian O'Reilly (Annick Press, 2004)
- *Cryptomania! Teleporting into Greek and Latin with the Cryptokids* by Edith Hope Fine (Tricycle Press, 2004)

Research Basis for *Guided Spelling*

The *Guided Spelling* program is based on four areas of research: developmental stages, explicit instruction, word frequency, and basal spelling instruction.

Developmental Stages of Spelling

Edmund Henderson and his colleagues at the University of Virginia conducted extensive studies of developing spellers and identified specific stages of increasing proficiency (Henderson 1990; Henderson and Templeton 1986). The following summary of stages is based on Bob Schlagal's (2001) description of these stages.

- **Nonphonetic Stage:** Children write with strings of letters unrelated to the spelling or sounds of the words.
- **Semiphonetic Stage:** Students become aware that letters can represent sounds, and they use what they know of letter sounds (and letter names, if necessary) to spell. For example, one child wrote “WE LKRNHS” for “We like our new house” (p. 154).
- **Phonetic Stage:** Students are learning the spellings of short vowels. They represent most long vowels by the name of the sound, for example, PLEZ for *please* (p. 155). Students continue to master the more difficult consonant combinations, for example, **mp**, **nd**, and **dr**. They tend to spell the inflectional ending **s** as **Z** and **ed** as **T** or **D** (p. 156).
- **Within Word Pattern Stage:** Students gain proficiency with the multiple spellings of vowel sounds, for example, **ee** and **ea** for the sound /ē/. They become more aware of vowel sounds in syllables. They master the spellings for the inflectional endings **s**, **es**, **ed**, and **ing**.
- **Syllable Juncture Stage:** Students gain proficiency in changing the end of certain base words before adding inflectional endings, for example, doubling **p** in *stopped* and dropping **e** for *waving*. Students' understanding of polysyllabic spelling increases to include correct spelling of many open syllables (e.g., *paper*) and closed syllables (e.g., *happy*).

- **Derivational Constancy Stage:** Students become aware that words derived from the same source can provide clues about spelling. For example, the speller can easily spell **e** in *competition* by making a connection with the word *compete*. Students in this stage apply knowledge of prefixes, suffixes, and Greek and Latin roots that appear in thousands of English words.

Henderson's findings have been studied, refined, and promoted by other investigators (for example, Invernizzi and Hayes 2004; Moats 2006), who strongly recommend that spelling instruction facilitate progress through these stages. The *Guided Spelling* program is carefully structured with this in mind.

Explicit Instruction

The *Guided Spelling* program is based on principles of systematic, explicit instruction. Research on teacher effects as summarized and analyzed by Barak Rosenshine (1995) supports the positive impact of presenting new material in small steps and guiding student practice, as well as providing detailed explanations, providing active practice for students, asking for frequent student responses to check student understanding, and providing systematic feedback and correction (p. 264).

In particular, English Language Learners have been shown to benefit from systematic, explicit orthophonemic instruction (Mathes et al. 2007; Vaughn et al. 2005). Students with learning disabilities also benefit from direct spelling instruction (Graham 1999; Wanzek et al. 2006). Explicit, systematic methods of spelling instruction were pioneered by Samuel Orton, Anna Gillingham, and Bessie Stillman. The core of their methods consisted of explicit teaching of sound-symbol correspondences, focus on individual syllables as well as words, extensive practice applying key spelling rules, and a combination of visual, auditory, and kinesthetic learning (Gillingham and Stillman 1997).

Word Frequency

Two major studies of word frequency were used as the basis of word selection for the *Guided Spelling* program. In the first study, John Carroll, Peter Davies, and Barry Richman analyzed five million words of running text in all content areas of school curricular materials in grades 3 through 9 (1971). In the second study, Susan Zeno and others analyzed 17 million words from more than 6,000 textbooks and other materials used in U.S. schools and colleges (1995). The highest-frequency words identi-

fied in these studies are the words most frequently encountered by students and those that the students will need to spell in their school writing.

Basal Spelling Approach

Basal spelling instruction has been a common feature of American education for decades. Research has supported the effectiveness of having weekly lists to study and memorize, practice throughout the week, a weekly test, frequent review, and instruction in study methods (Schlagal 2002). The *Guided Spelling* program includes these basic features while also going beyond straight memorization to support students with strategies and tools for spelling and developing students' metacognitive awareness of their spelling knowledge.

Additional Resources

Additional resources used in the development of the *Guided Spelling* program include the following:

- For pronunciation and syllable boundaries of words: *New Oxford American Dictionary* (2005), *Pocket Oxford American Dictionary of Current English* (2002), *Merriam-Webster OnLine* (www.merriam-webster.com)
- For word history: *Dictionary of Word Origins* (Ayto 1990), *New Oxford American Dictionary* (2005), *American Heritage Dictionary of the English Language* (1971)
- For syllable types: *Speech to Print: Language Essentials for Teachers* (Moats 2000)
- For high-frequency prefixes: “Teaching Prefixes: As Good as It Gets?” in *Vocabulary Instruction: Research to Practice* (Graves 2004)
- For related words as spelling clues: “Theory, Nature, and Pedagogy of Higher-order Orthographic Development in Older Students” in *Development of Orthographic Knowledge and the Foundations of Literacy* (Templeton 1992)
- For frequently misspelled words: *Written Vocabulary of Elementary School Pupils, Ages 6–14* (Smith and Ingersoll 1984)

Index to Full Guiding

In the *Guided Spelling* program, when spelling concepts (such as doubling the final consonant before a suffix) and spellings (such as **ir** or **oa**) are first introduced, the *Teacher's Manual* provides maximum support during guided spelling. The support is gradually decreased to reflect the students' increasing proficiency.

As you observe your students daily and analyze their weekly test performance, you may decide they need to continue receiving maximum support for a particular concept for several days or weeks. The purpose of this index is to direct you to the location of maximum guidance for each spelling element.

This index has two sections. The first is a list of spelling concepts such as changing **y** to **i**, contractions, and possessives. The second is a list of specific spellings such as **ee** and **-tion**. To review the fullest level of support for dropping **e**, for example, locate "dropping **e** before a suffix" under "Spelling Concept" below. "Page 129, #1: *requiring*" indicates that the full guidance for dropping **e** can be found beginning on page 129 of the *Teacher's Manual*, in the entry for word number 1, *requiring*.

Index of Words Taught at Grade 5

The words listed below are the words that are specifically taught, studied, and tested at grade 5 of the *Guided Spelling* program. The number after each word indicates the week in which the word is introduced. For teachers who are differentiating instruction for students at different levels, asterisks (*) indicate the words that below-grade-level spellers learn; the letters “ch” signify optional challenge words for advanced spellers.

Guided Spelling™

Developing Thoughtful Spellers

The *Guided Spelling* program is a research-based, yearlong curriculum for grades 1–6. Students learn to become thoughtful spellers and master the high-frequency words they will need in their writing. The 15-minute daily lessons are teacher-directed, multisensory, and interactive. In grade 5 of the *Guided Spelling* program, the students extend their knowledge of polysyllabic spelling and the generalizations for adding suffixes. They utilize the strategy of using related words as spelling clues; for example, *operate* is a clue for *operation*. They spell possessives, prefixes, suffixes, Greek and Latin roots, and unusual plurals.

Grade 5 Content	Examples
Phonemic Spelling Knowledge	
Vowels review	kn <u>o</u> ck, tw <u>i</u> ce, g <u>o</u> al, conc <u>o</u> rn, cho <u>i</u> ce
