ACKNOWLEDGMENTS

Many people were involved in the development and production of the *Making Meaning* program. We are grateful for their time, expertise, suggestions, and encouragement.

Teachers, Principals, and School Districts

First, we wish to thank the members of our *Making Meaning* Teacher Advisory Boards, who piloted the lessons during our initial development and gave us expert feedback that helped to shape the format and content of the program and who collaborated with us in numerous invaluable ways:

Albany Unified School District

Annie Alcott
Edie Johnson
Nancy Johnson
Hannelore Kaussen
April Stewart
Christiane Zmich

Emeryville Unified School District

Shawna Smith
Gabrielle Thurmond

Escuela Bilingüe Internacional

Pilar Beccar-Varela

Moraga Elementary School District

Dot Cooper

Newark Unified School District

KelLee Cannis
Elizabeth Chavez
Hemawatie Dindial
Gail Fay
Midge Fuller
Lynn Gurnee
Kara Holthe
Krissy Jensen
Joshua Reed

Oakland Unified School District

Anjuna Wagner

West Contra Costa Unified School District

Betty Bouganis
Molly Curley
Simon Ellis
Sally Feldman
Nina Morita
Karley Nuzman

We also wish to thank the teachers, principals, and district leaders who participated in the yearlong field-testing of the *Making Meaning* program in the following school districts:

Newark Unified School District, Newark, California

Frayser Elementary School, Jefferson County Public School District, Louisville, Kentucky

Special thanks to the individuals listed on the following page for their advice, feedback, writing, classroom collaboration, appearances in professional development videos, and many significant contributions to the program.

Stacy Abeyta, Teacher, grade 2
Leanna Alcayaga, Teacher, grade 4
Janine Burt, Principal
Andrea Chrisman, Teacher, grade 1
Bianca Cierra-Wong, Teacher, grade 1, and Dean of Curriculum
Hemawatie Dindial, Teacher, grade K
Lisa Ernst, Teacher, grade K
Gail Fay, Teacher, grade 6
Midge Fuller, Teacher, grade 6
Natalie Gaber, Teacher, grade 1
Leslie Gjestvang, Teacher, grade 4
Cathreene Ingham-Watters, Teacher, grades 4–5
Hannelore Kausssen, Teacher, grade 2
Marni Kay, Literacy Coach, grades K–5
Rebecca Knigge, Teacher, grade 1
Jennifer Lepore, Literacy Coach, grades K–5
Amber Marsh, Teacher, grade 5
Nina Morita, Teacher, grade 1
Karen Wetzell, Teacher, grade 5
Lindee Witt, Literacy Coach, grades K–5
Christiane Zmich, Teacher, grade 4

Children’s Book Publishers

We also wish to thank the many children’s book publishers that assisted us during the development of this program and upon whose books these lessons are based:

Annick Press Ltd.	Kids Can Press
Candlewick Press	Kingfisher Publications
Capstone Press	Lee & Low Books
Charlesbridge Publishing	Lerner Publishing Group
Child’s Play USA	Penguin Group (USA)
Chronicle Books	Random House Children’s Books
The Creative Company	Robert Kraske
Dawn Publications	Sanford J. Greenburger Associates
Farrar, Straus & Giroux	Scholastic Inc.
HarperCollins Children’s Books	Simon & Schuster
Henry Holt and Company Books	Square Fish Books
Holiday House	Star Bright Books
Houghton Mifflin Harcourt Children’s Books	TCP Press
Hyperion Books for Children	Walker & Company

Making Meaning First and Second Edition Authors

We wish to acknowledge the seminal thinking and inspirational leadership provided by Shaila Regan and Susie Alldredge as primary authors of the first and second editions of the *Making Meaning* program.

Making Meaning Revision Team

PROGRAM DEVELOPMENT STAFF

Lana Costantini, Director of Program Development
Dennis Binkley, Associate Director of Program Development

CENTER FOR THE COLLABORATIVE CLASSROOM CONSULTANTS

We wish to give special thanks to our team
of consultants for advising us during the
revision process:

National Educational Consultants

Ginger Cook

Gina Fugnitto

Linda Rourke

Isabel Sawyer

Tabatha Scharlach

Melissa Tovaas

Christine Venturis

Sue Wilder

Additional Consultants

Linda Alders, Assessment Consultant

Lin Sullivan, Assessment Consultant

John Thomas, Assessment Consultant

Susie Alldredge, Audiovisual Consultant

Shaila Regan, Development Consultant

ADDITIONAL CONTRIBUTORS

In addition, Center for the Collaborative
Classroom would like to thank our cadre of
talented independent editors, designers,
illustrators, proofreaders, and fact-
checkers, as well as the following groups and
individuals who assisted in the revision of
Making Meaning:

Elisia Brodeur, copyediting and project
editing

Group 5 Media, video production

Happenstance Type-O-Rama, book
composition

Joslyn Hidalgo, book composition

SPi Global, digital book conversion

Symmetry Creative Production, Inc., book
composition and design

Venus Software International, software
development

An isometric illustration of a library or school building. The scene is filled with books of various sizes, some standing upright and others lying flat. In the foreground, a person is sitting on a bench reading a book, and another person is sitting on a chair reading a book. A dog is sitting on the ground near the person on the chair. A tree with a circular canopy is in the center. The background shows a building with windows and a door. The entire scene is rendered in a light green color scheme.

Introduction

The Collaborative Classroom

Center for the Collaborative Classroom (CCC) is a mission-driven, nonprofit organization committed to ensuring that all students have the opportunity to become highly literate critical thinkers who learn from, care for, and respect one another. The organization has more than four decades of experience providing professional development for teachers and innovative curriculum for classrooms.

How we teach matters as much as *what* we teach. CCC nurtures continuous professional learning that empowers teachers to transform classrooms, build school communities, and inspire the academic and social growth of children.

All of our curriculum materials and professional development services reflect the following core principles:

- Fostering caring relationships and building inclusive, safe environments are foundational practices for both student and adult learning communities.
- Classroom learning experiences should be built around students constructing knowledge and engaging in action.
- Honoring and building on students' intrinsic motivation leads to engagement and achievement.
- Social and academic curricula are interdependent and integrated.

Our innovative, research-based curricula not only support deep student learning and engagement but also guide teachers in creating CCC's vision of a Collaborative Classroom—an intentional environment in which students become caring members of a learning community.

Collaborative Classroom teachers become mindful of their practice by using materials that engage and motivate students, develop critical thinkers, and promote reflection about learning and community.

Collaborative Classroom students learn to work independently and collaboratively, to respectfully share their thinking with others, and to take responsibility for their learning.

Overview of the CCC Collaborative Literacy Suite

The CCC Collaborative Literacy™ suite is an innovative set of modular programs that fosters students' ongoing development as readers, writers, and caring members of the classroom community. The *Making Meaning*™ program focuses on reading comprehension strategies and vocabulary development. *Being a Reader*™ is an early reading program that focuses on teaching students the foundational skills they need to read well and comprehend what they read while developing a love of reading. The *Being a Writer*™ program develops students' capacity to write well in a variety of genres using a writing process model.

Together, the programs that make up the CCC Collaborative Literacy suite address the core concepts, strategies, and skills traditionally taught in the language arts block while transforming the learning environment into one that is student centered. As the students learn to think, talk, and share ideas, they come to value the thinking of others. They become thoughtful readers and writers and discuss big ideas with respect, clarity, and understanding.

IMPLEMENTATION GUIDE

The *CCC Collaborative Literacy Implementation Guide*, available on the CCC Learning Hub (ccclearninghub.org), shows teachers how the components of Collaborative Literacy fit into a single language arts block and also includes suggestions for scheduling, planning, and pacing lessons.

While *Being a Reader*, *Making Meaning*, and *Being a Writer* have been designed to work together as modules in the CCC Collaborative Literacy suite, each can also serve as a stand-alone program that can be used in combination with other literacy programs.

Program Overview

The *Making Meaning*[®] program is a reading comprehension curriculum for kindergarten through grade 6. It is the first program of its kind to combine research-based best practices in reading comprehension with support for fostering your students' growth as caring, collaborative, and principled people.

We are well aware of the demands that elementary school teachers face in teaching reading today. Among those demands are the many activities that must be squeezed into the school day, the pressure of increased standardized testing, and a student population with increasingly diverse needs. The *Making Meaning* program offers maximum support for teaching reading comprehension in this environment. It is not another loosely defined program that adds hours of preparation to an already crammed to-do list. Rather, it is a fully fleshed-out curriculum that integrates easily into what you already do, incorporates an understanding of how real classrooms function, and teaches the specific strategies that students need to become effective readers, at a level and pace that is accessible to everyone.

New to the Third Edition

In this third edition of the *Making Meaning* program, we have added content, assessments, and technology features designed to support your teaching and your students' reading comprehension and social development. These include:

- Additional weeks of instruction for a total of 30 weeks at all grades
- New read-aloud titles
- Additional informational texts at all grades
- A new Individualized Daily Reading (IDR) strand at kindergarten, expanded support for IDR at grades 1–6, and new IDR mini-lessons at all grades
- New and revised Writing About Reading activities in which the students write in various ways in response to texts
- A new *Student Response Book* at grade 1 and a revised and expanded *Student Response Book* at grades 2–6
- Print and digital teacher's manuals with links to professional development media and lesson resources

- A new *Assessment Resource Book* at kindergarten and new and expanded reading comprehension assessments at grades 1–6
- An online assessment tool, the CCC ClassView™ assessment app, for capturing and synthesizing assessment data
- A *Reading Assessment Preparation Guide* that prepares students for standards-based reading comprehension assessments at grades 3–6
- Online, interactive whiteboard activities
- Additional support for incorporating technology through tips, tutorials, mini-lessons, and extension activities
- An updated and expanded vocabulary supplement at all grades, the *Vocabulary Teaching Guide*

You will find more information about new content, assessments, and technology features in the pages that follow.

Unique Pedagogy

The unique pedagogy of the *Making Meaning* program has grown out of years of research on reading comprehension and child development. The lessons integrate instruction and practice in reading comprehension strategies with activities that foster the students' social, emotional, and ethical development.

RESEARCH BASED/CLASSROOM TESTED

Research documents what many teachers have always known: the fact that a child can read a page aloud does not mean that he or she can understand it. Teaching children to make sense of what they read has been an enduring challenge. To address this challenge, the creators of the *Making Meaning* program have drawn on decades of research by people like P. David Pearson and Michael Pressley, who describe the strategies that proficient readers use naturally and the conditions that foster those strategies in children. The *Making Meaning* program also draws on portraits from many classrooms in which reading comprehension is successfully taught, such as those described by Lucy Calkins in her work with the Reader's Workshop and by Ellin Keene and Susan Zimmerman in their book *Mosaic of Thought*. The *Making Meaning* program brings this research together in a unique, yearlong curriculum of easy-to-implement daily lessons. Reading comprehension strategies are taught directly through read-aloud experiences, and the students learn to use these strategies to make sense of their own reading, through guided and independent strategy practice.

In addition to a solid research base, *Making Meaning* has been shaped by pilot testing and discussions with a wide range of classroom teachers to assure that it is effective and that it fits into a typical classroom day. The *Making Meaning* program can replace an existing reading comprehension program or supplement basal instruction. It is designed to be accessible to all students, whatever their reading levels, and includes support for English Language Learners.

DUAL FOCUS: ACADEMIC AND SOCIAL/ETHICAL LEARNING

The *Making Meaning* program is also unique in its focus on teaching the whole child. Child development research tells us that children learn and grow best in environments where their basic psychological needs are met. Children need to feel physically and emotionally safe. They need to feel that they belong. They need to have a sense of themselves as autonomous and capable. Studies indicate that when these basic needs are met at school by helping students experience a sense of community, the students do better academically (as measured over time by grades and test scores), exhibit more pro-social tendencies, and show greater resistance to problem behaviors, such as drug use and violence (Durlack et al. 2011).

To this end, the *Making Meaning* program helps you create a classroom community in which your students feel a strong sense of belonging, psychological safety, autonomy, and responsibility to themselves and to the group. Teachers know that such an environment does not just happen; it must be deliberately created through setting up purposeful interactions among students, teaching them social and problem-solving skills, and helping them to integrate pro-social values into their lives. As you teach the *Making Meaning* lessons, you will see that the children’s ability to learn reading comprehension strategies is inextricably linked to their ability to work together and bring democratic values like responsibility, respect, fairness, caring, and helpfulness to bear on their behavior and interactions.*

TEACHER SUPPORT

The program is designed to help you develop and practice valuable teaching skills as you support your students’ growth as readers. Detailed, easy-to-follow lesson plans include suggestions for introducing and practicing cooperative structures, conducting read-alouds, facilitating discussions, assessing the class, and conferring with individual students. Teacher Notes and references to professional development media throughout the lessons explain the underlying pedagogy of various activities and provide examples of what might happen in the classroom. A regular “You might say” feature provides you with language you might draw on as you model your thinking about a strategy.

* To read more about the theoretical and research basis for the *Making Meaning* program, please refer to the Bibliography on page 775.

Program at a Glance

The pages that follow provide a detailed scope and sequence for teaching reading comprehension at your grade level. The daily lessons revolve around clearly defined teaching objectives and build in complexity as students move through the program.

A week of lessons typically begins with a read-aloud of an engaging text, followed by a class discussion of what the text is about. This same read-aloud text is used on subsequent days to teach the students a comprehension strategy and to give them guided practice with the strategy. The week usually ends with the students practicing the strategy independently by using classroom library books and discussing their thinking. Each lesson typically requires 20–40 minutes of classroom time, depending on the grade level. In addition to the lessons, the students participate in Individualized Daily Reading (IDR), during which they read texts at their appropriate reading levels independently for up to 30 minutes each day, depending on the grade level. For more information about IDR, see “Individualized Daily Reading (IDR)” on page xxxix.

STRATEGY DEVELOPMENT

The following comprehension strategies are taught in the *Making Meaning* program:

- Using schema/Making connections
- Retelling
- Visualizing
- Wondering/Questioning
- Using text features
- Making inferences
- Determining important ideas
- Analyzing text structure
- Summarizing
- Synthesizing

Not all strategies appear at each grade level. The program begins with the most developmentally appropriate strategies in the primary grades, and additional strategies are introduced in later grades. The table on the next page shows the development of the strategies across grades K–6.

Development Across the Grades

Reading Strategy	K	1	2	3	4	5	6
Using Schema/Making Connections	■	■	■	□	□	□	□

Synthesizing					□	■	■

■ formally taught □ informally experienced

PROGRAM COMPONENTS

The *Making Meaning* program includes:

- A *Teacher’s Manual* (grades K–6), containing detailed lessons that provide a sequence of instruction for the academic year
- A set of carefully selected, grade-appropriate trade books to use as read-alouds
- A *Student Response Book*, one for each student (grades 1–6), coordinated with specific lessons and providing the students with selected read-aloud texts and excerpts, writing activities, a Reading Journal, and a Reading Log at grades 2–6
- An *Assessment Resource Book* (grades K–6), containing information and record sheets to help you regularly monitor the progress and needs of individual students and the whole class
- A *Reading Assessment Preparation Guide* (grades 3–6), containing lessons to prepare students for a standards–based reading comprehension assessment
- A *Vocabulary Teaching Guide*, with weekly lessons that build students’ vocabularies by teaching words taken directly from *Making Meaning* read-alouds
- A *Digital Teacher’s Set*, containing digital versions of the *Teacher’s Manual*, *Vocabulary Teaching Guide*, *Assessment Resource Book*, and *Reading Assessment Preparation Guide* (grades 3–6)

- Access to online resources via the CCC Learning Hub (ccclearninghub.org), such as interactive whiteboard activities, assessment forms, reproducibles, and professional development media
- Access to the CCC ClassView app (classview.org), which allows for electronic recording, sorting, synthesizing, and reporting of assessment data for individual students and the whole class

For more information about the print format of the *Teacher’s Manual*, see the “Getting Started with Your Print *Teacher’s Manual*” tutorial (AV37). For more information about the digital format, see the “Getting Started with Your *Digital Teacher’s Set*” tutorial (AV38).

AV37

AV38

ALIGNMENT WITH STANDARDS

The *Making Meaning* program develops students’ ability to think critically, read closely and thoughtfully, work collaboratively, and express themselves clearly and confidently. It aligns with reading, writing, and listening and speaking standards. For more about how the program aligns to specific state standards, see the CCC Learning Hub (ccclearninghub.org).

Understanding the Program

The *Making Meaning* program helps students develop as readers *and* as caring, collaborative people. This dual focus is based on two beliefs: that students' academic learning flourishes when social learning is integrated into the curriculum and that we are called on as educators to help students develop as whole people—academically, socially, and ethically.

Focus on Comprehension

In the *Making Meaning* program, students are taught the reading comprehension strategies that research shows good readers use to make sense of texts. They learn and practice the strategies with guidance and support from you before using them in their independent reading.

THE GRADE 5 COMPREHENSION STRATEGIES

The strategies that follow are formally taught or informally experienced in grade 5 of the program.

- **Using schema/Making connections.** Schema is the prior knowledge a reader brings to a text. Readers construct meaning by making connections between their prior knowledge and new information in a text. In *Making Meaning* grade 5, the students learn to connect what they know from their own experiences to texts before, during, and after a read-aloud. They also make connections between texts.
- **Visualizing.** Visualizing is the process of creating mental images while reading. Mental images can include sights, sounds, smells, tastes, sensations, and emotions. Good readers form mental images to help them understand, remember, and enjoy texts. In *Making Meaning* grade 5, the students visualize to make sense of figurative language and deepen their understanding and enjoyment of poems and stories.
- **Wondering/Questioning.** Proficient readers wonder and ask questions to focus their reading, clarify meaning, and delve deeper into a text. They wonder what a text is about before they read, speculate about what is happening while they read, and ask questions after they read to gauge their understanding. In *Making Meaning* grade 5, the students wonder and ask questions before, during, and after a read-aloud to make sense of a text.
- **Using text features.** Readers who understand that expository texts have common features, such as tables of contents and indexes, headings and subheadings, and

diagrams and charts, use those features to help them unlock a text’s meaning. In *Making Meaning* grade 5, the students identify features of expository texts and use those features to help them understand the texts.

- **Making inferences.** Not everything communicated by a text is directly stated. Good readers use their prior knowledge and the information in a text to understand implied meanings. Making inferences helps readers move beyond the literal to a deeper understanding of texts. In *Making Meaning* grade 5, the students identify features of expository texts and use those features to help them understand the texts.
- **Determining important ideas.** Determining the important ideas in a text helps readers identify information that is essential to know and remember. What is identified as important in a text will vary from reader to reader, depending on the purpose for reading and prior knowledge. In *Making Meaning* grade 5, the students explore which ideas in texts are important and support their thinking with evidence from the texts.
- **Analyzing text structure.** Proficient readers use their knowledge of narrative and expository text structure to approach and comprehend texts. For example, readers who understand that stories have common elements, such as setting, characters, and plot, have a framework for thinking about stories. Readers who understand that authors of expository texts organize information through text structures, such as chronological order, cause and effect, and compare and contrast, use those structures to understand and remember the information. In *Making Meaning* grade 5, the students use story elements to help them think about stories.
- **Summarizing.** Summarizing is the process of identifying and bringing together the essential ideas in a text. Readers summarize as a way of understanding what they have read and communicating it to others. In *Making Meaning* grade 5, the students identify important ideas and use those ideas to develop oral and written summaries.
- **Synthesizing.** Synthesizing is a complex process that requires the reader to visualize, use schema, question, infer, and summarize to develop new ideas and understandings based on information in a text. In *Making Meaning* grade 5, the students synthesize to form opinions and make judgments about texts.

THINKING TOOLS

The students learn various “Thinking Tools” that help them implement the strategies they are learning and delve more deeply into texts. In grade 5, the students learn and use:

- **Stop and Ask Questions.** The teacher stops at various places during a read-aloud, and the students write questions about what they are hearing. The students then have a record of their questions to use during partner or class discussions.
- **Double-entry Journal.** A student might write a quotation from a text in one column and his or her reaction to the quotation in the other column. Alternatively, he or she might write thoughts about a character at the start of a story in one column, and his or

her thoughts about the character at the end of the story in the other column. This kind of writing in a double-entry journal helps the students to become more reflective about their reading and builds writing skills.

Focus on Social/Ethical Development

Helping students to develop socially and ethically, as well as academically, is part of the educator’s role, and we believe it should be integrated into every aspect of the curriculum. Social and academic learning flourish when they are integrated naturally, rather than pursued separately. Research shows that building a safe and caring classroom community helps students develop a sense of responsibility for their own learning and behavior, as well as empathy and motivation to help others (Schaps 2004). Students who receive support in building their social and emotional skills demonstrate significant gains in academic achievement (Durlack et al. 2011).

BUILDING RELATIONSHIPS

During *Making Meaning* lessons, the students listen to and discuss texts in pairs, small groups, and as a class, and through their interactions, they come to recognize that talking about texts is a way to understand them. As the students work together, they develop caring and respectful relationships, creating a safe and supportive classroom community that is conducive to sharing their thinking. They are encouraged to take responsibility for their learning and to be aware of the effect of their behavior on others.

VALUES AND SOCIAL SKILLS

As you help the students build relationships, you also help them understand the values that underlie these relationships. Across every year of the program, broad social goals help the students think about and act on five core values: responsibility, respect, caring, fairness, and helpfulness. The students reflect on what it means to act on these values and how their actions affect the community. Lapses in applying the values are seen as normal learning experiences, rather than as failures. In addition to these five core values, the students explore other values that arise in the read-alouds, such as courage, perseverance, gratitude, and compassion.

The social skills that students learn in *Making Meaning* help them to act on these values in a deliberate way. They learn basic social skills (such as listening to others and taking turns) early in the year, laying the foundation for the more sophisticated skills they learn and practice later in the year, when both their academic work and resulting social interactions become more demanding. (For example, learning how to listen to others early in the year prepares the students to build on one another’s thinking later in the year.)

Social development objectives for each week’s lessons are listed in the Overview of the week. The week’s lessons provide activities, questions, and cooperative structures that target these

objectives. (For more information, see “Cooperative Structures” on page xxviii.) Social skills emphasized in grade 5 include listening respectfully to the thinking of others and sharing their own, using prompts to add to one another’s thinking, and working in a responsible way. The lessons also provide opportunities for the students to decide such things as how they will divide the work fairly and how they will report their ideas to the class. Learning how to make these decisions helps the students become responsible group members. A Social Skills Assessment (grades 1–6) is included for use early in the year, mid-year, and at the end of the year to help you assess your students’ progress in meeting the social development objectives of the program.

The table below lists the social skills taught in the program and the grade levels at which they are formally taught, reviewed, or integrated.

Social Skills Across the Grades

	K	1	2	3	4	5	6
Speaking clearly	•	•					
Taking turns talking and listening	•	•	•	•			
Participating in partner work and class discussions	•	•	•	•	•	•	•
Following classroom procedures	•	•	•	•	•	•	•
Listening respectfully to others	•	•	•	•	•	•	•
Contributing ideas that are different from other people’s ideas	•	•	•	•	•	•	•
Sharing partner’s thinking with the class	•	•	•	•	•	•	•
Reflecting on own behavior	•	•	•	•	•	•	•
Taking responsibility for learning and behavior	•	•	•	•	•	•	•
Explaining thinking	•	•	•	•	•	•	•

Giving reasons to support opinions			•	•	•	•	•
Using discussion prompts			•	•	•	•	•
Agreeing and disagreeing respectfully				•	•	•	•
Using clarifying questions and statements				•	•	•	•
Including everyone and contributing to group work					•	•	•
Making decisions and solving problems respectfully					•	•	•
Discussing feedback and giving opinions respectfully					•	•	•
Confirming another person's thinking					•	•	•

RANDOM PAIRING

Most lessons in *Making Meaning* are designed for pair work. We recommend that you randomly pair students at the beginning of each unit and have partners stay together for the whole unit. (See “Considerations for Pairing ELLs” on page liii.) Working with the same partner over time helps each student work through and learn from problems, build successful methods of interaction, and develop his or her comprehension skills.

Random pairing sends several positive messages to the students: there is no hidden agenda behind how you pair the students (such as choosing pairs based on achievement); every student is considered a valuable partner; and everyone is expected to learn to work with everyone else. Random pairing also results in heterogeneous groupings over time, even though some pairs may be homogeneous in some way during any given unit (for example, both partners may be female).

The box at the top of the next page suggests some methods for randomly pairing the students.

Some Random Pairing Methods

- Distribute playing cards and have each student pair up with someone who has the same number or suit.
- Place identical pairs of number or letter cards in a bag. Have each student pull a card out of the bag and find someone who has the same number or letter.
- Cut magazine pictures in half. Give each student a picture half. Have each student pair up with the person who has the other half of the picture.

COOPERATIVE STRUCTURES

Cooperative structures are taught and used at every grade level to increase the students' engagement and accountability for participation. These structures help the students learn to work together, develop social skills, and take responsibility for their learning. Students talk about their thinking and hear about the thinking of others. Suggested uses of cooperative structures in the lessons are highlighted with an icon. In addition, you can use the cooperative structures whenever you feel that not enough students are participating in a discussion or, conversely, when many students want to talk at the same time.

Cooperative Structures in the Program

- **Turn to Your Partner.** Partners turn to one another to discuss a question.
- **Think, Pair, Share.** Each student thinks individually about a question before discussing his or her thoughts with a partner. Pairs then report their thinking to another pair or to the class. This strategy is especially appropriate when the students are asked to respond to complex questions.
- **Think, Pair, Write.** As in "Think, Pair, Share," each student thinks individually before discussing his or her thoughts with a partner. The students then write what they are thinking. Pairs might then share their writing with another pair or with the class.
- **Heads Together.** Groups of four students discuss a question among themselves. Groups might then share their thoughts with the class.
- **Group Brainstorming.** Groups of four generate as many ideas as they can about a question as a group member records. These lists are then shared with the class.

In grade 5, the students learn "Turn to Your Partner" and "Think, Pair, Share." Other structures are added as developmentally appropriate.

Teaching the Program

How the Grade 5 Program Is Organized

The *Making Meaning* program for grade 5 consists of ten units. The units vary in length from one to five weeks. Each week has four days of instruction and practice. The calendar below provides an overview of the year.

Sample Calendar for Grade 5

	Unit/Read-aloud	Length	Focus
FALL	1. The Reading Community: Fiction <ul style="list-style-type: none"> ▪ <i>The Lotus Seed</i> by Sherry Garland ▪ <i>Something to Remember Me By</i> by Susan V. Bosak ▪ <i>Everybody Cooks Rice</i> by Norah Dooley 	2 weeks	Listen to and discuss stories Learn the procedures for gathering, “Turn to Your Partner,” “Think, Pair, Share,” and Individualized Daily Reading Build the reading community
	2. Using Text Features: Expository Nonfiction <ul style="list-style-type: none"> ▪ <i>Rainforests</i> by James Harrison ▪ “Follow That Ball! Soccer Catching On in the U.S.” ▪ “All Work and No Play: Trends in School Recess” ▪ <i>Great Women of the American Revolution</i> by Brianna Hall 	3 weeks	Use text features to find and understand information Learn the procedure for “Think, Pair, Write”
	3. Questioning: Expository Nonfiction <ul style="list-style-type: none"> ▪ <i>Big Cats</i> by Seymour Simon 	2 weeks	Use questioning to think about expository texts Use schema to think about all they know about a topic Build a body of knowledge about animal life Learn the procedure for “Stop and Ask Questions”
	4. Analyzing Text Structure: Fiction <ul style="list-style-type: none"> ▪ <i>Tuck Everlasting</i> by Natalie Babbitt 	4 weeks	Explore narrative text structure through discussions of plot, setting, character, conflict, and theme Use questioning to think about narrative text

Sample Calendar for Grade 5

WINTER	Unit/Read-aloud	Length	Focus
	<p>5. Making Inferences: Fiction and Poetry</p> <ul style="list-style-type: none"> ▪ <i>The Van Gogh Cafe</i> by Cynthia Rylant ▪ “Speech Class” by Jim Daniels ▪ “October Saturday” by Bobbi Katz ▪ “Eraser and School Clock” by Gary Soto ▪ “back yard” by Valerie Worth 	2 weeks	<p>Make inferences to understand narrative texts</p> <p>Make inferences and visualize to understand poetry</p> <p>Use a double-entry journal</p> <p>Learn the procedure for “Heads Together”</p>
	<p>6. Making Inferences: Fiction and Expository Nonfiction</p> <ul style="list-style-type: none"> ▪ <i>Richard Wright and the Library Card</i> by William Miller ▪ <i>Uncle Jed’s Barbershop</i> by Margaree King Mitchell ▪ <i>Hurricanes</i> by Seymour Simon ▪ <i>Global Warming</i> by Seymour Simon ▪ <i>Rainforests</i> by James Harrison 	3 weeks	<p>Make inferences to understand narrative and expository texts</p> <p>Make inferences to explore causal relationships in narrative and expository texts</p> <p>Learn the procedure for “Group Brainstorming”</p>
	<p>7. Analyzing Text Structure: Expository Nonfiction</p> <ul style="list-style-type: none"> ▪ “Copycats: Why Clone?” ▪ “The Debate on Banning Junk Food Ads” ▪ “All-girls’ and All-boys’ Schools: Better for Kids” ▪ “Do Kids Really Need Cell Phones?” ▪ “How to Make an Origami Cup” ▪ “Ashton Hammerheads Schedule for September 2015” ▪ “Blue Line Train Schedule” ▪ “Frontier Fun Park” ▪ <i>Survival and Loss: Native American Boarding Schools</i> 	5 weeks	<p>Analyze expository text structure</p> <p>Explore ways in which articles and functional texts are organized</p> <p>Explore the use of cause and effect, chronological, and compare and contrast relationships in textbooks</p>
<p>ANSWERING QUESTIONS IN RESPONSE TO TEXT UNIT FROM THE READING ASSESSMENT PREPARATION GUIDE (1 WEEK)</p>			

Sample Calendar for Grade 5

	Unit/Read-aloud	Length	Focus
SPRING	8. Determining Important Ideas and Summarizing: Narrative Nonfiction and Fiction <ul style="list-style-type: none"> ▪ <i>A River Ran Wild</i> by Lynne Cherry ▪ <i>Harry Houdini: Master of Magic</i> by Robert Kraske ▪ “Mrs. Buell” from <i>Hey World, Here I Am!</i> by Jean Little 	4 weeks	Determine important ideas in texts Distinguish between important and supporting ideas in texts Use important ideas to summarize
	9. Synthesizing: Fiction and Expository Nonfiction <ul style="list-style-type: none"> ▪ “Review of ‘Mrs. Buell’ ” ▪ “Zoo” by Edward D. Hoch ▪ “12 seconds from death” by Paul Dowswell ▪ “The Pros and Cons of Year-round Schools” ▪ “Year-round School: I’m for It” ▪ “Year-round School: I’m Against It” ▪ “Review of <i>The Legend of Sleepy Hollow</i>” by Jennifer B. (age 12) 	4 weeks	Synthesize by forming opinions and making judgments about texts
	10. Revisiting the Reading Community	1 week	Prepare book recommendations and generate summer reading lists Reflect on the students’ growth as readers Reflect on the reading community

Planning and Teaching the Lessons

We offer the following considerations to help you plan and teach the *Making Meaning* lessons.

TEACHING THE UNITS IN ORDER

We recommend that you teach the units in the order in which they appear in the *Teacher’s Manual* for several reasons:

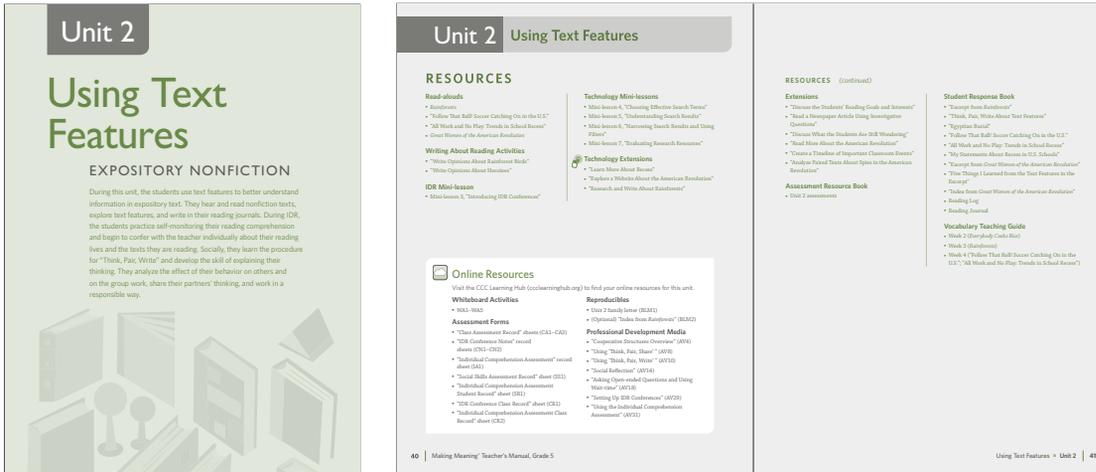

- Instruction in comprehension strategies builds systematically across the year. In Unit 2, for example, the students use text features to help them make sense of expository nonfiction texts, while in Unit 3, they use questioning to explore the

genre in more depth. In Unit 4, the students analyze narrative text structure to help them make sense of fiction before doing the challenging work of making inferences in fiction, poetry, and expository nonfiction in Units 5 and 6. In the final units of the year, the students hear and read increasingly complex texts. Determining important ideas and summarizing—skills necessary for synthesizing information—are taught in Unit 8 before synthesizing is itself introduced in Unit 9.

- Support for Individualized Daily Reading also builds across the year. Procedures necessary for the success of IDR, as well as critical practices such as keeping a Reading Log and Reading Journal, self-monitoring, and using “fix-up” strategies, are introduced early in the year, preparing the students for the important work in subsequent units of using comprehension strategies as they read and reflecting on and conferring about their reading. Expectations for stamina also increase throughout the year.
- Routines and cooperative structures critical to both academic and social development, including “Turn to Your Partner,” “Think, Pair, Share,” and “Think, Pair, Write,” are introduced in early units and used throughout the year. Later units build on the students’ experiences with pair work to support group work and cooperative structures such as “Heads Together” and “Group Brainstorming.”
- Social skills deepen in complexity across the year. In Units 1 and 2, for example, the students practice listening respectfully to the thinking of others and sharing their own thinking. This is preparation for using discussion prompts to build on one another’s thinking, a critical skill introduced in Unit 3. In later units, the students transition from pair work to working in groups of four, and learn skills that support group work, such as making decisions, solving problems, and discussing opinions respectfully.
- The lessons in the *Vocabulary Teaching Guide* must be taught in order. Words introduced in early weeks of the program are reviewed in later weeks, providing the students with multiple exposures to the words, and instruction in independent word-learning strategies, such as using prefixes, suffixes, and roots, builds across the year. The assessments also rely on the words being taught in the order prescribed. For more information, see “*Vocabulary Teaching Guide*.”

UNIT AND WEEK OVERVIEWS

To prepare to teach a unit, begin by reading the unit’s introductory pages. The opening page provides a summary of the academic and social goals of the unit. The Resources list specifies the physical materials and the supplemental activities for the unit, while the Online Resources list indicates all of the materials that are available digitally on the CCC Learning Hub (cccllearninghub.org).

The Development Across the Grades table shows how the reading comprehension strategies taught in the program develop across the grades, highlighting the strategy featured during that unit. The Overview table identifies the key academic focuses of each day of instruction in the unit, as well as each day’s read-aloud text.

Unit 2 Using Text Features		DEVELOPMENT ACROSS THE GRADES

Summarizing		□	□	■	■	■	■	■

Unit 2 Using Text Features		GRADE 5 OVERVIEW			
		Day 1	Day 2	Day 3	Day 4
Week 1	Read-aloud Text: "The Bull-Seven-Clothing-On-the-U.S."	Reading Focus: • Analyzing text structure to understand the author's purpose and audience.	Writing Focus: • Writing an explanatory text.	Social Strategy Practice: • Analyzing text features, such as the title, to understand the author's purpose and audience.	Independent Strategy Practice: • Analyzing text features, such as the title, to understand the author's purpose and audience.
Week 2	Read-aloud Text: "The Bull-Seven-Clothing-On-the-U.S."	Reading Focus: • Analyzing text structure to understand the author's purpose and audience.	Writing Focus: • Writing an explanatory text.	Social Strategy Practice: • Analyzing text features, such as the title, to understand the author's purpose and audience.	Independent Strategy Practice: • Analyzing text features, such as the title, to understand the author's purpose and audience.
Week 3	Read-aloud Text: "The Bull-Seven-Clothing-On-the-U.S."	Reading Focus: • Analyzing text structure to understand the author's purpose and audience.	Writing Focus: • Writing an explanatory text.	Social Strategy Practice: • Analyzing text features, such as the title, to understand the author's purpose and audience.	Independent Strategy Practice: • Analyzing text features, such as the title, to understand the author's purpose and audience.

Prepare for each week by reading that week’s Overview, including the read-aloud summary, the online resources, and the comprehension and social focuses. The “Do Ahead” section alerts you to special requirements for the week and any preparations you should make ahead of time. Preview the lessons and note how the instruction supports the week’s comprehension and social focuses from lesson to lesson.

Week 1

OVERVIEW

Readalouds
by James Harrison
Photographic illustrations, and well-organized text provide an introduction to a fragile ecosystem.

Online Resources
Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- W1A1-W1A2

Assessment Forms

- "Class Assessment Review" sheet (CA1)
- "2BR Conference Notes" sheet (CN2)
- "2BR Conference Class Review" sheet (CR2)

Professional Development Media

- "Cooperative Structures Overview" (AR9)
- "Using 'Think, Pair, Share'" (AR10)
- "Using 'Think, Pair, Write'" (AR11)
- "Social Reflection" (AR12-14)
- "Using Open-ended Questions and Using 'What does'" (AR15-18)
- "Setting Up 2BR Conferences" (AR19)

Comprehension Focus

- Students use text features to better understand expository nonfiction texts.
- Students read independently.

Social Development Focus

- Students learn the procedure for "Think, Pair, Write."
- Students analyze the effect of their behavior on others and on the group work.
- Students develop the skill of explaining their thinking.
- Students share their partners' thinking with the class.

DO AHEAD

- ✓ Consider reading this unit's read-aloud selections with your English Language Learners before you read them in the whole class. Stop during the reading to discuss vocabulary and to check for understanding. Take time to share and discuss the text features.
- ✓ Make available expository nonfiction and functional texts at a variety of levels that the students can use to explore text features during 2BR and Independent Strategy Practice throughout the unit. For more information, see "About Expository Text" at the beginning of Unit 2.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see "Randomizing," "Considerations for Pairing ELLs," and "Cooperative Structures" in the Introduction. For more information, view "Cooperative Structures Overview" (AR6).
- ✓ Prior to Day 2, prepare a sheet of chart paper with the title "Text Features."

(continued)

DO AHEAD (continued)

- ✓ Prior to Day 2, make a class set of "2BR Conference Notes" record sheets (CN2), see page 24 of the Assessment Resources Book. This week, you will begin conferencing with individual students during 2BR and documenting your observations and suggestions for each student. You might expect the student you confer with each student using the "2BR Conference Class Review" sheet (CR2), see page 157 of the Assessment Resources Book.
- ✓ Prior to Day 3, make a copy of the "Class Assessment Review" sheet (CA1), see page 8 of the Assessment Resources Book.
- ✓ Prior to Day 3, prepare a sheet of chart paper with the title "Reading Comprehension Strategies."
- ✓ Prior to Day 4, prepare to model completing a reading journal entry using one of the students you familiar with (see Day 3).

Vocabulary Note
Even as you use the vocabulary lessons, teach the Word 2 boxes this week.

(continued)

44 | Making Meaning® Teacher's Manual, Grade 5
Using Text Features • Unit 2 • Week 1 | 45

PREPARING THE DAILY LESSONS

Read-aloud Lessons

Students' listening comprehension typically exceeds their reading comprehension. Listening to and discussing texts together enables the students to build background knowledge and vocabulary, enjoy a common experience, build community, share ideas, and collaborate to construct meaning. Each week begins with a read-aloud lesson. After the reading, discussion questions check the students' surface-level understanding of the text in preparation for deeper thinking about it on subsequent days of the week.

To Prepare for a Read-aloud:

- Read the entire lesson and anticipate how your students will respond.
- Collect materials and anticipate room arrangement needs.
- Practice reading the text aloud. Focus on reading slowly.
- Review the Suggested Vocabulary and the ELL (English Language Learner) Vocabulary lists and locate these words in the text. To better define these words smoothly while reading aloud, write each definition on a self-stick note and place the note next to the word in the read-aloud text. Notice if there are any additional words you may need to define for your students.
- Locate any suggested stopping points in the text. Again, you might use a self-stick note to mark each stopping point.
- Decide what level of support your English Language Learners will need. You might need to read the text aloud to your ELLs prior to reading it to the whole class or summarize the text for them. Also, review any ELL Notes in the lesson and provide extra support for your students as appropriate. (For more information, see "Support for English Language Learners [ELLs]" on page li.)

- Optional extension activities appear at the end of some lessons. Review any extension activities and decide if and when you want to do the activities with your class. Some may require additional materials or preparation.

Read-aloud Lessons with Alternative Texts

You may want to substitute another text for the provided read-aloud text to teach the comprehension focus of the week or to repeat a week of instruction. For this purpose, a list of “Grade 5 Alternative Texts” is provided in the General Resources section of the CCC Learning Hub. The trade books suggested in the list of alternative texts are offered in Center for the Collaborative Classroom’s Comprehension Strategies Libraries. These grade-level libraries are designed to support instruction of the specific strategies used in the lessons. Visit Center for the Collaborative Classroom’s website (collaborativeclassroom.org) for more information.

Strategy Lessons

Strategy lessons introduce the strategy that is the comprehension focus for the week. Typically, you will reread the read-aloud text from Day 1 and ask questions that help your students move beyond the text’s surface meaning to a deeper exploration of it. You will then guide the students to develop their understanding through carefully structured activities. This approach encourages the students to explore and develop a strategy before you explicitly label it.

To Prepare for a Strategy Lesson:

- Read the entire lesson (including the *Student Response Book* pages) and anticipate how your students will respond.
- Collect materials and anticipate room arrangement needs.
- Practice using the strategy at least once in your own reading to help you anticipate difficulties the students might have.
- Plan how you will pace the lesson to keep it moving.
- Review suggested discussion questions and decide which ones you will ask.
- Remember that making meaning of a text—not using a particular strategy—is the primary goal of the program. Keep discussions focused on the text, and remind the students that strategies serve readers by helping them understand what they read.
- Review and plan any optional extension activities you want to do with your class.

Guided Strategy Practice Lessons and Independent Strategy Practice Lessons

Strategy lessons are often followed by lessons in which the students practice using the strategy, with teacher support gradually being reduced as the students become more comfortable with the strategy. In a guided strategy practice lesson, the students practice using the strategy with a very familiar text (such as an excerpt from the week’s read-aloud text), with you facilitating and supporting the students’ work by asking focused questions and guiding the discussion.

In independent strategy practice lessons, the students practice using the strategy in appropriately leveled texts that they read independently. You have the opportunity to monitor the students and provide individual help as needed.

To Prepare for a Guided or Independent Strategy Practice Lesson:

- Read the entire lesson (including the *Student Response Book* pages) and collect materials.
- Practice any teacher modeling required in the lesson.
- Plan how you will pace the lesson to keep it moving.
- Review suggested discussion questions and decide which ones you will ask.
- Review and plan any extension activities you want to do with your class.

LESSON LENGTH AND PACING

Grade 5 lessons take, on average, 20–40 minutes. Lessons in the first few weeks of the program may take longer as you introduce and practice cooperative structures (“Turn to Your Partner” and “Think, Pair, Share”). A few of the read-alouds will require additional time. A Teacher Note at the beginning of these lessons alerts you to the need for more time and suggests how you might break the reading into two parts, if necessary.

It is important to monitor the pace of the lessons, not only to complete them in a reasonable amount of time, but also to help the students stay focused and engaged. To maintain the pace of the lessons, we suggest the following:

- As much as possible, we advise that you teach the lessons as written, understanding that adjustments may be needed based on your knowledge of your students and their needs.
- Keep partner conversations brief (20–30 seconds).
- After partners have shared, have only one or two volunteers share their thinking with the class, even if other students have their hands up.
- During class discussions, have only two or three volunteers share their thinking. If many students want to contribute to the discussion, use “Turn to Your Partner” to give partners an opportunity to share with each other. Then have only one or two volunteers share with the class.

EXTENDING THE INSTRUCTION

In addition to the core lessons, the program features the following opportunities to extend instruction:

- **Writing About Reading.** These optional activities provide a reading/writing connection within the *Making Meaning* program by asking the students to write opinions about and make connections to the texts they hear and discuss during read-aloud lessons.

The activities build in complexity across the grades, with students at all levels encouraged to refer to the texts to support their thinking. Support for modeling writing is included in these activities. The activities can be done at the end of a lesson or at another time.

- **Extensions.** These optional activities provide additional learning opportunities that extend or enhance the instruction in the core lessons. Examples of extension activities include reading other books by the author of the read-aloud, imagining an alternative ending to the story, and learning more about a topic introduced in the read-aloud text.

STUDENT RESPONSE BOOKS

The *Making Meaning* program provides a *Student Response Book* for each student in grades 1–6. The *Student Response Books* include:

- Excerpts and reprints of selected read-aloud texts.
- Activity sheets correlated to lessons that the students use to record their thinking. Activities might include thinking tools and cooperative structures that require writing, such as “Stop and Wonder.”
- Reading Logs (grades 2–6), in which the students list and comment on the texts they read independently, and Reading Journals (grades 1–6), in which the students write in more depth about their independent reading.

The *Student Response Books* are a useful resource for both you and your students. The students can use their Reading Logs and Reading Journals to track and write about their reading. The activity sheets make it unnecessary for you or your students to provide additional paper, and they are engaging and easy to use. The completed sheets also comprise a record of each student’s work in the program. The *Student Response Books* are an integral part of the Individual Comprehension Assessment. For more information, see “Individual Comprehension Assessment” in the Assessment Overview of the *Assessment Resource Book*.

PROFESSIONAL DEVELOPMENT MEDIA

Brief videos created for the third edition of the *Making Meaning* program help you with effective implementation. The videos, intended for viewing when planning lessons, provide a range of support, including tips for introducing IDR and conferring with the students, demonstrations of teachers using various techniques for facilitating discussions, and examples of students using cooperative structures. For a complete list of professional development media, visit the CCC Learning Hub (ccclearninghub.org).

HELPFUL LESSON FEATURES

The lessons include a number of features that help you navigate the instruction and that provide background information and tips. These lesson features are listed in the table on the next page.

Helpful Lesson Features

- **Vocabulary Notes.** These notes appear at the beginning and end of the week’s lessons to alert you to the vocabulary lessons you will be teaching in the *Vocabulary Teaching Guide*.
- **Topic Notes.** These notes appear at the beginning of some lessons and provide background information about important aspects of the instruction, including lesson structure, purpose, pedagogy, and approach.
- **Teacher Notes.** These notes appear in the lesson margins and alert you to such information as the purposes of different activities, materials to be collected or saved, hints for managing the lesson, and ways to support the students.
- **ELL Notes.** These notes suggest various strategies to support English Language Learners (ELLs) during a lesson.
- **Facilitation Tips.** These notes suggest techniques you can use to facilitate class discussions (for example, asking open-ended questions, using wait-time, and not paraphrasing or repeating students’ responses) in order to increase participation and encourage deeper conversations among your students. For a concise summary of the Facilitation Tips, see the “Teacher’s Facilitation Bookmark” in the General Resources section of the CCC Learning Hub (ccclearninghub.org).
- **Cooperative Structure Icons.** These icons indicate where in the lesson students work in pairs or small groups and where cooperative structures, such as “Turn to Your Partner” and “Think, Pair, Share,” are used.
- **Suggested Vocabulary.** This feature identifies words in a read-aloud that you might want to define for your students as you read. We have selected vocabulary words based on how crucial they are to understanding the text and on the unlikelihood that students will be able to glean their meanings from the context. Definitions are provided.
- **ELL Vocabulary.** This feature identifies and defines additional words in a read-aloud that you may want to address with your ELLs.
- **“Students might say.”** This feature gives you examples of the kinds of responses you might expect from your students. If the students have difficulty answering a question, you can suggest some of the ideas in the “Students might say” note and then ask them to generate additional ideas.
- **“You might say.”** This feature provides sample language that you can draw on when you introduce a cooperative structure or model using reading comprehension or self-monitoring strategies. Providing the students with opportunities to hear you think out loud as you use a strategy helps them apply the strategy to their reading.
- **Chart Diagrams.** These diagrams illustrate charting techniques and provide examples of ideas generated by the class or by teacher modeling.
- **Technology Tips.** These notes suggest ways you might integrate technology in the lessons. In grades 3–6, they also refer to the technology mini-lessons in Appendix B, which instruct students on topics such as how to navigate safely online and how to conduct online research.
- **2D Barcodes.** You can scan these 2D barcodes with an app installed on your smartphone or tablet device to gain instant access to professional development and instructional media.

Helpful Lesson Features *(continued)*

- **IDR Conference Notes.** These notes support you as you confer with individual students during IDR. (See “IDR Conferences” on the next page.)
- **Class Assessment Notes.** These notes help you observe and assess the whole class as they demonstrate their use of a strategy during a lesson. (See “Assessments” on page xlvi.)
- **End-of-unit Considerations.** This feature provides information on wrapping up a unit and conducting end-of-unit assessments.

Individualized Daily Reading (IDR)

Research has consistently shown what common sense suggests: the more students read, the better readers they become (Anderson, Wilson, and Fielding 1988; Taylor, Frye, and Maruyama 1990). The practice that independent reading provides is critical if students are to consolidate and strengthen the reading comprehension skills and strategies they are learning. The independent strategy practice lessons in the *Making Meaning* program give your students valuable practice in using these skills and strategies independently, but more independent practice is needed if the students are to become truly proficient at comprehending text. To meet this need, *Making Meaning* includes an Individualized Daily Reading (IDR) strand.

INDEPENDENT READING IN GRADE 5

During Individualized Daily Reading in grade 5, the students spend up to 30 minutes a day reading books independently at their appropriate reading levels. An IDR section appears at the end of each lesson, except for independent strategy practice lessons. IDR can follow the day’s lesson, or you can schedule it during another time of the school day.

IDR begins in Unit 1 (Week 1) of the grade 5 program. In Unit 1, the students learn the procedures for IDR and how to identify books that are at the appropriate level for them. They also learn procedures for using the classroom library and begin tracking the books they are reading in their Reading Logs within their *Student Response Books*. In Unit 2, the students learn questions they can ask themselves to monitor their comprehension. They also begin conferring with the teacher about their reading lives. In Unit 3, they discuss strategies they can use to “fix” comprehension problems. In this unit and in subsequent units, the students apply the reading comprehension strategies they are learning to various types of texts and reflect on their use of the strategies during conferences.

THE TEACHER’S ROLE

Individualized Daily Reading in the *Making Meaning* program is different from other types of independent reading, such as free reading, SSR (Sustained Silent Reading), and DEAR (Drop Everything and Read). In those programs, students select their own books, which may or may

not be at their appropriate reading levels, and the teacher plays a largely neutral role. In IDR, the students read texts at their appropriate reading levels for a specified period of time. You, the teacher, are actively involved, conferring with individual students, helping them select appropriate books, and assessing and supporting their reading.

IDR CONFERENCES

Initially, your individual student conferences focus on getting to know the students as readers and on ensuring that they are reading appropriately leveled texts. As the year progresses, the conferences will focus more on assessing the students' comprehension, supporting struggling readers, and encouraging self-monitoring.

Beginning in Unit 2 of grade 5, you will use a unit-specific "Resource Sheet for IDR Conferences" to guide you as you confer. This resource sheet outlines a process you can use when conferring with individual students about their independent reading. It includes questions you can ask to probe each student's thinking about what he or she is reading and to assess the student's comprehension of the text. It also includes suggestions for supporting the student's reading growth. You will document your IDR conferences using the "IDR Conference Notes" record sheet. We recommend that you document at least one IDR conference per student per unit. These notes are an important source of information for each student's Individual Comprehension Assessment (see "Assessments" on page xlvi).

You will find copies of the "Resource Sheet for IDR Conferences" and the "IDR Conference Notes" record sheets in the *Assessment Resource Book*. The record sheets are also available on the CCC Learning Hub (ccclearninghub.org). Alternatively, you can use the CCC ClassView app to electronically record conference data on a record sheet. For more information, see "CCC ClassView App" on page xlvi.

READING APPROPRIATELY LEVELED TEXTS

For IDR to succeed, the students must be reading books that they can comprehend and read fluently with few miscues (accuracy errors). Early in the year, you can match students to books by informally assessing their reading abilities. One procedure you might use is to have each student select a text that interests him or her, and then listen to the student read aloud. Note whether the student is reading with accuracy (reading most of the words without miscues) and understanding. To gauge a student's surface understanding, you can use prompts and questions such as "Tell me what you just read" or "What does that mean?" If a student is reading a book that is too difficult or easy, help him or her select a more suitable book.

Another technique for evaluating the appropriateness of a book is to use the “five-finger rule.” As a student reads a page aloud, count any words he or she does not know. More than five unknown words on a page usually indicates that the book is too difficult. When your students become familiar with the five-finger rule, you can encourage them to use the technique on their own, making the students responsible for checking the appropriateness of the books they choose for IDR.

It is very important for students to build reading fluency as a foundation for comprehension. If you have students who are reading far below grade level, make sure they have time every day to practice reading decodable texts, and check in with them regularly to monitor their rate and accuracy.

DETERMINING INDEPENDENT READING LEVELS

Other informal and formal tools are available for determining a student’s independent reading level. Running records are classroom-based, informal assessments of fluency and comprehension that can be used periodically to evaluate a student’s reading performance; identify his or her independent, instructional, and frustration reading levels; and monitor his or her progress. A variety of formal benchmark assessments, such as the Developmental Reading Assessment (DRA) and Fountas and Pinnell Benchmark Assessment System (BAS), can also be used to measure the student’s progress and identify his or her reading level.

Regardless of the assessment tool you use, it is important to monitor and record the students’ progress across the year. The “Student Reading Level Summary” record sheet (SR) can be used to record individual students’ reading assessment data. You will find copies of this record sheet in the *Assessment Resource Book*, on the CCC Learning Hub, and in the ClassView App.

SETTING UP A CLASSROOM LIBRARY

For IDR, the students will require access to a wide range of fiction and nonfiction texts at various levels. For easy browsing, you might display books in boxes or baskets labeled with the name of the book category. Categories can include:

- Genres (e.g., mystery, science fiction, folktale, biography)
- Subjects or topics (e.g., presidents, animals, weather, school)
- Themes (e.g., faraway places, friendship, growing up)
- Favorite authors or illustrators
- Popular series
- Student favorites

A classroom library ideally consists of 300–400 titles, although many teachers start with a smaller collection and add to it over time. The library should include a balance of fiction and nonfiction books. To accommodate various reading levels, at least 25 percent of the library should be books that are one to two grades below grade level, and at least 25 percent should be books that are one to two grades above grade level.

Sources of texts include book clubs, bookstores, your school or community library, donated books, basal readers, textbooks, and children’s magazines and newspapers. You can purchase a leveled classroom library, or you can level the books in your current classroom library.

Center for the Collaborative Classroom’s Individualized Daily Reading Libraries can be used to start a classroom library or to round out an existing library. The libraries are organized by grade level and readability to enable teachers to provide fiction and nonfiction books that are at the right levels for their students. Visit Center for the Collaborative Classroom’s website (collaborativeclassroom.org) for more information.

To help you build and maintain your library, you might consider using free book-management software called Classroom Organizer® from Booksource. With Classroom Organizer, you can inventory the print and digital books in your library by scanning the barcodes, import your class roster, enable students to check out and return books electronically, compile reports on students’ reading activities, and add new titles. For more information, visit the Booksource website (classroom.booksource.com).

LEVELING TEXTS

Below you will find information on two leveling systems that can help you with the sometimes difficult and time-consuming process of leveling texts. (More information about leveling can be found in Brenda M. Weaver’s *Leveling Books K–6: Matching Readers to Text.*)

The Fountas & Pinnell Leveling System

- Educators Irene C. Fountas and Gay Su Pinnell developed a leveling system for use with guided reading groups that is frequently used for leveling independent reading libraries. They provide lists of thousands of leveled books for grades K–8 in their book *Leveled Books, K–8: Matching Texts to Readers for Effective Teaching* (Heinemann 2008) and also on their website (fountasandpinnellleveledbooks.com).

The Lexile® Framework for Reading

- This leveling system uses a sophisticated formula to determine text difficulty, which it represents as a Lexile score that is used to rank the text on a graded scale. Developers of this framework (MetaMetrics, Inc.) have created a database of thousands of Lexiled texts, plus software that allows teachers to search, sort, and view information about each text. For more information, visit The Lexile Framework for Reading website (lexile.com).

BUILDING STAMINA

Building stamina for reading independently is critical if the students are to develop and grow as readers. In the grade 5 program, the students begin IDR by reading independently for up to 15 minutes a day. By Unit 4, the expectation is that the students will be reading independently for up to 30 minutes each day. The time allotments suggested in the IDR lesson steps, however, are goals, not requirements, and IDR times should be adjusted as necessary to meet your students' particular needs and their capacities to remain engaged and attentive. You might consider increasing the time allotted to IDR gradually, for example, one to two minutes every two weeks.

The table on the next page provides an overview of the reading times (shown by number of minutes) recommended for IDR for each grade and unit in *Making Meaning*. The table shows how stamina for independent reading builds both within and across grades.

Building Stamina for Independent Reading

Grade Level	Unit 1	Unit 2	Unit 3	Unit 4	Unit 5	Unit 6	Units 7+
K	up to 5	up to 7	up to 9	up to 10	10-15	10-15	up to 15
1	up to 5	5-10	10-15	up to 15	up to 15	up to 15	up to 15
2	up to 10	10-15	15-20	up to 20	up to 20	up to 20	up to 20
3	up to 15	15-20	20-25	up to 25	up to 25	up to 25	up to 25
4	up to 15	15-20	20-25	25-30	up to 30	up to 30	up to 30
5	up to 15	15-20	20-25	25-30	up to 30	up to 30	up to 30
6	up to 20	20-25	25-30	up to 30	up to 30	up to 30	up to 30

If your students are struggling to use IDR time responsibly, meet with students individually or as a group to discuss the problem and possible solutions. Encourage the students to set personal goals, and check in with them regularly about how they are spending their IDR time.

IDR MINI-LESSONS

These optional lessons, found in Appendix A, support and supplement the instruction you provide during IDR, focusing on topics such as selecting appropriate texts, conferring, self-monitoring, using word-analysis strategies, and fluency. The lessons include:

- “Choosing and Handling Books” (K–1)
- “Selecting ‘Just-right’ Books” (K–2)
- “Introducing IDR Conferences” (K–6)

- “Self-monitoring” (1–2)
- “Reading Punctuation” (1–2)
- “Reading Typography” (1–2)
- “Reading with Expression” (1–6)
- “Using Word-analysis Strategies” (1–6)
- “Selecting Appropriately Leveled Texts” (3–6)
- “Self-monitoring and Using ‘Fix-up’ Strategies” (3–6)
- “Reading in Meaningful Phrases” (3–6)

TIPS FOR MANAGING IDR

Building a successful Individualized Daily Reading program is vital for reading achievement, but establishing and maintaining IDR—as well as making time for it—can be challenging. Here are some tips for implementing and managing IDR in your classroom:

- Establish and maintain a well-designed and well-stocked classroom library (see “Setting Up a Classroom Library” on page xli).
- Take the time to introduce and model IDR routines and procedures, such as choosing appropriate books, checking books in and out of the classroom library, and conferring. There are both core lessons and mini-lessons in *Making Meaning* developed specifically to help you with these essential aspects of IDR (see “IDR Mini-lessons” on the previous page).
- Create a classroom environment that is conducive to independent reading. If possible, arrange the room so the students have comfortable places to read away from their desks or tables.
- Set clear expectations for student behavior during IDR. Check in regularly to see how the students are doing, both with meeting your expectations and taking responsibility for how they spend independent reading time.
- Each day’s IDR instruction establishes a clear purpose for independent reading (for example, practicing self-monitoring or visualizing to make sense of a text). Make sure the purpose is clear to the students, and take time at the end of IDR to discuss the reading focus with the students.
- Finally, make IDR a regular part of your schedule and protect that time. Scheduling IDR immediately after a *Making Meaning* lesson is ideal, but IDR may also be scheduled for another regular time each day, such as first thing in the morning or immediately after lunch or recess.

Vocabulary Teaching Guide

The *Vocabulary Teaching Guide* is a revision of *Vocabulary for Making Meaning, Second Edition*. It supplements and supports the *Making Meaning* program by providing 30 weeks of vocabulary instruction at grades K–6. The lessons teach high-utility words found in or suggested by the *Making Meaning* read-aloud texts, as well as strategies the students can use to determine the meanings of words they encounter in their independent reading. The table on the next page lists the independent word-learning strategies taught at each grade level and provides a snapshot of how the strategies are developed across the grades.

Development Across the Grades

Independent Word-learning Strategy	K	1	2	3	4	5	6
Recognizing synonyms	■	■	■	■	■	■	■
Recognizing antonyms	■	■	■	■	■	■	■
Using context to determine word meanings		■	■	■	■	■	■
Recognizing shades of meaning	■	■	■	■	■	■	■
Recognizing words with multiple meanings	■	■	■	■	■	■	■
Using inflectional endings	■	■					
Using knowledge of compound words to determine meanings			■	□			
Using prefixes to determine meanings	□	□	■	■	■	■	■
Using suffixes to determine meanings	□	□	■	■	■	■	■
Using Greek and Latin roots to determine word meanings					■	■	■
Recognizing idioms, adages, and proverbs				■	■	■	■
Using a dictionary, glossary, or thesaurus			■	■	■	■	■
Analyzing word relationships through analogies							■

■ formally taught □ informally explored or reviewed

At grades K–2, there are three days of vocabulary instruction each week. At grades 3–6, there are five days of instruction. Each week includes Ongoing Review activities that review previously learned words. Vocabulary words are taught and reviewed using engaging activities that require the students to use the words in partner and class conversations. For

more information about the vocabulary lessons, including how the lessons are structured, suggestions for teaching the vocabulary lessons with the *Making Meaning* lessons, and the vocabulary assessments, see the Introduction in the *Vocabulary Teaching Guide*.

Assessments

The assessment component of the *Making Meaning* program is designed to help you (1) make informed instructional decisions as you teach the lessons and (2) track your students' reading comprehension and social development over time. The expectation is that *all* of your students are developing—at their own pace—into readers with high levels of comprehension and that they can each develop positive, effective interpersonal skills and values.

The program includes both formative and summative assessment tools. Each assessment has a corresponding record sheet in the *Assessment Resource Book*, which you may use to record your students' progress. You can photocopy the forms in the *Assessment Resource Book*, or you can download and print the forms on the CCC Learning Hub (ccclearninghub.org). Alternatively, you can use the CCC ClassView app to electronically record, sort, synthesize, and report assessment data for each student and the whole class. For more information, see “CCC ClassView App” on page xlviii.

FORMATIVE ASSESSMENTS

Formative assessments help you reflect on your students' academic and social growth over time through class observation and individual conferences. Formative assessments in *Making Meaning* comprise the following:

- **Class Assessment (K-6).** Class Assessment Notes within the lessons appear once per week and are designed to help you assess the performance and needs of the whole class. The assessment occurs during a lesson at a time when the students are demonstrating their use of the strategies they learned to make sense of text. During the assessment, you have the opportunity to randomly observe students working in pairs or individually (select strong, average, and struggling readers) as you ask yourself questions that focus your observations. You can record your observations on the corresponding “Class Assessment Record” sheet (CA).
- **IDR Conferences and Student Reading Goals and Interests Survey (K-6).** IDR conferences provide you with the opportunity to talk with individual students about their reading, identify areas of strength, and note areas in which students need more support. As you teach the lessons, an IDR Conference Note will alert you when a conference is suggested. You can record your observations from each conference on the corresponding “IDR Conference Notes” record sheet (CN). We encourage you to confer with each student at least once per unit. The “IDR Conference Notes” record sheets comprise an important source of information for the Individual Comprehension Assessment.

The questions provided in the first “IDR Conference Notes” record sheet can be used as a beginning-of-year survey of the students’ reading goals and interests. The questions in the final “IDR Conference Notes” record sheet of the year can serve as an end-of-year survey of the students’ perceptions of their growth as readers, attitudes toward reading, and goals for summer reading.

For more information about the formative assessments in the program, see “Formative Assessments” in the Assessment Overview of the *Assessment Resource Book*.

SUMMATIVE ASSESSMENTS

Summative assessments allow you to evaluate and score each student’s comprehension development, as well as the students’ social development.

- **Social Skills Assessment (1–6).** The Social Skills Assessment allows you to note how well each student is learning and applying the social skills taught in the program and how well each student integrates the values of responsibility, respect, fairness, caring, and helpfulness into his or her behavior. As you teach the lessons, a Social Skills Assessment Note will alert you when a social skills assessment is suggested. We recommend that you do this assessment three times: at the beginning, middle, and end of the year. The “Social Skills Assessment Record” sheet (SS) allows you to track how individual students are doing with specific skills during the course of the year.
- **Individual Comprehension Assessment (K–6).** The Individual Comprehension Assessment, which is administered once per unit beginning in Unit 2 (grades 3–6) or Unit 3 (grades K–2), is designed to help you assess the strategy use and comprehension development of individual students. In grades 1–6, the assessment has two sections—Part A: Strategy Assessment and Part B: IDR Assessment—and reflection questions to help guide your assessment of each student’s growth. In kindergarten, only the IDR Assessment and reflection questions are provided. The “Individual Comprehension Assessment” record sheet (IA) can be used to record each student’s score on the assessment and help you assign grades.

For more information about the summative assessments in the program, see “Summative Assessments” in the Assessment Overview of the *Assessment Resource Book*.

Using the Technology Features

The *Making Meaning* program incorporates digital technology to enhance your students' learning experience and streamline your preparation, instruction, and assessment processes.

Digital Teacher Resources

The program comprises a suite of digital resources, including the *Digital Teacher's Set* as well as access to the CCC Learning Hub and the CCC ClassView app.

DIGITAL TEACHER'S SET

The *Making Meaning Digital Teacher's Set* includes electronic versions of the *Teacher's Manual*, *Assessment Resource Book*, *Vocabulary Teaching Guide*, and *Reading Assessment Preparation Guide* (grades 3–6) for use on a tablet device or computer. Features of the *Digital Teacher's Set* include linked cross-references and direct access to the CCC Learning Hub, the CCC ClassView app (see below for more information), and professional development media.

CCC LEARNING HUB

The CCC Learning Hub (ccclearninghub.org) is your source for the following resources:

- Whiteboard activity charts (to display or print)
- Printable blackline masters, such as family letters and student handouts
- Digital reference copy of the *Student Response Book*
- A link to the CCC ClassView app, as well as direct links to printable or interactive assessment forms
- Professional development and instructional media

For more information, see the “Using the CCC Learning Hub” tutorial (AV39).

CCC CLASSVIEW APP

CCC ClassView is an online application that contains all of the assessment forms and instructions that are included in the *Assessment Resource Book*. This tool also enables you to electronically collect, sort, synthesize, and report assessment data for each student. You can access the CCC ClassView app by tapping the assessment icons or links in the *Digital Teacher's Set*, by going directly to the app (classview.org), or by clicking the CCC ClassView button on the grade-level program resources page on the CCC Learning

Hub (ccclearninghub.org). For more information about this assessment tool, view the “Using the CCC ClassView App” tutorial (AV41).

Additional Technology Features

Additional lesson features integrate technology into the program in a variety of ways.

TECHNOLOGY TIPS

These notes, located in the margins of the core lessons, suggest ways to incorporate technology into the instruction or list related professional development media that support your use of technology in the classroom.

TECHNOLOGY EXTENSIONS

These optional activities identify ways in which you can use technology to extend instruction, when appropriate. For example, students might visit a website to investigate a topic or listen to an audio version of a book heard during a lesson.

TECHNOLOGY TUTORIALS

These videos help you understand how to effectively implement the program’s technology features and how to use widely available technology, such as presentation tools. They include:

- “Getting Started with Your Print *Teacher’s Manual*” (K–6)
- “Getting Started with Your *Digital Teacher’s Set*” (K–6)
- “Using the CCC Learning Hub” (K–6)
- “Using CCC’s Whiteboard Activities” (K–6)
- “Using the CCC ClassView App” (K–6)
- “Using Web-based Whiteboard Activities” (K–6)
- “Finding, Organizing, and Presenting Online Information” (K–6)
- “Using Web-based Maps and Related Tools” (K–6)
- “Using Presentation Tools” (3–6)
- “Creating Audio and Video in the Classroom” (3–6)
- “Using Blogs in the Classroom” (K–6)
- “Using Social Media” (3–6)
- “Creating Digital Stories” (K–6)

TECHNOLOGY MINI-LESSONS

These optional lessons in grades 3–6 instruct students on a variety of technology subjects.

These lessons include:

- “Navigating Safely Online”
- “Maintaining Privacy Online”
- “Showing Respect in Digital Communications”
- “Choosing Effective Search Terms”
- “Understanding Search Results”
- “Narrowing Search Results and Using Filters”
- “Evaluating Research Sources”

Special Considerations

Teaching the Program in Multi-age Classrooms

If you are teaching a multi-age class, we recommend that you choose the level of the program that is appropriate for the majority of your students to use throughout the school year. Since the program provides instruction through read-aloud texts selected to be accessible to a wide range of students and includes time for Individualized Daily Reading practice and individual conferences, all of your students will be able to develop comfortably as readers even if the lessons are designed for students at a lower or higher grade level.

Support for English Language Learners (ELLs)

The *Making Meaning* program helps you implement effective teaching strategies to meet the needs of all students, including English Language Learners (ELLs). English Language Development (ELD) strategies are an inherent part of the program’s design. In addition, through ELL Notes, we provide you with suggestions for modifying the instruction to enhance support for ELLs.

While the *Making Meaning* program is an effective tool in teaching comprehension to ELLs, it is not intended to stand alone as a comprehensive linguistic development program. It is assumed that additional support in second language acquisition is occurring for ELLs outside of this program.

ABOUT TEACHING READING COMPREHENSION TO ELLs

One myth about teaching ELLs is that good teaching alone will meet these students’ linguistic and academic needs, and that they will simply “pick up” the language in the typical classroom context. While “good teaching” (using developmental, research-based instructional strategies) certainly benefits students learning English, it is important to build on each student’s specific academic and linguistic strengths and plan instruction based on his or her needs.. The first step is to develop an accurate picture of each child’s level of English language proficiency and his or her previous academic experience.

STAGES OF SECOND LANGUAGE ACQUISITION

Learning a new language is a developmental process. The table on the next page outlines the generally accepted stages of acquiring a language and the characteristics of students in an immersion classroom at each stage. In an immersion classroom, the students are instructed

in their second language (English) for all subjects. Progress from one stage to the next depends on a wide variety of factors, including cognitive and social development, maturity, previous academic experience, family education, home literacy practices, personality, cultural background, and individual learning styles.

Stages of Second Language Acquisition

Developmental Stages of Language Proficiency (under immersion)	Student Characteristics
Stage 1: Receptive or Preproduction (can last up to 6 months)	<ul style="list-style-type: none"> Often nonverbal during this period Acquires receptive vocabulary (words and ideas that children “take in” or learn before they begin to produce words verbally) Conveys understanding through drawing, writing, and gesturing Gradually becomes more comfortable in the classroom
Stage 2: Early Production (can last 6 months to 1 year)	<ul style="list-style-type: none"> Comprehends simple language Communicates with one key word and short phrases Verbally labels and categorizes Listens more attentively Begins to use present tense Writes words and some simple sentences
Stage 3: Speech Emergence (can last 1 to 3 years)	<ul style="list-style-type: none"> Has good comprehension of conversational language Sequences stories using words and pictures Is challenged by figurative language Speaks and writes simple sentences
Stage 4: Intermediate Fluency (can last 3 to 5 years)	<ul style="list-style-type: none"> Has excellent comprehension Uses newly acquired vocabulary Speaks, reads, and writes more complex sentences Participates in academic discussions Makes few grammatical errors May continue to be challenged by idioms and figurative language Demonstrates higher-order skills, such as analyzing, predicting, debating, etc.
Stage 5: Advanced Fluency (can last 5 to 7 years)	<ul style="list-style-type: none"> Has near-native fluency Demonstrates excellent comprehension Continues to develop academic vocabulary Continues to speak, read, and write increasingly complex sentences

CONSIDERATIONS FOR PAIRING ELLs

A key practice in the *Making Meaning* program is to have students work in unit-long partnerships. Random pairing is suggested as a way to ensure equity by reinforcing the value of each child in the classroom (see “Random Pairing” on page xxvii). However, when considering the needs of English Language Learners, it may be advantageous to partner these students in a more strategic way. You might pair a beginning English speaker with a fluent English or multilingual speaker. It can be effective if the multilingual partner shares the ELL’s primary language, but we recommend prudence in asking the more fluent English speaker to serve as translator. Another option is to place ELLs in trios with fluent English speakers to allow them more opportunities to hear English spoken in conversation. In this case, it is important to make sure that all three students are participating and including one another in the work.

HOW THE MAKING MEANING PROGRAM SUPPORTS ELLs

There are several effective English Language Development instructional strategies integrated throughout the *Making Meaning* program. These strategies help make the content engaging and comprehensible, support the students at their individual levels of language proficiency, and help the students see themselves as valuable members of the classroom community. The strategies included are shown in the chart below.

English Language Development (ELD) Strategies in the *Making Meaning* Program

Creating a respectful, safe learning community	<ul style="list-style-type: none"> Active, responsible learning High expectations for classroom interactions Explicit classroom procedures and routines Explicit social skills instruction Regular discussions to reflect on classroom values and community
Cooperative learning	<ul style="list-style-type: none"> Cooperative structures (“Turn to Your Partner” and “Think, Pair, Share”) Ongoing peer partnerships Opportunities to express thinking orally and listen to others’ thinking Discussing reading with partners Sharing work and reflecting
Authentic communication	<ul style="list-style-type: none"> Whole-class and partner discussions about interesting and important texts and topics Opportunities to respond to or engage with a text in a variety of modalities (discussion, writing, drawing)
Vocabulary development	<ul style="list-style-type: none"> Opportunities to preview and discuss read-aloud texts before lessons Building academic vocabulary
Language-rich environment	<ul style="list-style-type: none"> Rich, meaningful literature Engaging texts and book art Daily opportunities for listening, speaking, reading, and writing

(continues)

English Language Development (ELD) Strategies in the *Making Meaning* Program

(continued)

Scaffolded instruction	Explicit teacher modeling Rereading text Prompts to begin responses Drawing on prior knowledge and experience Building background knowledge
Critical thinking	Questions that prompt higher-order thinking Exploring and responding to different viewpoints Generating independent thinking

ADDITIONAL STRATEGIES FOR SUPPORTING ELLs

In addition to the practices embedded in the *Making Meaning* lessons, ELL Notes provide specific suggestions for adapting instruction to meet the needs of English Language Learners. In addition, you can implement a number of general strategies to help ELLs participate more fully in the program. These include:

- **Speaking slowly.** Beginning English speakers can miss a great deal when the language goes by too quickly. Modifying your rate of speech can make a big difference in helping them to understand you.
- **Using visual aids and technology.** Photographs, realia (real objects), diagrams, and even quick sketches can help to increase a student's comprehension. When giving directions, physically modeling the steps and writing them where the students can see them while saying them aloud are effective ways to boost comprehension. Audiovisual resources, such as recordings of texts read aloud, author interviews, and interactive versions of read-alouds can also be helpful.
- **Inviting expression through movement and art.** Having students express their thinking through movement and art can be enormously powerful. Drawing, painting, dancing, mimicking, role-playing, acting, singing, and chanting rhymes are effective ways for students to increase comprehension, build vocabulary, and convey understanding. The Total Physical Response (TPR) method developed by James Asher helps children build concepts and vocabulary by giving them increasingly complex verbal prompts (stand, sit, jump, etc.) that they act out physically and nonverbally (see the Bibliography on page 775).
- **Building vocabulary.** ELL vocabulary is highlighted for most read-alouds in the program, and we recommend that you introduce this vocabulary (discuss it, act it out, draw it, etc.) and define it before and during the reading. In addition, you might brainstorm words related to particular read-alouds or themes. The students can then

illustrate each word and post the illustrations next to the printed words, creating a visual chart to refer to as they read or listen to the read-aloud.

- **Preteaching.** It is a good idea to preteach concepts with ELLs whenever possible. This can mean previewing vocabulary, doing a picture walk of a story, or looking at realia or photographs before a lesson. Preteaching in a student’s primary language can be particularly effective—teachers, instructional aides, parents, or other community members can be enlisted to help. Some of the *Making Meaning* read-aloud books are available in Spanish. For a list of these titles, visit Center for the Collaborative Classroom’s website (collaborativeclassroom.org).
- **Simplifying questions.** Open-ended questions are used throughout the *Making Meaning* program to elicit language and higher-order thinking from students. These questions are often more complex in structure than closed or one-word-answer questions. While all learners, including ELLs, benefit from the opportunity to consider such questions, you might modify complicated questions into simpler ones to increase comprehension and participation by your ELLs. The table below lists some suggestions for simplifying questions.

Suggestions for Simplifying Questions

Suggestion	Original Question	Simplified Question
Use the simple present tense.	What was happening at the beginning of the story?	What happens at the beginning of the story?
Use active rather than passive voice.	How was the window broken in the story?	Who broke the window in the story?
Ask <i>who/what/where/when</i> questions rather than <i>how/why</i> questions.	How are you and your partner working together?	What do you and your partner do to work well together?
Avoid the subjunctive.	After hearing this part of the book, what do you think raptors might have looked like?	The part of the book we read today describes raptors. What do you think raptors looked like?
Provide definitions in the question.	Why is the old woman so reluctant to name the dog?	The old woman is reluctant; she does not want to name the dog. Why?
Provide context clues as part of the question.	Why is Sally Jane’s visit to the reservoir important?	At the end of the story, Sally Jane visits the reservoir and thinks about what her mother said. What is important about that?
Elicit nonverbal responses. (Stages 1–3)	What do you see in this picture that tells about the words?	This picture shows the sentence “I like to paint.” Point to the paints. Point to the paintbrushes.
Elicit responses of 1–2 words or short phrases. (Stages 1–3)	What do you think will happen when Peter puts the snowball in his pocket?	Peter puts the snowball in his pocket. Is that a good idea?

- **Assessing comprehension.** When students are in the preproduction and early production stages of language acquisition, it can be hard to assess exactly what they understand. It is important not to confuse lack of verbal response with lack of understanding. Rather than force ELLs to produce language before they are ready (which can raise anxiety and inhibit their progress), you can assess nonverbal responses while the students are actively engaged by asking yourself questions such as:
 - Do the student’s drawings and written symbols communicate thinking or show evidence of my teaching (such as completing a sentence frame and illustrating it appropriately, or including a beginning, middle, and end of a story)?
 - Does the student nod, laugh, or demonstrate engagement through other facial expressions?
 - Does the student pick up academic and social cues from peers?
 - Does the student follow classroom signals and routines?
 - Does the student follow simple directions (such as “Please get out your pencils”)?
 - Does the student utter, chant, or sing some familiar words or phrases?

ADDITIONAL MODIFICATIONS FOR ELLs

The additional English Language Development strategies outlined below can help you better meet the specific linguistic needs of your ELLs. These strategies can be implemented in small groups with your English Language Learners.

Read-aloud Lessons

- **Preview vocabulary.** Ask ELLs to draw or act out vocabulary and encourage them to give examples.
- **Take a picture walk.** Give ELLs an opportunity to become familiar with the illustrations in a text and make predictions to increase comprehension.
- **Modify cooperative structures.** Provide question prompts for verbal ELLs to use in partner conversations (for example, “Ask your partner, ‘What will happen next?’”) and allow nonverbal ELL students to gesture, draw, act out, or write their ideas for their partners.

Strategy Lessons

- **Use multiple modalities.** Encourage ELLs to use drama, drawing, realia, and writing to practice comprehension strategies.
- **Create visual aids.** Use chart paper or otherwise visually record the important parts of class discussions.

- **Review vocabulary.** Emphasize vocabulary and story language to help ELLs make sense of a text and use vocabulary meaningfully.

Guided Strategy Practice Lessons

- **Role-play or reenact parts of the text.** Encourage ELLs to demonstrate comprehension through active means.
- **Use journals.** Ask ELLs to draw or to draw and label in their reading journals to express their ideas. Have them share their drawings or writing with a partner as a “rehearsal” before sharing with the class.
- **Use visualizing.** Provide opportunities for the students to create and describe mental images from a text as a way to enhance their comprehension.

Independent Strategy Practice Lessons

- **Review the strategy.** While the students are working independently, have ELLs work in small groups to reinforce the strategy. Check in with the groups to assess the students’ comprehension.
- **Have pairs or small groups share.** Have ELLs work in pairs or small groups to present their ideas to the whole class.
- **Prepare for class discussions.** Support participation in class discussions by giving ELLs time to “rehearse” what they want to share. Encourage them to share examples from a text or their own pictures or writing.

Individualized Daily Reading (IDR)

IDR is an excellent opportunity to provide ELLs with targeted comprehension support. Here are several ways to differentiate instruction during IDR:

- **Provide audiobooks.** Provide a variety of audiobooks so ELLs can listen to a story, hear standard pronunciation, develop story language, and increase their understanding.
- **Use partner reading.** Have ELLs read a book with a partner.
- **Respond to literature.** Ask ELLs to draw or write a response to the text they are reading independently (for example, draw the main character or write a sentence describing the problem in the story).
- **Offer one-on-one support.** Enlist instructional assistants, student tutors, student teachers, primary-language speakers, and parents to read with ELL students during IDR.

By carefully observing your ELLs and employing some of the strategies suggested here (as well as those in the ELL Notes in the lessons), you will be able to support your students’ development as readers and as caring, collaborative participants in your reading community.

Building the Home–School Connection

Keeping families informed about their children’s participation in the *Making Meaning* program helps family members understand and appreciate how their children are developing as readers and how they can support that development.

FAMILY LETTERS

Each unit in the *Making Meaning* program includes a letter informing parents and caregivers about the most recent comprehension strategy and social skill their child has learned. The letters also offer suggestions for supporting students’ independent reading at home. Family letters help strengthen the home–school connection and give parents and caregivers a way to be actively involved in their children’s reading lives. The family letters are included in the Online Resources list for each unit and can be accessed via the CCC Learning Hub (ccclearninghub.org).

Integrating *Making Meaning* with Other Reading/Language Arts Programs

The *Making Meaning* program is designed to replace or enhance any reading comprehension program you may be using. How you integrate it with other components of your language arts program depends on the type of program you have. The following are suggestions for integrating *Making Meaning* with basal programs and programs that use literature circles and guided reading.

BASAL PROGRAMS

In many basal programs, reading comprehension instruction and language arts skills instruction are closely interconnected through each week’s literature selection. A single book or reading might be used to teach the week’s comprehension, grammar, spelling, word study, and writing. The *Making Meaning* program can enhance the intellectual and social impact of these programs significantly. Here are some suggestions for integrating *Making Meaning* lessons with basal programs:

- The *Making Meaning* grade 5 program is designed in four-day weeks. This allows you to read the week’s basal anthology selection on Monday, so the week’s spelling, writing, grammar, and other language arts skills instruction can be linked to that reading. *Making Meaning* lessons can then be used to replace the basal’s comprehension lessons during the rest of the week.

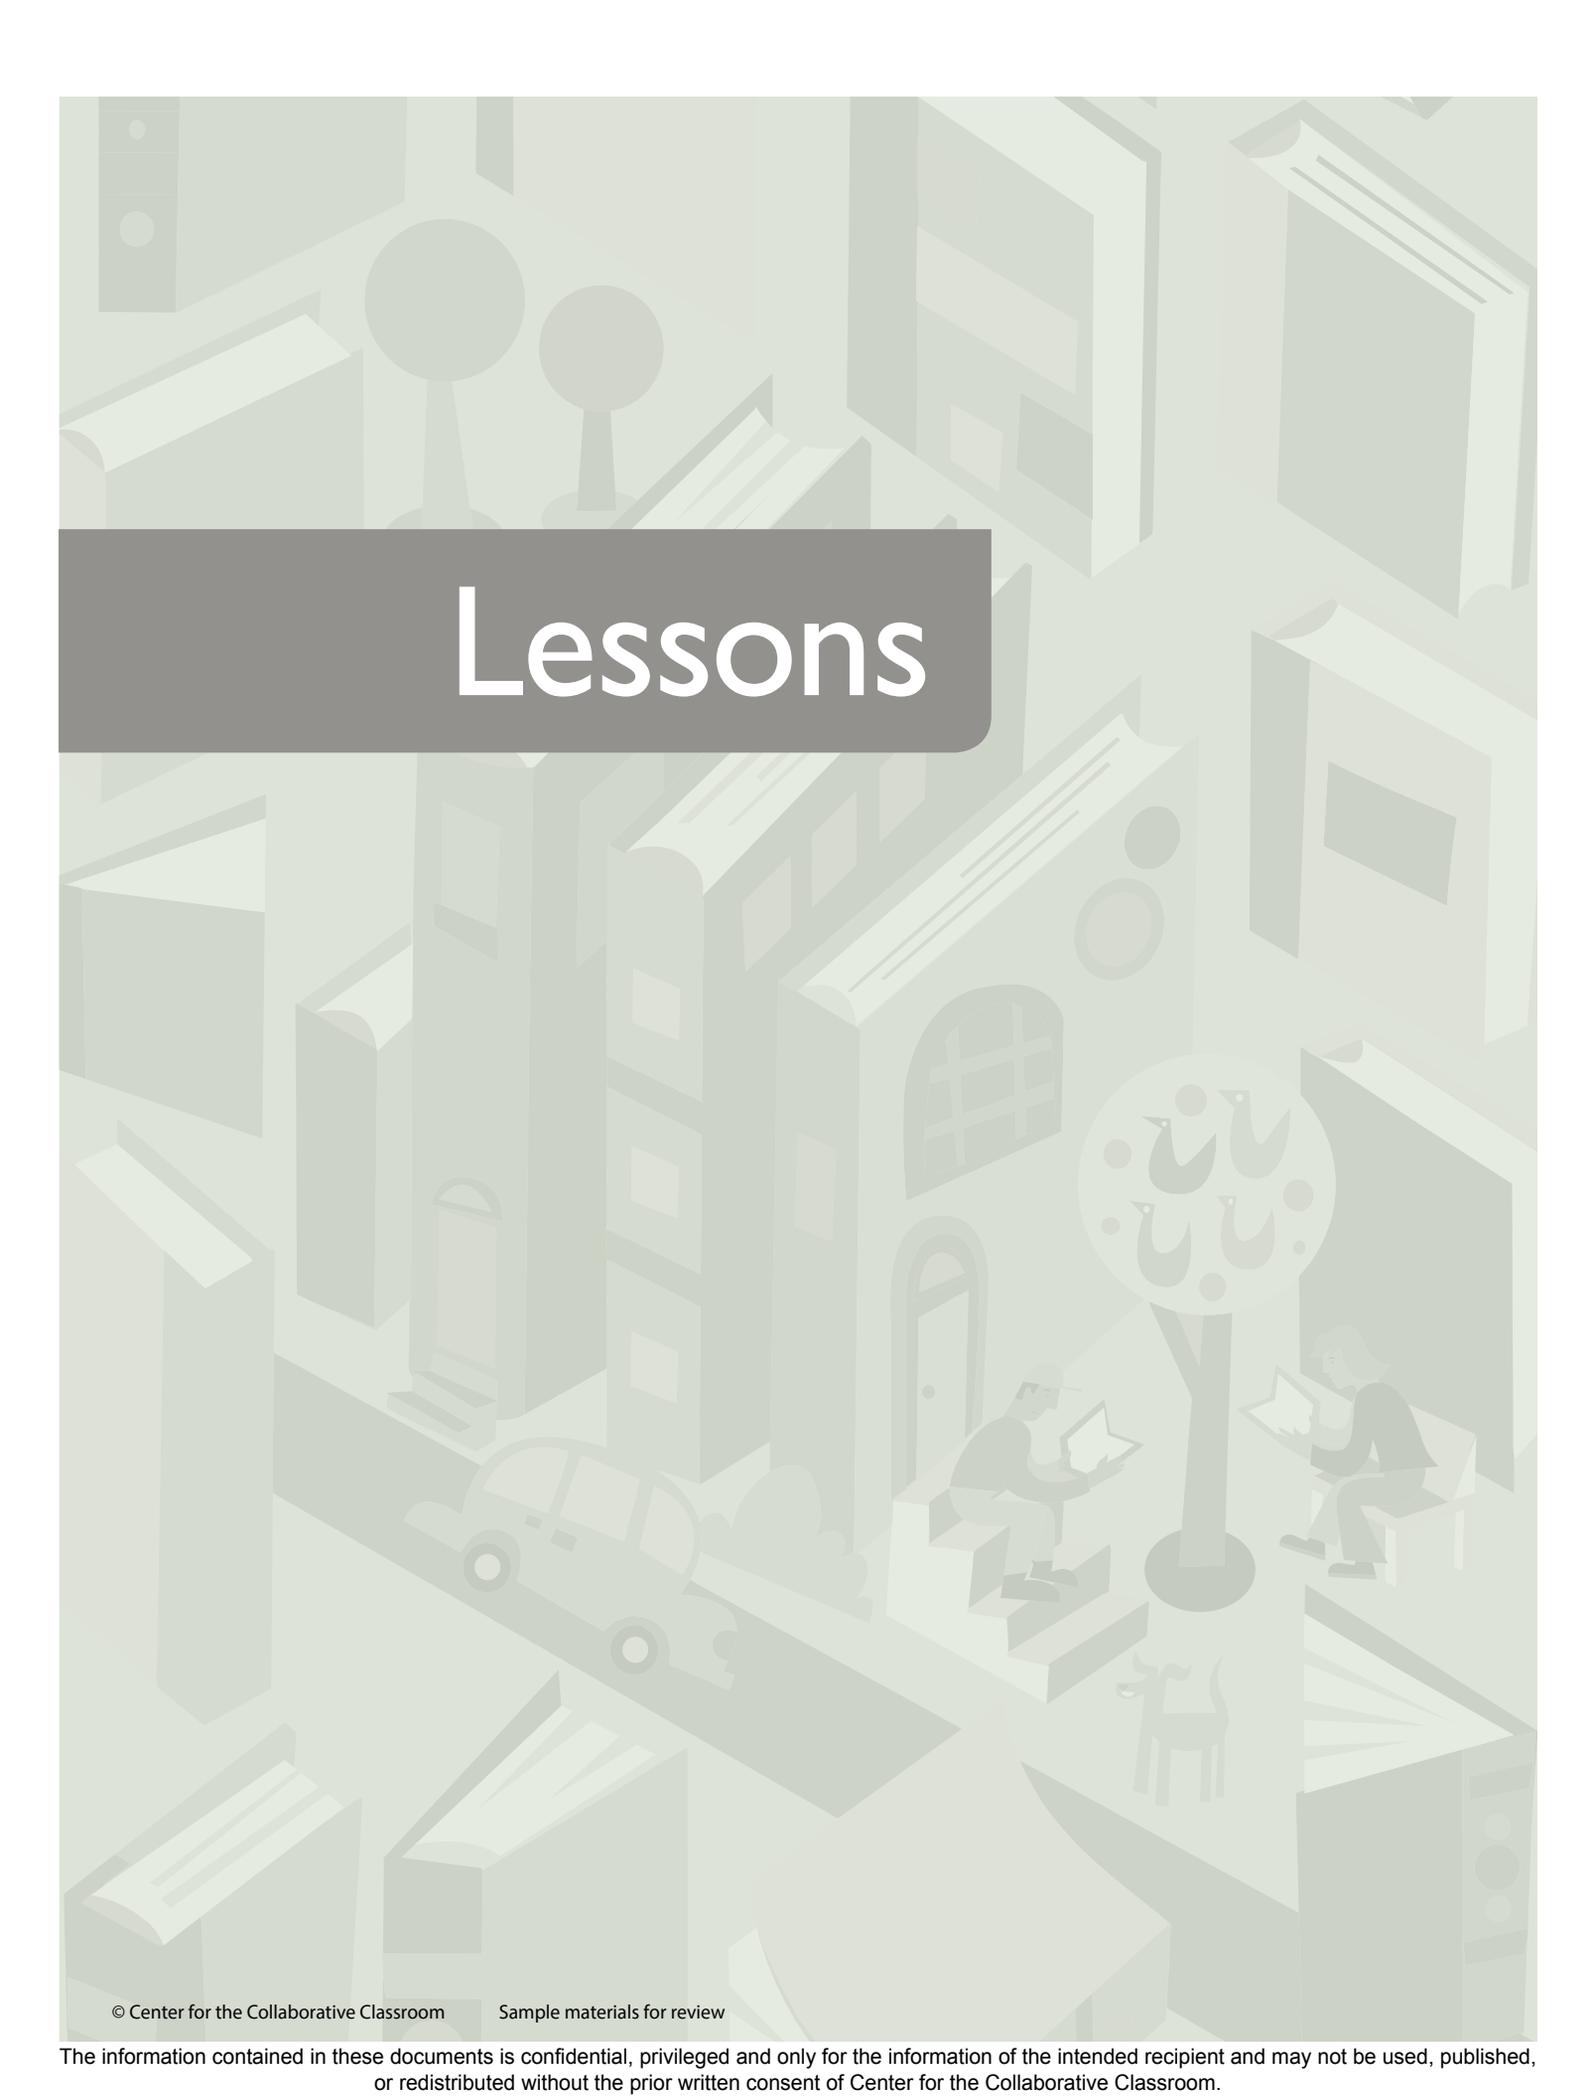

- In addition to other reading materials, basal anthologies can be used as independent reading material during Individualized Daily Reading (IDR).
- The basal anthology selection can be used as an alternative read-aloud text if you decide to repeat a week of instruction in the *Making Meaning* program.

LITERATURE CIRCLES

The *Making Meaning* program can support and enhance the work the students do in literature circles. The students can practice and strengthen the social development skills they have learned in *Making Meaning*, such as listening to others and explaining their thinking, as they interact in their circles. They can also apply the comprehension strategies they have learned to their literature circle selections, thereby building their understanding of the strategies and gaining experience in applying them to their individual, day-to-day reading. When the students are reading expository texts or narrative texts in the *Making Meaning* program, they can select the same type of text for their literature circle, and they can use their IDR time to read their circle selections.

GUIDED READING

The *Making Meaning* program integrates well with reading programs that include guided reading, which is also strategy-based. *Making Meaning* lessons can serve as the primary source of comprehension instruction, with guided reading providing extra support to those students who need additional instruction and practice in using the strategies in texts at their independent reading levels.

An isometric illustration of a library or school building. The scene is filled with books of various sizes, some standing upright and others lying flat. In the foreground, a person is sitting on a bench reading a book, and another person is sitting on a chair reading a book. A dog is sitting on the ground near the person on the chair. A tree with a circular canopy is in the center. The background shows a building with windows and a door. The entire scene is rendered in a light green and grey color palette.

Lessons

Unit 1

The Reading Community

FICTION

During this unit, the students begin the important work of building their reading community. They hear and discuss stories, make text-to-self connections, and make text-to-text connections as they compare two stories in the same genre. They also explore the use of first- and third-person points of view in fiction. They begin Individualized Daily Reading (IDR) and learn how to select books at their independent reading levels, self-monitor their reading, and use a reading log. Socially, they learn the procedures for gathering for a read-aloud, “Turn to Your Partner,” “Think, Pair, Share,” and IDR. As they build the reading community, they practice listening to the thinking of others, sharing their own thinking, and working in a responsible way.

Unit 1

The Reading Community

RESOURCES

Read-alouds

- *The Lotus Seed*
- *Something to Remember Me By*
- *Everybody Cooks Rice*

Writing About Reading Activities

- “Write About Ways That *The Lotus Seed* and *Something to Remember Me By* Are Alike and Different”
- “Write About Text-to-self Connections to *Everybody Cooks Rice*”

IDR Mini-lessons

- Mini-lesson 1, “Selecting Appropriately Leveled Texts”
- Mini-lesson 2, “Self-monitoring and Using ‘Fix-up’ Strategies”

Technology Extensions

- “Explore a Website About Vietnam”
- “Investigate Family History”
- “Explore Recipes and How-to Cooking Videos Online”

Extensions

- “Read Works of Historical Fiction and Act Out Characters”
- “Compare Stories in a Series and Discuss Text-to-text Connections”

Assessment Resource Book

- Unit 1 assessments

Student Response Book

- Reading Log

Vocabulary Teaching Guide

- Week 1 (*The Lotus Seed*; *Something to Remember Me By*)

Week 1

OVERVIEW

The Lotus Seed

by Sherry Garland, illustrated by Tatsuro Kiuchi

A young girl learns about her grandmother's hardships and the land she left behind.

Something to Remember Me By

by Susan V. Bosak, illustrated by Laurie McGaw

A grandmother and her granddaughter share special memories.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Assessment Forms

- "Class Assessment Record" sheet (CA1)
- (Optional) "Student Reading Level Summary" record sheet (SR1)

Professional Development Media

- "Building a Community of Readers" (AV1)
- "Introducing Vocabulary During a Read-aloud" (AV3)
- "Cooperative Structures Overview" (AV4)
- "Using "Turn to Your Partner" (AV6)
- "Planning a Lesson" (AV12)
- "Turning and Looking at the Speaker" (AV16)
- "Getting Started with IDR" (AV27)
- "Using the CCC Learning Hub" tutorial (AV39)
- "Using the CCC ClassView App" tutorial (AV41)

Comprehension Focus

- Students make text-to-self connections.
- Students make text-to-text connections.
- Students compare how similar themes and topics are explored in two stories of the same genre.
- Students begin Individualized Daily Reading (IDR) and read independently.

Social Development Focus

- Teacher and students build the reading community by sharing their reading lives.
- Students learn and practice the procedure for gathering for a read-aloud.
- Students learn and practice the procedures for “Turn to Your Partner” and IDR.
- Students work in a responsible way.
- Students listen respectfully to the thinking of others and share their own.

DO AHEAD

- ✓ Familiarize yourself with the CCC Learning Hub (ccclearninghub.org), where the online lesson resources for each lesson are located. For more information, view the “Using the CCC Learning Hub” tutorial (AV39).

- ✓ Plan a space in the classroom, such as a rug area, for the class to gather. For read-alouds and discussions, the students should sit facing you, close enough to see the books you will share. If a rug area is not available, plan how the students will sit in their chairs facing you. Keep in mind that the students will begin partner work on Day 2, and your setup should allow for partners to easily turn to each other to talk.
- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding.

ELPS 4.D.i
last "Do Ahead" suggestion on
page 5

(continues)

1 DO AHEAD *(continued)*

- ✓ Prior to Day 2, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see “Random Pairing,” “Considerations for Pairing ELLs,” and “Cooperative Structures” in the Introduction. For more information, view “Cooperative Structures Overview” (AV4).
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA1); see page 4 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, introduce your students to the classroom library and give them time to become familiar with its organization. Provide time for each student to select two or three books to read independently during Individualized Daily Reading (see Step 6). For more information, see “Setting Up a Classroom Library” in the Introduction.
- ✓ Prior to Day 4, determine the procedure you would like the students to use when selecting books at their independent reading levels during IDR (see Step 5).

Vocabulary Note

If you are teaching the lessons in the *Vocabulary Teaching Guide*, you will begin those lessons next week. (See “Vocabulary Teaching Guide” in the Introduction for more information about the vocabulary lessons.)

In this lesson, the students:

- Learn the procedure for gathering for a read-aloud
- Hear and discuss a story
- Gather in a responsible way
- Listen carefully

1 Introduce the Reading Community

Introduce the *Making Meaning* program by explaining that this year the students will be creating a classroom reading community in which they read, think about, and talk about books together. They will also learn powerful reading comprehension strategies to help them make sense of what they read.

Point out that often students learn how to read words *fluently*, or smoothly and with expression, but still have a difficult time understanding what they are reading, especially as the books get more challenging. This year they will all work together, with your help, to become stronger readers of all kinds of texts.

Explain that to learn the comprehension strategies well, the students will need to share their thinking, listen carefully to one another, and work in a responsible way. For this reason, it will be important to create a reading community in which everyone feels welcome, safe, and respected. Over the next few weeks, they will focus on building a caring reading community in the classroom.

2 Learn the Procedure for Gathering

Explain that the class will gather to hear a read-aloud. Explain that you would like the students to gather and sit facing you, either on a rug or in their seats. Before asking the students to move, state your expectations.

You might say:

"I expect you to walk quickly, quietly, and without bumping into one another. I expect you to sit so that others have room on the rug and to wait quietly until everyone is seated."

Have the students move to their places. As they move, comment on responsible behaviors you observe without mentioning any of the students' names.

You might say:

"I notice people are sitting toward the front of the rug so that others can sit behind them."

Materials

- *The Lotus Seed*

Teacher Note

For more information, view "Building a Community of Readers" (AV1).

**Technology Tip**

"Building a Community of Readers" (AV1) is one in a series of professional development videos in the *Making Meaning* program. For more information about the content of the videos and how to view them, see "Professional Development Media" in the Introduction.

Teacher Note

If the students have already learned a procedure for gathering for a read-aloud, use that procedure here. Simply remind the students of the procedure and of your expectations.

Teacher Note

You might point out Vietnam on a world map.

Teacher Note

The Suggested Vocabulary and ELL Vocabulary lists include words that are important for the students to understand in order to comprehend the story. To maintain the flow of the story, these words should be defined during the reading but not discussed. For more information, view “Introducing Vocabulary During a Read-aloud” (AV3).

Facilitation Tip

During this unit, help the students learn that they are talking to one another (not just to you) during class discussions by directing them to **turn and look** at the person who is about to speak. Ask speakers to wait until they have the class's attention before starting to speak. If students are unable to hear the speaker, encourage them to politely ask the speaker to speak up. Repeating these techniques over the next few weeks will help the students learn to participate responsibly in class discussions. To see this Facilitation Tip in action, view “Turning and Looking at the Speaker” (AV16).

If necessary, have the students return to their desks and practice the procedure until they are able to gather in an orderly way. Explain that the students will use the same procedure every time they get ready for a read-aloud.

3 Introduce *The Lotus Seed*

Show the cover of *The Lotus Seed* and read the names of the author and the illustrator aloud. Explain that a lotus is a kind of flower that grows in water or wet earth, and tell the students that this story follows a single lotus seed as a young girl carries it from her homeland to the United States. Explain that the girl is from the country of Vietnam. Ask:

Q *What other stories have you read about immigrants coming to the United States?*

Have a few volunteers share their thinking. Then ask:

Q *Are you sitting in a way that will help you listen? If not, what can you do?*

4 Read Aloud

Read the story aloud slowly and clearly, showing the illustrations as you read. Clarify vocabulary as you encounter it in the text by reading the word, briefly defining it, rereading it in context, and continuing (for example, “‘She hid the seed in a special place under the family altar’—an *altar* is a ‘table in a house to honor a family’s ancestors’—‘under the family altar, wrapped in a piece . . .’”).

Suggested Vocabulary

altar: table in a house to honor a family’s ancestors (p. 8; refer to the illustration on p. 9)

ao dai: (Vietnamese; pronounced *ow yai*) traditional Vietnamese dress (p. 8)

Bà: (Vietnamese) Grandmother (p. 14)

unfurling: opening up (p. 24; refer to the illustration on p. 25)

dormant: alive but not growing (p. 24)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

clamored: made lots of noise (p. 12)

scrambled: moved quickly, bumping into other people (p. 14)

towering: very tall (p. 16; refer to the illustration)

5 Discuss the Story

Facilitate a whole-class discussion using questions such as:

Q *Why is the lotus seed so important to Bà? What in the story makes you think that?*

- Q** *Why is it surprising that the lotus seed blooms again after all those years?*
- Q** *How do you think the girl will explain the importance of the lotus seed when it's time for her to give the seeds to her own children? Why do you think that?*

Students might say:

"I think the lotus seed is important to Bà because it reminds her of the emperor. I think that because the story says she wanted something to remember him by."

"I think that after Bà leaves Vietnam, the seed is also important to her because it reminds her of Vietnam. I think that because she says 'It is the flower of my country.'"

"It's surprising that the lotus seed blooms again because you wouldn't think a seed could bloom after it was dormant for so many years."

"I think the girl will tell her kids about the country their family came from and about the war, because that's what her grandmother told her about the seed."

"The girl will tell them how her grandmother brought the seed from far away and that it bloomed after being dormant for so long."

Explain that the students will revisit *The Lotus Seed* in the next lesson.

6 Reflect on Working Together

Explain that in order to build a reading community, the students need to think about how they are treating one another, how they are listening and speaking to one another, and how they are taking responsibility for their learning and behavior.

Without mentioning any of the students' names, describe some responsible behaviors you noticed during the lesson.

You might say:

"I saw many students taking responsibility for their learning and behavior during today's lesson. Students took responsibility for their behavior by gathering in an orderly way and being quiet and attentive during the read-aloud. I saw students taking responsibility for their learning by listening carefully to the story and taking time to think about my questions before they raised their hands."

Ask and briefly discuss:

- Q** *What did you do to take responsibility during the reading and discussion today?*

Encourage the students to continue to think about ways they can take responsibility for their learning and behavior. Explain how you expect the students to return to their desks or transition to the next activity. If necessary, practice the procedure until the students are able to move in an orderly way.

Teacher Note

If the students have difficulty answering these questions, offer some examples like those in the "Students might say" note. The "Students might say" notes help you anticipate possible student responses as you plan your lessons.

Teacher Note

We recommend that you describe behavior generally, rather than singling out students by name. When you focus on describing appropriate behavior, all of the students learn what it means to be responsible and develop the intrinsic motivation to act accordingly.

Teacher Note

You might tell the students that when they *take responsibility*, they act in ways that help them learn, work well with others, and build the classroom community.

Technology Tip

Prior to doing this activity, locate and preview age-appropriate websites about Vietnam using the keywords “Vietnam kids website.”

TECHNOLOGY EXTENSION

Explore a Website About Vietnam

Remind the students that *The Lotus Seed* is about a girl who was born in Vietnam and came to the United States as a young woman. Explain that you will reread the story and ask the students to think about questions they have about Vietnam as they read. Read the story aloud slowly and clearly. Then ask:

Q *What questions do you have about Vietnam?*

Tell the students that today they will explore a website about Vietnam and then discuss what they learned.

Display your browser page and go to one of the websites you previewed. Model navigating the website, and read aloud any information you think the students may find interesting. Afterward, discuss questions such as:

Q *Did you find out more about something you had a question about? What did you find out?*

Q *What did you learn about Vietnam that helped you to better understand the story *The Lotus Seed*?*

Day 2

Listening Practice

Materials

- *The Lotus Seed*

Teacher Note

If you are teaching other programs from the Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the *Making Meaning* lessons.

The partners you assign today will stay together for the unit. Take some time at the beginning of today’s lesson to let them get to know each other by talking informally in a relaxed atmosphere. You might have them report to the class some interesting things they learned about each other.

In this lesson, the students:

- Practice the procedure for gathering for a read-aloud
- Learn the procedure for “Turn to Your Partner”
- Hear a story read aloud again
- Listen carefully

1 Pair Students and Introduce “Turn to Your Partner”

Randomly assign partners (see “Do Ahead” in the Week Overview) and make sure they know each other’s names. Explain that partners will work together for the next two weeks.

Gather the class with partners sitting together, facing you. Explain that you will often ask partners to turn and talk to each other. The purpose is to give everyone a chance to think more about what they are learning by talking to other people.

Explain the “Turn to Your Partner” procedure.

You might say:

“Sometimes I will ask a question and say ‘Turn to your partner.’ When you hear this, you will turn to face your partner and talk about the question. When I raise my hand, you will finish what you are saying, raise your own hand so others can see the signal, and turn back to face me.”

2 Model “Turn to Your Partner”

Have a student act as your partner, and model turning to face each other and introducing yourselves by your full names. Then ask partners to turn to face each other and introduce themselves. After a moment, raise your hand and have them turn back to face you. Practice again by asking:

Q *What is your most prized possession—something that belongs to you and is very important to you? Why is it important to you? Turn to your partner.*

Have partners discuss their thinking. After a moment, signal for the students’ attention. Have a few volunteers briefly share with the class what they discussed.

Explain that you will read a story aloud, stopping during the reading for the students to use “Turn to Your Partner” to discuss a question.

3 Review *The Lotus Seed* and Explain the Purpose of Rereading

Show the cover of *The Lotus Seed* and ask:

Q *What do you remember about this story? Turn to your partner.*

Scan the class as partners talk, without intervening. When most pairs have finished talking, signal for the students’ attention and have one or two volunteers share their thinking with the class. Provide additional background information by reading or paraphrasing the historical information in the author’s note on page 30 of *The Lotus Seed*.

Explain that today you will reread *The Lotus Seed* aloud, and ask the students to listen carefully for any details they missed during the first reading. Explain that rereading is a technique that helps readers understand what they read at a deeper level. This year you will often reread books or passages and ask the students to practice a reading comprehension strategy or think more deeply about the reading.

Teacher Note

If your students are unfamiliar with “Turn to Your Partner,” this lesson may require an extended class period. If they are already familiar with the procedure, you do not need to model it in Step 2.

Instead, remind the students of your expectations. To see an example, view “Using ‘Turn to Your Partner’ ” (AV6).

Teacher Note

Use a signal that the students will notice but that does not interrupt their discussions, such as a raised hand. This allows the students to finish what they are saying before turning back to face you. You might build accountability by having the students raise their own hands when they turn to face you.

Teacher Note

Notice that you ask the question *before* saying “Turn to your partner.” This gives all of the students a chance to hear and consider the question before moving to face their partners.

TEKS 6.A.i
Student/Teacher Narrative
Steps 3 and 4

Teacher Note

As partners talk, look for gestures and verbalizations that let you know they are talking about the story and listening to each other (for example, they might be facing each other, looking at each other, and mentioning words they heard in the story). Be ready to report your observations to the students at the end of the lesson.

ELL Note

After discussing the story, you might invite your English Language Learners to share memories of their homelands or their experiences coming to a new country, if they feel comfortable doing so.

4 Reread *The Lotus Seed*

Read the story aloud again, slowly and clearly. Stop after:

p. 10 “When her husband marched off to war, she raised her children alone.”

Ask:

 **Q** *What happens in the part of the story you just heard? Turn to your partner.*

Scan the class as partners talk, without intervening. When most pairs have finished talking, signal for the students’ attention and have one or two volunteers share their thinking with the class. Reread the last sentence on page 10 and continue reading. Stop after:

p. 22 “She didn’t eat, she didn’t sleep, and my silly brother forgot what spot of earth held the seed.”

Ask:

 **Q** *What happens in the part of the story you just heard? Turn to your partner.*

Have partners discuss the question. When most pairs have finished talking, signal for the students’ attention. Have one or two volunteers share their thinking with the class. Reread the last sentence on page 22 and continue reading to the end of the story.

5 Discuss the Story

Facilitate a whole-class discussion of the story by asking:

Q *What did you hear during the second reading of this story that you missed during the first reading?*

Explain that tomorrow the students will hear and discuss another story.

6 Reflect on Partner Work

Help the students reflect on their work together by asking:

Q *How did you do with “Turn to Your Partner”? In what ways did it go well?*

Q *What would you like to do differently tomorrow?*

Share some of the positive partner interactions you observed. Explain that these are examples of behaviors that all of the students can practice.

Tell the students how you expect them to return to their desks or transition to the next activity.

EXTENSION

Read Works of Historical Fiction and Act Out Characters

Sherry Garland, the author of *The Lotus Seed*, has written a series of picture books that present historical events through the voices of realistic characters. These include *Voices of Gettysburg*, *Voices of the Alamo*, *Voices of the Dust Bowl*, and *Voices of Pearl Harbor*. You might read some of these and discuss them with the students. You might talk about the nature of historical fiction—the way it combines historical information with invention—and compare it to books the students have read or heard that are either purely fictional or purely historical. You might also have the students act out the voices of the characters Garland creates.

TEKS 9.A.i
Student/Teacher Narrative
Extension

Read-aloud

Day 3

In this lesson, the students:

- Practice the procedure for “Turn to Your Partner”
- Hear and discuss a story
- Make text-to-self connections
- Learn the procedure for Individualized Daily Reading
- Read independently for up to 15 minutes
- Listen carefully and work in a responsible way
- Share their reading lives

ABOUT INDIVIDUALIZED DAILY READING IN FIFTH GRADE

Today the students are introduced to Individualized Daily Reading (IDR). In IDR, the students read independently and reflect on and discuss what they have read. We recommend that you base the length of time the students read independently on their attention and engagement. You might begin with 10-15 minutes and gradually add time over the coming weeks. The goal is for the students to read independently for up to 30 minutes by Unit 5 (approximately halfway through the school year).

If you have not already done so, we encourage you to establish a classroom library with a wide range of texts at various levels. There are a number of ways to set up and organize a classroom library. For more information, see “Setting Up a Classroom Library” in the Introduction.

Materials

- *Something to Remember Me By*
- “Class Assessment Record” sheet (CA1)

Teacher Note

For additional support with setting up procedures and expectations for IDR, view “Getting Started with IDR” (AV27).

1 Review “Turn to Your Partner” and Get Ready to Listen

Gather the class with partners sitting together, facing you. Explain that again today the students will use “Turn to Your Partner” to share their ideas. Review that the purpose of talking with partners is to give all of the students a chance to think more about what they are learning. Remind the students that it is important for partners to look at each other when they talk and to take turns talking and listening so that both partners get a chance to share. Tell them that you will ask them to report on their partner conversations at the end of the lesson.

2 Discuss the Students’ Reading Lives

Explain that one of the ways the students will build their reading community this year is to share their reading lives with one another. Begin this discussion by sharing with the class a little about your own reading life.

You might say:

“I love to read, and I try to read every day. Usually I read in the evening after dinner. I sit with my cat in a puffy, yellow chair in the corner of my living room. I’ve always enjoyed reading mysteries, although recently my favorite books have been about adventures in the great outdoors. I’m starting to get interested in flying, so I plan to read some books about that soon.”

Ask and briefly discuss:

 **Q** *What kinds of books do you like to read? Why? Turn to your partner.*

Have one or two volunteers share their thinking. Use the same procedure to discuss the following questions:

 **Q** *Where is your favorite place to read? Turn to your partner.*

Q *What kinds of books do you want to read this year? Turn to your partner.*

Tell the students that this year they will have lots of chances to read and listen to many different types of books. Explain that today you will read aloud a story and the students will discuss it.

ELL Note

Encourage your English Language Learners to share about books written in their primary languages as well as about books written in English.

ELL Note

Questions like these help the students get to know one another, which in turn creates a sense of community that benefits everyone. English Language Learners in particular rely on having a supportive environment in which they can take the necessary risks to practice and grow in their new language.

3 Introduce *Something to Remember Me By* and Make Text-to-self Connections

Show the cover of *Something to Remember Me By* and read the names of the author and the illustrator aloud. Explain that this is a story about a grandmother who gives her granddaughter things to remember her by. Ask:

 **Q** *Has anyone ever given you something to remember him or her by? What was it? Turn to your partner.*

Have partners discuss the question. Signal for the students' attention and ask a few volunteers to share with the class what they remember. Then ask:

 **Q** *Have you ever given someone something to remember you by? What was it? Turn to your partner.*

Scan the class as partners talk, without intervening. When most pairs have finished talking, signal for the students' attention and have one or two volunteers share their thinking with the class.

Ask the students to keep their experiences in mind as they listen to the story.

4 Read Aloud

Read the story aloud slowly and clearly, showing the illustrations and stopping as described on the next page. Clarify vocabulary as you encounter it in the text by reading the word, briefly defining it, rereading it in context, and continuing (for example, “‘She could chatter’—*chatter* means ‘talk a lot’—‘She could chatter about everything . . .’”).

Suggested Vocabulary

paring knife: small, sharp knife (p. 8)

cedar chest: wooden box with a lid (p. 11; refer to the illustration)

rummaged: searched (p. 22)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

chatter: talk a lot (p. 4)

by the dozen: (idiom) twelve at a time, or many at a time (p. 4)

long distance call: phone call to a faraway place (p. 16)

stitched: sewn with thread (p. 16)

tattered: old and worn out (p. 26)

TEKS 6.E.i

Student/Teacher Activity Step 3

TEKS 7.A.i

Student/Teacher Narrative

Step 3 and first Teacher Note on p. 15

Teacher Note

If the students have difficulty responding, stimulate their thinking by sharing your own experiences. (You might say, “When I was little and my family moved to another town, my best friend gave me a picture of the two of us together. Every time I look at this picture, I think of all the fun things we did together.”)

Teacher Note

You might use self-stick notes to mark the places the suggested vocabulary words appear. Write the meaning of each word on a note to help you define it smoothly without interrupting the reading. For more information, see “Preparing the Daily Lessons” in the Introduction. To learn more, view “Planning a Lesson” (AV12).

ELL Note

English Language Learners may benefit from additional steps to discuss the reading, for example, after pages 9 and 26.

Teacher Note

Class Assessment Notes appear throughout the program to prompt you to monitor the students as they discuss the readings. For more information, see “Class Assessment” in the Assessment Overview of the *Assessment Resource Book*.

Technology Tip

You may choose to record assessment data using printed forms found in the *Assessment Resource Book* or on the CCC Learning Hub (ccclearninghub.org). Alternatively, you might record data using the CCC ClassView app. For more information, view the “Using the CCC ClassView App” tutorial (AV41).

Teacher Note

During this discussion, be ready to reread passages and show illustrations again to help the students remember details.

Skip the introduction on page 3. Start reading on page 4 and stop after:

p. 15 “The girl didn’t quite understand.”

Ask:

Q *What is happening in the story so far? Turn to your partner.*

Have partners discuss the question. Signal for the students’ attention and ask a few volunteers to share their thinking with the class. Then reread the last sentence on page 15 and continue to the next stop:

p. 21 “‘But,’ said the grandmother softly, ‘I’m scared that . . . that I’m going to forget you.’”

Ask:

Q *What is happening in the story now? Turn to your partner.*

As partners talk, circulate among them and listen as they discuss the story.

CLASS ASSESSMENT NOTE

During the read-aloud and discussion, scan the class and ask yourself:

- Are the students taking turns sharing ideas?
- Are the students contributing ideas to the class discussion?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 4 of the *Assessment Resource Book*.

When most pairs have finished talking, signal for the students’ attention and have one or two volunteers share their thinking with the class. Reread the last sentence before the stop and continue reading to the end of the story.

5 Discuss the Story

Facilitate a class discussion of the story by asking questions such as:

- Q** *Why was the grandmother afraid she was going to forget her own granddaughter?*
- Q** *What do you think the granddaughter noticed when she looked in the mirror at the end of the story?*

INDIVIDUALIZED DAILY READING

6 Introduce Individualized Daily Reading

Explain that today you will teach the procedure for Individualized Daily Reading (IDR). Explain that IDR is a time when each student independently reads a book that he or she enjoys. Tell the students that during IDR, they will read books at their own reading levels and practice the reading comprehension strategies they learn in the *Making Meaning* program. Point out that the more reading practice the students do with books at their independent levels, the stronger they will become as readers.

State your expectations for how the students will act responsibly during IDR.

You might say:

“During IDR, you will select books and find a comfortable place to sit and read silently. Reading silently and staying seated helps the people around you concentrate so that they can enjoy what they are reading.”

Have the students get the books they have selected from the classroom library (see “Do Ahead” in the Week Overview) and find comfortable places to sit in the classroom and read silently to themselves. Have the students read silently for up to 15 minutes. Signal to let the students know when it is time to stop reading.

Ask and briefly discuss:

Q *What did you enjoy about the book or books you read today?*

Tell the students that they will have many more opportunities to read books they enjoy independently. Explain that reading books they enjoy will help them become stronger readers. Have the students return to their desks and put away their books.

Teacher Note

You might choose to do IDR at the end of the reading lesson or at another time of the day. If you have already established a procedure for independent reading, simply remind the students of your expectations.

Teacher Note

If the students are familiar with the term “*just-right*” book (or a related term such as *independent reading level*), you might use this term when talking about choosing appropriate texts.

TEKS 5.A.ii
Student/Teacher Narrative
Step 6

Teacher Note

Base the length of time the students are reading independently on their attention and engagement. Gradually add time as the students are ready.

TECHNOLOGY EXTENSION

Investigate Family History

Remind the students that *Something to Remember Me By* is about a relationship between a girl and her grandmother. Read aloud the first two paragraphs on page 3 of the book. Then ask:

Q *What is something you know about your family’s history? For example, where is your family from?*

Q *What is a question you have about your family’s history?*

Technology Tip

Prior to doing this activity, preview the website referred to on page 32 of *Something to Remember Me By*. Alternatively, you might locate and preview other age-appropriate websites about genealogy using the keywords “kids family tree.”

Show page 32 of the book and read aloud the first two sentences on the page. Tell the students that today they will explore a website about genealogy (the study of family history).

Display your browser page and go to one of the websites you previewed. Model navigating the website, and read aloud information about how the students might research stories of interest in their own families and then make family trees. Afterward, discuss questions such as:

Q *Did you find out more about something you had a question about? What did you find out?*

If the students are interested, you might help them create family trees using an online tool on a student-friendly website.

Day 4

Listening Practice

Materials

- *Something to Remember Me By*
- *The Lotus Seed*

In this lesson, the students:

- Hear a story read aloud again
- Make text-to-text connections
- Compare two stories
- Learn a procedure for selecting texts at their independent reading levels
- Read independently for up to 15 minutes
- Listen carefully and work in a responsible way

ABOUT READING LEVELED TEXTS DURING IDR

In order for the students to grow as readers, they need to spend time reading texts they can comprehend and read fluently with few miscues (accuracy errors). For that reason, during IDR they read books at their independent reading levels. In this unit, they learn a procedure for choosing books at appropriate levels and self-monitoring strategies to help them think about how well they understand what they are reading. For more information, see “Reading Appropriately Leveled Texts” in the Introduction.

If you have administered a formal reading assessment to identify each student’s independent reading level, you might record each student’s data on the “Student Reading Level Summary” record sheet (SR1).

TEKS 4.A.ii
Student/Teacher Narrative
"About Reading Leveled Texts During
IDR" Note and Step 5 on pp. 20–21

1 Review *Something to Remember Me By* and Prepare for Rereading

Gather the class with partners sitting together, facing you. Show the cover of *Something to Remember Me By* and remind the students that they heard this story earlier. Ask:

Q *What do you remember about the story?*

Have a few volunteers share their thinking with the class. Explain that today you will reread *Something to Remember Me By* and that you would like the students to listen for any details they missed in the first reading. Tell the students that you have another reason for rereading the story. Show the cover of *The Lotus Seed*, remind them that they heard the story earlier, and tell the students that as they listen to *Something to Remember Me By*, you would also like them to think about how the two stories are alike and how they are different.

2 Reread the Story

Read the story aloud again, slowly and clearly.

3 Discuss the Story and Make Text-to-text Connections

Briefly discuss as a class:

Q *What did you hear during the second reading of this story that you missed during the first reading?*

Show the cover of *The Lotus Seed*. Ask and briefly discuss:

Q *What do you remember about this story?*

Then ask:

 **Q** *In what ways are *Something to Remember Me By* and *The Lotus Seed* similar, or alike? Turn to your partner.*

Have partners discuss the question. Signal for the students' attention and ask a few volunteers to share their thinking with the class. Then ask:

 **Q** *In what ways are the two stories different? Turn to your partner.*

Have partners discuss the question. When most pairs have finished talking, signal for the students' attention. Have a few volunteers share their thinking with the class.

TEKS 6.E.ii
Student/Teacher Narrative
Step 1

Facilitation Tip

During class discussions, continue to prompt the students to **turn and look** at the person who is about to speak (for example, "Bruce will speak now. Let's all turn and look at him"). During the discussion, scan the class to ensure that the students are looking at the person who is speaking. If necessary, interrupt the discussion to remind the students of your expectations.

TEKS 6.E.ii
Student/Teacher Activity
Step 3

ELL Note

You might want to explain that *consistently* means “again and again in the same way.”

Teacher Note

For additional support with helping students select books at their independent reading levels, you might teach IDR Mini-lesson 1, “Selecting Appropriately Leveled Texts” (found in Appendix A).

TEKS 1.B.i
Student/Teacher Narrative
Step 5

Students might say:

“Both stories are about a grandmother and a granddaughter.”

“In both stories, the grandmother gives the granddaughter something special.”

“Both stories are about how special objects can remind us of things that happened in the past.”

“In *Something to Remember Me By*, the grandmother loses her memory. *The Lotus Seed* doesn’t say anything about the grandmother losing her memory.”

“In the first story, the grandmother keeps the seed to remind her of her old country, Vietnam. In the second story, the grandmother gives things to the granddaughter because she wants the granddaughter to always remember her.”

Tell the students that when they think about how two stories are alike and different, they are doing something that good readers do—making connections between stories.

4 Reflect on Working Together

Help the students reflect on their work together. Remind them of the things they wanted to work on in building their reading community, and ask:

- Q** *What did you do today to help build our reading community? How will doing those things consistently help to build our reading community?*
- Q** *What did you do to take responsibility for yourself this week?*

Students might say:

“I came straight to the rug instead of doing something else first.”

“I listened to my partner and I made sure I talked about my ideas, too.”

“I paid attention during the read-aloud.”

INDIVIDUALIZED DAILY READING

5 Introduce Selecting Texts at the Right Levels

Review the procedures and expectations you have established for IDR and for using the classroom library.

Remind the students that during IDR it is very important that they read books at the right levels for them. Explain that books that are at the right levels are not too difficult and not too easy. The books have words the students can read and understand and stories or topics that are interesting to them. Remind the students that reading books at the right levels will help them to become stronger readers.

Describe the procedure you would like the students to follow for selecting books at appropriate reading levels.

TEKS 5.A.i
Student/Teacher Narrative
Step 5
(paragraphs 1–4)

You might say:

“First, choose a book that looks interesting to you. Open the book to any page and begin reading that page silently to yourself. As you read, count the words on the page that you do not know. If you count more than five words that you do not know, the book may be too difficult. If you are able to read all of the words on the page very quickly and the book doesn’t seem interesting, it may be too easy. If you have chosen a book that seems either too difficult or too easy, return it to the classroom library and choose another book. Once you have found a book that interests you and is at the right level, check it out from the library and begin reading.”

Explain that they will now have a few minutes to look through the books they checked out from the classroom library earlier this week. Tell the students that if they decide any of their books are not at the right levels, they should put them aside. Later they will have a chance to return these books to the classroom library and select new ones.

Give the students a few minutes to look through their books. Circulate as they work and provide assistance as needed. When most of the students have finished looking through their books, call for their attention. Explain that you will call on a few students at a time to return the books they have set aside to the classroom library and select new books to replace them.

Explain that while students are waiting to be called to the classroom library, they may read silently. Have the students read silently for up to 15 minutes. Call on two or three students to come to the library, return their books, and select new books. Repeat the procedure until all of the students have had a turn in the library.

Signal to let the students know when it is time to stop reading. Describe some responsible behaviors you noticed as the students were reading and selecting their books.

You might say:

“I noticed students reading silently during IDR, which helped others concentrate on their reading. In addition, I noticed that many students waited patiently for their turn in the classroom library.”

Tell the students that they will have many opportunities to practice selecting and reading books that are at the right levels. Have the students return to their desks and put away their books.

Teacher Note

If you have established a different system for identifying texts at appropriate levels for each student, such as Lexile levels, colored dots on books, or leveled bins, explain how to use that system instead and model it if necessary.

 **ELL Note**

You might want to help your English Language Learners select books at appropriate levels. Providing a limited number of teacher-selected texts will help them make good choices.

Teacher Note

You might support the students in selecting books at the right levels. To help a student check whether a book is at the right level, ask the student to read a passage from the book aloud and tell you what the book is about. If the student is having difficulty reading or understanding the passage, the book may be too difficult. If the student reads quickly and doesn't seem engaged, the book may be too easy. If a student is reading a book that is too difficult or too easy, help her select a more appropriate book.

Teacher Note

You might repeat this instruction during the next few IDR sessions or at another time in order for all of the students to get a turn in the library.

Vocabulary Note

Next week you will revisit *The Lotus Seed* and *Something to Remember Me By* to teach the Week 1 vocabulary lessons.

TEKS 5.A.i
Student/Teacher
Activity
Step 5
(paragraph 5)

Materials

- *The Lotus Seed*
- *Something to Remember Me By*

TEKS 7.B.i
Student/Teacher Activity
Writing About Reading

WRITING ABOUT READING

Writing About Reading activities provide the students with opportunities to write about texts they discuss in the *Making Meaning* program. The activities are optional and can be done at the end of the lesson or at another time. For more information, see “Extending the Instruction” in the Introduction.

Write About Ways That *The Lotus Seed* and *Something to Remember Me By* Are Alike and Different

Show the covers of *The Lotus Seed* and *Something to Remember Me By*. Remind the students that they heard these stories earlier and that they did something that good readers do: they made connections between the stories by thinking about how they are alike and how they are different. Explain that today the students will write about connections between the stories.

Show the cover of *The Lotus Seed*. Page through the book slowly and show the illustrations. Ask:

Q *What happens in this story?*

Have a few volunteers share their thinking. Repeat the same procedure to review the story *Something to Remember Me By*.

Write the heading “How the Stories Are Alike” where everyone can see it. Ask:

 **Q** *In what ways are the two stories alike? Turn to your partner.*

Have a few volunteers share their thinking. As they share, list their ideas below the heading.

Write the heading “How the Stories Are Different” where everyone can see it. Ask:

 **Q** *In what ways are the two stories different? Turn to your partner.*

Have a few volunteers share their thinking. As they share, list their ideas below the heading.

Ask the students to watch as you think aloud and model writing about how the stories are alike and different.

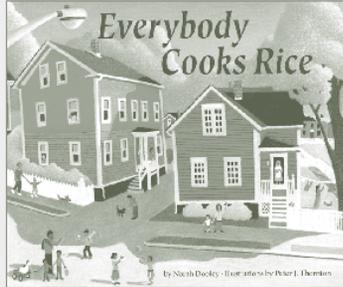

You might say:

"First, I want to describe some of the things that are similar about the two stories. I'll write: *The stories The Lotus Seed by Sherry Garland and Something to Remember Me By by Susan V. Bosak are alike in some ways. For example, both stories are about a girl whose grandmother gives her something special. Now I want to write about some of the things that are different about the two stories. I'll write: *The two stories are also different in some ways. For example, The Lotus Seed tells about the grandmother's life as a girl and young woman. In Something to Remember Me By, we only learn about the grandmother when she is already an older woman.*"*

Have the students write about what is similar and what is different in the two stories. If time permits, ask a few volunteers to share their writing with the class.

Week 2

OVERVIEW

Everybody Cooks Rice

by Norah Dooley, illustrated by Peter J. Thornton

A child sent to find a younger brother at dinnertime is introduced to a variety of cultures through the many different ways rice is prepared in her neighbors' homes.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA3

Assessment Form

- “Class Assessment Record” sheet (CA2)

Reproducible

- Unit 1 family letter (BLM1)

Professional Development Media

- “Using “Think, Pair, Share”” (AV8)
- “Adapting Lessons for English Language Learners” (AV13)
- “Using CCC’s Whiteboard Activities” tutorial (AV40)

Comprehension Focus

- Students make text-to-self connections.
- Students explore the use of first- and third-person points of view in stories.
- Students read independently.

Social Development Focus

- Teacher and students build the reading community.
- Students learn and practice the procedure for “Think, Pair, Share.”
- Students work in a responsible way.
- Students listen respectfully to the thinking of others and share their own.

DO AHEAD

- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA2); see page 5 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, prepare the “Thinking About My Reading” chart on a sheet of chart paper (see Step 1). Also prepare to model the procedure for self-monitoring reading comprehension during IDR (see Step 2).
- ✓ Prior to Day 4, prepare to model completing a book entry on the “Reading Log” chart (see Step 4).
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student. For more information about the family letters, see “Family Letters” in the Introduction.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 1 lessons this week.

Materials

- *Everybody Cooks Rice*

Teacher Note

If your students are already familiar with the procedure, you do not need to model it. Instead, remind the students of your expectations. To see an example of “Think, Pair, Share” in action, view “Using ‘Think, Pair, Share’” (AV8).

In this lesson, the students:

- Learn the procedure for “Think, Pair, Share”
- Hear and discuss a story
- Make text-to-self connections
- Read independently for up to 15 minutes
- Listen to one another

1 Gather and Introduce “Think, Pair, Share”

Gather the class with partners sitting together, facing you. Explain that today the students will learn another way to help them talk in pairs, called “Think, Pair, Share.” Explain that “Think, Pair, Share” is like “Turn to Your Partner.” The difference is that the students think by themselves before they talk in pairs. Explain that you will ask the students a question and they will think about it quietly for a moment. Then, when you say “Turn to your partner,” they will turn to their partners and begin talking. When you signal for their attention, they will end their conversations and turn their attention back to you. Some pairs will then share their thinking with the class.

To have the students practice “Think, Pair, Share,” ask:

Q *What is one thing you want to keep in mind today to help your partner conversations go well? [pause] Turn to your partner.*

After a few moments, signal for the students’ attention and have a few pairs share with the whole class what they discussed. Explain that at the end of the lesson, you will ask the students how they did working with their partners today.

2 Introduce *Everybody Cooks Rice*

Show the cover of *Everybody Cooks Rice* and read the title and the names of the author and the illustrator aloud. As a class, discuss questions such as:

Q *When have you eaten rice? How was it prepared?*

Q *What are some other rice dishes you have seen or eaten?*

Explain that as the students listen to the story, you would like them to think about the rice dishes they have eaten and heard about.

3 Read Aloud

Read the story aloud slowly and clearly, showing the illustrations and stopping as described below. Clarify vocabulary as you read, using the procedure you used in Week 1, Day 3 (see Step 4).

Suggested Vocabulary

tiffin carrier: type of lunch box (p. 14; refer to the illustration on p. 15)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

pipe down: (idiom) be quiet; stop making noise (p. 10)

groceries: food and other things bought at a store (p. 13)

leftovers: food that is not eaten at a meal and is saved to eat later (p. 14)

chopsticks: thin sticks used for eating food (p. 18; refer to the illustration on p. 19)

Stop after:

p. 14 “Rajit said his parents were working at their video and gift shop, so he was bringing them leftovers in a tiffin carrier.”

Use “Think, Pair, Share” to have partners first think about and then discuss:

Q *What’s happening in the story? What do you think will happen next?*
[pause] *Turn to your partner.*

Signal for the students’ attention and have one or two volunteers share with the class what they discussed. Reread the last sentence before the stop and continue reading to the next stop:

p. 22 “Adeline said she had seen him with a kitten in his arms, climbing the fence to our yard.”

Use “Think, Pair, Share” to have partners first think about and then discuss:

Q *What has happened in the story so far?* [pause] *Turn to your partner.*

Signal for the students’ attention and have one or two volunteers share their thinking. Reread the last sentence before the stop and continue reading to the end of page 25.

ELL Note

English Language Learners may benefit from additional stops to discuss the reading, for example, after pages 9 and 18. You might also want to point out countries on a world map as they are mentioned in the story.

Teacher Note

Hearing from only one or two students helps maintain the flow of the story and keeps the students engaged.

Teacher Note

You might briefly show and discuss the recipes on pages 26–30. To further explore rice-cooking recipes in various media, you might do the technology extension “Explore Recipes and How-to Cooking Videos Online” on page 30.

Facilitation Tip

Continue to remind the students to **turn and look** at the person who is about to speak. Ask speakers to wait until they have the class's attention before starting to speak. Scan the class to ensure that all students are actively listening and participating in the discussion. Notice the effect of using this facilitation technique on the students' engagement in class discussions over time.

ELL Note

Cooperative structures like "Turn to Your Partner" and "Think, Pair, Share" support the language development of English Language Learners by providing frequent opportunities for them to talk about their thinking and listen to others.

To learn more, view "Adapting Lessons for English Language Learners" (AV13).

TEKS 5.A.ii
Student/Teacher Activity
Step 6 (paragraph 2)

Teacher Note

During IDR you will often ask the students to talk with partners about their reading. When sending the students to find places to read, you will need to determine if you would like the students to sit near their reading partners or if they may share with any classmates nearby.

Teacher Note

In the initial weeks of IDR, the students are invited to share more generally about the texts they are reading. Once they have had practice talking about their independent reading in broader terms, more of the suggestions for sharing their reading will focus on the use of the strategy they are learning, as well as providing opportunities to review previously learned strategies.

4 Discuss the Story and Make Text-to-self Connections

Facilitate a discussion about the story using questions such as:

- Q *What are some of the different ways rice is prepared in this story?*
- Q *What do you think this girl learns about people as she finds out about the rice dishes they eat? Why do you think so?*
- Q *What is your favorite rice dish? What do you like to eat with rice?*

5 Reflect on "Think, Pair, Share"

Help the students reflect on how they did with "Think, Pair, Share" by asking:

- Q *How did thinking before you shared with your partner help you and your partner talk about the story?*

INDIVIDUALIZED DAILY READING

6 Read Independently and Share Reading with Partners

Review the procedure and your expectations for using the classroom library during IDR.

Have the students get their books and find quiet places to sit and read. Tell the students that at the end of IDR today you will ask them to talk with partners about what they read. Then have them read silently for up to 15 minutes. Circulate and assist the students as needed.

Signal to let the students know when it is time to stop reading. Explain that before you have the students share what they read with partners, you will show them what that sharing might look like. Then briefly model sharing the title of a book you are reading, the author's name, and what it is about

You might say:

"I read a book called *The Lotus Seed* by Sherry Garland. It's about a Vietnamese girl who saves a lotus seed as a way to remember the last Vietnamese emperor. When she moves to the United States, she brings the seed with her. She raises a family and works hard for many years. One day, her grandson steals the seed, plants it, and then forgets where it is. That makes the woman very sad. But when she discovers the lotus flower that has blossomed from the seed, she is happy again. She gives each of her grandchildren a seed from the flower."

Have the students take turns discussing what they read with their partners. After partners have had a chance to share, ask a few volunteers to share with the class what they read.

Help the students reflect on their partner work by asking:

Q *What was one thing you liked about sharing what you read with a partner today?*

Have a few students share their thinking with the class. Remind the students that they will have many opportunities to share and discuss what they read. Have the students return to their desks and put away their books.

WRITING ABOUT READING

Write About Text-to-self Connections to *Everybody Cooks Rice*

Show the cover of *Everybody Cooks Rice*. Remind the students that they heard this story earlier. Ask:

Q *What do you remember about the story Everybody Cooks Rice?*

Q *How does this story remind you of your own life?*

Students might say:

"It reminds me of the way we make rice in our family. We stir-fry it with tofu and vegetables like the Hua family in the story."

"It reminds me of my neighborhood. There are people from lots of different countries and we're all friendly."

"It reminds me of my little sister. She's like Carrie's younger brother, Anthony. She likes to visit our neighbors and sometimes ends up eating over at their houses."

Tell the students that when they think about how a story reminds them of their own lives, they are making connections to the story. Explain that making connections to stories helps readers enjoy and understand the stories. Ask the students to watch as you think aloud and model writing about a connection between *Everybody Cooks Rice* and your own life.

You might say:

"The book *Everybody Cooks Rice* reminds me of my favorite ways to make rice. I'll write: *The book Everybody Cooks Rice by Norah Dooley reminds me of my favorite ways to make rice. One of my favorites is my grandmother's rice pudding recipe, which she taught me when I visited her in her apartment in Philadelphia when I was very young. You mix cooked white rice with milk, sugar, vanilla, eggs, and raisins, and then you bake it. It's a yummy dessert! I also like to make brown rice and put it in burritos. It's healthy and it tastes great.*"

Have the students write about personal connections to *Everybody Cooks Rice*. If time permits, invite the students to share their writing with the class.

Materials

- *Everybody Cooks Rice*

TEKS 6.E.i

Student/Teacher Narrative

Writing About Reading

(second paragraph and "You might say" example)

Technology Tip

Prior to doing this activity, locate an age-appropriate video that provides clear, simple rice-making instructions. Search for information online using the keywords “make rice video.”

TECHNOLOGY EXTENSION

Explore Recipes and How-to Cooking Videos Online

To further explore rice recipes and rice-making techniques with your students, read aloud the first recipe on page 26 in *Everybody Cooks Rice*. Then display an online instructional video that shows how to make rice. Discuss as a class:

- Q What new information did you learn from watching the video?
- Q Which do you prefer, reading a recipe about making rice or learning how to make rice from watching a video? Why?

If possible, invite a parent or other adult to visit the class and demonstrate cooking rice. Afterward, discuss what was the same and what was different about the video instruction and the live demonstration.

Day 2

Strategy Lesson

Materials

- *Everybody Cooks Rice*
- *Something to Remember Me By*
- “Class Assessment Record” sheet (CA2)
- “Excerpt from *Everybody Cooks Rice*” chart (WA1)
- “Excerpt from *Something to Remember Me By*” chart (WA2)

In this lesson, the students:

- Practice the procedure for “Think, Pair, Share”
- Hear a story read aloud again
- Explore the use of first- and third-person points of view in stories
- Make text-to-text connections
- Read independently for up to 15 minutes
- Work in a responsible way and listen to one another

1 Review Procedure and Get Ready to Listen

Gather the class with partners sitting together, facing you. Explain that during today’s lesson you will sometimes ask the students to use “Think, Pair, Share” to talk about their thinking. Remind them that the purpose of “Think, Pair, Share” is to give all of the students a chance to think by themselves before they talk in pairs.

2 Review the Story

Show the cover of *Everybody Cooks Rice*. Use “Think, Pair, Share” to have partners first think about and then discuss:

Q What do you remember about this story? [pause] Turn to your partner.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students taking time to think before talking to their partners?
- Are the students able to recall details from the story?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 5 of the *Assessment Resource Book*.

Signal for the students’ attention and ask a few volunteers to share with the class what they remember.

3 Explore First-person Point of View in *Everybody Cooks Rice*

Remind the students that making connections between stories—for example, thinking about how two stories are alike and different—is something good readers do to better understand stories. Explain that today the students are going to think and talk about an interesting difference in the stories *Everybody Cooks Rice* and *Something to Remember Me By*.

Display the “Excerpt from *Everybody Cooks Rice*” chart (WA1) and explain that it is the text from the beginning of *Everybody Cooks Rice*. Explain that you will read the passage aloud and that as the students listen, you would like them to think about who is telling the story.

Read the passage aloud, slowly and clearly. Then use “Think, Pair, Share” to have partners first think about and then discuss:

Q *Who is telling the story? What in the story makes you think so?* [pause]
Turn to your partner.

After pairs have had a chance to talk, signal for the students’ attention and have one or two volunteers share their thinking with the class. If necessary, show pages 4–5 of the book, point to the girl in the illustration on page 4, and explain that a girl named Carrie is telling the story.

Tell the students that when the person telling the story is a character in the story, we say the story is being told from the *first-person point of view*. Explain that words like *my*, *I*, and *me* are clues that can help the students recognize first-person point of view. Circle these words on the chart.

Technology Tip

Whiteboard activities (WA) are interactive charts that can be displayed using an interactive whiteboard. Alternatively, you may print the whiteboard activities and project them using a projection device. For more information, view the “Using CCC’s Whiteboard Activities” tutorial (AV40).

4 Explore Third-person Point of View in *Something to Remember Me By*

Show the cover of *Something to Remember Me By* and remind the students that they heard this story earlier. Display the “Excerpt from *Something to Remember Me By*” chart (C WA2) and explain that it is the text from the beginning of the story. Explain that you will read the passage aloud and that, as before, you want the students to think about who is telling the story.

Read the passage aloud, slowly and clearly. Then use “Think, Pair, Share” to have partners first think about and then discuss:

 **Q** *Who is telling the story? What in the story makes you think so?* [pause]
Turn to your partner.

After pairs have had a chance to talk, signal for the students’ attention and have one or two volunteers share their thinking with the class.

Students might say:

“It’s hard to tell who’s telling the story because the person telling it doesn’t say anything about herself.”

“I think the narrator could be a woman who’s remembering when she was a little girl and she visited her grandmother. But for some reason she doesn’t want to say ‘I,’ so she says ‘the little girl.’”

Explain that, unlike the narrator in *Everybody Cooks Rice*, the person telling the story in *Something to Remember Me By* is not a character in the story. Explain that when the person telling the story is not a character in the story, we say the story is being told from the *third-person point of view*.

On the chart, point to each of the sentences that follow and explain that if *Something to Remember Me By* were being told from the first-person point of view, it would say, “Every time I visited my grandmother . . .,” “I could have a snack anytime I wanted,” and “I could use the big box of crayons in the kitchen drawer . . .” Ask:

 **Q** *Do you think Something to Remember Me By would be a more interesting story if it were told from the first-person point of view? Why?*
Turn to your partner.

Have a few volunteers share their thinking with the class.

Students might say:

“I think it would be more interesting because if it said *I* and *my* and *me*, it would be more like the character was talking directly to me, and I would care more about what happened.”

“I think it would be more interesting because it would seem like it really happened instead of being make-believe.”

“I think it’s more interesting the way it is. If it said *I*, then I would just think, well, it’s about that girl but it’s not about me. Since the story says *the little girl*, it seems less like it’s about a particular person. It makes me think about when I was that girl’s age.”

Tell the students that they will think and talk more about point of view, or who is telling a story, as they hear and read other stories this year.

5 Reflect on “Think, Pair, Share”

Help the students reflect on how they did with “Think, Pair, Share” by asking:

- Q *What did you and your partner do to take responsibility for your thinking and talking during “Think, Pair, Share”?*
- Q *What might you want to do differently next time?*

Have one or two volunteers share their thinking with the class.

INDIVIDUALIZED DAILY READING

6 Read Independently and Share Reading with Partners

Have the students get their books and find quiet places to sit and read. Tell the students that at the end of IDR today you will ask them to talk with partners about what they read. Then have them read silently for up to 15 minutes. Circulate and assist the students as needed.

Signal to let the students know when it is time to stop reading. Have partners take turns sharing with each other the titles of their books, the authors’ names, and what the books are about. After partners have had a chance to share, ask a few volunteers to share what they read with the class. Then have the students return to their desks and put away their books.

EXTENSION

Compare Stories in a Series and Discuss Text-to-text Connections

Read aloud another book in Norah Dooley’s series about common foods, such as *Everybody Bakes Bread*, *Everybody Brings Noodles*, or *Everybody Serves Soup*. Invite the students to compare it to the book *Everybody Cooks Rice* by asking questions such as:

- Q *In what ways are the two stories alike?*
- Q *What makes the story Everybody Cooks Rice different from the story [Everybody Serves Soup] besides the fact that they are about different foods?*

ELL Note

You might provide the prompts “I took responsibility when I . . .” and “Next time I will . . .” to your English Language Learners to help them verbalize their answers to these questions.

Teacher Note

During IDR you will often ask the students to talk with partners about their reading. When sending the students to find places to read, you will need to determine if you would like the students to sit near their reading partners or if they may share with any classmates nearby.

You might then read another story in the series and compare it to the first two. After reading the stories and discussing how they are alike and different, facilitate a class discussion about traditional or favorite foods the students enjoy at home. You might have the students research and write down their families' favorite recipes and then assemble them in a classroom cookbook.

Day 3

Individualized Daily Reading

Materials

- “Thinking About My Reading” chart, prepared ahead

Teacher Note

To provide the students with additional support with self-monitoring strategies, you might teach IDR Mini-lesson 2, “Self-monitoring and Using ‘Fix-up’ Strategies” (found in Appendix A).

TEKS 1.B.ii
TEKS 6.I.i
Student/Teacher Narrative
Steps 1 and 2

In this lesson, the students:

- Learn a procedure for self-monitoring
- Read independently for up to 15 minutes
- Work in a responsible way

1 Introduce Self-monitoring

Have the students bring their books and gather, facing you. Remind the students that reading books that are at the right levels helps them become stronger readers. Explain that one way good readers know if they are reading books that are at the right levels is by pausing while they are reading to think about what they are reading and, more importantly, how well they understand what they have just read.

Direct the students' attention to the “Thinking About My Reading” chart. Explain that these are questions the students can ask themselves as they are reading to help them know if the books are at the right levels for them.

Thinking About My Reading

What is happening in my book?

Do I understand what I am reading?

Do I know what most of the words mean?

Is this book interesting and fun to read?

Point to and read each question on the chart aloud. Explain that when you stop the students, you would like them to think about each of these questions quietly before continuing to read. Explain that the purpose of this is to help them notice when they understand what they are

reading and when they do not. Tell the students that when they do not understand their books, they should go back and reread. If they still do not understand, they may need to get different books.

Explain that today they will read independently and practice stopping to ask themselves the questions on the chart.

2 Model Self-monitoring

Have the students watch as you model reading a book and asking yourself the questions on the “Thinking About My Reading” chart.

You might say:

“I chose the book *Something to Remember Me By* by Susan V. Bosak to read during IDR. I’m going to read the first few pages silently to myself. Now I’m going to check to see if this book is right for me. I’ll ask myself the first question on the chart: ‘What is happening in my book?’ In this part of the book, I learned that there is a little girl who often visits her grandmother. They always do fun things during these visits. I can retell what’s happening in the part of the book I just read. Next, I’ll ask myself the second question: ‘Do I understand what I am reading?’ Yes, I understand what I am reading. I know that the little girl and her grandmother get along really well and love to spend time together. Next, I’ll ask myself the third question: ‘Do I know what most of the words mean?’ Yes, so far I know what all of the words mean. Finally, I’ll ask myself the last question: ‘Is this book interesting and fun to read?’ Yes, I’m enjoying the story. Based on my answers to these questions, I think that I can continue reading this book.”

Explain that today they will read independently and that you will stop them every few minutes to have them think about how well they understand what they just read. Tell the students that when you stop them, you would like them to think about each of these questions quietly before continuing to read.

3 Read Independently and Self-monitor

Have the students find a quiet place to sit and begin reading silently. After 5 minutes, signal for their attention and read the questions on the chart aloud. Pause after each question to give the students time to think. Remind them that if they do not understand their books, they should go back and reread.

Have the students resume reading silently. After 5 minutes, stop them again and repeat the procedure. Invite students who do not think their books are at the right levels to select different books.

Have the students continue reading silently. As they read, circulate among them and ask individual students to read parts of their books aloud and tell you what those parts are about. If any students are struggling to understand their books, use the questions on the chart to help them be aware of their own comprehension. After 5 minutes, signal to let the students know that it is time to stop reading.

TEKS 5.A.i
TEKS 6.I.i
Student/Teacher Activity
Steps 3 and 4

4 Reflect on Independent Reading

Ask and briefly discuss:

Q *Do you think the book you are reading is at the right level? How did you decide?*

Have a few volunteers share their thinking with the class.

Students might say:

"I had a hard time reading a lot of words in the first few pages of my book, so I decided to trade it in."

"I decided my book was at the right level because I could read the words, I knew what was happening, and I liked reading it."

"I decided my book wasn't at the right level because I had a hard time understanding what was happening in the story."

Tell the students that in the coming days they will continue to practice thinking about their own reading. Have the students return to their desks and put away their books.

Teacher Note

Post the "Thinking About My Reading" chart in the classroom so the students can continue to refer to it during IDR.

Day 4

Individualized Daily Reading

Materials

- "Thinking About My Reading" chart
- "Reading Log" chart (WA3)
- *Student Response Book*, Reading Log section
- Copy of this unit's family letter (BLM1) for each student

In this lesson, the students:

- Practice the procedure for self-monitoring
- Learn how to use a reading log
- Read independently for up to 15 minutes
- Listen to one another
- Work in a responsible way

1 Review Self-monitoring

Have the students bring their books and gather with partners sitting together, facing you. Direct the students' attention to the "Thinking About My Reading" chart. Review that yesterday they practiced asking themselves questions as they were reading to help them decide if their books were at the right levels. Explain that again today, you will stop them as they are reading and ask them to think about the questions on the chart. Tell the students that if they decide that the books they are reading are not at the right levels for them, they may select other books to read.

2 Read Independently and Practice Self-monitoring

Have the students read silently for up to 15 minutes. Stop the students periodically and have them monitor their comprehension by thinking about the questions on the chart.

As the students read, circulate among them and check individual students' comprehension. To check a student's comprehension, ask the student to read a selection aloud to you and tell you what it is about. If a student is struggling to understand the text, help her use the questions on the chart to make herself aware of her own comprehension. Signal to let the students know when it is time to stop reading.

3 Discuss the Independent Reading and Reflect on Self-monitoring

Have the students take turns discussing what they read with their partners. After partners have had a chance to share, ask a few volunteers to share with the class what they read.

Facilitate a brief discussion about how the students are doing with thinking about their own reading. Ask:

- Q *If you do not understand something you just read, what might you do?*
- Q *If you do not know a lot of the words in the book you are reading, what should you do?*

Tell the students that they will continue to practice thinking about their own reading during IDR.

4 Model Completing an Entry in the Reading Log

Have the students return to their desks, with partners sitting together. Distribute a *Student Response Book* to each student. Explain that the students will use their *Student Response Books* throughout the year to record their thinking about books they hear and read. Ask each student to write her name on the inside front cover of her *Student Response Book*. Have each student turn to the first page of the Reading Log section at the back of the *Student Response Book*. Explain that this is where students will write comments about each book they finish during IDR. Display the "Reading Log" chart (WA3), and ask the students to watch as you model writing a book entry in the log. Use a book that the students are all familiar with, such as *Everybody Cooks Rice*.

You might say:

"I'm going to write an entry for the book *Everybody Cooks Rice*. In the first column I'll write today's date. In the next column I'll write the title of the book and then underline it to show that this is the title of a book. In the next column I'll write the author's name, Norah Dooley. In the last column I'm going to write a comment, or a sentence that tells what I think about the book. I'll write: *I like this book because it reminds me of a time I ate noodle pudding for the first time at my neighbor's house.*"

Reading Log

Date	Title	Author	Comment
9/25/15	<u>Everybody Cooks Rice</u>	Norah Dooley	I like this book because it reminds me of a time I ate noodle pudding for the first time at my neighbor's house.

ELL Note

Consider having your students with limited English proficiency draw pictures in the Comment column of their reading logs.

Teacher Note

Plan a brief class discussion after the students have made several entries in the Reading Log section of their *Student Response Books* so they have a chance to hear about the books their classmates are reading and the kinds of comments they are writing about the books.

Vocabulary Note

Next week you will revisit *Everybody Cooks Rice* to teach the Week 2 vocabulary lessons.

5 Write an Entry in the Reading Log

Tell the students that now they will each practice writing an entry in the reading logs. Remind the students of another book they are familiar with. Write today's date, the book's title, and the author's name on the "Reading Log" chart ( WA3), and have the students write the same information in their reading logs. Then use "Think, Pair, Share" to have partners first think about and then discuss:

Q *What kind of comment might you write about [The Lotus Seed]? [pause] Turn to your partner.*

After a moment, signal for the students' attention and have one or two volunteers share their thinking with the class.

Students might say:

"I might write a sentence about what the story is about."

"I could write why I liked it or didn't like it."

"I can write about [the grandmother, Bà]."

Have the students individually write their own comments about the book in the appropriate column. Then have a few volunteers share with the class what they wrote. Have any student who finished a book today record it in his reading log.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of Unit 1. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit's family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

Unit 2

Using Text Features

EXPOSITORY NONFICTION

During this unit, the students use text features to better understand information in expository text. They hear and read nonfiction texts, explore text features, and write in their reading journals. During IDR, the students practice self-monitoring their reading comprehension and begin to confer with the teacher individually about their reading lives and the texts they are reading. Socially, they learn the procedure for “Think, Pair, Write” and develop the skill of explaining their thinking. They analyze the effect of their behavior on others and on the group work, share their partners’ thinking, and work in a responsible way.

Unit 2

Using Text Features

RESOURCES

Read-alouds

- *Rainforests*
- “Follow That Ball! Soccer Catching On in the U.S.”
- “All Work and No Play: Trends in School Recess”
- *Great Women of the American Revolution*

Writing About Reading Activities

- “Write Opinions About Rainforest Birds”
- “Write Opinions About Heroines”

IDR Mini-lesson

- Mini-lesson 3, “Introducing IDR Conferences”

Technology Mini-lessons

- Mini-lesson 4, “Choosing Effective Search Terms”
- Mini-lesson 5, “Understanding Search Results”
- Mini-lesson 6, “Narrowing Search Results and Using Filters”
- Mini-lesson 7, “Evaluating Research Resources”

Technology Extensions

- “Learn More About Recess”
- “Explore a Website About the American Revolution”
- “Research and Write About Rainforests”

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this unit.

Whiteboard Activities

- WA1–WA5

Assessment Forms

- “Class Assessment Record” sheets (CA1–CA3)
- “IDR Conference Notes” record sheets (CN1–CN2)
- “Individual Comprehension Assessment” record sheet (IA1)
- “Social Skills Assessment Record” sheet (SS1)
- “Individual Comprehension Assessment Student Record” sheet (SR1)
- “IDR Conference Class Record” sheet (CR1)
- “Individual Comprehension Assessment Class Record” sheet (CR2)

Reproducibles

- Unit 2 family letter (BLM1)
- (Optional) “Index from *Rainforests*” (BLM2)

Professional Development Media

- “Cooperative Structures Overview” (AV4)
- “Using ‘Think, Pair, Share’” (AV8)
- “Using ‘Think, Pair, Write’” (AV10)
- “Social Reflection” (AV14)
- “Asking Open-ended Questions and Using Wait-time” (AV18)
- “Setting Up IDR Conferences” (AV29)
- “Using the Individual Comprehension Assessment” (AV31)

RESOURCES (continued)

Extensions

- “Discuss the Students’ Reading Goals and Interests”
- “Read a Newspaper Article Using Investigative Questions”
- “Discuss What the Students Are Still Wondering”
- “Read More About the American Revolution”
- “Create a Timeline of Important Classroom Events”
- “Analyze Paired Texts About Spies in the American Revolution”

Assessment Resource Book

- Unit 2 assessments

Student Response Book

- “Excerpt from *Rainforests*”
- “Think, Pair, Write About Text Features”
- “Egyptian Burial”
- “Follow That Ball! Soccer Catching On in the U.S.”

Week 1

OVERVIEW

Rainforests

by James Harrison

Photographs, illustrations, and well-organized text provide an introduction to a fragile ecosystem.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA2

Assessment Forms

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)
- “IDR Conference Class Record” sheet (CR1)

Professional Development Media

- “Cooperative Structures Overview” (AV4)
- “Using ‘Think, Pair, Share’” (AV8)
- “Using ‘Think, Pair, Write’” (AV10)
- “Social Reflection” (AV14)
- “Asking Open-ended Questions and Using Wait-time” (AV18)
- “Setting Up IDR Conferences” (AV29)

Comprehension Focus

- Students use text features to better understand expository nonfiction texts.
- Students read independently.

Social Development Focus

- Students learn the procedure for “Think, Pair, Write.”
- Students analyze the effect of their behavior on others and on the group work.
- Students develop the skill of explaining their thinking.
- Students share their partners’ thinking with the class.

Ⓜ DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding. Take time to show and discuss the text features.
- ✓ Make available expository nonfiction and functional texts at a variety of levels that the students can use to explore text features during IDR and Independent Strategy Practice throughout the unit. For more information, see “About Expository Text” at the beginning of Day 1.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. For suggestions about assigning partners, see “Random Pairing,” “Considerations for Pairing ELLs,” and “Cooperative Structures” in the Introduction. For more information, view “Cooperative Structures Overview” (AV4).
- ✓ Prior to Day 2, prepare a sheet of chart paper with the title “Text Features.”

(continues)

1 DO AHEAD *(continued)*

- ✓ Prior to Day 2, make a class set of “IDR Conference Notes” record sheets (CN1); see page 14 of the *Assessment Resource Book*. This week, you will begin conferring with individual students during IDR and documenting your observations and suggestions for each student. You might record the date(s) you confer with each student using the “IDR Conference Class Record” sheet (CR1); see page 157 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA1); see page 8 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, prepare a sheet of chart paper with the title “Reading Comprehension Strategies.”
- ✓ Prior to Day 4, prepare to model completing a reading journal entry using a text the students are familiar with (see Step 3).

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 2 lessons this week.

In this lesson, the students:

- Begin working with new partners
- Hear and discuss part of an expository nonfiction book
- Use a text feature to better understand information in the book
- Explore an ethical issue in the book
- Read independently for 15–20 minutes and practice self-monitoring
- Share their partners' thinking with the class

ABOUT EXPOSITORY TEXT

Nonfiction plays an increasingly important role in students' learning in the upper elementary grades. Students must be able to read and understand both narrative nonfiction, such as biographies, memoirs, and other true stories, and expository texts that are not written as stories. Expository texts include textbooks, encyclopedias, online and print articles, how-to manuals, and many other informational or functional texts.

In this unit, the students will explore text features found in expository nonfiction books and articles. Collect trade books, textbooks, articles, and functional texts at various reading levels that contain examples of a range of features such as tables of contents, chapter titles and subtitles, headings, illustrations, photographs, diagrams, maps, graphs, charts, captions, labels, text boxes, text columns, keywords, glossaries, indexes, and appendices. Your school or local library is a source for books, magazines (e.g., *Ranger Rick*, *National Geographic Kids*, *Kids Discover*, and *Time for Kids*), atlases, and newspapers. Textbooks can also be used, although they are often challenging for students to read. Read textbook passages aloud with the students before having them read them on their own. For more information, see “The Grade 5 Comprehension Strategies” in the Introduction.

1 Pair Students and Get Ready to Work Together

Randomly assign partners (see “Do Ahead”) and make sure they know each other's names. Gather the class with partners sitting together, facing you. During today's lesson, the students will hear a book read aloud and will use “Think, Pair, Share” to help them talk and think about the reading. Explain that you will ask a question that the students will discuss with their partners. Tell them to listen carefully to their partners because they will share their partners' thinking with the class. Then ask:

Q *What are some things you can do to make sure you work well with your partner? Turn to your partner.*

TEKS 1.A.i
Student/Teacher Activity
Step 1

Materials

- *Rainforests*
- “Thinking About My Reading” chart
- *Student Response Book*, Reading Log section

Teacher Note

The students will be assigned new partners at the beginning of each unit; partners will stay together for the entire unit. This structure helps the students reflect on their interactions and solve problems over time.

If you are teaching other programs from Center for the Collaborative Classroom, the students can work within partnerships already established, or you may assign new partners for the *Making Meaning* lessons.

Facilitation Tip

During this unit, we invite you to focus on two questioning techniques: **asking open-ended questions** and **using wait-time**. Notice that most of the questions we suggest are open-ended, inviting many responses. They often begin with words like *what*, *how*, and *why* and cannot be answered with a single word. We encourage you to ask the questions as they are written and note how the students respond. Because these questions require thought, we suggest that you use at least 10 seconds of wait-time before calling on anyone. This gives everyone a chance to think before talking. To see this Facilitation Tip in action, view “Asking Open-ended Questions and Using Wait-time” (AV18).

Teacher Note

You might explain that the *topic* of a text is “the subject of the text or what the text is about.”

Teacher Note

You might explain that the title of the table of contents is usually simply “Contents,” as it is in the book *Rainforests*.

ELL Note

You might explain that *climate* is “the usual weather in a place.”

Signal for the students’ attention and have a few volunteers share what their partners said with the class. Ask:

Q *Was it hard or easy to share what your partner said with the class? Why?*

Students might say:

“I thought it was easy because we both thought the same things.”

“I thought it was hard because at first, I didn’t really understand what my partner said. I had to ask him to repeat what he said.”

“I thought it was hard because I couldn’t hear my partner very well. I had to ask her to speak louder.”

Tell the students that the purpose of sharing their partners’ thinking is to help them develop their listening skills. Encourage the students to listen carefully to each other during “Turn to Your Partner,” because you will regularly ask them to share what their partners said with the class.

2 Introduce *Rainforests* and Expository Nonfiction

Show the cover of *Rainforests*, read the title aloud, and explain that you will read from this book. Turn to the title page and read the author’s name aloud. Ask:

Q *What do you think you already know about rainforests?*

Q *Do you think the book is fiction (make-believe) or nonfiction (true)? Why do you think so?*

If necessary, explain that this book is a type of nonfiction called *expository nonfiction*. Explain that expository nonfiction texts give *factual*, or true, information and that they are usually about particular topics. They often include features that help the reader locate information in the text and understand the topics better.

ELPS 4.C.iii
Step 3

3 Discuss the Table of Contents

Show the table of contents on page 3 and tell the students that the table of contents is a text feature that lists the sections or chapters in a book, with the page numbers.

Read four or five entries aloud and point out that the first part of the book gives general information about rainforests. Explain that rainforests are found in areas of the world with very wet climates. There are two kinds of rainforests, tropical and temperate. Tropical rainforests are found in hot climates. Temperate rainforests are found in cooler climates. The book *Rainforests* talks about tropical rainforests, such as those found in parts of South America, Africa, Southeast Asia, and Australia. Show the students the map and photograph of tropical rainforests on pages 6–7.

Explain that most of the book describes the great variety of animals found in the tropical rainforests. Show some of the photographs and illustrations on pages 20–35 and read the accompanying captions and

labels. Explain that the last part of the book tells how the rainforests are being destroyed and that you are going to read these pages aloud. Tell the students that you will stop several times during the reading so partners can talk.

4 Read Aloud Part of Rainforests

Read pages 40–45 aloud slowly and clearly, showing the photographs and reading the accompanying captions and stopping as described below.

ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

clear: cut down all the trees (p. 40)

cattle can graze: cows can eat grass (p. 40)

dams: structures that are built to stop water from moving down rivers (p. 40)

plantations: big farms (p. 41)

power plants: buildings that make electricity (p. 42)

fair trade: bought for a fair price (p. 45)

Stop after:

p. 40 “Many local tribes are forced to leave.”

Use “Think, Pair, Share” to have the students first think about and then discuss:

Q *What did you learn in the part of the book you just heard? [pause] Turn to your partner.*

Without sharing as a class, reread the last two sentences before the stop and continue reading aloud to the next stopping point. Follow this procedure at the following stops:

p. 43 “This makes the problem of global warming worse.”

p. 45 “. . . as well as wood and paper sold by companies that do not destroy the forests.”

5 Discuss the Reading

Facilitate a class discussion using the following questions. As the students respond, be ready to reread passages aloud and show photographs again to help them recall what they heard. Ask:

Q *What are some ways that rainforests are being threatened? What did you hear in the text that makes you think that?*

Q *What are some ways that people are working to protect the rainforests? Why is it important to do that?*

Teacher Note

Keywords (in bold type) are defined in the glossary on pages 46–47 of the book; you may wish to define these for your students. You will discuss how to use a glossary with the students in Week 3, Day 3 (see Step 3).

Teacher Note

Use self-stick notes to mark stopping places in the book to remind yourself of questions, instructions, or other information you want to convey to the students during the read-aloud.

Teacher Note

After asking the question, pause for 10 seconds to give the students time to think. Then say “Turn to your partner” and have partners discuss the question. To see an example, view “Using ‘Think, Pair, Share’” (AV8).

Teacher Note

Not sharing as a class after each stop builds the students’ independence and emphasizes the importance of partner discussions. However, if you notice that partners are having difficulty talking, you might have a few pairs report what they talked about after the first or second stop to provide discussion ideas for the other students.

TEKS 6.E.iii
Student/Teacher Activity
Step 5

ELL Note

Consider providing English Language Learners with nonfiction books written in their primary languages. You might enlist students' family members to contribute books written in these languages.

TEKS 6.I.i
Student/Teacher Activity
Step 7

Teacher Note

Base the length of time the students are reading independently on their attention and engagement. Gradually add time as your students are ready. The goal is for them to read independently for up to 30 minutes by Unit 5.

Tell the students that they will continue to discuss the book *Rainforests* tomorrow.

6 Reflect on “Think, Pair, Share”

Help the students reflect on how they did with “Think, Pair, Share.” Ask:

- Q *What worked well for you and your partner during “Think, Pair, Share”?*
What would you like to do differently next time?

INDIVIDUALIZED DAILY READING

7 Read Independently and Practice Self-monitoring

Direct the students' attention to the “Thinking About My Reading” chart. Review that these are questions the students can ask themselves as they read, to help them decide if their books are at the right levels for them. Review that earlier during IDR you stopped so that the students could think about the questions on the chart. Explain that today you will not stop but that you expect the students to be responsible for thinking about the questions on their own. Remind them that if they decide their books are not at the right levels for them, they may select different books to read.

Tell the students that for the next few weeks they will be reading nonfiction texts during IDR. If necessary, give the students a few moments to each select a nonfiction text. Have the students read silently for 15–20 minutes. As the students read, circulate among them and ask individual students to read parts of their texts aloud and tell you what the texts are about. If any students are struggling to understand their texts, use the questions on the chart to help them be aware of their own comprehension.

Signal to let the students know when it is time to stop reading. Facilitate a brief discussion about how the students did monitoring their own reading by asking questions such as:

- Q *Is the text you're reading at the right level for you? What questions helped you decide?*
- Q *What did you do to take responsibility for yourself during IDR today?*

Have the students return to their desks and put away their texts. Give the students time to record their texts in their reading logs.

In this lesson, the students:

- Learn the procedure for “Think, Pair, Write”
- Hear parts of an expository nonfiction book again
- Use text features to better understand information in the book
- Read independently for 15–20 minutes
- Share their partners’ thinking with the class

ABOUT IDR CONFERENCES

This week you begin conferring with the students during IDR. The first IDR conference in this unit focuses on helping you get to know the students as readers. Beginning in Week 2, your conferences will focus more on assessing the students’ comprehension, supporting struggling readers, and encouraging self-monitoring strategies. To learn more, see “IDR Conferences” in the Assessment Overview of the *Assessment Resource Book*.

1 Introduce “Think, Pair, Write”

Have the students get their *Student Response Books* and pencils and sit at desks with partners together. Explain that today you will teach the students a cooperative structure called “Think, Pair, Write.” As with “Think, Pair, Share,” you will ask a question and have them think quietly for a moment. When you signal, they will turn to their partners to share their ideas and then individually write their ideas in their own *Student Response Books*. Ask:

- Q** *What have you learned about working with a partner during “Think, Pair, Share” that can help you during “Think, Pair, Write”?*

Students might say:

- “I’ve learned that I need to do my part of the thinking and sharing.”
- “I need to listen carefully to my partner so I can understand what she’s thinking.”
- “If I don’t understand what my partner says, I should ask him nicely to explain what he means.”

Explain that the purpose of using “Think, Pair, Write” is for the students to practice explaining their thinking before writing, and that at the end of the lesson you will ask them to report how their conversations went.

Materials

- *Rainforests*
- *Student Response Book* pages 3–5
- “Text Features” chart, prepared ahead, and a marker
- “Thinking About My Reading” chart
- Class set of “IDR Conference Notes” record sheets (CN1)

Teacher Note

For more information, view “Setting Up IDR Conferences” (AV29).

Teacher Note

If your students are already familiar with the procedure, you do not need to model it. Instead, remind the students of your expectations. To see an example, view “Using ‘Think, Pair, Write’” (AV10).

ELL Note

Consider providing extra support to your English Language Learners during “Think, Pair, Write” throughout this unit. Students with limited English proficiency might benefit from drawing rather than writing.

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step and in Day 3, Step 2, for this unit's Individual Comprehension Assessment. For more information, see "Individual Comprehension Assessment" in the Assessment Overview of the *Assessment Resource Book*.

TEKS 9.D.ii
TEKS 9.F.i
Student/Teacher Narrative
Step 2

ELPS 4.F.ii
Step 2

Teacher Note

You will discuss how to use an index, glossary, and keywords and add these features to the chart in Week 3, Day 3 (see Step 3).

Teacher Note

Save the "Text Features" chart to use throughout this unit and in Unit 7.

2 Explore Text Features

Review that in the previous lesson the students listened to and discussed part of the book *Rainforests*. Remind them that the book is an example of an expository nonfiction text and that expository nonfiction texts give factual, or true, information about a topic. Show pages 40–41 of the book and read the chapter title aloud. Then ask the students to listen as you reread these two pages. Read aloud the main text first: "Large areas of tropical rainforest are destroyed every day. . . . Many local tribes are forced to leave." When you finish, draw the students' attention to the photographs on pages 40–41 and read the captions aloud. Ask:

Q *How might these photographs and captions help a reader better understand these pages about rainforest destruction?*

Explain that expository text pages often contain photographs and other features to help the reader better understand the topic. Show pages 42–43 of the book, read the chapter title aloud, and point out that the students also heard these pages earlier. Have the students turn to *Student Response Book* pages 4–5, "Excerpt from *Rainforests*," and explain that these are the pages you just showed them. Have the students quietly consider the following question:

Q *What features do you notice on these two pages that might help a reader better understand the topic?*

If partners have difficulty recognizing features, draw their attention to one (for example, the chapter title) and ask:

Q *What information does this feature give you?*

Q *How does that add to your understanding of these pages?*

On a signal from you, have partners turn to face each other and share the features they noticed. Then have them individually record the features on *Student Response Book* page 3, "Think, Pair, Write About Text Features."

3 Share Features as a Class

When the students finish their lists, ask volunteers to share the features they identified. List the features on the "Text Features" chart. Be sure to include the following features: *chapter title*, *photograph*, *illustration*, and *caption*.

Page through *Rainforests*, showing the students other pages and features. In particular, point out these features and add them to the chart: *table of contents* (page 3), *text box* (page 4), *map* (pages 6–7), and *labels* (pages 6–7, 14–15).

Explain that although some expository texts do not contain text features, many do. Ask the students to look for these kinds of features as they read independently in the coming days.

4 Reflect on “Think, Pair, Write”

Help the students reflect on their work together during “Think, Pair, Write.” Ask:

Q *How did you and your partner do explaining your thinking during “Think, Pair, Write”?*

INDIVIDUALIZED DAILY READING

5 Read Independently and Begin Conferring About the Students’ Reading Lives

Tell the students that during IDR this year you will be *conferring*, or talking, with individual students about the books they are reading, what they like to read, and how they feel about reading. Explain that while you are conferring with individual students, the rest of the class will silently read their books. State your expectations for how the students will act responsibly while you confer with individual students.

You might say:

“When I am talking with a student about his reading, it is important for you to read silently for the entire time. If you finish reading a book before IDR is over, you can either reread the book or begin reading a new book.”

Explain that when they have finished reading their books, the students may return the books to the classroom library and select new ones.

Explain that as the students read today, you would like them to think about interesting things they read to share with partners at the end of IDR. Have the students get their texts and each find a quiet place to read. Have them read silently for 15–20 minutes.

After the students have settled into their reading, confer with individual students. Pause between conferences to scan the class. Make note of any behaviors you wish to discuss at the end of IDR.

IDR CONFERENCE NOTE

Beginning today, and continuing for the next several days, confer individually for a few minutes with each student to learn more about her reading habits, how she feels about herself as a reader, and what she is interested in reading.

Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 14 of the *Assessment Resource Book*. You will continue to use the “IDR Conference Notes” record sheets during conferences throughout the program.

Teacher Note

The reflection that appears at the end of many lessons is important to the students’ growth as readers and to their social development. We encourage you to spend a few minutes at the end of the lesson helping the students reflect on their work and interactions. For more information, see “Focus on Social/Ethical Development” in the Introduction. To learn more, view “Social Reflection” (AV14).

Teacher Note

Rather than having the students determine when they are ready to return their books, you might establish a schedule for your students to follow when returning and checking out books from the classroom library. For example, you might allow four or five students to go to the library each day. You might also have the students use the classroom library at different times of day (for example, during morning routine or right after lunch).

We recommend that the students keep enough books in their desks to last them for a week’s worth of independent reading. This will help ensure that the students spend IDR time engaged in reading rather than browsing for books in the classroom library.

Teacher Note

You might use the “IDR Conference Notes” record sheet (CN1) as a survey of the students’ reading goals and interests. For more information, see “IDR Conferences” in the *Assessment Overview of the Assessment Resource Book*.

Day 3

Guided Strategy Practice

Materials

- *Student Response Book* pages 3–7
- “Text Features” chart from Day 2 and a marker
- “Class Assessment Record” sheet (CA1)
- “Reading Comprehension Strategies” chart, prepared ahead, and a marker

Signal to let the students know when it is time to stop reading. Have the students share the titles of their books, the authors’ names, and interesting things they read. Tell the students that you would like them to be prepared to share with the class what their partners said. After partners have had a chance to share, discuss as a class:

Q *What did your partner share with you today about his or her reading?*

Remind the students that the purpose of sharing their partners’ thinking is to help them develop their listening skills. Have the students return to their desks and put away their texts.

In this lesson, the students:

- Practice the procedure for “Think, Pair, Write”
- Examine an expository nonfiction article
- Use text features to better understand information in the article
- Read independently for 15–20 minutes
- Explain their thinking
- Solve problems by working together

1 Review Text Features

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind them that they explored text features in *Rainforests*. Ask them to turn to *Student Response Book* pages 3–5, “Think, Pair, Write About Text Features” and “Excerpt from *Rainforests*,” and review yesterday’s work. Ask:

Q *What features did we notice on these pages?*

Q *How did these features help us understand the information on these pages?*

Refer the students to the “Text Features” chart from the previous lesson and review the list of features. Tell the students that today they will look at another expository text to see what features they notice.

2 Read an Article and Examine Text Features

Ask the students to turn to *Student Response Book* pages 6–7, “Egyptian Burial.” Read the title of the article aloud. Ask:

Q *After hearing the title, what do you think this article might be about?*

Have one or two volunteers share their thinking, and then read the headings “Tombs for Kings” and “Making a Mummy” aloud. Ask:

Q *After reading the headings, what do you think you will learn about Egyptian burials from this article?*

Have one or two volunteers share their thinking. Tell the students that first they will read the article silently to themselves and then they will use “Think, Pair, Write” to discuss and list the features they find that can help a reader better understand the article. Have the students read the article silently.

After the students have had time to read the article, call for their attention. Ask the students to look at the article and make a mental list of the text features they notice. After they have had time to think, have them share with their partners the features they noticed and discuss how the features are used. Then have the students add the features to the list they started yesterday (on *Student Response Book* page 5). Tell the students that they will share their lists with the class later. Circulate among the students as they work, and randomly select students to observe.

CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students notice text features?
- Do they understand what information the text features provide?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 8 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are noticing text features and seem to understand what information they provide, proceed with the lesson and continue on to Day 4.
- If **about half of the students** or **only a few students** are noticing text features and seem to understand what information they provide, you might give the class additional instruction by repeating Days 1, 2, and 3 of this week using an alternative book before continuing on to Day 4. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

TEKS 9.D.ii
Student/Teacher Activity
Step 3

3 Discuss Text Features

When the students finish, discuss their findings as a class by asking:

- Q** *What features did you find that are already on the chart? How are they used?*
- Q** *What features did you find that are not listed on the chart? How are they used?*

Teacher Note

Alternatively, you might read the article aloud.

Teacher Note

Alternative texts can be used to reteach a *Making Meaning* lesson or as a substitute for a provided read-aloud text. A list of these texts is available in the General Resources section of the CCC Learning Hub (ccclearninghub.org). For more information, see “Preparing the Daily Lessons” in the Introduction.

Teacher Note

Additional features include: *heading*, *text column*, and *diagram*.

Teacher Note

Post the “Reading Comprehension Strategies” chart where the students can refer to it during the year. You will add strategies to the chart as they are introduced in the program. Refer to the chart often to remind the students to use the strategies in their reading throughout the day.

Teacher Note

The purpose of these questions is to emphasize a problem-solving approach to difficulties the students have working together and to allow the students to hear one another’s problems and solutions. Emphasize that it is normal for people to have problems working together at times and that they will learn ways to solve their problems.

As the students mention new features, add them to the “Text Features” chart.

Students might say:

“Photographs and captions are already on the chart. They help you get a better understanding of the world of ancient Egypt and they give some interesting details.”

“The chart already lists chapter titles but it doesn’t list headings for just a part of the text, like ‘Making a Mummy.’ I think that’s used to help you figure out quickly what that section of the article is about.”

“A diagram is something we didn’t see in *Rainforests*. The pictures and numbers give you another way to understand how a mummy is made, besides the paragraphs about that.”

“I noticed that the text on these pages doesn’t go all the way across the page. I think the shorter lines are used to make the information easier to read and think about.”

4 Begin the “Reading Comprehension Strategies” Chart

Direct the students’ attention to the “Reading Comprehension Strategies” chart. Read the title aloud and explain that you are going to use the chart to keep a list of strategies good readers use to help them make sense of what they read. Explain that the students are learning to use text features to help them make sense of expository text. Write *using text features* on the chart and encourage them to look for and use text features in their independent reading.

Reading Comprehension Strategies

– using text features

5 Reflect on Working Together

Facilitate a brief discussion about the ways the students worked together. Ask questions such as:

- Q *What did you like about how you and your partner worked together today?*
- Q *What problems did you have? How did those problems affect your work? How did you try to solve those problems?*

INDIVIDUALIZED DAILY READING

6 Read Independently and Confer

Review that yesterday you began conferring, or talking, with individual students during IDR. Tell the students that you will confer with individual students again today, so it is important that they read silently.

Have the students get their texts and read silently for 15–20 minutes. Ask the students to think as they read about what text features they notice in their texts and what the text features help them learn. Tell the students that at the end of IDR today, you will ask them to share with the class about the text features they notice. After the students have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading habits, how they feel about themselves as readers, and what they are interested in reading.

Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 14 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask:

Q *What text features did you encounter in your reading today?*

Add any new text features the students mention to the “Text Features” chart and have the students show the text features to the class. Briefly discuss each new feature and what information it helped the students learn. Ask:

Q *Did anyone read an expository text that had few or no features? If so, how can you tell it is an expository text?*

Have the students return to their desks and put away their texts.

Teacher Note

Continue to periodically remind the students to ask themselves the questions on the “Thinking About My Reading” chart as they read independently and to select different texts if they decide the ones they are reading are not at the right levels.

Day 4

Independent Strategy Practice

Materials

- “Text Features” chart from Day 3 and a marker
- *Student Response Book*, Reading Journal section
- “Reading Journal” chart (WA1)
- Expository text for modeling, selected ahead
- “Journal Entry” chart (WA2)

Teacher Note

This question gives you an opportunity to informally assess the students’ learning this week. To gauge their understanding, you may need to ask follow-up questions such as:

- Q *What is the purpose of expository text?*
- Q *What kinds of expository text have we looked at?*
- Q *What features of expository text have we identified?*
- Q *How does noticing features of expository text help us make sense of it?*

In this lesson, the students:

- Read independently
- Use text features to better understand information in texts
- Learn how to use a reading journal
- Analyze the effects of their behavior on the group work
- Explain their thinking

1 Review the Week

Have the students get their *Student Response Books*, pencils, and texts for independent reading and sit at desks with partners together. Remind the students that this week they began to explore expository text. Refer to the “Text Features” chart, and review that the students created a list of features. Ask:

Q *What have we learned this week about expository text?*

Explain that the students also learned “Think, Pair, Write” and focused on explaining their thinking to their partners. Ask:

Q *How has clearly explaining your thinking helped your work this week? Turn to your partner.*

Have one or two volunteers share their thinking with the class. Then ask:

Q *What did you do if your partner was not explaining his or her thinking clearly? How did that help? Turn to your partner.*

Have one or two volunteers share their thinking. Ask the students to continue to focus on explaining their thinking today.

2 Read Independently

Explain that today the students will read expository texts independently. Encourage them to think as they read about what they are learning about the nonfiction topics and what text features, if any, they notice.

Have the students read silently for 10–15 minutes. As they read, circulate among them and ask individual students to tell you what their texts are about and what features, if any, they have noticed. You might probe their thinking by asking questions such as:

Q *What are you learning about the topic of this book?*

Q *What is one feature on this page that helps you learn something? What information does this feature give you?*

Signal to let the students know when it is time to stop reading. Ask the students to think to themselves about what they learned about the topic and what text features they noticed in their reading.

3 Model Writing About an Expository Text

Have the students open their *Student Response Books* to the Reading Journal section. Explain that this is a place where they can write about what they are reading. Explain that today they will use their reading journals to record thoughts about the reading and any text features they noticed as they read.

Display the “Reading Journal” chart (📄 WA1) and model writing about an expository text. Using a text the students are familiar with, model thinking aloud about the topic of the text, what you are learning, and what text features you notice, and then model writing a brief journal entry about it.

You might say:

“I read the book *Rainforests* by James Harrison. The book is about tropical rainforests and the animals and people who live in them. It also has information about how the rainforests are in danger. In the part I was just reading, I learned about a rainforest river called the Amazon. A text feature I noticed is labels pointing to illustrations of animals that live in and near the river. First I’ll write my name and the date at the top of the page. Now I’ll write a few sentences telling what my book is about. I’ll write: *The book I am reading is called Rainforests, by James Harrison. It’s about tropical rainforests and the animals, plants, and people who live in them. It also has information about the danger that human activities are bringing to the rainforests.* Now I’m going to write about the part I just read and a text feature I noticed. I’ll write: *I have learned about a rainforest river called the Amazon. It’s the biggest river in the world. A text feature in this part of the book is labels that point to animals that live in and near the river.*”

4 Write About Expository Texts

Display the “Journal Entry” chart (📄 WA2) and explain that you would like each student to write a journal entry about the expository text he read today. Also explain your expectations for what the journal entry should include.

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit’s Individual Comprehension Assessment. For more information, see “Individual Comprehension Assessment” in the Assessment Overview of the *Assessment Resource Book*.

Journal Entry

Write a journal entry about the text you are reading. Please include:

- The title and the author's name
- What the text is about
- What you learned in the part of the text you read today
- One text feature you found
- What the text feature helped you learn

ELL Note

Consider having your students with limited English proficiency draw pictures of the parts of the book they read, rather than writing sentences.

Teacher Note

Consider providing additional opportunities for the students to write in their reading journals. You might either provide specific prompts for them to respond to or have them write about their reading in any way they choose.

Vocabulary Note

Next week you will revisit *Rainforests* to teach the Week 3 vocabulary lessons.

Materials

- *Rainforests*

ELPS 5.F.ii
Writing About Reading

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals.

5 Discuss the Students' Journal Entries

Have a few volunteers share their journal entries with the class and show the text features they found in their reading. As the students mention new features, add the features to the “Text Features” chart and briefly discuss what information the features provide.

6 Reflect on Partner Work

Facilitate a class discussion about how partners worked together. Ask questions such as:

- Q *How did your partner do explaining his or her thinking?*
- Q *What are you enjoying about working with your partner? What would you like to do [the same way/differently] the next time you work together?*

Explain that in the coming weeks the students will read and think more about expository text.

WRITING ABOUT READING

Write Opinions About Rainforest Birds

Show the cover of *Rainforests* and remind the students that they heard this book earlier. Show the table of contents and explain that two of the book's chapters are about rainforest birds (“Beautiful Birds” and “Beaky Bird”). Explain that you will read these chapters aloud, and ask the students to think as they listen about what they are learning about various rainforest birds. Read page 22 aloud, slowly and clearly, showing the illustration and reading the caption. Ask:

- Q *What did you learn about hummingbirds?*

Write the students' ideas where everyone can see them, under the heading "Hummingbirds." Then read the main text on page 23, stopping after "... their powerful beaks." Show the illustration and read the accompanying caption. Ask:

Q *What did you learn about scarlet macaws?*

Write the students' ideas where everyone can see them, under the heading "Scarlet Macaws."

Follow the same procedure to help the students learn about harpy eagles (page 23) and toucans (pages 24–25).

Students might say:

"I learned that hummingbirds are the only birds that can fly backward."

"I learned that scarlet macaws have strong beaks that they use to break open fruits and nuts."

"I learned that harpy eagles can snatch monkeys in their claws."

"I learned that a toucan's beak is made of the same material as human fingernails."

Ask and briefly discuss:

Q *Which of these rainforest birds do you think is the most interesting? Why?*

Have a few volunteers share their thinking with the class. Tell the students that when they talk about which one of several things they think is most interesting, they are giving an opinion. Explain that people might have different opinions about the same thing and that this is fine. What matters is that they give reasons to explain their thinking. Then ask the students to watch as you think aloud and model writing about which bird on the list you think is most interesting.

You might say:

"I think the hummingbird is the most interesting. I'll write: *I think the hummingbird is the most interesting of the rainforest birds we've read about.* Now I will give a reason why I think it's the most interesting. I'll write: *I think so because it beats its wings 12,000 times a minute while it hovers and sucks nectar from flowers.* I want to explain what exactly I think is so interesting about that. I'll write: *I think it's interesting that an animal as tiny as a hummingbird can beat its wings hundreds of times faster than we human beings can move our arms.*"

Have the students write their own opinions about which bird is the most interesting and why. If time permits, invite the students to share their writing with the class.

Week 2

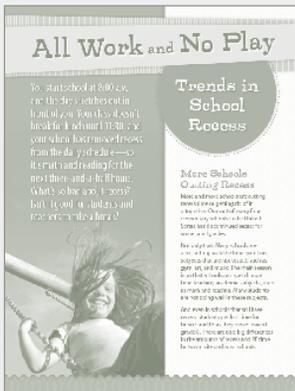

OVERVIEW

“Follow That Ball! Soccer Catching On in the U.S.”

(see pages 80–81)

This article discusses the growing popularity of soccer in the United States.

“All Work and No Play: Trends in School Recess”

(see pages 82–83)

This article discusses the trend toward reducing and eliminating recess time in U.S. schools and highlights some of the benefits of recess.

Online Resources

Visit the CCC Learning Hub (cclearninghub.org) to find your online resources for this week.

Whiteboard Activity

- WA3

Assessment Forms

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheets (CN1–CN2)

Comprehension Focus

- Students use text features to better understand expository nonfiction articles.
- Students use text features to locate key information.
- Students read independently.

Social Development Focus

- Students work in a responsible way.
- Students develop the skill of explaining their thinking.
- Students share their partners' thinking with the class.

⌚ DO AHEAD

- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA2); see page 9 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a class set of “IDR Conference Notes” record sheets (CN2); see page 15 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 3 lessons this week.

Materials

- “Follow That Ball!” (pages 80–81)
- “Reading Comprehension Strategies” chart
- “Text Features” chart from Week 1 and a marker
- *Student Response Book*, Reading Log section

Facilitation Tip

Notice the open-ended questions that you are asking during this discussion. To study the effect of open-ended questions on students’ thinking, experiment by asking a closed question first (such as “Do you read magazines?” or “Does anyone you know read articles?”) and noting the response. Then restate the question as an open-ended question and note the response. Remember to use 10 seconds of wait-time after the question before you invite the students to respond.

In this lesson, the students:

- Hear and discuss an expository nonfiction article
- Read independently for 15–20 minutes
- Explain their thinking
- Share their partners’ thinking

1 Get Ready to Work Together

Gather the students with partners sitting together, facing you. Explain that during today’s lesson the students will talk about a nonfiction article that you will read aloud. Encourage them to focus on explaining their thinking clearly to their partners. Tell them that you will ask them to report on their partner conversations at the end of the lesson.

2 Review Text Features and Introduce “Follow That Ball!”

Review that last week the students explored a kind of nonfiction called *expository nonfiction*. They heard *Rainforests* and used text features to help them understand the text. Refer to the “Reading Comprehension Strategies” chart and review that using text features is a comprehension strategy readers use to help them make sense of expository text.

Explain that this week, the students will use text features to help them understand articles. Articles are short pieces of expository writing that appear in newspapers and magazines and on websites. Ask and briefly discuss:

Q *What newspapers, magazines, or websites have you seen or read?*

Q *Why do people read newspapers, magazines, or websites?*

Explain that the article you will read aloud today is titled “Follow That Ball! Soccer Catching On in the U.S.” Explain that you will ask a question that the students will discuss with their partners. Tell them to listen carefully to their partners because they will share their partners’ thinking with the class. Then ask:

Q *After hearing the title, what do you think this article might be about? Turn to your partner.*

Have one or two volunteers share their partners’ thinking. Remind the students that the purpose of sharing their partners’ thinking is to help them develop their listening skills and be responsible learners in their partnerships.

Explain that the students will hear the article without seeing the text features.

3 Read Aloud

Read “Follow That Ball” aloud slowly and clearly, stopping as described below and clarifying vocabulary as you read.

Suggested Vocabulary

surge: increase (p. 80)

stamina: ability to work or play for a long time without resting (p. 81)

enthusiasts: people who are really interested in something or do it as a hobby (p. 81)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

It’s soccer mania: people are very excited about soccer (p. 80)

a shaky start: not being very popular (p. 81)

up-and-coming: getting more popular (p. 81)

have made the game their own: enjoy playing soccer (p. 81)

skill building: getting better at something (p. 81)

injured: hurt (p. 81)

Stop after:

p. 81 “In 2012, the women’s U.S. Olympic team won the gold medal.”

Ask:

Q *What have you found out so far? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue to the end of the article.

4 Discuss the Article

Ask and discuss as a class:

Q *What is this article about?*

Use “Think, Pair, Share” to discuss the following questions. Remind the students to explain their thinking.

Q *Why is soccer becoming more popular in the U.S.? What in the article tells you that? [pause] Turn to your partner.*

Q *Why do you think soccer is so popular among American women? [pause] Turn to your partner.*

Have a few volunteers share their thinking. Explain that tomorrow the students will explore the text features in the article.

ELL Note

English Language Learners may benefit from additional stops to discuss the reading, for example, at the end of each paragraph or section.

ELL Note

You might want to reread parts of the article to help your English Language Learners recall the information.

5 Reflect on How the Students Explained Their Thinking

Ask and briefly discuss questions such as:

- Q *What did you say to your partner to help explain your thinking today?*
- Q *What can you say to your partner next time if you don't understand what he or she said?*

INDIVIDUALIZED DAILY READING

6 Read Independently and Confer

Tell the students that you will continue talking with individual students during IDR today, so it is important that they read silently. Remind the students that they are reading nonfiction texts during IDR. Have them get their texts and read silently for 15–20 minutes. Ask the students to think as they read about what text features they notice in their texts and what the text features help them learn. After the students have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading habits, how they feel about themselves as readers, and what they are interested in reading.

Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 14 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask:

- Q *What text features did you encounter in your reading today?*

Add any new text features the students mention to the “Text Features” chart and have the students show the features to the class. Briefly discuss each new feature and what information it helped the students learn. Have the students return to their desks and put away their texts.

Give the students time to record their texts in their reading logs.

In this lesson, the students:

- Hear an expository nonfiction article again
- Use text features to better understand and locate key information in the article
- Analyze a text feature
- Read independently for 15–20 minutes
- Explain their thinking

1 Review “Follow That Ball!”

Have the students bring their *Student Response Books* and gather with partners sitting together, facing you. Review that yesterday the students heard and discussed the article “Follow That Ball! Soccer Catching On in the U.S.” Ask:

Q *What do you remember about the article?*

Have a few volunteers share what they remember.

2 Reread the Article and Discuss Text Features

Ask the students to turn to *Student Response Book* pages 8–9. Explain that this is a copy of the article. Tell the students that you will read the article aloud, and ask them to follow along as you read. Afterward, they will discuss the text features in pairs and then as a class.

Read the article aloud, slowly and clearly. When you finish, draw the students’ attention to the photo on *Student Response Book* page 8 and read the caption aloud.

Remind the students that many articles include photographs with captions and other features to help readers better understand the topics. Have the students think quietly about the following questions as they scan (look over) the article for additional features.

Q *What text features do you notice?*

Q *How might these text features help readers understand the topic?*

After they have had time to think, have partners share with each other the text features they noticed. Then discuss as a class how the features might help readers understand the article. Add any new features the students mention to the “Text Features” chart.

Circulate among the students as they work, and randomly select students to observe.

Materials

- “Follow That Ball!” (pages 80–81)
- *Student Response Book* pages 8–9
- “Text Features” chart from Day 1 and a marker
- “Class Assessment Record” sheet (CA2)

ELL Note

You might provide the prompt “I remember . . .” to your English Language Learners to help them verbalize their answers to this question.

Teacher Note

As an alternative to reading the article aloud, and if appropriate, ask the students to read the article independently. Monitor the students and provide help to struggling readers.

Teacher Note

Additional features include: *subtitle, list, and circle graph.*

CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students notice text features?
- Do they understand what information the text features provide?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 9 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are noticing text features and seem to understand what information they provide, proceed with the lesson and continue on to Day 3.
- If **about half of the students** or **only a few students** are noticing text features and seem to understand what information they provide, you might give the class additional instruction by repeating Days 1 and 2 of this week using an alternative article before continuing on to Day 3. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

3 Examine and Discuss the “Top Seven Team Sports Played by 12- to 17-year-olds (2014)” Circle Graph

Draw the students’ attention to the circle graph titled “Top Seven Team Sports Played by 12- to 17-year-olds (2014)” on *Student Response Book* page 9. Explain that circle graphs and other graphs can help readers understand data, or pieces of information, in a quick and easy way. Point out that this graph helps the reader compare information about the seven most popular team sports played by 12- to 17-year-olds by representing each sport as one section of the circle. Help the students read the graph by asking and briefly discussing questions such as:

- Q Which sports are among the top seven team sports played by 12- to 17-year-olds in the U.S.?
- Q Of the sports listed, what percentage of 12- to 17-year-olds play ice hockey?
- Q Of the sports listed, what percentage of 12- to 17-year-olds play softball?

Use “Think, Pair, Share” to discuss:

- Q Looking at this graph, what statements can you make about the top seven team sports played by 12- to 17-year-olds in the U.S.? [pause] Turn to your partner.

Have a few volunteers share their thinking with the class. Then use “Think, Pair, Share” to discuss:

Q *What does this graph tell you about the popularity of soccer in the U.S.?*
[pause] *Turn to your partner.*

Ask a few volunteers to share their thinking.

Students might say:

“Basketball is the most popular sport.”

“Fifteen percent of the kids who play these sports play soccer. That’s less than a quarter.”

“Soccer is the number three sport played by 12- to 17-year-olds.”

“Soccer has close to the same number of players as sports that are on TV all the time, like football and baseball.”

As volunteers share, ask follow-up questions such as:

Q *[Maura] said that less than a quarter of the 12- to 17-year-olds in the U.S. who play these sports play soccer. Do you agree or disagree? Why?*

Q *Do you agree with [Chris] that soccer is the third most popular sport in the U.S. among 12- to 17-year-olds? Why or why not?*

Q *What questions do you have for [Li] about his thinking?*

Point out that text features such as this circle graph help readers make sense of the information in articles and books. Remind the students to take time to notice text features when they read independently. Explain that over the next two days, the students will explore the text features in another article.

4 Reflect on How the Students Explained Their Thinking

Facilitate a brief discussion about how partners worked together. Ask:

Q *What did you say to your partner if you did not understand his or her thinking? Did that help?*

INDIVIDUALIZED DAILY READING

5 Read Independently and Share Reading with Partners

Have the students get their texts and read silently for 15–20 minutes. Tell the students that at the end of IDR today you will ask them to talk with partners about interesting things they learned from their texts. After the students have settled into their reading, confer with individual students.

Teacher Note

If the students have difficulty making statements, offer some suggestions like those in the “Students might say” note. Then ask what additional statements they can make about the graph.

TEKS 1.A.iii
Student/Teacher Activity
Step 3
(last question)

ELL Note

For your students with limited English proficiency, consider providing books and magazines in their primary languages.

Teacher Note

On Day 3 of this week, you will begin conferring with the students about the nonfiction texts they are reading during IDR. If you have not met with all of your students to discuss their reading lives, you may want to do so before changing the focus of your conferencing.

Teacher Note

You might review the students' responses to the questions on the "IDR Conference Notes" record sheet (CNI) to identify patterns across the members of the class as well as individual responses that stand out to you. After analyzing the students' responses, you might facilitate a class discussion about what you learned about them as readers and how you plan to build their love of reading over the course of the year. For ideas on how to facilitate this discussion, see the extension "Discuss the Students' Reading Goals and Interests" on this page.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading habits, how they feel about themselves as readers, and what they are interested in reading.

Document your observations for each student on an "IDR Conference Notes" record sheet (CNI); see page 14 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share with partners the titles of their books, the authors' names, and interesting things they learned. Then have the students return to their desks and put away their texts.

EXTENSION

Discuss the Students' Reading Goals and Interests

Remind the students that during IDR conferences over the past few days, you asked them questions about their ideas and feelings about reading. Tell the students that you learned a lot about the kinds of books the class is interested in reading as well as how each student wants to grow as a reader.

You might say:

"Many of you said that you were interested in reading nonfiction books about topics like animals, sports, and earlier periods in history. We'll read some nonfiction books about rainforests, big cats, women who participated in the American Revolution, and the history of Native American boarding schools. Some of you said that you'd like to read fiction stories. We'll also read lots of fiction this year, including a novel (a longer fiction story, usually divided into chapters). I also learned that some students are eager to read poetry this year."

Explain that you will use this information to make sure that everyone has fun reading this year. Ask and briefly discuss:

- Q *What are you excited to read about this year?*
- Q *How do you want to grow as a reader this year?*

Students might say:

"I want to read more books by Avi."
"I want to be able to read books with longer words."
"I want to read more nonfiction books."

In this lesson, the students:

- Skim an expository nonfiction article by reading the title, subtitle, and headings
- Hear and discuss the article
- Use text features to better understand and locate key information in the article
- Read independently for 15–20 minutes
- Work in a responsible way

1 Introduce Skimming a Text Before Reading

Gather the students with partners sitting together, facing you. Remind the students that they heard and read the article “Follow That Ball! Soccer Catching On in the U.S.” and thought about what readers can learn by looking closely at text features. Today they will look at another article and practice *skimming* the article, or quickly looking through it for information, before they read it.

Tell the students that readers often skim an article or a chapter in a book by reading and thinking about the title, subtitle, and headings before they read. Ask:

Q *Why might you want to skim an article or a chapter in a book before you read it?*

Have a few volunteers share their thinking.

Students might say:

“I might want to skim it to find out what it’s about.”

“Maybe if I skim it, I’ll decide I don’t want to read it.”

“Looking at it beforehand might make it easier to read because I’ll know what comes next.”

Display the “Excerpt from ‘All Work and No Play’” chart (WA3) and explain that today the students will skim the headings before they hear the article read aloud. Explain that some of the text and text features have been left out of the excerpt so the students can focus on the title, subtitle, and headings. Point out and read aloud the title, subtitle, and headings. If necessary, take time to explain the purpose of the title, subtitle, and headings in an article.

Materials

- “All Work and No Play” (pages 82–83)
- “Excerpt from ‘All Work and No Play’” chart (WA3)
- Class set of “IDR Conference Notes” record sheets (CN2)
- *Assessment Resource Book* page 11

ELL Note

You might model skimming an article while explaining your thinking. For example, you might skim “Follow That Ball!” and say, “From the title, I think the article is about a type of ballgame. The subtitle tells me it’s about soccer and the fact that a lot of people in the U.S. are finding out they like soccer. The heading ‘Soccer Continues to Grow and Grow . . .’ suggests that the article has information about how more and more people like soccer. Maybe the section titled ‘Five Good Reasons’ will give five reasons people like soccer.”

Teacher Note

If the students have difficulty answering the question, offer some suggestions like those in the “Students might say” note.

TEKS 10.C.i
Student/Teacher Narrative
Step 1

You might say:

"The title is an important feature because it tells the reader the topic of the text. A subtitle provides a little bit more information about the topic. Headings break an article or chapter into smaller sections. They let the reader know what that section of text is about. Headings also help the reader find information in the text."

Ask:

Q *Based on the title, subtitle, and headings, what do you think this article is about?*

Have a few volunteers share their thinking.

Students might say:

"I think it's about recess. The word recess is in the subtitle."

"It might be about how schools have recess."

"One of the headings says 'Recess Restrictions.' Maybe that means only certain schools are allowed to have recess."

 **ELL Note**

English Language Learners may benefit from additional stops to discuss the reading, for example, at the end of each paragraph or section.

2 **Read Aloud**

Read the full text of "All Work and No Play" aloud slowly and clearly, stopping as described below. Clarify vocabulary as you read.

Suggested Vocabulary

discontinued: stopped allowing; made against the rules (p. 82)

rural: in the country (p. 82)

fatigued: tired (p. 83)

tension: stiffness (p. 83)

recharge: get more energy; feel rested (p. 83)

 **ELL Vocabulary**

English Language Learners may benefit from hearing additional vocabulary defined, including:

the day stretches out in front of you: the day is just starting (p. 82)

take a break: stop (p. 82)

concentrating: thinking hard and paying attention (p. 83)

interact and catch up with: talk with (p. 83)

blow off steam: (idiom) use up extra energy (p. 83)

has an accident: gets hurt (p. 83)

Stop after:

p. 82 "Many students are not doing well in these subjects."

Ask:

Q *What have you found out so far? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue to the end of the article.

3 Discuss the Article

Use “Think, Pair, Share” to discuss:

Q *What did you find out from the article? [pause] Turn to your partner.*

Have a few volunteers share their thinking. Discuss as a class:

Q *Did the article include the information you expected, based on what you thought when you skimmed the headings? Explain your thinking.*

Have a few volunteers share their thinking. Explain that tomorrow the students will look closely at text features in the article to find out what more they can learn about trends in recess.

4 Discuss How Partners Acted Responsibly

Facilitate a brief discussion about the ways the students worked together. Ask questions such as:

Q *What did you do to be a responsible partner during “Think, Pair, Share” today?*

Q *Why is it important to [listen carefully when your partner is talking to you]?*

INDIVIDUALIZED DAILY READING

5 Read Independently/Introduce Conferring About Books

Remind the students that you have been conferring, or talking with them individually, about their reading lives during IDR. Explain that beginning today, IDR conferences will focus on the nonfiction texts they are reading. Explain that by conferring with them about their reading, you can learn about their strengths as readers and talk with them about how they can become even stronger readers. Remind the students that when you are conferring with individual students, it is important that they read silently.

Have the students get their texts and read silently for 15–20 minutes. Tell the students that at the end of IDR, you will ask the students to share with partners what they are reading and what they like about their texts. After the students have settled into their reading, select a student and have her bring a text she can read to the conference.

Teacher Note

For additional support, you might teach IDR Mini-lesson 3, “Introducing IDR Conferences,” found in Appendix A.

IDR CONFERENCE NOTE

Over the next two weeks, confer individually with the students about what they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 11) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN2); see page 15 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have partners tell each other the titles of their texts and the authors’ names, what the texts are about, and what they like about their texts. Circulate as the students share, and make note of their conversations. Have the students return to their desks and put away their texts.

Day 4

Guided Strategy Practice

Materials

- “All Work and No Play” (pages 82–83)
- “Text Features” chart from Day 2 and a marker
- *Student Response Book* pages 10–12

In this lesson, the students:

- Hear an expository nonfiction article again
- Use text features to better understand and locate key information in the article
- Analyze a text feature
- Read independently for 15–20 minutes
- Share their partners’ thinking with the class
- Explain their thinking

1 Review “All Work and No Play”

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Review that yesterday the students skimmed the article “All Work and No Play: Trends in School Recess” and heard it read aloud. Explain that you will ask a question that the students will discuss with their partners. Tell them to listen carefully to their partners because they will share their partners’ thinking with the class. Then ask:

Q *What do you remember about the article? Turn to your partner.*

Have a few volunteers share their partners’ thinking.

2 Reread the Article and Discuss Text Features

Ask the students to turn to *Student Response Book* pages 10–11. Explain that this is a copy of the article. Explain that, as before, you will read the article aloud and ask them to follow along as you read. Afterward, they will discuss the text features in pairs and as a class.

Read the article aloud, slowly and clearly. When you finish, have the students think quietly about the following questions as they scan the article for additional features.

Q *What text features do you notice?*

Q *How might these text features help readers understand the topic of the article?*

After they have had time to think, have the students share with their partners the text features they noticed and discuss how the features might be helpful to readers. Then have a few volunteers share their ideas with the class. As they share, add any new text features to the “Text Features” chart.

3 Examine and Discuss the “Minutes of Recess Per Day” Bar Graph

Review that this week the students looked closely at a circle graph to help them learn more about the popularity of soccer in the U.S. Today partners will look at another kind of graph. Draw the students’ attention to the bar graph titled “Minutes of Recess Per Day” on *Student Response Book* page 11. Point out that this graph helps the reader compare information about average minutes of recess in city schools and rural schools. Help the students read the graph by asking questions such as:

Q *How many minutes of recess do fifth-graders in city schools have?*

Q *Where do fourth-graders have more minutes of recess? How do you know?*

Q *How many more minutes of recess a day do third-graders in city schools have than fifth-graders in city schools?*

Ask the students to think quietly to themselves about the following question:

Q *Looking at this graph, what statements can you make about recess in U.S. schools?*

Without discussing as a class, ask the students to turn to *Student Response Book* page 12, “My Statements About Recess in U.S. Schools,” and ask them to write their statements there. Explain that anything they write should be based on information they get from the graph.

After the students have had time to write down their thoughts, ask a few volunteers to each share a statement with the class.

Teacher Note

As an alternative to reading the article aloud, and if appropriate, ask the students to read the article independently. Monitor the students and provide help to struggling readers.

Teacher Note

You might add: *bar graph*.

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit’s Individual Comprehension Assessment.

TEKS 6.B.v
TEKS 6.B.vi
TEKS 10.C.ii
Student/Teacher Narrative
Step 4
(first paragraph)

Teacher Note

You might record the students' questions about recess on a sheet of chart paper. You might use the questions as a starting point for a class research project using the Internet to learn more about recess. For more support with this activity, see the technology extension "Learn More About Recess" on page 78.

Students might say:

- "I wrote, 'Kids in grade 6 have less recess than all the other grades.'"
- "I wrote that in city schools, third-graders have about six minutes less recess than third-graders at rural schools."
- "All the recess times in the graph are less than a half hour."
- "Recess is shorter in city schools than in rural schools."
- "Older kids don't have as much recess as younger kids."

As volunteers share, ask follow-up questions such as:

- Q** *[Bonnie] said that all the recess times are less than a half hour. Do you agree or disagree? Why?*
- Q** *Do you agree with [Alden] that older kids don't have as much recess as younger kids? Why or why not?*
- Q** *What questions do you have for [Jayna] about her thinking?*

4 Discuss What the Students Wonder About the Bar Graph

Explain that even though text features like this bar graph provide extra information about the topic, readers often have more questions about a topic after they read.

Use "Think, Pair, Share" to discuss:

-  **Q** *What are you wondering after looking closely at this bar graph? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

- "I wonder how long recess used to be before they started cutting it."
- "I wonder how many minutes of recess first-graders have."
- "I'm wondering why kids in the city have less recess."
- "I wonder if the kids who get more recess are getting better grades in school."
- "How did scientists figure out that the brain needs breaks to work at its best?"

Point out that text features give readers information to help them understand what they read and to get them thinking more about the topic. Encourage the students to continue to explore text features as they read expository texts independently.

5 Reflect on Partner Work

Facilitate a class discussion about how partners worked together. Ask:

- Q** *What are you enjoying about working with your partner? What would you like to do [the same way/differently] the next time you work together?*

Explain that in the coming week the students will continue to work together to understand text features as they hear and read other kinds of expository text.

INDIVIDUALIZED DAILY READING

6 Read Independently and Share Something the Students Learned

Tell the students that today you will continue to confer with individual students about the texts they are reading during IDR. Have the students get their texts and read silently for 15–20 minutes. Tell the students that at the end of IDR, you will ask the students to share what they have learned from their texts or from the text features in their texts. After the students have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 11) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN2); see page 15 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share the titles of their books, the authors’ names, and what they learned from their texts or from text features in their texts. Ask questions such as:

- Q *What is your [magazine] about?*
- Q *What information have you learned from reading the [book]?*
- Q *What did you learn from reading the text features in the [article]?*

Have the students return to their desks and put away their texts.

EXTENSION

Read a Newspaper Article Using Investigative Questions

Tell the students that newspaper reporters often try to answer these six questions when they investigate a story: *Who? What? Where? When? Why? How?* When the students read a newspaper article, they can use the same questions to identify and remember the article’s key

Vocabulary Note

Next week you will revisit “Follow That Ball!” and “All Work and No Play” to teach the Week 4 vocabulary lessons.

Technology Tip

To support the students in doing online research, you might teach the following technology mini-lessons in Appendix B: Mini-lesson 4, “Choosing Effective Search Terms”; Mini-lesson 5, “Understanding Search Results”; Mini-lesson 6, “Narrowing Search Results and Using Filters”; and Mini-lesson 7, “Evaluating Research Resources.” For more information about teaching Technology Mini-lessons 4-7, see “About Teaching the Online Research Lessons” at the beginning of Technology Mini-lesson 4.

TECHNOLOGY EXTENSION

Learn More About Recess

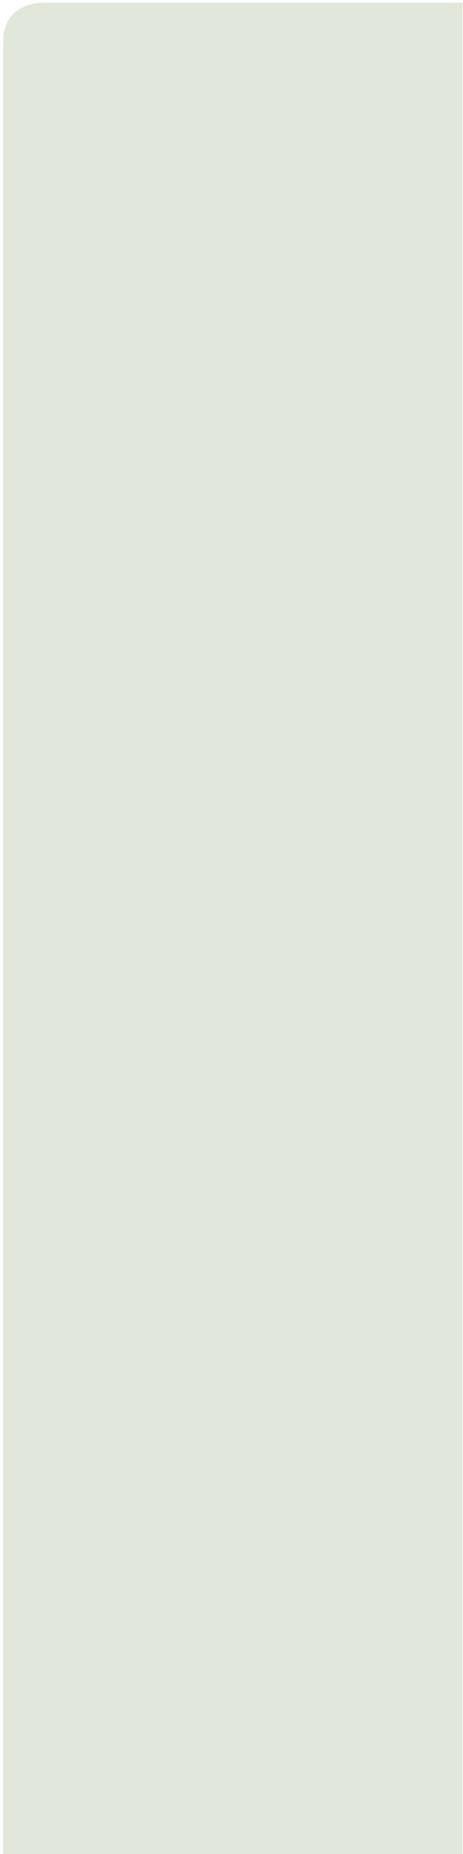

Have the students turn to *Student Response Book* pages 10–11, “All Work and No Play: Trends in School Recess,” and remind the students that they heard this article earlier. Display and read aloud the list of questions the students had about the article’s bar graph (see Day 4, Step 4). Explain that you will reread the article aloud and that you would like the students to think as they listen about any other questions they have about recess. Read the article aloud and then add any further questions the students have to the list.

Explain that the class will look for answers to their questions using the Internet. Briefly discuss what keywords might be useful in an Internet search to answer the students’ questions (for example, “exercise academic performance” or “school recess trends”).

Guide the students in an online search for reputable websites. As a class, browse the websites to find answers to the students’ questions. Afterward, briefly discuss:

Q *What did you learn about [the most popular recess games]?*

You might have the students write paragraphs about what they learned. Ask each student to title his paragraph and use at least one other text feature.

FOLLOW THAT BALL!

SOCCER CATCHING ON IN THE U.S.

Friends and families turn out in the thousands every weekend, spilling out of minivans, sharing snacks at halftime, cheering the players as they chase the black-and-white ball around the field. It's soccer mania out there!

Women are winners:

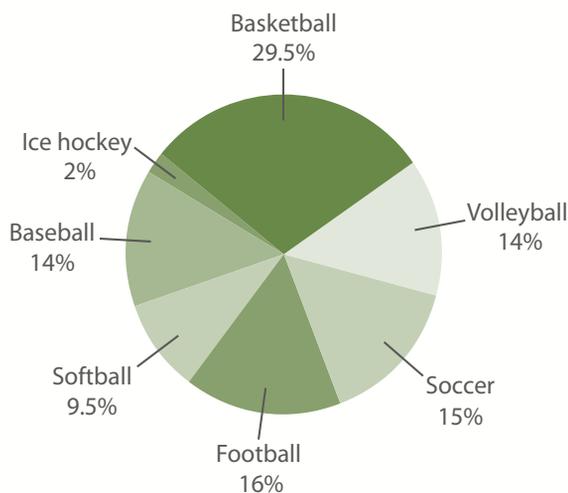

American women have taken to soccer in huge numbers. Their surge in skills and confidence resulted in the U.S. women's team winning the gold medal in the 2012 Olympics.

SOCCER CONTINUES TO GROW AND GROW...

After a shaky start in its first hundred years, soccer in the United States has attracted more and more players each year. In the 12- to 17-year-old age group, one out of seven kids now plays soccer. It's an up-and-coming sport.

It's not only young people who are playing; adults are rushing to play this sport, too. Overall, around 24 million Americans of all ages play soccer. American women, especially, have made the game their own. Close to half of U.S. Youth Soccer's 3 million members are girls. In 2012, the women's U.S. Olympic team won the gold medal.

TOP SEVEN TEAM SPORTS PLAYED BY 12- TO 17-YEAR-OLDS (2014)

Source: National Sporting Goods Association, 2014

Figures show that 12- to 17-year-old kids in the United States play a wide variety of sports.

FIVE GOOD REASONS

Why has interest and participation in soccer grown more than some other sports? There are many reasons why it has become popular.

- In football, a lineman might play several games in a row without even touching the ball. In a single soccer game, each player can touch the ball between 20 and 30 times—that's great for skill building.
- Many other sports rely on brute strength. In soccer, physical size doesn't matter as much. A player's ability has more to do with skill, stamina, and balance.
- It's a family game. Moms, dads, brothers, and sisters can all play at their own level.
- You don't need a lot of expensive equipment to play soccer.
- If soccer is played in the true spirit of the game, few players get seriously injured.

Soccer enthusiasts love the growing popularity of their favorite game. However, they have one complaint: Soccer gets nowhere near the U.S. media coverage of other sports, even the less popular ones. If major television networks decided to give soccer more airtime, who knows? In a few years, it might top the list of the most-played sports in America.

All Work and No Play

You start school at 8:00 A.M. and the day stretches out in front of you. Your class doesn't break for lunch until 11:30, and your school has removed recess from the daily schedule—so it's math and reading for the next three-and-a-half hours. What's so bad about recess? Isn't it good for students and teachers to take a break?

Trends in School Recess

More Schools Cutting Recess

More and more schools are cutting recess time or getting rid of it altogether. One out of every four elementary schools in the United States has discontinued recess for some or all grades.

Not only that: Many schools are also cutting back the time spent on subjects that are not tested, such as gym, art, and music. The main reason is so that schools can spend more time teaching academic subjects, such as math and reading. Many students are not doing well in these subjects.

And even in schools that still have recess, students get less time for breaks and PE as they move toward grade 6. There are also big differences in the amounts of recess and PE time between city and rural schools.

Why Recess Works

Students enjoy recess. They are fatigued after spending long periods of time concentrating. They see recess as important because it's a time to:

- Have a snack and a drink.
- Exercise and get rid of tension or boredom.
- Interact and catch up with their friends.

Schoolwork is hard, and sitting and concentrating puts a strain on your body and your brain. Taking even a short break from class gives your mind a chance to recharge.

Exercise at recess increases the blood supply to the brain, allowing students to concentrate on their work.

Getting some exercise at recess can also help your body make the chemicals your brain needs to help you store information. Research has shown that the brain needs to have a break every hour-and-a-half to two hours to work at its best.

Also, being able to run around and blow off steam means you're less likely to fidget during class time. When you go back to lessons after recess, you can think much more clearly and concentrate better.

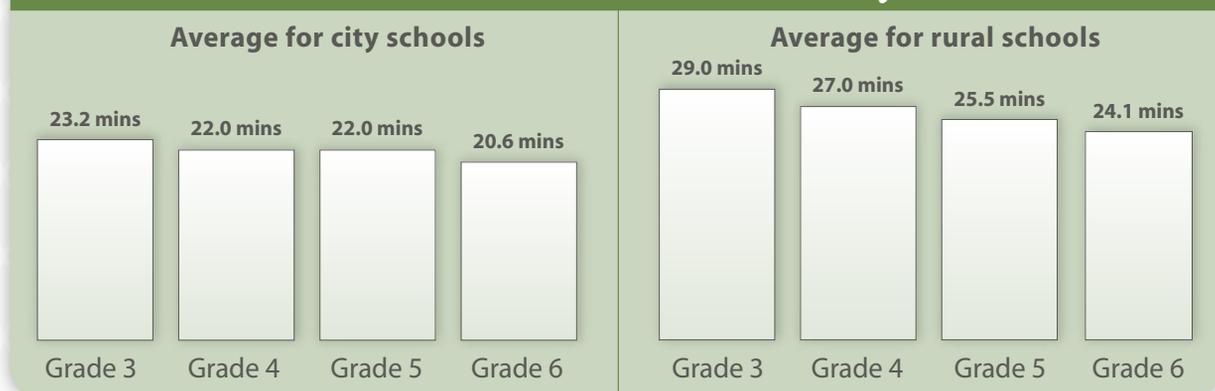

Recess Restrictions

Even when a school has recess, there are often so many rules that it's hard to do more than sit and talk. Schools are worried that if a student has an accident, the school will be blamed.

- Some schools have put up "No Running" signs on playgrounds.
- Tag and ball games have been banned in many schools.
- Play equipment has been removed at some schools.

Experts agree that today, when many children spend their free time in front of the TV or computer screen, the chance to run around at recess—even for a short time—is important. It may be the only exercise a student gets all day.

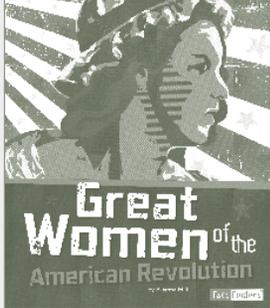

Minutes of Recess Per Day

Source: U.S. Department of Education, National Center for Education Statistics, Fast Response Survey System (FRSS), "Foods and Physical Activity in Public Elementary Schools: 2005," FRSS 87, 2005.

Week 3

OVERVIEW

Great Women of the American Revolution

by Brianna Hall

This book discusses women's important contributions to the Revolutionary War—both behind the scenes and on the front lines.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA4–WA5

Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “IDR Conference Notes” record sheet (CN2)
- “Individual Comprehension Assessment” record sheet (IA1)
- “Social Skills Assessment Record” sheet (SS1)
- “Individual Comprehension Assessment Student Record” sheet (SR1)
- “Individual Comprehension Assessment Class Record” sheet (CR2)

Reproducibles

- Unit 2 family letter (BLM1)
- (Optional) “Index from *Rainforests*” (BLM2)

Professional Development Media

- “Using the Individual Comprehension Assessment” (AV31)

Comprehension Focus

- Students use text features to better understand an expository nonfiction book.
- Students use text features to locate key information in a text.
- Students read independently.

Social Development Focus

- Students work in a responsible way.
- Students develop the skill of explaining their thinking.
- Students analyze the effects of their behavior on others and on the group work.
- Students share their partners' thinking with the class.

DO AHEAD

- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA3); see page 10 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student. For more information about the family letters, see “Family Letters” in the Introduction.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 4 lessons this week.

Materials

- *Great Women of the American Revolution*
- “Table of Contents from *Great Women of the American Revolution*” chart (WA4)
- *Student Response Book*, Reading Log section

Technology Tip

You might locate a world map online and display it on the whiteboard. You might also search online for a map of the 13 colonies to display on the whiteboard.

In this lesson, the students:

- Hear and discuss parts of an expository nonfiction book
- Use text features to better understand and locate key information in the book
- Read independently for 15–20 minutes
- Share their partners’ thinking with the class
- Work in a responsible way

1 Review and Get Ready to Work Together

Gather the class with partners sitting together, facing you. Review that last week the students explored text features in articles. This week they will continue to work with partners and as a class to explore text features in an expository nonfiction book. Ask and briefly discuss:

Q *What will you do to be responsible when you are working with your partner? When we are working together as a class?*

2 Introduce *Great Women of the American Revolution*

Without showing the cover, tell the students that today they will hear parts of an expository nonfiction book called *Great Women of the American Revolution*. If necessary, explain that the American Revolution, also called the Revolutionary War, was fought by early Americans, or colonists, to win freedom from Great Britain. Explain that the revolution lasted from the year 1775 to the year 1783. Show the students a world map and point out Great Britain and the East Coast of the United States. Explain that this book tells about the important contributions women made during the American Revolution.

3 Discuss the Table of Contents and Front and Back Covers

Display the “Table of Contents from *Great Women of the American Revolution*” chart (WA4) and explain that this is a copy of the table of contents in the book.

Review that the table of contents lists the chapters in the book, with the page numbers. Read one or two chapter titles aloud. Point out that this table of contents also shows examples of a few of the text features included in the book. Give the students a few moments to quietly look over the table of contents chart. Then ask:

Q *Based on the table of contents, what information might you find in this book? Turn to your partner.*

Have a few volunteers share their thinking. Show the front cover and read the title and the author's name aloud; then show the back cover and read the paragraph at the bottom aloud. Explain that readers can often quickly find information about a book by looking at the cover and reading the information on the back cover and in the table of contents.

Explain that today the students will hear parts of the book that discuss a few of the many ways women participated in the Revolutionary War.

4 Read Aloud Parts of *Great Women of the American Revolution*

Read pages 4–6 and 10–13 aloud slowly and clearly, showing but not reading the text features and stopping as described below. Words in red are defined in gold-colored bars at the bottom of the pages on which the words appear, as well as in the glossary on page 30 of the book; you may wish to define these words for your students.

ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

get by: take care of themselves and stay alive (p. 4)

bonnets: hats made of soft cloth (p. 4; refer to the illustration on p. 8)

crossed enemy lines: went into places where the enemy was staying (p. 5)

racked up huge debts: borrowed a lot of money that had to be paid back (p. 6)

grumble: complain in low voices (p. 6)

Women's words about justice, independence, and equality exploded off the page: instead of just writing about the need for revolution, women started openly calling for it (p. 10)

cannons: large guns (p. 11)

poverty-stricken: poor (p. 13)

lodging: a place to stay (p. 13)

Stop after:

p. 5 "They knew that whichever side they chose, their help was needed."

Use "Think, Pair, Share" to discuss:

Q *What did you learn in the part of the book you just heard? [pause] Turn to your partner.*

Without sharing as a class, reread the last two sentences before the stop and continue reading aloud to the next stopping point:

p. 6 "The colonists' grumbling grew louder and angrier."

Use "Think, Pair, Share" to discuss:

Q *What did you learn in the part of the book you just heard? [pause] Turn to your partner.*

Teacher Note

You will discuss how to use a glossary with the students on Day 3 (see Step 3).

Without sharing as a class, explain that the next few pages describe women who wrote plays, poetry, and letters in support of the revolution and that you will skip these pages for now. Continue reading pages 10–13 aloud, stopping after:

p. 13 “Others opened small shops to sell basic items to soldiers.”

5 Discuss the Reading

Explain that you will ask a question that the students will discuss with their partners. Tell them to listen carefully to their partners because they will share their partners’ thinking with the class. Then ask:

Q *What did you find out about women who participated in the American Revolution? Turn to your partner.*

Ask one or two volunteers to share their partners’ thinking with the class.

Use “Think, Pair, Share” to discuss the following questions, stopping between questions to have volunteers share their partners’ thinking. As the students share, refer to the text to help them remember what they heard.

Q *Why did many women support the revolution? What did you hear that makes you think that? [pause] Turn to your partner.*

Q *What challenges did women of the revolution face? What in the text makes you think that? [pause] Turn to your partner.*

Students might say:

“They saw that there was a lot of work to be done. The book says they knew ‘their help was needed.’”

“According to the book, some of them were mad about the fact that Britain made them pay high taxes.”

“They faced danger by entering enemy territory. I think that because the book says they ‘crossed enemy lines.’”

“Camp followers did hard work. The book says they carried heavy things, fixed cannons, and took care of wounded soldiers.”

“Also, the book says that camp followers weren’t paid and they only got half as much food as soldiers got.”

Explain that tomorrow the students will explore the text features in one of the chapters they heard today.

6 Reflect on How the Students Acted Responsibly

Ask and briefly discuss:

Q *What did you do to be responsible when you were working with your partner today? When we were working together as a class?*

INDIVIDUALIZED DAILY READING

7 Read Independently and Discuss Text Features

Remind the students that you will continue to confer with individual students about the books they are reading during IDR. Explain that the students will continue to read nonfiction texts during IDR this week. Have the students get their texts and read silently for 15–20 minutes. Ask the students to think as they read about what text features they notice in their texts and what the features help them learn. Tell the students that at the end of IDR, you will ask the students to share with their partners about the text features they noticed.

ELPS 4.F.i
Step 7

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 11) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN2); see page 15 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each student tell his partner the title of his text and the author’s name, what the text is about, a text feature his text includes, and what information the text feature helped him learn.

Have the students return to their desks and put away their texts. Give the students time to record their texts in their reading logs.

SOCIAL SKILLS ASSESSMENT NOTE

During the final week of this unit, assess the students’ social skill development using the “Social Skills Assessment Record” sheet (SS1). Access and print the record sheet from the CCC Learning Hub (ccclearninghub.org) or make a copy from page 156 of the *Assessment Resource Book*. You will reassess the students’ social skill development in Units 6 and 10. For more information, see “Social Skills Assessment” in the Assessment Overview of the *Assessment Resource Book*.

Materials

- *Great Women of the American Revolution*
- *Student Response Book* pages 13–15
- “Class Assessment Record” sheet (CA3)

In this lesson, the students:

- Hear part of an expository nonfiction book again
- Use text features to better understand and locate key information in the book
- Read independently for 15–20 minutes
- Explain their thinking

1 Get Ready to Work Together

Have the students get their *Student Response Books* and pencils and sit at desks with partners together. Explain that during today’s lesson the students will take a closer look at part of the book *Great Women of the American Revolution* and discuss what they learn. Encourage them to focus on explaining their thinking clearly to their partners. Tell them that you will ask them to report on their partner conversations at the end of the lesson.

2 Reread “Everyday Heroines” and Write About Text Features

Show the cover of *Great Women of the American Revolution* and ask:

Q *What do you remember about women’s participation in the American Revolution from yesterday’s reading? Turn to your partner.*

Have a few volunteers share what they remember. Have the students turn to *Student Response Book* pages 14–15, “Excerpt from *Great Women of the American Revolution*.” Read the chapter title aloud and explain that this is a copy of one of the chapters of the book they heard yesterday. Explain that you will read the chapter aloud and ask them to follow along as you read. After the reading, partners will write information they learned from the text features in the chapter and then share their findings with the class.

Reread pages 4–5 of the book aloud, slowly and clearly. When you finish, have the students think quietly about the following question as they examine and read the text features in the reprinted chapter:

Q *What information can you find out about women of the American Revolution by reading the text features on these pages?*

Without discussing as a class, have the students turn to *Student Response Book* page 13, “Five Things I Learned from the Text Features in the Excerpt,” and individually record five things they found out from looking at the text features.

Circulate among the students as they work, and randomly select students to observe.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to use all the text features?
- Are they able to make sense of the information in the text features?

Record your observations on the “Class Assessment Record” sheet (CA3); see page 10 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to use all the text features and make sense of the information in the text features, proceed with the lesson and the rest of the unit and then continue on to Unit 3.
- If **about half of the students** or **only a few students** are able to use all the text features and make sense of the information in the text features, you might give the class additional instruction by repeating this week’s lessons using an alternative book before continuing on to Unit 3. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

3 Share What the Students Learned as a Class

When the students have finished recording information from the text features, signal for their attention and ask the following questions. Remind the students to explain their thinking.

Q *What did you find out about women of the revolution? In which text feature did you find that information? Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

“Colonial women did a lot of housework. I learned that by looking at one of the pictures and reading the small print under it.”

“I found out that the two biggest groups were the Patriots and the Loyalists. That’s what it said in the chart.”

“By looking at the chart I found out that the British army was thought of as the most powerful army in the world in those days.”

“I found out that heroines are strong girls or women. I found that out by reading the definition in the little bar at the bottom of the page.”

Ask follow-up questions such as:

Q *[Grant] said he learned [the names of the major groups active in the war] from looking at [the chart]. What other information did you find in that text feature?*

Q *Why do you think the author included [captions]?*

Facilitation Tip

Reflect on your experience over the past three weeks with **asking open-ended questions** and **using wait-time**. Do these techniques feel comfortable and natural to you? Do you find yourself using them throughout the school day? What effect has their repeated use had on your students' thinking and participation in discussions? Continue to use and reflect on these techniques throughout the year.

Q *[DeShawn] said that heroines are strong girls or women. Why is it important for the reader to know that?*

Q *What can you add to what [Gina] said?*

4 Reflect on How the Students Explained Their Thinking

Facilitate a brief discussion about how partners worked together. Ask:

Q *How did explaining your thinking help you and your partner understand the text?*

Q *If your partner is having trouble explaining his or her thinking, what can you do to help?*

INDIVIDUALIZED DAILY READING

5 Read Independently and Discuss Text Features

Have the students get their texts and read silently for 15–20 minutes. Ask the students to think as they read about what text features they notice in their texts and what the text features help them learn.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 11) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN2); see page 15 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each student tell her partner the title of his text and the author's name, what the text is about, a text feature her text includes, and what information the text feature helped her learn. Then have the students return to their desks and put away their texts.

EXTENSION

Discuss What the Students Are Still Wondering

Show the students pages 4–5 of *Great Women of the American Revolution*, and remind the students that earlier they looked at the text features on these pages and wrote about what they learned from the text features. Review that expository texts often leave readers with additional questions. Ask:

Q *What questions do you have after looking closely at the text features on these pages?*

Students might say:

“Did women actually fight in battles?”

“I wonder how many Patriots there were compared to how many Loyalists there were.”

“I wonder what countries the mercenaries who fought for the British came from.”

“I wonder if women wore disguises when they crossed enemy lines.”

Write the heading “What We Are Wondering About the American Revolution” where everyone can see it; under the heading, write what the students are wondering. Have students who are interested do research on one or more of the topics. Ask the students to share the information they find.

TECHNOLOGY EXTENSION

Explore a Website About the American Revolution

Explain that authors of nonfiction sometimes tell readers where they can look to find more information about a topic. Show page 31 of *Great Women of the American Revolution* and explain that this section guides interested readers to a website that, in turn, leads to websites about the Revolutionary War. Tell the students that today they will explore one of the websites and then discuss what they learned.

Display your browser page and go to one of the recommended websites. Model navigating the website, and read aloud any information you think the students may find interesting. Afterward, discuss questions such as:

Q *What did you find out that interested you?*

Q *What did you learn that you’re curious to know more about?*

Technology Tip

Prior to doing this activity, follow the instructions on page 31 of *Great Women of the American Revolution* to locate Internet sites about the Revolutionary War. You might search online for additional age-appropriate websites using the keywords “American Revolution” or “women American Revolution.”

Materials

- *Great Women of the American Revolution*
- *Student Response Book* page 16
- “Text Features” chart from Week 2 and a marker
- “Reading Comprehension Strategies” chart

In this lesson, the students:

- Use text features to better understand and locate key information in an expository nonfiction book
- Read independently for 15–20 minutes
- Work in a responsible way

1 Introduce the Index of *Great Women of the American Revolution*

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Show the cover of *Great Women of the American Revolution* and review that the students looked at the table of contents and front and back covers to quickly get an idea of what information might be in the book. They also looked closely at text features in one chapter and recorded the information they found. Explain that today they will explore text features often found at the ends of expository books.

Show the index on page 32 and explain that many nonfiction books have an index. Explain that readers can use the index of a book to help them find specific information about topics mentioned in the book. Explain that the index is a list of topics related to the subject of the book. Each number after a word in the index is the number of a page where readers can find more information about that topic.

Have the students turn to *Student Response Book* page 16, and explain that this is a copy of the index for *Great Women of the American Revolution*. Use “Think, Pair, Share” to discuss:

 **Q** *What do you notice about the index?* [pause] *Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

“It has events in it, like battles and boycotts, but it also has the names of people and places, like Margaret Corbin and Fort Stanwix.”

“A person’s last name is first, then there’s a comma, and then there’s the first name, like ‘Bates, Ann.’”

“The list is in alphabetical order.”

“Some words have a lot of page numbers.”

2 Explore the Index in Pairs and as a Class

Tell the students that partners will look at the index in their *Student Response Books* together and circle one or two things they want to learn more about.

Give partners a few moments to look over the index; then have a few pairs share what they circled. Model using the index with topics the students circled by turning to one or two of the listed pages for each topic and locating where the topic is mentioned on the page. Read aloud the sentence containing the topic keyword(s) and, if appropriate, the next sentence or two.

Tell the students that the index in a nonfiction book helps readers quickly find all the places in the book where a topic is mentioned. Explain that readers often use the index if they have a question about a topic or want to find out more about it. Have the students look up “spying” in the index, and explain that you will read some of the referenced pages aloud. Read pages 18–19 and 21 aloud slowly and clearly, taking time to read the text features after you read the main text (do not read the timeline on pages 28–29; you will explore this with the students in Step 3).

Point out that the index in a nonfiction book can be very helpful for readers looking for information.

3 Briefly Explore Other Text Features

Show pages 28–31 of *Great Women of the American Revolution* and explain that these pages contain other text features often found at the ends of expository nonfiction books.

Point out the “Timeline of Women’s Contributions to the American Revolution” on pages 28–29 and explain that this is a timeline showing important events that happened during the revolution, organized in the order in which they happened. Tell the students that nonfiction books sometimes include timelines, charts, and graphs to explain or summarize information in the books.

Draw the students’ attention to the “Read More” section on page 31, and explain that this is a list of books about the American Revolution for readers who still have questions or want to find more information about the topic. Point to the “Internet Sites” section on page 31 and explain that this section guides interested readers to Internet sites that have useful information about the topic. Explain that a section in the back of a book that provides additional information about a subject is often called an *appendix*.

Show the glossary on page 30 and explain that a glossary is a list of words the author thinks readers might need to know to understand the book. Point out that it is organized like a dictionary; it lists the words in alphabetical order and tells what each word means.

Turn to page 22 and point out the word *Quaker*. Explain that it is in red print to let readers know they can look it up in the glossary to find out what it means. Turn back to the glossary and model using it by looking up *Quaker* alphabetically and reading the definition. Explain that sometimes, instead of appearing in red print, words defined in the glossary appear in the text in boldface or in italics (slanted type). Tell the students that such words are called *keywords*. Add *index*, *timeline*, *appendix*, *glossary*, and *keywords* to the “Text Features” chart.

4 Review Text Features

Review that over the past few weeks the students have explored and discussed text features in expository nonfiction books and articles. Refer to the “Reading Comprehension Strategies” chart and review that using text features is a comprehension strategy readers use to help them make sense of expository text. Ask:

Q *How do text features help readers? Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

“Text features give you more information about the topic.”

“If you have a question about what you’re reading, you might find the answer in a text feature.”

“Text features can help you understand what you are reading.”

Explain that in the coming weeks, the students will hear and read more expository nonfiction. Encourage them to use text features to help them understand what they read.

5 Discuss How Partners Acted Responsibly

Facilitate a brief discussion about the ways the students worked together. Ask:

Q *What did you do to be responsible while you were working with your partner today?*

Q *How did that help you work together?*

INDIVIDUALIZED DAILY READING

6 Read Independently and Discuss Text Features

Have the students get their texts and read silently for 15–20 minutes. Ask the students to think as they read about what text features they notice in their texts and what the text features help them learn.

Teacher Note

In Unit 3, the students are encouraged to read texts from any genre during IDR. If you have not met with all of your students to discuss the questions in this unit’s “IDR Conference Notes” record sheet, you may want to do so before beginning the next unit.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 11) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN2); see page 15 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each student tell his partner the title of his text and the author's name, what the text is about, a text feature his text includes, and what information the text feature helped him learn. Then have the students return to their desks and put away their texts.

WRITING ABOUT READING

Write Opinions About Heroines

Show the cover of *Great Women of the American Revolution* and remind the students that they heard this book earlier. Show pages 18–19 and 21 and remind the students that they heard about two women, Elizabeth Burgin and Ann Bates, who worked as spies during the Revolutionary War. Explain that you will reread the sections about these women aloud and also one other section about a third spy. Ask the students to think as they listen about which one is the most heroic and why. Read pages 18–19 aloud slowly and clearly (skipping the illustrations and captions but reading the “Fast Facts”). Then ask:

Q *What did you learn about Elizabeth Burgin?*

Write the students' ideas where everyone can see them, under the heading “Elizabeth Burgin.” Then read the main text on page 21, show the illustration, and read the accompanying caption (skip the “Fast Facts”). Ask:

Q *What did you learn about Ann Bates?*

Write the students' ideas where everyone can see them, under the heading “Ann Bates.”

Follow the same procedure to help the students learn about Lydia Darragh (pages 22–23).

Students might say:

“I learned that Elizabeth Burgin helped more than 200 Patriots escape from prison ships.”

“I learned that Ann Bates wore a disguise to sneak behind enemy lines.”

“I learned that Lydia Darragh figured out the British officers in her house were planning an attack. She listened to their discussion and then took the information to Washington's camp.”

Ask and briefly discuss:

Q *Which of these spies do you think is the most heroic? Why?*

Have a few volunteers share with the class. Tell the students that when they talk about which one of the spies they think is the most heroic, they are giving an opinion. Explain that people might have different opinions

Materials

- *Great Women of the American Revolution*

about the same thing and that this is fine. What matters is that they give reasons to explain their thinking. Then ask the students to watch as you think aloud and model writing about which spy you think is the most heroic.

You might say:

"I think Ann Bates is the most heroic of the three. I'll write: *I think Ann Bates is the most heroic of the spies we've read about. Now I will give a reason why I think she's the most heroic, based on what we've read. I'll write: I think so because she walked around in public wearing a disguise while she was gathering information about the Patriot army. I want to explain what exactly I think is heroic about that. I'll write: If anyone had recognized her, or if she had forgotten for even a moment to pretend she was a camp follower named Mrs. Barnes, she would have found herself in a lot of trouble and might even have put her life in danger.*"

Have the students write their own opinions about which spy is the most heroic and why. If time permits, invite the students to share their writing with the class.

EXTENSION

Read More About the American Revolution

Show the students the cover of *Great Women of the American Revolution* and remind them that they heard parts of this book earlier. Page through the book and have the students help you identify any parts of the book you have not yet read aloud. Read those parts aloud and discuss them.

You might also read aloud and discuss other books about the American Revolution and the roles women played in it. See the books listed in the "Read More" section on page 31 of *Great Women of the American Revolution*. Other titles include *They Called Her Molly Pitcher* by Anne Rockwell, illustrated by Cynthia von Buhler; *If You Lived at the Time of the American Revolution* by Kay Moore, illustrated by Daniel O'Leary; *Let It Begin Here! Lexington & Concord: First Battles of the American Revolution* by Dennis Brindell Fradin, illustrated by Larry Day; *When Washington Crossed the Delaware: A Wintertime Story for Young Patriots* by Lynne Cheney, illustrated by Peter M. Fiore; and *The American Revolution for Kids: A History with 21 Activities* by Janis Herbert.

In this lesson, the students:

- Read independently
- Use text features to better understand and locate key information in texts
- Write in their reading journals
- Analyze the ways they have been interacting
- Examine how they are handling books and materials

1 Review the Week

Have the students get their *Student Response Books*, pencils, and texts for independent reading and sit at desks with partners together. Remind the students that they have been exploring expository texts. Refer to the “Text Features” chart and review that the students created a list of text features. Ask:

Q *What have we learned this week about expository texts?*

2 Read Independently

Explain that today the students will read expository texts independently. Encourage them to think as they read about what they are learning about the topics, what text features they notice in their texts, and what they learn from the features.

Have the students read silently for 10–15 minutes. As they read, circulate among them and ask individual students to tell you what their texts are about and what text features, if any, they have noticed. You might probe their thinking with questions such as:

Q *What is the topic of this text?*

Q *What is one text feature on this page that adds to your understanding? What information does this feature give you?*

3 Write About Expository Texts

Signal to let the students know when it is time to stop reading. Display the “Journal Entry” chart (WA5) and tell the students that you would like them to each write a journal entry about the expository texts they read today. Explain your expectations for what the journal entry should include.

Materials

- “Text Features” chart from Day 3 and a marker
- “Journal Entry” chart (WA5)
- *Student Response Book*, Reading Journal section
- Copy of this unit’s family letter (BLM1) for each student

Teacher Note

This question gives you an opportunity to informally assess the students’ learning this week. To gauge their understanding, you may need to ask follow-up questions such as:

Q *What is the purpose of expository texts?*

Q *What kinds of expository texts have we looked at?*

Q *What text features have we identified?*

Q *How does noticing text features help us make sense of an expository text?*

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit’s Individual Comprehension Assessment.

ELPS 5.G.i

Step 3 (including ELL Note and first Teacher Note on page 100)

ELL Note

Consider having your students with limited English proficiency dictate journal entries for you to write down.

Teacher Note

If the students struggle to write, you might wish to model writing a journal entry, as you did in Week 1, Day 4 (Step 3).

Vocabulary Note

Next week you will revisit *Great Women of the American Revolution* to teach the Week 5 vocabulary lessons.

Teacher Note

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on page 103.

Journal Entry

Write a journal entry about the text you are reading. Please include:

- The title and the author’s name
- What the text is about
- What you learned in the part of the text you read today
- Any text features you noticed
- How the text features helped you better understand what you read

 Ask the students to think quietly about what they will write. After a moment, have partners take turns sharing what they plan to write about.

Give the students a few minutes to write in their journals.

If time permits, have a few volunteers share their journal entries with the class and show the text features they found in their reading. If the students identify text features that haven’t been discussed yet, add the features to the “Text Features” chart.

4 Reflect on the Reading Community

Use “Think, Pair, Share” to discuss:

 **Q** *What have you done to help create a caring and safe classroom community? [pause] Turn to your partner.*

Have a few volunteers share with the class. Probe their thinking with follow-up questions such as:

Q *What is working well during partner and class discussions? During independent reading? What do you think we need to work on?*

Q *How are we handling and sharing the class library books? What do you think we need to work on?*

Students might say:

“I help create a caring community by listening quietly and waiting for people to finish speaking before I say something.”

“Sometimes I let my partner do all the thinking and talking. I need to be more responsible and share my thinking with my partner.”

“Some people keep books for a really long time, which makes it hard if I want to read one of those books.”

 Explain that in the next lesson, the students will be starting a new unit and working with new partners. Give the students time to thank their partners for working with them during this unit. Have the students put away their materials.

EXTENSIONS

Create a Timeline of Important Classroom Events

Show the students the cover of *Great Women of the American Revolution* and remind them that they heard parts of this book earlier. Point out the “Timeline of Women’s Contributions to the American Revolution” on pages 28–29 and review that this is a timeline showing important events that happened during the revolution, organized in the order in which they happened.

Explain that together the class will make a timeline of important events that have happened in the classroom this year. Have the students brainstorm events, both scheduled and unscheduled, that they consider important to the classroom community. Write their ideas where everyone can see them. Have the students add dates to the events. Then, using the timeline in *Great Women of the American Revolution* as a model, invite the students to organize the events chronologically in a timeline.

You might post the timeline in the classroom and have the students add to it periodically during the school year.

Analyze Paired Texts About Spies in the American Revolution

If the students enjoyed learning about women who worked as spies during the American Revolution, you might extend the exploration by reading aloud and discussing a fictional treatment of the subject, *Sophia’s War* by Avi. *Sophia’s War* is a carefully researched work of historical fiction that tells the story of 12-year-old Sophia, who becomes a revolutionary spy against the British.

Show the cover of *Great Women of the American Revolution* and remind the students that they heard parts of this book earlier. Ask and briefly discuss:

Q *What are some facts you learned from this book about women who were spies during the American Revolution?*

Q *What do you still wonder about this topic?*

Tell the students that over the next few weeks they will hear a fictional account of a 12-year-old girl who was a spy during the American Revolution. Show the cover of *Sophia’s War* and read the title and the author’s name aloud. Point out that fiction authors are free to mix facts with invention (things they have made up), which means that works of fiction are not necessarily factually correct. But fiction can help readers understand what people at certain times in history might have felt, thought, and experienced. Fictional accounts of history can offer an

Teacher Note

Alternatively, you might invite the students to make timelines of important events in their lives. If you do this, you might encourage the students to ask their parents to help them identify key dates in their personal timelines.

Teacher Note

The novel *Sophia’s War*, which is suggested for use in this extension, is a lengthy novel. Preview the novel and the extension and plan time over the next several weeks to read the novel aloud to the students. Then follow the instructions in the extension to introduce and read the novel aloud in sections. After you have finished reading the novel, have the students compare it to *Great Women of the American Revolution*.

For support with teaching novels, see Unit 4, “Analyzing Text Structure.”

Teacher Note

You might have the students record what they learned about female spies during the American Revolution in a double-entry journal. You might have them title one column “What I Learned About Female Spies in the American Revolution from a Nonfiction Book” and the other column “What I Learned About Female Spies in the American Revolution from a Fiction Book.”

Teacher Note

Prior to doing this activity, you will need to visit the CCC Learning Hub (cccllearninghub.org) to access and print “Index from *Rainforests*” (BLM2). Make enough copies for each student to have one, and set aside a copy for yourself.

“inside look” into a time and place in a way that expository nonfiction books cannot. Ask and discuss:

Q *Keeping in mind that fiction does not always stick to the facts, what might you learn about female spies during the American Revolution from a fictional account?*

Have volunteers share their thinking.

Read aloud a section of the novel, stopping periodically to ask the students what they are learning about female spies in the American Revolution. Ask questions such as:

Q *What have you learned so far about how it might have felt to be a female spy in the American Revolution?*

Q *What has been especially surprising or interesting so far?*

Repeat this procedure over several weeks to read the entire novel.

After you have finished reading the novel, take some time to review what the students learned from *Sophia’s War* and what they learned from *Great Women of the American Revolution*. Encourage the students to compare the two texts and make text-to-text connections. Ask questions such as:

Q *How are the books *Great Women of the American Revolution* and *Sophia’s War* the same? How are they different?*

Q *How is each book organized?*

Q *Which book did you like better? Why?*

TECHNOLOGY EXTENSION

Research and Write About Rainforests

Show the cover of *Rainforests* and remind the students that they heard this book earlier. Explain that the students will explore things about rainforests that they are curious to know more about. Distribute copies of “Index from *Rainforests*” (BLM2) and ask:

Q *What do you notice about how the information in this index is organized?*

Q *What items in this index are you curious to learn more about?*

Use the students’ suggestions to look up a few items in the book and read about them aloud. Then ask:

Q *What is something you have learned about [rainforest birds]?*

Next, as a class, brainstorm some questions the students still have regarding the items you read about; write the questions where everyone can see them. Briefly discuss what keywords might be useful in an Internet search to answer these questions (for example, “kids save rainforests,” “rainforest birds,” or “rainforest plants”).

Guide the students in an online search for reputable websites with relevant information. As a class, browse the websites to find information and images that answer the students' questions. After the search is finished, briefly discuss:

Q *What is something else you have learned about [rainforest birds]?*

You might have the students work in pairs to create posters or flyers about what they learned, using various text features to help make the information clear and engaging. If time permits, have the students share their writing with the class.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of Unit 2. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit's family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

Assessment

- Before continuing on to the next unit, take this opportunity to assess individual students' reading comprehension using the "Individual Comprehension Assessment" record sheet (IA1); see page 16 of the *Assessment Resource Book*. For more information, see "Individual Comprehension Assessment" in the Assessment Overview of the *Assessment Resource Book*.
- You might record your students' progress over the course of the year using the "Individual Comprehension Assessment Class Record" sheet (CR2); see page 159 of the *Assessment Resource Book*.
- You might record each student's progress over the course of the year using the "Individual Comprehension Assessment Student Record" sheet (SR2); see page 158 of the *Assessment Resource Book*.

Teacher Note

For more information, view "Using the Individual Comprehension Assessment" (AV31).

Unit 3

Questioning

EXPOSITORY NONFICTION

During this unit, the students read expository text as they continue an across-grades exploration of animal life. In grade 5, the students focus on big cats and the challenges they face as endangered species. The students use schema to articulate all they know about the topic before they read. They learn the procedure for “Stop and Ask Questions” and use questioning to help them make sense of texts. During IDR, the students practice questioning as they read nonfiction texts independently, write in their reading journals, and continue to confer with the teacher individually about their use of comprehension strategies. They also review self-monitoring and learn “fix-up” strategies (rereading and reading ahead) that they can use when they don’t understand what they have read. Socially, they continue to develop the skill of explaining their thinking and they learn discussion prompts to help them listen and build on one another’s ideas during discussions. They continue to analyze the effect of their behavior on others and to work in a responsible way.

Week 1

OVERVIEW

Big Cats*

by Seymour Simon

Readers learn about the characteristics and habits of the world's largest cats and the challenges big cats face as endangered species.

**This book is also used in Week 2.*

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA3

Assessment Forms

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)

Reproducible

- (Optional) “Excerpt from *Big Cats*” (BLM2)

Professional Development Media

- “Asking Questions Once and Using Wait-time” (AV25)

Comprehension Focus

- Students use questioning to help them make sense of texts.
- Students use schema to articulate all they think they know about a topic before they read.
- Students read independently.

Social Development Focus

- Students analyze why it is important to be respectful.
- Students develop the skill of explaining their thinking.

Ⓜ DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding. Take time to show and discuss the text features.
- ✓ Make available expository nonfiction and functional texts at a variety of levels so that the students can practice using questioning during IDR and Independent Strategy Practice throughout the unit.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit.
- ✓ Prior to Day 1, make a class set of “IDR Conference Notes” record sheets (CN1); see page 31 of the *Assessment Resource Book*.
- ✓ Prior to Day 2, prepare a sheet of chart paper with the title “Questions About Big Cats” and another sheet of chart paper with the title “Words That Can Begin Questions.”
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1); see page 26 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 5 lessons this week.

Materials

- *Big Cats* (pages 4–11)
- *Rainforests* from Unit 2
- “What We Wonder About Big Cats” chart (WA1)
- Class set of “IDR Conference Notes” record sheets (CN1)
- *Assessment Resource Book* page 28
- “Thinking About My Reading” chart
- “Reading Comprehension Strategies” chart
- Self-stick notes for each student

In this lesson, the students:

- Begin working with new partners and explain their thinking
- Hear and discuss part of an expository nonfiction book
- Brainstorm what they think they know about a topic
- Generate “I wonder” statements about the topic
- Use wondering to make sense of the book
- Read independently for 20–25 minutes

ABOUT BUILDING A BODY OF KNOWLEDGE ABOUT ANIMAL LIFE

In each grade of the *Making Meaning* program, the students apply the strategy of wondering or questioning to a set of nonfiction texts on the topic of animal life. Exploring a topic within and across grades enables the students to systematically build a body of knowledge about the topic. In kindergarten, the focus of each text is on animal young. In grade 1, the students learn about the wide variety of animal life in the world and are introduced to the concept of habitat, which is then further explored in grades 2 and 3. In grade 4, the focus shifts to animal senses, and in grade 5 the students learn about big cats and the challenges they face as endangered species.

1 Pair Students and Get Ready to Work Together

Randomly assign partners and make sure they know each other’s names. Gather the class with partners sitting together, facing you. Explain that during today’s lesson, partners will talk about a book that you read aloud. Encourage the students to focus on explaining their thinking clearly to their partners. You will ask them to report on their partner conversations at the end of the lesson.

2 Review Expository Nonfiction and Introduce the Topics of Big Cats and Endangered Species

Remind the students that during the past few weeks they have explored a kind of nonfiction called *expository nonfiction*. Review that expository nonfiction texts give factual information and are usually about particular topics. They often include features that help the reader locate information in the texts and understand the topics better. Show the cover of *Rainforests* and review that the students heard part of the

book and explored text features in it and in other expository texts (two articles and the book *Great Women of the American Revolution*).

Point to the leopard on the cover of *Rainforests*. Explain that this is a leopard and that a leopard is one of a group of animals known as “big cats.” In the next two weeks, the students will use an expository nonfiction book to learn about big cats, including the challenges big cats face as endangered species. If necessary, explain that *endangered* means “few in number and in danger of disappearing forever.”

3 Introduce *Big Cats* and List “I Wonder” Statements

Show the cover of *Big Cats* and read the title and the author’s name aloud. Explain that the book tells about seven members of the big cats family: tigers, lions, leopards, jaguars, pumas, cheetahs, and snow leopards. Write the names of the big cats where everyone can see them.

Tell the students that you will read the book in sections, and explain that today you will read about some similarities and differences among the big cats. Ask:

Q *What do you think you know about big cats?*

Have a few volunteers share their thinking. Use “Think, Pair, Share” to discuss:

Q *Based on what you think you know, what do you wonder about big cats?*
[pause] *Turn to your partner.*

Have a few volunteers share their thinking. Display the “What We Wonder About Big Cats” chart (WA1) and list a few of the students’ ideas on the chart as they generate them. Write each response as an “I wonder” statement.

What We Wonder About Big Cats

- I wonder how lions kill their prey.
- I wonder which cat can run the fastest.
- I wonder why big cats are endangered.

WA1

Explain that after you read part of the book today, the students will talk about their “I wonder” statements and what they have learned from the reading.

4 Read Part of *Big Cats* Aloud

Read pages 4–11 aloud slowly and clearly, showing the photographs and stopping as described on the next page. Clarify vocabulary as you read.

TEKS 6.B.iv
Student/Teacher Activity
Steps 4 and 5

TEKS 6.B.ii
Student/Teacher Narrative
Step 3

ELPS 4.D.i
Step 3

Teacher Note

Listing only a few responses will keep the lesson moving. The students will have opportunities during the reading to add “I wonder” statements to the chart.

If the students have difficulty generating “I wonder” statements, suggest some such as those listed on the diagram.

Teacher Note

Listen while partners talk. Check to see whether they are referring to the book and explaining their thinking.

Suggested Vocabulary

grace: beauty of movement (p. 4)

domestic: tame; not wild (p. 6)

temperate climates: mild climates (p. 6)

canine teeth: sharply pointed teeth on either side of the front teeth (p. 8)

retracted: drawn in (p. 8)

sheaths: protective coverings (p. 8)

ELL Vocabulary

It may be helpful to point out to English Language Learners that some words from the reading are defined in the text (for example, the word *carnivores* on p. 8) and that they should listen for these. They also may benefit from hearing additional vocabulary defined, including:

prey: animals hunted by other animals for food (p. 4)

extended: stretched out (p. 4)

stunning force: a lot of power (p. 4)

roar: make a loud sound with the mouth (p. 4)

purr: make a soft, low sound with the mouth (p. 4)

tame: not wild (p. 4)

tropics: areas near the equator that have hot climates (p. 6)

Stop after:

p. 4 "In this book, we'll call all seven kinds 'big cats.'"

Ask:

Q *What have you learned about big cats so far? Turn to your partner.*

Have two or three volunteers share their ideas with the class. Briefly refer to the "What We Wonder About Big Cats" chart and ask the class:

Q *Which "I wonder" statements have been explained in the reading so far?*

Q *What else do you wonder?*

Have a few volunteers share their thinking and quickly record any additional "I wonder" statements on the chart. Reread the last sentence before the stop and continue reading. Follow this same procedure at the next two stops:

p. 6 "Though their sizes and the environments in which they live can be very different, the big cats are alike in many ways."

p. 10 "A cat's senses are very keen, and it can detect its prey at a distance or at night."

Continue reading to the end of page 10. Have partners discuss what they have learned.

5 Discuss the Reading and “I Wonder” Statements

Facilitate a discussion about the reading. Be ready to reread passages and show photographs again to help the students recall what they heard. Ask:

Q *What did you hear about the similarities among big cats? The differences?*

Students might say:

“The cats are excellent hunters.”

“They all have sharp teeth and claws.”

“Only some kinds of cats can roar.”

“Some big cats live in cold climates; others live in rainforests.”

Q *How do big cats’ senses help them hunt prey?*

Students might say:

“They can turn their ears in different directions to help them figure out where their prey is.”

“They have whiskers that help them feel their way in the dark.”

“They see really well in the dark.”

Refer to the “What We Wonder About Big Cats” chart and ask:

Q *Which “I wonder” statements got you thinking today as you listened to the reading? How?*

Explain that learning to wonder and question while reading will help the students think carefully about what they are reading and look for answers to their questions as they read. Tell the students that you will read more from *Big Cats* tomorrow, and the students will have another opportunity to think about their questions about big cats.

6 Reflect on How the Students Explained Their Thinking

Facilitate a discussion about how partners did explaining their thinking. Ask:

Q *Why was it important today to explain your thinking clearly to your partner and during the class discussion?*

Facilitation Tip

During this unit, we invite you to practice **asking questions once** and then **using wait-time**. This means not repeating the question or asking it again in a different way; it means just asking the question once and then using wait-time to give the students time to think before you call on anyone to respond. If the students are confused by a question or need to hear it again, encourage them to ask you to repeat or rephrase the question. This builds student responsibility for focusing on the discussion and helps the students develop the habit of listening the first time. To see this Facilitation Tip in action, view “Asking Questions Once and Using Wait-time” (AV25).

Teacher Note

Save the “What We Wonder About Big Cats” chart (WA1) to use on Day 2.

INDIVIDUALIZED DAILY READING

Teacher Note

During IDR today and tomorrow, the students learn and practice two “fix-up” strategies they can use when they do not understand what they have read: rereading and reading ahead. To provide the students with additional support with using these and other “fix-up” strategies you might teach all or part of IDR Mini-lesson 2, “Self-monitoring and Using ‘Fix-up Strategies’” (found in Appendix A).

ELPS 4.F.i
Step 7

ELL Note

Help your English Language Learners choose books at appropriate levels. Providing a limited number of teacher-selected texts will help them make good choices.

TEKS 6.A.ii
Student/Teacher Narrative
Step 7 (first three paragraphs)

Teacher Note

Base the length of time the students are reading independently on their attention and engagement. Gradually add time as your students are ready. The goal is for them to read independently for up to 30 minutes by Unit 5.

7

Introduce “Fix-up” Strategies

Tell the students that for the next two weeks they will continue reading nonfiction texts during IDR.

Direct the students’ attention to the “Thinking About My Reading” chart and remind the students that it is important for them to check their comprehension as they are reading. Tell the students that there may be times when they ask themselves the questions on the chart and realize that they do not understand what they have read. Explain that today they will learn a couple of strategies, or tools, that they can use in these situations. Explain that these strategies are called “fix-up” strategies because using the strategies may help to “fix” the problem.

Tell the students that one thing a student can do when he does not understand something he has read is to reread that part slowly and carefully. Explain that slowing down and carefully rereading a sentence or paragraph that is unclear may “fix” the problem. If it does not, another strategy the student can try is reading ahead and looking for more information. Explain that by reading ahead, the student may come upon facts, descriptions, details, or other information that clears up what was confusing him.

Distribute self-stick notes to each student. Tell the students that as they read today, you want them to pause occasionally and ask themselves if they understand what they are reading. If a student does not understand what she is reading, she should mark the place in the text that she does not understand with a self-stick note and then try one or both of the strategies learned today—rereading and reading ahead—to see if the strategies help her understand what she is reading. Explain that at the end of IDR you will check in with the students to see how they did with using “fix-up” strategies. Then have the students get their books and read silently for 20–25 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Beginning today, and continuing throughout the unit, confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 28) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 31 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask and discuss:

Q *Was there any part of your reading that you did not understand today? Tell us about it.*

Q *What “fix-up” strategy did you try? What happened when you [reread/read ahead]?*

If a student has tried both of the “fix-up” strategies and still does not understand the text he is reading, refer him to the “Reading Comprehension Strategies” chart and encourage him to try the strategy listed on it. Alternatively, you might encourage the student to ask you or a classmate for help.

Have the students return to their desks and put away their texts.

Teacher Note

Provide time on a regular basis for the students to record the books they have completed in their reading logs.

Read-aloud/Strategy Lesson

Day 2

In this lesson, the students:

- Hear and discuss part of an expository nonfiction book
- Ask questions about the book using *who, what, where, when, why, and how*
- Use questioning to make sense of the book
- Read independently for 20–25 minutes
- Explain their thinking

ABOUT QUESTIONING

Questioning is an effective comprehension strategy because it helps readers actively engage with text and think about an author’s intent. The students externalize their thinking by discussing their questions in Week 1 and writing them in Week 2. The eventual goal is for the students to internalize the strategy of forming questions and reading for answers and to use the strategy regularly to make sense of their independent reading. For more information, see “The Grade 5 Comprehension Strategies” in the Introduction.

1 Introduce Questioning and Restate “I Wonder” Statements as Questions

Gather the class with partners sitting together, facing you. Display the “What We Wonder About Big Cats” chart (WA1) from Day 1 and remind the students that they have been using “I wonder” statements to

Materials

- *Big Cats* (page 13)
- “What We Wonder About Big Cats” chart (WA1) from Day 1
- “Questions About Big Cats” chart, prepared ahead, and a marker
- “Words That Can Begin Questions” chart, prepared ahead
- “Reading Comprehension Strategies” chart
- “Thinking About My Reading” chart
- Self-stick notes for each student

ELPS 3.F.i

Steps 1–4 and the Teacher Note on page 119

Teacher Note

If the students have difficulty rephrasing their “I wonder” statements as questions, choose several statements from the “What We Wonder About Big Cats” chart (WA1) and model rephrasing them.

Teacher Note

The students may suggest a number of other words, including *if*, *do*, *is*, *are*, and *what if*. Record the students’ suggestions on the “Words That Can Begin Questions” chart.

Teacher Note

Save the “Words That Can Begin Questions” chart to use throughout the unit.

help them think about text. Explain that thinking about the “I wonder” statements has prepared them to learn a strategy that good readers use to make sense of text: *questioning*. Explain that questioning involves asking questions to help you pay close attention to what you are reading.

Point out that some of the statements have already been discussed in the reading. Ask:

Q Which “I wonder” statements are we still curious about?

Q How can we restate those “I wonder” statements as questions?

Have a few volunteers share their thinking. Direct the students’ attention to the “Questions About Big Cats” chart and record their questions on it.

Questions About Big Cats

How do big cats kill their prey?

Where do big cats go at night?

Why are big cats endangered?

After a few volunteers have shared their thinking, point out that the words *who*, *what*, *when*, *where*, *why*, and *how* are commonly used to begin questions. Direct the students’ attention to the “Words That Can Begin Questions” chart and list these question words on it. Ask:

Q What other words can begin questions?

2 Ask Questions About Today’s Reading

Explain that the section of *Big Cats* you will read aloud today is about how big cats raise their young. Ask:

Q Using words on our “Words That Can Begin Questions” chart, what questions can we ask about how big cats raise their young?

Have a few volunteers share their thinking. Add their questions to the “Questions About Big Cats” chart, and tell the students to listen for information about the questions as you read aloud.

3 Read Part of *Big Cats* Aloud

Read page 13 aloud slowly and clearly, showing the photograph on page 12 and stopping as described on the next page. Clarify vocabulary as you read.

Suggested Vocabulary

nuzzle: gently push against one another for comfort (p. 13)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

litters: groups of animals born at the same time to one mother (p. 13)

nursing: feeding babies milk from a mother's body (p. 13)

Stop after:

p. 13 "By now, the cubs' eyes have opened and their weight has more than doubled."

Ask:

Q *What have you learned so far about how big cats raise their young? Turn to your partner.*

After a moment, refer to the "Questions About Big Cats" chart and ask:

Q *What questions have been discussed in the reading so far?*

Q *What other questions could we ask at this point?*

Have a few volunteers share their thinking and quickly record additional questions on the chart.

Students might say:

"When do baby pumas lose their spots?"

"How are cubs protected when their mother is out hunting?"

"How long does it take for a baby puma to grow into an adult?"

Without stopping to answer the questions, reread the last sentence before the stop and continue reading to the end of page 13.

4 Discuss the Reading and the Students' Questions

Facilitate a discussion about the reading and the students' questions. Be ready to reread passages and to show photographs again to help the students recall what they heard. Ask:

Q *What is one thing you learned from the reading today?*

Q *What did you learn about big cats' cubs?*

Refer to the "Questions About Big Cats" chart and ask:

Q *Which of these questions were discussed in the reading today? How were they discussed?*

Q *How did asking these questions help you pay close attention to the reading?*

Q *Which questions were not discussed? How do you know?*

Teacher Note

The intent in this part of the lesson is to help the students get in the habit of generating questions. Have them generate *any* questions they can think of related to the reading. Accept their questions without discussion. Hearing others' questions gives the students examples of the kinds of questions that can be asked.

If a student offers an idea that is not in the form of a question, ask the class, "How can we state that idea as a question?"

5 Add *Questioning* to the “Reading Comprehension Strategies” Chart

Point out that questioning can be especially useful when reading expository texts like *Big Cats*, which are full of information that can be hard to understand or remember. Direct the students’ attention to the “Reading Comprehension Strategies” chart and add *questioning* to it.

Reading Comprehension Strategies

- using text features
- questioning

Remind the students that the chart is meant to help them remember the comprehension strategies they have learned so they can practice the strategies in their own reading. Explain that they will continue to explore questioning in the coming weeks, and encourage them to look for opportunities to ask questions as they read independently.

INDIVIDUALIZED DAILY READING

6 Review and Practice Using “Fix-up” Strategies

Direct the students’ attention to the “Thinking About My Reading” chart and remind the students that it is important for them to check their comprehension as they are reading. Remind the students that yesterday they learned a couple of “fix-up” strategies, tools a student can use when he does not understand what he has read. Review that one strategy is to reread the part of the book he does not understand slowly and carefully. Another strategy is to read ahead and look for more information.

Distribute self-stick notes to each student. Tell the students that as they read today, you want them to pause occasionally and ask themselves if they understand what they are reading. If a student does not understand what she is reading, she should mark the place in the text that she does not understand with a self-stick note and then try one or both of the “fix-up” strategies—rereading and reading ahead—to see if the strategies help her understand what she is reading. Explain that at the end of IDR you will check in with the students to see how they did with using “fix-up” strategies. Then have the students get their books and read silently for 20–25 minutes. After they have settled into their reading, confer with individual students.

TEKS 6.A.ii
TEKS 6.I.ii
Student/Teacher Activity
Step 6

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 28) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 31 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask and discuss:

- Q *Was there any part of your reading that you did not understand today? Tell us about it.*
- Q *What “fix-up” strategy did you try? What happened when you [reread/read ahead]?*

If a student has tried both of the “fix-up” strategies and still does not understand the text he is reading, refer him to the “Reading Comprehension Strategies” chart and encourage him to try the strategies listed on it. Alternatively, you might encourage the student to ask you or a classmate for help.

Have the students return to their desks and put away their texts.

EXTENSION

Ask Questions in Content-area Reading

When you read as a class in your social studies, science, or other textbooks, have the students practice asking questions using the words on the “Words That Can Begin Questions” chart. Have partners share their questions with each other; then have them share their questions with the class. Write the questions where everyone can see them, and facilitate a discussion about how those questions are addressed in the reading.

Day 3

Read-aloud/Strategy Lesson

Materials

- *Big Cats* (pages 19–23)
- “Words That Can Begin Questions” chart from Day 2
- “Questions About Lions” chart (WA2)

Teacher Note

In the *Making Meaning* program, showing respect for a range of opinions and ideas is an important part of developing reading comprehension. It allows the students to discuss their reading and their use of comprehension strategies safely and openly, both with partners and with the class. If the students have difficulty offering ideas for ways to show respect for their partners' thinking, give several suggestions yourself.

Teacher Note

If necessary, review the “Words That Can Begin Questions” chart.

In this lesson, the students:

- Hear and discuss part of an expository nonfiction book
- Brainstorm what they think they know about a topic
- Use questioning to make sense of the book
- Read independently for 20–25 minutes
- Explain their thinking
- Act respectfully toward their partners

1 Discuss Showing Respect for Partners

Gather the class with partners sitting together, facing you. Explain that today you will read more from *Big Cats*, and the students will talk about the reading in pairs. Ask:

Q *If your ideas are different from your partner's, how can you show that you respect your partner's thinking?*

Students might say:

“I can say ‘That’s an interesting idea.’”

“I can look at my partner while she’s talking and not get distracted.”

“I can really focus on what he’s saying instead of just waiting for it to be my turn to talk.”

Q *How does not showing respect for your partner's thinking get in the way of partners working together?*

Students might say:

“If my partner doesn’t respect what I’m thinking about, it hurts my feelings.”

“When partners don’t respect each other, they don’t want to work together.”

“Partners who don’t respect each other might not get their work done because they don’t want to help each other.”

Encourage the students to be aware of how they are showing respect for their partners during this lesson.

2 Introduce the Reading and List Questions

Show the cover of *Big Cats* and review that the students practiced asking questions about the first section of the book.

TEKS 6.B.i
TEKS 13.A.iv
Student/Teacher Narrative
Step 2

Explain that today’s reading focuses on lions. Ask:

Q *What do you think you know about lions?*

Have a few volunteers share their thinking. Then ask:

Q *What questions do you have about lions? Turn to your partner.*

Display the “Questions About Lions” chart (WA2) and list a few of the students’ ideas on the chart as they generate them. Do not take time to discuss the questions now.

Questions About Lions

- How big is the biggest lion?
- Where do lions live, besides in zoos?
- How do lions kill their prey?

WA2

Explain that, as in the previous lesson, you will stop during the reading to have partners talk and think of other questions.

3 Read Part of *Big Cats* Aloud and Ask Questions

Read pages 19–23 aloud slowly and clearly, showing the photographs and stopping as described below. Clarify vocabulary as you read.

Suggested Vocabulary

rival: competing (p. 21)

suckle: feed with milk (p. 21)

lying in wait: (idiom) staying still and quiet in order to attack by surprise (p. 22)

once a kill has been made: once the lions have killed an animal (p. 22)

remains: the parts of the prey that are left over after the stronger lions have eaten (p. 22)

ELL Vocabulary

You might remind English Language Learners that some words from the reading are defined in the text (for example, the word *solitary* on p. 21) and that they should listen for these. They also may benefit from hearing additional vocabulary defined, including:

noble: splendid; wonderful (p. 19)

core: most important part; center (p. 21)

Stop after:

p. 21 “But lions are different because they are sociable—they live in groups called ‘prides.’”

Teacher Note

Notice how well partners are talking and listening to each other. Look for examples of students being respectful of others’ thinking. Share these with the class at the end of the lesson.

Teacher Note

You will not read aloud pages 14–17, which discuss tigers. These pages are featured in the extension “Read About Tigers and Discuss Questions” on page 131.

Ask:

Q *What have you learned in the part you just heard? Turn to your partner.*

After a moment, refer to the “Questions About Lions” chart and ask:

Q *What questions have been discussed in the reading so far?*

Q *What other questions could we ask?*

Quickly write additional questions on the chart. Without answering the questions at this point, reread the last sentence before the stop and continue to the next stopping point. Follow this procedure at the following stop:

p. 22 “While most of the other big cats live in dense forests, swamps, or tropical rainforests, lions usually live in wide-open plains.”

Continue reading to the end of page 22, showing the photograph on page 23.

4 Discuss the Reading and the Students’ Questions

Facilitate a discussion about the reading and the students’ questions. Be ready to reread passages and show photographs again to help the students recall what they heard. Ask:

Q *What was this reading about?*

Refer to the “Questions About Lions” chart, and ask:

Q *What did we find out in the reading about some of our questions?*

Students might say:

“Lions can be up to 10 feet long and can weigh more than 400 pounds.”

“They live in parts of Africa and in a forest in India.”

“They work together to kill their prey. Females do most of the hunting.”

Explain that the students will revisit their list of questions about lions tomorrow.

5 Discuss How Partners Showed Respect for Each Other

Facilitate a brief discussion about how partners worked together. Point out some ways you saw the students being respectful during the lesson.

You might say:

“Some partners did not interrupt each other. They did not criticize each other’s questions. They looked interested in what each other was saying.”

Teacher Note

Save the “Questions About Lions” chart (WA2) to use on Day 4.

Ask questions such as:

- Q *What else did you do today to show that you respect your partner's thinking?*
- Q *How did your partner show that he or she respects your thinking?*
- Q *How was that helpful to your work today?*

INDIVIDUALIZED DAILY READING

6 Read Independently and Ask Questions

Have the students get their texts. Ask them to think quietly about questions they have about the topics of their texts. Ask the students to think as they read about whether their texts discuss their questions. Tell the students that at the end of IDR you will ask them to share their questions with partners. Have them read silently for 20–25 minutes. After the students have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 28) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 31 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each student tell her partner the title of her text, the author's name, what the text is about, questions she had about the topic of her text, and whether the text discusses the questions. After partners have had a chance to share, discuss as a class:

- Q *What did your partner share with you today about his or her reading?*

Remind the students that the purpose of sharing their partners' thinking is to help them develop their listening skills. Have the students return to their desks and put away their texts.

TEKS 6.B.i

Student/Teacher Activity
Step 6

TEKS 6.B.ii

Student/Teacher Activity
Step 6

(first paragraph, second sentence)

Technology Tip

Prior to doing this activity, locate a few age-appropriate sources that provide information about Seymour Simon. Search for information online using the keywords “biography Seymour Simon” or “about Seymour Simon.” You might wish to bookmark the web pages that you will share with your students in your browser.

TECHNOLOGY EXTENSION

Meet the Author: Seymour Simon

The students may be interested in learning more about Seymour Simon, the award-winning author of *Big Cats* and hundreds of other books. Tell the students that Seymour Simon started writing children’s books in 1968, while he was a middle school science teacher in New York City. Ask:

Q *What else would you like to know about Seymour Simon?*

Have a few volunteers share their thinking. As they respond, record their ideas where everyone can see them. Display the online sources you located that contain information about Seymour Simon and read those sections aloud. Ask:

Q *What is something you learned about Seymour Simon?*

Day 4

Guided Strategy Practice

Materials

- *Big Cats*
- “Questions About Lions” chart (WA2) from Day 3
- *Student Response Book* pages 17–18
- “Class Assessment Record” sheet (CA1)
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA3)

In this lesson, the students:

- Read and discuss part of an expository nonfiction book
- Use questioning to make sense of the book
- Read independently for 20–25 minutes
- Write in their reading journals
- Explain their thinking
- Act respectfully toward their partners

1 Discuss Respect for Differing Opinions

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Explain that today partners will talk again about questions they have about lions and how those questions are addressed in the text. Point out that partners may have differing opinions about the questions and how they are answered. Remind them that respecting the other person’s thinking, even if they disagree, is part of being a good partner. Tell them that you will ask them how they did at the end of the lesson.

2 Focus on Questions About Lions

Show the cover of *Big Cats* and remind the students that they heard about lions and asked questions before and during the reading to help them better understand the text. Explain that today the students will practice using questions as they read the passage about lions themselves. Display the “Questions About Lions” chart (WA2) and ask:

Q Which of these questions do you remember being discussed in the reading yesterday? Which were not discussed?

Q Which questions are we still curious about?

Circle the questions that the students are still curious about; then add the following two questions to the chart (or if they are already on the chart, circle them):

Why do lions live in groups?

What is a lion's favorite thing to eat?

Explain that you have been thinking about these two questions about lions and that you would like the students to read for information about these questions, as well as others they are still curious about, as they read the passage about lions today.

Have the students turn to *Student Response Book* page 17, “Excerpt from *Big Cats* (1).” Ask them to underline sentences that discuss the two questions and to be ready to share their thinking with their partners and the class.

3 Read for Answers Using an Excerpt

Have the students read the excerpt and underline sentences independently.

After the students have had sufficient time to read the excerpt and underline sentences, have pairs discuss what they found out about the circled questions. Circulate as partners talk. Listen for evidence that they understand the text and that they are looking for information about the questions as they read.

CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students understand the text?
- Are they underlining sentences that address the questions?

(continues)

Teacher Note

The students may not remember many details from the reading after hearing it just once. This question is intended only to stimulate their thinking and prepare them to read the passage on their own.

Teacher Note

The first question you added to the chart is answered in the passage; the second question is not.

ELL Note

Have students who have trouble reading the excerpt independently read it with their partners, or read it aloud yourself as they follow along.

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit's Individual Comprehension Assessment.

CLASS ASSESSMENT NOTE *(continued)*

Record your observations on the “Class Assessment Record” sheet (CA1); see page 26 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are underlining passages that address the questions and show evidence that they understand the text, proceed with the lesson and continue on to Week 2.
- If **about half of the students** are underlining passages that address the questions and show evidence that they understand the text, continue on to Week 2 and plan to monitor the students who are having difficulty during independent reading. You might have a student read a short passage from his book aloud to you and think of a question he could ask at that point in the reading. Then have the student continue reading for a while and check in with him to see if his question was discussed.
- If **only a few students** are underlining passages that address the questions and show evidence that they understand the text, you might do the extension “Read About Tigers and Discuss Questions” on page 131 before continuing on to Week 2. Another option is to repeat this week’s lessons using an alternative book; visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

4 Discuss the Reading and the Students’ Questions

Facilitate a discussion about the reading and the students’ questions by asking:

- Q *What information did you find about the question “Why do lions live in groups?” Read a sentence that you underlined aloud.*
- Q *Do others agree that this question is answered in this way? Why or why not?*
- Q *What information did you find about the question “What is a lion’s favorite thing to eat?” What does the excerpt say about a lion’s eating habits?*
- Q *How did thinking about the questions as you read the excerpt help you pay close attention to the text?*

Remind the students that *questioning* is a powerful strategy for helping readers think about and remember what they read. Encourage them to look for opportunities to ask questions when they read independently.

5 Discuss Working Together

Explain that this week the students focused on explaining their thinking and showing respect for one another's thinking. Ask questions such as:

- Q *How have you improved in your ability to explain your thinking clearly? Can you give us an example?*
- Q *When you notice your partner or classmates treating you respectfully, how does that make you feel?*
- Q *Why is it important that we all feel [appreciated] in our reading community?*

INDIVIDUALIZED DAILY READING

6 Read Independently and Write About Questions

Remind the students that they are reading nonfiction texts during IDR. Have the students get their texts. Ask them to think before they read about questions they have about the topics of their texts and to notice as they read whether their texts discuss their questions. Tell the students that at the end of IDR they will write about the questions they had in their reading journals. Have them read silently for 20–25 minutes. After the students have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 28) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 31 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask the students to think quietly about the questions they had about their topics and whether the questions were discussed in their texts.

Have the students return to their desks and open their *Student Response Books* to the next blank page in the Reading Journal section. Remind the students that this is where they can write about what they are reading. Explain that today they will each write a journal entry about the questions they had about their reading.

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

Teacher Note

If the students have difficulty writing about what they wondered, you might model writing about something you wondered about a nonfiction text. For example, you might write: *I am reading Great Women of the American Revolution by Brianna Hall. This book is about women who participated in the Revolutionary War. I wondered whether women actually fought in the battlefield. I found out that it was against the law for women to join the army, but that some women found ways to enlist anyway.*

Vocabulary Note

Next week you will revisit *Big Cats* to teach the Week 6 vocabulary lessons.

Materials

- *Big Cats*
- *Student Response Book* pages 17–18
- Copy of “Excerpt from *Big Cats*” (BLM2) for each student

Teacher Note

Prior to doing this activity, you may wish to do the extension “Read About Tigers and Discuss Questions” on page 131. If you do so, you might abbreviate the portion of the activity in which you read aloud and discuss the passage on tigers.

Also prior to doing this activity, visit the CCC Learning Hub (cclearninghub.org) to access and print “Excerpt from *Big Cats*” (BLM2). Make enough copies for each student to have one, and set aside a copy for yourself. Preview the excerpt and identify vocabulary that you want to clarify as you read.

Display the “Journal Entry” chart (WA3) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

Journal Entry

Write a journal entry about the text you are reading. Please include:

- The title and the author’s name
- What the text is about
- A question you had about the topic
- What you learned about the topic

WA3

 Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

WRITING ABOUT READING

Compare Lions and Tigers

Show the cover of *Big Cats* and remind the students that they heard parts of this book earlier. Ask the students to turn to *Student Response Book* page 17 and review that this passage from the book discusses lions. Explain that today the students will compare lions and tigers and then write about how the two animals are alike and how they are different.

Ask the students to follow along as you read pages 19–22 of *Big Cats* aloud and to think as they listen about what information the passage gives about lions. Read pages 19–22 aloud. Then ask:

Q *What information do we learn about lions in this passage?*

Record the students’ ideas where everyone can see them, under the heading “Lions.”

Distribute the copies of “Excerpt from *Big Cats*” (BLM2) and explain that this is the passage from the book that discusses tigers. Ask the students to follow along as you read the excerpt aloud and to think as they listen about what information the passage gives about tigers. Read pages 14–17 aloud, showing the photographs. Then ask:

Q *What information do we learn about tigers in this passage?*

Record the students’ ideas where everyone can see them, under the heading “Tigers.” Then facilitate a discussion about how lions and tigers are alike and different.

Ask the students to watch as you think aloud and model writing about the differences and similarities between lions and tigers.

You might say:

"First I want to describe some ways lions and tigers are similar. I'll write: *Lions and tigers are the same in some ways. Both are large and powerful, and both hunt prey. Asia has been home to both lions and tigers.* Now I want to write about some of the things that are different about the two animals. I'll write: *Lions and tigers are different in many ways. For example, they look very different. Lions are not striped, whereas tigers have stripes. Male lions have manes, but tigers do not have manes. Lions cooperate when they hunt, but tigers hunt alone.*"

Have the students write about how lions and tigers are alike and different. If time permits, ask a few volunteers to share their writing with the class.

EXTENSION

Read About Tigers and Discuss Questions

Show the cover of *Big Cats* and remind the students that they have been listening to and discussing this book. Show pages 14–17 and explain that this part of the book discusses tigers. Ask:

Q *What questions do you have about tigers?*

As the students suggest questions, list the questions where everyone can see them, but do not take the time to discuss them until you have finished reading. Read pages 14–17 aloud slowly and clearly, showing the photographs. Then facilitate a discussion using questions such as:

Q *What was this reading about?*

Q *What did we find out in the reading about some of our questions?*

Q *Which questions are we still curious about?*

Add the following questions to the list (or if you have already written them, circle them):

How does a tiger avoid being noticed?

How do tigers raise their young?

TEKS 13.A.iv
Student/Teacher Activity
Extension
(first question)

Teacher Note

Prior to doing this activity, visit the CCC Learning Hub (ccclearninghub.org) to access and print "Excerpt from *Big Cats*" (BLM2). Make enough copies for each student to have one, and set aside a copy for yourself.

Teacher Note

You might define the following vocabulary words as you read: *elegantly* ("beautifully"), *solitary* ("living alone"), *stalking* ("quietly following while hunting"), *scarce* ("few in number; not common"), *devour* ("eat as though very hungry"), and *gore* ("stab").

Teacher Note

The first of these questions is answered in the passage; the second question is not.

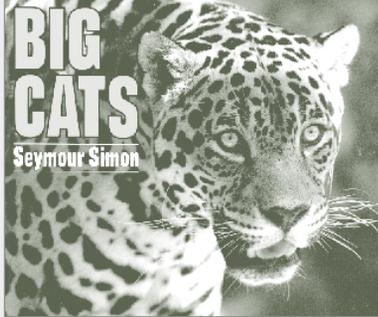

Distribute copies of “Excerpt from *Big Cats*” (BLM2). Explain that, as the students read, you would like them to look for information about these questions, as well as others they are still curious about. Ask them to underline sentences that discuss the questions. Have the students read the excerpt independently. Then discuss:

- Q *What information did you find out about the question [“How does a tiger avoid being noticed?”]? Read a sentence you underlined aloud.*
- Q *Do others agree that this question is answered in this way?*
- Q *What information did you find about the question [“How do tigers raise their young?”]?*
- Q *How did thinking about the questions as you read help you pay close attention to the text?*

Encourage the students to be aware of their questions as they read on their own.

Week 2

OVERVIEW

Big Cats*

by Seymour Simon

Readers learn about the characteristics and habits of the world's largest cats and the challenges big cats face as endangered species.

**This book was also used in Week 1.*

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA4–WA5

Assessment Forms

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

Reproducibles

- Unit 3 family letter (BLM1)
- (Optional) “Why Are Big Cats Endangered?” (BLM3)

Professional Development Media

- “Adapting Lessons for English Language Learners” (AV13)
- “Using Blogs in the Classroom” tutorial (AV45)

Comprehension Focus

- Students learn the procedure for “Stop and Ask Questions.”
- Students use questioning to help them make sense of texts.
- Students use schema to articulate all they think they know about a topic before they read.
- Students read independently.

Social Development Focus

- Students analyze why it is important to be responsible.
- Students build on one another’s thinking during class discussions.

Ⓜ DO AHEAD

- ✓ Prior to Day 2, prepare a sheet of chart paper with the title “Discussion Prompts.” Write three discussion prompts (*I agree with _____ because . . . , I disagree with _____ because . . . , and In addition to what _____ said, I think . . .*) on the chart (see the diagram in Step 3).
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2); see page 27 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, prepare to model “Stop and Ask Questions” using a text the students are familiar with (see Step 2). Have the question you will ask in mind ahead of time so the modeling goes smoothly.
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 6 lessons this week.

Materials

- *Big Cats* from Week 1 (pages 33–35)
- “Reading Comprehension Strategies” chart
- *Student Response Book* page 19

Teacher Note

This week the social questions emphasize taking responsibility. The students begin to shift their reliance for monitoring their behavior and solving all their problems from you onto themselves. Building trusting relationships allows the students to take responsibility for solving small problems while feeling safe enough to ask you for help in solving serious problems (such as bullying or excessive teasing).

Teacher Note

You will not read pages 25–31 or 36–37 of *Big Cats* aloud this week. If the students are interested in hearing about leopards, jaguars, pumas, and snow leopards, you might consider doing the extension “Read the Rest of *Big Cats* and Practice ‘Stop and Ask Questions.’”

In this lesson, the students:

- Hear and discuss part of an expository nonfiction book
- Learn the procedure for “Stop and Ask Questions”
- Use questioning to make sense of the book
- Read independently for 20–25 minutes
- Work in a responsible way

1 Discuss Taking Responsibility

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Tell the students that they will be responsible for both thinking on their own and sharing with partners today. Ask:

- Q *What will you do to take responsibility for yourself during “Turn to Your Partner” today?*
- Q *Why is it important for you to take responsibility for yourself?*

2 Introduce “Stop and Ask Questions”

Direct the students’ attention to the “Reading Comprehension Strategies” chart. Remind them that questioning is a powerful strategy for helping readers pay close attention to what they are reading.

Explain that today you will teach the students a thinking tool called “Stop and Ask Questions.” Explain that the students will stop several times during a reading to write questions that come to mind. Have the students turn to *Student Response Book* page 19, “Stop and Ask Questions About *Big Cats*.” Explain that as you read aloud today, you will stop three times for them to think about questions.

Tell the students that you will model writing questions with them at the first stop, and then they will write questions on their own at the next two stops. Explain that the purpose of writing the questions is to help them think about the reading and to use the questions to discuss the text after the reading.

3 Introduce the Reading

Show the cover of *Big Cats*. Remind the students that last week they heard parts of this expository nonfiction book, including the section giving general information about big cats and a section featuring one of the largest types of cats, lions.

Explain that today they will hear a section of the book about cheetahs. Show the photographs on pages 32 and 34 and ask:

Q *What do you think you know about cheetahs?*

Have a few volunteers share their thinking; then ask the class to listen carefully as you read.

4 Read Part of *Big Cats* Aloud with “Stop and Ask Questions”

Read pages 33–35 aloud slowly and clearly, stopping as described below. Clarify vocabulary as you read.

Suggested Vocabulary

bound: move quickly with leaps or jumps (p. 33)

gazelles: small antelopes found in Africa and Asia (p. 33)

blunted: not pointed or sharp (p. 35)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

pursues: runs after (p. 33)

within striking distance: (idiom) close to or near (p. 33)

could hold out: could keep running fast (p. 33)

vultures: large birds that feed on dead animals (p. 33)

endangered: in danger of becoming extinct, or dying off (p. 35)

predators: animals that live by killing and eating other animals (p. 35)

Stop after:

p. 33 “Yet, if the gazelle could hold out for just a few minutes, it would be safe because the cheetah can only maintain its speed for a few hundred yards.”

Ask:

Q *What questions can you ask right now?*

Ask a few volunteers to share their questions with the class. Write the questions exactly as they are stated where everyone can see them. If the students have difficulty generating questions, model writing a few (for example, *Do cheetahs hunt in groups, like lions?* and *Why can a cheetah maintain its speed for only a few hundred yards?*).

Without stopping to discuss the questions, reread the last sentence before the stop and continue reading to the next stopping point:

p. 35 “The cheetah looks different from the other big cats.”

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit’s Individual Comprehension Assessment.

ELL Note

Refer to the “Words That Can Begin Questions” chart and remind the students to begin their questions with these words.

Teacher Note

The goal of this activity is for the students to practice asking questions. Remind the students to write *any* questions they can think of at this point in the reading. This helps the students avoid getting bogged down by the need to think of only “good” questions. Later they will have a chance to think about the kinds of questions that generate the most discussion about a book.

Have the students individually write questions that come to mind in the Stop 2 box on *Student Response Book* page 19, “Stop and Ask Questions About *Big Cats*.” When most students are finished writing, reread the last sentence before the stop and continue reading. Follow this procedure again at the last stopping point:

p. 35 “Cheetahs are one of the most endangered big cats.”

Continue reading to the end of page 35.

5 Use Questions to Discuss the Reading in Pairs

Tell the students that now they will use their questions to help them talk about the reading with their partners. Give the students a few moments to review their questions individually, and then have partners discuss the reading using their questions.

As partners talk, circulate among them. As you circulate, notice whether the students have generated questions independently and whether the questions are relevant to the reading. If you notice partners having difficulty using their questions to discuss the reading, either because they did not write questions or because they cannot get started talking, you might stimulate their interaction by asking them the questions below.

If the students did not write questions, ask:

Q *Look at the questions we wrote together at the first stop. What did you find out during the reading that might help answer some of the questions? Talk to each other and explain your thinking.*

If the students wrote questions but are not discussing them, ask:

Q *How are your questions similar to or different from your partner’s? Which of the questions you or your partner wrote are discussed in the text, and how are they discussed? Which are not discussed?*

6 Discuss as a Class

After several minutes, facilitate a discussion using the questions that follow. Be ready to reread passages and show photographs again to help the students recall what they heard.

Q *What is something you learned about cheetahs from today’s reading?*

Q *What did you find out about what cheetahs look like?*

Ask the students to review the questions they wrote. Ask:

Q *What is a question that got you and your partner talking? What did you hear in the reading that helped you talk about that question?*

Have a few volunteers share their thinking.

Teacher Note

As you circulate, notice whether the students are talking and listening to each other in a responsible way, and what problems, if any, you want to bring up at the end of the lesson.

Facilitation Tip

Continue to practice **asking questions once** without repeating or rewording them and **using wait-time**. Notice the effect this has on the students’ attentiveness during class discussions.

Students might say:

"My partner asked, 'Why are cheetahs endangered?' The book says female cheetahs cannot defend their young against predators, so that might be one reason."

"My partner asked, 'Do cheetahs hunt by themselves or with other cheetahs?' We think maybe cheetahs hunt by themselves because the book didn't mention anything about cheetahs hunting in groups."

Ask and briefly discuss:

Q *What did you do to be a responsible partner today during "Stop and Ask Questions" and "Turn to Your Partner"? How did that help your learning together?*

Students might say:

"I made sure to write my own questions during the stops. That gave me practice so I can do this on my own later."

"I asked my partner to read his question again when I didn't hear him. That helped because it kept our conversation on track."

Explain that tomorrow the students will have another chance to think about their reading using "Stop and Ask Questions" and to work with their partners.

INDIVIDUALIZED DAILY READING

7 Read Independently and Ask Questions

Have the students get their texts and read silently for 20–25 minutes. Ask the students to think before they read about questions they have about the topics of their texts. Ask them to think as they read about whether the texts discuss their questions. Tell the students that at the end of IDR you will ask them to share what they noticed with the class. After the students have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 28) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 31 of the *Assessment Resource Book*.

Technology Tip

Prior to doing this activity, locate an animal expert or organization to which you can e-mail the students' questions about big cats. You might search online using the keywords "ask a zookeeper" or "ask the zoo." Alternatively, you might contact a local or nearby zoo to see if a zookeeper on staff would be willing to correspond with your class via e-mail or a class blog. For more information about setting up and maintaining a class blog, view the "Using Blogs in the Classroom" tutorial (AV45).

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer share the title of her text, the author's name, what the text is about, a question she had about the topic of her text, and whether the text discusses the question. Then have the students return to their desks and put away their texts.

TECHNOLOGY EXTENSION

Ask an Expert About Big Cats

Show the cover of *Big Cats* and review that the students heard this book earlier. Explain that you will reread parts of the book again and that as you read, you would like the students to think about what they still wonder about big cats. Ask the students for suggestions about which big cats they would like to hear about again. Read those sections aloud slowly and clearly. Stop after each section and ask:

Q *What questions do you have about big cats?*

As the students respond, jot down the students' questions on a piece of scratch paper.

Tell the students that they will try to find answers to some of their questions by sending an e-mail to an animal expert. Have the students help you write an e-mail or fill out the information request form (using your school's contact information) to be sent to the organization or person you identified. Share any responses you receive with the students. (Be sure to check your "junk e-mail" folder to ensure that response e-mails do not get lost.)

In this lesson, the students:

- Learn discussion prompts to build on one another's thinking
- Hear part of an expository nonfiction book read aloud again
- Use questioning to make sense of the book
- Read independently for 20-25 minutes
- Work in a responsible way

1 Review "Stop and Ask Questions"

Have the students bring their *Student Response Books* and gather with partners sitting together, facing you. Review the previous lesson, in which the students heard about cheetahs in the book *Big Cats* and used "Stop and Ask Questions" to help them make sense of the text. Remind them that the purpose of asking questions is to help them pay close attention to a text and to read for information about their questions.

Ask the students to turn to *Student Response Book* page 19, "Stop and Ask Questions About *Big Cats*." Have them review the questions they wrote yesterday.

Explain that today you will reread the part of *Big Cats* about cheetahs. Ask:

Q *What is a question you wrote about cheetahs that you want to listen for information about today?*

Have a few volunteers share their questions with the class.

2 Reread Part of *Big Cats* Aloud

Read pages 33-35 aloud, slowly and clearly. Stop reading briefly at the bottom of each page and have the students talk with their partners about any questions they wrote that they think were discussed on that page. Circulate as the students talk. Listen for evidence that they understood the text and are referring to it in their discussions.

3 Discuss Questions and Teach Discussion Prompts

At the end of the reading, facilitate a discussion using the following questions:

Q *What did you hear during the second reading that you missed during the first reading?*

Q *What new information did you hear that addressed any of your questions?*

Materials

- *Big Cats*
- *Student Response Book* page 19
- "Discussion Prompts" chart, prepared ahead

ELPS 3.B.iii
Step 3

Teacher Note

Disagreements about whether and how a question is answered in the book are opportunities for the students to think more deeply and use evidence from the text to support their opinions. Be ready to reread passages and show photographs again to help the students recall what they heard.

Teacher Note

If your students are already familiar with the discussion prompts, simply direct their attention to the prompts and remind the students to use them.

Teacher Note

Save the “Discussion Prompts” chart to use on Day 3.

Q *Do others agree that the question was discussed in that way? What did you hear in the reading that makes you agree or disagree?*

Stop early in the discussion and direct the students’ attention to the “Discussion Prompts” chart.

Discussion Prompts

- I agree with _____ because . . .
- I disagree with _____ because . . .
- In addition to what _____ said, I think . . .

Explain that using these three prompts will help the students listen and build on one another’s thinking. Ask them to use one of these prompts when they add to the discussion. You might model a couple of examples like those in the “Students might say” note.

Students might say:

“I agree with [Tom and Mimi] that the question ‘Are cheetahs the fastest runners?’ is answered ‘yes’ because the book says the cheetah is the fastest land animal in the world.”

“I disagree with [Tom and Mimi] because it says the cheetah needs to slow down after running only a few hundred yards.”

4 Reflect on Using the Discussion Prompts

Facilitate a brief discussion about how the students did using the discussion prompts in the class discussion. Ask:

Q *How did using the discussion prompts help you listen to one another? How did it help you take responsibility for your thinking during the discussion?*

Explain that tomorrow the students will use questioning again to think about their reading, use the prompts during the class discussion, and work with their partners.

INDIVIDUALIZED DAILY READING

5 Read Independently and Ask Questions

Have the students get their texts. Ask them to think quietly about questions they have about the topics of their texts. After a moment, have partners take turns sharing what questions they have. Ask the

students to think as they read about whether their texts discuss their questions. Tell the students that at the end of IDR you will ask them to share what they noticed with partners. Have them read silently for 20–25 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 28) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 31 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each student tell her partner the title of her text, the author’s name, what the text is about, questions she had about the topic of her text, and whether the text discusses the questions. After partners have had a chance to share, discuss as a class:

Q *What did your partner share with you today about his or her reading?*

Remind the students that the purpose of sharing their partners’ thinking is to help them develop their listening skills. Have the students return to their desks and put away their texts.

TECHNOLOGY EXTENSION

Research and Write About Leopards

Show the cover of *Big Cats* and remind the students that they heard parts of this book earlier. Show pages 24–25 and explain that this section of the book is about leopards. Ask:

Q *What are you curious to learn about leopards?*

Write the students’ questions where everyone can see them. Then ask the students to listen for answers to their questions as you read aloud from the book. Read page 25 aloud, slowly and clearly. Ask:

Q *What is something you learned about leopards from the part I just read?*

Q *What questions do you still have about leopards?*

Write the students’ questions where everyone can see them. Briefly discuss what keywords might be useful in an Internet search to answer

Technology Tip

To support the students in doing online research, you might teach the following technology mini-lessons in Appendix B: Mini-lesson 4, “Choosing Effective Search Terms”; Mini-lesson 5, “Understanding Search Results”; Mini-lesson 6, “Narrowing Search Results and Using Filters”; and Mini-lesson 7, “Evaluating Research Sources.” For more information about teaching Technology Mini-lessons 4–7, see “About Teaching Online Research Lessons” at the beginning of Technology Mini-lesson 4.

Day 3

Read-aloud/ Guided Strategy Practice

Materials

- *Big Cats* (page 38)
- “Questions About the Survival of Big Cats” chart (WA4)
- *Student Response Book* page 20
- “Class Assessment Record” sheet (CA2)
- “Discussion Prompts” chart

Teacher Note

The students may not understand that *survival* here means survival of the various species of big cats (not individual animals). Substitute the word *existence* if it will be helpful.

these questions (for example, “leopards climb trees,” “leopards raise young,” or “leopards stalk prey”).

Guide the students in an online search for reputable websites with relevant information. As a class, browse the websites to find information and images that answer the students’ questions. After the search is finished, briefly discuss:

Q *What is something else you have learned about leopards?*

Have the students write paragraphs about what they learned. Ask the students to title their paragraphs and use at least one other text feature. If time permits, have the students share their writing with the class.

In this lesson, the students:

- Practice using discussion prompts to build on one another’s thinking
- Hear, read, and discuss part of an expository nonfiction book
- Use questioning to make sense of the book
- Explore an ethical issue in the book
- Read independently for 20–25 minutes
- Listen to one another

1 Review Questioning and Introduce the Reading

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that they have been asking questions to help them pay close attention to text. Explain that today you will read aloud the last page of *Big Cats*, which describes how human beings are threatening the survival of big cats in the world. Ask:

Q *What questions can we ask about how people are threatening the survival of big cats?*

Display the “Questions About the Survival of Big Cats” chart (WA4) and list a few of the students’ ideas on the chart as they generate them.

Students might say:

"What are the biggest threats to their survival?"

"Who is working to help them survive?"

"What can kids do to help big cats survive?"

Ask the students to listen carefully to find out what they can learn about their questions.

2 Read Part of *Big Cats* Aloud

Read page 38 of the book aloud, slowly and clearly, showing the photograph on page 39. Clarify vocabulary as you read.

Suggested Vocabulary

relentlessly: without interruption (p. 38)

preserves: places where wild animals are protected (p. 38)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

livestock: cows, sheep, and other animals that live on farms (p. 38)

illegal: not allowed; against the law (p. 38)

treasure the wildlife: treat wild animals well because they are special (p. 38)

3 Read and Discuss Questions in Pairs

Direct the students to *Student Response Book* page 20, "Excerpt from *Big Cats* (2)." Ask them to underline sentences that discuss any of the questions and to be ready to share their thinking with the class.

After the students have had sufficient time to read the excerpt and underline sentences, have pairs discuss what they found out about the questions. Circulate as partners talk. Listen for evidence that they understand the text and that they are looking for information about the questions as they read.

ELL Note

English Language Learners may benefit from doing the second reading in pairs. Alternatively, you might read the excerpt aloud while the students follow along. To

learn more, view "Adapting Lessons for English Language Learners" (AV13).

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students using their questions to guide their thinking about the text?
- Are they referring to the text as they discuss their questions?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 27 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are using their questions to guide their thinking and referring to the text to discuss their questions, proceed with the lesson and continue on to Day 4.
- If **about half of the students** or **only a few students** are using their questions to guide their thinking and referring to the text to discuss their questions, you might give the class additional instruction by repeating Days 1, 2, and 3 of this week using an alternative book before continuing on to Day 4. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

Teacher Note

Use “Turn to Your Partner” as needed during this discussion to increase participation and accountability for thinking.

4 Discuss the Reading and Questions Using Prompts

Facilitate a discussion using the following questions. Direct the students’ attention to the “Discussion Prompts” chart and remind them to build on one another’s thinking using the discussion prompts they learned yesterday. Ask:

- Q *What did you read that discusses some of our questions? Read aloud a sentence you underlined.*
- Q *Do others agree that the question is discussed that way? Explain your thinking.*

Students might say:

“My partner and I think the question ‘Do people still make coats from the fur of big cats?’ was answered. The book said there is a demand for fur coats made from leopards, cheetahs, and jaguars.”

“I disagree with [Sarah and Raul], because the book says there was a demand for fur coats in the 1960s and 1970s, but it doesn’t say there’s still a demand now.”

- Q *What is a question on the chart that was not discussed? How might we find out more about this topic?*

5 Reflect on Using the Discussion Prompts

Briefly share your observations of how the students did using the discussion prompts. Remind the students that the purpose of the prompts is to help them listen carefully to one another and to build on one another's thinking. Tell them that these are important skills for them to use in any discussion, and encourage them to practice whenever they can.

Explain that tomorrow the students will practice using questioning to make sense of their independent reading.

Teacher Note

Keep the "Discussion Prompts" chart posted until the students use these prompts naturally.

INDIVIDUALIZED DAILY READING

6 Read Independently and Ask Questions

Have the students get their texts. Ask them to think quietly about questions they have about the topics of their texts. After a moment, have partners take turns sharing what questions they have. Ask the students to think as they read about whether their texts discuss their questions. Tell the students that at the end of IDR you will ask them to share what they noticed with partners. Have them read silently for 20–25 minutes. After the students have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 28) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 31 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each student tell his partner the title of his text, the author's name, what the text is about, questions he had about the topic of his text, and whether the text discusses the questions.

Have the students return to their desks and put away their texts.

Materials

- *Big Cats*
- *Student Response Book* page 20
- Copy of “Why Are Big Cats Endangered?” (BLM3) for each student

Teacher Note

Prior to doing this activity, visit the CCC Learning Hub (ccclearninghub.org) to access and print “Why Are Big Cats Endangered?” (BLM3). Make enough copies for each student to have one, and set aside a copy for yourself.

Teacher Note

You might define the following vocabulary words as you read: *vulnerable* (“in some danger of disappearing forever”), *critically* (“extremely”), *plantations* (“huge farms”), and *wildlife trade* (“the buying and selling of wild animals”).

TEKS 7.B.i

Student/Teacher Narrative
Writing About Reading
("You might say" example)

WRITING ABOUT READING

Compare Two Texts About Why Big Cats Are Endangered

Show the cover of *Big Cats* and remind the students that they heard parts of this book earlier. Ask the students to turn to *Student Response Book* page 20 and review that this excerpt from the book describes how human beings are threatening the survival of big cats in the world. Explain that today the students will compare this excerpt with an article about why big cats are endangered and then write about what is the same and what is different in the two readings.

Ask the students to follow along as you read page 38 of *Big Cats* aloud and to think as they listen about the reasons Seymour Simon gives for why big cats are endangered. Read page 38 aloud. Then ask:

Q *What reasons does Seymour Simon give for why big cats are endangered?*

Record the students’ ideas where everyone can see them, under the heading “Big Cats Excerpt.”

Distribute “Why Are Big Cats Endangered?” (BLM3) and explain that this is an Internet article published by a nonprofit organization that works to protect wild animals. Ask the students to follow along as you read the excerpt aloud and to think as they listen about what reasons the article gives for why big cats are endangered. Read “Why Are Big Cats Endangered?” aloud. Ask:

Q *What reasons does the article give for why big cats are endangered?*

Record the students’ ideas where everyone can see them, under the heading “‘Why Are Big Cats Endangered?’ Article.” Then facilitate a discussion about what information is the same and what is different in the book excerpt and the article.

Ask the students to watch as you think aloud and model writing about what is the same and what is different in the excerpt and the article.

You might say:

“First I want to describe some of the ways the excerpt and the article are alike. I’ll write: *The excerpt from the book Big Cats and the article ‘Why Are Big Cats Endangered?’ are alike in some ways. Both are about the threats to big cats caused by human activities. They both mention that big cats are killed for their coats and to protect livestock. Now I want to write about some of the things that are different about the excerpt and the article. I’ll write: *The excerpt and the article are also different in some ways. The article gives global warming as another reason that snow leopards, lions, and tigers are endangered. The book excerpt doesn’t mention global warming.*”*

Have the students write about what is the same and what is different in the excerpt and the article. If time permits, ask a few volunteers to share their writing with the class.

EXTENSIONS

Read the Rest of *Big Cats* and Practice “Stop and Ask Questions”

Read pages 25–31 and 36–37 of *Big Cats* and have the students practice “Stop and Ask Questions” to help them be active readers. As a class, discuss the questions they generate, whether the questions are discussed in the text, and what the students learn about leopards, jaguars, pumas, and snow leopards from these parts of the book.

You might also have the students practice “Stop and Ask Questions” with their social studies, science, math, or other content-area texts. Encourage them to use self-stick notes to mark places where questions arise and to read to see what they can learn about their questions.

Read Other Books About Big Cats and Make Text-to-text Connections

If the students enjoyed learning about big cats, you might extend the exploration by reading aloud and discussing another book about big cats. Encourage the students to compare the book to *Big Cats* and make text-to-text connections. Possible titles include *Face to Face with Leopards* and *Face to Face with Lions* by Beverly and Dereck Joubert, *Face to Face with Cheetahs* by Chris Johns and Elizabeth Carney, *Everything Big Cats: Pictures to Purr About and Info to Make You Roar!* by Elizabeth Carney, and *Big Cats: In Search of Lions, Leopards, Cheetahs and Tigers* by Steve Bloom.

ELL Note

You might want to model using self-stick notes while reading.

TEKS 6.E.ii
Student/Teacher Activity
Second Extension

Materials

- Expository text for modeling, selected ahead
- Medium-size self-stick notes for each student
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA5)
- Copy of this unit’s family letter (BLM1) for each student

In this lesson, the students:

- Read independently
- Use questioning to think about texts they read independently
- Write in their reading journals
- Listen to one another
- Work in a responsible way

1 Review the Week

Have the students get their *Student Response Books*, pencils, and texts for independent reading and sit at desks with partners together. Review that this week the students continued to use the strategy of questioning and began using the thinking tool “Stop and Ask Questions” to help them think about texts. Remind the students that they are learning a process that they will use when they read on their own to help them better understand what they read.

2 Model “Stop and Ask Questions” with Independent Reading

Explain that the students will practice using “Stop and Ask Questions” as they read expository texts independently today. They will use self-stick notes to mark places in their reading where a question comes to mind, and they will write the question on the note. Remind them that they will use their written questions to help them discuss their reading afterward.

Model the procedure using a text the students are familiar with. Read several sentences aloud and think aloud about a question you have. Jot the question on a self-stick note and place the note in the margin where you stopped reading.

You might say:

“I’m wondering why young cheetah cubs are silver gray or white on top, instead of spotted like adults. Perhaps being silver gray or white when they’re young helps keep them camouflaged, or hidden. I’m going to write the question *Why are cheetah cubs silver gray or white on top, and not spotted?* and stick it here next to this description of their coats.”

3 Read Independently

Distribute self-stick notes to each student and have the students read silently for 15–20 minutes. Stop the class at 5-minute intervals to have the students share with their partners any questions they have written on self-stick notes so far.

4 Discuss the Students' Questions

Signal to let the students know when it is time to stop reading. Have the students talk with their partners about their questions and share what they found out in their reading about those questions. Remind them to support their thinking by referring to the text.

After partners have had time to talk, have a few volunteers share their questions with the class. Probe the students' thinking by asking questions such as:

- Q *What was happening in the book when you thought of that question?*
- Q *What did you find out about that question in your reading?*

5 Write in Reading Journals About the Students' Independent Reading

Display the “Journal Entry” chart (WA5) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

Journal Entry

Write a journal entry about the text you are reading. Please include:

- The title and the author's name
- What the text is about
- One question you wrote on a self-stick note
- What, if anything, you found out about that question in your reading
- If the reading didn't answer your question, something else you learned

WA5

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

Teacher Note

It is important during this discussion for the students to be listening and responding to one another.

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

ELL Note

Consider having students with limited English proficiency dictate journal entries for you to write down.

Teacher Note

If the students struggle to write, you might wish to model writing a journal entry, as you did in Unit 2, Week 1, Day 4 (see Step 3).

Teacher Note

Provide time on a regular basis for the students to record the books they have completed in their reading logs.

Facilitation Tip

Reflect on your experience over the past two weeks with **asking questions once** without repeating or rewording them and **using wait-time**. Does this technique feel comfortable and natural for you? Do you find yourself using it throughout the school day? What effect has using this technique had on your students' attentiveness and responsiveness in discussions? We encourage you to continue to use and reflect on this technique as you facilitate class discussions in the future.

Vocabulary Note

Next week you will revisit *Big Cats* to teach the Week 7 vocabulary lessons.

6 Reflect on Working Together

Review that this week the students focused on using discussion prompts in class discussions to build on one another's thinking. They also thought about how they were taking responsibility for themselves. Use "Think, Pair, Share" to discuss questions such as:

Q *How do you think our class is doing at listening carefully to one another during class discussions? What do we do well? What do we want to do better?* [pause] *Turn to your partner.*

Q *What is one way you are learning to take responsibility for your own thinking and behavior?* [pause] *Turn to your partner.*

Explain that the students will have more opportunities to use "Stop and Ask Questions" to think about and discuss their independent reading. Emphasize that the students will not always be expected to write down their questions, but they should always be asking themselves questions and looking for answers when they read.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of Unit 3. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit's family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

Assessment

- Before continuing on to the next unit, take this opportunity to assess individual students' reading comprehension using the "Individual Comprehension Assessment" record sheet (IA1); see page 32 of the *Assessment Resource Book*.

Unit 4

Analyzing Text Structure

FICTION

During this unit, the students analyze the elements of narrative text structure in the novel *Tuck Everlasting* by Natalie Babbitt. They study character, setting, plot, and conflict, and they use questioning to help them make sense of the novel, determining whether their questions are answered explicitly or implicitly through inference. They also explore an important theme in the novel. During IDR, they practice asking themselves questions and analyzing character, setting, plot, and theme as they read novels independently. They also continue to confer with the teacher individually about the books they are reading. Socially, they analyze why it is important to be responsible and respectful, and they practice using discussion prompts to listen and build on one another's ideas during discussions.

Week 1

OVERVIEW

Tuck Everlasting*

by Natalie Babbitt

When young Winnie Foster meets the Tuck family, who have drunk from the spring of immortality, she must protect their secret while deciding if she will join them on their ageless journey or live a mortal, human life.

**This book is used throughout Unit 4.*

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activity

- WA1

Assessment Forms

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)

Professional Development Media

- “Asking Facilitative Questions” (AV21)
- “Using Blogs in the Classroom” tutorial (AV45)

Comprehension Focus

- Students analyze text structure in a novel, including the story elements character, setting, plot, and conflict.
- Students read independently.

Social Development Focus

- Students analyze why it is important to be responsible.
- Students build on one another's thinking during class discussions.

DO AHEAD

- ✓ Consider reading this unit's read-aloud selection with your English Language Learners before you read it to the whole class. Stop during the reading to discuss vocabulary and to check for understanding.
- ✓ Make available novels at a variety of levels so that the students can practice asking questions and making inferences about story elements (character, plot, setting, conflict, and theme) during IDR and Independent Strategy Practice throughout the unit (see "About Teaching Elements of Fiction" on Week 1, Day 1).
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit.
- ✓ Prior to Day 1, you might wish to provide each student with a copy of *Tuck Everlasting* to read during the unit. For information about ordering class sets of the novel, visit the CCC Learning Hub (ccclearninghub.org).
- ✓ Prior to Day 1, prepare a sheet of chart paper with the title "Important Elements of Fiction." Write these terms and definitions on the chart paper: *character: person in a story; setting: where and when a story takes place; and plot: what happens to the characters in a story (the events that make up the story)*. (See the diagram in Step 5.)
- ✓ Prior to Day 1, make a class set of "IDR Conference Notes" record sheets (CN1); see page 49 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a copy of the "Class Assessment Record" sheet (CA1); see page 42 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 7 lessons this week.

Day 1

Read-aloud/Strategy Lesson

Materials

- *Tuck Everlasting* (pages 3–12)
- “Important Elements of Fiction” chart, prepared ahead
- Class set of “IDR Conference Notes” record sheets (CN1)
- *Assessment Resource Book* page 46
- “Reading Comprehension Strategies” chart
- “Thinking About My Reading” chart
- Self-stick notes for each student

In this lesson, the students:

- Hear and discuss part of a novel, including the prologue
- Discuss character, setting, and plot
- Read independently for 25–30 minutes
- Begin working with new partners
- Work in a responsible way

ABOUT TEACHING ELEMENTS OF FICTION

In this four-week unit, the students explore important elements of fiction through Natalie Babbitt’s novel *Tuck Everlasting*. They ask questions and make inferences about the characters, setting, plot, and conflict, and they explore an important theme in the novel. They also practice using the comprehension strategies of questioning, making inferences, and analyzing text structure to make sense of novels during Individualized Daily Reading.

Provide a variety of novels in a wide range of genres (mystery, adventure, science fiction, historical fiction, and realistic fiction) at different reading levels for the students to read during IDR. For more information about analyzing text structure, see “The Grade 5 Comprehension Strategies” in the Introduction.

1 Pair Students and Get Ready to Work Together

Randomly assign partners and make sure they know each other’s names. Gather the class with partners sitting together, facing you. Explain that during the coming weeks the students will work with the same partners. Remind them that talking with and listening to partners helps them think more about what they are learning. Ask:

Q *What do you want to keep in mind today to be a responsible partner? Why will that be important?*

Students might say:

“I want to remember to look at my partner while she’s talking. That’s important because it helps me stay focused on what we’re talking about.”

“I want to remember to ask questions if I don’t understand something my partner says. That’s important because I might have to tell the class what my partner says.”

2 Discuss Novels and Introduce *Tuck Everlasting*

Remind the students that one type of story they have been hearing and reading this year is *fiction*, or stories that are make-believe. Explain that during the coming weeks the students will hear and read *novels*, or long fiction stories that are usually divided into chapters. Show the cover of *Tuck Everlasting* and read aloud the title and the author's name. Explain that *Tuck Everlasting* is a novel that the students will hear and discuss over the next four weeks.

Read aloud the paragraphs on the back cover of *Tuck Everlasting*. If necessary, explain that *eternal* means “never-ending,” a *spring* is a “place where water flows naturally out of the ground,” and *immortality* means “living forever.” Ask:

- Q *What do you think this story might be about?*
- Q *What do you wonder about the story?*

Students might say:

“It sounds like it will be about a girl named Winnie who meets a family that will never die.”

“I wonder whether the Tucks like knowing that they’ll live forever.”

“I wonder whether the family tries to get Winnie to drink from the spring.”

“I’m wondering if Winnie ends up drinking the water or not.”

TEKS 6.B.i
Student/Teacher Activity
Step 2
(second question)

3 Read the Prologue Aloud

Show the prologue on page 3 and explain that a *prologue* is “a short introduction before the first chapter.” Explain that you will read it aloud. Ask the students to think as they listen about what they are learning about the story.

Read pages 3–4 aloud slowly and clearly, clarifying vocabulary as you read.

Suggested Vocabulary

hub: center (p. 4)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

motionless: not moving, without any wind (p. 3)

lost her patience: got tired of waiting (p. 4)

Teacher Note

You might explain that not every book has a prologue but that when the students encounter books with prologues, they should read the prologues, as these sections often contain important information that helps readers understand the books.

Teacher Note

Listeners can easily miss details at the beginning of a piece, and rereading the first page(s) can aid students' comprehension. Use this technique, when appropriate, during read-alouds throughout the program. Remember to ask the students to listen for any details they missed as they listen to the second reading.

Teacher Note

The opening pages of *Tuck Everlasting* are rich in language and likely contain vocabulary unfamiliar to your students (such as *tangent*, *tranquil*, and *forlorn*). It is not necessary to define all of these words, as the meanings of many words can be gleaned from the context. The Suggested Vocabulary list contains the terms that are critical for comprehension and that should be defined.

Tell the students that you will reread the prologue and ask them to listen for any details they might have missed. Reread pages 3–4 aloud; then ask and briefly discuss:

Q *What might the author be trying to do in this prologue?*

Students might say:

"I think the author is telling us where the story takes place and who some of the characters are."

"I think the author is trying to get us interested by hinting that something bad will happen in the story."

"I think the author wants us to wonder how the three events might end up being connected so we'll want to keep reading to find out more."

4 Read Aloud Chapters 1 and 2

Explain that you will read the first two chapters aloud, stopping several times to have partners talk about the story. Read pages 5–12 aloud slowly and clearly, stopping as described on the next page. Clarify vocabulary as you read. Stop and reread the first paragraph on page 5 before continuing with the rest of the reading.

Suggested Vocabulary

trod out: walked on (p. 5)

bovine: having to do with cows (p. 5)

contemplation: slow, deep thinking (p. 5)

veered: turned (p. 5)

gallows: place where prisoners are executed (killed) by hanging (p. 6)

trespassing: entering private property without permission (p. 7)

responsible for the wood's isolation: responsible for no one going to the woods (p. 8)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

abruptly: suddenly; quickly (p. 6)

cottage: small house (p. 6)

forbidding: scary (p. 6)

private property: house or land owned by someone (p. 7)

conceal: hide (p. 8)

disaster: huge, terrible problem (p. 8)

long since ceased to interest her: stopped being interesting to her a long time ago (p. 12)

Stop after:

p. 6 “Move on—we don’t want you here.”

Ask:

Q *What are you thinking about the story so far? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue reading to the next stopping point. Follow the same procedure at each of the following stops:

p. 8 “. . . would have trembled on its axis like a beetle on a pin.”

pp. 9-10 “I was having that dream again, the good one where we’re all in heaven and never heard of Treegap.”

p. 12 “For Mae Tuck, and her husband, and Miles and Jesse, too, had all looked exactly the same for eighty-seven years.”

5 Discuss the Story and Highlight Story Elements

Discuss the following questions as a class. Be ready to reread passages aloud as the students refer to them to help them recall what they heard.

Q *The characters in a story are the “people in a story.” What characters have been introduced so far? What do you know about them?*

Q *The setting of a story is “where and when a story takes place.” What do you already know about this setting?*

Q *The plot of a story is “what happens to the characters in the story.” What has happened so far?*

Direct the students’ attention to the “Important Elements of Fiction” chart.

Important Elements of Fiction

- *character: person in a story*
- *setting: where and when a story takes place*
- *plot: what happens to the characters in a story (the events that make up the story)*

Read aloud the terms and definitions, and explain that character, setting, and plot are three key elements of fiction stories. Explain that the students will think more about these story elements as they continue to hear *Tuck Everlasting*.

Teacher Note

One reason for not sharing as a class during the read-aloud is to help the students learn to rely on their partners, rather than depending solely on you, to confirm or support their thinking. Another is to maintain the flow of the story.

Teacher Note

You might explain that while characters are usually people, they can also be animals or other creatures. This is particularly common in children’s books.

Teacher Note

Save the “Important Elements of Fiction” chart to use throughout the unit.

INDIVIDUALIZED DAILY READING

Teacher Note

During IDR today, the students practice two “fix-up” strategies they can use when they do not understand what they have read: rereading and reading ahead. To provide the students with additional support for these and other “fix-up” strategies, including examples of how to model using the strategies, you might teach all or part of IDR Mini-lesson 2, “Self-monitoring and Using ‘Fix-up’ Strategies” (found in Appendix A).

Teacher Note

Base the length of time the students are reading independently on their attention and engagement. Gradually add time as your students are ready. The goal is for them to read independently for up to 30 minutes by Unit 5.

ELL Note

Help your English Language Learners choose novels at the appropriate levels. Providing a limited number of teacher-selected texts will help them make good choices.

Teacher Note

Provide time on a regular basis for the students to record the books they have completed in their reading logs.

6 Review and Practice Using “Fix-up” Strategies

Tell the students that for the next four weeks they will read novels during IDR. Direct the students’ attention to the “Thinking About My Reading” chart and remind the students that it is important for them to check their comprehension as they are reading. Remind the students that earlier they learned a couple of “fix-up” strategies, or tools a student can use when he does not understand what he has read. Review that one strategy is to reread the part of the book he does not understand slowly and carefully. Another strategy is to read ahead and look for more information.

Distribute self-stick notes to each student. Tell the students that as they read today, you want them to pause occasionally and ask themselves if they understand what they are reading. If a student does not understand what she is reading, she should mark the place in the text that she does not understand with a self-stick note and then try one or both of the “fix-up” strategies—rereading and reading ahead—to see if the strategies help her understand what she is reading. Explain that at the end of IDR you will check in with the students to see how they did with using the “fix-up” strategies. Then have the students get their novels and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Over the next four weeks, confer individually with the students about what they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 46) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 49 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask and discuss:

- Q** *Was there any part of your reading that you did not understand today? Tell us about it.*
- Q** *Which “fix-up” strategy did you try? What happened when you [reread/read ahead]?*

If a student has tried both of the “fix-up” strategies and still does not understand the text he is reading, refer him to the “Reading Comprehension Strategies” chart and encourage him to try the strategies listed on it. Alternatively, you might encourage the student to ask you or a classmate for help.

Have the students return to their desks and put away their texts.

In this lesson, the students:

- Hear and discuss part of a novel
- Discuss character, setting, and plot
- Read independently for 25–30 minutes
- Work in a responsible way
- Use discussion prompts to build on one another's thinking

1 Review Chapters 1 and 2

Gather the class with partners sitting together, facing you. Show the cover of *Tuck Everlasting* and remind the students that they heard the prologue and the first two chapters yesterday. Refer to the “Important Elements of Fiction” chart and review that the students discussed three key elements that are common to all fiction stories: character, setting, and plot. Briefly review these elements, and explain that recognizing and thinking about them helps readers make sense of stories and understand them at a deeper level.

Briefly review the beginning of *Tuck Everlasting* by asking:

- Q *Who are the characters we've met in Tuck Everlasting?*
- Q *Briefly, what is the plot (what happens in the story)?*
- Q *What do we know so far about the setting?*

2 Read Aloud Chapters 3 and 4 and Part of Chapter 5

Explain that as you continue reading from *Tuck Everlasting*, you will stop several times for partners to discuss their thinking. Ask the students to listen for information about character, setting, and plot.

Reread the last three sentences on page 12 aloud, starting with “Mae Tuck didn't need a mirror . . .” Then continue reading pages 13–25 slowly and clearly, stopping as described on the next page and ending after the sentence “And he seemed so glorious to Winnie that she lost her heart at once” on page 25. Clarify vocabulary as you read.

Materials

- *Tuck Everlasting* (pages 13–25)
- “Important Elements of Fiction” chart from Day 1

Teacher Note

While the students do not need to remember the definitions of these elements, they do need to understand that story elements are one framework for thinking about stories. The goal is for the students to use story elements to make sense of stories they read independently.

Teacher Note

Observe partners working together, and make note of partners talking well together and those having difficulty. Look for evidence that the students are developing an ability to work through problems by asking struggling partners questions such as:

- Q *It looks like you're having some difficulty. What's happening?*
- Q *How is that affecting the work you have to do right now?*
- Q *What can each of you do to take responsibility for getting your conversation back on track?*

Facilitation Tip

During this unit, practice **asking facilitative questions** during class discussions to help the students build on one another's thinking and respond directly to one another, not just to you. After a student comments, ask the class questions such as:

- Q *Do you agree or disagree with [Deborah]? Why?*
- Q *What questions can we ask [Deborah] about what she said?*
- Q *What can you add to what [Deborah] said?*

To see this Facilitation Tip in action, view "Asking Facilitative Questions" (AV21).

Suggested Vocabulary

- intended:** meant (p. 14)
- marionette:** puppet that moves by strings or wires (p. 18)
- suspiciously:** with doubt (p. 19)
- disheartened:** discouraged (p. 23)
- bolder:** more brave (p. 23)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

- cross:** angry (p. 13)
- gnats:** tiny flying bugs (p. 13)
- melody:** song (p. 20)
- elves:** small imaginary people with magic powers (p. 21)
- satisfaction:** happiness (p. 21)
- horrors:** scary ideas (p. 23)
- damp:** a little wet (p. 23)
- vanished:** disappeared (p. 24)
- glorious:** wonderful; beautiful (p. 25)

Stop after:

- p. 16** " 'You'll see. Just wait till morning.' "

Ask:

- Q *What are you thinking about the story so far? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue reading to the next stopping point. Follow the same procedure at each of the following stops:

- p. 18** " 'Forever,' the man echoed thoughtfully."
- p. 21** " 'It sounds like a music box,' said Winnie when it was over."
- p. 25** "And he seemed so glorious to Winnie that she lost her heart at once."

3 Discuss Character, Setting, and Plot

Ask:

- Q *What has happened so far in the story? Turn to your partner.*

After a few minutes, signal for the students' attention. Refer to the "Important Elements of Fiction" chart as you facilitate a class discussion using the following questions:

- Q *What has happened so far in this story? What is the plot?*
- Q *What are we learning about the character of Winnie? What did you hear that makes you think that?*

Q *What are we learning about the setting of the story? What is it like in the woods where Winnie is?*

Students might say:

"We're learning that Winnie is bored and frustrated at home. She wants to run away."

"In addition to what [Peter] said, she's frustrated because her mom and grandma watch her all the time."

"The setting in the woods is cool and shady, with fallen logs and lots of animals."

"I agree with [Karen]. I think I heard the words 'sweet green-velvet moss.'"

4 Reflect on Using the Discussion Prompts

Facilitate a brief discussion about how the students interacted. Ask:

Q *How did using the discussion prompts help you listen to one another? How was that responsible?*

Tell the students that they will hear more from *Tuck Everlasting* tomorrow and they will have more opportunities to use the discussion prompts in class discussions.

INDIVIDUALIZED DAILY READING

5 Read Independently and Think About Story Elements

Direct the students' attention to the "Important Elements of Fiction" chart and read the items on it aloud. Ask the students to think as they read about what they are learning about their novels' characters, settings, and plots. Tell them that at the end of IDR, you will ask them to share what they have learned with the class. Have the students get their novels and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 46) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 49 of the *Assessment Resource Book*.

Teacher Note

Encourage the students to support their thinking by referring to the text. Be ready to reread passages to help the students recall what they heard.

If necessary, remind the students to use the discussion prompts they learned in Unit 3 as they respond. The prompts are:

- "I agree with _____ because . . ."
- "I disagree with _____ because . . ."
- "In addition to what _____ said, I think . . ."

ELL Note

Consider providing a prompt for your English Language Learners' responses, such as "The prompts helped me . . ."

Day 3

Read-aloud/Strategy Lesson

Materials

- *Tuck Everlasting* (pages 25–36)
- “Winnie’s Character” chart (WA1)
- “Class Assessment Record” sheet (CA1)
- “Important Elements of Fiction” chart
- “Reading Comprehension Strategies” chart and a marker

TEKS 7.C.i
Student/Teacher Activity
Steps 1 and 2

Teacher Note

If the students have difficulty generating ideas about Winnie’s character, suggest some such as those listed in the diagram on the next page.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share with the class the titles of their novels, the authors’ names, and what their novels are about. Follow up by asking questions such as:

- Q *Who are some of the characters in your novel?*
- Q *What do you know about the characters?*
- Q *What is the setting of your novel? How do you know that?*
- Q *What is the plot of your novel?*

Have the students return to their desks and put away their books.

In this lesson, the students:

- Hear and discuss part of a novel
- Discuss character, setting, and plot
- Read independently for 25–30 minutes
- Use discussion prompts to build on one another’s thinking

1 Explore Character

Gather the class with partners sitting together, facing you. Remind the students that they heard the first several chapters of *Tuck Everlasting* and began thinking about the story in terms of character, setting, and plot. Briefly review the story by asking:

- Q *What has happened in the story so far?*

Use “Think, Pair, Share” to discuss:

- Q *What words or phrases might we use to describe Winnie’s character at this point in the story? Why do you think so? [pause] Turn to your partner.*

Have a few volunteers share their thinking. Display the “Winnie’s Character” chart (WA1) and list a few of the students’ ideas on the chart as they generate them.

Winnie's Character

- *bored and frustrated*
- *curious*
- *wants to run away*
- *wants to change the world*

Point out that the main characters of fiction stories often change over the course of the stories. Ask the students to think as they listen to the story about what kind of person Winnie is and how she changes.

2 Read Aloud the Rest of Chapter 5 and Then Chapter 6

Read aloud the last paragraph you read yesterday on page 25, starting at “There was a clearing directly in front of her . . .” Then continue reading pages 25–36 aloud slowly and clearly, stopping as described on the next page. Clarify vocabulary as you read.

Suggested Vocabulary

self-assurance: confidence (p. 25)

reluctantly: without really wanting to (p. 27)

solemnly: very seriously (p. 28)

bridle: something attached to the head of a horse, used to pull or guide the horse (p. 31)

outrage: anger (p. 34)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

scarcely breathing: almost forgetting to breathe; watching carefully (p. 26)

admiring him: liking him (p. 28)

pale: white; looking sick (p. 29)

seized: grabbed (p. 31)

kidnapped: captured and held as a prisoner by someone (p. 31)

harm: hurt (p. 32)

merely goggled at him: just looked at him in a confused way (p. 33)

revolving: turning (p. 35)

Teacher Note

To manage the pace of the lesson, keep partner conversations brief during read-alouds.

Teacher Note

The alternative books for this unit include two novels as well as shorter stories suitable for reteaching each week's lessons. However, in order to keep the students focused on the novel *Tuck Everlasting*, you might instead prefer to reteach lessons in this unit using stories the students are already familiar with.

Stop after:

p. 26 "As he did this, he turned his face in her direction—and their eyes met."

Ask:

Q *What are you thinking about the story so far? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue reading to the next stopping point:

p. 28 "'You have no idea,' he agreed with a nod."

Ask:

Q *What do you think might happen next? What in the story makes you think so? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue reading to the next stopping point. Follow the same procedure at each of the following stops:

p. 30 "'The worst is happening at last.'"

p. 33 "... the man in the yellow suit, his black hat on his head."

p. 36 "'Come sit down, and we'll try to tell you why.'"

As partners talk, circulate among them and listen for whether they are able to make predictions and refer to the text to support their thinking.

CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students use evidence from the text to make predictions and to support their thinking?

Record your observations on the "Class Assessment Record" sheet (CA1); see page 42 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to use evidence from the text to make predictions and support their thinking, proceed with the lesson and continue on to Day 4.
- If **about half of the students** are able to use evidence from the text to make predictions and support their thinking, continue on to Day 4 and plan to monitor the students who are having difficulty during independent reading. You might have a student read a short passage from his story aloud to you and then have him make a prediction about what might happen next and tell you what in the story makes him think so.
- If **only a few students** are able to use evidence from the text to make predictions and support their thinking, you might give the class additional instruction by repeating Day 3 of this week using an alternative book before continuing on to Day 4. Visit the CCC Learning Hub (ccclearninghub.org) to view the "Grade 5 Alternative Texts" list.

3 Discuss Character, Setting, and Plot

First in pairs and then as a class, discuss each of the questions that follow. Be ready to reread from the text to help the students recall what they heard. Remind them to use the discussion prompts they have learned to build on one another's thinking. Ask:

Q *How would you describe the plot, or what's happening to Winnie, so far in this story? Turn to your partner.*

Q *Why do you think the Tucks might be acting so strangely? Turn to your partner.*

Refer to the “Winnie’s Character” chart and discuss:

Q *What else have we learned about Winnie that we can add to this chart? What in the story makes you think that? Turn to your partner.*

As students offer ideas about Winnie’s character, add these to the “Winnie’s Character” chart. Encourage the students to refer to the text to justify their ideas.

Students might say:

“In the plot of this story, Winnie lives a boring life until something exciting happens—she gets kidnapped by the Tucks.”

“I agree with [Rosie], and it has something to do with them not wanting her to drink from the spring.”

“In addition to what [Clay] said, Winnie gets scared and wants to go home.”

4 Add to the “Reading Comprehension Strategies” Chart

Refer to the “Important Elements of Fiction” chart and review that the students have been discussing key elements that are common to all fiction stories: character, setting, and plot. Learning to recognize these elements in any fiction the students read will help them understand it on a deeper level and enjoy it more.

Direct the students’ attention to the “Reading Comprehension Strategies” chart and add *recognizing story elements* to it. Remind the students that they should be practicing these strategies when they read independently.

Teacher Note

Save the “Winnie’s Character” chart (WA1) to use throughout the unit.

Reading Comprehension Strategies

- using text features
- questioning
- recognizing story elements

INDIVIDUALIZED DAILY READING

5 Read Independently and Think About Main Characters

Direct the students' attention to the "Important Elements of Fiction" chart and review that characters are an important element in a story. Point out that we call the important characters in a story the *main characters*. Ask the students to think as they read about who the main characters of their novels are and what they are learning about the main characters. Tell them that at the end of IDR you will ask them to share what they are learning with the class. Have the students get their novels and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 46) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 49 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share with the class the titles of their novels, the authors' names, and what their novels are about. Follow up by asking:

- Q *Who is one of the main characters in your novel?*
- Q *What are you finding out about that character?*

Have the students return to their desks and put away their books.

EXTENSION

Identify Story Elements in Movies and TV Shows

Point out that movies and many TV shows are fiction stories. These visual stories are based on written scripts and have the same elements as written stories (characters, settings, and plots). Have the students watch a movie or TV show and write or tell about the story elements they identify.

ELL Note

You might want to have English Language Learners watch movies or TV shows in their primary languages and identify the characters, settings, and plots.

Read-aloud/ Guided Strategy Practice

Day 4

In this lesson, the students:

- Hear and discuss part of a novel
- Discuss character, setting, plot, and conflict
- Read independently for 25–30 minutes
- Use discussion prompts to build on one another's thinking

1 Discuss Setting

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that they have been hearing the novel *Tuck Everlasting* over the past few days and discussing character, setting, and plot. Point out that they have been introduced to several different settings in this story. Ask the students to close their eyes and imagine the setting as you reread the following passage aloud:

pp. 23–24 “It was another heavy morning . . . and not in the least alarming.”

Without discussing the passage, ask the students to turn to *Student Response Book* page 21, “Excerpt from *Tuck Everlasting*.” Ask partners to reread the excerpt together and talk about what the author might be trying to make them feel about the setting. Encourage them to underline words or phrases that make them feel a particular way.

Circulate and observe as partners work. If you notice the students having difficulty, support them using questions such as:

- Q** *How do you think the author wants us to feel about this setting? What words or phrases make you think so?*

Materials

- *Tuck Everlasting* (pages 37–45)
- *Student Response Book* page 21
- “Winnie’s Character” chart (WA1) from Day 3
- “Important Elements of Fiction” chart and a marker

After a few moments, signal for the students' attention and discuss as a class:

Q *What do you think the author wants us to feel about being in the woods? What words or phrases make you think so?*

Q *Is this a pleasant or unpleasant setting? Why do you think so?*

Point out that authors often use setting to communicate important things about the characters or plots of stories. Ask the students to continue to think about how the author might be using the setting as they listen to more of *Tuck Everlasting* today.

2 Read Aloud Chapters 7 and 8

Reread aloud the last paragraph you read yesterday on page 36 beginning “Look here, Winnie Foster . . .” Then read aloud pages 37–45 slowly and clearly, stopping as described below. Clarify vocabulary as you read.

Suggested Vocabulary

thinly populated: without many people living in it (p. 38)

scornful: thinking something is ridiculous (p. 42)

parson: preacher (p. 43)

elated: thrilled; very happy (p. 45)

receded: went away (p. 45)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

forest: large area of land covered with trees (p. 37)

happened on: came to (p. 38)

carved: cut with a knife (p. 38)

Stop after:

p. 39 “But after ten years, then twenty, they had to face the fact that there was something terribly wrong.”

Ask:

Q *What are you thinking about the story so far? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue reading to the next stopping point. Follow the same procedure at each of the following stops:

p. 41 “‘And, so far as I know, I’ll stay seventeen till the end of the world.’”

p. 43 “And all three of them looked at her hopefully.”

p. 45 “. . . his mouth, above the thin, gray beard, turned ever so slightly toward a smile.”

3 Discuss the Story, Including Conflict or Problem

Facilitate a class discussion using the questions below. Be ready to reread from the text to help the students recall what they heard. Remind them to use the discussion prompts to build on one another's thinking. Ask:

Q *What important events have happened so far in the plot of this story?*

Display the “Winnie’s Character” chart (📄 WA1) and ask:

Q *In what ways is Winnie changing? What makes you think so?*

Add new ideas the students have about Winnie’s character to the chart. Reread aloud the last paragraph on page 45 and ask:

Q *What thoughts are you having about this character, and why?*

Explain that often in stories the main character or characters must deal with a conflict or problem, sometimes in the form of a danger or threat. Point out that a conflict or problem is another important element of many fiction stories, and add *conflict or problem* to the “Important Elements of Fiction” chart.

Important Elements of Fiction

- character: person in a story
- setting: where and when a story takes place
- plot: what happens to the characters in a story (the events that make up the story)
- conflict or problem

Ask:

Q *What clues have there been that the man in the yellow suit might be a problem or source of conflict for the Tucks or Winnie? Why might he be a danger or threat?*

Students might say:

“The Tucks tell Winnie about the secret of the spring.”

“In addition to what [Helena] said, Winnie starts to feel less afraid. She gets more brave.”

“The man in the yellow suit is creepy. He sneaks up behind them and hears the whole story.”

“I agree with [Colin]. He was sneaking around and asking lots of questions earlier in the story.”

TEKS 5.A.ii
Student/Teacher Activity
Step 5
(first paragraph)

Explain that the students will continue to explore conflict in *Tuck Everlasting* next week.

4 Reflect on Using Discussion Prompts

Facilitate a brief discussion about how the students are doing using the discussion prompts by asking questions such as:

- Q *What do you notice about our discussions when you use the discussion prompts?*
- Q *How does it help our discussions when we are able to build on one another's ideas?*

Encourage the students to continue to practice using the prompts during discussions throughout the day.

INDIVIDUALIZED DAILY READING

5 Read Independently and Think About Conflicts or Problems

Direct the students' attention to the "Important Elements of Fiction" chart and remind the students that characters in novels often face conflicts or problems. Ask the students to think as they read about what they are learning about the conflicts or problems faced by the characters in their novels. Tell them that at the end of IDR you will ask them to share what they are learning with the class. Have the students get their novels and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 46) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 49 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each partner tell the title of her novel and the author's name, what the novel is about, and any conflicts or problems the characters in the novel face. After partners have had a chance to share, discuss as a class:

- Q *What did your partner share with you today about his or her reading?*

Remind the students that the purpose of sharing their partners' thinking is to help them develop their listening skills. Have the students return to their desks and put away their books.

TECHNOLOGY EXTENSION

Start a Class Blog About *Tuck Everlasting*

Create a class blog as a forum for the students' thoughts and ideas about *Tuck Everlasting*. Begin by having the students help you write the title, the author's name, and a brief summary of the book. Then have the students help you compose a few sentences telling what the class is enjoying about the novel and what strategies the class has practiced using as they listen to it. Post the write-up on the class blog and invite the students to write their own entries throughout the remaining weeks of the unit. (You might create a schedule that has each student contributing at least one blog entry about the book.) Provide the following questions to stimulate their thinking as they write their blog entries:

- Q *What did you hear in the story today that surprised you?*
- Q *What are you enjoying about the story?*
- Q *What questions do you have about the story?*
- Q *What do you think is going to happen next? Why?*

Alternatively, you might instead have the students blog about the novels they are reading independently. Students might respond to questions such as:

- Q *What is the novel about?*
- Q *Who are the main characters (people in the story) and what are they like?*
- Q *What is the setting (where and when does the story take place)?*
- Q *What is the plot (what happens to the characters)?*
- Q *Would you recommend this novel? Why?*

Invite the students' families to read the blog and post follow-up comments and questions. Share the families' comments and questions with the students and invite the students to respond to them.

Vocabulary Note

Next week you will revisit *Tuck Everlasting* to teach the Week 8 vocabulary lessons.

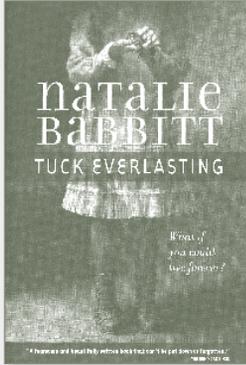

Technology Tip

For more information about setting up and maintaining a class blog, view the "Using Blogs in the Classroom" tutorial (AV45).

Week 2

OVERVIEW

Tuck Everlasting*

by Natalie Babbitt

When young Winnie Foster meets the Tuck family, who have drunk from the spring of immortality, she must protect their secret while deciding if she will join them on their ageless journey or live a mortal, human life.

**This book is used throughout Unit 4.*

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activity

- WA1

Assessment Forms

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheet (CN1)

Reproducible

- (Optional) “Excerpt from *Tuck Everlasting*” (BLM2)

Comprehension Focus

- Students use questioning to make sense of a novel.
- Students think about whether their questions are answered explicitly or implicitly in a novel.
- Students analyze text structure, including the story elements character, setting, plot, and conflict.
- Students read independently.

Social Development Focus

- Students analyze why it is important to be respectful.
- Students build on one another's thinking during partner and class discussions.

⌚ DO AHEAD

- ✓ Prior to Day 1, prepare a sheet of chart paper with the title “Questions About *Tuck Everlasting*.”
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA2); see page 43 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 8 lessons this week.

Materials

- *Tuck Everlasting* (pages 46–55)
- “Reading Comprehension Strategies” chart
- “Questions About *Tuck Everlasting*” chart, prepared ahead, and a marker
- *Student Response Book* page 22
- “Important Elements of Fiction” chart from Week 1

In this lesson, the students:

- Hear and discuss part of a novel
- Use questioning to make sense of the novel
- Discuss character, setting, plot, and conflict
- Read independently for 25–30 minutes
- Use discussion prompts to build on one another’s thinking

1 Review Chapters 1–8

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind them that they have been exploring elements of fiction through the novel *Tuck Everlasting*. Ask and briefly discuss:

Q *What has happened in the story so far?*

2 Review the “Reading Comprehension Strategies” Chart

Refer to the “Reading Comprehension Strategies” chart and review that recognizing story elements is a powerful strategy the students can use to better understand stories they hear and read independently. If necessary, refer to the “Important Elements of Fiction” chart and review the story elements character, setting, plot, and conflict or problem.

Remind the students that questioning is also a powerful strategy for helping readers pay close attention to a text and that they used this strategy previously with expository texts. Explain that they will use questioning to help them make sense of fiction in the coming weeks.

3 Read Aloud Chapter 9 and Model “Stop and Ask Questions”

Explain that the students will use the thinking tool “Stop and Ask Questions” as they listen to chapters 9 and 10 of *Tuck Everlasting*. Explain that as you read aloud, you will stop several times for them to think about what questions they have and write those questions down. Refer to the “Questions About *Tuck Everlasting*” chart and explain that they will come up with questions together as a class at the first two stops.

Reread the last paragraph on page 45 aloud. Then continue to read pages 46–49 aloud slowly and clearly, stopping as described on the next page. Clarify vocabulary as you read.

Suggested Vocabulary

put vanity aside: stopped caring so much about how she looked (p. 46)

revived: awakened from sleep (p. 47)

colander: bowl with holes in it that is used to wash vegetables (p. 47)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

on the brink of burning: so dry it could easily catch on fire (p. 47)

embankment: hill (p. 47)

enveloped: covered or surrounded (p. 49)

Stop after:

p. 48 “The boys say you brung along a real, honest-to-goodness, natural child!”

Ask:

Q *What questions can we ask about the story right now? Turn to your partner.*

Have a few volunteers share their questions with the class.

Record the questions, exactly as stated, on the “Questions About *Tuck Everlasting*” chart.

Reread the last sentence and continue reading to the next stop:

p. 49 “. . . this is the finest thing that’s happened in—oh—at least eighty years.”

Ask:

Q *What questions can we ask about the story? Turn to your partner.*

Have a few volunteers share their questions. Record the questions, exactly as stated, on the “Questions About *Tuck Everlasting*” chart.

4 Continue Reading Aloud with “Stop and Ask Questions”

Ask the students to turn to *Student Response Book* page 22, “Stop and Ask Questions About *Tuck Everlasting* (1).” Explain that at the next three stops, the students will write questions on their own.

Reread the last sentence on page 49. Then continue to read aloud through page 55 slowly and clearly, stopping as described on the next page and clarifying vocabulary as you read.

Teacher Note

The intent of “Stop and Ask Questions” is to have the students focus on the kinds of questions that *could be asked* about the reading, even if they do not naturally have questions at this point. Students should generate *any* questions they can think of related to the reading. Accept their questions without discussion. Hearing others’ questions gives the students examples of the kinds of questions that can be asked. If the students have difficulty generating questions, model writing a few yourself (for example, *Does anyone else know where the Tucks live? How is Tuck going to behave toward Winnie? and Is Winnie going to like staying with the Tucks?*).

Facilitation Tip

Continue to **ask facilitative questions** to build accountability and participation during class discussions. Redirect students' comments to the class by asking:

- Q *Do you agree or disagree with what [Ricki] just said? Why?*
- Q *What can you add to what [Ricki] said?*

Much of the learning in this program relies on creating a dynamic discourse among the students. Facilitative questions teach them that their comments contribute to a class discussion and that they are responsible for listening to one another and responding.

Teacher Note

The purpose of this discussion is to establish the students' surface-level understanding and their ability to ask questions about the text. The students may struggle to support their conclusions with details from the story. Be ready to reread passages from the text to help the students recall what they heard.

Suggested Vocabulary

indomitable: unbeatable (p. 50)

camphor: mothballs, used to keep moths away from clothes (p. 51)

revolutionary: world- or life-changing (p. 53)

shed: take off (p. 55)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

helter-skelter: in a confused way (p. 51)

disarray: mess (p. 52)

carpentering: making things out of wood (p. 53)

blacksmith: person who makes things out of iron, like horseshoes (p. 53)

Stop after:

- p. 53** " 'Where do they go when they're away?' asked Winnie. 'What do they do?'"

Have the students quietly write their questions in the Stop 3 box on *Student Response Book* page 22. Without discussing as a class, reread the last sentence and continue reading. Follow this procedure at the next two stopping points:

- p. 54** " 'It's just about time.'"

- p. 55** " 'And, likewise, I don't see how we deserve to be cursed, if it's a curse.'"

Then read to the end of page 55.

5 Use Questions to Discuss the Story

Ask the students to review their questions and put a check mark next to each question they think is answered in the story. Then have partners discuss the story using their questions. Ask them to think about what they heard that might help answer some of their questions.

After a few minutes, facilitate a class discussion using the questions below. Encourage the students to use the discussion prompts they have learned. Ask:

- Q *Which questions got you and your partner talking about the reading? What did you hear that helped you to discuss those questions?*

If the students do not suggest the question “Is immortality a blessing or a curse?” ask it yourself and record it, exactly as stated, on the “Questions About *Tuck Everlasting*” chart.

Students might say:

“My partner asked, ‘Where do the boys live when they’re not with their parents?’ We said the answer is in the story, because Mae says they move from place to place.”

“I asked, ‘How does Winnie like the Tucks’ home?’ We remembered that the book says Winnie is ‘charmed.’ That tells me she likes it, at least so far.”

Tell the students that in the next lesson, they will revisit their questions and use them to think more about the story.

INDIVIDUALIZED DAILY READING

6 Read Independently and Think About Story Elements

Direct the students’ attention to the “Important Elements of Fiction” chart. Ask the students to think as they read about what they are learning about their novels’ characters, settings, and plots, as well as any conflicts or problems the characters face. Tell them that at the end of IDR, you will ask them to share what they are learning with the class. Have the students get their novels and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 46) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 49 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share with the class the titles of their novels, the authors’ names, and what the novels are about. Follow up by asking questions such as:

Q *Who is a main character in your novel?*

Q *What are you finding out about that character?*

Teacher Note

Refrain from discussing the question “Is immortality a blessing or a curse?” at this point. The question is an important theme in *Tuck Everlasting* and will be revisited by the students in Week 4, Day 2 (see Step 2).

Teacher Note

Save the “Questions About *Tuck Everlasting*” chart to use throughout the unit.

Materials

- *Tuck Everlasting*
- Copy of “Excerpt from *Tuck Everlasting*” (BLM2) for each student

Teacher Note

You might explain that in the novel, the paragraph begins “So she . . .” but that “[Winnie]” is used in the excerpt to make clear who is being referred to.

Teacher Note

Prior to doing this activity, visit the CCC Learning Hub (ccclearninghub.org) to access and print copies of “Excerpt from *Tuck Everlasting*” (BLM2). Make enough copies for each student to have one, and set aside a copy for yourself. Preview the excerpt and identify vocabulary that you want to clarify as you read.

Q *What conflict or problem is that character facing?*

Q *What is the setting like in your novel?*

Have the students return to their desks and put away their books.

WRITING ABOUT READING

Write About Setting in *Tuck Everlasting*

Show the cover of *Tuck Everlasting* and review that earlier the class discussed a setting in the novel. Explain that today the students will take a closer look at another setting in the novel, the Tucks’ home, and they will think about what the setting tells them about the Tucks.

Distribute copies of “Excerpt from *Tuck Everlasting*” (BLM2) and explain that this is the part of the novel that introduces the Tucks’ home. Ask the students to follow along as you read the excerpt aloud and to think as they listen about what they are learning about the setting and what it tells them about the kind of people the Tucks are. Read the excerpt aloud slowly and clearly. Stop periodically and ask:

Q *What new details are you learning about the Tucks’ home?*

After you have finished reading the excerpt aloud, ask:

Q *How would you describe the Tucks’ home in your own words? What in the story makes you think that?*

Have a few volunteers share their thinking. Then ask:

Q *What does this setting tell you about the kind of people the Tucks are?*

Have a few volunteers share their thinking.

Students might say:

“The Tucks’ home is very messy. The book says the furniture is ‘set about helter-skelter’ and there’s a lot of dust and cobwebs. That makes me think they are relaxed. They’d rather relax than run around cleaning up all the time.”

“I agree with [Roberta]. I think they’re relaxed and they’re also very creative. They’re always making things and that causes a lot of mess.”

“I agree with [Roberta and Tim]. They also seem cheerful. The book describes sunlight pouring in and bowls of flowers everywhere. That sounds like a cheerful home.”

“I partly agree with [Antoine], but it also seems a little sad that they have to live in such a messy place. I wonder if it means they’re kind of depressed because they’re stuck in time. Maybe they’ve given up on taking care of things.”

Ask the students to watch as you think aloud and model writing about the setting of the Tucks’ home and what it reveals about the Tuck family.

You might say:

"First I want to describe the setting. I'll write: *The Tucks' home is messy and not very clean. There are cobwebs and dust, materials from Mae's sewing projects, and half-finished carving projects that Tuck is working on. It is also filled with sunlight and flowers.* Now I want to write about what this tells me about the Tucks. I'll write: *These details tell me that the Tucks are relaxed, creative people who are more interested in enjoying life and doing interesting projects than worrying about keeping an orderly home.*"

Have the students write about the setting of the Tucks' home and what it reveals to them about the Tucks. If time permits, ask a few volunteers to share their writing with the class.

Read-aloud/Strategy Lesson

Day 2

In this lesson, the students:

- Hear and discuss part of a novel
- Use questioning to make sense of the novel
- Think about whether questions are answered directly, indirectly, or not at all
- Discuss conflict and character change
- Read independently for 25–30 minutes
- Use discussion prompts to build on one another's thinking

Materials

- *Tuck Everlasting* (pages 56–66)
- “Questions About *Tuck Everlasting*” chart from Day 1
- *Student Response Book* pages 22–23
- “Important Elements of Fiction” chart
- “Winnie’s Character” chart (WA1) from Week 1

1 Review Questions About the Story

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that yesterday they used “Stop and Ask Questions” to help them make sense of and discuss *Tuck Everlasting*. Briefly review the questions on the “Questions About *Tuck Everlasting*” chart, and have the students review the questions they wrote on *Student Response Book* page 22.

Explain that the students will practice “Stop and Ask Questions” again today as they listen to chapters 11, 12, and 13. Ask them to turn to *Student Response Book* page 23, “Stop and Ask Questions About *Tuck Everlasting* (2).” Explain that as they did yesterday, they will ask questions together as a class at the first stop and then write their own questions at the next four stops.

2 Read Aloud Chapters 11, 12, and 13

Reread the last paragraph on page 55 aloud. Then read pages 56–66 aloud slowly and clearly, stopping as described below. Clarify vocabulary as you read.

Suggested Vocabulary

luxurious: like something very expensive, pleasurable, and special (p. 56)

elation: great happiness (p. 57)

wood thrush: kind of bird (p. 61)

bow: front of a boat (p. 62)

stern: back of a boat (p. 62)

protesting: arguing (p. 63)

anguish: great suffering or pain (p. 64)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

collapse: fall apart (p. 57)

criminals: people who break the law (p. 57)

surge of relief: sudden feeling that everything will be all right (p. 58)

rescued: saved (from her kidnappers) (p. 60)

trample: walk or stomp on (p. 64)

Teacher Note

Remember that the intent of “Stop and Ask Questions” is to have the students focus on the kinds of questions that *could be asked* about the reading. Students should generate *any* questions they can think of related to the reading.

Teacher Note

Circulate and notice whether students are able to write questions at each stop. If they are having difficulty, have a few volunteers share their questions with the class and record them on the class chart, without stopping for discussion. Then have the students resume writing questions on their own.

Stop after:

p. 57 “She put down her fork and said, unsteadily, ‘I want to go home.’”

Ask:

Q *What questions can we ask about the story right now?*

Call on a few volunteers to share their questions aloud, and record the questions, exactly as stated, on the “Questions About *Tuck Everlasting*” chart. Then reread the last sentence and continue reading to the next stop:

p. 59 “ ‘Come along, child. Let’s go out on the water.’ ”

Have the students record their questions in the Stop 2 box on *Student Response Book* page 23. Without discussing the questions, reread the last sentence before the stop and continue reading to the next stopping point. Follow this procedure at the remaining stops:

p. 63 “ ‘That’s what us Tucks are, Winnie. Stuck so’s we can’t move on.’ ”

p. 65 “ ‘Someone’s stole the horse.’ ”

p. 66 “ ‘I know where they’ve taken the little girl.’ ”

3 Analyze Questions Individually

Ask the students to individually review their questions from *Student Response Book* pages 22–23 and to put a check mark next to each question they think is answered in the story. After they have had a moment to do this, call for their attention.

Point out that sometimes answers to questions are given right in the text, and sometimes an answer is not given directly but can be figured out from clues in the story. Direct the students' attention to one question on the "Questions About *Tuck Everlasting*" chart that is answered directly in the story and one that is answered indirectly, and think aloud about how the questions are answered, referring to the text to support your thinking.

You might say:

"The question 'Does Miles have a job?' is answered directly on page 53, where Mae says, 'Miles can do carpentering, and he's a pretty fair blacksmith, too.' The question 'Is the man in the yellow suit good or bad?' isn't answered directly, but the story gives us clues. He spied on the Tucks and overheard their story, and now he has stolen their horse and taken it to the Fosters in the middle of the night. He's up to something, but we don't know what."

Ask:

Q *What is another question on our chart that has been answered? Is it answered directly, or indirectly using clues? How?*

Ask the students to look at the questions they wrote on *Student Response Book* pages 22–23 and to think quietly to themselves as you ask the following questions, one at a time:

Q *Look at the questions you marked with a check. Which of those questions do you think are answered directly in the story?*

Q *Which of those questions do you think are answered indirectly through clues? What clues?*

4 Use Questions to Discuss the Story

Have the students discuss the story in pairs using their questions. Ask them to think about what they heard in the story that might help answer their questions and about whether their questions were answered directly or indirectly through clues.

When most pairs have finished talking, facilitate a class discussion using the questions that follow. Remind the students to use the discussion prompts to help them build on one another's thinking. Ask:

Q *What is a question that got you and your partner talking about the story?*

Q *Is that question answered directly, or did you figure out the answer from clues? What clues?*

Teacher Note

If necessary, add examples of questions answered directly or indirectly to the chart.

Teacher Note

Disagreements about whether and how a question is answered are opportunities for the students to think more deeply about a story and use evidence from the text to support their opinions. Remember that after hearing the text just once, the students will likely need help recalling details. Be ready to reread passages from the text as they refer to them in their explanations.

Teacher Note

The reading comprehension strategy of making inferences is introduced informally here. It will be the focus of Units 5 and 6.

TEKS 8.B.i

TEKS 8.B.ii

Student/Teacher Narrative
Step 5

Teacher Note

Character change and conflict can be subtle and challenging for students to understand. These ideas are introduced here and revisited in the coming days, but students often need repeated exposure over many different texts to begin to see how these elements function in literature. The goal in this unit is for the students to develop an awareness that most fiction contains characters who face challenges and learn from them, and that readers should look for these elements to help them make sense of the fiction they read.

Q *What questions were not answered? How do you know?*

Q *Do others agree that the question is [answered in that way/not answered]? Explain your thinking.*

Students might say:

"My partner asked, 'Why did Winnie suddenly say she wanted to go home?' We said the answer is in the story, because it said she didn't like the way the Tucks were eating."

"I disagree with [Sadie] because it was more than that. She started to think they were dirty and crazy and that they were criminals."

Explain that when a reader uses clues to figure out something that is not stated directly in a story, the reader is making an *inference*. Explain that making inferences is an important reading comprehension strategy that the students will explore in more depth in the coming weeks.

5 Discuss Conflict and Character Change

Refer to the "Important Elements of Fiction" chart and remind the students that good readers think about character, setting, plot, and conflict to help them make sense of what is happening in a fiction story. Point out that conflicts can be between characters or within a character's own feelings. Display the "Winnie's Character" chart (WA1). Use "Think, Pair, Share" to discuss:

Q *Winnie feels many conflicting feelings (feelings that oppose or disagree with each other) in this story. What are some of these feelings? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

"She wants to run away and change the world, but sometimes she's also afraid and wants to go home."

"She likes the Tucks sometimes, but she also thinks they might be crazy criminals."

As the students respond, record their thoughts on the chart. If necessary, point out that Winnie has conflicting feelings about the Tucks and whether she can trust them or not. She is also conflicted between her desire to be independent (to run away and make a difference in the world) and her fear of independence (wanting to be rescued and go home). Explain that characters often learn or change as a result of a story's conflicts. Ask:

Q *How do you think Winnie might change as the story goes on?*

Explain that the students will continue to think in the coming weeks about how Winnie changes over the course of the story.

INDIVIDUALIZED DAILY READING

6 Read Independently and Think About Story Elements

Direct the students' attention to the "Important Elements of Fiction" chart. Ask the students to think as they read about what they are learning about their novels' characters, settings, and plots, as well as any conflicts or problems the characters face. Tell them that at the end of IDR you will ask them to share what they are learning with the class. Have the students get their novels and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 46) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 49 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share with the class the titles of their novels, the authors' names, and what the novels are about. Follow up by asking questions such as:

- Q *Who is a main character in your novel?*
- Q *What are you finding out about that character?*
- Q *What conflict is that character facing? How do you think the character might change?*
- Q *What is the setting like in your novel? What feelings does the author communicate through the setting?*

Have the students return to their desks and put away their books.

EXTENSION

Practice Visualizing with *Tuck Everlasting*

Invite the students to close their eyes and visualize (make a picture in their minds) as they listen to you reread the opening three paragraphs of chapter 12 of *Tuck Everlasting*. Read those paragraphs aloud slowly and clearly. Then have partners turn and talk about what they imagined.

Day 3

Read-aloud/Strategy Lesson

Materials

- *Tuck Everlasting* (pages 67–75)
- *Student Response Book* pages 22–24
- “Important Elements of Fiction” chart

As a class, ask and briefly discuss:

- Q *What senses did you use as you listened to this description?*
- Q *What words did you hear, and what did those words make you imagine?*

Invite the students to look for descriptive language in fiction stories they read independently. Have students read descriptive passages aloud to partners or to the class. Encourage the students to listen to each passage with their eyes closed and to think about what the author is doing to help them imagine what is happening.

In this lesson, the students:

- Learn to use discussion prompts in pairs
- Hear and discuss part of a novel
- Use questioning to make sense of the novel
- Think about whether their questions are answered directly, indirectly, or not at all
- Read independently for 25–30 minutes
- Act respectfully toward their partners

1 Introduce Using Discussion Prompts in Pairs

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that they have been using discussion prompts to help them build on one another’s ideas during class discussions. Ask:

- Q *How do you think the prompts have been helping us communicate better during class discussions?*

Explain that today you would like the students to start using the discussion prompts during their partner conversations as well as during class discussions. Ask:

- Q *If you and your partner disagree, what will you do to let him or her know that you still respect his or her thinking?*

Ask the students to keep what they talked about in mind as they practice using the prompts in pairs today.

2 Briefly Review the Story

Ask and briefly discuss:

Q *What are some of the things that have happened since Winnie arrived at the Tucks' house?*

Ask the students to briefly review their questions on *Student Response Book* pages 22–23. Explain that you will read chapters 14 and 15 aloud today and that the students will continue to ask questions and listen for answers to their questions. Have them turn to *Student Response Book* page 24, “Stop and Ask Questions About *Tuck Everlasting* (3).”

3 Read Aloud Chapters 14 and 15

Read pages 67–75 aloud slowly and clearly, stopping at the five stops below to have students write their questions. Clarify vocabulary as you read.

Suggested Vocabulary

struck dumb: unable to talk (p. 72)

barbarian: uncivilized person with bad manners (p. 74)

illiterates: people who don't know how to read or write (p. 74)

constable: police officer in a small town (p. 75)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

refused: turned down; said no to (p. 68)

adored: loved (p. 72)

p. 68 “It was nonsense. Wasn't it? Well, wasn't it?”

p. 71 “And all at once she wondered what would happen to the Tucks when her father came.”

p. 72 “. . . and stared into the moonlight for another half an hour before she fell asleep.”

p. 74 “ ‘It would mean a great deal to me to own it.’ ”

p. 75 “ ‘I'm so thankful I was here to help you out!’ ”

4 Analyze Questions Individually

Ask the students to review the questions they wrote today, as well as their questions on *Student Response Book* pages 22–23, and to put a check mark next to questions they think are answered in the story. After

Teacher Note

Keep this discussion moving. It is not necessary to hear from all the students. Use “Turn to Your Partner” as necessary to engage everyone in thinking about the questions, but call on just a few students to share aloud during the class discussion.

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step and in Step 4 for this unit's Individual Comprehension Assessment.

Teacher Note

Circulate as the students discuss their questions, and make note of instances where you hear the students using the discussion prompts. You will share these with the class at the end of today's lesson.

a few moments, call for their attention and have them think quietly to themselves as you ask the following questions, one at a time:

- Q** *Look at the questions you marked with a check. Which of those questions do you think are answered directly in the story?*
- Q** *Which questions do you think are answered indirectly through clues? What clues?*

5 Use Questions to Discuss the Story

Have partners discuss the story with each other using their questions. Ask them to think about what they heard in the story that might help answer their questions and whether their questions were answered directly or indirectly through clues. Refer to the discussion prompts and remind the students to use the prompts in their partner conversations.

When most pairs have finished talking, facilitate a class discussion using the questions that follow. Remind the students to use the discussion prompts to help them listen to one another, and be ready to reread from the text to help the students recall what they heard. Ask:

- Q** *What is a question that got you and your partner talking about the story?*
- Q** *Is that question answered directly, or did you figure out the answer from clues? What clues?*
- Q** *What did we find out about the man in the yellow suit in today's reading? What clues do we have about his personality?*
- Q** *How is Winnie feeling about the Tuck family at this point? How do you know?*

Explain that the students will continue to use their questions to discuss *Tuck Everlasting* next week.

6 Reflect on Using Discussion Prompts in Pairs

Facilitate a brief discussion about how the students did using the discussion prompts while talking with their partners. Share examples of prompts you heard the students using.

Explain that the goal of learning the discussion prompts is to use them naturally in both partner and class conversations. The discussion prompts can help the students listen well and participate responsibly in all discussions.

INDIVIDUALIZED DAILY READING

7 Read Independently and Think About Story Elements

Direct the students' attention to the "Important Elements of Fiction" chart. Ask the students to think as they read about what they are learning about their novels' characters, settings, and plots, as well as any conflicts or problems the characters face. Tell them that at the end of IDR, you will ask them to share what they are learning with the class. Have the students get their novels and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 46) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 49 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each partner tell the title of his novel, the author's name, what the novel is about, and what he is learning about the setting, the plot, or the characters and any conflicts they face. After partners have had a chance to share, discuss as a class:

Q *What did your partner share with you today about his or her reading?*

Remind the students that the purpose of sharing their partners' thinking is to help them develop their listening skills. If time permits, have one or two volunteers read interesting passages from their novels to the class.

Have the students return to their desks and put away their books.

Materials

- Medium-size self-stick notes for each student
- “Class Assessment Record” sheet (CA2)

TEKS 6.B.iii

TEKS 6.B.iv

Student/Teacher Narrative

Steps 1 and 2 and Teacher Note on page 194

Teacher Note

If necessary, model the procedure using a fiction story the students are familiar with. Read several sentences aloud, think aloud about a question you have, jot the question on a self-stick note, and place the note in the margin where you stopped reading. For example, you might use *Something to Remember Me By* and say, “I’m wondering whether the girl in the story is going to keep all the things her grandmother gave her even after she grows up. I’m going to write the question *Will the girl keep all her grandmother’s gifts even after she grows up?* on a self-stick note and put the note here, next to the part that lists lots of things her grandmother gave her.”

In this lesson, the students:

- Read independently
- Use questioning to make sense of novels they read independently
- Act respectfully toward their partners

1 Review Questioning

Have the students get their pencils and novels for independent reading and sit at desks with partners together. Remind them that they have been using the strategy of questioning and the thinking tool “Stop and Ask Questions” to help them make sense of the novel *Tuck Everlasting*. Review that they thought about whether or not their questions were answered and, if they were, whether they were answered directly or whether they were answered indirectly through story clues.

Remind the students that questioning is a valuable strategy for helping readers understand everything they read. Explain that today they will practice using questioning in their independent reading.

2 Use “Stop and Ask Questions” with Independent Reading

Explain that the students will practice using “Stop and Ask Questions” as they read novels independently today. They will use self-stick notes to mark places in their reading where questions come to mind, and they will write each question on a note. Remind them that they used this thinking tool previously to ask questions about expository texts and that they will use their written questions to help them discuss their reading afterward.

3 Read Independently and Share Questions

Distribute self-stick notes to each student and have the students read novels independently for 25–30 minutes. Stop at 5-minute intervals to have partners share questions they have written on self-stick notes so far. At the first stop, have each student say the title of the book she is reading, the author’s name, and a few sentences about the plot.

Circulate among the students and notice whether they are able to write questions about their reading. Ask individual students questions such as:

- Q *What question can you ask about the setting of the novel? The characters? The conflict?*
- Q *What is happening in the novel right now? What is one thing you wonder about what is happening? How can you ask that as a question?*

TEKS 6.B.iii

Student/Teacher Activity

Steps 3 and 4

4 Discuss the Students' Questions

Signal to let the students know when it is time to stop reading. Have the students talk with their partners about their questions and what they found out in their reading about those questions. Remind them to act in a respectful way toward each other.

Circulate among pairs. Listen for evidence that the students asked questions during their reading and are referring to the text to discuss their questions.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students using their questions to talk about their reading?
- Are they referring to the text to discuss their questions?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 43 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are using their questions to talk about their independent reading, proceed with the lesson and continue on to Week 3.
- If **about half of the students** are using their questions to talk about their independent reading, continue on to Week 3 and plan to monitor students who are having difficulty during independent reading. You might have a student read a short passage from her story aloud to you and think of a question she could ask at that point in the reading. Then have the student continue reading for a while and check in with her to see if her question was discussed.
- If **only a few students** are using their questions to talk about their independent reading, you might give the class additional instruction by repeating this week’s instruction using a familiar story or an alternative book before continuing on to Week 3. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

Have a few volunteers share their questions with the class. Probe the students’ thinking by asking:

- Q *What was happening in the text when that question came to mind?*
- Q *How would you answer that question right now? What evidence in the novel makes you think that?*
- Q *Is that question answered directly in the text or indirectly through clues? If directly, how? If indirectly, through what clues?*

Explain that the students will have more opportunities to use “Stop and Ask Questions” to think about their reading.

 **ELL Note**

Consider providing prompts for your English Language Learners' responses, such as "I noticed myself using the prompts . . ." and "A time when I could use the prompts is . . ."

Vocabulary Note

Next week you will revisit *Tuck Everlasting* to teach the Week 9 vocabulary lessons.

5 Reflect on Working Together

Remind the students that this week they focused on using prompts to help them listen and build on one another's thinking in partner and class conversations, and that the goal of learning the discussion prompts is to use them naturally throughout the day. Ask and briefly discuss questions such as:

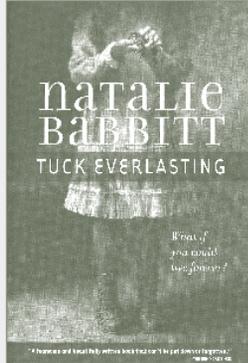

- Q** *Have you noticed yourself using the discussion prompts naturally in your conversations throughout the day? Tell us about it.*
- Q** *If you haven't been using the discussion prompts, when is a time during the school day that you might be able to use them to help you listen to and talk with another person?*

Encourage the students to look for opportunities to use the discussion prompts naturally throughout the day, and let them know that you will check in with them again next week to see how they are doing.

Have the students return to their desks and put away their books.

Week 3

OVERVIEW

*Tuck Everlasting**

by Natalie Babbitt

When young Winnie Foster meets the Tuck family, who have drunk from the spring of immortality, she must protect their secret while deciding if she will join them on their ageless journey or live a mortal, human life.

**This book is used throughout Unit 4.*

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA2

Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “IDR Conference Notes” record sheet (CN1)

Comprehension Focus

- Students use questioning to make sense of a novel.
- Students think about whether their questions are answered explicitly or implicitly in a novel.
- Students analyze text structure, including the story elements character, setting, plot, and conflict.
- Students read independently.

Social Development Focus

- Students analyze why it is important to be respectful.
- Students build on one another's thinking during partner and class discussions.

🕒 DO AHEAD

- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA3); see page 44 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 9 lessons this week.

Day 1

Read-aloud/Strategy Lesson

Materials

- *Tuck Everlasting* (pages 76–88)
- “Important Elements of Fiction” chart
- *Student Response Book* pages 22–25

Teacher Note

Keep this discussion moving. It is not necessary to hear from all the students. Use “Turn to Your Partner” as necessary to engage everyone in thinking about the questions, but call on just a few students to share aloud during the class discussion.

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step and in Step 3 for this unit’s Individual Comprehension Assessment.

In this lesson, the students:

- Hear and discuss part of a novel
- Use questioning to make sense of the novel
- Read independently for 25–30 minutes
- Use discussion prompts to build on one another’s thinking

1 Review Chapters 9–15

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that they have been exploring elements of fiction as they hear the novel *Tuck Everlasting*. Briefly review the “Important Elements of Fiction” chart and explain that as the students hear more of the novel this week, they will talk about how these elements contribute to the story. Ask and briefly discuss:

Q *What do you remember about the story?*

2 Read Aloud Chapters 16 and 17

Have the students turn to *Student Response Book* pages 22–24 and review the questions they wrote last week. After a moment, ask:

Q *What questions did you write last week that you will be listening for information about today?*

Explain that you will read chapters 16 and 17 aloud today and that the students will continue to ask questions and listen for answers to their questions. Have them turn to *Student Response Book* page 25, “Stop and Ask Questions About *Tuck Everlasting* (4).”

Read pages 76–88 aloud slowly and clearly, stopping at the four stops on the next page to have the students write their questions. Clarify vocabulary as you read.

Suggested Vocabulary

gallows: place where prisoners are executed (killed) by hanging (p. 78)

oar: boat paddle made of wood (p. 84)

peril: life-threatening danger (p. 85)

teeming world: place with many creatures in it (p. 85)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

dawn: morning (p. 76)

courteous: polite (p. 76)

kidnapping: crime in which someone is captured and held as a prisoner by someone (p. 78)

gallop: horse's fast run (p. 79)

mosquito: a kind of blood-sucking flying insect (p. 86)

- p. 77** "The constable ran his fingers down the gleaming barrel of the shotgun."
- p. 79** "'Say,' he said. 'You're kind of a close-lipped feller, ain't you?'"
- p. 84** "'Why didn't you take them to the spring and give them some of the special water?'"
- p. 87** "'Put it back, Miles,' she said, her voice dry and harsh. 'Put it back right away.'"

Read to the end of the chapter.

3 Analyze Questions Individually

Ask the students to review the questions they wrote today, as well as their questions on *Student Response Book* pages 22–24, and to put a check mark next to questions they think are answered in the story. After a few moments, call for their attention and have them think quietly to themselves as you ask the following questions, one at a time:

- Q** *Look at the questions you marked with a check. Which of those questions do you think are answered directly in the story?*
- Q** *Which questions do you think are answered indirectly through clues? What clues?*

4 Use Questions to Discuss the Story

Have partners discuss the story with each other using their questions. Ask them to think about what they heard in the story that might help answer their questions and whether their questions were answered directly or indirectly through clues. Refer to the discussion prompts and remind the students to use them in their partner conversations.

When most pairs have finished talking, facilitate a class discussion using the questions that follow. Remind the students to use the discussion prompts to help them listen to one another, and be ready to reread from the text to help the students recall what they heard. Ask:

- Q** *What is a question that got you and your partner talking about the story?*
- Q** *Is that question answered directly, or did you figure out the answer from clues? What clues?*

Q *How is Winnie feeling about the Tucks now? What in the story makes you think that?*

Remind the students that when a reader uses clues to figure out something that is not stated directly in a story, the reader is making an *inference*. Review that making inferences is an important reading comprehension strategy that the students will explore in more depth in the coming weeks.

5 Reflect on Using Discussion Prompts in Pairs

Facilitate a brief discussion of how the students did using the discussion prompts while talking with their partners. Ask:

Q *Who used one of the prompts today while talking with your partner? How did that help you listen well and participate responsibly in the discussion?*

Remind the students that the goal of learning the discussion prompts is to use them naturally in both partner and class conversations.

INDIVIDUALIZED DAILY READING

6 Read Independently and Think About Story Elements

Direct the students' attention to the "Important Elements of Fiction" chart. Ask the students to think as they read about what they are learning about their novels' characters, settings, and plots, as well as any conflicts or problems the characters face. Tell them that at the end of IDR you will ask them to share what they are learning with the class. Have the students get their novels and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 46) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 49 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share with the class the titles of their novels, the authors' names, and what their novels are about. Follow up by asking questions such as:

Q *Who is a main character in your novel?*

- Q *What are you finding out about that character?*
- Q *What conflict or problem is that character facing? How do you think the character is changing?*
- Q *What is the setting like in your novel? What feelings does the author communicate through the setting?*

If time permits, have one or two volunteers read interesting passages from their novels to the class.

Have the students return to their desks and put away their books.

Read-aloud/Strategy Lesson

Day 2

In this lesson, the students:

- Hear and discuss part of a novel
- Use questioning to make sense of the novel
- Discuss conflict and character
- Read independently for 25–30 minutes
- Write in their reading journals
- Use discussion prompts to build on one another’s thinking

1 Review Chapters 16 and 17

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind them that yesterday they heard chapters 16 and 17 of *Tuck Everlasting*. Briefly review the story by discussing:

- Q *What new information did we find out about the man in the yellow suit in yesterday’s reading?*
- Q *What happens when Winnie and Miles go fishing?*

2 Read Aloud Chapters 18 and 19

Have the students turn to *Student Response Book* pages 22–25 and review the questions they have written. After a moment, ask:

- Q *What questions have you written that you will be listening for information about today?*

Explain that the students will not write new questions today but that you will stop periodically as you read today to have partners talk about what they are hearing. At the end of the reading, they will revisit their questions and use them to talk about the reading.

Materials

- *Tuck Everlasting* (pages 89–100)
- *Student Response Book* pages 22–25
- “Important Elements of Fiction” chart
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA2)

Read pages 89–100 aloud slowly and clearly, stopping as described below. Clarify vocabulary as you read.

Suggested Vocabulary

took possession of me: made me so interested I could think of nothing else (p. 95)

flush: red color (on the skin) (p. 97)

ignorant: uneducated; not very smart (p. 98)

demonstrations: shows (p. 98)

fatal: able to cause death (p. 98)

patent-medicine show: show usually put on by someone who's trying to make money in a dishonest way (p. 98)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

blushed: turned red from embarrassment (p. 89)

fascinated: very interested (p. 95)

Stop after:

p. 92 "It is Mrs. Tuck, isn't it. May I come in?"

Ask:

Q *What's happening at this point in the story? Turn to your partner.*

Without discussing as a class, reread the last sentence before the stop and continue reading to the next stopping point. Follow this procedure at the remaining stops:

p. 95 " 'Anna!' whispered Miles."

p. 97 " 'I'm going to sell the water, you see.' "

p. 100 "And at that very moment, riding through the pine trees just in time to see it all, came the Treegap constable."

Teacher Note

Remind the students to use the discussion prompts during this discussion. Also be ready to reread from the text to help the students recall what they heard.

TEKS 8.B.i

TEKS 8.B.ii

Student/Teacher Activity
Step 3

3 Discuss Conflicts or Problems

Ask:

Q *What has happened in these two chapters?*

Refer to the "Important Elements of Fiction" chart and remind the students that often in a story a character or characters face a conflict or problem. Point out that there are several conflicts or problems happening at this point in the story. Ask:

Q *What are some of the conflicts or problems in the story?*

Q *What do you think might happen next?*

Students might say:

"One conflict is that the man in the yellow suit wants to sell the secret water, and he wants to use the Tucks and Winnie to make money."

"In addition to what [Corey] said, now Mae has a real problem. She is in trouble because she hit the man with the shotgun and the constable saw her do it."

"I think Mae might attack the constable, too."

"I disagree with [Hannah] because Mae is not a violent character most of the time. She's gentle. I think the constable will arrest her."

If necessary, point out the following conflicts or problems in the story at this point: the man in the yellow suit has shown himself to be an enemy who plans to reveal the Tucks' secret and make Winnie drink the water; Mae, normally such a gentle character, has violently attacked the man in the yellow suit; and the constable has witnessed Mae's attack of the man in the yellow suit.

4 Use Questions to Further Discuss the Story

Ask the students to review their questions on *Student Response Book* pages 22–25 and to put a check mark next to any questions they think have been answered in the story. Then have partners discuss the story with each other using their questions. Ask them to think about what they heard in the story that might help answer their questions and whether their questions were answered either directly or indirectly through clues.

When most pairs have finished talking, facilitate a class discussion using the following questions:

- Q *What is a question that got you and your partner talking about the story?*
- Q *Is that question answered directly, or did you figure out the answer from clues? What clues?*
- Q *What questions were not answered? How do you know?*
- Q *Do others agree that the question is [answered in that way/not answered]? Explain your thinking.*

Explain that tomorrow the students will have another opportunity to use their questions to think about *Tuck Everlasting*.

INDIVIDUALIZED DAILY READING

5 Write in Reading Journals About the Students' Independent Reading

Ask the students to think as they read about what they are learning about the conflicts or problems the characters in their novels are facing and how the characters are changing. Tell the students that at the end of IDR you will ask them to write about what they are learning. Have the

Facilitation Tip

Continue to practice **asking facilitative questions** during class discussions to help the students respond directly to one another.

Teacher Note

Remember that disagreements are opportunities for the students to think more deeply about a story and to use evidence from the text to support their opinions. After hearing the text just once, the students will likely need help recalling details. Be ready to reread passages from the text as they refer to them in their explanations.

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

students get their novels and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 46) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 49 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Display the “Journal Entry” chart (WA2) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

WA2

Journal Entry

Write a journal entry about the novel you are reading.

Please include:

- The title and the author’s name
- What the novel is about
- What you learned about:
 - a conflict or problem a character is facing,
 - a change in a character, or
 - something else you learned about a character

ELL Note

Consider having your students with limited English proficiency dictate journal entries for you to write down.

Teacher Note

If the students struggle to write, you might wish to model writing a journal entry, as you did in Unit 2, Week 1, Day 4 (see Step 3).

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

Have the students return to their desks and put away their books.

In this lesson, the students:

- Hear and discuss part of a novel
- Use questioning to make sense of the novel
- Explore climax
- Discuss character change
- Read independently for 25–30 minutes
- Use discussion prompts to build on one another’s thinking

1 Briefly Review the Story and Explore Climax

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Briefly review what happened in yesterday’s reading from *Tuck Everlasting* by discussing:

Q *What happened at the Tuck cottage in yesterday’s reading?*

Q *What else did we learn about the man in the yellow suit?*

Explain that most fiction plots have a climax and that a *climax* is a “point of great excitement and interest in a story.” Explain that usually the climax of a plot centers around one of the story’s conflicts, such as the conflict between the Tucks and the man in the yellow suit. Ask:

Q *What exciting and interesting event happened in yesterday’s reading involving the Tucks and the man in the yellow suit?*

If necessary, remind the students that Mae Tuck hit the man in the yellow suit with a shotgun. Explain that this event is the climax of the story because it is a moment of great excitement and interest and also because it lets us know how the conflict between the Tucks and the man in the yellow suit ends. Add *climax* and its definition to the “Important Elements of Fiction” chart.

Materials

- *Tuck Everlasting* (pages 101–110)
- “Important Elements of Fiction” chart and a marker
- “Winnie’s Character” chart (WA1) from Week 1
- “Class Assessment Record” sheet (CA3)
- *Student Response Book* pages 22–25

Important Elements of Fiction

- *character*: person in a story
- *setting*: where and when a story takes place
- *plot*: what happens to the characters in a story (the events that make up the story)
- *conflict or problem*
- *climax*: point of great excitement and interest in a story

Explain that after the climax, characters often change in some way. Display the “Winnie’s Character” chart (🌍 WA1) and briefly review the items on it. Explain that as you read chapters 20 and 21 today, you would like the students to listen for ways that Winnie might be changing. Tell them that you will stop several times during the reading so partners can discuss their thinking.

2 Read Aloud Chapters 20 and 21

Reread the last paragraph on page 100 aloud; then read pages 101–110 aloud slowly and clearly, stopping as described on the next page. Clarify vocabulary as you read.

Suggested Vocabulary

marionette: puppet that moves by strings or wires (p. 102)

entranced: in a trance; filled with wonder (p. 103)

necessity: something you must have (p. 105)

🌍 ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

unflinchingly: boldly; without fear (p. 102)

envious: wanting something that someone else has; jealous (p. 103)

I’ll make out: I’ll be all right (p. 103)

of her own free will: because she wanted to (p. 106)

Stop after:

p. 104 “‘Mr. Tuck,’ she said, ‘don’t worry. Everything’s going to be all right.’”

Ask:

Q *What are you thinking about the part of the story you just heard? Turn to your partner.*

Without discussing as a class, reread the last sentence before the stop and continue reading to the next stopping point. Follow this procedure at the remaining stops:

p. 105 “. . . Mae Tuck would not be able to die.”

p. 108 “And no amount of telling about it could help them understand or share what she felt.”

3 Discuss Character Change

Refer to the “Winnie’s Character” chart. Use “Think, Pair, Share” to discuss the following questions:

Q *How is Winnie changing? What makes you think so? [pause] Turn to your partner.*

Q *What do you think has caused her to change? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

“Winnie is not as afraid as she was at first. She knows that she loves the Tucks and wants to defend them.”

“I agree with [Jonah]. Winnie is brave when she tells the constable that she wanted to go with the Tucks and that they didn’t kidnap her.”

“In addition to what [Jonah and Minoru] said, I think one thing that makes Winnie change is that she realizes the Tucks care about saving others from having to live forever like they do.”

Circulate among pairs. Listen for evidence that the students understand the idea of character change and are referring to the text to discuss their ideas.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify ways that Winnie is changing?
- Are they referring to the text to discuss their ideas?

(continues)

Teacher Note

Remind the students to use the discussion prompts during this discussion. Also be ready to reread from the text to help the students recall what they heard.

CLASS ASSESSMENT NOTE *(continued)*

Record your observations on the “Class Assessment Record” sheet (CA3); see page 44 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to use evidence from the text to discuss character change, proceed with the lesson and continue on to Day 4.
- If **about half of the students** or **only a few students** are able to use evidence from the text to discuss character change, you might give the class additional instruction by repeating Day 3 of this week using a familiar story or an alternative book before continuing on to Day 4. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

4 Use Questions to Further Discuss the Story

As you did yesterday, ask the students to review their questions on *Student Response Book* pages 22–25 and to put a check mark next to any questions they think are being answered in the story. Then have partners discuss the story with each other using their questions.

When most pairs have finished talking, facilitate a class discussion by asking:

- Q *What is a question that got you and your partner talking about the story?*
- Q *Is that question answered directly, or did you figure out the answer from clues? What clues?*
- Q *What questions were not answered? How do you know?*
- Q *Do others agree that the question is [answered in that way/not answered]? Explain your thinking.*

Encourage the students to continue to practice asking questions to deepen their understanding and enjoyment of fiction.

INDIVIDUALIZED DAILY READING

5 Read Independently and Think About Character Change

Ask the students to think as they read about how the characters in their novels are changing. Tell the students that at the end of IDR, you will ask them to share what they are learning with the class. Have the students get their novels and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 46) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 49 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share what they read with partners. Have each partner tell the title of his novel, the author’s name, what the novel is about, and how the characters are changing. After partners have had a chance to share, discuss as a class:

Q *What did your partner share with you today about his or her novel?*

Have the students return to their desks and put away their books.

EXTENSION

Explore Third-person Point of View in *Tuck Everlasting*

Explain that you are going to read aloud a paragraph from *Tuck Everlasting* and that, as you read it, you want the students to think about who is telling the story. Read aloud the first paragraph on page 50 of *Tuck Everlasting* slowly and clearly. Then ask:

Q *Who is telling the story? What in the story makes you think so?*

Have one or two volunteers share their thinking with the class.

Students might say:

“It’s hard to tell who’s telling the story because the person telling it doesn’t say anything about herself.”

“Maybe the narrator could just be the writer, Natalie Babbitt.”

Explain that the person telling the story in *Tuck Everlasting* is not a character in the story and that when the person telling the story is not a character in the story, we say the story is being told from the *third-person point of view*. Tell the students that when a story is told from the third-person point of view, the story uses pronouns such as *he*, *she*, *they*, *him*, *her*, and *their* to talk about the characters. Review that when a story is

Teacher Note

It is possible that some students are reading novels written in the second-person point of view that use the pronoun *you*. If necessary, explain that *second-person point of view* directly addresses the reader using the pronoun *you* and can make a reader feel as though he or she is in a conversation with the narrator.

told from the *first-person point of view*, the person telling the story is a character in the story and so the story also uses pronouns such as *I*, *my*, and *me*. Ask:

Q *Do you think Tuck Everlasting would be a more interesting story if it were told from the first-person point of view, for example, from Winnie's point of view? Why?*

Have a few volunteers share their thinking with the class.

Have the students page through the novels they are reading independently and determine whether the novels are written in the third-person or first-person point of view. Have them share their thinking in pairs; then have a few volunteers share their thinking with the class. Have them read aloud passages that they think demonstrate which point of view the stories are written in.

Encourage the students to continue to notice the points of view of stories they hear and read and to think about how the points of view affect their thoughts and feelings about the stories.

Day 4

Independent Strategy Practice

Materials

- Medium-size self-stick notes for each student

In this lesson, the students:

- Read independently
- Use questioning to make sense of novels they read independently
- Act respectfully toward their partners

1 Review Questioning

Have the students get their pencils and novels for independent reading and sit at desks with partners together. Remind them that they have been using the strategy of questioning to help them make sense of the novel *Tuck Everlasting*. Review that they thought about whether or not their questions were answered and, if so, whether they were answered directly or indirectly through story clues.

Remind the students that questioning is a valuable strategy for helping readers understand everything they read. Explain that today they will again practice using questioning in their independent reading.

2 Use “Stop and Ask Questions” with Independent Reading

Explain that today the students will practice using “Stop and Ask Questions” as they read novels independently. Review that they will use self-stick notes to mark places in their reading where questions come to mind, and they will write each question on a note. Explain that they will use their written questions to help them write about and discuss their reading afterward.

3 Read Independently and Share Questions

Distribute self-stick notes to each student and have the students read novels independently for 25–30 minutes. Stop the students at 5-minute intervals to have partners share questions they have written on self-stick notes so far. At the first stop, have each student say the title of the book she is reading, the author’s name, and a few sentences about the plot.

Circulate among the students and notice whether they are able to write questions about their reading. Ask individual students questions such as:

- Q *What question can you ask about the setting of the novel? The characters? The conflict?*
- Q *What is happening in the novel right now? What is one thing you wonder about what is happening? How can you ask that as a question?*

4 Discuss the Students’ Questions

Signal to let the students know when it is time to stop reading. Have the students talk with their partners about their questions and what they found out in their reading about those questions. Remind them to act in a respectful way toward each other.

Circulate among pairs. Listen for evidence that the students asked questions during their reading and are referring to the text to discuss their questions.

Have a few volunteers share their questions with the class. Remind each volunteer to say the title of the book he is reading and the author’s name. Probe the students’ thinking by asking:

- Q *What was happening in the text when that question came to mind?*
- Q *How would you answer that question right now? What evidence in the novel makes you think that?*
- Q *Is that question answered directly in the text or indirectly through clues? If directly, how? If indirectly, through what clues?*

Explain that the students will have more opportunities to use “Stop and Ask Questions” to think about their reading.

Teacher Note

If necessary, model the procedure using a fiction story the students are familiar with. Read several sentences aloud, think aloud about a question you have, jot the question on a self-stick note, and place the note in the margin where you stopped reading. For example, you might use *Everybody Cooks Rice* and say, “So far in the story, Carrie has tasted rice made by a family from Barbados and rice made by friends whose grandmother is Puerto Rican. I’m wondering whether Carrie will taste more rice recipes and what countries the recipes will be from. I’m going to write the questions *Will Carrie taste rice recipes from more countries? Which countries?* on a self-stick note and put the note here next to the part that tells about how the Diaz family makes rice.”

Vocabulary Note

Next week you will revisit *Tuck Everlasting* to teach the Week 10 vocabulary lessons.

5 Reflect on Working Together

Remind the students that they have been using discussion prompts to help them listen and build on one another's thinking in partner and class conversations, and that the goal of learning the discussion prompts is to use them naturally throughout the day. Ask and briefly discuss questions such as:

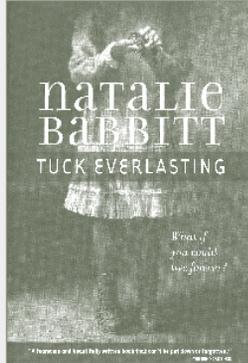

Q *When have you used the discussion prompts outside of our Making Meaning lessons? Tell us about it.*

Q *What helps you remember to use the discussion prompts?*

Encourage the students to continue to look for opportunities to use the discussion prompts naturally throughout the day. Tell them that you will check in with them again next week to see how they are doing. Then have the students return to their desks and put away their books.

Week 4

OVERVIEW

*Tuck Everlasting**

by Natalie Babbitt

When young Winnie Foster meets the Tuck family, who have drunk from the spring of immortality, she must protect their secret while deciding if she will join them on their ageless journey or live a mortal, human life.

**This book is used throughout Unit 4.*

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1, WA3

Assessment Forms

- “Class Assessment Record” sheet (CA4)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

Reproducible

- Unit 4 family letter (BLM1)

Professional Development Media

- “Creating Audio and Video in the Classroom” tutorial (AV50)

Comprehension Focus

- Students use questioning to make sense of a novel.
- Students think about whether their questions are answered explicitly or implicitly in a novel.
- Students analyze text structure, including the story elements character, setting, plot, and conflict.
- Students explore an important theme in a novel.
- Students read independently.

Social Development Focus

- Students analyze why it is important to be respectful.
- Students build on one another's thinking during partner and class discussions.

DO AHEAD

- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA4); see page 45 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit's family letter (BLM1). Make enough copies to send one letter home with each student.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 10 lessons this week.

Day 1

Read-aloud/Strategy Lesson

Materials

- *Tuck Everlasting* (pages 111–120)
- “Important Elements of Fiction” chart from Week 3
- “Winnie’s Character” chart (WA1) from Week 1
- *Student Response Book* pages 22–25
- Medium-size self-stick notes for each student

In this lesson, the students:

- Hear and discuss part of a novel
- Use questioning to make sense of the novel
- Discuss character change
- Read independently for 25–30 minutes
- Use discussion prompts to build on one another’s thinking

1 Review Chapters 16–21

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that they have been exploring elements of fiction through the novel *Tuck Everlasting*. Briefly review the “Important Elements of Fiction” chart and explain that as the students hear the rest of the novel this week, they will talk about how these elements contribute to the story.

Briefly review the story by asking:

Q *What part of the story do you think has been especially interesting?*

Display the “Winnie’s Character” chart (WA1) and review the items on it. Ask and briefly discuss:

Q *What else have you learned about how Winnie is changing?*

Add any new ideas the students have about Winnie’s character to the chart.

2 Read Aloud Chapters 22 and 23

Reread the last two paragraphs of chapter 21 aloud, beginning with “Winnie went back to her room” Then read pages 111–120 slowly and clearly, stopping as described on the next page. Clarify vocabulary as you read.

Suggested Vocabulary

exertion: exercise; effort (p. 111)

perspiration: sweat (p. 111)

remorseless: cruel (p. 116)

lapse from gentility: forgetting one’s manners (p. 116)

prostrate: lying down; exhausted (p. 117)

gratitude: thankfulness (p. 117)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

bureau: dresser (p. 117)

forbidden: not allowed; against the rules (p. 118)

Stop after:

p. 111 “And she had answered, ‘Yes.’”

Ask:

Q *What are you thinking about the part of the story you just heard? Turn to your partner.*

Without discussing as a class, reread the last sentence before the stop and continue to the next stopping point. Follow this procedure at the remaining stops:

p. 115 “At midnight she would make a difference in the world.”

p. 119 “Would they ever trust her again?”

p. 119 “And, thinking this, Winnie fell asleep.”

p. 120 “She had not missed her moment—it was five minutes to midnight.”

3 Discuss Character Change

Refer to the “Winnie’s Character” chart ( WA1). Use “Think, Pair, Share” to discuss the following questions:

Q *How is Winnie changing? What makes you think so? [pause] Turn to your partner.*

Q *What do you think has caused her to change? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

“She wants to make a difference in the world.”

“In addition to what [Charlie] said, Winnie is willing to get into a lot of trouble to do what she thinks is right.”

“She has lots of doubts and worries but she’s not letting them stop her from taking action.”

“I think one of the things that’s causing her to change is that she feels needed by the Tucks. That gives her courage and determination. The book says ‘they needed her’ three times.”

Add the students’ ideas to the chart.

Teacher Note

Remind the students to use the discussion prompts during this discussion. Also be ready to reread from the text to help the students recall what they heard.

Teacher Note

Be ready to reread passages from the text as the students refer to them in their explanations.

4 Use Questions to Further Discuss the Story

As you did last week, ask the students to review their questions on *Student Response Book* pages 22–25 and to put a check mark next to any questions they think are being answered in the story. Then have partners discuss the story with each other using their questions.

When most pairs have finished talking, facilitate a class discussion by asking:

- Q *What is a question that got you and your partner talking about the story?*
- Q *Is that question answered directly, or did you figure out the answer from clues? What clues?*
- Q *What questions were not answered? How do you know?*
- Q *Do others agree that the question is [answered in that way/not answered]? Explain your thinking.*

Encourage the students to look for character change and to practice asking questions to make sense of fiction they read independently.

INDIVIDUALIZED DAILY READING

5 Read Independently Using “Stop and Ask Questions”

Distribute self-stick notes and explain that you would like the students to use the thinking tool “Stop and Ask Questions” as they read independently today. If necessary, briefly review the “Stop and Ask Questions” procedure you used in Week 2, Day 4 (see Step 2). Tell the students that at the end of IDR you will ask them to share what they are learning with the class. Have the students get their novels and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 46) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 49 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give partners a few minutes to share with each other the questions they had

as they read, as well as whether and how those questions were answered. Remind partners to tell each other the titles of their books and the authors' names. Then, as a class, briefly discuss:

Q *How does the character in your novel change?*

Have the students return to their desks and put away their books.

Read-aloud/Strategy Lesson

Day 2

In this lesson, the students:

- Hear and discuss part of a novel
- Use questioning to make sense of the novel
- Discuss plot and character change
- Discuss an important theme
- Read independently for 25–30 minutes
- Use discussion prompts to build on one another's thinking

ABOUT TEACHING THEME

Theme is an abstract concept that can be difficult for students, and even adults, to recognize and define, and a work of literature may have more than one theme. Themes are often messages or lessons about life. In some works of literature, themes are “big questions” that can provoke extended reflection and discussion. Such big questions might address issues such as good vs. evil, self-interest vs. community, or change vs. tradition.

In this unit, the students explore the big question posed by one of the characters (Mae): “Is immortality a blessing or a curse?” They revisit the question from the points of view of different characters and think about how the author seems to be answering the question. These experiences lay the foundation for further work with theme in future grades.

1 Review Using the Discussion Prompts in Pairs

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that they have been trying to use the discussion prompts throughout the day, both in their partner conversations and in class discussions. Ask and briefly discuss:

Q *How have you been doing with using the discussion prompts throughout the day?*

Materials

- *Tuck Everlasting* (pages 121–130)
- “Questions About *Tuck Everlasting*” chart from Week 2
- “Important Elements of Fiction” chart and a marker
- *Student Response Book* pages 22–25
- Medium-size self-stick notes for each student

Teacher Note

During this discussion, be ready to reread the following passages to help the students recall what they heard:

pp. 63-64 “But dying’s part of the wheel And if that means I got to move on at the end of it, then I want that, too.” (Tuck)

pp. 71-72 “I been thinking it over. . . . Wouldn’t that be something?” (Jesse)

pp. 97-98 “I’m going to sell the water, you see. . . . But who wouldn’t give a fortune to live forever?” (the man in the yellow suit)

Teacher Note

If necessary, define the following terms for the students:

immortality: living forever

blessing: something good

curse: misfortune, something bad

Tell the students that another way to word the question would be “Is living forever something good or is it something bad?”

TEKS 8.A.i

Student/Teacher Narrative
Step 2
(first two paragraphs)

TEKS 8.A.i

Student/Teacher Activity
Step 2
(discussion questions)

TEKS 10.A.ii

Student/Teacher Narrative
Step 2
(second and fourth paragraphs)

Explain that you would like the students to focus on practicing the prompts in their partner conversations today.

2 Review the Story and Explore an Important Theme

Briefly review yesterday’s reading from *Tuck Everlasting* by rereading the last paragraph on page 115 aloud and then asking:

Q *What happened to Winnie and the Tucks in yesterday’s reading?*

Q *What does Winnie plan to do to make a difference in the world?*

Tell the students that a story often has one or more themes, and explain that a *theme* is a message, lesson, or big (important) question that the author wants the reader to think about. Refer to the “Questions About *Tuck Everlasting*” chart and direct the students’ attention to the question “Is immortality a blessing or a curse?” which you added to the chart on Week 2, Day 1 (see Step 5). Reread this question aloud and explain that this is a theme, or a big question, in the story, and that each character answers the question in his or her own way. As a class, discuss:

Q *How does Tuck answer this question?*

Q *How does Jesse answer this question?*

Q *How does the man in the yellow suit answer this question?*

Q *How do you think Winnie will answer this question?*

Students might say:

“I think Tuck sees immortality as a curse. He feels like his family is stuck on the wheel of life and that everyone else is passing them by. He feels left out of the natural cycle of being born and growing older and then dying.”

“I think Jesse thinks living forever is a blessing. He thinks life is really fun and that the rest of his family just doesn’t know how to really enjoy immortality.”

“The man in the yellow suit assumes that living forever is a good thing. He also thinks only certain people are special enough to be granted immortality.”

“I think Winnie is going to decide that Tuck has the right idea. I think this because she seems to really respect him and pay a lot of attention to what he says. I think she’s gradually getting used to the idea that death is natural.”

Tell the students that by having each character answer the story’s important question differently, the author is showing us that there are no easy answers to the question and that people might answer it in different ways. Direct the students’ attention to the “Important Elements of Fiction” chart and add *theme: big question, message, or lesson* to the chart.

Important Elements of Fiction

- *character*: person in a story
- *setting*: where and when a story takes place
- *plot*: what happens to the characters in a story (the events that make up the story)
- *conflict or problem*
- *climax*: point of great excitement and interest in a story
- *theme*: big question, message, or lesson

Encourage the students to look for and think about themes in the stories they hear and read.

3 Read Aloud Chapter 24 and Part of Chapter 25

Explain that there are 25 chapters altogether in *Tuck Everlasting* and that the students will hear chapter 24 and part of chapter 25 today. Tell the students that you will stop periodically to give partners a chance to share their thinking. Encourage them to continue to think as they listen about how Winnie is changing.

Read pages 121–130 aloud slowly and clearly, stopping as described on the next page. Clarify vocabulary as you read.

Suggested Vocabulary

detached: separated (p. 122)

pry: take out by pulling or bending (p. 123)

receded: went away (p. 123)

profoundly grateful: deeply thankful (p. 128)

unwittingly: without meaning to (p. 128)

apprehension: fear (p. 129)

staunchly: with loyalty (p. 130)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

deserted: empty of people (p. 122)

nostrils: holes of the nose (p. 123)

exhausted: very tired (p. 126)

goldenrod: kind of yellow flower (p. 127)

confined to the yard: not allowed to leave the yard (p. 130)

Stop after:

p. 124 “But the window did not budge.”

Ask:

Q *What are you thinking about the part of the story you just heard? Turn to your partner.*

Without discussing as a class, reread the last sentence before the stop and continue to the next stopping point. Follow this procedure at the remaining stops:

p. 125 “He put his arms around her and hugged her tight, and whispered the single word, ‘Remember!’”

p. 126 “The Tucks—her darling Tucks—were gone.”

p. 129 “But oh!—it made her tremble still to remember the constable’s face when he found her.”

Stop on page 130 after the sentence “In fact, she thought as her spirits lifted, this year it might be rather nice.”

4 Use Questions to Discuss the Story

Ask the students to once again review their questions on *Student Response Book* pages 22–25 and use them to discuss the story in pairs.

When most pairs have finished talking, facilitate a class discussion by asking:

Q *What is a question that got you and your partner talking about the story?*

Q *Is that question answered directly, or did you figure out the answer from clues? What clues?*

Q *What questions were not answered? How do you know?*

Q *Do others agree that the question is [answered in that way/not answered]? Explain your thinking.*

5 Reflect on Using the Prompts

Facilitate a brief discussion of how the students did using the prompts in their partner conversations. Remind the students that the goal of learning the discussion prompts is to use them naturally, in both partner and class conversations, to help them listen well and participate responsibly in all discussions.

INDIVIDUALIZED DAILY READING

6 Read Independently Using “Stop and Ask Questions”

Distribute self-stick notes and explain that you would like the students to use the thinking tool “Stop and Ask Questions” as they read independently today. If necessary, briefly review the “Stop and Ask Questions” procedure you used in Week 2, Day 4 (see Step 2). Tell the students that at the end of IDR you will ask them to share what they are learning with the class. Have the students get their novels and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 46) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 49 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share with partners about the questions they had as they read, as well as whether and how those questions were answered. Remind partners to tell each other the titles of their books and the authors’ names. If time permits, have a few volunteers share about a question they wrote with the class. Then have the students return to their desks and put away their books.

Materials

- *Tuck Everlasting*

TEKS 6.H.i

Student/Teacher Activity
Writing About Reading

Teacher Note

You may wish to forego modeling writing about this question, at least initially, in order to support the students in accessing and expressing their own original opinions about it. You might model writing about the question only if the students struggle to write about their ideas.

WRITING ABOUT READING

Write Opinions About an Important Theme in *Tuck Everlasting*

Show the cover of *Tuck Everlasting*. Remind the students that the question of whether immortality is a blessing or a curse is an important theme in the novel and that each character answers the question in his or her own way. If necessary, briefly review these questions from Week 4, Day 2:

- Q *How does Tuck answer this question?*
- Q *How does Jesse answer this question?*
- Q *How does the man in the yellow suit answer this question?*
- Q *How do you think Winnie will answer this question?*

Ask:

- Q *How would you answer the question “Is immortality a blessing or a curse?” Why?*

Have a few volunteers share their thinking. Explain that today the students will write their opinions about whether immortality is a blessing or a curse. Explain that just like the characters in the novel, students might have different opinions about this big question, and that is fine. What matters is that they give reasons to explain their thinking. Then ask the students to watch as you think aloud and model writing about whether you think immortality is a blessing or a curse.

You might say:

“Part of me thinks immortality would be a blessing, because I’m scared of not existing anymore and there are so many things I love about life. I’ll write: *Part of me thinks immortality would be a blessing. I’m terrified of dying, and there are so many things I treasure about life, from feeling my child’s arms around my neck to the sound of a flute playing a beautiful tune.* But, especially after reading this book, part of me thinks immortality would be a curse, because I’d outlive everyone I love and I’d never get to change. I’ll write: *But another part of me thinks immortality would be a curse. I’d outlive everyone I love, and that would make me sad. And I’d never get to change. Life without change could feel boring, meaningless, and unnatural. I want to write a closing thought about this. I’ll write: I’ll continue pondering this big question for a long time, but I’m leaning toward the view that as scared as I am of dying, immortality would be more a curse than a blessing.*”

Have the students write about whether they think immortality is a blessing or a curse. If time permits, ask a few volunteers to share their writing with the class.

In this lesson, the students:

- Hear and discuss part of a novel, including the epilogue
- Use questioning to make sense of the novel
- Discuss character change
- Discuss an important theme
- Read independently for 25–30 minutes and write in their reading journals
- Use discussion prompts to build on one another’s thinking

1 Discuss Character Change

Gather the class with partners sitting together, facing you. Review that yesterday the students heard chapter 24 and the first part of chapter 25, which is the final chapter of *Tuck Everlasting*. Ask and briefly discuss:

Q *Where did we leave Winnie at the end of yesterday’s reading?*

Q *How do you think the story will end?*

Display the “Winnie’s Character” chart (☐ WA1) and briefly review the items on it. Remind the students that earlier in the week they talked about how they thought Winnie was changing. Explain that readers can expect main characters in fiction to change—to be different at the end of a story from the way they were at the beginning. Add *character change* to the “Important Elements of Fiction” chart.

Important Elements of Fiction

- *character: person in a story*
- *setting: where and when a story takes place*
- *plot: what happens to the characters in a story (the events that make up the story)*
- *conflict or problem*
- *climax: point of great excitement and interest in a story*
- *theme: big question, message, or lesson*
- *character change*

Materials

- *Tuck Everlasting* (pages 131–139)
- “Winnie’s Character” chart (WA1) from Week 1
- “Important Elements of Fiction” chart from Day 2 and a marker
- “Class Assessment Record” sheet (CA4)
- “Reading Comprehension Strategies” chart
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA3)

Teacher Note

Character change and conflict can be subtle and challenging for students to understand. Students often need repeated exposure over many different texts to understand how these elements function in literature. The goal in this unit is for students to develop the awareness that most fiction contains characters who face challenges and learn from them, and that readers should look for these elements to make sense of the fiction they read.

Explain that you will read the rest of chapter 25 aloud, and ask the students to think as they listen about who Winnie has become at the end of the story compared to who she was at the beginning.

2 Read Aloud and Discuss the Rest of Chapter 25

Read aloud beginning in the middle of page 130 with the sentence “Though she was confined to the yard . . .” Continue reading to the end of page 133 slowly and clearly. Clarify vocabulary as you read.

Suggested Vocabulary

revulsion: disgust; intense dislike (p. 131)

Stop after:

p. 131 “He began to bark again, and reached out a long paw.”

Ask:

Q *What’s happening at this point in the story? Turn to your partner.*

Without discussing as a class, reread the last sentence before the stop and continue reading to the end of the chapter. Facilitate a brief discussion using the following questions:

Q *What kind of person is Winnie now, compared to who she was at the beginning of the story? What in the story makes you think that?*

Students might say:

“Winnie is a braver person now. She used to be more afraid.”

“I agree with [Ben]. She’s even able to pick up a toad now. It doesn’t scare her.”

“In addition to what [Lara] said, at the beginning she wanted to change the world but didn’t know how. Now she has done something to make a difference in the world.”

Add a few of the students’ ideas to the “Winnie’s Character” chart as they generate them.

3 Read the Epilogue Aloud

Remind the students that the book opened with a *prologue*, or a “short introduction before the first chapter.” It ends with an *epilogue*, which is a “short section after the main part of the book.” Explain that authors sometimes use epilogues to tell about things that happen long after

stories end. Show the first page of the epilogue on page 134. Then read pages 134–139 aloud slowly and clearly, without stopping. Clarify vocabulary as you read.

Suggested Vocabulary

blacktopped: paved so cars can drive easily on it (p. 134)

cemetery: place with graves where people are buried after death (p. 137)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

accustomed to it: used to it (p. 134)

pharmacy: drug store (p. 135)

five-and-ten: store that sells inexpensive things (p. 135)

diner: restaurant (p. 135)

bulldoze: dig out with a tractor (p. 137)

inscription: words carved into a gravestone (p. 137)

4 Revisit the Story's Big Question

Briefly discuss as a class:

Q *What do we find out in the epilogue?*

Review that one of the themes in the novel is the big question “Is immortality a blessing or a curse?” First in pairs and then as a class, discuss the questions that follow. Encourage them to explain their thinking by referring to the text and to use the discussion prompts. Be ready to reread passages to help the students recall what they heard. Ask:

Q *In the end, how does Winnie answer the question of whether immortality is a blessing or a curse? Turn to your partner.*

Q *What is Tuck feeling when he finds the grave, and why do those feelings make sense based on what we know about him? Turn to your partner.*

Q *What do you think about the choice Winnie made? Turn to your partner.*

As partners talk, circulate and listen for evidence that they understand the big question about immortality and are referring to the text to support their ideas.

Facilitation Tip

Reflect on your experience over the past four weeks with **asking facilitative questions**. Does this technique feel comfortable and natural to you? Do you find yourself using it throughout the school day? What effect has using this technique had on your students' listening and participation in discussions? We encourage you to continue to use and reflect on this technique throughout the year.

TEKS 8.A.i
Student/Teacher Activity
Step 4

CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students understand that Winnie has chosen not to become immortal?
- Can they explain Tuck’s conflicted reaction to learning of Winnie’s death?
- Are they referring to the text to justify their thinking?

Record your observations on the “Class Assessment Record” sheet (CA4); see page 45 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to discuss an important theme in the story and refer to the text to support their thinking, proceed with the lesson and continue on to Day 4.
- If **about half of the students** or **only a few students** are able to discuss an important theme in the story and refer to the text to support their thinking, you might give the class additional instruction by repeating Days 2 and 3 of this week using a familiar story or an alternative book before continuing on to Day 4. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

Refer to the “Important Elements of Fiction” and the “Reading Comprehension Strategies” charts. Remind the students that, in addition to enjoying the book together, the purpose of reading and discussing *Tuck Everlasting* as a class was to learn the strategies of questioning and recognizing story elements to use in their independent reading. These strategies help them to understand and enjoy fiction at a deeper level. Encourage them to continue to practice these strategies anytime they read fiction independently.

INDIVIDUALIZED DAILY READING

5 Write in Reading Journals About the Students’ Independent Reading

Direct the students’ attention to the “Important Elements of Fiction” chart and review that a *theme* is “a big idea, message, or lesson.” Remind the students that a story can have more than one theme. Ask the students to think about the themes in their novels. Tell them that at the end of IDR you will ask them to write about their thinking. Have the students get their novels and read silently for 25–30 minutes. After they have settled into their reading, confer with individual students.

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit’s Individual Comprehension Assessment.

TEKS 10.A.ii
Student/Teacher Activity
Step 5

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 46) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 49 of the *Assessment Resource Book*.

Display the “Journal Entry” chart (🌐 WA3) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

Journal Entry

Write a journal entry about the novel you are reading.
Please include:

- The title and the author’s name
- What the novel is about
- One theme you noticed in the novel
- If you didn’t notice a theme, something you learned about a character, the setting, the plot, or a conflict in the novel

WA3

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

WRITING ABOUT READING

Write About Character Change in *Tuck Everlasting*

Show the cover of *Tuck Everlasting* and review that the class has had several discussions in the past few weeks about the main character, Winnie, and how she changes from the beginning to the end of the novel. Display the “Winnie’s Character” chart (🌐 WA1) and briefly review the items on it. Explain that today the students will write about how Winnie changes during the course of the novel.

Use “Think, Pair, Share” to discuss:

Q *What are some important ways you think Winnie changes during this story? What in the story makes you think so?* [pause] *Turn to your partner.*

ELL Note

Consider having your students with limited English proficiency dictate journal entries for you to write down.

Teacher Note

If the students struggle to write, you might wish to model writing a journal entry, as you did in Unit 2, Week 1, Day 4 (see Step 3).

Materials

- *Tuck Everlasting*
- “Winnie’s Character” chart (WA1) from Week 1

Have a few volunteers share their thinking. Then ask the students to watch as you think aloud and model writing about how Winnie changes during the course of the novel.

You might say:

"I think one important way Winnie changes is that she develops courage. I'll write: *Over the course of the story Tuck Everlasting, the main character, Winnie, changes in an important way: she develops courage.* Now I want to explain what in the story makes me think that. I'll write: *Early in the story, Winnie longs for adventure, but when she gets kidnapped by the Tucks, she has several moments of fear and wants to go home. By the end of the story, Winnie is willing to go to the jailhouse in the middle of the night and take Mae's place in order to help her friends escape. That is a courageous act that all of Winnie's experiences, conversations, and reflections have prepared her for.*"

Have the students write about a way that Winnie changes during the story and what in the story makes them think that. If time permits, ask a few volunteers to share their writing with the class.

Day 4

Independent Strategy Practice

Materials

- Medium-size self-stick notes for each student
- "Important Elements of Fiction" chart from Day 3
- *Student Response Book* page 26
- Copy of this unit's family letter (BLM1) for each student

In this lesson, the students:

- Read independently
- Use questioning to make sense of novels they read independently
- Write about story elements
- Act respectfully toward their partners

1 Review Questioning

Have the students get their *Student Response Books*, pencils, and novels for independent reading and sit at desks with partners together. Remind them that they have been using the strategy of questioning to help them make sense of the novel *Tuck Everlasting*. Review that they thought about whether or not their questions were answered and, if so, whether they were answered directly or indirectly through story clues.

Remind the students that questioning is a valuable strategy for helping readers understand everything they read. Explain that today they will again practice using questioning in their independent reading.

2 Use “Stop and Ask Questions” with Independent Reading

Explain that the students will practice using “Stop and Ask Questions” as they read novels independently today. Review that they will use self-stick notes to mark places in their reading where questions come to mind, and they will write each question on a note. Explain that they will use their written questions to help them write about and discuss their reading afterward.

3 Read Independently and Share Questions

Distribute self-stick notes to each student and have the students read novels independently for 25–30 minutes. Stop them at 5-minute intervals to have partners share questions they have written on self-stick notes so far. At the first stop, remind each student to say the title of the book he is reading, the author’s name, and a few sentences about the plot.

Circulate among the students and notice whether they are able to write questions about their reading. Ask individual students questions such as:

- Q *What question can you ask about the setting of the novel? The characters? The conflict?*
- Q *What is happening in the novel right now? What is one thing you wonder about what is happening? How can you ask that as a question?*

4 Discuss the Students’ Questions

Signal to let the students know when it is time to stop reading. Have the students talk with their partners about their questions and what they found out in their reading about those questions. Remind them to act in a respectful way toward each other and tell them that you will check in to see how they did at the end of the lesson.

Circulate among pairs. Listen for evidence that the students asked questions during their reading and are referring to the text to discuss their questions.

Have a few volunteers share their questions with the class. Probe the students’ thinking by asking:

- Q *What was happening in the text when that question came to mind?*
- Q *How would you answer that question right now? What evidence in the novel makes you think that?*
- Q *Is that question answered directly in the text or indirectly through clues? If directly, how? If indirectly, through what clues?*

Explain that the students will have more opportunities to use “Stop and Ask Questions” to think about their reading.

TEKS 6.B.iii
Student/Teacher Activity
Step 3

TEKS 6.F.ii
Student/Teacher Activity
Step 4

Teacher Note

If the students struggle to complete the page, you might model writing about the story elements in *Tuck Everlasting*. (Write where everyone can see.)

Vocabulary Note

Next week you will revisit *Tuck Everlasting* to teach the Week 11 vocabulary lessons.

Teacher Note

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on the next page.

5 Write About Story Elements

Direct the students’ attention to the “Important Elements of Fiction” chart and remind the students that another way to make sense of stories is to think about story elements such as character, setting, plot, conflict or problem, climax, and theme. Have the students turn to *Student Response Book* page 26, “Story Elements,” and read aloud the items on it. Explain that the students will each write about the story elements in the novels they have been reading.

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write about the story elements in the novels they have been reading. If time permits, have a few volunteers share what they wrote with the class.

6 Reflect on Working Together

Remind the students that in this unit they focused on using discussion prompts in both partner and class discussions and on interacting respectfully with their partners. Ask and briefly discuss:

Q *How has your ability to work with another person improved over the past few weeks?*

Have partners take a moment to tell each other one way they’ve worked well together and to thank each other for their work. Then have the students return to their desks and put away their books.

EXTENSION

Watch the Movie Version of *Tuck Everlasting*

Your students might be interested in watching the 2002 movie adaptation of *Tuck Everlasting*, which is available on DVD and online. After showing the movie to the students, invite them to compare it to the original novel. You might discuss questions such as:

Q *What in the movie is the same as what is in the book? What in the movie is different?*

Q *How does what you saw in the movie version compare to the pictures you created in your mind as you heard the book?*

Q *Which version did you prefer, and why?*

TECHNOLOGY EXTENSION

Revisit *Tuck Everlasting* in an Alternative Format

Invite interested students to revisit *Tuck Everlasting* in an alternative format: an audiobook or an e-book. After they have listened to or read the book in the alternative format, ask them to discuss or write about which version they enjoyed most and why.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of Unit 4. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit's family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

Assessments

- Before continuing on to the next unit, take this opportunity to assess individual students' reading comprehension using the "Individual Comprehension Assessment" record sheet (IA1); see page 50 of the *Assessment Resource Book*.

Technology Tip

Prior to doing this activity, locate an audiobook or e-book version of *Tuck Everlasting* online using the keywords "Tuck Everlasting audio" or "Tuck Everlasting e-book." Alternatively, you can gain access to these resources through your school or community library or guide interested students in doing so. Bear in mind that students will require devices on which to read e-books; audiobooks lend themselves better to being enjoyed by a group of students or the whole class but can also be listened to on devices by individual students.

Another option is to have the students create their own recording of *Tuck Everlasting*. For more information about creating audio recordings, view the "Creating Audio and Video in the Classroom" tutorial (AV50).

Unit 5

Making Inferences

FICTION AND POETRY

During this unit, the students visualize and make inferences to make sense of narrative text and poetry, and they continue to ask questions and analyze the text structure of narrative text. They also learn to use a double-entry journal to record their thinking. During IDR, the students make inferences and use previously learned comprehension strategies to make sense of their independent reading. They continue to confer with the teacher individually about the texts they are reading. Socially, they are introduced to the skills of confirming that they understand another person's thinking by repeating back what they heard and using clarifying questions and statements. They also analyze the effect of their behavior on others and on the group work.

GRADE 5 OVERVIEW

	Day 1	Day 2	Day 3	Day 4
Week 1	<p>Read-aloud: <i>The Van Gogh Cafe</i></p> <p>Focus:</p> <ul style="list-style-type: none"> ▪ Learning a prompt to confirm another person's thinking ▪ Hearing and discussing part of a fiction chapter book ▪ Using questioning to think about the story ▪ Building awareness of making inferences as they hear the story 	<p>Guided Strategy Practice: <i>The Van Gogh Cafe</i></p> <p>Focus:</p> <ul style="list-style-type: none"> ▪ Hearing, reading, and discussing part of a fiction chapter book again to build comprehension ▪ Building awareness of making inferences as they read and hear the story 	<p>Read-aloud/Strategy Lesson: <i>The Van Gogh Cafe</i></p> <p>Focus:</p> <ul style="list-style-type: none"> ▪ Learning to use clarifying questions and statements ▪ Hearing and discussing part of a fiction chapter book ▪ Using questioning to think about the story ▪ Building awareness of making inferences as they hear the story 	<p>Independent Strategy Practice</p> <p>Focus:</p> <ul style="list-style-type: none"> ▪ Reading independently ▪ Building awareness of making inferences as they read independently ▪ Writing in their reading journals
Week 2	<p>Read-aloud/Strategy Lesson: "Speech Class"</p> <p>Focus:</p> <ul style="list-style-type: none"> ▪ Hearing, reading, and discussing a poem ▪ Building awareness of making inferences as they read and hear the poem ▪ Learning to use a double-entry journal 	<p>Read-aloud/Strategy Lesson: "October Saturday"</p> <p>Focus:</p> <ul style="list-style-type: none"> ▪ Hearing, reading, and discussing a poem ▪ Visualizing to make sense of the poem ▪ Building awareness of making inferences as they read and hear the poem 	<p>Read-aloud: "Eraser and School Clock"</p> <p>Focus:</p> <ul style="list-style-type: none"> ▪ Learning the procedure for "Heads Together" ▪ Hearing, reading, and discussing a poem ▪ Building awareness of making inferences as they read and hear the poem 	<p>Read-aloud/Strategy Lesson: "back yard"</p> <p>Focus:</p> <ul style="list-style-type: none"> ▪ Hearing, reading, and discussing a poem ▪ Visualizing to make sense of the poem ▪ Building awareness of making inferences as they read and hear the poem

Week 1

OVERVIEW

“The Cafe,” “The Possum,” and “Lightning Strikes” from *The Van Gogh Cafe*

by Cynthia Rylant

A series of linked stories describes the wonderful, magical occurrences that are the norm at the Van Gogh Cafe in Flowers, Kansas.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA2

Assessment Forms

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)

Reproducible

- (Optional) “The Cafe” from *The Van Gogh Cafe* (BLM2)

Professional Development Media

- “Pacing Class Discussions” (AV19)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)

Comprehension Focus

- Students make inferences to understand narrative text.
- Students continue to use questioning and text structure to make sense of narrative text.
- Students read independently.

Social Development Focus

- Students analyze the effect of their behavior on others and on the group work.
- Students develop the skill of confirming that they understand another person's thinking by repeating back what they heard and using clarifying questions and statements.

1 DO AHEAD

- ✓ Consider reading this unit's read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding. In Week 2, you might read each poem once to your English Language Learners without stopping and then reread it, stopping frequently to discuss it and to check for understanding. In addition, you might show the students pictures of things mentioned in the poems (such as a box of cornflakes, a rake, or the outside and inside of an analog clock) to support their comprehension.
- ✓ Make available narrative texts at a variety of levels so that the students can practice asking questions and making inferences during IDR and Independent Strategy Practice throughout the unit.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit.
- ✓ Prior to Day 1, make a class set of "IDR Conference Notes" record sheets (CN1); see page 65 of the *Assessment Resource Book*.
- ✓ Prior to Day 2, make a copy of the "Class Assessment Record" sheet (CA1); see page 60 of the *Assessment Resource Book*.

(continues)

J DO AHEAD *(continued)*

- ✓ Prior to Day 3, prepare a sheet of chart paper with the title “Clarifying Questions and Statements.”
- ✓ Prior to Day 4, prepare a sheet of chart paper with the title “Questions to Use When Making Inferences” (see Step 3). Write the following three questions on the chart:
 - *What is one thing you know based on the part you just read?*
 - *Is that stated directly in the text?*
 - *If not, what clue or clues tell you what you know?*
- ✓ Prior to Day 4, prepare to model using questions when making inferences using a text the students are familiar with (see Step 3). Have your responses to the questions in mind ahead of time so the modeling goes smoothly.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 11 lessons this week.

In this lesson, the students:

- Begin working with new partners
- Learn a prompt to confirm another person’s thinking
- Hear and discuss part of a fiction chapter book
- Use questioning to think about the story
- Build awareness of making inferences as they hear the story
- Read independently for up to 30 minutes

1 Pair Students and Introduce a New Social Skill

Randomly assign partners and make sure they know each other’s names. Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Explain that during the coming weeks the students will work with the same partners.

Remind the students that working in pairs builds both their reading comprehension and their ability to work together. So far this year, they have learned and practiced several skills to help them work with partners, including how to explain their thinking, listen to each other, and use discussion prompts to add to each other’s thinking. Explain that today they will focus on a new skill—confirming their understanding of another person’s thinking by repeating back what they heard.

2 Model Using a Prompt to Confirm Another Person’s Thinking

Write the prompt *I heard you say _____ . Did I get that right?* where everyone can see it. Explain that today you would like the students to practice making sure they have understood what their partners have said by using the prompt to repeat back what they heard. Ask the students to watch as you model this briefly.

Say that today you will read aloud a story about a place where magical things happen. Ask the students to think quietly of magical places they have read about or seen in movies or on television. Then ask:

Q *What is the magical place you are thinking of, and what is magical about it?*

ELPS 2.D.i
Steps 1 and 2

Materials

- *The Van Gogh Cafe* (pages 1–11)
- *Student Response Book* page 27
- Scratch paper and a pencil
- “Thinking About My Reading” chart
- Self-stick notes for each student
- Class set of “IDR Conference Notes” record sheets (CN1)
- *Assessment Resource Book* page 62
- “Reading Comprehension Strategies” chart

Teacher Note

Today’s lesson may take longer than usual to complete. You might consider stopping after Step 5 and then completing the remainder of the lesson at another time.

Teacher Note

If your students are already familiar with this prompt from *Making Meaning* grade 4, you might want to skip the modeling and just review it briefly here.

Have a volunteer share his thinking with the class, and then model using the prompt to confirm what the student said.

You might say:

"I heard Keith say that Narnia is a magical place in *The Lion, the Witch, and the Wardrobe*, because the characters must climb through a coat closet to get there. Keith, did I get that right?"

Model using the prompt with another student; then have the students take turns sharing their thoughts about magical places with their partners and practice using the prompt.

Encourage the students to continue to practice this skill with their partners today. Point out that the idea is to repeat the main things they hear their partners say. Explain that practicing this skill may feel awkward, but knowing the skill can be helpful when they have difficulty understanding someone.

Teacher Note

You may want to explain that Vincent van Gogh, a painter who lived from 1853 to 1890, is world-famous today.

ELL Note

To support your English Language Learners, you might model the procedure using a story the students are familiar with. Read several sentences aloud, think aloud about a question you have, and write the question where everyone can see it. For example, you might use *The Lotus Seed* and say, "Bà has kept her special lotus seed with her for many years. Now her grandson has stolen it and planted it, but he doesn't remember where. I'm wondering whether anyone will find the lotus seed. I'm going to write the question *Will anyone find the lotus seed?*"

3 Introduce *The Van Gogh Cafe*

Show the cover of *The Van Gogh Cafe* and read the title and the author's name aloud. Explain that this is a book of stories about a place called the Van Gogh Cafe. Read the description on the back cover aloud and ask:

Q *What do you already know about this book?*

4 Read "The Cafe" and "The Possum" Aloud with "Stop and Ask Questions"

Have the students turn to *Student Response Book* page 27, "Stop and Ask Questions About *The Van Gogh Cafe* (1)," and explain that they will use the thinking tool "Stop and Ask Questions" as they listen to the first two chapters of the book, which are titled "The Cafe" and "The Possum." You will stop three times to let them write their questions about the story. After the reading, they will use their questions to discuss the story with their partners.

Read the first two chapters of the book (pages 1–11) aloud slowly and clearly, stopping as described on the next page. Clarify vocabulary as you read.

Suggested Vocabulary

harbor: shelter; hide (p. 2)

porcelain: fine clay pottery (p. 2)

hydrangeas: kind of flower (p. 2)

possum: short for *opossum*, a small, furry animal that can hang by its tail (p. 3)

picturesque: beautiful (p. 4)

I-70: Interstate 70, a major highway that travels east–west across most of the United States (p. 6)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

theater: building where people perform plays (p. 1)

cash register: machine that holds money in a store (p. 2)

phonograph: machine that plays recorded music (p. 2)

word spreads: one person tells another person, and that person tells another person, and so on (p. 2)

preferred: liked better (p. 5)

loneliness: feeling of sadness about being alone (p. 10)

Read the first paragraph twice before continuing, as it contains information that might be missed on a first reading.

At each of the following stopping points, have the students write *any* questions they can think of:

p. 2 "... people and animals and things notice it."

p. 7 "A minute ago it wasn't there and now it is."

p. 10 "... eating the scraps of muffins and potatoes."

Continue reading to the end of the chapter.

5 Use Questions to Discuss the Story

Ask the students to review their questions individually and think about whether the questions are discussed in the story. Then, have the students take turns using their questions to talk to their partners about the story. Remind them to confirm their partners' thinking by repeating back what they heard.

As partners share, circulate and listen for questions that get at important ideas in the story. Jot these down on a sheet of scratch paper to use in the class discussion.

ELPS 2.D.i
Step 5

Teacher Note

During the stops, circulate and notice whether the students are able to write questions and whether the questions are relevant to the story. If the students have difficulty asking questions at the stops, have one or two volunteers share their questions with the class as examples of the types of questions that can be asked.

Teacher Note

Examples of questions that get at important ideas are:

- What kind of magic happens at the Van Gogh Cafe?
- What does the possum have to do with the story?
- Is the possum magical?
- What happens to the man who lost his wife?

Teacher Note

If necessary, remind the students to use the discussion prompts they learned in Unit 4 as they respond. They are:

- “I agree with _____ because . . .”
- “I disagree with _____ because . . .”
- “In addition to what _____ said, I think . . .”

Teacher Note

In discussing this story and other texts, the students may make inferences that are illogical or not supported by the text. When that happens, refer the students to the text and ask, “Where in the text is the evidence that supports your idea?” Remind them that an inference must be based on clues in the text.

TEKS 6.F.i

Student/Teacher Narrative

Step 6

(last paragraph)

Teacher Note

During IDR today, the students practice two “fix-up” strategies they can use when they do not understand what they have read: rereading and reading ahead. To provide the students with additional support with using these and other “fix-up” strategies, you might teach all or part of IDR Mini-lesson 2, “Self-monitoring and Using ‘Fix-up’ Strategies” (found in Appendix A).

After a few minutes, facilitate a class discussion. Ask:

Q *What happens in these chapters?*

Explain that you will read aloud a few students’ questions that you noticed as you walked around. Read aloud a question from your scratch paper and have the students take turns discussing the question with their partners. Then have one or two volunteers share their thinking with the class. Repeat this process for other questions you recorded.

6 Highlight Inferences

Reread the passage on page 5 that begins “Marc bought the cafe seven years ago . . .” and ends “It seems right for her.” Ask:

Q *What do you know about Clara based on what you heard in this section?*

Q *Clara says, “Kansas is like a tall person relaxing.” What do you think that means?*

Students might say:

“Clara’s mother and father are separated, and Clara lives with her father.”

“Clara doesn’t like New York.”

“In addition to what [Sharon] said, Clara thinks Kansas is slow-moving, like a tall person might be when she relaxes or lies down.”

During this discussion, point out that the students are making inferences to understand that Clara’s parents are separated and that Clara likes the pace of life in Kansas better than the pace of life in New York City. Remind them that when a reader uses clues to figure out something that is not stated directly, the reader is making an inference. Explain that making inferences is an important comprehension strategy that the students will explore in the coming weeks.

7 Reflect on Confirming Partners’ Thinking

Facilitate a brief discussion of how the students did repeating back what they heard their partners say. Share any examples you observed of students repeating what their partners said or of partners clarifying misunderstandings. Tell them that they will continue to practice this skill in the coming weeks.

INDIVIDUALIZED DAILY READING

8 Review and Practice Using “Fix-up” Strategies

Tell the students that for the next week they will read narrative texts (fiction and nonfiction texts that tell stories) during IDR.

Direct the students' attention to the "Thinking About My Reading" chart and remind the students that it is important for them to check their comprehension as they are reading. Remind the students that earlier they learned a couple of "fix-up" strategies, or tools a student can use when she does not understand what she has read. Review that one strategy is to reread the part of the book she does not understand slowly and carefully. Another strategy is to read ahead and look for more information.

Distribute self-stick notes to each student. Tell the students that as they read today, you want them to pause occasionally and ask themselves if they understand what they are reading. If a student does not understand what he is reading, he should mark the place in the text that he does not understand with a self-stick note and then try one or both of the "fix-up" strategies—rereading and reading ahead—to see if the strategies help him understand what he is reading. Explain that at the end of IDR you will check in with the students to see how they did with using "fix-up" strategies. Then have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Over the next two weeks, confer individually with the students about what they are reading during IDR.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 62) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 65 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask and discuss:

- Q** *Was there any part of your reading that you did not understand today? Tell us about it.*
- Q** *What "fix-up" strategy did you try? What happened when you [reread/read ahead]?*

If a student has tried both of the "fix-up" strategies and still does not understand the text she is reading, refer her to the "Reading Comprehension Strategies" chart and encourage her to try the strategies listed on it. Alternatively, you might encourage the student to ask you or a classmate for help.

Have the students return to their desks and put away their texts.

ELL Note

Help your English Language Learners choose texts at appropriate levels. Providing a limited number of teacher-selected texts will help them make good choices.

Teacher Note

Provide time on a regular basis for the students to record the books they have completed in their reading logs.

Materials

- *The Van Gogh Cafe*
- “Reading Comprehension Strategies” chart and a marker
- *Student Response Book* page 28
- “Excerpt from *The Van Gogh Cafe*” chart (WA1)
- “Class Assessment Record” sheet (CA1)
- Self-stick notes for each student

In this lesson, the students:

- Practice using a prompt to confirm another person’s thinking
- Hear, read, and discuss part of a fiction chapter book
- Build awareness of making inferences as they read and hear the story
- Read independently for up to 30 minutes

ABOUT MAKING INFERENCES

Making inferences is a powerful reading comprehension strategy that many students use naturally, although they may not be aware of it. Most narrative texts contain passages that readers can understand only through inference. The *Making Meaning* program focuses on helping the students become aware of making inferences by externalizing this thinking through writing and discussion. The goal, as with all the reading comprehension strategies, is for the students to be able to make and be aware of making inferences in their independent reading. For more information, see “The Grade 5 Comprehension Strategies” in the Introduction.

1 Review Confirming One Another’s Thinking and *The Van Gogh Cafe*

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Briefly explain that the students will talk in pairs again today and that you would like them to practice using the prompt “I heard you say _____. Did I get that right?” to confirm their partners’ thinking. Explain that they will report how this went at the end of the lesson. If necessary, write the prompt again where everyone can see it.

Briefly review the first two chapters of *The Van Gogh Cafe* by asking:

- Q *What do you remember about yesterday’s reading?*
- Q *What happened in the chapter called “The Possum”?*

2 Add to the “Reading Comprehension Strategies” Chart

Review that yesterday the students inferred some things about Clara that are not directly stated in the story. Remind them that when a reader uses clues to figure out something that is not stated directly, the reader is making an inference.

Direct the students' attention to the "Reading Comprehension Strategies" chart and add *making inferences* to it. Explain that today they will explore other inferences they make about *The Van Gogh Cafe*.

Reading Comprehension Strategies

- using text features
- questioning
- recognizing story elements
- making inferences

3 Reread and Discuss a Passage from "The Possum"

Turn to page 9 of *The Van Gogh Cafe* and explain that you will reread an important passage from the story, in which much of what happens must be inferred. Ask the students to listen closely and think about what is happening.

Read aloud the passage beginning on page 9 with "And this goes on for a while until the biggest story happens" and ending on page 10 with "... animals who come to him and take away his loneliness."

First in pairs, and then as a class, have the students discuss the following question. Remind them to confirm their partners' thinking by repeating back what they heard.

Q *What happens in this passage? Turn to your partner.*

Have one or two volunteers share their thinking.

Students might say:

"A man whose wife has died is driving by and he sees the animals eating below the possum."

"The man turns around and drives home and opens a home for stray animals."

4 Look for Clues to Support Inferences

Reread the sentence "And the man sees something else there, too, something no one has seen until now." Have the students think quietly about this question:

Q *What do you think the man sees that no one else sees?*

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit's Individual Comprehension Assessment.

Without discussing the question, have the students turn to *Student Response Book* page 28, “Excerpt from *The Van Gogh Cafe*.” Explain that you would like the students to read the excerpt silently and underline clues that help them infer what the man sees. If necessary, read the excerpt aloud again as the students follow along.

Circulate among the pairs and notice which passages they underline.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students underlining passages that give clues that the man sees a solution to his loneliness?
- Are they able to explain how the passages help them infer that?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 60 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are identifying clues that the man sees a solution to his loneliness, proceed with the lesson and continue on to Day 3.
- If **about half of the students** or **only a few students** are identifying clues that the man sees a solution to his loneliness, you might give the class additional instruction by repeating Days 1 and 2 of this week using an alternative book before continuing on to Day 3. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

Facilitation Tip

During this unit, we invite you to focus on **pacing class discussions** so that they are lively and focused without dragging, losing the attention of your participants, or wandering off the topic. Class discussions should be long enough to allow time for thinking and short enough to sustain the students’ attention. Good pacing requires careful observation of the class (not just the students who are responding) and the timely use of various pacing techniques. To speed up a discussion:

- Call on only a few students to respond to each question, even if others have their hands up.
- Use “Turn to Your Partner” if many students want to speak; then call on just two or three students to share with the whole class.

To deepen or refocus a discussion:

- Restate the question if the discussion strays from the original topic.
- Use wait-time before calling on anyone to respond.

To see this Facilitation Tip in action, view “Pacing Class Discussions” (AV19).

5 Discuss Clues and Inferences as a Class

When most students have finished, display the “Excerpt from *The Van Gogh Cafe*” chart (U WA1). Ask volunteers to share with the class the passages they underlined. As the students report their passages, underline them on the chart and ask:

Q *How does this passage help you infer what the man has seen?*

Students might say:

“When it says the man saw ‘something no one has seen until now,’ it means that lots of people saw the possum and the stray animals eating, but no one else saw that they could feed stray animals themselves.”

“I underlined ‘drives back where he belongs,’ because I think the possum helps him see that he belongs at the farm.”

“I underlined ‘He really isn’t sure where he’s going,’ because that sentence explains why he saw something no one else has seen until now. He figured out where he was going after he saw the possum. He went home.”

TEKS 6.F.i
Student/Teacher Activity
Step 5

If necessary, point out that the author does not directly state that the man is sad and uncertain until the possum helps him find a purpose and a way to be happy again, but the students can infer this from the clues they underlined. Explain that readers naturally make inferences all the time when they read, and that in the coming days the students will try to notice when they make inferences and what clues they use to help them make those inferences.

6 Reflect on Confirming Each Other's Thinking

Give the students an opportunity to report how they did today confirming their partners' thinking. Emphasize that the purpose of practicing this skill is to help them to be responsible listeners.

INDIVIDUALIZED DAILY READING

7 Read Independently Using "Stop and Ask Questions"

Explain that you would like the students to use the thinking tool "Stop and Ask Questions" as they read independently today. Distribute self-stick notes. Remind the students that they will use the notes to mark places in their reading where questions come to mind, and they will write a question on each note. Tell them that at the end of IDR they will use their written questions to help them discuss their reading. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 62) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 65 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share the titles of their books, the authors' names, and what the books are about. Ask questions such as:

- Q *What is a question you wrote while you were reading?*
- Q *Did the part of the story you read today answer your question? If so, how? If not, how do you think it might be answered as you keep reading?*

Have the students return to their desks and put away their books.

Materials

- *The Van Gogh Cafe* (pages 12–21)
- “Clarifying Questions and Statements” chart, prepared ahead, and a marker
- *Student Response Book* page 29
- A sheet of scratch paper and a pencil
- Self-stick notes for each student

ELPS 2.D.ii
Step 1

In this lesson, the students:

- Learn to use clarifying questions and statements
- Hear and discuss part of a fiction chapter book
- Use questioning to think about the story
- Build awareness of making inferences as they hear the story
- Read independently for up to 30 minutes

1 Introduce Using Clarifying Questions and Statements

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that yesterday they practiced the skill of confirming their partners’ thinking by repeating back what they heard. Explain that today they will learn to use clarifying questions and statements. Explain that when you do not understand what your partner is saying, you might ask your partner to clarify, or explain, what he or she said in a different way to help you understand. Explain that it is important to speak politely and respectfully when seeking clarification. Ask:

Q *If you don’t understand what your partner is saying, what are some questions you can ask or things you can say to help you understand?*

Have a few volunteers share their thinking. Direct the students’ attention to the “Clarifying Questions and Statements” chart and list a few of the students’ ideas on the chart as they generate them. If the students have difficulty generating questions and statements, suggest some such as those listed on the diagram.

Clarifying Questions and Statements

I’m not sure I understand you.

Can you say that in a different way?

Can you tell me more about that?

What did you mean when you said . . . ?

2 Review *The Van Gogh Cafe*

Briefly review that the students have been hearing stories from the chapter book *The Van Gogh Cafe*. Reread the last paragraph on page 11 and ask:

Q *What do you think will happen in the next chapter?*

3 Read “Lightning Strikes” Aloud with “Stop and Ask Questions”

Have the students turn to *Student Response Book* page 29, “Stop and Ask Questions About *The Van Gogh Cafe* (2),” and explain that they will use the thinking tool “Stop and Ask Questions” as they listen to the third chapter of the book, which is titled “Lightning Strikes.” You will stop three times to let them write their questions about the story. After the reading, they will use their questions to discuss the story with their partners.

Read the third chapter of the book (pages 12–21) aloud slowly and clearly, stopping as described below. Clarify vocabulary as you read.

Suggested Vocabulary

the effect of this has not been lost on Marc: Marc has noticed this (p. 12)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

is so fond of: likes so much (p. 15)

stranded: stuck (p. 16)

ivy: type of climbing plant (p. 20)

planter: pot with a plant in it (p. 20)

omens, fortunes, signs: things that tell what will happen in the future (p. 20)

At each of the following stopping points, have the students write *any* questions they can think of:

p. 14 “However, food that cooks itself does.”

p. 16 “. . . then the bigger story begins.”

p. 18 “Blackberries love / a moon-faced man / so sleepy.”

Continue reading to the end of the chapter.

Teacher Note

During the stops, circulate and notice whether the students are able to write questions and whether the questions are relevant to the story. If the students have difficulty asking questions at the stops, have one or two volunteers share their questions with the class as examples of the types of questions that can be asked.

4 Use Questions to Discuss the Story

Ask the students to review their questions individually and think about whether the questions are discussed in the story. Then, have partners use the questions to talk about the story with each other. Refer to the “Clarifying Questions and Statements” chart and remind the students to use the questions and statements listed on it to make sure they understand what their partners are saying.

As partners share, circulate and listen for questions that get at important ideas in the story. Jot these down on a sheet of scratch paper to use in the class discussion.

After a few minutes, facilitate a class discussion. Ask:

Q *What happens in this chapter?*

Explain that you will read aloud a few of the students’ questions that you noticed as you walked around. Read aloud a question from your scratch paper and have the students take turns discussing the question with their partners. Then have one or two volunteers share their thinking with the class. Repeat this process for other questions you recorded.

5 Highlight Inferences

Reread the passage on pages 15–16 that begins “Something else is bound to happen eventually. . . .” and ends “. . . then the bigger story begins.” Ask:

Q *What does Karla think when she first reads the poem?*

Q *What does Karla think when she remembers the poem?*

Students might say:

“When Karla first reads the poem, she likes it but she doesn’t understand it.”

“Karla realizes the poem predicted that her truck would break down.”

“In addition to what [Grace] said, she realizes that all the words in the poem are clues about what ends up happening to her.”

“I agree with [Ahmad]. Karla figures out that the word *blue* is the color of her truck; *waiting, waiting* tells what she’s doing; *silver* is the name of the lake she’s next to; and *night* is the time her truck breaks down.”

During this discussion, point out that the students are making inferences to figure out that Karla does not at first understand the poem or think it has anything to do with her but that after she has been stranded a long time with her broken-down truck, she remembers the poem and realizes that the words in the poem predicted exactly what would happen to her. Remind them that when a reader uses clues to figure out something that is not stated directly, the reader is making an inference. Review that making inferences is an important comprehension strategy that the students will continue to explore.

Teacher Note

Examples of questions that get at important ideas are:

- What is Marc writing poems about?
- Is Marc’s poetry going to make more magic happen?
- Did the poem Marc gave to Karla predict that her truck would break down?
- Is the poem the boy reads on the board going to help him find his cat?

Teacher Note

Save the “Clarifying Questions and Statements” chart to use throughout the unit.

Teacher Note

If the students make inferences that are illogical or not supported by the text, refer the students to the text and ask, “Where in the text is the evidence that supports your idea?” Remind them that an inference must be based on clues in the text.

6 Discuss Using Clarifying Questions and Statements

Share any examples you observed of students using clarifying questions and statements in their partner conversations. Ask:

Q *Why is it important to be respectful when asking your partner to clarify his or her thinking?*

Tell the students that they will continue to practice this skill in the coming days.

INDIVIDUALIZED DAILY READING

7 Read Independently Using “Stop and Ask Questions”

Explain that you would like the students to use the thinking tool “Stop and Ask Questions” as they read independently today. Distribute self-stick notes. Remind the students that they will use the notes to mark places in their reading where questions come to mind, and they will write a question on each note. Tell the students that at the end of IDR they will use their written questions to help them discuss their reading. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 62) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 65 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share with their partners the titles of their books, the authors’ names, what the texts are about, questions they had as they read, and how those questions were answered. After partners have had a chance to share, discuss as a class:

Q *What did your partner share with you today about his or her reading?*

Remind the students that the purpose of sharing their partners’ thinking is to help them develop their listening skills. Have the students return to their desks and put away their books.

Materials

- *The Van Gogh Cafe*
- *Tuck Everlasting* from Unit 4
- Copy of “‘The Cafe’ from *The Van Gogh Cafe*” (BLM2) for each student

Teacher Note

Prior to doing this activity, visit the CCC Learning Hub (ccclearninghub.org) to access and print “‘The Cafe’ from *The Van Gogh Cafe*” (BLM2). Make enough copies for each student to have one, and set aside a copy for yourself.

WRITING ABOUT READING

Write Inferences Based on Setting in *The Van Gogh Cafe*

Show the cover of *The Van Gogh Cafe* and review that the students have heard the first three chapters of this book: “The Cafe,” “The Possum,” and “Lightning Strikes.” Ask and briefly discuss:

Q *What do you remember about the reading?*

Have volunteers share their thinking. Show the cover of *Tuck Everlasting* and remind the students that they discussed the story’s setting, or when and where the story takes place, and that this helped them understand and enjoy the story. Explain that today the students will take a closer look at the setting in *The Van Gogh Cafe*.

Distribute copies of “‘The Cafe’ from *The Van Gogh Cafe*” (BLM2) and explain that this is the first chapter in *The Van Gogh Cafe*. Ask the students to follow along as you read the excerpt and to think as they listen about what they are learning about the setting.

Read “The Cafe” aloud slowly and clearly. Then ask and discuss:

Q *What information did you hear about the setting?*

Have volunteers share their thinking.

Students might say:

“The cafe is on Main Street in a town called Flowers.”

“It’s in a building that used to be a theater.”

“It has a sign in it that says ‘Bless All Dogs.’”

“It’s got a statue of a hen on top of something that has pies in it.”

“There are purple flowers painted all over the women’s bathroom.”

“There’s a song called ‘You’d Be So Nice to Come Home To’ playing on an old-fashioned record player.”

Remind the students that they have been making inferences, or using clues to figure out something that is not stated directly. Ask:

Q *Based on the clues about the setting that you just mentioned, what kind of place do you think the cafe is?*

Have volunteers share their thinking.

Students might say:

“It seems like a friendly place. I think that because the sign that says ‘Bless All Dogs’ makes it seem like dogs are welcome there.”

“In addition to what [Natasha] said, I think it’s a fun place. It would be fun to visit the bathroom and see purple flowers all over the walls.”

“I agree with [Natasha and Lee], and I also think it’s homey. The song that plays is about coming home.”

Explain that today the students will write about what they infer about the Van Gogh Cafe, using clues about the setting. Ask the students to watch as you think aloud and model writing about this.

You might say:

"The details about the setting make me think that the cafe is a fun, relaxed place. I'll write: *The details about the setting in The Van Gogh Cafe suggest that it is a fun, relaxed place to visit. I want to give evidence from the book for this idea. I'll write: *The sign 'Bless All Dogs' suggests that the cafe is a warm, inviting place where everyone is accepted, even dogs. The fact that a tender song is playing on the phonograph also tells me that this is a happy, casual place to be.*"*

Have the students write about their inferences about the Van Gogh Cafe using clues about the setting. If time permits, ask a few volunteers to share their writing with the class.

EXTENSION

Read the Rest of *The Van Gogh Cafe*

If the students are interested, read the rest of *The Van Gogh Cafe* aloud. Look for opportunities to highlight and discuss the inferences the students make.

TECHNOLOGY EXTENSION

Meet the Author: Cynthia Rylant

The students may be interested in learning more about Cynthia Rylant, the award-winning author of *The Van Gogh Cafe* and many other beloved books, including *When I Was Young in the Mountains*, *Every Living Thing*, and *Missing May*. Tell the students that Cynthia Rylant grew up in a family of coal miners in West Virginia and often draws on her childhood memories in writing her books. Ask:

Q *What else would you like to know about Cynthia Rylant?*

Have a few volunteers share their thinking. As they respond, record their ideas where everyone can see them. Display the online sources you located that contain information about Cynthia Rylant and read those sections aloud. Ask:

Q *What is something you learned about Cynthia Rylant?*

Technology Tip

Prior to doing this activity, locate a few age-appropriate sources that provide information about Cynthia Rylant. Search for information online using the keywords "biography Cynthia Rylant" or "about Cynthia Rylant." You might wish to bookmark the web pages that you will share with your students in your browser. For more information, view the "Finding, Organizing, and Presenting Online Information" tutorial (AV43).

Materials

- *The Van Gogh Cafe*
- “Clarifying Questions and Statements” chart from Day 3
- Small self-stick note for each student
- “Questions to Use When Making Inferences” chart, prepared ahead
- Narrative text for modeling, selected ahead
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA2)

Teacher Note

To help the students recall the inferences they made, you might ask them to review what they underlined on *Student Response Book* page 28, “Excerpt from *The Van Gogh Cafe*.” You might also remind them about the passages on page 5 and pages 15–16 of the book and ask them what inferences they made about each of these passages.

TEKS 1.A.iii
Student/Teacher Narrative
Step 3

In this lesson, the students:

- Practice using clarifying questions and statements
- Read independently
- Build awareness of making inferences as they read independently
- Write in their reading journals

1 Review Making Inferences

Have the students get their *Student Response Books*, pencils, and texts for independent reading and sit at desks with partners together. Remind the students that this week they heard the first three chapters of *The Van Gogh Cafe* and explored how they made inferences to understand the story. Ask and briefly discuss:

Q *What were some of the inferences you made to make sense of The Van Gogh Cafe?*

Refer to the “Clarifying Questions and Statements” chart and point out that the students learned the skill of using clarifying questions and statements to help them understand their partners’ thinking. Explain that they will practice this skill again today.

Explain that today the students will also practice making inferences in their independent reading. Tell them that they will read their own books for 10–15 minutes and then read the same section again while thinking about inferences they might make.

2 Read Independently Without Stopping

Distribute a self-stick note to each student. Ask the students to use self-stick notes to mark where they begin reading today, and have them read independently for 10–15 minutes.

3 Model Using Questions to Make Inferences During Rereading

After 10–15 minutes, direct the students’ attention to the “Questions to Use When Making Inferences” chart and read aloud the questions on it. Explain that the students will reread, starting again at their self-stick notes. Ask them to think about these three questions as they read.

Questions to Use When Making Inferences

What is one thing you know based on the part you just read?

Is that stated directly in the text?

If not, what clue or clues tell you what you know?

Have the students watch as you model this briefly with your own book. Model asking yourself each of the three questions one at a time and thinking aloud about the answer to each question before going on to the next question.

You might say:

"I just read the first few pages of *The Summer My Father Was Ten*. What is one thing I know based on the part I just read? I know that Mr. Bellavista's garden is very important to him. Is that stated directly in the text? No. Since it is not, what clues tell me what I know? In the story it says that Mr. Bellavista works hard to clear the vacant lot so that he can plant his garden, and it describes how he weeds, waters, and watches over his plants every morning."

Tell the students that you will stop them every few minutes to think about the three questions and talk with their partners.

4 Read Independently and Talk in Pairs

Have the students begin rereading independently. Stop them at 5-minute intervals. At each stop, direct the students' attention to the "Questions to Use When Making Inferences" chart and ask each of the three questions from the chart one at a time, pausing after each question to allow the students time to think.

After the students have thought about all three questions, have them take turns discussing their thinking with their partners. Remind them to confirm their partners' thinking by repeating back what they heard.

Teacher Note

Pausing after each question gives the students time to go through the thinking process before talking in pairs. At each stop, ask:

Q *What is one thing you know based on the part you just read? [pause] Is that stated directly in the text? [pause] If not, what clues tell you what you know? [pause] Turn to your partner and discuss your thinking.*

Teacher Note

Save the "Questions to Use When Making Inferences" chart to use throughout the year.

Teacher Note

As you circulate, notice whether the students recognize both meanings stated directly in their books and meanings they have inferred. Be aware that many students will have difficulty making inferences at this point, and students who can make inferences may be unable to recognize that they have done so. This is to be expected, as they have just been introduced to this challenging thinking. In addition, some books contain more opportunities to infer than others. The students will have more opportunities to explore making inferences in the coming weeks.

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

ELL Note

Consider having students with limited English proficiency dictate journal entries for you to write down.

Teacher Note

If the students struggle to write, you might wish to model writing a journal entry, as you did in Unit 2, Week 1, Day 4 (see Step 3).

Circulate among the students as they read and encourage them to think about what they are reading by asking questions such as:

Q What is happening in your text at this point? How do you know? Are those things stated directly, or are you inferring them from clues? What clues?

5 Write in Reading Journals About the Students' Independent Reading

Display the “Journal Entry” chart (WA2) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

WA2

Journal Entry

Write a journal entry about the story you are reading.

Please include:

- The title and the author's name
- What the story is about
- One thing you know based on the part you read today
- Whether that is stated directly or indirectly in the text
- If indirectly, what clue or clues helped you infer it

 Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their reading journals.

6 Discuss What the Students Noticed

 Call for the students' attention and have them take turns talking about their journal entries with their partners. Remind them to use clarifying questions and statements when necessary.

Have a few volunteers share their journal entries with the class. Ask questions such as:

Q What did you hear [Carla] say about her book? Did [Larry] get it right, [Carla]?

Q What do you want to ask [Carla] about her book or about what she shared?

Explain that making inferences is challenging, and assure the students that they will have many more opportunities to explore making inferences and to think about when they are making them in their independent reading.

7 Discuss How the Students Worked Together

Review that the students have been focusing on using clarifying questions and statements respectfully if they did not understand their partners. Use “Think, Pair, Share” to discuss questions such as:

Q *How did using clarifying questions and statements help you and your partner work together this week? [pause] Turn to your partner.*

Q *How has your partner helped you feel respected? How does that help you be a better learner? [pause] Turn to your partner.*

Have the students return to their desks and put away their texts.

Vocabulary Note

Next week you will revisit *The Van Gogh Cafe* to teach the Week 12 vocabulary lessons.

Week 2

OVERVIEW

Poems

“Speech Class”

by Jim Daniels (see page 289)

The poet recounts bittersweet memories of attending speech class with a friend.

“October Saturday”

by Bobbi Katz (see page 290)

A child describes raking leaves with his or her father on an autumn day.

“Eraser and School Clock”

by Gary Soto (see page 291)

While taking a math test, a student daydreams about playing baseball.

“back yard”

by Valerie Worth (see page 293)

Sunlight takes on a personality in a back yard as a day progresses.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA3–WA5

Assessment Forms

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

Reproducibles

- Unit 5 family letter (BLM1)
- (Optional) “Circles” (BLM3)

Professional Development Media

- “Using ‘Heads Together’” (AV9)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)
- “Using Presentation Tools” tutorial (AV44)
- “Using Blogs in the Classroom” tutorial (AV45)
- “Creating Audio and Video in the Classroom” tutorial (AV50)

Comprehension Focus

- Students make inferences to understand poems.
- Students visualize to make sense of poems.
- Students learn to use a double-entry journal to record their thinking.
- Students read independently.

Social Development Focus

- Students analyze why it is important to be responsible.
- Students learn and practice the procedure for “Heads Together.”

① DO AHEAD

- ✓ Prior to Day 1, review some of the poems the students have learned this year. If your students have not heard much poetry this year, consider taking time to immerse them in poetry before you proceed with this week’s instruction.
- ✓ Make available poems and narrative texts at a variety of levels so that the students can practice asking questions, making inferences, and visualizing during IDR throughout Week 2.
- ✓ Prior to Day 3, decide how you will randomly assign pairs to work together in groups of four on Days 3 and 4.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA2); see page 61 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 12 lessons this week.

Materials

- “Speech Class” (see page 289)
- “Clarifying Questions and Statements” chart from Week 1
- “Reading Comprehension Strategies” chart
- *Student Response Book* page 30
- “Double-entry Journal About ‘Speech Class’” chart (WA3)
- “Questions to Use When Making Inferences” chart
- Self-stick notes for each student

In this lesson, the students:

- Hear, read, and discuss a poem
- Build awareness of making inferences as they read and hear the poem
- Learn to use a double-entry journal
- Read independently for up to 30 minutes
- Use clarifying questions and statements

1 Review Using Clarifying Questions and Statements

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Briefly review the “Clarifying Questions and Statements” chart and remind the students that last week they practiced using the charted questions and statements when they did not understand what their partners said. Explain that you would like the students to continue using the questions and statements with their partners today.

2 Review Making Inferences and Introduce Poetry

Direct the students’ attention to the “Reading Comprehension Strategies” chart and review that last week they practiced making inferences to help them understand the stories in *The Van Gogh Cafe*. Remind them that when a reader uses clues to figure out something that is not stated directly in a text, the reader is making an inference. Explain that this week they will practice making inferences as they listen to a different kind of text, poetry. Ask the students to think silently for a moment about poems they have heard and read. Then briefly discuss:

Q *What do you know about poems?*

If the students have difficulty answering this question, follow up with questions such as:

Q *What do poems look like?*

Q *How are they the same as or different from stories?*

Students might say:

“Poems sometimes rhyme.”

“Poems have lines and stanzas.”

“Some poems are funny, like limericks.”

3 Introduce “Speech Class”

Tell the students that this week they will hear several poems. Explain that to understand poems, readers must often make inferences. They will have opportunities to think and talk with one another about inferences they make.

Tell the students that today you will read a poem called “Speech Class” by Jim Daniels. Explain that in the poem, Jim Daniels describes what it was like to have speech difficulties in school and what it was like to get help from a speech therapist during the school day.

Explain that you will read the poem aloud twice, and ask the students to pay attention to the feelings the poet describes.

4 Read Aloud

Read “Speech Class” (including the title and the poet’s name) aloud twice, slowly and clearly, pausing between the readings. Clarify vocabulary during the first reading.

Suggested Vocabulary

outcasts: people driven out or rejected by a group (p. 289)

stutters, slurring: two kinds of speech difficulties (p. 289)

therapist: person trained to help people with difficulties (p. 289)

graduated: successfully completed a program (p. 289)

deserter: person who leaves a place before he or she should (p. 289)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

clenched: pressed tightly together (p. 289)

After the second reading, ask:

- Q *What happens in this poem?*
- Q *The dedication of the poem is “for Joe.” Who do you think Joe might be? Why do you think so?*
- Q *What are some feelings that Jim Daniels remembers having? Are those feelings stated directly, or did you infer them?*

ELL Note

The imagery and metaphorical language of poetry can be especially difficult for English Language Learners to comprehend. This week you may want to read each poem aloud to your English Language Learners a few times and discuss it prior to reading and discussing the poem with the class.

Teacher Note

You might wish to point out that sometimes poets write about their own experiences, and sometimes they write as if they were someone else. In this poem, the poet writes about his own experiences. We know this because he refers to himself by name in the poem.

Facilitation Tip

Continue to focus on **pacing class discussions** so they are neither too short nor too long. Scan the whole class (not just the students who are responding) and use techniques such as the following:

- Call on just a few students to respond to each question, even if others have their hands up.
- Use “Turn to Your Partner” if many students want to speak, and then call on just two or three students to share with the whole class.
- Restate the question if the discussion strays from the original topic.
- Use wait-time before calling on anyone to respond.

Teacher Note

Circulate as partners work together. Notice whether they identify words that are clues to the poet's feelings. Also notice whether they use clarifying questions and statements and work together to decide what to underline.

Students might say:

"I think Joe is the other kid with speech problems in the poem. I think so because of the line about 'me and Joe' having to go to speech class. 'Me' is Jim."

"He remembers feeling frustrated about the kids who were mean to them. I inferred that because he says they had 'clenched teeth.'"

"He remembers feeling embarrassed. I inferred that because he says 'we hoped they wouldn't laugh.'"

"He remembers feeling happy. I inferred that because he says he and Joe were friends and that the speech therapist was also their friend."

"He remembers feeling guilty. I inferred that because he says 'he felt like a deserter.'"

Have the students turn to *Student Response Book* page 30, "Speech Class," and ask them to read along as you read the poem aloud a third time.

5 Look for Clues to Support Inferences

Point out that the poet does not directly say how he felt, but the students can use clues in the poem to make inferences about his feelings.

Have partners work together to underline words and phrases in the poem that are clues to Jim Daniels's feelings. Remind them to use clarifying questions and statements if they do not understand what their partners are saying.

6 Introduce the Double-entry Journal and Complete It as a Class

When most pairs have finished, display the "Double-entry Journal About 'Speech Class'" chart (C WA3). Explain that a double-entry journal is a tool the students can use to record their thinking. Tell them that today they will use the tool as a class to record the inferences they made about the poet's feelings and the clues that helped them make these inferences.

Explain that in the left-hand column of the journal you will write the words or phrases from the poem that the students used to make the inferences. In the right-hand column, you will write their inferences.

Ask pairs to share the words and phrases they underlined and the inferences they made. Record these on the chart.

Double-entry Journal About "Speech Class"

What I Read	What I Inferred
"and that was plenty for a friendship"	He felt happy to have a friend with the same problem.
"We hoped they wouldn't laugh"	He felt embarrassed about going to speech class.
"We clenched teeth and went"	He felt angry but went anyway.
"I felt that punch in the gut"	He felt bad about not going to speech class with his friend.

If the students do not offer words or phrases from the poem, write the lines from the example above in the "What I Read" column and then have the students discuss in pairs and as a class what they can infer about the poet's feelings from these lines.

Remind the students that making inferences helps them think more deeply about texts. Tell them that in the next lesson, they will read another poem and use a double-entry journal again to record inferences they notice.

INDIVIDUALIZED DAILY READING

7 Practice Making Inferences

Tell the students that this week they will read poetry and narrative texts during IDR.

Explain that today the students will practice rereading and making inferences in their independent reading. Explain that they will read their texts for 15 minutes and then read the same section again while thinking about inferences they might make.

Distribute self-stick notes. Have the students get their texts, place self-stick notes where they start to read, and read silently for up to 30 minutes. Stop them after 15 minutes and direct their attention to the "Questions to Use When Making Inferences" chart. Ask the students to use the questions on the chart to think quietly about their inferences.

After a few moments, have them take turns discussing their thinking with their partners. Have them place self-stick notes where they stopped reading and then resume reading for another 15 minutes.

Teacher Note

The students may disagree about the inference that makes the most sense for a line. Some students may have difficulty inferring any meaning that makes sense. These differences are to be expected as the students learn the skill of making inferences and develop as readers. Rather than stating an inference yourself, facilitate a discussion about disagreements by having the students refer to the poem to support their opinions.

Teacher Note

Save the completed "Double-entry Journal About 'Speech Class'" chart (WA3) to use on Day 2.

Teacher Note

Be aware that some books contain more opportunities to make inferences than others.

Tell the students that at the end of IDR they will discuss their inferences with the class. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 62) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 65 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share with the class the titles of their texts, the authors’ names, and what the texts are about. Follow up by asking questions such as:

Q *What is happening in the part of the text that you read today? How do you know? Are those things stated directly, or are you inferring them from clues? What clues?*

Have the students return to their desks and put away their texts.

Technology Tip

Rather than creating a class book, you might have each student type his or her poem using a slideshow application. Assemble the students’ slides into one file to create a digital presentation of the class’s poems. For more information about using slideshow applications, view the “Using Presentation Tools” tutorial (AV44).

EXTENSION

Write Poems

This week, invite interested students to write poems. They might write poems about school memories, or they might write about any other subject that interests them. Have the students share their poems with the class. You might collect the poems into a book and include it in the classroom library.

In this lesson, the students:

- Hear, read, and discuss a poem
- Visualize to make sense of the poem
- Build awareness of making inferences as they read and hear the poem
- Read independently for up to 30 minutes
- Use clarifying questions and statements

1 Review Making Inferences and Get Ready to Work Together

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you.

Display the completed “Double-entry Journal About ‘Speech Class’” chart (WA3). Remind the students that in the previous lesson they heard the poem “Speech Class” and, as a class, used the double-entry journal to record their inferences about the poem and the clues they used to make the inferences.

Point out that using the strategy of making inferences helped the students think about the poem. Tell them that today you will read another poem aloud and they will talk about the poem with their partners, use a double-entry journal to record their inferences, and discuss the inferences.

2 Introduce “October Saturday” and Visualizing

Tell the students that you will read “October Saturday” by Bobbi Katz aloud. Explain that in the poem a child describes raking leaves with his or her father.

Explain that as the students listen to the poem, you would like them to visualize, or create mental images of, what is happening in the poem. Tell them that their mental images can include sounds, smells, and feelings, as well as things they see.

Explain that you will read the poem aloud twice and that after the second reading the students will share their visualizations in pairs.

3 Read Aloud

Read “October Saturday” (including the title and the poet’s name) aloud slowly and clearly, clarifying vocabulary as you read. Then have the students turn to *Student Response Book* page 31, “October Saturday,” and follow along as you read the poem aloud again.

Materials

- “October Saturday” (see page 290)
- “Double-entry Journal About ‘Speech Class’” chart (WA3) from Day 1
- *Student Response Book* pages 31–33
- “Questions to Use When Making Inferences” chart
- Self-stick notes for each student

TEKS 6.D.i
Student/Teacher Narrative
Step 2 and Step 4

TEKS 9.B.ii
TEKS 10.D.iii
Student/Teacher Activity
Step 4

TEKS 9.B.ii
TEKS 10.D.iii
Student/Teacher Narrative
first Teacher Note on p. 272

Teacher Note

You might point out that in the line “All the leaves have turned to cornflakes,” the poet is describing the leaves by comparing them to cornflakes. This kind of comparison, in which one thing is described as if it were another thing, is called a *metaphor*, which is a type of *figurative language*.

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit’s Individual Comprehension Assessment.

ELPS 4.G.iv
Step 5

Suggested Vocabulary

rubber clogs: rubber shoes with thick soles (p. 290)

flippers: flat rubber shoes used for swimming (p. 290)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

cornflakes: breakfast cereal (p. 290)

scattered: thrown over a wide area (p. 290)

nervously: in an almost scared way (p. 290)

chattering: talking on and on (p. 290)

rake: collect leaves with a rake, a garden tool (p. 290)

4 Discuss the Students’ Inferences and Visualizations

Ask:

Q *What did you see in your mind as you listened to the poem? What sounds did you imagine? What feelings did you imagine as part of your mental picture? Turn to your partner.*

Have a few volunteers share their thinking with the class. Then reread the lines beginning with “millions and millions of cornflakes” and ending with “nervously chattering.” Ask:

Q *What do you think these lines mean? Explain your thinking.*

Students might say:

“I imagined the cool wind on my face and lots of crunching from the dry leaves.”

“When the wind blows, it sounds like the leaves are nervously talking to each other.”

Ask and briefly discuss:

Q *If you didn’t know the title of the poem, what clues would help you infer that it is about fall?*

5 Introduce the Double-entry Journal Activity

Have the students turn to *Student Response Book* page 33, “Double-entry Journal About ‘October Saturday,’” and explain that they will use this page to write about inferences they made while reading the poem. Point out that an example of a journal entry is provided, and read aloud the “What I Read” and “What I Inferred” columns for number 1. Explain that the students will select another line or set of lines from which they can infer a meaning and record the lines and the inference in the second space on their journal page.

<p>Unit 5 • Week 2 • Day 2</p> <p>Making Inferences 33</p>	<p>What I Read</p> <p>1. "millions and millions of cornflakes— crunching, crunching under our feet. When the wind blows, they rattle against each other, nervously chattering."</p> <p>2. "rubber clogs and flippers— in a box marked SUMMER."</p>	<p>What I Inferred</p> <p>The wind makes the leaves rub together, and it sounds like the leaves are talking.</p> <p>The mom is packing away the summer clothes because summer is over.</p>	<p>Double-entry Journal About "October Saturday"</p> <p>Name: <u>Elisia</u></p>
--	---	---	--

As the students work, circulate and observe them. Follow up with questions such as:

Q *What did you infer from the line or lines you selected? Why does that inference make sense?*

6 Discuss Inferences

When most of the students have finished writing, have partners discuss the inferences they wrote about. Remind them to use clarifying questions and statements if they do not understand their partners' thinking.

After a few minutes, facilitate a class discussion of the students' inferences using questions such as:

- Q** *Why does that inference make sense?*
- Q** *What question do you want to ask [José] about the line and inference he shared?*
- Q** *Did anyone make a different inference from the same line? What inference? Do both make sense? Why or why not?*

Students might say:

"I think that when it says that the leaves are cornflakes, it means they are brown and crispy, like leaves get in fall."

"I chose the lines 'Inside the house my mother is packing / short sleeved shirts and faded bathing suits— / rubber clogs and flippers— / in a box marked SUMMER.' It sounds like summer is over. All the summer things are being put away."

INDIVIDUALIZED DAILY READING

7 Practice Making Inferences

Explain that today the students will practice rereading and making inferences in their independent reading. Explain that they will read their texts for 15 minutes and then read the same section again while thinking about inferences they might make.

Distribute self-stick notes. Have the students get their texts, place self-stick notes where they start to read, and read silently for up to 30 minutes. Stop them after 15 minutes and direct their attention to the “Questions to Use When Making Inferences” chart. Ask the students to use the questions on the chart to think quietly about their inferences.

After a few moments, have them take turns discussing their thinking with their partners. Have them place self-stick notes where they stopped reading and then resume reading for another 15 minutes.

Tell the students that at the end of IDR they will discuss their inferences with the class. After they have settled into their reading, confer with individual students.

Teacher Note

Be aware that some books contain more opportunities to make inferences than others.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 62) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 65 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share with the class the titles of their texts, the authors’ names, and what the texts are about. Follow up by asking questions such as:

Q *What is happening in the part of the text you read today? How do you know? Are those things stated directly or are you inferring them from clues? What clues?*

Have the students return to their desks and put away their texts.

In this lesson, the students:

- Learn the procedure for “Heads Together”
- Hear, read, and discuss a poem
- Build awareness of making inferences as they read and hear the poem
- Read independently for up to 30 minutes
- Contribute to group work
- Include everyone in the group work and discussions

1 Introduce “Heads Together”

Have the students bring their *Student Response Books* and gather with partners sitting together, facing you. Point out that in past lessons the students shared ideas about their reading with their partners, but during today’s lesson they will share their thinking in groups of four. Ask:

- Q** *How might talking in a group of four be different from talking with a partner?*
- Q** *What challenges or difficulties might you face talking in a group of four?*

Students might say:

“It might be hard to decide whose turn it is to talk.”

“I think it will be different because we’ll get to hear more people’s thinking.”

“We’ll have to make sure that everyone has a chance to talk. That might be hard with more people.”

Put pairs together to form groups of four and ask group members to sit together. Explain that this week the students will continue to hear and discuss poetry. Tell them that after they hear a poem today they will use a technique called “Heads Together,” in which the students turn to their group members to discuss the poem. Explain that the purpose of “Heads Together” is to hear the thinking of several other people and practice sharing their own thinking in a group. Explain the “Heads Together” procedure.

You might say:

“Sometimes I will ask a question and say ‘Heads together.’ When you hear this, you will turn to face your group and talk about the question. When I raise my hand, you will finish what you are saying, raise your own hand so others can see the signal, and turn back to face me.”

Materials

- “Eraser and School Clock” (see page 291)
- *Student Response Book* pages 34–36
- “Questions to Use When Making Inferences” chart

Teacher Note

Group work fosters both academic and social development. In groups, the students are exposed to a greater variety of ideas, and the more complex interactions of the group require that students develop critical social skills, such as including one another, solving problems, making decisions, and reaching agreement. For more information, see “Focus on Social/Ethical Development” in the Introduction.

Teacher Note

If your students are already familiar with “Heads Together,” you do not need to practice it in Step 2. Instead, briefly review the procedure and continue with the rest of the lesson. To see an example, view “Using ‘Heads Together’” (AV9).

ELPS 2.I.iii
Steps 2 and 5

Teacher Note

If some groups have difficulty initiating a discussion, you might interrupt the activity and ask a group that successfully started a discussion to model what they did. You can use a similar process if groups are having trouble sustaining discussions.

TEKS 9.B.iii
Student/Teacher Narrative
Step 3

2 Practice “Heads Together”

Tell the students that they will briefly practice “Heads Together” once before they use the technique to discuss the poem. Ask the groups to turn and face each other and introduce themselves. After a moment, raise your hand and have the students turn back to face you. Practice again by asking:

Q *What have you learned from working with a partner that can help you work in a group of four? Heads together.*

Give the groups a few minutes to talk; then signal for them to come back together as a class. Have a few volunteers share what their groups discussed.

Students might say:

“Look at the person who is talking.”

“Don’t interrupt someone who is talking. Wait for your turn.”

“If you don’t understand what someone said, ask that person a question.”

“Contribute ideas.”

Encourage the students to use these ideas as they work in their groups today. Tell them that you will check in with them at the end of the lesson to see how the groups did using “Heads Together.”

3 Introduce “Eraser and School Clock”

Tell the students that the poem you will read aloud today is called “Eraser and School Clock” by Gary Soto. After you have read the poem aloud once, they will follow along as you read it a second time. After the second reading, they will use “Heads Together” to share their thoughts.

Explain that the narrator of the poem is a student who is taking a math test and that you would like the students to listen for clues about the narrator’s feelings.

4 Read Aloud

Read “Eraser and School Clock” (including the title and the poet’s name) aloud once, slowly and clearly, without stopping. Then clarify any vocabulary you think your students need to know to understand the poem.

Suggested Vocabulary

workings: parts (springs and gears) inside a watch that make it work (p. 291)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

freeze: stop moving (p. 291)

lasso: piece of rope with a loop at one end that can be thrown over an animal to catch it (p. 292)

walkie-talkie: two-way radio (p. 292)

homer: home run in baseball (p. 292)

flight: movement through the air (p. 292)

Have the students turn to *Student Response Book* page 34, “Eraser and School Clock,” and ask them to read along as you read the poem aloud again.

5 Discuss the Poem in Groups and as a Class

After the second reading, tell the students that they will use “Heads Together” to discuss what the poem is about. Remind them of the suggestions they made earlier about how to work effectively in a group. Ask:

Q *What is this poem about? Heads together.*

After a few minutes, facilitate a class discussion using the following questions:

Q *What happens in this poem?*

Q *How does the narrator feel about the math test? What words or lines in the poem support your inference that [he feels like he’s not doing well on the test]?*

Q *Why do you think part of the poem is in italics? Why does this make sense in this poem?*

Students might say:

“The writer doesn’t think he’s doing well on the math test; he says his math test is ‘All wrong, like / When I unscrewed / The back of my watch / And the workings / Fell out.’”

“The italics let us know that this person is daydreaming about hitting home runs during the test. At the end of the italicized section, the line says, ‘What a dream.’”

“It makes sense that he is daydreaming about hitting homers because he feels bad about the way his test is going. He says it’s a ‘mess of numbers.’ He probably plays baseball better than he does math.”

Teacher Note

As the students read the poem, they may notice the poet’s use of italicization to communicate a daydream. This will be discussed during the class discussion.

TEKS 9.B.iii

Student/Teacher Activity
Step 5

ELPS 3.E.i

Step 5

Teacher Note

As groups share, circulate and notice whether the students are referring to the poem to support their ideas. Also observe how the discussions are going. Note groups in which everyone is participating and groups in which only some students are participating. Be ready to report your observations to the students at the end of the lesson.

Reread the lines “I shrug / And look around / The classroom / Of erasers and pencils, / The clock racing / My answers to the finish.” Then ask:

Q *Is the clock actually racing with the narrator here? If not, what other meaning might we infer?*

As the students make inferences about the narrator’s feelings, the significance of the clock, and what happens in the poem, help them make their inferences explicit by asking:

Q *Is that stated directly in the poem, or did you infer it? What words or lines helped you infer that?*

6 Discuss Working in Groups of Four

Facilitate a brief discussion of the group work. Ask:

Q *How did “Heads Together” go for your group?*

Q *What problems did you have? How did you try to solve the problems? How did that work?*

Without mentioning any of the students’ names, share examples you observed of groups in which all members were participating well and groups in which only some members were participating. Also, describe any problems you noticed and follow up with questions such as:

Q *I noticed that in some groups, one or two people did all the talking. Why is it important for everyone’s ideas to be heard?*

Q *Whose responsibility is it to make sure everyone in your group participates?*

Q *If you find yourself in a group where only one or two people are talking, what can you do to make sure all members are involved?*

INDIVIDUALIZED DAILY READING

7 Read Independently and Make Inferences

Explain that today the students will practice making inferences in their independent reading. Direct the students’ attention to the “Questions to Use When Making Inferences” chart and remind them to use the questions to help them make inferences. Tell them that at the end of IDR you will ask them to share their inferences with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

ELL Note

Prior to independent reading, preview the questions you will ask the students as they read today. Tell them to be aware of what their stories or poems are about as they are reading and what inferences they are making.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 62) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 65 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Give the students a few minutes to share with their partners the titles of their texts, the authors’ names, what the texts are about, what inferences the students made, and what clues helped them make those inferences. After partners have had a chance to share, discuss as a class:

Q *What did your partner share with you today about his or her reading?*

Remind the students that the purpose of sharing their partners’ thinking is to help them develop their listening skills. Have the students return to their desks and put away their texts.

Read-aloud/Strategy Lesson

Day 4

In this lesson, the students:

- Practice the procedure for “Heads Together”
- Hear, read, and discuss a poem
- Visualize to make sense of the poem
- Build awareness of making inferences as they read and hear the poem
- Read independently for up to 30 minutes
- Contribute to group work and include everyone

1 Get Ready to Work in Groups of Four

Have the students bring their *Student Response Books* and gather in their groups of four, facing you. Review that in the previous lesson they used “Heads Together” to talk about the poem “Eraser and School Clock.” Explain that today they will hear a poem by a different poet and use “Heads Together” to share their thinking. Ask:

Q *If you notice that there are group members who are not talking in your group, what can you do or say to help them feel included?*

Materials

- “back yard” (see page 293)
- *Student Response Book* page 37
- “Class Assessment Record” sheet (CA2)
- “back yard” chart (WA4)
- “Reading Comprehension Strategies” chart and a marker
- “Questions to Use When Making Inferences” chart
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA5)
- Copy of this unit’s family letter (BLM1) for each student

Q *Why is it important that you personally contribute your own thinking to the group?*

Students might say:

"If one person in the group isn't talking, I can ask her what she thinks."

"We can ask the person if he agrees or disagrees with what other people have said."

"It's important to contribute your own thinking because you might be able to help someone in your group understand something better."

Explain that today you would like the students to focus on contributing their own thinking and including everyone as they work in their groups.

 **ELL Note**

You may wish to explain to your English Language Learners that a *back yard* is a "yard, or grassy area, in back of a house."

2 Introduce "back yard"

Tell the students that you will read aloud a poem called "back yard," by Valerie Worth, and that they will have another opportunity today to create mental images about what is happening as they hear it.

Review that when readers form mental images as they read, they are using an important comprehension strategy called *visualizing*. Visualizing can include not only what they see in their minds, but also sounds, smells, and feelings they imagine from the words.

Explain that you will read today's poem aloud twice and that you would like the students to close their eyes and visualize what is happening. After the second reading, you will ask them to share their thoughts in their groups.

3 Read Aloud

Read "back yard" (including the title and the poet's name) aloud twice, slowly and clearly, as the students listen with their eyes closed. Clarify vocabulary after reading the poem through the first time without interruption.

 **ELL Vocabulary**

English Language Learners may benefit from hearing the following vocabulary defined:

dozing: sleeping lightly (p. 293)

porch: outdoor sitting area attached to a house (p. 293)

nosing about: moving slowly and carefully as if looking for something (p. 293)

gazing: looking at something for a long time (p. 293)

easing: moving slowly (p. 293)

After the second reading, ask the students to open their eyes. Have the students turn to *Student Response Book* page 37, "back yard," and read the poem silently to themselves.

4 Discuss the Students' Inferences and Visualizations

Have the students use “Heads Together” to discuss what they visualized. Remind them to focus on ways to include everyone in the group work. Circulate among the groups as they talk.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to describe what is happening in the poem?
- Are their visualizations connected to the text?
- Do they recognize clues in the poem that helped them make inferences?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 61 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to make inferences and visualize what is happening in the poem, proceed with the lesson and continue on to Unit 6.
- If **about half of the students** or **only a few students** are able to make inferences and visualize what is happening in the poem, you might give the class additional instruction by repeating Days 3 and 4 of this week using alternative poems before continuing on to Unit 6. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

After several minutes, signal for the students’ attention and display the “back yard” chart (WA4). Facilitate a class discussion using the questions that follow, and as the students mention words or lines they used to visualize or infer, underline them on the chart. Ask:

- Q *What is happening in this poem?*
- Q *What sights, sounds, smells, or feelings did you imagine from the poem? What words helped you imagine those things?*

Explain that in the poem the poet writes about the sun as if it were a person and that writing about things in this way is called *personification*. Ask:

- Q *What are some descriptions the poet uses to personify the sun?*

Read the first ten lines of the poem, beginning with “Sun in the back yard” and ending with “For a nap.” Ask:

- Q *What meanings can we infer from these lines?*

Facilitation Tip

Reflect on your experience over the past two weeks with **pacing class discussions**. Do the pacing techniques feel comfortable and natural for you? Do you find yourself using them throughout the school day? What effect has your focus on pacing had on your students’ participation in discussions? We encourage you to continue to think about how to pace class discussions throughout the year.

Teacher Note

You might explain that *personification* is a type of *figurative language*. You might remind the students that earlier, in the poem “October Saturday,” the students encountered another type of figurative language: a metaphor (“All the leaves have turned to cornflakes”).

Students might say:

"I felt the wind blowing and heard the sound of laundry blowing in the wind, because it said 'a rush and a clap' in the poem."

"First the sun is described as 'lazy,' 'dozing,' and getting ready 'for a nap.' Then, when someone hangs out the wash, the sun is 'wide awake in the white sheets.'"

"The sun isn't actually doing those things, but the words make you think the sunlight is a person moving slowly and quietly across the yard."

As the students make inferences, make the inferences explicit by pointing them out.

You might say:

"The poem doesn't say the sunlight moved slowly across the lawn, but you inferred that from the words 'grows lazy,' 'nosing about corners,' and 'easing over the grass.'"

You might also want to point out that there is a dramatic contrast in the poem; the first half of the poem is quiet, sleepy, and slow-moving, while the second half is noisy with "a rush and a clap" of the wet cloth and the sun "wide awake in the white sheets."

5 Add to the "Reading Comprehension Strategies" Chart

Direct the students' attention to the "Reading Comprehension Strategies" chart and add *visualizing* to it. Explain that visualizing is a powerful strategy to help readers understand and remember what they read, and that readers sometimes use inference and visualization at the same time.

Reading Comprehension Strategies

- using text features
- questioning
- recognizing story elements
- making inferences
- visualizing

Encourage the students to visualize, make inferences, and use other comprehension strategies they have learned as they read independently.

6 Discuss Working Together

Let the students know that they will be assigned new partners before the next lesson. Facilitate a discussion about how the students worked with their partners and fellow group members over the past two weeks. Ask:

- Q *What did you like about working with your partner over the past two weeks? Tell your partner that now.*
- Q *What did you like about how your group has worked together this week? Tell your group members now.*

INDIVIDUALIZED DAILY READING

7 Write in Reading Journals About the Students' Independent Reading

Explain that today the students will practice making inferences in their independent reading. Direct the students' attention to the "Questions to Use When Making Inferences" chart and remind them to use the questions to help them make inferences. Tell them that at the end of IDR you will ask them to write about their inferences. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 62) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 65 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Display the "Journal Entry" chart (WA5) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

ELL Note

Prior to independent reading, remind the students to be aware of the inferences they are making as they read and the clues that are helping them make inferences. At the end of independent reading, students who struggle to write about their inferences may be encouraged to draw what they inferred or dictate journal entries for you to write down.

Vocabulary Note

Next week you will revisit “Speech Class” and “Eraser and School Clock” to teach the Week 13 vocabulary lessons.

Teacher Note

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on page 288.

Materials

- “Speech Class” (see page 289)
- “October Saturday” (see page 290)
- “Eraser and School Clock” (see page 291)
- “back yard” (see page 293)
- *Student Response Book* pages 31–32 and 34–37
- Copy of “Circles” (BLM3) for each student

Teacher Note

Prior to doing this activity, visit the CCC Learning Hub (cclearninghub.org) to access and print “Circles” (BLM3). Make enough copies for each student to have one, and set aside a copy for yourself. Preview the poem and identify vocabulary that you want to clarify as you read.

Journal Entry

Write a journal entry about the text you are reading. Please include:

- The title and the author’s name
- What the text is about
- One thing you know based on the part you read today
- Whether that is stated directly or indirectly in the text
- If indirectly, what clue or clues helped you infer it

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing with each other what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

WRITING ABOUT READING

Write About Visualizations and Inferences Using the Poem “Circles”

Remind the students that they have heard, read, and discussed four poems this week. Have them turn to *Student Response Book* page 30, “Speech Class.” Ask:

Q *What did you visualize when you heard this poem?*

Q *What inferences did we make about this poem?*

Have a few volunteers share their thinking. Repeat this procedure with the poems “October Saturday,” “Eraser and School Clock,” and “back yard.” Then explain that today the students will hear, read, discuss, and write about another poem.

Distribute copies of “Circles” (BLM3). Ask the students to follow along as you read the poem aloud, slowly and clearly, without stopping. Clarify vocabulary after the first reading. Then read the poem again, asking the students to close their eyes and create mental images of what is happening. Have them open their eyes, and ask:

Q *What did you visualize as you heard the poem? What lines in the poem made you think that?*

Have volunteers share their thinking. Ask:

Q *What do you think the circles represent, or stand for, in this poem? Why does that make sense?*

TEKS 6.D.i
Student/Teacher Activity
Writing About Reading

Have volunteers share their thinking. Reread the line “I am speaking of circles broken.” Ask:

Q *What inferences can we make about what this line means? What else in the poem supports your thinking?*

Have volunteers share their thinking.

Students might say:

“Maybe she’s talking about how the family doesn’t eat dinner together anymore.”

“If the people found their own places at the table every evening, then maybe the broken circle means they don’t have their own places anymore.”

As the students make inferences, point them out.

You might say:

“The poet doesn’t tell us who is having dinner together, but we can infer from the poem that the dinners once happened often and that they no longer do.”

Explain that today the students will write about what they visualized and inferred when they heard the poem “Circles.” Ask the students to watch as you think aloud and model writing about this.

You might say:

“I pictured a family gathering for dinner each night, with each family member sitting in his or her own place at the table, and enjoying each other’s company as they passed food to one another. I’ll write: *The poem ‘Circles’ by Myra Cohn Livingston created an image in my mind of a family that enjoys gathering to share a daily meal. I want to give evidence from the poem for this visualization. I’ll write: The line ‘our hands brushing as we passed potatoes’ makes me think they liked being together, or else they would have tried to avoid touching. The lines ‘finding our own place at the table / with its own napkin in its own ring’ suggest that the family members each had their own special place to sit and maybe even their own special way of participating. I think at the end the poet is saying that these regular family meals stopped happening and she’s sad about that. I’ll write: I think all the circles in the poem contribute to the image of a family that likes to gather daily to share a meal. The broken circle at the end makes me think that the family meals stopped happening and that the poet is sad about that.*”

Have the students write about their visualizations and inferences. If time permits, ask a few volunteers to share their writing with the class.

Teacher Note

Alternatively, you might have volunteers read the poems aloud.

EXTENSIONS

Explore First- and Third-person Points of View in Poems

Revisit the poems the students heard this week to think about the point of view of each poem. Read each poem aloud as the students follow along on pages 30–32 and 34–37 of their *Student Response Books*. After you read each poem aloud, ask questions such as:

Q *Who is narrating (speaking)? What in the poem makes you think so?*

Students might say:

“‘Speech Class’ is told by Jim Daniels, the poet, looking back on his childhood. You can tell because he says ‘We were outcasts’ and he includes his own name in the poem.”

“‘October Saturday’ is written as if a kid is telling you what she’s doing. But I think it’s by the poet, Bobbi Katz, and that it’s about a memory. I think she just makes it sound like it’s happening now because that’s how it feels when you have a strong memory.”

“I think ‘Eraser and School Clock’ is written by the poet looking back on his childhood, like ‘October Saturday.’”

“I agree with [Wendell] that ‘Eraser and School Clock’ could be a memory, but I think it could also just be describing what the poet imagines a kid might go through. It might not actually be about his own childhood.”

Point out that “Speech Class,” “October Saturday,” and “Eraser and School Clock” are told from the first-person point of view. Review that when a poem or story is told from the *first-person point of view*, it uses pronouns like *I*, *my*, and *me*. Explain that “back yard” is told from the *third-person point of view* and that we can tell because it does not use pronouns like *I*, *my*, and *me*. Encourage the students to notice the points of view of the stories and poems they read independently and to think about how points of view affects their thoughts and feelings about what they read. You might also encourage them to write poems and experiment with using different points of view.

Practice Visualizing with Other Poems

You might invite the students to look for poems with especially descriptive language and read them aloud to their classmates. Encourage the students to listen to the poems with their eyes closed and visualize what is being described. They might then describe their visualizations to one another.

TECHNOLOGY EXTENSIONS

Record and Listen to Poems

You might have the students create audio (voice) recordings of themselves reading the poems they heard this week, poems they have discovered on their own during IDR, or poems they have written themselves. Show them how to record their voices using a smartphone, computer, tablet, or other recording device.

Before recording, have the students practice reading aloud the poems several times until they can read them smoothly. Remind them to speak loudly and clearly so their voices can be heard in the recordings. Play the recordings for the class and ask questions such as:

- Q *Why is it important to practice reading a poem aloud before you record it?*
- Q *What did you enjoy most about recording a poem? What was challenging, or difficult, about it?*
- Q *What did you enjoy about hearing your classmates read a poem?*
- Q *Which do you prefer: reading a poem yourself or hearing a poem read aloud? Why?*

Alternatively, have the students post the recordings on the class blog, along with the questions above, and invite classmates, family members, and other members of the school community to listen to the recordings and write responses to the questions.

Compare a Written Version and an Oral Presentation of a Poem

Remind the students that over the past few days they have listened to poems read aloud by you and they have also read poems to themselves. Explain that hearing poetry read aloud can help the listener better understand poems.

Tell the students that they are going to read a poem silently to themselves and then they will listen to a recording of the poet reading his or her poem aloud. Distribute a copy of the poem you selected and have the students read it silently to themselves. Ask:

- Q *What is this poem about?*

Have a few volunteers share their thinking. Tell the students that they will listen to the poet reading the poem they just read. Ask them to notice what the poet does to make the poem interesting to hear. Then play the recording of the poem. After listening to the poem, facilitate a discussion about the differences between the oral presentation of the poem and the written poem. Ask questions such as:

- Q *What did you notice about the way the poet read the poem?*

Technology Tip

For more information about creating audio recordings, view the “Creating Audio and Video in the Classroom” tutorial (AV50).

For more information about setting up and maintaining a class blog, view the “Using Blogs in the Classroom” tutorial (AV45).

Technology Tip

Prior to doing this activity, find one or two audio recordings of poets reading their poetry aloud that you can play for the students. The Children’s Poetry Archive offers many such recordings to choose from. To find it, search online with the keywords “children’s poetry archive.” You will also need to locate a written version of each poem you choose and make a copy for each student. For more information, view the “Finding, Organizing, and Presenting Online Information” tutorial (AV43).

Q *What is it like to hear a reading of a poem, compared to reading it to yourself? How does your understanding of the poem change when you hear a recording of it?*

Q *Which version of the poem did you like better? Why?*

If time permits, you might repeat this activity using another poem.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of Unit 5. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit’s family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

Assessment

- Before continuing on to the next unit, take this opportunity to assess individual students’ reading comprehension using the “Individual Comprehension Assessment” record sheet (IA1); see page 66 of the *Assessment Resource Book*.

Poem

Speech Class

(for Joe)

by Jim Daniels

We were outcasts—
you with your stutters,
me with my slurring—
and that was plenty for a friendship.

When we left class to go to the therapist
we hoped they wouldn't laugh—
took turns reminding the teacher:
“Me and Joe have to go to shpeesh class now,”
or “M-m-me and J-Jim ha-have to go to
s-s-speech now.”

Mrs. Clark, therapist, was also god, friend, mother.
Once she took us to the zoo on a field trip:
“Aw, ya gonna go look at the monkeys?”
“Maybe they'll teach you how to talk.”
We clenched teeth and went
and felt the sun and fed the animals
and we were a family of broken words.

For years we both tried so hard
and I finally learned
where to put my tongue and how to make the sounds
and graduated,
but the first time you left class without me
I felt that punch in the gut—
I felt like a deserter
and wanted you
to have my voice.

“Speech Class” from *The Place My Words Are Looking For* by Jim Daniels. Copyright © 1990 by Jim Daniels. Used by permission of Jim Daniels.

Poem

October Saturday

by Bobbi Katz

All the leaves have turned to cornflakes.
It looks as if some giant's baby brother
had tipped the box
and scattered them upon our lawn—
millions and millions of cornflakes—
crunching, crunching under our feet.
When the wind blows,
they rattle against each other,
nervously chattering.

We rake them into piles—
Dad and I.
Piles and piles of cornflakes!
A breakfast for a whole family of giants!
We do not talk much as we rake—
a word here—
a word there.
The leaves are never silent.

Inside the house my mother is packing
short sleeved shirts and faded bathing suits—
rubber clogs and flippers—
in a box marked SUMMER.

We are raking,
Dad and I.
Raking, raking.
The sky is blue, then orange, then gray.
My arms are tired.
I am dreaming of the box marked SUMMER.

"October Saturday" by Bobbi Katz. Copyright © 1990 by Bobbi Katz. Used with permission of the author.

Poem

Eraser and School Clock

by Gary Soto

My eraser
Is pink
And car-shaped.
It skids across
My math test,
Which is a mess of numbers,
All wrong, like
When I unscrewed
The back of my watch
And the workings
Fell out.
The teacher frowned
When she saw
The watch,
Its poor heart
Torn out. Now
I'm working
On my math,
And I think,
I think, I think
I know. I look
Up at the school clock
With its hammerlike tick.
I could tear
Open its back,
And perhaps
The springs and gears
Would jump
And time stop.
This test could stop,
And my friends
Freeze, pencils
In their hands,
Erasers, too.

(continues)

"Eraser and School Clock" from *Canto Familiar* by Gary Soto. Copyright © 1995 by Gary Soto.

Eraser and School Clock

(continued)

All would freeze,
Including my teacher,
And I could blow
On the skid marks
Of my eraser.
*I walk out
To the playground,
My eight fingers
And two thumbs
Wrapped around
A baseball bat.
The janitor
Is frozen
To his broom,
The gardener
To his lasso of
Hose and sprinkler,
And the principal
To his walkie-talkie.
I hit homer
After homer,
And they stand,
Faces frozen
And mouths open,
Their eyes maybe moving,
Maybe following
The flight
Of each sweet homer.
What a dream.
I shrug
And look around
The classroom
Of erasers and pencils,
The clock racing
My answers to the finish.*

Poem

back yard

by Valerie Worth

Sun in the back yard
Grows lazy,

Dozing on the porch steps
All morning,

Getting up and nosing
About corners,

Gazing into an empty
Flowerpot,

Later easing over the grass
For a nap,

Unless
Someone hangs out the wash—

Which changes
Everything to a rush and a clap

Of wet
Cloth, and fresh wind

And sun
Wide awake in the white sheets.

“back yard” from *All the Small Poems and Fourteen More*, by Valerie Worth. Copyright © 1987 Valerie Worth. Reprinted by permission of Farrar, Straus and Giroux, LLC.

Unit 6

Making Inferences

FICTION AND EXPOSITORY NONFICTION

During this unit, the students make inferences to understand causes and effects in narrative and expository text. They continue to use text structure to explore narrative text. They make text-to-text connections as they compare two historical fiction texts on their approaches to similar themes and topics, and explore the use of first- and third-person points of view in the texts. They also use schema to articulate all they think they know about a topic before they read. During IDR, the students think about the comprehension strategies they use to make sense of their independent reading. They also think about the inferences they make as they read independently, and they continue to confer with the teacher individually about the books they are reading. Socially, they develop the skills of including everyone in and contributing to group work and of using prompts to extend a conversation. They also analyze the effect of their behavior on others and on the group work and work in a responsible way.

Unit 6

Making Inferences

RESOURCES

Read-alouds

- *Richard Wright and the Library Card*
- *Uncle Jed's Barber Shop*
- *Hurricanes*
- *Global Warming*
- *Rainforests* (also used in Unit 2, Week 1)

Writing About Reading Activities

- “Compare Two Historical Fiction Texts”
- “Write Opinions About First- and Secondhand Accounts of Hurricane Katrina”

Technology Extensions

- “Learn About Other African American Authors”
- “Research Global Warming”

Extensions

- “Read and Compare Other Works of Historical Fiction About the Segregated South”
- “Analyze Paired Texts About the Great Depression”
- “Analyze Paired Texts About a Hurricane”
- “Read Other Books About Global Warming and Make Text-to-text Connections”

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this unit.

Whiteboard Activities

- WA1–WA12

Assessment Forms

- “Class Assessment Record” sheets (CA1–CA3)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)
- “Social Skills Assessment Record” sheet (SS1)

Reproducibles

- Unit 6 family letter (BLM1)
- (Optional) “First- and Secondhand Accounts of Hurricane Katrina” (BLM2)

Professional Development Media

- “Using ‘Heads Together’” (AV9)
- “Using ‘Group Brainstorming’” (AV11)
- “Avoid Repeating or Paraphrasing” (AV24)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)
- “Using Web-based Maps and Related Tools” tutorial (AV49)

RESOURCES *(continued)*

Assessment Resource Book

Week 1

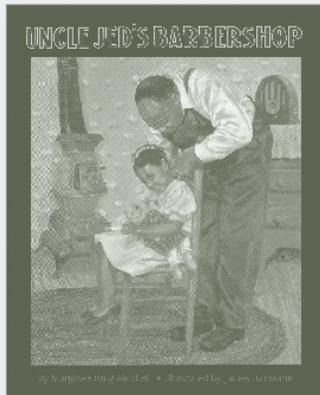

OVERVIEW

Richard Wright and the Library Card

by William Miller, illustrated by Gregory Christie

In this fictionalized account, writer Richard Wright gains access to a library and a new world of books and ideas.

Uncle Jed's Barbershop

by Margaree King Mitchell, illustrated by James Ransome

Sarah Jean tells the story of her Uncle Jed, the only black barber in the county, who overcomes obstacles and setbacks to realize his dream of opening a barbershop.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA5

Assessment Forms

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)

Professional Development Media

- “Avoid Repeating or Paraphrasing” (AV24)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)

Comprehension Focus

- Students make inferences to understand causes and effects in a historical fiction story.
- Students continue to use text structure to explore narrative text.
- Students make text-to-text connections.
- Students read independently.

Social Development Focus

- Students analyze the effect of their behavior on others.
- Students develop the skill of using prompts to extend a conversation.

DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding. Take time to show and discuss the illustrations and photographs.
- ✓ Make available poetry, fiction, narrative nonfiction, and expository nonfiction at a variety of levels for the students to read during IDR and Independent Strategy Practice throughout the unit.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during the unit.
- ✓ Prior to Day 1, prepare a sheet of chart paper with the title “Prompts to Extend a Conversation.”
- ✓ Prior to Day 1, make a class set of “IDR Conference Notes” record sheets (CN1); see page 83 of the *Assessment Resource Book*.
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA1); see page 77 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 13 lessons this week.

Materials

- *Richard Wright and the Library Card*
- “Prompts to Extend a Conversation” chart, prepared ahead, and a marker
- “Thinking About My Reading” chart
- “Reading Comprehension Strategies” chart
- Class set of “IDR Conference Notes” record sheets (CN1)
- *Assessment Resource Book* page 80

Teacher Note

The discussion prompts are:

- “I agree with you because . . .”
- “I disagree with you because . . .”
- “In addition to what you said, I think . . .”

In this lesson, the students:

- Begin working with new partners
- Learn prompts to extend a conversation
- Hear and discuss a historical fiction book
- Make inferences about the story’s plot, conflict, setting, and characters
- Explore social and ethical issues in the story
- Read independently for up to 30 minutes

1 Pair Students and Brainstorm Prompts to Extend Conversations

Randomly assign partners and make sure they know each other’s names. Gather the class with partners sitting together, facing you. Review that in previous lessons the students learned to ask clarifying questions, confirm their partners’ thinking by repeating back what they heard, and use discussion prompts to add to their partner conversations. Remind them that they should be using these skills as needed in their partner conversations.

Point out that sometimes partners quickly finish what they are saying and then end up sitting without saying anything for the rest of the partner discussion time. Ask:

- Q *What suggestions do you have to help partners keep their conversations going?*
- Q *What are some prompts partners might use to get each other talking again?*

As the students make suggestions, write them on the “Prompts to Extend a Conversation” chart.

Prompts to Extend a Conversation

- “Tell me more of your thinking about . . .”
- “Let’s talk a little more about . . .”
- “Another way to think about it might be . . .”

State your expectation that during “Turn to Your Partner” and “Think, Pair, Share,” partners will continue talking until you signal them to end their conversations. Encourage the students to use the prompts on the chart as well as the skills they learned previously as they work today.

2 Introduce *Richard Wright and the Library Card*

Remind the students that they have been using the strategy of making inferences to help them make sense of stories and poems. Explain that this week they will continue to make inferences and review story elements, including character, setting, conflict, and plot.

Tell the students that the story you will read aloud today is *Richard Wright and the Library Card*. Show the cover of the book and read the names of the author and the illustrator aloud. Explain that the story is based on a true incident from the life of Richard Wright, a famous author. To provide background knowledge about Wright, read aloud or paraphrase the author’s note on the last page of the book.

Explain that the setting of the story is the 1920s in the South, when segregation was part of everyday life. Ask and briefly discuss:

Q *What do you think you know about segregation?*

If necessary, explain that *segregation*, or “the practice of keeping people of different racial groups apart,” was a way of life throughout the United States until the mid-1900s. Some states in the South had laws that required African Americans to attend different schools from white people and to use separate public facilities like restrooms and drinking fountains. Many businesses owned by white people, such as hotels and restaurants, refused to serve African Americans. Segregation resulted in great inequality and hardship for African Americans. In the 1920s, when *Richard Wright and the Library Card* takes place, many African Americans were moving north, seeking freedom and opportunity in states without segregation laws.

3 Read Aloud

Read the book aloud slowly and clearly, showing the illustrations and clarifying vocabulary as you read.

Teacher Note

Save the “Prompts to Extend a Conversation” chart to use throughout the unit.

Teacher Note

You may want to remind the students that when they make inferences, they use clues from a story or poem to figure out something that is not stated directly.

TEKS 8.D.i

TEKS 8.D.ii

Student/Teacher Narrative

Step 2

Teacher Note

The pages of *Richard Wright and the Library Card* are unnumbered. For easy reference, pencil in page numbers, beginning with the number 1 on the right-hand title page that includes the author’s name. (Page 5 begins “Richard loved the sound of words.”) This system is used throughout the program for all read-alouds with unnumbered pages.

ELL Note

English Language Learners may benefit from additional stops to discuss the reading, for example, after pages 12, 22, and 27.

TEKS 8.D.i
TEKS 8.D.ii
Student/Teacher Activity
Step 4

Suggested Vocabulary

Rebel army: the army of the South (Confederacy), which fought against the North during the Civil War (p. 5)

ash cans: trash cans (p. 9)

optician: person who makes and sells eyeglasses (p. 10)

spines: parts of books where the pages are fastened together (p. 21)

Dickens: Charles Dickens, an English author from the 1800s (p. 25)

Tolstoy: Leo Tolstoy, a Russian author who wrote from the mid-1800s to the early 1900s (p. 25)

Stephen Crane: American author who wrote during the late 1800s (p. 25)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

the war: the American Civil War (p. 5)

longed: wanted very much (p. 7)

funny papers: comic strip pages of the newspaper (p. 7)

4 Discuss Plot, Conflict, Setting, and Character in the Story

First in pairs and then as a class, discuss the following questions. During the partner discussions, remind the students to continue talking until you signal them to end their conversations. Tell them to use the prompts on the “Prompts to Extend a Conversation” chart as needed. Ask:

- Q *What is the plot of this story (what happens in the story)? Turn to your partner.*
- Q *What conflicts or problems are there in the story? Turn to your partner.*
- Q *What is the setting (the time and place)? Why is the setting an important part of this story? Turn to your partner.*
- Q *What kind of person is Richard? What in the story makes you think that? Turn to your partner.*
- Q *What do you admire about Richard Wright? What can we learn from his life that might help us in our own? Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

"Richard asks his coworker to help him get library books in a time and place where that wasn't allowed."

"There was a lot of prejudice during the time of the story. That explains why the white people at the library are mean to Richard."

"Richard is smart. He reads all kinds of books and understands them, and he figures out how to get a library card."

"He lies to get the books. That shows he's determined to read."

"In addition to what [Michaela] said, I think he's also brave. He goes to Memphis by himself when he's seventeen, and he asks the white man for his library card."

During the class discussion, be ready to reread passages from the text and show illustrations again to help the students recall what they heard. Also, as the students make inferences about the plot, setting, and characters, point them out.

You might say:

"The author does not say directly that Richard is smart, but you inferred that, or figured it out from clues in the story."

Remind the students that as they talked about the plot, conflict, setting, and characters in the story, they made inferences. Explain that in the next lesson they will continue to explore making inferences as they hear the story read aloud again.

5 Reflect on Using Prompts to Extend a Conversation

Facilitate a brief discussion about how the students did extending their partner conversations. Share your own observations, and ask:

Q *What prompt on the "Prompts to Extend a Conversation" chart did you try using today? How did that help to keep you and your partner talking?*

INDIVIDUALIZED DAILY READING

6 Review and Practice Self-monitoring and "Fix-up" Strategies

Tell the students that for the next three weeks they will read poetry, fiction, narrative nonfiction, or expository nonfiction during IDR.

Refer to the "Thinking About My Reading" chart and review the questions. Remind the students that it is important to stop, think about what they are reading, and use the questions on the chart to help them monitor their comprehension. If a student does not understand what he is reading, the student should use one or both of the "fix-up" strategies of rereading and reading ahead.

Teacher Note

Facilitate interaction among the students during the class discussion with questions such as:

Q *Who will confirm [Travis's] thinking by repeating back what you heard him say?*

Q *Do you agree or disagree with what [Travis] just said? Why? Turn to your partner.*

Q *Did you agree or disagree? Explain your thinking.*

ELL Note

To support your English Language Learners, consider modeling reading a text and stopping periodically to ask yourself the self-monitoring questions listed on the chart. Discuss each question with your students to make sure they understand the process.

Teacher Note

Provide time on a regular basis for the students to record the books they have completed in their reading logs.

If a student has tried both of the “fix-up” strategies and still does not understand the text, he can try the strategies listed on the “Reading Comprehension Strategies” chart. Alternatively, the student might ask you or a classmate for help.

Have the students get their texts and read silently for up to 30 minutes. Stop them at 10-minute intervals and have them monitor their comprehension by thinking about the questions on the “Thinking About My Reading” chart.

After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Beginning today, and continuing throughout the unit, confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 80) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 83 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Facilitate a brief class discussion about using the questions on the “Thinking About My Reading” chart to track reading comprehension. Ask and briefly discuss questions such as:

- Q *Why is it important to stop as you are reading and ask yourself if you understand what you read?*
- Q *How do rereading and reading ahead help you make sense of text?*
- Q *Which comprehension strategy do you find the most helpful when you're not understanding something you're reading? Why?*

Have the students return to their desks and put away their texts.

In this lesson, the students:

- Practice prompts to extend a conversation
- Hear a historical fiction book read aloud again
- Make inferences as they hear the story
- Discuss character change in the story
- Read independently for up to 30 minutes

1 Review Using Prompts to Extend Conversations

Gather the students with partners sitting together, facing you. Direct the students' attention to the "Prompts to Extend a Conversation" chart and read the prompts aloud. Remind the students to focus today on talking for the whole time during partner conversations, using the prompts as needed. Tell the students that you will check in with them at the end of the lesson to see how they did.

2 Highlight Clues for Making Inferences in *Richard Wright and the Library Card*

Remind the students that they heard *Richard Wright and the Library Card* yesterday. Display the "Clues for Making Inferences in *Richard Wright and the Library Card*" chart (🌐 WA1) and read the chart title aloud. Explain that these are passages from the story from which a reader can infer how Richard feels.

Clues for Making Inferences in *Richard Wright and the Library Card*

"As long as he kept his head down, as long as he began every sentence with 'sir,' Richard was safe."

"'I want to read books. I want to use the library, but I can't get a card,' Richard said, hoping Jim would not laugh in his face."

"After work, Richard walked through the crowded streets to the library. He felt as if he were on a train to Chicago, as if he were traveling north already."

Read the sentences aloud. Then explain that you will read the story aloud again and that you will stop after each of the three passages on the chart and have the students use "Think, Pair, Share" to talk about what they infer about Richard's feelings.

Materials

- *Richard Wright and the Library Card*
- "Prompts to Extend a Conversation" chart from Day 1
- "Clues for Making Inferences in *Richard Wright and the Library Card*" chart (WA1)
- "Reading Comprehension Strategies" chart

WA1

🌐 ELL Note

Remind the students that when they infer, or make inferences, they use clues from the story to figure out something that is not stated directly.

Facilitation Tip

During this unit, we encourage you to **avoid repeating or paraphrasing** students' responses. It is easy to habitually repeat what students say when they speak too quietly or to paraphrase what they say when they do not speak clearly. This teaches the students to listen to you but not necessarily to one another. Try to refrain from repeating or paraphrasing and see what happens. Encourage the students to take responsibility by asking one another to speak up or by asking a question if they do not understand what a classmate has said.

To see this Facilitation Tip in action, view "Avoid Repeating or Paraphrasing" (AV24).

3 Reread the Story

Read the story aloud slowly and clearly. Stop after each of the charted passages (on pages 10, 14, and 19). After you reread each passage, use "Think, Pair, Share" to discuss:

Q *What can you infer about how Richard feels? [pause] Turn to your partner.*

Have one or two volunteers report their inferences at each stopping point; then reread the passage and continue reading to the next stopping point. Do not spend too long at any one stop.

Students might say:

"My partner and I inferred from these sentences that Richard probably feels afraid and intimidated. He has to be careful around white people or he will get into trouble."

"Richard is afraid Jim will make fun of him, but he wants a library card more than anything, so he's determined to ask Jim for help."

"My partner and I figured out that Richard is feeling happy and free. He thinks reading books will help him have a better life."

If the students disagree significantly on what inferences make sense for any of the three clues, discuss this before continuing on with the lesson. Ask the students to refer to the text to support their opinions, and ask probing questions such as:

Q *What do you think Richard might be thinking at that moment? What in the story makes you think that?*

Q *Why do you think Richard is worried that Jim will laugh at him? Explain your thinking.*

4 Discuss Character Change in the Story

Review that characters often change over the course of a story. Facilitate a class discussion by asking the following question:

Q *The sentence "Richard knew he would never be the same again" is a dramatic clue that he has changed after staying up all night reading. How do you think Richard has changed? Explain your thinking.*

Reread aloud the third and fourth sentences on page 25, beginning: "He read about people who had suffered as he had . . ." Ask:

Q *Why might reading about these things have changed Richard so dramatically?*

Students might say:

"Richard changes because the ideas in the books open his mind and make him understand important things about life."

"Maybe the words he read make him feel like he isn't the only one struggling for freedom."

"In addition to what [Grady] said, maybe now Richard understands that not all white people acted like the ones around him. In different times and places, they have suffered, too."

Point out that in most stories, the author does not say directly how a character changes. In this case, the reader must infer how Richard changes.

Explain that many of the students naturally made inferences throughout the story and that one of the goals of studying inference is for the students to become more aware of when they are making inferences. Being aware of making inferences will help them think more about what they read.

5 Reflect on Partner Conversations

Facilitate a brief discussion of how partners worked together, and share examples you noticed of partners confirming and clarifying each other's thinking and using prompts to add to or extend their conversations.

INDIVIDUALIZED DAILY READING

6 Review the "Reading Comprehension Strategies" Chart and Read Independently

Direct the students' attention to the "Reading Comprehension Strategies" chart and remind them that these are the comprehension strategies they have learned so far this year. Ask them to notice which strategies they use and where they use them during their independent reading today. Tell the students that at the end of IDR you will ask them to share with the class the strategies they used. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 80) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 83 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their reading with the class. Have each volunteer share the title of the text she read, the author's name, and what the text is about. Then have her share with the class the strategy she used and where in the text she used it. If students cannot think of a comprehension strategy they used, ask them to talk about what they read. Have the students return to their desks and put away their texts.

Technology Tip

Prior to doing this activity, you might wish to view the "Finding, Organizing, and Presenting Online Information" tutorial (AV43).

TECHNOLOGY EXTENSION

Learn About Other African American Authors

Have the students work in pairs to research and report on the lives of prominent African American authors. Some possible authors are: Maya Angelou, James Baldwin, Amiri Baraka, Donald Crews, Edwidge Danticat, Frederick Douglass, Ralph Ellison, Henry Louis Gates, Alex Haley, Francis Harper, Zora Neale Hurston, Julius Lester, Paule Marshall, Toni Morrison, Walter Dean Myers, ZZ Packer, Suzan-Lori Parks, Mildred D. Taylor, Alice Walker, Phillis Wheatley, Colson Whitehead, and August Wilson.

Have each pair create a presentation slide about the author they researched. Then assemble the slides into a presentation to show to the class. After the class has viewed the presentation, discuss questions such as:

- Q *What did you learn that was especially interesting to you?*
- Q *Which of these authors might you want to learn more about?*

In this lesson, the students:

- Hear, read, and discuss part of a historical fiction book
- Make inferences to explore causes of events in the story
- Read independently for up to 30 minutes
- Use prompts to extend a conversation

1 Review Using Prompts to Extend Conversations

Have the students get their *Student Response Books* and pencils and sit at desks with partners together. Explain that today partners will continue to focus on using prompts to extend conversations. Briefly review the items on the “Prompts to Extend a Conversation” chart.

2 Introduce Exploring Causes

Remind the students that they have been making inferences to help them understand what is happening in books such as *Richard Wright and the Library Card* and *The Van Gogh Cafe*. Point out that they can also use the strategy to help them figure out why something happens—what causes an event to happen as it does in a book.

Explain that today they will explore why some things happen as they do in *Richard Wright and the Library Card*.

3 Explore Causes in *Richard Wright and the Library Card*

Remind the students that in the story, Richard asks one particular man in his office, Jim Falk, for help. Ask:

Q Why does Richard choose Jim Falk to help him? Turn to your partner.

Without discussing the question as a class, direct the students’ attention to *Student Response Book* page 38, “Excerpt from *Richard Wright and the Library Card*,” and explain that the excerpt is the part of the story in which Richard asks Jim Falk for help. Display the “Directions” chart (WA2) and explain the directions on it.

Materials

- *Richard Wright and the Library Card*
- “Prompts to Extend a Conversation” chart from Day 1
- *Student Response Book* pages 38–39
- “Directions” chart (WA2)
- “Class Assessment Record” sheet (CA1)
- “Excerpt from *Richard Wright and the Library Card* (1)” chart (WA3)
- “Reading Comprehension Strategies” chart

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit’s Individual Comprehension Assessment.

Teacher Note

Have students who are unable to read the excerpt on their own read it quietly aloud with partners, or you might read it aloud yourself as the students follow along. Then have them go back and underline the clues in the passage.

ELPS 4.E.i

Step 3 and ELL Note in margin on page 312

ELL Note

English Language Learners may benefit from extra support to make sense of the excerpt. Show and discuss the illustrations on pages 14–17 again; then read the excerpt aloud as they follow along, stopping intermittently to talk about what is happening. The students may benefit from an explanation of the following words and passages:

- “ignored”
- “. . . Richard had been sent to the library to check out books for him.”
- “a suspicious look”
- “cautiously”
- “ ‘I’ll write a note,’ Richard said, ‘like the ones you wrote when I got books for you.’ ”

WA2

Directions

1. Read the excerpt quietly to yourself.
2. Reread the excerpt, and underline sentences that help to answer this question: Why does Richard choose Jim Falk to help him?
3. Turn to *Student Response Book* page 39, “Double-entry Journal About *Richard Wright and the Library Card*.”
4. Choose a part you underlined in the excerpt, write the words or sentences in the “What I Read” column, and write the inference you made in the “What I Inferred” column.
5. If you have time, repeat Step 4 for another part you underlined.

As the students work, circulate, notice which sentences they underline, and ask them the following questions to help them think about the inferences they are making:

- Q** You underlined [“*Only one man seemed different from the others*”]. What did you infer from that sentence about why Richard chooses Jim?
- Q** You wrote [“‘*What do you want to read?*’ Jim asked cautiously. ‘*Novels, plays, history?*’”]. What inference can you make from those sentences?

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students identifying clues about why Richard selects Jim?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 77 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify clues about why Richard selects Jim, proceed with the lesson and continue on to Day 4.
- If **about half of the students** are able to identify clues about why Richard selects Jim, proceed with the lesson and continue on to Day 4 and plan to check in with students who are having difficulty identifying simple causal relationships during IDR.
- If **only a few students** are able to identify clues about why Richard selects Jim, you might give the class additional instruction by repeating Days 1, 2, and 3 of this week using an alternative book before continuing on to Day 4. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

4 Discuss Inferences as a Class

When most pairs have finished, display the “Excerpt from *Richard Wright and the Library Card (1)*” chart (🗨️ WA3). Repeat the question “Why does Richard choose Jim Falk to help him?”; then ask a few students to share the sentences they underlined and the inferences they made. Facilitate a discussion among the students, using questions such as:

- Q *Do you agree or disagree with what [Jamil] shared? Why?*
- Q *What question do you want to ask [Jamil] to better understand what he’s thinking?*
- Q *Does Jim Falk really think differently from the other white men? What in the excerpt supports the opinion that he [does/doesn’t] think differently?*

Students might say:

“I underlined the sentence ‘Jim Falk kept to himself, and the other men ignored him, as they ignored Richard.’ I wrote *Richard thinks Jim is an outsider like he is. That’s why he chooses Jim.*”

“In addition to what [Latisha] said, I think Richard chooses Jim because he’s a reader and might understand another reader. The sentence I underlined about that is ‘Several times, Richard had been sent to the library to check out books for him.’”

“I think Jim Falk does think differently from the others because he gives Richard his library card.”

“I disagree with [Mattie]. I think Jim Falk doesn’t think differently from the other white men because he was immediately suspicious of Richard and he is also nervous about getting into trouble if anyone finds out he has helped Richard.”

Point out that the author does not directly say *why* Richard selects Jim but that the students can infer this from the story. Explain that authors often don’t explain why events happen in stories or why characters behave as they do. Instead, readers have to make inferences to figure out why.

Explain that the students will have more opportunities in the coming weeks to practice making inferences about why things happen as they do.

5 Reflect on This Week’s Partner Work

Facilitate a brief discussion about how partners worked together. Ask:

- Q *What did you enjoy about working with your partner this week? Turn to your partner.*

After partners have had a chance to share, discuss as a class:

- Q *What did your partner share with you?*

Remind the students that the purpose of sharing their partners’ thinking is to help them develop their listening skills.

INDIVIDUALIZED DAILY READING

6 Read Independently and Discuss the Comprehension Strategies the Students Used

Direct the students' attention to the "Reading Comprehension Strategies" chart and ask them to notice which strategies they use and where they use them during their independent reading today. Tell the students that at the end of IDR you will ask them to share the strategies they used with partners. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 80) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 83 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share with partners what they read. Have each student tell his partner the title of his text, the author's name, and what the text is about. Then have each student share the strategy he used and where in the text he used it. If students cannot think of comprehension strategies they used, ask them to talk about what they read. Have the students return to their desks and put away their texts.

In this lesson, the students:

- Hear and discuss a historical fiction book
- Make inferences about the story’s plot, conflict, setting, and characters
- Compare two historical fiction books
- Explore the use of first- and third-person points of view
- Read independently for up to 30 minutes
- Use prompts to extend a conversation

1 Review Story Elements

Gather the class with partners sitting together, facing you. Remind the students that earlier they heard *Richard Wright and the Library Card* and talked about story elements, including character change. Tell the students that today you will read another story aloud and partners will talk about the story elements they notice. Remind the students that thinking about elements such as character and character change, setting, plot, and conflict can help readers identify with and remember what is important in the story.

Direct the students’ attention to the “Prompts to Extend a Conversation” chart and remind the students that they have been practicing using these prompts to extend their conversations. Encourage them to continue to practice this skill today.

2 Introduce *Uncle Jed’s Barbershop*

Show the cover of *Uncle Jed’s Barbershop* and read the names of the author and the illustrator aloud. Explain that the setting of the story is the South during a time when segregation was part of everyday life. Remind the students that *Richard Wright and the Library Card* also takes place in the segregated South. Explain that the time period of the two stories is a little different. *Richard Wright and the Library Card* takes place during the 1920s. The first part of *Uncle Jed’s Barbershop* takes place during the Great Depression, a period in the 1930s when many factories and businesses closed and millions of Americans were out of work. Thousands of banks also shut down and many people lost their life savings.

Explain that the author of *Uncle Jed’s Barbershop* based the character of Uncle Jed on her grandfather.

Materials

- *Uncle Jed’s Barbershop*
- *Richard Wright and the Library Card*
- “Prompts to Extend a Conversation” chart from Day 1
- “Excerpt from *Uncle Jed’s Barbershop*” chart (WA4)
- “Excerpt from *Richard Wright and the Library Card* (2)” chart (WA5)
- Self-stick notes for each student
- (Optional) “Questions to Use When Making Inferences” chart from Unit 5

Teacher Note

Today’s lesson may take longer than usual to complete. You might consider stopping after Step 5 and then completing the remainder of the lesson at another time.

ELPS 4.F.v
ELPS 4.F.x
 Steps 2 and 3 and ELL Note on page 316

ELL Note

English Language Learners may benefit from additional stops to discuss the reading, for example, after pages 7, 15, 21, and 25.

ELPS 4.G.iii

Steps 3–5, including margin notes on pages 316–317

3 Read Aloud

Read *Uncle Jed's Barbershop* aloud slowly and clearly, showing the illustrations and stopping as described below.

ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

barbershop: place where a barber cuts hair and trims beards (title)

clippers: scissors used to cut hair (p. 4)

barber: person who cuts hair and shaves or trims beards for a living (p. 4)

lathered: covered with foam made of soap and water (p. 6)

lotion: liquid rubbed on the skin to keep it soft (p. 6)

unconscious: not conscious, or awake; unable to see, feel, or think (p. 16)

operation: the cutting open of someone's body to treat an illness or repair an injury (p. 16)

Talk about some hard times: Life was very difficult and people suffered (p. 22)

Stop after:

- p. 11** "That meant they lived in a shack and worked somebody else's land in exchange for a share of the crop."

Ask:

 **Q** *What has happened in the story so far? Turn to your partner.*

 Without sharing as a class, reread the last sentence and continue to the next stopping point. At each of the following stops, have the students share in pairs; then reread the last sentence and continue reading to the next stop.

- p. 16** "And the doctors wouldn't do the operation until they had the money."

- p. 22** "Uncle Jed had over three thousand dollars in the bank, and it was gone."

As pairs talk, circulate among them and notice whether they are referring to the story in their discussions. If the students are having difficulty, you might spark their thinking with questions such as:

Q *Who do you think is the main character in the story?*

Q *What problem do you think the main character is facing? Why do you think that?*

Q *How do you think the main character is dealing with the problem?*

Continue reading to the end of the story.

4 Discuss the Story

Facilitate a class discussion of *Uncle Jed's Barbershop* using the questions that follow. Remind the students to use the prompts they have learned. Be ready to reread passages and show illustrations again to help the students recall what they heard. Ask:

- Q *What challenges does Uncle Jed face as he tries to fulfill his dream? How does he deal with the challenges?*
- Q *What do we know about the setting in this story? How does the setting affect what happens to the characters?*
- Q *What can we learn from Uncle Jed about dealing with challenges in our own lives? Explain your thinking.*

Students might say:

"First, Uncle Jed uses some of his savings to pay for Sarah Jean's operation. Then he loses his savings when the bank fails."

"Uncle Jed lives in the South during segregation. It was hard then for African American people to own their own businesses."

"In addition to what [Cheryl] said, the white doctors wouldn't treat the African Americans until after the white people were treated. That was because of segregation, too."

"We can learn never to give up on our dreams, even if it takes a long time and we have big setbacks."

5 Compare *Uncle Jed's Barbershop* and *Richard Wright and the Library Card*

Show the cover of *Richard Wright and the Library Card* and remind the students that they heard this story earlier. Use "Think, Pair, Share" to discuss:

-  Q *In what ways are these two stories similar? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

"They're both stories that mix made-up parts with real history. The story about Richard Wright is based on his life. That means some of the details might be made up. And Uncle Jed and Sarah Jean are made-up characters."

"In addition to what [Lia] said, they're both about African American men who live in the South during segregation."

"I agree with [Taylor]. Also, they're both about people who keep fighting to live their dreams even though they face big challenges. Uncle Jed gets his barbershop and Richard Wright is able to get books and moves north."

"In addition to what everyone else has said, both characters are treated badly by the racist society, but they don't let that get them down."

Teacher Note

Keep this discussion moving. It is not necessary to ask all the questions or to hear from all the students. Use "Turn to Your Partner" to engage everyone in thinking about the questions, but call on just a few students to share aloud during the class discussion.

Teacher Note

If the students do not mention the Great Depression, you might wish to explain that it is part of the story's setting. During the Depression many people lost their jobs and savings. It was a time of hardship for many Americans.

 **Q** *In what ways are these two stories different?* [pause] *Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

"Richard Wright was a real person. Uncle Jed is a made-up character."

"Another difference is that Richard is a teenager, just getting started with life. Uncle Jed is an older man who dies at the end of the story."

"The settings are different. The story about Richard Wright starts out in the country but takes place mostly in a city. The story about Uncle Jed is set in the country."

"*Uncle Jed's Barbershop* is told by a character named Sarah Jean. I think that's called *first-person point of view*."

"In addition to what [Angie] said, the story about Richard Wright isn't told by someone who's in the story. I think it's written from the third-person point of view."

6 Explore First- and Third-person Points of View in the Two Stories

Display the "Excerpt from *Uncle Jed's Barbershop*" chart (🗨️ WA4) and explain that this is a passage from near the end of *Uncle Jed's Barbershop*. Explain that you will read the passage aloud and that as the students listen, you would like them to think about who is telling the story. Read the passage aloud slowly and clearly. Then use "Think, Pair, Share" to discuss:

 **Q** *Who is telling the story? What in the story makes you think so?* [pause] *Turn to your partner.*

Have one or two volunteers share their thinking. If necessary, show pages 28–29 of the book, point to the woman in the illustration, and explain that this character, whose name is Sarah Jean, is telling the story. Remind the students that when the person telling the story is a character in the story, we say the story is being told from the *first-person point of view*. Explain that words like *my*, *I*, and *me* are clues that can help the students recognize first-person point of view. Circle these words on the chart.

Display the "Excerpt from *Richard Wright and the Library Card (2)*" chart (🗨️ WA5) and explain that this is a passage from near the beginning of *Richard Wright and the Library Card*. Explain that you will read the passage aloud and that, as before, you want the students to think about who is telling the story. Read the passage aloud slowly and clearly. Then use "Think, Pair, Share" to discuss:

 **Q** *Who is telling the story? What in the story makes you think so?* [pause] *Turn to your partner.*

Have one or two volunteers share their thinking with the class.

Students might say:

"It's hard to tell who's telling the story because the person telling it doesn't say anything about himself."

"I think the narrator could be someone who has read a lot about Richard Wright and wanted to write a book about Richard Wright's life."

Explain that, unlike the narrator in *Uncle Jed's Barbershop*, the person telling the story in *Richard Wright and the Library Card* is not a character in the story. Explain that when the person telling the story is not a character in the story, we say the story is being told from the *third-person point of view*.

Explain that if *Richard Wright and the Library Card* were being told from the first-person point of view, it would use the words *I*, *me*, and *myself* instead of the words *he*, *him*, and *himself*. Point to each sentence on the chart and read it as if it were written in the first-person point of view: "When I finally learned to read, I couldn't buy or borrow the books I wanted . . . the doors of the library were shut against me because I was black. . . . So I read whatever I could find When I was seventeen, I caught a bus to Memphis. I hoped to find work, earn enough money to move to Chicago, where I would make a new life for myself in the north." Ask:

Q Do you think *Richard Wright and the Library Card* would be a more interesting story if it were told from the first-person point of view? Why? Turn to your partner.

Have a few volunteers share their thinking with the class.

Students might say:

"I think it would be more interesting because if it said *I* and *my* and *me*, it would be more like Richard Wright was telling his own story."

"I think it's more interesting the way it is. Richard Wright was a real person, and this book is telling us what happened in his childhood that led to him becoming a famous author. That's why it says, 'he did this, he did that.'"

Explain that making connections between texts, or thinking about what is the same and different about the texts, helps readers enjoy and understand what they read. One of the ways readers make connections is to think about each text's point of view, or who is telling a story. Encourage the students to continue to notice connections between texts that they hear and read.

INDIVIDUALIZED DAILY READING

7 Read Independently and Practice Making Inferences

Explain that the students will practice making inferences in their independent reading today. Explain that they will read their texts for 15 minutes and then read the same sections again and think about inferences they might make. Tell the students that at the end of IDR they will discuss their inferences with the class.

Distribute self-stick notes to each student. Have the students get their texts, place self-stick notes where they start to read, and then read silently for 15 minutes. After they have settled into their reading, confer with individual students.

Teacher Note

Be aware that some books contain more opportunities to infer than others.

Teacher Note

If the students struggle to make inferences, display the “Questions to Use When Making Inferences” chart from Unit 5, Week 1, and encourage the students to think about the questions on the chart as they reread.

Vocabulary Note

Next week you will revisit *Richard Wright and the Library Card* and *Uncle Jed’s Barbershop* to teach the Week 14 vocabulary lessons.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 80) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 83 of the *Assessment Resource Book*.

Stop the students after 15 minutes and have them place self-stick notes where they stopped reading. Then have the students reread their texts and use additional self-stick notes to mark clues that help them make inferences. After they have settled into their reading, continue to confer with individual students.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer share the title of her text, the author’s name, and what the text is about. Then have her share any inferences she made and read aloud the passages that helped her make those inferences. If the student struggles to share inferences, probe her thinking by asking questions such as:

Q *What is happening in the part of the text that you read today? How do you know? Are those things stated directly or are you inferring them from clues? What clues?*

Have the students return to their desks and put away their texts.

WRITING ABOUT READING

Compare Two Historical Fiction Texts

Show the covers of *Richard Wright and the Library Card* and *Uncle Jed's Barbershop* and review that the students heard these stories earlier and compared them. Ask:

Q *What did we identify as similar about the two stories?*

Q *What did we identify as different about the two stories?*

Have volunteers share their thinking. Explain that today the students will write about what is similar and what is different in the two stories. Ask the students to watch as you think aloud and model writing about what is similar and what is different in the stories.

You might say:

"First I want to describe some of the ways the two stories are alike. I'll write: *Richard Wright and the Library Card* and *Uncle Jed's Barbershop* are both historical fiction about segregation in the South early in the 20th century. In both stories, the main character overcomes barriers created by racism in order to achieve his goals. Now I want to describe some of the things that are different about the two stories. I'll write: Although both stories are based on historical events, *Uncle Jed's Barbershop* is a made-up story with made-up characters. *Richard Wright and the Library Card* is based on something that happened to the famous author Richard Wright."

Have the students write about what is the same and what is different in *Richard Wright and the Library Card* and *Uncle Jed's Barbershop*. If time permits, ask a few volunteers to share their writing with the class.

EXTENSIONS

Read and Compare Other Works of Historical Fiction About the Segregated South

If the students enjoyed hearing *Richard Wright and the Library Card* and *Uncle Jed's Barbershop*, you might read and discuss other works of historical fiction about the effects of segregation. Titles dealing with this period in American history include *The Gold Cadillac* by Mildred D. Taylor, *Abby Takes a Stand* by Patricia C. McKissack, and *Finding Lincoln* by Ann Malaspina. After reading each book, discuss questions such as:

Q *What else did you learn about segregation from this story?*

Q *What about this story reminds you of Richard Wright and the Library Card?*

Q *What about it reminds you of Uncle Jed's Barbershop?*

Q *What are you still wondering about segregation after hearing this story?*

Materials

- *Richard Wright and the Library Card*
- *Uncle Jed's Barbershop*

TEKS 8.D.ii
Student/Teacher Activity
Extensions on pp. 321–322

Teacher Note

These books vary in length and difficulty. If you select a longer book, you might read a few chapters of it or set aside time to read it over several days.

Teacher Note

You might have the students record their questions about the Great Depression and what they learned about this period in American history in a double-entry journal. Have them title one column "Questions About the Great Depression" and the other column "What I Learned About the Great Depression."

Analyze Paired Texts About the Great Depression

If the students enjoyed reading *Uncle Jed's Barbershop*, which is set during the Great Depression, you might extend the exploration by reading aloud and discussing a nonfiction book about that period. Some possible nonfiction titles include *Children of the Great Depression* by Russell Freedman, *Kids During the Great Depression* by Lisa A. Wroble, *The Great Depression: An Interactive History Adventure* by Michael Burgan, and *The Great Depression* by Elaine Landau.

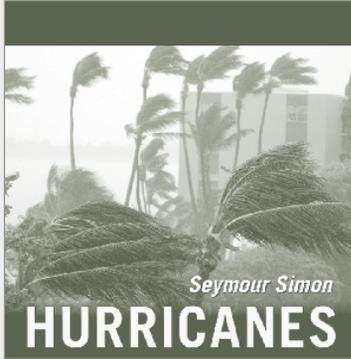

Prior to reading, have the students discuss any questions they have about the Great Depression after hearing *Uncle Jed's Barbershop*. Then read aloud the nonfiction book you selected. Have the students listen for answers to their questions as you read. Afterward, have the students discuss what they learned about the Great Depression.

Encourage the students to compare the two texts and make text-to-text connections by asking questions such as:

- Q *How are the books *Uncle Jed's Barbershop* and [Children of the Great Depression] the same? How are they different?*
- Q *How is each book organized?*
- Q *Were your questions about the Great Depression answered after hearing [Children of the Great Depression]?*
- Q *Which book did you like better? Why?*

Week 2

OVERVIEW

Hurricanes

by Seymour Simon

Seymour Simon explains how hurricanes are formed and classified, describes the devastation they can wreak, and provides tips on how to stay safe during a hurricane.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA6–WA8

Assessment Forms

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheet (CN1)

Reproducible

- (Optional) “First- and Secondhand Accounts of Hurricane Katrina” (BLM2)

Professional Development Media

- “Using ‘Heads Together’” (AV9)
- “Using ‘Group Brainstorming’” (AV11)
- “Using Web-based Maps and Related Tools” tutorial (AV49)

Comprehension Focus

- Students make inferences to understand causes and effects in an expository nonfiction book.
- Students use schema to articulate all they think they know about a topic before they read.
- Students read independently.

Social Development Focus

- Students learn and practice the procedure for “Group Brainstorming.”
- Students work in a responsible way.
- Students develop the skill of including everyone in and contributing to the group work.
- Students develop the skill of using prompts to extend a conversation.

⌚ DO AHEAD

- ✓ Prior to Day 1, decide how you will assign pairs to work in groups of four throughout the unit.
- ✓ Prior to Day 2, make a copy of the “Class Assessment Record” sheet (CA2); see page 78 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 14 lessons this week.

Day 1

Read-aloud

Materials

- *Hurricanes* (pages 5–8, 14, 19–23)
- Scratch paper and a pencil for each group of four

Teacher Note

The students learned “Heads Together” in Unit 5, Week 2, Day 3 (see Step 1). If you have not yet had the opportunity, you might wish to view “Using ‘Heads Together’” (AV9).

Teacher Note

If your students are already familiar with “Group Brainstorming,” you may not need to teach it. Briefly review the technique and continue with the rest of the lesson. To see an example, view “Using ‘Group Brainstorming’” (AV11).

In this lesson, the students:

- Learn the procedure for “Group Brainstorming” and brainstorm what they think they know about a topic
- Hear and discuss part of an expository nonfiction book
- Explore causes and effects in the book
- Read independently for up to 30 minutes
- Include everyone in and contribute to the group work
- Work in a responsible way

ABOUT CAUSES AND EFFECTS

This week and next week, the lessons provide an informal introduction to exploring causes and effects in expository text. Identifying causes and effects can be challenging for students. In these lessons, the teacher asks specific questions (such as “What causes a hurricane?” and “Why does Seymour Simon say that human activities contribute to the increase in greenhouse gases?”) to guide the students toward seeing and understanding these relationships. The students are not expected to master identifying cause and effect on their own. Rather, the lessons prepare the students to identify cause/effect relationships without support as they get older.

1 Introduce “Group Brainstorming”

Assign pairs to groups of four and have them gather, facing you. Remind the students that in a previous lesson they learned “Heads Together” to talk in a group of four. Ask:

Q *What are some things you can do to help the work go smoothly in your group of four?*

Explain that today the students will learn a technique called “Group Brainstorming,” in which group members generate and record as many ideas as they can in a short period of time. Group members will state their ideas briefly, and these ideas will be written down quickly on a sheet of scratch paper by the group recorder, without discussion. Tell the students that all ideas should be recorded and that the ideas do not have to be written as complete sentences.

Choose a topic (for example, “fiction characters I like” or “topics I enjoy reading about”) and model quickly jotting down a few of your own brainstormed ideas where everyone can see them.

Explain that the students will use “Group Brainstorming” to think about what they know about the topic of today’s book before they hear it. Give the groups 30 seconds to determine who will be their group recorder today.

2 Introduce *Hurricanes* and Brainstorm About Hurricanes

Tell the students that the book you will read aloud over the next few days is called *Hurricanes*. Show the cover of the book and read the author’s name. Explain that the book is an expository text that gives information about hurricanes.

Have the students use “Group Brainstorming” to discuss:

Q *What do you think you know about hurricanes? Brainstorm ideas in your groups.*

Give the groups 3–4 minutes to brainstorm and record their ideas; then stop them and have each group review their list and select one idea to share with the whole class. Ask each group to select a backup idea in case their first idea is shared by another group.

Have all the groups report their ideas; then ask if there are any other ideas the groups generated that were not reported. Ask the students to keep their ideas in mind as they listen to the reading today.

3 Introduce the Reading

Briefly explain that you will read only parts of the book and that today you will read parts that explain what hurricanes are, how they are formed, and how they affect human life and the natural world. Explain that you will stop periodically during the reading and have groups put their heads together to discuss what they have learned from the book up to that point.

4 Read Aloud Part of *Hurricanes* with Brief Section Introductions

Read pages 5–8, 14, and 19–23 aloud slowly and clearly, introducing each section and stopping as described on the next page. Clarify vocabulary as you read.

Teacher Note

The 30-second limit for choosing a group recorder encourages the students to pick a recorder quickly without getting stuck in a selection process.

ELL Note

You may want to explain that a *hurricane* is a “huge, powerful storm with very strong winds that forms over warm waters near the equator.”

Teacher Note

Limiting the brainstorming time encourages the students to be brief and to get out many ideas without getting stuck on any particular idea.

Asking the groups to select backup ideas encourages the students to listen to one another and to avoid repeating what others have said.

Technology Tip

Because there is a lot of geographic information in the book, you may want to display a world map on the whiteboard during the reading. For more information, view the “Using Web-based Maps and Related Tools” tutorial (AV49).

Teacher Note

Hurricanes contains a lot of factual information that the students might have difficulty following. To support them, you will briefly introduce each section before you read it. This will help to focus the students’ listening on the main ideas discussed in that section.

Suggested Vocabulary

eye: center (p. 19)

ELL Vocabulary

You might point out to English Language Learners that some words from the reading are defined in the text (for example, the word *hurricane* on p. 5) and that they should listen for these. They also may benefit from hearing additional vocabulary defined, including:

inland areas: areas away from coasts (p. 5)

peak: highest (p. 5)

moist: wet (p. 8)

evaporating: changing from liquid into air (p. 8)

spiral: move in a circle that gets smaller and smaller (p. 8)

trigger: start (p. 20)

Teacher Note

During the stops, listen for evidence that the students are discussing the book and understanding it. If necessary, reread parts of the text to help the students recall what they heard. Also, look for examples of groups working together well and groups having difficulty, and be ready to share your observations at the end of the lesson.

Tell the students that the first part of the book you will read explains what causes a hurricane. Ask the students to listen for the causes. Read pages 5–8 aloud slowly and clearly, showing the photographs and clarifying vocabulary as you read. Stop after:

p. 8 “. . . before whirling north and west into the United States.”

Use “Heads Together” to discuss:

 **Q** *What did you learn about what causes hurricanes? Heads together.*

After a minute or two, explain that the next part you will read compares hurricanes to tornadoes. Ask the students to listen for the difference between hurricanes and tornadoes. Read page 14, stopping after:

p. 14 “But even hurricanes with a rating of 1 or 2 are very dangerous.”

Use “Heads Together” to discuss:

 **Q** *What did you learn about the difference between hurricanes and tornadoes? Heads together.*

After a minute or two, explain that the next part you will read explains how hurricanes cause destruction. Ask the students to listen for the different ways hurricanes cause damage. Read pages 19–23, stopping after:

p. 23 “. . . the most storms and hurricanes ever in a single season.”

Use “Heads Together” to discuss:

 **Q** *What did you learn about how hurricanes cause damage? Heads together.*

5 Discuss the Reading as a Class

Facilitate a class discussion about the reading using the questions that follow. Be ready to reread passages from the text to help the students recall what they heard.

- Q *What did you learn about hurricanes that you didn't know before?*
- Q *What did you hear about the different ways hurricanes can be destructive?*

Students might say:

"The book talked about hurricanes destroying houses and knocking down trees and power lines."

"In addition to what [Jay] said, hurricanes can pick up things like toys and throw them like missiles."

"In addition to what [Jay and Romina] said, the heavy rains that come with hurricanes can cause flooding, which is dangerous."

"Hurricane Katrina ruined most of New Orleans, cost a huge amount of money, and killed more than 1,000 people."

During this discussion, point out that the students are recognizing the effects of hurricanes on human life and the natural world. Remind them that recognizing causes and effects helps readers better understand what they are reading.

Tell the students that tomorrow they will continue to think about what they are learning from *Hurricanes*.

6 Reflect on "Group Brainstorming"

Facilitate a brief discussion about how the students did with "Group Brainstorming." Ask:

- Q *What did you do to be responsible in your group today?*
- Q *What went well in your brainstorming? What do you want to try next time to help your brainstorming?*

INDIVIDUALIZED DAILY READING

7 Read Independently and Think About Inferences

Ask the students to think about inferences they make as they read independently today. Tell the students that at the end of IDR they will discuss their inferences with partners. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

Teacher Note

This question focuses the students on the effects of hurricanes. On Day 2, the students will focus on the causes of hurricanes.

Facilitation Tip

This week, continue to **avoid repeating or paraphrasing** the students' responses. Help them learn to participate responsibly in class discussions by encouraging them to ask one another to speak up or to ask a question if they do not understand what a classmate has said. (For special considerations for English Language Learners, see "Additional Strategies for Supporting ELLs" in the Introduction.)

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 80) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 83 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share with her partner the title of her text, the author’s name, what the text is about, and any inferences she made. Circulate and listen as partners share. If the students struggle to share inferences, probe their thinking by asking questions such as:

- Q *What is happening in the part of the text you read today? How do you know? Are those things stated directly or did you infer them from clues? What clues?*
- Q *What is your book about? What do you think will happen next? Why do you think that?*
- Q *What are you learning about [a character] in your book? What parts of the text reveal those things about [that character]?*

Have the students return to their desks and put away their texts.

Materials

- *Global Warming*
- *Hurricanes*
- Copy of “First- and Secondhand Accounts of Hurricane Katrina” (BLM2) for each student

Teacher Note

Prior to doing this activity, visit the CCC Learning Hub (ccclearninghub.org) to access and print “First- and Secondhand Accounts of Hurricane Katrina” (BLM2). Make enough copies for each student to have one, and set aside a copy for yourself. Preview the passages and identify any vocabulary you want to clarify as you read.

WRITING ABOUT READING

Write Opinions About First- and Secondhand Accounts of Hurricane Katrina

Show the cover of *Hurricanes* and remind the students that they heard parts of this book earlier. Ask:

- Q *What do you remember about this book?*

If necessary, remind the students that this is a nonfiction book about hurricanes. Explain that when author Seymour Simon wrote *Hurricanes*, he researched the topic and then used what he learned to write about it. Explain that since Seymour Simon wrote about things he didn’t experience himself, this book is a *secondhand account* of the events.

Distribute a copy of “First- and Secondhand Accounts of Hurricane Katrina” (BLM2) to each student. Direct the students’ attention to the first passage and explain that this is an excerpt from *Hurricanes*. Ask the students to follow along as you read the passage aloud and to think as

they listen about how the author writes about Hurricane Katrina. After you read the passage aloud, ask:

Q *What did you notice about the way the author writes about Hurricane Katrina?*

Record the students' ideas where everyone can see them, under the heading "Secondhand Account."

Tell the students that Buck Taylor is a Montana resident who helps run a group of health clinics in Montana and volunteers as a firefighter and emergency medical technician. Along with many other Americans, he flew to New Orleans after Hurricane Katrina to help people who were affected by the hurricane. Explain that because Buck Taylor wrote this article about what he himself experienced, it is a *firsthand account* about the damage caused by Hurricane Katrina.

Direct the students' attention to the second passage and explain that this is an excerpt from Buck Taylor's article. Ask the students to follow along as you read the excerpt aloud and to think as they listen about what they notice about how Buck Taylor writes and what new things they learn about Hurricane Katrina. Read the passage aloud, clarifying the vocabulary you identified. After the reading, ask:

Q *What did you notice about how Buck Taylor writes?*

Q *What did you learn from Taylor's account of these events?*

Students might say:

"He makes it personal. For example, he starts it with saying he used his five-year-old's frequent flyer miles."

"In addition to what [Regina] said, he writes about what he noticed with his senses, and what he thought and felt."

"His details helped me understand how hard life was for a lot of people after Katrina."

"In addition to what [Melvin] said, Buck Taylor's account taught me that there are poor people in New Orleans who struggle to survive, hurricane or no hurricane."

Record the students' ideas where everyone can see them, under the heading "Firsthand Account." Facilitate a discussion comparing the first- and secondhand accounts by asking the following questions:

Q *How is the firsthand account similar to the secondhand account? How is it different?*

Q *Which do you think is more interesting, the firsthand account or the secondhand account? Why?*

Tell the students that when they talk about which account of Hurricane Katrina is more interesting, they are giving an opinion. Explain that people might have different opinions about the same thing, and that is fine. What matters is that they give reasons to explain their thinking.

TEKS 6.F.ii
Student/Teacher Narrative
Writing About Reading
("You might say" example)

 **Technology Tip**

To provide the students with more practice comparing first- and secondhand accounts, you might search online for stories about people who lived through Hurricane Katrina. These might include audio or video interviews with survivors, news stories, or selections from documentaries. Search online using keywords such as "Hurricane Katrina stories" or "Hurricane Katrina interviews." (Be sure to preview the stories for age-appropriateness.) Have the students watch or listen to the stories, determine which parts are first- or secondhand accounts of the event, and discuss why they think so.

Teacher Note

The novels suggested for this extension vary in length and difficulty; select a novel that you think is suitable for your students and that you can schedule the time to read. Preview the extension and the novel you have selected, and plan time over the next several weeks to read the novel aloud to the students. Then follow the instructions in the extension to introduce the novel and read it aloud in sections. After you have finished reading the novel, have the students compare it to *Hurricanes*.

For support with teaching novels, see Unit 4, "Analyzing Text Structure."

Then ask the students to watch as you think aloud and model writing about which account you think is more interesting.

You might say:

"I think the firsthand account written by Buck Taylor is more interesting. I'll write: *I think the firsthand account of Hurricane Katrina is more interesting.* Now I will give a reason why I think the firsthand account is more interesting, based on what we've read. I'll write: *I think so because the firsthand account tells what someone who was in New Orleans after the hurricane witnessed.* I want to explain how Taylor describes what happened in his firsthand account. I'll write: *For example, Taylor describes in detail the human suffering he witnessed at the New Orleans Convention Center, where he volunteered. His description helps me realize that Hurricane Katrina affected real people just like me, and it also makes me appreciate how many good-hearted people volunteered to try to help people who had been affected by the hurricane.* I can think of another reason why I preferred the firsthand account. I'll write: *The firsthand account is also more interesting because it includes sensory details—like the description of the 'eerie scene' he saw when he arrived.*"

Have the students write their own opinions about which account they think is more interesting and why. Encourage the students to refer to "First- and Secondhand Accounts of Hurricane Katrina" (BLM2) as they write. If time permits, invite volunteers to share their writing with the class.

EXTENSION

Analyze Paired Texts About a Hurricane

If the students are interested in learning more about hurricanes after hearing Seymour Simon's *Hurricanes*, you might extend the exploration by reading aloud and discussing a fictional book on the topic. Novels that focus on Hurricane Katrina include *Ninth Ward* by Jewell Parker Rhodes; *Zane and the Hurricane: A Story of Katrina* by Rodman Philbrick; *I Survived Hurricane Katrina, 2005* by Lauren Tarshis; and *Saint Louis Armstrong Beach* by Brenda Woods. A novel that focuses on the hurricane that occurred in Galveston, Texas, in 1900 (described on pages 12–13 of *Hurricanes*) is *Dark Water Rising* by Marian Hale.

Show the cover of *Hurricanes* by Seymour Simon and remind the students that they heard parts of this book earlier. Ask and briefly discuss:

- Q *What are some facts about hurricanes that you learned from this book?*
- Q *What do you still wonder about hurricanes?*

TEKS 6.B.v
TEKS 6.B.vi
Student/Teacher Activity
Extension

Tell the students that over the next few weeks they will hear a fictional account of a hurricane. Show the cover of the novel you selected and read the title and the author's name aloud. Point out that fiction authors are free to mix facts with invented details (things they have made up), which means that works of fiction are not necessarily factually correct. But fictional texts can help readers understand what people at certain times in history might have felt, thought, and experienced. Fictional accounts of history can give readers an "inside look" into a time and place in a way that expository nonfiction books cannot. Ask and discuss:

Q *Keeping in mind that fiction does not always stick to the facts, what might you learn about hurricanes from a fictional account?*

Have volunteers share their thinking.

Read aloud a section of the novel, stopping periodically to ask the students what they are learning about the experiences of people who have lived through a hurricane:

Q *What have you learned so far about the experience of living through a hurricane?*

Q *What has been especially surprising or interesting so far?*

Repeat this procedure over several weeks until you have read the entire novel.

After you have finished reading the novel, take some time to review what the students learned from the novel and what they learned from *Hurricanes*. Encourage the students to compare the two texts and make text-to-text connections by asking questions such as:

Q *How are the books *Hurricanes* and *[Ninth Ward]* the same? How are they different?*

Q *How is each book organized?*

Q *Which book did you like better? Why?*

Teacher Note

You might have the students record what they learned about hurricanes in a double-entry journal. Have them title one column "What I Learned About Hurricanes from a Nonfiction Book" and the other column "What I Learned About Hurricanes from a Fiction Book."

Materials

- *Hurricanes*
- “Prompts to Extend a Conversation” chart from Week 1
- *Student Response Book* page 40
- “Directions” chart (WA6)
- “Class Assessment Record” sheet (CA2)
- “Excerpt from *Hurricanes*” chart (WA7)

Teacher Note

If the students are having difficulty understanding cause/effect relationships, you might provide an example or two from everyday life. For example, if you strike a match (cause), the match flames (effect); if you drop a rubber ball (cause), the ball bounces (effect). Have the students use “Heads Together” to come up with other examples of cause/effect relationships.

In this lesson, the students:

- Hear, read, and discuss part of an expository nonfiction book
- Explore causes in the book
- Read independently for up to 30 minutes
- Include everyone in and contribute to the group work
- Use prompts to extend a conversation

1 Review Using Prompts to Extend Conversations

Have the students bring their *Student Response Books* and pencils and gather in their groups of four, facing you. Tell the students that they will be using “Heads Together” again today to talk about their thinking. Remind them that last week they practiced using prompts to extend their conversations as they talked in pairs. Refer to the “Prompts to Extend a Conversation” chart and encourage the students to use the prompts in their groups today and to continue to include everyone in the discussions and contribute responsibly to the group work.

State your expectation that during “Heads Together,” group members will continue talking until you signal them to end their conversations.

2 Review Exploring Cause and Effect

Remind the students that they heard parts of *Hurricanes* and discussed the causes and the effects of hurricanes. Review that a cause is the reason something happens and the effect is what happens as a result. Explain that today the students will talk more about the causes of hurricanes. Ask:

Q *What do you remember hearing about why hurricanes happen?*

Without discussing the question, explain that there are many clues in the book to help them answer this question and that they will explore some of these clues today.

3 Explore the Causes of Hurricanes

Have the students turn to *Student Response Book* page 40, “Excerpt from *Hurricanes*.” Explain that the excerpt describes how hurricanes are formed. Display the “Directions” chart (WA6) and explain the directions on it.

Directions

1. Read the excerpt quietly to yourself.
2. Reread the excerpt, and underline sentences that help to answer this question: What causes a hurricane?
3. Use “Heads Together” to talk about the sentences you underlined and why you chose those sentences.

WA6

As the students work individually and in groups, circulate and ask them the following questions to help them think about how they are making sense of the excerpt:

- Q *You underlined [“The growing hurricane forms bands of clouds and winds near the ocean surface that spiral air inward”]. How does this sentence help to explain what causes a hurricane?*
- Q *Do you agree or disagree with [Jordan]? Why?*
- Q *What question do you want to ask [Jordan] to better understand what he’s thinking?*

As you circulate among the students, notice which passages they underline.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students identifying clues about what causes a hurricane?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 78 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify clues about what causes a hurricane, proceed with the lesson and continue on to Day 3.
- If **about half of the students** or **only a few students** are able to identify clues about what causes a hurricane, you might give the class additional instruction by repeating Days 1 and 2 of this week using an alternative book before continuing on to Day 3. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

Teacher Note

Have students who are unable to read the excerpt on their own read it quietly aloud with partners, or you might read it aloud yourself as the students follow along. Then have them go back and underline the clues in the passage.

ELL Note

English Language Learners may benefit from extra support to make sense of the excerpt. Show and discuss the photograph on page 9 again; then read page 8 aloud as they follow along on *Student Response Book* page 40. Stop intermittently to talk about what they are reading.

4 Discuss Causes in Groups and as a Class

When most students have finished, have the students use “Heads Together” to discuss:

 **Q** *What did you underline in the excerpt that helps to answer the question “What causes a hurricane?” Heads together.*

Then display the “Excerpt from *Hurricanes*” chart (CC WA7) and ask a few volunteers to share passages they underlined and what information those passages gave them about what causes hurricanes. As the students share passages, underline them on the chart.

Students might say:

“I underlined ‘First, the atmosphere gathers heat energy through contact with ocean waters that are above 80 degrees Fahrenheit.’ The warm water makes the atmosphere warm.”

“I underlined ‘moisture evaporating from the warm waters enters the atmosphere and begins to power the infant hurricane.’ The evaporating ocean water enters the atmosphere and helps the hurricane get started.”

Teacher Note

Other sentences the students might underline include:

- “They begin life in the warm, moist atmosphere over tropical ocean waters.”
- “The air is heated by warm ocean water, creating strong winds and forcing them to rise higher. This increases the power of the hurricane and leads to stormy conditions over huge areas.”

Facilitate a discussion using questions such as:

Q *Do you agree or disagree with what [Tanya] shared? Why?*

Q *What question do you want to ask [Tanya] about what she shared?*

Point out that the students are gathering information in the excerpt to understand what causes a hurricane. Remind them that they have been discussing both the causes and the effects of hurricanes and that they will look for cause/effect relationships to help them make sense of books in the coming days.

5 Reflect on “Heads Together”

Share some of your observations of how the groups worked together during “Heads Together.” Without mentioning any of the students’ names, describe what you saw in groups in which all of the members were engaged and contributing and any examples of groups in which some members were not participating. For example, you might discuss:

Q *I noticed a group in which all four members were leaning into the center of the table and looking at each other. I also heard one group member ask another group member what she thought. How might these actions help a group work well together?*

Q *I noticed a group in which it looked like the students were working in pairs rather than as one group of four. Why might that happen? What can a group do to make sure they are working as a group during “Heads Together”?*

INDIVIDUALIZED DAILY READING

6 Read Independently and Think About Inferences

Ask the students to think about inferences they make as they read independently today. Tell the students that at the end of IDR they will discuss their inferences with partners. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 80) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 83 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share with his partner the title of his text, the author’s name, what the text is about, and any inferences he made. Circulate and listen as partners share. If the students struggle to share inferences, probe their thinking by asking questions such as:

- Q *What is happening in the part of the text you read today? How do you know? Are those things stated directly or did you infer them from clues? What clues?*
- Q *What is your book about? What do you think will happen next? Why do you think that?*
- Q *What are you learning about [a character] in your book? What parts of the text reveal those things about [that character]?*

Have the students return to their desks and put away their texts.

Materials

- Small self-stick notes for each student
- *Student Response Book* page 41

In this lesson, the students:

- Read independently
- Make inferences and explore causes and effects
- Use a double-entry journal to record their thinking
- Include everyone in and contribute to the group work
- Use prompts to extend a conversation

1 Review Making Inferences and Exploring Cause and Effect

Have the students get their *Student Response Books*, pencils, and texts for independent reading and sit at desks with groups of four together. Remind the students that over the past several weeks they have been exploring making inferences in stories, poems, and expository nonfiction texts, including, most recently, inferences about causes and effects. Explain that today they will practice being aware of inferences and cause/effect relationships as they read independently.

Remind the students that they also practiced including everyone, contributing to the group work, including one another in the group work, and using prompts to extend their conversations. Encourage them to continue to practice these group skills today.

2 Read Independently Without Stopping

Tell the students that they will read for 10 minutes and then read the same section again while thinking about inferences they might be making. Distribute several self-stick notes to each student, and ask the students to use self-stick notes to mark where they begin reading. Have them read independently for 10 minutes.

3 Prepare to Reread and Notice Inferences or Causes and Effects

After 10 minutes, stop the students and ask them to reread, starting again at their self-stick notes. Explain that as they reread, they will use additional self-stick notes to mark places where they make inferences or notice causes or effects. Explain that later they will write about their thinking.

4 Reread Independently and Mark Clues

Have the students reread independently for 10 minutes, marking as they read. Circulate and look for evidence that the students are identifying places where they make inferences or notice causes or effects. Probe individual students' thinking by asking questions such as:

- Q *What is this [book/story/poem] about?*
- Q *What do you know about this [topic/character] based on what you just read?*
- Q *Is that stated directly in the text? If not, what clue or clues tell you what you know?*
- Q *What causes or effects are you noticing in your reading?*

5 Use Double-entry Journals to Record Thinking

Ask the students to turn to *Student Response Book* page 41, "Double-entry Journal About _____." Ask each student to write the title of his text on the blank line. Explain that each student will choose one or two places he marked in his independent reading, write the words or sentences in the "What I Read" column, and write his thinking about the words or sentences in the "What I Inferred" column.

Ask students who did not identify any inferences, causes, or effects as they read to choose an interesting sentence from their reading to write about.

6 Discuss the Double-entry Journals in Groups and as a Class

Have the students use "Heads Together" to discuss:

- Q *What did you write about in your double-entry journals? Heads together.*

Then have a few volunteers share their journal entries with the class. Remind each student to say the title of her text, the author's name, and a few words about its topic. Facilitate a discussion by asking:

- Q *What was happening in the text when you made the inference?*
- Q *Why does the inference make sense based on what else you know about the text?*
- Q *How does that sentence describe the cause or effect of something?*
- Q *What questions do you want to ask [Jen] about what she shared?*

Teacher Note

You might want to make note of students who did not mark their texts at all. Interview them at another time to determine whether their texts contain cause/effect relationships and opportunities to infer, and, if so, whether they are able to recognize these.

Materials

- Small self-stick notes for each student
- “Journal Entry” chart (WA8)
- *Student Response Book*, Reading Journal section

In this lesson, the students:

- Read independently
- Make inferences and explore causes and effects
- Write in their reading journals
- Include everyone in and contribute to the group work
- Use prompts to extend a conversation

1 Review Making Inferences and Cause and Effect

Have the students get their *Student Response Books*, pencils, and texts for independent reading and sit at desks with groups of four together. Remind the students that they have been exploring making inferences, including inferences about causes and effects, as a strategy to help them better understand their reading. Explain that today they will again practice being aware of inferences and cause/effect relationships as they read independently.

Remind the students to continue to practice contributing to the group work, including one another in the group work, and using prompts to extend their conversations.

2 Read Independently Without Stopping

Tell the students that they will read for 10 minutes and then read the same sections again while thinking about inferences they might be making. Distribute several self-stick notes to each student, and ask the students to use self-stick notes to mark where they begin reading. Have them read independently for 10 minutes.

3 Prepare to Reread and Notice Inferences or Causes and Effects

After 10 minutes, stop the students and ask them to reread, starting again at their self-stick notes. Explain that as they reread, they will use additional self-stick notes to mark places where they make inferences or notice causes or effects. Explain that later they will write about their thinking.

4 Reread Independently and Mark Clues

Have the students reread independently for 10 minutes, marking as they read. Circulate and look for evidence that the students are identifying

places where they make inferences or notice causes or effects. Probe individual students' thinking by asking questions such as:

- Q *What is this [book/story/poem] about?*
- Q *What do you know about this [topic/character] based on what you just read?*
- Q *Is that stated directly in the text? If not, what clue or clues tell you what you know?*
- Q *What causes or effects are you noticing in your reading?*

5 Write in Reading Journals About the Students' Independent Reading

Display the “Journal Entry” chart (WA8) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

Journal Entry

Write a journal entry about the text you are reading. Please include:

- The title and the author's name
- What the text is about
- One inference you made and whether the inference is about a cause, an effect, or something else
- The clue or clues that helped you make the inference

WA8

 Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals.

6 Discuss the Journal Entries in Groups and as a Class

Have the students use “Heads Together” to discuss:

 Q *What did you write about in your reading journals? Heads together.*

Have a few volunteers share their journal entries with the class. Remind each student to say the title of his text, the author's name, and a few words about its topic. Facilitate a discussion by asking:

- Q *What was happening in the text when you made the inference?*
- Q *Why does the inference make sense based on what else you know about the text?*

Teacher Note

You might want to make note of students who did not mark their texts at all. Interview them at another time to determine whether their texts contain cause/effect relationships and opportunities to infer, and, if so, whether they are able to recognize these.

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

Teacher Note

If there are students whose texts are not suitable for making inferences, you might invite them to write about the most interesting thing they read instead of inferences they made.

ELL Note

Consider having students with limited English proficiency dictate journal entries for you to write down.

Vocabulary Note

Next week you will revisit *Hurricanes* to teach the Week 15 vocabulary lessons.

Q *How does that sentence describe the cause or effect of something?*

Q *What questions do you want to ask [Leo] about what he shared?*

7 Reflect on Group Work

Facilitate a brief discussion about how groups of four worked together this week. Ask questions such as:

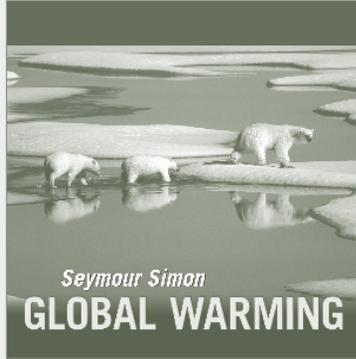

Q *What did you enjoy about working in groups this week?*

Q *What is one way your group work is improving? What is one thing you want to keep working on as you continue to work together? Heads together.*

Week 3

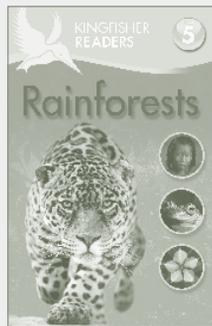

OVERVIEW

Global Warming

by Seymour Simon

This book describes the phenomenon of global warming and its implications for life on Earth.

Rainforests*

by James Harrison

Photographs, illustrations, and well-organized text provide an introduction to a fragile ecosystem.

**This book was also used in Unit 2, Week 1.*

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA9–WA12

Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)
- “Social Skills Assessment Record” sheet (SS1)

Reproducible

- Unit 6 family letter (BLM1)

Professional Development Media

- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)

Comprehension Focus

- Students make inferences to understand causes and effects in expository nonfiction books.
- Students use schema to articulate all they think they know about a topic before they read.
- Students read independently.

Social Development Focus

- Students analyze the effect of their behavior on others and on the group work.
- Students develop the skill of including everyone in and contributing to the group work.
- Students develop the skill of using prompts to extend a conversation.

Ⓜ DO AHEAD

- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA3); see page 79 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 15 lessons this week.

Materials

- *Global Warming* (pages 4–11)
- Paper and a pencil for each group
- “Reading Comprehension Strategies” chart

Facilitation Tip

Reflect on your experience over the past two weeks with **avoiding repeating or paraphrasing** students’ responses. Does this practice feel natural to you? Are you integrating it into class discussions throughout the school day? What effect is it having on the students? Are they participating more responsibly in class discussions? Continue to try this practice and reflect on students’ responses as you facilitate class discussions in the future.

ELL Note

You may want to explain that *global warming* is “the warming of the earth’s atmosphere” (the air surrounding Earth).

In this lesson, the students:

- Hear and discuss part of an expository nonfiction book
- Explore causes in the book
- Practice “Group Brainstorming”
- Brainstorm what they think they know about a topic
- Read independently for up to 30 minutes
- Include everyone in and contribute to the group work

1 Review “Group Brainstorming”

Gather the students in their groups of four, facing you. Remind them that last week they learned “Group Brainstorming,” a technique in which group members generate and record as many ideas as they can in a short period of time. Explain that they will use “Group Brainstorming” again to think about what they know about the topic of today’s reading. Ask:

Q *What are some things you want to keep in mind today to make “Group Brainstorming” go smoothly?*

Remind the students to focus on including one another in and contributing to the group work. Give the groups 30 seconds to determine who will be their group recorder today.

2 Brainstorm About Global Warming

Tell the students that today you will read from *Global Warming*, another book by Seymour Simon. Show the cover of the book and explain that it is an expository text that gives information about global warming.

Have the students use “Group Brainstorming” to respond to this question:

Q *What do you think you know about global warming? Brainstorm your ideas in groups.*

Give the groups 3–4 minutes to brainstorm and record their ideas; then stop them and have each group review their list and select one idea to share with the class. Ask each group to also select a backup idea in case their first idea is shared by another group.

Have each group report their idea; then ask if there are any other ideas the groups generated that were not reported. Ask the students to keep their ideas in mind as they listen to the reading today.

3 Read Part of *Global Warming* Aloud with Brief Section Introductions

Read pages 4–11 aloud slowly and clearly, introducing each section and stopping as described below. Clarify vocabulary as you read.

Suggested Vocabulary

atmosphere: the air that surrounds Earth (p. 6)

decreased: made less of (p. 9)

variations: changes (p. 9)

generate: make (p. 10)

absorb it: take it in (p. 11)

ELL Vocabulary

You might point out to English Language Learners that some words from the reading are defined in the text (for example, the words *global warming*, *weather*, and *climate* on p. 5) and that they should listen for these. They also may benefit from hearing additional vocabulary defined, including:

decades: groups of ten years, such as the period from 2000 to 2009 (p. 5)

rapid: fast (p. 5)

vast: huge (p. 9)

many factors play important roles in determining: many things affect (p. 9)

orbit: movement in a circle (p. 9)

centuries: groups of 100 years, such as the period from 1900 to 1999 (p. 9)

Tell the students that the first section you will read explains what *global warming* and *climate* are. Ask the class to listen for what these terms mean. Read page 5, showing the photograph on pages 4–5. Stop after:

p. 5 “Can we do anything about it?”

Use “Heads Together” to discuss:

Q *What did you learn about global warming and climate? Heads together.*

After a minute or two, explain that the next part you will read explains what the *greenhouse effect* is. Ask the class to listen for what this term means. Read page 6, showing the photograph on page 7. Stop after:

p. 6 “. . . and the climate will noticeably change.”

Ask:

Q *What did you learn about the greenhouse effect? Heads together.*

After a minute or two, explain that the last part you will read explains how humans contribute to global warming. Ask the class to listen for what the term *global warming* means. Read pages 8–11, showing the photographs. Stop after:

p. 11 “. . . as well as from automobiles.”

Teacher Note

During the stops, listen for evidence that the students are discussing and understanding the book. Also, look for examples of groups working together well and groups having difficulty, and be ready to share these at the end of the lesson.

Teacher Note

These questions focus the students on the causes of global warming.

Teacher Note

Use strategies such as the following to facilitate interaction among students during the class discussion:

- Probe the students' thinking by asking questions such as "Can you say more about that?" "What in the book makes you think that?" and "Why does that make sense?"
- Use "Turn to Your Partner" or "Heads Together" to engage everyone in thinking about the important questions.
- Ask the students to agree or disagree with their classmates and to explain their thinking.

Ask:

Q *What did you learn about how humans contribute to global warming? Heads together.*

TEKS 6.E.iii
Student/Teacher Activity
Step 4

4 Discuss the Reading

Facilitate a discussion about the reading, using the following questions. Be ready to reread passages from the text to help the students recall what they heard.

Q *How does the greenhouse effect help to cause global warming?*

Students might say:

"Gases in the atmosphere let sunlight in to warm Earth, but they don't let it back out again."

"I disagree with [Melenie] because some of it bounces back into space but a lot of it is trapped in the atmosphere."

"In addition to what [Melenie and Rob] said, the sunlight is trapped by a combination of carbon dioxide, water vapor, and other greenhouse gases."

Q *What human activities are causing much of the current warming of our planet?*

Students might say:

"We burn so much coal, oil, and natural gas that there's way more carbon dioxide in the air now than there was 150 years ago."

"We cut down lots of trees. That means the trees can't do their work of reducing the amount of carbon dioxide by turning it into oxygen."

"In addition to what [Viet] said, when the wood from the trees is burned, that creates even more carbon dioxide."

"We're also putting a lot of methane and nitrous oxide into the atmosphere. It sounds like those are greenhouse gases, too."

5 Reflect on Group Work

Share some of your observations of how the groups worked together during "Group Brainstorming" and "Heads Together," and ask:

Q *How did "Group Brainstorming" go today?*

Q *What do you want to do differently the next time you work in a group?*

INDIVIDUALIZED DAILY READING

6 Read Independently and Discuss the Comprehension Strategies the Students Used

Direct the students' attention to the "Reading Comprehension Strategies" chart and ask them to notice which strategies they use and where they use them during their independent reading today. Tell the students that at the end of IDR you will ask them to share the strategies they used with partners. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 80) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 83 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share what they read with partners. Have each student start by telling her partner the title of her text, the author's name, and what the text is about. Then have each student share the strategy she used and where in the text she used it. If students cannot think of a comprehension strategy they used, have them talk about what they read. Have the students return to their desks and put away their texts.

SOCIAL SKILLS ASSESSMENT NOTE

During the final week of this unit, assess the students' social skill development using the "Social Skills Assessment Record" sheet (SS1); see page 156 of the *Assessment Resource Book*. Compare your recent notes with those you took in the fall, and evaluate how well each student is learning and applying the social skills taught in the program. You will reassess your students' social skill development again in Unit 10.

Materials

- *Global Warming* (pages 12–19)
- “Prompts to Extend a Conversation” chart from Week 1

 **Technology Tip**

Because there is a lot of geographic information in the book, you may want to display a world map on the interactive whiteboard during the reading.

In this lesson, the students:

- Hear and discuss part of an expository nonfiction book
- Explore effects in the book
- Read independently for up to 30 minutes
- Include everyone in and contribute to the group work
- Use prompts to extend a conversation

1 Review Using Prompts to Extend Conversations

Have the students gather in their groups of four, facing you. Tell the students that they will be using “Heads Together” again today, and remind them to talk until you signal them to end their conversations. Refer to the “Prompts to Extend a Conversation” chart, and encourage the students to use the prompts and to continue to include everyone in the discussions and contribute responsibly to the group work.

2 Review *Global Warming* and Introduce Today’s Reading

Show the cover of *Global Warming* and review that in the previous lesson the students heard about what global warming is and what causes it. Ask:

Q *What did you learn about the causes of global warming?*

Explain that today you will read about some of the effects of global warming. Explain that you will stop periodically and have groups put their heads together to discuss their thinking up to that point.

3 Read Aloud with Brief Section Introductions

Read pages 12–19 aloud slowly and clearly, introducing each section and stopping as described on the next page. Clarify vocabulary as you read.

Suggested Vocabulary

glaciers: large sheets of ice (p. 16; refer to the photograph)

Antarctic ice cap: sheet of ice covering most of the Antarctic (p. 19)

ELL Vocabulary

You might point out to English Language Learners that some words from the reading are defined in the text (for example, *Ward Hunt Ice Shelf* on p. 12) and that they should listen for these. They may also benefit from hearing additional vocabulary defined, including:

swamp: drown; put under water (p. 18; refer to the photograph)

coastal areas: places near the edges of oceans (p. 19)

Explain that the first part you will read tells about the effects of global warming on the Arctic (the area around Earth's North Pole). Ask the class to listen for what they learn about these effects. Read pages 12–15 aloud, showing the photographs. Stop after:

p. 15 "... and this will impact their survival."

Have the students use "Heads Together" to discuss:

Q *What did you learn about the effects of global warming on the Arctic? Heads together.*

After a minute or two, explain that the next part you will read focuses on the effects of global warming on glaciers and mountain snow covers. Ask the class to listen for what they learn about these effects. Read pages 16–17 aloud, showing the photographs. Stop after:

p. 17 "... and snow falls later by a week or more in the autumn."

Ask:

Q *What did you learn about the effects of global warming on glaciers and mountain snow covers? Heads together.*

After a minute or two, explain that the next part you will read focuses on the effects of global warming on coastal areas (land that is near oceans). Ask the class to listen for what they learn about these effects. Read pages 18–19 aloud, showing the photographs. Stop after:

p. 19 "Now, that would cause major flooding in coastal areas."

Ask:

Q *What did you learn about the effects of global warming on coastal areas? Heads together.*

Teacher Note

During the stops, listen for evidence that the students are discussing the book and understanding it. If necessary, reread parts of the text to help them recall what they heard. Also, look for examples of groups working well together and groups having difficulty, and be ready to share your observations at the end of the lesson.

ELL Note

You might prompt your English Language Learners to begin their responses by saying "I learned . . ."

Teacher Note

These questions focus on the effects of global warming on the natural environment and human communities.

4 Discuss Effects as a Class

Facilitate a discussion about the reading using the following questions. Be ready to reread passages from the text to help the students recall what they heard.

- Q** *What changes are being triggered, or brought about, by global warming? What examples did you hear of that?*

Students might say:

"The book says the biggest sheet of ice in the Arctic, which is 3,000 years old, is breaking into pieces."

"In addition to what [Amat] said, for the first time ever, ice may disappear from the Arctic Ocean during the summer."

"I disagree with [Paula]. The book says the ice may disappear from the Arctic Ocean each summer for the first time in human history."

"Global warming could hurt polar bears' ability to survive because if the ice melts, they can't catch seals, and they mostly eat seals."

"Global warming is making glaciers and mountain snow covers melt."

"If Earth keeps warming up, ocean levels will rise and flood places along coasts, including places where millions of people live."

During this discussion, point out that yesterday the students identified causes of global warming, while today they identified effects of global warming on the planet. Explain that sometimes causes and effects are directly stated in texts. At other times, readers must use clues in the text to make inferences about causes and effects. Explain that recognizing causes and effects helps readers understand what they are reading at a deeper level.

5 Discuss Group Work

Facilitate a brief discussion about how the students interacted by asking questions such as:

- Q** *How did you work in a responsible way in your group today? How did you see someone else in your group work in a responsible way?*
- Q** *How did your group do with talking for the whole time until I signaled for you to come back together as a class? Did you use any of the prompts on the "Prompts to Extend a Conversation" chart? If so, which ones? How did they work?*

INDIVIDUALIZED DAILY READING

6 Read Independently and Think About Inferences

Ask the students to think about inferences they make and causes and effects they notice as they read independently today. Tell the students that at the end of IDR you will ask some of them to share with the class their inferences and any causes or effects they noticed. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 80) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 83 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share with the class the titles of their texts, the authors’ names, what the texts are about, and any inferences they made or causes or effects they noticed. If the students struggle to make inferences, ask questions such as:

- Q *What do you know about this [topic/character] based on what you just read?*
- Q *Is that stated directly in the text? If not, what clue or clues tell you what you know?*
- Q *What causes or effects are you noticing in your reading?*

Have the students return to their desks and put away their texts.

Materials

- *Global Warming*
- *Student Response Book* pages 42–43
- “Directions” chart (WA9)
- “Class Assessment Record” sheet (CA3)
- “Excerpt from *Global Warming*” chart (WA10)

In this lesson, the students:

- Hear, read, and discuss part of an expository nonfiction book
- Explore causes in the book
- Read independently for up to 30 minutes
- Include everyone in and contribute to the group work
- Use prompts to extend a conversation

1 Review the Group Work

Have the students get their *Student Response Books*, pencils, and texts for independent reading and sit at desks with groups of four together. Explain that the students will work in small groups again today and that you would like them to continue to focus on using prompts to extend conversations, including one another in the group work, and contributing responsibly to the group work.

2 Review Exploring Cause and Effect

Remind the students that over the past few weeks they have been making inferences to answer questions such as “Why does Richard Wright choose Jim Falk to help him in *Richard Wright and the Library Card?*” and “What causes a hurricane?” Explain that when the students answer questions like these, they are recognizing causes (the reasons something happens) and effects (what happens as a result of something). Remind them that understanding cause/effect relationships can help them make sense of what they are reading.

Show the cover of *Global Warming* and review that yesterday the students learned about and discussed some of the destructive effects of global warming on human life and the natural world. Remind them that the book also contains information about the causes of global warming. Ask the students to listen carefully as you read from the book about the causes of global warming. Then read page 9 of *Global Warming* aloud. Ask the students to consider this question:

- Q** *Why do you think the author, Seymour Simon, says that human activities contribute to an increase in greenhouse gases?*

Without discussing the question as a class, explain that there are many clues in the book to help the students answer this question and that they will explore some of these clues today.

3 Explore Causes of Global Warming

Have the students turn to *Student Response Book* page 42, “Excerpt from *Global Warming*.” Explain that the excerpt describes human activities that scientists and the author of the book believe are impacting Earth’s temperatures. Display the “Directions” chart (WA9) and explain the directions on it.

Directions

1. Read the excerpt quietly to yourself.
2. Reread the excerpt, and underline sentences that help to answer this question: Why does Seymour Simon say that human activities contribute to the increase in greenhouse gases?
3. Turn to *Student Response Book* page 43, “Double-entry Journal About *Global Warming*.”
4. Choose a part you underlined in the excerpt, write the words or sentences in the “What I Read” column, and write the inference you made in the “What I Inferred” column.
5. If you have time, repeat Step 4 for another part you underlined.

WA9

As the students work, circulate and ask them the following questions to help them think about how they are making sense of the excerpt:

- Q** You underlined [“Every year, billions of tons of carbon dioxide pour out from the exhausts of cars, trains, trucks, airplanes, buses, and ships and from the chimneys of factories”]. How does this sentence help to explain why human activities cause greenhouse gases to increase?
- Q** You wrote [Methane is released by millions and millions of cattle and other farm animals]. What inference can you make from that sentence?

As you circulate among the students, notice which passages they underline.

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit’s Individual Comprehension Assessment.

ELL Note

English Language Learners may benefit from extra support to make sense of the excerpt. Read the excerpt aloud as they follow along. Stop periodically during the reading to talk about what was just read.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students identifying clues about why human activities cause greenhouse gases to increase?

Record your observations on the “Class Assessment Record” sheet (CA3); see page 79 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify clues about why human activities cause greenhouse gases to increase, proceed with the lesson and continue on to Day 4.
- If **about half of the students** or **only a few students** are able to identify clues about why human activities cause greenhouse gases to increase, you might give the class additional instruction by repeating Days 1, 2, and 3 of this week using an alternative book before continuing on to Day 4. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

4 Discuss Causes in Groups and as a Class

When most students have finished, have the students use “Heads Together” to discuss:

Q *What did you write in your double-entry journal? Heads together.*

Then display the “Excerpt from *Global Warming*” chart (WA10) and ask a few volunteers to share passages they underlined and what they inferred about how human activities cause greenhouse gases to increase. Facilitate a discussion using questions such as:

Q *Do you agree or disagree with what [Olive] shared? Why?*

Q *What other inferences can we make about how human activities cause greenhouse gases to increase?*

Students might say:

“I underlined the sentence ‘Every year, billions of tons of carbon dioxide pour out from the exhausts of cars, trains, trucks, airplanes, buses, and ships and from the chimneys of factories.’ I wrote: *Carbon dioxide is a greenhouse gas and we’re creating a whole lot of it. That’s making global warming worse.*”

“I underlined ‘trees and forests are cut down in huge numbers. When wood burns or decays, even more carbon dioxide is released.’ I wrote: *Cutting down trees is adding even more greenhouse gases to the atmosphere.*”

Remind the students that recognizing causes and effects helps readers understand what they are reading at a deeper level, and encourage them to look for causes and effects in their independent reading.

INDIVIDUALIZED DAILY READING

5 Read Independently and Think About Inferences

Ask the students to think about inferences they make and causes and effects they notice as they read independently today. Tell the students that at the end of IDR they will discuss their inferences and any causes or effects they notice with partners. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 80) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 83 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share with a partner the title of his text, the author’s name, what the text is about, and any inferences he made. Encourage the students to ask each other the following questions about the texts they are reading:

Q *Is that stated directly in the text? If not, what clue or clues tell you what you know?*

Q *What causes or effects are you noticing in your reading?*

Have the students return to their desks and put away their texts.

EXTENSION

Read Other Books About Global Warming and Make Text-to-text Connections

If the students enjoyed learning about global warming, you might extend the exploration by reading aloud and discussing the rest of *Global Warming* by Seymour Simon. You might then read aloud and discuss another book about global warming. Encourage the students to compare the book to *Global Warming* and make text-to-text connections. Possible

titles include *How We Know What We Know About Our Changing Climate: Scientists and Kids Explore Global Warming* by Lynne Cherry; *The Down-to-Earth Guide to Global Warming* by Laurie David and Cambria Gordon; *The Magic School Bus and the Climate Challenge* by Joanna Cole, illustrated by Bruce Degen; *This Is My Planet: The Kids' Guide to Global Warming* by Jan Thornhill; and *Climate Change* by John Woodward.

Technology Tip

Prior to doing this activity, you might wish to view the “Finding, Organizing, and Presenting Online Information” tutorial (AV43).

TECHNOLOGY EXTENSION

Research Global Warming

Interested students may wish to do further research on the causes and effects of global warming, as well as on efforts on the part of individuals, organizations, businesses, and government agencies to address the problem of global warming. The students can search online for information using the keywords “global warming causes,” “global warming effects,” and “global warming solutions.” You might suggest that the students work in groups of four to create presentations about what they learned and deliver them to the rest of the class. Encourage them to use “Heads Together” and “Group Brainstorming” to help them work well together.

Day 4

Guided Strategy Practice

Materials

- *Rainforests* from Unit 2
- *Student Response Book* pages 44–45
- “Excerpt from *Rainforests*” chart (WA11)
- “Journal Entry” chart (WA12)
- *Student Response Book*, Reading Journal section
- Copy of this unit’s family letter (BLM1) for each student

In this lesson, the students:

- Hear, read, and discuss part of an expository nonfiction book
- Explore causes and effects in the book
- Read independently for up to 30 minutes
- Write in their reading journals
- Include everyone in and contribute to the group work

1 Review Cause/Effect Relationships and *Rainforests*

Review that the students have been exploring causes and effects in both narrative texts (such as *Richard Wright and the Library Card*) and expository texts (such as *Hurricanes* and *Global Warming*). Remind them that cause/effect relationships are not always easy to see, but that recognizing these relationships can help readers understand what they are reading at a deeper level.

Show the cover of *Rainforests* and remind the students that earlier in the year they heard part of the book and discussed text features used in

the book. If necessary, review the book by reading some of the headings and showing some of the illustrations, reading or paraphrasing their captions. Explain that today the students will read a passage they heard earlier, focusing on cause/effect relationships in the text.

2 Read the Excerpt as a Class and Individually

Direct the students' attention to *Student Response Book* pages 44-45, "Excerpt from *Rainforests*." Explain that the excerpt describes how rainforests are being destroyed. Ask the students to follow along as you read the excerpt aloud. Read pages 40-45 aloud slowly and clearly, without showing the photographs, reading the captions, or reading the boxed text on page 41.

ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

clear: cut down all the trees (p. 40)

cattle can graze: cows can eat grass (p. 40)

dams: structures that are built to stop water from moving down rivers (p. 40)

plantations: big farms (p. 41)

power plants: buildings that make electricity (p. 42)

fair trade: bought for a fair price (p. 45)

Ask the students to read the excerpt a second time on their own.

3 Discuss the Reading as a Class

At the end of the reading, facilitate a class discussion using the following questions:

Q *What is this excerpt about?*

Q *When rainforests disappear, what problems does that create?*

4 Explore Causes and Effects in Groups and as a Class

Write the following terms and definitions where everyone can see them:

- *causes: the reasons things happen*

- *effects: what happens as a result of something*

Review the definitions of *causes* and *effects*, and point out that there are several causes and effects in the excerpt. For example, the excerpt tells us that when rainforests disappear, the effect is that the animals and plants that live in them also disappear.

Use “Heads Together” to discuss:

 **Q** *What other causes or effects do you notice in the excerpt? Heads together.*

As groups discuss this question, circulate among them and listen for evidence that they are making sense of the text. As you hear the students noticing causes or effects, point these out.

You might say:

“I heard Francesca say that when rainforests are cut down, there are fewer trees available to turn carbon dioxide into oxygen. So one effect of losing rainforests is that there will be too much carbon dioxide.”

Display the “Excerpt from *Rainforests*” chart ( WA11). Have volunteers share the causes and effects they noticed. Ask questions like those that follow to encourage the students to explain their thinking:

Q *[Carlos], what in the excerpt makes you think that?*

Q *Do others agree or disagree with [Carlos’s] thinking? Why?*

Students might say:

“Our group noticed that human activities are causing the problem of too much carbon dioxide. The excerpt says, ‘Humans are pumping out too much carbon dioxide from power plants, factories, and cars.’”

“When we cut down the trees, one effect is that there are fewer left to make oxygen out of all that carbon dioxide. It says, ‘When people cut down rainforests, that leaves fewer trees to turn the carbon dioxide into oxygen.’”

“I agree with [Carlos]. In addition, when there aren’t enough trees to turn the carbon dioxide into oxygen, the problem of global warming gets worse. So the destruction of the rainforests is the cause of global warming.”

“I disagree a little bit with [Benina]. The excerpt says, ‘This makes the problem of global warming worse.’ I think the destruction of the rainforests is one cause of global warming, but not the only cause.”

As students reach agreement about what are causes and what are effects, underline these on the chart. Encourage the students to continue to look for cause/effect relationships and inferences in their independent reading.

Teacher Note

You will revisit cause/effect relationships in Unit 7.

5 Reflect on “Heads Together”

Facilitate a brief discussion about how the students interacted in their groups during “Heads Together.” Ask the students to think about how they personally contributed in a responsible way today, and have a few volunteers share their thinking.

 Have group members take a moment to tell each other one way they have worked well together and to thank one another for their work.

INDIVIDUALIZED DAILY READING

6 Write in Reading Journals About the Students' Independent Reading

Ask the students to think about inferences they make as they read. Tell the students that at the end of IDR they will write about their inferences. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 80) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 83 of the *Assessment Resource Book*.

Display the "Journal Entry" chart (🌐 WA12) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

Journal Entry

Write a journal entry about the text you are reading. Please include:

- The title and the author's name
- What the text is about
- One thing you know based on the part you read today
- Whether that is stated directly or indirectly in the text
- If it is stated indirectly, what clue or clues helped you infer it
- Any causes or effects you noticed

WA12

Ask the students to think quietly about what they will write about. After a moment, have the students take turns sharing with partners what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

ELL Note

Prior to independent reading, remind the students to be aware of the inferences they are making as they read and the clues that are helping them make inferences. At the end of independent reading, if students are struggling to write about their inferences, encourage them to draw what they inferred or dictate journal entries for you to write down.

Vocabulary Note

Next week you will revisit *Global Warming* to teach the Week 16 vocabulary lessons.

Teacher Note

For information on wrapping up this unit and conducting unit assessments, see "End-of-unit Considerations" on the next page.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of Unit 6. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit’s family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

Assessment

- Before continuing on to the next unit, take this opportunity to assess individual students’ reading comprehension using the “Individual Comprehension Assessment” record sheet (IA1); see page 84 of the *Assessment Resource Book*.

Making Meaning[®]

THIRD EDITION

The Collaborative Classroom

The Collaborative Classroom differs from traditional learning environments in that students and teachers work together on shared academic and social goals.

The Collaborative Classroom is an intentional environment in which collaboration goes beyond conventional cooperation and compliance. Students become caring members of a learning community who take responsibility for their own learning. As students think, talk, and share ideas, they come to value the thinking of others. They become thoughtful readers and engaged speakers and listeners. They discuss and debate big ideas with respect, clarity, and understanding.

Making Meaning in a Collaborative Classroom

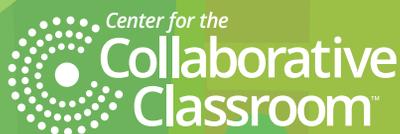

The *Making Meaning* program embodies the practices of the Collaborative Classroom.

Students in *Making Meaning* classrooms demonstrate:

- Close reading of varied, complex texts
- Strategies for unlocking word meanings
- Deeper understanding of content
- Ownership of their own learning
- Intrinsic motivation to remain on task
- Improved self-esteem
- An increase in academic performance

"I love how authentic the lessons and focus strategies are. It's what good readers, listeners, and community members do in real life."

— Monica McCurry, grade 4 teacher

Unit 7

Analyzing Text Structure

EXPOSITORY NONFICTION

During this unit, the students analyze how articles can inform by highlighting pros and cons and by investigating one side of an issue. They examine how functional texts such as schedules and instructions are organized to inform readers, and they use two functional texts to solve a problem. They also look at textbooks and think about how the expository text structures of sequence, cause/effect, and compare/contrast are used to organize information in the text. During IDR, the students use comprehension strategies and continue to confer with the teacher individually about the books they are reading. Socially, they work responsibly during group work. They also include everyone in and contribute to the group work.

Unit 7

Analyzing Text Structure

RESOURCES

Read-alouds

- “Copycats: Why Clone?”
- “The Debate on Banning Junk Food Ads”
- “All-girls and All-boys Schools: Better for Kids”
- “Do Kids Really Need Cell Phones?”
- “How to Make an Origami Cup”
- “Ashton Hammerheads Schedule for September 2015”
- “Blue Line Train Schedule”
- “Frontier Fun Park”
- *Survival and Loss: Native American Boarding Schools*

Writing About Reading Activities

- “Write Opinions About First- and Secondhand Accounts of Native American Boarding Schools”
- “Write Opinions About Nonfiction”

Technology Mini-lessons

- Mini-lesson 1, “Navigating Safely Online”
- Mini-lesson 4, “Choosing Effective Search Terms”
- Mini-lesson 5, “Understanding Search Results”
- Mini-lesson 6, “Narrowing Search Results and Using Filters”
- Mini-lesson 7, “Evaluating Research Sources”

Technology Extensions

- “Research and Create Presentations About Cloning”
- “Poll Opinions in the School Community About Junk Food”
- “Create a Video About How to Make an Origami Cup”
- “Learn More About the Trail of Tears”

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this unit.

Whiteboard Activities

- WA1–WA6

Assessment Forms

- “Class Assessment Record” sheets (CA1–CA5)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

Reproducibles

- Unit 7 family letter (BLM1)
- (Optional) “First- and Secondhand Accounts of Native American Boarding Schools” (BLM2)

Professional Development Media

- “Responding Neutrally with Interest” (AV23)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)
- “Using Presentation Tools” tutorial (AV44)
- “Using Blogs in the Classroom” tutorial (AV45)
- “Using Social Media” tutorial (AV46)
- “Using Web-based Maps and Related Tools” tutorial (AV49)
- “Creating Audio and Video in the Classroom” tutorial (AV50)

RESOURCES (continued)

Extensions

- “Research Advertising”
- “Read and Discuss Other Articles That Investigate One Side of an Issue”
- “Research and Write an Article on Cell Phones for Kids”
- “Make Origami Cups”
- “Use the Schedules to Solve More Problems”
- “Create a Functional Texts Bulletin Board”
- “Research Native American Chiefs”
- “Explore and Discuss Expository Text Features in *Survival and Loss*”
- “Read and Discuss the Final Sections of *Survival and Loss*”
- “Analyze Paired Texts About Native American Boarding Schools”

Assessment Resource Book

- Unit 7 assessments

Reading Assessment Preparation Guide

- Answering Questions in Response to Text unit

Student Response Book

- “Copycats: Why Clone?”
- “The Debate on Banning Junk Food Ads”
- “All-girls and All-boys Schools: Better for Kids”
- “Do Kids Really Need Cell Phones?”
- “How to Make an Origami Cup”
- “Ashton Hammerheads Schedule for September 2015”
- “Blue Line Train Schedule”
- “Frontier Fun Park”

Week 1

OVERVIEW

“Copycats: Why Clone?”

(see pages 392–393)

This article discusses the pros and cons of cloning plants, animals, and humans.

“The Debate on Banning Junk Food Ads”

(see pages 394–395)

This article discusses the pros and cons of regulating television junk food advertising.

Online Resources

Visit the CCC Learning Hub (cclearninghub.org) to find your online resources for this week.

Assessment Forms

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)

Professional Development Media

- “Responding Neutrally with Interest” (AV23)
- “Using Presentation Tools” tutorial (AV44)
- “Using Blogs in the Classroom” tutorial (AV45)
- “Using Social Media” tutorial (AV46)

▪ **Comprehension Focus**

- Students analyze how the information in expository nonfiction articles is organized.
- Students explore how articles can inform by highlighting pros and cons.
- Students read independently.

Social Development Focus

- Students work responsibly during group work.
- Students include everyone in and contribute to the group work.

🕒 DO AHEAD

- ✓ Consider reading this unit's read-aloud selections with your English Language Learners before you read them to the whole class. Take time to help them with unfamiliar vocabulary and to show and discuss any text features.
- ✓ Make available expository and functional texts at a variety of levels for the students to read during IDR and Independent Strategy Practice throughout the unit. If possible, include texts that highlight pros and cons as well as texts that present one side of an issue. If possible, also include texts that use one or more of these text structures: sequence, cause/effect, and compare/contrast. The functional texts you collect might include recipes, menus, online maps with directions, schedules, TV program listings, utility bills, game directions, sheet music, brochures, and how-to manuals.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit. Also decide how you will assign pairs to work in groups of four throughout the unit.
- ✓ Prior to Day 1, collect the following read-alouds from Units 2, 3, and 6: *Rainforests*, *Great Women of the American Revolution*, *Big Cats*, *Hurricanes*, and *Global Warming* (see Step 2).

(continues)

① DO AHEAD *(continued)*

- ✓ Prior to Day 1, post the “Text Features” chart from Unit 2 where everyone can see it.
- ✓ Prior to Day 1, make a class set of “IDR Conference Notes” record sheets (CN1); see page 103 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1); see page 95 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 16 lessons this week.

In this lesson, the students:

- Begin working with new partners and groups
- Skim an expository nonfiction article by reading the title, subtitle, headings, and subheadings
- Hear and discuss the article
- Identify what they learn from the article
- Read independently for up to 30 minutes

ABOUT EXPOSITORY TEXT STRUCTURES

The purpose of this unit is to help the students make sense of expository texts, including articles and functional texts, and to introduce the students to expository text structures found in many school textbooks, including sequence, cause/effect, and compare/contrast. In addition, the students explore different ways authors organize information when writing articles, such as by highlighting pros and cons and by presenting one side of an issue. The students have opportunities to examine functional texts such as instructions and schedules. The unit’s primary goal is for the students to explore these text structures to help them make sense of what they are reading during IDR and to set the groundwork for a deeper analysis of these structures in later years. Mastery of these structures is not expected in this exploratory unit. For more information, see “The Grade 5 Comprehension Strategies” in the Introduction.

1 Pair and Group Students and Get Ready to Work Together

Randomly assign partners and make sure that they know each other’s names. Then assign pairs to groups of four. Have the students bring their *Student Response Books* and gather with their groups of four sitting together, facing you. Explain that for the next five weeks they will work with these assigned partners and groups to read various kinds of expository texts and analyze how the texts are organized and written.

Explain that today the students will hear a text read aloud and use “Heads Together” to help them talk and think about the reading. Ask and briefly discuss:

- Q** *What have you learned about working in groups that will help you as you work with your new group?*

Encourage the students to keep these things in mind as they work with their new groups today.

Materials

- “Copycats: Why Clone?” (see pages 392–393)
- Expository read-aloud books from Units 2, 3, and 6, collected ahead
- “Text Features” chart from Unit 2
- *Student Response Book* pages 46–47
- “Thinking About My Reading” chart
- “Reading Comprehension Strategies” chart
- Class set of “IDR Conference Notes” record sheets (CN1)
- *Assessment Resource Book* page 100

2 Review Expository Nonfiction

Remind the students that the purpose of expository nonfiction is to give factual, or true, information about a topic. Review that the students have heard and read a variety of expository nonfiction already this year. Show and briefly review some of the expository books they have heard, including *Rainforests* and *Great Women of the American Revolution* from Unit 2, *Big Cats* from Unit 3, and *Hurricanes* and *Global Warming* from Unit 6. Ask:

Q *What have you learned so far this year about expository nonfiction?*

Have one or two volunteers share their thinking.

Students might say:

“Expository books give true information about things like animals, nature, and history.”

“In addition to what [Gloria] said, they also have photographs, charts, maps, and other text features to help you understand what you are reading.”

“I look at the table of contents to get an idea about what I’m going to be reading.”

“Sometimes you need to make inferences to figure out the causes and effects of things that the books tell about.”

Direct the students’ attention to the “Text Features” chart and remind them that expository texts often include features, or special parts or sections, that help the reader locate information or understand a topic better. Encourage the students to use text features to help them better understand the expository texts they read in the coming weeks.

3 Introduce and Skim “Copycats”

Explain that today the students will hear an article written for young people called “Copycats: Why Clone?” Remind the students that earlier in the year, the students skimmed articles by reading and thinking about the title, subtitle, and headings before hearing each article.

Have the students turn to *Student Response Book* pages 46–47, “Copycats: Why Clone?” Draw the students’ attention to the headings “Pros” and “Cons” and explain that these are headings. Explain that the word *pros* means “arguments for something” and the word *cons* means “arguments against something.” Direct the students’ attention to “Building a Better Breed” and explain that this is a subheading, or the heading of a smaller section within the larger section called “Pros.” Point out that there are several subheadings in both the “Pros” and “Cons” sections of the article.

Ask the students to silently read the title, subtitle, headings, and subheadings in the article. After a few moments, ask:

Q *From reading the title, subtitle, headings, and subheadings, what do you think this article is about?*

ELL Note

To support your English Language Learners, summarize the article prior to reading it aloud. Then read the article aloud to your English Language Learners, stopping frequently to check for understanding. If necessary, reread sections of the article and discuss them with your students.

Teacher Note

If necessary, take time to remind the students of the purpose of the title, subtitle, and headings in an article.

Have a few volunteers share their thinking. If necessary, explain that this article gives information about cloning, or creating exact copies of people or other living things. Explain that skimming an article by reading the title, subtitle, headings, and subheadings will give the students some idea of what the article is about before they read it. Encourage the students to follow this procedure before reading articles and other expository texts.

Ask the students to follow along as you read the article aloud. Explain that you will pause during the reading to have the students use “Heads Together” to discuss what they are learning.

4 Read Aloud

Read “Copycats: Why Clone?” aloud slowly and clearly, skipping the caption and stopping as described below. Clarify vocabulary as you read.

Suggested Vocabulary

techniques: special ways of doing something (p. 392)

genetic makeup: genes (p. 392)

the idea is controversial: people have different opinions about cloning (p. 392)

genetic disorder: disease that is passed from parent to child (p. 393)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

high-tech: very advanced; scientific (p. 392)

identical: exactly the same (p. 392)

a debate has raged: people have argued (p. 392)

ethical: right or wrong (p. 392)

breed: type of plant or animal (p. 393)

desirable traits: things that make a plant or animal more valuable, such as bigger apples on an apple tree or thicker wool on a sheep (p. 393)

protect endangered species from extinction: make sure certain kinds of animals don't all die (p. 393)

ban: make a law against (p. 393)

Read the first two paragraphs of the article aloud, and then reread them, asking the students to listen for any information they might have missed during the first reading. Use “Heads Together” to discuss:

Q *What have you learned so far about cloning? Heads together.*

Have one or two volunteers share what their groups discussed. Read aloud the text under the “Pros” heading. Stop after:

p. 393 “These discoveries might even save lives.”

Teacher Note

If you notice the students having difficulty sustaining conversations in groups of four, consider having them talk in pairs instead.

Facilitation Tip

During this unit, we invite you to practice **responding neutrally with interest** during class discussions. To respond neutrally means to refrain from overtly praising (for example, “Great idea” or “Good job”) or criticizing (for example, “That’s wrong”) the students’ responses. While it may feel more natural to avoid criticism rather than praise, research shows that both kinds of responses encourage students to look to you, rather than to themselves, for validation. To build the students’ intrinsic motivation, try responding with genuine curiosity and interest (for example, “Interesting—say more about that”) while avoiding evaluative statements, whether positive or negative. To see this Facilitation Tip in action, view “Responding Neutrally with Interest” (AV23).

Teacher Note

Today’s discussion focuses on surface-level comprehension of the article. Tomorrow, the students will look more closely at the article to discuss why the article was written the way it was.

Use “Heads Together” to discuss:

 **Q** *What have you found out so far about cloning? Heads together.*

Have one or two volunteers share what their groups discussed. Then read aloud the sections under the “Cons” heading, continuing to the end of the article. Use “Heads Together” to discuss:

 **Q** *According to the article, what are some problems with cloning? Heads together.*

Have one or two volunteers share what their groups discussed.

5 Discuss the Article

Facilitate a class discussion using the questions that follow. As the students respond, be ready to reread from the article to help them recall what they heard.

Q *What are some of the ways cloning can be used?*

Q *What did you find out about cloning that surprised you?*

Students might say:

“Cloning might help people who can’t have children.”

“I disagree with what [Emmett] said because the article says a cloned human being might not have a normal life.”

“I was surprised that if we cloned people, we could give those clones special talents.”

“In addition to what [Mya] said, I was surprised that farmers have already cloned many kinds of animals.”

Explain that the students will reread the article tomorrow and discuss how the author organized the information in the article.

6 Reflect on Working in Groups

Use “Heads Together” to discuss:

 **Q** *What do you think worked well today in your new group? What can your group work on to make your work go more smoothly? Heads together.*

Have a few volunteers report what their groups discussed.

INDIVIDUALIZED DAILY READING

7 Review and Practice Self-monitoring and “Fix-up” Strategies

Tell the students that for the next five weeks they will read expository nonfiction during IDR.

Refer to the “Thinking About My Reading” chart and review the questions on it. Remind the students that it is important to stop, think

about what they are reading, and use the questions on the chart to help them monitor their comprehension. If a student does not understand what he is reading, the student should use one or both of the “fix-up” strategies of rereading and reading ahead.

If a student has tried both of the “fix-up” strategies and still does not understand the text, he can try the strategies listed on the “Reading Comprehension Strategies” chart. Alternatively, the student might ask you or a classmate for help.

Have the students get their texts and read silently for up to 30 minutes. Stop them at 10-minute intervals and have them monitor their comprehension by thinking about the questions on the “Thinking About My Reading” chart.

After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Over the next five weeks, confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Facilitate a brief class discussion about using the questions on the “Thinking About My Reading” chart to track their reading comprehension. Ask and briefly discuss questions such as:

- Q *Why is it important to stop as you are reading and ask yourself if you understand what you read?*
- Q *How do rereading and reading ahead help you make sense of text?*
- Q *Which comprehension strategy do you find the most helpful when you’re not understanding something you’re reading? Why?*

Have the students return to their desks and put away their texts.

ELL Note

To support your English Language Learners, you might model reading a text and stopping periodically to ask yourself the self-monitoring questions listed on the “Thinking About My Reading” chart. Discuss each question with your students to make sure they understand the process.

Teacher Note

Provide time on a regular basis for the students to record the texts they have completed in their reading logs.

Materials

- “Copycats: Why Clone?” (see pages 392–393)
- *Student Response Book* pages 46–47
- “Reading Comprehension Strategies” chart and a marker

TEKS 9.E.i
TEKS 9.E.ii
TEKS 9.E.iv
 Student/Teacher Narrative
 Step 2

Teacher Note

As the students read, circulate and check in with individual students. Support struggling students by asking questions such as:

- Q *What information did you read in this paragraph?*
- Q *Why do you think the idea [that cloning might help save endangered species] is mentioned in the “pro” section of the article?*

If your students have difficulty reading the article independently, consider having them read it in pairs. Alternatively, you might reread the article aloud to the class as the students follow along.

In this lesson, the students:

- Read and discuss an expository nonfiction article
- Analyze how information in the article is organized
- Explore how articles can inform by highlighting pros and cons
- Read independently for up to 30 minutes
- Include everyone in and contribute to the group work

1 Review “Copycats”

Have the students bring their *Student Response Books* and pencils and gather in their groups of four, facing you. Remind the students that yesterday they heard and discussed the article “Copycats: Why Clone?” Ask:

Q *What did you find out about cloning from the article?*

Have a few volunteers share what they remember.

2 Introduce Highlighting Pros and Cons

Explain that authors organize articles and other kinds of expository nonfiction texts very deliberately to inform their readers in a particular way. Explain that one way writers inform readers is by highlighting the pros and cons of an issue. Review that pros and cons are arguments for and against something. Explain that highlighting pros and cons helps readers to consider both sides and deepen their understanding of an issue.

Explain that today the students will reread “Copycats: Why Clone?” individually and then think and talk about how the article is organized to highlight the pros and cons of cloning.

3 Reread “Copycats” and Discuss in Groups

Have the students turn to *Student Response Book* pages 46–47, “Copycats: Why Clone?” and explain that they will read the article silently to themselves and then use “Heads Together” to talk about what they noticed. Ask them to consider the following questions as they read:

- Q *What are some ways that cloning might help people?*
- Q *What are some ways that cloning might be dangerous?*

After the students have finished reading the article, use “Heads Together” to have them discuss:

Q *What did you notice about ways cloning might help people? About ways cloning might be dangerous? Heads together.*

4 Discuss Pros and Cons as a Class

When most of the students have had time to share in their groups, facilitate a class discussion about the pros and cons in “Copycats: Why Clone?” by asking questions such as:

- Q** *According to the article, what are the pros of cloning? How might cloning help people? What information in the article makes you think that?*
- Q** *According to the article, what are the cons of cloning? What are some problems with cloning?*
- Q** *Are you more persuaded by the arguments for or against cloning? Explain your thinking.*

Students might say:

- “I think cloning is good because it can help farmers breed better animals.”
- “I disagree with what [Larry] said because the article says some cloned animals die when they’re really young.”
- “I think that cloning people is dangerous because it might not work right.”
- “I agree with [Larry] that cloning is a good idea. Besides the reason he gave, the article says cloning can help farmers grow plants that have useful qualities, like apple trees that grow juicy apples.”

Review that highlighting pros and cons is one way authors organize articles and other kinds of expository nonfiction to inform their readers. Explain that noticing how expository nonfiction texts are written and organized is an important comprehension strategy that the students will explore in the coming weeks.

5 Add to the “Reading Comprehension Strategies” Chart

Direct the students’ attention to the “Reading Comprehension Strategies” chart and add *analyzing how texts are organized* to it.

Teacher Note

Circulate and notice whether group members are contributing to and including everyone in the discussion. Notice examples of what is working well in the groups to bring to the students’ attention later.

Teacher Note

Remind the students to add to the discussion using the discussion prompts:

- “I agree with _____ because . . .”
- “I disagree with _____ because . . .”
- “In addition to what _____ said, I think . . .”

TEKS 9.E.i

TEKS 9.E.ii

Student/Teacher Activity
Step 4

Reading Comprehension Strategies

- using text features
- questioning
- recognizing story elements
- making inferences
- visualizing
- analyzing how texts are organized

Explain that tomorrow the students will hear and discuss another article and think and talk about how it is organized.

6 Reflect on Working in Groups

Share any observations you made about how the students worked together during “Heads Together.” Ask and briefly discuss questions such as:

- Q** *How did your group do with making sure everyone was included in the conversation? If not everyone was included, what can you do next time to make sure everyone is included?*
- Q** *How did you contribute to the group conversation during “Heads Together”?*

INDIVIDUALIZED DAILY READING

7 Review and Practice Using Text Features

Remind the students that for the next five weeks they will read expository nonfiction during IDR.

Direct the students’ attention to the “Reading Comprehension Strategies” chart and remind the students that one of the comprehension strategies they have learned is using text features to make sense of text. Ask the students to think as they read today about what text features they notice in their texts and what the text features help them learn. Tell the students that at the end of IDR you will ask them to share what they noticed with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their reading with the class. Ask each volunteer to share the title of her text, the author’s name, what the text is about, a text feature she noticed, and what the text feature helped her learn. Ask:

Q *Did anyone read an expository text that had few or no features? If so, how can you tell it is an expository text?*

Have the students return to their desks and put away their texts.

TECHNOLOGY EXTENSION

Research and Create Presentations About Cloning

Remind the students that in the article, “Copycats: Why Clone?” the author informs the reader about the pros and cons of cloning. Remind the students that writers often use central, or main, ideas to make their writing clear to their audience. Have the students look at the article in their *Student Response Book* and identify the central, or main ideas, the author of this article uses to highlight the pros and cons of cloning. Then ask:

Q *What are the central, or main, ideas that support cloning?*

As the students respond, chart their answers in a “T” chart on the board. Then ask:

Q *What are the central, or main, ideas against cloning?*

As the students respond, record their answers in the chart.

Tell the students that they will search for other articles about cloning and form their own opinions about the topic and support their ideas with main ideas and details. Help the students find articles by searching online using keywords such as “cloning for kids.” After the students have researched the subject, you might suggest that groups of four choose positions for or against cloning. Using information gathered online, have each group member identify one central, or main idea, that supports the group’s position. Each group might collaborate to compose a presentation supporting its position. Have the groups use “Heads Together” and “Group Brainstorming” to help them work well together.

TEKS 12.B.i Student/Teacher Activity Technology Extension

Technology Tip

Prior to doing this activity, you might wish to view the “Using Presentation Tools” tutorial (AV44).

To support the students in doing online research, you might teach the following Technology Mini-lessons in Appendix B: Mini-lesson 1, “Navigating Safely Online”; Mini-lesson 4, “Choosing Effective Search Terms”; Mini-lesson 5, “Understanding Search Results”; Mini-lesson 6, “Narrowing Search Results and Using Filters”; and Mini-lesson 7, “Evaluating Research Sources.” For more information about teaching Technology Mini-lessons 4–7, see “About Teaching the Online Research Lessons” at the beginning of Technology Mini-lesson 4.

The groups might then deliver their presentations to the rest of the class. After each presentation, encourage class discussion about the relative merits of the arguments made.

Day 3

Read-aloud

Materials

- “The Debate on Banning Junk Food Ads” (see pages 394–395)
- *Student Response Book* pages 48–49
- “Reading Comprehension Strategies” chart

In this lesson, the students:

- Skim an expository nonfiction article by reading the title, headings, and subheadings
- Hear and discuss the article
- Identify what they learn from the article
- Read independently for up to 30 minutes
- Work in a responsible way during group work

1 Get Ready to Work Together

Have the students bring their *Student Response Books* and gather in their groups of four, facing you. Remind the students that they have been working on including everyone in and contributing to the group discussions. Ask:

Q *Why is it important for all the members of your group to share their ideas?*

Have a few volunteers share their thinking with the class. Encourage them to continue working on including everyone in and contributing ideas to the group discussions.

2 Review Highlighting Pros and Cons

Remind the students that they read the article “Copycats: Why Clone?” and noticed how the article gave readers information by highlighting the pros and cons of (arguments for and against) cloning living things. Ask:

Q *Which side of the issue did you find more convincing, the pro or the con side? Why was it more convincing to you?*

Have a few volunteers share their thinking.

3 Introduce and Skim “The Debate on Banning Junk Food Ads”

Explain that today the students will hear and discuss another article written for young people, called “The Debate on Banning Junk Food Ads.”

ELL Note

Prior to reading the article aloud, summarize it for your English Language Learners. Then read the article aloud to them, stopping frequently to check for understanding. If necessary, reread sections of the article and discuss them with the students.

Review that earlier in the week, the students skimmed “Copycats: Why Clone?” by reading the title, subtitle, headings, and subheadings before they heard the article read aloud. Explain that today the students will skim “The Debate on Banning Junk Food Ads.” Have them turn to *Student Response Book* pages 48–49, “The Debate on Banning Junk Food Ads,” and silently read the title, headings, and subheadings. Ask:

Q *From reading the title, headings, and subheadings, what do you think this article is about?*

Have a few volunteers share their thinking. If necessary, explain that the article discusses whether or not the government should control the messages children receive about food from television commercials.

Ask the students to follow along as you read the article aloud. Explain that you will pause during the reading to have the students use “Heads Together” to discuss what they are learning.

4 Read Aloud

Read “The Debate on Banning Junk Food Ads” aloud slowly and clearly, skipping the captions and stopping as described below. Clarify vocabulary as you read.

Suggested Vocabulary

obesity: being very overweight (p. 395)

consumer: person who buys things (p. 395)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

advertising: messages, like television commercials, that tell people to buy things (p. 394)

low in nutritional value: isn't made of things that are good for a person's body (p. 394)

influenced: made to do something (p. 394)

banning: not allowing (p. 394)

have the right: should be allowed (p. 395)

have access to: can find out (p. 395)

Read the first paragraph of the article aloud, and then reread it, asking the students to listen for any information they might have missed during the first reading. Use “Heads Together” to discuss:

Q *What have you learned so far about advertising? Heads together.*

Have a few volunteers share what their groups discussed, and then continue reading to the next stopping point:

p. 395 “Limiting junk food ads may be one way to help people make choices that will prevent obesity and other health problems.”

Teacher Note

During the stops, listen for evidence that the students are discussing the article and understanding it. If necessary, reread parts of the article to help the students recall what they heard.

Teacher Note

Today's discussion focuses on surface-level comprehension of the article. Tomorrow, the students will look more closely at the article to discuss why the article was written the way it was.

Use “Heads Together” to discuss:

Q *What did you learn in the part you just heard? Heads together.*

Have one or two volunteers share what their groups discussed, and then continue reading to the end of the article. Use “Heads Together” to discuss:

Q *What did you find out in the second part of the article? Heads together.*

Have one or two volunteers share what their groups discussed.

5 Discuss the Article

Facilitate a class discussion using the questions that follow. As the students respond, be ready to reread sections of the article to help them recall what they heard.

Q *According to the article, why is there so much junk food advertising?*

Q *Why do some people think junk food advertising on TV should be banned?*

Q *What did you find out about junk food advertising that surprised you?*

Students might say:

“There is so much junk food advertising because it works, especially with kids.”

“In addition to what [Jeremy] said, there is a lot of junk food advertising because when kids see it, they ask their parents to buy the food.”

“The article said people think the ads should be banned because junk food is so unhealthy.”

“I was surprised that almost all the food ads kids see are for junk food. They see around 13 ads a day, but only about one a week is for healthy food.”

Explain that the students will reread the article tomorrow and discuss how the author organized the information in the article.

6 Reflect on Working in New Groups

Use “Heads Together” to discuss:

Q *How did your group work go today? Heads together.*

Q *What did you do to be responsible during group work? Heads together.*

Have a few volunteers report what their groups discussed.

INDIVIDUALIZED DAILY READING

7 Review and Practice Questioning

Direct the students' attention to the "Reading Comprehension Strategies" chart and remind the students that one of the comprehension strategies they have learned is questioning. Ask the students to think before they read about questions they have about the topics of their texts. Ask them to think as they read about whether the texts discuss their questions. Tell the students that at the end of IDR you will ask them to share what they noticed with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer share the title of his text, the author's name, what the text is about, a question he had about the topic of his text, and whether the text discusses the question. Then have the students return to their desks and put away their texts.

Materials

- “The Debate on Banning Junk Food Ads” (see pages 394–395)
- *Student Response Book* pages 48–49
- “Class Assessment Record” sheet (CA1)
- “Reading Comprehension Strategies” chart
- (Optional) “Questions to Use When Making Inferences” chart from Unit 5

Teacher Note

As the students work, circulate and check in with individual students. Support struggling students by asking questions such as:

- Q *What information did you find out in the part you just read?*
- Q *After reading [that ads can cause people to make unhealthy choices], are you convinced that junk food ads should be banned? Why do you think that?*

In this lesson, the students:

- Read and discuss an expository nonfiction article
- Analyze how information in the article is organized
- Explore how articles can inform by highlighting pros and cons
- Read independently for up to 30 minutes
- Include everyone in and contribute to the group work

1 Review “The Debate on Banning Junk Food Ads”

Have the students bring their *Student Response Books* and gather in their groups of four, facing you. Review that in the previous lesson the students heard and discussed an article called “The Debate on Banning Junk Food Ads.” Ask and briefly discuss:

Q *What is this article about?*

Have a few volunteers share what they remember. Review that articles and other kinds of expository nonfiction are organized to inform their readers in a particular way. Review that it is common for writers to inform their readers by highlighting the pros and cons of an issue. This technique helps readers learn about both sides of the issue and gain a deeper understanding of it.

Explain that today the students will reread “The Debate on Banning Junk Food Ads” individually and then think and talk about how the article is organized in a way that highlights the pros and cons.

2 Reread the Article and Discuss in Groups

Have the students turn to *Student Response Book* pages 48–49 and explain that the students will read the article silently to themselves and then use “Heads Together” to talk about what they noticed. Ask them to consider the following questions as they read:

- Q *What arguments does the article make for banning junk food advertising?*
- Q *What arguments does the article make against banning junk food advertising?*

After the students have finished reading the article, use “Heads Together” to discuss:

 Q *What pros and cons did you find in the article? Heads together.*

Circulate and listen as the students discuss the questions.

TEKS 9.E.ii
 Student/Teacher Activity
 Step 2

CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students understand the article?
- Are they able to identify pros and cons in the article?
- Are they able to explain their thinking clearly?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 95 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify pros and cons in the article, proceed with the lesson and continue on to Week 2.
- If **about half of the students** or **only a few students** are able to identify pros and cons in the article, you might give the class additional instruction by repeating this week’s lessons using an alternative text before continuing on to Week 2. Resources for alternative texts are suggested in the “Grade 5 Alternative Texts” list. Visit the CCC Learning Hub (ccclearninghub.org) to view the list.

Teacher Note

You might wish to use articles that address the pros and cons of issues such as whether students should be required to wear school uniforms, whether video games are good for kids, or whether tablets should be used in classrooms.

3 Discuss Pros and Cons as a Class

Signal for the students’ attention and facilitate a class discussion about the pros and cons in “The Debate on Banning Junk Food Ads” by asking questions such as:

- Q *According to the article, why might stopping junk food advertising on TV be good for kids? What did you read that makes you agree?*
- Q *According to the article, why shouldn’t junk food advertising be banned on TV? What did you read that makes you think so?*
- Q *Are you more persuaded by the arguments for or against regulating junk food ads? Explain your thinking.*

Students might say:

“I think banning the ads is a good idea because it might help kids eat less junk food. The article says kids are easily influenced by ads to eat junk food. So if they see fewer junk food ads, maybe they’ll eat less junk food.”

“In addition to what [Leigh] said, if people start eating better when they’re young, they might be healthier as adults, too. The article says they could have a ‘better chance at having a healthy future.’”

“I disagree with what [Emmanuel] said because if kids don’t see the ads, they won’t learn how to choose healthy foods.”

“I agree with [Mari] because if the ads are banned, people won’t have all the information. That’s especially important because according to the article, some fast food companies are making ads that encourage kids to be healthy.”

Review that highlighting pros and cons is one way authors organize articles and other kinds of expository nonfiction to inform their readers. Encourage the students to start noticing how articles they read independently are written and to look for examples of articles that inform by highlighting pros and cons.

Explain that next week the students will hear more articles and think and talk about how they are organized.

4 Reflect on Working in Groups

Help the students reflect on how they worked together during “Heads Together” by asking questions such as:

- Q *How did you contribute to the group conversation during “Heads Together”?*
- Q *How did your group do with making sure everyone was included in the conversation?*
- Q *What problems did you have? How did you try to deal with those problems? What can your group do to avoid those problems next time?*

INDIVIDUALIZED DAILY READING

5 Review and Practice Making Inferences

Direct the students’ attention to the “Reading Comprehension Strategies” chart and review that one of the comprehension strategies they have learned is making inferences. Ask the students to think about inferences they make as they read independently today. Tell the students that at the end of IDR you will ask them to share their inferences with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

Teacher Note

You might display the “Questions to Use When Making Inferences” chart from Unit 5, Week 1, and encourage the students to think about the questions on the chart as they reread.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their reading with the class. Ask each volunteer to share the title of her text, the author’s name, what the text is about, and any inferences she made. If the students struggle to make inferences, ask questions such as:

- Q *What do you know about this topic based on what you just read?*
- Q *Is that stated directly in the text? If not, what clue or clues tell you what you know?*

Have the students return to their desks and put away their texts.

EXTENSION

Research Advertising

You might have the students find more information about advertising directed at children. You and your students can find more information at the school or community library or by doing online searches using the keywords “advertising for kids.”

TECHNOLOGY EXTENSION

Poll Opinions in the School Community About Junk Food

You might have the students use a social networking tool to conduct a survey within the classroom, across the grade level, or across the entire school to find out other students’ opinions about junk food. Begin by having the students discuss and agree upon a definition of junk food to provide to survey takers so the responses are all based on the same definition. Then discuss what information they would like to know and what questions they might ask in the survey in order to gather that information. For example, they might ask questions such as:

- Do you think kids should be allowed to eat junk food?
- Do you think junk food should be available at school?
- On a scale of zero to five, where zero is “none” and five is “a lot,” how much junk food do you consume in an average day?
- On a scale of zero to five, where zero is “not at all” and five is “very much,” how much do you like junk food?

Vocabulary Note

Next week you will revisit “Copycats: Why Clone?” and “The Debate on Banning Junk Food Ads” to teach the Week 17 vocabulary lessons.

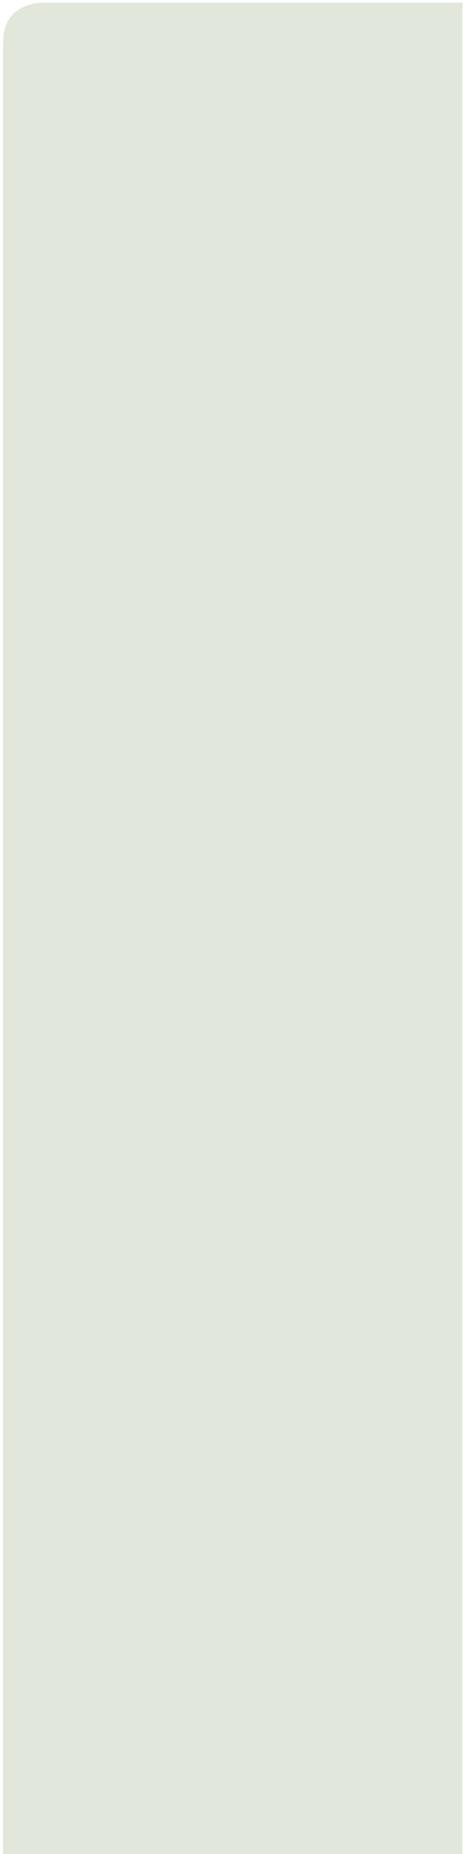

Technology Tip

Prior to doing this activity, you might wish to view the following tutorials: “Using Blogs in the Classroom” (AV45) and “Using Social Media” (AV46).

Have the students conduct the survey and then tally and discuss the results. You might have them use an online tool to create a graph showing the results. Have them share the results with the respondents via a classroom blog. On the blog, invite a deeper discussion of the issues surrounding junk food by posing questions such as:

- Why do you think kids should or should not be allowed to eat junk food?
- Why do you think junk food should or should not be available at school?
- Why do you eat or not eat junk food?
- What do you think the ideal diet for elementary school students is? Why?

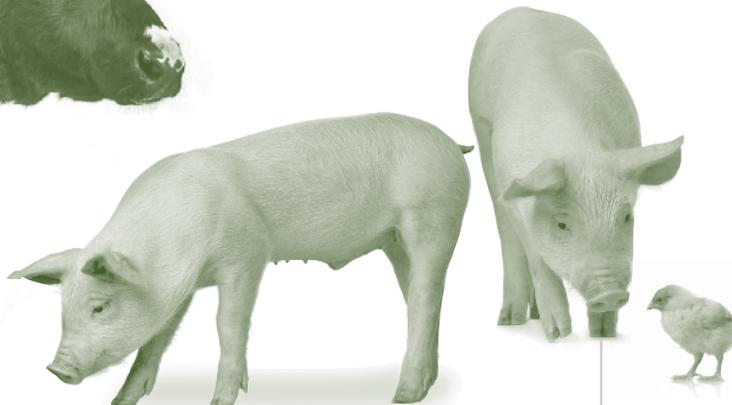

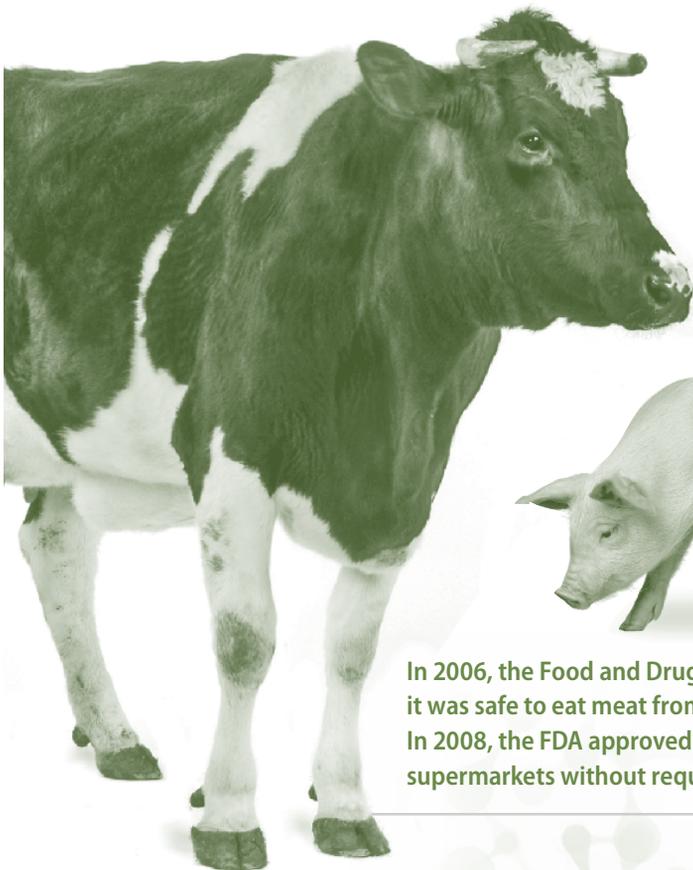

COPYCATS

Why Clone?

Cloning is a high-tech way to create a living thing that is an exact genetic copy of another. Why would we want to create identical living things? For farmers, there are many reasons. Farmers already use cloning techniques to produce desirable varieties of plants, such as apple trees that grow crisp, juicy fruit. One technique is to grow plants from cuttings taken from other plants. A plant that grows from a cutting is a clone because it has the same genetic makeup as the original plant.

In 1996, scientists succeeded in cloning the first mammal. Since then, a debate has raged about whether it is ethical or necessary to clone animals—including humans. Although the idea is controversial, some scientists believe that cloned human beings could one day become a reality. Other high-tech procedures, such as organ transplants, once faced the same kind of debate, but today they are widely performed.

In 2006, the Food and Drug Administration (FDA) reported that it was safe to eat meat from animals that had been cloned. In 2008, the FDA approved the sale of cloned-animal meat in supermarkets without requiring them to be labeled as such.

PROS

Building a Better Breed

Since the first mammal was cloned, scientists have cloned many other creatures, including cows, cats, and fruit flies. Traditionally, farmers have paired a male animal with a female and hoped that they would produce offspring with desirable traits, such as animals that have thick wool or high-quality meat. Today, farmers are starting to use cloning as a surer way to get that same result.

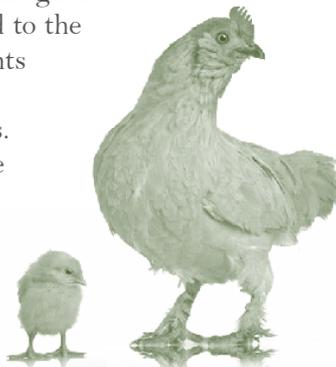

Protection from Extinction

Cloning might also be a way to protect endangered species from extinction. In 2005, scientists created clones of the gray wolf, a species once hunted to near extinction. Today, thanks to a U.S. protection law, gray wolves are thriving in several states, including Minnesota and Wisconsin. But if gray wolves ever become endangered again, scientists now know how to clone them so they won't become extinct.

Human Health

There are many potential advantages of cloning human beings. It might give infertile couples a chance to have children. Additionally, people who are likely to have a child with a genetic disorder might use cloning to have a better chance at producing a healthy child. Cloning could also be used to create healthy organs for people who are sick and need a transplant.

Cloning might help us understand how human genes work. This could lead to the discovery of treatments for genetic disorders such as cystic fibrosis. Discoveries like these have the potential to make many people's lives easier. These discoveries might even save lives.

CONS

Cloning for the Wrong Reasons

Where do we draw the line between the right reasons and the wrong reasons for using cloning? If human cloning is allowed in a few specific cases, people might begin to use it in other ways. For example, cloning might be used to create children who have specialized talents—such as amazing mathematical or athletic abilities—much like animals might be cloned for specific desirable traits. From there, cloning could lead to the creation of groups of people for specific purposes, such as fighting in wars. Many people argue that it is wrong to experiment with human life in this way.

Health Risks

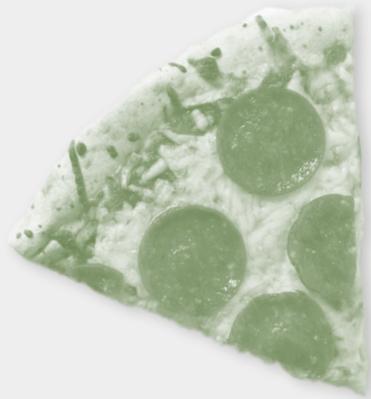

Studying human cloning has big complications. Real human cells must be used, so if a particular experiment does not work out, the result could be a flawed copy of a human being—and that person would never have a normal life.

So far, scientists have found it difficult to produce healthy clones of mammals. For example, studies done in Japan have shown that cloned mice have poor health and die early. About a third of cloned cows have died young, and many of them were too large. Many cloned animals appear healthy at a young age but die suddenly and mysteriously. We should expect the same problems in human clones.

Even if scientists were able to produce human clones that were physically healthy, other important parts of human development might be affected. For example, a person's mood, intelligence, or sense of individuality might not develop normally.

Legal Roadblocks

In many countries it is against the law to clone a human being because of the many ethical and safety concerns. Congress is currently considering passing a law to ban human cloning in the United States.

"Junk food" is a slang term for food with little nutritional value. It includes food that is high in fat, sugar, or salt (or all three). Junk food makes up a large portion of food we see advertised on TV.

THE DEBATE ON

BANNING

JUNK FOOD ADS

Advertising Works

Food companies spend billions of dollars on TV advertising each year. The reason is simple: Advertising works. It's especially effective with children. A 2013 study found that the average American child sees about 13 food commercials a day, or 4,700 a year. Teens see more than 16 a day, or 5,900 a year. The study found that these kids see only about one ad per week for healthy foods such as fruits, vegetables, and bottled water. Most of the food ads they see are for junk food.

What's Junk?

Junk food may taste good, but it's low in nutritional value. For example, a sugary donut doesn't have as many nutrients as an apple. Many people argue that one way to encourage people—especially children—to choose more nutritious foods is to regulate, or control, the messages they receive about food from advertising. Others argue that regulating advertising will simply create more problems.

PROS

Good Habits Start Young

Some countries already regulate TV advertising for junk food. The people who support such regulations say that TV advertising encourages bad eating habits among young people because young people are more easily influenced than adults by advertising. In 2007, the United Kingdom started banning junk food advertising during children's TV shows. In 2011, the U.S. government proposed voluntary guidelines for food ads targeting children and teenagers. The guidelines state that foods advertised to children must include healthful ingredients and be limited in the amounts of sugar, saturated fat, trans fat, and salt they contain. The nation's largest food companies responded that the guidelines were too strict and proposed more lenient guidelines for ads.

A child who develops unhealthy habits is also likely to keep on making unhealthy choices as an adult. So it is preferable to control the messages that young people receive. This gives them a better chance at having a healthy future.

Good health is a big concern for many people today. Worldwide, hundreds of millions of people have serious problems related to an unhealthy diet, including diabetes and heart disease. A common problem in the United States is obesity: In a 2011–2012 survey, the Center for Disease Control found that about 80 million adults and about 12.5 million children were obese. Limiting junk food ads may be one way to help people make choices that will prevent obesity and other health problems.

The United Kingdom bans junk food ads during children's TV shows and on children's channels.

CONS

Giving Food a Bad Name

There are some big problems with creating rules about junk food advertising. For example, how do we decide exactly what is junk food and what is not? In the United Kingdom, foods such as olive oil, honey, and cheese have been banned from

“In the United Kingdom, foods such as olive oil, honey, and cheese are labeled as junk food.”

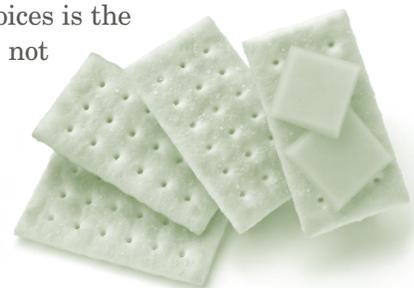

advertising during certain hours because they are labeled “junk food.” These foods have nutritional value, but they are also high in fat, salt, or sugar. Calling these foods “junk food” makes it

more difficult for people to understand what makes up a healthy, balanced diet.

To make things even more complicated, some fast food companies' ads now emphasize more nutritious choices—for example, providing fruit and milk with children's meals. Some promote health and fitness, too. If all fast food ads were banned from children's TV, these healthy messages would be as well.

Some parents feel that they have the right to decide what is best for their children and that regulating TV ads takes away that right. It is up to the parent to say yes or no when a child asks for something he or she has seen advertised on TV. What the parent says helps the child learn about how advertising affects the people who see it.

Regulating TV ads takes away some of the information parents and children have access to. They need that information in order to make their own buying decisions. Making these choices is the consumer's right, not the right of the government.

Week 2

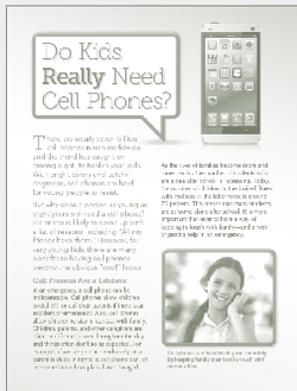

OVERVIEW

“All-girls and All-boys Schools: Better for Kids”

(see pages 414–415)

This article discusses the benefits of separating students into all-girls and all-boys schools.

“Do Kids Really Need Cell Phones?”

(see pages 416–417)

This article discusses the benefits of equipping young children with cell phones.

Online Resources

Visit the CCC Learning Hub (cclearninghub.org) to find your online resources for this week.

Assessment Forms

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheet (CN1)

Comprehension Focus

- Students analyze how the information in expository nonfiction articles is organized.
- Students explore how articles can inform by investigating one side of an issue.
- Students explore authors' opinions.
- Students read independently.

Social Development Focus

- Students work responsibly during group work.
- Students include everyone in and contribute to the group work.
- Students explain their thinking.

🕒 DO AHEAD

- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA2); see page 96 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 17 lessons this week.

Materials

- “All-girls and All-boys Schools” (see pages 414–415)
- *Student Response Book* pages 50–51
- “Reading Comprehension Strategies” chart

In this lesson, the students:

- Skim an expository nonfiction article by reading the title, subtitle, and headings
- Hear and discuss the article
- Identify what they learn from the article
- Read independently for up to 30 minutes
- Work in a responsible way during group work

1 Get Ready to Work Together

Have the students bring their *Student Response Books* and gather in their groups of four, facing you. Remind the students that they used “Heads Together” in their groups last week and thought about how they were including everyone in and contributing to the group discussion. Explain that they will continue to work in groups this week and that you would like them to think about how they are working in a responsible way during group work. Ask:

- Q *What can be challenging about being responsible during group work?*
- Q *During “Heads Together” today, how can you make sure you are participating fully and learning everything you can about what is being discussed?*

Students might say:

“Sometimes it can be challenging if you don’t get what other people are talking about.”

“I agree with [Susan]. We can be responsible by asking the other people in the group to explain what they mean if we don’t understand.”

“In addition to what [Alejandro] said, we can make sure to say what we think so other people in the group can think about it, too.”

Encourage the students to pay attention to how they are working responsibly today, and tell them that you will check in with them to see what they noticed.

2 Review Highlighting Pros and Cons

Remind the students that they read two articles last week, “Copycats: Why Clone?” and “The Debate on Banning Junk Food Ads,” and they discussed how the articles were organized to inform readers in a particular way. Have the students look over the two articles on *Student Response Book* pages 46–49, and ask:

Q *How are these two articles organized?*

Have a few volunteers share their thinking. If necessary, remind the students that the articles were written to inform readers by highlighting the pros and cons of the issues.

3 Introduce and Skim “All-girls and All-boys Schools”

Explain that today the students will hear and discuss another article written for young people, called “All-girls and All-boys Schools: Better for Kids.” Have the students turn to the article on *Student Response Book* pages 50–51. Review that last week the students skimmed articles by reading the titles, subtitles, headings, and subheadings to help them think about what information might be in the articles. Have the students silently read the title, subtitle, and headings of “All-girls and All-boys Schools: Better for Kids.” Ask and briefly discuss:

Q *Based on the title, subtitle, and headings, what information do you think might be in this article?*

Have a few volunteers share their thinking. If necessary, explain that this article gives information about all-girls and all-boys schools and expresses the author’s opinion about these schools.

Ask the students to follow along in their *Student Response Books* as you read the article aloud. Explain that you will stop during the reading to have the students use “Heads Together” to discuss what they are learning.

4 Read Aloud

Read “All-girls and All-boys Schools” aloud slowly and clearly, skipping the captions and stopping as described on the next page. Clarify vocabulary as you read.

Suggested Vocabulary

interact with: talk with; spend time with (p. 414)

coeducational: with boys and girls in school together (p. 414)

coed: short for coeducational (p. 414)

segregated: kept separate (p. 415)

gaining favor: becoming more popular (p. 415)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

are more confident: feel better about themselves (p. 414)

academically: in school (p. 414)

develops: grows and changes (p. 414)

instruction: teaching (p. 414)

graduates: people who have finished school (p. 414)

enthusiastic: excited (p. 415)

their academic abilities: how well they do in school (p. 415)

their personalities: what kind of people they are (p. 415)

head start: chance to get ahead (p. 415)

getting on board: (idiom) deciding something is a good idea (p. 415)

Read aloud the introduction and the first section—“Together or Apart?”—twice. Ask and briefly discuss:

Q *What have you found out so far?*

Have a few volunteers share their thinking. Continue reading and stop after:

p. 414 “Likewise, female students in all-girls schools scored better in science and reading than their female peers in coed schools.”

Use “Heads Together” to discuss:

 **Q** *What did you find out in the part you just heard? Heads together.*

Without sharing as a class, reread the last sentence and then continue reading. Follow this procedure at the next two stopping points:

p. 415 “. . . remarkably effective at boosting boys’ performance, particularly in English and foreign languages, as well as improving girls’ performance in math and science.”

p. 415 “. . . they’re more likely to feel enthusiastic about speaking up in class, asking questions, and participating in class discussions.”

Continue reading to the end of the article.

5 Discuss the Article

Use “Heads Together” to discuss:

 **Q** *What does the article say about how having all-girls and all-boys classrooms affects students’ test scores? Heads together.*

Q *What are some reasons the article gives for having all-girls and all-boys schools? Heads together.*

Q *What did you find out about all-girls and all-boys schools that surprised you? Heads together.*

Teacher Note

If the students have difficulty answering these questions, reread sections of the article to help them remember what they heard.

Have a few volunteers share their thinking.

Students might say:

"Kids in all-girls and all-boys schools can do better on tests."

"The article says that boys and girls might not be as shy in class if they're in separate classes."

"I was surprised the article said that girls' and boys' brains are different."

Explain that tomorrow the students will reread the article and discuss how it is written.

6 Reflect on Working in Groups

Help the students reflect on how they took responsibility for their own learning during group work by asking questions such as:

Q *What did you learn about the article as you talked with your group members?*

Q *If you didn't understand something, what did you do?*

INDIVIDUALIZED DAILY READING

7 Review the "Reading Comprehension Strategies" Chart and Read Independently

Direct the students' attention to the "Reading Comprehension Strategies" chart and ask them to notice which strategies they use and where they use them during their reading today. Tell the students that at the end of IDR you will ask them to share the strategies they used with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their reading with the class. Have each volunteer share the title of the text she read, the author's name, and what the text

is about. Then have her share the name of a strategy she used and where in the text she used it. Follow up by asking questions such as:

- Q *How did [looking at the map in your book] help you understand more about [Lewis and Clark's journey]?*
- Q *How did [asking questions before you began reading about the life cycle of the monarch butterfly] help you make sense of your text?*

Have students who cannot think of a comprehension strategy they used talk about what they read. Have the students return to their desks and put away their texts.

Day 2

Guided Strategy Practice

Materials

- “All-girls and All-boys Schools” (see pages 414–415)
- *Student Response Book* pages 50–51
- “Reading Comprehension Strategies” chart

In this lesson, the students:

- Read and discuss an expository nonfiction article
- Analyze how information in the article is organized
- Explore how articles can inform by investigating one side of an issue
- Explore the author’s opinion
- Read independently for up to 30 minutes
- Include everyone in the group work

1 Review “All-girls and All-boys Schools” and Introduce Author’s Opinion

Have the students bring their *Student Response Books* and pencils and gather in their groups of four, facing you. Remind the students that they have been reading articles and thinking about how the articles inform readers. Have the students turn to *Student Response Book* pages 50–51, “All-girls and All-boys Schools: Better for Kids.” Ask and briefly discuss:

- Q *What do you remember about this article?*

Review that articles and other kinds of expository nonfiction are organized to inform their readers in a particular way. Review that the articles the students read last week, “Copycats: Why Clone?” and “The Debate on Banning Junk Food Ads,” were written to highlight the pros and cons of an issue. Point out that “All-girls and All-boys Schools: Better for Kids” informs readers by investigating one side of an issue instead of giving information about both sides.

Explain that in order to help readers understand why all-girls and all-boys schools are a good idea, the author of “All-girls and All-boys Schools: Better for Kids” made choices about what to include in the

article. Explain that today the students will think and talk about how the article informs readers about the benefits of all-girls and all-boys schools.

2 Reread the Article and Highlight Evidence in Pairs

Explain that the author of “All-girls and All-boys Schools: Better for Kids” gives evidence, or examples, to support the opinion that all-girls and all-boys schools are good for students. Ask the students to follow along as you reread “Together or Apart?” and the first paragraph of “Different Brains, Different Gains” aloud. Point out that the first section introduces the benefits of all-girls and all-boys schools, and the next section gives the reader evidence of those benefits.

Read aloud and have the students underline in their *Student Response Books* the sentence “Because of differences like these, males and females learn various subjects in different ways.” Explain that the fact that boys and girls learn differently is evidence the author gives that supports the opinion that separate boys’ and girls’ schools are good for students.

Explain that the students will read the rest of the article in pairs and underline three other pieces of evidence, or examples, that the author gives to support this opinion.

Have pairs spend several minutes working together to find and underline evidence in the article.

When most pairs have finished, signal for the students’ attention. Have partners discuss what they underlined with the other pair in their group of four.

3 Discuss the Article as a Class

When most of the students have had time to talk in their groups, facilitate a class discussion about the evidence in the article by asking questions such as:

- Q *What evidence did you and your partner underline that supports the opinion that all-girls and all-boys schools are a good idea?*
- Q *How does [“male students in all-boys schools scored better in reading and writing than male graduates of coeducational schools”] help support the opinion that all-girls and all-boys schools are a good idea?*
- Q *What other evidence did you find that [having separate all-girls and all-boys schools helps students do better in school]?*
- Q *What questions can we ask [Annette] about her thinking?*

TEKS 9.D.iv
TEKS 9.E.v
Student/Teacher
Narrative Step 2
(first two paragraphs)

Teacher Note

Other evidence that supports the opinion that all-girls and all-boys schools are a good idea includes:

- “The researchers found that male students in all-boys schools scored better in reading and writing than male graduates of coeducational schools.”
- “The researchers found that all-boys and all-girls classrooms were remarkably effective at boosting boys’ performance, particularly in English and foreign languages, as well as improving girls’ performance in math and science.”

TEKS 9.E.v
Student/Teacher Activity Step 2
(last two paragraphs)

TEKS 6.F.ii
Student/Teacher Activity
Steps 2 and 3

Facilitation Tip

Continue to focus on **responding neutrally with interest** during class discussions by refraining from overtly praising or criticizing the students’ responses. Instead, build the students’ intrinsic motivation by responding with genuine curiosity and interest; for example:

- “Interesting—say more about that.”
- “What you said makes me curious. I wonder . . .”
- “Do you agree or disagree with what [Jackson] just said?”

Students might say:

"We underlined 'males and females learn various subjects in different ways.' We think that's evidence for why separate schools for girls and boys are a good idea. If a school has just girls or just boys, all the teaching can focus on helping that kind of learner, and that could help the kids learn better."

"We underlined '55 percent of boys in coed classrooms scored proficient (at or above a passing level), while 85 percent in all-boys classrooms scored proficient.'"

"In addition to what [Sam] said, if kids are getting better scores, that shows they are doing better in school."

"We underlined 'But many graduates of these schools say that they feel confident not only about their academic abilities, but also about their personalities.' That's evidence that students do better with their studies and they also feel more confident about who they are."

"In addition to what [Lenny] said, I think if kids feel less shy in class and ask more questions, they might be less shy with other kids, too."

4 Discuss the Author's Opinion

Review that the author of "All-girls and All-boys Schools: Better for Kids" has the opinion that all-girls and all-boys schools are better for kids. Remind the students that the author includes only evidence that supports that opinion. Ask and briefly discuss:

- Q** *How did you feel about all-girls and all-boys schools after reading this article? What in the article made you feel that way?*
- Q** *Did the author convince you that all-girls and all-boys schools are a good idea? Why or why not?*

Explain that many articles in newspapers and magazines and online are written to inform the reader about one side of an issue only; they do not inform readers about other different opinions. Tell the students that it is important for them to recognize when an author is presenting only one side of an issue so that they can think about whether they have enough information to form their own opinions.

Explain that tomorrow the students will hear and discuss another article that investigates one side of an issue.

5 Reflect on Group Work

Share examples of successes or problems you observed as the students worked in their groups of four. Ask and briefly discuss:

- Q** *What did you do to make sure everyone was included in your group discussion?*

INDIVIDUALIZED DAILY READING

6 Read Independently and Discuss the Comprehension Strategies the Students Used

Direct the students' attention to the "Reading Comprehension Strategies" chart and ask them to notice which strategies they use and where they use them during their reading today. Tell the students that at the end of IDR you will ask them to share the strategies they used with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their reading with the class. Ask each volunteer to share the title of the text he read, the author's name, and what the text is about. Then have him share the name of a strategy he used and where in the text he used it. Follow up by asking questions such as:

- Q *What did you infer about the author's purpose in the article about [why children should not watch television]? How did inferring about the author's purpose help you make sense of the text?*
- Q *How did visualizing [the hardships a gold miner faced as he panned for gold during the gold rush] help you make sense of your text?*

If students cannot think of a comprehension strategy they used, ask them to talk about what they read. Have the students return to their desks and put away their texts.

EXTENSION

Read and Discuss Other Articles That Investigate One Side of an Issue

Have the students identify articles, in magazines or on websites, that express a single opinion. Have the students read the articles in pairs or groups of four and discuss whether or not they find the authors' evidence convincing. Most public library cards give students access to searchable periodical databases. Consult with your local librarian or visit your local library's website to find out more.

Day 3

Read-aloud

Materials

- “Do Kids Really Need Cell Phones?” (see pages 416–417)
- *Student Response Book* pages 50–53
- “Reading Comprehension Strategies” chart

TEKS 9.D.iv
Student/Teacher Activity
Step 1

In this lesson, the students:

- Skim an expository nonfiction article by reading the title and headings
- Hear and discuss the article
- Identify what they learn from the article
- Read independently for up to 30 minutes
- Work in a responsible way during group work

1 Review “All-girls and All-boys Schools”

Have the students bring their *Student Response Books* and gather in their groups of four, facing you. Have them turn to *Student Response Book* pages 50–51 and review that this week they read “All-girls and All-boys Schools: Better for Kids” and thought about and discussed the author’s opinion. Ask and briefly discuss:

Q *What is the author’s opinion in the article? What evidence does the author give to support that opinion?*

Have a few volunteers share their thinking.

2 Introduce and Skim “Do Kids Really Need Cell Phones?”

Explain that today the students will hear and discuss another article written to express an author’s opinion, called “Do Kids Really Need Cell Phones?” Ask the students to turn to the article on *Student Response*

Book pages 52–53. Have the students silently read the title and headings. Ask and briefly discuss:

Q *Based on the title and the headings, what information do you think might be in this article?*

Have a few volunteers share their thinking.

Ask the students to follow along as you read the article aloud. Explain that you will stop during the reading to have them use “Heads Together” to discuss what they are learning. Invite the students to think about the author’s opinion as they listen.

3 Read Aloud

Read “Do Kids Really Need Cell Phones?” aloud slowly and clearly, skipping the captions and stopping as described below. Clarify vocabulary as you read.

Suggested Vocabulary

lifeline: something that can save a person in an emergency (p. 416)

mothers in the labor force: mothers who work outside the home (p. 416)

are dependent on: require; need (p. 417)

devices: machines (p. 417)

belongings: things that someone owns (p. 417)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

catchy ringtones: fun sounds phones make when they ring (p. 416)

resist: say “no” to (p. 416)

stay in contact with: talk to (p. 416)

prepaid plan: paying for cell phone minutes ahead of time (p. 417)

are familiar with this technology: know how to use cell phones (p. 417)

definitions: what words mean (p. 417)

personal possessions: things that belong to someone (p. 417)

preteens: people aged 10 to 12 (p. 417)

Read the two introductory paragraphs twice, asking the students to listen for information they might have missed the first time. Continue reading the article.

Stop after:

p. 416 “It is more important than ever to have a way of keeping in touch with family—and a way of getting help in an emergency.”

Use “Heads Together” to discuss:

Q *What have you learned in the part I read? Heads together.*

Without sharing as a class, reread the last sentence and continue reading. Follow this procedure at the next two stopping points:

p. 417 “. . . and, in turn, help them feel confident when they grow up and begin working.”

p. 417 “Learning responsibility in this way helps children to respect other people’s belongings, too.”

Continue reading to the end of the article.

4 Discuss the Reading as a Class

Facilitate a discussion about the article by asking questions such as:

Q *What does the article say about how many children have cell phones?*

Q *What are some reasons the article gives for young children having cell phones?*

Q *What information that the author included surprised you?*

Students might say:

“The article says about 56 percent of American preteens have cell phones.”

“The article says that if kids have cell phones, they will be able to get help in an emergency.”

“I agree with [LaShauna]. The article also said that cell phones might be able to help kids with their schoolwork.”

“I was surprised that so many kids are home alone after school.”

Explain that tomorrow the students will reread the article and discuss how it is written.

5 Reflect on Working in Groups

Help the students reflect on how they took responsibility for their own learning during group work by asking questions such as:

Q *What did you do to work in a responsible way during the group work today?*

Q *What is something new you learned from the article as you talked with your group members?*

Teacher Note

If the students have difficulty answering these questions, reread sections of the article to help them remember what they heard.

INDIVIDUALIZED DAILY READING

6 Read Independently and Discuss the Comprehension Strategies the Students Used

Direct the students' attention to the "Reading Comprehension Strategies" chart and ask them to notice which strategies they use and where they use them during their reading today. Tell the students that at the end of IDR you will ask them to share the strategies they used with partners. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share what they read with partners. Have each student tell her partner the title of her text, the author's name, and what the text is about. Then have each student share the strategy she used and where in the text she used it. Have students who cannot think of a comprehension strategy they used talk about what they read. After partners have had a chance to share, discuss as a class:

Q *What did your partner share with you today about his or her reading?*

Remind the students that the purpose of sharing their partners' thinking is to help them develop their listening skills. Have the students return to their desks and put away their texts.

Materials

- “Do Kids Really Need Cell Phones?” (see pages 416–417)
- *Student Response Book* pages 52–53
- “Class Assessment Record” sheet (CA2)

ELL Note

Prior to having the students look for and underline evidence in the article, reread the article to your English Language Learners. Stop frequently to check for understanding.

TEKS 9.D.iv
Student/Teacher Activity
Steps 2–4

In this lesson, the students:

- Read and discuss an expository nonfiction article
- Analyze how information in the article is organized
- Explore how articles can inform by investigating one side of an issue
- Explore the author’s opinion
- Read independently for up to 30 minutes
- Explain their thinking

1 Review “Do Kids Really Need Cell Phones?”

Have the students bring their *Student Response Books* and pencils and gather in their groups of four, facing you. Remind the students that they have been reading articles that explore the pros and cons of an issue and articles that investigate one side of an issue, and they have been thinking about how the articles are written. Review that the article the students heard yesterday—“Do Kids Really Need Cell Phones?”—investigates one side of an issue.

Ask the students to turn to *Student Response Book* pages 52–53. Ask and briefly discuss:

- Q** *What is “Do Kids Really Need Cell Phones?” about?*
- Q** *What is the author’s opinion in “Do Kids Really Need Cell Phones?” How do you know that?*

Remind the students that earlier in the week, they reread “All-girls and All-boys Schools: Better for Kids” and found evidence in the article to support the author’s opinion. Explain that today the students will reread “Do Kids Really Need Cell Phones?” in groups and think and talk about how the information in the article supports the author’s opinion.

2 Reread and Briefly Discuss “Do Kids Really Need Cell Phones?”

Explain that a volunteer in each group of four will read the article aloud to the rest of the group. Explain that the other students in the group will follow along and listen for evidence that supports the opinion that cell phones benefit young children and their parents, and then groups will use “Heads Together” to talk about the evidence they heard in the article.

Ask a student from each group to volunteer to read the article aloud to the rest of the group. Ask the students to consider the following question as they listen:

Q *What information does the author include in the article to support the opinion that it's a good idea for young children to have cell phones?*

3 Underline Evidence of the Author's Opinion

Without having the students share as a class, explain that they will silently scan the article in their *Student Response Books* and underline three pieces of evidence that support the author's opinion.

Have the students spend a few minutes looking for and underlining evidence in the article.

4 Discuss Evidence in Groups and as a Class

After the students have had a chance to underline evidence in the article, explain that you will ask a question for the groups to discuss and that the students should be sure to explain their thinking to one another. Then use "Heads Together" to discuss:

Q *What did you underline? Why? Heads together.*

Circulate and listen as the students discuss the question.

CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students understand the article?
- Are they able to identify evidence in the article that supports the author's opinion?
- Are they able to explain their thinking clearly?

Record your observations on the "Class Assessment Record" sheet (CA2); see page 96 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify evidence in the article that supports the author's opinion, proceed with the lesson and continue on to Week 3.
- If **about half of the students** or **only a few students** are able to identify evidence in the article that supports the author's opinion, you might give the class additional instruction by repeating this week's lessons using an alternative text before continuing on to Week 3. Resources for alternative texts are suggested in the "Grade 5 Alternative Texts" list. Visit the CCC Learning Hub (ccclearninghub.org) to view the list.

Teacher Note

If more than one student wants to read aloud, suggest that the students take turns reading sections of the article aloud. If most students are reluctant to read aloud, ask the students to reread the article to themselves silently. Support your English Language Learners as needed.

Teacher Note

You will analyze the work the students do in their *Student Response Books* in Step 3 for this unit's Individual Comprehension Assessment.

Teacher Note

Evidence in the article that supports the opinion that cell phones are good for kids includes:

- "Cell phones allow children to dial 911 or call their parents if there is an accident or emergency."
- "Most cell phones have a Global Positioning System (GPS) so that parents can find their child easily using another cell phone or a website."
- "On most cell phones, students can check the Internet for definitions and spellings of tricky words, take photos and make short videos for school projects, and listen to audiobooks."

Teacher Note

Look for articles that investigate one side of an issue. You might look for articles that discuss issues such as whether kids should be allowed to use social media, whether schools should have vending machines, or whether sports teams should drop Native American names.

When most of the students have had time to talk in their groups, facilitate a class discussion about evidence that supports the author's opinion in "Do Kids Really Need Cell Phones?" Discuss questions such as:

- Q *[Clarice] underlined ["Cell phones allow children to dial 911 or call their parents if there is an accident or emergency"]. Did you underline that sentence? What made you choose that one?*
- Q *What other evidence did you find that [cell phones help kids be safer]?*
- Q *Who agrees with what [Ronnie] said? Why? Who disagrees with what [Ronnie] said? Why?*
- Q *Do you agree with the author's opinion based on the evidence in the article? Explain your thinking.*
- Q *What can you add to what [Genevieve] said?*

Students might say:

"I underlined the sentence 'Cell phones allow children to dial 911 or call their parents if there is an accident or emergency,' because I think being safe is the most important reason to have a cell phone."

"I underlined 'Today, the number of children in the United States with mothers in the labor force is around 70 percent. This means that many students are at home alone after school.'"

"I disagree with what [Miguel] said because even if kids are home alone, they probably have a phone in the house."

"I agree with the author's opinion because kids can learn a lot from having a cell phone."

Review that over the last two weeks the students have explored how articles can inform readers by investigating one or both sides of an issue. Emphasize that it is important when reading articles for readers to ask themselves whether they are finding out about all sides of an issue or not. Encourage the students to notice the author's opinion in their independent reading.

Explain that next week, the students will read and discuss more expository nonfiction.

5 Reflect on Explaining Their Thinking

Help the students reflect on how they did listening and explaining their thinking to the group by asking questions such as:

- Q *What helped you explain your thinking clearly to your group?*
- Q *If you didn't understand something someone else said, what did you do?*

INDIVIDUALIZED DAILY READING

6 Read Independently and Discuss Text Features

Ask the students to notice the text features in their texts and what they are learning from the features as they read independently today. Tell the students that at the end of IDR you will ask them to share with the class what text features they noticed and what they learned from the features. Have the students get their texts and read silently for up to 30 minutes. After the students have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share with the class. Have each volunteer begin by telling the title of the text he read, the author’s name, and what the text is about. Then have him share a text feature he noticed and what he learned from the text feature.

Have students who did not notice a text feature talk about what they learned from their reading today. Have the students return to their desks and put away their texts.

EXTENSION

Research and Write an Article on Cell Phones for Kids

Remind the students that they read the article “Do Kids Really Need Cell Phones?” earlier. Have the students reread the article and generate questions they have for the author, and then have them conduct research to answer their own questions. Then, you might have the students work in pairs or groups to write an article expressing either the same or the opposing opinion, based on their research. Most library cards give students access to searchable research and periodical databases. Consult with your local librarian or visit your local library’s website to find out more.

Vocabulary Note

Next week you will revisit “All-girls and All-boys Schools: Better for Kids” and “Do Kids Really Need Cell Phones?” to teach the Week 18 vocabulary lessons.

All-girls and All-boys Schools Better for Kids

Out in the world, males and females live, work, and interact with one another. But at many schools, the classrooms are filled with just boys or just girls. Life isn't separated into male and female sides, so why should schools be?

Together or Apart?

Because male and female students think, learn, and behave differently from one another, it makes sense that they would do better at schools that understand these differences. Research has shown that students at all-boys or all-girls schools are more confident and more willing to try new things, and that they might even perform better academically than students at coeducational schools.

Different Brains, Different Gains

You might not realize it, but your brain develops differently from the brain of a classmate of the opposite sex. For example, the area of a girl's brain that understands language is one of the first areas to develop. In a boy's brain, other areas develop first, such as the part that makes sense of math. Because of differences like these, males and females learn various subjects in different ways.

An all-boys or all-girls school can focus its instruction to meet the needs of either male or female students, not both at the same time. This helps students make faster, stronger progress. For example, one Michigan study compared graduates of all-boys and all-girls high schools with graduates of coeducational

In 1972, a new law came into effect stating that all U.S. public schools should be coeducational. However, the law was changed in 2006 to allow all-boys and all-girls public schools.

high schools. The researchers found that male students in all-boys schools scored better in reading and writing than male graduates of coeducational schools. Likewise, female students in all-girls schools scored better in science and reading than their female peers in coed schools.

Positive Proof in Test Results

In 2008, researchers in Florida found that students in all-boys and all-girls classrooms made greater academic gains: 55 percent of boys in coed classrooms scored proficient (at or above a passing level), while 85 percent in all-boys classrooms scored proficient. Girls also saw gains: 59 percent of girls in coed classrooms scored proficient, while 75 percent in all-girls classrooms scored proficient.

In England, researchers at Cambridge University did a four-year study on the different ways that boys and girls learn. The researchers found that all-boys and all-girls classrooms were remarkably effective at boosting boys' performance, particularly in English and foreign languages, as well as improving girls' performance in math and science.

Building Confidence

Supporters of all-boys and all-girls classrooms argue that the students are less distracted in

those environments. This makes it easier for all students to focus on their lessons.

Students who feel shy around people of the opposite sex could benefit the most from all-boys or all-girls schools. Without the pressure of worrying about how they might look to members of the opposite sex, they can feel free to be themselves. For example, they might explore subjects they wouldn't normally explore and join clubs or sports teams. Shy students are likely to feel more comfortable in an all-boys or all-girls class, so they're more likely to feel enthusiastic about speaking up in class, asking questions, and participating in class discussions.

Many people argue that an all-boys or all-girls education could make it more difficult for young people to learn how to relate to members of the opposite sex. It's true that we live in a world where males and females live and work with one another and are not segregated as in all-boys or all-girls schools. But many graduates of these schools say that they feel confident not only about their academic abilities, but also about their personalities. And this confidence can give graduates a head start in building friendships with the opposite sex.

An Increasingly Popular Option

All-boys and all-girls classes and schools are gaining favor across the United States. In 2002, only a dozen or so public schools in the United States offered this option. In 2012, there were around 500 all-girls and all-boys schools. School districts, parents, and students are increasingly getting on board with all-boys and all-girls education as a great way to boost students' scores and confidence.

Shy students may feel happier about participating in an all-boys or all-girls class. Taking part in classroom discussions helps them get more out of the lesson.

Do Kids Really Need Cell Phones?

There are nearly seven billion cell phones in use worldwide—and the trend has caught on among eight- to twelve-year-olds. With bright colors and catchy ringtones, cell phones are hard for young people to resist.

But why does a person as young as eight years old need a cell phone? He or she is likely to come up with a list of reasons, including “All my friends have them.” However, for very young kids, there are many benefits to having cell phones beyond the obvious “cool” factor.

Cell Phones Are a Lifeline

In an emergency, a cell phone can be indispensable. Cell phones allow children to dial 911 or call their parents if there is an accident or emergency. Also, cell phones allow children to stay in contact with family. Children, parents, and other caregivers are often in different places throughout the day, and things often don’t go as expected. For example, if soccer practice ends early or a parent is stuck in traffic, a cell phone can let everyone know how plans have changed.

As the lives of families become more and more hectic, the number of students who are alone after school is increasing. Today, the number of children in the United States with mothers in the labor force is around 70 percent. This means that many students are at home alone after school. It is more important than ever to have a way of keeping in touch with family—and a way of getting help in an emergency.

Cell phones can help the day run smoothly by keeping family members in touch with one another.

Cell Phone Use Is Easy to Limit

Many people worry that cell phones put young children in danger. Bullies or even criminals might use the phones to contact children, and the Internet access on many cell phones puts children even more at risk. There is also the chance that children would run up high cell phone charges.

However, many cell phones now have parental controls. For example, it's possible to place limits on who can call and be called with some phones, and parents can limit or block Internet access on phones. Most cell phones have a Global Positioning System (GPS) so that parents can find their child easily using another cell phone or a website.

Parents can also opt for a prepaid plan so that their children can't go over spending limits but can still call their parents if they need to. Features like these make it possible for children to get the benefits of cell phone use without the risks.

Cell Phones Promote Familiarity with Technology

Today, many jobs are dependent on cell phones and similar devices. Mobile devices such as cell phones have become just as important as the computer has been in the last 20 years. One way to ensure that young people are familiar with this technology is to allow them to use cell phones now.

Students can use a cell phone for more than just text messaging and talking. For example, cell phones can be helpful when doing schoolwork. On most cell phones, students can check the Internet for definitions and spellings of tricky words, take photos and make short videos for school projects, and listen to audiobooks. Carrying out a variety of tasks using cell phones can help

Workplaces around the world are becoming more and more reliant on technology.

boost young people's confidence around technology—and, in turn, help them feel confident when they grow up and begin working.

Cell Phones Teach Responsibility

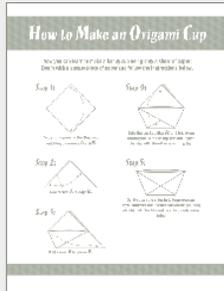

Owning a tool such as a cell phone can be a great way for children to learn responsibility. Because cell phones are valuable and can be used in different ways, children must learn to use them wisely—for example, making sure they don't lose them, keeping them charged, and using them only when they are not in school. These things help young people learn to treat personal possessions with care. Learning responsibility in this way helps children to respect other people's belongings, too.

An Unstoppable Trend

Researchers say that about 56 percent of American preteens have cell phones. If young children don't already own cell phones, it's likely that they will in the future. The best way for young people to benefit from this technology when they grow older is to learn to use it responsibly today.

Week 3

OVERVIEW

“How to Make an Origami Cup”

(see page 438)

This functional text is a set of step-by-step instructions for making a cup using the paper-folding art of origami.

A table showing the Blue Line Train Schedule. It lists routes from Union St. to Redwood Center and from Redwood Center to Union St. The table includes columns for station, arrival time, and departure time.

Union St. to Redwood Center			
Station	Arrival	Departure	Notes
Union St.	7:00 AM	7:00 AM	
1st St.	7:05 AM	7:05 AM	
2nd St.	7:10 AM	7:10 AM	
3rd St.	7:15 AM	7:15 AM	
4th St.	7:20 AM	7:20 AM	
5th St.	7:25 AM	7:25 AM	
6th St.	7:30 AM	7:30 AM	
7th St.	7:35 AM	7:35 AM	
8th St.	7:40 AM	7:40 AM	
9th St.	7:45 AM	7:45 AM	
10th St.	7:50 AM	7:50 AM	
11th St.	7:55 AM	7:55 AM	
12th St.	8:00 AM	8:00 AM	
13th St.	8:05 AM	8:05 AM	
14th St.	8:10 AM	8:10 AM	
15th St.	8:15 AM	8:15 AM	
16th St.	8:20 AM	8:20 AM	
17th St.	8:25 AM	8:25 AM	
18th St.	8:30 AM	8:30 AM	
19th St.	8:35 AM	8:35 AM	
20th St.	8:40 AM	8:40 AM	
21st St.	8:45 AM	8:45 AM	
22nd St.	8:50 AM	8:50 AM	
23rd St.	8:55 AM	8:55 AM	
24th St.	9:00 AM	9:00 AM	
25th St.	9:05 AM	9:05 AM	
26th St.	9:10 AM	9:10 AM	
27th St.	9:15 AM	9:15 AM	
28th St.	9:20 AM	9:20 AM	
29th St.	9:25 AM	9:25 AM	
30th St.	9:30 AM	9:30 AM	
31st St.	9:35 AM	9:35 AM	
32nd St.	9:40 AM	9:40 AM	
33rd St.	9:45 AM	9:45 AM	
34th St.	9:50 AM	9:50 AM	
35th St.	9:55 AM	9:55 AM	
36th St.	10:00 AM	10:00 AM	
37th St.	10:05 AM	10:05 AM	
38th St.	10:10 AM	10:10 AM	
39th St.	10:15 AM	10:15 AM	
40th St.	10:20 AM	10:20 AM	
41st St.	10:25 AM	10:25 AM	
42nd St.	10:30 AM	10:30 AM	
43rd St.	10:35 AM	10:35 AM	
44th St.	10:40 AM	10:40 AM	
45th St.	10:45 AM	10:45 AM	
46th St.	10:50 AM	10:50 AM	
47th St.	10:55 AM	10:55 AM	
48th St.	11:00 AM	11:00 AM	
49th St.	11:05 AM	11:05 AM	
50th St.	11:10 AM	11:10 AM	
51st St.	11:15 AM	11:15 AM	
52nd St.	11:20 AM	11:20 AM	
53rd St.	11:25 AM	11:25 AM	
54th St.	11:30 AM	11:30 AM	
55th St.	11:35 AM	11:35 AM	
56th St.	11:40 AM	11:40 AM	
57th St.	11:45 AM	11:45 AM	
58th St.	11:50 AM	11:50 AM	
59th St.	11:55 AM	11:55 AM	
60th St.	12:00 PM	12:00 PM	

“Blue Line Train Schedule”

(see page 440)

This functional text presents scheduling and fare information for a metropolitan train route.

A calendar for the Ashton Hammerheads for September 2015. The calendar shows the days of the week and the dates, with game times and locations listed for each day.

Day	Date	Game	Time	Location
Monday	7/9	vs. [Team]	7:00 PM	[Location]
Tuesday	7/10	vs. [Team]	7:00 PM	[Location]
Wednesday	7/11	vs. [Team]	7:00 PM	[Location]
Thursday	7/12	vs. [Team]	7:00 PM	[Location]
Friday	7/13	vs. [Team]	7:00 PM	[Location]
Saturday	7/14	vs. [Team]	7:00 PM	[Location]
Sunday	7/15	vs. [Team]	7:00 PM	[Location]
Monday	7/16	vs. [Team]	7:00 PM	[Location]
Tuesday	7/17	vs. [Team]	7:00 PM	[Location]
Wednesday	7/18	vs. [Team]	7:00 PM	[Location]
Thursday	7/19	vs. [Team]	7:00 PM	[Location]
Friday	7/20	vs. [Team]	7:00 PM	[Location]
Saturday	7/21	vs. [Team]	7:00 PM	[Location]
Sunday	7/22	vs. [Team]	7:00 PM	[Location]
Monday	7/23	vs. [Team]	7:00 PM	[Location]
Tuesday	7/24	vs. [Team]	7:00 PM	[Location]
Wednesday	7/25	vs. [Team]	7:00 PM	[Location]
Thursday	7/26	vs. [Team]	7:00 PM	[Location]
Friday	7/27	vs. [Team]	7:00 PM	[Location]
Saturday	7/28	vs. [Team]	7:00 PM	[Location]
Sunday	7/29	vs. [Team]	7:00 PM	[Location]
Monday	7/30	vs. [Team]	7:00 PM	[Location]
Tuesday	7/31	vs. [Team]	7:00 PM	[Location]

“Ashton Hammerheads Schedule for September 2015”

(see page 439)

This functional text presents a schedule in a calendar format for a professional sports team.

A poster for Frontier Fun Park. It features the park's logo and a list of ticket prices for single-day passes and one-week passes. The poster also includes information about the park's location and hours of operation.

Pass Type	Price
Single-Day Pass	\$15.00
One-Week Pass	\$75.00

“Frontier Fun Park”

(see page 441)

This functional text gives individual and family ticket prices for an amusement park.

Online Resources

Visit the CCC Learning Hub (cclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA3

Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “IDR Conference Notes” record sheet (CN1)

Professional Development Media

- “Creating Audio and Video in the Classroom” tutorial (AV50)

Comprehension Focus

- Students analyze how the information in functional texts is organized.
- Students identify what they learn from functional texts.
- Students explore how functional texts inform readers.
- Students use two functional texts to solve problems.
- Students read independently.

Social Development Focus

- Students work in a responsible way.
- Students listen respectfully to the thinking of others and share their own.

Ⓜ DO AHEAD

- ✓ Prior to Day 4, collect a variety of functional texts for the students to examine and read (see Step 2). You will be asking the students to bring in functional texts from outside the classroom (see Day 1, Step 4). The texts you collect can be used by students who do not bring functional texts to school.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA3); see page 97 of the *Assessment Resource Book*.
- ✓ (Optional) Prior to Day 4, you might have English Language Learners tell you about what information is included in their functional texts to help them prepare for sharing about their texts in their groups.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 18 lessons this week.

Materials

- “How to Make an Origami Cup” (see page 438)
- “Functional Texts” chart (WA1)
- *Student Response Book* page 54

In this lesson, the students:

- Hear, read, and discuss a functional text
- Analyze how the information in the text is organized
- Identify what they learn from the text
- Read independently for up to 30 minutes
- Work in a responsible way

1 Get Ready to Work Together

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that in the last two weeks they have been working on taking responsibility for themselves as they work in pairs and in small groups. Ask and briefly discuss:

Q *What is one thing you like about working with a partner?*

Q *How can you be responsible as you work with others this week?*

Encourage the students to notice how they take responsibility for their behavior and learning.

2 Review Articles and Introduce Functional Texts

Review that this year the students have heard and read different kinds of expository nonfiction. Review that in the last two weeks they read articles and thought about how articles can be organized to inform readers. Ask and briefly discuss:

Q *What did you find out about how authors can organize articles to inform readers?*

Explain that this week the students will explore another kind of expository nonfiction, *functional texts*. Explain that functional texts help people learn how to do things, get from one place to another, and complete everyday tasks (jobs), such as buying groceries and paying bills. Some examples of functional texts are lists, recipes, menus, game directions, and schedules.

Direct the students’ attention to one or two functional texts in the classroom. Then display the “Functional Texts” chart (WA1) and ask:

Q *What other functional texts do you see in our classroom? Turn to your partner.*

Teacher Note

Other examples of functional texts are tickets, bills, receipts, calendars, and nutritional labels on food wrappers.

Have a few volunteers point out the functional texts they noticed. As they share, record on the chart the functional texts they mention. Briefly discuss how each functional text is helpful.

Students might say:

- "I see the 'Reading Comprehension Strategies' chart. Having the comprehension strategies posted reminds us to use them while we are reading."
- "The calendar for the cafeteria tells us what's for lunch. We can find out if we want to eat the school lunch on a certain day."
- "The map on our bulletin board lets us know how to leave the classroom if there is a fire."

Explain that later in the week the students will explore functional texts they find outside the classroom. Today and tomorrow they will look at several functional texts written to help them understand how functional texts are organized.

3 Read Aloud and Discuss "How to Make an Origami Cup"

Have the students turn to *Student Response Book* page 54, "How to Make an Origami Cup." Read the title aloud and explain that these are instructions for making a cup out of folded paper. Explain that a set of instructions for making something or putting something together is a type of functional text.

Ask the students to follow along as you read "How to Make an Origami Cup" aloud slowly and clearly, giving the students a moment to look at the diagram for each step before reading the next step.

Suggested Vocabulary

diagonal: an imaginary line connecting two opposite corners of a four-sided shape

 Give pairs a few moments to look over the instructions together. Then ask:

 **Q** *What makes these instructions easy to understand? Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

- "The steps are numbered so you know what to do first."
- "The instructions have pictures so you know how it's supposed to look as you're folding."
- "In addition to what [Samit] said, there are arrows showing which way to fold the paper."

ELL Note

English Language Learners will benefit from previewing the functional texts before you read them aloud to the class. You might summarize the purpose of and information communicated by each functional text and point out and explain organizational features such as titles, diagrams, and legends.

Teacher Note

If the students have difficulty coming up with ideas, offer some examples such as recipes, menus, online maps with directions, schedules, TV program listings, utility bills, game directions, sheet music, brochures, flyers, how-to manuals, report cards, food wrappers, business cards, tickets, and receipts.

ELL Note

Encourage your English Language Learners to collect functional texts in their primary languages.

Teacher Note

Save the “Functional Texts” chart (WA1) to use on Days 2 and 4.

Point out that often instructions are organized into numbered steps and contain labeled diagrams to make them easy for readers to follow.

4 Brainstorm and Prepare to Collect Functional Texts

Explain that later in the week the students will bring functional texts to school and discuss the texts. Briefly review the “Functional Texts” chart and then use “Think, Pair, Share” to discuss:

Q *What other functional texts can you think of that you might find at home, in the newspaper, or in other places outside of school? [pause] Turn to your partner.*

Have a few volunteers share, and record their answers on the “Functional Texts” chart.

Ask the students to each collect two or three functional texts at home or elsewhere outside the school, and tell them when they will be expected to bring the functional texts to school (see “Do Ahead”). Remind them to ask permission to bring in functional texts that do not belong to them.

Explain that tomorrow the students will look at two functional texts and talk about how they are organized.

5 Reflect on Taking Responsibility

Ask and briefly discuss:

Q *What did you do to act in a responsible way when you worked with your partner today? Why is that important to do?*

INDIVIDUALIZED DAILY READING

6 Read Independently and Discuss What the Students Learn

Tell the students that this week during IDR they will read functional texts or other expository texts. Ask them to think about what they learn from the texts. Tell them that at the end of IDR you will ask them to share what they learned with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer share the title of her text, the author’s name (if there is one), what the text is about, how the text is organized, and what she learned from the text. Then have the students return to their desks and put away their texts.

EXTENSION

Make Origami Cups

Distribute an 8" x 8" paper square to each student. Have the students make origami cups using the instructions on *Student Response Book* page 54. Consider having them test their cups to see if the cups hold water. When the students have finished making their cups, facilitate a class discussion using questions such as:

- Q *Were the instructions easy to follow and understand? Why or why not?*
- Q *If you had trouble making your cup, what was it about the instructions that made it challenging?*
- Q *How could the author have made these instructions easier to use?*

TECHNOLOGY EXTENSION

Create a Video About How to Make an Origami Cup

You might have the students create a video showing how to make an origami cup using the instructions on *Student Response Book* page 54. Have the students explain what they are doing in each step.

Have the class watch the how-to video, and then read aloud the written instructions for how to make an origami cup on page 438 as the students follow along on *Student Response Book* page 54. Facilitate a discussion

Technology Tip

Prior to doing this activity, you might wish to view the “Creating Audio and Video in the Classroom” tutorial (AV50).

Day 2

Read-aloud/ Guided Strategy Practice

Materials

- “Ashton Hammerheads Schedule for September 2015” (see page 439)
- “Blue Line Train Schedule” (see page 440)
- “Functional Texts” chart (WA1) from Day 1
- *Student Response Book* pages 55–56

about the similarities and differences between the video and the written instructions. Ask questions such as:

- Q *How is watching how to do something [the same as/different from] reading how to do something?*
- Q *Which set of instructions would you prefer to use? Why?*
- Q *If we were to make the video again, how might we improve it?*

In this lesson, the students:

- Hear, read, and discuss two functional texts
- Analyze how the information in the texts is organized
- Identify what they learn from the texts
- Explore how the texts inform readers
- Use the texts together to solve problems
- Read independently for up to 30 minutes
- Work in a responsible way

1 Review Functional Texts

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Display the “Functional Texts” chart (WA1) from Day 1 and remind the students that yesterday they noticed functional texts in the classroom and brainstormed about functional texts they might find outside the classroom. They also looked at a functional text—instructions for making an origami cup—and thought about how it was organized to give readers information. Explain that today the students will look at two more functional texts.

2 Read Aloud and Discuss “Ashton Hammerheads Schedule for September 2015”

Have the students turn to *Student Response Book* page 55, “Ashton Hammerheads Schedule for September 2015,” and explain that the students will look at another kind of functional text. Read the title aloud and explain that this is a game schedule for a professional baseball team. Explain that schedules are often presented as calendars to help readers find the information they want quickly.

Direct the students' attention to the legend, and explain that a *legend* (also sometimes referred to as a *key*) tells what the different symbols or features used in a functional text mean. The legend on this schedule includes the symbols for different game promotions and also explains the color-coding, or shading, used for home and away games. Explain that symbols and legends are often found in functional texts because they give readers extra information without making the page too crowded.

Ask the students to follow along as you read and think aloud about a few of the days from "Ashton Hammerheads Schedule for September 2015." Refer to the legend and other information at the bottom of the page as necessary. Clarify vocabulary as needed.

Suggested Vocabulary

raffle: game in which one person's ticket is picked randomly out of all the tickets and that person wins a prize

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

fans: people who go to see a team play

away game: game played away from the team's home city or home baseball park

You might say:

"The legend at the bottom of the page shows that the dark green boxes are home games and the light green boxes are away games. Looking at Tuesday, September 1, I can tell that the team is playing a home game that day because the color of the box is dark green. Looking at Wednesday, September 2, I notice that there's a time of 12:30 p.m. listed. Why is there a time listed for this game but not for the one on September 1? I notice that at the bottom of the page it says, 'All games begin at 6:00 p.m. unless otherwise indicated.' The reason there's a time listed on September 2 is that the game starts at 12:30 p.m. instead of 6:00 p.m. So that means the September 1 game starts at 6:00 p.m. because there's no time listed. The box for Thursday, September 3, is blank and white, so that tells me there is no game on that day."

When you are finished, give the students a few moments to reread the schedule silently to themselves. Then briefly discuss, first in pairs and then as a class:

Q What information does this schedule give you? Turn to your partner.

Q What makes this schedule easy to use? Turn to your partner.

Have a few volunteers share their thinking.

Teacher Note

If the students have difficulty answering the questions, have them work in pairs before discussing the answers as a class. Circulate and offer support as necessary.

Students might say:

"The title has the month in it, so you know all these games are in September."

"You can tell right away from the colors if it's a home or away game."

"The picture of the cap means that you might get a free hat if you go to that game."

"It says at the bottom that tickets are \$25. So no matter what game you go to or how old you are, it's \$25 for each ticket."

Point out that the title, the legend, and the color-coding or shading help make it easy for readers to understand the schedule.

3 Use and Analyze the Schedule

Help the students explore how a reader might use the schedule by asking and briefly discussing as a class questions such as:

- Q *If you want to go to a game in the afternoon and get a free T-shirt, which game could you go to? How do you know that?*
- Q *Do the Hammerheads have more home or away games in September? How do you know that?*
- Q *If you want a chance to win tickets to the League Championship, which game should you go to? How do you know that?*

Students might say:

"If you wanted to go to an afternoon game and get a free T-shirt, you could go to the game on September 13. I know that because that game starts at 12:00 p.m. and it's the only game on the schedule that includes a free T-shirt."

"The Hammerheads have more home games than away games in September. There are 13 days that are dark green—those are home games. There are only 12 days that are light green—those are away games."

"If you want to enter the League Championship raffle, you should go on September 2 because the picture of a ticket on that day means you get to enter the raffle if you go to that game."

"In addition to what [Pepa] said, you could also enter the raffle if you go on September 29. There's a picture of a ticket on that day, too."

4 Read Aloud and Discuss "Blue Line Train Schedule"

Explain that next the students will look at a schedule that is organized differently. Have the students turn to *Student Response Book* page 56, "Blue Line Train Schedule." Read the title aloud and explain that this is a schedule for trains that travel between a station called Jackson Street and one called Rockville Center. Direct the students' attention to the bottom of the page and explain that there is information there about the train schedule and the price of tickets.

Ask the students to follow along as you read and think aloud about a few of the features on “Blue Line Train Schedule.” Refer to the legend as necessary.

ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

St.: short way to write *Street* when used as part of a street name, such as “Jackson Street”

arrive: get to a place

depart: leave from a place

Ave.: short way to write *Avenue* (another word for a street) when used as part of a street name, such as “Oakland Avenue”

A.M. trains: trains that arrive or depart between midnight and noon

P.M. trains: trains that arrive or depart between noon and midnight

round-trip: travel from one place to another place and then back again

You might say:

“I notice there are two sections of the schedule, one for trains that run from Jackson Street to Rockville Center and one below that for trains that run the other direction, starting at Rockville Center and ending at Jackson Street. The column on the left says ‘Station Name.’ So the names listed under that heading are names of stations, like ‘Jackson Street station’ and ‘23rd Street station.’ The next two columns have the headings ‘Train 1’ and ‘Train 2.’ That means there are two trains each day going this direction on this line.”

When you are finished, give the students a few moments to reread the schedule silently to themselves. Then ask:

Q *What other information does this schedule give you? Turn to your partner.*

Q *Is the information in the schedule easy to find and understand? Why or why not? Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

“You can see what time a train arrives at a station and what time it departs for the next station. It looks like the train stops for 5 minutes at each station.”

“There’s a column called ‘Station Notes.’ It looks like this column shows important places that are near those stations.”

“By looking at the ticket prices information at the bottom of the schedule, you can figure out ahead of time exactly how much money you’ll need to ride the train.”

Teacher Note

If the students have difficulty answering the questions, have them work in pairs before discussing the answers as a class. Circulate and offer support as necessary.

5 Use and Analyze the Schedule

As a class, discuss questions such as:

- Q *If you live in the Jackson Street Apartments and you want to go to meet a friend at Fruitvale Mall at 2:30 p.m., what train could you take?*
- Q *If you get on the train at 23rd Street and get off at Broadway/34th Street, how much will it cost you?*
- Q *If you buy a round-trip ticket to go from Jackson Street to Oakland Avenue and then back to Jackson Street, how much will it cost you? How did you figure that out?*

6 Use Both Schedules to Solve Problems

Point out that Rockville Center, which is one of the stops on the train schedule, is where Hammerhead Stadium, the home of the Ashton Hammerheads, is located. Help the students explore how a reader might use the schedules together to attend baseball games by asking and discussing as a class questions such as:

- Q *If you wanted to go to the game on September 19, which train would you take, Train 1 or Train 2? How do you know that?*
- Q *If you wanted to go to the game on September 13 and you got on Train 1 at 23rd Street, would you arrive at the stadium in time? How do you know that?*
- Q *Could you take a train on the Blue Line to see the Hammerheads play against the Hudson Hackers on a weekday? How do you know that?*

Students might say:

"To go to the game on September 19, you need to take Train 1. The game starts at 1:00 p.m. If you take Train 1, you'll get there by 12:30 and have enough time to get your seat. If you take Train 2, you won't get there till way after the game has started."

"If you want to go to the game on September 11 and you live near the 23rd Street station, you could get on the train at either 11:45 a.m. or 1:55 p.m."

"I agree with [Derek] that either train would get you there in time, but if you take the earlier train you'll be waiting at the stadium for a while because the game doesn't start till 3:00 p.m."

"If you got on Train 1 at 23rd Street to go to the game on September 13, you won't get to the game on time because the train arrives at the stadium at 12:30 p.m. and the game starts at 12:00 p.m."

"You couldn't take the train on the Blue Line to see the Hammerheads play the Hackers because it's an away game."

Review that over the past two days the students have discussed three different functional texts. Explain that because each gives different information, each is organized in a different way to help the reader make sense of it. The train schedule is organized as two charts, one

for each direction the train travels in. The game schedule is organized as a calendar. Both schedules include legends and color-coding to help readers find information quickly and make decisions. The origami cup instructions are organized into numbered steps and include labeled diagrams to help readers make the cup more easily. Tell the students that reading functional texts carefully and noticing how they are organized helps readers understand and use them more easily.

INDIVIDUALIZED DAILY READING

7 Read Independently and Think About How Texts Are Organized

Remind the students that this week during IDR they are reading functional texts or other expository texts. Ask the students to think about how the texts are organized or how text features are used to help readers learn information. Tell the students that at the end of IDR you will ask them to share what they noticed with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share what they read with the class. Have each student tell the title of his text, the author’s name (if there is one), and what the text is about. Then have each student share how the text is organized or a text feature he used to learn information. Have the students return to their desks and put away their texts.

Teacher Note

If *schedules* and *instructions* are not listed on the “Functional Texts” chart (WA1), add them. Save the “Functional Texts” chart to use on Day 4.

TEKS 10.B.i
Student/Teacher Activity
Step 7

EXTENSION

Use the Schedules to Solve More Problems

You might have the students further explore how a reader might use “Ashton Hammerheads Schedule for September 2015” and “Blue Line Train Schedule” by asking and discussing as a class questions such as:

- Q *If you plan to take the train from Jackson Street station to Rockville Center to see the Hammerheads play the Winston Bears and you can only go on a weekend day, which of the games could you go to? How do you know that?*
- Q *If you want to receive a free baseball cap and you can only go to a Sunday game, which game would you go to? If you took a Blue Line train from the Oakland Avenue station to that game, what time would you get on the train? How do you know that?*
- Q *If you live near the 23rd Street station and plan to take a Blue Line train to a game at Hammerhead Stadium and then back home again, how much will the event cost, including the price of the game plus both train rides?*

Alternatively, you might have pairs or groups of four write their own questions, and then have the class discuss them. Encourage the students to write questions that require the use of both schedules to answer.

Day 3

Read-aloud/ Guided Strategy Practice

Materials

- “Frontier Fun Park” (see page 441)
- *Student Response Book* page 57
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA2)

In this lesson, the students:

- Hear, read, and discuss a functional text
- Analyze how the information in the text is organized
- Identify what they learn from the text
- Explore how the text informs readers
- Read independently for up to 30 minutes and write in their reading journals
- Work in a responsible way

1 Review Functional Texts

Have the students bring their *Student Response Books* and pencils and gather with partners together, facing you. Review that during the last two days the students looked at three examples of functional texts—instructions for making an origami cup, a baseball team schedule, and a train schedule—and they thought about how the texts give readers

information. They also practiced solving problems using the schedules. Ask and briefly discuss:

Q *What helps make the information in the origami cup instructions easy to understand and use? The information in the baseball team schedule? The train schedule?*

Students might say:

"The origami instructions have steps to follow."

"The Ashton Hammerheads schedule is a calendar, so you can find days right away."

"The train schedule has one section for trains going in one direction and another section for trains going in the opposite direction."

"In addition to what [Tamiko and Clark] said, both schedules use colors and legends to help you find the information you need."

Explain that today the students will read another functional text and think about how it is organized to inform readers.

2 Introduce "Frontier Fun Park"

Have the students turn to *Student Response Book* page 57, "Frontier Fun Park," and explain that this is an example of a ticket price list from an amusement park. Point out that the list is divided into sections for single-day and one-week passes to Frontier Fun Park and that there are passes for individual people and for families. Give the students a moment to look over the price list. Ask and briefly discuss:

Q *How might this list help someone who is buying tickets?*

3 Read Aloud and Discuss "Frontier Fun Park"

Have the students follow along on *Student Response Book* page 57 as you read "Frontier Fun Park" aloud slowly and clearly. Clarify vocabulary as you read.

Suggested Vocabulary

attractions: rides or other activities

consecutive: in a row

highest priority: most important thing

liable: legally responsible

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

thrilling: exciting

discount on all purchases: lower price for everything a person buys

Teacher Note

If the students have difficulty recalling what they noticed, have them refer to the functional texts on *Student Response Book* pages 54-56.

Facilitation Tip

Continue to focus on **responding neutrally with interest** during class discussions by refraining from overtly praising or criticizing the students' responses. Instead, build the students' intrinsic motivation by responding with genuine curiosity and interest, for example:

- "Say more about that."
- "Explain your thinking further."
- "You have a point of view that's [similar to/different from] what [Roy] just said. How is it [similar/different]?"
- "Do you agree or disagree with [Katie]? Why?"
- "What questions do you have for [Katie] about her thinking?"

Teacher Note

If the students have difficulty answering the questions, have them work in pairs before discussing the answers as a class. Circulate and offer support as necessary.

Briefly discuss, first in pairs and then as a class:

- Q** *What information does this functional text give readers? Turn to your partner.*
- Q** *What makes it easy to use? Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

"Each kind of pass has a name that tells what it is."

"It has a section for single-day passes and another section for one-week passes."

"The adult and kid prices are in columns, so they are easy to read."

"The information about the roller coaster helps because if you are under 4 feet you shouldn't buy a Pine Mountain pass."

If necessary, point out that the names for the different kinds of tickets, the columns, the sections, and the descriptions of Pine Mountain and of each type of pass help organize the information in this functional text so readers can understand and use it.

4 Use and Analyze "Frontier Fun Park"

Help the students explore how a reader might use the ticket price list by asking and briefly discussing questions such as:

- Q** *How much would it cost for two adults who want to ride the Pine Mountain roller coaster to go to Frontier Fun Park for one day if they don't have children with them? How do you know that?*
- Q** *One adult and three children want to go to Frontier Fun Park for one day. The adult doesn't want to ride the Pine Mountain roller coaster, but the children do. How much will their tickets cost? How do you know that?*
- Q** *If a family of two adults and two children wants to go to the park for two days, is it less expensive for them to get a one-day family pass each day or to get a one-week family pass? What about if they want to go to the park for three days? How do you know that?*

Students might say:

"The one-day Pine Mountain pass costs \$50. It's two of those, so \$100."

"It will cost \$160 because it's \$40 for the adult plus 3 times \$40 for the kids."

"If the family goes for two days, it's cheaper to get a one-day family pass each day. But if the family is going for three days, the one-week family pass costs less than three one-day family passes."

Facilitate a class discussion about how the functional text informs readers. Ask questions such as:

- Q *How does this functional text help readers make decisions about which tickets to buy?*
- Q *Do you think it includes enough information to help readers make decisions? Why or why not?*

Students might say:

"You can find out how much different kinds of tickets will cost."

"In addition to what [Margot] said, you can compare how much different kinds of tickets cost. Then you know which ones are the cheapest to buy."

"It helps readers make decisions because they know what is included with each ticket."

"I disagree with what [Roberto] said. It tells you what's included with different tickets, but you might not know if you're going to buy anything at the Frontier Cabin Outdoor Superstore. You don't know how much money you will save."

Briefly review the four examples of functional texts the students have read and analyzed over the past few days. Point out that functional texts don't always answer all the questions readers have. Emphasize that it is important for readers to read functional texts carefully and ask themselves whether the texts include all the information they need.

Explain that tomorrow the students will share functional texts they collected from outside the classroom and discuss how they are organized to give readers information. Remind them to bring the functional texts they have collected to school.

INDIVIDUALIZED DAILY READING

5 Think About How Texts Are Organized and Write in Reading Journals

Remind the students that this week during IDR they are reading functional texts or other expository texts. Ask the students to think as they read about how the texts are organized or how text features are used to help readers learn information. Tell the students that at the end of IDR you will ask them to write in their reading journals about what they noticed. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

TEKS 9.D.vi
TEKS 10.B.i
Student/Teacher Activity
Step 5

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students return to their desks and open their *Student Response Books* to the Reading Journal section. Then display the “Journal Entry” chart (WA2) and explain that today each student will write a journal entry. Also explain your expectations for what the journal entry should include.

WA2

Journal Entry

Write a journal entry about the text you are reading.

Please include:

- What kind of text you are reading (functional or expository nonfiction)
- What the text is about or the purpose of the text
- What you notice about how the text is organized or how text features are used to help readers learn information

Ask the students to think quietly about what they will write about. After a moment, have the students take turns sharing with a partner what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

In this lesson, the students:

- Examine functional texts independently
- Share the texts with classmates
- Identify what they learn from the texts
- Explore how the texts inform readers
- Listen respectfully to the thinking of others

1 Review and Get Ready to Work Together

Have the students bring their *Student Response Books*, pencils, and the functional texts they collected outside the classroom and gather in their groups of four, facing you. Review that so far this week the students have read four examples of functional texts and thought about how the functional texts are organized to give readers information. Explain that today the students will share and discuss in their groups the functional texts they collected and continue to think about how functional texts are organized to help readers understand and use them.

Review that the students have been working on acting responsibly when they work in pairs and in groups. Ask and briefly discuss:

Q *How did your group of four act responsibly when you worked together last week?*

Explain that today the students will work in the groups of four they worked with last week. Remind the students that it will be important to listen respectfully when other people share their functional texts with the group. Ask:

Q *What can you do to be respectful when others are sharing their functional texts?*

Have a few volunteers share their thinking. Explain that you will check in with the class later to see how they did.

Students might say:

"I can look at the person who is talking."

"I can listen quietly and not interrupt."

"I can pay attention to what people are saying in case I have questions."

Materials

- Variety of functional texts, which the students and you have collected ahead
- "Questions About Functional Texts" chart (WA3)
- "Class Assessment Record" sheet (CA3)
- "Functional Texts" chart (WA1) from Day 2

Teacher Note

Distribute the functional texts you have collected to any students who did not bring in their own.

ELL Note

English Language Learners will benefit from telling you about what information is included in their functional texts before they share in their groups. You might also consider providing prompts for your English Language Learners to use when they share their functional texts (for example, “This functional text is called . . .”; “It tells readers . . .”; and “I think it is interesting because . . .”).

2 Share and Discuss Functional Texts in Groups and as a Class

Display the “Questions About Functional Texts” chart (WA3) and read the questions on it. Explain that the students will silently examine the functional texts they have collected, keeping the questions from the chart in mind.

WA3

Questions About Functional Texts

- What information does this functional text give you?
- What makes the functional text easy for readers to understand and use?
- What do you find most interesting about it?

Explain that each student will choose one functional text to share with her group. Explain that the person sharing will briefly explain what the functional text is, what information it includes, what makes it easy for readers to use, and what she finds most interesting about it. Encourage the students to ask one another questions after they share. Remind them to listen respectfully as others in the group share.

Give the students several minutes to work in their groups. Circulate among the groups and listen as they work.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify what they learn from functional texts?
- Are they able to identify how information in functional texts is organized to inform readers?

Record your observations on the “Class Assessment Record” sheet (CA3); see page 97 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify what they learn from functional texts and how information in functional texts is organized to inform readers, proceed with the lesson and continue on to Week 4.
- If **about half of the students** or **only a few students** are able to identify what they learn from functional texts and how information in functional texts is organized to inform readers, you might give the class additional instruction by repeating this week’s lessons using functional texts collected outside of school.

When most groups are finished, signal for the students' attention. Display the "Functional Texts" chart (C WA1) and ask volunteers to share some examples of functional texts with the class. Add any new functional texts to the "Functional Texts" chart.

3 Review the Week and Expository Text

Remind the students that functional texts are expository texts that give readers information and help them function in their everyday lives. Direct the students' attention to the "Functional Texts" chart and review that this week the students explored examples of functional texts in their *Student Response Books* and real-world functional texts from inside and outside the school. Review that reading functional texts carefully and thinking about how they are organized helps readers make sense of them. Encourage the students to continue to notice and think about functional texts in their everyday lives.

Explain that in the coming weeks the students will hear and read an expository text that is similar to a school textbook and think about how it is organized to give readers information.

4 Reflect on Listening Respectfully to Others' Thinking

Ask and briefly discuss questions such as:

- Q *How did it make you feel to have others in your group listen respectfully while you were sharing?*
- Q *How did listening to other people's thinking help you?*

EXTENSION

Create a Functional Texts Bulletin Board

Continue to have the students bring in examples of functional texts. Ask the students to share the texts with the class. Have them point out how their functional texts are organized to inform readers. Have each student glue his functional text to a large sheet of construction paper to create a poster; have the student add labels for the features that help organize the information and make it easy to use. (For example, a menu might be labeled *The menu is divided into appetizers, entrees, and desserts* and *The spicy dishes are marked with a pepper.*) Have the students hang their posters on a class bulletin board.

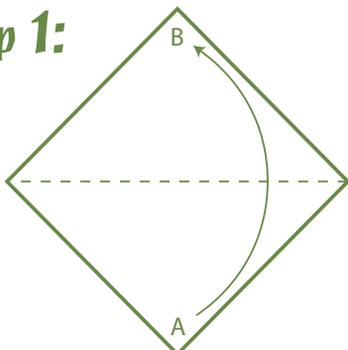

Vocabulary Note

Next week you will revisit "How to Make an Origami Cup," "Ashton Hammerheads Schedule for September 2015," and "Frontier Fun Park" to teach the Week 19 vocabulary lessons.

How to Make an Origami Cup

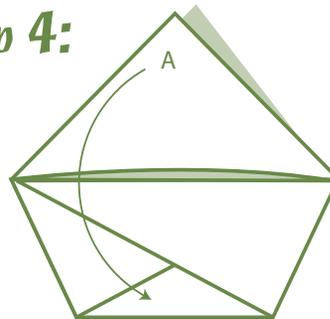

Now you can learn to make a handy cup using only a sheet of paper! Begin with a square piece of paper and follow the instructions below.

Step 1:

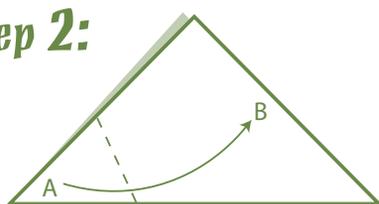

Fold your square on the diagonal, matching up corners **A** and **B**.

Step 4:

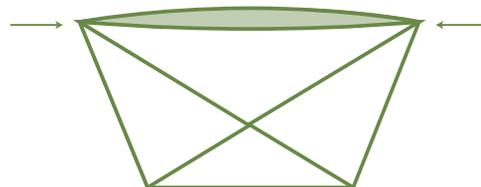

Take the top flap (flap **A**) and fold down toward you. Turn the cup over and repeat the step with the other remaining flap.

Step 2:

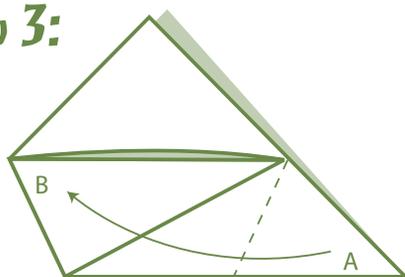

Fold corner **A** to edge **B**.

Step 5:

Gently push the sides in to form your cup. If you followed the instructions above, your cup should look like this and be able to hold water. Enjoy!

Step 3:

Fold corner **A** to corner **B**.

Ashton Hammerheads Schedule for September 2015

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
		1 vs. E.C. Thunder	2 vs. E.C. Thunder 12:30 P.M. 	3	4 vs. Plymouth Bobcats	5 vs. Plymouth Bobcats 12:15 P.M.
6 vs. Plymouth Bobcats	7 vs. Tulsa Knights	8 vs. Tulsa Knights	9 vs. Tulsa Knights 12:30 P.M.	10	11 vs. Winston Bears 3:00 P.M.	12 vs. Winston Bears 
13 vs. Winston Bears 12:00 P.M. 	14 vs. Lake City Buffaloes 7:00 P.M.	15 vs. Lake City Buffaloes 7:00 P.M. 	16 vs. Lake City Buffaloes 1:30 P.M.	17	18 vs. Bridgeport Pirates	19 vs. Bridgeport Pirates 1:00 P.M.
20 vs. Bridgeport Pirates 1:00 P.M. 	21	22 vs. Tri-City Cyclones	23 vs. Tri-City Cyclones	24 vs. Tri-City Cyclones 12:15 P.M.	25 vs. Hudson Hackers 1:00 P.M.	26 vs. Hudson Hackers
27 vs. Hudson Hackers 1:15 P.M.	28	29 vs. Tulsa Knights 2:00 P.M. 	30 vs. Tulsa Knights			

Hammerheads T-shirt day
(free T-shirt for first 1,500 fans)

Hammerheads cap day
(free baseball cap for all fans under age 15)

League Championship ticket raffle
(all fans entered into a drawing for four free tickets to the League Championship game)

= Hammerheads home game

= Hammerheads away game

All games begin at 6:00 P.M. unless otherwise indicated.
All home games are played at Hammerhead Stadium, Rockville Center.

Tickets \$25

Blue Line Train Schedule

Jackson St. to Rockville Center

Station Name	TRAIN 1	TRAIN 2	Station Notes
	Arrive / Depart	Arrive / Depart	
Jackson St.	11:15 / 11:20	1:25 / 1:30	Jackson St. Apartments
23rd St.	11:40 / 11:45	1:50 / 1:55	
Broadway/34th St.	12:00 / 12:05	2:10 / 2:15	Fruitvale Mall

TICKET PRICES:

- One-way ticket: \$1.00 plus \$0.50 per station stop. (Example: Oakland Ave. to 23rd St. is two station stops.)
- Round-trip ticket: \$2.00 plus \$0.25 per station stop. (Please keep your round-trip ticket for your return trip.)

FRONTIER FUN PARK

Home of the **Legendary PINE MOUNTAIN**

At 460 feet, Pine Mountain is the nation's highest roller coaster!
 We think it's the world's greatest, most thrilling roller coaster ever!
 You must be more than 4 feet tall to ride Pine Mountain.

SINGLE-DAY PASSES

	Adult (age 10+)	Child (age 3–9)
1-DAY BASIC PASS Includes entry to all main attractions except for Pine Mountain roller coaster	\$40.00	\$30.00
1-DAY PINE MOUNTAIN PASS Includes entry to all main attractions, including Pine Mountain roller coaster	\$50.00	\$40.00
1-DAY PINE MOUNTAIN FAMILY PASS (Up to 2 adults and 2 children ages 3–9) Includes entry to all main attractions, including Pine Mountain roller coaster		\$140.00
1-DAY PINE MOUNTAIN PLUS FAMILY PASS (Up to 2 adults and 2 children ages 3–9) Includes entry to all main attractions, including Pine Mountain roller coaster, plus a 20% discount on all purchases from the Frontier Cabin Outdoor Superstore		\$160.00

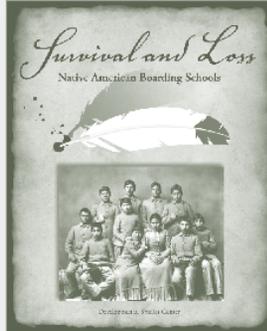

ONE-WEEK PASS

1-WEEK PINE MOUNTAIN FAMILY PASS (Up to 2 adults and 2 children ages 3–9) Includes entry to all main attractions, including Pine Mountain roller coaster, for 7 consecutive days	\$320.00
---	-----------------

Disclaimer:
 The safety of our guests is Frontier Fun Park's highest priority. However, Frontier Fun Park will not be liable for any injuries, damages, or losses that occur in connection with the Fun Park's activities.

Week 4

OVERVIEW

Survival and Loss: Native American Boarding Schools*

In the late 1800s and early 1900s, the U.S. government forcibly educated Native American children at off-reservation boarding schools. This book briefly describes the origin of the schools and looks closely at the impact of school life on the children and on Native American culture at large.

**This book is also used in Week 5.*

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activity

- WA4

Assessment Forms

- “Class Assessment Record” sheet (CA4)
- “IDR Conference Notes” record sheet (CN1)

Reproducible

- (Optional) “First- and Secondhand Accounts of Native American Boarding Schools” (BLM2)

Professional Development Media

- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)
- “Using Web-based Maps and Related Tools” tutorial (AV49)

Comprehension Focus

- Students hear and discuss an expository text.
- Students identify what they learn from an expository text.
- Students read independently.

Social Development Focus

- Students include everyone in and contribute to the group work.
- Students build on one another's thinking during small-group discussions.
- Students explain their thinking.

DO AHEAD

- ✓ Prior to each read-aloud lesson this week, show your English Language Learners the sections of *Survival and Loss: Native American Boarding Schools* that you will be reading. Point out the text features and summarize the information in the text, making sure your students have at least a surface-level understanding of the information.
- ✓ Prior to Day 1, decide which of the students' social studies textbooks you would like them to read this week and next week during IDR. If the textbook you have selected is one that is challenging for your students, plan to read from the textbook aloud with the students before having them read independently. Make sure there are enough copies of the textbook in your classroom for each student to use one during IDR.
- ✓ Prior to Day 4, make a copy of the "Class Assessment Record" sheet (CA4); see page 98 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 19 lessons this week.

Materials

- *Survival and Loss* (pages 2–5)
- “Maps of Native American Land” chart (WA4)
- *Student Response Book* page 58

In this lesson, the students:

- Hear and discuss part of an expository text
- Identify what they learn from the text
- Read independently for up to 30 minutes
- Explain their thinking
- Use discussion prompts in small-group discussions

ABOUT READING TEXTBOOKS

The students spent the first three weeks of this unit analyzing text structure to help them make sense of articles and functional texts, two kinds of expository nonfiction. The focus of the final two weeks of this unit is on analyzing text structure in textbooks. The students hear and read a book written to resemble textbooks the students might read in school. This week the students hear the book read aloud and identify and discuss what they learn from the text. Next week the students will analyze parts of the book in depth and explore three expository text structures commonly used to organize the information in textbooks: sequence, cause/effect, and compare/contrast. This week’s and next week’s lessons on exploring how expository texts are organized lay the foundation for work that the students will do in later grades. Mastery of these concepts is not expected at this point. The goal, as with all of the reading comprehension strategies, is for the students to be able to use the strategy to make sense of their independent reading.

1 Discuss Reading Textbooks

Have the students bring their *Student Response Books* and gather in their groups of four, facing you. Remind the students that they have been reading articles and functional texts and thinking about how expository nonfiction can inform readers. Explain that in the coming weeks the students will look at another kind of expository nonfiction—textbooks—and work in groups and as a class to explore how textbooks are written.

Point out that textbooks are a kind of expository text that the students read often in school. Ask:

- Q *What kinds of textbooks have you been reading this year?*
- Q *What can be hard about reading textbooks?*

Explain that the students will hear a book written in the style of a textbook. They will think about and discuss how textbooks can be

organized to give readers information, and they will use what they learn to help them make sense of their own textbooks. They will also have opportunities to explain their thinking and use discussion prompts in their groups.

2 Introduce *Survival and Loss*

Tell the students that the book you will read aloud over the next few days is titled *Survival and Loss: Native American Boarding Schools*. Show the cover and explain that this is a book written to be similar to textbooks the students read in school.

Explain that *Survival and Loss: Native American Boarding Schools* is about schools built in the late 1800s and early 1900s for children from Native American tribes. If necessary, explain that *Native American* is another term for *American Indian* and that a *boarding school* is a “school where students live away from home.”

To provide historical background, refer to a world map and explain that beginning in the 1400s, people from countries in Europe began traveling to North America by boat, looking for new land and opportunity. As greater numbers of settlers came to North America, life became more and more difficult for Native Americans. Many Native Americans died from diseases the settlers brought from Europe and from the destruction of their way of life. Those who were left had less and less land to live on.

By the mid-1800s, all of the Native American tribes in the United States had been forced to live on *reservations*, or “small areas of land set aside by the U.S. government.” Display the “Maps of Native American Land” chart (C WA4) and draw the students’ attention to the differences in the amount of land occupied by Native American tribes in 1775 and in 1894. Explain that on the reservations, the tribes did not have enough land to support themselves. The boarding schools were built because the government thought that if Native American children were educated to fit into the world outside the reservations, they could get better jobs and help support their tribes.

TEKS 10.C.i
Student/Teacher Activity
Step 3

3 Introduce the Reading

Show the table of contents of *Survival and Loss* and ask the students to turn to *Student Response Book* page 58, where the table of contents is reproduced. Read the chapter titles and headings aloud. Ask:

Q *What topics do you think you will hear about in this book?*

Have one or two volunteers share their thinking. Explain that today the students will hear the introduction and chapter 1 of the book. Explain that you will stop periodically during the reading to have them discuss what they have learned from the book up to that point.

Technology Tip

You may want to display a world map on the interactive whiteboard.

For more information, view the “Using Web-based Maps and Related Tools” tutorial (AV49).

ELL Note

Prior to each read-aloud lesson this week, show your English Language Learners the sections you will be reading. Point out the text features and summarize the information in the text, making sure your students have at least a surface-level understanding of the information.

4 Read Aloud the Introduction and Chapter 1 with Brief Section Introductions

Read the introduction and chapter 1 aloud slowly and clearly, following the procedure described below. Clarify vocabulary as you read.

Suggested Vocabulary

fashioned: made (p. 2)

present-day Oklahoma: the area that is known today as the state of Oklahoma (p. 4)

geography: layout of the land (p. 4)

confrontations: fights (p. 4)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

had never learned the ways of civilization: did not think or act like people from Europe (p. 2)

citizens: people who live in a country and have legal rights and the protection of that country's government (p. 2)

tensions began to build: people started to get angry (p. 4)

game: animals that are hunted for food (p. 5)

Read aloud the first two paragraphs of the Introduction and then reread them, asking the students to listen for information they might have missed during the first reading. Ask and briefly discuss:

Q *What did you hear in the second reading that you missed in the first reading?*

Continue reading to the end of the introduction. Point out and read aloud the text box titled “Naming the Native Peoples” on page 2.

Read aloud the title of chapter 1, “Broken Promises,” and the first heading, “The Trail of Tears.” Explain that the first section of chapter 1 tells how East Coast Native American tribes were forced to leave their homelands and move west to make room for European settlers. Show the “Cherokee Removal Routes” map on page 4 and explain that the Cherokee tribes were moved from their homelands near what is now Georgia to areas in and around what is now Oklahoma.

Read “The Trail of Tears” aloud. Stop after:

p. 4 “This journey became known as the Trail of Tears.”

Ask:

Q *What did you find out in the part you just heard?*

Teacher Note

This week's read-aloud contains a lot of factual information that the students might have difficulty following. To support the students, you will briefly introduce each section before you read it. This will help to focus the students' listening on the main ideas discussed in that section.

Have one or two volunteers share what they found out. Then continue reading to the end of the section. Stop after:

p. 4 "... the population of white settlers grew."

Show the painting on page 3 and read the caption aloud. Ask and briefly discuss:

Q *What was life like for the eastern tribes who had moved to Oklahoma?*

Have a few volunteers share what they found out.

Students might say:

"I think it was hard for them because the land in Oklahoma wasn't like the land they were used to."

"I agree with what [Skylar] said. The crops they were used to growing didn't grow on the land."

"In addition to what [Truong] said, it was hard because the U.S. government kept taking land away from the Native Americans when more settlers came."

Tell the students that the next section, "The Reservations," discusses how the U.S. government tried to prevent conflict between western, or Plains, Native American tribes and the European settlers who were moving west onto their land.

Read "The Reservations" aloud; then show the accompanying illustration and read aloud the caption. Ask:

Q *What happened to the Plains tribes as the settlers moved west?*

Have a few volunteers share what they found out.

5 Discuss the Reading in Groups

Explain that you will reread part of the first chapter of the book, and then the students will discuss their thinking in groups. Reread from "The Trail of Tears," beginning on page 3 with "In 1836, the U.S. government tried to resolve its 'Indian problem' . . ." and stopping after "This journey became known as the Trail of Tears."

Explain that you will ask a question for groups to discuss. Encourage the students to use the discussion prompts during their conversations and to refer to the information in the reading to support their thinking. Use "Heads Together" to discuss:

Q *Why do you think the journey was called the Trail of Tears? Heads together.*

Have a few volunteers share what they discussed in their groups. Be ready to refer to the text to help the students support their thinking.

Technology Tip

You may want to display a map of the United States on the interactive whiteboard. Direct the students' attention to the Plains states (Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas) and indicate roughly where the tribes mentioned in the text were living in the early 1800s. The Arapaho lived in parts of what are now the states of Wyoming, Colorado, Nebraska, and Kansas. The Cheyenne lived in parts of the present-day states of Wyoming, Colorado, South Dakota, Nebraska, and Kansas. The Crow lived in what is now Montana and Wyoming. The Sioux lived in regions that are now in Montana, Wyoming, Colorado, the Dakotas, Nebraska, and Minnesota.

Facilitation Tip

Continue to practice **responding neutrally with interest** during class discussions by demonstrating genuine interest and curiosity in what the students say and by refraining from overtly praising or criticizing their responses.

Teacher Note

If necessary, review the following discussion prompts:

- "I agree with _____ because . . ."
- "I disagree with _____ because . . ."
- "In addition to what _____ said, I think . . ."

Students might say:

"I think it's called the Trail of Tears because so many people died on the journey."

"I agree with [Eileen] because it says in the book that about 4,000 people died."

"In addition to what [Sterling] said, I think it was called the Trail of Tears because the Native Americans were sad to leave their land."

Explain that you will ask another question for groups to discuss. Encourage the students to use the discussion prompts and to refer to the information in the reading to support their thinking. Use "Heads Together" to discuss:

Q *Do you think the eastern and Plains Native American tribes were treated fairly by the U.S. government? Heads together.*

Have a few volunteers share what they discussed in their groups. Be ready to refer to the text to help the students support their thinking.

Students might say:

"I don't think the tribes were treated fairly. The government gave them land and then took it away."

"I agree with what [Chan] said. The book says the reservations kept getting smaller."

"I disagree with [Janet] because I think the government had to make room for the settlers and the Native Americans didn't want to cooperate."

Explain that tomorrow the students will hear and discuss the next two chapters of the book.

6 Reflect on Group Work

Ask and briefly discuss questions such as:

Q *How did you do with explaining your thinking in your group?*

Q *How did the discussion prompts help you participate in your group discussion?*

INDIVIDUALIZED DAILY READING

7 Read for Information Independently

Tell the students that for the next two weeks they will read parts of their social studies textbooks during IDR. Ask them to think about what facts they are learning. Tell them that at the end of IDR you will ask them to share facts they learned with the class. Have the students get their textbooks, take a moment to select the sections they wish to read today, and then read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

Teacher Note

Over the next two weeks, we recommend having the students select sections from their textbooks to read during IDR. Alternatively, you might choose to assign sections for the students to read based on content-area instruction for your grade level.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer share what the part she read today is about and a fact she learned. Then have the students return to their desks and put away their textbooks.

TECHNOLOGY EXTENSION

Learn More About the Trail of Tears

Show the cover of *Survival and Loss* and remind the students that they heard parts of this book earlier. Show pages 3–4 and remind the students that this part of the book tells about the Trail of Tears. Ask:

Q *What do you remember about the Trail of Tears?*

As the students respond, record their thinking where everyone can see it. If the students struggle to answer the question, read pages 3–4 and then ask the question again. Tell the students that today they will learn more about the Trail of Tears by exploring a website about it. Display the web page you have selected and read the sections you identified aloud. After reading each section, facilitate a discussion about what the students are learning by asking questions such as:

Q *What did you learn about the Trail of Tears from the section you just heard?*

Q *How did [viewing the video] help you better understand the Cherokee people’s experience on the Trail of Tears?*

As the students respond, record their thinking where everyone can see it. After exploring the web page, have the students write a paragraph that tells what they learned about the Trail of Tears. Encourage them to use facts they learned from the book *Survival and Loss* and from the web page to support their thinking.

Technology Tip

Prior to doing this activity, locate an age-appropriate web page about the Trail of Tears to share with your students. Search online using the keywords “Trail of Tears for kids” and “Indian Removal Act for kids.” Preview the web page you have selected and identify the sections you will read aloud and the features you want to show them (for example, maps, slideshows, summaries of historical events, timelines, videos, and illustrations). For more information, view the “Finding, Organizing, and Presenting Online Information” tutorial (AV43).

Materials

- *Survival and Loss* (pages 6–13)

In this lesson, the students:

- Hear and discuss part of an expository text
- Identify what they learn from the text
- Read independently for up to 30 minutes
- Include everyone in and contribute to the group work
- Use discussion prompts in small-group discussions

1 Review and Introduce the Reading

Have the students gather in their groups of four, facing you. Show the cover of *Survival and Loss* and review that the part of the book the students heard yesterday told how life changed for Native Americans as more and more European settlers came to the United States. Ask and briefly discuss:

Q *What have you found out so far about how the U.S. government treated Native Americans in the 1800s?*

Explain that the part of the book the students will hear today talks about how Native Americans continued to lose land to the settlers and about what life was like on the reservations. Explain that you will stop periodically during the reading to have the students discuss what they have learned from the book up to that point.

2 Read Aloud Chapters 2 and 3 with Brief Section Introductions

Read chapters 2 and 3 aloud slowly and clearly, as described on the next page. Clarify vocabulary as you read.

Suggested Vocabulary

treaty: agreement (p. 6)

sacred: religious (p. 6)

bison: buffalo (p. 6 caption)

self-sufficient: able to support themselves (p. 9)

fast: not eat food (p. 10)

Americanize Native American children: make Native American children more like European Americans (p. 12)

defenseless: not able to defend themselves (p. 13)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

settlements: places where people live (p. 6)

nearing completion: almost finished (p. 6)

protest the broken treaty: complain about the government not doing what it agreed to (p. 7)

admitted defeat: said that they lost (p. 7)

distributed rations of food: handed out certain amounts of food (p. 8)

ceremonies: special ways of celebrating important times (p. 10)

lodges: small houses made out of wood poles covered with animal skins (p. 10)

scarce: hard to find (p. 10)

reluctantly: even though he didn't want to (p. 13)

Read aloud the chapter 2 title, “Lost Land, Lost Independence,” and the first heading, “Coast to Coast.” Explain that the first section of chapter 2 tells how the building of the transcontinental, or cross-country, railroad caused Native American tribes to lose land. Ask the students to listen for how this happened.

Read “Coast to Coast” aloud; then show the photograph and read aloud the caption on page 6. Ask:

Q *Why did the building of the railroad cause Native Americans to lose land?*

Have one or two volunteers share their thinking. Tell the students that the next section, “Chief Red Cloud and the Treaty of Fort Laramie,” talks about how the U.S. government took back land it had promised to the Sioux tribe.

Read aloud “Chief Red Cloud and the Treaty of Fort Laramie”; then show the illustration on page 7 and read aloud the caption. Ask:

Q *What did you find out in the part you just heard?*

Have one or two volunteers share what they found out.

Read aloud the next heading, “Wards of the State,” and explain that this section talks about what happened when the U.S. government decided to take over the reservations. Read aloud “Wards of the State.” Then ask:

Q *What did it mean for Native Americans to become wards of the state?*

Have one or two volunteers share their thinking. Read aloud the chapter 3 title, “Life on the Reservations,” and the first heading, “Lost Traditions.” Explain that the first section of chapter 3 tells more about life on the reservations. Read “Lost Traditions” aloud, including the quote by Geronimo. Then ask:

Q *How were the Native Americans’ traditional ways of life different from life on the reservations?*

Technology Tip

You may want to display a map of the transcontinental railroad route on the interactive whiteboard. Explain that there were already railroads throughout the eastern part of the country; the transcontinental railroad was intended to connect these eastern railroads with the West. The transcontinental railroad was built starting from Omaha, Nebraska, in the Plains and from Sacramento, California, in the West; the railroad was completed when the tracks met in Promontory, Utah, which is north and slightly west of Salt Lake City.

Teacher Note

As groups talk, listen for evidence that the students are discussing the book and understanding it. If necessary, reread parts of the text to help the students recall what they heard.

Have one or two volunteers share their thinking. Tell the students that the next two sections, “Pushed Toward the Classroom” and “The Boarding School Solution,” talk about how Native American children were pushed further and further away from their traditional ways of being educated. Read aloud “Pushed Toward the Classroom”; then show the accompanying photograph and read aloud the quote on page 11. Read aloud “The Boarding School Solution”; then show the illustration and the photograph, and read aloud the caption and the quote on page 13. Use “Heads Together” to discuss:

 **Q** *What did you find out in the sections you just heard about how education changed for Native American children? Heads together.*

Have a few volunteers share what they found out.

Students might say:

“Before they lived on the reservations, Native American children learned by watching the grownups and playing games.”

“I found out that the U.S. government built schools on the reservations but the children didn’t stay in school.”

“Captain Pratt thought that Native American children should be taken away from their tribes and be sent to boarding schools.”

“I found out that the U.S. government gave Captain Pratt an old army fort so he could build a school.”

“In addition to what [Mateo] said, Captain Pratt convinced Spotted Tail to send the children from his tribe to Captain Pratt’s school.”

3 Discuss the Reading

Explain that you will reread from the section from chapter 2 about Chief Red Cloud, and the students will discuss what they heard, in groups and as a class. Reread from “Chief Red Cloud and the Treaty of Fort Laramie,” beginning on page 7 with “When Red Cloud traveled to Washington, D.C., to protest the broken treaty . . .” and stopping after “. . . Red Cloud realized that Native Americans could never win a full-scale war against the settlers.”

Explain that you will ask a question for groups to discuss. Remind the students to include everyone in the discussion and to refer to information in the text to support their thinking. Use “Heads Together” to discuss the following question. Encourage the students to use discussion prompts to respond to one another.

 **Q** *Why do you think Red Cloud changed his mind about fighting the settlers? Heads together.*

Have a few volunteers share why they think Red Cloud changed his mind. Be ready to reread sections of the text to help the students support their thinking.

Students might say:

"I think that when he saw how many settlers there were in the East, he realized he didn't have enough soldiers to fight them."

"In addition to what [Jonathan] said, I think Chief Red Cloud thought the Native Americans could never win because the Europeans had the power to build big cities."

"I disagree with what [Yuan] said. I think Red Cloud changed his mind because when he found out the U.S. government had lied, he realized Native Americans would never be treated fairly."

Explain that tomorrow the students will hear and discuss the next part of the book.

4 Reflect on Group Work

Ask and briefly discuss questions such as:

- Q** *What did your group do to make sure everyone was included?*
- Q** *If everyone wasn't included, what do you want to do differently next time so everyone can participate?*
- Q** *Why is it important to include everyone when you are working in groups?*

INDIVIDUALIZED DAILY READING

5 Read for Information Independently

Remind the students that for the next two weeks they will read parts of their social studies textbooks during IDR. Ask them to think again today about the facts they are learning, and tell them that you would like each student to identify one fact that he finds particularly interesting or surprising. Tell the students that at the end of IDR you will ask them to share with partners the interesting or surprising facts they identified. Have the students get their textbooks, take a moment to select the sections they wish to read today, and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share what they read with partners. Have each student tell his partner what the part he read today is about and an interesting or surprising fact he learned. After partners have had a chance to share, discuss as a class:

Q *What did your partner share with you about his or her reading?*

Remind the students that the purpose of sharing their partners' thinking is to help them develop their listening skills.

Have the students return to their desks and put away their textbooks.

EXTENSION

Research Native American Chiefs

Interested students may want to do further research on Chief Red Cloud or another Native American chief, such as Sitting Bull, Crazy Horse, or Seattle. You and your students can find more information at the school or community library. Alternatively, the students might do online searches using the names of Native American chiefs or the keywords "Native American chiefs for kids."

Day 3

Read-aloud

Materials

- *Survival and Loss* (pages 14–21)

In this lesson, the students:

- Hear and discuss part of an expository text
- Identify what they learn from the text
- Read independently for up to 30 minutes
- Include everyone in and contribute to the group work

1 Review and Get Ready to Work Together

Have the students gather in their groups of four, facing you. Show the cover of *Survival and Loss* and review that the part of the book the students heard yesterday told how the U.S. government took over the reservations, how life on a reservation was different from Native American tribes' traditional ways of life, and how education began to change for Native American children. Ask and briefly discuss:

Q *What do you remember finding out in the part of the book you heard yesterday?*

Tell the students that they will be using “Heads Together” again today to talk about their thinking. Encourage them to continue to include everyone in and contribute responsibly to the group work.

2 Introduce the Reading

Explain that the part of the book the students will hear today talks about what life was like for Native American children who were sent to the boarding schools. Explain that you will stop periodically during the reading to have them discuss what they have learned from the book up to that point.

3 Read Aloud Chapters 4 and 5 with Brief Section Introductions

Read chapters 4 and 5 aloud slowly and clearly as described below. Clarify vocabulary as you read.

Suggested Vocabulary

wailed: cried (p. 14)

immersed: surrounded (p. 14)

dormitories: school buildings where many students live together (p. 16)

deliberately: on purpose (p. 17)

tom-toms: Native American drums (p. 17)

cash economy: system in which people use money to buy things (p. 21)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

program: plan (p. 14)

anxious: nervous (p. 14)

in such close quarters: so close together (p. 16)

immunity: ability to fight off diseases (p. 16)

for their own good: because it would be better for them (p. 18)

Read aloud the chapter 4 title, “Boarding School Life,” and the first two headings, “The Journey” and “‘Before’ and ‘After.’” Explain that these sections tell about what it was like for Native American children to travel to the Carlisle School and what happened when the children arrived there.

Read aloud “The Journey” and “‘Before’ and ‘After.’” Ask and briefly discuss:

Q *How do you think the children felt when they arrived at school? What did you hear that makes you think that?*

Technology Tip

You may want to display a map showing the location of the Carlisle School on the interactive whiteboard. The school was in Carlisle, Pennsylvania, west and slightly south of Harrisburg, the state capital.

Have one or two volunteers share their thinking. Tell the students that the next two sections, “New Names” and “Unfamiliar Routines,” talk about what life was like for students at Carlisle and many of the other boarding schools.

Read aloud “New Names”; then read aloud the text box titled “What’s in a Name?” on page 16; then read aloud “Unfamiliar Routines.” Show the photographs on page 15 and read aloud the caption; then ask:

Q *What made it difficult for Native American children to live at the boarding schools?*

Have one or two volunteers share their thinking.

Students might say:

“They weren’t even allowed to speak their own language.”

“In addition to what [Crane] said, I think it was difficult because they got English names that didn’t mean anything to them.”

“I think it was difficult because the food they ate made them sick.”

“In addition to what [Winston] said, the children got sick because the dormitories were crowded and they weren’t immune to a lot of diseases.”

Read aloud the next two headings, “Runaways” and “Keeping Culture Alive.” Explain that these sections talk about students who tried to escape from the boarding schools and students who stayed at school but tried to hold on to their traditional ways of life.

Read “Runaways” and “Keeping Culture Alive” aloud. Ask:

Q *What did you find out in the sections you just heard?*

Have volunteers share what they found out. Then read aloud the chapter 5 title, “Lessons and Learning,” and the headings “Entering a Strange World” and “New Skills.” Explain that chapter 5 tells more about how Native American children were taught at the schools and which subjects they learned. Read “Entering a Strange World” aloud; then show the accompanying photograph on page 19 and read aloud the caption and quote. Read “New Skills” aloud; then show the photograph and read aloud the caption on page 20 and the text box on page 21.

Explain that you will ask a question for groups to discuss. Remind the students to include everyone in and contribute to the group discussion. Then use “Heads Together” to discuss:

 **Q** *What did you find out about what Native American children learned at the boarding schools? Heads together.*

Have one or two volunteers share what they discussed in their groups. Then use “Heads Together” to discuss:

 **Q** *Why do you think some children ran away from the schools? What did you hear that makes you think that? Heads together.*

Teacher Note

Circulate as groups work. Support students who are having difficulty answering the question by rereading passages from chapters 4 and 5 aloud and having the students listen for information about what life was like for Native American children at the schools. Ask questions such as:

Q *In the part you just heard, what did you find out about what life was like for the Native American children?*

Q *Do you think [having their names changed] made the students want to run away? Why do you think that?*

Have a few volunteers share what they discussed in their groups. Remind the students to use the discussion prompts to respond to one another.

4 Discuss the Reading

Facilitate a discussion about chapter 5 using the question that follows. Ask:

Q *Do you think what the children learned at the schools helped them? Explain your thinking.*

As students respond, encourage them to refer to the text to support their thinking. Be ready to reread from the text to help them.

Students might say:

"I don't think the schools helped them because they spent most of the time learning how to farm, but the land on the reservations wasn't good for farming."

"I disagree with what [Clara] said. I think if they learned about farming, they could leave the reservation when they grew up and farm somewhere else."

"In addition to what [Kenji] said, I don't think the teachers could help the children learn very well because the teachers didn't speak Native American languages."

"I agree with what [Piper] said. I don't think what the children learned made sense to them."

Explain that tomorrow the students will hear and discuss the last two chapters of the book.

5 Reflect on Group Work

Review that today the students focused on contributing their thinking during group work. Ask and briefly discuss questions such as:

Q *What did you do to make sure everyone in your group felt comfortable sharing their thinking?*

Q *Why is it important to contribute your thinking to the group discussion?*

INDIVIDUALIZED DAILY READING

6 Read for Information Independently

Ask the students to think about what facts they are learning as they read their social studies textbooks. Tell them that at the end of IDR you will ask them to share with the class facts they learned and questions they have about what they read today. Have the students get their textbooks and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

Day 4

Read-aloud

Materials

- *Survival and Loss* (pages 22–26)
- “Class Assessment Record” sheet (CA4)

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer share what the part she read today is about, a fact she learned, and a question she still has about the topic. Have the students return to their desks and put away their textbooks.

In this lesson, the students:

- Hear and discuss part of an expository text
- Identify what they learn from the text
- Read independently for up to 30 minutes
- Contribute to the group work
- Explain their thinking

1 Review and Introduce the Reading

Have the students gather in their groups of four, facing you. Show the cover of *Survival and Loss* and review that the part of the book the students heard yesterday described life at the boarding schools. Ask and briefly discuss:

Q *What do you remember finding out in the part of the book you heard yesterday?*

Explain that the part of the book the students will hear today tells what happened to the Native American boarding schools and discusses the effect the schools had on the students and on Native American culture. Explain that you will stop periodically during the reading to have the students discuss what they have learned from the book up to that point.

2 Read Chapters 6 and 7 Aloud with Brief Section Introductions

Read chapters 6 and 7 aloud slowly and clearly, as described below. Clarify vocabulary as you read.

Suggested Vocabulary

suppress Native American ways: stop Native Americans from living as they did in their tribes (p. 24)

humiliated: ashamed (p. 25)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

its Native American policies had failed: the government's plans to make Native Americans more like European Americans did not work (p. 22)

experts: people who are known for being good at what they do (p. 22)

nutrients: things in food that make the food healthy (p. 22)

damaged: hurt (p. 24)

faced prejudice: were treated unfairly because of their race (p. 24)

had lost the ability to communicate altogether: did not know how to talk anymore (p. 24)

final blow: last and worst thing that happened (p. 25)

exclude them: keep them out (p. 26)

Read aloud the chapter 6 title, “Boarding Schools in Question,” and the first two headings, “A Good Investment?” and “The Meriam Report.” Explain that these sections tell why the U.S. government began to think the boarding schools weren’t a good idea. Have the students listen for information about problems at the schools.

Read aloud “A Good Investment?” and “The Meriam Report.” Ask:

Q *What were some of the problems at the boarding schools?*

Have a few volunteers share their thinking. Tell the students that the next section, “Closed for Good,” talks about the closing of the schools. Read “Closed for Good” aloud; then show the photograph and read aloud the caption on page 23. Ask:

Q *What did you find out about the closing of the schools?*

Have one or two volunteers share what they found out. Read aloud the chapter 7 title, “Long-term Effects,” and the first heading, “Effects on the Students.” Explain that this section talks about what happened to children who went to the boarding schools. Read “Effects on the Students” aloud. Ask and briefly discuss:

Q *What did you find out about the effects of the schools on the students?*

Teacher Note

If necessary, briefly review the meaning of *Americanize* (“make more like European Americans”).

Teacher Note

If the students have trouble answering the question, signal for their attention and have one or two volunteers share what their groups have talked about so far, or suggest ideas such as those in the “Students might say” note on the next page. Then have groups continue working.

Have one or two volunteers share their thinking. Read aloud the next two headings, “Effects on Native American Culture as a Whole” and “Hope for the Future,” and explain that these sections talk about what effects the boarding schools had on all Native Americans and how Native Americans have tried to regain their rights.

Read aloud “Effects on Native American Culture as a Whole” and “Hope for the Future”; then show the photograph and read aloud the caption and the text box on page 26. Ask:

Q *What did you find out in the sections you just heard?*

Have a few volunteers share what they found out.

3 Discuss the Reading

Review that Captain Pratt and the U.S. government got the idea for educating Native American children at boarding schools because they thought it was important for the children to be “Americanized.” Explain that you will ask a question for groups to discuss. Remind the students to explain their thinking to one another. Use “Heads Together to discuss:

Q *Why did Captain Pratt and the U.S. government want Native American children to be Americanized? Heads together.*

Circulate and randomly select groups to observe as they work.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify what they have learned from the book?
- Are they able to explain their thinking during small-group discussions?

Record your observations on the “Class Assessment Record” sheet (CA4); see page 98 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify what they have learned from the book and are able to explain their thinking during small-group discussions, proceed with the lesson and continue on to Week 5.
- If **about half of the students** or **only a few students** are able to identify what they have learned from the book and are able to explain their thinking during small-group discussions, you might give the class additional instruction by repeating this week’s lessons using an alternative book before continuing on to Week 5. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

Have a few volunteers share what they discussed in their groups.

Students might say:

"Captain Pratt thought it would be good for Native American children to live in the English-speaking world. He thought if they were away from their tribes, they would be more like European Americans."

"In addition to what [Charmaine] said, I think the government wanted to help Native American children fit into society more so that the children could grow up and help support their tribes. They taught subjects like English and farming so the students would be able to make a living."

"I disagree with what [Chantel] said. I think a lot of people thought the Native Americans were savages and that their way of life was not as good as the American way of life. So the U.S. government tried to wipe out Native American ways of life by Americanizing the kids."

"I think the government wanted the Native Americans to be Americanized so they wouldn't get in the way of all the settlers. I think that because there were so many problems with Native Americans attacking settlers and fighting over the land."

"In addition to what [Beto] said, I think the government wanted Native American tribes to take care of themselves so it wouldn't have to support them. I think that because the government had to give people on the reservations food and money in order for them to survive."

Facilitate a brief discussion using the following question. Encourage the students to use the discussion prompts they have learned as they participate in the discussion. Ask:

Q *What do you think of the idea of trying to Americanize Native American children at the boarding schools? Explain your thinking.*

As students respond, encourage them to refer to the text to support their thinking. Be ready to reread from the text to help them.

Students might say:

"I don't think it was a good idea because the children didn't want to go to the schools; I don't think it was fair to make them go. I think that because so many of them ran away and others didn't cooperate at the schools."

"In addition to what [Cameron] said, I don't think it was a good idea because the children had everything taken away from them. They didn't even get to keep their names."

"I agree with what [Thanh] said. The children at the schools weren't happy or healthy, and when they went back to their tribes they didn't fit in."

"I disagree with what [Amiya] said. I think it was a good idea because the government was trying to help Native Americans fit in so they could take care of themselves."

Explain that next week the students will hear and read parts of the book again and explore how the text is organized to give readers information.

4 Reflect on Group Work

Share your observations of how the students did with explaining their thinking in their groups and in the class discussion. Explain that the students will have more opportunities to explain their thinking in the coming weeks.

INDIVIDUALIZED DAILY READING

5 Read Independently and Discuss Text Features

Tell the students that as they read their social studies textbooks today, you would like them to pay particular attention to text features—such as photographs, captions, text boxes, and maps—and to think about what facts or other information they learn from the features. Explain that at the end of IDR you will ask them to share with partners text features they noticed and what they learned from those text features. Have the students get their textbooks and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share what they read with partners. Have each student tell his partner what the part he read today is about, a text feature he noticed, and what the text feature helped him learn. Have the students return to their desks and put away their textbooks.

Vocabulary Note

Next week you will revisit *Survival and Loss: Native American Boarding Schools* to teach the Week 20 vocabulary lessons.

WRITING ABOUT READING

Write Opinions About First- and Secondhand Accounts of Native American Boarding Schools

Show the cover of *Survival and Loss* and remind the students that they heard this book earlier. Ask:

Q *What do you remember about this book?*

If necessary, remind the students that this is a nonfiction book about Native American boarding schools. Explain that the author who wrote *Survival and Loss* researched the topic and then used the research to write about it. Explain that since the author wrote about things he or she did not directly experience, this book is a *secondhand account* of the events.

Distribute a copy of “First- and Secondhand Accounts of Native American Boarding Schools” (BLM2) to each student. Direct the students’ attention to the first passage and explain that this is a section from *Survival and Loss* that the students heard and discussed earlier. Ask the students to follow along as you read the passage aloud and to think as they listen about how the author writes about what children experienced in Native American boarding schools. After you read the passage aloud, ask:

Q *What did you notice about the way the author writes about Native American boarding schools?*

Record the students’ ideas where everyone can see them, under the heading “Secondhand Account.”

Show the students the photograph on page 26 of *Survival and Loss* and read aloud the caption about Zitkala-Sa. Show Appendix A on page 27 and explain that this is an excerpt from a book by Zitkala-Sa about her experiences as a student at Carlisle Indian Industrial School. Explain that because Zitkala-Sa wrote about what she herself went through, it is a *firsthand account* of her experiences.

Direct the students’ attention to the second passage on BLM2, labeled “Firsthand Account,” and explain that this is a copy of the excerpt in Appendix A. Ask the students to follow along as you read aloud and to think as they listen about what they notice about how Zitkala-Sa writes and what new things they are learning about children’s experiences at Native American boarding schools. Read the passage aloud, clarifying the vocabulary you identified. After the reading, ask:

Q *What did you notice about how Zitkala-Sa writes?*

Q *What did you learn from Zitkala-Sa’s account of these events?*

Materials

- *Survival and Loss*
- Copy of “First- and Secondhand Accounts of Native American Boarding Schools” (BLM2) for each student

Teacher Note

Prior to doing this activity, visit the CCC Learning Hub (ccclearninghub.org) to access and print “First- and Secondhand Accounts of Native American Boarding Schools” (BLM2). Make enough copies for each student to have one, and set aside a copy for yourself. Preview the passages and identify vocabulary that you want to clarify as you read.

Technology Tip

To provide the students with more practice comparing first- and secondhand accounts, you might search online for television documentaries or interviews with other individuals who attended Native American boarding schools. Have the students watch portions of the documentary or interview, determine which parts are first- or secondhand accounts of the event, and discuss why they think so. Search for information online using the keywords “Native American boarding schools video interview.”

Record the students’ ideas where everyone can see them, under the heading “Firsthand Account.” Facilitate a discussion comparing the first- and secondhand accounts by asking the following questions:

- Q *How is the firsthand account similar to the secondhand account? How is it different?*
- Q *Which do you think is more interesting, the firsthand account or the secondhand account? Why?*

Tell the students that when they talk about which account of Native American boarding schools is more interesting, they are giving an opinion. Explain that people might have different opinions about the same thing, and that is fine. What matters is that they give reasons to explain their thinking. Then ask the students to watch as you think aloud and model writing about which account you think is more interesting.

You might say:

“I think the firsthand account written by Zitkala-Sa is more interesting. I’ll write: *I think the firsthand account of Native American boarding schools is more interesting.* Now I will give a reason why I think the firsthand account is more interesting, based on what we’ve read. I’ll write: *I think so because the firsthand account tells what someone who attended a Native American boarding school went through.* I want to explain how Zitkala-Sa describes what happened in her firsthand account. I’ll write: *For example, Zitkala-Sa describes the confusion kids had because they were forced to speak in a language they didn’t understand. She describes what she saw, heard, and thought. Her description helps me realize that real people just like me had these confusing, scary experiences.* I can think of another reason why I preferred the firsthand account. I’ll write: *The firsthand account is also more interesting because it includes sensory details that help me visualize what it was like at Carlisle—like ‘The door shut behind her with a click.’”*

Have the students write their own opinions about which account they think is more interesting and why. Encourage the students to refer to “First- and Secondhand Accounts of Native American Boarding Schools” (BLM2) as they write. If time permits, invite volunteers to share their writing with the class.

EXTENSIONS

Explore and Discuss Expository Text Features in *Survival and Loss*

Show expository text features in *Survival and Loss*. Read any text in the features (for example, captions) and discuss what can be learned from the text features. For example, you might show the photograph on page 11, read aloud the quote under it, and ask:

Q *What can you infer from this quote and photo about the relationship between children and older people in traditional Native American culture?*

You might show the students the “before” and “after” photographs on page 15 and discuss questions such as:

Q *Why do you think Captain Pratt took these photos of students when they arrived at Carlisle School?*

Q *What might someone looking at the photos think about the school?*

You might point out the Native American land maps on pages 24–25 and read aloud the legends of both maps. Review that maps are a text feature often found in expository nonfiction. Ask and discuss questions such as:

Q *Looking at the maps, what statements can you make about Native American land? How do you know that?*

Q *How do these maps give readers information?*

Read and Discuss the Final Sections of *Survival and Loss*

Show and read aloud the sections “The Word ‘No’” and “Major Events in Native American History” on pages 27 and 28 of *Survival and Loss*. Then show the glossary (page 29) and the index (page 30). Discuss the function of each section by asking questions such as:

Q *How do you think the [passage written by Zitkala-Sa] might help a reader make sense of this book?*

Q *What do you notice about the [“Major Events in Native American History” timeline]? How might a reader use it?*

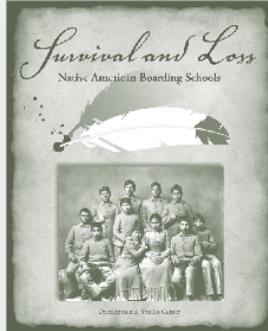

Q *What information does the [glossary] provide? How is that helpful to a reader?*

Q *How do you think the [index] might help a reader?*

TEKS 9.F.i
Student/Teacher Activity
First Extension on p. 465

Week 5

OVERVIEW

Survival and Loss: Native American Boarding Schools*

In the late 1800s and early 1900s, the U.S. government forcibly educated Native American children at off-reservation boarding schools. This book briefly describes the origin of the schools and looks closely at the impact of school life on the children and on Native American culture at large.

**This book was also used in Week 4.*

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA5–WA6

Assessment Forms

- “Class Assessment Record” sheet (CA5)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

Reproducible

- Unit 7 family letter (BLM1)

Comprehension Focus

- Students use text structure to analyze an expository text.
- Students explore how information can be organized in expository text.
- Students explore the text structures of sequence, cause/effect, and compare/contrast in an expository text.
- Students read independently.

Social Development Focus

- Students work in a responsible way during group work.

Ⓜ DO AHEAD

- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA5); see page 99 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 20 lessons this week.

Materials

- *Survival and Loss*
- *Student Response Book* pages 58–60
- “Expository Text Structures” chart (WA5)

In this lesson, the students:

- Use text structure to analyze an expository text
- Explore sequence in the text
- Explore how information can be organized in expository text
- Read independently for up to 30 minutes
- Work in a responsible way during group work

1 Get Ready to Work Together

Have the students bring their *Student Response Books* and gather in their groups of four, facing you. Explain that for the past several weeks the students have been working on how to be responsible group members. They have been making an effort to include everyone in their group discussions, use discussion prompts, and contribute their thinking and ideas to their small-group discussions. Ask the students to continue to work responsibly during their small-group discussions this week.

2 Review *Survival and Loss*

Remind the students that last week they heard *Survival and Loss: Native American Boarding Schools*, a book written like many social studies textbooks. Show the cover and then have the students turn to *Student Response Book* page 58, “Contents from *Survival and Loss*.” Remind the students that this is the table of contents from the book. Ask the students to read it silently. Then use “Heads Together” to discuss:

Q *What did you learn in each chapter? Heads together.*

Signal for the students’ attention. As a class, discuss the following question:

Q *What are some things you learned about Native American boarding schools from *Survival and Loss*?*

Explain that it can be helpful in understanding textbooks to think about how the information is organized. Tell the students that they will use *Survival and Loss* this week to explore three different ways information can be organized in nonfiction text. They will then use this information to help them make sense of their own textbooks.

Teacher Note

If the students struggle with this question, consider rereading sections of the book and asking the question again.

3 Introduce and Discuss Sequence of Events

Referring to the table of contents from *Survival and Loss on Student Response Book* page 58, explain that the author made deliberate choices when deciding what the chapters would be about and their order in the book.

Read the chapter titles aloud and point out that the text is organized by discussing events in the order in which they happened: the book begins by describing how the U.S. government forced Native American tribes onto reservations to make room for settlers (“Broken Promises” and “Lost Land, Lost Independence”), explores how conditions on the reservations led to the creation of the first boarding school (“Life on the Reservations”), describes how the children lived and what they learned at the boarding schools (“Boarding School Life” and “Lessons and Learning”), explains the closing of the schools (“Boarding Schools in Question”), and traces the effects of the schools from then to the present day (“Long-term Effects”). Explain that when events are written in the order in which they occurred, we say that they are organized in a *sequence*.

Have the students turn to *Student Response Book* pages 59–60, “Excerpt from *Survival and Loss* (1).” Explain that this is the section titled “The Trail of Tears” from the first part of chapter 1. Tell the students that this is another example of information organized in a sequence. Ask the students to follow along as you read the text aloud, and ask them to notice how the author uses sequence to organize the information. Read the entire section aloud, and then briefly discuss the following question:

Q *What do you notice about how the author uses sequence to organize information in this passage?*

Students might say:

“I notice that the passage starts in 1836 and ends in 1838.”

“In addition to what [Michael] said, it describes how some tribes fought against leaving their homelands, and then it tells what the U.S. government did to make them leave.”

If necessary, point out that the passage describes events in the order that they happened, from the two-year warning in 1836 to the forced removal of the Cherokee tribes in 1838.

4 Introduce the “Expository Text Structures” Chart

Display the “Expository Text Structures” chart. Direct the students’ attention to the chart title and explain that *expository text structures* are “ways that authors organize information in expository texts.” Write *sequence* on the chart and explain that recognizing when information is organized in a sequence can help the students make sense of the nonfiction texts they read.

ELL Note

Prior to today’s lesson, consider reviewing the reading with your English Language Learners, checking to make sure they understand the material.

TEKS 9.D.iii

TEKS 9.D.vi

Student/Teacher Narrative

Step 3

Expository Text Structures

- *sequence*

Teacher Note

Save the “Expository Text Structures” chart (WA5) to use on Day 2.

Explain that you will add to the chart in the coming days as the students explore other ways information can be organized.

Explain that the students will explore another expository text structure in *Survival and Loss* tomorrow. Encourage them to look for information organized in a sequence when they read expository texts independently.

INDIVIDUALIZED DAILY READING

5 Read for Information Independently and Think About Sequence

Ask the students to think about what facts they are learning as they read their social studies textbooks and to notice whether the part they read today is organized in a sequence. Tell them that at the end of IDR you will ask them to share with the class what they discovered. Have the students get their textbooks and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask a few volunteers to share their reading with the class. Have each volunteer share what the part he read today is about, a fact he learned, and whether the text he read is organized in a sequence. Have the students return to their desks and put away their textbooks.

In this lesson, the students:

- Use text structure to analyze an expository text
- Explore cause/effect relationships in the text
- Explore how information can be organized in expository text
- Read independently for up to 30 minutes
- Work in a responsible way during group work

1 Review the “Expository Text Structures” Chart

Have the students bring their *Student Response Books* and gather in their groups of four, facing you. Remind the students that they read a passage from chapter 1 of *Survival and Loss* yesterday and thought about the sequence of events in the passage. Display the “Expository Text Structures” chart (WA5) and review that sequence is one expository text structure, or one way expository text can be organized. Explain that today the students will explore another way information can be organized.

2 Introduce and Discuss Cause/Effect Relationships

Have the students turn to *Student Response Book* pages 61–62, “Excerpt from *Survival and Loss* (2).” Explain that this is the section titled “Wards of the State” from chapter 2 of the book. Ask the students to follow along as you read. Read the first two paragraphs of “Wards of the State” aloud slowly and clearly. Ask:

- Q** *What effect did being made wards of the state have on Native Americans? What sentence tells you that?*

Have a few volunteers share their thinking.

Students might say:

“Being made wards of the state made it so Native Americans could not take care of themselves.”

“I agree with [Jamie] because the book says ‘they no longer had the resources they needed to make a living.’”

Review that being made wards of the state had an effect on Native Americans; it made them unable to make a living and forced them to depend on the government.

Materials

- *Survival and Loss*
- “Expository Text Structures” chart (WA5) from Day 1
- *Student Response Book* pages 61–64

ELL Note

Prior to today’s lesson, consider reviewing the reading with your English Language Learners, checking to make sure they understand the material.

TEKS 9.D.iii
Student/Teacher Activity
Step 2

Teacher Note

You might remind the students that earlier in the year they discussed cause/effect relationships in the books *Hurricanes* and *Global Warming*.

Teacher Note

If your students struggle to recognize cause/effect relationships, point out a few of these relationships in the passage: the discovery of gold in California (cause), which resulted in the westward migration of white settlers hoping to make their fortunes (effect) and the passage of settlers through Native American land (effect); the disrespectful treatment of the land by settlers (cause), which resulted in confrontations between Native Americans and settlers (effect); the increase in violent confrontations between Native Americans and settlers (cause), which led to the passage of the Indian Appropriation Act (effect) and the creation of the reservations (effect); the U.S. government promising the same land to more than one tribe (cause), which resulted in the tribes fighting over available resources (effect).

Teacher Note

Save the “Expository Text Structures” chart (WA5) to use on Day 3.

Point out that cause/effect relationships, or relationships in which one thing causes another thing to happen or affects another thing, are often found in expository text. Explain that being made wards of the state caused the effect of making Native Americans unable to take care of themselves.

Display the “Expository Text Structures” chart (WA5) and write *cause/effect* on it.

Expository Text Structures

- *sequence*
- *cause/effect*

WA5

Direct the students’ attention to the third paragraph of the “Wards of the State” section and ask them to follow along as you read the rest of the section aloud slowly and clearly. Ask and briefly discuss:

Q *What cause/effect relationships do you notice in the part you just heard?*

Students might say:

“The reservations were on land no one else wanted because the soil was bad. The effect of that was that the Native Americans could not use the land for farming.”

“In addition to what [Jeffrey] said, the Native Americans couldn’t farm because they didn’t know how to farm like European Americans.”

“A lot of bison were killed during the building of the railroad. That caused the effect that there were not enough bison for Native Americans to hunt.”

Have the students turn to *Student Response Book* pages 63–64, “Excerpt from *Survival and Loss* (3).” Explain that this is the section titled “The Reservations” from chapter 1. Ask the students to silently reread the passage to themselves. Then use “Heads Together” to discuss:

 **Q** *What cause/effect relationships do you notice? Heads together.*

Have a few volunteers share with the class. Remind the students that the purpose of exploring expository text structures is to help them better understand texts they read independently by recognizing how the texts are organized. Encourage them to look for information organized in a sequence and cause/effect relationships in expository texts they read independently.

3 Reflect on Group Work

Help the students reflect on their work together by asking questions such as:

- Q *What did you do to take responsibility during “Heads Together” today?*
- Q *What problems did you have in your group? How did you try to solve those problems? What can you do next time to avoid those problems?*

Explain that the students will continue to explore relationships in *Survival and Loss* tomorrow.

INDIVIDUALIZED DAILY READING

4 Read Independently and Think About Information and Text Structures

Ask the students to think about what facts they are learning as they read their social studies textbooks and to notice whether the part they read today is organized using the expository text structure of sequence or cause/effect. Tell them that at the end of IDR you will ask them to share with partners what they discovered. Have the students get their textbooks and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

TEKS 9.D.iii
Student/Teacher Activity
Step 4

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share what they read with partners. Have each student tell her partner what the part she read today is about, a fact she learned, and whether the text is organized using sequence or cause/effect. Have the students return to their desks and put away their textbooks.

Materials

- *Survival and Loss*
- *Student Response Book* pages 65–70
- “Expository Text Structures” chart (WA5) from Day 2

Teacher Note

Today’s lesson may take longer than usual to complete. You might consider stopping after Step 3 and then completing the remainder of the lesson at another time.

ELPS 4.F.vi
ELPS 4.F.vii
 Step 2 and ELL Note on page 475

In this lesson, the students:

- Use text structure to analyze an expository text
- Explore sequence, cause/effect relationships, and compare/contrast relationships in the text
- Explore how information can be organized in expository text
- Read independently for up to 30 minutes
- Work in a responsible way during group work

1 Review Cause/Effect Relationships

Have the students get their *Student Response Books* and pencils and sit at desks with groups of four together. Remind the students to continue to work responsibly during their group work today by contributing ideas and including everyone.

Review that the students have learned about sequence and cause/effect relationships in expository text and that yesterday they discussed a cause/effect relationship between the Native Americans becoming wards of the state and the tribes’ ability to support themselves. Ask and briefly discuss:

Q *How did being made wards of the state affect Native Americans living on the reservations?*

Remind the students that before European settlers came to North America, Native Americans lived very differently. Ask and briefly discuss:

Q *How was the way Native Americans lived on their own land different from the way they lived on the reservations?*

2 Introduce and Discuss Compare/Contrast Relationships

If necessary, remind the students that before Native American tribes were forced onto reservations, they were very connected to their land. Their traditions reinforced their connection to the land and their appreciation of nature’s gifts. They lived by hunting wild animals and by cultivating whatever crops grew naturally in the areas where they lived. They built houses and made tools and other goods out of wood, animal skins, reeds, and other materials that came from the land. Most reservation land, on the other hand, could not sustain crops and had few natural resources. Native Americans were unable to hunt or farm enough to make a living, and because they were not able to live off the land, their traditions no longer made sense. Point out that this is an

example of another text structure that can be found in expository text: the compare/contrast relationship, in which the author describes the similarities and/or differences between two things.

Point out that in much the same way that life on the reservations was different for Native Americans from life on their own land, life at the boarding schools was different for Native American children from life at home with their tribes.

Have the students turn to *Student Response Book* pages 65–67, “Excerpt from *Survival and Loss* (4).” Explain that this excerpt includes two sections from chapter 4 of the book. Ask the students to follow along as you read aloud the section titled “‘Before’ and ‘After.’” Read it aloud slowly and clearly. Then ask:

Q *How were the clothes and customs that were forced on the children when they arrived at the Carlisle School [similar to/different from] what they were used to? What words or sentences tell you that?*

Students might say:

“The clothes and customs were different because the children weren’t allowed to wear or keep anything they brought with them, even their special necklaces. One sentence says, ‘Everything was placed in a pile and burned.’”

“In addition to what [Stanley] said, things were different because the children were used to loose clothing, and the clothes they were given to wear were very stiff and uncomfortable.”

“The boys were used to having long hair, but when they got to school, their hair was cut short.”

Ask the students to turn to *Student Response Book* page 67 and read the passage titled “Unfamiliar Routines” independently, noticing compare/contrast relationships in the text. After the students have had sufficient time to read the passage, call for their attention and use “Heads Together” to discuss:

Q *What compare/contrast relationships did you notice in this passage? Heads together.*

3 Add to the “Expository Text Structures” Chart

Display the “Expository Text Structures” chart (WA5) and add *compare/contrast* to it.

Expository Text Structures

- *sequence*
- *cause/effect*
- *compare/contrast*

WA5

ELL Note

Consider reviewing this material with your students prior to today’s lesson.

Teacher Note

The passage discusses the contrast between the day-to-day life the children had been used to and the routine at the boarding schools.

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit's Individual Comprehension Assessment.

Teacher Note

Some examples of relationships in chapter 6 are: "The Carlisle school opened in 1879. . . . By 1902, there were 25 boarding schools in 15 states . . ." (sequence); "The report was embarrassing for the U.S. government By the 1930s, most of the boarding schools, including Carlisle, had been closed for good" (cause/effect); "At the time of the Meriam Report, almost 80 percent of Native American school-aged children were in boarding schools. . . . By the 1930s, most of the boarding schools, including Carlisle, had been closed for good" (compare/contrast).

Facilitation Tip

Reflect on your experience over the past five weeks with **responding neutrally with interest** during class discussions. Does this practice feel natural to you? Are you integrating it into class discussions throughout the school day? What effect is it having on the students? We encourage you to continue to try this practice and to reflect on students' responses as you facilitate class discussions in the future.

Teacher Note

Save the "Expository Text Structures" chart (WA5) to use on Day 4.

Review all of the items on the chart and explain that today the students will get more practice in recognizing information organized in a sequence, cause/effect relationships, and compare/contrast relationships.

ELPS 2.I.v
Step 4

4 Identify Expository Text Structures and Record in Double-entry Journals

Have the students turn to *Student Response Book* pages 68–69, "Excerpt from *Survival and Loss* (5)." Explain that this excerpt is chapter 6 of the book. Explain that they will read the chapter individually and practice recognizing information organized in a sequence and recognizing cause/effect and compare/contrast relationships. They will record the examples in a double-entry journal. Ask them to turn to *Student Response Book* page 70, "Double-entry Journal About *Survival and Loss*." Point out that the three different expository text structures are listed in the left-hand column. The students will record examples from the text for each expository text structure in the right-hand column.

As the students work, circulate and ask them the following questions to help them think about how information is organized in the text:

- Q *What happened with the boarding schools between 1879 and 1902?*
- Q *What caused the U.S. government to send Lewis Meriam and his team to report about the conditions on reservations and in boarding schools?*
- Q *How did what the U.S. government hoped the boarding schools would accomplish compare with what actually happened?*

If the students have difficulty identifying expository text structures, identify a few together as a class.

5 Discuss the Double-entry Journals

When the students have had time to record the examples in their own double-entry journals, call for their attention. Facilitate a class discussion by asking:

- Q *What is an example of [sequence] in the reading? How do you know?*
- Q *How does recognizing this [compare/contrast relationship] help you understand what the text is saying about why the boarding schools were closed?*
- Q *How did you work responsibly during this lesson?*

Explain that tomorrow the students will have an opportunity to look for information organized in a sequence, cause/effect relationships, and compare/contrast relationships in expository texts they read independently.

INDIVIDUALIZED DAILY READING

6 Read Independently and Think About Information and Text Structures

Ask the students to think about what facts they are learning as they read their social studies textbooks and to notice whether the part they read today is organized using the expository text structure of sequence, cause/effect, or compare/contrast. Tell them that at the end of IDR you will ask them to share with partners what they discovered. Have the students get their textbooks and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about their reading.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 100) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 103 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share what they read with partners. Have each student tell his partner what the part he read today is about, a fact he learned, and whether the text is organized using sequence, cause/effect, or compare/contrast. Have the students return to their desks and put away their textbooks.

EXTENSION

Analyze Paired Texts About Native American Boarding Schools

If the students are interested in learning more about Native American boarding schools, you might extend the exploration by reading aloud and discussing a fictional treatment of the subject. Fictionalized accounts include *My Name is Seepetza* by Shirley Sterling, *As Long as the Rivers Flow* by Larry Loyie, *Home to Medicine Mountain* by Chiori Santiago, and *Shi-shi-etko* and *Shin-Chi’s Canoe* by Nicola I. Campbell.

Prior to reading the book, have the students discuss facts they learned about Native American boarding schools in *Survival and Loss* and what they still wonder about the topic. Then point out that fiction authors are free to mix facts with invention (things they have made up), which means that works of fiction are not necessarily factually correct. But

Teacher Note

These books vary in length and difficulty. If you select a longer book, you might read a few chapters of it or set aside time to read it over several days.

Sugar Falls: A Residential School Story, by David Alexander Robertson, is a graphic novel that deals with the same subject matter. You might preview the novel, have interested students read it independently, and then discuss some of the questions on the next page with them.

Teacher Note

You might have the students record what they learned about Native American boarding schools in a double-entry journal. You might have them title one column “What I Learned About Native American Boarding Schools from a Nonfiction Book” and the other column “What I Learned About Native American Boarding Schools from a Fiction Book.”

fiction can help readers understand what people at certain times in history might have felt, thought, and experienced. Fictional accounts of history can give an “inside look” into a time and place in a way that expository nonfiction books cannot. Ask and discuss:

Q *Keeping in mind that fiction does not always stick to the facts, what might you learn about Native American boarding schools from a fictional account?*

Have volunteers share their thinking. Then read aloud the fiction book, stopping periodically to ask the students what they are learning about the experiences of children who attended Native American boarding schools. Ask questions such as:

Q *What have you learned so far about the experiences of children who attended Native American boarding schools?*

Q *What has been especially surprising or interesting so far?*

After the reading, take some time to review what the students learned from the fiction book and what they learned from *Survival and Loss*. Encourage the students to compare the two texts and make text-to-text connections by asking questions such as:

Q *How are the books *Survival and Loss* and [Shi-shi-etko] the same? How are they different?*

Q *How is each book organized?*

Q *Which book did you like better? Why?*

Day 4

Independent Strategy Practice

Materials

- “Expository Text Structures” chart (WA5) from Day 3
- Self-stick notes for each student
- “Class Assessment Record” sheet (CA5)
- “Journal Entry” chart (WA6)
- *Student Response Book*, Reading Journal section
- Copy of this unit’s family letter (BLM1) for each student

In this lesson, the students:

- Read independently
- Use text structure to analyze an expository text
- Explore sequence, cause/effect relationships, and compare/contrast relationships in the text
- Explore how information can be organized in expository text
- Write in their reading journals
- Work in a responsible way during group work

1 Review the “Expository Text Structures” Chart

Have the students get their *Student Response Books*, pencils, and textbooks and sit at desks in their groups of four. Remind the students that over the past several days they have been exploring relationships in

expository text. Display the “Expository Text Structures” chart (C WA5) and remind the students that expository text uses text structures such as sequence, cause/effect relationships, and compare/contrast relationships to organize information. Explain that today the students will practice recognizing these expository text structures as they read their own textbooks independently.

2 Read Textbooks Independently Without Stopping

Distribute several self-stick notes to each student. Have the students take a moment to select the sections of the textbook they wish to read today. Ask them to mark where they will start reading today with self-stick notes and then read independently for 10–15 minutes.

3 Think About Expository Text Structures and Prepare to Reread

After 10–15 minutes, stop the students and ask them to think silently to themselves for a moment about the following questions:

- Q *What is your reading about?*
- Q *Did you notice information organized in a sequence in your reading? If so, what is the time frame in which the sequence is happening?*
- Q *Did you notice a cause/effect relationship in your reading? If so, what is the cause and what is the effect?*
- Q *Did you notice a compare/contrast relationship in your reading? If so, what is being compared?*

Explain that the students will reread the same sections they just read. As they reread, they will mark with self-stick notes any instances where they notice information organized in a sequence, cause/effect relationships, and compare/contrast relationships. Encourage them to think about how recognizing these expository text structures helps them understand what they are reading.

4 Reread Independently and Mark with Self-stick Notes

Have the students reread independently for 10 minutes, marking selections with self-stick notes as they read. Circulate and look for evidence that the students are recognizing expository text structures as they read.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify how the textbook is organized?
- Do they recognize sequence, cause/effect relationships, and compare/contrast relationships in their reading?

Record your observations on the “Class Assessment Record” sheet (CA5); see page 99 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify how the textbook is organized, proceed with the lesson and continue on to Unit 8.
- If **about half of the students** or **only a few students** are able to identify how the textbook is organized, you might give the class additional instruction by repeating Day 4 using different sections of the textbook or a different textbook before continuing on to Unit 8.

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit’s Individual Comprehension Assessment.

Teacher Note

If some students are reading sections of the textbook that do not include any of the three expository text structures taught this week, you might invite them to instead write about the most interesting things they learned from their reading today.

ELL Note

Consider having students with limited English proficiency dictate journal entries for you to write down.

5 Write in Reading Journals About the Students’ Independent Reading

Display the “Journal Entry” chart (WA6) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

WA6

Journal Entry

Write a journal entry about the section you are reading.

Please include:

- The title of the section
- What the part you read today is about
- Whether you notice a sequence of events in your reading and, if so, what is the time frame in which the sequence of events is happening
- Whether you notice a cause/effect relationship in your reading and, if so, what is the cause and what is the effect
- Whether you notice a compare/contrast relationship in your reading and, if so, what is being compared

Ask the students to think quietly about what they will write. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals.

6 Discuss the Journal Entries in Groups and as a Class

Have the students use “Heads Together” to discuss:

Q *What did you write about in your reading journals? Heads together.*

Have a few volunteers each share a journal entry with the class. Remind each student to say the title of the section he read today and a few words about its topic. Facilitate a discussion by asking:

Q *What questions can we ask [Franklin] about the expository text structure he noticed?*

Q *[Franklin], how does recognizing [compare/contrast relationships] help you better understand the topic you're reading about?*

Remind the students that the purpose of studying expository text structures is to help them make sense of their own independent reading. Encourage them to continue to look for expository text structures as they read expository texts during IDR and throughout the school day.

7 Reflect on Taking Responsibility

Ask and briefly discuss questions such as:

Q *What did you do to work responsibly this week?*

Q *What do you want to continue to work on the next time you work with a partner or in a group?*

WRITING ABOUT READING

Write Opinions About Nonfiction

Remind the students that they have heard, read, and discussed several nonfiction texts this year. Show the covers of the expository nonfiction books you have collected and remind the students that expository nonfiction texts provide information about specific topics and are not told like stories. Ask:

Q *What other types of expository nonfiction texts did we talk about besides books? What were some of the topics of those texts?*

If necessary, remind the students that they heard, read, and discussed expository nonfiction articles about subjects like cloning and children's use of cell phones, as well as a variety of functional texts including instructions and schedules. Point out that, in addition to the read-alouds, the students have read many other examples of nonfiction during IDR and Independent Strategy Practice.

Vocabulary Note

Next week you will revisit *Survival and Loss: Native American Boarding Schools* to teach the Week 21 vocabulary lessons.

Teacher Note

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on the next page.

Materials

- Expository read-aloud books from Units 2, 3, 6, and 7, collected ahead

Teacher Note

Prior to doing this activity, collect the following read-alouds from Units 2, 3, 6, and 7: *Rainforests*, *Great Women of the American Revolution*, *Big Cats*, *Hurricanes*, *Global Warming*, and *Survival and Loss*.

First in pairs, and then as a class, discuss:

Q *What type of nonfiction do you most enjoy? Why? Turn to your partner.*

Q *What nonfiction topics are most interesting to you? Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

"I like functional texts best because they help you figure out how to do and make things."

"I like reading people's opinions about topics like whether kids should go to all-girls or all-boys schools because they get me thinking about my own opinions."

"I like books of interesting facts about nature because I love nature."

Point out that when people talk about what they like most or what they find the most interesting, they are giving *opinions*, or telling what they think about things. Remind the students that people may have different opinions about the same thing, and that is fine. What is important is that they explain their thinking. Ask the students to watch as you think aloud and model writing opinions about nonfiction.

You might say:

"I'll write: *The type of nonfiction texts I most enjoy are expository nonfiction books about psychology, or the study of the human mind.* I want to give a reason for my opinion. I'll write: *I like reading about those things because I always learn something that helps me be a better teacher, coworker, parent, partner, and friend.* I want to add more detail about my opinion. I'll write: *I learn how to handle my feelings better and get a better understanding of why people behave the way they do.*"

Have the students write their own opinion paragraphs about nonfiction they enjoy. Remind them to give reasons for their opinions. If time permits, ask a few volunteers to share their writing with the class.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of Unit 7. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit's family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

Assessments

- Before continuing on to the next unit, take this opportunity to assess individual students' reading comprehension using the "Individual Comprehension Assessment" record sheet (IA1); see page 104 of the *Assessment Resource Book*.
- (Optional) Prior to beginning the next unit, you might wish to prepare the students for an end-of-year reading assessment task by teaching the Answering Questions in Response to Text unit in the *Reading Assessment Preparation Guide*. For more information, see "Teaching the Unit" in the Introduction of the *Reading Assessment Preparation Guide*.

Unit 8

Determining Important Ideas and Summarizing

NARRATIVE NONFICTION AND FICTION

During this unit, the students continue to make inferences to understand text. They also think about important ideas and supporting details in texts and use important ideas to build summaries. During IDR, the students think about the comprehension strategies they use when reading independently. They also identify important ideas and supporting details and practice summarizing, and they continue to confer with the teacher individually about the texts they are reading. Socially, they give reasons for their opinions, discuss their opinions respectfully, and reach agreement before making decisions. They also learn how to support one another when working independently and how to give feedback in a caring way.

Unit 8

Determining Important Ideas and Summarizing

RESOURCES

Read-alouds

- *A River Ran Wild*
- *Harry Houdini: Master of Magic*
- “Mrs. Buell” from *Hey World, Here I Am!*

Writing About Reading Activities

- “Write About Visualizations of *A River Ran Wild*”
- “Make Inferences About Harry Houdini/Ehrich Weiss”

Technology Mini-lessons

- Mini-lesson 1, “Navigating Safely Online”
- Mini-lesson 2, “Maintaining Privacy Online”
- Mini-lesson 4, “Choosing Effective Search Terms”
- Mini-lesson 5, “Understanding Search Results”
- Mini-lesson 6, “Narrowing Search Results and Using Filters”
- Mini-lesson 7, “Evaluating Research Sources”

Technology Extensions

- “Learn More About the Nashua River”
- “Meet the Author: Lynne Cherry”
- “Research and Write About a Local River”
- “Compare *A River Ran Wild* with a Video Interview About the Nashua River Clean-up”
- “Explore Interactive Activities That Focus on Important Ideas and Supporting Details”
- “Learn More About Harry Houdini”

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this unit.

Whiteboard Activities

- WA1–WA13

Assessment Forms

- “Class Assessment Record” sheets (CA1–CA4)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

Reproducibles

- Unit 8 family letter (BLM1)
- (Optional) “Excerpts from *A River Ran Wild*” (BLM2)
- (Optional) “Excerpt from *Richard Wright and the Library Card*” (BLM3)

Professional Development Media

- “Using ‘Think, Pair, Write’” (AV10)
- “Responding Neutrally with Interest” (AV23)
- “Using Web-based Whiteboard Activities” tutorial (AV42)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)
- “Using Web-based Maps and Related Tools” tutorial (AV49)

RESOURCES (continued)

Extensions

- “Explore Text Features in *A River Ran Wild*”
- “Learn More About Protecting the Environment”
- “Explore Important Ideas and Supporting Details in *Richard Wright and the Library Card*”
- “Explore Important Ideas and Supporting Details in Another Passage from *Harry Houdini*”
- “Explore First-person Point of View in ‘Mrs. Buell’”
- “Analyze the Students’ Summaries”

Assessment Resource Book

- Unit 8 assessments

Student Response Book

- “Think, Pair, Write About *A River Ran Wild*”
- “Excerpt from *A River Ran Wild* (1)”
- “Excerpt from *A River Ran Wild* (2)”
- “Summary of *A River Ran Wild*”
- (Optional) “Summary of *Richard Wright and the Library Card*”
- “Mrs. Buell”
- “Summary of _____”
- Reading Log
- Reading Journal

Vocabulary Teaching Guide

- Week 21 (*Survival and Loss: Native American Boarding Schools*)
- Week 22 (*A River Ran Wild*)

Week 1

OVERVIEW

A River Ran Wild

by Lynne Cherry

This book traces the history of the Nashua River in Massachusetts from its discovery by Native Americans through its near-destruction from pollution to its later reclamation.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA3

Assessment Forms

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)

Reproducibles

- (Optional) “Excerpts from *A River Ran Wild*” (BLM2)
- (Optional) “Excerpt from *Richard Wright and the Library Card*” (BLM3)

Professional Development Media

- “Using “Think, Pair, Write”” (AV10)
- “Responding Neutrally with Interest” (AV23)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)
- “Using Web-based Maps and Related Tools” tutorial (AV49)

Comprehension Focus

- Students make inferences to understand a narrative nonfiction story.
- Students think about important ideas and supporting details in a narrative nonfiction story.
- Students read independently.

Social Development Focus

- Students work in a responsible way.
- Students develop the skill of giving reasons for their opinions.
- Students make decisions and solve problems respectfully.

DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding.
- ✓ Make available fiction and narrative nonfiction books, including biographies and autobiographies, at a variety of levels so that the students can practice making inferences and determining important ideas and supporting details during IDR throughout the unit.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit.
- ✓ Prior to Day 1, make a class set of “IDR Conference Notes” record sheets (CN1); see page 121 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1); see page 114 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 21 lessons this week.

Materials

- *A River Ran Wild*
- “Thinking About My Reading” chart
- “Reading Comprehension Strategies” chart
- Class set of “IDR Conference Notes” record sheets (CN1)
- *Assessment Resource Book* page 118

In this lesson, the students:

- Begin working with new partners
- Hear and discuss a narrative nonfiction story
- Make inferences about the story
- Read independently for up to 30 minutes
- Give reasons for their opinions

1 Pair Students and Introduce a Prompt for Supporting Opinions

Randomly assign partners and make sure they know each other’s names. Gather the class with partners sitting together, facing you. Review that the students have practiced several social skills, including using clarifying questions and statements, confirming that they understand another person’s thinking by repeating back what they heard, and using discussion prompts to build on one another’s thinking. Explain that over the next few weeks, they will focus on explaining their thinking more clearly by giving reasons for their opinions.

Write the following prompt where everyone can see it: *The reason I think this is _____*. Read the prompt aloud and tell the students that you would like them to use this prompt when they answer a question or give an opinion during a book discussion. Model using the prompt to give reasons for opinions.

You might say:

“In my opinion, hurricanes are the most frightening and dangerous type of natural disaster. The reasons I think this are that hurricanes are hundreds of miles wide, can last for days, and can cause flooding or even tornadoes.

I also have an opinion about the writer Richard Wright. I believe that he succeeded in spite of racism. The reason I think this is that he managed to check out books from the library even though black people couldn’t get library cards, and he became a great reader and writer.”

Tell the students that they have already been giving reasons for their opinions when they have explained their thinking by answering questions like *Why do you think so?* and *What in the text makes you think that?* Now the focus is on consciously using the prompt without waiting to be asked to explain their thinking.

2 Introduce *A River Ran Wild*

Review that the students have been making inferences to help them make sense of their reading. Explain that you would like them to continue to think about making inferences as they hear a new story today.

Show the cover of *A River Ran Wild* and read the title and the author's name aloud. Tell the students that Lynne Cherry is also the illustrator of the book. Explain that this nonfiction book traces the history of the Nashua River in Massachusetts from thousands of years ago to modern times.

Show the opening spread (before the title page that includes the author's name) and explain that these are maps of the area that is now called New England, where the Nashua River is located. The left page shows the area as it was when the Native Americans inhabited the land, and the right page shows the area in the 1900s. Explain that as the students listen you would like them to think about how the river and valley changed over the years and why they changed.

3 Read *A River Ran Wild* Aloud

Read the book aloud slowly and clearly, showing the illustrations and stopping as described on the next page. Clarify vocabulary as you read.

Suggested Vocabulary

thatch their dwellings: build homes using thin sticks for the walls and roof (p. 10)

trading post: store in the wilderness where people trade for food and supplies (p. 12)

pelts: animal skins (p. 14)

sawmills: buildings where machines saw (cut) logs into lumber (p. 14)

dams: walls to hold back water and keep it from flowing (p. 14)

gristmills: buildings where machines grind grain such as corn or wheat (p. 16)

industrial revolution: period of change in which machines are used more and more to do work previously done by hand (p. 18)

pulp: a mixture of ground-up wood, water, and other matter from which paper is made (p. 18)

decomposed: rotted or decayed (p. 22)

petitions: documents signed by many people that request government officials to take an action or change a policy (p. 26)

greenway: path lined with trees (p. 31)

Technology Tip

You might display a map of New England to show where the Nashua River is located. Search online using the keywords “map Nashua River” or “map Nashua River watershed.” To learn more about using web-based tools, view the “Using Web-based Maps and Related Tools” tutorial (AV49).

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

cattails: tall plants with long fuzzy ends that look similar to a cat's tail (p. 10)

wilderness: wild area that has very few people living in it (p. 14)

current: flowing water (p. 14)

trespass: go onto another person's property without permission (p. 16)

dye: substance used to color cloth and paper (p. 18)

pollution: harmful materials that damage the air, water, or soil (p. 21)

descendant: child, grandchild, great-grandchild, etc., of someone (p. 24)

mourned for the Nash-a-way: felt sad that the Nash-a-way was dying (p. 24)

process the waste: make the garbage less harmful (p. 26)

foul it: make it dirty (p. 28)

Stop after:

p. 10 "The river, land, and forest provided all they needed."

Ask:

Q *What did you learn about the river valley in the part of the story you just heard? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue reading. At each of the remaining stops, repeat the same procedure by using "Turn to Your Partner" to have partners briefly share what they have learned. Then reread the last sentence and continue.

p. 16 "Deer still came to drink from the river, and owls, raccoons, and beaver fed there."

p. 22 "The Nashua was slowly dying."

p. 26 "Finally, new laws were passed and the factories stopped polluting."

Continue reading to the end of the story.

4 Discuss the Story as a Class

Facilitate a discussion of the story using the following questions. Be ready to reread passages aloud and show illustrations again to help the students recall what they heard. Remind them to use the prompt "The reason I think this is . . ." to give reasons for their opinions and to use the other discussion prompts they have learned to add to one another's thinking. Ask and briefly discuss:

Q *What was the way of life of the Native Americans who settled along the river, and how did it change?*

Facilitation Tip

During this unit, we invite you to continue practicing **responding neutrally with interest** during class discussions by refraining from overtly praising or criticizing the students' responses. Try responding neutrally by nodding, asking them to say more about their thinking, or asking other students to respond. To see this Facilitation Tip in action, view "Responding Neutrally with Interest" (AV23).

Teacher Note

The discussion prompts are:

- "I agree with _____ because . . ."
- "I disagree with _____ because . . ."
- "In addition to what _____ said, I think . . ."

Students might say:

"They got everything they needed from the river and forests. When settlers came, they cut down the forests and so the Native Americans couldn't hunt like before."

"I agree with [Hallie] because the Native Americans asked the animals they killed to forgive them, which shows how they respected nature. But the settlers destroyed nature and ruined things for the Native Americans."

"In addition to what [Angel] said, I think the settlers' fences made it hard for the Native Americans to hunt like before. The settlers took over the land and pushed them out."

As the students make inferences about the story, point them out.

You might say:

"The story does not directly say that the Nashua people respected nature, but you figured that out from clues in the story."

Show the illustration on page 19. Ask and briefly discuss:

- Q** *What effect did machines and factories have on the Nashua River during the industrial revolution?*
- Q** *How did the river become clean again?*

Students might say:

"Some politicians shut down all the factories."

"I disagree with [Luke] because the story said that a Native American man named Oweana and a woman named Marion decided to do something about the river. They sent letters to the government, and laws got passed to stop all the pollution."

"Another reason the Nashua got clean again is that Marion went up and down the river motivating people to help make the river clear and beautiful like it used to be. That's how the river got cleaned up."

5 Reflect on Giving Reasons for Opinions

Facilitate a brief discussion about how the students did using the prompt "The reason I think this is . . ." to give reasons for their opinions. Share your own observations, and explain that you would like the students to continue to focus on giving reasons for their opinions throughout the week.

INDIVIDUALIZED DAILY READING

6 Review and Practice Self-monitoring and “Fix-up” Strategies

Tell the students that for the next four weeks they will read fiction and narrative nonfiction books during IDR.

Refer to the “Thinking About My Reading” chart and review the questions. Remind the students that it is important to stop, think about what they are reading, and use the questions on the chart to help them monitor their comprehension. If a student does not understand what she is reading, the student should use one or both of the “fix-up” strategies of rereading and reading ahead.

If a student has tried both of the “fix-up” strategies and still does not understand the book, she can try the strategies listed on the “Reading Comprehension Strategies” chart. Alternatively, the student might ask you or a classmate for help.

Have the students get their books and read silently for as many as 30 minutes. Stop them at 10-minute intervals and have them monitor their comprehension by thinking about the questions on the “Thinking About My Reading” chart. After they have settled into their reading, confer with individual students.

ELL Note

To support your English Language Learners, consider modeling reading a text and stopping periodically to ask yourself the self-monitoring questions listed on the chart. Discuss each question with your students to make sure they understand the process.

IDR CONFERENCE NOTE

Over the next four weeks, confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 118) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 121 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Facilitate a brief class discussion about using the questions on the “Thinking About My Reading” chart to track their reading comprehension. Ask and briefly discuss questions such as:

- Q *Why is it important to stop as you are reading and ask yourself if you understand what you have just read?*
- Q *How do rereading and reading ahead help you make sense of text?*
- Q *Which comprehension strategy do you find the most helpful when you’re not understanding something you’re reading? Why?*

Have the students return to their desks and put away their books.

Teacher Note

Provide time on a regular basis for the students to record the books they have completed in their reading logs.

TECHNOLOGY EXTENSION

Learn More About the Nashua River

Show the cover of *A River Ran Wild* and remind the students that earlier they heard this book about the history of the Nashua River. Ask:

Q *What do you remember about the Nashua River?*

As the students respond, record their thinking where everyone can see it. If the students struggle to answer the question, page through the book and summarize the important ideas.

Tell the students that today they will learn more about the Nashua River by exploring a website about it. Display the web page you have selected and read the sections you identified aloud. After reading each section, facilitate a discussion about what the students are learning by asking questions such as:

Q *What did you learn about the Nashua River from the section you just [heard/viewed]?*

Q *How did [watching the video/looking through the photo archives] help you better understand the history of the Nashua River?*

As the students respond, record their thinking where everyone can see it. After you have explored the web page together, have each student write a paragraph that tells what he learned about the Nashua River and its history. Encourage the students to use facts they learned from the book *A River Ran Wild* and from the web page to support their thinking.

TEKS 9.F.ii

Student/Teacher Narrative
Technology Tip

Technology Tip

Prior to doing this activity, find an age-appropriate web page about the Nashua River to share with your students. Search online using the keywords “Nashua River history” or “Nashua River watershed for kids.”

Preview the web page you have selected and identify the sections you will read aloud and the features that you want to show the students (for example, time lines, videos, photographs, audio clips, or historical documents). For more information, view the “Finding, Organizing, and Presenting Online Information” tutorial (AV43).

TEKS 9.F.ii

Student/Teacher Activity
Technology Extension
(last question)

Materials

- *A River Ran Wild*
- *Student Response Book* page 71
- “Think, Pair, Write About *A River Ran Wild*” chart (WA1)
- “Reading Comprehension Strategies” chart
- Small self-stick notes for each student

Teacher Note

You may need to remind the students that “Think, Pair, Write” is a technique in which they think quietly for a moment, talk in pairs about their thinking, and then individually write their ideas. For more information, view “Using ‘Think, Pair, Write’” (AV10).

**In this lesson, the students:**

- Hear and discuss part of a narrative nonfiction story again
- Make inferences about the story
- Think about what is important in the story
- Read independently for up to 30 minutes
- Give reasons for their opinions

ABOUT DETERMINING IMPORTANT IDEAS AND SUPPORTING DETAILS

The focus of this week is on determining important ideas and supporting details, a strategy that helps readers understand and retain what they read. The students explore this strategy through teacher modeling, discussions, and referring back to the text to support their opinions. As always, the goal is that the students use the strategy to make sense of their independent reading. (Determining important ideas and supporting details will also help to prepare the students for summarizing, which is the focus of the later weeks of this unit.) For more information, see “The Grade 5 Comprehension Strategies” in the Introduction.

1 Introduce Using “Think, Pair, Write” to Think About What Is Important

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Show the cover of *A River Ran Wild* and ask:

Q *What do you remember about A River Ran Wild?*

Review that the students heard *A River Ran Wild* and made inferences to figure out what happens in the story and why. Explain that today they will make inferences to help them think about what is important to understand and remember in the story.

Explain that you will reread the first half of *A River Ran Wild* aloud and the students will use “Think, Pair, Write” to take notes about what they think is important in the story.

Have the students turn to *Student Response Book* page 71, “Think, Pair, Write About *A River Ran Wild*.” Explain that during the reading you will stop several times. At the first two stops, you will model thinking and writing about what is important in the story before the students try it on their own. Then, at the last two stops, they will use “Think, Pair, Write” to think about what is important in the part of the story they

just heard, share their thinking in pairs, and then individually write their own ideas in their *Student Response Books*.

2 Reread from *A River Ran Wild* Aloud and Model Using “Think, Pair, Write” to Think About What Is Important

Read pages 7–8 aloud twice. Stop after:

p. 8 “He named the river Nash-a-way—River with the Pebbled Bottom.”

Model thinking quietly for a moment; then think aloud about what seems important in the passage. Display the “Think, Pair, Write About *A River Ran Wild*” chart (WA1) and model writing a note about this passage on the chart.

You might say:

“What seems most important to understand and remember in this passage is that long ago the river valley was home to many animals and that native people settled along the river. I’ll write: *Long ago the river valley was home to many animals. Native people settled along the river.*”

Think, Pair, Write About *A River Ran Wild*

Long ago the river valley was home to many animals. Native people settled along the river.

WA1

Ask the students to each write the same note on *Student Response Book* page 71. Continue reading, stopping after:

p. 10 “The river, land, and forest provided all they needed.”

Once again, model thinking quietly for a moment. Then think aloud about what seems important in the passage and model writing a note about this on the chart.

You might say:

“What seems most important to understand and remember is that the native people respected nature and killed only the animals they needed to survive. I’ll write: *The native people respected nature. They only killed the animals they needed to survive.*”

Ask the students to write the same note on *Student Response Book* page 71. Emphasize that thinking about what is important sometimes means saying in a few words what the author says over several pages.

TEKS 7.G.i
Student/Teacher Narrative
Step 2

Teacher Note

Important ideas in this passage include that European settlers came to the valley and built a village; the settlers made many changes to the valley and the river; and the settlers claimed the land for themselves and told the native people to stay away.

Teacher Note

Students may have different opinions about what is important in a passage. Give them time to consider other opinions before giving your own. Encourage them to explain their thinking and to refer to the text to support their opinions.

3 Continue Rereading from *A River Ran Wild Aloud* with “Think, Pair, Write”

Remind the students that at the next two stops they will practice thinking about what is most important for them to understand and remember in the story on their own. Then they will share their thinking with their partners and record their ideas in their own *Student Response Books*.

Reread the last sentence you read on page 10 (“The river, land, and forest provided all they needed”) and continue reading. Stop after:

p. 16 “They called the land their own and told the Indians not to trespass.”

Use “Think, Pair, Share” to discuss:

Q *What seems most important to understand and remember in the part you just heard? [pause] Turn to your partner.*

Circulate as partners talk, and notice whether they are able to identify important ideas in the passage. If students are having difficulty, reread parts of the passage to individual students and ask questions such as:

Q *What is this part mainly about?*

Q *If you had to tell what this part is about in one sentence, what would you say?*

After a moment, ask the class to listen again for what seems most important to understand or remember, and reread the passage aloud.

Have the students record what they think is most important to understand or remember on *Student Response Book* page 71. Then have a few volunteers share what they wrote with the class. After each volunteer shares, ask and briefly discuss as a class:

Q *Why does that idea seem most important?*

Q *What other ideas seemed important as you listened to the passage? Why?*

Reread the last sentence you read on page 16 (“They called the land their own and told the Indians not to trespass”) and continue reading. Stop after:

p. 16 “Deer still came to drink from the river, and owls, raccoons, and beaver fed there.”

Use “Think, Pair, Share” to discuss:

Q *What seems most important to understand and remember in the part you just heard? [pause] Turn to your partner.*

Again, circulate as partners talk, and notice whether they are able to identify important ideas in the passage. If the students have difficulty, reread parts of the passage to individual students and ask questions such as:

Q *What is this part mainly about?*

Q *If you had to tell what this part is about in one sentence, what would you say?*

Reread the passage aloud; then have the students record what they think is most important to understand or remember in the passage on *Student Response Book* page 71.

Have a few volunteers share with the class what they wrote. After each volunteer shares, ask and briefly discuss as a class:

Q *Why does that idea seem most important?*

Q *What other ideas seemed important as you listened to the passage? Why?*

Tell the students that *thinking about what is important in a text* is something good readers do to help them identify and remember the important ideas in a text. Explain that in the next lesson you will read the rest of the story and the students will continue to think about the important ideas in it.

4 Reflect on “Think, Pair, Write”

Facilitate a brief discussion of how the students did giving reasons for their opinions when they talked in pairs during “Think, Pair, Write.”

INDIVIDUALIZED DAILY READING

5 Mark and Discuss Reading Comprehension Strategies

Remind the students that for the next four weeks they will be reading fiction and narrative nonfiction books during IDR. Direct the students’ attention to the “Reading Comprehension Strategies” chart and remind them that these are the comprehension strategies they have learned so far this year. Ask them to notice which strategies they use and where they use them during their reading today.

Distribute self-stick notes to each student. Explain that the students will use self-stick notes to mark places in their books where they use comprehension strategies and that they should write the names of the strategies on the self-stick notes. Tell the students that later they will share with partners the passages they marked and the strategies they used. Ask the students to be prepared to talk about how each strategy helped them understand what they read.

Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

Teacher Note

Important ideas include that the native people’s way of life was threatened; the settlers fought the native people and finally drove them from the land; and the Nashua was still a healthy river at this time.

Teacher Note

Save the “Think, Pair, Write About A River Ran Wild” chart (WA1) to use on Day 3.

ELL Note

You might want to model this activity for your English Language Learners. In addition, you may want to preview the questions with them prior to having these students read.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 118) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 121 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share what he read with a partner. Have each partner begin by telling the title of the book he read, the author’s name, and what the book is about. Then have him share a passage he marked and the strategy he used to make sense of it.

When most pairs have finished sharing, signal for the students’ attention. Facilitate a class discussion about the strategies the students used. Ask:

- Q Which strategy did you use most frequently when you read independently?
- Q How does that strategy help you understand what you are reading?
- Q What should you do if you don’t understand what you are reading?

Have the students return to their desks and put away their books.

Technology Tip

Prior to doing this activity, locate a few age-appropriate sources that provide information about Lynne Cherry. Search for information online using the keywords “Lynne Cherry author” or “Lynne Cherry biography.” You might wish to bookmark the web pages that you will share with your students in your browser. For more information, view the “Finding, Organizing, and Presenting Online Information” tutorial (AV43).

TECHNOLOGY EXTENSION

Meet the Author: Lynne Cherry

The students may be interested in learning more about Lynne Cherry, the author and illustrator of *A River Ran Wild* and more than 30 award-winning books for children. Tell them that Lynne Cherry’s books have been used to start campaigns to save land, clean up rivers, save forests, and help migratory birds, and that she is also a filmmaker. Ask:

- Q What else would you like to know about Lynne Cherry?

Have a few volunteers share their thinking. As they respond, record their ideas where everyone can see them. Display the online sources you located that contain information about Lynne Cherry and read those sections aloud. Ask:

- Q What is something you learned about Lynne Cherry?

In this lesson, the students:

- Hear and discuss part of a narrative nonfiction story again
- Make inferences about the story
- Think about important ideas in the story
- Read independently for up to 30 minutes
- Give reasons for their opinions

1 Review Giving Reasons for Opinions

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Explain that today the students will again use “Think, Pair, Write” and make inferences to help them think about what is important in a text. Remind them to practice giving reasons for their opinions, using the prompt “The reason I think this is”

2 Review Thinking About What Is Important

Remind the students that in the previous lesson they heard the first half of *A River Ran Wild* again and used “Think, Pair, Write” to think about the important ideas in the story, or what is important to understand or remember. Have the students open to *Student Response Book* page 71, “Think, Pair, Write About *A River Ran Wild*,” and review the important ideas they recorded. Ask:

Q *What are some important ideas we identified in A River Ran Wild?*

Tell the students that today you will reread the rest of the story aloud, stopping three times. Explain that at the first stop, you will model thinking and writing about important ideas in the story. At the next two stops, the students will use “Think, Pair, Write” to think about the important ideas in the part of the story they just heard, share their thinking in pairs, and then individually write their own ideas in their *Student Response Books*.

3 Reread from *A River Ran Wild* Aloud and Model Using “Think, Pair, Write” to Think About Important Ideas

Remind the students that in the last part of the story they heard, the Nashua was still a healthy river. Reread the last sentence on page 16 and continue reading. Stop after:

p. 21 “Soon the Nashua’s fish and wildlife grew sick from this pollution.”

Materials

- *A River Ran Wild*
- *Student Response Book* page 71
- “Think, Pair, Write About *A River Ran Wild*” chart (WA1) from Day 2
- Small self-stick notes for each student

Model thinking quietly for a moment; then think aloud about an important idea in the passage. Display the “Think, Pair, Write About *A River Ran Wild*” chart (WA1) from Day 2. Model writing a note about this passage on the chart.

You might say:

“One important idea in this part of the book is that pollution from the factories began to hurt the river and its wildlife. I’ll write: *Pollution from the factories began to hurt the river and its wildlife.*”

Think, Pair, Write About *A River Ran Wild*

Long ago the river valley was home to many animals. Native people settled along the river.

The native people respected nature. They only killed the animals they needed to survive.

Pollution from the factories began to hurt the river and its wildlife.

WA1

Ask the students to each write the same note on *Student Response Book* page 71.

4 Continue Rereading from *A River Ran Wild* Aloud with “Think, Pair, Write”

Ask the students to think about an important idea in the next passage you read. Reread the last sentence on page 21 and continue reading. Stop after:

p. 26 “Finally, new laws were passed and the factories stopped polluting.”

Use “Think, Pair, Share” to discuss:

Q *What is an important idea in the part you just heard? What is most important to understand and remember? [pause] Turn to your partner.*

Circulate as partners talk and notice whether they are able to identify important ideas in the passage. After a moment, ask the class to listen again for an important idea, or what seems most important to understand or remember, and reread the passage aloud.

Have the students record what they think is an important idea in the passage on *Student Response Book* page 71. Have a few volunteers share what they wrote with the class. After each volunteer shares, ask and briefly discuss as a class:

Q *Why does that idea seem most important?*

Q *What other ideas seemed important as you listened to the passage? Why?*

Teacher Note

Important ideas include that the Nashua River began to die because of the pollution; Oweana and Marion decided to do something to save the river; people worked together to protest what was happening to the river; and new laws were finally passed to stop the pollution.

Reread the last sentence on page 26 and continue reading. Stop after:

p. 31 “Nashua is what we call it—River with the Pebbled Bottom.”

Again, have the students think and then briefly share in pairs. Reread the passage aloud; then have the students record what they think is an important idea on *Student Response Book* page 71.

Have a few volunteers share what they wrote with the class. Facilitate a brief class discussion by asking:

- Q** *Why does that idea seem most important?*
- Q** *What other ideas seemed most important as you listened to the passage? Why?*

Remind the students that thinking about what is important when reading helps them identify and remember the important ideas in the text. Explain that in the next lesson they will think more about the important ideas in *A River Ran Wild*.

5 Reflect on “Think, Pair, Write”

Facilitate a brief discussion about how the students did working in pairs during “Think, Pair, Write.” Ask:

- Q** *How did you and your partner do giving reasons for your thinking about the important ideas in the story?*
- Q** *Did you change your mind about what was important in a passage after you heard your partner’s thinking? Tell us about that.*

INDIVIDUALIZED DAILY READING

6 Read Independently and Think About Important Ideas

Remind the students that they have been thinking about important ideas in texts. Distribute self-stick notes to each student. Explain that you want them to use self-stick notes to mark at least one important idea in their reading today. Tell the students that later they will share one important idea they found in their reading with the class. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

Teacher Note

Important ideas in this passage include that slowly the Nashua became a clean, healthy river again; pollution is no longer dumped into the river; and the river is safe for people and wildlife.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 118) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 121 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Invite a few volunteers to share with the class. Have each volunteer begin by telling the title of the book she read, the author’s name, and what the book is about. Then have her share one important idea she found in her reading. After each volunteer shares an important idea from her reading, ask questions such as:

Q *Why do you think the idea you marked is important?*

Q *What other ideas might be important in this section?*

Have the students return to their desks and put away their books.

Technology Tip

To support the students in doing online research, you might teach the following technology mini-lessons in Appendix B: Mini-lesson 4, “Choosing Effective Search Terms”; Mini-lesson 5, “Understanding Search Results”; Mini-lesson 6, “Narrowing Search Results and Using Filters”; and Mini-lesson 7, “Evaluating Research Sources.” For more information about teaching Technology Mini-lessons 4-7, see “About Teaching the Online Research Lessons” at the beginning of Technology Mini-lesson 4.

If the students need support in using the Internet safely, you might teach the following lessons before the students begin their online research: Mini-lesson 1, “Navigating Safely Online,” and Mini-lesson 2, “Maintaining Privacy Online.”

EXTENSION

Explore Text Features in *A River Ran Wild*

Show the students the cover of *A River Ran Wild* and remind them that they heard this narrative nonfiction book earlier. Page through the book, pointing out and reading aloud the various text features, including the time line and the maps on the opening spread and the labeled illustrations around many of the page borders. Facilitate a class discussion about what the students learned from the text features and how the features added to their enjoyment of the book.

TECHNOLOGY EXTENSION

Research and Write About a Local River

Show the cover of *A River Ran Wild* and remind the students that they heard this nonfiction book earlier. Review that the book tells the history of the Nashua River in New England. Explain that the class will research a river in their own state or region to learn facts about the history and health of the river. Invite volunteers to share the names of any local rivers they may know.

Explain that the class will begin their research by doing an online search. Briefly discuss what keywords might be useful (for example, “California rivers” or “Wisconsin rivers health”; you might also suggest “American rivers history”).

Guide the students in an online search for reputable websites. As a class, browse the websites to identify and learn facts about a local river. Afterward, briefly discuss:

Q *What did you learn about the [Gila River]?*

You might have the students write paragraphs about what they learned. Ask each student to title his paragraph and include a text feature, if possible.

Strategy Lesson

Day 4

In this lesson, the students:

- Determine important ideas and supporting details in a narrative nonfiction story
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Reach agreement before making decisions

1 Review Important Ideas

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind them that in previous lessons they heard you reread *A River Ran Wild* and they used “Think, Pair, Write” to think about and record important ideas in the story. Have the students turn to *Student Response Book* page 71 and take a few moments to review the important ideas they wrote. Remind the students that thinking about what is important when reading helps them identify and remember the important ideas in the text.

2 Model Distinguishing Between Important Ideas and Supporting Details

Have the students turn to *Student Response Book* page 72, “Excerpt from *A River Ran Wild* (1).” Tell them that this is an excerpt from the middle of the story, after the settlers drove the native people from the land.

TEKS 6.G.i
Student/Teacher Narrative
Steps 1 and 2

Materials

- *A River Ran Wild*
- *Student Response Book* pages 71–73
- “Excerpt from *A River Ran Wild* (1)” chart (WA2)
- Two different-colored pencils or pens for each student
- “Excerpt from *A River Ran Wild* (2)” chart (WA3)
- “Class Assessment Record” sheet (CA1)
- “Reading Comprehension Strategies” chart and a marker
- Small self-stick notes for each student

Teacher Note

Today’s lesson may take longer than usual to complete. You might consider stopping after Step 3 and then completing the remainder of the lesson at another time.

ELL Note

To support your English Language Learners, show and discuss the illustrations on pages 18-19 of the book again; then read the excerpt aloud as they follow along, stopping intermittently to talk about what is happening.

Teacher Note

If the students have difficulty identifying supporting details, review that *supporting details* are “facts, examples, or descriptions that tell more about an important idea.” Ask:

Q *Where in the passage are other supporting details about the new machines that were invented?*

Read page 18 of the book aloud twice as the students follow along in their *Student Response Books*.

Display the “Excerpt from *A River Ran Wild* (1)” chart ( WA2). Model thinking quietly for a moment; then think aloud about an important idea in the paragraph.

You might say:

“One idea that seems important to understand and remember in this paragraph is that many new machines were invented. The reason I think this is important is that later we find out that these machines polluted the river.”

Underline the sentence “Many new machines were invented” on the chart. Ask the students to underline the same sentence on *Student Response Book* page 72.

Using a different color, underline the sentence “Some spun thread from wool and cotton” on the chart and read the underlined text aloud. Explain that this is a detail that describes some of the new machines—it tells more about what some of the machines did. Explain that details, examples, and descriptions that tell more about, or support, the important ideas in a text are called *supporting* details. Have the students use a different color to underline “Some spun thread from wool and cotton” in their *Student Response Books*. Ask:

Q *What other details in this paragraph support the important idea that many new machines were invented?*

Have a few volunteers share their thinking with the class, and underline the supporting details on the chart using the color you designated for supporting ideas.

Students might say:

“I think the sentences ‘Others wove the thread into cloth. Some machines turned wood to pulp, and others made the pulp into paper’ are supporting details. The reason I think this is that the sentences give examples of the kinds of machines that were invented.”

“I agree with [Cammy]. Those sentences give details that tell more about the machines but aren’t the most important things to remember.”

Have the students use their colored pencils or pens to underline the details in their *Student Response Books*.

3 Distinguish Between an Important Idea and a Supporting Detail

Direct the students’ attention back to the “Excerpt from *A River Ran Wild* (1)” chart. Read aloud the last sentence in the paragraph: “Leftover

pulp and dye and fiber was dumped into the Nashua River, whose swiftly flowing current washed away the waste.” Ask:

Q *Is this sentence an important idea or a supporting detail? Why do you think so? Turn to your partner.*

Have one or two students share their thinking with the class. Remind the students to use the discussion prompts they have learned to build on one another’s thinking and to give reasons that support their opinions.

Students might say:

“I think the sentence is an important idea. The reason I think this is that it tells how the machines began to pollute the river.”

“I think this might be a detail. We don’t need to remember all about the pulp and dye and fiber.”

“I disagree with [Marcella]. I think this sentence is important to remember because it tells how the river started getting dirty.”

“I agree with [Patrick]. The sentence says the machines dumped pulp and dye into the river, and that’s what started the pollution. That’s important to know.”

After the students have reached agreement, underline the sentence on the chart using the color you designated for important ideas, and have the students do the same in their *Student Response Books*.

Point out that readers usually do not remember every word or detail as they read, so they need to be thinking about what ideas are the most important to understand and remember. Good readers also need to be able to tell the difference between important ideas and supporting details as they read. Explain that next the students will practice identifying important ideas and supporting details in another passage from *A River Ran Wild*.

4 Agree on One Important Idea and One Supporting Detail in an Excerpt

Have the students turn to *Student Response Book* page 73, “Excerpt from *A River Ran Wild* (2).” Tell the students that this excerpt tells what happened next to the Nashua River. Read pages 21–22 of the book aloud as the students follow along in their *Student Response Books*.

Explain that the students will reread the excerpt independently and think quietly about one important idea and one supporting detail in the excerpt. They will then discuss their thinking in pairs. Partners will come to agreement on one important idea and one supporting detail,

ELL Note

To support your English Language Learners, show and discuss the illustrations on pages 20–23 of the book again; then read the excerpt aloud as they follow along, stopping intermittently to talk about what is happening.

TEKS 6.G.i
Student/Teacher Activity
Steps 4 and 5

Teacher Note

Initially, students often have difficulty distinguishing between important ideas and supporting details. Having the students identify only one important idea and one supporting detail helps to focus their thinking.

TEKS 6.A.i

Student/Teacher Activity

Step 4

(last paragraph before Class Assessment Note)

and each partner will underline these in his own *Student Response Book* using two different-colored pencils or pens. Ask and briefly discuss:

Q *What are some ways you and your partner can work together to decide which important idea and supporting detail to underline? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

"We can take turns sharing what we think the important idea is. If we picked different important ideas, we can see if one idea is more important to remember than the other one."

"In addition to what [Zane] said, we can also take turns sharing what we think is a supporting detail. If we picked different supporting details, we can think about which detail supports the important idea we chose."

Have the students reread the excerpt independently and think quietly about one important idea and one detail that supports it. Then give partners a few minutes to agree on and underline one important idea and one supporting detail. Circulate as pairs work and notice which sentences they underline.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify important ideas in the excerpt?
- Are they able to identify supporting details?
- Is there evidence that they can distinguish between important ideas and supporting details in the excerpt?

Record your observations on the "Class Assessment Record" sheet (CA1); see page 114 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify and distinguish between important ideas and supporting details, proceed with the lesson and continue on to Week 2.
- If **about half of the students** are able to identify and distinguish between important ideas and supporting details, continue on to Week 2 and plan to closely observe students who are having difficulty identifying and distinguishing between the two. Many students will need repeated experiences to learn this complex skill.
- If **only a few students** are able to identify and distinguish between important ideas and supporting details, you might give the class additional instruction by repeating this week's lessons using an alternative book before continuing on to Week 2. Visit the CCC Learning Hub (ccclearninghub.org) to view the "Grade 5 Alternative Texts" list.

5 Discuss Important Ideas and Supporting Details as a Class

When the students finish their partner work, display the “Excerpt from *A River Ran Wild* (2)” (WA3). Facilitate a class discussion using the following questions. Remind the students to give reasons for their opinions. Ask:

- Q *What is an important idea in this part of the story? Why do you and your partner think that information is important?*
- Q *Do others agree that this is an important idea? Why or why not?*

Students might say:

“My partner and I underlined ‘Soon the Nashua’s fish and wildlife grew sick from this pollution.’ We agree that this is important because it’s the start of the really bad pollution that killed animals.”

“We underlined ‘The Nashua was slowly dying.’ It’s an important idea because that’s what this book is about—how pollution nearly killed the river.”

- Q *What is a supporting detail? What idea do you think this detail supports? Explain your thinking.*
- Q *Do others agree that this is a supporting detail? Why or why not?*

Students might say:

“My partner and I think ‘No one could see pebbles shining up through murky water’ is a supporting idea. We think so because it’s an example of how dirty the water was.”

“We think ‘Chemicals and plastic waste were also dumped into the river’ is supporting because it’s a detail.”

“We think ‘Every day for many decades pulp was dumped into the Nashua’ is a supporting detail because it tells more about how the pollution happened.”

“I disagree with [Li]. Knowing that pulp was dumped into the river for decades is very important to understand this book. I think it’s an important idea, not a detail.”

As the students share, underline the important ideas and supporting details they mention on the chart using two different colors. Ask and discuss as a class:

- Q *Over the past couple of days we’ve been talking about important ideas in *A River Ran Wild*. Now that you’ve thought about some of the important ideas, what would you say this story is about?*

TEKS 7.G.i
Student/Teacher Activity
Step 5

Students might say:

“This story is about how the Nashua River almost died but then was brought back to life.”

“In addition to what [William] said, I think the story is about how people worked together to clean up the river and save it.”

“In addition to what [William] and [Rachel] said, I’d say that the book is a history of the river, starting a very long time ago and going until today.”

6 Add to the “Reading Comprehension Strategies” Chart

Direct the students’ attention to the “Reading Comprehension Strategies” chart and add *determining important ideas and supporting details* to it.

Tell the students that determining important ideas and supporting details in a text can help them better understand and remember what they have read, and that the goal is for them to use these strategies as they read independently.

Reading Comprehension Strategies

- using text features
- questioning
- recognizing story elements
- making inferences
- visualizing
- analyzing how texts are organized
- determining important ideas and supporting details

Tell the students that they will continue to think about important ideas and supporting details in the coming weeks.

7 Reflect on Reaching Agreement

Facilitate a brief discussion about how the students worked together. Ask:

- Q *Today you and your partner worked together to choose one important idea and one supporting detail. What did you do to make sure you agreed before making a decision?*
- Q *What problems or challenges did you have? How did you handle them?*

INDIVIDUALIZED DAILY READING

8 Read Independently and Think About Important Ideas

Distribute self-stick notes to each student. Explain that you would like each student to mark at least one important idea in her reading today. Tell the students that later they will share the important ideas they found in their reading with partners. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 118) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 121 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share with a partner one important idea she found in her reading. Remind each student to begin by telling the title of the book she read, the author’s name, and what the book is about. After partners have shared, have a few volunteers share the important ideas they found in their reading with the class. After each volunteer shares, ask questions such as:

- Q *Why do you think the idea you marked is important?*
- Q *What other ideas might be important in this section?*

Have the students return to their desks and put away their books.

Vocabulary Note

Next week you will revisit *A River Ran Wild* to teach the Week 22 vocabulary lessons.

Materials

- Copy of “Excerpts from *A River Ran Wild*” (BLM2) for each student

Teacher Note

Prior to doing this activity, visit the CCC Learning Hub (ccclearninghub.org) to access and print “Excerpts from *A River Ran Wild*” (BLM2). Make enough copies for each student to have one, and set aside a copy for yourself.

WRITING ABOUT READING

Write About Visualizations of *A River Ran Wild*

Without showing the cover of *A River Ran Wild*, remind the students that they heard and discussed the book earlier. Ask:

Q *What do you remember about the book?*

Explain that today you will reread two passages from *A River Ran Wild*, and tell the students that you would like them to close their eyes and visualize, or picture what they are hearing in their minds, as they listen. Explain that even if they remember the illustrations from the book, they should try to pay attention to the images they are forming in their minds—including sights, sounds, smells, and feelings—as they hear the words.

Read the first passage on “Excerpts from *A River Ran Wild*” (BLM2) aloud without stopping. After reading, ask:

Q *What did you visualize as you heard the passage? What did you see, hear, smell, or feel?*

Have volunteers share their thinking.

Students might say:

“I pictured a clear river winding through tall trees, sparkling in the sunlight.”

“I could hear geese honking as they flew over the river, and the trees were making a peaceful whispering sound in the breeze.”

“I imagined a fresh smell of healthy plants and flowers as well as clean water.”

Read the second passage on “Excerpts from *A River Ran Wild*” (BLM2) aloud without stopping. After reading, ask:

Q *What did you visualize as you heard the passage? What did you see, hear, smell, or feel?*

Have volunteers share their thinking.

Students might say:

“I imagined a terrible smell of rotten fish combined with garbage and chemicals.”

“I visualized a bizarre sight of a river that was one bright color after another.”

“I could imagine hearing the sound of stuff splashing from big pipes into the river and the water flowing along. There were no sounds of birds or other animals, and no sounds of people.”

Explain that today the students will write about what they visualized as they heard each passage. Ask the students to watch as you think aloud and model writing about the first passage.

You might say:

"When I read the first passage, I visualized a river traveling through a green forest. I could hear birds chirping and the sound of water tumbling over pebbles as it traveled down the river. I smelled wildflowers and fresh country air. I'll write: *When I read the first passage from Lynne Cherry's book A River Ran Wild, I imagined a long, narrow river traveling through a green forest. I could hear geese honking and the sound of water rushing and tumbling over pebbles. I smelled wildflowers and fresh country air. I want to give evidence from the passage for this visualization. I'll write: The words 'a river ran wild through a land of towering forests,' 'geese paused on their long migration,' 'clear waters,' and 'pebbles shone up from the bottom' all helped me visualize this lovely, peaceful scene.*"

Distribute a copy of "Excerpts from *A River Ran Wild*" (BLM2) to each student. Have the students write about their own visualizations of the two passages. Remind each student to include the title and the author's name in his paragraph, as well as the clues in the passages that helped him visualize. If time permits, invite volunteers to share what they wrote with the class.

EXTENSIONS

Learn More About Protecting the Environment

You might read aloud other books with an environmental theme, giving the students additional practice with thinking about important ideas. Stop occasionally during the reading to have the students discuss what is important to know and why. Here are some titles to consider: *Common Ground: The Water, Earth, and Air We Share* by Molly Bang; *The Drop in My Drink: The Story of Water on Our Planet* by Meredith Hooper; and *The Sea, the Storm, and the Mangrove Tangle* by Lynne Cherry.

Explore Important Ideas and Supporting Details in *Richard Wright and the Library Card*

Show the students the cover of *Richard Wright and the Library Card* and remind them that they heard this story earlier. Ask:

Q *What do you remember about this story?*

If necessary, remind the students that this story is based on a true incident from the life of Richard Wright, a famous author. Tell the students that you will reread the story, and ask them to think as they listen about what is important to learn or remember in the story. Review that *thinking about what is important in a story* is something good readers do to help them identify and remember the important ideas.

Teacher Note

Prior to doing this activity, visit the CCC Learning Hub (ccclearninghub.org) to access and print "Excerpt from *Richard Wright and the Library Card*" (BLM3). Make enough copies for each student to have one, and set aside a copy for yourself.

TEKS 6.G.i
Student/Teacher Activity
Second Extension

Teacher Note

Important ideas include that Richard loved words and stories; he wanted to learn to read, but he didn't have many chances to go to school; and when he was seventeen, he moved to Memphis to find work.

Teacher Note

You might wish to review that details, examples, and descriptions that tell more about, or support, the important ideas in a text are called *supporting details*.

Read the story aloud, showing the illustrations and stopping as described below. Stop after:

p. 9 "He hoped to find work, earn enough money to move to Chicago, where he would make a new life for himself in the north."

Ask and discuss questions such as:

- Q** *What seems most important to understand and remember in the part you just heard?*
- Q** *What is this part mainly about?*
- Q** *If you had to tell what this part is about in one sentence, what would you say?*

Reread the last sentence on page 9 and continue reading the story. At each of the remaining stops, ask the same questions and have the students briefly discuss what they think are the important ideas.

p. 16 "'No, sir,' Richard promised. 'I'll be careful.'"

p. 25 "Richard knew he would never be the same again."

p. 31 "Every page was a ticket to freedom, to the place where he would always be free."

Tell the students that they will read an excerpt from *Richard Wright and the Library Card* and work with partners to think about important ideas and supporting details in it.

Distribute a copy of "Excerpt from *Richard Wright and the Library Card*" (BLM3) to each student. Have the students work in pairs to read the excerpt and determine one important idea in the excerpt and a detail that supports it. Remind the students to give reasons to support their opinions and to work with their partners to reach agreement. Circulate and assist students as needed. Then facilitate a class discussion about the excerpt using questions such as:

- Q** *What is an important idea in this part of the story? Why do you and your partner think that information is important?*
- Q** *Do others agree that this is an important idea? Why or why not?*
- Q** *What is a supporting detail? What idea do you think this detail supports? Explain your thinking.*
- Q** *Do others agree that this is a supporting detail? Why or why not?*

TECHNOLOGY EXTENSION

Compare *A River Ran Wild* with a Video Interview About the Nashua River Clean-up

Review that the students heard the nonfiction book *A River Ran Wild* earlier. Invite volunteers to briefly share what they remember about the book.

Explain that Marion Stoddart, one of the individuals involved in the clean-up of the Nashua River, is mentioned in *A River Ran Wild*. Read aloud pages 24–26 and the last three sentences in the first paragraph on page 32 (the acknowledgments page) beginning “Marion herself read . . .” and ending “. . . and spry as she is.” Ask and briefly discuss:

Q *What questions do you have about Marion Stoddart?*

Tell the students that they will watch a video interview of Marion Stoddart in which she discusses the Nashua River. Have the students watch the video you selected. Ask and discuss:

Q *What else did you learn about Marion Stoddart from watching the video?*

Tell the students that the interview with Marion Stoddart is a *primary source*. Explain that a *primary source* can be anything (for example, an article, interview, or diary entry) that is created by a person who was there when the event happened. Point out that book *A River Ran Wild* is a *secondary source*. Explain that a *secondary source* (for example, a book, article, or movie) is created by a person who was not present when the event occurred.

Q *What questions do you still have?*

Q *How was the information in the video [similar to/different from] what you learned in *A River Ran Wild*?*

Q *Based on what you heard in the interview, is the book *A River Ran Wild* a credible, or believable, source for learning about the story of the Nashua River? Why do you think that?*

Tell the students that it is important to check whether a secondary source is written by someone who thoroughly researched the topic. Name several types of secondary sources, and have the students discuss whether they think they are credible, or believable. You might mention sources such as: gossip magazines, wiki sites, science magazines, your local newspaper, or a favorite website you use with your students.

Technology Tip

Prior to doing this technology extension, search for and preview a video interview of Marion Stoddart using the keywords “Marion Stoddart video interview Nashua River” or “Marion Stoddart documentary clip.” For more information, view the “Finding, Organizing, and Presenting Online Information” tutorial (AV43).

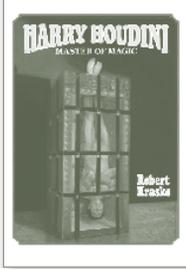

Teacher Note

You might wish to explain that page 32 is an acknowledgments page, or a page on which the author thanks people and organizations that helped her write the book.

Week 2

OVERVIEW

Harry Houdini: Master of Magic

by Robert Kraske

This is a biography of Harry Houdini, one of the greatest escape artists and magicians of all time.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA4–WA8

Assessment Forms

- “Class Assessment Record” sheet (CA2)
- “IDR Conference Notes” record sheet (CN1)

Professional Development Media

- “Using Web-based Whiteboard Activities” tutorial (AV42)
- “Finding, Organizing, and Presenting Online Information” tutorial (AV43)

Comprehension Focus

- Students think about important ideas and supporting details in a narrative nonfiction story.
- Students use important ideas to build summaries.
- Students use schema to articulate all they think they know about a topic before they read.
- Students read independently.

Social Development Focus

- Students work in a responsible way.
- Students develop the skill of giving reasons for their opinions.
- Students discuss their opinions respectfully.

Ⓜ DO AHEAD

- ✓ Prior to Day 1, collect enough book and movie summaries so that each pair of students can share a summary (see Step 4).
- ✓ Prior to Day 3, prepare a sheet of chart paper with the title “Important Ideas in Harry Houdini” (see Step 2).
- ✓ Prior to Day 3, make a copy of the “Class Assessment Record” sheet (CA2); see page 115 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 22 lessons this week.

Materials

- *A River Ran Wild* from Week 1
- “Summary of *A River Ran Wild*” chart (WA4)
- *Student Response Book* page 74
- Book and movie summaries, collected ahead
- “Questions About Summaries” chart (WA5)
- “Thinking About Important Ideas” chart (WA6)

In this lesson, the students:

- Hear, read, and discuss summaries
- Explore what a summary is
- Read independently for up to 30 minutes
- Give reasons for their opinions

ABOUT SUMMARIZING

During the next three weeks, the focus of instruction is *summarizing*, a key strategy for helping readers understand and communicate about what they read. The students continue to explore important ideas, a critical step in summarizing. Through teacher modeling, partner and class discussions, and guided practice, the students learn to put a text’s important ideas together in a concise summary. The goal is for the students to be able to use summarizing both orally and in writing to communicate with others about what they read.

1 Review Giving Reasons for Opinions

Have the students bring their *Student Response Books* and gather with partners sitting together, facing you. Remind the students that they learned the prompt “The reason I think this is . . .” to give reasons for their opinions. If necessary, write the prompt where everyone can see it. Explain that you would like the students to continue using the prompt in both partner and class discussions this week.

2 Review *A River Ran Wild*

Show *A River Ran Wild* and review that last week the students heard the story and made inferences as they determined important ideas and supporting details in it. Ask:

Q *What do you remember from the book about the Nashua River?*

If necessary, stimulate the students’ recollection by reading each of the following quotes aloud and asking the students to remember what was happening in that part of the story. For each quote, have a volunteer share what was happening:

p. 8 “He named the river Nash-a-way—River with the Pebbled Bottom.”

p. 12 “. . . one day a pale-skinned trader came with a boatload full of treasures.”

p. 18 “Many new machines were invented.”

- p. 22** “Each day as the mills dyed paper red, green, blue, and yellow, the Nashua ran whatever color the paper was dyed.”
- p. 26** “Marion traveled to each town along the Nashua. She spoke of the river’s history and of her vision to restore it.”
- p. 31** “Once again the river runs wild through a towering forest greenway.”

3 Read and Discuss a Summary of the Book

Display the “Summary of *A River Ran Wild*” chart (WA4) and explain that this is a summary of the book *A River Ran Wild*. Tell the students that a *summary* is a “brief description of what a text is about.” Ask the students to follow along as you read the summary aloud.

After reading the summary, have the students turn to *Student Response Book* page 74, “Summary of *A River Ran Wild*.” Point out that this is the summary you just read. Ask the students to read it again quietly to themselves.

After the reading, facilitate a class discussion using the following questions. Remind the students to use the prompt “The reason I think this is . . .” as they talk. Ask:

- Q** *What does this summary of the book do?*
- Q** *What kind of information is in the summary?*

Students might say:

- “The summary tells you the title and the author of the book.”
- “The summary tells you what the book is about.”
- “It gives you the story, but in a shorter version.”
- “It has the main information about the river. The reason I think this is that it doesn’t tell everything—like how the river changed color from the dye.”
- “I agree with [Anya]. The summary has the important ideas from the book—like when the river got cleaned up and ran wild again.”

- Q** *Why might you want to read a summary of a book?*

Students might say:

- “You might want to know what the book is about before you read it.”
- “In addition to what [Charles] said, a summary could help you figure out if the book sounds interesting.”

ELL Note

Have students who are unable to read the summary on their own read it with partners, or you might reread it aloud yourself as the students read along.

Teacher Note

You will use the “Summary of *A River Ran Wild*” chart (WA4) again on Day 4.

Technology Tip

You can find book summaries on the back covers of books as well as at online bookseller sites. You can search for book or movie summaries online using the keywords “book summary [book title]” or “movie summary [movie title]”; look for summaries of books and movies the students are likely to be familiar with. If you do not have enough summaries for all of the pairs, you might have some of the pairs read “Summary of *Richard Wright and the Library Card*” on *Student Response Book* page 75.

4 Explore Other Summaries

Explain that you have collected summaries from various sources for the students to read today. Distribute the summaries, one to each pair. Display the “Questions About Summaries” chart (WA5). Tell the students that they will read their summaries quietly in pairs and then discuss the questions on the chart. Read aloud the questions on the chart.

WA5

Questions About Summaries

- What book or movie is your summary about?
- What did you learn about the book or movie from the summary?

Have each pair read their summary quietly and then discuss the questions. When most pairs have had a chance to talk, have a few pairs share with the class what their summary is about and what they learned from the summary. Follow up by asking:

Q *How might this summary be helpful to you or others who read it?*

Explain that *summarizing* is “using important information in a text to say briefly what the text is about.” Readers summarize to help them make sense of what they are reading and to remember the important information in a text. They also summarize to communicate to others what a text is about.

Explain that over the next few weeks the students will learn how to summarize so they can write summaries of their own independent reading books to share with the class.

5 Reflect on Giving Reasons for Opinions

Facilitate a brief discussion about how the students did with using the prompt “The reason I think this is . . .” to give reasons for their opinions.

INDIVIDUALIZED DAILY READING

6 Self-monitor to Think About Important Ideas

Remind the students that they have been thinking about important ideas in texts. Display the “Thinking About Important Ideas” chart (WA6) and tell the students that these are questions they can ask themselves as they are reading to help them recognize the important ideas in their books. Read the questions aloud.

Thinking About Important Ideas

- What seems important to understand in the reading so far?
- What might the author want you to be thinking about at this point?

Explain that today you will stop the students periodically during IDR to have them think about how well they are recognizing the important ideas in their books. Tell the students that later they will share an important idea from their reading with the class.

Have the students get their books and read silently for up to 30 minutes. Stop the students at 10-minute intervals and have them think about the questions on the chart. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 118) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 121 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Invite a few volunteers to share with the class. Have each volunteer begin by telling the title of the book she read, the author’s name, and what the book is about. Then have her share an important idea from her reading with the class. Remind the students to use evidence from the text to support their thinking. If the student struggles to share an important idea, probe her thinking by asking questions such as:

- Q *What do you think is most important for you to remember in the part of the book you read today?*
- Q *Why do you think that is most important?*

Have the students return to their desks and put away their books.

Teacher Note

You will use the “Thinking About Important Ideas” chart (WA6) again on Day 2.

Materials

- *Harry Houdini: Master of Magic* (pages 6–16)
- “Thinking About Important Ideas” chart (WA6) from Day 1

In this lesson, the students:

- Hear and discuss part of a narrative nonfiction story
- Brainstorm what they think they know about the topic of the story
- Make inferences about the story
- Read independently for up to 30 minutes
- Give reasons for their opinions

1 Review Summaries and Summarizing

Have the students gather with partners sitting together, facing you. Remind the students that in the previous lesson they heard a summary of *A River Ran Wild*. Review that a summary is a “brief description of what a text is about.” It includes important ideas or information from the text.

Explain that you will read part of a book aloud today, and in the next two days the class will think about the important ideas in the story and then build a summary of it together using the important ideas.

2 Introduce *Harry Houdini: Master of Magic*

Show the cover of *Harry Houdini: Master of Magic* and read the title and the author’s name aloud. Read the information on the back cover aloud and ask:

Q *What do you think this book is going to be about?*

Q *What do you think an escape artist does?*

Tell the students that the book is a biography of a man named Harry Houdini. If necessary, explain that a biography is a nonfiction retelling of another person’s life. Tell the students that Houdini became world famous in the late 1800s and early 1900s for escaping from situations that seemed impossible to escape from. Tell the students that you will read the beginning of the book today.

3 Read Aloud

Read pages 6–16 aloud slowly and clearly, stopping as described on the next page. Clarify vocabulary as you read.

Suggested Vocabulary

supernatural: caused by powers outside of nature; magical (p. 8)

bluff: trick (p. 13)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

safe: locked box used to store valuable things (p. 7; refer to the illustration on p. 6)

escape: get out (p. 7)

trapeze: high swing used in circuses (p. 11)

Stop after:

pp. 9–10 “He had been sitting behind the screen for almost a half hour while the audience’s excitement grew.”

Ask:

Q *What happened in the part of the story you just heard? Turn to your partner.*

Without sharing as a class, reread the last sentence before the stop on pages 9–10 and continue reading to the next stop. Stop after:

p. 11 “He had already learned the first rule of being a magician: Never tell how you do a trick!”

Ask:

Q *What did you learn about Harry Houdini in this part of the story? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue reading to the next stop. Repeat this procedure at the next two stops:

p. 13 “She hugged her hardworking son.”

p. 16 “He was seventeen years old.”

Finish today’s reading with the above sentence on page 16.

4 Discuss the Reading as a Class

Facilitate a discussion of the story using the questions that follow. Remind the students to use the prompt “The reason I think this is . . .” to give reasons for their opinions and to use the other discussion prompts they have learned to build on one another’s thinking. Ask and briefly discuss:

Q *At the beginning of the passage, Harry was at the Euston Palace Theatre. Why was the audience at the theater so excited?*

Facilitation Tip

Continue to focus on **responding neutrally with interest** during class discussions by refraining from overtly praising or criticizing the students’ responses. Instead, build the students’ intrinsic motivation by responding with genuine curiosity and interest, for example:

- “Say more about that.”
- “Explain your thinking further.”
- “You have an opinion that’s [similar to/ different from] what [Kyoko] just said. How is it [similar/different]?”
- “Do you agree with [Callum]? Why or why not?”
- “What questions do you have for [Callum] about [his] thinking?”

Teacher Note

Be prepared to reread passages from the text to help the students recall what they heard.

Students might say:

"The audience was excited because Harry was about to escape from a locked safe."

"The people didn't think Harry could do it. They thought it was impossible."

Then ask:

Q *What word would you use to describe Harry when he was a boy? Why would you use that word? Why was Harry well suited to become a magician?*

Students might say:

"Harry was smart. He learned how to pick locks."

"Harry was a show-off. He liked performing in front of people."

"In addition to what [Stacy] said, he was hardworking. He worked hard to learn things, like how to pick locks."

As the students make inferences about the story, point them out.

You might say:

"The book does not directly say Harry was smart, but you figured it out from clues such as how he learned to pick locks."

Explain that tomorrow the students will think about the important ideas in this story and prepare to write a summary of it.

INDIVIDUALIZED DAILY READING

5 Self-monitor to Think About Important Ideas

Display the "Thinking About Important Ideas" chart (🟢 WA6) and remind the students that these are questions they can ask themselves as they are reading to help them recognize the important ideas in their books. Explain that today you will again stop them periodically during IDR to have them think about how well they are recognizing the important ideas in their books. Tell the students that later they will share important ideas from their reading with partners.

Have the students get their books and read silently for up to 30 minutes. Stop the students at 10-minute intervals to have them think about the questions on the chart. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 118) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 121 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share an important idea from his reading with a partner. Remind each student to begin by telling the title of the book he read, the author’s name, and what the book is about. Remind the students to use evidence from the text to support their thinking.

After partners have had a chance to share, have a few volunteers share important ideas from their reading with the class. If a student struggles to share an important idea, probe his thinking by asking questions such as:

- Q *What do you think is most important for you to remember in the part of the book you read today?*
- Q *Why do you think that is most important?*

Have the students return to their desks and put away their books.

Materials

- *Harry Houdini: Master of Magic*
- “Important Ideas in Harry Houdini” chart, prepared ahead, and a marker
- “Class Assessment Record” sheet (CA2)
- Small self-stick notes for each student

TEKS 9.D.i
Student/Teacher Narrative
Step 1

Teacher Note

If the students have difficulty identifying important ideas in the passage, you may want to teach this lesson over two days. Follow the procedure you used in Days 2 and 3 of Week 1, in which the students hear the passage, discuss important ideas in pairs, hear the passage again, and record their ideas.

In this lesson, the students:

- Hear and discuss part of a narrative nonfiction story again
- Determine important ideas and supporting details in the story
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Review Important Ideas and Supporting Details

Have the students gather with partners sitting together, facing you. Remind the students that last week they thought about the important ideas and supporting details in *A River Ran Wild*. Review that distinguishing between (telling the difference between) important ideas and supporting details (like facts, examples, and descriptions) helps readers understand texts more deeply.

Explain that determining important ideas and supporting details is also necessary to summarize a text because a summary is made up of the important ideas in a text. Tell the students that today you will reread the passage they heard yesterday from *Harry Houdini*, and they will think about the important ideas in it. This will prepare them to write a summary of it as a class tomorrow.

2 Reread the Passage from *Harry Houdini*

Explain that as you reread the passage from *Harry Houdini* you will stop several times. At each stop, the students will think about the important ideas in the part of the story they just heard. They will then share their thinking in pairs.

Read pages 6–16 slowly and clearly, stopping after:

p. 8 “‘Then,’ Houdini said, shaking hands with the last man, ‘let me enter the safe. Lock the door behind me!’”

Ask:

Q *What is most important to understand or remember about what you’ve heard so far? Turn to your partner.*

Direct the students’ attention to the “Important Ideas in Harry Houdini” chart. Have a few volunteers share their ideas with the class. As the students share, record their ideas on the chart.

Important Ideas in Harry Houdini

Houdini is getting into a safe that is locked in front of an audience. He's going to try to get out.

He could die if he doesn't get out.

Follow this procedure at the next five stops, recording one or two ideas on the chart at each stop.

- pp. 9-10** "He had been sitting behind the screen for almost a half hour while the audience's excitement grew."
- p. 10** "As they grew up, Ehrich and his brothers had to earn money for the family by shining shoes and selling newspapers."
- p. 12** "'He can pick any lock in the place!'"
- p. 14** "Ehrich never thought about making a living doing tricks."
- p. 16** "He was seventeen years old."

Circulate as partners talk at each stop.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify important ideas in the story?
- Are they referring to the text to support their thinking?

Record your observations on the "Class Assessment Record" sheet (CA2); see page 115 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are identifying important ideas and referring to the text to support their thinking, proceed with the lesson and continue on to Day 4.
- If **about half of the students** or **only a few students** are identifying important ideas and referring to the text to support their thinking, continue on to the guided summarizing lesson on Day 4, but plan to model writing the entire summary with the class. Then plan to give the class additional instruction by repeating this week's lessons using an alternative book before continuing on to Week 3. Visit the CCC Learning Hub (ccclearninghub.org) to view the "Grade 5 Alternative Texts" list.

TEKS 9.D.i
Student/Teacher Activity
Steps 2 and 3

Teacher Note

Other important ideas in the passage include:

- The audience thinks he's dead.
- He escapes, but he is sitting behind the screen.
- His real name was Ehrich Weiss.
- His family came to America from Hungary.
- His family was poor.
- He performed tricks for his friends.
- He earned a few dollars doing magic shows in clubs.
- He read a book about a French magician and changed his name to Houdini.
- He decided to make magic his life's work.

Teacher Note

Save the "Important Ideas in [Harry Houdini](#)" chart to use on Day 4.

3 Discuss Important Ideas as a Class

Review the ideas on the "Important Ideas in [Harry Houdini](#)" chart. Facilitate a discussion using the questions that follow. Remind the students to give reasons for their opinions.

- Q *Are there any important ideas that we need to add to the chart? Explain your thinking.*
- Q *Are there any ideas on the chart that you think are supporting details? Why do you think that?*
- Q *Do you agree or disagree with [Arne]? Why?*

Students might say:

"I think the idea that he earned money doing tricks is a supporting detail. I don't think we need to remember that."

"I agree with [Arne]. The important idea is that he was doing magic when he was young. The information about where he did it is a detail."

"I think it's important that he stole cakes from the cupboard. It shows he could pick locks."

"I disagree with [Pam]. I think stealing cakes is a supporting detail. The important idea is that he was learning how to pick locks."

Make adjustments to the chart as needed during this discussion, adding important ideas and crossing out supporting details. If the students have difficulty distinguishing between important ideas and supporting details, you might think aloud to model your own thinking and revise the chart as needed.

Explain that in the next lesson the class will use the ideas on the chart to write a summary of the passage.

4 Reflect on Discussing Opinions Respectfully

Point out that it is normal for people to have different opinions when discussing what are important ideas and what are supporting details in a text. Remind the students of any disagreements during today's class discussion. Ask:

- Q *When someone disagrees with you, how do you like that person to tell you that?*
- Q *If the person doesn't tell you in that way, how might you feel? Why?*
- Q *How can we make sure that we can disagree respectfully during our discussions?*

Tell the students that they will continue to discuss their opinions in the coming weeks and that you would like them to focus on doing so respectfully.

INDIVIDUALIZED DAILY READING

5 Discuss Important Ideas and Supporting Details

Remind the students that they have been thinking about both important ideas and supporting details in texts. Distribute self-stick notes to each student. Explain that each student should use the self-stick notes to mark one important idea and one supporting detail in her reading today. Tell the students that later they will share the important ideas and supporting details they marked with the class.

Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 118) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 121 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share the important ideas and supporting details they marked with the class. Have each student begin by telling the title of the book she read, the author’s name, and what the book is about. Remind the students to use the prompt “The reason I think this is . . .” to support their thinking.

After each volunteer shares an important idea and supporting detail from her reading, ask questions such as:

- Q *Why do you think the idea you marked is important?*
- Q *How does this passage you marked as a supporting detail support, or give more information about, the important ideas in your reading?*

Have the students return to their desks and put away their books.

Technology Tip

For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

TECHNOLOGY EXTENSION

Explore Interactive Activities That Focus on Important Ideas and Supporting Details

Determining important ideas and supporting details in a text is a key strategy that helps readers understand and retain what they read. Many interactive whiteboard activities that provide students with opportunities to practice identifying important ideas and supporting details are available online. For more information, search online using the keywords “main idea and supporting details interactive whiteboard activities.”

Day 4

Strategy Lesson

Materials

- *Harry Houdini: Master of Magic*
- “Important Ideas in Harry Houdini” chart from Day 3
- “Summary of *A River Ran Wild*” chart (WA4) from Day 1
- *Student Response Book* page 74
- “Summary of the Passage from *Harry Houdini*” chart (WA7)
- “Reading Comprehension Strategies” chart and a marker
- Small self-stick notes for each student
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA8)

In this lesson, the students:

- Build a summary as a class
- Read independently for up to 30 minutes
- Write in their reading journals
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Review Important Ideas and Summarizing

Have the students bring their *Student Response Books* and gather with partners sitting together, facing you. Direct the students’ attention to the “Important Ideas in Harry Houdini” chart and remind them that in the previous lesson they made a list of the important ideas in the passage from the book. Review that identifying important ideas is necessary for summarizing a text and that readers summarize to help them make sense of what they are reading and to help them remember important information in a text. They also summarize to communicate to others what a text is about.

Explain that today the class will use the ideas on the chart to write a summary of the passage from *Harry Houdini*. Remind them that they will be writing their own summaries in the next couple of weeks.

2 Review the Summary of *A River Ran Wild*

Display the “Summary of *A River Ran Wild*” chart ( WA4) and have the students turn to *Student Response Book* page 74, where the summary is

reproduced. Explain that this summary, which they read earlier in the week, can serve as a model for the summary they will write today.

Ask the students to reread the summary quietly to themselves (or follow along as you read it aloud again). Then use “Think, Pair, Share” to discuss:

Q *What do you notice in the summary of *A River Ran Wild* that might serve as a model when we summarize the passage from *Harry Houdini*? [pause] Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

“The first sentence tells you the title of the book and the author’s name. It also tells you what it’s about.”

“It doesn’t say everything that’s in the book. The reason I think this is that lots of supporting details are left out.”

“It’s not too long.”

If necessary, point out that the summary begins with a general statement of what the story is about and continues with important events or ideas from the story.

3 Model Starting the Summary of *Harry Houdini*

Display the “Summary of the Passage from *Harry Houdini*” chart (WA7). Explain that you will begin the summary and the class will write the rest of it together.

Tell the students that you want to begin the summary with a general statement of what the story is about. Ask:

Q *In a sentence, what is the passage we read from *Harry Houdini* about?*

Students might say:

“It’s about a famous magician and escape artist when he was a kid.”

“It’s about how *Harry Houdini* started getting into magic and things when he was still young.”

Using the students’ suggestions, model writing an opening sentence about the story that includes the title of the book and the author’s name. If the students cannot come up with a general opening sentence that tells what the story is about, provide one yourself.

ELPS 4.G.ii
Steps 3 and 4

TEKS 7.D.ii
Student/Teacher Narrative
Step 3

Summary of the Passage from *Harry Houdini*

This passage from the book *Harry Houdini: Master of Magic* by Robert Kraske is about the famous magician and escape artist Harry Houdini and how he got started in magic as a kid.

Explain that the rest of the summary will be made up of ideas that are listed on the “Important Ideas in *Harry Houdini*” chart. Model adding to the summary by thinking aloud about selecting information on the chart for the second sentence and then writing the second sentence of the summary.

You might say:

“Since this story starts by describing Houdini as an adult and then moves to his childhood, it makes sense to tell how it happened in that order. The first thing Houdini does in the book is to attempt an escape from a locked safe in front of a live audience. I’ll use that information for the second sentence of the summary. I’ll write: *It begins with a story of how, as an adult, Houdini escaped from a locked safe in front of a live audience.*”

Follow this procedure to provide the third sentence of the summary. If possible, model combining two or three pieces of information on the chart into a single sentence. Point out that combining information in this way helps to keep the summary brief.

You might say:

“The idea ‘Houdini’s real name was Ehrich Weiss’ and the idea ‘Houdini’s family came to America from Hungary when he was a child’ can be combined into one sentence. I’ll write: *Houdini’s real name was Ehrich Weiss, and his family came to America from Hungary when he was a child.*”

4 Complete the Summary as a Class

Referring to the “Important Ideas in *Harry Houdini*” chart, elicit suggestions for what to add to the summary by asking:

Q *What information do you think should come next in the summary? Why do you think that?*

Use the students’ suggestions to add sentences to the chart, shaping and combining their ideas as necessary to keep the summary clear and concise. You may need to model the use of words such as *then*, *next*, and *after that* to connect sentences and show the sequence of events.

Teacher Note

If the students are unable to suggest sentences, continue to model by thinking aloud and adding your own sentences to the chart.

TEKS 7.D.ii
Student/Teacher Activity
Step 4

The completed summary might look like this:

WA7

Summary of the Passage from *Harry Houdini*

This passage from the book *Harry Houdini: Master of Magic* by Robert Kraske is about the famous magician and escape artist Harry Houdini and how he got started in magic as a kid. It begins with a story of how, as an adult, Houdini escaped from a locked safe in front of a live audience.

Houdini's real name was Ehrich Weiss, and his family came to America from Hungary when he was a child. The family was poor, and Ehrich and his brother had to earn money to live. Ehrich performed tricks for his friends, sometimes even earning a few dollars at neighborhood clubs. After reading about the French magician Robert-Houdin, Ehrich changed his name to Houdini and decided to make magic his life's work.

Teacher Note

Save the "Summary of the Passage from *Harry Houdini*" chart (WA7) to use in Weeks 3 and 4 of this unit.

When the summary is finished, reread it aloud and ask:

- Q** *Do you think someone who hasn't read the passage from Harry Houdini could get a good idea of what it is about from reading this summary? If not, what can we add?*

5 Add to the "Reading Comprehension Strategies" Chart

Direct the students' attention to the "Reading Comprehension Strategies" chart and add *summarizing* to it. Review that *summarizing* is "using important information in a text to say briefly what the text is about." Explain that summarizing is a powerful strategy for remembering important information and communicating it to others.

Reading Comprehension Strategies

- using text features
- questioning
- recognizing story elements
- making inferences
- visualizing
- analyzing how texts are organized
- determining important ideas and supporting details
- summarizing

Tell the students that during the next couple of weeks they will practice summarizing, with the goal of writing summaries of their own books to share with their classmates.

6 Reflect on Today's Partner and Class Conversations

Facilitate a brief discussion about today's conversations and how the students did giving reasons for their opinions and discussing their opinions respectfully. Report any examples you noticed of students disagreeing respectfully and giving reasons for their opinions.

INDIVIDUALIZED DAILY READING

7 Read Independently and Write About an Important Idea and a Supporting Detail

Distribute self-stick notes to each student. Explain that each student should use the self-stick notes to mark at least one important idea and one supporting detail in his reading today. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 118) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 121 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students return to their desks and open their *Student Response Books* to the Reading Journal section. Then display the “Journal Entry” chart (WA8) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

Journal Entry

Write a journal entry about the book you are reading.

Please include:

- The title and the author’s name
- What the book is about
- An important idea you marked in your reading and why you think it is important
- A supporting detail you marked in your reading and why you think it is a supporting detail

WA8

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

Vocabulary Note

Next week you will revisit *Harry Houdini* to teach the Week 23 vocabulary lessons.

Materials

- *Harry Houdini: Master of Magic*

Teacher Note

Prior to doing this activity, you might wish to do the extension on the next page, "Explore Important Ideas and Supporting Details in Another Passage from *Harry Houdini*." If you have done this extension with the students, begin the Writing About Reading activity by rereading and discussing pages 6–16 as described here. Then reread and discuss pages 46–51 in the same way. Your modeling and the students' writing can then draw on clues about Houdini/Weiss from both passages.

TEKS 7.C.i

Student/Teacher Narrative
Writing About Reading
("You might say example")

TEKS 7.C.i

Student/Teacher Activity
Writing About Reading
(last paragraph)

WRITING ABOUT READING

Make Inferences About Harry Houdini/ Ehrich Weiss

Show the cover of *Harry Houdini* and remind the students that they heard part of this biography earlier. Ask:

Q *What do you remember about the passage you heard?*

Remind the students that Houdini's real name was Ehrich Weiss. Explain that today you will reread the passage and ask the students to listen carefully for clues about what kind of person Ehrich Weiss was as a boy. Then they will write about their inferences.

Read pages 6–16 of *Harry Houdini* aloud without stopping. After reading, ask:

Q *What kind of person was Ehrich Weiss? What in the passage makes you think so?*

Ask the students to watch as you think aloud and model writing about Ehrich Weiss's personality.

You might say:

"I think that the things Ehrich Weiss said and did as a boy showed that he was a daring and responsible person. I'll start by writing: *Robert Kraske's book Harry Houdini: Master of Magic reveals that Ehrich Weiss was a daring and responsible boy.* Now I need to explain the clues in the passage that made me think that. I'll write: *I know Ehrich was daring because once he dared to tell a group of boys waiting to apply for a job that the job was already taken. The truth was, he was bluffing, but he ended up getting the job.* Now I'll write about how I know Ehrich was responsible: *I know Ehrich was responsible because the passage explains that he took any jobs he could find to help his sick father.*"

Explain that the students will now write their own paragraphs about the kind of person Ehrich Weiss was as a boy, based on the inferences they made from clues in the passage. Remind them to include the title of the book and the author's name in their paragraphs, as well as the clues in the passage that helped them make their inferences. If time permits, invite volunteers to share what they wrote with the class.

EXTENSION

Explore Important Ideas and Supporting Details in Another Passage from *Harry Houdini*

Show the students the cover of *Harry Houdini* and remind them that they heard part of this biography earlier. Ask and briefly discuss:

Q *What do you remember about Harry Houdini?*

Tell the students that you will read another passage from the book aloud. Explain that in this passage Harry Houdini and his wife Bess have traveled to Europe so that Harry can perform his act; they hope that he will become an even bigger success. Read aloud chapter 6, “A Big Hit in Europe” (pages 46–51), slowly and clearly, showing the photograph on page 49 and stopping as described below.

Stop after:

p. 47 “When Houdini escaped in seconds, the British audience cheered and cheered.”

Ask:

Q *What did you learn in the part of the book you just heard? Turn to your partner.*

Without sharing as a class, reread the last sentence before the stop and then continue reading. At each of the remaining stops, repeat the same procedure by using “Turn to Your Partner” to have the students share briefly what they learned. Then reread the last sentence and continue.

p. 48 “Wherever he went, newspapers wrote stories about him, and people crowded into theaters to see him.”

p. 51 “No longer would they dare to call him ‘Dime Museum Harry!’”

Tell the students that now you will reread the same passage, stopping several times. Ask the students to think as they listen about important ideas and supporting details in the passage. Reread pages 46–51 aloud, stopping as described below. Stop after:

p. 47 “When Houdini escaped in seconds, the British audience cheered and cheered.”

Ask and discuss:

Q *What is an important idea in this part of the story? Why do you think that information is important?*

Q *Do others agree that this is an important idea? Why or why not?*

Q *What is a supporting detail? What idea do you think this detail supports? Explain your thinking.*

Q *Do others agree that this is a supporting detail? Why or why not?*

As volunteers share, record what they think are important ideas and supporting details where everyone can see them.

Teacher Note

Important ideas include that Harry escaped from handcuffs at Scotland Yard; the London newspapers published the story of his amazing escape; and Harry became a big success in London.

Reread the last sentence before the stop on page 47 and then continue rereading the passage. At each of the remaining stops, ask the same questions and have the students briefly discuss what they think are the important ideas and supporting details.

p. 48 “Wherever he went, newspapers wrote stories about him, and people crowded into theaters to see him.”

p. 51 “No longer would they dare to call him ‘Dime Museum Harry!’”

Continue recording the students’ ideas where everyone can see them.

If time permits, you might invite the students to write summaries of the passage using the ideas you recorded.

Technology Tip

Prior to doing this activity, locate and preview an age-appropriate website about Harry Houdini using the keywords “Harry Houdini biography.” You might bookmark the website you will share with your students in your browser. For more information, view the “Finding, Organizing, and Presenting Online Information” tutorial (AV43).

TEKS 6.B.vi
Student/Teacher Activity
Technology Extension

TEKS 13.A.ii
Student/Teacher Narrative
Technology Extension

TECHNOLOGY EXTENSION

Learn More About Harry Houdini

Review that *Harry Houdini: Master of Magic* is about the famous magician and escape artist Harry Houdini. Remind the students that they heard a passage from the biography earlier. Explain that you will reread the passage and ask the students to think about questions they have about Houdini as they read. Reread pages 6–16 of the book aloud slowly and clearly. Then ask:

Q *What questions do you have about Harry Houdini?*

Tell the students that today they will explore a website about Harry Houdini and then discuss what they have learned.

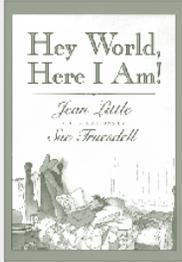

Display your browser page and go to the website you previewed. Model navigating the website, and read aloud any information you think the students may find interesting. Afterward, discuss questions such as:

Q *Did you find out more about something you had a question about? What did you find out?*

Q *What are you still curious to find out about Harry Houdini?*

Week 3

OVERVIEW

“Mrs. Buell” from *Hey World, Here I Am!**

by Jean Little, illustrated by Sue Truesdell

Kate doesn’t think much about grouchy Mrs. Buell until the old woman disappears from her life.

**This book is also used in Unit 9, Week 1.*

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA9–WA11

Assessment Forms

- “Class Assessment Record” sheet (CA3)
- “IDR Conference Notes” record sheet (CN1)

Comprehension Focus

- Students think about important ideas and supporting details in a fiction story.
- Students use important ideas to summarize the story.
- Students read independently.

Social Development Focus

- Students work in a responsible way.
- Students develop the skill of giving reasons for their opinions.
- Students discuss their opinions respectfully.

Ⓜ DO AHEAD

- ✓ Prior to Day 2, prepare a sheet of chart paper with the title “Directions for Section 3.” Write directions on the chart paper as shown in the diagram in Step 4.
- ✓ Prior to Day 3, prepare a sheet of chart paper with the title “Directions for Section 6.” Write directions on the chart paper as shown in the diagram in Step 4.
- ✓ Prior to Day 4, prepare a sheet of chart paper with the title “Summary of ‘Mrs. Buell’” (see Step 2).
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA3); see page 116 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 23 lessons this week.

Day 1

Read-aloud

Materials

- “Mrs. Buell” from *Hey World, Here I Am!* (pages 42–47)
- Small self-stick notes for each student

ELL Note

Summarize the story for your English Language Learners prior to today's read-aloud.

In this lesson, the students:

- Hear and discuss a fiction story
- Identify important ideas in the story
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Review and Get Ready to Work Together

Gather the students with partners sitting together, facing you. Explain that this week the students will continue to learn about using important ideas to summarize text. Remind them that summarizing is an important strategy because it helps readers understand a text and communicate what it is about.

Remind the students that they have been focusing on giving reasons for their opinions and on discussing their opinions respectfully. Explain that you would like them to continue to practice these skills in the coming week.

2 Introduce “Mrs. Buell”

Tell the students that today you will read aloud from the book *Hey World, Here I Am!* Show the cover of the book and read the names of the author and the illustrator aloud. Explain that the book is a collection of stories, poems, and other writing by a fictional teenager named Kate Bloomfield. Today you will read a story called “Mrs. Buell,” in which Kate tells about a woman who owns a neighborhood store.

Ask the students to listen for important ideas as you read. Tell them that you will stop several times to have partners talk about what seems important about the part they just heard.

3 Read Aloud

Read “Mrs. Buell” (pages 42–47) aloud slowly and clearly, showing the illustrations and stopping as described on the next page. Clarify vocabulary as you read.

Suggested Vocabulary

intent on: focused on (p. 43)

slunk out: sneaked away quietly (p. 44)

gawking: staring stupidly (p. 45)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

run-down: in poor condition (p. 42)

corner store: small neighborhood store (p. 42)

licorice, jawbreakers: kinds of candy (p. 42)

stale: old; not fresh (p. 42)

grouch: person who is in a bad mood (p. 42)

lost my nerve: got nervous or scared (p. 44)

Stop after:

p. 43 “She was always the same except that once.”

Use “Think, Pair, Share” to discuss:

Q *What’s most important to understand or remember about the part you just heard? [pause] Turn to your partner.*

Without sharing as a class, reread the last sentence before the stop on page 43 and continue reading to the next stop. Follow the same procedure at the following stops:

p. 44 “I didn’t go near the store for weeks.”

p. 46 “‘I said we’re shut. If you don’t want anything, beat it,’ she told me.”

Continue reading to the end of the story.

4 Discuss the Story as a Class

Facilitate a discussion of the story using the following questions. Remind the students to use the prompt “The reason I think this is . . .” to give reasons for their opinions and to use the other discussion prompts they have learned to build on one another’s thinking.

Q *What are some of the important ideas you heard in this reading? Why do those ideas seem important?*

Facilitation Tip

Continue to practice **responding neutrally with interest** during class discussions by demonstrating genuine interest in and curiosity about what the students say and by refraining from overtly praising or criticizing their responses.

Students might say:

"Mrs. Buell is grouchy and mean to the kids. They're all kind of afraid of her."

"I agree with [Denise]. The part where Mrs. Buell puts a bandage on Kate's knee is important, too. It shows that Mrs. Buell has this nice side that Kate didn't know about."

"Kate feels bad when Mrs. Buell dies. The reason I think this is that she says she has a hole in her life."

"In addition to what [LaVaughn] said, Kate wishes she had been nicer to Mrs. Buell because in the story Kate wonders why she didn't smile back at Mrs. Buell."

Q *How do Kate's feelings toward Mrs. Buell change during the story? Why do her feelings change?*

Reread the last paragraph on page 46. Ask:

Q *What do you think Kate means by "I knew, for the first time, that nothing was safe—not even the everyday, taken-for-granted background of my being"? Explain your thinking.*

Explain that in the next lesson the students will think again about important ideas in this story and use those important ideas to create a summary.

INDIVIDUALIZED DAILY READING

5 Discuss Important Ideas and Supporting Details

Remind the students that they have been thinking about both important ideas and supporting details in texts. Distribute self-stick notes to each student. Explain that you would like each student to use the self-stick notes to mark one important idea and one supporting detail in his book as he reads today. Tell the students that later they will share the important ideas and supporting details they marked with partners.

Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 118) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 121 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students share with partners the important ideas and supporting details they marked. Remind each student to begin by telling the title of the book he read, the author's name, and what the book is about. Remind the students to use the prompt "The reason I think this is . . ." to support their thinking.

After partners have had a chance to share, have a few volunteers share with the class the important ideas and supporting details they marked and the reasons for their thinking. Support the students by asking questions such as:

- Q *Why do you think the idea you marked is important?*
- Q *How does this passage you marked as a supporting detail support, or give more information about, the important ideas in your reading?*

EXTENSION

Explore First-person Point of View in "Mrs. Buell"

Show the cover of *Hey World, Here I Am!* and remind the students that they heard the story "Mrs. Buell" from this book earlier. Tell them that you are going to reread a passage from "Mrs. Buell." Explain that as you read it, you would like the students to think about who is telling the story. Read aloud the first two paragraphs on page 43 of "Mrs. Buell" slowly and clearly. Ask:

- Q *Who is telling the story? What in the story makes you think so?*

Have one or two volunteers share their thinking with the class.

Students might say:

"The girl named Kate is the person telling the story. She's describing what happened to her in the store with Mrs. Buell."

"I know that it's Kate talking about herself because she says things like 'I tripped' and 'I wasn't afraid.'"

If necessary, explain that Kate Bloomfield, who is a character in the story, is telling what happened to her in Mrs. Buell's store. Review that when the person telling the story is a character in the story, we say that the story is told from the *first-person point of view*. Remind the students that when a story is told from the first-person point of view, the story uses pronouns such as *I*, *my*, and *me*. Review that when a story is told from the *third-person point of view*, the person telling the story is not a character in the story and the story uses pronouns such as *he*, *she*, *they*, *him*, *her*, and *their* to talk about the characters.

TEKS 10.E.i
TEKS 10.E.ii
Student/Teacher Activity
Extension

Day 2

Guided Strategy Practice

Materials

- “Mrs. Buell (Sections 1–3)” chart (WA9)
- *Student Response Book* pages 76–81
- “Directions for Section 3” chart, prepared ahead

TEKS 7.D.i
Student/Teacher Narrative
Step 1

Ask and discuss:

- Q Do you think “Mrs. Buell” would be a more interesting story if it were told from the third-person point of view and not from Kate’s point of view? Why?
- Q How might the story be different if it were written from Mrs. Buell’s point of view?

Have a few volunteers share their thinking with the class.

Have the students page through the fiction books they are reading or have read independently and determine whether they are written from the third-person or first-person point of view. Have them share their thinking in pairs; then have a few volunteers share their thinking with the class. Ask them to read aloud passages that they think demonstrate the point of view from which their stories are written.

Encourage the students to continue to notice the points of view of stories they read and to think about how the points of view affect their thoughts and feelings about the stories.

In this lesson, the students:

- Identify important ideas in a fiction story
- Take notes about important ideas
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Review Identifying Important Ideas and Summarizing

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Review that determining important ideas and supporting details helps readers better understand what they read by helping them identify what is essential to know or remember in a text. Remind the students that summaries are made up of important information from a text and that summarizing helps readers understand a text and communicate to other readers what it is about.

Explain that this week the students will use important ideas in the story “Mrs. Buell” from *Hey World, Here I Am!* to practice writing a summary

of the story together. This week’s activities will prepare them to write summaries of their own books for their classmates.

2 Model Taking Notes and Underlining Important Ideas in Section 1 of “Mrs. Buell”

Display the “Mrs. Buell (Sections 1–3)” chart (C WA9) and explain that this chart shows part of the story they heard yesterday.

As the students follow along, read Section 1 aloud. Model thinking quietly for a moment; then think aloud about what seems like the most important idea in the section. On the chart, model writing a brief note about the important idea in the margin and underlining the sentences that seem most important in the section.

You might say:

“What’s most important in this section is Kate’s description of BUELLS and Mrs. Buell. Kate says BUELLS is the run-down neighborhood store and that Mrs. Buell, the owner, is run-down, too, and grouchy. In the margin, I’ll write what I think is the most important idea in this section: *Mrs. Buell is the run-down, grouchy owner of a run-down, not very clean corner store.* Next I’ll underline the sentences that seem most important in the section: ‘It’s a run-down, not very clean corner store’ and ‘Mrs. Buell is run-down too, and a grouch.’”

Ask:

Q *What are some of the details in this section that support the important idea I wrote in the margin? How do these details support the important idea?*

Students might say:

“I noticed the sentence ‘She only has three flavors and the cones taste stale.’ That might be a supporting detail. Having just three flavors of ice cream and stale cones are examples of how the store is run-down.”

“In addition to what [Stan] said, I think the part about licorice and bubble gum and jawbreakers sold at the store is a supporting detail.”

“I think the sentence ‘She never smiles or asks you how you are’ is a detail, too. It supports the idea that Mrs. Buell is a grouch.”

3 Practice Taking Notes and Underlining Important Ideas in Section 2 of “Mrs. Buell”

Have the students turn to *Student Response Book* page 76, the first page of “Mrs. Buell.” Explain that the story, divided into six sections, appears on the next few pages. Direct the students to Section 1 and have them write the note you modeled in their own margins and underline the sentences you underlined.

Teacher Note

Copying your work in the first and second sections gives the students a record of your modeled thinking as they take notes and underline important ideas in the rest of the excerpt.

Explain that you would like the students to read Section 2 of the story in pairs and discuss what they think are the most important ideas in that section. Give the students a few minutes to read the second section and then talk quietly with their partners.

After a few minutes, signal for the students' attention. On the "Mrs. Buell (Sections 1–3)" chart, scroll down to display Section 2. Ask:

- Q *What is this section about? What do you think are the most important ideas in this section?*
- Q *Which sentences give you the most important information?*

Students might say:

"This section is about how Kate falls in the store and hurts her knee. That's important to know."

"In addition to what [Pilar] said, I think another important idea is that Mrs. Buell helps Kate and puts a bandage on her knee."

"I agree with [Connor]. I found a couple of sentences that talk about these ideas: 'I tripped going in, and fell and scraped my knee' and 'Then she fetched a Band-Aid and stuck it on.'"

As the students respond, jot notes about the important ideas in the margin of the chart and underline sentences that give information about the important ideas. If the students have difficulty identifying the most important ideas in the section, model again by thinking aloud, writing a note in the margin of the chart, and underlining important sentences on the chart (such as the two sentences mentioned in the "Students might say" note).

Have the students copy your notes and underlined text about Section 2 in their own *Student Response Books*.

4 Have Partners Take Notes and Underline Important Ideas in Section 3 of "Mrs. Buell"

Direct the students' attention to the "Directions for Section 3" chart and explain the directions on it.

Directions for Section 3

1. Read Section 3 with your partner.
2. Discuss what it is about.
3. Write notes in the margin that tell what this section is about.
4. Underline sentences that seem most important.

Circulate as pairs work and notice whether they are able to identify important ideas and take notes about them. If the students are having difficulty, support them by asking questions such as:

- Q *What happens in this section? Tell me in your own words.*
- Q *What does Mrs. Buell do in this passage?*
- Q *How does Kate feel in this passage? What sentences tell you how she feels?*

If you notice many students struggling with identifying the important ideas or taking notes about them, signal for the students' attention and go through Section 3 together as a class in the more directed way you did for the first two sections.

5 Discuss Important Ideas in Section 3 as a Class

On the “Mrs. Buell (Sections 1–3)” chart, scroll down to display Section 3 of the story. Facilitate a discussion about Section 3 using the following questions. As the students report their thinking, jot notes about the important ideas in the margin of the chart and underline sentences. Remind the students to give reasons for their opinions. Ask:

- Q *What do you and your partner think is important to know and remember in this section? What sentences did you underline that talk about that directly? What notes did you write?*
- Q *Why do you think that idea is important?*
- Q *Do you agree or disagree with [Tamika and Lily]? Why?*

6 Reflect on Discussing Opinions Respectfully

Facilitate a brief discussion about how the students interacted by asking:

- Q *Did people disagree with you today? If so, did they disagree in a way that felt comfortable for you? Why or why not?*

Teacher Note

Keep in mind that identifying and taking notes about important ideas can be challenging. It can be difficult for students to distinguish important ideas from supporting details, especially in very concise texts. Students will benefit from repeated experiences hearing and thinking about important ideas and supporting details.

Teacher Note

Save your annotated “Mrs. Buell (Sections 1-3)” chart (WA9) to use on Days 3 and 4.

Q *What might we want to do differently tomorrow so we know we are discussing our opinions respectfully?*

Explain that tomorrow the students will take notes and underline important sentences in the rest of the story.

INDIVIDUALIZED DAILY READING

7 Practice Orally Summarizing Reading

Ask the students to think about the important ideas in their books as they read independently today, and tell them that at the end of IDR, you will ask some of them to use the important ideas they have thought about to summarize what they read today. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 118) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 121 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Use “Think, Pair, Share” to discuss:

Q *If you were to tell someone in a few sentences what your book is about, what would you say? [pause] Turn to your partner.*

Invite a few volunteers to share with the class. Have each student begin by telling the title of the book she read and the author’s name. Then have her read her summary aloud.

Have the students return to their desks and put away their books.

In this lesson, the students:

- Identify important ideas in a fiction story
- Take notes about important ideas
- Read independently for up to 30 minutes
- Write in their reading journals
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Review Important Ideas in the First Three Sections of “Mrs. Buell”

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Have them open to *Student Response Book* page 76, the first page of the story “Mrs. Buell,” as you display the “Mrs. Buell (Sections 1–3)” chart (WA9). Remind the students that the story is divided into six sections and that yesterday they explored important ideas in the first three sections. Scroll through the chart to review the notes you wrote and the sentences you underlined yesterday.

Direct the students to the fourth section of the story, on *Student Response Book* page 79, and explain that they will use the same process they used yesterday to identify important ideas in the rest of the story. This will prepare them to summarize the story tomorrow.

2 Model Taking Notes and Underlining Important Ideas in Section 4 of “Mrs. Buell”

Display the “Mrs. Buell (Sections 4–6)” chart (WA10) and explain that this chart shows Sections 4–6 of the story. As the students follow along, read aloud to the end of Section 4.

Model thinking quietly for a moment; then think aloud about what seems like the most important idea in the section. On the chart, model writing a brief note about the important idea in the margin and underlining the sentences that seem the most important.

Materials

- *Student Response Book* pages 76–81
- “Mrs. Buell (Sections 1–3)” chart (WA9) from Day 2
- “Mrs. Buell (Sections 4–6)” chart (WA10)
- “Directions for Section 6” chart, prepared ahead
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA11)

You might say:

"What seems important in this section is that Kate doesn't really think about Mrs. Buell until one day when she suddenly isn't there. In the margin, I'll write what I think is the most important idea: *Kate never thinks about Mrs. Buell until one day when she isn't there.* Next I'll underline the sentences that talk about this idea: 'I didn't once wonder about her life' and 'Then I stopped at BUELLS one afternoon and she wasn't there.' "

Ask:

Q *What are some of the sentences in this section that support the important idea I wrote in the margin? How do these details support the important idea?*

Students might say:

"'We didn't like her or hate her.' That sentence might be a supporting detail. It's an example of how Kate and the other kids didn't think about Mrs. Buell."

"In addition to what [Evan] said, I think the part about the man and woman behind the counter is a supporting detail. It tells more about the day when Kate went to the store and Mrs. Buell wasn't there."

Direct the students to Section 4 on *Student Response Book* page 79, and have them write in their own margins the notes you modeled and underline the same sentences you underlined.

3 Practice Taking Notes and Underlining Important Ideas in Section 5 of "Mrs. Buell"

Explain that you would like the students to read Section 5 in pairs and discuss what they think are the most important ideas in this section. Give the students a few minutes to read the section and then talk quietly with their partners.

After partners have talked for several minutes, signal for the students' attention. On the "Mrs. Buell (Sections 4–6)" chart, scroll down to display Section 5. Ask:

Q *What is this section about? What do you think are the most important ideas in this section?*

Q *Which sentences give you the most important information?*

Students might say:

"In this section, Kate finds out that Mrs. Buell is dead."

"I think that the important ideas are that Mrs. Buell is dead and that Kate is really shocked when she finds out."

"I agree with [Leon]. I think the sentences 'She's dead. She won't bother you any longer' are important sentences."

"In addition to what [Yvonne] said, I think 'But I still could not believe Mrs. Buell wasn't there' is an important sentence. It tells us that Kate is shocked by the news."

As the students respond, jot notes about the important ideas in the margin of the chart and underline sentences that give information about the important ideas. If the students have difficulty identifying the most important ideas in Section 5, model again by thinking aloud, writing a note in the margin, and underlining important sentences.

Have each student copy your notes and underlined text into his own *Student Response Book*.

4 Take Notes and Underline Important Ideas in Section 6 of "Mrs. Buell"

Direct the students' attention to the "Directions for Section 6" chart and read the directions aloud.

Directions for Section 6

1. Read Section 6.
2. Write notes in the margin that tell what this section is about.
3. Underline sentences that seem most important.

As the students work individually, circulate and ask them the following questions to help them think about the important ideas in the passage:

- Q *What happens in this section? Tell me in your own words.*
- Q *How does Kate feel about Mrs. Buell's death? What sentences tell you how she feels?*

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit's Individual Comprehension Assessment.

When most students have finished, ask a few volunteers to share the notes they wrote and the sentences they underlined. As the students report their thinking, jot notes and underline sentences on the chart. Facilitate a discussion among the students using questions such as:

Q *Why do you think that idea is important?*

Q *Do you agree or disagree with [Shane]? Why?*

5 Discuss Important Ideas in Section 6 as a Class

On the “Mrs. Buell (Sections 4–6)” chart, scroll down to display Section 6 of the story. Facilitate a discussion about the last section of the story using the following questions. As the students report their thinking, jot notes and underline sentences on the chart. Remind the students to give reasons for their opinions.

Q *What do you think this section is about? What sentences did you underline that talk about that directly? What notes did you write?*

Q *Why do you think that idea is important?*

Q *Do you agree or disagree with [Barb and Christopher]? Why?*

Explain that in the next lesson, the students will use their notes and underlined passages to write a summary of the story together.

INDIVIDUALIZED DAILY READING

6 Read Independently and Write Summaries

Ask the students to think about the important ideas in their books as they read independently today. Tell the students that at the end of IDR, you would like each student to write a brief summary of the part of the book he read today, using some of the important ideas he found. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit’s Individual Comprehension Assessment.

TEKS 7.D.i

Student/Teacher Activity
Step 6

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 118) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 121 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students return to their desks and open their *Student Response Books* to the Reading Journal section. Then display the “Journal Entry” chart

(WA11) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

Journal Entry

Write a journal entry about the book you are reading. Please include:

- The title and the author's name
- A summary of the part of the book you read today

WA11

Use “Think, Pair, Share” to discuss:

Q *If you were to tell someone in a few sentences what your book is about, what would you say? [pause] Turn to your partner.*

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

Have the students return to their desks and put away their books.

Guided Strategy Practice

Day 4

In this lesson, the students:

- Build a summary as a class
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Review Identifying Important Ideas and Summarizing

Have the students get their *Student Response Books* and pencils and sit at desks with partners together. Distribute a sheet of lined writing paper to each student. Explain that today they will use their notes and the important ideas they underlined in “Mrs. Buell” to write a summary of the story.

Have the students open to *Student Response Book* pages 76–81, “Mrs. Buell,” and review their notes and the sentences they underlined.

Materials

- Lined writing paper for each student
- *Student Response Book* pages 76–81
- “Summary of ‘Mrs. Buell’” chart, prepared ahead, and a marker
- “Summary of the Passage from *Harry Houdini*” chart (WA7) from Week 2
- “Mrs. Buell (Sections 1–3)” chart (WA9) from Day 2
- “Class Assessment Record” sheet (CA3)

Teacher Note

Today's lesson may take longer than usual to complete. You might stop after Step 3 and then complete the rest of the lesson later.

2 Model Writing the First Few Sentences of the Summary

Direct the students' attention to the "Summary of 'Mrs. Buell'" chart. Explain that you will help the class start the summary, and then partners will work together to continue writing it.

Review that a summary should give readers a good idea of what a piece of text is about. Display the "Summary of the Passage from *Harry Houdini*" chart (🟢 WA7) and refer to it to remind the students that a summary begins by telling the title of the book, the author's name, and a general statement about the text's topic. The summary then continues with important ideas in the text. Ask:

Q *How might you say in one or two sentences what "Mrs. Buell" is about?*

Have a few volunteers share their thinking with the class. Then ask the students to listen and watch as you think aloud about what the story is about and model writing an opening sentence on the "Summary of 'Mrs. Buell'" chart.

You might say:

"This story, by Jean Little, is about a young girl named Kate and an older woman named Mrs. Buell. Mrs. Buell owns a neighborhood store. In the story, Kate tells about Mrs. Buell and her store. For the opening sentence of my summary, I'll write: *In the story 'Mrs. Buell' by Jean Little, a girl named Kate tells about Mrs. Buell, an older woman who owns a store in Kate's neighborhood.*"

Summary of "Mrs. Buell"

In the story "Mrs. Buell" by Jean Little, a girl named Kate tells about Mrs. Buell, an older woman who owns a store in Kate's neighborhood.

Tell the students that now you will model summarizing the important ideas in the first section of "Mrs. Buell." Display the "Mrs. Buell (Sections 1–3)" chart (🟢 WA9) and point out Section 1 of the story. Read aloud the note(s) you wrote and the sentences you underlined. Think aloud about how you might summarize the section; then model adding a few sentences to the summary on the chart.

You might say:

"I underlined these sentences in Section 1: 'It's a run-down, not very clean corner store' and 'Mrs. Buell is run-down too, and a grouch.' In the margin, this is the note I wrote about the most important idea: *Mrs. Buell is the run-down, grouchy owner of a run-down, not very clean corner store.* I can use these things to help me summarize the section. I'll write: *The store is run-down and dirty, and Mrs. Buell is a grouch.*"

Ask the students to copy the charted sentences onto their own papers.

3 Practice Adding to the Summary Together

On the "Mrs. Buell (Sections 1–3)" chart, scroll down to display Section 2 and direct the students to the same section of the story on *Student Response Book* page 79. Have them reread their notes and the sentences they underlined. Use "Think, Pair, Share" to discuss:

Q *How might you summarize this section of the story in one or two sentences? [pause] Turn to your partner.*

After a few moments, signal for the students' attention. Ask one or two volunteers for sentences to summarize this section. Support them by asking questions such as:

Q *How can we describe in one or two sentences what happens the day Kate falls?*

Q *What is one sentence we can write that captures both [Quinn's] and [Luis's] ideas?*

Students might say:

"My partner and I think you can add the sentences 'One day Kate falls and skins her knee in the store. Mrs. Buell scoops Kate up and puts a bandage on her knee.'"
"I think we should add that Mrs. Buell has kind hands."
"I disagree with [Lila]. I think that is a detail about Mrs. Buell."

As the students respond, add to the summary on the chart. If the students have difficulty generating sentences that summarize this section, model again by thinking aloud, referring to your margin notes and your underlined text on the "Mrs. Buell (Sections 1–3)" chart, and adding your own sentences, like those in the "Students might say" note.

Again, have the students copy your sentences onto their own papers.

4 Have Partners Write the Rest of the Summary

Explain that you would like partners to work together to write the rest of the summary, looking at one section at a time while reviewing their notes and underlined sentences.

Circulate and support the students by asking them questions like those in Step 3 of this lesson. If you notice many students having difficulty, signal for the students' attention and summarize the remaining section of the story together in the more directed way you did earlier in the lesson.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to identify important ideas in each section?
- Can they summarize the information in a few sentences?

Record your observations on the "Class Assessment Record" sheet (CA3); see page 116 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to identify important ideas in each section and summarize the information in a few sentences, proceed with the lesson and continue on to Week 4.
- If **about half of the students** or **only a few students** are able to identify important ideas in each section and summarize the information in a few sentences, bring the class together and summarize the remaining sections of the excerpt together, as you did in Steps 2 and 3 of today's lesson. Then plan to repeat the week using an alternative book before continuing on to Week 4. Visit the CCC Learning Hub (ccclearninghub.org) to view the "Grade 5 Alternative Texts" list.

A completed summary might look like this:

Summary of “Mrs. Buell”

In the story “Mrs. Buell” by Jean Little, a girl named Kate tells about Mrs. Buell, an older woman who owns a store in Kate’s neighborhood. The store is run-down and dirty, and Mrs. Buell is a grouch. One day Kate falls and skins her knee in the store. Mrs. Buell picks Kate up and puts a bandage on her knee. It’s the first time she has ever been nice to Kate. Kate never thanks Mrs. Buell, though, because Mrs. Buell starts being her mean old self again. Later, Kate finds out that Mrs. Buell has died. Kate feels sorry that she wasn’t more friendly to the old woman. She is also upset because she realizes that nothing in her life is permanent—not even grouchy old Mrs. Buell.

5 Discuss the Summaries as a Class

Facilitate a discussion using the following questions. Remind the students to give reasons for their opinions.

Q *What did you and your partner include in your summary? How does that capture what is important in the story?*

Have a few volunteers read their summaries aloud, and ask the class:

Q *Do you agree that [Alex and Leticia] captured the important ideas of the story in [their] summary? Why or why not?*

Q *What did you and your partner include in your summary that is [similar to/different from] what [Alex and Leticia] included in [their] summary?*

Teacher Note

To provide the students with more support in thinking about what a summary is and what is important to include in a summary, see the extension “Analyze the Students’ Summaries” on page 563.

Teacher Note

Collect the students' summaries and save them to use in Week 4, Days 2 and 3.

TEKS 10.E.i
TEKS 10.E.ii
Student/Teacher Activity
Step 7 (first paragraph)

Vocabulary Note

Next week you will revisit "Mrs. Buell" to teach the Week 24 vocabulary lessons.

Explain that next week the students will use what they have learned about summarizing to write summaries of their own books.

6 Reflect on Discussing Opinions Respectfully

Facilitate a brief discussion of how the students did giving reasons for their opinions and discussing their opinions respectfully.

INDIVIDUALIZED DAILY READING

7 Read Independently and Think About Point of View

Ask each student to think about who is telling the story—or what is the point of view—in the book she is reading independently today. Review that if a character in a story is telling the story, we say the story is being told from the first-person point of view. If a narrator who is not a character in the story is telling the story, we say the story is being told from the third-person point of view. Tell the students that at the end of IDR, they will share with partners what they noticed about the points of view in their books. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 118) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 121 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Ask each student to share who is telling the story she is reading (for example, a narrator, a character, or the author) with a partner. Remind the students to use the prompt "The reason I think this is . . ." to support their thinking. Circulate as partners share. Support individual students by asking questions such as:

Q *Who is telling the story? What in the story makes you think so?*

Have the students return to their desks and put away their books.

EXTENSION

Analyze the Students' Summaries

Collect the students' summaries of "Mrs. Buell" and make a copy of each summary with the student's name obscured. Tell the students that they will work in groups of four to read and discuss summaries written by their classmates. Explain that the students will identify which summaries give a clear idea of the stories they describe and will give reasons for why they think so. Tell the students that you have removed the names from the summaries so they can focus on the writing. Ask and briefly discuss:

- Q** *Why is it important to speak about your classmates' summaries in a respectful way, even if you don't know who wrote them?*
- Q** *What are some things you can do to make sure you show respect and appreciation for each summary you discuss?*

Students might say:

"It's important because I want my summary to be talked about respectfully and so I should talk about other people's summaries respectfully."

"It's important because no matter what the student wrote, he or she put effort into it."

"It's important because it helps everyone in our class feel safe knowing that their writing will be talked about respectfully."

"I can avoid criticizing the writing. You asked us to focus on finding summaries that are especially helpful, not criticize summaries that are less helpful."

"I can avoid spending time guessing who wrote the summary and just focus on the writing."

Place the students in groups of four and distribute the summaries, four to each group. Then have each group read the summaries and use "Heads Together" to discuss:

- Q** *Which summaries give a clear idea of what this story excerpt is about? Why do you think so? Heads together.*

Have a class discussion to share what the groups talked about. Groups may want to read aloud summaries they agreed gave them a clear idea of the story.

Teacher Note

Be sure to facilitate this activity in such a way as to keep the authors of the summaries anonymous; for example, take care not to distribute a summary to a group that includes the author of the summary. This will help the students stay focused on the goal of the activity: identifying what makes summaries informative and clear so they can write strong summaries themselves.

Week 4

OVERVIEW

Comprehension Focus

- Students think about important ideas and supporting details in a text.
- Students use important ideas to summarize a text.
- Students read independently.

Social Development Focus

- Students work in a responsible way.
- Students develop the skill of giving reasons for their opinions.
- Students discuss their opinions respectfully.
- Students give feedback in a caring way.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA12–WA13

Assessment Forms

- “Class Assessment Record” sheet (CA4)
- “IDR Conference Notes” record sheet (CN1)
- “Individual Comprehension Assessment” record sheet (IA1)

Reproducible

- Unit 8 family letter (BLM1)

DO AHEAD

- ✓ Prior to Day 1, collect short stories, articles, picture books, and other short pieces of writing at various reading levels (see Step 2).
- ✓ Prior to Day 2, make sure that each student has selected a text to summarize and has located a copy of the text.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA4); see page 117 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, prepare a sheet of chart paper with the title “Words to Use When Giving Feedback” (see Step 1).
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 24 lessons this week.

Materials

- Short texts at appropriate levels, collected ahead
- “Directions” chart (WA12)
- Small self-stick notes for each student

In this lesson, the students:

- Read independently
- Think about important ideas in their texts
- Give reasons for their opinions
- Discuss their opinions respectfully
- Support one another’s independent work

1 Review Identifying Important Ideas and Summarizing

Have the students gather with partners sitting together, facing you. Review that over the past weeks the students watched you model identifying important ideas and writing a summary of *Harry Houdini*. They also identified important ideas and wrote a summary of the story “Mrs. Buell” together. Tell them that this week each student will identify important ideas in a text she reads independently and write a summary of the text to share with the class next week.

Explain that today the students will select their texts and read them, marking important ideas they want to include in their summaries. They will write their summaries tomorrow.

2 Select Texts to Read Independently and Summarize

Explain that the students should each select a whole, short piece of text to read and summarize. Direct the students’ attention to the short texts you have collected (short stories, picture books, and articles from magazines and newspapers) and invite them to choose their texts from this collection or to locate short pieces on their own. Students reading chapter books may choose to read and summarize a whole chapter. Encourage the students to choose texts that they would be interested in summarizing for their classmates.

Give the students time to select their short texts.

3 Prepare to Read Independently and Identify Important Ideas

Explain that today the students will read the texts they selected to summarize and mark important ideas they want to include in their summaries. Tomorrow, the students will write their summaries.

Display the “Directions” chart (🗺️ WA12) and read the directions on it aloud.

WA12

Directions

1. Independently read the chapter or section you will summarize.
2. Read the chapter or section again. Use self-stick notes to mark important ideas for your summary.

4 Read Independently and Identify Important Ideas

Distribute several self-stick notes to each student. Have the students read and then reread their texts and then mark the important ideas. As the students work, circulate and support them by asking individual students questions such as:

- Q *What are some important ideas you marked that you want to include in your summary?*
- Q *Why do those ideas seem important?*

5 Discuss Important Ideas in Pairs

When most students have finished, have the students talk with their partners about the important ideas they might want to include when they write their summaries tomorrow. Remind the students to give reasons for their opinions when talking in pairs and to discuss their opinions in a respectful way.

6 Discuss Important Ideas as a Class

When most partners have finished talking, facilitate a class discussion using the questions that follow. Remind each student who shares to briefly tell the title of his text, the author’s name, and what the text is about. Ask:

- Q *What is one important idea that you want to make sure to include in your summary tomorrow? Why does that idea seem important?*
- Q *Was it hard or easy to identify important ideas in your text? Explain your thinking.*

7 Reflect on Supporting One Another’s Independent Work

Point out that the students worked independently today and that they will work independently again tomorrow. Ask:

- Q *How did you do with working independently today?*

Facilitation Tip

Reflect on your experience over the past four weeks with **responding neutrally with interest** during class discussions. Does this practice feel natural to you? Are you integrating it into class discussions throughout the school day? What effect is it having on the students? We encourage you to continue to try this practice and reflect on students’ responses as you facilitate class discussions in the future.

Day 2

Independent Strategy Practice

Materials

- Student-selected texts to summarize from Day 1
- “Summary of the Passage from *Harry Houdini*” chart (WA7) from Week 2
- Students’ summaries of “Mrs. Buell” from Week 3
- *Student Response Book* pages 82–83

Q How did your classmates help or hinder your independent work?

Q What might we want to work on tomorrow to help one another work better independently?

Ask the students to put their texts, with self-stick notes in place, in a safe location until tomorrow’s lesson.

In this lesson, the students:

- Start to build summaries of their own texts
- Think about important ideas in the texts
- Support one another’s independent work

1 Review Supporting One Another’s Independent Work

Have the students get their *Student Response Books*, pencils, and the texts they have selected to summarize and sit at desks with partners together. Review that they have been working independently and supporting one another’s independent work.

Use “Think, Pair, Share” to discuss:

Q What are some ways we can try to support one another when we work independently? [pause] Turn to your partner.

Have a few volunteers share their thinking.

Students might say:

“We can agree to work quietly during independent work time.”

“I think we can support one another by not banging our desks or sharpening our pencils while people are trying to read or write.”

“In addition to what [Xavier] said, I think we can support our partner by getting everything we need before the work starts so we don’t have to get up and distract people.”

Encourage the students to use the suggestions they mentioned for supporting one another while working independently. Tell them that you will check in with them at the end of the lesson to see how they did.

2 Write Opening Sentences for Summaries

Display the “Summary of the Passage from *Harry Houdini*” chart (C WA7) and hand out the students’ summaries of “Mrs. Buell.” Direct the students’ attention to the opening sentences of both summaries. Review that summaries usually begin with the title of the text and the author’s name and a general sentence telling what the text is about. Then they continue with the important ideas.

Have the students spend a moment reviewing the important ideas they marked in their texts in the previous lesson. Use “Think, Pair, Share” to discuss:

Q *How might you say in one sentence what your text is about?* [pause] Turn to your partner.

After most pairs have finished sharing, signal for the students’ attention. Have the students open to *Student Response Book* pages 82–83, “Summary of _____,” and ask them to write the title of the text they are summarizing on the blank line. Then have each student write an opening sentence for her summary.

Ask a few volunteers to read their opening sentences aloud to the class. Point out that the students might want to revise their opening sentences once they have started writing their summaries. Encourage them to do so if they need to.

3 Begin Writing Summaries

Ask each student to identify the first important idea she wants to write about in her summary and begin writing. Remind the students that they will share their summaries with the class next week, so the summaries must give a good idea of what the texts are about. Explain that they will also add opinion paragraphs to their summaries next week, and ask them to leave space to do so.

Circulate as the students write, and support them by having students read aloud some important ideas they marked. Ask:

Q *How might you communicate those ideas briefly in your own words?*

During the writing, you might stop the class periodically and have a few students read what they have written so far to provide examples for those who are having trouble getting started.

4 Reflect on Writing Summaries and Working Independently

Call for the students’ attention and explain that tomorrow they will finish writing their summaries. Later in the week, they will have a chance to revise their summaries after getting feedback from their partners.

Teacher Note

The students will write their summaries in their *Student Response Books* today and tomorrow. You will analyze the completed summaries for this unit’s Individual Comprehension Assessment.

Teacher Note

Use “Turn to Your Partner” as needed during this discussion to increase accountability and to encourage participation.

Teacher Note

You will distribute the summaries again on Day 3 for the students to refer to as they finish writing the summaries of their independent reading.

Day 3

Independent Strategy Practice

Materials

- Student-selected texts to summarize from Day 2
- “Summary of the Passage from *Harry Houdini*” chart (WA7) from Week 2
- Students’ summaries of “Mrs. Buell” from Week 3
- *Student Response Book* pages 82–83

Teacher Note

You will analyze the summaries the students write in their *Student Response Books* for this unit’s Individual Comprehension Assessment.

Teacher Note

If you wish to provide the students with additional examples, you might refer them to the summaries of *A River Ran Wild* and *Richard Wright and the Library Card* on *Student Response Book* pages 74–75.

Ask:

- Q *What might you want to add to your summary, or how else might you want to revise your summary?*
- Q *What did you do today to help your partner and others around you work independently?*

Collect the students’ summaries of “Mrs. Buell.”

In this lesson, the students:

- Finish building summaries of their own texts
- Think about important ideas in the texts
- Support one another’s independent work

1 Review Supporting One Another’s Independent Work

Have the students get their *Student Response Books*, pencils, and the texts they have selected to summarize and sit at desks with partners together. Review that they have been working independently and supporting one another’s independent work. Ask:

- Q *What will you do today to help your partner and others around you work independently?*

Tell the students that you will check in to see how they did at the end of the lesson.

2 Prepare to Finish Writing the Summaries

Display the “Summary of the Passage from *Harry Houdini*” chart (WA7) and hand out the students’ summaries of “Mrs. Buell.” Encourage the students to refer to both examples as they finish writing their summaries today.

Have the students open to *Student Response Book* pages 82–83, “Summary of _____,” and spend a moment reviewing what they wrote yesterday. Use “Think, Pair, Share” to discuss:

- Q *What do you need to add to your summary to make it complete?* [pause]
Turn to your partner.

After most pairs have finished sharing, signal for the students' attention.

3 Finish Writing Summaries

Ask the students to continue writing their summaries. Remind them that they will share their summaries with the class next week, so each summary must give a good idea of what the text is about. Also remind them that they will add opinion paragraphs to their summaries next week, and ask them to leave space to do so.

Circulate as the students write, and support them by having students read aloud some important ideas they marked. Ask:

Q *How might you communicate those ideas briefly in your own words?*

During the writing, you might stop the class periodically and have a few students read what they have written so far to provide examples for those who are having trouble getting started.

4 Reflect on Writing Summaries and Working Independently

When most students have finished writing, bring them together for a brief discussion. Explain that tomorrow they will have a chance to revise their summaries. Ask:

Q *How might you want to revise your summary tomorrow?*

Q *What did you do today to help your partner and others around you work independently?*

Teacher Note

Use "Turn to Your Partner" as needed during this discussion to increase accountability and to encourage participation.

Materials

- Student-selected texts to summarize from Day 3
- “Words to Use When Giving Feedback” chart, prepared ahead, and a marker
- “Questions to Ask Yourself When Giving Feedback” chart (WA13)
- *Student Response Book* pages 82–83
- “Class Assessment Record” sheet (CA4)
- Copy of this unit’s family letter (BLM1) for each student

In this lesson, the students:

- Share summaries with their partners
- Revise their summaries
- Give each other feedback about their summaries
- Give feedback in a caring way

1 Get Ready to Give Feedback in a Caring Way

Have the students get their *Student Response Books*, pencils, and the texts they have selected to summarize and sit at desks with partners together. Explain that today the students will read the summaries they wrote in pairs. Partners will give each other feedback to help them revise or add to their summaries, if necessary. Ask:

- Q *If your partner has a suggestion for how to make your summary stronger, how do you want your partner to give you that feedback?*
- Q *What are some words we can use to give each other feedback in a caring way?*

Have a few volunteers share their thinking. Direct the students’ attention to the “Words to Use When Giving Feedback” chart and record their suggestions on it.

Words to Use When Giving Feedback

I’m confused about this part. What are you trying to say?

This part is really clear, but I’m not sure I understand this part.

I wonder if this part would be clearer if you said

You might consider adding

Have you thought about . . . ?

Encourage the students to use some of the ideas on the chart today to give feedback when working in pairs.

2 Give Feedback and Revise Summaries

Display the “Questions to Ask Yourself When Giving Feedback” chart (WA13) and tell the students that they will read their summaries to their partners and then discuss the summaries using the questions on this chart. Read the questions aloud.

Questions to Ask Yourself When Giving Feedback

- Does this summary begin with a general sentence describing what this text is about?
- Does this summary give some important ideas in the text?
- What do I understand about the text from this summary?

WA13

Have the students turn to *Student Response Book* pages 82–83, “Summary of _____,” and have partners read their summaries to each other and then discuss them using the questions on the chart.

When partners are finished giving each other feedback, ask them to revise their summaries using the feedback they received. Circulate as partners share, discuss, and revise their summaries.

CLASS ASSESSMENT NOTE

Ask yourself:

- Do the students’ summaries successfully communicate what their texts are about?
- Is there evidence in the partners’ feedback that they understand something about the texts being summarized?
- Are the students revising or adding to their summaries based on the feedback?

(continues)

Teacher Note

Save the “Words to Use When Giving Feedback” chart to use in Unit 9, Week 4, Day 4.

Teacher Note

Any student who has not finished writing his summary can get feedback on the part he wrote and finish writing the summary today.

Technology Tip

Many interactive activities that provide students with opportunities to practice summarizing are available online. For more information, search online using the keywords “summarizing interactive whiteboard activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

Teacher Note

Next week, the students will add opinion paragraphs to their summaries. A student whose summary does not communicate what a text is about may have difficulty adding an opinion paragraph to it. If necessary, give feedback on the summaries and have the students write second drafts based on your feedback before beginning Unit 9.

Vocabulary Note

Next week you will teach the Week 25 vocabulary lessons. In Week 25, the students discuss interesting words they have read or heard.

CLASS ASSESSMENT NOTE *(continued)*

Record your observations on the “Class Assessment Record” sheet (CA4); see page 117 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are writing summaries that successfully communicate what their texts are about, proceed with the lesson and continue on to Unit 9.
- If **about half of the students** are writing summaries that successfully communicate what their texts are about, collect the unsuccessful summaries, read them, and give feedback to the students. Have the students write second drafts based on your feedback. Then continue on to Unit 9.
- If **only a few students** are writing summaries that successfully communicate what their texts are about, do the extension “Analyze the Students’ Summaries” on page 563. If you have already done the extension once with the students’ summaries of “Mrs. Buell,” do it again using photocopies of the students’ summaries from Week 4. Make sure to copy their summaries without their names. After analyzing the summaries in the extension activity, have the students select another short text to summarize, and give the class additional instruction by repeating this week’s lessons before continuing on to Unit 9.

3 Discuss Giving Feedback as a Class

After partners have had sufficient time to discuss and revise their summaries, call for the students’ attention and ask:

- Q *What feedback did your partner give you that was helpful? How was it helpful?*
- Q *Did you revise your summary based on what your partner said? How?*
- Q *How did you and your partner give each other feedback in a caring way? How did that help your work?*

Explain that the students will have an opportunity in the coming week to share their summaries with the class. Collect the students’ summaries and save them for Unit 9.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of Unit 8. You will need to reassign partners before you start the next unit.
- Send home with each student a copy of this unit’s family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

Assessment

- Before continuing on to the next unit, take this opportunity to assess individual students’ reading comprehension using the “Individual Comprehension Assessment” record sheet (IA1); see page 122 of the *Assessment Resource Book*.

Unit 9

Synthesizing

FICTION AND EXPOSITORY NONFICTION

During this unit, the students synthesize by making judgments and forming opinions about texts, using evidence from the texts to support their conclusions. They integrate information from three texts on the same topic to speak knowledgeably about the topic. During IDR, the students practice verbally summarizing their reading, make judgments and form opinions about their independent reading, and continue to confer individually with the teacher about the books they are reading. They also read magazine and newspaper articles and discuss the authors' opinions. Socially, the students continue to relate the values of respect and responsibility to their behavior. They develop the skills of giving and receiving feedback, expressing their true opinions, giving reasons for their opinions, and discussing their opinions respectfully.

Unit 9

Synthesizing

RESOURCES

Read-alouds

- “Review of ‘Mrs. Buell’”
- “Zoo”
- “12 seconds from death”
- “The Pros and Cons of Year-round Schools”
- “Year-round School: I’m for It”
- “Year-round School: I’m Against It”
- “Review of *The Legend of Sleepy Hollow*”
- “Review of *The Ballad of Lucy Whipple*”

Writing About Reading Activities

- “Write Opinions About Year-round Schools”
- “Write Reviews of Other Favorite Books”

Technology Mini-lessons

- Mini-lesson 1, “Navigating Safely Online”
- Mini-lesson 4, “Choosing Effective Search Terms”
- Mini-lesson 5, “Understanding Search Results”
- Mini-lesson 6, “Narrowing Search Results and Using Filters”
- Mini-lesson 7, “Evaluating Research Sources”

Technology Extensions

- “Take a Poll About Year-round Schools”
- “Find and Read More Book Reviews Written by Young People”
- “Create Videos of Students Presenting Book Reviews”

Week 1

OVERVIEW

Review

"Review of 'Mrs. Buell' "

(see page 601)

Story

"Zoo"

by Edward D. Hoch

(see pages 602–603)

Earthlings shudder with horror as they file by the alien creatures in Professor Hugo's Interplanetary Zoo—unaware of what the creatures are thinking about them.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA4

Assessment Forms

- "Class Assessment Record" sheet (CA1)
- "IDR Conference Notes" record sheet (CN1)

Professional Development Media

- "Responding Neutrally with Interest" (AV23)

Comprehension Focus

- Students synthesize by making judgments and forming opinions about a fiction story, using evidence from the story to support their conclusions.
- Students read independently.

Social Development Focus

- Students relate the values of respect and responsibility to their behavior.
- Students develop the skills of giving reasons for their opinions and discussing their opinions respectfully.

DO AHEAD

- ✓ Consider reading this unit’s read-aloud selections with your English Language Learners before you read them to the whole class. Stop during the reading to discuss vocabulary and to check for understanding.
- ✓ Make available fiction and narrative nonfiction books at a variety of levels for the students to read during IDR and Independent Strategy Practice throughout Weeks 1 and 2.
- ✓ Prior to Day 1, decide how you will randomly assign partners to work together during this unit.
- ✓ Prior to Day 1, collect enough book and movie reviews so that each pair of students can share a review (see Step 5). You may be able to use some of the summaries you collected for Unit 8, Week 2, if they include the writers’ opinions. You might wish to include age-appropriate reviews of music, art, and theater in your collection.
- ✓ Prior to Day 1, make a class set of “IDR Conference Notes” record sheets (CN1); see page 139 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, prepare a sheet of chart paper with the title “Factors to Consider When Forming an Opinion” (see Step 2).
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1); see page 132 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 25 lessons this week.

Day 1

Read-aloud/Strategy Lesson

Materials

- “Review of ‘Mrs. Buell’ ” (see page 601)
- *Hey World, Here I Am!* from Unit 8
- *Student Response Book* page 84
- One review per pair of students, collected ahead
- “Questions About Reviews” chart (WA1)
- “Thinking About My Reading” chart
- “Reading Comprehension Strategies” chart
- Class set of “IDR Conference Notes” record sheets (CN1)
- *Assessment Resource Book* page 136
- (Optional) *Student Response Book* page 85

Teacher Note

During this unit’s lessons, observe the students as they interact with one another and take note of responsible behavior as they share opinions. You will share your observations throughout the unit.

In this lesson, the students:

- Begin working with new partners
- Learn what a review is
- Hear, read, and discuss reviews
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

ABOUT SYNTHESIZING

Synthesizing is a complex strategy that requires readers to integrate new information and ideas with existing knowledge to produce new understanding. In this unit, the students explore the aspect of synthesizing that has to do with making judgments and forming opinions about text. The students learn to expand a summary of a text into a review that gives their opinions. They will also write book reviews to share with classmates. As with all of the strategies, the goal is for the students to learn to form opinions and make judgments as they read on their own. For more information, see “The Grade 5 Comprehension Strategies” in the Introduction.

1 Pair Students and Discuss Sharing Opinions Respectfully

Randomly assign partners and make sure they know each other’s names. Have the students bring their *Student Response Books* and gather with partners sitting together, facing you. Explain that during the coming weeks the students will work with the same partners.

Remind the students that as they talked in pairs and as a class in recent weeks they used the prompt “The reason I think this is . . .” to give reasons for their opinions. Explain that you would like them to continue using the prompt in partner and class discussions this week. Ask:

- Q *Sometimes you may disagree with what your partner or another classmate says in a discussion. Why is it important to be respectful when you discuss your opinions?*
- Q *How can you disagree respectfully?*

Students might say:

"You can give your own opinion without making fun of what the other person said."

"You can disagree without shouting or being sarcastic."

"You can say something like 'I have a different opinion.'"

2 Review "Mrs. Buell"

Show the cover of *Hey World, Here I Am!* and remind the students that they heard the story "Mrs. Buell" in a previous lesson and wrote a summary of it together. Remind them that in the story, Kate, the narrator (the person who tells the story), tells about a woman in her town named Mrs. Buell. Ask:

Q *What do you remember about the story?*

Have one or two volunteers briefly tell what they remember.

3 Read Aloud

Explain that you will read aloud a review of "Mrs. Buell." Explain that a review is a piece of writing that gives an opinion about a story, book, movie, work of art, or performance. Explain that a review of a book or story usually contains a summary of the text, along with the reviewer's opinions about it. Read "Review of 'Mrs. Buell'" aloud slowly and clearly, without stopping.

4 Discuss as a Class

Have the students turn to *Student Response Book* page 84, "Review of 'Mrs. Buell.'" Point out that this is the review you just read. Ask the students to read the review again silently to themselves.

After the reading, facilitate a class discussion using the questions that follow. Remind the students to use the prompt "The reason I think this is . . ." as they talk.

Q *What part of this review summarizes the story? What part gives the reviewer's opinion? Explain your thinking.*

Students might say:

"The first paragraph is the summary. The reason I think this is that it's where the reviewer tells about the story."

"The last paragraph gives the opinion. The reason I think this is that the paragraph starts out with 'I would recommend this story.' That means the reviewer likes the story and thinks other people should read it."

ELL Note

If you have English Language Learners who are unable to read the review on their own, you might have them read it with partners, or you might reread it aloud yourself as the students follow along.

Q *Why might you want to read a review of a story or book?*

Students might say:

"I would read a review to find out what a book is about—to see if I want to read it."

"I would read it to find out if someone else liked the book. If the reviewer really didn't like the book, I might not want to read it."

Teacher Note

If you do not have enough reviews for all the pairs, you can have the students read "Review of *A Picture Book of Jesse Owens*" on *Student Response Book* page 85.

5 Explore Other Reviews

Distribute the reviews you have collected, one to each pair. Have partners read the reviews quietly to themselves. When most students have finished reading, display the "Questions About Reviews" chart (WA1) and read the questions on it. Have partners discuss the questions.

Questions About Reviews

- What is the title of the review, and what is the name of the reviewer?
- What book or movie is the review about?
- What did you learn about the book or movie from the review?
- What parts of the review express the reviewer's opinion?

WA1

When most pairs have finished, ask a few volunteers to share with the class. Have each volunteer share the title of the review he read, the author's name, what the review is about, and what he learned from the review. Then ask each volunteer to read aloud the part of the review that expresses the author's opinion. Follow up by asking:

Q *How might the review be helpful to you or others who read it?*

Remind the students that in the previous week they wrote summaries of the books they were reading independently and that summarizing is a way to communicate what a book is about. Explain that it is also important for readers to form opinions about what they read and to communicate those opinions to others. Explain that during the coming weeks they will learn how to expand their summaries into reviews by including their own thoughts and opinions.

6 Reflect on Discussing Opinions

Facilitate a brief discussion about how the students did giving reasons for their opinions and discussing their opinions respectfully.

INDIVIDUALIZED DAILY READING

7 Review and Practice Self-monitoring and “Fix-up” Strategies

Tell the students that for the next two weeks they will read fiction and narrative nonfiction books during IDR.

Refer to the “Thinking About My Reading” chart and review the questions. Remind the students that it is important to stop, think about what they are reading, and use the questions on the chart to help them monitor their comprehension. If a student does not understand what she is reading, the student should use one or both of the “fix-up” strategies of rereading and reading ahead.

If a student has tried both of the “fix-up” strategies and still does not understand the book, she can try the strategies listed on the “Reading Comprehension Strategies” chart. Alternatively, the student might ask you or a classmate for help.

Have the students get their books and read silently for up to 30 minutes. Stop them at 10-minute intervals and have them monitor their comprehension by thinking about the questions on the “Thinking About My Reading” chart. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Over the next four weeks, confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 136) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Facilitate a brief class discussion about using the questions on the “Thinking About My Reading” chart to track their reading comprehension. Ask and briefly discuss questions such as:

- Q *Why is it important to stop as you are reading and ask yourself if you understand what you have read?*
- Q *How do rereading and reading ahead help you make sense of text?*
- Q *Which comprehension strategy do you find the most helpful when you’re not understanding something you’re reading? Why?*

Have the students return to their desks and put away their books.

ELL Note

To support your English Language Learners, consider modeling reading a text and stopping periodically to ask yourself the self-monitoring questions listed on the chart. Discuss each question with your students to make sure they understand the process.

Teacher Note

Provide time on a regular basis for the students to record the books they have completed in their reading logs.

Materials

- “Zoo” (see pages 602–603)
- “Reading Comprehension Strategies” chart
- Small self-stick notes for each student

In this lesson, the students:

- Hear and discuss a science fiction story
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Discuss the Importance of Forming Opinions While Reading

Gather the students with partners sitting together, facing you. Remind the students that in the previous lesson they heard a review of “Mrs. Buell.” Remind them that a review gives a summary of a text and the reviewer’s opinion about it. Explain that this week the students will learn to write a book review. Ask:

Q *Why is it important to form opinions and make judgments as you read?*

If the students have difficulty answering this question, you might point out that not everything in print is clearly written, interesting, or true. Explain that readers need to form opinions and make judgments as they read by asking questions such as: Is this text well written? Do I believe what the text is saying? Do I agree with it? What is the author’s opinion? What might be a different opinion about the same topic? Do I want to read more texts like this?

2 Introduce “Zoo”

Explain that today you will read aloud a science fiction story called “Zoo” by Edward D. Hoch. Ask:

Q *What do you think you know about science fiction? What science fiction stories have you heard or read? What science fiction movies have you seen?*

Students might say:

“I think science fiction usually takes place in the future.”

“Sometimes it’s about Martians or aliens from outer space.”

“I agree with [Mina]. The movie *Avatar* is science fiction.”

If necessary, explain that science fiction stories are often about life in the future and feature amazing inventions and scientific developments, such as space travel and robots. Explain that in “Zoo” the students will hear about an incredible zoo of the future.

3 Read Aloud

Read “Zoo” aloud slowly and clearly, stopping as described below. Clarify vocabulary as you read.

Suggested Vocabulary

interplanetary: between planets (p. 602)

high-pitched tongue: high or squeaky voice (p. 602)

she-creature: female creature (p. 603)

he-creature: male creature (p. 603)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

annual: once a year (p. 602)

filed: walked by in a line (p. 602)

horrified: filled with horror, or great fear (p. 602)

fascinated by: very interested in (p. 602)

mate: partner (p. 603)

offspring: young of an animal or human (p. 603)

Stop after:

p. 602 “This year, as the great round ship settled slowly to earth in the huge tri-city parking area just outside of Chicago, they watched with awe as the sides slowly slid up to reveal the familiar barred cages.”

Ask:

Q *What happens in the part of the story you just heard? What do you think will happen next? Turn to your partner.*

Without sharing as a class, reread the last sentence before the stop and continue reading to the next stop. Repeat the procedure at the following steps:

p. 602 “‘This is certainly worth a dollar,’ one man remarked, hurrying away. ‘I’m going home to get the wife.’”

p. 603 “Professor Hugo was there to say a few parting words, and then they scurried away in a hundred different directions, seeking their homes among the rocks.”

Reread the last sentence before the stop and continue reading to the end of the story.

4 Discuss the Story as a Class

Facilitate a discussion of the story using the following questions. Remind the students to use the prompt “The reason I think this is . . .” and the discussion prompts to add to one another’s thinking.

Teacher Note

You may want to read the beginning of the story (to the first stop) twice to help the students follow what is happening.

Note that the first stopping point is in the middle of paragraph 3.

Facilitation Tip

During this unit, we invite you to continue practicing **responding neutrally with interest** during class discussions. This week, continue to build the students’ intrinsic motivation by responding with genuine curiosity and interest (for example, “Tell us more about your thinking”) while avoiding evaluative statements, whether positive or negative. To see this Facilitation Tip in action, view “Responding Neutrally with Interest” (AV23).

Teacher Note

The discussion prompts are:

- “I agree with _____ because . . .”
- “I disagree with _____ because . . .”
- “In addition to what _____ said, I think . . .”

Teacher Note

This question helps the students begin to form opinions about the story and think about the reasons for their opinions. They will explore their opinions in more depth in the next lesson.

Q *What is this story about?*

Q *What is interesting or unexpected about this story?*

Students might say:

“I didn’t expect the horse-spider people to be intelligent, like humans. The reason I think this is that the creatures are more like animals than people.”

“In addition to what [Tuan] said, I was surprised to find out that the horse-spider people paid to travel to Earth.”

“I think it is interesting that the creatures think the cages have bars to protect *them*. The reason I think this is that the humans are thinking just the opposite—that the bars protect *them* from the creatures.”

Q *Would you recommend this story to someone else? Give reasons for your opinion.*

Q *Are you interested in reading more science fiction stories? Why or why not?*

Explain that tomorrow the students will revisit their opinions about the story and write a review of it together.

5 Reflect on Discussing Opinions

Facilitate a brief discussion about how the students did giving reasons for their opinions and discussing their opinions respectfully.

INDIVIDUALIZED DAILY READING

6 Mark and Discuss Reading Comprehension Strategies

Remind the students that for the next two weeks they will be reading fiction and narrative nonfiction books during IDR. Direct the students’ attention to the “Reading Comprehension Strategies” chart and remind them that these are the comprehension strategies they have learned so far this year. Ask them to notice which strategies they use and where they use them during their reading today.

Distribute self-stick notes to each student. Explain that the students will use self-stick notes to mark places in their books where they use a comprehension strategy and that they should write the name of each strategy on a self-stick note. Tell the students that later they will share with partners one of the passages they marked and the strategy they used. Ask the students to be prepared to talk about how each strategy helped them understand what they read.

Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 136) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share with a partner a passage he marked and the strategy he used to make sense of it. Have each student begin by saying the title of the book he read, the author’s name, and what the book is about.

When most pairs have finished sharing, signal for the students’ attention. Facilitate a class discussion about the strategies the students used. Ask:

- Q *What comprehension strategies did you use as you read today?*
- Q *How does [visualizing] help you understand the story?*

Have the students return to their desks and put away their books.

EXTENSION

Read and Discuss More Science Fiction Stories

Read other science fiction stories and have the students discuss their opinions about them. You might read short stories from *Bruce Coville’s Book of Aliens: Tales to Warp Your Mind* or *Bruce Coville’s Book of Aliens II: More Tales to Warp Your Mind* or *From These Ashes: The Complete Short SF of Fredric Brown* edited by Ben Yalow, or *Guys Read: Other Worlds* by Jon Scieszka. After reading each story, facilitate a class discussion using questions such as:

- Q *What is the future that the author imagines in this story?*
- Q *How is the world the author describes [the same as/different from] our world today?*
- Q *How is the imagined future in this story [the same as/different from] the future that Edward D. Hoch describes in the story “Zoo”?*
- Q *Which story do you think is more interesting? Why?*

Materials

- “Zoo” (see pages 602–603)
- *Student Response Book* pages 86–88
- “Questions About ‘Zoo’” chart (WA2)
- “Review of ‘Zoo’” chart (WA3)

Teacher Note

Keep this discussion brief. The purpose is to help the students remember the story and their initial opinions of it. They will have an opportunity later in the lesson to discuss their opinions in more depth.

In this lesson, the students:

- Reread a science fiction story
- Form opinions about the story
- Learn to write a review
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Review “Zoo”

Have the students bring their *Student Response Books* and gather with partners sitting together, facing you. Remind the students that in the previous lesson they heard the story “Zoo.” Ask:

Q *What happens in the story?*

Q *After hearing it once, did you think you would recommend this story to someone else? Why or why not?*

Explain that the class will write a review of “Zoo” together. Remind them that they will use what they learn today to write reviews of their own books tomorrow.

2 Reread “Zoo” Aloud

Have the students turn to *Student Response Book* pages 86–88 and explain that this is a copy of the story. Ask them to follow along as you reread the story aloud. Tell them that during the reading they should think again about whether or not they would recommend the story to another reader, and why. After the reading, they will talk about their opinions in pairs.

Read “Zoo” aloud slowly and clearly.

3 Discuss the Story

Display the “Questions About ‘Zoo’” chart (WA2) and read the questions on it. Then have partners discuss the questions with each other.

Questions About “Zoo”

- Would you recommend this story? Why or why not?
- Did your opinion of the story change during the second reading? Why or why not?

Circulate as partners talk, and notice whether the students are expressing opinions and supporting their opinions by referring to the story. If the students are having difficulty forming or expressing opinions, ask questions such as:

- Q *Were you interested in what was happening in the story? Why or why not?*
- Q *Was there anything surprising or unexpected in the story? Why was it surprising or unexpected?*
- Q *How did you feel as you listened to the story? Why did you feel that way?*

When most pairs have finished, ask a few volunteers to share their ideas with the class.

4 Read a Summary of “Zoo” and Model Writing an Opinion

Remind the students that a review includes both a summary and an opinion. Ask:

- Q *How might you summarize “Zoo”?*

Have one or two volunteers share their thinking. Then display the “Review of ‘Zoo’” chart (WA3). Tell the students that this is one way the story might be summarized.

Read the summary aloud. Point out that the summary does not give away the ending of the story and that this is typical of reviews. (Giving away the surprise could spoil the story for other readers.) Use “Think, Pair, Share” to discuss:

-  Q *What might someone who recommends the story say about it? [pause] Turn to your partner.*

Have a few volunteers share their thinking; then use “Think, Pair, Share” to discuss:

-  Q *What might someone who doesn’t recommend the story say about it? [pause] Turn to your partner.*

Have a few volunteers share their thinking; then ask them to listen and watch as you add an opinion to the summary. Begin by thinking aloud about your opinion. Be sure to start your paragraph with the phrase *I recommend this story because . . .*

ELL Note

Consider having your English Language Learners think about questions such as these during their partner conversations.

Teacher Note

You might also want to model adding a paragraph that expresses the opposite opinion. For example, you might write: *I would not recommend this story because the world of the future did not seem believable to me. Although aliens in science fiction can seem very real and scary, I didn’t think the creatures in “Zoo” seemed entirely real. The author tries to surprise us at the end, but I was able to figure out the surprise before the end.*

Point out to the students that a respectful tone is important when writing both negative and positive reviews.

Teacher Note

Save the "Review of 'Zoo'" chart (WA3) to use on Day 4.

You might say:

"I would recommend this story to others. The zoo of the future seemed very real to me. I'll write: *I recommend this story because the author creates a world of the future that seems very real.* I liked the way the author describes the horse-spider people. I could visualize them running up the cage walls and squeaking in high-pitched tones. I'll write: *The horse-spider people are creepy, running up the cage walls and squeaking.* I also liked the surprise ending. I'll write: *The ending is unexpected. I found myself thinking about it for a long time after I finished reading the story.*"

Point out that a review always gives evidence from the text to support the opinions. Remind the students that forming opinions and making judgments helps readers think and communicate more meaningfully about text.

5 Reflect on Discussing Opinions Respectfully

Without mentioning any of the students' names, share some of your observations of respectful ways the students shared their opinions. Ask:

Q *What went well when we shared opinions today? What problems did we have? What can we do to avoid those problems the next time we share opinions?*

Explain that in the next lesson the students will add their opinions to the summaries they wrote last week.

INDIVIDUALIZED DAILY READING

6 Practice Orally Summarizing Reading

Ask the students to think about the important ideas in their books as they read, and tell them that at the end of IDR you will ask them to use the important ideas they have thought about to summarize what they read today for partners. Explain that you will also ask them to share whether they would recommend their books to someone and why. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 136) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Use “Think, Pair, Share” to discuss:

Q *If you were to tell someone in a few sentences what your book is about, what would you say?* [pause] *Turn to your partner.*

Q *Would you recommend this book to someone? Why or why not?* [pause] *Turn to your partner.*

Invite a few volunteers to share with the class. Have each volunteer begin by telling the title of the book she read and the author’s name. Then have her orally summarize the book and share her opinion. Have the students return to their desks and put away their books.

Independent Strategy Practice

Day 4

In this lesson, the students:

- Form opinions about texts read independently
- Add opinion paragraphs to summaries
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Review Forming Opinions and Writing Reviews

Have the students get their *Student Response Books* and pencils and sit at desks with partners together. Display the “Review of ‘Zoo’” chart (WA3). Review that the students heard the story “Zoo” and watched you model writing a review of it earlier. Remind them that a review contains a summary and the reviewer’s opinion and that forming opinions can help readers think more deeply and critically about texts and communicate more meaningfully about them.

Remind the students that in the previous week they each wrote a summary of a text read independently. Tell them that today they will expand their summaries into reviews by adding opinion paragraphs to them. They will then share their reviews with one another.

Materials

- “Review of ‘Zoo’” chart (WA3) from Day 3
- “Factors to Consider When Forming an Opinion” chart, prepared ahead, and a marker
- *Student Response Book* pages 82–83
- “Directions” chart (WA4)
- “Class Assessment Record” sheet (CA1)
- “Reading Comprehension Strategies” chart and a marker
- (Optional) *Student Response Book* pages 84–85

Teacher Note

Today’s lesson may take longer than usual to complete. You might consider stopping after Step 4 and then completing the remainder of the lesson at another time.

2 Discuss Factors to Consider When Forming an Opinion

Explain that readers usually consider many factors when forming opinions about a text. If necessary, explain that *factors* are “things you need to think about in order to make a decision.” Ask:

- Q *What helps you decide whether or not you like a fiction story?*
- Q *What helps you decide whether or not you like a nonfiction text?*

Students might say:

“For me to like a story, it has to have a lot of action. I get bored if it’s just description.”

“I like books that tell me lots of facts about things I’m interested in, like wild animals.”

“I like stories with good characters. I especially like reading about girls my age.”

“I like nonfiction books that have pictures and that explain things clearly, so I don’t get confused.”

Use the students’ ideas to start a chart titled “Factors to Consider When Forming an Opinion.” If the students have difficulty generating ideas, suggest some yourself such as those listed in the diagram below:

Factors to Consider When Forming an Opinion

About Fiction

Does the story make me want to keep reading? Why?

What is interesting about the characters and the conflicts they face?

Does the story have action? Suspense? Humor? Mystery? How is this shown?

What is unexpected in the plot?

What is interesting about the setting?

What are the story’s themes (messages, lessons, or important questions)?

How does the story make me feel?

(continues)

(continued)

About Nonfiction

What is interesting about the topic?

Does the text make me want to keep reading?

Why?

Does the text answer some of my questions about this topic? How?

Does it make me curious to know more?

About what?

Does the text use text features? How do they help me learn about the topic?

How is the information presented? Clearly?

In a confusing way?

Ask the students to keep some of these factors in mind as they think about their own texts and why they would or would not recommend them to other readers.

3 Think About and Discuss Opinions

Have the students turn to *Student Response Book* pages 82–83, “Summary of _____.” Display the “Directions” chart (🌐 WA4) and explain the directions on it.

Directions

1. Reread your summary.
2. Reread the “Factors to Consider When Forming an Opinion” chart.
3. Think quietly about whether or not you would recommend the text to another reader, and why.
4. Talk with your partner about what you want to say in your opinion paragraph.
5. Add an opinion paragraph to your summary. Begin the paragraph with “I recommend this text because . . .” or “I don’t recommend this text because . . .”

WA4

ELL Note

You may want to model this activity for your English Language Learners.

TEKS 6.H.i
Student/Teacher Activity
Step 3

Remind the students to give reasons for their opinions when talking in pairs and to discuss their opinions respectfully.

4 Write Opinion Paragraphs

Have the students follow the charted directions to add opinion paragraphs to their summaries. After most partners have finished sharing with each other what they plan to write, display the “Review of ‘Zoo’” chart (WA3) as a model for the students to use as they write their opinion paragraphs. If they need additional models, have them refer to the “Review of ‘Mrs. Buell’” and the “Review of *A Picture Book of Jesse Owens*” on *Student Response Book* pages 84–85. Remind the students to start their paragraphs with the words *I recommend this text because . . .* or *I don’t recommend this text because . . .*

Circulate and observe as the students write.

Teacher Note

You might write the phrases where everyone can see them.

Teacher Note

As you observe, look for a few effective reviews to use as examples in the class discussion.

Teacher Note

Save the “Factors to Consider When Forming an Opinion” chart to use throughout the unit.

CLASS ASSESSMENT NOTE

Ask yourself:

- Can the students express opinions about their reading?
- Can they use information from the book to support their opinions?

Record your observations on the “Class Assessment Record” sheet (CA1); see page 132 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to express and support opinions about their reading, proceed with the lesson and continue on to Week 2.
- If **about half of the students** are able to express and support opinions about their reading, continue on to Week 2 and plan to check in with students who are having difficulty during the lessons and during their independent reading. Week 2 offers the students more experience with forming and writing about their opinions.
- If **only a few students** are able to express and support opinions about their reading, you might give the class additional instruction by repeating Days 2 and 3 of this week using an alternative story before continuing on to Week 2. Visit the CCC Learning Hub (ccclearninghub.org) to view the “Grade 5 Alternative Texts” list.

5 Analyze and Revise Reviews

When most students have finished adding opinion paragraphs to their reviews, call on a few students who have written effective reviews and have them read their reviews aloud. Ask:

- Q *Does this review give you a good idea of what this text is about? How?*
- Q *Does this review use evidence from the text to explain why [Heidi] recommends the [book]? How?*

After the students hear these examples, ask them to reread their own reviews and revise them as needed. Remind them that each review should communicate what the text is about and give reasons why the student recommends or does not recommend the book.

6 Share Reviews as a Class

Give every student an opportunity to read his complete review aloud to the class. After each student shares, facilitate a discussion about the text and summary using the following questions. During the discussions, remind the students to express their opinions respectfully. Ask:

- Q *What questions do you want to ask [Jerome] about his [book] or review?*
- Q *Based on [Jerome's] review, do you think you would like to read this [book]? Why or why not?*
- Q *Has anyone else read [Jerome's book]? If so, do you share his opinion? Why or why not?*

7 Add to the “Reading Comprehension Strategies” Chart

Explain that forming opinions and making judgments about texts is an important reading comprehension strategy that helps readers think more deeply and critically about texts and communicate more meaningfully about them. Direct the students’ attention to the “Reading Comprehension Strategies” chart and add *forming opinions and making judgments* to it.

Teacher Note

If the students had difficulty writing effective opinion paragraphs, you may want to collect their reviews at this point and take time to look over them yourself. Give each student individual feedback and have each student write a second draft incorporating your feedback before going on to Step 6 of this lesson.

Teacher Note

You might have the students read their reviews aloud over several days. Use the questions in Step 6 to facilitate discussion after each student shares his review.

Reading Comprehension Strategies

- using text features
- questioning
- recognizing story elements
- making inferences
- visualizing
- analyzing how texts are organized
- determining important ideas and supporting details
- summarizing
- forming opinions and making judgments

Vocabulary Note

Next week you will revisit “Zoo” to teach the Week 26 vocabulary lessons.

Explain that in the coming weeks the students will continue to practice these strategies.

Review

of “Mrs. Buell”

In the story “Mrs. Buell” by Jean Little, a girl named Kate tells about Mrs. Buell, a grouchy woman who owns a store in Kate’s neighborhood. One day Kate trips and falls in the store, and Mrs. Buell picks her up and puts a Band-Aid on her knee. Kate is surprised to find out that Mrs. Buell has a nice side. She doesn’t think about Mrs. Buell much after that until she goes into the store one day and discovers that Mrs. Buell has died. Kate learns that the old woman had a daughter and a whole other life that Kate knew nothing about. Kate realizes that she never tried to get to know Mrs. Buell. She also realizes that “nothing was safe” in her life. Even the everyday things that she takes for granted can suddenly disappear.

I would recommend this story because it made me think about my own life and how I sometimes overlook people. In the story, Kate doesn’t pay much attention to Mrs. Buell, and she is sorry about that when Mrs. Buell dies. That made me think about how I need to pay more attention to people in my life and show them that I care about them.

Story

Zoo

by Edward D. Hoch

The children were always good during the month of August, especially when it began to get near the twenty-third. It was on this day that Professor Hugo's Interplanetary Zoo settled down for its annual six-hour visit to the Chicago area.

Before daybreak the crowds would form, long lines of children and adults both, each one clutching his or her dollar, and waiting with wonderment to see what race of strange creatures the Professor had brought this year.

In the past they had sometimes been treated to three-legged creatures from Venus, or tall, thin men from Mars, or even snakelike horrors from somewhere more distant. This year, as the great round ship settled slowly to earth in the huge tri-city parking area just outside of Chicago, they watched with awe as the sides slowly slid up to reveal the familiar barred cages. In them were some wild breed of nightmare—small, horselike animals that moved with quick, jerking motions and constantly chattered in a high-pitched tongue. The citizens of Earth clustered around as Professor Hugo's crew quickly collected the waiting dollars, and soon the good Professor himself made an appearance, wearing his many-colored rainbow cape and top hat. "Peoples of Earth," he called into his microphone.

The crowd's noise died down as he continued. "Peoples of Earth, this year you see a real treat for your single dollar—the little-known horse-spider people of Kaan—brought to you across a million miles of space at great expense. Gather around, study them, listen to them, tell your friends about them. But hurry! My ship can remain here only six hours!"

And the crowds slowly filed by, at once horrified and fascinated by these strange creatures that looked like horses but ran up the walls of their cages like spiders. "This is certainly worth a dollar," one man remarked, hurrying away. "I'm going home to get the wife."

All day long it went like that, until ten thousand people had filed by the barred cages set into the side of the spaceship. Then, as the six-hour limit ran out, Professor Hugo once more took microphone in hand. "We must go now, but we will return next year on this date. And if you enjoyed our zoo this year, phone your friends in other cities about it. We will land in New York

(continues)

"Zoo" by Edward D. Hoch, originally published in *Fantastic Universe*. Copyright © 1958 by Edward D. Hoch. Reprinted by permission of the Sternig & Byrne Literary Agency.

Zoo (continued)

tomorrow, and next week on to London, Paris, Rome, Hong Kong, and Tokyo. Then on to other worlds!”

He waved farewell to them, and as the ship rose from the ground the Earth peoples agreed that this had been the very best Zoo yet. . . .

Some two months and three planets later, the silver ship of Professor Hugo settled at last onto the familiar jagged rocks of Kaan, and the queer horse-spider creatures filed quickly out of their cages. Professor Hugo was there to say a few parting words, and then they scurried away in a hundred different directions, seeking their homes among the rocks.

In one, the she-creature was happy to see the return of her mate and offspring. She babbled a greeting in the strange tongue and hurried to embrace them. “It was a long time you were gone! Was it good?”

And the he-creature nodded. “The little one enjoyed it especially. We visited eight worlds and saw many things.”

The little one ran up the wall of the cave. “On the place called Earth it was the best. The creatures there wear garments over their skins, and they walk on two legs.”

“But isn’t it dangerous?” asked the she-creature.

“No,” her mate answered. “There are bars to protect us from them. We remain right in the ship. Next time you must come with us. It is well worth the nineteen commocs it costs.”

And the little one nodded. “It was the very best Zoo ever. . . .”

“Zoo” by Edward D. Hoch, originally published in *Fantastic Universe*. Copyright © 1958 by Edward D. Hoch. Reprinted by permission of the Sternig & Byrne Literary Agency.

Week 2

OVERVIEW

Story

"12 seconds from death"

by Paul Dowswell
(see pages 619–621)

Three skydivers make a parachute jump that almost ends in disaster.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA5–WA7

Assessment Forms

- "Class Assessment Record" sheet (CA2)
- "IDR Conference Notes" record sheet (CN1)

Comprehension Focus

- Students synthesize by making judgments and forming opinions about a narrative nonfiction story, using evidence from the story to support their conclusions.
- Students read independently.

Social Development Focus

- Students relate the value of respect to their behavior.
- Students develop the skills of giving reasons for their opinions, discussing their opinions respectfully, and expressing their true opinions.

1 DO AHEAD

- ✓ Prior to Day 1, you might show your English Language Learners photos of skydivers.
- ✓ Prior to Day 3, prepare to model recording textual evidence that supports your opinion using a narrative text the students are familiar with (see Step 4). Have your opinion about the text and the evidence that supports it in mind ahead of time so the modeling goes smoothly.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA2); see page 133 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 26 lessons this week.

Materials

- “12 seconds from death” (see pages 619–621)
- “People in the Story” chart (WA5)
- “Factors to Consider When Forming an Opinion” chart from Week 1

In this lesson, the students:

- Hear and discuss a narrative nonfiction story
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Introduce the Week

Gather the class with partners sitting together, facing you. Remind the students that last week they read the story “Zoo” by Edward D. Hoch, watched you model writing a review of the story, and wrote reviews of texts they read independently. In their reviews, they summarized their texts and then wrote whether they would recommend the texts and why. Explain that this week they will continue to focus on expressing opinions about their reading and think about ways to express their opinions in greater depth.

2 Introduce “12 seconds from death”

Tell the students that today you will read an action/adventure story called “12 seconds from death.” The story is about three skydivers who made a parachute jump that almost ended in disaster. If necessary, explain that *skydivers* are “people who jump from airplanes for sport, using parachutes to slow their landing to Earth.” Ask and briefly discuss as a class:

Q *What do you know about the sport of skydiving?*

Display the “People in the Story” chart (WA5) and read it aloud.

People in the Story

- Richard Maynard: man making his first jump
- Mike Smith: instructor strapped to Richard
- Ronnie O’Brien: instructor paid to videotape Richard’s jump

WA5

3 Read Aloud

Read “12 seconds from death” aloud slowly and clearly, stopping as described on the next page and clarifying vocabulary as you read. Read the first two paragraphs (to the first stop) twice, clarifying vocabulary

during the first reading. Explain that you are rereading the beginning of the story because it contains important information about the skydivers.

Suggested Vocabulary

substantial: large (p. 619)

plummet: fall rapidly (p. 619)

commissioned: paid (p. 619)

290kmph: 290 kilometers per hour, or about 180 miles per hour (p. 619)

spread-eagled posture: with arms and legs spread wide (p. 619)

veteran: experienced person (p. 619)

lurch: roll away suddenly (p. 619)

adrenaline: chemical produced by the body when someone is scared or excited (p. 621)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

videotape: use a camera to record pictures and sounds to be played back later (p. 619)

consciousness: ability to think and feel (p. 619)

descent: fall (p. 619)

Stop after:

p. 619 "... Maynard had also commissioned instructor Ronnie O'Brien to videotape him."

Ask:

Q *What did you find out about the skydivers in the first part of the story? Turn to your partner.*

Without sharing as a class, reread the last sentence before the stop and continue reading to the next stop.

p. 619 "If O'Brien could not help them, they both faced certain death."

Ask:

Q *What happened in the part of the story you just heard? What do you think might happen next? Turn to your partner.*

Without sharing as a class, reread the last sentence before the stop and continue reading to the next stop.

p. 621 "... O'Brien knew he had only one more chance to save their lives."

Repeat the above procedure to discuss the third part of the story. Then continue reading to the end of the story. Show the illustrations and read the accompanying captions on page 620 to help the students understand the story.

Teacher Note

This question helps the students begin to form opinions about the story and think about the reasons for them. They will explore their opinions in more depth in the next lesson.

Facilitation Tip

Continue to focus on **responding neutrally with interest** during class discussions by refraining from overtly praising or criticizing the students' responses. Instead, build the students' intrinsic motivation by responding with genuine curiosity and interest, for example:

- "Interesting—say more about that."
- "What you said makes me curious. I wonder . . ."
- "You have a point of view that's [similar to/different from] what [Michael] just said. How is it [similar/different]?"
- "Do you agree or disagree with [Sarita]? Why?"
- "What questions do you have for [Sarita] about her thinking?"

4 Discuss the Story as a Class

Facilitate a discussion of the story using the following questions. Remind the students to use the prompt "The reason I think this is . . ." and the discussion prompts to add to one another's thinking.

- Q *What are the important events in this story?*
- Q *What parts of the story were especially interesting or exciting?*

Students might say:

"The part where the parachute cord got tangled around Smith's neck is very important. The reason I think this is that when the cord got tangled, the parachute couldn't open. Also, Smith became unconscious so he couldn't do anything to fix the situation."

"I thought it was exciting how O'Brien saved the other skydivers just in time."

"I agree with [Roland]. I also thought it was interesting how O'Brien caught up to the other two skydivers. He changed the position of his arms and legs in order to fly faster through the air."

"I thought it was interesting that Maynard didn't even know he was in trouble."

- Q *Would you recommend this story, or stories like it, to someone else? Give reasons for your opinion.*

Explain that in the next lesson the students will revisit their opinions.

5 Reflect on Discussing Opinions

Facilitate a brief discussion about how the students did giving reasons for their opinions and discussing their opinions respectfully.

INDIVIDUALIZED DAILY READING

6 Practice Orally Summarizing Reading

Ask the students to think about the important ideas in their books as they read, and tell them that at the end of IDR you will ask them to use the important ideas they have thought about to summarize what they read today for partners. Explain that you will also ask them to share their opinions of their books with partners. Direct the students' attention to the "Factors to Consider When Forming an Opinion" chart and remind them to refer to the chart as they form their opinions. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 136) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Use “Think, Pair, Share” to discuss:

Q *If you were to tell someone in a few sentences what your book is about, what would you say?* [pause] *Turn to your partner.*

Q *Would you recommend this book to someone? Why or why not?* [pause] *Turn to your partner.*

Invite a few volunteers to share with the class. Have each volunteer begin by telling the title of the book he read and the author’s name. Then have him orally summarize the book and share his opinion. Have the students return to their desks and put away their books.

Guided Strategy Practice

Day 2

In this lesson, the students:

- Reread a narrative nonfiction story
- Form opinions about the story
- Find evidence in the story that supports their opinions
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Review “12 seconds from death”

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that in the previous lesson they heard the story “12 seconds from death.” Ask:

Q *What happened in the story?*

Materials

- “12 seconds from death” (see pages 619–621)
- “Factors to Consider When Forming an Opinion” chart from Week 1
- “Questions About ‘12 seconds from death’” chart (WA6)
- *Student Response Book* pages 89–92

Teacher Note

Keep this discussion brief. The purpose is to help the students remember the story and their initial opinions of it. They will have an opportunity later in the lesson to discuss their opinions in more depth.

Be ready to reread from the story and show the illustrations on page 620 (“How it all happened”) again to help the students recall the sequence of events. Ask:

Q *After hearing the story once yesterday, did you think you would recommend this story to someone else? Why or why not?*

2 Discuss Opinions of the Story

Remind the students that they have been focusing on forming opinions about their reading—specifically, whether they would recommend a text to someone else and why. Remind them that readers usually consider many factors when forming opinions. Direct their attention to the “Factors to Consider When Forming an Opinion” chart and review the factors you discussed previously.

Display the “Questions About ‘12 seconds from death’” chart (WA6) and read the questions on it. Have partners think quietly about the questions and then discuss them with each other.

WA6

Questions About “12 seconds from death”

- Did the story “12 seconds from death” hold your interest? Why?
- Were the people or events described in the story interesting? Why?
- How did you feel as you listened to the story? Why did you feel that way?

After partners have had a chance to talk, have the students turn to *Student Response Book* page 89, “My Opinions About ‘12 seconds from death,’” and write some of their opinions about the story.

3 Read the Story and Think About Opinions

Have the students turn to *Student Response Book* pages 90-92, “12 seconds from death,” and read the story in pairs or silently to themselves. Ask them to think about the opinions they wrote, look for evidence that supports their opinions, and underline the evidence. After they have finished reading, have partners talk with each other about their opinions and what they underlined.

Point out that the students’ opinions may change as they revisit the story. If this happens, they can revise or add to the opinions and underline evidence in the story that supports their new opinions.

4 Discuss Opinions as a Class

Facilitate a discussion using the following questions:

- Q *What is your opinion about the story? What did you underline in the story that supports your opinion? How does that support your opinion?*
- Q *Did your opinion of the story change? Why or why not?*

Students might say:

"I think the story has suspense because you don't know if O'Brien is going to save the two skydivers. I underlined 'He had to judge his descent very carefully. If he overshot, he would have little chance of saving the two men' because that shows how dangerous the situation was."

"I disagree with [Caleb] because you know from the start that the three skydivers are going to make it. In the first paragraph, I underlined 'three skydivers were about to make a parachute jump they would never forget.'"

"I liked the story because I learned about skydiving, including what a tandem jump is and how a skydiver uses his position to fly faster or slower."

5 Reflect on Discussing Opinions Respectfully

Without mentioning any of the students' names, share some of your observations of respectful ways the students shared their opinions. Ask:

- Q *How did you and your partner do sharing your opinions today? What problems did you have? How can you avoid those problems the next time you share opinions?*

Explain that tomorrow the students will practice forming and discussing opinions about their own independent reading books.

INDIVIDUALIZED DAILY READING

6 Practice Orally Summarizing Reading

Ask the students to think about the important ideas in their books as they read, and tell them that at the end of IDR, you will ask them to use the important ideas they have thought about to summarize what they read today for partners. Explain that you will also ask them to share their opinions of their books with partners. Remind the students to refer to the "Factors to Consider When Forming an Opinion" chart as they form their opinions. Have the students get their books and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

TEKS 7.D.i
Student/Teacher Activity
Step 6

IDR CONFERENCE NOTE

Continue to confer individually with the students about the books they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 136) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Use “Think, Pair, Share” to discuss:

Q *If you were to tell someone in a few sentences what your book is about, what would you say? [pause] Turn to your partner.*

Q *Would you recommend this book to someone? Why or why not? [pause] Turn to your partner.*

Invite a few volunteers to share with the class. Have each volunteer begin by telling the title of the book she read and the author’s name. Then have her orally summarize the book and share her opinion. Have the students return to their desks and put away their books.

EXTENSION

Read Other Narrative Nonfiction Stories by Paul Dowswell

The story “12 seconds from death” appears in a collection called *True Stories of Heroes* by Paul Dowswell. If the students enjoy true action/adventure stories, you might read aloud other stories from the collection. Alternatively, you might read aloud stories from one of Dowswell’s numerous other collections, which include *True Spy Stories*, *True Escape Stories*, *True Survival Stories*, *True Sea Stories*, and *True Desert Adventure Stories*. After reading each story, encourage the students to express their opinions about the story and support the opinions with evidence.

In this lesson, the students:

- Read independently
- Form opinions about stories
- Find evidence in the stories that supports their opinions
- Discuss their opinions respectfully

1 Review Forming Opinions

Have the students get their *Student Response Books*, pencils, and books for independent reading and sit at desks with partners together. Review that over the past two weeks the students have heard and read stories, formed opinions about the stories using factors such as those on the “Factors to Consider When Forming an Opinion” chart, and looked for evidence in the stories to support their opinions. Remind the students that good readers think about their personal responses to texts. Explain that today they will practice forming opinions about stories they read independently.

2 Read Independently Without Stopping

Distribute a self-stick note to each student. Ask the students to use the self-stick notes to mark where they begin reading today. Ask them to be aware as they read of whether or not their stories are holding their interest and why. Refer them to the “Factors to Consider When Forming an Opinion” chart for questions to ask themselves about their stories. Have the students read independently for 10 minutes.

3 Record Opinions in a Double-entry Journal

After 10 minutes, stop the students. Display the “Questions About Independent Reading” chart (WA7) and read the questions on it, pausing after you read each question to give the students time to think.

Questions About Independent Reading

- Is the story you are reading holding your interest? Why?
- Are the people/characters interesting? Why?
- How does the story make you feel? Why?
- Would you recommend this story to someone else? Why?

WA7

Materials

- Small self-stick note for each student
- “Factors to Consider When Forming an Opinion” chart from Week 1
- “Questions About Independent Reading” chart (WA7)
- *Student Response Book* page 93
- Narrative text for modeling, selected ahead

TEKS 7.A.i
Student/Teacher Activity
Step 3

Teacher Note

Save the “Questions About Independent Reading” chart (WA7) to use on Day 4 and in Week 3.

ELL Note

Asking these questions might be especially helpful for your English Language Learners.

Have the students turn to *Student Response Book* page 93, “Double-entry Journal: My Opinions About _____ (1).” Ask each student to write the title of his book on the line at the top of the journal. Then have each student write a few of his opinions in the left-hand column of the journal.

4 Model Using the Double-entry Journal

Explain that the students will reread what they just read, beginning at their self-stick notes, and look for evidence that supports their opinions. When they find evidence, they will write the evidence in the right-hand column of the journal.

Model the procedure by thinking aloud about your own story and recording an opinion and evidence where everyone can see them.

You might say:

“I read the story ‘Mrs. Buell’ again. I think the character Mrs. Buell is very believable—I can almost see her. I’ll write my opinion on the left: *I think the character Mrs. Buell is very believable.* Here are some sentences that give evidence for my opinion. I’ll write them next to my opinion: *‘In winter she wore the same sweater every day, a man’s gray one, too big, with the sleeves pushed up. They kept slipping down and she’d shove them back a million times a day.’*”

5 Reread Independently and Record Evidence

Have the students reread and record evidence for their opinions in the right-hand column of their double-entry journals. Remind the students that as they reread, their opinions may change. If that happens, they can revise or add to the opinions and look for evidence to support the new opinions. If the students have difficulty forming opinions or finding evidence for their opinions, support the students by asking questions such as:

- Q *What happened in the part of the story you read today? Did it hold your interest? Why or why not?*
- Q *What did a character do or say that surprised or interested you? Read that part aloud.*
- Q *How did you feel as you read the selection? What made you feel that way? Read that part aloud.*

6 Discuss Opinions in Pairs and as a Class

When most students have finished, have partners discuss their opinions and supporting evidence. Then have a few students share their journal entries with the class. Remind each student to tell the title of her book and the author’s name and to briefly say what the book is about before sharing her opinion and the evidence she found. After each student

shares, elicit questions from the class and allow the student who shared to respond.

Remind the students that the reason they are learning to form and discuss opinions about their reading is to help them think more deeply and critically about texts and to get better at communicating about those texts. Explain that tomorrow they will continue to practice forming opinions about their independent reading.

Independent Strategy Practice

Day 4

In this lesson, the students:

- Read independently
- Form opinions about stories
- Find evidence in the stories that supports their opinions
- Discuss their opinions respectfully
- Discuss the importance of expressing their true opinions

1 Review Forming Opinions

Have the students get their *Student Response Books*, pencils, and books for independent reading and sit at desks with partners together. Review that yesterday the students formed opinions about the stories they read independently and looked for evidence in the stories to support their opinions. Explain that today they will continue to practice this with the stories they are reading independently.

Remind the students that readers' opinions of texts often change as they continue reading. Explain that any students who are reading the same stories they were reading yesterday should think as they read about whether their opinions of the stories are changing and why.

2 Read Independently Without Stopping

Distribute a self-stick note to each student. Ask the students to use the self-stick notes to mark where they begin reading today. Ask them to be aware as they read of whether or not their stories are holding their interest and why. Refer them to the "Factors to Consider When Forming an Opinion" chart for questions to ask themselves about their stories. Have the students read independently for 10 minutes.

Materials

- Small self-stick note for each student
- "Factors to Consider When Forming an Opinion" chart from Week 1
- "Questions About Independent Reading" chart (WA7)
- *Student Response Book* page 100
- "Class Assessment Record" sheet (CA2)

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit's Individual Comprehension Assessment.

Teacher Note

If necessary, model the procedure by thinking aloud about your own story and recording an opinion and evidence where everyone can see them. For example, you might say, "I read *Richard Wright and the Library Card* again. I think the story does a good job of creating suspense about whether Richard will get into trouble for borrowing library books. I'll write my opinion on the left: *I think the story does a good job of creating suspense.* Here are some sentences that give evidence for my opinion. I'll write them next to my opinion: *'Are you sure these books aren't for you?' the librarian asked in a loud voice when he went to check them out. Once again, heads turned and Richard felt the eyes of white people on him.*"

3 Record Opinions in a Double-entry Journal

After 10 minutes, stop the students. Display the "Questions About Independent Reading" chart (WA7) and read the questions on it, pausing after each question to give the students time to think.

Questions About Independent Reading

- Is the story you are reading holding your interest? Why?
- Are the people/characters interesting? Why?
- How does the story make you feel? Why?
- Would you recommend this story to someone else? Why?

WA7

Have the students turn to *Student Response Book* page 100, "Double-entry Journal: My Opinions About _____ (2)." Ask each student to write the title of his book on the line at the top of the journal. Then have each student write a few of his opinions in the left-hand column of the journal.

4 Reread Independently and Record Evidence

Have the students reread and record evidence for their opinions in the right-hand column of the double-entry journal. Remind the students that as they reread, their opinions may change. If that happens, they can revise or add to the opinions and look for evidence to support the new opinions. If the students have difficulty forming opinions or finding evidence for their opinions, support the students by asking questions such as:

- Q *What happened in the part of the story you read today? Did it hold your interest? Why or why not?*
- Q *What did a character do or say that surprised or interested you? Read that part aloud.*
- Q *How did you feel as you read the selection? What made you feel that way? Read that part aloud.*

5 Discuss Opinions in Pairs and as a Class

When most students have finished, have partners discuss their opinions and supporting evidence with each other. Circulate and listen as partners talk.

CLASS ASSESSMENT NOTE

Ask yourself:

- Can the students express opinions about their reading?
- Can they support their opinions with evidence from their texts?

Record your observations on the “Class Assessment Record” sheet (CA2); see page 133 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to express and support opinions about their reading, proceed with the lesson and continue on to Week 3.
- If **about half of the students** or **only a few students** are able to express and support opinions about their reading, you might give the class additional instruction by repeating Day 4 of this week as many times as necessary before continuing on to Week 3.

Have a few students share their journal entries with the class. Remind each student to tell the title of his book and the author’s name and to briefly say what the book is about before sharing his opinion and the evidence he found. After each student shares, elicit questions from the class and allow the student who shared to respond.

Remind the students that the reason they are learning to form and discuss opinions about their reading is to help them think more deeply and critically about texts and to get better at communicating about those texts. Encourage them to continue to practice forming and communicating opinions as they read on their own.

6 Reflect on Discussing True Opinions

Remind the students that they have been focusing on forming and discussing opinions about their reading. Explain that it is normal for people to have differences of opinion when discussing books. However, sometimes it is challenging to express one’s true opinion, especially if it seems that most people think differently. Ask:

- Q *What can be challenging about expressing your true opinions in a group?*
- Q *I’ve noticed that sometimes students change their opinions to what others are thinking, rather than sticking with their own opinions. Why do you think they might do this?*
- Q *Why is it helpful for a group to hear opinions that are not the ones of the majority?*

Teacher Note

Use “Turn to Your Partner” as needed to increase participation, especially if you are hearing from only a few students. You can also use “Turn to Your Partner” if many students want to speak at the same time.

Vocabulary Note

Next week you will revisit “12 seconds from death” to teach the Week 27 vocabulary lessons.

Students might say:

“Sometimes I get embarrassed when people don’t agree with me. It makes me feel like I don’t know what’s going on.”

“I agree with [Mohammed]. One time I voted to hear a book that no one else liked. I got embarrassed, so I changed my vote.”

“Just because not everyone thinks the way you do doesn’t mean you’re wrong.”

“I think that sometimes one person’s way of looking at something can make everyone else think about something in a new way.”

“In addition to what [Devon and Angie] said, famous people like Martin Luther King Jr. and Dolores Huerta have made a huge difference in the world by sticking to their true opinions. They can be role models for us.”

State your expectation that the students will express their true opinions and help make the class a safe place for discussing opinions.

Story

12 seconds from death

by Paul Dowswell

An icy blast roared through the Skyvan transport plane as the rear door opened to the bright blue sky. On an April morning in 1991, above the flat fields of Cambridgeshire, England, three skydivers were about to make a parachute jump they would never forget.

Richard Maynard was making his first jump. He had paid a substantial fee to plummet from 3,600m (12,000ft), strapped to Mike Smith, a skilled parachute instructor. Expecting this experience (known as a “tandem jump”) to be the thrill of a lifetime, Maynard had also commissioned instructor Ronnie O’Brien to videotape him.

O’Brien leaped backwards from the plane to film Maynard and Smith’s exit. The pair plunged down after him, speeding up to 290kmph (180mph) in the first 15 seconds. They soon overtook O’Brien, and Smith released a small drogue parachute to slow them down to a speed where it would be safe to open his main parachute, without it giving them a back-breaking jolt. But here disaster struck. As the chute flew from its container, the cord holding it became entangled around Smith’s neck. It pulled tight, strangling him, and he quickly lost consciousness.

Watching from 90m (300ft) above, O’Brien saw the two men spinning out of control, and when the drogue parachute failed to open he knew something had gone terribly wrong. Both men were just 45 seconds from the ground. If O’Brien could not help them, they both faced certain death.

O’Brien changed from the usual spread-eagled posture of a skydiver, and swooped down through the air toward the plummeting pair, with his legs pressed tightly together and arms by his side. He had to judge his descent very carefully. If he overshot, he would have little chance of saving the two men, but this veteran of 2,000 jumps knew what he was doing.

Positioning himself right in front of them, he quickly realized what had happened, and tried to grab hold of Smith so he could release his main parachute. But diving at the same speed was extremely difficult. O’Brien would be within arm’s length of the falling men and then lurch out of reach. Then suddenly, he fell way below them.

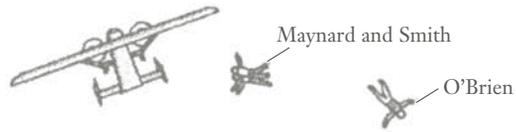

(continues)

12 seconds from death (continued)

How it all happened

3,600m (12,000ft)
O'Brien jumps from aircraft, followed immediately by Maynard and Smith.

3,000m (10,000ft)
Smith deploys drogue chute which becomes tangled around his neck.

2,300m (7,500ft)
Smith loses consciousness. O'Brien dives down to help.

2,500–1,500m (7,000–5,000ft)
O'Brien catches up with tandem divers but slips underneath them (25 seconds to impact).

...but slips beneath the other two.

900m (3,000ft)
O'Brien catches up again.

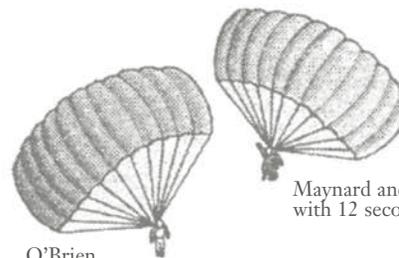

700m (2,500ft)
Parachute released (12 seconds to impact).
Smith recovers.

...to release their parachute.

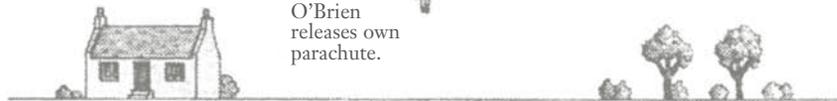

650m (2,250ft)
O'Brien deploys own parachute.

Maynard and Smith land with 12 seconds to spare.

O'Brien releases own parachute.

(continues)

"12 seconds from death" by Paul Dowswell reproduced from *True Stories of Heroes* by permission of Usborne Publishing, 83–85 Saffron Hill, London EC1N 8RT, UK. Copyright © 2006 Usborne Publishing Ltd.

12 seconds from death *(continued)*

Time was fast running out. The ground was a mere 20 seconds away and O'Brien knew he had only one more chance to save their lives. He spread his arms and legs out to slow his descent, and this time managed to connect with the pair. Whirling around and around, O'Brien searched frantically for the handle that would release Smith's parachute.

With barely 12 seconds before they hit the ground, O'Brien found the handle, and the large main chute billowed out above them. Slowed by the chute, Smith and Maynard shot away as O'Brien continued to plunge down. He released his own parachute when he was safely out of the way, a few seconds before he himself would have hit the ground.

By the time the tandem pair had landed, Smith had recovered consciousness, but collapsed almost immediately. Only then did Maynard realize something had gone wrong. Caught up in the excitement of the jump, with adrenaline coursing through his body and the wind roaring in his ears, he had had no idea that anything out of the ordinary had happened.

"12 seconds from death" by Paul Dowswell reproduced from *True Stories of Heroes* by permission of Usborne Publishing, 83–85 Saffron Hill, London EC1N 8RT, UK. Copyright © 2006 Usborne Publishing Ltd.

Week 3

OVERVIEW

"The Pros and Cons of Year-round Schools"

(see pages 644–645)

This article discusses the pros and cons of year-round schools.

"Year-round School: I'm for It"

by Chance T., Imperial, NE

(see pages 646–647)

This essay explains why the author believes all kids should go to year-round schools.

"Year-round School: I'm Against It"

by Anonymous, Temecula, CA

(see pages 648–649)

This essay explains why the author is against year-round schools.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA7–WA9

Assessment Forms

- "Class Assessment Record" sheet (CA3)
- "IDR Conference Notes" record sheet (CN1)

Professional Development Media

- "Using Social Media" tutorial (AV46)

Comprehension Focus

- Students synthesize by making judgments and forming opinions about an expository nonfiction article and two nonfiction essays, using evidence from the texts to support their conclusions.
- Students integrate information from three texts on the same topic to speak knowledgeably about the topic.
- Students read independently.

Social Development Focus

- Students relate the values of respect and responsibility to their behavior.
- Students develop the skills of giving reasons for their opinions, discussing their opinions respectfully, and expressing their true opinions.

① DO AHEAD

- ✓ Make available texts in a variety of genres and formats including fiction, narrative nonfiction, expository nonfiction books and articles, essays, and book and movie reviews at a variety of levels for the students to read during IDR and Independent Strategy Practice throughout Weeks 3 and 4.
- ✓ Prior to Day 1, prepare a sheet of chart paper with the title “Year-round Schools: Pros and Cons” (see Step 4). Under the title, draw a vertical line to create two columns. Title the left-hand column “Pros” and the right-hand column “Cons.”
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA3); see page 134 of the *Assessment Resource Book*.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 27 lessons this week.

Day 1

Read-aloud/Strategy Lesson

Materials

- “The Pros and Cons of Year-round Schools” (see page 644–645)
- *Student Response Book* pages 94–95
- “Year-round Schools: Pros and Cons” chart, prepared ahead, and a marker
- “Questions About Independent Reading” chart (WA7) from Week 2
- Small self-stick notes for each student

TEKS 9.E.i
TEKS 9.E.iv
Student/Teacher Activity
Step 2

Teacher Note

If the students struggle to skim the article, you might draw their attention to the headings “Pros” and “Cons” and review that these are headings. Direct the students’ attention to “Less Summer ‘Brain Drain’ and More Time to Learn” and review that this is a subheading, or the heading of a smaller section within the larger section called “Pros.” Point out that there are several subheadings in both the “Pros” and “Cons” sections of the article. Then ask the students to silently read the title, headings, and subheadings.

In this lesson, the students:

- Skim an expository nonfiction article by reading the title, headings, and subheadings
- Hear, read, and discuss the article
- Read independently for up to 30 minutes
- Express their true opinions
- Give reasons for their opinions

1 Discuss Expressing Opinions

Have the students bring their *Student Response Books* and gather with partners sitting together, facing you. Remind them that over the past two weeks they have been thinking about and discussing their opinions and judgments about texts. Tell them that they will continue to do so this week, and ask:

- Q *How have we been doing discussing our opinions in a respectful way?*
- Q *What do you want to remember about making our class a safe place for everyone to express their true opinions?*

Encourage the students to focus on being open to one another’s thinking and to continue to focus on giving reasons for their opinions.

2 Introduce and Skim “The Pros and Cons of Year-round Schools”

Explain that today the students will hear an article written for young people called “The Pros and Cons of Year-round Schools.” Have the students turn to *Student Response Book* pages 94–95, where the article is reproduced. If necessary, remind the students that the word *pros* means “arguments for something” and the word *cons* means “arguments against something.”

Remind the students that earlier in the year they skimmed articles before hearing them read aloud. Ask the students to silently skim the article by reading the title, headings, and subheadings. After a few moments, ask:

- Q *From reading the title, headings, and subheadings, what do you think this article is about?*

Have a few volunteers share their thinking. If necessary, explain that this article explains some of the arguments for and against year-round schools. Ask the students to follow along as you read the article aloud.

Explain that you will pause during the reading to have the students discuss what they are learning.

3 Read Aloud

Read “The Pros and Cons of Year-round Schools” aloud slowly and clearly, stopping as described below. Clarify vocabulary as you read.

Suggested Vocabulary

conclude: think (p. 644)

inconclusive: not certain (p. 645)

ELL Vocabulary

English Language Learners may benefit from hearing additional vocabulary defined, including:

traditional: normal (p. 644)

brain drain: forgetting what was learned (p. 644)

their peers: other students (p. 644)

flexibility: choices (p. 645)

more frequent breaks: breaks that happen more often (p. 645)

unwind: relax (p. 645)

maintenance: repair work; fixing things that break (p. 645)

Stop after:

p. 644 “They follow this pattern throughout the year.”

Ask:

Q *What have you learned so far about year-round schools? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue reading to the next stop:

p. 645 “. . . in deciding when to take time off and how to provide child care.”

Ask:

Q *What arguments are made in this part of the article, and what evidence supports those arguments? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue reading to the end of the article.

4 Discuss the Article as a Class

Facilitate a discussion of the article. Be ready to reread from the article to help the students recall what they heard. Ask and discuss as a class:

Q *What is this article about?*

TEKS 9.D.v
Student/Teacher Activity
Step 3
(last question)

Facilitation Tip

Continue to practice **responding neutrally with interest** during class discussions by demonstrating genuine interest and curiosity in what the students say and by refraining from overtly praising or criticizing their responses.

Teacher Note

It is not necessary to phrase the pros and cons exactly as they appear in the diagram. The important thing is to make sure that all of the pros and cons mentioned in the article are listed on the chart.

You will add to the “Pros” column of the chart on Day 2 after reading “Year-round School: I’m for It.” You will add to the “Cons” column on Day 3 after reading “Year-round School: I’m Against It.”

Teacher Note

You might point out that the article contains conflicting, or disagreeing, arguments about whether year-round schools are more expensive to run than traditional schools.

Teacher Note

Save the “Year-round Schools: Pros and Cons” chart to use throughout the week.

Q *What are the arguments for year-round schools?*

Direct the students’ attention to the “Year-round Schools: Pros and Cons” chart. List the arguments for year-round schools in the “Pros” column of the chart as the students generate them. If the students do not mention all of the pros listed in the diagram, add them to the chart. Then ask:

Q *What are the arguments against year-round schools?*

List the arguments against year-round schools in the “Cons” column of the chart as the students generate them. If the students do not mention all of the cons listed on the diagram, add them.

Pros	Cons
<ul style="list-style-type: none">– less summer “brain drain” and more time to learn– schools save money– more flexibility for families	<ul style="list-style-type: none">– no proven gains in academic achievement– no long summer break to relax, be with friends and families, go to camp– costs of running year-round schools are greater

Ask:

Q *After reading this article, what is your opinion about year-round schools? Give reasons for your opinion.*

Have a few volunteers share their thinking. Explain that in the coming days the students will hear and discuss an essay that argues in support of year-round schools and an essay that argues against year-round schools. The students will identify the arguments each author makes and add them to the chart, and they will continue to discuss their opinions about year-round schools.

INDIVIDUALIZED DAILY READING

5 Form Opinions and Find Evidence

Explain that for the next two weeks the students may continue to read fiction and narrative nonfiction books during IDR. Explain that they may also read expository nonfiction books, articles, essays, and reviews of books and movies during this time.

Review that the students have been practicing forming opinions about texts and that they looked for evidence in the texts to support their opinions. Explain that today they will continue to practice forming opinions about texts they are reading independently.

Distribute several self-stick notes to each student. Ask the students to use self-stick notes to mark where they begin reading today. Display the “Questions About Independent Reading” chart (● WA7) and explain that you will stop the students after 10 minutes and ask them to think about the questions. Then they will reread their texts, beginning at their self-stick notes, and look for evidence that supports their opinions. When they find evidence in their texts, they will mark those places with self-stick notes. Explain that you will ask the students to share their opinions and evidence with the class at the end of independent reading.

Have the students get their texts, place self-stick notes where they start to read, and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 136) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Stop the students after 10 minutes and ask them to think about the questions on the chart as they reread. Then have the students reread their texts and use additional self-stick notes to mark evidence that supports their opinions. After they have settled into their reading, continue to confer with individual students.

Signal to let the students know when it is time to stop reading. Have a few volunteers share with the class. Ask each student to tell the title of the text he read, the author’s name, and what the text is about; then have the student share his opinion of what he read and evidence that supports his thinking. If the students have difficulty forming opinions or finding evidence for them, support them by asking questions such as:

- Q *What happened in the text you read today? Did it hold your interest? Why or why not?*
- Q *What was the most interesting or surprising thing you read? Read that part aloud.*
- Q *How did you feel as you read today? What made you feel that way? Read that part aloud.*

Have the students return to their desks and put away their texts.

Day 2

Read-aloud/ Guided Strategy Practice

Materials

- “Year-round School: I’m for It” (see pages 646–647)
- “Year-round Schools: Pros and Cons” chart from Day 1 and a marker
- *Student Response Book* pages 96–97
- “Questions About Your Opinion” chart (WA8)
- “Questions About Independent Reading” chart (WA7)
- Small self-stick notes for each student

TEKS 9.E.iv
Student/Teacher Activity
Step 2

In this lesson, the students:

- Hear, read, and discuss an essay
- Consider pro arguments and form opinions
- Read independently for up to 30 minutes
- Express their true opinions
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Review “The Pros and Cons of Year-round Schools”

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that in the previous lesson they heard “The Pros and Cons of Year-round Schools,” an article that gives two conflicting or disagreeing opinions. Direct the students’ attention to the “Year-round Schools: Pros and Cons” chart and briefly review the pros and cons the students identified in the article.

2 Introduce “Year-round School: I’m for It”

Have the students turn to *Student Response Book* pages 96–97, “Year-round School: I’m for It.” Explain that this is an essay by a student named Chance who lives in the state of Nebraska. Explain that whereas articles are usually written to inform, essays are usually written to express authors’ opinions or describe their experiences. Ask:

Q *Based on the title of the essay, what do you think Chance’s opinion of year-round school is? Explain your thinking.*

If necessary, explain that the author of this essay believes year-round school is a good idea. Ask the students to follow along as you read the essay aloud. Explain that you will pause during the reading to have the students talk with their partners about the arguments Chance makes in favor of year-round schools.

3 Read Aloud

Read “Year-round School: I’m for It” aloud slowly and clearly, stopping as described below.

ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

typically: usually (p. 646)

there were consistent losses in math and language skills: students’ math and language skills got worse (p. 647)

Stop after:

p. 646 “You can see more places that way.”

Ask:

 **Q** *What arguments does Chance make in the first part of the essay for why students should attend year-round schools? Turn to your partner.*

Have a few volunteers share their thinking. Add their suggestions to the “Pros” column of the “Year-round Schools: Pros and Cons” chart. Then reread the last sentence and continue reading to the next stop:

p. 647 “. . . the students are refreshed and more ready to listen and learn.”

Ask:

 **Q** *What arguments does Chance make in the part you just heard for why students should attend year-round schools? Turn to your partner.*

Have a few volunteers share their thinking. Add their suggestions to the “Pros” column of the chart. Then reread the last sentence and continue reading to the end of the essay. Ask:

 **Q** *What other arguments does Chance make for why students should attend year-round schools? Turn to your partner.*

Have a few volunteers share their thinking. Add their suggestions to the “Pros” column of the chart.

Teacher Note

You might wish to point out that some of Chance’s arguments in favor of year-round schools are the same as the “pro” arguments made in the article “The Pros and Cons of Year-round Schools.”

You might also wish to point out that Chance argues that learning time is the same at year-round and traditional schools, which is different from the claim in “The Pros and Cons of Year-round Schools” that students have more time to learn at year-round schools.

Teacher Note

It is not necessary to phrase the pros you add today exactly as they appear in the diagram. The important thing is to make sure that all of the pros mentioned in the essay are listed on the chart.

You will add to the “Cons” column of the chart on Day 3.

Year-round Schools: Pros and Cons

Pros	Cons
<ul style="list-style-type: none">– less summer “brain drain” and more time to learn– schools save money– more flexibility for families– first day back is easier– can take 3–4 short trips; can see more places– after kids in a study tried it for a year, more of them liked it– learning time in year-round and traditional schools is the same– students return to school refreshed and more ready to learn	<ul style="list-style-type: none">– no proven gains in academic achievement– no long summer break to relax, be with friends and families, go to camp– costs of running year-round schools are greater

4 Reread and Discuss the Essay

Display the “Questions About Your Opinion” chart (WA8) and read aloud the questions on it. Explain that the students will silently reread the essay in their *Student Response Books*. Ask them to think about the questions on the chart as they read.

Questions About Your Opinion

- Do you agree or disagree with the opinion expressed in the essay?
- What part of the essay supports your opinion, or what part makes you disagree? Why?
- Did your opinion change during the second reading? Why or why not?

WA8

Without discussing the questions, have the students read the essay silently to themselves. If they agree with the opinion expressed in the

essay, they should underline the sentences that support their opinions and write notes in the margin of the essay. If they disagree, they should underline the sentences that make them disagree and write notes in the margin.

When most students have finished, have them discuss the questions on the chart with their partners. Circulate and listen as partners talk. Notice whether the students are expressing opinions and supporting their opinions by referring to the essay. If the students are having difficulty expressing opinions, ask questions such as:

- Q *According to the essay, why are year-round schools a good idea?*
- Q *Do you agree or disagree with that argument? Why?*

5 Discuss Opinions as a Class

Facilitate a discussion using the questions that follow. Remind the students to be respectful of one another's opinions and to use the discussion prompts they have learned. Ask:

- Q *Do you agree or disagree with Chance? Why?*
- Q *What did you read in the essay or think about that supports your opinion?*

Remind the students that it is important for readers to form opinions about what they are reading, as this helps them better understand the reading and communicate meaningfully about it.

6 Reflect on Expressing True Opinions

Facilitate a brief discussion about how the students interacted. Ask:

- Q *How did you do expressing your true opinions today, rather than going with what others were thinking? How was that responsible?*
- Q *What did you do today to make the class a safe place for others to express their true opinions?*

Explain that in the next lesson you will read an essay whose author thinks year-round schools are a bad idea, and the students will identify the arguments the author of the essay makes against year-round schools.

INDIVIDUALIZED DAILY READING

7 Form Opinions and Find Evidence

Review that for the next two weeks the students may read fiction and narrative nonfiction books, expository nonfiction books, articles, essays, and reviews of books and movies during IDR.

Review that the students have been practicing forming opinions about texts and that they looked for evidence in the texts to support their opinions. Explain that today they will continue to practice forming opinions about texts they are reading independently.

Teacher Note

Save the "Questions About Your Opinion" chart (WA8) to use on Day 3.

Distribute several self-stick notes to each student. Ask the students to use self-stick notes to mark where they begin reading today. Display the “Questions About Independent Reading” chart (WA7) and explain that you will stop the students after 10 minutes and ask them to think about the questions. Then they will reread their texts, beginning at their self-stick notes, and look for evidence that supports their opinions. When they find evidence in their texts, they will mark those places with self-stick notes. Explain that you will ask them to share their opinions and evidence with the class at the end of independent reading.

Have the students get their texts, place self-stick notes where they start to read, and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 136) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Stop the students after 10 minutes and ask them to think about the questions on the chart as they reread. Then have the students reread their texts and use additional self-stick notes to mark evidence that supports their opinions. After they have settled into their reading, continue to confer with individual students.

Signal to let the students know when it is time to stop reading. Have a few volunteers share their thinking with the class. Have each student tell the title of the text she read, the author’s name, and what the text is about; then have the student share her opinion of the part she read and evidence that supports her thinking. After each volunteer shares, ask the class questions such as:

Q *Do you think you would like to read [Pauline’s book]? Why or why not?*

Q *What interests you about [Josh’s article]?*

Have the students return to their desks and put away their texts.

In this lesson, the students:

- Hear, read, and discuss an essay
- Consider con arguments and form opinions
- Read independently for up to 30 minutes
- Express their true opinions
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Review “Year-round School: I’m for It”

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that in the previous lesson they heard “Year-round School: I’m for It,” an essay that argues in favor of, or pro, year-round schools. Direct the students’ attention to the “Year-round Schools: Pros and Cons” chart and briefly review the pros the students identified in the essay.

2 Introduce “Year-round School: I’m Against It”

Have the students turn to *Student Response Book* pages 98–99, “Year-round School: I’m Against It.” Direct the students’ attention to the word *Anonymous*. If necessary, explain that when authors do not wish people to know who they are, they use the word *anonymous*, which means “not named.” Point out that the author lives in the state of California. Ask:

Q *Based on the title of the essay, what do you think is the author’s opinion of year-round schools? Explain your thinking.*

If necessary, explain that the author of this essay believes year-round schools are a bad idea. Ask the students to follow along as you read the essay aloud. Explain that you will pause during the reading to have the students talk with their partners about the arguments the author makes against year-round schools.

Materials

- “Year-round School: I’m Against It” (see page 648–649)
- *Student Response Book* pages 98–99
- “Year-round Schools: Pros and Cons” chart from Day 2 and a marker
- “Questions About Your Opinion” chart (WA8)
- “Questions About Independent Reading” chart (WA7)
- Small self-stick notes for each student

3 Read Aloud

Read “Year-round School: I’m Against It” aloud slowly and clearly, stopping as described below.

ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

cease to exist: disappear (p. 648)

Stop after:

p. 648 “I’m against year-round schools for several reasons.”

Ask:

 **Q** *What did you learn in the part of the essay you just heard? Turn to your partner.*

Without sharing as a class, reread the last sentence and continue reading to the next stop:

p. 648 “. . . summer camps might cease to exist.”

Ask:

 **Q** *What arguments does the author make in the part you just heard for why year-round schools are a bad idea? Turn to your partner.*

Have a few volunteers share their thinking. Add their suggestions to the “Cons” column of the “Year-round Schools: Pros and Cons” chart. Then reread the last sentence and continue reading to the end of the essay. Ask:

 **Q** *What other arguments does the author make in the part you just heard for why year-round schools are a bad idea? Turn to your partner.*

Have a few volunteers share their thinking. Add their suggestions to the “Cons” column of the chart.

Teacher Note

It is not necessary to phrase the cons you add today exactly as they appear in the diagram. The important thing is to make sure that all of the cons mentioned in the essay are listed on the chart.

You might wish to point out that the only significantly new argument the author of this essay makes against year-round schools is that it is harder for students who attend them to have summer jobs.

Year-round Schools: Pros and Cons

Pros	Cons
<ul style="list-style-type: none">– less summer “brain drain” and more time to learn– schools save money– more flexibility for families– first day back is easier– can take 3–4 short trips; can see more places– after kids in a study tried it for a year, more of them liked it– learning time in year-round and traditional schools is the same– students return to school refreshed and more ready to learn	<ul style="list-style-type: none">– no proven gains in academic achievement– no long summer break to relax, be with friends and families, go to camp– costs of running year-round schools are greater– harder to get summer jobs

4 Reread and Discuss the Essay

Display the “Questions About Your Opinion” chart (WA8) and read aloud the questions on it. Explain that the students will silently reread the essay in their *Student Response Books*. Ask them to think about the questions on the chart as they read.

Display the “Questions About Your Opinions” chart (WA8) and read aloud the questions on it.

Questions About Your Opinion

- Do you agree or disagree with the opinion expressed in the essay?
- What part of the essay supports your opinion, or what part makes you disagree? Why?
- Did your opinion change during the second reading? Why or why not?

WA8

Without discussing the questions, have the students read the essay silently to themselves. If they agree with the opinion expressed in the essay, they should underline the sentences that support that opinion and write notes in the margin of the essay. If they disagree, they should underline the sentences that make them disagree and write notes in the margin.

When most students have finished, have them discuss the questions on the chart with their partners. Circulate and listen as partners talk. Notice whether the students are expressing opinions and supporting their opinions by referring to the essay. If the students are having difficulty expressing opinions, ask questions such as:

Q *According to the essay, why are year-round schools a bad idea?*

Q *Do you agree or disagree with that argument? Why?*

5 Discuss Opinions as a Class

Facilitate a discussion using the questions that follow. Remind the students to be respectful of one another's opinions and to use the discussion prompts they have learned. Ask:

Q *Do you agree or disagree with the author? Why?*

Q *What did you read in the essay or think about that supports your opinion?*

Remind the students that it is important for readers to form opinions about what they are reading, as this helps them think more deeply and critically about the reading and communicate more meaningfully about it.

6 Reflect on Expressing True Opinions

Facilitate a brief discussion about how the students interacted. Ask:

Q *How did you do expressing your true opinions today? How was that responsible?*

Q *Why is it important for everyone in our classroom community to feel safe expressing his or her true opinion?*

Explain that in the next lesson the students will review all of the arguments they have read for and against year-round schools and will revisit their own opinions of year-round schools.

INDIVIDUALIZED DAILY READING

7 Form Opinions and Find Evidence

Review that the students have been practicing forming opinions about texts and have looked for evidence in the texts to support their opinions.

Explain that today they will continue to practice forming opinions about texts they are reading independently.

Distribute several self-stick notes to each student. Ask the students to use self-stick notes to mark where they begin reading today. Display the “Questions About Independent Reading” chart (WA7) and explain that you will stop the students after 10 minutes and ask them to think about the questions. Then they will reread their texts, beginning at their self-stick notes, and look for evidence that supports their opinions. When they find evidence in their texts, they will mark those places with self-stick notes. Explain that you will ask them to share their opinions and evidence with partners at the end of independent reading.

Have the students get their texts, place self-stick notes where they start to read, and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 136) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Stop the students after 10 minutes and ask them to think about the questions on the chart as they reread. Then have the students reread their texts and use additional self-stick notes to mark evidence that supports their opinions. After they have settled into their reading, continue to confer with individual students.

Signal to let the students know when it is time to stop reading. Have the students share what they read with partners. Have each student tell his partner the title of the text and the author’s name, what the part he read today is about, his opinion of what he read, and evidence from the text that supports his opinion. After partners have shared, facilitate a class discussion. Ask questions such as:

- Q *Do you think you would like to read your partner’s text? Why or why not?*
- Q *What interests you about your partner’s text?*

Have the students return to their desks and put away their texts.

Materials

- “Year-round Schools: Pros and Cons” chart from Day 3
- *Student Response Book* pages 94–99
- “Class Assessment Record” sheet (CA3)
- Small self-stick notes for each student
- “Questions About Independent Reading” chart (WA7)
- *Student Response Book*, Reading Journal section
- “Journal Entry” chart (WA9)

Teacher Note

You might wish to write the questions where everyone can see them.

In this lesson, the students:

- Consider pros and cons and form opinions
- Integrate information from three texts on the same topic to speak knowledgeably about the topic
- Read independently for up to 30 minutes
- Express their true opinions
- Give reasons for their opinions
- Discuss their opinions respectfully

1 Review the Week’s Read-alouds

Have the students bring their *Student Response Books* and gather with partners sitting together, facing you.

Direct the students’ attention to the “Year-round Schools: Pros and Cons” chart. Remind the students that this week they read an article about the pros and cons of year-round schools and listed them on the chart. They then read an essay by a student named Chance, who is for year-round schools, and an essay by someone who is against year-round schools, and they added the authors’ arguments to the chart.

2 Discuss Opinions in Pairs

Ask the students to think silently about the following questions:

Q *Now that we have identified several arguments for and against year-round schools, what is your opinion about year-round schools? Explain your thinking.*

Q *Did your opinion change during the week? Why?*

Then have the students discuss the questions with their partners. Explain that they can refer to the “Year-round Schools: Pros and Cons” chart and to the read-alouds about year-round schools on *Student Response Book* pages 94-99 to support their thinking. Circulate and listen as partners talk.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students expressing their opinions about year-round schools?
- Are they supporting their opinions by referring to the read-alouds?

Record your observations on the “Class Assessment Record” sheet (CA3); see page 134 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to express and support opinions about year-round schools, proceed with the lesson and continue on to Week 4.
- If **about half of the students** are able to express and support opinions about year-round schools, continue on to Week 4 and plan to check in with students who are having difficulty during the lessons and during their independent reading.
- If **only a few students** are able to express and support opinions about year-round schools, you might give the class additional instruction by repeating this week using alternative texts before continuing on to Week 4. Resources for alternative texts are suggested in the “Grade 5 Alternative Texts” list. Visit the CCC Learning Hub (ccclearninghub.org) to view the list.

Teacher Note

You might wish to use articles that address the pros and cons of issues such as whether student athletes should have to get good grades to play sports, whether schools should be required to offer music and art education, or whether animals should be used to test new products.

3 Discuss Opinions as a Class

Facilitate a class discussion using the questions that follow. Remind the students to be respectful of one another’s opinions and to use the discussion prompts.

- Q *What is your opinion about year-round schools? Explain your thinking.*
- Q *Do you agree or disagree with [Antonio]? Why?*
- Q *Did anyone change his or her mind about year-round schools during the week? Why?*

Students might say:

“My opinion is that year-round schools are a good idea. I think so because we collected lots more evidence about the pros of year-round schools than about the cons. That means there are more reasons to go to year-round school than to go to traditional school.”

“I think year-round schools are a bad idea. One of the main arguments for year-round schools is that there’s less summer ‘brain drain.’ But one of the read-alouds said there are no proven gains in academic achievement. Why give up a nice, long summer vacation if you’re not even getting ahead in school?”

"I disagree with [Liza] because there are lots of other good reasons to attend year-round schools than just getting ahead. For example, year-round schools are easier for families because parents don't have to take so much time off from work all at once."

"Before we read the pieces, I was against year-round school. Now I'm for it, because I like the idea of lots of short vacations instead of one long summer vacation. Also, we learned that lots of kids who try year-round school end up liking it."

"When we started the reading, I was for year-round school. But now I'm against it because it would make it hard for kids to go to camp, and we've learned that camp isn't just fun—it's good for kids."

Explain that reading several pieces of writing about a topic helps readers figure out what they think about the topic and gives them evidence to support their opinions. Encourage the students to seek out and read various pieces of writing about the topics they are interested in.

4 Reflect on Expressing Opinions Truthfully and Respectfully

Facilitate a brief discussion about how the students did this week expressing their true opinions, giving reasons for their opinions, and discussing their opinions respectfully. Without mentioning any of the students' names, share examples of these behaviors that you observed over the course of the week, and give the students an opportunity to share examples they observed.

INDIVIDUALIZED DAILY READING

5 Read Independently and Write About Opinions and Evidence

Review that the students have been practicing forming opinions about texts and looked for evidence in the texts to support their opinions. Explain that today they will continue to practice forming opinions about texts they are reading independently.

Distribute several self-stick notes to each student. Ask the students to use self-stick notes to mark where they begin reading today. Display the "Questions About Independent Reading" chart (🟢 WA7) and explain that you will stop the students after 10 minutes and ask them to think about the questions. Then they will reread their texts, beginning at their self-stick notes, and look for evidence that supports their opinions. When they find evidence in their texts, they will mark those places with self-stick notes. Explain that you will ask them to write about their opinions and evidence at the end of independent reading.

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

Have the students get their texts, place self-stick notes where they start to read, and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 136) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Stop the students after 10 minutes and ask them to think about the questions on the chart as they reread. Then have the students reread their texts and use additional self-stick notes to mark evidence that supports their opinions. After they have settled into their reading, continue to confer with individual students.

Signal to let the students know when it is time to stop reading. Have the students return to their desks and open their *Student Response Books* to the Reading Journal section. Then display the “Journal Entry” chart (WA9) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

Journal Entry

Write a journal entry about the text you are reading.
Please include:

- The title and the author’s name
- What the text is about
- Your opinion of the text based on the part you have read so far
- Evidence from the text that supports your opinion

WA9

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class. Have the students return to their desks and put away their materials.

Vocabulary Note

Next week you will revisit “The Pros and Cons of Year-round Schools,” “Year-round School: I’m for It,” and “Year-round School: I’m Against It” to teach the Week 28 vocabulary lessons.

Materials

- “Year-round Schools: Pros and Cons” chart
- *Student Response Book* pages 94–99

WRITING ABOUT READING

Write Opinions About Year-round Schools

Remind the students that they have heard, read, and discussed an article and two essays about the pros and cons of year-round schools. Have the students page through *Student Response Book* pages 94–99, where the three pieces are reproduced, and quietly review the pieces for a few moments. Direct the students’ attention to the “Year-round Schools: Pros and Cons” chart and review that the students listed all the pros and cons they found in the three read-alouds on this chart and then discussed their own opinions of year-round schools. Explain that today the students will write about their opinions of year-round schools.

Use “Think, Pair, Share” to discuss:

Q *Based on the arguments in the three pieces we read, what is your opinion about year-round schools? Why?* [pause] *Turn to your partner.*

Have a few volunteers share their thinking. Then use “Think, Pair, Share” to discuss:

Q *Did your opinion change as you heard, read, and discussed the three pieces about year-round schools? Why?* [pause] *Turn to your partner.*

Have a few volunteers share their thinking. Remind the students that people may have different opinions about the same thing, and that is fine. What is important is that they explain their thinking. Ask the students to watch as you think aloud about the arguments on the “Year-round Schools: Pros and Cons” chart and model writing your opinion about year-round schools.

You might say:

“I’ll write: After reading an article and two essays about the pros and cons of year-round schools, I have decided that I am against year-round schools. I want to include a reason from the ‘Cons’ section on the chart. I’ll write: I don’t think we should give up a nice, long, relaxing summer when it has not been proven for sure that long vacations lead to ‘brain drain.’ I want to add another reason, so I’ll write: Another strike against year-round schools is that it makes having summer jobs more difficult. I want to provide a concluding sentence. I’ll write: Until it has been proven that year-round schools lead to academic gains, I think we should stick to the traditional model.”

Have the students write their own opinion paragraphs about year-round schools. Remind them to give reasons for their opinions. If time permits, ask a few volunteers to share their writing with the class.

EXTENSION

Read and Discuss More Opinion Essays

Have the students read and discuss other opinion essays you have collected. You might search online using the keywords “pro/con articles for kids” and “opinion essays.”

If you locate essays that represent opposing opinions, you might have half of the class read one of the essays and the other half read the other essay. Then you can organize a class debate based on the opinions in the essays.

TECHNOLOGY EXTENSION

Take a Poll About Year-round Schools

Have the class generate lists of what they think are the most persuasive arguments for or against year-round schools, and then post the lists on the class blog. Have the students discuss the lists on the blog with their families and then take a poll of their family members by asking questions such as:

- Q *Do you think students should attend year-round schools?*
- Q *Do you attend (or have you attended) a year-round school?*
- Q *How old are you?*

Help the students compile and analyze the data from the poll. Facilitate a discussion about the results of the poll by asking questions such as:

- Q *What can you learn from the data we collected from our poll?*
- Q *How many people surveyed think students [should/should not] attend year-round schools?*
- Q *How many people surveyed [have attended/have not attended] year-round schools?*
- Q *What do you notice about the ages of the people who were polled? What do you notice about how people of different ages answered each question?*

Technology Tip

Alternatively, you might have the students use the questions to create a poll on a student-friendly social networking site and ask family members to take the poll online. For more information, view the “Using Social Media” tutorial (AV46).

The Pros and Cons of Year-round Schools

While most schools follow a traditional school calendar with a two- to three-month summer break, some schools—year-round schools—follow a different calendar and don't have a traditional summer break. In the 2006–2007 school year, there were about three thousand year-round schools in the United States educating nearly two million students. Are year-round schools better for kids? Before we examine the pros and cons of the matter, let's answer another question: What is a year-round school?

What Is a Year-round School?

Like a traditional school calendar, a year-round school calendar has about 180 days of school in a year. The difference is that year-round schools stretch out those 180 days over all twelve months of the year. Instead of the traditional two- to three-month summer vacation, year-round schools have several short breaks. The most common year-round schedule is the 45–15 plan, in which students go to school for 45 days and then get a 15-day break. They follow this pattern throughout the year.

Students who go to a year-round school avoid summer “brain drain.”

Let's look at some of the arguments in favor of year-round schools.

Less Summer “Brain Drain” and More Time to Learn

Research shows that over the summer students forget some of what they learned during the school year. In one study, researchers at the University of Missouri and Tennessee State University found that test scores were, on average, at least one month lower when students returned to school in the fall than when they left in the spring. Students who go to a year-round school avoid this summer “brain drain.”

Do students learn more by going to school year-round? Researchers disagree on the answer to this question. Because year-round schools keep the learning process going throughout the year, some people argue that students will learn more in a year-round school. In a 2009 report on year-round school calendars and traditional school calendars, researcher Jennifer Rule wrote, “In summary, it is reasonable to conclude that students attending year-round schools were likely to perform as well if not better than their peers in traditional 9-month programs. . . .”

Schools Save Money

Year-round schooling can save money. Schools on a year-round schedule can “multitrack” students so that while some of them are in school, others are on break. This means schools can enroll up to 33 percent more students. This multitrack system reduces the need for building new schools due to overcrowding. For example, Florida’s Marion County school system estimates saving more than twelve million dollars in construction costs because the district switched to multitrack year-round schooling.

More Flexibility for Families

The traditional summer break can be a burden on a family’s time and finances. Most parents cannot take time off from work for two or three months to be with their kids, and child care is expensive. The shorter, more frequent breaks in year-round schools give working parents more flexibility in deciding when to take time off and how to provide child care.

Now let’s look at some of the arguments against year-round schools.

No Proven Gains in Academic Achievement

An important argument for year-round schools is that attending school year-round will likely lead to gains in academic achievement. In fact, although many studies have been done on the impact of year-round schools and traditional schools on student achievement, the results are inconclusive. Some studies show gains; others do not. For example, a study released in 2013 showed that there was little evidence of increased achievement by students in year-round schools.

No Much-needed Summer Break

The longer summer vacation of a traditional school calendar gives students lots of time to unwind, connect with friends, and be with their families. It provides older students with opportunities to find summer work and earn money for college. It gives younger children time to attend summer camps—time that students who attend year-round schools do not have. One expert, Dr. Peter Scales, says, “The biggest plus of camp is that camps help young people discover and explore their talents, interests, and values. Most schools don’t satisfy all these needs. Kids who have had these kinds of [camp] experiences end up being healthier and have [fewer] problems. . . .”

“Year-round” Equals “Expensive”

Some school districts have found that switching to year-round schooling has cost them more money. Year-round schools have to provide air-conditioning and other utilities all year long, and there is more maintenance to do because buildings are being used more. In her first year as superintendent of Tempe Union High School District in Tempe, Arizona, Shirley Miles won praise for eliminating the high school’s year-round calendar and its added costs.

Are year-round schools a good idea? There are strong arguments to be made on both sides of the question. What do you think?

Summer break gives kids time to reconnect with friends.

YEAR-ROUND SCHOOL I'm for It

By Chance T., Imperial, NE

Summer is awesome, but after a couple of months, it's time for school again. You walk into class that first day back and hear, "Pop quiz! Let's see what you know." It's always difficult to start a new school year after a long summer break, but if you go to a year-round school, that first day back is a lot easier. I believe all kids should go to year-round schools.

One argument against year-round schooling is that you and your family can't take long trips over summer vacation. True, you might not get to take a three-week trip, but who does? Typically, a family vacation is a week or two. If you go to a year-round school, you can take three, or even four, short trips during the year—one during each break. You can see more places that way.

A study showed that after completing a year of year-round school, 79 percent of students were in favor of the year-round calendar.

I know the idea of going to school year-round sounds pretty awful to some of you, but kids who go to year-round schools seem to like it. Elisabeth Palmer and Amy Bemis, authors of *Year-Round Education*, have done research on year-round schools. They said, “The results indicated that after one year of experiencing a 60–15 calendar [60 days of school followed by 15 days of vacation], students felt more positively about year-round education.”

Palmer and Bemis found that 53 percent of students in the study “favored year-round education during the summer before implementation, while 79 percent favored it at the end of the first year.” That means that after the kids in the study tried a year-round school schedule for a year, more of them were for it!

Another argument against year-round schooling is that there are fewer days of learning because there are so many

breaks. Just when you’re getting excited about learning something, it’s time for a break. But if you look closely, you will see that actual learning time is the same in a year-round school, and after each break, the students are refreshed and more ready to listen and learn.

Also, students in year-round schools don’t have to relearn what they forgot over the summer. Donald Beggs, a former assistant professor at Southern Illinois University, and Albert Hieronymus, a former professor at the University of Iowa, researched summer learning and found that there were consistent losses in math and language skills during the traditional summer break.

I feel that year-round schooling would benefit all students. Kids would have more vacations and would learn more because they wouldn’t have to relearn the information they had forgotten after long summer breaks.

“Year-Round School” copyright © May 2005 by Chance T. Adapted and reprinted by Center for the Collaborative Classroom, 2015, by permission of *Teen Ink* magazine and TeenInk.com.

Year-round schooling can provide families with more opportunities to spend time together throughout the year.

Year-round School I'm Against It

By Anonymous, Temecula, CA

During the summer, most kids are out of school and enjoying time at home or on a family trip. But some kids go to school all summer long—and it's not because they have to go to summer school. It's because their school is on a year-round schedule. When my friends in year-round schools tell me they can't spend time with me during my summer break because they're in school, I'm sad and disappointed.

In the 2011–2012 school year, more than three thousand schools in the United States followed a year-round schedule. According to a 2010 survey conducted by Wake County Public School System in North Carolina, about 45 percent of parents said that schools should be on a year-round schedule, and about 49 percent said that they should not. Year-round schooling has its pros and cons. I'm against year-round schools for several reasons.

First, family vacations are usually planned for the summer break. Typically, this is a time to see relatives, relax, spend time as a family, and have fun. Year-round school schedules limit the time families have for summer vacations. Kids in year-round schools also don't have time to go to summer camp. At camp, kids get to be outdoors, make new friends, and learn nature facts. If schools everywhere were on a year-round schedule, summer camps might cease to exist.

Year-round schooling limits the time kids have for family summer vacations and summer camp.

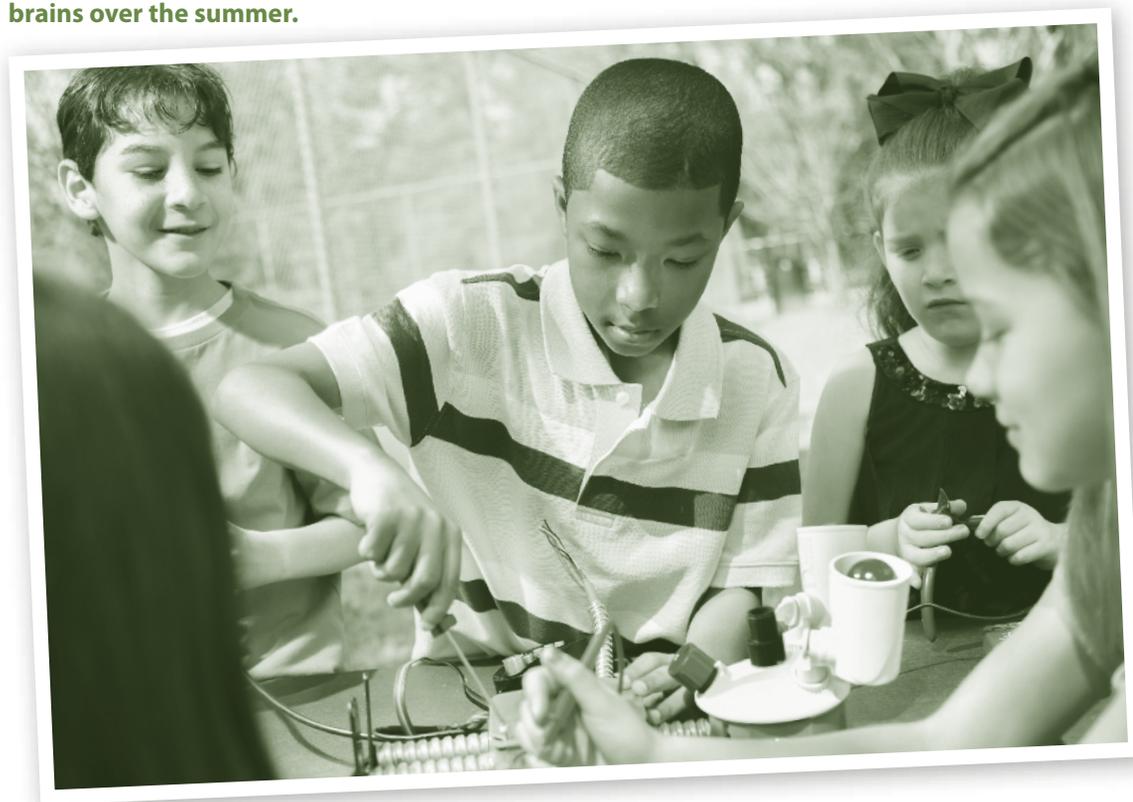

The school year is filled with tests, quizzes, homework, and studying. After all that hard work, students deserve a summer break to relax and refresh. There are some who argue that kids forget things they have learned during a long summer break. I think they're wrong because kids still use their brains during the summer. A 2011 study by the RAND Corporation showed that students who went to a summer camp or participated in another type of educational summer program not only had fun but also kept information in their heads. If kids are concerned about forgetting what they've learned over the summer, they

can ask their teachers for summer homework packets so they will be ready for next year.

Year-round school also makes it harder for students to get summer jobs. Students going to schools with traditional schedules can commit to two-month summer jobs and earn money for college. Students in year-round schools don't have the time to fill summer job openings.

Summer is to be enjoyed, not spent in classrooms. Should we change to a year-round school calendar that shortens summer vacation? The answer, I think, is that we should not.

There are many activities that engage kids' brains over the summer.

"Year Round School" copyright © December 2009 by Anonymous. Adapted and reprinted by Center for the Collaborative Classroom, 2015, by permission of *Teen Ink* magazine and TeenInk.com.

Week 4

OVERVIEW

"Review of *The Legend of Sleepy Hollow*"

by Jennifer B. (age 12)
(see page 671)

"Review of *The Ballad of Lucy Whipple*"

(see page 672)

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA10–WA13

Assessment Forms

- "Class Assessment Record" sheet (CA4)
- "IDR Conference Notes" record sheet (CN1)
- "Individual Comprehension Assessment" record sheet (IA1)

Reproducible

- Unit 9 family letter (BLM1)

Professional Development Media

- "Using Blogs in the Classroom" tutorial (AV45)
- "Creating Audio and Video in the Classroom" tutorial (AV50)

Comprehension Focus

- Students synthesize by making judgments and forming opinions about texts, using evidence from the texts to support their conclusions.
- Students read independently.

Social Development Focus

- Students relate the value of respect to their behavior.
- Students develop the skills of discussing opinions respectfully and giving and receiving feedback.

DO AHEAD

- ✓ Prior to Day 2, select examples of the different types of read-alouds the students have heard and discussed this year, including fiction, expository and narrative nonfiction books, expository nonfiction articles, poetry, and functional texts (see Step 2).
- ✓ Prior to Day 3, make sure that each student has selected a book to review and has located a copy of the book.
- ✓ Prior to Day 3, select a book to model gathering information for a book review (see Step 2). Be prepared to say what the book is about, discuss some of your favorite parts, and select possible passages to read aloud. The book you choose for modeling could be a *Making Meaning* book, another popular book you have read aloud, a book on the “Grade 5 Alternative Texts” list, or a book the students have not heard before.
- ✓ Prior to Day 4, prepare to write a review of the book you modeled gathering information about on Day 3 (see Step 2).
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA4); see page 135 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 28 lessons this week.

Materials

- “Review of *The Legend of Sleepy Hollow*” (see page 671)
- “Review of *The Ballad of Lucy Whipple*” (see page 672)
- *Student Response Book* pages 101–102
- “Review of *The Legend of Sleepy Hollow*” chart (WA10)
- “Reading Comprehension Strategies” chart
- Small self-stick notes for each student

Teacher Note

Today’s lesson may take longer than usual to complete. You might consider stopping after Step 4 and then completing the remainder of the lesson at another time.

Teacher Note

The two book reviews in this lesson are examples of effective and less effective reviews. The first review provides a sufficient summary of the story, an interesting presentation (“Did Ichabod ever escape?”), and reasons that support the recommendation. The second review provides less information and a less compelling argument for the recommendation. Discussing and comparing the two reviews will help to prepare the students to write effective reviews of their own books.

In this lesson, the students:

- Hear, read, and discuss two book reviews
- Analyze the summary and opinion in a book review
- Begin their summer reading lists
- Read independently for up to 30 minutes
- Give reasons for their opinions

1 Review Forming Opinions and Making Judgments About Texts

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind them that over the past three weeks they have been thinking about forming opinions and making judgments about texts. Tell them that over the next two weeks they will continue this focus by reflecting on the books they have read this year and selecting a book they especially liked to recommend to their classmates for summer reading. They will also hear their classmates present reviews of favorite books and decide whether they want to read those books this summer.

2 Introduce the Summer Reading List

Have the students turn to *Student Response Book* page 101, “Summer Reading List.” Explain that as they hear book reviews in the coming weeks, they will list the books they might be interested in reading this summer. Point out that the page has space for the title of each book, the author’s name, and a few words to remind the students what the book is about.

Explain that today you will read two book reviews aloud. The students will discuss the reviews and then decide whether they want to add the books to their summer reading lists.

3 Read Aloud a Review of *The Legend of Sleepy Hollow*

Tell the students that the first book review you will read is about *The Legend of Sleepy Hollow* by Washington Irving. Explain that the review was written by a 12-year-old girl named Jennifer B. Read “Review of *The Legend of Sleepy Hollow*” aloud slowly and clearly, without stopping.

ELL Vocabulary

English Language Learners may benefit from hearing the following vocabulary defined:

legend: story handed down from earlier times

headless: missing its head

Explain that you will read the review aloud a second time and that the students should determine whether there is enough information to help them decide whether they want to read the book. Read the review aloud a second time. When you are finished, facilitate a discussion by asking:

- Q *Based on the review, what is this book about? What makes you say that?*
- Q *Is there enough information about the book for you to decide whether or not to read it? Why or why not?*
- Q *Do you want to read this book over the summer? Why?*

Students might say:

"This sounds like a story about a ghost who cuts off people's heads because he's looking for his own head. The reviewer says this at the beginning of the review."

"In addition to what [Lupe] said, I think the book reviewer liked this book because she said it's a scary and funny old story."

"I think there's enough information in the review because I know some details about what it's about, like how Ichabod meets the headless horseman on the bridge."

At the end of the discussion, invite interested students to add *The Legend of Sleepy Hollow* to their summer reading lists. Write the title and the author's name where everyone can see them for the students to copy.

Explain that you will read a second review aloud, and ask the students to again consider whether they want to read the book and whether there is enough information in the review to help them decide.

4 Read Aloud a Review of *The Ballad of Lucy Whipple*

Tell the students that the second review is of a book called *The Ballad of Lucy Whipple*, by Karen Cushman.

Follow the same procedure you used with the first review: read "Review of *The Ballad of Lucy Whipple*" aloud slowly and clearly, prompt the students to listen to determine whether there is enough information in the review, and then reread it aloud. Facilitate a discussion by asking:

- Q *Based on the review, what is this book about? What makes you say that?*
- Q *Is there enough information about the book for you to decide whether or not to read it? Why or why not?*
- Q *Do you want to read this book over the summer? Why?*

ELL Note

If necessary, reread the review aloud and have the students follow along.

Students might say:

"The book is about a girl who moves to California, but she doesn't like it."

"I don't think there's enough information to decide. Maybe the book is interesting, but you can't tell from the review."

Explain that this review is a good example of why readers need to make judgments and ask questions as they read. While the review might make *The Ballad of Lucy Whipple* sound uninteresting, the book itself is a Newbery Award-winning adventure in which the main character, a girl with the unlikely name of California Morning Whipple, moves to a California mining camp with her family during the Gold Rush. She hates living in the camp and decides to change her name to Lucy because, in her words, "I cannot hate California and be California." Lucy's personality and exaggerations (for example, she says she lives in a space so small, she "can lie in bed and stir the beans on the stove without getting up") make her a very amusing character.

After providing this additional information about *The Ballad of Lucy Whipple*, invite the students to add it to their reading lists, if they wish. Write the title and the author's name where everyone can see them for the students to copy.

5 Analyze the Review of *The Legend of Sleepy Hollow*

Have the students turn to *Student Response Book* page 102, "Review of *The Legend of Sleepy Hollow*." Remind the students that this is the first review you read aloud. Ask the students to reread the review quietly with their partners.

When most students have finished reading, explain that you would like the students to talk in pairs about which parts summarize the book and which parts give the reviewer's opinion. Explain that the students should underline the sentences that summarize and circle the sentences that give the author's opinion.

As partners work, circulate among them. If you notice students having difficulty recognizing summary and opinion, support them by asking them questions such as:

- Q *What is this book about? What part of the review tells you that?*
- Q *Does the reviewer like the book? Why? What part of the review tells you that?*

6 Discuss the Review as a Class

When most students have finished, display the "Review of *The Legend of Sleepy Hollow*" chart (WA10) and facilitate a brief discussion. Ask:

- Q *What parts of the review did you underline? How does that part summarize the book, or tell what the book is about?*

Q *What did you circle? How does that part give the reviewer’s opinion?*

As the students identify summary and opinion, underline or circle those parts on the chart.

Point out that the purpose of this activity is to help the students recognize facts about a book and opinions about it. In their reviews, they will need to include both factual information (a summary) and their own opinions about the book.

7 Reflect on Sharing Opinions

Have the students briefly discuss how they did voicing their own opinions and respecting the opinions of others.

INDIVIDUALIZED DAILY READING

8 Mark and Discuss Reading Comprehension Strategies

Direct the students’ attention to the “Reading Comprehension Strategies” chart and remind the students that these are the comprehension strategies they have learned so far this year. Ask them to notice which strategies they use and where they use them during their reading today.

Distribute self-stick notes to each student. Explain that the students will use self-stick notes to mark places in their texts where they use comprehension strategies and that they should write the names of the strategies on the self-stick notes. Tell the students that later each student will share with a partner one of the passages he marked and the strategy he used. Ask the students to be prepared to talk about how the strategies helped them understand what they read.

Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 136) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have each student share with a partner a passage he marked and the strategy he used to make sense of it. Have each student begin by saying the title of the text he read, the author's name, and what the text is about.

When most pairs have finished sharing, signal for the students' attention. Facilitate a class discussion about the strategies the students used. Ask:

- Q *What comprehension strategies did you use as you read today?*
- Q *How did [using text features] help you understand the text?*

Have the students return to their desks and put away their texts.

Technology Tip

To support the students in doing online research, you might teach the following technology mini-lessons in Appendix B: Mini-lesson 1, "Navigating Safely Online"; Mini-lesson 4, "Choosing Effective Search Terms"; Mini-lesson 5, "Understanding Search Results"; Mini-lesson 6, "Narrowing Search Results and Using Filters"; and Mini-lesson 7, "Evaluating Research Sources." For more information about teaching Technology Mini-lessons 4-7, see "About Teaching the Online Research Lessons" at the beginning of Technology Mini-lesson 4.

TECHNOLOGY EXTENSION

Find and Read More Book Reviews Written by Young People

Help your students find more book reviews written by young people. Search for book reviews online using keywords such as "book reviews for kids." Have the students choose one or two reviews to read and discuss with their partners. Facilitate a discussion about their reading by asking questions such as:

- Q *Does the summary give enough information to help you decide whether to read the book?*
- Q *What is the author's opinion of the book? What evidence from the book does the author give to support that opinion?*
- Q *Is this a book you might enjoy reading? Why or why not?*

In this lesson, the students:

- Revisit their reading logs and identify favorite books
- Select books to review
- Read independently for up to 30 minutes
- Give reasons for their opinions

1 Briefly Review

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that they heard and read examples of effective and less effective book reviews yesterday.

Explain that today each student will select a book he or she especially liked reading this year. Tomorrow, the students will write reviews of their selected books to share with their classmates next week.

2 Discuss Favorite Types of Texts

Direct the students' attention to the read-aloud examples you selected and review that the students have heard and discussed many different types of texts this year, including fiction, expository and narrative nonfiction, poetry, and functional texts. Remind them that they have also read many different types of texts independently during IDR. Use "Think, Pair, Share" to discuss:

Q *What kinds of texts have you most enjoyed reading and why? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class.

Students might say:

"I especially liked reading nonfiction books. It's fun to learn real things about the world."

"My favorite was when we read poetry. It's cool how even a short poem can give you so much to think about."

"I enjoyed reading functional texts the most because they help you do stuff."

"Fiction stories are my favorite because they're the most exciting."

Materials

- Examples of different types of read-alouds, collected ahead
- *Student Response Book*, Reading Log section
- "Factors to Consider When Forming an Opinion" chart from Week 1

Facilitation Tip

Reflect on your experience over the past four weeks with **responding neutrally with interest** during class discussions. Does this practice feel natural to you? Are you integrating it into class discussions throughout the school day? What effect is it having on the students? We encourage you to continue to try this practice and reflect on students' responses as you facilitate class discussions in the future.

Teacher Note

We suggest the students limit their summer reading recommendations to books and not consider other types of texts such as poems, articles, or functional texts that may appear in their reading logs.

Teacher Note

Allow time before the next lesson for the students to locate copies of the books they wish to recommend.

3 Review Reading Logs

Remind the students that they have been keeping track of the texts they read independently in their reading logs. Have them open their *Student Response Books* to the Reading Log section. Explain that you would like each student to read the entries in his reading log and put stars next to three favorite books. Give the students a few minutes to review and mark their logs.

4 Share Favorite Books and Select Books to Recommend

When most students have finished, signal for their attention. Have partners take turns sharing the entries they marked and explaining what they especially liked about those books. After a few minutes, direct the students' attention to the "Factors to Consider When Forming an Opinion" chart and read the items on it aloud. Then use "Think, Pair, Share" to discuss:

Q *Keeping these factors in mind, which of your favorite books do you think other students would most enjoy reading during the summer? Why?*
[pause] Turn to your partner.

Invite a few volunteers to share with the class.

Students might say:

"One of my favorite books is *Amazing Bats* by Seymour Simon. I think other students might enjoy reading it because it's full of cool facts about bats."

"I loved reading *Frindle* by Andrew Clements. It's a funny book that I didn't want to put down until I finished it."

Remind the students that tomorrow each student will write a recommendation of a favorite book to share with the class. Ask each student to silently decide which book she will recommend and circle it in her reading log.

INDIVIDUALIZED DAILY READING

5 Practice Orally Summarizing Reading

Ask the students to think about the important ideas in their texts as they read, and tell them that at the end of IDR you will ask them to use the important ideas they have thought about to summarize what they read today for partners. Explain that you will also ask them to share whether they would recommend their texts to someone and why. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 136) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Use “Think, Pair, Share” to discuss:

Q *If you were to tell someone in a few sentences what your text is about, what would you say? [pause] Turn to your partner.*

Q *Would you recommend this text to someone? Why or why not?*

Invite a few volunteers to share with the class. Have each volunteer begin by telling the title of the book he read and the author’s name. Then have him orally summarize the book and share his opinion. Have the students return to their desks and put away their texts.

Guided Strategy Practice

Day 3

In this lesson, the students:

- Gather information for their book reviews
- Read independently for up to 30 minutes
- Give reasons for their opinions

1 Briefly Review

Have the students bring their *Student Response Books*, pencils, and the books they have selected to review (see “Do Ahead”) and gather with partners sitting together, facing you. Remind the students that earlier they heard and read examples of effective and less effective book reviews. Also remind them that they reviewed their reading logs, thought about which books they especially enjoyed, and each selected one book to recommend to others for summer reading.

Explain that today the students will gather information to use to write book reviews about their selected books. They will also identify possible

Materials

- Book for teacher modeling, selected ahead
- “Things to Include in My Book Review” chart (WA11)
- Student-selected books to recommend
- *Student Response Book* page 103
- Small self-stick notes for each student

passages to read aloud to their classmates. Tomorrow they will write their reviews, and next week they will share their reviews and passages with their classmates.

Remind the students that book reviews consist of both summary and opinion, and ask:

- Q *What information might be important to include in the summary of your book? Why?*
- Q *What might be important to include when you give your opinion about the book?*

2 Model Gathering Information for a Book Review

Ask the students to watch as you model gathering information for your book review and identify possible passages to read aloud. Show the cover of your book and read the title and the author's name.

Display the “Things to Include in My Book Review” chart (WA11). Scan your book and think aloud about how to summarize the book. Continue thinking aloud as you take brief notes on the chart about favorite parts and about ideas to include in the written summary. Mark with self-stick notes any parts you might want to read aloud because they are dramatic, suspenseful, or revealing of character, and tell the students why you are marking the passages.

You might say:

“The book I am going to review is *Shiloh*, by Phyllis Reynolds Naylor. It's the story of an eleven-year-old boy named Marty who finds a beagle that has been abused by its owner. I'll write these notes: *Marty, 11 years old, finds a beagle abused by its owner. Marty's parents tell him he must return the dog, but he decides he will do anything to save it. I'll write these notes: Marty's parents say to return the dog. Marty decides to save it.*

My favorite part of the book is when Marty's parents find out that he's been hiding the dog. I want to include something about that in my book review. I'll write: *Favorite part: Marty's parents find out he's been hiding the dog.*

I might read that part aloud because it's very dramatic. You hold your breath and wonder what his parents will do. [Mark the page with a self-stick note.] Or I might read aloud the passage where Marty first finds the dog because it shows how kind Marty is. [Mark the page with a self-stick note.]”

Tell the students that if they are reviewing a longer book, they may want to scan the table of contents to help them remember what is important in it. Have them turn to *Student Response Book* page 103, “Things to Include in My Book Review.” Explain that they will scan their books to gather information for their reviews, take notes on this page, and mark interesting passages in their books with self-stick notes. Distribute several self-stick notes to each student.

Teacher Note

Save the “Things to Include in My Book Review” chart (WA11) to use on Day 4.

3 Gather Information About Books

As the students scan, take notes, and mark passages in their books, circulate among them and support them by asking questions such as:

- Q *What is your book about? Write some notes to help you remember what you just said.*
- Q *What might you say about your book that would make your classmates interested in it? Write some notes.*
- Q *What are some of your favorite parts of this book? Why do you like them? Mark each of them with a self-stick note and write some notes.*
- Q *What parts might you want to read aloud? Why? Mark each of them with a self-stick note.*

Remind the students that they will use their notes to write their book reviews tomorrow.

INDIVIDUALIZED DAILY READING

4 Practice Orally Summarizing Reading

Ask the students to think about the important ideas in their texts as they read, and tell them that at the end of IDR you will ask them to use the important ideas they have thought about to summarize what they read today for partners. Explain that you will also ask them to share whether they would recommend their texts to someone and why. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the “Resource Sheet for IDR Conferences” (*Assessment Resource Book* page 136) to help guide your questioning during the conference. Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Use “Think, Pair, Share” to discuss:

- Q *If you were to tell someone in a few sentences what your text is about, what would you say? [pause] Turn to your partner.*
- Q *Would you recommend this text to someone? Why or why not?*

Day 4

Guided Strategy Practice

Materials

- *Student Response Book* pages 103–105
- Student-selected books to recommend
- “Things to Include in My Book Review” chart (WA11) from Day 3
- Chart paper and a marker
- Book for teacher modeling from Day 3
- “Words to Use When Giving Feedback” chart from Unit 8
- “Questions to Ask Yourself When Giving Feedback” chart (WA12)
- “Class Assessment Record” sheet (CA4)
- “Journal Entry” chart (WA13)
- Copy of this unit’s family letter (BLM1) for each student

Teacher Note

Today’s lesson may take longer than usual to complete. You might consider stopping after Step 3 and then completing the remainder of the lesson at another time.

Invite a few volunteers to share with the class. Have each volunteer begin by telling the title of the book she read and the author’s name. Then have her orally summarize the book and share her opinion. Have the students return to their desks and put away their texts.

In this lesson, the students:

- Write book reviews
- Revise book reviews
- Read independently for up to 30 minutes
- Give reasons for their opinions
- Give each other feedback about their book reviews

1 Review Information to Include in Book Reviews

Have the students get their *Student Response Books*, pencils, and the books they have selected to review and sit at desks with partners together. Review that yesterday the students scanned their selected books, took notes, and marked passages in preparation for writing book reviews today. Have them quietly review their notes on *Student Response Book* page 103, “Things to Include in My Book Review,” and the marked passages in their books to see if they have enough information to write a review.

Remind the students that reviews include both summary and opinion; the opinions in their reviews will be about why they are recommending the book to the class.

Explain that students who feel they need to collect more information for their reviews will have time for this before they start to write.

2 Model Writing a Review from Notes

Display the “Things to Include in My Book Review” chart (WA11), and ask the students to watch and listen carefully as you model using your notes and marked text to write a book review on a sheet of chart paper.

Begin by showing the cover of the book and reading the title and the author's name aloud. Then think aloud as you write your review. Begin with a general statement that tells what the book is about.

You might say:

"The book I want to recommend for your summer reading is *Shiloh*, by Phyllis Reynolds Naylor." (Write the title and the author's name on the chart.) "I know that my review needs to start with a general statement about what the book is about. My notes from yesterday say *Marty, 11 years old, finds a beagle abused by its owner*. I'll write: *This story is about an eleven-year-old boy named Marty, who finds a beagle that he believes is being abused by its owner.*"

Continue to summarize the book, using interesting details from the text. Conclude by explaining why you recommend the book. Throughout the process, think aloud about writing your review in a way that intrigues the reader (for example, writing about exciting parts and not giving too much information). Here is an example of a review for *Shiloh*:

Review of *Shiloh* by Phyllis Reynolds Naylor
Reviewed by Ms. Tanaka

This story is about an eleven-year-old boy named Marty, who finds a beagle that he believes is being abused by its owner. The dog follows him home, and Marty names him *Shiloh*. Marty's parents tell him he must return the dog to its owner, but Marty will do anything to save *Shiloh*. He decides to hide it. He secretly feeds and takes care of the dog, until one day his parents find out. You won't believe what happens next!

I recommend this story because Marty is such a great character. He will do anything to protect *Shiloh*, even if it means getting into trouble himself. You won't want to stop reading until the very end, when you find out whether Marty is able to save *Shiloh* or not.

Teacher Note

You will analyze the work the students do in their *Student Response Books* in this step for this unit's Individual Comprehension Assessment.

Teacher Note

If there are students who have not collected enough information to write their reviews, provide them with self-stick notes and have them continue to scan their books, take notes, and mark passages they might want to read aloud. Check in with the students periodically to help them determine when they have enough information to start writing.

Teacher Note

Any student who did not finish writing his review today can get feedback on the part he wrote and then finish writing the review before sharing it with the class in Unit 10.

3 Write Reviews

Have the students turn to *Student Response Book* pages 104–105, “Review of _____,” and write their reviews, following your example. Remind them that they are writing reviews to recommend their books to their classmates. Write the following reminders where everyone can see them:

1. Start by writing the title, the author's name, and what the book is about.
2. Summarize the book using interesting details.
3. Say why you recommend the book.

As the students write, circulate and support them by asking questions such as:

- Q *What is your book about? Write that down as your opening sentence.*
- Q *What notes did you take about your book? How might you use those notes to write a sentence?*
- Q *What parts did you mark in your book? What might you want to say about those parts in your review?*
- Q *Why are you recommending this book? What examples can you give from the book that show what you like about it? Write down why you recommend the book and examples that support your recommendation.*

You might provide blank paper to students who finish early and ask them to illustrate favorite scenes from their books to share with the class when they read aloud their book reviews next week.

4 Get Ready to Give Feedback About Reviews

When the students have had sufficient time to write, call for their attention. Explain that partners will read each other's book reviews and will give each other feedback about the reviews to help each other revise or add to their reviews, if necessary. Direct the students' attention to the “Words to Use When Giving Feedback” chart, read the ideas on it aloud, and remind the students to use some of the ideas when working in pairs today.

5 Give Feedback About Reviews

Display the “Questions to Ask Yourself When Giving Feedback” chart (WA12) and tell the students that they will read their reviews to their partners and then discuss them using the questions on this chart. Read the questions aloud.

Have the students turn to *Student Response Book* pages 104–105, “Review of _____,” and have partners read their reviews to each other and then discuss them using the questions on the chart.

Questions to Ask Yourself When Giving Feedback

- Does this summary begin with a general sentence describing what this text is about?
- Does this summary give some important ideas in the text?
- What do I understand about the text from this summary?

Circulate as partners share and discuss their reviews.

CLASS ASSESSMENT NOTE

Ask yourself:

- Are the students able to communicate what their books are about?
- Do they support their recommendations by giving examples from the text?
- Are they able to give and receive feedback in a helpful way?

Record your observations on the “Class Assessment Record” sheet (CA4); see page 135 of the *Assessment Resource Book*. Use the following suggestions to support the students:

- If **all or most students** are able to communicate about their books and support their recommendations with examples from the text, proceed with the lesson and continue on to Unit 10.
- If **about half of the students** or **only a few students** are able to communicate about their books and support their recommendations with examples from the text, you might give the class additional instruction by repeating this week’s lessons before continuing on to Unit 10. You might model writing a review using another book the students are familiar with. Additionally, you might want to collect the students’ book reviews, give feedback on them, and have the students write second drafts based on your feedback.

6 Revise Reviews

When partners have finished giving each other feedback, ask them to revise their reviews using the feedback they received. After they have had sufficient time to do so, bring their attention back to the whole class and ask:

- Q** *What feedback did your partner give you that was helpful? How was it helpful?*

Teacher Note

You might want to have the students edit their reviews and create final drafts. If so, give them time to do this before beginning Unit 10.

Teacher Note

Save your charted book review to use in Unit 10. You will also use the book review if you do the extension “Practice Reading Passages Aloud” on page 668.

INDIVIDUALIZED DAILY READING

Teacher Note

You will analyze the work the students do in their reading journals in this step for this unit's Individual Comprehension Assessment.

Teacher Note

In Unit 10 the individual student conferences will focus on the students' reading habits and feelings about reading. If you have not met with all of your students to discuss the books they are reading during IDR, you may want to do so before beginning the next unit.

7 Read Independently and Write About Reading

Ask the students to think about the important ideas in their texts as they read, and tell them that at the end of IDR you will ask them to use the important ideas they have thought about to summarize what they read today. Explain that you will also ask them to share whether they would recommend their texts to someone and why. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students about the texts they are reading during IDR.

As you confer with each student, refer to the "Resource Sheet for IDR Conferences" (*Assessment Resource Book* page 136) to help guide your questioning during the conference. Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 139 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have the students return to their desks and open their *Student Response Books* to the Reading Journal section. Then display the "Journal Entry" chart (WA13) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

WA13

Journal Entry

Write a journal entry about the text you are reading.

Please include:

- The title and the author's name
- A summary of the important ideas in the part you read today
- Your opinion of the text based on the part you have read so far
- Evidence from the text that supports your opinion

Ask the students to take a few moments to quietly look through their texts and think about what they will write. After a moment, have partners take turns sharing what they plan to write.

Give the students several minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class. Facilitate a discussion by asking questions such as:

- Q *After hearing [Franco’s] summary of the [chapter], are you interested in reading it? Why or why not?*
- Q *What questions do you have for [Marianna] about the [movie review] she read?*
- Q *Have you read the [article] that [Clayton] wrote about today? If so, do you agree or disagree with his opinion of it? Explain.*

Have the students return to their desks and put away their texts.

WRITING ABOUT READING

Write Reviews of Other Favorite Books

Remind the students that they have heard, read, and discussed several book reviews; then they each selected a favorite book to write a review about. Explain that they will each select another favorite book and write a review of it. Have the students scan the books they marked as favorites in their reading logs. Direct the students’ attention to the “Factors to Consider When Forming an Opinion” chart and read it aloud.

Use “Think, Pair, Share” to discuss:

- Q *Keeping these factors in mind, which of your other favorite books do you think your classmates would most enjoy reading this summer? Why? [pause] Turn to your partner.*

Invite a few volunteers to share with the class. Then help the students locate the books.

Explain that the students will gather information to use to write reviews of their selected books and identify possible passages to read aloud. Have the students scan their books, take notes, and mark passages to read aloud. Circulate and support them as they take notes and mark passages.

When the students have had sufficient time to gather information, call for their attention. Ask:

- Q *What do you want to include in your book review to make it helpful and interesting?*

Have a few volunteers share their thinking.

Vocabulary Note

Next week you will teach the Week 29 vocabulary lessons. In Week 29, the students review words from Weeks 26–28.

Teacher Note

For information on wrapping up this unit and conducting unit assessments, see “End-of-unit Considerations” on page 670.

Materials

- “Factors to Consider When Forming an Opinion” chart
- *Student Response Book*, Reading Log section
- (Optional) “Things to Include in My Book Review” chart (WA11)
- (Optional) Charted book review from Day 4
- (Optional) *Student Response Book* pages 84, 102

Teacher Note

You might wish to do this activity in three parts: first, help the students select and locate books; next, guide them through the process of gathering information for reviews; and last, have them write their reviews.

Teacher Note

If the students need additional support with gathering information for their reviews, you might direct their attention to the “Things to Include in My Book Review” chart and remind them that you took these notes on a book you were preparing to review. Think aloud about the process you went through in scanning your book and writing the notes.

Teacher Note

You might support students in writing their reviews by directing their attention to the charted book review. Read it aloud and remind the students about how you referred to your notes in order to write it. You might also have the students refer to “Review of ‘Mrs. Buell’ ” and “Review of *The Legend of Sleepy Hollow*” on *Student Response Book* pages 84 and 102 to use as additional models.

Teacher Note

Prior to doing this activity, post the book review you modeled writing earlier where everyone can see it. Also select a passage from the book you reviewed and practice reading it aloud so that you can read it smoothly and clearly for the students.

Teacher Note

Choose a passage to read aloud that you feel will be intriguing to the students. This may be a passage that is suspenseful, descriptive, or dramatic. The passage should take several minutes to read aloud.

Students might say:

“We need to include the title, the author’s name, and a sentence about what the book is about.”

“In addition to what [Ray] said, we need to include a summary and an opinion.”

“I agree with [Ray and Amy]. We also need to write it in a way that makes the reader curious. We should share some of the exciting parts but not give away too much information.”

Then have the students write their reviews. Circulate and support them as they write. As time permits, have the students share their reviews and the passages they selected with the class. Have them add any interesting new book titles they hear about to their summer reading lists.

EXTENSIONS

Practice Reading Passages Aloud

Explain that when the students share their book reviews with the class in Unit 10, they will also read aloud interesting passages from their books. Explain that the students will practice reading the passages aloud so they can read them to the class smoothly and clearly. This will make the passages more enjoyable and interesting to hear and will increase their classmates’ interest in reading the recommended books.

Remind the students that you modeled writing a book review. Reread the book review aloud. Ask the students to listen as you read aloud a passage from the book you reviewed. (For example, if you use the book *Shiloh*, you might read the passage early in the book in which Marty first spots the dog.)

After reading the passage, ask:

Q *How does hearing a passage help you get a sense of what this book is about?*

Q *Now that you’ve heard a review of this book and heard a passage read aloud, would you want to read this book over the summer?*

Tell the students that each student should select a passage from the book she reviewed and practice reading it aloud. Remind the students that they marked some interesting places in their books on Day 3 and that they might want to read a passage from one of these places aloud. Ask:

Q *What kind of passage might be good to read aloud with your review? Why?*

Students might say:

"You might want to pick a passage with something exciting happening in it. It would really make people want to read the book."

"I agree with [Amanda], but I don't want to read too much and give everything away."

"Maybe a part that lets us know the main character a little would be good."

Have each student choose a passage from her book and practice reading it aloud quietly. Encourage the students to practice reading their passages slowly and clearly. Explain that when they read their passages for their classmates next week, they will use louder speaking voices. You might invite each student to practice reading his passage at home to his family before reading it to the class.

Create a Class Book of Reviews

If the students have revised their reviews and created final drafts, you might want to collect them in a class book. After they have shared their reviews with the class, gather the reviews in a class book titled "Class Recommendations for Summer Reading" and copy the book for individual students to take with them at the end of the school year.

Teacher Note

The students will share their reviews with the class in Unit 10.

TECHNOLOGY EXTENSION

Create Videos of Students Presenting Book Reviews

You might have the students create videos showing them presenting their book reviews and selected passages. Before creating the videos, have them practice reading their reviews and selected passages in a clear, engaging way. Have the class watch the videos. Facilitate a discussion by asking questions such as:

- Q** *How is seeing and hearing your classmate share a review and passage with you [the same as/different from] seeing a video of your classmate sharing the review and passage?*
- Q** *Which do you prefer to use? Why?*
- Q** *What might we do next time we create videos of our presentations to make the videos as interesting and as helpful as possible?*

Post the videos on your class blog and invite members of the school community, including the students' families, to watch and write responses to the reviews.

Technology Tip

Prior to doing this activity, you might wish to view the "Creating Audio and Video in the Classroom" tutorial (AV50) and the "Using Blogs in the Classroom" tutorial (AV45).

End-of-unit Considerations

Wrap Up the Unit

- This is the end of Unit 9. Partners will stay together for Unit 10.
- The students will use the books they summarized in this unit when they make recommendations for summer reading in Unit 10.
- Send home with each student a copy of this unit’s family letter (BLM1). Periodically, have a few students share with the class what they are reading at home.

Assessment

- Before continuing on to the next unit, take this opportunity to assess individual students’ reading comprehension using the “Individual Comprehension Assessment” record sheet (IA1); see page 140 of the *Assessment Resource Book*.

Review

of *The Legend of Sleepy Hollow*

by Jennifer B. (age 12)

In *The Legend of Sleepy Hollow*, by Washington Irving, Ichabod Crane has just arrived to Sleepy Hollow and has met a lot of people. Those people have told Ichabod the legend of Sleepy Hollow.

This legend is about a headless horseman who goes around cutting other people's heads in search of his own. This legend scared Ichabod every time it was told. Ichabod Crane had fallen in love with Katrina, a very rich girl, a couple of weeks after he arrived to Sleepy Hollow. One day Ichabod was invited to Katrina's party, and before the party was over a woman started to say the legend of Sleepy Hollow and at the end she said the only way you can escape the headless horseman is by crossing the bridge. That night Ichabod and his horse ran as fast as they could to reach their house. Finally he was up to the bridge that meant that he was near his house. Then something got in his way. It was the headless horseman. Did Ichabod ever escape?

I think that this book was very interesting because it was a legend about a headless horseman that lost his head in a war and since then has been looking for it by cutting other people's heads off. I recommend this book to people who like scary legends that took place a long time ago.

This story reminds me of "Bloody Mary" because they are both scary and they are both legends. What makes this story more scary is that it has been told for more than 100 years and it has been told by people who are already dead.

"Review of *The Legend of Sleepy Hollow*" by Jennifer B. Reprinted with permission from Spaghetti® Book Club (www.spaghettibookclub.org). Copyright © 2000 Happy Medium Productions, Inc.

Review

of *The Ballad of Lucy Whipple*

In this story by Karen Cushman, a girl named Lucy moves to California with her parents, but she doesn't like it there.

I liked this book because Lucy says funny things. She reminds me of my friend May, except May doesn't want to change her name.

I learned a lot about California from a long time ago. I recommend this book to people who want to know more about Lucy Whipple's trip to California.

Unit 10

Revisiting The Reading Community

During this unit, the students share book recommendations with the class and generate summer reading lists based on others' recommendations. They also review the reading comprehension strategies they have learned this year and discuss how the strategies help them make sense of what they read. During IDR, the students read texts of their choice and share and discuss what they are reading with the class. Socially, they act in fair and caring ways, and they listen to the thinking of others and respectfully share their own. They also discuss their growth as readers and as members of a classroom community.

Week 1

OVERVIEW

Comprehension Focus

- Students share book recommendations and plan their summer reading.
- Students reflect on their use of reading comprehension strategies.
- Students reflect on their growth as readers.
- Students read independently.

Social Development Focus

- Students act in fair and caring ways.
- Students listen respectfully to the thinking of others and share their own.
- Students analyze the effect of their behavior on others and on the group work.
- Students reflect on the reading community.

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA2

Assessment Forms

- “Class Assessment Record” sheet (CA1)
- “IDR Conference Notes” record sheet (CN1)
- “Social Skills Assessment Record” sheet (SS1)

Reproducible

- Unit 10 family letter (BLM1)

Professional Development Media

- “Using Blogs in the Classroom” tutorial (AV45)
- “Using Social Media” tutorial (AV46)

DO AHEAD

- ✓ If you used the “IDR Conference Notes” record sheet (CN1) from Unit 2 as a survey of the students’ reading goals and interests, you might review the students’ responses to those questions prior to beginning your IDR conferences this week. For more information, see “IDR Conferences” in the Assessment Overview of the *Assessment Resource Book*.
- ✓ Prior to Day 1, make sure that each student has the book she wrote a review of in Unit 9. The students will use these books to make recommendations for summer reading (see Step 1).
- ✓ Prior to Day 1, make a class set of “IDR Conference Notes” record sheets (CN1); see page 151 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, collect five read-aloud books that your students might enjoy hearing (see Step 2). The books you select could include *Making Meaning* books the students liked when you read them earlier this year, other popular books you have read aloud, books on the “Grade 5 Alternative Texts” list, or books the students have not heard before.
- ✓ Prior to Day 4, make a copy of the “Class Assessment Record” sheet (CA1); see page 150 of the *Assessment Resource Book*.
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this unit’s family letter (BLM1). Make enough copies to send one letter home with each student.

Vocabulary Note

If you are teaching the vocabulary lessons, teach the Week 29 lessons this week.

Day 1

Sharing Book Recommendations

Materials

- Student-selected books used to write reviews in Unit 9
- *Student Response Book* pages 101, 104–105
- Class set of “IDR Conference Notes” record sheets (CN1)

Teacher Note

You will not assign new partners this week. Have the students work with their Unit 9 partners or with other students sitting near them.

Teacher Note

You might consider taking your students on a short field trip to a local library.

In this lesson, the students:

- Prepare to share book recommendations for summer reading
- Share book recommendations for summer reading
- Plan their summer reading
- Read independently for up to 30 minutes
- Listen respectfully to the thinking of others and share their own

1 Get Ready to Work Together

Have the students bring their *Student Response Books*, pencils, and the books they used to write their reviews in Unit 9, Week 4, and gather with partners sitting together, facing you. Remind the students that last week they wrote reviews of books they want to recommend to their classmates for summer reading. Tell them that during this last week of the *Making Meaning* program, they will share their recommendations with the class and plan their summer reading. They will also review the comprehension strategies they have learned and think about how they have grown as readers and as members of a community.

Tell the students that at the end of the week you will ask them to discuss some things they enjoyed about working with partners this year. Encourage them to focus during the coming week on enjoying their partner work and using the skills they have learned to help them in their work together.

2 Discuss the Summer Reading List

Have the students turn to *Student Response Book* page 101, “Summer Reading List.” Remind them that last week they began to add titles of books they might want to read this summer to this list. Explain that as they hear recommendations in the coming days for other books they might want to read, they will add these titles to the list. Ask:

Q *If you hear about a book you are interested in reading, how might you find that book this summer?*

Students might say:

“I might find the book at the public library.”

“If a friend has the book, I could borrow it.”

“I might look for it at the bookstore or on the Internet.”

Facilitate a brief discussion about how the students will interact in a kind and respectful way during the sharing. Ask:

- Q *How do you want your classmates to respond to your book recommendation, whether they would choose to read your book or not? Why?*
- Q *How can you let your classmates know that you are interested in the books they are sharing and that you appreciate the work they've done to share them with you?*

Students might say:

"I want people to listen carefully when I read my recommendation. I would also like them to ask me questions about my book."

"After someone shares a recommendation with the class, we can thank them."

"We can ask them to tell us more about why they liked the book."

"We can tell them what we liked about the passage they read."

3 Share Book Recommendations

Call on a volunteer to share her book recommendation with the class. Remind the student to show the cover and read the title and the author's name aloud before reading her review and the selected passage. When the student has finished sharing, ask:

- Q *[Mary], why did you choose that passage?*

Facilitate a brief class discussion using questions such as:

- Q *What questions do you want to ask [Mary] about the book she shared?*
- Q *What did you hear about this book or in the passage that [Mary] read aloud that got you interested in or made you curious about the book?*
- Q *Do you have enough information to decide whether you want to add this book to your summer reading list? If not, what else do you want to know?*

Ask the student who shared the book to write the title and the author's name clearly where everyone can see them. Have the students copy this information onto their summer reading lists if they are interested in reading the book over the summer.

Have a few more students share their book recommendations with the class. After each student shares, allow time for questions and discussion and for interested students to add to their reading lists.

Technology Tip

You might create a space on your class blog for the students to post their recommendations for summer reading. Over the summer, the students can view their classmates' recommendations for summer reading, post reviews of books they read, and write comments and questions about recommended books. For more information about setting up and maintaining a class blog, view the "Using Blogs in the Classroom" tutorial (AV45). Prior to allowing the students to post comments on your class blog, you might teach Technology Mini-lesson 3, "Showing Respect Online."

Facilitation Tip

Reflect on your experience over the past year using the Facilitation Tips included in the *Making Meaning* program. Did using the facilitation techniques feel natural to you? Have you integrated them into your class discussions throughout the school day? What effect did using the facilitation techniques have on your students? We encourage you to continue to use the facilitation techniques and to reflect on the students' responses as you facilitate class discussions in the future.

Teacher Note

As you confer, you might compare the student's responses to the questions on the "IDR Conference Notes" record sheet (CN1) from Unit 2 with her responses to the questions on the "IDR Conference Notes" record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask her what led to those changes.

4 Discuss Working Together

Have the students who shared their recommendations today talk briefly about how they felt the class responded to them while they were sharing. Ask:

- Q *What made you feel like your classmates were interested in what you were sharing?*
- Q *If you weren't sure that your classmates were interested, what made you unsure?*

Open the discussion to the class, and ask:

- Q *What should we do the same way or differently as we continue to share our book recommendations?*

Remind the students of your expectation that they will do their part to help create a safe, caring community in the class. Tell them that more students will share their book recommendations tomorrow.

INDIVIDUALIZED DAILY READING

5 Read Independently and Discuss Summer Reading Plans

Tell the students that they can read texts from any genre during IDR this week. Ask the students to think as they read about whether they would recommend the texts they are reading to others. Tell them that later they will share what they read with the class. Have the students get their texts and read silently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

You may wish to confer a final time with individual students during this unit. In each conference, ask the student to tell you about the book she is reading and discuss how her reading habits have changed, how she feels about herself as a reader, and what she is interested in reading.

Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 151 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers briefly share with the class whether they would recommend the texts they are reading. Remind each student to begin by telling the title, the author's name, and what the text is about so far.

After a few volunteers have had a chance to share, facilitate a discussion about the students' summer reading plans by asking questions such as:

- Q *What are you interested in reading this summer?*
- Q *Why is it important for you to keep reading this summer?*
- Q *What habits can you create for yourself to make sure you keep reading this summer?*

Have the students return to their desks and put away their texts.

SOCIAL SKILLS ASSESSMENT NOTE

During this final week of the program, assess the students' social skill development using the "Social Skills Assessment Record" sheet (SS1); see page 156 of the *Assessment Resource Book*. Compare your notes from the fall, winter, and spring, and evaluate each student's social skill development over the course of the year.

EXTENSION

Recommend a Second Summer Reading Book and Read It Aloud

Remind the students that last week you made a recommendation of a book they might wish to read during the summer. Tell the students that you will make another recommendation for summer reading by first summarizing a book and then reading it aloud. Refer to the "Reading Comprehension Strategies" chart and remind the students to think about the comprehension strategies they are using as they listen.

Introduce the book by reading the information on the cover and providing any necessary background information and a brief summary. Read the book aloud, showing the illustrations. You might stop periodically to have partners discuss what they have heard so far.

After the reading, facilitate a class discussion about the book. Use "Turn to Your Partner" as appropriate to encourage thinking and participation. Be ready to reread passages to help the students recall what they heard. Ask questions such as:

- Q *What is the book about?*
- Q *What do you want to add to the summary [Rudy] just gave?*
- Q *Is this a book you would recommend to someone? Why or why not?*
- Q *What comprehension strategies did you use as you listened to this book? How did that help you?*

Teacher Note

Provide time for the students to record the texts they have completed in their reading logs.

Teacher Note

You might use the information you collected about your students' social skill development over the course of the year to help you plan for next year. Ask yourself questions such as:

- What was challenging for my students this year in terms of their social development?
- How might I help next year's students grow socially?
- What skills should I emphasize with the students next year to help them build a safe and caring reading community?

ELPS 3.B.ii Extension

Day 2

Sharing Book Recommendations

Materials

- Student-selected books for book recommendations
- *Student Response Book* pages 101, 104–105
- “Thinking About My Reading” chart
- “Reading Comprehension Strategies” chart

TEKS 1.C.i
Student/Teacher Narrative
Step 1

In this lesson, the students:

- Share book recommendations for summer reading
- Plan their summer reading
- Read independently for up to 30 minutes
- Listen respectfully to the thinking of others and share their own

1 Discuss Sharing Ideas Respectfully

Have the students bring their *Student Response Books*, pencils, and the books they are sharing for their book recommendations, and gather with partners sitting together, facing you. Remind the students that yesterday they began to share book recommendations for summer reading. Today they will hear several more book recommendations and consider these books for their summer reading lists.

Review that the students who shared yesterday talked about how they felt the class responded to them while they were sharing. Then, as a class, the students discussed what they might do the same and differently as more students share today. Ask:

- Q *What did we say we want to do the same way or differently as a class today as we listen to book recommendations?*
- Q *How will [listening carefully and making eye contact with the person sharing] help the people who are sharing?*

Encourage the students to keep these things in mind today as they participate.

2 Continue to Share Book Recommendations

Have a few more students share their book recommendations with the class. Remind each student to begin by showing the cover of the book and reading the title and the author’s name aloud before reading his review and the selected passage. When each student has finished sharing, ask:

- Q *[Hameed], why did you choose that passage?*

Facilitate a brief class discussion after each student shares using questions such as:

- Q *What questions do you want to ask [Hameed] about the book he shared?*
- Q *What did you hear about the book or in the passage that intrigued you?*
- Q *Do you have enough information to decide whether you want to add this book to your summer reading list? If not, what else do you want to know?*

Remind the students who share their recommendations for summer reading to write the titles and the authors' names where everyone can see them. Have interested students copy the information onto their summer reading lists. After the students have shared their book recommendations, end the sharing time for today.

3 Discuss Working Together

Have the students who shared their recommendations today talk briefly about how they felt the class responded to them while they were sharing. Ask:

- Q *What made you feel like your classmates were interested in what you were sharing?*
- Q *If you weren't sure that your classmates were interested, what made you unsure?*

Open the discussion to the class, and ask:

- Q *What should we do the same way, or differently, as we continue to share our book recommendations?*

Remind the students of your expectation that they will do their part to help create a safe, caring community in the class. Tell them that more students will share their book recommendations tomorrow.

INDIVIDUALIZED DAILY READING

4 Review and Discuss Self-monitoring and "Fix-up" Strategies

Remind the students that this year they learned techniques they can use to monitor their comprehension, or make sure they understand what they are reading. Direct their attention to the "Thinking About My Reading" chart and review that they learned to stop and think about what they are reading by asking themselves the questions on the chart. They learned that if they do not understand what they are reading, they can use the "fix-up" strategies of rereading and reading ahead. If they still do not understand what they are reading, they can also try the strategies listed on the "Reading Comprehension Strategies" chart or they can ask you or a classmate for help.

Have the students get their texts and read silently for up to 30 minutes. Stop them at 10-minute intervals and have them monitor their comprehension by thinking about the questions on the "Thinking About My Reading" chart. After they have settled into their reading, confer with individual students.

Teacher Note

As you confer, you might compare the student's responses to the questions on the "IDR Conference Notes" record sheet (CN1) from Unit 2 with his responses to the questions on the "IDR Conference Notes" record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask him what led to those changes.

IDR CONFERENCE NOTE

Continue to confer individually with the students. For each conference, ask the student to tell you about the book he is reading and discuss how his reading habits have changed, how he feels about himself as a reader, and what he is interested in reading.

Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 151 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Facilitate a brief class discussion about using the questions on the "Thinking About My Reading" chart to track their reading comprehension. Ask and briefly discuss questions such as:

- Q *Why is it important to stop as you are reading and ask yourself if you understand what you have read?*
- Q *How do rereading and reading ahead help you make sense of text?*
- Q *Which comprehension strategy do you find the most helpful when you're not understanding something you're reading? Why?*

Have the students return to their desks and put away their texts.

EXTENSION

Recommend a Third Summer Reading Book and Read It Aloud

Tell the students that you will make another recommendation for summer reading by first summarizing a book and then reading it aloud. Refer to the "Reading Comprehension Strategies" chart and remind the students to think about the comprehension strategies they are using as they listen.

Introduce the book by reading the information on the cover and providing any necessary background information and a brief summary. Read the book aloud, showing the illustrations. You might stop periodically to have partners discuss what they have heard so far.

After the reading, facilitate a class discussion about the book. Use "Turn to Your Partner" as appropriate to encourage thinking and participation. Be ready to reread passages to help the students recall what they heard. Ask questions such as:

- Q *What is the book about?*
- Q *What do you want to add to the summary [Brian] just gave?*
- Q *Is this a book you would recommend to someone? Why or why not?*
- Q *What comprehension strategies did you use as you listened to this book? How did that help you?*

Sharing Book Recommendations and Reflecting

Day 3

In this lesson, the students:

- Share book recommendations for summer reading
- Plan their summer reading
- Reflect on and write about their reading lives
- Reflect on their growth as readers
- Read independently for up to 30 minutes
- Listen respectfully to the thinking of others and share their own

1 Discuss Sharing Ideas Respectfully

Have the students bring their *Student Response Books*, pencils, and the texts they are sharing for their book recommendations and gather with partners sitting together, facing you. Remind the students that they have been sharing book recommendations for summer reading. They will hear several more book recommendations today and consider these books for their summer reading lists. Explain that they will also spend some time reflecting on their own reading lives.

Review that yesterday the students who shared talked about how they felt the class responded to them while they were sharing. Then, as a class, they discussed what they might do the same and differently as more students share today. Ask:

- Q *What did we say we want to do the same way or differently as a class today as we listen to book recommendations?*
- Q *How will [sitting quietly and turning our bodies to face the person sharing] help the people who are sharing?*

Encourage the students to keep these things in mind today as they participate.

2 Continue to Share Book Recommendations

Have a few more students share their book recommendations with the class. Remind each student to begin by showing the cover of the book and reading the title and the author's name aloud before reading her review and the selected passage. When each student has finished sharing, ask:

- Q *[Hilary], why did you choose that passage?*

Facilitate a brief class discussion after each student shares, using questions such as:

- Q *What questions do you want to ask [Hilary] about the book she shared?*

Materials

- Student-selected books for book recommendations
- *Student Response Book* pages 101, 104–105
- “Reflecting on Our Reading Lives” chart (WA1)

Teacher Note

If not all of the students are able to share their book recommendations, make time later in the day or on another day for them to share before proceeding with the Day 4 lesson.

Teacher Note

Use “Turn to Your Partner” as needed during this discussion to increase accountability and participation.

- Q What did you hear about the book or in the passage that intrigued you?
- Q Do you have enough information to decide whether you want to add this book to your summer reading list? If not, what else do you want to know?

Remind the students who share their recommendations for summer reading to write the titles and the authors’ names where everyone can see them. Have interested students copy the information onto their summer reading lists. After the students have shared their book recommendations, end the sharing time for today. Assure the students that if they did not share their book recommendations today, they will have time to share them later.

3 Write About Reading Lives

Explain that the students will now have a chance to think about how they have grown and changed as readers over the year. Remind them that they started the year thinking about their reading lives, and tell them that they will think about this again now that they are nearing the end of the year.

Display the “Reflecting on Our Reading Lives” chart (WA1) and explain that the students will first think, and then write, about the questions on the chart. Read the questions aloud, pausing after each question to give the students time to think.

WA1

Reflecting on Our Reading Lives

- What are some of your favorite kinds of books now? Why?
- Where is your favorite place to read?
- What does the word *reading* mean to you?
- When you don’t understand something you are reading, what do you do?
- What kinds of books did you read for the first time this year? What topics did you read about for the first time?

After a few moments, ask the students to turn to *Student Response Book* page 106, “Thoughts About My Reading Life.” Have them record their answers to these questions.

4 Discuss Growth as Readers

Give the students a few minutes to review and reflect on what they wrote. Ask them to spend a few quiet moments thinking about how they have changed and grown as readers over the year. Facilitate a discussion about the students’ growth as readers using questions such as:

- Q How do you think you have changed or grown as a reader? What makes you think that?

- Q What questions do you want to ask [James] about what he said?
- Q Do others think they have changed or grown in a similar way? Why do you think so?

Students might say:

"My favorite books used to be the *Time Warp Trio* books. I still like those books, but my new favorite books are historical fiction."

"At the beginning of the year I wanted to read about extreme weather, and I did. I read a bunch of books about hurricanes, tornadoes, and typhoons."

"I used to think reading meant reading words. Now I think reading means thinking about a story."

You might want to share some of your general observations about ways your students have changed or grown as readers over the year.

You might say:

"I noticed that each of you has improved in your ability to choose books that are at the right reading level for you and that you are choosing books now that are at a higher reading level than the books you were reading at the beginning of the year."

INDIVIDUALIZED DAILY READING

5 Read Independently and Share Interesting or Surprising Things with the Class

Ask the students to think as they read independently today about interesting or surprising things in their texts. Explain that later you will ask some of them to share interesting or surprising things in their texts with the class. Have the students get their texts and read independently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students. For each conference, ask the student to tell you about the book she is reading and discuss how her reading habits have changed, how she feels about herself as a reader, and what she is interested in reading.

Document your observations for each student on an "IDR Conference Notes" record sheet (CN1); see page 151 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Have a few volunteers share interesting or surprising things in their texts with

Teacher Note

As you confer, you might compare the student's responses to the questions on the "IDR Conference Notes" record sheet (CN1) from Unit 2 with her responses to the questions on the "IDR Conference Notes" record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask her what led to those changes.

the class. Remind each student to begin by telling the title of the text, the author's name, and what the text is about.

Have the students return to their desks and put away their texts.

EXTENSION

Review the Summer Reading Lists

Have the students review the books on their summer reading lists. Ask:

Q *What kinds of books did you choose for summer reading? Does that surprise you? Why or why not?*

You might ask the students to put stars next to the books they want to read first. Encourage them to read as many of the books on their lists as they can this summer. Also encourage them to ask family members and friends about the books they are reading and to add any books that seem interesting to their reading lists.

Technology Tip

Prior to doing this activity, find and preview age-appropriate websites that feature book recommendations using the keywords "grade 5 summer reading lists" or "grade 5 book recommendations."

TECHNOLOGY EXTENSION

Use Online Book Recommendations to Add to Summer Reading Lists

Review that the students have been creating summer reading lists based on book recommendations from their classmates. Tell the students that today they will explore websites that recommend books for summer reading to find more titles they might be interested in adding to their own lists.

Open your web browser and go to one of the websites you previewed. Model navigating the website and read aloud some of the book recommendations. After reading each recommendation, discuss questions such as:

Q *What did you learn about the book? What else would you like to know about it?*

Q *Are you interested in reading this book? Why or why not?*

Allow time for interested students to add the books to their reading lists.

In this lesson, the students:

- Hear and discuss a student-selected book
- Reflect on the comprehension strategies they are using
- Plan their summer reading
- Read independently for up to 30 minutes and write in their reading journals
- Reflect on their contributions to the reading community
- Reflect on how they have benefited from the reading community

1 Reflect on Partner Work

Have the students bring their *Student Response Books* and pencils and gather with partners sitting together, facing you. Remind the students that over the course of the year they have worked with many partners. Ask a few volunteers to share some of their favorite things about working with partners this year. Facilitate a class discussion using questions such as:

- Q *Think about how you worked with your first partner this year and how you work with partners now. How have you grown as a partner?*
- Q *What are three things that you liked most about working with partners this year?*

Students might say:

"At first it was hard, but we got better and better at it."

"I think the more we got to know each other, the more we were a community."

"I agree with [Nancy]. Being in this community has helped me because I used to be too shy to say anything to the class. I don't feel that way anymore."

"In addition to what [Arturo] said, I liked working with a partner. I liked having someone to talk to, getting to work with different partners, and not having to be quiet all the time."

Ask and briefly discuss:

- Q *What is one thing you learned about working well with a partner that you want to take with you next year?*

You might want to share some of your general observations about ways your students have changed or grown when working with partners over the year.

Materials

- Five read-aloud books, selected ahead
- Sheet of scratch paper for each student
- *Student Response Book* page 101
- "Reading Comprehension Strategies" chart
- "Class Assessment Record" sheet (CA1)
- Self-stick notes for each student
- "Journal Entry" chart (WA2)
- *Student Response Book*, Reading Journal section
- Copy of this unit's family letter (BLM1) for each student

Technology Tip

Alternatively, you might use a web-based polling system to have the students submit their votes. Search online using the keywords “online polling system” or “online polling tool.” For more information, view the “Using Social Media” tutorial (AV46).

Teacher Note

If the students finish writing before you are done tallying the votes, ask them to page through their *Student Response Books* and talk in pairs about the work they did this year. If partners need help focusing on their *Student Response Book* work, pose a question for them to think about, such as:

- Q *What is one piece of work in your Student Response Book that represents some of your best thinking?*
- Q *What is one piece of work that was most interesting or enjoyable for you?*

You might say:

“I remember how some students didn’t want to work with assigned partners at the beginning of the year. Now you are much better at working with any partner. I also noticed that you relied much more heavily on me at the beginning of the year to help you solve your problems. Now you are able to solve many problems by yourselves.”

Tell the students that today they will have another opportunity to share their thinking with their partners.

2 Choose a Read-aloud Book

Write the titles of the five read-aloud books you selected where everyone can see them. Show the students the books and explain that the class will choose one of these books to hear read aloud today. Tell them that you selected books you thought they would enjoy hearing (or hearing again). Give a brief synopsis of each book that is new to the students and, if necessary, briefly review the books from earlier in the year.

Explain that you would like each student to choose the three books she is most interested in hearing and to write these three titles on a sheet of scratch paper. The title with the most votes is the one you will read aloud today. Before having the students vote, ask:

- Q *How will you decide which three books to choose? What will you think about?*
- Q *Why is it important to make your choices based on what you are really interested in hearing rather than on what other people are choosing?*

Distribute a sheet of scratch paper to each student. Have the students write their three book choices, and collect the votes. Have the students turn to *Student Response Book* page 101, “Summer Reading List,” and add the titles of any of these five books that they might want to read or reread this summer. While they are doing this, tally the votes. After you have tallied the votes, tell the class which book was chosen for today’s read-aloud.

3 Review the “Reading Comprehension Strategies” Chart

Direct the students’ attention to the “Reading Comprehension Strategies” chart and review that the students learned and practiced each of these strategies this year. Review that the goal of learning comprehension strategies is to help them actively think about what they are reading in order to make sense of it. Ask:

- Q *Which strategies do you find yourself using regularly? How do those strategies help you make sense of what you’re reading?*
- Q *When might it make sense to use [making inferences]? How might this strategy help you read?*

Remind the students to think about the comprehension strategies they are using as they listen to today’s read-aloud, and explain that you will ask them to discuss their thinking after the reading.

4 Introduce the Book and Read Aloud

Introduce the book by showing the cover, reading aloud the information on the cover (for example, the title and the names of the author and the illustrator), and providing any necessary background information.

Read the book aloud, showing the illustrations. Stop periodically to have partners discuss what they have heard so far.

5 Discuss the Reading as a Class

Facilitate a discussion of the book using the following questions. Be ready to reread passages to help the students recall what they heard.

- Q *What is this [story] about?*
- Q *What do you want to add to the summary [Abbie] just gave?*
- Q *What comprehension strategy or strategies did you use as you listened to this [story]? How did that help you understand the [story]?*

6 Reflect on the Reading Community

Remind the students that yesterday they reflected on their reading lives and growth as readers. Explain that the students will now have a chance to think about how they did with creating a safe and caring community this year and how they personally have changed as members of the community. Use “Think, Pair, Share” to discuss the questions that follow. After partners have discussed each question, have a few volunteers share their thinking with the class.

- Q *What have we done to create a safe and caring reading community this year? [pause] Turn to your partner.*
- Q *What have you done to contribute to the reading community this year? [pause] Turn to your partner.*
- Q *How has it felt to be part of the reading community? How has it helped you? [pause] Turn to your partner.*

After a few moments, signal for the students’ attention and invite a few volunteers to share.

ELPS 3.B.ii
ELPS 4.F.x

Steps 4 and 5

Teacher Note

Use “Turn to Your Partner” as appropriate to encourage thinking and participation.

Students might say:

"I think we did a good job creating a safe and caring reading community. Whenever we had problems, we talked about them so we could get along better."

"I agree with [Ned] because the more we got to know each other, the more comfortable we felt talking to each other and sharing our ideas."

"I contributed to the reading community by listening respectfully to my classmates."

"Being a part of the reading community has helped me feel confident about reading."

"I used to be too shy to talk to my partner, but now I can talk to any partner I have."

Encourage the students to become caring members of their classroom reading community next year and to enjoy their summer reading.

CLASS ASSESSMENT NOTE

Take this opportunity to reflect on your students' growth over the year by asking yourself questions such as:

- Are the students using the comprehension strategies successfully? Which strategies seem to be the most challenging for the students?
- Has the students' enjoyment of reading grown? What evidence do I notice?
- How might I help next year's students grow as readers?
- What was challenging for my students this year in terms of their social development?
- How might I help next year's students grow socially?

Record your observations on the "Class Assessment Record" sheet (CA1); see page 150 of the *Assessment Resource Book*.

INDIVIDUALIZED DAILY READING

7 Read Independently and Write About Reading Comprehension Strategies

Distribute self-stick notes to each student. Tell the students to use the self-stick notes to mark places where they notice they are using reading comprehension strategies in their texts. Have the students get their texts and read independently for up to 30 minutes. After they have settled into their reading, confer with individual students.

IDR CONFERENCE NOTE

Continue to confer individually with the students. For each conference, ask the student to tell you about the book he is reading and discuss how his reading habits have changed, how he feels about himself as a reader, and what he is interested in reading.

Document your observations for each student on an “IDR Conference Notes” record sheet (CN1); see page 151 of the *Assessment Resource Book*.

Signal to let the students know when it is time to stop reading. Display the “Journal Entry” chart (WA2) and explain that you would like each student to write a journal entry. Also explain your expectations for what the journal entry should include.

Journal Entry

Write a journal entry about a comprehension strategy you used. Please include:

- The title of the text and the author’s name
- What the text is about
- A comprehension strategy you used
- How the strategy helped you understand the text

WA2

Ask the students to think quietly about what they will write about. After a moment, have partners take turns sharing what they plan to write.

Have the students return to their desks and open their *Student Response Books* to the Reading Journal section. Give the students a few minutes to write in their journals. If time permits, have a few volunteers share their journal entries with the class.

EXTENSION

Host an End-of-year Summer Reading Fair

Have the students invite other classes to a “Summer Reading Fair.” Have the students present their book recommendations to small groups of students. The invited students will have an opportunity to listen to book recommendations, preview the books, and get a glimpse into the reading lives of the students. Students might also make posters to advertise their favorite books. If there is a school library or librarian available, you might want to involve the library or librarian in the activity.

Teacher Note

As you confer, you might compare the student’s responses to the questions on the “IDR Conference Notes” record sheet (CN1) from Unit 2 with his responses to the questions on the “IDR Conference Notes” record sheet (CN1) from this unit. You might share with the student some changes you noticed and ask him what led to those changes.

Vocabulary Note

Next week you will teach the Week 30 vocabulary lessons. In Week 30, the students review words they have learned this year.

Teacher Note

For information on wrapping up this unit, see “End-of-unit Considerations” on the next page.

TECHNOLOGY EXTENSION

Explore the Community Library Online

Take some time to explore the community library’s website (you might search the site for topics like “children’s services” and “children’s e-books”). Many libraries offer access to collections of e-books, music, and audiobooks through downloads to personal computers, tablets, and other mobile devices. You might ask your school librarian or a librarian from the community library to come to your classroom and introduce your students to a few of the online services available to them.

End-of-unit Considerations

Wrap Up the Unit

- This is the end of Unit 10 and the *Making Meaning* program. Send each student home with his or her *Student Response Book* and a copy of this unit’s family letter (BLM1). Encourage the students to share their reading logs, reading journals, and summer reading lists with their families.

IDR MINI-LESSONS

Mini-lesson 1

Selecting Appropriately Leveled Texts

🕒 DO AHEAD

- ✓ During this lesson, the students will sit in small groups as they browse through book bins and select appropriately leveled texts (see Step 3). Prior to beginning the lesson, decide how you will group the students. We recommend groups of three or four students.
- ✓ Create one book bin with 15–20 books for each group. In every bin, be sure to include fiction and nonfiction books at a variety of levels. Determine where in your classroom you will place each bin (for example, at a table or other location around the room).
- ✓ Select three books to use to model selecting an appropriately leveled text: one book at an appropriate independent reading level, one “too-easy” book, and one “too-difficult” book. Be ready to describe the front and back covers of each book and to explain why each book interests you. Also, be ready to read a few pages of each book aloud and to point out and count any unfamiliar words in a passage. Place the books in one of the book bins you have prepared. See Step 2.
- ✓ Prepare a sheet of chart paper titled “Choosing a Book at the Right Level.” See Step 2.

Materials

- Three books for modeling, prepared ahead
- “Choosing a Book at the Right Level” chart, prepared ahead, and a marker
- Collection of fiction and nonfiction books in book bins, prepared ahead

In this lesson, the students:

- Review what they know about selecting appropriately leveled texts
- Discuss the importance of selecting appropriately leveled texts for IDR
- Review a procedure for selecting books at their independent reading levels
- Practice choosing books at their independent reading levels
- Share their book choices and reflect

ABOUT SELECTING APPROPRIATELY LEVELED TEXTS

In order for the students to grow as readers, they need to spend time reading texts they can comprehend and read fluently with few miscues (accuracy errors). For that reason, during IDR they read books at their independent reading levels. This lesson supplements the instruction in IDR by giving the students guidance in identifying and selecting books that are at their independent reading levels. For more information, see “Reading Appropriately Leveled Texts” in the Introduction.

1 Review and Discuss Selecting Appropriately Leveled Texts

Have the class gather with partners sitting together, facing you. Remind the students that during IDR it is very important that they read books at the right levels. Review that a book that is at the right level is not too difficult and not too easy; it has words the students can read and understand and a story or topic that is interesting to them. Remind the students that reading books at the right levels will help them to become stronger readers.

Ask and briefly discuss:

Q *What do you think about when you are choosing a book at the right level for you?*

Students might say:

“First I look for a book that’s interesting to me.”

“When I find a book that looks interesting, I open it to any page and read a little bit.”

“As I read, I keep track of how many words I don’t know on the page.”

“If the book seems too easy or too hard to read on my own, I put it back in the library.”

Review that a book is at the right level for a student to read during IDR if the student likes it, is interested in it, and can read and understand most of the words. Explain that today the students will talk about why it is important to read books at the right levels during IDR.

Ask and briefly discuss:

Q *How do you know if a book is too easy? Turn to your partner.*

Q *How do you know if a book is too difficult? Turn to your partner.*

Have a few volunteers share their thinking.

Teacher Note

At other times during the day, you might provide the students with opportunities to read books that are above or below their independent reading levels.

Students might say:

"A book that's too easy might have only a few words on each page."

"If a book is too easy, it could mean that I know every single word and can read the book really fast."

"A book might be too difficult if it has a lot of words I don't know."

"If a book is too difficult, it could mean that I can't understand what it's about."

If necessary, explain that reading books that are too easy will not help the students become stronger readers since they might not have the opportunity to practice reading new words or to think about new ideas. If they read books that are too difficult, they might skip important parts of the book and they might not understand what they read. Then ask:

Q *Why is it important to read books that are at the right level for you during IDR?*

Students might say:

"When you read a book that's at the right level for you, it's more fun to read."

"It's important because if a book is at the right level, you'll understand it better."

"When you read a book at the right level, you learn more."

"It's important because reading books at the right level helps us get better at reading."

Tell the students that today you will model choosing a book at the right level for IDR by checking to see if you know most of the words in the book. Explain that later in the lesson each student will have a chance to practice choosing his own books at the right level.

2 Model and Introduce the "Choosing a Book at the Right Level" Chart

Ask the students to watch and listen as you model choosing a book at the right level. Ask the students to notice what you do and think about when you select the book.

Take the "too-easy" book you selected (see "Do Ahead") out of the book bin. Briefly model looking through the book, reading a few pages aloud, and thinking aloud about whether the book interests you and whether it is at the right level for you. Explain that normally we read silently when we read independently, but that you will read aloud so that the students can hear what is happening in the book.

You might say:

"First, I'll look at the front and back covers of the book. The title is *The Ugly Vegetables*, and the author's name is Grace Lin. This book looks interesting to me. The title makes me wonder what the story is about, and the illustration on the front cover caught my attention. Next, I'll read few pages to see if this book is at the right level for me. As I read, I'll count any words I don't know, using my fingers. [Read a few pages aloud.] I know all of the words on these pages, and they're easy words. Also, I notice that there aren't that many words on each page. This book seems too easy for me, so I'll put it back in the bin and pick another book."

Put back the first book and take the "too-difficult" book you selected earlier out of the bin. Again, briefly model looking through this book, reading a few pages aloud, and thinking aloud about whether the book interests you and whether it is at the right level for you.

You might say:

"The title of this book is *Mandela: From the Life of the South African Statesman*, and the author's name is Floyd Cooper. After reading the back cover, I think the book sounds interesting. I've heard of Nelson Mandela, but I don't know much about his life. I'll read a few pages to see if I can understand this book. Just like I did with the first book, I'll pay attention to how many words I don't know, and I'll count those words using my fingers. [Read a few pages aloud.] I counted five words on this page that I don't know: *generations*, *magistrate*, *dethroned*, *dispute*, and *chieftainship*. If I skip them, I don't really understand what is happening in the story. I might put this book back for now and try reading it again some other time, or maybe I'll ask someone to read it with me."

Put back the "too-difficult" book and take the appropriately leveled book you selected earlier out of the book bin. Model looking through this book, reading a few pages aloud, and thinking aloud about whether the book interests you and whether it is at the right level for you.

You might say:

"This book is *Australia and Oceania* by Mel Friedman. By looking at the covers and reading the table of contents, I can tell that this is a nonfiction book about two parts of the world, the continent of Australia and the region known as Oceania. I see that there are chapters about animals, history, and people. This book sounds interesting; I think I might enjoy it. I'll read a few pages, and as I read, I'll count any words that I don't know. [Read a few pages aloud.] I see a long word in this sentence: *isolated*. But I know what that means—*isolated* means 'all by itself' or 'alone.' Here's an unfamiliar word farther down the page: *vast*. I don't know what that means, so I'll count that as one word I don't know. Here's a second word I don't know: *dome*. I'll count that, too. I've reached the end of the page, and there are only two words I don't know. Now I'll ask myself if I understood most of what I read. Yes, I did. That means this is probably a book at the right level for me."

Ask:

Q *What did you see me do when I was choosing a book at the right level for me? Turn to your partner.*

Have a few volunteers share their thinking with the class.

Students might say:

"I saw you read the title and look at the front and back covers. You thought about whether the book looked interesting."

"Also, you opened the book and read some pages."

"You read a page and counted all the words you didn't know."

"You thought about what you read and asked yourself if you understood it."

Direct the students' attention to the "Choosing a Book at the Right Level" chart and read the title aloud. As volunteers share, record their responses on the chart. Be ready to paraphrase them so that your chart is similar to the example in the diagram below.

Choosing a Book at the Right Level

1. Look at and read the front and back covers.
2. Read a few pages.
3. Count words you do not know.
4. Check to see if you understand what you read.

Teacher Note

You might post the "Choosing a Book at the Right Level" chart in your classroom library for the students to refer to when choosing books during IDR.

Tell the students that you will post the "Choosing a Book at the Right Level" chart where everyone can see it. Explain that the students can refer to it any time they need help choosing a book at the right level to read during IDR.

3 Practice Selecting Appropriately Leveled Texts

Organize the students into small groups. Have them bring their current IDR books and sit with their groups. Tell the students that they will now have a few minutes to look through the books they chose earlier and to think about whether these books are at the right levels for them to read independently. Explain that if they decide any books are not right for them, they should put them to the side. In a few minutes, they will have a chance to return these books and choose new books at the right levels.

Give the students a few minutes to look through their books and decide if they are at the right levels. Circulate and provide assistance as needed.

When the students have finished looking through their books, signal for their attention. Distribute one book bin to each group. Have the students return any books they set aside to the bins. Explain that now they will browse quietly through the bins to choose two or three new books at the right levels for them. Remind the students to handle and share the books in a responsible way.

Ask and briefly discuss:

Q *What can you do to give each person in your group a chance to choose books from the bin?*

Students might say:

"I can take just one book at a time to look at."

"After I take a book, I'll move so that someone else can browse."

"I can put any book that I'm not interested in reading back where I found it."

Q *What will you do if someone else is looking at a book that you want to look at?*

Students might say:

"I can wait a moment to see if the person puts the book down. Then I can look at it."

"I can look at a different book."

"I can say, 'It's okay. I'll look at that book another time.'"

Have the students browse through the bins and choose two or three books at the right levels for reading independently.

Tell the students that once they have chosen their books, they should begin reading one of them independently. Circulate and observe, helping students as needed.

4 Share Books and Reflect

Signal to let the students know when it is time to stop reading. Describe some responsible behaviors you noticed as the students were selecting and reading their books. Tell the students that they will have many opportunities to practice selecting and reading books that are at the right levels for them to read during IDR.

Ask and briefly discuss:

Q *What book did you choose? Why is it at the right level for you?*

Invite several volunteers to share their books with the class. Encourage them to say more about how they decided that their books were at the right levels for them.

ELL Note

You might provide the prompt "I chose this book because . . ." to your English Language Learners to help them verbalize their answers to this question.

Mini-lesson 2

Self-monitoring and Using “Fix-up” Strategies

DO AHEAD

- ✓ Select an appropriately leveled book to use for modeling “fix-up” strategies (see Step 2 and Step 4). Identify in advance passages that you can use to model the strategies, and think about what you will say. For more information, see “About Self-monitoring and Using ‘Fix-up’ Strategies” below.
- ✓ Prepare a sheet of chart paper titled “‘Fix-up’ Strategies” (see Step 3).
- ✓ Be ready to review the “Thinking About My Reading” chart from Unit 1.

Materials

- “Thinking About My Reading” chart
- One book for modeling, prepared ahead
- “‘Fix-up’ Strategies” chart, prepared ahead, and a marker

In this lesson, the students:

- Review self-monitoring during IDR
- Learn “fix-up” strategies to help them understand what they read
- Practice using “fix-up” strategies with IDR books
- Reflect on using “fix-up” strategies

ABOUT SELF-MONITORING AND USING “FIX-UP” STRATEGIES

Self-monitoring is an important metacognitive strategy that enables readers to recognize when they are reading the words of a text but are not thinking about and comprehending it. In Unit 1, the students learn questions they can ask themselves to monitor their comprehension as they read. In this mini-lesson, the students review self-monitoring and learn strategies they can use to repair, or “fix,” their comprehension when they do not understand what they have read. These “fix-up” strategies include going back and rereading the text slowly and carefully, reading on to see if there is information that helps them better understand the text, using context clues to figure out the meaning of unfamiliar words or phrases, employing a comprehension strategy such as visualizing or looking at text features, and asking for help.

Teacher Note

You might teach this lesson in multiple sessions, modeling one “fix-up” strategy and then allowing the students to practice it during the first session. Repeat the procedure to teach additional “fix-up” strategies at other times.

1 Review Self-monitoring and Introduce “Fix-up” Strategies

Gather the class with partners sitting together, facing you. Remind the students that reading books at the right levels helps them become stronger readers. Direct the students’ attention to the “Thinking About My Reading” chart. Review that one way strong readers know if they are

reading books that are right for them is by pausing while they read to ask themselves questions about what they have read and how well they understand it.

Thinking About My Reading

What is happening in my book?

Do I understand what I am reading?

Do I know what most of the words mean?

Is this book interesting and fun to read?

Tell the students that there might be times when they ask themselves these questions and realize that they do not understand what they have read. Tell the students that today they will learn some “fix-up” strategies—tools that they can use to “fix” their understanding when they realize they do not understand what they have read.

2 Model Rereading and Reading Ahead

Explain that one strategy the students can use when they realize they do not understand what they read is to reread and read ahead. Show the front and back covers of the book you have chosen. Read the title and the names of the author and the illustrator aloud. Ask the students to watch and listen as you model reading, pausing to check your understanding, and then rereading and reading ahead to help you understand what you read. Explain that normally we read silently when we read independently, but that you will read this book aloud so that the students can hear what is happening in the book.

You might say:

“My book is *Celia Cruz, Queen of Salsa* by Veronica Chambers. [Read a passage aloud and then pause.] I’ll ask myself: Do I understand what I’ve read so far? Do I know what most of the words mean? Although I understand most of what I read, I was confused by an unfamiliar word: *chores*. What can I do to figure out what *chores* means? First, I’ll go back and reread the passage slowly and carefully. As I reread, I will look for clues to help me figure out the meaning of this word. [Reread the passage aloud, slowly and carefully.] After reading the passage again, I’m still not sure what *chores* means. I’ll read ahead to look for more clues that might help me. [Read a few sentences ahead.] After reading ahead, I learned that some of Celia’s friends have to sweep the kitchen, while others have to wash dishes. I think that *chores* must be household jobs or tasks. I understand what I’ve read, so I’ll continue reading.”

3 Discuss What the Students Noticed and Introduce the “‘Fix-up’ Strategies” Chart

Ask and briefly discuss:

- Q *What did I do when I reread the passage?*
- Q *What did I do when I read ahead?*

Students might say:

“When you realized that you didn’t understand something, you went back and reread the passage.”

“You reread the passage really slowly and carefully.”

“You looked for clues in the story to help you understand a word you didn’t know.”

“When you read ahead in the book, you looked to see if there were more clues that might help you.”

As the students share, record their responses on the “‘Fix-up’ Strategies” chart. Be ready to rephrase their responses so that your chart is similar to the example in the diagram below.

“Fix-up” Strategies

When you don’t understand what you are reading:

- *Go back and reread slowly and carefully.*
- *Look for clues in the text.*
- *Read ahead to look for more clues or information.*

Direct the students’ attention to the “‘Fix-up’ Strategies” chart and briefly review the strategies. Remind the students that these are some strategies they can use when they realize that they do not understand what they have read.

4 Model Using a Reading Comprehension Strategy and Add to the Chart

Tell the students that another “fix-up” strategy they can use when they do not understand what they read is to use one of the comprehension strategies they have learned.

Teacher Note

If you are teaching this mini-lesson during Unit 1, prior to the introduction of the “Reading Comprehension Strategies” chart, you might skip Step 4 and wait until a later unit to teach this strategy.

Ask the students to watch and listen as you continue reading from your book, and model using a comprehension strategy to help you understand what you read.

You might say:

"I'll continue reading my book. [Read a passage aloud and then pause.] I'll ask myself: Do I understand what I've read? Do I know what most of the words mean? I understand most of what I read, but I don't know the meaning of the various Spanish words in the passage, such as *azúcar* and *dulce*. How can I figure out the meaning of these words? What text features do I see that might help me? [Page through the book.] I see that there is a glossary—a list of alphabetized words with definitions—at the end of this book. By studying the glossary, I learn that *azúcar* means 'sugar' and *dulce* means 'sweet.' Now I understand what I read, so I'll continue reading."

Ask and briefly discuss:

Q *What did I do when I didn't understand what I read?*

Students might say:

"You [used the glossary to help you understand the Spanish words]."
"You [studied the glossary, a text feature,] to figure out the confusing parts."
"You [used a text feature to help you understand the Spanish words]."

As the students share, record their responses on the "Fix-up" Strategies chart. Be ready to rephrase their responses so that your chart is similar to the example in the diagram below.

"Fix-up" Strategies

When you don't understand what you are reading:

- Go back and reread slowly and carefully.
Look for clues in the text.
- Read ahead to look for more clues or information.
- Use a reading comprehension strategy.

Teacher Note

Model using a comprehension strategy that the students have learned and that is appropriate for the book you have chosen.

5 Add “Ask for Help” to the Chart and Prepare to Read Independently

Briefly review the “Fix-up’ Strategies” chart. Tell the students that if they try using these “fix-up” strategies but are still confused about what they are reading, they can ask for help. Add *Ask for help* to the chart.

Explain that if none of these strategies work, the students should consider selecting a different book.

“Fix-up” Strategies

When you don’t understand what you are reading:

- *Go back and reread slowly and carefully. Look for clues in the text.*
- *Read ahead to look for more clues or information.*
- *Use a reading comprehension strategy.*
- *Ask for help.*

Ask the students to get their IDR books and find places to sit. Explain to the students that they will read their books silently, pausing to ask themselves the questions on the “Thinking About My Reading” chart. If they realize that they do not understand what they are reading, they will practice using the “fix-up” strategies. Tell them that later they will share their experiences with the class.

6 Read Independently and Practice Using “Fix-up” Strategies

Have the students read silently for a few minutes. Remind them to ask themselves the questions on the “Thinking About My Reading” chart and to use “fix-up” strategies as needed. Circulate and observe, assisting students as needed. After a few minutes, signal to let the students know when it is time to stop reading.

7 Reflect on Self-monitoring and Using “Fix-up” Strategies

Ask and briefly discuss:

- Q *What did you notice as you checked your understanding while reading? What questions did you ask yourself?*
- Q *What did you do when you realized that you didn’t understand what you read?*

Review that strong readers pause while reading to check their understanding and use “fix-up” strategies when they realize that they do not understand something they have read. Tell the students that they can refer to the “Thinking About My Reading” chart and the “Fix-up Strategies” chart during IDR or any time they are reading.

Introducing IDR Conferences

Mini-lesson 3

DO AHEAD

- ✓ During this lesson, you will model conferring with a student about a book he is reading independently as the rest of the class observes (see Step 4). Think in advance about the questions you will ask.
- ✓ Make two copies of the “IDR Conference Notes” record sheet for the unit you are currently teaching.

In this lesson, the students:

- Review procedures and expectations for IDR
- Discuss the importance of IDR conferences
- Learn what happens during an IDR conference
- Practice reading independently
- Reflect on acting responsibly during IDR

ABOUT IDR CONFERENCES

IDR conferences provide you with opportunities to get to know each student as a reader, talk with individual students about their reading, identify areas of strength, and note areas in which a student needs support. To learn more, see “IDR Conferences” in the Assessment Overview of the *Assessment Resource Book* or view “Setting Up IDR Conferences” (AV29).

Materials

- Two copies of the “IDR Conference Notes” record sheet for your unit
- “Resource Sheet for IDR Conferences” for your unit, *Assessment Resource Book*

1 Gather and Review the Purpose of IDR

Gather the class with partners sitting together, facing you. Remind the students that IDR is a time when each of them reads independently in a book she enjoys. Review that during IDR, the students read books at their own reading levels and practice the reading comprehension strategies they are learning in the *Making Meaning* program. Remind them that the more reading practice they do in books at their independent levels, the stronger they will become as readers.

Tell the students that while they are reading independently, you will meet with one student at a time to talk about the book that he is reading. Explain that these one-on-one meetings are called *conferences* and that today the students will learn more about what happens during a conference.

2 Discuss the Importance of IDR Conferences

Explain that during an IDR conference, the students will talk about their books and share whatever thoughts or feelings they have about them. Point out that an IDR conference is also a time when they can share how they feel about themselves as readers. Explain that by conferring with the students about their reading, you can learn about their strengths as readers and talk with them about how they can become even stronger readers.

3 Describe an IDR Conference

Tell the students that you will explain what happens during most IDR conferences; afterward, you will model conferring with a student volunteer. Briefly explain what happens during an IDR conference.

You might say:

"After all of you have chosen books and have begun reading silently, I will ask one student to bring his or her IDR book and confer with me. Let's say that I ask [Jamila] to confer with me. She and I will go to a quiet table where we can talk by ourselves. I'll start the conference by asking her to tell me about her book so far. I might also ask why she chose the book and whether or not she likes it. Then I might ask her to read a passage from the book aloud, I might read a passage aloud as she listens, or she and I might take turns reading aloud from her book. Finally, [Jamila] and I will talk about the passage and anything else she would like to share about her book."

Tell the students that during an IDR conference, you will write notes to help you remember what book the student is reading and what your discussion is about.

4 Model an IDR Conference and Discuss

Tell the students that now you will model an IDR conference. Choose a volunteer and ask her to get her IDR book and sit next to you. Ask the rest of the class to listen respectfully and notice what happens during the conference.

Confer with the student volunteer. As you confer, take notes using an “IDR Conference Notes” record sheet from the unit you are currently teaching (see “Do Ahead”) and refer to the “Resource Sheet for IDR Conferences” as necessary.

After the conference, thank the student volunteer. Ask and briefly discuss:

Q *What did you notice when [Jamila] and I were conferring about this book?*

Q *What questions do you have about IDR conferences?*

5 Discuss Expectations During IDR Conferences

Remind the students that while you are conferring with individual students, the rest of the class will be reading their books independently. Briefly review your expectations for the students during this time.

You might say:

“While I am conferring with a student, I expect you to read silently to yourself until I signal for you to stop reading. I also expect you to stay seated and to not walk around the classroom. Finally, please try not to interrupt me as I’m conferring with another student.”

Ask:

Q *What might you do if you have a question while I am conferring with another student?*

Students might say:

“If I have a question, I can quietly ask my partner.”

“I can write down my question so that I remember it for later.”

“I can ask you my question later.”

Q *What might you do if you are having problems with the book you’re reading or if you need a new book?*

Students might say:

“If I’m having problems with my book, I can quietly ask my partner.”

“I can reread the part of the book that is giving me problems.”

“I can choose another book at my reading level to read.”

Tell the students that they will practice reading independently while you confer with another student. Ask them to keep these expectations in mind as they read.

Teacher Note

Record your observations on an “IDR Conference Notes” record sheet and refer to the “Resource Sheet for IDR Conferences” as necessary.

6 Practice Reading Independently and Reflect

Have the students get their IDR books and begin reading independently. After the students have settled into their reading, select a student to confer with.

After you have completed the conference, signal for the students’ attention. Facilitate a brief discussion about how the students acted responsibly while you were conferring. Ask questions such as:

- Q *What did we do well when we read independently?*
- Q *What can we do to make sure independent reading and IDR conferences go smoothly?*

Mini-lesson 4

Reading with Expression

DO AHEAD

- ✓ Consider pairing your English Language Learners with native English speakers during this lesson, and think in advance about which students to pair.
- ✓ During this lesson, you will model reading aloud “Excerpt from *Something to Remember Me By*” chart (WA1). Practice reading the excerpt both with and without expression and attention to the characters’ emotions (see Step 3).
- ✓ Visit the CCC Learning Hub (ccclearninghub.org) to access and print a class set of “Excerpt from *Something to Remember Me By*” (BLM1).
- ✓ Collect a variety of fiction books at various levels that the students can use to practice reading with expression (see Step 6).

Materials

- *Something to Remember Me By* from Unit 1
- “Excerpt from *Something to Remember Me By*” chart (WA1)
- Class set of “Excerpt from *Something to Remember Me By*” (BLM1)

In this lesson, the students:

- Hear part of a familiar book read aloud fluently
- Discuss how paying attention to characters’ personalities and emotions helps them read fluently
- Practice reading aloud with expression and attention to characters’ personalities and emotions
- Work responsibly in pairs
- Reflect on the importance of reading fluently

ABOUT READING FLUENCY

Fluency is the ability to read text accurately, automatically, and with expression. Students who read fluently have made the leap from word-by-word processing of text to smoother, more natural-sounding reading (when reading aloud and when reading silently to themselves). When students read fluently, they are able to focus on the meaning of what they are reading rather than on reading individual words.

Instruction in strategies for building fluency such as automatic word recognition, meaningful phrasing, pausing for punctuation, and reading with expression can support comprehension and boost students' motivation to read. Fluency instruction is most effective when students are given many opportunities to read and reread texts at an appropriate reading level. Echo and choral reading, partner reading, and presentation/performance experiences (such as Readers' Theater and dramatic reading) offer meaningful ways for the students to interact with texts and develop fluency.

1 Review *Something to Remember Me By*

Gather the class with partners sitting together, facing you. Show the cover of *Something to Remember Me By* and read the title and the names of the author and the illustrator aloud. Remind the students that they heard this book earlier. Page through the book, showing the illustrations to help the students recall the story. Ask and briefly discuss:

Q *What do you remember about this book?*

Students might say:

"It's about a girl and her grandmother. They love each other very much."

"When the girl is little, she goes to visit her grandmother a lot. The grandmother always gives her something when she visits—she tells her granddaughter that it's 'something to remember her by.'"

"When the girl is grown-up, the grandmother is very old and doesn't remember things as well as she used to. But she still loves her granddaughter, and her granddaughter loves her."

"Even after the grandmother has passed away, the girl still loves and remembers her. She has all of the gifts her grandmother gave her, too."

If necessary, briefly review the story. Tell the students that today you will read part of *Something to Remember Me By* aloud and that you would like them to listen carefully to how you read the words of the story.

2 Introduce the Excerpt

Show pages 20–22 of the book and explain that this is the part of the story in which the granddaughter is helping the grandmother move out of her house. Display the "Excerpt from *Something to Remember Me By*"

Teacher Note

You might teach this lesson in multiple sessions, teaching Steps 1–4 during the first session and Steps 5–6 at another time.

chart (C WA1), and tell the students that this is an excerpt from the pages of the story you just showed them.

Explain that you will read the excerpt aloud in two different ways. Ask the students to listen carefully as you read and to think about what they notice during your first reading and what they notice during your second reading.

3 Read the Excerpt With and Without Expression and Discuss

Read the excerpt aloud twice. The first time you read, read expressively and let your voice reflect the characters' personalities and emotions. The second time you read, do not read expressively.

After you have read the excerpt aloud twice, ask:

Q *What did you notice about the two ways I read the excerpt?*

Students might say:

"The first time you read it, it was more exciting."

"The first time, you made your voice sound worried when the grandmother was talking."

"I noticed that you made the granddaughter sound different from the grandmother the first time you read."

"The second time, I noticed that you read all the words the same way. It wasn't as interesting. It also wasn't as easy to understand what was happening."

Tell the students that the first time you read, you paid attention to the characters' personalities (what they are like as people) and their emotions (feelings).

Direct the students' attention to the "Excerpt from *Something to Remember Me By*" chart. Point to the sentences "'I'm worried,' said the grandmother. 'I'm forgetting too many things.'" Explain that in this part of the story, the grandmother is quite old, and something is worrying her, so you read these sentences in a voice that sounded old and that expressed her worry about losing her memory.

Point to the sentence "'Everyone forgets things,' responded her granddaughter reassuringly." Explain that in this part of the story, the granddaughter is trying to make her grandmother feel better, so you made your voice sound comforting and loving. Tell the students that when you pay attention to the characters' emotions and personalities and express them in your reading, we say you are reading with *expression*, or feeling.

Explain that reading with expression helps you read fluently. When you read *fluently*, you read in a way that makes a story interesting and easy for listeners to understand. Tell the students that fluent readers use

their voices to show the personality of a character, or what the character is like, and how he or she is feeling.

Point out that during your second reading of the excerpt, you did not read with expression, which made the excerpt less interesting and more difficult for listeners to understand.

4 Reread the Excerpt with Stops and Discuss

Direct the students' attention back to the "Excerpt from *Something to Remember Me By*" chart. Tell the students that you will reread the excerpt and that you will stop twice during the reading to discuss what the students noticed about the way you read the excerpt. Ask them to follow along as they listen and to think about the grandmother's and granddaughter's personalities and how they are feeling. Read the excerpt aloud expressively, letting your voice reflect the characters' personalities and emotions as you read and stopping as described below.

Stop after:

"'But,' said the grandmother softly, 'I'm scared that . . . that I'm going to forget you.'"

Ask and briefly discuss:

Q *How do you think the grandmother is feeling in this part of the excerpt? How did the way I read the words help you know that?*

Students might say:

"I think the grandmother is feeling scared. Not being able to remember her granddaughter is her biggest fear. You made your voice sound afraid when you read the grandmother's words."

"In addition to what [Devan] said, you made your voice sound sad, too. The grandmother loves her granddaughter so much, and the idea of not remembering her makes the grandmother sad. I could hear that in your reading."

Reread the last line before the stop and continue reading the excerpt.

Stop after:

"'Something to remember me by,' said the young woman as she handed the photograph to her grandmother."

Ask and briefly discuss:

Q *How do you think the granddaughter is feeling in this part of the excerpt? How did the way I read the words help you know that?*

Students might say:

"I think she is trying to show her grandmother how much she loves her. You read the words in a voice that sounded like the granddaughter is trying to make her grandmother feel better."

"I think the granddaughter also feels a little bit sad. The way you read the words made me think that."

Teacher Note

You might explain that fluent readers also use punctuation marks and typography to help them read expressively. Point out the sentence “I’m scared that . . . that I’m going to forget *you*’” and note the ellipsis. Explain that these dots that look like three periods in a row are called an *ellipsis*, and that an ellipsis tells readers to pause a bit longer and that more of the sentence is coming. Then point out the use of italics in the word *you*. Explain that the author uses italics to suggest to readers that this word should be read with greater emphasis. You might also explain that fluent readers pay attention to punctuation such as exclamation points and question marks. They put emotion, such as excitement, anger, or fear, into their voices when they read a sentence that ends with an exclamation point, and they read a sentence that ends with a question mark as though they are actually asking a question.

Teacher Note

If your students have experience with partner reading, you might consider skipping the modeling in this step.

Review that you read the excerpt with expression—using your voice to express the characters’ personalities and how they are feeling. Point out that you paid attention to the words in the excerpt that describe how the characters speak, such as *reassuringly* and *softly*, and that you used those words to make your reading expressive. Underline *reassuringly* and *softly* on the chart.

Review that when fluent readers read aloud to others or to themselves, they use their voices to express the characters’ personalities and how they are feeling. Tell the students that reading fluently is important because it helps readers better understand and enjoy books.

5 Model Partner Reading and Have the Students Practice Reading with Expression

Distribute a copy of “Excerpt from *Something to Remember Me By*” (BLM1) to each student. Explain that the students will take turns reading the excerpt aloud to each other in pairs.

Ask the students to watch and listen as you model reading with a partner. Choose a volunteer to be your partner and ask him to sit next to you. Tell the students that you will read the first four paragraphs of the excerpt aloud with expression and that your partner will follow along on his copy of the excerpt and listen carefully. Then have your partner read the same part of the excerpt aloud as you follow along and listen carefully.

Point out that you and your partner read aloud slowly and clearly, followed along with the words in the excerpt, and listened carefully. Remind the students to pay attention to what the characters are like and how they are feeling to help them read expressively.

Have partners take turns reading the entire excerpt aloud to each other. Circulate and assist students as needed. After partners have taken turns reading the excerpt, ask and briefly discuss:

Q *What did you notice about your reading when you read the excerpt with expression?*

Students might say:

“I slowed down because I was paying more attention to the characters’ feelings and thinking about how to express them in my reading.”

“As I read, I changed my voice so that what the granddaughter says sounded different from what her grandmother says.”

Q *What did you notice about how your partner read?*

Students might say:

"When my partner was reading, I could really tell the difference between the characters."

"I noticed that her reading was fun to listen to. I liked it."

If time permits, you might invite a few volunteers to read the excerpt aloud to the class.

6 Read IDR Books with Expression and Discuss

Have the students get their IDR books and sit with their partners. Ask each student to take a few minutes to look through his book and find one or two pages in which a character is feeling happy, sad, angry, curious, confused, or another emotion. Then have the students read their chosen pages silently, paying attention to the characters' feelings and personalities. Circulate and assist students as needed.

After a few minutes, signal for the students' attention. Have partners take turns reading their pages aloud to each other with expression. Ask the students to read in voices that are loud enough for them and their partners to hear, but not so loud that their classmates cannot hear themselves read.

After partners read their pages aloud to each other, ask and briefly discuss:

Q *What did you like about hearing your partner read his or her book with expression?*

Students might say:

"I liked the way my partner changed his voice to make the character sound very happy when he was reading."

"I liked it when my partner used different voices for each character's words."

"I liked it because it made the book sound more interesting. It helped me understand how the character feels."

Remind the students that reading with expression is part of becoming a fluent reader. Review that reading fluently is important because it helps readers better understand and enjoy books.

Encourage the students to practice reading with expression when they read during IDR or any time they are reading.

Teacher Note

If a student does not have a fiction IDR book, allow her to select one from the fiction books you collected in advance.

DO AHEAD

- ✓ Consider pairing English Language Learners with native English speakers during this lesson, and think in advance about which students to pair.
- ✓ During this lesson, you will use the “Excerpt from *Rainforests*” chart (WA2) to model reading aloud. Practice reading the excerpt aloud both with and without meaningful phrasing and attention to the natural rise and fall of your voice (see Step 3).
- ✓ During this lesson, you will use the “Excerpt from *Rainforests*” chart (WA2) to model chunking, marking it up to indicate how you might read it aloud with meaningful phrasing. Think in advance about how you will mark up the excerpt (see Step 4).
- ✓ Visit the CCC Learning Hub (ccclearninghub.org) to access and print a class set of “Excerpt from *Rainforests*” (BLM2).
- ✓ Collect a variety of nonfiction books at various levels that the students can use to practice reading in meaningful phrases (see Step 7).

Materials

- *Rainforests* from Unit 2
- “Excerpt from *Rainforests*” chart (WA2)
- Class set of “Excerpt from *Rainforests*” (BLM2)

In this lesson, the students:

- Hear part of a familiar nonfiction book read aloud fluently
- Discuss how grouping words into meaningful phrases helps them read fluently
- Practice reading aloud in meaningful phrases
- Work responsibly in pairs
- Reflect on the importance of reading fluently

ABOUT READING FLUENCY

Fluency is the ability to read text accurately, automatically, and with expression. Students who read fluently have made the leap from word-by-word processing of text to smoother, more natural-sounding reading (when reading aloud and when reading silently to themselves). When students read fluently, they are able to focus on the meaning of what they are reading rather than on reading individual words.

Instruction in strategies for building fluency, such as automatic word recognition, meaningful phrasing, pausing for punctuation, and reading with expression, can support comprehension and boost students' motivation to read. Fluency instruction is most effective when students are given many opportunities to read and reread texts at an appropriate reading level. Echo and choral reading, partner reading, and presentation/performance experiences (such as Readers' Theater and dramatic reading) offer meaningful ways for the students to interact with texts and develop fluency.

1 Review *Rainforests*

Gather the class with partners sitting together, facing you. Show the cover of *Rainforests* and read the title and the name of the author aloud. Remind the students that they heard this nonfiction book earlier. Page through the book, and show the photographs and illustrations to help the students recall what they learned. Ask and briefly discuss:

Q *What do you remember about this book?*

Students might say:

"It's all about rainforests and the plants and animals that live there."

"I remember learning that rainforests stay green all year. They get a lot of rain. The trees and other plants grow very tall."

"In addition to what [Hyo] said, I remember seeing photographs of different animals and insects that live in the rainforest, such as butterflies, monkeys, and lizards."

"I remember learning that many of the world's rainforests are in South America."

If necessary, briefly review the book. Tell the students that today you will read part of *Rainforests* aloud and that you would like them to listen carefully to how you read the words in the book.

2 Introduce the Excerpt

Show pages 4–5 of the book, and tell the students that this section explains what a rainforest is. Display the "Excerpt from *Rainforests*" chart (WA2), and point out that this is an excerpt from the page of the book you just showed them.

Explain that you will read the excerpt aloud in two different ways. Ask the students to listen carefully as you read and to think about what they notice during your first reading and what they notice during your second reading.

Teacher Note

You might teach this lesson in multiple sessions, teaching Steps 1–5 during the first session and Steps 6–7 at another time.

TEKS 4.A.i
Student/Teacher Narrative
Step 3 and first Teacher Note on p. 718

Teacher Note

Students who do not read fluently may use rushed or halted phrasing. Having the students hear and discuss examples of proper and improper phrasing helps build their awareness of what fluent reading sounds like.

TEKS 4.A.iii
Student/Teacher Narrative
Steps 3 and 4

Teacher Note

We suggest using single slash marks to indicate shorter pauses that occur mid-sentence and double slash marks to indicate longer pauses at the end of sentences.

3 Read the Excerpt With and Without Attention to Phrasing and Discuss

Read the excerpt aloud twice. The first time you read, read smoothly, grouping words into logical, meaningful phrases and allowing the natural rise and fall of your voice to reflect the phrasing.

The second time you read, group words and phrases in ways that are illogical and unnatural, and read in a choppy manner, rushing some words and phrases while reading others in a halting, word-by-word fashion. Keep the pitch of your voice relatively flat.

After you have read the excerpt aloud twice, ask:

Q *What did you notice about the two ways I read the excerpt?*

Students might say:

"The first time, your reading sounded smooth. It was easy to understand, like you were talking to us."

"The second time, you kept stopping in places that sounded strange. Sometimes you read the words too fast."

"I agree with [Jada]. The second time, you kept starting and stopping in weird places."

"The second time, I couldn't understand what you were reading."

Tell the students that the first time you read the excerpt, you grouped words together into phrases that made sense in the excerpt and that sounded natural, as if you were talking. Explain that grouping words together into meaningful phrases when you read is called *chunking* and that this is something fluent readers do. Tell the students that chunking can make their reading smoother, more natural sounding (like speech), and easier for readers to understand.

Point out that during your second reading, you did not think about chunking, or grouping, words into meaningful phrases; instead, you focused on just one word at a time and did not think about its meaning in the excerpt as you read. Explain that this made your reading less fluent—or slow and choppy in some parts of the excerpt and rushed in other parts. It also made your reading more difficult for listeners to understand.

4 Model Chunking the Excerpt

Direct the students' attention back to the "Excerpt from *Rainforests*" chart. Tell them that you will think aloud and model chunking the excerpt so that it makes sense and sounds natural when you read it aloud. Explain that as you read, you will insert slashes to show which groups of words you might chunk into meaningful phrases.

You might say:

"I will read the first sentence aloud and think about how to chunk it in a way that makes sense and sounds natural, as if I were talking. I'll put a single slash after the comma because I pause there. Since this pause is very short, I used just one slash. I'll put double slash marks at the end of the sentence, after the period, because that's where I pause for long enough to let listeners know that the sentence has ended. Now I'll read the sentence aloud: 'Rainforests are thick,/ lush forests with trees that stay green all year round./.' The first part of the sentence sounds right, but I notice that I pause very, very briefly before the phrase *all year round*. I'll try adding a single slash there and then reread the sentence: 'Rainforests are thick,/ lush forests with trees that stay green/ all year round./.' Yes, that sounds more natural to me.

Now I'll read the next sentence aloud and think about chunking it in a way that makes sense. I'll begin by reading it as one big chunk: 'All rainforests have a lot of rain and are very damp./.' But listening to myself read, I notice that I actually pause very briefly after the word *rain*. I'll put a single slash after *rain* and try reading the sentence again: 'All rainforests have a lot of rain/ and are very damp./.' Now the sentence sounds better and more natural to me.

I'll try chunking the next sentence like this: 'Tropical rainforests/ grow in areas/ of the world called the tropics, where it is also very warm./.' I don't think that sounds natural. The first half of the sentence sounds choppy, and the second half sounds rushed. I don't need all those pauses in the first half, and I think I'll try paying more attention to the comma in the second half. I'll chunk the sentence differently this time and use the comma as a clue: 'Tropical rainforests grow in areas of the world called the tropics,/ where it is also very warm./.' That sounds better to me, and I think reading the sentence like that makes it easier for listeners to understand."

Continue thinking aloud and modeling to the end of the excerpt. As you model, invite volunteers to suggest ways to chunk sentences and discuss their thinking with the class.

5 Reread the Excerpt with Attention to Phrasing and Discuss

Tell the students that you will reread the chunked excerpt fluently. Ask them to follow along as they listen and to think about what they notice about your reading.

Reread the marked-up "Excerpt from *Rainforests*" chart fluently, attending to phrasing and allowing the natural rise and fall of your voice to reflect the phrasing.

Ask and briefly discuss:

Q *What did you notice about the chunked words on the chart?*

TEKS 4.A.iii
Student/Teacher Activity
Steps 5 and 6

Teacher Note

To ensure that your reading sounds natural and fluent, we suggest that you do not over-emphasize the brief (single-slash) pauses that occur mid-sentence and do not coincide with commas. Instead, use the natural rise and fall of your voice to subtly indicate these very short pauses.

Teacher Note

You might point out that you changed your voice, letting it go slightly up or slightly down, as you read the chunked words. Tell the students that this is something fluent readers often do and that it is part of what makes their reading sound natural, like speech. Encourage the students to experiment with changing the pitch of their voices as they read aloud later in the lesson.

Teacher Note

If your students have experience with partner reading, you might consider skipping the modeling in this step.

TEKS 4.A.i

Student/Teacher Activity
Steps 6 and 7

Students might say:

"I noticed that some chunks were short and only had a few words. Other chunks were longer."
"I noticed that whenever there is a comma or a period, there is a slash."

If necessary, point out that some chunks have just a few words while other chunks have more words. Explain that the length of each chunk depends on the meaning of the words, whether the words sound natural when they are chunked together, and the presence of punctuation, such as commas and periods. Then ask:

Q *What did you notice about my voice as I read?*

Students might say:

"Your reading sounded like you were talking."
"I noticed that you paused when you reached a slash. When you reached a double slash mark, you paused longer."
"I noticed that when you got to the end of a chunk, you stopped for a second. Sometimes your voice got lower at the end of a chunk."

Explain that when fluent readers read aloud, they may try chunking a sentence in several different ways and then ask themselves which way makes sense and sounds the most like regular speech.

6 Model Partner Reading and Have the Students Practice Reading with Attention to Phrasing

Distribute a copy of "Excerpt from *Rainforests*" (BLM2) to each student. Tell the students that they will take turns reading the excerpt aloud to each other in pairs.

Ask the students to watch and listen as you model reading with a partner. Choose a volunteer to be your partner and ask him to sit next to you. Tell the students that you will read the first three sentences of the excerpt fluently, grouping the words into meaningful phrases, and that your partner will follow along on his copy of the excerpt and listen carefully. Then have your partner read the same sentences aloud as you follow along and listen carefully.

Point out that you and your partner read aloud slowly and clearly, followed along with the words in the excerpt, and listened carefully. Remind the students to pay attention to how they and their partners group the words into meaningful phrases or chunks.

Have partners take turns reading the entire excerpt aloud to each other. Circulate and assist students as needed. After partners have taken turns reading the excerpt aloud to each other, ask and briefly discuss:

Q *What did you notice about your reading when you grouped the words into chunks?*

Students might say:

"I noticed that my reading sounded smoother."

"As I read, I tried to think about how to chunk words in ways that made sense and sounded like talking."

"I let my voice go up and down as I read, and it sounded better."

"I noticed that I didn't rush through my reading. I slowed down, and it sounded better."

Q *What did you notice about how your partner read?*

Students might say:

"When my partner was reading, I could really understand what was happening in the story."

"I noticed that her reading was easy to listen to. I liked it."

If time permits, you might invite a few volunteers to read the excerpt aloud to the class.

7 Read IDR Books with Attention to Phrasing and Discuss

Have the students get their IDR books and sit with their partners. Ask each student to take a few minutes to look through his book and find a passage he is interested in reading. Then have the students read their chosen pages silently, paying attention to how they might chunk the words into meaningful phrases. Circulate and assist students as needed.

After a few minutes, signal for the students' attention. Have partners take turns reading their pages aloud to each other, chunking the text as they read. Ask the students to read in voices that are loud enough for them and their partners to hear, but not so loud that their classmates cannot hear themselves read. Tell partners to listen carefully to each other because you will ask them to share what they noticed with the class.

After partners read their pages aloud to each other, ask and briefly discuss:

Q *What did you notice when you were reading and chunking the words into meaningful phrases?*

Q *What did you notice about how your partner read?*

Remind the students that chunking, or grouping words into meaningful phrases when they read, is part of becoming a fluent reader. Review that reading fluently is important because it helps readers better understand and enjoy books.

Encourage the students to practice chunking when they read during IDR or any time they are reading.

Teacher Note

If a student does not have a nonfiction IDR book, allow her to select one from the nonfiction books you collected in advance.

Materials

- “What’s Your Dream Job?” chart (WA3)
- Class set of “What’s Your Dream Job?” (BLM3)
- “Word-analysis Strategies” chart, prepared ahead, and a marker

DO AHEAD

- ✓ Visit the CCC Learning Hub (cclearninghub.org) to access and print a class set of “What’s Your Dream Job?” (BLM3).
- ✓ Prepare a sheet of chart paper with the title “Word-analysis Strategies.” See Step 3.

In this lesson, the students:

- Learn word-analysis strategies to figure out the meanings of unfamiliar words
- Practice word-analysis strategies during IDR
- Reflect on using word-analysis strategies

ABOUT WORD-ANALYSIS STRATEGIES

During this lesson, the students are introduced to word-analysis strategies they might use to help them determine the meanings of unfamiliar words when reading independently. At grade 5, the lesson focuses on using a known prefix or suffix and base word, using known Greek or Latin roots, and using context clues to verify that a meaning makes sense. If you have introduced your students to word-analysis strategies during small-group reading instruction that are different from those suggested here, you can adapt this lesson to reflect your earlier instruction.

1 Introduce Using Word-analysis Strategies

Gather the class with partners sitting together, facing you. Remind the students that they are reading books independently during IDR to help them become stronger readers.

Tell the students that while they are reading independently, they might come across *unfamiliar* words, or words whose meanings they do not know. Explain that today the students will learn strategies to help them *analyze*, or carefully study, unfamiliar words to figure out their meanings.

2 Model Identifying Prefixes, Suffixes, and Base Words

Display the “What’s Your Dream Job?” chart (WA3), and distribute a copy of “What’s Your Dream Job?” (BLM3) to each student. Read the title aloud and explain that in this passage, a young writer expresses her thoughts and opinions. Tell the students that you will read the passage aloud. Ask them to follow along as you read and to notice what you do when you come to unfamiliar words in the passage.

Read the first paragraph of “What’s Your Dream Job?” aloud slowly and clearly. Pause when you come to the word *questioner* and circle it on the chart. Model figuring out its meaning by identifying a known suffix and base word.

You might say:

“Here’s an unfamiliar word. What can I do to figure out what it means? I’ll begin by looking carefully to see if I recognize any parts of the word. Yes, this word has an ending I recognize: *-er*. This is a *suffix*, a letter or group of letters that is added to the end of a word to make another word. I know that the suffix *-er* can mean ‘a person who.’ Do I recognize any other parts of the word? Looking again, I see that the remaining part is actually the word *question*. So this unfamiliar word is the word *question* combined with the suffix *-er*, to make the word *questioner*, which means ‘a person who questions, or who asks questions.’ Does that meaning make sense in the passage? I’ll reread to see if it does. Yes, it makes sense because the writer used to get annoyed at the people who asked her the question, ‘What do you want to do when you grow up?’ Those people are the questioners.”

Continue reading the first paragraph. Pause when you come to the word *disbelief* and circle it on the chart. Model figuring out its meaning by identifying a known prefix and base word.

You might say:

“Here’s another unfamiliar word. I’ll look carefully at it to see if I recognize any parts of the word. First I notice the letters *dis-* at the beginning. These letters form a *prefix*, a letter or group of letters added to the beginning of a word to make another word. I know the prefix *dis-* can mean ‘not’ or ‘the opposite of.’ Do I recognize any other parts of the word? Yes, I recognize *belief*. If you have a *belief*, you believe something—you accept that something is real or true. So I think *disbelief* probably has the opposite meaning: it’s when you can’t accept something as being real or true. Does that make sense when I reread the paragraph? Yes, because the writer couldn’t believe that people would ask her such a silly question. She’d shrug her shoulders and look at them in disbelief.”

Teacher Note

You might teach this lesson in multiple sessions, teaching Steps 2 and 3 and allowing the students to practice those strategies during the first session, and then teaching the remaining steps of the lesson at another time.

Teacher Note

You might tell the students that when the suffix *-er* is being used to compare two or more things (for example the word *older* in the second sentence of the passage), the suffix *-er* means “more.”

Read the rest of the first paragraph and continue on to the second and third paragraphs. Pause when you come to the words *disagree* (in the second paragraph) and *entertainer* (in the third paragraph) and circle them on the chart. Model figuring out the meaning of each word by identifying a known prefix or suffix and base word.

You might say:

"Here's another unfamiliar word: *disagree*. I'll look carefully at it to see if I recognize any parts of the word. First I notice the prefix *dis-*, which means 'not' or 'the opposite of.' Then, looking at the rest of the word, I recognize *agree*. When you agree with someone, you think the same thing as he does, and so I think that *disagree* must mean 'not agree' or 'to think the opposite of what someone else thinks.' Does that make sense when I reread the sentence? Yes, because the writer says that some readers may have an opinion that's different from hers.

This word is unfamiliar to me, too: *entertainer*. Do I recognize any parts of the word? I notice the suffix *-er*, which can mean 'a person who.' Then, looking at the rest of the word, I recognize *entertain*, which means 'to give enjoyment.' So I think that an entertainer is 'a person who entertains, or who gives enjoyment to others.' Does that make sense when I reread the sentence? Yes, because singing, dancing, and telling jokes are all things that people do to entertain other people. Someone who does these things as a job would be an entertainer."

Follow the same procedure to model figuring out the meaning of the word *reporter* in the last sentence of the third paragraph.

3 Discuss the Modeling and Introduce the "Word-analysis Strategies" Chart

After you have read the first three paragraphs, ask and discuss:

Q *What did I do to analyze the unfamiliar words and figure out their meanings? Turn to your partner.*

After partners have discussed the question, direct the students' attention to the "Word-analysis Strategies" chart and read the title aloud. Have a few volunteers share their thinking with the class.

Students might say:

"First, you looked carefully at each word. You asked yourself if you recognized any parts of the word."

"When you looked at *questioner*, the first part you recognized was the suffix *-er*. When you looked at *disbelief*, you recognized the prefix *dis-*."

"You used the parts you recognized to figure out the unfamiliar word's meaning. Then you asked yourself if the meaning made sense in the sentence."

As the students share, record their responses on the chart. Be ready to paraphrase them so that your chart is similar to the example in the diagram below. If necessary, review the strategies you used to figure out the meanings of the unfamiliar words.

Word-analysis Strategies

Look carefully at the word. Ask yourself:

- Do I recognize any parts of the word?
- Look for a prefix or suffix you know.
- Look at the part of the word to which the prefix or suffix is added. Ask yourself: Is this part a word I recognize? Do I know its meaning?

- Use what you know about the parts of the word to figure out its meaning.
- After you have figured out the meaning of the word, reread the sentence(s). Ask yourself: Does the meaning make sense?

Teacher Note

If you are teaching the vocabulary lessons, you might remind the students of other prefixes and suffixes they have learned or vocabulary words that contain familiar base words.

Teacher Note

You will add an additional strategy to the chart in Step 4. Leave space in your chart to do this, as shown in the sample diagram.

4 Model Identifying Roots and Add to the Chart

Tell the students that you will continue reading the passage. Ask them to continue noticing what you do when you come to unfamiliar words.

Read the fourth and fifth paragraphs of “What’s Your Dream Job?” aloud. When you reach the words *memorable* (in the fourth paragraph) and *memoir* (in the fifth paragraph), point to them and tell the students that these words are unfamiliar to you. Circle them on the chart, and model figuring out the meaning of each word by identifying a known root.

You might say:

"This word is unfamiliar to me: *memorable*. As I did before, I'll look to see if I recognize any parts of the word. I recognize *memor*, which is a *root*—a word or part of a word that's used to make other words. I know that *memor* is a root that came to English from Latin, a language that was spoken by the people of ancient Rome. *Memor* means 'to remember.' I can use what I know about the meaning of this root, combined with clues from the surrounding sentences, to figure out what *memorable* means. The writer says that people who already have your dream job can give you memorable advice. Since *memor* means 'to remember,' I think that 'memorable advice' is advice that's worth remembering or keeping in mind. Does that make sense when I reread? Yes, I think so.

This word is unfamiliar to me, too: *memoir*. Do I recognize any parts of the word? I recognize another Latin root, *mem*, which is similar to *memor*. *Mem* means 'mind.' From clues in the surrounding sentences, I know that a memoir is a type of book. So I think a *memoir* is a book in which the author goes back into her mind to remember and describe her own life experiences. Does that make sense when I reread?

Yes, because the writer says that when you read a memoir, you are 'reading about someone's life in his or her own words.'"

After you have read the fifth paragraph, ask and briefly discuss:

Q *What did I do to figure out the meanings of memorable and memoir? Turn to your partner.*

After partners have discussed the question, direct the students' attention to the "Word-analysis Strategies" chart. Have a few volunteers share their thinking with the class.

Students might say:

"First you looked carefully at the word *memorable* to see if you recognized any parts of it."

"You recognized a root, *memor*. You knew the meaning of *memor* was 'to remember.'"

"You used the meaning of *memor* and clues in the passage to figure out the meaning of *memorable*."

"After you figured out the meaning, you asked yourself if it made sense in the passage, and it did."

Using the students' responses, add a strategy about recognizing roots to the chart. Be ready to paraphrase so that your chart is similar to the example in the diagram on the next page.

Teacher Note

If you are teaching the vocabulary lessons, you might remind the students of other Greek or Latin roots they have learned.

Word-analysis Strategies

Look carefully at the word. Ask yourself:

- Do I recognize any parts of the word?
- Look for a prefix or suffix you know.
- Look at the part of the word to which the prefix or suffix is added. Ask yourself: Is this part a word I recognize? Do I know its meaning?
- Ask yourself: Does this word contain a root? Do I know its meaning?
- Use what you know about the parts of the word to figure out its meaning.
- After you have figured out the meaning of the word, reread the sentence(s). Ask yourself: Does the meaning make sense?

Briefly review the chart, pointing to each strategy as you read it. Remind the students that these are things they can do to figure out words they do not know when they are reading independently.

5 Have Partners Practice the Strategies

Tell the students that now partners will read the last two paragraphs of the passage together using their copies of “What’s Your Dream Job?” (BLM3). Remind the students that if they come across an unfamiliar word, they can use the ideas on the “Word-analysis Strategies” chart to figure out its meaning.

Give partners a few minutes to read and discuss the last two paragraphs. Circulate and observe, assisting students as needed.

Teacher Note

If the students do not identify any unfamiliar words, point to and circle the word *dislike* on the chart. Ask and briefly discuss, “What might you do if you come to this word and you don’t know what it means?” In the same way, you might discuss some of the following words and phrases in the final paragraphs: *photographer*, *park ranger*, *remember*, *discontented*, *fullest*, *memories*, *sooner* or *later*.

When most students are finished, signal for their attention. Have one or two volunteers take turns reading the final paragraphs aloud. Then discuss as a class:

- Q *Did you and your partner come across an unfamiliar word? If so, what was the word?*
- Q *What did you do to figure out the meaning of the word?*

Students might say:

“We looked carefully at the word to see if we recognized any parts of it.”

“We looked for a prefix or suffix to see if we could find one that we recognized. We noticed the prefix *dis-* in the word *dislike* and the suffix *-er* in *photographer*.”

“Recognizing the root *mem* in the word *memories* helped us figure out the word’s meaning. Then we reread the sentence to make sure the meaning made sense.”

As volunteers share, point out the strategies they used on the “Word-analysis Strategies” chart.

6 Practice Using Word-analysis Strategies During IDR

Ask the students to get their IDR books and find places to sit. Explain that they will read quietly for a few minutes. Encourage the students to use the strategies on the chart to help them figure out the meanings of unfamiliar words in their books. Explain that later they will have a chance to share any strategies they used with the class.

Have the students read their IDR books quietly for a few minutes. Circulate and assist students as needed.

7 Reflect on Using Word-analysis Strategies

Signal for the students’ attention. Ask and briefly discuss:

- Q *Were there any words in your book that were unfamiliar to you? What did you do to figure out their meanings?*

Tell the students that using word-analysis strategies to figure out the meanings of unfamiliar words will help them become stronger readers and better understand and enjoy books.

Tell the students that they can refer to the “Word-analysis Strategies” chart when they read during IDR or any time they are reading.

Appendix B

TECHNOLOGY MINI-LESSONS

Navigating Safely Online

Mini-lesson 1

DO AHEAD

- ✓ Visit the CCC Learning Hub (ccclearninghub.org) to access and print the digital citizenship family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ Prepare a sheet of chart paper with the title “Our Digital Citizenship Contract” and the class rules for staying safe online (see Step 4).
- ✓ Find out if your school has an acceptable use policy that the students and their families need to sign before the students can use computers. Be prepared to review the policy with the students in Step 4.
- ✓ (Optional) You might set up a class website and create an online version of the “Our Digital Citizenship Contract” chart and other useful lists or information.

In this lesson, the students:

- Work in pairs
- Learn and use the term *digital citizen*
- Compare staying safe online to staying safe in the real world
- Reflect on class rules for staying safe online

ABOUT DIGITAL CITIZENSHIP LESSONS

In Technology Mini-lessons 1-3, the students think about and discuss how to use the Internet in safe, secure, and respectful ways. The lessons culminate in the students signing “Our Digital Citizenship Contract,” which lists rules and agreements for responsible online behavior at school. After each lesson, the students are encouraged to share what they learned with their families and to create similar rules and agreements for online behavior when not at school. If possible, plan to teach all three digital citizenship lessons in order before the students do projects that involve online work.

Materials

- “Our Digital Citizenship Contract” chart, prepared ahead, and a marker
- Copy of the digital citizenship family letter (BLM1) for each student

1 Gather and Discuss Going Online

Gather the class with partners sitting together, facing you. If possible, have current *Making Meaning* partners work together. Tell the students that during the school year, they will have opportunities to use the Internet in various ways. Remind them that the Internet is a worldwide network of computers that millions of people use every day to search for information, visit websites, and send e-mail. Using the Internet, or going online, connects the students to the world and allows them to find interesting facts and information. Ask and briefly discuss:

Q *What kinds of things do you like to do online?*

2 Introduce Digital Citizenship

Tell the students that just as they need to be responsible citizens in real life by following rules and treating people well, they also need to be responsible citizens when they are online. When they go online to connect with people or to find information, they are participating in a kind of community. Being responsible and making good choices in this community is known as being a *good digital citizen*. Tell the students that one way to be a good digital citizen is to follow certain online safety rules.

3 Compare Staying Safe Online to Staying Safe in the Real World

Explain that staying safe when going online can be similar to staying safe in the real world. Ask the students to listen as you describe the following scenario aloud:

“Karla wants to meet some friends at the neighborhood pool. She lives very close to the pool and knows how to get there, so she asks for permission to walk there on her own. Her mom says yes and reminds her to stay safe and be careful.”

Point out that Karla asks for permission before she walks to the pool. This helps her stay safe because her mom knows where she is going. Ask and briefly discuss:

Q *What might Karla do to stay safe while walking to the pool? How will that keep her safe?*

Students might say:

"She should stay on the sidewalks and cross only at crosswalks."

"Karla should only go where she told her mom she was going. That way her mom will know where she is if she needs to find her."

Then use "Think, Pair, Share" to discuss:

Q *How might going online be similar to going for a walk in your neighborhood?* [pause] *Turn to your partner.*

Have a few volunteers share their thinking.

Students might say:

"The Internet is such a big place—you have to know where you are going so you don't get lost."

"There are places on the Internet that aren't safe. You should only go where you have permission to go."

"You may meet people you don't know."

If the students do not mention it, point out that there are countless numbers of websites on the Internet, so it is important to know what to look for and what to avoid. Explain that just as it is important to know how to get to the neighborhood pool and how to be safe as you walk there, it is important to know which websites are safe to visit and which ones should be avoided. Just as you would not share private information with people you do not know on a walk to the neighborhood pool, it is important that you do not share private information with people you do not know online. Point out that just as you would tell an adult if you noticed anything suspicious on a walk, it is important to tell an adult if you notice anything suspicious online. It is also important to ask for help whenever you need it.

4 Introduce Class Rules for Staying Safe Online

Explain that this year the students will have opportunities to go online at school and that today they will discuss the rules they need to follow to stay safe. Post the chart titled "Our Digital Citizenship Contract" where everyone can see it, and read each rule to the class.

Teacher Note

You may want to give the students specific examples of ways they will use the Internet at school this year.

Teacher Note

You may want to explain that *downloading* means “copying files, games, or applications from the Internet onto your computer, tablet, or smartphone.”

Teacher Note

If your school has an acceptable use policy that students and their families need to sign before the students can use the computers, review it with the students and confirm that the settings on the search engines on your school’s computers are set to “Strict,” “Safe,” or a comparable mode.

Teacher Note

Save the “Our Digital Citizenship Contract” chart to use in Technology Mini-lesson 2. If you have not already done so, you might set up a class website (see “Do Ahead”) and create an online version of the chart.

Our Digital Citizenship Contract

We will get permission before going online.

We will ask the teacher or a responsible adult before going to an unknown website.

We will ask the teacher or a responsible adult for help if we come across any information that is confusing or makes us uncomfortable.

We will ask the teacher or a responsible adult before downloading anything from the Internet.

We will ignore advertisements and pop-ups.

We will leave computer and search settings alone.

We will follow all school computer rules.

5 Reflect on Online Safety Rules

Use “Think, Pair, Share” to have the students discuss how the rules will help keep them safe online by asking questions such as:

Q *Why do you think [leaving the computer search settings alone] is important? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class.

Students might say:

“If you change the search settings, then you might find websites that aren’t safe or right for kids.”

“It’s important to leave the search settings alone because they are set in ways that help us find the most helpful websites.”

“If you change the settings, you might not be able to find the same sites the next time you search.”

Then ask:

Q *What else might we do to stay safe online? Why do you think that?*

As the students share, add their ideas to the chart.

Explain that you would like the students to pledge, or promise, to follow these rules for staying safe online. Tell them that in coming lessons they will discuss other ways to be good digital citizens and add them to the chart.

6 Discuss Staying Safe Online When Not at School

Tell the students that you would like them to discuss with their families the rules for online safety they learned today, and encourage them to come up with similar rules for staying safe online when they are outside of school.

Plan to check in with the students throughout the year to discuss how they are doing with following the online safety rules.

Teacher Note

Send home with each student a copy of the digital citizenship family letter (BLM1).

Teacher Note

Have the class help you list ideas for favorite child-friendly websites on a sheet of chart paper. Post the list where everyone can see it, and add an online version to your class website. Give the students time to explore the websites on the list, and continue to add new ones throughout the year.

Maintaining Privacy Online

Mini-lesson 2

DO AHEAD

- ✓ Add the online privacy rules to the “Our Digital Citizenship Contract” chart (see Step 4). Cover the new rules with another sheet of paper until you introduce them in Step 4.

In this lesson, the students:

- Work in pairs
- Recognize when it is appropriate to share private information
- Reflect on class rules for online privacy

1 Review Staying Safe Online

Gather the class with partners sitting together, facing you. If possible, have current partners work together.

Remind the students that they have been thinking about what it means to be a good digital citizen. In the previous lesson, they learned that staying safe online is a lot like staying safe in the real world. Direct their attention to the “Our Digital Citizenship Contract” chart (with the

Materials

- “Our Digital Citizenship Contract” chart from Technology Mini-lesson 1 with privacy rules added, and a marker

Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 1).

Teacher Note

Keep the online privacy rules in the last three lines covered until you introduce them in Step 4.

Teacher Note

You might mention that in some cases it may be OK to share a *handle* or online nickname (e.g., “brightshadow” or “hamsterbunny”) if it does not reveal private information.

Remind the students that they should not choose handles and usernames that give away personal information, such as their real names, ages, or locations (e.g., “chloe94501” or “Audrey2006”).

Students should also choose passwords that are hard to guess. Many people choose passwords that are easy to remember, like “12345,” “password,” or their pet’s name—but these are easy for strangers to guess or figure out. Search online using the keywords “kid’s random password generator” or “kid’s username generator” to find free tools to create strong passwords and usernames.

privacy rules covered) and briefly review the safety rules the students have learned for using the Internet.

2 Introduce Maintaining Privacy Online

Tell the students that another way to be a good digital citizen is to follow certain online privacy rules, or rules for keeping private information safe. Explain that following these rules will help protect both themselves and their computers when they are online.

3 Discuss When to Share Private Information

Tell the students that the kind of information that is important to keep private online can be similar to the kind of information that is important to keep private in real life. Ask them to listen as you describe the following scenario:

“Tenzin is doing a research report about roller coasters, and he visits his neighborhood library to collect some books on the topic. He finds several books and sits at a table to look through them. Another boy sitting at the table asks Tenzin why all his books are about roller coasters. The two boys start talking about their favorite roller coasters and discover that they both like to play the same online roller coaster video game.”

Ask and briefly discuss:

- Q *Do you think it is appropriate (OK) for Tenzin to share the name of his favorite roller coasters with the boy at the table? Why?*
- Q *Imagine that Tenzin’s new friend asks him for his [video game password]. Do you think that would be appropriate? Why or why not?*

Students might say:

“I think it is fine for him to talk about roller coasters. They are talking about things they like.”

“Tenzin shouldn’t share his password. He doesn’t know the other boy.”

“I’d be suspicious if someone I didn’t know asked me for one of my passwords.”

Then use “Think, Pair, Share” to discuss questions such as:

-  Q *How is sharing [your favorite roller coaster] with someone you don’t know different from sharing [your password]? [pause] Turn to your partner.*
- Q *Do you think it is a good idea to share [your home address] with someone you don’t know? Why do you think that? [pause] Turn to your partner.*

Have a few volunteers share their thinking. Explain that contact information, such as your name, address, phone number, and e-mail address, and information such as computer passwords and usernames are *private*; they should be shared only with people you know and trust.

Explain that personal photos and videos are also private information. Tell the students that just as they do not share private information with people they do not know in real life, they should not share private information with people they do not know online.

4 Introduce Class Rules for Online Privacy

Ask and briefly discuss:

Q *Have you ever been asked to share information about yourself online? If yes, what kind of information?*

Students might say:

"A blog I like to read asks people to e-mail pictures of themselves."

"Some video game sites ask for my birthday."

"Sometimes I have to enter my name to get onto some kids' websites."

Tell the students that to protect themselves and their computers they should never share private information about themselves, their families and friends, or their computers when they are online. Explain that when they use the Internet at school, they will need to follow certain privacy rules. Direct their attention to the "Our Digital Citizenship Contract" chart and uncover the rules that you added to it.

Read each rule to the class.

Our Digital Citizenship Contract

We will get permission before going online.

We will ask the teacher or a responsible adult before going to an unknown website.

We will ask the teacher or a responsible adult for help if we come across any information that is confusing or makes us uncomfortable.

We will ask the teacher or a responsible adult before downloading anything from the Internet.

We will ignore advertisements and pop-ups.

We will leave computer and search settings alone.

We will follow all school computer rules.

(continues)

(continued)

We will keep personal contact information private.

We will keep sign-in information (such as usernames and passwords) private.

We will keep personal photos and videos private.

5 Reflect on Online Privacy Rules

Use “Think, Pair, Share” to discuss why each rule is important. Ask:

Q *Why do you think it’s important to [keep your contact information, passwords, and photos private] when online? [pause] Turn to your partner.*

Have a few volunteers share their thinking with the class.

Students might say:

“You should give your phone number or e-mail address only to people you would want to contact you. If you don’t want them to contact you, then you shouldn’t give them that information.”

“Giving someone your password is like giving them the keys to your house. It gives them access to all of your stuff.”

“You should know how someone will use the information you give them.”

Ask:

Q *What other privacy rules might we want to add to the chart? Why do you think that?*

As the students share, add their ideas to the chart.

Explain that you would like the students to pledge, or promise, to follow the online privacy rules, just as they did with the online safety rules. Remind them that agreeing to use the Internet in safe and secure ways will help them be good digital citizens. State your expectation that the students will try their best to act according to the rules on the contract when they are online at school.

6 Discuss Maintaining Online Privacy When Not at School

Tell the students that you would like them to discuss with their families the online privacy rules they learned today. Encourage them to come up with similar rules for maintaining privacy online outside of school. Plan to check in with the students throughout the year to discuss how they are doing with following the online privacy rules.

Teacher Note

Save the “Our Digital Citizenship Contract” chart to use in Technology Mini-lesson 3. If you have added the chart from Mini-lesson 1 to your class website, update it to include today’s new rules.

Showing Respect in Digital Communications

Mini-lesson 3

In this lesson, the students:

- Work in pairs
- Compare online interactions with face-to-face interactions
- Generate classroom agreements for showing respect in digital communications
- Copy and sign the “Our Digital Citizenship Contract”

1 Review Digital Citizenship

Gather the class with partners sitting together, facing you. If possible, have current partners work together.

Remind the students that they have been talking about how to stay safe and maintain privacy while using the Internet. Briefly review the “Our Digital Citizenship Contract” chart and ask:

Q *How can these rules help you stay safe and maintain privacy online?*

Tell the students that today they will talk about ways to show respect to one another in digital communications.

2 Discuss Being a Respectful Community Member

Remind the students that this year, they have been focusing on building a community in which they treat one another with respect, and point out ways you have observed them being respectful.

You might say:

“I’ve noticed that you share materials with other students and that you listen well to the person who is speaking. I’ve also noticed how you use kind words when talking with one another. You also give respectful and helpful feedback to your partners.”

Ask and briefly discuss:

Q *What are other ways you show one another respect?*

Students might say:

“I help other students when they need it.”
“I don’t interrupt others when they are talking.”
“I am responsible with the materials in class so that others can use them, too.”

Materials

- “Our Digital Citizenship Contract” chart from Technology Mini-lesson 2 and a marker
- Lined paper for each student

Teacher Note

Plan to teach this lesson soon after teaching the first two technology mini-lessons (see Technology Mini-lesson 1 and Technology Mini-lesson 2).

Teacher Note

If you have established class norms for respectful behavior, you may want to review them.

3 Compare Digital and Face-to-face Communications

Explain that communicating with people digitally is similar to communicating with people face-to-face—with some very important differences. Point out ways the students have interacted (communicated) or might interact with one another online this year, such as by e-mailing, texting, or by posting a comment on a class blog or website. Then use “Think, Pair, Share” to discuss questions such as:

-  **Q** *How is [e-mailing a friend] similar to [talking to a friend at school]? How is it different? [pause] Turn to your partner.*
- Q** *What do you think is the most important difference between digital and face-to-face communications? Why do you think that? [pause] Turn to your partner.*

Students might say:

“If you’re texting or chatting online, you can’t see the other person’s face, and it’s hard to tell how he feels. You might accidentally write something that hurts his feelings.”

“When you’re talking to a friend face-to-face, it’s just the two of you. But when you’re posting a comment on your friend’s blog, everyone can read what you write.”

“The biggest difference is that when people are online, they might not care as much about being respectful because they don’t think they will ever meet the person they are interacting with.”

“Sometimes it’s easier for people to write mean things in an e-mail than it is to say mean things face-to-face. They forget there’s a real person on the other end.”

“If you write something mean online, it’s harder to take your words back. That’s different from when you are face-to-face. Once you say something mean online, it’s out there forever.”

If necessary, point out to the students that they often cannot see the person they are interacting with digitally, so it is easy to forget that they are communicating with a real person who has feelings. They cannot see the person’s facial expressions or body language, so it is difficult to tell how that person is reacting to their texts, e-mails, or comments. This means that the students need to pay special attention to the tone of their writing to make sure their messages are clear and respectful. Also point out that, as good digital citizens, they need to be respectful even when they do not know the person they are interacting with online.

4 Generate Ideas for Being Respectful in Digital Communications

Tell the students that you want them to develop a set of agreements for respectful online behavior to add to the “Our Digital Citizenship Contract” chart. Explain that you would like them to begin by thinking about and discussing a few situations. Use “Think, Pair, Share” to discuss:

- Q** *Students from another class have posted their published research projects on the school website, and the teacher asks you to read and comment on them. How can you show respect in your comments? [pause] Turn to your partner.*
- Q** *In a class blog, I ask you to post your opinions about whether or not kids should be allowed to watch TV. Different members of the class have very different opinions on the topic. How might you show respect in your posts? [pause] Turn to your partner.*
- Q** *You are researching online for a report about zebras. You come across a blog about zebras written by a student you’ve never met. As you read it, you find inaccurate (wrong) information and decide to point this out in a comment. What might you do before posting your comment? [pause] Turn to your partner.*

Have a few volunteers share their ideas with the class, and write them where everyone can see them. As the students share, facilitate a discussion by asking questions such as:

- Q** *Why is [rereading what you wrote before posting a comment] important?*
- Q** *How will [thinking about how the other person might feel] help you be respectful?*

5 Decide on Agreements and Add to the Contract

Have the class review the ideas you recorded, and together decide on a list of four or five statements that describe the way they want to treat one another online and that they can all agree upon. These statements are called *agreements*.

Ask questions such as:

- Q** *Can we combine any of these ideas into one agreement? If so, which ones?*
- Q** *Is there anything else we should add to this list? What is it?*

Teacher Note

If necessary, restate the class agreements positively, and record them as “We will . . .” statements. For example:

- *We will always use respectful language in our writing.*
- *We will reread what we write before we text, e-mail, or post a comment.*
- *We will think about others’ feelings before we post a comment.*
- *We will remember there is a real person on the other end of the computer.*
- *We will choose to be respectful with all the people we communicate with online, whether we know them or not.*

Teacher Note

This discussion might require another class period. Reaching agreement may mean deleting, combining, or modifying ideas on the list.

If you have added the “Our Digital Citizenship Contract” chart to your class website, update it to include the new rules.

Teacher Note

Post the “Our Digital Citizenship Contract” chart near the classroom computer(s) for the students to refer to when they go online throughout the year.

Teacher Note

Throughout the year, review the students’ commitment to being good digital citizens, and check in regularly to see how they are doing. You may decide to modify or add to the class contract as needed.

Students might say:

“We can combine ‘listen to others’ opinions’ with ‘treat others how you want to be treated.’ We could just say that we will respect others’ feelings.”

“We can combine ‘don’t use put-downs’ and ‘write only kind words when interacting.’ We can just say that we will use respectful language in our writing.”

Continue the discussion until everyone agrees on the list, and then add the agreements to the “Our Digital Citizenship Contract” chart.

Remind the students that agreeing to use the Internet in safe, secure, and respectful ways will help them be good digital citizens. State your expectation that the students will try their best to act according to the rules and agreements on the contract when they are communicating digitally at school.

6 Have Students Copy and Sign the Contract

Have the students return to their desks. Distribute a sheet of lined paper to each student. Explain that you would like them to write down the entire “Our Digital Citizenship Contract” chart. Then have them sign the contract.

7 Discuss Digital Citizenship When Not at School

Tell the students that you would like them to bring the contract home and discuss it with their families. Encourage them to work together with their families to come up with similar agreements for staying safe, maintaining privacy, and showing respect in digital communications when they are outside of school.

DO AHEAD

- ✓ Prior to teaching this lesson, make sure that each student (or pair of students, if the students are working in pairs) has selected an appropriate topic to research and generated a few research questions.
- ✓ Become familiar with a few search engines and decide which one you will use for this lesson (see the Teacher Note in Step 1).
- ✓ Check that the preferences on the search engine you select to use with the class have been set to “Strict,” “Safe,” or a comparable setting.
- ✓ Prepare a chart with the title “How to Turn a Research Question Into a Search Query” (see Step 3).
- ✓ (Optional) You might set up a class website and create an online version of the “How to Turn a Research Question Into a Search Query” chart and other charts.

In this lesson, the students:

- Work in pairs
- Learn and use the terms *search engine*, *search term*, and *search query*
- Identify the best terms for an effective search query

ABOUT TEACHING THE ONLINE RESEARCH LESSONS

Technology Mini-lessons 4-7 are designed to support the students as they conduct online research. The students learn how to write effective search queries, understand the results of online searches, narrow their search results and use filters, and evaluate the credibility of the sources they find. These lessons assume that each student (or pair of students) has already selected a topic to research and generated research questions. The students will use their topics to practice the online research skills they learn.

The skills taught in Technology Mini-lessons 4-7 build on one another, so plan to teach them in order and at corresponding stages in the students’ research. For example, teach Technology Mini-lesson 4, “Choosing Effective Search Terms,” after the students have identified a research topic, and teach Technology Mini-lesson 7, “Evaluating Research Sources,” after the students have searched for and collected several online sources.

Materials

- Whiteboard with a search engine displayed, prepared ahead
- Chart paper and a marker
- Lined paper for each student
- “How to Turn a Research Question Into a Search Query” chart, prepared ahead
- Students’ research notes, prepared ahead

Teacher Note

Many search engines are available, including some that are intended for students' use. You may already have a preferred search engine that you use most often. Spend some time becoming familiar with a few search engines and decide which one you will use for this lesson.

1 Introduce Searching for Information Online

Have the students bring their pencils and notes about their research topics (see “Do Ahead”) and sit with partners together, facing the whiteboard. If possible, have current *Making Meaning* partners work together.

Remind the students that during the school year they have opportunities to use the Internet for various reasons. Point out that one reason they might use the Internet is to research, or search for information about, a topic. Review that the students have already selected research topics and thought about specific questions related to their topics that they might research.

Tell the students that today they will learn how to use a search engine to find information on the Internet. Explain that a *search engine* is a web-based tool that searches the Internet using words you type into a search bar. Finding the information you are looking for requires knowing how to choose the best words, or *search terms*, to type into a search engine.

2 Model Choosing Best Terms for a Search Query

Direct the students' attention to the search engine displayed on the whiteboard, and point to the search bar where search terms are entered. Explain that good researchers start with a research question and then identify words within the question to use for their search. For example, if you are researching elephants and want to know more about where elephants live, you might start with the research question, “Where do elephants live?”

Write the question on a sheet of chart paper where everyone can see it (see the diagram on the next page). Explain that you will use the question to help you identify a set of words, or search terms, for your search and that the set of search terms you choose is called a *search query*.

Explain that a search query tells a search engine what information is needed. Search queries are not usually complete sentences because they use only words directly related to the topic of the search. Ask the students to listen carefully as you model changing the question “Where do elephants live?” into a search query.

You might say:

“I know I need the word *elephants* because elephants are the animals I am researching, and I need *live* because it is the specific information about elephants that I want. So *elephants* and *live* are my search terms—I am going to circle them. I don't need the words *where* and *do* because they don't say anything about the information I need, so I will cross them out. Now I have the words *elephants* and *live*, but what I really want to know is the natural environment elephants prefer to live in, so maybe I should change the word *live* to *habitat*. [Cross out *live* and write *habitat* above it.] I think that will help. Now I have the words *elephants* and *habitat*. I'll cross out the *s* in *elephants*, so my search query will be *elephant habitat*.”

Type the search query into the search engine’s search bar and display the results. Read some of the results aloud. Use “Think, Pair, Share” to discuss:

 **Q** *How useful do you think these search results will be for the research topic?*
[pause] *Turn to your partner.*

If needed, point out any results that directly address your research topic.

3 Choose Best Terms for a Search Query

Distribute lined paper to each student. Explain that the students will follow the same procedure to turn a different research question into a search query. Post the chart titled “How to Turn a Research Question Into a Search Query” where everyone can see it, and read each step aloud.

How to Turn a Research Question Into a Search Query

1. Write down your research question.
2. Circle the words you definitely need.
3. Cross out unnecessary words.
4. Add or substitute more specific words if needed.
5. Decide in what order to write the words.

 Direct the students’ attention back to the chart paper on which you recorded the research question “Where do elephants live?” Under that question, write *What do elephants like to eat?* and have the students copy it onto their sheets of paper. Ask partners to read the question carefully and follow the steps on the “How to Turn a Research Question Into a Search Query” chart to decide on a search query.

Teacher Note

After discussing the search query results with the students, you may want to demonstrate how changing the order of the words in your search query affects the search results.

Teacher Note

The students may decide on a search query such as *foods elephants eat*, *elephant diet*, or *favorite elephant foods*.

Teacher Note

Save the “How to Turn a Research Question Into a Search Query” chart to post as needed later.

You might also want to create an online version of this chart and post it to your class website (see “Do Ahead”) for students to refer to anytime during their online research.

Teacher Note

If your school has an acceptable use policy, review it with the students.

Circulate and observe. If necessary, direct the students’ attention to the chart and remind them to follow each step. Review that queries use only words directly related to the research question.

When most pairs have finished, signal for the students’ attention and have a few volunteers share their queries with the class.

Remind the students that a search query tells a search engine exactly what information to search for about a research topic.

4 Continue Online Research

Explain that the students will use what they learned today in their own research. Have them look at their notes and identify any questions they have about their research topics. Invite them to use the “How to Turn a Research Question Into a Search Query” chart to write queries about their topics.

When the students have demonstrated that they know how to choose effective search terms, see Technology Mini-lesson 5 to teach them how to understand their search results.

DO AHEAD

- ✓ Read Steps 2 and 3 of the lesson to familiarize yourself with the features of a search results page and of web addresses.
- ✓ Type the query *elephant habitat* into a search engine and have the search results page ready to display on the whiteboard in Step 2.
- ✓ Prepare a sheet of chart paper with the title “Common Domain Suffixes” and add the explanations shown in the diagram (see Step 4).
- ✓ Identify a few examples of websites with the domain suffixes from the “Common Domain Suffixes” chart (for example, .com, .edu, .gov, .org) and bookmark them to display on the whiteboard in Step 4.
- ✓ Visit the CCC Learning Hub (ccclearninghub.org) to access and print a class set of “Evaluating Search Results” (BLM2).

In this lesson, the students:

- Work in pairs
- Learn and use the terms *search result*, *web address*, *domain suffix*, and *snippet*
- Explore the features of a search results page
- Learn key parts of web addresses
- Identify potentially useful sites for their research topics

1 Introduce Search Results Page

Have the students bring their research notes and pencils and gather with partners sitting together, facing the whiteboard.

Review that the students can use an Internet search engine to find information about a research question and that, in the previous lesson, they learned how to choose search terms for a query. Remind the students that a well-written query uses only words that are directly related to the research question.

Explain that today the students will discuss the page that lists the results of a query and learn how to decide which websites to use in their research.

2 Discuss Features of a Search Results Page

Display the search results page you prepared ahead. Review that this is the page that appeared when you typed the query *elephant habitat* into the search bar. Explain that this page is called the *search results page*.

Materials

- Whiteboard with search results displayed, prepared ahead
- Chart paper and a marker
- “Common Domain Suffixes” chart, prepared ahead
- “Web Address and Snippet Example” chart (WA1)
- Students’ research notes
- “Evaluating Search Results” chart (WA2)
- “Evaluating Search Results” (BLM2)

Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 4). You may want to briefly review the previous lesson before starting this one.

Teacher Note

You might explain that the list of search results is many pages long and that the search engine has organized the list in a particular order. The results that appear on the first page of search results are generally web pages that contain information that relates most directly to the query (in this case, *elephant habitat*). Results that appear on subsequent pages usually contain information that is less directly related to the query. Tell the students that every search engine has a slightly different way of organizing search results but that each uses some kind of ranking system.

Teacher Note

Most search engines provide filters such as *News, Web, Images, Maps, Videos, and Books*.

Teacher Note

Most web browsers display under the web address a line or two of text excerpted directly from the suggested web page. This text is called different things in different browsers. For the purposes of these mini-lessons, we will use the term *snippet*.

Tell the students that a search results page will look different depending on the search engine you use, but that all search results pages have features in common.

Point to the list of web pages in the main column and explain that these web pages are the search results—in this case, sources of information about elephant habitats. Explain that a web page is part of a website and that most websites have more than one web page. Tell the students that they will look more closely at the websites later.

Point to any advertisements on the page and explain that advertisements are often marked with the words *ads* or *sponsored results* and are frequently listed in the left- or right-hand column or at the top or bottom of the page. Tell the students that when they are doing research, they should ignore the advertisements. Ads are trying to sell something and, for that reason, they are not a good source of information about a research topic.

Next, point out the filters, which are often found across the top of the search results page or in the left-hand panel. Explain that *filters* are search tools that let you control the type of search result that will be displayed on the page. Tell the students they will learn about filters in another lesson.

Direct the students' attention back to the list of web pages in the main column of the page and review that these are the *search results*, or sources of information, you might explore to learn about elephant habitats. Choose one of the search results and point to the first line. Tell the students that this is the *title* of the web page. Explain that any search terms (the words *elephant* and *habitat*) that happen to appear in the title are in bold type.

Point to the web address and explain that the *web address* tells exactly where a specific web page is located online. Explain that on many search results pages, the web address is located underneath the title.

Point to the line or lines of text below the web address. Tell the students that this small piece of text is taken directly from the web page and is called a *snippet*. As in the web title, any search terms that appear in the snippet are in bold type. Explain that the snippet may provide clues to help the students figure out if a web page will be useful to them.

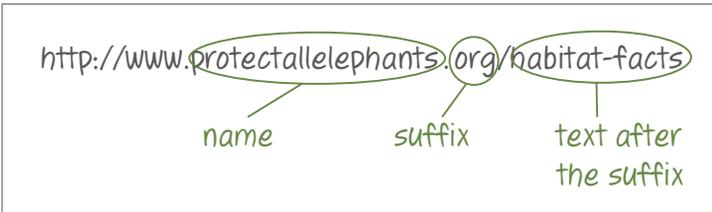

If the students need more practice understanding the parts of an individual search result, choose one or two more search results from the search results page to review with the class.

3 Identify Parts of a Web Address

Tell the students that anyone can post information on the Internet, so not all of what they find will be useful or reliable for research. Good researchers know how to look for clues about the type of information that a source, such as a website, will provide in order to choose the best sources to use for their report. One way to do this is to look at the parts

of a web address. Remind the students that a web address tells exactly where a specific website is located online.

Choose one of the web addresses from your search results page and write it on a sheet of chart paper (see the diagram below). Point to the name (the text that follows *http://www* and precedes a suffix such as *.com* or *.org*) and circle it. Ask the students to listen as you describe and label this part of the web address.

You might say:

"The name of a website in a web address may give information about the owner of the website, the topic of the site, and whether or not it will help in our research. The name of a website is usually found after the letters *http* and *www*. The name of this site is *protect all elephants*, which means it's probably a website that belongs to a person or group that believes that elephants should be protected. Sometimes there is no *http* or *www* in the web address."

Point to the domain suffix and circle it. Ask the students to continue listening as you describe and label this part of the web address.

You might say:

"The domain suffix of a website comes after the name and also gives helpful information about the website. The suffix of this website is *.org*, which tells me that this website probably belongs to a nonprofit organization that helps people or animals or supports other causes by providing education and other resources. In this case, I think the website belongs to an organization that wants to protect elephants."

Point to the letters and numbers after the suffix and circle them. Ask the students to continue listening as you describe and label this part of the web address.

You might say:

"Sometimes letters and numbers come after the suffix. These letters and numbers indicate a particular web page in the website. The text after the suffix often gives me clues about the website. This web address tells me that this web page will have facts about elephant habitats. Looking at the name, domain suffix, and text after the suffix makes me think that this website is for people who want to protect elephants and that the web page will help them learn about the elephants' habitats."

Use “Think, Pair, Share” to discuss:

Q *Do you think the web pages that are part of the website [www.protectallephants.org] will be useful for my research topic? Why or why not? [pause] Turn to your partner.*

After a moment, have a few volunteers share their thinking with the class.

Students might say:

“I think it will be useful because it looks like it will have facts about where elephants live.”

“Since it’s a website about protecting elephants, it will probably have information about why elephants are in danger. That might be useful, too.”

4 Discuss Domain Suffixes

Tell the students that the *domain suffix* identifies the purpose and audience of the website. Explain that there are many different domain suffixes and that it is important to understand what they mean. Post the chart titled “Common Domain Suffixes” where everyone can see it, and read the examples aloud.

Common Domain Suffixes

- *.com: a commercial website, or a website that buys or sells things*
- *.edu: a website that belongs to an educational institution, such as an elementary school or college*
- *.gov: a government website*
- *.org: a website that often belongs to a nonprofit organization or a group that supports causes by providing education and resources*
- *countries’ domain suffixes: countries sometimes have their own suffixes, for example, China (.cn), the United Kingdom (.uk), Brazil (.br), etc.*

Display some examples of websites with different domain suffixes (see “Do Ahead”), one at a time. As you display each website, point out the domain suffix in the web address and facilitate a brief discussion about the kind of information each site provides. Use “Think, Pair, Share” to discuss questions such as:

Q *What kind of website is this? What do you think people use it for?* [pause]
Turn to your partner.

Q *How is this website similar to others you’ve seen? How is it different?*
[pause] Turn to your partner.

Remind the students that understanding what a domain suffix means will help them choose the best sources for their research. Explain that they should always ask for help if they are confused or do not recognize a suffix. They will have the chance to add other suffixes to the chart throughout the year.

Remind the students that often web addresses have additional letters and numbers after the suffix. This text can sometimes provide additional clues about the content of the web page.

If the students need more practice understanding domain suffixes and the additional letters and numbers after the suffix, choose one or two more web addresses to discuss with the class.

5 Explore a Web Address and a Snippet

Explain that the class will work together to explore a web address and a snippet from your page of search results for the query *elephant habitat*. Remind the students that a *snippet* is a line or two of text taken directly from the web page and that it appears as part of a search result. Display the “Web Address and Snippet Example” chart (WA1), or substitute a web address and snippet of your choice.

Web Address and Snippet Example

<http://www.everythingelephantsforyou.com/toys-and-games>

Everything for **elephant** lovers: toys, games, books, **habitat** maps, adventure travel, movies, and more.

WA1

Use “Think, Pair, Share” to discuss:

Q *What is the [name/domain suffix] of this website? What does it tell you about the kind of site it is?* [pause] Turn to your partner.

Q *What does the [text after the suffix/snippet] tell you about the website?*
[pause] Turn to your partner.

Q *Do you think this site might be helpful for my research? Why or why not?*
[pause] Turn to your partner.

Students might say:

"The name of the website is 'Everything Elephants for You.' I think it's for people who love elephants. It might even have stuff for sale."

"I agree with [Chloe] that this website is selling things about elephants. The suffix is .com, so I know this site is for a business."

"The text after the suffix tells me that this site sells toys and games."

"The snippet also tells me that this site sells books and maps that show elephant habitats."

"I don't think this website will be helpful for your research. It is mostly about selling stuff related to elephants."

Remind the students that understanding web addresses and snippets will help them decide which sites will be useful for their research topics and which sites they can skip.

If the students need more practice exploring the web addresses and snippets, choose one or two more examples to review with the class. Tell them that you will post the chart of the labeled web address and the "Common Domain Suffixes" chart for use throughout the year.

6 Evaluate Search Results

Explain that the students will use what they learned today the next time they go online to find websites for their research topics. Display the "Evaluating Search Results" chart (WA2) and distribute a copy of "Evaluating Search Results" (BLM2) to each student. Read the chart aloud as the students follow along. Ask them to keep these instructions with their research notes. Explain that the next time they use the computer, they will follow these instructions for evaluating their search results.

WA2

Teacher Note

If possible, have the students evaluate their search results soon after you teach this lesson.

If you have a class website, you might create online versions of the charts "Common Domain Suffixes" and "Evaluating Search Results."

Evaluating Search Results

- Choose a query for your research topic.
- Type the query into a search engine and print the first page of results.
- Look at each search result and think about:
 - the parts of the web address (the name, domain suffix, and the text after the suffix).
 - the snippet of text from the web page.
- Circle the sites you think might be good sources of information for your research. Write the reasons you chose these sites.

When the students have demonstrated that they know how to evaluate their search results, see Technology Mini-lesson 6 to teach them how to narrow their results.

Narrowing Search Results and Using Filters

Mini-lesson 6

DO AHEAD

- ✓ Type the query *elephant habitat* into a search engine and have the search results page ready to display in Step 2.
- ✓ Prepare a sheet of chart paper with the title “How to Refine Search Queries” and include the steps shown in the diagram (see Step 2).
- ✓ Type the query *African elephants* into a search engine and have the search results page ready to display in Step 3.
- ✓ Familiarize yourself with the filters of the search engine you use, and prepare to model filtering search results in Step 5.
- ✓ Prepare a sheet of chart paper with the title “Filters We Can Use” and include the filters shown in the diagram in Step 6 or list other filters you would like the students to explore this year (see Step 6).

In this lesson, the students:

- Work in pairs
- Learn how to refine search terms to narrow a search
- Practice refining search terms to narrow a search
- Learn how to use filters to show certain types of search results
- Explore search engine filtering tools

1 Introduce Narrowing a Search

Have the students bring their research notes (including any printed pages of search results) and pencils and gather with partners sitting together, facing the whiteboard.

Briefly review that the students have been using search engines to find information about their research topics on the Internet. Remind them that finding the information they want first requires choosing *search terms*, or the best words for their search. Then they use the search terms to create a search query, which they type into a search engine.

Explain that as the students search online, they will sometimes need to *narrow*, or focus, their searches to find sources with the information they want. Tell the students that today they will learn some ways to narrow a search.

Materials

- Whiteboard with search results displayed, prepared ahead
- Chart paper and a marker
- “How to Refine Search Queries” chart, prepared ahead
- Lined paper for each student
- “Filters We Can Use” chart, prepared ahead
- Students’ research notes

Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 5). You may want to briefly review the previous lesson before starting this one.

You might also consider teaching this lesson in multiple sessions. Teach Steps 1-3 in one session and Steps 4-7 at another time.

2 Model Narrowing a Search by Refining the Search Query

Display the search results page you prepared ahead (see “Do Ahead”). Review that this is the search results page that appeared when you typed the search query *elephant habitat* into the search bar. Point out that the sources in this list of search results give information about the habitats of elephants in general. Write the search query *elephant habitat* on a sheet of chart paper where everyone can see it (see the diagram below).

Tell the students that as you researched your topic, you learned that there are two main types of elephants, the African elephant and the Asian elephant. Explain that now you want to narrow your search to find information specifically about the habitat of Asian elephants. To narrow your search, you will *refine*, or make more specific, the search query by changing the search terms in it.

Ask the students to listen carefully as you model narrowing your search by refining the search query *elephant habitat*.

You might say:

“The current page of search results shows sources about the habitats of elephants in general. These results are too broad because I only want information about the habitat of Asian elephants. How can I revise the search query *elephant habitat* so that I get search results with the information I am looking for? First I’ll ask myself if I need to delete or change the search terms *elephant* and *habitat* at all. No, I don’t think so, because both of those terms still apply to my search. Next I’ll ask myself what additional words I might add to my search term to make it more specific and focused on the information I want to find. I’ll try adding one word, *Asian*, because I’m interested in Asian elephants. [Add ‘Asian’ to the end of the query.] Now my search query is *elephant habitat Asian*. That is OK, but I think the query would make more sense if I moved *Asian* to the beginning. [Cross out ‘Asian’ at the end of the query and insert it at the beginning.] Now my search query is *Asian elephant habitat*. I think this query will tell the search engine what information I want.”

Asian elephant habitat ~~Asian~~

Type the new search query, *Asian elephant habitat*, into the search engine’s search bar and display the results. Read some of the results aloud. Use “Think, Pair, Share” to discuss:

Q What do you notice about these search results? How well did the search query *Asian elephant habitat* work to narrow the search results? [pause] Turn to your partner.

After a few volunteers have shared, post the chart titled “How to Refine Search Queries” where everyone can see it, and read each step aloud.

How to Refine Search Queries

1. Write down your search query and look at the search terms carefully.
2. Ask yourself: Do any of these words no longer apply to my search? If so, change or delete them.
3. Ask yourself: What new words can I add or substitute to make my search more specific? Add any new words.
4. Read your new search terms. Decide in what order to write the words.

Teacher Note

If necessary, remind the students that a search query is not usually a complete sentence because it uses only words, or search terms, directly related to the topic of the search.

3 Practice Refining Search Queries

Direct the students’ attention back to the chart paper on which you recorded the search query *Asian elephant habitat*. Write *African elephants* on the next line, and tell the students that this is the search query you used to find information about African elephants. Distribute lined paper to the students and have them write the search term “African elephants.”

Display the search results page you prepared ahead (see “Do Ahead”) and explain that this is the search results page that appears when you type in the search query *African elephants*. Point out that the sources in this list of search results give a wide range of information about African elephants.

Tell the students that you want to narrow your search to focus on how long African elephants live. Use “Think, Pair, Share” to discuss:

Q How might you refine the search query African elephants to find only information about how long they live? [pause] Turn to your partner.

Give partners a few minutes to discuss the question and ask them to refine the search query. Circulate and observe. If necessary, direct the students’ attention to the “How to Refine Search Queries” chart and remind them to follow each step.

When most pairs have finished, signal for the students’ attention and invite a few volunteers to share their search terms with the class.

Teacher Note

The students may decide on search terms such as *African elephants lifespan*, *African elephants years of life*, and *African elephants life*.

Record the students' search terms on the chart paper. Discuss questions such as:

Q *What do you notice about [Noor and Hector's] search term?*

Q *Does their search term make the search narrower and more specific? Why or why not?*

Guide the students to decide as a class which search term they would like to type into the search engine. Then type the new search query into the search engine's search bar and display the results. Read some of the results aloud. Use "Think, Pair, Share" to discuss:

Q *What do you notice about these search results? How well did the search query [African elephant lifespan] work to narrow the search results? [pause] Turn to your partner.*

Have a few volunteers share with the class.

Briefly direct the students' attention to the "How to Refine Search Queries" chart and remind them that they can use these steps whenever they need to narrow a search.

4 Introduce Filters

Retype the search query *Asian elephant habitat* into the search engine's search bar and display the results. Remind the students that this is the page of search results that appeared when you typed the search query *Asian elephant habitat* into the search engine's search bar and that they saw these search results earlier.

Point to the filters on the page and explain that *filters* are tools that allow you to sort through your search results to see results of a certain type only. Filters let you control the kind of information that will be displayed on the results page. Read the names of the filters aloud. Then ask:

Q *What kind of information do you think will be displayed if we click the [Videos] filter? What kind of information do you think will be filtered (left) out?*

5 Model Using Filters

Explain that not all search engines provide the same filters but that there are some that frequently appear. You will demonstrate how to use one of these filters, and then the class will work together to explore other filters.

Explain that as part of your research, you would like to find photographs of the habitat of Asian elephants. Tell the students that the Images filter will sort through all of the search results for *Asian elephant habitat* and then show you only the search results that are images, or pictures. Ask the students to watch and listen carefully as you click the Images filter and demonstrate how to use it.

You might say:

"I typed *Asian elephant habitat* into the search bar, and the search engine gave me this page showing all the search results. But I would like to see only the search results that are images because I want only photos that show the habitat of Asian elephants. When I click the Images filter, I get a page showing only the search results that are photos, drawings, maps, and other images.

Looking at the page of images is helpful, but I can filter these search results even more—so that I see only the results that are photographs. To do this, I will click the Photos advanced search filter. The advanced search filters are usually displayed under the main filters or are displayed under the main filters when I click Search Tools. [Click the Photos filter.] That helps a lot. Now I have many photos to choose from. I can focus my results even more by choosing the size of a photo and even a specific color. [Click an image.] When I click an image, I get a link to its source. When I find an image I want to use, I will write the web address down in my research notes so that I will remember where to find it again."

Use "Think, Pair, Share" to discuss:

Q *How did the Images filter change the results that were shown?* [pause] Turn to your partner.

Q *Do you think these results are useful? Why or why not?* [pause] Turn to your partner.

Have a few volunteers share their ideas with the class.

Students might say:

"Using the *Images* filter let you see only the results that were photos and drawings and other kinds of pictures."

"The *Images* filter is useful because it's a quick way to look at all the images at once."

"I think there are some photos you might be able to use in your research."

6 Practice Using Filters

Explain that the students will practice using other filters to continue searching for specific information about the habitat of Asian elephants. Post the "Filters We Can Use" chart where everyone can see it, and briefly describe each filter listed.

Teacher Note

You may want to add to this list throughout the year.

Filters We Can Use

- Images
- Maps
- News
- Videos

Direct the students' attention back to the original search results page, showing all the results for *Asian elephant habitat* on the whiteboard. Use "Think, Pair, Share" to discuss:

 **Q** *What filter(s) might I use to see [an Asian elephant moving through its habitat]? [pause] Turn to your partner.*

Have a few volunteers share their ideas. If necessary, explain that the Videos filter might provide examples of Asian elephants moving through their habitat. Click the Videos filter and display the search results. Ask and briefly discuss:

Q *How did the Videos filter change the results that were shown?*

Q *Do you think these results are useful? Why or why not?*

Students might say:

"Now the only results on the page are videos."

"I think the results are useful because there are a lot of videos showing Asian elephants in their natural habitat."

"Now you can actually see videos of what Asian elephants are like when they aren't in zoos!"

Use the same procedure to demonstrate how to use the News and Maps filters, or invite volunteers to the whiteboard to practice using the filters. Discuss the results with the class.

Point out that when the students use filters to show only certain types of search results, the results may not always be useful for their research topics. Remind them that good researchers always evaluate and choose their research sources carefully.

Tell the students that you will post the "Filters We Can Use" chart in the classroom for them to use throughout the year.

7 Refine Search Queries and Use Filters for Research

Briefly direct the students' attention to the "How to Refine Search Queries" chart and the "Filters We Can Use" chart. Explain that the students can refine search terms to narrow an online search and that they can also use filtering tools to show only certain types of search results.

Encourage the students to look at their research notes and review the search queries they are using to find information online. Ask them to think about how they might refine their search queries to get more useful and more specific results. Also encourage the students to think about any filters they would like to use.

Explain that the next time they use the school computer they will work in pairs to refine their search terms and use filters to get more information for their research topics. Tell the students that they will have an opportunity to print any information that is useful.

When the students have demonstrated that they know how to refine search queries to narrow their search results and how to use filters to show only certain types of results, see Technology Mini-lesson 7 to teach them how to choose credible sources for their research.

Teacher Note

If possible, have the students practice narrowing their searches and print useful research sources soon after you teach this lesson. Have the students save their printed online sources to use in Technology Mini-lesson 7.

If you have a class website, you might create online versions of the charts "How to Refine Search Queries" and "Filters We Can Use."

Materials

- “Characteristics of a Good Research Source” chart (WA3)
- “Questions to Ask When Evaluating a Source” chart, prepared ahead
- Whiteboard with search results displayed, prepared ahead
- Students’ printed online sources from Technology Mini-lesson 6
- “Evaluating Research Sources” chart (WA4)

Teacher Note

Plan to teach this lesson soon after teaching the previous technology mini-lesson (see Technology Mini-lesson 6). You may want to briefly review the previous lesson before starting this one.

DO AHEAD

- ✓ Prepare a chart with the title “Questions to Ask When Evaluating a Source” and include the labels and questions shown in the diagram (see Step 3).
- ✓ Type the query *elephant habitat* into a search engine and have the search results page ready to display in Step 4.

In this lesson, the students:

- Work in pairs
- Evaluate research sources
- Choose credible sources for their research

1 Introduce Evaluating Sources

Gather the class with partners sitting together, facing the interactive whiteboard. If possible, have current partners work together.

Point out that many of the students have begun to research their topics on the Internet and are ready to choose sources for their research projects. Remind the students that anyone can post information on the Internet, so it is important to choose their sources carefully. Explain that today the students will learn how to identify sources of information they can trust and use.

2 Discuss the Characteristics of a Good Source

Tell the students that the sources they use for their reports should have information that is reliable, current, and accurate. Display the “Characteristics of a Good Research Source” chart (WA3) and briefly discuss each term with the class.

Characteristics of a Good Research Source

- reliable: trustworthy or dependable
- current: up-to-date or recently written
- accurate: correct, without mistakes

WA3

Tell the students that in order to determine whether a source is reliable, current, and accurate they need to evaluate, or think carefully about, the source.

3 Introduce Questions for Evaluating a Source

Explain that good researchers ask themselves questions about a source when deciding whether or not to use it. Post the “Questions to Ask When Evaluating a Source” chart where everyone can see it. Introduce each set of questions by pointing out the characteristic. Then tell the students to listen as you read each question aloud.

Questions to Ask When Evaluating a Source

Reliable:

- Who is the author of the page? Is the author an expert? How do I know?
- What is the web address? Is the information from a site that is trustworthy? How do I know?
- Is this website providing information mainly to try to get someone to buy something?

Current:

- When was the information written?
- Do the links from the site work, or are they outdated?

Accurate:

- Are there sources listed for the information on the page? What are they?
- Can you find other sources with the same information?

Point out that the students will not always find answers to all the questions on the chart but that asking them will help the students decide whether or not the source has information they can trust.

4 Model Evaluating a Research Source

Display the search results page you prepared (see “Do Ahead”) and remind the students that this is the results page for the query *elephant habitat*. Click one of the web page results. Read the information on the website aloud and ask the students to listen as you consider whether or not the source is reliable, current, and accurate by answering the questions on the “Questions to Ask When Evaluating a Source” chart.

You might say:

“First I will answer questions to evaluate whether or not the site is reliable. This page doesn’t list a specific author, but I can tell from the domain suffix *.org* in the web address that the site is probably a nonprofit organization about saving elephant habitats. The site seems to be a source of news and information for people who are interested in elephants, and the site isn’t selling anything, so I think it’s trustworthy. Now I’ll answer questions to decide if the information is current. It doesn’t say when the information was written, but one paragraph refers to the years 2001–2005, which means it’s not very current. [Click other links on the site.] All the links are working, and the information on other pages of this site is current. Last, I will answer questions to see if the site is accurate. There are no sources listed on the site, but I can find some of the same facts and information on a few other websites about elephants. I think I can use the information on this site for my research, but I think it would be good to find sites with more current information, too.”

5 Evaluate Research Sources

Explain that the class will work together to evaluate another research source. Display the search results page from Step 4 again, and click another result to display a website.

Read aloud the information on the web page as the students follow along. Then have partners evaluate the reliability of the source by answering the questions under the “Reliable” heading on the “Questions to Ask When Evaluating a Source” chart. After a moment, have volunteers share what they discussed with the class.

Students might say:

“The author’s name was hard to find. It’s all the way down at the bottom of the page.”

“The domain suffix is *.edu*, which means that it is part of a school or university. That makes me think the site is trustworthy.”

“The website is a news and information site for kids, and there are no ads trying to sell stuff, so I think it’s trustworthy.”

In the same way, have partners continue evaluating the source by answering the questions under the “Current” and “Accurate” headings on the chart. Then ask and briefly discuss:

- Q *Do you think this is a good source to use for my research project? Why or why not?*
- Q *What other questions might be important to add to the “Questions to Ask When Evaluating a Source” chart? Why do you think that?*

Add the students’ suggestions to the chart and explain that you will post the chart in the classroom for the students to use throughout the year.

6 Continue Evaluating Sources

Have the students return to their seats with partners sitting together. Ask them to spend a few moments gathering the sources they printed for their topics. Display the “Evaluating Research Sources” chart (WA4) and have partners work quietly together for 10–15 minutes to evaluate their printed sources. Explain that the next time the students use the school computers, they can evaluate the sources online by checking links or looking for additional sources with the same information.

Evaluating Research Sources

- Read the information on the page carefully.
- Read the questions on the “Questions to Ask When Evaluating a Source” chart and write down any answers you find.
- Write down whether you think the source is reliable, current, and accurate and include reasons why.

WA4

Teacher Note

If possible, have the students use computers to evaluate their research sources online soon after you teach this lesson.

If you have a class website, you might create an online version of the chart “Questions to Ask When Evaluating a Source.”

Making Meaning[®]

THIRD EDITION

The Collaborative Classroom

The Collaborative Classroom differs from traditional learning environments in that students and teachers work together on shared academic and social goals.

The Collaborative Classroom is an intentional environment in which collaboration goes beyond conventional cooperation and compliance. Students become caring members of a learning community who take responsibility for their own learning. As students think, talk, and share ideas, they come to value the thinking of others. They become thoughtful readers and engaged speakers and listeners. They discuss and debate big ideas with respect, clarity, and understanding.

Making Meaning in a Collaborative Classroom

The *Making Meaning* program embodies the practices of the Collaborative Classroom.

Students in *Making Meaning* classrooms demonstrate:

- Close reading of varied, complex texts
- Strategies for unlocking word meanings
- Deeper understanding of content
- Ownership of their own learning
- Intrinsic motivation to remain on task
- Improved self-esteem
- An increase in academic performance

"I love how authentic the lessons and focus strategies are. It's what good readers, listeners, and community members do in real life."

— Monica McCurry, grade 4 teacher

An isometric illustration of a school building in shades of green and grey. The building has multiple windows and a central entrance. In the foreground, a car is parked on a street. Two students are sitting on a bench, reading books. A dog is sitting on the ground nearby. The scene is set in a courtyard area with a tree and a dog. The overall style is clean and modern.

Introduction

Overview of the Vocabulary Lessons

Vocabulary plays a critical role in children’s growth as readers. If they do not understand the words they are reading, children cannot make sense of text. It follows, then, that expanding students’ vocabularies is vital to their reading success. The *Vocabulary Teaching Guide* provides 30 weeks of vocabulary instruction that build students’ word knowledge, supplementing and supporting the reading comprehension lessons in the *Making Meaning*® *Teacher’s Manual*. This vocabulary instruction incorporates the latest research to give you the tools you need to boost your students’ word power.

Like the *Making Meaning* lessons, the vocabulary lessons are unique in their blend of academic instruction and support for students’ social and ethical development. The lessons teach high-utility words found in or relating to the read-aloud texts. The students learn four to six words each week in lessons designed to take 15–20 minutes each. The lessons combine direct instruction in word meanings with activities that require the students to think deeply about the words and use them as they talk with their partners and the class. The activities are designed to be both challenging and fun, and to help instill in your students a love of words and an appreciation for learning new words.

New to the Vocabulary Lessons

In this revision of the *Vocabulary Teaching Guide*, we have added content, assessment, and technology features designed to support your teaching and your students’ vocabulary knowledge and social development. These include:

- Additional weeks of instruction at every grade
- New read-aloud texts and new vocabulary words
- Enhanced lesson support for vocabulary instruction, including digital picture cards (K–1) and digital word cards (K–6)
- Online, interactive whiteboard activities for displaying picture cards (K–1), word cards (K–6), and prompts (K–6) used during instruction
- Print and digital teaching guides with links to professional development media and lesson resources

- An online assessment tool, the CCC ClassView™ assessment app, for capturing and synthesizing assessment data
- Additional support for incorporating technology through tips and tutorials

Unique Pedagogy

The vocabulary lessons' unique pedagogy grows out of years of research on vocabulary and child development. It focuses on character education and social and ethical development and supports teachers in expanding their students' vocabularies and building a word-rich classroom environment.

RESEARCH BASED/CLASSROOM TESTED

Children learn words in many different ways, such as by talking with teachers, friends, and family members, listening to stories, and reading independently; but this incidental word-learning is not enough. For students to develop the rich and varied vocabulary they need to communicate effectively and succeed academically, direct instruction in specific words is needed (Stahl 1999). Researchers and leaders in the field of vocabulary instruction, including Bauman and Kame'enui, McKeown and Beck, and Stahl,* have identified instructional practices that best help children build their vocabularies—practices we have incorporated into the *Vocabulary Teaching Guide*:

- Provide explicit instruction in a set of carefully chosen, high-utility words.
- Begin instruction by introducing a word in context.
- Provide a student-friendly definition of the word and examples of the way it is used.
- Give students opportunities to engage actively with the word in meaningful ways when they first encounter it, such as by applying it to their own experiences.
- Have students practice using the word through engaging activities.
- Provide multiple exposures to the word over an extended period of time.
- Teach strategies that students can use to learn words independently, such as recognizing synonyms, antonyms, and words with multiple meanings, and using context to determine word meanings.

We developed the *Vocabulary Teaching Guide* in consultation with classroom teachers who piloted the lessons and gave us extensive feedback to ensure that the program addresses the needs of all students and is easily implemented.

*To read more about the theoretical and research basis for these vocabulary lessons, please refer to the Bibliography on page 664.

Lessons at a Glance

The following sections describe the lesson resources, the process of selecting vocabulary words, the approach to meaningful discussion of the words, the strategies that support vocabulary acquisition, and the social development objectives of the program and how they are achieved.

LESSON RESOURCES

At grade 5, vocabulary instruction includes:

- A teaching guide
- Access to online resources via the CCC Learning Hub (ccclearninghub.org) developed for the vocabulary lessons, including interactive whiteboard activities, assessment forms, reproducible word cards, family letters and other reproducibles, and professional development media

In addition to the lesson resources above, the instruction in the *Vocabulary Teaching Guide* is also supported by a variety of print and digital components that accompany the *Making Meaning* program, including children’s trade books, the *Assessment Resource Book*, the *Digital Teacher’s Set*, and access to the CCC Learning Hub (ccclearninghub.org) and the CCC ClassView app (classview.org). For more information about these program components, see “Program at a Glance” in the Introduction of the *Teacher’s Manual*.

For more information about the CCC Learning Hub, CCC ClassView, and the interactive whiteboard activities, see “Using the Technology Features” on page xxv.

THE WORDS

The vocabulary words were selected from the read-aloud texts used in grade 5 of the *Making Meaning* lessons. To develop an initial word list, we asked this critical question: *Which words in the Making Meaning texts are most useful for the students to know?* In answering this question, we were guided by the work of Isabel Beck and her colleagues at the University of Pittsburgh. Beck states that the best candidates for instruction are words that students are not likely to use frequently but that educated adults regularly use in their speech and writing and that appear in a wide range of texts students might encounter. She refers to these words as Tier Two* words. The words we selected as candidates for instruction were those we believed met Beck’s Tier Two criteria. In addition, we looked for words that would be interesting and fun for the students to learn and use.

*Tier One words are high-frequency words that typically do not require instruction. Tier Three words are less frequently used words often associated with science, social studies, and other content areas. For more information, see *Bringing Words to Life: Robust Vocabulary Instruction*, 2nd ed. by Isabel L. Beck, Margaret McKeown, and Linda Kucan (The Guilford Press, 2013).

In some instances, a *Making Meaning* text did not yield six words that met our criteria. To provide words for instruction, we included words that do not appear in the text but that represent concepts or ideas that are important to the story and worthwhile for the students to know. These “concept words” appear in italics in word lists in the week they are introduced.

To check the validity of our word choices, we asked our grade 5 pilot teachers to review the list, and we made changes based on their recommendations. For a complete list of the grade 5 words and their meanings, see Appendix B.

INTRODUCING THE WORDS

Vocabulary instruction becomes meaningful for students when the words they are learning are tied to a familiar and relevant context. The *Making Meaning* read-aloud texts provide that context. During a vocabulary lesson, the students reencounter words that they heard earlier during a *Making Meaning* lesson. Each word is introduced by rereading the text that includes the word. The students then hear the word defined in student-friendly language.

WORD CARDS

A digital whiteboard activity that includes the word and the prompt(s) used to discuss the word are provided for each word in the grade 5 program. Additionally, reproducible wall word cards are provided on the CCC Learning Hub (ccclearninghub.org). Each reproducible word card shows the card number and the word and its definition.

The program provides two options for displaying the word cards: The words may be projected on an interactive whiteboard using the whiteboard activities provided with each lesson, or the reproducible word wall cards may be printed and posted where everyone can see them.

The word cards are also used during Ongoing Review activities. An interactive whiteboard activity is provided for displaying the words and prompts on each ongoing review day. For more information about ongoing review, see “Retaining the Words” on page xxv.

QUESTIONS AND ACTIVITIES

After the students have been introduced to a word, they practice using it by answering questions that require them to think about the word in other contexts. Many questions have them relate the word to their own experiences, and follow-up questions ask them to explain their thinking, encouraging them to think more deeply about the word. (*What memento do you have? What does it remind you of?*)

The students also use the words in a variety of activities:

- **Create a Sentence.** They use a vocabulary word in a sentence.
- **Describe the Character.** They choose the vocabulary word that best describes a character in a character sketch.
- **Does That Make Sense?** They decide whether or not a scenario that includes a vocabulary word makes sense.
- **Find Another Word.** They identify the vocabulary word that can replace an underlined word or words in a sentence. (*I think the berry smoothie at Berta's Smoothie Shop is delicious.* [delectable])
- **Finish the Story.** They choose the word that best completes a story they hear.
- **I'm Thinking of a Word and Which Word Am I?** They use clues you provide to figure out which word you are thinking of.
- **Imagine That!** They visualize a situation and then use the vocabulary word to discuss their mind pictures.
- **Make a Choice.** They use their knowledge of a word to make a choice about the word. (*Which of these is a surge: a single shopper strolling into a store or a crowd of shoppers hurrying into a store? Why?*)
- **Tell Me a Story.** They hear the beginning of a story that includes a vocabulary word and they use their knowledge of the word to make up an ending for the story.
- **What Do You Think About?** They tell what they picture in their minds when they hear a word.
- **What Might You Say or Do?** They use a vocabulary word to tell what they might say or do in an imagined situation.
- **What's the Missing Word?** They identify the vocabulary word that can fill in the blank in a sentence. (*The children _____ for ice cream when the ice-cream truck stopped by on a hot day.* [clamored])
- **Which Word Goes With?** They tell how a vocabulary word relates to a word they all know, such as *school* or *cat*.

INDEPENDENT WORD-LEARNING STRATEGIES

Research shows that students benefit from both learning individual words and learning strategies for determining the meanings of unknown words they hear or encounter in their independent reading. In grade 5, the students learn the following strategies:

- Recognizing synonyms
- Recognizing antonyms
- Using the prefixes *dis-* and *pre-* to determine word meanings
- Using the suffixes *-er* and *-less* to determine word meanings
- Using Greek and Latin roots to determine word meanings
- Using context to determine word meanings
- Recognizing shades of meaning
- Recognizing words with multiple meanings
- Recognizing idioms
- Recognizing adages
- Using a print dictionary to determine word meanings
- Using an online dictionary to determine word meanings
- Using a print thesaurus to determine word meanings
- Using an online thesaurus to determine word meanings
- Using a glossary to determine word meanings

Each strategy is introduced through the discussion of a vocabulary word. (For example, recognizing shades of meaning is introduced through the word *devour* in Week 7.) For additional practice in using the strategies, More Strategy Practice activities are provided periodically. Although these activities are optional, we encourage you to do them with your students. We believe the students will benefit from the additional exposure to the strategies. For tables of the strategies and the weeks in which they are introduced and reviewed, see Appendix C.

The table on the next page provides a snapshot of how independent word-learning strategies are developed across grades K–6.

ALIGNMENT WITH STANDARDS

Lessons in the *Vocabulary Teaching Guide* have been carefully designed to focus on standards aimed at vocabulary acquisition and use.

- Words taught or explored include both grade-appropriate general academic and domain-specific words. The general academic words taught as target words are identified with asterisks in Appendix B, “Grade 5 Words and Definitions.” For Extension activities in which domain-specific words are explored, see Appendix D, “Additional Activities.”
- Students practice using the words they are learning in both partner and whole-class conversations. Questions require the students to make real-life connections between

the words and their own experiences. (The program’s focus on conversations about words, together with the teaching of social skills such as speaking clearly and listening carefully to others, also brings the program into alignment with standards for speaking and listening.)

- In lessons and review activities, the students explore the nuances of word meanings and relationships among words, including synonyms, antonyms, and shades of meaning.
- Students are formally taught grade-appropriate strategies they can use to figure out word meanings when reading independently. These include using context, identifying multiple meanings, recognizing idioms, and using prefixes, suffixes, and roots.

For more about how the program aligns to specific state standards, see the CCC Learning Hub (ccclearninghub.org).

Teaching the Vocabulary Lessons

The grade 5 program consists of 30 weeks of lessons numbered consecutively throughout the year. Each week has five days of instruction. Beginning in Week 2, an Ongoing Review activity in which the students review previously taught words is included.

How a Week Is Organized

Each week begins with a Resources list, which specifies the physical materials and the supplemental activities for the entire week, while the Online Resources list indicates all the materials that are available digitally on the CCC Learning Hub (ccclearninghub.org). The Resources list is followed by the week's Overview, which includes lists of the six vocabulary words taught that week, the five words reviewed during Ongoing Review, the word-learning strategies taught or reviewed during the week, and the vocabulary and social development focuses. A "Do Ahead" section contains suggestions for preparing for the week.

The screenshot shows a two-column layout for Week 6. The left column is titled 'RESOURCES' and includes sections for 'Read-aloud' (with a book cover for 'Big Cats'), 'More Strategy Practice', 'Extension', 'More ELL Support', and 'Assessment Resource Book'. The right column is titled 'OVERVIEW' and includes sections for 'Words Taught' and 'Words Reviewed' (each in a table), 'Word-learning Strategies', 'Vocabulary Focus', and 'Social Development Focus'. The page number '132' is in the bottom left and '133' is in the bottom right.

Each week includes five days of instruction. On Days 1 and 2, three words are taught and reviewed. On Days 3 and 4, three more words are taught and reviewed. On Day 5, five words previously taught are reviewed in an activity called "Ongoing Review." (Week 1, in which six words are reviewed during Ongoing Review, is an exception.)

The chart below shows how a week is structured.

Day 1	Day 2	Day 3	Day 4	Day 5
3 words taught	Day 1 words reviewed	3 words taught	Day 3 words reviewed	Ongoing Review

Teaching the Vocabulary Lessons with the *Making Meaning* Lessons

We suggest you teach the week’s lessons from the *Vocabulary Teaching Guide* the week after you teach the read-aloud text from the *Making Meaning* lessons in the *Teacher’s Manual*. (For example, teach Week 1 in the *Vocabulary Teaching Guide* a week after you have taught Unit 1, Week 1 in the *Teacher’s Manual*.) Waiting a week helps to ensure that the students have thoroughly discussed the read-aloud text before revisiting it during the vocabulary lessons. (If you prefer to teach the vocabulary lessons in the same week as you teach the read-aloud text in the *Making Meaning* lessons, be sure to completely finish the reading of the text, which may extend across two or more days, before you introduce the words. Otherwise, you run the risk of teaching words that the students have not encountered in the reading.)

The calendar below shows one way you might structure a week of *Making Meaning* lessons and vocabulary lessons.

Monday	Tuesday	Wednesday	Thursday	Friday
Reading comprehension lesson	Reading comprehension lesson	Reading comprehension lesson	Reading comprehension lesson	
Vocabulary lesson	Vocabulary lesson	Vocabulary lesson	Vocabulary lesson	Vocabulary Ongoing Review

For a table that shows each week of the vocabulary lessons, the read-aloud text you will use during that week, and the week in which that text was taught in the *Making Meaning Teacher’s Manual*, see Appendix A.

SOCIAL DEVELOPMENT AND COOPERATIVE STRUCTURES

Like the *Making Meaning* lessons in the *Teacher's Manual*, the lessons in the *Vocabulary Teaching Guide* help students develop socially and ethically as well as academically. During the lessons, the students frequently discuss words with their partners through the cooperative structures “Turn to Your Partner” and “Think, Pair, Share.” The cooperative structures increase the students’ engagement and accountability and ensure that all the students have opportunities to practice using the words.

We recommend that you use the same partners for the vocabulary lessons that you have assigned for the *Making Meaning* lessons. We also recommend that you incorporate the social focuses of the *Making Meaning* lessons into the vocabulary lessons. Social development focuses are provided with each vocabulary lesson. Reinforcing social skills as the students work together will help them develop caring and respectful relationships and create a safe and supportive classroom environment conducive to sharing their thinking.

Planning and Teaching the Lessons

To prepare to teach a week from the *Vocabulary Teaching Guide*, begin by reading the week’s introductory pages. The Resources list identifies the *Making Meaning* read-aloud text or texts, supplementary activities, and online resources for the week. The week’s Overview acquaints you with the vocabulary words and independent word-learning strategies to be taught and reviewed during the week, as well as the academic and social focuses of the week. In particular, review the “Do Ahead” section. It alerts you to any materials you need to gather or prepare for the week.

PREPARING FOR A LESSON

- Read the entire lesson. Pay particular attention to the questions and prompts and anticipate how your students will respond. Teacher Notes provide suggestions to support struggling students.
- Prepare or collect any necessary materials, including the appropriate *Making Meaning* read-aloud text.
- Practice reading aloud the part of the text that introduces each word. You might use self-stick notes to mark the starting and stopping points of the read-aloud. Focus on emphasizing the vocabulary word where it appears in the text.
- Review the definition of each word. You might write each definition on a self-stick note and place the note on the page of the read-aloud where the word is introduced.

- Review the word cards and how they are introduced in the lesson. (See “Using the Technology Features” on page xxv.)
- Plan any teacher examples or modeling required in the lesson.
- Review any More Strategy Practice, More ELL Support, or Extension activities in a lesson, and decide if and when you will do them. Collect any necessary materials.
- Plan how you will pace the lesson to keep it moving. A lesson is designed to take, on average, 15–20 minutes.

TIPS FOR TEACHING THE LESSONS

We offer the following tips to help you teach the lessons:

- **Anticipate room arrangement needs.** We recommend a classroom arrangement that allows for whole-class gatherings, discussions, and space for movement. A rug or library area is ideal. If this is not possible, arrange the students so that they can hear you clearly, see the read-aloud text, and participate in partner and whole-class discussions.
- **Use the lesson definition.** It is important to define each word as it is defined in the lesson. Each definition has been carefully written in simple, student-friendly language, and the activities have been developed based on the definitions.
- **Correct ungrammatical responses by modeling standard language.** During a discussion, a student may use a word in a way that shows he understands its meaning but that is incorrect grammatically (for example, “I wide-eyed with fear when my brother scared me”). We suggest you point out that the student’s response demonstrates that he knows what the word means and then restate his response using correct grammar (for example, “What you said shows that you know what *wide-eyed* means, but we usually say, ‘I was wide-eyed with fear when my brother scared me’”).

LESSON LENGTH AND PACING

The lessons take, on average, 15–20 minutes. Lessons in the first few weeks of the program may take longer as you practice the cooperative structures (“Turn to Your Partner” and “Think, Pair, Share”) and the students become accustomed to using the prompts. (See “Using the Prompts to Discuss the Words” on the next page.)

It is important to monitor the pace of the lessons, not only to complete them in a reasonable amount of time but also to help the students stay focused and engaged. To maintain the pace of the lessons, we suggest the following:

- Keep partner conversations brief.
- After partners have shared, have only one or two volunteers share their thinking with the class, even if other students have their hands up.
- During whole-class discussions, have only two or three volunteers share their thinking. If many students want to contribute to the discussion, use “Turn to Your Partner” to give partners an opportunity to share with each other. Then have only one or two volunteers share with the class.

USING THE PROMPTS TO DISCUSS THE WORDS

To learn a new word well, it is critical that the students use the word often and, whenever possible, in sentences. To facilitate this practice, we frequently ask the students to reply to questions with prompted responses. The prompts are a critical component of the program. They provide the students with the language they need to use a new word confidently and successfully. The prompts also ensure that the students will actually *say* the vocabulary word as they discuss it during partner and whole-class sharing, which is important if they are to learn and remember the word. In addition, the prompts support the students’ oral language development and are especially helpful to English Language Learners.

To encourage the students to use the prompts, you might display them using the whiteboard activities provided with each lesson, or print and display the prompts where everyone can see them using the printable prompts you will find on the CCC Learning Hub. Once the students have become accustomed to using the prompts, they might choose to use a word in a sentence of their own. That is fine. What is important is that the students say the word as they discuss it and use that word correctly.

FULL AND ABBREVIATED LESSONS

In Weeks 1–5 of the program, all the procedures for introducing words and conducting activities have been fully written out to support you as you become familiar with the program. We refer to these lessons as “full lessons.” By Week 6 you will be familiar with most of the procedures. For this reason, the language of the procedures has been abbreviated. In the first two weeks of these “abbreviated lessons,” a Teacher Note will direct you to the full version of a procedure in Weeks 1–5 should you wish to review it.

HELPFUL LESSON FEATURES

The lessons include a number of features that help you navigate the instruction, and that provide background information, tips, and supplemental activities to extend or support word learning. These lesson features are listed in the table below.

Helpful Lesson Features

- **Topic Notes.** These notes appear at the beginning of some lessons and provide background information about important aspects of the instruction, including lesson structure, purpose, pedagogy, and approach.
- **Teacher Notes.** These notes appear in the lesson margins and alert you to a variety of things, including the purposes of various activities, hints for reviewing previously taught words, and ways to support struggling students. Notes also provide additional information about the words themselves.
- **Cooperative Structure Icons.** These icons indicate where in a lesson a cooperative structure, “Turn to Your Partner” or “Think, Pair, Share,” is used.
- **Whiteboard Activity Icons.** These icons show where in a lesson a whiteboard activity is used.
- **“You might say.”** This feature provides sample language you can draw on when you model how a word is used. If the students struggle to understand or use a word, you might use “You might say” suggestions to provide support.
- **ELL Notes.** These notes suggest ideas for supporting your English Language Learners. Spanish cognates are provided for some words. (See “Support for English Language Learners (ELLs)” on page xxx.)
- **More ELL Support Activities.** These supplemental activities focus on building English Language Learners’ vocabulary and oral language skills.
- **Prompt Cues.** The word *PROMPT* identifies language you can use to prompt the students’ responses to a question or activity. Each prompt relates to the vocabulary word being discussed.
- **Class Vocabulary Assessment Notes.** These notes help you observe and assess the whole class during Ongoing Review activities. (See “Assessments” on page xxvii.)
- **Technology Tips.** These tips suggest ways you might use an interactive whiteboard or other technology during a lesson.
- **More Strategy Practice Activities.** These optional activities provide the students with further instruction and practice in independent word-learning strategies, such as recognizing synonyms and antonyms and using context to determine word meanings.
- **Extension Activities.** These supplemental activities extend student learning by exploring independent word-learning strategies not formally taught in the program, figurative language, and other interesting ways that authors use words.

Using the Technology Features

The *Making Meaning* program incorporates digital technology to enhance your students' learning experience and streamline your preparation, instruction, and assessment processes. For information on the *Digital Teacher's Set*, the CCC Learning Hub, and the CCC ClassView app, see "Digital Teacher Resources" in the Introduction of the *Teacher's Manual*.

For teaching the vocabulary lessons, a variety of online resources have been developed to directly support the vocabulary instruction for each week and are available on the CCC Learning Hub. For more information, see the "Using CCC's Learning Hub" tutorial (AV39).

- **Whiteboard activities.** These interactive activities allow you to display the words as they are taught during the week, display the prompts as they are used in a day's lesson, and, on occasion, guide students seamlessly through games and activities used to review the words in Day 2, 4, and 5. For more information, see the "Using the CCC Whiteboard Activities" tutorial (AV40).
- **Printable reproducibles.** These resources, including weekly family letters, word cards, and crossword puzzles, provide additional lesson support for students and their families. For more information on how these can be used, see "Additional Ways to Review the Words" on the next page.
- **Assessment forms.** These online forms allow you to record the students' progress on both class and individual assessments. You can print these forms from the CCC Learning Hub or use the CCC ClassView app to electronically record data for the class. For more information about the CCC ClassView app, view the "Using the CCC ClassView App" tutorial (AV41).
- **Professional development media and technology tutorials.** These brief videos help you with effective implementation of the lessons. Technology Tips, located in the margins of the lessons, alert you to these videos and also suggest ways to incorporate technology into the instruction.

Retaining the Words

Research shows that students need multiple encounters with a word to make it a permanent part of their vocabulary. The *Vocabulary Teaching Guide* provides opportunities for the students to frequently hear and practice using the words they are learning.

ONGOING REVIEW ACTIVITIES

On Day 5 of each week, the students review previously learned words through Ongoing Review activities. These activities are similar to the activities used in the lessons. An interactive whiteboard activity is provided for displaying the cards, prompts, and occasional interactive games and activities for each Ongoing Review day. Additionally, reproducible word cards for the review words are provided on the CCC Learning Hub (ccclearninghub.org).

INTEGRATING PREVIOUSLY TAUGHT WORDS INTO LESSONS

To further support the students' word retention, words that have been taught in the program are sometimes reused in the introduction of a new word or in an activity. In these cases, a Teacher Note provides the word's definition so you can review it with the students.

ADDITIONAL WAYS TO REVIEW THE WORDS

We encourage you to look for opportunities outside of vocabulary time to review the words and help the students retain their meanings. You might:

- Use the words when you talk with the students.
- Encourage the students to use the words with their classmates. When you hear a word used, call attention to it.
- Encourage the students to use the words in their writing.
- Invite the students to listen and look for the words outside of the classroom. Track the words they hear and see by writing them on a classroom chart. If you hear a word used outside of class, discuss the use of the word with the students.
- Reproducible word cards in a small size are available for each week on the CCC Learning Hub (ccclearninghub.org). Make copies of the appropriate cards each week, one set for each student. Have the students keep the cards to review in class, or have them take the cards home to practice the words with their families.
- Each week send a family letter home with the students that includes a list of the words and definitions they are learning. (You will find weekly family letters, in both English and Spanish, on the CCC Learning Hub (ccclearninghub.org)). Ask the students to review and practice the words with family members.
- Keep copies of word cards in a learning center. The students can use the cards for word sorts and games such as "Concentration" and "Go Fish." Encourage the students to invent their own games using the cards and to play vocabulary games such as "Which Word Am I?"
- Make crossword puzzles and word searches using the words. Reproducible crossword puzzles are also available on the CCC Learning Hub (ccclearninghub.org).

Creating a Word-rich Classroom

Creating a classroom in which words are valued and enjoyed is an important step in helping your students develop an appreciation for words and word learning. Here are some suggestions for building a word-rich classroom:

- Exhibit your own curiosity about words. Talk about interesting words you see and hear and invite the students to share their own interesting words.
- Apply sophisticated words to everyday classroom situations.
- Encourage the students to suggest words for the class to learn. Collect the words in a suggestion box or list them on a chart. Choose some words to explore as a class.
- Make word resources available, including various dictionaries, a thesaurus, books of puns and riddles, stories and poems that use wordplay, and books of word games such as crossword puzzles and word searches.
- Play language games such as “Telephone,” sing songs, chant rhymes, and introduce the students to puns and riddles.
- Notice playful or creative uses of language in and outside of class, including made-up words, interesting proper names, idioms, and figures of speech such as metaphors, similes, and personification. Discuss these words with your students, model thinking of additional examples, and invite the students to give examples.

Assessments

The assessment tools in the *Vocabulary Teaching Guide* are designed to help you evaluate your students’ knowledge of the words they are learning and make informed instructional decisions as you progress through the program. Both formative and summative assessment tools are provided.

You will find record sheets for all assessments, as well as instructions and student response sheets for individual assessments, in the *Assessment Resource Book*. You may choose to record your students’ progress using printed copies of the forms from the *Assessment Resource Book* or through the CCC Learning Hub (ccclearninghub.org). Alternatively, you can use the CCC ClassView app to electronically record, sort, synthesize, and report assessment data for each student and the whole class. For more information, see “CCC ClassView App” in the Introduction of the *Teacher’s Manual*.

FORMATIVE ASSESSMENTS

Formative assessments help you reflect on your students' vocabulary growth over time through class observation and support you in differentiating instruction as necessary.

Class Vocabulary Assessment

Class Vocabulary Assessment Notes occur every two weeks (in Weeks 2, 4, 6, etc.) during the Ongoing Review activity. They are designed to help you evaluate the performance and needs of the whole class. During this assessment, we suggest that you walk around and observe the students. Ask yourself the questions in the Class Vocabulary Assessment Note and follow up as appropriate with the suggested interventions. You can record your observations on the corresponding "Class Vocabulary Assessment Record" sheet (CA). Additional suggestions for reviewing and practicing words can be found in "Retaining the Words" on page xxv.

SUMMATIVE ASSESSMENTS

Individual Vocabulary Assessment

At grades 2–6, the Individual Vocabulary Assessment is designed to help you assess individual students' knowledge of the words. The assessment occurs after Weeks 4, 8, 12, 16, 20, 24, 28, and 30. These multiple-choice assessments use activity formats familiar to the students from the weekly lessons. The students record their answers on the corresponding "Individual Vocabulary Assessment: Word Check" answer sheet (IA). You will find teacher instruction sheets and reproducible answer sheets in the *Assessment Resource Book* and on the CCC Learning Hub (ccclearninghub.org).

Student Self-assessment

At grades 2–6, the Student Self-assessment gives the students an opportunity to take responsibility for their learning by reflecting on their knowledge of the words using the "Student Self-assessment" response sheet (SA). Analysis of the response sheets alerts you to words in need of further review and practice.

We recommend that you administer the Student Self-assessment in place of or in addition to the Individual Vocabulary Assessment, with the students evaluating their knowledge of words you select. Suggestions for using the results of the assessment are included on the instruction sheet.

Other Ways to Assess Individual Progress

The Individual Vocabulary Assessment and Student Self-assessment are two useful tools for measuring an individual student’s word knowledge. We encourage you to consider using one or more of the following tasks periodically to provide you with additional information about a student’s understanding of the words:

- Ask the student what he or she knows about a word.
- Have the student use words he or she chooses to write or tell a story.
- Have the student act out a word.
- Have the student make a picture card that illustrates what the word means.

For more information about the assessments in the vocabulary lessons, see “About Vocabulary Assessment” in the Assessment Overview of the *Assessment Resource Book*.

Special Considerations

Support for English Language Learners (ELLs)

Learning new vocabulary can be especially challenging for ELLs. Strategies identified by researchers as “best practice” in ELL vocabulary instruction are inherent in the design of the vocabulary lessons. They are summarized in the table below.

ELL Vocabulary Instruction Strategies in the *Vocabulary Teaching Guide*

ELL Strategies	Use in the Vocabulary Lessons
Introduce a word in a meaningful context.	Each word is introduced through a familiar read-aloud text.
Define the word in clear, simple language.	Lessons provide classroom-tested, student-friendly definitions.
Use visual aids to support word learning.	When appropriate, lessons use text, photographs, and illustrations or real objects to make word meanings concrete. Teachers or student volunteers frequently act out words.
Model the way words are used.	Lessons include language that teachers can use to model or explain how a word is used. Prompts model for students how to use a word correctly.
Help students connect words to personal experience.	Teacher questions “personalize” a word by having students use the word to talk about themselves and their experiences.
Provide many opportunities to discuss and use a word in a variety of contexts.	Students practice using a word in various ways and review the word frequently.
Invite students to respond to words physically by associating a word with an action, gesture, or expression.	Students act out words and use gestures and expressions to convey meaning during role-playing activities.
Review words frequently.	Ongoing Review activities give students a chance to review words each week.

ADDITIONAL ELL SUPPORT

The program also includes these features to provide further support to ELLs:

- **ELL Notes.** These notes provide specific suggestions for modifying or enhancing instruction during a lesson to support ELLs. Suggestions include using realia (real objects) to introduce words, defining unfamiliar words in the activities, or simplifying activities and questions.
- **Spanish cognates.** An ELL Note will alert you when a Spanish cognate (a Spanish word that has a pronunciation, meaning, and spelling similar to an English word—for example, *pandemonium/pandemonio*) is provided for a word taught in the program. During a lesson, you might write the Spanish cognate underneath the English word and briefly point out letters and sounds that are the same or similar in both words. Research shows that teaching cognate awareness accelerates the English language vocabulary development of Spanish-speaking ELLs. For help in pronouncing the Spanish cognates, see Appendix E.
- **More ELL Support activities.** More ELL Support activities are provided in some weeks and give ELLs additional opportunities to build vocabulary and oral language skills.
- **Spanish family letters.** Weekly family letters provided on the CCC Learning Hub (ccclearninghub.org) are available in Spanish and include the vocabulary words and definitions.

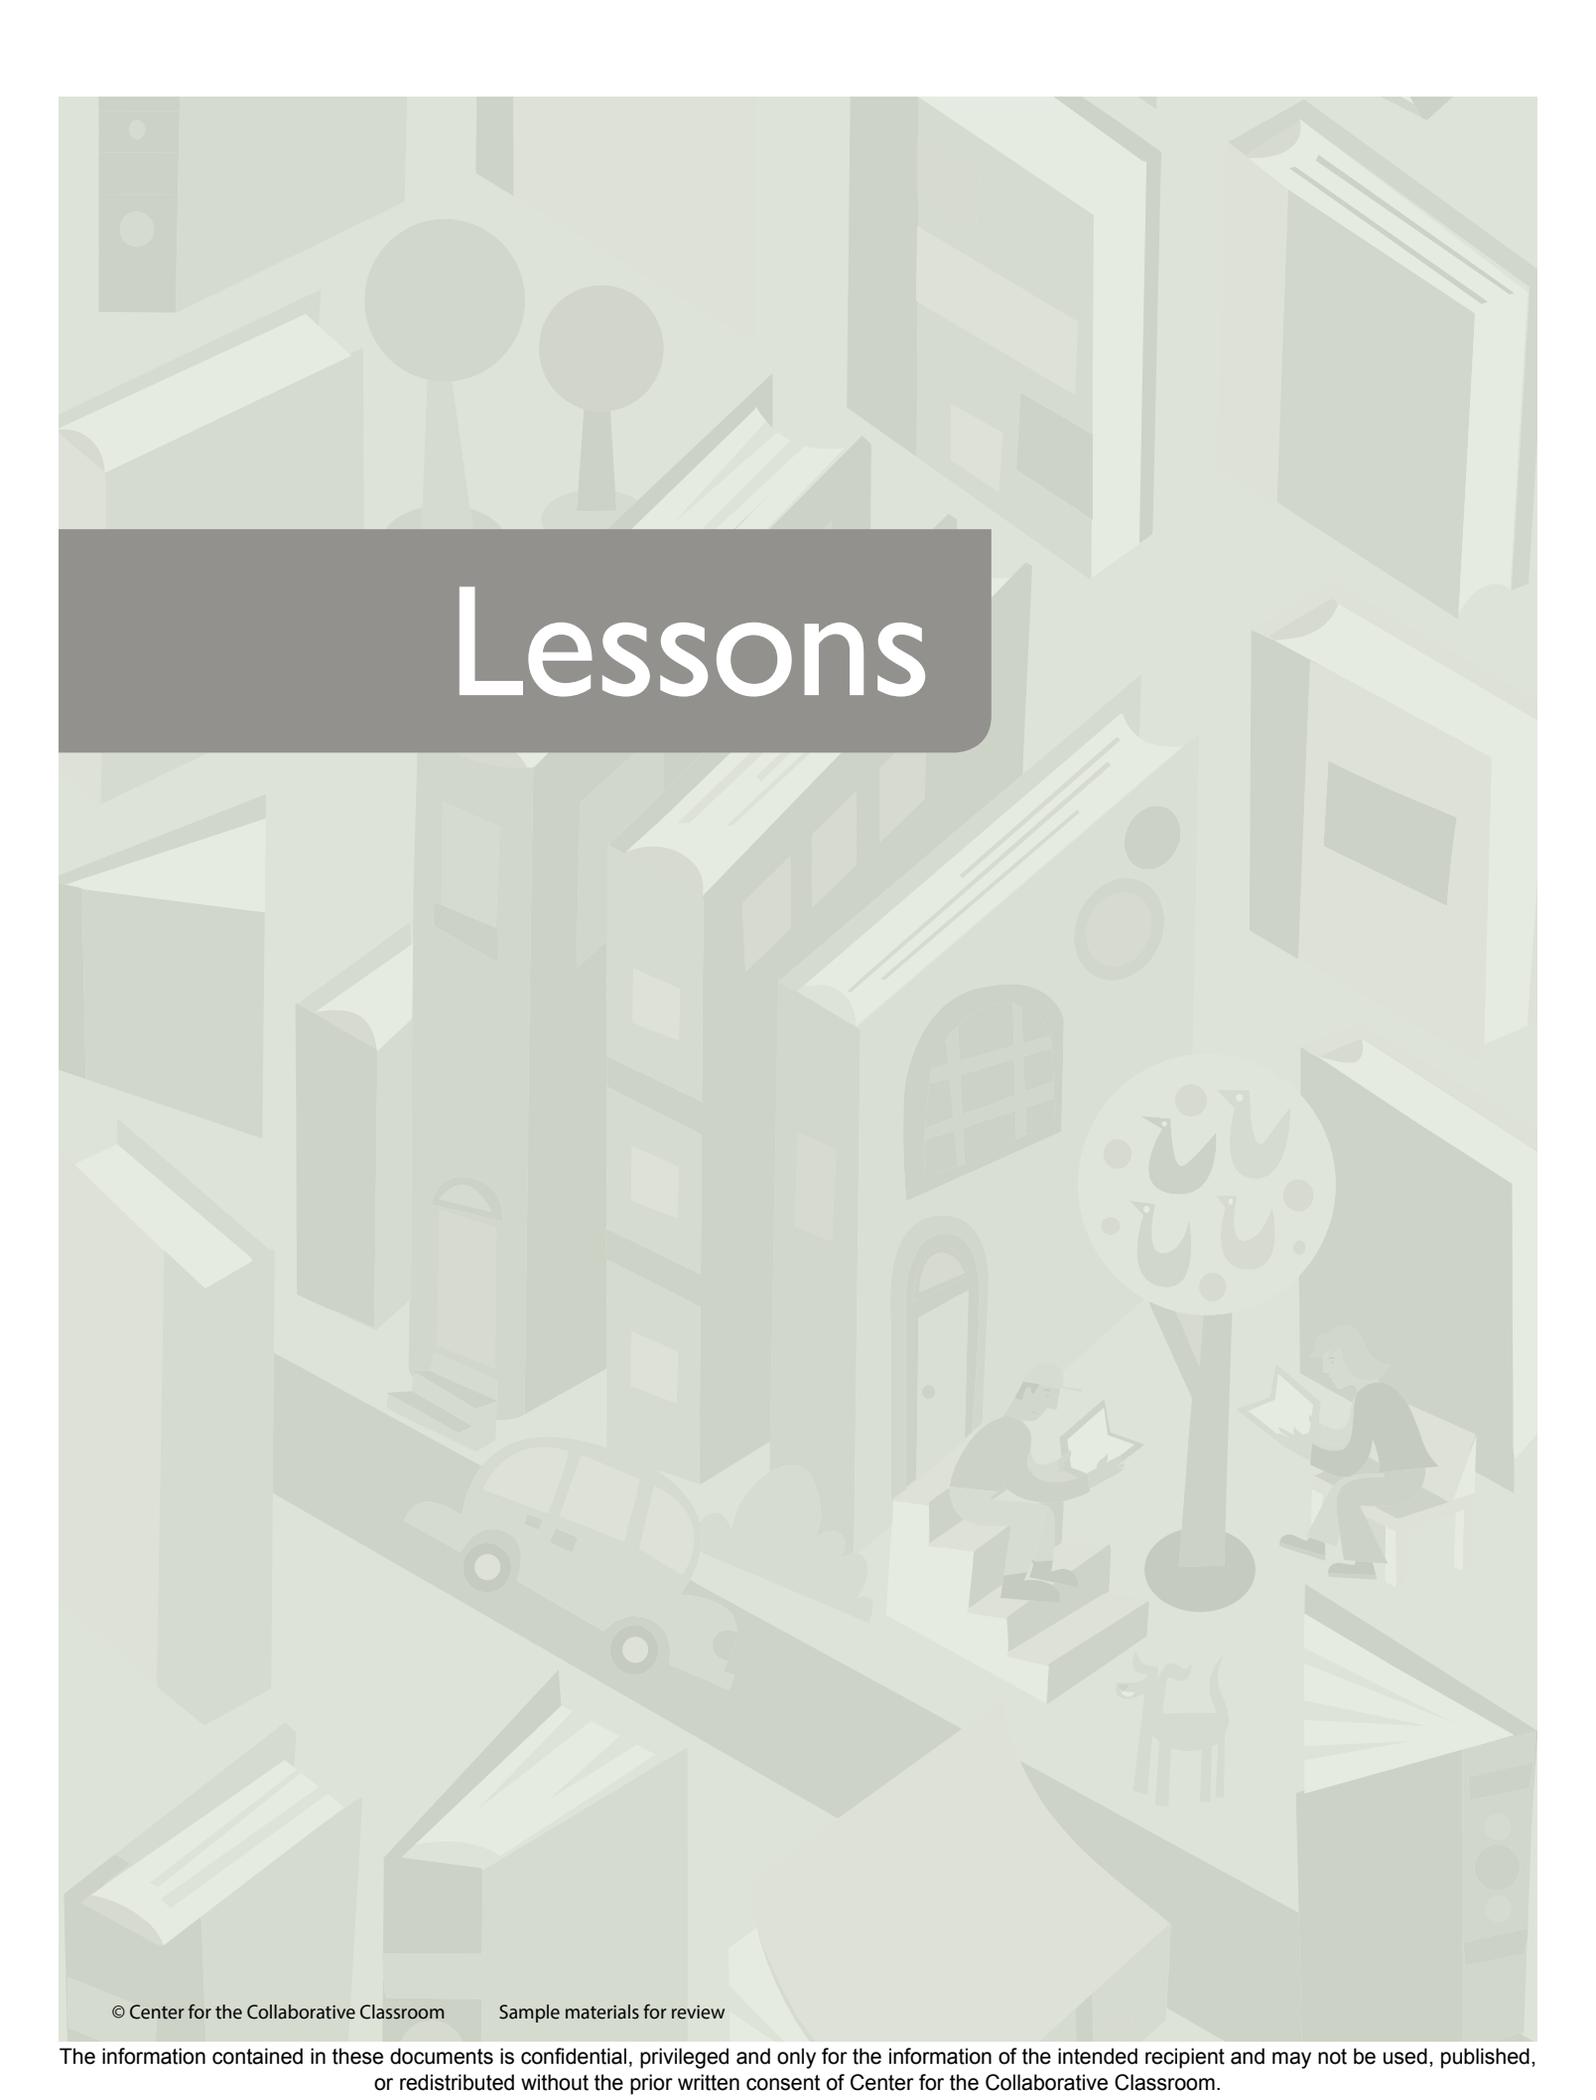

For more information about English Language Learners and how to support them, see “Support for English Language Learners (ELLs)” in the Introduction of the *Making Meaning Teacher’s Manual*.

Building the Home-School Connection

Keeping families informed about their children’s participation in the vocabulary program helps family members understand and appreciate how their children are building their vocabulary and how they can support that development.

FAMILY LETTERS

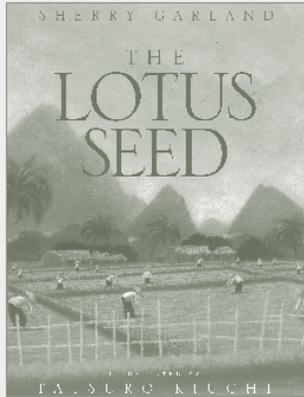

We provide a letter to send home with the students at the end of each week, available in both English and Spanish. Each letter includes the week’s words and meanings and suggestions for helping the students review the words and build their word-learning skills. The family letters are included in the Online Resources list for each week and can be accessed via the CCC Learning Hub (ccclearninghub.org).

Lessons

Week 1

RESOURCES

Read-alouds

- *The Lotus Seed* by Sherry Garland, illustrated by Tatsuro Kiuchi
- *Something to Remember Me By* by Susan V. Bosak, illustrated by Laurie McGaw

More Strategy Practice

- “Play ‘Use the Clues’”

Extension

- “Use the Vocabulary Words Throughout the Day”

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA12

Reproducibles

- Introductory family letter (BLM1)
- Week 1 family letter (BLM2)
- (Optional) “Week 1 Word Cards” (BLM3)

Professional Development Media

- “Using ‘Turn to Your Partner’” (AV6)
- “Using the CCC Learning Hub” tutorial (AV39)
- “Using CCC’s Whiteboard Activities” tutorial (AV40)
- “Using Web-based Whiteboard Activities” tutorial (AV42)

OVERVIEW

Words Taught

clamor
*pandemonium**
towering
memento
reassure
tattered

Words Reviewed

clamor
memento
pandemonium
reassure
tattered
towering

*Concept words are italicized in word lists the week they are introduced. For more about concept words, see “The Words” in the Introduction.

Word-learning Strategies

- Using context to determine word meanings
- Using the Latin roots *mem* and *memor* to determine word meanings

Vocabulary Focus

- Students learn and use six words from or about the stories.
- Students discuss using context to determine word meanings.
- Students use the Latin roots *mem* and *memor* to determine word meanings.
- Students build their speaking and listening skills.

Social Development Focus

- Teachers and students build the reading community.
- Students practice the procedure for “Turn to Your Partner.”
- Students work in a responsible way.
- Students listen respectfully to the thinking of others and share their own.

DO AHEAD

- ✓ Familiarize yourself with the CCC Learning Hub (ccclearninghub.org), where the online resources for each lesson are located. For more information, view the “Using the CCC Learning Hub” tutorial (AV39). 
- ✓ This week the students use “Turn to Your Partner” to discuss their thinking in pairs. You may wish to review the procedure for “Turn to Your Partner” prior to Day 1 (see Step 1 in Unit 1, Week 1, Day 2 of the *Teacher’s Manual*). To see an example of how to use this strategy with your students, view “Using ‘Turn to Your Partner’” (AV6). 
- ✓ Prior to Day 1, visit the CCC Learning Hub (ccclearninghub.org) to access and print the introductory family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ (Optional) Prior to Day 1, review the more strategy practice activity “Play ‘Use the Clues’” on page 13. You might do the activity at the end of the lesson or at another time.
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this week’s family letter (BLM2). Make enough copies to send one letter home with each student.
- ✓ (Optional) Visit the CCC Learning Hub (ccclearninghub.org) to access and print “Week 1 Word Cards” (BLM3). These cards can be used to provide your students with more opportunities to review the words. For more information, see “Additional Ways to Review the Words” in the Introduction.

Introduce *Clamor*, *Pandemonium*, and *Towering*

Day 1

In this lesson, the students:

- Learn and use the words *clamor*, *pandemonium*, and *towering*
- Discuss using context to determine word meanings
- Build their speaking and listening skills
- Practice using “Turn to Your Partner”
- Listen to one another

Words Taught

clamor (p. 12)

Clamor means “demand or ask for something loudly.”

pandemonium

Pandemonium means “chaos or confusion.”

towering (p. 16)

Towering means “very tall.”

ABOUT CONCEPT WORDS

Most words taught in the *Vocabulary Teaching Guide* are taken directly from the read-aloud texts used in the *Making Meaning* program. Occasionally, however, we teach a word that does not appear in the book. We refer to those words as *concept words*. In the week in which they are introduced, concept words appear in italics in word lists.

In some cases, we teach a concept word because it represents a concept or idea that is important to the story and worthwhile for the students to know. For example, this week we teach the concept word *pandemonium* because it helps the students understand an important event in the story. In other cases, we teach a concept word because it enables us to introduce or review an important independent word-learning strategy, such as recognizing synonyms or using a prefix to determine a word’s meaning. For example, we teach the concept word *delectable* in connection with the book *Everybody Cooks Rice* (Week 2) to introduce the students to synonyms, and we teach the word *dissatisfied* in connection with the article “Follow That Ball!” (Week 4) to introduce the prefix *dis-*. For more information about concept words, see “The Words” in the Introduction.

ABOUT PROMPTED RESPONSES

To learn a new word well, it is critical that the students use the word often and, whenever possible, in sentences. To facilitate this practice, we frequently ask the students to reply to questions with prompted responses. These structured responses may seem awkward or stilted initially, but the students will soon

Materials

- *The Lotus Seed*
- Word card 1 (WA1)
- Word card 2 (WA2)
- “Sentence from *The Lotus Seed*” chart (WA3)
- Word card 3 (WA4)
- Copy of the introductory family letter (BLM1) for each student

Teacher Note

Incorporate this week's social development focuses into the lessons by encouraging the students to listen respectfully to one another and to take responsibility for their learning and behavior. At the end of a lesson, you might ask the students what they did to be good listeners. For more about social development in the vocabulary lessons, see "Social Development and Cooperative Structures" in the Introduction.

Teacher Note

The students can work within partnerships already established during the *Making Meaning* lessons, or you may assign new partners for the vocabulary lessons. For more information on assigning partners randomly, see "Social Development and Cooperative Structures" in the Introduction.

Teacher Note

This lesson may require an extended class period. You might want to stop the lesson at the end of Step 5 and then finish the lesson later in the day or the next day.

become comfortable using them. It is important for the students to use the prompts in both whole-class discussions and partner conversations.

We recommend that you project the prompts for each word using an interactive whiteboard. Alternatively, you might display them using a document camera or write them on chart paper. For more information about the prompts, see "Using the Prompts to Discuss the Words" in the Introduction.

ABOUT USING CONTEXT TO DETERMINE WORD MEANINGS

This week you will formally introduce the students to using context to determine word meanings, an important word-learning strategy they can use in their independent reading. In this lesson, the students learn that they can sometimes figure out the meaning of a word by reading the sentence that includes the word, or the sentence that comes before or after that sentence, to look for clues. In subsequent lessons, the students will review and practice the strategy. (For a list of the weeks in which using context to determine word meanings is reviewed, see Appendix C.) It is important to point out that we have the students practice the strategy only when the text of a read-aloud provides explicit clues to a word's meaning. If you wish to use other texts to provide the students with more practice in using context to determine word meanings, we suggest that you look for words that are clearly defined or explained by the context, so that the students will not have to guess at the meanings. For more information about using context to determine word meanings and other word-learning strategies, see "Independent Word-learning Strategies" in the Introduction.

GET READY TO LEARN NEW WORDS

1 Introduce the Vocabulary Lessons

Gather the class with partners sitting together, facing you. If necessary, review the procedure for gathering on the rug. Remind the students of your expectations for how they should move and sit.

Introduce the vocabulary lessons by telling the students that this year they will learn many new and interesting words that they can use when they talk with one another and when they write. Tell them how much you enjoy learning and using words, and then share some of your favorite words with the class.

You might say:

"One of my favorite words is *snout* because I love the way it sounds, and it makes me smile when I say it. Another of my favorite words is *anemone* because *anemone* is a fun word to say, and it's fun to hear people say it."

Briefly discuss as a class:

Q *What are some of your favorite words? Why do you like those words?*

Have a few volunteers share their thinking with the class.

INTRODUCE AND USE CLAMOR

2 Introduce and Define *Clamor*

Tell the students that the words they will learn this year are from or about the read-aloud books in the *Making Meaning* lessons. Show the cover of *The Lotus Seed* and read the title and the name of the author aloud. Remind the students that they heard this story earlier, and explain that today's words are from or about this story.

Show pages 12–13 and remind the students that in this part of the story a war begins, and soldiers force Bà and the people of her village to leave their homes. Read page 12 aloud, emphasizing the word *clamored*.

Tell the students that the first word they will learn today is *clamor*, and explain that *clamor* means “demand or ask for something loudly.” Explain that the soldiers bang on people’s doors and clamor for people to leave, or demand loudly that they go.

Display word card 1 (🌐 WA1) and have the students say the word *clamor*.

TEKS 7.F.i
Student/Teacher Narrative
Steps 2 and 3

3 Introduce Using the Prompts

Tell the students that to learn a new word like *clamor* well, it is important that they use the word in sentences. Explain that saying the word in a sentence will help them learn to pronounce the word, use it correctly, and remember its meaning.

Tell the students that as they discuss questions about the word *clamor* and other words, you will give them sentence starters, which are sentences that they will use to answer the questions. Tell the students that we call these sentence starters “prompts” and explain that the students will use prompts to discuss the words today. Click ❶ on word card 1 (WA1) to reveal the first prompt.

4 Use the Word *Clamor* to Discuss the Story and Practice Using a Prompt

Remind the students that the word *clamor* means “demand or ask for something loudly,” and review that when bombs start to fall on the village the soldiers clamor from door to door.

Ask:

Q *What might the soldiers do or say as they clamor from door to door?*

ELPS 1.B.i
ELPS 1.C.i
Steps 3 and 4 and ELL Note on
page 8

TEKS 7.F.i
Student/Teacher Activity
Step 4

ELPS 2.E.iii
Steps 4 and 5, last Teacher Note on p. 7,
and ELL Note on p. 8

Teacher Note

If the students have difficulty thinking of words, stimulate their thinking by suggesting a topic, such as favorite foods, places, or games, or by asking them what word makes them laugh when they hear or say it.

Teacher Note

For more information about introducing the vocabulary words, see “Introducing the Words” in the Introduction.

ELL Note

The Spanish cognate of *clamor* is *clamar*.

Technology Tip

Whiteboard activities (WAs) can be displayed using an interactive whiteboard. Alternatively, you may print the whiteboard activities and project them using a projection device. For more information, view the “Using CCC’s Whiteboard Activities” tutorial (AV40).

Teacher Note

We suggest that you display word card 1 (WA1) on an interactive whiteboard. Click the appropriate number to reveal each prompt as it is used.

Alternatively, you might write the prompts on a sheet of chart paper, and then fold up the bottom of the sheet and tape it so that only the first prompt is visible. For each subsequent prompt, move the fold down so that the prompt becomes visible.

Point to prompt 1. Have one or two volunteers use the prompt to share their thinking with the class.

clamor

PROMPT 1: When the soldiers **clamor** from door to door, they might . . .

1 2

PROMPT 1: “When the soldiers clamor from door to door, they might . . .”

5 Play “Clamoring or Not Clamoring?”

Review that when people clamor, they demand or ask for something noisily. Explain that people might clamor because they are angry—like the soldiers in the story—or they might clamor because they are excited.

Give examples of times when you have clamored or seen others clamor.

You might say:

“On the TV news, I saw people protesting against the government. They were angry about something the government had done and were clamoring, or loudly demanding, that the government stop what it was doing. Last summer I went to see my favorite band in concert. When the band left the stage, everyone in the audience clamored for them to come back and sing another song. We were very excited, and we screamed and yelled until they came back on stage.”

Tell the students that they will play a game called “Clamoring or Not Clamoring?” Explain that you will describe people who are either clamoring or not clamoring. Tell the students that when you say “Turn to your partner,” partners will discuss whether the people you described are clamoring or not clamoring and explain why they think so.

Begin by reading the following scenario aloud, slowly and clearly:

- *An audience is quietly eating popcorn and watching a movie.*

ELL Note

Prompts are especially helpful to students with limited English proficiency. For more information about supporting English Language Learners, see “Support for English Language Learners (ELLs)” in the Introduction.

Teacher Note

If necessary, review the procedures for “Turn to Your Partner” (see Step 1 in Unit 1, Week 1, Day 2 of the *Teacher’s Manual*).

Ask:

Q *Is the audience clamoring? Why do you think that?*

Click **2** to reveal the prompt. Then say “Turn to your partner” and have partners use the prompt to discuss the questions.

PROMPT 2: “The audience [is/is not] clamoring because . . .”

When most pairs have finished talking, signal for the students’ attention and have a few volunteers share their thinking with the class.

Using the same procedure, have the students discuss the scenarios that follow. Remind partners to use prompt 2 as they share their thinking.

- *The movie stops during a very exciting part and the screen goes black. The audience angrily shouts for the manager.*
- *When the manager cannot fix the problem, the people in the audience boo and hiss and insist that he refund their money.*

Point to the word *clamor* and ask:

Q *What’s the new word we are learning that means “demand or ask for something loudly”?*

INTRODUCE AND USE PANDEMONIUM

6 Introduce and Define *Pandemonium*

Show pages 12–13 of *The Lotus Seed* again. Direct the students’ attention to the illustration on page 13 and point out the fires and the people running for safety.

Explain that bombs falling, fires burning, soldiers clamoring, and people running for safety cause pandemonium in Bà’s village. Tell the students that *pandemonium* is the next word they will learn today, and explain that *pandemonium* means “chaos or confusion.”

Display word card 2 (WA2) and have the students say the word *pandemonium*.

7 Discuss *Pandemonium*

Explain that fear sometimes leads to pandemonium, and give a few examples of times when there might be pandemonium.

You might say:

“Pandemonium might occur during or after a natural disaster such as a hurricane or earthquake. There might be chaos and confusion because people are afraid and don’t know what to do. An animal escaping from its cage at the zoo might cause pandemonium among the visitors.”

Teacher Note

Listen as partners talk and remind them to use the prompt if necessary. If you notice that the students struggle to use the word *clamor* meaningfully, review its definition and then repeat the question.

Teacher Note

Follow this procedure for all subsequent “Turn to Your Partner” activities.

Teacher Note

Repeating the definition of the word and having the students pronounce it provides another opportunity for the students to hear the word and think about its meaning.

ELL Note

The Spanish cognate of *pandemonium* is *pandemonio*.

Ask:

Q *Would there be pandemonium if a spaceship landed on the playground? Why do you think that?* [Click **1** on WA2 to reveal the first prompt.]
Turn to your partner.

WA2

pandemonium

PROMPT 1: There [would/would not] be **pandemonium** on the playground because . . .

1 **2**

PROMPT 1: “There [would/would not] be pandemonium on the playground because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention. Have a few volunteers use the prompt to share their thinking with the class.

Discuss as a class:

Q *What might pandemonium on the playground look like? What might it sound like?*

Click **2** to reveal the next prompt. Have one or two volunteers use the prompt to share their thinking with the class.

PROMPT 2: “Pandemonium on the playground might [look/sound] like . . .”

Point to the word *pandemonium* and ask:

Q *What’s the new word we are learning that means “chaos or confusion”?*

INTRODUCE AND USE TOWERING

8 Introduce *Towering* and Using Context to Determine Word Meanings

Display the “Sentence from *The Lotus Seed*” chart (WA3). Show page 16 of *The Lotus Seed* and remind the students that in this part of the story Bà leaves her homeland because of the warfare. Read the charted sentence aloud where it appears on page 16, emphasizing the word *towering*.

TEKS 3.B.i
Student/Teacher Narrative
Step 8

Teacher Note

Support struggling students by asking questions such as “What would people do if they saw a spaceship land?” “How would they move?” “Where would they go?” and “What would they say?”

ELPS 1.C.i
ELPS 4.F.iii
Step 8

Teacher Note

Alternatively, you might write the sentence from *The Lotus Seed* where everyone can see it.

Sentence from *The Lotus Seed*

She arrived in a strange new land with blinking lights and speeding cars and towering buildings that scraped the sky and a language she didn't understand.

PROMPT 1: I think **towering** might mean _____.

PROMPT 2: The words _____ are a clue to the meaning because . . .

Tell the students that the last word they will learn today is *towering*. Direct the students' attention to the context sentence on the chart (WA3), and explain that this is the sentence from *The Lotus Seed* that you read aloud. Point to the word *towering* on the chart and underline it. Tell the students that they can sometimes figure out the meaning of an unfamiliar word—like *towering*—by looking for clues. Explain that they can look for clues by rereading the sentence that includes the word, or they can look for clues in the sentences that come before or after it. Explain that, as you reread the sentence that includes the word *towering*, you want them to think about what *towering* might mean and which words in the sentence are clues to the meaning of *towering*.

Read the sentence aloud twice, slowly and clearly, emphasizing the word *towering*. Then discuss as a class:

Q *Based on what you just heard, what do you think the word towering might mean?*

Point to prompt 1 on the chart and have one or two volunteers use the prompt to share their thinking with the class.

PROMPT 1: "I think *towering* might mean ['very tall']."

Then ask:

Q *What words in the sentence are clues to the meaning of towering?*

Point to prompt 2 and have a few volunteers use the prompt to share their thinking with the class.

PROMPT 2: "The words ['scraped the sky'] are a clue to the meaning because . . ."

Circle the context clues on the chart as the students identify them. If necessary, explain that *towering* means "very tall" and that the words "scraped the sky" are clues that help us figure out that towering buildings must be very tall buildings—so tall that they seem to scrape, or touch, the sky.

Teacher Note

You might say "blank" for the missing word or words and explain that this is where the students use their own words to answer the question.

Technology Tip

To find web-based activities that focus on using context to determine word meanings, you might search online using the keywords "whiteboard context clues activities." For more information, view the "Using Web-based Whiteboard Activities" tutorial (AV42).

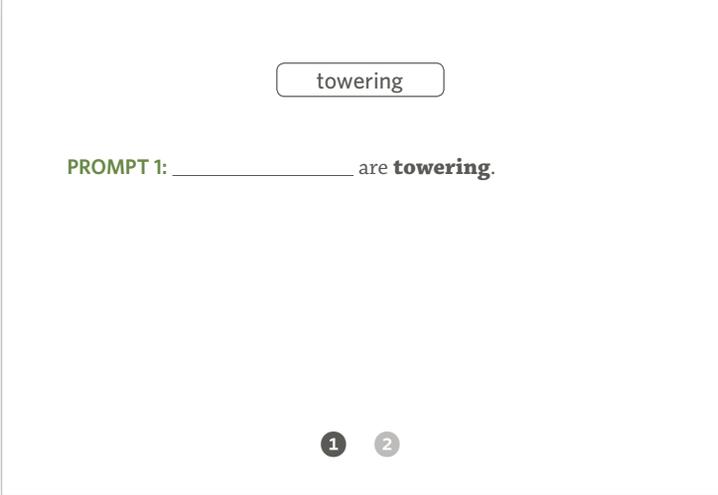

Display word card 3 (WA4), and have the students say the word *towering*.

9 Discuss Towering Things

Remind the students that skyscrapers like those in *Bà* are towering. Discuss as a class:

Q *What other things are or can be towering, or very tall?*

Click **1** on word card 3 (WA4) to reveal the first prompt.

towering

PROMPT 1: _____ are **towering**.

1 2

WA4

Teacher Note

If the students struggle to name towering things, give a few examples (redwood trees, construction cranes, waves, clouds, a giant in a fairy tale). Then repeat the question.

PROMPT 1: “[Mountains] are towering.”

10 Introduce the Activity “Imagine That!”

Tell the students that they will do an activity called “Imagine That!” Explain that the students will close their eyes and imagine a situation you describe. Then they will use the word *towering* to discuss what they imagined.

Have the students close their eyes and imagine the following situation as you read it aloud:

- *You are an ant bringing food to your colony. You are crawling around a campground site.*

Ask:

Q *What towering objects do you see around you?*

Give the students a few moments to think about the question; then have them open their eyes. Click **2** to reveal the prompt and have a few volunteers use the prompt to share their ideas with the class.

PROMPT 2: “I see [people] towering around me.”

Point to the word *towering* and ask:

Q *What’s the new word we are learning that means “very tall”?*

Tell the students that tomorrow they will talk more about the words they learned today.

MORE STRATEGY PRACTICE

More Strategy Practice activities provide the students with additional opportunities to review and use an independent word-learning strategy. The activities are optional and can be done at the end of the lesson or at another time.

Play “Use the Clues”

Display the “Use the Clues” chart (🗨️ WA5).

Use the Clues

The sailors said they saw an enormous _____
beneath the boat. They said it had huge, jagged teeth and
mean, scary eyes.

The sailors were _____ when they saw it. Many
screamed and ran for cover; others stood frozen with fear.

PROMPT: I think the missing word is _____
because . . .

WA5

Remind the students that they can sometimes figure out the meaning of a word they do not know by rereading the sentence that includes the word, or the sentences that come before or after it, to look for clues. Explain that today partners will play a game called “Use the Clues,” in which they look for clues to a word that is missing from a sentence.

Direct the students’ attention to the first example. Point to the blank and explain that as you read each sentence aloud, you want the students to think about what the missing word might be and which words in the sentences are clues to the missing word. Tell the students that more than one word might make sense as the missing word and that the word does not have to be a vocabulary word. Explain that partners may disagree about what the missing word might be and that is fine. What is important is that the students explain their thinking.

Read the sentences in the first example aloud twice, slowly and clearly, saying “blank” for the missing word.

Teacher Note

Send home with each student a copy of the introductory family letter (BLM1). Encourage the students to talk about ways in which they are learning new words with their families.

Materials

- “Use the Clues” chart (WA5)

Teacher Note

Alternatively, you might write the “Use the Clues” sentences where everyone can see them.

Teacher Note

Listen as partners share. If the students cannot suggest a word, or suggest words that are not supported by the context, call for their attention. Provide a word and point out the context clues. Then have the students discuss the second example.

Teacher Note

Although *monster* and *beast* are logical responses, the students may reasonably argue that *shark*, *whale*, *fish*, or another word is also supported by clues in the sentence. What is important is that the students explain their thinking.

Teacher Note

Possible responses include *scared*, *terrified*, *frightened*, and *afraid*.

Ask:

Q *What's the missing word? What words are clues to the missing word?*

Give the students a few moments to think about the questions. Read the prompt aloud; then say "Turn to your partner" and have partners use the prompt to share their ideas.

PROMPT: "I think the missing word is [*monster*] because . . ."

When most pairs have finished talking, signal for the students' attention. Have one or two volunteers use the prompt to share their thinking with the class.

If necessary, explain that the missing word might be *beast* or *monster*, and that the words *enormous*, *huge*, *jagged teeth*, and *mean*, *scary eyes* are clues that the sailors saw some type of frightening creature in the sea.

Use the same procedure to discuss the sentences in the second example.

Day 2

Review *Clamor*, *Pandemonium*, and *Towering*

Materials

- Daily review cards (WA6)
- "Tell Me a Story" chart (WA7)

In this lesson, the students:

- Review and practice using the words *clamor*, *pandemonium*, and *towering* from Day 1
- Build their speaking and listening skills
- Listen to one another

Words Reviewed

clamor

Clamor means "demand or ask for something loudly."

pandemonium

Pandemonium means "chaos or confusion."

towering

Towering means "very tall."

REVIEW THE WORDS

1 Briefly Review the Words

If necessary, review the procedure for gathering; then gather the class with partners sitting together, facing you.

Display the daily review cards (🗨️ WA6) and remind the students that yesterday they learned three words from or about the story *The Lotus Seed*. Point to each of the following words as you review the pronunciation and meaning: *clamor*, *pandemonium*, and *towering*. Tell the students that today they will talk more about the words.

Discuss as a class:

Q Which of yesterday's words do you think was especially fun to talk about? Why do you think that?

Click 1 on the daily review cards (WA6) to reveal the prompt. Have a few volunteers use the prompt to share their thinking with the class.

clamorpandemoniumtowering

PROMPT 1: I think the word _____ was especially fun to talk about because . . .

1

WA6

PROMPT 1: “I think the word [*pandemonium*] was especially fun to talk about because . . .”

PRACTICE USING THE WORDS

2 Introduce the Activity “Tell Me a Story”

Tell the students that partners will do an activity called “Tell Me a Story.” Explain that you will tell them the beginning of a story that includes one of the vocabulary words. The students will use their imaginations and what they know about the word to make up an ending for the story. Tell the students that before partners do the activity together, they will practice together as a class.

Display the “Tell Me a Story” chart (🗨️ WA7) and show story 1 and its accompanying prompt. Tell the students that story 1 uses the word *clamoring*. Then read the story 1 aloud, slowly and clearly.

- Story 1: *It is dinner time. Ethan is just about to sit down with his family when he hears a crowd of children clamoring at his front door. He runs to the door to find out what is going on. The children are clamoring because . . .*

Teacher Note

If the students struggle to answer the question, talk about a word you thought was fun to discuss. For example, say “I think the word *pandemonium* was fun to talk about because I enjoyed listening to your ideas about what the *pandemonium* would look and sound like if a spaceship landed on the playground. I thought our discussion of *towering* was fun because you had creative ideas about things you would see *towering* around you if you were an ant.”

Teacher Note

If the students have difficulty thinking of an ending, review the definition of *clamor* and think aloud about an ending. For example, say “The children are clamoring because they are excited. They are Ethan’s friends, and they are shouting for him to come outside and play.” Then reread the beginning of the story and repeat the questions.

Teacher Note

When two questions appear next to a **Q**, ask both questions before having the class or partners discuss their thinking.

Discuss as a class:

Q *How might you finish the story? Why are the children clamoring?*

Give the students a few moments to think about the story and the questions. Then point to prompt 1 and have a few volunteers share their ideas with the class.

Tell Me a Story

It is dinner time. Ethan is just about to sit down with his family when he hears a crowd of children clamoring at his front door. He runs to the door to find out what is going on. The children are clamoring because . . .

PROMPT 1: The children are **clamoring** because . . .

WA7

PROMPT 1: “The children are clamoring because . . .”

3 Do the Activity in Pairs

Continue doing the activity in pairs using story 2. Show story 2 on the chart (WA7) and read the story aloud:

- *Story 2: It is evening. Rachel is in her room reading a book. Suddenly she hears noise outside. She looks out her window and sees pandemonium in the street. The pandemonium is caused by . . .*

Ask:

Q *How might you finish the story? What is causing the pandemonium?* [Point to prompt 2 on WA7.] *Turn to your partner.*

PROMPT 2: “The pandemonium is caused by . . .”

Have partners use the prompt to take turns answering the questions. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Follow up by asking:

Q *What does the pandemonium look like? What does it sound like?*

Point to prompt 3 and have the volunteers use the prompt to share their thinking.

PROMPT 3: “The pandemonium [looks/sounds] like . . .”

Use the same procedure to discuss story 3:

- Story 3: *It is the year 2075. A team of astronauts has reached Mars. The astronauts land their ship, open the hatch, and step onto Mars. To their amazement, they see a towering . . .*

Q How might you finish the story? What towering thing do the astronauts see? [Point to prompt 4.] Turn to your partner.

PROMPT 4: “To their amazement, they see a towering . . .”

Follow up by asking:

Q What might the astronauts do when they see a towering [Martian creature]?

Point to prompt 5 and have the volunteers use the prompt to share their thinking.

PROMPT 5: “When they see a towering [Martian creature], the astronauts might . . .”

Tell the students that tomorrow they will learn and talk about three new words.

Introduce *Memento*, *Reassure*, and *Tattered*

Day 3

In this lesson, the students:

- Learn and use the words *memento*, *reassure*, and *tattered*
- Discuss the Latin roots *mem* and *memor*
- Build their speaking and listening skills
- Listen to one another

Words Taught

memento

A *memento* is “something given or kept as a reminder of a person, place, or experience.”

reassure (p. 21)

When you reassure someone, you make the person feel less worried. You calm the person and give the person courage or confidence.

tattered (p. 26)

Tattered means “torn and ragged.”

Materials

- *Something to Remember Me By*
- Word card 4 (WA8)
- Word card 5 (WA9)
- Word card 6 (WA10)

ABOUT USING PREFIXES, SUFFIXES, AND ROOTS TO DETERMINE WORD MEANINGS

Research shows that teaching students to use word parts such as prefixes, suffixes, and roots to unlock word meanings can help them become more proficient independent word-learners and contribute to their vocabulary growth (White 1989). This week the students discuss the first of six word parts they will learn this year, the Latin roots *mem*, meaning “mind,” and *memor*, meaning “to remember.” In subsequent lessons, they will learn the Latin roots *mot* (“move”) and *act* (“do”), the suffixes *-er* (“person who” or “thing that”) and *-less* (“without” or “having no”), and the prefixes *dis-* (“not” or “opposite of”) and *pre-* (“before”). For tables of the word parts taught, the words through which they are introduced, and the lessons in which they are taught and reviewed, see Appendix C. For more information about using prefixes, suffixes, and roots to determine word meanings and other word-learning strategies, see “Independent Word-learning Strategies” in the Introduction.

INTRODUCE AND USE *MEMENTO*

1 Introduce and Define *Memento*

Gather the class with partners sitting together, facing you.

Review that earlier this week the students learned three words from or about the book *The Lotus Seed*. Then show the cover of *Something to Remember Me By* and read the title and name of the author aloud. Remind the students that they heard this story earlier and explain that today they will learn three words from or about this story.

Show pages 10–11 and remind the students that in this part of the story the grandmother gives her granddaughter a doll. Read the following sentences from page 11 aloud: “‘I want to give you something to remember me by,’ the grandmother started . . . She handed her granddaughter a wooden doll.”

Tell the students that the first word they will learn today is *memento*. Explain that a *memento* is “something given or kept as a reminder of a person, place, or experience.”

Point out that the grandmother gives her granddaughter the doll as a *memento*, or something to remember her by. Explain that every time the girl looks at the doll, she will remember her grandmother.

Display word card 4 (WA8) and have the students say the word *memento*.

2 Discuss the Students’ Mementos

Review that a *memento* might be something that someone gives you, like the doll in the story, or something you keep to remember a person, place, or experience. Tell the students about mementos you have been given or have collected.

ELPS 1.A.i

Steps 2–3 and Teacher Notes on pages 18 and 19

Teacher Note

If you have any mementos of your own in your classroom, you might want to show them to your students and tell them why they are important to you.

You might say:

"When I graduated from college, my parents gave me a watch as a memento. Whenever I look at it, I remember that day. When I visit a new place on vacation, I buy a magnet as a memento of my trip. I keep the magnets in a box as reminders of the places I have seen. Last summer when we went to the beach, my son found a beautiful pink shell. He kept it as a memento of our trip."

Discuss as a class:

Q *What memento do you have? What does it remind you of?*

Click **1** on word card 4 (WA8) to reveal the first prompt. Have a few volunteers use the prompt to share their thinking.

WA8

memento

PROMPT 1: I have a _____ that is a
memento of . . .

1 **2**

PROMPT 1: "I have a [trophy] that is a memento of . . ."

3 Discuss a Memento the Students Would Give to a Friend

Ask the students to imagine the following scenario as you read it aloud:

- *Your best friend is moving away. You may not see him or her for a long time. You decide to give your friend a memento—something of yours for your friend to keep and remember you by.*

Ask:

 **Q** *What memento would you give your friend? Why?*

Give the students a few moments to think about the questions. Click **2** to reveal the prompt. Then say "Turn to your partner," and have partners use the prompt to take turns sharing their thinking.

PROMPT 2: "The memento I would give my friend is [a T-shirt that says 'Bay Shore Water Park'] because . . ."

Teacher Note

If the students struggle to answer the question, stimulate their thinking by asking questions such as "What do you have that reminds you of a place you have visited, such as a zoo, museum, baseball park, or amusement park?" "What do you have that reminds you of a special experience, such as playing in a soccer league or taking part in a neighborhood cleanup?" and "What do you have that someone has given you that reminds you of that person?"

Technology Tip

To find web-based activities that focus on using Greek and Latin roots to determine word meanings, you might search online using the keywords “whiteboard Greek and Latin roots activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

Teacher Note

You may wish to point out other words with the root *memor*, such as *memorable*, which means “worth remembering.”

Teacher Note

Repeating the definition of the word and having the students pronounce it are additional opportunities for the students to hear the word and think about its meaning.

Teacher Note

Some students may be familiar with a word you introduce. If so, tell the students that thinking and talking about the word gives them a chance to learn more about it and practice using it.

ELL Note

You might explain that if you have confidence, you feel sure that you can do something well or deal with a situation successfully.

When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

4 Introduce the Latin Roots *mem* and *memor*

Write the word *memento* where everyone can see it, and underline the root *mem*. Tell the students that *mem*, meaning “mind” and *memor*, meaning “to remember” are word roots. Explain that a *root* is a “word or part of a word that is used to make other words.” Explain that many roots come to English from other languages. Explain that the roots *mem* and *memor* come from Latin, a language that was spoken by the people of ancient Rome.

Tell the students that knowing the meaning of a root like *mem* or *memor* can help them figure out the meanings of other words that include the root. Point to the word *memento* and review that a *memento* is “something kept or given as a reminder of a person, place, or experience,” emphasizing the word *reminder*. Explain that when you have a memento of someone or something, the memento helps you to remember or keep the person or thing in mind.

Point to the word *memento* and ask:

Q *What’s the new word we are learning that means “something kept or given as a reminder of a person, place, or experience”?*

INTRODUCE AND USE REASSURE

5 Introduce and Define *Reassure*

Show pages 20–21 of *Something to Remember Me By* and review that in this part of the story the grandmother worries because she has a hard time remembering things. Read the first two paragraphs on page 21 aloud, emphasizing the word *reassuringly*.

Tell the students that the next word they will learn today is *reassure*, and explain that when you reassure someone, you make the person feel less worried. You calm the person and give the person courage or confidence.

Explain that the granddaughter tries to reassure her grandmother, or make her feel less worried, by telling her that everyone forgets things, not just her.

Display word card 5 ( WA9) and have the students say the word *reassure*.

6 Introduce the Activity “What Might You Say or Do?”

Tell the students that partners will do an activity called “What Might You Say or Do?” Explain that you will describe a difficult situation someone is facing. Then partners will talk about what they might say or do to reassure the person in the situation. Tell the students that before they do the activity in pairs, they will practice as a class.

Begin by reading the following scenario aloud twice, slowly and clearly:

- *Your friend does not want to go to a party with you because she does not know anyone who will be there.*

Ask:

Q *What might you say or do to reassure your friend?*

Click **1** on word card 5 (WA9) to reveal the prompt.

reassure

PROMPT 1: To **reassure** _____, I might . . .

1

WA9

PROMPT 1: “To reassure [my friend], I might . . .”

Have one or two volunteers use the prompt to share their thinking with the class.

7 Do the Activity in Pairs

Continue doing the activity in pairs. Read the second scenario aloud, slowly and clearly:

- *Your little brother fell off his bike and scraped his knee. Now he is afraid to ride his bike again.*

Ask:

Q *What might you say or do to reassure your little brother? [Point to the prompt.] Turn to your partner.*

PROMPT 1: “To reassure [my little brother], I might . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the word *reassure* and ask:

Q *What’s the new word we are learning that means “make a person feel less worried”?*

INTRODUCE AND USE *TATTERED*

8 Introduce and Define *Tattered*

Show pages 26–27 of *Something to Remember Me By*. Review that in this part of the story the granddaughter is visiting her grandmother, but her grandmother does not seem to know who she is. Read the last three paragraphs on page 26 aloud, emphasizing the word *tattered*.

Tell the students that the last word they will learn today is *tattered*, and explain that *tattered* means “torn and ragged.” Point to the illustration on page 27 and explain that the grandmother has handled the photograph so often that it has become tattered, or torn and ragged.

Display word card 6 (🗉 WA10) and have the students say the word *tattered*.

9 Tell “How Might It Have Happened?” Stories

Tell the students that partners will do an activity called “How Might It Have Happened?” Explain that you will describe something that has become tattered. The students will use their imaginations and what they know about the word to tell how they think the object might have become tattered.

Read the following scenario aloud twice:

- *With an embarrassed look on her face, your friend pulls a tattered library book out of her backpack.*

Teacher Note

You might explain that *ragged* means “shabby or worn out from frequent use.”

Ask:

Q *How might the library book have become tattered?* [Click **1** on WA10 to reveal the first prompt.] *Turn to your partner.*

tattered

PROMPT 1: The library book might have become **tattered**
[when/because] . . .

1 **2**

WA10

PROMPT 1: “The library book might have become tattered [when/because] . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have one or two volunteers use the prompt to share their thinking with the class.

Follow up by asking:

Q *What might a tattered library book look like?*

Click **2** on word card 6 (WA10) to reveal the next prompt and have a few volunteers use the prompt to share their thinking with the class.

PROMPT 2: “The tattered library book . . .”

Point to the word *tattered* and ask:

Q *What’s the new word we are learning that means “torn and ragged”?*

Tell the students that tomorrow they will talk more about the words they learned today.

EXTENSION

Use the Vocabulary Words Throughout the Day

Encourage the students to use the vocabulary words as they talk to one another during the day. Look for opportunities to use the words yourself and ask questions about the words. For example, if you see a tattered piece of paper on your classroom floor, you might ask questions such as “What might have caused this paper to become so tattered?” and “What might we do with a tattered piece of paper like this?” You might show the class an item on your desk and explain why you have kept the memento. You might ask questions such as “What do you think this memento reminds me of?” and “Why might I want to keep [my trip to Oregon] in mind with this memento?” For more information about helping the students retain the vocabulary words, see “Retaining the Words” in the Introduction.

Day 4

Review *Memento*, *Reassure*, and *Tattered*

Materials

- Daily review cards (WA11)
- Copy of this week’s family letter (BLM2) for each student

In this lesson, the students:

- Review and practice using the words *memento*, *reassure*, and *tattered* from Day 3
- Build their speaking and listening skills
- Listen to one another

Words Reviewed

memento

A *memento* is “something given or kept as a reminder of a person, place, or experience.”

reassure

When you reassure someone, you make the person feel less worried. You calm the person and give the person courage or confidence.

tattered

Tattered means “torn and ragged.”

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Display the daily review cards (🔊 WA11). Remind the students that yesterday they learned three words from or about the story *Something to Remember Me By*. Point to the following words as you review the pronunciation and meaning: *memento*, *reassure*, and *tattered*. Explain that today they will talk more about these words.

Discuss as a class:

Q *If you were writing a story about losing something that is important to you, which of these words might you use? How might you use the word?*

Click **1** on the daily review cards (WA11) to reveal the first prompt. Have a few volunteers use the prompt to share their thinking with the class.

WA11

mementoreassuretattered

PROMPT 1: I would use the word _____. I would write . . .

1 2 3

PROMPT 1: “I would use the word [*memento*]. I would write . . .”

PRACTICE USING THE WORDS

2 Introduce the Game “Which Word Goes With?”

Tell the students that partners will play a game called “Which Word Goes With?” Explain that you will write a word they know—like *postcard* or *blanket*—where everyone can see it, and the students are to think about which of yesterday’s words goes with the word you wrote. Explain that when you say “Turn to your partner,” partners will discuss their thinking. Then you will ask some volunteers to share their thinking with the class.

Tell the students that the word you write might go with more than one of the vocabulary words. Explain that partners may not always agree and that is fine. What is important is that they explain *why* they think the words go together.

Teacher Note

If the students have trouble answering the questions, think aloud about associations you might make and why. For example, say “I think *memento* goes with *postcard* because sometimes people buy postcards as mementos of trips. I think *reassure* goes with *postcard*, too, because sometimes people on vacation mail a postcard home to reassure their family that they have arrived safe and sound. I think *tattered* can go with *postcard* also, because a postcard might get tattered in the mail, or it might become tattered if someone keeps it for a long time.” Then continue the activity by discussing the word *blanket* as a class, rather than in pairs.

Teacher Note

If the students have trouble making associations, give examples of associations you might make, or ask questions such as “How might the word *memento* go with *blanket*?” “When might you have a blanket as a memento?” “How might the word *reassure* go with *blanket*?” “Might a baby feel reassured with its favorite blanket? Why?” and “How might the word *tattered* go with *blanket*?” “When might a blanket become tattered?”

Remember that there are no right or wrong responses. What is important is that the students explain the thinking behind their associations and demonstrate an understanding of the word’s meaning.

Teacher Note

Send home with each student a copy of this week’s family letter (BLM2). Encourage the students to talk about this week’s words with their families.

Tell the students that before they play the game in pairs, they will practice playing as a class. Write the word *postcard* where everyone can see it and read the word aloud. Then direct the students’ attention to the daily review cards (WA11) and ask:

Q Which of these words do you think goes with *postcard*? Why do you think that?

Give the students a few moments to think about the questions. Then click **2** to reveal the prompt and have a few volunteers use the prompt to share their thinking with the class.

PROMPT 2: “I think [*memento*] goes with *postcard* because . . .”

3 Play the Game in Pairs

Write the word *blanket* where everyone can see it and pronounce the word. Direct the students’ attention to the daily review cards (WA11) and ask:

 **Q** Which of these words do you think goes with *blanket*? Why do you think that? [Click **3** to reveal the prompt.] Turn to your partner.

PROMPT 3: “I think [*memento*] goes with *blanket* because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and ask one or two volunteers to use the prompt to share their thinking with the class.

Tell the students that tomorrow they will talk more about some of the words they have been learning.

In this lesson, the students:

- Review words learned earlier
- Build their speaking and listening skills
- Listen to one another

Words Reviewed

clamor

Clamor means “demand or ask for something loudly.”

memento

A *memento* is “something given or kept as a reminder of a person, place, or experience.”

pandemonium

Pandemonium means “chaos or confusion.”

reassure

When you reassure someone, you make the person feel less worried. You calm the person and give the person courage or confidence.

tattered

Tattered means “torn and ragged.”

towering

Towering means “very tall.”

ABOUT ONGOING REVIEW

Research shows that it is critical for students to use a word repeatedly over an extended period of time if the word is to become a permanent part of their vocabularies. Each week we provide an activity for reviewing words. The words reviewed today are the six words the students learned this week. Beginning next week, the review will include words from the most recent week and previous weeks. For more information about Ongoing Review and helping the students retain vocabulary, see “Retaining the Words” in the Introduction.

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you. Display the ongoing review cards (WA12). Remind the students that they learned these words earlier. Explain that today they will talk more about the words.

Point to the word *clamor*, pronounce it, and have the students say it. Discuss as a class:

Q *What do you know about the word clamor?*

Materials

- Ongoing review cards (WA12)

Teacher Note

Even when the students know the meaning of a word, it is often difficult for them to articulate a definition. For this reason, we do not ask the students the question “What does the word *clamor* mean?” Instead, we ask them what they know about the word, giving them an opportunity to show their understanding of the word’s meaning in various ways (for example, by using the word in a sentence, giving an example of a situation in which the word might be used, or acting out the word). If the students do not recall the meaning of the word, tell them.

Have one or two volunteers share their thinking with the class. Remind them to use the word *clamor* as they share their ideas.

Use the same procedure to review the remaining words.

PRACTICE USING THE WORDS

2 Introduce the Game “Does That Make Sense?”

Tell the students that partners will play a game called “Does That Make Sense?” Explain that you will read a scenario, or imaginary situation, that includes one of the vocabulary words. Partners will decide whether the word makes sense in the scenario and explain why they think so.

Tell the students that before they play the game in pairs, they will practice playing as a class. Point to the word *pandemonium* on the ongoing review cards (WA12) and explain that the first scenario includes the word *pandemonium*.

Read the following scenario aloud twice:

- *When we walked into the gymnasium, everyone was sitting quietly, listening to the candidate give her speech. It was complete pandemonium.*

Ask:

- Q *Does the word pandemonium make sense in the scenario? Why do you think that?*

Give the students a few moments to think about the questions. Then click 1 on the ongoing review cards (WA12) to reveal the prompt and have one or two volunteers use the prompt to share their thinking with the class.

Teacher Note

If the students struggle to answer the questions, call for their attention. Reread the story aloud, and explain that *pandemonium* does not make sense in the story because everyone in the gymnasium was sitting quietly. If there had been complete pandemonium, there would have been chaos or confusion. Then read the next story and discuss it as a class, rather than in pairs.

WA12

clamor	memento	pandemonium
reassure	tattered	towering

PROMPT 1: The word _____ [does/does not] make sense because . . .

1

PROMPT 1: “The word [*pandemonium*] [does/does not] make sense because . . .”

3 Play the Game in Pairs

Now play the game in pairs. Point to the word *clamor* and explain that the next scenario includes the word *clamor*. Remind the students that as they listen to the scenario, they are to think about whether the word *clamor* makes sense in the scenario. Then partners will share their thinking with each other.

Read the following scenario aloud twice:

- *The shoppers were angry. They had been waiting in line for hours for the store to open. "Let us in! Let us in!" the shoppers clamored.*

Ask:

Q *Does the word clamored make sense in the scenario? Why do you think that? [Point to prompt 1.] Turn to your partner.*

PROMPT 1: "The word [*clamored*] [does/does not] make sense because . . ."

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students' attention and have one or two volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss the following scenarios:

[reassure]

- *Helen practiced her dance routine before the talent show tryouts. She performed the routine perfectly, but she was afraid she might forget a step during her audition. Her friends reassured her that she would do a great job.*

[tattered]

- *When Kainoa opened his birthday present, he was delighted. "A tattered shirt!" he exclaimed. "Just what I wanted!"*

[memento]

- *Esme showed her friend her photo album. "I keep these pictures as mementos of my trips," she said. "Looking at them helps me remember the fun I had."*

[towering]

- *The airplane in which Connor was flying was high in the sky. He looked out the window and said, "Wow! Look at those towering cars down below."*

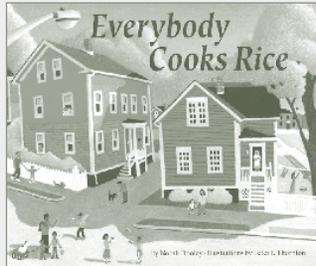

Tell the students that next week they will learn more new words.

Teacher Note

When a word is shown in square brackets, point to the word before you ask the question.

towering

Word-learning Strategies

- Using the suffix *-er* to determine word meanings
- Recognizing synonyms

Vocabulary Focus

- Students learn and use six words from or about the story.
- Students discuss the suffix *-er*.
- Students discuss synonyms.
- Students review words learned earlier.
- Students build their speaking and listening skills.

Social Development Focus

- Students practice the procedure for “Think, Pair, Share.”
- Students analyze the effect of their behavior on others and on the group work.
- Students develop the skill of explaining their thinking.

DO AHEAD

- ✓ This week the students use “Think, Pair, Share” to discuss their thinking in pairs. You may wish to introduce or review the procedure for “Think, Pair, Share” prior to Day 1 (see Step 1 in Unit 1, Week 2, Day 1 of the *Teacher’s Manual*). To see an example of how to use this strategy with your students, view “Using ‘Think, Pair, Share’”(AV8).
- 
- ✓ (Optional) Prior to Day 1, review the more strategy practice activity “Start a Synonym Chart” on page 37. You might do the activity at the end of the lesson or at another time.
 - ✓ (Optional) Prior to Day 2, review the more strategy practice activity “Discuss Other Words with the Suffix *-er*” on page 41.
 - ✓ Prior to Day 3, preview pages 26–27 of *Everybody Cooks Rice*. (You did not read these pages during the *Making Meaning* lesson.) You will read the recipes “Rice” and “Tam’s Nuoc Cham” aloud to the students to introduce the words *vary* and *international*.
 - ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this week’s family letter (BLM1). Make enough copies to send one letter home with each student.
 - ✓ Prior to Day 5, make a copy of the “Class Vocabulary Assessment Record” sheet (CA1); see page 163 of the *Assessment Resource Book*.
 - ✓ (Optional) Visit the CCC Learning Hub (ccclearninghub.org) to access and print the following materials: “Week 2 Word Cards” (BLM2) and “Week 2 Crossword Puzzle” (BLM3). These materials can be used to provide your students with more opportunities to review the words. For more information, see “Additional Ways to Review the Words” in the Introduction.

Introduce *Moocher*, *Delectable*, and *Hospitable*

Day 1

In this lesson, the students:

- Learn and use the words *moocher*, *delectable*, and *hospitable*
- Discuss the suffix -er
- Discuss synonyms
- Build their speaking and listening skills
- Practice using “Think, Pair, Share”
- Explain their thinking

Words Taught

moocher (p. 5)

A *moocher* is a “person who tries to get something without paying or working for it.”

delectable

Delectable means “delicious, or very good to taste or smell.”

hospitable

Hospitable means “friendly, welcoming, and generous to visitors.”

ABOUT RECOGNIZING SYNONYMS

In this lesson, the students are introduced to *synonyms*, or “words that mean the same thing or almost the same thing.” Connecting a new word to a known word that is a synonym helps the students remember the new word. Synonyms also provide the students with words that can replace overused words in their writing, making their writing more interesting. We suggest that you start a synonym chart this week and add to it during the year as the students learn new synonyms (see the more strategy practice activity “Start a Synonym Chart” on page 37). For more information about recognizing synonyms and other independent word-learning strategies, see “Independent Word-learning Strategies” in the Introduction.

INTRODUCE AND USE *MOOCHER*

1 Introduce and Define *Moocher* and Introduce the Suffix -er

Gather the class with partners sitting together, facing you.

Show the cover of *Everybody Cooks Rice*, read the title and the name of the author aloud, and remind the students that they heard this story earlier. Explain that the words they will learn this week are from or about this story.

Materials

- *Everybody Cooks Rice*
- Word card 7 (WA1)
- Word card 8 (WA2)
- Word card 9 (WA3)

Teacher Note

You might want to explain that in the story Carrie is teasing when she refers to her brother as a moocher and that she does not really believe he is a moocher.

Technology Tip

To find web-based activities that focus on using suffixes to determine word meanings, you might search online using the keywords “whiteboard suffixes activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

Teacher Note

Tulip is an imaginary character who appears frequently in activities during the year. If one of your students or someone they know is named Tulip, you may want to select another name for the character.

Show pages 4–5 and remind the students that at the beginning of the story, Carrie’s mom asks her to find her little brother, Anthony, and bring him home for dinner. Read the second paragraph on page 5 aloud, emphasizing the word *moocher*.

Tell the students that *moocher* is the first word they will learn today, and explain that a *moocher* is a “person who tries to get something without paying or working for it.” Explain that Carrie thinks her brother is a moocher because he is always getting free food from the neighbors—food he does not pay for or work for.

Display word card 7 (🗨️ WA1) and have the students say the word *moocher*.

Point to the word *mooch* in *moocher* and explain that *mooch* means “try to get something without paying or working for it.” Point to the letters *er* at the end of the word and explain that *-er* is a *suffix*. Explain that a *suffix* is a “letter or group of letters that is added to the end of a word to make a new word.”

Explain that the suffix *-er* means a “person who” and that adding the suffix *-er* to *mooch* makes the word *moocher*, which means a “person who tries to get something without paying or working for it.”

2 Discuss Whether Tulip Is a Moocher

Tell the students that you are going to describe something that an imaginary fifth-grader named Tulip is doing. Partners will decide whether Tulip is a moocher or not. Explain that partners may not always agree and that is fine. What is important is that they can explain their thinking.

Begin by reading the following scenario aloud twice, slowly and clearly:

- *Tulip loves to draw, but she doesn’t have any crayons, and she refuses to buy any. She is always asking other people if she can use their crayons.*

Ask:

🗨️ Q *Is Tulip a moocher? Why do you think that?* [Click 1 on WA1 to reveal the prompt.] *Turn to your partner.*

moocher

PROMPT 1: Tulip [is/is not] a **moocher** because . . .

1

WA1

PROMPT 1: “Tulip [is/is not] a moocher because . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Use the same procedure to have the students discuss the following scenarios:

- *Tulip always brings an extra snack to share with her friends at recess.*
- *Tulip is at the farmers’ market. She is hungry, but she doesn’t have money to buy food. She asks the salesperson at every booth for a free sample of fruit.*

Point to the word *moocher* and ask:

Q *What’s the new word we are learning that means “someone who tries to get something without paying or working for it”?*

INTRODUCE AND USE *DELECTABLE*

3 Introduce and Define *Delectable* and Introduce Synonyms

Show pages 10–11 of *Everybody Cooks Rice*. Review that Carrie visits the Diaz family and that the Diaz children are cooking rice and pigeon peas. Read the second paragraph on page 10 aloud, stopping after the sentence, “Boy, was it delicious!”

Tell the students that the next word they will learn today is *delectable*, and explain that *delectable* means “delicious, or very good to taste or smell.” Explain that the words *delectable* and *delicious* are synonyms and that *synonyms* are “words that mean the same thing or almost the same thing.” Point out that Carrie thinks that the turmeric in the rice makes it delectable, or delicious.

Display word card 8 (🎧 WA2) and have the students say the word *delectable*.

4 Imagine a Delectable Pizza

Explain that the families in the story use different ingredients to make their rice dishes delectable. For example, Fendra uses turmeric; Rajit’s mom uses peas, cashews, raisins, and many different spices; and Mr. and Mrs. D. use fried onions and bacon. Tell the students that you will ask partners to discuss what ingredients they might use to make a delectable pizza; then a few of them will share their partners’ thinking with the class.

Use “Think, Pair, Share” to discuss:

 **Q** *What ingredients would you use to make a delectable pizza?*

Give the students a few moments to think about the question. Click **1** on word card 8 (WA2) to reveal the first prompt. Then say “Turn to your partner” and have partners take turns using the prompt to share their thinking.

Technology Tip

To find web-based activities that focus on recognizing synonyms, you might search online using the keywords “whiteboard synonyms activities.”

For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

Teacher Note

Follow this procedure for all subsequent “Think, Pair, Share” activities.

ELL Note

The Spanish cognate of *hospitable* is *hospitalario/a*.

PROMPT 1: “To make a delectable pizza, I would use . . .”

After a few moments, signal for the students’ attention and have one or two volunteers use the prompt to share their thinking with the class.

Then click **2** to reveal the next prompt. Have a few volunteers use the prompt to share their partners’ thinking with the class.

PROMPT 2: “To make a delectable pizza, my partner would use . . .”

Point to the word *delectable* and ask:

Q *What’s the new word we are learning that means “delicious, or very good to taste or smell”?*

INTRODUCE AND USE *HOSPITABLE*

5 Introduce and Define *Hospitable*

Show pages 16–17 of *Everybody Cooks Rice* and review that Carrie is now at Mrs. Hua’s house. Read the last sentence on page 17 aloud: “Mrs. Hua always makes me sit down and eat something when I come over.”

Tell the students that the last word they will learn today is *hospitable*, and explain that *hospitable* means “friendly, welcoming, and generous to visitors.” Point out that all of Carrie’s neighbors are hospitable, or friendly, welcoming, and generous, because they invite Carrie into their homes, talk with her, and offer her something to eat.

Display word card 9 (🌍 WA3) and have the students say the word *hospitable*.

6 Imagine Being Hospitable

Ask the students to imagine that a group of fourth-graders is visiting the classroom to see what fifth grade is like.

Use “Think, Pair, Share” to discuss:

 **Q** *What might you do or say to be hospitable to the fourth-graders? [Pause; click **1** on WA3 to reveal the first prompt.] Turn to your partner.*

PROMPT 1: “I might be hospitable by . . .”

Have partners use the prompt to take turns answering the question. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Discuss as a class:

Q *Why is it important to be hospitable when we have visitors?*

Click **2** to reveal the next prompt and have a few volunteers use the prompt to share their thinking.

PROMPT 2: “It is important to be hospitable because . . .”

Point to the word *hospitable* and ask:

Q *What’s the new word we are learning that means “friendly, welcoming, and generous to visitors”?*

Tell the students that tomorrow they will talk more about the words they learned today.

MORE STRATEGY PRACTICE

Start a Synonym Chart

Help the students further explore synonyms by starting a synonym chart. Prepare a sheet of chart paper titled “Synonyms” and post the chart where everyone can see it. Review that *synonyms* are “words that mean the same thing or almost the same thing.”

Write the word *delectable* on the chart and review that *delectable* means “delicious, or very good to taste or smell.” Review that *delectable* and *delicious* are synonyms, and write *delicious* next to *delectable* on the chart. Ask the students to name other synonyms for *delectable* and *delicious*, and add them to the chart (for example, *scrumptious*, *tasty*, and *yummy*).

Remind the students that last week they learned the words *pandemonium*, *towering*, and *tattered*. Add the words and their synonyms to the chart: *pandemonium* (*chaos*, *confusion*), *towering* (*tall*), and *tattered* (*torn*).

Explain that when the students write stories, research reports, and other pieces, they can use the synonyms they are learning. For example, instead of using the word *delicious* in a story, they can use the word *delectable*. Explain that using synonyms helps them avoid using the same words over and over and makes their writing more interesting.

Throughout the year, encourage the students to share other synonyms they think of with the class; then add the synonyms the students suggest to the chart. As synonyms are introduced in vocabulary lessons, add them to the chart as well.

MORE ELL SUPPORT

Act Out and Discuss the Word *Hospitable*

Remind the students that they learned the word *hospitable* earlier and that *hospitable* means “friendly, welcoming, and generous to visitors.” Review that in the book *Everybody Cooks Rice*, Carrie’s neighbors were hospitable, or friendly, welcoming, and generous, when they invited her into their homes.

Materials

- Chart paper and a marker

Teacher Note

Post the “Synonyms” chart to use throughout the year.

ELPS 1.D.i
More ELL Support

Have two volunteers act out a scenario in which one is hospitable toward the other. (For example, one volunteer might act out inviting the other into his home, and then offer her a glass of water.) Then ask:

Q *What did [Julio] do that was hospitable?*

Have one or two volunteers use the prompt to share their thinking with the group.

PROMPT: “[Julio] was hospitable when he . . .”

EXTENSION

Use the Vocabulary Words Throughout the Day

Encourage the students to use the vocabulary words as they talk to one another during the day. Ask the students questions about the words, and look for opportunities to use them yourself. For example, when you walk into the lunchroom you might ask questions such as “What delectable choices do you have for lunch today?” and “What food has that delectable smell?” After a trip to the library, you might ask “How was [Mrs. Felton] hospitable during our time at the library today?” For more information about helping the students retain vocabulary words, see “Retaining the Words” in the Introduction.

Day 2

Review *Moocher*, *Delectable*, and *Hospitable*

Materials

- Daily review cards (WA4)
- Daily review activity (WA5)

In this lesson, the students:

- Review and practice using the words *moocher*, *delectable*, and *hospitable* from Day 1
- Build their speaking and listening skills
- Explain their thinking

Words Reviewed

moocher

A *moocher* is a “person who tries to get something without paying or working for it.”

delectable

Delectable means “delicious, or very good to taste or smell.”

hospitable

Hospitable means “friendly, welcoming, and generous to visitors.”

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Display the daily review cards (🗨️ WA4). Remind the students that yesterday they learned three words from or about the story *Everybody Cooks Rice*. Point to each of the following words as you review the pronunciation and meaning: *moocher*, *delectable*, and *hospitable*. Explain that today they will think more about the words.

Ask:

Q Which of yesterday's words do you think was especially fun to talk about? Why do you think that? [Click 1 on WA4 to reveal the first prompt.] Turn to your partner.

WA4

moocherdelectablehospitable

PROMPT 1: I think the word _____ was especially fun to talk about because . . .

1

PROMPT 1: “I think the word [*moocher*] was especially fun to talk about because . . .”

Have the students use the prompt to take turns answering the questions. When most pairs have finished talking, signal for the students' attention and have one or two volunteers use the prompt to share their thinking with the class.

PRACTICE USING THE WORDS

2 Introduce the Game “Find Another Word”

Tell the students that partners will play a game called “Find Another Word.” Tell the students that you will show a few stories with one or more words underlined. Explain that you will read each story aloud; then partners will discuss which vocabulary word could replace the underlined words and explain why they think so. Tell the students that before they play the game in pairs, they will practice playing as a class.

Teacher Note

You might explain that the students may need to change the form of the word to complete the story by adding an ending such as *-s*, *-ing*, or *-ed*.

Teacher Note

Each sentence on the ongoing review activity (WA5) has a corresponding number: the first story is ❶; the second story is ❷; the third story is ❸. To play the game, click the corresponding number four times:

- The first click reveals the story.
- The second click reveals the prompt.
- The third click highlights the correct answer and reveals the new story with the answer in place.
- The fourth click clears the screen.

Display the daily review activity (WA5) and begin playing the game:

1. Click ❶ to reveal the first story. Point to the story and read it aloud, emphasizing the underlined word.
 - Story 1: *I think the berry smoothie at Berta's Smoothie Shop is delicious.*
2. Give the students a few moments to think about the story and the underlined word. Then point to the three word choices and ask:

Q Which vocabulary word could replace the underlined word? Why?

Click ❶ again to reveal the prompt.

PROMPT 1: "I think [*delectable*] could replace *delicious* because . . ."

Have a few volunteers use the prompt to share their thinking with the class.

3. Conclude the discussion by clicking ❶ a third time to highlight the correct vocabulary word and reveal the story with the correct word in place.

WA5

4. Click ❶ to clear the screen.

3 Play the Game in Pairs

Now play the game with the students in pairs:

1. Click ❷ to reveal the second story and read it aloud, emphasizing the underlined words.
 - Story 2: *I love going to Berta's shop because Berta is nice and gives me samples of new smoothie flavors.*
2. Give the students a few moments to think about the story and the underlined words. Then point to the three word choices and ask:

Q Which vocabulary word could replace the underlined words? Why? [Click ❷ again and point to the prompt.] Turn to your partner.

PROMPT 2: “I think [*hospitable*] could replace *nice and gives me samples of new smoothie flavors* because . . .”

Have partners take turns using the prompt to talk about the questions. Then have one or two volunteers use the prompt to share their thinking with the class.

3. Conclude the discussion by clicking **2** a third time to highlight the correct vocabulary word and reveal the story with the correct word in place.
4. Click **2** to clear the screen.

Use the same procedure to discuss the following story:

- Story 3: *My friend Gordie is a person who tries to get something without paying for it. He asks to taste everyone’s smoothies but never buys one himself.* (moocher)

Tell the students that tomorrow they will learn and talk about three new words.

MORE STRATEGY PRACTICE

Discuss Other Words with the Suffix *-er*

Prepare a sheet of chart paper titled “Words with the Suffix *-er*.” Below the title, write the sentence *The suffix -er means a “person who.”* Write the word *moocher* on the chart.

Point to the suffix *-er* in the word *moocher* on the chart, and review that *-er* is a suffix. Remind the students that a *suffix* is a “letter or group of letters that is added to the end of a word to make a new word.” Remind the students that the suffix *-er* means a “person who” and that when *-er* is added to the word *mooch*, which means “try to get something without paying or working for it,” it makes the word *moocher*, which means a “person who tries to get something without paying or working for it.”

Tell the students that knowing that *-er* means a “person who” can help them figure out the meaning of other words that end with the suffix. Write the word *explorer* on the chart, and explain that this is another word that uses the suffix *-er*. Point to the word *explorer* and discuss as a class:

Q *Based on what you know about the word explore and the suffix -er, what do you think the word explorer means?*

Have a few volunteers share their thinking. If necessary, explain that *explorer* means a “person who explores, or looks around a place to see what he or she can discover.” Repeat the procedure to discuss the word *entertainer*.

Materials

- Chart paper and a marker

Teacher Note

For a list of common suffixes, visit the CCC Learning Hub (ccclearninghub.org) to view the “Suffixes” list in the General Resources section.

Teacher Note

You might explain that when you add *-er* to *explore*, you drop the final *e* in *explore* to spell *explorer*.

Teacher Note

You might explain that the suffix *-or* also means a “person who” and is used in words such as *conductor*, *actor*, and *survivor*.

Teacher Note

Post the “Words with the Suffix *-er*” chart to use throughout the year.

Invite the students to think of other words that use the suffix *-er*, and list them on the chart. You might stimulate their thinking by asking questions such as “What do you call a person who writes? Reports the news? Dreams?”

Throughout the year, encourage the students to share other words with the suffix *-er* that they think of with the class; then add the words the students suggest to the chart. As words with the suffix *-er* are introduced in vocabulary lessons, add them to the chart as well.

Day 3

Introduce *Cuisine*, *Vary*, and *International*

Materials

- *Everybody Cooks Rice*
- Word card 10 (WA6)
- Word card 11 (WA7)
- Word card 12 (WA8)

In this lesson, the students:

- Learn and use the words *cuisine*, *vary*, and *international*
- Build their speaking and listening skills
- Explain their thinking

Words Taught

cuisine

A *cuisine* is a “style of cooking.”

vary (p. 26)

Vary means “are different.”

international (p. 27)

International means “having to do with more than one country.”

INTRODUCE AND USE *CUISINE*

1 Introduce and Define *Cuisine*

Gather the class with partners sitting together, facing you.

Review that earlier the students learned three words from or about the story *Everybody Cooks Rice*. Explain that today they will learn three more words from or about the story.

Slowly page through the book and review that Carrie’s neighbors are from many different countries. For example, Mr. and Mrs. D. are from Barbados, an island in the Caribbean Sea. Dong and Tam Tran are from Vietnam, a country in Asia, and the Huas are from China, another

Asian country. Point out that each place has a particular cuisine. Tell the students that *cuisine* is the first word they will learn today, and explain that a *cuisine* is a “style of cooking.”

Review that all the cuisines, or styles of cooking, in Carrie’s neighborhood include rice. Explain that at Mr. and Mrs. D.’s house, Carrie tastes Caribbean cuisine, which includes a dish made from black-eyed peas and rice. At the Trans’ house, they eat Vietnamese cuisine, which includes rice and a fish sauce called *nuoc cham*. At the Huas’ house they eat Chinese cuisine, which includes tofu, vegetables, and rice.

Display word card 10 (🗉 WA6) and have the students say the word *cuisine*.

2 Discuss Developing the Students’ Own Cuisines

Explain that all cuisines include vegetables. For example, Mexican cuisine includes many dishes with corn, potatoes, tomatoes, and peppers. Chinese cuisine includes many dishes with cabbage, onions, mushrooms, and bok choy. Ask the students to imagine they are developing a cuisine of their own that includes their favorite vegetables.

Use “Think, Pair, Share” to discuss:

Q *What vegetables would you include in your cuisine?* [Pause; click 1 on WA6 to reveal the first prompt.] *Turn to your partner.*

cuisine

PROMPT 1: The vegetables I would include in my **cuisine** are . . .

1 2

WA6

PROMPT 1: “The vegetables I would include in my cuisine are . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have one or two volunteers use the prompt to share their thinking with the class.

Discuss as a class:

Q *What fruits would you include in your cuisine?*

Click 2 on word card 10 (WA6) to reveal the next prompt. Have a few volunteers use the prompt to share their thinking.

Teacher Note

If the students are familiar with the cuisines of their native countries, you might have them discuss their favorite foods or dishes.

PROMPT 2: “The fruits I would include in my cuisine are . . .”

Point to the word *cuisine* and ask:

Q *What’s the new word we are learning that means a “style of cooking”?*

INTRODUCE AND USE VARY

3 Introduce and Define Vary

Show pages 26–27 of *Everybody Cooks Rice* and explain that the recipes for the rice dishes discussed in the story are at the back of the book. Ask the students to listen carefully as you read the recipe for cooking rice. Then read “Rice” on page 26 aloud, emphasizing the word *vary*.

Tell the students that the next word they will learn today is *vary*, and explain that *vary* means “are different.” Explain that there are many kinds of rice and that the amount of time you cook each type of rice *varies*, or is different.

Display word card 11 (🌐 WA7) and have the students say the word *vary*.

4 Discuss Things That Vary in the Classroom

Tell the students that we use the word *vary* to talk about things that are different from one another. Give the students some examples of things in the classroom that vary.

You might say:

“The colors of your pencil boxes vary, or are different. The number of books in the book bins varies, and the sizes of the books vary also. The sizes of everyone’s feet vary. The colors of our hair vary, too.”

Use “Think, Pair, Share” to discuss:

 **Q** *What other things do you see in our classroom that vary? How do they vary?*
[Pause; click 1 on WA7 to reveal the prompt.] *Turn to your partner.*

PROMPT 1: “The [borders on the bulletin boards] vary because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the word *vary* and ask:

Q *What’s the new word we are learning that means “are different”?*

ELL Note

The Spanish cognate of *vary* is *variar*.

Teacher Note

You might explain that the words *various* and *variety* are forms of the word *vary*.

Teacher Note

You might explain that we use the word *varies* when discussing a singular object (a peach varies from an apple) and we use the word *vary* when discussing plural objects (peaches vary from apples).

INTRODUCE AND USE INTERNATIONAL

5 Introduce and Define *International*

Show pages 26–27 of *Everybody Cooks Rice* again. Review that Tam Tran is making a sauce called *nuoc cham* in the story. Ask the students to listen carefully as you read the recipe. Then read “Tam’s Nuoc Cham” on page 27 aloud, emphasizing the word *international*.

Tell the students that the last word they will learn today is *international*. Explain that *international* means “having to do with more than one country.”

Explain that in the international section of the grocery store, you can find foods and sauces from many countries. For example, you might find foods and sauces not only from Vietnam, but also from India, China, and other countries.

Display word card 12 (🌐 WA8) and have the students say the word *international*.

6 Discuss International Travel

Explain that if you take a trip from one country to another, you are called an “international traveler” because you have traveled in more than one country.

Explain that many people enjoy international travel. Give examples of times when you, a student, or someone you know has traveled to a foreign country.

You might say:

“Jin’s family went to Korea to visit his grandparents. Jin is an international traveler because he flew from the United States to another country, Korea. I am also an international traveler because I traveled from the United States to Canada for vacation this summer.”

Use “Think, Pair, Share” to discuss:

Q *If you had the chance to be an international traveler, where would you go? Why?* [Pause; click 1 on WA8 to reveal the prompt.] *Turn to your partner.*

PROMPT 1: “If I had the chance to be an international traveler, I would go to [Egypt] because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their ideas with the class.

ELL Note

The Spanish cognate of *international* is *internacional*.

ELL Note

You might point out on a map or globe the international destinations to which you or the students have traveled.

Teacher Note

You might discuss or ask about other international travel your students have done.

Teacher Note

Support struggling students by giving an example of international travel you would like to do and explaining why or by asking questions, such as “What country would be fun to visit? What would you do there?”

Day 4

Review *Cuisine*, *Vary*, and *International*

Materials

- Daily review cards (WA9)
- Copy of this week's family letter (BLM1) for each student
- (Optional) Copy of the "Week 2 Crossword Puzzle" (BLM3) for each student

Point to the word *international* and ask:

Q *What's the new word we are learning that means "having to do with more than one country"?*

Tell the students that tomorrow they will talk more about the words they learned today.

In this lesson, the students:

- Review and practice using the words *cuisine*, *vary*, and *international* from Day 3
- Build their speaking and listening skills
- Explain their thinking

Words Reviewed

cuisine

A *cuisine* is a "style of cooking."

vary

Vary means "are different."

international

International means "having to do with more than one country."

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Display the daily review cards (WA9) and remind the students that yesterday they learned three words from or about the story *Everybody Cooks Rice*. Point to each of the following words as you review the pronunciation and meaning: *cuisine*, *vary*, and *international*. Explain that today they will think more about the words.

Ask:

Q *Which of these words would you use to discuss your favorite type of food? Why?* [Click 1 on WA9 to reveal the first prompt.] *Turn to your partner.*

cuisine

vary

international

PROMPT 1: I would use the word _____
because . . .

1
2
3

PROMPT 1: “I would use the word [*cuisine*] because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have one or two volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following questions:

-  **Q** Which of these words would you use to describe a movie star who is known all over the world? Why? [Point to prompt 1.] Turn to your partner. (international)
- Q** Which of these words would you use to talk about ways that oceans are different from lakes? Why? [Point to prompt 1.] Turn to your partner. (vary)

PRACTICE USING THE WORDS

2 Discuss “Would You?” Questions

Tell the students that you will ask them some questions about the words. First, partners will talk about each question with one another. Then you will ask a few pairs to share their thinking with the class.

Point to the words *international* and *cuisine* on the daily review cards (WA9) and ask:

-  **Q** Would you enjoy eating at a restaurant that offers a choice of international cuisines? Why? [Click **2** to reveal the prompt.] Turn to your partner.

Teacher Note

Send home with each student a copy of this week's family letter (BLM1). Encourage the students to talk about this week's words with their families.

Teacher Note

To provide students with additional review of words taught during Weeks 1 and 2, you might distribute a copy of the "Week 2 Crossword Puzzle" (BLM3) to each student.

PROMPT 2: "I [would/would not] enjoy eating at a restaurant that offers a choice of international cuisines because . . ."

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students' attention and have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss:

[vary]

Q *Would you like to live in a place where the weather never varies? Why?*
[Click **3** to reveal the prompt.] *Turn to your partner.*

PROMPT 3: "I [would/would not] like to live in a place where the weather never varies because . . ."

Tell the students that tomorrow they will talk more about some of the words they have been learning.

Day 5

Ongoing Review

Materials

- Ongoing review cards (WA10)
- "Class Vocabulary Assessment Record" sheet (CA1)

In this lesson, the students:

- Review words learned earlier
- Build their speaking and listening skills
- Explain their thinking

Words Reviewed

delectable

Delectable means "delicious, or very good to taste or smell."

hospitable

Hospitable means "friendly, welcoming, and generous to visitors."

international

International means "having to do with more than one country."

tattered

Tattered means "torn and ragged."

towering

Towering means "very tall."

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you. Display the ongoing review cards (🔊 WA10). Remind the students that they learned these words earlier. Explain that today they will think about and talk more about the words.

Point to the word *delectable*, pronounce it, and have the students say it.

Discuss as a class:

Q *What do you know about the word delectable?*

Have one or two volunteers share their thinking with the class. Remind them to use the word *delectable* as they share their ideas.

Use the same procedure to review the remaining words.

PRACTICE USING THE WORDS

2 Introduce the Game “Which Word Am I?”

Tell the students that partners will play a game called “Which Word Am I?” Point to the ongoing review cards (WA10) and explain that you will give a clue about one of the words. Then you will say, “Which word am I?” and the students will figure out which word it is.

Tell the students that before partners play the game with one another, they will practice playing as a class. Begin by reading the following clue aloud, slowly and clearly:

- *I’m the way you would describe someone who offers her guests something to eat or drink.*

Give the students a few moments to think about the clue. Then ask:

Q *Which word am I? Why do you think that?*

Click **1** on the ongoing review cards (WA10) to reveal the prompt.

delectable

hospitable

international

tattered

towering

PROMPT 1: I think the word is _____ because . . .

1

WA10

Teacher Note

If a student uses a word ungrammatically, restate the student’s sentence using correct grammar. For example, say “What you said shows that you know the meaning of the word, but we usually say . . .”

PROMPT 1: “I think the word is [*hospitable*] because . . .”

Have one or two volunteers use the prompt to share their thinking with the class.

3 Play the Game in Pairs

Continue the game with the students in pairs. Read the following clue aloud, slowly and clearly:

- *I'm a type of airport that has flights that go to other countries.*

Ask:

Q Which word am I? Why do you think that? [Point to the prompt.] Turn to your partner.

PROMPT 1: “I think the word is [*international*] because . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students' attention. Have a few volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss the following clues:

- *I'm the way you might describe a food that smells really good. (delectable)*
- *I'm the way you might describe the Statue of Liberty. (towering)*
- *I'm the way you might describe a blanket your dog chewed up. (tattered)*

Tell the students that next week they will learn more new words.

CLASS VOCABULARY ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to make the correct choices when determining which word best fits the clue?
- Do their explanations show that they understand the words' meanings?
- Do they enjoy learning and talking about new words?

Record your observations on the “Class Vocabulary Assessment Record” sheet (CA1); see page 163 of the *Assessment Resource Book*.

Use the following suggestions to support struggling students:

- If **only a few students** understand a word's meaning, reteach the word using the vocabulary lesson in which it was first taught as a model.
- If **about half of the students** understand a word's meaning, provide further practice by inviting the students to tell or write stories in which they use the word.

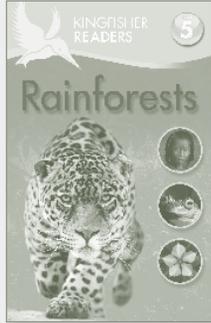

For more information about reviewing and practicing the words, see “Retaining the Words” in the Introduction.

Teacher Note

For more information about whole-class assessment, see “Class Vocabulary Assessments” in the Assessment Overview of the *Assessment Resource Book*.

Week 3

RESOURCES

Read-aloud

- *Rainforests* by James Harrison

More Strategy Practice

- “Use a Print Dictionary”

Extensions

- “Explore Domain-specific Words: *Tropics*”
- “Explore Sensory Details in *Rainforests*”

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA12

Reproducibles

- Week 3 family letter (BLM1)
- (Optional) “Week 3 Word Cards” (BLM2)

OVERVIEW

Words Taught

lush
dim
clamber
lurk
pollute
nourish

Words Reviewed

clamber
clamor
lurk
reassure
vary

Word-learning Strategy

- Using a dictionary, glossary, and thesaurus

Vocabulary Focus

- Students learn and use six words from the book.
- Students use a print dictionary to determine a word's meaning.
- Students use a glossary to determine a word's meaning.
- Students review words learned earlier.
- Students build their speaking and listening skills.

Social Development Focus

- Students work in a responsible way.
- Students develop the skill of explaining their thinking.
- Students share their partners' thinking with the class.

DO AHEAD

- ✓ Prior to Day 1, collect enough dictionaries so that each pair of students will have one to share. The students use a dictionary to determine a word's meaning in Step 1.
- ✓ Prior to Day 1, preview pages 4–5 and 8–9 of *Rainforests*. (You did not read these pages during the *Making Meaning* lesson.) You will read aloud from pages 4 and 8 to introduce the words *lush* and *dim*.

(continues)

① DO AHEAD *(continued)*

- ✓ (Optional) Prior to Day 1, review the more strategy practice activity “Use a Print Dictionary” on page 60. You might do the activity at the end of the vocabulary lesson or at another time.
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this week’s family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ (Optional) Visit the CCC Learning Hub (ccclearninghub.org) to access and print “Week 3 Word Cards” (BLM2). These cards can be used to provide your students with more opportunities to review the words.

Introduce *Lush, Dim, and Clamber*

Day 1

In this lesson, the students:

- Learn and use the words *lush*, *dim*, and *clamber*
- Use a print dictionary to determine a word's meaning
- Build their speaking and listening skills
- Share their partners' thinking
- Explain their thinking

Words Taught

lush (p. 4)

Lush means "having lots of green, healthy plants."

dim (p. 8)

Dim means "somewhat dark or not bright or clear."

clamber (p. 23)

Clamber means "climb something that is difficult to climb, using your hands and feet."

ABOUT USING A DICTIONARY, GLOSSARY, AND THESAURUS

In lessons and More Strategy Practice activities across the year, the students will explore using print and digital dictionaries, glossaries, and print and digital thesauruses. In this lesson, the students are introduced to using a print dictionary (through the word *lush* on Day 1) and a glossary (through the word *pollute* on Day 3). For a complete list of lessons or More Strategy Practice activities in which dictionaries, glossaries, and thesauruses are explored, see Appendix C. For more information about using a dictionary, glossary, and thesaurus and other word-learning strategies, see "Independent Word-learning Strategies" in the Introduction.

INTRODUCE AND USE *LUSH*

1 Introduce Using a Dictionary

Gather the class with partners sitting together, facing you. Show the cover of *Rainforests* and read the title aloud. Turn to the title page and read the author's name aloud. Remind the students that when they heard part of the book earlier, they learned that rainforests are being destroyed. Explain that today you will read other parts of the book so that the students can learn more about rainforests and discuss words from the book.

Materials

- *Rainforests*
- Student dictionaries, collected ahead
- Word card 13 (WA1)
- Word card 14 (WA2)
- Word card 15 (WA3)

Teacher Note

This lesson may require an extended class period. You might want to end the lesson at the end of Step 3 and then finish the lesson later in the day or the next day.

TEKS 3.A.i
Student/Teacher Narrative
Step 1
(second paragraph on)

Teacher Note

You might point out that the beginning of most dictionaries includes a pronunciation guide and other helpful information about how to use the dictionary.

If the students' dictionaries provide word histories or synonyms or antonyms of words, point out these features as well.

TEKS 3.A.i
Student/Teacher Activity
Step 2

Teacher Note

Circulate as the students look up the word. If many students are struggling, call for their attention. Model using the guide words in your copy of the dictionary to find the word. Then give the students another minute or two to find the word. For more practice using a dictionary, see the more strategy practice activity "Use a Print Dictionary" on page 60.

Tell the students that today they will do something different to learn about the first word from the book—they will use a dictionary. Show the cover of one of the dictionaries you collected, read the title aloud, and ask:

Q *What is a dictionary? When have you used a dictionary?*

If necessary, explain that a *dictionary* is a "book that lists words in alphabetical order and gives their meanings and other information." Point out that if the students are not sure what a word means, they can look it up in the dictionary.

Distribute a dictionary to each pair of students. Have partners open to the first page of the dictionary that has guide words and point to the guide words at the top of the page. Tell the students that these words are called "guide words" and explain that they show the first and last words that are defined on the page. Explain that the guide words can help the students find a word they are looking for. Also point out that dictionary words are listed alphabetically on the page and that each word is followed by its meaning or meanings.

As a class, discuss:

Q *What other information about the words is provided on this page?*

Have a few volunteers share their thinking with the class. As necessary and appropriate, point out that a dictionary gives the spelling of each word; its division into syllables; the pronunciation; the part of speech (whether the word is a noun, verb, adjective, or other part of speech); and other forms of the word, such as the *-ing* and *-ed* forms of a verb. Point out that, for some words, a sentence that shows how they might use the word is also provided.

2 Use the Dictionary to Discuss the Word *Lush*

Show pages 4–5 of *Rainforests* and explain that this chapter of the book is called "What is a rainforest?" Ask the students to listen carefully as you read from this chapter. Then read the first two sentences on page 4 aloud, emphasizing the word *lush*. Tell the students that *lush* is the first word they will learn today. Display word card 13 (🟢 WA1) and have the students say the word *lush*.

Give partners a few minutes to find the word *lush* in their dictionaries.

When most pairs have found the word and finished talking, ask a volunteer to read the definition. Confirm that *lush* means "having lots of green, healthy plants." Show the photographs on pages 4–5 and 10–11 of *Rainforests*, and point out that rainforests are lush forests full of trees and other plants.

3 Imagine a Lush Garden

Tell the students that you will ask them a question about the word *lush*. Explain that partners will discuss the question, and then you will ask a few volunteers to share their partners' thinking with the class.

Ask the students to close their eyes and imagine the following scenario as you read it aloud:

- *You are in the middle of a lush garden.*

Use “Think, Pair, Share” to discuss:

Q *What do you see in the lush garden? [Pause.] Open your eyes. [Click 1 on WA1 to reveal the first prompt.] Turn to your partner.*

lush

PROMPT 1: In the **lush** garden, I saw . . .

1 2

WA1

PROMPT 1: “In the lush garden, I saw . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention. Then click 2 to show the next prompt. Have one or two volunteers use the prompt to share their partners’ thinking with the class.

PROMPT 2: “[Malik] said that in the lush garden, he saw . . .”

Point to the word *lush* and ask:

Q *What’s the new word we are learning that means “having lots of green, healthy plants”?*

INTRODUCE AND USE DIM

4 Introduce and Define *Dim*

Show pages 8–9 of *Rainforests* and explain that this chapter is called “Inside a tropical rainforest.” Ask the students to listen carefully as you read from the chapter. Then read the first paragraph on page 8 aloud, emphasizing the word *dim*.

Tell the students that *dim* is the next word they will learn today, and explain that *dim* means “somewhat dark or not bright or clear.” Explain that the rainforest floor is dim because the thick layer of trees and other plants overhead block much of the sunlight.

Display word card 14 (WA2) and have the students say the word *dim*.

ELL Note

You might make the room dim by turning off the lights and lowering the blinds.

5 Discuss Dim Light

Explain that if the light in a room is dim, it is not completely dark. You can still see objects, but they are not clear or bright.

Ask and discuss as a class:

Q *Is the light in our classroom dim right now? Why?*

Click **1** on word card 14 (WA2) to reveal the first prompt. Have one or two volunteers use the prompt to share their thinking with the class.

PROMPT 1: “The light [is/is not] dim because . . .”

Then ask:

Q *What might we do to make the light in the classroom dim?*

Click **2** to reveal the next prompt and have one or two volunteers use the prompt to share their thinking.

PROMPT 2: “To make the light dim, we might . . .”

6 Play “Bright, Dim, or Dark?”

Tell the students that partners will play a game called “Bright, Dim, or Dark?” Explain that you will describe an activity and partners will decide whether they would rather have bright light, dim light, or darkness (no light at all) for the activity and explain why.

Begin with the following question:

Q *When you read, would you rather have bright light or dim light? Why?*
[Click **3** on WA2 to reveal the prompt.] *Turn to your partner.*

PROMPT 3: “When I read, I would rather have [bright/dim] light because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for their attention. Have one or two volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss the following questions:

Q *When you sleep, would you rather it be dark or dim in your room? Why?*
[Click **4** to reveal the prompt.] *Turn to your partner.*

PROMPT 4: “When I sleep, I would rather it be [dark/dim] because . . .”

Q *When you walk down a street at night, would you rather there be dim streetlights or bright streetlights? Why?* [Click **5** to reveal the prompt.]
Turn to your partner.

PROMPT 5: “When I walk down a street at night, I would rather there be [dim/bright] streetlights because . . .”

Point to the word *dim* and ask:

Q *What’s the new word we are learning that means “somewhat dark or not bright or clear”?*

INTRODUCE AND USE CLAMBER

7 Introduce and Define *Clamber*

Show pages 22–23 of *Rainforests* and point out that this chapter is called “Beautiful birds.” Point to the photograph on page 23 and explain that the chapter tells about some of the birds that live in rainforests, including parrots. Ask the students to listen carefully as you read about parrots. Then read page 23 aloud, stopping after “. . . open nuts and fruits with their powerful beaks.” Emphasize the word *clamber* when you come to it.

Tell the students that *clamber* is the last word that they will learn today. Explain that *clamber* means “climb something that is difficult to climb, using your hands and feet.” Explain that rainforest trees grow close together, which makes it difficult for parrots and other animals to move through the trees. Point out that parrots use their sharp claws to clamber, or climb, through the thickly growing branches.

Display word card 15 (WA3) and have the students say the word *clamber*.

8 Act Out and Discuss *Clamber*

Ask the students to close their eyes and imagine they are clambering, or climbing with difficulty, up a steep ladder. After a few moments, have them open their eyes; then have a volunteer act out clambering up a ladder.

Discuss as a class:

Q *What did you notice [Reina] doing when she clambered?*

Click ❶ on word card 15 (WA3) to reveal the first prompt, and have one or two volunteers use the prompt to share their thinking with the class.

PROMPT 1: “When [Reina] clambered, she . . .”

Tell the students that partners will now discuss a question about the word *clamber*. Explain that after they talk, you want them to be ready to share their partners’ thinking with the class. Ask:

Q *When have you clambered or seen someone clamber?* [Click ❷ on WA3 to reveal the next prompt.] *Turn to your partner.*

PROMPT 2: “I clambered when . . .” or “I saw [my brother] clamber when . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention. Then click ❸ to reveal the next prompt. Have one or two volunteers use the prompt to share their partners’ thinking with the class.

PROMPT 3: “[Hiroshi] said he clambered when . . .” or “[Hiroshi] said he saw [his sister] clamber when . . .”

Point to the word *clamber* and ask:

Q *What’s the new word we are learning that means “climb something that is difficult to climb, using your hands and feet”?*

Materials

- Student dictionaries, collected ahead

Teacher Note

Academic language is the language necessary for success in school. It includes general academic words commonly found across content areas and in many different kinds of texts (for example, the target words in the vocabulary lessons) as well as content-area or domain-specific words such as *tropics*. Knowledge of academic language is important for all students' success in school and is especially critical for English Language Learners.

MORE STRATEGY PRACTICE

Use a Print Dictionary

Write the following words from *Rainforests* where everyone can see them: *damp*, *scuttle*, *clumsy*, and *timber*.

Distribute a dictionary to each pair of students. Explain that the students will practice using a dictionary by looking up words from *Rainforests*. If necessary, review how to use a dictionary by reminding the students that the words are listed alphabetically, that guide words help them find the page a word is on, and that each word entry includes the meaning and pronunciation of the word.

Direct the students' attention to the words that you wrote and explain that these words are from *Rainforests*. Tell the students that partners will choose one of the words they want to know about, look it up in the dictionary, and share what they learned about the word with the class.

Give partners a few minutes to choose a word, find it in the dictionary, and discuss the word entry. When most pairs have finished, discuss each word as a class by asking:

- Q *Who looked up the word [damp]? What did you find out about the word?*
- Q *Who else looked up the word [damp]? What can you add to what [Audrey and Keaton] told us about the word?*

Encourage the students to continue to use the dictionary to look up the meanings of words they do not know.

EXTENSION

Explore Domain-specific Words: *Tropics*

Explain that writers who write about nonfiction science topics, such as habitats, often use scientific words to discuss their subjects. Explain that in *Rainforests*, James Harrison uses the scientific word *tropics* when he tells where rainforests grow. Write the word *tropics* where everyone can see it. Tell the students that as you read the paragraph from *Rainforests* that includes the word *tropics*, you want them to listen for what the word *tropics* means.

Point to the map on pages 6–7 of the book; then read the first paragraph on page 6 aloud, emphasizing the word *tropics* when you come to it. Ask:

- Q *What does the word tropics mean? Where in the world are the tropics?*

If necessary, point out that the book says that the *tropics* are areas just “north and south of the equator.” Then discuss:

- Q *What is the weather like in the tropics?*
- Q *What might you wear if you visited the tropics? Why?*

Review *Lush, Dim, and Clamber*

Day 2

In this lesson, the students:

- Review and practice using the words *lush*, *dim*, and *clamber* from Day 1
- Build their speaking and listening skills
- Explain their thinking

Words Reviewed

lush

Lush means “having lots of green, healthy plants.”

dim

Dim means “somewhat dark or not bright or clear.”

clamber

Clamber means “climb something that is difficult to climb, using your hands and feet.”

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Display the daily review cards (WA4) and remind the students that yesterday they learned these three words from the book *Rainforests*. Point to each of the words as you review the pronunciation and meaning: *lush*, *dim*, and *clamber*. Explain that today they will think more about the words.

Ask:

Q Which of the words we learned yesterday do you think was interesting to talk about? Why? [Click 1 on WA4 to reveal the first prompt.] Turn to your partner.

lushdimclamber

PROMPT 1: I think the word _____ was interesting to talk about because . . .

1

WA4

PROMPT 1: “I think the word [*lush*] was interesting to talk about because . . .”

Have the students use the prompt to share their thinking. After a few moments, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

PRACTICE USING THE WORDS

2 Introduce the Game “Finish the Story”

Tell the students that partners will play a game called “Finish the Story.” Explain that you will read a story, leaving off the last word. Then partners will decide which word they think makes the best ending for the story. Tell the students that before partners play the game with one another, they will play the game as a class.

Display the daily review activity (🕒 WA5) and begin as follows:

1. Click ❶ to reveal the first story. Point to the story and read it aloud twice, slowly and clearly.
 - Story 1: *The power went out just as Bailey started working on her homework. She lit a candle, but she still could not see well because the light was too _____.*
2. Give the students a few moments to think about the story. Then point to the five word choices and ask:

Q *Which vocabulary word makes the best ending for the story? Why?*

Click ❶ again to reveal the prompt.

PROMPT: “I think [*dim*] makes the best ending because . . .”

Have a few volunteers use the prompt to share their thinking with the class.

3. Conclude the discussion by clicking ❶ a third time to highlight the correct vocabulary word and reveal the story with the correct word in place.

Teacher Note

Each story on the daily review activity (WA5) has a corresponding number: the first story is ❶; the second story is ❷; the third story is ❸; and so on. To play the game, click the corresponding number four times:

- The first click reveals the story.
- The second click reveals the prompt.
- The third click highlights the correct answer and reveals the story with the answer in place.
- The fourth click clears the screen.

lush	dim	clamber
------	-----	---------

STORY 1: The power went out just as Bailey started working on her homework. She lit a candle, but she still could not see well because the light was too dim.

1
2
3
4
5
6

4. Click **1** to clear the screen.

3 Play the Game in Pairs

1. Click **2** to reveal the second story and read it aloud.

- Story 2: *Phil and his family went for a hike in the forest. They were surrounded by tall trees thick with leaves, green grass, and beautiful flowers and bushes. Phil's mom said, "Wow! I have never seen a forest so _____."*

2. Give the students a few moments to think about the story. Then point to the word choices and ask:

Q Which of yesterday's words makes the best ending for the story? Why? [Click **2** again and point to the prompt.] Turn to your partner.

PROMPT: "I think [*lush*] makes the best ending because . . ."

Have partners use the prompt to share their thinking. After a few moments, signal for the students' attention and have a few volunteers use the prompt to share their thinking with the class.

3. Conclude the discussion by clicking **2** a third time to highlight the correct vocabulary word and reveal the story with the correct word in place.
4. Click **2** to clear the screen.

Use the same procedure to discuss the following stories:

- Story 3: *Dalia was walking her dog at night. Her flashlight began to lose power. The light became _____.* (dim)
- Story 4: *A squirrel dashes up a large tree. As the squirrel gets near the top of the tree, the branches are close together, making the climb harder. To get to the top, the squirrel must _____.* (clamber)
- Story 5: *Amir was disappointed with his family’s trip to the desert. He complained to his mother, “Next time, let’s go somewhere with a lot of flowers and green plants! I want to go to a place that is _____.”* (lush)
- Story 6: *Nina is climbing up a rocky hillside. “This is difficult,” she mumbles. “I’ll have to use my hands and feet and _____.”* (clamber)

Tell the students that tomorrow they will learn and talk about three new words.

EXTENSION

Explore Sensory Details in *Rainforests*

Tell the students that good writers like James Harrison, the author of *Rainforests*, use descriptive words and phrases in their writing. These details appeal to our senses—they help readers imagine how things look, feel, taste, smell, and sound. Explain that we call words and phrases that appeal to our senses *sensory details*.

Show pages 8–9 of *Rainforests* and remind the students that this chapter is called “Inside a tropical rainforest” and describes what a rainforest is like. Tell the students that as you read aloud from this chapter, you want them to close their eyes and listen for words or phrases that help them imagine what a rainforest looks, sounds, and feels like. Then read page 8 aloud slowly and clearly, without showing the illustration. Ask:

Q *What words or phrases did you hear that help you imagine what a rainforest looks, sounds, and feels like?*

If necessary, point out that phrases such as “a soft pile of dead leaves in a dim light,” “giant tree trunks covered in twisted vines,” “quiet and still,” “very hot and sticky,” and “giant green roof of the forest” help us imagine what a rainforest looks, sounds, and feels like. Point out that sensory details like these paint word pictures that help make writing interesting and fun to read and hear. Encourage the students to use sensory details in their own writing.

Introduce *Lurk, Pollute,* and *Nourish*

Day 3

In this lesson, the students:

- Learn and use the words *lurk*, *pollute*, and *nourish*
- Use a glossary
- Build their speaking and listening skills
- Share their partners' thinking
- Explain their thinking

Words Taught

lurk (p. 28)

Lurk means “stay hidden, ready to spring out and attack.”

pollute (p. 40)

Pollute means “poison the air, water, or soil.”

nourish (p. 45)

Nourish means “provide what is needed for life and growth.”

INTRODUCE AND USE *LURK*

1 Introduce and Define *Lurk*

Gather the class with partners sitting together, facing you.

Show the cover of *Rainforests* and remind the students that earlier they learned three words from the book. Explain that today they will learn three more words from the book.

Show pages 28–29 of *Rainforests* and explain that this chapter, called “King of the rainforest,” is about one of the most dangerous of all rainforest animals, the jaguar. Read page 28 aloud, emphasizing the word *lurks*.

Tell the students that the first word they will learn today is *lurk*, and explain that *lurk* means “stay hidden, ready to spring out and attack.” Explain that animals like jaguars are dangerous hunters because they creep quietly through the trees and lurk, or stay hidden, ready to leap out and attack prey. Show the photograph of the jaguar on page 28 and point out that its spotted coat helps it lurk, or stay hidden, in its rainforest surroundings.

Display word card 16 (WA6) and have the students say the word *lurk*.

Materials

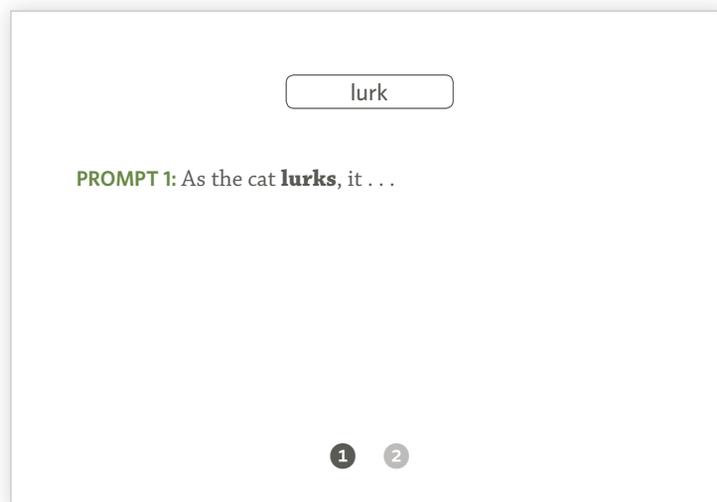

- *Rainforests*
- Word card 16 (WA6)
- Word card 17 (WA7)
- Word card 18 (WA8)

2 Discuss Lurking

Remind the students that when an animal lurks, it stays hidden, ready to spring out and attack. Ask the students to imagine they are watching a hungry cat lurking in the grass as a mouse scurries nearby.

Use “Think, Pair, Share” to discuss:

-  **Q** *What does the cat look like as it lurks?* [Pause; click 1 on WA6 to reveal the first prompt.] *Turn to your partner.*

WA6

PROMPT 1: “As the cat lurks, it . . .”

Have partners use the prompt to take turns answering the question. After a few moments, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Explain that we can also use the word *lurk* to talk about people who are hiding and waiting to spring out at someone, sometimes to rob or hurt the person. Discuss as a class:

- Q** *If you saw someone lurking outside your house, what might you do? Why?*

Click 2 to reveal the next prompt. Have a few volunteers use the prompt to share their thinking with the class.

PROMPT 2: “If I saw someone lurking outside my house, I might [tell my mother] because . . .”

Point to the word *lurk* and ask:

- Q** *What’s the new word we are learning that means “stay hidden, ready to spring out and attack”?*

INTRODUCE AND USE *POLLUTE*

3 Model Using the Glossary and Introduce and Define *Pollute*

Show pages 46–47 of *Rainforests*. Point to the word *Glossary* at the top of page 46 and read it aloud. Explain that a *glossary* is a “list of words that the author thinks readers might need to know to understand the book.” Tell the students that they will find a glossary in many nonfiction books. Point out that a glossary is usually found at the end of a book and that it is organized like a dictionary: it lists words in alphabetical order and tells what each word means.

Tell the students that if they come across a word in a nonfiction book that they do not understand, they can often look it up in the glossary. Explain that authors will often use bold (thick) type to help readers know which words in a book they have included in the glossary.

Model how to use the glossary by first showing page 40 of *Rainforests*. Remind the students that they heard this chapter earlier. Review that this section describes some ways that companies damage rainforests by cutting down trees, building roads and towns in the forests, and polluting the land and water. Point to the word *pollute* in the last paragraph and point out that it is shown in bold type. Review that the bold type means that they can find the word *pollute* in the glossary.

Tell the students that the next word they will learn today is *pollute*. Display word card 17 (WA7) and have the students say the word *pollute*. Read the sentence on page 40 that includes the word *pollute*. Ask:

Q *What do you know about the word pollute? What do you think happens when a company’s dams and pipelines pollute the land and water?*

Click **1** on word card 17 (WA7) to reveal the first prompt. Have one or two volunteers use the prompt to share their thinking with the class.

PROMPT 1: “When a company pollutes the land and water . . .”

Turn to the Glossary on page 47, read the definition of *pollute* (“to poison the air, water, or soil”), and explain that the dams and pipelines that belong to some companies may pollute, or poison, the land and water of the rainforest. Point out that this is another reason rainforests are in danger.

ELPS 1.F.i
Steps 3 and 4, ELL Note on p. 67, and
Teacher Note on p. 68

ELPS 4.C.iii
Step 3

ELL Note

The Spanish cognate of *pollute* is *polucionar*.

4 Discuss Ways That People Pollute the Air, Water, and Soil

Remind the students that *pollute* means “poison the air, water, or soil.” Explain that, unfortunately, human beings have polluted the air, water, and soil in many parts of our planet, not just rainforests. Give one or two examples of ways that people pollute the air, water, or soil.

You might say:

“People pollute the air when they drive cars that give off a lot of dirty gases.
People pollute water when they throw trash into streams and rivers.”

Use “Think, Pair, Share” to discuss:

Q *In what other ways do people pollute the air, water, or soil?* [Pause; click 2 on WA7 to reveal the prompt.] Turn to your partner.

PROMPT 2: “People pollute the [water] when . . .”

Point to the word *pollute* and ask:

Q *What’s the new word we are learning that means “poison the air, water, or soil”?*

INTRODUCE AND USE *NOURISH*

5 Introduce and Define *Nourish*

Show pages 44–45 of *Rainforests* and review that this chapter, called “Rainforest future,” tells why rainforests are shrinking and what is being done to save them. Point to the photograph that spans pages 44–45. Read the caption on page 45 aloud, emphasizing the word *nourish*: “Rainforests need clean, flowing rivers and regular flooding to nourish the soil.”

Tell the students that the last word they will learn today is *nourish*, and explain that *nourish* means “provide what is needed for life and growth.” Explain that the flooding of clean rivers nourishes the soil of the rainforest, or provides the soil with what it needs to be healthy so that rainforest plants can grow.

Display word card 18 (WA8) and have the students say the word *nourish*.

6 Discuss Nourishing Plants and People

Tell the students that partners will discuss a question about the word *nourish* and that you want them to be ready to share their partners’ thinking with the class.

Teacher Note

If the students struggle to answer the question, give other examples of ways people pollute. For example, say “People pollute the soil when they use chemicals to keep insects off of fruit and vegetable crops. The chemicals run off of the plants and into the dirt, poisoning the soil” or “People pollute the water when they pour poisonous liquids like paint and used motor oil down the sink or in the gutter because they eventually end up in the water supply.”

Remind the students that one thing that nourishes plants is healthy soil. Use “Think, Pair, Share” to discuss:

Q *What else nourishes plants, or provides what they need for life and growth?* [Pause; click **1** on WA8 to reveal the first prompt.] *Turn to your partner.*

PROMPT 1: “[The sun] nourishes plants.”

Have partners use the prompt to take turns answering the question. After most pairs have finished talking, signal for the students’ attention. Then click **2** to reveal the next prompt. Have a few volunteers use the prompt to share their partners’ thinking with the class.

PROMPT 2: “[Kwame] said that [water] nourishes plants.”

After the students have shared, tell them that sunlight and water also nourish people, or provide people with what they need to live and grow. Use “Think, Pair, Share” to discuss:

Q *What else nourishes people? Why is it important for life and growth?* [Pause; click **3** to reveal the next prompt.] *Turn to your partner.*

PROMPT 3: “[Food] nourishes people. [Food] is important for life and growth because . . .”

Have partners use the prompt to take turns answering the question. After a few moments, signal for the students’ attention and have one or two volunteers use the prompt to share their thinking with the class.

Point to the word *nourish* and ask:

Q *What’s the new word we are learning that means “provide what is needed for life and growth”?*

Tell the students that tomorrow they will talk more about the words they learned today.

Teacher Note

Support struggling students by providing a few examples of things that nourish people. For example, say “Sleep nourishes people. Sleep is important for life and growth because it gives people the energy they need to do things during the day” or “Exercise nourishes people. Exercise is important for life and growth because it keeps people healthy and gives them energy.”

Teacher Note

You might have a brief discussion about things that nourish people emotionally, like a loving family, friendship, or music.

Day 4

Review *Lurk*, *Pollute*, and *Nourish*

Materials

- Daily review cards (WA9)
- “Tell Me a Story” chart (WA10)
- Copy of this week’s family letter (BLM1) for each student

In this lesson, the students:

- Review and practice using the words *lurk*, *pollute*, and *nourish* from Day 3
- Build their speaking and listening skills
- Explain their thinking

Words Reviewed

lurk

Lurk means “stay hidden, ready to spring out and attack.”

pollute

Pollute means “poison the air, water, or soil.”

nourish

Nourish means “provide what is needed for life and growth.”

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Display the daily review cards (WA9). Remind the students that yesterday they learned these three words from the book *Rainforests*. Point to each of these words as you review the pronunciation and meaning: *lurk*, *pollute*, and *nourish*. Tell the students that today they will think more about these words.

Discuss as a class:

Q *Why might a fox lurk behind a large tree?*

Click 1 on the daily review cards (WA9) to reveal the first prompt. Have a few volunteers use the prompt to share their thinking with the class.

lurk

pollute

nourish

PROMPT 1: A fox might **lurk** behind a large tree because . . .

1
2
3

PROMPT 1: “A fox might lurk behind a large tree because . . .”

Use the same procedure to discuss the following questions:

Q How might a garbage truck pollute the air, soil, or water?

Click **2** to reveal the prompt.

PROMPT 2: “A garbage truck might pollute the [air/soil/water] by . . .”

Q What might nourish a cat?

Click **3** to reveal the next prompt.

PROMPT 3: “[Milk] might nourish a cat.”

PRACTICE USING THE WORDS

2 Review the Activity “Tell Me a Story”

Tell the students that partners will do the activity “Tell Me a Story.” Review that you will tell them the beginning of a story that includes one of the vocabulary words. Then the students will use their imaginations and what they know about the word to make up an ending for the story.

Display the “Tell Me a Story” chart (📄 WA10) and show story 1 and its accompanying prompt. Tell the students that story 1 uses the word *pollute*. Then read the story 1 aloud, slowly and clearly.

- Story 1: *Daniela is with her family on vacation at the beach. She sees her brother throw his water bottle into the ocean. Daniela is very upset to see her brother pollute the water, so she . . .*

Use “Think, Pair, Share” to discuss:

Q How might you finish the story? What does Daniela do when she sees her brother pollute the ocean water? [Pause; point to prompt 1.] Turn to your partner.

Tell Me a Story

Daniela is with her family on vacation at the beach. She sees her brother throw his water bottle into the ocean. Daniela is very upset to see her brother pollute the water, so she . . .

PROMPT 1: Daniela is very upset to see her brother **pollute** the water, so she . . .

PROMPT 1: “Daniela is very upset to see her brother pollute the water, so she . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss the following stories on the chart (WA10):

- *Story 2: Ramón noticed that his tomato plant was starting to die. He knew he had to nourish it to bring it back to life. To nourish his tomato plant, Ramón . . .*

Q *How might you finish the story? What does Ramón do to nourish his tomato plant? [Pause; point to prompt 2.] Turn to your partner.*

PROMPT 2: “To nourish his tomato plant, Ramón . . .”

- *Story 3: Estella and her sister were walking to the grocery store when they saw something lurking behind a bush. The thing that was lurking was . . .*

Q *How might you finish the story? What was lurking behind the bush? Why was it lurking? [Pause; point to prompt 3.] Turn to your partner.*

PROMPT 3: “The thing that was lurking was . . .”

Tell the students that tomorrow they will talk more about some of the words they have been learning.

Teacher Note

Send home with each student a copy of this week’s family letter (BLM1). Encourage the students to talk about this week’s words with their families.

In this lesson, the students:

- Review words learned earlier
- Build their speaking and listening skills
- Explain their thinking

Words Reviewed

clamber

Clamber means “climb something that is difficult to climb, using your hands and feet.”

clamor

Clamor means “demand or ask for something loudly.”

lurk

Lurk means “stay hidden, ready to spring out and attack.”

reassure

When you reassure someone, you make the person feel less worried. You calm the person and give the person courage or confidence.

vary

Vary means “are different.”

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you. Display the ongoing review cards (WA11). Remind the students that they learned these words earlier. Explain that today they will think and talk more about the words.

Point to the word *clamber* and ask:

Q *What do you know about the word clamber?*

Have one or two volunteers share their thinking with the class. Remind them to use the word *clamber* as they share their ideas.

Use the same procedure to review the remaining words.

Materials

- Ongoing review cards (WA11)
- Ongoing review activity (WA12)

Teacher Note

Each sentence on the ongoing review activity (WA12) has a corresponding number: the first sentence is ①; the second sentence is ②; the third sentence is ③; and so on. To play the game, click the corresponding number four times:

- The first click reveals the sentence.
- The second click reveals the prompt.
- The third click highlights the correct answer and reveals the sentence with the answer in place.
- The fourth click clears the screen.

Teacher Note

You might explain that the students may need to change the form of the word to complete the sentence by adding an ending such as *-s*, *-ing*, or *-ed*.

Teacher Note

If you are not using an interactive whiteboard, you might write the review words and the sentences where everyone can see them.

PRACTICE USING THE WORDS

2 Introduce the Game “What’s the Missing Word?”

Tell the students that partners will play a game called “What’s the Missing Word?” Explain that you will read a sentence with one word missing. Then partners must decide which of the vocabulary words is the missing word and explain why they think so. Tell the students that before partners play the game with one another, they will practice the game as a class. Display the ongoing review activity (WA12) and begin as follows:

1. Click ① to reveal the first sentence. Point to the sentence and read it aloud.
 - Sentence 1: *The children _____ for ice cream when the ice-cream truck stopped by on a hot day.*

2. Give the students a few moments to think about the sentence. Then point to the five word choices and ask:

Q *What’s the missing word? Why do you think so?*

Click ① again to reveal the prompt.

PROMPT: “I think [*clamored*] is the missing word because . . .”

Have a few volunteers use the prompt to share their thinking with the class.

3. Conclude the discussion by clicking ① a third time to highlight the correct vocabulary word and reveal the sentence with the correct word in place.

clamber clamor lurk reassure vary

SENTENCE 1: The children clamored for ice cream when the ice-cream truck stopped by on a hot day.

① ② ③ ④ ⑤

4. Finally, click ① to clear the screen.

3 Play the Game in Pairs

Now play the game with the students in pairs:

1. Click ❷ to reveal the second sentence and read it aloud.
 - Sentence 2: *Camila was worried because she lost a favorite memento, but her father _____ her and she felt better.*
2. Give the students a few moments to think about the sentence. Then point to the five word choices and ask:

Q *What's the missing word? Why do you think so?* [Click ❷ again and point to the prompt.] *Turn to your partner.*

PROMPT: "I think [*reassured*] is the missing word because . . ."

Have partners take turns using the prompt to talk about the questions. When most pairs have finished talking, signal for their attention and have one or two volunteers use the prompt to share their thinking with the class.

3. Conclude the discussion by clicking ❷ a third time to highlight the correct vocabulary word and reveal the sentence with the correct word in place.
4. Finally, click ❷ to clear the screen.

Use the same procedure to discuss the remaining sentences:

- Sentence 3: *Kaito wanted to scare his big brother, so he _____ around the corner, ready to spring out suddenly.* (lurked)
- Sentence 4: *Regina and her sister _____ up the rocky hill as they raced to the top.* (clambered)
- Sentence 5: *Tristan likes to play a different game every day at recess because if the games _____, he doesn't get bored.* (vary)

Tell the students that next week they will learn more new words.

Teacher Note

You might remind the students that they learned the word *memento* earlier and that a *memento* is "something given or kept as a reminder of a person, place, or experience."

Week 4

RESOURCES

Read-alouds

- "Follow That Ball! Soccer Catching On in the U.S." (see pages 104–105)
- "All Work and No Play: Trends in School Recess" (see pages 106–107)

More Strategy Practice

- "Start an Antonym Chart"
- "Discuss Words with the Prefix *dis-*"
- "Discuss Idioms"
- "Explore Proverbs"

Assessment Resource Book

- Week 4 vocabulary assessments

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA9

Assessment Forms

- "Class Vocabulary Assessment Record" sheet (CA1)
- "Individual Vocabulary Assessment: Word Check 1" answer sheet (IA1)
- "Individual Vocabulary Assessment Student Record" sheet (SR1)
- "Individual Vocabulary Assessment Class Record" sheet (CR1)
- (Optional) "Student Self-assessment" response sheet (SA1)

Reproducibles

- Week 4 family letter (BLM1)
- (Optional) "Week 4 Word Cards" (BLM2)
- (Optional) "Week 4 Crossword Puzzle" (BLM3)

Professional Development Media

- "Using the Individual Vocabulary Assessment" (AV51)

OVERVIEW

Words Taught

surge
stamina
dissatisfied
discontinue
blow off steam
restriction

Words Reviewed

cuisine
moocher
restriction
stamina
surge

Word-learning Strategies

- Using the prefix *dis-* to determine word meanings
- Recognizing antonyms
- Recognizing idioms
- Recognizing proverbs

Vocabulary Focus

- Students learn and use six words from or about the articles.
- Students use the prefix *dis-* to determine word meanings.
- Students discuss antonyms.
- Students discuss idioms and proverbs.
- Students review words learned earlier.
- Students build their speaking and listening skills.

Social Development Focus

- Students work in a responsible way.
- Students develop the skill of explaining their thinking.
- Students analyze the effects of their behavior on others and on the group work.
- Students share their partners' thinking with the class.

J DO AHEAD

- ✓ (Optional) Prior to Day 1, review the more strategy practice activity “Start an Antonym Chart” on page 84. You might do the activity at the end of vocabulary time or at another time.
- ✓ (Optional) Prior to Day 2, review the more strategy practice activity “Discuss Words with the Prefix *dis-*” on page 87.
- ✓ (Optional) Prior to Day 3, review the more strategy practice activity “Discuss Idioms” on page 94.
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this week’s family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ (Optional) Prior to Day 4, review the more strategy practice activity “Explore Proverbs” on page 98.
- ✓ Prior to Day 5, make a copy of the “Class Vocabulary Assessment Record” sheet (CA1); see page 164 of the *Assessment Resource Book*.
- ✓ Prior to Day 5, make a class set of the “Individual Vocabulary Assessment: Word Check 1” answer sheet (IA1); see page 168 of the *Assessment Resource Book*. Make enough copies for each student to have one; set aside a reference copy for yourself. Also, make a class set of the “Individual Vocabulary Assessment Student Record” sheet (SR1); see page 236 of the *Assessment Resource Book*. Use this sheet to record each student’s scores from Word Checks 1–7 over the course of the year. You might also make a copy of the “Individual Vocabulary Assessment Class Record” sheet (CR1); see page 238 of the *Assessment Resource Book*. Use this sheet to record the scores of all of the students in the class across the year.
- ✓ (Optional) Prior to Day 5, make a master copy of the “Student Self-assessment” response sheet (SA1); see page 171 of the *Assessment Resource Book*. Write the words you have chosen to be assessed on the master copy. Then make enough copies for each student to have one.
- ✓ (Optional) Visit the CCC Learning Hub (ccclearninghub.org) to access and print the following materials: “Week 4 Word Cards” (BLM2) and “Week 4 Crossword Puzzle” (BLM3). These materials can be used to provide your students with more opportunities to review the words.

Introduce *Surge*, *Stamina*, and *Dissatisfied*

Day 1

In this lesson, the students:

- Learn and use the words *surge*, *stamina*, and *dissatisfied*
- Discuss the prefix *dis-*
- Discuss antonyms
- Build their speaking and listening skills
- Explain their thinking

Words Taught

surge (p. 104)

A *surge* is a “sudden increase or a sudden strong rush.”

stamina (p. 105)

Stamina is the “energy and strength to keep doing something for a long time.”

dissatisfied

Dissatisfied means “not satisfied or happy with the way things are.” When you are dissatisfied, you want something more or something different.

ABOUT RECOGNIZING ANTONYMS

In this lesson, the students are introduced to *antonyms*, or “words with opposite meanings,” through the words *dissatisfied* and *satisfied*. Discussing a word and its opposite requires students to think about the critical attributes of the words and helps them understand and remember the words. This week we suggest that you start an antonym chart and add to it during the year as the students learn new antonyms (see the More Strategy Practice activity “Start an Antonym Chart” on page 84). For a complete table of the antonyms taught in grade 5, see Appendix C. For more information about recognizing idioms and other independent word-learning strategies, see “Independent Word-learning Strategies” in the Introduction.

INTRODUCE AND USE *SURGE*

1 Introduce and Define *Surge*

Gather the class with partners sitting together, facing you.

Show the article “Follow That Ball! Soccer Catching On in the U.S.,” read the title and subtitle aloud, and explain that today’s words are from or about the article, which they heard you read earlier.

Materials

- “Follow That Ball! Soccer Catching On in the U.S.” (see pages 104–105)
- Word card 19 (WA1)
- Word card 20 (WA2)
- Word card 21 (WA3)

Remind the students that the article explains why soccer is becoming more popular in the United States. Point to the photographs and caption on page 104. Review that photographs and captions help readers better understand an article. Ask the students to listen carefully as you read the caption from the first page of the article aloud. Then read the caption, emphasizing the word *surge*.

Tell the students that the first word they will learn today is *surge*. Explain that a *surge* is a “sudden increase or a sudden strong rush.” Explain that the surge, or sudden increase, in skills and confidence among women soccer players helped the U.S. women’s team become Olympic gold medalists.

Display word card 19 (🗨️ WA1) and have the students say the word *surge*.

2 Review the Activity “Imagine That!”

Tell the students that partners will do the activity “Imagine That!” Review that you will describe a scene and ask the students to visualize what they hear. Then partners will use the word *surge* to talk about what they pictured.

Remind the students that a *surge* is a “sudden increase.” Give some examples of things that surge, or suddenly increase.

You might say:

“Last month when the flu was going around our school, there was a surge, or sudden increase, in the number of absences. Sometimes when one of you recommends a book to the class, there is a surge in the popularity of the book. Lots of you want to read it.”

Review that a *surge* can also be a “sudden strong rush” and give the students some examples of this kind of surge.

You might say:

“If a fire alarm went off in a building, you might see a surge, or sudden strong rush of people, heading for the exits. During recess, there is sometimes a surge of students hurrying onto the playground.”

Have the students close their eyes and imagine the following scenario as you read it aloud:

- *You are sitting on the beach. You see a surge of water coming toward you.*

Use “Think, Pair, Share” to discuss:

Q *What does the surge of water look like? What does it sound like?* [Pause.] *Open your eyes.* [Click **1** on WA1 to reveal the first prompt.] *Turn to your partner.*

surge

PROMPT 1: The **surge** of water [looks/sounds] like . . .

1 2

WA1

PROMPT 1: “The surge of water [looks/sounds] like . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, have the students imagine and discuss the following scenario:

- *You are at an amusement park. You are standing with dozens of people at the entrance gate, waiting for the park to open. Suddenly, the gate swings open, and a surge of people enters the park.*

Q *What does the surge of people look like? What does it sound like?* [Pause.] *Open your eyes.* [Click **2** to reveal the next prompt.] *Turn to your partner.*

PROMPT 2: “The surge of people [looks/sounds] like . . .”

Point to the word *surge* and ask:

Q *What’s the new word we are learning that means a “sudden increase or a sudden strong rush”?*

INTRODUCE AND USE STAMINA

3 Introduce and Define *Stamina*

Remind the students that the article lists five reasons why soccer might be becoming more popular in the United States. Read the second bullet on page 105 aloud, emphasizing the word *stamina*: “Many other sports rely on brute strength. In soccer, physical size doesn’t matter as much. A player’s ability has more to do with skill, stamina, and balance.”

Tell the students that the next word they will learn today is *stamina*, and explain that *stamina* is the “energy and strength to keep doing something for a long time.” Explain that because soccer involves a lot of running, it is a sport that requires stamina, or the energy and strength, to run for a long time.

Display word card 20 (🗨️ WA2) and have the students say the word *stamina*.

4 Discuss Times the Students Have Needed Stamina

Tell the students that activities like soccer require *physical* stamina—the energy and strength to play, exercise, or work for a long time. Explain that runners and other athletes need physical stamina to run for long distances or play an entire game. Construction workers need physical stamina to work all day lifting and carrying building materials.

Tell the students that other activities require *mental* stamina—the energy or brain power to think or concentrate for a long time. Explain that students need mental stamina to read, listen, and learn all day. Surgeons need mental stamina to concentrate when they are performing long surgeries.

Ask:

Q *When have you needed physical or mental stamina to do something?*
[Click 1 on WA2 to reveal the prompt.] Turn to your partner.

PROMPT 1: “I needed stamina when . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention and have one or two volunteers use the prompt to share their thinking with the class.

Point to the word *stamina* and ask:

Q *What’s the new word we are learning that means the “energy and strength to keep doing something for a long time”?*

INTRODUCE AND USE *DISSATISFIED*

5 Introduce and Define *Dissatisfied*

Remind the students that soccer fans are excited about the growing popularity of their favorite sport, but they have a complaint. Then read this sentence from the last paragraph of the article aloud, “Soccer gets nowhere near the U.S. media coverage of other sports, even the less popular ones.”

Point out that soccer fans are dissatisfied with the television coverage that soccer receives, and tell the students that *dissatisfied* is the last word they

Teacher Note

Support struggling students by asking questions such as “When have you played a game or sport for a long time without stopping?” “When have you read or studied for a long time or taken a long test?” and “When have you practiced something again and again so that you would do it well?”

will learn today. Explain that *dissatisfied* means “not satisfied or happy with the way things are.” When you are dissatisfied, you want something more or something different. Explain that soccer fans want more television coverage of soccer. They are dissatisfied with the current coverage.

Display word card 21 (C WA3) and have the students say the word *dissatisfied*.

TEKS 3.C.i
Student/Teacher Narrative
Step 6

6 Introduce the Prefix *dis-* and Antonyms

Point to the letters *dis* in *dissatisfied* and explain that *dis-* is a prefix. Tell the students that a *prefix* is a “letter or group of letters that is added to the beginning of a word to make a new word.” Explain that the prefix *dis-* means “not” or “the opposite of.” Point out that when *dis-* is added to the word *satisfied*, it makes the word *dissatisfied*, which means “not satisfied or happy with the way things are.”

Point out that *dissatisfied* and *satisfied* have opposite meanings, and explain that words with opposite meanings are called *antonyms*.

7 Discuss Times the Students Have Felt Dissatisfied

Give examples of times when you have felt dissatisfied.

You might say:

“I was dissatisfied with a restaurant meal recently. My chicken was dry and cold, and it didn’t taste good. My husband and I went to see a science-fiction movie we thought we would like, but the movie was awful. We were so dissatisfied with it that we asked for our money back. Last weekend I asked my son to clean up his room, but when I inspected the room, there were toys and dirty clothes on the floor and under the bed. I was dissatisfied with the job he had done.”

Use “Think, Pair, Share” to discuss:

Q *When have you felt dissatisfied? Why?* [Pause; click 1 on WA3 to reveal the prompt.] *Turn to your partner.*

PROMPT 1: “I was dissatisfied when [my family took a trip to Lake Reed] because . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Point to the word *dissatisfied* and ask:

Q *What’s the new word we are learning that is an antonym of satisfied?*

Tell the students that tomorrow they will talk more about the words they learned today.

Teacher Note

You might explain that when a group of letters is a prefix, a real word is left when the letters are removed. For example, removing the *dis* from *dissatisfied* leaves a real word—*satisfied*—so the *dis-* in *dissatisfied* is a prefix. However, removing the *dis* from the beginning of the word *discovery* leaves *covery*, which is not a real word, so the *dis* at the beginning of *discovery* is not a prefix.

Technology Tip

To find web-based whiteboard activities that focus on using prefixes to determine word meanings, you might search online using the keywords “whiteboard prefixes activities.”

To find web-based whiteboard activities that focus on recognizing antonyms, you might search online using the keywords “whiteboard antonyms activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

Teacher Note

Support struggling students by asking questions such as “When have you felt dissatisfied because a book, movie, or TV show was not as good as you thought it would be?” “When have you been dissatisfied because something you did or made did not turn out the way you wanted?” and “When have you felt dissatisfied because something was not as much fun as you thought it would be?”

Materials

- Chart paper and a marker

ELPS 4.C.i

More Strategy Practice

Teacher Note

Post the “Antonyms” chart to use throughout the year.

MORE STRATEGY PRACTICE

Start an Antonym Chart

Help the students develop an understanding of antonyms by starting an antonym chart. Write the title “Antonyms” at the top of a sheet of chart paper and post the chart where everyone can see it. Remind the students that *antonyms* are “words with opposite meanings” and that earlier they discussed the antonyms *dissatisfied* and *satisfied*. Review the meanings of *dissatisfied* and *satisfied*, and write the words on the chart.

Invite the students to suggest other antonyms, and add them to the chart. (If the students have trouble thinking of antonyms, stimulate their thinking by providing a few more examples such as *forward* and *backward*, *friendly* and *unfriendly*, and *smooth* and *rough*.) Throughout the year, encourage the students to share other antonyms they think of with the class; then add the antonyms the students suggest to the chart.

Day 2

Review *Surge*, *Stamina*, and *Dissatisfied*

Materials

- Daily review cards (WA4)

In this lesson, the students:

- Review and practice using the words *surge*, *stamina*, and *dissatisfied* from Day 1
- Build their speaking and listening skills
- Explain their thinking

Words Reviewed

surge

A *surge* is a “sudden increase or a sudden strong rush.”

stamina

Stamina is the “energy and strength to keep doing something for a long time.”

dissatisfied

Dissatisfied means “not satisfied or happy with the way things are.” When you are *dissatisfied*, you want something more or something different.

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Display the daily review cards (🗨️ WA4). Remind the students that yesterday they learned these three words from the article “Follow That Ball!” Point to each of the words as you review the pronunciation and meaning: *surge*, *stamina*, and *dissatisfied*. Explain that today they will think more about the words.

Ask:

-  **Q** Which word describes how you might feel if you went to a baseball game and your favorite team lost? Why? [Click 1 on WA4 to reveal the first prompt.] Turn to your partner.

WA4

surge stamina dissatisfied

PROMPT 1: The word _____ describes how I might feel because . . .

1 2 3 4 5 6

PROMPT 1: “The word [*dissatisfied*] describes how I might feel because . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention and have one or two volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss the following questions:

-  **Q** Which word tells what you would see if a crowd of people at a concert suddenly ran toward the stage? Why? [Click 2 to reveal the prompt.] Turn to your partner.

PROMPT 2: “The word [*surge*] tells what I would see because . . .”

-  **Q** Which word tells what a runner needs to finish a marathon? Why? [Click 3 to reveal the next prompt.] Turn to your partner.

PROMPT 3: “The word [*stamina*] tells what a runner needs because . . .”

PRACTICE USING THE WORDS

2 Introduce the Game “Make a Choice”

Tell the students that partners will use the vocabulary words to play a game called “Make a Choice.”

Point to the word *surge* on the daily review cards (WA4), and tell the students that they will use this word to play the first round of the game. Explain that you will describe two scenarios; then partners will decide which one is a surge and explain why. Tell the students that partners may not always agree and that is fine. What is important is that they explain their thinking.

Tell the students that before they play the game in pairs, they will practice playing as a class. Begin by asking:

Q *Which of these is a surge: a single shopper strolling into a store or a crowd of shoppers hurrying into a store? Why?*

Give the students a few moments to think about the questions. Then click **4** on the daily review cards (WA4) to reveal the prompt. Have one or two volunteers use the prompt to share their thinking with the class.

PROMPT 4: “I think [a crowd of shoppers hurrying into a store] is a surge of people because . . .”

3 Play the Game in Pairs

Continue playing the game in pairs, using the following scenario:

[stamina]

 **Q** *Which of these people do you think needs more stamina: a mountain climber climbing Mount Everest or a mountain climber climbing a climbing wall? Why? [Click **5** to reveal the prompt.] Turn to your partner.*

PROMPT 5: “I think [a mountain climber climbing Mount Everest] needs more stamina because . . .”

Have partners use the prompt to share their thinking. After most pairs have finished talking, signal for the students’ attention and have one or two volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss:

[dissatisfied]

 **Q** *Which of these people is dissatisfied: a customer who buys a TV and then returns it or a customer who buys a TV and then buys another just like it? Why? [Click **6** to reveal the prompt.] Turn to your partner.*

PROMPT 6: “I think [a customer who returns the TV] is dissatisfied because . . .”

Tell the students that tomorrow they will learn and talk about three new words.

ELL Note

Rather than having the students choose between two scenarios, you might have them discuss them individually by stating the scenarios separately. For example, ask “Is a single shopper strolling (walking slowly and easily) into a store a surge of people? Why?” and then “Is a crowd of shoppers hurrying into a store a surge of people? Why?”

MORE STRATEGY PRACTICE

Discuss Words with the Prefix *dis-*

Prepare a sheet of chart paper titled “Words with the Prefix *dis-*.” Below the title write, “The prefix *dis-* means ‘not’ or ‘the opposite of.’” Write the word *dissatisfied* on the chart.

Review that *dis-* is a prefix and that a *prefix* is a “letter or group of letters that is added to the beginning of a word to make a new word.” Remind the students that the prefix *dis-* means “not” or “the opposite of” and that when the prefix *dis-* is added to the word *satisfied*, it makes the new word *dissatisfied*, which is the opposite of *satisfied*.

Tell the students that knowing that *dis-* means “not” can help them figure out the meanings of other words that begin with the prefix. Write the word *distrust* on the chart, and explain that *distrust* is a word made by adding the prefix *dis-* to the word *trust*.

Discuss as a class:

Q *Based on what you know about the prefix dis- and the word trust, what do you think the word distrust means? What do we mean when we say we distrust someone?*

If necessary, explain that *distrust* means “not trust or not believe or rely on someone or something.”

Use the same procedure to have the students discuss the meanings of *disobey* and *disbelieve*.

Ask the students for other examples of words with the prefix *dis-*, discuss their meanings, and add them to the chart (for example, *disagree*, *disapprove*, *discomfort*, *disconnect*, *disrespectful*, and *dissimilar*). Post the chart where everyone can see it, encourage the students to continue to listen and watch for words that use the prefix *dis-*, and continue to add new examples to the chart.

Materials

- Chart paper and a marker

Teacher Note

Post the “Words with the Prefix *dis-*” chart to use throughout the year.

For a list of common prefixes, visit the CCC Learning Hub (ccclearninghub.org) to view the “Prefixes” list in the General Resources section.

Day 3

Introduce *Discontinue*, “Blow Off Steam,” and *Restriction*

Materials

- “All Work and No Play: Trends in School Recess” (see pages 106–107)
- Word card 22 (WA5)
- Word card 23 (WA6)
- Word card 24 (WA7)

In this lesson, the students:

- Learn and use the words *discontinue* and *restriction* and the idiom “blow off steam”
- Review the prefix *dis-*
- Discuss idioms
- Discuss proverbs
- Build their speaking and listening skills
- Share their partners’ thinking

Words Taught

discontinue

Discontinue means “not continue something, or stop doing, using, or making something.”

blow off steam (p. 107)

“Blow off steam” means “do or say something that helps you get rid of energy or strong feelings.”

restriction (p. 107)

A *restriction* is a “rule or law that limits what a person can do or what is allowed to happen.”

ABOUT RECOGNIZING IDIOMS

In this lesson, the students are introduced to idioms through the expression “blow off steam.” They learn that an *idiom* is an “expression or phrase that means something different from what it appears to mean.” The students also learn that idioms can make speech and writing more interesting because they are a way to say something ordinary in a funny or unusual way. In subsequent lessons, the students will discuss the idioms “get on board,” “hair-raising,” “on pins and needles,” and “lose your nerve.” We suggest that you start an idiom chart this week and add to it during the year (see the More Strategy Practice activity “Discuss Idioms” on page 94). For a complete table of the idioms taught in grade 5, see Appendix C. For more information about recognizing idioms and other independent word-learning strategies, see “Independent Word-learning Strategies” in the Introduction.

INTRODUCE AND USE *DISCONTINUE*

1 Introduce *Discontinue*

Gather the class with partners sitting together, facing you.

Review that earlier the students learned three words from the article “Follow That Ball! Soccer Catching On in the U.S.” Show the article “All Work and No Play: Trends in School Recess,” to the students, read the title and subtitle aloud, and explain that today’s words are from or about this article, which they heard you read earlier.

Remind the students that, according to the article, recess is no longer part of the daily schedule in some schools. Show the first page of the article, and read the following sentence from the section headed “More Schools Cutting Recess” aloud, emphasizing the word *discontinued*: “One out of every four elementary schools in the United States has discontinued recess for some or all grades.”

Tell the students that *discontinue* is the first word they will learn today.

Display word card 22 (🌐 WA5) and ask the students to say the word *discontinue*.

2 Use the Prefix *dis-* to Determine the Meaning of *Discontinue*

Point to the word *discontinue* and explain that the word *discontinue* is made by adding the prefix *dis-*, which means “not” or “the opposite of,” to the word *continue*.

Use “Think, Pair, Share” to discuss:

Q *What do you know about the word continue? [Pause.] Turn to your partner.*

Have partners share their thinking with one another. After a few moments, signal for the students’ attention and have a few volunteers share their thinking with the class. If necessary, explain that *continue* means “keep doing, using, or making something.”

Discuss as a class:

Q *Based on what you know about the prefix dis- and the word continue, what do you think discontinue means? What do schools do when they discontinue recess?*

Click **1** on word card 22 (WA5) to reveal the first prompt. Have one or two volunteers use the prompt to share their thinking with the class.

ELPS 2.C.i

Steps 1–3 and all margin notes on pages 89 and 90

ELL Note

The Spanish cognate of *discontinue* is *descontinuar*.

Teacher Note

You might remind the students that a *prefix* is a “group of letters that is added to the beginning of a word to make a new word.”

discontinue

PROMPT 1:

I think *discontinue* means . . .

and

When schools *discontinue* recess, they . . .

1 2 3 4

Teacher Note

If you started an antonym chart, add the words *discontinue* and *continue* to it.

PROMPT 1: “I think *discontinue* means . . .” and “When schools *discontinue* recess, they . . .”

Explain that *discontinue* means “not continue something, or stop doing, using, or making something.” Point out that *discontinue* and *continue* are antonyms. Explain that many schools have discontinued recess, or stopped having it.

Tell the students that partners will discuss a question about the word *discontinue* and that you want them to be ready to share their partners’ thinking with the class. Ask:

Q Do you think recess should be discontinued at our school? Why do you think that? [Click 2 on WA5 to reveal the prompt.] Turn to your partner.

PROMPT 2: “I [think/do not think] recess should be discontinued at our school because . . .”

Have partners use the prompt to share their thinking. After most pairs have finished talking, signal for the students’ attention and click 3 to reveal the next prompt. Have one or two volunteers use the prompt to share their partners’ thinking with the class.

PROMPT 3: “[Ellie] said that she [thinks/does not think] recess should be discontinued at our school because . . .”

3 Discuss Things That Should Not Be Discontinued

Explain that many things we do in the classroom are fun or help us learn, so they should not be discontinued. Provide some examples of things that should not be discontinued.

You might say:

"Learning to be a better writer is very important, so our writing work should not be discontinued. Learning new words is also important, so our vocabulary work should not be discontinued. Meeting with our third-grade buddies each week is fun, so I don't think that should be discontinued either."

Use "Think, Pair, Share" to discuss:

Q *What is something else we do that should not be discontinued? Why?*

[Click 4 to reveal the prompt.] Turn to your partner.

PROMPT 4: "[Art] should not be discontinued because . . ."

Have partners use the prompt to share their thinking. When most pairs have finished talking, have a few students use the prompt to share their thinking with the class.

Point to the word *discontinue* and ask:

Q *What's the new word we are learning that is an antonym of continue?*

INTRODUCE AND USE "BLOW OFF STEAM"

4 Introduce and Define "Blow Off Steam" and Introduce Idioms

Review that many students think recess is important because it is a break from studying. Read the last two paragraphs of the section headed "Why Recess Works" aloud, emphasizing the words "blow off steam."

Explain that "blow off steam" means "do or say something that helps you get rid of energy or strong feelings." Point out that recess allows students to blow off steam, or get rid of extra energy.

Tell the students that "blow off steam" is an idiom. Explain that an *idiom* is an "expression or phrase that means something different from what it appears to mean." Explain that when we say that recess gives students a chance to "blow off steam," we do not mean that the students blow steam out of their mouths or ears during recess. Instead, we mean that recess gives the students an opportunity to get rid of stored-up energy by running and playing.

Display word card 23 (WA6) and have the students say "blow off steam."

ELPS 2.C.ii
Steps 4–5 and ELL Note on p. 92

5 Discuss Ways the Students Blow Off Steam

Review that exercise and other physical activities help people blow off steam when they have built-up energy. Give the students some examples of things you do to blow off steam.

You might say:

“When I’ve been sitting all day and have lots of energy I need to get rid of, I blow off steam by going for a swim or by taking my dog for a walk.”

ELL Note

Idioms can be especially challenging for English Language Learners to understand and use. To help make the meaning of “blow off steam” clearer, you might invite volunteers to act out what they do when they blow off steam. Alternatively, you might ask the students to draw a picture of what they do when they blow off steam and then write about their picture.

Ask:

Q *When you have lots of energy built up, what do you do to blow off steam?*
[Click 1 on WA6 to reveal the first prompt.] Turn to your partner.

PROMPT 1: “To blow off steam when I have a lot of energy, I . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention, and have a few volunteers use the prompt to share their thinking with the class.

Explain that sometimes when people are feeling powerful emotions such as anger or disappointment, they blow off steam, or do something that helps them get rid of the emotions and feel better. Give examples of ways you or someone you know blows off steam to feel better.

You might say:

“When I’m feeling angry about something, I sometimes blow off steam by talking to my sister about what is bothering me. Talking to her makes me feel better. When my brother is upset about something, he sometimes blows off steam by going into his garage and yelling as loudly as he can. He says that this really helps him feel better.”

Discuss as a class:

Q *What do you do to blow off steam when you are feeling angry or disappointed?*

Click 2 on word card 23 (WA6) to reveal the prompt. Have a few volunteers use the prompt to share their thinking.

PROMPT 2: “To blow off steam when I am angry or disappointed, I . . .”

Point to the idiom “blow off steam” and ask:

Q *What’s the idiom we are learning that means “do or say something that helps you get rid of energy or strong feelings”?*

INTRODUCE AND USE RESTRICTION

6 Introduce and Define *Restriction*

Tell the students that the last word they will learn today is *restriction*, and explain that a *restriction* is a “rule or law that limits what a person can do or what is allowed to happen.”

Display word card 24 (🌐 WA7) and have the students say the word *restriction*.

Tell the students that you will read the section of the article called “Recess Restrictions” aloud. Explain that as you read, you want them to listen for the restrictions, or rules, that some schools have put in place to limit what students can do during recess.

Read the section aloud; then discuss as a class:

Q *What restrictions on recess are mentioned in the article? What limits have been placed on what some students can do at recess?*

Click **1** on word card 24 (WA7) to reveal the first prompt, and have a few volunteers use the prompt to share their thinking.

PROMPT 1: “One restriction is . . .”

If necessary, point out that one restriction is that no running is allowed on the playground. Another restriction is that games like tag and kickball are not allowed.

7 Discuss Restrictions

Explain that at school and in class we have certain restrictions, or rules that limit what we can do and what is allowed. Give an example of a school restriction and a class restriction, and explain the reason for each restriction.

You might say:

“There is a restriction on the number of people allowed in the gym. We can have up to 300 people, but no more. That restriction helps keep the gym from becoming overcrowded and unsafe. In our class, there is a restriction on the amount of time a student can spend looking for a book during independent reading. We limit the time so that everyone will have a chance to look for a book.”

Ask:

Q *What other restrictions do we have in our school or classroom?* [Click **2** on WA7 to reveal the prompt.] *Turn to your partner.*

PROMPT 2: “[In the library] there is a restriction on [the number of books we can check out].”

ELL Note

The Spanish cognate of *restriction* is *restricción*.

Teacher Note

Support struggling students by asking questions such as “What is a restriction that limits what students can do on the playground, in the cafeteria, in the hallways, or in the library?” and “What is a classroom restriction we have about [using the pencil sharpener/borrowing library books/using drawing paper]?”

Have partners use the prompt to share their thinking. When most pairs have finished talking, have a few students use the prompt to share their thinking with the class.

Follow up by asking:

Q *Why do you think we have a restriction on [the number of library books we can check out]?*

Click **3** to reveal the prompt, and have one or two volunteers use the prompt to share their thinking with the class.

PROMPT 3: “I think there is a restriction on [the number of library books we can check out] because . . .”

Then discuss as a class:

Q *What restrictions do you have at home? What limits have your parents placed on what you can do or where you can go?*

Click **4** to reveal the next prompt and have a few volunteers use the prompt to share their thinking with the class.

PROMPT 4: “I have a restriction on [how long I can play computer games].”

Point to the word *restriction* and ask:

Q *What’s the new word we are learning that means a “rule or law that limits what a person can do or what is allowed to happen”?*

Tell the students that tomorrow they will talk more about the words they learned today.

MORE STRATEGY PRACTICE

Discuss Idioms

Write the idiom “blow off steam” where everyone can see it. Remind the students that “blow off steam” is an idiom and that an *idiom* is an “expression or phrase that means something different from what it appears to mean.” Remind the students that when we say someone blows off steam, we do not mean that the person blows steam out of his mouth or ears. Instead, we mean that the person does or says something that helps him get rid of energy or strong feelings.

Explain that there are thousands of idioms in the English language and that people use idioms because they are interesting or unusual ways to say ordinary things. For example, to tell someone to do something more quickly, we might tell the person to “shake a leg” or “step on it.” Explain that we do not actually want the person to shake his leg or step on something. Instead, these expressions are idioms that mean “hurry up.”

Discuss as a class:

Q *What does it mean when we say to someone, “Hold your horses” or “Cool your jets”?*

Have a few volunteers share their thinking with the class. If necessary, explain that “hold your horses” and “cool your jets” are idioms that mean “slow down” or “relax.”

Have the students discuss the meanings of the following idioms: “keep your chin up,” “lend an ear,” “in the doghouse,” and “got up on the wrong side of the bed.”

Ask the students to listen for other idioms and look for them in their reading. You might start an idiom chart and regularly add idioms the students discover to it.

Teacher Note

For a list of common idioms, visit the CCC Learning Hub (ccclearninghub.org) to view the “Idioms” list in the General Resources section.

Review *Discontinue*, “Blow Off Steam,” and *Restriction*

Day 4

In this lesson, the students:

- Review and practice using the words *discontinue* and *restriction* and the idiom “blow off steam” from Day 3
- Build their speaking and listening skills
- Explain their thinking

Words Reviewed

discontinue

Discontinue means “not continue something, or stop doing, using, or making something.”

blow off steam

“Blow off steam” means “do or say something that helps you get rid of energy or strong feelings.”

restriction

A *restriction* is a “rule or law that limits what a person can do or what is allowed to happen.”

Materials

- Daily review cards (WA8)
- Copy of this week’s family letter (BLM1) for each student
- (Optional) Copy of the “Week 4 Crossword Puzzle” (BLM3) for each student

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Remind the students that yesterday they learned three words from or about the article “All Work and No Play: Trends in School Recess.” Display the daily review cards (🟢 WA8). Point to each of these words as you review the pronunciation and meaning: *discontinue*, “blow off steam,” and *restriction*. Tell the students that today they will think more about the words.

Use “Think, Pair, Share” to discuss:

Q Which word or words might you use when you talk with your friends or family? How might you use the word or words? [Pause; click 1 on WA8 to reveal the first prompt.] Turn to your partner.

discontinue blow off steam restriction

PROMPT 1: I might use the word _____ when I talk to _____. I might say . . .

1 2 3 4

WA8

PROMPT 1: “I might use the word [*restriction*] when I talk to [my parents]. I might say . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

PRACTICE USING THE WORDS

2 Review the Activity “What Might You Say or Do?”

Tell the students that partners will do the activity “What Might You Say or Do?” Review that you will describe a situation; then partners will talk about what they might say or do in that situation and explain why.

Begin by reading the following scenario aloud:

- *The cafeteria discontinues your favorite food.*

Ask:

Q *What might you say or do? Why?* [Click 2 to reveal the prompt.] Turn to your partner.

PROMPT 2: “If the cafeteria discontinues my favorite food, I might [start bringing my lunch from home] because . . .”

Have partners use the prompt to share their thinking. After most pairs have finished talking, signal for their attention. Have a few volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss the following scenarios:

- *You have had a bad day at school and you need to blow off steam.*

Q *What might you say or do? Why?* [Click 3 to reveal the prompt.] Turn to your partner.

PROMPT 3: “If I need to blow off steam, I might [talk to my best friend] because . . .”

- *At recess, your friends put a restriction on the number of times you can shoot the ball during a basketball game.*

Q *What might you say or do? Why?* [Click 4 to reveal the prompt.] Turn to your partner.

PROMPT 4: “If my friends put a restriction on the number of times I can shoot the ball, I might [stop playing] because . . .”

Explain that tomorrow the students will talk more about some of the words they have been learning.

Teacher Note

Send home with each student a copy of this week’s family letter (BLM1). Encourage the students to talk about this week’s words with their families.

Teacher Note

To provide students with additional review of words taught during Weeks 3 and 4, you might distribute a copy of the “Week 4 Crossword Puzzle” (BLM3) to each student.

Materials

- Chart paper and a marker

TEKS 3.D.iii

TEKS 3.D.v

Student/Teacher Narrative
More Strategy Practice
(second paragraph and first
teacher note)

Teacher Note

Common interpretations of the
proverbs are:

- “A penny saved is a penny earned.”
 (“It is a good idea to save money.”)
- “A picture is worth a thousand words.”
 (“Pictures describe things more easily
than words.”)
- “A watched pot never boils.” (“Time
seems longer when you’re waiting for
something to happen.”)
- “Look before you leap.” (“Think
carefully before making a big decision
or doing something risky.”)

For a list of common adages and
proverbs, visit the CCC Learning
Hub (ccclearninghub.org) to view
the “Adages and Proverbs” list in the
General Resources section.

TEKS 3.D.iii

TEKS 3.D.v

Student/Teacher Activity
More Strategy Practice
(discussion questions)

Teacher Note

If necessary, explain that “practice
makes perfect” is a proverb that
means that the way to become good at
something is to practice.

MORE STRATEGY PRACTICE

Explore Proverbs

Write the following proverb where everyone can see it, underlining the
words “All work and no play”:

All work and no play makes Jack a dull boy.

Tell the students that the article “All Work and No Play” takes its title
from a well-known proverb. Explain that a *proverb* is an “old familiar
saying that expresses a wise thought.” Read the proverb aloud and explain
that in this proverb, *dull* means “boring or uninteresting.” Explain that the
proverb means that a person (referred to as “Jack”) needs to take time for
fun so that he or she can be a healthy, happy, and more interesting person.
Discuss:

- Q *Why do you think the author of the article titled it “All Work and No Play”?*
- Q *Based on what you heard in the article, what might happen to children if
they have no recess (“no play”)?*
- Q *When might you use the proverb “all work and no play”? What would
you say?*

Tell the students that you will read aloud a paragraph that contains a
proverb. Have the students think as you read about what the proverb
might mean. Read aloud the first paragraph below twice, slowly and
clearly. After the first reading point out that “every cloud has a silver
lining” is the proverb and then read the paragraph aloud again.

- *I was upset last night because my dad had to work late and I didn’t get to
see him. This morning I found out that he gets today off so we can spend
the entire day together. I guess every cloud has a silver lining.*

Ask:

- Q *What do you think “every cloud has a silver lining” means? What makes
you think that? Turn to your partner.*
- Q *When might you use the proverb “Every cloud has a silver lining”? What
would you say?*

If necessary, tell the students that “Every cloud has a silver lining”
means that there is something good in every situation, even if it seems
unpleasant.

Follow the same procedure with the following paragraph:

- *At the end of last school year, I didn’t know very many multiplication
facts. Over the summer I practiced for 15 minutes every day. This year, I
know them all! Practice makes perfect!*

In this lesson, the students:

- Review words learned earlier
- Build their speaking and listening skills
- Explain their thinking

Words Reviewed

cuisine

A *cuisine* is a “style of cooking.”

moocher

A *moocher* is a “person who tries to get something without paying or working for it.”

restriction

A *restriction* is a “rule or law that limits what a person can do or what is allowed to happen.”

stamina

Stamina is the “energy and strength to keep doing something for a long time.”

surge

A *surge* is a “sudden increase or a sudden strong rush.”

Materials

- Ongoing review cards (WA9)
- Ongoing review activity (WA10)
- “Class Vocabulary Assessment Record” sheet (CA1)
- Class set of the “Individual Vocabulary Assessment: Word Check 1” answer sheet (IA1)
- Class set of the “Individual Vocabulary Assessment Student Record” sheet (SR1)
- “Individual Vocabulary Assessment Class Record” sheet (CR1)
- (Optional) Class set of the “Student Self-assessment” response sheet (SA1)

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you. Display the ongoing review cards (WA9). Remind the students that they learned these words earlier. Explain that today they will talk more about the words.

Point to the word *cuisine* and ask:

Q *What do you know about the word cuisine?*

Have one or two volunteers share their thinking with the class. Remind them to use the word *cuisine* as they share their ideas.

Use the same procedure to review the remaining words.

PRACTICE USING THE WORDS

2 Review the Game “Finish the Story”

Tell the students that partners will play the game “Finish the Story.” Review that you will tell a story, leaving off the last word. Explain that partners will finish the story by deciding which of the ongoing review words makes the best ending for it.

Teacher Note

Each story on the ongoing review activity (WA10) has a corresponding number: the first story is 1; the second story is 2; the third story is 3; and so on. To play the game, click the corresponding number four times:

- The first click reveals the story.
- The second click reveals the prompt.
- The third click highlights the correct answer and reveals the story with the answer in place.
- The fourth click clears the screen.

Teacher Note

You might remind the students that they learned the word *towering* earlier and that *towering* means “very tall.”

Display the ongoing review activity (WA10) and begin as follows:

1. Click 1 to reveal the first story. Point to the story and read it aloud twice, slowly and clearly.

- Story 1: *On Victor’s birthday, his family took him to a sushi restaurant because Japanese food is Victor’s favorite _____.*

2. Give the students a few moments to think about the story. Then point to the five word choices and ask:

- Q Which vocabulary word makes the best ending for the story? Why? [Click 1 again to reveal the prompt.] Turn to your partner.

PROMPT: “I think the word [*cuisine*] makes the best ending because . . .”

Have partners use the prompt to share their thinking. After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

3. Conclude the discussion by clicking 1 a third time to highlight the correct vocabulary word and reveal the story with the correct word in place.

cuisine	moocher	restriction	stamina	surge
----------------	---------	-------------	---------	-------

STORY 1: On Victor’s birthday, his family took him to a sushi restaurant because Japanese food is Victor’s favorite **cuisine**.

1 2 3 4 5

WA10

4. Finally, click 1 to clear the screen.

Use the same procedure to discuss the remaining stories.

- Story 2: *Larisa is packing for her hike up a towering mountain this weekend. She packs several healthy snacks and a large bottle of water. She will need these to keep up her _____.* (stamina)
- Story 3: *Every weekend, Marcos’s little brother asks Marcos to give him money to buy candy from the store. Marcos thinks his brother is becoming a _____.* (moocher)

- Story 4: *Charity was building sand castles at the beach when she noticed that the waves started getting closer. She decided to leave her castles and move away from the water before there was a _____.* (surge)
- Story 5: *Liam was not sure if he was allowed to dive into the pool, so he asked a lifeguard. The lifeguard said it was okay to dive because there was not a _____.* (restriction)

Tell the students that next week they will learn more new words.

Assessment Notes

CLASS VOCABULARY ASSESSMENT NOTE

Observe the students and ask yourself:

- Are the students able to choose the best word to finish each story?
- Can they explain why a word is the best choice?
- Are they showing a growing interest in learning and using new words?

Record your observations on the “Class Vocabulary Assessment Record” sheet (CA1); see page 164 of the *Assessment Resource Book*.

Use the following suggestions to support struggling students:

- If **only a few students** understand a word’s meaning, reteach the word using the vocabulary lesson in which it was first taught as a model.
- If **about half of the students** understand a word’s meaning, provide further practice by having each student create a picture card of the word with a definition in her own words on the back of the card. Explain that the picture card should illustrate what the word means. You might model the process by drawing a picture that illustrates the meaning of one of this week’s review words.

For more information about reviewing and practicing the words, see “Retaining the Words” in the Introduction.

INDIVIDUAL VOCABULARY ASSESSMENT NOTE

Before continuing with the week 5 lesson, take this opportunity to assess individual students’ understanding of words taught in Weeks 1–4 using the “Individual Vocabulary Assessment: Word Check 1” answer sheet (IA1) on page 168 of the *Assessment Resource Book*. You might record the progress of individual students and the progress of your students as a whole using the “Individual Vocabulary Assessment Student Record” sheet (SR1) and the “Individual Vocabulary Assessment Class Record” sheet (CR1); see pages 236–238 of the *Assessment Resource Book*. For instructions on administering this assessment, see “Completing the Individual Vocabulary Assessment” on page 165 of the *Assessment Resource Book*.

(continues)

Teacher Note

For more information about the vocabulary assessments, see “About Vocabulary Assessments” in the Assessment Overview of the *Assessment Resource Book*.

Teacher Note

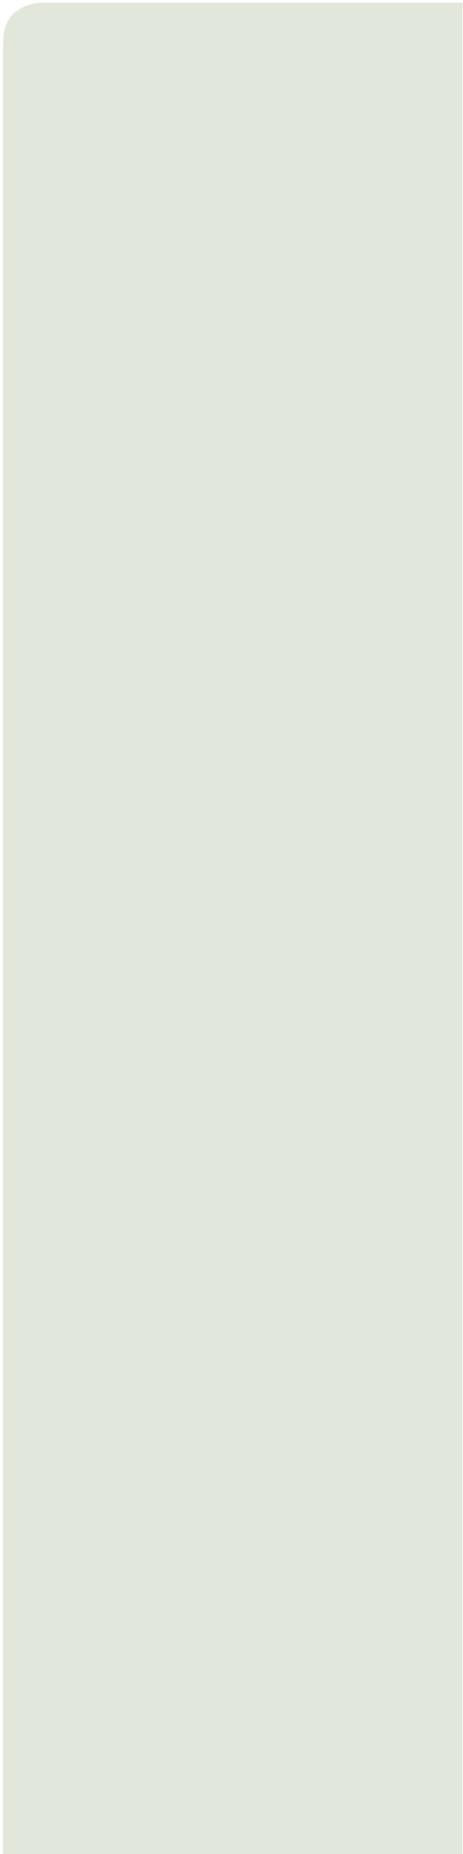

For more information, view “Using the Individual Vocabulary Assessment” (AV51).

Assessment Notes *(continued)*

STUDENT SELF-ASSESSMENT NOTE

In addition to or in place of the Individual Vocabulary Assessment, you might have each student evaluate his understanding of words taught in Weeks 1-4 using the “Student Self-assessment” response sheet (SA1). For instructions on administering this assessment, see “Completing the Student Self-assessment” on page 169 of the *Assessment Resource Book*.

FOLLOW THAT BALL!

SOCCER CATCHING ON IN THE U.S.

Friends and families turn out in the thousands every weekend, spilling out of minivans, sharing snacks at halftime, cheering the players as they chase the black-and-white ball around the field. It's soccer mania out there!

Women are winners:

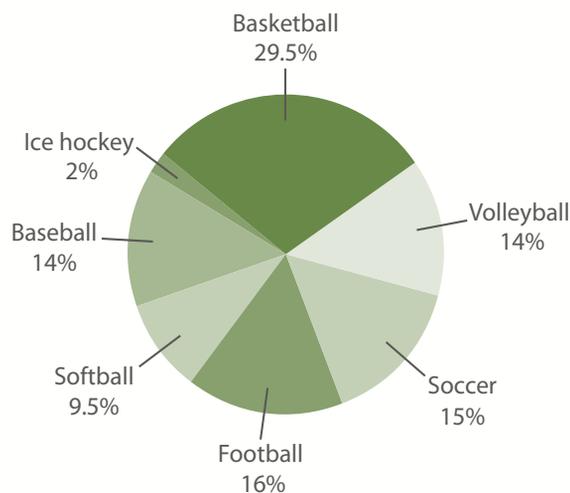

American women have taken to soccer in huge numbers. Their surge in skills and confidence resulted in the U.S. women's team winning the gold medal in the 2012 Olympics.

SOCCER CONTINUES TO GROW AND GROW...

After a shaky start in its first hundred years, soccer in the United States has attracted more and more players each year. In the 12- to 17-year-old age group, one out of seven kids now plays soccer. It's an up-and-coming sport.

It's not only young people who are playing; adults are rushing to play this sport, too. Overall, around 24 million Americans of all ages play soccer. American women, especially, have made the game their own. Close to half of U.S. Youth Soccer's 3 million members are girls. In 2012, the women's U.S. Olympic team won the gold medal.

TOP SEVEN TEAM SPORTS PLAYED BY 12- TO 17-YEAR-OLDS (2014)

Source: National Sporting Goods Association, 2014

Figures show that 12- to 17-year-old kids in the United States play a wide variety of sports.

FIVE GOOD REASONS

Why has interest and participation in soccer grown more than some other sports? There are many reasons why it has become popular.

- In football, a lineman might play several games in a row without even touching the ball. In a single soccer game, each player can touch the ball between 20 and 30 times—that's great for skill building.
- Many other sports rely on brute strength. In soccer, physical size doesn't matter as much. A player's ability has more to do with skill, stamina, and balance.
- It's a family game. Moms, dads, brothers, and sisters can all play at their own level.
- You don't need a lot of expensive equipment to play soccer.
- If soccer is played in the true spirit of the game, few players get seriously injured.

Soccer enthusiasts love the growing popularity of their favorite game. However, they have one complaint: Soccer gets nowhere near the U.S. media coverage of other sports, even the less popular ones. If major television networks decided to give soccer more airtime, who knows? In a few years, it might top the list of the most-played sports in America.

All Work and No Play

You start school at 8:00 A.M. and the day stretches out in front of you. Your class doesn't break for lunch until 11:30, and your school has removed recess from the daily schedule—so it's math and reading for the next three-and-a-half hours. What's so bad about recess? Isn't it good for students and teachers to take a break?

Trends in School Recess

More Schools Cutting Recess

More and more schools are cutting recess time or getting rid of it altogether. One out of every four elementary schools in the United States has discontinued recess for some or all grades.

Not only that: Many schools are also cutting back the time spent on subjects that are not tested, such as gym, art, and music. The main reason is so that schools can spend more time teaching academic subjects, such as math and reading. Many students are not doing well in these subjects.

And even in schools that still have recess, students get less time for breaks and PE as they move toward grade 6. There are also big differences in the amounts of recess and PE time between city and rural schools.

Why Recess Works

Students enjoy recess. They are fatigued after spending long periods of time concentrating. They see recess as important because it's a time to:

- Have a snack and a drink.
- Exercise and get rid of tension or boredom.
- Interact and catch up with their friends.

Schoolwork is hard, and sitting and concentrating puts a strain on your body and your brain. Taking even a short break from class gives your mind a chance to recharge.

Exercise at recess increases the blood supply to the brain, allowing students to concentrate on their work.

Getting some exercise at recess can also help your body make the chemicals your brain needs to help you store information. Research has shown that the brain needs to have a break every hour-and-a-half to two hours to work at its best.

Also, being able to run around and blow off steam means you're less likely to fidget during class time. When you go back to lessons after recess, you can think much more clearly and concentrate better.

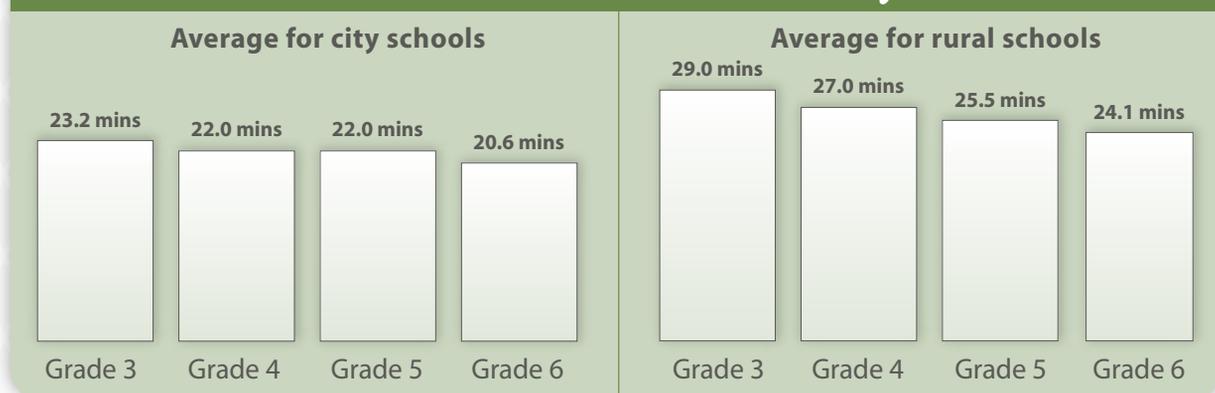

Recess Restrictions

Even when a school has recess, there are often so many rules that it's hard to do more than sit and talk. Schools are worried that if a student has an accident, the school will be blamed.

- Some schools have put up "No Running" signs on playgrounds.
- Tag and ball games have been banned in many schools.
- Play equipment has been removed at some schools.

Experts agree that today, when many children spend their free time in front of the TV or computer screen, the chance to run around at recess—even for a short time—is important. It may be the only exercise a student gets all day.

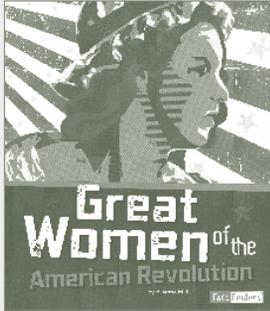

Minutes of Recess Per Day

Week 5

RESOURCES

Read-aloud

- *Great Women of the American Revolution* by Brianna Hall

More Strategy Practice

- “Use an Online Dictionary”
- “Discuss the Multiple Meanings of *Establish*”

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA9

Reproducibles

- Week 5 family letter (BLM1)
- (Optional) “Week 5 Word Cards” (BLM2)

Professional Development Media

- “Using Web-based Whiteboard Activities” tutorial (AV42)

OVERVIEW

Words Taught

heroine
resist
protest
daring
inform
establish

Words Reviewed

blow off steam
discontinue
establish
pollute
protest

Word-learning Strategies

- Using a dictionary, glossary, and thesaurus
- Recognizing words with multiple meanings

Vocabulary Focus

- Students learn and use six words from the book.
- Students use an online dictionary to determine a word's meaning.
- Students discuss words with multiple meanings.
- Students review words learned earlier.
- Students build their speaking and listening skills.

Social Development Focus

- Students analyze why it is important to be respectful.
- Students develop the skill of explaining their thinking.

DO AHEAD

- ✓ (Optional) Prior to Day 1, review the more strategy practice activity “Use an Online Dictionary” on page 116. If necessary, plan time for your students to use computers or tablets in the school library or media center.
- ✓ (Optional) Prior to Day 3, review the more strategy practice activity “Discuss the Multiple Meanings of *Establish*” on page 124.

(continues)

① DO AHEAD *(continued)*

- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this week's family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ (Optional) Visit the CCC Learning Hub (ccclearninghub.org) to access and print "Week 5 Word Cards" (BLM2). These cards can be used to provide your students with more opportunities to review the words.

Introduce Heroine, Resist, and Protest

Day 1

In this lesson, the students:

- Learn and use the words *heroine*, *resist*, and *protest*
- Build their speaking and listening skills
- Explain their thinking

Words Taught

heroine (pp. 4-5)

A *heroine* is a “girl or woman who is admired or respected because she is brave or has done something special.”

resist (p. 5)

Resist means “refuse to give in to someone or something.”

protest (p. 6)

Protest means “complain about something or object to something you feel is wrong or unfair.”

Materials

- *Great Women of the American Revolution*
- Word card 25 (WA1)
- Word card 26 (WA2)
- Word card 27 (WA3)

INTRODUCE AND USE HEROINE

1 Introduce and Define *Heroine*

Gather the class with partners sitting together, facing you.

Show the cover of *Great Women of the American Revolution* and explain that this week’s words are from the book, which they heard earlier.

Show pages 4–5 of the book and read the chapter title aloud: “Everyday Heroines.” Tell the students that the first word they will learn today is *heroine*. Explain that a *heroine* is a “girl or woman who is admired or respected because she is brave or has done something special.” Review that this book tells about several heroines who lived during the American Revolution, a time when the colonists fought for their independence from Great Britain. The author, Brianna Hall, describes different ways that the women of that time showed bravery.

Display word card 25 (WA1) and have the students say the word *heroine*.

2 Discuss Heroines in Everyday Life

Show pages 4–5 of the book again and review that this chapter is called “Everyday Heroines.” Ask the students to listen carefully as you read aloud about some of the things that colonial women did during the American Revolution. Then read the paragraph on page 5 aloud, emphasizing the word *heroine*.

ELL Note

The Spanish cognate of *heroine* is *heroína*.

Teacher Note

If the students struggle to answer the question, reread the paragraph on page 5 aloud, slowly and clearly, and ask the question again.

Ask:

Q *What did colonial women do that made them heroines?* [Click **1** on WA1 to reveal the first prompt.] *Turn to your partner.*

WA1

heroine

PROMPT 1: Colonial women were **heroines** because . . .

1 **2** **3**

PROMPT 1: “Colonial women were heroines because . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention. Have a few volunteers use the prompt to share their thinking with the class.

Ask the students who they consider a heroine in their own lives and why. Give one or two examples of people you know who you consider heroines.

You might say:

“I think my friend Myla is a heroine because she donates blood to the blood bank every three months. It takes a lot of strength to do this regularly so that she can help people in need. My mom walks in a fund-raiser for cancer research each year. I think that this makes her an everyday heroine.”

Use “Think, Pair, Share” to discuss:

Q *Who do you think of as a heroine? Why?* [Pause; click **2** to reveal the prompt.] *Turn to your partner.*

PROMPT 2: “I think [my aunt] is a heroine because . . .”

Have partners use the prompt to share their thinking. After most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

3 Discuss Famous Heroines

Explain that some heroines become famous for the brave things that they do or have done. Give one or two examples of women you admire for their bravery or something special they have done.

You might say:

“Amelia Earhart is someone I admire because she was the first woman to fly across the Atlantic Ocean alone. That took a lot of courage. And Harriet Tubman was a woman who risked her life to lead enslaved people to freedom during the Civil War. What a brave thing to do! She was truly a heroine.”

Use “Think, Pair, Share” to discuss:

Q *Who is a famous heroine that you have heard of? What did she do that took strength and courage?* [Click 3 to reveal the prompt.] Turn to your partner.

PROMPT 3: “A famous heroine that I have heard of is [Rosa Parks]. She was a heroine because . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention and have one or two volunteers use the prompt to share their thinking with the class.

Point to the word *heroine* and ask:

Q *What’s the new word we are learning that means a “girl or woman who is admired or respected because she is brave or has done something special”?*

INTRODUCE AND USE RESIST

4 Introduce and Define Resist

Show the table on page 5 of *Great Women of the American Revolution* and read the title aloud: “Who’s Who in the Revolutionary War?” Explain that this table describes people who were on the side of the rebels and people who were on the side of the British during the Revolutionary War. Point to the box titled “Continental Army” and read the description aloud, emphasizing the word *resist*.

Tell the students that the next word they will learn today is *resist*, and explain that *resist* means “refuse to give in to someone or something.” Point out that the Continental Army resisted, or refused to give in to, the British occupation.

Display word card 26 (WA2) and have the students say the word *resist*.

Teacher Note

Support struggling students by providing a few examples of other famous heroines. Examples might include the following: Sacagawea helped Lewis and Clark explore the American West by providing translation and identifying safe plants to eat; Clara Barton founded the American Red Cross; Sally Ride was the first American woman to travel into space; Sonia Sotomayor was the first Hispanic Supreme Court Justice.

ELL Note

The Spanish cognate of *resist* is *resistir*.

5 Play “Would You Resist?”

Give a few examples of times when you resisted doing something someone asked you to do and explain why you resisted.

You might say:

“My sister tried to get me to go waterskiing with her last summer but I resisted, or refused to give in to her, because I was afraid of getting hurt. Yesterday, my wife wanted me to donate a bunch of old books. I resisted because I like to go back and read the books again and again.”

Tell the students that partners will play a game called “Would You Resist?” Explain that you will describe a situation they might find themselves in; then partners will discuss whether they would resist and explain why.

Begin by reading the following scenario aloud:

- *Your best friend wants you to try a new pizza he created with a topping of pineapples, tuna fish, and strawberry jelly.*

Ask:

Q *Would you resist your friend? Why? [Click 1 on WA2 to reveal the prompt.] Turn to your partner.*

PROMPT 1: “I [would/would not] resist my [friend] because . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention and have one or two volunteers use the prompt to share their thinking with the class. Use the same procedure to discuss one or both of the following scenarios:

- *Your cousin asks you if she can borrow a dollar.*
- *Your friend’s cat has kittens and your friend wants to give you one.*

Point to the word *resist* and ask:

Q *What’s the new word we are learning that means “refuse to give in to someone or something”?*

INTRODUCE AND USE *PROTEST*

6 Introduce and Define *Protest*

Show page 6 of *Great Women of the American Revolution*. Explain that this chapter tells how American colonists felt when they were forced by the British to pay new taxes. Point to the picture and read the caption, emphasizing the word *protested*. Tell the students that *protest* is the last

word they will learn today, and explain that *protest* means “complain about something or object to something you feel is wrong or unfair.” Explain that the colonists protested, or complained about, the tax laws because they thought that it was unfair to be taxed by the British government without having a say in the matter.

Display word card 27 (🌐 WA3) and have the students say the word *protest*.

7 Discuss Protesting

Review that when you protest, you complain about or object to something you feel is wrong or unfair. Explain that when people protest, they are usually in groups and are in public places where other people can see and hear them. Tell the students that you will describe a situation and partners will decide whether they would protest in that situation and why.

Read the following scenario aloud:

- *The city council votes to close city parks on Saturdays because the city does not have enough money in its budget to keep the parks open.*

Use “Think, Pair, Share” to discuss:

Q *Would you protest? Why or why not? [Pause; click 1 on WA3 to reveal the prompt.] Turn to your partner.*

PROMPT 1: “I [would/would not] protest because . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention. Have a few volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss one or both of the following scenarios:

- *The school board votes to shorten the school year by two weeks to save money.*
- *The owner of the local swimming pool announces that children are no longer allowed in the pool because some children have ignored the restriction against running in the pool area.*

Point to the word *protest* and ask:

Q *What’s the new word we are learning that means “complain about something or object to something you feel is wrong or unfair”?*

Tell the students that tomorrow they will talk more about the words they learned today.

ELL Note

The Spanish cognate of *protest* is *protestar*.

Teacher Note

You might remind the students that they learned the word *restriction* earlier and that a *restriction* is a “rule or law that limits what a person can do or what is allowed to happen.”

Materials

- Computers or tablets with Internet access for each pair of students

Technology Tip

To find an appropriate online dictionary, search online using the keywords “children’s dictionary” or “online dictionary for students.”

Teacher Note

For an activity on using a print dictionary, see the more strategy practice activity “Use a Print Dictionary” on page 60.

TEKS 3.A.i
Student/Teacher Activity
More Strategy Practice

MORE STRATEGY PRACTICE

Use an Online Dictionary

Write the following words from *Great Women of the American Revolution* where everyone can see them: *frilly*, *witty*, *urge*, *outsmart*, *suspicious*, and *roam*.

Have partners sit together. Have the students navigate to the dictionary you selected. Direct their attention to the Search box. Ask them to type a familiar word, such as *bicycle* or *explore*, into the box and click the Search button or icon. Then discuss:

Q *What information is provided for the word [bicycle]?*

Have a few volunteers share their thinking with the class. As necessary, point out these key features:

- The division of the word into syllables
- The pronunciation of the word, which may include both a phonetic respelling and an audio pronunciation, accessed through an audio button or icon
- The word’s part of speech (whether the word is a noun, verb, adjective, or other part of speech)
- Definitions of the word
- A sentence or phrase that shows how the word is used

Then briefly discuss:

Q *In what ways is this online dictionary [different from/the same as] a print (book) dictionary?*

Q *Which type of dictionary do you prefer? Why?*

Direct the students’ attention to the words you have displayed and explain that the words are from *Great Women of the American Revolution*. Tell the students that partners will choose one of the words they want to know about, search for the word in the online dictionary, and share what they learned about the word with the class.

Give pairs a minute or two to choose a word, look it up in the online dictionary, and read and discuss the word entry. When most pairs have finished, signal for the students’ attention. Then discuss each word as a class by asking:

Q *Who looked up the word [frilly]? What did you find out about the word?*

Q *Who else looked up the word [frilly]? What can you add to what [Norah and Edgar] told us about the word?*

Encourage the students to continue to use an online or print dictionary to look up the meanings of words they do not know.

Review Heroine, Resist, and Protest

Day 2

In this lesson, the students:

- Review and practice using the words *heroine*, *resist*, and *protest* from Day 1
- Build their speaking and listening skills
- Explain their thinking

Words Reviewed

heroine

A *heroine* is a “girl or woman who is admired or respected because she is brave or has done something special.”

resist

Resist means “refuse to give in to someone or something.”

protest

Protest means “complain about something or object to something you feel is wrong or unfair.”

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Display the daily review cards (WA4). Remind the students that yesterday they learned these three words from the book *Great Women of the American Revolution*. Point to each of the words as you review the pronunciation and meaning: *heroine*, *resist*, and *protest*. Explain that today they will talk more about the words.

Discuss as a class:

Q Which of the words we learned yesterday do you think was interesting to talk about? Why?

Click **1** on the daily review cards (WA4) to reveal the first prompt. Have a few volunteers use the prompt to share their thinking with the class.

Materials

- Daily review cards (WA4)

heroine
resist
protest

PROMPT 1: I think the word _____ was interesting to talk about because . . .

1
2
3

PROMPT 1: “I think the word [*resist*] was interesting to talk about because . . .”

PRACTICE USING THE WORDS

2 Think More About the Words

Tell the students that you will describe a situation and partners will use vocabulary words to discuss it. Explain that partners may not always agree about a situation and that is fine. What is important is that they explain their thinking.

Read the following scenario aloud twice:

- *Rosa Parks refused to give up her seat on a bus to protest how African Americans were being treated.*

Use “Think, Pair, Share” to discuss:

 **Q** *Do you think that Rosa Parks was a heroine for protesting? Why do you think that?* [Pause; click **2** on WA4 to reveal the prompt.] *Turn to your partner.*

PROMPT 2: “I [think/do not think] Rosa Parks was a heroine for protesting because . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss:

- *Myles is trying to get his dog into the car, but his dog is resisting.*

 **Q** *Why might Myles’s dog resist getting in the car?* [Pause; click **3** to reveal the next prompt.] *Turn to your partner.*

PROMPT 3: “Myles’s dog might resist getting in the car because . . .”

Tell the students that tomorrow they will learn and talk about three new words.

Introduce *Daring*, *Inform*, and *Establish*

Day 3

In this lesson, the students:

- Learn and use the words *daring*, *inform*, and *establish*
- Discuss words with multiple meanings
- Build their speaking and listening skills
- Explain their thinking

Words Taught

daring (p. 18)

Daring means “bold and willing to take risks.”

inform (p. 19)

Inform means “give or tell information.”

establish (p. 29)

Establish means “begin, create, or set up.” *Establish* also means “show or prove to be true.”

ABOUT RECOGNIZING WORDS WITH MULTIPLE MEANINGS

This week we introduce the students to recognizing words with multiple meanings, another strategy they can use to figure out the meanings of unfamiliar words independently. The students learn that many words have more than one meaning and that the meanings are often very different. They learn that if they encounter a word with multiple meanings as they listen to or read a text, they can usually figure out the correct meaning by thinking about how the word is used. In this lesson, the students explore the multiple meanings of *establish*. In subsequent lessons and the More Strategy Practice activities, they will discuss other multiple-meaning words, such as *stun*, *extend*, and *blunt*. For a complete list of the multiple-meaning words taught in grade 5 and the weeks in which they are introduced, see Appendix C. For more information about recognizing words with multiple meanings and other word-learning strategies, see “Independent Word-learning Strategies” in the Introduction.

INTRODUCE AND USE *DARING*

1 Introduce and Define *Daring*

Show pages 18–19 of *Great Women of the American Revolution* and review that this chapter, called “Spies in Petticoats,” tells about several women who were spies during the war. Read the first paragraph on page 18, emphasizing the word *daring*.

Materials

- *Great Women of the American Revolution*
- Word card 28 (WA5)
- Word card 29 (WA6)
- Word card 30 (WA7)

Teacher Note

You might explain that the words *daring* and *bold* are synonyms. If you started a synonym chart, add the words *daring* and *bold* to it.

Tell the students that the first word they will learn today is *daring*. Explain that *daring* means “bold and willing to take risks.” Point out that the women who worked as spies during the American Revolution had to be daring, or bold and willing to take risks, because spying was a very dangerous job.

Display word card 28 (🗨️ WA5) and have the students say the word *daring*.

2 Play “Daring or Not Daring?”

Tell the students that partners are going to play a game called “Daring or Not Daring?” Explain that you will read a few scenarios; then partners will decide whether the people in each scenario were daring or not daring and explain why. Begin by reading the following scenario aloud:

- *American colonists protested British taxes on tea by dumping tea into Boston Harbor.*

Ask:

Q *Were the colonists daring? Why?* [Click 1 on WA5 to reveal the first prompt.] *Turn to your partner.*

daring

PROMPT 1: The colonists [were/were not] **daring** because . . .

1 2 3

WA5

PROMPT 1: “The colonists [were/were not] daring because . . .”

Have partners use the prompt to share their thinking. When most pairs have finished talking, signal for the students’ attention and have a few volunteers use the prompt to share their thinking with the class.

Repeat the procedure to discuss the following scenarios:

- *Serena walked to the park with her children, and they had a picnic.*

Q *Was Serena daring? Why?* [Click 2 to reveal the prompt.] *Turn to your partner.*

PROMPT 2: “Serena [was/was not] daring because . . .”

- *A firefighter ran into a burning building to rescue the family trapped inside.*

Q *Was the firefighter daring? Why? [Click 3 to reveal the prompt.] Turn to your partner.*

PROMPT 3: “The firefighter [was/was not] daring because . . .”

Point to the word *daring* and ask:

Q *What’s the new word we are learning that means “bold and willing to take risks”?*

INTRODUCE AND USE *INFORM*

3 Introduce and Define *Inform*

Show pages 18–19 of the book again, and review that this part of the book tells about women who were spies during the American Revolution. Read the paragraph on page 19 aloud, stopping after the following sentence: “When the time came, Burgin informed the prisoners of the plan so they could prepare.” Emphasize the word *informed* when you come to it.

Tell the students that the next word they will learn today is *inform*. Explain that *inform* means “give or tell information.” Point out that Elizabeth Burgin informed, or told, the prisoners about the jailbreak plan.

Display word card 29 (🌐 WA6) and have the students say the word *inform*.

4 Discuss Informing People

Explain that there are many ways that you inform the students and their parents, or give them information, about classroom activities. Give the students one or two examples.

You might say:

“Every week I send home a weekly newsletter that informs you about homework assignments and special classroom events. I also send e-mails to inform your parents about important changes in our schedule.”

Use “Think, Pair, Share” to discuss:

Q *What are some ways that you inform your family and friends about what you are doing? [Pause; click 1 on WA6 to reveal the first prompt.] Turn to your partner.*

PROMPT 1: “I inform my family and friends by . . .”

ELPS 2.C.iii
Steps 3–4 and ELL Note on p. 121

ELL Note

The Spanish cognate of *inform* is *informar*.

ELPS 2.C.iii

Steps 5 and 6 and ELL Note on p. 122

 **ELL Note**

The Spanish cognate of *establish* is *establecer*.

Have partners use the prompt to share their thinking. After a few moments, signal for the students' attention and have one or two volunteers use the prompt to share their thinking with the class.

Discuss as a class:

Q *Why is it important to inform your parents about what you do before and after school?*

Click **2** to reveal the next prompt. Have one or two volunteers use the prompt to share their thinking with the class.

PROMPT 2: "It's important to inform my parents because . . ."

Point to the word *inform* and ask:

Q *What's the new word we are learning that means "give or tell information"?*

INTRODUCE AND USE ESTABLISH

5 Introduce and Define *Establish*

Show pages 28–29 of *Great Women of the American Revolution* and review that this chapter, called "A New Nation," is about how America became an independent country. Read the paragraph on page 29 aloud, emphasizing the word *establish*.

Tell the students that the last word they will learn today is *establish*, and explain that *establish* means "begin, create, or set up." Explain that the daring women described in the book helped establish, or create, the United States of America.

Display word card 30 ( WA7) and have the students say the word *establish*.

6 Discuss Clubs the Students Might Establish

Explain that establishing a country, like the creation of the United States after the American Revolution, takes a long time and many courageous and daring people. Explain that people can establish—begin, create, or set up—many other things that are smaller and easier to establish than a country. Point out that people often establish groups or clubs based on hobbies or activities that they enjoy doing. Give one or two examples of groups or clubs that you or someone you know has established.

You might say:

"When I was in high school, my English teacher established a drama club that met after school. My friends and I like to run, so we established a group that runs together every Saturday morning."

Use “Think, Pair, Share” to discuss:

Q *What is a club that you would like to establish at school? Why would you establish the club?* [Pause; click ❶ on WA7 to reveal the first prompt.]
Turn to your partner.

PROMPT 1: “I would like to establish a [cooking] club because . . .”

Have partners use the prompt to share their thinking. After most pairs have finished talking, signal for the students’ attention and have a few volunteers share their thinking with the class.

7 Discuss Another Meaning of *Establish*

Tell the students that words can have more than one meaning. Explain that sometimes the meanings are similar, but sometimes they are very different. Explain that the word *establish* has two very different meanings. Review that *establish* can mean “begin, create, or set up”; then tell the students that *establish* can also mean “show or prove to be true.”

Explain that when a crime is committed, for example, police detectives investigate the crime to establish, or prove, the facts of what happened. Before people get their driver’s licenses, they must establish that they are old enough to drive. Before people get library cards, they must establish that they live in the community.

Ask:

Q *When have you had to establish your name or birth date? Why?* [Click ❷ to reveal the prompt.] *Turn to your partner.*

PROMPT 2: “I had to establish my [name] when [I came to this class for the first time] because . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention and have one or two volunteers use the prompt to share their thinking with the class.

Point to the word *establish* and ask:

Q *What’s the new word we’re learning that means “begin, create, or set up” or “show or prove to be true”?*

Tell the students that tomorrow they will talk more about the words they learned today.

Technology Tip

To find web-based whiteboard activities that focus on recognizing words with multiple meanings, you might search online using the keywords “whiteboard multiple-meaning words activities.”

For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

MORE STRATEGY PRACTICE

Discuss the Multiple Meanings of *Establish*

Write the word *establish* where everyone can see it, and review that *establish* has two meanings. It can mean “begin, create, or set up” or “show or prove to be true.”

Explain that when the students hear or read a word like *establish* that has more than one meaning, they can usually figure out the correct meaning by thinking about how the word is used. Tell the students that you will read a scenario that includes the word *establish*; then they will decide whether *establish* means “begin, create, or set up” or “show or prove to be true.”

Read the following scenario aloud twice:

- *Ernesto wants to establish a business selling lemonade. To get started, he looks online for a lemonade recipe and then asks his mother for the ingredients and a container.*

Ask:

Q *In the story, does establish mean “begin, create, or set up” or “show or prove to be true”? Why?*

PROMPT: “*Establish* means . . .”

Have a few volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss the following scenario:

- *Marita wants to establish that she is responsible enough to have a dog. She goes online to learn about how to take care of a dog. Then she makes a daily schedule that shows when she will feed and walk the dog and shows it to her parents.*

Review *Daring, Inform,* and *Establish*

Day 4

In this lesson, the students:

- Review and practice using the words *daring*, *inform*, and *establish* from Day 3
- Build their speaking and listening skills
- Explain their thinking

Words Reviewed

daring

Daring means “bold and willing to take risks.”

inform

Inform means “give or tell information.”

establish

Establish means “begin, create, or set up.” *Establish* also means “show or prove to be true.”

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you.

Display the daily review cards (WA8). Remind the students that yesterday they learned these three words from the book *Great Women of the American Revolution*. Point to each of these words as you review the pronunciation and meaning: *daring*, *inform*, and *establish*. Tell the students that today they will think more about these words.

Discuss as a class:

Q *Would a person have to be daring to go on an international trip? Why?*

Click **1** on the daily review cards (WA8) to reveal the first prompt.

Materials

- Daily review cards (WA8)
- Copy of this week’s family letter (BLM1) for each student

Teacher Note

You might remind the students that they learned the word *international* earlier and that *international* means “having to do with more than one country.”

daring

inform

establish

PROMPT 1: A person [would/would not] have to be **daring** to go on an international trip because . . .

1 2 3 4

Teacher Note

You might remind the students that they learned the word *dissatisfied* earlier and that *dissatisfied* means “not satisfied or happy with the way things are.” When you are dissatisfied, you want something more or something different.

PROMPT 1: “A person [would/would not] have to be daring to go on an international trip because . . .”

Have a few volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss the following:

Q *Would you inform your mom if you were dissatisfied with your dinner? Why?*

Click **2** to reveal the next prompt.

PROMPT 2: “I [would/would not] inform my mom if I was dissatisfied with my dinner because . . .”

Q *What would you do or say if your friend wanted to establish a study group for math? Why?*

Click **3** to reveal the next prompt.

PROMPT 3: “If my friend wanted to establish a study group for math, I would [join it] because . . .”

PRACTICE USING THE WORDS

2 Review the Game “Does That Make Sense?”

Tell the students that partners will play the game “Does That Make Sense?” Review that you will read a scenario, or imaginary situation, that includes one of the vocabulary words. Partners will decide whether the word makes sense in the scenario and explain why they think so.

Point to the word *daring* on the daily review cards (WA8) and explain that the first scenario includes the word *daring*. Then read the following scenario aloud twice:

- *Bret was feeling very daring, so he went home and watched a movie with his dad.*

Use “Think, Pair, Share” to discuss:

Q *Does the word [daring] make sense in this scenario? Why do you think that? [Pause; click 4 on WA8 to reveal the prompt.] Turn to your partner.*

PROMPT 4: “The word [*daring*] [does/does not] make sense because . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention. Have one or two volunteers use the prompt to share their thinking with the class.

Use the same procedure to discuss the following stories:

[inform]

- *Portia informed her doctor that she was feeling sick to her stomach and that she had a sore throat.*

[establish]

- *The PE teacher established an after-school club where students could play various sports to blow off steam.*

Tell the students that tomorrow they will talk more about some of the words they have been learning.

Teacher Note

You might remind the students that they learned the idiom “blow off steam” earlier and that “blow off steam” means “do or say something that helps you get rid of energy or strong feelings.”

Teacher Note

Send home with each student a copy of this week’s family letter (BLM1). Encourage the students to talk about this week’s words with their families.

Materials

- Ongoing review cards (WA9)

In this lesson, the students:

- Review words learned earlier
- Build their speaking and listening skills
- Explain their thinking

Words Reviewed

blow off steam

"Blow off steam" means "do or say something that helps you get rid of energy or strong feelings."

discontinue

Discontinue means "not continue something, or stop doing, using, or making something."

establish

Establish means "begin, create, or set up." *Establish* also means "show or prove to be true."

pollute

Pollute means "poison the air, water, or soil."

protest

Protest means "complain about something or object to something you feel is wrong or unfair."

REVIEW THE WORDS

1 Briefly Review the Words

Gather the class with partners sitting together, facing you. Display the ongoing review cards (WA9) and remind the students that they learned these words earlier. Explain that today they will talk more about the words.

Point to the idiom "blow off steam," pronounce it, and ask:

Q *What do you know about the idiom "blow off steam"?*

Have one or two volunteers share their thinking with the class. Remind them to use the idiom "blow off steam" as they share their ideas.

Use the same procedure to review the remaining words.

PRACTICE USING THE WORDS

2 Discuss “Would You?” Questions

Tell the students that you will ask them questions about the vocabulary words. First, partners will talk about each question. Then you will ask a few volunteers to share their thinking with the class.

Point to the word *protest* and the idiom “blow off steam” and ask:

-  **Q** *Would you protest if I gave you extra recess to blow off steam? Why?*
[Click 1 on WA9 to reveal the first prompt.] Turn to your partner.

WA9

blow off steam discontinue establish
pollute protest

PROMPT 1: I [would/would not] **protest** if you gave us extra recess to **blow off steam** because . . .

1 2 3 4

PROMPT 1: “I [would/would not] protest if you gave us extra recess to blow off steam because . . .”

Have partners use the prompt to share their thinking. After a few moments, signal for the students’ attention. Have one or two volunteers use the prompt to share their thinking with the class.

Repeat the procedure to discuss the following questions:

[protest, pollute]

-  **Q** *Would you protest if our town allowed people to pollute the [lake]? Why?*
[Click 2 to reveal the prompt.] Turn to your partner.

PROMPT 2: “I [would/would not] protest if our town allowed people to pollute the [lake] because . . .”

[protest, establish]

-  **Q** *Would you protest if our school established a music club? Why?* [Click 3 to reveal the prompt.] Turn to your partner.

PROMPT 3: “I [would/would not] protest if our school established a music club because . . .”

[protest, discontinue]

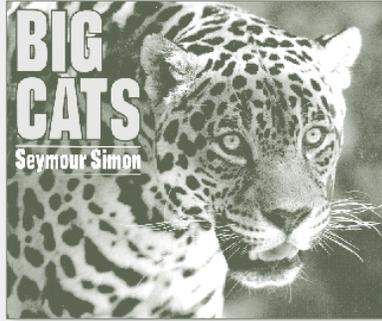

Q *Would you protest if I discontinued [free reading time]? Why? [Click 4 to reveal the prompt.] Turn to your partner.*

PROMPT 4: “I [would/would not] protest if you discontinued [free reading time] because . . .”

Tell the students that next week they will learn more new words.

Week 6

RESOURCES

Read-aloud

- *Big Cats* by Seymour Simon

More Strategy Practice

- “Play ‘Synonym Match’”
- “Discuss the Multiple Meanings of *Extend*”
- “Further Discuss the Prefix *dis-*”

Extension

- “Explore Domain-specific Words: *Carnivore*”

More ELL Support

- “Discuss *Pride* and Other Collective Nouns”

Assessment Resource Book

- Week 6 vocabulary assessment

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA12

Assessment Form

- “Class Vocabulary Assessment Record” sheet (CA1)

Reproducibles

- Week 6 family letter (BLM1)
- (Optional) “Week 6 Word Cards” (BLM2)
- (Optional) “Week 6 Crossword Puzzle” (BLM3)

Professional Development Media

- “Using Web-based Whiteboard Activities” tutorial (AV42)

OVERVIEW

Words Taught

stun
solitary
sociable
extend
advantage
disadvantage

Words Reviewed

advantage
daring
heroine
nourish
solitary

Word-learning Strategies

- Recognizing words with multiple meanings (review)
- Recognizing synonyms (review)
- Using context to determine word meanings (review)
- Using the prefix *dis-* to determine word meanings (review)
- Recognizing antonyms (review)

Vocabulary Focus

- Students learn and use six words from or about the book.
- Students review words with multiple meanings.
- Students review synonyms and antonyms.
- Students review using context and the prefix *dis-* to determine word meanings.
- Students review words learned earlier.
- Students build their speaking and listening skills.

Social Development Focus

- Students analyze why it is important to be responsible.
- Students build on one another's thinking during class discussions.

① DO AHEAD

- ✓ (Optional) Prior to Day 2, review the more strategy practice activity “Play ‘Synonym Match’” on page 144.
- ✓ (Optional) Prior to Day 3, review the more strategy practice activity “Discuss the Multiple Meanings of *Extend*” on page 150.
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this week’s family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ (Optional) Prior to Day 4, review the more strategy practice activity “Further Discuss the Prefix *dis-*” on page 153.
- ✓ Prior to Day 5, make a copy of the “Class Vocabulary Assessment Record” sheet (CA1); see page 172 of the *Assessment Resource Book*.
- ✓ (Optional) Visit the CCC Learning Hub (ccclearninghub.org) to access and print “Week 6 Word Cards” (BLM2) and “Week 6 Crossword Puzzle” (BLM3). These materials can be used to provide your students with more opportunities to review the words.

Introduce *Stun*, *Solitary*, and *Sociable*

Day 1

In this lesson, the students:

- Learn and use the words *stun*, *solitary*, and *sociable*
- Review words with multiple meanings
- Review synonyms
- Review using context to determine word meanings
- Build their speaking and listening skills
- Work in a responsible way

Words Taught

stun (p. 4)

Stun means “make unconscious or unable to think clearly.” *Stun* also means “shock or greatly surprise.”

solitary (p. 21)

Solitary means “living or being alone.”

sociable (p. 21)

Sociable means “friendly or liking to be with others.”

ABOUT ABBREVIATED LESSONS

Beginning this week, parts of the lesson that are essentially the same from week to week are abbreviated. Teacher Notes refer you to a fully written-out example of each abbreviated part, if you wish to review it. For more information about abbreviated lessons, see “Full and Abbreviated Lessons” on in the Introduction.

INTRODUCE AND USE *STUN*

1 Introduce and Define *Stun*

Briefly review *Big Cats*.

Show pages 4–5 of *Big Cats* and review that big cats like tigers and lions may look harmless while at rest, but when they hunt, they are fierce creatures with incredible strength. Read the following sentence from page 4 aloud, emphasizing the word *stunning*: “A tiger hits with stunning force and can knock down animals two or three times heavier than itself.”

Tell the students that the first word they will learn today is *stun*, and explain that *stun* means “make unconscious or unable to think clearly.” Explain that a tiger hits its prey with such tremendous force that it stuns the animal, or makes it unconscious or unable to think clearly.

Display word card 31 (🎧 WA1) and have the students say the word *stun*.

Materials

- *Big Cats*
- Word card 31 (WA1)
- “Context Sentence 1 from *Big Cats*” chart (WA2)
- Word card 32 (WA3)
- “Context Sentence 2 from *Big Cats*” chart (WA4)
- Word card 33 (WA5)

Teacher Note

For an example of how to introduce the week’s vocabulary words and review the read-aloud text, see Week 2, Day 1, Step 1.

2 Discuss Being Stunned

Explain that a person might be stunned if he hits his head or is struck on the head. Give the students some examples of times when you were stunned or saw another person who was stunned.

You might say:

"I was riding my bike once and fell and hit my head. Even though I was wearing a helmet, I was stunned for a moment. I was dizzy and couldn't think clearly. In movies you sometimes see characters who are stunned, or knocked unconscious, when they fall and hit their heads or are hit on the head."

Discuss as a class:

Q *When have you been stunned or seen someone who was stunned?*

Click **1** on word card 31 (WA1) to reveal the first prompt. Have one or two volunteers use the prompt to share their thinking with the class.

WA1

stun

PROMPT 1:

I was **stunned** when . . .

and

I saw _____ who was **stunned** when . . .

1 2

PROMPT 1: "I was stunned when . . ." and "I saw [a man on TV] who was stunned when . . ."

3 Discuss Another Meaning of *Stun* and Review Synonyms

Review that many words have more than one meaning and that the meanings can be very different. Point to the word *stun* on word card 31 (WA1). Remind the students that in the book, *stun* means "make unconscious or unable to think clearly." Explain that *stun* can also mean "shock or greatly surprise"; point out that the words *stun*, *shock*, and *surprise* are synonyms.

Teacher Note

If the students struggle to answer the question, ask questions such as "When have you bumped your head and felt stunned, dizzy, or dazed afterward?" and "When have you seen a person on TV or in a movie who was stunned by a blow to the head?"

Teacher Note

For an example of how to prompt the students to use a word, see Week 1, Day 1, Step 4.

Teacher Note

If you started a synonym chart, add the words *stun*, *shock*, and *surprise* to it. Remind the students that they can use synonyms—like *stun*—in their writing to replace overused words—like *surprise*—to make their writing more interesting.

Explain that people are sometimes stunned, or shocked or greatly surprised, when unexpected things happen. Give the students some examples of times when you or someone you know was stunned.

You might say:

“A few years ago my husband threw a surprise birthday party for me. I was stunned when I walked into the room and all my friends shouted ‘Happy birthday!’ It was a complete surprise, and for a moment I was speechless. A friend of mine was stunned on a camping trip when she opened her backpack and found that a snake had crawled into it. That was a real shock!”

Use “Think, Pair, Share” to discuss:

Q *When have you been stunned, or shocked or greatly surprised?* [Pause; click 2 on WA1 to reveal the prompt.] *Turn to your partner.*

PROMPT 2: “I was stunned when . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

Point to the word *stun* and review the pronunciation and meanings of the word.

INTRODUCE AND USE SOLITARY

4 Introduce and Define *Solitary* and Review Using Context to Determine Word Meanings

Show pages 20–21 of *Big Cats* and review that this part of the book describes how big cats live, hunt, and raise their young. Read the first sentence on page 21, emphasizing the word *solitary*.

Tell the students that the next word they will learn today is *solitary*. Display the “Context Sentence 1 from *Big Cats*” chart (WA2) and explain that this is the sentence you just read. Point to the word *solitary* and underline it. Remind the students that they can sometimes figure out the meaning of an unfamiliar word, like *solitary*, by rereading the sentence that includes the word to look for clues.

Explain that as you reread the sentence that includes the word *solitary*, you want the students to think about what *solitary* might mean and which words in the sentence are clues to its meaning.

TEKS 3.B.i
Student/Teacher Activity
Step 4

Technology Tip

To find web-based whiteboard activities that focus on recognizing words with multiple meanings, you might search online using the keywords “whiteboard multiple-meaning words activities.”

To find web-based whiteboard activities that focus on recognizing synonyms, you might search online using the keywords “whiteboard synonyms activities.”

For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

Teacher Note

Alternatively, you might write the sentences from *Big Cats* where everyone can see them, underlining the word *solitary*.

Teacher Note

The students were introduced to using context to determine word meanings through the word *towering* in Week 1.

Teacher Note

If the students do not immediately determine the meaning of *solitary* from the context, give them the definition, rather than have them guess.

ELL Note

The Spanish cognate of *solitary* is *solitario/a*.

Technology Tip

To find web-based whiteboard activities that focus on using context to determine word meanings, you might search online using the keywords “whiteboard context clues activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

Read the sentence aloud twice, slowly and clearly. Then point to the word *solitary* and discuss as a class:

Q *Based on what you just heard, what do you think the word solitary might mean?*

Point to prompt 1 and have a few volunteers use the prompt to share their thinking with the class.

WA2

Context Sentence 1 from *Big Cats*

Most kinds of big cats are solitary—they live and hunt alone most of the time.

PROMPT 1: I think *solitary* might mean . . .

PROMPT 2: The word _____ is a clue to the meaning because . . .

PROMPT 1: “I think *solitary* might mean . . .”

If necessary, explain that *solitary* means “living or being alone.” Then ask:

Q *What clues in the sentence help us figure out that solitary means “living or being alone”?*

Point to prompt 2 and have a few volunteers use the prompt to share their thinking with the class. Circle the context clues on the chart as the students identify them.

PROMPT 2: “The word [*alone*] is a clue to the meaning because . . .”

Point out that the words “live and hunt alone” are clues that tell us what *solitary* means.

Display word card 32 (WA3) and have the students say the word *solitary*.

5 Discuss Solitary Activities

Explain that sometimes people enjoy solitary activities—activities they can do alone—and give a few examples of solitary activities that you enjoy.

You might say:

“Some solitary activities I enjoy are reading, taking walks, and painting.”

Ask:

Q *What is a solitary activity you enjoy?* [Click **1** on WA3 to reveal the prompt.] *Turn to your partner.*

PROMPT 1: “A solitary activity I enjoy is . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking.

Then briefly discuss as a class:

Q *Why do you think people enjoy having solitary time, or time by themselves?*

Click **2** to reveal the next prompt. Have a few volunteers use the prompt to share their thinking with the class.

PROMPT 2: “People enjoy solitary time because . . .”

Point to the word *solitary* and review the pronunciation and meaning of the word.

INTRODUCE AND USE SOCIABLE

6 Introduce and Define *Sociable*, Practice Using Context to Determine Word Meanings, and Review Antonyms

Show pages 20–21 of *Big Cats* again and review that most big cats are solitary animals. Then read the second sentence on page 21 aloud, emphasizing the word *sociable*.

Tell the students that the last word they will learn today is *sociable*. Display the “Context Sentence 2 from *Big Cats*” chart ( WA4) and explain that this is the sentence you just read. Point to the word *sociable* and underline it. Explain that as you reread the sentence that includes the word *sociable*, you want them to think about what *sociable* might mean and which words in the sentence are clues to its meaning.

Read the sentence aloud twice. Discuss as a class:

Q *What do you think the word sociable might mean?*

Point to prompt 1 and have a few volunteers use the prompt to share their thinking with the class.

Context Sentence 2 from *Big Cats*

But lions are different because they are sociable—they live in groups called “prides.”

PROMPT 1: I think **sociable** might mean . . .

PROMPT 2: The words _____ are a clue to the meaning because . . .

Teacher Note

If you started an antonym chart, add the words *solitary* and *sociable* to it.

ELL Note

The Spanish cognate of *sociable* is *sociable*.

Teacher Note

You might explain that the words *sociable* and *friendly* are synonyms. If you started a synonym chart, add the words *sociable* and *friendly* to it.

Technology Tip

To find web-based whiteboard activities that focus on recognizing antonyms, you might search online using the keywords “whiteboard antonyms activities.”

For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

PROMPT 1: “I think *sociable* might mean . . .”

If necessary, explain that *sociable* means “friendly or liking to be with others.” Point out that *sociable* and *solitary* are antonyms.

Then ask:

Q Which words in the sentence are clues to the meaning of *sociable*?

Point to prompt 2 on the chart (WA4) and have a few volunteers share their thinking with the class. Circle the context clues on the chart as the students identify them.

PROMPT 2: “The words [‘but lions are different’] are a clue to the meaning because . . .”

If necessary, tell the students that the words *but lions are different* and *they live in groups* are clues to the meaning of *sociable*. Explain that the words *but lions are different* tell us that lions are different from other big cats because they are not solitary and that the words *live in groups* tell us that lions like to be around other lions. They are sociable.

Display word card 33 (WA5) and have the students say the word *sociable*.

7 Discuss Being Sociable

Explain that sociable people are friendly and enjoy being with other people. Give the students some examples of people you know who are sociable.

You might say:

“My friend Emily is sociable. She enjoys meeting people and will start a conversation with anyone, even a stranger. Our school secretary, Mrs. Usiak, is sociable. She is friendly to everyone who comes into the office, and she loves to talk with all of the students and teachers.”

Ask:

Q *Who is a sociable person you know? What does the person do that shows that he or she is sociable?* [Click 1 on WA5 to reveal the prompt.] Turn to your partner.

PROMPT 1: "I think [Brent] is sociable because . . ."

After partners have talked, have one or two volunteers use the prompt to share their thinking.

Point to the word *sociable* and review the pronunciation and meaning of the word.

Review *Stun, Solitary,* and *Sociable*

Day 2

In this lesson, the students:

- Review and practice using the words *stun*, *solitary*, and *sociable* from Day 1
- Build their speaking and listening skills
- Work in a responsible way

Words Reviewed

stun

Stun means "make unconscious or unable to think clearly." *Stun* also means "shock or greatly surprise."

solitary

Solitary means "living or being alone."

sociable

Sociable means "friendly or liking to be with others."

REVIEW THE WORDS

1 Briefly Review the Words

Display the daily review cards (WA6). Review the pronunciation and meaning of each word.

Discuss as a class:

Q *What might happen in school today that would stun you? Why?*

Click 1 on the daily review cards (WA6) to reveal the first prompt.

Have one or two volunteers use the prompt to share their thinking with the class.

Materials

- Daily review cards (WA6)
- "Tell Me a Story" chart (WA7)

Teacher Note

For an example of how to introduce the review activities, see Week 2, Day 2, Step 1.

PROMPT 1: It would **stun** me if _____
because . . .

1 2 3

PROMPT 1: “It would stun me if [I saw an elephant on the playground] because . . .”

Use the same procedure to discuss the following questions:

Q *Where do you go when you want to be solitary? Why?*

Click **2** to reveal the next prompt.

PROMPT 2: “I go to [my room] when I want to be solitary because . . .”

Q *Are you sociable first thing in the morning? Why do you say that?*

Click **3** to reveal the next prompt.

PROMPT 3: “I [am/am not] sociable first thing in the morning because . . .”

PRACTICE USING THE WORDS

2 Do the Activity “Tell Me a Story”

Explain that partners will do the activity “Tell Me a Story.” Remind the students that you will tell the beginning of a story that includes one of the vocabulary words. Then the students will use their imaginations and what they know about the word to make up an ending for the story.

Display the “Tell Me a Story” chart (🗨️ WA7) and show story 1 and its accompanying prompt. Tell the students that story 1 uses the word *stun*. Then read the story 1 aloud, slowly and clearly.

- Story 1: *Song was playing soccer with her friends. She was stunned when . . .*

Use “Think, Pair, Share” to discuss:

 **Q** *How might you finish the story? What might have happened to Song during the soccer game that would stun her? [Pause; point to prompt 4.] Turn to your partner.*

Teacher Note

For a fully written-out example of the activity, see Week 1, Day 2, Step 2.

Teacher Note

If the students have difficulty thinking of an ending, review the definition of *stun* and think aloud about a possible ending. For example, say “During the soccer game, Song was stunned when she was hit by the soccer ball” or “During the soccer game, Song was stunned when she bumped into another player.” Then reread the beginning of the story and repeat the questions.

Tell Me a Story

Song was playing soccer with her friends. She was stunned when . . .

PROMPT 1: Song was **stunned** when . . .

PROMPT 2: _____ might **stun** Song because . . .

PROMPT 1: “Song was stunned when . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Follow up by asking:

Q *Why might [bumping into another player] stun Song?*

Point to prompt 2 and have one or two volunteers use the prompt to share their thinking with the class.

PROMPT 2: “[Bumping into another player] might stun Song because . . .”

Use the same procedure to discuss the following stories on the chart (WA7):

- **Story 2:** *Jamal was walking on the beach. Suddenly, he stopped. Ahead of him, he was stunned to see a solitary . . .*

Q *How might you finish the story? What solitary thing did Jamal see that stunned him? [Pause; point to prompt 3.] Turn to your partner.*

PROMPT 3: “Jamal was stunned to see a solitary . . .”

Q *Why would seeing a solitary [T. rex] stun Jamal?*

Point to prompt 4.

PROMPT 4: “Seeing a solitary [T. rex] might stun Jamal because . . .”

- **Story 3:** *Helen didn’t have many friends. To be more sociable, she . . .*

Q *How might you finish the story? What did Helen do to be more sociable? [Pause; point to prompt 5.] Turn to your partner.*

PROMPT 5: “To be more sociable, Helen . . .”

Q *Why is [smiling and talking to people] sociable?*

Point to prompt 6.

PROMPT 6: “[Smiling and talking to people] is sociable because . . .”

Materials

- “Synonym Match” chart (WA8)

MORE STRATEGY PRACTICE

Play “Synonym Match”

Display the “Synonym Match” chart (WA8).

WA8

Synonym Match

1

daring

delectable

sociable

stun

2

friendly

shock

delicious

bold

PROMPT: _____ is the synonym of _____.

Tell the students that partners will play a game called “Synonym Match.” Point to the words in column 1, and explain that these are vocabulary words the students have learned. Point to the words in column 2, and explain that these are *synonyms*, or “words that mean the same thing or almost the same thing,” of the vocabulary words in column 1. Explain that partners will match each vocabulary word to its synonym.

Point to the word *daring*, pronounce it, and have the students pronounce it.

Then point to the words in column 2 and ask:

Q Which word in column 2 is the synonym of *daring*?

PROMPT: “[*Bold*] is the synonym of [*daring*].”

Have a few volunteers use the prompt to share their thinking. Then have a volunteer draw a line from the word *daring* to the word *bold*.

Repeat the procedure to have the students match the remaining words. When you get to the final two words, have the students discuss them together by asking:

Q Which word in column 2 is the synonym of *sociable* and which word is the synonym of *stun*?

EXTENSION

Explore Domain-specific Words: *Carnivore*

Tell the students that writers who write about nonfiction science topics such as animals often use scientific words to discuss their subjects. Explain that in *Big Cats*, Seymour Simon uses the scientific word *carnivore* when he tells what big cats eat. Write the word *carnivore* where everyone can see it. Tell the students that as you read the sentence from *Big Cats* that includes the word *carnivore*, you want them to listen for clues to what the word *carnivore* means. Then read the first sentence on page 8 aloud. Ask:

Q *What does the word carnivore mean? What kind of food does a carnivore eat?*

If necessary, explain that a *carnivore* is an “animal that eats meat, or the flesh of other animals.” Then discuss:

Q *In addition to big cats, what other animals are carnivores, or meat eaters?*

Write the words *herbivore* and *omnivore* where everyone can see them. Explain that *herbivore* is the scientific term for an “animal that eats plants” and an *omnivore* is an “animal that eats both plants and meat.” Discuss:

Q *What animals are herbivores? What animals are omnivores?*

Day 3

Introduce *Extend*, *Advantage*, and *Disadvantage*

Materials

- *Big Cats*
- Word card 34 (WA9)
- Word cards 35–36 (WA10)

In this lesson, the students:

- Learn and use the words *extend*, *advantage*, and *disadvantage*
- Review words with multiple meanings
- Review the prefix *dis-*
- Review antonyms
- Build their speaking and listening skills
- Listen to one another

Words Taught

extend (p. 8)

Extend means “lengthen or stretch out.” *Extend* also means “offer or give.”

advantage (p. 21)

An *advantage* is “something that is helpful or useful.” An advantage can help you do something better or succeed at something.

disadvantage

A *disadvantage* is “something that causes a problem or makes it harder to succeed.”

INTRODUCE AND USE *EXTEND*

1 Introduce and Define *Extend*

Show pages 8–9 of *Big Cats*, and review that big cats use their teeth and tongues to help them catch and eat prey. Then read the following sentences from page 8 aloud, emphasizing the word *extended*: “Cats also have razor-sharp claws that are perfect for cutting and holding. The claws are thick and hooked. They can be extended for action, or retracted at will into sheaths in the paws.”

Tell the students that *extend* is the first word they will learn today, and explain that *extend* means “lengthen (make longer) or stretch out.” Point out that big cats can extend, or stretch out, their claws when they are needed for cutting or holding prey.

Display word card 34 (WA9) and have the students say the word *extend*.

2 Discuss Extending Things

Explain that people sometimes extend, or stretch out, their arms; then model extending your arms to the sides, to the front, and over your head.

ELL Note

The Spanish cognate of *extend* is *extender*.

ELL Note

As you model extending your arms, you might have the students extend their arms with you.

Ask:

Q *Why might people extend their arms?* [Click **1** on WA9 to reveal the first prompt.] *Turn to your partner.*

extend

PROMPT 1: People might **extend** their arms to . . .

1 **2** **3**

WA9

PROMPT 1: “People might extend their arms to . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Explain that sometimes we use the word *extend* to talk about lengthening or stretching out the time it takes to do something.

Discuss as a class:

Q *Would you be pleased if our school day were extended, or lengthened, by an hour? Why?*

Click **2** on word card 34 (WA9) to reveal the next prompt. Have a few volunteers use the prompt to share their thinking with the class.

PROMPT 2: “I [would/would not] be pleased if the school day were extended because . . .”

3 Discuss Another Meaning of *Extend*

Review that words can have more than one meaning and that the meanings are often very different. Review that *extend* can mean “lengthen or stretch out,” and tell the students that the word *extend* has another meaning. Explain that *extend* can also mean “offer or give.”

Explain that we typically use the word *extend*, meaning “offer or give,” to talk about giving advice to someone, offering someone an apology, or giving someone an invitation. Provide a few examples of times when you have extended advice, an apology, or an invitation.

You might say:

"I extended, or offered, advice to my sister when she was looking for a summer job. I extended, or offered, an apology to my mom when I spilled juice on her carpet. Last weekend, I extended an invitation to my parents to come to dinner."

Use "Think, Pair, Share" to discuss:

Q *When have you extended advice, an invitation, or an apology to someone?*
[Pause; click 3 to reveal the prompt.] *Turn to your partner.*

PROMPT 3: "I extended . . ."

Point to the word *extend* and review the pronunciation and meanings of the word.

INTRODUCE AND USE *ADVANTAGE* AND *DISADVANTAGE*

4 Introduce and Define *Advantage*

Show pages 20–21 of *Big Cats* and review that lions live in groups called *prides*. Read the last sentence on page 21 aloud, emphasizing the word *advantage*.

Tell the students that *advantage* is the next word they will learn today. Explain that an *advantage* is "something that is helpful or useful."

Display word cards 35–36 (WA10) and click to reveal word card 35. Have the students say the word *advantage*.

Tell the students that living in a pride is a great advantage for lions. Explain that as you read about life in a pride, you want them to listen for the advantages of living in a pride—or how living in a pride is helpful or useful to lions.

Read the last paragraph on page 21 aloud, emphasizing the word *advantage*.

Then discuss as a class:

Q *What are the advantages for lions of living in a pride?*

Click 1 on word cards 35–36 (WA10) to reveal the first prompt. Have one or two volunteers use the prompt to share their thinking with the class.

PROMPT 1: "One advantage of living in a pride is . . ."

If necessary, explain that one advantage is that lionesses in a pride share all the chores. Other advantages are that the lionesses defend the pride, guard the cubs, feed each other's cubs, and care for a cub if its mother dies. All of these advantages improve a lion's chance of survival.

ELL Note

The Spanish cognate of *advantage* is *ventaja*.

5 Discuss Having an Advantage

Remind the students that an *advantage* is “something that is helpful or useful.” Explain that having an advantage can help a person do something better or succeed at something. For example, being tall can be an advantage to a basketball player, because a taller player can shoot over a shorter player and score points. Studying for a test gives students an advantage when they take the test, because they are better prepared and are more likely to do well.

Ask:

Q *How might using a calculator during a math test be an advantage?*
[Click 2 on WA10 to reveal the prompt.] Turn to your partner.

PROMPT 2: “Using a calculator during a math test might be an advantage because . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Discuss as a class:

Q *How might increasing your vocabulary by learning new words be an advantage, or help you do something better or succeed at something?*

Click 3 to reveal the prompt and have one or two volunteers use it to share their thinking with the class.

PROMPT 3: “Increasing your vocabulary might be an advantage because . . .”

INTRODUCE AND USE DISADVANTAGE

6 Introduce and Define *Disadvantage* and Review the Prefix *dis-* and Antonyms

Tell the students that the last word they will learn today is *disadvantage*. Click to reveal word card 36 on word cards 35–36 (WA10) and have the students say the word *disadvantage*.

Point to the prefix *dis-* in the word *disadvantage* and review that *dis-* is a prefix that means “not” or “the opposite of.” Explain that when the prefix *dis-* is added to the word *advantage*, it makes a new word—*disadvantage*. Point out that the words *advantage* and *disadvantage* are *antonyms*, or “words with opposite meanings.”

Discuss as a class:

Q *An advantage is “something that is useful or helpful and helps you succeed.” What do you think a disadvantage is?*

Click 4 to reveal the prompt. Have a few volunteers use the prompt to share their thinking with the class.

Teacher Note

If the students struggle to answer the question, ask questions such as “How might learning new words be an advantage when you are reading, writing, or speaking?” or “How might learning new words give you an advantage in school?”

ELL Note

The Spanish cognate of *disadvantage* is *desventaja*.

Teacher Note

If you started an antonym chart, add the words *advantage* and *disadvantage* to it.

If you started a chart of words with the prefix *dis-*, add the word *disadvantage* to it.

Technology Tip

To find web-based activities that focus on using prefixes to determine word meanings, you might search online using the keywords “whiteboard prefixes activities.” For more information, view the “Using Web-based Whiteboard Activities” tutorial (AV42).

PROMPT 4: “A *disadvantage* is . . .”

If necessary, explain that a *disadvantage* is “something that causes a problem or makes it harder to succeed.”

7 Play “Advantage or Disadvantage?”

Tell the students that partners will play a game called “Advantage or Disadvantage?” Explain that you will describe a situation; then partners will decide whether what you described is an advantage or a disadvantage and explain why they think so. Ask:

 **Q** *If you are playing tag, is being a fast runner an advantage or a disadvantage? Why?* [Click 5 to reveal the prompt.] Turn to your partner.

PROMPT 5: “If I’m playing tag, being a fast runner is [an advantage/a disadvantage] because . . .”

After partners have talked, have a few volunteers use the prompt to share their thinking with the class.

Using the same procedure, discuss the following questions:

 **Q** *If you want to sing in a chorus, is knowing the leader an advantage or a disadvantage? Why?* [Click 6 to reveal the prompt.] Turn to your partner.

PROMPT 6: “If I want to sing in a chorus, knowing the leader is [an advantage/a disadvantage] because . . .”

 **Q** *If you are running a race, is wearing new running shoes an advantage or a disadvantage? Why?* [Click 7 to reveal the prompt.] Turn to your partner.

PROMPT 7: “If I’m running a race, wearing new running shoes is [an advantage/a disadvantage] because . . .”

Point to the words *advantage* and *disadvantage* and review the pronunciations and meanings of the words.

MORE STRATEGY PRACTICE

Discuss the Multiple Meanings of *Extend*

Review that *extend* has two meanings; it can mean “lengthen or stretch out” or it can mean “offer or give.”

Tell the students that when they hear or read a word like *extend* that has more than one meaning, they can usually figure out the correct meaning by thinking about how the word is used. Explain that you will read a scenario that includes the word *extend*. Then the students will decide whether *extend* means “lengthen or stretch out” or “offer or give.”

Read the following scenario aloud twice:

- *After the terrible flood, international charities extended help to the flood victims in the form of food, tents, and medicine.*

Ask:

- Q** *In the sentence, does extend mean “lengthen or stretch out” or “offer or give”? Why?*

PROMPT: “I think *extend* means [‘offer or give’] because . . .”

Have one or two volunteers use the prompt to share their thinking.

Use the same procedure to discuss one or both of the following scenarios:

- *Conner was helping his dad build a shed in the backyard. His dad asked him to extend the tape measure 15 feet and then mark the spot with a stick.*
- *When Mischa broke her neighbor’s favorite coffee cup, she immediately extended an apology and offered to replace the cup.*

MORE ELL SUPPORT

Discuss *Pride* and Other Collective Nouns

Show pages 20–21 of *Big Cats* and review that lions live in groups called *prides*. Tell the students that the word *pride* is a collective noun. Explain that a *collective noun* is a “word used to name or identify a group of people, animals, or objects.” For example, we call a group of sheep a *flock*; we call a group of bees a *swarm*; and we call a group of cows a *herd*. Discuss as a class:

- Q** *What do we call a group of wolves or dogs? (pack)*
- Q** *What do we call a group of chickens? (flock)*
- Q** *What do we call a group of horses? (herd)*
- Q** *What do we call a group of fish? (school)*

Remind the students that collective nouns can also name groups of people and objects. Examples include a *crowd* of people, a *bunch* of bananas, a *deck* of cards, a *fleet* of ships, a *ream* of paper, a *pair* of shoes, and a *flight* of stairs. Ask:

- Q** *What other collective nouns do you know of for people, objects, or animals?*

Teacher Note

You might review that *international* means “having to do with more than one country.”

Teacher Note

You might collect some nature magazines and ask the students to find photographs of animal groups, and then discuss the collective noun that names each group.

Teacher Note

Other examples of collective nouns that name people or objects are a *bunch* of grapes, *bundle* of sticks, *clump* of grass, *range* of mountains, and *troop* or *squad* of soldiers. Other examples of collective nouns that name groups of animals are a *gaggle* of geese, *flight* of doves, *colony* of ants, *bed* of clams, *cluster* of spiders, and *pack* of hyenas.

Day 4

Review *Extend*, *Advantage*, and *Disadvantage*

Materials

- Daily review cards (WA11)
- Copy of this week's family letter (BLM1) for each student
- (Optional) Copy of the "Week 6 Crossword Puzzle" (BLM3) for each student

Teacher Note

For an example of how to introduce the review activities, see Week 2, Day 2, Step 1.

In this lesson, the students:

- Review and practice using the words *extend*, *advantage*, and *disadvantage* from Day 3
- Build their speaking and listening skills
- Listen to one another
- Work in a responsible way

Words Reviewed

extend

Extend means "lengthen or stretch out." *Extend* also means "offer or give."

advantage

An *advantage* is "something that is helpful or useful." An advantage can help you do something better or succeed at something.

disadvantage

A *disadvantage* is "something that causes a problem or makes it harder to succeed."

REVIEW THE WORDS

1 Briefly Review the Words

Display the daily review cards (WA11) and review the pronunciation and meaning of each word.

Discuss as a class:

Q *Which of yesterday's words might you use when you are talking with your friends or family? How might you use the word or words?*

Click **1** on the daily review cards (WA11) to reveal the first prompt.

extendadvantagedisadvantage

PROMPT 1: I might use the word _____ when I talk with _____. I might say . . .

1234

WA11

PROMPT 1: “I might use the word [*disadvantage*] when I talk with [my big sister]. I might say . . .”

PRACTICE USING THE WORDS

2 Discuss “Would You?” Questions

Tell the students that you will ask them questions that use yesterday’s vocabulary words as well as vocabulary words that they learned earlier in the year.

Point to the word *extend* on the daily review cards (WA11) and ask:

 **Q** *If your grandparents were to extend you the chance to live with them all summer, would you take it? [Click 2 on WA11 to reveal the prompt.] Turn to your partner.*

PROMPT 2: “If my grandparents were to extend me the chance to live with them all summer, I [would/would not] take it because . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking.

Using the same procedure, discuss the following:

[**advantage**]

 **Q** *If you have stamina, will you have an advantage during a long race? Why? [Click 3 to reveal the prompt.] Turn to your partner.*

PROMPT 3: “If I have stamina, I [will/will not] have an advantage during a long race because . . .”

[**disadvantage**]

 **Q** *If your team lost a game because your best player was sick and couldn’t play, would you say that your team had a disadvantage? Why? [Click 4 to reveal the prompt.] Turn to your partner.*

PROMPT 4: “I [would/would not] say that my team had a disadvantage because . . .”

MORE STRATEGY PRACTICE

Further Discuss the Prefix *dis-*

Point to the word *dissatisfied* on the “Words with the Prefix *dis-*” chart that you began in Week 4, or write the word where everyone can see it. Review that *dis-* is a *prefix*, or a “letter or group of letters that is added to the beginning of a word to make a new word.” Remind the students that the prefix *dis-* means “not” or “the opposite of.” Review that *dissatisfied* means “not satisfied or happy with the way things are.” When you are

Teacher Note

You might review that *stamina* is the “energy and strength to keep doing something for a long time.”

Teacher Note

Send home with each student a copy of this week’s family letter (BLM1). Encourage the students to talk about this week’s words with their families.

Teacher Note

To provide students with additional review of words taught during Weeks 5 and 6, you might distribute a copy of the “Week 6 Crossword Puzzle” (BLM3) to each student.

Teacher Note

Before you do this activity, we recommend that you do the more strategy practice activity “Discuss Words with the Prefix *dis-*” on page 87.

Teacher Note

For a list of common prefixes, visit the CCC Learning Hub (ccclearninghub.org) to view the "Prefixes" list in the General Resources section.

dissatisfied, you want something more or something different. Give an example of a time when you were dissatisfied with something and explain why you were dissatisfied. For example, say "I was dissatisfied with the last pair of shoes that I bought because they hurt my feet after I walked in them for a while." Then ask:

Q *What is something that you have been dissatisfied with? Why were you dissatisfied?*

Have a few volunteers use the prompt to share their thinking with the class.

PROMPT: "I was dissatisfied with [the cereal choices at my house this morning] because [my mom forgot to buy my favorite one]."

Discuss the word *dissimilar* using the same procedure. Explain that if two people or things are dissimilar, they are not the same or not alike. Give an example of two people or things that are dissimilar and explain why they are dissimilar. For example, say "My brother and my dad are dissimilar because my brother is sociable and my dad is more solitary."

Then ask:

Q *What are two things that are dissimilar? Or who are two people you know who are dissimilar? Why are they dissimilar?*

PROMPT: "[Lemons and watermelons] are dissimilar because [lemons taste sour and watermelons taste sweet]."

Have a few volunteers use the prompt to share their thinking with the class.

In this lesson, the students:

- Review words learned earlier
- Build their speaking and listening skills
- Listen to one another
- Work in a responsible way

Words Reviewed

advantage

An *advantage* is “something that is helpful or useful.” An advantage can help you do something better or succeed at something.

daring

Daring means “bold and willing to take risks.”

heroine

A *heroine* is a “girl or woman who is admired or respected because she is brave or has done something special.”

nourish

Nourish means “provide what is needed for life and growth.”

solitary

Solitary means “living or being alone.”

ABOUT ABBREVIATED ONGOING REVIEW ACTIVITIES

Beginning this week, parts of the Ongoing Review activity have been abbreviated. A Teacher Note refers you to a fully written-out example of the activity, if you wish to review it.

REVIEW THE WORDS

1 Briefly Review the Words

Display the ongoing review cards (WA12) and review the pronunciation and meaning of each word.

PRACTICE USING THE WORDS

2 Review the Game “Make a Choice”

Tell the students that partners will play the game “Make a Choice.” Point to the word *advantage* on the ongoing review cards (WA12) and

Materials

- Ongoing review cards (WA12)
- “Class Vocabulary Assessment Record” sheet (CA1)

Teacher Note

For an example of how to review the words, see Week 1, Day 5, Step 1.

Teacher Note

For a fully written-out example of this game, see Week 4, Day 2, Step 2.

ELL Note

Rather than having the students choose between two scenarios, you might have them discuss each one individually by first asking, “Would you be able to paint well with dried-out paint? Why?” and then asking, “Would you be able to paint well with a new set of paints? Why?”

Teacher Note

You might remind the students that they learned the word *resist* earlier and that *resist* means “refuse to give in to someone or something.”

explain that partners will play the first round of the game with the word *advantage*. Then ask:

-  **Q** Which of these are an advantage during a painting class: dried-out paints or a new set of paints? Why? [Click **1** on WA12 to reveal the first prompt.] Turn to your partner.

advantage

daring

heroine

nourish

solitary

PROMPT 1: I think _____ is an **advantage** during a painting class because . . .

12345

WA12

PROMPT 1: “I think [a new set of paints] is an advantage during a painting class because . . .”

After partners have talked, have one or two volunteers use the prompt to share their thinking with the class.

Use the same procedure to continue playing the game using the following questions:

[daring]

-  **Q** Which of these people is daring: a boy who resists going on a rollercoaster or a boy who races to be first in line for a rollercoaster? Why? [Click **2** to reveal the prompt.] Turn to your partner.

PROMPT 2: “I think [a boy who races to be first in line for a rollercoaster] is daring because . . .”

[heroine]

-  **Q** Which of these people is a heroine: a woman who steals money from an animal shelter or a girl who walks through the snow to carry her hurt brother home? Why? [Click **3** to reveal the prompt.] Turn to your partner.

PROMPT 3: “I think [a girl who walks through the snow to carry her hurt brother home] is a heroine because . . .”

[nourish]

Q Which of these would nourish a puppy: a bowl of ice cream or a bowl of puppy food? Why? [Click 4 to reveal the prompt.] Turn to your partner.

PROMPT 4: “I think [a bowl of puppy food] would nourish a puppy because . . .”

[solitary]

Q Which of these people is solitary: a woman who lives in a cottage in the woods or a man who lives with his family in the city? Why? [Click 5 to reveal the prompt.] Turn to your partner.

PROMPT 5: “I think [a woman who lives in a cottage in the woods] is solitary because . . .”

CLASS VOCABULARY ASSESSMENT NOTE

Observe the students and ask yourself:

- Do the students’ choices show that they understand the words’ meanings?
- Do they use the vocabulary words to explain their thinking?
- Are they using the words spontaneously and accurately in conversations outside of the vocabulary lessons?

Record your observations on the “Class Vocabulary Assessment Record” sheet (CA1); see page 172 of the *Assessment Resource Book*.

Use the following suggestions to support struggling students:

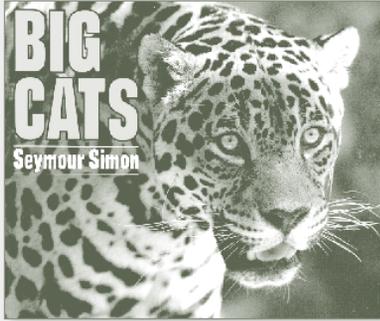

- If **only a few students** understand a word’s meaning, reteach the word using the vocabulary lesson in which it was first taught as a model.
- If **about half of the students** understand a word’s meaning, provide further practice by having the students play “Find Another Word” (see Week 2, Day 2, Step 2).

Teacher Note

For more information about whole-class assessment, see “Class Vocabulary Assessment” in the Assessment Overview of the *Assessment Resource Book*.

Week 7

RESOURCES

Read-aloud

- *Big Cats* by Seymour Simon

More Strategy Practice

- “Explore Shades of Meaning with *Devour* and *Eat*”

Extension

- “Explore the Suffix *-ous*”

More ELL Support

- “Learn About Big Cats”

Online Resources

Visit the CCC Learning Hub (ccclearninghub.org) to find your online resources for this week.

Whiteboard Activities

- WA1–WA11

Reproducibles

- Week 7 family letter (BLM1)
- (Optional) “Week 7 Word Cards” (BLM2)

Professional Development Media

- “Using Web-based Whiteboard Activities” tutorial (AV42)

OVERVIEW

Words Taught

devour
dignified
thunderous
scarce
blunt
widespread

Words Reviewed

disadvantage
extend
sociable
stun
vary

Word-learning Strategies

- Using context to determine word meanings (review)
- Recognizing synonyms (review)
- Recognizing shades of meaning
- Recognizing words with multiple meanings (review)

Vocabulary Focus

- Students learn and use six words from the book.
- Students review using context to determine word meanings.
- Students review synonyms and words with multiple meanings.
- Students discuss shades of meaning.
- Students review words learned earlier.
- Students build their speaking and listening skills.

Social Development Focus

- Students analyze why it is important to be responsible.
- Students build on one another's thinking during class discussions.

① DO AHEAD

- ✓ (Optional) Prior to Day 1, review the more strategy practice activity “Explore Shades of Meaning with *Devour* and *Eat*” on page 166.
- ✓ Prior to Day 4, visit the CCC Learning Hub (ccclearninghub.org) to access and print this week’s family letter (BLM1). Make enough copies to send one letter home with each student.
- ✓ (Optional) Visit the CCC Learning Hub (ccclearninghub.org) to access and print the “Week 7 Word Cards” (BLM2). These cards can be used to provide your students with more opportunities to review the words.

Introduce *Devour, Dignified, and Thunderous*

Day 1

In this lesson, the students:

- Learn and use the words *devour*, *dignified*, and *thunderous*
- Review using context to determine word meanings
- Review synonyms
- Discuss shades of meaning
- Build their speaking and listening skills
- Work in a responsible way

Words Taught

devour (p. 17)

Devour means “eat something quickly and hungrily.”

dignified (p. 19)

Dignified means “confident, calm, and in control.”

thunderous (p. 19)

Thunderous means “making a loud, rumbling noise like thunder.”

ABOUT ABBREVIATED LESSONS

Beginning in Week 6, parts of the lesson that are essentially the same from week to week are abbreviated. Teacher Notes refer you to a fully written-out example of each abbreviated part, if you wish to review it. For more information about abbreviated lessons, see “Full and Abbreviated Lessons” in the Introduction.

ABOUT RECOGNIZING SHADES OF MEANING
